# Appendices

**01/31/2017**

**Appendices Table**

| Appendices | Date | Change |
|---|---|---|
| **Appendix A Sensitive Information** | 11/30/12 | **Added** new appendix. |
| **Appendix A Master List of Documents to Obtain** | 03/29/12 | **Removed** from the manual. |
| **Appendix A 1.3 Transfer Files Using Large File Transfer** | 11/21/14 | **Replaced** CheckItOut with GetIt. |
| **Appendix A 1.4 Ship Physical Sensitive Information** | 03/30/16 | **Removed** the requirement to use a specific shipping service. |
| **Appendix A 2.3 Receive/Transport Paper Documents** | 11/20/15 | **Added** guidance on transporting sensitive documents between PBGC headquarter locations. |
| **Appendix C BAPD Key Financial Spreadsheets Procedures** | 08/28/15 | **Added** new section to the manual. |
| **Appendix C Bankruptcy** | 03/29/12 | **Removed** from the manual. |
| **Appendix E References** | 09/30/16 | **Added** reference to *PLUS Web Manual*. |
| | 11/30/12 | **Revised** to reference the new *BAPD Records Management Manual*. |
| | 03/29/12 | **Renamed** from BAPD Job Aids. |
| **Appendix F Alternate Sources of Plan Information** | 03/29/12 | **Removed** as an appendix; table moved to Process 15.3 Perform Initial Analysis. |
| **Appendix G1 Acceptable Proof of Age** | 08/30/16 | **Revised** to clarify that an unsigned passport is acceptable if the document appears genuine and OBA has no reason to question the individual's age or identity. |
| **Appendix G2 Acceptable Proof of Death** | 03/29/12 | **Revised** to direct users to request an SSA Death Master Query from BPB instead of using the SSA Death Index to obtain proof of death. |
| **Appendix H Historical SPARR and SPDRR Information** | 10/28/16 | **Revised** to include the ratios for 2016. |
| | 11/20/15 | **Added** the SPARR and SPDRR for 2015. |
| | 08/28/14 | **Revised** to include the ratios for 2014. |
| | 09/26/13 | **Revised** tables with new rows for the FY 2013 SPARR and SPDRR. |
| | 08/30/12 | **Revised** with SPARR and SPDRR for CY 2012. |
| **Appendix I Maintaining Participant Data Records** | 03/29/12 | **Removed** from the manual as an appendix, but saved Valuation (ADT) Load: Data Elements/Spectrum Fields table and moved to Process 17.10 Perform Software Closeout (OASD). |
| **Appendix J Participant Form Information** | 03/30/15 | **Added** a Q&A to clarify that spousal consent may be notarized on or after the signature date, and that the same also applies to powers of attorney unless |

| | | |
|---|---|---|
| | | otherwise provided by state rules. |
| **Appendix J Participant Forms Summary** | 06/27/13 | **Revised** to add to table new Form 721T; to revise title and usage comments for Forms 713, 714, and 721; and title of Form 704. |
| | 03/28/13 | **Revised** to add to table new Form 721T; to revise title and usage comments for Forms 713, 714, and 721; and title of Form 704. |
| **Appendix K BAPD's Records Management** | 11/30/12 | **Removed** and **replaced** by links in pertinent sections of the manual to the new *BAPD Records Management Manual*. |
| **Appendix L Field Benefit Administrators (FBAs)** | 03/29/12 | **Removed** from the manual. |
| **Appendix M IRS Disclosure Offices** | 03/29/12 | **Removed** from the manual for obsolescence. |
| **Appendix N Correspondence and Phone Call Guidelines** | 12/22/16 | **Removed** the requirement to call the participant within 15 days of sending the benefit application. |
| **Appendix N1 Process CRM Telephone Call Records Guidelines** | 08/28/15 | **Removed** references to Corrected BDLs (eALG 410). |
| | 03/29/12 | **Revised** to add a cross-reference to Appendix R 1.9 Processing a Change to Federal Tax Withholding Election. |
| **Appendix O III Types of Marriage** | 09/26/13 | **Revised** to remove information about the Defense of Marriage Act (DOMA) and direct that situations involving same-sex marriages or civil unions be referred to OPSS. |
| **Appendix P eReports** | 03/29/12 | **Removed** as a separate appendix; content revised and integrated into Appendix Q BAPD Systems. |
| **Appendix Q BAPD Systems** | 03/28/13 | **Removed** obsolete LexisNexis section. |
| | 03/29/12 | **Revised** to include updated content of former Appendix P eReports. |
| **Appendix R 1.2 Annuity or Periodic Payment Tax Withholding and Reporting** | 09/26/13 | **Revised** to add instructions on how to proceed if a payee elects tax withholding based on percentage. |
| **Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting** | 11/20/15 | **Revised** to state that a payee may elect to receive the non-taxable portion directly and roll over the taxable portion. |
| | 03/28/13 | **Revised** to remove instructions for paying lump-sums of less than $200 without an application. |
| | 11/30/12 | **Revised** to change from "$1,000 or less" to "less than $200" the amount of the total payment for which an application may not be required. |
| **Appendix R 1.3.1 Lump-Sum Payment Tax Withholding Options** | 11/20/15 | **Revised** the table to indicate the rollover minimum of $500 (or 100% for payments of less than $500); that the non-taxable amount is always first attributable to direct payments; and that payments of less than |

| | | |
|---|---|---|
| | | $200 may not be split between a rollover and a direct payment. |
| | 11/30/12 | **Removed** the row "Payment $200 – $1,000 per year including interest" since those payments will be treated the same as other lump sums. |
| **Appendix R 1.6 Non-Resident Alien Tax Withholding Requirements** | 08/30/12 | **Revised** and expanded with action steps for processing tax elections or non-elections from non-resident aliens. |
| **Appendix R 1.9 Processing a Change to Federal Tax Withholding Election** | 03/29/12 | **Revised** to indicate that tax elections taken by phone must be clearly documented in CRM. |
| **Appendix R 1.11 Requests for Replacement or Revised Form 1099-R** | 08/28/15 | **Revised** to indicate how users can obtain prior years' Forms 1099-R and to remove the step to request them from the CCC; to update the link for requesting corrections to Forms 1099-R; and to clarify the deadline for requesting revised forms. |
| **Appendix R 2 IRS Levies** | 03/30/16 | **Removed** the requirement to use a specific shipping service. |
| **Appendix R 4 Third Party Payment Requests** | 03/30/15 | **Revised** to move the content to new TP 20.5L and cross-reference that section. |
| | 11/21/14 | **Revised** to require requests from guardians or DPOA agents be referred to the POA Coordinator, and to Ask OPSS if the request appears valid; to mention provide instructions for sending the letter template and sample agreement that OPSS provides; to require OPSS review of completed agreements, and instructions for processing based on OPSS's determination. |
| **Appendix R 7 Request for Assignment of a Benefit Due an Incarcerated Payee** | 03/29/12 | **Added** note to contact OPSS if a slayer exception may apply to a beneficiary. |

## Processes 8–10 (Pre-2006)

**03/30/2011**

**Processes 8–10 (Pre-2006)**

| Process | Date | Change |
|---|---|---|
| **Process 8:** Assign TPD Case Team and Initiate Processing | 08/31/01 | **Revised** overview to reflect the more routine assignment of a TPD case team while the case is with PPD. |
| | 05/25/99 | **Clarified** overview regarding payment of optional forms. |
| | 09/04/98 | **Revised** instructions regarding preparation of Executed Trusteeship Cover Letters. New WP document replaces Forms 1160 and 1159, formerly prepared through CAS. |
| **Process 8.1:** Transfer Information From DISC to TPD | 12/23/05 | **Retitled** (formerly "Transfer Information From PPD to TPD"). |
| **Process 8.1:** Transfer Information From PPD to TPD | 08/31/01 | **Modified** to add details including required input and imaging. |
| | 05/25/99 | **Clarified** details regarding the transfer of case information and documents. |
| **Process 8.2:** Establish the Case Workplan | 10/28/05 | **Replaces and retitles** current subsection; adds TPD and FBA roles in establishing case workplan using FMRS. |
| **Process 8.2:** Assign TPD Case Team | 08/31/01 | **Revised** throughout, now reflects the more routine assignment of a TPD case team while the case is with PPD, and clarifies instructions for non-FBA plan workplans. |
| | 10/20/00 | **Revised** to describe the initial preparation of an FBA Workplan. |
| | 11/16/99 | **Clarified** Large Case Coordinator involvement.<br>**Deleted** references to FBA procurement. |
| **Process 8.3:** Effect Trusteeship | 02/18/05 | **Revised** to remove **step to send an Accounts Adds & Changes form to SSC to update DOTR.** |
| | 05/18/01 | **Modified** to clarify provision of 4042(d) notice to interested parties. |
| | 11/16/99 | **Clarified** distribution list of final TAs. |
| | 10/10/97 | **Revised** instructions for preparation of Premium Information Request Memo<br>**Revised** Premium Information Request Memo (i:\wp\standard\preminfo.wpd) |
| | 07/11/97 | **Revised** TA prepared by PPD (not TPD) |
| | 06/06/97 | **Added** detail about premium information requested from FOD |
| | 03/07/97 | **Inserted** new action step 11 requesting premium information from FOD. (streamlining project) |

| | | |
|---|---|---|
| | 02/07/97 | **Added** text that DOPT may differ from date in original recommendation. |
| | 09/13/96 | **Revised** instructions with new cover ltr (cotruscl.wpd) for Court Ordered Trusteeship. Clarified use of Form 1159 and Form 1160 Trusteeship Agreement Cover Letters<br>FBA no longer in list of recipients<br>Reorganized numbering of steps |
| | 05/31/96 | **Added** controlled group members to list of interested parties for 4042(d) notification #10 |
| **Process 8.4:** Forms, Letters, Memos | 11/30/05 | **Deleted** FBA Workplan from list. |
| | 06/28/05 | **Revised:**<br>IRS Request Letter (Irsreq.doc)<br>IRS Returns Request – Tax Exempt Entities<br>(Irsexmpt.doc)<br>IRS Document Request - > 26 participants (IRSDOCRQ.DOC)<br>IRS Document Request -<26 participants (IRS25RQ.docIRS25RQ.DOC) |
| | 02/18/05 | **Revised** list. |
| | 05/07/02 | **Modified** the Case Contact Sheet (i:\wp\standard\contacts.wpd) |
| | 10/20/00 | **Replaced** FBA Workplan (I:\MSWord\xls\FBAWorkplan.xls). |
| | 10/13/00 | **Revised** Document Transfer List Memo (i:\wp\standard\ppd\tpdtrf.wpd). |
| | 05/25/99 | **Added** Case Contact Sheet (i:\wp\standard\contacts.wpd) |
| | 05/25/99 | **Revised** Document Transfer List Memo (i:\wp\standard\ppd\tpdtrf.wpd) |
| | 05/28/98 | **Revised** Court Ordered Trusteeship Agreement Cover Letter (i:\wp\standard\cotruscl.wpd) |
| | 05/28/98 | **Added** new document (replaces CAS 1159, and CAS 1160) - Executed Trusteeship Agreement Cover Letter (i:\wp\standard\extacvlt.wpd) |
| | 04/22/98 | **Revised** Document Transfer List Memo (i:\wp\standard\ppd\tpdtrf.wpd) |
| | 01/16/98 | **Revised** Document Transfer List Memo, **Added** case contact list (i:\wp\standard\ppd\tpdtrf.wpd) |
| | 10/10/97 | **Revised** Premium Information Request Memo (i:\wp\standard\preminfo.wpd) |
| | 03/07/97 | **Added** a jump to the Premium Information Request Memo (i:\wp\standard\preminfo.wpd). |

| | | |
|---|---|---|
| | | (streamlining project) |
| | 10/24/96 | **Revised** (i:\wp\standard\cotruscl\wpd), including replacement of "plan asset insufficiency" with "unfunded benefit liabilities" |
| | 09/13/96 | **Added** New letter**:** Court Ordered Trusteeship Agreement Cover Letter (i:\wp\standard\cotruscl.wpd) |
| | 07/19/96 | **Added** New document**:** Workplan.wpd |
| **Process 9:** Plan Assumption | 02/18/05 | **Replaced** entirely with new content including a new workflow. Also, renamed Process from *Assume Payment/Set Up Account* to *Plan Assumption*. |
| **Process 9:** Assume Payment/ Set Up Account | 03/08/02 | **Replaced** reference to RARE with PACS in overview. |
| | 09/28/01 | **Modified** to revise Datahub loading timeframes, and added description of 9A loading process. |
| | 09/01/99 | **Revised** Overview to incorporate details about PRISM online assumptions |
| | 05/25/99 | **Modified** throughout for clarification of payment of optional forms, imaging of documents and other details. |
| | 03/05/99 | **Added** detail regarding check cycle, and cut-off date. |
| | 10/14/98 | **Revised** Overview to describe Datahub Procedures |
| | 02/13/98 | **Revised** Overview to incorporate references to Operating Policy 5.4-4, and PBGCs policy with respect to interest payments (97-7). |
| | 01/10/97 | **Inserted** the third paragraph which describes processing for woodwork persons |
| **Process 9:** Workflow | 03/10/00 | **Replaced** workflow for additions to Process 09. |
| **Process 9.1:** Request Plan Administrator to Continue Payment Processing | 05/25/99 | **Revised** outline regarding payment of optional forms, and addition of policy manual reference. |
| | 10/14/98 | **Added** details about payment information needed |
| | 11/25/98 | **Added** details about requests for payee data. |
| **Process 9.2** Prepare and Transmit Funding Memo | 05/25/99 | **Revised**, editorial changes only. |
| **Process 9.3** Obtain Participant Payment Data | 09/28/01 | **Edited** text. |
| | 08/31/01 | **Added** reference to finalizing Plan Assumption Milestone (CAS) and Process 10.4. |
| | 09/01/99 | **Revised** to incorporate details about PRISM online assumptions |
| | | **New** subprocess details collection of |

| | | |
|---|---|---|
| | 05/25/99 | participant payment data needed for plan assumption |
| **Processes 9.4 through 9.8** | 10/14/98 | **Renumbered** to be 09.8 through 09.12 |
| **Process 9.4:** Prepare & Submit Plan Assumption Package | 09/28/01 | **Modified** to revise the Datahub timeframes for submission of plan assumption package. |
| | 09/01/99 | **Revised** to incorporate details about PRISM online assumptions |
| | 05/25/99 | **Clarified** instructions in action step 1. |
| | 10/14/98 | **Renamed** subprocess, and revised to describe initiation of Datahub Procedures by TPD |
| **Process 9.4:** Review Participant Payment Information, Map Data | 10/14/98 | **Added** Subprocess |
| **Process 9.5:** Review Participant Payment Information, Map Data | 09/28/01 | **Modified** to revise Datahub timeframes for submission of plan assumption package and data mapping. |
| | 09/01/99 | **Revised** to incorporate details about PRISM online assumptions. |
| | 05/25/99 | **Clarified** outline and action steps, esp. about imaging documents. |
| **Process 9.5:** Enter Participant Payment Data | 10/14/98 | **Added** new subprocess. |
| **Process 9.6:** Enter Participant Payment Data | 09/28/01 | **Modified** to revise Datahub timeframes for completion of data loading (by DMC or OASD). |
| | 09/01/99 | **Revised** to incorporate details about PRISM online assumptions. |
| | 05/25/99 | **Renumbered** subprocess. |
| | 10/14/98 | **Added** new subprocess. |
| **Process 9.7:** Evaluate and Reconcile Initial Payee Information Load.(formerly 09.06) | 05/25/99 | **Clarified** action steps, esp. about imaging documents. |
| | 03/05/99 | **Added** detail regarding check cycle, and cut-off date. |
| | 10/14/98 | **Added** new subprocess |
| **Process 9.8** Authorize Plan Assumption | 09/13/02 | **Revised** outline to add intranet link for Check Schedule Key Dates |
| | 08/31/01 | **Added** specifics about updating and finalizing Plan Assumption Milestone (CAS) to outline and action steps. |
| | 09/01/99 | **Revised** to incorporate details about PRISM online assumptions |
| | 05/25/99 | **Deleted** subprocess (obsolete, see new 09.03) |
| | 05/25/99 | **Renumbered** subprocess |
| **Process 9.8:** Transfer Data to SSB for Payments to Retirees -- Less than 200 Current Payees (Formerly 9.4) | 01/10/97 | **Revised** text to establish that **All** account adds and the loading of retirees must be done at SSB for internal control purposes. |
| **Process 9.9:** Notify Current Payees | 05/18/01 | **Deleted** reference to filepathame of |

| | | |
|---|---|---|
| | | obsolete Plan Abstract version. |
| | 08/25/00 | **Added** instructions regarding the new Preliminary Plan Summary (CSWG recommendation) |
| | 03/10/00 | **Added** information about *new* Trusteeship Notification Packages (REACH Team project) |
| | 09/22/99 | **Revised** to refer to new participant forms. |
| | 05/25/99 | **Modified** outline. |
| | 10/30/98 | **Added** details about EDD. |
| | 10/10/97 | **Revised** outline and actions steps to refer to new participant letter (PRISM ALGS), which merges Trusteeship Notice and Notice of Change in Paying Agent into a single letter for retirees. (streamlining project) |
| **Process 9.10:** Prepare and Submit 9A Participant Data | 09/28/01 | **Modified** to revise Datahub timeframes for completion of data loading (by DMC or OASD). |
| | 03/10/00 | **Renamed** subprocess, and revised to describe initiation of Datahub procedures by TPD**.** |
| | 05/25/99 | **Revised, renumbered & renamed** subprocess |
| **Process 9.10:** Reconcile Trial Check Run & Pay Participants | 05/25/99 | **Deleted** subprocess (obsolete) |
| | 04/07/99 | **Replaced** reference to PSDADJ with RARE |
| **Process 9.11:** Review 9A Participant Package | 03/10/00 | **Added** new subprocess. |
| **Process 9.12:** Enter 9A Data. | 09/28/01 | **Modified** to revise Datahub timeframes for completion of data loading (by DMC or OASD). |
| | 03/10/00 | **Added** new subprocess. |
| **Process 9.13:** Evaluate, Reconcile & Authorize 9A Data | 03/10/00 | **Added** new subprocess. |
| **Process 9.13A:** Notify Payees | 10/05/05 | **Revised** to indicate various letters may be used to notify participants; and to distinguish handling of PIFs received by mail vs. My PBA. |
| **Process 9.13B:** Notify Non-Payees | 10/05/05 | **Revised** to remove steps for processing discontinued GIFs; added steps for processing Designation of Beneficiary forms. |
| | 08/12/05 | **Revised** to remove steps for issuing follow-up letters for GIFs or data missing data. |
| **Process 9.14:** Forms, Letters, Memos | 10/28/05 | **Removed** General Information Form (GIF) from list. |
| | 02/18/05 | **Added**:<br><br>*PIF Tracking Spreadsheet* |

| | |
|---|---|
| | *(PIFtracking.xls)*<br>*Plan Assumption Reconciliation Report (planasmprec.doc)*<br><br>**Deleted:** Data Entry Request Form<br>Transfer Control Sheet<br>**Revised:**<br>*Benefit Funding Memo (Funding.doc)*<br>*Concurrence Form (Concurr.doc)*<br>*Datahub - Data Mapping Instructions for Data Entry(Dhmapin.doc)*<br>*Notification Letter to Prior Paying Agent (Notifppa.doc)*<br>*Notification of Authorization to Make Payments Letter (Authpay.doc)*<br>*PA Request Follow-Up Letter (Pareqfol.doc)*<br>*PPA Information Letter (ppainfo.doc)* |
| 01/07/03 | **Modified** Notification of Authorization to Make Payments Letter - reflecting change in SSC personnel (I:\wp\standard\authpay.wpd) |
| 04/05/02 | **Modified** the Data Entry Form (i:\wp\standard\derf.wpd) |
| 08/01/01 | **Corrected** typo in Plan Assumption Authorization Verification (i:\wp\standard\assverif.wpd) |
| 06/28/01 | **Modified** Benefit Funding Memo (FOD names only). |
| 05/18/01 | **Deleted** obsolete Plan Abstract. |
| 03/14/01 | **Updated** Benefit Funding Memo (i:\wp\standard\funding.wpd) for FOD personnel changes. |
| 08/25/00 | **Added**: new document - Preliminary Plan Summary (i:\wp\standard\prelimps.wpd), and new link to Plan Abstract (i:\wp\standard\abstract.wpd) |
| 02/28/00 | **Revised** Data Entry Request Form (i:\wp\standard\derf.wpd) |
| 09/22/99 | **Revised** to refer to new participant forms |
| 09/01/99 | **Added** new Plan Assumption Authorization Verification (i:\wp\standard\assverif.wpd) |
| 08/20/99 | **Revised** Data Entry Request Form (i:\wp\standard\derf.wpd) |
| 08/20/99 | **Revised** Datahub - Data Mapping Instructions for Data Entry (i:\wp\standard\dhdmapin.wpd) |

| | | |
|---|---|---|
| | 05/25/99 | **Deleted** reference to Monthly Adds and Updates, Form 487 |
| | 05/13/99 | **Modified** Plan Administrator/Paying Agent Request Follow Up Letter (i:\wp\standard\pareqfol.wpd) |
| | 04/27/99 | **Revised** Notification of Authorization to Make Payment Letter (i:\wp\standard\authpay.wpd) |
| | 10/30/98 | **Added** references to additional participant forms and letters (PRISM ALG). |
| | 10/14/98 | **Deleted** Proposed Schedule of SSB Activities (i:\wp\standard\ssbsched.wpd) |
| | 10/14/98 | **Added** link to WordPerfect version of Account Adds and Changes Form (i:\wp\standard\acaddchg.wpd) |
| | 03/23/98 | **Revised** Benefit Funding Memo to include number of payees (i:\wp\standard\funding.wpd) |
| | 10/14/98 | **Added** new document, Datahub - Data Mapping Instructions (i:\wp\standard\dhdmapin.wpd) |
| | 10/14/98 | **Added** new document, Data Entry Request Form (i:\wp\standard\derf.wpd) |
| | 09/30/98 | **Revised** Notification of Authorization to Make Payments Letter (i:\wp\standard\authpay.wpd) |
| | 08/06/98 | **Revised** Notification Letter to Prior Paying Agent (i:\wp\standard\notifppa.wpd) |
| | 08/05/98 | **Revised** Notification of Authorization to Make Payments Letter (i:\wp\standard\authpay.wpd) |
| | 09/17/96 | **Added** "Financial Analyst, Treasury Division" as a "cc" in the Notification Letter to Prior Paying Agent -- (i:\wp\standard\notifppa.wpd) |
| **Process 10: Adjust Benefits** | 09/22/99 | **Revised** to add benefit adjustment details. |
| **Process 10:** Adjust Benefits - Workflow | 06/03/05 | **Revised** to include new processes for Datahub for benefit adjustment loads. |
| | 08/31/01 | **Revised** to reflect re-named subprocess 10.4 |
| | 05/02/97 | **Clarified** 4022(c) amount not payable as estimated benefit |
| | 02/07/97 | **Added** text to emphasize importance of documenting analysis for benefit adjustments (cutbacks). |
| **Process 10.1:** Analyze Plan Documents | 06/03/05 | **Revised** to add references and clarifications from Policy 5.2-4: Annuity Starting Dates. |
| | 08/31/01 | **Reformatted** output section of outline. |
| | 05/18/01 | **Deleted** reference to filepathame of obsolete Plan Abstract version. |

| | | |
|---|---|---|
| | 08/25/00 | **Added** instructions about new Preliminary Plan Summary, and updating CAS milestone.<br>(CSWG recommendation) |
| **Process 10.2:** Obtain Data | 10/20/00 | **Added** late retirement details about adjusting the maximum guaranteeable benefit.<br><br>**Added** links to the ATM and Policy Bulletin regarding late retirement. |
| **Process 10.3:** Analyze Data and Funding for PC3 | 12/13/02 | **Edited** for clarification. |
| | 12/07/01 | **Added** clarification in allocating to PC3 to control issues and action steps and added reference to IOD PB 00-08 in guidance. |
| **Process 10.4:** Identify Current Payees for Benefit Adjustments | 06/03/05 | **Revised** to include links to other procedures based on when the benefits are being adjusted.<br><br>**Added** steps for updating the Estimated Cutbacks/Adjustments Milestone in CAS. |
| | 02/18/05 | **Added** requirements for notifying payees of benefit adjustments; other general edits. |
| | 12/13/02 | **Edited** for clarification. |
| | 08/31/01 | **Re-named** subprocess.<br>Added specifics about finalizing Estimated Cutbacks/ Adjustments Milestone (CAS) to outline and action steps. |
| | 10/20/00 | **Added** late retirement details about adjusting the maximum guaranteeable benefit. |
| **Process 10.7**: Forms, Letters, Memos | 06/03/05 | **Renumbered** as 10.11. |
| | 05/18/01 | **Deleted** obsolete Plan Abstract. |
| | 08/25/00 | **Added**: new document - Preliminary Plan Summary (i:\wp\standard\prelimps.wpd), and new link to Plan Abstract (i:\wp\standard\abstract.wpd)<br>(CSWG recommendation) |
| **Process 10.7:** Initiate Benefit Adjustment Datahub Load | 06/03/05 | **New** subprocess describes how to request a benefit adjustment load using Datahub. |
| **Process 10.8:** Prepare Benefit Adjustment Pre-Load Data for TPD Review | 06/03/05 | **New** subprocess describes OASD's role in preparing the benefit adjustment pre-load data and the Datahub load. |
| **Process 10.9:** Review Benefit Adjustment Pre-Load Data | 06/03/05 | **New** subprocess describes how to review and authorize the benefit adjustment pre-load data. |
| **Process 10.10:** Review and Authorize Benefit Adjustment Datahub Load | 06/03/05 | **New** subprocess describes how to review and authorize the benefit adjustment Datahub load. |

## Processes 11–15 (Pre-2006)

**03/30/2011**

**Processes 11–15 (Pre-2006)**

| Process | Date | Change |
|---|---|---|
| **Process 11**: Develop Audit Program | 02/16/01 | **Revised** Internal Controls "Assessment" to "Determination" |
| | 08/25/00 | **Clarified** correct document name (Plan Document Audit) only. |
| | 07/11/97 | **Clarified** throughout to provide strengthened instructions regarding retention of source documents as appropriate and other documentation issues |
| | 04/04/97 | **Added** clarification to preparation of Audit Working Paper Cover Sheet. |
| **Process 11.2:** Determine Scope of Audits and Prepare Audit Program | 03/28/03 | **Modified** to reflect name change - Pension and Welfare Benefits Administration / Employee Benefits Security Administration |
| | 05/18/01 | **Deleted** reference to filepathame of obsolete Plan Abstract version. |
| | 02/16/01 | **Modified** to clarify references to Internal Controls Determination and add use of new document: Internal Controls Questionnaire |
| | 08/25/00 | **Clarified** correct document name (Plan Document Audit) only. |
| | 04/07/99 | **Revised** text to reflect new path\filename of Plan Abstract (i:\wp\standard\abstract.wpd) |
| | 09/13/96 | **Clarification** that the TPD may hold participant meeting for any case, not just large cases. |
| **Process 11.3:** Conduct Field Audit | 04/05/02 | **Revised** to clarify necessity of collecting certain benefit related documents. |
| | 02/16/01 | **Modified** to incorporate the use of new document: Internal Controls Questionnaire |
| | 05/25/99 | **Clarified** output and recipient. |
| **Process 11.04**: Forms, Letters, Memos | 05/18/01 | **Deleted** obsolete Plan Abstract. |
| | 02/16/01 | **Added** Internal Controls Questionnaire (i:\wp\standard\intonqu.wpd) |
| | 01/08/01 | **Modified** Internal Controls Determination (i:\wp\standard\intcont.wpd) |
| | 08/28/00 | **Revised** Data Elements Source List (i:\wp\standard\datasrcs.wpd) |
| | 08/25/00 | **Clarified** documents' names - Plan Document Audit (i:\wp\standard\plandocs.wpd), and |

| | | |
|---|---|---|
| | | Information Request Letter (i:\wp\standard\inforeq.wpd) |
| | 05/26/99 | **Revised** Plan Documents List, typographical only (i:\wp\standard\plandocs.wpd) |
| | 04/07/99 | **Revised** text to reflect new path \ filename of Plan Abstract (i:\wp\standard\abstract.wpd) |
| **Process 12:** Obtain & Evaluate Participant & Plan Document Data, Workflow | 04/16/04 | **Modified** workflow to show that Early BDL process is initiated after completion of source document audit. |
| | 09/22/99 | **Updated** workflow for earlier revisions to Process 09 |
| | 07/11/97 | **Clarified** throughout to provide strengthened instructions regarding thorough documentation. |
| **Process 12:** Obtain & Evaluate Participant and Plan Data, Workflow | 02/11/00 | **Revised** workflow for earlier addition to Process 12, and corrected typo. |
| **Process 12.1**: Finalize Plan Document Audit | 05/18/01 | **Deleted** reference to filepathame of obsolete Plan Abstract version. |
| | 08/25/00 | **Clarified** correct document name (Plan Document Audit).<br>**Added** new instruction to finalize CAS milestone.<br>(CSWG recommendation) |
| **Process 12.2** Prepare Plan Abstract | 02/07/03 | **Added** processing guidelines on crediting military service (Policy Bulletin 00-4). |
| | 05/18/01 | **Deleted** reference to filepathame of obsolete Plan Abstract version. |
| | 08/25/00 | **Added** reference to the Preliminary Plan Summary.<br>(CSWG recommendation)<br>**Clarified** correct document name (Plan Document Audit), and added WP file pathnames. |
| | 04/07/99 | **Revised** text to reflect new path\filename of Plan Abstract (i:\wp\standard\abstract.wpd) |
| **Process 12.5:** Perform Source Document Audit | 05/25/99 | **Deleted** action step 7. |
| | 11/25/98 | **Added** details to the outline about identification of participant data elements in the process, and scanning of source documents to IPS. |
| | 07/19/96 | **Added** report file name to item 6 |
| **Process 12.6:** Build Participant Database | 05/18/01 | **Clarified** that data elements are all traceable to a source. |
| | 05/25/99 | **Modified** controls section, and clarified identification of action steps (now 12.6.A & 12.6.B). |
| | 11/25/98 | **Added** details to the outline and actions steps about establishing and updating the data shell. |
| | | |

| | | |
|---|---|---|
| | 01/10/97 | **Revised** to state that FBAs should get a hard copy of the TPD's controlled group determination (or no controlled group determination) |
| **Process 12.6A:** Build Participant Database | 09/22/99 | **Corrected** typo |
| **Process 12.6B:** Build Participant Database | 09/22/99 | **Corrected** typo |
| **Process 12.7:** Audit Participant Database | 11/30/05 | **Replaced** in entirety to reflect new statistical sampling methodology. |
| | 03/28/03 | **Added** details of necessity to retain and archive sampling database and supporting documentation. |
| | 05/25/99 | **Deleted** completion of Participant Data Audit Report from output and recipient. **Deleted** action steps 7-10. |
| | 08/15/97 | **Added** statement of purpose and other clarifications. |
| | 12/06/96 | **Clarified** use of random number generator program. |
| | 07/19/96 | **Added** Output and Recipient item |
| | 07/19/96 | **Revised** items 7 & 8 in action steps |
| **Process 12.8:** Prepare Participant Data Audit Report | 11/30/05 | **Revised** to indicate that participant database audit work papers are attached to and imaged with PDA report. |
| | 05/25/99 | **New** subprocess providing details about preparation of report. |
| | 05/25/99 | **New** subprocess providing details about preparation of report. |
| **Process 12.9:** Forms, Letters, Memos | 11/30/05 | **Added** new documents:<br><br>Define Sample Size Work Paper; Select Random Sample Work Paper; Select Interval Sample Work Paper; Participant Database Audit Work Paper Summary; Participant Database Audit Checklist |
| | 01/16/05 | **Revised:** Participant Database Archiving Guidelines (PDA). |
| | 03/04/04 | **Revised** Participant Database Archiving Guidelines |
| | 03/28/03 | **Added** Participant Database Archiving Guidelines (i:\wp\standard\pdaarchiveinstructionsv1.doc) |
| | 05/18/01 | **Deleted** obsolete Plan Abstract. |
| | 08/28/00 | **Revised** Data Elements Source List (i:\wp\standard\datasrcs.wpd) |
| | 08/25/00 | **Added** new document - Preliminary Plan Summary (i:\wp\standard\prelimps.wpd). **Clarified** documents' names - Plan Document Audit (i:\wp\standard\plandocs.wpd), and Information Request Letter |

| | | |
|---|---|---|
| | | (i:\wp\standard\inforeq.wpd).<br>**Added** new link to Information Request Letter (i:\wp\standard\inforeq.wpd). (CSWG recommendation) |
| | 06/14/99 | **Revised** Locator Project Facts (i:\wp\standard\loc_fact.wpd)<br>**Revised** Locator Project Request (i:\wp\standard\locproc.wpp) |
| | 05/26/99 | **Revised** Plan Documents List, typographical only (i:\wp\standard\plandocs.wpd) |
| | 05/25/99 | **Revised** Participant Data Audit Report (i:\wp\standard\pdarept.wpd) |
| | 04/07/99 | **Revised** text to reflect new path\filename of Plan Abstract (i:\wp\standard\abstract.wpd) |
| | 07/19/96 | **Added** Participant Data Audit Report |
| **Process 13:** Verify Data for Participant Database | 02/18/05 | **Revised** Overview to remove references to mailing 4042(d) letters; other general edits.<br>**Revised** Workflow.<br>**Removed** Process 13.1 and included instructions for issuing 4042(d) letters in new *9.13 Notify Participants*.<br>**Renumbered** *Process 13.2 Verify Data from Returned Forms* to 13.1; other general edits.<br>**Renumbered** *Process 13.3 Forms, Letters, Memos, etc.* to 13.2; revised list. |
| | 04/05/02 | **Clarified** timing to send 4042(d) packages. |
| | 03/10/00 | **Added** information to overview about *new* Trusteeship Notification Packages (REACH Team project) |
| | 09/22/99 | **Revised** Overview to refer to new participant forms. Revised proof document requirements. (streamlining) |
| | 10/10/97 | **Added** detail to Process Overview, and Process 13.1 about combined letter which merges Trusteeship Notice and Change of Paying Agent into a single letter for retirees. (streamlining project) |
| | 07/11/97 | **Added** guidance (deadlines) for 4042(d) notifications to participants and follow up letters. Miscellaneous revisions to reflect Process 17 new name. Clarifications throughout to provide strengthened instructions regarding thorough documentation |
| **Process 13.1:** Send 4042(d) Letter and Data Verification Forms | 04/05/02 | **Clarified** timing to send 4042(d) packages. |
| | | |

| | | |
|---|---|---|
| | 08/31/01 | **Added** specifics about updating and finalizing **new** Participant Trusteeship Letters Milestone (CAS). |
| | 03/10/00 | **Modified** to add information about *new* Trusteeship Notification Packages (REACH Team project) |
| | 09/22/99 | **Revised** to refer to new participant forms. |
| | 05/25/99 | **Changed** only to reflect renumbered subprocess. |
| | 10/30/98 | **Added** details about EDD. |
| **Process 13.1A:** Verify Data from Returned Forms - PA | 10/05/05 | **Revised** for handling My PBA correspondence; removal of GIF references; proofs no longer requested from non-payees; handling of duplicate PIFs; and misc. edits. |
| | 08/12/05 | **Revised** to indicate that items missing from GIFs need not be listed on acknowledgement letter. |
| **Process 13.2:** Verify Data from Returned Forms - Auditor | 08/31/01 | **Added** references to Policy 8.5-1 Signature by Mark and Appendix J. |
| | 08/11/00 | **Replaced** references to obsolete Locator Project with references to new TP 33: Locate Customer Address. |
| | 12/03/99 | **Added** details about preparation of Acknowledgment Letter (ALGS 530). |
| | 09/22/99 | **Revised** to refer to new participant forms. Revised proof document requirements. (streamlining) |
| | 11/25/98 | **Added** to outline additional output item of updates to PRISM. Added to action steps (PLS & auditor) details about reconciliation or addition of participant data elements from data verification forms to PRISM, and to the participant database. Added specific listing of appropriate data elements. |
| | 10/30/98 | **Added** details to action steps about EDD. |
| | 10/30/98 | **Clarified** in outline and action steps that PBGC no longer requires original source documents, copies are acceptable. (streamlining project) |
| | 07/11/97 | **Added** information about Locator Project |
| **Process 13.3:** Forms, Letters, Memos | 08/11/00 | **Deleted** Locator Project Facts (i\wp\standard\loc_fact.wpd), and Locator Project Request (i\wp\standard\locproj.wpd) |
| | 12/03/99 | **Replaced** reference to Response Card, PBGC Form 1690a with Acknowledgment Letter (ALGS 530). |
| | 09/22/99 | **Added** references to new participant forms, deleted obsolete forms |
| | 02/23/99 | **Revised** Locator Project Facts - (i:\wp\standard\loc_fac.wpd) |

| | | |
|---|---|---|
| | 02/23/99 | **Revised** Locator Project Request - (i:\wp\standard\locproj.wpd) |
| | 10/30/98 | **Added** reference to Application for EDD. |
| | 07/11/97 | **Added** two **new** documents**:** Locator Project Facts (i:\wp\standard\loc_fact.wpd), and Locator Project Requests (i:\wp\standard\locproj.wpd) |
| **Process 14:** Determine Controlled Group and Net Worth | 09/04/98 | **Added** new BMPRS code to Time Reporting section to outlines of subprocesses (topics not redated) |
| | 09/04/98 | **Revised** overview to identify PPD Manager as IOD's point of contact for settlements. |
| **Process 14.1** Review DISC Controlled Group Findings | 12/23/05 | **Retitled** (formerly "Review PPD Controlled Group Findings"). |
| **Process 14.1:** Review PPD Controlled Group Findings | 06/29/01 | **Modified** to replace IPS for paper file references. |
| | 09/22/99 | **Clarified** procedure with Policy 7.2-1, and added reference in guidance |
| | 01/10/97 | **Revised** to state that FBAs should get a hard copy of the TPD's controlled group determination (or no controlled group determination) |
| **Process 14.2:** Perform TPD Controlled Group Analysis (IRS Disclosure Offices) | 11/08/02 | **Deleted** section. Information in new **Appendix M.** |
| | 03/23/01 | **Added** new address to request tax returns for tax-exempt entities. |
| **Process 14.2**: Perform TPD Controlled Group Analysis | 11/08/02 | **Modified** to reflect that requests for non-exempt tax information are sent to a new centralized IRS location.<br>**Deleted** separate listings of IRS Regional Offices by State and IRS Disclosure Offices.<br>**Added** link to new Appendix M: IRS Disclosure Offices. |
| | | |
| | 06/29/01 | **Modified** to replace IPS for paper file references. |
| | 03/23/01 | **Added** instructions for requesting tax returns for tax exempt entities. |
| | 02/16/01 | **Updated** L.A. office address. |
| | 12/03/99 | **Revised** IRS Regional Offices by State (added note).<br>**Revised** IRS Disclosure Offices address and telephone numbers. |
| | 12/03/99 | **Clarified** the use of Form 333 when making IRS Tax Return Requests. |
| | 09/22/99 | **Clarified** procedure with Policy 7.2-1, and added reference in guidance |
| | 04/04/97 | **Added** new feature - pop-up list of IRS |

| | | |
|---|---|---|
| | | Regional Offices and list of addresses and telephone numbers for IRS Disclosure Offices. |
| **Process 14.3** Draft Request for Payment/Assist in Filing Liens | 06/29/01 | **Modified** to replace IPS for paper file references. |
| | 09/04/98 | **Revised** to include guidance about compromise and settlement authority. |
| **Process 14.4** Forms, Letters, Memos | 06/28/05 | **Revised:**<br>IRS Request Letter (Irsreq.doc)<br>IRS Returns Request – Tax Exempt Entities (Irsexmpt.doc) |
| | 11/08/02 | **Revised**<br>IRS Request Letter (i\:wp\standard\irsreq.wpd) to insert centralized address, and to change PBGC location for IRS to send requested information.<br>**Corrected** address on IRS Returns Request – Tax Exempt Entities (i\:wp\standard\irsexmpt.wpd)<br>**Revised** IRS Document Request - <26 (i\:wp\standard\ppd\irs25rq.wpd) to insert centralized address, and to change PBGC location for IRS to send requested information |
| | 06/19/02 | **Modified** Request for Payment letter (i:\wp\standard\reqpay.wpd) |
| | 03/23/01 | **Added**: IRS Tax Returns Request - Tax Exempt Entities (i:\wp\standard\irsexmpt.wpd) |
| | 12/03/99 | **Added** link to Form 333 - Request for Access to Tax Return Info... (i:\wp\standard\form333.wpd) |
| | 11/19/99 | **Revised** Form 333 - Request for Access to Tax Return Info... (i:\wp\standard\form333.wpd) |
| | 04/21/98 | **Added** new document - Administrative Review Procedures (i:\wp\standard\adrev_el.wpd) |
| | 03/11/98 | **Revised** Request for Payment Letter (i:\wp\standard\reqpay.wpd) |
| | 01/22/98 | **Revised** No Controlled Group Memo (i:\wp\standard\tpdnocg.wpd) |
| | 10/10/97 | **Deleted** No Recovery Memo (i:\wp\standard\norecov.wpd) |
| | 04/04/97 | **Added** a jump to the revised IRS Request Letter (i:\wp\standard\irsreq.wpd) |
| **Process 15:** Audit Plan Assets | 12/06/96 | **Clarified** with minor changes throughout. |
| **Process 15.1:** Perform Initial Analysis | 02/16/01 | **Modified** to incorporate the use of new document: Request for PPD Financial Analysis Assistance. |
| | | |

| | | |
|---|---|---|
| | 09/04/98 | **Added** detail about Form 1108 |
| | 10/10/97 | **Revised** instructions for preparation of Premium Information Request Memo |
| | 06/06/97 | **Added** detail about premium information requested from FOD (action step 3). |
| | 06/06/97 | **Added** details regarding preparation of administrative subpoena (action step 11). |
| | 03/07/97 | **Edited** step 3 to include a reference to possible earlier request for premium information from FOD. (streamlining project) |
| **Process 15.2:** Value Plan Assets (Investment Accounts and Securities....) | 09/28/01 | **Clarified** instructions with respect to mutual funds. |
| **Process 15.2:** Value Insurance Contracts | 03/10/00 | **Deleted** links to now obsolete glossary term. |
| **Process 15.2** -Value Plan Assets | 06/06/97 | **Added** detail about valuing insurance contracts |
| **Process 15.2**Action Steps**:** Value Investment Accounts & Securities. Item #3 | 10/11/96 | **Clarified** valuing stock dividends when DOPT is between record date and date dividend is recorded. |
| **Process 15.3:** Value Hard-To-Value Assets | 02/16/01 | **Modified** to incorporate the use of new document: Request for PPD Financial Analysis Assistance. |
| **Process 15.4:** Value Plan Liabilities | 03/10/00 | **Deleted** links to now obsolete glossary term. |
| **Process 15.4:** Action Steps**:** Value Plan Liabilities | 03/07/97 | **Edited** step 1 to include a reference to possible earlier request for premium information from FOD. (streamlining project) |
| **Process 15.5:** Action Steps**:** Compute Accrued Dividends Receivable on Corporate Stocks | 10/11/96 | **Changed** "dividend date" to "ex-dividend date" |
| **Process 15.5:** Action Steps**:** Compute Proportional Interest | 01/10/97 | **Added** new section |
| **Process 15.5:** Action Steps**:** Chart To Determine Method of Computing Accrued Interest | 12/06/96 | **Clarified** with minor changes throughout. |
| | 12/06/96 | **Added** chart to determine method of computing accrued interest. |
| **Process 15.6:** Complete Plan Asset Audit Report | 03/10/00 | **Added** CAS details to output and processing steps. |
| | 08/10/99 | **Added** detail about imaging of Plan Asset Audit Report. |
| | 06/14/99 | **Revised** Locator Project Facts (i:\wp\standard\loc_fact.wpd) |
| | 06/14/99 | **Revised** Locator Project Request (i:\wp\standard\locproc.wpp) |
| | 06/14/99 | **Revised** Locator Project Facts (i:\wp\standard\loc_fact.wpd) |
| | 06/14/99 | **Revised** Locator Project Request (i:\wp\standard\locproc.wpp) |

| | | |
|---|---|---|
| | 09/04/98 | **Added** detail about Form 1108 |
| **Process 15.7:** Forms, Letters, Memos | 02/16/01 | **Added:** Request for PPD Financial Analysis Assistance **(i:\wp\standard\ppdanal.wpd)** |
| | 10/15/98 | **Revised** Administrative Subpoena Cover Letter (i:\wp\standard\subcovlt.wpd) |
| | 05/04/98 | **Added** new WordPerfect document - Form 1108, Plan Asset Reconciliation (i:\wp\standard\form1108.wpd) |
| | 04/28/98 | **Revised** Administrative Subpoena - reformatted only (i:\wp\standard\modeliod.wpd) |
| | 07/30/97 | **Revised** Administrative Subpoena (i:\wp\standard\modeliod.wpd) |
| | 07/30/97 | **Revised** Premium Information Request Memo (i:\wp\standard\preminfo.wpd) |
| | 06/06/97 | **Added** jumps to Administrative Subpoena and Administrative Subpoena Cover Letter |
| | 04/07/97 | **Revised** the Plan Asset Audit document (i:\wp\standard\planaset.wpd) |
| | 08/26/96 | **Revised** the Insurance Contract Valuation Letter (i:\wp\standard\insurval.wpd) |

## Processes 16–17 (Pre-2006)

**03/30/2011**

**Processes 16–17 (Pre-2006)**

| Process | Date | Change |
|---|---|---|
| **Process 16:** Value Recoveries and Allocate to Claims | 10/10/97 | **Added** instruction to use new Allocation Recovery Tool (ART)<br>Clarified zero Recovery Determinations are documented in Recovery Determination Memo |
| | 12/06/96 | **Clarified** with minor changes throughout |
| **Process 16.2**: Value Recoveries and Allocate to Claims | 01/10/03 | **Deleted** requirement to provide Recovery Determination Memo to PPD |
| | 02/16/01 | **Specified** the type of CAS task referral sent. |
| **Process 16.3:** Allocate Combined Recoveries... | 02/16/01 | **Modified** to specify how to request PPD Assistance, including references to two new documents: PPD Recovery Allocation Data Form and Request for PPD Financial Analysis Assistance |
| | 11/25/98 | **Updated** details about Actuarial Recovery Tool (ART) |
| **Process 16.4:** Document Recovery Values | 01/10/03 | **Modified** to reflect that the SPARR Coordinator is in MCU (from PPD). |
| | 06/06/97 | **Added** text regarding importance of updating CAS Plan Assets Milestone |
| **Process 16.9:** Forms Letters Memos | 02/10/05 | **Updated** *Recovery* Determination *Memo (Recdeter.doc).* |
| | 12/05/02 | **Modified** Reovery Determination Memo (i:\wp\standard\recdeter.wpd) |
| | 02/16/01 | **Added** two new documents:<br>PPD Recovery Allocation Data Form (i:\wp\standard\ppdrecal.wpd), and<br>Request for PPD Financial Analysis Assistance (i:\wp\standard\ppdanal.wpd) |
| | 11/22/99 | **Revised** Recovery Determination Memo (i:\wp\standard\recdeter.wpd) |
| | 06/06/97 | **Revised** Recovery Determination Memo (additional cc to FOD) |
| | 04/13/97 | **Revised** the Recovery Determination Memo (i:\wp\standard\recdeter.wpd) |
| **Process 17:** Prepare Actuarial Case Report & Software | 03/28/03 | **Updated** Workflow |
| | 06/06/97 | **Revised** throughout in response to new Policy 6.7-1. |
| | 08/30/96 | **Changed** the order of the sub-processes in the workflow diagram |
| **Process 17.1:** Reconcile Participant Database | 03/28/03 | **Revised** to clarify required data elements & format of database |

| | | |
|---|---|---|
| **Process 17.2** Convert Participant Database to an ACT Database | 03/28/03 | **Added** new sub-section with link to ACT manual. |
| | 12/07/01 | Added clarification in allocating to PC3 to control issues and action steps and added reference to IOD PB 00-08 in guidance. |
| **Process 17.3** Determine Title IV Benefits, including Asset Allocation per 4044 | 03/28/03 | **Renumbered** |
| | 06/20/96 | **Revised** Control Issues re recovery ratio for multiple terminated plans |
| **Process 17.4** Determine Plan 4022(c) Benefits Payable | 03/28/03 | **Renumbered** |
| | 01/11/99 | **Revised** cash out limit to $5,000 in action steps |
| **Process 17.5** Determine 4022(c) Benefits Payable | 03/28/03 | **Renumbered** |
| **Process 17.6** Program BSRS | 03/28/03 | **Renumbered** |
| | 08/10/99 | **Modified** reference to ACR checklist. |
| **Process 17.7** Produce Actuarial Case Report Package | 03/28/03 | **Renumbered** and **Revised** to delete obsolete processing step |
| **Process 17.7** Action Steps**:** Finalize Actuarial Case Report Package & Review | 08/10/99 | **Modified** reference to ACR checklist. |
| **Process 17.8** Finalize Actuarial Case Report Package & Review | 03/28/03 | **Renumbered** and **Added** reference in Guidance to ACT manual. |
| **Process 17.9** Perform Software/ADT Review | 03/28/03 | **Renumbered** and **Revised** to strengthen controls and add link to ACT manual. |
| **Process 17.10** Finalize IPV-Ready Data | 03/28/03 | **Renumbered** and **Modified** to reflect correct names of reports and processing steps. |
| | 11/25/98 | **Added** details to outline about ADT load of participant data elements to PRISM. |
| **Process 17.11** Close Out Software (OASD) | 03/28/03 | **Renumbered** and **Modified** to reflect correct processing steps |
| **Process 17.12** Present Case to Team | 03/28/03 | **Renumbered** |
| **Process 17.13** Reconcile PRISM & Archived databases | 03/28/03 | **Renumbered** and **Corrected** name of sub-section |
| **Process 17.14** Forms, Letters, Memos | 03/28/03 | **Renumbered** and **Modified** to delete link to TPD Software Review Checklist and to add Incoming Case Review Checklist |
| | 04/28/98 | **Updated** TPD Software Review Checklist to support ADT utilities version 3.0A (i:\wp\standard\sc_cklst.wpd) |
| | 06/06/97 | **Added new** wp documents**:**<br>Automated Data Load (ADL) Checklist (i:\wp\standard\adlcklst.wpd) &<br>TPD Software Review Checklist (i:\wp\standard\sc_cklst.wpd) |

## Processes 18–20 (Pre-2006)

**03/30/2011**

**Processes 18–20 (Pre-2006)**

| Process | Date | Change |
|---|---|---|
| **Process 18:** Identify Types of IDLs for Case | 09/22/99 | **Edited** and added details to guidance. |
| **Process 18.3:** Forms, Letters, Memos | 09/22/99 | **Added** reference to PRISM ALG letters |
| | 12/06/96 | **Added** access to a WordPerfect memo containing Types of Required IDLs -- i**:**\wp\standard\idltypes.wpd |
| | 05/02/03 | **Deleted** Customized BDL Cover Memo and Benefit Determination Letter (samples). |
| **Process 19:** Benefit Determination Letters - Overview | 05/13/05 | **Added** paragraph about Limited-Scope BDLs. |
| **Process 19:** Workflow | 05/13/05 | **Added** steps for issuing Limited-Scope BDLs, and revised in entirety. |
| **Process 19**: Issue BDLs & Make Adjustments to Payments - Overview | 01/19/05 | **Added** that BDLs are issued to alternate payees with certain restrictions. |
| | 04/16/04 | **Modified** workflow for revised Process 19.1 changes. |
| | 10/18/02 | **Added** details to Overview about establishing final pay sources for final benefit amounts. |
| | 02/08/02 | **Added** language about rule that interest is calculated at PBGC (not SSB). |
| | 07/27/01 | **Modified** to include residual benefit amount processing, applicable withholding rules and other clarifications. (IOD PB 00-6: Residual Lump-Sum Distributions.) |
| | 05/18/01 | **Modified** for editorial changes, including IDL/BDL and to add details about notice to an alternate payee.<br>**Added** details about resending BDLs, including use of new ALG 540. |
| | 09/22/99 | **Revised** for IDL/ benefit payment details**:**<br>• Early IDLs to non-vesteds guidance (streamlining)<br>• Large back payments<br>• Policy Bulletin 99-6, very small payments<br>• Policy Bulletin 99-4, small changes in Final Monthly Benefits<br>• Issuance of IDLs to deceased person(s) or beneficiary(ies)<br>• Clarification of timing to move estimated benefits to final in PRISM<br>• Issuance of notice to alternate payees when IDL is issued |
| | | |

| | | |
|---|---|---|
| **Process 19.1:** Create Early BDL Database and Issue Early BDLs (re-named) | 04/16/04 | **Revised** the early BDL Process to include database building, auditing, and preparation of the Early BDL Audit Report. |
| **Process 19.1**: Review List of Participants Eligible for Early BDLs | 10/18/02 | **Revised** to add details including revising the look back for early BDL participants (from 5 years to 1 year prior to DOPT) and deleting reference to obsolete CAS milestone. |
| | 05/18/01 | **Modified** for editorial changes, including IDL/BDL. Renamed subprocess. |
| | 09/22/99 | **Revised** to provide guidance on Early IDLs to non-vesteds.(streamlining) |
| | 02/13/98 | **Revised** Overview to reference PBGC's policy with respect to upward adjustments to estimated benefits. |
| | 05/02/97 | **Clarified** participants eligible for possible 4022(c) amount not eligible for early IDLs |
| **Process 19.2:** Review Final Valuation Close-Out Package & Classify Participants | 05/18/01 | **Modified** for editorial changes, including IDL/BDL. |
| | 08/11/00 | **Replaced** references to obsolete Locator Project with references to new TP 33: Locate Customer Address. |
| | 09/22/99 | **Revised** for Policy Bulletin on IDLs and Back Payments for Deceased Participants (99-9) |
| | 07/11/97 | **Added** information about Locator Project |
| **Process 19.3:** Determine Net Overpayment/Underpayment for Annuities | 05/13/05 | **Removed** reference to letter 402LBR. |
| | 03/19/04 | **Revised** to clarify processing of lump sums under $200. |
| | 03/28/03 | **Added** CAS details to output and processing steps. |
| | 01/10/03 | **Added** processing guidelines on de minimis overpayments, when an appeal is filed (Policy Bulletin 03-2) . |
| | 10/18/02 | **Revised** to add "Timing", specifying that various payment activities should be completed by 90 days after the later of expiration of appeals period or Appeals Board Decision date. |
| | 03/08/02 | **Clarified** language about rule on interest calculation at PBGC<br><br>**Added** reference to PACS and the PACS Helpfile<br><br>**Replaced** details on using RARE with PACS including requirement to scan both PACS Summaries to IPS |
| | 02/08/02 | **Added** language about rule that interest is calculated at PBGC (not SSB). |
| | 06/29/01 | **Added** details about researching payment history for all situations that may require interest to be paid. |

| | | |
|---|---|---|
| | 05/18/01 | **Modified** for editorial changes, including IDL/BDL. Clarified small benefits may be paid prior to expiration of appeals period. Renamed subprocess. |
| | 09/22/99 | **Revised** for Large back payments, Policy Bulletin 99-4, small changes in Final Monthly Benefits, and clarification of timing to move estimated benefits to final in PRISM |
| | 02/13/98 | **Revised** Important Concepts and Guidance to reflect Policy Bulletin 97-7. |
| **Process 19.4** Determine Net Overpayment/Underpayment for Lump Sums | 03/19/04 | **Revised** to clarify processing of lump sums under $200. |
| | 01/10/03 | **Added** processing guidelines on de minimis overpayments, when an appeal is filed ( Policy Bulletin 03-2) . |
| | 10/18/02 | **Revised** to add "Timing", specifying that various payment activities should be completed by 90 days after the later of expiration of appeals period or Appeals Board Decision date.<br>**Added** Policy 5.4-6 to Guidance<br>**Deleted** reference to obsolete Policy Bulletin 95-5 in Guidance |
| | 03/30/02 | **Clarified** language about rule on interest calculation at PBGC<br><br>**Added** reference to PACS and the PACS Helpfile<br><br>**Replaced** details on using RARE with PACS including requirement to scan both PACS Summaries to IPS |
| | 02/08/02 | **Added** language about rule that interest is calculated at PBGC (not SSB). |
| | 07/27/01 | **Added** references to guidance, including applicable Treas. reg cite (withholding).<br><br>**Modified** processing for:<br>• residual benefit amounts, including when a new lump-sum application is required,<br>• tax withholding rules, and<br>• other clarifications.<br>(Policy Bulletin 00-6: Residual Lump-Sum Distributions.) |

| | 09/22/99 | **Revised** for Policy Bulletin 99-6, very small payments |
| | 01/11/99 | **Revised** cash out limit to 5,000, and add details about cash out limit to outline |
| | 02/13/98 | **Revised** Important Concepts and<br>**Added** Guidance to reflect Policy Bulletin |

| | | |
|---|---|---|
| | | 97-7. |
| **Process 19.5:** Issue Corrected or Revised Benefit Determination Letter | 03/19/04 | **Added** new subsection describes how and when to issue a revised **or** corrected BDL |
| **Process 19.6:** Issue Limited-Scope BDLs | 05/13/05 | **Added** new process for issuing Limited-Scope BDLs. |
| **Process 19.6:** Forms, Letters, Memos | 04/16/04 | **Added** Early BDL Audit Report. |
| | 07/27/01 | **Added** reference to Form 720 - Application for Lump-Sum Payment. |
| | 08/11/00 | **Deleted** Locator Project Facts (i\wp\standard\loc_fact.wpd), and Locator Project Request (i\wp\standard\locproj.wpd) |
| | 09/22/99 | **Added** reference to new PRISM ALG Letter.<br>**Deleted** obsolete PSDADJ report reference. |
| | 02/23/99 | **Revised** Locator Project Facts - (i:\wp\standard\loc_fac.wpd) |
| | 02/23/99 | **Revised** Locator Project Request - (i:\wp\standard\locproj.wpd) |
| | 07/11/97 | **Added** two **new** documents**:** Locator Project Facts (i:\wp\standard\loc_fact.wpd), and Locator Project Requests (i:\wp\standard\locproj.wpd |
| **Process 19.7:** Forms Letters Memos<br>(renumbered) | 05/13/05 | **Renumbered** – previously Process 19.6.<br>**Revised** list of documents. |
| **Process 19.8:** Forms, Letters, Memos | 1/19/05 | **Modified** to indicate that BDLs of related QDRO parties are also stayed if one party appeals. |
| | 02/17/04 | **Added** that some appeals correspondence may be referred outside of IOD. |
| **Process 20:** Respond to Appeal Notice/Make 45-Day Changes | 08/31/01 | **Added** reference to Appendix J. |
| **Process 20:** Workflow | 05/18/01 | **Modified** for editorial changes, including IDL/BDL and renamed subprocesses. |
| | 12/06/96 | **Clarified** throughout Process including new Overview, revised workflow diagram, discussions of PEAD Acknowledgement Memo and PEAD Closing Memo |
| **Process 20:** Respond to Appeal Notice/Make 45-Day Changes, workflow | 05/18/01 | **Modified** for editorial changes, including IDL/BDL and renamed subprocesses. |
| **Process 20:** Respond to Appeal Notice/Make 45-Day Changes, overview | 05/18/01 | **Modified** for editorial changes, including IDL/BDL. |
| **Process 20:** Respond to Appeals Notice and PEAD Referrals (renamed) | 07/15/05 | **Revised** with new/updated eALG letter references throughout |
| | 05/02/03 | **Revised** in its entirety, includes two new subsections. |
| **Process 20.1:** Respond to PEAD Acknowledgment of Appeal or Extension | 2/17/04 | **Added** language on notifying Recovery Coordinator when an appeal concerns a |

| | | |
|---|---|---|
| Request | | Recovery BDL. |
| **Process 20.1:** Respond to PEAD Acknowledgment Memo | 1/19/05 | **Added** step to stay BDL of all QDRO parties if one party appeals, and to notify them via ALGS. |
| | 5/18/01 | **Modified** name of time reporting categories. |
| | 5/02/03 | **Revised** to reflect updated IOD/PEAD processing including clarification of actions that may/may not be taken when an appeal is filed. |
| **Process 20.2** Respond to Appeal Closing Memo | 2/17/04 | **Added** language on sending new BDLs; that timely correspondence may appear in PBGC Image Viewer days after the appeal period ends; and on notifying Recovery Coordinator as needed. |
| | 1/10/03 | **Added** processing guidelines on de minimis overpayments, when an appeal is filed ( Policy Bulletin 03-2) . |
| | 05/18/01 | **Modified** for minor editorial changes. |
| | 05/02/03 | **Revised** to reflect updated IOD/PEAD processing and otherwise clarify processing. |
| **Process 20.2**: Respond to PEAD Closing Memo | 01/19/05 | **Added** new steps on making any necessary changes to BDLs of parties who did not appeal and notifying them via ALGS. |
| **Process 20.3:** Respond to Appeals Division Referral | 02/18/05 | **Added** statements to be included in the emails to PEAD. |
| | 01/19/05 | **Added** new steps on making any necessary changes to BDLs of parties who did not appeal and notifying them via ALGS. |
| | 05/13/05 | **Added** steps for handling RFA correspondence concerning a Limited-Scope BDL.<br>**Modified** for general edits. |
| | 02/17/04 | **Added** instructions on referrals concerning Recovery BDLs, including hardship cases; and when appeals correspondence is referred outside of IOD. |
| | 05/02/03 | **New** subsection describes processing of correspondence referred from PEAD. |
| **Process 20.3:** Forms, Letters, Memos | 12/06/96 | **Added** access to two new WordPerfect memos - acknowlm.wpd and closingm.wpd (in I:\\wp\standard) |
| **Process 20.4:** RFA Guidelines and Appeal Criteria | 05/02/03 | New subsection lists:<br>• Examples of RFA correspondence<br>• Appeal criteria |
| **Process 20.5:** Forms, Letters, Memos | 01/19/05 | **Added** new ALGS letters 615 QDRO- Stay of BDL (Appeals) and 616 QDRO – No Benefit Change (Appeals). |
| | | |

| | | |
|---|---|---|
| | 05/02/03 | **Added** references to ALGS Letters.<br>**Deleted** references/links to sample PEAD correspondence. |

## Processes 21–24 (Pre-2006)

**03/30/2011**

**Processes 21–24 (Pre-2006)**

| Process | Date | Change |
|---|---|---|
| **Processes 21 & 22** | 04/28/97 | **Replaced** Case Closure Processes (Process 21 and 22) with **New** Case Closure Processes 21, 22, 23 |
| **Processes 21 – 23** | 09/04/98 | **Revised** throughout, clarify procedures applicable to closing of FBA plans |
| **Process 21:** Close Plan | 02/17/04 | **Replaced** in its entirety to incorporate use of online Plan Closing Report and IPVFB Critical Pay Source Errors Report. |
| | 08/11/00 | **Revised Overview** to refer to new TP 33: Locate Customer Address |
| **Process 21:** Close Plan, Workflow | 02/11/00 | **Replaced** workflow for earlier revisions to Process 21. |
| **Process 21.1:** Prepare Plan History (Formerly**:** Close Plan) | 07/11/97 | **Added** clarifications about imaging additions to files which are being closed at an FBA |
| **Process 21.3:** Reconcile Participant Files/Records in IPS & PRISM (Formerly: Check and Inventory Participant Files) | 07/11/97 | **Revised** about PFI Report |
| **Process 21.6:** Check Completeness of Participant Files/Records in PBGC Image Viewer, PRISM, SCoRe, and CCN | 08/12/05 | **Revised** to remove General Information Form from list of items required in file. |
| **Process 21.6:** Check Completeness of Participant Files (IPS) | 06/29/01 | **Added** references to Process 19 for payment of interest situations. |
| **Process 21.10** Forms, Letters, Memos | 08/11/00 | **Deleted** Locator Project Facts (i\wp\standard\loc_fact.wpd) |
| | 04/30/99 | **Revised** Plan Completion Memo (i:\wp\standard\plcompme.wpd) |
| | 02/23/99 | **Revised** Locator Project Facts - (i:\wp\standard\loc_fac.wpd) |
| | 09/04/98 | **Added** link to Locator Project Facts (i:\wp\standard\locproj.wpd) |
| | 09/04/98 | **Deleted** TSD/TPD Plan Completion Checklist (i:\wp\standard\plcmpckl.wpd) |
| | 05/01/98 | **Added** new (optional) TPD/FBA Case Team - Plan Completion Checklist (i:\wp\standard\tpd-tsd.wpd) |
| | 05/01/98 | **Added** new Plan Completion Memo (i:\wp\standard\plancompme.wpd) |
| | 06/06/97 | **Replaced** IPS Plan Re-Index Request with **new** IPS Plan and Participant File Correction Form (i:\wp\standard\ips_chg.wpd) |
| **Process 21.12:** Wrap Up Plan Administration | 12/23/05 | **Revised** to clarify that TPD or FBA administers plan until the date of transfer |

| | | |
|---|---|---|
| | | to ongoing administration, and e-mails details of outstanding SCoRe or CRM actions. |
| **Process 21.13:** Forms, Letters, Memos | 03/25/04 | **Revised to put on letterhead:** TPD/FBA Case Team - Plan Completion Checklist and Plan Completion Memo. |
| | 03/19/04 | **Replaced** TPD/FBA Case Team – Plan Completion Checklist |
| | 02/17/04 | **Renumbered** and **Revised** to replace TPD/FBA Case Team - **Plan Completion Checklist** (M:\Helpfile\IOD Manual_std\tpdfbacl.doc) and **Plan Completion Memo** (M:\Helpfile\IOD Manual_std\plcomplme.doc) with current versions<br><br>**Added Quality Review Check Sheet** (M:\Helpfile\IOD Manual_std\qurecksh.doc) |
| **Process 22:** Review Closed Plan | 10/28/05 | **Revised** to note that proofs are required only from post-DOPT payees (not all non-retirees). |
| | 08/12/05 | **Revised** to remove General Information Form from list of items required in file. |
| | 02/17/04 | **Revised** in its entirety to reflect new plan closing processes. |
| **Process 22:** Review Closed Plan Workflow | 02/11/00 | **Replaced** workflow for earlier revisions to Process 22. |
| | 06/29/01 | **Added** references to Process 19 for payment of interest situations. |
| **Process 22.4:** Forms, Letters, Memos | 02/17/04 | **Added** Quality Review Checksheet (M:\Helpfile\IOD Manual\std\qurecksh.doc). |
| | 09/04/98 | **Added** Closed Plan Review Memo (i:\wp\standard\clplrmem.wpd) |
| **Process 23:** Transfer Plan to Ongoing Administration | 02/17/04 | **Updated** link to renumbered Process 21.12 |
| **Process 23.1:** Transfer Administrative Responsibility for Plan | 07/11/97 | **Added** note clarifying that imaged participant files may be more complete than paper participant files |
| **Process 23.2:** Forms, Letters, Memos | 07/27/07 | **Removed** FBA Introduction letter (eALG FBA 1, FBA2) |
| **Process 24:** Perform Ongoing Administration | 02/11/00 | **Deleted** section. |

| | 07/19/96 | **Revised** completely |
| **TP 04**: Process Address Changes | 10/05/05 | **Revised** to reflect organizational change (BAPD), and to mention My PBA. |
| | 08/25/00 | **Replaced** entire tech proc. |

| | | |
|---|---|---|
| | | Revisions include:<br>• clearer outline of home address changes vs. EDD related changes<br>• streamlined processing of phone call notifications - CCN to PRISM, with ALG notification<br>• description of duties of DMC, CSC, TPDs & FBAs |
| **TP 04.1:** Make Address Changes | 08/31/01 | **Added** details regarding processing of documents signed with a mark (Policy 8.5-1). |
| | 06/29/01 | **Modified** to add details in C. SSB Notifications. |
| | 01/14/00 | **Added** link and reference to Policy 8.4-1 (▶POA). |
| | 03/07/97 | **Added** a reference to IOD Customer Service Standards in the Guidance section. |
| | 10/11/96 | **Clarified** CSC handling of telephone notification of address changes |
| **TP 04.2:** Make or Change EDD Election | 08/31/01 | **Added** details regarding processing of documents signed with a mark (Policy 8.5-1). |
| **TP 04.2:** Forms, Letters, Memos | 09/22/99 | **Added** reference to new participant form |
| **TP 05:** Process Deaths | 08/19/04 | **Modified** throughout to remove all references to the use of DARTS, including deleting **TP 5.4: Track Processing with DARTS**. |
| | 05/30/03 | **Deleted** subprocess 5.2, renumbered remaining subprocesses and revised workflow and overview to reflect these changes. |
| | 09/26/00 | **Modified** to clarify source of PRISM data compared with Deathmatch (GENESIS) |
| | 09/30/99 | **Replaced** entire technical procedure.<br>Revisions include new policy issuances:<br>• Policy Bulletin 99-8: Payments with respect to deceased participants<br>• Policy Bulletin 99-9: IDLs and Back Payments for Deceased Participants<br>Also includes details about new IOD systems:<br>• Deathmatch Deceased and Recovery Tracking System (DARTS) |
| **TP 05.1** Process Death Notification by Telephone or Mail | 08/23/02 | **Revised** instructions about when**and how CARFs are provided to SSC for "late deaths".** |
| | 05/12/00 | **Revised** to reflect that CARF original and one copy are sent to SSB |
| | 12/03/99 | **Added** details about preparation of |

| | | |
|---|---|---|
| | | Acknowledgment Letter (ALGS 530). |
| | 10/30/98 | **Clarified** to provide that PBGC does not require original death certificates, copies are acceptable. (streamlining project) |
| **TP 05.2** Determine Action on Outstanding Check Report | 09/13/02 | **Revised** outline to add intranet link for Check Schedule Key Dates |
| | 05/12/00 | **Modified** to show that PSB distributes entire report to the TPDs/FBAs, rather than sorting the report before distributing. |
| **TP 05.2:** Determine Action on Returned Checks | 05/30/03 | **Modified** to revise reference (to new TP 42) |
| **TP 05.3:** Use Deathmatch Program To Verify Deaths | 05/13/05 | **Updated** timeframes for taking first action and added deathmatch reporting. |
| | 03/19/04 | **Updated** to specify SSA corrections are loaded weekly |
| | 09/13/02 | **Revised** outline to add intranet link for Check Schedule Key Dates |
| | 10/30/98 | **Clarified** to provide that PBGC does not require original death certificates, copies are acceptable. (streamlining project) |
| | 07/03/96 | **Revised** Important Concepts – pay status by eom – return/recoup/recover overpayments |
| **TP 05.4:** Determine Benefits Due Survivor, Beneficiary or Estate | 06/03/05 | **Revised** to describe processing based on Required Beginning Dates. |
| **TP 05.04:** Track Processing with DARTS | 03/28/03 | **Modified** for revised Deathmatch report, including processing of non-payees. |
| | 09/13/02 | **Revised** outline to delete reference to Check Schedule Key Dates |
| | 09/26/00 | **Modified** to clarify source of PRISM data compared with Deathmatch (GENESIS), and update the data refresh timing (daily) |
| **TP 05.6** Determine Benefits Due Survivor, Beneficiary or Estate | 09/13/02 | **Revised** to specify how to calculate the single sum balance of future C & C payments, if elected by an estate. |
| | 08/31/01 | **Added** references to new Policy 8.5-1. |
| | 07/27/01 | **Modified** to incorporate Policy Bulletin 01-02. |
| | 03/23/01 | **Clarified** the payment of C & C benefits. |
| | 01/14/00 | **Added** link and reference to Policy 8.4-1 (▸POA). |
| | 12/03/99 | **Corrected** typos. |
| **TP 05.7** Fix Record After Incorrect Death Entry | 09/13/02 | **Revised** outline to add intranet link for Check Schedule Key Dates |
| | 12/03/99 | **Corrected** typo. |
| **TP 05.8:** Determine Post-Death Payments Designee | 01/10/03 | **Revised** and reformatted subsection for new Policy 8.6-1. Revisions include a new outline and two subparts (A & B) to |

| | | |
|---|---|---|
| | | distinguish processing for payments based on DOD (on or after 6/1/2002 **or** prior to that date). |
| | 12/03/99 | **Corrected** typos. |
| **TP 05.9:** Forms, Letters, Memos | 03/28/03 | **Added** reference to new 555NP ALG (Deathmatch Letter to Non-Payees). |
| | 02/11/00 | **Clarified** reference to CARF, including form number. |
| | 01/14/00 | **Deleted** reference to Deceased Processing Form (DPF) |
| | 12/03/99 | **Added** reference to Acknowledgment Letter (ALGS 530). |
| **TP 06**: Recover Overpayments | 07/15/05 | **Edits** throughout for minor changes (TSD/RSD) |
| | 12/13/02 | **Revised** in its entirety for Policy 6.4-2, including:<br>• added new hardship provision<br>• clarified only two demand letters<br>• eliminated quarterly payment option for debtors<br>• eliminated that first payment be provided with Installment Payment Agreement<br>• clarified processing when debtor is an estate |
| | 10/20/00 | **Revised** Overview to delete references to Recovery Coordinator providing quarterly report to FOD. |
| **TP 06:** Recover Overpayments | 09/29/00 | **Revised** to reflect:<br>• write-off amount now $500 (per policy change)<br>• new Tracking Request and Write off Memo<br>• first demand letter issued only for amounts over $500 |
| **TP 06:** Recover Overpayments | 06/09/00 | **Replaced** in its entirey, in response to Policy 6.4-2: Recovery of Post-DOPT Benefit Overpayments, and other operational changes. # Technical Procedures 31–40 (Pre-2006)

**03/30/2011**

**Technical Procedures 31–40 (Pre-2006)**

| Technical Procedure | Date | Change |
|---|---|---|
| **TP 31:** Document Telephone Calls | 03/10/00 | **New** Technical Procedure provides guidance on participant phone calls, emphasizing the importance of using CCN to thoroughly document the call. |
| **TP 31.1:** Document Incoming Telephone Calls | 05/18/01 | **Added** emphasis to the importance of accurate disposition codes in CCN. |
| **TP 31.2:** Document Outgoing Telephone Calls | 05/18/01 | **Added** emphasis to the importance of accurate disposition codes in CCN. |
| **TP 31.3:** CCN Call Records Guidelines | 07/27/01 | **Added** details about annuity follow up calls. |
| | 05/18/01 | **Added** new call types- details about benefit confirmation process, and responding to non receipt of BDL. |
| | 06/09/00 | **Rearranged** the call types.<br>**Added** guidelines about documenting calls relating to estimated benefits<br>(REACH Team project) |
| | 05/12/00 | **Modified** to reflect changes to check processing, and to refer to new TP 32: Provide Estimated Benefit Calculations (REACH team project) |
| **TP 32**: Provide Estimated Benefit Calculations Overview | 05/18/01 | **Modified** throughout for editorial changes (benefit determination/ letter, IDL/DBL.) |
| | 05/12/00 | **New** Technical Procedure provides guidance on processing estimated benefit requests. Includes new document: PBGC Estimated Benefit Calculation Sheet (i:\wp\standard\estbenst.wpd) (REACH Team project) |
| **TP 32**: Provide Estimated Benefit Calculations - Overview | 01/19/05 | **Modified** to change name of TP 13 |
| **TP 32.1:** Receive Request, Gather Initial Information | 10/05/05 | **Revised** to indicate organizational change (RSD), and that requests may be received via My PBA. |
| **TP 32.1:** Provide Estimated Benefit Calculations | 09/26/00 | **Modified** references to reflect revised TP 26 |
| | 08/25/00 | **Updated** time reporting categories |
| **TP 32.2:** Determine and Provide Estimated Calculation | 02/07/03 | **Revised** terminology to refer to all benefit application forms.<br>**Corrected** typographical errors. |
| | 07/27/01 | **Revised** to add follow up customer calls when an annuity application is sent. |
| | 05/18/01 | **Modified** to specify provision of Form 720 (lump sums) when applicable. |
| | | |

| | | |
|---|---|---|
| | 02/16/01 | **Clarified** 15 **business** days |
| | 08/25/00 | **Updated** time reporting categories |
| **TP 32.3** Forms, Letters, Memos | 02/07/03 | **Corrected** description of application form and letter template<br>**Added** details of beneficiary application forms. |
| | 05/18/01 | **Added** references to Form 700 and 720. |
| | 09/26/00 | **Modified** to reflect new SSA request from (Form SSA-581) |
| **TP 33:** Locate Customer Address | 08/31/01 | **Added** to overview, reference to new TP 36: Provide Annual Update Letter. (REACH Team Project) |
| | 08/11/00 | **New** Technical Procedure outlines steps to locate missing or out-of-date customer addresses, including the use of Participant Locator. Includes new document Participant Address Search Summary Memo (i:\wp\standard\padsrch.wpd). |
| **TP 33:** Locate Customer Address<br>- Overview | 02/07/03 | **Corrected** reference from unlocatable participants to missing participants |
| **TP 33.2:** Search for Updated Customer Address | 02/07/03 | **Corrected** reference from unlocatable participants to missing participants |
| **TP 33.3:** Locate Address Resource Guidelines | 02/07/03 | **Corrected** reference from unlocatable participants to missing participants |
| **TP 34:** Request DMC Services | 08/12/05 | **Misc. edits** throughout existing sections; added new subsections (as listed below). |
| | 06/29/01 | **Edited** text to reflect addition of new subsection. |
| | 09/29/00 | **New** Technical Procedure provides guidance on interacting with DMC. Includes new electronic version of Technical Services Division Supply Request Form (i:\wp\standard\suplyreq.wpd) |
| **TP 34.2:** Submit Documents for Imaging | 06/29/01 | **Added** new subsection. |
| **TP 34.4:** Forms, Letters, Memos | 08/12/05 | **Renumbered** as TP 34.7 |
| | 10/03/02 | **Revised** Technical Services Division Supply Request Form (i:\wp\standard\suplyreq.wpd). |
| | 04/05/02 | **Updated** Technical Services Division Supply Request (i:\wp\standard\suplyreq.wpd) |
| | 06/29/01 | **Added** two new documents, IPS Scanning Request - Participant (i:\wp\standard\ips-part.wpd), and IPS Scanning Request - Plan (i:\wp\standard\ips-plan.wpd). |
| | 06/14/01 | **Modified:** TSD Supply Request Form (i:\wp\standard\suplyreq/wpd). |
| **TP 34.4:** Process Incoming Participant Mail | 08/12/05 | **New** subsection. |
| **TP 34.5:** DMC Preparation Code Guidelines | 10/28/05 | **Revised** to note that the GIF was discontinued 10/2005. |
| | | |

| | | |
|---|---|---|
| | 08/12/05 | **New** subsection. |
| **TP 34.6:** Answer Inquiries on Proof Documents | 08/12/05 | **New** subsection. |
| **TP 35:** Case Workplan | 10/28/05 | **Replaces and retitles** current section; adds TPD and FBA roles in maintaining case workplan using FMRS. |
| **TP 35:** Update FBA Workplans | 08/31/01 | **Revised** overview to reflect the more routine assignment of a TPD case team while case is with PPD |
| | 10/20/00 | **New** Tech Proc provides guidance on the quarterly updates to FBA Workplans. Includes new electronic version of FBA Workplan (i:\MSWord\xls\FBAWorkplan.xls). |
| **TP 36:** Prepare Annual Update Letter | 08/31/01 | **New** Technical Procedure describes:<br>• what cases receive annual update letter;<br>• case team; responsibilities to develop and mail letter;<br>• new ALG 545: Annual Update Letter. (REACH Team Project) |
| **TP 36:** Prepare Annual Update Letter, Overview | 02/07/03 | **Corrected** reference from unlocatable participants to missing participants. |
| **TP 36.1:** Prepare Annual Update Letter | 02/07/03 | **Corrected** references from unlocatable participants to missing participants. |
| **TP 37:** Develop and Implement Customer Recovery Action Plan | 09/28/01 | **New** Tech Proc provides guidance about preventing and recovering from customer service challenges. (REACH Team) |
| **TP 38.2:** Coordinate with Data Integrity Team and Benefit Processing Staff for Error Corrections<br>**(Hard copy only, see TSD)** | 08/12/05 | **Revised** to reflect organizational change. |
| | 02/17/04 | **Deleted** details about processing Wheeling Pitt health deductions and made minor modifications throughout |
| | 11/02/01 | **New** Technical Procedure (hard copy only, see TSD) describes:<br>• Need for this PRISM application and its function in benefit payment processing;<br>• How to generate transactions and create file for the Paying Agent;<br>• How to coordinate error correction with the Data Correction Team (TSD); and<br>• How to report activities and final transaction disposition. |
| **TP38.2** Coordinate with Error Correction Group for Error Correction<br>**(Hard copy only, see TSD)** | 02/17/04 | **Modified** to reflect that corrections are made on manual data entry forms and sent to the Paying Agent via NBX<br>**Revised** routing of manual data entry forms |
| **TP 39:** Prepare Early Estimated Benefits for a Case | 03/19/04 | **Revised** to clarify processing of lump sums under $200. |
| | 03/08/02 | **Deleted** incorrect references to using DRS. |
| | 12/19/01 | **New** Technical Procedure describes provision of estimated benefits to **all** non-payees, including: |

| | | |
|---|---|---|
| | | • BET prepared after final participant data audit;<br>• EBLs & BOYLE attachment sent to all non-payees;<br>• Form 720 sent for eligible estimated lump sums;<br>• Estimated lump sum paid if elected by customer; and<br>• Process applies to cases trusteed on or after 10/01/2001. |

## Appendices and Glossary (Pre-2006)

**03/30/2011**

**Appendices and Glossary (Pre-2006)**

| Appendices | Date | Change |
|---|---|---|
| **Appendix B: Source Documents for Participant Data** | 10/28/05 | **Revised** to note that proof documents are requested from participants applying for benefits; removed reference to GIF. |
| **Appendix B: Preferred Source Documents for Participant Data Elements** | 04/05/02 | **Revised** in "Active Participants", "Retirees", and "Terminated Vested Participants" to clarify when certain benefit documents should be collected versus sampled. |
| | 09/26/00 | **Clarified** names of select data elements |
| | 08/11/00 | **Replaced** references to obsolete Locator Project with references to new TP 33: Locate Customer Address. |
| | 09/22/99 | **Revised** to refer to new participant forms. Revised proof document requirements. (streamlining) |
| | 10/30/98 | **Clarified** to provide that PBGC no longer requires original source documents, copies are acceptable. (streamlining project) |
| | 11/01/96 | **Clarified** the description of "terminated non-vested participants" |
| | 09/13/96 | **Reordered** the list of sources to have W2s as the primary source for obtaining SSNs |
| **Appendix C: Bankruptcy Overview** | 12/07/01 | **Updated** involuntary termination reference (s) to PBGC-initiated. |
| **Appendix D: Maximum Guaranteeable Benefits for DOPT Years** | 12/23/05 | **Added** Maximum Guaranteeable Benefit for FY 2006. |
| | 02/18/05 | **Added** maximum guaranteed benefit for DOPT year 2005. |
| | 02/17/04 | **Added** maximum guaranteed benefit for DOPT years 2002, 2003, 2004 |
| | 02/16/01 | **Added** maximum guaranteed benefit for DOPT year 2001. |
| | 10/20/00 | **Modified** title<br>**Added details to NOTE about adjusting the maximum guaranteeable benefit upward for late retirements.** |
| | 12/03/99 | **Added** maximum guaranteed benefit for DOPT year 00. |
| | 11/25/98 | **Added** maximum guaranteed benefit for DOPT year 1999 |
| | 02/13/98 | **Added** maximum guaranteed benefit for DOPT year 1998 |
| | 02/13/98 | **Added** maximum guaranteed benefit for |

| | | |
|---|---|---|
| | | DOPT year 1998 |
| | 12/06/96 | **Added** maximum guaranteed benefit for DOPT year 1997 |
| | 08/25/00 | **Added** minor updates: new BMPRS codes etc. |
| **Appendix E - Referenced Directive on Safeguarding IRS Documents** | 10/11/96 | **Deleted** text of existing PBGC directive (available elsewhere). This appendix is reserved for future use. |
| | 07/11/97 | **Clarified** time reporting for holidays and special project names |
| | 06/06/97 | **Updated** IOD Time Reporting (BMPRS) |
| | 05/02/97 | **Added** this appendix describing the Budget, Management, Planning and Reporting System |
| **Appendix F: Alternate Sources for Plan Information** | 08/11/00 | **Replaced** references to obsolete Locator Project with references to new TP 33.3: Locate Address Resource Guidelines |
| **Appendix G: Acceptable Proof of Age** | 10/28/05 | **Revised** to note that PBGC requires proof of age when participants apply for benefits. |
| | 10/18/02 | **Added** details about acceptable alternate proofs of age. |
| | 08/09/02 | **Corrected** typos. |
| | 07/23/02 | **Modified** to clarify that proofs of age must include the customer's date of birth. |
| | 05/18/01 | **Revised** to add more proofs of age to the the list of single documents permissable. Also re-written into Q & A format. |
| | 09/22/99 | **Revised** to refer to new participant forms. Revised proof document requirements. (streamlining) |
| | 10/30/98 | **Clarified** to provide that PBGC no longer requires original source documents, copies are acceptable. (streamlining project) |
| **Appendix H: Historical SPARR Information** | 12/23/05 | **Revised** with FY 2004 SPARR. Removed statement that the SPARR is published in a policy bulletin, and removed policy bulletin references to previous SPARRs. |
| | 02/18/05 | **Updated** to include FY2003 SPARR. |
| | 02/17/04 | **Updated** to include FY2002 SPARR |
| | 11/08/02 | **Updated** to include FY2001 SPARR |
| | 03/08/02 | **Updated** to include FY2000 SPARR |
| | 02/16/01 | **Updated** to include FY99 SPARR |
| | 01/14/00 | **Updated** to include FY98 SPARR |
| | 08/10/99 | **Updated** to include FY97 SPARR |
| | 10/30/98 | **Updated** to include FY96 SPARR |
| | 10/31/97 | **Updated** to include FY 1994 and FY 1995 SPARRs |
| | 08/15/97 | **Updated** to include FY93 SPARR |

| | | |
|---|---|---|
| | 06/06/97 | **New** Appendix H: Historical SPARR Information |
| **Appendix I Maintaining Participant Data Records** | 06/29/01 | **Modified** to clarify IPS is official location of participant records. |
| | 02/11/00 | **Deleted** reference to Process 24**.** |
| | 11/25/98 | **Added** new Appendix I: Maintaining Participant Data Records, includes detailed list of data elements loaded to PRISM through ADT |
| **Appendix J: Participant Forms Summary** | 09/26/00 | **Modified** to reflect new SSA request from (Form SSA-581) |
| **Appendix J: Participant Forms Information** | 12/23/05 | **Revised** description of Form 707, **added** Form 708 to table. |
| | 10/28/05 | **Revised** to remove GIF from chart. |
| | 10/05/05 | **Revised** to indicate electronic signature is acceptable on My PBA forms; misc. updates. |
| | 02/07/03 | **Modified** to include complete list of Participant Forms with brief description of their use. |
| | 10/18/02 | **Deleted** reference to obsolete Form 704: Annuity Election Form |
| | 07/23/02 | **Added** information that DMC stocks hard copies. |
| | 08/31/01 | **Added** two new Q & A's about acceptable signatures on participant documents, including the use of Power of Attorney's and signatures by mark. |
| | 01/14/00 | **New** Appendix provides information about all participant forms with usage comments. |
| **Appendix K: BAPD's Records Management** | 12/23/05 | **Retitled** (formerly "IODs Records Management"). |
| **Appendix K: IOD's Records Management** | 08/23/02 | **New** Appendix adds detailed information about Records Management, including:<br>• Description of IOD Records;<br>• Records Creation and Filing;<br>• Records Disposition<br>• Storing and Retrieving Records;<br>• Records Security and Privacy; **and**<br>• Records Management Guidance. |
| **Appendix L: Field Benefit Administrators** | 08/23/02 | **New** Appendix adds FBA information in Q & A format |
| **Appendix M: IRS Disclosure Offices** | 05/13/05 | **Updated** to correct IRS office address and other edits. |
| | 11/08/02 | **New** Appendix provides IRS addresses to use to request tax return information for tax exempt and non-exempt entities. |
| **Appendix N: Our Service Pledge** | 05/02/03 | **New** appendix describes IOD's service pledge |

| | | |
|---|---|---|
| | | |
| **Appendix O: Acceptable Proof of Marriage** | 10/28/05 | **Replaced** completely, with revisions to processing claims of common law marriage (including new facts & circumstances determination); new information on ceremonial marriages; and updates based on Policy 5.7-4: Marriage Requirements. |
| | 05/13/05 | **Clarified** and other minor edits. |
| | 05/30/03 | **New** Appendix describes acceptable marriage proofs in Q & A format. |
| **Appendix P: eReports Information** | 04/16/04 | **New** Appendix describes the availability and usage of PRISM based reports. |
| **Appendix Q: BAPD Systems** | 10/05/05 | **New** section on My PBA. |
| | 02/18/05 | **New** Appendix provides overview of systems used by Benefit Administration & Payment Department (BAPD). |
| **Appendix R: 1 Federal Tax Withholding** | 05/13/05 | **Added** new appendix which provides detailed background information and guidance regarding federal income tax withholding rules. |

| Glossary | Date | Change |
|---|---|---|
| | 10/28/05 | **Added:**<br>FMRS<br>**Revised:**<br>GIF |
| | 10/05/05 | **Added:**<br>My PBA |
| | 08/12/05 | **Revised:**<br>Cut-off-Date |
| | 06/03/05 | **Added**:<br>Required Beginning Date - RBD |
| | 05/13/05 | **Added:**<br>• Limited-Scope BDL<br>• Tax Treaty<br>**Revised:**<br>Benefit Determination Letter |
| | 02/18/05 | **Added:**<br>• BAPD<br>• BPB<br>• DAS<br>• DISC<br>• eDERF<br>• Status A |

| | | |

## Processes 1–7 (2006-2011)

**11/20/2015**

**Processes 1–7 Table (2006-2011)**

| Process | Date | Change |
|---|---|---|
| **Process 1:** Determine Type of Case, Assign, & Begin Collecting Case Information | 07/25/08 | **Removed** since these processes are now performed outside of BAPD. |
| **Process 1.6:** Resolve Participants Out of Pay Status | 10/27/06 | **Revised** to remove DED from COO reference; update policy reference; and stress that paying benefits prior to trusteeship requires decision by COO or BAPD Director. |
| | 03/31/06 | **Corrected** policy reference. |
| **Process 02: Gather Plan and Sponsor Information** | 07/25/08 | **Removed** since these processes are now performed outside of BAPD. |
| **Process 02.2:** Issue Administrative Subpoena | 06/27/08 | **Removed** content and placed in "Reserved" status; content revised and moved to new TP 56. |
| **Process 3:** Determine Financial Condition of Plan & Analyze Controlled Group | 07/25/08 | **Removed** since these processes are now performed outside of BAPD. |
| **Process 04: Make Recommendation** | 07/25/08 | **Removed** since these processes are now performed outside of BAPD. |
| **Process 05: Route Recommended Termination** | 07/25/08 | **Removed** since these processes are now performed outside of BAPD. |
| **Process 6:** Monitor Plan | 07/25/08 | **Removed** since these processes are now performed outside of BAPD. |
| **Process 7:** Initiate DISC/TPD Coordination – Overview | 06/27/08 | **Revised** for system change to CMS. |
| | 10/27/06 | **Revised** with new paragraph about paying benefits prior to trusteeship. |
| **Process 07.1:** Initiate TPD Involvement | 07/11/08 | **Revised** to remove references to pre-termination processes. |
| | 06/27/08 | **Revised** for system change to CMS. |
| | 09/28/07 | **Revised** to emphasize that a Pension Analyst must be included in CMS in order for an account to be opened automatically for a plan at SSC. |

## Processes 8–10 (2006-2011)

**11/20/2015**

**Processes 8–10 Table (2006-2011)**

| Process | Date | Change |
|---|---|---|
| **Process 8** Pre-Trusteeship Processing | 01/15/10 | **Added** new section to replace Process 7: Initiate DISC/TPD Coordination and incorporate other pre-trusteeship processes performed with new data acquisition procedures. |
| **Process 8** Overview for Pre-Trusteeship Processing | 11/29/11 | **Revised** to mention the new process for obtaining documents from TeamConnect, to clarify the sequence of events in which trusteeship occurs, and for miscellaneous edits. |
| | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| | 10/27/06 | **Revised** with new paragraph about paying benefits prior to trusteeship. |
| | 03/31/06 | **Revised** to note new process for estimating recovery values. |
| **Process 8** Pre-Trusteeship Processing - Workflow | 11/29/10 | **Revised** to reflect new process structure. |
| **Process 8.1** Assign TPD Case Team | 11/29/11 | **Revised** to remove the step to update the *Data Acquisition Plan and Database Construction Outline and Documentation*; to clarify when DISC requests TPD case assignment, and for miscellaneous edits. |
| **Process 8.2** Hold Coordination Meeting with DISC | 03/30/11 | **Revised** to add DMC to the list of invitees to the coordination meeting. |
| **Process 8.2** Establish the Case Workplan | 06/30/06 | **Revised** to reflect that the PART application has replaced FMRS, and to update user guide references. |
| **Process 8.3** Hold Coordination Meeting with DISC | 11/29/11 | **Renumbered** from 8.2; **revised** to acknowledge that plan documents are now obtained from TeamConnect prior to the meeting, to update the list of persons to invite to the coordination meeting with DISC, and to remove the step to update the *Data Acquisition Plan and Database Construction Outline and Documentation*. |
| **Process 8.3** Effect Trusteeship | 11/02/09 | **Revised** format; added step to compare Trusteeship Agreement received from signer with original sent; revised cc list and added new three-day deadline for providing copies; removed step to rename plan in CMS; and misc. edits. |
| | 07/31/09 | **Revised** to reflect that BAPD now receives only two copies of the Trusteeship Agreement; to update the distribution for copies; to remove step to |

| | | |
|---|---|---|
| | | complete the Premium Information Request Memo; misc. edits. |
| | 01/31/08 | **Revised** to add Team Leader, ACLG, Treasury Division to list to receive notification of trusteeship and copy of Trusteeship Agreement. |
| | 05/26/06 | **Added** new step to verify plan information to be reflected in plan-specific webpage. |
| **Process 8.4** Receive Case from DISC | 11/29/11 | **Revised** to remove the statement that TPDs update Primavera P6 and CMS for controlled group determinations and recovery valuations, and to remove the list of specific milestones to assign. |
| | 08/30/11 | **Revised** to clarify the roles of case team and management team members; removed the following as Milestones to be assigned: DUEC, Net Worth, Controlled Group. |
| | 11/29/10 | **Renumbered** section (from 8.5) to better reflect case processing flow. **Revised** to indicate that DISC completes controlled group determinations, recovery valuations, and quarterly estimated recoveries; and to add a new step to assign CMS Milestones. |
| **Process 8.4** Estimating Recovery Values for Terminated Plans | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| | 03/31/06 | **New** process for estimating recovery values. |
| **Process 8.5** Plan Case and Create Case Work Plan | 08/30/11 | **Revised** to replace reference to PART Documentation with Oracle Primavera P6 Help. |
| | 11/29/10 | **Renumbered** section (from 8.4) to better reflect case processing flow. |
| **Process 8.5** Receive Case from DISC | 03/26/10 | **Revised** to remove reference to obsolete *Document Transfer List Memo*. |
| **Process 8.5:** Forms, Letters, Memos | 03/31/06 | **Renumbered** from PR 8.4. |
| **Process 8.5A** Case Planning Concepts | 08/30/11 | **Revised** to replace PART with Oracle Primavera P6 as case planning tool; added statement to adjust processing times and completion dates for large plans; and miscellaneous edits. |
| **Process 8.5B** Create Case Work Plan | 08/30/11 | **Revised** to replace PART with Oracle Primavera P6 as case planning tool; clarified that steps may apply to contractors other than FBAs; and miscellaneous edits. |
| **Process 8.6** Begin Plan Document List, Plan Summary, and Participant Data Elements List | 11/29/11 | **Revised** to remove the step to update the *Data Acquisition Plan and Database Construction Outline and Documentation*. |
| | 08/23/10 | **Revised** to direct the actuary to obtain |

| | | |
|---|---|---|
| | | the concurrence of the Actuarial Technical Reviewer on the *Plan Summary*. |
| **Process 8.7** Effect Trusteeship | 11/29/11 | **Revised** to remove the step to update the *Data Acquisition Plan and Database Construction Outline and Documentation*. |
| | 03/26/10 | **Revised** to add the DISC Financial Analyst/Auditor to the distribution list for the *Trusteeship Agreement Transmittal Memo*. |
| **Process 8.8** Prepare CMS for Plan Asset Audit | 11/29/10 | **Added** new section to manual. |
| **Process 8.9** Forms, Letters, Memos | 11/29/10 | **Renumbered** section. |
| **Process 9** Plan Assumption | 07/31/09 | **Removed** all existing sections dealing solely with Datahub, which were replaced by the new TP 59: Data Load Requests procedures. |
| | 08/31/07 | **Revised** Overview to mention new Process 9.14. |
| | 09/29/06 | **Revised** Workflow. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **Process 9** Overview for Plan Assumption | 03/26/10 | **Revised** to reflect Process 9.1 title change. |
| **Process 9** Overview | 07/31/09 | **Revised** to reflect replacement of Datahub with TP 59: Data Load Requests procedures. |
| **Process 9** Workflow | 03/26/10 | **Revised** to reflect Process 9.1 title change. |
| | 07/31/09 | **Revised** to reflect replacement of Datahub with TP 59: Data Load Requests procedures. |
| **Process 9.1** Ensure Uninterrupted Payments | 03/26/10 | **Retitled and completely revised** with separate sections on paying benefits for trusteed and non-trusteed plans, and to add new authorization memo for pre-trusteeship payments. |
| **Process 9.1** Request Plan Administrator to Continue Payment Processing | 10/27/06 | **Revised** with new policy reference; new step about paying benefits prior to trusteeship. |
| **Process 9.2** Prepare and Transmit Funding Memo | 03/26/10 | **Revised** to cover only processing the funding memo itself, not the provocation; to clarify required authorizations; removal of *Concurrence Form*; and to emphasize that the process must be repeated monthly until payments are assumed. |
| **Process 9.3** Obtain Participant Payment Data | 03/30/11 | **Revised** to reference *Receiving Data on non-PBGC Sanctioned Media* and direct user to process received data accordingly. |
| | | |

| | | |
|---|---|---|
| | 03/26/10 | **Revised** to remove step to update the *Plan Assumption Reconciliation Report* and for miscellaneous edits. |
| | 07/31/09 | **Revised** to remove references to Datahub. |
| | 05/31/07 | **Revised** to indicate that if there are no payees it may be noted in either the Plan Assumption Reconciliation Report or the Status A Reconciliation Report. |
| **Process 9.4** Initiate First Pay and Customer Data Loads | 11/29/10 | **Revised** with new instructions to image or archive the check register used for the payee data load; to note that spousal data is to be loaded if available electronically; and to specify the Plan Assumption Milestone is to be updated once the payee data load is approved. |
| | 03/26/10 | **Added** step to update the Plan Assumption Milestone. |
| | 07/31/09 | **Renumbered, renamed, and revised** to include both First Pay and Customers, and replace Datahub references with links to TP 59: Data Load Requests. |
| **Process 9.7** Forms, Letters, Memos | 07/31/09 | **Renumbered and added** Early Plan Analysis Memo; **Removed** Preliminary Plan Summary, Plan Assumption Reconciliation Report, and Status A Reconciliation Report. |
| **Process 9.7** Review and Reconcile First Pay Pre-Load Database | 03/28/08 | **Revised** with misc. edits. |
| | 11/30/06 | **Revised** to remove steps on submitting the Plan Assumption Reconciliation Report for concurrence (these steps are being moved to Process 9.8). |
| **Process 9.8** Forms, Letters, Memos | 08/23/10 | **Removed:**<br>*Payee Data Review Memorandum* |
| | 03/26/10 | **Revised** list to reflect documents currently referenced in Process 9, using current naming conventions. |
| | 01/15/10 | **Renumbered** from 9.7. |
| **Process 9.8** Review and Authorize First Pay Datahub Load | 05/30/08 | **Revised** with new step to request Spectrum conversion. |
| | 03/28/08 | **Revised** with misc. edits. |
| | 02/28/07 | **Revised** to indicate the Plan Assumption Reconciliation Report is to be submitted prior to the first payment date, or no more than 45 days after for large plans or plans with complex benefits; and misc. edits. |
| | 11/30/06 | **Revised** to change reference to Datahub online applications to Datahub Administration System; add new step to submit Plan Assumption Reconciliation Report for concurrence (previously in Process 9.7); and indicate that TPD |

| | | |
|---|---|---|
| | | management will review the plan file to ensure the report is imaged. |
| **Process 9.9** Initiate Status A Participant Load | 07/25/08 | **Revised** to indicate that loading spousal data for non-payees is not required unless the data are available electronically. |
| | 03/28/08 | **Revised** with new steps to verify data before initiating the load; to include Miscellaneous data; and to place the data in the shared drive instead of providing by email. |
| | 11/30/06 | **Revised** to remove FBA as process co-owner. |
| | 04/28/06 | **Revised** to indicate that all data reviewers should be named on eDERF. |
| **Process 9.11** Review Status A Datahub Load | 03/28/08 | **Revised** with misc. edits for clarity. |
| | 11/30/06 | **Revised** to remove FBA as process co-owner. |
| | 04/28/06 | **Revised** with step to ensure all case team members have access to latest participant data. |
| **Process 9.12** Review and Authorize Status A Datahub Load | 03/28/08 | **Revised** with misc. edits for clarity, and with new step to advise OASD when Miscellaneous data can be loaded. |
| | 11/30/06 | **Revised** to remove FBA as process co-owner; change reference to Datahub online applications to Datahub Administration System; and add step for completing the new Status A Reconciliation Report. |
| **Process 9.13** Notify Participants | 01/31/08 | **Revised** to add references to new ValPatch procedures |
| | 01/30/07 | **Revised** to update policy reference, and to indicate that interest is added to payments missed while suspended. |
| **Process 9.13A** Notify Payees | 05/29/09 | **Revised** with new instructions on how to handle receipt of unsigned or incomplete PIFs, as well as non-receipt. Other misc. edits. |
| | 09/12/08 | **Revised** to clarify that PIFs are sent to all participants and beneficiaries in pay status at DOTR. |
| | 05/31/07 | **Revised** to indicate CRM531 letter auto-acknowledges correspondence and to revise titles of eALG 530 and 531 letters. |
| | 09/29/06 | **Revised** with new policy reference, and to state that an extension granted to issue follow-up letters requesting the PIF should be documented to the plan file; payees should be called before suspending benefits (TPD management advice is not needed); and the PIF may be faxed to reinstate payments. |
| | | |

| | | |
|---|---|---|
| | 05/26/06 | **Added** steps to create plan-specific web announcement about trusteeship and the change in paying agent. |
| **Process 9.13B** Notify Non-Payees | 05/31/07 | **Revised** to indicate CRM531 letter auto-acknowledges correspondence. and to revise titles of eALG 530 and 531 letters. |
| | 09/29/06 | **Revised** to allow limited use of the General Information Form (GIF), with TPD management concurrence. |
| | 05/26/06 | **Added** step to complete new *Plan Assumption Checklist (PlanAssumpCklst.doc)*. |
| **Process 9.14** Forms, Letters, Memos | 05/31/07 | **Revised** with new titles of eALG 530 and 531 letters. |
| | 02/28/07 | **Revised**<br>*Benefit Funding Memo (Funding.doc)* |
| | 11/30/06 | **Added:**<br>*Status A Reconciliation Report (StatusArec.doc)* |
| | 09/29/06 | **Added:**<br>General Information Form (GIF) |
| | 05/26/06 | **New:**<br>*Plan Assumption Checklist (PlanAssumpCklst.doc)*. |
| **Process 9.14** Payee Data Review | 09/26/08 | **Revised** to add level income option as an example of a non-level benefit, and to add a link to the Datahub mailbox. |
| | 08/31/07 | **New** section. |
| **Process 10.2** Obtain Data | 07/28/06 | **Revised** to remove language that PBGC needs a reasonably certain proposed DOPT for pre-trusteeship benefit adjustments, and to update a policy reference. |
| **Process 10.3** Analyze Data and Funding for PC3 | 11/29/11 | **Revised** to clarify that the data formerly included in the *Checklist for Participants in Pay Status at DOPT* (removed as of this date) is actually to be included in the *Estimated Benefit Adjustments Analysis Memo*. |
| | 05/30/08 | **Revised** to replace instructions for and references to Checklist for Participants in Pay Status at DOPT *(pipsdopt.doc)* with Estimated Benefit Adjustments Worksheet *(EstBenAdjWksht.doc)*. |
| | 07/28/06 | **Revised** to add step for auditor to provide estimated asset figure to actuary; update policy reference; and remove language about early BDLs. |
| **Process 10.4** Identify Current Payees for Benefit Adjustments | 11/29/11 | **Revised** to clarify that the *Estimated Benefits Adjustment Worksheet* is optional, with formatting changes, and to indicate approval and routing of the |

| | | |
|---|---|---|
| | | *Estimated Benefit Adjustments Analysis Memo*. |
| | 08/30/11 | **Revised** to replace *Early Plan Analysis Memo (EPAM)* with *Estimated Benefit Adjustments Analysis Memo*. |
| | 07/31/09 | **Revised** with steps to complete the Early Plan Analysis Memo; **replaced** Datahub reference with TP 59: Data Load Requests procedures; misc. edits. |
| | 05/30/08 | **Revised** to replace references to Checklist for Participants in Pay Status at DOPT *(pipsdopt.doc)* with Estimated Benefit Adjustments Worksheet *(EstBenAdjWksht.doc)*; and to add step for applying substantial owner or majority owner (PPA 2006) reductions. |
| | 07/28/06 | **Revised** to list a policy bulletin and the Actuarial Technical Manual as guidance; clarify the order in which benefit reductions are applied; indicate that management concurrence is required on the benefit adjustments memo, which must be completed even if there are no adjustments; and to clarify when the Estimated Cutbacks/Adjustments Milestone may be finalized. |
| **Process 10.5** Prepare Estimated Benefits Calculation Tool | 11/29/11 | **Revised** to remove references to Ariel, and to move the step for completing *Estimated Benefits Administration Analysis Memo* (renamed from the *Pre-Benefit Estimation Analysis and Benefit Administration Memo*) to the end of the procedure. |
| | 08/30/11 | **Revised** to replace *Early Plan Analysis Memo (EPAM)* with *Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*. |
| | 03/26/10 | **Added** step to update the Benefit Estimation Tool Milestone in CMS. |
| | 07/31/09 | **Renumbered** section; **added** step on the Early Plan Analysis Memo. |
| **Process 10.5** Inform Plan Administrator of Fiduciary Duty | 07/28/06 | **Removed** from the manual. |
| **Process 10.6** Forms, Letters, Memos | 08/30/11 | **Added:**<br>*Estimated Benefit Adjustments Analysis Memo*<br>*Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*<br>*Pre-Trusteeship Letter Analysis Memo*<br>**Removed:**<br>*Early Plan Analysis Memo (EPAM)* |
| | 07/31/09 | **Renumbered** section; **added** Preliminary Plan Summary; **added** Early |

| | | |
|---|---|---|
| | | Plan Analysis Memo. |
| **Process 10.6** Prepare the Estimated Benefits Calculation Tool | 07/28/06 | **Revised** to state that the procedure only applies to non-Ariel cases. |
| **Process 10.7** Initiate Benefit Adjustment Datahub Load | 01/31/08 | **Revised** to reference new ValPatch procedures instead of ValPatch Overview Page. |
| **Process 10.9** Review Benefit Adjustment Pre-Load Data | 11/30/06 | **Revised** to remove FBA as process co-owner. |
| **Process 10.10** Review and Authorize Benefit Adjustment Datahub Load | 11/30/06 | **Revised** to remove FBA as process co-owner, and change reference to Datahub online applications to Datahub Administration System. |
| **Process 10.11** Forms, Letters, Memos | 05/30/08 | **Added:**<br>Estimated Benefit Adjustments Worksheet *(EstBenAdjWksht.doc)*<br>**Revised:**<br>Adjustments to Estimated Guaranteed Benefits Memo *(Adjgb.doc)*<br>**Removed:**<br>Checklist for Participants in Pay Status at DOPT *(pipsdopt.doc)* |
| | 08/31/07 | **Revised:**<br>*Adjustments to Estimated Guaranteed Benefits Memo (adjgb.doc)* |
| | 07/12/06 | **Revised:**<br>Adjustments to Estimated Guaranteed Benefits Memo (adjgb.doc)<br>**Deleted:**<br>Request Plan Administrator to Adjust Benefits Letter (Paadjben.doc) |

## Processes 11–15 (2006-2011)

**11/20/2015**

**Processes 11–15 Table (2006-2011)**

| Process | Date | Change |
|---|---|---|
| **Process 11** Data Collection and Analysis | 01/15/10 | **Added** new section to document processes performed with new data acquisition procedures. |
| **Process 11** Develop Data Acquisition Plan and Database Construction Document | 03/27/09 | **Retitled section, and revised and reformatted** throughout to replace the Audit Program processes with the Data Acquisition processes and documentation. |
| **Process 11.1** Hold Strategy Meetings | 03/30/11 | **Revised** to refer to Receiving Data on non-PBGC Sanctioned Media and add DMC management to the list of invitees to the strategy meetings. |
| | 08/23/10 | **Revised** to direct the case team to request the assistance of a Data Specialist, if needed, to bring in data. |
| **Process 11.2** Determine Scope of Audits and Prepare Audit Program | 07/11/08 | **Revised** to remove references to pre-termination processes. |
| **Process 11.2A** Perform Pre-Site Visit Tasks | 08/30/11 | **Revised** to clarify that documents obtained at site visits are to be shipped only to PBGC's Kingstowne address. |
| | 03/30/11 | **Revised** to instruct user to prepare for data transfer according to guidance in *Receiving Data on non-PBGC Sanctioned Media* and add a step for DMC to perform analysis and prepare a data capture recommendation to the TPD case team. |
| | 03/26/10 | **Added** link to new *Trip Planning Memo Example*. |
| **Process 11.2C** Review On-Site Documents | 08/30/11 | **Revised** to clarify that documents obtained at site visits are to be shipped only to PBGC's Kingstowne address. |
| | 03/30/11 | **Revised** to reference *Receiving Data on non-PBGC Sanctioned Media*, to add steps for the DMC to image files according to the data capture recommendation, and for either the DMC or TPD Case Team to ship the files. |
| | 08/23/10 | **Revised** with new step to complete the *Post-Trip Memo*, to add to the list of documents to acquire, and to state to review the "best available" instead of "at least five" data element sources. |
| **Process 11.5** Forms, Letters, Memos | 03/30/11 | **Added:**<br><br>*DMC Data Capture Memorandum* |
| | 03/26/10 | **Added** new *Trip Planning Memo Example*, revised *Trip Planning Memo*. |

| | | |
|---|---|---|
| **Process 12** Overview for Small Plan Database Construction and Analysis | 03/30/11 | **Revised** to note that when constructing a database for a small plan, TPDs may follow procedures in Process 13 Participant Database Construction and Reporting. |
| **Process 12** Small Plan Database Construction and Analysis | 01/15/10 | **Added** new section to document processes performed with new data acquisition procedures for small plans; this section replaces previous interim procedures. |
| **Process 12** Evaluate Plan Documents & Participant Data | 03/27/09 | **Revised and reformatted** throughout to replace the existing processes, including the Participant Data Audit Report, with the new Data Acquisition processes and documentation. |
| **Process 12.1** Construct Participant Database for Small Plan | 03/30/11 | **Revised** to note that if the database review shows any errors, the database reviewer requests the TPD auditor to consult with the Auditor Technical Reviewer (ATR) about expanding the sample. |
| | 08/23/10 | **Revised** with new step to contact OASD as needed to perform a Leo data merge of Spectrum and e-data. |
| **Process 12.1** Finalize Plan Document Audit | 05/30/08 | **Revised** to refer to majority as well as substantial owners (per PPA 2006). |
| **Process 12.2** Test Participant Database for Small Plan | 08/30/11 | **Revised** to indicate there is now a single sample *Small Plan Database Construction and Analysis Report* (previously there were two). |
| | 11/29/10 | **Revised** to clarify that the auditor is responsible for reviewing the database, and therefore cannot also be the database builder; and with a new step for the auditor to archive the database. |
| | 08/23/10 | **Revised** to add a step for the auditor to review and concur on the *Small Plan Database Construction and Analysis Report*; to repeat testing until no errors are found; and to state that the auditor can prepare the *Small Plan Database Construction and Analysis Report* if someone else builds the database. |
| **Process 12.2** Prepare Plan Abstract | 05/30/08 | **Revised** ERISA and removed CFR reference; replaced reference to Checklist for Participants in Pay Status at DOPT *(pipsdopt.doc)* with Estimated Benefit Adjustments Worksheet *(EstBenAdjWksht.doc)*; revised steps for reviewing plan documents for phase-ins for PPA 2006. |
| | 03/31/06 | **Revised** to reflect the removal of Process 18 from the manual. |
| **Process 12.3** Forms, Letters, Memos | 08/30/11 | **Removed:**<br>*Small Plan Database Construction and* |

| | | |
|---|---|---|
| | | *Analysis Report Sample 2* |
| **Process 12.6** Build Participant Database | 09/25/09 | **Revised** to clarify that the auditor determines who builds the database, provides instructions and images them to the plan file, and monitors the process. |
| | 08/28/09 | **Added** references to *Leo/ACT Format User Manual* and *Database Construction Guidelines*. |
| | 07/25/08 | **Revised** to indicate that loading spousal data for non-payees is not required unless the data are available electronically. |
| **Process 12.7** Audit Participant Database | 05/26/06 | **Revised** to indicate that sub-populations are not mandatory for all plans. |
| **Process 12.8** Prepare Participant Data Audit Report | 08/25/06 | **Revised** to remove 2-day requirement when submitting report to MCU for review. |
| | 05/26/06 | **Revised** in entirety to reflect current processing, including new requirement for review by BAPD Audit Review Program. |
| **Process 12.9** Forms, Letters, Memos | 05/29/09 | **Revised** to reflect form name and/or usage changes |
| | 05/30/08 | **Removed** Checklist for Participants in Pay Status at DOPT *(pipsdopt.doc)*<br><br>Checklist for Participants in Pay Status at DOPT *(pipsdopt.doc)*<br><br>**Added** Estimated Benefit Adjustments Worksheet *(EstBenAdjWksht.doc)* |
| | 01/30/07 | **Revised:**<br>*Participant Data Audit Report (Pdarept.doc)* |
| | 06/02/06 | **Revised:**<br>*Participant Data Audit Report (Pdarept.doc)* |
| | 01/19/06 | **Revised** Participant Data Audit Report (pdarept.doc) |
| **Process 13** Participant Database Construction and Reporting | 01/15/10 | **Added** new section to document processes performed with new data acquisition procedures. |
| **Process 13** Verify Data for Participant Database – Overview | 09/29/06 | **Removed** instructional content for placement in action steps, as appropriate. |
| **Process 13.1** Verify Data from Returned Forms | 09/12/08 | **Revised** to clarify that PIFs are sent to all participants and beneficiaries in pay status at DOTR. |
| | 07/25/08 | **Revised** to indicate that loading spousal data for non-payees is not required unless the data are available electronically. |
| | 09/29/06 | **Revised** to indicate that the GIF may be used in limited circumstances; to include instructional content removed from the Overview; and misc. edits. |
| **Process 13.1A** Prepare Database and | 11/29/10 | **Revised** to indicate that the data elements list is created in Leo, and that |

| | | |
|---|---|---|
| Load Initial Data | | the auditor determines the sources for the database. |
| **Process 13.1A** Verify Data from Returned Forms - PA | 05/29/09 | **Added** reference to the new TGBR Job Aid. |
| | 04/24/09 | **Added** reference to TGBR web site as source for bank information. |
| | 03/27/09 | **Revised** to remove statement that PIFs received via MyPBA automatically update PRISM and data verification is not necessary. |
| | 05/31/07 | **Revised** with new title of eALG 530 letter and to indicate that the designation of beneficiary form is optional. |
| **Process 13.2** Verify Data from Returned Forms - Auditor | 05/31/07 | **Revised:**<br><br>eALG 530 Request for Additional Documentation/Information |
| **Process 13.2A** Monitor Participant Database in Leo | 08/23/10 | **Retitled and revised** to reflect the use of Leo in the procedure. |
| **Process 13.3A** Finalize Reasonable Test and Spectrum Reconciliation | 08/23/10 | **Revised** to state to work with OASD to archive the participant database, and updated to reflect current processing using Leo. |
| **Process 13.3B** Prepare Database Construction Report and Participant Review Summary | 08/30/11 | **Revised** to clarify that the *Data Acquisition Plan and Database Construction Outline and Documentation* is to be imaged at the same time as the completed *Database Construction Report* and *Participant Review Summary*. |
| **Process 13.3B** Prepare Database Construction and Participant Audit Summary | 03/30/11 | **Revised** to add the *Post-Trip Memo* and additional Leo Reports to the list of documents to attach or reference. |
| | 08/23/10 | **Revised** to add the Leo Reports and other documents to be referenced in the report, and that the CMS task is to be returned to TPD management. |
| | 03/26/10 | **Revised** to correct name of Participant Data Audit Milestone. |
| **Process 13.4** Forms, Letters, Memos | 03/30/11 | **Added:**<br><br>*Post-Trip Memo* |
| | 08/23/10 | Revised to standardize list in accordance with current document naming conventions. |
| **Process 14** Controlled Group and Net Worth Determinations | 11/29/10 | **Removed** from the manual. |
| | 01/15/10 | **Renamed** from Determine Controlled Group and Net Worth. |
| **Process 14** Determine Controlled Group and Net Worth | 07/28/06 | **Revised** Workflow. |
| **Process 14** Controlled Group and Net Worth Determinations - Overview | 03/26/10 | **Replaced** references to OGC with OCC. |
| | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim* |

| | | |
|---|---|---|
| | | *Guidance*. |
| **Process 14.1** Review DISC Controlled Group Findings | 03/26/10 | **Replaced** references to OGC with OCC. |
| | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| **Process 14.2** Perform TPD Controlled Group Analysis | 03/26/10 | **Replaced** references to OGC with OCC. |
| **Process 14.3** Draft Request for Payment/Assist in Filing Liens | 03/26/10 | **Replaced** references to OGC with OCC. |
| **Process 14.4** Forms, Letters, Memos | 01/31/08 | **Revised:**<br>• Request for Payment Letter (Reqpay.doc) |
| | 01/19/06 | **Revised:**<br>• Administrative Review Procedures (Adrev_el.doc)<br>• Request for Payment Letter (Reqpay.doc) |
| **Process 15** Plan Asset Audits | 09/26/08 | **Revised** process in entirety. |
| **Process 15** Audit Plan Assets | 07/28/06 | **Revised** Workflow |
| **Process 15** Overview | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| **Process 15** Plan Asset Audits - Workflow | 11/29/10 | **Revised** to reflect new section titles. |
| **Process 15.1** Create and Maintain Work Papers | 11/29/10 | **Revised** to remove references to *Plan Asset Audit DOPT Valuation Worksheets – Sample*. |
| | 03/27/09 | **Revised** to move step to use Work Paper Template from introduction to step 4. |
| | 10/31/08 | **Revised** to rename Plan Asset Audits DOPT Valuation Worksheet (Sample) *(SamplePAAValuationWorksheets.xls)* |
| **Process 15.1** Perform Initial Analysis | 07/11/08 | **Revised** to remove references to pre-termination processes. |
| | 06/27/08 | **Added** reference to new section Plan Asset Audit Reconciliation: Interim Procedures for Forms 1108 and CMS. |
| **Process 15.2** Value Insurance Contracts | 04/27/07 | **Revised** to remove references to deleted Policy 4.1-1 Value Group Insurance Contracts. |
| **Process 15.3** Perform Initial Analysis | 03/30/11 | **Added** reference to *Receiving Data on non-PBGC Sanctioned Media*. |
| | 01/30/09 | **Revised** to reference TP 58: Plan Loans and Other Distributions, and indicate that unpaid loan balances at DOPT are to be included as a plan asset. |
| **Process 15.3** Value Hard-To-Value Assets | 11/30/07 | **Revised** procedure reference. |

| | | |
|---|---|---|
| **Process 15.4** Value Plan Liabilities | 01/30/07 | **Added** new policy reference. |
| **Process 15.4A** Complete Risk Assessment | 03/26/10 | **Revised** to add OCC Assistant General Counsel and Assistant Inspector General Chief for Investigation to receive copies of the *Departmental Notification Memo*, and to specify who meets with the BAPD Audit Program Manager and who performs follow-up action. |
| | 03/27/09 | **Revised** to clarify that a risk assessment may not be needed if there is an ongoing investigation at another ERISA agency. |
| **Process 15.4B** Conduct Enhanced Plan Asset Audit | 03/26/10 | **Revised** to clarify the roles of OCC and OGC. |
| **Process 15.5:** Compare Plan Asset Statements with Form 5500s | 03/27/09 | **Revised** section title (added "Forms"). |
| **Process 15.6** Complete Plan Asset Audit Report | 06/27/08 | **Added** reference to new section Plan Asset Audit Reconciliation: Interim Procedures for Forms 1108 and CMS. |
| **Process 15.7** Forms, Letters, Memos | 06/27/08 | **Added:**<br><br>Form 1108F Plan Asset Reconciliation Form - Final<br>(Form 1108F.doc)<br><br>**Removed:**<br><br>Form 1108S Plan Asset Reconciliation - SPDRR<br>(1108S.doc) |
| **Process 15.8** Prepare for Site Visit and/or Telephone Conference | 03/30/11 | **Added** reference to *Receiving Data on non-PBGC Sanctioned Media*. |
| | 11/29/10 | **Revised** to remove mentions of controlled group and net worth audits, and the reference to the Data Acquisition resource. on the Portal. |
| **Process 15.9** Value Plan Assets | 11/29/11 | **Revised** reference to retitled Process 15.9E. |
| | 03/27/09 | **Removed** step to develop a working trial balance of plan assets as of DOPT; misc. edit. |
| **Process 15.9** Value Plan Assets | 11/29/11 | **Revised** reference to retitled Process 15.9E. |
| | 03/27/09 | **Removed** step to develop a working trial balance of plan assets as of DOPT; misc. edit. |
| **Process 15.9B** Value Investment Accounts and Securities | 03/27/09 | **Revised** to indicate that step to perform calculations to transform reported price into actual price per share is done only if needed. |
| **Process 15.9C** Value Non-Traditional Plan Assets | 03/26/10 | **Added** step to update the Hard to Value Milestone in CMS. |
| **Process 15.9D** Handle Master Trusts, Common or Collective Trusts, and Similar Vehicles | 08/30/11 | **Renamed and revised** in entirety. |
| | | |

| | | |
|---|---|---|
| **Process 15.9E** Value Insurance Contracts and Other Investment Arrangements with Insurance Companies | 11/29/11 | **Retitled** and **revised** by integrating previous interim procedures to replace existing content of this section. |
| **Process 15.9E** Value Insurance Contracts | 08/30/11 | **Revised** to indicate that new Valuing Insurance Contracts and Other Investment Arrangements with Insurance Companies Interim Procedures is to be used for valuing insurance contracts. |
| **Process 15.10A** Value Participant Loans | 03/30/11 | **Updated** link to TP 58.3A Determine Unpaid Loan Balance at Date of Plan Termination and Notify Borrower. |
| | 01/30/09 | **Revised** to reference TP 58: Plan Loans and Other Distributions, and indicate that unpaid loan balances at DOPT are to be included as a plan asset. |
| **Process 15.10B** Value Due and Unpaid Employer Contributions | 08/30/11 | **Revised** to correct the example for calculating the Valuation DUEC in step 4. |
| | 11/29/10 | **Revised** to replace the term (and steps concerning) Final DUEC with Recoverable DUEC; and to clarify the formula for determining the Valuation DUEC. |
| **Process 15.11B** Calculate Interest Accruals for Securities | 03/27/09 | **Revised** to clarify calculation of semiannual interest amount. |
| **Process 15.13** Prepare Plan Asset Evaluation Report | 08/30/11 | **Renamed and revised** in entirety to include steps for completing the Form 1108. |
| **Process 15.13** Prepare Plan Asset Audit Report | 11/29/10 | **Revised** to remove obsolete reference to the Unpaid Minimum Funding Contributions and Unfunded Benefits (M&R) DUEC Valuation. |
| **Process 15.14** Reconcile Plan Assets with FOD/IAB | 08/30/11 | **Renamed and revised** in entirety to consolidate previous 15.14A, 15.14B, and Form 1108 Reconciliation Process Interim Procedure; and to move to Process 15.13 steps for completing the Form 1108. |
| **Process 15.14** Reconcile Valuation Plan Assets | 03/30/11 | **Added** cross-reference to new Form 1108 Reconciliation Process Interim Procedure. |
| | 11/29/10 | **Revised** to remove references to interim procedures, and to reflect the consolidation of the subsections. |
| | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| | 12/19/08 | **Revised** to reflect revised routing of Form 1108 (F or S); that meetings will occur between BAPD Auditor and FOD Trust Accountant to reconcile asset amounts; and required sign-offs. |
| **Process 15.14A** Reconcile Plan Assets: SPDRR Plans | 11/29/10 | **Renamed and revised** to merge with previous Process 15.14B Reconcile Plan Assets: SPDRR Plans with Zero DUEC. |
| | | |

| | | |
|---|---|---|
| **Process 15.14A** Reconcile Plan Assets: SPDRR Plans with DUEC Greater than Zero | 08/23/10 | **Revised** to note that if a Form 1108 is revised after being finalized by FOD, to indicate this on the form, and to number any subsequent revisions. |
| **Process 15.14B** Reconcile Plan Assets: Non-SPDRR Plans | 11/29/10 | **Renumbered** from 15.14C, since previous Process 15.14B Reconcile Plan Assets: SPDRR Plans with Zero DUEC was merged with 15.14A. |
| **Process 15.14B** Reconcile Plan Assets: SPDRR Plans with Zero DUEC | 08/23/10 | **Revised** to note that if a Form 1108 is revised after being finalized by FOD, to indicate this on the form and to number any subsequent revisions. |
| **Process 15.14C** Reconcile Plan Assets: Non-SPDRR Plans | 08/23/10 | **Revised** to note that if a Form 1108 is revised after being finalized by FOD, to indicate this on the form and to number any subsequent revisions. |
| **Process 15.15** Forms, Letters, Memos | 11/29/10 | **Added:**<br>*Form 1108 Plan Asset Reconciliation*<br>**Removed:**<br>*Form 1108F Plan Asset Reconciliation - Final*<br>*Form 1108S Plan Asset Reconciliation - SPDRR*<br>*Plan Asset Audit DOPT Valuation Worksheets – Sample* |
| | 10/31/08 | **Renamed:**<br>• Plan Asset Audits DOPT Valuation Worksheet (Sample) *(SamplePAAValuationWorksheets.xls)*<br>**Revised:**<br>• Departmental Notification Memo *(NotificationMemo.doc)*<br>• Plan Asset Audit DOPT Valuation Worksheets *(PAAValuationWorksheets.xls)*<br>• Plan Asset Audit DOPT Valuation Worksheets – Sample *(SamplePAAValuationWorksheets.xls)*<br>• Plan Asset Audit Report *(PAAReport.doc)*<br>• Risk Assessment for Fiduciary Breach and/or Conflict of Interest for Plan Asset Audit *(PAARiskAssess.doc)* |

## Processes 16–17 (2006-2011)

**11/20/2015**

**Processes 16–17 Table (2006-2011)**

| Process | Date | Change |
|---|---|---|
| **Process 16** Recovery Valuation and Allocation | 11/29/10 | **Removed** from the manual. |
| | 12/19/08 | **Recategorized** under Audit Processes (previously under Valuation Processes). No content changes. |
| | 11/30/07 | **Renamed and revised** entire section. |
| **Process 16** Value Recoveries and Allocate to Claims | 07/28/06 | **Revised** Workflow. |
| **Process 16** Overview | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| **Process 16.1** Determine Status of Recoveries | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| **Process 16.6** Prepare Recovery Valuation and Allocation Memorandum | 09/12/08 | **Revised** to change UBL threshold to $25 million for (and further clarify definition of) RVG cases, and to update policy reference. |
| **Process 17** Actuarial Valuation | 03/30/11 | **Re-titled and revised** in entirety. |
| **Process 17** Actuarial Valuation Report & Software | 01/15/10 | **Renamed** from Prepare Actuarial Valuation Report & Software. |
| **Process 17** Prepare Actuarial Case Report & Software | 07/28/06 | **Revised** Workflow. |
| **Process 17.1** Reconcile Participant Database | 08/23/10 | **Revised** to remove the step to send the Reconciled Participant Database to the OASD Services mailbox to request conversion to valuation data. |
| | 05/30/08 | **Revised** to indicate "OASD Services" replaces previous mailbox used in procedure. |
| | 05/30/08 | **Revised** reference to ACT Home Page. |
| **Process 17.2** Convert Participant Database to an ACT Database | 05/30/08 | **Revised** reference to ACT Home Page. |
| **Process 17.4** Determine Plan 4022(c) Amount | 07/11/08 | **Revised** to remove references to pre-termination processes, and clarify the reference to PPA is to the act of 1987. |
| **Process 17.8** Finalize Actuarial Case Report Package & Review | 09/25/09 | **Added** reference to TP 16 for instructions on imaging to the plan file. |
| | 05/30/08 | **Revised** reference to ACT Home Page. |
| **Process 17.9** Perform Final Software Review | 09/12/08 | **Removed** reference to Novell Delivered Applications. |
| | | |

| | | |
|---|---|---|
| | 05/30/08 | **Revised** reference to ACT Home Page. |
| **Process 17.10** Perform Software Closeout (OASD) | 09/12/08 | **Removed** reference to Novell Delivered Applications. |
| **Process 17.11** Close Out Software (OASD) | 05/30/08 | **Revised** reference to ACT Home Page. |
| **Process 17.13** Reconcile PRISM & Archived databases | 09/28/07 | **Replaced** reference to CMS/PRISM with CMS/Genesis. |

Top of Page

## Processes 18–20 (2006-2011)

**11/20/2015**

**Processes 18–20 Table (2006-2011)**

| Process | Date | Change |
|---|---|---|
| **Process 18** Identify Types of BDLs for Case | 03/31/06 | **Removed** from the manual since this process is obsolete. Space reserved for future use. |
| **Process 19** Benefit Determination Letters | 07/28/06 | **Revised** Workflow. |
| | 03/31/06 | **Renamed** from Issue BDLs and Make Adjustments to Payments. |
| **Process 19** Overview for Benefit Determination Letters | 09/28/07 | **Added** information about and link to new optional *Letter Authorization Checklist (LetterAuthCklist.doc)*. |
| | 03/30/07 | **Added** cross-reference to new cash balance procedures. |
| | 10/27/06 | **Revised** to mention Mid-Valuation BDLs. |
| | 03/31/06 | **Revised** in entirety. |
| **Process 19** Workflow | 01/31/08 | **Revised** to include Process 19.7: Mid-Valuation Benefit Determination Letters in Workflow. |
| | 06/30/06 | **Revised** to reflect new title for Process 20: Appeals Correspondence. |
| | 03/31/06 | **Revised** to reflect renamed processes. |
| **Process 19** Issue BDLs & Make Adjustments to Payments - Overview | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **Process 19.1** Create Early BDL Database and Issue Early BDLs | 11/29/11 | **Revised** to add participants receiving disability benefits to list of participants not to receive an early BDL. |
| | 03/26/10 | **Revised** to indicate that benefit statements are not required for participants put into pay status by the plan administrator after DOPT and before DOTR, who should receive a 400-series BDL. |
| | 05/30/08 | **Revised** to refer to majority as well as substantial owners (per PPA 2006). |
| | 01/31/08 | **Revised** to reference new ValPatch procedures instead of ValPatch Overview Page. |
| | 09/28/07 | **Added** information about and link to new optional *Letter Authorization Checklist (LetterAuthCklist.doc)*. |
| | 10/27/06 | **Revised** to mention Mid-Valuation BDLs; clarify that actuary reviews benefits in pay status but does not recalculate them; and clarify that all supporting documents are to be imaged with Early BDL Audit Report. |

| | | |
|---|---|---|
| **Process 19.2** Review Actuarial Case Report and Issue BDLs | 11/29/11 | **Revised** to list which eALG series BDLs are to be sent to participants subject to continuous eligibility monitoring; to add step for FBA Management to refer to new Process 19.8 Maintain BDL Review File for Large Plan; and for miscellaneous edits. |
| | 08/30/11 | **Revised** to clarify that work begins upon notification that the ACR is complete (not upon receipt of the report as previously stated). |
| | 03/30/11 | **Revised** to add references to *Benefit Determination Letter Templates* job aid and remove BDL chart in procedure. |
| | 11/29/10 | **Revised** to remove reference to PACS Help. |
| | 03/26/10 | **Revised** to indicate that benefit statements are not required for participants put into pay status by the plan administrator after DOPT and before DOTR, who should receive a 400-series BDL; and to specify the 401 BDL is for participants put into pay status by PBGC. |
| | 11/02/09 | **Revised** to reference Policies 5.8-1 and 5.4-10, and to procedures TP 6: Recover Overpayments and TP 7: Recoup Overpayments. |
| | 08/28/09 | **Added** reference to USERRA Interim Procedures. |
| | 09/28/07 | **Added** information about and link to new optional *Letter Authorization Checklist (LetterAuthCklist.doc)*. |
| | 03/30/07 | **Added** cross-reference to new cash balance procedures. |
| | 02/28/07 | **Revised** to indicate that benefit adjustments, must be made no late than 90 days after expiration of appeals date, and benefits must be in the guaranteed pay source by then. |
| | 03/31/06 | **Renamed** section and revised in entirety. |
| **Process 19.3** Determine Net Overpayment/Underpayment for Annuities | 11/29/11 | **Revised** to clarify that overpayments made to beneficiaries of period certain benefits are written off if the beneficiary was not notified of the payment end date. |
| | 11/29/10 | **Revised** to indicate that customers may receive monthly benefit payments of any dollar amount upon request, which may be documented in CRM (no form is needed); to add information about using the Batch PACS process for a large number of customers; and to reference the OASD Service Catalog. |
| | | |

| | | |
|---|---|---|
| | 10/01/10 | **Revised** to clarify the period to be covered by the PACS calculation; to add information about the $5 rule; and to update references to policies and to PACS Help. |
| | 11/02/09 | **Revised** to reference Policy 6.4-3, and remove requirement to complete write-off memo to file where payee is advised by BDL; and misc. edits. |
| | 09/28/07 | **Revised** with updated recoupment-recovery Policy reference (6.4-1); to eliminate *de minimis* recoupment waiver for plans trusteed after 8/22/07; and to replace PRISM Benefits with Spectrum. |
| | 01/30/07 | **Revised** with instructions on using PACS, and on selecting BDL when there is both an overpayment and an underpayment. Also added new policy references. |
| | 03/31/06 | **Revised** in entirety. |
| **Process 19.4** Determine Net Overpayment/Underpayment for Lump Sums | 08/30/11 | **Revised** to reflect current process by which users issue participants with overpayments a 403-series BDL and follow up according to TP 6.1A. |
| | 11/29/10 | **Revised** to add information about using the Batch PACS process for a large number of customers, and to reference the OASD Service Catalog. |
| | 10/01/10 | **Revised** to update references to policies and to PACS Help. |
| | 11/02/09 | **Revised** to remove requirement to complete write-off memo to file where payee is advised by BDL. |
| | 12/19/08 | **Revised** with new title of Benefit Recovery Coordinator (formerly Recovery Coordinator). |
| | 09/28/07 | **Revised** with updated recoupment-recovery Policy reference (6.4-1). |
| | 01/30/07 | **Added** new policy reference. |
| | 03/31/06 | **Revised** in entirety. |
| **Process 19.5** Issue Corrected or Revised Benefit Determination Letter | 09/28/07 | **Added** information about and link to new optional Letter Authorization Checklist (LetterAuthCklist.doc). |
| | 08/31/07 | **Revised** policy reference. |
| | 06/30/06 | **Revised** to reflect new title of Policy 5.8-1 Benefit Changes and to remove reference to obsolete Policy Bulletin 96-3. |
| **Process 19.6** Issue Limited-Scope BDLs | 09/28/07 | **Added** information about and link to new optional *Letter Authorization Checklist (LetterAuthCklist.doc)*. |
| **Process 19.7** Mid-Valuation Benefit | 11/29/11 | **Revised** to remove Ariel processing |

| | | |
|---|---|---|
| Determination Letters | | steps. |
| | 07/25/08 | **Revised** to indicate "OASD Services" replaces previous mailbox used in procedure. |
| | 01/31/08 | **Revised** to reference new ValPatch procedures instead of ValPatch Overview Page. |
| | 09/28/07 | **Added** information about and link to new optional Letter Authorization Checklist (LetterAuthCklist.doc). |
| | 10/27/06 | **New** procedure. |
| **Process 19.8** Maintain BDL Review File for Large Plan | 11/29/11 | **Added** new section to manual, which replaces the interim procedures issued by e-mail on 09/02/11. |
| **Process 19.8** Forms, Letters, Memos | 03/30/11 | **Added** link to Benefit Determination Letter Templates. |
| | 05/29/09 | **Revised** to reflect form name and/or usage changes. |
| | 09/28/07 | **Added** *Letter Authorization Checklist (LetterAuthCklist.doc)* |
| | 10/27/06 | **Added:**<br>*Ariel Mid-Valuation BDL Checklist (MidValBDLck.doc)*<br>*Mid-Valuation BDLs Memo (MidValBDLmemo.doc)*<br>*Mid-Valuation BDLs Report (MidValBDLrept.doc)* |
| | 07/28/06 | **Revised** Overview to reflect that appeals correspondence is now tracked in CRM rather than SCoRe. |
| | 03/31/06 | **Revised** to specify that BAPD does not implement benefit decreases (rather than changes in general) when a BDL is appealed. |
| **Process 19.9** Resources for Benefit Determination Letters | 11/29/11 | **Revised and renamed** as part of global edit, and renumbered.<br>**Removed** *Ariel Mid-Valuation Checklist*. |
| **Process 20** Workflow | 07/28/06 | **Revised** Workflow. |
| | 06/30/06 | **Revised** to reflect new title for Process 20: Appeals Correspondence. |
| **Process 20** Respond to Appeals Notice and PEAD Referrals (renamed) | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **Process 20** Overview for Appeals Correspondence | 08/30/11 | **Revised** to correct name of RFA correspondence from "Routed" to "Referred." |
| **Process 20.1** Respond to Acknowledgment of Appeal or Extension Request | 12/19/08 | **Revised** with new title of Benefit Recovery Coordinator (formerly Recovery Coordinator). |
| | 09/28/07 | **Replaced** reference to PRISM with |

| | | |
|---|---|---|
| | | Spectrum. |
| | 08/31/07 | **Revised** to mention new appeals forms 723 and 724. |
| | 05/31/07 | **Revised** to remove requirement that PEAD be consulted about actions while an appeal is pending, and that lump sums be paid only after ERD; and to add a reference to Spectrum. |
| | 03/30/07 | **Revised** to clarify that applications must be made complete within 90 days of date of PBGC's request. |
| | 07/28/06 | **Revised** to reflect that appeals correspondence is now tracked in CRM rather than SCoRe. |
| **Process 20.1** Respond to PEAD Acknowledgment of Appeal or Extension Request | 03/31/06 | **Revised** to update policy reference, and indicate that benefit increases can be made if an appeal is received. |
| **Process 20.2** Respond to Appeal Closing Memo | 11/29/10 | **Revised** with updated policy reference. |
| | 10/01/10 | **Revised** with updated policy reference. |
| | 08/23/10 | **Removed** steps for handling similarly situated participants, which is now covered in a separate section (Process 20.5). |
| | 11/02/09 | **Revised** to indicate that changes to the benefit should be made upon receipt of the appeal decision, without regard for providing notice to the payee. |
| | 12/19/08 | **Revised** with new title of Benefit Recovery Coordinator (formerly Recovery Coordinator). |
| | 10/26/07 | **Removed** duplicative note regarding the effect of appeals on de minimis overpayments; **added** reference to Policy 6.4-1. |
| | 08/31/07 | **Revised** to indicate that payment actions in Spectrum must be effective within 90 days, rather than taken within 30 days, of the appeal closing memo. |
| | 07/28/06 | Revised to reflect that appeals correspondence is now tracked in CRM rather than SCoRe. |
| **Process 20.3** Respond to Appeals Division Referral | 11/02/09 | **Revised** to direct follow-up with the appellant if the response will take longer than 45 days and to keep following up as needed. |
| | 12/19/08 | **Revised** with new title of Benefit Recovery Coordinator (formerly Recovery Coordinator). |
| | 07/25/08 | **Revised** to indicate recipients of eALG 532 and 533 letters have an additional 45 days to appeal (previously 30). |
| **Process 20.5** Act on Notice of Similarly Situated Participants | 08/23/10 | **Added** new section. |

| | | |
|---|---|---|
| **Process 20.6** Forms, Letters, Memos | 08/23/10 | **Renumbered** section from 20.5 and standardized list according to current document naming conventions.<br>**Added:**<br>*Similarly Situated Participants Memo* |

## Processes 21–23 (2006-2011)

**11/20/2015**

**Processes 21–24 Table (2006-2011)**

| Process | Date | Change |
|---|---|---|
| **Case Closure Processes (21-23): Introduction** | 06/26/09 | **Revised** to reflect removal of Process 23: Transfer Plan to Ongoing Administrator. |
| **Process 21** Plan Closing | 01/15/10 | **Renamed** from Close Plan. |
| **Process 21** Close Plan | 06/26/09 | **Revised** in entirety. |
| **Process 21** Close Plan, Workflow | 07/28/06 | **Revised** Workflow. |
| **Process 21.1** Correct Plan Closing Report Errors | 11/29/11 | **Revised** to indicate that payees receiving disability or disability-based benefits are to be covered in the *Plan Completion Memo*. |
| | 08/23/10 | **Revised** to add reference to OASD Service Catalog. |
| **Process 21.1** Request Online Plan Closing Report | 07/25/08 | **Revised** to indicate "OASD Services" replaces previous mailbox used in procedure. |
| **Process 21.4** Check Completeness of Participant Records | 03/30/11 | **Replaced** "death certificate" with "Proof of Death." |
| | 11/29/10 | **Revised** with updated policy reference and to reference new customer coding guidance on the Spectrum Home page. |
| | 10/01/10 | **Revised** with updated policy reference. |
| **Process 21.4** Prepare Plan History | 05/30/08 | **Revised** to refer to majority as well as substantial owners (per PPA 2006). |
| | 11/29/11 | **Revised** to indicate that information on Late Retirement, Disability Provisions, Benefit Freeze Date, and other unusual administration issues are to be covered in the *Plan Completion Memo*. |
| **Process 21.6** Verify Plan File | 11/29/10 | **Revised** to remove references to Controlled Group and Net Worth Audit. |
| **Process 21.6** Check Completeness of Participant Files/Records on IPS, PRISM and CRM | 09/28/07 | **Revised** with updated recoupment-recovery policy reference (6.4-1). |
| | 01/30/07 | **Added** new policy reference. |
| **Process 21.8** Correct IPVFB Critical Errors | 08/23/10 | **Revised** to remove obsolete step to contact OASD if an error cannot be corrected in Spectrum. |
| **Process 21.9** Assemble and Submit Plan Completion Memo | 08/30/11 | **Revised** to update term "ongoing administration" to "post-valuation administration." |
| **Process 21.10** Forms, Letters, Memos | 03/26/10 | **Removed** *Quality Review Check Sheet* (not used in this process). |
| **Process 22** Closed Plan Review | 01/15/10 | **Renamed** from Review Closed Plan. |
| | | |

| | | |
|---|---|---|
| **Process 22** Review Closed Plan | 06/26/09 | **Revised** in entirety. |
| | 07/28/06 | **Revised** Workflow. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **Process 22** Overview for Closed Plan Review | 08/30/11 | **Revised** to update term "ongoing administration" to "post-valuation administration." |
| **Process 22.2** Review Closed Plan | 08/30/11 | **Revised** to update term "ongoing administration" to "post-valuation administration." |
| | 11/29/10 | **Revised** with new step to verify customers are coded in accordance with guidance on the Spectrum Home page. |
| | 10/01/10 | **Revised** with updated policy reference. |
| | 03/26/10 | **Added** new step for RSD/PSB to image the Plan Completion Package to the plan file, which is subject to review by RSD. |
| | 10/26/07 | **Revised** to replace reference to Val/IDL with Spectrum. |
| | 10/28/07 | **Revised** with updated recoupment-recovery policy reference (6.4-1). |
| | 01/30/07 | **Added** new policy reference; revised to list Proof of Marriage instead of Marriage Certificate. |
| **Process 23** Transfer Plan to Ongoing Administration | 06/26/09 | **Removed** section. These steps are now included in Process 22. |
| | 09/29/06 | **Revised** Workflow. |
| **Process 23.1** Transfer Administrative Responsibility for Plan | 07/27/07 | **Revised** to remove step to notify participants by letter when a plan is referred to ongoing administration. |
| | 11/30/06 | **Revised** to clarify that open questions are to be annotated in an e-mail or memo rather than the Participant File Inventory. |
| | 05/26/06 | **Added** new step to create plan-specific web announcement for transfer to ongoing administration. |
| | 07/11/97 | **Added** note clarifying that imaged participant files may be more complete than paper participant files |
| **Process 23.2** Forms, Letters, Memos | 07/27/07 | **Removed** FBA Introduction letter (eALG FBA 1, FBA2) |

# Technical Procedures 1–10 (2006-2011)

**11/20/2015**

**Technical Procedures 1–10 Table (2006-2011)**

| Technical Procedure | Date | Change |
|---|---|---|
| **TP 1** Identify Controlled Group | 11/29/10 | **Revised** throughout to remove references to previous interim procedures, and to state that these procedures are to be used only if not completed by DISC. |
| | 09/29/06 | **Revised** Workflow. |
| **TP 1** Overview | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| **TP 1.1** Gather Documents and Identify Owners | 11/02/09 | **Added** reference to new *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance*. |
| **TP 2** Identify Ability to Fund Plan | 11/29/10 | **Revised** throughout to note that these procedures are to be used only if not completed by DISC. |
| **TP 4** Process Address Changes | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 4** Process Address Changes - Overview | 05/31/07 | **Revised** to indicate a verification letter is automatically generated to the customer when an address is changed using CRM; misc. edits. |
| **TP 4.1** Make Address Changes | 05/31/07 | **Revised** to indicate a verification letter is auto-generated when an address is changed through CRM, thus an acknowledgment letter is not necessary. References to changing addresses using PRISM removed. |
| **TP 4.1** Action Steps Make Address Changes | 04/24/09 | **Added** reference to TGBR Web site as source for bank information. |
| **TP 4.1A** Make Address Changes | 05/29/09 | **Added** reference to the new TGBR Job Aid. |
| **TP 4.2** Update Participant Addresses | 05/29/09 | **Added** reference to the new TGBR Job Aid. |
| | 04/24/09 | **Reformatted and revised** to remove statements that initial EDD payments are pre-noted; added reference to TGBR Web site as source for bank information; updated policy and procedure references; misc. edits. |
| | 09/28/07 | **Replaced** reference to PRISM with Spectrum; added reference to Spectrum User Guide. |
| | 05/31/07 | **Revised** to indicate a verification letter is auto-generated when an address is changed through CRM, thus an |

| | | |
|---|---|---|
| | | acknowledgment letter is not necessary. References to changing addresses using PRISM removed. Updated title of eALG 530. |
| **TP 4.3** Forms, Letters, Memos | 05/31/07 | **Added**<br>• eALG 530 Request for Additional Documentation/Information<br>• eALG 531 Receipt of Complete Documentation/Information |
| **TP 5** Death Processing | 03/26/10 | **Retitled and revised** all sections in entirety. |
| **TP 5** Process Deaths | 09/29/06 | **Revised** Workflow. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 5** Process Deaths - Overview | 10/26/07 | **Replaced** references to DeathMatch program with Death Processing program. |
| **TP 5** Process Deaths - Workflow | 10/26/07 | **Revised** to reflect new TP 5.3 Respond to Death Processing Program Service Requests. |
| **TP 5.1** Process Death Notification by Telephone or Mail | 11/02/09 | **Revised** table to reference eCARFs and remove directions for manual CARFs; added step for proceeding according to whether there is an overpayment. |
| | 05/31/07 | **Revised** to indicate new titles of eALG 530 and 531 letters; misc. edits. |
| **TP 5.2** Determine Action on Returned Benefit Checks | 11/02/09 | **Added** reference to TP 6 Recover Overpayments. |
| | 10/26/07 | **Removed** reference to Deathmatch procedures. |
| **TP 5.3** Respond to Death Processing Program Service Requests | 09/26/08 | **Revised** to indicate that the Death Processing program is now run the day before the final transmission to SSC. |
| | 10/26/07 | **New** section replaces TP 5.3 Use Deathmatch Program to Verify Deaths. |
| **TP 5.3A** Date of Death Loaded and Status Change to 7 - Deceased | 11/02/09 | **Added** reference to TP 6: Recover Overpayments. |
| **TP 5.4** Determine Benefits Due Survivor, Beneficiary or Estate | 01/31/08 | **Revised** with updated policy references; clarifications on handling QJSAs; links to new QJSA and FSSB guidance documents; misc. edits. |
| | 11/30/07 | **Revised** Note to correct IRC reference to 1274 (instead of 1247). |
| | 10/26/07 | **Removed** statement regarding temporary benefit suspension for surviving spouses to repay overpayments; minor edits to action steps for clarification. |
| | 01/30/07 | **Added** new policy reference. |
| | 10/27/06 | **Revised** to reflect updated QPSA policy (5.7-2). |
| | | |

| | | |
|---|---|---|
| **TP 5.4A** Determine whether Continuing Benefits are Due | 08/23/10 | **Revised** to clarify language throughout, including on how to proceed when the participant's benefit would have been in pay if not for administrative delay. |
| **TP 5.5** Fix Record After Incorrect Death Entry | 10/31/08 | **Reformatted and revised** to remove references to Data Correction Team, and to direct users |
| **TP 5.5A** Determine Eligibility for Preretirement Survivor Annuities | 08/23/10 | **Revised** to clarify language on how to proceed when the participant's benefit would have been in pay if not for administrative delay. |
| **TP 5.6** Determine Post-Death Payments Designee | 01/30/07 | **Added** new policy reference. |
| | 03/31/06 | **Revised** to include new eALG letters to send to potential designees and new PBGC Payments Owed Deceased Payee Determination Form (decdpayeedet.doc) for staff to complete for all deaths that occur on and after 06/01/2002. |
| **TP 5.7** Forms, Letters, Memos | 10/26/07 | **Added:**<br>• CRM 555 Death Match Letter |
| | 05/31/07 | **Revised:**<br>• eALG 530 Request for Additional Documentation/Information<br>**Added:**<br>• eALG 531 Receipt of Complete Documentation/Information |
| | 03/31/06 | • **Added** new *PBGC Payments Owed Deceased Payee Determination Form (decdpayeedet.doc)*. |
| **TP 5.7A** Determine Beneficiary when Date of Death is on or after June 1, 2002 | 11/29/10 | **Revised** with the revised and retitled form used to document the determination, and to clarify steps on completing and imaging the form. |
| **TP 5.7B** Determine Beneficiary when Date of Death is before June 1, 2002 | 11/29/10 | **Revised** with new steps to complete and image the new determination form. |
| **TP 6.1** Determine Overpayment | 02/29/08 | **Revised** to indicate that the PACS sheet comments section should indicate "Recovery". |
| **TP 6.1** Determine Overpayment Amount and Debtor | 09/05/07 | **Revised** to indicate that PBGC does not seek to recover overpayments in instances where the PBGC notified the debtor more than six years prior. |
| **TP 6.1A** Recovery Due to Benefit Determination Letter | 03/30/11 | **Updated** lockbox address noted on checks mailed to FOD. |
| | 10/01/10 | **Revised** with new step on resending a BDL returned for bad address, and to note that correspondence may be assigned to the Recovery Team in CRM. |
| | 08/23/10 | **Revised** to indicate that Form 718 is only to be mailed by RSD, that TPDs/FBAs are not to acknowledge receipt of payments or a completed 718, |

| | | |
|---|---|---|
| | | and to emphasize that the *Recovery Referral Memo* is to be imaged to the debtor's file. |
| **TP 6.1B** Recovery Due to Death | 03/30/11 | **Updated** lockbox address noted on checks mailed to FOD. |
| | 10/01/10 | **Revised** to note that correspondence may be assigned to the Recovery Team in CRM. |
| | 08/23/10 | **Revised** to indicate that Form 718 is only to be mailed by RSD, and that TPDs/FBAs are not to acknowledge receipt of payments or a completed 718. |
| **TP 6.2B** Initiate Indemnification Request | 03/30/11 | **Revised** to indicate the procedure may also be used for ACH payments posted to the wrong account and to clarify how to obtain a bank's fax number. |
| **TP 6.3B** Process Hardship Requests | 08/23/10 | **Revised** to indicate that if the case involves a debt of less than $10,000 and there was sufficient information more than three years ago for PBGC to pursue the case, but no one did, the debt is to be written off in accordance with OGC guidance. |
| **TP 6.3C** Use Subpoena to Identify ACH Payment Recipient | 11/29/10 | **Revised** to indicate which first demand letter to send in recovery cases not involving a BDL or death. |
| **TP 6.3D** Process Estates, Trusts, and Other Legal Entities | 08/23/10 | **Revised** to indicate that if the case involves a debt of less than $10,000 and there was sufficient information more than three years ago for PBGC to pursue the case, but no one did, the debt is to be written off in accordance with OGC guidance. |
| **TP 6.3E** Process Installment Payment Requests | 10/01/10 | **Revised** to clarify steps to follow after the installment payment agreement is sent. |
| **TP 6.4** Forms, Letters, Memos | 10/01/10 | **Added**<br>*eALG 540 Cover Letter to send with copy of BDL* |
| | 03/26/10 | **Revised** list to reflect all forms referenced in TP 6. |
| **TP 6.4** Forms, Letters, Memos, etc. | 08/25/06 | **Revised** to remove reference to eALG 515 and to update names of letters 504 and 505. |
| **TP 6.5** Forms, Letters, Memos | 02/29/08 | **Revised:**<br>• LOI.dot<br>• LOI Instructions.doc |
| **TP 7** Recoupment and Administrative Correction | 10/01/10 | **Renamed and revised** in entirety. |
| **TP 7** Recoup Overpayments | 09/05/07 | **Revised** throughout to reference new recoupment and recovery Policy (6.4-1). |
| **TP 7** Recoupment and Administrative | 11/29/10 | **Revised** to remove duplicative content. |

| | | |
|---|---|---|
| Correction - Overview | | |
| **TP 7** Recoup Overpayment: Overview | 03/27/09 | **Removed** paragraph stating that if a Revised BDL is issued, recoupment does not apply to the difference between the original and revised amounts. |
| **TP 7.1** Determine Overpayment Amount | 11/29/10 | **Revised** to consolidate steps to clarify processing, and to remove information already covered in TP 7.2 Effect Recoupment and Notify Payee. |
| **TP 7.1** Determine Net Overpayment | 10/26/07 | **Removed** statement that recoupment amounts less than $500 are waived. |
| | 09/05/07 | **Revised** to indicate when to recoup or waive overpayments per revised Policy 6.4-1. |
| | 08/31/07 | **Revised** policy reference. |
| **TP 7.1B** Determine Exceptions to the 10% Recoupment Reduction Limit | 11/29/11 | **Revised** to clarify which disability payees are subject to recoupment above the 10% cap. |
| **TP 7.2** Effect Recoupment and Notify Payee | 03/30/11 | **Updated** the lockbox addresses. |
| **TP 7.2** Identify Exceptions to 10% Reduction | 09/05/07 | **Revised** with language on 25% reduction when recouping overpayments due to working retirement situations. |
| **TP 7.3** Apply Administrative Correction to Benefit Overpayment | 11/29/10 | **Revised** to direct that overpayments due to duplicate checks are to be collected by suspending benefit payments (not by issuing stop payment orders); and that letters advising payees are to be sent as soon as practicable (instead of once the payment actions are approved). |
| **TP 7.4** Effect Recoupment and Notify Payee, if necessary | 10/26/07 | **Removed** reference to particular section in Policy 6.4-1; minor edits. |
| | 09/28/07 | **Replaced** reference to PRISM with Integrator. |
| **TP 7.5** Process 4022(c) Benefit where Title IV benefits are being recouped | 09/28/07 | **Replaced** reference to PRISM with Integrator. |
| **TP 7.6** Take Appropriate Action on Payee's Response | 05/31/07 | **Revised** to indicate eALG 531 is sent to acknowledge receipt of payment. |
| **TP 7.7** Forms Letters Memos | 08/23/10 | **Removed:**<br>*Check Action Request Form (CARF)* |
| | 05/31/07 | **Revised:**<br>eALG 530 Request for Additional Documentation/Information<br>**Added:**<br>eALG 531 Receipt of Complete Documentation/Information |
| **TP 8** Process Received/Returned Check | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 8** Overview for Process | 08/30/11 | **Revised** to remove information about |

| | | |
|---|---|---|
| Received/Returned Check | | checks being received by offices other than the FBA/PVAs, since the DMC would handle them and its process is to be covered in the BPB Manual. |
| **TP 8.1** Process Check | 08/30/11 | **Revised** to cover actions only for FBA/PVA offices if a check is received. |
| | 03/30/11 | **Updated** the lockbox addresses. |
| | 05/31/07 | **Revised** to indicate revised title of eALG 530 letter. |
| **TP 8.3** Forms Letters Memos | 05/31/07 | **Revised**<br><br>eALG 530 Request for Additional Documentation/Information |
| **TP 9** Balance/Reconcile Payments - Overview | 08/23/10 | **Revised** to replace reference to PRISM Balancer with Balancer. |
| **TP 9** Balance/ Reconcile Payments | 07/27/07 | **Revised** throughout for general clarifications, to reflect processing changes due to Spectrum, and to identify specific steps for TPDs and FBAs to resolve variances. |
| **TP 9.1** Resolve Payment Variances | 08/23/10 | **Revised** to replace PRISM with Spectrum where applicable, and eCARF with CARF. |
| | 09/28/07 | **Replaced** reference to PRISM with Spectrum. |
| **TP 9.2** Forms, Letters, Memos | 08/23/10 | **Removed**:<br><br>*Check Action Request Form (CARF)* |
| **TP 10** Income Verifications | 08/30/11 | **Added** new section to manual, replacing previous TP 10 Respond to Correspondence. |
| **TP 10** Respond to Correspondence | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 10.1** Respond to Income Verification Requests Received by TPD/PVA/FBA | 11/29/11 | **Revised** to clarify authorization that is needed from the participant. |
| **TP 10.3** Action Steps: Review Information and Take Action | 08/23/10 | **Revised** to reflect that the electronic Check Action Request Form (eCARF) has replaced the paper CARF. |
| **TP 10.6** Forms Letter Memos | 08/23/10 | **Removed:**<br><br>*Check Action Request Form (CARF)*<br><br>PBGC Directive IM 10-1 |

## Technical Procedures 11–20 (2006-2011)

**11/20/2015**

**Technical Procedures 11–20 Table (2006-2011)**

| Technical Procedure | Date | Change |
|---|---|---|
| **TP 11** Trial Balance | 08/30/11 | **Revised** section throughout to reflect current processing, systems, reports, and to include PVAs as process owners where applicable. |
| | 09/29/06 | **Revised** workflow. |
| | 04/28/06 | **Renamed** from Perform Trial Balance. |
| **TP 11** Trial Balance - Overview | 03/26/10 | **Revised** to reflect current processing and miscellaneous edits. |
| | 04/28/06 | **Revised** to indicate that TPDs and FBAs are responsible for resolving variances; misc. edits. |
| **TP 11.1** Identify and Distribute Variances | 03/26/10 | **Revised** to reflect RSD's use of Oracle Server Account e-mail; to mention false positives; to reference the Variance POC table; and with miscellaneous edits. |
| | 04/28/06 | **Revised** with misc. edits. |
| **TP 11.2** Resolve Variances | 03/26/10 | **Revised** to instruct processing staff to deliver completed Variance Resolution and NFDE forms to their division's Variance Coordinator (instead of to RSD), who images them to IPS to create CRM service requests, and with other minor edits. |
| | 09/28/07 | **Replaced** reference to PRISM with Spectrum. |
| | 04/28/06 | **Revised** to indicate that payment forms 487, 490 and 491 are now processed using NFDE instead of manually; examples of completed forms removed as appropriate to reflect NFDE processing. |
| **TP 11.3** Forms, Letter, Memos, Etc. | 04/28/06 | **Removed** manual forms now available in NFDE and Trial Balance report examples. |
| **TP 12** Fraud and Forgery | 01/27/06 | **Renamed** from Deal with Fraud and Forgery. Removed sections dealing specifically with CARF processing. |
| **TP 12** Fraud and Forgery - Overview | 01/27/06 | **Rewritten** to emphasize that this section is used only when fraud is suspected based on an investigation into non-receipt of a benefit payment. |
| **TP 12** Fraud and Forgery -Workflow | 01/27/06 | **Revised** to reflect that existing sections TP 12.1: Initiate Check Action Request Form and TP 12.3: Stop Payment have been removed since these actions are covered elsewhere. |
| | | |

| | | |
|---|---|---|
| **TP 12.1** Determine Fraud/Forgery | 01/27/06 | **Renumbered** and **retitled** from TP 12.2: Take Actions to Determine Fraud/Forgery. Revised to emphasize that this process follows investigation into non-receipt of benefit payment; adds new steps to record call in CRM in each section; page reformatted. |
| **TP 12.1A** Single Monthly Check - Determine Fraud/Forgery | 08/23/10 | **Revised** to specify whether the check is to be replaced through Spectrum along with a CARF, or through NFDE. |
| | 01/30/07 | **Updated** policy reference. |
| **TP 12.1B** Multiple Monthly Checks | 08/23/10 | **Revised** to specify whether the check is to be replaced through Spectrum along with a CARF, or through NFDE. |
| | 01/30/07 | **Updated** policy reference. |
| | 10/27/06 | **Revised** to clarify which parts of Form 200 are to be completed by BAPD, and which by OIG. |
| **TP 12.1C** Lump Sums, Special Checks – Determine Fraud/Forgery | 08/23/10 | **Revised** to specify whether the check is to be replaced through Spectrum along with a CARF, or through NFDE. |
| | 01/30/07 | **Updated** policy reference. |
| **TP 12.1C** Lump Sum, Special Checks | 10/27/06 | **Revised** to clarify which parts of Form 200 are to be completed by BAPD, and which by OIG. |
| **TP 12.2** Forms, Letters, Memos | 08/23/10 | **Revised** list according to current document naming conventions. |
| | 01/27/06 | **Renumbered** from TP 12.4. |
| **TP 13** Domestic Relations Orders and State Agency Orders | 08/30/11 | **Renamed and revised** in entirety. |
| **TP 13.1** Review Domestic Relations Order (DRO) | 03/26/10 | **Clarified** that the orders from state agencies are faxed only to the OCC QDRO POC via the OCC file room and not to OPSS as well. The fax cover sheet is also revised. |
| **TP 13.3** Make QDRO Payments | 11/29/10 | **Revised** to remove instructions to send an eALG 612 letter requesting full repayment if PBGC did not timely reduce a participant's benefit upon receipt of a DRO, causing an overpayment. |
| | 10/01/10 | **Revised** to indicate to contact OPSS if PBGC does not timely reduce a participant's benefit upon receipt of a DRO causing an overpayment. |
| | 03/26/10 | **Added** reference to Appendix R: 2 IRS Levies. |
| | 05/29/09 | **Revised** in entirety with additional information and clarifications on paying QDRO benefits. |
| | 09/28/07 | **Removed** sentence indicating the QDRO Escrow deduction field is not used to process a QDRO deduction. |
| | | |

| | | |
|---|---|---|
| | 01/30/07 | **Updated** policy reference, and revised to indicate when to add interest. |
| | 02/24/06 | Misc. edits. |
| **TP 13.4** Make Qualified Domestic Relations Order Payments | 03/03/11 | **Added** reference to *Receiving Data on non-PBGC Sanctioned Media*. |
| | 07/31/09 | **Revised** to reflect replacement of Datahub with TP 59: Data Load Requests procedures. |
| **TP 13.5** Forms, Letters, Memos | 11/29/10 | **Removed:**<br>• eALG 612 Request for Repayment of Overpayment |
| | 05/31/07 | **Revised:**<br>• eALG 530 Request for Additional Documentation/Information |
| | 02/24/06 | **Revised** with new OCC fax cover sheet (QDOCCfax.doc); deleted OGC fax cover sheet (QDOGCfax.doc). |
| **TP 14.2** Plan Meeting(s) | 05/26/06 | **Added** step to create plan-specific web announcement for plan meeting. |
| | 03/31/06 | **Revised** to replace Meeting Letter (eALG 522) with Meeting Notification (eALG 114). |
| **TP 14.2B** Plan Participant Meeting | 08/23/10 | **Revised** to replace Office of the Executive Director (OED) with Office of the Director (OD). |
| **TP 14.3** Hold Meeting(s) | 03/30/11 | **Revised** to instruct user to ship files in compliance with guidance in *Receiving Data on non-PBGC Sanctioned Media*. |
| **TP 14.5** Forms, Letters, Memos | 05/26/06 | **New:**<br>*Webpage Participant Meeting Announcement (WebMtgAnn.doc)*. |
| | 03/31/06 | **Revised** to replace Meeting Letter (eALG 522) with Meeting Notification (eALG 114). |
| **TP 15** Prepare and Mail Letters - Overview | 09/28/07 | **Revised** with general edits to second paragraph for clarity. |
| **TP 15.1** Prepare and Mail Letter(s) | 09/28/07 | **Added** information about and link to new optional *Letter Authorization Checklist (LetterAuthCklist.doc)*. |
| **TP 15.2** Forms, Letters, Memos | 09/28/07 | **Added:**<br>*Letter Authorization Checklist (LetterAuthCklist.doc)* |
| **TP 16** Plan and Participant File Maintenance | 08/30/11 | **Revised** in entirety to include electronic importing of documents to plan and participant files, and to consolidate imaging procedures and guideline tables (including DMC's) formerly covered in TP 34 Request DMC Services. |
| **TP 16** Plan and Participant File Maintenance - Overview | 09/25/09 | **Revised** to mention the new import process for imaging to the plan file. |
| | | **Renamed, reformatted and revised** |

| | | |
|---|---|---|
| | 04/25/08 | in entirety to reflect new IPS indexing specifications and help file, users' ability to print bar code sheets, and to remove procedures for creating and maintaining paper files. |
| **TP 16.1** Maintain Plan File | 09/25/09 | **Revised** to mention the new import process for imaging to the plan file, with a link to the user guide describing the process. |
| **TP 16.2** Maintain Participant File | 08/23/10 | **Revised** the documents list to replace the *Check Action Request Form (CARF)* with the eCARF. |
| | 03/26/10 | **Replaced** references to OGC with OCC. |
| **TP 16.3** Forms, Letters, Memos, etc. | 09/25/09 | **Added** *IPS Import Request Form*. |
| **TP 16.3** Maintain Participant File | 09/29/06 | **Revised** to indicate that the GIF may be used in limited circumstances. |
| **TP 16.4** Forms, Letters, Memos | 09/29/06 | **Added:**<br>General Information Form (GIF)<br>Payee Information Form (PIF) |
| **TP 17** Policy and Processing Questions | 11/30/07 | **Renamed** section and **revised** in entirety. |
| **TP 19.1** Research Participant Entitlement Eligibility | 10/26/07 | **Revised** to replace reference to Val/IDL with Spectrum. |
| | 05/31/07 | **Revised** to indicate when to issue updated eALG 530 and 531 letters. |
| **TP 19.2** Forms, Letters & Memos | 05/31/07 | **Revised:**<br>• eALG 530 Request for Additional Documentation/Information **Added**<br>• eALG 531 Receipt of Complete Documentation/Information |
| **TP 20** Benefit Payments | 03/26/10 | **Retitled and revised** section in its entirety. |
| **TP 20** Form 700 Annuity Application Review Table | 08/23/10 | **Revised** to add reference to the *PBGC Benefit Form Elections Job Aid*. |
| **TP 20** Form 700 Participant Application for Pension Benefits Review Table | 11/29/11 | **Revised** to clarify that proof of marriage is required if the applicant is married (not only for certain benefit forms). |
| | 08/30/11 | **Revised** title to indicate form name, and revised table to reference new section TP 20.5I, and to note the exception on paying a QJSA when the only missing information is spousal consent. |
| **TP 20** Form 703 Application for Elective Lump-Sum Payment Review Table | 08/30/11 | **Revised** title to indicate form name, and revised table to reference new section TP 20.5I Payments to Minor Children. |
| **TP 20** Form 705 Annuity Application Review Table | 08/23/10 | **Revised** to indicate that *Form 705 Beneficiary Application for Pension Benefits* does not allow benefit form elections. |
| **TP 20** Form 705 Beneficiary Application for | 11/29/11 | **Revised** to clarify that proof of marriage |

| | | |
|---|---|---|
| Pension Benefits Review Table | | is required from a surviving spouse regardless of whether the participant was a pre-DOPT retiree. |
| | 08/30/11 | **Revised** title to indicate form name, and revised table to reference new section TP 20.5I Payments to Minor Children. |
| **TP 20** Form 706 Annuity Application Review Table | 08/23/10 | **Revised** to add reference to the *PBGC Benefit Form Elections Job Aid*. |
| **TP 20** Form 706 Beneficiary Application for Pension Benefits – OF Review Table | 08/30/11 | **Revised** title to indicate form name, and revised table to reference new section TP 20.5I Payments to Minor Children. |
| **TP 20** Form 720CD Application for Lump-Sum Payment Review Table | 08/30/11 | **Revised** title to indicate form name, and revised table to reference new section TP 20.5I Payments to Minor Children. |
| **TP 20** Put New Payee in Pay Status – Overview | 05/29/09 | **Revised** with misc. edits concerning benefit applications. |
| | 03/30/07 | **Added** cross-reference to new cash balance procedures. |
| | 01/30/07 | **Revised** to update term "large back payment" to "Large Reimbursement"; and to update policy reference. |
| | 09/29/06 | **Revised** to reflect that the COO (not the Executive Director) authorizes paying participants prior to trusteeship; removed statement that the CCC mails benefit applications. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 20** Unpaid Plan Application for Annuity Payments Review Table | 11/29/11 | **Revised** to clarify that proof of marriage is required if the applicant is married (not only for certain benefit forms). |
| **TP 20.1** Receipt and Review of Benefit Application Package (BAP) | 05/29/09 | **Added** reference to the new TGBR Job Aid. |
| | 04/24/09 | **Added** reference to TGBR Web site as source for bank information. |
| | 01/31/08 | **Reformatted and Revised** with updated policy references; clarifications on handling QJSAs; links to new QJSA and FSSB guidance documents; misc. edits. |
| | 05/31/07 | **Revised** with new titles of eALG 530 and 531 letters, and to clarify their use. |
| | 03/30/07 | **Revised** to clarify that application must be made complete within 90 days of date of PBGC's request. |
| | 01/30/07 | **Revised** to indicate that the participant and spouse's (if J&S waiver) signatures on the application must be within 180 days (from 90) of the annuity starting date. |
| | 09/29/06 | **Revised** to clarify that applications submitted incomplete must be made complete within 90 days (not six months) |

| | | |
|---|---|---|
| | | of original submission date. |
| **TP 20.1C** Act on Individual Eligible for Annuity | 08/23/10 | **Revised** to add reference to the *PBGC Benefit Form Elections Job Aid*, and to clarify processing for Alternate Payees and Other Beneficiaries. |
| **TP 20.3** Action Steps: Put in Pay Status | 01/30/07 | **Updated** policy reference. |
| **TP 20.3** Put in Pay Status | 09/25/09 | **Revised** to refer users to RSD/BPB for assistance in setting up rollovers to Roth IRAs. |
| | 06/26/09 | **Revised** with directions to update Spectrum with contingent annuitant data for payees receiving a J&S benefit form. |
| | 09/28/07 | **Replaced** reference to PRISM with Spectrum. |
| | 03/30/07 | **Added** cross-reference to new cash balance procedures. |
| | 09/29/06 | **Revised** with reminder to update PRISM with the Actual Benefit Form and J&S percentage, if applicable. |
| **TP 20.3A** Review Annuity Benefit Application | 03/30/11 | **Added** reference to TP 48.1 Process MyPBA Correspondence. |
| **TP 20.5C** Benefits Offsets | 11/29/11 | **Revised** to state that all Black Lung cases are to be referred to Ask OPSS. |
| **TP 20.5E** Spousal Consent | 10/01/10 | **Revised** with updated policy reference. |
| **TP 20.5I** Payments to Minor Children | 08/30/11 | **Added** new section to manual. |
| **TP 20.5J** Disability Benefits | 11/29/11 | **Revised** to clarify actions to take for a participant who is ineligible for disability benefits; to stress that the actuary is to be consulted; and to reference the new Notice of Disability Status Change Interim Procedures. |
| **TP 20.7** Forms, Letters, and Memos | 08/30/11 | **Added:**<br><br>*eALG 302DM Estimated Benefit – New Payee – Track 2 Plan and SSA Conditioned Retirement Benefit.*<br><br>*eALG 302DP Estimated Benefit – New Payee – Track 3 SSA and/or Plan Conditioned Disability Benefit*<br><br>*eALG 302DS Estimated Benefit – New Payee – Track 1 SSA Conditioned Disability Benefit* |

## Technical Procedures 21–30 (2006-2011)

**11/20/2015**

**Technical Procedures 21–30 Table (2006-2011)**

| Technical Procedure | Date | Change |
|---|---|---|
| **TP 21** Overview for Change Benefit/Payment Amount | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 21 Overview:** Changes to the Net Payment | 08/30/11 | **Revised** to add reference to Appendix R and with general edits. |
| **TP 21** Changes to the Net Payment - Overview | 08/23/10 | **Revised** to replace PRISM with Spectrum. |
| **TP 21** Overview: Changes in Total Benefit (Gross Amount ) | 11/29/11 | **Revised** to include cessation of eligibility for disability benefits as a cause for changes to the gross amount. |
| | 01/30/07 | **Updated** policy reference. |
| | 06/30/06 | **Revised** to remove reference to obsolete Policy Bulletin 96-3. |
| **TP 21** Change Benefit /Payment Amount | 08/31/07 | **Revised** policy reference. |
| **TP 21.1** Identify Changes to Pay System | 08/30/11 | **Revised** to remove references to pay sources. |
| | 01/31/08 | **Revised** policy references. |
| | 09/28/07 | **Replaced** reference to PRISM with Spectrum. |
| | 01/30/07 | **Updated** policy reference. |
| **TP 21.2** Implement Change | 08/30/11 | **Revised** to remove references to pay sources and otherwise reflect current processing in Spectrum. |
| **TP 21.2** Implement Changes | 07/25/08 | **Updated** policy reference (6.6-2). |
| | 09/28/07 | **Replaced** reference to PRISM with Spectrum; added reference to Spectrum User Guide. |
| | 01/30/07 | **Revised** to indicate interest is added to checks for missed payments; revised policy reference. |
| **TP 22.1** Secure Records | 03/30/11 | **Revised** with reference to *Receiving Data on non-PBGC Sanctioned Media*. |
| **TP 23** Coordinate Large Cases | 08/23/10 | Replaced in entirety. |
| **TP 23** Coordinate Large Cases - Overview | 03/26/10 | **Revised** to remove reference to CFND and to replace references to FOD/Treasury Division with CID/Asset Control and Liquidation Group. |
| **TP 25** Small Plan Average Recovery Ratio and Small Plan DUEC Recovery Ratio | 03/28/08 | **Renamed** to reference SPDRR in title. |
| **TP 25:** Overview | 03/28/08 | **Revised** to include information on SPDRR, misc. edits. |

| | | |
|---|---|---|
| **TP 25.1** Determine the Small Plan Average Recovery Ratio | 03/28/08 | **Reformatted and revised** with additional information on the SPARR, misc. edits and clarifications. |
| **TP 25.1:** Determine the SPARR | 01/31/08 | **Revised** appendix reference. |
| **TP 25.2** Determine the Small Plan DUEC Recovery Ratio | 03/28/08 | **New** section added. |
| **TP 25.3** Forms, Letters, Memos | 03/28/08 | **Renumbered** section**; replaced** SPARR Notification Memo with SPARR and SPDRR Notification Memo. |
| **TP 26.4** Forms, Letters, Memos | 08/28/09 | **Revised** to update form names. |
| **TP 27** Personal Interest Conflict System (PICS) | 05/30/08 | **Reformatted** to apply normal numbering conventions. No content changes. |
| | 09/29/06 | **Retitled, reformatted and revised** with new section on PICS Benefits Administration. |
| **TP 27** Overview of Personal Interest Conflict System (PICS)<br>- Overview | 03/30/11 | **Revised** to mention *Conflict of Interest Statement and Notice of Recusal Form*, which defines who is covered under PICS. |
| | 03/26/10 | **Revised** to mention that PICS participant records are reviewed quarterly. |
| **TP 27.1** Run Federal Employees PICS Cross Match | 03/26/10 | **Revised** with miscellaneous edits and to apply standard formatting. |
| **TP 27.3** PICS Benefit Administration | 05/31/07 | **Revised** to remove reference to SCORE for obsolescence. |
| **TP 27.4** Query IPS and Update PICS Inventory Report | 03/26/10 | **Revised** with miscellaneous edits and to apply standard formatting. |
| **TP 27.5** PICS Benefit Administration | 03/26/10 | **Revised** with miscellaneous edits and to apply standard formatting, and to clarify the roles of the EBLS/PBA/FBA and the TPD or RSD Manager/Associate Division Manager. |
| **TP 27.6** Forms, Letters, Memos | 03/30/11 | **Added**<br>*Quarterly Contract Employee PICS Memorandum*<br>**Revised** title:<br>*Conflict of Interest Statement and Notice of Recusal Form* |
| | 03/26/10 | **Revised** to apply standard formatting and with miscellaneous edits. |
| **TP 28** Overview for Approve Financial & Non-Financial Transactions through Approval Service | 08/30/11 | **Revised** to reflect current processing in Spectrum and Approval Service. |
| **TP 28** Overview | 07/11/08 | **Revised** with misc. edits. |
| | 01/30/07 | **Replaced** references to PRISM Authorizer with Approval Service. |
| | | |

| | | |
|---|---|---|
| **TP 28** Overview: Electronic Transactions that Require Approval | 08/30/11 | **Removed** since this information is covered in systems documentation. |
| **TP 28** Authorizable Electronic Transactions - Overview | 01/30/07 | **Revised** with reference to CRM. |
| **TP 28** Approval Levels Table - Overview | 08/23/10 | **Revised** to add the position titles PVA Project Manager and PVA Assistant Project Manager. |
| | 03/26/10 | **Replaced** references to PA (Pension Analyst) to EBLS (Employee Benefits Law Specialist). |
| **TP 28** Authorize Financial & Non-Financial Transactions through PRISM | 01/30/07 | **Renamed** process. |
| **TP 28** Overview: Authorization Levels Table | 01/30/09 | **Updated** with approval levels for 2009. |
| | 07/25/08 | **Revised** to add RSD as level 25 authorizer in table, and to note that the RSD Manager designates the grade level for transactions approved in RSD. |
| | 07/11/08 | **Revised** with new approval levels table and edits to reflect new level codes. |
| | 01/31/08 | **Revised** with 2008 annuity level thresholds for Levels 4 and 5. |
| | 11/30/06 | **Revised** with 2007 annuity limits for levels 4 and 5. |
| | 10/27/06 | **Revised** Level 2 to include grade 13 Pension Analysts. |
| **TP 28.1:** Initiate Electronic Transaction that Requires Approval | 07/11/08 | **Revised** to reflect new approval level codes and revised memo for level 50 transactions. |
| | 01/30/07 | **Replaced** reference to PRISM Observer with Approval Service. |
| **TP 28.2** Authorize or Reject Electronic Transaction | 07/11/08 | **Revised** with misc. edits. |
| **TP 28.3** Request Temporary Approver | 03/30/11 | **Revised** to instruct that, when scheduling an absence, the approver must prepare an e-mail to the Access and Approval Administrator at least three business days prior to the absence and to add a step for management to forward this request. |
| | 01/30/07 | **Renamed** subsection, and **revised** to remove references to PRISM where authorization is concerned. |
| **TP 28.4** Request Targeted Authorizer (Inclusions) | 07/11/08 | **Revised** to reflect new approval level codes. |
| | 01/30/07 | **Renamed** subsection, and **revised** to remove references to PRISM where authorization is concerned. |
| | | **Revised** to update list of approver |

| | | |
|---|---|---|
| **TP 28.5** Confirm Approvers/Levels | 08/30/11 | types, and reflect current processing and deadlines. |
| **TP 28.5:** Confirm Authorizers/Levels | 01/30/07 | **Renamed** subsection and **revised** to remove references to PRISM where authorization is concerned. |
| **TP 28.6** Forms, Letters, Memos | 07/11/08 | **Revised** *Level 5 Approval Memo as Level 50 Approval Memo*. |
| **TP 29** Off-Cycle Payments | 03/30/11 | **Revised** to note that off-cycle payments may also be requested for ACH payments to wrong accounts and for payees whose benefits had been suspended for non-receipt of the PIF. |
| **TP 29.2** Determine Need and Initiate Off-Cycle Payment Request | 03/30/11 | **Revised** to also cover ACH payments to the wrong account. |
| **TP 29.2** Review and Approve/Disapprove Request For Off-Cycle Payment | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 29.2** Review and Track Off-Cycle Payment Requests | 08/23/10 | **Retitled, reformatted, and revised** to replace PRISM with Spectrum, and to specify the MCD contact information and PLUS verification requirements. |
| | 04/28/06 | **Renamed** section; **revised** to reflect that NFDE processing replaces manual processing of forms, and to update weekly schedule. |
| **TP 29.2** Review Off-Cycle Payment Requests | 08/30/11 | **Revised** extensively to reflect BPB's current processing. |
| **TP 29.3** Track Off-Cycle Payment Requests | 04/28/06 | **Removed** section; remaining functions consolidated with TP 29.2. |
| **TP 29.3** Forms, Letters, Memos | 08/23/10 | **Added:**<br>*Off-Cycle Checklist* |
| | 04/28/06 | **Renumbered** from TP 29.4. |
| | 04/14/06 | **Revised:** *Off-Cycle Payment Request Memorandum (Offcyreq.doc)* |
| **TP 29.4** Forms, Letters, Memos | 01/17/06 | **Revised** Off-Cycle Payment Request (Offcycreq.doc) |
| **TP 30** Reconcile Funding | 08/30/11 | **Removed** from manual since the revised process is to be covered in the new BPB Manual. |
| | 08/23/10 | **Revised** to state that SSC posts the Funding Request Form to the BAPD Portal. |
| **TP 30.1** Reconcile Funding to SSC with Actual Payments | 08/23/10 | **Revised** to remove obsolete references to PRISM and to the *Check Action Request Form (CARF)*. |
| **TP 30.2** Forms, Letters, Memos | 05/02/06 | **Revised**<br>*RSD Funding Reconciliation Memo (Fundrec.doc)* |

## Technical Procedures 31–40 (2006-2011)

**11/20/2015**

**Technical Procedures 31–40 Table (2006-2011)**

| Technical Procedure | Date | Change |
|---|---|---|
| **TP 31** Document Telephone Calls | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 31.3** CRM Call Records Guidelines | 08/23/10 | **Revised** to update steps on issuing replacement checks using the eCARF, and added step to check PLUS first. |
| **TP 32** Overview for Provide Estimated Benefit Calculations | 11/29/11 | **Revised** to remove Ariel processing references. |
| | 08/30/11 | **Revised** to mention new estimated benefit letters to be sent to disability payees to confirm payment amount and commencement date. |
| **TP 32** Provide Estimated Benefit Calculations Overview | 10/31/08 | **Revised** to indicate that participants in certain Ariel plans can generate estimated benefit statements using MyPBA. |
| | 03/30/07 | **Added** cross-reference to new cash balance procedures. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 32.1** Receive Request, Gather Initial Information | 08/30/11 | **Revised** to mention disability and military service as items to consider for the benefit calculation. |
| **TP 32.2** Determine and Provide Estimated Calculation | 05/30/08 | **Revised** to refer to majority as well as substantial owners (per PPA 2006). |
| | 03/30/07 | **Added** cross-reference to new cash balance procedures. |
| | 05/30/08 | **Revised** to refer to majority as well as substantial owners (per PPA 2006). |
| | 03/30/07 | **Added** cross-reference to new cash balance procedures. |
| **TP 32.2A** Use Estimated Benefit Calculation Tool | 08/28/09 | **Added** references to USERRA Interim Procedures. |
| **TP 33** Locate Customer Address | 08/30/11 | **Removed** section from manual; steps for locating participant addresses are consolidated into TP 4 Participant Addresses and EDD Elections. |
| | 05/29/09 | **Revised** to replace name of search tool ChoicePoint Verifier Search with LexisNexis Verifier. |
| | 07/25/08 | **Revised** to replace Participant Locator application with ChoicePoint Verifier Search. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 33** Locate Customer Address - | 11/29/10 | **Revised** name and link to LexisNexis |

| | | |
|---|---|---|
| Overview | | Web site used for locating participant addresses. |
| | 07/11/08 | **Revised** to remove references to pre-termination processes. |
| **TP 33.2** Search for Updated Customer Address | 11/29/10 | **Revised** name and link to LexisNexis Web site used for locating participant addresses. |
| **TP 33.3** Locate Address Resource Guidelines | 11/29/10 | **Revised** name and link to LexisNexis Web site used for locating participant addresses. |
| | 01/31/08 | **Revised** to allow Participant Locator searches for 100 or more participants (from 250 or more); misc. edits. |
| **TP 34** Requests for Supplies | 08/30/11 | **Renamed** section from Request DMC Services, and replaced content with updated procedures related solely to supply requests. |
| **TP 34** Request DMC Services - Overview | 03/26/10 | **Replaced** references to OGC with OCC. |
| **TP 34.1** Order Supplies from DMC | 11/02/09 | **Revised** template for *RSD Supply Request Form* and replaced link. |
| **TP 34.5** DMC Preparation Code Guidelines | 05/29/09 | **Revised** to reflect form name changes. |
| **TP 34.7** Forms, Letters, Memos | 11/02/09 | **Revised** template for *RSD Supply Request Form* and replaced link. |
| | 02/06/06 | **Revised**<br><br>suplyreq.doc |
| **TP 35.1** Maintain the Case Workplan | 08/30/11 | **Revised** to replace references to PART with Primavera P6, and reflect related processing changes; to clarify roles of TPD case team, TPD management, and contractor management; and miscellaneous edits. |
| | 06/30/06 | **Revised** to reflect that the PART application has replaced FMRS, and to update user guide references. |
| **TP 36** Employee Contributions | 11/29/10 | **Added** new section to manual replacing previous interim procedures, assuming the section number of the annual update letters procedures, which were removed for obsolescence. |
| **TP 36.1** Evaluate Employee Contributions Provisions | 11/29/11 | **Revised** to reflect renamed document. |
| **TP 36.4B** Make Single-Sum Payment of Employee Contributions on or before Annuity Starting Date | 11/29/11 | **Revised** to reflect renamed document. |
| **TP 36.4C** Make Single-Sum Payment of Employee Contributions after Annuity Starting Date | 11/29/11 | **Revised** to reflect renamed document. |
| **TP 37.3** Customer Recover Action Plan Checklist | 03/26/10 | **Revised** to reference OCC. |
| **TP 37.4** Customer Recovery Action Plan | 08/30/11 | **Removed** row dealing with duplicate payments, which is now covered in TP 7.3 Apply Administrative Correction to |

| | | |
|---|---|---|
| | | Benefit Overpayment; and miscellaneous edits. |
| **TP 38** Administer PRISM Integrator Application | 08/28/09 | **Revised** Overview and added new Workflow and TPs 38.1 - 38.5, replacing the hardcopy edition that had been maintained in RSD/BPB and not previously published online. |
| **TP 38.1A** Suspend Transaction | 03/30/11 | **Revised** to reference Customer ID instead of SSN. |
| **TP 38.1B** Generate Transactions/Create File | 03/30/11 | **Revised** to remove the requirement that the reports be provided by e-mail. |
| **TP 38.1C** Acknowledge SSN Changes Manually | 03/30/11 | **Revised** with new step to provide the **SSN Change Report** to the Data Integrity Team Supervisor. |
| **TP 38.2** Coordinate with Data Integrity Team and Benefit Processing Staff for Error Corrections | 03/30/11 | **Revised** to remove the requirement that reports be provided by e-mail, to change the time requirement to distribute errors to Mail POCs from three to two days, and with miscellaneous edits. |
| | 09/25/09 | **Revised** to indicate that error reports from the Last Minute file are to be distributed to the Mail POCs within three business days after the Split Lump Check run. |
| **TP 38.3** Clean Queues | 03/30/11 | **Revised** to change the time requirement for cleaning queues, for providing the reports to the Data Integrity Team Supervisor, and for cleaning the error transactions from the Success and Failure queues. |
| **(Hard copy only, see TSD)** | 03/14/06 | **Revised** to reflect Data Integrity Team replaces Error Correction Group; organizational updates; updated Timetable of Events for Each Check Cycle; and new steps for large plan processing. |
| **TP 38.4** Generate and Distribute Management Reports | 03/30/11 | **Revised** to remove the requirement that the reports be provided by e-mail. |
| | 08/23/10 | **Revised** to state that the Large Payments Report is to be sent within two days (from one) after the creation of the last Integrator file. |
| **TP 40** Customer Data Fixes | 03/26/10 | **Removed** from the manual for obsolescence with advent of Spectrum 2.1. |
| | 02/29/08 | **Revised and reformatted** in entirety. |
| | 01/27/06 | **Renamed** section from Change Customer Data. |
| **TP 40** Customer Data Fixes - Overview | 01/27/06 | **Revised** to add BDL Load data fix to list; indicate requests are sent to BPB instead of Data Change Team; general edits. |
| **TP 40.1** Request Customer Data Fixes | 03/31/06 | **Revised** to clarify reasons for data fixes and to provide instructions on submitting spreadsheets. |

| | | |
|---|---|---|
| | 01/27/06 | **Renamed** section; revised to add BDL Load data fix; new names for data fix spreadsheets; removed requirement to keep hard copy of requests for 12 months. |
| **TP 40.2** Data Fix Examples and Guidelines | 07/31/09 | **Revised** to reflect replacement of Datahub with TP 59: Data Load Requests procedures. |
| **TP 40.2** Initiate Interdepartmental Data Fix Requests | 01/27/06 | **Renamed** section; revised to remove requirement to add requestors' names to spreadsheets; BPD, not DCT, requests data fixes; adds timeframe that e-mail should be sent to requestor. |
| **TP 40.3** Data Fix Request Guidelines | 01/27/06 | **Renamed** section; revised to add BDL Load as type of data fix. |
| **TP 40.4** Forms, Letters, Memos | 01/31/08 | **Revised** the following Data Fix Request documents:<br>• BDLLoad.xls<br>• Plannumber.xls<br>• Status.xls<br>• Deletion.xls<br>• RoleLink.xls<br>• Undeletion.xls |
| | 05/04/06 | **Revised:**<br>BDL Load – Data Fix Request (BDLLoad.xls)<br>Customer's Plan Number - Data Fix Request (Plannumber.xls)<br>Customer's Status Code - Data Fix Request (Status.xls)<br>Delete Customer Record - Data Fix Request (Deletion.xls)<br>Roles/Linking - Data Fix Request (Rolelink.xls)<br>Undelete Customer Record - Data Fix Request (Undeletion.xls) |
| | 03/31/06 | **Revised** to clarify that users should not modify data fix request spreadsheets. |
| | 01/27/06 | **Revised** titles of spreadsheets; added *BDL Load - Data Fix Request (BDLLoad.xls)* |

## Technical Procedures 41–50 (2006-2011)

**11/20/2015**

**Technical Procedures 41–50 Table (2006-2011)**

| Technical Procedure | Date | Change |
|---|---|---|
| **TP 42** Outstanding Checks | 07/25/08 | **Revised** to remove requirement to pay interest on checks reissued more than 180 days from original date; clarify checks are stale-dated 180 days after date issued; and clarify interest is paid on benefit payments missed because they were suspended. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| | 01/27/06 | **Renamed** section from Follow Up on Outstanding Checks. |
| **TP 42** Overview | 04/25/08 | **Revised** in entirety for clarity and to remove steps covered in procedures. |
| **TP 42.1** Distribute Outstanding Check Report | 04/25/08 | **Renamed, reformatted and revised** to remove steps no longer performed by OASD and SSC. |
| **TP 42.2** Take Action on Outstanding Checks | 04/25/08 | **Reformatted and revised** to remove obsolete steps and for clarity. |
| | 10/26/07 | **Removed** references to Deathmatch procedures. |
| | 05/31/07 | **Revised** to clarify that interest due on a replacement payment should be paid in a special check. |
| | 01/30/07 | **Revised** to indicate when to add interest; updated policy reference; |
| | 01/27/06 | **Revised** to reflect renamed eALG letters, and to clarify when a CARF is completed. |
| **TP 42.3** Forms, Letters, Memos | 08/23/10 | **Removed**<br>*Check Action Request Form (CARF)* |
| | 01/27/06 | **Revised** with new names for eALG letters. |
| **TP 43** Change Status for Inactive Participants | 08/23/10 | **Removed** from the manual for obsolescence. |
| | 02/24/06 | **Revised** throughout to replace Data Change Team with Benefits Payment Branch, plus misc. edits. |
| **TP 43.1** Identify Status Changes for Lump Sum Recipients | 10/26/07 | **Revised** to replace reference to Val/IDL with Spectrum. |
| | 09/28/07 | **Replaced** reference to PRISM with Spectrum. |
| **TP 44** Foreign Language Services | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 44** Foreign Language Services - | | |

| | | |
|---|---|---|
| Overview | 03/26/10 | **Revised** with minor edits. |
| **TP 44.1** Request Foreign Language Services | 08/30/11 | **Revised** with new note indicating that when sending translated letters, all enclosures must also be translated. |
| | 03/26/10 | **Revised** section title, changed normal turnaround times for various services, and clarified that CRM (not e-mail) must be used for all BAPD service requests. |
| **TP 44.1** Foreign Language Services | 01/31/08 | **Revised** with instructions to use CRM instead of email to request foreign language assistance; consolidation of sections; misc. edits. |
| **TP 44.2** Forms, Letters, Memos, etc. | 03/26/10 | **Revised** with new document naming convention. |
| **TP 45** Non-Receipt of Benefit Payment – Overview | 07/25/08 | **Revised** to indicate interest is paid on replacement checks only in non-routine situations |
| | 01/30/07 | **Updated** policy reference. |
| **TP 45** Non-Receipt of Benefit Payment | 05/30/08 | **Reformatted and revised** to create a standard Overview, place Purpose, etc. table ahead of action steps sections, and standardize numbering. No content changes. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| | 01/27/06 | **Revised** with reference to the new Stop and Reissue E-mail Request form; and to allow 7 days (not 10) from date of check to request it be reissued. |
| **TP 45.1A** Report of Non-Receipt | 08/30/11 | **Revised** to include use of CRM for address changes. |
| | 03/30/11 | **Revised** to mention ACH payments to a wrong account and with minor edits. |
| | 01/27/06 | **Revised** to indicate check status should be verified in PLUS. |
| **TP 45.1B** Routine Assertions of Non-Receipt | 08/30/11 | **Revised** to mention that CCC receives and images an e-mail that the stop and reissue has been effected; to direct to PLUS for a copy of the check (instead sending a CARF to the paying agent); and to remove note about Forms 1099-R, covered in Appendix R. |
| | 03/30/11 | **Revised** to include steps for resolving ACH payments to incorrect accounts, to use PLUS to verify the status of payments, and with miscellaneous edits. |
| | 08/23/10 | **Revised** to replace instructions for processing replacement checks and EDD payments by using the eCARF rather than the CARF. |
| | 07/25/08 | **Revised** to remove requirement to pay interest on checks more than 180 days |

| | | |
|---|---|---|
| | | overdue. |
| | 01/30/07 | **Revised** to indicate interest is added if the replacement payment is over 180 days overdue. |
| | 01/27/06 | **Revised** with new steps for automated stop and reissue of payment, plus misc. edits. |
| **TP 45.1C** Non-Routine Assertions of Non-Receipt | 08/30/11 | **Revised** to indicate that PBGC's paying agent maintains copies of checks for seven years (from 10), and to use an eCARF to request copies of checks issued more than 36 months prior. |
| | 03/30/11 | **Revised** formatting of action steps. |
| | 07/25/08 | **Revised** to specify interest is paid on checks more than 180 days overdue in non-routine situations. |
| | 11/30/07 | **Revised** procedure reference |
| | 01/30/07 | **Revised** to indicate interest is added if the replacement payment is over 180 days overdue. |
| **TP 45.2** Forms, Letters, Memos | 08/23/10 | **Removed**<br>*Check Action Request Form (CARF)* |
| | 01/27/06 | **Added** *Stop and Reissue E-mail Request form (ProcessCheckAction.dot)*. |
| **TP 46.1** Respond to HCTC Inquiries | 08/30/11 | **Renamed and revised** to note that payees whose PBGC benefits are suspended may have to reapply for the tax credit, and with miscellaneous edits. |
| **TP 46.1** The Health Coverage Tax Credit - Overview | 09/28/07 | **Updated** policy reference to 5.4-7 (from 5.4-1). |
| **TP 46.2** Transfer of HCTC Data to IRS | 08/30/11 | **Renamed** section and subsections; **revised** procedures with miscellaneous edits. |
| | 07/31/09 | **Revised** to reflect replacement of Datahub with TP 59 Data Load Requests procedures. |
| **TP 47** Process Missing Participants | 05/29/09 | **Revised** to reference new forms. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 47** Overview for Process Missing Participants | 08/30/11 | **Revised** to indicate that PBGC searches for missing participants whose total benefit is $20 or more, and with other updates reflecting current processing. |
| **TP 47.1** Assign Missing Participant Plans | 08/30/11 | **Revised** to reflect current processing for case assignment. |
| **TP 47.1** Assign Missing Participants | 09/28/07 | **Removed** reference to obsolete policy 4.3-1. |
| **TP 47.3** Update Spectrum with Missing Participant Payment Information and Reconcile | 08/30/11 | **Revised** with minor edits concerning the Forest and Trees Report, and to reflect Spectrum rather than PRISM |

| | | |
|---|---|---|
| | | coding. |
| **TP 47.3** Update PRISM with Missing Participant Payment Information and Reconcile | 09/28/07 | **Replaced** reference to PRISM with Spectrum. |
| **TP 47.4** Notify Missing Participants of Benefits | 07/31/09 | **Revised** to correct letter name. |
| **TP 47.4A** Notify Missing Participants with Purchased Annuities | 08/30/11 | **Revised** to remove all but basic participant search steps, and specify to search for missing participants if their total benefit is $20 or more. |
| **TP 47.4B** Notify Missing Participants with Employer Designated Benefits | 08/30/11 | **Revised** to remove details on fields entered into eALG letters, and information on attachments. |
| **TP 47.5** Establish Benefit Payment | 08/30/11 | **Revised** to remove references to MPC Web application since only Spectrum is used, to remove benefit statement as an attachment to be approved, and to indicate the procedure is the sole responsibility of the MPP Staff (from MPU). |
| **TP 47.5** Establish Benefit Payment | 07/31/09 | **Revised** with step to issue an acknowledgment letter for benefit applications. |
| | 09/28/07 | **Replaced** reference to PRISM Tickler with Spectrum. |
| **TP 47.6** Reconcile Missing Participant Payments for the Month | 08/30/11 | **Revised** to remove the requirement to send off-cycle checks to missing participants with complete applications, or to send (and image) a benefit statement with the payment confirmation letter; and to remove steps for MPP Supervisor to run MPP Case Assignment Report or Activity Report. |
| **TP 47.8** Forms, Letters, Memos | 07/31/09 | **Updated** form names. |
| **TP 48:** My PBA Correspondence | 05/29/09 | **Revised** to reference new forms. |
| | 05/31/07 | **Revised** to indicate a benefit application must be completed within 180 days (from 90) to retain the requested annuity starting date, and with revised titles of the eALG 530 and 531 letters. |
| | 07/28/06 | **Revised** Overview to reflect that MyPBA correspondence is now tracked in CRM rather than SCoRe. |
| | 02/24/06 | **Revised** to reflect replacement of CCN functionality by CRM. |
| **TP 48** Overview for MyPBA Correspondence | 11/29/11 | **Revised** to remove Ariel references. |
| | 11/29/10 | **Revised** to remove immaterial statement. |
| | 10/31/08 | **Revised** to indicate that participants in certain Ariel plans can generate estimated benefit statements using |

| | | |
|---|---|---|
| | | MyPBA. |
| **TP 48.1** Process MyPBA Correspondence | 11/29/11 | **Revised** to include action to take upon submission of *Form 716 Certification of Social Security Disability Status* and *Form 716A Certification of Pension Plan Disability Status*. |
| | 11/29/10 | **Revised** to require that participants submitting forms 700 and 706 receive a PACS statement showing alternate benefit forms; and to clarify that MyPBA does not issue letters acknowledging address changes, etc. |
| | 03/26/10 | **Added** steps for processing lump-sum applications received via MyPBA, and renumbered some sections. |
| | 10/31/08 | **Revised** to indicate that participants in certain Ariel plans can generate estimated benefit statements using MyPBA. |
| | 07/28/06 | **Revised** to reflect that MyPBA correspondence is now tracked in CRM rather than SCoRe. |
| **TP 49.1** Process Power of Attorney and Guardianship Requests | 10/26/07 | **Added** step to complete new Durable Power of Attorney Memo to File (DPOAmemo.doc). |
| **TP 49.1A** Non-Durable Power of Attorney | 03/27/09 | **Revised** with instructions concerning NDPOAs with expiration dates, multiple holders, or successor holders; added general clarifications and misc. edits. |
| **TP 49.1B** Durable Power of Attorney | 03/26/10 | **Revised** to indicate that rejection of a DPOA that covers only health care matters does not need OPSS or OCC approval. |
| | 03/27/09 | **Revised** with instructions concerning multiple holders, successor holders, and obtaining OCC concurrence on non-approval; added general clarifications and misc. edits. |
| **TP 49.1C** Springing Durable Power of Attorney | 03/26/10 | **Revised** to indicate that rejection of a Springing DPOA that covers only health care matters does not need OPSS or OCC approval. |
| | 03/27/09 | **Revised** with general clarifications and misc. edits. |
| **TP 49.2** Process Guardianship and Conservatorship Requests | 03/27/09 | **Revised** with instructions on obtaining OCC concurrence on non-approval; misc. edits. |
| **TP 49.3** State Law Requirements for DPOAs | 11/29/11 | **Revised** table to indicate that special rules apply to State of Wisconsin. |
| **TP 49.3:** Forms, Letters, Memos | 10/26/07 | **Added** Durable Power of Attorney Memo to File (DPOAmemo.doc) |
| **TP 49.4** Special State Rules for DPOAs | 11/29/11 | **Revised** to include state rules for DPOAs executed in Wisconsin before 09/01/10 and on and after that date. |

| | | |
|---|---|---|
| **TP 50** Plan-Specific Web Announcements | 05/26/06 | **New** Technical Procedure. |

# Technical Procedures 51-62 (2006-2011)

**11/20/2015**

**Technical Procedures 51–62 Table (2006-2011)**

| Technical Procedure | Date | Change |
|---|---|---|
| **TP 51** Earnings Offsets | 05/29/09 | **Revised** to reference new forms. |
| | 04/25/08 | **Renumbered** all sections so numbering no longer begins with Overview (formerly 51.1) but with first section with action steps. |
| | 10/27/06 | **New** technical procedure. |
| **TP 51** Overview for Earnings Offsets | 11/29/11 | **Revised** in entirety to include procedural changes required by Policy 6.2-1 Application of Earnings Offset Provisions in PBGC-Trusteed Plans. |
| **TP 51.1** Earnings Offsets in Calendar Year of Trusteeship | 11/29/11 | **Revised** to cross-reference Overview for summary of changes required by Policy 6.2-1 Application of Earnings Offset Provisions in PBGC-Trusteed Plans, and to reflect renamed document. |
| | 07/31/09 | **Added** reference to Early Plan Analysis Memo. |
| **TP 51.2** Earnings Offsets After Calendar Year of Trusteeship | 11/29/11 | **Revised** to cross-reference Overview for summary of changes required by Policy 6.2-1 Application of Earnings Offset Provisions in PBGC-Trusteed Plans. |
| **TP 51.3** Forms, Letters, Memos | 07/31/09 | **Added** Early Plan Analysis Memo. |
| **TP 52** Cash Balance and Other Statutory Hybrid Plans | 03/26/10 | **Retitled** section. |
| **TP 52** Cash Balance Plans | 03/30/07 | **New** section on processing cash balance plans added to manual. |
| **TP 52** Cash Balance and Other Statutory Hybrid Plans - Overview | 08/23/10 | **Revised** to further clarify the distinctions between cash balance and hybrid plans, and their processing. |
| | 03/26/10 | **Revised** with new description of Statutory Hybrid Plans. |
| **TP 52** Cash Balance and Other Statutory Hybrid Plans - Workflows | 08/23/10 | **Added** new, separate workflows for plan and participant processing. |
| **TP 52.1** Prepare Frequently Asked Questions | 08/23/10 | **Renumbered and retitled** section, and revised to more clearly distinguish between processing of cash balance and hybrid plans. |
| **TP 52.1** Update Cash Balance Program | 03/26/10 | **Revised** to distinguish the handling of the different types of plans. |
| | 07/25/08 | **Revised** to indicate "OASD Services" replaces previous mailbox used in procedure. |

| | | |
|---|---|---|
| **TP 52.2** Issue Cash Balance BDLs | 08/23/10 | **Renumbered** section, and clarified language on which plans are covered by this procedure. |
| **TP 52.2** Prepare Cash Balance FAQ Attachment | 03/26/10 | **Revised** to distinguish the handling of the different types of plans and to make the FAQ Table a separate page. |
| **TP 52.3** Update Cash Balance Program | 11/29/11 | **Revised** to remove Ariel references. |
| | 08/23/10 | **Renumbered and revised** to clarify language, with no changes in processing. |
| **TP 52.3** Provide Cash Balance Benefit Calculations | 03/26/10 | **Revised** to distinguish the handling of the different types of plans. |
| **TP 52.3A** Pre-BDL Estimated Benefit Calculations | 08/28/09 | **Added** reference to USERRA Interim Procedures. |
| **TP 52.4** Provide Cash Balance Benefit Calculations | 08/23/10 | **Renumbered and revised** with updated references within the procedure and other minor edits. |
| **TP 52.4** Pay Cash Balance Annuities | 03/26/10 | **Revised** to distinguish the handling of the different types of plans. |
| **TP 52.5** Pay Cash Balance Annuities | 08/23/10 | **Renumbered** section and renamed subsections, and revised internal references, and other minor edits. |
| **TP 52.5** Pay Cash Balance Lump Sums | 03/26/10 | **Revised** to distinguish the handling of the different types of plans. |
| | 09/25/09 | **Revised** to refer users to RSD/BPB for assistance in setting up rollovers to Roth IRAs. |
| **TP 52.6** Pay Cash Balance Lump Sums | 08/23/10 | **Renumbered and revised** with updated internal references. |
| **TP 52.6** Issue Cash Balance BDLs | 03/26/10 | **Revised** to distinguish the handling of the different types of plans. |
| **TP 52.7** Forms, Letters, Memos | 08/23/10 | **Revised** to standardize list in accordance with current document naming conventions. |
| | 03/26/10 | **Revised** list to reflect renamed FAQ Template. |
| | 05/29/09 | **Revised** to reference new forms. |
| | 09/28/07 | **Added** *Cash Balance FAQ Template (cbfaq.doc)* |
| **TP 53** Working Retirement Determinations | 04/27/07 | **New** technical procedures added to manual. |
| **TP 53** Working Retirement Determinations - Overview | 12/19/08 | **Replaced** by the version previously in the Interim Procedures and Guidance section. |
| | 07/25/08 | **Revised** to reference new WRD interim procedures. |
| | 09/28/07 | **Revised** to clarify that multiple determinations may be required for a plan. |
| **TP 53** Working Retirement Determinations | 05/29/09 | **Revised** to reflect new processes. |

| | | |
|---|---|---|
| - Workflow | | |
| **TP 53.1** Prepare a Working Retirement Determination | 01/30/09 | **Revised** to indicate WRD completion and imaging should be targeted for within three months of DOTR, but WRD should be completed and imaged no more than six months after DOTR; and to specify where it should be imaged. |
| | 12/19/08 | **Replaced** by the version previously in the Interim Procedures and Guidance section, with different formatting. |
| | 07/25/08 | **Revised** to indicate this procedure is superseded by new WRD interim procedure. |
| | 09/28/07 | **Revised** to clarify when a determination is needed and that it covers a given period of time; and with additional instructions on how to complete the working retirement determination form. |
| | 08/31/07 | **Added** instruction for obtaining bar code sheets. |
| **TP 53.1A** Prepare a Working Retirement Determination | 08/30/11 | **Revised** to indicate that Working Retirement Determinations may be approved by an Audit Technical Reviewer. |
| | 03/30/11 | **Revised** to indicate that OPSS concurrence is not required for the Working Retirement Determinations. |
| **TP 53.1B** Questions and Answers on Working Retirement Determinations | 03/30/11 | **Revised** to indicate that OPSS concurrence is not required for the Working Retirement Determinations. |
| **TP 53.2** Determine Participant Eligibility for Working Retirement Benefits | 05/29/09 | **Revised** in entirety to reflect updated process and move re-employment steps to new TP 53.3. |
| **TP 53.3** Act on Re-employment of Payee | 05/29/09 | **Added** new section to manual. |
| **TP 53.4** Forms, Letters, Memos | 12/19/08 | **Added** Working Retirement Determinations Form and Working Retirement Determination Desk Reference Guide previously in the Interim Procedures and Guidance Section. |
| | 07/25/08 | **Revised** to remove existing WRD form and samples and refer users to new WRD interim procedures for new documents. |
| | 09/28/07 | **Revised:**<br><br>*Working Retirement Determination Form (Workingret.doc)* |
| **TP 54** Benefits Erroneously Paid Before Eligibility | 09/26/08 | **Revised and retitled** sections and subsections to include payees who have since become eligible for benefits, and change the default option to actuarially reduced payments; both in accordance with revised policy 5.2-6. |
| **TP 54** Overview for Benefits Erroneously Paid Before Eligibility | 08/30/11 | **Revised** to specify that PBGC does not offer the option to stay in pay or restart |

| | | |
|---|---|---|
| | | benefits at a later date to a payee who was eligible for another benefit at the date he or she was erroneously placed into pay, or is erroneously receiving an early retirement restricted under a working retirement situation. |
| **TP 54.1** Provide Options to Payees Paid Before Eligible | 08/30/11 | **Revised** to indicate that a decision to use discretion to not offer a payee choices must have OPSS concurrence and is to be documented to the payee's file. |
| **TP 54.3** Forms, Letters, Memos | 09/26/08 | **Revised** document and name:<br>Benefits Paid Before Eligible Memo *(BenefitsBeforeEligible.doc)* |
| **TP 54** Payees Receiving Benefits Before Eligible | 08/31/07 | **New** section. |
| **TP 54.1** Provide Options to Payees Receiving Benefits Before Eligible | 04/25/08 | **Revised** to reflect replacement of eALG 300RO with *eALG 300NYE Estimated Benefits - Payee Not Yet Eligible*, and addition of new eALG letters *547 Advice of Reduced Estimated Benefits* and *548 Advice of Cessation of Estimated Benefits*. |
| **TP 54.3** Forms, Letters, Memos | 04/25/08 | **Added:**<br>• *eALG 300NYE Estimated Benefits - Payee Not Yet Eligible*<br>• *eALG 547 Advice of Reduced Estimated Benefits*<br>• *eALG 548 Advice of Cessation of Estimated Benefits*.<br>**Removed:**<br>• *eALG 300RO Payees Receiving Benefits for Which They Are Not Yet Eligible* |
| **TP 55** ValPatch Mailings | 08/30/11 | **Revised** in entirety to clarify the process and roles, and to require the *ValPatch Mailing Concurrence Memo* for all ValPatch mailings. |
| | 01/31/08 | **New** technical procedure. |
| **TP 55** ValPatch Mailings - Overview | 08/23/10 | **Revised** to replace PRISM reference with Genesis. |
| **TP 55.1** Submit a ValPatch Request | 08/23/10 | **Revised** to remove references to Ariel, PRISM, and specific IPS file locations. |
| **TP 56** Administrative Subpoena | 07/11/08 | **Revised** to include RSD as a procedure owner. |
| | 06/27/08 | **Added** new section, replacing Process 2.2 Issue Administrative Subpoena. |
| **TP 56** Administrative Subpoena | 07/11/08 | **Revised** to include RSD as a procedure owner. |
| | 06/27/08 | **Added** new section, replacing Process 2.2 Issue Administrative Subpoena. |
| | | |

| | | |
|---|---|---|
| **TP 57** Identity Discrepancies | 09/26/08 | **Added** new Technical Procedure. |
| **TP 58** Plan Loans and Other Distributions | 03/30/11 | **Revised** throughout to add optional *Plan Loans and Distributions Tracking Spreadsheet*. |
| | 12/19/08 | **New** Technical Procedure added to manual. |
| **TP 58** Workflow for Plan Loans and Other Distributions | 03/30/11 | **Added** to procedure. |
| **TP 58** Plan Loans and Other Distributions - Overview | 03/27/09 | Misc. edits |
| **TP 58.1** Obtain Information about Plan Loan or Distribution | 03/30/11 | **Revised** to clarify that only relevant steps need to be taken if fiduciary breach is suspected. |
| | 03/27/09 | **Added** clarification that this procedure should be followed if fiduciary breach will not be pursued. |
| **TP 58.2** Determine if Distribution is a Plan Loan or Other Distribution | 03/30/11 | **Revised** to clarify that only relevant steps need to be taken if fiduciary breach is suspected. |
| | 03/27/09 | **Clarified** steps for pursuing suspected fiduciary breach; added step to have OPSS concur on determination; misc. edits. |
| | 01/30/09 | **Revised** to indicate documents supporting the determination may be attached or referenced in Image Viewer. |
| **TP 58.3** Determine Unpaid Loan Balance at DOPT and Notify Borrower | 01/30/09 | **Revised** with new steps to document and provide calculation to the auditor, and to include the loan balance at DOPT in the plan asset audit; new reference to plan asset procedures. |
| **TP 58.3A** Determine Unpaid Loan Balance at DOPT and Notify Borrower | 03/27/09 | **Replaced** "term" with "loan period"; added specifics on what the actuary should provide the auditor; specified that the full amount of the unpaid balance is included in plan assets; misc. edits. |
| **TP 58.3B** Take Action According to Borrower's Response | 03/26/10 | **Replaced** references to OGC with OCC. |
| | 03/27/09 | **Revised** with misc. edits. |
| **TP 58.4** Process Other Distribution | 03/27/09 | **Removed** step to request actuarial calculation; specified that a pre-DOPT distribution is not a plan asset; misc. edits. |
| | 01/30/09 | **Revised** to specify these distributions are not to be included in the plan asset audit. |
| **TP 58.5** Spousal Consent | 03/27/09 | **Added** explanation of when spousal consent is needed; new steps for actuary to estimate the protected survivor annuity amount; new requirement to obtain OPSS concurrence on the letter to the spouse; misc. edits. |
| **TP 59** Data Load Requests | 07/31/09 | **Added** new section. |
| | | |

| | | |
|---|---|---|
| **TP 59.1** First Pay and Customer Data Loads | 11/29/11 | **Revised** to mention option to deactivate a plan at the paying agent to prevent duplicate payments, and to state that the BPB Management Analyst is to receive a copy of the e-mail to the paying agent if a plan is opened manually. |
| | 08/30/11 | **Revised** to indicate users must request archiving of data loads; that only Team Leaders can approve data loads, and they also notify the case team; and with miscellaneous edits. |
| | 03/30/11 | **Revised** with new process for sending payment authorization letter, if needed, by e-mail to paying agent. |
| | 11/29/10 | **Revised** to reference the new customer coding guidance on the Spectrum Home page; to indicate the check register is to be archived if available electronically; and that the Plan Assumption Milestone in CMS is to be updated upon approval of payee data load. |
| **TP 59.3** Miscellaneous Full Data Loads | 08/23/10 | **Revised** with reference to the OASD Service Catalog. |
| **TP 59.4** Valuation Data Loads | 08/23/10 | **Revised** with reference to the OASD Service Catalog. |
| **TP 59.5** Forms, Letters, Memos | 03/30/11 | **Removed:**<br>*Account Adds and Changes Form* |
| | 08/23/10 | **Revised** to include documents used in procedure that had not been listed previously. No documents were added or removed from the procedures themselves. |
| **TP 60** Data Sampling | 01/15/10 | **Added** new section. |
| **TP 60** Data Sampling - Overview | 08/23/10 | **Revised** to include note that if Leo was used to build the database, its audit functions are used to perform sampling. |
| **TP 60.1** Determine Items for Sample | 08/23/10 | **Revised** to reference *Leo/Act Format User Manual*, to suggest using additional judgmental sampling to for plans with more than 500 participants, and with a new step to use TP 60.2 if using Leo to create the sample, and to move the Sample Size Table to a separate page. |
| **TP 60.2** Compare Samples to Source | 08/23/10 | **Revised** to reference Leo reports to be used, and to move the Sample Size Table to a separate page. |
| **TP 60.3** Forms, Letters, Memos | 08/23/10 | **Revised** to standardize list in accordance with current document naming conventions. |
| **TP 60** Sample Size Table | 08/23/10 | **Added** new table as a section; the table was previously included with the processing steps which now link to it. |
| **TP 61** Successor Plan Determinations | 08/23/10 | **Added** new section which replaces |

| | | |
|---|---|---|
| | | previous interim procedures. |
| **TP 61** Overview for Successor Plan Determinations | 11/29/11 | **Revised** to provide additional background on successor plans and describe the three-part process. |
| **TP 61.1** Determine if Successor Plan Determination Needed | 11/29/11 | **Revised** to indicate that the determination is documented in with *Estimated Benefit Adjustment Analysis Memo* (not the *Analysis for Pre-Benefit Estimation and Benefit Administration Memo*), reference the new *Successor Plan Determinations Additional Guidance*, and clarify processing throughout. |
| **TP 61.2** Determine if Trusteed Plan is a Successor Plan | 11/29/11 | **Revised** to clarify the three-part process, further define successor plan, reference the new *Successor Plan Determinations Additional Guidance*, and for miscellaneous edits. |
| **TP 62** USERRA Benefits | 08/30/11 | **Added** new section to manual, replacing USERRA Interim Procedures. |

## Other Updates (2006-2011)

**11/20/2015**

**Other Updates Table (2006-2011)**

| Other Updates | Date | Change |
|---|---|---|
| **All Processes, Technical Procedures** | 06/30/06 | **Revised** to reflect that the Participant and Employer Appeals Department (PEAD) has been renamed the Appeals Division, OGC. |
| **Alternate Table of Contents** | 11/29/10 | **Removed** from the manual |
| | 03/26/10 | **Revised** to reflect retitled TPs 5, 20, and 52, and removal of TP 40. |
| **Auditors Technical Reference Manual** | 08/30/11 | **Revised** to add links to training materials for auditors. |
| | 11/30/07 | **New** section added to main table of contents. |
| **Case Workflow - High Level** | 11/29/10 | **Revised** to remove Processes 14 and 16, which are no longer completed by BAPD. |
| **Forms, Letters, Memos (throughout)** | 03/31/06 | **Updated** 86 documents with the new PBGC letterhead and/or to reflect organizational changes. Revised documents have updated version date of 03/31/2006. |
| **Global Update** | 11/29/11 | **Renamed** all Forms, Letters, Memos pages as "Resources for [section title]" and added list categories for Guidance and Exhibits referenced in the sections. |
| | 08/30/11 | **Revised** terminology throughout the manual to replace Plan Asset Audit(s) changed to Plan Asset Evaluation(s), and Participant Data Audits to Participant Data Reviews. Impacts procedures titles, content and external documents.<br><br>**Reformatted** Forms, Letters, Memos pages with separate sections for eALG letters. |
| | 03/30/11 | **Revised** formatting to merge pages containing action steps with key information tables where not already done.<br><br>**Revised** references to Appendix G Acceptable Proof of Age to Appendix G Acceptable Proof of Age and Death. |
| | 12/29/10 | **Revised** to replace references to "State Street Corporation" and/or "SSC" with "PBGC's paying agent" or variants. |
| | 03/26/10 | **Replaced** Pension Analyst (PA) with |

| | | |
|---|---|---|
| | | Employee Benefits Law Specialist (EBLS).<br><br>**Replaced** references to PRISM and variants (with exception of PRISM Integrator, Trial Balance, and Balancer) to Spectrum. |
| | 01/30/09 | **Replaced** references to Management Coordination Unit (MCU) to Management Coordination Division (MCD). |
| | 01/30/09 | **Revised** to distinguish references to PBGC Case Number versus EIN/PN. |
| | 02/29/08 | **Formatting revisions** were made to various Technical Procedures to enable users to print a Word version of an entire TP from their desktops. Content was not affected. Also, table of contents pages for all TPs and Processes were reformatted in a new template to facilitate automated TOC building. |
| | 11/30/07 | **Removed** references to the BMPRS time reporting system throughout the manual. |
| | 07/27/07 | **Replaced** references to Prism Benefits with Spectrum.<br><br>**Replaced** references to CAS (Case Administration System) with CMS (Case Management System).<br><br>**Replaced** authorize (authorizer, etc.) with approve (approver, etc.) where PRISM is referenced. |
| | 08/25/06 | **Revised** to replace ALGS (and all variations) with eALG. |
| | 02/24/06 | **Revised** acronyms to reflect organizational changes:<br>• BPAB changed to BPB<br>• PSB (Participant Support Branch) changed to CCB<br>• CSRB changed to PSB (Program Services Branch) |
| | 01/27/06 | **Revised** acronyms to reflect organizational and position classification changes:<br>• CSC to CCC<br>• PLS to PA |
| **Historical Content Updates** | 03/30/11 | **Divided** into sections for pre- and post-2006 updates. |
| **Home Page** | 08/23/10 | **Added** new link to *Receiving Data on non-PBGC Sanctioned Media* guidance on protecting privacy data. |

| | | |
|---|---|---|
| **Interim Procedures and Guidance** | 11/29/11 | **Added** Notice of Disability Status Change Interim Procedures<br><br>**Removed** Valuing Insurance Contracts and Other Investment Arrangements with Insurance Companies Interim Procedures [integrated into Process 15.9E]<br><br>**Revised** §436 Benefit Limitations Interim Guidance |
| | 08/30/11 | **Added** Valuing Insurance Contracts and Other Investment Arrangements with Insurance Companies Interim Procedures, to be used instead of Process 15.9E Value Insurance Contracts.<br><br>**Added** Managing Participant Expectations for Benefit Estimates Guidance.<br><br>**Added** §436 Benefit Limitations Interim Guidance.<br><br>**Added** CRM Plan and Participant Alerts Guidance.<br><br>**Removed** Form 1108 Reconciliation Process Interim Procedure, which was merged into Process 15.14.<br><br>**Removed** USERRA Interim Procedures, which were replaced by TP 62 USERRA Benefits.<br><br>**Revised** PPA at a Glance to remove most content concerning IRC §436 limitations, now covered by new §436 Benefit Limitations Interim Guidance.<br><br>**Revised** Processing a Rollover Payment to a Roth IRA Interim Procedure to add new section on rollovers of employee contributions. |
| | 03/30/11 | **Revised** to add Form 1108 Reconciliation Process Interim Procedure. |

| | 03/26/10 | **Added:**<br><br>• *Processing a Rollover Payment to a* |

| | |
|---|---|
| | *Roth IRA Interim Procedures*<br>• *Refund of Mandatory Employee Contributions Interim Procedures* (replacing *Employee Contributions: Taxation of Refunds And Annuity Payments Interim Guidance*)<br>• *Successor Plan Determination Form Interim Guidance (*replacing *Successor Plan Determination Form*)<br>**Revised** *USERRA Interim Procedures* extensively throughout to add new workflow, clarify covered military service, update the questionnaire, define required tracking of USERRA participants, and to add new section on issuing applications to spouses and beneficiaries, and with numerous other edits and clarifications.<br>**Removed:**<br>*Small Benefit Payments Interim Procedures,* which was merged into the revised TP 20. |
| 01/15/10 | **Removed** *Small Plan Database Construction & Analysis Interim Procedures*. |
| 11/02/09 | **Added** *Controlled Groups, Recovery Valuations, Net Worth Audits, and Plan Asset Audits Interim Guidance* and *Employee Contributions: Taxation of Refunds and Annuity Payments Interim Guidance*.<br>**Revised** *USERRA Interim Procedures* to add reference to new Policy 5.14-2 Treatment of Benefits Earned During Military Service.<br>**Removed** *Net Worth Determinations Interim Guidance*. |
| 09/25/09 | **Added** Small Benefits Payments Interim Procedures. |
| 08/28/09 | **Revised** PPA at a Glance; **added** USERRA Interim Procedures and Successor Plan Determination Form. |
| 07/31/09 | **Removed** Data Load Request Interim Procedures, which are replaced by new TP 59: Data Load Requests. |
| 07/13/09 | **Added** Data Load Request Interim Procedures. |
| 06/26/09 | **Added** Post-NRA Guidance on ASDs. |
| 04/24/09 | **Added** five samples of completed documents to Small Plan Database Construction and Analysis Interim Procedures. |

| | |
|---|---|
| | **Removed** Interim Participant Data Validation Procedures. |
| 01/30/09 | **Added** Small Plan Database & Construction Interim Procedures. |
| 12/19/08 | **Removed** Working Retirement Determination Interim Procedures and placed them into TP 53.<br><br>**Added** Net Worth Determination Interim Guidance. |
| 09/26/08 | **Removed** "Plan Asset Audit Checklist Interim Procedures" since these steps are included in the revision of Process 15: Plan Asset Audits with this publication. |
| 09/26/08 | **Removed** "Small Plan DUEC Recovery Ratio (SPDRR) (Interim Guidance)" since these steps are included in the revision of Process 15: Plan Asset Audits with this publication. |
| 09/26/08 | **Revised** "Plan Asset Audit Reconciliation: Interim Procedures for CMS" title and removed content concerning Forms 1108, since it's absorbed into revised Process 15: Plan Asset Audits. Only CMS workaround steps are retained in this interim procedure. |
| 07/11/08 | **Revised** PPA at a Glance to replace large "backpayments" with "reimbursements" and correct typos. |
| 06/27/08 | **Added** new section PPA at a Glance.<br><br>**Added** new section Plan Asset Audit Reconciliation: Interim Procedures for Forms 1108 and CMS<br><br>**Revised** Small Plan DUEC Recovery Ratio (SPDRR)to clarify the SPDRR is used to determine the *estimated* collectable portion of the DUEC that will be used for benefit calculation purposes only. |
| 03/28/08 | **Added** new Plan Asset Audit Checklist Interim Procedures with and new documents:<br><br>• *Plan Asset Audit Checklist (PAAChecklist.doc)*<br>• *Departmental Notification Memo (NotificationMemo.doc)* |
| 01/31/08 | **Revised** Participant Data Validation IPs to increase the minimum number of participants in plans for which PDVs may apply to 200 or fewer. |
| 11/30/07 | **Renamed** section (formerly "Interim Procedures"); **removed** section "Referring Policy and Processing |

| | | |
|---|---|---|
| | | Questions to OPSS" which became revised TP 17; **added** new section "Small Plan DUEC Recovery Ratio (SPDRR)". |
| | 10/26/07 | **Added** interim procedures previously provided via email for Participant Data Validations and for Referring Policy and Processing Questions to OPSS. |
| | 10/17/07 | **Removed** Interim Deathmatch Procedures for obsolescence. |
| **Introduction - Overview of Core Processing** | 08/23/10 | **Revised** to indicate that the procedures in this manual apply to 80% of the cases processed by BAPD; for the remaining 20% that require deviation from certain procedures (or policies), all deviations must be approved at a Supervisor or higher level and documented. |
| | 07/25/08 | **Revised** to separate DISC from BAPD processing, and clarify pre-termination processing is mostly performed by DISC. |
| **Introduction: Pre-Trusteeship Processing (8)** | 01/15/10 | **Revised** to account for processing and structural changes due to new data acquisition processes. |
| **Introduction to Audit Processes** | 01/15/10 | **Revised** to account for processing and structural changes due to new data acquisition processes. |
| **Introduction to Initial TPD Processes** | 01/15/10 | **Revised** to account for processing and structural changes due to new data acquisition processes. |
| **Introduction to Participant Database Processes** | 01/15/10 | **Added** new introduction for category comprising Processes 11-13. |
| **Introduction to Pre-Termination Processes** | 07/25/08 | **Revised** to indicate these processes are now performed by DISC and no longer by BAPD. |
| | 07/11/08 | **Revised** to clarify DISC's role vs. BAPD's, and with misc. edits. |
| **Introduction to Manual** | 08/30/11 | **Reformatted and revised** throughout to reflect current processing and organization of manual. |
| **Introduction to Technical Procedures** | 06/27/08 | **Added** link to new TP 56: Administrative Subpoena |
| | 10/27/06 | **Added** new TP 51: Earnings Offsets. |
| | 05/26/06 | **Added** new **TP 50: Plan-Specific Web Announcements** |
| **Main Table of Contents** | 01/15/10 | **Renamed** Pre-Termination Processes as Pre-Trusteeship Processes.<br><br>**Added** Participant Database Processes category for new Processes 11-13. |
| | 01/31/08 | **Added** TP 55: ValPatch Mailings. |
| | | |

| | | |
|---|---|---|
| | 07/27/07 | **Added** new section for Interim Procedures. In this edition, Interim Deathmatch Procedures were included. |
| | 10/27/06 | **Added** new TP 51: Earnings Offsets. |
| | 09/29/06 | **Revised** with new titles for TP 27 and Appendix R. |
| | 08/25/06 | **DISC Workflow** and **TPD Workflow** buttons replaced by **Case Workflow** button; the two workflows are consolidated. |
| | 06/30/06 | **Revised** with new title of manual as BAPD Operations Manual (formerly BAPD Procedures Manual); new title for Process 20: Appeals Correspondence; and the "Quick Tips" link and page have been removed. |
| | 05/26/06 | **Added** new **TP 50: Plan-Specific Web Announcements** |
| | 04/28/06 | **Revised** to reflect new titles for TP 11 and TP 29. |
| | 03/31/06 | **Revised** to reflect new title for Process 19, removal of Process 18, and new Process 8.4: Estimating Recovery Values for Terminated Plans. |
| | 02/24/06 | **Revised** with addition of new TP 49: Power of Attorney and Guardianship. |
| | 01/27/06 | **Revised** with new titles for TPs 12, 40, and 42. |
| **Overview of Core Processing** | 11/29/10 | **Revised** to note that DISC is responsible for completing the controlled group and net worth determinations. |
| **Overview Topic** | 11/29/10 | **Revised** to remove reference to the controlled group analysis. |
| **TPD Processes Workflow** | 06/30/06 | **Revised** to reflect new name for Process 20: Appeals Correspondence. |

| | | |
|---|---|---|
| **Overview of Core Processing** | 11/29/10 | **Revised** to note that DISC is responsible for completing the controlled group and net worth determinations. |
| **Overview Topic** | 11/29/10 | **Revised** to remove reference to the controlled group analysis. |
| **TPD Processes Workflow** | 06/30/06 | **Revised** to reflect new name for Process 20: Appeals Correspondence. |

## Appendices and Glossary (2006-2011)

**11/20/2015**

**Appendices and Glossary Table (2006-2011)**

| Appendices | Date | Change |
|---|---|---|
| **Appendix A Master List of Documents to Obtain** | 08/23/10 | **Revised** to replace Office of the Executive Director (OED) with Office of the Director (OD). |
| | 03/26/10 | **Replaced** references to OGC with OCC and applied miscellaneous edits. |
| | 01/15/10 | **Revised** introduction and reformatted list as an external Word document. |
| **Appendix D: Maximum Guaranteeable Benefits for DOPT Years** | 04/24/09 | **Revised** table to appear in reverse-chronological order. |
| | 12/19/08 | **Added** maximum guaranteeable benefit for 2008. |
| | 05/30/08 | **Reformatted and revised** to indicate maximum guarantee applies to calendar years, not fiscal; the effect of plans that enter bankruptcy on or after 9/16/06 on the MGB; update with 2008 MGB; misc. edits. |
| | 11/30/06 | **Revised** with MGB for 2007. |
| **Appendix E BAPD Job Aids** | 11/29/11 | **Revised** to remove reference to Ariel documentation. |
| | 03/30/11 | **Revised** to add references to *Benefit Determination Letter Templates* job aid. |
| | 08/23/10 | **Added:**<br>*PBGC Benefit Form Elections Job Aid* |
| | 03/26/10 | **Added** link to new CMS Milestones Job Aid. |
| | 11/02/09 | **Added** *Recovering an Overpayment Minus Federal Tax Withholding Guidance*. |
| | 08/28/09 | **Added** *Leo/ACT Format User Manual* and *Database Construction Guidelines*. |
| | 07/31/09 | **Removed** reference to Datahub Administrative System. |
| | 05/29/09 | **Added** reference to the new TGBR Job Aid. |
| | 04/24/09 | **Added** reference to the TGBR Web site. |
| | 03/27/09 | **Revised** to replace the *Adjustments to Estimated Guaranteed Benefits and Plan Analysis Memo* with the revised version, the *Early Analysis Memo*; added new *Off-Cycle Payment Checklist*. |
| | 12/19/08 | **Added** *Working Retirement Determination Desk Reference Guide* |
| | 10/31/08 | **Added:** |

| | | |
|---|---|---|
| | | *Adjustments to Estimated Guaranteed Benefits and Plan Analysis Memo*<br>*Summary of Federal Tax Withholding Requirements for PBGC Benefit Payments* |
| | 06/27/08 | **Added** references to PPD At A Glance Interim Guidance, BAPD Auditor's Processing Guideline; misc. edit. |
| | 03/28/08 | **Reformatted and revised** with new links to technical documentation. |
| | 02/29/08 | Links added to<br>• Plan File Index Bar Code Sheets<br>• Plan File Indexing Specifications<br>• eALG Correspondence Help |
| | 01/31/08 | **New** appendix provides links to various BAPD job aids and guidance documents. |
| **Appendix E: IOD Time Reporting (BMPRS)** | 11/30/07 | **Removed** content and marked space as "Reserved". |
| **Appendix G Acceptable Proof of Age and Death** | 03/30/11 | **Re-titled and revised** with new section on proof of death. |
| **Appendix G: Acceptable Proof of Age** | 08/23/10 | **Revised** to add U.S. Passport Card as an acceptable proof document. |
| | 05/31/07 | **Revised** to add adoption papers as an alternative proof of age. |
| **Appendix H Historical SPARR and SPDRR Information** | 03/30/11 | **Revised** with ratios for FY 2011. |
| | 09/25/09 | **Added** SPARR and SPDRR for FY 2010. |
| | 09/12/08 | **Updated** with the Fiscal Year 2009 SPARR and SPDRR. |
| | 01/31/08 | **Renamed** to reflect addition of SPDRR data; **revised** with latest two SPARRs; new SPDRR chart; misc. edits. |
| **Appendix H: Historical SPARR Information** | 12/19/08 | **Revised** to specify what plans the SPDRR applies to. |
| | 06/27/08 | **Added** SPARR and SPDRR for 2008. |
| | 01/30/07 | **Revised** with SPARR for FY 2005. |
| **Appendix I Maintaining Participant Data Records** | 03/26/10 | **Revised** to reflect section titles changed as a result of new data acquisition procedures, and with miscellaneous edits. |
| | 09/26/08 | **Revised** to correct ADT Transaction File codes list, and for minor edits. |
| | 07/11/08 | **Revised** to remove references to pre-termination processes. |
| **Appendix K: BAPD's Records Management** | 05/30/08 | **Revised** to standardize numbering. |
| **Appendix K: BAPD's Records Management** | 05/30/08 | **Revised** to standardize numbering. |
| **Appendix K: BAPD's Records Management** | 05/30/08 | **Revised** to standardize numbering. |

| | | |
|---|---|---|
| **Appendix K.2 Description of BAPD Records** | 08/23/10 | **Revised** to replace PRISM with Spectrum, and CARF with eCARF. |
| **Appendix L: Field Benefit Administrators** | 07/11/08 | **Revised** to remove references to pre-termination processes. |
| **Appendix M IRS Disclosure Offices** | 07/11/08 | **Revised** to remove references to pre-termination processes; misc. edits. |
| **Appendix N Correspondence and Phone Call Guidelines** | 08/30/11 | **Renamed** (from Customer Service Pledge) **and revised** to include general customer service guidelines in addition to the pledge that are not already addressed in the procedures. |
| **Appendix N: PBGC Customer Service Pledge** | 06/30/06 | **Revised** with current pledge; section also retitled (formerly "Our Service Pledge"). |
| **Appendix O: Acceptable Proof of Marriage** | 03/27/09 | **Revised** with new section on PBGC Presumption of Marriage, and to expand section on Common-law Marriage. |
| | 09/28/07 | **Revised** to clarify that proof a marriage continued is generally not needed. |
| | 05/31/07 | **Revised** with new introductory material on how proof of marriage should be documented, and whether PBGC ever requires proof a marriage has continued or ended. Added new optional *Proof of Marriage Record (proofmar.doc)* and *Proof of Marriage Record Samples (prfmarsmpl.doc)*. |
| **Appendix O I. Introduction** | 11/29/11 | **Revised** to remove statement that a spouse of a pre-DOTR retiree does not have to provide proof of marriage, and clarify that proof of marriage is required even when the spouse waives survivor benefits. |
| | 08/30/11 | **Revised** to direct users to contact OPSS if more than one person claims benefits as survivor of a deceased participant, or if the validity of a marriage is challenged. |
| | 01/31/08 | **Revised** to add links to new QJSA and FSSB guidance documents; revised policy references. |
| **Appendix O III Types of Marriage** | 08/30/11 | **Revised** to direct users to contact OPSS if more than one person claims benefits as survivor of a deceased participant. |
| | 08/25/06 | **Revised** to replace **MarriageProofs** e-mailbox with **ASK OPSS**. |
| **Appendix O IV. Ceremonial Marriage** | 08/25/06 | **Revised** to replace **MarriageProofs** e-mailbox with **ASK OPSS.** |
| **Appendix O V. Common-Law Marriage** | 01/31/08 | **Revised** policy references. |
| | 08/25/06 | **Revised** to replace **MarriageProofs** e-mailbox with **ASK OPSS**; added new material on verifying corroborating evidence of common-law marriage based on whether alleged by a participant or surviving spouse. |

| | | |
|---|---|---|
| **Appendix O VII Additional Resources** | 01/31/08 | **Revised** to add link to new QJSA guidance document; updated policy references. |
| **Appendix O VIII PBGC Presumption of Marriage** | 08/30/11 | **Revised** to direct users to contact OPSS if more than one person claims benefits as survivor of a deceased participant. |
| **Appendix P eReports** | 08/30/11 | **Revised** throughout with general updates reflecting current processing and systems terminology. |
| **Appendix Q BAPD Systems** | 11/29/11 | **Revised** to remove Ariel subsection and Ariel references. |
| | 03/26/10 | **Removed** section on PRISM Application Suite; revised section on Spectrum to reflect its full implementation. |
| | 07/31/09 | **Revised** to remove Datahub section. |
| | 05/29/09 | **Revised** to replace name of search tool ChoicePoint Verifier Search with LexisNexis Verifier. |
| | | **Revised** MyPBA section to indicate that participants in certain Ariel plans can generate estimated benefit statements using MyPBA. |
| | 07/25/08 | **Replaced** Participant Locator section with ChoicePoint Verifier Search. |
| | 11/30/07 | **Removed** section on BMPRS; **revised** links to external documents throughout. |
| | 07/27/07 | **Replaced** section on CAS with CMS. |
| | 02/24/06 | **Revised** to delete section on CCN; reflect throughout the replacement of CCN functionality by CRM. |
| **Appendix Q: BAPD Systems**<br>**Prism Application Suite** | 09/28/07 | **Replaced** reference to PRISM with Genesis. |
| | 01/30/07 | **Revised** to remove statement about reengineering of PRISM. |
| **Appendix Q LexisNexis** | 11/29/10 | **Revised** section title and name and link to the LexisNexis Web site, used for locating participant addresses. |
| **Appendix R: Assignment and Withholding From Benefit Payments** | 05/29/09 | **Revised** to reflect form name and/or usage changes. |
| | 09/29/06 | **Retitled, reformatted, and revised** with new material on the following: tax withholding for residents of Puerto Rico and other U.S. possessions; Additional Resources; Non-Allowable Deductions; new Forms, Letters, Memos page; and misc. edits. |
| **Appendix R: 1 Federal Tax Withholding** | 10/31/08 | **Revised** in entirety. |
| **Appendix R 1.1 Introduction to Federal Tax Withholding** | 08/23/10 | **Revised** to clarify making payments to participants who do not provide a TIN. |
| **Appendix R 1.2 Annuity or Periodic Payment Tax Withholding and** | 08/23/10 | **Revised** to remove obsolete note that in PRISM/Spectrum, the annuity |

| | | |
|---|---|---|
| **Reporting** | | withholding election applies to both annuities and Special payments. |
| **Appendix R: 1.2 Annuity or Periodic Payment Tax Withholding and Reporting** | 11/30/07 | **Added** sentence noting that RSD notifies users annually on how to update a disability code. |
| **Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting** | 08/30/11 | **Revised** with new note that Required Minimum Distribution payments are always rollover eligible, and miscellaneous edits. |
| | 11/02/09 | **Revised** throughout with greater detail on lump-sum payment tax withholding and rollover vs. non-rollover eligibility. Table updated for Roth rollovers and small benefit payments. |
| **Appendix R 1.3.1 Lump-Sum Payment Tax Withholding Options** | 11/29/11 | **Revised** lump sum tax withholding table in entirety. |
| **Appendix R 1.4 Other Tax Withholding Considerations** | 08/30/11 | **Revised** to add new section titled Tax on Excess Accumulations, which concerns taxation in relation to Required Minimum Distributions. |
| | 11/02/09 | **Added** statement that early distributions are rollover-eligible. |
| **Appendix R1.5 1099-R Reporting Requirements** | 11/29/11 | **Revised** distribution codes table row for code 2 Early Distribution Exception. |
| | 11/02/09 | **Added** new detail on Roth rollovers; and misc. edits. |
| **Appendix R: 1.6 Non-Resident Alien Tax Withholding Requirements** | 11/02/09 | **Revised** to clarify withholding requirements for non-resident aliens. |
| | 09/25/09 | **Revised** to indicate lump-sum payments may be rolled into Roth IRAs, and to refer users to RSD/BPB for assistance in setting them up in Spectrum. |
| | 08/28/09 | **Revised** to remove statements that PBGC does not roll over to Roth IRA accounts, and that Roth contributions are made after-tax. |
| **Appendix R 1.11 Requests for Replacement of or Revised Form 1099-R** | 11/29/11 | **Revised** to indicate that payees have the option to complete IRS Form 5329 to avoid waiting for a new Form 1099-R. |
| **Appendix R 2 IRS Tax Levies** | 03/26/10 | **Revised** existing steps for handling levies received by the DMC, added steps for levies received in a TPD or FBA, and added new cover sheets. |
| **Appendix R 7 Request for Assignment of a Benefit Due an Incarcerated Payee** | 07/25/08 | **Updated** policy reference (6.6-2). |
| **Appendix R: 8 Forms, Letters, Memos** | 10/31/08 | **Renumbered** section. |

# BAPD Progress Reporter
# in Oracle Primavera P6
# Interim Guidance

**Purpose:**

The purpose of the BAPD Progress Reporter in Oracle Primavera P6 is to allow BAPD to begin capturing both elapsed and applied time on certain plan processing activities. This tool will allow BAPD to (1) manage plan processing work more effectively, (2) manage resources, (3) make management decisions regarding plan processing, and (4) capture needed data to support budget requests.

BAPD Progress Reporter will capture time associated with plan processing milestones provided in the table below.

**Frequently Asked Questions:**

1. What is the effective date for reporting time in the BAPD Progress Reporter in Primavera (P6)?

   **Answer:** The BAPD Progress Reporter must capture time for all plans trusteed on or after January 3, 2012.

2. What about time associated with plans that are currently in Primavera?

   **Answer:** Time will be captured only on **new** plans in Primavera until further notice.

3. Who will be responsible for reporting time?

   **Answer:** During this initial implementation, staff in the TPDs, FBAs and contractors supporting this work have been trained on the use of Primavera and will be required to report time. Support divisions will begin to use Primavera once requirements have been gathered and staff is trained.

4. How do I report my time?

   **Answer:** Time will be input into the BAPD Progress Reporter module that can be accessed from the Start menu **»** Oracle **»** Primavera P6 **»** BAPD Progress Reporter.

5. When should time be submitted?

   **Answer:** Submit time each week. Time is required to be submitted by Monday at noon Eastern Standard Time (EST) for the previous week. If Monday is a holiday, time is due by Tuesday at noon (EST).
6. What time increment should be used to report time?

**Answer:** Report time in increments of 15 minutes. More than 8 hours can be input for any given day.

7. Do I have to account for my entire work day?

   **Answer:** No. Time should only be reported for actual time spent on the milestones indicated in the table below.

8. What if I did not work on any milestones for that week due to training, vacation, etc?

   **Answer:** If you have not worked on any milestones for any given week, then you should enter and submit one hour under "Non-Case Processing Time." The BAPD Progress Reporter does not allow for zero hours to be submitted.

9. If I am in an FBA Office, how will I enter my time?

   **Answer:** Each FBA Office must designate one person that will be responsible for entering time for the office into the BAPD Progress Reporter. This is a temporary solution until we can resolve the issue of having multiple resources entering time.

10. How do I submit feedback or comments regarding BAPD Progress Reporter?

    **Answer:** Comments can be sent to the following e-mail address: BAPDP6SupportTeam@pbgc.gov

| Plan Processing Milestone | Associated Tasks | Primary Role |
|---|---|---|
| Secure Records<br>• Various locations and resources can be set up | • Planning for the site visit<br>• Issuing letters associated with the site visitation<br>• Actual visit and completion of any interview documents<br>• Completion of trip report | Plan team |

4. Customer Communications Page 5

- 4.1. General Communications Guidelines

5. Resources for Case Processing for Plans with Asset Re-evaluations Page 6

## 1. Introduction

Federal law requires PBGC to pay accurate pension benefits to participants. PBGC has a series of procedures and controls in place to ensure that it does so, and continually revises them to meet appropriate standards of accountability and law.

In circumstances where the plan asset evaluations were not conducted with sufficient rigor, PBGC will make a determination whether or not to redo an asset evaluation. In cases where asset re-evaluations are done, PBGC may or may not revise benefit determinations that have already become effective.

Policy 4.4-1 Asset Re-evaluations establishes the criteria that must be met before PBGC will undertake a re-evaluation of a completed asset evaluation. It also reiterates the circumstances under which an already effective benefit determination can be revised based on an asset re-evaluation.

These procedures provide high-level guidance on the steps required to complete the plan processing once PBGC has determined that it will perform an asset re-evaluation for the plan. The processes and work products are generally the same in purpose and execution to those associated with standard case processing; however, given the case processing work previously completed (including the issuance of benefit determinations), the procedures required will vary somewhat from those found elsewhere in the OBA Operations Manual for standard case processing.

## 2. Perform Asset Re-evaluation

Once PBGC has determined that it will perform an asset re-evaluation for a plan, the Asset Evaluation Division (AED) works to complete a re-evaluation of the plan's assets.

**2.1 AED Re-evaluates the Plan's Investment Assets.** AED performs the valuation of the plan's investment assets in accordance with Process 15 in the OBA Plan Asset Evaluation Manual. AED documents its work and the results of its valuation of the investment assets. When final, these reports are and imaged under the appropriate index in the plan file in IPS.

**2.2 AED Reconciles Assets with FOD.** Incorporating the results of AED's valuation of the plan's investment assets, AED:

- prepares the *Plan Asset Evaluation Report,* the *Form 1108 Plan Asset Reconciliation,* and the *Form 1108 Plan Asset Reconciliation* packet – including Supervisory Auditor concurrence – and updates the appropriate plan asset fields in CMS*, in accordance with Process 15.13 Prepare Plan Asset Evaluation Report;
- reconciles the plan assets with FOD in accordance with Process 15.14 Reconcile Plan Assets with FOD/IAB; and
- images all documents supporting the asset re-evaluation under the appropriate index in the plan file in IPS.

Note: Since the CMS milestones were previously finalized, the Auditor must submit a request to the CMS Business Representative (and copy the MCD manager) to have the asset screen updated by a CMS database administrator.

**2.3 Asset Re-evaluation Working Group.** When unusual situations are encountered in the process of performing an asset re-evaluation that do not clearly represent errors in the original asset evaluation, but that could impact the results of the asset re-evaluation – such as pre-termination liabilities discovered after the original plan asset evaluation was complete and that were not accounted for in the assets allocated to benefits – the issue should be presented to the Asset Re-evaluation Working Group (ARWG) for resolution.

To present an issue to the ARWG, the Supervisory Auditor provides a memo presenting the issue and recommending a resolution, with any necessary supporting documentation, to the MCD manager, who serves as chair of the ARWG. The MCD manager reviews the memo and forwards to the ARWG for consideration if appropriate.

- Any issue requiring a new decision will be forwarded to the ARWG for consideration.
- Any changes to recovery values will be forwarded to the ARWG for review before they are forwarded to the Recovery Valuation Group for consideration. (See Policy 8.2-1 Valuation and Allocation of Recoveries and Process 15.10B Value Due and Unpaid Employer Contributions for more information on valuing recoveries.

### 3. Revise Actuarial Valuation

Once the Plan Asset Re-Evaluation is complete, the case actuary analyzes the impact of the revised asset value on the actuarial valuation of the plan.

**3.1 Plan Asset Re-evaluation Results in Changes to Participant Benefits.** If the case actuary determines (with Supervisory Auditor concurrence) that the revised asset value will result in changes to participant benefits, the case actuary prepares a revision to the Actuarial Case Report, documenting the analysis and the changes to participant benefits (and other relevant calculations reported in the Actuarial Case Memo), generally following the procedures in Process 17 Actuarial Valuation, modified as appropriate.

Upon completion and approval of the revised Actuarial Case Report, the CSD issues Revised or Corrected Benefit Determinations as applicable, taking into consideration Section H. Determining whether to revise a benefit determination that has become effective of Policy 4.4-1 Asset Re-evaluations, and generally following the procedures in Process 19 Benefit Determination Letters, modified as appropriate.

Any relevant work products and supporting documentation should be imaged under the appropriate index in the case file in IPS.

**3.2 Plan Asset Re-evaluation does not Result in Changes to Participant Benefits.** If the case actuary determines (with Supervisory Auditor concurrence) that the revised asset value will not result in changes to participant benefits, the case actuary prepares a revision to the Actuarial Case Report documenting its analysis and the determination that the Plan Asset Re-evaluation does not result in any changes to participant benefits.

Upon completion and approval of the revised Actuarial Case Report, any relevant work products and supporting documentation should be imaged under the appropriate index in the case file in IPS.

## 4. Customer Communications

Given the sensitive nature of asset re-evaluations and the potential changes to large numbers of participants, great care should be paid to our customer communications regarding the process and its outcomes. Customers of our communications related to asset re-evaluations can include:

- Participants and beneficiaries, and their attorneys;
- Unions representing employees of the plan sponsor;
- Members of Congress;
- PBGC's Office of the Inspector General (OIG);
- The press.

PBGC's communications with our customers may include:

- Telephone conversations;
- Individual letters responding to inquiries from participants, beneficiaries, or their attorneys;
- Benefit Determination Letters (BDLs);
- Letters responding to inquiries from members of Congress;
- Letters or memos to the OIG;
- Press releases;
- Plan-specific website announcements.

**4.1 General Communications Guidelines.** In general, the CSD should follow the guidelines below when preparing written communications related to an asset re-evaluation:

- The CSD should consult with PPD when preparing any written communications other than routine responses to individual participants.
- Inquiries from attorneys representing participants should be forwarded to an attorney for review and response.
- Inquiries from members of Congress should be handled in accordance with TP 31 Overview for Congressional and Other Sensitive Correspondence.
- Any communications with the OIG should be directed through the OBA front office.
- The CSD should keep participants informed of significant developments in the asset re-evaluation process through plan-specific website announcements. CSD must consult with PPD when posting announcements to the plan-specific website.
- Plan-specific website announcements should be dated, assigned an expiration date for removal if appropriate, and should be monitored for continued relevance and accuracy.

# CRM Plan and Participant Alerts Interim Guidance

**07/01/2016**

CRM Alerts are created to provide information that CSRs (CCC) should be aware of when speaking to customers. Alerts may be created for individual participant records or plan-wide.

- A **Participant Alert** is a message affixed to a specific participant's CRM record. Participant Alerts are used to indicate, for example, a customer's password or information that should not be updated, such as an EDD address. Participant Alerts may be requested by anyone connected with the plan, including the case team, management, or Problem Resolution Officer.
- A **Plan Alert** is a message affixed to the CRM record of every participant in a plan. It should be general and applicable to all or most plan participants. Plan Alerts are used to indicate, for example, MyPBA availability, when benefit estimates will be available, or when trusteeship packages will be mailed. Plan Alerts must be requested by PSD management.
- Use the following instructions to create CRM Alerts as needed. CRM Alerts can be created for any size plan and should certainly be used for larger and more complex plans. When establishing an alert, identify the situation or event affecting the plan or participant and provide instructions for how it should be handled.

**Important:** Do not read CRM Alerts to participants. They are intended only for the reference of the CSR or other OBA staff.

Please contact the CCC COR with any questions about requesting a CRM Plan or Participant Alert.

**In this Section**

Request a CRM Participant Alert
Request a CRM Plan Alert

Top of Page

## Request a CRM Participant Alert

**03/30/2015**

Anyone associated with a plan may request a ▸CRM Participant Alert.

1. For each alert, prepare an e-mail to the CCC Issues Mailbox and copy Valerie Ramsey (▸COR).
   - In the subject line, enter `CRM Participant Alert Request`.
   - In the body, include:
     - Customer ID Number, name, and plan number.
     - Alert activation date.
     - Alert deactivation date, if determined.

       If this date is not included in the original request, the requester is responsible for notifying the ▸CCC when the alert is no longer needed.
     - Alert message in clear, concise language containing no more than 240 characters. See ▸Sample Language for Common Participant Alerts.

   The CCC notifies the requester by e-mail when the alert has been activated.
2. To deactivate an alert for which an end date was not included in the original request, or to end the alert early, again prepare an e-mail to the CCC Issues Mailbox and copy Valerie Ramsey (COR):
   - In the subject line, enter `CRM Participant Alert Deactivation Request`.
   - In the body, include:
     - Customer ID Number, name, and plan number.
     - Alert activation date.
     - Alert deactivation date.
     - Alert message.

**Note** The CCC reviews all alerts on a quarterly basis to determine if deactivation may be necessary. If so, the CCC sends an e-mail to the requester with the scheduled deactivation date and proceeds to deactivate the alert unless asked to do otherwise.

Top of Page

## Request a CRM Plan Alert

**07/01/2016**

Only a ▸PSD management may request a ▸CRM Plan Alert. Staff from other offices (for example, ▸PPD or MCD) may initiate an alert by contacting PSD management.

**TPD Management Team Member or FBA/PVA Supervisor**

1. For each alert, prepare an e-mail to the CCC Issues Mailbox and copy the ▸CCC ▸COR:
   - In the subject line, enter `CRM Plan Alert Request.`
   - In the body, include:
     - Plan name and case number.
     - Alert activation date.
     - Alert deactivation date, if determined.

       If an end date is not included in the original request, the requester is responsible for notifying the CCC when the alert is no longer needed.
     - The alert message in clear, concise language containing no more than 240 characters. See ▸Sample Language for Common Plan Alerts.

   The CCC notifies the requester by e-mail when the alert has been activated.
2. To deactivate an alert for which an end date was not included in the original request, or to end the alert early, again prepare an e-mail to the CCC Issues Mailbox and copy the CCC COR:
   - In the subject line, enter `CRM Plan Alert Deactivation Request`.
   - In the body, include:
     - Customer ID Number, name, and plan number.
     - Alert activation date.
     - Alert deactivation date.
     - Alert message.

**Note** The CCC reviews all alerts on a quarterly basis to determine if deactivation may be necessary. If so, the CCC sends an e-mail to the requester with the scheduled deactivation date and proceeds to deactivate the alert unless asked to do otherwise.

# Managing Participant Expectations for Benefit Estimates Guidance

**07/01/2016**

To assist the ▸EBLS/▸FBA/▸PBA in managing the participant's expectations for a benefit estimate prior to the availability of ▸BET, use the *Benefit Estimate Tracking Spreadsheet* as a tool to document, prioritize, and track the participant's request for a benefit estimate. Within the spreadsheet there are two worksheets:

- Tracking worksheet: Use for tracking and prioritizing each benefit estimate request.
- Guidelines worksheet: Use for entering data for calculating the priority code due dates on the Tracking worksheet.

Discuss with the team, specifically the actuary, the expected time frame for completion of requests based on the plan and participant data available and document in the Guidelines worksheet for automatic calculation of due dates in the Tracking worksheet.

The *Benefit Estimate Tracking Spreadsheet* also contains calculations that determine the priority code based on the participant's current age. Always review the priority code and override the calculation if necessary (for example, ▸QDROs or Hardships). There are three priority codes, A, B, and C, based on the following criteria:

- **Priority Code A**:
  - Expectation for Actuarial Completion: Complete first and as soon as possible.
  - Criteria for Priority Code A:
    - Participant is age 70½
    - Participant eligible for an immediate retirement
    - Benefit affected by a Domestic Relations Order with pending court date
    - Beneficiary waiting to go into pay
    - Hardship case
- **Priority Code B**:
  - Expectation for Actuarial Completion: As soon as possible after Priority A.
  - Criteria for Priority Code B:
    - Participant currently/soon eligible to retire (within 90 days)
- **Priority Code C**:
  - Expectation for Actuarial Completion: When the BET is available or earlier if possible.
  - Criteria for Priority Code C:
    - Participant not eligible to retire within 90 days
    - Eligibility unknown: For this situation, the EBLS/FBA places a request in the **FBA Comments** column for ▸CSD to research if participant is eligible.

**Note** If the EBLS/FBA determines a participant is not eligible for a benefit (for example, they do not appear to be a plan member) and the participant disagrees, treat the participant the same as Priority Code C: Eligibility Unknown participants.

Use the following steps to manage the expectations of participants who request a benefit estimate before the BET is available using the *Benefit Estimate Tracking Spreadsheet* tool.

**EBLS/FBA**

1. Create a *Benefit Estimate Tracking Spreadsheet* for the plan including all data elements needed to produce a benefit estimate:
   - Consult the actuary for a list of the required data elements.
   - Update the data in the Guidelines worksheet for due date calculations on the Tracking worksheet.
   - Refer to the Benefit Estimate Tracking Sample Spreadsheet to start the spreadsheet, adding or deleting data

elements (columns) as necessary.

2. Upload the *Benefit Estimate Tracking Spreadsheet* to the portal project for updates and maintenance.
3. For each benefit estimate request received (by telephone, mail, or through MyPBA), enter the requesting participant's information in the *Benefit Estimate Tracking Spreadsheet*.

   Contact the participant for additional information, as needed.
4. Verify the priority code for each request based on the criteria in the **Estimate Priority Assigned by FBA** column of the *Benefit Estimate Tracking Spreadsheet*.

   Override the **Estimate Priority Assigned by FBA** column, if necessary (for example, QDROs or Hardships).
5. Add any non-routine actions required by the actuary in the **FBA Comments** column of the *Benefit Estimate Tracking Spreadsheet*.
6. Notify the participant of when to expect the benefit estimate, either by phone on initial phone call or by sending an *eALG Generic Letter* (for every participant or by specific priority).
7. Notify the actuary of all pending requests in the spreadsheet on a regular basis based on an agreed upon method of communication within the team.

**Actuary**

8. Review the *Benefit Estimate Tracking Spreadsheet* to ensure there is enough data to perform the calculation and check the **FBA Comments** column of the *Benefit Estimate Tracking Spreadsheet* for any required actions.

   If there is not enough information to complete the calculation, in the **Actuary Comments** column of the spreadsheet document the additional data needed.
9. When there is enough information, calculate the benefit estimate requests by Priority Codes.
10. Prepare the Estimated Benefit Statement and include the following message, adjusted as appropriate, on each benefit estimate produced:

    "PBGC used the data below to compute your estimated monthly payment. We will send you a formal determination of your benefit when we have collected all data and reviewed all provisions of your plan."
11. Place the Estimated Benefit Statement in the appropriate folder in the portal project (for example, Calculation Estimates folder).

**EBLS/FBA**

12. Upon retrieving the benefit estimate from the appropriate folder in the portal project, issue the benefit estimate with an *eALG 305 Response to Inquiry for a Benefit Estimate* or other cover letter, as appropriate.
13. Close the service request in ▶CRM.
14. Update the **Date Received from Actuary** column in the *Benefit Estimate Tracking Spreadsheet*.
15. Once BET is available:
    - Generate benefit estimates, in batches if appropriate, to the participants on the spreadsheet who have not yet received them and update the *Benefit Estimate Tracking Spreadsheet*.
    - Follow normal processing for issuing benefit estimates. See TP 32 Provide Estimated Benefit Calculations.

# PPA At A Glance

**07/01/2016**

PPA 2006, signed into law on August 17, 2006, includes a number of provisions that significantly affect the administration of benefits in plans trusteed by PBGC.

**Shutdown Benefits:**

**New Rule:** Benefits payable because of shutdowns or similar events are phased-in from the date of the shutdown. Special rules apply to participants earning "creep" service.

> **Note** PPA placed additional benefit restrictions on payment of shutdown or other UCEB when the plan is underfunded. See Benefit Restrictions on Underfunded Pension Plans (IRC §436 limitations), below.

**Effective:** Shutdowns or similar events on or after 07/27/2005.

**Example:** The facility where Sam worked shutdown 08/01/2007, and the plan terminated 12/01/2007. Sam would have been entitled to $750 per month at his ERD of 10/01/2007 if the shutdown had not occurred. However, because of the shutdown, his plan benefit at his ERD is $1,000 per month. The $250 per month benefit payable because of the shutdown is phased in at 0% because the shutdown occurred within one year of DOPT.

**Action:** Notify ASK PPD of any affected plans. Apply new phase-in rules to cutbacks, estimated benefit calculations, and final benefit calculations.

**Majority Owners:**

**New Rule:** The "Substantial Owner 30-year phase-in" no longer applies, replaced by a 10-year phase-in for Majority Owners (50% or more ownership). The phase-in rate = X/10, where X = the number of full years the plan was in effect as of DOPT.

**Effective:** NoIT or NoD on or after 01/01/2006.

**Example:** Theresa owns 50% of the ABC company stock. Her guaranteed benefit (after applying the Max and Phase-in) would be $2,100 per month if she were not a majority owner. The ABC plan was in effect for 8 years as of DOPT. Therefore, Theresa's guaranteed benefit is $1,680 (8/10 x $2,100).

**Action:** The *OBA Operations Manual* has been updated with relevant changes. Apply new phase-in rules for Majority Owners.

**Bankruptcy:**

**New Rule:** The BPD is treated as DOPT for PBGC guarantees and calculation of benefits in PC3 for plans that terminate while the plan sponsor is in bankruptcy.

> **Note** PPA placed additional benefit restrictions on benefits and payments when the plan sponsor is in a period of bankruptcy and the plan is underfunded. See Benefit Restrictions on Underfunded Pension Plans (IRC §436 limitations), below.

**Effective:** Bankruptcies filed on or after 09/16/2006.

**Example:** The XYZ Pension Plan plan was created effective 01/01/2003. The plan sponsor filed for bankruptcy 8/1/2007. The plan terminated 2/2/2008 while the sponsor was still in bankruptcy. Benefits are subject to $80/80% phase-in because the plan was only in effect four full years as of BPD. In addition, the 2007 Maximum Guarantee applies, not the

2008 Max.

**Action:** Apply new phase-in rules to cutbacks, estimated benefit calculations, and final benefit calculations. See Policy 5.14-1 Benefits in PPA 2006 Bankruptcy Plans.

**Rollovers by Non-Spouse Beneficiaries:**

**New Rule:** Non-spouse beneficiaries, but not estates, may elect to have a lump-sum benefit or "large back payment" paid directly into an "inherited" ▸IRA.

**Effective:** Distributions made on or after 01/01/2007.

**Action:** Procedures for making non-spousal rollovers are located in Appendix R Assignment and Withholding from Benefit Payments, sections 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting and 1.3.1 Lump-sum Payment Tax Withholding Options.

**Rollovers to Roth IRA:**

**New Rule:** A lump sum may be rolled directly into a Roth IRA; however, the rollover is not tax-free.

**Effective:** Lump sums paid on or after 01/01/2008.

**Action:** Contact ASK PPD for guidance on paying a lump sum in a rollover to a Roth IRA.

**SPARR:**

**New Rule:** PPA revised the five-year "SPARR Period" for the ▸SPARR. It is now the five full fiscal years ending with the *third* fiscal year before the fiscal year in which termination was initiated for the plan.

**Effective:** NoIT or NoD on or after 09/16/2006.

**Example:** The QRS Plan has a NoIT of 05/01/2010; therefore, the five-year period for the SPARR consists of fiscal years 2003 - 2007.

**Action:** See Policy 6.7-1 4022(c) Amounts, and TP 25.1 Determine the Small Plan Average Recovery Ratio and Appendix H1 Historical SPARR Information for more guidance.

**SPDRR:**

**New Rule:** PPA created the Small Plan ▸DUEC Recovery Ratio (SPDRR). Similar to the SPARR, this allows PBGC to use the ratio to determine the value of DUEC for termination benefit valuation purposes. This ratio is determined over the "SPDRR Period" which is the five full fiscal years ending with the *third* fiscal year before the fiscal year in which the termination was initiated for the plan. The "Valuation DUEC Recovery" is determined by multiplying the plan DUEC by the appropriate SPDRR.

**Effective:** Plans in which the total amount of ▸UNGB as of DOPT does not exceed $20 million, and have a NoIT or NoD on or after 09/16/2006.

**Example:** The JKL Plan has a NoIT of 5/1/2007. UNGB = $8 million. The SPDRR is 28.42. Therefore, the "Valuation DUEC Recovery" is $2,273,600 ($8,000,000 x 28.42).

**Action:** See Policy 6.7-2 DUEC Recovery Amounts, and TP 25.2 Determine the Small Plan DUEC Recovery Ratio and Appendix H2 Historical SPDRR Information for more guidance.

**Distributions during Working Retirement:**

**New Rule:** Plans can amend to allow participants age 62 and older to receive pension payments while continuing to work for the plan sponsor.

**Effective:** 2007 and later plan years.

**Action:** Notify ASK PPD of any trusteed plans that allow early retirees to continue working.

**Cash Balance Plan Termination:**

**New Rule:** Variable rate plans must amend plan provisions to fix (freeze) interest rates and mortality upon termination.

**Effective:** Cash Balance plans terminating during/after 2008 plan year.

**Action:** Notify ASK PPD and ASD of any cash balance plans trusteed after 01/01/2008.

**Benefit Restrictions on Underfunded Pension Plans (IRC §436 limitations):**

**New Rule:** Section 436 places restrictions on certain benefit accruals and payments based on the plan's AFTAP.

**Effective:** Plans with DOPT on or after the first day of the plan year beginning in 2008 (for example, 01/01/2008 for a calendar year plan).

**Action:** Follow procedures in Process 10.1 Analyze Plan Documents to determine if the limitations potentially apply and, if so, follow procedures in TP 14 436 Benefit Limitations to evaluate the impact, if any, on PBGC's calculation and administration of the plan's benefits.

Top of Page

# Privacy Act Release Interim Guidance

**03/30/2016**

The ▸Privacy Act of 1974 generally prohibits PBGC personnel from releasing information about a customer from PBGC records ("Privacy Act information") to anyone other than the customer. Unless PBGC has an acceptable release, Privacy Act information may not be disclosed to a third party in a telephone call or in writing. Disclosures of Privacy Act information are prohibited to third parties even if they are family members.

A third party authorized to receive Privacy Act information is referred to as an "authorized contact." A Privacy Act release allows the authorized contact to receive information from PBGC. It does not authorize the third party to take actions for the customer, such as signing an application or making other changes to the customer's record. If a customer wants to allow someone to *take actions on his or her behalf*, the customer should appoint said individual to serve as his or her agent through a power of attorney. (See TP 49 Power of Attorney and Guardianship to process a ▸POA.)

If a customer wishes to authorize another person to receive Privacy Act information from PBGC, the customer may authorize PBGC through the following approaches.

- **Written release:** PBGC will determine whether someone is an authorized contact for a customer when a written release signed by the customer is provided. PBGC will notify the customer about whether the written release is sufficient to meet the requirements of the Privacy Act. The elements of an acceptable Privacy Act Release are in Written Privacy Act Releases.
- **One-time telephone call**: Often, a PBGC customer contacts PBGC with a third party on the telephone line – for example, a customer may call with a child or spouse on the telephone call. With the customer's permission, PBGC may discuss Privacy Act information during the telephone call with the customer and the third party. The oral permission granted by the customer is effective only for the duration of the phone call and the customer's request to include the third party in the phone call is documented in the call notes. This is permissible as it is considered a release of Privacy Act information to the customer. PBGC may not send any written information to the third party.

  A customer may not orally authorize that PBGC provide Privacy Act information to a third party independently. When a customer wishes to authorize someone to receive Privacy Act information independently, the customer must provide a written release. If requested, PBGC will provide the customer with information about what is needed for an acceptable Privacy Act release. This is covered in Privacy Act Disclosures in Phone Calls.
- **Privacy Act Breaches**: PBGC must report a possible breach within 60 minutes of identifying a situation in which there has been a Privacy Act breach, such as disclosing Privacy Act information to a third party. Refer to Appendix A.4 Reporting a Breach of Sensitive Information.

**In this Section**

Written Privacy Act Releases
Privacy Act Disclosures in Phone Calls

Top of Page

## Written Privacy Act Releases

**03/30/2016**

| | |
|---|---|
| Purpose | To determine whether a document is an acceptable release under the Privacy Act of 1974 and respond to the customer. |
| Guidance | Privacy Act of 1974<br>Directive IM 10-3 Protecting Sensitive Information<br>Directive IM 05-9 Information Privacy Program<br>Privacy Resources |

Upon receipt of a document in which a customer appears to authorize another party to speak with PBGC and receive any ▸Privacy Act information about the customer, take the following actions:

1. Identify the customer and any plans in which the customer may participate.

   **Note** The ▸SSN, ▸CID, or plan name and number are not required on the release, although PBGC staff will need to identify same to process.

2. Review the document. There is no standard format in which it must appear. If the document is labeled or formatted in any way as a power of attorney (▸POA), consult with the local POA Coordinator to confirm whether it should be processed as a POA. If so, review and process it according to TP 49 Power of Attorney and Guardianship and discontinue this process.
3. Determine whether the written release is an acceptable Privacy Act release or not by ensuring each of the following elements is contained:
   a. Name of customer
   b. Name of the person(s) or entity to be the authorized contact
   c. Customer's signature, which must:
      i. Be notarized, or
      ii. Include a "penalty of perjury" declaration.

      Example: "I declare under penalty of perjury that I am John Doe."
   d. Statement of purpose of the release
      i. Example: "I would like my daughter Jane Doe to be able to discuss my PBGC pension."
      ii. Example: "I authorize you to speak with my wife about how my pension was calculated by PBGC and when I can begin to receive it."
4. Consult with the supervisor if assistance is needed to ensure that any of these requirements are met. The supervisor will refer to ▸PPD via Ask PPD (see TP 17 Policy and Processing Questions) if assistance is needed. PPD will consult with legal (▸OGC) as needed.
5. If the release is unacceptable, prepare a letter to the customer advising that the document was reviewed and cannot be accepted and state the explicit reason. The customer may also be contacted by phone and advised about the deficiency; however, the letter must be sent unless a new acceptable release is received prior.

   **Note** A copy of the letter **may not** be provided to the proposed "authorized contact."

6. If the release is determined acceptable (contains all the necessary elements), prepare a letter to the customer advising that the document was reviewed and PBGC will disclose information within the scope of the stated purpose to the named authorized contact.

   Send a copy of the letter to the authorized contact.
7. The release terminates upon:
   a. Notice by the customer, or
   b. Completion of the stated purpose of the release.

Top of Page

## Privacy Act Disclosures in Phone Calls

**03/30/2016**

| | |
|---|---|
| Purpose | To interact with customers and third parties by telephone when requested to do so by customers in a method that is acceptable under the Privacy Act of 1974. |
| Guidance | Privacy Act of 1974<br>Directive IM 10-3 Protecting Sensitive Information<br>Directive IM 05-9 Information Privacy Program<br>Privacy Resources |

Generally, PBGC may only independently disclose ▸Privacy Act information to a third party by telephone when the person or third party is explicitly authorized as a guardian, conservator, or an agent in a power of attorney, or through a written release under the Privacy Act that meets the requirements of Written Privacy Act Releases.

Absent one of these authorizations, PBGC staff **may not independently disclose** Privacy Act information to any third party by phone or in writing. However, when a customer contacts PBGC by phone with a third party on the call, the customer may advise that he wishes to permit PBGC to disclose Privacy Act information during the phone call. When a customer advises PBGC that he wishes to temporarily (i.e., for the duration of a phone call) include a third party in a phone discussion with PBGC that may involve Privacy Act information, follow these steps:

1. Request customer follow normal process of validating identity.
2. When customer indicates a third party is participating in the call, verify the following with the customer and document in ▸CRM:
   a. Name of the third party
   b. Relationship if available
   c. Phone number if available
3. Advise both parties that PBGC will disclose Privacy Act information during this phone call per the customer's request, but that this will only occur during the phone call with the customer on the line.
   a. The third party may not call PBGC independently and receive Privacy Act information in subsequent phone calls unless the customer is again on telephone and advises this is authorized. The third party may not call PBGC independently and receive Privacy Act information in subsequent phone calls unless the customer is again on telephone and advises this is authorized.
   b. Provide information about a written release if appropriate, including the necessary items that must be addressed in the release. See Written Privacy Act Releases.
4. Document the phone call in CRM.

Top of Page

# Processing Checks Returned for Bad Address Interim Procedures

07/01/2016

Envelopes containing checks mailed to PBGC customers currently bear the return address of PBGC's paying agent (SSC). Beginning with checks issued during the September-October 2012 timeframe, these envelopes will instead bear the DMC's return address. This will require some processing changes for the DMC and benefit processing staff for checks that are returned for bad address, as described in the following interim procedures.

**DMC**

1. Scan the returned envelope and check with Doc ID **4E Home Address Change Request** (use **4H Returned Pension Checks** if the returned envelope indicates the payee is deceased).

   This creates an "action required" CRM Service Request (SR).

2. Classify the check in IPS DM Verify as follows:

   - Check Type = **PE**
   - IPS Comments = **PE4E** (use **PE** if payee is reported deceased)

3. Reassign the SR to the Mail POC for the plan with specific comments (for example, "Returned pension check, forwarding address not provided on envelope, please invalidate address in Spectrum."
4. Shred the check.

**Mail POC and/or Benefit Processing Staff**

5. Upon receipt of the SR, proceed according to whether the returned check indicates the payee is deceased:

   - If not reported deceased, proceed to step 6.
   - If the payee is reported deceased:

     - For the returned check, prepare an eCARF to stop payment and return to trust.
     - Process the SR as a report of death according to TP 5 Death Processing. No further action is needed for this interim procedure.

6. Attempt to contact the customer by telephone for the new address (or to verify a forwarding address provided by the USPS). Use available information in the payee's IPS file, CRM, and from available locator search engines as needed to obtain the phone number.

7. Proceed based on the success of the attempted voice contact:

   **Voice Contact Established:**

   - Update the payee's address in CRM. This generates CRM acknowledgement letters to the new and old address.
   - Prepare an eCARF to stop payment and reissue the check to the new address. See TP 45.2A Stop and Reissue Unpaid Check.

   **Voice Contact Not Established:**

   - For the returned check, prepare an eCARF to stop payment and return to trust.
   - Code the address Invalid in Spectrum.
   - Suspend the payee's benefit payments in Spectrum until voice contact is established and a valid address provided.

8. Close the SR.
9. Upon receipt of a verified address and establishing voice contact with the payee:

   - Record the contact and update the address in CRM.
   - Resume annuity payments.
   - Issue a back payment with interest for payments missed while benefits were suspended.

**03/27/2014**

This section describes ▸OBA's initial steps from assigning the Case Team through effecting trusteeship for a case. The Case Team holds a coordination meeting with ▸CFRD, then assesses the available information and begins the case work plan. The Case Team's ▸auditor and ▸actuary create documents for preparation for building the database. CFRD prepares the Trusteeship Agreement, which is sent to the ▸plan administrator or outside signatories. Once both the outside signer and a PBGC representative (the Supervisory Case Management Analyst) have signed the agreement, trusteeship is effective.

The order of the procedures given is a normal progression of a case; however, PBGC may trustee the plan at any time.

**In this Section**

Process 8 Pre-Trusteeship Processing

Top of Page

# Process 8 Pre-Trusteeship Processing

**In this Section**

8. Overview for Pre-Trusteeship Processing
8.1 Assign Case Team
8.2 Assess Available Records/Information
8.3 Hold Coordination Meeting with Corporate Finance and Restructuring Department
8.4 Assign Milestones in CMS
8.5 Plan Case and Create Case Work Plan
8.6 Begin Plan Document List, Plan Summary, and Participant Data Elements List
8.7 Effect Trusteeship
8.8 Complete DUEC Milestone and Update the Recovery Milestone
8.9 Resources for Pre-Trusteeship Processing

Top of Page

## 8. Overview for Pre-Trusteeship Processing

**07/01/2016**

The Pre-Trusteeship Processing section describes ▸OBA's initial steps from assigning the Case Team through effecting trusteeship of the plan. The Case Team retrieves and reviews pertinent documents placed into TeamConnect by ▸CFRD, holds a coordination meeting with CFRD, and begins the case work plan. CFRD prepares the Trusteeship Agreement, which the ▸TWG Chairperson's office sends to the ▸plan administrator or outside signatories. The Trusteeship Agreement is subsequently executed by the Supervisory Case Management Analyst, ▸CMD and the plan is trusteed.

The order of the procedures within Pre-Trusteeship Processing is the normal progression of a case; however, the plan may be trusteed at any time.

Getting an early start on ▸participant and plan processing is imperative to reduce the overall case cycle time. Efficient case processing facilitates improved customer service, as OBA is able to deliver participants better information earlier about the termination of the plan and their ▸benefits.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

Top of Page

## 8.1 Assign Case Team

**07/01/2016**

| | |
|---|---|
| **Purpose** | To assign a case to a Case Team. |
| **Guidance** | N/A |
| **Procedure Owner** | Supervisory Case Management Analyst, CMD |

The ▸CFRD Analyst Supervisor notifies ▸MCD that the case is ready for assignment to an ▸OBA Case Team.

Generally, CFRD requests assignment to a case upon starting the *Trusteeship Working Group Memo* (a process that can take one or more months). CFRD requests ▸CMD assignment earlier if any of the following are true:

- The pension/personnel records are in jeopardy (for example, sponsor liquidation, cessation of operations with no ongoing controlled group).
- ▸Participants are out of pay status or the plan has insufficient assets to pay benefits that are currently due.

1. Assign the Case Team and ▸FBA, if applicable, to the case.
2. Notify the Case Team and FBA, if applicable, via ▸CMS task referral e-mail of the assignment.
3. Notify CFRD of the case assignment.
4. Upon receipt of the CMS task referral e-mail, assign the following Case Team members:
   - Case Management Analyst
   - ▸Actuary (As needed, coordinate with ASD to assign the actuary.)
   - ▸Auditor
   - ▸EBLS

Top of Page

## 8.2 Assess Available Records/Information

**08/30/2016**

| | |
|---|---|
| **Purpose** | To obtain, review, and assess all available records, documents, and other information related to the case placed into TeamConnect by CFRD. |
| **Guidance** | N/A |
| **Procedure Owner** | Auditor, DCB |

Prior to the coordination meeting, the Case Team reviews all documents obtained from TeamConnect. This serves as a starting point for determining the information needed to process the plan.

1. Review all available documents, which includes documentation retrieved from TeamConnect.
2. Use the *Master List of Documents to Obtain*, editing as needed, to identify documents already in PBGC's possession and those still needed.
3. Use the edited *Master List of Documents to Obtain* as a work paper to inventory the documents received to date and to list documents still needed to process the case.

   Update the *Master List of Documents to Obtain* throughout the case processing cycle as new information becomes available.

Top of Page

## 8.3 Hold Coordination Meeting with Corporate Finance and Restructuring Department

**07/01/2016**

| | |
|---|---|
| **Purpose** | To hold a coordination meeting between CFRD and the assigned Case Team. |
| **Guidance** | N/A |
| **Procedure Owner** | Case Management Analyst, CMD |

1. Schedule a meeting between CFRD and the assigned Case Team upon receipt of the e-mail from CFRD, and invite the following stakeholders and/or persons with knowledge of the plan:
   - **Corporate Finance and Restructuring Department (CFRD)**: CFRD Analyst, CFRD actuary, CFRD attorney, and CFRD supervisor or designee. If the CFRD senior analyst is invited, then CFRD supervisor is not necessary.
   - **Office of Benefits Administration (OBA)**: Auditor, actuary, EBLS, Supervisory Case Management Analyst, CMD, and ADM.
   - OCC: Staff attorney
   - FOD/IAB: Trust accountant
   - FOD/CID: Financial analyst, if needed
   - DMC
2. Based on information obtained in assessing the available documents and information (see Process 8.2 Assess Available Records/Information), discuss the following at the meeting:
   a. Status of plan sponsor
   b. Security of records
   c. Whether any participants are out of pay status
   d. Timing issues:
      - How quickly the termination/trusteeship process is moving
      - Status of settlement discussions, if applicable
   e. Status and location of plan assets
   f. List of any legal or policy issues (for example, working retirement issues, shut-down determination, and any known fiduciary breach).
   g. Availability of plan sponsor. Consider the following three possible scenarios:
      - **OBA Contact Allowed**: CFRD has requested all the information that it needs for the termination process. OBA can contact sponsor directly for selected information after CFRD provides introduction to sponsor. CFRD and OBA should agree on parameters of OBA's information request. In general, this will probably be limited to the information necessary to calculate a participant's benefit and to records security.
      - **OBA Contact with CFRD Involvement**: CFRD will need to be involved in any contact with sponsor. To avoid possible misunderstandings regarding the direction of the case, prior to plan termination OBA should not directly contact the CFRD actuary without first checking with the assigned CFRD analyst/auditor. In addition, CFRD should be kept in the loop regarding any substantive discussions involving OBA and OCC.
      - **No OBA Contact Allowed**: No contact with plan sponsor by OBA. This generally involves large cases where sensitive discussions/negotiations are in progress. If not appropriate for OBA to contact sponsor directly, OBA/CFRD should reach an agreement on what information CFRD requests on behalf of OBA, assuming the plan goes forward for termination. CFRD may itself not be able to reach the appropriate persons to whom the request should be directed, as compliance may be elusive or non-existent.
3. Document meeting minutes in a work paper and include the following information:
   - Date of meeting
   - Attendees
   - Discussion items
   - Contact list: name, title, description of responsibilities, phone numbers, and e-mail addresses

- Action items
- Issues and concerns

4. Continue to monitor TeamConnect for additional documents related to the case.
5. Review all documents to prepare for the data acquisition strategy meetings (see Process 11 Data Collection and Analysis).

Top of Page

## 8.4 Assign Milestones in CMS

**07/01/2016**

| | |
|---|---|
| **Purpose** | To assign applicable milestones to Case Team members in CMS. |
| **Guidance** | CMS Job Aids and User Guide<br>*CMS Milestones Job Aid* |
| **Procedure Owner** | Case Management Analyst, CMD |

Once the plan is approved for termination, CFRD officially transfers the case to OBA in CMS. Once this transfer takes place, the case becomes the responsibility of OBA. OBA can contact the plan sponsor and other appropriate parties directly (even if direct contact was not previously allowed by CFRD prior to the transfer).

Once trusteeship is approved, CFRD finalizes the Term/Trusteeship Decision Recommendation Milestone in CMS and forwards the case to CMD.

**Note** CFRD completes the controlled group determinations, recovery valuations, and quarterly estimated recoveries for all plans with a TID on or after 10/01/2008.

1. Using the *CMS Milestones Job Aid* as guidance, assign applicable CMS milestones to the appropriate Case Team members.

   Before assigning asset-related milestones, complete step 2 to determine the estimated UNGBs.
2. Consult with the actuary to determine the estimated UNGBs and then answer the **SPDRR Determination** question (UNGB is less than or equal to $20 Million or UNGB is greater than $20 Million) on the Valuation Plan Assets (Benefits Calculation Purposes) screen in CMS:
   - If the plan's UNGBs are less than or equal to $20 Million, the TID is on or after 09/16/06, and DUEC is greater than zero, select **Yes**.
   - If the plan's UNGBs are less than or equal to $20 Million, the TID is on or after 09/16/06, and DUEC is equal to zero:
     a. Select **No**.
     b. Type the comment `The UNGBs for this case are less than or equal to $20 million; however this case has zero DUEC.`
   - If the plan's UNGBs are less than or equal to $20 Million and the TID is before 09/16/06:
     a. Select **No**.
     b. Type the comment `The UNGBs for this case are less than or equal to $20 million; however this case is pre-PPA legislation and would not be considered a SPDRR case.`
   - If the plan's UNGBs are greater than $20 Million, select **No**.
3. To complete the assignment of the asset-related milestones, make the following determination so that CMS makes available the correct plan asset milestone for assignment to the auditor:
   - Plan UNGBs are less than or equal to $20 Million, assign the Valuation Plan Asset Milestone only.
   - Plan UNGBs are greater than $20 Million, assign the Final Plan Asset Milestone and the Recovery Milestone.

## 8.5 Plan Case and Create Case Work Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To plan for the case and create the case work plan. |
| **Guidance** | *OBA Progress Reporter in Oracle Primavera P6 Interim Guidance*<br>CMS Job Aids and User Guide<br>Oracle Primavera P6 Help |
| **Procedure Owner** | Case Management Analyst, CMD; Supervisory Case Management Analyst, CMD |

Use the following procedures to prepare for and plan a case and then to create the work plan for the case.

**In this Section**

8.5A Case Planning Concepts
8.5B Create Case Work Plan

Top of Page

## 8.5A Case Planning Concepts

**07/01/2016**

### Supervisory Case Management Analyst, CMD

Planning is an essential part of successful case processing. It is important that the Case Team understand all plan goals and objectives and obtain necessary resources, including persons with the required skills, equipment, and contract resources necessary to complete the milestones and tasks for the plan. To effectively manage the case process, it is necessary for each Case Team member to be actively involved, provide regular feedback on progress and accomplishments, establish regular communication with the management team, act quickly to deal with problems, keep the project on track, and keep all other Case Team members informed of meeting team goals. The overall goal for each case is to issue accurate ▸Benefit Determination Letters as soon as practicable, which enables ▸OBA to provide better customer service by delivering information to the ▸participants earlier about their plan benefits.

### Use Available Tools for Planning

▸Oracle Primavera P6 is OBA's official case processing (project) planning tool, used for all plans in the inventory that shows target and actual start date, task duration, and target and actual completion dates for all major ▸CMS milestones. The case work plan is used to plan, update, and track all activities related to processing the case. This work plan should be continuously updated with revised targets and actual completion dates for all major case processing tasks throughout the case processing life cycle.

Adjust processing times and completion dates as needed for large cases.

### Evaluate Milestone Dates

The team's understanding of the plan is important to know when beginning this process. It is also important to note that this is an iterative process. The plan for processing the case should be re-evaluated every month to determine if the team is on track to completing the case in a timely manner. In addition, additional information that continues to come in may affect certain target dates for certain milestones. Example questions to ask when projecting target dates are:

- Do individual team members have the necessary time to devote to the case?
- Are there any policy and/or procedural concerns that apply to this case?
- Is the participant data readily accessible and complete?
- Is the database building team trained and knowledgeable on Leo and the required reporting?

Top of Page

## 8.5B Create Case Work Plan

**07/01/2016**

**Supervisory Case Management Analyst, CMD or Employee Benefits Manager, CSD**

1. Review the team assignments in ▸CMS and ensure that all required disciplines are assigned, including ▸auditor, ▸actuary, and ▸EBLS/▸PBA/▸FBA if applicable. Designate mail and telephone ▸POCs and make other assignments as needed.
2. Create the new case work plan in ▸Oracle Primavera P6.
3. Meet with the Case Team, including staff that support the case, to establish target completion dates for case processing milestones.
4. Enter dates agreed upon and update in ▸P6.
5. Forward the case work plan to the FBA and other contractors (if any) within seven calendar days.

**FBA and Other Contract Management**

6. Review the data in P6 and enter comments or create "what-if" scenarios as needed.
7. Return the case work plan to Supervisory Case Management Analyst, ▸CMD within seven calendar days.

**Supervisory Case Management Analyst, CMD or Employee Benefits Manager, CSD**

8. Review any comments made by the FBA or other contractors and make necessary changes. Approval of the case work plan establishes the initial baseline.
9. Maintain the case work plan through plan closing according to TP 35 Case Work Plan.

Top of Page

## 8.6 Begin Plan Document List, Plan Summary, and Participant Data Elements List

**07/01/2016**

| | |
|---|---|
| **Purpose** | To begin creating plan documents, such as *Plan Document Listing*, *Plan Summary*, and the Participant Data Elements Listing in the *Data Elements and Sources Listing*. |
| **Guidance** | N/A |
| **Procedure Owner** | Auditor DMD; Actuary, ASD |

After assessing the plan records and information in house, determine if there is enough information to begin drafting the *Plan Document List*, *Plan Summary*, and the Participant Data Elements list in the *Data Elements and Sources List* document. As additional information is received, update these documents accordingly. The documents are finalized later in the case life cycle.

- **Plan Document List**: Contains all plan documents in PBGC possession. The *Plan Document List* is a complete history of the plan documents needed to determine benefits for participants in the plan. Plan documents can include any official document that contains or refers to provisions of the plan. In addition to the plan itself and any amendments, plan documents may include board of directors' resolutions and collective bargaining agreements. Minutes from board meetings where pension plan was discussed may also be valuable sources of information.
- **Plan Summary**: A summary of all relevant plan provisions and contains information necessary to build the participant database and calculate participant benefits.
- **Participant Data Elements List:** Based on the *Plan Summary* and contains the data elements necessary to build the participant database and calculate participant benefits. Use the *Data Elements and Sources List* to list the data elements required for the plan. For detailed lists of the types of data elements often required for plans with certain characteristics, consult Appendix B Preferred Source Documents for Participant Data Elements. Depending on plan provisions, it may also be necessary to add data elements not appearing in the appendix.

**Auditor**

1. Begin the draft *Plan Document List*.
   - List all documents starting from ▸DOPT in reverse chronological order.
   - Include all documents that affect the plan, including board of directors' resolutions and collective bargaining agreements that refer to the plan. In some cases, pension board minutes contain information that can be used if documents are not signed and dated.
   - Ensure that the descriptive name used in the *Plan Document List* is the same as the name used on the document itself.
2. List and record information for each document, including:
   - Name
   - Effective date
   - Adoption date and/or execution date
3. Submit the *Plan Document List* to the actuary.

**Actuary**

4. Review the *Plan Document List* and all plan documents.
5. Begin the *Plan Summary* based on information from the *Plan Document List*.
6. Create the Participant Data Elements list in the *Data Elements and Sources List.*
7. Classify the participants and identify what data is needed for each type of participant.

Top of Page

## 8.7 Effect Trusteeship

**07/01/2016**

| | |
|---|---|
| **Purpose** | To effect trusteeship of the plan. |
| **Guidance** | ERISA 4041<br>ERISA 4042 |
| **Procedure Owner** | Case Management Analyst, CMD |

The Trusteeship Agreement is the written agreement between PBGC and the ▸plan administrator or the plan administrator's duly authorized representative terminating a plan and appointing PBGC as trustee. Once the Trusteeship Agreement is executed, PBGC assumes all responsibility for the pension plan.

The Trusteeship Agreement is prepared by ▸CFRD and mailed to the plan administrator or outside signatories by the TWG Chairperson's office. Both originals of the Trusteeship Agreement must be signed. The second signature (of the Supervisory Case Management Analyst) executes the agreement and establishes the Date of Plan Termination (▸DOPT) and Date of Trusteeship (▸DOTR).

If the signed Trusteeship Agreement is not received within 30 days of the mailing date, the Supervisory Case Management Analyst should contact the Office of Chief Counsel (▸OCC) staff attorney to determine what further steps are needed for follow-up. The goal is to sign the Trusteeship Agreement as soon as it is received and to notify all PBGC stakeholders promptly.

CMD receives two original Trusteeship Agreements signed by the outside signer (generally the plan administrator) from the TWG Chairperson's office.

1. Upon receipt, review the Trusteeship Agreements by comparing the original sent by PBGC to those signed and submitted by the outside signer. There should be no changes between the two documents. If there are, the Trusteeship Agreement is invalid. Immediately contact the OCC staff attorney.
2. Once it is determined that the Trusteeship Agreement is valid, sign and date both copies. This action executes the Trusteeship Agreement.
3. Notify the Team Leader, who enters the signature date in ▸CMS to finalize the Trusteeship Agreement Milestone.
4. Prepare and send an *Executed Trusteeship Agreement Cover Letter* forwarding an original of the executed Trusteeship Agreement to the outside signer.

   **Note** For court-ordered trusteeships, prepare and send a *Court Ordered Trusteeship Cover Letter* forwarding the order.

5. Send an e-mail to the Corporate Investments Department/Asset Control and Liquidation Group (▸CID/▸ACLG) and Financial Operations Department/Controller Operations Division/Investment Accounting Branch (▸FOD/COD/▸IAB) to notify them of the PBGC date of trusteeship.
6. Within three business days of the execution, distribute a copy of both the signed Trusteeship Agreements and *Executed Trusteeship Agreement Cover Letter* sent to the outside signer with a *Trusteeship Agreement Transmittal Memo* to each of the following recipients. In lieu of hard copies, the documents may be scanned and forwarded by e-mail in PDF format.

   **Note** In the case of court ordered trusteeships, OCC already has the original. Address the *Court Ordered Trusteeship Cover Letter* to FOD/COD/IAB.

   - **original**—OCC (staff attorney assigned)
   - **copy**—plan file
   - **copy**—Branch Chief, Financial Operations Department/Controller Operations Division/Investment Accounting Branch (FOD/COD/IAB)

- **copy**—Team Leader, Corporate Investments Department/Asset Control and Liquidation Group (CID/ACLG)
- **copy**—Financial Analyst/Auditor, CFRD

7. Send the *4042(d) Notification of Trusteeship Letter to Interested Parties* letter to all ▸interested parties, as described in ▸ERISA section 4042(d).

   This letter provides the statutorily required notice that PBGC is terminating and trusteeing the plan. Interested parties on a case may include any or all of the following:

   - ▸Plan sponsor
   - Controlled group members
   - Bankruptcy trustee
   - ▸Actuary
   - Auditor
   - Union(s)
   - Bank
   - Accountant
   - Insurance company
   - Prior paying agent

   > **Note** Providing notice of trusteeship to participants is handled separately (see Process 9.5 Notify Participants).

8. Notify all Case Team members that trusteeship has been effected and provide:
   - DOPT
   - DOTR

   Ensure the correct DOPT is used as the date may differ from the date in original recommendation.

   > **Note** A plan-specific Web page is automatically created by the entry of the DOTR in CMS. For details regarding how to create a plan-specific Web announcement, see TP 50 Plan-Specific Web Announcements.

Top of Page

## 8.8 Complete DUEC Milestone and Update the Recovery Milestone

**07/01/2016**

| | |
|---|---|
| **Purpose** | To capture key dates relating to bankruptcy information and to update and finalize the DUEC Milestone in CMS. Also, if applicable, to update the Recovery Milestone. |
| **Guidance** | CMS Job Aids and User Guide |
| **Procedure Owner** | Case Management Analyst, CMD |

Complete the ▸DUEC Milestone within ninety days of trusteeship to capture bankruptcy information (for example, the bankruptcy filing date), which may have an impact on further case processing activities.

**DUEC Milestone**

1. Review the *Pension Information Profile* (PIP) to identify whether ▸CFRD provided complete and correct DUEC information:
   - **▸DOPT used in DUEC calculation is correct:** Confirm the PBGC Valuation Date under Part I - Actuarial Information of the PIP matches the DOPT date in the trusteeship agreement and on the Trusteeship Agreement Milestone in ▸CMS.
   - **DOPT used in the DUEC calculation is incorrect or CFRD did not calculate DUEC:**
     a. Use *Form 1109 Request for Underfunding and Minimum Funding Calculations* to request a DUEC calculation from CFRD, through the Actuarial Services Division.
     b. Once CFRD provides the DUEC amount, update the DUEC Milestone.
2. Update the DUEC Milestone fields in CMS using the data found on the ▸identified line of the PIP:
   - **Cessation of Business**: The Date of Cessation of Business line under Part IV - Unpaid Minimum Required Contributions (in dollars).
   - **Benefit Frozen**: The Plan Frozen? line.
   - **Bankruptcy Filing Date**: The Date of Bankruptcy Filing line under Part I - Actuarial Information.
   - **Bankruptcy Exit Date**: Generally, not available in the PIP.
   - **Gross DUEC**:
     - Non-Bankruptcy Plans: The Total Unpaid Minimum Required Contributions (DUEC) line under Part IV - Unpaid Minimum Required Contributions (in dollars).
     - Bankruptcy Plans: The sum of lines under Part IV - Bankruptcy Claims (General Unsecured Claim + 180 Days Normal Cost Claim + (a)(2) Administrative Normal Cost Claim).

**Supervisory Case Management Analyst, CMD**

3. Finalize the DUEC Milestone.

> **Note** CMS does not allow users to finalize the Valuation Plan Assets Milestone or the Final Plan Assets Milestone before the DUEC Milestone is complete.

**Recovery Milestone**

**ervisory Case Management Analyst, CMD**

1. If the ▸UNGB is greater than or equal to $20 Million, send an e-mail to CFRD and the Recovery Valuation Group Chairperson of the need for recovery valuation.

   Notify CFRD six to nine months in advance to ensure timely completion of case processing.

**Case Management Analyst, CMD**

2. Once CFRD completes the recovery package and notifies the TPD, update the Recovery Valuation Milestone.

> **Note** CMS does not allow users to complete the Valuation Plan Assets Milestone or Final Plan Assets Milestone until the Recovery Valuation Milestone is final.

**03/27/2014**

This section describes ▸OBA's assumption of benefit payment responsibility and making adjustments to ensure that benefits are being paid in accordance with Title IV ▸ERISA guarantees. Under certain circumstances, benefit payments may take place prior to the termination and trusteeship of a plan.

**In this Section**

Process 9 Plan Assumption
Process 10 Benefit Adjustments

# Process 9 Plan Assumption

**In this Section**

9. Overview for Plan Assumption
9.1 Ensure Uninterrupted Payments
9.2 Prepare and Transmit Funding Memo
9.3 Obtain Participant Payment Data
9.4 Initiate First Pay and Customer Data Loads
9.5 Notify Participants
9.6 Conduct Payee Data Review
9.7 Verify Data from Returned Forms
9.8 Resources for Plan Assumption

## 9. Overview for Plan Assumption

**07/01/2016**

When assuming a new plan, a primary objective of ▸OBA is to ensure participants continue to receive their benefit payments without interruption. The Case Teams must work closely with the plan administrator and the plan's paying agent to ensure a smooth transition of the benefit administration functions to PBGC. A brief description of the process follows.

The OBA Case Team occasionally must remind the plan administrator of his or her responsibility to administer the plan during its transition to PBGC, and sometimes to request a transfer of funds from PBGC to the plan's paying agent to provide for continued payments. These processes are covered in Process 9.1 Ensure Uninterrupted Payments and Process 9.2 Prepare and Transmit Funding Memo, respectively.

For most plans, the OBA Case Team begins by obtaining from the plan administrator and/or paying agent the data needed for PBGC to assume payments (see Process 9.3 Obtain Participant Payment Data). The OBA Case Team then reviews and loads the participants to ▸Spectrum using a Data Load Request (see Process 9.4 Initiate First Pay and Customer Data Loads).

Once participants are loaded into Spectrum, the OBA Case Team notifies them of PBGC's trusteeship of their plan and requests data from them. Payees are also notified of the change in paying agent and any changes to their payments. These initial letters are covered in Process 9.5 Notify Participants. The final stage of the process is to ensure the correct Form of Benefit, Actual Retirement Date, Date of Birth, and role for each payee at Plan Assumption are recorded in Spectrum. See Process 9.6 Conduct Payee Data Review.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

## 9.1 Ensure Uninterrupted Payments

**07/01/2016**

| | |
|---|---|
| **Purpose** | To ensure continued payments to retirees prior to PBGC's assumption of payment responsibility for plans that are trusteed or will be trusteed soon. |
| **Guidance** | Policy 3.4-1 Benefit Payments Prior to Trusteeship<br>Policy 5.4-7 Annuity Benefit Forms |
| **Procedure Owner** | EBLS |

Once PBGC trustees a pension plan, ▸OBA generally requests that the plan administrator continue to administer payments for up to three months before PBGC assumes payment responsibility through ▸PBGC's paying agent. During this period, PBGC provides funding for benefit payments for each month until payments are assumed by OBA. OBA prepares a *Benefit Funding Memo* to initiate the transfer of funds from PBGC to the plan's current paying agent. Other documentation may also be required for certain plans.

Some plans may require PBGC funding to pay benefits prior to trusteeship (for example, a plan that is abandoned, lacks staff to process new retirees, or has insufficient assets to pay current benefits). Authorization to make payments prior to trusteeship will be made in writing by the Chief of Benefits Administration, OBA or designee. The *Benefit Funding Memo* authorizes funding to ensure uninterrupted payments before PBGC assumes payment responsibility (whether before or after trusteeship); see Process 9.2 Prepare and Transmit Funding Memo.

Follow procedures based on the appropriate scenario for the plan.

**In this Section**

9.1A Ensure Uninterrupted Payments for Trusteed Plans
9.1B Ensure Uninterrupted Payments for Plans Not Yet Trusteed

### 9.1A Ensure Uninterrupted Payments for Trusteed Plans

**07/01/2016**

The most common scenario under which PBGC assumes payment responsibility for a ▸plan is when the plan is already trusteed. The case was approved for termination and transferred from ▸CFRD to ▸OBA, and the ▸plan administrator returned the signed Trusteeship Agreement, which the Supervisory Case Management Analyst signed, making trusteeship effective. OBA must now provide funding to ensure uninterrupted payments or assume payments immediately, if practicable.

**EBLS**

1. Upon trusteeship of the plan, call the plan administrator to verify that the plan administrator, or a designated representative, is still performing day-to-day administration and is willing to continue paying retirees until PBGC assumes payments. (In certain bankruptcy cases, a ▸Trustee may assume responsibility for plan administration or designate another person.)
   - If the plan administrator is no longer functional (the plan is abandoned) or is unwilling to continue administering benefits, proceed to step 2.
   - If the plan administrator is willing to continue administering benefits, proceed to step 3.
2. If the plan is abandoned or the plan administrator is unwilling to continue administering benefits:
   - Coordinate with the plan's paying agent to continue making payments, if possible. If the paying agent is willing to make payments until PBGC assumes payment responsibility, provide funding needed for the coming month's payments (see Process 9.2 Prepare and Transmit Funding Memo).
   - Expedite assumption of payment responsibility by PBGC (see Process 9.4 Initiate First Pay and Customer Data Loads).
   - If the paying agent is also not functional or is uncooperative, and there is insufficient time for OBA to assume payment responsibility:
     a. Initiate off-cycle payments to retirees (see TP 29 Off-Cycle Payment). Note that ▸payees must be loaded into ▸Spectrum and the plan account must be opened at ▸PBGC's paying agent before off-cycle payments can be made.
     b. Notify the payees via ▸eALG of the change in paying agent (see Process 9.5 Notify Participants). It may be necessary to customize the letter according to the situation.
3. If the plan administrator is willing to continue paying retirees and performing day-to-day duties, request that the plan administrator/plan sponsor:
   - Continue paying retirees.
   - Pay no ▸lump sums (applies only after the date of trusteeship (▸DOTR).
   - Refer all new retirees to PBGC so that OBA can put them into pay status through PBGC's paying agent.
   - Forward the most current monthly check register, including information about electronic payments, and the check register for each subsequent month until PBGC assumes payments.
   - Keep OBA advised of any payment changes due to deaths, pop-up or step-down benefit adjustments, etc.
4. Inform the plan administrator that PBGC will provide funding on a monthly basis, if needed, until payments are assumed.

   **Note** Once a plan is trusteed by PBGC, ▸FOD usually removes all assets remaining in the plan's account almost immediately. Therefore, a funding memo is needed to provide benefit payments for **each monthly payment** by the plan's paying agent prior to the date PBGC assumes payment responsibility. Before making the determination that a funding memo is needed, the ▸EBLS coordinates with the case team auditor who will contact the Corporate Investments Department/Asset Control and Liquidation Group (▸CID/▸ACLG) to determine if there are sufficient assets with the paying agent to pay benefits. CID/ACLG may leave funds with the paying agent to provide for a couple of months' benefit payments based on a case's specific facts and circumstances.
5. Customize and send the *Plan Administrator/Paying Agent Request Follow-up Letter* to document the call and restate all the points discussed. Image a copy to the ▸IPS plan file (see TP 16 Plan and Participant File Maintenance).
6. If necessary, initiate a funding memo (see Process 9.2 Prepare and Transmit Funding Memo).

7. Monitor the monthly check registers as received through the date ▶PSD assumes payment responsibility to verify that payees continue to receive their benefits. Identify any changes to the check register totals due to deaths, etc. Remember that participants who wish to begin receiving benefits after DOTR must apply to PBGC to be placed into pay status (see TP 20 Benefit Payments).

Top of Page

## 9.1B Ensure Uninterrupted Payments for Plans Not Yet Trusteed

**07/01/2016**

This procedure covers plans that fall under either of two scenarios:

- **Plan is Still Assigned to CFRD:** The termination recommendation has not yet been approved by the Trusteeship Working Group (▸TWG) Chairperson or approving official. ▸CFRD has determined that participants are out of pay status or will be shortly and has issued a memorandum advising the Chief of Benefits Administration, ▸OBA and requesting that OBA take action to ensure uninterrupted payments. Upon approving the request, the Chief of Benefits Administration, OBA forwards the memo to the EBLS assigned to the plan to initiate funding.
- **Plan is Assigned to OBA:** The termination recommendation has been approved by the TWG Chairperson or approving official and the case transferred to OBA. Since the plan administrator has not yet returned the signed trusteeship agreement, the plan is not yet trusteed. In this scenario, either CFRD notifies OBA by e-mail or the plan administrator directly notifies the EBLS that funds are needed for benefit payments.

**EBLS, Auditor**

1. Proceed according to whether the plan is currently assigned to CFRD or OBA:
   - **Plan is Assigned to CFRD:** Upon receipt of the memo from CFRD requesting OBA to act to ensure uninterrupted benefit payments, which has been forwarded with the concurrence of the Chief of Benefits Administration, OBA, proceed to step 2.
   - **Plan is Assigned to OBA:**
     a. Initiate an *Authorization to Pay Participants before Trusteeship* memo:
        - Determine the pre-trusteeship authorization date, which is the date PBGC may make benefit payments prior to trusteeship (see Policy 3.4-1 Benefit Payments Prior to Trusteeship for guidance in determining the pre-trusteeship authorization date).
        - Review rules about what benefit payments may be made—back payments and net underpayments owed, including amounts on or after pre-trusteeship date (see TP 20.5G Payments Before Trusteeship).
        - Refer to the *Authorization to Pay Participants before Trusteeship Sample* for sample language to include in the memo.

     b. Prepare the memo to the Chief of Benefits Administration, OBA.

     c. Obtain ▸CSD management concurrence and forward the *Authorization to Pay Participants before Trusteeship* to the Chief of Benefits Administration, OBA for concurrence.

        The ▸OBA Front Office maintains a record and opens a service request to update the **OED Authorization Date** field in ▸CMS, which is the pre-trusteeship authorization date found in the *Authorization to Pay Participants before Trusteeship*. The OBA Front Office also provides a copy of the memo for the OBA Case Team to image to the plan file.

     d. Proceed to step 2.
2. Obtain information about participants out of pay status (including newly eligible retirees) from CFRD, if not yet provided.

   **Note** Specific payment information will also be requested from the current paying agent in Process 9.2 Prepare and Transmit Funding Memo.
3. Proceed according to whether there is sufficient time to load payees into ▸Spectrum to make the next payment:
   - If there is sufficient time to place the payees into pay status at PBGC's paying agent for the next payment due, do so immediately (see Process 9.4 Initiate First Pay and Customer Data Loads).
   - If there is not sufficient time to load participants and the plan has insufficient funds, use a funding memo for the next payment due (see Process 9.2 Prepare and Transmit Funding Memo).
4. At or after trusteeship, review the plan to determine whether there are post DOPT pre-trusteeship amounts still owed and make payments as soon as practicable.
5. Document in writing the completion of these payments to the plan file.

Top of Page

## 9.2 Prepare and Transmit Funding Memo

**07/01/2016**

| | |
|---|---|
| **Purpose** | To send funds to the plan's paying agent or interim custodian to continue paying retirees until PBGC assumes payment responsibility. |
| **Guidance** | CMS Job Aids and User Guide |
| **Procedure Owner** | EBLS |

Use this procedure when it is necessary to provide funds to the plan's paying agent or interim ▸custodian (referred to as the plan's paying agent within the procedure) to ensure uninterrupted payments before PBGC assumes payment responsibility, whether before or after plan trusteeship. Repeat this process **each month** until ▸OBA has assumed payment responsibility.

1. Call the plan's paying agent to coordinate the transfer of funds from PBGC so that the paying agent may continue to make uninterrupted payments to retirees.
   - Explain that a letter is needed from the paying agent to PBGC requesting the exact amount of funds needed and providing other relevant information. See the *Benefit Funding Memo* for specific information that is needed.
   - Request a copy of the latest check register or similar document validating each retiree's payment amount.
2. Request that the paying agent fax or e-mail the letter and supporting documentation to expedite the process, and follow up with the original documents by mail. If the document(s) will be provided initially by e-mail, request that the data be encrypted.
3. Upon receipt of the request for funds, ensure that the paying agent has provided adequate documentation to verify the information in the letter, including the check register or other documentation validating the payment amounts. Follow up for any missing information.
4. Compare the list of current payees from the paying agent to a list provided by the ▸plan administrator.
   a. Obtain the list of current payees from ▸CFRD, which may be available in TeamConnect, or request it from the plan administrator.
   b. Annotate the check register obtained from the paying agent (for example, with check marks) to indicate that it matches the plan administrator's list.
   c. Total the number of participants on each source (the check register and the current payees list), compare the totals, and annotate the check register to indicate whether the totals agree. Research and resolve any reconciling items.
   d. Total the dollar amount of benefits on the check register and the dollar amount of benefits on the current payees list, compare the totals and indicate whether they agree by annotating the check register. Research and resolve any reconciling items.
   e. Initial and date the annotations.
5. Prepare a *Benefit Funding Memo* to initiate the transfer of funds:
   a. Indicate the ▸date of trusteeship or that trusteeship is pending, as applicable, in the *Benefit Funding Memo*.
   b. Attach the *Authorization to Pay Participants before Trusteeship* or CFRD's memo and supporting documentation to the *Benefit Funding Memo.* (Repeat this step with each *Benefit Funding Memo* submitted until such time as PBGC becomes the trustee.)

      ▸FOD requires the *Authorization to Pay Participants before Trusteeship* to process the request.
   c. Obtain the signature of ▸CSD Management and deliver the *Benefit Funding Memo* to the Chief of Benefits Administration, OBA, whose office will affix a tracking number to the memo and deliver it to Financial Operations Department, Controller Operations Division, General Accounting Branch (FOD/COD/▸GAB).

   The Chief of Benefits Administration, OBA's office also keeps a log and copies of all signed funding memos for internal control purposes.
6. Image the copy of the approved *Benefit Funding Memo* and all supporting documentation to the ▸IPS plan file and notify the case team.

7. Contact the Branch Chief, FOD/COD/GAB, to determine which staff member will act on the funding memo.
8. Request confirmation of expected date of the transfer from the assigned staff member in FOD/COD/GAB, and either a copy of the funding memo or an e-mail confirmation when it is sent.
9. Call the paying agent and give the expected date of receipt of the funds. Request a return call confirming receipt.
10. If confirmation of the transfer is not received by the expected date, call the assigned staff member in FOD/COD/GAB to confirm the date the funds were wired. If there is a change in the due date, notify the paying agent immediately.
11. Repeat this process for each monthly payment to be paid through the plan's paying agent until payment responsibility is transferred to ▸PBGC's paying agent.
12. Proceed to Process 9.3 Obtain Participant Payment Data to determine the date of and initiate OBA's assumption of payments.

Top of Page

## 9.3 Obtain Participant Payment Data

**07/01/2016**

| | |
|---|---|
| **Purpose** | To obtain the data necessary for PBGC to assume payment responsibility for a plan. |
| **Guidance** | CMS Job Aids and User Guide<br><br>Policy 5.4-3 Frequency of Benefit Payments |
| **Procedure Owner** | EBLS |

1. Determine whether there are currently payees in pay status in the plan. If so, continue with this procedure. If there are no payees, proceed as follows:
   - Update the Plan Assumption Milestone in ▸CMS to indicate there are no retirees.
   - Proceed to load non-payees in the plan (see Process 9.4 Initiate First Pay and Customer Data Loads).
2. Call a case team meeting to determine the date of PBGC's first payment. Use the following considerations as general guidelines, as applicable:
   - How soon the ▸interim paying agent can provide the payee data.
   - The time it will take to complete a data load (see TP 59 Data Load Requests) and have it approved.
   - The ▸date of trusteeship (DOTR). Assume payments as soon as practicable, but no later than 180 days after DOTR.
3. Call the interim paying agent and state that ▸OBA will transfer payment responsibility to ▸PBGC's paying agent and the date of the first payment. Inform the paying agent that a letter will be sent to follow up the phone conversation, and briefly describe the items requested in both paper and electronic format (encrypted "raw" data in ASCII delimited text format) in the *Notification Letter to Prior Paying Agent*:
   - Current payee data, including plan assumption data elements needed. (This is sometimes referred to as the "successor extract" which includes a "data dictionary".)
   - Copies of check registers from the month prior to the date of plan termination (▸DOPT) through the date of the interim paying agent's final payment.
   - A list of payees who have gone into pay status since DOPT, and of payees whose benefits have ceased since DOPT (due to deaths, ▸C&C annuities which have expired, etc.).
   - A list of payees whose benefits are subject to ▸QDRO provisions, tax levies, or court attachments.
   - A list of benefit forms for all payees.
   - A list of participants with purchased annuities. If a separate list is not available, they should be clearly identified in the check register to distinguish them from the payees whose benefits PBGC will assume.

     > **Note** Always request that plan contacts encrypt electronic data before submission, if possible. See Appendix A Sensitive Information for more information.
4. Customize and issue the *Notification Letter to Prior Paying Agent* on the day of the telephone conversation. To expedite, send by fax and follow up with the original. Image a copy of the letter to the plan file (see TP 16 Plan and Participant File Maintenance), and send a copy to the following:
   - Employee Benefit Supervisor, ▸CSB
   - Management Analyst, ▸CMB
   - Branch Chief, ▸FOD/COD/▸IAB
   - Trust Accountant, FOD/COD/IAB
   - Corporate Investments Department/Asset Control and Liquidation Group (▸CID/▸ACLG)

   **Important:** Notify FOD of any change in the date of PBGC's first payment.
5. Notify the case team by e-mail of the date of PBGC's first payment.
6. Upon receipt of the payee data:
   - If the electronic data is not password protected and encrypted, scan the electronic data for viruses:

a. If the data is in an e-mail attachment, download and decrypt the attachment to a separate directory on the hard drive.

b. Scan the device or files for viruses (see Appendix A Sensitive Information for additional guidance on virus scans):
   - If the virus scan detects a security issue, or there is another reason to believe the data may be compromised, report a breach or potential breach by clicking the **Report** button on the Intranet Home page.
   - If the data is not compromised, store and transfer the data using PBGC-approved methods (see Appendix A Sensitive Information for additional guidance on best practices).

- Review the data and ensure that all the information requested is included. Follow up for any missing or incomplete data.
- Provide the list of payees to the case actuary to review for benefit adjustments (see Process 10 Benefit Adjustments).
- Each month, notify **all** case team members who will be involved in loading or reviewing the First Pay Load of any changes in the payment data. This will help to ensure that new payees receive their payments, and to prevent payments to payees who die before payment assumption.

7. Prepare to load the payees. Proceed to Process 9.4 Initiate First Pay and Customer Data Loads.

Top of Page

## 9.4 Initiate First Pay and Customer Data Loads

**02/27/2017**

| | |
|---|---|
| **Purpose** | To initiate the load of First Pay and Customer data into Spectrum. |
| **Guidance** | Archive Manual<br>Benefit Payment Schedule on Intranet<br>TRMD Service Catalog<br>*Plan File Indexing Specification Guide*<br>Policy 5.4-3 Frequency of Benefit Payments<br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/PBA/FBA, Employee Benefits Supervisor |

**EBLS/PBA/FBA**

1. Upon receipt of the check register or other source of payment data that will be used for the payee data load, ensure it is archived or imaged according to the format:
   - **Electronic:** Place the source in the `I:/Software/[eight-digit PBGC case number]/Plan Assumption` directory and request ▸TRMD assistance to archive (see TP 16.5 Archive Electronic Files for guidance).
   - **Paper:** If there is not an electronic version to archive, image the paper source to the plan file (see TP 16.1 Maintain Plan File).
2. Proceed based on the type of load:
   - **Payees Only:** Proceed directly to TP 59 Data Load Requests to initiate a First Pay data load.
   - **Payees and Non-Payees in same load, or Non-Payees Only:** Continue with this procedure.

   > **Note** If available, include in the data load the form of benefit from the data the prior plan administrator or interim paying agent provided.
3. Prior to loading non-payees into ▸Spectrum, verify the accuracy of the census data provided by the plan administrator. Beginning with the census data, exclude any participant who:
   - Received his or her entire benefit as a lump sum prior to ▸DOPT.
   - Has a fully purchased annuity.
   - Died before DOPT, and whose marital status was single.
   - Separated more than one year prior to DOPT and is non-vested.
   - Otherwise does not meet requirements to be a plan member.
4. Include spousal information for non-payees in the data load if it is available electronically.
5. Using participant files obtained from the plan administrator, verify the accuracy of the revised participant listing and of the lists of participants excluded in the previous step, and make any necessary changes.

   **Examples:**

   - Data is found indicating that a participant removed in the previous step is a plan member. One example is a vested participant who died prior to DOPT and was thought to be single was actually married, and whose spouse may be entitled to a ▸QPSA.
   - A participant was thought to have received a lump sum, but plan records reveal the payment was never issued.
   - A person originally thought to be a participant was discovered to have received a lump sum of his or her entire benefit prior to DOPT, and is therefore not a plan member.
   - Payments that appear to have continued to a deceased participant were in fact made to a beneficiary whose benefit is the same amount (for example, in a J&100%S benefit form). If the beneficiary is receiving an amount greater than what the benefit form would provide, contact ▸PPD for guidance.

6. Proceed to TP 59 Data Load Requests to load the customers.
7. Notify the case team by e-mail once the payees are loaded in Spectrum.
8. Update the Plan Assumption Milestone in ▸CMS once management has approved both the payee **and** customer data loads.

**Employee Benefits Supervisor**

9. Finalize the Plan Assumption Milestone in CMS once the payee and customer data loads are approved and the milestone is updated.
10. Ensure that the review and approval of the data loads are documented in accordance with TP 59.1 First Pay and Customer Data Loads.

**EBLS/PBA/FBA**

11. If PBGC assumes payments more than 180 days after ▸DOTR:
    a. Complete a memo to file explaining the delay.
    b. Submit the memo for management concurrence.
    c. On concurrence, image the memo to the plan file in ▸IPS. See TP 16 Plan and Participant File Maintenance.

Top of Page

## 9.5 Notify Participants

**07/01/2016**

| | |
|---|---|
| **Purpose** | To notify all participants of PBGC's trusteeship of the plan, and payees of the change in paying agent and changes to estimated benefit payments. Also to request data from participants. |
| **Timing** | Notify payees and non-payees of plan assumption once they are loaded into Spectrum by issuing the appropriate trusteeship notification letter. However, if the plan is not yet trusteed and payment assumption is not scheduled, first consult the Case Management Analyst.<br><br>Notify payees of the change in paying agent and any changes to their benefit payments (benefit adjustments or annualization of monthly payments) at least 30 days before the effective date. |
| **Guidance** | eALG Correspondence Help<br><br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments |
| **Procedure Owner** | EBLS/PBA/FBA, Employee Benefits Supervisor |

**In this Section**

9.5A Notify Payees
9.5B Notify Non-Payees

**9.5A Notify Payees**

**08/30/2016**

**EBLS/PBA/FBA**

1. Issue the notice of trusteeship letter, notice of change in paying agent, and welcome package (▸eALG 100 series) to all ▸participants and ▸beneficiaries in pay status at the ▸Date of Trusteeship. Since various letter combinations may be used, consult the Employee Benefits Supervisor as needed to determine which to use for each ▸plan. The trusteeship letters include the ▸Payee Information Form (PIF) that each ▸payee must complete and return.
   - See TP 15 Prepare and Mail Letters for information on issuing letters.
   - See TP 4 Participant Addresses and EDD Elections if any payees have incomplete or bad addresses.
2. As directed by the Employee Benefits Supervisor, create a Web announcement informing participants of trusteeship. See TP 50.1 Plan-Specific Web Announcements.
3. Create a *PIF Tracking Spreadsheet* in Microsoft Excel and record the following items (and others as applicable) for payees who require manual follow-up letters (for example, payees who return an incomplete PIF):
   - Date of first request
   - Date of first follow-up request
   - Date of second follow-up request
   - Effective date benefits would be suspended for non-receipt of completed PIF
   - Date PIF received

   Save the spreadsheet to a shared drive for access by other Case Team members.
4. Notify payees of the change in paying agent before sending any other administrative change notifications:
   - Issue *eALG 110 Change in Paying Agent Letter - Retirees* with a target of at least 30 days before PBGC's first payment date. (Disregard if this notice was included in the initial notice of trusteeship issued in step 1.)
   - As directed by the Employee Benefits Supervisor, create a Web announcement notifying retirees of the change in paying agent. Initiate this activity with a target to publish at least 30 days before PBGC's first payment date. See TP 50.1 Plan-Specific Web Announcements.
5. Notify affected payees of adjustments to their estimated benefit payments. See Process 10.4 Identify Current Payees for Benefit Adjustments.
6. Notify any payee whose monthly payments will be converted to an annual payment by issuing *eALG 113 Notice of Conversion to Annual Payments* or by telephone. If by telephone, log the call in CRM.

   > **Note** PBGC pays monthly benefits of $50 or less on an annual basis (the annual payment being equal to 12 monthly payments). These payments are converted from a monthly to an annual basis during the Payee Data Load. However, if a payee requests monthly rather than annual payments, document the request in CRM and begin the monthly payments at the next available payment date, regardless of the amount. Contact ASK PPD with questions regarding benefit payment frequency.

7. Verify all data from the received forms. See Process 9.7 Verify Data from Returned Forms.
8. Confirm that an automated *CRM531* letter was issued to acknowledge receipt.
   - If the PIF is complete, no further acknowledgment is necessary. However, if a *CRM531* was not automatically generated, issue *eALG 531 Receipt of Complete Documentation/Information.*
   - If the PIF is not complete, continue to step 10.

   Because PIFs submitted by ▸MyPBA are automatically acknowledged by e-mail, acknowledgment by eALG is not necessary. See TP 48 MyPBA Correspondence for further information.
9. If the PIF is not received, is received without a signature, or is otherwise incomplete, select one of the following options and complete the steps. Record manual follow-up letters on the *PIF Tracking Spreadsheet.*
   - ▸PIF is not received
   - ▸PIF is received without a signature
   - ▸PIF is incomplete (other than a missing signature)

**Note** Accept the PIF with only the last four digits of the ▸SSN as complete, as long as no other identifiable information is missing and the form has a signature.

10. Upon receipt of a completed PIF from a payee whose benefit payments are suspended, proceed according to the number of payments missed while suspended:
    - Fewer than three benefit payments missed while suspended:
        a. Reinstate regular benefit payments.
        b. Issue a back payment with interest for payments missed while benefits were suspended.
    - Three or more monthly benefit payments missed (or equivalent duration for annual payees) while suspended:
        a. Issue an eALG Generic letter with an *Affidavit of Identity* requesting that the payee submit the notarized affidavit in order to have payments reinstated. Enclose a return envelope. (This step is not necessary if the payee's signature is notarized on the PIF).
        b. Upon receipt of the properly notarized affidavit or PIF, reinstate regular benefit payments.
        c. Issue a back payment with interest for payments missed while benefits were suspended. If the payment is greater than $5,000 (including interest) and greater than three times the monthly benefit, treat the payment as a ▸Large Reimbursement and send the payee a lump-sum application.

**Note** When issuing a PIF to a suspended payee who has missed three or more payments (or equivalent duration for annual payees)—for example, at plan closing—in the cover letter advise the payee that the signature on the PIF must be notarized in order for payments to be reinstated.

**Note** Do not require an *Affidavit of Identity*, or notarized signature on the PIF, when the person submitting the PIF is an approved holder of a ▸POA or a Guardian or Conservator for the payee, as evidenced by a letter in the participant file indicating that PBGC recognizes the individual as the holder, Guardian, or Conservator, and that the individual has authority to sign documents on behalf of the principal.

Top of Page

**9.5B Notify Non-Payees**

**07/01/2016**

**EBLS/PBA/FBA**

1. Select the appropriate trusteeship letter:
   a. Contact the actuary to ask whether the plan has early unreduced retirement benefits.
   b. Document the response to the plan file in IPS.
   c. Select the appropriate trusteeship letter based on whether the plan offers early unreduced retirement benefits.

   If the plan offers early unreduced benefits, notify participants of the eligibility requirements using a customized *eALG 103TEU/103 TEUL Initial Notice of Trusteeship with early Unreduced Benefit Information (non payee)*.

   > **Note:** During review of the plan records, the Case Team may find that information is very limited or unreliable for certain participants, and the auditor may wish to send the *Form 702 General Information Form* (GIF) to request additional information. If management approves, the GIF may be sent with an *eALG Generic Letter* (rather than with the trusteeship letter) to those participants from whom the auditor determines additional information is needed.

2. As *Designation of Beneficiary* forms (or GIFs) are returned, reply based on whether received by mail or MyPBA:
   - **Mail:** Confirm an automated *CRM531* letter was issued acknowledging receipt. If not, and the form is complete, issue *eALG 531 Receipt of Complete Documentation/Information*. If the form is incomplete, request the missing information by sending *eALG 530 Request for Additional Documentation/Information*.
   - **MyPBA:** No response is necessary since MyPBA automatically acknowledges receipt by e-mail.
3. Once trusteeship notification letters have been issued to both payees (if applicable) and non-payees, update the Participant Trusteeship Letter Milestone in CMS.

**Employee Benefits Supervisor**

4. Finalize the Participant Trusteeship Letter Milestone in CMS after trusteeship letters have been issued to payees (if applicable) and non-payees and the milestone is updated.

**EBLS/PBA/FBA**

5. Complete the *Plan Assumption Checklist*:
   a. Prepare the *Plan Assumption Checklist*.
   b. Submit the checklist to the Employee Benefits Supervisor for concurrence.
   c. On concurrence, image the checklist to the plan file in IPS.

## 9.6 Conduct Payee Data Review

**07/01/2016**

| | |
|---|---|
| **Purpose** | To ensure that for payees with non-level or other benefit forms whose benefits will require an adjustment on a certain date, their future benefit adjustments and other relevant data are accurately recorded in Spectrum soon after trusteeship. |
| **Guidance** | *Plan File Indexing Specification Guide* |
| **Procedure Owner** | Actuary, EBLS/PBA/FBA |

**EBLS/PBA/FBA**

1. For all plans trusteed on and after October 1, 2010, target completion of the payee data review within six months of the ▸Date of Trusteeship. If additional time is needed, obtain Employee Benefits Supervisor concurrence and document to the plan file in ▸IPS (see *Plan File Indexing Specification Guide*).
2. Ask the plan actuary to determine whether the plan offered non-level or other benefit forms that may require future benefit adjustments on a certain date. Examples include:
   - Benefit forms with step-downs, such as those providing a Social Security offset until age 62.
   - Benefit forms with pop-ups on a certain date.
   - Remainders of period-certain benefits being paid to beneficiaries, such as five-year ▸Certain-and-Continuous (5C&C) benefits, that will end on a certain date.
   - Auxiliary disability benefits that convert at early or normal retirement date.

**Actuary**

3. As requested, determine whether the plan has provisions that allow for non-level or other benefit forms that may require future benefit adjustments:
   - No Future Benefit Adjustments:
     - Update the *Estimated Benefit Adjustments Analysis Memo*.
     - Notify the EBLS/PBA/FBA of the finding. No further action required for this procedure.
   - Possible Future Benefit Adjustments: Notify the ▸EBLS/▸PBA/▸FBA of the finding.

**EBLS/PBA/FBA**

4. Proceed based on the actuary's determination:
   - **Plan did not offer non-level or other benefit forms that may require future payment adjustments:** No further action is required for this procedure.
   - **Plan offered benefit forms that may require future payment adjustments:** Continue to step 5.
5. Request from the auditor a list of acceptable sources of data for payees' dates of birth, Benefit Forms, and Actual Retirement Dates. This list does not require that the *Data Elements and Sources List* be completed.
6. Using the list of source documents provided by the auditor, review the participant and/or plan files to determine whether any current payees in the plan are receiving non-level or other benefit forms that will require future benefit adjustments and proceed accordingly:
   - **No payees are currently receiving benefits that will require adjustments:** Notify the actuary that no current payees require adjustments. No further action is required for this procedure.
   - **At least one current payee will require a benefit adjustment:** Continue to step 7.
7. Prepare a spreadsheet for a Miscellaneous Data Load, including:
   - In the header of the spreadsheet:
     - Brief title indicating the purpose of the spreadsheet, such as "Payee_Data_Rev_Misc_Data_Load"
     - Load date
   - Data elements (columns) for each payee:
     - Date of Birth

- Actual Form of Benefit (on **Valuation** tab)
- Actual Retirement Date

Do not include any data changes for other payees in this data load, only those affected by future benefit adjustments.

> **Note** The ▸ARD is the date benefits are effective, which is not necessarily the same date that benefits began. For example, for a payee whose benefits began July 1, but who received a back payment for June, the ARD is June 1.

8. Prepare a spreadsheet for a Benefit Adjustment Load to process the future benefit adjustments for affected payees, regardless of the number of affected payees, including:
   - In the header of the spreadsheet:
     - Brief title indicating the purpose of the spreadsheet, such as "Payee_Data_Rev_Ben_Adj_Load"
     - Load date
   - Data elements (columns) for each payee:
     - End date for the current payment
     - Begin date for the new payment amount reflecting the adjustment (if known)

     > **Note** Some payees (for example, recipients of a Period Certain benefit) may not have a begin date.

   Do not include any data changes for other payees in this data load, only those affected by future benefit adjustments.
9. Create the load(s) in ▸Spectrum using the spreadsheets.
10. Request authorization for the load(s) from the Employee Benefits Supervisor.
11. On approval, notify the actuary that the data loads are complete.
12. Image to the plan file, archive, or request the ▸EBLS to image or archive the spreadsheet(s) and the auditor's list of acceptable source documents. See TP 16 Plan and Participant File Maintenance.

**Actuary**

13. Upon notification that the payee data review is complete, update the *Estimated Benefit Adjustments Analysis Memo*.

Top of Page

## 9.7 Verify Data from Returned Forms

**08/28/2014**

| | |
|---|---|
| **Purpose** | To compare information from forms received from the participant to Spectrum data, resolve discrepancies, and update Spectrum accordingly. |
| **Guidance** | Policy 8.5-1 Signature by Mark |
| **Procedure Owner** | EBLS/PBA/FBA |

The notification of trusteeship package issued in Process 9.5 Notify Participants includes *Form 701 Payee Information Form* (PIF) for each payee to complete and return. For non-payees, optional *Form 708 Designation of Beneficiary (Not Currently Receiving Pension Benefits)* is usually enclosed. However, a *Form 702 General Information Form (GIF)* may be sent to non-payees at the case auditor's request when additional data is needed.

Choose the appropriate section based on the form received.

- 9.7A Verify Data from Payee Information Forms
- 9.7B Verify Data from General Information Forms

**In this Section**

9.7A Verify Data from Payee Information Forms
9.7B Verify Data from General Information Forms

## 9.7A Verify Data from Payee Information Forms

**07/01/2016**

**EBLS/PBA/FBA**

1. Upon receipt of a *Form 701 Payee Information Form* (PIF), verify it is completed correctly and record receipt according to Process 9.5A Notify Payees.
2. If provided on the form, record or update the customer's e-mail address in ▸CRM.
3. If the payee is a beneficiary, verify the participant information in ▸Spectrum is correct. If necessary, create a record for the participant and link it to the beneficiary's record.
4. Compare the data on the form to data already recorded in Spectrum. Update Spectrum as follows:
   - **Data is on PIF but not in Spectrum:** Update Spectrum with data from the form as needed. However, add spousal or other beneficiary data to Spectrum **only** if the payee is known to have a benefit form that provides a benefit to a contingent ▸annuitant (for example, a ▸Joint & Survivor or ▸Certain-and-Continuous benefit form). **Do not** record spousal or other beneficiary data for a payee with a benefit form that does not provide benefits to a contingent beneficiary.
   - **Data on PIF does not match Spectrum and update to Spectrum does not require approval:** Update Spectrum with data from the PIF. Review the participant's file as needed to ensure accuracy.
   - **Data on PIF does not match Spectrum and update to Spectrum requires approval (for example, Name, Date of Birth, SSN):** Attempt to resolve the discrepancy by viewing the payee's file and plan records, as applicable.
     - If the discrepancy can be resolved based on available data, update Spectrum and submit the transaction for approval. Provide the approver printouts or ▸IPS page references supporting the update, as needed.
     - If the discrepancy cannot be resolved, contact the participant for the proof or other additional information according to the discrepancy using a customized *eALG 530 Request for Additional Documentation/Information*. See TP 57 Identity Discrepancies for examples of documentation to request based on the discrepancy.
5. Upon receipt of the requested proofs:
   - Update Spectrum with the correct data.
   - Issue *eALG 531 Receipt of Complete Information/Documentation* to acknowledge receipt of the information.
6. If the ▸PIF indicates the payee is currently working, determine if there is a potential working retirement issue according to TP 53 Working Retirement Determinations.

## 9.7B Verify Data from General Information Forms

**07/01/2016**

**EBLS/PBA/FBA**

1. Upon receipt of a *Form 702 General Information Form* (GIF), compare the data on the form to data already recorded in ▸Spectrum. Update Spectrum as follows:
   - **Data is on GIF but not in Spectrum:** Update Spectrum with data from the form as needed. However, do not add spousal or other beneficiary data to Spectrum.
   - **Data on GIF does not match Spectrum and update to Spectrum does not require approval:** Update Spectrum with data from the GIF. Review the participant's file as needed to ensure accuracy.
   - **Data on GIF does not match Spectrum and update to Spectrum requires approval (for example, Name, Date of Birth, SSN):** Attempt to resolve the discrepancy by viewing the payee's file and plan records, as applicable.
     - If the discrepancy can be resolved based on available data, update Spectrum and submit the transaction for approval. Provide the approver printouts or ▸IPS page references supporting the update, as needed.
     - If the discrepancy cannot be resolved, contact the participant for the proof or other additional information according to the discrepancy using a customized *eALG 530 Request for Additional Documentation/Information*. See TP 57 Identity Discrepancies for examples of documentation to request based on the discrepancy.
2. If provided on the form, record or update the customer's e-mail address in ▸CRM.
3. Upon receipt of the requested proofs:
   - Update Spectrum with the correct data.
   - Issue *eALG 531 Receipt of Complete Information/Documentation* to acknowledge receipt of the information.
4. Follow up as needed to request GIFs that have not been received, or that were received but are missing critical data.

## 9.8 Resources for Plan Assumption

**09/30/2016**

**Forms, Letters, and Memos:**

- *Affidavit of Identity*
- *Authorization to to Pay Participants before Trusteeship*
- *Authorization to Pay Participants before Trusteeship Sample*
- *Benefit Funding Memo*
- *Estimated Benefit Adjustments Analysis Memo*
- *Notification Letter to Prior Paying Agent*
- *PIF Tracking Spreadsheet*
- *Plan Administrator/Paying Agent Request Follow-Up Letter*
- *Plan Assumption Checklist*

**Customer Correspondence and Forms:**

- *eALG 102 Second Request for Payee Information Form (PIF)*
- *eALG 104 Final Request for PIF with Payment Suspension Date*
- *eALG 110 Change in Paying Agent - Retirees*
- *eALG 112 Combined Payment Notice*
- *eALG 113 Notice of Conversion to Annual Payments*
- *eALG 530 Request for Additional Documentation/Information*
- *eALG 531 Receipt of Complete Documentation/Information*
- *Form 701 Payee Information Form (PIF)*
- *Form 702 General Information Form (GIF)*

**Guidance:**

- *Archive Manual*
- *Benefit Payment Schedule on Intranet*
- *CMS Job Aids and User Guide*
- *Plan File Indexing Specification Guide*
- *Policy 3.4-1 Benefit Payments Prior to Trusteeship*
- *Policy 5.4-3 Frequency of Benefit Payments*
- *Policy 5.4-7 Annuity Benefit Forms*
- *Policy 6.3-1 Underpayment Reimbursement and Interest Payments*
- *Policy 8.5-1 Signature by Mark*
- *Spectrum User Manual*

- *TRMD Service Catalog*

**Exhibits:**

*None*

## 10. Overview for Benefit Adjustments

**07/01/2016**

A benefit adjustment is a change in the ▸benefit amount a payee receives. This process describes the initial adjustment PBGC makes as soon as possible after assuming payment responsibility for current payees. Benefit amounts for current payees at ▸date of plan termination (▸DOPT) may be decreased based on guaranteed limits. The plan ▸4022(c) amount cannot be paid as an estimated benefit.

Benefits should always be adjusted, if required, as of DOPT. Adjust payments to estimated levels as early as possible to avoid or minimize recoupment or recovery. Adjustments could theoretically occur several times during case processing. The first is the adjustment to estimated Title IV levels. This is done as early in the process as possible. Generally benefits are adjusted shortly after plan assumption process (see Process 9 Plan Assumption). Adjustments to estimated Title IV levels will always happen when PBGC is funding the payments including when PBGC is paying the benefits prior to trusteeship. Usually PBGC will only make one change prior to the completion of plan valuation; if additional adjustments are necessary they must be approved by ▸ASD management. This may occur, for example, with a large and/or complex plan whose valuation may not be completed within three years of ▸DOTR and the completed plan asset evaluation yields a result that will impact benefits.

PBGC increases participant's estimated benefits regardless of the amount (see Policy 5.8-1 Benefit Corrections).

Changes in benefit amounts may also occur at other times during case processing. See TP 21 Change Benefit Amount(s) for details. All changes in benefit amounts require that PBGC notify the participant of the change and the reason at least 30 days prior to the effective date.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

Top of Page

## 10.1 Analyze Plan Documents

**09/30/2016**

| | |
|---|---|
| **Purpose** | Determine if any non-guaranteeable benefits exist and identify any policy or legal issues likely to arise. |
| **Guidance** | 29 CFR 4022<br>*CMS Job Aids and User Guide*<br>ERISA 4022 and related laws<br>Policy 5.2-4 Annuity Starting Dates |
| **Procedure Owner** | Actuary, CPB |

1. Read all ▸plan documents to identify all plan ▸benefit requirements. These include: ▸vesting, normal retirement, reduced or unreduced ▸early retirement, ▸credited service versus vesting service, forms of ▸annuity, benefit methodology, supplemental benefits, phase-ins, spousal benefits, etc. All members of the Case Team should be involved in this activity.

   > **Note** Any ▸participant eligible for a plan-provided early unreduced benefit will be entitled to receive it retroactively to his or her earliest eligibility date on or after DOPT, regardless of any previous notifications of eligibility for the benefits (see Policy 5.2-4 Annuity Starting Dates).

2. Review the plan documents and other materials, such as plan asset statements and ▸DUEC calculations (even if estimated), ▸AVRs, and retiree information, to develop a general understanding of the plan. Make note of any special conditions that may apply, and identify the types of adjustments that may be necessary. The ▸actuary must read and study these materials (for example, identifying specific participants who are subject to adjustments and the amount of the adjustments).
   - Identify whether there are any temporary supplements (which PBGC does not guarantee to the extent that they are above the ▸accrued at normal limitation).
   - Identify whether there are any phase-in issues.
   - Identify whether there are any other non-guaranteed benefits. These may include: optional annuity forms that were not elected in writing prior to DOPT; early retirement incentives (buyouts); and incentive awards or benefits not in the plan document, but claimed as such in a collective bargaining agreement or other documents.
3. Update the Plan Provisions Milestone screens in ▸CMS as follows:
   - Benefit Formula/Eligibility - completed
   - Annuity Forms - completed
   - Plan Sponsor - updated with available information
   - Miscellaneous - completed
4. Notify the other members of the Case Team of the findings. Summarize the plan in the plan file.

Top of Page

## 10.2 Obtain Data

**07/01/2016**

| | |
|---|---|
| **Purpose** | To identify the participants in pay status and those who have applied to go into pay status; to determine their benefit entitlements, benefit amounts, and effective pay dates; and to process benefit payments. |
| **Required Input and Source** | Participant data. |
| **Output and Recipient** | Identity of current payees and whether any benefits are completely or partially paid for out of purchased annuities. |
| **Control Issues** | Ensure correct name, social security number (SSN), home address, and check mailing address for all immediate eligibles. Verify the identity of current payees for whom there are purchased annuities or partially purchased annuities.<br><br>Accuracy, validity, and documentation of data are very important |
| **Important Concepts** | PBGC adjusts the maximum guaranteeable benefit upward for participants whose age is greater than 65 at the later of retirement date or DOPT. PBGC's late retirement table from the Actuarial Technical Manual, Chapter III, Section F, 5 is used to adjust the maximum guaranteeable benefit upward. |
| **Guidance** | ATM III.F.5. Late Retirement<br><br>a) - PBGC Late Retirement Factors (Table)<br><br>Policy Bulletin 00-3: Adjusting the Maximum Guaranteeable Benefit for Ages Greater than 65 |
| **Procedure Owner** | Case Team |

1. Obtain all relevant ▸participant data. At a minimum the data must include: participant name, address, ▸SSN, date of birth (DOB), ▸date of termination of employment (DOTE), ▸benefit in pay status, form of ▸annuity, ▸actual retirement date (▸ARD), spouse SSN and DOB; and benefit calculation methodology from plan or participant records. For details on obtaining data, see Process 11 Data Collection and Analysis and Process 9.5 Notify Participants.
2. If prior to trusteeship, verify with ▸CFRD the proposed ▸DOPT and their level of certainty about it being the same as the actual DOPT. If CFRD is uncertain, consider facts about the case and judge whether to continue processing or wait until CFRD has greater confidence in the proposed DOPT. When necessary, seek guidance from the Division Manager and ▸PPD.
3. Verify the name, SSN, DOB, date of hire (▸DOH), date of termination of employment (DOTE), and benefit amount for immediate eligibles against company records.
4. Identify any current ▸payees whose benefits are completely or partially paid for out of purchased annuities.
   - Contact the ▸plan administrator, account representative at the insurance company, or prior paying agent who handles the pension plan account, as required.
   - Ask whether there are purchased annuities for any of the current payees. If there are any, request a letter from the account representative identifying all those current payees by name and SSN and whether the purchased annuity is full or partial. For partially purchased annuities, request the percentage of the whole that is purchased and the corresponding dollar amount.

Top of Page

## 10.3 Analyze Data and Funding for PC3

**07/01/2016**

| | |
|---|---|
| **Purpose** | Determine if any current payees identified as subject to adjustment (cut back) can receive all or part of the reduced portion of their benefits out of plan assets. |
| **Required Input and Source** | Participant data as of the date three years before DOPT (DOPT-3) and plan documents effective and adopted prior to the date five years before DOPT (DOPT-5).<br><br>Estimated asset figure obtained from the auditor. |
| **Output and Recipient** | List of participants eligible to retire or who had already retired at DOPT-3 and a benefit amount funded by assets in PC3. |
| **Control Issues** | N/A |
| **Important Concepts** | Much of the initial adjustment is based on estimates and could be subject to considerable change, for example, DUEC changes. It is very important that this analysis be documented and included in the plan file. |
| **Guidance** | 29 CFR 4044<br><br>ATM V.C. PC3 - Retirement Benefits Payable Three Years before DOPT<br><br>ERISA 4044<br><br>Policy Bulletin 00-8: Eligibility for Benefits in Priority Category 3 |
| **Procedure Owner** | Actuary, CPB |

**Actuary**

1. Obtain the estimated asset figure from the ▸auditor.
2. Determine and document in the *Estimated Benefit Adjustments Analysis Memo* each of the following for current payees at the date three years before DOPT (▸DOPT-3):
   - Whether participants' forms of benefit need to be changed due to incorrect forms of benefit offered after ▸DOPT or the ▸J&S policy.
   - Whether any current payees are:
     - Subject to ▸AAN limitations
     - Receiving benefits in excess of the ▸MGB
     - Subject to ▸P/I limitations

   If desired, use the optional *Estimated Benefit Adjustments Worksheet* for the determination.
3. Take appropriate action based on whether or not the checklists indicate that any adjustments will apply.
   - If any apply, continue this procedure.
   - If none apply, go directly to Process 10.5 Prepare Estimated Benefits Calculation Tool.
4. Determine whether any current payees subject to immediate adjustment were eligible to retire at DOPT-3 years. Calculate ▸PC3 benefits in accordance with ERISA 4044(a)(3). See the Actuarial Technical Manual, Chapter V, ▸Allocation of Assets, Section C and the outline of Process 10.3 Analyze Data for Funding for PC3. Provide the list of affected current payees and benefit amounts to the ▸EBLS for adjustments to the new amounts. Ensure that written documentation of benefit adjustments are made part of plan file. Determine whether or not early BDLs are appropriate for any participants in the plan. PBGC sends early BDLs to any participants who have been in pay status and receiving the same benefit amount for five or more years as of DOPT (other criteria are listed in Process 19.1 Create Early BDL Database and Issue Early BDLs) who are not subject to an adjustment to guaranteed maximum. If there are any participants in this category, early BDLs are appropriate. See Process 19 Issue BDLs and Make Adjustments to Payments for details.

**Auditor**

5. Upon request, provide the estimated asset figure to the actuary.
    - Review the most recent plan asset statement for reasonableness.
    - Take out of consideration any assets that may not be readily determinable (that is stock of the company, note receivable, hard-to-value assets).

Top of Page

## 10.4 Identify Current Payees for Benefit Adjustments

**07/01/2016**

| | |
|---|---|
| **Purpose** | Eliminate or reduce the possibility of overpaying current payees when apparent funding level is insufficient to pay Title IV benefits. Document which pre-DOPT retirees get adjusted and why. |
| **Required Input and Source** | Decision that benefits need to be adjusted to guaranteed levels. Estimated benefit amount for each participant in pay status (current payees). List of participants eligible to retire at DOPT-3 and a benefit amount to which their current benefits will be adjusted. |
| **Output and Recipient** | List of pre-DOPT and post-DOPT retirees whose benefits are adjusted, previous benefit, adjusted benefit, and why the adjustments were made.<br><br>**CMS Activity:** Estimated Cutbacks/Adjustments Milestone finalized, after cutbacks have been implemented and advance notifications provided to affected payees. |
| **Control Issues** | N/A |
| **Important Concepts** | Adjustment of benefits to current payees is determined by the case actuary and provided to the EBLS/FBA as soon as possible following trusteeship.<br><br>PBGC adjusts the maximum guaranteeable benefit upward for participants whose age is greater than 65 at the later of retirement date or DOPT. PBGC's late retirement table from the Actuarial Technical Manual, Chapter III, Section F, 5 is used to adjust the maximum guaranteeable benefit upward. |
| **Guidance** | ATM III.F.5. Late Retirement<br><br>a) - PBGC Late Retirement Factors (Table)<br><br>*CMS Job Aids and User Guide*<br><br>Policy Bulletin 00-3: Adjusting the Maximum Guaranteeable Benefit for Ages Greater than 65 |
| **Procedure Owner** | Actuary, CPB, EBLS/FBA, CSD, Case Management Analyst, CMD |

Generally, ▸benefit adjustments will occur only once for any ▸plan. However, additional adjustments may be necessary, for example, with a large and/or complex plan whose valuation may not be completed within three years of ▸DOTR and the completed plan asset evaluation yields a result that will impact benefits. Additional adjustments must be approved by ▸ASD management.

**Actuary**

1. If completed, review the *Estimated Benefit Adjustments Worksheet* prepared in Process 10.3 Analyze Data and Funding for PC3.
2. Determine applicable adjustments:
   - Keep in mind changes to benefit limitations per ▸PPA 2006.
   - Apply PBGC benefit limitations in the following order:
     a. ▸AAN
     b. ▸MGB (Calculate Aggregate Maximum benefit, if necessary. See Policy 5.13-1 Aggregate Limit on Benefits Payable from PBGC Funds.)
     c. ▸P/I
     d. As applicable, also apply substantial (pre-▸PPA 2006) and majority owner (post-PPA 2006) benefit

reductions.

- To determine applicable §436 benefit limitations, see TP 14 436 Benefit Limitations.
- As soon as practicable, complete the *Estimated Benefit Adjustments Analysis Memo* (or create an addendum to the original memo for an additional round of benefit adjustments) and submit to the qualified actuarial reviewer with a minimum grade of GS13 for approval:
  a. Image the completed memo with approval to the plan file in ▸IPS.
  b. Provide an electronic copy to ASD management.
  c. Notify the Case Team of the memo's location in the plan file.

  If performing an additional round of benefit adjustments, also obtain approval from ASD management and document on the addendum the original *Estimated Benefit Adjustments Analysis Memo*, and image to the plan file in IPS.

3. If issuing manually prepared ▸benefit statements, obtain and document approval by a GS-13 or higher grade actuary on each benefit statement by memorandum or e-mail:
   - By memorandum:
     a. Prepare a *Manual Benefit Statement Approval Memo*.
     b. Sign and date on the **Prepared by** line.
     c. Obtain approval of the GS-13 or higher grade actuary, who signs and dates on the **Approval** line.
     d. Prepare a benefit statement with the approved calculation and send to the ▸EBLS/▸FBA with the approval memo for imaging and issuance.
   - By e-mail:
     a. Prepare an e-mail incorporating the same language as the memo.
     b. E-mail the benefit statement to a GS-13 or higher grade actuary requesting approval.
     c. Upon approval, send the benefit statement with the approval e-mail to the EBLS/FBA for imaging and issuance.

**Note** A single *Manual Benefit Statement Approval Memo* or approval e-mail may be used for multiple benefit statements, including those produced by a ▸BET that is not yet archived. In these cases, the EBLS/FBA images the approval e-mail or memo to each participant's file, redacting any information concerning other ▸participants.

**EBLS/FBA**

4. Review the *Estimated Benefit Adjustments Analysis Memo* located in the plan file and initiate benefit adjustments:
   - To make benefit adjustments effective with PBGC's first payment, include the adjustments when submitting the First Pay data. See Process 9 Plan Assumption.
   - To adjust benefits after PBGC assumes payments, prepare a Data Load Request for a Benefit Adjustment load. See TP 59 Data Load Requests.

**Note** The *Estimated Benefit Adjustments Analysis Memo* replaced sections 2 and 3 of the *Early Plan Analysis Memo (EPAM)*. Therefore, it may be necessary to obtain the benefit adjustments information from the *EPAM* for certain plans, depending on when processing started.

5. Notify affected payees of estimated benefit adjustments. Each notice must:
   - Be in writing, using the appropriate eALG 300 series letter.
   - Be dated at least **30 days** before the adjustment is effective.
   - Explain the reason for the adjustment. The explanation may be provided within the letter itself or in a separate ▸benefit statement, depending on the nature of the adjustment.
6. If manual benefit statements are issued to payees, image copies of the benefit statements with any approval documentation provided by the actuary to the payees' IPS files.

   If a single memo or e-mail approves multiple benefit statements, create a copy of the approval e-mail or memo for each participant's file. Before imaging, redact any information concerning other participants.
7. Update the Estimated Cutbacks/Adjustments Milestone in ▸CMS.

**Case Management Analyst**

8. Finalize the Estimated Cutbacks/Adjustments Milestone in CMS.

> **Note** The CMS Milestone reflects (1) whether there are cutbacks, and (2) whether affected participants have been notified. Do not finalize the Milestone until notifications have been mailed.

Top of Page

## 10.5 Prepare Estimated Benefits Calculation Tool

**07/01/2016**

| | |
|---|---|
| **Purpose** | Prepare a tool for EBLS/FBA to put new retirees into estimated pay status. |
| **Required Input and Source** | Plan documents and any available evidence of plan practices. |
| **Output and Recipient** | Tool for computing estimated ▸Title IV benefits. |
| **Control Issues** | Authorization and documentation are important. |
| **Important Concepts** | In many cases, an actuarial contractor will do the preparation. In these cases, the actuary is still responsible for reviewing and testing the output. Depending on the number of participants and case complexity, the actuary may create a simple worksheet or program for each type of participant until, layer by layer, the entire Recalculation System (RS) is completed. |
| **Guidance** | Actuarial Technical Manual, Section I.A, Contents of the Actuarial Case Report |
| **Procedure Owner** | Actuary, CPB |

1. Determine if it is appropriate to develop a computer-based, automated recalculation system (RS). Consider:
   - How many people are affected by adjustments or are immediate eligibles?
   - Is there a working database?
   - How complicated are the benefit calculations?
2. Develop the manual or automated RS. Follow the ▸benefit statement standards as described in the Actuarial Case Report Checklist (see the *Actuarial Technical Manual, Chapter 1 -- Actuarial Case Report Checklist, Appendix N* for samples). If developing a full ▸BSRS, follow the computer software specifications for BSRS (see the ▸IOD Computer Systems Users Manual, Chapter XI Benefit Statement/Benefit Recalculation System).
3. Review and test the worksheet or RS and complete the *BET Checklist*. When prepared by an actuarial contractor, the ▸actuary, as technical monitor of the case, is responsible for reviewing and testing the product.

   If the ▸BET is prepared by a grade GS-12 or lower actuary, obtain approval by a GS-13 or higher actuary using the *BET Checklist.* Upon approval, image the checklist to the plan file in ▸IPS.
4. Train ▸EBLS, ▸PBA, or ▸FBA to use the worksheet or RS in making adjustments and putting new retirees into pay status. Run through a sample participant.
5. Update the Benefit Estimation Tool Milestone in ▸CMS.
6. Complete the *Estimated Benefits Administration Analysis Memo* (previously titled *Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*) and image to the plan file. Target completion for within 180 days of ▸DOTR.

   **Note** The *Estimated Benefits Administration Analysis Memo* (previously titled the *Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*) replaced section 4 of the *Early Plan Analysis Memo (EPAM)*.

Top of Page

## 10.6 Resources for Benefit Adjustments

**09/30/2016**

**Forms, Letters, and Memos:**

- *Estimated Benefit Adjustments Analysis Memo*
- *Estimated Benefit Adjustments Worksheet*
- *Estimated Benefits Administration Analysis Memo*
- *Manual Benefit Statement Approval Memo*

**Customer Correspondence and Forms:**

None

**Guidance:**

- 29 CFR 4022
- 29 CFR 4044
- *Actuarial Technical Manual*, Section I.A, Contents of the Actuarial Case Report
- *Actuarial Technical Manual*, Section III.F.5., Late Retirement
- *Actuarial Technical Manual*, Section V.C., PC3 - Retirement Benefits Payable Three Years before DOPT
- *CMS Job Aids and User Guide*
- ERISA 4022
- ERISA 4044
- Policy 5.2-4 Annuity Starting Dates
- Policy Bulletin 00-3: Adjusting the Maximum Guaranteeable Benefit for Ages Greater than 65
- Policy Bulletin 00-8: Eligibility for Benefits in Priority Category 3

**Exhibits:**

# Participant Database Processes (11-13)

**03/27/2014**

This section describes the Case Team's efforts to collect the required data for ▶plan processing and to build the ▶participant database. The Case Team begins collecting and analyzing the available data and then works with ▶TRMD to build and test the database. Testing and documentation requirements can change depending on the size of the plan.

**In this Section**

Process 11 Data Collection and Analysis
Process 12 Small Plan Database Construction and Analysis
Process 13 Participant Database Construction and Reporting

# Process 11 Data Collection and Analysis

**In this Section**

11. Overview for Data Collection and Analysis
11.1 Hold Strategy Meetings
11.2 Perform Site Visit
11.3 Finalize the Plan Document List and Data Elements for Participant Database Construction
11.4 Determine Sources for Participant Database Construction
11.5 Resources for Data Collection and Analysis

## 11. Overview for Data Collection and Analysis

**07/01/2016**

The purpose of data collection and analysis is to process the case to the point where participant database construction can begin. To this end, it has three primary goals:

- To collect any data required to build the participant database that has not yet been received.
- To finalize the data elements needed for building the participant database.
- To determine reliable sources for each data element.

Data collection and analysis occurs in four major steps:

1. Holding strategy meetings to plan the rest of case processing, including identifying the data yet to be collected.
2. Visiting the site(s) where plan and participant documents are stored in order to collect data, plan documents, participant files, and e-data.
3. Finalizing (for purposes of participant database construction) the *Plan Document List* and *Data Elements and Sources List*.
4. Identifying source documents for each data element to be included in the participant database.

The ▶DMD as a whole is responsible for data collection and analysis, but the primary responsibility for many of the processes comprising it belongs to the auditor. The actuary is also responsible for identifying the data elements needed for benefit calculation and eligibility determinations.

### Documenting Plan and Participant Files

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

## 11.1 Hold Strategy Meetings

**07/01/2016**

| | |
|---|---|
| **Purpose** | To discuss the data acquisition strategy. |
| **Guidance** | N/A |
| **Procedure Owner** | Auditor, DCB; Auditor, DIMB; Case Team |

The purpose of the strategy meetings is to determine what information is available, what information is still needed, and the need for a site visit. The strategy meetings are used to discuss objectives and the schedule for data acquisition. If a site visit is required, the strategy meetings are also used to plan for the visit (see Process 11.2A Perform Pre-Site Visit Tasks).

A thorough familiarity with the findings in the draft *Plan Document List*, *Plan Summary*, and *Data Elements and Sources List* is required to effectively formulate a strategy.

The strategy meeting produces a number of deliverables, including:

- Updates to the *Plan Document List*, *Plan Summary*, and *Data Elements and Sources List* (see Process 8.6 Begin Plan Document List, Plan Summary, and Participant Data Elements List for descriptions).
- The *Case Information Checklist* (formerly known as *Sample Site Interview Questions*), which lists the questions most likely to require answering for purposes of constructing the ▶participant database and processing the ▶plan, and provides a framework for developing the site interview questions and documenting the findings of the data acquisition process.

**Auditor, DCB**

1. Schedule a meeting with the Case Team, and include ▶DMC management, to discuss the data acquisition strategy. Schedule additional meetings as required.
2. Fill out the *Case Information Checklist* with all known information.

**Case Team**

3. Discuss the objectives for data acquisition. Objectives include:
   - Obtaining information needed for participant database construction and case processing.
   - Understanding the plan and ▶benefit administration process of the company and how benefits were calculated.
   - Building and testing the participant database (see Process 13 Participant Database Construction and Reporting).
   - Performing the plan asset evaluation.
   - Determining whether the assistance of an ▶TSB Data Specialist is needed to bring in data.
4. Conduct a thorough review of the data already acquired.
5. Update the draft *Plan Document List*, *Plan Summary*, and *Data Elements and Sources List* if more information has become available.
6. Using the *Case Information Checklist*, review the available documents and information and determine what further information is required.
   a. Customize the *Case Information Checklist* to remove questions not applicable to the case and add any additional questions required.
   b. Attempt to complete the *Case Information Checklist* using the available documents.
   c. List any further documents that are required.
   d. Identify the available information resources (for example, plan administrator and plan sponsor) and alternate sources of information if needed (for example, actuarial firms and unions).
7. If further data is needed, send an e-mail to TSB Services requesting the assistance of a Data Specialist. For large cases, one may already have been assigned during the ▶OBA Large Case Working Group process.

8. Determine the need for a site visit. In rare instances, a site visit may not be possible or required because records were lost or destroyed or all data has already been or will be sent to PBGC (this usually only occurs with small cases).
9. If a site visit is needed, determine if the participant database will be built in the field. Consider:
   - The availability of PBGC and contractor resources
   - The time available on-site
   - The tasks required to construct the participant database:
     - Process 11.3 Finalize the Plan Document List and Data Elements for Participant Database Construction
     - Process 11.4 Determine Sources for Participant Database Construction, including sampling any electronic data.
     - Process 13 Participant Database Construction and Reporting, including preparation and Leo setup.

**Auditor, DCB**

10. Contact the plan parties identified as information resources.
    - Request the additional documentation required.
    - Mail or e-mail the *Information Request Letter* to the appropriate plan parties.
      - Attach a list of questions derived from the *Case Information Checklist.*
      - Ensure that any documents received in response are forwarded to the appropriate location.
    - See Appendix A Sensitive Information for additional guidance on receiving documentation via mail or e-mail to comply with PBGC standards for data security.
    - Discuss replies (if any) at future strategy meetings.
11. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation.*
12. Proceed according to whether a site visit is required:
    - If a site visit is required, proceed to Process 11.2 Perform Site Visit.
    - If a site visit is not required, proceed to Process 11.3 Finalize the Plan Document List and Data Elements for Participant Database Construction.

Top of Page

## 11.2 Perform Site Visit

**07/01/2016**

| | |
|---|---|
| **Purpose** | To gather data for the construction of the participant database and case processing. |
| **Guidance** | N/A |
| **Procedure Owner** | Case Team; Auditor, DCB; DMC; Actuary, CPB |

The purpose of a site visit is to gather data for the participant database and case processing, by means of reviewing ▸plan and ▸participant documents and conducting interviews. A site visit may not be required for every plan; the Case Team determines the need for a site visit in Process 11.1 Hold Strategy Meetings.

Process 11.2A Perform Pre-Site Visit Tasks requires a meeting with the Case Team. The team holds this meeting as part of the strategy meetings.

The site visit itself involves conducting interviews and reviewing on-site documents. Both tasks are guided by and documented in the *Case Information Checklist* (formerly known as *Sample Site Interview Questions*).

**In this Section**

11.2A Perform Pre-Site Visit Tasks
11.2B Conduct Interviews
11.2C Review On-Site Documents

## 11.2A Perform Pre-Site Visit Tasks

**07/01/2016**

**Auditor, DCB**

1. Contact the appropriate ▶plan party (▶plan sponsor, paying agent, ▶actuary, or administrator) to determine:
   - Availability of resources and location for a site visit
   - Plan parties available at the site visit
   - Availability of a copier, Internet service, and work space for the PBGC team
   - Accommodations near the site
   - Possible site visit dates workable for both PBGC and plan parties

**DMC**

2. Perform an analysis and prepare a data capture recommendation to the Case Team using the *DMC Data Capture Memorandum* that includes:
   - ▶DMD data capture requirements.
   - Size of the pension plan and the number of participant files.
   - Proximity of participant files (one location or multiple locations).
   - Space availability.
   - Equipment logistics.
   - Identifying any competing issues.

**Auditor, DCB**

3. Plan the logistics of the site visit:
   - When and where will the site visit occur?
   - Are documents stored at one location, or multiple locations (for example, employer facilities, the plan actuary, ▶plan administrator, plan paying agent, or plan accountant)?
   - Will one visit be sufficient, or are multiple visits required?
   - Who will be interviewed?
   - Will there be expenses involved that will need to be paid? Will a Contracting Officer's Representative (▶COR) need to approve expenses?
   - Who goes on the trip? How long?
   - Will a contract auditor(s) be used?
4. Review and provide concurrence to ▶DMC management on the *DMC Data Capture Memorandum.*

   DMC's recommendation includes whether DMC or the Case Team ships the files to Pension Benefit Guaranty Corporation (PBGC), located at 5971 Kingstowne Village Parkway, Suite 300, Alexandria, VA 22315.
5. Prepare to receive and transfer sensitive data according to the guidance in Appendix A Sensitive Information.
6. Contact the plan sponsor and plan administrator and arrange a date for the site visit.
7. If the DMC will participate in the site visit, advise the DMC COR by e-mail once the trip dates are set. Whenever feasible, provide a minimum of two weeks' notice if DMC scanning services are required.
8. Complete the *Trip Planning Memo* and get concurrence from Supervisory Auditor, ▶DCB.

   Refer to the *Trip Planning Memo Example* for an example of a completed memo.
9. Image the completed memo to the plan file, including the *DMC Data Capture Memorandum* attachment.
10. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation.*

Top of Page

## 11.2B Conduct Interviews

**03/27/2014**

**Case Team**

1. Upon arrival, meet with the ▶plan administrator or other officials of the ▶plan sponsor.
   - Explain PBGC's course of action, time frames, and procedures, if appropriate.
   - Present the *Introduction to PBGC* to the ▶plan sponsor officials and any interviewees.
   - Ensure that the following is discussed:
     - What PBGC trusteeship means
     - The ▶participant data and plan asset audits and the information PBGC needs
     - How the plan administrator and/or sponsor should respond to participant inquiries
2. Conduct interviews with appropriate personnel and document responses in the *Case Information Checklist* (formerly known as *Sample Site Interview Questions*).

   **Note** Consider using the *Record of Interview* as an additional means to document the interview.

3. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation*.

## 11.2C Review On-Site Documents

**07/01/2016**

Throughout the review of documents, work to develop an understanding of each document (▶plan documents, e-data, and participant files), including:

- How the document or e-data was used.
- The process by which the document or e-data was created.
- The original sources of data (if the document or e-data used is not the original source).

**Auditor, DCB and Actuary, CPB**

1. Review any plan documents (see the *Master List of Documents to Obtain*) available on-site that were not previously provided to PBGC.
2. Review ▶participant files (including e-data, pension, personnel, and payroll files) to determine the best available sources for each data element, starting with the *Data Elements and Sources List* and *Case Information Checklist* (formerly known as *Sample Site Interview Questions*).
3. Determine whether different sources are required for different categories of participants by reviewing the best available sources for each participant category, for example:
   - Participant status (that is, retirees, active vested, terminated vested, non-vested).
   - Participants who fall under different groups because of varying plan provisions (for example, hourly and salaried).
   - Location (for example, division).
   - Participants who terminated during different periods.
   - Other categories of participants for whom different sources are needed.

> **Note** Refer to Appendix B Preferred Source Documents for Participant Data Elements for potential additional source documents. However, the list contains suggested sources and is not all-inclusive. Be creative in finding alternate sources, and apply judgment and experience in determining sources to be used if preferred sources are unavailable.

4. Acquire the originals of all participant pension files (administrative data forms), including:
   - ▶Beneficiary Designation Forms
   - ▶QDRO Documents
   - Benefit Applications
   - Benefit Election Forms
   - ▶Benefit Statements and Calculations
   - Spousal Waivers
   - Participant Loan Documents
   - Letter of Instruction (sent to paying agent to put a participant into pay)

> **Note** Collect originals only for pension files, as pension files generally become PBGC property on trusteeship. PBGC does not own the non-pension participant files, therefore copies must be made.

5. Depending on team resources and the length of the site visit, determine whether to review **e-data** on-site or at PBGC. See Process 11.4B Review Electronic Data for the e-data review procedure.
   - **If the e-data is reviewed on-site and determined to be reliable,** make copies of the non-pension (personnel and payroll) hard-copy participant files sampled during the review, at a minimum.
   - **If the e-data is not reviewed on-site, is not reliable, or there is no e-data,** make copies of all non-pension files applicable to database construction and case processing.
6. Review the **hard-copy files** to identify multiple sources for each data element and proceed based on the status of the e-data review.

- **If the e-data review has been completed,** identify and make copies of hard-copy sources for the elements not reliably covered by the e-data.
- **If the e-data review has not been completed or there is no e-data,** identify and make copies of hard-copy sources for all data elements.

7. Discuss findings with the appropriate plan parties, who may be able to identify other sources for required information or additional methods for obtaining participant data.

**DMC**

8. Image files according to the data capture recommendation.
9. Based on the data capture recommendation, ship collected files to Pension Benefit Guaranty Corporation (PBGC), located at 5971 Kingstowne Village Parkway, Suite 300, Alexandria, VA 22315.

   See Appendix A Sensitive Information for additional guidance on shipping sensitive files to PBGC.

**Auditor, DCB and Actuary, CPB**

10. Based on the ▶DMC's data capture recommendation, ship collected files to Pension Benefit Guaranty Corporation (PBGC), located at 5971 Kingstowne Village Parkway, Suite 300, Alexandria, VA 22315.

    See Appendix A Sensitive Information for additional guidance on shipping sensitive files to PBGC.
11. Update the *Case Information Checklist* with the information obtained during the site visit.
12. Prepare the *Post-Trip Memo.*
13. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation.*

Top of Page

## 11.3 Finalize the Plan Document List and Data Elements for Participant Database Construction

**07/01/2016**

| | |
|---|---|
| **Purpose** | To finalize the documents to be used for construction of the participant database. |
| **Guidance** | N/A |
| **Procedure Owner** | Auditor, DCB; Auditor, DRVB; Actuary DCB |

**In this Section**

11.3A Finalize Plan Document List
11.3B Finalize Data Elements for Participant Database Construction

**11.3A Finalize Plan Document List**

**07/01/2016**

**Auditor, DCB and Auditor, DRVB**

1. Review all plan documents acquired to date.
2. Update the *Plan Document List* to add all plan documents acquired since the last update.

   Maintain the reverse chronological order from ▶DOPT back.
3. Write a narrative explaining how the documents were obtained and explaining any pertinent findings.
4. Record information for each document, including:
   - Name
   - Effective date
   - Adoption and/or execution date
   - ▶PBGC Image Viewer reference number
5. Identify and comment on documents as follows:
   a. Comment on major issues affecting benefit entitlement or eligibility addressed in the document, including a reference to where in the document each issue was found.
   b. If the document is not signed or dated, include information from pension board minutes or plan practice as comments, if available.
   c. Other important comments.
6. If a required document has not been obtained:
   - Confer with the actuary to identify an acceptable alternative, if one exists.
   - Make all reasonable efforts to obtain the document or an acceptable alternative.
   - If no other document can be used, consider contacting the Employee Benefits Security Administration, Public Disclosure Office, Department of Labor at (202) 693-8673 to obtain a copy. Have the ▶EIN/PN ready when calling.
7. Ensure that all documents referenced are in ▶IPS.
8. Update the Plan Document Audit Milestone in ▶CMS.

## 11.3B Finalize Data Elements for Participant Database Construction

**07/01/2016**

**Actuary, CPB**

1. Update the *Plan Summary* based on the finalized *Plan Document List.*
2. Update the list of data elements in the *Data Elements and Sources List* based on the *Plan Summary* and available sources.

   Consider the following:

   - Participant status (that is, retirees, active vested, terminated vested, non-vested)
   - Participants who fall under different groups because of varying plan provisions (for example, hourly, salaried)
   - Location (for example, division)
   - Participants who terminated during different periods

   > **Note** The data element list can change depending on the availability and reliability of sources. Work closely with the auditor when determining and defining data elements.

**Auditor, DCB**

3. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation* once the *Plan Document List* and list of data elements are complete.

## 11.4 Determine Sources for Participant Database Construction

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine and confirm the accuracy of the sources to be used in constructing the participant database. |
| **Guidance** | TRMD Service Catalog |
| **Procedure Owner** | Auditor, DIMB and Actuary, CPB |

The review of data sources identifies and confirms the accuracy of the data sources used to build the ▶participant database. The ▶auditor identifies paper and/or electronic sources for each data element, tests their reliability, and records the results of the review in the *Data Elements and Sources List*.

The process may require a review of both electronic data and hard-copy documentation. Procedures are notably different depending on whether e-data or hard-copy participant documents are being reviewed.

- Process 11.4A Review Participant Files: The auditor identifies and tests paper sources (or electronic copies of paper sources) to establish reliability. Reliable sources can be used either as a base of comparison for testing e-data, or as sources for constructing the participant database.
- Process 11.4B Review Electronic Data: The auditor identifies and tests data elements within e-data (spreadsheets and databases provided by the plan parties) to establish reliability. Reliable data elements can be used as sources for constructing the participant database.

The auditor can begin both reviews as soon as they receive the documents and identify the data elements. However, the auditor cannot finalize the reviews until the case team collects all required, available documents and the ▶actuary finalizes the data elements for the participant database.

**In this Section**

11.4A Review Participant Files
11.4B Review Electronic Data
11.4C Finalize Data Elements and Sources List

## 11.4A Review Participant Files

**07/01/2016**

**Auditor, DIMB; Auditor, DCB; and Actuary, CPB**

1. Review the participant files to identify the best sources for each data element.
   - If possible, identify a primary and secondary source for each element.
   - Use Appendix B Preferred Source Documents for Participant Data Elements as a starting point for identifying sources, but use judgment and your knowledge of the case and available documents in identifying the best sources for each element.
2. Sample at least five instances of each source for each group of participants to confirm that the source is reliable for all (see Process 11.2C Review On-Site Documents).
3. If the source is not reliable for a particular group of participants, identify an alternate source for that group, if possible.
4. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation.*

## 11.4B Review Electronic Data

**07/01/2016**

This process is intended for plans with more than 500 participants. See Process 12 Small Plan Database Construction and Analysis for plans with 500 or fewer participants.

**Auditor, DIMB**

1. Archive the e-data in its original format. See TP 16.5 Archive Electronic Files.
2. Identify which data elements for the participant database (listed in the *Data Elements and Sources List*) are included in the e-data.
3. Check each data element within each source for reasonableness. Indicators of unreasonable data include:
   - Missing dates (for example, ▶DOB, date of hire, spouse's DOB if married)
   - Inconsistent dates (for example, DOB after date of hire)
   - Duplicate records
   - Records where there are earnings after ▶DOTE
   - Participants with age at ▶DOPT greater than a "normal" value
   - Service at DOPT greater than a "normal" amount
   - Participants too young to participate at date of hire
   - Missing data based on existence of other data

   > **Note** If a data element in the e-data is unreasonable, use the e-data as a source for that data element only if no other sources are available.
4. For each reasonable data element, determine the original source document for the data.
   - Create a *Review Work Paper Cover Sheet* and attach all work papers created in the course of identifying sources and sampling the e-data.
   - If the original source document is available, select a sample of the e-data and compare to the source documents. Treat data elements which receive a "Pass" rating as reliable (see TP 60 Data Sampling).
   - If an original source document is not available, or the e-data is the original source, determine the reliability of each data element based on the controls and procedures employed by the prior plan administrator in creating the e-data.
5. If the electronic data is a reliable source for any data elements, treat the e-data as the primary source for each such element (see Process 11.4C Finalize Data Elements and Sources List).
6. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation.*

## 11.4C Finalize Data Elements and Sources List

**07/01/2016**

**Auditor, DIMB and Actuary, CPB**

1. List the sources identified in Process 11.4A Review Participant Files and Process 11.4B Review Electronic Data in the numbered spaces provided in the *Data Elements and Sources List*.
2. Enter at least two sources (if possible) for each data element in the *Data Elements and Sources List*. Refer to sources by the number assigned in step 1.
3. Write a narrative in the *Data Elements and Sources List*, including:
   - Where records were located
   - Where secondary sources were used in place of primary and why
   - The review of e-data, if any
   - Other information relevant to the selection of sources
4. Mark up the sampled sources, circling the location in the document each data element appears (see *Sample Document Mark-Up*), and attach to the *Data Elements and Sources List* as a work paper.
5. Obtain management concurrence for the *Data Elements and Sources List*.
6. Image the *Data Elements and Sources List* to the plan file in ▶IPS.
7. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation*.
8. Update the Source Document Audit Milestone in ▶CMS.
9. Proceed according to the number of participants:
   - If there are 500 or fewer participants, proceed to Process 12 Small Plan Database Construction and Analysis.
   - If there are more than 500 participants, proceed to Process 13 Participant Database Construction and Reporting.

## 11.5 Resources for Data Collection and Analysis

**09/30/2016**

**Forms, Letters, and Memos:**

- *Case Information Checklist* (formerly known as Sample Site Interview Questions)
- *Data Acquisition Plan and Database Construction Outline and Documentation (DAPDC)*
- *Data Elements and Sources List*
- *DMC Data Capture Memorandum*
- *Information Request Letter*
- *Introduction to PBGC*
- *Plan Document List*
- *Plan Summary*
- *Post-Trip Memo*
- *Record of Interview*
- *Review Work Paper Cover Sheet*
- *Sample Document Mark-Up*
- *Trip Planning Memo*
- *Trip Planning Memo Example*

**Customer Correspondence and Forms:**

None

**Guidance:**

TRMD Service Catalog

**Exhibits:**

None

# Process 12 Small Plan Database Construction and Analysis

**In this Section**

12. Overview for Small Plan Database Construction and Analysis
12.1 Construct Participant Database for Small Plan
12.2 Test Participant Database for Small Plan
12.3 Resources for Small Plan Database Construction and Analysis

## 12. Overview for Small Plan Database Construction and Analysis

**07/01/2016**

The ▶SPDCA process expedites database building and provides a focused report for ▶plans with **500 or fewer participants**. It focuses on determining the population of plan ▶participants at ▶DOPT, documenting the steps used in participant database construction, testing the database and providing the data elements necessary to calculate benefits.

**Note** When constructing a database for a small plan, auditors may follow the procedures in Process 13 Participant Database Construction and Reporting.

In small plan processing:

- The *Data Acquisition Plan and Database Construction Outline and Documentation* is not required.
- The Case Team determines who will construct the database. The auditor determines the plan population and documents the processes and any plan or participant issues. The ▶auditor may construct the database, as well as complete the *Small Plan Database Construction and Analysis Report*. However, if the auditor constructs the database, another auditor will test the database.
- There is a full e-data review. The analysis of the e-data is documented concisely in the report. Decisions to use or not use data are based on sampling. The sampling and results are documented and attached to or referenced in the *Small Plan Database Construction and Analysis Report*.
- The sample will be completed and documented in accordance with Technical Procedure 60 Data Sampling.
- Written instructions are prepared for building the database and monitoring of the database construction.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

## 12.1 Construct Participant Database for Small Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To construct the participant database for a plan with 500 or fewer participants. |
| **Guidance** | *Leo/ACT Format User Manual* |
| | TRMD Service Catalog |
| **Procedure Owner** | Auditor, DCB; Auditor, DIMB; Database Builder |

Take the following steps for ▶plans with 500 or fewer ▶participants. If the plan has more than 500 participants, follow Process 13 Participant Database Construction and Reporting. Before completing this procedure, confirm that that the *Plan Document List* and the list of data elements have been finalized (see Process 11.3 Finalize the Plan Document List and Data Elements for Participant Database Construction).

**Auditor, DCB**

1. Archive the e-data in its original format. See TP 16.5 Archive Electronic Files.
2. Analyze the e-data available for database construction:
   - Verify e-data with source data obtained to determine reliability.
   - Using sampling, determine which, if any, e-data elements will be used as sources in database construction. See TP 60 Data Sampling.

**Auditor, DIMB**

3. Ensure that the *Data Elements and Sources List* has been completed (see Process 11.4 Determine Sources for Participant Database Construction). If additional sources are obtained after the *Data Elements and Sources List* is finalized, update the document and archive according to TP 16.5 Archive Electronic Files.
4. Set up Leo (see *Leo/ACT Format User Manual*).
5. Contact ▶TSB as needed to request a Leo data merge of ▶Spectrum and e-data (see TRMD Service Catalog) and provide instructions.
6. Develop instructions for building the database using the *Database Construction Guidelines* and provide them to the Database Builder. Include the instructions as a referenced or attached Work Paper to the *SPDCA Report*.

**Database Builder**

7. Build the participant database in Leo according to the instructions provided by the Auditor:
   a. Enter participant data from the sources identified in the *Data Elements and Sources List*.
   b. Once 10% of the database is completed, notify the Auditor, who will test the database to ensure that data is being entered correctly.

**Auditor, DIMB**

8. Run the reasonableness test and Spectrum reconciliation in Leo (see Process 13.2B Run Reasonableness Test and Spectrum Reconciliation). Return the database to the Database Builder with instructions to correct any identified errors.

**Database Builder**

9. Proceed according to whether there are errors requiring correction:
   - If there are errors, fix the errors and return the database to the auditor.
   - Once there are no errors, print out summaries of the successful Spectrum reconciliation and reasonableness test.
10. Provide the database to the Auditor for review.
11. Summarize and provide the results of the database construction to the Auditor.

Top of Page

## 12.2 Test Participant Database for Small Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To test the accuracy of the participant database for a plan with 500 or fewer participants. |
| **Guidance** | *Archive Manual*<br>CMS Job Aids and User Guide<br>*Leo/ACT Format User Manual*<br>*Plan File Indexing Specification Guide* |
| **Procedure Owner** | Audit Technical Reviewer; Auditor, DIMB; Database Builder |

**Auditor, DIMB**

1. Review the database using the sampling methodology in TP 60 Data Sampling.

   If a 100% review will be completed, document the results in the *Participant Data Review Work Paper Summary* once the database is error-free.

2. If there are any errors requiring correction, report the errors to the database builder and wait for a revised database. Repeat testing until no errors are found.

**Database Builder**

3. If the auditor indicates the participant database has errors requiring correction, correct the errors and resubmit the participant database. Repeat until there are no errors requiring correction.

**Auditor, DIMB**

4. Prepare the *Small Plan Database Construction and Analysis Report* and attach or reference the location in Archive or IPS of the following:
   - Copies of the final Reasonableness Test and Spectrum Reconciliation generated by Leo
   - *Participant Data Review Work Paper Summary*
   - *Definition of Sample Size Work Paper*
   - *Interval/Random Sample Work Paper*
   - *Database Construction Guidelines*
5. Send the completed *Small Plan Database Construction and Analysis Report* to the Audit Technical Reviewer.

**Audit Technical Reviewer**

6. Upon receipt, review the *Small Plan Database Construction and Analysis Report*. Sign to indicate concurrence upon successful review.
7. Provide the *Small Plan Database Construction and Analysis Report* with all attachments to Supervisory Auditor, ▶DRVB for concurrence.

   Management updates the Participant Data Audit Milestone in CMS.

**Auditor, DIMB**

8. Upon concurrence, image the *Small Plan Database Construction and Analysis Report* with attachments to the plan file in ▶IPS and archive the database. See TP 16.5 Archive Electronic Files.

# Process 13 Participant Database Construction and Reporting

**In this Section**

13. Overview for Participant Database Construction and Reporting
13.1 Build the Participant Database
13.2 Monitor and Test the Participant Database
13.3 Document Participant Database Construction
13.4 Resources for Participant Database Construction and Reporting

## 13. Overview for Participant Database Construction and Reporting

**07/01/2016**

After collecting and analyzing ▶participant data, the case team begins work on the participant database, often with an outside database builder (for example, an ▶FBA). The ▶auditor and/or ▶actuary prepares the database in Leo and works with ▶TSB to load data from electronic sources. The auditor creates instructions for phased manual data entry using the *Database Construction Guidelines*, and the database builder then follows those instructions to build the database. The case team and database builder make a focused effort to construct the database quickly and accurately, as opposed to alternating database construction and other tasks over an extended period.

The auditor monitors database construction throughout. At the completion of each pre-defined phase of data entry, the auditor runs automated tests in Leo, including a data sample (see TP 60 Data Sampling), and addresses errors, revises the instructions, or provides additional guidance to the database builder as needed.

After the database is built and testing is complete, the auditor runs final tests and reports on the results of database construction. The auditor works with TRMD to archive the database to create a permanent baseline for later plan processing.

This process is intended for plans with more than 500 participants. For plans with 500 or fewer participants, see Process 12 Small Plan Database Construction and Analysis.

### Documenting Plan and Participant Files

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

## 13.1 Build the Participant Database

**07/01/2016**

| | |
|---|---|
| **Purpose** | To set up and populate the participant database in Leo. |
| **Guidance** | *Leo/ACT Format User Manual* |
| | TRMD Service Catalog |
| **Procedure Owner** | Auditor, DIMB; Actuary |

The participant database is set up in Leo by the ▶auditor and/or ▶actuary. The auditor and/or actuary works with ▶TSB to load data into the database from ▶Spectrum and/or electronic data, but generally a separate database builder (for example, the ▶FBA) will need to manually enter missing data.

After setting up the database and loading the initial data, the Auditor, ▶DIMB creates instructions for manually populating the database, and the assigned database builder uses the instructions to finish building the database. Generally, the instructions divide the data entry into phases.

The Auditor and database builder make a focused effort to construct the database quickly and accurately, as opposed to alternating database construction and other tasks over an extended period.

Testing occurs throughout and in parallel to the database building process (see Process 13.2 Monitor and Test the Participant Database). The auditor tests the database after each load from a particular electronic source is completed and after each phase of data entry.

**In this Section**

13.1A Prepare Database and Load Initial Data
13.1B Create Instructions and Build Participant Database

## 13.1A Prepare Database and Load Initial Data

**07/01/2016**

**Auditor, DIMB/Actuary**

1. Based on the *Data Elements and Sources List*, create the data elements list using Leo and customize the case with the appropriate fields and screens for the database in Leo (see the *Leo/ACT Format User Manual).*

   | **Note** The auditor determines the sources to use in building the database. |
   |---|

2. Work with ▶TSB to download data into Leo from the electronic sources (for example, Spectrum or e-data) defined in the *Data Elements and Sources List* (see TRMD Service Catalog).
3. If TSB reports discrepancies or questionable items, research the items and work with TSB to resolve the issues.
4. Determine whether the data was loaded correctly:
   a. Spot-check the participant database:
      - Check that all the data in each entry checked corresponds to the correct participant.
      - Check that each field in each entry checked contains the correct type of data (for example, the Date of Birth field does not display the Date of Hire).
   b. Test the database (see Process 13.2B Run Reasonableness Test and Spectrum Reconciliation).
5. If the data was not loaded correctly, work with TSB to resolve the problem.
6. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation*; if the plan has fewer than 500 participants, see Process 12 Small Plan Database Construction and Analysis.

## 13.1B Create Instructions and Build Participant Database

**07/01/2016**

**Auditor, DIMB**

1. Determine the database building strategy, including:
   - Who builds the database.
   - How the manual data entry task divides into phases (for example, type of participant, every 10% of ▸participants, or alphabetically).
   - When each phase and the associated testing is completed.
2. Use the *Database Construction Guidelines* to prepare instructions for building the database in Leo.
3. Send the instructions to the database builder.
4. Image the instructions to the case file.
5. If the database builder is an ▸FBA, work with ▸TSB to transfer the participant database to the FBA's intranet.
6. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation*; if the plan has fewer than 500 participants, see Process 12 Small Plan Database Construction and Analysis.

**Database Builder**

7. Enter data from the source documents according to the *Database Construction Guidelines* and the *Data Elements and Sources List*.
   - Document any exceptions to sources used (for example, if a secondary source is used instead of the primary).
   - Test the database periodically (see Process 13.2B Run Reasonableness Test and Spectrum Reconciliation).
   - Make required corrections as determined by the periodic database test.
8. As each phase of data entry is completed:
   - Notify the Auditor, ▸DIMB.
   - Transfer the participant database to the PBGC intranet if the speed of the FBA intranet is an issue.
9. Make any corrections identified by the ▸auditor.
10. Recommence data entry as soon as practicable (if more phases of data entry remain).
11. Repeat steps 7-10 for each phase.

## 13.2 Monitor and Test the Participant Database

**07/01/2016**

| | |
|---|---|
| **Purpose** | To continually monitor the construction of the participant database, to ensure accuracy and compliance with the *Database Construction Guidelines*. |
| **Guidance** | *Leo/ACT Format User Manual*<br>TRMD Service Catalog |
| **Procedure Owner** | Auditor, DIMB |

Regular testing occurs throughout database construction. The database builder runs tests throughout data entry (see Process 13.1B Create Instructions and Build Participant Database). At the end of each predefined phase of data entry, the auditor reviews the database builder's work.

The auditor is responsible for monitoring the database construction process, including revising the instructions or providing additional guidance as needed, as well as identifying errors.

**In this Section**

13.2A Monitor Participant Database in Leo
13.2B Run Reasonableness Test and Spectrum Reconciliation

## 13.2A Monitor Participant Database in Leo

**07/01/2016**

**Auditor, DIMB**

1. Create a *Review Work Paper Cover Sheet* and attach any work papers created in the course of monitoring the participant database, including sampling and testing work papers from Leo.
2. At the end of each phase of data entry, use Leo to confirm that any previously identified errors have been corrected (use *Report 411 - Detailed Audit Progress Report*).
3. Test the participant database in Leo (see Process 13.2B Run Reasonableness Test and Spectrum Reconciliation).
4. Sample the database within Leo (see TP 60 Data Sampling).
5. For any sub-population designated as "Failed" (see TP 60 Data Sampling), take the following actions:
   a. If practical and applicable:
      i. Apply root cause analysis to identify causes of significant errors.
      ii. Correct all applicable participants in the database, if possible.
      iii. If the root cause analysis and corrections result in a likely improvement of the participant database accuracy, select and test a new sample (see TP 60 Data Sampling).
   b. If root cause analysis does not provide any insights into errors in the database, consider additional judgmental testing (which may include a 100% review) to further investigate the affected data element(s) where feasible, in particular when error rates are particularly high (that is, greater than 20%).
   c. Regardless of the outcome of root cause analysis, use judgment to determine how to proceed when a "Failed" is encountered for a sub-population.
   d. Document all additional procedures performed (root cause analysis, corrections, etc.) and results obtained in the review work papers.
6. Make any required corrections (see *Leo/ACT Format User Manual*).
7. If needed, inform the database builder of any errors.
8. Track the performance and error frequency of the database builder.
9. If needed, clarify requirements and provide guidance for the database builder.
10. Proceed according to whether the participant database is complete.
    - If the participant database is not complete:
      - Instruct the database builder to make corrections.
      - Transfer the database to the ▶FBA intranet, if needed.
    - Once all data is entered and all required corrections are made:
      - Update the *Data Acquisition Plan and Database Construction Outline and Documentation.*
      - Proceed to Process 13.3 Document Participant Database Construction.

## 13.2B Run Reasonableness Test and Spectrum Reconciliation

**07/01/2016**

**Auditor, DIMB/Database Builder**

1. In Leo, modify the reasonableness parameters according to plan provisions, if needed (see *Leo/ACT Format User Manual*).
2. Run the reasonableness test in Leo.
3. Review the results of the reasonableness test and determine what errors need addressing.
4. Run the Spectrum reconciliation in Leo.
5. Review the results of the reconciliation and determine what errors need addressing.
6. If the plan has more than 500 participants, update the *Data Acquisition Plan and Database Construction Outline and Documentation*; if the plan has fewer than 500 participants, see Process 12 Small Plan Database Construction and Analysis.
7. Respond to errors accordingly:
   - If currently building the database, return to Process 13.1B Create Instructions and Build Participant Database.
   - If monitoring database construction, return to Process 13.2A Monitor Participant Database.
   - If the plan has 500 or fewer participants, return to Process 12 Small Plan Database Construction and Analysis.

## 13.3 Document Participant Database Construction

**07/01/2016**

| | |
|---|---|
| **Purpose** | To finalize and document the construction of the participant database. |
| **Guidance** | *Leo/ACT Format User Manual* |
| | TRMD Service Catalog |
| **Procedure Owner** | Auditor, DIMB |

After the database is completed and tested, the ▶auditor runs a final reasonableness test and ▶Spectrum reconciliation. The purpose of these final tests is to produce summary reports demonstrating that the database is complete and correct.

After producing the summary reports, the auditor works with ▶TSB to archive the database and prepares the documentation of the database construction effort and testing. The auditor completes two documents, the *Database Construction Report* and the *Participant Review Summary*, and references or attaches several documents prepared prior to or during database construction.

After Supervisory Auditor, ▶DRVB management concurrence, the documents are imaged to the ▶plan file and provided as needed to members of the Case Team.

**In this Section**

13.3A Finalize Reasonableness Test and Spectrum Reconciliation
13.3B Prepare Database Construction Report and Participant Review Summary

## 13.3A Finalize Reasonableness Test and Spectrum Reconciliation

**07/01/2016**

**Auditor, DIMB**

1. Run a reasonableness test on the participant database in Leo (see Process 13.2B Run Reasonableness Test and Spectrum Reconciliation).
   - If there are errors requiring correction, the database is not ready to be finalized; return to Process 13.2A Monitor Participant Database in Leo.
   - If there are no errors requiring correction, proceed to step 2.
2. Run a Spectrum reconciliation on the participant database in Leo (see Process 13.2B Run Reasonableness Test and Spectrum Reconciliation).
   - If there are errors requiring correction, the database is not ready to be finalized. Return to Process 13.2A Monitor Participant Database in Leo.
   - If there are no errors requiring correction, proceed to step 3.
3. Archive the completed participant database, the Reasonableness Test, and Spectrum Reconciliation reports (see TP 16.5 Archive Electronic Files).
4. Update the *Data Acquisition Plan and Database Construction Outline and Documentation.*

## 13.3B Prepare Database Construction Report and Participant Review Summary

**07/01/2016**

**Auditor, DIMB**

1. Prepare the *Database Construction Report* and *Participant Review Summary*.
   - Address all sections according to the instructions provided in the documents.
   - Do not delete sections. If a section does not apply to the plan, mark as "Not Applicable" and provide an explanation.
2. Reference or (if the required document is not in ▶IPS) attach all required documents and ▶participant database work papers, including:
   - *Data Acquisition Plan and Database Construction Outline and Documentation*
   - *Database Construction Guidelines*
   - *Data Elements and Sources List*
   - *Plan Document List*
   - *Plan Summary* (obtain the most recent version from the actuary)
   - *Post-Trip Memo*
   - *Select Random Sample Work Paper*
   - *Reasonableness Test* and *Spectrum Reconciliation Summary* reports
   - *Trip Planning Memo*

   **Leo Reports:**
   - *Report 240 - Population Summary*
   - *Report 250 - Error Summary*
   - *Report 260 - Query Inventory Report*
   - *Report 400 - Audit Setup Report*
   - *Report 410 - Audit Summary Report*
   - *Report 411 - Detailed Audit Progress Report*
   - *Report 415 - Errors by Customer*
   - *Report 416 - Significant Errors by Customer*
   - *Report 417 - Insignificant Errors by Customer*
   - *Report 420a - Errors by Data Element*
3. Update the Participant Data Audit Milestone in ▶CMS and return the CMS task to the Supervisory Auditor, ▶DRVB.
4. Submit the *Database Construction Report* and *Participant Review Summary*, along with all attachments and a print screen copy of the updated Participant Data Audit Milestone, to the Supervisory Auditor, DRVB for concurrence.
5. On concurrence, image the completed *Database Construction Report, Participant Review Summary*, and the *Data Acquisition Plan and Database Construction Outline and Documentation* to the plan file in IPS.
6. Notify the Case Team of the location of the *Database Construction Report, Participant Review Summary,* and the *Data Acquisition Plan and Database Construction Outline and Documentation* in IPS.

Top of Page

## 13.4 Resources for Participant Database Construction and Reporting

**09/30/2016**

**Forms, Letters, and Memos:**

- *Data Elements and Sources List*
- *Data Acquisition Plan and Database Construction Outline and Documentation*
- *Database Construction Guidelines*
- *Database Construction Report*
- *Participant Review Summary*
- *Plan Document List*
- *Plan Summary*
- *Post-Trip Memo*
- *Review Work Paper Cover Sheet*
- *Trip Planning Memo*

**Customer Correspondence and Forms:**

None

**Guidance:**

- *Leo/ACT Format User Manual*
- TRMD Service Catalog

**Exhibits:**

None

**08/30/2011**

This section describes the process for completing the plan asset evaluation. Together with the participant database, this evaluation serves as an input in determining the value of benefits payable by PBGC.

**In this Section**

Process 15 Plan Asset Evaluation

## 15. Overview for Plan Asset Evaluation

**11/21/2014**

The New Asset Evaluation Procedures and Documents are available on the Portal.

**08/30/2011**

The purpose of the valuation process is to determine the present value of each participant's benefit and the composite present value for the entire plan. PBGC uses the resulting plan present value figure in determining PBGC's overall liability and for financial statements. The valuation process also provides the information necessary for developing benefit statements, which explain the data, assumptions, and variables used in calculating each participant's benefit and for sending BDLs. The activities constitute the final analysis of all of the information collected in earlier processes and create a meaningful presentation of PBGC's liabilities and each participant's final benefit amount.

**In this Section**

Process 17 Actuarial Valuation

# Process 17 Actuarial Valuation

**In this Section**

17. Overview for Actuarial Valuation
17.1 Create V1 File in ValTool
17.2 Program BSRS Using Design Tool in ACT
17.3 Create Listings in DRS in ACT
17.4 Complete the Case Memo
17.5 Assemble Actuarial Case Report
17.6 Perform Preliminary Software Review
17.7 Review Actuarial Case Report and Software by Actuarial Technical Reviewer
17.8 Obtain Actuarial Case Report Approval
17.9 Perform Final Software Review
17.10 Perform Software Closeout (TRMD)
17.11 Present Actuarial Case Report to Team
17.12 Provide Post-Valuation Actuarial Assistance
17.13 Resources for Actuarial Valuation

## 17. Overview for Actuarial Valuation

**07/01/2016**

The actuary or the actuarial contractor under the direction of the actuary calculates the Plan, Title IV, and Termination benefit liabilities as of DOPT and produces an Actuarial Case Report, participant and beneficiary data to load into Spectrum, and related software and archival documentation. The report includes the following:

- Valuation Listings that show the calculation of plan benefits, guaranteed benefits, benefits assigned by an asset allocation in ERISA §4044, Title IV benefits, ERISA §4022(c) benefits, Termination benefits, and the associated PVs for each participant, beneficiary, and alternate payee in the plan (as applicable).
- The Actuarial Case Memo, which reports basic plan information, PBGC liability, legal and policy issues, interpretations concerning plan practice, and any anomalies or unusual plan provisions or issues.
- Tables of plan conversation factors.
- Plan Summary.
- Sample Benefit and Retirement Statements.

In addition to the Actuarial Case Report, the actuary produces:

- BSRS used to administer the plan.
- Participant and beneficiary data and calculated fields to load into Spectrum.

  **Note** The function's term changed from **ADT Load** to **Valuation (ADT) Load.**

- Other required software.

For the valuation of the plan and development of the Actuarial Case Report, the actuary uses ACT to calculate benefits and PVs and produce listings. Actuaries use audited participant and beneficiary data from the participant database to perform the valuation. ACT includes the following tools:

- **ValTool**: The ValTool application is an interface through which the actuary can import data from Microsoft Access tables into a Microsoft Excel spreadsheet, calculate and value plan participant, beneficiary, and alternate payee benefits, and then export the newly calculated fields back to the Access tables. This creates the V1 file.
- **BSRS**: Contains the ACT Design and Runtime tools:
  - Design: Provides the tool for the actuary to design data entry screens for population by the EBLS/FBA.
  - Runtime: Generates Benefit Statements to issue with the Benefit Determination and Retirement Statements used to place participants and beneficiaries in pay status as of their ARD.
- **DRS**: The DRS application is a report writing tool used to design tables of data for inclusion in the Actuarial Case Report. Actuaries can generate, save, and print reports that include all participants and beneficiaries.

### Documenting Plan and Participant Files

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

Top of Page

## 17.1 Create V1 File in ValTool

**06/27/2013**

| | |
|---|---|
| **Purpose** | To create the V1 file to determine the Plan benefits, Guaranteed benefits, Title IV benefits, ERISA §4022(c) benefits, and Termination benefits in the ValTool application. |
| **Guidance** | *Actuarial Technical Manual*<br>*Actuarial Calculation Toolkit Manual*<br>Policy 5.2-4 Annuity Starting Dates<br>Policy 5.2-5 Required Beginning Dates<br>Policy 5.13-1 Aggregate Limit on Benefits Payable from PBGC Funds |
| **Procedure Owner** | Actuary |

The ▸actuary completes each listed procedure using the ▸ValTool component of the ▸ACT application to create the resulting V1 file.

**In this Section**

17.1A Determine Plan Benefits
17.1B Determine Guaranteed Benefits
17.1C Determine ERISA §4044 Benefits
17.1D Determine Title IV Benefits
17.1E Determine ERISA §4022(c) Amount and Benefits Payable
17.1F Determine Termination Benefits
17.1G Calculate Benefits for the Benefit Statements

**17.1A Determine Plan Benefits**

**07/01/2016**

For guidance in determining the ▸Plan benefits, refer to *Actuarial Technical Manual*, Section III, Benefit Calculations.

**Actuary**

1. Review available plan documentation, including, but not limited to:
   - Pension Plan Documents and Amendments
   - ▸AVRs, including ▸AFTAP
   - ▸SPDs
   - ▸CBAs, if applicable
   - Form 5500s
   - Record of Interviews with prior plan ▸actuary, prior ▸plan administrator, and other relevant personnel (see *Record of Interview* and *Case Information Checklist*).
2. Read relevant plan asset evaluation and participant data review documents from processes in:
   - Pre-Trusteeship Processes
   - Initial Processes
   - Participant Database Processes
   - Plan Asset Processes
3. Review the participant database and keep reconciled with ▸Spectrum.
4. Resolve technical issues and matters of plan interpretation.
5. Determine ▸XRA for non-retirees as of ▸DOPT.
6. Calculate the plan benefits as of ▸XRD for non-retirees or ▸DOR for pre-DOPT retirees.
7. Calculate the ▸PV of the plan benefits as of DOPT.

## 17.1B Determine Guaranteed Benefits

**03/30/2011**

For guidance in determining the ▸Guaranteed benefits, refer to *Actuarial Technical Manual*, Section IV, Guaranteed Benefits.

**Actuary**

1. Analyze the plan provisions, the ▸plan benefit amounts and types, and the status of the ▸plan sponsor to determine whether benefits are potentially affected by PBGC limitations.
2. Calculate the plan benefit earned as of the earlier of ▸BPD or ▸DOPT.
3. Apply the applicable limitations in the order listed:
   - ▸AAN
   - MGB (Calculate Aggregate Maximum benefit, if necessary. See Policy 5.13-1 Aggregate Limit on Benefits Payable from PBGC Funds.)
   - ▸P/I
   - ▸Majority Owner

## 17.1C Determine ERISA §4044 Benefits

**07/01/2016**

For guidance in determining ERISA §4044 benefits, refer to *Actuarial Technical Manual*, Section V, Allocation of Assets. If there are any benefits that are not fully guaranteed and assets are potentially sufficient to fund benefits in excess of guaranteed benefits, then perform an ERISA §4044 asset allocation.

### Actuary

1. Review the **Valuation-Only Assets** (or assets for a non-SPDRR/SPARR plan) amount on the OBA Case Summary screen in CMS to determine whether assets as of DOPT could affect participants' benefits through an asset allocation.
2. Determine benefit amounts and the PV in each applicable priority category.
3. Allocate plan assets through each applicable priority category.
4. Determine the ERISA §4044 monthly benefit provided by plan assets.

## 17.1D Determine Title IV Benefits

**03/30/2011**

**Actuary**

1. Determine the sum of (a) and (b) to obtain the ▸Title IV benefits:
   a. ▸Guaranteed benefit, amount from 17.1B Determine Guaranteed Benefits.
   b. Additional benefits, if any, provided by an ▸asset allocation, as calculated in 17.1C Determine ERISA §4044 Benefits.
2. Calculate the ▸PVs of the Title IV benefits.

## 17.1E Determine ERISA §4022(c) Amount and Benefits Payable

**03/30/2011**

This section is applicable only to plans with ▸UNGBs. For guidance in determining the ▸ERISA §4022(c) amount and benefits payable, refer to *Actuarial Technical Manual*, Section V.K, 4022(c) Benefits.

### Actuary

1. Determine the amount of the UNGB for the plan.
2. Identify the applicable ▸recovery ratio to calculate the ERISA §4022(c) amount:
   - Use the ▸SPARR for UNGBs less than or equal to $20 Million. See Appendix H1 Historical SPARR Information.
   - Use the plan's ▸actual recovery to calculate the ratio for plans with UNGBs greater than $20 Million.

   Refer to Policy 8.2-1 Valuation and Allocation of Recoveries.
3. Determine the plan's ERISA §4022(c) amount.
4. Allocate the ERISA §4022(c) amount to UNGBs in ▸priority category order.
5. Determine each participant's share of the plan's ERISA §4022(c) amount, if any.
6. Determine each participant's ERISA §4022(c) benefit.

**17.1F Determine Termination Benefits**

**03/30/2011**

**Actuary**

1. Determine each participant's ▸Termination benefit as the sum of (a) and (b), where:
   a. Participant's ▸Title IV benefit, as determined in 17.1D Determine Title IV Benefits.
   b. Participant's ▸ERISA §4022(c) benefit, as determined in 17.1E Determine ERISA §4022(c) Amount and Benefits Payable.
2. Determine the ▸PV of the Termination benefit.
3. Determine the lump sum value as of ▸DOPT for the following:
   a. Participant/Beneficiary Termination benefit.
   b. Termination ▸QPSA benefit as of DOPT (for participants not yet in pay at DOPT).

## 17.1G Calculate Benefits for the Benefit Statements

**06/27/2013**

### Actuary

1. Update the database with new data in ▸Spectrum (reconcile with Spectrum).
2. For participants/beneficiaries who go into pay status on or before ▸DOTR whose benefits are subject to adjustment, calculate the ▸termination benefit as of ▸ARD in the elected form of ▸annuity.

   Participants/beneficiaries who go into pay status on or before DOTR whose benefits are not subject to adjustment do not require ▸benefit statements.
3. For participants/beneficiaries who go into pay status after DOTR and before the date the valuation is finalized, calculate the termination benefit as of ARD.
4. For participants/beneficiaries who have not yet gone into pay status as of the date the valuation is finalized, calculate the termination benefit payable in the normal single form of annuity as of:
   - ▸NRD
   - ▸EBSD (see Policy 5.2-4 Annuity Starting Dates and Policy 6.1-2 Earliest PBGC Retirement Date)
   - ▸EURD, if applicable
5. For participants/beneficiaries past their ▸RBD and not yet in pay status as of the date of valuation, calculate the benefit as of RBD (see Policy 5.2-5 Required Beginning Dates).
6. For participants who died post-▸DOPT, calculate the benefit and ▸lump sum (if de minimis) due to:
   - The beneficiary per the annuity election for a participant who was in pay status at date of death.
   - The surviving spouse if a ▸QPSA benefit is payable.
7. For participants who received a partial or full estimated ▸lump-sum distribution from PBGC, calculate the residual lump sum owed and prepare the benefit statement to reflect:
   - The amount of the estimated lump sum (including ▸interest).
   - The residual lump sum owed, if any, as of the date the benefit statement is issued, or net termination benefit if the residual lump sum is greater than $5,000.
8. For participants whose annuity was partially purchased, prepare the benefit statement to reflect:
   - The amount of the monthly annuity purchased.
   - The net monthly termination benefit owed, if any, determined based on the criteria above.
9. For participants with a ▸QDRO, calculate termination benefits and prepare benefit statements based on the terms of the QDRO for both the participant and ▸alternate payee based on the criteria above.

   **Note** A benefit statement is not required for a participant who received a full lump-sum distribution or for whom an annuity was fully purchased prior to DOTR.

   See *Actuarial Technical Manual*, Section I.B, Benefit Statement Guidance and Section I.C. Sample Benefit Statements for additional information.

## 17.2 Program BSRS Using Design Tool in ACT

**07/01/2016**

| | |
|---|---|
| **Purpose** | To provide an automated program that produces the benefit statements for benefit determinations and retirement and optional forms of annuity statements as of the actual retirement date for future retirees. |
| **Guidance** | *Actuarial Calculation Toolkit*<br>*Actuarial Technical Manual,* Section I.B, Benefit Statement Guidance<br>Software Review Checklist |
| **Procedure Owner** | Actuary |

The ▸actuary programs ▸BSRS to produce ▸benefit statements for benefit determinations that include:

- Statements for pre-▸DOTR retirees/beneficiaries whose benefits are changing or unlevel after ▸DOPT.
- Statements for future retirees for benefits as of ▸EURD, PBGC ▸EBSD, and lump sum at DOPT (if LS_Term is less than or equal to $5,000).
- Statements for retirees/beneficiaries who go into pay by PBGC.

In addition, the actuary programs BSRS to produce retirement statements for non-retirees not in pay as of valuation date that include:

- Benefit statement showing actual retirement benefit or ▸QPSA benefit (if applicable).
- PBGC optional form output.
- QPSA benefit lump sum value (if applicable).

Follow this procedure to create the configuration files (*_S1.cfg and *_P1.cfg) using the BSRS ▸Design tool in ▸ACT. However, within the ▸valuation process, the actuary can perform the 17.3 Create Listings in DRS in ACT procedure before or simultaneously with this procedure.

1. Ensure the participant database and the programmed V1 file (created in 17.1 Create V1 File in ValTool) are in the same directory.

   To follow a best practice, place the files in the H:\ActWork\8-digit PBGC case number directory workspace (for example, `H:\ActWork\12345600`).
2. Create the *_S1.cfg file for statements and the *_P1.cfg file for optional forms by performing one of the following for each configuration file:
   - Use the template created in ACT.
   - Copy an existing *_S1.cfg/*_P1.cfg file into the workspace and rename the file (for example, `[8-digit PBGC case number naming convention]s1.cfg`).
3. Follow the programming instructions in ACT.
4. Use Runtime to test all possible types of benefit calculations by printing out and reviewing a sample of the benefit and retirement statements, including statements for:
   - Participants with benefits calculated under various formulas.
   - DOPT retiree affected by PBGC limitations
   - Post-DOPT retiree
   - Post-DOPT beneficiary
   - Participant past his/her ▸RBD
   - ▸Alternate payee

- Disability retiree
- Participant due a benefit from an ERISA §4044 asset allocation
- Participant due a benefit per ERISA §4022(c)

Use the Software Review Checklist to help outline the testing process.

Top of Page

## 17.3 Create Listings in DRS in ACT

**03/30/2011**

| | |
|---|---|
| **Purpose** | To review, format, and produce the listings for inclusion in the Actuarial Case Report. |
| **Guidance** | *Actuarial Calculation Toolkit* |
| **Procedure Owner** | Actuary |

This procedure creates the listings placed in the ▸Actuarial Case Report using the ▸DRS component of ▸ACT. However, within the ▸valuation process, the ▸actuary can perform the 17.2 Program BSRS Using Design Tool in ACT procedure before or simultaneously with this procedure.

1. Use DRS to format the participant data and calculation results to produce hard copy listings for inclusion into the Actuarial Case Report.
2. Save the listings as *.pdf files.
3. Review the listings for the following:
   - Correct formatting
   - Totaled columns, where appropriate
   - Accurate formulas
   - Matched numbers to the stated formulas

## 17.4 Complete the Case Memo

**03/30/2011**

| | |
|---|---|
| **Purpose** | To complete the case memo documenting the valuation results, policy and legal issues, decisions, and conclusions for the Actuarial Case Report. |
| **Guidance** | *Actuarial Technical Manual* |
| **Procedure Owner** | Actuary |

1. Complete the case memo according to the standardized requirements.

   The case memo includes the facts and decisions, and the participant counts and liability amounts in specific ▸participant and ▸beneficiary categories. See the *Shell of Actuarial Case Memo* template.

2. Review numerical data to ensure numbers match the ▸DRS Listings and other relevant sources.

## 17.5 Assemble Actuarial Case Report

**07/01/2016**

| | |
|---|---|
| **Purpose** | To compile hard copies of all reports to create the Actuarial Case Report and provide to the Actuarial Technical Reviewer for review. |
| **Guidance** | *Actuarial Technical Manual,* Section I.A, Contents of the Actuarial Case Report |
| **Procedure Owner** | Actuary |

Use this procedure to produce the ▸Actuarial Case Report, including the ▸Actuarial Case Memo, listings, sample benefit statements, and other required items. Follow the instructions in the *Actuarial Technical Manual*, Section I.A, Contents of the Actuarial Case Report as applicable. The information in the Actuarial Case Report provides the reader with a thorough understanding of all aspects of the ▸valuation and future administration.

1. Assemble the Actuarial Case Report to consist of the following:
   - Actuarial Contractor Certification, if applicable
   - Actuarial Case Report Checklist
   - Table of Contents for the Actuarial Case Report
   - Actuarial Case Memo
   - Additional Plan-Specific Information (for example, Appendices)
   - ▸CMS Asset Screens
   - Plan Summary
   - Plan Factors (Early, Late, and Form Conversion)
   - Sample Benefit Statements
   - Sample Retirement Statements
   - Valuation Listings
2. Provide a hard copy of the completed Actuarial Case Report to the Actuarial Technical Reviewer.

## 17.6 Perform Preliminary Software Review

**07/01/2016**

| | |
|---|---|
| **Purpose** | To perform a preliminary software review to ensure that all case software and files, including BSRS, manual statements, ValTool, Microsoft Word documents, databases, and any other documentation or electronic files are properly tested and error free. |
| **Guidance** | *Actuarial Calculation Toolkit*<br>Contents<br>TRMD Service Catalog<br>Software Review Checklist |
| **Procedure Owner** | Actuary |

1. Perform a preliminary software review per the Software Review Checklist and Contents document:
   - Name the files in accordance with the naming conventions identified in the Software Review Checklist.
   - Verify the testing of all the software programs (▸BSRS) using the Software Review Checklist guidelines to verify that everything runs appropriately and output is correct.
   - Use the ADT Utility to produce the **Edit Summary Report** and the **Edit Detail Report** and use to determine whether the ▸valuation databases have missing or incorrect data.
   - Provide an explanation for all warnings, errors, and critical errors listed in the ▸ADT reports in the Software Review Checklist.

## 17.7 Review Actuarial Case Report and Software by Actuarial Technical Reviewer

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review and provide corrections to the Actuarial Case Report submitted by the actuary. |
| **Guidance** | *Actuarial Calculation Toolkit*<br>*Actuarial Technical Manual*<br>*PBGC Operating Policy Manual* |
| **Procedure Owner** | Actuarial Technical Reviewer (or designated GS13 Reviewer) |

Reviewing the ▸Actuarial Case Report requires an Actuarial Technical Reviewer role or a qualified actuarial reviewer with a minimum grade of GS13, such as a Senior ▸Actuary.

**Actuarial Technical Reviewer**

1. Review the Actuarial Case Report to verify that the ▸valuation is complete and accurate.
2. Review the software for compliance with OBA standards.
3. Review sample Benefit and Retirement Statements for compliance with guidance in the Actuarial Technical Manual and ensure the ▸Benefit Statements reflect the most current ▸Spectrum data and other events that impact the ▸Termination Benefit or ▸lump sum amount.
4. Submit corrections to the actuary:
   - Review the corrected report after the actuary resubmits.
   - When no further corrections are needed:
     - Sign and date the Actuarial Case Report Checklist and include with the Actuarial Case Report.
     - Sign the ▸Actuarial Case Memo.

**Actuary**

5. Sign the Actuarial Case Memo and submit to management for high-level review and concurrence.
6. Submit the Actuarial Case Report to ▸ASD for approval (signatures on the Actuarial Case Memo include those from the Actuarial Technical Reviewer and actuary).

## 17.8 Obtain Actuarial Case Report Approval

**07/01/2016**

| | |
|---|---|
| **Purpose** | To obtain approval for the Actuarial Case Report and distribute as appropriate. |
| **Guidance** | N/A |
| **Procedure Owner** | Actuary |

### ASD Reviewer

1. Perform a high-level review of the Actuarial Case Report.
2. Submit required corrections to the actuary.
3. Review the corrected Actuarial Case Report after the actuary resubmits and notify the actuary by e-mail that the case is ready for finalization.

### Actuary

4. After receiving approval by e-mail, date stamp the signed ▸Actuarial Case Memo (this may also be done before submitting for review) and enter the liability amounts in the appropriate columns of the Final Participant Liabilities Milestone in ▸CMS. Ensure that the date of the report and the final date in CMS are the same.
5. Submit the Actuarial Case Report to ASD management for signature and finalization of the CMS milestone.
6. Submit the signed and dated hard copies of the complete Actuarial Case Report with the approval e-mail to the ▸DMC for imaging to the plan file.

   The DMC accepts only the complete ▸ACR (not sections) for imaging. The approval e-mail must be included.

   **Note** Sixty days after the end of each fiscal year, the DMC ships the hard copies of scanned ACRs to the ▸FRC.

## 17.9 Perform Final Software Review

**07/01/2016**

| | |
|---|---|
| **Purpose** | To ensure that all case software and files, including BSRS, manual statements, ValTool, Microsoft Word documents, databases, and any other documentation or electronic files are properly tested, error free, and ready for archiving. |
| **Guidance** | *Actuarial Calculation Toolkit*<br>Contents<br>TRMD Service Catalog<br>Software Review Checklist |
| **Procedure Owner** | Actuary |

1. Perform a final software review per the Software Review Checklist and Contents document, if necessary.
2. Place the completed Software Review Checklist and all software files (including files essential to understanding the ▸Valuation and plan) in the `I:\software\[eight-digit PBGC case number]\Final Valuation` directory for archiving.
3. Notify the Supervisory Actuary that the software review has been submitted to ▸TRMD and request the Supervisory Actuary to send the ▸CMS Request ADT Load Activity task referral to TRMD.

   TRMD sends a confirmation e-mail and informs the actuary of the TRMD team member processing the software closeout final valuation.
4. Remove any associated software and files from all directories outside of the `I:\software` directory (including the actuarial contractor directory).

## 17.10 Perform Software Closeout (TRMD)

**07/01/2016**

| | |
|---|---|
| **Purpose** | To submit the final valuation, complete the Valuation (ADT) Load, load the benefit statements into eALG, archive the case software and files, and finalize the Request ADT Load Activity Milestone in CMS. |
| **Guidance** | TRMD Software Closeout Checklist<br>TRMD Software Closeout Internal Control Worksheet<br>Software Review Checklist |
| **Procedure Owner** | TRMD |

1. Complete the ▸TRMD Software Closeout Internal Control Worksheet and TRMD Software Closeout Checklist.
2. Load participant data using ▸Spectrum (▸Valuation (ADT) Load).

   > **Note** With very limited exceptions, the Valuation (ADT) Load does not overwrite any existing data. For a complete detailed listing of participant data elements loaded and the data elements that are overwritten through the Valuation Load, see the ▸ADT Transaction File Codes Table and the ▸Data Elements/Spectrum Fields Completed Table.

3. Load the benefit statements to ▸eALG.
4. Archive the case software and files by following the procedures outlined in the Archive Utility and Archive Access part of ▸ACT and make the plan available to the ▸FBA, if applicable. See TP 16.5 Archive Electronic Files for general guidance on archiving.
5. Notify the actuary, ▸CSD, and FBA by e-mail that the valuation load has been completed, statements are loaded in eALG, discrepancies have been reported, and files are available through Archive.
6. Finalize the Request ADT Load Activity Milestone in ▸CMS.

   CMS sends an automated notification to the actuary when the milestone is finalized.

## 17.11 Present Actuarial Case Report to Team

**03/27/2014**

| | |
|---|---|
| **Purpose** | To brief the case processing team on the results of the actuarial valuation. |
| **Guidance** | N/A |
| **Procedure Owner** | Actuary |

1. Schedule a meeting with the Case Team, including the ▸FBA when applicable, to present an overview of the ▸Termination benefits, complications that produce atypical ▸benefit determinations, and any information needed to properly administer the ▸plan:
   - Request the team to review the ▸Actuarial Case Report prior to the meeting via ▸PBGC Image Viewer.
   - Provide a general overview of the ▸plan, including the normal ▸benefit forms, ▸ERA, ▸NRA, and ▸vesting.
   - Discuss the following if applicable, but not limited to:
     - Oddities such as unusual benefit forms, offsets, and legal issues.
     - Benefit changes required for retirees.
     - Application of PBGC's limitations.
     - Purchased annuities.
2. Discuss any unusual requirements or options programmed into ▸BSRS.
3. Inform the ▸EBLS/FBA of:
   - Limitations of the BSRS, such as ▸participants with complex benefits.
   - Manual benefit statements loaded in Archive.
   - ▸Valuation (ADT) Load issues.

## 17.12 Provide Post-Valuation Actuarial Assistance

**07/01/2016**

| | |
|---|---|
| **Purpose** | To provide corrected and revised benefit statements, new benefit statements for Woodwork participants and post-valuation QDROs, updated valuation data, revised BSRS and instructions to the EBLS/FBA before the plan is transferred to post-valuation administration. |
| **Guidance** | *Actuarial Calculation Toolkit Manual*<br>Actuarial Technical Manual<br>*PBGC Operating Policy Manual* |
| **Procedure Owner** | Actuary |

1. Upon receipt of a request for a new benefit statement, recalculate the ▸Termination Benefit based on the ▸RFA or other information provided by the ▸participant or ▸EBLS/▸FBA/▸PVA.
2. Using ▸ValTool, update the applicable record(s) in the ▸ACT valuation database, if needed, and submit to ▸TRMD to be archived.
3. Using ValTool and Design, update the ▸BSRS, if needed, and submit to TRMD to be archived.
4. Notify by e-mail both ▸ASD and TRMD if data in the C1 fields JSPOPUP or POPLIM, or in any of the C4 fields, is changing so that ASD can be notified to update the IPVFB Supplemental table for this case using the updated ACT valuation database that is being archived.
5. Provide the revised or corrected benefit statement, revised amounts and dates (as needed) and instructions to the EBLS/FBA to update the ▸Spectrum record. Fields that may need to be updated include:
   - ▸XRD Monthly Valuation Benefit
   - XRD, Val (XRD) Benefit Form, Val Retirement Type
   - Age Nearest Birthday at ▸DOPT
   - Benefit Amount in the NSF and Start Date for:
     - ▸EBSD
     - ▸EURD
     - ▸NRD
   - ▸Lump Sum Discriminator Amount
   - Normal Single Form

## 17.13 Resources for Actuarial Valuation

**09/30/2016**

**Forms, Letters, and Memos:**

- *Actuarial Case Report Checklist*
- *Case Information Checklist*
- *Software Closeout Checklist*
- *TRMD Software Closeout Internal Control Worksheet*
- *Record of Interview*
- *Software Review Checklist*

**Customer Correspondence and Forms:**

*None*

**Guidance:**

- *Policy 5.13-1 Aggregate Limit on Benefits Payable from PBGC Funds*

**Exhibits:**

*None*

*Top of Page*

**08/30/2011**

Once the value of the benefits is known, the notification of benefits processes are the means of informing each participant of the amount of his or her benefit. They also provide additional information about the appeal rights provided by law. This is done through the ▶BDLs and other correspondence. After the appeal period has expired, any necessary adjustments are made and the paid benefit amounts are shifted from estimated status to final status.

19.7 Mid-Valuation Benefit Determination Letters
19.8 Maintain BDL Review File for Large Plan
19.9 Resources for Benefit Determination Letters

## 19. Overview for Benefit Determination Letters

**07/01/2016**

OBA issues ▸Benefit Determination Letter (BDLs) to advise participants of their ▸benefits under a ▸plan. All letters are issued via ▸eALG, which contains letter templates for the various benefit situations. Most ▸BDLs include ▸benefit statements explaining how the benefit was calculated.

▸Participants who have received estimated ▸benefit payments lower than their guaranteed benefits will receive the amount they were underpaid. Those who have received more than their guaranteed benefit may be subject to recoupment or recovery of the overpayment.

Most BDLs are issued after the valuation has been completed for a plan. But there are circumstances when BDLs are issued before the valuation:

- **Early BDLs** may be sent to retirees who have been in pay status at least one year prior to ▸DOPT and whose benefits will not change when the valuation is final. They are also occasionally sent to others, such as non-plan members.
- **Mid-Valuation BDLs** may be sent to groups of participants who meet other defined criteria.
- **Limited-Scope BDLs** are rarely issued and cover only specific aspects of a participant's benefit – for example, eligibility for disability benefits – while the valuation is pending, to be followed later by a final BDL. They may also be used for certain benefit changes or corrections after a BDL is issued.

Also note that for ▸cash balance plans, there are specific eALG letters and attachments. These are covered in TP 52.2 Issue Cash Balance BDLs.

After BDLs are issued, it is sometimes necessary to change a ▸benefit determination because new information has surfaced or an error has been found in the original letter. OBA sends a *Revised BDL* to change a benefit determination.

When customized BDLs are necessary, they should be reviewed carefully before being issued. The *Letter Authorization Checklist* may be used as a job aid both when preparing and authorizing custom BDLs.

All BDLs include appeal rights, allowing participants to challenge their benefit determination within 45 days after the date of the letter (unless an extension to file has been granted by the ▸Appeals Division). Appeals are covered in Process 20 Appeals Correspondence.

## 19.1 Create Early BDL Database and Issue Early BDLs

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether to issue early BDLs to participants. |
| **Required Input and Source** | List of payees in pay for at least one year prior to DOPT<br><br>Benefit information sufficient to determine payees' eligibility or ineligibility for early BDLs |
| **Output and Recipient** | Management concurrence on list of payees eligible for early BDLs<br><br>Management memo providing reason if early BDLs will not be issued<br><br>Early BDL Review Report<br><br>Early BDLs issued to eligible participants |
| **Control Issues** | The Auditor Supervisor, DIMB concurs on the list of participants eligible for early BDLs before the Case Team proceeds. The Early BDL Review Report is concurred upon by management for every plan for which early BDLs are issued.<br><br>The Auditor Supervisor, DIMB samples Early BDL Database for accuracy using the same methodology as for the Participant Data Review (PDR), and the actuary reviews the benefit amounts in pay status. The auditor audits the database and therefore other members of the Case Team must build the database, which is archived. Management must concur on the Early BDL Review Report.<br><br>Documents concerning early BDLs are imaged to the IPS plan file. |
| **Important Concepts** | Early BDLs are issued primarily to payees in pay status for more than one year prior to DOPT and whose benefits will not change. (Mid-Valuation BDLs are issued to groups that meet other criteria, discussed in Process 19.7 Mid-Valuation BDLs.) Participants may be otherwise excluded for a variety of reasons. Other groups or individuals may be included on a case-by-case basis.<br><br>Generally, the *Data Elements and Sources List* is completed prior to this process.<br><br>The sampled early BDL population is stratified in the PDR, and may be excluded from further sampling in the PDR process. |
| **Guidance** | N/A |
| **Procedure Owner** | Auditor - DIMB, Actuary - CPB, EBLS/PBA/FBA - CSB, Employee Benefits Supervisor, CSB |

**Auditor, DIMB**

1. Make a preliminary determination on whether early ▸benefit determination letters (▸BDLs) should be issued for the ▸plan. It may be impractical if, for example, there are too few ▸payees to make the process worthwhile, or the valuation of the plan is near completion and BDLs will soon be issued to all ▸participants. If at any time the Case Team and Management decide not to issue early BDLs, document the decision and management's concurrence either on the initial memo from the Case Team providing the early BDL population, on the *Early BDL Review Report*, or by separate memo to the plan file. No further action is necessary.
2. Determine the best source(s) to identify all participants in pay status at the date of plan termination (▸DOPT). From this list, exclude the following:
   - Participants in pay status less than one year prior to DOPT
   - ▸Substantial/Majority Owners
   - Beneficiaries receiving the remainder of a Certain and Continuous Annuity

- Participants whose benefits are subject to a ▸pop-up, step-down, or other odd or unique plan provision
- Participants receiving benefits over the ▸maximum guaranteeable benefit (since their benefits may be adjusted, depending on the sufficiency of the plan)
- Participants who may be subject to the ▸phase-in rule
- Participants whose benefits were or may be adjusted for any other reason (▸cutbacks, possible prior plan administrator calculation errors, etc.)
- Participants affected by partial ▸annuity purchases or offsets from other plans
- Participants who may be partially vested because of a ▸graded vesting schedule
- Participants who may be eligible for a ▸plan 4022(c) amount
- Participants receiving a modified cash refund of employee contributions
- Participants receiving disability benefits

Other participants or types of participants (for example, non-vested) to be included or excluded from the early BDL population are determined on a case-by-case basis by the Case Team, subject to management's approval.

3. Consult with the Case Team as needed on the list of participants eligible for an early BDL. Prepare a memo identifying the early BDL population to Manager, ▸DIMB for concurrence before proceeding. Image the memo with concurrence to the plan file.
4. From the resulting list of participants deemed eligible for an early BDL, select a sample of payees whose benefit calculations will be tested. Apply the same sampling methodology as that used for a participant database in TP 60 Data Sampling.
5. Begin the database for the sample population:
   - Create a database shell with the names of participants in the sample and the data elements identified by the ▸actuary or *Data Elements and Sources List*, if available.
   - With input from the Case Team, determine who will perform the data entry. (The Auditor, ▸DIMB will review the database and therefore may not participate in entering data.)
6. Provide the database shell and instructions to the person assigned to build the database (see Process 13.1A Prepare Database and Load Initial Data).
7. Upon completion, archive the database according to TP 16.5 Archive Electronic Files. Contact ▸TRMD for guidance if needed.
8. Review the sample database in comparison to the source documents. Ascertain that the source documents are imaged to the participants' ▸IPS files.
9. Record review findings on the draft of the *Early BDL Review Report*. Forward the sample database to the case actuary, ▸CPB to verify the benefits in pay status.

**Actuary, CPB**

10. For the sample payee population, review the benefit amounts in pay status for accuracy. Provide a written summary of the results of the review by memo or e-mail to the auditor.

**Auditor, DIMB**

11. Complete the *Early BDL Review Report* and submit to Supervisory Auditor, DIMB for concurrence:
    - Attach the lists of data elements and source documents, results of the actuary's review of benefits in pay status, and all other supporting documents.
    - Include a recommendation that the team proceed or not proceed to issue early BDLs based on the results of the review of the sample database and the actuary's review of benefit calculations.
    - Confirm that the source documents are imaged to the participants' IPS files.
    - Note the location on the shared drive of the sample database.
    - Upon concurrence, image the report and all supporting documents to the IPS plan file. If early BDLs are to be issued, forward a copy to the Employee Benefit Law Specialist (▸EBLS)/Pension Benefit Administrator (▸PBA)/Field Benefit Administrator (▸FBA).

**EBLS/PBA/FBA, CSB**

12. Based on management's concurrence, issue early BDLs to the eligible population named in the *Early BDL Review Report* (see TP 15 Prepare and Mail Letters).
    - Consider using the *Letter Authorization Checklist* as a job aid both when preparing and authorizing custom BDLs.
    - **Do not** issue a letter to any payee who has not yet returned the Payee Information Form (▸PIF) or whose benefit payments are suspended for any reason.
    - See TP 55 ValPatch Mailings if a ValPatch is needed to prepare an ▸eALG mailing.
    - If a participant was placed into pay **by the prior plan administrator** after DOPT but before the date of trusteeship (▸DOTR), and there is no change to benefits, a ▸benefit statement is not required to be included with the BDL.
13. Handle payees whose early BDLs were withheld because they either had not returned their PIFs or whose benefits were suspended as follows:
    - Upon receiving the PIF, verify it to the data in the early BDL database. If there are no discrepancies which would change the benefit, issue the early BDL after making appropriate corrections in Spectrum.
    - Upon reinstating benefits that were suspended for any reason, issue the early BDL as long as the payee is still deemed eligible.

    > **Note** The sampled early BDL population is stratified in the ▸PDR, and may be excluded from further sampling in the PDR process.

## 19.2 Review Actuarial Case Report and Issue BDLs

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine and issue correct BDLs based on the valuation of the plan, and take required follow-up actions. |
| **Guidance** | *Benefit Determination Letter Templates*<br>Benefit Payment Schedule<br>CMS Job Aids and User Guide<br>eALG Correspondence Help<br>Policy 5.4-9 Lump-Sum Benefit Payments<br>Policy 5.4-10 Small Benefit Payments<br>Policy 5.8-1 Benefit Corrections |
| **Procedure Owner** | EBLS/PBA/FBA - CSB, FBA Management, Employee Benefits Supervisor, CSB |

**EBLS/PBA/FBA, CSB**

1. Upon notification that the ▸Actuarial Case Report (ACR) has been finalized, review the ▸Actuarial Case Memo. Meet with the ▸plan ▸actuary to resolve any questions before proceeding.
2. For ▸participants who have received estimated ▸annuity or ▸lump-sum payments, refer to the appropriate section to determine whether they have received the correct amount, or have been overpaid or underpaid:
   - Process 19.3 Determine Underpayment/Overpayment for Annuities
   - Process 19.4 Determine Underpayment/Overpayment for Lump Sums
3. Categorize participants into groups according to the types of ▸BDLs they will receive, considering:
   - ▸ACR, *Letter Information Report* (from eReports), and other sources as needed. Note any special circumstances for individuals (for example, ▸qualified domestic relations order (QDRO) or the death of a participant) that may affect which BDLs to send.
   - Overpayment and underpayment data.
   - ▸Benefit changes as permitted under Policy 5.8-1 Benefit Corrections.
   - ▸Small benefit payments of $200 or less, including interest,
   - eALG Correspondence Help, which lists available BDLs. See the *Benefit Determination Letter Templates* for a list of 400-series letter templates.
   - For cash balance participants, see TP 52.2 Issue Cash Balance BDLs to determine the appropriate letters and attachments to send.
   - For participants who made mandatory employee contributions, see TP 36.2C Issue Employee Contributions Benefit Determination Letters to determine the appropriate letters to send.
   - If a participant was placed into pay **by the prior plan** administrator after the ▸date of plan termination (DOPT) but before the ▸date of trusteeship (DOTR), and there is no change to the benefit after the date the actuarial valuation is finalized, a ▸benefit statement is not required. Use an *eALG 401 BDL* customized to remove the language about the ▸benefit statement.
   - If a participant retired before ▸DOPT with a non-level benefit (for example, a benefit with a temporary supplement) that will change after the date the actuarial valuation is finalized, use an *eALG 400 BDL* and include a benefit statement. Customize the BDL to include the date the benefit will change and to reference the enclosed benefit statement, as appropriate.

**Note** Be careful not to issue a BDL to anyone who received an Early BDL. Refer to the *Early BDL Review and Letter Information Report* (LIR) for affected participants.

**Note** Do not issue a BDL to a participant whose Eligibility Status in ▸Spectrum is Undetermined.

4. For ▸payees receiving disability benefits, choose the appropriate BDL based on the disability tracks described below and refer to the *Benefit Determination Letter Templates* for a current list of BDLs by series:
   - Track 1 SSA-Conditioned Disability Benefit: Disability benefit paid to a participant in a plan that requires ▸SSA disability eligibility. Choose the appropriate letter which includes the DS suffix (for example, 401DS)
   - Track 2 SSA-Conditioned Retirement Benefit: Retirement benefit paid to a participant who was eligible for the plan and SSA disability benefits, but retired under other plan provisions. After trusteeship, PBGC determined that the disability benefit amount they could have received, after applying PBGC's Special Guarantee Rules for Disabled Participants, is greater than the retirement benefit amount they are eligible to receive after applying PBGC's normal guarantee limits. Therefore, PBGC is paying the greater disability-conditioned benefit amount, contingent upon continued SSA disability eligibility. Choose the appropriate letter which includes the DM suffix (for example, 401DM).
   - Track 3A Plan-Conditioned Disability Benefit: Disability benefit paid to a participant in a plan that does not require SSA disability eligibility, and who meets the plan's (but not SSA's) disability eligibility requirements. Choose the appropriate letter which includes the DP suffix (for example, 401DP).
   - Track 3B Plan and SSA-Conditioned Disability Benefit: Disability benefit paid to a participant in a plan that does not require SSA disability eligibility. The participant meets both the plan's and SSA's disability eligibility requirements, and application of the disability maximum guarantee in lieu of the otherwise applicable age-adjusted maximum guarantee limit results in a greater benefit. Choose the appropriate letter which includes the DP suffix (for example, 401DP).

   If a participant contacts PBGC to report a condition change as a result of the BDL, respond according to TP 30 Monitor Continuous Eligibility For Disability Benefits.
5. Issue BDLs using ▸eALG, and note the following:
   - The ▸ADT load must be completed before BDLs are issued.
   - Certain BDLs always require customization (for example, recoupment and Non-Member BDLs). If any participants may be due additional pension credit under the Uniformed Services Employment and Reemployment Rights Act of 1994 (▸USERRA), refer to TP 62 USERRA Benefits for relevant language to insert.
   - The *Letter Authorization Checklist* may be used as a job aid when preparing and authorizing custom BDLs.
   - Follow up on **all** recovery BDLs, including those involving *de minimis* write-offs, according to TP 6 Recover Overpayments.

**FBA Management**

6. If required, document the BDL reviews according to Process 19.8 Maintain BDL Review File for Large Plan.
7. Process annuity benefit increases and *de minimis* back payments for underpayments as soon as practicable after the BDLs have been issued – do not wait for the appeals period to expire. Increases in monthly benefits are made regardless of the amount (see Policy 5.8-1 Benefit Corrections).
8. Pay small lumps sums of less than $200 (including interest) without a benefit application if PBGC has reliable and sufficient information for the customer after the BDLs have been issued – do not wait for the appeals period to expire.
9. If a participant appeals his or her BDL, follow Process 20 Appeals Correspondence.
10. If a ▸Large Reimbursement is due, process the participant's payment election upon receipt of a valid ▸lump-sum application.
11. If a residual lump sum benefit is due,
    - Pay amounts less than $200 (including interest) without a benefit application if PBGC has reliable and sufficient information for the customer after the BDLs have been issued – do not wait for the appeals period to expire.
    - For other amounts less than $5,000 (excluding interest), pay upon receipt of the lump-sum application according to the participant's election (see Policy 5.4-9 Lump-Sum Benefit Payments).
    - If the residual lump sum amount is greater than $5,000, initiate annuity payments when the participant is eligible and submits an application for benefits (see TP 20 Benefit Payments).
12. After the 45-day appeals period has expired, process remaining benefit adjustments required by BDLs for participants who have not filed an appeal (or requested an extension to file):
    - Process annuity benefit decreases. PBGC reduces benefits if the decrease in the monthly benefit is $5 or more if the plan was trusteed before 10/01/2014. For a plan trusteed on and after 10/01/2014, the benefit is reduced if the decrease is $1 or more (see Policy 5.8-1 Benefit Corrections).

- As applicable, initiate recoupments or continue processing recoveries (see TP 7 Recoupment and Administrative Correction or TP 6 Recover Overpayments).
- All benefit adjustments must be effective (reflected in the payment) no later than 90 days after the expiration of the appeals period (or appeal decision date, as applicable), and therefore must be submitted and approved in Spectrum according to the Benefit Payment Schedule. All benefits in pay status must be in the guaranteed pay source in Spectrum by this time.

13. After all payment adjustments have been made, update the Final Benefit Adjustment Milestone in ▸CMS and advise the Employee Benefits Supervisor, ▸CSB.
14. If a mistake is discovered in a BDL after it has been issued that would change the benefit, and if the participant has **not** filed an appeal, follow procedures in Process 19.5 Issue Revised Benefit Determination Letter. (Whenever a participant files an appeal, follow Process 20 Appeals Correspondence.)
15. If a participant contacts PBGC and claims not to have received a BDL that was issued, or a BDL was returned as undelivered and needs to be mailed to the correct address,
    - Print a copy of the BDL and benefit statement (if a benefit statement is required) from ▸PBGC Image Viewer, and
    - Send the *eALG 540 Cover Letter* with the copy of the BDL. This informs the participant that he or she has 45 days from the date of the cover letter to appeal the BDL.
    - **Important**: Do **not** generate a new BDL using eALG. This would create a duplicate BDL and be recorded as an error.

**Employee Benefits Supervisor, CSB**

16. Finalize the Final Benefit Adjustment Milestone in CMS.

Top of Page

## 19.3 Determine Net Overpayment/Underpayment for Annuities

**07/01/2016**

| | |
|---|---|
| **Purpose** | To calculate the total overpayment or underpayment for participants who have received estimated annuity payments. |
| **Guidance** | TRMD Service Catalog<br>Payment Adjustment Calculation System (PACS) Help<br>Policy 5.8-1 Benefit Corrections<br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br>Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments |
| **Procedure Owner** | EBLS/PBA/FBA, CSB |

1. Review the participant lump sum and annuity pay history in Spectrum, PLUS, PBGC Image Viewer, and other available sources to account for all payments received since DOPT. Note that even when the guaranteed benefit is the same as the estimated benefit the participant is currently receiving, there may still be a net overpayment or net underpayment. For example:
   - A participant who is currently receiving the correct (guaranteed) benefit may still be owed interest. For example, the participant received an estimated back payment without interest.
   - A participant who was overpaid initially, and whose benefit was reduced to the correct amount, will have a net overpayment.
2. Prepare a calculation in PACS including all payments made on and after DOPT through the month prior to the target adjustment date. PACS computes net underpayments based on payments made on and after DOPT, and net overpayments based on the overpayment accrual commencement date for the plan. Also note the following:
   - **$5 Rule:** If the payee is **currently** receiving a monthly payment which exceeds the correct monthly benefit by **less than $5** and the plan was trusteed before 10/01/2014, use the amount currently in pay as the deemed correct amount for the months in which it exceeds the correct monthly amount by less than $5 (by less than $1 if the plan was trusteed on or after 10/01/2014). However, if there is a prior correct monthly payment amount (for example, due to a non-level benefit), refer to or contact Ask PPD for guidance.
   - **Pre-DOPT Underpayments:** If a participant was underpaid before DOPT but has a post-DOPT overpayment, these amounts are handled separately and not offset. In this scenario, PACS calculates and displays (in the same output screen) both the pre-DOPT underpayment and post-DOPT overpayment. Process this post-DOPT net overpayment according to step 6, and pay the pre-DOPT underpayment based on the level of plan assets (see Policy 6.3-1 Underpayment and Reimbursement and Interest Payments).
   - **PACS Help:** Refer to the Payment Adjustment Calculation System (PACS) Help for additional guidance in preparing the calculation as needed.
   - **Batch PACS:** To run PACS calculations for a large number of customers, consider sending a Batch PACS request to TRMD (see the TRMD Service Catalog for information).
3. If a participant has received the correct amount, including applicable interest, select the appropriate BDL indicating no change in benefit (eALG 400 or 401 series) and issue the letter according to Process 19.2 Review Actuarial Case Report and Issue BDLs.
4. Select the appropriate BDL depending on whether the PACS calculation indicates that there has been a net underpayment or a net overpayment. For a net underpayment, use the eALG 402 series; for a net overpayment, the eALG 403 series.

   **Example:** While in estimated pay status, a participant was initially receiving $800 per month. PBGC determined he was being overpaid and reduced the benefit to $750. The valuation benefit is $765. So while the participant's monthly benefit will increase, there is still an overpayment to be recouped. For this situation, choose a BDL from the eALG 403 series.

5. If the PACS calculation indicates a **net underpayment**:
   - Prepare a back payment in Spectrum if the net underpayment, including interest, totals $1 or more; if less, do not prepare a back payment (see Policy 5.8-1 Benefit Corrections).
   - If the underpayment totals $5,000 or more, **and** is greater than three times the monthly benefit payment (both conditions must be met), prepare the BDL offering the participant the opportunity to roll over the payment to a qualified account (for example, Individual Retirement Account).
   - Update Spectrum with the correct annuity amount. Process all benefit increases regardless of the amount of increase. However, reduce the benefit amount only if the difference between the estimated and guaranteed monthly benefit is $5 or more (see Policy 5.8-1 Benefit Corrections).
6. If the PACS calculation indicates a **net overpayment**, determine whether the participant is subject to recoupment or recovery:
   - If the plan was trusteed before August 23, 2007 **and** the overpayment is $500 or less ($10,000 or less if the ▶debtor is deceased), the overpayment is written off and the participant is advised by the BDL.
   - If the beneficiary of a ▶C&C continues to receive payments after the end of the certain period and did not receive prior notification of the payment end date, write off the overpayment (see TP 6.1D Other Recovery Situations).
   - If the net overpayment is not written off, update Spectrum with the recoupment information:
     - Enter the amount to be recouped from subsequent annuity payments, and the begin and end dates for the recoupment reduction. The begin date is the first payment date after the appeals period has expired.
     - Do not forward the recoupment for authorization until after the 45-day appeal period expires (or the appeal is closed, if applicable). Follow instructions in the ▶Appeals Board's decision if the participant appeals the BDL.
   - If there is no future stream of annuity payments as of DOPT from which to recoup, determine whether to process the overpayment as a recovery rather than a recoupment (see TP 6 Recover Overpayments and TP 7 Recoupment for further information).
7. Image the PACS calculation to participant's ▶IPS file, whether prepared individually or using the Batch PACS process.
8. Issue the BDL according to Process 19.2 Review Actuarial Case Report and Issue BDLs.

Top of Page

## 19.4 Determine Net Overpayment/Underpayment for Lump Sums

**07/01/2016**

| | |
|---|---|
| **Purpose** | To calculate the total net overpayment or net underpayment for participants who have received estimated lump sum payments. |
| **Guidance** | TRMD Service Catalog<br>Payment Adjustment Calculation System (PACS) Help<br>Policy 5.4-9 Lump-Sum Benefit Payments<br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br>Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments |
| **Procedure Owner** | EBLS/PBA/FBA, CSB |

1. Review the participant's pay history in Spectrum, PBGC Image Viewer, and other available sources to account for all lump-sum payments received.
2. Prepare a PACS calculation to determine whether the participant was overpaid, underpaid, or received the correct payment amount. Include interest paid on lump-sum payments. Refer to Payment Adjustment Calculation System (PACS) Help for additional guidance in preparing the calculation as needed.

   To run PACS calculations for a large number of customers, consider sending a Batch PACS request to TRMD. See the TRMD Service Catalog for information.
3. If the participant received the correct amount, including applicable interest, select the appropriate BDL indicating no change in the benefit.
4. If the PACS calculation indicates a net **Underpayment**, the participant is due a residual benefit:
   - If the residual amount is less than $5,000, the participant is due the amount with interest (or optional annuity). Select the appropriate lump-sum BDL.
   - If the residual benefit is greater than $5,000, select the BDL which offers the benefit as an annuity (there is no lump-sum option).
5. If the PACS calculation indicates a net **Overpayment**, determine whether to initiate recovery or write-off the overpayment amount in accordance with the recovery procedures:
   - If the overpayment is *de minimis* (less than $25; $10,000 or less if the debtor is deceased), the payee is advised by the BDL that the overpayment will be written off. After issuing the BDL, proceed to TP 6 Recover Overpayments to prepare the *Recovery Referral Memo*. For large batches, contact the Recovery Coordinator.

     The Recovery Team writes off the debt and documents the customer's IPS file.
   - If the overpayment is not *de minimis*, select an eALG 403-series recovery BDL and follow up according to TP 6.1A Recovery Due to Benefit Determination Letter (Overpayment of $1,000 or More) or TP 6.1B Recovery Due to Benefit Determination Letter (Overpayment Less than $1,000).
6. Image the PACS calculation to participant's IPS file, whether prepared individually or using the Batch PACS process.
7. Issue the BDL according to Process 19.2 Review Actuarial Case Report and Issue BDLs.

Top of Page

## 19.5 Issue Revised Benefit Determination Letter

**07/01/2016**

| | |
|---|---|
| **Purpose** | To select and issue the appropriate BDL to change a previously determined benefit. |
| **Required Input and Source** | As applicable:<br>• Discovery of error in an original BDL<br>• Appeals Board Decision<br>• Need for changes to BDLs of similarly situated participants |
| **Process Output and Recipient** | As applicable:<br>• Revised BDL<br>• Amended Benefit Statement<br>• Cover letter to Participant |
| **Control Issues** | Document all material supporting the change of a previously determined benefit and the amended benefit statement in the participant's IPS file (see TP 16.2 Maintain Participant File). Record all telephone contacts with the participant in CRM.<br>The Employee Benefits Supervisor, CSB signature is required on Revised BDLs. |
| **Important Concepts** | Use only a Revised BDL to change a previously determined benefit.<br>Do not change a previously determined benefit unless it meets the criteria stated in Policy 5.8-1 Benefit Corrections.<br>This subprocess clarifies when to change a previously determined benefit, and how to select the appropriate letter regardless of whether an appeal was filed. Refer to Process 20 Appeals Correspondence for specific guidance on responding to appeals correspondence. |
| **Guidance** | eALG Correspondence Help<br>Policy 5.8-1 Benefit Corrections |
| **Procedure Owner** | EBLS/PBA/FBA, CSB |

1. Determine that a change is needed to a previously issued ▸Benefit Determination Letter (BDL). A change may be needed because, for example:
   - Without filing an appeal, a ▸participant calls and states there is a factual error on the ▸BDL (for example, the Date of Birth (▸DOB) is incorrect), and the correction changes the ▸benefit.
   - The ▸Appeals Division refers appeals correspondence to ▸PSD, and PSD concludes that the original BDL is incorrect. (For specific instructions on responding to appeals correspondence, see Process 20 Appeals Correspondence.)
   - After an ▸Appeals Board decision changes an appellant's benefit, PSD decides to change the BDLs of similarly situated participants who did not appeal and whose original BDLs have become effective.

   **Before changing any previously determined benefit**, verify that the change falls under the rules of Policy 5.8-1 Benefit Corrections. Also, if a corrected ▸benefit statement is needed to correct an error that does not change the benefit, issue the amended benefit statement without a new BDL; instead create a cover letter using the ▸eALG Generic letter.

   > **Note** If the Appeals Board issues a decision, **do not** issue a ▸Revised BDL **unless** specifically instructed to by the appeal closing memo from the Appeals Division. An Appeals Board decision is final, and issuing another BDL would grant an additional appeal period that is unwarranted. However, if the appeal closing memo directs, issue a corrected benefit statement (without a BDL) to the participant, with a cover letter

(using the eALG Generic letter). Contact the Appeals Division with any questions on how to respond to appeals closings. See also Process 20 Appeals Correspondence.

2. Customize and issue the appropriate BDL using eALG (see TP 15 Prepare & Mail Letters). The letter must have the signature of the Employee Benefits Supervisor, ▸CSB who must review, initial and date the draft. Image the initialed draft to the participant's ▸IPS file (see TP 16.2 Maintain Participant File). Consider using the *Letter Authorization Checklist* as a job aid when preparing and authorizing the letter.
3. Verify that all documentation that supports revising the BDL and/or benefit statement is documented:
   - Image all supporting documents into the participant's IPS file, including the new benefit statement and relevant e-mail (see TP 16.2 Maintain Participant File).
   - Document all telephone contacts with the participant in ▸CRM.
4. Once the appeal period has expired, determine whether the participant has appealed the BDL or requested an extension request. If not, make adjustments to the participant's benefit as required. If the participant files an appeal or extension request, stay the BDL and proceed to Process 20 Appeals Correspondence.

Top of Page

## 19.6 Issue Limited-Scope BDLs

**07/01/2016**

| | |
|---|---|
| **Purpose** | To issue a determination concerning limited aspects of benefit entitlement to an individual or a group of participants. |
| **Guidance** | eALG Correspondence Help<br>Policy 5.8-2 Limited-Scope Benefit Determinations<br>Policy 5.8-1 Benefit Corrections |
| **Procedure Owner** | EBLS/PBA/FBA, CSB |

A ▸Limited-Scope BDL may be issued before or after the final ▸BDL to address certain issues. Refer to Policy 5.8-2 Limited-Scope Benefit Determinations and Policy 5.8-1 Benefit Corrections for guidance. Consult Employee Benefits Supervisor before proceeding.

1. Research the issue(s) to be addressed in the letter. Obtain input from the Case Team and Employee Benefits Supervisor management, as needed.
2. Draft language to be included in the *Limited-Scope BDL (eALG 406)* and obtain approval depending on whether issuing the letter to an individual or group:
   - **Limited-Scope BDL to an individual:** Obtain Employee Benefits Supervisor management approval.
   - **Limited-Scope BDLs to a group of participants:** After management concurs, obtain approval from ▸PPD.
3. Using the approved language, create and issue the customized *Limited-Scope BDL (eALG 406)* via ▸eALG (do not use **any** other letter for this purpose). See TP 15 Prepare & Mail Letters. Consider using the *Letter Authorization Checklist* as a job aid both when preparing and authorizing the letter.
4. Image supporting documents to the appropriate file (see TP 16 Plan and Participant File Maintenance):
   - **Limited-Scope BDL to an individual:** Image documentation indicating management's approval of the BDL language, and any supporting documents, to the ▸participant's ▸IPS file.
   - **Limited-Scope BDLs to a group of participants:** Image documentation indicating PPD's approval of the BDL language, and any supporting documents, to the IPS plan file.
5. If the participant appeals, see Process 20.1 Respond to Acknowledgement of Appeal or Extension Request.

## 19.7 Mid-Valuation Benefit Determination Letters

**07/01/2016**

| | |
|---|---|
| **Purpose** | To issue BDLs (other than Early BDLs) to a group of participants prior to completion of the Actuarial Valuation. |
| **Guidance** | N/A |
| **Procedure Owner** | Actuary - CPB, EBLS/PBA/FBA, CSB |

**Actuary**

1. If there is a desire to issue Mid-Valuation BDLs for a plan, determine whether a group of participants is eligible to receive them. The proposed group generally must meet one of the following sets of criteria:

   **Criteria Set 1:**

   a. There are more than 1,000 participants in the plan.

   b. The proposed group to receive Mid-Valuation BDLs includes more than 500 participants.

   c. The Participant Data Review for the plan or the proposed group is complete.

   d. PBGC is accepting the plan administrator's accrued monthly benefits.

   e. The actuary has determined that none of the benefits of the participants in the proposed group will be affected by any limitations.

   f. There are no outstanding valuation issues in the proposed group or the plan which could affect the benefits of any participants in the group.

   **Criteria Set 2:**

   a. There are more than 1,000 participants in the plan.

   b. The proposed group to receive Mid-Valuation BDLs includes more than 500 participants.

   c. The Participant Data Review for the plan or the proposed group is complete.

   d. The benefits of the participants in the proposed group are not dependent on a 4044 or 4022(c) allocation of plan assets.

   e. The actuary has determined that the application of PBGC limitations to the benefits of the participants in the proposed group is obvious in nature. All limitations have been applied.

   f. There are no outstanding valuation issues in the proposed group or the plan which could affect the benefits of any participant in the group.

   **Criteria Set 3:**

   a. All participants in the proposed group are unaffected by 4044 or 4022(c) asset allocations.

   b. The Participant Data Review for the plan is complete.

   c. Either the final plan asset amount or the SPARR applicable to the plan is unavailable.

   d. Only a few participants' benefits in the plan are affected by the 4044 or 4022(c) asset allocations.

   > **Note** If there is a priority to issue Mid-Valuation BDLs to a group that does not meet any above criteria, management should consult the Chief Valuation Actuary, ASD for guidance.

2. Prepare the *Mid-Valuation BDL Memo* to the Chief Valuation Actuary, ASD.
   - If applying Criteria Set 2, attach the *Case Memo* and *Guidance to the Pension Analyst* sections of the Actuarial Case Report detailing the specific circumstances for the group.
   - If applying Criteria Set 3, attach the *Case Memo* and *Guidance to the Pension Analyst* sections for the plan.
   - Send the memo through Supervisory Actuary, CPB to the Chief Valuation Actuary, ASD for concurrence. Concurrence must be obtained prior to issuing BDLs.

3. Upon concurrence of the Chief Valuation Actuary, image the memorandum with the concurrence signature, and any attachments, to the plan file (see TP 16 Plan and Participant File Maintenance).
4. In order to generate ▸benefit statements and perform benefit recalculations for the proposed group, create the Benefit Statement and Recalculation System (ACT cases).
5. Schedule a meeting with the Case Team members who will participate in issuing BDLs. At the meeting,
   - Define the group of participants to receive Mid-Valuation BDLs.
   - Review the benefit statements with the Case Team.
   - Confirm which data elements are needed to create a ValPatch in order to issue BDLs. (Since the ▸ADT load is not performed at this stage, a ValPatch is used to populate data fields in the BDLs.)
   - Request confirmation from the team that all participants in the group to receive BDLs are loaded into ▸Spectrum.
6. Request that ▸TRMD load the benefit statements into ▸eALG:

   **ACT Cases:** Send an e-mail to TRMD Services with the ▸PBGC Case Number and Plan Name in the subject line, and the following text:

   *The valuation is not yet complete, but we wish to send BDLs to a group of* ***[number]*** *participants. Please generate the benefit statements and load to eALG as soon as possible. Also, please make the benefit recalculation program available to the* ***[name]*** *FBA.*
7. Prepare an Excel spreadsheet listing all participants targeted to receive Mid-Valuation BDLs and the data elements needed to create the ValPatch. Forward the spreadsheet to EBLS who will create the ValPatch request. See TP 55 ValPatch Mailings for more information.
8. Ensure all Case Team members who will issue the BDLs have information needed to issue the BDLs, including:
   - A list of all participants targeted for Mid-Valuation BDLs.
   - Any special circumstances regarding benefit payment and administration for the targeted group. If the *Guidance to the Pension Analyst* and *Case Memo* were prepared, provide them to the Case Team.
   - Specific instructions necessary for providing benefit statements.

**EBLS/PBA/FBA**

9. At this point, ValPatch is used to create these BDL mailings. See TP 55 ValPatch Mailings for the required steps.
10. Once BDLs have been issued to the group, prepare the *Mid-Valuation BDLs Report*, noting any special circumstances, including BDLs that were not issued. Image the report to the plan file.

Top of Page

## 19.8 Maintain BDL Review File for Large Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To sample and review benefit determination letters for large, high-profile, or sensitive plans prior to issuing the letters. |
| **Guidance** | *Plan File Indexing Specification Guide* |
| **Procedure Owner** | FBA Management Team |

This procedure is required if either:

- OBA management identifies the plan as high-profile or sensitive (for example, plans with large numbers of revised BDLs).
- All of the following are true:
  - ▸BDL issuance (except for early BDLs) begins on or after 10/01/2011.
  - The plan has 10,000 or more participants.
  - There are payees with underpayments or overpayments.

For all other plans, this procedure is optional.

1. On receiving BDLs through ▸eALG for approval, use the **Request Preview** function in eALG to display samples of:
   - Each letter group with net underpayments (eALG 402 series).
   - Each letter group with net overpayments (eALG 403 series).
   - If applicable, revised BDLs (eALG 410 series) concerning overpayments or underpayments.

   eALG provides up to five letter samples per request (that is, for each group). For groups of five or fewer, the sample includes all letters in the group.
2. Review each letter in the sample.
   - Document the reviews in the *BDL Review Checklist*.
   - If ▸ADT has not occurred, be especially careful to review for errors such as letters matched with incorrect benefit statements.
3. If any letter in the sample fails an item on the *BDL Review Checklist*, determine whether the error affects other letters in the group (for example, the error is in custom language used in multiple letters):
   - Error affects only sampled letter: Correct the letter.
   - Error affects multiple letters:
     a. Correct all affected letters.
     b. Run another sample for the impacted letter group.
     c. Continue sampling and correcting until a sample shows no errors.
4. Image the following to the plan file in ▸IPS (see *Plan File Indexing Specification Guide)*:
   - Completed *BDL Review Checklists* with attached copies of the letters used in the sample.
   - Evidence (for example, e-mails) of management, ▸PPD, or other office approval of custom language, as applicable.
   - **Q/A Sheets** from eALG and recipient lists for the sampled letter groups.

## 19.9 Resources for Benefit Determination Letters

**09/30/2016**

**Forms, Letters, and Memos:**

- *BDL Review Checklist*
- *Early BDL Review Report*
- *Letter Authorization Checklist*
- *Mid-Valuation BDL Memo*
- *Mid-Valuation BDLs Report*

**Customer Correspondence and Forms:**

- *eALG 406 Limited-Scope BDL*
- *eALG 411 series Revised BDL*
- *Form 701 Payee Information Form (PIF)*
- *Form 720 Application for Lump-Sum Payment*

**Guidance:**

- *Benefit Determination Letter Templates*
- *CMS Job Aids and User Guide*
- *TRMD Service Catalog*
- *Payment Adjustment Calculation System (PACS) Help*
- *Policy 5.4-9 Lump-Sum Benefit Payments*
- *Policy 5.4-10 Small Benefit Payments*
- *Policy 5.8-1 Benefit Corrections*
- *Policy 5.8-2 Limited-Scope Benefit Determinations*
- *Policy 6.3-1 Underpayment Reimbursement and Interest Payments*
- *Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery*
- *Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments*
- *Plan File Indexing Specification Guide*

**Exhibits:**

*None*

# Process 20 Appeals Correspondence

**In this Section**

20. Overview for Appeals Correspondence
20.1 Respond to Acknowledgment of Appeal or Extension Request
20.2 Respond to Appeal Closing Memo
20.3 Respond to Appeals Division Referral
20.4 RFA Correspondence Guidelines and Appeal Criteria
20.5 Act on Notice of Similarly Situated Participants
20.6 Resources for Appeals Correspondence

## 20. Overview for Appeals Correspondence

**07/01/2016**

### Appeals

Individuals may appeal any element of a Benefit Determination Letter (BDL), such as form of benefit, amount, or benefit commencement date. They may also appeal the qualification of a Domestic Relations Order (DRO); however, these procedures deal exclusively with BDLs. An appeal, or a request for an extension of time to file an appeal, generally must be filed within 45 days of the date of the BDL. Guidelines for filing appeals are set forth in the brochure "Your Right to Appeal," which is enclosed with each BDL. Rules governing the agency's review are covered in 29 CFR 4003.

OBA does not implement changes to estimated benefits which would result solely from the BDL during the 45-day appeal period following the date of the BDL. If an appeal or an extension request is received, the 45-day clock stops and the benefit determination is stayed. In general, once an appeal is filed, OBA does not implement any decreases to the benefit of a participant (or any party related by a QDRO) which would result from the BDL until the Appeals Division images the correspondence and notifies OBA through CRM. OBA should continue routine processing, including putting an eligible participant into estimated pay status, ending certain period benefits upon expiration, and implementing step-up and step-down provisions in a plan. The Appeals Board or Appeals Division staff researches and makes final decisions on appeals. OBA must implement an Appeals Board decision within 30 days of the decision. Any questions on appeal decisions are referred to the appropriate OBA manager or to the Appeals Division.

### Correspondence Referred from the Appeals Division

The Appeals Division refers certain appeals correspondence to other areas in PBGC for response. OBA receives the most referrals, but some are sent to OGC, CPAD, the Problem Resolution Office (PRO) or within the Appeals Division. The Appeals Division refers to OBA items such as complaints, requests for explanations, or challenges of facts used in benefit calculations (for example, an incorrect Date of Birth). Such correspondence, known as Referred From Appeals (RFA) correspondence, is imaged by the Appeals Division, and OBA is notified by CRM that the letter is in IPS. The BDL of the appellant (and any party related by a QDRO) is stayed while the referral is open. OBA should respond to referrals it receives as soon as possible, but target the response for no more than 45 days from the date opened in CRM. In certain cases, with TPD management's approval, OBA may return the correspondence to the Appeals Division for processing.

PBGC's response to appeals and inquiries, and the seriousness with which they are viewed, reflect the Corporation's desire to provide complete and accurate decisions and the best service to the participants whom we serve. The Corporation wants to ensure that we provide participants with whatever benefits they are entitled to under their respective plans and by law. A person first must appeal, in order to subsequently seek court review of a PBGC Benefit Determination Letter.

## 20.1 Respond to Acknowledgment of Appeal or Extension Request

**07/01/2016**

| | |
|---|---|
| **Purpose** | To ensure that ▸OBA handles pending appeals properly and that participants are given their due process. |
| **Guidance** | Policy 5.8-1 Benefit Corrections |
| **Procedure Owner** | EBLS/PBA/FBA |

The ▸Appeals Division intake staff images all appeals correspondence to ▸IPS. If an original appeal letter is received in ▸PSD, immediately walk the original, including the envelope, to the Appeals Division for imaging. If received at an ▸FBA office, forward the letter to the Appeals Division via interoffice correspondence. Also, if a letter in ▸PBGC Image Viewer appears to be an appeal but is not acknowledged as such by the Appeals Division, notify the Appeals Division immediately by e-mail.

Optional PBGC *Form 723 Request for Additional Time to File an Appeal of a PBGC Benefit Determination* and *Form 724 Appeal of a PBGC Benefit Determination* are available from the PBGC Web site or from the Appeals Division, ▸OGC. Forward any questions regarding these forms to the Appeals Division.

1. Receive notification of the appeal filing or extension request through ▸CRM when the Appeals Division issues an acknowledgment memo. Follow any instructions from the Appeals Division contained in the memo. **If the filing concerns a Recovery BDL** (eALG 403RNE, 403L, or 403LRNE), notify the ▸BPD Benefit Recovery Coordinator by e-mail to the Recovery mailbox. Reference the ▸PBGC case number, SSN and recovery tracking number. Take no action on the recovery until the appeal is closed.
2. Stay the ▸Benefit Determination Letter. If the participant is in pay status, leave the current payment as previously estimated and in the estimated pay source in Spectrum while the appeal or extension request is pending. Do not implement reductions to a participant's benefit based on the BDL. However, if the BDL increases a benefit, implement the ▸benefit increase and initiate back payments (see Policy 5.8-1 Benefit Corrections).

   Examples of actions that **may be taken** while an appeal or extension request is pending:

   - Processing annuity benefit increases and back payments based on the BDL
   - Beginning estimated annuities, including backpayments to ARD
   - Paying BDL lump sums as estimated payments
   - Ending a Certain & Continuous Annuity benefit to a beneficiary upon its expiration
   - Implementing Step-up and Step-down provisions in a plan
   - Performing administrative changes, such as updating EDD information, addresses, federal income tax withholding, etc.

   > **Note** New annuities, annuity benefit increases, lump sums and back payment amounts that are processed while an appeal is pending are to be based on the most recent BDL, not on a previous BDL the customer may have received. For example, if the customer's most recent BDL is a Revised BDL, the benefit amount would be based on the Revised BDL.

   Examples of actions that **should not be taken** while an appeal or extension request is pending **unless** approved by PSD management:

   - Adjusting benefits down based on the BDL
   - Initiating ▸recoupment or ▸recovery
   - Moving payments from estimated to final ▸pay sources in ▸Spectrum

   > **Note** Discuss any questions concerning the appropriateness of a payment action with ▸CSD management before acting.

3. If the appeal was filed by a party to a ▸Qualified Domestic Relations Order (QDRO),
   - Stay the BDL of both the appellant and of the related party(-ies) to the QDRO while the appeal is open, since the appeal decision may change both benefits; and

- Notify the related party(-ies) who did **not** appeal by *eALG 615 QDRO - Stay of BDL (Appeals)*. (See also TP 13 Domestic Relations Orders and State Agency Orders.)

4. If any benefit decreases have already been implemented, restore the benefit to the estimated pay amount in Spectrum for the next check cycle. See TP 21 Change Benefit/Payment Amount. (However, do not change it from the guaranteed pay source back to the estimated pay source; use the next available pay source only. Reverting to a previous pay source may cause duplicate payments.) If necessary, issue a special check to restore any downward adjustments. Inform the participant of any necessary adjustments by telephone or letter, and document all communications in ▸CRM and/or ▸IPS.
5. Notify the Appeals Division by e-mail of any payment actions taken and appeal-related communications with the participant while the appeal or extension period is pending. Record all participant contacts in CRM and/or IPS. Also document all e-mails to/from the Appeals Division in IPS.
6. Take next action upon notification that the appeal is closed (see Process 20.2 Respond to Appeal Closing Memo) or has been referred to PSD for response (see Process 20.3 Respond to Appeals Division Referral).

Top of Page

## 20.2 Respond to Appeal Closing Memo

**07/01/2016**

| | |
|---|---|
| **Purpose** | To take actions as directed by the Appeals Division in response to an appeal. |
| **Required Input and Source** | Memo from the Appeals Division (through ▸CRM service request) directing ▸PSD to take specific action on a participant's benefit determination as a result of the appeal decision. |
| **Output and Recipient** | As needed:<br>• ▸Revised BDL (eALG 411 series)<br>• Adjustment to payee's benefit<br>• Spectrum Updates |
| **Control Issues** | N/A |
| **Important Concepts** | Occasionally, the Appeals Division will direct PSD to issue a new ▸BDL rather than a Revised BDL. This occurs when the participant appeals an issue that is not addressed in the original BDL - for example, a disability benefit which the first BDL did not take into account. Contact the Appeals Division with any questions about implementing an Appeals Board decision.<br>Whenever issuing any type of BDL, the participant has 45 days to appeal. Be aware that appeals correspondence is timely if postmarked within 45 days, so allow time for late correspondence to be received and appear in IPS.<br>**Timing:** Implement the Appeals Division's decision within 30 days. |
| **Guidance** | 29 CFR 4003<br>Policy Bulletin 03-2 Effect of Appeals on De Minimis Recoupment and Recovery Amounts |
| **Procedure Owner** | EBLS/PBA/FBA |

1. Receive the appeal closing memo from the ▸Appeals Division (through CRM service request) advising that the appeal is closed and of what actions to take to implement the decision. Note that the Appeals Board's decisions are final. Do not issue a new or Revised BDL unless so directed by the closing memo, since the appellant is not entitled to appeal the decision. Contact the Appeals Division with any questions about the instructions. **If the appeal was filed by a party to a QDRO**, see the ▸Qualified Domestic Relations Order section at the end of this procedure for required actions concerning the related ▸QDRO party(ies) who did not appeal. **If the appeal concerned a Recovery BDL**, notify the Benefit Recovery Coordinator by e-mail of the closing, decision, and what actions will be taken based on the following steps. Use the Recovery mailbox and reference the participant's name, SSN, and recovery tracking number.
2. If the appeal is denied, dismissed, or administratively closed, implement the BDL according to pay status:
   - **Non-Payees**: Normally, no further action is necessary; however, take any actions directed by the appeal closing memo.
   - **Payees**: Take the following actions, as applicable, so they are effective in Spectrum within 90 days of the date of the appeal closing memo:
     - Move final pay amounts to final pay sources.
     - Initiate recovery or recoupment (see TP 6 Recover Overpayments or TP 7 Recoupment and Administrative Correction).
     - Initiate backpayments and other necessary adjustments.

     **Note** A ▸de minimus overpayment is written off at the time the BDL is issued. However, because payments continue without adjustment while an appeal is pending, the overpayment may increase to an amount greater than the de minimis by the time

the appeal is resolved. In this situation, the de minimis overpayment amount noted in the BDL is frozen while the appeal is pending. PBGC will not seek repayment of an overpayment which grew to an amount greater than the de minimis amount solely because of payments made while the appeal was pending. (See Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery and Policy Bulletin 03-2 Effect of Appeals on De Minimis Recoupment and Recovery Amounts.)

3. If the Appeals Board decision changes the benefit, take action as directed by the appeal closing memo within 30 days. **Do not issue a Revised BDL unless the appeal closing memo specifically directs such action**.

   Initiate the decision of the appeal closing memo as soon as possible to meet the next pay cycle and without regard to providing minimal advance notice to the payee, which does not apply to this situation.

4. If the appeal closing memo directs that a Revised BDL be sent to the participant, take action based on the participant's pay status:
   - **Non-Payees**: Issue a Revised BDL with a new ▸benefit statement. Customize the letter as appropriate. If necessary, request the new benefit statement from the case actuary. Be aware that the issuance of a Revised BDL starts another 45-day appeal period for matters addressed in that BDL. Therefore, if the participant elects to go into pay status during the appeal period, use the estimated pay source in Spectrum until after the appeal period has expired.
   - **Payees**: Issue a Revised BDL with a new benefit statement. Customize the letter as appropriate. If necessary, request the new benefit statement from the case actuary. Be aware that the issuance of a Revised BDL starts another 45-day appeal period for matters addressed in that BDL. Make no benefit changes until after the appeal period has expired.
5. If the appeal closing memo directs that a new (not Revised) BDL be issued, follow the directions in the appeal closing memo and contact the Appeals Division with any questions. Make no benefit changes until after the new appeal period has expired. Be aware that appeals correspondence that is received after the 45th day can still be timely if postmarked within 45 days, so allow time for late correspondence to appear in ▸PBGC Image Viewer.
6. Once 45 days have passed since the Revised or new BDL was issued, view the participant's file in Image Viewer to determine whether a subsequent appeal or extension request has been filed. (Be aware that appeals correspondence that is received after the 45th day can still be timely if postmarked within 45 days, so allow time for late correspondence to appear in Image Viewer.) If a new appeal has not been filed, make any changes to the participant's benefit required by the Revised or new BDL (see TP 21 Change Benefit/Payment Amount). If an appeal has been filed, treat it as a new appeal (see Process 20.1 Respond to Acknowledgement of Appeal or Extension Request).

**Qualified Domestic Relations Order (QDRO)**

If the appeal was filed by a party to a QDRO, the Appeals Board's decision may change the benefit of the appellant and/or other party(ies) to the QDRO. Use the following instructions concerning the party(ies) who did not file the appeal. (If more than one party to the QDRO appeals, take no action on the benefit of any party until all appeals are closed.)

1. If the Appeals Board's decision does not change the benefit of the party who did not file the appeal:
   - Issue eALG 616 QDRO - No Benefit Change (Appeals).
   - Implement the ▸Benefit Determination Letter within 30 days.
2. If the Appeals Board's decision changes the benefit of the party who did not appeal:
   - Issue a Revised BDL. See Process 19.5 Issue Revised Benefit Determination Letter.

**Note** When corresponding with a customer who is a party to a QDRO, do not reveal any sensitive information concerning the other party(ies) or provide copies of their correspondence. See TP 13 Domestic Relations Orders and State Agency Orders for more information.

Top of Page

## 20.3 Respond to Appeals Division Referral

**07/01/2016**

| | |
|---|---|
| **Purpose** | To assure that correspondence referred from the Appeals Division is handled properly and in a timely manner. |
| **Required Input and Source** | Notification from the Appeals Division (through ▶CRM) that correspondence has been received from a participant and referred to ▶PSD or another area for processing. |
| **Output and Recipient** | As needed:<br>• Stay of ▶BDL<br>• Response to the customer/representative allowing additional time to appeal<br>• E-mail notification to the Appeals Division that the correspondence is closed<br>• ▶Revised BDL (eALG 411 series)<br>• Notice to participant's representative of response to participant |
| **Control Issues** | The Appeals Division sends an acknowledgment letter to participants for any correspondence received in the Appeals Division and advises PSD of all appeals correspondence through CRM (coded AP). If the Appeals Division decides to refer the correspondence to PSD, it then appears as RFA (Referred From Appeals) correspondence in CRM.<br><br>Communications with the Appeals Division and other staff concerning actions taken in response to an Appeals Division referral must be documented in the participant's IPS file. Be aware that appeals correspondence that is received after the appeals period expires is timely if postmarked within the period, so allow time for late correspondence to appear in PBGC Image Viewer.<br><br>eALG letters 410, 532, 533, and 534 require the review and signature of the Employee Benefits Supervisor, CSB. eALG authorizers approve all letters. |
| **Important Concepts** | The Appeals Division may refer correspondence to PSD, OGC, PRO, or within the Appeals Division itself. Make no changes to benefits, which would result solely from the BDL, while **any** correspondence referred from the Appeals Division is open. If a referral does not come to PSD, stay the BDL until the Appeals Division advises through CRM that it is closed and what action to take. Notify the PSD Benefit Recovery Coordinator of referrals concerning recovery BDLs, including hardship cases, so that no recovery actions will occur when the appeal period is extended. Responses to letters requesting hardship consideration require specific language.<br><br>eALG 532- and 533-series letters grant an additional 45 days to appeal a BDL; Revised BDL begins a new 45-day appeal period. Be aware that appeals correspondence that is received after the appeals period expires is timely if postmarked within the period, so allow time for late correspondence to appear in PBGC Image Viewer.<br><br>**Timing:** Respond to RFA correspondence as early as possible, but target the response for no more than 45 days from date received per CRM report. |
| **Guidance** | eALG Correspondence Help |
| **Procedure Owner** | Employee Benefits Supervisor, CSB; Project Manager; EBLS; PBA; FBA |

1. The PSD mail point of contact for the case (designated in ▸CMS) is notified of any appeal-related correspondence received in the ▸Appeals Division by the code AP on the CRM report. When such correspondence is received, stay the BDL until further instructions are received from the Appeals Division. If the Appeals Division refers the correspondence to PSD, it will appear a second time on CRM, but coded as type ▸RFA (Referred From Appeals) correspondence.

   If the correspondence does not appear as RFA, it has either been referred to another area or kept in the Appeals Division. Take no action on the correspondence and stay the BDL until further instructions are received from the Appeals Division (see Process 20.1 Respond to Acknowledgement of Appeal or Extension Request).

   **If the correspondence concerns a Recovery BDL** (eALG 403RNE, 403L or 403LRNE), notify the ▸BPD Benefit Recovery Coordinator of the referred correspondence. Use the Recovery mailbox and reference the participant's name, SSN and recovery tracking number. Take no action on the recovery until the correspondence is closed.

   - If the correspondence requests hardship consideration but raises no other issues, advise the Benefit Recovery Coordinator by e-mail to the Recovery mailbox. The Appeals Division will have notified the participant that hardship is not an appealable issue and that the matter has been referred to the Benefit Recovery Coordinator, but the mail POC for the case must inform the Benefit Recovery Coordinator. Take no further action; the Benefit Recovery Coordinator will respond to the letter.
   - If the correspondence requests hardship consideration and also raises other issues (for example, request for explanation or challenge of fact), see Step 7.

2. Research the issues and obtain input from the Employee Benefits Supervisor, ▸CSB, as needed. Determine whether:
   - The referred correspondence concerns an issue which may be addressed by PSD (continue to Step 3); or
   - The referred correspondence concerns issues that should be addressed by the Appeals Division (skip to Step 6).

   See Process 20.4 RFA Correspondence Guidelines and Appeal Criteria for guidance on making this determination. Note that some referrals from the Appeals Division, which meet appeal criteria, can be addressed by PSD.

3. Research the situation and respond to the participant and/or representative as early as possible, but target the response for no more than 45 days from the date opened in CRM. Use the appropriate ▸eALG letter(s) listed in this step. Note that each requires the signature of an Employee Benefits Supervisor, CSB or ▸FBA Project Manager.

   If there has been no correspondence within 45 days of the date opened in CRM, use the *eALG Generic Letter* to send a status update or call the participant and/or representative. Document the call in CRM. Continue to follow up as needed.

   - **QDROs:** If the appellant is a party to a QDRO, see the ▸Qualified Domestic Relations Order section at the end of this procedure for instructions concerning the related party(ies) who did **not** appeal.
   - **Limited-Scope BDLs:** Use the letters in the special instructions at the end of this procedure if the RFA correspondence concerns a ▸Limited-Scope BDL.

   **eALG 411: Revised Benefit Determination Letter**

   - Advises participant that a review of the case resulted in a change in the benefit determination
   - Grants the participant a new 45-day appeal period.
   - Attach a new ▸benefit statement and image a copy to the participant's ▸IPS file.
   - Address this letter only to the participant—not to a representative. If applicable, advise the participant's representative of the response using eALG 534.

   **eALG 532: Response to Representative of Appellant - Referral from Appeals Dept.**

   - Advises participant's representative that a review of the case resulted in no change to the benefit determination.
   - Grants the participant an additional 45 days to file an appeal.

   **eALG 533: Response to Appellant - Referral from Appeals Dept.**

   - Advises participant that a review of the case resulted in no change to the benefit determination
   - Grants the participant an additional 45 days to file an appeal.

   **eALG 534: Notification Letter to Representative of Appellant**

   - Advises the participant's representative that a review of the case resulted in a changed benefit determination, and that the response was sent directly to the participant. See eALG 410.

4. On the day of the response to the participant, close the RFA correspondence in CRM. Also advise the Appeals Division by email to AppealsIntake@pbgc.gov (and cc the Employee Benefits Supervisor, CSB) including the

participant's name and SSN; which eALG letter was sent and the date; and one of the following statements:

- **RFA Did Not Result in a Change in Benefit.**
- **RFA Resulted in an Increase in Benefit.**
- **RFA Resulted in a Decrease in Benefit.**

Image the e-mail to the participant's ▸IPS file.

5. Once the new or extended period to file an appeal has expired (per eALG letter sent in Step 3), check ▸PBGC Image Viewer and act according to whether a new appeal has been filed. Be aware that appeals correspondence is timely if postmarked within 45 days, so allow time for late correspondence to be received and appear in PBGC Image Viewer.
   - If a new appeal has not been filed, make any necessary adjustments to the benefit and move it to the final pay source in Spectrum.
   - If a new appeal has been filed, stay the benefit determination and await instructions from the Appeals Division. See Process Process 20.1 Respond to Acknowledgment of Appeal or Extension Request.
   - If the correspondence concerned a Recovery BDL (eALG 403RNE, 403L or 403LRNE), notify the PSD Benefit Recovery Coordinator that the correspondence is closed, the nature of the response and what actions will be taken on the recovery. Use the Recovery mailbox and reference the participant's name, SSN and recovery tracking number.
6. If the Employee Benefits Supervisor, CSB agrees that the referred correspondence concerns an issue that should be addressed by the Appeals Division and should be returned for processing:
   - Send an e-mail to the Appeals Division (AppealsIntake@pbgc.gov), with cc to the Employee Benefits Supervisor, CSB, stating the reasons the correspondence is being referred back for processing. Reference any documents in the IPS plan and/or participant files used to make that determination. Image the e-mail, response and any follow-up e-mails to the participant's IPS file.
   - Enter the date referred to the Appeals Division as the correspondence closing date in CRM.
   - Stay the BDL and await further instructions from the Appeals Division.
7. If the correspondence not only requests hardship consideration but also raises other issues that must be addressed (for example, request for explanation, challenge of fact, etc.), the Appeals Division will refer the correspondence to PSD but will not notify the participant that the matter has been referred to the Benefit Recovery Coordinator. Treat the letter as a referral (see steps 2-6), but include the following language in the response:

   "While we are sympathetic to your situation, hardship is not a basis for appeal. PBGC regulations require that PBGC get back any amounts paid to individuals that exceed the amounts they are entitled to, and the Appeals Board cannot change this requirement. However, PBGC has recently changed its policy on recovering overpayments and will consider demonstrated financial hardship in certain situations. We will send a copy of this letter to PBGC's Benefit Recovery Coordinator, who will contact you concerning the Financial Statement of Debtor form that must be completed by the debtor alleging hardship."

   On the same day the response is issued, inform the BPD Benefit Recovery Coordinator by e-mail to the Recovery mailbox.

**Qualified Domestic Relations Orders (QDRO)**

If the appellant is a party to a ▸QDRO, it is necessary to notify the related parties of the status of the appeal and its effect on their own benefits. This depends on the response provided the appellant, and whether the appellant files a second appeal during the extended appeal period. Use the following instructions to determine what response to provide the related parties, and when.

1. If a **Revised BDL** is issued to the appellant, and:
   - **The benefit of the related party also changes:** Issue a Revised BDL to the related party at the same time as to the appellant. See Process 19.5 Issue Revised Benefit Determination Letter.
   - **The benefit of the related party does not change:** Wait until the 45-day appeal period expires. If the appellant does not file a second appeal and the Revised BDL becomes final, issue **eALG 616 QDRO - No Benefit Change (Appeals)** to the related party. Implement the BDL of each party within 30 days. However, if the appellant files a second appeal, continue to stay the BDL of each party to the QDRO (but do not issue a second **eALG 615 QDRO - Stay of BDL (Appeals)** to the party that did not appeal).
2. If **eALG 532/533** is issued to the appellant or his/her representative, wait until the 45-day extended appeal period has expired, then:
   - If the appellant does not file a second appeal, issue **eALG 616 QDRO - No Benefit Change (Appeals)** to the

related party and implement the BDL within 30 days.

- If the appellant files a second appeal, continue to stay the BDL of each party to the QDRO (but do not issue a second **eALG 615 QDRO - Stay of BDL (Appeals)** to the party that did not appeal).

**Limited-Scope BDLs**

Use the appropriate eALG letter(s) from the following list to respond to RFA correspondence concerning Limited-Scope BDLs, and return to the action steps to close it and advise the Appeals Division. Each requires the signature of an Employee Benefits Supervisor, CSB.

**410LtdS Corrected Limited-Scope BDL**

- Advises that a review of the case resulted in a change in the Limited-Scope benefit determination.
- Grants the participant a new 45-day appeal period.
- Address the letter only to the participant—not a representative. If applicable, advise representative via eALG letter 534 (see below).

**532LtdS Response to Representative of Appellant - RFA - Limited-Scope**

- Advises appellant's representative that the review resulted in no change to the determination
- Grants the participant an additional 45 days to file an appeal.

**533LtdS Response to Appellant - RFA - Limited-Scope**

- Advises appellant that the review resulted in no change to the benefit determination
- Grants the participant an additional 45 days to appeal.

**eALG 534: Notification Letter to Representative of Appellant**

- Advises appellant's representative that the review resulted in a change to the determination, and the response was sent directly to the participant.

## 20.4 RFA Correspondence Guidelines and Appeal Criteria

**07/01/2016**

### A. Referred from Appeals (RFA) Correspondence

If the ▸Appeals Division Intake Staff determines that the correspondence concerns an issue that can be addressed by ▸PSD, they refer it to PSD as RFA (Referred from Appeals) correspondence. The following are examples:

- Requests for explanations
- Non-specific complaints
- Easily verifiable and resolvable issues
- Disputes of fact regarding any of the following:
  - Date of hire
  - Gender
  - Marital status
  - Date of retirement
  - Date of termination
  - Social security number
  - Salary
  - Length of service
  - Date of birth
  - Date of plan termination
  - Benefit election
  - Vesting

### B. Appeal Criteria

The following are examples of issues that meet Appeal Criteria and are typically addressed by the Appeals Division, but can also be addressed by ▸PSD, if referred:

- Plan interpretation
- Plan practice
- Eligibility for benefits
- Legal and policy issues
- Employer appeals (for example, employer liability)
- Successor plans
- Novel or complex issues
- Precedent-setting cases (for example, issues that could affect some or all plan participants)
- Disability cases
- Controversial issues (material to PBGC, monetary issues, etc.)
- Cases referred to PSD and not resolved
- ▸QDROs
- Unspecified issues

Top of Page

## 20.4 RFA Correspondence Guidelines and Appeal Criteria

**07/01/2016**

### A. Referred from Appeals (RFA) Correspondence

If the ▸Appeals Division Intake Staff determines that the correspondence concerns an issue that can be addressed by ▸PSD, they refer it to PSD as RFA (Referred from Appeals) correspondence. The following are examples:

- Requests for explanations
- Non-specific complaints
- Easily verifiable and resolvable issues
- Disputes of fact regarding any of the following:
  - Date of hire
  - Gender
  - Marital status
  - Date of retirement
  - Date of termination
  - Social security number
  - Salary
  - Length of service
  - Date of birth
  - Date of plan termination
  - Benefit election
  - Vesting

### B. Appeal Criteria

The following are examples of issues that meet Appeal Criteria and are typically addressed by the Appeals Division, but can also be addressed by ▸PSD, if referred:

- Plan interpretation
- Plan practice
- Eligibility for benefits
- Legal and policy issues
- Employer appeals (for example, employer liability)
- Successor plans
- Novel or complex issues
- Precedent-setting cases (for example, issues that could affect some or all plan participants)
- Disability cases
- Controversial issues (material to PBGC, monetary issues, etc.)
- Cases referred to PSD and not resolved
- ▸QDROs
- Unspecified issues

Top of Page

## 20.4 RFA Correspondence Guidelines and Appeal Criteria

**07/01/2016**

### A. Referred from Appeals (RFA) Correspondence

If the ▸Appeals Division Intake Staff determines that the correspondence concerns an issue that can be addressed by ▸PSD, they refer it to PSD as RFA (Referred from Appeals) correspondence. The following are examples:

- Requests for explanations
- Non-specific complaints
- Easily verifiable and resolvable issues
- Disputes of fact regarding any of the following:
  - Date of hire
  - Gender
  - Marital status
  - Date of retirement
  - Date of termination
  - Social security number
  - Salary
  - Length of service
  - Date of birth
  - Date of plan termination
  - Benefit election
  - Vesting

### B. Appeal Criteria

The following are examples of issues that meet Appeal Criteria and are typically addressed by the Appeals Division, but can also be addressed by ▸PSD, if referred:

- Plan interpretation
- Plan practice
- Eligibility for benefits
- Legal and policy issues
- Employer appeals (for example, employer liability)
- Successor plans
- Novel or complex issues
- Precedent-setting cases (for example, issues that could affect some or all plan participants)
- Disability cases
- Controversial issues (material to PBGC, monetary issues, etc.)
- Cases referred to PSD and not resolved
- ▸QDROs
- Unspecified issues

## 20.5 Act on Notice of Similarly Situated Participants

**07/01/2016**

| | |
|---|---|
| **Purpose** | To respond to a memorandum from the Appeals Division indicating a plan has or may have similarly situated participants. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/PBA/FBA/Case Management Analyst, CMD |

Take the following actions upon receipt of a memo from the ▸Appeals Division indicating that a plan may have similarly situated participants.

1. Review the plan to determine which other participants, if any, are affected by the appeal decision. Consult with the assigned actuary and auditor, as needed. Note that some participants may have already appealed on the same issue and their cases are being handled separately.
2. Prepare the *Similarly Situated Participants Memo* to document actions taken and/or to be taken. Obtain management concurrence.
3. Image the completed memo and any supporting documentation to the appeals section of the plan file (see *Plan File Indexing Specification Guide*). Also image the memo from the Appeals Division if not already in the file.
4. Take corrective actions, including issuing ▸Revised BDLs (eALG 411 series) to change the determinations of affected participants, as needed. See Process 19.5 Issue Revised Benefit Determination Letter.

## 20.6 Resources for Appeals Correspondence

**09/30/2016**

**Forms, Letters, and Memos:**

*Similarly Situated Participants Memo*

**Customer Correspondence and Forms:**

- *eALG 410 series Corrected BDL*
- *eALG 410LtdS Corrected Limited-Scope BDL*
- *eALG 411 series Revised BDL*
- *eALG 532 Response to Representative of Appellant - Referral from Appeals Dept.*
- *eALG 532LtdS Response to Representative of Appellant - RFA - Limited-Scope*
- *eALG 533 Response to Appellant - Referral from Appeals Dept.*
- *eALG 533LtdS Response to Appellant - RFA - Limited-Scope*
- *eALG 534 Notification Letter to Representative of Appellant*
- *eALG 615 QDRO - Stay of BDL (Appeals)*
- *eALG 616 No Benefit Change (Appeals)*

**Guidance:**

- *29 CFR 4003*
- *Policy 5.8-1 Benefit Corrections*
- *Policy Bulletin 03-2 Effect of Appeals on De Minimis Recoupment and Recovery Amounts*

**Exhibits:**

*None*

*Top of Page*

**08/30/2011**

The case closure processes are basically a review to ensure that all required actions for a plan have been completed according to relevant policy and procedures. This is the opportunity to find and correct any errors. The last step in the process is for ▶OBA to transfer ongoing administrative management of benefits to an outside contractor. These outside contractors continue the administration of benefits under PBGC policies and procedures.

**In this Section**

Process 21 Plan Closing

21.8 Correct IPVFB Critical Errors
21.9 Assemble and Submit Plan Completion Memo
21.10 Resources for Plan Closing

## 21. Overview for Plan Closing

**07/01/2016**

The objective of the plan closing process is to assure that for each ▸plan proposed for transfer to Post-Valuation Administration (▸PVA):

- All ▸CMS Processing Milestones have been finalized.
- All correctible errors identified in the Plan Closing and ▸IPVFB Error Reports have been addressed.
- All issuable Benefit Determination Letters (▸BDL) have been correctly issued to locatable customers, and at least 90 days (45 days for plans with 100 or fewer ▸participants) have elapsed since the last BDL was issued.
- Participant ▸SSNs, counts, and present values have been reconciled across ▸Genesis and the actuarial database.
- All participants identified in the valuation database, or later as Woodwork participants, are correctly entered in ▸Spectrum.
- Benefits have been finalized in Spectrum.
- Plan and participant files in ▸PBGC Image Viewer are complete, and plan files are properly indexed.

The listed closure processes are completed prior to forwarding the plan to ▸CSD, who in turn forwards the case to a PVA for review.

Cases administered at Headquarters are closed by the ▸EBLS. Cases administered primarily at a Field Benefit Administrator (▸FBA) are closed by the FBA case team members, with support and guidance from the ▸CSB. The CSB EBLS is available to provide technical advice, if needed.

## 21.1 Correct Plan Closing Report Errors

**07/01/2016**

| | |
|---|---|
| **Purpose** | Correct errors identified in Plan Closing Report. |
| **Guidance** | *Plan Closing Report: User Guide* |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

1. Request the **Plan Closing Report** (see the TRMD Service Catalog). In the subject line, include the 8-digit PBGC case number and the text "Request for Plan Closing Report". If there are many valuation database files for the ▸plan in the archives, indicate which should be used.
2. When TRMD Services responds with a link to the folder with the **Plan Closing Report** files, copy these files to a spreadsheet and save in a personal or shared directory. (Saving to a spreadsheet allows for greater manipulation of the data than an html file. See the *Plan Closing Report: User Guide* for more information.) Follow these steps to request any new (updated) reports as needed during the plan closing process.
3. Review the **Errors Only** Section of the **Plan Closing Report** to identify specifics for each error. (Errors are those with an edit number of 500 or less.)
4. Research the error, using (as applicable) ▸Spectrum and the ▸PBGC Image Viewer ▸participant file to determine corrective action.
5. Correct any errors that can be corrected. If sufficient data is not available, use the *Plan Completion Memo* to describe attempts to locate data. Make sure the following fields are complete, when relevant: ▸SSN; ▸DOH; ▸DOTE; ▸PV; ▸BDL Date; Participant Name; Participant Sex; Status; ▸DOB; ▸DOD; Actual Benefit Form; Spouse SSN; SDOB; and Actual Retirement Date (▸ARD).
6. If any errors cannot be corrected, contact TRMD Services for assistance.
7. Request a new Plan Closing Report to verify the corrections.
8. After correcting all possible errors, complete the *Plan Completion Memo*, **Section II. Database Reconciliation, D. Other Spectrum Data Exceptions.** Reference the **Plan Closing Report** and list any errors that cannot be resolved and the reason.
9. Complete *Plan Completion Memo*, **Section IV. Instructions to Post-Valuation Administrator, A. Participant Issues**. Address participant issues, including unlocated participants, unpaid lump sums and their status (unlocatable, application not received, etc.), and separated vested participants, and describe any special circumstances, such as ▸payees receiving disability or disability-based ▸benefits. List any participants with pending appeals or appeal referrals (▸RFA correspondence). Also, list participants whose applications have been received, but who are not yet in pay status. List any pending recoveries of benefit overpayments that have not yet been referred to ▸BPD.

## 21.2 Check Participant BDL Status

**03/27/2014**

| | |
|---|---|
| **Purpose** | Ensure that all participants who can receive a BDL have been issued a correct one, and that reasonable attempts to locate other participants were made and documented. |
| **Guidance** | *Plan Closing Report: User Guide* |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

1. Check that all issuable ▸BDLs have been issued, and at least 90 days (45 days for plans with 100 or fewer ▸participants) have elapsed since the last BDL was issued. Issue any BDLs that have not yet been sent (see Process 19 Benefit Determination Letters).
2. Ensure that the BDLs that have been issued are correct by sampling BDLs issued to the different participant types (retirees, active vested, active non-vested, and ▸terminated vested).
3. For unlocatable participants, ensure a locator has been completed and an attempt to locate at the latest address within the last six months is documented in the participant's file. See TP 4 Participant Addresses and EDD Elections.
4. Refer to the **Errors Only** section of the **Plan Closing Report** and correct any level 5 BDL edits.
5. After making all corrections, request a new Plan Closing Report.
6. Complete *Plan Completion Memo*, **Section IV. Instructions to Post-Valuation Administrator, B. BDL Status**. List unissued BDLs and the reasons the BDLs cannot be issued (unlocatable, etc.).

## 21.3 Reconcile Participant Counts and Present Values

**07/01/2016**

| | |
|---|---|
| **Purpose** | Ensure that every participant identified in the valuation database is in Spectrum, and present values of liabilities balance to CMS total liability. |
| **Guidance** | *Plan Closing Report: User Guide*<br>*Spectrum User Manual* |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

The **Plan Closing Report** assists in reconciling information among ▸Spectrum, CMS, and the valuation database by comparing the data among the systems and indicates imbalances in plan-level liability, participant-level liability, and participant counts.

Depending on the nature of each reconciliation comparison, the **Plan Closing Report** displays the results in the **Case Summary**, **All Edits**, **Errors Only**, and the **Participant Count Reconciliation Reports** sections. Each of the aforementioned reports addresses the reconciliation with a certain level of specificity, and, therefore, should be approached in a logical order, as the following procedure indicates.

1. Use the information contained in the **Case Summary** section as the starting point when reconciling the payment and valuation databases. Each comparison provides a scope of the discrepancies involved and directs users to the appropriate report that contains the detailed information. Use the **Case Summary** section information to:
   - Identify population issues. By examining the participant totals for each role in the various valuation databases, the user can quickly spot any population issues. When used in conjunction with the total for participants matched to the payment database the user can quickly determine if the payment database is missing participants from the valuation. If participants are missing, the user should proceed to the **Participant Count Reconciliation** section where participants in one database but not the other are itemized for convenience, see step 4.
   - Resolve population issues that can affect the comparison of individual pieces of data (such as present values) between the payment and valuation databases. Users should correct population issues first and request a new **Plan Closing Report** before addressing the present value totals comparison in the **Case Summary** section.
2. Verify in the **Case Summary** section termination present values or lump sum discriminator present values match among the various systems. The present value totals indicate differences in liability between the payment database, CMS, and the valuation. In regards to reconciling the valuation with the payment database these totals inform the user if there are participants in the payment database who have "termination present values" or "lump sum discriminator present values," which are different that those in the valuation:
   - Verify that the termination present values from CMS matches the valuation database. If these numbers do not match, it usually means that the ▸TRMD did not archive the final valuation database. If this is the case, contact TRMD for assistance in locating the correct final valuation database.
   - Verify that the lump sum discriminator present value from the valuation database matches Spectrum. If these numbers do not match, there will be corresponding level 13 PV edits that point to the discrepancies.

     If a difference is apparent, proceed to the **All Edits** and/or the **Errors Only** sections to analyze the listings of individual participants with present value discrepancies, see step 3.
3. Resolve as many errors as possible listed in the **All Edits** and/or **Errors Only** sections of the **Plan Closing Report**. Reference the *Plan Closing Report: User Guide* for definitions of the errors.
4. Locate the following reports in the **Participant Count Reconciliation** section to reconcile participant counts:
   - **PRISM to Valuation Reconciliation Report**: Compares population databases (▸Genesis and valuation database). In addition, the report contains present values from Genesis for every customer in the case and can be useful when attempting to fix errors related to level 13 PV edits in the **Errors Only** and **All Edits** sections.
   - **Valuation to PRISM Reconciliation Report**: Contains a list of all participants in the plan from the valuation and a description of what they are in the payment database. The report contains present values from the valuation database, also useful when attempting to fix errors related to level 13 PV edits.
     - In the **Valuation to PRISM Reconciliation Report**'s Notes column, the text "Not in PRISM" indicates that the participant's SSN in the valuation does not match anyone in Genesis. This usually means that the SSN in

Genesis is different than in the valuation, but it is also possible that the participant was never loaded into Genesis. Use Spectrum to search Genesis for that customer's name. If participants were loaded into the wrong plan, contact TRMD Services to request that they be moved to the proper plan.

**Note** Modify present values in the payment database using the Spectrum "user interface" in the valuation tab.

5. Submit a "data fix" request to address population issues regarding role discrepancies, deletions, undeletions, status changes, and ▸PBGC Case Number changes to TRMD Services.
6. Ensure that the ▸PBGC Image Viewer plan or participant file contains information that documents how the participant's status was determined. (These are necessary for BDL accuracy.)
7. After making all corrections, request a new copy of the **Plan Closing Report**.
8. Prepare the *Plan Completion Memo*, **Section II: Database Reconciliation**:
   - **A. Participant Count Reconciliation**. Reference the Participant Count Reconciliation section of the **Plan Closing Report**. Research and resolve situations where the report has a Spectrum record that is not associated with someone in the valuation, or when there is more than one Spectrum record for a participant.
   - **B. PRISM, Actuarial Database - PV Comparison and Reconciliation**. Reference the **Case Summary** section of the **Plan Closing Report**, which lists any PV discrepancies (level 13 PV edits). If any PV discrepancies on the report cannot be resolved, list them here. List each discrepancy and provide an explanation, or use a table.

Top of Page

## 21.4 Check Completeness of Participant Records in PBGC Image Viewer and Spectrum

**07/01/2016**

| | |
|---|---|
| **Purpose** | Ensure that all participants are recorded on both PBGC Image Viewer and Spectrum, and that each beneficiary is cross-referenced. Ensure that participant files (PBGC Image Viewer) are complete, to facilitate benefit administration by the Post Valuation Administrator. Ensure that all possible CRM records are closed. |
| **Guidance** | *Customer Role and Eligibility Status Guidance* in the *Spectrum User Manual*<br><br>*Plan Closing Report: User Guide*<br><br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br><br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

1. Refer to the **All Edits** and/or **Errors Only** sections of the **Plan Closing Report** and make corrections for the following edits, as applicable. Refer to the *Plan Closing Report: User Guide* for details and corrective actions:
   - Level 16 ▸PBGC Image Viewer edits
   - Level 8 Joint Benefit Form edits
   - Level 14 Pay Source edits
2. Ensure the customers are coded in ▸Spectrum according to the *Customer Roles and Eligibility Status Guidance* in the *Spectrum User Manual*.
3. For participant files check for the following, noting important observations in the *Plan Completion Memo*, **Section IV. Instructions for Post-Valuation Administrator**, **A. Participant Issues**:
   a. **Verify that the Social Security number matches in PBGC Image Viewer and Spectrum**. Each participant should have a unique ▸SSN; no more than one on both PBGC Image Viewer and Spectrum.
   b. **Check that there is proper participant, beneficiary and alternate payee documentation in the file** (See TP 16.2 Maintain Participant File), **as applicable** (See Appendix J Participant Forms Information). Correct all missing PBGC Image Viewer document errors on the Plan Closing Report and ensure that all non-compliance issues reported by ▸MCD have been addressed concerning the following:
      - ▸BDL and ▸benefit statement
      - Application for Benefits/Payee Information Form
      - Proof of age (non-retirees only)
      - Proof of marriage, for participants receiving a Joint and Survivor (J&S) Annuity
      - Spouse proof of age, for participants receiving a J&S annuity
      - Proof of Death, for participant whose ▸beneficiary is receiving benefits (See Appendix G Acceptable Proof of Age and Death)
      - Date of hire (▸DOH) and ▸DOTE for non vested/non member (needed for BDLs)
   c. **Check the implementation of the BDL**. Check the consistency of the Participant Application, Participant Information Form (if applicable), and Spectrum with the BDL and benefit statement.
   d. **Check for participant's name on the CRM Service Request Tracking Report**. Appeals are coded as "Appeals Memos," and referrals to ▸PSD (▸RFAs) from the Appeals Division. Check that any appeal decisions were implemented
   e. **Check that underpayment situations were corrected**. Check that participant was reimbursed for back payments, with appropriate interest, see Process 19.3 Determine Net Overpayment/Underpayment Status for Annuities and Process 19.4 Determine Net Overpayment/Underpayment for Lump-sums.
   f. Check that overpayment situations were addressed and determinations implemented. Check that recoupment/recovery determinations have been made and implemented and indicate whether there are any

pending recovery issues. (As appropriate, see TP 6 Recover Overpayment and/or TP 7 Recoupment and Administrative Correction and Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery.)

g. **Check that employee contributions were returned, if elected by the participant or spouse**. If employee contributions were returned, verify that the monthly benefit amount was reduced. If a return of employee contributions was not elected, verify that monthly benefit amount is unreduced.

h. **Check that any existing** pre-termination liabilities were paid, with appropriate interest, if applicable.

i. **Check that interest was paid on lump-sum benefits, backpayments, and reimbursements (for example, for PSA charges)**. (Refer to Policy 6.3-1 Underpayment Reimbursement and Interest Payments, for guidance about payment of interest.)

j. **Check that all retirees and deferred vested participants are in final pay status.** Deferred vested participants should be set up as future ▸payees.

k. **Check that spouses/beneficiary/alternate payees are linked in Spectrum to associated participant**. The **Plan Closing Report** lists all spouses, beneficiaries, and alternate payees. If the spouse, beneficiary, or ▸alternate payee is not linked in Spectrum, use Spectrum to add a relationship.

l. **Document any ongoing activity related to processing of QDROs**.

m. **Check that all participant documents have been properly indexed. Reindex any documents not properly indexed (see PBGC Image Viewer Help)**.

4. Check the **CRM Report** for open call records related to the plan. Close the open records where appropriate.

5. After making all corrections, request a new **Plan Closing Report**, if required.

6. Complete *Plan Completion Memo*, **Section III. Participant and Plan File Review**, part **A. Participant Files.** Provide the date that the last BDL was sent for the subject case. Indicate whether all participants have been placed in proper pay status, have received accurate benefit information in their BDL, and are being paid the correct amount. Explain any inconsistencies in this section. Note whether any ▸lump sums remain to be paid. If so, list them in this section, with a brief description of their status (unlocatable, no application received, etc.). If the lump-sum BDL was issued more than six months ago, send a reminder letter if the participant has not yet applied for the benefit.

7. Complete *Plan Completion Memo*, **Section II. Database Reconciliation**, part **C. PBGC Image Viewer vs. Spectrum Reconciliation**. Reference the Plan Closing Report, specifically any level 16 PBGC Image Viewer edits. If any discrepancies on the report cannot be resolved, list and provide an explanation for each discrepancy.

8. Complete *Plan Completion Memo*, **Section IV. Instructions to Post-Valuation Administrator**, part **A. Participant Issues**. Provide details of any open records from ▸CRM. Identify any participants that are covered under the Conflict of Interest Procedures.

Top of Page

## 21.5 Prepare Plan History

**07/01/2016**

| | |
|---|---|
| **Purpose** | Provide a case summary and background for the Post-Valuation Administrator to familiarize them with key aspects of the plan. |
| **Guidance** | N/A |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

1. Review on ▸PBGC Image Viewer relevant plan documents that may have information relevant to plan and corporate history, plan benefit provisions, ▸PSA administration, and 4022(c) benefits. These documents may include, but not be limited to the following: *Participant Data Review* (or *Small Plan Database Construction and Analysis Report*, *Database Construction Report*, or *Participant Review Summary*, as applicable), *Plan Document List*, *PBGC Actuarial Case Memo*, ▸OBA Large Case Working Group documents, ▸SID documents, the *Trusteeship Working Group Memo*, and miscellaneous documents that may be found in the Plan File.
2. Prepare the *Plan Completion Memo*, **Section I: Plan History**. The required contents are described below and in the standard Plan Completion Memo template. (For ▸FBA plans, the FBA completes the Memo, with assistance of ▸CSD as needed. For in-house cases, the Case Team prepares the memo.)
    a. **Plan and Corporate History**. Provide summary of plan and corporate structure, including whether it is a multiple employer plan, part of a family of plans and whether there were any mergers, spin-offs, and related employers that could help to determine whether a woodwork person might be a participant in a particular plan. Describe any predecessor plans, family or related plans, and offsets, if applicable. Be sure to include the name and ▸PBGC case number of these associated plans. Also include specific information about the vesting requirements for each plan. It is not necessary to include bankruptcy information in this section.
    b. **Plan Benefit Provision Highlights**. State the plan adoption date, and discuss the vesting schedule(s) in place at plan inception. Discuss whether or not the plan has amendments subject to the phase-in rule; employee contributions; substantial/majority owner(s); and participants affected by the Maximum Insurance Limitation. State whether or not it is a cash balance plan; if it is, identify the actuary that worked on the cash balance statements and explain which statements have been issued for prior years. Describe the plan's normal forms of benefit, normal retirement age and early retirement age. Include the status of any outstanding plan issues, such as appeals that may affect multiple participants, purchased annuities, etc. If these topics are covered in the Actuarial Case Report (ACR), refer to the ACR. Give examples of any peculiarities concerning plan practice or other oddities about the plan. Note if there were pre-▸DOPT lump sums and provide a reference to where the list is located in the plan file. State whether there is a working retirement determination. Provide information on Late Retirement, Disability Provisions, Benefit Freeze Date, and other unusual administration issues.
    c. **PSA.** Describe whether PBGC charged for PSA coverage, and when refunds for PSA charges were made to participants, if applicable. Discuss any PSA Administration in this case.
    d. **4022(c)**. Discuss whether 4022(c) benefits are payable in the plan, and if so, whether ▸BDLs for 4022(c) benefits were issued as part of Title IV benefits, or as supplemental BDLs. Also state whether plan is a ▸PPA plan.

## 21.6 Verify Plan File

**07/01/2016**

| | |
|---|---|
| **Purpose** | Ensure that plan-level documentation is complete. |
| **Guidance** | PBGC Image Viewer Help<br>*Plan File Indexing Specification Guide* |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

1. Open the ▸plan file in ▸PBGC Image Viewer. Spot-check the file to ensure all sections are properly imaged and indexed. Image any missing documents. If any documents are improperly indexed, make corrections in accordance with the *Plan File Indexing Specification Guide*; also see the PBGC Image Viewer Help guide. The critical sections in PBGC Image Viewer to **check in full** are:
   - Section 5 Pension Plan Documents (Plan Amendments and Restatements, Original Plan Documents and Union Contracts and Amendments)
   - Section 9 Correspondence
   - Section 11 Audit Documents: ▸ACR
     - ▸Participant Audits (as applicable: *Participant Data Audit Report*; *Small Plan Database Construction and Analysis Report*; *Database Construction Report* **and** *Participant Audit Summary*; or *Database Construction Report* **and** *Participant Review Summary*)
     - Plan Document Audit (as applicable: *Plan Document List* or *Plan Document Audit*)
     - Source Document Audit (as applicable: *Data Elements and Sources List* only or *Source Document Audit* **and** *Data Elements List*)
     - Plan Asset Audit
     - Transfer Control Sheet
   - Section 12 Actuarial Case (Closeout) Reports (Post-▸DOPT/Trusteeship)
   - Section 13 ▸SID Documents (Post-DOPT/Trusteeship)
2. Verify that Participant Review Summary (or other applicable document listed above) contains a list of participants eligible for Early ▸BDLs.
3. Ensure that the Actuarial Case Report (ACR) has been imaged to the appropriate sections of the PBGC Image Viewer plan file. **This must be done before the case is submitted for closing**.
4. To safeguard the integrity of the imaged file, shred or discard extra copies of plan documents to ensure that duplicate images are not accidentally sent to the ▸DMC for imaging.
5. Complete *Plan Completion Memo*, **Section III. Participant and Plan File Review**, part **B. Plan File**. List and explain any missing or incomplete sections of the plan file.

## 21.7 Run IPVFB Critical Pay Source Errors Details Report

**07/01/2016**

| | |
|---|---|
| **Purpose** | Run IPVFB Critical Pay Source Errors Detail Report. |
| **Guidance** | IPVFB Critical Error Reporting User Manual and Technical Reference Guide (available from ASD or the POC)<br><br>CMS Job Aids and User Guide |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

**Note** The POC with access to the ▸IPVFB Critical Error Reporting Application will perform Steps 1 through 5, at the request of the ▸EBLS/PBA/FBA.

1. Log on to the IPVFB PROD application.
2. Select Error Rpt command button from the IPVFB main menu. Then select Critical Error Reports. Select a case, or cases, using the drop-down list, a range of PBGC case numbers, the case name, or the assigned division. Enter Query and wait for the system to finish processing records. The application selects the requested case(s) from a Genesis extract that is refreshed each weekend.
3. Select the IPVV505A Error Detail (Pay Source Errors) report option button and designate a printer for output.
4. Select the IPVV515A Error Summary (Sort on Source, Exam, and Case) report option button and designate a printer for output.
5. Continue processing using Process 21.8 Correct IPVFB Critical Errors.

**Overview of IPV Error Summary Report: IPVV515A**

This report is used for correcting critical errors in a participant's Spectrum data records. For each case selected for reporting, one page per participant is generated. For each item that may be in error, that particular item is surrounded by either parentheses (Critical Error) or braces (non-critical error). If a participant's record has no errors, no report is generated for that participant. The report does not provide error messages. For details on error conditions, see the *IPVFB Technical Reference Guide*, Sections 4.3.4 through 4.3.6. If you have any questions regarding the report, please contact the Supervisory Valuation Actuary in ASD. The **IPVFB Error Detail (Pay Source Errors) Report** contains the following data items:

- **Case Nbr**: PBGC case number
- **Case Name**: Case name
- **Assigned Branch**: ▸CSB assigned to case
- **DOPT**: Date of Plan Termination
- **Valuation Date**: Date of the data on which this report is based
- **Name**: Participant name (first last)
- **SSN**: Participant social security number
- **DOPT PV**: Present value of PBGC guaranteed benefits as of DOPT
- **Gender**: Participant gender
- **Status**: Participant status code
- **Retire Type**: Retirement (Health) Type
- **Payee Type**: Recipient Type
- **DOB**: Participant's date of birth
- **Spouse DOB**: Spouse's date of birth
- **ARD**: Actual retirement date
- **Actual Form**: Actual benefit form
- **XRD**: Expected retirement date

- **Expected Form**: Expected benefit form
- **JSJC**: For joint & survivor or joint & contingent, the percentage of the participant's benefit payable to the survivor
- **Val Amt**: Valuation amount of PBGC guaranteed benefit

**For each pay source, the following display:**

- **Pay Source Type**: Estimated (E) or Guaranteed (G)
- **Pay Source Start Date**: Date payment of benefits begins
- **Pay Source End Date**: Last date for payment of benefits
- **Pay Source Amount**: Amount of benefit
- **Pay Source Actual Form**: Form of payment for the particular pay source
- **JSJC**: For joint & survivor or joint & contingent, the percentage of the participant's benefit payable to the survivor
- **Pay Frequency**: Pay frequency code for the particular pay source (1=monthly; 2= quarterly; 3=semiannual; 4=annual; 5=lump sum)
- **Is Pay Source Authorized?**: Pay source authorization status

Details on critical error conditions are available in the IPVFB Technical Reference Guide, section Seriatim Valuation Specifications, Exhibits 4-18 and 4-20.

**Overview of IPV Error Summary Report: IPVV515A**

This report shows the number and type of data errors for each plan selected. This report is sorted on Source ID, Exam and PBGC case number. The **IPV Error Summary Report** contains the following data items:

- **Milestone Code**: 0 or 1 means plan is final and should have only Guaranteed Benefits.
- **Milestone Errors**: Count of active estimated pay sources in a final plan
- **Date of Birth**: Number of errors involving dates of birth in the plan
- **Status**: Number of errors involving status in the plan
- **Benefit Amount**: Number of errors involving benefit amount in the plan
- **Benefit Form**: Number of errors involving benefit form in the plan
- **Start/End Date**: Number of errors involving start or end dates in the plan
- **Other Date**: Number of errors involving other dates in the plan
- **Authorization Errors**: Count of active pay sources not authorized, or multiple pay sources ending on 12/01/2099 (null or blank end date in Spectrum)
- **Total Critical Errors**: Number of critical errors in the plan
- **Total Payment Streams**: Number of "payment streams" in the plan
- **Payment Streams in Error**: Number of payment streams in error in the plan
- **Percent w/Critical Error**: Ratio of the number of payment streams in error to the total number of payment streams
- **Incmplt Act in Est Data**: Number of records in the plan that had incomplete data to perform an "active in estimated" calculation
- **Non-Critical Errors**: Currently (as of June 2009), number of discrepancies between Genesis and Spectrum data. Expected to eventually be returned to its former definition, the number of non-critical errors in the plan.

Top of Page

## 21.8 Correct IPVFB Critical Errors

**07/01/2016**

| | |
|---|---|
| **Purpose** | Correct Critical Errors on the **IPVFB Error Detail (Pay Source Errors) Report**. Provide a clean case for the Post-Valuation Administrator. |
| **Guidance** | CMS Job Aids and User Guide |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

1. Review the **IPVFB Error Detail Report (Pay Source Errors)** to identify specifics for each **critical** error. Repeat Steps 2 through 3 for each error on the report.
2. Research the error, using ▸Spectrum and ▸PBGC Image Viewer to determine corrective action.

   **Milestone Errors:**

   If a customer's guaranteed pay source was not entered or was never authorized, ▸IPVFB records a Milestone error. The plan is final, but the last authorized pay source is estimated. The absence of authorization cannot be seen on Spectrum reports.

   - If the last pay source in Spectrum is estimated, check PBGC Image Viewer for a pending appeal or referral from the Appeals Division (▸RFA):
     - If there is a pending appeal, annotate the *Plan Completion Memo*.
     - If there is no pending appeal, add and authorize a guaranteed pay source.
   - If the last pay source is guaranteed, have it authorized.

   **Annuity Form Errors:**

   If a customer with an ▸J&S Annuity has a pay source end date of other than 12/01/2099, IPVFB records an actual form error; however, no adjustments are necessary since the adoption of Spectrum.

   - If the annuity form is blank on the Report, load the correct form in Spectrum.
   - If the annuity form is not blank on the Report, verify the annuity is continuous (no end date (null) or 12/1/2099) in Spectrum.

   **Deferred Vested Errors:**

   Both Reports list an error for deferred vested customers, past age 70, with a valid address. The **IPVFB Error Detail Report** shows this as a Status Code error, by displaying the Status Code 3 in parentheses. (**This is the most frequent IPVFB critical error**):

   - This type of error requires a review of the correspondence in the participant file in PBGC Image Viewer:
     - If the ▸BDL was returned, or PBGC received no reply, then the most appropriate course of action is to change their Address Validity Code to "R" (Returned) or "I" (Invalid), which will initiate locator action.
     - If the Customer applied a benefit, but received no response from PBGC, then the case should be returned to the ▸CSB for further processing.
     - If the customer is locatable, but declines to apply for a pension, annotate this on the *Plan Completion Memo*, **Section IV. Instructions to Post-Valuation Administrator**.
     - **Participant Issues**. List the ▸participant and explain that he is deferred vested and unwilling to apply for a pension after age 70.
3. Correct the error in Spectrum. ▸CSD's goal is to address all errors that can be corrected.
4. After making all corrections, request a new run of the **IPVFB Error Detail Report (Pay Source Errors)**. The **IPVFB Error Detail Report** should not be rerun until after the weekend, to obtain refreshed Genesis data.
5. Complete *Plan Completion Memo*, **Section II. Database Reconciliations**, section **D. Other Spectrum Data Exceptions**. Reference the **IPVFB Error Detail Report**. List and explain errors (other than those listed previously) that cannot be resolved.
6. Complete *Plan Completion Memo*, **Section IV. Instructions to Post-Valuation Administrator**, section **A. Participant Issues**. List and explain critical errors (other than those listed previously) that cannot be resolved. Explain any follow-up actions required by the Post-Valuation Administrator.

Top of Page

## 21.9 Assemble and Submit Plan Completion Memo

**07/01/2016**

| | |
|---|---|
| **Purpose** | Assemble all necessary documents and reports to provide materials for review and for post-valuation administration. |
| **Guidance** | CMS Job Aids and User Guide<br>*Plan Closing Report: User Guide* |
| **Procedure Owner** | Case Team (EBLS/PBA/FBA) |

**Case Team**

1. Prepare the *Plan Completion Checklist* to summarize reports utilized and actions taken in the plan closing process. The checklist is required to be submitted with the *Plan Completion Memo* to assist in supervisory or peer review of a plan closing. ▶CSD requires that a reviewer sign off on the checklist.
2. Complete the checklist (Section V: Actuarial Information) of the *Plan Completion Memo*. This section may be prepared by, or with the assistance of the case actuary. If a section does not apply, or if an explanation is given elsewhere, note that fact (or "N/A") under the appropriate section of memo.
3. Assemble *Plan Completion Memo*. Do not unnecessarily retype information into the memo that is already included in the **Plan Closing Report**. When making references to the report, include the section name of the report and then identify the participant with the edit.
4. When the plan is ready for closing, the ▶EBLS or FBA completes the *Plan Completion Memo* and all attachments, and submits it electronically to the CSD or FBA management. In the email, include the hyperlink to the final **Plan Closing Report** used to close the plan. Ensure that all required ▶CMS Milestones (excluding the Plan Administration Milestone) have been finalized at this time.
5. Continue to perform benefits administration up to the date of transfer to post-valuation administration. This date is assigned by CSD after successful plan closing review, and appears on CMS Plan Administration Milestone.
6. Approximately two weeks before the expected transfer date, wrap up any outstanding issues and ensure that all possible CRM calls are closed. Then, one business day before official transfer, send an e-mail to Post-Valuation Administration management providing details of any open/pending CRM records.

**CSB or FBA Management**

1. Upon successful review of the plan closing package, submit the package electronically to the PSD Plan Closing mailbox. In the e-mail, include the following:
   - *Plan Completion Memo*
   - *Plan Completion Checklist*
   - Hyperlink to the final **Plan Closing Report** used to close the plan.
2. On the same day as the plan closing package is submitted, the CSD must send CMS Task Referral for Plan Administration Milestone. Ensure that all milestones have been completed prior to submitting the case to CSD for Plan Closing. The CMS task referral date should agree with the date the electronic plan closing package was sent to CSD. **Important: The Plan Completion Package and Milestone must be submitted at the same time. If either is received by CSD without the other, it will be returned.**

Top of Page

## 21.10 Resources for Plan Closing

**09/30/2016**

**Forms, Letters, and Memos:**

- *Plan Completion Memo*
- *Plan Completion Checklist*

**Customer Correspondence and Forms:**

*None*

**Guidance:**

- *CMS Job Aids and User Guide*
- *Customer Role and Eligibility Status Guidance in Spectrum User Manual*
- *IPVFB Critical Error Reporting User Manual and Technical Reference Guide (available from ASD or the POC)*
- *PBGC Image Viewer Help*
- *Plan Closing Report: User Guide*
- *Plan File Indexing Specification Guide*
- *Policy 6.3-1 Underpayment Reimbursement and Interest Payments*
- *Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery*
- *Spectrum User Manual*

**Exhibits:**

*None*

# Process 22 Closed Plan Review

**In this Section**

22. Overview for Closed Plan Review
22.1 Administrative Check
22.2 Review Closed Plan
22.3 Resources for Closed Plan Review

## 22. Overview for Closed Plan Review

**07/01/2016**

As a final quality control check, the Post-Valuation Administrator (PVA) uses sampling to gain a confidence level that plan processing is complete, that the electronic files accurately and completely capture the plan, and that all relevant documents are available through ▸PBGC Image Viewer. The ▸PVA is responsible for ensuring that the case is ready for post-valuation administration. The results of the review are documented on a Quality Review Check Sheet.

The ▸CSB or ▸FBA continues to administer the plan during the review process.

## 22.1 Administrative Check

**07/01/2016**

| | |
|---|---|
| **Purpose** | Ensure that the Plan Completion Memo is complete. |
| **Guidance** | CMS Job Aids and User Guide |
| **Procedure Owner** | ▸CSD |

1. Receive the ▸CMS task referral for Plan Administration milestone and *Plan Completion Memo*, with attachments. This is done by a ▸CSD Management analyst. Verify that all milestones have been completed and that task referral date agrees with the date sent to ▸CSD.
2. Review the *Plan Completion Memo* to verify completeness and see that all required items have been forwarded. Any one of the following items indicates that the submission is incomplete:
   - Error rate on the IPV Error Summary Report exceeds 5%
   - CMS task referral missing
   - CMS milestone not completed
   - *Plan Completion Memo* missing or incomplete
   - *Plan Completion Checklist* missing or incomplete
3. If submission is incomplete, contact the ▸CSB Employee Benefits Supervisor, FBA Project Manager for the missing item(s), or return it with a list of missing items (for example, reports) and return CMS task referral for Plan Administration Milestone with "Incomplete Submission" marked and missing documents listed in the Comments section of CMS.
4. Upon receipt of a complete Plan Completion Memo package, assign the case to the Post-Valuation Administration site and forward the task referral to the ▸PVA to initiate the review process.

## 22.2 Review Closed Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | Review that the Plan Completion Memo is complete so that all necessary information is available to post-valuation administration. |
| **Guidance** | *CMS Job Aids and User Guide*<br><br>*Customer Role and Eligibility Status Guidance* in the *Spectrum User Manual*<br><br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br><br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br><br>*Spectrum User Manual* |
| **Procedure Owner** | Post-Valuation Administrator; CSD |

**Post-Valuation Administrator**

1. **Read the Plan Completion Memo**. All sections should be in standard order (History, Database Reconciliation, ▸Participant and Plan File Review, Instructions to Post-Valuation Administrator, and Actuarial Information).
2. **Review the last Plan Closing Report provided by the FBA or CSB** via the hyperlink in the e-mail with the plan closing package. The review should be performed on the Case Summary, Data Exceptions and Participant Count Reconciliation sections. Export the data into a PFI report shell. This created PFI report shows:
   - Participant Name
   - Social Security Number (▸SSN)
   - Type of Participant
   - Status
   - Comment (blank column for entry of comments)
3. **Select a Proportional, Stratified Random Sample of participant files to review**. Determine the size of the sample based on the ▸Proportional and Stratified Random Sample Review Table to provide a confidence level of 95% (a presumed error rate of no more than 5%) that the entire population in the plan (based on the sample) is accurate and reliable.
4. **Identify and stratify** the sample by types of participants (retirees, active vested, active non-vested, and terminated vested).
5. **Sort** and number each stratum (participant record) by assigning the number 1 to the first individual, 2 to the second, and so on within each stratum. These numbers will identify the participant data to be audited as selected by the random number generator.
6. Use the random number generator on the network, accessible through an icon or Windows File Manager (j:\random\random.exe), to generate random numbers for each of the strata identified in step 4. Print the results, and select for testing the participants corresponding to the numbers generated. Document the participant sample. Confirm each type of participant is properly represented in the sample.
7. For each participant file in the sample, check for the following (noting important observations in the created PFI report):
   a. Verify the Participant file is imaged. Check that the Image Count on the PFI Report is not zero for any participant. Make sure there is a ▸Spectrum record for each ▸PBGC Image Viewer-listed participant, if the participant was a plan member. Note in the created PFI report why the file was not imaged. If there are Conflict of Interest participants (see TP 27 Conflict of Interest) in the plan whose files are not viewable, contact the ▸MCD for assistance. (Note that each non-vested participant needs a unique imaged file.)
   b. Check Data Exceptions. Ensure that SSN, participant name, status, DOH, DOTE, DOB, DOD, spouse SSN and DOB, ARD, PV, BDL Date, sex, ACT BEN FORM, etc. are complete and accurate in Spectrum and PBGC Image Viewer for each participant.

c. Check that SSN is correct. Each participant should have a unique SSN. Check for changes in PBGC Image Viewer that were not entered into Spectrum, and identify any conflicts between the systems.

d. Check that there is proper participant, beneficiary and alternate payee documentation in the file (See TP 16.2 Maintain Participant File), as applicable (See Appendix J Participant Forms Information). Ensure that all missing PBGC Image Viewer document errors on the **Plan Closing Report** have been corrected and that there are no outstanding PBGC Image Viewer document problems for the plan on the cumulative Compliance Review Overdue Report:
   - Correct BDL and ▸benefit statement
   - Application for Benefits/Payee Information Form
   - Proof of age (Post-date of plan termination-(▸DOPT) payees only)
   - Proof of marriage, for participants receiving a Joint and Survivor Annuity (▸J&S) Annuity (Post-DOPT payees only)
   - Spouse proof of age, for participants receiving a J&S annuity (Post-DOPT payees only)
   - Death certificate, for participant whose beneficiary is receiving benefits.
   - Date of Hire (▸DOH) and Date of Termination of Employment (▸DOTE) for non vested/non member (needed for Benefit Determination Letters (▸BDLs)

e. Check the implementation of the BDL. Check the consistency of the *Application for Benefits, Participant Information Form* (if applicable) and Spectrum with the BDL and benefit statement. Ensure that any BDL changes, revisions, or new BDLs are reflected. Ensure that documentation supports the form of benefit.

f. Check for open Appeals or Referred from Appeals (▸RFA) correspondence. Check PBGC Image Viewer and Spectrum for any appeal decisions that were implemented.

g. Check that underpayment situations were corrected. Check that the participant was reimbursed, as necessary, for back payments or Pre-Retirement Survivor Annuity (▸PSA) charges, with appropriate interest according to the ▸PACS calculation. (See Process 19.3 Determine Net Overpayment/Underpayment for Annuities and Process 19.4 Determine Net Overpayment/Underpayment for Lump Sums.)

h. Check that overpayment situations were addressed and determinations implemented. Check that recoupment/recovery determinations have been made and action initiated (for example, first letter sent). (As appropriate, see TP 6 Recover Overpayment and/or TP 7 Recoupment and Administrative Correction and Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery).

i. Check that employee contributions were returned if elected by the participant or spouse. If employee contributions were returned, verify that the monthly benefit amount was reduced. If return of employee contributions was not elected, verify that monthly benefit amount is unreduced.

j. Check that pre-termination liabilities were paid, with appropriate interest, if applicable.

k. Check that interest was paid on lump-sum benefits, back payments, and reimbursements (for example, for PSA charges). (See Policy 6.3-1 Underpayment Reimbursement and Interest Payments for guidance about payment of interest.)

l. Check that retirees and deferred vested participants (who have reached their normal retirement age) have been contacted and processed into final pay status.

8. **Errors may be significant or insignificant**, depending on the item tested:
   - Insignificant errors are discrepancies that do not affect PBGC's ability to determine a participant's entitlement to a benefit, to determine the amount of the guaranteed benefit, or to locate the participant.
   - Significant errors are discrepancies that:
     - Affect PBGC's ability to determine a participant's entitlement to a benefit or change the amount of a guaranteed benefit by more than $5.00 per month and affect the present value of future benefits (PVFB).
     - Indicate the PBGC cannot locate the participant.

   Identify all significant errors, and count as errors all participants with at least one significant error. If the review of the first sample reveals errors that exceed the number of acceptable errors, increase the sample size, as shown in the ▸Samples that Exceed the Number of Acceptable Errors Table, obtain a full new sample and conduct an expanded review.

9. Review the sample for the following:
   - **Check that beneficiary/alternate payees have been linked to the associated participant in Spectrum**. The Plan Closing Report lists all beneficiaries and alternate payees. If the beneficiary or alternate

payee is not linked in Spectrum, document that the Spectrum relationship needs to be added.

- **Verify that customers are coded correctly.** Ensure that customers are coded in accordance with the *Customer Role and Eligibility Status Guidance* in the *Spectrum User Manual*.
- **Use the** *Quality Review Checksheet* **to document any findings that the Quality Assurance Specialist may list during the review process**. The PFI is used to list the participant sample, Complete/Incomplete, Significant/Insignificant and Comments on any errors found.
- **Check the Data Exceptions Section of the Plan Closing Report**. This Report should contain zero errors, or documentation of why there are outstanding errors in the *Plan Completion Memo*.
- **Check whether the plan level PV as stated in Case Management System** (▸CMS) **is equal to the plan level PV in the actuarial valuation/spreadsheet, with any discrepancies noted in the** *Plan Completion Memo*. Check that the participant PVs in the actuarial valuation/spreadsheet have been reconciled with the participant PVs in Spectrum. (See Process 21.3 Reconcile Participant Counts and Present Values.)
- **Run the IPVFB Critical Pay Source Errors Detail Report**. Check/verify that all correctible critical errors have been addressed in the *Plan Completion Memo*, so that the case can be promoted through Actuarial Services Division (▸ASD), at the appropriate time.
- **Review plan file for completeness**. Check the imaged plan file. The critical sections to check in full are: Section 5 Pension Plan Documents, Section 11 Audit Documents, Section 12 Actuarial Valuation Closeout Report and Section 13 ▸SID Documents. Ensure that there are no missing or incomplete sections.
- **Verify that Actuarial Case Report package is completely and properly imaged**. Ensure that the plan factors are included.
- **Review the BDL statu**s. Check that at least 90 days has elapsed since the BDLs were issued. Edit 520 flags customers who were sent a BDL in the past 90 days.
- **Verify the total population participant count in Spectrum in comparison to the Actuarial Case Report**.

10. **If the review indicates an incomplete case, do one of the following:**
    - **If only minor corrections are needed, request that the CSB Employee Benefit Law Specialist or FBA staff make the change within two to three business days to avoid the case and task referral being returned.**
    - **Return the case to the ▸CSD Employee Benefits Supervisor listing any problems noted with the case and/or additional work needed. Reject the CMS task referral Plan Administration milestone by forwarding the task referral back to CSD and provide CMS comments.**
11. The CSD Management Analyst will review and decide whether the plan is to be rejected and sent back to the ▸FBA or ▸CSB Employee Benefit Law Specialist, or transferred to a (▸PVA), having the PVA make the necessary corrections. If the case is returned, the PVA will forward an e-mail to the FBA Project or CSB Employee Benefits Supervisor advising why the case is being returned.
12. **If the review is successful**, prepare *Closed Plan Review Memo* indicating successful review of the closed plan. The PVA will also determine the Transfer Date to post-valuation administration and record the date in CMS. The post-valuation administration assumption date normally occurs on the 15th or the end of the month. (The determination of the post-valuation administrator takes into account the current and projected work loads, the size and complexity of the plan, related plans, etc.)
13. Once the plan has been accepted for post-valuation administration, assemble the Plan Completion Package and submit to the CSD Employee Benefit Law Specialist or the FBA Office for imaging. Include the following:
    - Plan Completion Memo
    - Plan Completion Checklist
    - Created PFI Report
    - Quality Review Checksheet
    - Pertinent e-mails

    These documents are used to perform the analysis for the work performed to ensure he plan was closed in an efficient manner. Also image any e-mails from CSB or FBA with updated correction information into the plan file.

**CSD**

14. Within 30 days of receipt, image the entire Plan Completion Package to the plan file. Note that IPS files for closed plan are reviewed on quarterly basis to ensure the documentation is imaged.

- *Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery*
- *Spectrum User Manual*

**Exhibits:**

*None*

**08/30/2011**

Technical Procedures (TPs) are usually event-driven activities rather than case-driven activities occurring at a specific point in case processing. TPs may be performed one or more times in the life of a case, or may not be performed at all (for example, balancing occurs periodically, while holding a participant meeting may not occur at all). Multiple divisions can perform TPs (for example, ▸CSD and ▸BPD coordinate to process off-cycle payments).

TPs may be plan activities (for example, TP 61 Successor Plan Determinations) or individual/group participant activities (for example, TP 13 Domestic Relations Order and State Agency Orders). When a TP is applicable to a specific process, the *OBA Operations Manual* provides a link in the process and/or procedure steps to the appropriate TP.

# TP 1 Customer E-Mail Management

**In this Section**

TP 1. Overview for Customer E-Mail Management
TP 1.1 Process E-Mail Sent via PBGC Web Site
TP 1.2 Process E-Mail Sent to an Individual FBA/PVA
TP 1.3 Process E-Mail Sent to the FBA/PVA CRM E-Mail Center
TP 1.4 Resources for Customer E-Mail Management

## TP 1. Overview for Customer E-Mail Management

**07/01/2016**

This technical procedure documents the streamlined process for managing all incoming e-mail messages from PBGC customers. The goal is to provide the same level of service to the PBGC customers who communicate electronically as those who choose to contact PBGC by phone.

The PBGC customer uses any of the following to contact PBGC:

- E-Mail sent via PBGC Web site.
- E-Mail sent directly to an individual FBA/PVA user's inbox.
- E-Mail sent to the FBA/PVA CRM E-Mail Center.

### E-Mail Messages Sent to PBGC Web Site

CCC manages e-mail messages the customers send via three mailboxes on the PBGC Web site:

- mypension@pbgc.gov
- missing@pbgc.gov
- found@pbgc.gov

The CCC CRM E-Mail Center is a repository for all the e-mail messages coming from the three mailboxes.

Once the e-mail message is in the CCC CRM E-Mail Center, the CCC CRM E-Mail Administrator processes each e-mail message depending on whether the e-mail message requires an FBA/PVA or PRO response. If the e-mail message does not require an FBA/PVA or PRO response, CCC processes the e-mail message. If the e-mail message requires FBA/PVA response, CCC reroutes the e-mail message to the FBA/PVA E-Mail Center's designated FBA/PVA. If the e-mail message is for the PRO (for example, complaints about PBGC's service), the CCC CRM E-Mail Administrator reroutes the e-mail message to the participant.pro@pbgc.gov e-mail address.

To process e-mail messages PBGC customers send via the PBGC Web site, see TP 1.1 Process E-Mail Sent via PBGC Web Site.

### E-Mail Messages Sent Directly to an Individual FBA/PVA User's Inbox

The FBA/PVA forwards all the customers' e-mail messages to the designated FBA/PVA CRM E-Mail Center. Once the e-mail message is in the appropriate FBA/PVA CRM E-Mail Center, the FBA/PVA Coordinator then reroutes the e-mail message to the appropriate FBA/PVA Mail POC.

| **Note** Each FBA/PVA has its own CRM E-Mail Center. |
|---|

The reason for forwarding all the e-mail messages to the FBA/PVA CRM E-Mail Center is to facilitate tracking and reporting.

To process e-mail messages the customers send directly to an individual FBA/PVA user's inbox, see TP 1.2 Process E-Mail Sent to an Individual FBA/PVA.

### E-Mail Messages Sent to the FBA/PVA CRM E-Mail Center

The FBA/PVA CRM E-Mail Center receives e-mail messages from the following:

- PBGC customer

- CCC
- An FBA/PVA
- ▸MPP Team

The FBA/PVA CRM E-Mail Center Administrator forwards the e-mail message to the appropriate FBA/PVA Mail POC, who processes the e-mail message in one of three ways:

- If the response to the customer does not require sensitive information, the FBA/PVA Mail POC drafts an e-mail response and forwards the response to the FBA/PVA CRM E-Mail Center Coordinator to send out to the customer.
- If the response to the customer requires sensitive information, the FBA/PVA Mail POC calls the customer or sends the appropriate ▸eALG letter (see eALG Correspondence Help).
- If the response to the customer is to verify information, such as where to send the documentation or to confirm the e-mail messages are from the customer, use the appropriate Oracle E-Mail Center Templates to draft an e-mail response to the customer.

To process e-mail messages to the FBA/PVA CRM E-Mail Center, see TP 1.3 Process E-Mail Sent to the FBA/PVA CRM E-Mail Center.

In addition, the FBA/PVA CRM E-Mail Center receives e-mail messages from the ▸MPP Team in reference to missing ▸participants. If the e-mail messages from the MPP Team originate within PBGC, process as internal e-mail messages. If the e-mail messages from the MPP Team originate from a customer, see TP 1.3 Process E-Mail Sent to the FBA/PVA CRM E-Mail Center to process these e-mail messages.

Top of Page

# TP 1.1 Process E-Mail Sent via PBGC Web Site

**08/30/2012**

| | |
|---|---|
| **Purpose** | To process incoming e-mail messages customers send via the PBGC Web site. |
| **Guidance** | N/A |
| **Procedure Owner** | CCC CRM E-Mail Administrator |

This procedure details how ▸CCC processes e-mail messages the customers send via three mailboxes on the PBGC Web site:

- mypension@pbgc.gov
- missing@pbgc.gov
- found@pbgc.gov

If the e-mail message does not require an ▸FBA/▸PVA or ▸PRO response, CCC processes the e-mail message. If the e-mail message requires an FBA/PVA response, CCC reroutes the e-mail message to the FBA/PVA E-Mail Center for the designated FBA/PVA. If the e-mail message is for the PRO, CCC reroutes the e-mail message to participant.pro@pbgc.gov e-mail address.

The PBGC customer receives a system-generated acknowledgment once an e-mail message arrives in the CCC ▸CRM E-Mail Center. CCC routes all e-mail messages from the CCC CRM E-Mail Center to the appropriate CRM E-Mail Center.

To process e-mail messages a customer sends to an individual FBA/PVA user's inbox, see TP 1.2 Process E-Mail Sent to an Individual FBA/PVA. To process e-mail messages sent to the FBA/PVA CRM E-Mail Center, see TP 1.3 Process E-Mail Sent to the FBA/PVA CRM E-Mail Center.

**CCC CRM E-Mail Administrator**

1. Open and review the e-mail message.
2. Determine if the e-mail message requires a response from an FBA/PVA or a PRO:
   - Requires a response from an FBA/PVA:
     - Reroute the e-mail message to the appropriate FBA/PVA CRM E-Mail Center inbox.

       The CCC CRM E-Mail Center stores the response in the **Sent** folder in the CCC CRM E-Mail Center, which allows ease of locating the e-mail message by the e-mail address and date of the original e-mail message.
     - Within one business day, use the appropriate Oracle E-Mail Center Templates to notify the PBGC customer that CCC rerouted the e-mail message to the FBA/PVA.
   - Requires a response from a PRO:
     - Reroute the e-mail message to the participant.pro@pbgc.gov e-mail address.
     - Within one business day, use the appropriate Oracle E-Mail Center Templates to notify the PBGC customer that CCC rerouted the e-mail message to the PRO.
   - Does not require a response from an FBA/PVA or a PRO:
     - Within one business day, reply to the customer.
     - If the e-mail message has attachments, print the e-mail message and all attachments and scan to the participant file in ▸IPS as one document.

Top of Page

# TP 1.2 Process E-Mail Sent to an Individual FBA/PVA

**08/30/2012**

| | |
|---|---|
| **Purpose** | To process incoming e-mail messages sent to an individual in an FBA/PVA. |
| **Guidance** | N/A |
| **Procedure Owner** | FBA/PVA |

▸FBA/▸PVAs process e-mail messages from PBGC customers send to an individual FBA/PVA user's inbox. The FBA/PVA forwards the e-mail messages to the designated FBA/PVA ▸CRM E-Mail Center, then the FBA/PVA CRM E-Mail Center Coordinator forwards the e-mail messages to the appropriate FBA/PVA Mail POC.

If the e-mail message is for the PRO, the FBA/PVA forwards the e-mail message to participant.pro@pbgc.gov e-mail address.

To process e-mail messages PBGC customers send via the PBGC Web site, see TP 1.1 Process E-Mail Sent via PBGC Web Site. To process e-mail messages to the FBA/PVA CRM E-Mail Center, see TP 1.3 Process E-Mail Sent to the FBA/PVA CRM E-Mail Center.

**FBA/PVA**

1. Open and review e-mail message.
2. Determine if the e-mail message requires a response from a ▸PRO or FBA/PVA:
   - Requires a response from a PRO:
     a. Print the e-mail message with any attachments and scan to the participant file in ▸IPS as one document.
     b. Forward the e-mail message, including the IPS reference of the e-mail message and attachments to the participant.pro@pbgc.gov e-mail address.
     c. Within one business day, notify the PBGC customer that the e-mail message was forwarded to the PRO.
     d. No further action required for this procedure.
   - Requires a response from a different FBA/PVA office:
     a. Identify the FBA/PVA Mail ▸POC for the plan in ▸CMS.
     b. Forward the e-mail message to the designated FBA/PVA CRM E-Mail Center and FBA/PVA Mail POC.
     c. No further action required for this procedure.
   - Does not require a response from a PRO or a different FBA/PVA office and the e-mail message:
     - Has an attachment:
       a. Print and hand-deliver a copy of the e-mail message along with the attachment to the FBA/PVA CRM E-Mail Center Coordinator.
       b. The CRM E-Mail Center is unable to accept attachments; therefore, the printing of the e-mail message and attachment is a workaround to handle this exception.
       c. Delete the attachment from the e-mail message.
       d. Continue to step 3.
     - Does not have an attachment: Continue to step 3.
3. Forward the e-mail message to the designated FBA/PVA CRM E-Mail Center.

Top of Page

# TP 1.3 Process E-Mail Sent to the FBA/PVA CRM E-Mail Center

**08/30/2012**

| | |
|---|---|
| **Purpose** | To process incoming e-mail messages sent to the FBA/PVA CRM E-Mail Center. |
| **Guidance** | eALG Correspondence Help |
| **Procedure Owner** | FBA/PVA E-Mail Center Coordinator, FBA/PVA Scanning Team, FBA/PVA Mail POC |

This procedure details how an FBA/PVA processes e-mail messages received from the following:

- CCC
- PBGC customer
- Individual FBA/PVA user
- MPP Team

If the e-mail message is for the PRO, the FBA/PVA CRM E-Mail Center Coordinator forwards the e-mail message to the participant.pro@pbgc.gov e-mail address.

To process e-mail messages PBGC customers send via the PBGC Web site, see TP 1.1 Process E-Mail Sent via PBGC Web Site. To process e-mail messages sent to an individual FBA/PVA user's inbox, see TP 1.2 Process E-Mail Sent to an Individual FBA/PVA.

**FBA/PVA CRM E-Mail Center Coordinator**

1. Open and review the e-mail message:
   - From the CCC CRM E-Mail Center, an individual FBA/PVA user's inbox, or a PBGC customer: Proceed according to whether the e-mail requires a PRO response:
     - Requires a PRO response:
       a. Print the e-mail message with any attachments and scan to the participant file in IPS as one document.
       b. Forward the e-mail message, including the IPS reference of the e-mail message and attachments to the participant.pro@pbgc.gov e-mail address.
       c. Within one business day, notify the PBGC customer that the e-mail message was forwarded to the PRO.
       d. No further action required for this procedure.
     - Does not require a PRO response: Continue to step 2.
   - From the MPP Team, proceed according to the originator:
     - From a customer: Continue to step 2.
     - From within PBGC: Handle as internal e-mail messages and no further action required for this procedure.
2. Acknowledge receipt within two business days of PBGC's receipt of the e-mail message from the customer and blind carbon copy the FBA/PVA Mail POC.

   The blind carbon copy provides the FBA/PVA Mail POC with advance notification that the e-mail message requires a response or action.
3. Print the e-mail message and deliver the printout to the FBA/PVA Scanning Team.

**FBA/PVA Scanning Team**

4. Scan the e-mail messages to IPS as incoming mail.

   This creates a service request (SR) for the FBA/PVA Mail POC automatically.

**FBA/PVA Mail POC**

5. Open the SR in CRM and manually change the **Origin** field to **E-Mail (incoming)**.
6. Verify the information in the SR (for example, to confirm the e-mail message is from the customer):
   - Verification Needed (or to ask where to send the documentation): Call the customer.
   - Verification not Needed: Continue to step 7.
7. Proceed according to the e-mail response needed:
   - If the e-mail response requires sensitive information:
     a. Phone the customer or send the appropriate ▸eALG letter.
     b. Update the SR with the completed e-mail response and the appropriate response type (for example, by e-mail, phone, or letter).
     c. No further action required for this procedure.
   - If the e-mail response does not require sensitive information, draft an e-mail response using the appropriate Oracle E-Mail Center Templates or eALG letter template and forward to the FBA/PVA CRM E-Mail Center Coordinator.
   - If the e-mail response is to provide a time frame for resolving the inquiry, use the appropriate Oracle E-Mail Center Templates or eALG letter to draft an e-mail response and forward to the FBA/PVA CRM E-Mail Center Coordinator.

**FBA/PVA CRM E-Mail Center Coordinator**

8. Review draft e-mail response for edits:
   - Edits Needed: Return the e-mail message to the FBA/PVA Mail POC, review until the response requires no edits.
   - Edits not Needed: Continue to step 9.
9. Send the approved e-mail response via CRM to the customer and blind carbon copy the FBA/PVA Mail POC.

**FBA/PVA Mail POC**

10. Update the SR with the completed e-mail response and the appropriate response type (for example, by e-mail, phone, or letter).
11. Scan the e-mail response to IPS.

# TP 2 Administrative Correction of Benefit Overpayments

**In this Section**

TP 2. Overview for Administrative Correction of Benefit Overpayments
TP 2.1 Apply Administrative Correction to Benefit Overpayment
TP 2.2 Suspend Benefits to Correct Overpayment
TP 2.3 Initiate ACH Reclamation
TP 2.4 Resources for Administrative Correction of Benefit Overpayments

## TP 2. Overview for Administrative Correction of Benefit Overpayments

**03/30/2015**

In accordance with Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery, PBGC employs three methods in seeking the repayment of benefit overpayments:

- Recovery generally occurs in cases where there is no ongoing benefit payment stream as of ▸DOPT, although exceptions exist (see TP 6 Recover Overpayments).
- Recoupment generally occurs in cases where there is an ongoing benefit payment stream as of DOPT, although exceptions exist (see TP 7 Recoupment).
- Administrative correction occurs when it is possible to immediately correct erroneous payments without recourse to recovery or recoupment.

This procedure covers administrative correction, including:

- Stop payment orders: A method to correct erroneous check payments, such as a check to a deceased payee or a duplicate check.
- ▸ACH reclamation: A method to correct erroneous ▸ACH payments when the overpayment is due to the death of the recipient and fewer than five days have elapsed since the date PBGC was notified of the death.
- Benefit suspension: In the context of administrative correction, a method to correct a duplicate payment or overpayment due to death by temporarily suspending the debtor's ongoing payments for one to two months.

## TP 2.1 Apply Administrative Correction to Benefit Overpayment

**07/01/2016**

| | |
|---|---|
| **Purpose** | To promptly correct an overpayment. |
| **Guidance** | Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br><br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/PVA/FBA |

1. Determine whether administrative correction applies to the overpayment situation and obtain management concurrence before proceeding.
2. Determine the appropriate method for seeking repayment of the erroneous payments and initiate administrative correction based on the scenario:
   - **Duplicate monthly payments:**
     a. If the number of recipients of duplicate payments is small and there is sufficient time to stop payment, complete an eCARF to issue a stop payment order.
     b. If issuing a stop payment order, draft an *eALG Generic* letter to advise the affected payees as soon as practicable of the administrative correction, including:
        - Reason for the correction
        - How the correction will be handled (stop payment)
        - Dates of payments impacted by the corrective action
        - Date the normal payment stream will resume
     c. If the number of recipients is large, there is insufficient time to stop payment, or the stop payment order fails, proceed according to the number of duplicate payments to each payee:
        - For payees who received and did not return duplicate monthly payments for one or two months, proceed to TP 2.2 Suspend Benefits to Correct Overpayment.
        - For payees who received and did not return duplicate monthly payments for more than two months, use ▸recoupment instead of suspension to seek repayment (see TP 7 Recoupment).
   - **Duplicate annual payments:** Contact ASK PPD for guidance.
   - **ACH payments to a deceased payee received by the beneficiary:** Proceed to TP 6.1C Recovery Due to Death.
   - **Check payments to a deceased payee received by the beneficiary:** Proceed to TP 6.1C Recovery Due to Death.
   - **Incorrect payments due to clerical error:** Send an e-mail to ASK PPD summarizing the circumstances (for example, transposed digits in the payment amount) and requesting guidance.
   - **Scenario not listed:** Contact ASK PPD for guidance.

## TP 2.2 Suspend Benefits to Correct Overpayment

**07/01/2016**

| | |
|---|---|
| **Purpose** | To attempt benefit suspension as a correction to overpayment. |
| **Guidance** | Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br><br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/PVA/FBA |

Follow this procedure to suspend benefits to correct overpayments resulting from:

- Death: Follow this procedure when the debtor is a beneficiary entitled to continuing benefit payments and prior attempts to collect the overpayment by ▸ACH reclamation (see TP 2.3 Initiate ACH Reclamation) or stop payment orders (see TP 6.1C Recovery Due to Death) were not successful or resulted in partial repayment.
- Duplicate payments: Follow this procedure following an unsuccessful stop payment order, or when a stop payment order is not appropriate (see TP 2.1 Apply Administrative Correction to Benefit Overpayment for more information).

1. If the overpayment is due to duplicate payments, proceed to step 2. If the overpayment is due to death and the debtor is a beneficiary entitled to continuing benefit payments:
   a. Proceed according to the amount of the debt:
      - Debt exactly equals either one or two months of the beneficiary's payment: Continue to step b.
      - Debt does not equal one or two months of the beneficiary's payment: Apply recoupment (see TP 7 Recoupment).
   b. Call the beneficiary to request concurrence for PBGC to suspend payments for one or two months to collect the overpayment.
   c. Document the call in ▸CRM.
   d. Proceed according to the beneficiary's response:
      - Beneficiary concurs: Continue to step 2.
      - Beneficiary does not concur: Apply recoupment (see TP 7 Recoupment).
2. In ▸Spectrum, suspend payment for one or two months.
3. Draft an *eALG Generic* letter to advise the affected ▸payees as soon as practicable of the administrative correction, including:
   - Reason for the correction
   - How the correction will be handled (benefit suspension)
   - Dates of payments impacted by the corrective action
   - Date the normal payment stream will resume
4. Send the draft letter to Ask PPD for concurrence.
5. Issue the approved letter to each affected payee as soon as practicable.
6. If suspending the benefits of multiple debtors, image a sample copy of an issued letter, along with the draft letter indicating ▸PPD concurrence, to the plan file in ▸IPS.

Top of Page

## TP 2.3 Initiate ACH Reclamation

**09/30/2016**

| | |
|---|---|
| **Purpose** | To initiate an ACH reclamation in order to correct payments issued to a deceased payee. |
| **Guidance** | *PLUS Web Manual*<br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br>*Recovering an Overpayment Minus Federal Tax Withholding Guidance* |
| **Procedure Owner** | EBLS/PVA/FBA |

To recover ▸ACH payments made to an account after the death of the intended payee, request an ▸ACH reclamation as soon as possible based on how the death was reported:

- Upon receiving a report of death, request ACH reclamation **within four business days**.
- If notified through Death Match and there is no response to the Death Match letter within 21 days of the letter date, initiate an ACH reclamation request **within four business days after the 21st day has elapsed**.

**Note** ▸NACHA rules permit ACH reclamations within five business days of the report of death. The four-day time limit is to allow one day for ▸BPD to process the request.

ACH reclamations are only possible in death situations; that is, when PBGC issues a payment after the death of the intended recipient.

1. Review the ▸PLUS ledgers to ensure the outstanding payments have not already been credited before initiating a reclamation. For a scheduled ACH payment that has not yet been issued:
   - Initiate an ▸ACH deletion request, if still possible.
   - If it is too late to request ACH deletion, but still before the settlement (payment) date, proceed immediately to request an ACH reclamation according to this procedure—do not wait until the settlement date.
2. Open the ACH Reclamation Portlet and complete all required fields. Remember to request the net amount of the payment(s), not the gross. (▸PBGC's paying agent will attempt to obtain any taxes withheld from recovered payments.)
3. Forward the request to PBGC's paying agent via the portlet.
4. Upon PBGC's paying agent's e-mail confirmation that the action has been initiated, image the reply e-mail to the payee's ▸IPS file. PBGC's paying agent normally responds within 24 hours. However, for recently issued payments (or imminent payments that cannot be stopped), PBGC's paying agent must wait until five calendar days have passed after the payment settlement date before taking action on the request.
5. Proceed according to the response from PGBC's paying agent:
   - **Completed—No Funds Reclaimed:** Proceed according to whether the debtor is a ▸beneficiary entitled to continuing payments:
     - Debtor is not the contingent annuitant or is not entitled to continuing benefit payments: Return to TP 6.1C Recovery Due to Death to process the overpayment
     - Debtor is a contingent annuitant entitled to continuing benefit payments: Proceed to TP 2.2 Suspend Benefits to Correct Overpayment.
   - **Completed—Total Funds Received:** On receiving notification from the PBGC Portal, return to TP 6.1C Recovery Due to Death to close out the case.
   - **Completed—Partial Funds Received:** On receiving notification from the PBGC Portal, proceed according to whether the debtor is a ▸beneficiary entitled to continuing payments:
     - Debtor is not the contingent annuitant or is not entitled to continuing benefit payments: Process the remainder of the overpayment as a recovery according to TP 6 Recover Overpayments.

    - Debtor is a contingent annuitant entitled to continuing benefit payments: Proceed to TP 2.2 Suspend Benefits to Correct Overpayment.
- **No Action Taken:** Proceed according to the explanation the paying agent provides.
- **No Response within 30 Days:** Follow up with the paying agent to determine the status of the reclamation and proceed according to the paying agent's response.

> **Note** If the need arises to issue a non-benefit payment, refer the matter to the PSD/BPD Management Analyst. This may be required, for example, to reimburse a check-cashing agency for fees incurred for cashing a PBGC check with a stop payment order, or to issue an overpayment refund when an ACH reclamation is successful and a check is also received to repay an overpayment.

# TP 3 Plan Expenses

**In this Section**

TP 3. Overview for Plan Expenses
TP 3.1 Pay Plan Expenses
TP 3.2 Resources for Plan Expenses

## TP 3. Overview for Plan Expenses

**07/01/2016**

In accordance with PBGC Directive FM 05-3 Expenses Payable From Plan Assets, the Trust Fund, and the Revolving Fund; Reimbursement of the Revolving Fund, PBGC pays invoices from service providers for certain plan-related expenses. After determining that the charges should be paid, the ▸auditor determines whether the expense should be paid from PBGC's Trust Fund or Revolving Fund.

Expenses payable from the Trust Fund are categorized according to when they were incurred.

- Expenses incurred prior to ▸DOPT: These can be paid only if plan assets were available as of DOPT. If plan assets are insufficient to pay the expenses, consult the Director, ▸OPCMD on how to proceed.
- Expenses incurred on or after DOPT and before ▸DOTR: All reasonable and necessary expenses incurred to administer the ▸plan may be paid. However, if plan assets are insufficient to pay these expenses, the Revolving Fund is used instead.
- Expenses incurred after DOTR: Post-trusteeship services normally performed by PBGC staff for ▸trusteed plans should be entirely assumed by PBGC staff as quickly as possible. However, reasonable and necessary services may be performed by service providers and paid for out of the Trust Fund during the period within several months of trusteeship. Necessary services are those required for PBGC to operate the trusteed plan, typically when third parties continue to administer terminated pension plans during the period before PBGC is able to exercise control or to acquire the assets. If plan assets are insufficient to pay the expenses, the Revolving Fund is used instead.

Expenses paid from the Revolving Fund (in addition to those mentioned above) are those incurred by PBGC when performing its statutory functions for services related to plan termination.

See the directive for additional examples and guidance on the types of expenses payable from each fund.

The auditor maintains a spreadsheet listing all invoices received for each plan and the cumulative totals. The required approval level for any payment depends on the amount of the invoice and the cumulative total of invoices received to date. Invoices and supporting documentation are routed to the OPCMD for payment.

## TP 3.1 Pay Plan Expenses

**07/01/2016**

| | |
|---|---|
| **Purpose** | To pay legitimate, authorized plan expenses. |
| **Guidance** | PBGC Directive FM 05-3 Expenses Payable From Plan Assets, the Trust Fund, and the Revolving Fund; Reimbursement of the Revolving Fund |
| **Procedure Owner** | Auditor |

**Auditor**

1. Determine whether the invoice is valid and should be paid.
   - If the invoice is valid and should be paid, proceed to step 2.
   - If the invoice does not appear valid or additional documentation is needed, notify the service provider.

   The invoice must include the ▸plan name, a description of the services performed (including the hours worked and the hourly rate charged, if applicable), and the total amount of the invoice. Obtain additional documentation, if necessary.
2. Obtain a letter certifying that payment for these services has never been received, if not already provided.
3. Create and maintain a spreadsheet to list all invoices received for a plan. Include the following data:
   - Service provider
   - Date of invoice
   - Invoice amount
   - Date delivered
   - Cumulative total of all invoices
4. Post a read-only copy of the spreadsheet in the I:\ drive folder for the plan.
5. Prepare a *PBGC Form 260 Departmental Purchase/Reimbursement Request* (requisition) from PBGC intranet and attach the invoice. The requisition should contain the following information:
   - Name and Address of the Vendor/Service Provider
   - Wire Transfer Information (if available)
   - Name of Plan
   - ▸PBGC Case Number
   - ▸DOPT
   - ▸DOTR
   - Brief description of the type of expense to be paid (generally a sentence or two).
   - The fund the expenses should be paid from (Trust Fund or Revolving Fund)

   If the amount to be paid is associated with more than one plan, allocate a portion to each plan.
6. Prepare the *Concurrence to Pay Plan Expenses* based on the invoice amount and the cumulative total of all invoices (including the current invoice) paid to date:
   - **Invoice is for $1,000 or more AND the cumulative total (including the current invoice) is $50,000 or greater:** Prepare the *Concurrence to Pay Plan Expenses* to the Chief of Benefits Administration and Director, ▸OBA.
   - **All other invoices:** Prepare the *Concurrence to Pay Plan Expenses* to the Director, ▸OPCMD.

   > **Note** The *Concurrence to Pay Plan Expenses* memo requires a determination of whether the invoice is to be paid from the Trust Fund or Revolving Fund. See PBGC Directive FM 05-3 Expenses Payable From Plan Assets, the Trust Fund, and the Revolving Fund; Reimbursement of the Revolving Fund for guidance.
7. Prepare the *Concurrence to Pay Plan Expenses Transmittal Slip* for the initials of the Case Management Analyst, ▸CMB.
8. Prepare the *Plan Expenses Invoice Payment Checklist.*

9. Obtain approval of the Supervisory Case Management Analyst, ▸CMB on the *Concurrence to Pay Plan Expenses*, *Plan Expenses Invoice Payment Checklist* and *Concurrence to Pay Plan Expenses Transmittal Slip*.
10. Forward the approved *Concurrence to Pay Plan Expenses Transmittal Slip* with the attached invoice, *Plan Expenses Invoice Payment Checklist*, *Concurrence to Pay Plan Expenses* and all required supporting documentation clearly labeled to the OBA Front Office.

    When the payment is approved, the OBA Front Office forwards the approved invoice to ▸FOD for payment and returns the supporting documentation to the ▸auditor who requested the payment.
11. Upon receipt, image the copies of the approved invoice and supporting documentation to the ▸IPS plan file. See TP 16.1 Maintain Plan File.

# TP 4 Participant Addresses and EDD Elections

**In this Section**

TP 4. Overview for Participant Addresses and EDD Elections
TP 4.1 Process Returned Mail for Address Changes
TP 4.2 Update Participant Addresses
TP 4.3 Make or Change EDD Elections
TP 4.4 Administer the Outbound Call Campaign
TP 4.5 Resources for Participant Addresses and EDD Elections

# TP 4. Overview for Participant Addresses and EDD Elections

**07/01/2016**

This procedure describes how to verify participant addresses, process address changes, and process ▸EDD elections.

This overview outlines PBGC participant communications in general, followed by specific information on address verification, address changes, and EDD elections:

- Participant Information and Communications:
  - Collecting Participant Information
  - Communicating with Participants
- Addresses and EDD elections:
  - Changing Addresses and EDD Elections
  - Searching and Verifying Participant Addresses
  - Notice of Missing Addresses
  - Searching for Missing Addresses
  - Administering the Outbound Call Campaign

**Collecting Participant Information**

When PBGC trustees a pension plan, it obtains as much information about participants and their current whereabouts as possible from the plan sponsor and/or the ▸plan administrator. ▸CFRD's initial case processing includes collection of basic ▸participant information prior to formal trusteeship.

Although initially CFRD and later the Data Collection Branch requests this information from the prior plan administrator, or employer or any other potential resource, records may be incomplete or simply not up to date because participants may have moved and failed to keep their pension plan or former employer informed of address changes.

**Communicating with Participants**

In addition to needing participant information to pay benefits when due, ▸OBA also strives to maintain ongoing communications with participants in trusteed plans. This process includes:

- Providing the initial notice of trusteeship of the plan. See Process 9.5 Notify Participants.
- Providing ongoing efforts to obtain required information to value the plan and determine the participant's benefits.
- Issuing newsletters to retirees.
- Issuing Benefit Determination Letters to participants. See Process 19 Benefit Determination Letters.
- Sending advance notices of retirement eligibility and upcoming benefit changes.

**Changing Addresses and EDD Elections**

> **Note** Envelopes with checks addressed to PBGC customers bear the return address of the DMC rather than PBGC's paying agent, as they did previously. This changes how OBA processes checks returned for bad address. See Processing Checks Returned for Bad Address Interim Procedures for guidance.

Accurate address information supports OBA's customer service and permits timely communication with participants. OBA works to maintain current addresses for all participants.

There are several types of address changes:

- Home
- Bank (for checks mailed directly to the participant's bank)
- EDD elections and changes

Accurate records of address changes are necessary for PBGC to provide quality participant service. Changes of address should be made as soon as possible, but always within five business days of receipt of a request. The most efficient means of updating an address is through ▸CRM, which automatically generates a confirmation letter to the participant.

These notifications of changes come into PBGC by several means:

- Telephone call to ▸CCC, ▸EBLS, or ▸FBA
- Written notification from the participant
- Electronic notification from the participant via ▸MyPBA
- Correspondence returned for bad address and/or forwarding address information from the post office
- NCOA

When a participant submits an address change via MyPBA, Genesis automatically updates the address and generates an e-mail confirmation. These transactions require no action by the processing staff.

**Searching and Verifying Participant Addresses**

Included in PBGC's mission is to "Provide for the timely and uninterrupted payment of pension benefits to participants and beneficiaries." Thus, the need to find and verify the addresses of participants who may be due benefits is critical to the fulfillment of our mission.

**Notice of Missing Addresses**

PBGC often learns that a participant's address is no longer current when mail is returned. OBA sends mail using "Address Service Requested." If ▸USPS has a forwarding address on file, it is provided to PBGC but not updated in the customer database until verified.

**Searching for Missing Addresses**

Upon notice that a mailing address is no longer current, PBGC reviews its records (▸PBGC Image Viewer, CRM, ▸Spectrum) to determine whether the address used is the most current address on file, and if not, updates the participant address as invalid. Once reviewed and updated, the next step is to use the approved locator tool and other resources available to search for the addresses. An address is not changed in the customer database until verified.

**Administering the Outbound Call Campaign**

When PBGC receives documents from an individual without a known relationship to a PBGC trusteed plan via mail, DMC runs searches to identify whether the individual is a participant or beneficiary of a plan. If the individual is a participant or beneficiary, DMC images the documents to the participant file in IPS. If unable to associate the participant or beneficiary with a plan, DMC contacts the individual to request further information.

On a quarterly basis, the DMC reviews the database of customers with discrepancies between NCOA and PBGC records and calls any participants not in pay to correct discrepancies and update the addresses as needed. The EBLS/FBA/PVA/PBA also review the list and contact any participants in pay to correct discrepancies and update the addresses as needed.

## TP 4.1 Process Returned Mail for Address Changes

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine if current and complete participant addresses are on file in CRM. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/PVA/FBA/PBA, DMC |

**Note** Envelopes with checks addressed to PBGC customers bear the return address of the DMC rather than PBGC's paying agent, as they did previously. This changes how OBA processes checks returned for bad address. See Processing Checks Returned for Bad Address Interim Procedures for guidance.

Addresses in ▸Spectrum should be traceable to a source in PBGC's records, for example ▸CRM or ▸IPS (participant or plan).

▸DMC images incoming mail, including returned mail (see TP 4.1A Process Returned Mail). DMC forwards the available information to the ▸EBLS/▸PVA/▸FBA to research further (see TP 4.1B Verify Participant Addresses).

**In this Section**

TP 4.1A Process Returned Mail
TP 4.1B Verify Participant Addresses

**TP 4.1A Process Returned Mail**

**07/01/2016**

> **Note** Envelopes with checks addressed to PBGC customers bear the return address of the DMC rather than PBGC's paying agent, as they did previously. This changes how OBA processes checks returned for bad address. See Processing Checks Returned for Bad Address Interim Procedures for guidance.

**DMC**

1. Review the returned mail.
2. Scan or image the mail into ▸IPS. See TP 16 Plan and Participant File Maintenance.

   Applying the index type in IPS creates a service request (SR) in ▸CRM.
3. Proceed according to whether the participant is in pay:
   - Not in pay: Mark the address as invalid in ▸Spectrum and continue to step 4.
   - In pay: Continue to step 4.
4. Forward the request to the Mail ▸POC.

**TP 4.1B Verify Participant Addresses**

**08/28/2014**

Use this procedure to update addresses of customers whose mail has been returned for bad address. It may also be used for other situations where PBGC does not have current customer addresses, for example, the prior plan administrator has indicated they are invalid or does not provide them.

Updating an address in ▸CRM generates an automated confirmation letter to the new and old addresses.

**EBLS/PVA/FBA**

1. Review CRM and ▸PBGC Image Viewer to determine if any new address information from the ▸participant has been received but is not yet updated in ▸Spectrum:
   - If CRM or ▸IPS contains new address information, update the address using CRM and send any returned mail to the new address, as needed. No further action is required for this procedure.
   - If neither CRM nor PBGC Image Viewer contains new address information, continue to step 2.
2. Search for the customer's current address using the approved locator tool.
3. Using telephone numbers provided by the locator search, attempt to call the customer to confirm the current address. Telephone numbers from other sources, such as the customer's IPS and CRM records and from Internet searches, may also be used. Document calls in CRM.
4. Proceed based on the results:
   - **Telephone contact is successful and address is confirmed:** Update the address and document the call in CRM. Send any previously returned mail and other correspondence to the new address, as needed. No further action is required for this procedure.
   - **Telephone contact is unsuccessful:** Proceed to step 5.
5. If a potential address is found using the locator tool or another source, prepare an *Address Verification Letter* using MS Word.
   a. Complete all bracketed fields in the letter.
   b. Use the most recent address from the locator search. Letters may be sent to multiple addresses if it is not clear which one is current.
   c. Before sending, image a copy of the letter to the participant's IPS file. See TP 16 Plan and Participant File Maintenance.
   d. Mail the letter.

   > **Note** This *Address Verification Letter* is prepared in MS Word instead of ▸eALG. Issuing the letter through eALG would require updates to the customer's Spectrum record indicating the address is valid before it has been verified.
6. If the participant calls or writes to confirm the current address, treat it as an address change request and proceed according to TP 4.2 Update Participant Addresses.

   Customers may change their address via ▸MyPBA in response to the letter, which automatically updates the address in Spectrum. See TP 48.1 Process MyPBA Correspondence.

## TP 4.2 Update Participant Addresses

**07/01/2016**

| | |
|---|---|
| **Purpose** | To update a participant's home or bank address in a timely manner. |
| **Guidance** | OBA Customer Service Standards<br>Policy 8.4-1 Power of Attorney and Guardianship<br>Policy 8.5-1 Signature by Mark<br>TGBR |
| **Procedure Owner** | CCC, DMC EBLS/PVA/FBA/PBA |

Notice of a new home or bank address are received by telephone, in writing, and through ▸MyPBA. MyPBA requests are addressed in TP 48 MyPBA Correspondence.

Only the participant or their authorized representative can request address changes by telephone (see TP 49 Power of Attorney and Guardianship). For details on acceptable signatures for written requests, see Appendix J Participant Forms Information.

Addresses in ▸Spectrum should be traceable to a source in PBGC's records, for example, ▸CRM or ▸IPS (participant or plan).

▸CCC, ▸EBLS, or ▸FBA may receive calls regarding address changes (see TP 4.2A Update Participant Address Based on Telephone Notification). Verify the caller's identity, exercising judgment to determine if the caller is the participant. When in doubt, (for example, because the caller is unable to provide information such as ▸SSN, ▸DOB, old address and name of company) request that the participant submit a written notification of the address change, including name, SSN, old address, and signature. ▸CSRs process calls from the participants and forward calls from the authorized representatives to the ▸EBLS/FBA/▸PVA/▸PBA.

Process all written notifications of address changes through CRM (see TP 4.2B Update Participant Address Based on Written Notification). PBGC does not require a "wet" signature (written notice with actual signature) to change an address.

Any returned mail and address update requests received by PBGC's paying agent are forwarded to the ▸DMC.

> **Note** Envelopes with checks addressed to PBGC customers bear the return address of the DMC rather than PBGC's paying agent, as they did previously. This changes how OBA processes checks returned for bad address. See Processing Checks Returned for Bad Address Interim Procedures for guidance.

**In this Section**

TP 4.2A Update Participant Address Based on Telephone Notification
TP 4.2B Update Participant Address Based on Written Notification

Top of Page

**TP 4.2A Update Participant Address Based on Telephone Notification**

**07/01/2016**

**CCC, EBLS, PVA, PBA, or FBA**

1. Establish a call record in ▸CRM.
2. Verify the caller is the ▸participant or someone authorized to make changes:
   - If the caller is the participant or an authorized representative, update the CRM with the new address information.
   - If the caller is not the participant or authorized representative, or there is reason to doubt the caller's identity, ask the caller to submit a written notification of the address change, including name, ▸SSN, old address, and signature.

     The participant may have an acceptable power of attorney (see TP 49 Power of Attorney and Guardianship) or, if calling as an executor, a death notice on file (see TP 5 Death Processing).
3. Implement the address change through CRM. Also request or confirm the customer's current e-mail address, and update CRM as needed.

   CRM automatically generates a confirmation letter to the participant's old and new addreses.

**TP 4.2B Update Participant Address Based on Written Notification**

**07/01/2016**

OBA sends mail using "Address Service Requested," which means that when mail is sent to a wrong address the USPS returns the mail with any forwarding address on file with the USPS. If OBA sends mail to an incorrect address, it does one of the following:

- Forwards the mail to the new address on record, and sends a card with the new address to OBA.
- Returns the mail to OBA if there is no forwarding address or it has expired.

Participant correspondence received directly at PBGC comes into the DMC, whether it is for headquarters or FBA staff. The DMC scans all participant mail into IPS and records it in CRM, which notifies the EBLS/FBA/PVA/PBA to respond to participant's inquiries and to make updates.

In general, the DMC does not process address changes that impact the payment destination.

**DMC**

1. Upon receipt, process all participant written notifications as mail. Process address requests based on the participant and request type:
   - Participant (deferred vested or payee) request to change participant address: Continue to step 2.
   - Non-Participant request to change participant address: No further action required on this procedure.
   - Request to change EDD election: Continue to TP 4.3 Make or Change EDD Elections. No further action required on this procedure.
2. If the request is from a participant, review the address change request:
   a. Scan or image the request into IPS. See TP 16 Plan and Participant File Maintenance.
   b. Create a service request in CRM.
   c. Check the completeness of the address information of the written request:
      - If all the information is complete, make the address changes in CRM.
      - If information is missing, or DMC is otherwise unable to update, forward the service request to the FBA for processing.

**EBLS/PBA/FBA**

3. Verify the request is from the participant or someone authorized to make changes.

   The participant may have an acceptable power of attorney (see TP 49 Power of Attorney and Guardianship) or, if acting as an executor, a death notice on file (see TP 5 Death Processing).
4. Verify that the signature is acceptable (see Appendix J Participant Forms Information and Policy 8.5-1 Signature by Mark).
5. Contact the participant as needed to confirm the request and implement changes to home and bank addresses through CRM. Also request or confirm the customer's current e-mail address, and update CRM as needed.

   CRM automatically generates a confirmation letter to the participant.

> **Note** TGBR may be used as a resource for bank information. An individual in each CSB and FBA has access to this online service. Also, see the *TGBR Job Aid* for further information.

Top of Page

## TP 4.3 Make or Change EDD Elections

**07/01/2016**

| | |
|---|---|
| **Purpose** | To implement or change payees' elections for electronic direct deposit (EDD). |
| **Guidance** | OBA Customer Service Standards<br>Policy 8.4-1 Power of Attorney and Guardianship<br>Policy 8.5-1 Signature by Mark<br>*Spectrum User Manual*<br>TGBR |
| **Procedure Owner** | CCC, EBLS/FBA/PVA/PBA, DMC |

Accurate and complete data for ▸EDD is necessary to ensure that ▸PBGC's paying agent can electronically transmit benefit payments to a ▸participant's bank. *Form 710 Application for Electronic Direct Deposit* is available for participants to make a written election of (or changes to) their EDD payment information. However, PBGC does not require a "wet" signature to implement or change an election. Telephone notification from the ▸payee is acceptable unless PBGC suspects that the call is not legitimate. It is preferable to obtain all information requested by *Form 710 Application for Electronic Direct Deposit* from the payee; however, the following minimum information is required:

- Bank Name (▸CRM only)
- Bank Routing Number
- Account Number
- Account Type (savings, checking)
- Name(s) on the account

PBGC may receive notification of changes to EDD elections by telephone (see TP 4.3A Make or Change EDD Election Based on Telephone Notification) or in writing (see TP 4.3B Make or Change EDD Election Based on Written Notification).

**In this Section**

TP 4.3A Make or Change EDD Election Based on Telephone Notification
TP 4.3B Make or Change EDD Election Based on Written Notification

Top of Page

**TP 4.3A Make or Change EDD Election Based on Telephone Notification**

**07/01/2016**

▸CCC typically receives telephone notifications to PBGC for ▸EDD elections, but ▸CSD may also get these calls directly too. To review guidelines in processing all participant related telephone calls, see Appendix N Correspondence and Phone Call Guidelines.

**CCC, EBLS/FBA/PVA/PBA**

1. Verify the caller is the participant or someone authorized to make changes.

   The participant may have an acceptable power of attorney (see Policy 8.4-1 Power of Attorney and Guardianship) or, if calling as an executor, a death notice on file (see TP 5 Death Processing).

2. If electing new or revised EDD, ensure the caller has (at minimum):
   - Bank Name (▸CRM only)
   - Bank Routing Number
   - Account Number
   - Account Type (savings, checking)
   - Name(s) on the account (the payee's name **must** be on the account)
3. If able to verify that the caller is the participant or their authorized representative, update CRM with the new or revised EDD information.
4. Implement the change through CRM. Also request or confirm the customer's current e-mail address, and update CRM as needed.

   CRM automatically generates a confirmation letter to the participant.
5. Based on the check cycle, advise the caller of the payment month that the change takes effect.
6. Document the customer contact accurately in CRM.

**TP 4.3B Make or Change EDD Election Based on Written Notification**

**07/01/2016**

▸Participant correspondence received directly at PBGC comes into the ▸DMC, whether it is for headquarters staff or ▸FBA staff. DMC scans all participant mail into ▸IPS and records in ▸CRM. The ▸EBLS/FBA/▸PVA/▸PBA and FBAs rely on CRM to respond to participant inquiries and make updates.

Use CRM for all participant-initiated requests.

**DMC**

1. Verify the requestor is the participant or someone authorized to make changes:
   - Participant or authorized individual: Continue to step 2.
   - Not participant or authorized individual: Enter the request in CRM and forward to the FBA.

   If the request is from an individual claiming to hold power of attorney or be the executor for a participant, forward to the EBLS/FBA/PVA.
2. Verify that the ▸EDD banking information is complete for the written request:
   - If complete, process the change request in CRM.
   - If not complete, enter the request in CRM and forward to the EBLS/FBA/PVA/PBA.

   | **Note** The request must state that the payee's name is on the account to be complete. |
   |---|
3. If the EDD request is missing a signature, or the signature contains a mark, enter the request in CRM and forward to the EBLS/FBA/PVA/PBA.

**EBLS/FBA/PVA/PBA**

4. Verify the requestor is the participant or someone authorized to make changes.

   The participant may have an acceptable power of attorney (see Policy 8.4-1 Power of Attorney and Guardianship) or, if calling as an executor, a death notice on file (see TP 5 Death Processing).
5. If the *Form 710 Application for Electronic Direct Deposit*, or other written notification, is incomplete or lacks an acceptable signature:
   a. Contact the participant by telephone. See Appendix N Correspondence and Phone Call Guidelines.
   b. If unable to reach the participant by telephone, return the form to the participant with *eALG 530 Request for Additional Documentation/Information*.
   c. Once the participant completes and returns a form with an acceptable signature, continue to step 6.

   | **Note** The request must state that the payee's name is on the account to be complete. |
   |---|
6. Enter the request into CRM:
   - If electing a new bank for EDD or creating a new EDD election, create a new entry record.
   - If updating other EDD information, update the existing entry record.
   - If provided on the form, record or update the customer's e-mail address in CRM.

   CRM issues an automated confirmation letter to the participant.

Top of Page

## TP 4.4 Administer the Outbound Call Campaign

**07/01/2016**

| | |
|---|---|
| **Purpose** | To contact participants concerning unidentifiable documents received in incoming correspondence. |
| **Guidance** | OBA Customer Service Standards<br>CRM Home Page<br>*Spectrum User Manual* |
| **Procedure Owner** | DMC |

The ▸DMC uses the Outbound Call Campaign to contact ▸participants concerning unidentifiable documents in incoming correspondence. The DMC researches applications (for example, ▸IPS and ▸CRM) to verify the participant's information. The DMC contacts the participant only when the unidentifiable documents come through a Post Office box. Quarterly, the DMC checks the NCOA database for current and correct information for the participant.

**In this Section**

TP 4.4A Process Unidentifiable Documents
TP 4.4B Validate Addresses Against the National Change of Address Database

**TP 4.4A Process Unidentifiable Documents**

**08/30/2012**

When PBGC receives documents from an individual without a known relationship to a PBGC trusteed plan via mail, DMC runs searches to identify whether the individual is a participant or beneficiary of a plan. If the individual is a participant or beneficiary, DMC images the documents to the participant file in IPS. If unable to associate the participant or beneficiary with a plan, DMC contacts the individual to request further information.

**DMC**

1. Research in ▸IPS, ▸CRM, and approved service locator for the individual's information:
   - If the individual is associated with a PBGC-▸trusteed plan, image the documents to the ▸participant file in IPS.
   - If the individual is not associated with a PBGC-trusteed plan, return the individual's original documents with a cover letter indicating the reason for the return.
   - If unable to determine whether the individual is associated with a PBGC-trusteed plan, contact the individual to request additional information.

**TP 4.4B Validate Addresses Against the National Change of Address Database**

**07/01/2016**

On a quarterly basis, the DMC reviews the database of customers with discrepancies between NCOA and PBGC records and calls any participants not in pay to correct discrepancies and update the addresses as needed. The EBLS/FBA/PVA/PBA also review the list and contact any participants in pay to correct discrepancies and update the addresses as needed.

**DMC**

1. Compare the non-payee addresses in the NCOA database to the PBGC customer addresses in ▸Spectrum:
   - No discrepancies: No action required.
   - Discrepancies: Call the ▸participant to request verification of the address change:
     - Address Change Verification: Correct discrepancy and update the participant's record with the information.
     - No Address Change Verification: Provide the participant with the PBGC phone number for future address changes.

## TP 4.5 Resources for Participant Addresses and EDD Elections

**09/30/2016**

**Forms, Letters, and Memos:**

TP 5. Overview for Death Processing
TP 5.1 Process Report of Death
TP 5.2 Correct Erroneous Death Entries
TP 5.3 Respond to Death Processing Program Service Requests
TP 5.4 Determine Continuing Benefits (Survivor Benefits)
TP 5.5 Determine Qualified Preretirement Survivor Annuities
TP 5.6 Determine Other Payments
TP 5.7 Determine Beneficiaries
TP 5.8 Resources for Death Processing

## TP 5. Overview for Death Processing

**03/26/2010**

When a participant, beneficiary of a deceased participant, or alternate payee under a Qualified Domestic Relations Order ( ▸QDRO) dies, PBGC must:

- Process a death notification received by:
  - Telephone
  - Mail, including correspondence and returned mail and checks
  - Death Processing Program Service
- Process returned benefit payments.
- Seek recoupment or recovery of payments made after the date of death (▸DOD).
- Determine if additional payments are due, and if so, to whom payment should be made and when. On occasion, correct an erroneous death report.

Payments due at death may include:

- **Survivor benefits:** Annuity payments payable to a beneficiary or survivor (that is, survivor benefits) as provided under the form of benefit a payee was receiving on DOD.
- **Qualified pre-retirement survivor annuity:** A benefit payable to a surviving spouse effective the later of the month after a participant's death or the participant's earliest retirement date.
- **Other amounts owed:**
  - Payments owed to a deceased payee as of DOD (see Policy 6.3-1 Underpayment Reimbursement and Interest Payments).
  - Lump-sum ▸death benefits, which are rare and usually not guaranteed benefits.

The procedures that follow provide direction, guidance, and requirements for handling reports of death. The goal is to process each death report promptly and correctly and:

- Prevent potential loss of funds from overpayments to participants.
- Minimize time spent tracking and recovering overpayments to participants.
- Ensure that living payees continue to receive timely payments.
- Ensure that survivor benefit payments and/or other payments due at death are made timely and accurately to a deceased individual's beneficiary when due.

# TP 5.1 Process Report of Death

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process a participant's report of death. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

This procedure covers a report of death received via telephone or mail. Complete either TP 5.1A Process Report of Death by Telephone or TP 5.1B Process Report of Death by Mail.

For reports of death received through the Death Processing Program, see TP 5.3 Respond to Death Processing Program Service Requests.

For cases in which an initial report of death is later found to be erroneous, see TP 5.2 Correct Erroneous Death Entries.

**In this Section**

TP 5.1A Process Report of Death by Telephone
TP 5.1B Process Report of Death by Mail

**TP 5.1A Process Report of Death by Telephone**

**07/01/2016**

A report of death by telephone may come into the Customer Contact Center (CCC), or directly to an ▸EBLS/▸FBA/▸PVA/▸PBA. If ▸CCC receives the call, CCC:

- Collects the caller's and deceased individual's information.
- Inquires whether there is a surviving spouse.
- Advises the caller that PBGC will send a letter with instructions on providing the death certificate and returning any payments made after the date of death (DOD).
- Creates a service request for the EBLS/FBA/PVA/PBA.

Upon receiving the service request, the ▸EBLS/▸PBA/FBA completes steps 4–7 of this procedure. If the EBLS/FBA/PVA/PBA receives the call, the EBLS/PBA/FBA completes all steps in this procedure.

**EBLS/PBA/FBA**

1. Obtain the following information and enter into ▸CRM:
   - Deceased individual's name, Social Security Number (▸SSN), address, and date of death (DOD).
   - Whether there is a surviving spouse, and identifying information if so (name, SSN, address, and date of birth (DOB))
   - Name of the caller, relationship, and contact information for further communications from PBGC.

   If the caller is not related to the deceased individual, or unable to provide all required information, obtain contact information about known relatives of the deceased.
2. Inform the caller that PBGC will send, in writing, to the appropriate parties:
   - A request for proof of the death.
   - A request for return of payments made after ▸DOD, if applicable.
   - Information about potential survivor benefits and/or other money that may be due.
3. Document the call in CRM before continuing to step 4.
4. Determine if any payments were made after the month of death:
   - No Payments Made after Month of Death and no Pending Payments: Proceed to step 5.
   - No Payments Made after Month of Death, but Pending Payments Exist:
     a. Complete an eCARF to stop the payment.
     b. Image the eCARF to the deceased participant's ▸IPS file.
     c. Proceed to step 5.
   - Payments Made after Month of Death or Unstoppable Pending Payments Exist: Initiate recovery action (see TP 6 Recover Overpayments).
5. Estimate the level of effort required to determine what benefits may be payable.
   - If the determination can be made within five business days, proceed to step 6.
   - If the determination cannot be made within five business days, issue the appropriate ▸eALG letter to acknowledge the death notification (see eALG Correspondence Help) before proceeding to step 6.
6. Complete the following tasks as needed:
   - Update CRM, ▸Spectrum, and the deceased person's file in IPS.
   - Confirm that payments have been stopped in Spectrum.
   - Request return of overpayments.
   - Notify beneficiaries of their eligibility and provide an application for benefits.
   - Confirm that proof of death is in the deceased person's file in PBGC Image Viewer.

7. Determine what benefits are payable by following the appropriate procedures:
    - Survivor Benefits: TP 5.4 Determine Continuing Benefits (Survivor Benefits)
    - ▶QPSAs: TP 5.5 Determine Qualified Preretirement Survivor Annuities
    - Other Benefits, Including Lump-Sum Payments and Payments Owed to the Deceased Payee: TP 5.6 Determine Other Payments

Top of Page

**TP 5.1B Process Report of Death by Mail**

**07/01/2016**

PBGC or ▸PBGC's paying agent may receive a report of death by mail in the form of correspondence, returned mail, or a returned check.

**EBLS/FBA/PVA/PBA**

1. Proceed according to the type of mail:
   - **Correspondence:** PBGC may receive correspondence (for example, a letter or note) specifically indicating that a ▸participant is deceased. Continue to step 2.
   - **Returned Mail:** The ▸USPS may return mail sent by PBGC, indicating that the addressee is deceased. Enter an assumed date of death (DOD) of 09/30/1997 in ▸CRM before continuing with this procedure. Update the assumed DOD with the actual DOD once proof of death is received.
   - **Returned Check:** Benefit checks may be returned to PBGC or PBGC's paying agent indicating that a ▸payee is deceased.
     - If the check is returned to PBGC, process according to TP 8 Process Received/Returned Check before continuing with this procedure.
     - If PBGC's paying agent receives a returned check, PBGC's paying agent credits the payment to the payee's account on ▸PLUS, enters an assumed DOD of 09/30/1997 in CRM, and sends PBGC an ▸eCARF. On receiving the eCARF, continue with this procedure. After receiving proof of death, update the assumed DOD with the actual DOD. See Appendix G Acceptable Proof of Age and Death.
2. Confirm that the notification of death contains the deceased person's:
   - Name.
   - ▸SSN.
   - Address.
   - Date.
   - Proof of Death. See Appendix G Acceptable Proof of Age and Death.
3. If any of the information identified in step 2 is missing:
   a. Review the report of death and the deceased person's ▸PBGC Image Viewer file to identify a contact for further information.
   b. Attempt to call the contact to request the needed information, and document the call attempt in CRM.
   c. If unable to reach the contact by telephone, customize and issue the appropriate ▸eALG letter (see eALG Correspondence Help) to request the missing information.
4. Record the DOD in ▸Spectrum.
5. Determine if any payments were made after the month of death (actual or assumed):
   - If no payments were made after the month of death and there are no pending payments, proceed to step 6.
   - If no payments were made after the month of death, but there are pending payments:
     a. Complete an eCARF to stop the payment.
     b. Image the eCARF to the deceased participant's file.
     c. Proceed to step 6.
   - If payments were made after the month of death, or there are pending payments that cannot be stopped, determine whether recovery action is required (see TP 6 Recover Overpayments) and proceed to step 6.
6. Review plan and participant files to determine what benefits may be payable.
7. Proceed according to the type of mail:
   - Returned Mail or Returned Check: Proceed to step 8.
   - Correspondence: Proceed to step 9.
8. Determine a valid contact address:

a. Review the participant file in PBGC Image Viewer to determine if an address has been determined (for example, is there a Locator report imaged to file).
b. If there is no address in PBGC Image Viewer, attempt to locate a valid contact address (see TP 4 Participant Addresses and EDD Elections).
c. Proceed according to whether a valid contact address is found:
   - Address Found: Proceed to step 9.
   - No Address Found: Document the circumstances in a memo to the participant file. Take no further action on the report of death.

9. Estimate the level of effort required to determine what benefits may be payable.
   - If the determination can be made within five business days, proceed to step 10.
   - If the determination cannot be made within five business days, issue the appropriate eALG letter to acknowledge the death notification (see eALG Correspondence Help) before proceeding to step 10.
10. Complete the following tasks as needed:
    - Update CRM, Spectrum, and the deceased person's file in ▸IPS.
    - Confirm that Spectrum stopped payment to the deceased payee.
    - Request return of overpayments.
    - Notify beneficiaries of their eligibility and provide an application for benefits.
    - Confirm that proof of death is in the deceased person's file in PBGC Image Viewer.
11. Determine what benefits are payable by following the appropriate procedures:
    - Survivor Benefits: TP 5.4 Determine Continuing Benefits (Survivor Benefits).
    - ▸QPSAs: TP 5.5 Determine Qualified Preretirement Survivor Annuities.
    - Other Benefits, Including Lump-Sum Payments and Payments Owed to the Deceased Payee: TP 5.6 Determine Other Payments.

Top of Page

## TP 5.2 Correct Erroneous Death Entries

**07/01/2016**

| | |
|---|---|
| **Purpose** | Ensure payees receive their benefits in the event of an incorrect death entry. |
| **Guidance** | Payment Schedule Key Dates |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

When a date of death (▸DOD) is entered and saved in ▸Spectrum and there is reason to undo it, the following should be considered.

- When was it discovered?
- Was it approved?
- Was the record already transmitted to ▸PLUS?

Correct the record depending on which is applicable after verifying the payee is alive.

**Immediately**

1. If the error is discovered immediately or before the transaction is approved, remove the DOD from the record and save the change. A reject transaction will automatically be sent to the approver's queue, removing the transaction. The record will not be transmitted to PLUS, and the customer's benefit will not be disrupted.
2. Use Spectrum to change the payment end date back to what it was before the DOD was entered.

**After approval**

If the DOD was entered and saved, is auto-approved, or has been approved by an approver, the transaction is sent to the submit queue for transmission to PLUS, see TP 28 Approve Financial & Non-Financial Transactions through Approval Service.

1. In Spectrum delete the DOD and save the transaction. The ▸status code changes back to 1. The record will be transmitted to ▸PBGC's paying agent as a status 1 with an end date of the current month.
2. If the error is discovered within the current check cycle and before the end of the month in which the DOD was entered, use Spectrum to change the end date back.
3. If the error is found after the end of the month, but before the scheduled transmission date to PLUS, use Spectrum to populate the next available pay source (estimated or final). The record must then be forwarded and approved before the ▸cut-off date. In this case, if it was an auto-approver (for example, ▸CCC staff) who entered the transaction, the ▸EBLS/FBA/PBA for the plan must be advised to take corrective action as outlined.

**After transmission to PLUS**

1. Remove the DOD from Spectrum. Save the transaction.
2. Use Spectrum to populate the next available pay source (estimated or final). Forward the record for approval. (This will require a backpayment for the missed months.)

Top of Page

## TP 5.3 Respond to Death Processing Program Service Requests

**07/01/2016**

| | |
|---|---|
| **Purpose** | To respond to ▸CRM service requests generated by the Death Processing program. |
| **Guidance** | *CMS Job Aids and User Guide*<br>eALG Correspondence Help<br>Policy 6.3-1: Underpayment Reimbursement and Interest Payments<br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

The Death Processing program is run each month on the day before the final benefit transmission to ▸PBGC's paying agent. The program matches social security numbers of persons reported deceased to the Social Security Administration (SSA) with those of PBGC customers. Follow-up actions may be required if (a) SSA reports a death not previously recorded in ▸Spectrum, and (b) there is a date of death (DOD) discrepancy between SSA and Spectrum.

When SSA reports the death of a customer whose ▸DOD is not recorded in Spectrum, Death Processing changes the customer's Spectrum record, indicating SSA as the source. The program also creates a CRM service request to the mail point-of-contact when the customer reported deceased is a

- Status 1 (Paying) or 2 (Pay Suspended) customer (any type), or Status 3 (Future Pay) Participant;
- Status A (Inactive – Eligibility Undetermined) Participant in a trusteed plan; or a
- Status A or 3 Spouse or Beneficiary who is linked to a payee with a joint-and-survivor benefit form whose benefit will change due to the death, or whose benefit form in Spectrum is blank.

A *CRM 555 Death Match Letter* is issued automatically to customers in the first group if the plan is trusteed and the death certificate receipt date is not recorded in Spectrum. The letter, which is sent to the address of the customer reported deceased, notifies the recipient that if a response is not received within **21 days**, PBGC will assume the information is correct and stop all future payments. (For Status A customers in any plan, and all customers in a non-trusteed plan, an *eALG 555 Death Match Letter* must be issued manually).

Service requests are also generated for Missing Participants and are referred to the Missing Participant Coordinator. A *CRM 555 Death Match Letter* is not generated.

The Death Processing program also compares SSA's dates of death with those already in Spectrum. It generates a service request if the dates do not fall within the same month and year, unless there is a death certificate receipt date in Spectrum.

Use the following procedures to respond to a service request. All communications with customers or other contacts, and information used to verify proof of a customer's status (copy of SSA card, death certificate, etc.) must be fully documented in CRM and IPS, accordingly. The procedures are divided as follows:

TP 5.3A Date of Death Loaded and Status Changed to 7 - Deceased

TP 5.3B Date of Death Discrepancy Reported

Top of Page

**TP 5.3A Date of Death Loaded and Status Changed to 7 - Deceased**

**07/01/2016**

**EBLS/FBA/PVA/PBA**

1. Upon receipt of the service request, take action according to the customer's pay status:
   a. **Status 1 (Paying) and 2 (Pay Suspended) customers, and Status 3 (Future Pay) Participants:** Follow up based on the response to the *CRM 555 Death Match Letter* (see step 2). If the plan is not yet trusteed, first issue an *eALG 555 Death Match Letter* since CRM will not automatically generate a letter.
   b. **Status A (Inactive – Eligibility Unknown) Participants:** These participants do not receive a *CRM 555 Death Match Letter*. Death Processing loads the Date of Death reported by SSA and changes the status to 7-Deceased.
      - If the trusteeship letters have not yet been issued, attempt to confirm the death using available plan and participant data, and update the Spectrum record accordingly.
      - If the trusteeship letters have been issued, first determine if there is a response in IPS or CRM reporting the death. If so, follow up with the person who reported it and request a death certificate.
      - If there is no report of the death and a trusteeship letter (or other initial communication from PBGC) has been sent, issue an *eALG 555 Death Match Letter* and follow up based on the response (see step 2). **Do not issue a Death Match letter unless the customer has received a prior communication from PBGC.**
   c. **Status A or 3 Spouse or Beneficiary who is linked to a payee with a joint-and-survivor benefit form whose benefit will change due to the death, or whose benefit form in Spectrum is blank:** These customers do not receive a *CRM 555 Death Match Letter*. Research and determine if the death will impact the payee's benefit. If so, contact the person receiving payments to confirm the death and request a copy of the death certificate. Upon receipt, adjust the payee's benefit accordingly.
2. Proceed based on the response to the *Death Match Letter (CRM555 or eALG 555)*. Steps vary depending on the customer's status. If there is no response, continue to step 3.
   a. **Relative or Estate Representative contacts PBGC to confirm the customer is deceased:**
      - Treat as a report of death according to TP 5.1 Process Report of Death.
      - If payments were made after DOD (or imminent payments cannot be stopped), initiate recovery according to TP 6 Recover Overpayments.
      - Determine if the estate or a beneficiary is due benefits, and notify the appropriate person(s). See TP 5.4 Determine Continuing Benefits (Survivor Benefits), TP 5.5 Determine Qualified Preretirement Survivor Annuities, and TP 5.6 Determine Other Payments. If the deceased was a Status 3 Participant, provide any contingent ▸annuitant a letter indicating benefits payable at the Earliest and Normal Retirement Dates.
      - If the deceased is the spouse of a payee whose benefit amount will change as a result of the death, adjust the benefits accordingly upon receipt of the proof of death.
      - Issue an *eALG 531 Receipt of Complete Documentation/Information* upon receipt of the requested information.
   b. **Customer provides a verification document from SSA indicating its records were incorrect (PBGC has the correct SSN):**
      - Issue an *eALG 531 Receipt of Complete Documentation/Information* upon receipt of the requested information.
      - For a non-payee, remove the date of death and correct the status and SSN in Spectrum.
      - For a payee, remove the date of death and correct the status in Spectrum, and ensure payments continue using Spectrum. If payments were stopped due to a late response, issue a special check for any back payments due with interest, as applicable (Policy 6.3-1 Underpayment Reimbursement and Interest Payments).
   c. **Customer provides proof of correct SSN (PBGC had an incorrect SSN):**
      - Issue an *eALG 531 Receipt of Complete Documentation/Information* upon receipt of the requested information.
      - For a non-payee, remove the date of death from Spectrum and correct the status and SSN.
      - For a payee, remove the date of death in Spectrum and correct the status and SSN, and ensure payments

continue using Spectrum. If payments were stopped due to a late response, issue a special check for any back payments due with interest, as applicable (Policy 6.3-1 Underpayment Reimbursement and Interest Payments).

d. **Payee advises he or she is a beneficiary using the deceased's SSN:**
   - Ask the customer for proof of the correct SSN (copy of SSA card or a verification document from SSA). If the customer does not have a SSN, refer him or her to SSA to obtain one, noting the SSA contact information in the *Death Match Letter*. Advise a payee that PBGC needs the information within **60 days** in order to continue payments without interruption. Follow up the request using an *eALG Generic* letter.
   - For a non-payee, upon receipt of the proof remove the date of death and correct the SSN and status in Spectrum. Issue an *eALG 531 Receipt of Complete Documentation/Information*.
   - For a payee, while awaiting the information, remove the date of death and correct the SSN and status in Spectrum, and ensure the payments continue using Spectrum. Also verify that the beneficiary is receiving the correct benefit form and amount (that is, not the participant's). If not, adjust the benefit accordingly.
   - Suspend payments if the requested proof has not been received within the 60 days, unless the Employee Benefits Supervisor, ▶CSB allows additional time based on the circumstances. Upon receipt of the requested proof, reinstate the payments and issue a back payment for any missed payments. Add interest if applicable (see PBGC Policy 6.3-1 Underpayment Reimbursement and Interest Payments).
   - Issue an *eALG 531 Receipt of Complete Documentation/Information* upon receipt of the requested information.

e. **Customer in pay status requests additional time to provide proof of correct SSN or verification document from SSA:**
   - Advise the customer that PBGC must receive the document within **60 days** of the date of the request in order to continue payments. Follow up the request using an *eALG Generic* letter.
   - Suspend payments if the verification is not received within the 60 days, unless the Employee Benefits Supervisor, CSB allows additional time to provide the information based on the circumstances.
   - If suspended, reinstate payments upon receipt of the requested proof and issue a back payment for any missed payments. Add interest if applicable (see Policy 6.3-1 Underpayment Reimbursement and Interest Payments).
   - Issue an *eALG 531 Receipt of Complete Documentation/Information* upon receipt of the requested information.

f. **Death Match Letter is returned for bad address:**
   - Search for correct address. See TP 4 Participant Addresses and EDD Elections.
   - If a new address is found, issue an *eALG 555 Death Match Letter* to that address (CRM does not issue a second automated letter to a customer). Then take follow-up actions according to these procedures.
   - If a new address is not found, assume the date of death reported by SSA is correct.

3. If there is no response to the Death Match Letter within **21 days**, act according to the customer's status. Note that the Death Processing program will have already entered a date of death reported by SSA and changed the status to Status 7 – Deceased in Spectrum, and stopped future payments.

   a. **Non-Payee:** No further action is normally required. However, if the customer reported deceased is a pay status 3 Participant, issue a letter notifying the contingent annuitant of his or her eligibility at Earliest and Normal Retirement Dates.

   b. **Payee:** Determine if the estate or a beneficiary is due benefits, and notify the appropriate person(s). See TP 5.4 Determine Continuing Benefits (Survivor Benefits), TP 5.5 Determine Qualified Preretirement Survivor Annuities, and TP 5.6 Determine Other Payments. Or, if an overpayment was made, attempt to recover the overpayment. See TP 6 Recover Overpayments.

4. A CRM service request indicating an "SSA DOD Reversal" indicates an error in the Spectrum record. Research the customer's record and correct Spectrum to resolve the error.

5. If there is suspicion that a death was not reported to PBGC because of fraud or forgery, refer to TP 12 Fraud and Forgery.

6. Document actions and communications CRM and IPS, as applicable, and close the service request upon resolution.

Top of Page

**TP 5.3B Date of Death Discrepancy Reported**

**10/26/2007**

**EBLS/PBA/FBA**

1. Upon receipt of the service request, determine if there is a death certificate in IPS. If so, record the document receipt date in Spectrum and verify the date of death. This resolves the discrepancy.
2. If there is no death certificate in IPS, request it from the person who reported the death.
   - If the document is received, proceed according to the step above. Also advise if any survivor benefits are due (see TP 5.4 Determine Continuing Benefits (Survivor Benefits), TP 5.5 Determine Qualified Preretirement Survivor Annuities, and TP 5.6 Determine Other Payments).
   - If unable to obtain a death certificate, update the Spectrum record with the date reported by SSA.
3. If the date of death in Spectrum is the default date (09/30/1997), accept the date provided by SSA.

# TP 5.4 Determine Continuing Benefits (Survivor Benefits)

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether survivor benefits are payable and to whom, and to send notification of the determination. |
| **Guidance** | Policy 8.6-1 Payments to Beneficiaries |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

Once the report of death has been received, determine whether continuing annuity benefits (survivor benefits) are due and to whom. Then notify the concerned parties and issue an application, as needed. Coordinate this procedure with TP 5.5 Determine Qualified Preretirement Survivor Annuities and TP 5.6 Determine Other Payments to ensure that each individual receives one notification of eligibility or ineligibility covering all payments resulting from the death.

**In this Section**

TP 5.4A Determine whether Continuing Benefits are Due
TP 5.4B Determine Contingent Annuitant
TP 5.4C Send Notification of Eligibility for Survivor Benefits
TP 5.4D Expedite Payments to Contingent Beneficiary

**TP 5.4A Determine whether Continuing Benefits are Due**

**07/01/2016**

After confirming a report of death, determine whether survivor benefits are due.

**EBLS/FBA/PVA/PBA**

1. Review the deceased participant's records to determine if benefits were in pay status before the participant's death:
   - In Pay: Go to step 4.
   - Not in Pay: Continue with step 2.
2. Determine if the participant's benefit was a ▸ *de minimis* benefit and payable in a lump sum (see Policy 5.4-9 Lump-Sum Benefit Payments):
   - De Minimis and Payable as a Lump Sum: Treat the benefit as a payment owed a deceased payee (see TP 5.6 Determine Other Payments).
   - Not de Minimis or Otherwise not Payable in a Lump Sum: Continue to step 3.
3. Determine whether the participant would have been in pay status if not for administrative delay (including cases where the participant was eligible for a retroactive annuity starting date or applied for pension benefits but died on or after the annuity starting date without going into pay):
   - Would have been in Pay if not for Administrative Delay: Treat the participant as a deceased payee. The participant is due payments from the annuity starting date through the month of death (see TP 5.6 Determine Other Payments). Continue to step 4.
   - Not in Pay and Administrative Delay is not a factor: No continuing annuity benefits are due. Determine if any other benefits are due (see TP 5.5 Determine Qualified Preretirement Survivor Annuities and TP 5.6 Determine Other Payments).
4. Determine whether payments are due according to the ▸ Survivor Benefit Form Table and proceed accordingly:
   - Payments Due: Proceed to TP 5.4B Determine Contingent Annuitant.
   - Payments not Due: Proceed to TP 5.4C Send Notification of Eligibility for Survivor Benefits.

**TP 5.4B Determine Contingent Annuitant**

**07/01/2016**

Once a determination is made that survivor benefit payments are due (see TP 5.4A Determine whether Continuing Benefits are Due), determine to whom PBGC owes payments (the ▸contingent annuitant). The contingent ▸annuitant generally is also the payee for other payments owed (see TP 5.6 Determine Other Payments).

> **Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**EBLS/FBA/PVA/PBA**

1. Review the deceased payee's records for the beneficiary designated by the payee. The designation may be on a plan form, a PBGC application for benefits, or another form, such as a PBGC Designation of Beneficiary.
2. Proceed according to whether the contingent annuitant is on file:
   - Not on File: Proceed to step 3.
   - On File: Proceed to step 4.
3. If no contingent annuitant is on file, proceed according to the benefit form:
   - Joint-Life Benefit: If the benefit form was a Qualified Joint and Survivor Annuity (▸QJSA), determine if benefits are payable to a surviving spouse, in accordance with Policy 5.7-5 Spousal Consent (Qualified Joint and Survivor Annuities):
     - If there is a surviving spouse, proceed to step 4.
     - If there is no surviving spouse, or the surviving spouse cannot be identified, there is no contingent annuitant (survivor benefits are not payable).

     If the benefit is not a QJSA, document the facts and circumstances of the situation and contact Ask PPD for guidance.
   - Single-Life Benefit: Follow steps in TP 5.7 Determine Beneficiaries.
4. Confirm that the designation is specifically for a survivor benefit and not another type of benefit (see TP 5.4A Determine whether Continuing Benefits are Due).
5. Proceed according to the benefit form:
   - Joint-Life Benefit: Confirm that the designated beneficiary is a living person.
     - If the beneficiary is a living person, the designated beneficiary is the contingent annuitant.
     - If the beneficiary is a trust, document the details of the situation (for example, whether the trust is for the benefit of one living person) and contact Ask PPD for guidance.
     - If the beneficiary is a deceased person, proceed to step 6.
   - Single-Life Benefit: The designated beneficiary (which may be one or more living persons, an estate, trust, or other organization) is the contingent annuitant. If the contingent annuitant is a non-living person, proceed to step 6.
6. Proceed according to when the contingent annuitant died.
   - If the contingent annuitant died before or at the same time as the payee, proceed according to the benefit form:
     - Joint-Life Benefit: There is no contingent annuitant (survivor benefits are not payable).
     - Single-Life Benefit: Follow TP 5.7 Determine Beneficiaries.
   - If the contingent annuitant died after the payee, treat the beneficiary as a deceased payee owed payments (see TP 5.6 Determine Other Payments).

Top of Page

**TP 5.4C Send Notification of Eligibility for Survivor Benefits**

**07/01/2016**

Follow the steps under the appropriate heading according to whether or not survivor benefits are due.

**EBLS/FBA/PVA/PBA**

**Survivor Benefits are not Due**

1. Determine whether any other benefits or payments are due and follow the procedures in TP 5.5 Determine Qualified Preretirement Survivor Annuities and TP 5.6 Determine Other Payments accordingly.
2. If no other benefits or payments are due, send the appropriate ▸eALG letter (see eALG Correspondence Help) and customize as needed to:
   - Acknowledge the death notification.
   - Confirm that no additional benefits are payable.
   - Request the death certificate, if not already received.
   - Request return of any outstanding payments made after a payee's death. Carefully review ▸Spectrum and ▸PBGC Image Viewer to determine the correct amount of payments that must be returned, if any. This request for return of outstanding payments is not considered a formal recovery action (that is, a demand letter).
3. If outstanding payments made after the month of death are not returned, initiate recovery actions (see TP 6 Recover Overpayments).

**Survivor Benefits are Due**

1. Determine whether any other benefits or payments are due (see TP 5.6 Determine Other Payments). If benefits or payments are due, follow procedures in those sections before continuing with step 2.
2. Proceed according to the contingent ▸annuitant and benefit form.
   - If the contingent annuitant is an ▸estate, proceed to step 3.
   - If the contingent annuitant is not an estate or the benefit form is not a single-life ▸annuity, proceed to step 4.
3. If the payment is due to an estate, even if the amount of the lump sum is greater than $5,000:
   a. Request the actuary to calculate the value of the lump sum benefit. Based on monthly compounding, discount the annuity payments beginning the the first month that survivor benefits would be due, using the federal mid-term rate applicable for the month the payee died.

      **Example:** A ▸participant was receiving benefits in the form of a 10-year ▸C&C. The participant died in April 2007. PBGC made 74 payments of $500 before the payee died. The estate was due the remaining 46 payments and elected to receive the payments in a lump sum. Using the federal mid-term interest rate for April 2007, 4.52%, and monthly compounding, the value of the remaining 46 payments was calculated as $21,160.73. PBGC paid $21,734.08 ($21,160.73 + $573.35 in interest for May through November) to the estate on December 1, 2007.

   b. Contact the estate administrator to determine whether to pay a ▸lump sum or annuity .
   c. Proceed to step 4.
4. Prepare and send the proper benefit application package to the contingent annuitant:
   - If the contingent annuitant is an estate and the estate's representative requested a lump sum, indicate the lump sum amount.
   - Request necessary proof documents, including proof of death (the application indicates the required documents).
   - For estates, request documentation of the identity of the administrator of the estate, such as Letters of Administration or comparable court documents.
   - Request the return of any payments made after the month of death. Carefully review Spectrum and PBGC Image Viewer to determine the correct amount of payments that must be returned, if any. This request for return of payments made after death is not considered the initiation of formal recoupment action.

   > **Note** See TP 20 Benefit Payments for instructions on following up on the application and requested proof documents and for putting benefits into pay when a completed application is received.
5. If outstanding payments made after the month of death are not returned, initiate recovery (see TP 6 Recover Overpayments).

Top of Page

**TP 5.4D Expedite Payments to Contingent Beneficiary**

**02/27/2017**

Payments to the contingent beneficiary of a deceased participant may be initiated without a benefit application or proof documents if PBGC already has reliable information for the beneficiary. This expedited process applies to any person designated as the beneficiary under a ▸joint-and-survivor benefit form or free surviving spouse benefit. Under ▸certain-and-continuous benefit forms it applies only to surviving spouses.

Refer to the appropriate sections of the manual for guidance for the following situations:

- A beneficiary who is incapacitated must be represented by a power of attorney, guardian or conservator approved by PBGC. See TP 49 Power of Attorney and Guardianship. Once the agent is approved, payments may be initiated without an application according to this procedure.
- The surviving spouse of a participant who died before going into pay status may be due a ▸qualified preretirement survivor annuity, for which an application is required. See TP 5.5 Determine Qualified Preretirement Survivor Annuities.
- If the contingent beneficiary is also deceased, follow TP 5.6 Determine Other Payments to determine if payments are owed to the estate of either the participant or the beneficiary or to other individuals.

Require an application according to TP 5.4C Send Notification of Eligibility for Survivor Benefits under either of the following circumstances:

- The designated beneficiary's identity cannot be ascertained over the phone.
- The beneficiary does not have a valid SSN or other Taxpayer Identification Number. See also Appendix R 1.1 Introduction to Federal Tax Withholding for guidance.
- The benefit form is certain-and-continuous and the designated beneficiary is not the surviving spouse.

**EBLS/FBA/PBA/PVA**

1. Proceed based on the source of the death report.

   **Telephone call from surviving spouse or other contingent beneficiary:** Proceed to step 2.

   **Telephone call from someone other than the contingent beneficiary:** Record the date of death in ▸CRM or ▸Spectrum and ask to speak to the contingent beneficiary regarding survivor benefits.

   - If telephone contact is made with the contingent beneficiary on the same call, continue to step 2.
   - If telephone contact is not made with the contingent beneficiary on the same call:
     a. Ask the caller for a telephone number for the contingent beneficiary.
     b. Call the contingent beneficiary. If contact is successful, proceed to step 2.
     c. If unable to contact the beneficiary by phone, exit this procedure and request an application according to TP 5.4C Send Notification of Eligibility for Survivor Benefits.

        If the beneficiary subsequently calls PBGC, advise him or her that benefits may be initiated without the application and proceed to step 2.

   **DeathMatch Report:** Call the person designated as the beneficiary for continuing payments on the payee's benefit application or other applicable beneficiary designation form.

   - If telephone contact is made, continue to step 2.
   - If unable to establish telephone contact, exit this procedure and request an application according to TP 5.4C Send Notification of Eligibility for Survivor Benefits.

     If the beneficiary subsequently calls PBGC, advise him or her that benefits may be initiated without the application and proceed to step 2.

   > **Note** A participant with a certain and continuous benefit form may change the designated beneficiary at any time. Use the latest election on file and verify that the beneficiary is the surviving spouse in order to

expedite payments according to this procedure.

2. Take the following actions during the telephone call with the beneficiary.
   a. Explain that PBGC will initiate payments to the beneficiary without requiring an application if sufficient information can be provided by phone.
   b. Ask the beneficiary to verify the following information in order to verify his or her identity if the information has not already been verified by the ▸CCC. If a third party participates on the call, the beneficiary must answer without assistance.
      - Participant's first and last name
      - Participant's SSN or Customer Identification Number
      - Participant's mailing address
      - Participant's phone number
      - Participant's date of birth
      - Participant's date of death
      - Beneficiary's first and last name
      - Beneficiary's DOB
      - Beneficiary's SSN or last four digits.
   c. Record the participant's date of death in CRM, if necessary. If DeathMatch has not already reported the death, ask the beneficiary to send a copy of the death certificate.
   d. Create (if necessary) and update the beneficiary's Spectrum record with information needed to initiate the beneficiary's payments, including:
      - Current home address
      - Payment destination. If the beneficiary requests electronic direct deposit, ask if it will be to the same bank account the participant used.
        - **Same account:** Verify the name(s) on the account. The beneficiary's name must be on the account.
        - **Different account:** Request the bank name, routing number, account number, account type and name(s) on the account. The beneficiary's name must be on the account.
      - Federal income tax withholding election (fixed dollar amount, marital status and withholding allowances, or no withholding). If the beneficiary is not able to make an election, offer to initially withhold at the default rate of married with three deductions and to send an election form to request withholding changes.
      - If sufficient information is obtained, tell the beneficiary when to expect the first payment and that PBGC will send a letter confirming the phone call.
3. Document the call details in CRM. Proceed after obtaining all information needed to initiate payments and the participant's death is documented either in DeathMatch or by death certificate.
4. Initiate periodic (monthly or annual) payments and back payments due and advise the beneficiary according to TP 20.3C Issue Annuity Payment.

   **Note** Since post-death payments to the participant may be outstanding when payments to the beneficiary are initiated, follow instructions in TP 20.3C Issue Annuity Payment on initiating recovery or administrative correction, if necessary.

5. Complete the *Expedited Beneficiary Payments Checklist* and image to the beneficiary's ▸IPS file.

# TP 5.5 Determine Qualified Preretirement Survivor Annuities

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether a surviving spouse's benefit is payable when a participant dies before retirement. |
| **Guidance** | Policy 5.7-2 Payment of Qualified Preretirement Survivor Annuities in Plans Terminating on and after August 23, 1984<br><br>Policy 5.7-3 Survivor Annuities–Pre-REA Terminations |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

The Retirement Equity Act (▸REA) amended ▸ERISA and the Internal Revenue Code to require all defined benefit plans to provide a qualified pre-retirement survivor annuity (▸QPSA) for the surviving spouse of a participant with vested benefits who dies before commencing retirement benefits.

Additional rules governing QPSAs may apply in some cases. Review Policy 5.7-2 Payment of Qualified Preretirement Survivor Annuities in Plans Terminating on and after August 23, 1984 before following this procedure.

Process participants in all plans according to TP 5.5A Determine Eligibility for Preretirement Survivor Annuities. Use TP 5.5A to determine whether to apply the procedures in TP 5.5B Issue Notification of Qualified Preretirement Survivor Annuities or TP 5.5C Determine Pre-Retirement Equity Act Survivor Annuities.

**In this Section**

TP 5.5A Determine Eligibility for Preretirement Survivor Annuities
TP 5.5B Issue Notification of Qualified Preretirement Survivor Annuities
TP 5.5C Determine Pre-Retirement Equity Act Survivor Annuities

**TP 5.5A Determine Eligibility for Preretirement Survivor Annuities**

**07/01/2016**

Upon determining that continuing annuity payments are not due, determine whether preretirement survivor annuities are due.

> **Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**EBLS/FBA/PVA/PBA**

1. Determine whether the participant's benefit was in pay status, or would be in pay status if not for administrative delay (including cases where the participant was eligible for a retroactive annuity starting date or applied for pension benefits but died on or after the annuity starting date without going into pay):
   - If benefits were, or should have been, in pay status, follow the procedures in TP 5.4 Determine Continuing Benefits (Survivor Benefits) to determine if a surviving spouse or other beneficiary is due survivor benefits.
   - If benefits were not in pay status, determine if the participant's benefit was *de minimis* (the lump-sum value of the benefit as of the date of plan termination (▸DOPT) was $5,000 or less):
     - If the participant's benefit was *de minimis*, continue to step 2.
     - If the participant's benefit was not *de minimis*, continue to step 4.
2. Determine whether the participant was married as of the date of death (▸DOD):
   - Participant was Married: Continue to step 3.
   - Participant was not Married: Proceed to TP 5.6 Determine Other Payments (no qualified preretirement survivor annuity (▸QPSA) is due).
3. If the participant's benefit was *de minimis* and the participant was married at DOD, proceed according to when the benefit determination letter (▸BDL) was issued:
   - BDL Issued on or after 07/16/1998:
     - If the DOD is on or after DOPT, the spouse is not entitled to a QPSA. Treat the participant's benefit as a payment owed a deceased payee according to TP 5.6 Determine Other Payments.
     - If the DOD is prior to DOPT, follow plan provisions to determine whether the participant's benefit was payable in a lump sum.
       - If the benefit was payable in a lump sum, treat the lump sum as a payment owed a deceased payee according to TP 5.6 Determine Other Payments.
       - If the benefit was not payable in a lump sum, follow steps in TP 5.5B Issue Notification of Qualified Preretirement Survivor Annuities.
   - BDL Issued before 07/16/1998: Use the ▸Pre-$5000 Lump Sums and QPSAs Table to determine which rules apply in determining whether a participant's benefit was payable in a lump sum and whether a QPSA is payable, and follow the steps in the appropriate cell under the Action column.
4. If the participant's benefit is not *de minimis*, determine when the plan terminated:
   - Plan Terminated on or after 08/23/1984: Proceed to step 5.
   - Plan Terminated before 08/23/1984: Proceed to TP 5.5C Determine Pre-Retirement Equity Act Survivor Annuities.
5. Proceed according to the participant's DOD:
   - If the DOD is prior to 08/23/1984 **or** the participant was unmarried as of DOD, a QPSA is not payable. Proceed to TP 5.5B Issue Notification of Qualified Preretirement Survivor Annuities.
   - If the participant died on or after 08/23/1984 and the participant was married as of DOD, continue to step 6.
6. Determine whether the QPSA benefit due to the surviving spouse (distinct from, and generally less than, the benefit due to the deceased participant) is *de minimis* (the lump-sum value is $5,000 or less as of DOPT) and proceed accordingly:
   - QPSA Benefit is de Minimis: The QPSA benefit is payable as either a lump sum or as an annuity, regardless of whether the participant's benefit is de minimis. Proceed to TP 5.5B Issue Notification of Qualified Preretirement Survivor Annuities and follow instructions for a benefit payable as a lump sum or an annuity.
   - QPSA Benefit is not de Minimis: The benefit is payable only as an annuity. Proceed to TP 5.5B Issue Notification of Qualified Preretirement Survivor Annuities and follow instructions for a benefit payable only as an annuity.

Top of Page

**TP 5.5B Issue Notification of Qualified Preretirement Survivor Annuities**

**12/22/2016**

Follow the steps under the appropriate heading according to whether or not qualified preretirement survivor ▸annuity ( ▸QPSA) benefits are due.

**EBLS/FBA/PVA/PBA**

**QPSA Benefits are not Due**

1. If not already done, determine whether any other benefits or payments are due by following the procedures in TP 5.4 Determine Continuing Benefits (Survivor Benefits) and TP 5.6 Determine Other Payments. Proceed to step 2 only if no other benefits or payments are due.
2. If no other benefits or payments are due, send the appropriate ▸eALG letter (see eALG Correspondence Help) and customize as needed to:
   - Acknowledge the death notification.
   - Confirm that no additional benefits are payable.
   - Request the death certificate, if not already received.
   - Request return of any outstanding payments made after the month of death. Carefully review ▸Spectrum and ▸PBGC Image Viewer to determine the correct amount of payments that must be returned, if any. This request for return of outstanding payments is not considered a formal recovery action (that is, a demand letter).

**QPSA Benefits are Due**

1. Determine whether any other benefits or payments are due by following the procedures in TP 5.4 Determine Continuing Benefits (Survivor Benefits) and TP 5.6 Determine Other Payments; continue to steps 2 through 7 only after completion.
2. If the QPSA is payable as a ▸lump sum or the Pre-$5000 exception applies (see TP 5.5A Determine Eligibility for Preretirement Survivor Annuities) notify the surviving spouse of payment options and determine the spouse's preference:
   - If the QPSA is payable as a lump sum, the surviving spouse may elect to receive the QPSA as either a lump sum or an annuity. Inform the surviving spouse of the value of each option.
   - If the Pre-$5000 exception applies, the spouse may elect to receive either the QPSA benefit or a lump-sum payment equal to the present value of the **participant's** benefit. Inform the surviving spouse of the value of each option. Ensure that the spouse is aware that the Pre-$5000 lump sum is greater than the value of the QPSA benefit.
   - If the QPSA benefit is payable as a lump sum and the Pre-$5000 exception applies, the surviving spouse may elect one of three options (QPSA as lump sum, QPSA as annuity, or lump sum equal to the present value of the participant's benefit). Inform the surviving spouse of the value of each option. Ensure that the spouse is aware that the Pre-$5000 lump sum is greater than the value of the QPSA benefit.

     **Note** If the deceased participant filed for retirement benefits and elected a joint and survivor (▸J&S) annuity (either the automatic form or an optional form) that provides a survivor benefit of 50-100%, and the participant died before the annuity starting date, the elected benefit form is treated as the QPSA. The spouse is due the survivor benefit provided under the elected form.
3. Proceed according to the payment option the surviving spouse elects:
   - If the surviving spouse elects to receive the QPSA as a lump sum, proceed to step 4.
   - If the surviving spouse elects to receive the QPSA as an annuity, or the QPSA is not payable as a lump sum, proceed to step 5.
   - If the surviving spouse elects to receive the lump-sum value of the deceased participant's benefit in lieu of a QPSA, treat the lump sum as a payment due a deceased payee, with the surviving spouse as beneficiary. See TP 5.6 Determine Other Payments.
4. Pay the QPSA as a lump sum:
   a. Send the surviving spouse the appropriate benefit application package.

b. Take no further action until either the application is received, or earliest commencement date or required beginning date is reached:
   - Application Received: Place the participant into pay status (see TP 20 Benefit Payments).
   - Application not Received and Earliest Commencement Date Reached: Proceed to step 6.
   - Application not Received and Required Beginning Date Reached: Proceed to step 7.

> **Note** If the total lump-sum payment, including interest, is less than $200, the payment may be made without an application if PBGC has reliable and sufficient information for the beneficiary. See TP 20.4 Process Lump-Sum Applications.

5. If the QPSA benefit must be paid as an annuity, or the surviving spouse elected an annuity, determine whether the QPSA's earliest commencement date (the later of the first of the month after the participant's death or the participant's earliest PBGC retirement date (▸EPRD), as defined in Policy 6.1-2 Earliest PBGC Retirement Date has been reached.
   - Earliest Commencement Date Reached: Proceed to step 6.
   - Earliest Commencement Date not Reached:
     a. Customize and send the surviving spouse the appropriate eALG letter (see eALG Correspondence Help), providing an estimate as of the earliest QPSA commencement date.
     b. On reaching the earliest commencement date, proceed to step 6.
6. Once the QPSA's earliest commencement date is reached:
   a. Send the surviving spouse the appropriate eALG letter(see eALG Correspondence Help) stating that a QPSA is payable, and that the QPSA may be deferred to a later date that is no later than the spouse's required beginning date (the later of December 1 of the calendar year following the calendar year in which the deceased participant died, or December 1 of the calendar year in which the participant turns 70 ½ years old). However, if the QPSA is deferred, benefits generally cannot be paid retroactively to an earlier commencement date. Determine whether the spouse wants to apply for or defer the QPSA.
   b. If the spouse wants to file for the QPSA, send the appropriate benefit application package).
   c. No further action is required until either the application is received or the surviving spouse's required beginning date is reached:
      - Application Received: Put the surviving spouse into pay status (see TP 20 Benefit Payments).
      - Application not Received and Required Beginning Date Reached: Proceed to step 7.
7. If an application for a QPSA annuity or lump sum is not received by the required beginning date:
   a. Send the surviving spouse the appropriate benefit application package.
   b. If the completed application is not received within 30 days of following up, contact the spouse to find out the status of the application. Remind the spouse that the benefit must be paid as of the required beginning date.
   c. No further action is required until either the application is received, or 180 days elapse from sending the benefit application package:
      - Completed Application Received: Put the surviving spouse into pay status (see TP 20 Benefit Payments).
      - Completed Application not Received within 180 Days: No further follow-up is required.

Top of Page

**TP 5.5C Determine Pre-Retirement Equity Act Survivor Annuities**

**12/22/2016**

Under limited circumstances, PBGC provides a pre-retirement survivor annuity (▸PSA) for the surviving spouse of a participant in a plan that terminated before the critical Retirement Equity Act (▸REA) date of August 23, 1984. See Policy 5.7-3 Survivor Annuities—Pre-REA Terminations for additional guidance.

> **Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**EBLS/FBA/PVA/PBA**

1. Determine whether the requirements to qualify for a PSA have been met:
   - The deceased participant must have separated from service with the date of plan termination (▸DOPT) employer on or after the participant's earliest retirement date under plan and PBGC rules.
   - The participant's date of death (▸DOD) must have been after DOPT and on or after 10/22/1986 (contact Ask PPD if DOD is before 10/22/1986).
   - The surviving spouse must have been married to the participant on DOD.
2. Proceed according to whether all requirements were met:
   - Met: A PSA is payable to the surviving spouse; proceed to step 3.
   - Not Met: A PSA is not payable; proceed to step 4.
3. If a PSA is payable, follow the procedures in TP 5.4 Determine Continuing Benefits (Survivor Benefits) and TP 5.6 Determine Other Payments to determine whether any other payments are due. Proceed with steps 3a-d only after completion:
   a. Notify the surviving spouse that a survivor annuity is payable and that the annuity starting date is the month after the deceased participant's DOD and cannot be deferred. Send the appropriate benefit application package.
   b. If the completed application is not received within 30 days of the follow-up date, contact the spouse to find out the status of the application; remind the spouse that the benefit cannot be deferred.
   c. On receiving the application, make payments beginning on the annuity starting date. If the application is received after the annuity starting date, make the missed payments retroactively.
4. If a PSA is not payable, determine whether any other payments are due by following procedures in TP 5.4 Determine Continuing Benefits (Survivor Benefits) and TP 5.6 Determine Other Payments. Continue to step 5 only if no other payments are due.
5. If no other benefits or payments are due, send the appropriate ▸eALG 500-series letter (see eALG Correspondence Help). Customize the letter as needed to:
   - Acknowledge the death notification.
   - Confirm that no additional benefits are payable.
   - Request the death certificate, if not already received.

Top of Page

# TP 5.6 Determine Other Payments

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine payments due a deceased payee and lump-sum benefits due to the beneficiary. |
| **Guidance** | Policy 6.3-1 Underpayment Reimbursement and Interest Payments |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

The death of a payee may sometimes require PBGC to make payments other than continuing annuity benefits and qualified preretirement survivor annuities (▸QPSAs). There may be outstanding payments owed to the deceased payee, or the deceased payee may have received overpayments that must be recouped. Both these circumstances are covered in TP 5.6A Determine Payments Owed and Overpayments to a Deceased Payee. In other cases, the plan provides for lump-sum ▸death benefits rather than or in addition to survivor benefits or a QPSA. This scenario is covered in TP 5.6C Determine Lump-Sum Death Benefits.

**In this Section**

TP 5.6A Determine Payments Owed and Overpayments to a Deceased Payee
TP 5.6B Notify Beneficiary of Other Amounts Owed
TP 5.6C Determine Lump-Sum Death Benefits

## TP 5.6A Determine Payments Owed and Overpayments to a Deceased Payee

**07/01/2016**

PBGC may owe payments to a deceased ▸payee, or a deceased payee may owe a return of overpayments to PBGC. Follow this procedure to determine whether an overpayment or underpayment exists and to process the payment as needed.

### EBLS/FBA/PVA/PBA

1. Review the payee's ▸PBGC Image Viewer file and ▸Spectrum ledgers to determine whether the payee was owed any of the following payments:
   - Back payments (missed or untimely payments).
   - Benefit payments suspended as part of the procedures to establish a qualified domestic relations order (▸QDRO).
   - Benefit payments suspended by PBGC for other reason, such as a returned checks or failure to respond to a request for information.
   - *De minimis* lump-sum benefits.
   - A return of employee contributions (see TP 36 Employee Contributions).
   - Net benefit underpayments (calculated in accordance with Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments).
   - Pre-termination plan liabilities.
   - Replacement payments.
2. Identify any unreturned outstanding payments to the payee after death or payments owed before death returned to PBGC or ▸PBGC's paying agent.
3. Using the ▸PACS, calculate any net over- or underpayments that were due the deceased payee:
   - If a net overpayment results, initiate recoupment or recovery action, as appropriate (see TP 6 Recover Overpayments and TP 7 Recoupment and Administrative Correction).
   - If underpayments are owed, determine the beneficiary (see TP 5.7 Determine Beneficiaries). Once the beneficiary is determined, proceed to TP 5.6B Notify Beneficiary of Other Amounts Owed.
   - If no net overpayment or underpayment results, take no further action.
4. If there are multiple beneficiaries:
   a. Equally divide the amount owed as of the date of death (DOD) among the beneficiaries unless the payee designated a different division:
      - If one or more of the beneficiaries died before the payee, prorate the deceased beneficiary's shares among the surviving beneficiaries, unless the beneficiaries are children of a payee who died on or after June 1, 2002.
      - If the beneficiary died after the payee, follow TP 5.7 Determine Beneficiaries to determine the beneficiary of the deceased beneficiary.
   b. If the deceased payee had more than one child and ▸DOD was on or after June 1, 2002, equally divide the payment among the children. If a payee's child died (before or after the payee), divide that child's share equally among his or her own children (that is, the payee's grandchildren), if any. If a grandchild has died, make payment to his or her children (that is, the payee's great-grandchildren), and so on.
   c. If the beneficiaries include the deceased's parents and DOD was on or after June 1, 2002, equally divide that amount owed between the parents and issue payment to each parent. Do not combine the amounts owed into one payment even if requested by both parents. If one parent died before the payee, pay the total amount to the other parent. If a parent died after the payee, follow TP 5.7 Determine Beneficiaries to determine the parent's beneficiary.

Top of Page

**TP 5.6B Notify Beneficiary of Other Amounts Owed**

**07/01/2016**

After determining that benefits are due, follow this procedure to issue an application to the beneficiary. Coordinate with TP 5.4 Determine Continuing Benefits (Survivor Benefits) and TP 5.5 Determine Qualified Preretirement Survivor Annuities as needed to ensure the beneficiary receives one application covering all benefits due.

> **Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**EBLS/FBA/PVA/PBA**

1. If the amount owed a beneficiary is payable in a single sum, such as a payment previously owed the deceased or a lump-sum death benefit that is *de minimis*, send the appropriate customized ▸eALG cover letter and benefit application form to the person(s) deemed eligible for payment:
   - *eALG 201B Taxable Single Payment – Beneficiary*: to person(s) determined to be a beneficiary(-ies). Beneficiaries may include children, grandchildren, or parents. Also send this letter to the surviving spouse if the payment is **not** rollover eligible. See Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting.
   - *eALG 201S Taxable Single Payment – Spouse*: to the surviving spouse if the payment is rollover eligible. See Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting,
   - *eALG 201E Taxable Single Payment – Estate*: to the estate.

   Coordinate the sending of any correspondence and/or forms or applications with other correspondence that may be sent (see TP 5.4 Determine Continuing Benefits (Survivor Benefits) and TP 5.5 Determine Qualified Preretirement Survivor Annuities).

   > **Note** If the total lump-sum payment, including interest, is less than $200, the payment may be made without an application if PBGC has reliable and sufficient information for the beneficiary. See TP 20.4 Process Lump-Sum Applications.

2. Upon receipt of the completed application for benefits and all required proof documents, initiate payments according to TP 20 Benefit Payments.

**TP 5.6C Determine Lump-Sum Death Benefits**

**07/01/2016**

Plans may provide a lump-sum death benefit upon the death of a participant. Lump-sum ▸death benefits should not be confused with a ▸*de minimis* benefit owed a participant at the date of plan termination (▸DOPT). The benefit is not due the participant as of DOPT; the benefit is only payable to the participant's beneficiary.

Lump-sum death benefits typically are not a guaranteed benefit and are generally not payable:

- If the lump-sum death benefits derive from an annuity payable (that is, the annuity is reduced to provide the benefit) under the plan, the benefit may be guaranteed as part of the annuity.
- If the lump-sum death benefits do not derive from an annuity payable under the plan, the benefit is only payable in Priority Category 5 (▸PC5) or Priority Category 6 (▸PC6).
- Lump-sum death benefits due before DOPT may be payable as pre-termination liabilities.
- Pre- and post-retirement death benefits from employee contributions may be payable in a lump sum.

Contact Ask PPD with any questions about whether a lump-sum death benefit is payable.

A lump-sum death benefit that is *de minimis* (that is, the lump-sum value of the benefit at DOPT is $5,000 or less) may be paid in a lump sum to the beneficiary. However, if the benefit is not *de minimis*, the benefit can only be paid as an annuity that has the same value as the lump-sum death benefit, except for the portion attributable to employee contributions. PBGC must determine the amount and duration of the annuity based on the facts and circumstances.

> **Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**EBLS/FBA/PVA/PBA**

1. Review the Actuarial Valuation Report (▸AVR) to determine if the plan provided a lump-sum death benefit payable by PBGC. If in doubt or the AVR is not complete, ask the actuary to determine whether a lump-sum death benefit is payable:
   - Payable: Proceed to step 2.
   - Not Payable: Take no further action regarding the payment.
2. Review the participant's records to determine whether the participant designated a beneficiary for the payment with the plan or PBGC:
   - Beneficiary Designated: Use the most recent designation and proceed to step 4.
   - Beneficiary not Designated: Proceed to step 3.

> **Note** The beneficiary designated to receive the benefit may be different from the beneficiary designated to receive survivor benefits.

3. Check plan provisions to determine if the plan designates the beneficiary for the benefit:
   - Beneficiary Designated: Proceed to step 4.
   - Beneficiary not Designated: Follow the procedures in TP 5.7 Determine Beneficiaries to determine the beneficiary before proceeding to step 4.
4. Once the beneficiary is determined, proceed to TP 5.6B Notify Beneficiary of Other Amounts Owed.

Top of Page

## TP 5.7 Determine Beneficiaries

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine the identity of the contingent annuitant, the beneficiary due payments owed a deceased payee, or the beneficiary owed a lump-sum death benefit. |
| **Guidance** | Policy 8.6-1 Payments to Beneficiaries |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

A beneficiary determination is normally needed to establish who is due payments owed a deceased payee. However, a determination may also be required if PBGC is unable to determine:

- The contingent ▸annuitant due survivor benefits following the procedures in TP 5.4 Determine Continuing Benefits (Survivor Benefits).
- The beneficiary due a lump-sum death benefit following the procedures in TP 5.6 Determine Other Payments.

The process for determining the beneficiary depends on whether the date of death (▸DOD) is on or after June 1, 2002.

**In this Section**

TP 5.7A Determine Beneficiary when Date of Death is on or after June 1, 2002
TP 5.7B Determine Beneficiary when Date of Death is before June 1, 2002

**TP 5.7A Determine Beneficiary when Date of Death is on or after June 1, 2002**

**07/01/2016**

Use the *Beneficiary Determination for Deaths on or after 06/01/2002* to determine and document the beneficiary due the death benefit.

> **Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**EBLS/FBA/PVA/PBA**

1. Enter identifying information about the deceased ▸payee in the header at the top of the form.
2. Review the plan and ▸participant records to determine potential beneficiaries:
   a. If additional information is needed to determine the potential ▸beneficiary or beneficiaries, review other sources such as ▸CRM to identify potential contacts. Contact the representative of the deceased individual's ▸estate by telephone or letter (via ▸eALG) to request the information, as needed.
   b. Document identified contacts in Section B. Source of Beneficiary Information of the determination form.
3. Contact identified sources of beneficiary information, if needed, and document all contacts in the decedent's ▸IPS file or CRM as applicable.
4. Complete Section C. Identify Beneficiary of the form to determine the beneficiary.

   Determine the beneficiary in the following priority order:

   a. **Surviving Contingent Annuitant:** The designee typically named at the time the payee goes into pay status and elects a benefit form that provides survivor benefits. The beneficiary may have been designated or changed at a later date if the benefit form is a ▸single-life annuity, such as a 10-year ▸C&C. The beneficiary cannot be changed after payments begin for a joint-life annuity, such as an optional PBGC ▸joint and survivor annuity. See TP 5.4 Determine Continuing Benefits (Survivor Benefits) for additional guidance.

      An alternate payee who is the contingent ▸annuitant under a qualified domestic relations order (▸QDRO) is not treated as the beneficiary for other amounts owed, unless the alternate payee is designated as the beneficiary specifically for those benefits or payments.

   b. **Pre-DOPT Deaths:** If the payee died before ▸DOTR and the plan did not make payment, the surviving beneficiary designated by or under the plan for the specific type of payment.

   c. **PBGC Designation of Beneficiary:** The surviving designee named on a PBGC form or other document submitted to PBGC. There generally is no limitation on who may be designated as the contingent annuitant for single-life annuities or the beneficiary for payments owed to the deceased payee (for example, the beneficiary may be a non-relative, a same-sex spouse or partner, church or organization, estate or trust). However, for a joint-life payee the contingent annuitant generally must be a living person. If a trust for a living person is the designated beneficiary and PBGC has not already determined if the designation is acceptable, contact Ask PPD for guidance.

      i. If the beneficiary designated with PBGC has also died, determine if the beneficiary died from the same event as the payee, and if so, whether the beneficiary survived the payee by 30 days.

      ii. If the beneficiary died within 30 days of the payee due to the same event and an alternate beneficiary was not designated with PBGC, treat as if no designation was made and continue to next beneficiary in this priority order.

   d. **Deaths within 180 days of trusteeship:** If the payee died within 180 days of trusteeship and a PBGC Designation of Beneficiary is not in file, the surviving beneficiary designated by or under the plan for the specific type of payment.

   e. **Surviving Spouse:** The spouse at the time the payee died. Proof of marriage is required.

      Do not make payments to the surviving spouse if the participant was treated as unmarried because of legal separation or abandonment, unless the spouse provides convincing evidence to the contrary. See TP 20.5E Spousal Consent for additional guidance.

      Contact Ask PPD if the surviving spouse was in a same-sex marriage or civil union with the payee.

f. **Living and Deceased Children and Descendants:** The children may be living or deceased, including children who died before the payee. The relationship to the payee must be biological or adoptive; the relationship cannot be as a stepchild. The payee's child must provide proof of the relationship (for example, birth certificate or adoption certificate).

Example:

- If the payee's child is deceased, determine if the child had any living or deceased descendants (for example, the payee's grandchild or great grandchild); the relationship must be biological or adoptive.
- If the payee does not have any surviving descendants to whom payment can be made, continue to follow the priority order (for example, determine if the payee had a surviving parent) to determine the payee's beneficiary. Payments are not due beneficiaries who are not a descendant of the payee, such as a child's or descendant's surviving spouse.

Document the relationship and request any evidence of the relationship (for example, birth records, obituary, copy of will or testament identifying the relationship, church or family records). Proof of the relationship is preferred but is not required if deemed not to be readily available, unless the relationship appears questionable.

g. **Surviving Parents:** The relationship to the payee must be biological or adoptive; the relationship cannot be as a stepparent. The payee's parent(s) must provide proof of the relationship (for example, birth certificate or adoption certificate).

h. **Estate:** The estate must still be open. Proof of the estate administrator's authority is required (for example, letters of administration or other probate court documentation).

- Payment cannot be made directly to the beneficiaries of the estate if requested by the administrator. If the administrator alleges difficulty in negotiating the payment, assume that the estate is closed or the administrator no longer has authority to represent the estate.
- If unable to identify the administrator or whether the estate is open, continue to the next priority.

i. **Next of Kin as Determined in Accordance with State Law:** Next of kin includes a same-sex spouse or partner (in a state that recognizes same-sex marriage or civil or domestic partnerships), siblings (brothers and sisters), nieces and nephews, aunts and uncles, and cousins.

i. Identify and document where the deceased payee lived, for example, the state, U.S territory or commonwealth, or foreign city and country.

ii. Document the relationship of the next of kin to the deceased payee and request any evidence of the relationship, for example an obituary or a copy of a will or testament, church or family record identifying the relationship. Proof of the relationship is preferred but is not required if deemed not to be readily available, unless the relationship appears questionable.

iii. Identify deceased siblings when identifying next of kin.

iv. Send the partially completed determination and evidence to Ask PPD, and in the subject line, enter `Beneficiary Determination`. ▸PPD will request assistance from the Office of Chief Counsel (▸OCC) in determining whether the ▸relative is due benefits or other amounts owed.

> **Note** If more than one beneficiary is identified as next of kin by PPD/OCC, the payment is divided among the beneficiaries according to the guidance provided by PPD/OCC.

v. The next of kin who claims payment generally is not required to affirm entitlement to the payment. Request the next of kin to complete the *Next of Kin Affidavit* and reimbursement agreement affirming entitlement to the payment only if:

- The payment including interest is more than $10,000.
- PPD/OCC requires the affidavit.
- An affidavit is deemed desirable based on the facts and circumstances of the situation **and** PPD confirms that the affidavit is desirable.

5. If the beneficiary determined in step 4 died after the participant, treat the beneficiary as a deceased payee owed payments and determine his or her beneficiary according to this procedure.
6. Upon determining the person(s) eligible for payment, complete Section A. Beneficiary Determination on page 1 of the *Beneficiary Determination for Deaths on or after 06/01/2002*.
7. Image the *Beneficiary Determination for Deaths on or after 06/01/2002* and all supporting documentation to the

deceased payee's file in IPS before making payment.

Payment cannot be approved if the determination form and supporting documentation has not been imaged.

8. Contact Ask PPD if assistance is needed in making a beneficiary determination.

Top of Page

**TP 5.7B Determine Beneficiary when Date of Death is before June 1, 2002**

**07/01/2016**

Use this procedure when the date of death (DOD) is before June 1, 2002. If ▸DOD is on or after June 1, 2002, see TP 5.7A Determine Beneficiary when Date of Death is on or after June 1, 2002.

> **Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**EBLS/FBA/PVA/PBA**

1. Review the plan and participant records to determine potential beneficiaries:
   a. If additional information is needed to determine the potential beneficiary or beneficiaries, review other sources such as ▸CRM to identify potential contacts. Contact the representative of the deceased individual's estate by telephone or letter (via ▸eALG) to request the information, as needed.
   b. Use the *Beneficiary Determination for Deaths before 06/01/2002* to document the determination.
2. Determine the beneficiary based on whether the deceased individual was the participant or a beneficiary:
   - If the deceased individual was the original participant, continue to step 3.
   - If the deceased individual was a beneficiary, continue to step 4.
3. For a deceased original participant, determine the beneficiary in the following order, then proceed to step 5:
   a. **Surviving Contingent Annuitant:** The designee typically named at the time the participant went into pay status and elected a benefit form that provided survivor benefits. The beneficiary may have been designated or changed at a later date if the benefit form is a single-life annuity. The designation could not be changed after payments began for a joint-life annuity (see TP 5.4 Determine Continuing Benefits (Survivor Benefits) for additional guidance):
      - The survivor benefit must continue to be payable in order for a contingent ▸annuitant to be determined the beneficiary for payments owed the deceased participant. For example, if the certain period of a certain and continuous annuity (▸C&C) has ended, survivor benefits are not payable and there is no longer a contingent annuitant.
      - An alternate payee who is the contingent annuitant under a qualified domestic relations order (▸QDRO) is not treated as the beneficiary for other benefits and payments due, unless the alternate payee is designated as the beneficiary specifically for those benefits or payments.
   b. **PBGC Beneficiary Designation:** The designee named on or after the date of plan termination (DOPT) for the specific benefit or payment due on a PBGC form for that purpose or another form acceptable to PBGC.
   c. **Plan Beneficiary Designation:** The pre-▸DOPT (non-PBGC) designation filed with the plan.
   d. **Plan Provisions:** The person(s), if any, that the plan document states will receive the money owed the participant. Contact Ask PPD if there is any doubt about whether the plan provision applies to this type of payment.
   e. **Estate:** Follow this procedure regardless of whether the deceased had an estate or whether the estate is open or closed:
      - If a beneficiary identified in any of the preceding priorities is also deceased, make payment to the estate of the:
        - Participant if the beneficiary died before the participant.
        - Beneficiary if the participant died before the beneficiary.
      - If the beneficiary cannot be determined, or if payment is determined to be due to an estate, proceed according to the amount of the payment, including interest:
        - $500 or Less: Pay the surviving spouse of the deceased payee, unless an administrator of the estate has provided proof of his/her authority. Apply the 90-day rule for requesting proof. If proof is not received within 90 days, pay the spouse. If the administrator of the estate provides proof of his/her authority within 90 days of being requested, or if the deceased payee did not have a surviving spouse, pay the estate.
        - Greater than $500: Make the payment payable to the estate of the deceased payee.

**Example:** A participant was receiving an estimated benefit of $600 a month in the form of a straight life annuity. The final benefit was determined to be $660 a month. The participant was owed an underpayment of $540, but died before the underpayment could be paid. A beneficiary was not designated with PBGC but had been designated under the plan before DOPT. Payment is due the pre-DoPT beneficiary. If the pre-DOPT beneficiary is not alive:

- If the pre-DOPT beneficiary died before the participant, payment is due the participant's estate.
- If the beneficiary died after the participant, payment is due the deceased beneficiary's estate, not a beneficiary of the deceased beneficiary as described in step 4.

4. For payments owed a beneficiary who is no longer living, such as an underpayment of survivor benefits or a qualified preretirement survivor annuity (▶QPSA) payable in a lump sum, determine the beneficiary of that individual (referenced as the payee in steps 4.a-e below) in the following order:

> **Note** When payments are owed a deceased participant and the deceased participant's beneficiary has also died, step 4 does not apply.

   a. **Surviving Contingent Annuitant:** The designee typically named at the time the payee went into pay status and elected a benefit form that provided survivor benefits. The designation may have been made or changed at a later date if the benefit form is a single-life annuity. The designation could not be changed after payments began for a joint-life annuity.

      The survivor benefit must continue to be payable in order for the contingent annuitant to be determined the beneficiary for payments owed the deceased beneficiary. For example, if the certain period of a C&C has ended, survivor benefits are not payable and there is no longer a contingent annuitant. See TP 5.4 Determine Continuing Benefits (Survivor Benefits) for additional guidance.

   b. **PBGC Beneficiary Designation:** The designee named on or after DOPT for the specific benefit or payment due on a PBGC form for that purpose or another form acceptable to PBGC.

   c. **Plan Beneficiary Designation:** The pre-DOPT (non-PBGC) designation filed with the plan.

   d. **Plan Provisions:** The person(s), if any, that the plan document states will receive the money owed the participant. Contact Ask PPD if there is any doubt about whether the plan provision applies to this type of payment.

   e. **Estate:** Follow this procedure regardless of whether the deceased had an estate or whether the estate is open or closed:
      - If a beneficiary identified in any of the preceding priorities is also deceased, make payment to the estate of the:
        - Participant if the beneficiary died before the participant.
        - Beneficiary if the participant died before the beneficiary.
      - If the beneficiary cannot be determined, or if payment is determined to be due to an estate, proceed according to the amount of the payment, including interest:
        - $500 or Less: Pay the surviving spouse of the deceased payee, unless an administrator of the estate has provided proof of his/her authority. Apply the 90-day rule for requesting proof. If proof is not received within 90 days, pay the spouse. If the administrator of the estate provides proof of his/her authority within 90 days of being requested, or if the deceased payee did not have a surviving spouse, pay the estate.
        - Greater than $500: Make the payment payable to the estate of the deceased payee.

   **Example:** A surviving spouse was receiving survivor benefits (for example, surviving spouse benefits under a qualified joint and survivor annuity (QJSA)) of $500 each month. The spouse died and payments for four months were returned to PBGC. Three payments or $1,500 was owed the deceased spouse (that is, due prior to death). The spouse's beneficiary was determined in accordance with step 3. The spouse had designated a beneficiary with PBGC to receive any payments owed the decedent and payment was made to that designee.

   Shortly after payment was made to the deceased spouse's beneficiary, PBGC determined that the participant was owed a back payment of $2,000 for missed payments. If step 3 were followed, the spouse as the contingent annuitant would have been due the underpayment. Because the spouse died after the participant, step 4 does not apply, and payment is owed to the deceased spouse's estate as provided in step 3.

5. If a contact alleges difficulty in negotiating a **payment to the estate** and claims the benefit (for example, the deceased did not have an estate or the estate is now closed):

   a. Document the individual(s)' relationship to the deceased payee (for example, former administrator of the estate,

beneficiary of the estate, ▸relative or next of kin, or friend or significant other), and reason for believing the individual is due the payment.

b. Request that the individual(s) submit convincing evidence (for example, a copy of the executed will or testamentary document or probate court decisions or orders showing that the individual was due payment from the estate).

c. If convincing evidence is received that is indicative of a close familial relationship (for example, biological or adoptive child, biological or adoptive parent, brother/sister, or niece/nephew), treat the document as a beneficiary determination acceptable to PBGC, and pay the individual(s). If the determination is questionable, for example, the evidence indicates other individuals who may be due payments from the estate (and previously were not identified as possible beneficiaries), document the details and contact Ask PPD for guidance.

d. If PBGC receives a court order (for example, probate court, county court, or state court) that gives or recognizes the inheritancy rights of the individual(s), regardless of a familial relationship, treat the document as a beneficiary determination acceptable to PBGC, and pay the individual(s). If the determination is questionable, for example, the court order identifies other individuals who have inheritancy rights (and who previously were not identified as possible beneficiaries), document the details and contact Ask PPD for guidance.

e. If convincing evidence is not submitted, document the details of the relationship and contact Ask PPD for guidance. ▸PPD requests additional guidance for the Office of Chief Counsel (OCC) if needed.

f. If the total payment, including interest, due a beneficiary is $10,000 or more, document the details in a memo to the file and contact Ask PPD before making payment.

g. Request the beneficiary (or beneficiaries) to complete an affidavit and reimbursement agreement, *Affidavit for Estate Payment*, affirming entitlement to the payment if:
   - The benefit determination is questionable, as previously described.
   - Any payment, including interest, is more than $10,000.
   - An affidavit appears desirable based on the facts and circumstances of the situation. Contact Ask PPD for guidance before requiring the affidavit.
   - PPD or ▸OCC requires the affidavit.

6. Image the *Beneficiary Determination for Deaths before 06/01/2002* and all supporting documentation to the deceased payee's file in ▸IPS.

# TP 6 Recover Overpayments

**In this Section**

TP 6. Overview for Recover Overpayments
TP 6.1 Perform Initial Recovery Actions
TP 6.2 Process Recovery Referrals
TP 6.3 Resources for Recover Overpayments

## TP 6. Overview for Recover Overpayments

**07/01/2016**

In accordance with Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery, PBGC employs three methods in seeking the repayment of benefit overpayments. Overpayments to a participant with future ▸annuity benefits payable as of ▸DOPT are generally handled by ▸recoupment from subsequent benefit payments (see TP 7 Recoupment). Administrative correction is used under limited circumstances to correct erroneous payments, such as duplicate monthly payments, by means such as stop payment orders or temporary suspension of benefit payments (see TP 2 Administrative Correction of Benefit Overpayments). When no future annuity benefits are payable as of DOPT, the overpayment is generally handled as a ▸recovery, the subject of this technical procedure.

Other situations may also be handled as recoveries. For example, if a ▸beneficiary of a ▸C&C receives payments after the certain period expires **and** previously received notification of the payment end date from PBGC or the prior plan administrator, PBGC pursues recovery regardless of whether future annuity benefits were payable at DOPT. Recovery does not apply if there is no evidence the beneficiary was notified of the end date.

Most recovery situations result from payments that continue after the death of a payee, overpayment of estimated ▸lump-sum benefits, or payments to persons not entitled to benefits. The following sections cover the initial actions taken by benefit processing staff once a recovery situation is determined, and the follow-up actions by the Recovery Processing Team in ▸BPD after the case is referred for collection.

Due to policy changes effective 05/01/2012, the procedures for recoveries may vary depending on the date of overpayment and amount of the recovery. The **Recoveries Due to Death Summary Table** and **Recoveries not Due to Death Summary Table** clarify how to deal with recoveries of different amounts before and after 05/01/2012.

**Recoveries Due to Death Summary Table**

| Amount | Date of Overpayment Notification | Processing if Case Is Still Open on or after 05/01/2012 |
|---|---|---|
| $0.00–24.99 | Before 05/01/2012 | The ▸EBLS/▸FBA/▸PVA/▸PBA follows the procedure in TP 6.1C Recovery Due to Death. |
| $0.00–24.99 | On or after 05/01/2012 | The EBLS/FBA/PVA/PBA follows the procedure in TP 6.1C Recovery Due to Death. |
| $25.00–499.99 | Before 05/01/2012 | The EBLS/FBA/PVA/PBA follows the procedure in TP 6.1C Recovery Due to Death. |
| $25.00–499.99 | On or after 05/01/2012 | The EBLS/FBA/PVA/PBA follows the procedure in TP 6.1C Recovery Due to Death. |
| $500.00–999.99 | Before 05/01/2012 | Proceed according to the status of the case:<br>• If the EBLS/FBA/PVA/PBA did not refer the case to BPD, the EBLS/FBA/PVA/PBA follows the procedure in TP 6.1C Recovery Due to Death.<br>• If the EBLS/FBA/PVA/PBA referred the case to BPD, BPD closes or returns the case as "not a recovery" and the EBLS/FBA/PVA/PBA follows the procedure in TP 6.1C Recovery Due to Death. |
| $500.00–999.99 | On or after 05/01/2012 | The EBLS/FBA/PVA/PBA follows the procedure in TP 6.1C Recovery Due to Death. |
| $1,000–9,999.99 | Before 05/01/2012 | BPD follows the procedure in TP 6.2A Process Recovery Referrals. |

| | | |
|---|---|---|
| $1,000–9,999.99 | On or after 05/01/2012 | BPD follows the procedure in TP 6.2A Process Recovery Referrals. |
| $10,000 or more | Before 05/01/2012 | BPD refers the case to ▶OGC for guidance. |
| $10,000 or more | On or after 05/01/2012 | BPD refers the case to OGC for guidance. |

**Recoveries Not Due to Death Summary Table**

| Amount | Date of BDL or Overpayment Notification | Processing if Case Is Still Open on or after 05/01/2012 |
|---|---|---|
| $0.00–24.99 | Before 05/01/2012 | The EBLS/FBA/PVA/PBA takes no action (the BDL or notification writes off the debt). |
| $0.00–24.99 | On or after 05/01/2012 | The EBLS/FBA/PVA/PBA follows the procedure in TP 6.1 Perform Initial Recovery Actions. |
| $25.00–499.99 | Before 05/01/2012 | The EBLS/FBA/PVA/PBA takes no action (the BDL or notification writes off the debt). |
| $25.00–499.99 | On or after 05/01/2012 | The EBLS/FBA/PVA/PBA follows the procedure in TP 6.1 Perform Initial Recovery Actions. |
| $500.00–999.99 | Before 05/01/2012 | Proceed according to the status of the case:<br>• If the EBLS/FBA/PVA/PBA did not refer the case to BPD, the EBLS/FBA/PVA/PBA follows the procedure in TP 6.1 Perform Initial Recovery Actions.<br>• If the EBLS/FBA/PVA/PBA referred the case to BPD, BPD closes or returns the case as "not a recovery" and the EBLS/FBA/PVA/PBA follows the procedure in TP 6.1 Perform Initial Recovery Actions. |
| $500.00–999.99 | On or after 05/01/2012 | The EBLS/FBA/PVA/PBA follows the procedure in TP 6.1 Perform Initial Recovery Actions. |
| $1,000–9,999.99 | Before 05/01/2012 | BPD follows the procedure in TP 6.2A Process Recovery Referrals. |
| $1,000–9,999.99 | On or after 05/01/2012 | BPD follows the procedure in TP 6.2A Process Recovery Referrals. |
| $10,000 or more | Before 05/01/2012 | BPD refers the case to OGC for guidance. |
| $10,000 or more | On or after 05/01/2012 | BPD refers the case to OGC for guidance. |

## TP 6.1 Perform Initial Recovery Actions

**09/30/2016**

| | |
|---|---|
| **Purpose** | To initiate recovery actions and refer a recovery case to the Recovery Team in BPD as needed. |
| **Guidance** | *PLUS Web Manual*<br><br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br><br>*Recovering an Overpayment Minus Federal Tax Withholding Guidance* |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

Take initial actions based on the reason for the recovery.

**In this Section**

TP 6.1A Recovery Due to Benefit Determination Letter (Overpayment of $1,000 or More)
TP 6.1B Recovery Due to Benefit Determination Letter (Overpayment Less than $1,000)
TP 6.1C Recovery Due to Death
TP 6.1D Other Recovery Situations

**TP 6.1A Recovery Due to Benefit Determination Letter (Overpayment of $1,000 or More)**

**07/01/2016**

Use Process 19 Benefit Determination Letters to issue all recovery ▸BDLs. The process includes instructions for determining benefit overpayment amounts.

Use this procedure to follow up on recovery BDLs of $1,000 or more. For recovery BDLs of less than $1,000, see TP 6.1B Recovery Due to Benefit Determination Letter (Overpayment Less than $1,000).

**EBLS/FBA/PVA/PBA**

1. If either of the following applies, complete the *Recovery Referral Memo*, send by e-mail to the Recovery Processing Team mailbox, and image a copy of the memo to the payee's file.
   - Debtor is an ▸estate, ▸trust, or other legal entity.
   - Debtor is represented by counsel, a lawyer becomes involved in any other way, or a notice of bankruptcy is received naming the debtor.
2. If the debtor contacts PBGC to request a debt waiver (for example, due to hardship) or with other questions about the debt, inform the debtor that PBGC will send another letter that specifies the amount of the debt, provides instructions, and explains the debtor's rights and options.
3. If the debtor files an appeal (or requests an extension to file an appeal), wait until the appeal is closed before continuing (see Process 20 Appeals Correspondence for further instructions on handling appeals correspondence):
   - If the Appeals Division's decision eliminates the debt, and the case is no longer a recovery case:
     - Take any action required by the appeal decision (see Process 20 Appeals Correspondence for appeal processing instructions).
     - No further action is required for this procedure.
   - If the appeal decision reduces the debt to an amount of less than $1,000, treat the debt as a recovery BDL of less than $1,000 (see TP 6.1B Recovery Due to Benefit Determination Letter (Overpayment Less than $1,000)). No further action is required on this procedure.
   - If the appeal decision upholds the recovery or does not reduce the debt to less than $1,000, continue to step 5.
   - If the appeal is transferred to the processing unit as RFA (Referred From Appeals) correspondence, allow the debtor the additional 45 days to file an appeal as provided by the *eALG 533 Response to Appellant – Referral from Appeals Dept.* before taking further action.
4. Once 50 days pass from the date of issuing the BDL (or the date of issuing *eALG 540 Cover Letter to send with copy of BDL*) without an appeal, or all appeals are closed and a debt of $1,000 or more remains, complete the *Recovery Referral Memo*.
5. Send the memo by e-mail to the Recovery Processing Team mailbox.
6. Image a copy of the memo to the payee's file in ▸IPS.
7. Once a recovery case has been referred to the ▸Recovery Team in BPD, refer all inquiries and correspondence to the appropriate party:
   - If the debt has not been referred to the U.S. Treasury for collection action (there is no *Treasury Referral Memo* in the payee's ▸PBGC Image Viewer file), refer all calls and correspondence concerning the recovery to the Recovery Team. Assign or reassign to the Recovery Team in ▸CRM as appropriate.
   - Do not issue *Form 718 Installment Payment Agreement* to a debtor. Refer all requests for the form to the Recovery Team.
   - If the debt has been referred to the U.S. Treasury for collection action, as indicated by a *Treasury Referral Memo* in the payee's PBGC Image Viewer file, refer inquiries directly to Treasury according to the memo.
   - Do not acknowledge any correspondence intended for another office, including:
     - Completed *Form 718 Installment Payment Agreement*
     - Installment payments

Top of Page

**TP 6.1B Recovery Due to Benefit Determination Letter (Overpayment Less than $1,000)**

**07/01/2016**

Use Process 19 Benefit Determination Letters to issue all recovery ▸BDLs. The process includes instructions for determining benefit overpayment amounts.

Use this procedure to follow up on recovery BDLs of less than $1,000. For recovery BDLs of $1,000 or more, see TP 6.1A Recovery Due to Benefit Determination Letter (Overpayment of $1,000 or More).

**EBLS/FBA/PVA/PBA**

1. Proceed according to the debt amount:
   - **$25-1,000:** Continue to step 2.
   - **Less than $25:** Refer to the ▸Recovery Team for write-off.
     a. Complete the *Recovery Referral Memo*.
     b. E-mail the *Recovery Referral Memo* to the Recovery Processing Team mailbox.
     c. Image a copy of the memo to the customer's file in ▸IPS.
2. If the ▸debtor files an appeal (or requests an extension to file an appeal), wait until the appeal is closed before continuing (see Process 20 Appeals Correspondence for further instructions on handling appeals correspondence):
   - If the Appeals Division's decision eliminates the debt or reduces the debt to less than the $25:
     - Take any action required by the appeal decision (see Process 20 Appeals Correspondence for appeal processing instructions).
     - Advise the recovery team by e-mail to the Recovery Processing Team mailbox if the debt is eliminated.
     - Refer a remaining debt balance of less than $25 to the Recovery Team for write-off (see step 1).
     - No further action required for this procedure.
   - If the appeal decision upholds the recovery or does not reduce the debt to less than $25, continue to step 3.
   - If the appeal is transferred to the processing unit as ▸RFA correspondence, allow the debtor the additional 45 days to file an appeal as provided by the *eALG 533 Response to Appellant – Referral from Appeals Dept.* before taking further action.
3. Once 50 days pass without an appeal (the 45-day appeal period, plus five days to process correspondence) or all appeals are closed and a debt of $25 or more remains, issue *eALG 515 Request for Overpayments under $1,000 (Recovery)* to the debtor.
4. Proceed according to the response to the letter:
   - Full payment within 45 days:
     - Verify the repayment in ▸PLUS.
     - Customize and issue an *eALG 531 Receipt of Complete Documentation/Information* to acknowledge the repayment.
   - Partial or no payment within 45 days:
     - Refer the debt to the Recovery Team.
     - Complete the *Recovery Referral Memo*.
     - E-mail the *Recovery Referral Memo* to the Recovery Processing Team mailbox.
     - Image a copy of the memo to the customer's file in IPS.
   - PBGC receives a payment after writing off the debt:
     - Customize and issue an *eALG 531 Receipt of Complete Documentation/Information* to acknowledge the repayment.
     - Advise the Recovery Team by e-mail to the Recovery Processing Team mailbox.
   - Debtor requests to make installment payments, to have the debt waived (for example, due to hardship), or other non-routine questions:
     - Contact Ask PPD for guidance.

Top of Page

**TP 6.1C Recovery Due to Death**

**07/01/2016**

This procedure covers overpayments due to the death of the ▸payee (the payee was deceased at the date of payment). In cases of recovery due to death, the ▸debtor is the person or ▸estate who received the payment, not the deceased payee.

**EBLS/FBA/PVA/PBA**

1. Refer to TP 5 Death Processing for general death processing. Follow this procedure if a recovery situation is identified.
2. Determine the identity of the debtor, the person (or entity) that received the payment(s) after the date of the payee's death, for example:
   - a signatory on the deceased's joint bank account
   - the deceased payee's estate
3. Determine the overpayment amount using the ▸Spectrum ledgers. ▸PACS may be used if there were multiple payments after the date of death. Use the **gross** payment amount(s) in the calculation (not the net); do not reduce for federal income tax withheld or other deductions from the benefit payments.
4. Take initial action based on how PBGC was notified of the payee's death:
   - **Death Match** (*eALG 555 Death Match Letter* has been issued):
     - If a family member or another person responds to the Death Match letter to confirm the death, treat it as a normal report of death and issue *eALG 505DO Response to Death Notification – Overpayment* or *eALG 505DNO Response to Death Notification – No Overpayment*, as appropriate.
     - If there is no contact confirming the death, after 21 days elapse from the date of the Death Match letter, issue *eALG 505D Follow-up to Death Match Letter or Returned Mail*. Customize the letter according to whether the post-death payments were by ▸ACH or check.
   - **Returned Correspondence Stamped "Deceased" by the Post Office:** Issue *eALG 505D Follow-up to Death Match Letter or Returned Mail*.
   - **Notified by Telephone or Correspondence:** Issue *eALG 505DO Response to Death Notification – Overpayment* or *eALG 505DNO Response to Death Notification – No Overpayment*, as appropriate.
5. Check ▸PLUS for returned payments. If some or all of the debt remains, proceed according to the payment method:
   - **Electronic Direct Deposit (ACH):** Proceed according to the time elapsed since the death notification (or end of the 21-day period for Death Match notification):
     - Four or fewer days: Attempt an ▸ACH reclamation (see TP 2.3 Initiate ACH Reclamation).
     - More than four days: Continue to step 6 and proceed as if the recovery effort failed.
   - **Checks:** For payments issued after the date of death, issue an ▸eCARF (see eCARF Overview page) according to the status of the check:
     - Cashed: Request copies of the cashed checks and continue to step 6.
     - Not Cashed: Select the option to ▸**Return to Trust**, which prompts PBGC's paying agent to stop payment on outstanding checks and to return the funds to trust. Proceed according to whether the stop payment order is successful and the debtor is a beneficiary entitled to continuing benefit payments:
       - Stop payment is successful: Continue death processing according to TP 5 Death Processing as needed.
       - Stop payment is unsuccessful and debtor is not entitled: Continue to step 6.
       - Stop payment is unsuccessful and debtor is entitled: Proceed to TP 2.2 Suspend Benefits to Correct Overpayment.
6. Proceed based on the success or failure of recovery effort and status of the debtor:
   - **Successful collection of full overpayment amount:** Verify the repayment in PLUS and close the case. Issue an *eALG 531 Receipt of Complete Documentation/Information* to acknowledge the repayment.
   - **Debtor is beneficiary entitled to continuing benefit payments and debt balance remains:**
     - If the balance is less than $25, refer the debt to the ▸Recovery Team for write off:
       - Complete the *Recovery Referral Memo*.

- E-mail the *Recovery Referral Memo* to the Recovery Processing Team mailbox.
- Image a copy of the memo to the deceased payee's file in ▶IPS.

- If the balance is $25 or more, attempt to correct the overpayment by suspending or applying recoupment to the beneficiary's payments (see TP 2.2 Suspend Benefits to Correct Overpayment).

> **Note** If the beneficiary is due a back payment and is known to be the debtor for the post-death payments, the back payment may be offset by the amount of the debt. See TP 20.3C Issue Annuity Payment.

- **Debtor is deceased and balance of $10,000 or more remains or debtor is alive and balance of $1,000 or more remains:** Refer the case to the ▶Recovery Team once 35 days elapse from issuing the *eALG 505DO Response to Death Notification – Overpayment* or *eALG 505D Follow-up Letter to Death Match Letter or Returned Mail*.
  - Complete the *Recovery Referral Memo*.
  - E-mail the *Recovery Referral Memo* to the Recovery Processing Team mailbox.
  - Image a copy of the memo to the deceased payee's file in IPS.
- **Debtor is deceased and balance of less than $10,000 remains or debtor is alive and balance of less than $1,000 remains:**

  Debtor requests to make installment payments, to have the debt waived (for example, due to hardship), or other non-routine questions: Contact Ask PPD for guidance.

  All other situations: Refer the debt to the Recovery Team:

  - Complete the *Recovery Referral Memo*.
  - E-mail the *Recovery Referral Memo* to the Recovery Processing Team mailbox.
  - Image a copy of the memo to the deceased payee's file in IPS.

> **Note** If the need arises to issue a non-benefit payment, refer the matter to the PSD/BPD Management Analyst. This may be required, for example, to reimburse a check-cashing agency for fees incurred for cashing a PBGC check with a stop payment order, or to issue an overpayment refund when an ACH reclamation is successful and a check is also received to repay an overpayment.

7. Once a recovery case has been referred to the Recovery Team in ▶BPD, refer all inquiries and correspondence to the appropriate party:
   - If the debt has not been referred to the U.S. Treasury for collection action (there is no *Treasury Referral Memo* in the payee's ▶PBGC Image Viewer file), refer all calls and correspondence concerning the recovery to the Recovery Team. Assign or reassign to the Recovery Team in ▶CRM as appropriate.
   - Do not issue *Form 718 Installment Payment Agreement* to a debtor. Refer all requests for the form to the Recovery Team.
   - If the debt has been referred to the U.S. Treasury for collection action, as indicated by a *Treasury Referral Memo* in the payee's PBGC Image Viewer file, refer inquiries directly to Treasury according to the memo.
   - Do not acknowledge any correspondence intended for another office, including:
     - Completed *Form 718 Installment Payment Agreement*.
     - Installment payments.

Top of Page

**TP 6.1D Other Recovery Situations**

**07/01/2016**

This section covers unusual ▸recovery situations in which a ▸BDL or death may not be relevant, for example:

- A ▸beneficiary of a ▸C&C ▸annuity received payments after the certain period expired **and** had previously received notification of the payment end date from PBGC or the prior ▸plan administrator. Recovery does not apply if there is no evidence the beneficiary was notified of the end date.
- A ▸participant continued to receive payments after the benefit was supposed to drop to $0 **and** had previously received notification of the payment end date from PBGC or the prior plan administrator. Recovery does not apply if there is no evidence the participant was notified of the end date.
- An alternate ▸payee who is not entitled to any of the participant's survivor benefits receives payments under a shared payment ▸QDRO after the death of the participant.
- An alternate payee receives payments under a child support QDRO after the payments' end date.
- PBGC decides to exercise its authority to collect a debt from a living ▸debtor for any reason.

**EBLS/FBA/PVA/PBA**

1. Customize and issue an *eALG Generic Letter* to notify the debtor and:
   - Identify the amount to repay to PBGC.
   - Explain the reason the debtor is not entitled to the funds.
   - Request full repayment of the debt within 30 days of the date of the letter.
   - Include a return envelope addressed to PBGC's lockbox (P.O. Box 790374) for remitting the full amount in a single payment.
2. Proceed according to the response to the letter:
   - Debtor pays in full within 45 days (30 days plus 15 days for transit time and late payments): Customize and issue an *eALG 531 Receipt of Complete Documentation/Information* to acknowledge the repayment. No further action required for this procedure.
   - Debt is less than $1,000 and debtor requests to make installment payments, to have the debt waived (for example, due to hardship), or other non-routine questions: Contact Ask PPD for guidance.
   - Debtor does not pay in full within 45 days (30 days plus 15 days for transit time and late payments): Continue to step 3.
3. Refer the debt to the Recovery Processing Team:
   - Complete the *Recovery Referral Memo*.
   - Send the memo by e-mail to the Recovery Processing Team mailbox.
   - Image a copy of the memo to the payee's file in ▸IPS.
4. Once a recovery case has been referred to the ▸Recovery Team in ▸BPD, refer all inquiries and correspondence to the appropriate party:
   - If the debt has not been referred to the U.S. Treasury for collection action (there is no *Treasury Referral Memo* in the payee's IPS file), refer all calls and correspondence concerning the recovery to the Recovery Team. Assign or reassign to the Recovery Team in ▸CRM as appropriate.
   - Do not issue *Form 718 Installment Payment Agreement* to a debtor. Refer all requests for the form to the Recovery Team.
   - If the debt has been referred to the U.S. Treasury for collection action, as indicated by a *Treasury Referral Memo* in the payee's IPS file, refer inquiries directly to Treasury according to the memo.
   - Do not acknowledge any correspondence intended for another office, including:
     - Completed *Form 718 Installment Payment Agreement*.
     - Installment payments.

## TP 6.2 Process Recovery Referrals

**09/30/2016**

| | |
|---|---|
| **Purpose** | To take follow-up action upon receipt of a recovery case referred by a CSB, FBA, PVA, or PBA. |
| **Guidance** | *PLUS Web Manual*<br><br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br><br>*Recovering an Overpayment Minus Federal Tax Withholding Guidance* |
| **Procedure Owner** | Recovery Team, BPD |

The following processes cover the actions taken by the Recovery Team in ▸BPD once a case has been referred from the ▸CSB, ▸FBA, ▸PVA, or ▸PBA. Begin with TP 6.2A Process Recovery Referrals and refer to the other sections as needed.

**In this Section**

TP 6.2A Process Recovery Referrals
TP 6.2B Process Debt Waiver and Payment Plan Requests
TP 6.2C Use Subpoena to Identify ACH Payment Recipient
TP 6.2D Process Estates, Trusts, and Other Legal Entities
TP 6.2E Process Installment Payment Agreements
TP 6.2F Monthly Recovery Report to FOD

**TP 6.2A Process Recovery Referrals**

**07/01/2016**

**Recovery Team**

1. If the case involves a debt of less than $10,000 and there was sufficient information more than three years ago for PBGC to pursue the case, but no one did, write off the debt in accordance with ▸OGC guidance. Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments Closeout Report (4UI).
2. If the amount of the debt appears to be $10,000 or more, research to confirm the amount of the debt:
   - Amount is $10,000 or more: Wait for the appeals period to end, then refer the case to OGC. No further action required for this procedure.
   - Amount is less than $10,000: Continue to step 3.
3. Write off small debts as appropriate:

   **Debts less than $25.00:** Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments Closeout Report (4UI).

   **Debt $25.00-200.00:** The Recovery Coordinator or alternate may use discretion to write off the debt if it appears the expected recovery cost would exceed the expected collection amount. To write off the debt, proceed as described above (for debts of less than $25.00).

   **Debts $200.01-1,000.00:** The ▸BPD Supervisory Benefits Payment Analyst may use discretion to write off the debt if it appears that the expected recovery cost would exceed the expected collection amount. To write off the debt, proceed as described above (for debts of less than $25.00).
4. Update the recovery tracking tool. Follow up with the ▸POC for any missing information. Continue to update the tool as the case proceeds with the appropriate status codes and comments.

   > **Note** As soon as a case is added to the recovery tracking tool and the debt amount and debtor identification are approved, it is subject to being included on BPD's monthly **Recovery of Benefit Overpayments A/R** report to ▸FOD (see TP 6.2F Monthly Recovery Report to FOD). FOD uses this data to ensure receivables are properly reported on the Corporation's financial statements.
5. Verify the identity of the debtor using ▸PBGC Image Viewer, ▸CRM, and ▸Spectrum, as needed:
   - If the ▸debtor is an ▸estate, ▸trust or other legal entity, see TP 6.2D Process Estates, Trusts, and Other Legal Entities.
   - If the debtor is represented by counsel, a lawyer becomes involved in any other way, or PBGC receives a notice of bankruptcy naming the debtor, contact OGC for guidance before proceeding.
   - If the debtor's identity cannot be verified, obtain an original death certificate or other acceptable proof of death (see Appendix G Acceptable Proof of Age and Death) and proceed according to the type of payment:
     - ▸**ACH:** See TP 6.2C Use Subpoena to Identify ACH Payment Recipient.
     - **Check:** If the total debt is:
       - Less than $3,500: Refer to ▸PBGC's paying agent for fraud investigation.
       - $3,500 or more: Refer to the Office of Inspector General.
6. If the circumstances of the debt appear to involve egregious errors by PBGC, consult with the BPD Supervisory Benefits Payment Analyst before proceeding.
7. Issue the first demand letter to the debtor according to the type of case.
   - **Recovery BDLs:** Issue the first demand letter for repayment, *eALG 565 First Demand Letter - Follows Overpayment BDL*.
   - **Death cases in which the debtor is known:** Issue first demand letter for repayment, *eALG 566 First Demand Letter - Follows Death Letters*.
   - **Other cases:** Send a customized *eALG 565 First Demand Letter - Follows Overpayment BDL* without the ▸BDL language.
8. If at any time a debtor requests a debt waiver (for example, due to hardship) or to repay the debt in installments, proceed to TP 6.2B Process Debt Waiver and Payment Plan Requests.

9. Allow 30 days (plus five days for late correspondence to be processed) for a response to the *eALG 565 First Demand Letter - Follows Overpayment BDL* or *566 First Demand Letter - Follows Death Letters*, as applicable. If the debtor:
   - **Pays the balance in full:** Verify the repayment in ▶PLUS and close the case. Continue to step 11.
   - **Does not respond within 30 days or makes a partial payment and the remaining debt is $1,000 or more:** Proceed according to the date PBGC notified the payee of the debt (BDL or debt notification letter):
     - Before 05/01/2012:
       a. Refer the case to the U.S. Treasury for collection using the FedDebt Web site.
       b. After entering all necessary information, print the *Debt Summary Confirmation* and image to the payee's file along with a completed *Treasury Referral Memo*.
       c. Continue to step 11.
     - On or after 05/01/2012: Continue to step 10.
   - **Makes a partial payment and the remaining debt is less than $1,000:** Proceed according to the date PBGC notified the payee of the debt (BDL or debt notification letter):
     a. Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments Closeout Report (4UI).
     b. Continue to step 11.
   - **Requests administrative review:** Refer the case with a recommendation of action to the BPD Supervisory Benefits Payment Analyst and proceed as directed.
   - **Requests an installment payment plan or a debt waiver:** Proceed to TP 6.2B Process Debt Waiver and Payment Plan Requests.
10. Issue the *eALG 567 Second Demand Letter* and if the debtor:
   - **Pays the balance in full:** Verify the repayment in ▶PLUS and close the case. Continue to step 10.
   - **Requests administrative review:** Refer the case with a recommendation of action to the BPD Supervisory Benefits Payment Analyst and proceed as directed.
   - **Requests a payment plan or a debt waiver:** Proceed to TP 6.2B Process Debt Waiver and Payment Plan Requests.
   - **Does not respond within 30 days (allow five additional days to process late correspondence) or makes a partial payment and the remaining debt is $1,000 or more:**
     a. Refer the case to the U.S. Treasury for collection using the FedDebt Web site.
     b. After entering all necessary information, print the *Debt Summary Confirmation* and image to the payee's file along with a completed *Treasury Referral Memo*.
   - **Makes a partial payment and the remaining debt is less than $1,000:**
     a. Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments Closeout Report (4UI).
     b. Continue to step 11.
11. Update the recovery tracking tool.
12. On closing the case, update the tracking tool, close the case, and image the Recovery of Benefit Overpayments Closeout Report (4UI) to the payee's ▶IPS file.

Top of Page

**TP 6.2B Process Debt Waiver and Payment Plan Requests**

**07/01/2016**

**Recovery Team**

1. If a ▸debtor requests either a debt waiver (for example, due to hardship) or installment payment plan after the first or second demand letter, issue *eALG 513 Cover Letter for Form 722*.
2. Allow the debtor 30 days (plus five days for late correspondence to be processed) to return the *Form 722 Financial Statement of Debtor* and proceed based on the response:
   - **Form 722 Returned:** Continue to step 3.
   - **No response:** Once 60 days (plus any additional time while the case was under administrative review) have elapsed from the date of the demand letter, refer the recovery case to Treasury (see TP 6.2A Process Recovery Referrals).
3. Proceed according to whether a review of the *Form 722 Financial Statement of Debtor* indicates the debtor can repay the debt in 36 months:
   - **Debtor can repay within 36 months:**
     - Debt is less than $5,000: Refer to the Recovery Coordinator to determine the monthly amount and number of months for the payment plan according to the information on the form. Proceed to TP 6.2E Process Installment Payment Agreements.
     - Debt is $5,000 or more: Refer to the ▸BPD Supervisory Benefits Payment Analyst with recommendations for the monthly amount and number of months for the payment plan according to the information on the form. Proceed to TP 6.2E Process Installment Payment Agreements.
   - **Debtor cannot repay within 36 months:**
     - Immediately forward the case to ▸OGC for review. OGC may waive the debt, permit a payment plan of more than 36 months, or specify other action.
     - Follow up with OGC for the status if there is no response within 30 days.
     - Proceed according to OGC's direction.
     - Update the recovery tracking tool.

**TP 6.2C Use Subpoena to Identify ACH Payment Recipient**

**03/27/2014**

**Recovery Team**

1. If appropriate, call the bank that received the payment to request information on the debtor and determine whether a subpoena will be needed. If so, request the address of the department to which the subpoena should be mailed.
2. If necessary, issue a subpoena to the bank that received the payment using *eALG 516 Administrative Subpoena – Recovery Use*.

   If the receiving bank is known to frequently request a customer communication letter, include *CRM 516CC Customer Communication Letter - Recovery Use ONLY* with the subpoena.
3. Proceed based on the response to the subpoena:
   - **Response within 30 days (plus five days for late correspondence to be processed):** Continue to step 4.
   - **No response within 30 days (plus five days for late correspondence to be processed):** Follow up with (as appropriate):
     - Telephone call
     - *eALG 516F Follow-up Letter to Administrative Subpoena-RECOVERY USE ONLY*
     - *eALG 516O Administrative Subpoena-Other Information - Recovery Area Use ONLY*
4. Proceed based on the success of the subpoena to request the identity of the ▸debtor:
   - **Debtor is identified:** Initiate recovery action according to TP 6.2A Process Recovery Referrals.
   - **Funds are available (whether or not debtor is identified):** Issue the *Request for Funds Letter*.
   - **Debtor is not identified or funds are not available** and:
     - Debt is $10,000 or less: Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments Closeout Report (4UI).
     - Debt is more than $10,000: Refer the case to ▸OGC. Follow up for the status within 30 days. Proceed according to OGC's direction.
5. Update the recovery tracking tool.

**TP 6.2D Process Estates, Trusts, and Other Legal Entities**

**03/27/2014**

**Recovery Team**

1. Upon determining that the ▸debtor is an ▸estate, ▸trust, or other legal entity, issue *eALG 568 Demand Letter to Estate* to the executor, administrator, or other appropriate party. Allow 30 days for a response (plus five additional days for late correspondence to be processed).
2. Act according to the response:
   - **Full payment:** Verify the repayment in ▸PLUS and close the case.
   - **No response or partial payment AND the remaining debt is less than $1,000:** Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments and Closeout Report (4UI).
   - **No response within 30 Days (plus five for late correspondence) or partial payment AND the remaining debt is $1,000 or more:**
     a. Refer the case to ▸OGC.
     b. Take follow-up action according to OGC's determination.

   **Note** If the case involves a debt of less than $10,000 and there was sufficient information more than three years ago for PBGC to pursue the case, but no one did, write off the debt in accordance with OGC guidance. Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments and Closeout Report (4UI). Continue to refer debts of $10,000 or more to OGC.
3. Update the recovery tracking tool.

**TP 6.2E Process Installment Payment Agreements**

**07/01/2016**

**Recovery Team**

1. Confirm that the ▸BPD Recovery Coordinator, BPD Supervisory Benefits Payment Analyst, or ▸OGC has determined to allow the ▸debtor to enter into an installment payment plan.
2. Compute the monthly installment amounts:
   - Include the final payment and any "leftover" amount.
   - Use the methodology ▸FOD provides.
   - Make each monthly payment $25 or more.
3. Customize *eALG 512 Cover Letter for Form 718* as appropriate. Enclose *Form 718 Installment Payment Agreement* and include the following information on the form:
   - Tracking number
   - Total Recovery Amount
   - Monthly payment amount
   - Total number of monthly payments
   - Final payment including "leftover" amount
4. Allow 30 days for a response to the *eALG 512 Cover Letter for Form 718* and proceed accordingly:
   - **Debtor returns a completed *Form 718 Installment Payment Agreement*:** Close the case.

     FOD notifies the ▸Recovery Team upon receipt and images the approved form to the payee's ▸IPS file. Do not acknowledge receipt of the form.
   - **Debtor does not respond within 30 days:** Refer the case to the U.S. Treasury Department (see TP 6.2A Process Recovery Referrals).
   - **If notified that a debtor who requested *Form 718 Recovery Installment Agreement* has died before completing the form:** Confirm the death, and within five business days of confirmation:
     - If the debt is $10,000 or less: Document the reason for the write-off in the tracking tool, close the case, and image the Recovery of Benefit Overpayments and Closeout Report (4UI).
     - If the debt is more than $10,000, refer the case to OGC.
5. Update the recovery tracking tool.

**TP 6.2F Monthly Recovery Report to FOD**

**07/01/2016**

**Recovery Team**

1. Update the recovery tracking tool to the maximum extent practicable prior to report generation.
   - Ensure any pending action items from the prior month's report have been completed and update the recovery tracking tool accordingly.
   - Coordinate with other units (for example ▶OGC, ▶OIG, Appeals) to ensure the recovery tracking tool is up to date with regard to pending cases referred out of ▶BPD.
   - Clear out backlogs in the recovery tracking tool to the maximum extent practicable and update accordingly.
2. Generate a draft *Recovery of Benefit Overpayments (death)* ▶A/R *Report* for the Recovery Coordinator to review.

**Recovery Coordinator**

3. Review the draft *Recovery of Benefit Overpayments (death) A/R Report*.

**Recovery Team**

4. Update the recovery tracking tool based on any problems identified during the Recovery Coordinator's review.
5. Generate a final *Recovery of Benefit Overpayments (death) A/R Report* for the Recovery Coordinator to review.

**Recovery Coordinator**

6. Review the final *Recovery of Benefit Overpayments (death) A/R Report* and deliver to the BPD Supervisory Benefits Payment Analyst.

**BPD Supervisory Benefits Payment Analyst**

7. Review and approve the final *Recovery of Benefit Overpayments (death) A/R Report*.
8. Deliver the *Recovery of Benefit Overpayments (death) A/R Report* to ▶FOD/▶GAB no later than the fifth business day of the month.

## TP 6.3 Resources for Recover Overpayments

**09/30/2016**

**Forms, Letters, and Memos:**

- *Recovery Referral Memo*

# TP 7 Recoupment

**In this Section**

TP 7. Overview for Recoupment
TP 7.1 Determine Overpayment Amount
TP 7.2 Effect Recoupment and Notify Payee
TP 7.3 Resources for Recoupment

## TP 7. Overview for Recoupment

**04/30/2012**

PBGC seeks repayment of ▸benefit overpayments by one of three methods depending on the circumstances in accordance with Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery. Administrative correction applies generally to erroneous payments not yet in the recipient's possession and is covered in TP 2 Administrative Correction of Benefit Overpayments. ▸Recovery applies generally to overpayments where the payee has no future ▸benefit payable on or after ▸DOPT and is covered in TP 6 Recover Overpayments. This section deals with ▸recoupment.

Recoupment is the method under which collection of the net overpayment is sought by reductions to future payments until it is repaid. Recoupment is limited usually to 10% of a payee's gross monthly payment, though there are several exceptions to this limit which are covered in TP 7.1B Determine Exceptions to the 10% Recoupment Reduction Limit. These include overpayments caused by payments in excess of plan levels, changes in disability entitlement status, and errors for which the participant is responsible. PBGC does not charge interest when applying recoupment to an overpayment.

When a payee with benefits in recoupment dies before the overpayment is fully paid and was receiving an ▸annuity that provides continuing payments to a ▸beneficiary (for example, a survivor annuity or remainder of ▸certain-and-continuous annuity), the overpayment continues to be recouped from the beneficiary's benefit. Under this scenario, the same recoupment percentage that was applied to the participant's payments is applied to the beneficiary's until the overpayment is repaid.

Recoupment is written off in rare circumstances. The most common is for payees in plans that were trusteed prior to 08/23/2007 and whose net overpayment is $500 or less. This *de minimis* recoupment rule does not apply to overpayments from plans trusteed on and after 08/23/2007. Financial hardship is not considered in recoupment cases.

▸PACS is used to calculate benefit overpayment amounts, monthly reductions, and the recoupment end dates, and to document the payee's file. In determining overpayment amounts, PBGC applies Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments.

## TP 7.1 Determine Overpayment Amount

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine the net overpayment amount for potential recoupment. |
| **Guidance** | Payment Adjustment Calculation System (PACS) Help<br><br>Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br><br>Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments |
| **Procedure Owner** | EBLS/FBA/PVA/PBA and Actuary |

**In this Section**

TP 7.1A Determine Net Overpayment
TP 7.1B Determine Exceptions to the 10% Recoupment Reduction Limit

**TP 7.1A Determine Net Overpayment**

**07/01/2016**

**EBLS/PBA/FBA**

1. Verify that the situation is covered by PBGC's rules on ▸recoupment rather than on ▸recovery or administrative correction. If in doubt, contact Ask PPD for guidance.
   - **Recovery:** See TP 6 Recover Overpayments for information on recovery situations.
   - **Administrative Correction:** Certain overpayment situations may be corrected by administrative correction; for example, overpayments due to duplicate payments or clerical errors which can be corrected promptly. See TP 2 Administrative Correction of Benefit Overpayments.
2. Determine whether circumstances apply that exempt the overpayment from recoupment. Under the following scenarios, PBGC does not seek repayment, except as noted.
   - **De minimis overpayments:** For ▸payees in plans trusteed before 08/23/2007, do not recoup for overpayments of $500 or less. Write off these de minimis overpayments using the *Recoupment Waiver Memo* and image to the payee's file with the ▸PACS calculation. Note that the de minimis write-off applies **only** to plans trusteed before 08/23/2007.
   - **Overpayments Outstanding for More than Six Years:** If PBGC notified the payee of the overpayment more than six years ago and did not implement recoupment, do not initiate recoupment regardless of the amount unless fraud is suspected. Write off the debt using the *Recoupment Waiver Memo*. However, if fraud is suspected, refer the case to Office of the Inspector General for review. See TP 12 Fraud and Forgery.
   - **Future benefits were payable at DOPT but not at time the overpayment is discovered.** For example:
     - A payee receiving a straight life ▸annuity was overpaid, and dies before the ▸BDL is issued.
     - A payee was receiving the remainder of certain-and-continuous annuity payments that continued after the date they should have ended. Neither PBGC nor the prior plan administrator advised the payee of the payment end date. (Had the payment end date been communicated, this would be a recovery situation. See TP 6 Recover Overpayments.)
3. If the prior plan administrator initiated before ▸DOTR (or communicated in writing before DOTR) benefit reductions to repay pre-Overpayment Accrual Commencement Date (OACD) overpayments, send an e-mail to Ask PPD summarizing the recoupment situation and requesting guidance on whether to continue the plan's reduction levels or to disregard the prior plan administrator's rules. Note that the correspondence from the plan may be included on a benefit application in the payee's file. Proceed based on ▸PPD's response:
   - **PPD does not concur with the prior plan administrator's rules:** Disregard the pre-OACD recoupment and proceed to the next step.
   - **PPD concurs with the prior plan administrator's rules:** Proceed as follows when initiating recoupment:
     - Verify with the case actuary the amount of the payee's ▸termination benefit (that is, after applying PBGC's legal limitations). Document the actuary's verification to the payee's file or indicate whether the payee's benefit is subject to adjustment in accordance with the *Estimated Benefit Adjustments Analysis Memo* or *Early Plan Analysis Memo (EPAM)*.
     - Apply the same recoupment reduction percentage applied by the prior plan administrator to the plan benefit to the payee's termination benefit without regard for the 10% limit under Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery. Follow plan practice with regard to the final partial recoupment payment, which may be less than the full recoupment amount.
     - For any **post**-OACD overpayments also subject to recoupment, apply recoupment rules according to this section in addition to the prior plan administrator recoupment. For example, if the prior plan administrator had applied a 50% reduction to seek repayment of pre-OACD overpayments, and PBGC has applied a 5% reduction for 125 months, then apply a 55% reduction until the pre-OACD overpayments have been repaid and a 5% reduction thereafter. See Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery for an example of how this is applied.
4. Calculate the net overpayment amount, end date, and reduction amount using PACS. Refer to Payment Adjustment Calculation System (PACS) Help, the ▸benefit statement, payment ledgers, Actuarial Case Report, and other sources as needed. Observe the following as applicable:
   - Determine whether the overpayment will be recouped at the standard 10% rate or at an uncapped rate, and whether an additional temporary reduction applies. See TP 7.1B Determine Exceptions to the 10% Recoupment

Reduction Limitation.

- For a recoupment amount to be included with a Benefit Determination Letter, see Process 19.3 Determine Net Overpayment/Underpayment for Annuities.
- If the OACD does not auto-populate in PACS, obtain it from the Actuarial Case Report. (The OACD is sometimes referred to as the Recoupment/Recovery Date.)
- For any months the payee received less than $5 more than the correct amount, apply the $5 rule (see Process 19.3 Determine Net Overpayment/Underpayment for Annuities).
- To recoup from a payee whose benefits are paid annually, use the *Recoupment Of Benefits Paid Annually Worksheet* and image to the payee's ▸IPS file.
- If a recoupment reduction was previously communicated to the payee but not implemented, recalculate the overpayment using PACS to include any additional overpayments with the revised recoupment begin date. For this scenario, verify that the exception for payees notified more than six years prior (mentioned above) does not apply.
- For payees affected by a ▸QDRO, determine recoupment in accordance with Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery.

5. If a payee with benefits in recoupment dies before the overpayment is fully repaid and was receiving a benefit form that provides continuing payments to a beneficiary (for example, survivor annuity or the remainder of a certain-and-continuous annuity), continue to reduce payments to the beneficiary, as follows:
   - If the deceased payee's benefits were being recouped without regard to the 10% cap, by means of an additional temporary reduction, or for pre-OACD overpayments, contact Ask PPD before proceeding.
   - For regular recoupment (that is, without exceptions identified in the preceding bullet), apply the same recoupment percentage that was applied to the participant's payments to the beneficiary's payments until the overpayment is repaid. This will generally require a manual calculation to determine the new recoupment end date. Complete the *Continuing Recoupment to Beneficiaries Worksheet* and image to the beneficiary's file.
6. Process the recoupment action and notify the payee according to TP 7.2 Effect Recoupment and Notify Payee.

Top of Page

**TP 7.1B Determine Exceptions to the 10% Recoupment Reduction Limit**

**07/01/2016**

**EBLS/FBA/PVA/PBA, Actuary**

Apply recoupment above the 10% limitation according to the guidance below. See Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery for additional information, or send an e-mail to Ask PPD requesting further guidance, as needed.

**A. Payments in Excess of Plan Levels**

If a payee has been overpaid to the extent that the total amount of benefits received exceeds all benefits that would be payable under the plan, send an e-mail to Ask PPD summarizing the situation and requesting guidance on whether to recoup above the 10% limit and/or to apply recovery. In the e-mail, specify whether any other recoupment reduction is being applied to the payee's benefit.

**B. Fixed-Term Benefits in Excess of Plan Amount**

If a payee is entitled to benefits in a form of benefit that provides benefits for only a fixed period of time (for example, a five-year term-certain benefit, which pays no benefits after five years of payments have been made) and has received, at any point prior to the end of the fixed period, benefit payments that exceed the total amount of all benefits payable under the plan without regard to PBGC's legal limitations:

- Recoup the overpayment from the remainder of the fixed period benefits at the lesser of the initial recoupment percentage without regard to the 10% cap on recoupment and 50%.
- Send an e-mail describing the recoupment scenario to Ask PPD if any other recoupment reduction is being applied to the payee's benefit.

**C. Error in Frequency of Benefit Payments**

If a payee is overpaid because payments were made too frequently (for example, an annual payment was paid monthly), and the payee had been informed of the correct frequency by either PBGC or the prior plan administrator, recoup the overpayment at the lesser of the initial recoupment percentage (without regard to the 10% cap on recoupment) and 50%. Complete the *Error in Frequency Recoupment Worksheet* and image to the payee's IPS file.

Send an e-mail describing the recoupment scenario to Ask PPD if any other recoupment reduction is being applied to the payee's benefit.

**D. Termination Benefits in Excess of the Maximum Insurance Limitation (MIL)**

If the PBGC benefit is greater than the MIL for the year of DOPT, complete the *Worksheet for Application of Variance on 10% Cap on Recoupment* and image to the payee's IPS file. See the Sample Recoupment Scenarios Table for examples of applying the variance.

**Sample Recoupment Scenarios Table**

| A | B | C | D |
|---|---|---|---|
| **Initial Recoupment %** | **MIL %*** | **PBGC Recoupment Cap = Greater of 10% and Column B** | **PBGC Reduction = Lesser of Column A and Column C** |
| 50% | 25% | 25% | 25% |
| 25% | 50% | 50% | 25% |
| 5% | 25% | 25% | 5% |

| | | | |
|---|---|---|---|
| 25% | 5% | 10% | 10% |
| 5% | 7% | 10% | 5% |
| 7% | 5% | 10% | 7% |

*MIL % = [Termination Benefit – Maximum Insurance Limitation] / [Termination Benefit] x 100

**E. Benefit Overpayments Caused by False Information or an Error for which the Participant is Responsible**

If an overpayment appears to have resulted from any of the following:

- False information provided or verified by a payee (for example, not informing PBGC of the existence of a domestic relations order)
- An error for which the payee is responsible
- Failure to notify PBGC of a payee's death
- Failure to notify PBGC of a change in condition or circumstances affecting benefit entitlement or amount
- Any similar circumstance

Send an e-mail describing the recoupment scenario to Ask PPD and requesting guidance on whether to recoup above the 10% limit and/or seek full repayment. In the e-mail, specify whether any other recoupment reduction is being applied to the payee's benefit.

**F. Change in Disability Benefit Entitlement Status**

If a participant (1) is overpaid because of (a) a change in the award of (and in some cases retroactive payment of) a Social Security disability benefit **or** (b) an improvement in health that results in no longer being eligible for a disability benefit under the plan, **and** (2) fails to notify PBGC within one year of (a) the initial notification in the BDL that receipt of the benefit is contingent upon continued disability status and (b) the date of the change in his or her disability status, then:

- Complete the *Temporary Additional Recoupment Worksheet*.
- Recoup at the **flat** reduction rate of 40% until the full amount of the resulting overpayment is repaid. For example, if correct the monthly entitlement is $100 but the participant received disability supplements totaling $4,000, recoup at $40 (40% x $100) per month for 100 months.
- Apply this temporary reduction in addition to any other recoupment reduction in effect for the payee's benefit.

**G. Change in Entitlement to a Supplemental Benefit**

If a participant is overpaid due to a change in the award of (and in some cases, retroactive payment of) a Worker's Compensation or similar benefit that under the participant's plan reduces the amount of a plan disability benefit or temporary supplement payable under the plan:

- Complete the *Temporary Additional Recoupment Worksheet* and recoup at the **flat** reduction rate of 40% until the full amount of the overpayment is recouped.
- Apply this recoupment in addition to any other recoupment reduction in effect for the payee's benefit.

**H. Benefit Suspension Overpayments Due to Working Retirement**

If PBGC notified a participant before benefits should have been suspended that the early retirement benefit is subject to suspension upon reemployment with the DOPT employer (see TP 53 Working Retirement Determinations), and was overpaid due to failure to notify PBGC of such reemployment:

- Complete the *Temporary Additional Recoupment Worksheet* and recoup at the **flat** reduction rate of 25% until the full amount of the overpayment attributable to delayed suspension is repaid. For example, if the suspension has

been lifted and the participant's monthly entitlement is $100, but he or she received a total overpayment of $2,500, recoup at $25 per month for 100 months ($25 x 100 = $2,500).

- Apply this recoupment in addition to any other recoupment reduction in effect for the payee's benefit.

**I. If either of the Following Scenarios Applies in Addition to any of the Preceding Exceptions (A-H), Contact Ask PPD before Proceeding:**

- Benefit reductions were initiated by the prior plan administrator before ▶DOTR to pre-Overpayment Accrual Commencement Date (OACD) overpayments.
- The prior plan administrator advised the payee in writing before DOTR that future benefits would be recouped, and the participant was fully informed of how much the future benefits would be reduced (for example, 50%) and how long the reduction would last (for example, 50 months or until the overpayments were paid back in full).

## TP 7.2 Effect Recoupment and Notify Payee

**07/01/2016**

| | |
|---|---|
| **Purpose** | To notify the payee of the recoupment action and address responses. |
| **Guidance** | Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery<br><br>Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments<br><br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

1. Notify the payee in writing of the ▸recoupment.
   - Normally, the Benefit Determination Letter notifies the payee. See Process 19.2 Review Actuarial Case Report and Issue BDLs.
   - If a previously communicated recoupment was not implemented, use an *eALG Generic* letter to advise the payee of the new recoupment begin date and of any changes in the total recoupment amount and monthly deduction. If overpayments continued after the first recoupment notification, include them in the revised calculation. Before implementing recoupment, make sure the exception for overpayments first communicated over six years prior does not apply (see TP 7.1A Determine Net Overpayment).
   - If there is a change in the recoupment amount due to an appeal decision or for any other reason, advise the payee using an *eALG Generic* letter—do not issue a Revised ▸BDL unless otherwise directed. See Process 20 Appeals Correspondence.
   - If recoupment will apply to the ▸beneficiary of a deceased payee entitled to continuing benefits, notify the beneficiary when those payments begin using either the payment advice letter or *eALG Generic* letter.
2. Implement the recoupment in ▸Spectrum using the appropriate recoupment begin and end dates according to the ▸PACS calculation. Do not recoup the final recoupment payment if it would be less than the amount of the normal monthly reduction (unless the recoupment reduction is for a pre-Overpayment Accrual Commencement Date (OACD) overpayment that was implemented and/or communicated by the plan and with which ▸PPD has concurred).

   **Example:** A payee's regular monthly recoupment reduction is $9.85. The balance due with the final monthly payment would be $6.31. Do not recoup the final $6.31 since it is less than the regular monthly reduction.
3. If the payee contacts PBGC about the recoupment notification, document the communications in ▸IPS or ▸CRM, accordingly. Use the guidance below as appropriate.
   - **Payee appeals the BDL:** Do not initiate recoupment until the appeal is closed. Follow Process 20 Appeals Correspondence.
   - **Payee wishes to prepay the overpayment in lieu of recoupment:** Advise the payee that PBGC does not charge interest during the recoupment period and therefore it may not be advantageous to prepay. If the payee still wishes to prepay:
     - Advise the payee the full amount must be repaid in a single payment since PBGC does not accept installment payments in lieu of recoupment.
     - Provide the overpayment amount and request the payment be mailed to the ▸lockbox address:

       Benefits Administration and Payment Department
       Pension Benefit Guaranty Corporation
       P.O. Box 790374
       St. Louis, MO 63179
   - **Payee requests hardship consideration:** Advise the payee that PBGC does not consider financial hardship in recoupment cases.

# TP 8 Process Received/Returned Check

**In this Section**

TP 8. Overview for Process Received/Returned Check
TP 8.1 Process Check
TP 8.2 Process Bounced Check
TP 8.3 Resources for Process Received/Returned Check

## TP 8. Overview for Process Received/Returned Check

**08/30/2011**

BPB receives and processes several types of payments; for example, for recovery of benefit overpayments, installment payments, stale-dated checks, and returned benefit payments that were issued to deceased payees for benefits to which they were not entitled. These payments are normally received and processed at PBGC headquarters. However, on occasion a check may be sent to an FBA or PVA office. This procedure covers how to handle the different types of checks in the rare event they are received by an FBA or PVA office.

## TP 8.1 Process Check

**03/30/2016**

| | |
|---|---|
| **Purpose** | To forward personal checks and returned benefit checks received at an FBA/PVA office to the appropriate address. |
| **Guidance** | eALG Correspondence Help<br><br>PBGC Directive FM 05-4 Received Funds and Negotiable Instruments Handling Procedures |
| **Procedure Owner** | FBA/PVA |

1. Proceed based on the type of check received:

   **Personal checks, money orders, etc. payable or endorsed to PBGC**: Send to the following lockbox:

   Benefits Administration and Payment Department
   Pension Benefit Guaranty Corporation
   P.O. Box 790374
   St. Louis, MO 63179

   **Checks issued by PBGC's paying agent**: Send to BPB at:

   U.S. Bank Government Lockbox
   c/o PBGC Production Manager
   SL-MO-C2GL
   1005 Convention Plaza
   St. Louis, MO 63101
   (314) 418-4087

   > **Note** The telephone number is provided only to be inserted on the shipping label.

2. Issue an *eALG 531 Receipt of Complete Documentation/Information* to the sender to acknowledge receipt.

## TP 8.2 Process Bounced Check

**07/01/2016**

| | |
|---|---|
| **Purpose** | Debit payee's account and notify sender that payment is still due. |
| **Required Input and Source** | Bounced check from FOD. |
| **Process Output and Recipient** | Payee's account is debited. Payee or representative is notified that the check bounced and that the amount is still due. |
| **Control Issues** | Maintaining accurate accounting is an integral part of management internal controls. |
| **Important Concepts** | Importance is given to processing bounced checks to correct the payee's record to reflect that the monies are still due, and to reconcile amounts received with amounts posted to payees' accounts. Also, to insure the income is properly reported to the IRS and the 1099 form is corrected for the current or past tax year(s). |
| **Guidance** | N/A |
| **Procedure Owner** | DMC, EBLS/FBA/PVA/PBA |

1. ▸FOD receives bounced checks from the Lockbox Processing Unit and forwards them to ▸DMC.
2. DMC determines which ▸payee's account should be debited by checking ▸Spectrum and ▸PBGC Image Viewer and completes a CARF.
3. DMC sends the original CARF and one copy, and a copy of the bounced check (front and back) to ▸PBGC's paying agent.
4. PBGC's paying agent debits the payee's account (ledger).
5. DMC gets a copy of the CARF and bounced check (front and back) from DMC and scans it to the participant's file ( ▸IPS).
6. DMC forwards the original bounced check with a copy of the CARF to the benefit processing staff and sends an e-mail requesting that the check be returned to the sender.
7. Benefit processing staff returns the bounced check to the payee and requests payment if another check was not received.

# TP 9 Balance/Reconcile Payments

**In this Section**

TP 9. Overview for Balance/Reconcile Payments
TP 9.1 Resolve Payment Variances
TP 9.2 Resources for Balance/Reconcile Payments

## TP 9. Overview for Balance/Reconcile Payments

**07/01/2016**

OBA is responsible for ensuring that PBGC's paying agent pays approved benefits to payees. To accomplish this, reconciliation of payments projected in the pay sources of payees' records with actual payments is necessary. The Balancer application performs the post check-run reconciliation of PBGC's paying agent payment activities against PBGC's projected payments. The results ensure that incorrect payments are addressed.

Balancer identifies variances between projected payments and actual payments. The Balancer Administrator, in conjunction with the Balancer Team, analyzes the variances identified by Balancer and notifies the CSB or FBA staff to make the necessary corrections to Spectrum records, or initiate corrections to PLUS records, to prevent recurrence of the variances, where required.

## TP 9.1 Resolve Payment Variances

**07/01/2016**

| | |
|---|---|
| **Purpose** | To resolve variances between projected payments and actual payments. |
| **Required Input and Source** | Variances between projected and actual payments reported by Balancer. |
| **Process Output and Recipient** | Resolution of variances between projected and actual payments reported by Balancer. |
| **Control Issues** | The balancing procedure is an accounting and internal control process that ensures that only approved payments were made. |
| **Important Concepts** | Variances may occur due to some key differences between Spectrum (maintained by PBGC) and PLUS. Correction to Spectrum or PLUS pay sources and/or payment frequency may be necessary.<br><br>Corrections to PLUS require completion of the appropriate data entry form with adequate approval.<br><br>If an incorrect payment is detected, quick action should be taken to notify PBGC's paying agent to pull or stop the payment.<br><br>When a death report is received after the Check Run - Annuities & Special Checks date (late death) an eCARF is sent to PBGC's paying agent to pull or stop the payment. |
| **Guidance** | Benefit Payment Schedule on Intranet |
| **Procedure Owner** | Balancer Administrator, EBLS/FBA/PVA/PBA |

**BPD Balancer Administrator**

1. Determine the reason(s) for the variance by reviewing the approved transactions, ▸pay sources, ledgers and other payment data from ▸PRISM Balancer, ▸AWA, and ▸Spectrum. Some common variances are:
   - Change was made to an annuity payment and not forwarded, or forwarded and not approved. To resolve this type of variance, the benefit administration staff forwards and approves the record in the current or next payment cycle.
   - Death notices received after the Check Run - Annuities & Special Checks date. ▸PLUS does not receive the transmission of the payee's death to deactivate the record in time to stop preparation of the next month's payment. ▸OBA staff usually sends an eCARF to ▸PBGC's paying agent to authorize them to pull or stop the payment.
   - Multiple role ▸payees. Variances in this category develop due to key differences between Spectrum (maintained by PBGC) and PLUS. Spectrum accommodates a payee with multiple roles (that is, participant and beneficiary) and **payment records** per plan. PLUS accommodates **only one payment record** per payee per plan. The problem occurs when payments to a person in multiple roles in the same plan are not combined in Spectrum. More than one payment record is transmitted to PLUS. A pay source on PLUS is overwritten resulting in an overpayment or underpayment. Benefit administration staff need to take immediate corrective action.
   - Other variances may result when the pay frequency code in Spectrum does not match the intended payment (for example an ▸annual payment with a monthly pay frequency). Action needs to be taken to ensure the participant is not overpaid.
2. Notify the staff of the variance.

**CSB or FBA**

3. Within two business days:
   - Respond with an explanation of the cause and resolution to the variances;
   - Submit the response to the DMC for imaging to the customers file; and
   - Take corrective action to prevent the variance from recurring, if necessary.

**BPD Balancer Administrator**

4. BPD closes the variance in Balancer.

# TP 10 Income Verification Requests

**In this Section**

TP 10. Overview for Income Verification Requests
TP 10.1 Respond to Income Verification Requests Received by EBLS/PVA/FBA/PBA
TP 10.2 Respond to Income Verification Requests Received by DMC
TP 10.3 Respond to Income Verification Requests Received by CCC
TP 10.4 Resources for Income Verification Requests

## TP 10. Overview for Income Verification Requests

**07/01/2016**

PBGC receives requests daily from participants, third-party government agencies (for example, ▸SSA), and third-party non-government groups (for example, mortgage companies), to verify the pension income for participants. PBGC can receive a request by phone, fax, or letter (via postal service).

▸Income verification (IV) requests are processed by the ▸CCC, ▸DMC, ▸EBLS/▸PVA/▸FBA/▸PBA, and Disclosure Division/▸OGC. Generally, the process entails receiving the requests, recording and tracking the requests through ▸CRM, verifying the requestors, and perfecting the requests (that is, ensuring the groups have all required information). After perfecting the requests, any of these groups may send the income or pension information using the ▸eALG 520-series income verification letters.

A participant with an active annuity benefit from PBGC can request and print an income verification letter through MyPBA, which will expedite the process. MyPBA does not generate IV letters to participants who received lump-sum payments.

Disclosure Division/OGC serves as the initial contact and disclosure point of all internal and external inquiries under ▸FOIA, ensuring that PBGC responds within the statutory and regulatory time limits. Disclosure Division/OGC also defines the policies regarding the processing of IV requests, ensuring that CCC, DMC, and EBLS/PVA/FBA/PBA verify the information needed to process the IV requests appropriately under FOIA and the Privacy Act.

The perfected criteria that Disclosure Division/OGC requires include:

- Participant:
  - Signed and dated written consent to send income verification letter to a third party
  - Verbal or written request to send income verification letter to the participant
- Third-party non-government:
  - Date on request
  - Company name on official letterhead
  - Requestor name, title, and signature (the requestor title does not need to be a supervisor or manager)
  - Participant's signed and dated written consent to send income verification letter to the third party
- Third-party government:
  - Date on request
  - Government agency name on official letterhead
  - Supervisor or manager name, title, and signature
  - Participant's signed and dated written consent to send income verification letter to the third party

**Note** When processing an IV request for a participant, do not deny or reject the participant's request; instead, follow procedures for a non-perfected request. For any questions or clarifications regarding IV processing or related training, contact Disclosure Division/OGC at 202-326-4040.

Top of Page

## TP 10.1 Respond to Income Verification Requests Received by EBLS/PVA/FBA/PBA

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process income verification requests received by CSB/PVA/FBA/PBA. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/PVA/FBA/PBA |

1. Receive and document the ▸Income Verification (IV) request.

   ▸EBLS/▸PVA/▸FBA/▸PBA receives IV requests by phone or by fax from a ▸participant or third party.

2. If the request is by telephone from a participant with an active annuity benefit, inform the participant that he or she can request and print an IV through MyPBA, which will expedite the process. (MyPBA does not generate IV letters to participants who received lump sums.)
   a. If the customer decides to use MyPBA, update (or create) and close the CRM service request. No further action is required.
   b. If the customer does not wish to use MyPBA, continue processing according to the following steps.
3. Confirm the identity of the requestor and open a service request (SR) (for direct calls) or update an existing SR (for transferred calls from CCC) in ▸CRM.
4. Determine if the request is perfected (see ▸Perfected Criteria for Income Verification Information):
   a. If perfected, continue to step 5.
   b. If not perfected, continue to step 6.
5. For perfected requests:
   a. If necessary, image or import to ▸IPS any documentation associated with the request, preferably the same day.
   b. Update the SR status in CRM indicating that EBLS/PVA/FBA/PBA is processing the request.

      Whenever possible, include details about how EBLS/PVA/FBA/PBA issued the appropriate ▸eALG 520-series income verification letter (for example, fax or mail).
   c. Process and send the appropriate eALG 520-series income verification letter to the requestor and send a copy to the participant.
   d. Close the SR. No further action required for this procedure.
6. For non-perfected requests, process depending on source of the request:
   - Participant requesting income verification information be sent to a third party: Request that the participant fax a signed request for the EBLS/PVA/FBA/PBA to distribute the information to the third party, including contact information for the third party.
   - Third party requesting income verification information:
     - From third-party non-government:
       a. Image or import to IPS any documentation associated with the request, preferably the same day.
       b. Contact the participant or requestor for the missing data:
          - Perfecting information received within five business days: Process as a perfected request. See step 5.
          - Perfecting information not received within five business days: Continue to step 7.
     - From third-party government:
       a. Populate the IV form with any income or pension information, if available.
       b. Fax the request to Disclosure Division/▸OGC, indicating what is missing from the request and the pension information.
       c. Update the SR status in CRM indicating that EBLS/PVA/FBA/PBA sent the request to Disclosure Division/OGC.

          The Disclosure Division/OGC processes and then sends the final income verification letter to EBLS/PVA/FBA/PBA by e-mail as an attachment.

d. Close the SR.

e. Image or import the final Disclosure Division/OGC income verification letter into the participant's file in IPS. Continue to step 7.

7. If the EBLS/PVA/FBA/PBA does not receive perfecting information after five business days:
   a. Update the SR status in CRM indicating that EBLS/PVA/FBA/PBA could not process the request.
   b. Forward the request to Disclosure Division/OGC.

      Disclosure Division/OGC sends an appropriate response to the participant.
   c. Close the SR.
8. If after transferring a request to Disclosure Division/OGC for processing, EBLS/PVA/FBA/PBA receives a duplicate request or support documents that perfect the request:
   a. Call Disclosure Division/OGC regarding the support documents and document the call in the SR.
   b. Forward the support documents to Disclosure Division/OGC.

      Disclosure Division/OGC processes and then sends the final income verification letter to EBLS/PVA/FBA/PBA by e-mail as an attachment.
   c. Check for additional SRs in CRM for the same request:
      - If other SRs exist: Update the source SR, referencing the others, then close the additional SRs.
      - If no other SRs exist: Close the SR.
   d. Image or import the final Disclosure Division/OGC income verification letter into the participant's file in IPS.

Top of Page

## TP 10.2 Respond to Income Verification Requests Received by DMC

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process income verification requests received by DMC. |
| **Guidance** | N/A |
| **Procedure Owner** | DMC |

The ▸DMC mainly receives income verification requests via the postal service and fax, with many of the requests containing an income request form from third parties such as a government, state, or local agency or rental management company.

1. Receive the income verification request.

   DMC receives income verification requests from the postal service, faxes from the ▸CCC, or faxes received directly to the DMC.
2. Determine if the request is perfected (see ▸Perfected Criteria for Income Verification Information):
   - Perfected: Continue to step 3.
   - Not perfected and DMC will attempt to process: Continue to step 4.
   - Not perfected and DMC cannot process (for example, the request is for a power of attorney or guardianship or is a non-perfected government third-party request): Continue to step 5.
3. For perfected requests:
   a. Scan the request into ▸IPS.
   b. Create a service request (SR) in ▸CRM and complete the appropriate eALG 520-series income verification letter.
   c. Close the SR.
   d. Mail or fax (depending on how request was received) the eALG 520-series letter and agency/company form to the requestor.
   e. If a response by fax is requested, scan the completed eALG 520-series income verification letter with the fax confirmation into IPS. No further action required for this procedure. (The eALG 520-series letter must be scanned together with the fax confirmation, even though a copy is automatically imaged to IPS.)
4. For non-perfected requests that DMC will attempt to process, contact the participant or third party for the missing information:
   - Information received in one business day: Process as a perfected request. See step 3.
   - Information received after one business day or not received at all: Continue to step 5.
5. If the DMC cannot perfect, proceed based on the type of non-perfected request:
   - Non-perfected third-party government request:
     a. Scan the request into IPS and create an SR in CRM.
     b. Prepare (but do not issue) the appropriate eALG 520-series income verification letter.
     c. Forward the income verification request and eALG 520-series income verification letter to Disclosure Division for response.

        Disclosure Division will perfect the request and respond to the requestor by attaching the eALG 520-series letter to its cover letter. Since Disclosure Division may require a number of days or even weeks to perfect the request, its response will most likely be dated **after** the date of the eALG 520-series letter.
     d. Forward the SR in CRM to the ▸EBLS/▸PVA/▸FBA/▸PBA POC indicating that the DMC has sent the request with the prepared response letter to Disclosure Division. No further action required for this procedure.
   - Third-party non-government requests:
     a. Copy and scan the request into IPS.
     b. Open an SR in CRM.
     c. Forward the SR to EBLS/PVA/FBA/PBA for processing.
     d. Update the SR in CRM indicating that the DMC has sent the request to EBLS/PVA/FBA/PBA.

Top of Page

## TP 10.3 Respond to Income Verification Requests Received by CCC

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process income verification requests CCC receives by phone. |
| **Guidance** | N/A |
| **Procedure Owner** | CCC |

1. Receive ▸income verification (IV) request by phone and open a service request (SR) in ▸CRM.

   If ▸CCC receives an IV request via fax (not related to an incoming phone call), prepare a process-only package and send to ▸DMC for processing. DMC scans the documents into ▸IPS and processes. No further action required for this procedure.

2. If the caller is a participant with an active annuity benefit, inform the participant that he or she can request and print an IV through ▸MyPBA, which will expedite the process. (MyPBA does not generate IV letters to participants who received lump sums.)

   a. If the participant decides to use MyPBA, update and close the CRM service request. No further action is required.

   b. If the participant does not wish or is unable to use MyPBA, continue processing according to the following steps.

3. If the telephone call request concerns a lump sum, semi-annual payment, power of attorney, or otherwise requires a customized letter, transfer the call and SR to the appropriate office (▸EBLS/▸PVA/▸FBA/▸PBA).

   The appropriate office processes and closes the SR according to TP 10.1 Respond to Income Verification Request Received by EBLS/PVA/FBA/PBA. No further action required for this procedure.

4. Log the request into ▸CRM as "Send Income Verification."

5. To process a request to mail or fax an IV letter to the participant:
   - Prepare the appropriate eALG 520-series letter.
   - Fax (if requested) and mail the letter to the participant.
   - Update and close the SR. No further action required for this procedure.

   If the request is to send the IV to a third party, continue to step 5.

   > **Note** If the customer requests a change to the address of record or other contact information at the time of the IV request, follow normal procedures to verify the participant's identity before updating the information.

6. While on the phone with the participant, request written consent, all other required information, process instructions, destination details, and fax number (if applicable) to process the IV request from a third party (see ▸Perfected Criteria for Income Verification Information).

   CCC requests that the participant or third party fax this information to CCC.

7. Proceed according to whether perfecting information is received within one day:
   - Received within one day: Determine if IV request is perfected:
     - Perfected: Proceed to step 7.
     - Non Perfected: Contact the participant or third party for the missing information.
   - Completed perfecting information **not** received within one day:
     - Forward the request to Disclosure Division/OGC for processing.
     - If the perfecting information arrives after one business day:

       a. Call Disclosure Division/▸OGC regarding the status.

       b. Determine if CCC or Disclosure Division/OGC will perfect and process the request:
          - CCC will process: Proceed to step 7.
          - Disclosure Division/OGC will process: Update CRM regarding the status, prepare a scan-only package, and send to DMC.

            DMC scans the documents into IPS. No further action required for this procedure.

8. If information from the participant perfects the request, process the request as follows:
    a. Prepare a scan-only package and send the request to the DMC.

       DMC scans the documents into IPS.
    b. Process the request and mail or fax the original eALG 520-series income verification letter to the participant and fax to the third party.
    c. Update CRM regarding the status and close the SR.

# TP 11 Trial Balance

**In this Section**

TP 11. Overview for Trial Balance
TP 11.1 Identify and Distribute Variances
TP 11.2 Resolve Variances
TP 11.3 Resources for Trial Balance

## TP 11. Overview for Trial Balance

**07/01/2016**

BPD performs a trial balance before the check run to ensure that the Paying Agent makes only approved payments. The goal is to correct any variance(s) before the actual check run.

Spectrum Trial Balance reports variances between approved payment transactions and the Paying Agent's payment projections. The Trial Balance Forecast identifies all approved payments for a specified month. The Variance Determination Procedure compares the forecast of approved payment transactions to the Paying Agent's projections. This process identifies variances between the two sets of data. The variances are then displayed in the Trial Balance application interface.

The BPD Reconciliation Administrator is responsible for administering the Spectrum Trial Balance. The duties include:

- Oversight of the functions of Spectrum Trial Balance;
- Review of all variances and distribution of the Trial Balance Variance Reports to the processing staff for resolution;
- Identifying false positives, and
- Updating Trial Balance with the error correction and resolution codes.

The processing staff are responsible for ensuring that their variances are resolved accurately, that the response is complete, and responded to in accordance with the deadlines published in the Benefit Payment Schedule.

## TP 11.1 Identify and Distribute Variances

**07/01/2016**

| | |
|---|---|
| **Purpose** | Trial Balance Software Application - Review the Reconcile Screen to determine:<br>• Variances to be distributed for resolution<br>• False positives that will not be distributed for resolution |
| **Required Input and Source** | • Trial Balance extract files from paying agent (annuity and lump sum)<br>• Jobs Status data from Trial Manager to determine progress and status of automated processing<br>• Reconciliation Detail data from the Trial Balance application<br>• Error correction codes and adjustments to benefits from completed Variance Resolution Forms |
| **Process Output and Recipient** | • Variance Resolution forms to processing staff<br>• Imaged Variance Resolution forms and associated NFDE forms<br>• CRM service requests generated by scanning Variance Resolution forms into IPS |
| **Control Issues** | Trial balance is an accounting and internal control process that ensures that the paying agent only makes approved payments. |
| **Important Concepts** | Variances occur due to differences between approved Spectrum data and PLUS. Corrections to Spectrum and/or PLUS maybe necessary. BPD's objective is to resolve all variances during trial balance.<br>**Timing:** Trial Balance Variance Reports are distributed to processing staff as soon as possible after review by BPD. The Reconciliation Administrator's final review of completed Trial Balance Variance Reports and variances in Spectrum Trial Balance is completed by the last business day of the month. |
| **Guidance** | Benefit Payment Schedule on Intranet<br>Benefits Payment Branch Processes<br>Trial Balance Desk Reference |
| **Procedure Owner** | Reconciliation Administrator, BPD |

Detailed Trial Balance processing steps for ▸PSD may be found in the Trial Balance Desk Reference on the PBGC Portal. The following is a brief summary of the major steps:

**Trial Balance Reconciliation Administrator (BPD)**

**Following the ▸cut-off:**

1. Generate and distribute Forecast detail reports.
2. Identify false positives.
3. Distribute variances and summaries.
4. Update the Trial Balance Reconcile Screen with the error correction and variance resolution codes when completed Variance Resolution forms are received.
5. Maintain the Variance Points of Contacts table in the Trial Manager application.

Top of Page

# TP 11.2 Resolve Variances

**07/01/2016**

| | |
|---|---|
| **Purpose** | Correct variances and complete Trial Balance Variance Resolution forms. |
| **Required Input and Source** | Trial Balance Variance Resolution forms from the BPD Reconciliation Administrator. |
| **Process Output and Recipient** | Spectrum and/or PLUS correction to resolve variances. Completed Variance Resolution forms, and associated NFDE forms delivered to BPD by scanning into IPS using document type 4B. |
| **Control Issues** | The period between distribution and resolution of variances is very short (usually less than two business days). Quick action and efficient monitoring are necessary.<br><br>PBGC Forms 487, 490 and 491 data entry forms in NFDE require approval according to the approval level table in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service. |
| **Important Concepts** | The **Trial Balance Variance Resolution form** has two sections: An Identification Section that gives information on the variance and a Resolution Section to be completed upon resolution of the variance.<br><br>The **Trial Balance Variance Summary Report** shows the names of the mail POCs for the case and the number of variances by type, for example, annuity/special/lump sum.<br><br>**Timeline for delivery of Variance Resolution forms and associated NFDE Forms to BPD for transmission to the Paying Agent (Annuities, Specials, and Lump Sums):** In accordance with the date posted in the Benefit Payment Schedule published on the PBGC intranet.<br><br>**Adjusted Gross Amount Annuities:** the adjusted gross amount is the gross payment amount less any recoupment amount.<br><br>**Lump sums:** the adjusted gross amount is the gross payment amount less interest if Paying Agent calculates the interest (PBGC has no interest to balance against). If PBGC calculates the interest, the gross amount is not adjusted. |
| **Guidance** | Benefit Payment Schedule on intranet<br><br>NFDE Help File<br><br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PVA/PBA, Variance Coordinator, Employee Benefits Supervisor, CSD |

**In this Section**

TP 11.2A Resolve Variances: PSD/EBLS/FBA/PVA
TP 11.2B Resolve Variances: Variance Coordinator (CSD/FBA/PVA)

Top of Page

**TP 11.2A Resolve Variances: PSD/EBLS/FBA/PVA**

**07/01/2016**

These actions are taken by processing staff identifying a variance.

**EBLS/FBA/PVA/PBA**

1. Review the *Trial Balance Variance Resolution* form as soon as it is received. The form shows the variance between the approved ▸Spectrum pay source and ▸PLUS.
2. Review the ▸payee's record in Spectrum to determine the reason for the variance and for approved transactions. The three general types of variances are:
   - Difference in payment amounts
   - Spectrum approved payment—no matching payment in PLUS
   - PLUS payment—no matching approved payment in Spectrum.
3. If necessary, research in the payee's PBGC Image Viewer file for more information.
4. Make change to Spectrum and/or PLUS according to the appropriate table:
   - ▸Annuities Table
   - ▸Specials and Lump Sum Table

   **Note** Complete the required data entry form (PBGC Form 487, 490, or 491) in ▸NFDE. See the NFDE Help File for examples of completed data entry forms.
5. The form is approved according to the **Approval Levels Table** in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service. FBAs—if headquarters staff needs to approve the amount, send the original data entry form to the Plan's Technical Monitor to obtain the signature. In the absence of the Technical Monitor, contact the Division Manager/Associate Manager for assistance.

   Use the same pay source in Spectrum on the form to avoid further variances in payment, for example, E1 in Spectrum is 1 on PBGC Form 487.

   If the variance is the result of a death transaction that the paying agent did not receive, complete the appropriate data entry form with the correct ▸status code in the status field, and insert the end date (as shown in Spectrum) in the correct pay source end date field.

   **Note** Do not enter unnecessary data on the data entry form. If the paying agent has a record of the payee on PLUS, enter only changes to the payment record. Identifying fields, for example, name, Social Security Number (▸SSN) and ▸PBGC case number, and status must be completed.
6. Make a copy of the completed data entry form PBGC Form 487, 490 or 491 from NFDE to attach to the Trial Balance Variance Report for submission to the Reconciliation Administrator through the Variance Coordinator.
7. Complete the **Resolution** section of the Trial Balance Variance Report. Indicate the action taken by checking the appropriate resolution making relevant comments. Print your name, sign and date the Variance Report.
8. Deliver completed Variance Resolution forms and associated NFDE forms to the Variance Coordinator.

Sample Trial Balance Variance Reports

Top of Page

**TP 11.2B Resolve Variances: Variance Coordinator (CSD/FBA/PVA)**

**07/01/2016**

**Variance Coordinator**

1. Review the Trial Balance Variance Summary and Distribution Reports as soon as the e-mail from the Reconciliation Administrator is received. Ensure that the case POCs listed are present. If a POC is unavailable, reassign the variance resolution responsibility to another team member.
2. Compare the Trial Balance Variance Reports received from BPD with the Trial Balance Summary and Distribution Reports and ensure that all variances on the reports were received. Resolve any discrepancies.
3. Create service requests in CRM for completed Variance Resolution forms and attachments (PBGC Forms 487, 490 or 491) by the deadline posted in the Benefit Payment Schedule or as indicated in the Trial Balance Reconciliation Administrator's e-mail.
4. Scan into ▸IPS using document type 4B. This automatically creates a ▸CRM Service Request and assigns it to BPD.
   - **Headquarter Organizations:** Deliver completed Variance Resolution Forms and attachments to the DMC for scanning. The DMC will scan the forms into IPS. Allow sufficient time for DMC scanning so the CRM Service Request is created by deadline.
   - **FBAs and PVAs:** Scan into IPS using document type 4B. Allow sufficient time for DMC scanning so the CRM Service Request is created by the deadline.
   - **Scanning Instructions:** The Trial Balance variance form and attached ▸NFDE form should be scanned using the Participant Ad-scan workflow in the IPS Document Manager (DM) 2.0 system:
     a. Create Participant Ad-scan work item coversheet for the applicable SSN and Case Number.
     b. Prep the Trial Balance variance form and the attached NFDE forms as **one document** using document type 4B-Variance Resolution Form. (This will create one Service Request in CRM.)
     c. Scan the prepped work item. The scanned work item should be given the highest processing priority.
     d. Use the Priority Search screen to locate this work item in the Participant Ad-scan Verify/QC phase.
     e. Verify and commit the work item to IPS.
5. Compare completed Trial Balance Variance Reports to the Trial Balance Summary and Distribution Reports and ensure that all variances on the reports have been resolved, scanned into IPS and the CRM Service Requests created timely.
6. Notify the BPD Reconciliation Administrator of changes to the distribution list (Variance Coordinator, Variance Coordinator's designated back up and temporaries) for absences or staff terminations to ensure that appropriate substitutions are made in a timely manner.

TP 12.1 Determine Fraud/Forgery
TP 12.2 Resources for Fraud and Forgery

## TP 12. Overview for Fraud and Forgery

**01/27/2006**

When a participant or intended recipient reports that one or more check(s) was not received, PBGC performs the actions as outlined in TP 45 Non-Receipt of Benefit Payment. If the check has been negotiated or paid, copies of the check are ordered from ▸SSC and, once received, are forwarded to the participant to validate the endorsement signature. This procedure details the actions to be completed in the event of a potential fraud or forgery situation, namely when a participant confirms the check endorsement signature is not valid and requests a replacement check. The scenarios described in this procedure are:

- Single Monthly Check,
- Multiple Monthly Checks, and
- Lump Sum or Special Check.

## TP 12.1 Determine Fraud/Forgery

**07/01/2016**

| | |
|---|---|
| **Purpose** | Initiate actions to verify and rectify the possible fraudulent situation. |
| **Timing** | OIG will generally respond to PSD's request for concurrence on prepared documents within 2 business days. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/FBA/PVA/PBA |

Upon notification from a participant that a check has not been received, follow the steps as outlined in TP 45 Non-Receipt of Benefit Payment. In the event that the participant confirms the check endorsement signature is not valid and wishes to proceed with replacement of the check, select the appropriate option listed below.

**In this Section**

TP 12.1A Single Monthly Check - Determine Fraud/Forgery
TP 12.1B Multiple Monthly Checks - Determine Fraud/Forgery
TP 12.1C Lump Sums, Special Checks - Determine Fraud/Forgery

**TP 12.1A Single Monthly Check - Determine Fraud/Forgery**

**07/01/2016**

For reported non-receipt of a single monthly benefit check which ▸PBGC's paying agent reports **has** been cashed, proceed with the following actions.

**EBLS/PBA/FBA/PVA**

1. Notify Employee Benefits Manager of all potentially fraudulent situations.
2. Prepare a *Form 537 Affidavit for Non-Receipt of Benefit Check*. Complete the following fields:
   - ▸Payee Name, Payee ▸SSN, Acct. ID at the top of the form
   - Check number, date, and amount in item 1 in body of form

   The remainder of the form is to be completed by the payee and the notary.

   > **Note** The Affidavit does not need review by ▸OIG unless the template does not meet the needs of the situation, or if the sender has questions before mailing it to the participant. To request OIG review, send the document to OIG IOD Forms Review via e-mail, with a short explanation. Once OIG sends an e-mail indicating its concurrence, print and image that e-mail to the participant's ▸IPS file.
3. Send the Affidavit and copy of the cashed check with the *Cover Letter for Fraud Affidavit* to the participant.
4. When the Affidavit is returned, verify that it is complete and notarized. If the form is incomplete or not notarized, return it to the participant. Prepare a new Affidavit if necessary, and explain to the participant (by letter or phone) why it needs to be resubmitted.
5. For these missed single monthly benefit checks, send the originals of the Affidavit to the ▸BPD Management Analyst, who forwards them to PBGC's paying agent. Send a copy to the OIG. PBGC's paying agent's internal fraud unit will investigate these types of potential fraud situations with OIG monitoring.
6. Upon receipt of instructions from PBGC's paying agent that its investigation is completed and a replacement check should be issued, proceed according to whether PBGC successfully recovered the payment.
   - **Payment recovered:** Issue the replacement payment in ▸Spectrum and prepare *Form 478 Check Action Request Form (CARF)* to instruct PBGC's paying agent to correct the ledgers to credit the previous check. Submit the completed form to the BPD Management Analyst, who forwards it to PBGC's paying agent.
   - **Payment not recovered:** Complete a Special Check form in ▸NFDE to issue the replacement payment as a non-taxable payment. Do not credit the previous check.
7. Telephone the participant to report the status and log the call into ▸CRM.
8. Ensure that all documentation is imaged to the participant's IPS file, including:
   - Affidavit and Transmittal Letter sent to participant
   - Instructions from OIG
   - Affidavit completed by participant
   - ▸PACS calculation
   - NFDE form

Top of Page

**TP 12.1B Multiple Monthly Checks - Determine Fraud/Forgery**

**07/01/2016**

For reported non-receipt of more than one monthly benefit check, which ▸PBGC's paying agent reports have been cashed, proceed with the following actions.

**EBLS/PBA/FBA/PVA**

1. Notify the Employee Benefits Supervisor of all potentially fraudulent situations.
2. Prepare the *Authorization to Disclose Financial Records* form. In addition to the identifying information at the top of the form, fill in *only* the fields for the amounts and dates of missing checks.

   Forward the form to OIG/IOD Forms Review via e-mail. In the e-mail, indicate the participant's name, Social Security number, and ▸PBGC case number. Forward copies of the cashed checks to the Deputy Inspector General, Office of Inspector General (OIG) via interoffice mail or through overnight mailings (▸FBAs).

   ▸OIG will complete the fields on the form regarding the period for which financial records are requested and return it by e-mail, and indicate whether it concurs on the form or requests revisions. Once OIG indicates concurrence, print and image the e-mail to the participant's ▸IPS file.
3. Prepare a *Form 537 Affidavit for Non-Receipt of Benefit Check*. Complete only the following fields:
   - ▸Payee Name, Payee ▸SSN, and Acct. ID at the top of the form
   - Check numbers, dates and amounts in item 1 in body of form. (Since the template of the form indicates a single check, modify the wording in this section to accurately indicate multiple checks.)

   The remainder of the form is to be completed by the payee and the notary.

   > **Note** The Affidavit does not need review by OIG unless the template does not meet the needs of the situation, or if the sender has questions before mailing it to the participant. To request OIG review, send the document to OIG/BAPD Forms Review via e-mail, with a short explanation. Once OIG sends an e-mail indicating its concurrence, print and image that e-mail to the participant's ▸IPS file.
4. Send the Affidavit, cashed check copies, and the Authorization form with the *Cover Letter for Form 537* to the participant.
5. When the Affidavit and Authorization are returned, verify that they are completed and notarized. If a form is incomplete or not notarized, return it to the participant. Prepare a new form if necessary, and explain to the participant via phone or letter why it needs to be resubmitted.
6. Forward the original completed Affidavit and Authorization, through the Employee Benefits Supervisor, to the OIG for investigation.
7. OIG takes action and notifies the initiator that a replacement check should be issued. Do not request the replacement check until after notification from OIG.
8. Upon receipt of instructions from OIG that its investigation is completed and a replacement check should be issued, proceed according to whether PBGC successfully recovered the payment.
   - **Payment recovered:** Issue the replacement payment in ▸Spectrum and prepare *Form 478 Check Action Request Form (CARF)* to instruct PBGC's paying agent to correct the ledgers to credit the previous check. Submit the completed form to the ▸BPD Management Analyst, who forwards it to PBGC's paying agent.
   - **Payment not recovered:** Complete the Special Check or Lump Sum form in ▸NFDE to issue the replacement payment as a non-taxable payment. Do not credit the previous check.
9. Telephone the participant to report the status and log the call into ▸CRM.
10. Ensure that all documentation is imaged to the participant's IPS file, including:
    - Affidavit, Authorization and Transmittal Letter sent to participant
    - Instructions from OIG
    - Affidavit completed by participant
    - ▸PACS calculation
    - NFDE form

**TP 12.1C Lump Sums, Special Checks - Determine Fraud/Forgery**

**07/01/2016**

For reported non-receipt of a lump sum check or special check which ▸PBGC's paying agent reports has been cashed, proceed with the following actions.

**EBLS/PBA/FBA/PVA**

1. Notify Employee Benefits Supervisor of all potentially fraudulent situations.
2. Prepare the *Authorization to Disclose Financial Records* form. In addition to the identifying information at the top of the form, fill in *only* the fields for the amounts and dates of missing checks.

   Request ▸OIG concurrence on the form by sending the document to OIG/BAPD Forms Review via e-mail. In the e-mail, indicate the participant's name, Social Security number, and ▸PBGC case number. Forward copies of the cashed checks to the Deputy Inspector General, Office of Inspector General (OIG) via interoffice mail.

   OIG will complete the fields on the form regarding the period for which financial records are requested and return it by e-mail, and indicate whether it concurs on the form or request revisions. Once OIG indicates concurrence, print and image the e-mail to the participant's ▸IPS file.
3. Prepare a *Form 537 Affidavit for Non-Receipt of Benefit Check*. Complete the following fields:
   - ▸Payee Name, Payee ▸SSN, Acct. ID at the top of the form
   - Check number, date, and amount in item 1 in body of form

   The remainder of the form is to be completed by the payee and the notary.

   > **Note** The Affidavit does not need review by OIG unless the template does not meet the needs of the situation, or if the sender has questions before mailing it to the participant. To request OIG review, send the document to OIG/BAPD Forms Review via e-mail, with a short explanation. Once OIG sends an e-mail indicating its concurrence, print and image that e-mail to the participant's ▸IPS file.
4. Prepare and send the *Cover Letter for Form 537* to participant along with the Affidavit and the Authorization form.
5. When the Affidavit and Authorization are returned, check that they are completed and notarized. If a form is incomplete or not notarized, return it to the participant. Prepare a new form if necessary, and explain to the participant via phone or letter why it needs to be resubmitted.
6. Forward the original completed Affidavit and Authorization, through the Employee Benefits Supervisor, to the OIG for investigation.
7. OIG takes action and notifies the initiator that a replacement check should be issued. Do not request the replacement check until after notification from OIG.
8. Upon receipt of instructions from OIG that its investigation is completed and a replacement check should be issued, proceed according to whether PBGC successfully recovered the payment.
   - **Payment recovered:** Issue the replacement payment in Spectrum and prepare *Form 478 Check Action Request Form (CARF)* to instruct PBGC's paying agent to correct the ledgers to credit the previous check. Submit the completed form to the ▸BPD Management Analyst, who forwards it to PBGC's paying agent.
   - **Payment not recovered:** Complete the Special Check or Lump Sum form in ▸NFDE to issue the replacement payment as a non-taxable payment. Do not credit the previous check.
9. Telephone the participant to report the status and log the call into ▸CRM.
10. Ensure that all documentation is imaged to the participant's IPS file, including:
    - Affidavit, Authorization and Transmittal Letter sent to participant
    - Instructions from OIG
    - Affidavit completed by participant
    - ▸PACS calculation
    - NFDE form

# TP 13 Domestic Relations Orders and State Agency Orders

**In this Section**

TP 13. Overview for Domestic Relations Orders and State Agency Orders
TP 13.1 Process Domestic Relations Orders from the Prior Plan Administrator
TP 13.2 Review Domestic Relations Orders
TP 13.3 Implement Qualified Domestic Relations Order
TP 13.4 Make Qualified Domestic Relations Order Payments
TP 13.5 Release Benefits for Domestic Relations Order
TP 13.6 Resources for Domestic Relations Orders and State Agency Orders

## TP 13. Overview for Domestic Relations Orders and State Agency Orders

**07/01/2016**

The Retirement Equity Act of August 23, 1984, amended ▸ERISA to allow pension plans to assign all or part of a participant's benefit to one or more alternate payees under a ▸QDRO. PBGC pays the amount of a participant's benefit in a PBGC-trusteed plan to the alternate payees if PBGC or the prior plan administrator determines the ▸DRO is qualified (that is, PBGC only enforces QDROs). See Policy 6.6-3 Qualified Domestic Relations Orders for more information on DROs and QDROs.

The ▸OBA QDRO Coordinator and ▸CSD/▸PVA/▸FBA QDRO Coordinators review DROs to:

- Determine the qualification status.
- Advise submitters and other ▸interested parties (if any) of PBGC's determination of the qualification status and interpretation of the order provisions.

Participants and alternate payees have the right to appeal PBGC's determination on whether a signed DRO is qualified. Although only the qualification status of a DRO is generally subject to appeal, the alternate payee (except for shared payment QDROs paid as a deduction from the participant's ▸Spectrum account) and participant receive a ▸BDL or revised BDL that takes into account the terms of the QDRO. Interested parties may appeal the BDL to challenge PBGC's implementation of the terms of the QDRO.

The OBA and CSD/PVA/FBA QDRO Coordinators also review draft DROs for qualification before the submitter sends the DRO to a court or state agency for approval.

PBGC publishes *Qualified Domestic Relations Orders and PBGC*, which provides general information about QDROs and examples to follow when creating QDROs for use with PBGC plans.

As of 11/01/2012:

- PBGC no longer suspends payments that a participant receives while PBGC reviews a draft DRO.
- The alternate payee's benefits return to the participant (not PBGC) if the separate interest order is silent about what happens to the alternate payee's benefit if the alternate payee dies before the alternate payee's first payment date and while the participant is still alive.
- PBGC treats electronically submitted DROs (for example, e-mails and faxes) and California joinders as draft DROs.
- PBGC's definition of "DRO" now includes any order concerning domestic relations law, including divorce decrees and separation agreements.

# TP 13.1 Process Domestic Relations Orders from the Prior Plan Administrator

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process DROs in the prior plan administrator's records. |
| **Guidance** | N/A |
| **Procedure Owner** | Case Team, EBLS/FBA/PVA/PBA |

These procedures describe the steps for processing the ▸DROs in the prior ▸plan administrator's records. Normally, the intake occurs immediately on acquiring plan records (see Process 11 Data Collection and Analysis), but can occur at any point during trusteeship processing as the necessary records become available. To process DROs PBGC receives after ▸DOTR, see TP 13.2 Review Domestic Relations Orders.

**In this Section**

TP 13.1A Obtain Domestic Relations Order Records and Review Backlog

TP 13.1B Update Spectrum for Qualified Domestic Relations Orders

TP 13.1C Review Qualified Domestic Relations Orders the Prior Plan Administrator Qualified

TP 13.1D Request Copy of Qualified Domestic Relations Order

**TP 13.1A Obtain Domestic Relations Order Records and Review Backlog**

**07/01/2016**

When PBGC trustees a plan, the Case Team is responsible for ensuring that ▸participants and ▸alternate payees of ▸QDROs receive accurate and timely payments. To meet this goal, the Case Team acquires the plan's records on QDROs early in plan processing and reviews any ▸DROs in need of immediate evaluation.

The QDRO ▸POC is an employee of the (prior) plan administrator familiar with the plan's QDRO processing. The QDRO POC must be available even after the data transfer to PBGC to clarify issues or provide additional information.

If the plan has never dealt with a DRO, no action is required for this procedure.

**Case Team**

1. Determine whether the ▸plan administrator has a QDRO POC.

   > **Note** If no QDRO POC is available, the Case Team is responsible for completing the *QDRO/DRO Statistics and Questionnaire* and identifying and sorting plan and participant records relevant to DROs.

2. Send the *QDRO/DRO Statistics and Questionnaire* to the QDRO POC.
3. Ask the QDRO POC to identify alternate payee records and the associated participant records:
   a. Request the QDRO POC provide the information electronically where available.
   b. Ask the QDRO POC to ensure the data includes the following information for each alternate payee:
      - Alternate payee's name and ▸SSN
      - Alternate payee's date of birth
      - Alternate payee's telephone number
      - Affected participant's name and SSN
      - Qualification status of the DRO
   c. See Appendix A Sensitive Information for guidance on receiving files that may contain sensitive data.
4. Ask the plan administrator to provide participant and alternate payee files with QDROs separately from other files:
   - Ask the plan administrator to clearly mark the QDRO files.
   - Ask the plan administrator to sort the QDRO files into four categories:
     - QDROs in pay status: Include separate interest QDROs, shared payment QDROs, and QDROs providing surviving spouse benefits only.
     - QDROs not in pay status: Include separate interest QDROs, shared payment QDROs, and QDROs providing surviving spouse benefits only.
     - DROs pending qualification determination: Include denials awaiting redraft, sorted according to earliest pay eligibility date.
     - Other QDRO-related issues: Include child support, divorce, or other QDRO-related orders where the plan administrator indicates an ▸interested party is likely to submit a DRO (such as a restraining order preventing a participant from receiving a benefit).
   - Document the request in a memo to the plan file in ▸IPS.
5. If PBGC is unable to obtain necessary data and records from the plan administrator, request assistance from the ▸OBA QDRO Coordinator through the Employee Benefits Supervisor.
6. Review outstanding DROs to identify two categories:
   - DROs in need of immediate evaluation (for example, the participant is in pay or may retire soon).
   - DROs that do not need immediate evaluation (for example, the QDRO affects a young deferred vested participant).
7. Process the DROs:
   - Prioritize processing the DROs that need immediate evaluation.

- If a large number of DROs need immediate evaluation, coordinate with ▸CSD management to obtain the necessary resources.

8. Refer any requests from interested parties for a copy of a QDRO to the Disclosure Office.

   Do not send a copy of the QDRO without prior approval from ▸OCC, ▸PPD, or the Disclosure Office.

Top of Page

**TP 13.1B Update Spectrum for Qualified Domestic Relations Orders**

**07/01/2016**

**Case Team**

1. As soon as possible after loading ▸plan records into ▸Spectrum, compare information on ▸QDRO participants and alternate payees from the prior plan administrator with Spectrum.
2. Update customer types and status codes in Spectrum as needed.
3. If the *QDRO/DRO Statistics and Questionnaire* indicates that the plan made payments to alternate payees as a deduction from the participant's account, review the prior paying agent's payment records to identify the payments.

   **Note** The purpose of step 3 is to ensure that PBGC does not miss payments to alternate payees as a result of the transfer of data. This information is also needed for plan assumption. Notify the Case Team that the information is available to avoid duplication of work.

4. Set up participant and alternate payee records in Spectrum:
   - If the alternate payee is responsible for their own taxes, set up separate records for participants and alternate payees. Continue to step 5.
   - If the alternate payee is a child or other dependent and the payment is a deduction from the participant's record, do not create a separate record for the alternate payee:
     a. Set up the deduction in Spectrum.
     b. Complete and submit the *PBGC QDRO Deduction Instructions to Paying Agent* form to deduct the alternate payee's payment from the participant's payment.
        i. Print and sign the completed form.
        ii. Obtain the signature of an approver at or above the level required to approve the transaction. See the Approval Levels Table in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service.
        iii. Scan the form with the approver's signature to PDF format.
        iv. E-mail the PDF version of the form to the Management Analyst in ▸BPD.

            The Management Analyst verifies the information and confirms that the approver is at or above the level required to approve the transaction before forwarding the instructions to the paying agent.
     c. Check ledgers in ▸PLUS to confirm the deduction.
     d. If the deduction does not appear in PLUS, contact the Management Analyst in BPD and resubmit the *PBGC QDRO Deduction Instructions to Paying Agent* as necessary. No further action required for this procedure.
5. Check ▸PBGC Image Viewer to confirm there is a complete, signed QDRO in the participant or alternate payee's file:
   - QDRO present: Continue to step 6.
   - QDRO not present: Complete TP 13.1D Request Copy of Qualified Domestic Relations Order before proceeding.
6. Link each alternate payee record to the associated participant record.
7. If PBGC already mailed trusteeship letters, send trusteeship letters to the alternate payees.
8. Make the QDRO payments (see TP 13.4 Make Qualified Domestic Relations Order Payments).

Top of Page

**TP 13.1C Review Qualified Domestic Relations Orders the Prior Plan Administrator Qualified**

**07/01/2016**

Review each ▸QDRO the prior plan administrator qualified, beginning with QDROs for which the participant or ▸alternate payee is in pay. Assume that the prior plan administrator notified all ▸interested parties of the qualification status of any ▸DRO prior to plan termination. Do not send out new notifications, as this could create new appeal rights.

**EBLS/FBA/PVA/PBA**

1. If the prior plan administrator did not provide a copy of the QDRO and no QDRO is in the file, complete TP 13.1D Request Copy of Qualified Domestic Relations Order before proceeding.
2. Fill out a *QDRO Qualified by Prior Plan Administrator Worksheet* and *Checklist for Reviewing a QDRO Qualified by the Prior Plan Administrator*:
   - Checklist suggests disqualification: Contact Ask PPD for guidance and proceed as ▸PPD instructs. No further action required for this procedure.
   - Checklist does not suggest disqualification: Continue to step 3.
3. If any provisions in a QDRO relevant to benefit payments (for example, whether or to what extent the alternate payee is treated as the participant's spouse or when the alternate payee can commence benefits) are unclear or inconsistent with PBGC's procedures for a signed or draft DRO (see TP 13.2B Determine Qualification Status and Issue Letters):
   a. Issue an *eALG 614 Interpretation of QDRO* to interested parties (all persons named in the order and their attorneys, if identified) advising of PBGC's interpretation of the QDRO provisions and, if the interested parties disagree, to contact PBGC.
   b. If the interested parties disagree or if the QDRO provisions are so unclear an interpretation is not possible, contact Ask PPD for guidance.
4. Image the *QDRO Qualified by Prior Plan Administrator Worksheet* and *Checklist for Reviewing a QDRO Qualified by the Prior Plan Administrator* to the participant and alternate payee's files in ▸IPS.

**TP 13.1D Request Copy of Qualified Domestic Relations Order**

**07/01/2016**

Sometimes, the records a prior paying agent provides to PBGC contain evidence that a participant has a signed ▸QDRO (for example, a summary of the QDRO in the participant's file or payment ledgers showing checks to the alternate payee) but do not include a complete, signed QDRO. PBGC requires an original, certified copy, or authenticated copy of a complete, signed QDRO to pay all or part of the participant's benefit to the alternate payee.

This procedure does not apply if the only evidence of a QDRO is a draft order.

**Case Team**

1. Call or issue an *eALG Generic Letter* to request a copy of the QDRO from the prior plan administrator:
   - Receive copy: Continue to step 7.
   - Do not receive copy: Continue to step 2.
2. Issue *eALG 618 No QDRO on File First Request* to the alternate payee and wait up to 45 days for a response:
   - Receive copy: Continue to step 7.
   - Do not receive copy within 45 days: Continue to step 3.
3. Issue *eALG 619 No QDRO on File Second Request* to the alternate payee and wait up to 45 days for a response:
   - Receive copy: Continue to step 7.
   - Do not receive copy within 45 days: Continue to step 4.
4. Issue *eALG 620 No QDRO on File Final Request* to the alternate payee and wait up to 45 days for a response:
   - Receive copy: Continue to step 7.
   - Do not receive copy within 45 days: Continue to step 5.
5. Proceed according to the pay status of the alternate payee and participant:
   - Alternate payee in pay: Suspend the alternate payee's payments and proceed according to whether PBGC receives the QDRO within three months:
     - Receive QDRO: Continue to step 6.
     - Do not receive QDRO: Contact Ask PPD for guidance.
   - Alternate payee not in pay and participant in pay: Contact Ask PPD for guidance.
   - Alternate payee and participant not in pay: Proceed according to whether PBGC receives the QDRO or the participant or alternate payee's application for benefits first:
     - QDRO first: Continue to step 7.
     - Application first: Contact Ask PPD for guidance.
6. Reinstate the suspended benefit:
   a. Reinstate regular benefit payments in ▸Spectrum.
   b. Issue a back payment with interests for the missed payments.
7. Proceed according to whether the alternate payee has a file in ▸PBGC Image Viewer and Spectrum:
   - Alternate payee has file: Image the QDRO to the participant and alternate payee's files in ▸IPS.
   - Alternate payee does not have file:
     a. Create a file for the alternate payee (see TP 13.1B Update Spectrum for Qualified Domestic Relations Orders).
     b. Image the QDRO to the participant and alternate payee's files in IPS.

Top of Page

## TP 13.2 Review Domestic Relations Orders

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review DROs that PBGC receives after DOTR. |
| **Guidance** | N/A |
| **Procedure Owner** | CSD/PVA/FBA QDRO Coordinator, OBA QDRO Coordinator |

Follow these procedures to review ▸DROs that PBGC receives after ▸DOTR. For DROs the prior plan administrator received before DOTR, see TP 13.1 Process Domestic Relations Orders from the Prior Plan Administrator.

**In this Section**

TP 13.2A Receive Domestic Relations Order
TP 13.2B Determine Qualification Status and Issue Letters

**TP 13.2A Receive Domestic Relations Order**

**07/01/2016**

**CSD/PVA/FBA or OBA QDRO Coordinator**

1. Upon receipt of a signed or draft ▸DRO and accompanying documentation from an ▸interested party, determine whether the DRO identifies a participant in a trusteed plan:
   - DRO identifies a participant in a trusteed plan:
     a. If needed, create a file for the alternate payee in ▸IPS and ▸Spectrum (see TP 13.1B Update Spectrum for Qualified Domestic Relations Orders).
     b. If the DRO is not already in the participant file in ▸PBGC Image Viewer, request that ▸DMC scan the DRO to the participant and alternate payee's files.
     c. Notify the ▸POC of the plan via a ▸CRM service request.
     d. Continue to step 2.

     **Note** If the participant or alternate payee already has an address in Spectrum, do not update the address based on the DRO.

   - DRO does not appear to identify a participant in a trusteed plan:
     a. Contact ▸CSD to confirm the participant is not a missing participant and search ▸CMS to confirm the plan is not a standard termination or multi-employer plan:
        - Participant is a missing participant or plan is a standard termination or multiemployer plan: Contact the ▸OBA ▸QDRO Coordinator for guidance. No further action required for this procedure.
        - Participant is not in a trusteed plan: Send a *PBGC Not Trustee Letter* to all interested parties, even if the plan is a non-trusteed plan from the same company as a trusteed plan.

        **Note** The OBA QDRO Coordinator or CSD/▸PVA/▸FBA QDRO Coordinator maintains and periodically purges a chronological file of copies of the *PBGC Not Trustee Letters* as there is no IPS file for the submitter of the DRO.

2. Determine whether an interested party already submitted the order to the plan administrator for review:
   - Check the plan and participant file in PBGC Image Viewer.
   - Contact the interested parties or QDRO POC.
3. Proceed according to whether an interested party already submitted the order to the plan administrator:
   - Order is a QDRO that the participant or alternate payee previously submitted to the plan administrator, but the plan administrator did not provide to PBGC: Process the QDRO as a QDRO the plan administrator provided to PBGC (see TP 13.1 Process Domestic Relations Orders from the Prior Plan Administrator).
   - Order is an amended order or not previously submitted: Determine the qualification status of the order (see TP 13.2B Determine Qualification Status and Issue Letters).

**TP 13.2B Determine Qualification Status and Issue Letters**

**07/01/2016**

**CSD/PVA/FBA QDRO Coordinator**

1. Review the order according to the following scenarios (more than one may apply):
   - The order is not a ▸DRO:
     - ▸California Joinder Request or similar state-issued order
     - ▸State agency order that is not a DRO
     - ▸Order to revoke or nullify a previously qualified order
   - The order is for a non-typical plan:
     - ▸Non-trusteed or standard termination plan
     - ▸Case assigned to CSD
   - ▸The order is a signed or draft DRO.
   - ▸Documents required for any scenario are missing.
2. Image any document PBGC receives or prepares (other than ▸eALG letters) to the participant or alternate payee's ▸IPS file.
3. Proceed according to whether the DRO is signed and qualified:
   - Order is a signed ▸QDRO:
     a. Issue *eALG 605 DRO Qualified* to the submitter and mail a copy to all ▸interested parties.

        Do not send a copy of the QDRO without prior approval from ▸OCC, ▸PPD, or the Disclosure Office.

     b. Create a record for the alternate payee in ▸Spectrum.
     c. Wait up to 45 days for any interested party to appeal:
        - Party appeals: Process the appeal (see Process 20 Appeals Correspondence) and issue the appropriate eALG letter (see eALG Correspondence Help).

          **Note** The 45-day period restarts each time PBGC reviews a DRO and issues a response letter to the interested party. However, do not suspend the participant's pay for more than 18 months.

        - No appeal: Proceed to TP 13.3 Implement Qualified Domestic Relations Order.
   - Order is signed, but not a QDRO:
     a. Proceed according to the type of order:
        - Child support or similar order: Issue *eALG 609 DRO (Child/Spousal Support) Not Qualified* to the submitter and mail a copy to all interested parties.

          Do not send a copy of the DRO without prior approval from OCC, PPD, or the Disclosure Office.

        - Other orders: Issue *eALG 606 DRO Not Qualified* to the submitter and mail a copy to all interested parties.

          Do not send a copy of the DRO without prior approval from OCC, PPD, or the Disclosure Office.

     b. Wait 60 days for any interested party to submit a revised DRO:
        - Party submits a revised QDRO: Process the revised DRO and issue the appropriate eALG letter (see eALG Correspondence Help).

          **Note** The 60-day period restarts each time PBGC reviews a DRO and issues a response letter to the interested party or on the date the court sets for review. However, do not suspend the participant's pay for more than 18 months.

        - No revised QDRO: Proceed to TP 13.5 Release Benefits for Domestic Relations Order.
     c. If a party to the DRO informs PBGC of a future court date and requests an extension, grant an extension expiring 60 days after the court date.
   - Order is a qualifiable draft order:

a. Issue *eALG 607 Draft DRO Qualifiable* to the submitter and mail a copy to all interested parties.

   Do not send a copy of the DRO without prior approval from OCC, PPD, or the Disclosure Office.

b. Wait 60 days for any interested party to submit a revised DRO:

   - Party submits a revised QDRO: Process the revised DRO and issue the appropriate eALG letter (see eALG Correspondence Help).

     > **Note** The 60-day period restarts each time PBGC reviews a DRO and issues a response letter to the interested party. However, do not suspend the participant's pay for more than 18 months.

   - No revised QDRO: Proceed to TP 13.5 Release Benefits for Domestic Relations Order.

- Order is a non-qualifiable draft order:

a. Issue *eALG 608 Draft Order Not Qualifiable* to the submitter and mail a copy to all interested parties.

   Do not send a copy of the DRO without prior approval from OCC, PPD, or the Disclosure Office.

b. Wait 60 days for any interested party to submit a revised signed or draft DRO:

   - Party submits a revised DRO: Process the revised signed or draft DRO and issue the appropriate eALG letter (see eALG Correspondence Help).

     > **Note** The 60-day period restarts each time PBGC reviews a DRO and issues a response letter to the interested party. However, do not suspend the participant's pay for more than 18 months.

   - No revised signed or draft DRO: Proceed to TP 13.5 Release Benefits for Domestic Relations Order.

Top of Page

## TP 13.3 Implement Qualified Domestic Relations Order

**07/01/2016**

| | |
|---|---|
| **Purpose** | To implement a separate interest or shared payment QDRO. |
| **Guidance** | N/A |
| **Procedure Owner** | CSD/PVA/FBA QDRO Coordinator |

Follow only one of the subprocedures according to the type of ▸QDRO:

- Separate interest QDRO: TP 13.3A Implement Separate Interest Qualified Domestic Relations Order.
- Shared payment QDRO (separate accounts for participant and alternate payee): TP 13.3B Implement Shared Payment Qualified Domestic Relations Order with Separate Spectrum Accounts.
- Shared payment QDRO (payment to alternate payee is a deduction from the participant's account): TP 13.3C Implement Shared Payment Qualified Domestic Relations Order as Deduction from Participant's Account.

**In this Section**

TP 13.3A Implement Separate Interest Qualified Domestic Relations Order
TP 13.3B Implement Shared Payment Qualified Domestic Relations Order with Separate Spectrum Accounts
TP 13.3C Implement Shared Payment Qualified Domestic Relations Order as Deduction from Participant's Account

## TP 13.3A Implement Separate Interest Qualified Domestic Relations Order

**07/01/2016**

Follow these steps for a separate interest ▸QDRO only. For a shared payment QDRO, follow TP 13.3B Implement Shared Payment Qualified Domestic Relations Order with Separate Spectrum Accounts or TP 13.3C Implement Shared Payment Qualified Domestic Relations Order as Deduction from Participant's Spectrum Account.

### CSD/PVA/FBA QDRO Coordinator

1. If needed, create a record in ▸Spectrum and in ▸IPS for the alternate payee (see TP 13.1B Update Spectrum for Qualified Domestic Relations Orders).
2. Link the participant and alternate payee's records in Spectrum and cross-reference in IPS.

   **Note** An alternate payee may also be the beneficiary of a ▸QPSA, ▸QJSA, or balance of ▸C&C benefits.

3. Proceed according to whether the plan is in estimated or final status:
   - Estimated status: Upon issuing ▸BDLs, issue the appropriate BDLs to the participant and alternate payee (see Process 19 Benefit Determination Letters).
   - Final status: Issue a revised BDL to the participant and the appropriate BDL to the alternate payee (see Process 19 Benefit Determination Letters).
4. When the alternate payee requests benefits, process the alternate payee as a customer due a benefit (see TP 20 Benefit Payments).
5. Upon receipt of a complete benefit application package, proceed to TP 13.4 Make Qualified Domestic Relations Orders Payments.

   **Note** The alternate payee chooses a form of benefit (single life forms only) and the commencement date, which is no sooner than the participant's earliest PBGC retirement age. Under no circumstances can an alternate payee choose or remain in pay after ▸DOTR with a joint-life form of benefit for a separate interest award. Information in the Benefit Application Package gives the alternate payee details about the forms of benefit that PBGC offers.

   **Note** If the QDRO names a contingent alternate payee and the alternate payee dies before going into pay status, the contingent alternate payee receives the benefits to which the alternate payee was entitled. If the QDRO did not name a contingent alternate payee, the benefit reverts to the participant unless the QDRO specifies otherwise. However, contact Ask PPD for guidance if there is no stipulation in the QDRO, the QDRO is pre-DOTR, and there is evidence of prior plan practice or correspondence that the participant would have received the benefit under the plan.

   **Note** When sending QDRO-related e-mails, do not include the full ▸SSN of any individual. Use the Customer ID if available, or the last four digits of the SSN if the individual does not have a Customer ID.

## TP 13.3B Implement Shared Payment Qualified Domestic Relations Order with Separate Spectrum Accounts

**07/01/2016**

Follow these steps for a shared payment ▸QDRO with separate ▸Spectrum accounts for the participant and alternate payee. For a separate interest QDRO, follow TP 13.3A Implement Separate Interest Qualified Domestic Relations Orders. For a shared payment QDRO where payments to the alternate payee are deductions from the participant's Spectrum account, follow TP 13.3C Implement Shared Payment Qualified Domestic Relations Orders as Deduction from Participant's Spectrum Account.

Under a shared payment QDRO, the alternate payee cannot start receiving benefits before the participant.

If the participant dies before the alternate payee, payments to the alternate payee cease. If the alternate payee dies before the participant, the alternate payee's portion of the benefit becomes payable to the participant unless the QDRO names a contingent alternate payee.

### CSD/PVA/FBA QDRO Coordinator

1. If needed, create a record in Spectrum and in ▸IPS for the alternate payee (see TP 13.1B Update Spectrum for Qualified Domestic Relations Orders).
2. Link the records in Spectrum and cross-reference in IPS.

   **Note** An alternate payee may also be the beneficiary of a ▸QPSA, ▸QJSA, or balance of ▸C&C benefits.

3. Proceed according to whether the plan is in estimated or final status:
   - Estimated status: Upon issuing ▸BDLs, issue the appropriate BDLs to the participant and alternate payee (see Process 19 Benefit Determination Letters).
   - Final status: Issue a revised BDL to the participant and the appropriate BDL to the alternate payee (see Process 19 Benefit Determination Letters).
4. Proceed according to whether the participant is in pay status:
   - In pay status: Issue *eALG 610 Advice to Alternate Payee of Payment Eligibility* (including an application for benefits) to the alternate payee.
   - Not in pay status: When the participant applies for benefits, issue *eALG 610 Advice to Alternate Payee of Payment Eligibility* (including an application for benefits) to the alternate payee.
5. When the alternate payee requests benefits, process the alternate payee as a customer due a benefit (see TP 20 Benefit Payments).
6. Upon receipt of a complete benefit application package, proceed to TP 13.4 Make Qualified Domestic Relations Order Payments.

**TP 13.3C Implement Shared Payment Qualified Domestic Relations Order as Deduction from Participant's Account**

**07/01/2016**

Follow these steps for a shared payment ▸QDRO where payments to the alternate payee are deductions from the participant's ▸Spectrum account. For a separate interest QDRO, follow TP 13.3A Implement Separate Interest Qualified Domestic Relations Order. For a shared payment QDRO with separate Spectrum accounts for the participant and alternate payee, follow TP 13.3B Implement Shared Payment Qualified Domestic Relations Order with Separate Spectrum Accounts.

Under a shared payment QDRO, the alternate payee cannot start receiving benefits before the participant.

If the participant dies before the alternate payee, payments to the alternate payee cease. If the alternate payee dies before the participant, the alternate payee's portion of the benefit becomes payable to the participant unless the QDRO names a contingent alternate payee.

**CSD/PVA/FBA QDRO Coordinator**

> **Note** For a shared payment QDRO as a deduction from the participant's Spectrum account, do not issue a revised ▸BDL to the participant or any BDL to the alternate payee.

1. If needed, create a record in Spectrum and in ▸IPS for the alternate payee (see TP 13.1B Update Spectrum for Qualified Domestic Relations Orders).
2. Proceed according to whether the participant is in pay status:
   - In pay status: Proceed to TP 13.4 Make Qualified Domestic Relations Order Payments.
   - Not in pay status: When the participant applies for benefits, proceed to TP 13.4 Make Qualified Domestic Relations Order Payments.

# TP 13.4 Make Qualified Domestic Relations Order Payments

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine the recipient and taxpayer of QDRO payments and make the payments. |
| **Guidance** | N/A |
| **Procedure Owner** | CSD/PVA/FBA QDRO Coordinator |

How a ▸QDRO payment is made depends on the relationship of the alternate payee or contingent alternate payee (for example, spouse, former spouse, child or other dependent) to the participant, not the purpose of the QDRO payment (for example, child support, alimony, or marital property rights).

Making payment is thus a two-step process:

1. Identify the recipient of payments and the party responsible for paying taxes on QDRO payments (TP 13.4A Determine Recipient of Qualified Domestic Relations Order Payments).
2. Set up the payments in ▸Spectrum (TP 13.4B Make Qualified Domestic Relations Order Payments in Spectrum).

**In this Section**

TP 13.4A Determine Recipient of Qualified Domestic Relations Order Payments and Responsible Party for Taxes
TP 13.4B Make Qualified Domestic Relations Order Payments in Spectrum

**TP 13.4A Determine Recipient of Qualified Domestic Relations Order Payments and Responsible Party for Taxes**

**07/01/2016**

The alternate payee is generally the recipient of ▸QDRO payments. However, a QDRO may designate a state agency as the representative of the alternate payee, in which case the state agency becomes the recipient. Additionally, if the alternate payee is a minor, the QDRO may designate an alternate payee's parent as representative. However, payments are still payable to the minor (not the parent). Payments are generally not payable to courts, social agencies, or law enforcements agencies; contact the ▸OBA or ▸CSD/▸PVA/▸FBA QDRO Coordinator for guidance if PBGC receives a request for payment to such an organization.

The participant or the alternate payee is responsible for paying Federal income taxes on a QDRO payment depending on the relationship of the alternate payee to the participant. The reason for the QDRO, such as child support, arrearage of child support, alimony, marital property rights—as well as the type of QDRO itself—is irrelevant to determining who is responsible for paying taxes on QDRO payment. For more information on processing ▸IRS levies, see Appendix R2 IRS Levies.

**CSD/PVA/FBA QDRO Coordinator**

1. Determine the recipient of QDRO payments:
   - If the QDRO designates a state agency as the representative of the alternate payee and specifies that the payment must be payable to the agency, make the payments to the designated state agency.
   - Send other requests that payments be made payable to a designated organization (for example, letters from state child welfare or social service agencies) to the OBA or CSD/PVA/FBA QDRO Coordinator.

     The OBA or CSD/PVA/FBA QDRO Coordinator determines if PBGC can make payments to the agency.

     > **Note** Do not send letters requesting payment to a designated organization directly to ▸PBGC's paying agent for implementation.

   - If the QDRO payments are not payable to a state agency or other designated organization, make payments to the alternate payee identified in the QDRO regardless of the alternate payee's age or relationship to the participant.
2. Determine the party responsible for taxes based on the relationship of the alternate payee to the recipient:
   - Alternate payee is a spouse or former spouse or in pay as the participant's beneficiary: The alternate payee is the responsible party.

     > **Note** The alternate payee generally has same tax withholding options as the participant and reports the QDRO payment as if the alternate payee were the plan participant. A spouse or former spouse is responsible for the taxes on a QDRO payment if it is for child support and the child (or children) is not specifically identified as the alternate payee(s) under the QDRO.

   - Alternate payee is a child or other dependent and not in pay as the participant's beneficiary: The participant is the responsible party and is liable for tax on the total payment, including the participant's portion of the benefit and the QDRO payment.
3. If the participant elects withholding on the total benefit, accept the election as long as it is otherwise acceptable (see Appendix R Assignment and Withholding from Benefit Payments) and does not interfere with PBGC's ability to pay the QDRO (for example, a participant cannot elect 100% withholding or a rollover of the entire payment in order to avoid the QDRO).

**TP 13.4B Make Qualified Domestic Relations Order Payments in Spectrum**

**07/01/2016**

Set up ▸QDRO payments in ▸Spectrum depending on when payment is made and who is liable for the taxes on the payment, the ▸participant or the ▸alternate payee. For a separate interest QDRO, the alternate payee may go into pay before, at the same time as, or later than the participant. In the case of a shared payment QDRO, the alternate payee may go into pay at the same time as or later than the participant, but not before the participant.

**CSD/PVA/FBA QDRO Coordinator**

1. Check ▸PBGC Image Viewer to determine whether there is a complete, signed copy of the QDRO in the participant or alternate payee's file:
   - QDRO Present: Continue to step 2.
   - QDRO Not Present: Complete TP 13.1D Request Copy of Qualified Domestic Relations Order before continuing to step 2.
2. If an interested party contacts PBGC regarding an external payment agreement that changed the terms of the QDRO (for example, because the participant already started paying the alternate payee due to PBGC processing delays), customize and issue to all interested parties an *eALG Generic Letter* stating:
   - PBGC cannot change the terms of the QDRO without an amended QDRO.
   - PBGC is not bound by any external payment arrangements.
3. Proceed according to who is responsible for the taxes:
   - Alternate payee is responsible for taxes:
     a. For a separate interest QDRO, use ▸PACS to calculate the alternate payee's ▸benefit based on the form of benefit the alternate payee chose and any back payment that may be due, including interest.
     b. Set up separate payment records in Spectrum for the participant and alternate payee, using the respective ▸SSNs and payment amounts.
     c. Continue to step 4.
   - Participant is responsible for taxes:
     a. Complete and submit *PBGC QDRO Deduction Instructions to Paying Agent* form to deduct the taxes from the participant's payment:
        i. Print and sign the completed form.
        ii. Obtain the signature of an approver at or above the level required to approve the transaction. See the Approval Levels Table in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service.
        iii. Scan the form with the approver's signature to PDF format.
        iv. E-mail the PDF version of the form to the Management Analyst in ▸BPD.

        The Management Analyst verifies the information and confirms that the approver is at or above the level required to approve the transaction before forwarding the instructions to the paying agent.
     b. Confirm that PBGC's paying agent populates the appropriate subfields in ▸PLUS with the information from the form.
     c. Process the payment as a deduction from the participant's record in Spectrum.
     d. Continue to step 6.
4. Proceed according to whether PBGC has already issued a ▸BDL to the participant or alternate payee:
   - PBGC did not issue a BDL: Process the payments in Spectrum.
   - PBGC issued a BDL:
     - Advise the Case Team not to make large back payments (payments that require Level 30 or higher authorization (see TP 28 Approve Financial & Non-Financial Transactions through Approval Service)) that the terms of the QDRO could affect until all applicable appeal periods or extension periods end.
     - Process any payments other than large back payments in Spectrum.

5. If the participant or alternate payee appeals how PBGC calculated the alternate payee's benefit under the QDRO during the appeal period or extension period:
   a. Request ▸CSD management authorization before making any large back payments to the participant or alternate payee.
   b. On authorization:
      - Create and image memo to the participant and alternate payee's files in ▸IPS documenting the authorization.
      - Process the back payment in Spectrum.
6. Upon advice of the death of a participant in a shared payment order:
   - If the alternate payee is entitled to all or part of the participant's survivor benefits:
     - Process the alternate payee's benefits (see TP 5 Death Processing).
     - Recoup any overpayment to the alternate payee (see TP 7 Recoupment).
   - If the alternate payee is not entitled to survivor benefits:
     - Stop payment to the alternate payees simultaneously with ending the participant's benefit.
     - Recover any overpayment to the alternate payee (see TP 6.1D Other Recovery Situations).

**Note** Do not suspend payment to the alternate payee because PBGC does not have a valid address on file for the participant, otherwise cannot pay the participant, or does not have a separate Spectrum account for the alternate payee.

## TP 13.5 Release Benefits for Domestic Relations Order

**07/01/2016**

| | |
|---|---|
| **Purpose** | To release benefits PBGC suspended all or part of for a DRO PBGC later disqualified. |
| **Guidance** | N/A |
| **Procedure Owner** | CSD/PVA/FBA QDRO Coordinator |

If a participant's benefit is already in pay status when PBGC receives a signed ▸DRO, PBGC suspends all or a portion of the participant's benefit. PBGC does not suspend all or a portion of the participant's benefit upon receipt of a draft DRO or California joinder. If PBGC then determines that the DRO is not qualified, release the benefit and reimburse the participant after the 60-day resubmission period.

PBGC prohibits a participant from entering pay status while a signed or draft DRO, California joinder, or other similar state order is under review.

1. If PBGC did not suspend a participant's payment timely upon receipt of a signed DRO and the participant was overpaid, see TP 7 Recoupment and Administrative Correction or contact Ask PPD for guidance on whether to recoup the overpayment and at what percentage.

   > **Note** When sending QDRO-related e-mails, do not include the full ▸SSN of any individual. Use the Customer ID if available, or the last four digits of the SSN if the individual does not have a Customer ID.

2. Process the reimbursement with interest as a single payment in ▸Spectrum.
3. Issue the appropriate letter to the participant according to the status of the DRO:
   - Signed DRO: *eALG 611 Release of Suspended Benefit to Participant*.
   - Draft DRO: *eALG 613 Release of Benefits from Draft DRO*.

## TP 13.6 Resources for Domestic Relations Orders and State Agency Orders

**09/30/2016**

**Forms, Letters, and Memos:**

- *Checklist for Reviewing a DRO*
- *Checklist for Reviewing a QDRO Qualified by the Prior Plan Administrator*

# TP 14 §436 Benefit Limitations

**In this Section**

TP 14. Overview for §436 Benefit Limitations
TP 14.1 Conduct §436 Evaluation
TP 14.2 Summary of §436 Provisions
TP 14.3 Resources for §436 Benefit Limitations

## TP 14. Overview for §436 Benefit Limitations

**11/21/2014**

PPA 2006 added §436 to the IRC (and §206(g) to ERISA). Section 436 sets forth a series of limitations on benefit accruals and payments that may apply to a single-employer plan based on the plan's AFTAP. These limitations apply to:

- Shutdown benefits and other UCEB
- Certain plan amendments increasing benefit liabilities
- Prohibited payments
- Benefit accruals

PPA 2006 and subsequently §203 of WRERA and the Pension Relief Act of 2010 provided exceptions which deferred application of all or some of the §436 limitations in specified situations.

The statutory requirements in §436 generally apply to plan years beginning on or after 01/01/2008. The regulatory requirements in 26 CFR §1.436-1 apply to plan years beginning on or after 01/01/2010. All plans must be amended pursuant to §436 by the end of the 2013 plan year for IRS qualification purposes. Prior to 01/01/2010, plans could rely on a reasonable interpretation of §436 and the proposed IRS regulations issued on 08/31/2007.

26 CFR §1.436-1(a)(3)(ii) provides that most limitations in effect when a plan terminates remain in effect:

- The limitation on prohibited payments does not apply to certain transactions made pursuant to termination of the plan in accordance with applicable law.
- If a limitation on UCEB, plan amendments, or benefit accruals is in effect prior to DOPT, those benefits are not plan benefits, and, therefore, are not payable under any asset allocation.
- If any limitation on prohibited payments is effective as of DOPT, PBGC does not honor any unpaid plan application for a prohibited payment, regardless of the filing date, ASD, or BCD.
- However, PBGC continues to pay some prohibited payments as specified under PBGC policy.

Application of the §436 limitations potentially affects the calculation, valuation, and payment of benefits. The Summary of §436 Provisions Table describes the major provisions of §436 to consider in determining and paying benefits in plans that terminated on or after the first day of the plan year beginning on or after 01/01/2008. PBGC generally accepts implementation of the §436 limitations as the plan administrator describes, absent significant evidence to the contrary (including a lack of evidence, such as failure of the plan administrator to provide copies of certified AFTAP that PBGC requests). Because of the complexity of the §436 limitations and the exceptions that may apply, most plans potentially impacted by §436 must be evaluated by ASD. This guidance provides procedures for determining if a plan is potentially impacted by the §436 limitations and must therefore be further evaluated.

Policies addressing §436 benefit limitations:

- Policy 5.14-2 §436 Benefit Limitations under PPA 2006
- Policy 5.4-7 Annuity Benefit Forms
- Policy 5.4-9 Lump Sum Benefit Payments
- Policy 5.11-2 Payment Priority Category 2 Benefits
- Policy 8.6-1 Payments to Beneficiaries

Top of Page

## TP 14.1 Conduct §436 Evaluation

**03/30/2015**

| | |
|---|---|
| **Purpose** | To conduct a §436 evaluation to determine if any of the §436 benefit limitations potentially affect the calculation, valuation, and payment of benefits. |
| **Guidance** | *§436 Benefit Limitations BAPD Conference, June 2012*<br>*§436 Benefit Limitations Summary*<br>Policy 5.4-7 Annuity Benefit Forms<br>Policy 5.4-9 Lump Sum Benefit Payments<br>Policy 5.14-2 §436 Benefit Limitations under PPA 2006 |
| **Procedure Owner** | Actuary |

In completing the *Estimated Benefit Adjustments Analysis Memo* (see Process 10.4 Identify Current Payees for Benefit Adjustments), an evaluation must be conducted to determine if any of the ▸§436 benefit limitations affect the calculation, valuation, and payment of benefits in a PBGC-trusteed plan. If so, then the impact on plan administration must be documented in the *Estimated Benefit Adjustments Analysis Memo* and subsequently in the ▸ACR. The Summary of §436 Provisions Table provides additional information that may be useful in evaluating and documenting the impact that ▸IRC §436 may have on administering the plan.

1. Determine if ▸DOPT was before the first day of the plan year beginning on or after 01/01/2008 (FD-PY08):
   - If DOPT was before FD-PY08:
     - Document in the *Estimated Benefit Adjustments Analysis Memo* that the §436 limitations are not applicable because the plan terminated before §436 of the ▸Code became effective.
     - Continue completion of the *Estimated Benefit Adjustments Analysis Memo* (see Process 10.4 Identify Current Payees for Benefit Adjustments).
     - No further action required for this procedure.
   - If DOPT was on or after FD-PY08, complete Part 1 of the *§436 Evaluation*.

   **Examples:**

   - Plan A: The first day of the 2008 plan year was 10/01/2008. The plan terminated on 08/18/2008. The §436 limitations do not apply to Plan A because the plan terminated before the beginning of the first effective plan year for purposes of §436.
   - Plan B: The first day of the 2008 plan year is 07/01/2008. The plan terminated on 11/01/2008. The §436 limitations are potentially applicable to Plan A because the plan terminated after the beginning of the first effective plan year for purposes of §436.
2. Take action according to the results of Part 1 of the *§436 Evaluation*:
   - Section 436 limitations do not apply:
     - Delete Parts 2-4 of the *§436 Evaluation*.
     - Submit the §436 Evaluation to the reviewer for concurrence.
     - Proceed to step 6.

     > **Note** Even if the §436 limitations are not applicable, consider whether benefits or payment may still be limited or restricted under PBGC policies, such as Policy 5.4-7 Annuity Benefit Forms, Policy 5.4-9 Lump Sum Benefit Payments, or Policy 5.14-1 Benefits in PPA 2006 Bankruptcy Plans, or due to other ▸PPA limitations, such as on shutdown benefits and ▸UCEB.

   - Section 436 limitations potentially apply: Continue to step 3.
3. Working with the assigned auditor, identify all available 436-related documents, including documentation retrieved from TeamConnect (see Process 8.2 Assess Available Records/Information) for plan years beginning in 2008 through

the year in which the plan was trusteed:

- **AFTAPs**: Copies of all ▸AFTAP certifications and other ▸AFTAP calculations (which may not require certification). AFTAP certifications and calculations include:
  - Certifications of the actual AFTAP for a plan year.
  - ▸Range certifications.
  - Optional or required ▸recertification of an AFTAP for a plan year.
  - ▸Updated AFTAPs, which may or may not require recertification.
  - Calculations of an ▸inclusive presumed AFTAP.
  - Calculations of a modified ▸presumed AFTAP.

  A certified AFTAP must:

  - Be a written statement that is clearly meant to be the certification of the AFTAP.
  - Be signed and dated with the month, day and year by the plan's enrolled actuary (EA).

    > **Note** that the actual signature date may be material to the application of the §436 limitations.

  - On or after the first day of 2010 plan year, include the information prescribed in 26 CFR §1.436-1(h)(4).
- **AVRs**: Copies of the ▸AVRs that include the AFTAP for plan years for which a copy of the actual AFTAP certification cannot be obtained from the plan administrator or plan actuary.

  An AVR may be acceptable in place of an actual AFTAP certification if it is dated and signed and does not state or otherwise indicate that it is not meant to be an AFTAP certification.

  As of 01/01/2010, an AVR can only be accepted as an AFTAP certification if it meets all of the certification requirements, including the signature and date requirements, in 26 CFR §1.436-1(h)(4).

  If the AVR does not meet the above requirements, it may still be used as supporting evidence that a §436 limitation applied or did not apply during a plan year.
- **IRS Form 5500**: Copies of Schedule SB of IRS Form 5500 Annual Return/Report of Employee Benefit Plan or the AFTAP information from the Legacy 5500 tab in PBGC Image Viewer.

  The IRS Form 5500 generally will not be available until 1½ to 2 years after the end of a plan year.

  The Schedule SB generally cannot be used as an AFTAP certification because the signature date on the form is not timely for §436 purposes, and for plan years beginning in 2010, it does not include the information required in an AFTAP certification. However, it may be used as supporting evidence that a §436 limitation applied or didn't apply during the plan year.
- **CBAs**: If the plan was maintained pursuant to one or more ▸collective bargaining agreements (CBA) that was ratified before 01/01/2008 and was in effect of the first day of the 2008 plan year:
  - A copy of the executed (signed and dated) CBA(s).
  - If a copy of the executed CBA(s) is not available, written confirmation from the plan administrator, plan sponsor, or appropriate bargaining unit official:
    - Of the ratification date and expiration date of the CBA(s) *without regard to any extension agreed upon after 08/17/2006*.
    - Whether the plan applied the CBA exception in 26 CFR §1.436-1(k)(2) that deferred the effective date of IRC §1.436, and if so, to which benefits and when.
  - If the plan covered bargaining unit and non-bargaining unit employees, confirmation that at least 25% of the covered employees or 50% of the participants were members of the bargaining unit(s).
- **Plan Amendments**: Effective on or after the first day of plan year 2008 addressing application of the §436 limitations (plans must amend by the end of the 2013 plan year).
- **Other Information**: Documenting the plan's application of §436, for example:
  - Copies of correspondence sent to plan participants describing the impact of any §436 limitation. Plans generally must provide such notice within 30 days of the effective date of a limitation.
  - Written elections by the plan sponsor to reduce the prefunding balance or standard carryover balance to avoid or terminate a §436 limitation.
  - Specification of a contribution as a current year contribution to avoid or terminate a §436 limitation.

- Written elections by the plan sponsor to defer applying MAP-21 interest rates until 2013 for §436 while using MAP-21 rates for other purposes in 2012 or to retroactively apply a 2012 AFTAP certification/recertification based on MAP-21 rates.

4. If the required information is not in plan records, contact the plan administrator and/or plan actuary for missing documentation and information. If the required information cannot be obtained from the plan administrator and/or plan actuary, document the effort to obtain the documentation and the reason it could not be obtained in the *§436 Evaluation*.

> **Note** While contact with the plan actuary may be helpful, the plan administrator is ultimately responsible for obtaining AFTAP certifications from the plan's actuary, applying §436 limitations to the plan, and providing required information to PBGC.

5. Complete Parts 3-4 of the *§436 Evaluation* and submit it to the reviewer for concurrence.
6. Upon concurrence on the *§436 Evaluation*, document the results in the *Estimated Benefit Adjustments Analysis Memo*:
   - Section 436 limitations do not apply:
     - Document in the *Estimated Benefit Adjustments Analysis* Memo that no §436 limitations apply and therefore §436 does not impact PBGC's administration.
     - Attach a copy or reference the IPS location of the *§436 Evaluation* in the *Estimated Benefit Adjustments Analysis Memo*.
   - Section 436 limitations apply:
     - Document in the *Estimated Benefit Adjustments Analysis Memo* that one or more §436 limitations apply and therefore §436 impacts PBGC's administration.
     - Attach a copy or reference the ▸IPS location of the *§436 Evaluation* in the *Estimated Benefit Adjustments Analysis Memo*.

## TP 14.2 Summary of §436 Provisions

**03/30/2015**

The Summary of §436 Provisions Table describes the major provisions of IRC §436 Funding-Based Limits on Benefits and Benefit Accruals Under Single-Employer Plans and the applicable regulations in 26 CFR §1.436-1. The table is not adequate for determining the application of the §436 limitations for most plans. Follow the procedure in TP 14.1 Conduct Preliminary §436 Evaluation to determine if §436 benefit limitations potentially impact administration of a trusteed plan and, if so, request further evaluation (see TP 14.1 Conduct §436 Evaluation). See Policy 5.14-2 §436 Benefit Limitations Under PPA 2006 for guidance on PBGC's application of the §436 limitations.

The **Sources** column identifies sources from both the IRC and IRS regulations:

- IRC sources refer to subsections of §436, for example "§436(a)(1)"
- Regulation sources refer to subsections of §1.436, for example "§1.436-1(a)(1)"

Statutory and regulatory references in the same row do not always have similar numbering.

The full texts of the statute and regulations are available at the Cornell University Law School Web site and the U.S. Government Printing Office Web site.

**Summary of §436 Provisions Table**

| Sources | Provisions |
|---|---|
| §1.436-1(a) | **General**: Provides rules about application of the §436 limitations and addresses:<br>• Special rules affecting certain plans.<br>• Termination of a plan.<br>• Treatment of a plan at the close of a period of limitation. |
| §1.436-1(a)(3)(ii) | **Termination of plan**: Any §436 limitation in effect immediately before the termination of the plan does not cease to apply after termination of the plan.<br>**Exception**: The limitations under §436(d) do not apply to certain prohibited payments made to carry out termination of the plan in accordance with applicable law.<br>**Examples:**<br>• A plan subject to a §436(d) limitation immediately before termination continues to be unable to pay a non-*de minimis* benefit in a lump sum or some non-life annuity benefit forms, such as a five-year term certain, or any benefit form in which the monthly amount of the payment is more than the amount provided by a straight life annuity, after termination of the plan.<br>• However, a plan subject to a §436(d) limitation is permitted to purchase of an irrevocable insurance contract to pay benefits in connection with a standard termination of the plan. |
| §436(b)<br>§1.436-1(b) | **Limitation on shutdown benefits and other unpredictable contingent event benefits**: A UCEB payable with respect to any participant due to any event occurring during a plan year is not payable if the AFTAP is less than 60% or would be less than 60% taking into account the UCEB. The limitation applies on a participant-by-participant basis for the plan year.<br>If an AFTAP of 60% or more was certified for a plan year and did not include the UCEB, the plan must recalculate the AFTAP including the UCEB to confirm that the AFTAP would still be 60% or more including the UCEB before the UCEB can be paid.<br>**Exception**: A UCEB that was permitted to take effect during a period in which a §436(b) limitation was not applicable is not affected if a §436(b) limitation |

| | |
|---|---|
| | subsequently becomes effective and, therefore, remains payable.<br><br>**Examples**:<br><br>• An AFTAP of 62% was certified on 03/31/2012. The plan sponsor shut down a portion of the company on 08/15/2012. The plan provided UCEBs, which would be payable to a small group of employees. The liabilities for the shutdown benefits were included in the AFTAP of 62% because the decision to shut down that portion of the company was made before the AFTAP was certified. The shutdown benefits can be paid because the AFTAP took into account the shutdown benefits and was not less than 60%.<br><br>• An AFTAP of 65% was certified on 03/31/2012. The plan sponsor shut down a portion of the company on 08/15/2012. The plan provided UCEBs, which would be payable to a small group of employees. The AFTAP of 65% did not include the liabilities for the shutdown benefits because the decision to shut down a portion of the company was made after the AFTAP was certified.<br><br>The shutdown benefits cannot be paid unless the plan establishes that the shutdown benefits will not reduce the AFTAP to less than 60% (as provided under the rules in §1.436-1(g)(5)). The plan recalculated the AFTAP taking into account the shutdown benefits (an ▸inclusive presumed AFTAP). The inclusive presumed AFTAP is 62%. Therefore, the shutdown benefits are payable. |
| §436(c)<br><br>§1.436-1(c) | **Limitation on plan amendments increasing benefit liabilities**: No amendment to the plan that increases plan liabilities may take effect during a plan year if the AFTAP is less than 80% or would be less than 80% taking into account the increase.<br><br>If an AFTAP of 80% or more was certified for the plan year and did not include the increased liabilities resulting from the amendment, the plan must recalculate the AFTAP including the increased liability to confirm that the AFTAP would still be 80% or more including the UCEB before the amendment is permitted to take effect.<br><br>Affected amendments include:<br><br>• An increase in benefits.<br><br>• Establishment of new benefits.<br><br>• Changes to the rate of benefit accrual.<br><br>• Changes in the rate at which benefits become ▸nonforfeitable.<br><br>• An increase in the §415 limit.<br><br>Affected amendments do not include:<br><br>• Mandatory increases in vesting required under the ▸Code or ▸ERISA are not amendments for purposes of §436(c), but only to the extent required to satisfy the requirements for qualified plans.<br><br>• An amendment that does not increase the funding target, for example, an increase in future service, is permitted to take effect.<br><br>• Increases in §401(a)(17) compensation limit. An amendment to restore accruals limited under §436(e) when certain conditions are met.<br><br>**Examples**:<br><br>• An AFTAP of 83% was certified on 03/31/2012. An amendment was adopted on 02/14/2012 to increase benefits beginning July 1, 2012. The AFTAP of 83% included the increased liabilities. The amendment can take effect as of July 1, 2012, because the AFTAP took into account the increased liability and was not less than 80%.<br><br>• An AFTAP of 81% was certified on 03/31/2012. An amendment was adopted on 05/15/2012 to increase benefits beginning on 07/01/2012. The AFTAP of 81% did not include the increased liability. The amendment cannot go into effect unless the plan establishes that the increased liability will not reduce the AFTAP to less than 80% (as provided under the rules in §1.436-1(g)(5)). |

| | |
|---|---|
| | The plan recalculates the AFTAP (an inclusive presumed AFTAP) taking into account the amendment. The inclusive presumed AFTAP is 79%. Therefore, the amendment is not permitted to take effect.<br>The plan may make a specified contribution (which must be within the same plan year) to increase the inclusive presumed AFTAP to 80% and, thereby, permit the amendment to take effect (see §436(f) and §1.436-1(f)). |
| §436(d)<br>§1.436-1(d) | **Limitations on prohibited payments.** |
| §436(d)(1)<br>§1.436-1(d)(1) | **AFTAP less than 60%**: If the AFTAP is less than 60%, a participant or beneficiary is not permitted to elect an optional form of benefit that includes a prohibited payment and the plan may not pay any prohibited payment, regardless of the filing date, with an ▸annuity starting date (or if later, benefit commencement date) on or after the date that the limitation becomes effective (for instance, the date the AFTAP is certified as less than 60% or the date the AFTAP is presumed to be less than 60% under §436(h) and §1.436-1(h)).<br>**Example**: An AFTAP of 58% was certified on 03/31/2012. Prohibited payments with annuity starting dates, (or if later, benefit commencement dates) on or after 03/31/2012 cannot be paid. |
| §436(d)(2)<br>§1.436-1(d)(2) | **Bankruptcy**: A participant or beneficiary is not permitted to elect an optional form of benefit that includes a prohibited payment, and the plan may not pay any prohibited payment, regardless of the filing date, with an annuity starting date (or if later, benefit commencement date) that occurs during a period in which the plan sponsor is a debtor in a case under Title 11, United States Code or similar Federal or State law, and an AFTAP of 100% or more has not been certified for that plan year.<br>The §436(d)(2) limitation is effective on the bankruptcy filing or petition date if an AFTAP of 100% or more has not been certified for the plan year on or before that date.<br>**Examples**:<br>• An AFTAP of 95% was certified on 03/31/2012. The plan sponsor filed bankruptcy on 07/05/2012. Prohibited payments with annuity starting dates (or if later, benefit commencement dates) on or after 07/05/2012 cannot be paid.<br>• The plan sponsor filed bankruptcy on 03/31/2012. The plan had a ▸"presumed" AFTAP of 105% (the certified 2011 AFTAP of 105% was being treated as the actual AFTAP for 2012 as provided under §1.436-1(g)(3)). Prohibited payments with annuity starting dates (or if later, benefit commencement dates) on or after 03/31/2012, cannot be paid because an AFTAP of 100% or more has not been certified for the 2012 plan year. |
| §436(d)(3)<br>§1.436-1(d)(3) | **Limited payments**: If the AFTAP is 60% or more, but less than 80%, a participant or beneficiary is not permitted to elect an optional form of benefit that includes a prohibited payment and the plan may not pay any prohibited payment, regardless of the filing date, with an annuity starting date (or if later, benefit commencement date) on or after the date that the limitation becomes effective that is in excess of the lesser of:<br>• 50% of the ▸present value of the benefit payable in the optional form of benefit that includes the prohibited payment, or<br>• 100% of the PBGC ▸maximum benefit guarantee.<br>The plan must permit the payment to be bifurcated, that is split, into an unrestricted portion (as described above) and restricted portion (the amount in excess of the above).<br>**Example**: A participant's benefit, which the participant wants to receive in a lump sum, has a present value of $160,000. The plan must permit the benefit to be bifurcated. An unrestricted portion of the benefit of $80,000 (50% of the present value) is payable in a lump sum. The restricted portion valued at $80,000 (the ▸residual benefit) is payable in any optional form under that plan that is not a |

| | |
|---|---|
| | prohibited payment, for instance, a straight life annuity or 50% joint-and-survivor annuity. The participant is permitted to elect a later annuity starting date to receive the residual benefit. |
| §436(d)(4)<br>§1.436-1(d)(4) | **Exception**: The §436(d) limitations do not apply if by the terms of the plan in effect on 09/01/2005, no benefits accrue with respect to any participant in the plan on or after 09/01/2005. |
| §436(e)<br>§1.436-1(e) | **Benefit accruals**: If the AFTAP for the plan year is less than 60%, benefit accruals cease on the date that the limitation takes effect (for instance, the date the AFTAP is certified as less than 60% or the date the AFTAP is presumed to be less than 60% under §436(h) and §1.436-1(h)). |
| §436(f)<br>§1.436-1(f) | **Methods to avoid or end limitations**: Plans have four methods for avoiding or ending a §436 limitation. Two methods involve increasing the amount of plan assets which are taken into account in determining the AFTAP by reducing the prefunding balance or the funding standard carryover balance. The other two methods are making a specified contribution (a §436 contribution) and providing security. |
| §436(g)<br>§1.436-1(a)(3)(i) | **New plan exception**: The §436(b), §436(c), and §436(e) limitations do not apply to a plan for the first five years of the plan, in aggregate with any predecessor plan.<br>The §436(d) limitations may apply during the first five years of the plan. |
| §1.436-1(g)(1)<br>(Not §436(g)) | **Rules of operation for periods before and after certification of an AFTAP**: Describes the rules that apply:<br>• Before certification of the AFTAP for a current plan year (the AFTAP for the prior year or a "presumed" AFTAP applies).<br>• After certification of an AFTAP for the current plan year. |
| §1.436-1(g)(2) | **Periods prior to certification of AFTAP during which a presumption under §436(h) applies:**<br>• The plan must follow the presumed AFTAP as if it were the actual AFTAP and apply the limitations accordingly.<br>• Rules on calculating an inclusive presumed AFTAP apply in determining if UCEB are permitted to be paid or plan amendments increasing benefit liabilities are permitted to take effect.<br>See §436(h) and §1.436-1(h) for rules on presumed AFTAPs. |
| §1.436-1(g)(3) | **Periods prior to certification of AFTAP during which a presumption under §436(h) does not apply**:<br>• The plan must treat the AFTAP for the preceding year as if it were the actual AFTAP for the current year and apply the limitations accordingly.<br>• Prohibited payments and benefit accruals cannot be limited.<br>• Rules on calculating an inclusive presumed AFTAP apply in determining if UCEB are permitted to be paid or plan amendments increasing benefit liabilities are permitted to take effect. |
| §1.436-1(g)(3)<br>(Guidance from IRS to PBGC) | **PY 2008 Transition Rule**: The §436 limitations, with the exception of the §436(d)(2) limitation, did not apply before the earlier of the certification of the 2008 AFTAP or the first day of the 10th month of the 2008 plan year (for example, 10/01/2008 for a calendar year plan).<br>**Note** If the plan followed the proposed regulations in 2008 and applied the limitations, accordingly, PBGC generally will not change the plan's application of the limitations, even though the transition rule could have applied. |
| §1.436-1(g)(4) | **Modification of presumed AFTAP**: For purposes of §1.436-1(g)(2) and (3), describes the effect of modifying the presumed AFTAP due to reductions in the prefunding balance or funding standard carryover balance or §436 contributions made by the plan sponsor as described under §436(f) and §1.436-1(f). |
| §1.436-1(g)(5) | **Periods after certification of AFTAP**: |

| | |
|---|---|
| | • The plan must follow the certified AFTAP and apply any limitations, accordingly.<br>• Rules on calculating an inclusive presumed AFTAP or recalculating a ▸certified AFTAP apply in determining if UCEB are permitted to be paid or plan amendments increasing benefit liabilities are permitted to take effect if the UCEB or amendment was not taken into account when certifying the AFTAP. |
| §436(h) | **Presumed Underfunding.** |
| §436(h)(1)<br>§1.436-1(h)(1) | **Presumption of continued underfunding:** If a §436 limitation was in effect on the last day of the preceding plan year, the AFTAP for the preceding plan year is the presumed AFTAP as of the first day of the current plan year.<br>**Example**: The certified AFTAP for the 2011 plan year was 78% and the §436(c) and §436(d)(3) limitations were in effect on 12/31/2011. Therefore, as of 01/01/2012, the presumed AFTAP is 78%.<br>**Note** Under §1.436-1(g)(3), the preceding year's AFTAP is treated as if it were the actual AFTAP for the current year as of the first day of the current plan year and may also be referred to as a presumed AFTAP, even though a presumption of underfunding does not apply. |
| §436(h)(2)<br>§1.436-1(h)(3) | **Presumption of underfunding on 1st day of 10th month of plan year**: If the AFTAP for the current plan year is not certified before the first day of the tenth month of the plan year (for example, October 1st for a calendar year plan), the AFTAP is conclusively presumed to be less than 60% as of the first day of the tenth month of the current plan year.<br>**Example**: The certified AFTAP for the 2010 plan year was 91%. Therefore as of 01/01/2011, the plan had to treat the 2010 AFTAP of 91% as if it were the actual AFTAP for the 2011 plan year, as provided under §1.436-1(g)(3). The 2011 AFTAP was not certified before 10/01/2011. Therefore, as of 10/01/2011, the AFTAP was conclusively presumed to be less than 60%.<br>**Note** All of the limitations would have become effective as of 10/01/2011. |
| §436(h)(3)<br>§1.436-1(h)(2) | **Presumption of underfunding on 1st day of 4th month of plan year**: If the AFTAP for the current plan year has not been certified as of the first day of the fourth month of the plan year (for example, 04/01 for a calendar year plan), the AFTAP as of the first day of the fourth month of the plan year is presumed to be 10 percentage points less than the AFTAP for the preceding year if the AFTAP for the preceding year was either:<br>• At least 60% but not less than 70%, or<br>• At least 80% but not less than 90%.<br>**Example**: The certified AFTAP for the 2011 plan year was 82% and no limitations were in effect on 12/31/2011. As of January, the 2011 AFTAP of 82% had to be treated as the actual AFTAP for the 2012 plan year. The 2012 AFTAP was not certified before 04/01/2012. Therefore, as of 04/02/2012, the presumed AFTAP was 72% (82% - 10).<br>**Note** The §436(c) and §436(d)(3) limitations would become effective as of 04/01/2012. |
| §1.436-1(h)(4) | **Certification of AFTAP**: An AFTAP certification must be in writing, signed by an ▸enrolled actuary (EA), and dated to show the month, day, and year of the EA's signature. Except for a ▸"range" certification, the certification must also include the value of plan assets, prefunding balance, the standard carryover balance, the value of the funding target (plan liabilities), and other relevant information used to calculate the AFTAP.<br>For additional information, see ▸AFTAP and ▸AFTAP Certification. |
| §436(i) | **Treatment of Plan as of Close of Prohibited or Cessation Period**: 26 CFR §1.436(a)(4) describes the treatment of a plan after a limitation ceases to apply |

| | |
|---|---|
| §1.436-1(a)(4) | including resumption of accruals and restoration of limited benefits. In addition, the statute and the regulations for each limitation describe the conditions that end the application of a limitation. |
| §1.436-1(j) | **Definitions**: Terms related to IRC §436:<br>1. Adjusted funding target attainment percentage<br>2. Annuity starting date<br>3. First effective plan year<br>4. Funding target<br>5. Prior year adjusted target attainment percentage<br>6. Prohibited payment<br>7. Section 436 contribution<br>8. Section 436 measurement date<br>9. Unpredictable contingent event<br>10. Examples |
| §1.436-1(k) | **Effective/Applicability Dates.** |
| §1.436-(k)(1) | **Statutory Effective Date**: Plan years beginning on and after 01/01/2008. |
| §1.436-1(k)(2) | **CBA Plan Exception**: For plans maintained pursuant to one or more ▸CBAs ratified before 01/01/2008, §436 limitations did not apply to plan years beginning before the earlier of the date on which the CBA expired (without regard to any extension agreed to after 08/17/2006) or 01/01/2010.<br>This exception ceased to apply to all plans as of the first day of the first plan year starting on or after 01/01/2010.<br>**Examples**:<br>• As of 01/01/2008, a calendar-year plan was operating pursuant to a CBA that was ratified on 07/01/2006. The CBA expired on 06/30/2008. IRC §436 did not apply through plan year 2008 (that is, 01/01/2008 – 12/31/2008). The 2009 plan year was the first year that IRC §436 applied to the plan.<br>• As of 01/01/2008, a calendar-year plan was operating pursuant to a CBA that was ratified on 07/01/2007. The CBA was set to expire on 06/30/2010. IRC §436 did not apply through plan year 2008 (that is, 01/01/2008 – 12/31/2008) and 2009 (that is, 01/01/2009 – 12/31/2009). The §436 limitations were first applicable as of 01/01/2010, even though the CBA had not expired. |
| §1.436-1(k)(3) | **Regulatory Effective Date**: Plan years beginning on or after 01/01/2010.<br>For plan years beginning before 01/01/2010, plans were permitted to rely on the proposed regulations in the Federal Register/Vol. 72, No. 169/Friday, August 31, 2007. |
| Other Guidance | |
| IRS Notice 2012-61 | IRS Notice 2012-61 provides guidance on the changes in the interest rates a plan may or must use for certain purposes under **MAP-21** and when and how those changes apply. These changes generally are effective for plan years beginning after 12/31/2011.<br>• The MAP-21 segment rates apply in calculating a plan's adjusted funding target, the adjusted plan assets and the resulting AFTAP, and applying the §436 limitations.<br>• A plan sponsor could elect to defer the application of the MAP-21 rates to any plan year beginning on or after 01/01/2013 (i) for all purposes, or (ii) solely for the purposes of determining the plan's AFTAP.<br>• During the 2012 plan year, a plan may have used the unadjusted segment rates (not adjusted by MAP-21) or the full yield curve to certify its AFTAP and then |

| | |
|---|---|
| | used the MAP-21 rates to update or recertify the AFTAP or to subsequently determine if a §436(b) or (c) limitation was applicable.<br>• Such updates and ▸recertifications may have affected the operation of the plan, meaning application of the §436 limitations could have also changed, including retroactive changes, during the plan year.<br>• IRS Notice 2012-61 provides guidance on the effect of material and immaterial changes in operations resulting from a recertified or ▸updated AFTAP, which are consistent with 26 CFR §1.436-1(h)(4). |
| IRS Notice 2014-19 | If a plan's terms define a marital relationship by reference to section 3 of ▸DOMA or are otherwise inconsistent with the Windsor decision, then the plan must be amended to reflect the requirements of the decision. IRS Notice 2014-19 provides that the ▸436(c) limitation on amendments increasing benefit liabilities:<br>• Does not apply to a plan amendment made to reflect the requirements of the Windsor decision that took effect on June 26, 2013.<br>• Applies to a plan amendment made to reflect the requirements of the Windsor decision if the plan chooses to make the amendment effective before June 26, 2013.<br>For additional guidance on DOMA and the Windsor decision, see Policy 5.7-4 Marriage Requirements. |
| WRERA | Under the Worker, Retiree, and Employer Recovery Act (WRERA):<br>• Distributions permitted without the consent of the participant under IRC §411(a)(11), including de minimis lump sums are not prohibited payments.<br>• For plan years beginning 10/01/2008 – 09/30/2009 (for example, for calendar-year plans, the 2009 plan year), the AFTAP is the greater of the AFTAP for that plan year or the preceding plan year (for example, for the calendar-year 2009 plan, the greater of the 2008 or 2009 AFTAP) for purposes of applying the §436(e) limitation on accruals. This rule applied even if the 2009 AFTAP was less than 60% or a 2009 AFTAP was not certified (provided the 2008 AFTAP was 60% or more). |
| Pension Relief Act of 2006 | The Pension Relief Act of 2006 extended the WRERA relief on benefit accruals and provided relief on the payment of a Social Security Leveling Option (SSLO), which is a prohibited payment. The §436(d) limitations on SSLOs and §436(e) limitation on accruals are applied for plan years beginning on or after 10/01/2008 and before 10/01/2010 (for example, for calendar-year plans, the 2009 and 2010 plan years) based on the greater of (i) the AFTAP for that plan year; or (ii) the AFTAP for the plan year beginning on or after 10/01/2007 and before 10/01/2008 (for example, for a calendar-year plan, the 2008 plan year). |

# TP 15 Prepare and Mail Letters

**In this Section**

TP 15. Overview for Prepare and Mail Letters
TP 15.1 Select and Review Letters
TP 15.2 Resources for Prepare and Mail Letters

## TP 15. Overview for Prepare and Mail Letters

**07/01/2016**

This technical procedure describes the production of participant letter(s), as such it does not stand alone. It is followed to produce one or more letters necessary to complete a process or procedure. Case related letters that ▸OBA sends are not covered in this procedure.

Participant Letters are prepared through ▸eALG whenever possible. Letters created outside of eALG require ▸CSD management approval.

When it is learned that a customer did not receive the original of a letter (▸BDL or other letter) print the original correspondence from ▸PBGC Image Viewer and send it and all necessary attachments to the customer, using the appropriate cover letter. For BDLs, use eALG 540 BDL Cover Letter. For other letters, the 540 may be modified as appropriate or another cover letter prepared.

> **Note** It is **never** appropriate to send a hand modified original or copy of a letter to a customer. This includes crossing out and/or changing dates or addresses.

Regardless of how the participant letters are prepared, **the mail date on the letter is always the actual mailing date,** and letters are quickly imaged to the participant file (▸IPS) so that customer inquiries are serviced effectively.

**eALG (eAutomated Letter Generation System)**

- Utilizes a range of prepared participant correspondence, organized into five chapters (100 series, 200 series.....).
- Pulls the variable data (customer and plan specific information) from the ▸Genesis.
- Required for Benefit Determination Letters. Enters the date sent into the Genesis after the letter has been imaged.
- Handles all sizes Letter Requests from single pieces of correspondence to large mailings.
- Provides an automatic routing approval process for Letter Requests that may be established by each division.
- Prints letters at local printer (users responsible for stuffing and mailing) or through fulfillment centers (▸DMC or off-site).
- Allows users to delete Letter Requests prepared for local printing at their desktop.
- Quickly and automatically images letters directly to the participant file (IPS). **The imaging date is one full business day after the mailing date.**
- Has a Generic Custom Letter that can be used to create any type of custom letter for a participant in the Genesis. (Do not use for Benefit Determination Letters.)

**Custom Letters through word processing**

- Generally, printed at local printer with stuffing and mailing the responsibility of the processing unit.
- Must be photocopied and **submitted for imaging immediately**, so that they may be viewed in the participant file (PBGC Image Viewer).
- Approved by Employee Benefits Supervisor, CSD or higher according to CSD guidelines.

> **Note** If special circumstances require preparation of a large volume of letters outside of eALG, contact the eALG System Administrator for assistance and planning in order to use the stuffing and mailing services of the fulfillment centers (DMC or off-site).

Top of Page

## TP 15.1 Select and Review Letters

**07/01/2016**

| | |
|---|---|
| **Purpose** | Send correct letter(s) with correct forms and enclosures to customer(s). |
| **Required input and Source** | Type(s) of letter needed, relevant variable data, recipient approval levels necessary (may vary by Division), and stock of required enclosures. |
| **Process Output and Recipient** | Letter(s) mailed to participant(s) with all appropriate enclosures and imaged timely to the participant(s) file (▸IPS). |
| **Control Issues** | eALG quickly and automatically images letters to participant file (IPS), so that they are viewable by staff **one full business day after the mail date**.<br><br>Perform quality control review, including spell check, print preview and printing a local Letter Request to "test" a letter before sending a large Letter Request to fulfillment. Delete incorrect local Letter Requests as necessary **ASAP, but not later than mail date**. Deleting the Letter Request ensures the incorrect Letter Requests are not mistakenly imaged. The initiator of the Letter Request ensures the incorrect letter(s) are not mailed. Requests for deletions that are not completed by mail date must be forwarded to the Help Desk.<br><br>**Approval of Letters:** Letters may or may not require concurrence or supervisor approval. Generally, standard eALG response letters require only a peer review to ensure that the correct letter was chosen for sending. However, follow the approval and concurrence requirements addressed in the appropriate process, and as prescribed within the division's Management Team if there are any questions about approval requirements for a particular process. FBAs follow the guidance of the respective EBLS for each plan. CSD may establish routing for approval through eALG for approvals. |
| **Important Concepts** | Mail letters on mail date **only**, not earlier or later. An accurate mail date is always important, for Benefit Determination Letters it is particularly important as it marks the beginning of the period within which a customer may file an appeal, generally 45 days from date of letter. (See 29 CFR 4003: Rules for Administrative Review of Agency Decisions.)<br><br>If it is learned that a customer did not receive an original letter (BDL or other) print a copy from IPS and send it and attachments with a cover letter. For BDLs, the eALG 540: BDL Cover Letter is used, as it clearly establishes that the appeals period commences with the date of the 540. |
| **Guidance** | eALG Correspondence Help<br><br>29 CFR 4003 |
| **Procedure Owner** | EBLS/PBA/FBA/PVA |

See the ▸Participant Letters Print Location Guidance Table for guidance based on the volume of letters.

These actions generally apply to▸ eALG letter preparation. For customer correspondence prepared outside of eALG, see TP 15. Overview for Prepare and Mail Letters and consult with division management for guidance.

1. Select the correct letter or set of variables within the eALG. Refer to the appropriate procedure for details on which letter to use, or browse the samples provided in the eALG Letters (electronic help file accessed while in the eALG Letters application **or** available through in the ▸OBA Manuals).
2. Plan mail date for letter(s). Refer to Participant Letters Print Location Guidance for information regarding the default mailing dates (earliest dates permitted by system) for the eALG Request, allowing adequate time for updates to any needed variable information to be merged into the letter.
3. Determine an appropriate mail date for letters, allowing sufficient time for quality control review and observing the standard default dates set by eALG based on the various printing location options, as described in Participant Letters

Print Location Guidance.

4. Visually review letters carefully, using spell check and print preview in eALG. The *Letter Authorization Checklist* may be used as a job aid when preparing and authorizing custom letters.
5. Ensure adequate supplies of necessary enclosures are available on hand, see TP 34 Requests for Supplies.
6. If printing locally, print the Letter Request and review the hard copy. (If Letter Request is routed to an authorizer for approval, the authorizer must authorize the request before it can be printed.)
   - If correct, stuff any necessary enclosures and put in mail to be mailed on mail date.
   - If not correct, immediately delete the Letter Request, providing a reason for the delete request. Prepare another Letter Request after making the necessary modifications, and follow this process again.
7. If printing through fulfillment, prepare a Letter Request for one or two participants to "test" the letter and selected enclosures, and print. This will be a locally printing request. (If Letter Request is routed to an authorizer for approval, the authorizer must authorize the request before it can be printed.)
   - If hard copy of "test" eALG Letter Request is correct, stuff any necessary enclosures and put in mail to be mailed on mail date. Prepare a second eALG Letter Request for the remainder of the participants that will go to fulfillment.
   - If hard copy of "test" eALG Letter Request is not correct, **immediately delete the Letter Request**. Indicate in dialogue box "test letters" as reason for deletion request. Prepare another "test" Letter Request after making the necessary modifications, and follow this process again.

> **Note** Deletions of incorrect Letter Requests should be done immediately, and must be done **no later than mail date** to avoid mistaken mailings and imaging of letters. If deletion is necessary after the mail date, contact the Help Desk. Send the eALG confirmation e-mail message and forward it to the Help Desk (Identifying information in the e-mail is needed to process this request.) If deletion of a fulfillment Letter Request is necessary, contact the eALG System Administrator.

8. If printing using ▸DMC, DMC will contact the initiator in the ▸CSD, or a designated CSD contact for ▸FBA initiators, to review the Letter Request at the DMC (7th floor) and sign off before mailing. If printing using off-site fulfillment contractor, the eALG System Administrator handles any necessary approvals with the contractor.
9. If sending the letter marks completion of a milestone in the Case Management System (▸CMS), update that milestone as appropriate. See the specific procedure and CMS guidance for details.

# TP 16 Plan and Participant File Maintenance

**In this Section**

TP 16. Overview for Plan and Participant File Maintenance
TP 16.1 Maintain Plan File
TP 16.2 Maintain Participant File
TP 16.3 Image Files to IPS
TP 16.4 Request Advanced Functions for IPS Files
TP 16.5 Archive Electronic Files
TP 16.6 Process Participant Correspondence
TP 16.7 Process Request to Return Proof Documents
TP 16.8 Resources for Plan and Participant File Maintenance

## TP 16. Overview for Plan and Participant File Maintenance

**07/01/2016**

OBA maintains two types of case-related files in the IPS repository: plan files and individual participant files. The maintenance of these official administrative records is critical to ensure adequate documentation is available to support, substantiate, and validate benefit payment calculations. This procedure describes the process for adding documents to these files and the *OBA Records Management Policy & Procedures Manual* provides guidelines for maintaining these files.

The plan file is created when CFRD transfers pension plan documents to OBA. Federal staff adds documents to the plan file throughout the case lifecycle. Contract staff can add documents to the plan file with the concurrence of Federal staff.

CSD benefit processing staff create participant files in IPS for customers when they are added to Spectrum, and sometimes for individuals not in Spectrum. Some systems, such as eALG, automatically update the participant files with new documents.

Requests to have certain functions (known as Advanced Functions) performed in IPS, including deleting, re-indexing, merging, splitting, copying, and re-ordering pages, must be submitted to the DMC. Deleting pages requires federal management approval.

**Archiving Electronic Sources**

OBA archives electronic sources of plan information, as described in TP 16.5 Archive Electronic Files.

Only an original, unaltered electronic file can be correctly described as **source e-data**. It is acceptable to change the name of the file for clarity, but if anything inside of the file has been changed, the file can no longer be accurately described as source e-data. A good practice when changing the file name is to include the original file name in parentheses after the more descriptive name. For example, `pbgc.xls` could be renamed as `Data-from-plan-admin-2013-03-30(pbgc.xls).xls`.

Unaltered copies of all e-data sources relevant to the following processes must be archived:

- Unaltered e-data sources used for Spectrum First Pay and Customer data loads must be archived prior to authorizing the data load.
- Unaltered e-data sources used in the construction of the participant database must be archived as soon as practicable after receipt.
- Additional e-data sources used for the valuation database must be archived before the valuation is finalized.
- Reviewers for the above activities must inspect the Archive to obtain reasonable assurance that e-data sources are properly archived.

Some of the tabular electronic data (spreadsheets, databases, extracts, etc.) obtained for a case will ultimately not be used for the participant database. At the time of receipt, there is no way of knowing whether or not they will be used, therefore they should be treated as e-data sources and archived accordingly.

## TP 16.1 Maintain Plan File

**08/30/2016**

| | |
|---|---|
| **Purpose** | To maintain the administrative record of a trusteed plan. |
| **Guidance** | *OBA Records Management Policy & Procedures Manual*<br>*IPS Scanning Request Form for Plan Documents Sample*<br>PBGC Image Viewer Help<br>*Plan File Indexing Specification Guide* |
| **Procedure Owner** | CMD, EBLS/FBA/PVA |

**Note:** This procedure assumes ▸CFRD has transferred the case to ▸OBA and the ▸plan file already exists.

Headquarters staff must submit a request to the ▸DMC to import electronic documents to the plan file. The *OBA Records Management Policy & Procedures Manual* provides guidelines for maintaining records.

▸FBA/▸PVAs follow a similar process for imaging electronic plan file documents, but first must have federal Case Team member concurrence. FBA/PVAs send paper plan file documents to a federal Case Team member for processing.

**FBA/PVA/PBA**

1. Send paper plan file documents to a federal Case Team member for processing.
2. For electronic plan file documents other than correspondence, request instruction from the appropriate Case Team member on where in the plan file to place the documents.

**EBLS or FBA/PVA/PBA**

3. Submit electronic plan file documents to the DMC for imaging according to TP 16.4 Request Advanced Functions for IPS Files.
4. Submit paper plan file documents to the DMC for imaging:
   a. Prepare the document(s) according to the ▸Plan File Document Submission Guidelines Table.
   b. Determine the appropriate plan document index number for each document (see *Plan File Indexing Specification Guide)*.
   c. Print a Barcode Sheet for the plan document index number from the Plan Document Type Index Barcode Web page and place on top of the document.
   d. Complete and place an *IPS Scanning Request Form for Plan Documents* (see *IPS Scanning Request Form for Plan Documents Sample*) on top of the Barcode Sheet.

      The *IPS Scanning Request Form for Plan Documents* is a yellow sheet and is available from the DMC window. Use only one form for each batch of documents for a single plan.

**Note** For multiple documents, use one Barcode Sheet per unique plan document index number. For example, if a set of five documents all go to the same document index, use one Barcode Sheet. If each document goes to a different document index, include a Barcode Sheet with each document. Use one *IPS Scanning Request Form for Plan Documents* for each batch of documents for a single plan, regardless of the number of Barcode Sheets. Do not combine documents from multiple plans into a single submission.

   e. Do not submit unscanned working papers for temporary retention. Instead, retain the working papers, and submit the record management file to the DMC.
   f. Use the *Cross Reference Sheet* as needed to indicate:
      - A document stored in another plan file that also applies to this plan file (that is, a family of plans share the document).

- A document that contains information that applies to more than one index (for example, if a union contract legally stands in lieu of the pension plan, place the union contract behind the Barcode Sheet for Union Contract and a *Cross Reference Sheet* behind the Barcode Sheet for Pension Plan).

g. Review the package for compliance with the ▶Plan File Document Submission Guidelines Table.

h. Submit the package to the DMC window.

The DMC images documents within five business days.

5. Verify the documents are available for viewing in ▶PBGC Image Viewer.
6. If a document displays in the wrong index:
   - Request a re-indexing of the documents in IPS to correct the error. See TP 16.4 Request Advanced Functions for IPS Files.
   - If there are significant or unexplained indexing errors, consider notifying the DMC.

Top of Page

## TP 16.2 Maintain Participant File

**07/01/2016**

| | |
|---|---|
| **Purpose** | To provide a record of documents related to each participant in the plan and PBGC actions relating to that participant. |
| **Guidance** | *OBA Records Management Policy & Procedures Manual*<br>*IPS Participant File Document Types*<br>PBGC Image Viewer Help |
| **Procedure Owner** | FBA, PVA, CSD |

FBAs can image documents to participant files on site. Headquarters submit the documents for the DMC for imaging to the participant file. The *OBA Records Management Policy & Procedures Manual* provides guidelines for maintaining the participant records.

Image participant file documents promptly upon receipt. Only image information that is pension-related, for example, that supports the participant's payment status and beneficiary selections.

Image other source documents as needed to document transactions between PBGC and the participant and to support the determination of the participant's guaranteed benefit. In the rare instance in which there is an exception to a policy or procedure, image documentation of the circumstances of the exception to the participant file.

Since IPS images eALG letters and MyPBA forms automatically, do not submit them to the DMC for imaging. Confirm the customer's record exists in Spectrum before adding documents to the IPS participant file.

1. Make sure the eight-digit PBGC case number and SSN are on each page of the document to image.
   - Do not highlight the PBGC case number or SSN because highlighting creates a black mark over the information.
   - If needed, put brackets around the PBGC case number and SSN or write them on top of each page.
2. Submit electronic participant file documents to the DMC for imaging according to TP 16.4 Request Advanced Functions for IPS Files.
3. Submit paper participant file documents to the DMC for imaging:
   a. Prepare the document(s) according to the Participant File Document Submission Guidelines Table.
   b. Complete and attach an *IPS Scanning Request Form for Participant Documents* for each batch of paper documents to image.
   c. If needed, write on the *IPS Scanning Request Form for Participant Documents* a request for notification on completion of the batch or return of documents within the batch.

      **Note** A batch of participant file documents for imaging can contain documents for multiple participant files.

   d. Review the batch for compliance with the Participant File Document Submission Guidelines Table.
   e. For relationships between customer accounts that cannot link in Spectrum, complete a *Cross Reference Sheet* and submit to the DMC.
   f. Submit the batch to the DMC service window.

   The DMC images documents within five business days.
4. Verify the documents are available for viewing in PBGC Image Viewer.

Top of Page

## TP 16.3 Image Files to IPS

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process plan and participant records to IPS and index appropriately. |
| **Guidance** | *OBA Records Management Policy & Procedures Manual*<br>*IPS Participant File Document Types*<br>*IPS Users Manual*<br>*Plan File Indexing Specification Guide* |
| **Procedure Owner** | DMC |

**DMC**

1. For a request to image paper documents, review the request for compliance with the ▸Plan File Document Submission Guidelines Table or the ▸Participant File Document Submission Guidelines Table and the *OBA Records Management Policy & Procedures Manual*

   that provides guidelines for maintaining the files.
2. If there are issues with the request, contact the requestor.
3. If imaging to the ▸participant file, apply the appropriate barcode to each document using the **IPS Participant Document Type** and **High-Level Document Type** (see *IPS Participant File Document Types*).
4. If the request includes Pension Plan Documents and Plan Amendments:
   a. Inspect the document to determine its structure.
   b. Add sub-category index barcodes at the start of each section and article to make each a separate document with the same sub-index value.
   c. If a section or article begins mid-page, make a copy of the page and include one copy with each of the sections.
   d. Organize documents within the same Document Index Type Subcategory in reverse chronological order.
   e. Organize the subcategories in alphabetical order.
5. If the request includes Actuarial Case (Closeout) Reports documents:
   a. Inspect the document to match the table of contents to the sub-categories and sub-subcategories for Index Type 12.
   b. Add the correct sub-category and sub-subcategory barcodes to the start of each section to create a separate document for each.
   c. Organize documents within the same Document Type sub-subcategory in chronological order.
   d. Organize the sub-subcategories in numerical order or by year.
   e. Organize documents within the same Document Type Subcategory in chronological order.
   f. Organize the subcategories in alphabetical order.
6. Place the appropriate index barcode sheet on top of the document stack.
7. Within five business days of receiving the request:
   a. Process, scan, and image the documents.
   b. Spot-check the documents in ▸PBGC Image Viewer for:
      - Completeness
      - Legibility/image quality
      - Page order
      - Correct indexing

- Correct division into sections (if applicable)
- Correct association to ▸plan/participant

8. If the submitter requested the return of any of the paper documents, contact the submitter to return the documents.
9. Retain the paper records for 90 days after imaging.

Top of Page

## TP 16.4 Request Advanced Functions for IPS Files

**07/01/2016**

| | |
|---|---|
| **Purpose** | To request certain functions that are unavailable to most IPS users be performed on an IPS plan or participant file. |
| **Guidance** | *OBA Records Management Policy & Procedures Manual* |
| **Procedure Owner** | CMD, CSD |

Requests to have certain functions (known as Advanced Functions) performed in ▸IPS, including adding electronic documents to a file, deleting, re-indexing, merging, splitting, copying, and re-ordering pages, must be submitted to the ▸DMC. Deleting pages requires management approval.

1. Complete an *Advanced Function Request Form* to the DMC detailing the request.

   The form may be completed electronically or in hard copy. Hard copies of the form may be printed from this procedure or picked up at the DMC Service Window. Use the comments section as needed to provide specific instructions.
2. For deletions, obtain approval from management.
3. Submit the form electronically or in hard copy:
   - Electronic Requests: E-mail the *Advanced Function Request Form* to the DMC Advanced Function Request mailbox. If the request is for a deletion, include an e-mail from the appropriate manager approving the request.
   - Hard Copy: Deliver the *Advanced Function Request Form* to the DMC Service Window.
4. Upon receipt of an e-mail from the DMC indicating that the request has been completed, review the file to confirm.

## TP 16.5 Archive Electronic Files

**07/01/2016**

| | |
|---|---|
| **Purpose** | To archive electronic plan data. |
| **Guidance** | TRMD Service Catalog |
| **Procedure Owner** | Auditor, Actuary, EBLS/FBA/PBA/PVA |

The ▸Archive Access program is the means through which users gain access to archived electronic files. In the context of database construction, the term **Archive** and its variants should be interpreted as referring to this underlying repository that is accessible only via the Archive Access program. A file is not archived simply by virtue of the fact that it is stored on the `I:\` drive, `H:\`drive or any other location other than the Archive.

For a given PBGC case number, archived electronic files are stored in specifically named Archive groups. The most frequently used groups are named:

- Benefit Estimation Tool (▸BET)
- Plan Assumption Data (PAD)
- Plan Asset Evaluation (PAE)
- Participant Data Review (▸PDR)
- All Participants Final Valuation

For electronic files that do not fit into any pre-defined group, ▸TRMD can create custom group names upon request.

1. Prior to archiving, use the *Readme File Template* to create the *Readme.docx* file as described in the **Archive Other** section of the TRMD Service Catalog.

   The *Readme.docx* file must include:

   - The file name of each distinct electronic file to be archived.
   - A brief description of the contents of each file.
   - If the original file is password protected, the password for the file.

   If archiving unaltered e-data sources related to constructing the participant database, the information in the *Readme.docx* file must be consistent with the **Sources List** section of the *Data Elements and Sources List*. The Sources List section must include:

   - The file name of each distinct electronic file to be archived.
   - A description of the contents of each file.
   - A description of when and from whom the file was obtained.
   - If the file is or will be stored inside of a zip file, include the name of the zip file.
   - If the original file is password protected, include the password for the file.

   **Example:** Suppose three large spreadsheets were obtained from the plan administrator together with two PDF files with information about how to use the data in the spreadsheets. Suppose further that two database extracts were obtained from the payroll department together with two PDF files describing the content of the extracts. See the **Sources List** section of the *Sample Data Elements and Sources List* for an example of how these source files should be documented, and see the *Readme File Template* for examples of what the *Readme.docx* file should contain.

   If archiving unaltered e-data sources for activities other than participant database construction (for example, Spectrum First Pay or Customer data loads), this same template may be used.

   If archiving files other than unaltered e-data sources (for example, for the final participant data review or final valuation), the Sources List section of the Data Elements and Sources List is not applicable. For these situations, document the files to be archived in a *Readme.docx* file as described in the **Archive Other** section of the TRMD Service Catalog.

2. Copy the files to be archived, including the Sources List (or *Readme.docx* file), to the appropriate subfolder of

`I:\software\[eight-digit PBGC case number]` (for example, the participant data review or Valuation sub-folder).

3. Request that the files be archived in accordance with the instructions in the **Archive Other** section of the TRMD Service Catalog.
4. After the files have been archived, use the Archive Access program to confirm that each file is accessible and that the accompanying Sources List (or *Readme.docx* file) is present and complete.
5. Inform other members of the case team of the specific location of the files on the Archive and that all unnecessary copies of the files should be deleted.

   **Example:** "The files are on the Archive under case number 123456 in the **Participant Data Review (PDR) - Sources** group within a zip file `123456S1.zip` and are accessible via the Archive Access program. The file named `123456SS.doc` includes a description of each of the other files."
6. Delete all unnecessary copies of the electronic files that are present on the `H:\drive`, `I:\drive`, portal or elsewhere.
7. If additional e-data sources are obtained later, work with TRMD to replace the Archived Sources List and update the appropriate Archive group to include these additional files.

Top of Page

## TP 16.6 Process Participant Correspondence

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process and image participant correspondence. |
| **Guidance** | *IPS Users Manual* |
| **Procedure Owner** | DMC, FBA, PVA |

The ▸DMC is responsible for imaging ▸participant correspondence sent to PBGC each day. In addition, ▸FBA/▸PVAs sometimes receive and must process participant correspondence.

**DMC**

1. Each business day at 7:00 A.M., pick up mail from the post office at the PBGC site in Kingstowne, Virginia.
2. Process all mail the same business day.

**DMC, FBA, PVA**

3. Scan and image participant mail and faxes to the participant file to ▸IPS.
4. Check in ▸PBGC Image Viewer to ensure that the mail items are in the participant's records.

## TP 16.7 Process Request to Return Proof Documents

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process a request to return proof documents to the participant. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/FBA/PVA/PBA, DMC |

**EBLS/FBA/PVA/PBA**

1. Receive request from the participant to return the proof documents.
2. Verify each proof document in ▸PBGC Image Viewer has a return date already:
   - Return Date: No further action required for this procedure.
   - No Return Date: Send request to DMC to return the proof documents.

**DMC**

3. Send the proof documents to the participant.

## TP 16.8 Resources for Plan and Participant File Maintenance

**09/30/2016**

**Forms, Letters, and Memos:**

- *Advanced Function Request Form*
- *Cross Reference Sheet*
- *IPS Scanning Request Form for Participant Documents*
- *IPS Scanning Request Form for Plan Documents: Yellow sheet available at the DMC Window*
- *Readme File Template*
- *Sample Data Elements and Sources List*

**Customer Correspondence and Forms:**

- *Form 700 Participant Application for Pension Benefits*
- *Form 701 Payee Information Form (PIF)*
- *Form 702 General Information Form (GIF)*
- *Form 718 Installment Repayment Agreement*
- *Form 722 Financial Information of Debtor*

**Guidance:**

- *OBA Records Management Policy & Procedures Manual*
- *IPS Participant File Document Types*
- *IPS Scanning Request Form for Plan Documents Sample*

# TP 17 Policy and Processing Questions

**In this Section**

TP 17. Overview for Policy and Processing Questions
TP 17.1 Refer Policy and Processing Questions
TP 17.2 Resources for Policy and Processing Questions

## TP 17. Overview for Policy and Processing Questions

**07/01/2016**

OBA maintains online manuals that provide guidance on plan and participant processing. But occasionally staff may have questions concerning the interpretation of a procedure or policy, or whether any guidance exists on a certain issue.

As the following procedures provide, staff are required to first review the OBA Operations Manual and PBGC Operating Policy Manual for direction and, if an answer is not found, then to consult a management team member (or other staff, as appropriate). If there is still a question on how to proceed, the question may then be referred to PPD (ASK PPD). (Note that guidance sometimes directs staff to consult PPD on a particular matter – for example, a working retirement or QDRO issue – which may be referred to PPD without first consulting management staff.)

## TP 17.1 Refer Policy and Processing Questions

**07/01/2016**

| | |
|---|---|
| **Purpose** | To refer questions concerning policy and processing that are not addressed in OBA manuals or require clarification. |
| **Guidance** | *PBGC Operating Policy Manual*<br>*OBA Operations Manual* |
| **Procedure Owner** | OBA Staff |

1. Depending on the policy or processing question, review as appropriate the OBA Operations Manual or PBGC Operating Policy Manual, or both. Utilize the search tools available in each manual. Also keep in mind that policies and procedures are updated periodically, and the most updated versions are available online. Printouts (hard copies) may become obsolete.
2. Certain policies and procedures specify that ▸PPD be consulted on an issue – for example, procedures concerning ▸QDROs or working retirement determinations. These may be referred directly to PPD via ASK PPD.
3. If the research is unsuccessful or there is uncertainty as to the application of certain guidance, consult a management team member (Supervisor or Division Manager) or an Actuarial Technical Reviewer, as appropriate. ▸FBA and ▸PVA staff should consult a supervisor, appropriate ▸CSD ▸EBLS assigned to the plan or the ▸COR. Advise of the research that has already been conducted and the results.
4. If the question is still unresolved, send a complete but succinct email inquiry to PPD via ASK PPD using the following guidelines:
    a. Be certain the inquiry relates to policy or processing guidance.
    b. The inquiry should be from or copied to anyone consulted.
    c. In the subject line use descriptive key words (for example: QDRO, Beneficiary Determination, Working Retirement) and/or the relevant policy or procedure numbers and titles. This assists PPD with routing and tracking inquiries. Due to privacy concerns, **do not** include the participant's SSN in the subject line.
    d. If the question concerns whether a fact pattern meets the requirement of a certain category of a policy or procedure, cite the specific policies and procedures that have been reviewed.
    e. Summarize all relevant facts and pose the question or issue clearly. Do not simply forward a series of emails requesting they be reviewed. For assistance with specific participant and/or plan situations, be sure to include adequate identifying information in the email (case name and number and/or participant's name and SSN). Due to privacy concerns, do not include the participant's SSN in the Subject line.
    f. Send a separate email for each question, unless there are multiple instances of the same situation.
5. A PPD staff person will acknowledge your inquiry typically within two business days and identify him- or herself as the point-of-contact for the inquiry through resolution.
6. Upon resolution, ensure the inquiry through response emails are imaged to the participant or plan file, as applicable.

# TP 18 Prepare Files for Shipment

**In this Section**

TP 18. Overview for Prepare Files for Shipment
TP 18.1 Ship to FRC from DMC
TP 18.2 Resources for Prepare Files for Shipment

## TP 18. Overview for Prepare Files for Shipment

**07/01/2016**

Records in paper format are sent to the National Archives' Federal Records Center (FRC) for long term storage when the records are no longer needed on site, and the records will not be required for an extended period of time. In the Washington, DC area, these records are sent to the Washington National Records Center (WNRC). ▸OBA staff contacts the OBA Records Coordinator to ship files to the WNRC.

▸DMD's Document Management Center (▸DMC) periodically ships records to the WNRC when PBGC determines that it has no further need to maintain the paper record on site, and the record is either deemed archival or there is a records retention schedule requiring long-term storage. The OBA Records Coordinator is the point of contact for all OBA staff in requesting submittal, identification, and retrieval of records from the WNRC.

## TP 18.1 Ship to FRC from DMC

**07/01/2016**

| | |
|---|---|
| **Purpose** | Ship records to the Federal Records Center (FRC) for safekeeping. |
| **Guidance** | *OBA Records Management Policy & Procedures Manual* |
| **Procedure Owner** | OBA Records Coordinator, DMC |

The ▸DMC receives records from the ▸OBA divisions for shipment to the FRC. Records going to the FRC only include those for which PBGC has no immediate foreseeable use, but are required to be maintained in accordance with an approved PBGC records retention schedule.

**OBA Records Coordinator**

1. Once the records have been boxed and inventoried in accordance with FRC requirements, contact PBGC's Agency Records Officer to obtain an FRC accession number.
2. Inform PBGC Agency Records Officer records are ready to send to the FRC.

**DMC**

3. Complete an *NARA Form SF-135 Records Transmittal and Receipt* and submit to PBGC's Agency Records Officer.

**OBA Records Coordinator**

4. Once the PBGC Agency Records Officer provides an FRC accession number, notify the DMC.

**DMC**

5. Write the FRC accession number on the boxes of records.

**OBA Records Coordinator**

6. Receive a copy of the approved *NARA Form SF-135 Records Transmittal and Receipt* from the PBGC Agency Records Officer.
7. Submit the copy of the approved *NARA Form SF-135 Records Transmittal and Receipt* to the DMC.
8. Contact ▸WSD to schedule a pickup to transfer the boxes of records to the PBGC Agency Records Officer's holding area for pickup and delivery to the FRC.

# TP 19 Woodwork Customers

**In this Section**

TP 19. Overview for Woodwork Customers
TP 19.1 Research Eligibility of Woodwork Customer
TP 19.2 Resources for Woodwork Customers

## TP 19. Overview for Woodwork Customers

**07/01/2016**

Individuals who were not included in a plan's valuation may contact PBGC to inquire whether they are entitled to benefits from the plan. These are known as "Woodwork" customers. (Individuals who contact PBGC before the valuation are addressed during the participant database-building process and are not considered Woodwork customers.) The following procedures address processing inquiries from Woodwork customers from the initial contact through the issuance of a BDL, if appropriate.

Because these inquiries usually concern plans that have been closed and transferred to post-valuation administration, most are handled by the PVA office. Inquiries concerning valued plans that are not yet transferred to the PVA are addressed by the CSD. While the PVA office or CSD will research available information in IPS, the onus is on the individual to provide evidence that he or she is entitled to a benefit from the plan.

Most Woodwork customers are determined to have been excluded from the valuation for valid reasons and not due any benefits from PBGC. If sufficient information to make a determination is available from the customer and/or plan records, the individual will typically receive a non-member BDL. On the rare occasions in which the individual should have been included in the plan valuation, the valuation and account master records are adjusted to reflect the addition of the participant.

### Documenting Plan and Participant Files

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

## TP 19.1 Research Eligibility of Woodwork Customer

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine the eligibility of a customer who was not included a plan's valuation and has contacted PBGC about possible entitlement to pension benefits. |
| **Guidance** | None |
| **Procedure Owner** | EBLS/FBA/PVA/PBA, Actuary |

1. Proceed based on how the inquiry is received:

   **Phone:**

   Use the *Woodwork Customer Telephone Questionnaire* to ask the caller for information that will help determine whether he or she is a ▸participant or ▸beneficiary in the ▸plan. Review ▸CRM and ▸IPS for records of previous contacts.

   **Letter or e-mail:**

   - Create a ▸Spectrum record and code the customer as a Woodwork Candidate whose Eligibility Status is Undetermined. (A Spectrum record must be established before the customer's correspondence can be imaged.)
   - Image the inquiry document to the customer's IPS file.
   - Contact the customer by phone and complete the questionnaire. If phone contact cannot be established, proceed to step 5 to request additional information.

2. Respond to the caller based on the information provided over the phone:
   - If the customer is unable to provide basic information—for example, years of service, or whether pay was hourly or salaried—inform the customer that PBGC needs this information to research eligibility. Ask the customer to obtain the information and call back so that PBGC will be better able to assist. Document the call in CRM. No further action is required until the customer again contacts PBGC.
   - If it is clear that the customer does not meet the requirements to be vested or otherwise included as a plan member, inform the customer and document the call in CRM. No further action is necessary; however, continue to the next step if the customer requests further review or a written determination.
   - If the customer's potential eligibility cannot be determined and additional research is needed, continue to the next step.
3. Create a Spectrum record (if not already created) and code the customer as follows:
   - Customer Type: Woodwork Candidate
   - Eligibility Status: Undetermined
4. Research the plan records and proceed according to whether a determination can be made or if additional information is needed.
   - If a determination can be made that the customer was not a plan member at ▸DOPT, issue an *eALG 405NM Non-Member BDL*.
   - If additional information is still needed, proceed to the next step.

   > **Note** If there is evidence that the customer was a plan member at DOPT but it cannot be determined from available records why he or she was excluded from the plan, ask the ▸actuary (if the case is not yet in post-valuation administration) to check records that may not be viewable by all staff.

5. Send the customer an *eALG Generic letter* with *Form 709 Plan Participation Information*. Customize the letter as needed to request the customer to provide specific information or documentation, such as:
   - Proof of union membership
   - Pension ▸benefit statement from the prior ▸plan administrator
   - ▸SSA Potential Private Retirement Benefit Information notice
   - Tax returns for the year the participant's employment terminated and the following three years
   - Forms 1099-R for the year the plan terminated and the following three years

Request that the participant respond within 30 days of the letter date. No further action is required until the customer responds.

> **Note** Customers may be able to obtain copies (preferred) or transcripts of tax returns and Forms 1099-R for prior years from the Internal Revenue Service.

6. Proceed according to the information provided in the customer's response:
   - **Information provided indicates a ▸benefit may be due:** Proceed to next step.
   - **Information provided indicates that the customer was not a plan member at DOPT:** Issue a customized *eALG 405NM Non-Member BDL*.
   - **Additional information is needed:** Issue an *eALG 530 Request for Additional Documentation/Information* requesting the additional information within 30 days of the letter date and resume processing based on the response. No further action is required until the customer responds.
7. If it still cannot be determined whether the customer is entitled to benefits, request employment and earnings data from the SSA according to TP 26 Request SSA Data.
   - Process received forms according to TP 26 Request SSA Data.
   - No further action is required until the customer responds.
8. Once all the required information is received, proceed according to whether the customer appears to be a plan member:
   - **Potentially a plan member:** Send an ▸ASR to request a determination of whether the customer is due a benefit and benefit calculation (if applicable) from the actuary. Provide any background information that may assist ▸ASD in making a determination. (If the plan is not yet in post-valuation administration, refer the case to the actuary.)
   - **Not a plan member:** Issue a customized *eALG 405NM Non-Member BDL* if the customer was not a plan member at DOPT.
9. Proceed according to the actuary's determination:

   **Customer is a plan member:**

   - Update the ▸present value (PV) in Spectrum.
   - Change to the correct type and status in Spectrum.
   - Send the appropriate ▸BDL (eALG 400 series).

   **Customer is not a plan member:**

   - Issue *eALG 405NM Non-Member BDL*.

   **Actuary requests additional information or documentation:**

   - Request that the customer provide the required information or documentation within 30 days.

     If the request is by phone, document the call to CRM. No follow up is required if the customer does not provide the information.
   - Upon receipt, provide the information or documentation to the actuary.
   - Proceed according to the actuary's instructions.

# TP 20 Benefit Payments

**In this Section**

TP 20. Overview for Benefit Payments
TP 20.1 Determine Eligibility and Issue Application
TP 20.2 Solicit Benefit Application
TP 20.3 Process Applications for Annuity Benefits
TP 20.4 Process Lump-Sum Applications
TP 20.5 Special Considerations
TP 20.6 Resources for Benefit Payments

## TP 20. Overview for Benefit Payments

**08/28/2015**

PBGC is responsible for paying a ▸pension benefit in a timely and accurate manner. PBGC begins paying benefits to pre-▸DOPT retirees at plan assumption, and begins to pay other qualified individuals as they become eligible for payment. PBGC pays pension benefits in either a ▸lump sum or an ▸annuity.

- Generally, if the lump-sum value (that is, the present value) of the benefit is more than $5,000 as of DOPT, the benefit (a "non-*de minimis* benefit") is payable only as an annuity; however, certain exceptions to this rule apply.
- If the lump-sum value of a benefit is $5,000 or less as of DOPT and benefits are not already in pay status, the benefit (a "de minimis benefit") is payable in a lump sum.

PBGC becomes aware that an individual is entitled to and potentially eligible for payments in a number of ways, including:

- a potential payee may contact PBGC requesting benefits.
- an application is received through ▸MyPBA.
- a report of death is received for a participant or other individual in the plan and PBGC finds that survivor benefits are due.
- PBGC finds that a benefit is immediately payable during a review of plan data or upon completion of the plan valuation.

An application for benefits and certain proof documents are required before a benefit is payable. When PBGC finds that an individual is eligible to receive benefit payments but has not applied for the benefit, PBGC may solicit an application, or may otherwise take action to pay the benefit without an application, if appropriate.

The rules that apply to an application for benefits depend on a number of variables, including whether:

- The benefit is payable as an annuity or in a lump sum.
- The benefit was previously in pay status (for example, continuing annuity payments are due after the death of a payee).
- A plan application for annuity benefits was filed with the ▸plan administrator before DOPT or ▸DOTR, but was not paid by the plan administrator.

These procedures address soliciting applications and making payments to participants, beneficiaries and alternate payees when they become eligible to receive a payment from a plan administered by PBGC. These procedures do not address making payments under the Missing Participant Program; see TP 47 Process Missing Participants for procedures on making these payments. For specific instructions on paying benefits to participants in cash balance plans, see TP 52 Cash Balance and Other Statutory Hybrid Plans.

# TP 20.1 Determine Eligibility and Issue Application

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine the eligibility of an applicant or potential payee for benefits. |
| **Guidance** | Policy 5.2-4 Annuity Starting Dates<br>Policy 5.2-5 Required Beginning Dates<br>Policy 5.4-7 Annuity Benefit Forms<br>Policy 5.4-9 Lump Sum Benefit Payments<br>Policy 5.11-1 Calculation and Payment of Priority Category 2 Benefits in PBGC Trusteed Plans<br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments |
| **Procedure Owner** | EBLS/PBA/FBA/PVA |

A participant, beneficiary, or alternate payee potentially entitled to a pension benefit may contact PBGC with the intent to apply for benefits. The EBLS/PBA/FBA/PVA begins by determining whether the individual is eligible for payments and the type of benefit owed, and then takes action depending on whether the benefit is payable as a lump sum or an annuity.

- **Lump sums** are generally payable as follows:
  - An estimated *de minimis* benefit is payable in a lump sum if the individual reaches the earliest PBGC retirement date (EPRD) and applies for benefits, even if the participant continues to work for the DOPT employer. If a participant who has not reached EPRD but is otherwise eligible for an estimated lump sum requests immediate payment claiming a hardship situation, contact ASK PPD for guidance.
  - A final *de minimis* benefit is payable in a lump sum after the BDL has been issued regardless of whether the employee has reached EPRD, even if the participant continues to work for the DOPT employer.
  - The individual originally entitled to the benefit may choose to receive an annuity instead of the lump sum. However, a beneficiary due a lump-sum payment owed a deceased payee may not elect to receive an annuity instead of the lump sum.
  - Until an application for an annuity is received, treat the benefit as payable as a lump sum.
- **Annuity benefits** become payable on or after a participant's, beneficiary's or alternate payee's EPRD.
  - Benefits may be paid as soon as a complete and valid application is received.
  - Individuals seeking early retirement benefits may be subject to working retirement restrictions (see TP 53 Working Retirement Determinations).

**In this Section**

TP 20.1A Determine Eligibility for Benefit Payments
TP 20.1B Act on Individual Eligible for Lump Sum
TP 20.1C Act on Individual Eligible for Annuity

Top of Page

**TP 20.1A Determine Eligibility for Benefit Payments**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

1. Determine whether the individual is entitled to a benefit. As needed:
   - Review relevant plan and participant records.
   - Review the plan's valuation.
   - If the participant database or valuation is not final, request assistance from the auditor or actuary assigned to the plan.
2. If the individual is not entitled to benefits, notify the individual using the appropriate eALG letter (see eALG Correspondence Help).
3. If the individual is entitled to a benefit, determine whether the benefit is *de minimis* (the lump-sum value of the benefit as of ▸DOPT is $5,000 or less) or non-*de minimis* (the lump-sum value of the benefit as of DOPT is more than $5,000), and whether it is subject to an exception to the *de minimis* rules.
   - If the benefit is *de minimis*, the individual is typically eligible for a ▸lump-sum payment. Unless an exception applies, proceed to TP 20.1B Act on Individual Eligible for Lump Sum.

     **Note** If all payments from PBGC to an individual payee in the same tax year total less than $200, PBGC does not withhold federal income tax.

   - If the benefit is non-*de minimis*, the individual is typically due an ▸annuity. Unless an exception applies, proceed to TP 20.1C Act on Individual Eligible for Annuity.
   - Exceptions to *de minimis* payment rules:
     - **Cash Balance Plans:** See TP 52 Cash Balance and Other Statutory Hybrid Plans.
     - **Employee Contributions:** See Policy 5.11-1 Calculation and Payment of Priority Category 2 Benefits in PBGC Trusteed Plans.
     - **Missing Participants Program:** See TP 47 Process Missing Participants.
     - **Payments to Estates:** See TP 5 Death Processing.
     - **Qualified Pre-Retirement Survivor Annuities (QPSA):** See TP 5 Death Processing.
     - **Residual Benefits:** See Policy 5.4-9 Lump Sum Benefit Payments.
     - **Retroactive Annuity Payments Exceed De Minimis Lump-Sum Payment:** See Policy 5.4-9 Lump Sum Benefit Payments.

**TP 20.1B Act on Individual Eligible for Lump Sum**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

1. Review ▸plan and ▸participant records and ▸Spectrum ledgers to ensure that the participant is not already in pay status, and has not received a ▸lump sum. If the benefit is estimated, confirm that the payee has reached the earliest PBGC retirement date (▸EPRD).
2. Select the appropriate application form for the type of ▸payee (see Appendix J Participant Forms Summary).
   - **Participant, Beneficiary, or Alternate Payee:** *Form 720 Application for Lump-Sum Payment*
   - **Child or Other Dependent:** *Form 720CD Application for Lump-Sum Payment [Child or Other Dependent]*
   - **Non-Spouse Beneficiary or Estate:** *Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate*

   > **Note** If the total lump-sum payment, including interest, is less than $200, the payment may be made without an application if PBGC has reliable and sufficient information for the customer. See TP 20.4 Process Lump-Sum Applications.
3. Send the application to the individual using the appropriate ▸eALG letter (see eALG Correspondence Help).
4. Follow up if the individual has already reached ▸RBD, or will reach RBD within 90 days of the date the application is mailed.
5. If the application is received, proceed to TP 20.4 Process Lump-Sum Applications.

**TP 20.1C Act on Individual Eligible for Annuity**

**12/22/2016**

**EBLS/PBA/FBA/PVA**

1. Determine the type of ▸annuity payable:
   - Retirement
   - Disability (see TP 33 Disability Benefit Processing)
   - Continuing annuity ▸benefit (for example, surviving spouse benefits under a ▸QJSA or the remainder of the certain period under a ▸C&C benefit)
   - ▸QPSA
2. Determine whether the individual has reached his or her earliest PBGC retirement date (▸EPRD) or will reach EPRD within 180 days. As needed:
   - Review relevant ▸plan and ▸participant records.
   - Review the plan's valuation.
   - If the participant database or valuation is not final, request assistance from the auditor or actuary assigned to the plan.
3. Proceed according to when the individual reaches EPRD.

   **Note** If the individual has not reached EPRD and will not reach EPRD within 180 days, customize an eALG 305-series letter to inform the individual that benefits are not yet payable and provide the date that benefits will first be payable.

   If the individual has reached EPRD or will reach EPRD within 180 days, proceed to step 4.

   **Note** Estimated annuity payments are payable to an otherwise eligible payee as soon as a complete, valid application has been received.

   **Note** A participant who is eligible for either early unreduced retirement benefits or a benefit that is level due to application of Title IV limitations may elect an ASD retroactive to the earliest allowable retirement date at any time regardless of previous notifications of eligibility for the benefits (see Policy 5.2-4 Annuity Starting Dates). The retroactive ASD is subject to working retirement rules (see TP 53 Working Retirement Determinations).
4. If necessary, contact the individual and confirm the desired annuity starting date, date of birth, marital status, work status with the ▸DOPT employer (if a participant), and any other factors needed to confirm that benefits are payable and to calculate the annuity benefit.

   If the participant indicates that he or she is working for the DOPT employer, see TP 53 Working Retirement Determinations.
5. Determine the benefit forms payable to the individual (see the *PBGC Benefit Form Elections Job Aid* for more information).
   - **Unmarried Participant:** May elect the plan's automatic benefit form for unmarried participants or any of the PBGC optional forms.
   - **Married Participant:** May elect the plan's automatic benefit form for married participants (typically a QJSA) or, with spousal consent, the plan's automatic benefit form for unmarried participants or any of the PBGC optional forms.
   - **Alternate Payee:** Proceed according to the type of ▸QDRO:
     - **Shared Payment QDRO:** Receives payments in accordance with the QDRO. A QDRO can award annuity payments to the ▸alternate payee for up to the life of the participant, or a portion of the participant's de minimis ▸lump sum or employee contributions. The payments that a shared payment QDRO awards to an alternate payee are not payable as a benefit form.
     - **Separate Interest QDRO:** Receives a pension payable in a benefit form based on the alternate payee's lifetime. Generally, the alternate payee may choose only the plan's normal benefit form for an unmarried participant or a PBGC optional single-life form. However, the alternate payee cannot elect a benefit form that the QDRO prohibits, and if the QDRO mandates that the alternate payee elect a specific single-life benefit

form, the alternate payee must elect that benefit form (unless doing so violates ▸ERISA).

- **QPSA Beneficiary:** May elect the plan's QPSA benefit or any of the PBGC optional single-life forms.
- **QJSA Beneficiary:** May only receive the survivor benefit provided by the plan.
- **Other Beneficiary:** Proceed according to the date of death.
  - **Pre-Retirement Death:** May elect the annuity form provided by the plan or any of the PBGC optional single-life forms.

    If the plan provides a pre-retirement death benefit payable only in a lump sum, but PBGC determines a lump sum is not payable, the lump sum converts to a single-life annuity (typically, the plan's automatic form for an unmarried participant). The ▸beneficiary may elect the converted form or any of the PBGC optional single-life forms.

    > **Note** If the beneficiary is an estate, a lump sum is payable, as a life annuity is typically not payable to an estate.

  - **Post-Retirement Death:** May only receive the survivor benefit provided by the plan.

    > **Note** An estate may elect to receive the survivor benefit in a lump sum. An estate generally cannot be the beneficiary of a joint-life form, but may be the beneficiary of a single-life form such as a C&C.

6. Use the ▸BET or ▸BSRS to calculate the benefit.
   - Determine whether the individual is eligible for a retroactive annuity starting date (see Policy 5.2-4 Annuity Starting Dates).
     - If the participant is eligible for a retroactive annuity starting date, calculate the benefit as of the requested annuity starting date.

       > **Note** If the individual is not eligible for a retroactive annuity starting date, calculate the benefit as of the later of the requested annuity starting date or the first day of the month following the month of contact.

     - If neither the BET nor the BSRS is available, request assistance from the actuary.
7. Prepare a ▸PACS calculation showing the available benefit forms and amounts based on the information obtained in the previous steps.
8. Select the appropriate application form for the type of payee (see Appendix J Participant Forms Summary).
   - *Form 700 Participant Application for Pension Benefits*
   - *Form 705 Beneficiary Application for Pension Benefits*
   - *Form 706 Beneficiary Application for Pension Benefits – Optional Forms*
9. Send the application package using the appropriate 200-series eALG letter (see eALG Correspondence Help).
10. If the completed application (including proof documents) is:
    - Received within 180 days of being sent, proceed to TP 20.3 Process Application for Annuity Benefits.
    - Received more than 180 days after being sent, notify the applicant that a new application is required.

Top of Page

# TP 20.2 Solicit Benefit Application

**07/01/2016**

| | |
|---|---|
| **Purpose** | To solicit an application from a potential payee who has not already requested benefits as of normal retirement date or required beginning date. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/PBA/FBA/PVA |

If a potential payee has not already requested pension benefits, PBGC takes action to solicit an application shortly before each of normal retirement date (NRD) and required beginning date (RBD). The steps to solicit the application vary depending on which of the dates is approaching.

**In this Section**

TP 20.2A Solicit Applications for Participants near Normal or Early Unreduced Retirement Date
TP 20.2B Solicit Application for Participants Near Required Beginning Date

## TP 20.2A Solicit Applications for Participants near Normal or Early Unreduced Retirement Date

**07/01/2016**

If resources allow, as determined by management, use this procedure to solicit applications from ▸participants approaching their ▸normal retirement date or early unreduced retirement date.

### EBLS/PBA/FBA/PVA

1. During the months of January and July, run an eReport or otherwise identify individuals who will reach normal retirement date (NRD) or become eligible for early unreduced ▸benefits within 180 days.

   Allow sufficient time to review the participant lists in order to issue advice letters (in step 3) during the same month.

2. Review ▸CRM, ▸Spectrum ledgers, and the individual's file to determine if the individual has requested benefits or benefits are already in pay status or have been paid in a ▸lump sum.
   - If benefits are in pay status or have already been paid, no further action is needed.
   - If the individual has already requested benefits, continue to follow the applicable procedures described in TP 20 Benefit Payments.

3. If the individual is due benefits, customize and send the appropriate ▸eALG letter according to which retirement date is approaching:
   - **Normal Retirement Date:** *eALG 500NRD Retirement Eligibility - Normal*
   - **Earliest Unreduced Retirement Date:** *eALG 500EU Retirement Eligibility - Early Unreduced*

   If the letter is returned for a bad address, follow TP 4 Participant Addresses and EDD Elections and re-issue the letter to the new address.

**TP 20.2B Solicit Application for Participants Near Required Beginning Date**

**07/01/2016**

The ▸IRS requires ▸plans to begin distributing ▸benefits to ▸participants no later than their Required Beginning Date ( ▸RBD). Under Policy 5.2-5 Required Beginning Dates, a payee's RBD is the latest permissible ▸annuity starting date. If a ▸payee applies for benefits after his or her RBD, PBGC will pay the benefits retroactive to the RBD. See Policy 5.2-4 Annuity Starting Dates for more information.

In general, the RBD is determined as follows:

- For participants, the RBD is April 1 of the calendar year following the calendar year in which the participant reaches 70½.
- For ▸QPSA beneficiaries, the RBD is December 1 of the calendar year following the later of (1) the year in which the participant died and (2) the year in which the participant would have reached age 70½.

See Policy 5.2-5 Required Beginning Dates for more information.

**EBLS/PBA/FBA/PVA**

1. In October each year, run an annual eReport or otherwise identify individuals who will reach required beginning date (RBD) within 180 days and those who have already reached their RBD.

   Allow sufficient time to review the participant list and to issue advice letters (in step 3) during the same month.
2. Review ▸CRM, ▸Spectrum ledgers, and the individual's file to determine if the individual has requested benefits or benefits are already in pay status or have already been paid in a ▸lump sum.
   - If benefits are in pay status or have already been paid, no further action is needed.
   - If the individual has already requested benefits, continue to follow the applicable procedures in TP 20 Benefit Payments.
3. If the individual is due benefits, send the *eALG 500RBD Retirement Eligibility - Required Beginning Date*, notifying the individual that PBGC must begin paying benefits as of the RBD and requesting that he or she contact PBGC to apply for benefits.
4. Follow up as appropriate.
   - If the letter is returned, run Locator (see TP 4 Participant Addresses and EDD Elections) and contact the customer if possible.
   - If there is no response within 30 days of the letter date, follow up with the individual.
     - Inform the individual that PBGC generally must begin paying benefits as of the RBD.
     - Advise the individual that there may be tax consequences of not beginning to receive benefits by the RBD. Do not give any tax advice. If the individual has any tax questions, refer him or her to the IRS.
     - Document the call or call attempt in ▸CRM.

# TP 20.3 Process Applications for Annuity Benefits

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review applications for annuity benefits, and make payment as appropriate. |
| **Guidance** | Benefit Payment Schedule<br>*Customer Role and Eligibility Status* in the *Spectrum User Manual*<br>Policy 5.2-4 Annuity Starting Dates<br>Policy 5.4-7 Annuity Benefit Forms<br>Policy 5.7-2 Payment of Qualified Pre-Retirement Survivor Annuities in Plans Terminating on and after August 23, 1984<br>Policy 5.7-3 Survivor Annuities – Pre-REA Terminations<br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br>Policy 8.5-1 Signature by Mark |
| **Procedure Owner** | EBLS/PBA/FBA/PVA |

▸Participants and other ▸payees may use any of several forms to apply for ▸pension benefits:

- *Form 700: Participant Application for Pension Benefits*: Used by participants to apply for pension benefits.
- *Form 705: Beneficiary Application for Pension Benefits*: Used by surviving spouses and other beneficiaries to apply for survivor benefits (that is, continuing ▸annuity payments) when a participant dies after retirement, and alternate payees pursuant to a shared payment ▸QDRO. Refer to TP 13 Domestic Relations Orders and State Agency Orders when an alternate payee submits a completed application for benefits.
- *Form 706: Beneficiary Application for Pension Benefits – OF*: Used by surviving spouses to apply for a qualified pre-retirement survivor annuity or similar benefit, and by alternate payees pursuant to a separate interest QDRO.
- Plan Applications: May be used by applicants who filed with the ▸plan administrator before the date of trusteeship, but the administrator did not put benefits into pay prior to PBGC's assumption of the plan. Plan applications generally provide the same information as that found on PBGC applications and must provide a benefit form election and spousal consent, when required. See TP 20.5 Special Considerations for more information.

To preserve a requested annuity starting date, the application filing date must be within 180 days of the date the application was mailed out by PBGC. The application filing date is based on when the completed application (including proof documents) was received:

- Applications received on a business day are treated as filed that day.
- Applications received on a weekend or federal holiday are treated as filed on the following business day.

**In this Section**

TP 20.3A Review Annuity Benefit Application
TP 20.3B Request Missing Information for Annuity Benefit Application
TP 20.3C Issue Annuity Payment

Top of Page

**TP 20.3A Review Annuity Benefit Application**

**09/30/2016**

**EBLS/PBA/FBA/PVA**

1. Upon notification that an application has been received, verify that a *531CRM* letter was issued acknowledging receipt and proceed accordingly:
   - *531CRM* issued: Proceed to step 2.
   - *531CRM* not issued: Issue an *eALG 531APP Receipt of Documents – Benefit Application* within **five business days** to inform the applicant that PBGC will review the application and request additional information if necessary.

   > **Note** If the application can be reviewed for completeness and a response issued within five business days, then instead of the *531APP* issue either an *eALG 531 Receipt of Complete Documentation/Information* or *eALG 530APP Request for Additional Documentation/Information – Benefit Application,* as appropriate, according to the following steps.

2. Record actions taken on the benefit application but do not close the ▸CRM service request.

   The CRM service request is not closed until the first payment is approved or the application becomes stale-dated.

3. Review the application, proof documents, applicant's file in ▸PBGC Image Viewer, and plan and participant information to determine:
   - The correct application has been received.
   - All parts of the application have been correctly completed.
   - Required information and proof documents were provided with the application or located in the participant's ▸IPS file.
   - Special conditions, circumstances, correspondence with Ask PPD, and benefit forms from the plan documents are documented in a memo or other format to file, as applicable.
   - The applicant received a timely benefit estimate.
   - If the participant elects an optional benefit form requiring spousal consent, the benefit estimate or statement reflects the benefit forms and amounts payable on the actual retirement date to ensure that the spouse made an informed decision.

4. If provided on the form, record or update the customer's e-mail address in CRM.
5. If any required documents:
   - Need translation from a foreign language: Submit for translation (see TP 44 Foreign Language Services).
   - Are illegible: Request clear copies from the applicant.
6. If the participant is not eligible for ▸benefits, or not yet eligible, customize and issue an *eALG Generic Letter* to notify the customer.
7. If the application was received via ▸MyPBA, and the applicant did not receive a benefit estimate, see TP 48.1 Process MyPBA Correspondence.
8. Determine the requirements for the application according to the appropriate table:
   - Form 700 Participant Application for Pension Benefits Review Table
   - Form 705 Beneficiary Application for Pension Benefits Review Table
   - Form 706 Beneficiary Application for Pension Benefits – OF Review Table
   - Unpaid Plan Application for Annuity Payments Review Table

   If any required information is missing and is not available in the participant's IPS file, see TP 20.3B Request Missing Information for Annuity Benefit Application.
9. If ▸EDD information, tax withholding information, or beneficiary designation for payments owed to a deceased payee are missing, but the application is otherwise complete:
   - Customize an *eALG 531 Receipt of Completed Information/Documentation* to advise the applicant about the missing information and how to request the appropriate forms.
   - Do not delay payment for this information.

10. Proceed to TP 20.3C Issue Annuity Payment to complete processing.

> **Note** OBA's goal is to process completed benefit applications as early as possible to provide optimal customer service and exceed expectations. However, OBA has up to **90 days** from receipt of the complete application or the date the application is made complete to make the first payment. If the first payment will not be made within that timeframe, contact the customer as soon as this is evident to notify of the date the first payment will be made and document the contact in CRM.

**Form 700 Participant Application for Pension Benefits Review Table**

**09/30/2016**

*Form 700 Participant Application for Pension Benefits is used by ▸ participants to apply for ▸ pension benefits. Changes to the ▸ annuity starting date, benefit form election, or spousal consent may require a new application (see TP 20.5B Applications).*

**Form 700 Participant Application for Pension Benefits Review Table**

| Information | Requirements | Notes |
|---|---|---|
| **General Information (Name, SSN, date of birth, gender, address, telephone number)** | *Determine if identifying information matches the information about the applicant in the ▸ plan and PBGC records.*<br><br>*Identify changes in the information that may need to be changed in ▸ Spectrum or the applicant's records before or at the time payment is made, such as a change in the name and/or mailing or residence address.* | *For discrepancies in an applicant's name and/or ▸ SSN, see TP 57 Identify Discrepancies.*<br><br>*If the address is a P.O. Box, ask the applicant to provide a residential address for tax withholding and reporting purposes.*<br><br>*Make any required changes to Spectrum.* |
| **Date of Birth** | *Proof must be in file for the:*<br>• *Participant's age.*<br>• *▸ Beneficiary's age if the elected benefit is a joint-life form (for example, ▸ QJSA or optional JSA).*<br>• *Alternate payee if the calculation of the applicant's benefit uses the alternate payee's age.* | *Proof of beneficiary's age is generally not required if the elected benefit is a single-life form. See Appendix G Acceptable Proof of Age and Death.* |
| **Annuity Starting Date** | *Confirm that the elected annuity starting date is permitted under Policy 5.2-4 Annuity Starting Dates.* | *PBGC must receive the completed application including proof documents within 180 days of the letter sending the application.*<br><br>*The signature on the application must be within 180 days of the annuity starting date or, if the annuity starting date is a retroactive date, within 180 days of the benefit commencement date.*<br><br>*A participant who is eligible for a retroactive ▸ ASD because the plan offers early unreduced retirement benefits, or because the benefit is level due to application of Title IV limitations, may elect the earliest allowable ASD retroactively at any time regardless of any previous notifications of eligibility for the benefits (see Policy 5.2-4 Annuity Starting Dates). The retroactive ASD is subject to working retirement rules (see TP 53 Working Retirement Determinations).* |
| **Working** | *If the participant is applying for early* | *Review the Working Retirement* |

| | | |
|---|---|---|
| **Retirement** | *retirement and is currently employed, determine if the participant is working for the DOPT employer.* | *Determination for the plan.*<br><br>*Early retirement benefits are not payable if the participant is working for the DOPT employer.*<br><br>*See TP 53 Working Retirement Determinations.* |
| **Marital Status** | *A participant must have clearly marked his/her marital status.*<br><br>*Proof of marriage is required if the participant is married.* | *If the participant indicates a marital status of "divorced" do not request proof of divorce (see Appendix O Acceptable Proof of Marriage).*<br><br>*If only spousal consent is missing and not provided within 180 days of the letter sending the application, pay the benefit in the form of the plan's QJSA. See TP 20.3B Request Missing Information for Annuity Benefit Application.* |
| **QDRO** | *The QDRO question must be addressed before payments can be made.*<br><br>*If it is not answered on the application, contact the customer by phone. If the response is that there is no QDRO, document the call in CRM. No further action is necessary.*<br><br>*If unable to make phone contact, return the application as incomplete.*<br><br>*If a QDRO exists, request a copy if it is not already on file. The QDRO must be evaluated to determine any impact on benefits before payments can be made.* | *For additional guidance, see TP 13 Domestic Relations Orders and State Agency Orders.* |
| **Signature** | *The signature must be within 180 days of the annuity starting date or 180 days of the benefit commencement date if the annuity starting date is retroactive. If the applicant did not date the application, use the DMC receipt date as the signature date.*<br><br>*Forms received via MyPBA are accepted with an electronic signature. The date of the signature is the date on which the MyPBA transaction was received.*<br><br>*If the application is signed by someone other than the participant (such as a power of attorney or guardian), ensure that PBGC recognizes the individual's authority to act in that capacity. Verify also that the individual has the specific authority to apply for benefits as well as make benefit form elections and beneficiary designations on behalf of the participant. See TP 49 Power of Attorney and Guardianship.* | • *The applicant must make a written signed election of the:*<br>  • *Annuity starting date*<br>  • *Benefit form election*<br>  • *Beneficiary designation for a joint-life benefit*<br>• *If the application is signed by mark (for example, an "X" is entered in the signature line), see Policy 8.5-1 Signature by Mark for guidance.* |

| | | |
|---|---|---|
| **Benefit Form** | *Confirm that the participant was sent a benefit estimate showing the benefit forms and amounts within 180 days of the election.*<br><br>*The benefit form must be clearly checked and the form chosen must be permitted according to the applicant's marital status:*<br>• *Unmarried: Option A or Options C–J.*<br>• *Married: Options A–J, but Option A and Options C–J require spousal consent.* | *For additional guidance on permitted benefit form elections, see Policy 5.4-7 Annuity Benefit Forms and the PBGC Benefit Form Elections Job Aid.* |
| **Spousal Consent** | *If a married participant elected Option A or any of Options C–J, spousal consent is required, and:*<br>• *Must be obtained at the time the participant applies for benefits.*<br>• *Must be in writing, notarized, and executed within 180 days of the annuity starting date (or 180 days before the benefit commencement date if the annuity starting date is retroactive).* | *Spousal consent:*<br>• *Is required even if the spouse is the designated beneficiary for an optional benefit form.*<br>• *May be revoked by the spouse up until the first payment date (see Policy 5.4-7 Annuity Benefit Forms).*<br>• *May be given by the legal guardian or representative of the spouse under a durable power of attorney (including the participant), on behalf of a legally incompetent spouse (see TP 20.5H Power of Attorney or Guardianship).*<br>• *Must be informed, that is, the benefit statement provided with the application must reflect the benefit forms and amounts payable on the actual retirement date.* |
| **Beneficiary for Continuing Payments** | *A beneficiary designation must be in file as follows:*<br>• **Joint-Life Benefits:** *A beneficiary designation is required prior to payment.*<br>• **Single-life Benefits:** *If the benefit form does not provide survivor benefits or is not based on the beneficiary's age, such as a C&C, the designation may be submitted after payment begins.* | *For additional guidance on permitted benefit form elections, see Policy 5.4-7 Annuity Benefit Forms.*<br><br>*If the applicant elects a single-life benefit but does not designate a beneficiary:*<br>• *Do not delay payment.*<br>• *Request a designation from the applicant.* |
| **Beneficiary for Payments Owed to a Deceased Participant** | *A beneficiary designation for payments owed to a deceased payee upon death is preferable, but not required and can be made at a later time.* | *The contingent ▸ annuitant or beneficiary for continuing benefits, if any, is also the beneficiary for payments owed to a deceased participant.* |
| **Federal Tax Withholding**<br><br>**Election** | *Determine if the participant made a valid tax withholding election.* | *If the applicant did not make a permissible withholding election or did not make an election, do not delay payment.* |

| | | |
|---|---|---|
| | | *Apply default withholding based on a marital status of married with three exemptions (even if the actual marital status is single) unless the applicant is a nonresident alien or mandatory tax withholding applies. Request a tax withholding election. See Appendix R 1 Federal Income Tax Withholding.*<br><br>*If the customer elected tax withholding based on a fixed* **percentage** *(not dollar amount), calculate the tax withholding based on that percentage of the current gross dollar amount of the benefit and notify the payee in the eALG 300- or 500-series letter that the withholding amount will be treated as a fixed dollar amount and not automatically adjust, even if the benefit amount changes in the future. Ask the payee to contact PBGC to change the withholding amount should the benefit amount changes in the future (or for any other reason).* |
| | *Confirm that the participant lives in the U.S. (has a mailing or residence address within the U.S.)* | *If the participant does not live within the U.S., apply nonresident alien tax withholding rules.* |
| | *If information is received that the participant's Individual Tax Identification Number (ITIN) is invalid, see Appendix R 1 Federal Income Tax Withholding.* | *If payment will be made using an invalid ▸ ITIN or dummy SSN, apply mandatory withholding rules.* |
| **Payment Method**<br><br>**EDD**<br><br>**or**<br><br>**Checks** | *Electronic Direct Deposit (EDD) information is preferred but not required; the applicant may choose to receive checks instead.*<br><br>*If ▸ EDD is elected, ensure payment information such as the names of financial institutions, addresses, and account numbers appear to be complete. The payee's name must be on the account.*<br><br>*If EDD is not elected, ensure information for the mailing address appears to be complete.* | *TGBR may be used as a resource for bank information. An individual in each branch and field office has access to this online service. Also, see the TGBR Job Aid for further information.* |

**Form 705 Beneficiary Application for Pension Benefits Review Table**

**07/01/2016**

*Form 705 Beneficiary Application for Pension Benefits is used by surviving spouses and other beneficiaries to apply for survivor benefits (that is, continuing ▸ annuity payments), and by alternate payees to apply for survivor benefits pursuant to a ▸ QDRO, when a participant dies after retirement. The applicant does not make a benefit form election.*

**Form 705 Beneficiary Application for Pension Benefits Review Table**

| Information | Requirements | Notes |
|---|---|---|
| **General Information (Name, SSN, date of birth, gender, address, telephone number)** | *Determine if identifying information matches the information about the applicant in the plan and PBGC records.*<br><br>*Identify changes in the information that may need to be changed in ▸ Spectrum or the applicant's records before or at the time payment is made, such as a change in the name and/or mailing or residence address.* | *For discrepancies in an applicant's name and/or ▸ SSN, see TP 57 Identify Discrepancies.*<br><br>*Make any required changes to Spectrum.* |
| **Annuity Starting Date** | *N/A* | *An annuity starting date election is not required as the benefit is payable the first day of the month following the payee's death.* |
| **Date of Birth** | • **Surviving spouse and other beneficiaries:** *Require proof of age if the benefit form is a joint-life benefit, unless the participant was a pre-▸ DOPT retiree.*<br>• **Alternate payee:** *Require proof of age for an alternate payee if the calculation of the benefit uses the alternate payee's age.*<br>• **Participant:** *Require proof of age if not already in file, unless the participant was a pre-DOPT retiree.* | *Proof of age will usually already be in file when the spouse or beneficiary applies for benefits.*<br><br>*Require proof of age from the surviving spouse or other beneficiary of a pre-DOPT retiree if the date of birth on the form is discrepant from other documents on file.*<br><br>*See Appendix G Acceptable Proof of Age and Death.* |
| **Marital Relationship** | *If the applicant is a surviving spouse proof of marriage to the participant is required.* | *Do not require proof of marriage for an alternate payee under a shared payment QDRO; the QDRO establishes the relationship between the applicant and the participant.*<br><br>*See Appendix O Acceptable Proof of Marriage.* |
| **Relationship other than Marriage** | *Proof is generally not required if the participant designated the beneficiary to receive continuing annuity payments.* | *Proof may be required if the payee did not designate a beneficiary and PBGC determines the beneficiary (see Policy 8.6-1 Payments to Beneficiaries).* |
| **Spousal Consent** | *If a deceased participant waived the ▸ QJSA and elected an optional benefit form, spousal consent to the benefit form election must be in the participant's file.* | *For additional guidance, see the job aid Summary of Qualified Joint and Survivor Annuity Requirements.*<br><br>*If consent is missing, see TP 20.5E Spousal Consent.* |
| **Death** | *Proof of the participant's or deceased* | *See TP 5 Death Processing and/or* |

| | | |
|---|---|---|
| | *payee's death must be in file.* | *Appendix G Acceptable Proof of Age and Death.* |
| **QDRO** | *If a QDRO exists, a copy is required.* | *Refer to TP 13 Domestic Relations Orders and State Agency Orders when an alternate payee submits a completed application for benefits.* |
| **Signature** | *The signature must be within 180 days of the annuity starting date or 180 days of the benefit commencement date if the annuity starting date is retroactive. If the applicant did not date the application, use the ▸ DMC receipt date as the signature date.*<br><br>*Forms received via ▸ MyPBA are accepted with an electronic signature. The date of the signature is the date on which the MyPBA transaction was received.*<br><br>*If the application is signed by someone other than the participant (such as a power of attorney or guardian), ensure that PBGC recognizes the individual's authority to act in that capacity. Verify also that the individual has the specific authority to apply for benefits as well as make benefit form elections and beneficiary designations on behalf of the participant. See TP 49 Power of Attorney and Guardianship.* | *If the application is signed by mark (for example, an "X" is entered in the signature line), see Policy 8.5-1 Signature by Mark for guidance.* |
| **Benefit Form Election** | *N/A: Form 705 Beneficiary Application for Pension Benefits does not provide for elections.* | *The benefit form payable to the beneficiary is determined under plan provisions by the benefit form the deceased payee was receiving.* |
| **Beneficiary Designation** | *A beneficiary designation for payments owed to a deceased payee upon death is preferable, but not required and can be made at a later time.* | *The contingent ▸ annuitant or beneficiary for continuing benefits under a ▸ C&C is also the beneficiary for payments owed to a deceased participant.* |
| **Federal Tax Withholding**<br><br>**Election** | *Determine if the participant made a valid tax withholding election.* | *If the applicant did not make a permissible withholding election or did not make an election, do not delay payment.*<br><br>*Apply default withholding of based on a marital status of married with three exemptions (even if the actual marital status is single) unless the payee is a nonresident alien or mandatory tax withholding applies.*<br><br>*Request a tax withholding election.*<br><br>*If the customer elected tax withholding based on a fixed* **percentage** *(not dollar amount), calculate the tax withholding based on that percentage of the current gross dollar amount of the benefit and notify the payee in the eALG* |

| | | |
|---|---|---|
| | | *300- or 500-series letter that the withholding amount will be treated as a fixed dollar amount and not automatically adjust, even if the benefit amount changes in the future. Ask the payee to contact PBGC to change the withholding amount should the benefit amount changes in the future (or for any other reason).*<br><br>*(See Appendix R 1 Federal Income Tax Withholding).* |

**Form 706 Beneficiary Application for Pension Benefits – OF Review Table**

**09/30/2016**

Used by surviving spouses to apply for a qualified preretirement survivor ▸annuity or similar ▸benefit, and by alternate ▸payees pursuant to a separate interest ▸QDRO. The applicant elects a benefit form. Review *Form 706 Beneficiary Application for Pension Benefits – OF* following the requirements in Form 705 Beneficiary Application for Pension Benefits Review Table, except as follows.

**Form 706 Beneficiary Application for Pension Benefits – OF Review Table**

| Information | Requirements | Notes |
|---|---|---|
| **Annuity Starting Date** | Confirm that the elected annuity starting date is permitted under Policy 5.2-4 Annuity Starting Dates. | PBGC must receive the completed application, including proof documents, within 180 days of the letter sending the application.<br><br>The beneficiary may begin receiving benefits retroactive to the later of the month following the participant's death and the participant's earliest allowable retirement date.<br><br>If the deceased participant was eligible for a retroactive ▸ASD because the plan offers early unreduced retirement benefits, or because the participant's benefit would have been level due to application of Title IV limitations, the beneficiary may elect that retroactive ASD at any time, regardless of any previous notifications of eligibility for the benefits (see Policy 5.2-4 Annuity Starting Dates). |
| **Date of Birth** | • **Surviving spouse:** Proof of age must be in file to pay the QPSA.<br>• **Alternate payee:** Proof of the alternate payee's age must be in file.<br>• **Participant:** For a QPSA, proof of the deceased participant's age is not required unless the information on the death certificate is inconsistent with other information on file.<br>If the applicant is an AP of a living participant, view both the AP and participant IPS files for proof of the participant's age. Accept the date in the QDRO document if stated (and consistent with other information on file). If the participant's proof of age cannot be established, contact Ask PPD for assistance. | Proof of age will usually already be in file when the spouse or beneficiary applies for benefits.<br><br>See Appendix G Acceptable Proof of Age and Death. |
| **Spousal Consent** | N/A | N/A |
| **Benefit Form** | Confirm that the participant was sent | For additional guidance on permitted |

| | | |
|---|---|---|
| **Election** | a retirement estimate showing the benefit forms and amounts within 180 days of the election.<br><br>The applicant may only elect a single-life annuity. | benefit form elections, see Policy 5.4-7 Annuity Benefit Forms and the *PBGC Benefit Form Elections Job Aid*. |
| **Application for Payment to a Minor Child** | N/A | If the applicant is a minor child, see TP 20.5I Payments to Minor Children. |

**Unpaid Plan Application for Annuity Payments Review Table**

**11/21/2014**

A plan application may have been filed with the plan administrator before the date of trusteeship, but the administrator did not put benefits into pay prior to PBGC's assumption of the plan. A plan application may be paid if certain conditions are met. See TP 20.5B Applications for additional details.

Plan applications generally must contain the same information as that found on a PBGC applications. Review a plan applications following the requirements in Form 700 Participant Application for Pension Benefits Review Table, except as follows.

**Unpaid Plan Application for Annuity Payments Review Table**

| Information | Requirements | Notes |
|---|---|---|
| **Annuity Starting Date** | Confirm that the elected annuity starting date is permitted under plan provisions and the application was signed no more than 180 days before the elected annuity starting date. | The annuity starting date may be before or after ▸DOTR. If before DOTR, see TP 20.5G Payments before Trusteeship for more information.<br><br>If the annuity starting date is more than 180 after the signature, the application cannot be accepted and a PBGC application is required.<br><br>The annuity starting date is preserved if the PBGC application is received within 180 days of the letter sending the application. |
| **Working Retirement** | If the annuity starting date is before DOPT, confirm plan provisions on work and retirement as some plans provide that normal retirement benefits cannot be paid to a working participant.<br><br>Otherwise, follow TP 53. | See TP 53 Working Retirement Determinations. |
| **Marital Status** | A participant must have indicated his/her marital status.<br><br>Proof of marriage is required if the participant is married. | If the participant indicates a marital status of "divorced" do not request proof of divorce.<br><br>See Appendix O Acceptable Proof of Marriage. |
| **Signature** | The signature must be no more than 180 days before the annuity starting date.<br><br>If the application is signed by someone other than the participant (such as a power of attorney or guardian), ensure that PBGC recognizes the individual's authority to act in that capacity. Verify also that the individual has the specific authority to apply for benefits as well as make benefit form elections and beneficiary designations on behalf of the participant. See TP 49 Power of Attorney and Guardianship. | The applicant must make a written and signed election of the:<br>• The annuity starting date<br>• Benefit form election<br>• Beneficiary designation for a J&S<br>If the annuity starting date is more than 180 after the signature, the application cannot be accepted and a PBGC application is required.<br>The annuity starting date is preserved if the PBGC application is received within 180 days of the letter sending the application. |

| | | |
|---|---|---|
| | | If any signature is made by mark (for example, an "X" is entered in the signature line) see Appendix J Participant Forms Information and Policy 8.5-1 Signature by Mark for guidance. |
| **Benefit Form** | Confirm that the participant made a valid benefit form election as provided under the plan no more than 180 days before the annuity starting date. | For additional guidance on permitted benefit form elections, see Policy 5.4-7 Annuity Benefit Forms.<br><br>If the annuity starting date is more than 180 days after the benefit form election, the application cannot be accepted and a PBGC application is required. |
| **Spousal Consent** | If a married participant elected any benefit form other than the plan's automatic form for married participants (QJSA), spousal consent is required, and:<br><br>• Must be obtained at the time the participant applies for benefits.<br>• Must be in writing, notarized or witnessed by the plan administrator, and executed within 180 days of the annuity starting date. | If the annuity starting date is more than 180 days after the spousal consent, the application cannot be accepted and a PBGC application is required. |
| **Beneficiary for Continuing Payments** | A beneficiary designation must be in file as follows:<br><br>• **Joint-Life Benefits:** A beneficiary designation is required prior to payment.<br>• **Single-life Benefits:** If the benefit form does not provide survivor benefits or is not based on the beneficiary's age, such as a C&C, the designation may be submitted after payment begins. | N/A |

**TP 20.3B Request Missing Information for Annuity Benefit Application**

**09/30/2016**

**EBLS/PBA/FBA/PVA**

1. Within **10 business days** of receipt of the application, send the *eALG 530APP Request for Additional Documentation/Information – Benefit Application,* customized for the missing information.
   - **Missing Spousal Consent:**
     - Indicate that if valid spousal consent is not received within 180 days of the letter sending the application, the benefit will be paid as a ▸QJSA.
     - If the participant alleges that spousal consent cannot be obtained because of legal separation or abandonment, see TP 20.5E Spousal Consent.
   - **Other Missing Information:** Indicate that if other missing or corrected information is not received within 180 days of the letter sending the application, the application will become stale-dated, payments cannot be made without a new application being filed, and retroactive benefits may not be payable.
2. Send an *eALG 530FIN Final Request for Missing Information - Benefit Application* to notify the applicant when the application will become stale-dated in 30 days if the missing information is not received.
3. If the missing information is received and the application made complete:
   - Update but do not close the ▸CRM service request.
   - Issue an *eALG 531 Receipt of Complete Documentation/Information* within **10 business days** of receipt of the missing information.
   - Process the completed application according to TP 20.3C Issue Annuity Payment for the first payment to be made within **90 days** of the date the application is completed.
   - If the first payment will not be paid within the 90-day timeframe, contact the customer as soon as this is evident to notify of when the first payment will be made and document the contact in CRM.
4. If the 180-day period expires and the only missing information is spousal consent, pay the benefit in the form of the plan's QJSA.
   - Request proof of marriage and the spouse's age, if needed.
   - If proof of marriage or spouse's age is not received within 180 days of the letter sending the application:
     - Assume the marriage exists.
     - Calculate the benefit using the spouse's alleged date of birth unless it appears questionable. If it appears questionable, contact Ask PPD for guidance.
     - If the spouse's date of birth is unknown, assume the spouse is the same age as the participant.
5. If the 180-day period expires and information other than spousal consent is still missing:
   - Issue an *eALG 530EXP Notice of Stale-dated Benefit Application* to advise that the application has become stale-dated within **15 business days** of the expiration date. The letter also advises the customer to contact PBGC to request a new application and benefit estimate for a prospective ▸Annuity Starting Date.
   - Close the CRM service request that was opened when the application was received.

**Note** Extend the 180-day period with ▸CSD management approval or guidance from ▸PPD if doing so is reasonable. Document the reason for extending the response period in the participant's file in IPS.

Top of Page

**TP 20.3C Issue Annuity Payment**

**02/27/2017**

**EBLS/PBA/FBA/PVA**

1. If needed, update ▸Spectrum with changes to the payee's information (for example, the payment destination address). For guidance on which codes to use when loading customers, see *Appendix N Customer Role and Eligibility Status Guidance* in the *Spectrum User Manual*.
2. Input the payment data into Spectrum, including:
   - Pay status
   - ▸Actual retirement date
   - Benefit form
   - Electronic Direct Deposit information, if applicable
   - Tax withholding information
   - Payment Amount
   - Pay Source (Guaranteed or Estimated)
   - Begin date (date of the first payment)
   - End date (if applicable)
   - Payment frequency
   - Future benefit adjustments (for example, step-downs)
   - ▸Recoupment amount, if applicable

   **Note** PBGC pays monthly benefits of $50 or less on an annual basis (the annual payment being equal to 12 monthly payments). However, if a payee requests monthly rather than annual payments, document the request in ▸CRM and begin the monthly payments at the next available payment date, regardless of the amount. Contact Ask PPD with questions regarding benefit payment frequency.

   **Note** When recording the benefit form for a surviving spouses or other beneficiary of a participant who had been in pay status and is now deceased, enter the residual benefit form. For example, for the surviving spouse of a participant who received a Joint & 50% Survivor benefit, enter a straight life benefit form.

   **Note** If the payee is a beneficiary entitled to a fixed percentage of the participant's benefit (for example, a Joint and 50% Survivor benefit), and there is no ▸BET or ▸BSRS for the plan, the survivor benefit can usually be determined by multiplying the participant's benefit by the percentage. Consult with the actuary, as needed. The ▸actuary can provide guidance for all such calculations for the plan.
3. If a back payment is due, create it in Spectrum.
   - If any back payments are more than two months late, include interest from the ▸Annuity Starting Date. See Policy 6.3-1 Underpayment Reimbursement and Interest Payments.
   - If the back payment is equal to or greater than $5,000 **and** equal to at least three times the monthly payment amount:
     - Issue a payment confirmation letter with an application for a lump sum.
     - When the lump-sum application is received, review and process it according to TP 20.4 Process Lump-Sum Applications.
   - If the back payment is due a beneficiary who is known to be the debtor for post-death payments to a participant that have not been reimbursed to PBGC:
     - Offset the back payment by the amount of the debt, but do not delay beginning regular payments to the beneficiary.
     - If an ACH reclamation is still pending for the post-death payments to the participant (see TP 2.3 Initiate ACH Reclamation) when the beneficiary begins regular payments, do not issue the back payment until the results of the reclamation are known.
4. Submit the transaction for approval in Spectrum (see the Benefit Payment Schedule for applicable payment

deadlines).

5. If the payment is to a contingent beneficiary, follow up as needed to collect any post-death payments to the participant for which the beneficiary is the debtor. See TP 2 Administrative Correction of Benefit Overpayments.
6. After the payment is approved, but no later than **five business days** after the cutoff date for the payment, issue the appropriate payment advice letter confirming the date and amount of the payments.

   If the payee is a beneficiary placed into pay status without an application according to TP 5.4D Expedite Payments to Contingent Beneficiary, include information about enrolling in EDD and updating federal income tax withholding, as needed.

   If the participant will receive estimated ▶disability benefits, issue the appropriate CCS 302DIS letter based on the Disability Track for the participant's situation. Consult the plan actuary as needed. These letters notify participants that their benefits are contingent on their continued eligibility for disability and their responsibility to notify PBGC if they become no longer disabled.
7. Close the CRM service request relating to the initial benefit application, if applicable, after the payment is approved.

## TP 20.4 Process Lump-Sum Applications

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review applications for lump-sum benefits, and make payment as appropriate. |
| **Guidance** | Benefit Payment Schedule<br>Policy 5.4-9 Lump Sum Benefit Payments<br>Policy 5.4-10 Small Benefit Payments<br>Policy 6.3-1 Underpayment Reimbursement and Interest Payment |
| **Procedure Owner** | EBLS/PBA/FBA/PVA |

Lump-sum benefits are treated as benefit underpayments due as of DOPT and are payable as follows:

- An estimated *de minimis* lump-sum payment is payable on or after the payee reaches the earliest PBGC retirement date (EPRD), even if the participant continues to work for the DOPT employer If a customer who has not reached EPRD but is otherwise eligible for an estimated lump sum requests immediate payment claiming a hardship situation, contact ASK PPD for guidance.
- A final *de minimis* lump sum is payable after the BDL has been issued regardless of whether the participant has reached EPRD, even if the participant continues to work for the DOPT employer.

A lump-sum benefit may be payable to a participant, surviving spouse in lieu of a QPSA, an alternate payee under a QDRO, a beneficiary or estate due a lump-sum benefit owed to a deceased payee, or an estate due the remainder of a single-life annuity.

**Small Lump Sum Payments without an Application**

In accordance with Policy 5.4-10 Small Benefit Payments, if the total lump-sum payment, including interest, is less than $200, the payment may be made without an application if information about the payee is deemed reliable and sufficient. For example:

- PBGC has a valid domestic address for the customer. For example, there is no returned mail, address information from the locator program or other source has been confirmed by the payee, See TP 4 Participant Addresses and EDD Elections for guidance on updating addresses.
- There is no discrepancy in the customer's SSN, and no reason to suspect it is invalid.
- There is no discrepancy or apparent discrepancy in the customer's estimated benefit calculation.

This process provides guidance for processing applications for most lump sums. For additional guidance in particular cases, see:

- **Cash Balance Plans:** TP 52 Cash Balance and Other Statutory Hybrid Plans
- **Employee Contributions:** Policy 5.11-1 Calculation and Payment of Priority Category 2 Benefits in PBGC Trusteed Plans
- **Missing Participants Program:** TP 47 Process Missing Participants
- **Lump-Sum Payments to Estates:** TP 5 Death Processing
- **Qualified Pre-Retirement Survivor Annuities (QPSA):** TP 5 Death Processing
- **Residual Benefits:** Policy 5.4-9 Lump Sum Benefit Payments
- **Other Special Considerations and Issues:** TP 20.5 Special Considerations

**In this Section**

TP 20.4A Review Lump-Sum Benefit Application
TP 20.4B Request Missing Information for Lump-Sum Application
TP 20.4C Issue Lump-Sum Payment

Top of Page

**TP 20.4A Review Lump-Sum Benefit Application**

**09/30/2016**

**EBLS/PBA/FBA/PVA**

1. Upon notification that an application has been received, verify that an automated *531CRM* letter was issued acknowledging receipt and proceed accordingly:
   - *531CRM* letter issued: Proceed to step 2.
   - *531CRM* letter not issued: Issue an *eALG 531APP Receipt of Benefit Application* to the customer within **five business days** informing the applicant that PBGC will review the application and request additional information if necessary.

   > **Note** If it is possible to review the application for completeness and respond within five business days, then instead of the *531APP* issue either an *eALG 531 Receipt of Complete Documentation/Information* or *eALG 530APP Request for Additional Documentation/Information – Benefit Application* as appropriate, according to the following steps in this procedure.

2. Record actions taken on the ▸benefit application in the ▸CRM service request relating to the initial application.

   The CRM service request is not closed until the payment is approved or the application becomes stale-dated.

3. Confirm that the applicant was sent the *Special Tax Notice Regarding PBGC Non-Periodic Payments* no earlier than 180 days and no later than 30 days before the application filing date.
   - If the notice was sent more than 180 days before the receipt date, send a new application to the applicant with the tax notice.
   - If notice was sent less than 30 days before the receipt date, accept the application if it was signed and received in the ▸DMC after the notice was sent. Otherwise send a new application to the applicant with the notice.

   > **Note** The *Special Tax Notice Regarding PBGC Non-Periodic Payments* is included in all ▸lump-sum benefit application packages PBGC issues.

4. If provided on the form, record or update the customer's e-mail address in CRM.
5. Determine the requirements for the application according to the appropriate table:
   - Form 703 Application for Elective Lump-Sum Payment Review Table
   - Form 720 Application for Lump-Sum Payment Review Table
   - Form 720CD Application for Lump-Sum Payment Review Table
   - Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate Review Table

   > **Note** Do not honor an unpaid plan application for a lump-sum payment regardless of whether the benefit was *de minimis* or *non-de minimis*, when the application was filed with the plan administrator, or when the payment was due.

6. Use the table, the applicant's file in ▸Image Viewer, and other plan and ▸participant information to determine:
   - The correct type of application was used.
   - All parts of the application have been correctly completed.
   - All required information and proof documents were received with the application or located the participant's ▸IPS file.
   - Special conditions, circumstances, correspondence with Ask PPD, or benefit forms from the plan documents are documented in a memo or other format to file, as applicable.
   - Documentation establishing the ▸lump sum value of the benefit is in file, for example:
     - Information from the *Actuarial Case Report* (the "Blue Book")
     - ▸Benefit statements
     - Benefit estimates or other actuarial documentation
   - How the lump sum should be paid; for example, directly to the applicant or in a direct rollover to a traditional ▸IRA or Roth IRA, and the appropriate tax withholding.

> **Note** For guidance on tax withholding and reporting for lump-sum payments, see Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting.

7. If any required documents:
   - Need translation from a foreign language: Submit for translation (see TP 44 Foreign Language Services).
   - Are illegible: Request clear copies from the applicant.
8. If the participant is not eligible for benefits, customize and issue the appropriate ▸eALG letter, depending on the reason for ineligibility (see eALG Correspondence Help).
9. If any required information is missing and is not available in the participant's IPS file, see TP 20.4B Request Missing Information for Lump-Sum Application.

> **Note** OBA's goal is to process completed benefit applications as early as possible to provide optimal customer service and exceed expectations. However, OBA has up to **90 days** from receipt of the complete application or the date it is made complete to make the payment. If the payment will not be made within that timeframe, contact the customer as soon as this is evident to notify of the date the payment will be made and document the contact in CRM.

**Form 703 Application for Elective Lump-Sum Payment Review Table**

**08/30/2011**

Participants use *Form 703 Application for Elective Lump-Sum Payment* to apply for a lump-sum payment when spousal consent is required, primarily under a cash balance plan. In reviewing the application, apply the requirements described in Form 720 Application for Lump-Sum Payment Review Table, except as detailed in this table.

**Form 703 Application for Elective Lump-Sum Payment Review Table**

| Information/Proof | Requirements | Notes |
|---|---|---|
| **Spousal Consent** | Spousal consent is required if the benefit or account balance under a cash balance plan is not *de minimis*. Spousal consent must be:<br><br>Obtained at the time the participant applied for the lump-sum.<br><br>Signed and notarized no earlier than 90 days before the date the application is filed with PBGC. | For spousal consent given by a legal guardian or holder of a durable power of attorney, including the participant, see TP 20.5H Power of Attorney or Guardianship.<br><br>If a participant alleges legal separation or abandonment or that the spouse cannot be located, see TP 20.5E Spousal Consent.<br><br>If the spousal consent is not valid, contact the participant by phone and confirm that the participant wants to receive a lump sum; if so, request a new application (see TP 20.5 Special Considerations). |

**Form 720 Application for Lump-Sum Payment Review Table**

**11/21/2014**

*Form 720 Application for Lump-Sum Payment is used to apply for a lump-sum payment by:*

- *Participants.*
- *Surviving spouses due a lump-sum in lieu of a ▸ QPSA.*
- *Surviving spouses who are the beneficiary for a lump-sum benefit owed to a deceased participant.*
- *Alternate payees under a ▸ QDRO who are spouses or former spouses.*

**Form 720 Application for Lump-Sum Payment Review Table**

| Information/Proof | Requirements | Action/Notes |
|---|---|---|
| **General Information** | • *Determine if identifying information:*<br>  • *Name*<br>  • *Social security number*<br>  • *Date of birth*<br>  • *Gender matches the information about the applicant in the plan and PBGC records.*<br>• *Identify changes in the information that may need to be changed in ▸ Spectrum or the applicant's records before or at the time payment is made, such as a change in the name and/or mailing or residence address.* | *For discrepancies in an applicant's name and/or SSN, see TP 57 Identify Discrepancies.*<br>*If the address is a P.O. Box, ask the applicant to provide a residential address for tax withholding and reporting purposes.*<br>*Make any required changes to Spectrum.* |
| **Marriage** | **Surviving spouse:** *If the applicant is a surviving spouse, proof of marriage to the participant must be in file. A copy of PBGC's determination of the beneficiary must be in file.* | *For additional guidance, see TP 5 Death Processing and Appendix O Acceptable Proof of Marriage.* |
| **Proof of Death** | **Surviving spouse:** *If the applicant is a surviving spouse, proof of the participant's death must be in file.* | *See TP 5 Death Processing and/or Appendix G Acceptable Proof of Age and Death.* |
| **QDRO** | **Alternate payee:** *If the applicant is an alternate payee, a copy of the QDRO must be in file.* | *See TP 13 Domestic Relations Orders and State Agency Orders.* |

| | *Ensure payment information such as the names of financial institutions, addresses, and account numbers appear to be complete.* | *N/A* |

*Top of Page*

**Form 720CD Application for Lump-Sum Payment Review Table**

**11/21/2014**

Alternate payees under a ▶QDRO who are children or other dependents use *Form 720CD Application for Lump-Sum Payment* to apply for a lump sum payment. See TP 13 Domestic Relations Orders and State Agency Orders for additional guidance.

**Form 720CD Application for Lump-Sum Payment Review Table**

| Information/Proof | Requirements | Action/Notes |
|---|---|---|
| **General Information** | • Determine if identifying information:<br>  • Name<br>  • Social security number<br>  • Date of birth<br>  • Gender matches the information about the applicant and the participant in the QDRO and plan and PBGC records.<br>• Identify changes in the information that may need to be changed in Spectrum or the applicant's records before or at the time payment is made, such as a change in the name and/or mailing or residence address. | • For discrepancies in an applicant's name and/or SSN, see TP 57 Identity Discrepancies.<br>• Make any required changes to Spectrum.<br>• If the applicant is a minor child, see TP 20.5I Payments to Minor Children. |
| **QDRO** | A copy of the QDRO must be in file. | See TP 13 Domestic Relations Orders and State Agency Orders. |
| **Proof of Age** | Proof of the alternate payee's age is required if the QDRO is a separate interest QDRO.<br><br>Proof of the participant's age must be in file. | If the participant's and/or alternate payee's age is discrepant with the age(s) used to calculate the lump-sum value of the benefit, request actuarial assistance to determine if the value of the benefit must be recalculated.<br><br>See Appendix G Acceptable Proof of Age and Death. |
| **Signature** | Verify that the applicant properly signed the application. The applicant's signature must be no more than 90 days before the application filing date.<br><br>If the application is signed by someone other than the participant (such as a power of attorney or guardian), ensure that PBGC recognizes the individual's authority to act in that capacity. Verify also that the individual has the specific authority to apply for benefits as well as make benefit form elections and beneficiary designations on behalf of the participant. See TP 49 Power of Attorney and Guardianship. | If the signature is not timely, request a new application (see TP 20.5 Special Considerations). |
| **Payment and Tax Withholding Elections** | N/A | A payment and tax withholding election are not required as the participant is responsible for the tax liability on the payment.<br><br>The payment is not rollover eligible; |

| | | |
|---|---|---|
| | | therefore, make payment directly to the alternate payee (see TP 13 Domestic Relations Orders and State Agency Orders). |

**Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate Review Table**

**11/21/2014**

Non-spouse beneficiaries and estates use *Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate* to apply for a lump-sum payment that was owed to a deceased payee.

**Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate Review Table**

| Information/Proof | Requirements | Action/Notes |
|---|---|---|
| **Information about the Beneficiary or Estate** | • Determine if identifying information:<br>  • Name<br>  • Social security number<br>  • Date of birth<br>  • Gender matches the information about the beneficiary and participant in plan and PBGC records.<br>• Identify changes in the information that may need to be changed in Spectrum or the applicant's records before or at the time payment is made, such as a change in the name and/or mailing or residence address. | • For discrepancies in an applicant's name and/or SSN, see TP 57 Identity Discrepancies.<br>• Make any required changes to Spectrum. |
| **Beneficiary Determination** | **Beneficiary or Estate:** Documentation of PBGC determination of the beneficiary owed the lump-sum must be in file.<br>**Estate:** Proof of the estate administrator's appointment or authority as described in TP 5 Death Processing must be in file. | See TP 5 Death Processing. |
| **Date of Birth** | N/A | N/A |
| **Proof of Death** | Require proof of the deceased payee's death. | Proof of death should be obtained as required in TP 5 Death Processing. See Appendix G Acceptable Proof of Age and Death. |
| **Signature** | Verify that the applicant properly signed the application. The applicant's signature must be no more than 90 days before the application filing date.<br>If the application is signed by someone other than the participant (such as a power of attorney or guardian), ensure that PBGC recognizes the individual's authority to act in that capacity. Verify also that the individual has the specific authority to apply for benefits as well as make benefit form elections and beneficiary designations on behalf of the participant. See TP 49 Power of Attorney and Guardianship. | If the signature is not timely, request a new application (see TP 20.5 Special Considerations). |
| **Payment Election** | Verify that the applicant made a valid payment election as permitted (see Appendix R 1 Federal Tax Withholding). | The payment is not a rollover-eligible distribution. However, a non-spouse beneficiary that is not an estate may elect to have the payment directly |

| | | |
|---|---|---|
| | | rolled into an inherited IRA.<br><br>See Appendix R 1 Federal Income Tax Withholding. |
| **Information About the Inherited IRA** | If a rollover to an inherited IRA was elected, ensure:<br>• The name of the receiving account properly indicates the account is an inherited IRA.<br>• Payment information about the inherited IRA, such as the name of the financial institution, address, and account number appear to be complete. | See Appendix R 1 Federal Income Tax Withholding. |
| **Federal Tax Withholding** | If a rollover to an inherited IRA was not elect, verify that the applicant made a valid tax withholding election. | If the applicant did not make a permissible withholding election or did not make an election,<br>• Contact the applicant and determine whether the applicant wants to make an election:<br>  • If so, send a new application to the participant (see TP 20.5 Special Considerations).<br>  • If not, apply default withholding of 10% to the taxable portion of the payment.<br>• See Appendix R 1 Federal Income Tax Withholding. |
| | Confirm that the participant resides in the U.S. | If the participant does not live within the U.S., apply nonresident alien tax withholding rules. |
| | N/A | If payment will be made using an invalid Individual Tax Identification Number (ITIN) or dummy SSN, apply mandatory withholding rules. |

Top of Page

**TP 20.4B Request Missing Information for Lump-Sum Application**

**09/30/2016**

**EBLS/PBA/FBA/PVA**

1. Within **10 business days** of receipt of the application, customize and send *eALG 530APP Request for Additional Documentation/Information – Benefit Application*.
   - Indicate what information is missing from the application.
   - Inform the applicant that, if the missing information is not received within 90 days, the application will become stale-dated and a new application will be required.
2. If additional information is required that was not previously requested, notify the ▸participant as in step 1, and restart the 90-day period.
3. Extend the 90-day period with ▸CSD management approval or guidance from ▸PPD if doing so is reasonable. Document the reason for extending the response period in the participant's ▸IPS file.
4. Send an *eALG 530FIN Final Request for Missing Information – Benefit Application* to notify the applicant when the application will become stale-dated in **30 days** if the missing information is not received.
5. If the missing information is received and the application made complete within **90 days** of the date of the *eALG 530APP Request for Additional Documentation/Information – Benefit Application*:
   - Update but do not close the ▸CRM service request that was opened when the application was received.
   - Issue an *eALG 531 Receipt of Complete Documentation/Information* within **10 business days** of receipt of the missing information.
   - Process the completed application according to TP 20.4C Issue Lump-Sum Payment for the payment to be made as early as possible, but in all cases within **90 days** of the date the application is completed.
6. If the missing information is not received within 90 days of the mailing date of the *eALG 530APP Request for Additional Documentation/Information – Benefit Application*:
   - Issue *eALG 530EXP Notice of Stale-dated Benefit Application* within **15 business days** of the expiration date to notify the applicant. Attach the appropriate lump-sum application so the customer may reapply.
   - Close the ▸CRM service request that was opened when the application was received.

**TP 20.4C Issue Lump-Sum Payment**

**09/30/2016**

**EBLS/PBA/FBA/PVA**

1. Review the ▸Spectrum ledger to determine if the payment has already been made in full or in part. Adjust the payment amount accordingly.
2. If needed, update Spectrum with changes to the payee's information (for example, the payee's address).
3. Input the payment data into Spectrum using the wizard:
   a. Calculate interest on the payment.
   b. Proceed according to the type of payment:
      - If the payment is a ▸*de minimis* ▸lump sum or a payment due a deceased payee, make a One Time Payment.
      - If the payment is a ▸large reimbursement, make a back payment.
4. Submit the transaction for approval in Spectrum (see the Benefit Payment Schedule for applicable payment deadlines).
5. On approval, if the total payment including interest is less than $200 and the payee requests:
   - Withholding on a one-time payment that is not a lump-sum distribution, complete a NFDE Lump Sum Check Form, making sure to complete these fields as follows:
     - Tax Form Type: L
     - Type of Benefit: G
     - Tax Method (FIT calc): D (to specify exact dollar amount), T (for 10%), X (for 20%), or U (for 20% plus an exact dollar amount)
     - Withholding: If the Tax Method is D or U, enter the dollar amount to withhold; leave blank otherwise.

     > **Note** In accordance with the Internal Revenue Code, PBGC generally does not withhold on one-time payments under $200. However, there are certain one-time payments, which are not ▸lump-sum distributions, for which PBGC will withhold taxes on customer request. Examples of one-time payments that are not lump-sum distributions include an underpayment owed to a deceased payee and due to the beneficiary, the remainder of a ▸C&C paid after the end of the certain period, or payments owed to an alternate payee for an established period.

   - Rollover to an IRA, notify the customer that the payment may not be rolled over since it is less than $200.

     For guidance on tax withholding and reporting for lump–sum payments, see Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting.
6. Within **five business days** of the payment cutoff date, customize and issue *eALG 503 Payment Advice – Lump Sum* (see eALG Correspondence Help) confirming the date and amount of the payment.
7. Close the ▸CRM service request relating to the initial application after the payment is approved.

## TP 20.5 Special Considerations

**07/01/2016**

| | |
|---|---|
| **Purpose** | To apply special considerations in processing benefit applications. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/PBA/FBA/PVA |

In processing an application for annuity or lump-sum benefits, other considerations and issues may arise and need to be addressed. If any of the special considerations listed in this section apply, document the details of the situation in writing and image the documentation to the applicant's file. Document all material contacts in ▸CRM and image the log to the participant's IPS file.

**In this Section**

TP 20.5A Discrepancies
TP 20.5B Applications
TP 20.5C Benefits Offsets

**TP 20.5A Discrepancies**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

Use the following tables to identify specific scenarios and determine the appropriate action:

- Age Discrepancies Table
- Revised BDL Required Table
- Identity Discrepancies and Immigration Status Table

**Age Discrepancies**

**Age Discrepancies Table**

| Scenario | Action |
|---|---|
| Age or ▸DOB is discrepant with plan records. | Resolve discrepancy. See TP 57 Identity Discrepancies. |
| Individual can provide a valid birth certificate (preferred). | Use the DOB and age indicated by the certificate. |
| Individual cannot provide a valid birth certificate. | See Appendix G Acceptable Proof of Age and Death for acceptable alternatives. |
| Discrepancy is resolved. | • Determine whether a benefit recalculation based on the correct age is required.<br>• Determine whether a ▸Revised BDL (eALG 411 series) is required (see Revised BDL Required). |

**Revised BDL Required**

When information received in the application differs from the information used to calculate an estimated benefit or the benefit given in a ▸BDL, use the Revised BDL Required Table to determine whether a Revised BDL is required. For additional guidance, see Policy 5.8-1 Benefit Corrections.

**Revised BDL Required Table**

| Scenario | Action |
|---|---|
| The normal retirement benefit changes as a result of new information. | A Revised BDL is required if the benefit change is permitted (see Policy 5.8-1 Benefit Corrections. |
| The early retirement benefit and/or form conversion factors change as a result of new information, but the normal retirement benefit in the ▸benefit statement does not change. | • A Revised or New BDL may be required.<br>• Determine whether a change in the retirement estimate is required. If so, request a new application with a new annuity starting date and/or benefit form election. |
| The benefit determination is not yet final and the normal retirement benefit in the benefit statement does not change. | Issue a Revised BDL (see Process 19 Benefit Determination Letters). |
| The benefit determination is final and the normal retirement benefit in the benefit statement does not change. | Issue a Revised BDL (see Process 19 Benefit Determination Letters). |

**Identity Discrepancies and Immigration Status**

In cases of identity discrepancy, the onus is on the individual claiming to be entitled to a benefit to provide proof. PBGC must pay participants and beneficiaries their guaranteed benefits regardless of immigration status.

**Identity Discrepancies and Immigration Status Table**

| Scenario | Action |
|---|---|
| Individual with a different name/SSN claims to be the participant or beneficiary shown in plan or participant records. | Do not pay benefits to the claimant until the discrepancy is resolved (see TP 57 Identity Discrepancies) and the claimant is determined to be entitled to benefits. |

Top of Page

**TP 20.5B Applications**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

Use the following tables to identify specific scenarios and determine the appropriate action:

- New Application Required Table
- Unpaid Plan Application for Annuity Benefits Table

**New Application Required**

The applicant's election of an annuity starting date and benefit form must be an informed decision confirmed in writing; therefore, a new application is generally required if the elected annuity starting date or benefit form election will change or cannot be accepted.

**New Application Required Table**

| Scenario | Action |
|---|---|
| A new application is required according to procedures or this table. | Customize and issue *eALG 530 Request for Additional Documentation/Information.*<br>• Explain why a new application is required.<br>• Attach a new application and a benefit estimate.<br>• If not already in file, request required proof documents such as proof of marriage or age.<br>• If the original application was otherwise valid but the benefit form election will change, inform the applicant that the annuity starting date will not change if the new application is returned within 180 days of the original application filing date. |
| Application (or missing information) is not returned within 180 days of the letter sending the application, but applicant still wishes to pursue benefits. | • Require a new application.<br>• Change the annuity starting date to the month after the new application is received. |
| Applicant wishes to change the annuity starting date or PBGC determines that a new annuity starting date applies. | • Ensure the new annuity starting date is permitted (see Policy 5.2-4 Annuity Starting Dates).<br>• Require a new application. |
| The benefit form changes, for example:<br>• The applicant requests to change the elected benefit form before the date of the first payment.<br>• A participant's spouse requests to revoke spousal consent before the date of the first payment. | • Require a new application.<br>• See Policy 5.4-7 Annuity Benefit Forms for additional guidance. |
| PBGC cannot accept the elected benefit form, for example:<br>• A married participant did not elect the ▶QJSA and spousal consent cannot be obtained because the participant cannot provide proof of legal separation or abandonment (see Abandonment and Legal Separation in TP 20.5E Spousal Consent) or the spouse is unlocatable (see Unlocatable Spouse in TP 20.5E Spousal Consent). | If the participant elected an unpayable QJSA, require a new application to change the benefit form.<br>If a married participant did not elect a QJSA and does not have spousal consent because of:<br>• **Legal separation, abandonment, or PBGC cannot locate the spouse:** Accept the benefit form election (a QJSA is not required).<br>• **Any other reason:** Put the benefit into pay as a QJSA (a new application is not required). |

| | |
|---|---|
| • If a participant in a same-sex marriage or civil union elected a QJSA, contact Ask PPD for guidance.<br>• The benefit form elected on a plan application for benefits is not acceptable (see TP 20.5G Payments Before Trusteeship and Unpaid Plan Application for Annuity Benefits). | |
| The application appears to have substantive defects, including:<br>• Major changes or corrections to the form<br>• Missing required information<br>• Discrepant or inconsistent responses | • Apply judgment to determine whether the document has substantive defects. If needed, contact Ask PPD.<br>• If the document has substantive defects, require a new application. |

**Unpaid Plan Application for Annuity Benefits**

Process a valid plan application filed with the plan administrator or PBGC (see TP 20.5G Payments before Trusteeship) on or before ▸DOTR similarly to a PBGC application (see TP 20.3 Process Applications for Annuity Benefits).

**Unpaid Plan Application for Annuity Benefits Table**

| Scenario | Action |
|---|---|
| Application includes shutdown benefits or ▸UCEB for events occurring on or after July 26, 2005. | Contact Ask PPD for guidance. |
| The applicant elected a plan life annuity benefit form. | Treat as payable unless the form is:<br>• An annuity with single-sum payment<br>• Prohibited under ▸IRC section 436<br>• A hybrid form or otherwise unusual and not addressed in the *Actuarial Case Report* |
| The elected benefit form provides that a portion of the benefit is paid in an actuarially derived single sum and the remainder is paid as an annuity. | • If the lump-sum benefit is $5,000 or less, treat the application as payable.<br>• If the lump-sum benefit is more than $5,000, require a new application. |
| ▸DOPT is on or after the first day of the plan year beginning in 2008, and the the *Actuarial Case Report* (final plans) or the auditor or actuary (estimated plans) **has not addressed IRC section 436 benefit restrictions**. | Contact Ask PPD to determine whether the benefits applied for are prohibited. |
| DOPT is on or after the first day of the plan year beginning in 2008, and the *Actuarial Case Report* (final plans) or the auditor or actuary (estimated plans) **indicates that IRC section 436 prohibits some benefits.** | • If the benefits applied for are prohibited, require a new application.<br>• If the benefits applied for are permitted, treat as payable. |
| The application is for a benefit form that is a hybrid form or otherwise unusual and not addressed in the *Actuarial Case Report.* | Contact Ask PPD for guidance. |
| The plan administrator, rather than a notary, witnessed the spousal consent. | Treat as payable. |

Top of Page

**TP 20.5C Benefits Offsets**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

Plans sometimes provide that a pension payment be offset by other benefits or income. If an offset applies, proof of the other benefit or income must be submitted.

**Benefits Offsets**

| Scenario | Action |
|---|---|
| The plan provides for an earnings offset. | See Policy 6.2-1 Application of Earnings Offset Provisions In PBGC-Trusteed Plans and TP 51 Earnings Offsets. |
| The plan provides for a ▸free surviving spouse benefit that is offset by ▸SSA widow's benefits. The applicant alleges receiving SSA widow's benefits or PBGC otherwise establishes that the participant is due SSA widow's benefits. | • See the job aid Free Surviving Spouse Benefit (FSSB) Calculation & Benefit Administration Guidance for guidance.<br>• Request proof of the SSA widow's benefit.<br>• Determine whether the amount of the benefit in the SSA letter is the correct amount for purposes of the offset under the plan. If not, calculate the amount of the benefit for purposes of the offset. |
| The plan provides for an offset of benefits by Workers' Compensation. The participant alleges receiving Workers' Compensation or PBGC otherwise establishes that the participant is due Workers' Compensation. | Request proof of the Workers' Compensation award and any subsequent lump-sum payout of Workers' Compensation. |
| The plan provides that the pension benefit must be offset or reduced by other pension benefits, for example:<br>• A salaried benefit is offset by a benefit from an hourly plan.<br>• The benefit is offset by payments from a multiemployer plan.<br>• The benefit is offset by certain public pensions or benefits. | • Request proof of the other benefit, if not already in file.<br>• If the plan provides for offsets by public pensions or benefits, contact Ask PPD for guidance. |
| PBGC believes that the participant is due or receiving Black Lung benefits. The plan provides for an offset of benefits by Black Lung benefits. | Contact Ask PPD for guidance. |

**TP 20.5D Marriage**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

Use the following tables to identify specific scenarios and determine the appropriate action:

- Common-Law Marriage: Participant Alleged Being Unmarried Table
- Civil Union or Same-Sex Marriage Table
- No Ceremony and Common-Law Marriage Is Not Asserted Table
- Proof of Civil or Religious Ceremony Unavailable Table
- Marriage Cannot Be Recognized Table

**Common-Law Marriage: Participant Alleged Being Unmarried**

**Common-Law Marriage: Participant Alleged Being Unmarried Table**

| Scenario | Action |
|---|---|
| The participant checked a marital status of unmarried on his or her application. After the participant's death, an individual claims to have been in a common-law marriage with the participant. | Follow procedures in Appendix O V. Common-Law Marriage to determine whether a common-law marriage existed. |
| Substantive evidence of a common-law marriage (see Appendix O V. Common-Law Marriage) is not provided. | Treat the participant as unmarried. |
| Substantive evidence of a common-law marriage (see Appendix O V. Common-Law Marriage) is provided. | Treat the participant as married. |

**Civil Union or Same-Sex Marriage**

Civil unions provide certain spousal or similar rights without a marriage. Civil unions and/or same-sex marriages may be established in and/or recognized by some states and some jurisdictions outside of the United States.

**Civil Union or Same-Sex Marriage Table**

| Scenario | Action |
|---|---|
| • The participant or beneficiary alleges being in or having been in a civil union.<br>• The participant or beneficiary alleges being in or having been in a same-sex marriage. | Contact Ask PPD for guidance. |

**No Ceremony and Common-Law Marriage Is Not Asserted**

**No Ceremony and Common-Law Marriage Is Not Asserted Table**

| Scenario | Action |
|---|---|
| The participant elects a QJSA and asserts the marriage was established without a ceremony, or the surviving spouse asserts the marriage was established without a ceremony. | Document the details and confirm the marriage was not a ceremonial marriage.<br><br>Note that a civil or religious ceremony in some |

| | |
|---|---|
| | countries may not be easily recognizable; for example, the marriage may have been established simply by registering with the local authorities. |
| The marriage appears to be ceremonial. | Follow Appendix O VIII. PBGC Presumption of Marriage, even if the applicant disputes whether the marriage was ceremonial. |
| The marriage does not appear to be ceremonial. | Determine whether the marriage was:<br>• A Chinese custom marriage: See Appendix O VII. Chinese Custom Marriage.<br>• An Indian tribal or custom marriage or otherwise created under tribal law: See Appendix O VI. Indian Tribal or Custom Marriage.<br>• None of the above: See next row in this table. |
| The marriage is not a ceremonial marriage, Chinese custom marriage, or Indian tribal or custom marriage. | • Treat the marriage as a common-law marriage for purposes of determining whether surviving spouse benefits are payable, even if disputed by the applicant.<br>• See Appendix O V. Common-Law Marriage to confirm the existence of the marriage. |

**Proof of Civil or Religious Ceremony Unavailable**

**Proof of Civil or Religious Ceremony Unavailable Table**

| Scenario | Action |
|---|---|
| The participant elects a QJSA and asserts, or a surviving spouse asserts, that proof of the marriage is not available; for example:<br>• Marriage records were destroyed or cannot be located<br>• The country in which the marriage was entered does not provide documentation | See Appendix O VIII. PBGC Presumption of Marriage. |

**Marriage Cannot Be Recognized**

An applicant may allege a marriage that PBGC cannot recognize, for example a marriage for which the applicant cannot provide proof. Proceed according to the benefit form elected by the participant. If the applicant alleges a civil union or same-sex marriage, contact Ask PPD for guidance.

**Marriage Cannot Be Recognized Table**

| Scenario | Action |
|---|---|
| The participant elected a QJSA. | Issue a new benefit application package (see TP 20.1 Determine Eligibility and Issue Application).<br>• Inform the participant that PBGC is unable to recognize the marriage or union for purposes of paying spousal benefits.<br>• Inform the participant that other benefit options are available that may provide similar survivor benefits (for example, the PBGC J&S options). |
| The participant did not elect a QJSA. | Accept the election; the existence of the marriage is immaterial. |

**TP 20.5E Spousal Consent**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

Use the following tables to identify specific scenarios and determine the appropriate action:

- Abandonment and Legal Separation Table
- Forgery Alleged Table
- Spousal Consent Missing Table
- Spousal Consent Revoked Table
- Unlocateable Spouse Table

**Abandonment and Legal Separation**

**Abandonment and Legal Separation Table**

| Scenario | Action |
|---|---|
| A married participant advises that he or she is legally separated from or abandoned by the spouse and does not want a ▶QJSA. | Customize and send an *eALG Generic Letter* to:<br>• Inform the participant that the benefit must be paid in the form of a QJSA unless a court order declaring the participant to be legally separated or abandoned (within the meaning of local law) is received within 180 days of the letter sending the application.<br>• Request a copy of the court order declaring the participant to be abandoned or legally separated. |
| The participant submits an acceptable court order within 180 days of the letter sending the application. | • Treat the participant as unmarried: the participant may elect the plan's automatic form for unmarried participants or a PBGC optional form without spousal consent.<br>• If the participant previously elected the QJSA, issue a new application to obtain a new benefit form election. |
| The participant provides a "separation agreement" executed by the participant and the spouse. | Do not accept as proof of separation unless ratified or confirmed in writing by a local court. |
| The participant does not provide an acceptable court order within 180 days of the letter sending the application. | • If not already in file, request proof of marriage and proof of spouse's age.<br>• Process the benefit as a QJSA. |
| PBGC receives the court order more than 180 days of the letter sending the application. | See Policy 5.4-7 Annuity Benefit Forms and contact Ask PPD for guidance. |
| PBGC does not receive proof of the marriage and spouse's age within 180 days of the letter sending the application. | • Assume the marriage exists.<br>• Calculate the benefit using the spouse's alleged date of birth unless it appears questionable.<br>• If the spouse's alleged date of birth appears questionable, contact Ask PPD for guidance.<br>• If the spouse's date of birth is unknown, assume the spouse is the same age as the participant. |
| The participant was not receiving a QJSA, and the | Request that the spouse provide a copy of the court |

| | |
|---|---|
| surviving spouse subsequently claims QJSA benefits. | order dated prior to the participant's first payment date and reversing or vacating the court order submitted by the participant.<br>• If the court order is dated on or after the participant's first payment date, inform the surviving spouse that surviving spouse benefits are not payable.<br>• If the court order is dated after the participant's court order and before the participant's first payment date:<br>  • Convert the participant's benefit to a QJSA as of the participant's annuity starting date.<br>  • If the benefit conversion results in an overpayment or underpayment, handle the overpayment or underpayment according to Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments, Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery, and Policy 6.3-1 Underpayment Reimbursement and Interest Payments.<br>  • Pay the surviving spouse benefits. |

**Forgery Alleged**

Sometimes a spouse alleges that he/she did not sign a spousal consent form (that is, the signature giving consent was forged). If a spouse alleges that his/her signature was forged, the onus is on the spouse to provide a reasonable explanation and evidence of the forgery as the signature must have been witnessed by a ▸plan administrator or notarized.

**Forgery Alleged Table**

| Scenario | Action |
|---|---|
| A spouse alleges that he or she did not sign a spousal consent form. | • Inform the spouse that he or she may obtain a copy of the spousal consent form by contacting the PBGC Privacy Officer and requesting a copy of the form under ▸FOIA.<br>• Follow instructions from the Privacy Officer.<br>• Ask the spouse to call if he or she wishes to pursue survivor benefits. |
| The spouse wishes to pursue survivor benefits. | • Explain that:<br>  • The spouse must sign an affidavit and reimbursement agreement and have it notarized, and provide convincing evidence that the signature on the spousal consent is not authentic.<br>  • If the affidavit and evidence is received, PBGC will evaluate it and determine if additional investigation by its Inspector General is warranted.<br>  • If PBGC determines that benefits are payable, the spouse will be paid an adjusted surviving spouse benefit as provided under a QJSA, not the benefit that the participant was receiving. |

| | |
|---|---|
| | • Provide the amount of the benefit, the amount of any overpayment made to the participant, and net payment after recoupment. |
| The spouse indicates that he or she understands the requirements and wishes to pursue survivor benefits. | • Prepare a *Spousal Consent – Forgery Alleged Affidavit & Reimbursement Agreement*. Document the following on the affidavit:<br>  • Confirmation that the signature of the spousal consent is not his/her signature and why he/she believes the signature is not his/hers.<br>  • Why the spouse believes the plan administrator would have witnessed the signing of the consent by a person other than the spouse, or that the signature would have been notarized.<br>  • Why the signature was forged and by whom.<br>  • Other information about the signature that the spouse believes is relevant or material.<br>• Send the affidavit and request the spouse to provide evidence of the forgery. |
| The spouse returns a validly signed affidavit. | • Evaluate the information provided on the affidavit and evidence provided by the spouse.<br>• Look for facts and circumstances that reasonably support a finding that the signature may have been forged.<br>• Verify provided information as needed.<br>• Do not attempt to compare and analyze the signature on the affidavit with that on the spousal consent, as there are valid reasons that they may appear different although signed by the same person (that is, age or weakness, illness, emotional state, personal style). Only a specialist can determine if a signature is forgery. |
| The evaluation of the affidavit does not indicate that the signature may have been forged. | Notify the spouse that survivor benefits are not payable. |
| The evaluation of the affidavit indicates that the signature may have been forged. | Contact Ask PPD to ask for a review and approval to forward the allegation to the Inspector General's Office for further investigation. |
| The evaluation of the affidavit is inconclusive. | Contact Ask PPD for assistance. |

**Spousal Consent Missing**

A surviving spouse may claim that benefits under a QJSA are due when the participant elected another benefit form. An affirmation that spousal consent was not given is not usually required, but see below in this table.

**Spousal Consent Missing Table**

| Scenario | Action |
|---|---|
| Spousal consent is not in file and the surviving spouse claims benefits are due under a QJSA, but the participant elected another benefit form. The participant's annuity starting date was on or after 01/01/1985. | Proceed according to when the participant retired.<br>• Post-▸DOPT Retiree: Proceed according to the participant's annuity starting date.<br>  • Annuity starting date on or after 10/22/1986: Pay the surviving spouse benefit.<br>  • Annuity starting date before 10/22/1986: See |

| | |
|---|---|
| | below in this table for further guidance.<br>• Pre-DOPT Retiree: See below in this table for further guidance. |
| Spousal consent is not in file and the surviving spouse claims benefits are due under a QJSA, but the participant elected another benefit form. The participant is a post-DOPT retiree and annuity starting date was before 10/22/1986. | Determine whether the retiree was correctly paid in accordance with prior PBGC policy (see Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities) and the job aid *Summary of Qualified Joint and Survivor Annuity Requirements*).<br>• If the retiree was correctly paid, do not pay the surviving spouse benefit.<br>• If the retiree was not correctly paid, pay the surviving spouse benefit. |
| Spousal consent is not in file and the surviving spouse claims benefits are due under a QJSA, but the participant elected another benefit form. The participant is a pre-DOPT retiree. | • Determine whether the prior plan administrator routinely followed ▶REA requirements when placing pre-DOPTs retiree into pay.<br>  • Assume that the plan administrator followed REA requirements unless evidence is found to the contrary.<br>  • Review plan provisions and plan practice in effect as of the participant's annuity starting date for evidence that the plan administrator did not routinely follow REA requirements.<br>  • Ask the spouse to provide evidence that REA requirements were not followed.<br>• Pay the surviving spouse benefit only if evidence is found that the plan did not routinely follow the REA requirements. |
| Spousal consent is not in file and the surviving spouse claims benefits are due under a QJSA, but the participant elected another benefit form. The participant's annuity starting date was before 01/01/1985. | Determine whether the participant was issued a final ▶BDL.<br>• If the BDL was final, do not pay the surviving spouse benefit.<br>• If the BDL was not final or the participant was not issued a BDL, determine whether the surviving spouse benefit is payable as provided by the applicable plan provisions, regulations, and PBGC policy in effect as of the participant's annuity starting date (see Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities) and the job aid *Summary of Qualified Joint and Survivor Annuity Requirements*). |
| Surviving spouse benefits are payable. | • Convert the participant's benefit form to a QJSA as of the annuity starting date and pay the surviving spouse benefits.<br>• If the benefit change results in an overpayment or underpayment, see Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments, Policy 6.4-1 Repayment of Benefit Overpayments through Administrative Correction, Recoupment, and Recovery, and Policy 6.3-1 Underpayment Reimbursement and Interest Payments for guidance. |

**Spousal Consent Revoked**

**Spousal Consent Revoked Table**

| Scenario | Action |
|---|---|
| The spouse wishes to revoke consent. | See Policy 5.4-7 Annuity Benefit Forms for guidance. |

**Unlocateable Spouse**

**Unlocateable Spouse Table**

| Scenario | Action |
|---|---|
| A married participant, who does not want a QJSA, alleges that the spouse cannot be located. | • Inform the participant that:<br>  • The benefit must be paid as a QJSA unless spousal consent for another form of benefit is received or PBGC is unable to locate the spouse.<br>  • PBGC will attempt to locate and notify the spouse of his or her eligibility for spousal benefits.<br>  • PBGC will not provide information to the spouse about the participant or vice versa.<br>• Request that the participant provide the spouse's:<br>  • Married and maiden name(s) and any other name(s) the spouse used<br>  • Social Security Number (SSN)<br>  • Date of birth<br>  • Last known address |
| The participant is unable or unwilling to provide the spouse's ▸SSN. | • Pay the benefit as a QJSA.<br>• Do not attempt to locate the spouse. |
| The participant provides the spouse's SSN. | Use the Locator Program to verify the spouse's SSN. Consider the SSN verified if the information from the Locator Program appears to be that of the spouse, meaning information from the Locator query matches the spouse's name(s), date of birth and/or last known address. At a minimum, the name(s) must be a reasonable match. For example, if the spouse's married name is Susan Smith and maiden name is Susan Jones, a reasonable match would be Sue Smith or Sue Jones, Susie Smith or Susie Jones, or S. Smith or S. Jones. |
| The SSN cannot be verified (that is, information obtained from the Locator program is not a reasonable match). | • If not already in file, request proof of marriage and proof of spouse's age.<br>• Process the benefit as a QJSA (a new application is not required).<br>• Do not tell the participant whether the spouse was located or not, only which benefits are payable. |
| PBGC does not receive proof of marriage and spouse's age within 180 days of the letter sending the application. | • Assume the marriage exists.<br>• Calculate the benefit using the spouse's alleged date of birth unless it appears questionable.<br>• If the spouse's alleged date of birth appears questionable, contact Ask PPD for guidance.<br>• If the spouse's date of birth is unknown, assume the spouse is the same age as the participant. |
| The spouse's SSN is verified. | Use the most recent address provided by the Locator Program to contact spouse, initially by telephone, and |

| | |
|---|---|
| | subsequently in writing, as needed. |
| The spouse cannot be contacted by telephone and mail (mail to the most recent address is returned without forwarding information). | • Treat the participant as unmarried: he or she may elect the plan's automatic form for unmarried participants or a PBGC optional form without spousal consent.<br>• Do not tell the participant whether the spouse was located or not, only which benefits are payable. |
| PBGC successfully contacts the spouse. | • Explain to the spouse:<br>  • The participant has applied for a benefit and is entitled to a QJSA, which provides a survivor benefit for the spouse.<br>  • PBGC will not provide information to the participant about the spouse or vice versa.<br>  • The spouse will be notified in writing, even if he or she does not intend to give consent, because he or she must be able to make an informed decision.<br>• Advise the spouse that the participant may elect another form of benefit that may not provide the spouse with a survivor benefit if the spouse consents.<br>• Verify the spouse's address and telephone number. Place this information in the IPS file with a note that this information relates to an "unlocated" spouse and may not be provided to the participant.<br>• Send a letter of explanation, with page 3 of *Form 700 Participant's Application for Pension Benefits* (only write in the name of the participant and no other identifying information) and a retirement estimate. |
| The spouse completes and returns the waiver within 45 days. | • Image the form in the participant's file.<br>• Annotate the image that the form relates to an "unlocated" spouse and may not be provided to the participant.<br>• Inform the participant that he or she may elect the automatic form for unmarried participants or a PBGC optional form.<br>• Do not tell the participant whether the spouse was located or not, only which benefits are payable. |
| The spouse does not complete and return the waiver within 45 days (including no response. | • If the participant did not elect the QJSA:<br>  • Require a new application to obtain a benefit form election for the QJSA.<br>  • If not already in file, request proof of marriage and proof of spouse's age.<br>• If the participant elected the QJSA, process the benefit.<br>• Do not tell the participant whether the spouse was located or not, only which benefits are payable. |

Top of Page

**TP 20.5F Lump Sums**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

Use the following tables to identify specific scenarios and determine the appropriate action:

- Large Reimbursements Table
- Pre-$5,000 (P5K) De Minimis Lump-Sum Benefits Table

**Large Reimbursements**

**Large Reimbursements Table**

| Scenario | Action |
|---|---|
| The underpayment, including ▸interest, is greater than $5,000 and greater than three times the monthly ▸benefit. | Apply ▸rollover rules in Appendix R 1 Federal Tax Withholding. Pay as a ▸lump sum:<br>• Use the appropriate ▸eALG letter (see eALG Correspondence Help) to notify the payee and provide the lump-sum tax withholding options.<br>• After the ▸payee submits an application for a lump-sum payment, follow TP 20.4 Process Lump Sum Applications and make payment accordingly. |

**Pre-$5,000 (P5K) de Minimis Lump-Sum Benefits**

Effective July 16, 1998, PBGC raised its ▸*de minimis*▸ benefit amount to $5,000. ▸BDLs issued since July 16, 1998, have informed ▸participants that benefits with a present value of benefit of $5,000 or less as of ▸DOPT are payable in a ▸lump sum and ▸benefits with a present value of more $5,000 will be paid as an ▸annuity. In addition, a benefit that was non-*de minimis* under earlier regulations and policy, may be payable in a lump sum for a participant who was alive on DOPT and on July 16, 1998. From July 16, 1998 through March 9, 1999, PBGC conducted the P5K project to offer lump sums instead of annuity payments to certain participants (P5K participants) to whom a benefit determination was issued before July 16, 1998.

**Pre-$5,000 (P5K) de Minimis Lump-Sum Benefits Table**

| Scenario | Action |
|---|---|
| The participant is a living P5K participant. | Pay the benefit as a lump sum if:<br>• The present value of the benefit was $5,000 or less as of DOPT.<br>• A benefit determination for an annuity was sent to the participant before January 16, 1998 (that is, the participant was a deferred vested entitled to a future benefit at DOPT under previous de minimis rules).<br>• A lump sum has not already been paid.<br>• An annuity is not already in pay status.<br>• Upon receipt of a completed lump-sum application with spousal consent to the lump-sum payment. Spousal consent is required because the spouse is waiving the right to a ▸QPSA or ▸QJSA that may be associated with the benefit. |
| The participant is a deceased P5K participant and DOPT is on or after 08/23/1984. | Proceed according to when the participant died:<br>• **Before 07/16/1998:** The surviving spouse may |

| | |
|---|---|
| | elect a lump sum equal to the present value of the QPSA benefit (not the participant's benefit) as provided in Policy 5.7-2 Payment of Qualified Preretirement Survivor Annuities in Plans Terminating on and after August 23, 1984. If there is no surviving spouse, a lump sum is not payable.<br>• **On or after 07/16/1998:** The surviving spouse may elect to receive a lump sum equal to the value of the participant's benefit (not the QPSA benefit) or to receive a QPSA benefit. If there is no surviving spouse, a lump sum is payable to the beneficiary determined under Policy 8.6-1 Payments to Beneficiaries. |

**TP 20.5G Payments before Trusteeship**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

PBGC sometimes begins paying ▸benefits prior to ▸DOTR. PBGC pays estimated guaranteed ▸annuity benefits as if the plan were trusteed, but does not pay ▸lump-sum benefits until the plan is trusteed. PBGC pays back payments and other amounts (underpayments) owed beginning on the pre-trusteeship authorization date, as established in the *Authorization to Pay Participants before Trusteeship*. Other missed payments will be reimbursed after trusteeship. See Policy 3.4-1 Benefit Payments Prior to Trusteeship, Policy 5.4-7 Annuity Benefit Forms, and TP 20.5B Applications for additional guidance.

**Payments before Trusteeship Table**

| **Scenario** | **Action** |
|---|---|
| The applicant submits a valid plan application for guaranteed annuity benefits prior to ▸DOTR. | Accept the application. |
| A potential applicant requests an application prior to DOTR. | Issue a PBGC annuity application and statement showing the PBGC optional benefit forms (see TP 20.1 Determine Eligibility and Issue Application). |
| A potential applicant requests a lump sum application, or the estimated benefit is *de minimis*. | Inform the applicant that he or she may elect an annuity payment (if eligible) or defer receipt of a lump sum (if the benefit is *de minimis*) until after the plan is trusteed (see TP 20.4 Process Lump-Sum Applications). |
| A plan that is not yet trusteed has participants who are or are in danger of being out of pay status. | See 9.1B Ensure Uninterrupted Payments for Plans Not Yet Trusteed. |

**TP 20.5H Power of Attorney or Guardianship Table**

**07/01/2016**

**EBLS/PBA/FBA/PVA**

Powers of attorney (▸POA) or guardians, if authorized, may apply for PBGC ▸benefits and designate a ▸beneficiary on behalf of a ▸participant or other applicant.

**Power of Attorney or Guardianship Table**

| Scenario | Action |
|---|---|
| An individual claiming to hold power of attorney for, or be the guardian of, an applicant submits an application. | See TP 49 Power of Attorney and Guardianship and Policy 8.4-1 Power of Attorney and Guardianship for guidance. |

**TP 20.5I Payments to Minor Children**

**07/01/2016**

**EBLS/PVA/FBA**

In most states, a minor child is a child under the age of 18. A minor child's biological or adoptive parent or guardian may apply for benefits on behalf of the child. In some situations, an emancipated minor child may also file for benefits.

**Payments to Minor Children Table**

| #. | Scenario | Action |
|---|---|---|
| 1. | Biological or adoptive parent requests or applies for benefits on behalf of a child.<br><br>**Note** If PBGC receives an allegation or evidence that the parent's parental rights have been terminated under state or local law, or that a state or local court appointed a guardian for the child, follow instructions in rows 2, 3 or 4 as appropriate. If a minor child requests or applies for benefits, see row 4. | • Require proof of the parental relationship (usually, the child's birth certificate or adoption certificate). A minor child's biological or adoptive parent does not have to provide proof of guardianship for the child.<br>• Have the parent complete the application using information for the child.<br>• Have the parent sign his or her own name on the application, not the child's name.<br>If the child is age 13 or older, accept (but do not require) the child's signature in lieu of the parental signature as long as there is evidence of parental involvement in pursuing the claim (for example, record of a phone call with the parent or guardian regarding the child's benefit or the parent submits proof documents on behalf of the child).<br>• Make payment in the child's name using the child's social security number. Send the check to the address as shown on the application or as requested by the child's parent or guardian.<br>• If the payment is an ▶EDD, pay only into an account with the child's name on it. |
| 2. | Guardian requests or applies for benefits on behalf of a child. | • Require proof of the guardianship and determine if the guardianship is acceptable following instructions in TP 49 Power of Attorney and Guardianship.<br>• If the guardianship is acceptable, have the guardian complete the application using information for the child.<br>• Have the guardian sign his or her own name on the application, not the child's name.<br>If the child is age 13 or older, accept (but do not require) the child's signature in lieu of the guardian’s signature.<br>• Make payment in the child's name using the child's social security number. Send the check to the address as shown on |

| | | |
|---|---|---|
| | | the application or as requested by the guardian.<br>• If the payment is an EDD, pay only into an account with the child's name on it. |
| 3. | Other person requests or applies for benefits on behalf of a child (for example, another relative such as, a grandparent or sibling; a stepparent or foster parent; or a friend or acquaintance requests the benefits). | • Advise the person requesting or applying for benefits on behalf of the child, that an application can only be accepted from an emancipated child, the child's biological or adoptive parent, or guardian. |
| 4. | Minor child requests or applies for benefits. | • Determine if the child is an emancipated child, meaning that the child has become independent of their parents (some or all of the parental rights of the parents have been given to the child for important legal purposes) usually by a court order or decree.<br>If so, ask the child to provide a copy of the court order or decree granting emancipation. If the child provides a copy of the court order granting emancipation, contact ASK PPD; ▸PPD will get ▸OCC/▸OGC concurrence on whether the court order must be followed.<br>If the court order must be followed, treat the child as an adult in applying for benefits – no other special action is required.<br>• If the child is not emancipated or does not provide a copy of a court order granting emancipation, request information (name, relationship, address, telephone number) about the child's biological or adoptive parents, guardian, custodian or other person who is responsible for the child. Ask the child to have that person contact PBGC.<br>If the person who is responsible for the child does not contact PBGC within a week, contact ASK PPD. PPD will obtain concurrence from the Disclosure Officer on whether that person may be contacted (meaning such contact does not cause a privacy breach) to apply for benefits on behalf of the child.<br>Follow the guidance received from PPD. |

Top of Page

**TP 20.5K Slayer Exception**

**07/01/2016**

Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a slayer exception).

**Slayer Exception Table**

| Scenario | Action |
|---|---|
| A beneficiary convicted of killing the participant applies for benefits. | Contact Ask PPD for guidance. Include in the e-mail the actual crime that the conviction is for, the state where the conviction took place, and the source of PBGC's information about the conviction. |
| PBGC learns that a beneficiary currently or previously in pay was convicted of killing the participant. | Contact Ask PPD for guidance. Include in the e-mail the actual crime that the conviction is for, the state where the conviction took place, and the source of PBGC's information about the conviction. |

**TP 20.5L Third Party Payment Requests**

**07/01/2016**

A Third Party Payment request is a request to send a benefit payment to another person or an account that does not bear the ▸payee's name. PBGC may honor requests to pay 100% of the net benefit after federal income tax withholding (but not less) of a payee's benefit to a third party. PBGC cannot implement a third party payment request based on a phone call. The request must be confirmed and approved in writing by both parties.

Upon receipt of a third party payment request, complete the following actions:

1. Contact the payee and confirm the third party payment request, advising the payee of PBGC's requirements. Record all details of the contact in ▸CRM.

   If the request was made for a customer by a guardian or an agent under a durable Power of Attorney (▸DPOA), refer the situation to the ▸POA Coordinator to confirm whether the principal has the authority to execute a third party payment request on the payee's behalf. This is possible only when the principal has been determined incompetent based on at least one written assertion from one licensed physician. See Policy 8.4-1 Power of Attorney and Guardianship and TP 49 Power of Attorney and Guardianship for guidance.

2. Refer the request to Ask PPD if the request is from the customer or from a guardian or agent whom the POA Coordinator has confirmed may make the request.

   ▸PPD will provide a Sample Agreement to Third Party Payment and a letter template to send to the requestor.

3. Customize the letter and send the Sample Agreement to the requestor.

   The payee must draft an Agreement to Third Party Payment that meets PBGC's requirements (as explained in the letter and demonstrated in the Sample Agreement), and return the completed agreement with the payee's and the third party's signatures. (PBGC is not a party to the agreement. PBGC simply makes the payment in accordance with the agreement between the payee and the third party.)

4. When the agreement is received, review the agreement for completeness.

   If the payee's signature on the agreement is more than 45 days old, contact the payee and confirm the request is still valid.

5. Forward the completed agreement to Ask PPD for review.

6. Proceed based on PPD's decision to approve the agreement:
   - **PPD approves the agreement:** PPD will provide appropriate letter templates to notify the payee and the third party that the agreement has been approved. Change the payment destination in ▸Spectrum to reflect the third party's payment information, and customize the notification letters to reflect the date the payments will begin to be made to the third party.
   - **PPD does not approve the agreement:** PPD will provide the reason(s) for rejecting the agreement and a letter template for informing the payee that the agreement was not approved.

7. Ensure that the signed agreement, any other related correspondence from the payee or the third party, PPD's approval or rejection of the agreement, and the notification letter(s) are imaged into the participant's ▸IPS file.

## TP 20.6 Resources for Benefit Payments

**09/30/2016**

**Forms, Letters, and Memos:**

- *Authorization to Pay Participants before Trusteeship*
- *Special Tax Notice Regarding PBGC Non-Periodic Payments*
- *Spousal Consent – Forgery Alleged Affidavit & Reimbursement Agreement*
- *Summary of Qualified Joint and Survivor Annuity Requirements*

**Customer Correspondence and Forms:**

# TP 21 Change Benefit/Payment Amount

**In this Section**

TP 21. Overview for Change Benefit/Payment Amount
TP 21.1 Identify Changes to Pay System
TP 21.2 Implement Change
TP 21.3 Resources for Change Benefit/Payment Amount

## TP 21. Overview for Change Benefit/Payment Amount

**06/27/2013**

This technical procedure outlines the processing associated with changes to a ▸payee's total benefit and/or net payment, and changes to valuation data for non-payees, including the necessary revisions to ▸Spectrum. These changes may occur at anytime in response to a variety of situations. Changes to a payee's benefit and/or payment typically occur within the following broad categories:

- Changes In Total Benefit (Gross Amount)
- Changes To The Net Payment

**TP 21. Overview: Changes in Total Benefit (Gross Amount)**

**03/30/2016**

Some changes to a payee's gross benefit may require creating a new benefit for a new ▸payee. Examples of instances that require the establishment of a new account include putting a surviving spouse or beneficiary into pay upon the death of a participant or an alternate payee into pay at the proper time. To open a second account, see TP 20 Benefit Payments.

Change in a payee's gross benefit amount may occur at any time in response to any of the following situations:

- **Plan Assumption**

  When PBGC assumes payment responsibility for a plan (See Process 9 Plan Assumption), benefit payments for participants in pay status may be adjusted to reflect estimated guaranteed benefits. This process is described in Process 10 Benefit Adjustments.

- **Change in estimated benefit**

  Follow Process 10.4 Identify Current Payees for Benefit Adjustments.

- **Final amount in Benefit Determination Letter differs from estimated benefit**
  - ▸Annuity: the benefit may be increased or decreased.
  - Lump-sum: PBGC pays a ▸residual benefit amount (see Policy Bulletin 00-6: Residual Lump Sum Distributions) or recovers an overpayment, see TP 6 Recover Overpayments.

  The benefit adjustment, also called the 45-day change, is described in Process 19 Benefit Determination Letters--Overview and is based on outputs from the Valuation Processes.

- **Benefit corrected following successful appeal**

  If a participant successfully appeals a BDL, any required change in the benefit is also an adjustment. Adjustments resulting from appeals are included in Process 20 Appeals Correspondence.

- **Revised benefit based on error**

  A "final" benefit may be changed to correct an error identified by PBGC. PBGC does not change a benefit unless it documents and explains the error. Generally, any error discovered will be corrected in the first year after the BDL is final. After that, there are limits on changes. See Policy 5.8-1: Benefit Corrections for further information on the issuance of revised Benefit Determination Letters.

- **Payments suspended/terminated when proper documentation not received timely**

  Benefits may be suspended/terminated if a current payee does not provide a completed application or other necessary documents.

- **Benefit change resulting from form of payment**

  A Participant is receiving a form of benefit payment that automatically requires that the benefit be adjusted upon a certain event or at a certain age. One example of this payment method is the Social Security Leveling Option. Participants may also have a benefit form that includes a temporary supplemental payment, once the period for the temporary supplement expires, the benefit amount will have to be adjusted.

- **Benefit change resulting from QDRO**

  A participant's benefit may be reduced by the amount stipulated in the QDRO for the alternate payee, see TP 13 Domestic Relations Orders and State Agency Orders.

- **Change in payment frequency**

  If a payee receiving an ▸annual payment requests a change in their payment frequency to monthly, PBGC will make the change. (See Policy 5.4-3: Frequency of Benefit Payments.)

- **Disability benefit cessation or disability-based benefit change**

  A payees disability benefit or a disability-based benefit may be terminated or reduced if the payee ceases to be disabled or fails to provide PBGC with required self-certification (for example, Form 716 or 716A) that they are still disabled.

Top of Page

**TP 21. Overview: Changes to the Net Payment**

**03/30/2016**

There are also changes that affect the net payment but not the gross benefit. In some of these situations, the difference between the net payment and the gross benefit is accounted for in ▸Spectrum as a deduction that is assigned to another account or payee. Other types of situations involving a change in the net payment do not necessarily require entry of a deduction into Spectrum. Changes to the net payment include:

- **QDRO**

  A ▸QDRO may specify a payment to an ▸alternate payee. For this type of QDRO, a deduction is made from the participant's benefit, see TP 13.4 Make QDRO Payments.

- **Net Overpayment/ Recoupment**

  PBGC needs to recoup a net overpayment made to the payee (this change would usually happen at the same time as a downward adjustment to the gross benefit amount). For more details see TP 7 Recoupment.

- **Change in tax withholding**

  A payee elects to change the withholding amount for Federal Income Tax, see Appendix R Assignment and Withholding From Benefit Payments.

## TP 21.1 Identify Changes to Pay System

**07/01/2016**

| | |
|---|---|
| **Purpose** | Determine required changes to payee records in Spectrum to effect the change in benefit payment or amounts. |
| **Guidance** | Policy 5.4-3 Frequency of Benefit Payments<br>Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities)<br>Policy 6.7-1 4022(c) Amounts<br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

1. Review ▸payee information to determine the type and effective dates of the needed change, confirm the payee is in pay status.
   - ▸Spectrum
   - ▸Participant file (▸PBGC Image Viewer)
   - ▸CRM Records
2. Use Spectrum to review all ▸benefit information, update the payment if required, and forward for approval.
3. If implementing a change as a result of a ▸QDRO, ensure that benefit payment stipulations in the QDRO are met. See TP 13 Domestic Relations Orders and State Agency Orders.
4. If making changes as a result of a recoupment situation, use ▸PACS to determine the amount to recoup and recoupment end date. Follow instructions in TP 7 Recoupment to determine recoupment deductions.

## TP 21.2 Implement Change

**07/01/2016**

| | |
|---|---|
| **Purpose** | Change XRD monthly benefit, payment amount or data in Spectrum. |
| **Required Input and Source** | Determination of the type of change that is needed from review of participant file, CRM and Spectrum records, instructions from actuary. |
| **Output and Recipient** | Change to Spectrum. |
| **Control Issues** | The exact date of the change depends on the notification requirements behind the reason for the change. For additional information, see the process or technical procedure describing the situation that necessitates the change. |
| **Important Concepts** | The amount and type of deduction must be identified for all decreases that are deductions. Spectrum automatically implements a queued increase when the BEGIN DATE arrives, if Spectrum properly reflects the correct dates and payment amount for a change. |
| **Guidance** | Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br>Policy 6.6-2 Assignment and Alienation of Benefits<br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

1. Upon receipt of a properly documented change take appropriate action in ▸Spectrum:
   - For changes as a result of a ▸QDRO, see TP 13 Domestic Relations Orders and State Agency Orders.
   - For changes in federal tax withholding, for which PBGC has received notice from the participant, enter the new information in Spectrum.
   - For IRS Levies, see Appendix R 2 IRS Levies.
   - To change an ▸annual payment to a monthly payment in response to a participant's request, change the frequency code in Spectrum to reflect monthly payments and use the next pay source with the correct monthly amount and BEGIN and END dates.
2. If a change was made to Spectrum, forward the record for approval as needed. See TP 28 Approve Financial & Non-Financial Transactions through Approval Service.
3. Image the request for changes from the actuary to the participant's ▸IPS file.

## TP 21.3 Resources for Change Benefit/Payment Amount

**09/30/2016**

**Forms, Letters, and Memos:**

*IRS Levy Cover Sheet for SSC*

**Customer Correspondence and Forms:**

*Form 719 - Election to Withhold Federal Income Tax from Periodic Payments*

**Guidance:**

- *Policy 5.4-3 Frequency of Benefit Payments*
- *Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities)*
- *Policy 6.3-1 Underpayment Reimbursement and Interest Payments*
- *Policy 6.6-2 Assignment and Alienation of Benefits*
- *Policy 6.7-1 4022(c) Amounts*
- *Spectrum User Manual*

**Exhibits:**

# TP 22 Secure Records

**In this Section**

TP 22. Overview for Secure Records
TP 22.1 Secure Records
TP 22.2 Resources for Secure Records

## TP 22. Overview for Secure Records

**07/01/2016**

Use this procedure *only* when it has been determined that records are in danger of being lost, disposed of, or destroyed and use the *OBA Records Management Policy & Procedures Manual* as a guideline for protecting these records. Often, this will come in the form of a call from an outside contact, such as a ▸participant, or the ▸plan administrator notifying PBGC that the company is abandoning the plan. A common scenario is when management of the building where records are stored is evicting the tenant who is ▸custodian of the records or auctioning the bankrupt company's office furniture in an effort to recover back rent or other debt owed.

It may be necessary to secure records before *or* after trusteeship. When occurring before trusteeship, ▸CFRD makes a ▸task referral to ▸CMD and the divisions work together to secure the records. When occurring after trusteeship, ▸OBA secures the records alone.

## TP 22.1 Secure Records

**07/01/2016**

| | |
|---|---|
| **Purpose** | Protect plan and participant records to ensure that required records are not lost or destroyed. |
| **Required Input and Source** | Location of records, contact person |
| **Output and Recipient** | Secured records |
| **Control Issues** | Monitor status of security of records (verify periodically) |
| **Important Concepts** | CFRD attempts to arrange for records to be secured by the plan administrator or bankruptcy trustee. If loss of records is imminent, CFRD (if prior to termination) and OBA will attempt to secure them. In emergency cases, work closely with the CMD Case Management Analyst, any contractor resources that might be of assistance, and CFRD. |
| **Guidance** | *OBA Records Management Policy & Procedures Manual*<br><br>ERISA 4003 grants PBGC the right to investigate defined pension plans and subpoena necessary materials. |
| **Procedure Owner** | Case Team. If the case is still in CFRD, the Case Team works with the person in CFRD assigned to the case. |

The *OBA Records Management Policy & Procedures Manual* provides guidelines for protecting ▸plan and ▸participant records to ensure that required records are not lost or destroyed.

1. Call the ▸plan sponsor/administrator or bankruptcy ▸trustee to establish location(s) of records. For small numbers of records, arrange for them to be shipped to PBGC.
2. Explain the importance of the records, and request that they be safeguarded. Suggest a time frame within which PBGC will obtain copies of the records. It may be necessary to take an emergency field trip, have a contractor resource make an emergency field trip, or to have the ▸plan administrator store records in a warehouse at PBGC's expense. Coordinate all emergency field trips with the Case Management Analyst.
   - If making an emergency field trip, follow Process 11.2 Perform Site Visit.
   - If having a contractor resource secure the records, establish contact between the contractor resource and the plan administrator or other ▸custodian of the records and explain that the contractor resource is acting as PBGC's representative in securing the records.
   - If arranging to have records stored at PBGC expense, contact the plan administrator to arrange movement of records to a storage facility. Obtain information about the location and phone/fax numbers of the storage facility and establish contact with the facility's administrator. Send a follow-up letter documenting the conversation and put a copy of the letter in the plan file. If arranging storage requires making a field trip, follow Process 11.2 Perform Site Visit. If possible, avoid using storage completely by doing the site visit at once.
3. Depending on the number of participants in the plan, it may be possible to bring the secured records back to PBGC or the ▸FBA office at least temporarily. If the volume of records is large enough that space will be a problem, arrange for storage at a storage rental facility near the current location of the records. When selecting a site, keep in mind that the place where records are located may also be the place where those building the database will have to work.

# TP 23 Coordinate Large Cases

**In this Section**

TP 23. Overview for Coordinate Large Cases
TP 23.1 Coordinate Large Cases
TP 23.2 Resources for Coordinate Large Cases

# TP 23. Overview for Coordinate Large Cases

**07/01/2016**

### What is a Large Case and an OBA Large Case Working Group

A ▸large case is defined as a plan or group of plans with 10,000 participants or $5 million or more of unfunded benefit liabilities (UBL). With large cases, the Chairperson of the Large Case Working Group (▸OBA LCWG) creates a plan-specific OBA LCWG that coordinates all departments within PBGC to oversee initial planning, status tracking, and resource identification for the case processing of a large plan or family of plans.

### Who are Members of the OBA Large Case Working Group

The OBA LCWG is an interdepartmental working group that contains members or representatives of groups identified in the ▸Groups Represented in the OBA LCWG Table. However, the OBA LCWG is not limited to these groups.

The Chairperson may invite others with specific skills, knowledge, or information as necessary for each OBA LCWG, and invitees may delegate to other personnel.

▸OBA can assign large cases to ▸FBA contractors, actuarial contractors, and evaluation and review contractors, as needed.

### Purpose of the OBA Large Case Working Group

The OBA LCWG seeks to identify legal and policy issues up front and find resolutions early in the case processing cycle. Milestones required on a large case are essentially the same as for all other plans; however, there is a significantly larger amount of planning and coordination involved. Coordination and cooperation between all departments involved with the case is important. Large cases require additional communications and use documented exceptions to standard case processing procedures. Normally, a large case does not close within 24 months. Large cases have much higher visibility both externally and internally to PBGC and receive attention from the Office of the Director (OD).

### OBA Large Case Working Group Meetings

The OBA LCWG meets on a regular basis to discuss the case and actions relating to it. These meetings can begin prior to the case going to the Trusteeship Working Group (TWG) and continue, as needed, through the plan processing life cycle. The OBA LCWG identifies potential and known problems, issues, or concerns and acts to prevent or solve them before they adversely affect a case. By focusing on plan issues early during case processing, OBA is able to more efficiently and effectively perform plan processing tasks, as well as provide excellent customer service to a large number of participants.

To assist in OBA LCWG communications, the Global Address List (GAL) in Microsoft Outlook contains a distribution list labeled OBA **LCWG** for e-mail/notification purposes.

## TP 23.1 Coordinate Large Cases

**07/01/2016**

| | |
|---|---|
| **Purpose** | To coordinate the OBA Large Case Working Group (LCWG) to ensure initial planning is done, issues are tracked, problems are resolved, and resources are identified and obtained for a large plan or family of plans |
| **Guidance** | N/A |
| **Procedure Owner** | OBA Large Case Working Group Chairperson |

The ▸OBA LCWG Chairperson establishes an ▸OBA LCWG from information obtained at the ▸TWG meetings and/or information received from ▸CFRD.

### OBA Large Case Working Group Chairperson

1. Identify the need for and establish an OBA LCWG.
2. Prior to the first OBA LCWG meeting, request the *Case Contact Sheet* from CFRD.
3. Schedule first OBA LCWG meeting and invite the representatives identified in the ▸Groups Represented in the OBA LCWG Table.
4. Send a meeting agenda that includes:
   - Pertinent items about the ▸plan and, if applicable, scheduled times for each agenda item.
   - Request for *Case Contact Sheet* from CFRD, if not already received.
5. Hold OBA LCWG meeting.

   At the initial meeting, CFRD and/or ▸OCC provide information on the status of the termination and trusteeship of the case.
6. Document the meeting minutes:
   - Complete the minutes within three business days after the meeting.
   - Send to the meeting attendees, who are given five business days to review.
   - Send the final meeting minutes to attendees of the meeting, OBA LCWG distribution list, and others at the Chairperson's discretion.
7. Hold additional OBA LCWG meetings as needed.

   **Note** The OBA LCWG meetings occur in the early stages of the case processing of a plan.

### Case Team

8. Establish and use the case work plan to identify the target dates for accomplishing significant milestones for the plan (s) and identifying the responsible parties. See Process 8.5 Plan Case and Create Case Work Plan.

# TP 25 Small Plan Average Recovery Ratio (SPARR) and Small Plan DUEC Recovery Ratio (SPDRR)

**In this Section**

TP 25. Overview for Small Plan Average Recovery Ratio (SPARR) and Small Plan DUEC Recovery Ratio (SPDRR)
TP 25.1 Determine the Small Plan Average Recovery Ratio
TP 25.2 Determine the Small Plan DUEC Recovery Ratio
TP 25.3 Resources for Small Plan Average Recovery Ratio (SPARR) and Small Plan DUEC Recovery Ratio (SPDRR)

## TP 25. Overview for Small Plan Average Recovery Ratio (SPARR) and Small Plan DUEC Recovery Ratio (SPDRR)

**07/01/2016**

This technical procedure describes how PBGC determines the ▸Small Plan Average Recovery Ratio (SPARR) and ▸Small Plan DUEC Recovery Ratio (SPDRR), as described in Policy 6.7-1 4022(c) Amounts and Policy 6.7-2 DUEC Recovery Amounts, respectively. It also describes the information used to determine the SPARR, and when and how it is announced within PBGC.

The SPARR is the average recovery ratio of PBGC's recovery experience for ▸Unfunded Benefit Liabilities (UBL), and the SPDRR is the average recovery ratio of PBGC's recovery experience for ▸Due and Unpaid Employee Contributions (DUEC) for all ▸distress terminations and ▸PBGC-initiated terminations, regardless of plan size or sufficiency, with ▸Termination Initiation Dates (TID) in the SPARR period and SPDRR period, as applicable.

The SPARR is used to determine ▸4022(c) benefits, and the SPDRR is used to determine the value of a terminated plan's assets for benefit calculation purposes (1) for plans with ▸Unfunded Nonguaranteed Benefits that do not exceed $20 million, and (2) PBGC has determined the value of its recoveries under ERISA Section 4062(c) as of the SPARR and SPDRR Calculation Dates. (See Process 17.1E Determine ERISA §4022(c) Amount and Benefits Payable.)

The SPARR is computed by dividing the sum of the UBL recoveries for all plans to be included in that SPARR by the sum of the UBL claims for those plans. The SPDRR is computed by dividing the sum of the DUEC recoveries for all plans to be included in that SPDRR by the sum of the DUEC liability claims for those plans.

The SPARR and SPDRR are calculated by the SPARR & SPDRR Coordinator, ▸MCD, and upon concurrence by the Chief of Benefits Administration are announced within ▸OBA. SPARRs and SPDRRs are listed in Appendix H Historical SPARR and SPDRR Information.

# TP 25.1 Determine the Small Plan Average Recovery Ratio

**07/01/2016**

| | |
|---|---|
| **Purpose** | Determine the Small Plan Average Recovery Ratio (SPARR) for a particular year. |
| **Guidance** | ERISA 4062(b)<br>ERISA 4063<br>ERISA 4064<br>Policy 6.7-1 4022(c) Amounts<br>Policy 8.2-1 Valuation and Allocation of Recoveries |
| **Procedure Owner** | SPARR & SPDRR Coordinator, MCD |

1. Run the **CMS SPARR Report** as of the ▸SPARR Calculation Date. The report will include all plans that have a ▸Termination Initiation Date (TID) within the applicable SPARR Period. Note that the calculation of a ▸SPARR will be done as of a SPARR Calculation Date. (See Appendix H Historical SPARR and SPDRR Information for historical listing of SPARRs). However, assets, liabilities, and recovery amounts finalized and used in the prior fiscal year's SPARR will be fixed for all subsequent applicable fiscal year SPARR calculations.

   **Example:**

   For calculation of the FY 2007 SPARR, the

   **CMS SPARR Report**

   includes all SPARR plans with a ▸TID of 10/01/1999 through 09/30/2004.

2. Verify data on **CMS SPARR Report** against information on *Recovery Determination Memos* in ▸PBGC Image Viewer. Resolve any discrepancies with ▸CFRD.
3. Ensure that the following information in the ▸CMS SPARR Calculation Table is available to perform the calculation.
4. Within 20 days of the applicable SPARR Calculation Date, calculate the SPARR (expressed as a percentage rounded to the nearest hundredth) using the information identified and verified above, and shown in the ▸SPARR Equation Table.

   > **Note** Once calculated, a SPARR is fixed. The SPARR is not updated to reflect a subsequent adjustment to the value of a recovery for a plan. The adjusted recovery value will be reflected in SPARRs calculated after the date of the adjustment.

5. Once both the SPARR and SPDRR (see TP 25.2 Determine the Small Plan DUEC Recovery Ratio) have been determined, prepare and send the *SPARR and SPDRR Notification Memo* from the ▸MCD Manager to the Chief of Benefits Administration for concurrence.
6. Once the Chief of Benefits Administration concurs on the SPARR, announce to affected users and request that ▸PPD add the SPARR to Appendix H Historical SPARR and SPDRR Information.

## TP 25.2 Determine the Small Plan DUEC Recovery Ratio

**07/01/2016**

| | |
|---|---|
| **Purpose** | Determine the Small Plan DUEC Recovery Ratio (SPDRR) for a particular year. |
| **Guidance** | ERISA 4062(b)<br>ERISA 4063<br>ERISA 4064<br>Policy 6.7-2 DUEC Recovery Amounts<br>Policy 8.2-1 Valuation and Allocation of Recoveries |
| **Procedure Owner** | SPARR & SPDRR Coordinator, MCD |

1. Run the **CMS SPDRR Report** as of the ▸SPDRR Calculation Date (equivalent to the ▸SPARR Calculation Date). The report will include all plans that have a ▸Termination Initiation Date (▸TID) within the applicable SPDRR Period. Note that the calculation of a SPDRR will be done as of a SPDRR Calculation Date. See Appendix H Historical SPARR and SPDRR Information for historical listing of SPDRRs. However, ▸DUEC claims and DUEC recovery amounts finalized and used in the prior fiscal year's SPDRR will be fixed for all subsequent applicable fiscal year SPDRR calculations.

   **Example:** For calculation of the FY 2007 SPDRR, the **CMS SPDRR Report** will include all SPDRR plans with a TID of 10/01/1999 through 09/30/2004.

2. Verify data on **CMS SPDRR Report** against information on the *Pension Information Profile* and *Recovery Determination Memos* in ▸PBGC Image Viewer. Resolve any discrepancies with ▸CFRD.

3. Ensure that the following information is available in the ▸CMS SPDRR Calculation Table to perform the calculation.

4. Within 20 days of the applicable SPDRR Calculation Date, calculate the SPDRR (expressed as a percentage rounded to the nearest hundredth) using the information identified and verified above and shown in the ▸SPDRR Equation Table.

   > **Note** Once calculated, a SPDRR is fixed. A SPDRR is not updated to reflect a subsequent adjustment to the value of a recovery for a plan. The adjusted recovery value will be reflected in subsequent SPDRRs calculated after the date of the adjustment.

5. Once both the ▸SPARR (see TP 25.1 Determine the Small Plan Average Recovery Ratio) and SPDRR have been determined, prepare and send the *SPARR and SPDRR Notification Memo* from the ▸MCD Manager to the Chief of Benefits Administration for concurrence.

6. Once the Chief of Benefits Administration concurs on the SPDRR, announce to affected users and request that ▸PPD add the SPDRR to Appendix H Historical SPARR and SPDRR Information.

# TP 26 Request SSA Data

**In this Section**

TP 26. Overview for Request SSA Data
TP 26.1 Initiate Request for SSA Data
TP 26.2 Request SSA Earnings/Employment Data
TP 26.3 Manage and Safeguard SSA Data
TP 26.4 Resources for Request SSA Data

## TP 26. Overview for Request SSA Data

**01/31/2017**

PBGC may request earnings and employment data from ▸SSA in order to verify:

- That a customer is part of a ▸plan's population at ▸DOPT.
- A ▸participant's date of hire and/or ▸date of termination of employment.
- A customer's employment under a related pension plan.

PBGC also requests SSA earnings data needed to calculate benefits when no other data source is available. However, PBGC does not request SSA data in order to validate earnings from a data source.

### Authorizing SSA Data Requests

The *SSA Form 581 Authorization to Obtain Earnings Data from SSA*, used by PBGC to request earnings data generally requires the participant's (or ▸beneficiary's) signature. The participant's signature is valid for only 60 calendar days. If the signature is by a **mark** the requirements of Policy 8.5-1 Signature by Mark must be met if the signature was **not** notarized. See Appendix J Participant Forms Information for additional information about acceptable signatures. Once the signed form is reviewed by the processing unit for accuracy, *SSA Form 581 Authorization to Obtain Earnings Data from SSA* is signed and promptly forwarded to the ▸DMC Service Window.

Whenever possible, PBGC staff will get the participant's signature on *SSA Form 581 Authorization to Obtain Earnings Data from SSA* authorizing the request. There are some circumstances when a signature cannot be obtained. In these instances, PBGC will process the SSA earnings data request, but the data must be safeguarded and cannot be used unless the information obtained is safeguarded on future written work products (for example, benefit statements and databases). The *SSA Form 581 Authorization to Obtain Earnings Data from SSA* must be signed by a ▸DMD Supervisor.

While staff may request earnings information, they must have taken safeguard training provided by PBGC's Safeguard Officer and submitted a completed *Form 262 Access Authorization for IRS Safeguarded Information* to view safeguarded results.

### Processing and Managing SSA Data Requests

PBGC first attempts to obtain the necessary SSA information through SSA Online (direct terminal access). DMD has the direct terminal access, and is the central point in PBGC for all agency SSA information requests (including for other departments, such as the ▸Appeals Division and ▸STCD). Information that cannot be obtained through online access (that is, earnings data prior to January 1978) is obtained by forwarding the written requests to SSA. SSA researches the data and mails a response back to PBGC.

DMD's responsibilities include processing and managing the inventory of all SSA requests, including the safeguarding of certain SSA responses as required by PBGC Directives IM 10-2: Safeguarding Tax Return Information and IM 10-3: Protecting Sensitive Information.

SSA responses that must be safeguarded cannot be imaged. Therefore, all SSA earnings data received by the DMC is forwarded directly to DMD. DMD determines what earnings data are subject to safeguarding, logs all responses into the SSA Tracking Form and notifies the requestor.

Close coordination between ▸FBA staff and DMD staff is necessary when safeguarded earnings data is requested, since only authorized HQ staff can access safeguarded information. See *Listing of Employees Authorized to Access Federal Tax Information*. When safeguarded data is checked out, it must be returned by 4:00 p.m. on the same day.

Work products (for example, spreadsheets, databases, memos) that reference safeguarded information must also be safeguarded. Generally, work products may specify conclusions (for example, average compensation and length of employment) based on safeguarded information (for example, earnings information for specified years) without having to

be safeguarded. PBGC's Safeguard Officer provides training to staff on safeguarding requirements.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

Top of Page

## TP 26.1 Initiate Request for SSA Data

**01/31/2017**

| | |
|---|---|
| **Purpose** | To secure authorization for PBGC to obtain earnings and employment data from SSA so to help determine a person's benefit entitlement and/or correct benefit amount. |
| **Guidance** | *Listing of Employees Authorized to Access Federal Tax Information*<br>PBGC Directive IM 10-2 Safeguarding Tax Return Information<br>PBGC Directive IM 10-3 Protecting Sensitive Information<br>Policy 8.5-1 Signature by Mark |
| **Procedure Owner** | EBLS/PVA/FBA/PBA, STCD |

1. If the ▸participant or ▸beneficiary's address is known, prepare an *eALG 511 Plan Participation Information Request Letter* or *CCS 511* letter with *SSA Form 581 Authorization to Obtain Earnings Data from SSA* to the individual.
   - If the form is not available as an enclosure, access and print it from this procedure and attach it to the letter.
   - If sending the form to the spouse of a deceased participant, customize the letter to also request a copy of the death certificate and the marriage certificate.
   - If sending the form to a participant's authorized representative, customize the letter to also request a copy of the power of attorney document. This is required even if the requestor is a spouse or other relative.
2. Before mailing the request to the participant (or beneficiary of a deceased participant), ensure the *SSA Form 581 Authorization to Obtain Earnings Data from SSA* is pre-filled with the following information. (Note that while some of these fields will be pre-filled in the templates, others must be completed by the user.)
   - Pre-fill the Periods requested section under Number Holder's Information.
   - In the lower right corner of the form, note the Plan Number and requestor's name.
   - Do **not** enter the Taxpayer Identification Number (SSN) or other fields on the form.
3. If the participant's address is unknown, make all reasonable attempts to determine the correct address. See TP 4 Participant Addresses and EDD Elections.

   If circumstances make it impossible to obtain the participant's signature on the form, prepare *SSA Form 581 Authorization to Obtain Earnings Data from SSA* and submit to an Employee Benefits Supervisor for signature.

   > **Note** The results must be safeguarded.

4. Follow up as needed with the participant for the completed form. It is useful to make follow up requests after about 15 days due to the form's time sensitivity. (Follow-up is not required for Woodwork customers; see TP 19 Woodwork Customers).

   *SSA Form 581 Authorization to Obtain Earnings Data from SSA* must be received within **60 days of the signature date** to be processed.
5. When the signed form is received, review for accuracy to ensure it is completed and signed by the participant or beneficiary and that the signatures are acceptable, as described in Appendix J Participant Forms Information. If necessary, return the form to the customer for missing information or signature. **Do not** forward an incomplete form to ▸DMD.
   - If someone signs as power of attorney or guardian for the participant, ensure the appropriate documentation is on file and approved by PBGC before processing the form. See TP 49 Power of Attorney and Guardianship.
   - If the form is returned by a deceased participant's beneficiary without a copy of the death certificate, determine if it is available in ▸Image Viewer. If not, follow up with the beneficiary to obtain a copy of the death certificate before proceeding.

     > **Note** Be aware that often a beneficiary or surviving spouse will complete the request form improperly, providing their name and Social Security number instead of the deceased participant's. Ensure the form is completed correctly before forwarding them to DMD in

order to prevent processing delays.

6. After the completed and signed form is received from the participant proceed according to office location:
   - **Headquarters staff**: Print the form for the DMD Supervisor's signature, complete sections 1-9 of the *SSA Safeguard Tracking Form*, and forward the form to the ▸DMC Service Window for processing. If the form does not have the supervisor's signature under section 9, it will be returned to the requestor.
   - **FBA/PVA offices**: E-mail pdf versions of the completed form from the participant's ▸IPS file and the *SSA Safeguard Tracking Form* with sections 1-9 completed to the ▸SSA Requests mailbox. For these requests, DMD staff will sign as Supervisor.
7. In situations where the request is signed by an authorized PBGC official, continue to make efforts to have the form completed and signed by the participant and upon receipt forward it to the DMC Service Window for processing.

Top of Page

## TP 26.2 Request SSA Earnings/Employment Data

**01/31/2017**

| | |
|---|---|
| **Purpose** | Obtain earnings and/or employment data from SSA. |
| **Guidance** | PBGC Directive IM 10-2 Safeguarding Tax Return Information<br>PBGC Directive IM 10-3 Protecting Sensitive Information |
| **Procedure Owner** | SSA Coordinator, DMD |

1. Upon receipt ensure that the completed *SSA Safeguard Tracking Form* (sections 1-9) is attached and enter the requests for ▸SSA earnings data into *SSA Tracking Sheet* spreadsheet. Record whether the data will be subject to ▸safeguarding, (see TP 26. Overview SSA Data Request Summary).
2. Review the form for timeliness and completeness:
   - All applicable fields in the Number Holder's Information section, including the signature and date, must be completed.
   - The signature date must be within **60 days** of the date the form is submitted to SSA.
3. Log into SSA Online and query the SSA database for the relevant information.
4. Print the results and notify the requestor.

   **OBA Requests**

   - If the earnings data is not safeguarded: Forward printout of results to ▸DMC for imaging. (DMC processes as received mail, and provides notification to the requestor through ▸CRM that SSA data has been received and may be viewed in ▸PBGC Image Viewer.) If insufficient data is available online, notify the requestor that the request is being forwarded to SSA for additional research.
   - If the earnings data is safeguarded: Notify the initiator by e-mail that the results have been received and are available in the Safeguard Room. If insufficient data is available online, notify requestor that the request is being forwarded to SSA for additional research.

   **Other Dept Requests (Appeals Division, STCD/IPD)**

   - If the earnings data is not safeguarded: Forward a printout of the results to the DMC for imaging (DMC processes as received as mail). Notify the initiator by e-mail that results have been received and imaged. If insufficient data is available online, notify the requestor that the request is being forwarded to SSA for additional research.
   - If the earnings data is safeguarded: Notify the initiator by e-mail that the results have been received and are available in the Safeguard Room. If insufficient data is available online, notify the requestor that the request is being forwarded to SSA for additional research.
5. Update the *SSA Tracking Sheet* with details about the online search results and notice to user (date submitted to DMC or notice provided to requestor).
6. If no information or incomplete information is available from SSA Online, send the original form to SSA and update the *SSA Tracking Sheet*.

   > **Note** The Document Management Center **does not** image the SSA earnings data since it is subject to safeguarding. All SSA responses are directly delivered to the DMC Service Window. The SSA Coordinator reviews the SSA responses and updates the *SSA Tracking Sheet* for receipt of data. The SSA Coordinator sorts the responses into safeguarded and non-safeguarded responses, and separates out non-▸OBA (the Appeals Division and ▸STCD/IPD) requests that are non-safeguarded.
7. If the earnings data is not safeguarded, forward the SSA responses to DMC for imaging and entry to ▸CRM. Update the *SSA Tracking Sheet*. No further action is required by SSA Coordinator with respect to these requests.
8. If the earnings data is safeguarded, contact initiator by e-mail and notify them that the results are in and available in the Safeguard Room.
9. Each month, review the *SSA Tracking Sheet* for requests that have been outstanding for more than 60 business days. When requests are more than 60 business days old, send a written inquiry for status to SSA.

Top of Page

# TP 26.3 Manage and Safeguard SSA Data

**01/31/2017**

| | |
|---|---|
| **Purpose** | To track all agency requests for data from SSA and Safeguard data in accordance with PBGC directives. |
| **Guidance** | PBGC Directive IM 10-2: Safeguarding Tax Return Information<br>PBGC Directive IM 10-3: Protecting Sensitive Information |
| **Procedure Owner** | SSA Coordinator (DMD) |

The ▸Data Management Division maintains and operates the Safeguard Room for the purpose of obtaining earnings data from the Social Security Administration (▸SSA). The Safeguard Room provides a secure storage area for Social Security and Safeguard information. Safeguard personnel provide access to all authorized Safeguard data as requested. Retrieval and usage follows the PBGC Safeguard requirements described in the following sections.

### Change Safeguarded Status of SSA Information

1. Upon receipt of a properly completed *SSA Form 581 Authorization to Obtain Earnings Data from SSA* with the ▸participant's or ▸beneficiary's signature that was previously authorized by a PBGC official, update the *SSA Tracking Sheet*.
2. Process the completed form in accordance with TP 26.2 Request SSA Earnings/Employment Data.
3. Update the *SSA Tracking Sheet*.

### Secure Safeguard Room

The room includes direct terminal access for all SSA data, so the SSA Coordinator must:

- Control and keep the Safeguard Room locked at all times.
- Control access to the Safeguard Room by cipher lock.
- Restrict authorized access to employees whose duties require access to the Safeguard Room.
- Be responsible for:
  - Changes to the cipher lock combination and keeping a record of the employees who have access to the room.
  - Changes to the lock combination if an employee who has the combination transfers to a new detail or departs.
  - Changing the lock combination once a year or when otherwise necessary.
- Make access to the Safeguard Room:
  - Available for service from 8:00 A.M. to 4:00 P.M., Monday through Friday.
  - Closed on Saturday, Sunday, and Holidays.
- Allow authorized PBGC employees to check out until 4:00 p.m. on the same day safeguarded information.
- Do not allow authorized employees from other departments to retain safeguarded materials overnight except in special circumstances, for example, litigation.
- When an employee returns safeguarded data that is no longer needed, destroy the data immediately or after no longer than 30 days. If Safeguard data is on hold, check with the requestor on a regular basis to see if the data is still needed; if not, destroy the data immediately or after no longer than 30 days.

### Secure Authorized Terminals

In securing the authorized terminals in the Safeguard Room, follow these requirements:

- Lock terminals when not in use.

- Allow only authorized employees access to terminals in the Safeguard Room.
- Keep the Safeguard Room locked when unattended.
- Keep all documents containing Safeguard information in a locked file cabinet within the Safeguard Room when not in use.

**Track Safeguard Information Requested, Received, and Disposed**

Maintain the *SSA Tracking Sheet* to keep records of all safeguard information requested and received from the SSA, with the following information as safeguard information is requested, received, and disposed:

- Plan Sponsor Name
- Participant Name
- Participant Social Security Number
- Requestor Name
- Comments
- Date Requested
- Date Sent to SSA
- Date Received

**Checking Out/In of Safeguard Information**

Safeguard Room personnel must provide check-out services to PBGC authorized employees. These services follow Safeguard retrieval and usage requirements established by PBGC. Follow these requirements when checking Safeguard information out and in:

- Place information in file folders with the *Form 347 Protection and Reproduction of Safeguard Information* attached.
- Check that the requestor's name is on the *Listing of Employees Authorized to Access Federal Tax Information* before releasing information.
- Have the requestor show identification prior to checking out Safeguard information and:
  - When checking materials out, sign the *SSA Tracking Sheet* indicating the ▸plan name, participant name, Social Security Number (▸SSN), date and time signed out, and the requestor's name and extension.
  - When checking materials in, sign the *SSA Tracking Sheet* with the time and date materials were returned.
- As the SSA Coordinator, do **not** accept the *Form 262 Access Authorization for IRS Safeguarded Information* from requestors, and do **not** make exceptions to releasing data. The ▸MCD Security Officer receives and maintains all *Forms 262 Access Authorization for IRS Safeguarded Information***.** Do **not** release Safeguard information until the requestor's name is on the *Listing of Employees Authorized to Access Federal Tax Information***.**

# TP 27 Conflict of Interest

**In this Section**

TP 27. Overview for Conflict of Interest
TP 27.1 Conflict of Interest Duties for All OBA Staff
TP 27.2 Conflict of Interest Monitoring for Supervisors
TP 27.3 Resources for Conflict of Interest

# TP 27. Overview for Conflict of Interest

**07/01/2016**

This procedure covers ▸OBA's process for avoiding actual and potential conflicts of interest.

**Responsibilities**

All OBA federal employees responsible for processing PBGC ▸benefit determinations or PBGC ▸benefit payments must avoid any actual and potential conflicts of interest between their PBGC official duties and their own personal interests. In order to avoid conflicts of interest, employees must disqualify themselves in questionable situations. Disqualified employees must not handle, and are prohibited from accessing the electronic or paper records associated with benefit determinations or benefit payments related to the employee's potential conflict. Disqualified employees may help supply information needed to support benefit determinations and benefit payments when appropriate.

PBGC must ensure that it operates efficiently and honestly to instill confidence in the integrity of its actions. It is the federal employee's ethical obligation to avoid actual or potential conflicts of interest (COI) with their official duties. This includes reporting a potential conflict as soon as he or she learns of it and to avoid contact with PBGC records related to the conflict (for example, not accessing the ▸IPS file and ▸Spectrum records associated with the conflict). OBA takes certain action to control the risks associated with potential conflicts but cannot prevent the possibility of conflicts. Each federal employee must avoid COI and comply with the Federal conflict of interest statutes, the Procurement Integrity Act, the Standards of Ethical Conduct for Executive Branch employees (Standards of Conduct), and this procedure.

Without prior authorization, OBA federal employees involved in benefit determinations or benefit payments must disqualify themselves from participating in any official matter that will affect their own financial interest, such as a benefit payment, or the financial interests of (1) a spouse; (2) minor child; (3) a general partner; (4) an organization or entity for which the employee serves as officer, director, trustee, general partner, or employee; and (5) person with whom the employee is negotiating for or has an arrangement concerning prospective employment. In addition, OBA federal employees must disqualify themselves from participating in any official matter that will affect the financial interest, such as a benefit payment, of a person or entity with whom the employee has a "covered relationship." An employee has a covered relationship with:

1. Persons who are members of the employee's household.
2. Relatives with whom the employee has a close personal relationship.
3. Persons with whom the employee has or seeks a business, contractual, or other financial relationship. For example, a prospective employer or a business partner.
4. Persons for whom the employee's spouse, parent, or dependent children serve as officer, director, trustee, general partner, agent, attorney, consultant, contractor, or employee. Examples: Your spouse's business partner or supervisor, your father's (who is an attorney) client, a religious institution for which your mother is on the board of directors.
5. Persons for whom the employee has served, within the last year, as officer, director, trustee, general partner, agent, attorney, consultant, contractor, or employee. Examples: Same as in item 4 above except it is you instead of your spouse, father, or mother and the service was within the last year.
6. Organizations, other than a political party, in which the employee is an active participant. Examples: Your social club, charitable organization, or professional association.

Other relationships or circumstances not listed may also create a potential conflict of interest. OBA federal employees should bring these to the attention of ▸OGC.

OBA federal employees must alert OBA management to a potential COI in these cases and avoid accessing any PBGC records associated with the conflict. OBA management will consult with OGC to determine whether an actual or potential COI exists. If an actual or potential COI is determined, the matter causing the conflict will be assigned by the supervisor of record to another employee with similar responsibilities but no personal interest in the matter.

Specific actions OBA staff must take are addressed in the processing sections of this procedure.

**Monitoring**

OBA manages the risk associated with non-compliance by:

- Requiring all OBA federal employees to submit a *Conflict of Interest Statement Form* annually.
- Consulting with OGC to address potential conflicts disclosed on *Conflict of Interest Statement Forms* by OBA federal employees.
- Verifying annually that relevant Supervisors are aware of potential conflicts disclosed on *Conflict of Interest Statement Forms* and have been provided any guidance specific to the potential conflict from OGC.
- Reassigning work immediately if an actual or potential COI is determined.
- Requiring OBA federal employees to complete annual training on the Privacy Act, information security, and ethics, and by coordinating with other departments to identify employees who have failed to meet their training requirements.

Specific monitoring actions are described in TP 27.2 Conflict of Interest Monitoring for Supervisors.

**Consequences of Non-compliance**

The consequences for non-compliance are addressed by various laws.

- The ▸Privacy Act of 1974, as amended at 5 U.S.C. § 552a, protects records that can be retrieved by personal identifiers by limiting the disclosure of the records without the consent of the individual to whom the records pertain. Protected records may be disclosed, without consent, to employees of the agency who have a need for the record in the performance of their duties. A willful violation of the Privacy Act by an employee is a misdemeanor and may result in a fine up to $5,000.
- Section 208(a) of title 18 of the United States Code prohibits a federal employee from participating personally and substantially, in an official capacity, in a particular matter in which the employee has a financial interest if the matter will have a direct and predictable effect on the interest. An employee who violates 18 U.S.C. § 208(a) may be imprisoned up to five years and/or fined a civil penalty of not more than $55,000 per each violation.
- In addition to the criminal conflict of interest statutes, the conduct of federal employees is subject to regulatory standards set forth in the Standards of Ethical Conduct for Employees of the Executive Branch (Standards of Conduct). A violation of the Standards of Conduct by a federal employee may result in disciplinary actions. The Standards of Conduct contain provisions intended to ensure that an employee takes appropriate steps to avoid conflicts of interest by prohibiting, for example: 1) the acceptance of gifts from prohibited sources, 2) the use of public office for private gain, and 3) the improper use of nonpublic information. The Standards of Conduct also require federal employees to be concerned about the appearance of a loss of impartiality, including appearances that might arise from outside business or personal relationships.

Top of Page

## TP 27.1 Conflict of Interest Duties for All OBA Staff

**07/01/2016**

| | |
|---|---|
| **Purpose** | To ensure compliance with OBA's conflict of interest procedures. |
| **Guidance** | N/A |
| **Procedure Owner** | All OBA Federal employees |

In addition to the responsibilities described in TP 27 Overview for Conflict of Interest, Federal staff must complete the following actions.

1. By the last business day of January each year, submit a *Conflict of Interest Statement Form* to the direct supervisor.

   **Note** New hires must submit the form within two weeks of their employment start date.

2. Each year, complete the following training:
   a. Either Privacy Awareness or Privacy Refresher Training
   b. Information Security Awareness Training
   c. Annual Ethics Training (as required by position)
3. If at any time an actual or potential conflict of interest develops, notify the appropriate supervisor or ▸COR immediately.

## TP 27.2 Conflict of Interest Monitoring for Supervisors

**07/01/2016**

| | |
|---|---|
| **Purpose** | To monitor Federal employees for actual or potential conflicts of interest and take appropriate action as needed. |
| **Guidance** | N/A |
| **Procedure Owner** | OBA Supervisors |

In addition to the responsibilities described in TP 27 Overview for Conflict of Interest, Federal supervisors must complete the following actions.

1. Each January, ensure that all direct reports have submitted a *Conflict of Interest Statement Form*.
2. Each October, ensure that all direct reports have completed the following training during the previous fiscal year:
   a. Either Privacy Awareness or Privacy Refresher Training
   b. Information Security Awareness Training
   c. Annual Ethics Training (as required by position)
3. Ensure that any employee who reports a potential conflict of interest is removed from any role in processing benefits under the plan while the conflict exists. Such actions include:
   a. Removing the employee from the ▶CMS case team for the plan
   b. Assigning no work to the employee that may involve a known or potential conflict of interest
4. Refer any questions concerning conflicts of interest to ▶OGC.

# TP 28 Approve Financial & Non-Financial Transactions through Approval Service

**In this Section**

TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service
TP 28.1 Initiate Electronic Transaction that Requires Approval
TP 28.2 Approve or Reject Electronic Transaction
TP 28.3 Request Temporary Approver
TP 28.4 Request Approvers
TP 28.5 Confirm Approvers/Levels
TP 28.6 Resources for Approve Financial and Non-Financial Transactions through Approval Service

## TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service

**02/27/2017**

This technical procedure describes the approval of electronic transactions using ▸AWA, the user interface for the Approval Service. Manual changes that may require approval of a second party are not handled through the Approval Service.

The electronic transactions that must be reviewed and approved through Approval Service before transmission to ▸PLUS at ▸PBGC's paying agent include financial and non-financial transactions. The types of transactions that require approval in ▸Spectrum and ▸CRM are documented within those systems.

The **Approval Levels Table** describes the approval levels. Each transaction is assigned to an approver of the appropriate level who is part of the Case Team. These assignments are done randomly amongst the available approvers. Some cases may have a limited number of targeted approvers (Inclusions) available for a plan but at least two approvers at levels 10, 20, 25, and 30 are required. These cases are determined by management and established through a request to the ▸BPD Access and Approval Administrator.

Each approver is responsible for ensuring adequate coverage during absences or other times of unavailability, particularly if scheduled close to or through the relevant financial approval deadline. Requests for a Temporary (Substitute) approver are forwarded to the BPD Access and Approval Administrator via the BPD AWA-▸SAT Assignments portal.

**Approval Levels Table**

| Approval Level | Dollar Amounts for Lump Sums/Back Payments | Dollar Amounts for Monthly Payments | Authorizer Type |
|---|---|---|---|
| 10 | Up to $4,999.99 | Up to $999.99 | ▸CSD federal staff (GS 9–11); In-House Contract Supervisor (CSD support) and Missing Participant Supervisor; ▸FBA/▸PVA Senior Pension Administrator and Team Leader |
| 20 | Up to $14,999.99 | Up to $1,499.99 | CSD federal staff (GS 12); FBA/PVA Project Manager, Assistant Project Manager, and Supervisor; In-house Contract Project Manager and Assistant Project Manager |
| 25 | Up to $19,999.99 | Up to $2,999.99 | CSD federal staff (GS 13) |
| 30 | Up to $24,999.99 | Up to $5,999.99 | CSD non-management federal staff (GS 14) |
| 40 | Up to $49,999.99 | Up to $17,499.99 | CSD Manager and Branch Supervisors; ▸OBA Management & Program Analyst (GS 15) |
| 50 | $50,000 and Up | $17,500 and Up | ▸PPD Supervisory Policy Advisor; ▸Participant Services Department Director or designee |

**Notes**

- Deviations from indicated statuses must be approved by the CSD Manager.
- Temporary approvers must meet the status requirements one level below their temporary assignment level. For example, an EBLS (GS 12), normally at level 20, may be temporarily assigned at level 25.
- All data loads require authorization by an approver of level 40 or above. Any level 40 approver can approve a data load, regardless of the payment amounts involved.

Top of Page

# TP 28.1 Initiate Electronic Transaction that Requires Approval

**08/30/2016**

| | |
|---|---|
| **Purpose** | To ensure completed electronic transactions are implemented through the approval process. |
| **Guidance** | Benefit Payment Schedule on Intranet<br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/PVA/FBA/PBA, CSD Management |

**EBLS/PVA/FBA/PBA**

1. Review the transaction and determine the correct approval level (see the Approval Levels Table in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service).
2. Consult the Benefit Payment Schedule to determine the approval deadline for the applicable month and transaction type.

   Forward Level 50 transactions in AWA and provide supporting documentation (listed in step 4) as early as possible to improve the likelihood that the review, revisions (if needed) and payment will occur in time to meet the targeted payment date. Payment authorization requests must be submitted no later than **3 business days** before the last cutoff stated in the Benefit Payment Schedule.
3. Forward transaction sufficiently in advance of the approval deadline for the appropriate check cycle to ensure processing:
   - Transaction has a problem:
     - Alert the approver to reject the transaction.
     - Return to initiator so the necessary change is made in a timely manner.
     - Resubmit the transaction for approval.
   - Transaction does not have a problem: Continue to step 4.
4. Prepare the required supporting documentation for approval:
   - If the transaction is at approval levels 10 through 40:
     a. Prepare the supporting documentation required by ▸CSD management.

        Consult with CSD management for specifics on supporting documentation requirements.

     b. Continue to step 5.
   - If the transaction is at approval level 50:
     a. Gather all supporting documentation from the payee's IPS file and save in PDF format.
     b. Prepare the following documents:
        i. *Level 50 Approval Memo* – Completed by the preparer with the reviewer's signature. (The reviewer's signature is not required if the initiator is at reviewer level). The reviewer is determined by the preparer's office or title, as follows:
           1. FBA/PBA/PVA: Supervisor, Asst. Project Manager or Project Manager
           2. EBLS: Employee Benefits Supervisor
        ii. *Level 50 Payment Checklist* – Completed with signature of same individual who reviewed and signed the *Level 50 Approval Memo*. (The reviewer's signature is not required if the initiator is at reviewer level).
        iii. Level 50 Payment Approval Checklist for PPD – Pre-fill the top portion through **PBGC Case Number** and submit in Word format.
     c. Forward all supporting documentation and memoranda to the Level 50 Paymt Auth mailbox.

        PPD will contact the submitter with questions or to request additional documentation, as needed.
5. Query Approval Service to determine the assigned approver.

   Follow up with the approver, if necessary, to ensure that the transaction is approved before the cut-off date.

Top of Page

## TP 28.2 Approve or Reject Electronic Transaction

**08/30/2016**

| | |
|---|---|
| **Purpose** | To review and approve or reject changes to payee records. |
| **Guidance** | Benefit Payment Schedule on Intranet<br>*Spectrum User Manual* |
| **Procedure Owner** | Approver |

1. Review whether the record submitted has the correct data and processing.

   Use ▸Spectrum, ▸PBGC Image Viewer, and the supporting documentation to verify the data. The *Level 50 Approval Memo* and the *Level 50 Payment Checklist* accompany a level 50 approval:

   - If the transaction is at approval levels 10 through 40: Continue to step 2.
   - If the transaction is at approval level 50:
     a. Review the *Level 50 Approval Memo* and the *Level 50 Payment Checklist.*
     b. Continue to step 2.
2. Contact the initiator with any questions about the transaction.
3. Prior to the cut-off date for the monthly check cycle (see the Benefit Payment Schedule), approve or reject the transaction:
   - If the transaction is correct, approve the transaction in ▸AWA or by signing the appropriate ▸NFDE form, as applicable. For a level 50 payment, complete the *Level 50 Payment Approval Checklist for PPD*.
   - If the transaction is not correct, reject the transaction and notify the initiator by e-mail that the transaction has been rejected and why.

**Note** If a transaction requires modification, it must be rejected so that the initiator may make the necessary modifications. Once modified, the transaction is resubmitted for approval. ▸Approvers may not modify transactions, only approve or reject them.

# TP 28.3 Request Temporary Approver

**07/01/2016**

| | |
|---|---|
| **Purpose** | To ensure that approvers have temporary backups as needed so that customers' transactions are approved in a timely manner. |
| **Guidance** | Benefit Payment Schedule on Intranet<br><br>*Spectrum User Manual* |
| **Procedure Owner** | Approver, CSD Management, Contract Support Management, BPD Access and Approval Administrator |

**Approver**

1. Schedule a planned absence (for example, a vacation or travel).

**CSD and Contract Support Management**

2. Request assignment for a temporary ▸approver via the ▸BPB ▸AWA-▸SAT Assignments portal using the **On Demand - Change Request** function in the respective organization assignment portlet at least **three business days** prior to the scheduled absence of the approver and include the following:
   - Name of Permanent Approver
   - Name of Temporary Approver
   - Effective begin date
   - Effective end date
   - Confirmation that the Temporary Approver meets the appropriate approval level criteria, or request exception to criteria (see TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service)

   The pending change request populates the **AWA On Demand Submission** queue and the portal automatically sends an e-mail notice of the pending change request to the ▸BPD Access and Approval Administrator.

   > **Note** Temporary Approver assignments do not permit a user to approve transactions that the user initiated and may not exceed fourteen calendar days.

**BPD Access and Approval Administrator**

3. Fulfill the pending change request.

   After the change request is fulfilled, the change request populates the **Completed Approval Submission** queue and the portal sends an e-mail confirmation automatically to the requestor.

## TP 28.4 Request Approvers

**07/01/2016**

| | |
|---|---|
| **Purpose** | To establish case-specific Approval Service approvers, as needed, so knowledgeable staff efficiently approve customers' transactions and to prevent a user from approving Spectrum transactions in a specific case. |
| **Guidance** | Benefit Payment Schedule on Intranet<br><br>*Spectrum User Manual* |
| **Procedure Owner** | CSD Management, Contract Support Management, BPD Access and Approval Administrator |

Management must request all inclusions and exclusions via the ▸BPB ▸AWA-▸SAT Assignments portal.

Targeted ▸approvers are used on specific cases when management has determined it advisable to assign the staff familiar with the plan specifics.

Exclusions are employees that management determines cannot approve customers' transactions in a case, for example, where there is a conflict of interest.

**In this Section**

TP 28.4A Request Targeted Approver (Inclusions)
TP 28.4B Request to Exclude an Employee from a Case (Exclusions)

**TP 28.4A Request Targeted Approver (Inclusions)**

**07/01/2016**

**CSD and Contract Support Management**

1. In the ▸BPB ▸AWA-▸SAT Assignments portal, prepare a change request using the **On Demand - Change Request** function in the respective organization assignment portlet and include the following:
   - Case name
   - ▸PBGC case number
   - Names of targeted ▸approvers and approval levels

   The pending change request populates the **AWA On Demand Submission** queue and the portal automatically sends an e-mail notice of the pending change request to the ▸BPD Access and Approval Administrator.

**BPD Access and Approval Administrator**

2. Review the change request and verify:
   - Request is from appropriate management level.
   - Approvers meet criteria in the **Approval Levels Table** in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service.
   - For each level (10, 20, 25 and 30), at least two approvers are identified.
3. Fulfill the pending change request.

   After the change request is fulfilled, the change request populates the **Completed Approval Submission** queue and the portal sends an e-mail confirmation automatically to the requestor.

**TP 28.4B Request to Exclude an Employee from a Case (Exclusions)**

**07/01/2016**

**CSD and Contract Support Management**

1. In the ▸BPB ▸AWA-▸SAT Assignments portal, prepare a change request using the **On Demand - Change Request** function in the respective organization assignment portlet and include the following:
   - Case name
   - ▸PBGC case number
   - Names of users to exclude (see TP 27 Conflict of Interest)

   The pending change request populates the **AWA On Demand Submission** queue and the portal automatically sends an e-mail notice of the pending change request to the ▸BPD Access and Approval Administrator.

**BPD Access and Approval Administrator**

2. Review the change request and verify that the request is from the appropriate management level.
3. Fulfill the change request.

   After the change request is fulfilled, the change request populates the **Completed Approval Submission** queue and the portal sends an e-mail confirmation automatically to the requestor.

**Note** Once management identifies the employees as unsuitable ▸approver and the change request is fulfilled, the system will not assign transactions in the specified case to the employees.

## TP 28.5 Confirm Approvers/Levels

**07/01/2016**

| | |
|---|---|
| **Purpose** | To verify the approval levels for all types of approvers are met. |
| **Guidance** | N/A |
| **Procedure Owner** | BPD Management Analyst, CORs, and BPD Access and Approval Administrator |

To ensure adequate separation of duties, the ▸BPD Access and Approval Administrator only implements changes provided but does not participate in running or verifying the list of ▸approvers.

**BPD Management Analyst**

1. By the seventh calendar day of the quarter, initiate the quarterly confirmation of approvers by generating the ▸AWA/▸*SAT Quarterly Confirmation Report*.
2. Verify the list includes all types of approvers and roles:
   - Approvers
   - Sub-Approvers (also known as Temporary Approvers)
   - Self-Approvers
   - Queue Monitors
   - Case Inclusions
   - BENADMIN Role
   - BENLOAD Role

   > **Note** Any approver may have multiple roles if the approver meets the criteria set forth in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service).
3. Sort and separate the list of approvers by ▸CSD and ▸FBA/▸PVA/▸PBA.
4. In the ▸BPB AWA-SAT Assignments portal, post a copy of the *AWA/SAT Quarterly Confirmation Report* to each distribution list.

   The portal automatically sends an e-mail requesting all CSD managers and ▸CORs and copies the FBA/PVA/PBA Principals to validate or correct all listed approvers within **three business days**.

**CSD Managers and CORs**

5. Respond to the automatic request from the BPB AWA-SAT Assignment portal within **five business days** and follow the instructions provided in the e-mail.

   > **Note** Responses are accepted only from CSD managers and CORs.

**BPD Access and Approval Administrator**

6. Monitor the responses in the **Quarterly Submission** queue for change requests.
7. Implement the change requests within three business days of receipt.

   Once the change requests are completed, the change requests automatically move from the **Quarterly Submission** queue to the **Final Submission** queue on the BPB AWA-SAT Assignments portal for final review.

**BPD Management Analyst**

8. Monitor responses:
   - After **five business days**, send a **Late Quarterly Notification** with the response deadline via the BPB AWA-SAT Assignments portal to each non-respondent and follow up with a phone call.
   - After **seven business days**, report any non-respondent to the BPD Manager.

The responses to the request trigger an automatic e-mail notice via the portal to the BPD Access and Approval Administrator and BPD Management Analyst.

9. Prepare *Summary AWA/SAT Quarterly Confirmations Memo* for the BPD Manager and *Quarterly Approval Confirmation Summary Report* by the last business day of the month after the quarter.
   - **Example**

     The quarter ends January 2013 and the report is due by the last business day of February 2013.

   The report summarizes the confirmation process and describes all of the changes.
10. Generate the *Final AWA/SAT Quarterly Confirmation Report* and upload to the quarters folder on the portal.

**BPD Access and Approval Administrator**

11. Implement the change requests received via the BPB AWA-SAT Assignments portal within **three business days** of receipt of the requests.

    Once the change requests are completed, the change requests automatically move from the **Quarterly Submission** queue to the **Final Submission** queue on the BPB AWA-SAT Assignments portal for final review.

**BPD Management Analyst**

12. Check periodically for completed change requests in the **Final Submission** queue on the BPB AWA-SAT Assignment portal for final review.

    The completed change requests are reviewed in batches, not individually.
13. Complete the final review within **five business days**.

    The list of approvers is reconciled against the list of change requests found in the **Completed Approval Submission** queue.

# TP 29 Off-Cycle Payment

**In this Section**

TP 29. Overview for Off-Cycle Payment
TP 29.1 Determine Need and Initiate Off-Cycle Payment Request
TP 29.2 Review Off-Cycle Payment Requests
TP 29.3 Resources for Off-Cycle Payment

## TP 29. Overview for Off-Cycle Payment

**07/01/2016**

**Note** After the implementation of Spectrum 4.0 State B is complete, off-cycle payments will be made in Spectrum and included in the weekly check run, and this procedure will be required only for off-cycle payments that cannot be made through Spectrum. See the Spectrum User Manual and Spectrum Release Notes on the Spectrum Home page for further information. To stop and reissue a check, see TP 45.2A Stop and Reissue Unpaid Check.

PSD processes benefit payments through Spectrum according to the monthly check cycle and electronically transmits the payments each month to PLUS at PBGC's paying agent. Processing staff are responsible for timely and accurate entry and approval of participant information in Spectrum, following the check cycle deadlines so that payments are made on time. See TP 20 Benefit Payments, TP 21 Change Benefit Payment Amount and TP 28 Approve Financial and Non-Financial Transactions through Approval Service for information about payments made following the monthly check cycle.

Occasionally, a participant does not receive an expected payment. When this occurs, the processing staff determines the reason for the non-payment and takes action to correct the situation. If a payment is missed, PBGC requests that PBGC's paying agent issue a payment outside the normal monthly check cycle, referred to as an off-cycle payment. Off-cycle payments can be made for annuities, back payments, or lump sums.

An off-cycle payment is requested when non-payment occurs due to either of the following:

- **System issue.** A payment transaction failed in Spectrum or there was an error or technical problem in the transmission process to the PLUS system.
- **Processing issue unrelated to systems.** An expected payment was not processed before the cut-off date and an off-cycle payment is necessary to meet PBGC's commitment to the customer.

The processing staff may also request an off-cycle payment under the following conditions:

- The payee demonstrates a financial hardship.
- PSD receives a Congressional inquiry.
- PSD receives a Problem Resolution Office (PRO) inquiry.
- PSD learns of an ACH payment deposited to the wrong account.
- PSD receives a *Payee Information Form* from a payee previously suspended for non-receipt of the form.

In all cases, once the customer record is established in Spectrum (if not done previously), the processing staff prepares the *Off-Cycle Payment Request Memo* and submits it with supporting documentation directly to the PSD for approval. If necessary, the FBA/PVA also forwards a copy of the request to the Customer Support Branch Manager and the plan's contract monitor. The Customer Support Branch Manager contacts BPD directly if it is determined that the FBA/PVA's request should be returned, and BPD returns the unprocessed request to the Customer Support Branch. The BPD Manager reviews all requests weekly, and approves the processing of all accurate and complete requests. Approved requests are forwarded electronically to PBGC's paying agent via Net Benefit Exchange (NBX) Forms Data Entry (NFDE). Rejected requests are returned to the requesting Customer Support Branch Manager or FBA/PVA Manager with explanation and instructions for correction and resubmission.

Top of Page

# TP 29.1 Determine Need and Initiate Off-Cycle Payment Request

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine the reason expected payment was not made and initiate replacement. |
| **Guidance** | Benefit Payment Schedule<br>Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PBA/PVA, CSD management |

**Note** After the implementation of Spectrum 4.0 State B is complete, off-cycle payments will be made in Spectrum and included in the weekly check run, and this procedure will be required only for off-cycle payments that cannot be made through Spectrum. See the Spectrum User Manual and Spectrum Release Notes on the Spectrum Home page for further information. To stop and reissue a check, see TP 45.2A Stop and Reissue Unpaid Check.

Consider using the *Off-Cycle Checklist* as a job aid for this procedure.

**EBLS/FBA/PBA/PVA**

1. Query ▸PLUS and ▸Spectrum to verify that a customer record exists and that ▸PBGC's paying agent did not make the approved payment, made the payment to the wrong account, or is not scheduled to make the payment on the correct date (for lump sum payments) or correct beginning date (for annuities).
   - **Customer record not established:** Establish an annuity record in Spectrum (see step 3) before continuing to step 2.
   - **Payment not approved:** Submit a payment request and receive approval before continuing to step 2.
   - **Payment made to wrong account:** Continue to step 2.
   - **Payment made or date or beginning date is correct:** Do not submit an off-cycle payment request. No further action is required.
2. Determine whether the reason for non-payment is due to a system issue (transmission to PLUS) or a processing issue unrelated to systems (for example, payment not approved by ▸cut-off date, financial hardship, or Congressional inquiry).
3. Proceed according to the type of payment being replaced:
   - **Lump Sum Transactions:**
     a. Create the transaction in Spectrum and forward for approval.
     b. Upon approval, retrieve the payment identification number from ▸AWA.
     c. Terminate the payment in Spectrum.
     d. If the payment termination is **after** the cut-off date and time, send an e-mail request to a ▸BPD Management Analyst to cancel the payment at ▸PBGC's paying agent.
   - **Special Checks (to replace an already established annuity or back payment):** Obtain the existing annuity payment identification number from AWA or Spectrum.
   - **First-time Annuity Payments:**
     a. Establish an annuity (not special) payment in Spectrum (see TP 20 Benefit Payments).
     b. Confirm the begin date is the first available payment date after the missed payment, automatically determined by Spectrum.
     c. Verify that the annuity payment is approved before proceeding.
4. Prepare an *Off-Cycle Payment Request Memo* for the off-cycle payment, including the reason for non-payment and the full signature of both the preparer or authorizer and the manager.

**Note** The BPD Manager or designee in BPD must approve Off-Cycle Requests before the transaction data is processed into ▸NFDE.

5. Complete the required data entry form(s) in NFDE for the type of payment being replaced:
   - **Annuity Payments:**
     - Use the Special Check form.
     - If the annuity is not set up in PLUS, also complete an Annuity Check form to set up continuing annuity payments beginning the next available payment date.
   - **Back Payments:** Proceed according to whether the payment is large (at least three times the monthly annuity amount **and** greater than $5,000):
     - Payment is large: Use the Lump Sum form.
     - Payment is not large:
       - Use the Special Check form.
       - If the back payment is to a first time payee with future benefits and the annuity is not set up in PLUS, also complete an Annuity Check form to set up continuing annuity payments beginning the next available payment date.
   - **Lump Sums:** Complete a Lump Sum form.
6. Send an e-mail with the spreadsheet containing the data from the form created automatically by NFDE to the NFDE team.
7. Submit the memo, the NFDE data entry form(s) with original signature(s), and supporting documentation to the ▸Customer Support Branch Manager or ▸FBA/▸PVA Manager for approval and signature. A complete request includes:
   - If the non-payment is due to a system issue, documentation of the issue (for example, e-mail correspondence with BPD or the Service Desk).
   - Screen printouts from the Spectrum record, including the ledger if available.
   - Approved NFDE Form(s) with original signature(s), as applicable:
     - *Form 487 NFDE Annuity Check*
     - *Form 490 NFDE Special Check*
     - *Form 491 NFDE Lump-Sum Check*
8. In the event of service or network interruption, operate NFDE locally:
   - Enter data into NFDE.
   - Print the data entry forms.
   - Document in the *Off-Cycle Payment Request Memo* that the data needs to be manually entered into NFDE.
   - Submit the *Off-Cycle Payment Request Memo* to the Customer Support Branch Manager or FBA/PVA Manager for approval and signature.

**CSB Manager or FBA/PVA Manager**

9. Review each Off-Cycle Payment Request and supporting documentation to ensure it is complete and correct:
   - Request approval from the appropriate party according to the **Approval Levels Table** in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service.
   - If the request is not complete, return the request to the initiator for correction.
   - If the request is complete, sign the request and place the original in the Off-Cycle Checks inbox in BPD, Room 7501 or fax to 202-326-4214 (or -4216) by 12:00 P.M. Tuesday.

**EBLS/FBA/PBA/PVA**

10. Upon approval of an Off-Cycle Payment Request, confirm to the customer the expected benefit amount and date in writing (eALG 300 or 500 series) or by telephone call documented to ▸CRM. For customers with continuing annuity payments, confirm the annuity as well.

Top of Page

# TP 29.2 Review Off-Cycle Payment Requests

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review off-cycle payment requests. |
| **Guidance** | N/A |
| **Procedure Owner** | BPD |

**Note** After the implementation of Spectrum 4.0 State B is complete, off-cycle payments will be made in Spectrum and included in the weekly check run, and this procedure will be required only for off-cycle payments that cannot be made through Spectrum. See the Spectrum User Manual and Spectrum Release Notes on the Spectrum Home page for further information. To stop and reissue a check, see TP 45.2A Stop and Reissue Unpaid Check.

**BPD**

1. Review each *Off-Cycle Payment Request Memo* and any supporting documentation.
   - Ensure the documentation contains complete information and explanation.
   - Verify a customer record has been established (supporting document includes screen prints).
   - Verify the payment was not made and is not scheduled to be made using ▸Spectrum, ▸AWA, and ▸PLUS.
   - For annuities, verify the future stream of payments is approved.
2. Contact the requesting processing staff if a timely request is incomplete or more information is needed. Work with the requester to make the necessary corrections to ensure timely and accurate processing of the payment.
3. If the request is no longer necessary (for example, the payment was made or is scheduled to be made on the expected payment date), notify the requester that the request was rejected and the reasons. Do not complete the rest of this procedure.
4. Take valid requests to ▸BPD Manager for review and approval.
5. Deliver the approved Off-Cycle packages to the ▸NFDE team for processing. The data associated with these off-cycle payments will be transmitted to ▸PBGC's paying agent via the weekly ▸NFDE adjustment file by noon on Wednesday.
6. After the ledger load (generally on Thursday), use PLUS to determine whether approved off-cycle payments were paid for the correct amounts and dates.
7. Send notification to all parties listed on the *Off-Cycle Payment Request Memo* and NFDE forms that the off-cycle was processed.
8. Submit the Off-Cycle packages to the ▸DMC for imaging into ▸IPS.
9. Each month, send an e-mail to the MCD Compliance Program with the number of approved off-cycle payment requests forwarded to PBGC's paying agent.
10. Provide information on off-cycle requests on an ad hoc basis, as requested.

TP 30.3 Resources for Monitor Continuous Eligibility for Disability Benefits

## TP 30. Overview for Monitor Continuous Eligibility For Disability Benefits

**03/28/2013**

Participants must meet certain criteria in order to continue receiving disability benefits. PBGC notifies payees of their responsibility to notify PBGC if their disability status changes, which will impact their continued eligibility for the disability-based benefit, and makes appropriate changes. Automated communications and monitoring of these participants occurs after plan closing for plans with valuations completed on and after January 1, 2012.

There are four types of disability benefits or **tracks** which PBGC monitors for continuous eligibility:

- **Track 1 SSA-Conditioned Disability Benefit:** Disability benefit paid to a participant in a plan that requires ▸SSA disability eligibility.
- **Track 2 SSA-Conditioned Retirement Benefit:** Retirement benefit paid to a participant who was eligible for the plan and SSA disability benefits, but retired under other plan provisions. After trusteeship, PBGC determined that the disability benefit amount they could have received, after applying PBGC's Special Guarantee Rules for Disabled Participants (under Policy 5.9-1 Disability Benefits), is greater than the retirement benefit amount they are eligible to receive after applying PBGC's normal guarantee limits. Therefore, PBGC is paying the greater disability-conditioned benefit amount, contingent upon continued SSA disability eligibility.
- **Track 3A Plan-Conditioned Disability Benefit:** Disability benefit paid to a participant in a plan that does not require SSA disability eligibility, and who meets the plan's (but not SSA's) disability eligibility requirements.
- **Track 3B Plan- and SSA-Conditioned Disability Benefit:** Disability benefit paid to a participant in a plan that does not require SSA disability eligibility. The participant meets both the plan's and SSA's disability eligibility requirements, and application of the disability maximum guarantee in lieu of the otherwise applicable age-adjusted maximum guarantee limit results in a greater benefit.

Disability benefits are either auxiliary or non-auxiliary benefits. A disability benefit is auxiliary if, when the participant reaches normal retirement age, the disability benefit converts to an early or normal retirement benefit (benefit conversion) that is not reduced by any disability benefit payments made prior to the conversion. Therefore, an auxiliary disability benefit may be thought of as a benefit payable for a **term** that ends at early or normal retirement age. Auxiliary benefits often do not include a benefit form election and are paid only in a form prescribed in the plan, for example, a single life annuity. When a payee receiving an auxiliary disability benefit reaches early or normal retirement age, the disability benefit payment stops and the payee may apply for retirement benefits.

With non-auxiliary benefits, the benefit form in effect does not change when the early or normal retirement benefit begins.

PBGC obtains information on participants receiving disability benefits during the data acquisition phase, which is recorded in the participant database and then included in the valuation load to update ▸Spectrum. Benefit Determination Letters notify participants that their benefit (tracks 1 and 3) or amount (track 2) is conditioned upon their continued disability status and may cease or be reduced if that disability condition changes; that they must notify PBGC immediately if the disability status changes; and that they will be responsible for any overpayments that occur as a result of the disability status change.

After the plan is transferred to post-valuation administration, PBGC will automatically send annual letters via ▸CRM reminding the participants that their benefit or amount is conditioned upon continued their disability status and that they are obligated to notify PBGC if their status changes. These letters are sent annually on the anniversary of the case transfer date for four years; in the fifth year, PBGC issues a letter with a disability self-certification form (*Form 716 Certification of Social Security Disability Status* or *Form 716A Certification of Pension Plan Disability Status*) which the participants must complete and return to PBGC in paper or through ▸MyPBA for benefits to continue. The participant is responsible for any overpayments received after the date the disability condition changed.

This disability-condition monitoring continues until the payee reaches normal retirement age, unless the disability-based benefit ceases earlier due to a disability condition change.

The schedule for sending the reminder letters and self-certification letters is set automatically for the plan when the ▸PVA Assumption Date is completed in ▸CMS.

The continuous eligibility processes are described in the following subsections:

- TP 30.1 Monitor Continuous Eligibility for Disability Benefits covers the monitoring process that begins after a plan is transferred to post-valuation administration. However, it should also be applied to any post-▸BDL report of condition changes.
- TP 30.2 Process Pre-BDL Notice of Disability Condition Change covers infrequent situations where a payee contacts PBGC to report a disability condition change before receiving a BDL.

Top of Page

# TP 30.1 Monitor Continuous Eligibility for Disability Benefits

**07/01/2016**

| | |
|---|---|
| Purpose | To monitor payees' continued eligibility to receive disability-based benefit payments after issuance of the valuation BDL. |
| Guidance | Policy 5.9-1 Disability Benefits |
| Procedure Owner | FBA/PVA, Actuary |

▸CRM automatically generates four annual 576CRM **reminder** letters to payees in all disability tracks advising that they must notify PBGC if their disability status changes. In the fifth year a 522CRM-series letter with *Form 716 Certification of Social Security Disability Status* (for Tracks 1, 2 and 3A) or 524CRM with *Form 716A Certification of Pension Plan Disability Status* (for Track 3B) is issued requesting that the payee complete and return the form (or complete it via ▸MyPBA) certifying their current disability status. If a response is not received with 30 days, CRM automatically issues follow-up letter 578CRM-series letter; if a response is not received within another 30 days, a CRM579-series letter is issued indicating the benefit will be suspended or recalculated (depending on the disability track).

This section is most often used with cases in which PBGC has issued the initial letters requesting the payee to complete *Form 716 Certification of Social Security Disability Status* or *Form 716A Certification of Pension Plan Disability Status*. However, it also applies to any case in which a payee who has received a ▸BDL contacts PBGC to report a disability condition change, which may occur before the monitoring process has begun, in response to the BDL or a reminder letter. For either situation, follow the procedures in this section according to the payee's disability track.

If a participant notifies PBGC of a condition change **prior** to receiving the BDL, follow TP 30.2 Process Pre-BDL Notice of Disability Condition Change.

**In this Section**

TP 30.1A Monitor Track 1 Social Security Disability Eligibility
TP 30.1B Monitor Track 2 Disability Maximum Guaranteed Retirement Benefit Eligibility
TP 30.1C Monitor Track 3A Plan-Conditioned Disability Benefit Eligibility
TP 30.1D Monitor Track 3B Plan- and SSA-Conditioned Disability Benefit Eligibility
TP 30.1E Follow Up on Self-Certification Requests

**TP 30.1A Monitor Track 1 Social Security Disability Eligibility**

**07/01/2016**

A Track 1 SSA-Conditioned Disability Benefit is a disability benefit paid to a participant in a plan that requires ▸SSA disability eligibility. Take the following actions upon receipt of *Form 716 Certification of Social Security Disability Status* or other notice from the payee concerning his or her continued eligibility for Social Security Disability benefits.

If the payee does not respond within 30 days to the initial request for the self-certification form, upon issuance of the second request letter *578(1)CRM Self Certification Follow-up (CE disability Track 1)* proceed to TP 30.1E Follow Up on Self-Certification Requests.

**FBA/PVA**

1. Upon receipt of *Form 716 Certification of Social Security Disability Status* or other notification from the payee concerning his or her eligibility for disability payments, proceed according to the response:
   - **Payee is still eligible for Social Security disability benefits:** Issue a customized *eALG 531CE Acknowledgment of Continued Disability* acknowledging receipt and indicating that benefits will continue, and close the ▸CRM service request. No further action is necessary.
   - **Payee is no longer eligible for Social Security disability benefits:** Issue a customized *eALG 531DS Acknowledgment of Disability Condition Change (CE Track 1)* to:
     - Advise that PBGC will terminate the disability benefit and of the date of the last payment. To determine this date:
       - **Payee is eligible for early or normal retirement benefits within 120 days:** Use the first available payment date that is at least 90 days from the *522CRM Self Certification 1st letter (CE disability)*.
       - **Payee is not eligible for early or normal retirement benefits within 120 days:** Use the next available payment date.
     - Indicate that PBGC will review the normal retirement benefit stated in the ▸BDL and issue a letter advising whether the retirement benefit is impacted by the condition change.
     - State that any disability payments received after the disability change effective date are subject to recoupment.
     - Advise the payee of his or her early and normal retirement dates, and to contact PBGC within 120 days of the desired annuity starting date.
     - Request the payee to complete and return *Form 716 Certification of Social Security Disability Status* if not already provided. Continue to step 2.
2. Update the participant's disability information in the Continuous Eligibility fields in ▸Spectrum using the Update Customer Role screen, Continuous Eligibility section, as follows:
   - Receiving Plan Disability Benefit: Change to **No**.
   - End Date: Use the effective date entered on *Form 716 Certification of Social Security Disability Status*.
3. Terminate the disability benefit effective the date stated in the *eALG 531DS Acknowledgment of Disability Condition Change (CE Track 1)*.
4. Request from the actuary a review and calculation or recalculation of the retirement benefit based on whether the disability benefit is auxiliary or non-auxiliary:
   - **Auxiliary:** Request that the actuary review and recalculate the normal retirement benefit to determine whether the disability status change results in a change to the normal retirement benefit information provided in the valuation BDL.
   - **Non-auxiliary:** Request that the actuary review and calculate a normal retirement benefit, since this was not provided in the valuation BDL. Image the actuary's calculation to the participant's ▸IPS file.
5. Upon receipt of the actuary's response, proceed to the appropriate table based on whether the benefit is auxiliary or non-auxiliary to determine the next actions:
   - Post-BDL Disability Status Change Actions Table for Auxiliary Benefits
   - Post-BDL Disability Status Change for Actions Table for Non-Auxiliary Benefits

Top of Page

**TP 30.1A-1 Post-BDL Disability Status Change Actions Table for Auxiliary Benefits**

**07/01/2016**

Use this table in conjunction with TP 30.1A Monitor Track 1 Social Security Disability Eligibility or 30.1C Monitor Track 3A Plan-Conditioned Disability Benefit Eligibility for a payee who is no longer eligible for **auxiliary** disability benefits. Determine the required actions based on 1) the impact of the disability status change on the payee's normal retirement benefit (according to the actuary's review) and 2) the payee's current eligibility for retirement benefits.

**Post-BDL Disability Status Change Actions Table for Auxiliary Benefits**

| **Impact of Disability Status Change on Normal Retirement Benefit** | **Payee's Current Eligibility for Retirement Benefits** | **Required Actions** |
|---|---|---|
| Normal Retirement Benefit does not change | Deferred Vested (Not eligible for normal or early retirement benefits within 120 days) | 1. Issue a customized *eALG 531DSF Follow up to 531DS - No Change to NRB (CE Track 1)* or *eALG 531DPF Follow-up to 531DP - No Change to NRB (CE Track 3A)* letter to:<br>• Confirm the previously communicated normal retirement benefit provided in the valuation ▸BDL.<br>• Advise the participant to contact PBGC about 120 days before he or she wishes to begin receiving pension benefits for an application and optional benefit forms statement.<br>• Address disability payments paid after the disability status change effective date that are subject to future recoupment.<br>**Note** Do not prepare an *eALG 407 Disability Condition Change BDL* since the change in disability status does not change the normal retirement benefit information previously communicated in the valuation BDL. |
| Normal Retirement Benefit does not change | Eligible for early or normal retirement benefits currently or within 120 days. | 1. Issue a customized *eALG 531DS* (for Track 1) or *531DP* (for Track 3A) to:<br>• Confirm the previously provided normal retirement benefit provided in the valuation BDL.<br>• Address disability payments paid after the disability status change effective date that are subject to future recoupment.<br>• If eligible for **normal** retirement benefits within 120 days, provide a benefit application and ▸PACS statement with optional forms at ▸NRD.<br>• If eligible for **early** (but not normal) retirement benefits within 120 days, advise the participant to contact PBGC about 120 days before he or she wishes to begin receiving pension benefits.<br>**Note** Do not prepare an *eALG 407 Disability Condition Change BDL* since the change in disability status does not change the normal retirement benefit information previously communicated in the valuation BDL. |
| Normal Retirement Benefit changes | Deferred Vested (Not eligible for normal or early retirement benefits within 120 days) | 1. Prepare an *eALG 407 Disability Condition Change BDL* to:<br>• Communicate the new retirement benefit amount resulting from the disability status change.<br>• Address disability payments paid after the disability status change effective date that are subject to future recoupment.<br>2. Forward the draft BDL to Ask PPD for review and approval. |

| | | |
|---|---|---|
| | | 3. Upon approval, issue the BDL. |
| Normal Retirement Benefit changes | Eligible for early or normal retirement benefits currently or within 120 days. | 1. Prepare an *eALG 407 Disability Condition Change BDL* to:<br>• Communicate the new retirement benefit amount resulting from the disability status change.<br>• Address disability payments paid after the disability status change effective date that are subject to future recoupment.<br>• If eligible for **normal** retirement benefits within 120 days, include a benefit application and PACS statement with optional forms at NRD.<br>• If eligible for **early** (but not normal) retirement benefits within 120 days, advise the participant to contact PBGC about 120 days before he or she wishes to begin receiving pension benefits.<br>2. Forward the draft BDL to Ask PPD for review and approval.<br>3. Upon approval, issue the BDL. |

Top of Page

**TP 30.1A-2 Post-BDL Disability Status Change Actions Table for Non-Auxiliary Benefits**

**07/01/2016**

Use this table in conjunction with TP 30.1A Monitor Track 1 Social Security Disability Eligibility or 30.1C Monitor Track 3A Plan-Conditioned Disability Benefit Eligibility for a payee who is no longer eligible for **non-auxiliary** disability benefits. Determine the required actions based on the payee's current eligibility for retirement benefits.

**Post-BDL Disability Status Change Actions Table for Non-Auxiliary Benefits**

| **Current Eligibility Status for Normal Retirement Benefits** | **Actions** |
|---|---|
| Deferred Vested (Not eligible for normal or early retirement benefits within 120 days) | 1. Prepare an *eALG 407 Disability Condition Change BDL* to:<br>• Advise of the benefit at normal retirement date.<br>• Address disability payments paid after the disability status change effective date that are subject to future recoupment.<br>2. Forward the draft ▶BDL and benefit statement to Ask PPD for review and approval before issuing.<br>3. Upon approval, issue the BDL and benefit statement. |
| Eligible for early or normal retirement benefits currently or within 120 days. | 1. Draft an *eALG 407 Disability Condition Change BDL* advising of the benefit at normal retirement date, and which addresses any overpayments and future recoupment.<br>2. Forward the draft BDL and benefit statement to Ask PPD for approval.<br>3. Upon ▶PPD approval, issue the BDL and benefit statement.<br>4. Call the participant to ask if he or she would like a benefit application now, and if so request the desired annuity starting date and record in ▶CRM. |

**TP 30.1B Monitor Track 2 Disability Maximum Guaranteed Retirement Benefit Eligibility**

**07/01/2016**

A payee receiving a Track 2 SSA-Conditioned Retirement Benefit was eligible for both plan and ▸SSA disability benefits, but retired under other plan provisions. After trusteeship, PBGC determined that the disability benefit amount the payee could have received after applying PBGC's Special Guarantee Rules for Disabled Participants (under Policy 5.9-1 Disability Benefits, section E) is greater than the retirement benefit amount the payee is eligible to receive after applying PBGC's normal guarantee limits. Therefore, PBGC is paying the greater disability-conditioned retirement benefit amount, contingent upon continued SSA disability eligibility.

A Track 2 payee's benefit amount is conditioned on disability status and reduced if the payee ceases to be disabled. This is different from a Track 1 or 3 payee whose benefit will be suspended upon ceasing to be disabled.

Take the following actions upon receipt of *Form 716 Certification of Social Security Disability Status* or other notice from the payee concerning his or her continued eligibility for Social Security Disability benefits.

If the payee does not respond within 30 days to the initial request for the self-certification form, upon issuance of the second request letter*578(2)CRM Self Certification Follow-up (CE disability Track 2)* proceed to TP 30.1E Follow Up on Self-Certification Requests.

**FBA/PVA**

1. Upon receipt of *Form 716 Certification of Social Security Disability Status* or other notification from the payee concerning eligibility for disability benefits, proceed according to the response:
   - **Payee is still eligible for Social Security disability benefits:** Close the ▸CRM service request. Issue a customized *eALG 531CE Acknowledgment of Continued Disability* acknowledging receipt and indicating that no changes will be made to the current benefit amount as a result. No further action is necessary.
   - **Payee is no longer eligible for Social Security disability benefits:** Customize and issue an *eALG 531DM Acknowledgment of Disability Condition Change (CE Track 2)* letter to:
     - Acknowledge receipt and the date of the disability status change.
     - Advise that the current benefit amount will continue while PBGC recalculates the benefit based on the disability status change.
     - Indicate that PBGC will issue another letter indicating the results of the review, including whether the benefit amount will be reduced and whether there are any overpayments subject to recoupment.
     - Request the payee to complete and return *Form 716 Certification of Social Security Disability Status* if not already provided.
2. Update the participant's disability information in the Continuous Eligibility fields in ▸Spectrum using the Update Customer Role screen, Continuous Eligibility section, as follows:
   - Benefiting from Disability Max: Change to **No**.
   - End Date: Use the effective date entered on *Form 716 Certification of Social Security Disability Status*.
3. Request the actuary to review the calculation to determine whether the disability status change results in a reduction to the benefit amount in pay status.

**Actuary**

4. Recalculate the retirement benefit based on the disability status change information in accordance with Policy 5.9-1 Disability Benefits, sections **G.2 Cessation of Disability Benefits** and/or **G.3 Cessation of application of the Special Guarantee Rules for Disabled Participants for Participants Retired Under Non-Disability Provisions**, as applicable.
5. Provide the results to the requestor. If the normal retirement benefit amount changes, provide a benefit statement for the new benefit.

**FBA/PVA**

6. Proceed based on the actuary's response:

- **Disability Condition change does not affect the current benefit amount:** Issue an *eALG 531DMF Follow-up to 531DM - No Change to NRB (CE Track 2)* letter advising that the retirement benefit amount currently being paid will not change. No further action is required.
- **Disability Condition change decreases the current benefit amount:** Customize and issue an *eALG 407 Disability Condition Change BDL* to the participant to:
  - Indicate the reason the retirement benefit amount changed; that is, the disability condition change.
  - Provide the reduced retirement benefit amount.
  - Indicate the net overpayment amount for payments made after the disability cessation date based on the higher disability-based benefit, and the recoupment amount.

7. Proceed after the appeal period expires or an appeal decision is issued, as applicable:
   - **No appeal after 50 days or BDL is upheld after appeal:** Implement the BDL. Adjust the benefit and implement recoupment in Spectrum, as required.
   - **Appeal decision changes the benefit:** Proceed according to the appeal closing memo.

Top of Page

**TP 30.1C Monitor Track 3A Plan-Conditioned Disability Benefit Eligibility**

**07/01/2016**

A payee with a Track 3A Plan-Conditioned Disability Benefit receives a disability benefit from a plan that does not require ▸SSA disability eligibility, and the payee meets the plan's (but not SSA's) disability eligibility requirements. Take the following actions upon notice that the payee has submitted *Form 716A Certification of Pension Plan Disability Status* or otherwise notified PBGC concerning his or her continued eligibility for these benefits.

If the payee does not respond within 30 days to the initial request for the self-certification form, upon issuance of the second request letter *578(3A)CRM Self Certification Follow-up (CE disability Track 3A)* proceed to TP 30.1E Follow Up on Self-Certification Requests.

> **Note** If the participant was originally a Track 3B Plan-Conditioned Disability Benefit payee who completed *Form 716 Certification of Social Security Disability Status* and, due to the response, has now submitted *Form 716A Certification of Pension Plan Disability Status* based on PBGC's request, continue processing according to TP 30.1D Monitor Track 3B Plan- and SSA-Conditioned Disability Benefit. Use this section only if referred from that procedure based on the participant's situation.

**FBA/PVA**

1. Upon receipt of Form *716A Certification of Pension Plan Disability Status* or other notification from the payee concerning eligibility for disability benefits, proceed according to the response:
   - **Payee is still eligible for plan-conditioned disability benefits:** Close the ▸CRM service request. Issue an *eALG 531CE Acknowledgment of Continued Disability* letter acknowledging receipt and indicating that the disability benefits will continue.
   - **Payee is no longer eligible for plan-conditioned disability benefits:** Issue a customized *eALG 531DP Acknowledgment of Disability Condition Change (CE Track 3A)* letter to:
     - Advise that PBGC will terminate the disability benefit and of the date of the last payment. To determine this date:
       - **Payee is eligible for early or normal retirement benefits within 120 days:** Use the first available payment date that is at least 90 days from the *524CRM Self Certification 1st letter (Track 3A)*.
       - **Payee is not eligible for early or normal retirement benefits within 120 days:** Use the next available payment date.
     - Advise that PBGC will review the normal retirement benefit stated in the ▸BDL and issue a letter indicating whether the retirement benefit is impacted by the condition change.
     - Indicate whether there are any overpayments subject to recoupment.
     - Advise the payee of his or her early and normal retirement dates, and to contact PBGC within 120 days of the desired annuity starting date.
     - Request the payee to complete and return *716A Certification of Pension Plan Disability Status* if not already provided.

   Continue to step 2.
2. Update the participant's disability information in the Continuous Eligibility fields in ▸Spectrum using the **Update Customer Role** screen, **Continuous Eligibility** section, as follows:
   - **Receiving Plan Disability Benefit**: Change to **No**.
   - **End Date**: Use the effective date entered on *716A Certification of Pension Plan Disability Status*.
3. Terminate the disability benefit effective the date stated in the *eALG 531DP Acknowledgment of Disability Condition Change (CE Track 3A)*.
4. Request that the actuary review and calculate or recalculate the retirement benefit based on whether the benefit is auxiliary or non-auxiliary:
   - **Auxiliary:** Request that the actuary review and recalculate the normal retirement benefit to determine whether the disability status change results in a change to the normal retirement benefit information provided in the valuation BDL.
   - **Non-auxiliary:** Request that the actuary review and calculate a normal retirement benefit for the participant

(since normal retirement benefit information was not previously provided in the valuation BDL).

5. Proceed to the appropriate table based on whether the benefit is auxiliary or non-auxiliary:
   - Post-BDL Disability Status Change Actions Table for Auxiliary Benefits
   - Post-BDL Disability Status Change Actions Table for Non-Auxiliary Benefits

Top of Page

**TP 30.1D Monitor Track 3B Plan- and SSA-Conditioned Disability Benefit Eligibility**

**07/01/2016**

A Track 3B Plan- and SSA-Conditioned Disability Benefit is a disability benefit paid to a participant in a plan that does not require ▸SSA disability eligibility. The participant meets both the plan's and SSA's disability eligibility requirements, and application of the disability maximum guarantee in lieu of the otherwise applicable age-adjusted maximum guarantee limit results in a greater benefit.

Take the following actions upon notice that the payee has returned the self-certification form or submitted it through ▸MyPBA, or has otherwise notified PBGC concerning his or her continued eligibility for these benefits.

If the payee does not respond within 30 days to the initial request for the self-certification form, upon issuance of the second request letter *578(3B)CRM Self Certification Follow-up (CE disability Track 3B)* proceed to TP 30.1E Follow Up on Self-Certification Requests.

**FBA/PVA**

1. Act upon receipt of *Form 716 Certification of Social Security Disability Status* or other notification from the payee concerning eligibility for disability benefits:
   - **Payee is still eligible for Social Security disability benefits:** Close the CRM service request. Issue an *eALG 531CE Acknowledgment of Continued Disability* letter acknowledging receipt and indicating that benefits will continue. No further action is necessary.
   - **Payee is no longer eligible for Social Security disability benefits:** Proceed to step 2.
2. Update the participant's disability information in the Continuous Eligibility fields in ▸Spectrum using the **Update Customer Role** screen, **Continuous Eligibility** section, as follows:
   - **Benefiting from Disability Max**: Change to **No**.
   - **End Date**: Use the effective date entered on *Form 716 Certification of Social Security Disability Status*.
3. Issue an *eALG 541 Self Certification (CE disability Track3B Part 2)* letter to:
   - Acknowledge the Social Security disability condition change and effective date.
   - Request that the payee complete *Form 716A Certification of Pension Plan Disability Status* to determine if the payee is still eligible for plan-conditioned disability benefits (under Track 3A). Allow 30 days for a response. (Also request the payee to complete and return *Form 716 Certification of Social Security Disability Status* if not already provided.)
4. Proceed according the payee's eligibility for plan-conditioned disability benefits.
   - **Payee is eligible for plan-conditioned disability benefits:**
     a. Issue an *eALG 531DP(3B) Acknowledgment of Change to SSA Disability* to acknowledge the disability condition change, and indicate that a recalculation of the disability benefit is forthcoming and that the current benefit will not change pending the recalculation.
     b. Request from the actuary a recalculation of the disability benefit based on the participant's non-eligibility for SSA disability benefit. In the request include the effective date the payee became ineligible.
     c. If the recalculation indicates a change in the disability benefit previously communicated in the valuation BDL, issue an *eALG 407 Disability Condition Change BDL* stating the revised disability benefit and any overpayments that will be recouped.
     d. After the appeal period expires, adjust the benefit and initiate recoupment, as applicable.
   - **Payee is not eligible for plan-conditioned disability benefits:**
     a. Process the payee as one who is no longer eligible for the plan-conditioned disability benefit according to TP 30.1C Monitor Track 3A Plan-Conditioned Disability Benefit.

Top of Page

**TP 30.1E Follow Up on Self-Certification Requests**

**07/01/2016**

If the payee does not respond within 30 days to PBGC's initial request for the self-certification form, upon the issuance of the automated second request letter (578CRM-series) use these instructions to follow up with the payee and take any necessary action on the benefit.

**FBA/PVA**

1. View the payee's file in ▸PBGC Image Viewer for any indication the initial request for the self-certification may not have been received, such as returned mail or a change of address request that had not been processed when the letter was mailed:
   - **An unprocessed address change request is on file:** Update the address in ▸CRM and send the initial eALG 522 or 524 self-certification letter with the appropriate form (*Form 716 Certification of Social Security Disability Status* or *Form 716A Certification of Pension Plan Disability Status*) to the new address. Then restart processing according to the section of this procedure applicable to the payee's disability track (TP 30.1A–D).
   - **There is no unprocessed address change request on file, or indication that the payee did not receive the letters:** Attempt to contact the payee using contact information in PBGC Image Viewer and CRM, and from available locator tools as needed, to request that the self-certification form be completed and returned:
     - If successful, request that the payee complete and return the form, or submit it through ▸MyPBA, in order for benefits to continue uninterrupted. Allow seven days for a response. Continue to step 2.
     - If unsuccessful, continue to step 3.
2. Proceed based on the payee's response.
   - **Payee submits form to PBGC:** Proceed based on the response according to the subsection of this procedure applicable to the payee's disability track.
   - **Payee does not submit form to PBGC within 7 days:** Continue to step 3.

Prepare the *Request for Concurrence to Suspend Disability Benefit Payments* to the ▸CSD Manager (and copy the ▸COR for the ▸PVA office), explaining the circumstances and requesting concurrence to suspend benefit payments until the payee submits the form, as applicable.

1. Upon receipt of the CSD Manager's signed approval on the *Request for Concurrence to Suspend Disability Benefit Payments* to suspend benefit payments:
   - Once 30 days elapse from the date of the CRM578-series letter, CRM automatically issues the 579CRM-series letter to the payee indicating that benefits will be suspended.
   - Suspend the benefits in ▸Spectrum effective the next available payment date.
2. If the payee submits the completed self-certification form after benefits are suspended, process the response according to the appropriate disability track in TP 30.1 Monitor Continuous Eligibility for Disability Benefits.
3. If the payee is eligible for continued benefits:
   a. Resume payments of the disability-based benefit.
   b. Determine the total underpayment for payments missed while suspended, including interest, using ▸PACS.
   c. If the total underpayment does not equal a large reimbursement, issue a back payment with interest for payments missed while benefits were suspended. Issue an *eALG Generic* letter to notify the payee of the effective date that payments will resume, and that a back payment will be issued for missed payments.
   d. If the total underpayment equals or exceeds a large reimbursement:
      i. Customize and issue an *eALG 502LBR Payment Advice - Annuity w/large Back Payment Application*, including an application for a lump-sum and notification that the application.
      ii. Upon receipt of the completed lump-sum application, process the back payment according to TP 20.4 Process Lump-Sum Applications.

Top of Page

# TP 30.2 Process Pre-BDL Notice of Disability Condition Change

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process notification from a payee receiving estimated disability-based benefits that he or she no longer meets the requirements for those benefits. |
| **Guidance** | Policy 5.9-1 Disability Benefits |
| **Procedure Owner** | EBLS/FBA/PBA, Actuary |

Most participants receiving disability-based benefits are first advised by their ▸BDLs to notify PBGC if they are no longer disabled, and that they are responsible for any overpayments that may occur after their disability status changes. A small number of participants who are first determined eligible for disability benefits by PBGC are notified of this requirement when PBGC puts them into estimated pay status, and may contact PBGC to report a disability condition change before receiving their BDLs. Telephone calls received by the ▸CCC about disability status changes will be transferred to the telephone ▸POC for the plan.

Upon notice of a disability condition change from a payee receiving an estimated benefit, proceed to the appropriate section based on the payee's disability track.

**In this Section**

TP 30.2A Process Pre-BDL Notice of Condition Change for Track 1 SSA-Conditioned Disability Benefit
TP 30.2B Process Pre-BDL Notice of Condition Change for Track 2 SSA-Conditioned Retirement Benefit
TP 30.2C Process Pre-BDL Notice of Condition Change for Track 3A Plan-Conditioned Disability Benefit
TP 30.2D Process Pre-BDL Notice of Condition Change for Track 3B Plan and SSA-Conditioned Disability Benefit

**TP 30.2A Process Pre-BDL Notice of Condition Change for Track 1 SSA-Conditioned Disability Benefit**

**03/28/2013**

A payee with a Track 1 SSA-Conditioned Disability Benefit is receiving a disability benefit from a plan that requires ▸SSA disability eligibility. Take the following steps if a Track 1 disability payee who has not yet received a ▸BDL notifies PBGC that he or she is no longer eligible to receive Social Security disability benefits. If the payee has already received a BDL, process according to TP 30.1. Monitor Continuous Eligibility for Disability Benefits.

1. Ask the participant the effective date of the disability condition change and advise that PBGC will follow up to request this information in writing, and provide a form.
2. Record the disability status date in ▸CRM.
3. Terminate the disability payments effective the next available payment date.
4. Proceed to the appropriate table according to whether the payee is receiving an auxiliary or non-auxiliary disability benefit:
   - Pre-BDL Disability Status Change Actions for Auxiliary Benefits Table
   - Post-BDL Disability Status Change Actions for Non-Auxiliary Benefits Table

**TP 30.2B Process Pre-BDL Notice of Condition Change for Track 2 SSA-Conditioned Retirement Benefit**

**03/28/2013**

A payee receiving a Track 2 SSA-Conditioned Retirement Benefit was eligible for both plan and ▸SSA disability benefits but retired under other plan provisions. After trusteeship, PBGC determined that the disability benefit amount the payee could have received after applying PBGC's Special Guarantee Rules for Disabled Participants (under Policy 5.9-1 Disability Benefits) is greater than the retirement benefit amount the payee is eligible to receive after applying PBGC's normal guarantee limits. Therefore, PBGC is paying the greater disability-conditioned retirement benefit amount, contingent upon continued SSA disability eligibility.

Take the following steps upon advice from a Track 2 disability payee in estimated pay status that he or she is no longer eligible for Social Security disability benefits.

1. Ask the participant the effective date of the disability status change.
2. Issue an ▸eALG Acknowledgment letter to:
   - Acknowledge the disability status change and effective date.
   - Advise that PBGC will recalculate the retirement benefit and notify the participant.
   - Request that the participant complete and return *Form 716 Certification of Social Security Disability Status*.

     Follow up as needed for the completed *Form 716 Certification of Social Security Disability Status*, but do not delay processing pending receipt of the form.
3. Request from the actuary a recalculation of the estimated retirement benefit amount based on the effective date the payee ceased to be eligible for the SSA disability benefit.
4. Upon receipt of the calculation, proceed according to whether the disability condition change results in a decrease to the in the retirement benefit amount.
   - **Retirement Benefit does not decrease:** Issue an *eALG Generic* letter confirming that the normal retirement benefit does not change as a result of the disability status change.
   - **Retirement Benefit decreases:**
     - Prepare a ▸PACS statement to determine any overpayment amount (for example, due to the difference between the disability based amounts payments paid after the disability status change effective date and the newly calculated decreased retirement benefit amount).
     - Customize and issue an estimated benefit letter (eALG 300-series) with a new benefit statement. In the letter, address whether there are overpayments due to the greater disability benefit having been paid after the disability end date that are subject to future recoupment.
     - Adjust the benefit in ▸Spectrum to the retirement benefit amount.

**TP 30.2C Process Pre-BDL Notice of Condition Change for Track 3A Plan-Conditioned Disability Benefit**

**03/28/2013**

A Track 3A Plan-Conditioned Disability Benefit is a disability benefit paid to a participant in a plan that does not require ▸SSA disability eligibility, and who meets the plan's (but not SSA's) disability eligibility requirements. Take the following steps if a Track 3A disability payee who has not yet received a ▸BDL notifies PBGC that he or she is no longer eligible to receive disability benefits from the pension plan. If the participant has received a BDL, process according to TP 30.1. Monitor Continuous Eligibility for Disability Benefits.

1. Determine whether the payee is receiving an auxiliary or non-auxiliary disability benefit.
2. Proceed to the appropriate table:
   - Pre-BDL Disability Status Change Actions for Auxiliary Benefits Table
   - Post-BDL Disability Status Change Actions for Non-Auxiliary Benefits Table

**TP 30.2D Process Pre-BDL Notice of Condition Change for Track 3B Plan and SSA-Conditioned Disability Benefit**

**03/28/2013**

A Track 3B Plan- and ▸SSA-Conditioned Disability Benefit is a disability benefit paid to a participant in a plan that does not require SSA disability eligibility. The participant meets both the plan's and SSA's disability eligibility requirements, and application of the disability maximum guarantee in lieu of the otherwise applicable age-adjusted maximum guarantee limit results in a greater benefit.

Take the following steps if a Track 3B disability payee in who has not yet received a ▸BDL notifies PBGC that he or she is no longer eligible to receive Social Security disability benefits. Note that the participant may still be eligible for plan-conditioned disability benefits under Track 3A. If the payee has received a BDL, proceed according to TP 30.1D Monitor Track 3B Plan- and SSA-Conditioned Disability Benefit Eligibility.

1. Send an *eALG Generic* cover letter with the following forms for the payee to complete and return in order for PBGC to determine eligibility for payments conditioned on meeting either Social Security's or the plan's disability requirements:
   - *Form 716A Certification of Pension Plan Disability Status*
   - *Form 716 Certification of Social Security Disability Status*

> **Note** Since the payee has already indicated he or she is not eligible for Social Security disability benefits (to be certified on *Form 716 Certification of Social Security Disability Status*), the remainder of this procedure is to determine how to proceed based on whether the payee is eligible for the plan's disability benefits based on the response on *Form 716A Certification of Pension Plan Disability Status*.

2. Proceed according to the payee's response concerning his or her eligibility for a plan-conditioned disability benefit (under Track 3A) based on the response on *Form 716A Certification of Pension Plan Disability Status*.
   - **Payee certifies that he or she is still eligible for the plan-conditioned disability benefit:**
     a. Request from the actuary a recalculation of the benefit and provide the effective date the payee ceased being eligible for Social Security disability benefits.
     b. Customize and issue an estimated benefit letter (▸eALG 300-series) indicating the payee's benefit and address whether there are overpayments that will be recouped in the future (for example, since the payee may have continued to receive the higher benefit after becoming ineligible for SSA benefits).
     c. Update the estimated payment amount in ▸Spectrum.
   - **Payee certifies that he or she is no longer eligible for a plan-conditioned disability benefit:**
     a. Update the disability status in Spectrum.
     b. Follow the steps in the appropriate table for a payee no longer eligible for disability benefits.
        - Pre-BDL Disability Status Change Actions Table for Auxiliary Benefits
        - Pre-BDL Disability Status Change Actions Table for Non-Auxiliary Benefits

# TP 31 Congressional and Other Sensitive Correspondence

**In this Section**

TP 31. Overview for Congressional and Other Sensitive Correspondence
TP 31.1 Respond to Congressional or Other Sensitive Correspondence
TP 31.2 Resources for Congressional and Other Sensitive Correspondence

## TP 31. Overview for Congressional and Other Sensitive Correspondence

**07/01/2016**

PBGC defines sensitive correspondence as communication from high-ranking Federal, state, county, city, and union officials, complaint letters addressed to the Director, and any additional correspondence the Director designates as sensitive (see Directive IM 10-1 Control of Congressional and Other Sensitive Correspondence). The most common type of sensitive correspondence is correspondence from members of Congress.

Responding to Congressional correspondence specifically is an inherently governmental activity. Contractors may provide support researching the inquiry or identifying and recommending possible actions, but only Federal staff may make decisions, draft, and sign the response.

In ▸OBA, all draft responses are sent to ▸PPD for review. PPD routes the response to the Office of Policy and External Affairs (OPEA) through the ▸OBA Front Office. Upon final approval by OPEA, the Front Office obtains the signature of the Project Manager/Senior Advisor to the Chief of Benefits Administration. OPEA then mails the response.

PBGC has 10 business days to issue the response. The OBA division has five business days to prepare and forward its response to PPD. PPD is allowed three business days to review the draft and must forward it to OPEA at least two business days before the deadline.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

# TP 31.1 Respond to Congressional or Other Sensitive Correspondence

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review Congressional or other sensitive correspondence and provide an appropriate response. |
| **Guidance** | Directive IM 10-1 Control of Congressional and Other Sensitive Correspondence |
| **Procedure Owner** | OBA Front Office, Federal Staff, PPD, Project Manager/Senior Advisor to the Chief of Benefits Administration |

Use the following steps when addressing Congressional or other sensitive correspondence received from the Office of Policy and External Affairs (OPEA).

All draft responses are sent to ▸PPD for review. PPD routes the response to OPEA through the ▸OBA Front Office. Upon final approval by OPEA, the Front Office obtains the signature of the Project Manager/Senior Advisor to the Chief of Benefits Administration. OPEA then mails the response.

PBGC has 10 business days to issue the response. In OBA, PPD requires three business days to review the draft and must forward it to OPEA at least two business days before the deadline. This allows the OBA division a total of **five business days** to prepare and forward its response to PPD.

**CSD Management Analyst**

1. Upon receipt of an e-mail from the Office of Policy and External Affairs (OPEA) with Congressional or other sensitive correspondence to be addressed by OBA:
   a. Log the correspondence on the tracking spreadsheet, including the date received, due date, name of the Member of Congress or other originator, customer name and ▸CID number, and PBGC Docket Number.
   b. Ensure that the ▸CSD Branch Manager responsible for the ▸plan was copied on the OPEA e-mail (forward the e-mail if necessary).
   c. Track all correspondence and follow up with the CSD Branch Manager as needed to ensure a response is received by the deadline.

**CSD Branch Manager**

2. Assign the correspondence response task to the appropriate Federal staff.

**Federal Staff**

3. Review the correspondence to determine whether a response can be forwarded to PPD within five business days or if an extension is needed:
   - No extension is needed: Continue to step 4.
   - Extension is needed: Notify the CSD Branch Manager and PPD as soon as possible.

     PPD contacts the Congressional office to request an extension of time to prepare the response, then notifies the Federal staff, the OBA Front Office, and OPEA of the extension.
4. Consult with other employees as needed for assistance in resolving the issue or drafting the response.
   - Federal employees may perform any necessary task to respond to sensitive correspondence.
   - Contractors may assist with certain tasks, but **cannot** draft or sign a response to Congressional correspondence, since these actions are inherently governmental tasks that only Federal employees may perform.

     Examples of tasks contractors may perform include:
     - Reviewing ▸participant and plan files
     - Reviewing relevant PBGC operating policies and procedures
     - Summarizing relevant facts in memoranda or other documentation

- Citing underlying documents that support the facts
- Proposing or recommending one or more responses or resolutions to the responsible Federal personnel
- Reviewing and commenting on a draft response prepared by the responsible Federal personnel

5. Prepare the draft response in accordance with the *Guidelines for Replying to Congressional Correspondence*.
6. Submit the draft response (including attachments if applicable) with the related e-mail from OPEA to the Division Manager for review. Include any supporting documentation, summaries, or memoranda prepared by contractors.

**CSD Branch Manager**

7. Upon successful review, forward the draft response with the related e-mail from OPEA to the PPD Congressionals mailbox no fewer than **five business days** before the deadline. Include the PBGC Docket Number and member of Congress's (or other originator's) last name in the subject line (for example, "PBGC-9497/Smith").

> **Note** It is the responsibility of the CSD Branch Manager to ensure that the content of the response is accurate.

**PPD and Project Manager/Senior Advisor to the Chief of Benefits Administration**

8. Review the draft response and determine whether changes are needed:
   - If the response is acceptable as drafted, continue to the next step. Make necessary style and formatting edits to expedite processing.
   - If more than minor changes are needed, return the draft response to the CSD Branch Manager.
9. Obtain the approval of the Project Manager/Senior Advisor to the Chief of Benefits Administration, and then OPEA.
10. Upon OPEA approval, forward the draft response to the Project Manager/Senior Advisor to the Chief of Benefits Administration and copy the OBA Front Office.

**OBA Front Office**

11. Deliver the final, hardcopy response to the Project Manager/Senior Advisor to the Chief of Benefits Administration for signature, then:
    - E-mail a PDF version of the signed response to OPEA, who will mail it to the Congressional office or other originator.
    - Copy the CSD Branch Manager.
    - Maintain a copy of the original correspondence from OPEA with the Congressional inquiry, the final response, *PBGC Form 391 Routing and Transmittal Slip*, and any requests for revision from OPEA on the Portal.
    - Update the spreadsheet used to track the correspondence.

**CSD Branch Manager**

12. Ensure that copies of the following are imaged to the appropriate plan or participant file in ▸IPS:
    - E-mail from OPEA with the Congressional or other sensitive correspondence
    - Final response with signature
    - Evidence of approval from the OBA Front Office
    - Any supporting documentation, summaries, or memoranda

# TP 32 Provide Estimated Benefit Calculations

**In this Section**

TP 32. Overview for Provide Estimated Benefit Calculations
TP 32.1 Receive Request, Gather Initial Information
TP 32.2 Determine and Provide Estimated Calculation
TP 32.3 Resources for Provide Estimated Benefit Calculations

## TP 32. Overview for Provide Estimated Benefit Calculations

**09/30/2016**

When requested, ▸CSD provides written estimated benefit calculations to participants, surviving spouses, beneficiaries and ▸alternate payees. CSD gathers all necessary information to calculate an accurate estimated benefit and provides the requestor a response as soon as possible. A request for a benefit estimate for an annuity starting date within 180 days of the request date is considered documented contact requesting an annuity starting date, regardless of whether the customer specifically requests an application (see Policy 5.2-4 Annuity Starting Dates).

Customers request estimated benefits by telephone or in writing (via letter, fax or e-mail). They may request this information for advance planning purposes, or to determine whether to elect to receive an ▸early retirement benefit (if applicable under their plan) or a ▸normal retirement benefit from PBGC. After receipt of an estimated benefit calculation, these customers may file a benefit application and request to be put into pay status. This process is described in TP 20 Benefit Payments.

Accurate and timely provision of estimated benefits to customers is one of the many ways CSD demonstrates its commitment to customer service. These calculations are provided as soon as possible to the customer. If an estimated benefit tool (includes ▸BET) has been prepared for the plan (developed in Process 10.5 Prepare Estimated Benefits Calculation Tool), **or** ▸OBA has recent plan calculations from the prior plan administrator or actuary, the commitment is to respond to the participant's request within **15 business days** of the request, or receipt of all necessary information, if later.

An estimated benefit calculation is personal benefit information subject to Privacy Act considerations, and may only be provided to the individual entitled to the benefit, or to their authorized representative, see Policy 8.4-1 Power of Attorney and Guardianship. Spouses of participants, children and other relatives are not entitled to the information unless the participant gives written permission (unless the person is the beneficiary of a deceased participant), and a request is made under the Freedom of Information Act (▸FOIA). The Disclosure Division in ▸OGC handles FOIA requests. A spouse or a former spouse having a ▸Domestic Relations Order prepared often make this type of request, and if the request is received by CSD staff, the alternate payee is directed to the Disclosure Division for assistance. For information about processing these orders, see TP 13 Domestic Relations Orders and State Agency Orders.

Upon receipt of a telephone request in the ▸CCC for an estimated benefit, the ▸CSR collects basic information about the participant and/or caller (when the caller is not the participant). Like all telephone calls, this is recorded in ▸CRM. Once the call is routed to them, the ▸EBLS/▸FBA/▸PBA/▸PVA assigned to the case assumes responsibility of responding to the request. Written requests are routed directly to the EBLS/FBA/PBA/PVA assigned to the case, who contact the requestor to collect any additional information needed and maintain responsibility for the participant request through completion.

Once all necessary participant and plan information is available, the estimated benefit is calculated using one of these methods, in the following preferred order:

- an estimated benefit calculation tool (includes BET), if available.
- recent prior plan administrator's calculations that have been approved by the PBGC actuary, if available.
- PBGC actuary provides individual calculation.

Generally, the EBLS/FBA/PBA/PVA provides the estimated benefit and reviews the supporting information by telephone. This is documented in CRM. This is followed by a written response that specifies the estimated benefit calculation, (clearly identifies the information as estimate) and provides an estimated benefit calculation sheet.

For cash balance plans, follow specific procedures in TP 52 Cash Balance and Other Statutory Hybrid Plans.

Occasionally, participants are determined to have been eligible for disability benefits prior to ▸DOPT by the prior plan administrator or PBGC, but were never put into pay status, and may be initially placed into estimated pay status by PBGC. In these rare situations, be certain to issue the correct disability ▸eALG letter confirming the payment amount according to TP 20.3C Issue Annuity Payment.

Top of Page

## TP 32.1 Receive Request, Gather Initial Information

**07/01/2016**

| | |
|---|---|
| **Purpose** | Verify estimated benefit requestor entitled to information, collect necessary information to complete calculation. |
| **Required Input and Source** | Written or verbal inquiry from a participant, surviving spouse, beneficiary, alternate payee for an estimated benefit amount. |
| **Process Output and Recipient** | All participant and plan information necessary to perform estimated benefit calculation for eligible participant determined and received by PBGC. Determination that requestor may receive this personal benefit information. |
| **Control Issues** | PBGC will ask the necessary questions to verify that the requestor is entitled to the information, and determine whether the participant is eligible for an estimated benefit amount from the plan.<br><br>Spouses of living participants, children and other relatives are not entitled to a participant's personal benefit information without written permission from the participant. Then their request for information may be made under FOIA. The Disclosure Division in OGC handles FOIA requests. Potential alternate payees may request benefit information as part of the preparation of a Domestic Relations Order. If received in OBA, direct the requestor to the Disclosure Division.<br><br>Regardless of the method of inquiry (phone, e-mail, fax, letter) all communications with the participant and information used to provide the benefit calculations are fully documented, either imaged to IPS (includes e-mail correspondence) or recorded in CRM. |
| **Important Concepts** | Although estimated benefits **are estimates**, PBGC is sensitive to the customer's reliance on these calculations in their planning and decisions about whether to retire, and strives to provide the most accurate calculation possible. When Benefit Determination Letters are issued, underpayments are made to the customers (see Process 19 Benefit Determination Letters), and overpayments may be repaid through recovery or recoupment (see TP 6 Recover Overpayments, and TP 7 Recoupment and Administrative Correction). Complete and accurate data are critical to ensure that PBGC's timely estimated benefit calculations are accurate.<br><br>**Timing:** PBGC's goal is to always respond to the requestor(s) as soon as possible. In many cases that will be within 15 business days of the estimated benefit calculation request, or receipt of all necessary information, if later. |
| **Guidance** | PBGC Customer Service Standards<br><br>eALG Correspondence Help<br><br>Policy 8.4-1 Power of Attorney and Guardianship |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

**Telephone request**

**A. CSR or EBLS/FBA/PBA/PVA**

A telephone request for an estimated benefit calculation amount may be received at the ▸CCC or directly by the ▸EBLS/▸FBA/▸PBA/▸PVA. As with all customer telephone calls, ▸CSD follows the standard steps of gathering or verifying basic information about the caller and/or participant.

1. Verify that the caller is the participant, surviving spouse or beneficiary, or authorized representative (see Policy 8.4-1 Power of Attorney and Guardianship). If not, no information may be provided to the caller. If the caller requests the information under ▸FOIA, direct the caller to the Disclosure Division in ▸OGC.

   Request information from the caller (including the standard call verification procedure) as outlined in the ▸Telephone Request Types of Information to Collect Table.

2. If originally received in the CCC, the request is forwarded to the responsible staff telephone ▸POC for the plan.

**B. EBLS/FBA/PBA/PVA**

1. First verify whether the plan's status is final or estimated. (A plan is referred to as "final" when its valuation has been completed and ▸Benefit Determination Letters issued. Otherwise, a plan is referred to as "estimated", therefore participant benefits are estimated.) If the plan is final, the benefit may be provided through accessing the archives. Provide a telephone response to the participant (recording the relevant information in ▸CRM) and follow up with a letter confirming the information provided.

   **Note** See TP 52 Cash Balance and Other Statutory Hybrid Plans for cash balance plan participant rules, action steps, and procedures.

2. In addition to the information outlined in 2 above, additional information is necessary to calculate an accurate benefit estimate. Consult with the plan actuary to develop a complete list of data needed for the estimated benefit calculation, and ensure that this list of data elements is imaged to the plan file (▸IPS).

   Some examples of additional information that may be necessary:

   - Transfer between hourly and salaried
   - Date of plan participation
   - ▸Break in service information, if applicable
   - USERRA Eligibility (See TP 62 USERRA Benefits)
   - Earnings information (W-2's), if applicable*

   *If the requestor is unable to provide enough supporting employment or earnings data, information may need to be obtained from ▸SSA, if possible. For more information, see TP 26 Request SSA Data

3. Determine status of the plan and whether an estimated benefit calculation can be made.

   **Note** In some instances, it may be too early in the case processing cycle to provide this information. For example: There may not be an estimated benefit calculation tool (includes ▸BET) for the plan. See Process 10.5 Prepare Estimated Benefit Calculation Tool. There may not be (reliable) prior plan administrator or actuary's benefit calculations available for the plan, and the *Plan Document List* and *Plan Summary* are not yet completed, or are not available for the plan. See 11.3A Finalize Plan Document List, and 11.3B Finalize Data Elements for Participant Database Construction.

4. **If an estimated calculation may not be provided at this time,** notify the requestor that the PBGC is still gathering information about the plan necessary to perform the calculation. The initial provision of this information may be made by telephone and documented in ▸CRM.

5. If PBGC has trusteed the plan but has not yet obtained sufficient records, ask the requestor if he or she has copies of any of the following:
   - ▸Benefit statement from the employer/ plan administrator
   - ▸Summary Plan Description
   - ▸Summary of Material Modifications (▸SMM)
   - pension ▸plan document and/or amendments
   - collective bargaining agreement
   - union book(s)
   - employee handbooks that reference the pension

   If the requestor has any or all of these documents, ask them to provide copies to the PBGC.

6. Check Spectrum, IPS and/or any other plan database or information to determine whether all information needed to calculate the estimated benefit amount is available. If additional information is needed, contact the requestor by

telephone. If unable to contact by telephone, prepare Information Request for Estimated Benefit, available through ▸eALG.

7. If the requested information is not received within 15 days, follow-up is appropriate. If efforts to obtain the necessary participant information are unsuccessful, consult with management about whether to send a final letter advising that until the requested information is provided, PBGC will not be able to provide the estimated benefit calculation, and will not make any further follow up efforts.
8. The Case Team is responsible for completing the required work that will permit an accurate estimated benefit calculation.
9. Go to TP 32.2 Determine and Provide Estimated Calculation.

**Written Request–EBLS/FBA/PBA/PVA (mail POC for plan)**

Requests received by mail or via ▸MyPBA appear in ▸CRM. If received by e-mail, the request is routed to the plan's mail POC.

1. First verify whether the plan's status is final or estimated. (A plan is referred to as "final" when its valuation has been completed and ▸Benefit Determination Letters issued. Otherwise, a plan is referred to as estimated, therefore participant benefits are estimated.) If the plan is final, the benefit may be provided through accessing the archives. Provide a telephone response to the participant (recording the relevant information in CRM) and follow up with a letter confirming the information provided.
2. Verify that the requestor is the participant, surviving spouse or beneficiary, or authorized representative (see Policy 8.4-1 Power of Attorney and Guardianship). If not, no information may be provided to the requestor. If the requestor would like to request the information under ▸FOIA, direct them to the Disclosure Division in ▸OGC.
3. Determine status of the plan and whether an estimated benefit calculation can be made.

   **Note** In some instances, it may be too early in the case processing cycle to provide this information. For example: There may not be an estimated benefit calculation tool (includes ▸BET) for the plan. See Process 10.5 Prepare Estimated Benefits Calculation Tool. There may not be (reliable) prior plan administrator or actuary's benefit calculations available for the plan, and the *Plan Document List* and *Plan Summary* may not yet be complete. See 11.3A Finalize Plan Document List, and 11.3B Finalize Data Elements for Participant Database Construction.

4. **If an estimated calculation may not be provided at this time,** notify the requestor that the PBGC is still gathering information about the plan necessary to perform the calculation. The initial provision of this information may be made by telephone and documented in CRM.
5. If PBGC has trusteed the plan but has not yet obtained sufficient records, ask the requestor if he or she has copies of any of the following:
   - Benefit statement from the employer/ plan administrator
   - Summary Plan Description (SPD)
   - Summary of Material Modifications (SMM)
   - pension plan document and/or amendments
   - collective bargaining agreement
   - union book(s)
   - employee handbooks that reference the pension

   If the requestor has any or all of these documents, ask them to provide copies to the PBGC.
6. Review the request and determine what information is needed to provide the estimated benefit calculation. Consult with the plan actuary to develop a complete list of data needed for the calculation, and ensure that this list of data elements is imaged to the plan file (▸IPS). The ▸Written Request Types of Information to Collect Table provides a listing of some of the information that may be necessary to complete the calculation and contact the participant.
7. Check Spectrum, IPS and/or any other plan database or information to determine whether all information needed to calculate the estimated benefit amount is available. If additional information is needed, contact the requestor by telephone and document the call in CRM. If unable to contact by telephone, prepare Information Request for Estimated Benefit, available through eALG.
8. If the requested information is not received within 15 days, follow-up is appropriate. If efforts to obtain the necessary participant information are unsuccessful, consult with management about whether to send a letter

advising that until the requested information is provided, PBGC will not be able to provide the estimated benefit calculation, and will not make any further follow up efforts.

9. Until able to provide calculation, follow PBGC Customer Service Standards in providing updates to the participant including when the final response may be expected.
10. The Case Team is responsible for completing the required work that will permit an accurate estimated benefit.
11. Go to TP 32.2 Determine and Provide Estimated Calculation.

Top of Page

## TP 32.2 Determine and Provide Estimated Calculation

**07/01/2016**

| | |
|---|---|
| **Purpose** | Promptly calculate and provide accurate estimated benefit upon request. |
| **Required Input and Source** | All participant and plan information necessary to complete estimated benefit calculation from plan records or requestor. Determination of the method of calculating the estimated benefit, in preferred order:<br>• using prepared benefit estimated tool.<br>• using prior plan administrator (or actuary's) calculations.<br>• PBGC actuary provides individual calculation. |
| **Process Output and Recipient** | Estimated benefit calculation provided to the requestor by telephone, followed by written notification, all fully documented in CRM and IPS. Requestors not entitled (non-vested) may receive Benefit Determination Letters. |
| **Control Issues** | Regardless of the method of inquiry (phone, e-mail, fax, letter) all communications with the participant are fully documented, either imaged to IPS (includes e-mail correspondence) or recorded in CRM. |
| **Important Concepts** | Although estimated benefits are estimates, PBGC is sensitive to the customer's perspective, and strives to provide the most accurate calculation possible. Complete and accurate data are critical to ensure the accuracy of the estimated benefit calculations. Responses to participants provide the **monthly benefit amount**. If a participant applies for benefits or is immediately eligible at the time the estimated calculation is provided, then the lump sum distribution amount may be provided.<br><br>Participants eligible for retirement may be put into pay on an estimated basis, with adjustments made after Benefit Determination Letters are issued. An eligible participant may request to begin to receive retirement benefits when they are notified by phone of the estimated benefit amount. If so, include the appropriate benefit application form with the Response to Inquiry for a Benefit Estimate, eALG 305. Make a follow up phone call to customer confirming receipt of the annuity application and offer assistance (7-14 days after sending application).<br><br>**Timing:** PBGC's goal is to always respond to the requestor(s) as soon as possible, however, when an estimated tool is available or PBGC has prior calculations, an estimate is be provided no later than 15 business days after receipt of all required information. (Exceptions to this 15 day response target must be brought to the attention of management.) |

TP 32.2A Use Estimated Benefit Calculation Tool
TP 32.2B Use Prior Calculation
TP 32.2C Actuary Calculates Individual Estimated Benefit

Top of Page

**TP 32.2A Use Estimated Benefit Calculation Tool**

**12/22/2016**

**EBLS/FBA/PBA**

1. Use the estimated calculation tool to calculate the estimated benefit. (Most estimated benefit tools will produce a benefit calculation sheet. If not, prepare a *PBGC Estimated Benefit Calculation Sheet*.) For cash balance plans, see TP 52.3 Provide Cash Balance Benefit Calculations**.**
2. Submit the calculation for peer review or review by the actuary if desired, or as required by management.

   > **Note:** If it's determined that the requestor is a non-vested participant who is not eligible for any benefits from PBGC, including a ▸4022(c) benefit, an early ▸Benefit Determination Letter may be issued, in response to this request. (See 19.1 Create Early BDL Database and Issue Early BDLs for information.)

3. Contact the requestor by telephone and provide the estimated benefit amount, and review the supporting information. Determine whether the caller may be affected by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) (see TP 62 USERRA Benefits). If the requestor is eligible for an ▸early retirement benefit or a ▸normal retirement benefit, inform them that an application will be provided. Complete the ▸CRM record (either the original request if originally requested by phone, or the new record prepared for the outgoing call) with the estimated benefit amount(s) and close the call in CRM. Inform the requestor that the estimated benefit and supporting information upon which it was based will be confirmed in writing.
4. Prepare and send the *eALG 305 Estimated Benefit Request Response* with the estimated benefit calculation sheet. Insert language concerning the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) if applicable (see TP 62 USERRA Benefits). Include the appropriate benefit application form if an eligible participant, beneficiary or alternate payee requests one. See Appendix J Participant Forms Information for listing of forms and their usage.

   > **Note:** The *eALG 305 Estimated Benefit Request Response* is always customized for the specific request, and must be printed locally so that the benefit calculation sheet can be included with the letter. Retain a copy of the estimated benefit calculation to submit for imaging.

5. To complete request: ensure that all communications with participant have been documented in CRM and IPS. (This includes the list of data elements needed for the estimated calculation, the estimated benefit calculation sheet or the *PBGC Estimated Benefit Calculation Sheet* and all correspondence including e-mails with the requestor.)

**TP 32.2B Use Prior Calculation**

**12/22/2016**

> **Note** Before using a benefit calculation prepared by the prior plan administrator or plan actuary, the case actuary must review and accept the calculation and obtain approval by a GS-13 or higher grade actuary. The review and approval for each calculation is documented in either the *Manual Benefit Statement Approval Memo*, which must be signed and dated by both the case actuary and approving actuary, or in an e-mail, and imaged to the participant's file.

**EBLS/FBA/PBA/PVA**

1. Use the prior calculations to determine the estimated benefit. (Be aware of possibility for benefit adjustments, [ ▸substantial/majority owner reductions, the ▸phase-in rule, ▸maximum guaranteeable benefit], and consult with the actuary as needed.) Prepare a *PBGC Estimated Benefit Calculation Sheet*. For cash balance plans, see TP 52.4 Provide Cash Balance Benefit Calculations**.**
2. Submit for peer review and/or review by the actuary, if desired, or as required by management.

   > **Note** If it's determined that the requestor is a non-vested participant who is not eligible for any benefits from PBGC, including a ▸4022(c) benefit, an early ▸Benefit Determination Letter may be issued, in response to this request. (See 19.1 Create Early BDL Database and Issue Early BDLs for information.)

3. Contact the requestor by telephone and provide the estimated benefit amount, and review the supporting information. If the requestor is eligible for an ▸early retirement benefit or a ▸normal retirement benefit, inform them that an application will be provided. Complete the ▸CRM record (either the original request if originally requested by phone, or the new log prepared for the outgoing call) with the estimated benefit amount(s) and close the call. Inform the requestor that the estimated benefit and supporting information upon which it was based will be confirmed in writing.
4. Prepare and send the *eALG 305 Response to Inquiry for a Benefit Estimate* with the estimated benefit calculation sheet. Include the appropriate benefit application form if an eligible participant, beneficiary or alternate payee requests one. See Appendix J Participant Forms Information for listing of forms and their usage.

   > **Note** The *eALG 305 Estimated Benefit Request Response* is always customized for the specific request, and must be printed locally so that the benefit calculation sheet can be included with the letter.

5. To complete request, ensure that all communications with the participant and in support of the calculation are documented in IPS and CRM. (This includes the list of data elements needed for the estimated calculation, the actuary's specific approval of the prior benefit calculation or the approval of the prior calculations **for the plan**, peer review and approval of calculation if done, the estimated benefit calculation sheet or the *PBGC Estimated Benefit Calculation Sheet*, and all correspondence including e-mails with the requestor.)

**TP 32.2C Actuary Calculates Individual Estimated Benefit**

**12/22/2016**

**EBLS/FBA/PBA/PVA**

1. Submit all information previously determined necessary to calculate the estimated benefit to the case actuary, and request the estimated benefit calculation. For cash balance plans, see TP 52.4 Provide Cash Balance Benefit Calculations**.**

**Actuary**

2. Prepare the benefit statement and obtain approval by a GS-13 or higher grade actuary by memorandum or e-mail:
   - By memorandum:
     a. Prepare a *Manual Benefit Statement Approval Memo*.
     b. Sign and date on the **Prepared by** line.
     c. Obtain approval of the GS-13 or higher grade actuary, who signs and dates on the **Approval** line.
     d. Prepare a benefit statement with the approved calculation and send to the ▶EBLS/▶FBA/▶PBA/▶PVA with the approval memo for imaging and issuance.
   - By e-mail:
     a. Prepare an e-mail incorporating the same language as the memo.
     b. E-mail the benefit statement to a GS-13 or higher grade actuary requesting approval.
     c. Upon approval, send the benefit statement with the approval e-mail to the EBLS/FBA/PBA/PVA for imaging and issuance.

> **Note** A single *Manual Benefit Statement Approval Memo* or approval e-mail may be used for multiple benefit statements, including those produced by a ▶BET that is not yet archived. In these cases, the EBLS/FBA/PBA/PVA images the approval e-mail or memo to each participant's file, redacting any information concerning other participants.

3. Send the benefit statement and signed *Manual Benefit Statement Approval Memo* to the EBLS/FBA/PBA/PVA.

> **Note** If it's determined that the requestor is a non-vested participant who is not eligible for any benefits from PBGC, including a ▶4022(c) benefit, an early ▶Benefit Determination Letter may be issued, in response to this request. (See 19.1 Create Early BDL Database and Issue Early BDLs for information.)

**EBLS/FBA/PBA/PVA**

4. If an estimated benefit tool is provided, see TP 32.2A Use Estimated Benefit Calculation Tool.
5. Image the approval e-mail or the signed and dated *Manual Benefit Statement Approval Memo* (as applicable) and a copy of the benefit statement to the participant file in IPS.

   If a single memo or e-mail approves multiple benefit statements, create a copy of the approval e-mail or memo for each participant's file. Before imaging, redact any information concerning other participants.
6. Contact the requestor by telephone and provide the estimated benefit amount, and review the supporting information. If the requestor is eligible for an ▶early retirement benefit or a ▶normal retirement benefit, inform them that an application will be provided. Complete the ▶CRM record (either the original request if originally requested by phone, or the new log prepared for the outgoing call) with the estimated benefit amount(s) and close the call. Inform the requestor that the information will be confirmed in writing.
7. Prepare and send the *eALG 305 Response to Inquiry for a Benefit Estimate* with the estimated benefit calculation sheet. Include the appropriate benefit application form if an eligible participant, beneficiary or alternate payee requests one. See Appendix J Participant Forms Information for listing of forms and their usage.

> **Note** The *eALG 305 Estimated Benefit Request Response* is always customized for the specific request, and must be printed locally so that the benefit calculation sheet can be included with the letter.

8. To complete request: ensure that all communications with the participant and in support of the calculation are documented in IPS and CRM. (This includes the list of data elements needed for the estimated calculation, the actuary's benefit calculation, the *PBGC Estimated Benefit Calculation Sheet*, and actuary's approval if done, and all correspondence including e-mails with the requestor.)

# TP 33 Disability Benefit Processing

**In this Section**

TP 33. Overview for Disability Benefit Processing
TP 33.1 Process Request for Disability Benefits
TP 33.2 Correct Failure to Convert Disability Benefit to Retirement Benefit
TP 33.3 Resources for Disability Benefit Processing

## TP 33. Overview for Disability Benefit Processing

**07/01/2016**

PBGC pays disability benefits in accordance with Policy 5.9-1 Disability Benefits. In most cases, disability benefits are already in pay status when PBGC assumes a plan's payments. However, there are cases in which a ▸participant first applies for disability benefits with PBGC, for example, because the participant did not have the opportunity to apply with the prior ▸plan administrator. Initial requests to PBGC for disability benefits are addressed in TP 33.1 Process Request for Disability Benefits.

Many disabled payees are receiving an auxiliary disability ▸benefit, a benefit that converts to an early or ▸normal retirement benefit when the participant reaches ▸normal retirement age. At ▸NRA, the participant is provided the opportunity to make a benefit form election. Occasionally, a payee continues to receive an auxiliary disability benefit after it should have converted, a situation which must be corrected. This is addressed in TP 33.2 Correct Failure to Convert Disability Benefit to Retirement Benefit.

▸CSD also ensures that participants who are receiving disability benefits continue to be eligible, since their condition may change. This is addressed in TP 30 Monitor Continuous Eligibility for Disability Benefits.

# TP 33.1 Process Request for Disability Benefits

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process a participant's request to apply for a disability benefit. |
| **Guidance** | Policy 5.9-1 Disability Benefits |
| **Procedure Owner** | EBLS/FBA/PBA/PVA, ASD |

PBGC will typically make a disability determination in response to a participant's request for a disability benefit under a ▸trusteed plan. ▸OBA will have already recorded the plan's disability provisions and characterized the disability eligibility provisions as either basic or administrative. Issues regarding ▸plan analysis and identification of the provisions should be resolved in coordination with ▸ASD, who may consult with ▸PPD.

**EBLS/FBA/PBA/PVA**

1. Request a copy of the participant's notice of eligibility for a disability benefit from ▸SSA.

   The notice must clearly identify the disability onset date. If the SSA material does not have the onset date information, request the full SSA decision, which will provide the onset date.

2. Follow up with the ▸participant if the notice of disability (or full SSA decision) is not received within 30 days of the request date. Advise the participant that PBGC cannot determine disability benefit eligibility without this documentation.

   If the participant does not respond, additional follow-ups are not required.

3. Forward SSA notice of eligibility for a disability benefit to ASD with a request for a disability determination.

**ASD**

4. Compare the participant's data against the plan provisions and determine whether each disability provision has been met and the participant was disabled prior to ▸DOPT.

   If the SSA disability onset date occurred after DOPT, the participant cannot be determined to have a guaranteed disability benefit.

5. Categorize the relevant plan provisions that the participant must meet to receive a disability benefit as follows:
   - Definition of disability: PBGC will substitute SSA disability eligibility for that of the plan if the plan has a different provision.
   - Disability exemptions: PBGC will require notice that these exemptions do not negate the participant's disability eligibility (for example, if the plan exempted disabilities attributable to the commission of a crime, the participant would be ineligible if they suffered back injuries as a result of committing a robbery). PBGC will apply any disability exemptions in the plan. Therefore, information may need to be requested from the participant to demonstrate that the disability is not attributable to a plan exemption.
   - Basic disability provisions: Age, service, and other conditions that are objectively determinable. Note that failure to apply or failure to complete a waiting period will not be required by PBGC, in accordance with the disability policy. PBGC requires a participant to meet basic disability provisions.
   - Administrative disability provisions: Provisions that are less objectively determinable from records or may have been dependent upon action by the employer rather than participant. PBGC does not require a participant to meet an administrative disability provision to be eligible for a disability benefit.
6. Once the participant's eligibility for the disability benefit has been determined:
   - Identify how relevant PBGC policies apply to the participant's disability entitlement by using the following:
     - Policy 5.2-4 Annuity Starting Dates
     - Policy 5.14-1 Benefits in PPA 2006 Bankruptcy Plans
     - Policy 6.3-1 Underpayment Reimbursement and Interest Payments
   - Prepare a calculation of the disability benefit, including any pre-termination liabilities, if applicable.
   - Prepare the appropriate benefit statement, if applicable.
   - Complete the *Disability Determination Memo* documenting the reasons the participant is or is not eligible and

submit to the ASD ▸Case Processing Branch Supervisory Actuary or ASD Division Manager for approval. Attach the calculation and benefit statement, if applicable.

- Forward a PDF of the approved copy of the *Disability Determination Memo* to the ▸EBLS/▸FBA/▸PVA/▸PBA originator and copy the ASK PPD mailbox.

**EBLS/FBA/PBA/PVA**

7. Prepare and issue an *eALG 406 Limited-Scope BDL* addressing the disability benefit eligibility and specifically addressing the reasons the participant is or is not eligible. See Process 19.6 Issue Limited-Scope BDLs.

   If the participant is eligible, include a benefit application.

   > **Note** It may be preferable to issue a final (valuation) ▸BDL instead of an *eALG 406 Limited-Scope BDL* if the plan's actuarial valuation is complete and it would be appropriate to issue a letter addressing both the benefit and disability determinations.

8. Image the *Disability Determination Memo* and supporting documentation to the participant's ▸IPS file.
9. Upon receipt of the participant's benefit application, process in accordance with TP 20 Benefit Payments.

Top of Page

## TP 33.2 Correct Failure to Convert Disability Benefit to Retirement Benefit

**12/22/2016**

| | |
|---|---|
| **Purpose** | To correct a situation in which a participant continues to receive an auxiliary disability benefit after it should have ended and converted to a normal retirement benefit. |
| **Guidance** | Policy Decision Log 2012-02: Disability Failure to Convert<br>Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities)<br>Policy 5.9-1 Disability Benefits |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

A disability ▸benefit is "auxiliary" if it converts to an early or ▸normal retirement benefit when the ▸participant reaches ▸normal retirement age. It is not reduced by any disability benefit payments made prior to the conversion. Occasionally, ▸CSD finds that a participant has continued to receive an auxiliary disability benefit after the date it should have ended and converted to a normal retirement benefit. This may occur, for example, if the disability benefit end date was not entered in ▸Spectrum, and the participant did not receive advance notice of the end date and an application for normal retirement benefits. Upon learning of this situation, take the following corrective actions as soon as practicable.

1. Make an attempt to telephone and inform the participant of the following:
   - The period for the disability benefit has ended and the effective date.
   - The participant must now apply for normal retirement benefits. PBGC will provide an application and benefit statement with calculations for optional benefit forms.
   - The NRD benefit will be based on the participant's marital status at ▸NRD. During the call, verify the participant's current and NRD marital status, if not already known. (See step 3 for specific information about applying the NRD marital status and the impact of subsequent changes.)
   - The benefit form the participant elects will be payable as of the NRD (which is the same as the annuity starting date) and may result in an underpayment or overpayment of benefits paid since NRD. An overpayment would be recouped from normal retirement benefit payments.
   - The customer must return the complete benefit application within 90 days of the letter date for benefits to continue uninterrupted.
2. Record the contact or attempted contact in ▸CRM and continue to step 3, regardless of whether the contact was successful.
3. Determine the participant's ▸NRA benefit amount and benefit form. Request assistance from the actuary as needed.

   The NRA benefit form must be based on the participant's marital status at NRD. If the marital status has changed since NRD and the participant was:

   - **Single at NRD:** Treat the participant as single, even if the participant is currently married.
   - **Married at NRD but the spouse is now deceased:** Treat the participant as single.
   - **Married at NRD but now divorced:** Treat the participant as married at NRD to the NRD spouse. If the participant elects anything other than the normal form for a married participant, spousal consent is required.
   - **Married at NRD and the NRD spouse is unlocatable:** Follow guidance in Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities) concerning a missing or unlocatable spouse. Contact ASK PPD as needed for guidance.
4. Issue an *eALG 200DS Application Request - Disability Benefit Conversion* letter to the participant with *Form 700 Participant Application for Pension Benefits*, benefit statement, and statement of optional benefit forms. The letter advises that the completed application must be returned **within 90 days** of the letter date in order for benefits to continue uninterrupted.
5. When sending the letter:
   - Customize the letter based on whether the benefit is final (the customer has received a ▸BDL) or estimated.
   - Enclose a copy of the BDL for reference if the benefit is final.
   - Write the ▸ASD (using the participant's NRD) on the annuity application before mailing it to the customer. Since

the ASD is retroactive to a certain date, no other date may be used.

- Ensure all attachments are imaged to the participant's ▸IPS file.

> **Note** The participant must complete and submit the benefit application in paper format. ▸MyPBA cannot be used since it does not allow the customer to enter a retroactive annuity starting date, which is required in this situation.

6. If the application has not been received within **45 days** of the letter date, issue an *eALG 200DSF Follow-up Application Request - Disability Benefit Conversion* letter to remind the participant that the complete application must be received within **90 days** of the letter date that provided the application for benefits to continue uninterrupted.
7. Upon receipt, review the application for completeness using the *Form 700 Participant Application for Pension Benefits Review Table*.

> **Note** If spousal consent is required for the benefit form elected, the waiver and spousal consent must be executed no more than 180 days before receipt by PBGC since the NRD is retroactive. See Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities).

8. If the application is received:
   - **Complete:** Proceed to step 9.
   - **Incomplete:** Issue an *eALG 530APP Request for Additional Documentation/ Information – Benefit Application* letter to request the missing information from the participant. Customize the letter to remind the participant that the application must be made complete within **90 days** of the letter that provided the application for benefits to continue uninterrupted.
9. Process the complete application as follows. (If the complete application is not received within 90 days, proceed to step 10.)
   a. Terminate the disability benefit in Spectrum.
   b. Process the normal retirement benefit in Spectrum to begin the month after the last disability benefit to ensure payments continue uninterrupted.
   c. Use ▸PACS to determine if the benefit form elected results in a benefit overpayment or underpayment for the period between the ASD (which is the same as the NRD) and the payment adjustment date.
      - If the result is a net overpayment, initiate recoupment based on whether the participant has received a valuation BDL.
        - **Participant has received the valuation BDL:** Initiate recoupment of the overpayment when the normal retirement benefit begins. See TP 7 Recoupment.
        - **Participant has not received the valuation BDL:** Do not initiate recoupment of the overpayment until after the BDL is issued and the appeal period expires.
      - If the result is a net underpayment, initiate a back payment to be paid with the first annuity payment in accordance with TP 20.3C Issue Annuity Payment.
10. Issue a customized letter to advise the participant of the date of the first normal retirement benefit payment. Include information about any back payment or recoupment, as applicable.
    - For an estimated benefit, use an eALG 300-series letter.
    - For a final benefit, use an eALG 500-series letter.
11. If the application is not received within 90 days of the date of the letter that provided the application:
    - Terminate the disability benefit payment in Spectrum.
    - Issue an *eALG 517 Disability Benefit Termination Notice - Non-Receipt of Application* to notify the participant that the disability benefit has ended and the normal retirement benefit will begin after the participant submits a complete application.
    - Upon receipt of the complete application, process the application according to steps 9 and 10 using the same NRD and benefit calculations previously determined.

> **Note** The annuity starting date will be retroactive to the NRD regardless of when the customer provides a complete application. Therefore, the information previously provided to the participant, including the ASD, does not change. If the customer requests the information again, be certain to provide the same calculations that were previously sent.

## TP 33.3 Resources for Disability Benefit Processing

**09/30/2016**

# TP 34 Requests for Supplies

**In this Section**

TP 34. Overview for Requests for Supplies
TP 34.1 Request Supplies
TP 34.2 Process Supply Request
TP 34.3 Resources for Requests for Supplies

## TP 34. Overview for Requests for Supplies

**07/01/2016**

The ▸DMC serves as the supplier for ▸OBA of toner cartridges, envelopes, and brochures. Each division within OBA and each ▸FBA/▸PVA has a ▸POC responsible for submitting requests and retrieving toner and other supplies. OBA division staff are located at 1200 and 1275 K Street, Washington, DC, and the FBA/PVAs are located in various cities and states throughout the United States.

OBA division staff request supplies directly from the DMC Service Window. FBA/PVAs request supplies via e-mail to the DMC. On receipt of the request, the DMC processes the request through the Supply Inventory Database and delivers or ships the supplies. The DMC is also responsible for tracking and maintaining the supply inventory. The DMC orders the supplies to restock the supply inventory from the approved vendor.

## TP 34.1 Request Supplies

**07/01/2016**

| | |
|---|---|
| **Purpose** | To request necessary supplies for OBA staff and FBA/PVAs to perform all functions. |
| **Guidance** | N/A |
| **Procedure Owner** | OBA Supplies POC, FBA/PVA Supplies POC, DMC |

The ▸DMC supplies envelopes and brochures to ▸OBA and ▸FBA/▸PVAs. The DMC also supplies toner for OBA printers. Each division within OBA and each FBA/PVA has a ▸POC responsible for requesting and retrieving toner and other supplies for the division. OBA staff with PBGC-issued personal printers can also request toner.

The process for requesting supplies varies depending on the location of the requestor:

- OBA Headquarters Staff: Request supplies through the DMC Service Window (see TP 34.1A Request Supplies for Divisions within OBA).
- FBA/PVAs: Request supplies via e-mail (see TP 34.1B Request Supplies for FBA/PVAs).

**In this Section**

TP 34.1A Request Supplies for Divisions within OBA
TP 34.1B Request Supplies for FBA/PVAs

**TP 34.1A Request Supplies for Divisions within OBA**

**07/01/2016**

This procedure covers the steps for ▸OBA staff to request supplies. ▸FBA/▸PVAs follow the steps in TP 34.1B Request Supplies for FBA/PVAs.

**OBA Supplies POC**

1. Identify the required supplies and complete the appropriate form:
   - Toner cartridges: *DMD Toner Supply Request Form*.
   - Other supplies: *DMD Supply Request Form*.

   **Note** Hard copies of both forms are available at the ▸DMC Service Window.

2. Submit the form to division management for approval.
3. Submit the completed and approved hard-copy form to the DMC Service Window for processing.

   The DMC processes the request and either delivers the supplies or requests the OBA Supplies POC to pick up the supplies at the DMC Service Window.

**TP 34.1B Request Supplies for FBA/PVAs**

**07/01/2016**

This procedure covers the steps for ▸FBA/▸PVAs to request supplies. ▸OBA staff follow the steps in TP 34.1A Request Supplies for Divisions within OBA.

The FBA/PVA Supplies ▸POC submits the request to the ▸DMC.

**FBA/PVA Supplies POC**

1. Identify the required supplies.
2. Complete the *DMD Supply Request Form*.
3. Submit the completed *DMD Supply Request Form* to the DMC as an e-mail attachment.

**DMC**

4. On receipt of the *DMD Supply Request Form* from the FBA/PVA Supplies POC, print the form.
5. Process the request within one business day of receiving the e-mail and ship the supplies to the FBA/PVA (see TP 34.2 Process Supply Request).

## TP 34.2 Process Supply Request

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process supply requests from OBA staff and FBA/PVAs. |
| **Guidance** | N/A |
| **Procedure Owner** | DMC |

Divisions within ▸OBA request supplies using the *DMD Toner Supply Request Form* or *DMD Supply Inventory Form* (see TP 34.1A Request Supplies for Divisions within OBA). ▸FBA/▸PVAs request supplies using the *DMD Supply Inventory Form* only (see TP 34.1B Request Supplies for FBA/PVAs). The ▸DMC uses the Supply Inventory Database to process the requests and generate order sheets, then retrieves and ships or delivers the supplies according to the requestor.

**DMC**

1. On receipt of an *DMD Toner Supply Request Form* or *DMD Supply Inventory Form*, create a new order in the Supply Inventory Database.
2. Retrieve the supplies from the storage room.
3. Proceed according to who requested the supplies:
   - FBA/PVA: Box and ship the supplies to the FBA/PVA using the approved shipping service.
   - OBA Division Staff: Deliver the supplies to the division or call the requestor to pick up the supplies at the DMC Service Window.
4. If the DMC does not receive confirmation of delivery (delivery receipt or signature on order form), follow up within one business day to confirm delivery.
5. On confirmation of delivery, update the Supply Inventory Database to indicate delivery.
6. Send a confirmation e-mail to the requester.

## TP 34.3 Resources for Requests for Supplies

# TP 35 Case Work Plan

**In this Section**

TP 35. Overview for Case Work Plan
TP 35.1 Maintain the Case Work Plan
TP 35.2 Resources for Case Work Plan

## TP 35. Overview for Case Work Plan

**10/28/2005**

The following procedure covers the maintenance of the Case Work Plan that was created when the case was initially assigned (see Process 8.5B Create Case Work Plan). The case team is required to meet at least once per quarter to review the designated case processing Milestones and update the work plan. When the last major Milestone actual completion date is populated in the Case Work Plan, the case is forwarded to Plan Closing (see Process 21 Plan Closing).

## TP 35.1 Maintain the Case Work Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To update and track all case processing activities to the case work plan. The process of maintaining the case work plan continues until an Actual Completion Date is populated for all major Milestones. |
| **Timing** | Case Teams are required to meet quarterly. |
| **Guidance** | *OBA Progress Reporter in Oracle Primavera P6 Interim Guidance*<br>CMS Job Aids and User Guide<br>Oracle Primavera P6 Help |
| **Procedure Owner** | Case Team, Case Management Analyst, FBA and Other Contract Management |

**The Case Management Analyst coordinates with the Case Team as needed to update the case work plan.**

**Case Team**

1. Submit to Case Management Analyst updates to the case work plan in ▸Oracle Primavera P6 whenever a Target Completion Date needs to change or to enter an Actual Completion Date.

**Case Management Analyst**

2. Schedule Case Team meetings as needed to review and update the case work plan.

**Case Team**

3. In the meetings, review the work plan to ensure it reflects all completed activities and maintains accurate Target Completion Dates for future activities.

**Case Management Analyst**

4. After the meeting, update the work plan.
   - Case Team members may review pending updates.
   - At the end of each quarter, ▸CMD reviews the case work plans.

**FBA and Other Contract Management**

5. Each time the Case Management Analyst updates the work plan, review the work plan in ▸P6 and provide comments in Progress Reporter or what-if scenarios as needed.
6. Resubmit the work plan to Case Management Analyst within seven calendar days.

# TP 36 Employee Contributions

**In this Section**

TP 36. Overview for Employee Contributions
TP 36.1 Evaluate Employee Contributions Provisions
TP 36.2 Inform Customers about Employee Contributions
TP 36.3 Process Employee Contribution-Provided Benefits
TP 36.4 Pay Employee Contributions
TP 36.5 Resources for Employee Contributions

# TP 36. Overview for Employee Contributions

**08/28/2014**

Employee contributions can be either mandatory or voluntary:

- Mandatory Employee Contributions
- Voluntary Employee Contributions

**Mandatory Employee Contributions**

Mandatory employee contributions (MEC) are those contributions required as a condition of employment, participation in a pension plan, or obtaining benefits under a plan attributable to employer contributions. Accumulated mandatory employee contributions (AMEC) are the balance of the MEC plus interest as of a specific date. AMEC as of the date of plan termination (DOPT) provides an employee-derived annuity. It also provides a pre-retirement death benefit that returns AMEC as of date of death. Policy 5.11-2 Payment of Priority Category 2 Benefits prescribes the rules for paying benefits derived from AMEC and/or permitting customers to withdraw AMEC.

When a plan with AMEC terminates and PBGC becomes trustee, PBGC permits customers to withdraw the AMEC as of DOPT in a single sum after the date of trusteeship (DOTR) if all of the following conditions apply:

- The plan provisions permit the participant or beneficiary to withdraw MEC at some future date, such as upon termination of employment or at retirement.
- PBGC determines the appropriate assets are available to pay AMEC.
- The participant's or beneficiary's benefit is not already in pay status.
- There is a balance of AMEC to withdraw as of DOPT.

Any withdrawal of AMEC is for the entire balance of AMEC as of DOPT; partial withdrawals are not permitted. PBGC only offers a withdrawal after an annuity is in pay status if PBGC put the annuity in pay status and did not offer the payee the opportunity to withdraw the AMEC. If the plan administrator put the retiree into pay status before PBGC became trustee of the plan, or PBGC put a plan application into pay status, PBGC deems that the retiree received the opportunity to withdraw AMEC as provided under plan provisions or practice, and does not offer the retiree another opportunity. See Policy 5.11-2 Payment of Priority Category 2 Benefits for the specific rules for paying benefits derived from AMEC or permitting customers to withdraw AMEC.

MEC are after-tax contributions. As a result, when PBGC pays retirement benefits that include an employee-derived benefit, a portion of the retirement payment is non-taxable. The Code prescribes the tax rules that apply to a withdrawal of AMEC.

Under prior practice (that is, prior to the MEC interim procedures published 03/26/2010), participants and beneficiaries had only one 60-day period to elect to withdraw the AMEC or leave the AMEC in the plan. The election was irrevocable. Under these procedures, customers may withdraw AMEC any time before or at retirement, and change the election as provided in Policy 5.11-2 Payment of Priority Category 2 Benefits. These procedures apply to any eligible participants or beneficiaries who have not already received the option to withdraw AMEC. In addition, a participant or beneficiary who made an election under past practice may change that election as provided in Policy 5.11-2 Payment of Priority Category 2 Benefits. Contact Ask PPD for additional guidance for plans that are currently being processed following past practice.

**Voluntary Employee Contributions**

Voluntary employee contributions (VEC) are contributions that are not required as a condition of employment, participation in the plan, or obtaining any benefit under the plan attributable to employer contributions. For example, if employees may "voluntarily" contribute to a fund, but contributing to that fund is a requirement for receiving a particular benefit derived from employer contributions, the employee contributions are not VEC.

Under the Code and ▶ERISA, the portion of a plan funded by VEC is a separate plan that is not a defined benefit plan. As such, PBGC does not generally trustee VEC plans. If a plan purports to provide for VEC, contact Ask PPD and request confirmation that the apparent VEC truly is voluntary and guidance on how to proceed.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

Top of Page

**TP 36.1A Document Employee Contribution-Related Plan Provisions**

**07/01/2016**

**Actuary**

1. Review plan documents to determine if the plan provides for employee contributions and proceed accordingly.
   - If the plan does not provide for employee contributions, update the *Estimated Benefits Administration Analysis Memo* as such. No further action with regard to employee contributions is needed.
   - If the plan provides for employee contributions, continue to the next step.
2. Determine the type of employee contributions and take action as follows:
   - ▸Voluntary employee contributions (VEC): Contact Ask PPD for guidance.
   - ▸Mandatory employee contributions (MEC): Continue to the next step.

   > **Note** Benefits derived from VEC are treated as being derived from employee contributions under a plan other than a defined benefit plan, that is a defined contribution plan. Occasionally, a plan may provide other types of defined contribution benefits, for example, those transferred or rolled over from a profit sharing plan. If a plan has these or other defined contributions benefits, contact Ask PPD for guidance.
3. Determine the following:
   - Whether the grandfather rule applies (that is, whether a balance of ▸AMEC existed as of 12/31/1986, and the plan permitted in-service withdrawals as of 05/05/1986).
   - The type of pre-retirement death benefit derived from AMEC, typically a lump sum or ▸QPSA.
   - The type of post-retirement death benefit derived from AMEC.
   - Whether the plan permits the withdrawal of AMEC at a future date (for example, termination of employment or retirement). If not, do not complete the remainder of this procedure.
   - If any MEC appears to be pre-tax, contact Ask PPD for guidance.
4. Document the findings in the *Employee Contributions Processing Evaluation* and *Estimated Benefits Administration Analysis Memo* (formerly titled *Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*), referencing relevant plan provisions.
5. Determine the status of ▸PC2 funding using the best available estimates of liabilities and assets:
   - PC2 is fully funded: Document in the *Estimated Benefits Administration Analysis Memo* that PC2 is fully funded and eligible customers can withdraw AMEC.
   - PC2 is not fully funded: Determine whether the AMEC exceeds the value of the guaranteed benefit plus any 4022(c) allocation at the time PBGC returns AMEC to the participants and beneficiaries in the plan:
     - AMEC does not exceed the value: Document in the *Estimated Benefits Administration Analysis Memo* that PC2 is not fully funded and eligible customers can withdraw AMEC.
     - AMEC exceeds the value: Contact Ask PPD for guidance. Update the *Estimated Benefits Administration Analysis Memo* as directed by ▸PPD.
6. Once available, update the *Participant Review Summary* (see Process 13 Participant Database Construction and Reporting) and ▸Actuarial Case Report (see Process 17 Actuarial Valuation) with the following determinations:
   - All employee contributions determinations recorded in the *Estimated Benefits Administration Analysis Memo* or *Early Plan Analysis Memo (EPAM)*.
   - The type of pre-retirement death benefit derived from AMEC, typically a lump sum or QPSA.
   - The type of post-retirement death benefit derived from AMEC.

     > **Note** All plans with MEC provide for pre-retirement ▸death benefits. Post-retirement death benefits derive from AMEC depending on the elected benefit form.
   - Whether the grandfather rule applies (that is, whether a balance of AMEC existed as of 12/31/1986 and the plan permitted in-service withdrawals as of 05/05/1986).
7. Image the updated *Participant Review Summary* and Actuarial Case Report to the plan file in ▸IPS.

Top of Page

**TP 36.1B Develop AMEC Tracking Worksheet**

**07/01/2016**

The ▸EBLS/▸PBA/▸FBA has primary responsibility to develop a spreadsheet to track customers eligible to withdraw or otherwise due ▸accumulated mandatory employee contributions (AMEC) as of the date of plan termination (DOPT). However, the EBLS/PBA/FBA confers as needed with the actuary or auditor to complete the spreadsheet.

**EBLS/FBA/PBA**

1. Upon the determination that eligible customers can withdraw ▸AMEC, categorize all customers possibly eligible to withdraw or otherwise due AMEC as follows:
   - Customers PBGC put into pay status on or after ▸DOPT who did not receive the opportunity to withdraw the AMEC at retirement.
   - Customers who are due a benefit but have not retired.
   - Others who may be able to withdraw AMEC (for example, beneficiaries of deceased participants due AMEC).

   **Note** Customers the plan administrator put into pay status before the date of trusteeship (DOTR) are not eligible to withdraw their AMEC.

2. Review the *Estimated Benefits Administration Analysis Memo* (formerly titled *Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*) or *Early Plan Analysis Memo (EPAM)* to determine whether the grandfather rule applies.
3. Work with the auditor and actuary to review the available actuarial materials to determine the balance of ▸mandatory employee contributions (MEC) and AMEC at DOPT:
   - If the actuarial materials do not contain sufficient information to determine the balance of ▸MEC, request actuarial support to estimate the MEC and AMEC based on the available data.
   - If the actuary cannot estimate the balance of MEC or AMEC, request that the participant or payee provide:
     - Proof of the balance of MEC and AMEC as of DOPT.
     - If the grandfather rule applies, proof of the balance of MEC as of 12/31/1986.
     - Any other information that may be helpful.
   - If the participant cannot provide proof of the balance of MEC or AMEC, treat the AMEC payment as fully taxable and inform the participant or payee:
     - Of the potential for excess withholding and erroneous reporting to the Internal Revenue Service (IRS).
     - That if the participant or payee is able to provide information about the employee contributions, PBGC may adjust the tax reporting.
4. Develop an AMEC tracking worksheet listing all customers eligible to withdraw or otherwise due AMEC and tracking the following items as needed:
   - Plan Name
   - PBGC Case Number
   - Participant/Beneficiary's Name
   - Social Security Number (SSN) or Individual Taxpayer Identification Number (ITIN)
   - PBGC Customer ID
   - Balance of MEC as of 12/31/1986 (include only if the grandfather rule applies)
   - Balance of MEC as of DOPT
   - Balance of AMEC as of DOPT
   - Present Value (LS_Term PV) of the benefit including the AMEC as of DOPT

   **Note** The present value of the benefit including the AMEC is used to 1) determine if the benefit is a de minimis benefit and payable in a lump sum (if the benefit is de minimis, the AMEC cannot be separately withdrawn); and 2) calculate the taxable and non-taxable portion of the payment. If the Actuarial Case Report is not available, request an estimate from the actuary.

- Amount of the withdrawal from ▸PACS as of the targeted payment date
- Mailing date of the election form
- Due date for the election
- Whether the customer elected to withdraw
- No response or the response was not within the 60-day period
- Receipt date of the election
- Target or actual date for paying the withdrawal
- Remaining non-taxable MEC

> **Note** Consider using the *AMEC Tracking Worksheet* as-is or modified to meet the specific needs of the ▸CSD or FBA.

5. Update the tracking worksheet, for example, when:
   - A customer requests a withdrawal.
   - PBGC pays a withdrawal.
   - A customer retires without withdrawing.
   - As directed throughout TP 36 Employee Contributions.
6. Image the updated tracking worksheet to the plan file in ▸IPS:
   - After identification of a complete list of customers eligible to withdraw AMEC.
   - Upon completion of the case processing.
   - Upon transfer of the case to another EBLS, PBA, or FBA.
   - Once all listed customers receive a withdrawal of AMEC or go into pay status.
7. If the case is transferred to another EBLS, PBA, or FBA, send or provide access to an updated working copy of the tracking worksheet to the receiving EBLS, PBA, or FBA.

Top of Page

**TP 36.1C Calculate Benefits with and without Employee Contributions**

**03/30/2011**

The actuary provides a methodology to the ▸EBLS/▸PBA/▸FBA to calculate benefits with and without ▸accumulated mandatory employee contributions (AMEC) and to determine the estimated or final ▸lump-sum value (LS_Term PV) of the benefit.

**Actuary**

1. Program ▸BET or provide estimated calculations to:
   - Calculate benefits with and without the employee-derived annuity and the LS_Term ▸PV of the estimated PBGC benefit.
   - Estimate benefits using the best available information regarding the impact of Priority Category 2 (PC2) benefits on Priority Category 3 (PC3) benefits.
2. At valuation, work with the Actuarial Services Division (ASD) to establish the assumptions that apply to customers who have not made an election.

   **Note** ASD establishes assumptions for a plan about the potential impact of the ▸PC2 allocation on the ▸PC3 allocation based on the facts and circumstances of the case.

3. Program ▸BSRS:
   - Use information from the ▸AMEC tracking worksheet to value customers who elected to withdraw, went into pay status without withdrawing, or have yet to make an election.
   - Program BSRS to calculate the annuity benefit with and without the AMEC and the PV of the PBGC benefit.

**Note** The Pension Protection Act of 2006 (PPA) changed the interest rate and mortality table used to convert employee contributions to an annuity, effective the first plan year beginning after 12/31/2007. The interest rates in §411(c)(2)(C) of the ▸Code, used to accumulate employee contributions through the determination date, remain the same; however, the referenced §417(e)(3) interest rate and mortality table have changed. For all plans with a date of plan termination (DOPT) during a plan year beginning after 12/31/2007, contact the ASD for guidance on converting AMEC to an annuity.

# TP 36.2 Inform Customers about Employee Contributions

**07/01/2016**

| | |
|---|---|
| **Purpose** | To notify customers eligible to withdraw AMEC. |
| **Guidance** | Policy 5.4-9 Lump Sum Benefit Payments<br>Policy 5.11-2 Payment of Priority Category 2 Benefits |
| **Procedure Owner** | Case Team, EBLS/FBA/PBA |

Upon determining that the plan provides for ▸mandatory employee contributions (MEC) and payees may withdraw accumulated ▸MEC (AMEC), update the plan-specific Web page (TP 36.2A Make Initial Plan-Specific Web Page Updates for Employee Contributions).

Update the plan-specific Web page again after the Case Team determines PBGC has reliable data to inform customers about the ▸AMEC and the impact of withdrawal on retirement benefits (see TP 36.2B Update Plan-Specific Web Page with Employee Contributions Information).

After updating the plan-specific Web page, take no further action to notify customers about ▸AMEC until issuing benefit determination letters (BDLs) or if a customer requests to retire (see TP 36.3 Process Employee Contribution-Provided Benefits). When issuing ▸BDLs (see Process 19 Benefit Determination Letters), also complete TP 36.2C Issue Employee Contributions Benefit Determination Letters for any customers eligible to withdraw employee contributions.

Treat a customer request for information on employee contributions as a request to withdraw (see TP 36.3 Process Employee Contribution-Provided Benefits).

**In this Section**

TP 36.2A Make Initial Plan-Specific Web Page Updates for Employee Contributions
TP 36.2B Update Plan-Specific Web Page with Employee Contributions Information
TP 36.2C Issue Employee Contributions Benefit Determination Letters

**TP 36.2A Make Initial Plan-Specific Web Page Updates for Employee Contributions**

**07/01/2016**

Upon the determination that a plan provided for mandatory employee contributions (MEC) and payees may withdraw accumulated MEC (AMEC), ▸PSD updates the plan-specific Web page.

**PSD**

1. Draft an update to the plan-specific Web page (see TP 50 Plan-Specific Web Announcements) to provide general information about when PBGC honors requests to withdraw AMEC (that is, the date ▸CSD expects to begin processing requests).
2. Send the proposed text to Ask PPD for review and publication.
3. Once there is enough information to provide reliable information about the AMEC and its impact on the customer's benefit, proceed to TP 36.2B Update Plan-Specific Web Page with Employee Contributions Information.

**TP 36.2B Update Plan-Specific Web Page with Employee Contributions Information**

**07/01/2016**

As soon as the Case Team determines there is enough information to provide reliable information about ▸accumulated mandatory employee contributions (AMEC) and the impact on the customer's benefit, ▸PSD updates the plan-specific Web page.

**PSD**

1. Draft an update to the plan-specific Web page (see TP 50 Plan-Specific Web Announcements) to provide general information regarding ▸AMEC and how to request a withdrawal (see TP 36.3 Process Employee Contribution-Provided Benefits).
2. Send the proposed text to Ask PPD for review and publication.
3. Proceed as appropriate:
   - On receiving a request for information on withdrawing AMEC, proceed to TP 36.3 Process Employee Contribution-Provided Benefits.
   - On issuing benefit determination letters (▸BDLs), proceed to TP 36.2C Issue Employee Contributions Benefit Determination Letters.

**TP 36.2C Issue Employee Contributions Benefit Determination Letters**

**09/26/2013**

When a plan provides for employee contributions, participants eligible to withdraw ▸accumulated mandatory employee contributions (AMEC) may receive different benefit determination letters (BDLs).

When issuing ▸BDLs (see Process 19 Benefit Determination Letters), inform customers eligible to withdraw employee contributions before or at retirement and customers otherwise payable a single sum derived from employee contributions (for example, ▸AMEC PBGC owes to the beneficiary of a deceased participant) using ▸eALG 404EC-series letters.

**EBLS/PBA/FBA**

1. Use the AMEC tracking worksheet or Actuarial Case Report to determine whether the customer is eligible to withdraw or otherwise due benefits derived from the AMEC:
   - Customer is not eligible: Issue the appropriate BDL according to Process 19 Benefit Determination Letters. Do not complete the remainder of this procedure.

     **Note** Ineligible customers include customers who do not have an election option or any other benefit, such as a beneficiary due the AMEC owed to a deceased participant, but not due continuing annuity payments (that is, the AMEC is only payable as a single sum).

   - Customer is eligible: Proceed to step 2.
2. Proceed according to the ▸lump-sum value of the benefit (LS_Term ▸PV) or of the residual benefit, including AMEC:
   - Value is ▸*de minimis*: Issue the appropriate lump-sum BDL (see eALG Correspondence Help and Process 19 Benefit Determination Letters). Do not complete the remainder of this procedure.
   - Value is not *de minimis*: Proceed to step 3.

**Note** If the LS_Term PV is *de minimis*, the customer cannot withdraw AMEC. PBGC must pay the AMEC as part of a lump-sum or annuity benefit payment.

3. Issue the appropriate eALG 404-series letter for the customer:
   - Participants: *eALG 404EC Deferred Vested - AMEC Eligible Participant*
   - Surviving Spouse under a QPSA: *eALG 404QPEC Deferred Vested - AMEC Eligible Surviving Spouse (QPSA)*
   - Alternate Payee (Separate Interest): *eALG 404APEC Deferred Vested - AMEC Eligible Alternate Payee (SI)*

**Note** eALG automatically includes any required forms and attachments with the letter.

## TP 36.3 Process Employee Contribution-Provided Benefits

**07/01/2016**

| | |
|---|---|
| **Purpose** | To issue elections to withdraw AMEC to eligible requesters. |
| **Guidance** | Policy 5.11-2 Payment of Priority Category 2 Benefits |
| **Procedure Owner** | EBLS/FBA/PBA |

After trusteeship, eligible customers may withdraw their ▸accumulated mandatory employee contributions (AMEC) any time before retirement or when applying for retirement benefits. Withdrawals are payable as soon as the Case Team determines that eligible customers can withdraw ▸AMEC and has enough information to calculate estimated retirement benefits and provide reliable information about the AMEC and the effect of withdrawing AMEC on the customer's benefit (for estimated benefits, use the actuary's best estimate regarding Priority Category 3 (PC3) benefits). If a customer does not request to withdraw the AMEC before applying for retirement benefits, send a withdrawal offer at that time.

AMEC or AMEC remaining upon the death of a customer may be payable to the deceased customer's ▸beneficiary as all or part of a death benefit. Beneficiaries due a death benefit derived from AMEC may receive the AMEC in a withdrawal, as part of ▸annuity payments, or in a ▸lump-sum distribution. The payable death benefit depends on whether the death occurs before or after retirement.

▸CSD begins processing withdrawals and other payments of AMEC no later than when the actuary is able to estimate benefits. Contact Ask PPD to request an exception, if needed.

- If the customer requests to withdraw before retirement, complete TP 36.3A Process Withdrawal Election before Retirement.
- If the customer applies for retirement benefits, complete TP 36.3B Process Withdrawal Election at Retirement.
- If the customer requests to withdraw after the annuity starting date, or PBGC finds that the ▸payee did not receive the required opportunity to withdraw before retirement, complete TP 36.3C Process Withdrawal Election after Annuity Starting Date.
- If PBGC determines that a death benefit derived from employee contributions is payable, complete TP 36.3D Process Death Benefits Derived from Employee Contributions.
- If the customer requests to change an election made under prior PBGC practice (that is, prior to the ▸mandatory employee contributions (MEC) interim procedures published 03/26/2010), complete TP 36.3E Process Request to Change Withdrawal Election Made under Prior Practice.
- If the customer submitted a plan application to withdraw AMEC prior to trusteeship, complete TP 36.3F Process Outstanding Pre-Trusteeship Withdrawal Election.

> **Note** If the benefit including the AMEC is a ▸de minimis benefit, the AMEC cannot be separately withdrawn. However, the payee may elect to split the lump-sum payment for the benefit and receive the AMEC or the non-taxable portion of the payment directly and the remainder as a direct rollover. If a lump sum is elected, the procedures on payment of lump-sum benefits in TP 20 Benefit Payments and TP 36.4A Make Lump-Sum Payment Including Employee Contributions apply. If an annuity is elected, follow TP 20 Benefit Payments to make payment; no special action is needed.

Whenever processing an election form submitted by the participant, record or update the customer's e-mail address in ▸CRM if provided.

**In this Section**

TP 36.3A Process Withdrawal Election before Retirement
TP 36.3B Process Withdrawal Election at Retirement
TP 36.3C Process Withdrawal Election after Annuity Starting Date
TP 36.3D Process Death Benefits Derived from Employee Contributions
TP 36.3E Process Request to Change Withdrawal Election Made under Prior Practice
TP 36.3F Process Outstanding Pre-Trusteeship Withdrawal Election

Top of Page

**TP 36.3A Process Withdrawal Election before Retirement**

**09/26/2013**

Follow this procedure if the benefit including the ▸AMEC is a non-de minimis benefit. If the benefit including the AMEC is de minimis, follow the procedures for lump-sum benefits in TP 20 Benefit Payments and TP 36.4A Make Lump-Sum Payment Including Employee Contributions if a lump sum is elected.

**EBLS/PBA/FBA**

1. Use the AMEC tracking worksheet to determine if the customer is eligible to withdraw AMEC:
   - If the AMEC tracking worksheet is not yet available, request assistance from the auditor and actuary assigned to the plan to determine if the customer can withdraw AMEC.
   - If the customer received a withdrawal election form under prior practice (that is, prior to the ▸MEC interim procedures published 03/26/2010) and requests a withdrawal before applying for retirement benefits, the customer may withdraw the AMEC any time before applying for benefits. See TP 36.3E Process Request to Change Withdrawal Election Made under Prior Practice.
   - If the customer is not eligible, inform the customer that the AMEC cannot be withdrawn and the reason why. Do not complete this procedure.
2. If the customer is eligible to withdraw the AMEC:
   a. Using the ▸BET or ▸BSRS, calculate the amount of the annuity benefit with and without the AMEC:
      - Participant: Calculate the benefits at ▸NRD in the automatic form payable to an unmarried participant.
      - Surviving spouse under a ▸QPSA: Calculate the benefits at the earliest QPSA commencement date in the form provided by the QPSA.
      - Alternate payee under a separate-interest ▸QDRO: Calculate the benefits at NRD in the automatic form payable under the QDRO.
   b. Select a target withdrawal date for paying the AMEC (for example, three months after sending the withdrawal election form).
   c. Create a one-time payment in ▸Spectrum to calculate the withdrawal amount with the balance of AMEC at ▸DOPT as the principal for the target withdrawal date.
   d. Print the Spectrum calculation for imaging to the participant file in ▸IPS.
   e. Cancel the transaction or save for later payment.
3. Issue the appropriate ▸eALG letter for the customer type (see eALG Correspondence Help):
   - Participant: *eALG 107 Request to Withdraw AMEC – Participant*
   - Surviving Spouse under a QPSA: *eALG 107S Request to Withdraw AMEC – Surviving Spouse (QPSA)*
   - Alternate Payee (Separate Interest): *eALG 107AP Request to Withdraw AMEC – Alternate Payee (SI)*
   - Non-Spouse Beneficiary: *eALG 107NSB Request to Withdraw AMEC – Non-Spouse Beneficiary*

> **Note** eALG automatically includes any required forms and attachments with the letter.

4. Update the AMEC tracking worksheet with the mailing date and the end of the 67-day election period.

> **Note** Policy 5.11-2 Payment of Priority Category 2 Benefits establishes a 60-day election period beginning with customer receipt of the election form. Add one week (seven days) to the 60-day period to allow for the mailing time to the customer. Do not extend this election period.

5. Use the AMEC tracking worksheet to track timely receipt of the election form.
6. Upon receipt, review the election form to determine if the customer correctly completed and returned the form to PBGC within 67 days:
   - If information is missing, contact the customer by phone and/or mail, as appropriate, to obtain missing information.
   - If the election form is acceptable, proceed to TP 36.4 Pay Employee Contributions.
   - If PBGC receives the election more than 67 days after the mailing date, do not pay a withdrawal based on the

election:

- Establish a new target payment date.
- Recalculate the withdrawal.
- Send an updated letter and new election form.

- If the customer does not return the election, update the AMEC tracking worksheet. Do not complete the remainder of this procedure until the customer submits a subsequent request or requests retirement benefits.

7. Image all new or updated customer documentation to the participant file in IPS.
8. Update the AMEC tracking worksheet as appropriate.

Top of Page

**TP 36.3B Process Withdrawal Election at Retirement**

**09/26/2013**

When a customer who is eligible to withdraw ▸AMEC requests retirement benefits, in addition to completing the procedures in TP 20 Benefit Payments, include an election to withdraw the balance of AMEC as part of the benefit application package.

If the customer does not withdraw, pay the balance of AMEC as of ▸DOPT as part of annuity benefits otherwise due to the customer (see TP 20 Benefit Payments for more information).

Remember that if the benefit including the AMEC is de minimis, the AMEC cannot be separately withdrawn. Follow the procedures for lump-sum benefits in TP 20 Benefit Payments and TP 36.4A Make Lump-Sum Payment Including Employee Contributions if a lump sum is elected.

**EBLS/PBA/FBA**

1. Using the AMEC tracking worksheet, determine if the customer is eligible to withdraw AMEC:
   - If the AMEC tracking worksheet is not yet available, request assistance from the auditor and actuary assigned to the plan to determine if the AMEC is withdrawable.
   - If the customer is not eligible to withdraw the AMEC (for example, the customer already withdrew the AMEC), do not complete this procedure. See TP 20 Benefit Payments to process any other benefits to which the customer may be entitled.
   - If the customer made a withdrawal election under prior practice (that is, prior to the MEC interim procedures published 03/26/2010), do not include a withdrawal offer in the customer's benefit application package unless the customer asks to change the earlier election (see TP 36.3E Process Request to Change Refund Election Made under Prior Practice). See TP 20 Benefit Payments to process any other benefits to which the customer may be entitled.
2. If the customer is eligible to withdraw the AMEC:
   a. Use the ▸BET or ▸BSRS to calculate the amount of the annuity benefit with and without the AMEC.
      - Participant: Calculate the benefits at the requested ▸ASD in the automatic form payable to an unmarried participant.
      - Surviving spouse under a ▸QPSA: Calculate the benefits at the requested ASD in the form provided by the QPSA.
      - Alternate payee under a separate-interest ▸QDRO: Calculate the benefits at the requested ASD in the automatic form payable under the QDRO.
   b. Select a target withdrawal date that coincides with the expected benefit commencement date (BCD) for the retirement benefits (for example, three months after sending the application package).
   c. Create a one-time payment in ▸Spectrum to calculate the withdrawal amount with the balance of AMEC at the DOPT as the principal and the targeted ▸BCD as the payment date.
   d. Print the Spectrum calculation for imaging to the participant file in IPS.
   e. Cancel the transaction or save for later payment.
3. Select the appropriate ▸eALG letter for the customer (see eALG Correspondence Help):
   - Participant: *eALG 200EC Application Request – AMEC Eligible Participant*
   - Surviving Spouse under a QPSA: *eALG 200QPEC Application Request – AMEC Eligible Surviving Spouse (QPSA)*
   - Alternate Payee (Separate Interest): *eALG 200APEC Application Request – AMEC Eligible Alternate Payee (SI)*

> **Note** eALG automatically includes any required forms and attachments with the letter.

4. Update the AMEC tracking worksheet with the mailing date and end of the 90-day election period.

> **Note** The withdrawal election is subject to the 90-day rule for completing an application and preserving the ASD. This is an exception to the 60-day rule for returning the election form. Do not extend the 90-day election

period.

5. Use the AMEC tracking worksheet to track timely receipt of the election form:
   - If the customer does not return the application and election form within 90 days of the mailing date, follow the procedures for an application that is not returned on time (see TP 20 Benefit Payments). Do not extend the 90-day election period. The customer may otherwise elect a withdrawal any time before retirement (see TP 36.3A Process Withdrawal Election before Retirement).
   - If the customer informs PBGC that the customer does not want to retire after receiving the application package, follow the procedures for a customer that no longer wants to apply (TP 20 Benefit Payments). However, if the customer still wishes to withdraw the AMEC, see TP 36.3A Process Withdrawal Election before Retirement.
   - If the customer returns an application without the withdrawal election, call the customer:
     - Inform the customer that the customer has the remainder of the 90-day period to make an election or the AMEC is not withdrawable.
     - Inform the customer that PBGC cannot pay an annuity including AMEC until either PBGC receives the withdrawal election or the 90-day election period ends.
     - Do not extend the 90-day election period.
     - If PBGC receives the election not to withdraw AMEC, process the application for retirement benefits (see TP 20 Benefit Payments). Do not wait for the end of the 90-day election period.
   - If the customer withdraws the benefit application after PBGC receipt, treat the withdrawal election as also withdrawn. However, if the customer still wishes to withdraw the AMEC, see TP 36.3A Process Withdrawal Election before Retirement.
6. Upon receipt, review the election form to determine if the customer correctly completed and returned the form to PBGC within 90 days:
   - If the election form is acceptable, proceed to step 7.
   - If the election form is incomplete or incorrect, inform the customer that the customer has the remainder of the 90-day period to make a valid election or the AMEC is not withdrawable and is included in the annuity. Do not extend the 90-day election period.
7. Image all new or updated customer documentation to the participant file in ▶IPS.
8. Update the AMEC tracking worksheet as appropriate.
9. Proceed to TP 36.4 Pay Employee Contributions to process the election form and to TP 20 Benefit Payments to process the application for retirement benefits.

Top of Page

**TP 36.3C Process Withdrawal Election after Annuity Starting Date**

**08/30/2011**

PBGC may only offer a withdrawal election for employee contributions after a benefit is in pay status if PBGC placed the benefit into pay status and did not give the payee the opportunity to withdraw the ▸AMEC. Do not offer a withdrawal to any retiree the plan administrator put into pay status or any retiree PBGC put into pay status using a plan application.

**EBLS/PBA/FBA**

1. If PBGC finds (for example, during a review of payee records or upon a request from a payee) that PBGC put an eligible retiree into pay status and did not give the retiree the opportunity to elect a withdrawal of AMEC, determine when and how the retiree entered pay status:
   - If the plan administrator put the retiree into pay status before the ▸DOTR, or PBGC put the retiree's plan application into pay status, proceed according to how PBGC found the error:
     - Payee request: Inform the customer that the customer cannot withdraw AMEC.
     - Review of plan records: Create a memo to the participant's file in ▸IPS to clearly document that the customer cannot withdraw AMEC.

     Do not complete the remainder of this procedure.
   - If PBGC put the retiree into pay status, proceed to step 2.
2. Determine if the retiree was eligible for a withdrawal at retirement and if PBGC previously gave the retiree the opportunity to withdraw the AMEC:
   - If the retiree was not eligible for a withdrawal at retirement or PBGC previously gave the retiree the opportunity to withdraw the AMEC:
     - If the determination is in response to a payee request, inform the retiree that the AMEC is not withdrawable.
     - Do not complete the remainder of this procedure.
   - If the retiree is eligible for a withdrawal and PBGC did not previously give the retiree the opportunity to withdraw the AMEC, proceed to step 3 to give the payee the option of withdrawing the remaining AMEC.
3. Select a target withdrawal date for paying the AMEC that coincides with the date PBGC can reasonably expect to pay the withdrawal and reduce the benefit in pay status to the amount of the employer-derived benefit (for example, three months after PBGC mails the withdrawal election form).
4. Using the ▸BET or ▸BSRS, calculate the amount of the benefit with and without the AMEC:
   - Participant: Calculate the benefits at the participant's ▸ASD.
   - Surviving spouse under a ▸QPSA: Calculate the benefits at the ASD of the QPSA.
   - Other contingent ▸annuitant: Calculate the benefits at the participant's ASD.
   - Alternate payee under a separate-interest ▸QDRO: Calculate the benefits at the ASD of the QDRO.
5. Create a one-time payment in Spectrum:
   a. Calculate the set-off and the balance of AMEC.

      **Note** Consider using the Withdrawal after the ASD Worksheet of the *MEC Withdrawal Workbook* as a job aid for calculating the set-off and determining the balance of AMEC.

   b. Calculate the amount of the withdrawal with the remaining balance of the AMEC at ▸DOPT as the principal for the target withdrawal date.
   c. Print the Spectrum calculation for imaging to the participant file in IPS.
   d. Cancel the transaction or save for later payment.
6. Issue *eALG 108 Notification to Payee of Opportunity to Withdraw AMEC*.
7. Update the AMEC tracking worksheet with the mailing date and the end of the 67-day election period.

   **Note** Policy 5.11-2 Payment of Priority Category 2 Benefits establishes a 60-day election period beginning with customer receipt of the election form. Add one week (seven days) to the 60-day period to allow for the mailing

time to the customer. Do not extend this election period.

8. Use the AMEC tracking worksheet to track timely receipt of the election form.
9. Upon receiving the withdrawal election form, review the form to ensure the customer completed it correctly and on time:
   - Confirm that PBGC received the withdrawal election form within 67 days of the mailing date.
   - If the election is acceptable, update the AMEC tracking worksheet and proceed to TP 36.4 Pay Employee Contributions.
   - If PBGC does not receive the election within 67 days after the mailing date, notify the customer that a withdrawal is not payable.
10. Image all new or updated customer documentation to the participant file in IPS.
11. Update the AMEC tracking worksheet as appropriate.

Top of Page

**TP 36.3D Process Death Benefits Derived from Employee Contributions**

**07/01/2016**

**EBLS/PBA/FBA**

1. Proceed according to whether the death was pre- or post-retirement:
   - Pre-Retirement Death: Find the applicable scenario and take the action described in ▸Pre-Retirement Death Benefits Derived from Employee Contributions.
   - Post-Retirement Death: Find the applicable scenario and take the action described in ▸Post-Retirement Death Benefits Derived from Employee Contributions.
2. If needed, contact Ask PPD for additional guidance.

**TP 36.3E Process Request to Change Withdrawal Election Made under Prior Practice**

**03/30/2011**

Customers who made an election under prior practice (that is, prior to the ▸mandatory employee contributions (MEC) interim procedures published 03/26/2010, including an election that was not returned timely) may change that election under certain conditions.

**EBLS/PBA/FBA**

1. If a customer who made an election under prior practice requests to change the election, determine whether the customer's benefit is in pay status:
   - In pay status: Inform the customer that he or she is not eligible to change the election. Do not complete this procedure.
   - Not in pay status: Proceed to step 2.
2. Determine whether the customer already withdrew the ▸accumulated mandatory employee contributions (AMEC):
   - Customer withdrew: Inform the customer that he or she is not eligible to change the election. Do not complete the remainder of this procedure.
   - Customer did not withdraw: Proceed to step 3.
3. Proceed according to whether the customer applies for benefits:
   - Customer applies: Proceed according to whether PBGC already sent the customer a benefit application package:
     - Package sent: If the 90-day period beginning with the date PBGC sent the package is not over, send the withdrawal option to the customer.

       **Note** If the 90-day period expires before PBGC receives the new election, do not honor the request to withdraw.

     - Package not sent: Proceed to TP 36.3B Process Withdrawal Election at Retirement.
   - Customer does not apply: Proceed to TP 36.3A Process Withdrawal Election before Retirement.

**TP 36.3F Process Outstanding Pre-Trusteeship Withdrawal Election**

**08/30/2011**

**EBLS/PBA/FBA**

1. Determine if the pre-trusteeship withdrawal election is valid and complete:
   - Election is not valid and complete:
     - Do not honor the election.
     - Treat as a request for information on withdrawing ▸AMEC (see TP 36.3 Process Employee Contribution-Provided Benefits).
     - Do not complete this procedure.
   - Election is valid and complete: Proceed to step 2.
2. Review the *Estimated Benefit Adjustments Analysis Memo*, *Early Plan Analysis Memo (EPAM)*, or *Actuarial Valuation Report* to determine if the plan was subject to a §▸436(d) limitation as provided under the ▸Code that prevented the plan from paying the AMEC in a single sum:
   - The §436(d) limitation did not apply: Honor the election and proceed to TP 36.4 Pay Employee Contributions.
   - The §436(d) limitation applied: Proceed to step 3.
3. Determine if the benefit is in pay status:
   - The benefit is not in pay: Honor the election and proceed to TP 36.4 Pay Employee Contributions.
   - The benefit is in pay status: Proceed to step 4.
4. Determine if the benefit in pay status includes the employee-derived benefit:

   **Note** Plan provisions may allow a participant or beneficiary to receive the portion of a benefit that was not restricted under §436(d) and to defer receipt of the prohibited portion of the benefit until the §436(d) limitation was no longer applicable.

   - The benefit does not include the employee-derived benefit:
     - Honor the election.
     - Proceed to TP 36.4B Make Single-Sum Payment of Employee Contributions on or before Annuity Starting Date to treat the payment as a withdrawal at retirement.
   - The benefit includes the employee-derived benefit:
     - Do not honor the election.
     - Inform the customer that the AMEC is not withdrawable.

## TP 36.4 Pay Employee Contributions

**11/20/2015**

| | |
|---|---|
| **Purpose** | To calculate the total amount and taxable amount of a payment of employee contributions. |
| **Guidance** | Policy 5.11-2 Payment of Priority Category 2 Benefits<br>*Tax Rules for Benefit Payments Derived from Mandatory Employee Contributions* |
| **Procedure Owner** | Actuary, EBLS/PBA/FBA |

A participant, alternate payee, or beneficiary recovers the amount of the participant's MEC tax-free when PBGC pays pension benefits. However, the method of recovering the MEC tax-free depends on when and how PBGC pays the benefit provided by AMEC.

**Annuity Payments:** As allowed by the IRS, PBGC does not routinely determine the taxable and non-taxable portion of annuity payments derived wholly or in part from AMEC. Payees determine these amounts based on information about the benefit in payees' records or that PBGC provides. *IRS Publication 575 Pension and Annuity Income* and *IRS Form 1040 U.S Individual Income Tax Return* provide instructions and a worksheet for payees to make the determination.

**Lump-Sum or Other Single-Sum Payments:** PBGC determines the taxable and non-taxable portion of a single-sum payment of MEC, such as a withdrawal of AMEC or a lump-sum benefit payment that includes AMEC, for tax withholding and reporting purposes. The notification and tax withholding and reporting rules that apply to lump-sum benefit payments, which are eligible rollover distributions, also apply to the taxable portion of a single-sum payment of AMEC. The payee may elect to roll the non-taxable portion with the taxable portion into another qualified retirement plan or traditional individual retirement arrangement under certain conditions. The payee may also elect to receive the non-taxable portion of the payment as direct payment and roll over the remaining taxable portion (note that under IRS rules, the non-taxable amount of the payment is always first attributed to any direct payment to the payee). For additional guidance, see Appendix R 1 Federal Tax Withholding.

**Calculation of Single-Sum Payment:** Use the One-Time Payment function in Spectrum to calculate withdrawals of AMEC including interest. As needed, submit the transaction for immediate payment, save the transaction for later payment, or delete the transaction. Consider using the *MEC Withdrawal Workbook* as a job aid for MEC-related calculations.

Refer customers due a withdrawal of AMEC to *IRS Publication 575 Pension and Annuity Income* (IRS publications typically refer to MEC as "the cost or investment in the contract"), the IRS, or the customer's tax consultant for additional guidance on tax withholding options and potential liability.

- For a lump-sum payment including both employee contributions and other benefits, complete TP 36.4A Make Lump-Sum Payment Including Employee Contributions.
- For a single-sum payment of employee contributions on or before the annuity starting date, complete TP 36.4B Make Single-Sum Payment of Employee Contributions on or before Annuity Starting Date.
- For a single-sum payment of employee contributions after the annuity starting date, complete TP 36.4C Make Single-Sum Payment of Employee Contributions after Annuity Starting Date.
- For a single-sum payment of employee contributions due to an alternate payee, complete TP 36.4D Make Single-Sum Payment of Employee Contributions Due Alternate Payee.

**In this Section**

TP 36.4A Make Lump-Sum Payment Including Employee Contributions
TP 36.4B Make Single-Sum Payment of Employee Contributions on or before Annuity Starting Date
TP 36.4C Make Single-Sum Payment of Employee Contributions after Annuity Starting Date
TP 36.4D Make Single-Sum Payment of Employee Contributions Due Alternate Payee

Top of Page

**TP 36.4A Make Lump-Sum Payment Including Employee Contributions**

**03/30/2015**

For a lump sum distribution of the present value of a benefit that includes ▸AMEC, the amount of the ▸MEC is the non-taxable portion of the payment. The remainder of the payment is taxable.

To pay a benefit including AMEC in a lump sum, the ▸lump-sum value (LS_Term PV) of the payment must be *de minimis* per Policy 5.4-9 Lump Sum Benefit Payments (that is, $5,000 or less). If the LS_Term PV of the payment is more than $5,000, the payee may withdraw AMEC as a separate single-sum payment before or at retirement (see TP 36.3A Process Withdrawal Election before Retirement).

**EBLS/PBA/FBA**

1. Use the tracking worksheet and relevant actuarial materials (for example, the Actuarial Case Report) to determine:
   - Balance of MEC at the date of plan termination (DOPT) (if unknown, see TP 36.1 Evaluate Employee Contributions Provisions)
   - LS_Term PV at DOPT, including AMEC at ▸DOPT
2. If PBGC cannot determine the estimated or actual balance of MEC, treat the withdrawal as fully taxable:
   - Pay the withdrawal as a ▸lump-sum benefit payment (see TP 20 Benefit Payments).
   - Do not complete the remainder of this procedure.
3. In Spectrum, create a one-time payment with interest using the **Lump-Sum Worksheet** option.
4. Issue *eALG 503EC Payment Advice – AMEC – Single Sum* to each payee.
5. Image all new or updated documentation to the participant file in ▸IPS.

**TP 36.4B Make Single-Sum Payment of Employee Contributions on or before Annuity Starting Date**

**03/30/2015**

For a payment of ▸AMEC on or before the ▸ASD, a proportional exclusion applies. This means that PBGC pays a portion of the ▸MEC as non-taxable income and the remainder of the payment as taxable income when paying the withdrawal. Although PBGC pays all of the AMEC in a single sum, the payee recovers the remaining non-taxable amount of the MEC from future annuity payments.

This procedure also applies when only the employer-derived portion of a benefit is already in pay status because PBGC deferred payment of the AMEC until after the ASD.

**EBLS/PBA/FBA**

1. Review the Actuarial Case Report, *Estimated Benefits Administration Analysis Memo* (formerly titled *Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*), or *Early Plan Analysis Memo (EPAM)* or ask the actuary to determine if the grandfather rule applies.
2. Use the tracking worksheet and relevant actuarial materials (for example, the Actuarial Case Report) to determine:
   - Balance of MEC at ▸DOPT (if unknown, see TP 36.1 Evaluate Employee Contributions Provisions)
   - Balance of AMEC at DOPT
   - MEC prior to 1987 (if the grandfather clause applies only)
   - Lump-Sum Term present value of the benefit at DOPT (LS_Term PV)
3. If PBGC cannot determine the estimated or actual balance of the MEC, treat the withdrawal as fully taxable:
   - Pay the withdrawal as a ▸lump-sum benefit payment (see TP 20 Benefit Payments).
   - Do not complete the remainder of this procedure.
4. In Spectrum, create a one-time payment using the **On or Before ASD Worksheet** option to pay the withdrawal of employee contributions.
5. Issue *eALG 503EC Payment Advice – AMEC – Single Sum* to each payee.
6. Image all new or updated documentation to the participant file in ▸IPS.

**TP 36.4C Make Single-Sum Payment of Employee Contributions after Annuity Starting Date**

**03/30/2015**

If PBGC pays the participant the remainder of ▸AMEC after the ▸ASD, set off the balance of the AMEC by the amount of the employee-derived benefits already paid. Reduce the balance of the ▸MEC by the amount of MEC the customer already recovered tax-free from the annuity payments.

This procedure assumes the benefit in pay status consists of both the employee- and employer-derived benefit. If only the employer-derived portion of a benefit is already in pay status because PBGC deferred payment of the AMEC until after the ASD, proceed to TP 36.4B Calculate Non-Taxable Amount of Withdrawal on or before Annuity Starting Date.

**EBLS/PBA/FBA**

1. Review the Actuarial Case Report, *Estimated Benefits Administration Analysis Memo* (formerly titled *Plan Analysis for Pre-Benefit Estimation and Benefit Administration Memo*), or *Early Plan Analysis Memo (EPAM)* or ask the actuary to determine if the grandfather rule applies.
2. Use the tracking worksheet and relevant actuarial materials (for example, the Actuarial Case Report) to determine:
   - Balance of MEC at ▸DOPT (if unknown, see TP 36.1 Evaluate Employee Contributions Provisions)
   - Balance of AMEC at DOPT
   - MEC prior to 1987 (if the grandfather clause applies only)
   - Unreduced benefit (that is, benefit amount including AMEC)
   - Reduced benefit (that is, benefit amount without AMEC or only the employer-derived benefit)
3. Determine the expected payment date.
4. Determine the non-taxable amount of the unreduced benefit and the set-off period:
   - Non-taxable portion of unreduced benefit: Use the Simplified Method worksheet in the *MEC Withdrawal Workbook* to calculate the taxable and non-taxable portion of the unreduced benefit.
   - Set-off period: Determine the number of months the unreduced benefit is in pay status, beginning with the ASD and ending with the month before the expected payment date.
5. In Spectrum, create a one-time payment to pay the withdrawal of employee contributions:
   - Use the **After Annuity Starting Date Worksheet** option.
   - Enter the set-off period and non-taxable amount from the *MEC Withdrawal Workbook*.
6. Issue *eALG 503EC Payment Advice – AMEC – Single Sum* to each payee.
7. Image all new or updated documentation to the participant file in ▸IPS.

**TP 36.4D Make Single-Sum Payment of Employee Contributions Due Alternate Payee**

**07/01/2016**

Contact Ask PPD for guidance on any ▸MEC payment to the alternate payee under a ▸QDRO. Include in the e-mail a descriptive subject line and a summary of the facts and circumstances of the case. Proceed as ▸PPD instructs.

## TP 36.5 Resources for Employee Contributions

**09/30/2016**

**Forms, Letters, and Memos:**

- *AMEC Tracking Worksheet*
- *Employee Contributions Processing Evaluation*
- *Early Plan Analysis Memo (EPAM)*
- *Estimated Benefit Adjustments Analysis Memo*
- *Estimated Benefits Administration Analysis Memo*
- *IRS Publication 575 Pension and Annuity Income*
- *MEC Withdrawal Workbook*

**Customer Correspondence and Forms:**

- *eALG 107 Request to Withdraw AMEC – Participant*
- *eALG 107AP Request to Withdraw AMEC – Alternate Payee (SI)*
- *eALG 107NSB Request to Withdraw AMEC – Non-Spouse Beneficiary*
- *eALG 107S Request to Withdraw AMEC – Surviving Spouse (QPSA)*
- *eALG 108 Notification to Payee of Opportunity to Withdraw AMEC*
- *eALG 200APEC Application Request – AMEC Eligible Alternate Payee (SI)*
- *eALG 200EC Application Request – AMEC Eligible Participant*
- *eALG 200QPEC Application Request – AMEC Eligible Surviving Spouse (QPSA)*
- *eALG 404APEC Deferred Vested - AMEC Eligible Alternate Payee (SI)*
- *eALG 404EC Deferred Vested - AMEC Eligible Participant*
- *eALG 404QPEC Deferred Vested - AMEC Eligible Surviving Spouse*
- *eALG 503EC Payment Advice – AMEC – Single Sum*

**Guidance:**

# TP 37 Develop & Implement Customer Recovery Action Plan

**In this Section**

TP 37. Overview for Develop & Implement Customer Recovery Action Plan
TP 37.1 Develop Customer Recovery Action Plan
TP 37.2 Implement Customer Recovery Action Plan
TP 37.3 Customer Recovery Action Plan Checklist
TP 37.4 Customer Recovery Action Plan
TP 37.5 Resources for Develop and Implement Customer Recovery Action Plan

## TP 37. Overview for Develop & Implement Customer Recovery Action Plan

**07/01/2016**

Two of the essential components to ▸OBA's commitment to excellent customer service are:

- **Prevention** of customer concerns and unmet expectations.
- **Swift smooth recovery** when an unforeseen incident occurs.

It is OBA's goal to prevent **all** potential customer problems and reduce their impact if they do occur. This technical procedure is followed if a potential customer problem is foreseen or has occurred that impacts or will impact more than **50** participants or may negatively reflect upon PBGC.

Although various controls exist to prevent mistakes, anomalies may nonetheless occur due to processing or system failures. Each situation will be unique and responsible staff immediately consults with the responsible division management if they believe there is a plan that has a potential or realized problem.

Responsible staff is any person who has knowledge of a possible or actual problem involving several participants in a specific plan or plans. It may involve a plan at any stage of processing, therefore, the manager(s) may be from ▸CFRD, ▸OPCMD, ▸ASTD, ▸PSD, and/or ▸PADMD.

Regardless of whether OBA is being proactive to prevent a possible incident or is reacting to a specific occurrence, our response is first the rapid development and implementation of a "Customer Recovery Action Plan". After completion we conduct a de-briefing of all parties and summarize our findings to eliminate similar future occurrences and provide an action plan to pursue or implement any recommendations.

OBA's focus is to first fix the situation and then to prevent future incidents. Staff will generally do the following:

- Assess situation and scope
- Notify the appropriate internal parties, including as appropriate:
  - Case Team
  - Department Manager (based on case ownership: OBA or CFRD)
  - Customer Contact Center (CCC)
  - OBA Division Management as appropriate
  - Support Divisions needed (ex.: ▸CCD for eALG, offsite fulfillment/▸DMC and ▸CCC)
  - Large Case Coordinator (if a ▸large case)
- Develop and implement plan for resolution
  - Develop Customer Service Script
  - Develop case-specific eALG letter(s)
  - Identify and obtain additional resources needed
- Document problem and successful resolution to the plan file (▸IPS)
- Debrief involved parties and make recommendations for change to prevent similar incidents, including process or system controls, staff training etc.

Top of Page

## TP 37.1 Develop Customer Recovery Action Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | Determination that a potential problems exists or could occur that affects a significant number of participants and can be rectified or prevented with timely action. |
| **Required Input and Source** | Recognition or anticipation by a staff member of an event that has or may negatively impact a group of customers, generally 50 or more. |
| **Process Output and Recipient** | Case specific Customer Recovery Action Plan developed and approved by responsible Manager, with concurrence from supporting divisions/departments. |
| **Control Issues** | Be alert to the potential for customer problems and initiate action whenever possible to prevent their occurrence. Customer Recovery Action Plans are fully documented by memo to the plan file (IPS). |
| **Important Concepts** | The decision to notify each successive level of management is made according to reporting levels and continues based on the significance/scope of the situation. Tailor the Customer Recovery Action Plan to fit each unique situation. Managers are responsible for approving the final plan. Perform thorough analysis to determine how the incident occured and recommend or implement processing or system changes to prevent future occurrences.<br><br>**Timing:** Provide alternate recommendations to Manager within 1 business day of recognition of event. Participation in a Customer Recovery Action Plan generally takes precedence over other processing activities, consult with management as needed to reschedule other priorities. |
| **Guidance** | N/A |
| **Procedure Owner** | CFRD staff, Case Team, other involved staff |

1. Assess the nature of the problem and its impact. Determine the number of affected participants and how they are or will be impacted by PBGC's action. (for example, incorrect information provided, date or amount of payments issue, improper payments by prior administrator.)

   > **Note** Some customer problems may occur due to actions by external parties (for example, prior paying agent not making promised payments or making additional payments in error). ▸OBA assumes responsibility for initiating a Customer Recovery Action Plan regardless.

2. Notify Management and case team members.
3. Management establishes team meeting. The team develops alternate response scenarios and determines preferred recommendations, including identification of specific staff to manage these responses. Use TP 37.3 Customer Recovery Action Plan Checklist for guidance about responsible parties. See also TP 37.4 Develop and Implement Recovery Action Plan - Examples for guidance on developing alternate responses.
4. Brief Manager of situation and recommended action. If situation involves a case that is still pre-trusteeship, ensure that ▸CFRD and the Case Management Analyst are apprised. One manager may assume responsibility for overseeing the Customer Recovery Action Plan or they may jointly assume this responsibility.
5. The responsible Manager approves/selects the Customer Recovery Action Plan and ensures all relevant parties and activities have been identified and notified to ensure a smooth operation.

Top of Page

## TP 37.2 Implement Customer Recovery Action Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | Implement approved Customer Recovery Action Plan. |
| **Required Input and Source** | Customer Recovery Action Plan approved by Manager. |
| **Process Output and Recipient** | As described in action plan, may include:<br>• incident specific Customer Contact Center scripts provided to CCC;<br>• incident specific customer letter (eALG) with apology and resolution mailed to customers; and/or<br>• benefit payment related action/correction taken in Spectrum. |
| **Control Issues** | Customer Recovery Action Plans are fully documented by memo to the plan file (IPS). Name the point of contact in any customer letter. |
| **Important Concepts** | Perform thorough analysis to determine how the incident occurred and recommend or implement processing or system changes to prevent future occurrences.<br>**Timing:** Provide alternate recommendations to Managers within 1 business day of recognition of event. Implement Customer Recovery Action Plan immediately upon approval. Develop CCC Scripts and distribute to staff immediately. Develop eALG letter(s) immediately and coordinate with eALG administrator to establish the earliest possible mail date, see TP 15 Prepare and Mail Letters. |
| **Guidance** | N/A |
| **Procedure Owner** | Case Team, other involved staff |

Team members and specific responsibilities are outlined in the approved Customer Recovery Action Plan.

1. Team members follow actions and timeframes according to the approved Customer Recovery Action Plan.
2. Notify responsible Manager upon completion of each action in the plan.
3. Manager verifies that process has been completed according to plan and monitors customer feedback from the phone ▸POC's and ▸CCC for two weeks, or until related calls or inquiries abate, if later.
4. Within 14 days of completion, establish a meeting with all involved parties to analyze the incident that occurred or was averted. Assess as a team whether recommendations for system enhancements/development or operational changes (procedures, staffing, training) are appropriate.
5. Within 30 days of completion, the Manager prepares a memo to the file describing the Customer Recovery Action Plan, including:
   - the incident;
   - the approved Customer Recovery Action Plan;
   - results of the plan - for example, number of customer inquiries before and after the plan was implemented;
   - copy of any customer scripts;
   - congressional or press inquiries, contacts from the PRO's office; and/or
   - results of analysis including whether changes are being made (for example, reviewing procedures with staff, scheduling systems training) and/or recommended (for example, system development/enhancement) and plans to accomplish these recommendations.
6. Provide copy of the final memo to the Chief of Benefits Administration, ▸OBA (attachments do not need to be provided) and ensure the complete memo is imaged to the plan file (▸IPS).

Top of Page

## TP 37.3 Customer Recovery Action Plan Checklist

**07/01/2016**

**Customer Recovery Action Plan Checklist Table**

| Operation/ System | Staff | Circumstances |
|---|---|---|
| Customer Contact Center (CCC) | ▸CCC Analyst (▸PSD), CCC Supervisor(s), PSD Manager | Incident that may trigger calls customer inquiries. |
| Document Management Center (DMC) | ▸DMC Analyst (▸DMD), Supervisory Auditor (DMD) | Incident requiring local fulfillment, or special mail or data entry processing. |
| eALG | ▸eALG System Administrator (▸CCD), CCD Supervisory Management Analyst | Incident requiring eALG related research, assistance with expediting a special eALG mailing, including off-site fulfillment |
| ▸TRMD | TRMD Program Manager | To provide necessary system support, including LAN/WAN activity, and/or to coordinate support from ▸OIT. |
| ▸PPD | PPD Supervisory Policy Advisor | To coordinate legal or policy support from PPD, ▸CPRD and/or ▸OCC and ▸OGC. |
| ▸CFRD | CFRD Manager and Supervisor | Incident involving▸[1] a plan that is still assigned to CFRD. |
| ▸OBA Management | Chief of Benefits Administration, OBA | As judged necessary by Div. Manager based on case specifics.▸[1] |
| Office of Director | PBGC Director | As judged necessary by ▸CBA based on case specifics.▸[1] |
| ▸COLA | Department Director | To prepare for press or congressional inquiries and/or provide specialized communication pieces. As judged necessary by Div. Manager based on case specifics.▸[1] |
| Problem Resolution Office | ▸PRO | As judged necessary by Div. Manager based on case specifics.▸[1] |

## TP 37.4 Customer Recovery Action Plan

**07/01/2016**

**Examples of possible customer incidents that will elicit action.**

Although each plan is developed individually, the following steps are likely required with most incidents involving customers:

- Determine a case team ▸POC for customers.
- Name POCs in any customer communications.
- Notify the ▸CCC about incident and all Customer Recovery Action Plan activity.
- Develop script for CCC and other team members.

The Examples of Customer Recovery Action Plan Scenarios Table provides a pre- and post- incident customer scenario, customer recovery action plan to follow and a sample of the analysis and recommendation.

**Examples of Customer Recovery Action Plan Scenarios Table**

| **Examples: Customer Scenarios: Pre- and Post-Incident** | **Sample: Customer Recovery Action Plan** | **Sample: Analysis and Recommendation** |
|---|---|---|
| **Post:** ▸eALG Letter intended for one customer mistakenly mailed to multiple ▸participants.<br><br>(user error) | Provide listing of affected customers.<br><br>Develop brief letter of apology and retraction and mail immediately. | Evaluate whether eALG letter request process followed ▸OBA's procedure.<br><br>Management revises their internal eALG authorization process.<br><br>Retraining of staff. |
| **Pre or Post:** Expected payments are delayed due to unforeseen system or processing error(s).<br><br>(user or system error) | Provide listing of affected customers. Prepare off-cycle payment requests. Draft brief letter of explanation and apology for delayed payment and provide new date of payment (if action cannot be taken in time to provide timely payments through off-cycle process). | Evaluate whether processing or system errors caused incident.<br><br>Management will review correct procedures with staff if cause is determined to be processing error(s). |
| **Pre:** Customers have been improperly overpaid by ▸plan administrator, examples, incorrect entitlement determinations, incorrect calculations.<br><br>(pre-PBGC error) | Consult with ▸PPD as necessary for decisions about novel payment issues.<br><br>Correct benefit amounts for individuals in pay at ▸DOTR.<br><br>Prepare advance letter with explanation of benefit adjustments.<br><br>Notify ▸CCC in advance of mailing, and ▸COLA and/or ▸PRO depending on scope.<br><br>Prepare for customer inquiries on this topic when this happens. | |

# TP 40 Customer Data Fixes

**In this Section**

TP 40. Overview for Customer Data Fixes
TP 40.1 Request Non-Routine Customer Data Fixes
TP 40.2 Resources for Customer Data Fixes

## TP 40. Overview for Customer Data Fixes

**07/01/2016**

Benefit processing staff (▸EBLSs, ▸PVAs, ▸PBAs and ▸FBAs) maintain customer records in the ▸benefit administration applications, such as ▸Spectrum and ▸CRM and implement most data changes (or data fixes) from those applications. However, some data changes, including bulk data changes and fixes required as a result of data exceptions or system failures, cannot be implemented using the benefit administration applications. These non-routine data fixes are forwarded to the Service Desk, which forwards the request to the system administrator for resolution.

All data fixes must be documented for audit purposes.

## TP 40.1 Request Non-Routine Customer Data Fixes

**07/01/2016**

| | |
|---|---|
| **Purpose** | To request a non-routine customer data fix. |
| **Guidance** | *Spectrum User Manual* |
| **Procedure Owner** | EBLS, FBA, PBA, PVA |

1. Proceed according to whether the required non-routine data fix will have a non-financial or financial impact on a customer's record:
   - Non-financial (customer is not in pay and has no payment transactions pending):
     - For a single or multiple customers' records, draft and send an e-mail as follows:
       - **To:** Service Desk
       - **CC:** ▸FBA/▸PVA Project Manager (for FBA/PVA submissions) or ▸CSD management team member (for CSD submissions) and MCD Compliance Program mailbox (for all submissions).
       - **Subject:** Data Fix Request
       - **In the body:** [Add description of the data fix, actions to be performed, rationale for the data fix.]
     - Continue to step 3.

     The Service Desk will assign a ticket number to the data fix request and route the request to the application owner (for example, ▸Spectrum or ▸CRM).
   - Financial (customer is in pay or has a payment transaction pending):
     - For a single and multiple customers' records, draft and send an e-mail requesting concurrence for the data fix as follows:
       - **To:** Approver (must be at or above the approval level for the customer record with largest financial transaction in the request; see the Approval Levels Table in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service).
       - **CC:** FBA/PVA Project Manager (for FBA/PVA submissions) or CSD management team member (for CSD submissions) and MCD Compliance Program mailbox (for all submissions).
       - **Subject:** Data Fix Request for Concurrence
       - **In the body:** [Add description of the data fix, actions to be performed, rationale for the data fix, and identify the approval level (see the Approval Levels Table in TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service).]
     - Continue to step 2.
2. Once concurrence is obtained, e-mail the data fix request to the Service Desk along with the attached e-mail with concurrence and other supporting documents (for example, a spreadsheet with data changes).

   The Service Desk will assign a ticket number to the data fix request and route the request to the application owner (for example, Spectrum or CRM).
3. Once the Service Desk has closed the assigned ticket, verify the data fix has been implemented in the appropriate system (for example, Spectrum or CRM).
4. Image the data fix request, the concurrence e-mail (if there is a financial impact) and other supporting documents to the customer's ▸IPS file (or to each customer's IPS file if the request affects multiple customers).

# TP 42 Outstanding or Purged Checks

**In this Section**

TP 42. Overview for Outstanding or Purged Checks
TP 42.1 Distribute Outstanding or Purged Checks Listing
TP 42.2 Take Action on Outstanding or Purged Checks
TP 42.3 Resources for Outstanding or Purged Checks

## TP 42. Overview for Outstanding or Purged Checks

**07/01/2016**

Checks may remain outstanding for a number of reasons, including death, incorrect address, non-receipt, absence for vacation, or forgetfulness. ▸PBGC's paying agent produces a quarterly Outstanding Checks Report listing all negotiable checks that have not been cashed within two months of issuance. The ▸Benefit Payments Division distributes the list to the appropriate Mail POCs, who distribute it further as needed. The responsible processor follows up to determine the reason the checks have not been cashed and what action, if any, needs to be taken.

Checks that have remained outstanding for more than 180 days after the date issued (stale-dated checks) are no longer negotiable and are therefore not on the Outstanding Checks Report. PBGC's paying agent produces a monthly Purged Checks Report listing all stale-dated checks. This monthly report is distributed in the same manner as the quarterly Outstanding Checks Report.

## TP 42.1 Distribute Outstanding or Purged Checks Listing

**07/01/2016**

| | |
|---|---|
| **Purpose** | Produce and distribute a quarterly Outstanding Checks Report or monthly Purged Checks Report for follow-up action by the responsible processor. |
| **Guidance** | N/A |
| **Procedure Owner** | Benefit Payments Division |

1. Receive notification that ▸PBGC's paying agent has placed the quarterly "Outstanding Checks Report Over 90 Days Old" (a.k.a. "Outstanding Checks Report") or the monthly "Stale Dated Payments Report" (a.k.a. "Purged Checks Report") on the Portal.
   - An **outstanding check** is a check that has not been cashed.
   - A **stale-dated check** is one that has not been cashed after 180 days have elapsed from the date issued. Stale-dated checks are no longer negotiable (that is, they cannot be cashed).
   - A stale-dated check for which the funds have been returned to the trust account is called a **purged check**. For the purposes of this procedure, a stale-dated check is the same as a purged check.
2. Create a list of outstanding or purged checks for each Mail POC.
3. Send the list to the appropriate Mail POCs.

## TP 42.2 Take Action on Outstanding or Purged Checks

**07/01/2016**

| | |
|---|---|
| **Purpose** | Determine reasons for outstanding or purged checks and take appropriate actions. |
| **Guidance** | Policy 6.3-1 Underpayment Reimbursement and Interest Payments<br>*Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

1. Receive the Outstanding or Purged Checks Report and notify affected staff (if necessary).

   > **Note** Work with the oldest checks first. The goal is to get them cashed before they become stale-dated and appear on the Purged Checks Report.

2. Determine if the payee has died:
   - Verify there is a ▸DOD for the payee in Spectrum.
   - If the payee's payment status in Spectrum is still active, review the payee's records in ▸IPS and ▸CRM to see if he or she has died but the death has not been recorded.
   - If a death notice was received but not processed follow TP 5.1 Process Report of Death.
   - If the payee died before the date of the check, complete an ▸eCARF to stop payment on the check(s).
   - If the form of benefit provides for survivor or beneficiary benefits, attempt to locate the beneficiary or estate. If located, reissue the check to the estate or beneficiary. See TP 5 Death Processing.
3. If the check is under $20, it is de minimis. No further action is necessary. When the check becomes stale-dated the Paying Agent will automatically return the funds to the trust account.
4. Determine if the payee's address has changed
   - If IPS shows a change of address that was not processed, follow TP 4 Participant Addresses and EDD Elections.
   - Once the address is updated in Spectrum, complete an eCARF to stop payment on the check(s), reissue the payment(s) to the new address, and notify the participant.
5. If PBGC records do not indicate an address change or death, call the payee using the telephone number of record. If it is not available, see TP 4 Participant Addresses and EDD Elections to find a phone number.
   - Ask for the payee, explain the purpose for the call, and authenticate the payee's identity.
   - If the person is the payee,
     - Advise that PBGC's records show that there are uncashed benefit check(s).
     - Encourage the payee to cash the check(s) and to enroll in Electronic Direct Deposit.
     - If the payee did not receive the check(s) or lost them, verify the address. If the check is outstanding in PLUS, complete an eCARF to stop payment on the check(s), and reissue the payment(s).
     - If the check is purged, verify the address and complete a NFDE to re-issue the check.
   - If the person is not the payee, obtain the name and address of the person and seek information on the payee.
     - If the person is unable to respond, request that the spouse or executor contact PBGC with the information.
     - If the person advises that the payee is deceased, request the DOD and ask the person to mail a copy of the death certificate
     - Upon receipt of the death notice, follow TP 5.1 Process Report of Death.
     - If telephone contact cannot be made, or the payee is uncooperative, send a letter to the payee at the most recent address advising of the uncashed checks. Document the actions taken.
   - For a single uncashed check, send an *eALG 536 Reminder Notice (Outstanding Check)* requesting that the checks be cashed promptly.
   - For multiple uncashed checks, send an *eALG 537 Intent to Suspend Notice (Outstanding Check)* notifying the payee that payments will be suspended if the checks are not cashed promptly and he or she does not contact the Customer Contact Center.

> **Note** The Outstanding Checks Report from the prior quarter may be useful for identifying payees who were notified previously but still have not cashed their checks.

6. If the post office returns the *eALG 536 Reminder Notice (Outstanding Check)* or *eALG 537 Intent to Suspend Notice (Outstanding Check)*, or the check appears on the next quarterly Outstanding Checks Report after the 537 letter, then
   - Suspend the payment and forward the record for approval. See TP 28 Approve Financial and Non-Financial Transactions through Approval Service.
   - Send an *eALG 538 Suspension Notice (Outstanding Check)* to the payee if a valid address is available, advising of the uncashed checks and suspension action taken.
   - If the payee responds, reinstate the payments and issue a back payment for payments not received while suspended. Pay interest on payments missed while suspended separately using a Special check. Calculate the interest using Spectrum.
7. Document all calls in CRM.

# TP 44 Foreign Language Services

**In this Section**

TP 44. Overview for Foreign Language Services
TP 44.1 Request Foreign Language Services
TP 44.2 Resources for Foreign Language Services

## TP 44. Overview for Foreign Language Services

**08/28/2015**

A foreign language customer is one who has difficulty understanding English or has expressed a preference for corresponding with PBGC in another language, most often Spanish. The Foreign Language Group and ▶DMC facilitate effective communication between PBGC staff and foreign language customers by providing oral interpretation and obtaining written translation services. The Customer Contact Center (▶CCC) provides telephone call assistance.

## TP 44.1 Request Foreign Language Services

**07/01/2016**

| | |
|---|---|
| **Purpose** | To obtain foreign language interpretation and translation services to communicate with customers whose preferred language is not English. |
| **Guidance** | CRM Home Page |
| **Procedure Owner** | EBLS/FBA/PBA/PVA, CCC, Foreign Language Group, DMC |

Follow the instructions in the table below based on the type of translation service required.

| Translation Service Type | Basic Requirements/Details |
|---|---|
| **Telephone Calls** | |
| **Incoming** Telephone Call from a foreign language participant | 1. Place the customer's call on hold.<br>2. Dial the translation service at 1-866-537-9267.<br>3. Provide the agent customer code **TI3265**, the department or field office name, the phone number you are calling from and the language needed.<br>4. Once the interpreter is on the line, conference in the customer. |
| **Outgoing** Telephone Calls | 1. Dial the translation service at 1-866-537-9267.<br>2. Provide the agent customer code **TI3265**, your department or field office name and the phone number from which you are calling.<br>3. Indicate that assistance is needed with an outgoing call, and provide the outgoing phone number and the language needed.<br>The agent will place you on hold and connect the interpreter, and dial the outgoing phone number. After the introduction, the agent will drop out of the call and leave you with the customer and interpreter.<br>4. Once connected, verify the participant's identity. |
| **Incoming Correspondence** | |
| Translation of Letters, Proofs and Legal Documents From a Foreign Language | **Received by DMC:**<br>1. Image the documents to the customer's ▸IPS file but do not record any sensitive information (such as Social Security Number (▸SSN) or bank account information) on the documents.<br>2. Complete a *Translation Request Form: Request to Translate Documents into English*.<br>3. E-mail the form with the document(s) to be translated to the translation service provider. Redact any sensitive information before e-mailing the document(s).<br>4. The translation service provider sends the translated documents to the Foreign Language Group, who forwards them to the ▸DMC to import to the customer's IPS file. |

| | |
|---|---|
| | **Received by FBA/PVA:**<br><br>Send a ▸CRM service request to the mail point of contact for the Foreign Language Group, providing the<br>• Participant's Customer Identification Number or Social Security Number and ▸PBGC Case Number.<br>• IPS document identification number.<br>• Brief description of the translation work to be performed.<br>• Specific foreign language to be translated, if known. |
| | Normal turnaround times for ▸FBA/▸PVA requests are one to five days for any language, depending on the length and complexity. |
| **Outgoing Customer Correspondence** | |
| Customization of ▸eALG letters/enclosures needing any modifications in Spanish, and English letters to be completely translated into another language including Spanish | Send a CRM service request to the mail point of contact for the Foreign Language Group, providing the<br>• participant's SSN and PBGC Case Number,<br>• brief description of the translation work to be performed, and<br>• letter number (for example, 201, 402LBR). If changes have been made to the standard eALG letter,<br>▪ title the English draft letter "For Translation Only," and image it to the participant's IPS file,<br>▪ include the IPS document identification number in the CRM service request. All modifications to standard letters should have prior approval from a manager.<br>**Important**: English drafts created in eALG for translation purposes only and not mailed should not be forwarded for authorization, since that would create a false IPS record. |
| | Upon completion, the Foreign Language Group will import the completed translation into IPS in its native format (for example, Word) and reassign the service request to the originator with the document ID information.<br><br>Upon receipt of the service request, save the translation to the desktop, open it in its native format, and print and mail it to the customer.<br><br>Normal turnaround times are<br>• three business days for Spanish. Note that responses can take up to five business days for translations that are complex and/or contain multiple pages, applications, or attachments.<br>• five to seven business days for all other languages. Note that responses can take up to ten business days or translations that are complex, and/or contain multiple pages, applications, or attachments. |
| **Note** Any letter created in a foreign language requires that all enclosures, including | |

benefit statements, also be in that language.

**Note** All standard letters are available in eALG in Spanish with the associated enclosures.

| | |
|---|---|
| Review draft of an eALG letter composed in Spanish | Send a CRM service request to the mail point of contact for the Foreign Language Group, providing the<br>• participant's SSN and PBGC Case Number,<br>• brief description of the request, and a<br>• draft of the letter by e-mail. All letters should have prior approval from a manager.<br>**Important**: An English version of the completed translation must already be imaged in the participant's IPS file at the time of the service request. Upon receiving the translation, also image the final version (in Spanish) into the participant's file. |
| | Upon successful review, the Foreign Language Group will send a reply e-mail with attachment, if applicable, and reassign the CRM service request to the original owner.<br>Normal turnaround time is two business days. |

# TP 45 Non-Receipt of Benefit Payment

**In this Section**

TP 45. Overview for Non-Receipt of Benefit Payment
TP 45.1 Process Report of Non-Receipt
TP 45.2 Process Routine Assertions of Non-Receipt
TP 45.3 Process Non-Routine Assertions of Non-Receipt
TP 45.4 Resources for Non-Receipt of Benefit Payment

## TP 45. Overview for Non-Receipt of Benefit Payment

**07/25/2008**

This procedure describes how to handle assertions from participants or beneficiaries that a benefit payment was due but not received.

Checks may be reported missing for a number of reasons, such as misdirected mail. Payees also may simply have forgotten that they cashed a check. Most reports do not involve fraud or forgery.

Unless the records clearly indicate that a check was not issued or received, the burden is on the payee to provide sufficient evidence that the payment was not issued in accordance with PBGC or plan procedures, or not received.

Routine assertions involve payments made by PBGC or the pension plan administrator where supporting administrative, payment and check reconciliation data are readily available. With non-routine assertions the records are not readily available; are incomplete or contradictory; or are older than the records retention period. In non-routine cases, PBGC will rely heavily on plan provisions, the plan's business practices, or PBGC policy, procedures and business practices in place when the payment was issued to determine whether or not to issue a payment.

PBGC generally replaces a payment or issues a new payment once satisfied that the payment was not received. Interest is paid in non-routine cases if the payment is overdue by more than 180 days.

# TP 45.1 Process Report of Non-Receipt

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether a report of non-receipt of a benefit payment is routine or non-routine and take appropriate action. |
| **Guidance** | Policy 6.3-1 Underpayment Reimbursement and Interest Payments |
| **Procedure Owner** | CCC, EBLS/FBA/PBA/PVA |

When a ▸payee notifies PBGC of an unreceived payment, initiate this procedure immediately. Document all telephone calls in ▸CRM.

### CCC, EBLS/FBA/PBA/PVA

1. Obtain the following identifying information:
   - Expected payment date and type (check or ▸EDD).
   - Home or financial institution address at the time the payment was issued.
   - The payee's explanation of why he or she doesn't believe the payment was made or received.

   If the payee's address has changed, update the address in CRM/▸Spectrum (see TP 4 Participant Addresses and EDD Elections).
2. Initially, review PBGC records and determine if and when the payment was issued by PBGC's paying agent and whether or not it was returned to PBGC. Refer to ledger, address and pay source screens. If issued by PBGC's paying agent, verify the status of the check in ▸PLUS.
3. Determine whether the report of non-receipt is routine or non-routine:
   - **Routine:** Consider the report routine if **both** conditions are true:
     - ▸PBGC's paying agent, an interim paying agent, or the pension plan's administrator or paying agent issued the payment.
     - Proof of the payment is readily available, that is, PBGC can readily obtain a copy of the negotiated check or trace the EDD payment to a financial account to which the payee has access, the EDD payment was deposited to the wrong account, or the records clearly indicate that the payment was returned uncashed or purged as a stale-dated check.

   For routine reports, go to TP 45.2 Process Routine Assertions of Non-Receipt.

   > **Note** The Customer Contact Center (▸CCC) acts only on routine reports of non-receipt of payments recently issued by PBGC's paying agent. The CCC records all other situations in CRM for response by the Case Team's telephone point of contact.

   - **Non-Routine:** Consider the report non-routine if either condition is true:
     - A copy of the negotiated check is not readily available.
     - The EDD payment cannot be traced to a financial account to which the payee has access. This most often occurs when PBGC issues a ▸BDL to a ▸participant who has already received a cash-out of his or her benefit from the prior ▸plan administrator. It may also occur when PBGC issues BDLs to participants who had previously received estimated ▸lump sums, other large payments, or one or more pension payments. The payment may have been made before or after ▸DOPT, and may have been issued by PBGC's paying agent, an interim paying agent, or the pension plan's administrator or paying agent.

   For non-routine reports, go to TP 45.3 Process Non-Routine Assertions of Non-Receipt.

Top of Page

# TP 45.2 Process Routine Assertions of Non-Receipt

**07/01/2016**

| | |
|---|---|
| **Purpose** | To take action on routine assertions of non-receipt. |
| **Guidance** | Policy 6.3-1 Underpayment Reimbursement and Interest Payments |
| **Procedure Owner** | Customer Contact Center, EBLS/FBA/PBA/PVA |

This procedure is for routine handling by the Customer Contact Center (CCC)[1] and ▸FBAs of assertions from payees when a benefit payment was issued but not received. The handling varies depending on whether the payment was by check or ▸EDD. These procedures primarily apply to payments issued by ▸PBGC's paying agent. If the payment was issued by a prior paying agent or interim agent, FBAs work with that paying agent to determine if it can be replaced and how. If the prior paying agent or interim paying agent is unable or unwilling, follow the procedures for non-routine reports (see TP 45.3 Process Non-Routine Assertions of Non-Receipt).

Complete one of the sub-procedures according to the type of payment not received:

- Payment by check: Proceed according to the status of the check in ▸PLUS:
  - Status is "Outstanding": Complete TP 45.2A Stop and Reissue Unpaid Check.
  - Status is "Paid": Complete TP 45.2B Investigate Assertion of Non-Receipt of Paid Check.
- Payment by EDD: Complete TP 45.2C Investigate Assertion of Non-Receipt of Electronic Direct Deposit.

**In this Section**

TP 45.2A Stop and Reissue Unpaid Check
TP 45.2B Investigate Assertion of Non-Receipt of Paid Check
TP 45.2C Investigate Assertion of Non-Receipt of Electronic Direct Deposit

[1]The Customer Contact Center acts only on routine reports of non-receipt of payments recently issued by PBGC's paying agent. All other situations are recorded in ▸CRM for response by the case team's telephone point of contact.

**TP 45.2A Stop and Reissue Unpaid Check**

**07/01/2016**

For checks from ▸PBGC's paying agent, allow at least seven days from the issue date for clearance and reconciliation at PBGC's paying agent before requesting the check be reissued.

Follow this procedure if the status of the check in ▸PLUS is "Outstanding." If the check is "Paid," see TP 45.2B Investigate Assertion of Non-Receipt of Paid Check.

**CCC, EBLS/FBA/PBA/PVA**

1. Complete the appropriate eCARF:
   - **Stop and Reissue to the Same Address:** Send an ▸eCARF to ▸BPD to stop and reissue the payment.
   - **Stop and Reissue to a Different Address**: Send an eCARF to PBGC's paying agent to stop and reissue the payment with an address change.
2. Record all communication with the ▸participant or authorized representative and the related actions taken in ▸CRM and ▸IPS, as appropriate.

   **Note** If the participant receives a monthly annuity, encourage the participant to enroll for Electronic Direct Deposit (EDD).

3. To cancel a ▸Stop and Reissue Payment request, send another eCARF prior to 4 P.M. on the same business day, with instructions to PBGC's paying agent to cancel the previous request in the comments.

   ▸CCC receives an email confirmation in the Check Action inbox from the eCARF staff that the stop and reissue has been effected. This email is then imaged to the participant's file.

   **Note** If the need arises to issue a non-benefit payment, refer the matter to the BPD Management Analyst. This may be required, for example, to reimburse a check-cashing agency for fees incurred for cashing a PBGC check with a stop payment order, or to issue an overpayment refund when an ACH reclamation is successful and a check is also received to repay an overpayment.

**TP 45.2B Investigate Assertion of Non-Receipt of Paid Check**

**07/01/2016**

Follow this procedure if the status of the check in ▸PLUS is "Paid." If the check is "Outstanding," see TP 45.2A Stop and Reissue Unpaid Check.

**CCC, EBLS/FBA/PBA/PVA**

1. Obtain a copy of the check from PLUS.
2. If the check was negotiated, mail a copy of the cashed check (front and back) to the payee.
3. Contact the ▸payee to determine if the signature is the payee's:
   - If the payee verifies the check endorsement signature, document the finding in ▸CRM. No further action is required.
   - If the payee states that the signature is not the payee's and wishes to pursue replacement of the payment, proceed to TP 12.1 Determine Fraud/Forgery.

**Note** In cases where the check was misdirected due to an error by PBGC or its paying agent at no fault of the customer (for example, PBGC recorded the address incorrectly), replace the check immediately, before initiating fraud/forgery procedures.

**TP 45.2C Investigate Assertion of Non-Receipt of Electronic Direct Deposit**

**07/01/2016**

**CCC, EBLS/FBA/PBA/PVA**

1. Check the ▸PLUS ledger to determine whether ▸PBGC's paying agent automatically issued a manual check to replace an ▸EDD payment rejected by the receiving bank. The manual check may not show in the ▸Spectrum ledger yet.
2. Send an *eCARF - Copy of Paid Check / ACH Tracer* to PBGC's paying agent.

   If the EDD was deposited, the response from PBGC's paying agent indicates the date and to which account. PBGC's paying agent takes no action to replace the payment.
3. Image the ▸eCARF response to the participant file in ▸IPS.
4. Proceed according to the eCARF response:
   - If the EDD was deposited to the correct account (that is, the financial institution account and routing numbers on file with PBGC when the deposit was made), advise the payee to contact that financial institution to obtain the payment. No further action required for this procedure.
   - If the EDD was deposited to another person's account, continue to step 5.
5. Resolve the EDD payment to the incorrect account:
   a. Research to determine the reason (whether due to an error by PBGC or PBGC's paying agent or incorrect information provided by the ▸payee).
   b. Notify ▸BPD by e-mail. Upon receiving instructions, take the requested actions.
   c. Initiate repayment immediately:
      - If time permits, use ▸NFDE to reissue the payment under Pay Source 7 (reissue) in the next monthly check cycle.
      - If there is insufficient time before the deadline for the next pay cycle, or if the next pay cycle is too long for the customer to wait, initiate an off-cycle payment (see TP 29 Off-Cycle Payment).
   d. Notify the payee about the actions needed to replace the payment and how long the process will take.

## TP 45.3 Process Non-Routine Assertions of Non-Receipt

**07/01/2016**

| | |
|---|---|
| **Purpose** | To take action on non-routine assertions of non-receipt. |
| **Guidance** | Policy 6.3-1 Underpayment Reimbursement and Interest Payments |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

When a ▸participant or ▸beneficiary makes a non-routine assertion of non-receipt of a benefit payment, complete the *Non-receipt of Benefit Payments Facts & Circumstances Determination* to document the research, evaluation and determination of whether to pay the benefit. Image the completed and authorized document to the participant's ▸IPS file.

In non-routine cases, PBGC relies heavily on plan provisions, plan or business practices, and PBGC policy, procedures and business practices in effect at the time of the payment to make a determination. The burden is on the payee to provide sufficient evidence that the payment was not issued or received. PBGC generally requires a Participant Application for Benefits (PAB) and various proofs before issuing payments.

**EBLS/FBA/PBA/PVA:** Prior to commencing research, contact the ▸auditor or ▸EBLS for active cases, or the EBLS only for closed cases, for guidance.

**Important:** Manage customer expectations. Do not indicate whether or not PBGC will reissue the payment. Tell the customer that PBGC may require additional information from the payee, and that the research may take time, but that PBGC will keep the payee informed of its progress.

1. Collect the facts and circumstances of the case:
   a. Contact the ▸payee to complete *Part I Required Information and Evidence* of the Facts & Circumstances Determination. The nature of the research to follow depends on whether the alleged payment was issued by a prior plan administrator or by PBGC.
   b. If the payment was issued by the prior plan administrator, complete *Section A Payment Made by Prior Plan Administrator* to document the information collected.
   c. If the payment was issued by PBGC, complete *Section B Payment Made by PBGC* to document the information collected.

> **Note:** For checks issued January 2003 and after, ▸PBGC's paying agent maintains copies of checks for seven years from the month issued. Copies of checks issued prior to January 2003 are kept six years. If the check is older than 36 months, but not older than the seven-year time frame, the user would fill out an ▸eCARF for a Copy of Paid Check. PBGC's paying agent also maintains listings and may be able to confirm whether a payment was negotiated even if a copy is no longer available.

2. Once sufficient information is obtained, complete *Part II Determination* to document the decision of whether a payment is due:
   a. A payment is **due** if evidence suggests that the payment was not issued, or not received. If a payment is due, also complete *Part III Method of Payment Determination* to indicate whether the payment should be treated as a:
      - Pre-termination liability (that is, a benefit application dated before ▸DOPT is on file);
      - DOPT benefit; or
      - Benefit due a ▸woodwork person.
   b. A payment is **not due** if evidence suggests that the payment was issued and there is no evidence it was *not* received.
3. Make the final determination on the case:
   a. Forward the Facts & Circumstances Determination to the Employee Benefits Supervisor. The supervisor will review the document and may either concur or return it for further research. If necessary, the matter may be

referred to ▸PPD for guidance (see TP 17.1 Refer Policy and Processing Questions).

b. Upon management's concurrence, take action on the determination (see steps 4 and 5 below).

c. Image the completed and authorized Facts & Circumstances Determination to the participant's IPS file.

4. Proceed according to when the payment was issued:

   a. **Payment Issued Prior to DOPT:**

      Issue a Benefit Determination Letter (▸BDL) (see Process 19 Benefit Determination Letters) notifying the payee of the basis for not reissuing the payment. Consider using a Non-Member BDL for this purpose.

   b. **Payment Issued On or After DOPT:**

      Issue an *eALG 569 Confirmation of Payment Letter* notifying the payee of the basis for not reissuing the payment.

5. Proceed according to when the payment was issued or due:

   a. **If Payment was Issued or Due Prior to DOPT:**
      - If the payment was **issued but not received**, the payment is treated as a pre-termination liability and paid accordingly.
      - If the payment was **not issued** and there is a benefit application dated before DOPT in the file, the payment is treated as a pre-termination liability and paid accordingly.
      - If the payment was **not issued** and there is no benefit application dated before DOPT in the file, process the person as a participant at DOPT.

   b. **Payment Issued or Due On/After DOPT:**
      - If records indicate that PBGC's paying agent or the prior paying agent did not issue the payment, or that it was not received, reissue the payment.

6. Reminders:

   a. **Payment of Interest:** Pay interest on replacement payments in non-routine cases if the payment is more than 180 days overdue. Use a Special check to pay interest - do **not** add interest to the replacement check.

   b. **Taxation of Payments:** Claims that the payment was taxable when issued supports a determination that the payment was issued and received as records indicate. If a determination is made to issue a payment, pre-DOPT or post-DOPT, the payment(s) is taxable income for the year in which paid. These payments are not paid as non-taxable replacement payments, as routine assertions are. A new payment must be created.

# TP 46 Health Coverage Tax Credit (HCTC)

**In this Section**

TP 46. Overview for the Health Coverage Tax Credit (HCTC)
TP 46.1 Respond to HCTC Inquiries
TP 46.2 Resources for the Health Coverage Tax Credit (HCTC)

## TP 46. Overview for the Health Coverage Tax Credit (HCTC)

**09/30/2016**

This section describes the Health Coverage Tax Credit (HCTC) program and PBGC's role in administering it, and provides guidance for responding to customer inquiries about the program.

The Trade Act of 2002 amended the ▸Internal Revenue Code to provide a tax credit to eligible individuals who obtain health insurance from qualified health plans. The HCTC program is administered by the ▸IRS. The HCTC legislation expired at the end of 2013 and was not in effect for tax years 2014-2015, but the credit was made available retroactively to cover those years when the legislation was reintroduced in 2016. The credit is available to eligible individuals as a credit on their Federal income tax return.

The amount of coverage, which is set by Congress, has changed several times since the inception of HCTC. The IRS has also provided a monthly advanced tax credit in which the IRS pays a fixed percentage of the premium directly to the insurance program in lieu of the individual claiming the credit on his or her tax return. Individuals may still claim the credit on their tax return for any month in which an advanced tax credit is not paid.

Certain PBGC payees are covered under the HCTC legislation and PBGC provides information about potentially eligible payees in ▸PBGC-trusteed plans to the IRS. PBGC has worked with the IRS in establishing the criteria and methodology used in providing this information. PBGC also responds to inquiries about the program and eligibility for the tax credit.

More information about the HCTC program is available online at:

- PBGC.gov
- IRS.gov/hctc

**Who is an Eligible PBGC Pension Recipient for the HCTC Program?**

A participant, surviving spouse, beneficiary, or alternate payee under a ▸QDRO is an **eligible PBGC pension recipient** for any month in which all of the following conditions are met:

- The pension plan has been trusteed by the PBGC, including the month in which the plan is trusteed.
- PBGC pays a benefit to the recipient for that month of which any portion is paid under ▸Title IV of the Employee Retirement Income Security Act (ERISA), including payments made by an interim paying agent for a trusteed plan for which PBGC has not assumed the payments.
- The recipient has attained age 55 as of the first day of the month.

**Other Considerations**

It is important to remember that not all eligible PBGC pension recipients will be eligible for the HCTC program. Eligible PBGC pension recipients must meet other program requirements that PBGC does not determine. The IRS, as the program administrator, is ultimately responsible for determining if an individual meets all of the requirements for the HCTC program.

The following are examples of eligibility scenarios to consider:

- **Retroactive annuity starting date.** A recipient is included beginning with his or her ▸annuity starting date, including a retroactive annuity starting date, as long as the eligibility conditions are met on that date.
- **Frequency of payments.** PBGC includes recipients who are paid monthly or who receive annual annuity payments, as well as those receiving quarterly or semiannually payments whose payments will be converted to annual or monthly payments under Policy 5.4-7 Annuity Benefit Forms. Those receiving quarterly, semiannual or annual payments are treated as eligible for the intervening months in which payments are not made. However, HCTC eligibility ends the month after death.
- **Benefit offsets.** PBGC does not include a recipient for any month in which his or her PBGC benefit is completely offset (that is, a PBGC benefit is not payable) by a non-PBGC benefit or source of income (for example, workers'

compensation, purchased annuity, etc.).

- **Lump-sum payments.** For purposes of the HCTC program a ▸lump-sum payment must be a total distribution of a benefit (that is, the present value of the termination benefit). It cannot be any other type of lump-sum payment. Recipients of lump-sum payments are treated as eligible on a monthly basis beginning the month all of the PBGC requirements are met. Eligibility ends the month after death. Note that PBGC does not include a recipient who was paid a lump sum before August 06, 2002, the effective date of the Trade Act.
- **Qualified health plan coverage.** An eligible PBGC pension recipient must also have coverage under a qualified health plan to qualify for the HCTC. Recipients who have other specified coverage, such as Medicare (see special note in next paragraph), Medicaid, or health insurance paid for by an employer are excluded from the HCTC program. However, PBGC does not determine which recipients have coverage under a qualified plan and includes all payees who meet the PBGC requirements. The IRS is ultimately responsible for determining if the recipient can claim the tax credit.

  **Special note about Medicare:** Most recipients automatically become entitled to Medicare (Part A and/or Part B) at age 65 and are excluded from the HCTC program the month they attain age 65.
- **Date of Birth Not Available.** If a recipient's date of birth is unknown or not readily available (which may be the case when PBGC first takes over a plan), the individual is included as a potentially eligible PBGC pension recipient in the reporting to the IRS. In these cases, the IRS will ultimately determine if the recipient is eligible for the HCTC.

Refer to the PBGC Web site and the IRS Web site for detailed information about HCTC program requirements.

**Notification about the HCTC Program**

PBGC's trusteeship notification letters inform payees about the HCTC. Payees who are otherwise eligible may claim the tax credit beginning the month in which the plan is trusteed by PBGC.

Payees enrolled in the HCTC program whose PBGC benefits are suspended (for example, for failure to return their ▸PIF) and later reinstated may need to reapply with the HCTC program at the IRS.

**PBGC's HCTC Representative**

PBGC's HCTC Representative is located in ▸CSD. The HCTC Representative:

- Serves as a liaison between PBGC and the HCTC program at the IRS.
- Notifies CSD staff about exceptions in monthly exceptions reports from the HCTC program that must be corrected.
- Provides assistance in responding to inquiries about eligibility for the HCTC.

Assistance can be requested directly from the HCTC Representative.

# TP 46.1 Respond to HCTC Inquiries

**09/30/2016**

| | |
|---|---|
| **Purpose** | To respond to inquiries about the HCTC program and eligibility. |
| **Guidance** | Policy 8.7-1 Health Coverage Tax Credit (HCTC) - PBGC Responsibility |
| **Procedure Owner** | EBLS/PBA/FBA/PVA, CCC |

**In this Section**

TP 46.1A Respond to Inquiries Received by the Customer Contact Center
TP 46.1B Respond to Inquiries Received by CSD

**TP 46.1A Respond to Inquiries Received by the Customer Contact Center**

**09/30/2016**

**CCC**

1. Use the appropriate scripts to determine if the individual is a potentially eligible PBGC pension recipient:
   - If the individual is not a potentially eligible PBGC pension recipient, refer the individual to the ▸IRS at 800-829-1040 (TDD: 800-829-4059) or to the IRS Web site (Keyword: ▸HCTC) for information about HCTC.
   - If the individual is a potentially eligible PBGC pension recipient:
     - Record the inquiry in ▸CRM.
     - Refer the inquiry to the telephone ▸POC designated in ▸CMS.

**TP 46.1B Respond to Inquiries Received by CSD**

**09/30/2016**

This section addresses:

- Eligibility Questions
- Applying for the Tax Credit and Qualified Health Insurance Questions
- IRS Denial of End-of-Year Tax Credit
- Other General Questions
- Other Inquiries

**EBLS/PBA/FBA/PVA**

**Eligibility Questions**

1. If the individual inquires about eligibility for the ▸HCTC, determine whether:
   - The plan has been trusteed by PBGC and, if so, the ▸Date of Trusteeship.
   - The individual has attained age 55 (that is, is at least age 55 as of the first day of the month in question).
   - PBGC is paying a monthly, quarterly, semiannual, or annual benefit to the person (including those in ▸PBGC-trusteed plans still being paid by the interim paying agent).
2. If PBGC paid a lump sum to the individual on or after the Date of Trusteeship (and after August 05, 2002):
   a. Determine individual eligibility:
      - **Individual is not eligible.** If the individual does not meet the criteria, explain that he or she does not appear to be eligible for the tax credit at this time and close the inquiry in ▸CRM. If the individual wishes to pursue the matter, refer him or her to the ▸IRS.
      - **Individual appears eligible.** If the individual meets the criteria (and it appears the individual was not on the list of eligible PBGC pension participants sent to the HCTC program), send an e-mail to the HCTC Representative requesting guidance and include the following participant information:
        - Name
        - ▸SSN
        - ▸DOB
        - Phone Number
        - Date entering pay status (Pension Payments)
        - Date lump-sum payment was made (Lump-Sum)
        - Plan Name
        - PBGC Case Number
        - ▸DOTR
        - Actual Retirement Date
        - Details about the inquiry
        - Whether the response to the participant will be by telephone or in writing (for which the PBGC HCTC Representative will provide specific language).

        > **Note** On rare occasions, the HCTC Representative may respond directly to the individual and provide a copy to the mail ▸POC. Image the copy to the individual's ▸IPS file and close the correspondence in CRM.

   b. Respond to the individual based on the guidance sent by the HCTC Representative:
      - If responding by telephone, call the participant and close the CRM service request.
      - If responding in writing, use *CCS Template 526 Response to HCTC Eligibility Inquiry* and the specific language provided by the HCTC Representative.
   c. Image any e-mail guidance from the HCTC Representative to the participant's IPS file.

**Applying for the Tax Credit and Qualified Health Insurance Questions**

For questions about how to apply for the tax credit or whether a health plan is qualified, refer the caller directly to the IRS at 800-829-1040 (TDD: 800-829-4059).

Payees enrolled in the HCTC program whose PBGC benefits are suspended (for example, for failure to return their ▶PIF) but later reinstated may need to reapply with the IRS.

**IRS Denial of End-of-Year Tax Credit**

A written response is required if a recipient requests proof of their PBGC eligibility for HCTC because they received an HCTC denial letter from the IRS. Confirm that the recipient meets the eligibility criteria during the applicable tax year, and summarize the findings in an e-mail to the HCTC Representative requesting approval to send *CCS Template 526 Response to HCTC Eligibility Inquiry* for all letters.

**Other General Questions**

Use the Frequently Asked Questions about HCTC on the PBGC Web site to answer general inquiries. Also inform the caller about the PBGC and IRS Web sites and provide the Web site addresses.

**Other Inquiries**

Refer inquiries from organizations such as government entities, plan sponsors, unions, U.S. Congress, or other inquiries not listed to the HCTC Representative.

# TP 47 Missing Participants

**In this Section**

TP 47. Overview for Missing Participants
TP 47.1 Receive Missing Participant Information
TP 47.2 Enter Missing Participant into Spectrum
TP 47.3 Notify Missing Participant of Benefit
TP 47.4 Process Benefit Application
TP 47.5 Process Deceased Missing Participant
TP 47.6 Validate Refund Requests
TP 47.7 Respond to Death Match
TP 47.8 Resources for Missing Participants

## TP 47. Overview for Missing Participants

**07/01/2016**

Under the Retirement Protection Act of 1994, PBGC acts as a clearing house for missing participants. If the plan sponsor purchases an annuity contract for the missing participant, PBGC refers the individual to the right insurance company. If the plan sponsor transferred money for the benefit to PBGC, PBGC searches for the missing participant and pays the benefit when the individual is located.

The missing participants process begins when the prior plan administrator submits the plan for standard termination. STCD approves and processes the standard termination; the prior plan administrator submits *Form 501 Post-Distribution Certification for Standard Termination* and *Schedule MP Missing Participant Information* along with attachments at least 60 days following STCD's receipt of the standard termination (see TP 47.1 Receive Missing Participant Information). These forms identify the number of missing participants for whom the plan purchased irrevocable commitments (also called purchased annuities), and the number of missing participants (and designated benefit dollar amounts) for whom the plan made payments to PBGC.

FOD reviews the *Bank Statement* and *Missing Participant Payment Voucher* and records funds received in CFS. CFS then updates CMS on a monthly basis.

The MPP Satff in CSD updates the plan and participant information (see TP 47.1 Receive Missing Participant Information and TP 47.2 Enter Missing Participant into Spectrum) and sends the participant a notice of benefits or annuity information (see TP 47.3 Notify Missing Participant of Benefit). The participant may contact CSD and request a monthly annuity calculation. CSD sends the participant an application package, and the participant completes and returns either a lump-sum or annuity application. CSD processes the payment and sends the participant a payment notification (see TP 47.4 Process Benefit Application).

If the recipient of the application package notifies PBGC that the participant is deceased, the MPP Staff reviews the case and determines whether a designated benefit is payable, the amount of the benefit, and the identity of the beneficiary, before either paying the designated benefit or sending an application package to the beneficiary (see TP 47.5 Process Deceased Missing Participant).

The MPP Staff also validates refund requests from the prior plan administrator (see TP 47.6 Validate Refund Requests).

## TP 47.1 Receive Missing Participant Information

**07/01/2016**

| | |
|---|---|
| **Purpose** | To receive a plan with missing participants from STCD and enter the data into CMS. |
| **Guidance** | CMS Job Aids and User Guide<br>*Plan File Indexing Specification Guide*<br>*Spectrum User Manual* |
| **Procedure Owner** | MPP Staff |

On receipt of a *Plan Transmittal Memo* from ▸STCD for a new or amended plan, the ▸MPP Staff initiates the missing ▸participant process.

1. Receive the *Plan Transmittal Memo* from STCD with the attachments:
   - *Schedule MP Missing Participant Information*
   - *Attachment A Missing Participant Annuity Purchase Information*
   - *Attachment B Missing Participant Individual Information* (one for each missing participant or one spreadsheet for the entire ▸plan)
2. Verify that the information from STCD includes all required documents:
   - Includes all documents: Continue to step 3.
   - Documents missing: Request STCD to provide documents. Do not continue until STCD provides all required documents.
3. Proceed according to whether the memo is for a new or amended plan:
   - New plan:
     a. Send an e-mail to Benefit Management Applications (BMA) to initiate case conversion.

        BMA converts the case to Spectrum and sends an e-mail to the MPP Staff when done.

     b. Assign the ▸CMS task referral to the MPP Staff Lead and continue to step 4.
   - Amended plan: Continue to step 4.
4. Proceed according to whether the plan has annuity-only participants:
   - Plan has annuity-only participants:
     a. Proceed according to whether the information from STCD includes the accrued benefit amount for all annuity-only participants:
        - Amounts included: Continue to step b.
        - Amounts not included: Request STCD to request the plan administrator to provide the accrued benefit amounts. On receipt of the amounts, continue to step b.

     b. Submit an ▸actuarial support request (▸ASR) to the ▸Actuary to sample and confirm accuracy of the accrued benefit amounts.

     c. Proceed according to whether the Actuary finds errors in the ▸plan administrator's calculations:
        - Errors: Request STCD to request the plan administrator to provide updated accrued ▸benefit amounts. Repeat steps b and c until the amounts are correct.
        - No errors: Continue to step 6.
   - Plan has no annuity-only participants: Continue to step 6.
5. Confirm the accuracy of the accrued benefit amounts:
   a. Calculate the accrued benefit amounts for a sample of the annuity-only participants.
   b. Compare to the accrued benefit amounts the plan administrator provided.
   c. Provide the comparison results to the MPP Staff via e-mail.

6. Forward a hard copy of the files from STCD to the MPP Staff Lead.
7. Review the monthly *Lockbox Report* from ▸FOD and the Schedule MP page in CMS that the ▸plan sponsor provided sufficient funding for the plan.
8. Confirm that the package from the MPP Staff includes all required documentation:
   - *Schedule MP Missing Participant Information*
   - *Attachment A Missing Participant Annuity Purchase Information*
   - *Attachment B Missing Participant Individual Information* (one for each missing participant or one spreadsheet for the entire plan)

   If any documents are missing, request the MPP Staff to notify STCD of the missing documents and await instruction before proceeding.
9. Confirm that the number of missing participants and the funding amount match the *Schedule MP Missing Participant Information* to within $1 per participant:
   - Participants and funding do not match:
     a. Request MPP Staff to notify STCD of the discrepancy.
     b. On receipt of updated documentation, return to step 7.
   - Participants and funding match: Continue to step 14.
10. Enter the plan sponsor information into CMS.

    CMS generates an automated e-mail request to ▸PBGC's paying agent to set up an MPP Plan Account. The paying agent sets up the plan account and sends an e-mail to the MPP Staff when complete.
11. Submit copies of plan and participant documents to the ▸DMC for imaging to ▸IPS:
    - Submit the following documents for imaging to the plan file:
      - *Plan Transmittal Memo*
      - *Schedule MP Missing Participant Information*
      - *Attachment A Missing Participant Annuity Purchase Information*
      - *Attachment B Missing Participant Individual Information* (if a spreadsheet covering entire plan)
      - Any other attachments to the *Plan Transmittal Memo*
    - If there is a separate *Attachment B Missing Participant Individual Information* for each participant, image to the participant file as correspondence.
12. Assign the case file to an MPP Staff member.
13. Notify the assigned MPP Staff member of the funding status of the plan.
14. Check ▸PBGC Image Viewer to confirm each document is in the correct file:
    - *Plan Transmittal Memo*: Plan file
    - *Schedule MP Missing Participant Information*: Plan file
    - *Attachment A Missing Participant Annuity Purchase Information*: Plan file
    - *Attachment B Missing Participant Individual Information*: Proceed according to whether there is one attachment per participant or a single spreadsheet for the entire plan:
      - Attachment per participant: Correct *Attachment B Missing Participant Individual Information* in each participant file
      - Spreadsheet for entire plan: Plan file
15. Update the *MPP Plan List* tracking spreadsheet on the `I:` Drive to note all documents are in PBGC Image Viewer and whether the plan sponsor provided sufficient funding.

Top of Page

## TP 47.2 Enter Missing Participant into Spectrum

**07/01/2016**

| | |
|---|---|
| **Purpose** | To update Spectrum with information for a missing participant. |
| **Guidance** | *Spectrum User Manual* |
| **Procedure Owner** | MPP Staff |

The ▸MPP Staff ensures each missing participant in the ▸plan has a ▸Spectrum account and role associated to the plan. In addition, on receiving an amended *Attachment B* the MPP Staff updates Spectrum for each impacted participant.

1. Enter the ▸participant's information into Spectrum:
   - Participant does not have an entry in Spectrum: Create a new participant record and continue to step 5.
   - Participant already has an entry in Spectrum: Continue to step 2.
2. Proceed according to whether the plan is new for the participant:
   - Not a new plan: Continue to step 3.
   - New plan (that is, the participant has an existing Spectrum entry for a different plan):
     a. Create a new role for the participant in Spectrum.
     b. Enter ▸benefit amount in Spectrum and continue to step 5.
3. Update the participant's existing record in Spectrum.
4. Proceed according to whether the participant already received payment:
   - Paid: Proceed according to whether the amendment is a reduction or increase:
     - Reduction:
       a. Notify ▸STCD that the amendment is a reduction to a benefit already paid.
       b. Create a memo to the participant and plan files in ▸IPS documenting that the participant received payment prior to the reduction, and therefore there is no change to Spectrum. No further action required for this procedure.
     - Increase: Update Spectrum to record the unpaid portion as the amended amount. Continue to step 5.
   - Not paid: Enter the full benefit amount into Spectrum. Continue to step 5.
5. Refresh Spectrum.
6. Reconcile the data in Spectrum to *Schedule MP Missing Participant Information* using a Forest and Trees **MPP Plan Report**.
7. Print, sign, and date the report and then image to the plan file in IPS.

   **Note** Run a new **MPP Plan Report** every time MPP receives an amended *Attachment B*.

8. If not already completed for this month, review the monthly *Lockbox Report* from ▸FOD and proceed according to whether there is sufficient funding for the plan:
   - Sufficient funding: Notify the assigned MPP Staff member that there is sufficient funding.
   - Insufficient funding:
     a. Notify the assigned MPP Staff member that there is insufficient funding.
     b. Repeat step 8 each month until there is sufficient funding.
9. Proceed according to whether there is sufficient funding for the plan:
   - Sufficient funding: Proceed to TP 47.3 Notify Missing Participant of Benefit.
   - Insufficient funding: On notification that there is sufficient funding, proceed to TP 47.3 Notify Missing Participant of Benefit.

Top of Page

## TP 47.3 Notify Missing Participant of Benefit

**07/01/2016**

| | |
|---|---|
| **Purpose** | To notify missing participants of their benefits. |
| **Guidance** | N/A |
| **Procedure Owner** | Actuary, MPP Staff |

The ▸MPP Staff notifies each missing ▸participant of their eligibility for ▸benefits. The notification process varies based on whether the participant's benefit is a purchased ▸annuity listed on *Attachment A Missing Participant Annuity Purchase Information* (see TP 47.3A Notify Missing Participant of Purchased Annuity) or another type of benefit listed on *Attachment B Missing Participant Individual Information* (see TP 47.3B Notify Missing Participant of Benefit Other than Purchased Annuity).

**In this Section**

TP 47.3A Notify Missing Participant of Purchased Annuity
TP 47.3B Notify Missing Participant of Benefit Other than Purchased Annuity

**TP 47.3A Notify Missing Participant of Purchased Annuity**

**07/01/2016**

**MPP Staff**

1. Use the *Attachment A Missing Participant Annuity Purchase Information* and PBGC's approved locator service to determine the participant's address.
2. Update the participant's address in Spectrum.
3. Issue *eALG 572MP Annuity Purchase Statement* with insurance company information to the participant.
4. If DMC notifies the MPP Staff that the USPS returned the mail for an incorrect address, use the approved locator service to identify the participant's next-most-current address:
   - Address available: Update the address in Spectrum and return to step 2.
   - No address available: Update the participant record in Spectrum to note the incomplete address. Continue to step 5.

     Spectrum automatically updates the list of incomplete missing participants on PBGC's Web site.
5. If the participant contacts PBGC to provide an address:
   a. Update Spectrum with the new address.

      Spectrum automatically removes the participant from the list of unlocatable missing participants on PBGC's Web site when a user updates the participant address to a valid address.

   b. Repeat steps 2–4.

**TP 47.3B Notify Missing Participant of Benefit Other than Purchased Annuity**

**01/31/2017**

**MPP Staff**

1. Proceed according to whether the *Attachment B Missing Participant Individual Information* includes the customer address:
   - Attachment includes address: Update ▸Spectrum with the address and continue to step 2.
   - Attachment does not include address: Use the approved locator service to identify the customer address:
     - Address not available: Mark address incomplete in Spectrum. No further action required for this procedure.
       Spectrum automatically updates the list of incomplete missing ▸participants on PBGC's Web site.
     - Address available: Update Spectrum with the address and continue to step 2.
2. For an annuity-only participant, send an ▸ASR to request an ▸annuity calculation from the ▸Actuary and continue to step 4.

**Actuary**

3. On receipt of the ASR, calculate the annuity and send to the requestor.

**MPP Staff**

4. Issue an application package to the participant including the appropriate application form according to whether the participant is annuity-only:
   - Annuity-Only:
     - Issue *CCS 573MP* to advise the participant of the benefit and to contact PBGC for an application.
     - When the participant requests a benefit application, issue a second *CCS 573MP* with *Form 700 Participant Application for Pension Benefits* and a benefit statement with information on optional benefit forms.
   - Not Annuity-Only and lump sum is equal to $5,000 or less: Issue *CCS 573MP* with *Form 720MP Application for Lump-Sum Payment*.
   - Not Annuity-Only and lump-sum is greater than $5,000: Issue *CCS 573MP* with *Form 703MP Application for Elective Lump-Sum Payment*. If the participant requests an annuity, issue a second *CCS 573MP* with *Form 700 Participant Application for Pension Benefits* and a benefit statement with information on optional benefit forms.
5. On receipt of the completed application, proceed according to whether the participant is deceased:
   - Participant is alive: Proceed to TP 47.4 Process Benefit Application.
   - Participant is deceased: Proceed to TP 47.5 Process Deceased Missing Participant.

# TP 47.4 Process Benefit Application

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review applications for benefits for missing participants or their beneficiaries and make the appropriate payments. |
| **Guidance** | *Spectrum User Manual* |
| **Procedure Owner** | Actuary, MPP Staff |

On receipt of an application for benefits, the ▸MPP Staff first reviews the application for completeness and confirms the applicant provided all required documentation (see TP 47.4A Review Benefit Application) and then processes the payment in ▸Spectrum (see TP 47.4B Process Benefit Payment in Spectrum).

**In this Section**

TP 47.4A Review Benefit Application
TP 47.4B Process Benefit Payment in Spectrum

**TP 47.4A Review Benefit Application**

**07/01/2016**

**MPP Staff**

1. On receipt, review the application for completeness according to the following criteria:
   - The date of the applicant's signature is no more than 90 days before the application filing date.
   - Application is notarized.
   - Application includes proof of age (see Appendix G Acceptable Proof of Age and Death).
   - If the applicant's last name is different from the *Attachment B,* application includes proof of marriage (see Appendix O Acceptable Proof of Marriage) or name change.
   - If the application is for a ▸lump sum over $5,000 and the applicant is married, the application includes a notarized signature by the spouse.
2. If the application is:
   - Complete: Continue to step 3.
   - Incomplete: Proceed according to whether the missing information is available in PBGC's records:
     - Available: Contact the applicant by phone to request permission to add the information:
       - Applicant gives direct permission and provides the information: Document in ▸CRM and annotate the application in ▸IPS. Continue to step 3.

         **Note** Although the information is in PBGC's records, requiring the applicant to provide the information helps prevent fraud.

       - Applicant does not give permission or does not provide the information: Continue to step 4.
     - Not available: Continue to step 4.
3. Check the date of birth on the application against the *Attachment B*:
   - Matches: Issue an *eALG 531 Receipt of Complete Documentation/Information* to the applicant and proceed to TP 47.4B Process Benefit Payment in Spectrum. No further action required for this procedure.
   - Does not match: Proceed according to whether the discrepancy is significant (for example, completely different ▸DOB or ▸SSN, as opposed to a DOB that is off by day only, month only, or year only, or an SSN with more than two incorrect digits):
     - Discrepancy is significant: Continue to step 4.
     - Discrepancy is not significant: Proceed according to whether other proof documents support payment (for example, the SSN or address on the application matches the *Attachment B* or the approved locator service lists both the address on the application and the address on the *Attachment B* for the ▸participant):
       - Proof documents support payment: Issue an *eALG 531 Receipt of Complete Documentation/Information* to the applicant and proceed to TP 47.4B Process Benefit Payment in Spectrum. No further action required for this procedure.
       - Proof documents do not support payment: Continue to step 4.

**Note** The DOB does not impact benefit calculations. The *Attachment B* defines the benefit amount.

4. Proceed according to the type of payment:
   - Lump-Sum:
     a. Issue *eALG 530MP Request for Additional Documentation/Information-Missing Participants ONLY* to the applicant.
     b. Repeat steps 1–4 until the application is complete.
   - Annuity: If not already done, request an ▸annuity calculation from the ▸Actuary via e-mail and continue to step 6.

**Actuary**

5. On receipt of the annuity calculation request, calculate the annuity and send to the ▶MPP Staff via e-mail.

**MPP Staff**

6. On receipt of the annuity calculation, issue an annuity application package to the participant and return to step 1.

Top of Page

**TP 47.4B Process Benefit Payment in Spectrum**

**09/30/2016**

**MPP Staff**

1. Check in ▸Spectrum and ▸PLUS whether PBGC already paid the applicant:
   - Paid: Confirm whether the previous payment was a partial payment and for the Missing Participant Program (MPP) plan:
     - MPP plan and complete payment: No further action required for this procedure.
     - Different plan or partial payment: Continue to step 2.
   - Not paid: Continue to step 2.
2. Set up the payment in Spectrum.
3. Ensure documentation supporting the benefit payment is in ▸IPS at the time the Spectrum transaction is forwarded, including but not be limited to:
   - Application package
   - Proof documents
   - *MPP Payment Checklist*
   - Other documents supporting the payment
4. Forward the payment in Spectrum for authorization (see TP 28 Approve Financial & Non-Financial Transactions through Approval Service).

**MPP Payment Authorizer**

5. Confirm that all required supporting and proof documentation is in IPS.
6. Verify the payment is correctly set up in Spectrum.
7. Confirm the review for prior payments.
8. Authorize or reject the payment.
   If the payment is not approved, provide an explanation.

**MPP Staff**

9. If the payment is not approved, proceed based on whether more information is needed from the applicant:
   - More information needed from the applicant:
     a. Issue *eALG 530MP Request for Additional Documentation/Information-Missing Participants ONLY* to the applicant.
     b. Upon receipt of the information, proceed to TP 47.4A Review Benefit Application.
   - No additional information needed from applicant:
     a. Make corrections based on the MPP Staff's response.
     b. Repeat steps 2-4 until the MPP Payment Authorizer approves the payment package.
10. If the payment is approved:
    - Issue *eALG 503MP Missing Participant Lump Sum payment notice ONLY* to the applicant.
    - Complete the *MPP Payment Tracking Report*.

# TP 47.5 Process Deceased Missing Participant

**07/01/2016**

| | |
|---|---|
| **Purpose** | To identify whether and how to pay benefits to the beneficiary of a deceased missing participant. |
| **Guidance** | N/A |
| **Procedure Owner** | Actuary, MPP Staff |

On notification that a missing ▸participant is deceased, the ▸MPP Staff determines whether and how to pay ▸benefits to the beneficiary according to the benefit amount based on whether the designated benefit is greater than $5,000 (see TP 47.5A Process Deceased Missing Participant with Benefit Greater than $5,000) or $5,000 or less (see TP 47.5B Process Deceased Missing Participant with Benefit Less than or Equal to $5,000).

**In this Section**

TP 47.5A Process Deceased Missing Participant with Benefit Greater than $5,000
TP 47.5B Process Deceased Missing Participant with Benefit Less than or Equal to $5,000

**TP 47.5A Process Deceased Missing Participant with Benefit Greater than $5,000**

**07/01/2016**

**MPP Staff**

1. Proceed according to whether the ▸participant was married at ▸DOD:
   - Married: Continue to step 2.
   - Unmarried: Continue to step 5.
2. Proceed according to whether the spouse is alive at the deemed distribution date (DDD).
   - Spouse is alive: Continue to step 3.
   - Spouse is deceased: Continue to step 5.
3. Determine if the participant died after ▸ERD:
   - Participant died on or before ERD:
     a. Calculate the ▸QPSA ▸lump sum amount (equal to the designated benefit minus the $300 loading fee, then divided by two).
     b. Update ▸Spectrum to add a beneficiary record and the QPSA amount.
     c. Issue *eALG 573MP Elective Lump Sum (more than $5,000)* to notify the beneficiary of entitlement to a QPSA lump sum now or a QPSA annuity payable on or after the participant's ERD.
     d. On receipt of a completed application, proceed to TP 47.4 Process Benefit Application. No further action required for this procedure.
   - Participant died after ERD: Continue to step 4.
4. Determine if the participant died after ▸RBD:
   - Participant died on or before RBD:
     a. Calculate the QPSA lump sum amount (equal to the designated benefit minus the $300 loading fee, then divided by two).
     b. Update Spectrum to add a beneficiary record and the QPSA amount.
     c. Issue *eALG 573MP Elective Lump Sum (more than $5,000)* to notify the beneficiary of entitlement to a QPSA lump sum now or a QPSA annuity.
     d. On receipt of a completed application, proceed to TP 47.4 Process Benefit Application. No further action required for this procedure.
   - Participant died after RBD: Continue to step 6.
5. Determine if the participant died after RBD:
   - Participant died on or before RBD: Update Spectrum with the DOD, change the benefit amount to $0, and the participant status to ineligible. No further action required for this procedure.
   - Participant died after RBD: Continue to step 6.
6. Send an ASR to request for benefit calculation to the ▸Actuary via e-mail, including:
   - Application
   - Death certificate
   - Marital facts
   - ▸DOB
   - DOD
   - DDD
   - Participant ID Number

**Actuary**

7. Calculate the benefit due to the beneficiary and send via e-mail to the ▸MPP Staff:
   - Married participant: Benefit is the participant's back payments from RBD to DOD, plus 50% of the spouse's back

payments from the first of the month following the participant's DOD to DDD, plus the QPSA benefit (equal to the designated benefit minus the $300 loading fee and then divided by two).

- Unmarried participant: Benefit is the participant's back payments from RBD to DOD with interest to DDD.

**MPP Staff**

8. On receipt of the benefit calculation, proceed according to whether the beneficiary is a person or an estate:
   - Person: Create a record in Spectrum for the beneficiary and link to the participant's entry.
   - Estate: Create a record in Spectrum for the estate and link to the participant's entry:
     a. In the **Name** field, enter `To the Estate of [participant name]`.
     b. In the **Address** field, enter `c/o [person in charge of the estate]`.
     c. In the **SSN** field, enter the estate's EIN.
9. Document the calculation:
   - Update the benefit amount on the participant's record in Spectrum.
   - Image the calculation to ▸IPS.
10. Proceed according to the marital status of the participant:
    - Married: Continue to step 11.
    - Unmarried: Continue to step 13.
11. Issue a customized *eALG 530MP Request for Additional Documentation/Information-Missing Participants ONLY* to the beneficiary with the appropriate enclosure(s):
    - Benefit over $5,000 and spouse requests annuity: *Form 700 Participant Application for Pension Benefits* and *Form 705 Beneficiary Application for Pension Benefits*.

      **Note** If there are back payments and the payment date is after RBD, a spouse must take the back payments as a lump sum, followed by an annuity going forward.

    - Benefit over $5,000 and beneficiary does not request annuity: *Form 703MP Application for Elective Lump-Sum Payment w/Tax Notice*.
    - Benefit of $5,000 or less: *Form 720MP Application for Lump-Sum Payment [Missing Participants]*.
12. On receipt of the application from the beneficiary, proceed TP 47.4 Process Benefit Application. No further action required for this procedure.
13. Proceed according to DOD:
    - On or after 06/01/2002 and before DDD:
      a. Pay the beneficiary a lump sum in accordance with Policy 8.6-1 Payments to Beneficiaries.
      b. Proceed to TP 47.4 Process Benefit Application. No further action required for this procedure.
    - Before 06/01/2002 or on or after DDD: Pay the designated benefit as a lump sum to the participant's estate:
      a. Issue a customized *eALG 530MP Request for Additional Documentation/Information-Missing Participants ONLY*, *Form 721 Application for Eligible Rollover Payment – Non-Spouse Beneficiary* and/or *Form 721T Tax Election for Payment Not Eligible for Rollover*.

         **Note** If there is no open estate, the beneficiary can request an ▸EIN number online from ▸IRS. If the beneficiary is later unable to cash the benefit check, the beneficiary can request a *Letter of Administration* from a court which verifies that no estate is open and authorizes the beneficiary to negotiate the payment. The court may require proof of relationship to the deceased or beneficiary status.

      b. On receipt of the application, proceed to TP 47.4 Process Benefit Application. No further action required for this procedure.

**Note** Non-spouse beneficiaries are entitled to lump-sums only and may not request annuities.

Top of Page

**TP 47.5B Process Deceased Missing Participant with Benefit Less than or Equal to $5,000**

**07/01/2016**

**MPP Staff**

1. Determine whether the designated ▸benefit is mandatory:
   - Mandatory: Continue to step 7.
   - Not mandatory: Continue to step 2.
2. Proceed according to the ▸beneficiary:
   - Non-spouse beneficiary: Continue to step 7.
   - Spouse: Issue the *eALG 574MP Mandatory Lump Sum - Missing Participant Plans ONLY* and *Form 720MP Application for Lump-Sum Payment [Missing Participants]*.

     **Note** The annuity amount is half the lump-sum amount.
3. On receipt of the completed *Form 720MP Application for Lump-Sum Payment [Missing Participants]*, proceed according to the form of benefit the spouse requests:
   - ▸Lump Sum: Proceed to TP 47.4 Process Benefit Application. No further action required for this procedure.
   - ▸Annuity: Send an ▸ASR to request an annuity calculation from the ▸Actuary and continue to step 6.

**Actuary**

4. Calculate the benefit due to the surviving spouse (equal to the designated benefit minus the $300 loading fee and then divided by two) and send to the ▸MPP Staff via e-mail.

**MPP Staff**

5. On receipt of the benefit calculation from the ▸Actuary , issue a customized *eALG 530MP Request for Additional Documentation/Information-Missing Participants ONLY* to the beneficiary with the appropriate enclosure(s):
   - Benefit over $5,000: *703MP Application for Elective Lump-Sum Payment w/Tax Notice and Form 705 Beneficiary Application for Pension Benefits.*
   - Benefit of $5,000 or less: *Form 720MP Application for Lump-Sum Payment [Missing Participants]*.
6. On receipt of the application from the beneficiary, proceed to TP 47.4 Process Benefit Application. No further action required for this procedure.
7. Proceed according to ▸DOD:
   - On or after 06/01/2002 and before the deemed distribution date (DDD):
     a. Pay the beneficiary a lump sum in accordance with Policy 8.6-1 Payments to Beneficiaries.
     b. Proceed to TP 47.4 Process Benefit Application.
   - Before 06/01/2002 or on or after DDD: Pay the designated benefit as a lump sum to the ▸participant's estate:
     a. Issue *574MP Mandatory Lump Sum - Missing Participant Plans ONLY*, *Form 721 Application for Eligible Rollover Payment – Non-Spouse Beneficiary* and *Form 721T Tax Election for Payment Not Eligible for Rollover*.

        **Note** If there is no open estate, the beneficiary can request an ▸EIN number online from ▸IRS. If the beneficiary is later unable to cash the benefit check, the beneficiary can request a *Letter of Administration* from a court which verifies that no estate is open and authorizes the beneficiary to negotiate the payment. The court may require proof of relationship to the deceased or beneficiary status.
     b. On receipt of the application, proceed to TP 47.4 Process Benefit Application.

Top of Page

## TP 47.6 Validate Refund Requests

**07/01/2016**

| | |
|---|---|
| **Purpose** | To respond to refund requests by validating that the participant is not in pay and updating Spectrum to remove the designated benefit. |
| **Guidance** | CMS Job Aids and User Guide |
| **Procedure Owner** | MPP Staff |

The prior ▸plan administrator requests refunds of ▸participant ▸benefits through ▸STCD, who provide the requests to the ▸MPP Staff via the *Refund Request Memo*. If the participant was not already paid, MPP forwards the memo to ▸FOD, who process the refund, and MPP then updates ▸CMS, ▸Spectrum, and the ▸plan and participant files in ▸IPS.

1. On receipt of the *Refund Request Memo* from STCD, verify whether PBGC already paid the participant:
   - Paid: Return the *Refund Request Memo* to notify STCD that PBGC paid the participant. No further action required for this procedure.

     STCD notifies the plan administrator that PBGC already paid the participant.
   - Did not pay: Update the benefit amount in Spectrum to zero and continue to step 2.
2. Sign the memo.
3. Forward the original memo to FOD and copy STCD.

   FOD processes the refund and pays the prior plan administrator.
4. Enter the refund information in CMS as an amendment.
5. Run a Forest and Trees **MPP Plan Report** to balance the plan.
6. Image the documentation to IPS (see TP 16 Plan and Participant File Maintenance):
   - Image the new **MPP Plan Report** to the plan file.
   - Image the memo to the plan and participant files.

## TP 47.7 Respond to Death Match

**07/01/2016**

| | |
|---|---|
| **Purpose** | To respond to a Social Security Death Match to determine whether the match corresponds to a participant, and if so, determine whether the participant is deceased. |
| **Guidance** | N/A |
| **Procedure Owner** | MPP Staff |

1. On receipt of a Death Match attached to an ▸SSN in the ▸CRM queue, take the following actions.
2. On the BPD Payment Support portal page, click the SSA Death Master Request link.

   The ▸SSA Death Master Request form displays.
3. Complete the SSA Death Master Request form and click the **Save** button.

   ▸BPD determines whether the Death Match corresponds to a missing ▸participant and responds via e-mail.
4. Proceed according to BPD's response:
   - Death Match does not correspond to missing participant:
     a. Image the response to the participant file in ▸IPS.
     b. Reassign the participant a ▸dummy SSN and code as incomplete in ▸Spectrum.
     c. Move all files in the participant's old file in IPS to the dummy SSN file.
     d. Create a cross reference memo and image to both the participant's old file and the dummy SSN file in IPS. No further action required for this procedure.
   - Death Match corresponds to missing participant: Issue *eALG 555MP Death Audit Letter* to confirm whether the participant is deceased.
5. Proceed according to the response to the *eALG 555MP Death Audit Letter*:
   - Participant is not deceased: Process the participant's benefit (see TP 47.3 Notify Missing Participant of Benefit and TP 47.4 Process Benefit Application). No further action required for this procedure.
   - Participant is deceased: Issue *eALG 530MP Request for additional documentation/information-Missing Participants ONLY* to request the death certificate.
6. On receipt of the death certificate, update Spectrum to indicate the participant is deceased.
7. Review the death certificate and proceed to TP 47.5 Process Deceased Missing Participant.

## TP 47.8 Resources for Missing Participants

**01/31/2017**

**Forms, Letters, and Memos:**

- *Attachment A (to Schedule MP) - Missing Participant Annuity Purchase Information*
- *Attachment B (to Schedule MP) - Missing Participant Individual Information*
- *Forrest & Trees MPP Plan Report*
- *MPP Payment Checklist*
- *One-Time Payment Summary*
- *Schedule MP Missing Participant Information*
- *STCD Transfer of Missing Participants Filing Attachments Memo*

**Customer Correspondence and Forms:**

- *CCS 573MP*
- *eALG 503MP Missing Participant Lump Sum payment notice ONLY*
- *eALG 530MP Request for additional documentation/information-Missing Participants ONLY*
- *eALG 531 Receipt of Complete Documentation/Information*
- *eALG 555MP MP-Death Audit Letter*
- *eALG 572MP MP-Cover Letter Annuity Purchase Statement*
- *eALG 573MP Elective Lump Sum (more than $5,000) Missing Participant Plans ONLY*
- *eALG 574MP Mandatory Lump Sum - Missing Participant Plans ONLY*
- *Form 700 Participant Application for Pension Benefits*
- *Form 703MP Participant Application for Pension Benefits [Missing Participants]*
- *Form 720MP Application for Lump-Sum Payment [Missing Participants]*
- *Form 721 Application for Eligible Rollover Payment – Non-Spouse Beneficiary*
- *Form 721T Tax Election for Payment Not Eligible for Rollover*

**Guidance:**

- *CMS Job Aids and User Guide*
- *Policy 8.6-1 Payments to Beneficiaries*
- *Spectrum User Manual*

**Exhibits:**

*None*

# TP 48 MyPBA Correspondence

**In this Section**

TP 48. Overview for MyPBA Correspondence
TP 48.1 Process MyPBA Correspondence
TP 48.2 Resources for MyPBA Correspondence

## TP 48. Overview for MyPBA Correspondence

**03/27/2014**

MyPBA is a software program that allows participants to submit certain forms, request benefit estimates, and update their personal data through the PBGC website. Processing MyPBA correspondence differs from processing mail correspondence, particularly in how and when PBGC responds to the participant. This section applies to correspondence received via MyPBA and also includes instructions on processing a customer's request to disable MyPBA account.

When a participant submits a form through MyPBA, an image of the form is sent to his or her IPS file and processing staff are notified via CRM. PBGC accepts the form with the participant's electronic signature. Participants may also complete other transactions in MyPBA which are not visible to staff and require no action.

Staff may occasionally receive telephone calls from participants requesting assistance in completing a form or other transaction in MyPBA. Calls that are technical in nature (for example, from a participant who is locked out of a MyPBA account) may be referred to the Customer Contact Center (CCC) for assistance. Calls requesting the disabling of an account - for example, due to concern over unauthorized activity - are treated as high priority.

# TP 48.1 Process MyPBA Correspondence

**07/01/2016**

| | |
|---|---|
| **Purpose** | To respond to forms and requests received via MyPBA or to disable a MyPBA account at a participant's request. |
| **Guidance** | N/A |
| **Procedure Owner** | CCC, EBLS/FBA/PBA/PVA, MyPBA Admin Team |

Click on the appropriate link for instructions on processing a form or request received via ▸MyPBA:

A. Pension Benefit Applications - Forms 700, 705, 706
B. Payee Information Form (PIF) - Form 701
C. Lump-Sum Benefit Application - Form 720
D. Designation of Beneficiary - Forms 707, 708, 711
E. Disability Certification - Forms 716 and 716A
F. Request for Benefit Estimate
G. Other Transactions Requiring No Action
H. Requests to Disable a MyPBA Account

**A. Pension Benefit Applications**

- **Form 700 Participant Application for Pension Benefits**
- **Form 705 Beneficiary Application for Pension Benefits**
- **Form 706 Beneficiary Application for Pension Benefits – OF (Optional Forms)**

MyPBA automatically issues an e-mail acknowledging receipt and requesting that the participant submit the required proof documents. In cases where notarized signatures are required, MyPBA directs the participant to print and mail a completed application instead of submitting the application online.

1. Upon receipt of *Form 705 Beneficiary Application for Pension Benefits,* proceed to the next step. For *Form 700 Participant Application for Pension Benefits* and *Form 706 Beneficiary Application for Pension Benefits – OF,* which offer optional benefit forms, view the ▸IPS file to confirm the customer has received an *Optional Benefit Form* statement from ▸PACS. If not, take the following actions:
   a. Issue an *eALG 549 MyPBA Application Submitted without Benefit Estimate* within **10 business days** advising the customer that the application was submitted without their having an estimate of the amount payable under the different optional benefit forms. Attach an *Optional Benefit Form* statement from PACS based on the participant's requested ▸annuity starting date (ASD), and a new benefit application. The customer is asked to call PBGC to keep the benefit form selected in the submitted application or to submit a new form by the date described below. This letter may also be used to remind customers to send any proof documents needed.
   b. Call the customer if a response is not received within 15 days of sending the *eALG 549 MyPBA Application Submitted without Benefit Estimate* and advise that if there is no change in the requested ▸ASD or benefit form, there is no need to submit a new application. Proceed according to the customer's preference:
      - **Customer confirms the ASD and benefit form as requested on the application:** Document the call to ▸CRM and proceed to the next step.
      - **Customer prefers to elect a different ASD and/or benefit form:** Allow the customer 30 days to submit a new application to change the benefit form and retain the requested annuity starting date (if desired). If the new application is not received within 30 days (or the customer calls back to confirm the original election), process the original application as submitted (using the original ASD).

> **Note** If the customer elects a different benefit form but wishes to maintain the original ASD, the new application must be **in writing.** The reason is that if a new application is submitted online, MyPBA may

prefill the application with a prospective ASD that is later than the requested date.

2. Determine whether any further information or proof documents are needed and process the benefit application in accordance with TP 20.3 Process Applications for Annuity Benefits.

**B. Payee Information Form (PIF) - Form 701**

▸MyPBA automatically issues an e-mail acknowledging receipt and indicating PBGC will contact the customer if further information is required.

1. Upon receipt of the ▸PIF, record on the *PIF Tracking Spreadsheet*. See Process 9.5A Notify Payees.
2. Follow up with the participant only to request or clarify data.
3. Update and close the ▸CRM record.
4. Verify data on the form to the participant database and ▸Spectrum (see Process 9.7 Verify Data from Returned Forms).

**C. Lump-Sum Benefit Application - Form 720**

▸MyPBA automatically issues an e-mail acknowledging receipt and requesting that the participant submit the required proof documents.

Determine whether any further information or proof documents are needed and process the benefit application in accordance with TP 20.4 Process Lump-Sum Applications.

**D. Designation of Beneficiary**

- **Form 707 Designation of Beneficiary for Benefits Owed at Death (Currently Receiving Pension Benefits)**
- **Form 708 Designation of Beneficiary (Not Currently Receiving Pension Benefits)**
- **Form 711 Change of Beneficiary for Certain & Continuous (C&C) Benefits Only (Currently Receiving Pension Benefits)**

▸MyPBA automatically issues an e-mail acknowledging receipt of the form.

1. Upon receipt, update the beneficiary information in ▸Spectrum, if necessary.
2. Update and close the ▸CRM record.

**E. Disability Certification**

- **Form 716 Certification of Social Security Disability Status**
- **Form 716A Certification of Pension Plan Disability Status**

Upon receipt of either of these forms, refer to TP 30 Monitor Continuous Eligibility For Disability Benefits.

**F. Request for Benefit Estimate**

▸MyPBA automatically issues an e-mail acknowledging receipt and indicating that PBGC will send the benefit estimate within 15-45 days, and that if more than 45 days are needed, PBGC will contact the participant.

1. Upon receipt, determine and issue the estimated benefit amount (see TP 32 Provide Estimated Benefit Calculations).
2. If more than 45 days are needed to provide the estimate, notify the participant via ▸eALG or by phone, and provide the date by which it will be sent.
3. Upon providing a response, update and close the ▸CRM record.

**G. Other Transactions Requiring No Action**

Participants can also conduct the following transactions that automatically update their ▸Spectrum records:

- Edit Contact Information
- Apply for Electronic Direct Deposit (▸EDD)
- Edit Existing EDD Information
- Designate or Edit Federal Tax Withholding Election
- Change Address
- Change Beneficiary's Address

Processing staff are not notified of the changes and images are not created.

> **Note** Certain ▸MyPBA transactions may appear in ▸AWA for approval; for example, payment destination changes. Though supporting documentation will not be provided, approvers should approve these transactions.

### H. Requests to Disable a MyPBA Account

A customer may contact PBGC to request that his or her ▸MyPBA account be disabled, for example, over concern about unauthorized activity on the account. Most calls will be received by and processed within the ▸CCC. However, a request may be received directly by the benefit processing staff, who coordinates with the MyPBA Admin Team to disable the account. The following addresses both scenarios. Take immediate action on receipt of the request.

#### CCC

1. Upon receipt of a call requesting PBGC to disable a MyPBA account, confirm the customer's identity and ask the reason for the request.
2. Create a ▸CRM interaction and transfer the call to a MyPBA Admin Team Member who can disable the account.

#### MyPBA Admin Team Member

3. Proceed according to the source of the request to disable the MyPBA account:
   - Transferred Customer Call: Disable the account and advise the customer that a letter confirming the account is disabled will follow. Proceed to step 4.
   - E-mail from ▸EBLS/▸FBA/▸PBA/▸PVA: Disable the account and proceed to step 5.
4. Issue an *eALG Generic Letter* to the customer advising that the account is disabled.
5. Create a CRM Participant Alert indicating that the customer has requested the disabling of the MyPBA account. See CRM Plan and Participant Alerts Interim Guidance.

#### EBLS/FBA/PBA/PVA

1. Upon receipt of a call requesting PBGC to disable a MyPBA account, confirm the customer's identity and ask the reason for request.
2. Inform the customer that PBGC will prioritize the request and will send a confirmation letter once the account is disabled.
3. Document the call in a CRM Service Request and keep it in pending status until the following steps are completed.
4. Prepare an e-mail to **MyPBA Account Deactivation Requests** and copy a federal manager assigned to the case in ▸CMS (FBA and PVA staff must also copy a supervisor). Include the customer's name, SSN or Customer ID number, and reason for the request. Also request a date the status can be provided.
5. Send the email with high importance.
6. Once **MyPBA Account Deactivation Requests** confirms the account is disabled, issue an *eALG Generic Letter* to advise the customer.
7. Update and close the CRM Service Request.

# TP 49 Power of Attorney and Guardianship

**In this Section**

TP 49. Overview for Power of Attorney and Guardianship
TP 49.1 Process Power of Attorney Requests
TP 49.2 Process Power of Attorney Revocation
TP 49.3 Process Guardianship and Conservatorship Requests
TP 49.4 Process Assertions of Incapacity
TP 49.5 Legal Requirements for DPOAs
TP 49.6 Special Rules for DPOAs
TP 49.7 Resources for Power of Attorney and Guardianship

## TP 49. Overview for Power of Attorney and Guardianship

**03/30/2016**

This procedure provides guidance on PBGC's processing and approval of ▸powers of attorney and legal guardianship for benefit administration purposes, as set forth in Policy 8.4-1 Power of Attorney. The ▸policy statement applies to participants, ▸beneficiaries, and ▸alternate payees in ▸PBGC-trusteed plans.

A power of attorney (POA) is a written document that authorizes a person (referred to as the Holder) to act as the representative for another person (the Principal). A POA may be ▸Non-Durable, ▸Durable, or ▸Springing Durable.

- A Non-Durable POA operates only while the Principal is competent (able to manage his or her own affairs); it is invalid when the Principal is incompetent. A Non-Durable POA may be prepared using PBGC *Form 715: Power of Attorney*, or any other form.
- A Durable POA begins or continues to operate when the Principal is determined to be incompetent.
- A Springing Durable POA begins to operate only upon the occurrence of a prescribed event relating to the incompetence of the Principal.

A ▸guardian or a ▸conservator is a person appointed by a court to assume responsibility for the care of an individual or the management of the individual's estate (in this case meaning property, including financial affairs). Note that a conservator may also be an institution.

PBGC reviews all powers of attorney, guardianships, and conservatorships submitted for acceptance and notifies the interested parties of the determination. PBGC's policy defines permitted uses of these documents and when they are no longer in effect.

# TP 49.1 Process Power of Attorney Requests

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether a Power of Attorney can be recognized by PBGC, notify the Principal and Holder (as applicable), and take requested actions. |
| **Guidance** | Policy 8.4-1 Power of Attorney<br>Policy 8.5-1 Signature By Mark |
| **Procedure Owner** | CSD/FBA/PVA POA Coordinator(s), EBLS/FBA/PBA/PVA |

Upon receipt of ▸Power of Attorney, review the entire document, including any attachments such as a Principal's Notice, Agent's Acknowledgements and/or notary statements. Be alert for language throughout that impacts the interpretation of the document, such as statements about durability, effective dates, authorities given, and execution requirements.

Determine the Power of Attorney (POA) type and select the appropriate procedure link for processing instructions. Note that a ▸Durable POA with provisions that make it effective at a future date is a ▸Springing Durable POA.

**In this Section**

TP 49.1A Non-Durable Power of Attorney
TP 49.1B Durable Power of Attorney
TP 49.1C Springing Durable Power of Attorney
TP 49.1D POA Authorizing Language Examples

**TP 49.1A Non-Durable Power of Attorney**

**07/01/2016**

**EBLS/FBA/PBA/PVA**

1. Upon receipt of a ▸Non-Durable Power of Attorney (POA), including PBGC *Form 715 Power of Attorney*, review the document for completeness and to ensure it contains the following required information:
   - Name, address, and signature of the Principal (the person executing the POA, authorizing another person to act on his or her behalf);
   - Name and address of the Holder (the person authorized under the POA);
   - Powers that the Principal grants the Holder; and
   - Date the POA was executed and the effective date, if different.
2. If the Principal's signature is by mark (such as an *X*), then in accordance with Policy 8.5-1 Signature By Mark verify it is either
   - notarized, **or**
   - witnessed by two persons, neither of whom is the Holder. The witnesses must sign and date the document, and know the person who signed by mark.
3. Review the POA to ensure it authorizes the Holder to take actions with PBGC with respect to the Principal's benefits. Authority may be granted in a broad or "sweeping" statement giving the agent full authority, or may be specific and enumerate certain acts. Refer to 49.1D POA Authorizing Language Examples to determine whether the POA has language that provides full PBGC Authority. PBGC will recognize a POA for the authority it specifies, subject to the limits in Policy 8.4-1 Power of Attorney. If a POA is not a PBGC Form 715, highlight the authorizing language in the document in image viewer and document the specific section of the POA with the authorizing language in the POA checklist.

   **Note** All foreign power of attorneys must be referred to headquarters for concurrence or direction.

4. Complete the *Non-Durable POA Checklist* to document the determination of whether the POA is approved and the authority granted the Holder (if approved) and submit it to the ▸CSD/▸FBA/▸PVA POA Coordinator for concurrence. If the POA includes an expiration date, document that date on the checklist. If proposing to accept the Non-Durable POA, also complete and submit the *CRM Power of Attorney and Guardianship Data Entry Form* for the Holder(s). Only the active holder(s) (not successors) are entered in ▸CRM.
5. If the decision is to accept the Non-Durable POA, create the POA record in CRM using the *CRM Power of Attorney and Guardianship Data Entry Form* and forward for approval.

   POA authorizer will review and approve the request in CRM.
6. Image the final *Non-Durable POA Checklist* and the *CRM Power of Attorney and Guardianship Data Entry Form* (if applicable) to the participant's IPS file including any supporting e-mail from ▸OCC/▸PPD.

   (Do **not** image draft checklists or data entry forms.)
7. Communicate the determination to Principal and Holder (or Holders if more than one is designated) as applicable:
   - **Approved**: Prepare an *eALG 590 NDPOA Approval to Principal* letter to the Principal and an *eALG 591 NDPOA Approval to Holder (Representative)* to the Holder(s) stating that the request is approved, the authority provided, and the expiration date, if applicable.

     **Note** When a POA specifies **more than one holder** with different or overlapping authority, ensure the letter addresses the specific authority granted to each holder and whether the POA allows them to act independently or if all holders must jointly make a request. If a Successor Holder (one identified to act if the original Holder dies or is otherwise unavailable) is named in the POA, he or she should be identified in the letter and receive a copy.

   - **Not approved**: Prepare an *eALG 592 NDPOA Rejection to Principal* letter to the Principal only, stating the reason (s) the request is not approved. This letter includes PBGC *Form 715: Power of Attorney*, which the Principal may use to prepare and resubmit the Non-Durable POA for review and approval by PBGC.

     **Note** Under certain circumstances, a Non-Durable POA that does not contain all required

information may be approved if the person who executed the POA is unavailable (for example, he or she is out of the country). Contact PPD for guidance using the OPSS POA-Guardianship mailbox.

8. If the POA is approved and currently in effect:
   - Update the customer's ▶Spectrum record to ensure that future correspondence is mailed in care of the Holder at his or her address. If the POA has an expiration date, indicate this in the address field after the Principal's name (for example, add "(EXP 04/11)" for a POA that expires in April, 2011); and
   - Perform any actions requested at the time the POA is received provided they are authorized by the ▶NDPOA and permitted by the policy; for example, change the address or bank information for PBGC payments.
   - If directed by the POA Coordinator, request a CRM alert advising of the expiration date.
9. Update CRM and Spectrum to reflect the POA is no longer in effect upon any of the following:
   - Expiration of a Non-Durable POA
   - Revocation in writing by Principal or Holder (see TP 49.2 Process Power of Attorney Revocation)
   - Principal of a Non-Durable POA becomes incompetent
   - Death of the Principal

Top of Page

**TP 49.1B Durable Power of Attorney**

**12/22/2016**

**EBLS/FBA/PBA/PVA**

1. Upon receipt of the ▸Durable Power of Attorney (DPOA), review the document for completeness and to ensure it contains the following required information:
   - Name, address, and signature of the Principal (the person executing the ▸POA, authorizing another person to act on his or her behalf);
   - Name and address of the Holder (the person authorized under the POA);
   - Powers that the Principal grants the Holder; and
   - Date the POA was executed and the effective date, if different.
2. If the Principal's signature is by mark (such as an *X*), then in accordance with Policy 8.5-1 Signature By Mark verify it is either
   - notarized, **or**
   - witnessed by two persons, neither of whom is the Holder. The witnesses must sign and date the document, and know the person who signed by mark.
3. If the DPOA has any provisions that would make it "spring" into effect upon the occurrence of a prescribed future event relating to the principal's incompetence, process according to TP 49.1C Springing Durable Power of Attorney.
4. Review the DPOA to ensure it authorizes the Holder to take actions with PBGC with respect to the Principal's benefits. Authority may be granted in a broad or "sweeping" statement giving the agent full authority, or may be specific and enumerate certain acts. Refer to 49.1D POA Authorizing Language Examples to determine whether the POA has language that provides full PBGC Authority. PBGC will recognize a POA for the authority it specifies subject to the limits in Policy 8.4-1 Power of Attorney ***and*** any limits specified in the TP 49.6A Special State Rules for DPOAs. Highlight the authorizing language in the document in image viewer and document the specific section of the POA with the authorizing language in the POA checklist.
5. Ensure the DPOA meets applicable state law requirements for the state in which it was executed (in addition to signature by mark requirements mentioned above). See TP 49.5A State Law Requirements for DPOAs. Note that if a DPOA meets all conditions except the state law requirements, PBGC *will* recognize it as a ▸Non-Durable POA (see below).

   | **Note** All foreign power of attorneys must be referred to headquarters for concurrence or direction. |
   |---|

6. Complete the *Durable Power of Attorney Checklist* to document the determination of whether the POA is approved and the authority provided (if approved) and submit it to an ▸CSD/▸FBA/▸PVA POA Coordinator for concurrence. If proposing to accept the DPOA, also complete and submit the *CRM Power of Attorney and Guardianship Data Entry Form* for the Holder(s). Only the active holder(s) (not successors) are entered in ▸CRM.
7. If the determination is **not** to approve the Durable POA (or to approve it only as a Non-Durable POA), proceed according to the reason:
   - Not approved because the Durable POA covers only health care matters: Review and concur with the *Durable Power of Attorney Checklist* and return it to the reviewer to communicate the determination.
   - Not approved because the Principal did not initial authorities as required by the DPOA document, but may have indicated them by another means (for example, by checkmarks or *x*'s): Review and concur with the *Durable Power of Attorney Checklist* and return it to the reviewer to communicate the determination.
   - Not approved for any other reason: Send an e-mail to the OPSS POA-Guardianship mailbox requesting review of the case by ▸PPD and/or ▸OCC. Obtain PPD concurrence or direction before proceeding.
8. If the decision is to accept the Durable POA, create the POA record in CRM using the *CRM Power of Attorney and Guardianship Data Entry Form* and forward for approval.

   POA authorizer will review and approve the request in CRM.
9. Image the final *Durable Power of Attorney Checklist* and the *CRM Power of Attorney and Guardianship Data Entry Form* (if applicable) to the participant's ▸IPS file including any supporting e-mail from OCC/PPD.

   (Do **not** image draft checklists and data entry forms.)

10. Communicate the determination to the appropriate person(s):
    - **Approved:** Prepare an *eALG 593 DPOA Approval to Principal* letter to the Principal and an *eALG 594 DPOA Approval to Holder (Representative) - also Springing* letter to the Holder stating that the request is approved, and the authority.
    - **Approved only as a Non-durable POA:** Prepare an *eALG 590 NDPOA Approval to Principal* letter to the Principal and *eALG 591 NDPOA Approval to Holder (Representative)* to the Holder.
    - **Not approved:** Prepare an *eALG 595 DPOA Rejection to Requestor* letter to the person who submitted the request stating the reason(s) it was not approved.

    > **Note** When a POA specifies **more than one holder** with different or overlapping authority, ensure the letter addresses the specific authority granted to each holder and whether the POA allows them to act independently or if all holders must jointly make a request. If a Successor Holder (one identified to act if the original Holder dies or is otherwise unavailable) is named in the POA, he or she should be identified in the letter and receive a copy.

11. If the DPOA is approved and currently in effect:
    - Update the customer's ▸Spectrum record to ensure that future correspondence is mailed in care of the Holder at his or her address.
    - Perform any actions requested at the time the POA is received provided they are authorized by the DPOA and permitted by the policy; for example, change the address or bank information for PBGC payments.
    - If directed by the POA Coordinator, request a CRM alert advising of the expiration date.
12. Update CRM and Spectrum to reflect the DPOA is no longer in effect upon either of the following:
    - Revocation in writing by Principal or Holder (see TP 49.2 Process Power of Attorney Revocation)
    - Death of the Principal

Top of Page

**TP 49.1C Springing Durable Power of Attorney**

**12/22/2016**

**EBLS/FBA/PBA/PVA**

1. Upon receipt of a ▸Springing Durable Power of Attorney (Springing DPOA), review the document for completeness and to ensure it contains the following required information:
   - Name, address, and signature of the Principal (the person executing the Springing DPOA, authorizing another person to act on his or her behalf);
   - Name and address of the Holder (the person authorized under the ▸POA);
   - Powers that the Principal grants the Holder; and
   - Date the Springing DPOA was executed and the effective date, if different.
2. If the Principal's signature is by mark (such as an *X*), then in accordance with Policy 8.5-1 Signature By Mark verify it is either
   - notarized, **or**
   - witnessed by two persons, neither of whom is the Holder. The witnesses must sign and date the document, and know the person who signed by mark.
3. Also review the Springing DPOA to ensure it authorizes the Holder to take actions with PBGC with respect to the Principal's benefits. Authority may be granted in a broad or "sweeping" statement giving the agent full authority, or may be specific and enumerate certain acts. Refer to 49.1D POA Authorizing Language Examples to determine whether the POA has language that provides full PBGC Authority. PBGC will recognize a POA for the authority it specifies subject to the limits in Policy 8.4-1 Power of Attorney ***and*** to any limits specified in the TP 49.6A Special State Rules for DPOAs. Highlight the authorizing language in the document in image viewer and document the specific section of the POA with the authorizing language in the POA checklist.
4. Identify the Springing DPOA's criteria for the authority to "spring" into effect (that is, to determine whether the Principal is incompetent). For example, it may require that one or two doctors provide written documentation that the Principal is incompetent. Highlight the authorizing language in the document in image viewer and document the specific section of the POA with the authorizing language in the POA checklist.
5. Ensure the Springing DPOA meets applicable state law requirements for the state in which it was executed (in addition to signature by mark requirements mentioned above). See TP 49.5A State Law Requirements for DPOAs.

   **Note** All foreign power of attorneys must be referred to headquarters for concurrence or direction.

6. Determine whether the Principal is incompetent if a determination is currently needed (for example, the Holder seeks to perform actions permitted only when the Principal is incompetent). Note that a Springing DPOA may be filed with PBGC before a Principal is incompetent, in which case incompetence will be determined following these guidelines when the Holder seeks to perform actions:
   - PBGC accepts a determination of incompetence as described by the Springing DPOA.
   - If the POA is silent about how incompetence will be determined, PBGC requires a determination from a physician (and that any other state law requirements are met) or a court ruling.
   - If the Holder wishes to execute a third party payment agreement or a spousal waiver, PBGC requires at minimum a physician's determination or a court ruling.
7. Complete the *Durable Power of Attorney Checklist* to document the determination of whether the POA is approved, the authority provided, and whether a current determination of incompetence has been made and the springing provisions are in effect, and submit to an ▸CSD/▸FBA/▸PVA POA Coordinator for concurrence. If proposing to accept the Springing DPOA, also complete the *CRM Power of Attorney and Guardianship Data Entry Form* for the Holder(s). Only the active holder(s) (not successors) are entered in ▸CRM.

   **Note** For a Springing DPOA, with springing provisions not yet in effect, the **POA Status** and **Inactivity Reasons** in the *CRM Power of Attorney and Guardianship Data Entry Form* should be **Inactive** and **Contingent**, respectively.

8. If the determination is **not** to approve the Springing DPOA, proceed according to the reason:
   - Not approved because the Springing DPOA covers only health care matters: Review and concur with the *Durable Power of Attorney Checklist* and communicate the determination.

- Not approved because the Principal did not initial authorities as required by the DPOA document, but may have indicated them by another means (for example, by checkmarks or *x*'s): Review and concur with the *Durable Power of Attorney Checklist* and return it to the reviewer to communicate the determination.
- Not approved for any other reason: Send an e-mail to the OPSS POA-Guardianship mailbox requesting review of the case by ▸PPD and/or ▸OCC. Obtain PPD concurrence or direction before proceeding.

9. Communicate determination to Principal and Holder:
   - **Approved and the springing provisions are not yet in effect** (that is the Principal is not currently alleged to be incompetent): Prepare *eALG 596 Springing DPOA Approval to Principal - Not Yet in Effect* letter to the Principal stating that the ▸DPOA is accepted and confirming that the determination of incompetence will occur in the future.
   - **Approved and the springing provisions are in effect** (acceptable documentation of incompetence has been received): Prepare an *eALG 594 DPOA Approval to Holder (Representative) - also Springing* letter to the Holder.
   - **Not approved** Prepare *eALG 597 Springing DPOA Rejection to Requestor* letter to the requestor stating the reason(s) the request is not approved. If the participant is currently alleged or known to be incompetent, customize the letter to suggest that a guardianship or conservatorship be pursued (an incompetent participant cannot execute a ▸power of attorney).
10. If the decision is to accept the ▸Durable POA, create the POA record in CRM using the *CRM Power of Attorney and Guardianship Data Entry Form* and forward for approval.

    POA authorizer will review and approve the request in CRM.
11. Image the final *Durable Power of Attorney Checklist* and the *CRM Power of Attorney and Guardianship Data Entry Form* (if applicable) to the participant's ▸IPS file including any supporting e-mail from OCC/PPD.

    (Do **not** image draft checklists and data entry forms.)
12. For any POA that is approved and currently in effect, update the customer's ▸Spectrum record to ensure that future correspondence is mailed in care of the Holder at his or her address.
13. For a POA that is temporary, if directed by the POA Coordinator, request a CRM alert advising of the expiration date.
14. Perform any actions requested at the time the POA is received provided they are authorized by the Springing DPOA and by policy – for example, change the address or bank information for PBGC payments, etc.
15. Update CRM and Spectrum to reflect the Springing DPOA is no longer in effect upon either of the following:
    - Revocation in writing by Principal or Holder (see TP 49.2 Process Power of Attorney Revocation)
    - Death of the Principal
16. Upon receipt of acceptable documentation of incompetency of the principal (as approved by CSD/FBA/PVA POA Coordinator):
    - Update **POA Status** in CRM to **Active**.

      POA Authorizer will review and approve the request in CRM.
    - Update the customer's Spectrum record to ensure that future correspondence is mailed in care of the Holder at his or her address.

Top of Page

**TP 49.1D POA Authorizing Language Examples**

**08/28/2015**

The following table lists examples of language for determining whether a ▶POA grants full PBGC Authority or requires referral to the OPSS POA-Guardianship mailbox.

| Example | Possible Authorizing Language in Power of Attorney (POA) | Comments/Explanation | Grants Full PBGC Authority |
|---|---|---|---|
| A | Make health care decisions on my behalf. | Health care ▶DPOAs are common and clearly do not grant holder authority to deal with PBGC with respect to the principal's pension.<br><br>It is not uncommon for a POA to authorize one or more parties to act on behalf of the principal with respect to health care matters and financial affairs so be alert for additional authorizing language. | No |
| B | Act on my behalf. | This does not clearly designate full authority.<br><br>As always, the POA must be read completely to determine whether there are specific authorities listed in the POA.<br><br>When this is the only language in a POA, refer to the OPSS POA-Guardianship mailbox. | Refer |
| C | I appoint MARY SMITH as my agent to manage and conduct all my affairs and act in all matters in my name and in my behalf. Such acts shall include: [a lengthy list of authorized actions follows] | The authority given is full or "sweeping," provided there is no language limiting the authority elsewhere in the POA.<br><br>Typically, the listing that follows this language illustrates "full," it does not serve to limit the authority.<br><br>Compare to examples D and E. | Yes |
| D | I appoint TOM JONES my true and lawful attorney in fact for me and in my name, place and stead, and on my behalf, and for my use and benefit<br><br>My representative shall exercise or perform any act, power, duty, right, or obligation whatsoever that I now have, or may hereafter acquire the legal right, power, or capacity to exercise or perform, in connection with, arising from, or relating to any person, items, transaction, thing, business property, real or personal, tangible or intangible, or matter whatsoever. [Followed by a lengthy list of specific powers.]" | The authority given is full, provided there is no language limiting the authority elsewhere in the POA.<br><br>The listing that follows this language illustrates "full."<br><br>Compare this to examples C and E. | Yes |
| E | I appoint MARY SMITH as my agent to manage and conduct all my affairs and act in in my name and in my behalf to | The authority given is probably limited to the language listed after "following actions" so authority for PBGC | No |

| | | | |
|---|---|---|---|
| | perform the following actions: | purposes will have to be identified from that listing.<br><br>This language by itself does not provide authority for PBGC purposes. When this is the only language in a POA, it does not have authorizing language for PBGC purposes.<br><br>Compare this to examples C and D. | |
| F | It is my intention to give my agent the broadest possible powers, and I confer on my agent the full power to do everything and anything requisite and necessary to be done as fully as I could do if personally present, with full power to act in my name. | The authority given is full or "sweeping" and provided there is no language limiting the authority elsewhere in the POA.<br><br>This type of statement may be towards the end of a POA and may appear in addition to specific authorities enumerated as a catch-all to clearly identify that full authority is granted. | Yes |
| G | "I grant to my Agent the power to:<br><br>Ask, demand, recover, collect, and receive each and every sum of money, debt, account, legacy, bequest, interest, dividend, annuity, and demand (which now is or hereafter shall become due, owing or payable) belonging to or claimed by me. | Gives authority to interact with PBGC with respect to the pension. | Yes |
| H | "I grant to my Agent the power to<br><br>"Sue for, or commence and prosecute legal actions pertaining to, any property of mine." | Gives authority to interact with PBGC with respect to the pension. | Yes |
| I | Engage in retirement plan transactions. | Gives authority to interact with PBGC with respect to the pension. Any similar language referencing retirement or pension funds may be acceptable. | Yes |
| J | Engage in beneficiary transactions. | Gives authority to interact with PBGC with respect to the pension. | Yes |
| K | Receive amounts due me from government agencies. | Gives authority to interact with PBGC with respect to the pension. | Yes |
| L | Apply to government agencies for benefits. | Gives authority to interact with PBGC with respect to the pension. | Yes |
| M | Deal with representatives of my pension plan. | Gives authority to interact with PBGC with respect to the pension. | Yes |
| N | Engage in banking transactions. | This language by itself is not clearly acceptable. When this is the only language in a POA, refer to the OPSS POA-Guardianship mailbox. | Refer |
| O | Engage in business transactions. | This language by itself is not clearly acceptable. When this is the only language in a POA, refer to the OPSS POA-Guardianship mailbox. | Refer |
| | | | |

| | | | |
|---|---|---|---|
| P | In the premises | This language by itself is not clearly acceptable. When this is the only language in a POA, refer to the OPSS POA-Guardianship mailbox. | Refer |

# TP 49.2 Process Power of Attorney Revocation

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process a power of attorney revocation. |
| **Guidance** | Policy 8.4-1 Power of Attorney |
| **Procedure Owner** | CSD/FBA/PVA POA Coordinator(s), EBLS/FBA/PBA/PVA |

A Principal may revoke a ▸power of attorney (POA) in writing, unless he or she is incompetent. PBGC operates under a principle of presumed capacity, presuming competence unless a determination of incompetence is made. All revocations require the review and concurrence of the ▸CSD/▸FBA/▸PVA POA Coordinator. Any proposed rejection of a POA revocation must be referred to headquarters (HQ) via the OPSS POA-Guardianship mailbox for concurrence or direction **before** rejecting. Upon concurrence on a written POA revocation, PBGC updates its records to reflect the agent(s) named in the POA documents are no longer authorized to represent the Principal in interactions with PBGC. Questions about responding to a revocation are sent to the OPSS POA-Guardianship mailbox.

This process does not apply when a new POA includes revocation of prior POAs. The acceptance letter to the Principal includes confirmation of the revocation.

1. If a customer requests during a telephone call that PBGC no longer honor a POA on file, advise the customer that the revocation must be submitted in writing.
2. Upon receipt of a letter or other document revoking a POA, determine whether the ▸participant is in multiple ▸plans trusteed by PBGC.
   - **Customer is not in multiple plans:** Proceed to step 3.
   - **Customer is in multiple plans:** Determine whether the plan is assigned to another office. If the participant is in multiple plans located in separate offices, immediately advise the CSD/FBA/PVA POA Coordinator for the office (s). The POA Coordinator will contact the respective CSD/FBA/PVA POA Coordinator(s) to coordinate the content and timing of responses.
3. Review the Principal's ▸IPS file to ensure that PBGC does not have any notification that the Principal is incompetent. If the file contains a notification of incompetency, contact the OPSS-POA Guardianship mailbox for direction before proceeding.
4. Verify that the revocation is signed by the Principal and clearly identifies the POA and/or agents to which it applies.
5. Complete the *POA Revocation Checklist* to document the determination of whether the POA is revoked and submit to the CSD/FBA/PVA POA Coordinator for concurrence.

   If the determination is that the POA revocation should be rejected, contact headquarters (HQ) via the OPSS POA-Guardianship mailbox for concurrence or direction **before** rejecting.
6. Once concurrence is received, image the checklist to the ▸IPS participant file.

   > **Note** Once a revocation is approved, do not release any information concerning the Principal to the agent(s) under the revoked POA. Refer all such requests to the Disclosure Division, ▸OGC.
7. Determine whether the POA information is present in ▸CRM:
   - If yes, update the **POA Status** to **Inactive** and update the **Inactivity Reason** to **Revoked**.
   - If no, proceed to the next step.
8. Update ▸Spectrum to reflect that the POA is no longer in effect.
9. Communicate to the Principal and former agent(s) that the POA has been revoked and PBGC will no longer honor any request from the former agent(s):
   - Issue a customized *eALG 589 POA Revocation Letter* to the Principal.
   - Issue a customized *eALG 588 POA Revocation Letter – Agent* to the former agent(s).

## TP 49.3 Process Guardianship and Conservatorship Requests

**09/30/2016**

| | |
|---|---|
| **Purpose** | To determine whether a request for guardianship or conservatorship can be recognized by PBGC, notify the requestor and take requested actions. |
| **Guidance** | 8.4-2 Guardianships and Conservatorships |
| **Procedure Owner** | CSD/FBA/PVA POA Coordinator(s), EBLS/FBA/PBA/PVA |

**EBLS/FBA/PBA/PVA**

1. Review the court documents to determine whether the information appears complete or whether additional information is needed. For example, pages are missing, or the court order provides that the guardianship is in effect upon issuance of letters of appointment or a bond.
   - Information appears complete: Proceed to step 2.
   - Information appears incomplete: Request the additional information and provide a reasonable period to respond, such as 30 days.
2. Review the customer's ▸IPS file to determine whether he or she is in more than one ▸plan and, if so, whether the plan is in another office.
   - If the participant is in more than one plan located in more than one office, immediately advise the ▸CSD/▸FBA/▸PVA ▸POA Coordinator, who will quickly contact the respective CSD/FBA/PVA POA Coordinator(s) to coordinate the content and timing of responses.
     - Determine whether the participant has any ▸powers of attorney or guardianships on file and identify any conflicts or discrepant information.
     - Continue the review, but include whether there is prior guardianship or a plan in more than one office when referring the guardianship to the CSD/FBA/PVA POA Coordinator for direction or concurrence.
3. Review the court document(s) to confirm the following information is included:
   - Name and address of the ▸Ward, the person for whom a ▸guardian or ▸conservator is appointed.
   - Name and address of the guardian(s) or conservator(s), the person(s) authorized to act on the Ward's behalf.

   > **Note** An entity or agency is sometimes named guardian rather than an individual. This is acceptable, however, PBGC will request the entity to identify in writing one or more specific individuals as authorized to act for the entity as guardian and to be notified in writing when these contacts change.
4. Review the court documents to confirm the guardian(s) are authorized to act on behalf of the participant with PBGC.

   In addition to noting the type of guardianship ordered, note any special language in the court documents about authority. There may be language limiting the guardian's authority with respect to the ward's pension payments. Most often, a guardian or conservator will have broad or complete authority with respect to the ward's financial matters. In these cases, authorizing language will be short and complete.
   - A guardian or conservator of the estate (or property) is acceptable for full authority, unless specifically limited.
   - A guardian of the person is most often not acceptable but some states **do** provide that a guardian or conservator over the person has some or all authority over finances under certain circumstances, such as when the ward has a small estate and no guardian of the estate was appointed.
     - If the court documents contain provisions reflecting full or partial financial authority, then PBGC may recognize that authority. It does not matter that the guardian or conservator is named "of the person" if the documents identify some financial authority.
     - If the court documents do not provide financial authority, refer to ▸OCC/▸PPD via the OPSS POA-Guardianship mailbox as a possible rejection.
5. Review the court document(s) to ensure they are valid or "authentic." Verify the court document(s) include the signature of the judge (or other court official, for example, Clerk of the Court), the date executed, the effective date of the appointment, if different, and a court seal or other signed certification.

- Verify the court seal is visible before imaging to IPS. If the ▸DMC imaged the document, DMC will have stamped the document indicating a court seal was visible.
- If a court document does not have a court seal, it may still be authentic and acceptable to PBGC if it has a signed certification.

  A signed certification is a stamp, sticker, box or other notation that is (1) signed by a court official, public agency employee, or custodian of records who is authorized to make the certification and (2) contains a certifying statement that the document is a true/correct/genuine/authentic copy of a court or public agency record.

6. If unable to verify court document(s) are authentic, contact the submitter, guardian, conservator and/or the issuing court.
   - Request by phone the court documents that contain the missing information. Send a letter confirming the conversation, as needed
   - Some courts will have information available online, which will be the most efficient way to verify authenticity. If able to find this information online, print the relevant information for the participant's file and reference it in the comments section of the *Guardianship and Conservatorship Checklist*.
   - If not available online, contact the court by phone and request an original copy of the court order or letters of guardianship. It is more likely that the court official will provide verbal confirmation from the court records that the guardianship is valid and currently in place or not. Information provided verbally is sufficient, provided the information is fully documented to the customer's record in ▸CRM and in the comments section of the *Guardianship and Conservatorship Checklist*. Include name, title, and phone number of the individual providing the information.
   - Wait approximately 30 days before processing without the requested information.
   - If the court documents cannot be verified as authentic, refer the case to OCC/PPD via OPSS POA-Guardianship mailbox as a possible rejection.
7. Determine whether the court order is permanent or temporary.
   - Permanent court order: Continue to step 7.
   - Temporary court order:
     - Note the expiration date.
     - When the expiration date is approaching (or has passed), contact the temporary guardian or conservator to inquire whether the temporary guardianship/conservatorship will be extended or when a permanent court order is expected.
     - Document the response to the participant's CRM records and/or IPS file, as appropriate.
     - If there are no pending action requests from the temporary guardian/conservator that necessitate immediate response on the order, consult with the local CSD/FBA/PVA POA Coordinator about delaying processing the temporary order pending receipt of the permanent order, if one is expected, and whether a permanent order is anticipated that will be accepted by PBGC.

       **Note** Do not delay when PBGC expects to reject the document(s).
8. If more than one guardian or conservator has been authorized to act on behalf of the participant with PBGC, determine whether the individuals may act jointly or individually:
   - **Joint authority language:**
     - joint
     - act together
     - the word "and" joins the named guardians/conservators
   - **Individual authority language:**
     - independent
     - joint and several
     - individual
     - several
     - the word "or" or "and/or" joins the named guardians/conservators
9. Complete the *Guardianship and Conservatorship Checklist* to document the results of the review and submit to the FBA/PVA/CSD POA Coordinator for concurrence or additional guidance. If proposing to accept the guardianship, also complete the *CRM Power of Attorney and Guardianship Data Entry Form* for each guardian or conservator. After

reviewing the material, if there are questions or uncertainly about whether one or more requirements are met, refer to the CSD/FBA/PVA POA Coordinator, who will either provide guidance or refer to OCC/PPD for guidance.

**CSD/FBA/PVA POA Coordinator(s)**

10. Review the proposed determination on the guardianship or conservatorship and proceed accordingly:
    - Do not concur with the proposed determination: Return to the processor for correction.
    - Concur with the proposed determination:
      - If the proposed conclusion is to accept and recognize the guardian(s):
        - Review and concur on the *Guardianship and Conservatorship Checklist* and the *CRM POA and Guardianship Data Entry Form.*
        - Return the documents to the processor to respond and continue processing.
      - If the proposed conclusion is **not** to accept and recognize the guardianship or conservatorship, or there are any questions about how to proceed, send an e-mail to PPD/OCC using OPSS POA-Guardianship mailbox requesting assistance with questions or concurrence on the proposed determination, as follows:
        - In the **Subject** line, enter `Last Name, First Name - Guardianship Issue`
        - In the **Content** field**:** `Describe the question or reason for proposed rejection, referencing relevant information in the document(s) and/or file.`
        - Add **attachments** to email: Attach an electronic version of the checklist, completed to date. For instances in which a referral is being made with questions, include the checklist completed as much as possible.
      - Obtain PPD/OCC concurrence or direction before proceeding.
11. Upon concurrence or direction from OCC/PPD, update and complete the checklist and *CRM Power of Attorney and Guardianship Data Entry Form*, sign and date the *Guardianship and Conservatorship Checklist* to indicate concurrence and communicate the determination or direction from OCC/PPD to the processor.

**EBLS/FBA/PBA/PVA**

12. If the decision is to accept guardianship or conservatorship, create the CRM record using the *CRM Power of Attorney and Guardianship Data Entry Form* and forward for approval.

    POA authorizer will review and approve the request in CRM.
13. Image the final *Guardianship and Conservatorship Checklist* and the *CRM Power of Attorney and Guardianship Data Entry Form* (if applicable) to the participant's IPS file including any supporting e-mail from OCC/PPD.

    (Do **not** image draft checklists or draft data entry forms.)
14. After receiving direction from the CSD/FBA/PVA POA Coordinator on the guardianship or conservatorship:
    - Approved:
      - Issue an *eALG 598 Guardianship/Conservatorship Approval to Holder (Representative)* letter, customizing as needed to address any limits on authority or timeframes.
      - Update the customer's ▶Spectrum record to ensure future correspondence is mailed to the guardian's or conservator's address.
    - Not approved: Issue an *eALG 599 Guardianship-Conservatorship Rejection to Holder (Representative)* letter.
15. Perform any actions the guardian or conservator requested at the time the request was received (for example, change the address or bank information) provided they have the authority.
16. Update CRM and Spectrum to reflect the guardianship or conservatorship is no longer in effect upon any of the following:
    - Expiration of the court order
    - A new court order or letters of guardianship supersedes the previous court order
    - Death of the Ward

## TP 49.4 Process Assertions of Incapacity

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether a correspondence is Non-Medical Correspondence Concerning Capacity or Medical Correspondence Concerning Capacity and take necessary actions. |
| **Guidance** | N/A |
| **Procedure Owner** | CSD/FBA/PVA POA Coordinator, OCC, PPD |

There are situations in ▸POA and Guardianship processing in which the capacity or incapacity of a customer is important. A customer or principal's signature on any document is acceptable if the individual has the capacity to take that action. A customer is presumed to have the capacity to execute any document ▸CSD receives or requires them to sign, absent documentation indicating incapacity or allegations of incapacity. This is referred to as "presumption of capacity." When PBGC is provided with written documentation regarding a customer's medical status or alleged incapacity, CSD reviews the information provided and responds as appropriate, in consultation with ▸OCC as needed.

The mere mention of a diagnosis of a mental illness (for example, Alzheimer's, dementia, or schizophrenia) does not alone indicate incapacity. The incapacity of the individual is based on the effect of the illness on the individual and, more specifically, the impact on the customer's ability to handle his or her affairs. In situations in which an individual is determined to be incapacitated for one or more reasons, documentation of incapacity will consist of written statements from licensed physicians describing the effect of the illness(es) on the patient's abilities to handle his or her affairs.

PBGC sometimes receives an allegation of a customer's incapacity that may allege some type of fraud or undue influence regarding POA execution or revocation, which may indicate family conflict. For example, a relative may state, "My father has Alzheimer's and does not know what he is signing." These situations are not routine and should always be referred to the OPSS POA-Guardianship mailbox for review and guidance.

PBGC categorizes the communications it receives regarding capacity issues as Non-Medical Correspondence Concerning Capacity and Medical Correspondence Concerning Capacity, and responds based on the communication type and the customer's scenario.

- **Non-Medical Correspondence Concerning Capacity** is a communication from a non-medical professional (for example, a family member) that mentions the customer has a potentially incapacitating disease. The communication may include the person's opinion of the impact the disease has on the customer's ability to handle his or her affairs. See TP 49.4A Non-Medical Correspondence Concerning Capacity.

  Examples:

  - "I am helping my mother, she has Alzheimer's."
  - "I am assisting my uncle who has dementia and is in a nursing home, and is no longer able to handle his financial affairs."
  - "My brother has schizophrenia and I assist him as he is not capable of handling paperwork."
- **Medical Correspondence Concerning Capacity** is a communication from a medical professional referencing a diagnosis of a potentially incapacitating disease **and** the impact on the customer. See TP 49.4B Medical Correspondence Concerning Capacity.

  Examples:

  - "John Doe is my patient. He has dementia and is no longer capable of handling his financial affairs."
  - PBGC receives a copy of an SSA Form 787 on which a medical doctor has indicated the customer is NOT able to manage funds.

In responding to POAs or guardianships that have been provided to PBGC, there may be instances in which CSD receives unsolicited non-medical or medical correspondence about capacity and other instances in which CSD may have solicited the correspondence. Regardless of whether CSD requested the information, CSD reviews the correspondence, determines the impact (if any) on the customer with PBGC, and responds as necessary.

TP 49.4A Non-Medical Correspondence Concerning Capacity
TP 49.4B Medical Correspondence Concerning Capacity

Top of Page

**TP 49.4A Non-Medical Correspondence Concerning Capacity**

**03/30/2015**

The following table outlines some guided scenarios on how to proceed with allegations of incapacity after first determining whether the correspondence is Non-Medical Correspondence Concerning Capacity. Contact the OPSS POA-Guardianship mailbox for further guidance.

| Non-Medical Correspondence Concerning Capacity | | | |
|---|---|---|---|
| | **POA Status** | **Processing Action** | **Comments/Explanation** |
| A | ▸Non Durable Power of Attorney (NDPOA) under review | Process the NDPOA. | The information received is not indicative of incapacity. PBGC continues to operate under a presumption of capacity with respect to this customer. |
| B | NDPOA previously accepted on file | Acknowledge the correspondence. No follow up action required. | The information received is not indicative of incapacity. PBGC continues to operate under a presumption of capacity with respect to this customer. |
| C | ▸Durable Power of Attorney (DPOA) under review | Process the DPOA.<br>**Note** If additional documents that require a current signature such as a principal's notice or a new DPOA are needed, they may be requested from the customer. | The information received is not indicative of incapacity. PBGC continues to operate under a presumption of capacity with respect to this customer. This means the customer has capacity to sign any necessary document. |
| D | DPOA previously accepted on file | Acknowledge the correspondence. No follow up action required. | The information received is not indicative of incapacity. PBGC continues to operate under a presumption of capacity with respect to this customer. An incapacity determination would not impact the operation of the DPOA **unless** it had special provisions that only operate in the event of incapacity. With respect to any special provisions contingent upon a determination of incapacity, process like an SDPOA previously accepted on file – not yet in effect. |
| E | ▸Springing Durable Power of Attorney (SDPOA) under review | Process the SDPOA.<br>**Note** If additional documents that require a current signature such as a principal's notice or a new SDPOA are needed, they may be requested from the customer. | Normal SDPOA processing includes advising principal and agent in writing what is required for the agent's authority outlined in the document to be in effect. |
| F | SDPOA previously accepted on file – not yet in effect | Contact the filer to determine if they are attempting to spring the SDPOA and review the requirements per the SDPOA.<br>**Note** The acceptance letter previously issued would have the requirements. | The agent may not realize the specific requirements in the SDPOA, which typically will be one or more written statements from medical professionals. |
| G | SPOA previously accepted on file – in effect | Acknowledge the correspondence. No follow up action required. | The SDPOA is already in effect, so the participant's file already includes sufficient medical information to have |

| | | | |
|---|---|---|---|
| | | | sprung the SDPOA. |
| H | NDPOA or DPOA received for review | Acknowledge the correspondence. No follow up action required. | The information received is not indicative of incapacity. PBGC continues to operate under a presumption of capacity with respect to this customer. |
| I | No ▶POA on file | 1. Contact customer or submitter.<br>• Request purpose of correspondence.<br>• Inquire if a POA or court ordered guardianship exists that they wish to file with PBGC.<br>2. Document the call. | N/A |

Top of Page

**TP 49.4B Medical Correspondence Concerning Capacity**

**03/30/2015**

The following table outlines some guided scenarios on how to proceed with allegations of incapacity after first determining whether the correspondence is Medical Correspondence Concerning Capacity. Contact the OPSS POA-Guardianship mailbox for further guidance.

| **Medical Correspondence Concerning Capacity** | | | |
|---|---|---|---|
| | **POA Status** | **Processing Action** | **Comments/Explanation** |
| A | ▶Non Durable Power of Attorney (NDPOA) under review | Refer to the OPSS POA-Guardianship mailbox for further guidance. | N/A |
| B | NDPOA previously accepted on file | 1. Inform the agent that they no longer are authorized to act under the NDPOA due to the incapacity of the principal. Advise that a court-ordered guardianship may be necessary for the principal, unless a DPOA executed prior to the incapacity date is available.<br>2. If the NDPOA was entered into ▶CRM, update CRM to change status to inactive. | The NDPOA terminates upon incapacity of the principal and the agent is no longer able to act for the principal.<br>If an effective date for the incapacity is not in the text of the letter, use the date of the letter. |
| C | ▶Durable Power of Attorney (DPOA) under review | Compare the effective date of incapacity to the date the DPOA was executed:<br>• If the DPOA was executed on or after the effective date of the medical correspondence, refer to the OPSS POA-Guardianship mailbox.<br>• If the DPOA was executed before the effective date of the medical correspondence, process the DPOA. | If an effective date for the incapacity is not in the text of the letter, use the date of the letter.<br>While the information received is indicative of possible incapacity, a DPOA is valid after the principal is incapacitated so it does not invalidate a DPOA unless the DPOA was executed when the principal was possibly incapacitated. |
| D | DPOA previously accepted in file | Compare the effective date of incapacity to the date the DPOA was executed:<br>• If the DPOA was executed on or after the effective date of the medical correspondence, refer to the OPSS POA-Guardianship mailbox.<br>• If the DPOA was executed before the effective date of the medical correspondence, acknowledge the correspondence. No additional follow up action required. | If an effective date for the incapacity is not in the text of the letter, use the date of the letter.<br>While the information received is indicative of possible incapacity, a DPOA is valid after the principal is incapacitated so it does not invalidate the previously accepted DPOA unless the DPOA was executed when the principal was possibly incapacitated. |
| E | ▶Springing Durable Power of Attorney (SDPOA) under review | Compare the effective date of incapacity to the date the SDPOA was executed:<br>• If the SDPOA was executed on or after the effective date of the medical correspondence, refer to the OPSS POA-Guardianship | If an effective date for the incapacity is not in the text of the letter, use the date of the letter.<br>While the information received is indicative of possible incapacity, a DPOA is valid after the principal is incapacitated so it does not invalidate |

| | | | |
|---|---|---|---|
| | | mailbox.<br>• If the SDPOA was executed before the effective date of the medical correspondence, process the SDPOA normally. | the previously accepted DPOA unless the DPOA was executed when the principal was possibly incapacitated.<br>Depending on the language in the SDPOA, the medical correspondence may be sufficient to spring the document. |
| F | SDPOA previously accepted on file – not yet in effect | Review the correspondence against the requirements in the SDPOA to spring the document:<br>• If acceptable, write the agent confirming the provisions have sprung. If the SDPOA was entered into CRM, update CRM to change status to active.<br>• If not acceptable, write the agent advising what is necessary to spring the SDPOA. | The agent may not realize the specific requirements in the SDPOA. |
| G | SPOA previously accepted on file – in effect | Acknowledge the correspondence. No follow up action required. | The SDPOA is already in effect, so the participant's file already includes sufficient medical information to have sprung the SDPOA. |
| H | No ▶POA on file | 1. Contact customer or submitter.<br>• Request purpose of correspondence.<br>• Inquire if a POA or court ordered guardianship exists that they wish to file with PBGC.<br>2. Document the call. | N/A |

# TP 49.6 Special Rules for DPOAs

**03/30/2015**

**In this Section**

TP 49.6A Special State Rules for DPOAs
TP 49.6B Special Foreign Rules for DPOAs

**TP 49.6A Special State Rules for DPOAs**

**03/30/2015**

See below for special rules for durable powers of attorney (DPOAs) executed in the following states:

## ALABAMA

**09/26/2013**

**Statutory Cite**: § 26-1A-105

**Effective for DPOAs executed on or after January 1, 2012:**

Durability - presume the document is durable unless it has language indicating it is not.

Signature – the principal must sign and date the DPOA or it may be signed and dated by another individual directed by the principal to sign the principal's name.

**Effective for DPOAs executed before January 1, 2012:**

Durability – a durability clause is required to be recognized as a DPOA.

## ARIZONA

**08/28/2014**

**Effective for DPOAs executed on or after August 1, 1998,**

1. Notary required.
2. Witness required who is not (a) the agent (representative), (b) the agent's spouse, (c) the agent's child, or (d) the notary.
3. The principal must confirm signing of the DPOA was voluntary by signing the precise statement below.
4. The witness must confirm signing of the DPOA was voluntary by signing the precise statement below.

**Principals Statement:**

I, _____, the principal, sign my name to this power of attorney this _____ day of _____ and, being first duly sworn, do declare to the undersigned authority that I sign and execute this instrument as my power of attorney and that I sign it willingly, or willingly direct another to sign for me, that I execute it as my free and voluntary act for the purposes expressed in the power of attorney and that I am eighteen years of age or older, of sound mind and under no constraint or undue influence.

_____Principal

**Witness Statement (needs to be notarized):**

I, _____, the witness, sign my name to the foregoing power of attorney being first duly sworn and do declare to the undersigned authority that the principal signs and executes this instrument as the principal's power of attorney and that the principal signs it willingly, or willingly directs another to sign for the principal, and that I, in the presence and hearing of the principal, sign this power of attorney as witness to the principal's signing and that to the best of my knowledge the principal is eighteen years of age or older, of

sound mind and under no constraint or undue influence.

_____Witness

Notary block (public certificate, under official seal)

**Effective for DPOAs executed on or after April 23, 1996:**

1. Notary required.
2. Witness required who is not (a) the agent (representative), (b) the agent's spouse, (c) the agent's child, or (d) the notary.

**Effective for DPOAs executed on or after July 13, 1995:**

Notary required.

## ARKANSAS

**08/28/2014**

**Statutory Cite: (A.C.A. § 28-68-106)**

**Effective for DPOAs executed on or after January 1, 2012:**

1. **Durability clause** – presume the document is durable unless it has language indicating it is not.
2. **Special Authorities:** The following authorities require a specific/express grant of authority. Therefore, if the DPOA fulfills the requirements of applicable state law but one or more of these authorities are not specifically mentioned, the acceptance letter should clearly specify which of these authorities are not granted and why.
   a. create or change rights of survivorship*;
   b. create or change a beneficiary designation*;
   c. delegate authority granted under the power of attorney; and
   d. waive the principal's right to be a beneficiary of a joint and survivor annuity, including a survivor benefit under a retirement plan.

   *If a POA does not expressly grant an agent these authorities, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify these restrictions.

**Effective for DPOAs executed before January 1, 2012:**

1. **Durability clause** – a durability clause is required.
2. **Witness requirements** – Two Witnesses or a Notary are required.

## CALIFORNIA

**09/26/2013**

**Statutory Cite:** Cal. Prob. Code §§4121 (effective 04/01/2000; no change to law as of 02/04/2013) and 4404 (effective 07/20/1994; no change to law as of 02/04/2013).

## COLORADO

**09/26/2013**

**Effective for DPOAs executed on or after January 1, 2010:**

Durability - presume the document is durable unless it has language indicating it is not.

**Effective for DPOAs executed before January 1, 2010:**

Durability clause – a durability clause is required.

## DELAWARE

**08/28/2014**

**Effective for DPOAs executed on or after October 1, 2010.**

1. Durability – a durability clause is required to be recognized as a DPOA.
2. Principal's signature must be signed in the presence of a notary. Acknowledgment by a notary, which may be dated later than the date the principal signed the POA, is **not** acceptable.
3. Principal's signature must have at least one witness. This witness may not be not related by blood, marriage or adoption to the principal nor entitled to any portion of the estate.
4. **Spouse as agent** – The agency of a spouse terminates automatically when an action for a legal divorce or legal separation is filed, unless the POA states otherwise. If a POA named a successor agent, that agent may assume authority. Therefore, if PBGC knows that an agent is the spouse of the principal, include a statement in the POA acceptance letter to the principal that they should notify PBGC if any of these events occur, so we may update our POA records accordingly.
5. **Notice to Principa**l – A sample notice to the Principal is included in Delaware POA law, but is not required.
6. **Agent Certification** – A sample agent certification is provided in Delaware POA law, but is not required.
7. **Authorities – A DPOA MAY use a sweeping statement to convey authority, however, certain authorities are not encompassed by this sweeping statement.**
8. **Special authorities are granted only if specifically mentioned in the document.** When reviewing a DPOA, look for specific language mentioning these authorities (see below). If the authorities are not expressly written into the document, they are not granted. Therefore, if the DPOA fulfills the requirements of applicable state law but one or more of these authorities are not specifically mentioned, the acceptance letter should clearly specify which of these authorities are not granted and why.
    a. Create or change rights of survivorship*;
    b. Create or change a beneficiary designation*; and
    c. Delegate authority under the POA.

*If a POA does not expressly grant an agent these authorities, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify these restrictions.

**Effective for DPOAs executed before October 1, 2010.**

1. Durability – a durability clause is required to be recognized as a DPOA.
2. Notary not required.
3. Witness not required.
4. Notice to Principal not required.

5. Agent Certification is not required.
6. Sweeping statement of authority is acceptable to convey all authorities.

**FLORIDA**

**08/28/2014**

**Effective for DPOAs executed on or after October 1, 2011:**

1. **Springing DPOAs are not permitted.** A POA containing language that the POA springs into effect upon the principal's incapacity is not valid under FLA law and will not be accepted by PBGC.
2. **Notary Required.** Principal's signature must be acknowledged by a notary, which may be dated later than the date the principal signed the POA.
3. **Witnessing requirements. Principal's signature must have at least two witnesses.**
4. **Durability statement is required.**
5. **Multiple Agents.** When more than one agent is named, any agent may act independently unless the DPOA explicitly states otherwise. An explicit statement will be more than the use of joining words such as "and." If a FLA DPOA appears to specify multiple agents have joint authority, identify (highlight in image viewer) this explicit language in the DPOA and note its location on the review checklist. All acceptance letters for DPOAs with multiple agents identify whether the authority is joint or independent.
6. **Authorities** – **A DPOA may NOT use a sweeping statement to convey "all" authority. Authorities** must be specified. When reviewing a FLA DPOA, look for specific authorizing language. Process as a rejection if the document appears to **ONLY** contain sweeping language with respect to authority.
7. **Special authorities are granted only if specifically mentioned in the document with the principal's signature or initials for the certain authorities.** When reviewing a DPOA, look for specific language for these authorities (see below) and the signature or initials of the principal next to each authority. If a special authority is not specifically mentioned, and signed or initialed, it is not granted. Therefore, if the DPOA fulfills the requirements of applicable state law but one or more of these authorities are not specifically mentioned, the acceptance letter should clearly specify which of these authorities are not granted and why.
    a. Create or change a beneficiary designation*; and
    b. Waive the principal's right to be a beneficiary of a joint and survivor annuity, including a survivor benefit under a retirement plan.

*If a POA does not expressly grant an agent these authorities, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify these restrictions.

**Comparison of FLA DPOA laws applicable**

| **Florida POAs executed before 10/01/2011:** | **Florida POAs executed after 10/01/2011:** |
|---|---|
| Two subscribing witnesses required. | Two subscribing witnesses required. |
| No need to be acknowledged by notary. | Acknowledged by the principal before notary. |
| Durability clause required. | Durability clause required. |
| Springing POA permitted. | Springing POA not permitted. |
| Multiple agents named may act jointly or independently. | Multiple agents named may act with independent authority unless joint authority specified in document. |
| Sweeping provisions for authority valid. | Sweeping provisions for authority invalid. |
| No separate signed enumeration required for | Separate signed enumeration required before |

| | |
|---|---|
| "superpowers." | certain "superpowers" can be granted. |

**IDAHO**

**09/26/2013**

**Effective for DPOAs executed after July 1, 2008:**

Durability - presume the document is durable unless it has language indicating it is not.

**Effective for DPOAs executed before January 1, 2008:**

Durability – a durability clause is required.

**ILLINOIS**

**11/21/2014**

**Effective for DPOAs executed on or after September 1, 1989.**

1. Durability statement is not required. (755 ILCS § 45/2-5, effective September 1, 1989)
2. Notary required. Acknowledgement by a notary of principal's signature is acceptable, or the notary may witness the signature. (755 ILCS § 45/3-3, effective September 1, 1989)
3. One witness is required. Witness or notary may not be any of the following (755 ILCS § 45/3-3.6, effective July 1, 2011) :
   a. The notary.
   b. Attending physician or health care provider of the principal, or relative of either.
   c. Owner or operator or relative of health care facility in which principal is a resident (extends to directors and executive officers of an operator that is a corporate entity but not to other employees of the operator).
   d. Agent or successor agent.
   e. Parent, sibling, or descendant (or spouses) of principal, agent or successor agent.
4. If three or more co-agents are named and the document does not state otherwise, then they can only exercise authority by their majority consent. (755 ILCS § 45/2-10.5, effective July 1, 2011)
5. **A DPOA may use a sweeping statement to convey authority; however, certain authorities are not encompassed by this sweeping statement.**
6. Special authorities are granted only if specifically mentioned in the document. When reviewing a DPOA, look for specific language for these authorities (see below). If the authorities are not expressly written into the document, they are not granted. Therefore, if the DPOA fulfills the requirements of applicable state law but one or more of these authorities are not specifically mentioned, the acceptance letter should clearly specify which of these authorities are not granted and why.
   a. Pay oneself (agent cannot accept payment from the principal unless there is specific authority for this in the document);
   b. Name or change a beneficiary designation made by the principal*; and
   c. Delegate authority under the POA. (*In re Estate of Nicholls v. Nicholls*, 960 N.E. 2d 78 (Ill. App. 2011) (holding that power of attorney must be strictly construed and could not be read to grant the power to change beneficiary designations unless such conduct was expressly allowed under the terms of the document). *See also* 755 ILCS § 45/2-9; 755 ILCS § 45/3-3-4 (statutory short form provides sample language where a principal can choose to expressly grant authority to "name or change beneficiary designations") (effective September 1, 1989).
7. Notice to the Principal is not required. The statutory short form POA does require this. However, third

parties who rely on properly executed Illinois statutory forms have protection from liability if the agent abuses his power. This is not always the case with nonstatutory forms. 755 ILCS § 45/3-3, effective September 1, 1989).

8. Notice to Agent is not required, see below. *Id*.
9. **Spouse as agent** – The agency of a spouse terminates automatically at the divorce, legal separation or death of the spouse. (755 ILCS § 45/2-6, effective September 1, 1989). Therefore, if PBGC knows that an agent is the spouse of the principal, include a statement in the POA acceptance letter to the principal that they should notify PBGC if any of these events occur, so we may update our POA records accordingly.

*If a POA does not expressly grant an agent these authorities, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify these restrictions.

**KENTUCKY**

**11/30/2010**

Kentucky provides that if a Springing DPOA becomes effective upon the principal's incompetence but does not specify who is to make the incapacity determination, two (2) physicians "licensed to practice medicine" must make a written determination that the principal is "unable . . . to prudently manage or care for [his (her)] person or property."

**LOUISIANA**

**09/26/2013**

Durability - presume the document is durable unless it has language indicating it is not.

**Note:** A Louisiana DPOA may use different terminology than other states, including the following:

- Mandate for DPOA
- Mandatory for representative
- Appearer for principal

**MAINE**

**08/28/2014**

**Effective for DPOAs executed on or after July 1, 2010:**

1. **Durability** – presume the document is durable unless it has language indicating it is not.
2. **Spouse as agent:** The agency of a spouse terminates automatically at the divorce or legal separation. If a POA named a successor agent, that agent may assume authority. Therefore, if PBGC knows that an agent is the spouse of the principal, include a statement in the POA acceptance letter to the principal that they should notify PBGC if any of these events occur, so we may update our POA records accordingly.
3. **Notary** (or other) acknowledgement required.
4. Certain other individuals are authorized by law to take an acknowledgement including:
    a. Judges, or
    b. clerk or deputy clerk of a court of record.

5. **Certain authorities are granted only if specifically mentioned in the document.** When reviewing a ▶DPOA, look for specific language for these (see below) authorities. If the authorities are not specifically mentioned, they are not granted. Therefore, if the DPOA fulfills the requirements of applicable state law but one or more of these authorities are not specifically mentioned, the acceptance letter should clearly specify which of these authorities are not granted and why.
    a. Create or change rights of survivorship*;
    b. Create or change a beneficiary designation*; and
    c. Delegate authority under the POA.
6. Requires Notice to the Principal, see below.
7. Requires Notice to Agent, see below.

* If a POA does not grant an agent these authorities, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify these restrictions.

**Effective for DPOAs executed before July 1, 2010:**

1. Durability – a durability clause is required to be recognized as a DPOA.
2. Notice to Principal, see below.
    a. If a Maine DPOA fails to meet the above Notice requirement, follow the steps set out below for Pennsylvania DPOAs that do not meet that State's Notice requirement: (1) attempt to secure a valid Notice executed at the same time as the rest of the DPOA; (2) if no such contemporaneous Notice is available and the principal is not incapacitated, ask him/her to execute a current Notice stating that (s)he wishes the original DPOA to remain effective; and finally (3) if no contemporaneous DPOA is available and the principal is incapacitated, apply the "Fitz inquiry" described below for Pennsylvania DPOAs.
3. Notice to Agent, see below.
    a. The agent's acknowledgement does not have to be signed.

**Notice to the Principal (Maine)**

Maine requires that all DPOAs dealing with the principal's finances (including most DPOAs submitted to the PBGC) must include a NOTICE to the principal and a NOTICE to the agent of his (her) legal responsibilities as an agent. The required NOTICE to the principal should substantially follow the following form (i.e., the word "property" could be substituted by the word "money"):

**Notice to the Principal:** As the "Principal" you are using this power of attorney to grant power to another person (called the Agent) to make decisions about your property and to use your property on your behalf. Under this power of attorney you give your Agent broad and sweeping powers to sell or otherwise dispose of your property without notice to you. Under this document your Agent will continue to have these powers after you become incapacitated. The powers that you give your Agent are explained more fully in the Maine Uniform Power of Attorney Act, Maine Revised Statutes, Title 18-A, Article 5, Part 9. You have the right to revoke this power of attorney at any time as long as you are not incapacitated. If there is anything about this power of attorney that you do not understand you should ask a lawyer to explain it to you.

**Notice to Agent (Maine)**

Maine requires that all DPOAs dealing with the principal's finances (including most DPOAs submitted to the PBGC) must include a NOTICE to the principal and a NOTICE to the agent of his (her) legal responsibilities as an agent.

**Notice to the Agent:** As the "Agent" you are given power under this power of attorney to make decisions about the property belonging to the Principal and to dispose of the Principal's property on the Principal's behalf in accordance with the terms of this power of attorney. This power of attorney is valid only if the Principal is of sound mind when the Principal signs it. When you accept the authority granted under this

power of attorney a special legal relationship is created between you and the Principal. This relationship imposes upon you legal duties that continue until you resign or the power of attorney is terminated or revoked. The duties are more fully explained in the Maine Uniform Power of Attorney Act, Maine Revised Statutes, Title 18-A, Article 5, Part 9 and Title 18-B, sections 802 to 807 and Title 18-B, chapter 9. As the Agent, you are generally not entitled to use the Principal's property for your own benefit or to make gifts to yourself or others unless the power of attorney gives you such authority. If you violate your duty under this power of attorney you may be liable for damages and may be subject to criminal prosecution. You must stop acting on behalf of the Principal if you learn of any event that terminates this power of attorney or your authority under this power of attorney. Events of termination are more fully explained in the Maine Uniform Power of Attorney Act and include, but are not limited to, revocation of your authority or of the power of attorney by the Principal, the death of the Principal or the commencement of divorce proceedings between you and the Principal. If there is anything about this power of attorney or your duties under it that you do not understand you should ask a lawyer to explain it to you.

**▼MICHIGAN**

**11/26/2013**

**Effective for DPOAs executed on or after October 1, 2012:**

1. Durability statement is required.
2. A witness or notary is required.
3. A notary may sign **for** the principal. Consult with HQ via OPSS POA-Guardianship mailbox for direction, if a MI ▶POA appears to have a notary signing for a principal.
4. An agent's acknowledgement is required, that substantially follows the form below.

**Agents Acknowledgement (Michigan)**

Acknowledgement by Attorney-in-Fact

I, ..... , have been appointed as attorney-in-fact for ..... the principal, under a durable power of attorney dated .... By signing this document, I acknowledge that if and when I act as attorney-in-fact, all of the following apply:

(a) Except as provided in the durable power of attorney, I must act in accordance with the standards of care applicable to fiduciaries acting under durable powers of attorney.

(b) I must take reasonable steps to follow the instructions of the principal.

(c) Upon request of the principal, I must keep the principal informed of my actions. I must provide an accounting to the principal upon request of the principal, to a guardian or conservator appointed on behalf of the principal upon the request of that guardian or conservator, or pursuant to judicial order.

(d) I cannot make a gift from the principal's property, unless provided for in the durable power of attorney or by judicial order.

(e) Unless provided in the durable power of attorney or by judicial order, I, while acting as attorney-in-fact, shall not create an account or other asset in joint tenancy between the principal and me.

(f) I must maintain records of my transactions as attorney-in-fact, including receipts, disbursements, and investments.

(g) I may be liable for any damage or loss to the principal, and may be subject to any other available remedy, for breach of fiduciary duty owed to the principal. In the durable power of attorney, the principal may exonerate me of any liability to the principal for breach of fiduciary duty except for actions committed by me in bad faith or with reckless indifference. An exoneration clause is not enforceable if inserted as the result of my abuse of a fiduciary or confidential

relationship to the principal.

(h) I may be subject to civil or criminal penalties if I violate my duties to the principal.

Signature: ..... Date: .....

**Effective for DPOAs executed before October 1, 2012:**

1. Durability statement is required.
2. A witness or notary is required.

**MONTANA**

**08/28/2014**

**Effective for DPOAs executed on or after January 1, 2012:**

1. **Durability** – presume the document is durable unless it has language indicating it is not.
2. **Authorities** – A DPOA may use a sweeping statement to convey authority, although this statement will not include certain authorities, see below. If the DPOA's authorizing language appears only contains sweeping language it may be approved, however, note the special authorities below.
3. **Special authorities are granted only if specifically mentioned in the document.** When reviewing a DPOA look for special language for these authorities (see below). If the authorities are not specifically mentioned, they are not granted. Therefore, if the DPOA fulfills the requirements of applicable state law but one or more of these authorities are not specifically mentioned, the acceptance letter should clearly specify which of these authorities are not granted and why.
   a. Create or change a beneficiary designation*; and
   b. Waive the principal's right to be a beneficiary of a joint and survivor annuity, including a survivor benefit under a retirement plan.

*If a POA does not expressly grant an agent these authorities, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify these restrictions.

**NEBRASKA**

**09/26/2013**

**Effective for DPOAs executed on or after January 1, 2013:**

1. Durability - presume the document is durable unless it has language indicating it is not.
2. Notary required.
3. Other individuals may perform the notary's function of taking an acknowledgement, including:
   a. judges,
   b. clerk or deputy clerk of a court, and
   c. commissioned officer in active service with the Armed Forces.

**NEVADA**

**09/26/2013**

**Effective for DPOAs executed on or after October 1, 2009:**

Durability - presume the document is durable unless it has language indicating it is not.

**Effective for DPOAs executed before October 1, 2009:**

Durability – a durability clause is required to be recognized as a DPOA.

## NEW HAMPSHIRE

**08/28/2014**

**Effective for DPOAs executed on or after May 31, 2005:**

1. **Principal's Notice** – The power of attorney must include a NOTICE to the principal which the principal must sign and date, see below.
2. **Agent's Acknowledgement** – The agent (whether original, alternate or successor agent) may **not** exercise authority granted in a New Hampshire power of attorney unless the agent has signed the power of attorney, attesting as provided below.

   The agent's acknowledgement does not have to be signed concurrently with the DPOA. Therefore, if reviewing a DPOA that does not include the agent's acknowledgement, PBGC will request a copy from principal and/or agent, so that a "complete" review may be done. Until a signed acknowledgement is received, PBGC will not recognize the agent.

**Notice to the Principal:** As the "Principal," you are using this Durable Power of Attorney to grant power to another person (called the "Agent" or "Attorney in Fact") to make decisions, including, but not limited to, decisions concerning your money, property, or both, and to use your money, property, or both on your behalf. If this written Durable Power of Attorney does not limit the powers that you give to your Agent, your Agent will have broad and sweeping powers to sell or otherwise dispose of your property, and to spend your money without advance notice to you or approval by you. Under this document, your agent will continue to have these powers after you become incapacitated, and unless otherwise indicated your Agent will have these powers before you become incapacitated. You have the right to retain this Power and not to release this Power until you instruct your attorney or any other person who may hold this Power of Attorney to so release it to your Agent pursuant to written instructions. You have the right to revoke or take back this Durable Power of Attorney at any time, so long as you are of sound mind. If there is anything about this Durable Power of Attorney that you do not understand, you should seek professional advice.

**Agent's Acknowledgement.** The agent (whether original, alternate or successor agent) may not exercise authority granted in a New Hampshire power of attorney unless the agent has signed the power of attorney, attesting that:

I, _____, have read the attached power of attorney and am the person identified as the Agent for the Principal. I hereby acknowledge that when I act as Agent or "attorney in fact,"; I am given power under this Durable Power of Attorney to make decisions about money, property, or both belonging to the Principal, and to spend the Principal's money, property, or both on the Principal's behalf, in accordance with the terms of this Durable Power of Attorney. This Durable Power of Attorney is valid only if the Principal is of sound mind when the Principal signs it. When acting in the capacity of Agent, I am under a duty (called a "fiduciary duty") to observe the standards observed by a prudent person, which means the use of those powers that is reasonable in view of the interests of the Principal and in view of the way in which a person of ordinary judgment would act in carrying out that person's own affairs. If the exercise of my acts is called into question, the burden will be upon me to prove that I acted under the standards of a fiduciary. As the Agent, I am not entitled to use the money or property for my own benefit or to make gifts to myself or others unless the Durable Power of Attorney specifically gives me the authority to do so. As the Agent, my authority under this Durable Power of Attorney will end when the Principal dies and I will not have authority to manage or dispose of any property or administer the estate unless I am authorized to do so by a New Hampshire Probate Court. If I violate my fiduciary duty under this Durable Power of Attorney, I may be liable for damages and may be subject to criminal prosecution. If there is anything about this Durable Power of Attorney, or my duties under it, that I do not understand, I understand that I should seek professional advice.

_____Agent

## NEW JERSEY

**09/26/2013**

**Effective for DPOAs executed on or after November 1, 2007:**

1. Notary of principal's signature must contain notary's certification that:
   a. the principal personally appeared before the notary; and
   b. the notary was satisfied that the person who appeared before him was the person who executed the ▸DPOA. N.J. Stat. § 46:2B-8.9 (referencing N.J. Stat. § 46:14-2.1).
2. Certain other persons (officers of the State) may perform the notary's function of taking an acknowledgement, including:
   a. any attorney-at-law;
   b. county clerk or deputy county clerk,
   c. register of deeds and mortgages or a deputy register, or
   d. A surrogate or deputy surrogate, or a justice or judge.

N.J. Stat. § 46:14-6.1

## NEW MEXICO

**08/28/2014**

**Effective for DPOAs executed on or after July 1, 2007 (law passed 01/01/2012)***

Durability – presume the document is ▸durable unless it has language indicating it is not.

**Effective for DPOAs before July 1, 2007**

Durability – a durability clause is required to be recognized as a ▸DPOA.

## NEW YORK

**09/26/2013**

**Statutory Cite:** § 5-1501A.

**Effective for DPOAs executed on or after September 1, 2009:**

1. **Durability** - presume the document is ▸durable unless it has language indicating it is not.
2. **Specific Notice and Acknowledgements –**

The ▸power of attorney must be signed and dated by the principal, duly acknowledged, signed and dated by the agent, and contain the **exact wording** (typos, capitalization, and differences in outline numbering/headings are okay **but wording needs to be verbatim**) of provisions from the statute as follows below. NY CLS Gen. Oblig. § 5-1501B.

Caution to the Principal wording under NY CLS Gen Oblig § 5-1513(a):

(a) CAUTION TO THE PRINCIPAL: Your Power of Attorney is an important document. As the "principal," you give the person whom you choose (your "agent") authority to spend your money and sell or dispose of your property during your lifetime without telling you. You do not lose your authority to act even though you have given your agent similar authority.

When your agent exercises this authority, he or she must act according to any instructions you have provided or, where there are no specific instructions, in your best interest. "Important Information for the Agent" at the end of this document describes your agent's responsibilities.

Your agent can act on your behalf only after signing the Power of Attorney before a notary public.

You can request information from your agent at any time. If you are revoking a prior Power of Attorney [fig 1], you should provide written notice of the revocation to your prior agent(s) and to any third parties who may have acted upon it, including the financial institutions where your accounts are located.

You can revoke or terminate your Power of Attorney at any time for any reason as long as you are of sound mind. If you are no longer of sound mind, a court can remove an agent for acting improperly.

Your agent cannot make health care decisions for you. You may execute a "Health Care Proxy" to do this.

The law governing Powers of Attorney is contained in the New York General Obligations Law, Article 5, Title 15. This law is available at a law library, or online through the New York State Senate or Assembly websites, www.nysenate.gov or www.assembly.state.ny.us.

If there is anything about this document that you do not understand, you should ask a lawyer of your own choosing to explain it to you.

Important Information for the Agent wording under NY CLS Gen Oblig § 5-1513(n):

(n) IMPORTANT INFORMATION FOR THE AGENT:

When you accept the authority granted under this Power of Attorney, a special legal relationship is created between you and the principal. This relationship imposes on you legal responsibilities that continue until you resign or the Power of Attorney is terminated or revoked. You must:

(1) act according to any instructions from the principal, or, where there are no instructions, in the principal's best interest;

(2) avoid conflicts that would impair your ability to act in the principal's best interest;

(3) keep the principal's property separate and distinct from any assets you own or control, unless otherwise permitted by law;

(4) keep a record or all receipts, payments, and transactions conducted for the principal; and

(5) disclose your identity as an agent whenever you act for the principal by writing or printing the principal's name and signing your own name as "agent" in either of the following [fig 1] manners: (Principal's Name) by (Your Signature) as Agent, or (your signature) as Agent for (Principal's Name).

You may not use the principal's assets to benefit yourself or anyone else or [fig 1] make gifts to yourself or anyone else unless the principal has specifically granted you that authority in this [fig 2] document, which is either a Statutory Gifts Rider attached to a Statutory Short Form Power of Attorney or a Non-Statutory Power

of Attorney. If you have that authority, you must act according to any instructions of the principal or, where there are no such instructions, in the principal's best interest. You may resign by giving written notice to the principal and to any co-agent, successor agent, monitor if one has been named in this document, or the principal's ▸guardian if one has been appointed. If there is anything about this document or your responsibilities that you do not understand, you should seek legal advice.

Liability of agent:

The meaning of the authority given to you is defined in New York's General Obligations Law, Article 5, Title 15. If it is found that you have violated the law or acted outside the authority granted to you in the Power of Attorney, you may be liable under the law for your violation.

An optional gift rider must be witnessed by two witnesses, one of which can be the notary.

**********

**Effective for DPOAs executed before September 1, 2009:**

Durability – a durability clause is required to be recognized as a ▸DPOA.

## ▾NORTH CAROLINA

**09/26/2013**

North Carolina requires that a ▸DPOA be filed with the local Register of Deeds before the representative may act following the principal's incapacity. Many North Carolina DPOAs submitted to the PBGC have been stamped by the Register of Deeds, indicating that they have been filed. If a North Carolina DPOA has not been stamped by the Register of Deeds, contact the local office of the Register of Deeds (refer to the *Register Contact Information for North Carolina and South Carolina*). Often a clerk at the Register of Deeds office will confirm that the DPOA has been properly filed. If the clerk does not confirm that the DPOA has been filed, you should notify the representative and/or the principal so that they may arrange for it to be filed or provide confirmation that it already has.

In addition, North Carolina permits durability language not permitted in most other states that require a durability clause. Besides the usual durability language, a passage such as "This power-of-attorney is executed pursuant to the provisions of Article 2 of Chapter 32A of the North Carolina General Statutes, on 'Powers of Attorney'", or other such reference, will suffice to render a POA durable.

## ▾OHIO

**09/26/2013**

**Statutory Cite:** 1337.24.

**Effective for DPOAs executed on or after March 22, 2012:**

1. Durability - presume the document is ▸durable unless it has language indicating it is not.
2. The ▸POA must be signed and dated by the principal or may be signed and dated by another individual in the principal's conscious presence (this other individual needs to be in the principal's sight or hearing), as directed by the principal to sign the principal's name on the power of attorney.
3. Recording in the county recorder's office may be done in Ohio, but it is not required.

**Effective for DPOAs executed before March 22, 2012:**

Durability – a durability clause is required to be recognized as a ▸DPOA.

**▾PENNSYLVANIA**

**08/28/2014**

Pennsylvania requires that all ▸POAs executed in Pennsylvania after April 11, 2000, must include a NOTICE to the principal, which advises him of the consequences of his executing a POA and of some available alternatives. To help ensure that the principal executing a POA understands these matters, the law requires that the principal sign and date the NOTICE. The same law requires that the principal's representative (Pennsylvania calls this person an "Agent") sign a form declaring that he understands the duties of an Agent under a POA; this form also is intended to protect the principal from a representative's carelessness in the discharge of his duties.

Some Pennsylvania POAs executed after April 11, 2000, fail to include the required NOTICE and/or AGENT'S ACKNOWLEDGMENT. Obtaining a valid AGENT'S ACKNOWLEDGMENT is usually not difficult because it may be executed at any time before the Agent seeks to exercise his (her) authority under the POA. Obtaining a valid NOTICE may be more difficult. In such a case you should first ask to be provided a NOTICE that was executed at the time the ▸DPOA was executed. If no such NOTICE was executed, you should next determine whether the principal is incapacitated; if (s)he is not, you may ask that (s)he provide the PBGC with a current NOTICE and a currently signed copy of the POA.

If the principal is incapacitated, the matter is more complicated still. Pennsylvania law provides that when a "third party" (like the PBGC) challenges the exercise of a POA, the representative must "bear the burden" of showing that the attempted exercise of authority is "proper". The PBGC has developed a set of questions (this set of questions is sometimes referred to as a "Fitz inquiry") to be answered by the ▸FBA before deciding whether to challenge the representative's exercise of a DPOA. If the answers to the Fitz questions suggest to the FBA that the representative is responsibly acting to serve the principal, then PBGC does not challenge the use of the DPOA but honors the representative's request.

To decide whether to challenge the representative's use of he DPOA, ask yourself the four Fitz questions:

(1) Is there is a "competing" POA, executed in favor of another person currently effective under its own terms?

(2) Has any relative or acquaintance of either the principal of the representative stated that the representative is likely to exploit the DPOA to deny the principal the use of necessary assets to obtain basic needs?

(3) Has anyone suggested that the principal did not understand what (s)he was signing when (s)he executed the DPOA?

(4) Do you yourself entertain any doubt about the veracity of any of the representative's statements to you (such doubt could be based on the content of the statement itself, upon anything else you might have heard either from the representative or from any other party, or from the statement's apparent inconsistency with any available document)?

If the answer to all four questions is "no", the PBGC will not challenge the representative's exercise of authority under the DPOA, and you should approve the representative's use of the DPOA.

If the answer to any of the above four questions is "yes", there is evidence that the representative may not be acting responsibly to serve the principal – refer the DPOA to OPSS POA-Guardianship, which will decide whether to challenge the representative's use of the DPOA.

As always, the representative must in any case execute a proper ACKNOWLEDGMENT before exercising any authority under the DPOA.

NOTICE

The purpose of this power of attorney is to give the person you designate (your "agent") broad powers to

handle your property, which may include powers to sell or otherwise dispose of any real or personal property without advance notice to you or approval by you.

This power of attorney does not impose a duty on your agent to exercise granted powers, but when powers are exercised, your agent must use due care to act for your benefit and in accordance with this power of attorney.

Your agent may exercise the powers given here throughout your lifetime, even after you become incapacitated, unless you expressly limit the duration of these powers or you revoke these powers or a court acting on your behalf terminates your agent's authority.

Your agent must keep your funds separate from your agent's funds.

A court can take away the powers of your agent if it finds your agent is not acting properly.

The powers and duties of an agent under a power of attorney are explained more fully in 20 Pa.C.S. Ch. 56.

If there is anything about this form that you do not understand, you should ask a lawyer of your own choosing to explain it to you.

I have read or had explained to me this notice and I understand its contents.

(Principal) (Date)

AGENT'S ACKNOWLEDGEMENT

I, _____ , have read the attached power of attorney and am the person identified as the agent for the principal. I hereby acknowledge that in the absence of a specific provision to the contrary in the power of attorney or in 20 Pa.C.S. when I act as agent:

I shall exercise the powers for the benefit of the principal.

I shall keep the assets of the principal separate from my assets.

I shall exercise reasonable caution and prudence.

I shall keep a full and accurate record of all actions, receipts and disbursements on behalf of the principal.

(Agent) (Date)

## ▼SOUTH CAROLINA

**09/26/2013**

**Effective for DPOAs executed on or after June 7, 2010:**

1. Notary required.
2. Durability statement required.
3. Filed with local register as outlined below before agent can act following incapacity.

**Effective for DPOAs executed prior to June 7, 2010:**

South Carolina requires that a ▸DPOA be filed with the local Register of Deeds before the representative may act following the principal's incapacity. Many South Carolina DPOAs submitted to the PBGC have been stamped by the Register of Deeds, indicating that they have been filed. If a South Carolina DPOA has not been stamped by the Register of Deeds, contact the local office of the Register of Deeds (refer to the Register Contact Information for North Carolina and South Carolina). Often a clerk at the Register of Deeds office will confirm that the DPOA has been properly filed. If the clerk does not confirm that the DPOA has been filed, you should notify the representative and/or the principal so that they may arrange for it to be filed or provide confirmation that it already has. S.C. Code Ann. § 62-5-501 (referencing S.C. Code Ann. § 62-2-502).

## ▾VERMONT

**09/26/2013**

**Effective for DPOAs executed on or after June 13, 2002:**

1. **Witness required.** One witness required who may not be the agent.
   a. The witness shall affirm that the principal appeared to be of sound mind and free from duress at the time the ▸power of attorney was signed, and that the principal affirmed that he or she was aware of the nature of the document and signed it freely and voluntarily.
2. **Notary required.** Principal's signature must be acknowledged **before** a notary, who may not be the agent.
3. Agent's acknowledgement required before an agent may act. The acknowledgement must attest in writing that the agent:
   a. accepts appointment as agent;
   b. understands the duties under the power of attorney and under the law;
   c. understands that he or she has a duty to act if expressly required to do so in the power of attorney consistent with subsection 3506(c) of this title; and
   d. understands that the agent is expected to use his or her special skills or expertise on behalf of the principal, if the expectation that the agent does so is expressly provided for in the power of attorney consistent with subdivision 3505(a)(6) of this title.

==========

Note: An agent may sign at any time after a power of attorney has been executed and before it has been exercised for the first time.

## ▾VIRGINIA

**09/26/2013**

**Effective for DPOAs executed on or after July 1, 2010:**

Durability - presume the document is ▸durable unless it has language indicating it is not.

**Effective for DPOAs executed before July 1, 2010:**

Durability – a durability clause is required to be recognized as a ▸DPOA.

## ▾WASHINGTON

**08/28/2014**

**The following requirements are effective for DPOAs executed on or after the date indicated below:**

1. Durability statement required. (Rev. Code Wash. § 11.94.010, effective July 23, 1989.)
2. **Authorities** – A ▸DPOA may use a sweeping statement to convey authority, however, certain authorities are not encompassed by this sweeping statement. (Rev. Code Wash. § 11.94.050, effective October 1, 1989.)
3. **Special Authorities** – When reviewing a DPOA, look for specific language for these authorities (see below). If the authorities are not specifically mentioned, they are not granted. This applies even if there is a sweeping statement. Therefore, if the DPOA fulfills the requirements of applicable state law but one or more of these authorities are not specifically mentioned, the acceptance letter should clearly specify which of these authorities are not granted and why. (Rev. Code Wash. § 11.94.050, effective October 1, 1989.)
    a. Create or change a beneficiary designation*; and
    b. Waive the principal's right to be a beneficiary of a joint and survivor annuity, including a survivor benefit under a retirement plan.
4. **Spouse/domestic partner as agent** – The agency of a spouse or registered domestic partner terminates automatically at the divorce, legal separation or termination of the domestic partnership. (Rev. Code Wash. § 11.94.080, for agent in a marriage with principal, effective July 22, 2001/ For agent in a registered domestic partnership, effective July 22, 2007.) Therefore, if PBGC knows that an agent is the spouse or registered domestic partner of the principal, include a statement in the POA acceptance letter to the principal that they should notify PBGC if any of these events occur, so we may update our POA records accordingly.

* If a POA does not grant an agent this authority, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify this restriction.

## ▾WEST VIRGINIA

**09/26/2013**

**Effective for DPOAs executed on or after June 8, 2012:**

1. Durability - presume the document is ▸durable unless it has language indicating it is not.
2. Principal's signature must be notarized, or acknowledged by another individual authorized to take acknowledgements, including;
    a. Judges; or
    b. Any clerk or deputy clerk of a court of record in a place in which the notarial act is performed.

**Effective for DPOAs executed before June 8, 2012:**

- Durability – a durability clause is required to be recognized as a ▸DPOA.

## ▾WISCONSIN

**07/01/2016**

**Executed on or after May 12, 2010.**

1. **Durability** – presume the document is ▸durable unless it has language indicating it is not.
2. **Signature** – The principal may sign the ▸POA. Alternately, another individual may sign for the principal, provided the individual is signing at the direction of the principal and in the principal's

conscious presence, meaning the other individual needs to be in the principal's sight or hearing. Consult with PPD/OCC via referral to OPSS POA-Guardianship if a POA is received with a signature other than the principal's.

3. **Spouse as agent** – If the agent is the principal's spouse, the POA is invalidated upon the filing of an action for the dissolution or annulment of the agent's marriage to the principal or their legal separation. Therefore, if PBGC knows that an agent is the spouse of the principal, include a statement in the POA acceptance letter to the principal that they should notify PBGC if any of these events occur, so we may update our POA records accordingly.
4. **Authorities** – A ▸DPOA may use a sweeping statement to convey authority, however, certain authorities are not encompassed by this sweeping statement.
5. **Special authorities are granted only if specifically mentioned in the document.** When reviewing a DPOA, look for specific language for these authorities (see below). If the authorities are not specifically mentioned, they are not granted. Therefore, if the DPOA is valid under Wisconsin law and one or more of these authorities are not specifically mentioned/expressly granted, the acceptance letter should clearly specify which of these authorities are not granted and why.
    a. Create or change a beneficiary designation*; and
    b. Waive the principal's right to be a beneficiary of a joint and survivor annuity, including a survivor benefit under a retirement plan.

* If a POA does not grant an agent this authority, the agent may not select an optional form for the principal. Unless the principal has been determined incompetent and unable to sign his application, the principal may sign his application to select an optional form other than the normal form. PBGC's POA acceptance letter should specify this restriction.

Top of Page

**TP 49.6B Special Foreign Rules for DPOAs**

**08/28/2015**

Refer to the special rules below when executing ▸durable powers of attorney (DPOAs) in the following foreign countries or territories:

**▾BRAZIL**

**11/21/2014**

1. May be oral or written. If PBGC is notified of an oral ▸POA from Brazil, it should be referred to HQ.
2. A written POA from Brazil should meet the following requirements:
   a. Signed and dated by principal;
   b. Indicates the place where it was prepared;
   c. Indicates the qualifications of the principal and agent; and
   d. Indicates the purpose of the instrument, the designation of authority, and scope of the powers being granted.
3. Persons aged 16 and under or those under mental disease or defect cannot grant a ▸power of attorney.
4. Brazilian law provides that a power of attorney ceases with a change of status that makes the principal unfit to confer a power of attorney. Accordingly, Brazil does not recognize ▸durable powers of attorney. Once a principal is incapacitated, the power of attorney is no longer in effect. So, PBGC will only recognize POAs executed in Brazil as ▸NDPOAs.
5. Brazilian law is silent on springing powers of attorney so one should presume that such instruments are not recognized as valid in Brazil.

**▾BRITISH COLUMBIA**

**08/28/2014**

1. The witnesses cannot be a person named in the ▸POA, a spouse, child or parent of the principal, or a person who is not an adult, or an employee of the principal unless the witness is a lawyer, notary, public ▸guardian, trustee or financial institution authorized to carry on trust business.
2. Attorney/Agent/Holder of the POA must sign the POA.
3. To confirm someone is a practicing lawyer in British Columbia, go to: http://www.lawsociety.bc.ca/apps/lkup/mbrsearch.cfm
4. British Columbia's law requires the notary to be a member in good standing of the Society of Notaries Public of British Columbia. To confirm that someone is a notary public in good standing, go to: http://www.notaries.bc.ca/findNotary/notaryRoll.rails
5. The POA must state whether it is enduring or not durable.

**▾ENGLAND**

**08/28/2014**

1. The principal is referred to as a donor.
2. A ▸durable power of attorney is referred to as a lasting or an enduring power of attorney.
3. A lasting or enduring ▸POA must include a statement from the donor to the effect that he has:

   (i) read the prescribed information or a prescribed part of it (or has had it read to him), and

   (ii) intends the authority conferred under the instrument to include authority to make decisions on his behalf in circumstances where he no longer has capacity.

Mental Capacity Act of 2005, c. 9, § 9 at http://www.legislation.gov.uk/ukpga/2005/9/contents. The Enduring Power Attorney Act of 1985 was repealed.

4. Furthermore, the statement by the donor must be certified by a "prescribed person." A prescribed person is defined as "(a) a person chosen by the donor as being someone who has known him personally for the period of at least two years which ends immediately before the date on which that person signs the LPA certificate; or (b) a person chosen by the donor who, on account of his professional skills and expertise, reasonably considers that he is competent to make the judgments necessary to certify the matters set out in paragraph (2)(1)(e) of Schedule 1 to the Act." Id. Generally, the prescribed person would be an independent person who fills out Part B on the Office of the Public Guardian's sample lasting POA form ( https://www.gov.uk/government/publications/make-a-lasting-power-of-attorney). The certification involves the donor signing the document in the presence of the prescribed person and the prescribed person signing an acknowledgment to the following effect:

   (i) the donor understands the purpose of the instrument and the scope of the authority conferred under it,

   (ii) no fraud or undue pressure is being used to induce the donor to create a lasting power of attorney, and

   (iii) there is nothing else which would prevent a lasting power of attorney from being created by the instrument.

   Id. at sched. 1, ¶ 2(1)(e).

5. An additional requirement is that the donor's grant of the power of attorney be signed in the presence of at least one witness (who cannot also be the donor). I. at § 9.
6. A lasting or enduring POA must be registered with the Office of the Public Guardian. Office of the Public Guardian, MINISTRY OF JUSTICE at http://www.justice.gov.uk/about/opg.

**▼GERMANY**

**08/28/2014**

1. German ▶POAs do not necessarily have to be in writing. If PBGC is notified of an oral POA from Germany, it should be referred to HQ (as with all foreign POAs) via the OPSS-POA Guardianship mailbox.
2. There are no formal requirements with respect to a written POA for financial and banking transactions, therefore a German power of attorney:
   a. does not need to be witnessed; and
   b. does not need to be notarized.
3. A durability (or springing) statement is required to be recognized as such. If there is no durability or springing clause in the document, then it can only be recognized as an ▶NDPOA.

**▼ITALY**

**08/28/2014**

1. ▶Power of attorney must be in writing.
2. Neither ▶durable or ▶springing POAs are allowed under Italian law. If a ▶POA contains a durability or springing clause, the clause is not valid, even if it was created when the principal had the capacity to act. When a principal becomes incapacitated, guardianship must be sought.
3. So, PBGC will only recognize POAs executed in Italy as ▶NDPOAs.

**▼MEXICO, JALISCO**

**08/28/2015**

In Mexico, state of Jalisco, a power of attorney is referred to as a mandate.

**POLAND**

**08/28/2015**

1. If action to be taken requires a certain execution requirement, then the POA must follow suit (for example, if deed to be filed needs to be notarized to be valid, the agent who is acting on behalf of the principal must be under a POA that is also notarized).
2. Durable Powers Of Attorney are permitted.
3. Springing POAs are not permitted; guardianship must be sought if principal is partially or completely incapacitated (determination made by a court).

**PORTUGAL**

**08/28/2014**

1. Generally, a notary is not required unless the POA is for purposes of conducting real estate or if the POA is drawn up in the interest of the holder or third party.
2. Generally, registration with the registrar's office is not required unless the POA is for purposes of conducting real estate or if the POA is drawn up in the interest of the holder or a third party.
3. PBGC will determine a POA is in the interest of the holder or a third party if it includes a provision(s) that would provide a monetary or pecuniary benefit to the holder or a third party and that is not being used for the benefit of the principal.

**PRINCE EDWARD ISLAND**

**08/28/2014**

1. Durability statement is required. For a power of attorney to be enduring, it must expressly state that it may be exercised during any subsequent legal incapacity of the donor. A power of attorney without a durability statement ceases being in effect upon the donor's (principal's) incapacity.
2. The donor (principal) must sign in the presence of a witness. The witness cannot be the agent/attorney-in-fact or the agent's spouse.
3. A power of attorney granting the power to engage in real estate transactions may need to be registered at the Registry of Deeds office but one with respect to other property transactions does not. Therefore PBGC may recognize a power of attorney that has not been registered.

   Powers of Attorney Act, R.S.P.E.I. 1988

**PUERTO RICO**

**08/28/2014**

**Effective for DPOAs executed on or after January 18, 2012:**

1. **Durability** – the document must contain an express durability provision stating that it is not terminated by the incapacity of the principal. Then, it will remain valid after the principal becomes incapacitated or is judicially declared incapacitated.
2. **Notary required.**
   a. Special Notary Language - it must contain a warning from the Notary to the Principal about the nature and consequences of a durable power of attorney;

3. **Recording of the POA is required** – the ▸POA must be registered with the Director of the Notarial Inspection Office, which is attached to the Supreme Court of Puerto Rico;
4. Every notary before whom a POA is executed, must send to the Notarial Inspection Office a notice certified under his seal, setting forth therein the name or names of the grantor or grantors and of the witnesses, and the date, number, and nature of the deed, specifying the person to whom the power of attorney is granted, extended, modified or revoked.

**Effective for POAs executed before January 18, 2012:**

1. **Durable Power of Attorney's not permitted.**
   a. If a POA contains language indicating it is durable, PBGC may accept it **only** as a ▸non-durable. The acceptance letter will specify that it ceases to be in effect upon incapacity of the principal and why.
2. **Notary required.**
3. **Recording of the POA is required.** Recording of POA with Director of the Notarial Inspection Office, which is attached to the Supreme Court of Puerto Rico, is required.
4. Every notary before whom a POA is executed must send to the Notarial Inspection Office a notice certified under his seal, setting forth therein the name or names of the grantor or grantors and of the witnesses, and the date, nature of the deed, specifying the person to whom the power of attorney is granted, extended, modified or revoked.

**▾QUEBEC**

**08/28/2014**

1. Terminology - In Quebec's civil code:
   a. a ▸power of attorney is referred to as a mandate;
   b. the principal is referred to as the mandator; and
   c. the agent is referred to as the mandatory.
2. There are no requirements for a validly executed ▸non-durable power of attorney under Quebec law.
3. ▸Durable powers of attorney are not permitted.
4. ▸Springing powers of attorney are permitted. For a springing power of attorney to be valid in Quebec,
   a. It must be written by the mandator or by a third person and executed in one of two ways:
      i. It must be notarized; or
      ii. It must be prepared in the presence of two witnesses, and the witnesses must "have no interest in the act and [be] in a position to ascertain whether he is capable of acting."
   b. A springing power of attorney is only effective ("springs") upon a court judgment of the mandator's incapacity. Civil Code of Quebec, ch. IX, div. IV.

**▾SCOTLAND**

**08/28/2014**

A continuing ▸(durable) POA in Scotland must be written and contain the following:

1. Signature of the grantor/principal;
2. Statement that clearly expresses the grantor's intention that the power is a continuing POA (that it will continue even after the grantor becomes incapacitated);
3. If there is a springing clause in the POA, that is a provision noting that the continuing POA is in effect only after the grantor becomes incapable of making decisions to which the power relates, there must also be a statement that the grantor has considered how capacity will be determined;
4. Statutory certification – a certificate signed by a solicitor registered to practice in Scotland, a practicing

member of the Scottish Faculty of Advocates, or a registered or licensed medical practitioner. The certificate must include a statement by the signer that:

a. He has interviewed the grantor immediately before the grantor subscribed the document;

b. He is satisfied, either because of his own knowledge of the grantor or because he has consulted other persons [named in the certificate] who have knowledge of the grantor, that at the time the continuing power of attorney is granted, the grantor understands its nature and extent;

c. He has no reason to believe that the grantor is acting under undue influence or that any other factor vitiates the granting of the power.

5. The continuing POA must also be registered with the Office of the Public Guardian before it is considered valid.

## SLOVAKIA

**08/28/2015**

1. ▸Durable and ▸Springing Durable POAs not permitted.

   **Note** A guardian should be appointed by the courts upon determination of incapacity.

2. An agent may only perform certain special acts (for example, contracting marriage or disclaiming a decedent's estate) if specified in POA.

## U.S. VIRGIN ISLANDS

**08/28/2014**

1. Durability - presume the document is ▸durable unless it has language indicating it is not.
2. The ▸POA must be signed and dated by the principal or may be signed and dated by another individual in the principal's conscious presence (this other individual needs to be in the principal's sight or hearing), as directed by the principal to sign the principal's name on the power of attorney.
3. Notary not required, although a notarized signature on a power of attorney is presumed to be genuine.

   The U.S. Virgin Islands enacted the Virgin Islands Uniform Power of Attorney Act and it is codified as V.I. Code Ann. Tit. 15, §§ 5-501 to 5-523 (2011 supp), section 5-504 of the Act.

## WALES

**08/28/2014**

The same rules as England.

## TP 50. Overview for Plan-Specific Web Announcements

**07/01/2016**

Communication with ▸plan ▸participants normally begins once PBGC trustees a plan. Plan-specific web announcements are an effective method of communicating plan-level information to participants. Rhythmyx is the software used to create, route, approve and publish announcements to the plan web page.

Web announcements may be created to notify participants of plan trusteeship, the change in paying agent, the transfer of the plan to post valuation administration, and other plan-level information deemed appropriate by ▸CSD management. Web announcement updates are required when ▸BDLs for a plan have not been issued within three years of the Date of Trusteeship.

# TP 50.1 Plan-Specific Web Announcement

**07/01/2016**

| | |
|---|---|
| **Purpose** | To communicate key milestones and plan-specific information to participants over the PBGC Web site. |
| **Timing** | Submit announcement to PPD as early as possible, but no fewer than 5 days before desired publishing date. |
| **Guidance** | N/A |
| **Procedure Owner** | CSD, PPD |

This procedure covers two scenarios:

- TP 50.1A Create and Publish a Web Announcement provides instructions for ▸OBA divisions to create, review and submit the announcement to ▸PPD for review, approval and publishing.
- TP 50.1B Unpublish a Web Announcement provides instructions to request that ▸PPD delete an existing announcement.

**In this Section**

TP 50.1A Create and Publish a Web Announcement
TP 50.1B Unpublish a Web Announcement

**TP 50.1A Create and Publish a Web Announcement**

**07/01/2016**

**CSD**

1. Determine the need for a web announcement to communicate information to ▸plan ▸participants, such as:
   - a key event in the plan's life cycle, such as Trusteeship;
   - the transfer of the plan to post-valuation administration;
   - the result of court proceedings;
   - a response to phone calls from plan participants, relating to the same question; or
   - the status of Benefits Determination Letters.
2. A member of the case team drafts the announcement as directed by ▸CSD management and submits for initial review.

   **Note** To schedule a future deletion date for the announcement, include an end date in the request. To delete an announcement created without a deletion date, see TP 50.1B Unpublish a Web Announcement.
3. The author or designated reviewer reviews the content, makes necessary edits, and submits the announcement for final review.
4. A member of the CSD management team completes the final review of the announcement. The final review must be completed by an individual other than the original author. During this stage, the web announcement content is reviewed and edited, and either:
   - Submitted to ▸PPD for approval and publishing, or
   - Rejected, returning the announcement to draft status.

   Submit announcement to PPD as early as possible but no fewer than 5 days before desired publishing date.

**PPD**

5. Upon receipt of the web announcement, review and take the appropriate action as soon as practicable, but target completion for within 3 business days:
   - Reject any announcements that require more than minor edits. This returns the announcement to draft status.
   - Forward acceptable announcements, with minor edits as needed, to ▸COLA for concurrence. Note that COLA requires 2 business days for review and approval.
   - Once COLA has concurred, forward the announcement for immediate or pending publication, as appropriate.

**TP 50.1B Unpublish a Web Announcement**

**07/01/2016**

Announcements can be scheduled for automatic deletion on a future date when they are created. Live announcements created without a deletion date must be unpublished. To delete a live announcement:

**CSD**

1. Contact ▸PPD by e-mail to request that a plan-specific announcement be unpublished. Provide the following details identifying the announcement:
   - ▸PBGC Case Number
   - Effective date of the announcement
   - Publishing date of the announcement
2. If approved, PPD unpublishes the announcement via Rhythmyx. The message is removed from the ▸plan Web page during the next overnight processing cycle.

**Note** Web Announcements that have expired or been unpublished may be viewed in Rhythmyx, but will not display on the plan Web page.

## TP 50.2 Resources for Plan-Specific Web Announcements

**09/30/2016**

**Forms, Letters, and Memos:**

None

**Customer Correspondence and Forms:**

None

**Guidance:**

None

**Exhibits:**

# TP 51 Earnings Offsets

**In this Section**

TP 51. Overview for Earnings Offsets
TP 51.1 Administer Earnings Offsets before Benefit Determinations
TP 51.2 Reconcile Earnings Offsets for Benefit Determinations
TP 51.3 Reconcile Earnings Offsets Annually after Benefit Determinations
TP 51.4 Process Request for Voluntary Suspension of Supplements
TP 51.5 Resources for Earnings Offsets

## TP 51. Overview for Earnings Offsets

**08/28/2014**

In addition to a participant's vested accrued benefit, a pension plan may pay a supplemental benefit under certain plan criteria. Typically, a supplement is a feature of a particular type of retirement, for example, a 70/80 retirement. These supplements usually are temporary and are payable only until a participant reaches a specified age (typically, age 62 or 65) or becomes eligible for another benefit or a "public" pension (typically, Social Security disability benefits). Some plans also have earnings-offset provisions in which the supplement due for a given year is offset (reduced) by all or part of the participant's earnings from work for that year.

Pension plans administer earnings-offset provisions in various ways, primarily due to timing issues in verifying actual earnings and calculating the earnings offset and the actual supplement that was due. Because plan provisions and practices vary widely, PBGC adopted the rules in Policy 6.2-1 Earnings-Offset Provisions to administer earnings offset provisions in trusteed plans in a uniform manner. Once a plan is trusteed, its earning-offset provisions are generally administered as follows:

1. After trusteeship, at the time benefits are adjusted to the estimated level, PBGC pays estimated PBGC supplements, prior to offset, due the participant which may be equal to or less than the plan supplement.
2. PBGC does not apply the plan's earnings-offset provisions or practices while paying estimated benefits. Any benefit reduction to collect an earnings-offset overpayment implemented by the plan administrator is also discontinued.
3. PBGC collects earnings and other eligibility information, such as about eligibility for SSA disability benefits, for each year the participant is eligible for a plan supplement beginning with the year before the DOPT year and continuing through the year before BDLs are scheduled to be issued. Other eligibility criteria continues to be monitored as well and action taken, when warranted. For example, a participant may no longer be eligible for a supplement upon reaching age 62 and action is taken to stop the supplement.
4. In preparing to issue BDLs, PBGC uses the collected earnings to calculate the applicable earnings offset and actual supplements due and reconciles any difference with those paid. If any earnings-offset overpayments results, the benefit reduction that would have been made to collect the overpayment is applied in calculating the benefit payments that were due through the effective date of the BDL.
   - For the DOPT year through the DOTR year, PBGC applies plan provisions and plan practice in applying the plan's earnings limitations and performing these calculations
   - Beginning the year after the DOTR year, PBGC no longer applies plan provisions and plan practice in applying the plan's earnings limitations and performing these calculations.
5. After BDLs are issued, PBGC continues to collect earnings and other eligibility information for each year the participant is eligible for a PBGC supplement and continues to monitor other eligibility criteria. The actual earnings are used to calculate the actual offset and the actual PBGC supplement due, which is reconciled with the PBGC supplement that was paid.
   - Any resulting earnings-offset underpayment is treated as a benefit underpayment, due on April 1 of the year after the underpayment was incurred.
   - Any resulting earnings-offset overpayment is collected by a 12-month benefit reduction, beginning April 1 of the year after the overpayment was incurred. Earnings-offset overpayments are not treated the same as benefit overpayments and are not subject to the recoupment rules that apply to benefit overpayments.
6. PBGC permits participants to voluntarily suspend payment of their supplement only to avoid earnings-offset overpayment, but continues to perform the yearly reconciliation for those participants.

**Note** Any subsequent reference to a plan's earnings-offset provisions in these procedures includes the plan's earnings limitations and practices for administering those limitations, unless specified otherwise.

All plans with supplements subject to earnings offsets trusteed on or after 08/30/2011 must be administered as provided in Policy 6.2-1 Earnings-Offset Provisions. Plans trusteed before 08/30/2011 must be administered as provided in Policy 6.2-1 Earnings-Offset Provisions and TP 51 Earnings Offsets beginning no later than 01/01/2013.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

# TP 51.1 Administer Earnings Offsets before Benefit Determinations

**07/01/2016**

| | |
|---|---|
| **Purpose** | To administer earnings offsets prior to issuing BDLs. |
| **Guidance** | Policy 6.2-1 Earnings-Offset Provisions |
| **Procedure Owner** | Actuary, Auditor (DMD), EBLS/FBA/PBA |

Under Policy 6.2-1 Earnings-Offset Provisions, earnings offsets are not applied while paying estimated ▸benefits. The offsets applicable to estimated supplements will later be reconciled in preparing to issue BDLs as described in TP 51.2 Reconcile Earnings Offsets for Benefit Determinations. For a ▸plan in which ▸BDLs have not been issued, take the following actions. Adjust activities to account for the timing, practicability, status of plan trusteeship processing, and other priorities. Contact Ask PPD for guidance if needed.

**Actuary**

1. Evaluate plan documents and determine if the plan provides supplements that are subject to earnings-offset provisions and document the *Estimated Benefit Adjustments Analysis Memo* accordingly (see Process 10 Benefit Adjustments).
   - If the plan does not provide supplements subject to earnings offsets, no further action is required under these procedures.
   - If the plan provides supplements subject to earnings offsets, notify the assigned ▸auditor and ▸EBLS/▸FBA/▸PBA and continue with these procedures.
2. Work with the auditor and EBLS/FBA/PBA to evaluate plan provisions and practice and prepare a *Summary of Plan Supplement and Earnings-Offset Provisions* or similar summary document that describes the:
   - Amount of the plan supplement(s) payable (prior to offset).
   - Entitlement factors for the supplement, such as age and service, receipt of plan disability benefits, and plant shutdown.
   - Continuing eligibility criteria, such as attaining age 62 or 65, receipt of Social Security disability benefits or other public pension, and so forth. Contact Ask PPD for guidance if a plan applies an eligibility factor for "public" pension benefits or other benefits that are not otherwise identified as Social Security disability benefits.
   - Earnings limitation(s) that apply.
   - Plan provisions and/or plan practice on paying the supplement, for example, whether the plan used estimated earnings to pay an anticipated supplement.
   - Plan provisions and/or plan practice for collecting earnings-offset overpayments, for example, whether the plan applied a 100% temporary reduction or some other percentage or method.

   The *Summary of Plan Supplement and Earnings-Offset Provisions* (or similar summary document) may be updated as needed during trusteeship processing based on new information received during this process.
3. Ensure that the earnings-offset indicator in ▸CMS is set for the plan.
4. Calculate or otherwise determine estimated PBGC supplements (the amount of the supplement payable prior to offset) based on best available information and provide estimates to the EBLS/FBA/PBA.
5. Ensure that the auditor and EBLS/FBA/PBA receive a working copy of the summary for quick reference and ensure a copy is imaged into the plan file.

**Auditor, DMD**

6. Work with the actuary and EBLS/FBA/PBA to evaluate plan provisions and practice and then prepare the *Summary of Plan Supplement and Earnings-Offset Provisions* or similar summary document as described in step 2.
7. Work with the actuary and EBLS/FBA/PBA to:
   - Identify each ▸participant receiving or eligible for the supplement under plan provisions.
   - Collect actual, and when applicable, estimated earnings and evidence of other related eligibility criteria for past years beginning with the year before the ▸DOPT year.
   - Collect historical evidence of the plan's administration of offsets, for example, earnings-offset calculations and

payment records confirming collection of earnings-offset overpayments and/or payment of earnings-offset underpayments.

- Identify the outstanding balance of any earnings-offset overpayments as of DOPT. These will be collected post-DOPT.

8. Include the balance of any outstanding pre-DOPT earnings-offset overpayments that will be collected post-DOPT as an asset in the plan asset evaluation (see the New Asset Evaluation Procedures and Documents).

> **Note** Earnings information will be needed to calculate the earnings offset and actual supplements due the calendar year before the DOPT year. Under most plan provisions, any resulting earnings-offset overpayment for the calendar year before the DOPT year would have been collectible during the DOPT year. In addition, any resulting earnings-offset underpayment would have been payable during the DOPT year. These earnings-offset related adjustments may affect the PBGC benefits payable during the DOPT year.

**EBLS/FBA/PBA**

9. Work with the actuary and auditor to evaluate plan provisions and practice and prepare the *Summary of Plan Supplement and Earnings-Offset Provisions* or similar summary document as described in step 2.
10. Work with the auditor and actuary to obtain and document earnings-offset information from the plans as described in step 7.
11. Using the *Summary of Plan Supplement and Earnings-Offset Provisions* or similar summary document, work with the actuary and auditor to develop a tracking system, such as a worksheet, to identify all participants receiving or due a supplement under plan provisions as of the year before the DOPT year and going forward and to monitor application of earnings-offset provisions and related processing for those participants as further described in TP 51.
12. Assume benefit payments from the prior plan administrator following Process 9 Plan Assumption.
13. Adjust benefits to estimated amounts as provided in Process 10 Benefit Adjustments:
    - Do not apply earnings-offsets to the estimated benefits.
    - Pay the estimated PBGC supplement (the amount prior to offset) provided by the actuary, unless the participant requested voluntary suspension of the supplement (for guidance on voluntary suspension of a supplement, see TP 51.4 Process Request for Voluntary Suspension of Supplements).
    - Discontinue application of any offset using estimated earnings that the plan may have applied.
    - Discontinue any benefit reduction implemented by the plan to collect an earnings-offset overpayment.
    - Enter the end date for the supplement for any participant who is or will no longer be eligible for the supplement under the plan's continuing eligibility criteria upon attainment of a specified age (age 62 or 65 for most plans).
    - Do not pay any underpayments resulting solely from these earnings-offset related adjustments.
14. As soon as practicable after ▸DOTR, collect any missing earnings and other eligibility information beginning with the year before the DOPT year through the most recently ended year:
    - Review the *Summary of Plan Supplement and Earnings-Offset Provisions* or similar summary prepared by the actuary to identify the plan's eligibility criteria for the supplement.
    - Review the historical earnings information obtained by the auditor and identify any years beginning with the calendar before the DOPT year through the most recently ended calendar year for missing earnings and other eligibility criteria.
    - Request missing earnings and other eligibility information using the *eALG 542M Missing Earnings Request Letter*. Follow procedures in eALG Correspondence Help to modify the letter to reflect whether receipt of ▸SSA disability benefits is a continuing eligibility factor for the supplement under the plan.
15. Continue to collect earnings and other eligibility information going forward for each year the participant is eligible for a supplement or until the year BDLs are targeted to be issued.

    No later than January 31 of each year, send the *eALG 542EB Earnings Offset Letter – Payee Receiving Estimated Benefits* to request actual earnings for the prior year and, if applicable, information about receipt of SSA disability benefits. Follow procedures in eALG Correspondence Help to modify the 542EB to reflect whether receipt of SSA disability benefits is an eligibility factor for the supplement under the plan.

> **Note** Do not request proof of earnings. However, do request proof of entitlement to SSA disability benefits, if applicable, under plan provisions.

> **Note** Do not apply earnings offsets using the collected earnings information while paying estimated benefits.

The information will be used later to reconcile earnings offsets and benefit payments in preparation for issuing BDLs as described in TP 51.2 Reconcile Earnings Offset for Benefit Determinations.

**Note** Earnings information will be needed to calculate the earnings offset and actual supplements due the calendar year before the DOPT year. Under most plan provisions, any resulting earnings-offset overpayment for the calendar year before the DOPT year would have been collectible during the DOPT year. In addition, any resulting earnings-offset underpayment would have been payable during the DOPT year. These earnings-offset related adjustments may affect the PBGC benefits payable during the DOPT year.

16. If earnings information is not received as requested, do not send a follow-up request:
    - The plan's maximum earnings limit will be applied when the earnings-offsets are later reconciled.
    - If receipt of SSA disability benefits is a continuing eligibility factor, stop paying the supplement. The participant is assumed to have become eligible for those benefits.
17. Continue to monitor participants' continuing eligibility for a supplement based on plan provisions and take appropriate action, for example:
    - Pay the estimated PBGC supplement due when putting eligible participants into pay status.
    - Stop paying the estimated PBGC supplement when the participant is no longer eligible under plan provisions, for example, at age 62 or 65 or upon receipt of SSA disability benefits.

    **Note** Supplements paid after the participant is no longer eligible for a supplement are benefit overpayments, rather than earnings-offset overpayments, that must be addressed when the BDL is issued.
18. If the participant is no longer eligible for a supplement, notify the participant at least 30 days before the last supplement will be paid.
19. Update the tracking worksheet or system as needed to reflect the payment of the supplement and administration of the earnings-offset provisions based on the above activities.
20. Ensure that all earnings and eligibility information is imaged in each affected participant's file.

Top of Page

## TP 51.2 Reconcile Earnings Offsets for Benefit Determinations

**07/01/2016**

| | |
|---|---|
| **Purpose** | To reconcile earnings offsets in order to issue benefit determination letters. |
| **Guidance** | Policy 6.2-1 Earnings-Offset Provisions<br><br>Policy 6.2-1 Earnings-Offset Provisions - Appendix - Comprehensive Earnings-Offsets Examples |
| **Procedure Owner** | EBLS/FBA/PBA |

In preparing to issue ▸BDLs, the estimated ▸benefit payments paid by PBGC must be reconciled with those due after earnings offsets have been applied to the year before the ▸DOPT year through the effective date of the BDL. Therefore, the following earnings-offset reconciliation must be completed using the earnings information collected under TP 51.1 Administer Earnings Offsets before Benefit Determinations:

- Earnings offsets and the actual supplements that were due must be calculated for each ▸participant eligible for a supplement under ▸plan provisions beginning with the calendar year before the DOPT year through the calendar year before the year in which the BDL will be issued.
- The actual supplements that were due must then be reconciled with those paid to determine if any earnings-offset overpayments were collectible or any earnings-offset underpayments were payable the following year:
  - Earnings-offset underpayments may be offset against any resulting earnings-offset overpayments that occurred during the same year (contact Ask PPD for guidance on netting earnings-offset underpayments with earnings-offset overpayments that do not occur within the same year). Net earnings-offset underpayments are otherwise owed as of April 1 of the year following the year the underpayment was incurred and are similar to other benefit underpayments.
  - Earnings-offset overpayments are collected by a temporary reduction in the benefit payments otherwise due the participant and are applied in calculating the amount of the actual benefit payments due through the effective date of the BDL.

The plan's earnings-offset provisions and practice are followed in calculating the supplements and benefit payments payable through the ▸DOTR year. For example:

- If the plan used estimated earnings in calculating and paying an anticipated supplement, estimate earnings (if available) must be used to calculate an anticipated PBGC supplement and the benefit payments for that year.
- If the plan applied a 100% benefit reduction to collect an earnings-offset overpayment, a 100% benefit reduction must be applied to collect an earnings-offset overpayment.

After the DOTR year, the method in Policy 6.2-1 Earnings-Offset Provisions is used.

For detailed examples of this reconciliation, see Policy 6.2-1 Earnings-Offset Provisions - Appendix - Comprehensive Earnings-Offsets Examples.

1. Target issuance of BDL and establish the expected effective date of the BDLs. Coordinate issuance of the BDLs with collection of earnings and other eligibility information for the previous year.
2. Review the *Summary of Plan Supplement and Earnings-Offset Provisions* or similar summary document prepared by the actuary to identify the plan's earnings-offset provisions, and practice for applying those provisions.
3. Using the *Summary of Plan Supplement and Earnings-Offset Provisions* or similar summary document, the tracking worksheet, the *Actuarial Case Report* or other information provided by the actuary, and earnings-offset information in the participant's file, identify and evaluate the impact of the following for each participant eligible for a supplement under plan provisions:
   - The dates the participant otherwise met the plan's eligibility requirements for the supplement.
   - For participants in pay status before DOPT, the participant's non-supplemental plan benefit payable before DOPT.

- For each year the participant was eligible for a supplement, the plan supplement, prior to offset, provided under plan provisions for the year before the DOPT year through the year before the year the BDL will be issued.
- For each year the participant was eligible for a supplement, the participant's non-supplemental PBGC benefit due from DOPT through the targeted effective date of the BDL.
- For each year the participant was eligible for a supplement, the PBGC supplement, prior to offset, payable beginning with DOPT through the year before the year in which the BDL will be issued. Note that the PBGC supplement may change due to other factors, such as, the participant's elected benefit and/or the asset allocation.

4. Calculate the actual earnings offsets, actual PBGC supplement due, and any resulting earnings-offset overpayments and benefit reduction or earnings-offset underpayments, using the:
   - *Yearly Earnings-Offset Calculation Worksheet*: Use the yearly worksheet if all of the following apply:
     - The participant was entitled to a supplement for all 12 months of the year.
     - The monthly amount of the supplement, whether the PBGC or plan supplement, that the participant was entitled to was the same for all 12 months.
     - The participant was paid a supplement for all 12 months or the supplement was suspended all 12 months.
     - The monthly amount of the supplement that was paid did not change during the year.
   - *Monthly Earnings-Offset Calculation Worksheet*: Use the monthly worksheet if any of the following apply:
     - The participant was not entitled to a supplement for all 12 months of the year (for example, the first or last year the participant was entitled to the supplement).
     - The monthly amount of the supplement, whether the PBGC or plan supplement, that the participant was entitled to was not the same for all 12 months (for example, due to the participant's benefit form and PBGC's limitations on guaranteed benefits the amount of the PBGC supplement may vary at different times).
     - The participant was paid a supplement for at least one month but not all 12 months.
     - The monthly amount of the supplement that was paid was not the same for all 12 months.

   Contact Ask PPD for assistance if these worksheets are not adequate for performing the reconciliation under plan provisions and/or Policy 6.2-1 Earnings-Offset Provisions.

   If the plan used estimated earnings to calculate an anticipated supplement and estimated earnings information is available:

   - Two offset calculations are needed, one using the estimated earnings and one using the actual earnings, for each year the participant was eligible for a supplement beginning with the year before the DOPT year through the DOTR year. Estimated earnings are not used after the DOTR year.
   - The anticipated supplement is treated as having been paid, rather than the actual amount that was paid, and is entered into the worksheet as the supplement that was paid. Differences between the supplement that was actually paid and the amount that should have been paid will be reflected later in any benefit overpayment or underpayment.

5. If any earnings-offset underpayments result:
   - Treat it as a benefit underpayment due April 1 of the year after the underpayment was incurred.
   - Net the underpayment with any earnings-offset overpayments that occur during the same year.
   - Net the underpayment with any benefit overpayments.

> **Note** Earnings-offset underpayments generally only occur if the plan used estimated earnings to pay an anticipated supplement and the actual earnings were less than those estimated. Earnings-offset underpayments and overpayments generally will only occur during the same year if the offset is applied on a month-to-month basis rather than on a yearly basis. Contact Ask PPD for guidance before netting earnings-offset underpayments with earnings-offset overpayments that are incurred in a different year.

6. If any earnings-offset overpayments result, apply the benefit reduction to the monthly benefit due for the 12-month period beginning April 1 of the year after overpayment was incurred to determine the actual payment that should have been made.

   **Example:** The participant is entitled to a monthly benefit of $1,200, consisting of a life benefit of $1,000 and a temporary supplement of $200. The participant had an earnings-offset overpayment for 2011 that will be collected by a monthly benefit reduction of $150. The participant was eligible for benefit payments of $1,050 ($1,200 - $150) from 04/2012–03/2013.

> **Note** Earnings-offset overpayments are not treated the same as benefit overpayments and the rules in Policy 6.4-1 Repayment of Benefit Overpayments through Recoupment, Recovery, and Administrative Correction do not apply to earnings-offset overpayments.

7. Use the actual benefit payments due to determine any benefit overpayments or underpayments through the effective date of the BDL.

   **Example (continued from step 6):** The participant was due benefit payments of $1,050 ($1,200 - $150) from 04/2012–03/2013. Estimated benefits of $1,225 (including an estimated supplement) were paid from 04/2012–09/2012 and estimated benefits of $1,025 were paid 10/2012–03/2013. The participant will have a net benefit overpayment of $900 for 04/2012–03/2013 that must be recouped

   - Benefit overpayment for 04/2012–09/2012 = ($1,050 - $1,225) X 6 months = $1,050
   - Benefit underpayment for 10/2012–03/2013 = ($1,050 - $1,025) X 6 months = $150
   - Net benefit overpayment 04/2012–03/2013 = $900

8. Issue the BDL (see Process 19 Benefit Determination Letters) and adjust benefit payments in accordance with the BDL as of the effective date of the BDL:
   - Include information about eligibility for the supplement in the BDL.
   - Pay the benefit the participant is entitled to receive including the PBGC supplement prior to offset.
   - Recoup any net benefit overpayments or pay any net benefit underpayments, including any earnings-offset underpayment.
   - Apply the calculated benefit reduction, if any, to collect any earnings-offset overpayment for the previous year to any months remaining in the 12-month collection period.
9. Update the tracking worksheet or system as needed to reflect the payment of the supplement and administration of the earnings-offset provisions based on the above activities.
10. Ensure that all calculations for the reconciliation are imaged in each affected participant's file.

Top of Page

## TP 51.3 Reconcile Earnings Offsets Annually after Benefit Determinations

**07/01/2016**

| | |
|---|---|
| **Purpose** | To reconcile earnings offsets annually beginning the year after issuing BDLs. |
| **Guidance** | Policy 6.2-1 Earnings-Offset Provisions |
| **Procedure Owner** | EBLS/PBA/PVA/FBA |

Beginning the year after the ▸BDL is issued and continuing for each year the ▸participant is eligible for a supplement, an annual reconciliation must be performed.

1. After the BDL is issued, continue to pay the amount of the PBGC supplement due prior to offset, unless the participant has voluntarily requested suspension of the supplement (see TP 51.4 Process Request for Voluntary Suspension of Supplements).
2. In late December or early January, but no later than January 15, send the *eALG 542FB Earnings Offset Letter – Payee Receiving Final Benefits* requesting actual earnings for the previous year and, if applicable, information about receipt of ▸SSA disability benefits. Follow instructions in eALG Correspondence Help to modify the letter to reflect whether receipt of SSA disability benefits is an eligibility factor for the supplement under the ▸plan:
   - Request proof of entitlement to SSA disability, if applicable, under plan provisions.
   - Do not request proof of earnings.
3. If earnings information and/or information about eligibility for SSA disability benefits, when applicable, is not received as requested, do not sent a follow-up request:
   - The plan's maximum earnings limit must be applied when the earnings-offsets are reconciled.
   - If receipt of SSA disability benefits is a continuing eligibility factor, stop paying the supplement. The participant is assumed to have become eligible for those benefits.
4. Calculate the actual earnings offsets, actual PBGC supplement due, and any resulting earnings-offset overpayments and benefit reduction or underpayments, using one of the:
   - *Yearly Earnings-Offset Calculation Worksheet:* Use the yearly worksheet if all of the following apply:
     - The participant was entitled to a supplement for all 12 months of the year.
     - The monthly amount of the supplement, whether the PBGC or plan supplement, that the participant was entitled to was the same for all 12 months.
     - The participant was paid a supplement for all 12 months or the supplement was suspended all 12 months.
     - The monthly amount of the supplement was the same for all 12 months.
   - *Monthly Earnings-Offset Calculation Worksheet:* Use the monthly worksheet if any of the following apply:
     - The participant was not entitled to a supplement for all 12 months of the year (for example, the first or last year the participant was entitled to the supplement).
     - The monthly amount of the supplement, whether the PBGC or plan supplement, that the participant was entitled to was not the same for all 12 months (for example, due to the participant's benefit form and PBGC's limitations on guaranteed benefits the amount of the PBGC supplement may vary at different times).
     - The participant was paid a supplement for at least one month but not all 12 months.
     - The monthly amount of the supplement was not the same for all 12 months.

   Contact Ask PPD for assistance if these worksheets are not adequate for performing the reconciliation under plan provisions and/or Policy 6.2-1 Earnings-Offset Provisions.

   In calculating the earnings-offset overpayments and underpayment, use the PBGC supplements actually paid each month or year. Note that after the BDL has been issued, the participant should be paid the PBGC termination supplement, prior to offset, unless the participant has requested voluntary suspension of the supplement.

> **Note** Payment of a supplement in excess of the PBGC supplement, prior to offset, is a benefit overpayment subject to recoupment, not an earnings-offset overpayment. The excess over the payable PBGC supplement is the benefit overpayment.

5. If any earnings-offset overpayments results:
   - Apply the 12-month benefit reduction for the period beginning April of the reconciliation year through March of the following year to collect the earnings-offset overpayment.
   - Notify the participant of the change in the benefit payment.
6. Earnings-offset underpayments generally will not occur under this process because the PBGC supplement, prior to offset, is paid. However, earnings-offset underpayments may occur if the supplement was suspended for all or part of a year.

   Treat any earnings-offset underpayment for the previous year as a benefit underpayment due as of April 1 of the reconciliation year:
   - Notify the participant of the underpayment.
   - Pay the underpayment as soon as practicable even if the supplement continues to be suspended.
7. Continue to monitor participant eligibility for a supplement based on plan provisions and take appropriate action, for example:
   - Pay the PBGC supplement due, prior to offset, when putting eligible participants into pay status.
   - Stop paying the PBGC supplement when the participant is no longer eligible under plan provisions, for example, at age 62 or upon receipt of SSA disability benefits.
   - Collect earnings and other eligibility information and apply earnings offsets through the last year that the participant is otherwise eligible for the supplement.
   - Collect any earnings-offset overpayment or pay any earnings-offset underpayment the following year.
8. When the participant is no longer eligible for the supplement, notify the participant at least 30 days before the last supplement will be paid.
9. Update the tracking worksheet to reflect the activities in steps 1-8.
10. Ensure that all earnings and eligibility information (including calculations) is imaged in each affected participant's file.

**Note** Supplements paid after the participant is no longer eligible for a supplement are benefit overpayments subject to recoupment, not earnings-offset overpayments.

## TP 51.4 Process Request for Voluntary Suspension of Supplements

**07/01/2016**

| | |
|---|---|
| **Purpose** | To suspend a supplement upon written request from the participant. |
| **Guidance** | Policy 6.2-1 Earnings-Offset Provisions |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

If a participant requests to suspend his or her PBGC supplement (estimated or final), apply the rules in Policy 6.2-1 Earnings-Offset Provisions, section E.6. Voluntary Suspension of PBGC Supplement, as follows:

1. Continue any voluntary suspension of the supplement made by the plan before trusteeship.
2. After trusteeship, honor only written requests for suspension of the supplement.
3. Upon receipt of an acceptable request to suspend the supplement, notify the participant of the date that the suspension will begin, generally no more than 60 days after receipt of the request, and take action to suspend the supplement.
4. Continue to collect earnings and other eligibility information as previously described in TP 51.
5. Reconcile the earnings-offset for each year the participant is eligible for a supplement as previously described in TP 51.
   - If the participant was due all or part of the supplement for the previous year, treat it as an earnings-offset underpayment owed as of April 1 of the reconciliation year and make payment.
   - However, continue the suspension of the monthly supplement unless the participant requests that the supplement be reinstated.
6. Upon receipt of a written request to reinstate a supplement, notify the participant of the date that payment will be reinstated, generally no more than 60 days after receipt of the request, and take action to reinstate the supplement.

   Only pay the supplement retroactively (for the year of reinstatement) if specifically requested by the participant (this request does not have to be in writing). However, do not pay interest on the retroactive payment.

## TP 51.5 Resources for Earnings Offsets

**09/30/2016**

**Forms, Letters, and Memos:**

- *Estimated Benefit Adjustments Analysis Memo*
- *Monthly Earnings-Offset Calculation Worksheet*
- *Summary of Plan Supplement and Earnings-Offset Provisions*
- *Yearly Earnings-Offset Calculation Worksheet*

**Customer Correspondence and Forms:**

- *eALG 542EB Earnings Offset Letter – Payee Receiving Estimated Benefits*
- *eALG 542FB Earnings Offset Letter – Payee Receiving Final Benefits*
- *eALG 542M Missing Earnings Request Letter*

**Guidance:**

- *Policy 6.2-1 Earnings-Offset Provisions*
- *Policy 6.2-1 Earnings-Offset Provisions - Appendix - Comprehensive Earnings-Offsets Examples*

**Exhibits:**

*None*

TP 52.1 Prepare Frequently Asked Questions
TP 52.2 Issue Cash Balance BDLs
TP 52.3 Update Cash Balance Program
TP 52.4 Provide Cash Balance Benefit Calculations
TP 52.5 Pay Cash Balance Annuities
TP 52.6 Pay Cash Balance Lump Sums
TP 52.7 Resources for Cash Balance and Other Statutory Hybrid Plans

# TP 52. Overview for Cash Balance and Other Statutory Hybrid Plans

**08/28/2014**

This technical procedure provides guidance on processing both pre-▸PPA 2006 cash balance (see Policy 5.12-1: Cash Balance Plans-Valuing and Paying Benefits) and post-PPA 2006 statutory hybrid (see Policy 5.12-2: Statutory Hybrid Plans–Valuing and Paying Benefits) plans. For pre-PPA 2006 cash balance plans, follow this technical procedure in its entirety. Process statutory hybrid plans, including post-PPA 2006 cash balance plans, as traditional defined benefit plans except as follows:

- Complete TP 52.1 Prepare Frequently Asked Questions for all cash balance plans, but for statutory hybrid plans only if FAQs will be posted on the plan-specific Web site.
- If ▸*de minimis*▸ lump sums are not equal to the account balance at DOPT, complete TP 52.6 Pay Cash Balance Lump Sums.

**Cash Balance Plans (Pre-PPA 2006)**

A cash balance plan is a ▸defined benefit plan with some features of a ▸defined contribution plan. Whereas most defined benefit plans describe a pension in terms of an annuity at a normal retirement date, cash balance plans generally define the retirement benefit in terms of a hypothetical account balance that is either payable as a lump sum when the participant terminates employment or retires, or converted into an annuity at a given retirement date. Cash balance plans may use fixed or variable interest rates to calculate benefits. In plans that use variable interest rates, PBGC may have to recalculate the final benefit even after ▸BDLs have been issued. A lump-sum benefit may be paid if the present value or the account balance at the date of plan termination (▸DOPT) is less than $5,000; the participant receives the greater of the two. See Policy 5.12-1: Cash Balance Plans—Valuing and Paying Benefits for further information about these plans.

In general, cash balance plans are processed the same as other defined benefit plans, with differences in the following areas:

- Preparing Frequently Asked Questions attachments for ▸eALG letters (see TP 52.1 Prepare Frequently Asked Questions).
- Issuing Benefit Determination Letters (see TP 52.2 Issue Cash Balance BDLs).
- Maintaining a Cash Balance Update Program used for benefit calculations (see TP 52.3 Update Cash Balance Program).
- Processing benefit estimates (see TP 52.4 Provide Cash Balance Benefit Calculations).
- Processing annuity and lump-sum payments (see TP 52.5 Pay Cash Balance Annuities and TP 52.6 Pay Cash Balance Lump Sums).

**Statutory Hybrid Plans (Including Post-PPA 2006 Cash Balance Plans)**

The term *statutory hybrid plan* is a result of the Pension Protection Act of 2006 (PPA 2006) and subsequent regulations issued by the Department of Treasury, and generally refers to those cash balance plans and similar plans, such as pension equity plans, that fall under the PPA 2006 termination rules. Specifically, a statutory hybrid plan is a defined benefit plan that contains a lump sum-based formula (or formula with a similar effect). This includes formulas under the terms of which a participant's accumulated benefit is expressed as the balance of a hypothetical account (for example, a cash balance plan), or as the current value of the accumulated percentage of the participant's final average compensation (for example, a pension equity plan), and under which the accrued benefit is calculated as the ▸actuarial equivalent of the hypothetical account balance or accumulated percentage.

The changes made by PPA 2006 to the administration of applicable cash balance and other similar plans (that is, statutory hybrid plans) include:

- Requiring these plans to provide that, upon plan termination, any variable interest rate (for example, the rate on 30-year Treasury bonds) used by the plan to credit interest to participants' hypothetical accounts or to convert account balances to annuities will be averaged upon plan termination.

- Requiring these plans to establish a three-year vesting criterion for participants in a statutory hybrid plan.
- Allowing these plans to pay lump sums based on a participant's hypothetical account balance (not the greater of the account balance and the present value of the vested monthly accrued benefit).

Policy 5.12-2: Statutory Hybrid Plans—Valuing and Paying Benefits provides guidance on implementing these changes as they affect PBGC valuation and payment of benefits under terminated cash balance and other statutory hybrid plans. This policy applies to cash balance and other statutory hybrid plans that are subject to the PPA 2006 statutory hybrid plan rules. **For most terminated cash balance plans, this means the DOPT was during or after the plan year that begins on or after 01/01/2008; certain collectively bargained plans have later effective dates. It also applies to any plan created as, or converted to, a statutory hybrid plan on or after 06/29/2005.**

For PBGC, the changes required under PPA 2006 and regulations issued by Treasury and PBGC can be summarized as follows:

- Variable rates become fixed upon plan termination—PBGC converts variable rates using an average of the rates used under the plan for the five-year period before plan termination.
- In determining and paying de minimis lump sums, PBGC generally uses only the amount of the participant's account balance at plan termination, instead of comparing the account balance to the present value of the annuity (a "whipsaw lump sum"), unless the plan provided otherwise.
- Default rules are now in place for trusteed plans whose plan provisions did not comply with the PPA 2006 rules.

See Policy 5.12-2: Statutory Hybrid Plans—Valuing and Paying Benefits for further information about these plans.

**Documenting Plan and Participant Files**

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

Top of Page

## TP 52.1 Prepare Frequently Asked Questions

**07/01/2016**

| | |
|---|---|
| **Purpose** | To prepare Frequently Asked Questions (FAQs) and answers for inclusion in letters and/or the plan-specific Web page. |
| **Guidance** | Policy 5.12-1 Cash Balance Plans-Valuing and Paying Benefits<br>Policy 5.12-2 Statutory Hybrid Plans–Valuing and Paying Benefits |
| **Procedure Owner** | Actuary |

This procedure is optional for statutory hybrid ▸plans. If FAQs will not be prepared for the plan-specific Web page, no action is required.

1. For each new plan, prepare plan-specific responses to the frequently asked questions (FAQ) in the *Cash Balance FAQ Template*.
2. Add plan-specific responses to the FAQs to the plan-specific Web page (see TP 50 Plan-Specific Web Announcements).
3. Proceed according to the type of plan.
   - Pre-PPA 2006 Cash Balance Plan: Proceed to step 4.
   - Statutory Hybrid Plan (includes post-PPA 2006 plans): Continue processing the plan as a traditional ▸defined benefit plan. Do not complete steps 4–7.
4. Use the responses to prepare separate FAQ attachments for ▸lump sum and ▸annuity ▸participants, as follows:
   - Annuity FAQ Attachment requires FAQs 1-7 from the *Cash Balance FAQ Template*.
   - Lump-Sum FAQ Attachment requires FAQs 1-9 from the *Cash Balance FAQ Template*.
5. Title each FAQ attachment indicating whether for lump-sum or annuity participants and include the ▸PBGC case number and name. For example, for the XYZ Company cash balance plan, case number 123456, call the attachments *Annuity CB FAQ – 123456 Plan XYZ* and *Lump Sum CB FAQ – 123456 Plan XYZ*.
6. Upon finalizing the FAQ attachments, submit them to Ask PPD for concurrence. ▸PPD forwards the approved documents to ▸CCD to make available in ▸eALG.
7. Upon notification that the FAQ attachments are in production in eALG, notify the Case Team.

## TP 52.2 Issue Cash Balance BDLs

**07/01/2016**

| | |
|---|---|
| **Purpose** | To describe how and when to issue BDLs for cash balance plan participants. |
| **Guidance** | Policy 5.12-1 Cash Balance Plans—Valuing and Paying Benefits<br>Policy 5.12-2 Statutory Hybrid Plans—Valuing and Paying Benefits |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

This procedure applies only to ▸cash balance plans covered under Policy 5.12-1 Cash Balance Plans—Valuing and Paying Benefits. If the ▸plan is a statutory hybrid plan covered under Policy 5.12-2 Statutory Hybrid Plans—Valuing and Paying Benefits, process the ▸BDLs the same as for a traditional ▸defined benefit plan (see Process 19 Benefit Determination Letters).

1. Upon notification from the case ▸actuary that BDLs may be issued, ensure plan-specific FAQ attachments are available in ▸eALG. There should be an ▸Annuity FAQ and ▸Lump Sum FAQ. Contact the case actuary with any questions.
2. Follow Process 19.2 Review Actuarial Case Request and Issue BDLs for general instructions on issuing BDLs and taking follow-up actions.
3. Use the following tables to determine the correct BDL based on the participant's circumstances. For the non-vested and non-plan members, use the same letters for non-cash balance plans.
   - ▸Retirees Currently Receiving Annuity Benefits Table
   - ▸Retirees Who Received a Lump-Sum Payment Table
   - ▸Non-Retirees (Deferred Vested) Table
4. Contact Ask PPD with any questions regarding the appropriate letter to issue.

## TP 52.3 Update Cash Balance Program

**07/01/2016**

| | |
|---|---|
| **Purpose** | To update valuation programs for cash balance plans that require periodic updating. |
| **Guidance** | Policy 5.12-1 Cash Balance Plans - Valuing and Paying Benefits |
| **Procedure Owner** | Actuary |

Cash balance rates may include interest rates for accumulating the account balance, ▸interest rates for converting the account balance to an ▸annuity, or mortality tables for converting the account balance to an annuity. Any of these rates may be fixed or variable. This section applies only to ▸cash balance plans that have variable rates**.**

Cash balance plans that have variable rates need to be periodically updated, usually annually. The update serves two purposes:

- To ensure software correctly calculates the pension ▸benefits of ▸participants either commencing their PBGC benefits or requesting estimated annuity amounts for a future retirement.
- To provide ▸TRMD with updates to the expected retirement date and termination benefit at the expected retirement date to be loaded to ▸Genesis for use in ▸IPVFB.

The ▸actuary runs periodic updates. Prior to ▸plan closing, the actuary provides the *Instructions for Processing Cash Balance Case* in the Archive.

This section describes how to update ▸ACT valuation programs for cash balance plans that require periodic updating.

**Actuary**

1. Send an email to TRMD Services requesting the plan database be updated with current data in ▸Spectrum. TRMD will deliver this information in electronic format.
2. Create a new folder **I:\software\########\CashBalanceUpdateYYYY**, where YYYY = current year and ######## = 8-digit ▸PBGC case number. For example, if the case number is 123456-00 and the ▸plan year is 2008, the folder is **I:\software\12345600\CashBalanceUpdate2008**.
3. Copy the following files from the previous year to the new folder created above. See the list of files in ▸Files to Copy From Table, if the PBGC case number is 123456-00 and the plan year is 2008, copy the files listed below from **I:\software\12345600\CashBalanceUpdate2007** and put them into the file called **I:\software\12345600\CashBalanceUpdate2008**.

   If this is the first update, create a folder and insert the following files from the ▸Files for First Updates Table.
4. Determine the current cash balance rates by following *Instructions for Processing Cash Balance Case* prepared by the actuary.
5. Update the programming by following the steps in *Instructions for Processing Cash Balance Case*. For instance, if the PBGC case number is 123456-00 and the current plan year is 2008, then update the files in **I:\software\12345600\CashBalanceUpdate2008**. Be sure to leave the files in **I:\software\12345600\CashBalanceUpdate2007** unchanged. The files to update are in the ▸Files to Update Table.
6. Verify the following required participant-level fields listed in the ▸Cash Balance Table are located in the Access database (for example, 12345600.mdb) and the Listing for YYYY Annual Update (for example, 12345600L1.xls):

   **Notes:**

   a. CBPI is "Y" for participants entitled to a cash balance benefit, otherwise "N." CBUI is "Y" for participants whose benefit includes a cash balance benefit as of DoPT (that is, participants with a cash balance account balance) and have an updated XRD and TERM_MB_XRD for the current update. Beneficiaries of deceased participants not yet in pay status and not cashed out will be calculated with CBUI = N and CBPI = Y.

   b. AUXRD is the same as the valuation XRD if a participant's valuation XRD is on or after the first day of the plan

year during which the updates are being calculated. In this case, AUXRB only needs to be updated to reflect the new interest credit rate(s) and new annuity conversion rates, if applicable.

c. AUXRD is the first day of the plan year during which the updates are taking place if a participant's valuation XRD is on or after the first day of the plan year during which the updates are calculated.

   **Example:** Plan Anniversary is 02/01 and updates are being calculated on 05/12/2007. If the participant's valuation XRD is 12/01/2006, AUXRD will be 02/01/2007. If the participant's valuation XRD is 03/01/2007, the AUXRD will equal XRD.

d. AUXRB is the same as TERM_MB_XRD except:

   i. AUXRB reflects the current cash balance rates, and

   ii. AUXRB will be calculated as of AUXRD, so other benefit components, for example, an updated early retirement factor, benefit form conversion factor, or late retirement factor need to be determined as of AUXRD to determine AUXRB.

7. Send an e-mail to TRMD Services to request the Cash Balance Update in Genesis. Use the following format:

   Please perform the Cash Balance Update for PBGC case number ########.

   The electronic files are in **I:\software\########\CashBalanceUpdateYYYY**.

   These files include:

   - An electronic version of the Cash Balance Software Review Checklist.
   - The ######.mdb database, with CBPI, CBBUI, AUXRD and AUXRB updated and ready to be uploaded to Genesis.

The assigned ▸FBA is [Name, Office].

**TRMD**

8. Upon receipt of the Actuary's request, upload the appropriate cash balance fields by replacing XRD and TERM-MB-XRD (for all participants in the database where CBUI and CPUI are 4) with AUXRD and AUXRB, respectively.
9. Archive the following electronic case files as well as other files as determined by the Actuary. See the list of files in the ▸Files to Archive Table, the PBGC case number is 123456-00 and the current year is 2008. See also TP 16.5 Archive Electronic Files.
10. Inform the Actuary via email that the current Annual Update has been performed.

**Actuary**

11. Verify the current Annual Update works properly on Archives and that benefit recalculations can be run.

# TP 52.4 Provide Cash Balance Benefit Calculations

**07/01/2016**

| | |
|---|---|
| **Purpose** | To provide benefit calculations to cash balance benefit participants. |
| **Guidance** | Policy 5.12-1 Cash Balance Plans - Valuing and Paying Benefits<br>Policy 5.12-2 Statutory Hybrid Plans–Valuing and Paying Benefits |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

**In this Section**

TP 52.4A Provide Pre-BDL Estimated Benefit Calculations
TP 52.4B Provide Post-BDL Benefit Calculations

**TP 52.4A Provide Pre-BDL Estimated Benefit Calculations**

**12/22/2016**

This procedure applies to ▸cash balance plans under Policy 5.12-1: Cash Balance Plans-Valuing and Paying Benefits. If the ▸plan is a statutory ▸hybrid plan covered under Policy 5.12-2: Statutory Hybrid Plans—Valuing and Paying Benefits, process the plan as a traditional ▸defined benefit plan (see TP 32 Provide Estimated Benefit Calculations).

**EBLS/FBA/PBA/PVA**

1. Upon receipt of inquiry, verify that the plan's status is estimated. If the plan is final, see TP 52.4B Post-BDL Benefit Calculations.
2. Determine if the customer is affected by the Uniformed Services Employment and Reemployment Rights Act of 1994 (▸USERRA) (see TP 62 USERRA Benefits). If so, also include appropriate language in the benefit estimate letter.
3. Run the calculations using the appropriate cash balance update program provided by the ▸actuary. If the rates that will be in effect on the ▸Annuity Starting Date (ASD) are not yet available, issue the estimate using the most current update program.
4. Ensure the plan-specific FAQs are available in ▸eALG. Each plan has two FAQ attachments. If the appropriate FAQ attachment is not available, contact the plan actuary. Do not proceed without the plan-specific FAQ.
5. Send *eALG 305CB Response to Inquiry for Annuity Benefit Estimate - Cash Balance* with Annuity FAQ, and *Form 700 Participant Application for Pension Benefits*, if requested.
6. Upon receipt of the application, see TP 52.5 Pay Cash Balance Annuities or TP 52.6 Pay Cash Balance Lump Sums.

**TP 52.4B Provide Post-BDL Benefit Calculations**

**12/22/2016**

This procedure applies to ▸cash balance plans under Policy 5.12-1: Cash Balance Plans-Valuing and Paying Benefits. If the ▸plan is a statutory ▸hybrid plan covered under Policy 5.12-2: Statutory Hybrid Plans—Valuing and Paying Benefits, process the plan as a traditional ▸defined benefit plan.

**EBLS/FBA/PBA/PVA**

1. Upon receipt of inquiry, verify whether the plan's status is final or estimated. If the plan is estimated, see TP 52.4A Pre-BDL Estimated Benefit Calculations.
2. Proceed according to whether the ▸participant's request is for information only or the participant is ready to apply for ▸benefits now and go into pay status.
   a. **Participant requests an information-only estimate without a specific Annuity Starting Date:**
      i. Run the calculations using the appropriate cash balance update program provided by the ▸actuary.
      ii. Ensure the plan-specific FAQs are available in ▸eALG. Each plan has two FAQ attachments. If the appropriate FAQ attachment is not available, contact the plan actuary. **Do not proceed without the plan-specific FAQ.**
      iii. Issue the estimated benefit calculation, using the appropriate cash balance eALG letter and FAQ attachment according to what the participant is entitled to. Note that these letters are for benefit calculations without a particular ▸Annuity Starting Date.
         - **If eligible for an annuity with Early Retirement Benefit Payable** - Send *eALG 585CB Deferred Vested Annuity – Cash Balance* with *Annuity FAQ*.
         - **If eligible for an annuity with Normal Retirement Benefit Payable** - Send *eALG 585CB Deferred Vested Annuity – Cash Balance* with *Annuity FAQ*.
         - **If eligible for a lump sum** - Send *eALG 585LCB Response to Inquiry for Lump-Sum Estimate w/Annuity Option – Lump Sum* with *Lump Sum FAQ* and *Form 720 Application for Lump-Sum Payment* if the lump-sum amount is less than $5,000, or *Form 703 Application for Elective Lump-Sum Payment* if $5,000 or greater and spousal consent is required. (In a cash balance plan, a participant may receive a lump sum if the present value or the account balance at DOPT is $5000 or less.)
   b. **Participant is ready to go into pay status OR requests an information-only estimate with a specific Annuity Starting Date:**
      i. Run the calculations using the appropriate cash balance update program provided by the actuary. If the rates that will be in effect on the Annuity Starting Date (ASD) are not yet available, issue the estimate using the most current update program.
      ii. Ensure the plan-specific FAQs are available in eALG. Each plan has two FAQ attachments. If the appropriate FAQ attachment is not available, contact the plan actuary. **Do not proceed without the plan-specific FAQ.**
      iii. Send *eALG 584CB Response to Inquiry for a Benefit Estimate – Annuity Starting Date – Cash Balance*, *Annuity FAQ*, and *Form 700 Participant Application for Pension Benefits*.
      iv. Upon receipt of the Benefit Application Package (▸BAP), see TP 52.5 Pay Cash Balance Annuities or TP 52.6 Pay Cash Balance Lump Sums.

# TP 52.5 Pay Cash Balance Annuities

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process an application for cash balance annuity benefit payments. |
| **Guidance** | Policy 5.12-1 Cash Balance Plans - Valuing and Paying Benefits<br>Policy 5.12-2 Statutory Hybrid Plans–Valuing and Paying Benefits |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

**In this Section**

TP 52.5A Pay Estimated Cash Balance Annuities
TP 52.5B Pay Final Cash Balance Annuities

**TP 52.5A Pay Estimated Cash Balance Annuities**

**07/01/2016**

This procedure applies to ▸cash balance plans under Policy 5.12-1: Cash Balance Plans-Valuing and Paying Benefits. If the ▸plan is a statutory ▸hybrid plan covered under Policy 5.12-2: Statutory Hybrid Plans—Valuing and Paying Benefits, process the payment the same as for a traditional ▸defined benefit plan (see TP 20 Benefit Payments).

**EBLS/FBA/PBA/PVA**

1. Upon receipt of an application for ▸annuity ▸benefits, verify the ▸participant is entitled and eligible to go into pay status now. If the participant is not eligible, call the participant and create a ▸CRM record or send an ▸eALG letter of explanation.
2. Ensure the participant has received a benefit estimate reflecting the ▸Annuity Starting Date (ASD). If not, issue the estimate using the most current update program. See TP 52.4 Provide Cash Balance Benefit Calculations.
3. Verify the application on file is complete. See TP 20.3 Process Applications for Annuity Benefits.
4. Proceed based on whether the cash balance rates used in the estimate provided the participant were fixed or variable (or a combination). A cash balance plan may require up to three rates to calculate benefits (as explained in TP 52.3 Update Cash Balance Program). If any rate used in the estimate was not current as of ASD, a recalculation is required. Contact the case ▸actuary with any questions.
   a. **Estimate was prepared using only fixed OR variable rates current as of the Annuity Starting Date:**
      i. Put the participant into pay status in ▸Spectrum based on the updated benefit estimate with a special check for back payments, as needed (see TP 20.3 Process Applications for Annuity Benefits).
      ii. Confirm authorization of payment(s).
      iii. Issue *eALG 301CB Estimated Benefit, New Payee, No Retroactive Payments – Cash Balance* with *Annuity FAQ,* or *eALG 302CB Estimated Benefit, New Payee, Retroactive Payments – Cash Balance* with *Annuity FAQ*, confirming the date and amount of benefit.
   b. **Estimate was prepared using at least one variable rate not current as of the Annuity Starting Date, AND the rates current as of ASD are now available:**
      i. Run a new estimated benefit calculation.
      ii. Put the participant into pay status in Spectrum based on the updated benefit estimate with a special check for back payments, as needed (see TP 20.3 Process Applications for Annuity Benefits).
      iii. Confirm authorization of payment(s).
      iv. Issue an updated ▸benefit statement with *eALG 301CB Estimated Benefit, New Payee, No Retroactive Payments – Cash Balance* with *Annuity FAQ*, or *eALG 302CB Estimated Benefit, New Payee, Retroactive Payments – Cash Balance* with *Annuity FAQ*, confirming the updated benefit amount.
   c. **Estimate was prepared using at least one variable rate not current as of the Annuity Starting Date, AND the rate(s) current as of the Annuity Starting Date are still not available:**
      i. Put the participant into pay status in Spectrum based on the most current update program with a special check for back payments, as needed (see TP 20.3 Process Applications for Annuity Benefits).
      ii. Confirm authorization of payment(s).
      iii. Issue the *eALG 301CB Estimated Benefit, New Payee, No Retroactive Payments – Cash Balance* with *Annuity FAQ*, or *eALG 302CB Estimated Benefit, New Payee, Retroactive Payments – Cash Balance* with *Annuity FAQ*, confirming the date and amount of benefit.
      iv. Once the required rates are available, run a new estimated benefit calculation with these updated rates;
      v. Adjust the benefit in Spectrum, and notify the participant as needed:
         - **If no adjustments are required:**
           - Image the revised benefit statement onto ▸IPS.
           - Take no further action.
         - **If the revised benefit estimate amount is less than the initial estimate:**

- Adjust benefit to the correct amount.
- Issue the revised benefit statement with *eALG 300CB Estimated Benefit, Pay Status retiree – Adjustment to Current Amount – Cash Balance* with *Annuity FAQ*, or *eALG 300NBPCB Estimated Benefit, Pay Status retiree – Adjustment to Current Amount (No Backpayment – Less Than $1.00) – Cash Balance* with *Annuity FAQ*.

- **If the revised benefit estimate is greater than the initial estimate:**
  - Adjust benefit to the correct amount.
  - Issue a special check with interest (see TP 20.3 Process Applications for Annuity Benefits).
  - Send *eALG 300CB Estimated Benefit, Pay Status Retiree – Adjustment to Current Amount – Cash Balance* with *Annuity FAQ*.

Top of Page

**TP 52.5B Pay Final Cash Balance Annuities**

**07/01/2016**

This procedure applies to ▸cash balance plans under Policy 5.12-1: Cash Balance Plans-Valuing and Paying Benefits. If the ▸plan is a statutory ▸hybrid plan covered under Policy 5.12-2: Statutory Hybrid Plans—Valuing and Paying Benefits, process the payment the same as for a traditional ▸defined benefit plan (see TP 20 Benefit Payments).

**EBLS/FBA/PBA/PVA**

1. Upon receipt of an application for ▸annuity ▸benefits, verify the ▸participant is entitled and eligible to go into pay status now. If participant is not eligible, call the participant and create a ▸CRM record or send an ▸eALG letter of explanation.
2. Ensure the participant has received a benefit estimate reflecting the ▸Annuity Starting Date (ASD). If not, issue the estimate using the most current update program. See TP 52.4 Provide Cash Balance Benefit Calculations.
3. Verify the application on file is complete. See TP 20.3 Process Applications for Annuity Benefits.
4. Proceed based on whether the cash balance rates used in the estimate provided the participant were fixed or variable (or a combination). A cash balance plan may require up to three rates to calculate benefits (as explained in TP 52.3 Update Cash Balance Program). If any rate used in the estimate was not current as of ASD, a recalculation is required. Contact the case ▸actuary with any questions.
   a. **Estimate was prepared using only fixed OR variable rates current as of the Annuity Starting Date:**
      i. Put the participant into pay status in ▸Spectrum based on the updated ▸benefit statement with a special check for back payments, as needed (see TP 20.3 Process Applications for Annuity Benefits).
      ii. Confirm authorization of payment(s).
      iii. Issue *eALG 500 Retirement Eligibility Letter*, or *eALG 501 PBGC Benefit, New Pay Status - No Retroactive Payments,* confirming the date and amount of benefit.
   b. **Estimate was prepared using at least one variable rate not current as of the Annuity Starting Date, AND rate(s) current as of ASD is/are now available:**
      i. Run a new benefit calculation.
      ii. Put the participant into pay status in Spectrum based on the updated benefit statement with a special check for back payments, as needed (see TP 20.3 Process Applications for Annuity Benefits);
      iii. Confirm authorization of payment(s).
      iv. Issue an updated benefit statement with *eALG 500 Retirement Eligibility Letter* or *eALG 501 PBGC Benefit, New Pay Status - No Retroactive Payments,* confirming the updated benefit amount.
   c. **Estimate was prepared using at least one variable rate not current as of the Annuity Starting Date, AND the rate(s) current as of ASD are still not available:**
      i. Put the participant into pay status in Spectrum based on the estimate provided with a special check for back payments, as needed (see TP 20.3 Process Applications for Annuity Benefits).
      ii. Confirm authorization of payment(s).
      iii. Issue the *eALG 580CB New Payee, No Retroactive Payments – Cash Balance (unknown rates)* or *eALG 581CB New Payee, Retroactive Payments – Cash Balance (unknown rates),* confirming the date and amount of benefit.
      iv. Once the required rates are available, run a new benefit calculation with these updated rates;
      v. Adjust the benefit in Spectrum and notify the participant as needed:
         - **If no adjustments are required:**
           - Image the revised benefit statement onto ▸IPS.
           - Issue the *eALG 583CB Final Benefit, Pay Status Retiree – Confirmation of Correct Amount – Cash Balance (known rates)*.
         - **If the final benefit calculation reveals a net underpayment:**
           - Adjust benefit to the correct amount.

- Issue a special check with interest (see TP 20.3 Process Applications for Annuity Benefits).
- Send *eALG 582CB Final Benefit, Pay Status Retiree - Adjustment to Correct Amount – Cash Balance (known rates)*.

- **If the final benefit calculation reveals a net overpayment:**
  - Follow procedures for recoupment of the current benefit (see TP 7 Recoupment and Administrative Correction).
  - Send eALG *582CB Final Benefit, Pay Status Retiree – Adjustment to Current Amount – Cash Balance (known rates)*, or *eALG 582NBPCB Final Benefit, Pay Status Retiree – Adjustment to Current Amount (No Backpayment – Less Than $1.00) – Cash Balance (known rates)*.

## TP 52.6 Pay Cash Balance Lump Sums

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process applications for lump sum payments to cash balance participants. |
| **Guidance** | eALG Correspondence Help<br>Policy 5.12-1 Cash Balance Plans–Valuing and Paying Benefits<br>Policy 5.12-2 Statutory Hybrid Plans–Valuing and Paying Benefits |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

This procedure applies to ▸cash balance plans under Policy 5.12-1 Cash Balance Plans-Valuing and Paying Benefits and, in rare circumstances, to statutory ▸hybrid plans. If the ▸plan is a statutory hybrid plan covered under Policy 5.12-2 Statutory Hybrid Plans–Valuing and Paying Benefits, **and** if *de minimis* ▸lump sums are equal to the account balance at the date of plan termination (▸DOPT), process the plan as a traditional ▸defined benefit plan (see TP 20 Benefit Payments).

1. Upon notification that a ▸participant is ready to receive a ▸lump-sum benefit, verify the participant is eligible to receive a ▸lump-sum payment. The participant is eligible if the
   - Lump sum present value is $5,000 or less; *or*
   - Account balance at DOPT is $5,000 or less.

   The participant receives the larger of the two amounts for cash balance plans under Policy 5.12-1 Cash Balance Plans-Valuing and Paying Benefits. For example, if the lump sum present value is $4,725 and the account balance at DOPT is $5,775, the participant receives a lump sum amount of $5,775, plus interest.
2. Verify the participant has received an estimated ▸benefit statement. See TP 52.4 Provide Cash Balance Benefit Calculations and TP 52.2 Issue Cash Balance BDLs.
3. Verify the participant has completed the appropriate application based on the amount of the lump sum and that the application is on file. See TP 20.4 Process Lump-Sum Applications.
   - If the lump sum is $5,000 or less, *Form 720 Application for Lump-Sum Payment* is required.
   - If the lump sum is greater than $5,000, and participant is married, *Form 703 Application for Elective Lump-Sum Payment,* is required with spousal consent. Verify spouse's signature is properly notarized.
4. Issue the appropriate ▸eALG letter notifying the participant of the status of the application (see TP 20 Benefit Payments).
5. Initiate the lump-sum payment with interest in ▸Spectrum. If the payment will be rolled over to a ▸Roth IRA account, contact ▸BPD for assistance to ensure the payment is set up correctly in Spectrum so appropriate Federal income tax is withheld.
6. Upon authorization of the transaction in Spectrum, issue the appropriate eALG letter confirming the amount and date of the payment.

## TP 53. Overview for Working Retirement Determinations

**07/01/2016**

Participants in plans trusteed by PBGC sometimes want to receive early retirement benefits and continue to work for the employer who sponsored the plan (the "▸DOPT employer"). The ▸Internal Revenue Code (IRC) and Department of Labor regulations prescribe the rules under which a qualified plan may pay in-service distribution. Pension plans generally cannot pay in-service distributions (that is, working retirement benefits) to participants who work for the plan sponsor. Policy 5.2-2 Working Retirement is derived from those rules and PBGC regulations.

The policy describes the rules PBGC follows in determining if pension benefits can be paid to participants who work for the DOPT employer. The DOPT employer may be the employer that sponsored the plan, a member of the plan sponsor's controlled group (also known as an affiliated employer), or a purchasing employer (also known as a successor employer) that is treated as the DOPT employer under plan provisions. Generally, a participant must permanently leave employment with the DOPT employer to receive early retirement benefits. In addition the policy addresses certain business transactions that may result in a change in the DOPT employer and if pension benefits are payable as a result of such transactions. The suspension of benefits after reemployment and resumption of payments after work has again ceased are also covered in the policy. Policy 5.2-2 also provides exceptions that must be considered in determining if pension benefits can be paid to working participants:

- **Age 62 Exception:** Beginning January 1, 2006, pension plans may amend to provide working retirement benefits to participants as early as age 62. PBGC will pay working retirement benefits if a plan amended prior to DOPT to provide such benefits; however, before making payment under such a plan amendment, contact Ask PPD for guidance.
- **Lump-sum Payments:** A participant who is otherwise eligible for a de minimis lump sum may be paid the lump sum regardless of work for the DOPT employer.
- **Normal Retirement Benefits:** Regardless of plan provisions to the contrary, normal retirement benefits may be paid to a working retiree beginning on or after the participant's normal retirement date (as defined under the plan) and in accordance with Policy 5.2-4 Annuity Starting Dates.
- **Return of Employee Contributions:** A participant who is otherwise eligible for a return of his or her ▸EEC may receive the EEC sum regardless of work for the DOPT employer.

**Unreduced Early Retirement Benefits (UERB):** UERB are not treated the same as normal retirement benefits for working retirement purposes; UERB may not be paid while a participant continues working for the DOPT employer.

**Shutdown Benefits:** This procedure does not address payment of shutdown benefits as the requirements are substantially different than those that apply to payment of working retirement benefits. Refer to the policy for additional guidance. Note that shutdown benefits or unpredictable contingent event benefits (▸UCEB) from plans that terminated after July 26, 2005 may be subject to phase-in. In addition, shutdown benefits may not be payable from plans that terminated after December 31, 2007 and did not meet specific funding targets. Contact Ask PPD about payment of shutdown benefits or UCEB from any plan that terminates after July 26, 2005.

# TP 53.1 Prepare a Working Retirement Determination

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether participants may receive early retirement benefits while continuing work for a particular DOPT employer. |
| **Timing** | Target completion and imaging of the Working Retirement Determination for within three months of the Date of Trusteeship (DOTR). Complete and image the WRD to the plan file no later than six months after DOTR. |
| **Guidance** | Policy 5.2-2 Working Retirement<br>*Working Retirement Determination Desk Reference* |

**In this Section**

TP 53.1A Prepare a Working Retirement Determination
TP 53.1B Questions and Answers on Working Retirement Determinations

**TP 53.1A Prepare a Working Retirement Determination**

**07/01/2016**

A working retirement determination (WRD) is a formal determination about whether ▸participants in a plan can work for the employer who sponsored the plan (the "▸DOPT employer"), a member of the ▸plan sponsor's controlled group, or a purchasing employer and receive early retirement benefits.

A sample *Working Retirement Determination Form* and other examples are available in the *Working Retirement Determination Desk Reference Guide*. For additional guidance, see TP 53.1B Questions and Answers on Working Retirement Determinations. Note that, for purposes of this procedure:

- The Plan Sponsor is the specific company or employer that sponsored the pension plan.
- The DOPT employer is the specific or immediate employer(s) for whom participants covered by the plan worked.
- The Plan Sponsor and DOPT employer usually are the same; however, in some situations they may be different.
- An operating DOPT employer, member of the Plan Sponsor's ▸controlled group, or purchasing employer continues production, manufacturing, or providing services and employs or may employ plan participants. Members of the controlled group or a purchasing employer may or may not perform work that is similar or related to the work performed by the DOPT employer.

**Auditor**

1. For all new plans, target completion and imaging of the Working Retirement Determination for within three months of the date of trusteeship (▸DOTR). Complete and image the WRD no later than six months after DOTR.
2. Obtain and review available information needed to make the determination, such as:
   - Trusteeship Agreement & Certification, Trusteeship Working Group (▸TWG) memo, TWG transmittal and related documentation
   - Information related to the Plan Sponsor's controlled group and net worth
   - Asset purchase or sales agreement
   - Bankruptcy documentation: Including petitions, court orders (for example, Order Approving Stipulation Agreement between Debtors and the PBGC), reorganization or liquidation plans, etc.
   - Correspondence with plan sponsors, trustees or administrators, representatives (for example, attorneys), or other parties
   - PBGC News Clips or PBGC Web page information
   - Plan documents, including collective bargaining agreements, union letters of agreement, or similar documents
   - Reportable Event Information List or Letter
   - Other relevant documentation or information.

   Occasionally, additional research may be needed to make the determination. Research may include contacting the DOPT employer, plan sponsor, former administrator or trustee, a purchasing entity or other related parties, and searching the Internet for recent business information about the employer and/or plan sponsor (consider searching for the name(s) on the Internet or using sites such as Dun & Bradstreet, OneSource.com, and Zoominfo.com). Document all contacts and findings in writing and image with the work papers or attach to the WRD.
3. Use the *Working Retirement Determination Form* to document and make the determination. Follow the instructions on the form. Complete the header and each section following its specific instructions.
4. Attach to the form any referenced documentation, including phone contacts or print-outs from the Internet, which has not already been imaged to the plan file.
5. Obtain Supervisory Auditor concurrence.
6. Image the completed *Working Retirement Determination Form* into the Plan-Wide Determinations section of the plan file. (See TP 16 Plan and Participant File Maintenance.)
7. Notify the Case Team of the results of the WRD and ensure that all members of the Case Team, including Employee Benefit Law Specialist (▸EBLS)/Field Benefit Administrator (▸FBA)/Pension Benefit Administrator (▸PBA), get a copy of the determination.
8. Contact Ask PPD with any questions or if assistance is needed.

**TP 53.1B Questions and Answers on Working Retirement Determinations**

**07/01/2016**

**Auditor**

**Q1. What is a working retirement determination?**

A working retirement determination (WRD) is a formal determination about whether participants in a plan can work for the employer who sponsored the plan (the "DOPT employer"), a member of the plan sponsor's controlled group or a purchasing employer and receive early retirement benefits.

Under Policy 5.2-2 Working Retirement, the DOPT employer is defined as "the employer that sponsored the pension plan as of DOPT. The DOPT employer includes any member of the plan sponsor's controlled group, as determined by PBGC, even if plan provisions do not include the controlled group in its definition of the employer." However, in these procedures:

- The DOPT employer is the specific or immediate employer(s) for whom participants covered by the plan worked.
- The plan sponsor is the specific company or employer that sponsored the pension plan.
- The plan sponsor and DOPT employer usually are the same; however, in some situations may be different.
- The DOPT Employer, a member of the plan sponsor's controlled group or a purchasing employer is an operating employer if it continues production, manufacturing or providing services and employs or may employ plan participants. A member of the plan sponsor's controlled group or purchasing employer may or may not perform work that is similar or related to the work performed by the DOPT Employer.

**Q2. Who makes the working retirement determination?**

The auditor assigned to the plan usually makes the initial WRD. If a WRD is needed after the plan has been transferred to plan closing, request ▶DMD management to assign an auditor, preferably the one who was originally assigned to the case to make the determination.

**Q3. Why is a working retirement determination needed?**

As discussed in the Overview, federal statutes and regulations limit the situations in which working retirement benefits can be paid. Under Policy 5.2-2 Working Retirement, PBGC generally cannot pay early retirement benefits to participants who continue to work for the DOPT employer. PBGC must determine if the limitations on paying early retirement benefits in the policy apply.

As of DOPT, the DOPT employer is assumed to continue to operate. Early retirement benefits cannot be paid to participants who work for the DOPT employer until PBGC determines otherwise. PBGC must determine if an event has occurred that allows for the payment of early retirement benefits to working retirees, or as a result of the event, the limitations in the policy no longer apply.

**Q4. When should a working retirement determination be done?**

A WRD is required for all plans trusteed after March 31, 2007. The initial WRD should be targeted for completion and imaging within three months of the date of trusteeship (DOTR), and must be completed and imaged within six months of DOTR. Working retirement issues usually arise early in plan processing, but can also arise at any time during benefits administration, for example, as a result of bankruptcy proceedings or subsequent business transactions. The event(s) that raise the issue may be before (in some cases many years before) or after DOPT. A WRD is needed for any plan (regardless of date of trusteeship) in which a working retirement issue is identified. Multiple WRDs may be needed during administration of the plan.

**Q5. What is a working retirement issue?**

Working retirement issues primarily arise when an event takes place that potentially allows for the payment of early

retirement benefits to working retirees or the limitations in Policy 5.2-2 Working Retirement no longer apply as a result of the event. Events that raise a working retirement issue primarily include:

1. **DOPT employer permanently ceases operations:** The limitation in Policy 5.2-2 may not apply if the DOPT employer **permanently** ceases operations and a change in the DOPT employer does not result from a sale of the DOPT employer's assets. Operations generally are deemed to have permanently ceased:
   - After the cessation of significantly all of the employer's operations, and
   - The employer, plan sponsor, and employees reasonably do not or cannot expect operations will resume. In some situations the cessation is obvious, for example, the facility has been destroyed or rendered useless. In others, an evaluation of the facts and circumstances may be needed to establish that the cessation is permanent.

   Participants employed by the employer are generally deemed to have permanently left the employment of the DOPT employer as of the cessation date:

   - Maintenance, security or administrative employees who continue to work after the cessation of operations are not deemed to have terminated employment (unless for example, hired by the bankruptcy trustee).
   - If the employer operates multiple facilities, operations at each facility may have to be addressed as one or more of the facilities may permanently cease operations while others continue to operate. Participants who worked at the closed facility may be able to get early retirement benefits while participants who work at the facilities that continue to operate cannot. If the participant from the facility that has ceased operations, transfers to or goes to work for the facility that continues to operate, early retirement benefits cannot be paid to him or her.
   - Temporary shutdowns, layoffs, or furloughs, even when extended, should not be considered as the permanent cessation of operations.
2. **Sale of the DOPT employer's assets:** If all or part of the **operating** assets of the DOPT employer are sold to an unrelated entity (that is, not a member of the plan sponsor's controlled group), participants are generally deemed to have permanently left the employment of the DOPT employer as of the sale date even if they continue working for the purchaser, unless the plan provides otherwise, as described in 3 below.

   Operating assets are assets such as real estate, buildings, furniture, equipment, machinery, inventory, intellectual property (for example, recipe for brewing beer, a brand name, product designs, etc.), account receivables, and similar types of assets that allow for the continuation or resumption of operations.

   If the DOPT employer owned multiple facilities, and sold some but not all of its facilities, participants who work for the purchasing employer may be able to get early retirement benefits while those who continue work at facilities retained by the DOPT employer cannot. In addition, if some but not all of the assets are sold, or the assets are sold piecemeal to multiple purchasers, operations may not reasonably be expected to resume or continue. In some situations a facts and circumstances determination may be needed.

   Sale or Transfer of DOPT employer's stock: A sale or transfer of the DOPT employer's stock does not result in a change in the DOPT employer nor allow for the payment of early retirement benefits to participants who are working for the DOPT employer.
3. **Plan provisions:** If plan provisions specifically: 1) require participants to terminate employment with a purchasing employer in order to receive pension benefits, and/or 2) treat participants who work for a purchasing employer as if they were working for the DOPT employer, then early retirement benefits are not payable to those working participants.
4. **Other transactions:** Other transactions, in which it may not be obvious, may result in a change in the DOPT employer. Such transactions for example, may include mergers or the formation of joint ventures or limited partnerships. It may not be clear if assets and/or stock have been sold, transferred or exchanged. A facts and circumstances determination may be needed to establish if the resulting entity is or continues to be a member of the DOPT employer's or plan sponsor's controlled group. Assistance from Ask PPD should be requested in making these facts and circumstances determinations.

**Q6. What if:**

1. **The DOPT employer has multiple facilities and some no longer operate while others continue to operate?**

   If the DOPT employer had multiple facilities and some no longer operate while others do, the WRD should address operations at each facility. Alternatives are to do separate WRDs for the facilities that continue to operate and those that don't or to do a WRD for each facility. If more than one WRD is done, cross reference all related WRDs in Section D. Determination of the *Working Retirement Determination Form*.
2. **The DOPT employer sold some but not all of its operating assets or facilities?**

If the DOPT employer sold some but not all of its operating assets or facilities, the WRD should address those that were sold and those that were not. An alternative is to do separate WRDs for the operating assets or facilities that were sold and the remaining assets or faculties, or do a WRD for each facility. Cross reference all related WRDs in Section D. Determination of the Working Retirement Determination Form.

3. **The plan terminated some years ago and I'm unable to obtain some of the information that may be material to the WRD? I haven't been able to locate information about ongoing operations, the continued existence of a controlled group, a sale of assets, and other relevant material in the available documentation or using other resources such as contacts with the employer(s) or plan administrator or the Intranet.**

   If material information cannot be found after a reasonable effort is made (as determined by ▸DCB management), certain assumptions may be made based on the information that is available and as indicated by the lack of other information. Reasonable assumptions are identified in the WRD form. The assumptions err on the side of paying participants timely benefits. Document the reason when any assumptions are used in making the determination. All determinations based on such assumptions must be approved by the Supervisory Auditor.

# TP 53.2 Determine Participant Eligibility for Working Retirement Benefits

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine the eligibility of a participant who continues to work to receive ▸early retirement benefits. |
| **Guidance** | Policy 5.2-2 Working Retirement<br><br>Policy 5.4-9 Lump-Sum Benefit Payments |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

Assuming the participant otherwise meets the requirements for ▸early retirement benefits (ERB), payment of ERB depends on whether the participant is working for the ▸DOPT employer or has permanently left, or expects to permanently leave employment with the DOPT employer before the requested ▸annuity starting date (ASD).

- For plans trusteed on and after April 1, 2007, a ▸working retirement determination (WRD) is documented in the *Working Retirement Determination Form* in the plan file (see TP 53.1 Prepare a Working Retirement Determination). A WRD may have also been done for a plan trusteed before that date if a working retirement issue was identified on or after April 1, 2007.
- For plans trusteed before April 1, 2007, the WRD may be documented in a *Working Retirement Memo* prepared by the plan auditor or the Office of Chief Counsel (OCC). For these plans, if a memo is not in the file, the "general rule" applies: The DOPT employer is presumed to be ongoing and participants cannot be paid ERB while working for the DOPT employer.

Participants who left employment with the DOPT employer due to a temporary layoff, shutdown, furlough, or disability, or who expect to return to that employment, are not considered as having permanently left employment.

Use this procedure to determine a working participant's eligibility for retirement benefits in response to participant inquiries, an application for benefits, or upon learning that a participant is receiving early retirement benefits while working. In the latter case, it may be necessary to suspend his or her benefits (see TP 53.3 Act on Re-employment of Payee).

1. Determine if the participant otherwise meets the requirements to receive ERB or normal (or late) retirement benefits.
   - **Normal (or Late) Retirement Benefits:** The participant may receive benefits regardless of employment status on and after the participant's ▸normal retirement date (NRD). The participant's file does not require any special documentation or determination. Note that this provision does not apply to unreduced early retirement benefits (UERB).
   - **Early Retirement Benefits (including Unreduced Early Retirement Benefits):** Continue to the next step.
2. Determine whether any of the following apply and proceed accordingly:
   - **Age 62 Exception:** Beginning January 1, 2006, pension plans may amend to provide working retirement benefits to participants as early as age 62. PBGC will pay working retirement benefits if a plan amended, prior to ▸DOPT, to provide such benefits; however, before making payments under such a plan amendment, contact Ask PPD for guidance.
   - **Lump-sum Payments:** If a participant is due a ▸*de minimis* lump-sum or residual lump-sum distribution for which he or she is otherwise eligible, the benefit is payable regardless of the participant's employment status. However, this exception does not apply if the participant chooses to receive annuity payments in lieu of the lump sum as provided under Policy 5.4-9 Lump-Sum Benefit Payments.
   - **Return of Employee Contributions:** If the participant is due and elects a return of ▸EEC, as provided under Policy 5.11-1 Calculation and Payment of Priority Category 2 Benefits in PBGC Trusteed Plans, the return is payable regardless of the participant's employment status.

     If none of the above applies, proceed to the next step.
3. Review the *Working Retirement Determination* (WRD) and the benefit application or CRM inquiry to determine whether the participant's current employer is the DOPT employer. If a WRD was not done, or a new working retirement issue has been discovered, consider if a new or revised WRD is needed (see TP 53.1 Prepare a Working Retirement Determination).

- If a new or revised WRD is needed, request the auditor to complete one. On receipt of the WRD, proceed with the steps below.
- If a WRD is not needed, assume the general rule in Policy 5.2-2 Working Retirement applies: Participants must permanently leave the employment of the DOPT employer to receive early retirement benefits. Continue to the next step.

4. Proceed according to the participant's current employer.
   - **Non-DOPT Employer:** The participant does not have to leave employment to be paid ERB to which he or she is otherwise eligible. Advise the participant that he or she may receive ERB while continuing to work. Special documentation or determination is not needed in the participant's file. However, keep in mind plan provisions regarding earnings limitations or offsets; see TP 51 Earnings Offsets.
   - **DOPT Employer:** Continue to the next step.
5. Proceed according to the WRD (or general rule; see step 3).
   - **Work Allowed:** If the determination provides that the participant may continue to work for the DOPT employer identified in the WRD (usually a purchasing employer) while receiving ERB, ERB may be paid.
   - **Work Not Allowed:** If the WRD provides that participants must permanently leave the DOPT employer (which may be a purchasing employer) to be paid ERB, or the general rule is assumed to apply, determine when the retiree expects to leave employment. Continue to the next step.
6. Proceed according to whether and when the participant plans to leave employment with the DOPT employer. The participant does not have to leave employment prior to applying for ERB, but must permanently leave employment with the DOPT employer before the ASD in order to be paid ERB.
   - **Participant Does Not Plan to Leave Employment:** Early retirement benefits are not payable because the participant continues or expects to continue to work for the DOPT employer on or after the ASD. To receive benefits, the participant must wait until the sooner of leaving employment or his or her normal retirement date (unless the Age 62 Exception applies). Document the participant file accordingly.
   - **Participant Plans to Leave Employment:** ERB for which the participant is otherwise eligible may be paid. If the participant is applying for benefits:
     a. Pay ERB to which the participant is otherwise eligible effective the later of the elected ASD or the month after the participant permanently leaves employment with the DOPT employer, if the benefit form election and spousal consent (when applicable) are still within 180 days of the ASD.
     b. Do not request proof that the participant has permanently left or will permanently leave employment unless the assertion is questionable; for example, a participant indicates a temporary layoff or furlough and may return to work with the DOPT employer in the future.

        If the assertion is questionable, request that the participant provide proof from the DOPT employer that his or her employment has permanently ended or will permanently end before the ASD. Put the benefit into pay status only after proof is received and imaged into the participant's file.
     c. Follow procedures in TP 20 Benefit Payments. Advise the participant to notify PBGC of any change in his or her plans to terminate employment before the ASD. Document CRM or the participant's file accordingly.

# TP 53.3 Act on Re-employment of Payee

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine if benefits must be suspended if a participant is reemployed by the ▸DOPT employer, and adjust benefits, if necessary, after benefits resume. |
| **Guidance** | Policy 5.2-2 Working Retirement |
| **Procedure Owner** | Actuary, EBLS/FBA/PBA/PVA |

### Suspension of Benefits

If PBGC learns that a participant has returned to work (or never left employment) with the ▸DOPT employer after ▸early retirement benefits (ERB) have begun and before the ▸normal retirement age (NRA), or age 62 if the Age 62 Exception is applicable, the benefit may be subject to suspension.

### EBLS/FBA/PBA/PVA

1. Upon learning that a participant who is receiving ERB has returned to work or never left employment, review the *Working Retirement Determination* (WRD) for the plan to determine if participants must have permanently terminated employment with the DOPT employer to receive ERB.
2. If a WRD is not in the plan file,
   a. Consult with the auditor to determine if any ▸working retirement issues have arisen that would require completion of a WRD or a revised WRD. If so, request the auditor to complete an initial or revised WRD (see TP 53.1 Prepare a Working Retirement Determination).
   b. Otherwise, assume that participants must permanently terminate their employment according to the general rule in Policy 5.2-2 Working Retirement.
3. Proceed according to whether work is permitted.
   a. If work is permitted under the WRD, continue to pay the participant and do not continue with this procedure.
   b. If work is not permitted under the WRD or the general rule applies, determine if plan provisions provide for the suspension of benefits after a return to employment.
      i. If the plan specifically provides for continued payment of ERB during a period of re-employment, do not suspend benefits. Prepare a memo to the participant file referencing the specific plan provisions which permit benefits to continue after returning to work with the DOPT employer.
      ii. If the plan does not specifically provide for continued payment of ERB during a period of re-employment, the participant's benefit may need to be suspended. Contact Ask PPD for guidance on notifying the participant.

      Once it is determined that the participant's benefits will be suspended, suspend payments beginning with the first payment that is more than 30 days from the date of the letter notifying him or her of the suspension. Set ▸Spectrum to automatically resume payments as of the earlier of the participant's ▸normal retirement date (NRD) or age 62 if the Age 62 Exception applies. Contact Ask PPD for guidance on the Age 62 Exception. (See Resumption of Benefits, below.)

      **Note** Contact Ask PPD if the participant's initial termination of employment is questionable or does not appear to have been permanent. For example, the participant:
      - returned to work shortly after retirement (for example, within six months of the annuity starting date),
      - alleges he or she was called back to work after a layoff or furlough,
      - returned to work after a period of illness or temporary disability, or
      - otherwise returned to work under similar circumstances.

      Plan provisions generally will establish criteria for determining if a termination of employment is permanent. Typically at least six months must pass between the dates the employee leaves and returns to employment. If the plan does not provide these criteria and the participant returns to employment within six months after leaving

employment, treat the participant as not having permanently left employment.

4. Document the determination to suspend benefits in the *Working Retirement Benefit Suspension Memo*. Image the memo to the participant's file.

**Resumption of Benefits**

**EBLS/FBA/PBA/PVA**

1. Resume payments at the earliest of the following conditions:
   - The participant permanently leaves employment with the DOPT employer. Payments are due beginning the month after employment terminates.
   - The participant attains his or her NRA during re-employment. Payments are due as of the NRD.
   - The participant attains age 62 during re-employment and the Age 62 Exception applies, with ▸PPD concurrence. Payments are due beginning the month after the participant attains age 62.
2. Resume payments as soon as practicable at the pre-suspension amount; however, do not make any back payments before completing the rest of this procedure. Note that payments may have already resumed if previously coded in Spectrum due to the participant attaining NRA or age 62 and the Age 62 Exception applies.
3. Determine if the benefit amount must be adjusted to preserve the actuarially equivalent value of the participant's normal retirement benefit, taking into account payments made before the suspension date.
   - If the benefit in pay prior to suspension was an unreduced (that is, fully subsidized) benefit (for example, an unreduced early retirement benefit) an adjustment is not needed. The value of the early retirement benefit will be equal to or greater than the value of the normal retirement benefit. Continue to step 6.
   - Otherwise, or if in doubt, request the actuary to determine if the resumption of payments without a change in amount will result in total benefit payments that have a value less than the value of the ▸Title IV benefit that would be payable at NRA.

**Actuary**

4. Calculate the benefit that the participant would have received if he or she had actually retired on the date payments resume, in the elected benefit form. This benefit will be reduced by an annuity amount that is equivalent, using plan factors, to the benefit paid before the suspension.
   - If the resulting benefit is larger than the benefit being paid before the suspension, inform the ▸EBLS/▸FBA/▸PBA/▸PVA of the amount of the adjusted benefit.
   - If not, tell the EBLS/FBA/PBA/PVA to resume payments at the amount being paid when the benefit was suspended. (The benefit will not be adjusted if it is less than the amount of the benefit before the suspension.)

   See *Examples of Benefit Suspension and Adjustment* for more detail on determining the need to adjust the benefit and the amount of the adjusted benefit.

**EBLS/FBA/PBA/PVA**

5. Adjust payments if necessary, as determined by the actuary.
6. Calculate net overpayments or underpayments.
   - If net overpayments were made to the participant due to delayed suspension, contact Ask PPD for guidance. Overpayments may be subject to recoupment by a 25% offset.
   - If net underpayments are owed to the participant, pay as soon as practicable with applicable interest (see Policy 6.3-1 Underpayment Reimbursement and Interest Payments).
7. Send the payee an eALG Generic Letter notifying him or her of the resumption of benefits and any adjustments or recoupment.

# TP 54 Benefits Erroneously Paid Before Eligibility

**In this Section**

TP 54. Overview for Benefits Erroneously Paid Before Eligibility
TP 54.1 Provide Options to Payees Paid Before Eligible
TP 54.2 Prepare Benefit Calculations for Payee Paid Before Eligible
TP 54.3 Resources for Benefits Erroneously Paid before Eligibility

## TP 54. Overview for Benefits Erroneously Paid Before Eligibility

**07/01/2016**

PBGC may discover that a payee is erroneously receiving benefit payments for which he or she was not eligible at the time payments commenced, but may have become eligible since then or is entitled to a benefit at a future date. In these situations, as directed by Policy 5.2-6 Erroneous Commencement, PBGC offers the payee two options:

- To continue receiving benefits, actuarially adjusted as necessary to reflect the early retirement date.
- To discontinue receiving any further benefits until at a future date when eligible.

The offer is made as soon as practicable upon learning the payee meets these criteria.

PBGC does not offer these options to payees who were placed into pay erroneously in situations where:

- The payee was eligible for *another* benefit at the date he or she was erroneously placed into pay.
- The payee is erroneously receiving an early retirement restricted under a working retirement situation (see TP 53 Working Retirement Determinations).

PBGC has the discretion to choose not to offer a payee choices if, for example, there is evidence of abuse by a prior plan administrator. To apply this discretion, the case team obtains ▸PPD concurrence and documents the decision to the participant's file.

This process of offering a payee a choice may occur with a payee who is still in estimated pay status, is ready to receive a ▸BDL, or has already received a BDL. The following procedures provide guidance for each situation.

### Documenting Plan and Participant Files

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

## TP 54.1 Provide Options to Payees Paid Before Eligible

**09/30/2016**

| | |
|---|---|
| **Purpose** | To identify a payee who may be receiving a benefit for which he or she is not yet eligible (or was not when payments began), to offer the payee available options, and to implement the selected option. |
| **Guidance** | Policy 5.2-4 Annuity Starting Dates<br>Policy 5.2-6 Erroneous Commencement<br>Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments<br>Spectrum User Manual |
| **Procedure Owner** | EBLS/FBA/PBA |

1. Discover a payee who appears to be receiving a benefit for which he or she was not eligible at the time payments began (and was not eligible for any other benefits from the plan at the ▸ASD), but has a current or future benefit entitlement. The payee may be in estimated or final pay status, receiving any type of benefit. If this is a working retirement issue, the following steps do not apply; see TP 53 Working Retirement Determinations.
2. Contact the assigned actuary to confirm that the payee began receiving benefits prior to being eligible. If so, request a ▸benefit statement with calculations for the payee's:
   - ▸Actual Retirement Date (the date the current benefit started).
   - Earliest Retirement Date (beginning on or after the earliest allowable annuity starting date under Policy 5.2-4 Annuity Starting Dates).
   - Any subsequent earliest unreduced retirement date (EURD).
   - ▸Normal Retirement Date.
3. Prepare the *Benefits Paid Before Eligible Memorandum*, attach the benefit statement prepared by the actuary, and obtain ▸CSD management concurrence before taking further action. If CSD management recommends utilizing the discretion to not offer the payee choices, and ▸PPD concurs, document this decision in the memo. Image the memo with concurrence and the benefit statement to the participant's file.
4. Using the benefit statement, prepare the appropriate letter offering the payee the option to either (1) remain in pay status at an actuarially reduced amount or (2) stop receiving payments until reapplying for benefits to begin on or after the payee's earliest allowable retirement date under Policy 5.2-4 Annuity Starting Dates. Determine the correct letter according to the payee's ▸BDL status:
   - **Payee is in estimated pay status and NOT ready for a BDL:** Prepare an *eALG 300NYE Estimated Benefits - Paid Before Eligible*, customized to include the actuarially reduced monthly benefit amounts for the Actual Retirement Date, and the amounts payable on the optional dates (see step 2).
   - **Payee has received a BDL, or is in estimated pay status and ready for a BDL:** If the payee has already received a BDL that incorrectly implied the early benefit was payable, issue a ▸Revised BDL (eALG 411 series) (see Process 19.5 Issue Revised Benefit Determination Letter). If the payee is in estimated pay status and ready for a BDL, prepare the appropriate BDL. For any BDL:
     - Customize the letter to include the offer language and the *Annuity Payment Election Form* from *eALG 300NYE Estimated Benefits - Paid Before Eligible*. Email Ask PPD to request assistance, as needed.
     - Calculate the recoupment amount using ▸PACS and apply it to the monthly benefit amounts. See Policy 6.4-3 Computation and Netting of Post-DOPT Overpayments and Underpayments.
     - Include the actuarially reduced benefit amounts for the Actual Retirement Date in the letter. Include recoupment amounts as applicable.
5. Issue the offer letter with the benefit statement. Image a copy of the benefit statement to the participant's file.
6. If the payee has not responded within 30 days from the date of the letter, call the payee to determine whether a written response has been sent and advise of the default option if no response is received. Document the call in ▸CRM.

> **Note** Payees who elect to stop receiving benefit payments must later reapply for benefits to begin on or after

their earliest allowable retirement date under Policy 5.2-4 Annuity Starting Dates and elect a benefit form. PBGC does not automatically reinstate the benefit form elected for an erroneous benefit commencement.

7. If a payee who received an *eALG 300NYE Estimated Benefits - Paid Before Eligible* disputes the letter, indicating he or she in fact was eligible when the payments began, determine whether a ▶Limited-Scope BDL (providing appeal rights) is appropriate. See Process 19.6 Issue Limited-Scope BDLs.
8. Upon receipt of the payee's election, implement the selected option using Spectrum. If there is no written response within 45 days of the letter, implement the default option, the actuarially reduced benefit amount.
9. Issue a confirmation letter as follows:
   - If the payee elects to continue monthly benefits, or does not respond and the default option applies, send *eALG 547 Advice of Reduced Estimated Benefits*.
   - If the payee elects to cease payments, send *eALG 548 Advice of Cessation of Estimated Benefits*.

**Note** If the payee has received a BDL and recoupment applies, also include the recoupment amount and begin and end dates.

10. Ensure the following, as applicable, are imaged to the participant's file:
    - *Benefits Paid Before Eligible Memorandum* with CSD management and PPD concurrence, when utilizing the discretion to *not* offer options.
    - Benefit statement.
    - Recoupment calculations.

Top of Page

## TP 54.2 Prepare Benefit Calculations for Payee Paid Before Eligible

**09/26/2008**

| | |
|---|---|
| **Purpose** | To calculate actuarially reduced benefits for a payee receiving a benefit for which he or she is not currently eligible or was not when payments began. |
| **Guidance** | *Actuarial Technical Manual*<br>Policy 5.2-4 Annuity Starting Dates<br>Policy 5.2-6 Erroneous Commencement |
| **Procedure Owner** | Actuary |

1. Upon receipt of a request for a ▶benefit statement for a payee who may be receiving payments that commenced prior to his or her earliest retirement date, prepare benefit calculations for the dates requested. Determine the actuarially reduced benefits for the ▶ARD in accordance with Policy 5.2-6 Erroneous Commencement.
2. Provide the benefit statement to the requesting ▶EBLS/▶FBA/▶PBA.

# TP 55 ValPatch Mailings

**In this Section**

TP 55. Overview for ValPatch Mailings
TP 55.1 Process ValPatch Mailing Request
TP 55.2 Submit eALG Request for Mailing Letters
TP 55.3 Submit ValPatch Mailing Request to TRMD
TP 55.4 Resources for ValPatch Mailings

## TP 55. Overview for ValPatch Mailings

**07/01/2016**

CSD issues letters to plan participants using the eALG system, which alone is sufficient for most mailings. But there are situations in which CSD uses a Valuation Patch, or ValPatch, in conjunction with eALG to expedite a letter request to groups of participants. These are addressed by using a ValPatch data load or group load.

Use a data load when letters must be issued before all the data required to populate them have been loaded into the participant database. eALG pulls participant data from Spectrum to populate various data fields (known as "merge fields") in letters. Examples include participants' Earliest Retirement Dates, Benefit Forms, and amount in pay. When the data in Spectrum (Genesis database) is insufficient to populate the letters, and it is not feasible to update the participants' records before the desired mailing date, use a data load. It is important that data subsequently entered into Spectrum agrees with data used in the data load for the letters to ensure data integrity.

Use a ValPatch group load to identify groups of participants in eALG to receive a certain letter. For example, just after a plan is trusteed, plan participants are loaded as eligible. In this case, use a ValPatch group load to identify groups of payees and non-payees to receive the appropriate trusteeship notification letters for their status.

The following procedures provide instructions on processing a ValPatch Mailing request:

- Use TP 55.1 Process ValPatch Mailing Request to start the ValPatch Mailing process and prepare the data required for the mailing:
  - For a ValPatch Mailing that has calculated data, the actuary uses TP 55.1A Process ValPatch Mailing Request Containing Calculated Data to prepare the appropriate data and has the calculated data reviewed for concurrence. Calculated data is data required for a mailing but is not available in Spectrum (or is different in Spectrum, which could be caused by a court order (QDRO) or the appeals board ruling), but that the case actuary can calculate using the data from other sources. The EBLS/FBA/PBA continues the process in TP 55.1B Process ValPatch Mailing Request.
  - For a ValPatch Mailing without calculated data, the EBLS/PBA/FBA uses TP 55.1B Process ValPatch Mailing Request to prepare and send the ValPatch mailing spreadsheet to the ValPatch Expert (for a list of ValPatch Experts, refer to the TRMD Service Catalog) for review and correction of any discrepant data.
- Use TP 55.2 Submit eALG Request for Mailing Letters to obtain management approval, send the request to DMS, and image/archive all appropriate documentation as necessary.
- Send the ValPatch Mailing request to TRMD/CSD, using TP 55.3 Submit ValPatch Mailing Request to TRMD/CSD, for the following reasons (but not limited to):
  - Broken ValPatch Tool.
  - Complex mailing request.
  - FOD mailing request.
  - OGC mailing request.

# TP 55.1 Process ValPatch Mailing Request

**07/01/2016**

| | |
|---|---|
| **Purpose** | To process a ValPatch Mailing request that includes obtaining and preparing the data for the mailing. |
| **Guidance** | ValPatch Tool |
| **Procedure Owner** | Actuary, EBLS/FBA/PBA, TRMD, ValPatch Expert |

Before performing this procedure, determine the need for a ValPatch Mailing with management, and the actuary, as needed. Use ValPatch Mailings to populate letters with data that is unavailable in ▸Spectrum (known as data loads) or to create groups to receive certain letters (group loads).

Use TP 55.1 Process ValPatch Mailing Request to start the ValPatch Mailing process and prepare the data required for the mailing:

- For a ValPatch Mailing that has calculated data (data required for a mailing but is not available in ▸Spectrum, but that the case actuary can calculate using the data from source documents or the case database), the actuary uses TP 55.1A Process ValPatch Mailing Request Containing Calculated Data to prepare the appropriate data and has reviewed for concurrence. The EBLS/PBA/FBA picks up the remainder of the process in TP 55.1B Process ValPatch Mailing Request.
- For a ValPatch Mailing without calculated data, the EBLS/PBA/FBA uses TP 55.1B Process ValPatch Mailing Request to prepare and send the ValPatch mailing spreadsheet to the ValPatch Expert for review and correction of any discrepant data.

**In this Section**

TP 55.1A Process ValPatch Mailing Request Containing Calculated Data
TP 55.1B Process ValPatch Mailing Request

**TP 55.1A Process ValPatch Mailing Request Containing Calculated Data**

**07/01/2016**

Use this procedure for creating ValPatch Mailings that contain calculated data. Calculated data is data that is not available in ▸Spectrum, but that the case ▸actuary can calculate using the data from source documents or the case database. Use a ValPatch Mailing for ▸BDLs or notices of benefit adjustments. Usually, at a team meeting, management requests the Case Team to perform a ValPatch Mailing and provides the run date and the letter(s) to use. After the actuary completes this process, the ▸EBLS/▸FBA/▸PBA continues the process using TP 55.1B Process ValPatch Mailing Request.

If the ValPatch Mailing Request does *not* contain calculated data, begin the process with TP 55.1B Process ValPatch Mailing Request.

**Actuary**

1. Work with the EBLS/FBA/PBA to determine what calculated (actuarial) data to include in the ValPatch mailing spreadsheet provided by the EBLS/FBA/PBA (usually the calculated data is for data that populates a field in the letter).
2. Provide the calculated data for the fields in the spreadsheet.
3. Complete the ValPatch Mailing Calculated Data Concurrence section of the *ValPatch Mailing Concurrence Memo* and submit to the Actuarial Technical Reviewer or equivalent for concurrence.
4. After obtaining concurrence, do the following:
   - Image the *ValPatch Mailing Concurrence Memo* to the ▸plan file in ▸IPS.
   - Follow TP 16.5 Archive Electronic Files to archive the ValPatch mailing spreadsheet.
   - Provide an electronic copy of the *ValPatch Mailing Concurrence Memo* and the ValPatch mailing spreadsheet to the EBLS/PBA/FBA.
5. Do one of the following based on the need for Benefit Statements of the ValPatch Mailing:
   - Not Needed: Continue to TP 55.1B Process ValPatch Mailing Request.
   - Needed: Use the TRMD Service Catalog to select the ▸Benefit Statement Load service and provide ▸TRMD with the location (`I:\software\[eight-digit PBGC case number]\ValPatch`)of the ▸BSRS files for creating the Benefit Statements and request in the e-mail to archive the files.

**TRMD**

6. If there is a Benefit Statement Load request, retrieve the files.
7. Create the Benefit Statements in ▸ACT.
8. Load into the ▸eALG system.
9. Notify requestor of loaded/failed statements and work with requestor in making corrections, if necessary.

**TP 55.1B Process ValPatch Mailing Request**

**07/01/2016**

Use this procedure for creating ValPatch Mailings that *do not* contain calculated data. Calculated data is data that is not available in ▸Spectrum, but that the case ▸actuary can calculate using the data from source documents or the case database. See TP 55.1A Process ValPatch Mailing Request Containing Calculated Data.

For this procedure, the ▸EBLS/▸FBA/▸PBA role can also perform, and usually does, the requestor role tasks.

**Requestor**

1. Send the ValPatch mailing spreadsheet via e-mail to the ValPatch Expert within the appropriate Case Team or FBA for processing.
2. In the ▸eALG system, begin preparing drafts of the custom letters and, if needed, obtain approval of the drafts from management.

**ValPatch Expert**

3. Receive the ValPatch Mailing request via e-mail from the requestor, which includes a spreadsheet with the data needed for the mailing.
4. Load the ValPatch mailing spreadsheet into the ValPatch Tool.
5. Using the ValPatch Tool, validate (reconcile) the data in the ValPatch mailing spreadsheet with the data in Spectrum and make corrections as needed.
6. Using the ValPatch Tool, assign a unique and descriptive group identifier (for example, 404) for each type of eALG letter expected.
7. Review the error report (`ProcessErrors.csv`) created from the ValPatch Tool and provide the test results via e-mail to the requestor, including the following:
   - Group name(s)
   - Letter type(s)
   - Number of recipients
   - Error report with a listing of errors and warnings to address (for example, multiple ▸SSNs, incomplete addresses in Spectrum, a participant with multiple roles in the plan), if applicable.

   > **Note** Ensure valid and complete addresses in Spectrum, for example, include the province and country code for foreign addresses, as the Fulfillment Center is unable to mail letters with addresses that are not set up correctly or are incomplete.
8. Address all discrepancy data in the error report with the requestor.

   For discrepancies, work with the requestor to identify solutions.

**Requestor**

9. Upon receipt of an e-mail notification from the ValPatch Expert of errors in the spreadsheet:
   - Review and correct any data problems identified in the error report, for example, ValPatch issues a duplicate SSN error, and correct the data in either the ValPatch mailing spreadsheet or Spectrum.
   - For group loads, verify that the correct group names (using letter names) are associated with the appropriate group numbers in the ValPatch mailing spreadsheet.
   - For data loads, verify that the merge field names (for example, "ValPatch.Amount01") in the ValPatch mailing spreadsheet match those in the custom letters.
10. Address all discrepancy data with the ValPatch Expert.
    - Remove participants from the ValPatch mailing spreadsheet as needed.

**ValPatch Expert**

11. After addressing all discrepancy data identified in the report, using the ValPatch Tool, create the files for loading into

the eALG system.

12. Load the files in to the eALG system for processing and notify the requestor to initiate the eALG Letters Request.

**Requestor**

13. For each ValPatch group, run a sample of the letters using the Request Preview function in the eALG system.
14. If the letters show discrepant data in the preview, make corrections based on the following:
    - **Data issue**: For example, missing data or missing data field, make the necessary changes to the ValPatch mailing spreadsheet or the ValPatch Tool. Return to step 3.
    - **Letter Issue**: For example, the payment start date is printing where the payment end date should print, make the appropriate updates in the appropriate template in the eALG system. Return to step 13.

Top of Page

## TP 55.2 Submit eALG Request for Mailing Letters

**07/01/2016**

| | |
|---|---|
| **Purpose** | To image documentation used to create the ValPatch mailing spreadsheet to the plan file, to obtain management approval, and to submit the eALG Request to DMS for creating and mailing of the letters. |
| **Guidance** | TRMD Service Catalog |
| **Procedure Owner** | EBLS/FBA/PBA |

Follow this procedure after completing TP 55.1B Process ValPatch Mailing Request and the data and letters are ready for approval.

1. Place the final ValPatch mailing spreadsheet in one of the following file directories depending on location:
   - FBAs: `I:\BOARD\FBA\FBA [name]\[eight-digit PBGC case number]\ValPatch`

     **Note** Ask the ▸FBA ▸LAN Administrator for assistance if necessary.

   - Headquarters: `I:\software\[eight-digit PBGC case number]\ValPatch`

   Use the TRMD Service Catalog to submit the file for archiving.

   **Note** For large files, request to have ▸TRMD transfer the files after hours to avoid any degradation in network performance.

2. Submit the *ValPatch Mailing Concurrence Memo* to management for review and approval and include the following as attachments:
   - Hard copies of the sample letters (created from the Preview function in ▸eALG).
   - Final ValPatch mailing spreadsheet loaded into eALG for processing.
3. Based on management's decision, do one of the following:
   - Approved: Image the following items to the plan file in IPS and then continue to step 5:
     - *ValPatch Mailing Concurrence Memo*
     - Plan documents modified in the preparation of the ValPatch Mailing
     - Letter template
     - Sample Letters
   - Not Approved: Correct the issues cited for the rejection of the ValPatch Mailings, if possible, and return to TP 55.1A Process ValPatch Mailing Request Containing Calculated Data or TP 55.1B Process ValPatch Mailing Request, as necessary.
4. Perform these steps in eALG:
   a. Select the letter.
   b. Select the group.
   c. Run the Check Recipients function to identify any issues with a participant's letter and remove the records with issues to continue with the process.
5. Submit the eALG Request.

   **Note** Submit a large ValPatch Mailing (5,000 or more participants) at the end of the day so that the large request does not interfere with existing requests currently processing.

6. Notify DMS via e-mail (to the DMS Sys Admin mailbox) and copy the eALG Administrators if over 5,000 participants, with the following information:
   - eALG Request number(s)
   - Mailing date(s)
   - Letter type(s)

- Number of recipients

7. Work with DMS to resolve any problems.

   DMS provides notification when the job is complete.

8. In cases where participants were removed from the ValPatch mailing spreadsheet (for example, incomplete or incorrect addresses, multiple roles, or deaths), correct the issues and create the letters separately, if needed.
9. Perform any of the following if the ValPatch mailing spreadsheet or supporting documentation changed:
   - Image any supporting documentation used to support the ValPatch Mailing (for example, Benefit Statements not created in eALG), as needed.
   - Place the final ValPatch mailing spreadsheet in one of the following file directories depending on location, as needed:
     - FBAs: `I:\BOARD\FBA\FBA [name]\[eight-digit PBGC case number]\ValPatch`

       **Note** Ask the FBA LAN Administrator for assistance if necessary.

     - Headquarters: `I:\software\[eight-digit PBGC case number]\ValPatch`

     Use the TRMD Service Catalog to submit the file for archiving.

     **Note** For large files, request to have TRMD transfer the files after hours to avoid any degradation in network performance.

Top of Page

## TP 55.3 Submit ValPatch Mailing Request to TRMD

**07/01/2016**

| | |
|---|---|
| **Purpose** | To submit a ValPatch Mailing request via TRMD. |
| **Guidance** | TRMD Service Catalog<br>ValPatch Tool |
| **Procedure Owner** | EBLS/FBA/PBA, TRMD |

Request ▸TRMD to process a ValPatch Mailing for any of the following reasons, but not limited to:

- Broken ValPatch Tool.
- Complex mailing request.
- ▸FOD mailing request.
- ▸OGC mailing request.

**EBLS/FBA/PBA, Actuary, or FOD/OGC (Requestor)**

1. Submit the ValPatch Mailing request via the TRMD Service Catalog by following the instructions under the ValPatch link found under the **Other Common Requests** section.

**TRMD**

2. Process the ValPatch Request based on the submitted ValPatch mailing spreadsheet.
3. Use the ValPatch Tool to load the spreadsheet.
4. Notify the requestor of any errors or warnings.
5. After the requestor resubmits the ValPatch mailing spreadsheet with all errors and warnings addressed, reload the spreadsheet into the ValPatch Tool.
6. Using the ValPatch Tool, create the files for loading into the ▸eALG system.
7. Load the files in to the eALG system for processing and notify the requestor to initiate the letters request.

**EBLS/FBA/PBA, Actuary, or FOD/OGC (Requestor)**

8. For each ValPatch group, run a sample of the letters using the Request Preview function in the eALG system.
9. If the letters show discrepant data in the preview, make corrections based on the following:
   - **Data issue**: For example, missing data or missing data field, make the necessary changes to the ValPatch mailing spreadsheet or the ValPatch Tool. Return to step 1.
   - **Letter Issue**: For example, the payment start date is printing where the payment end date should print, make the appropriate updates in the eALG system. Return to step 8.
10. Continue to TP 55.2 Submit eALG Request for Mailing Letters to complete the ValPatch Mailing process.

# TP 56 Administrative Subpoenas

**In this Section**

TP 56. Overview for Administrative Subpoenas
TP 56.1 Issue Administrative Subpoena
TP 56.2 Resources for Administrative Subpoenas

## TP 56. Overview for Administrative Subpoenas

**07/01/2016**

An administrative subpoena is an official order compelling an individual to provide a government agency with certain information. ▸OBA typically issues subpoenas when plan-related documents that have been requested within an expected timeframe (for example, 30 days) have not been received.

Subpoenas may also be issued when OBA encounters clearly uncooperative sources who will not voluntarily furnish information or documents when requested to do so. Examples are sources who do not respond to letters, refuse to take telephone calls, or agree to provide information but never follow through.

OBA coordinates with ▸OCC in issuing administrative subpoenas. In some cases, OCC may be able to contact the source or its legal counsel to obtain the documents or information needed to administer the plan without issuing a subpoena.

## TP 56.1 Issue Administrative Subpoena

**07/01/2016**

| | |
|---|---|
| **Purpose** | To issue an administrative subpoena. |
| **Guidance** | None |
| **Procedure Owner** | OBA |

1. Consult with ▸FOD, the ▸CFRD Analyst and the ▸OCC attorney assigned to the case to determine whether any subpoenas have already been issued or if the information needed is already available at PBGC.
   - If so, collect copies of the documents and image them to the ▸plan ▸IPS file. No further action is required if all the information has been received.
   - Otherwise, continue to the next step.
2. Document denied requests for information from a ▸plan sponsor or other third party using the *Plan Information Request Log*. Update the spreadsheet as needed to record responses, follow-up requests, etc.
3. If the denial is verbal, or written but does not provide the rationale for denying access:
   a. Prepare a follow-up letter to the plan sponsor or other third party requesting the information as follows:
      - Request that the information be provided within 7 days of the letter date, or, that if access to the information is denied, to provide the rationale for the denial and the contact information for the attorney representing the plan sponsor (or other third party if applicable).
      - Prepare the letter for the division manager's signature.
      - Issue the letter using the approved shipping service or e-mail.
   b. Image a copy of the letter to the appropriate IPS plan file.
   c. Update the *Plan Information Request Log*.
   d. If the information is denied or the plan sponsor does not respond within the timeframe, continue to the next step.
4. Complete the *Denial of Information Advice Memo* to advise OCC that the requested information has been denied or no response has been received.

   The OCC attorney will contact the plan sponsor or its legal counsel for the information, and advise ▸OBA whether a subpoena is needed.
5. If OCC advises that a subpoena is needed to request the information, prepare the *Administrative Subpoena* as follows:
   - Review the list in *Schedule A Documents to be Produced* and choose only those necessary to obtain the required information.
   - Request only documentation in the subpoena; do not include questions.
   - Include the OCC attorney's name on the signature line.
6. Prepare the *Administrative Subpoena Cover Letter* to accompany the subpoena, with the OCC attorney's name on the signature line.
7. E-mail or deliver the prepared *Administrative Subpoena* and *Administrative Subpoena Cover Letter* to the OCC attorney.

   The OCC attorney will sign the documents and provide to the ▸Auditor to issue.
8. Send the subpoena using the approved shipping service to ensure proof of delivery and update the *Plan Information Request Log*.
9. Inform OCC and other PBGC groups supporting the plan when the subpoena is issued, such as FOD.
10. Upon receipt of the subpoenaed information, confirm that all documentation requested was provided and update the *Plan Information Request Log*.
11. Ask the OCC attorney to obtain the requested information directly via the courts in cases where:

- Any of the requested information is not provided, or
- The subpoenaed information has not been provided within the expected period (for example, 30 days).
- Update the *Plan Information Request Log*.

12. Ensure that the subpoena, cover letter, *Plan Information Request Log*, *Denial of Information Advice Memo* and subpoenaed information are imaged to the plan file.

# TP 57 Identity Discrepancies

**In this Section**

TP 57. Overview for Identity Discrepancies
TP 57.1 Resolve Identity Discrepancies
TP 57.2 Resources for Identity Discrepancies

## TP 57. Overview for Identity Discrepancies

**09/26/2008**

The name and Social Security Number (SSN) used by a participant or beneficiary may be different from the name and SSN shown in plan or participant records. This procedure describes how to resolve these identity discrepancies.

An individual's name may change for legal reasons such as adoption, marriage, divorce, work purposes (for example, entertainers' stage names), an incorrect birth record, or simply a personal choice. Many participants contact PBGC to report a legal name change shortly after the change is made, often after getting married. Individuals may also report an error in their name in PBGC's records; for example, a benefit statement shows a married participant's maiden name. This may also occur when a participant or beneficiary applies for pension benefits and provides discrepant information.

Discrepancies in an individual's SSN may be due to administrative or clerical errors, or the individual may have mistakenly provided an incorrect SSN to the employer. As with names, individuals may report an error in their SSN in PBGC's records; for example, in a benefit statement some digits of an SSN are transposed. Note that, very rarely, an individual's Tax Identification Number (TIN) is not an SSN. In case of a discrepancy involving such an individual, these procedures may be followed using his or her IRS-issued Individual Taxpayer Identification Number (ITIN) instead of an SSN. See Appendix R Assignment and Withholding from Benefit Payments for more information about TINs.

An individual may also allege that he or she worked under an assumed name or SSN; for example, as an undocumented worker. PBGC is still responsible for paying such individuals if they are due benefits. If someone due benefits from PBGC alleges using or having used a name or SSN different from the one shown in plan or participant records, he or she is ultimately responsible for providing convincing evidence that he or she is the participant or beneficiary due benefits.

## TP 57.1 Resolve Identity Discrepancies

**07/01/2016**

| | |
|---|---|
| **Purpose** | To resolve discrepancies or alleged errors in a participant's or beneficiary's name, Social Security Number (SSN), or other identifying information. |
| **Guidance** | N/A |
| **Procedure Owner** | EBLS/FBA/PBA/PVA |

**In this Section**

TP 57.1A Legal Name Change
TP 57.1B SSN Change
TP 57.1C Other Discrepancies

**TP 57.1A Legal Name Change**

**07/01/2016**

**EBLS/FBA/PBA/PVA**

1. If an individual reports that his or her name changed, ask the individual to provide legal proof of the name change. Proof of a legal name change typically shows the name by which the individual was previously known and the name he or she will be using. Acceptable proofs of a legal name change include:
   - Adoption certificate: Note that this rarely applies to adults.
   - Marriage certificate: A marriage certificate generally does not have to be requested unless a name change due to marriage is questionable, such as if the name change cannot be traced through plan records. See Appendix O Acceptable Proof of Marriage for more information.
   - Divorce decree
   - Amended or corrected birth certificate
   - Court order or other legal document
2. Ask the individual for a copy of his or her ▸SSN card or other proof from ▸SSA to confirm that SSA records have also been changed, such as a Numident (Numerical Identification) query that shows the current name and other names used, or that the name and SSN are consistent with SSA records.
3. If the participant provides sufficient proof of the name change, update ▸Spectrum accordingly.
4. If, for any reason, the individual is unable to provide legal evidence of the name change, follow the procedures in TP 57.1C Other Discrepancies.

**TP 57.1B SSN Change**

**07/01/2016**

**EBLS/FBA/PBA/PVA**

1. If a participant or beneficiary reports that the ▸SSN in PBGC records is incorrect, ask him or her to provide proof of the correct SSN. Acceptable proof includes:
   - A copy of a social security card showing the correct SSN and the same name used in plan or participant records.
   - Documentation from ▸SSA confirming the SSN of the person shown in plan records, such as a Numident (Numerical Identification) query that shows current name, other names used, date of birth, place of birth, and parents' names. For more information on Numident queries, go to www.SSA.gov.
   - An earnings record from SSA showing the participant's SSN and earnings under the plan.
2. If the individual cannot provide a valid SSN, the individual must provide proof that he/she is not eligible for one, for example, a letter from SSA stating that the applicant does not qualify for an SSN. Make every effort to have the person obtain an SSN or ▸ITIN (Individual Taxpayer Identification Number). If the individual is denied an ITIN or refuses to apply for one, obtain a dummy SSN from the Customer Contact Center of ▸CCD as a last resort.

   **Note** PBGC cannot refuse to pay benefits to an otherwise eligible participant or beneficiary because they cannot provide a valid SSN or ITIN. See Appendix R Assignment and Withholding from Benefit Payments for additional information about tax withholding and reporting when a valid SSN or ITIN is not available.

3. If the individual provides sufficient proof of the correct SSN, update the record in Spectrum accordingly.

**TP 57.1C Other Discrepancies**

**07/01/2016**

If a customer alleges using an assumed or false name and/or ▸SSN (for example, Josef Abba claims to have worked and earned benefits under the name Joe Bebba), or a name or SSN change described in TP 57.1A Legal Name Change or TP 57.1B SSN Change appears questionable, make a facts and circumstances determination to establish the identity of the participant or beneficiary. The customer is ultimately responsible for providing convincing evidence that he or she is the participant or beneficiary shown in plan or participant records.

**EBLS/FBA/PBA/PVA**

1. Ask the customer to explain why different identifying information (for example, name, SSN, date of birth) was assumed or used.
2. Ask the customer to provide evidence that reasonably establishes that he or she is the participant or beneficiary due benefits from the plan. Preferred evidence identifies the customer by both the assumed or false name used and the allegedly correct name; however, evidence that reasonably links the customer to both identities may be acceptable. Preferred evidence includes:
   - Immigration and Customs Enforcement (part of the Department of Homeland Security, previously the Immigration and Naturalization Service) records.
   - Social Security Administration records, such as Numident or ▸SSA earnings records.
   - ▸IRS records.

   If preferred evidence is unavailable, other evidence may be applicable, such as:

   - Other legal, court, or government documents.
   - Other evidence such as locator records, public welfare records, or employer records that may reasonably establish the relationship.

   Contact Ask PPD for additional guidance on acceptable evidence if needed.
3. Ask the customer to submit confirmation of the validity of his or her SSN from ▸SSA (for example, a Numident record) or ▸ITIN (Individual Taxpayer Identification Number) from IRS (for example, correspondence with the IRS); in this situation a copy of the SSN card or ITIN alone is not acceptable.
4. If the identity discrepancy includes a discrepancy in the customer's date of birth, request that the customer present proof of age that is consistent with his or her actual name, SSN, or the evidence submitted (see Appendix G Acceptable Proof of Age and Death).
5. Review the evidence and make a determination whether the customer is the participant or beneficiary identified as being due benefits in plan or participant records. Contact Ask PPD for additional guidance if needed to make a determination.
6. Document the determination in writing and image, along with applicable evidence, to the participant's or other person's (for example, beneficiary, spouse, alternate payee) file.
7. Proceed based on the determination:
   a. **The individual is the participant or beneficiary due benefits:**
      i. Prepare an *Discrepancy in Name or Social Security Number Affidavit & Reimbursement Agreement*, including the alleged and assumed name and SSN, the explanation given above of why the discrepant identifying information was used, and a promise to repay if PBGC subsequently learns the customer did not earn benefits. The affidavit must confirm that the customer is the participant or beneficiary due benefits from the plan. The affidavit may also be customized to address or confirm specific information provided by the customer. See *Sample Discrepancy in Name or Social Security Number Affidavit & Reimbursement Agreement*.
      ii. Submit the prepared affidavit to an Employee Benefits Supervisor for approval.
      iii. Send the affidavit to the customer.
      iv. Upon receipt of the affidavit, ensure that it has been properly signed and notarized. Image it to the customer's file.
      v. Update Spectrum accordingly, and take additional actions as appropriate (issue an application for benefits,

etc.).

b. **The individual is not the participant or beneficiary due benefits, or evidence is insufficient to make a determination:**

   i. Create a record in Spectrum if necessary, and code the customer as a Non-Member.

   ii. Prepare *eALG 405NM Non-Member BDL*. This letter may be used whether or not the person is already receiving benefits.

   - Customize the letter to explain why benefits are not due, the reason for declaring the participant a Non-Member (for example, that the evidence they provided was insufficient to establish their identity).
   - Include a statement that PBGC will not pay the individual benefits (or, if already in pay, that PBGC will stop payment by a date no less than 45 days after the letter is issued).
   - If payments have been made, initiate recovery action.

   iii. Submit the letter to an Employee Benefits Supervisor for approval.

   iv. Upon approval, issue the letter.

# TP 58 Plan Loans and Other Distributions

**In this Section**

TP 58. Overview for Plan Loans and Other Distributions
TP 58.1 Obtain Information about Plan Loan or Distribution
TP 58.2 Determine if Distribution is a Plan Loan or Other Distribution
TP 58.3 Process Plan Loan
TP 58.4 Process Other Distribution
TP 58.5 Determine Requirement for and Request Spousal Consent
TP 58.6 Resources for Plan Loans and Other Distributions

# TP 58. Overview for Plan Loans and Other Distributions

**11/21/2014**

This procedure describes how to process plan loans and other distributions from plan assets to participants and beneficiaries other than *bona fide* benefit payments. Soon after trusteeship and during data gathering, the plan and participant records may reveal that a participant or beneficiary received a distribution from plan assets other than a benefit payment. A distribution may be identified during:

- Review of ▸Form 5500s
- Review of the plan asset statements
- Site visit and telephone conference interviews with former plan administrators
- Review of plan and participant files

After identification of a distribution, PBGC will determine whether to treat the distribution as a plan loan as described in Policy 6.6-4 Plan Loans or as an "other distribution" as described in Policy 6.6-2 Assignment or Alienation of Benefits and this procedure.

- **Loans.** PBGC treats all plan loans as due and payable at ▸DOPT. PBGC gives the participant or beneficiary (the "borrower") the opportunity to repay the unpaid loan balance, and if the borrower does not repay, offsets the borrower's benefit by the unpaid loan balance. This amount is reported to the IRS as a taxable distribution. Plan loans are treated as a plan asset as of DOPT regardless of whether they are repaid or offset.
- **Other distributions.** If a distribution to a participant or beneficiary (the "distributee") is determined to be a pre- or post-DOPT distribution, PBGC offsets the distributee's benefit by the amount of the distribution, and reports the distribution to the IRS as a taxable distribution. The distributee will not have the opportunity to repay the amount. The method of offset depends on whether the distribution occurred before or after DOPT. A post-DOPT distribution is included in plan assets, while pre-DOPT distribution is not.
- **Fiduciary breaches.** Some distributions from plan assets may be considered fiduciary breaches. This procedure does not include the process for handling a fiduciary breach. Refer to Policy 6.6-2 and the New Asset Evaluation Procedures and Documents for further guidance.

**Spousal Consent and Protection:** If ▸spousal consent was needed but not obtained at the time of the loan or distribution, PBGC will attempt to obtain it directly from the spouse, unless the loan is repaid by the borrower. If unable to obtain spousal consent, PBGC will provide the spouse a survivor annuity attributable to the offset amount, and will reduce the benefit of the borrower or distributee accordingly.

### Documenting Plan and Participant Files

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

## TP 58.1 Obtain Information about Plan Loan or Distribution

**07/01/2016**

| | |
|---|---|
| **Purpose** | To obtain all documents needed to determine whether to process distribution as a plan loan or other distribution. |
| **Guidance** | eALG Correspondence Help<br>Policy 6.6-2 Assignment or Alienation of Benefits<br>Policy 6.6-4 Plan Loans |
| **Procedure Owner** | Auditor, DMD/DCB |

1. Create a *Plan Loans and Distributions Tracking Spreadsheet* to identify and track plan loans, if desired.
2. If there is evidence a participant or beneficiary received a distribution from the plan that was not a bona fide ▸benefit payment, obtain and review information about the distribution, for example:
   - Date and amount of loan or distribution.
   - Written loan agreement or other documentation concerning the distribution.
   - Interest rate.
   - Loan terms (for example, interest rate and repayment schedule).
   - Amount(s) repaid and dates.
   - Participant or beneficiary's current marital status, marital status at the time of the loan or distribution, and spousal contact information.
   - Evidence of ▸spousal consent, if needed (see TP 58.5 Determine Requirement for and Request Spousal Consent for requirements).
   - Copy of Form 1099-R or other evidence if the distribution was previously reported to the ▸IRS.
3. If additional information is required, contact the ▸plan administrator.
4. If additional information is needed from the participant or beneficiary, work with the ▸EBLS/▸FBA/▸PBA to customize and issue *eALG 551 Request for Information on Loan or Distribution* (see eALG Correspondence Help).
5. If using a *Plan Loans and Distributions Tracking Spreadsheet*, update the spreadsheet with the information about the plan loan or distribution.
6. If PBGC suspects a fiduciary breach:
   a. Complete the relevant steps in the New Asset Evaluation Procedures and Documents.
   b. If ▸OCC, ▸OGC, and ▸OBA determine not to pursue the possible breach, continue to TP 58.2 Determine if Distribution is a Plan Loan or Other Distribution.

## TP 58.2 Determine if Distribution is a Plan Loan or Other Distribution

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine whether to process distribution as a plan loan or other distribution and document the determination. |
| **Guidance** | Policy 6.6-2 Assignment or Alienation of Benefits<br>Policy 6.6-4 Plan Loans<br>*Treatment of Plan Distributions other than Benefit Payments Flowchart* |
| **Procedure Owner** | Auditor, DMD/DCB |

1. Analyze the information and determine whether the distribution is a plan loan under Policy 6.6-4 Plan Loans (a ▸properly documented loan or ▸improperly documented loan), or as a pre- or post-date of plan termination (DOPT) ▸other distribution under Policy 6.6-2 Assignment or Alienation of Benefits.

   > **Note** Spousal consent is not required if the borrower's accrued benefit was less than the amount of the plan's *de minimis* cash-out (lump sum) limit. If the auditor believes the benefit was *de minimis*, validate this with the actuary.

2. If PBGC suspects a fiduciary breach:
   a. Complete the relevant steps in the New Asset Evaluation Procedures and Documents.
   b. If ▸OCC, ▸OGC, and ▸OBA determine not to pursue the possible breach, continue to step 3.
3. If the borrower attests to the loan and evidence of the attestation is needed:
   a. Customize the *Affidavit for Plan Loans* with the appropriate information:
      - Borrower's name and ▸SSN
      - Plan name
      - State and county of residence
      - Date and amount of loan
      - Description of evidence of loan
      - Description of repayments, or statement that no repayments were made
      - Other information as required
   b. Work with the ▸EBLS/▸FBA/▸PBA to prepare, customize, and issue *eALG 559 Affidavit for Plan Loan-Cover Letter* including:
      - Date of loan
      - Amount borrowed
      - Description of evidence of loan
4. On obtaining all available information regarding the distribution, determine whether to treat the distribution as a plan loan or an other distribution.
5. Prepare a *Plan Loan or Other Distribution Determination*.
6. Attach all supporting documentation or reference documents in Image Viewer, including the following:
   - **Background and Facts:** Description of information obtained and facts and circumstances surrounding the distribution.
   - **Analysis:** Description of how the policy was applied to the facts and circumstances of the distribution.
   - **Conclusion:** Final determination of whether to treat the distribution as a plan loan or pre- or post-▸DOPT distribution.
7. Submit the *Plan Loan or Other Distribution Determination* and attachments to the ▸DCB Supervisory Auditor for concurrence.
8. On receipt of DCB Supervisory Auditor concurrence, submit the *Plan Loan or Other Distribution Determination* and attachments to Ask PPD for concurrence.

9. On receipt of ▸PPD concurrence, image the *Plan Loan or Other Distribution Determination* and all supporting documentation to both the plan and participant files in IPS (see TP 16 Plan and Participant File Maintenance).
10. If using a *Plan Loans and Distributions Tracking Spreadsheet*, update the spreadsheet with the determination.
11. Continue according to the determination of how to treat the distribution:
    - **Plan Loan:** Proceed to TP 58.3 Process Plan Loans.
    - **Other Distribution (Pre- or Post-DOPT):** Proceed to TP 58.4 Process Other Distribution.

Top of Page

# TP 58.3 Process Plan Loan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To notify the borrower of the unpaid loan balance at DOPT and the repayment option, then to take action on repayment or process the loan as an offset and distribution if not repaid. |
| **Guidance** | eALG Correspondence Help<br>Policy 6.6-4 Plan Loans |
| **Procedure Owner** | Actuary, Auditor, DMD/DCB |

**In this Section**

TP 58.3A Determine Unpaid Loan Balance at Date of Plan Termination and Notify Borrower
TP 58.3B Take Action on Repayment of Loan
TP 58.3C Take Action if Borrower Does Not Repay Loan

**TP 58.3A Determine Unpaid Loan Balance at Date of Plan Termination and Notify Borrower**

**07/01/2016**

On determining that the distribution is a plan loan, gather the information needed to send an *eALG 552 Loan Repayment Option* letter.

**Auditor**

1. Request the ▸actuary to calculate:
   - Unpaid loan balance at the date of plan termination (▸DOPT).
   - Annuity equivalent at the normal retirement date (▸NRD) of the unpaid loan balance at ▸DOPT in the plan's normal benefit form.
2. Provide the actuary with information about the loan gathered in TP 58.1 Obtain Information about Plan Loan or Distribution in addition to the information required to calculate the termination benefit, including but not limited to:
   - Borrower's name and ▸SSN
   - Date of birth
   - Date of hire
   - Salary, if applicable
   - All additional information required to calculate the termination benefit

**Actuary**

3. Using guidance in Policy 6.6-4 Plan Loans, calculate the unpaid loan balance at DOPT using the terms specified in the loan and plan documents:
   - If the loan documents conflict with the plan documents, use the plan documents.
   - Discount any payments made after DOPT back to DOPT.
   - Use the interest rate and repayment period specified in the loan agreement, unless one of the following exceptions applies:
     - If the rate or repayment period in the loan agreement conflicts with the plan document, use the plan documents.
     - If the loan agreement does not specify or uses an incorrect interest rate or repayment period, use the plan documents.
     - If the loan agreement and the plan document do not specify an interest rate or use an incorrect interest rate, then use the rate at which PBGC credits underpayments in ▸PACS.
   - If the loan document and the plan do not specify a due date for payments, then assume quarterly payments were due on the first day of each calendar quarter.
4. Calculate the annuity equivalent at ▸NRD of the unpaid loan balance at DOPT in the plan's normal form using the rates PBGC uses to value immediate and deferred annuities.
5. Document the calculation and provide the unpaid loan balance at DOPT and the annuity equivalent at NRD of the unpaid loan balance at DOPT in the plan's normal benefit form to the auditor for inclusion in the *eALG 552 Loan Repayment Option* to the participant.

**Auditor**

6. Work with the ▸EBLS/▸FBA/▸PBA to prepare *eALG 552 Loan Repayment Option*.
7. Upon successful review of the draft, request the EBLS/FBA/PBA to issue the letter to the borrower.
8. If using a *Plan Loans and Distributions Tracking Spreadsheet*, update the spreadsheet with the unpaid loan balance and the date of notification to the borrower.
9. Proceed according to the response from the borrower:
   - If the borrower requests more than 60 days to repay the unpaid loan balance at DOPT, contact Ask PPD.
   - If the borrower provides evidence that would change the unpaid loan balance at DOPT, return to step 3 and recalculate that amount.

- If the borrower repays the loan within 60 days, proceed to TP 58.3B Take Action on Repayment of Loan.
- If the borrower does not respond within 60 days, proceed to TP 58.3C Take Action if Borrower Does Not Repay Loan.

**Note** Include the **full amount of the unpaid loan balance at DOPT** in the Plan Asset Evaluation. See the New Asset Evaluation Procedures and Documents. Note that even if the unpaid loan balance at DOPT is or appears to be greater than the value of the borrower's termination benefit, the full amount is included the plan assets.

Top of Page

**TP 58.3B Take Action on Repayment of Loan**

**07/01/2016**

**Auditor**

1. Obtain a copy of the check or other evidence from FOD/COD certifying that PBGC received payment of the unpaid loan balance at the date of plan termination (▸DOPT) and the payment cleared.
2. Scan the copy of the check or other evidence to both the plan file (Plan Asset Audit section) and participant file in ▸IPS.
3. Inform the ▸actuary that the customer repaid the loan and advise not to offset the benefit for the loan.
4. Work with the ▸EBLS/▸FBA/▸PBA to send an *eALG 558 Confirmation of Loan Repayment* letter to the borrower advising that PBGC received the payment and will not offset the termination benefit or report the distribution to the ▸IRS.
5. If using a *Plan Loans and Distributions Tracking Spreadsheet*, update the spreadsheet with the date of repayment.

**TP 58.3C Take Action if Borrower Does Not Repay Loan**

**07/01/2016**

**Auditor**

1. Confirm with FOD/COD that the loan was not repaid.
2. Work with the ▸EBLS/▸FBA/▸PBA to prepare and issue *eALG 553 Notification of Offset for Loan* to the borrower.
3. Complete the form on the Plan Loans and Other Distributions (1099-R Requests) Portal site to request that ▸PBGC's paying agent prepare a 1099-R to the borrower. Complete all required fields of the form, including:
   - **Payment Date:** Enter the date PBGC issued the *eALG 553 Notification of Offset for Loan* letter.
   - **Gross Distribution:** Enter the unpaid loan balance at the date of plan termination (DOPT) provided by the actuary.
4. Print a copy of the screen by selecting **My Record** and image the copy to the participant file in ▸IPS.

   PBGC's paying agent images a copy of the 1099-R to the participant file.
5. Inform the actuary that the borrower did not repay the loan.

**Actuary**

6. Offset the final benefit by the ▸actuarial equivalent of the unpaid loan balance at ▸DOPT:
   - Calculate the termination benefit without regard to the loan in the valuation.
   - Permanently reduce the termination benefit by the annuity equivalent of the unpaid loan balance at ▸DOPT. If needed, further reduce the benefit to provide a protected survivor annuity (see TP 58.5 Determine Requirement for and Request Spousal Consent).

   **Note** If a situation occurs where the benefit is not enough to cover the unpaid loan balance (which can happen primarily in majority owner situations), consult with ▸DCB Supervisory Auditor about whether to contact ▸OCC for debt collection action.

**Auditor**

7. If using a *Plan Loans and Distributions Tracking Spreadsheet*, update the spreadsheet to indicate that the borrower did not repay.
8. Proceed to TP 58.5 Determine Requirement for and Request Spousal Consent.

## TP 58.4 Process Other Distribution

**07/01/2016**

| | |
|---|---|
| **Purpose** | To notify the distributee of the offset and taxation for the distribution and process accordingly. |
| **Guidance** | eALG Correspondence Help<br>Policy 6.6-2 Assignment or Alienation of Benefits<br>Policy 6.6-4 Plan Loans |
| **Procedure Owner** | Auditor, DMD/DCB, EBLS/FBA/PBA |

These steps describe how to process a participant distribution as a pre- or post-date of plan termination (▸DOPT) distribution. If a distributee received more than one distribution, contact Ask PPD for further guidance.

**Auditor**

1. Work with the ▸EBLS/▸FBA/▸PBA to prepare the *eALG 554 Notification of Offset* letter (see eALG Correspondence Help).
2. Upon successful review of the draft letter, request the EBLS/FBA/PBA to issue the letter to the distributee.
3. Complete the form on the Plan Loans and Other Distributions (1099-R Requests) Portal site to request that ▸PBGC's paying agent prepare a 1099-R to the distributee. Complete all required fields of the form, including:
   - **Payment Date:** Enter the date the distribution was made.
   - **Gross Distribution:** Enter the amount of distribution received.
4. Print a copy of the screen on the Portal site by pressing **My Record** and image the copy to the participant file in ▸IPS.

   PBGC's paying agent images a copy of the Form 1099-R to the participant file in IPS.
5. If using a *Plan Loans and Distributions Tracking Spreadsheet*, update the spreadsheet with information about the distribution.
6. Proceed to TP 58.5 Determine Requirement for and Request Spousal Consent.

> **Note** A pre-▸DOPT distribution is not considered a plan asset at DOPT.

# TP 58.5 Determine Requirement for and Request Spousal Consent

**07/01/2016**

| | |
|---|---|
| **Purpose** | To attempt to obtain spousal consent, if needed, for plan loans and other distributions. |
| **Guidance** | eALG Correspondence Help<br>Policy 6.6-2 Assignment or Alienation of Benefits<br>Policy 6.6-4 Plan Loans |
| **Procedure Owner** | Actuary, Auditor, DMD/DCB, EBLS/FBA/PBA |

If a married participant takes a loan or other distribution from a pension plan, the spouse must consent to the loan or distribution unless the participant's benefit is ▸*de minimis* at that time. When PBGC trustees a plan and identifies a loan or distribution that did not have the required ▸spousal consent, PBGC contacts the spouse directly and asks if the spouse wishes to consent at this time. PBGC does this only to determine whether to "protect" the survivor benefit attributable to the loan or distribution; the consent does not affect the offset of the participant's benefit.

**Auditor**

1. Determine whether PBGC needs to request spousal consent:
   a. Determine whether PBGC requires spousal consent, that is, whether both criteria are true:
      - The borrower or distributee **is currently married to the same spouse** as when the loan or distribution was made.
      - The present value of the accrued benefit **at the time the loan or distribution was made** was more than the plan's *de minimis* cash-out level (typically $5,000).
   b. Determine whether PBGC needs to seek spousal consent:
      - Spousal Consent on File or Not Required: Do not complete the remainder of this procedure.
      - Spousal Consent Required but Not Obtained: Continue to step 2.
2. Request the actuary to calculate the spouse's protected survivor annuity. Supply the actuary with information gathered in TP 58.1 Obtain Information about Plan Loan or Distribution in addition to the information needed to estimate the termination benefit, including:
   - Borrower's or distributee's name and ▸SSN
   - Spouse's name and SSN
   - Date of birth of borrower or distributee and spouse
   - Date of hire
   - Salary, if applicable

**Actuary**

3. Estimate the monthly amount of the spouse's protected survivor annuity:
   - **For Loans**, use guidance in Policy 6.6-4 Plan Loans. Start with the ▸actuarial equivalent of the unpaid loan balance at the date of plan termination (DOPT) in the plan's qualified joint and survivor (QJSA) form at the normal retirement age (NRA); the spouse's protected survivor annuity is the monthly amount of the survivor benefit for this ▸QJSA benefit.
   - **For other distributions,** use guidance in Policy 6.6-2 Assignment or Alienation of Benefits. Estimate the monthly amount of the benefit offset, calculated in the plan's QJSA form at ▸NRA based on whether the distribution occurred pre- or post-▸DOPT; the spouse's protected survivor annuity is the monthly amount of the survivor benefit for this QJSA benefit.

**Auditor**

4. Work with the ▸EBLS/▸FBA/▸PBA to develop *eALG 556 Spousal Consent Request – Loan* or *eALG 557 Spousal Consent Request - Distribution* (see eALG Correspondence Help).

5. Submit the letter to ▸DCB Supervisory Auditor for review and concurrence.
6. After DCB Supervisory Auditor concurrence, submit the letter to Ask PPD for review and concurrence.
7. After ▸PPD concurrence, work with the EBLS/FBA/PBA to send the letter directly to the spouse.
8. Wait 30 days for a response from the spouse:
   - If the spouse does not respond within 30 days, treat as if PBGC did not receive spousal consent.
   - If the spouse requests additional time, determine and grant a reasonable amount of time.
9. Prepare the *Spousal Consent Memo to File* documenting whether:
   - PBGC obtained spousal consent.
   - The spouse is entitled to a protected survivor annuity.
10. Image the memo to the spouse's and the borrower's or distributee's file in ▸IPS.
11. Inform the actuary of the spouse's response for consideration in the determination of the participant's final benefit:
    - If the spouse consents, the actuary offsets the benefit without spousal protection.
    - If the spouse does not consent, the actuary offsets the benefit and calculates the cost of providing a protected survivor annuity.
12. Image the actuary's calculations and any supporting documentation to the borrower or distributee's file in IPS for reference when placing the participant or spouse into pay status.
13. If using a *Plan Loans and Distributions Tracking Spreadsheet*, update the spreadsheet with the spousal consent results.

# TP 59 Data Load Requests

**In this Section**

TP 59. Overview for Data Load Requests
TP 59.1 First Pay and Customer Data Loads
TP 59.2 Miscellaneous Limited, Family, and Benefit Adjustment Data Loads
TP 59.3 Miscellaneous Full Data Loads
TP 59.4 Valuation Data Loads
TP 59.5 Resources for Data Load Requests

## TP 59. Overview for Data Load Requests

**07/01/2016**

The following procedures provide guidance for performing the various customer data loads using the Data Load Request wizard in Spectrum:

- **First Pay Load**: Performed at Plan Assumption to transfer payment responsibility from the prior plan administrator to PBGC.
- **Customer Load**: To load non-payees, usually at the time the plan is assumed. May be combined with the First Pay load.
- **Miscellaneous Loads**: To load various customer data. There are two types of Miscellaneous data loads: Limited and Full. The Data Elements List in the application defines what data may be loaded with each type of load.
- **Family Load**: To correct the status of Beneficiaries initially loaded as Participants (PP), and add deceased Participants to the database and link them to Beneficiaries in pay status.
- **Benefit Adjustments Load**: To adjust benefits of payees whose estimated payments are greater or less than what PBGC has determined they should be receiving.
- **Valuation Load**: Populates records with valuation data that enable Benefit Determination Letters to be issued.

There are various means by which data may be loaded: electronically from the user's desktop, electronically by ▸TRMD, manually from the user's desktop, or manually by the ▸DMC. The decision as to which method will be used should be made before the Data Load Request is initiated. TRMD performs Miscellaneous Full and Valuation loads.

Processing steps are included for both the person requesting the load and for the staff requested to assist with the load (TRMD or DMC), as applicable. For technical guidance, there are references throughout these procedures to the *Spectrum Data Load Management Users Manual*. There are also help screens within the Data Load Management application.

# TP 59.1 First Pay and Customer Data Loads

**07/01/2016**

| | |
|---|---|
| **Purpose** | To load payees and other customers into Spectrum using various data load methods. |
| **Guidance** | *Customer Role and Eligibility Status Guidance* in *Spectrum User Manual*<br>*Plan File Indexing Specification Guide*<br>*Spectrum User Manual* |
| **Procedure Owner** | DMC, EBLS/FBA/PBA, TRMD |

The ▸EBLS/▸FBA/▸PBA is required to initiate all First Pay and Customer Data Load Requests, which may be done together in a combined load.

**EBLS/FBA/PBA**

1. Verify that an account for the▸ plan is open with ▸PBGC's paying agent:
   - If the Case Team in ▸CMS did not include an EBLS before ▸CFRD transferred the case to ▸CSD, proceed to step 2 to manually open an account.
   - If the Case Team in CMS included an EBLS before CFRD transferred the case to the CSD, proceed to step 3 to begin the data load.

     When CFRD transfers the case to CSD with an assigned EBLS, CMS automatically generates an e-mail containing the *Notification of Authorization to Make Payments Memo* requesting the account be opened, ▸SSC replies with a confirmation, and ▸CCC images both messages to the plan file. No further notification to SSC is needed.
   - If uncertain about the status of the account, check ▸PLUS:
     - If the account is open in PLUS, document that fact in a memo to the ▸IPS plan file and proceed to step 3 to begin the data load
     - If the account is not open, continue to step 2.
2. To open an account, complete the *Notification of Authorization to Make Payments Memo* and send to management via e-mail. After reviewing the document, the Employee Benefits Supervisor e-mails the document to PLUS System Administration and copies the Paying Agent ▸COR. PLUS System Administration submits the request to the Paying Agent. Once the Paying Agent has initiated the request (that is set up the Account Master on PLUS). PLUS System Administration notifies the CSD and New Plan E-Mail group of the status. CCC then images the message to the plan file.

   If corrections or updates are needed to PLUS System for the Account Master on PLUS, the Employee Benefits Supervisor notifies PLUS System Administration and copies the Paying Agent COR by e-mail. PLUS System Administration reviews the request and submits to the Paying Agent. Once the Paying Agent has implemented the request, PLUS System Administration notifies CSD.
3. Ensure that all data elements required for the data load are available (see the list within the Data Load Management wizard; for guidance on which codes to use when loading customers, see the *Customer Role and Eligibility Status Guidance* on the *Spectrum User Manual*).

   > **Note** When recording the benefit form for a surviving spouses or other beneficiary of a participant who had been in pay status and is now deceased, enter the residual benefit form. For example, for the surviving spouse of a participant who received a Joint & 50% Survivor benefit, enter a straight life benefit form.
4. Determine which of the following methods to use for the data load:
   - Electronic load from desktop
   - Electronic load by ▸TRMD at user's request
   - Manual load at desktop
   - Manual load by ▸DMC at user's request
5. Initiate the Data Load Request in ▸Spectrum and prepare the necessary documents according to the data load

method:

- **All Methods:**
  - Submit all data on a single spreadsheet.
  - Name all data fields correctly according to the Data Elements List (for example, the column with ▸SSNs must be named PRT_ID for Spectrum to accept the data).
  - If available, include in the data load the form of ▸benefit from the data the prior plan administrator or interim paying agent provided.
- **Electronic Load from User's Desk Top** (the file must be in an acceptable format):
  - Excel
  - Access
  - Text file containing comma-separated values (CSV)
- **Manual Load at Desktop**: No special preparation is needed, but ensure the data is in a format that the Approver can easily use to verify the load.
- **Electronic Load by TRMD**:
  - Load the spreadsheet to the shared drive (`I:/software/[8-Digit PBGC Case Number]/Customer`).
  - Name the data file with the ▸PBGC Case Number, follow by an underscore and the load type.
  - **Examples:**
    - First Pay or combined First Pay and Customer load: `I:/software/PBGC Case Number/Customer/12345600_FPLoad.xls`
    - Customer Load: `I:/software/PBGC Case Number/Customer/12345600_CLoad.xls`
  - Request TRMD to archive the data (see TRMD Service Catalog).
- **Manual Load by DMC**: Deliver the hard copy data to the Datahub Coordinator on initiating the Data Load Request and attach a printout of the summary request screen for reference.

**TRMD**

6. On receipt, obtain the file with the data from the data load folder in the shared drive in `I:/software/[PBGC Case Number]/[subfolder]`.

   Contact the EBLS/FBA/PBA if necessary to confirm.
7. If necessary, convert the data to a format that can be accepted by the Data Load Request wizard (Excel, Access, or text file with CSV).
8. Load the data and advise the requestor when complete.

**DMC**

9. On receipt, review the data to load the processing staff provided and notify the processing staff if any data is missing or unclear.
10. Complete all steps through data sampling and correcting data errors.
11. Forward the Data Load Request to Employee Benefits Supervisor leads for approval once there are no errors in customer records and no failed sample records. Advise the processing staff by e-mail once these steps are completed.

**EBLS/FBA/PBA**

12. Once the data is in the staging table, sample the data as the Data Load Request wizard directs and verify or fail each sample record:
    - If sampling is successful, correct all errors identified on the **Customer Error Report** provided by the wizard. (The Data Sample does not include records with errors.)
    - If the sampling is not successful and reveals problems with the data, consider reloading the data and then starting the sampling process over. This may require fixes to the spreadsheet.
13. Review the **Reconciliation Report** at any time during the data load process.

    The **Reconciliation Report** indicates discrepancies between data included with the Data Load Request and data in the staging table and is updated as changes are made to the data. Users can export the report to PDF or RTF formats.

14. Prepare the *Data Load Reconciliation Memo* to reconcile the source data to the data load totals on the Reconciliation Report.

    A *Data Load Reconciliation Memo* is required for each data load. For example, if all payees are loaded first and a second load is created for all non-payees, two memos are required.

15. Forward the Data Load Request for approval once there are no errors in customer records and no failed sample records.

    Data loads require authorization by an approver at level 30 or above. See TP 28. Overview for Approve Financial & Non-Financial Transactions through Approval Service.

16. Provide the *Data Load Reconciliation Memo* to the approver for concurrence.

**Employee Benefits Supervisor or Other Approver**

17. Review the data load for accuracy and completeness and ensure that all discrepancies between the plan administrator data are addressed in the *Data Load Reconciliation Memo*.
18. Upon successful review:
    - Approve the data load.
    - Sign the *Data Load Reconciliation Memo* to indicate concurrence and return it to the processing staff.
    - Return to Process 9.4 Initiate First Pay and Customer Data Loads to complete processing, as needed.

**EBLS/FBA/PBA**

19. Ensure the signed *Data Load Reconciliation Memo* and check register and other sources of payee and customer data used for the load are archived or imaged to the plan file. See TP 16 Plan and Participant File Maintenance.

    Do not image the Reconciliation Report or Customer List, since they are automatically imaged once the data load is forwarded.

20. If there are duplicate payments pending from PBGC and the prior plan administrator:
    a. Contact the ▶BPD Management Analyst to request options for preventing the duplicate payment (for example, deactivating the plan).
    b. Confer with the Employee Benefits Supervisor to review options and determine action based on the response from the BPD Management Analyst.
    c. If payees receive duplicate payments, administratively correct the overpayment (see TP 2 Administrative Correction of Benefit Overpayments).
21. Return to Process 9.4 Initiate First Pay and Customer Data Loads to complete processing, as needed.

Top of Page

# TP 59.2 Miscellaneous Limited, Family, and Benefit Adjustment Data Loads

**07/01/2016**

| | |
|---|---|
| **Purpose** | To update Spectrum with certain participant data using a Data Load Request. |
| **Timing** | Schedule Benefit Adjustment data loads to allow for notification letters to be issued to payees at least 30 days before the effective date of the adjustments (see Process 10.4 Identify Current Payees for Benefit Adjustments). |
| **Guidance** | *Spectrum Data Load Management Users Manual* in the *Spectrum User Manual* |
| **Procedure Owner** | Actuary, EBLS/FBA/PBA, TRMD |

The ▸EBLS must initiate the Data Load Request for a Family load. However, either the EBLS/▸FBA/▸PBA or ▸TRMD may initiate the Data Load Request for a Benefit Adjustment or Miscellaneous Limited data load.

**EBLS/FBA/PBA**

1. Ensure that all data elements required for the data load are available. A list is available within the Data Load Management wizard.
2. Determine which of the following methods will be used for the data load:
   - Electronic load from desktop
   - Electronic load by TRMD at user's request
   - Manual load at desktop
   - Manual load by ▸DMC at user's request
3. Initiate the Data Load Request in Spectrum and, as indicated below, prepare the necessary documents based on how the data will be loaded. Ensure that all data is submitted on a single spreadsheet and all data fields are named correctly according to the Data Elements List (for example, the column with Social Security Numbers must be named PRT_ID for the data to be accepted).
   - **Electronic Load from User's Desk Top**: Prepare the document with the data to be loaded. The document must be in one of the following formats: Excel, Access, or a text file containing comma-separated values (CSV).
   - **Electronic Load by TRMD**: Load the spreadsheet to the shared drive I:/software/DATAHUB into the folder with the 8-digit ▸PBGC Case Number for the plan (create the folder if necessary) and new subfolder named to reflect the type of load ("MiscLtd", "Family", or "BenAdjust"). Name the data file "RequestID" followed by the Request Identification Number generated by Data Load Management. For example: I:/software/DATAHUB/12345600/MiscLtd/RequestID126.xls
   - **Manual Load at Desktop**: No special preparation is needed, but the data should be in a format that the Approver can easily use to verify the load.
   - **Manual Load by DMC**: Ensure the hard copy data to be used indicates the correct names for the data elements. Deliver the hard copy data to the Datahub Coordinator in the DMC once the Data Load Request is initiated, and attach a printout of the summary request screen for reference.
4. Make changes to the Data Load Request as needed, such as adding support staff to assist with the load and assigning a temporary data load owner. Changes may be made as long as no records have yet been loaded to the staging area.
5. Sample the data once it is loaded into the staging table, as directed by the Data Load Request wizard. Verify or Fail each sample record. Note that if TRMD or the DMC does the load, they will also sample and correct the data as needed, but the EBLS should also perform this step. Once the sampling is completed:
   - If sampling is successful, correct all errors identified on the Customer Error Report provided by the wizard. (The Data Sample does not include records with errors.)
   - If the sampling is not successful and reveals problems with the data, consider reloading the data and then starting the sampling process over. This may require fixes to the spreadsheet used.

6. View any data errors listed on the Customer Error report screen and take action to:
   - Correct or update data as needed, and
   - Drop customers and recover dropped customers.
7. Review the Reconciliation Report, which may be exported to PDF or RTF format, at any time during the data load process. This report indicates discrepancies between data included with the Data Load Request and data in the staging table, and is updated as changes are made to the data. Explain discrepancies in the comments field of the report.
8. Forward the load for approval once there are no errors on customer records and there are no failed sample records.
9. Notify case team once the data load is approved.
10. Image source documentation for the load to the plan file. But do not image the Reconciliation Report or Customer List; these are automatically imaged once the load is approved.
11. For Benefit Adjustment loads, work with the case team to advise customers at least 30 days before the effective date in accordance with Process 10.4 Identify Current Payees for Benefit Adjustments.

**TRMD**

The EBLS/FBA/PBA is required to initiate all Family Data Load Requests, but may request that TRMD initiate Benefit Adjustment and Miscellaneous Limited loads and complete them through forwarding to the Employee Benefits Supervisor for approval. Take the following steps if TRMD is requested to process an electronic data load.

1. Obtain the file from the subfolder set up for the data load in the shared drive I:/software/DATAHUB. If the EBLS/FBA/PBA initiates the Data Load Request, the file name will begin "RequestID" followed by the Request ID Number.
2. If necessary, convert the data to a format that can be accepted by the Data Load Request wizard (Excel, Access, or text file with comma-separated values (CSV)).
3. If requested to perform the complete load by the EBLS/FBA/PBA, initiate the Data Load Request and complete all other steps through forwarding the load for approval. Notify the EBLS/FBA/PBA of the status by email.

**DMC**

Take the following steps if the DMC is requested to process a manual data load.

1. Upon receipt, review the data to be loaded provided by the EBLS/FBA/PBA. Notify the EBLS/FBA/PBA if any data is missing or unclear.
2. Complete all steps through data sampling and correcting data errors.
3. Forward the Data Load Request to the Employee Benefits Supervisor for approval once there are no errors in customer records and no failed sample records. Advise the EBLS/FBA/PBA by email once these steps are completed.

Top of Page

## TP 59.3 Miscellaneous Full Data Loads

**07/01/2016**

| | |
|---|---|
| **Purpose** | To load into Spectrum miscellaneous data that may include valuation data. |
| **Guidance** | *Spectrum Data Load Management Users Manual* in the *Spectrum User Manual* |
| **Procedure Owner** | EBLS/FBA/PBA, Employee Benefits Supervisor, TRMD |

▸TRMD must initiate the Data Load Request for a Miscellaneous Full Data Load.

**EBLS/FBA/PBA**

1. Load the spreadsheet with the data to be loaded to the shared drive I:/software/DATAHUB into the folder with the 8-digit ▸PBGC Case Number for the plan (create the folder if necessary) and new subfolder for the data file named "MiscFull". (For example: I:/software/DATAHUB/12345600/MiscFull/dataload.xls) Ensure that all data is submitted on a single spreadsheet and all data fields are named correctly according to the Data Elements List (for example, the column with Social Security Numbers must be named PRT_ID for the data to be accepted).
2. Request that TRMD perform the data load (see the TRMD Service Catalog). Include the name and location of the file with the data to be loaded.

**TRMD**

3. Obtain the data file from the shared drive.
4. If necessary, convert the data to a format that can be accepted by the Data Load Request wizard (Excel, Access, or text file with comma-separated values (CSV)).
5. Initiate the Data Load Request and take all steps through forwarding the data for approval by the Employee Benefits Supervisor.
6. Notify the ▸EBLS/▸FBA/▸PBA by email that the load has been forwarded.

**Employee Benefits Supervisor**

7. Upon successful review and approval of the data load, notify the case team.

**EBLS/FBA/PBA**

8. Ensure the source document for the data load is imaged to the plan file.

## TP 59.4 Valuation Data Loads

**07/01/2016**

| | |
|---|---|
| **Purpose** | To load valuation data into Spectrum that will enable Benefit Determination Letters to be populated with required customer data. |
| **Guidance** | *Spectrum Data Load Management Users Manual* in the *Spectrum User Manual* |
| **Procedure Owner** | Actuary, TRMD |

All Valuation data loads are initiated by ▸TRMD.

**Actuary**

1. Load the files to I:/software into the folder with the 8-digit ▸PBGC Case Number for the plan and subfolder named "FinalValuation".
2. Request that TRMD perform the data load (see the TRMD Service Catalog). Include the name and location of the data files.

**TRMD**

3. Initiate the Data Load Request and perform all steps in the process through approving the data load. (Valuation data loads are self-approved in AWA.)
4. Notify the case team by email when the data load is complete.

## TP 59.5 Resources for Data Load Requests

**09/30/2016**

**Forms, Letters, and Memos:**

*Data Load Reconciliation Memo*

*Notification of Authorization to Make Payments Letter*

**Customer Correspondence and Forms:**

*None*

**Guidance:**

- *Customer Role and Eligibility Status Guidance in the Spectrum User Manual*
- *Spectrum Data Load Management User Manual in the Spectrum User Manual*

**Exhibits:**

*None*

# TP 60 Data Sampling

**In this Section**

TP 60. Overview for Data Sampling
TP 60.1 Determine Items for Sample
TP 60.2 Compare Samples to Source
TP 60.3 Resources for Data Sampling

## TP 60. Overview for Data Sampling

**08/28/2014**

Data sampling is a methodical system for selecting a representative group of participants to be used in testing the reliability of a data element during an electronic data or participant database review. By using either a random number generator or a mathematically determined interval to produce an adequately sized random sample, the auditor ensures that there is no bias in the selection of entries to test the reliability of data.

Data may be divided into sub-populations to ensure that all significant groups of participants are represented in the sample. If so, each sub-population is sampled and tested individually. Coordination between the auditor and the actuary is required to determine which errors are to be considered significant or insignificant.

- Insignificant errors should be corrected, but do not affect the reliability of the data element.
- The number of significant errors determines the reliability of each data element.
  - If the data element has too many significant errors, it is not reliable and designated as "Failed."
  - Otherwise, it can be used, and is designated as "Passed."

Typically, the auditor uses data sampling either to test e-data (see Process 11.4B Review Electronic Data) or the participant database (see Process 12.2 Test Participant Database for Small Plan and Process 13.2 Monitor and Test the Participant Database). The procedure consists of two parts. First, the auditor selects the sample to be tested (see TP 60.1 Determine Items for Sample). Once the sample has been selected, testing can begin (see TP 60.2 Compare Samples to Source).

**Note** If the Participant Database has been built using Leo, then the auditor uses Leo's audit functions to perform sampling.

## TP 60.1 Determine Items for Sample

**07/01/2016**

| | |
|---|---|
| **Purpose** | To create a statistical sample of a dataset for testing. |
| **Guidance** | *Leo/ACT Format User Manual* |
| **Procedure Owner** | Auditor |

This procedure is intended for use in all plans, regardless of the number of participants. For plans with more than 500 participants, consider using additional judgmental sampling to supplement the random sampling, as appropriate to the case.

1. Determine the sample dataset for testing:
   - If using Leo to create the sample, use the sampling wizard within Leo, then proceed to TP 60.2 Compare Samples to Source.
   - If not using Leo to create the sample, continue with this procedure.
2. Define the population from which the sample is to be drawn (if selection of the sample size is done while the participant database is being built, use estimated numbers for defining the total population).
   a. Beginning with the total population in the participant database, exclude the following, as applicable:
      - **Non-Members:** Remove non-members since they are not affected by the benefit calculation and are therefore irrelevant to these procedures.
      - **Early Benefit Determination Letter Participants:** Participants who received early ▸BDLs may be removed if previously sampled as part of the Early BDL Database review.

   All remaining participants in the plan will be the sampling population.

   b. Document the definition of the sampling population in the work papers (see the *Definition of Sample Size Work Paper* for an example).
3. Divide the sampling population into sub-populations based on shared characteristics to create more homogeneous groups using the following criteria:
   - **Sub-Populations based on expectation of data accuracy.** These are based on the auditor's experience and prior knowledge gathered during the database-building phase. Any available information related to difficulties encountered during the database creation could provide guidance about the expected level of error within the database, as well as help identify participant sub-populations that may be prone to having lower levels of data element accuracy. For example:
     - Plans of organizations that have undergone mergers and/or acquisitions. Each sub-population could contain the participants from one of the merged entities.
     - Plans where original source documentation is both manual data and electronic data. Sub-populations could segregate participants for whom the data was originally from manual sources from those for whom the data was originally from electronic sources.
   - **Sub-Populations based on facilitation of sample examination.** For example, when a group within the sampling population requires a similar set of data elements for benefit calculations which are of lesser importance for the benefit calculation of another group, the former group may be treated separately.

**Note** The use of sub-populations is not mandatory for all databases. An auditor may choose not to use sub-populations (with the approval of the Supervisory Auditor), if the database is simple. For example, a small plan with a rate x service benefit formula, no benefit formula changes, no mergers of organizations, same sources of information, and/or good data, or a plan where PBGC is accepting accrued benefits because of very limited source documents, may not need sub-populations. In such cases, one sample population may be sufficient.

1. Stratify the population, or each of the sub-populations identified in step 2, using one or more factors. For example:
   - **Sub-Population A:** Retirees may be stratified into:
     - Retirees in pay status for less than one year prior to ▸DOPT.
     - Retirees in pay status for more than one year prior to DOPT.

- **Sub-Population B:** Non-Retirees may be stratified into:
  - Separated vested
  - Active vested
  - Active non-vested

> **Note** Strata within a population will not have the same rigorous sample size requirements that each population has, but stratification can assist in obtaining a sample that has adequate representation of all important factors within the population.

2. Document the definitions of sub-populations and stratifications, as applicable, in the participant database work papers (see the *Definition of Sample Size Work Paper* for an example).
3. Use the ▸Sample Size Table to determine the sample sizes for each sub-population (or population if no sub-populations are defined). For any sub-population with 50 or fewer participants, perform a 100% review.
4. In the review work papers, record the following parameters used to determine the sample sizes (as defined by ▸DMD management):
   - **Expected Error Rate:** 2%
   - **Required Upper Precision Limit:** 5% for all sub-populations
   - **Confidence Level:** One-sided 95% confidence level
5. For each sub-population that has been stratified, allocate sub-population sample sizes proportionally across the strata.
   - In order to provide sufficient coverage for each stratum within the sub-population, set the sample size to at least 10 participants for each stratum within a sub-population.
   - For any stratum with fewer than 10, perform a 100% review.

**Example:**

Sub-population B has a sample size of 160 and the following stratification:

- Active vested = 31% (2,823 participants)
- Active non-vested = 5% (467 participants)
- Separated vested = 64% (5,878 participants)

For appropriate coverage from each stratum, the sample size for active non-vested should be increased to 10. The final sample sizes would then be:

- Active vested = 50
- Active non-vested = 10
- Separated vested = 102

Therefore, the total sample size for Sub-Population B is 50 + 10 + 102 = 162.

6. Document the sample size for each sub-population and stratum and include it in the participant database work papers (see the *Definition of Sample Size Work Paper* for an example).
7. Determine the sample selection technique to be used and select the sample items. Then take the following steps for each stratum of each sub-population (or for each sub-population, if not stratified) independently:
   - Number the participants by assigning the number 1 to the first individual, 2 to the second, and so on.
   - **If using random selection:**
     i. Use a random number generator to generate as many random numbers as required by the sample sizes determined (for example, in the *Definition of Sample Size Work Paper*, 64 random numbers are generated for strata Retirees > 1 Year).
        - Each set of random numbers should be between 1 and the maximum number of participants in the sub-population stratum.
        - Print the results.
     ii. Select the participants whose assigned number corresponds to the random number generated.
     iii. Document the sample selection in a table (see example in *Select Random Sample Work Paper*), and attach the random number printouts. Include in the participant database work papers.

- **If using interval selection:**
    i. Determine the interval size by dividing the total number of participants by the desired sample size and round down to the nearest integer (for example, in the *Definition of Sample Size Work Paper*, for strata Retirees > 1 Year, 876/64 = 13.6875, round down to 13).
    ii. Choose one random number as a starting point. The random number should be between 1 and the calculated interval. The participant whose assigned number corresponds to the random number will be the first selected.
    iii. From the starting point, select the participants whose assigned number corresponds to the numbers determined by adding multiples of the interval (using the example from the *Definition of Sample Size Work Paper*, if the starting point is 10, select 10, 23 (10+13), 36 (23+13), and so on).
    iv. Document the sample selection in a table and include with participant database work papers (see example in *Select Interval Sample Work Paper)*.

## TP 60.2 Compare Samples to Source

**11/20/2015**

| | |
|---|---|
| **Purpose** | To determine the reliability of a dataset by comparing a statistical sample to the source documents. |
| **Guidance** | *Participant Data Audit Statistical Sampling* |
| **Procedure Owner** | Auditor |

This procedure presumes the use of statistical sampling (see TP 60.1 Determine Items for Sample). However, it can be modified for use with a judgmental sample.

1. Prior to investigating the sample, meet with the actuary to determine which data element conditions will be considered a significant error vs. an insignificant error and document in the work papers.
   - An **error** occurs whenever any data element value does not match the defined source.
   - A **significant error** is any error that will affect the benefit calculation, such as ▸DOB, date of hire, ▸DOTE, earnings, benefit form, or retirement date.
   - An **insignificant error** is any error that will not affect the benefit calculation, such as an incorrectly spelled last name.
   - For the purpose of the review, data elements with missing information are **not** considered an error if no source documentation was available to populate that data element. (Missing data includes data elements that have been populated using benefit estimation techniques.) However, if a data element is missing for a participant for whom a source document does exist, then the missing data is considered an error.
2. Clearly document all missing data elements in the work papers.
3. Investigate the sample items in the participant database or e-data:
   - Compare the data in the selected participant records to the corresponding source documents.
   - Indicate whether a tested data element passes or fails (for example, using a check mark or an *x*).
   - If an error is discovered, determine whether it is significant or insignificant, based on the criteria set forth in step 1.
   - When a significant error is discovered, the entire participant record (not just the data element) should be considered an error and documented in the work papers.
   - Insignificant errors should be documented in the work papers and subjected to further investigation; however, only significant errors would cause a participant to be in error for the sampling objectives.
4. Determine whether the significant error rate for the sample exceeds the expected error rate:
   - To calculate the actual error rate observed in the sample for each sub-population, divide the total number of participants with one or more significant errors found in the sample by the sample size.
   - If the actual error rate identified in the sample is no more than the expected error rate of 2% (per ▸Sample Size Table), then at a 95% confidence level, the estimated upper limit of error does not exceed the 5% maximum tolerable error rate; designate the sample as "Passed."
   - If the actual error rate identified in the sample exceeds the expected error rate of 2% (per ▸Sample Size Table), the estimated upper limit of error at a 95% confidence level exceeds the tolerable error rate; designate the sample as "Failed" (see *Report 410 - Audit Summary* and *Report 420a - Errors by Data Element* for examples).
5. Document all results in a table on the *Participant Data Review Work Paper Summary* and include with the review work papers. If a 100% review was completed, state this on the document. If applicable, entries within the table are determined by the sub-population and sample data used throughout the sampling evaluation process. If using Leo, use the following reports:
   - *Report 410 - Audit Summary*
   - *Report 415 - Errors by Customer*
   - *Report 416 - Significant Errors by Customer*
   - *Report 417 - Insignificant Errors by Customer*
   - *Report 420a - Errors by Data Element*

6. Proceed according to whether the sampling is for e-data or the participant database.
    - If the sampling is for e-data, return to Process 11.4B Review Electronic Data.
    - If the sampling is for the participant database, return to Process 13.2A Monitor Participant Database in Leo.

# TP 61 Successor Plan Determinations

**In this Section**

TP 61. Overview for Successor Plan Determinations
TP 61.1 Determine if Successor Plan Determination Needed
TP 61.2 Determine if a Trusteed Plan is a Successor Plan
TP 61.3 Resources for Successor Plan Determinations

## TP 61. Overview for Successor Plan Determinations

**11/29/2011**

Under §4022 of ▸ERISA, PBGC must guarantee payment of all ▸nonforfeitable benefits provided under a single-employer plan, other than those becoming nonforfeitable solely on account of termination of the plan. For purposes of §4022, the time that a ▸successor plan has been in effect includes the time that a previously established plan or ▸predecessor plan was in effect (within the meaning of §4021(a)). As a result, the calculation and valuation of benefits provided by a trusteed plan (the current plan) may be significantly impacted if PBGC determines that it is a successor plan.

Section 4021(a) of ERISA describes a successor plan as a plan that covers a group of employees, which includes substantially the same employees as a previously established plan (the ▸prior plan) and provides substantially the same benefits as that plan provided. A three-part test is used to determine if a plan is a successor to a previously established plan. The three factors to evaluate are:

1. Coverage Factor: Does the current plan cover substantially the same employees or group(s) employees as the prior plan?
2. Benefits Factor: Does the current plan provide substantially the same benefits for the same employees or group(s) employees as the prior plan?
3. Continuity Factor: Was there a gap in the termination of coverage under the prior plan and the beginning of coverage under the current plan?

In addition to meeting the factors of the three-part test, if the sponsor of the current plan is not the same as for the prior plan or is not a member of the same controlled group, the prior plan's assets and liabilities must have been transferred to the current plan for a successor relationship to exist.

A previously established plan may or may not be a PBGC-trusteed plan; it may have terminated in a standard termination or may be ongoing. In addition, even though the current plan may be related to the prior plan, it may not necessarily be its successor. If a current plan is related to a prior plan, PBGC must determine if it is a successor to that plan. If PBGC determines that the current plan is a successor to a prior plan, PBGC treats the plans as one plan in calculating and valuing the benefits payable under the current plan. Treating the plans as one plan may have a significant impact on the application of the following:

- ▸§436 Limitations
- ▸Maximum Guaranteeable Benefit
- ▸PC3 allocation
- ▸Phase-In
- Substantial/Majority Owner Phase-In

These procedures describe how to determine if a successor plan determination is needed and, if so, how to make the determination.

## TP 61.1 Determine if Successor Plan Determination Needed

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine if a successor plan determination is required. |
| **Guidance** | *Successor Plan Determinations Additional Guidance* |
| **Procedure Owner** | Actuary |

Whether or not a successor plan determination is required must be documented in the *Estimated Benefit Adjustments Analysis Memo* (see Process 10.1 Analyze Plan Documents).

The ▸actuary completes the *Estimated Benefit Adjustments Analysis Memo* and, if required, makes the ▸successor plan determination. The actuary works with the ▸auditor to identify whether a ▸prior plan existed and to obtain the required documentation, when needed.

A successor plan determination is **not** required if the ▸ASD Management can show that, regardless of a determination, PBGC limitations do not affect termination benefits. Address the questions in the *Estimated Benefit Adjustments Analysis Memo* to determine if any further action is necessary.

1. Early in the plan processing, ideally within six to eight months of trusteeship, take the following actions to the extent necessary to determine if a prior plan existed and therefore a successor plan determination is required:
   a. Review the ▸TWG memo and other documentation to see if the current plan is identified as being related to a prior plan.
   b. Review plan documents, including collective bargaining unit agreements and purchase/sales agreements to identify any prior plan(s).
   c. Review plan ▸AVRs to identify offsets by another plan's benefit or other factors indicative of the existence of a prior plan.
   d. Review the *Working Retirement Determination Form* (see TP 53 Working Retirement Determinations), if completed, to identify possible changes in the ▸DOPT employer or plan sponsor (for example, a sale of DOPT employer's operating assets is documented, a transfer of plan assets and liabilities is documented, etc.), which may be indicative of a change in plan sponsorship or establishment of a new plan.
   e. Review available PBGC information sources that list terminated plans (standard and trusteed) to rule out existence of possible prior plans.
   f. If information in the plan and/or PBGC records otherwise indicates the possible existence of a prior plan, request information about the existence of any prior plans that are or may be related to the current plan from the plan sponsor and/or plan administrator and other parties in interest (for example, union officials).
2. Based on the review in step 1, document the *Estimated Benefits Adjustments Analysis Memo* whether a successor plan determination is required:
   a. If a successor plan determination is not required, no further action required.
   b. If a successor plan determination is required, review the available plan documentation to see if information about the prior plan's provisions is available.

      If necessary, request the required information from the plan sponsor and/or administrator and other parties in interest (for example, union officials).
3. To determine if the current plan is a successor to the prior plan, follow the instructions in TP 61.2 Determine if a Trusteed Plan is a Successor Plan.

## TP 61.2 Determine if a Trusteed Plan is a Successor Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To determine if a trusteed plan is a successor plan. |
| **Guidance** | *Successor Plan Determinations Additional Guidance* |
| **Procedure Owner** | Actuary |

Once a prior plan has been identified, and if a successor plan determination is required, evaluate the factors of the ▸three-part test to determine if a plan is a successor to a prior plan.

Complete the *Successor Plan Determination Form* to:

- Determine if the current plan is a successor to the prior plan.
- Document the determination.
- Document the impact on the calculation of benefits payable by PBGC.

Perform the following steps:

1. Review relevant documentation for both plans, including but not limited to:
   - Plan documents
   - ▸CBA
   - Minutes from pension board and union meetings
   - Purchase agreements
   - Statements by the plan sponsor in memoranda or other outside documents
   - Summary plan documents
2. For additional guidance on making the determination, refer to *Successor Plan Determinations Additional Guidance*.
3. If there is any uncertainty as to whether the current plan is a successor to the prior plan, document the issue(s) in the *Successor Plan Determination Form* and e-mail the form with "Successor Plan Issue – [enter Plan Name]" in the **Subject** field to Ask PPD requesting assistance.

   ▸PPD evaluates the issue(s) and asks for ▸OCC assistance, if needed.
4. Upon completion of the *Successor Plan Determination Form*, e-mail the determination, with "Successor Plan Determination – [enter Plan Name]" in the **Subject** field to Ask PPD requesting concurrence.
5. After receiving concurrence from PPD, image the *Successor Plan Determination Form* to the plan file in ▸IPS.

# TP 62 USERRA Benefits

**In this Section**

TP 62. Overview for USERRA Benefits
TP 62.1 Process Potential USERRA Eligibility for a Participant
TP 62.2 Process Potential USERRA Eligibility for a Plan
TP 62.3 Usage of USERRA Letter Language
TP 62.4 Resources for USERRA Benefits

# TP 62. Overview for USERRA Benefits

**07/01/2016**

Policy 5.15-1 Treatment of Benefits Earned During Military Service became effective on August 1, 2009, and addressed the effect of the Uniformed Services Employment and Reemployment Rights Act of 1994 (▸USERRA) on PBGC benefits. The policy was updated effective August 30, 2011 to address the effect of the Heroes Earnings Assistance and Relief Tax Act of 2008 (▸HEART).

### USERRA Background

USERRA, enacted on October 13, 1994, provides that upon reemployment after an absence due to military service within the time period permitted under law, an employer must credit the employee with pension service for the entire absence for purposes of participation, vesting, accrual, and eligibility for benefits. In other words, a participant must get pension credit for time served in the military if he or she returns to work for the employer.

Military service is defined broadly. It includes service regardless of whether the employee volunteered for or was called to active duty. It also includes service in the National Guard or Reserves. Refer to Policy 5.15-1 Treatment of Benefits Earned During Military Service for a more detailed definition.

### HEART Background

HEART expanded entitlement to pension benefits for employees and their survivors if the employee dies or becomes disabled on or after January 1, 2007, while serving in the military. Under HEART, plans are required to provide that if a participant dies while performing qualified military service, survivors of the participant are entitled to any additional benefits (other than benefit accruals) that would have been provided under the plan had the participant resumed employment the day before the date of death, and then terminated employment on account of death. Such additional benefits include vesting service, accelerated vesting, and survivor benefits contingent on termination of employment due to death. Contact Ask PPD for guidance.

HEART permits but does not require plans to provide service for benefit accruals if a participant dies while performing qualified military service, or to provide service for vesting or accrual purposes if a participant becomes disabled while performing qualified military service.

### How USERRA and HEART Affect PBGC Benefits

Before the first edition of Policy 5.15-1 Treatment of Benefits Earned During Military Service became effective, PBGC recognized additional pension service under USERRA and HEART only if the qualifying event (reemployment, death, or disability) occurred before DOPT. Based on a new regulation, as of August 1, 2009, PBGC now recognizes the additional service up to ▸DOPT even if the qualifying event occurs after DOPT. See TP 62.1 Process Potential USERRA Eligibility for a Participant.

This policy applies to all reemployments under USERRA and deemed reemployments under HEART, even if the qualifying event occurred before the effective date of the policy. If a participant who received a ▸BDL before August 1, 2009 inquires about eligibility for additional benefits under HEART or USERRA, PBGC will review the case and grant the additional benefits if the participant is eligible.

PBGC notifies participants who are potentially affected by USERRA and HEART using specific ▸eALG letters or by inserting language into standard letters.

### Documenting Plan and Participant Files

When archiving documents or imaging documents to plan or participant files, follow instructions in TP 16 Plan and Participant File Maintenance.

Top of Page

# TP 62.1 Process Potential USERRA Eligibility for a Participant

**07/01/2016**

| | |
|---|---|
| **Purpose** | To review the participant's information and proof documents for potential eligibility of additional pension service under USERRA. |
| **Guidance** | Policy 5.8-1 Benefit Corrections<br><br>Policy 5.15-1 Treatment of Benefits Earned During Military Service |
| **Procedure Owner** | Actuary, Auditor, EBLS/FBA/PBA/PVA |

**In this Section**

TP 62.1A Determine Participant Eligibility for Additional Pension Service under USERRA
TP 62.1B Notify Participant of USERRA Eligibility
TP 62.1C Notify PPD and Case Team of USERRA Eligibility Results
TP 62.1D Determine Successor in Interest

**TP 62.1A Determine Participant Eligibility for Additional Pension Service under USERRA**

**07/01/2016**

The ▸EBLS/▸FBA/▸PBA/▸PVA receives notification from a participant via a phone call, letter, e-mail, or from the ▸CCC that the participant believes his or her benefit may be affected by ▸USERRA. If the call comes in through the CCC, the ▸CSR screens the caller using a predefined script and transfers the call if the participant is potentially eligible for additional pension service under USERRA.

> **Note** Under the ▸HEART Act of 2008, if a plan participant on military leave at ▸DOPT dies or becomes disabled while performing USERRA-qualified service, the surviving spouse may be due a higher benefit based on additional pension service up to DOPT. Contact Ask PPD for guidance.

**EBLS/FBA/PBA/PVA**

1. Determine if the participant is possibly eligible for additional pension service under USERRA by using the *USERRA Questionnaire* to ask the appropriate questions.
2. Complete the *USERRA Questionnaire* based on the participant's answers:
   - If the participant is potentially eligible, send ▸PPD the *USERRA Questionnaire* for tracking purposes.
   - If the participant is *not* eligible, inform the participant.
3. Document the call in ▸CRM and image the *USERRA Questionnaire* to the participant's file in▸ IPS.

   If the participant is not eligible, no further action required in this procedure.
4. Send the *eALG 625 — Request for Information — USERRA*, with the attached *Form 712 Uniformed Services Information Form* to the participant.
5. After receiving the *Form 712 Uniformed Services Information Form* and proof documents from the participant, review for acceptability:
   - If the information and proof documents are acceptable, continue to step 6.
   - If the information and/or proof documents are *not* acceptable, request the required information or documents using the *eALG 530 Request for Additional Documentation/Information*.
   - If provided on the form, record or update the customer's e-mail address in CRM.
6. Based on the *Form 712 Uniformed Services Information Form* and proof documents, determine if the participant was re-employed with the pre-service employer:
   - **Can Determine**: Continue to step 7.
   - **Cannot Determine**: If it is unclear if an ongoing employer is the pre-service employer (for example, due to the sale of the company or its assets), proceed with a successor in interest determination based on the plan status:
     - If the plan is in PVA, complete the determination (or send to the PVA to determine).
     - For other plans, send the request to the assigned ▸DMD auditor.

     The auditor or PVA determines if the employer is a successor in interest in TP 62.1D Determine Successor in Interest. Once the determination is complete, continue to step 7.

> **Note** Policy 5.15-1 Treatment of Benefits Earned During Military Service defines the **pre-service employer** as the employer that employed the individual prior to his or her uniformed service or any employer that is a successor in interest to the former employer. The determination of whether an employer is a **successor in interest** is made on a case-by-case basis considering the factors described in Policy 5.15-1 Treatment of Benefits Earned During Military Service, Section C.5.

7. Proceed according to whether the participant is potentially eligible for additional pension service under USERRA:
   - **Potentially Eligible:** Send request for a final determination of USERRA eligibility and a possible benefit recalculation to the ▸actuary. If the participant received a Benefit Estimate, ▸BDL, or is in pay status, request a revised statement. If there was a successor interest determination, include the *Successor in Interest Memo* in the request.
     - If the plan is assigned to a PVA, send the request to ▸CSD.

- For other plans, send the request to the actuary.

  Wait for response from the Actuary and then continue to step 11.

- **Not Eligible**: If the participant is not eligible, continue to step 11.

**Actuary**

8. Determine whether the participant is affected; if so, recalculate the benefit and prepare a revised benefit statement.
9. Inform the EBLS/FBA/PBA/PVA of the determination.
10. Continue to TP 62.1C Notify OPSS and TPD of USERRA Eligibility Results.

**EBLS/FBA/PBA/PVA**

11. Perform one of the following based on the participant's eligibility for additional pension service under USERRA:
    - **Eligible**: If the participant is eligible for additional pension service, continue to TP 62.1B Notify Participant of USERRA Eligibility.
    - **Not Eligible**: If the participant is not eligible for additional pension service under USERRA, send one of the following:
      - Participant Received BDL: Send a revised BDL with appeal rights to the participant (even though there was no change to the benefit).
      - Participant has not Received BDL: Send the *eALG 626 — Notice of Non-entitlement — USERRA* to the participant.
12. Image all appropriate documentation to the participant's file in ▶IPS.

Top of Page

**TP 62.1B Notify Participant of USERRA Eligibility**

**07/01/2016**

This procedure assumes the participant is eligible for additional pension service under ▸USERRA as determined in TP 62.1A Determine Participant Eligibility for Additional Pension Service under USERRA.

**EBLS/FBA/PBA/PVA**

1. Determine if the participant received a ▸BDL:
   - **Received BDL**: Send a Revised BDL and Benefit Statement, including additional pension service under USERRA. See Process 19.5 Issue Revised Benefit Determination Letter.
   - **Not Received BDL**: Determine if the participant is in pay status:
     - In Pay Status: Send an eALG 300 series letter and a revised a benefit statement.
     - Not in Pay Status: Send an eALG 200 or 300 series letter and provide an Estimated Benefit Statement.
2. If the participant is in pay status, adjust the benefit in ▸Spectrum and issue a back payment with interest, as appropriate.
3. Image all appropriate documentation to the participant's file in ▸IPS.

**TP 62.1C Notify PPD and Case Team of USERRA Eligibility Results**

**07/01/2016**

This procedure assumes the participant is eligible for additional pension service under USERRA as determined in TP 62.1A Determine Participant Eligibility for Additional Pension Service under USERRA.

**Actuary**

1. Use the *USERRA Tracking Information* spreadsheet to document additional USERRA information required by PPD for tracking purposes.
2. Send the spreadsheet to Ask PPD, and in the subject line, enter "USERRA Tracking Information."
3. Determine if the Valuation is final:
   - **Valuation Final**: No further action required in this procedure.
   - **Valuation not Final**: Determine if the *Participant Review Summary* is complete:
     - *Participant Review Summary* Complete: Update the valuation database with the participant's USERRA information.
     - *Participant Review Summar*y not Complete: Provide the auditor with the participant's USERRA information to include in the participant database and to update the *Small Plan Database Construction and Analysis Report* or *Database Building Construction Report* and the *Participant Audit Summary* documents, as appropriate.

**TP 62.1D Determine Successor in Interest**

**07/01/2016**

If it is unclear whether an employer is the pre-service employer with regard to ▸USERRA (for example, due to the sale of the company or its assets), follow the steps to determine if the employer is a successor in interest.

**DMD Auditor/PVA**

1. Prepare the *Successor in Interest Memo* documenting the pre-service employer findings.
2. Send the memo to Ask PPD for concurrence, and in the subject line, enter "USERRA Successor in Interest Memo for [Plan Name]."
3. After obtaining concurrence from ▸PPD:
   - Image the memo to the plan file in ▸IPS.
   - Notify the requestor (if applicable).

## TP 62.2 Process Potential USERRA Eligibility for a Plan

**07/01/2016**

| | |
|---|---|
| **Purpose** | To advise participants at a plan level who were not previously notified in the Trusteeship letter of potential eligibility for additional pension service under USERRA. |
| **Guidance** | Policy 5.15-1 Treatment of Benefits Earned During Military Service |
| **Procedure Owner** | Auditor, EBLS/FBA/PBA |

If the ▸EBLS/▸FBA/▸PBA sends the Trusteeship letter before the auditor identifies a group of participants potentially eligible for additional pension service under ▸USERRA, the EBLS/FBA/PBA sends *eALG 627 — General Information — USERRA* to the defined group.

**Auditor**

1. Determine the defined group that is potentially eligible for additional pension service under USERRA based on the following criteria:
   - Pre-service employer was ongoing as of ▸DOPT, including as a successor in interest, as applicable.
   - Participant(s) served in the uniformed services as of DOPT.
2. Provide the list of participants to the EBLS/FBA/PBA.

**EBLS/FBA/PBA**

3. Send *eALG 627 — General Information — USERRA* to the participants on the list provided by the auditor.
4. If the participant contacts PBGC, follow TP 62.1A Determine Participant Eligibility for Additional Pension Service under USERRA.

## TP 62.3 Usage of USERRA Letter Language

**03/29/2012**

The usage of USERRA Letter Language Table provides instructions for using ▸USERRA letter language for specific ▸eALG series letters.

**Usage of USERRA Letter Language Table**

| eALG Series Letter | Instructions | Letter Language |
|---|---|---|
| 200 | **Instructions:**<br><br>Use when providing a Benefit Estimate to the ▸participant, spouse, or ▸beneficiary if the participant was potentially eligible for additional service under ▸USERRA and the additional service is not included in the estimate.<br><br>**Placement in Letter:**<br><br>Insert the paragraph just before the paragraph beginning with the sentence "Within 90 days of receipt of your application, we will contact you to confirm the amount of your payment and the date you will receive your first payment."<br><br>**Reference:**<br><br>See TP 32 Provide Estimated Benefit Calculations. | **The language to insert for the participant is:**<br><br>If you were serving in the Uniformed Services at the time your pension plan terminated and later returned to work for the company that sponsored your pension plan, you may be due additional pension credit. If you think this may apply to you, please call us at the telephone number provided below so that we can determine whether the benefit provided in this estimate needs to be adjusted.<br><br>**The language to insert for spouse or beneficiary is:**<br><br>If FX.PrismPart.FullName.XF was serving in the Uniformed Services at the time that the plan terminated and later returned to work for the company that sponsored the pension plan, you may be due a greater benefit than what is stated in this letter and in your benefit calculations. If you think this may apply to you and have not already provided PBGC with this information, please contact us at the telephone number or address below. |

Appendix A 3 Working with Sensitive Information
Appendix A 4 Reporting a Breach of Sensitive Information
Appendix A 5 Reference and Training Information for Sensitive Information

## Appendix A Overview for Sensitive Information

**07/01/2016**

PBGC collects sensitive information about participants and beneficiaries in trusteed pension plans and about PBGC employees that is considered personally identifiable information (PII). PII is information or data that can be used to distinguish or trace an individual's identity, or any personal information that can be linked to a specific individual. Examples of PII include: name, social security number, date of birth, home mailing address, home telephone number, and home e-mail address. Sensitive information also includes confidential business and financial information submitted by plan sponsors, PBGC contractors, and other individuals and entities who are seeking to do business with PBGC.

The Privacy Act of 1974 as amended (5 ▸USC §552a) mandates PBGC establish administrative, technical, and physical safeguards to ensure the integrity of records maintained on individuals. It requires the protection against any anticipated threats that could result in substantial harm, embarrassment, or compromise to an individual. ▸FISMA requires agencies to report security incidents/breaches to a Federal incident response center within one hour of discovery.

PBGC employees and contractors must be aware of the responsibilities regarding sensitive data (see Directive IM 10-3 Protecting Sensitive Information) and follow the PBGC privacy procedures (see Directive IM 05-9 Privacy Program) when working in the field, remotely, or at PBGC offices.

This appendix is in addition to any other training or guidance on sensitive information from ▸OGC or ▸OBA.

This appendix covers several topics related to sensitive information:

- Appendix A 1 Sending Sensitive Information covers sending sensitive information in a variety of formats, including via e-mail, large file transfer, and physical documents, as well as zipping and encrypting electronic documents.
- Appendix A 2 Receiving Sensitive Information covers receiving sensitive information electronically via e-mail or physically as paper documents, as well as how to scan electronic files for viruses and safely transport paper documents.
- Appendix A 3 Working with Sensitive Information covers preventing breaches of security and privacy when storing documents, removing information from PBGC, printing, or teleworking.
- Appendix A 4 Reporting a Breach of Sensitive Information covers reporting a breach.
- Appendix A 5 Reference and Training Information for Sensitive Information provides links to additional resources and information on sensitive information.

The Sensitive Information Scenario Table provides additional questions/scenarios when dealing with sensitive information.

**Sensitive Information Scenario Table**

| Question/Scenario... | Do the following... |
|---|---|
| Third-party request for access to or copies of sensitive information. | Refer the request through supervisory channels to the PBGC's Disclosure Office for processing under the Freedom of Information Act and the Privacy Act. |
| Media inquiry. | Refer to ▸COLA. |
| A unique situation or question about the the best method for handling or transporting sensitive information. | Contact the OBA Security/Privacy Liaison, or ▸DMC/Fulfillment Center COR for guidance. |

# Appendix A 1 Sending Sensitive Information

**11/30/2012**

This section covers how to:

- Send sensitive information via e-mail
- Zip and encrypt files being sent via e-mail
- Transfer a large volume of data via Large File Transfer (LeapFile)
- Ship physical (hard copy) documents with sensitive information

**In this Section**

Appendix A 1.1 Send Sensitive Information via E-Mail
Appendix A 1.2 Zip and Encrypt Files Using WinZip
Appendix A 1.3 Transfer Files Using Large File Transfer
Appendix A 1.4 Ship Physical Sensitive Information

**Appendix A 1.1 Send Sensitive Information via E-Mail**

**11/30/2012**

Users can transfer or send files with sensitive information electronically using a pgbc.gov e-mail Outlook account on the PBGC network. However, take the following precautions when preparing e-mail that contains sensitive data:

- Do not include sensitive data in the **Subject** line of the e-mail, except for the name of a deceased individual, if needed.

  Include sensitive data only in the body of the e-mail or in an attachment.

- Do not include full ▸SSNs in the body of an e-mail. Use the customer ID where possible, or else the last four digits of the SSN.

- If transferring or sending files to a source outside of the PBGC network (for example, a contract actuary), see Appendix A 1.2 Zip and Encrypt Files Using WinZip. For transferring or sending a large amount of data, see Appendix A 1.3 Transfer Files Using Large File Transfer.

- When using the **Reply to All** option to respond to an e-mail that contains sensitive information or to add sensitive information to an e-mail reply, remove any recipients who are not authorized or do not need to view the sensitive information.

- Do not send sensitive e-mails to a private e-mail account.

- PBGC uses a system called IronPort to automatically quarantine incoming and outgoing e-mails with sensitive or suspicious content or zipped or encrypted attachments:
  - EISO staff review quarantined e-mails and, if the quarantine is a false positive, releases the e-mail for transmission to the recipient.
  - If the recipient or sender of an e-mail with zipped or encrypted attachments is on the Mailflow Authorized distribution list (also called the bypass list), IronPort does not quarantine the e-mail.
  - To request addition to the bypass list, request your supervisor to send an e-mail with justification to the Senior Agency Information Security Officer and carbon-copy EISO. Supervisor's approval is required due to previous OMB memoranda requiring that management officials be responsible for sensitive information and to ensure that a manager confirms the employee is allowed to send sensitive information outside the agency.
  - The bypass list only affects zipped and encrypted attachments. If a user on the bypass list sends unencrypted attachments with sensitive information or puts sensitive information in the body of the e-mail, IronPort quarantines the e-mail.
  - IronPort may confuse other 9-digit numbers, such as ▸EINs, with SSNs. To prevent quarantine of e-mails containing 9-digit numbers, request addition to the bypass list and list the numbers in an encrypted attachment.

**Appendix A 1.2 Zip and Encrypt Files Using WinZip**

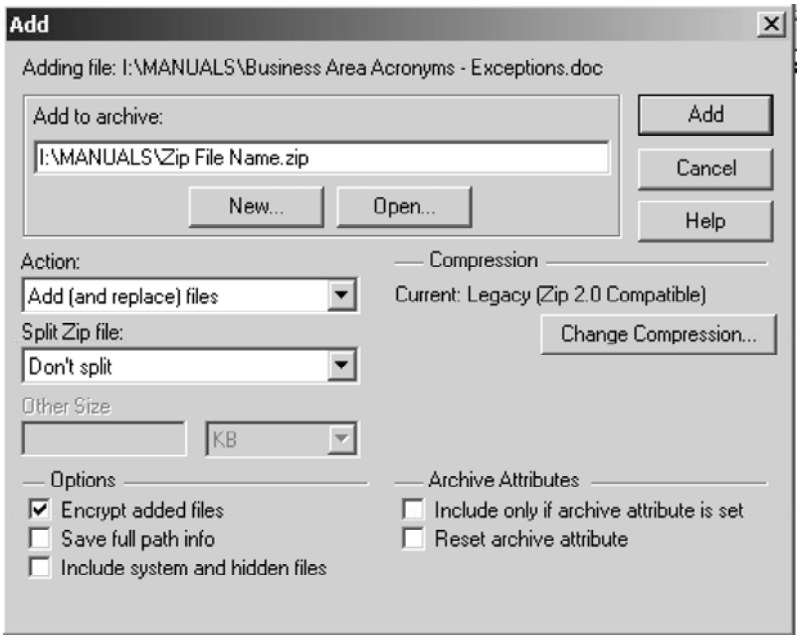
**11/30/2012**

It is important to keep all sensitive data safe during electronic transfer outside PBGC (for example, to a contract actuary). Zip and encrypt files for transfer on a CD, PBGC-approved flash drive, or in an e-mail.

**Sender**

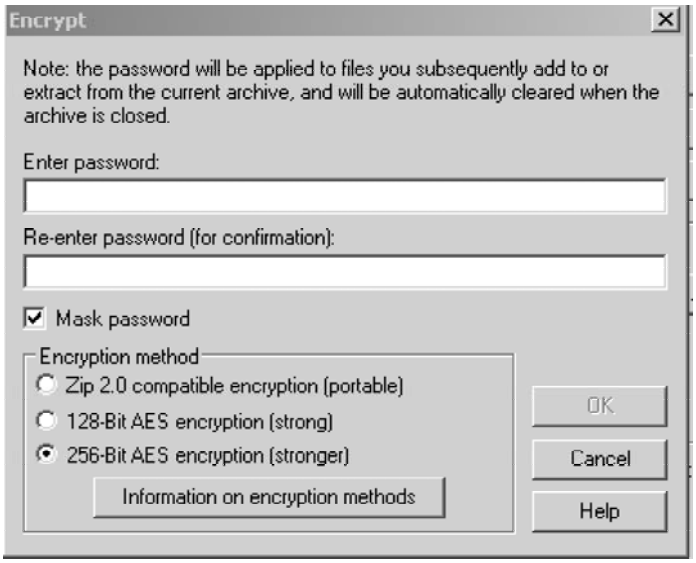
1. Right-click the file you want to zip and encrypt.
2. Click **Add to ZIP file...** in the menu.

   The **Add** dialog box displays.



3. Select **Encrypt added files** from the Options area.
4. Click **Add**.
5. Click **OK** in the **WinZip Caution** dialog box, if necessary.

   The **Encrypt** dialog box displays.



6. Type a password in **Enter Password** field.

   Passwords are case sensitive.
7. Type the password again in **Re-enter password (for confirmation)** field.
8. Select the **Mask password** check box.
9. Select the **256-Bit AES encryption (stronger)** option in the Encryption method area.
10. Click **OK**.

    The Encrypted file has an asterisks (*) following the file name, for example Zip File Name.zip*.
11. Send the encrypted file and the password in separate e-mails.

**Recipient**

12. On receiving the e-mails containing the encrypted file and password, extract the document(s):
    a. Right-click the encrypted file and select **Open in WinZip** from the context menu.
    b. In WinZip, click the **Extract** button.
    c. Select the location to save the document(s) and click **Extract**.
    d. Enter the password and click **OK**.

Top of Page

**Appendix A 1.3 Transfer Files Using Large File Transfer**

**11/21/2014**

One option for transferring data is to use the PBGC-approved Large File Transfer - Internet (LFTi), also called Leapfile. Use the PBGC Large File Transfer - Internet (LFTI) Web site to exchange large or confidential files with someone on the PBGC network. The site walks users through the steps for uploading/downloading data safely.

Training on Large File Transfer is available at Data Acquisition, Section 4: Transferring Data Files.

To retrieve and download transferred files, the recipient needs an LFTi account. To set up an account, submit a request through ▶GetIT .

**Appendix A 1.4 Ship Physical Sensitive Information**

**07/01/2016**

As a custodian of pension records for which PBGC is responsible, you may be asked to ship records containing sensitive personally identifiable information concerning the plan participants. This information could include, but is not limited to, personnel files, pension files, ▸DOL/▸IRS/PBGC Forms 5500, plan valuation documents, and plan documents.

It is of paramount importance to follow certain guidelines and procedures in the process of shipping documents to PBGC to ensure information is sent safely and securely. Work with the ▸DMC for details regarding a specific shipping situation.

Follow these guidelines for shipping sensitive information:

- Do not over-pack boxes.
- Strap boxes with packing tape encircling the entire box a minimum of twice lengthwise and twice widthwise.
- Label each individual box as a number of a total number (for example, "Box 2 of 15").
- Insert packing material in vacant box space to avoid damage or movement of documents during shipping.
- Ensure that the shipping label clearly defines a physical address **and** a receiving party—never ship to an address only or to a P.O. Box.
- Use the shipping method agreed upon for the particular shipping job.
- Provide the PBGC recipient with a shipping date and tracking number via e-mail or telephone call.
- If the volume of boxes does not require use of banker's boxes, send documents in approved and secured shipping vessel, such as a document box or envelope. Always ensure the package is taped securely before shipment.
- Follow-up with recipient to confirm successful delivery of shipment.

Carefully plan and select the approved shipping service for the shipment quantity and for the expected delivery time frame, barring any time constraints. Shipments to or from PBGC headquarters or to the ▸FBA offices do not always require overnight or next day delivery service by a certain time. Consider coordinating the shipment(s) using ground services where applicable.

If there are any questions, contact ▸OBA's shipping Account Administrator in the DMC.

## Appendix A 2 Receiving Sensitive Information

**11/30/2012**

In the field, PBGC employees or contractors may encounter a situation where they must receive or transfer to PBGC sensitive electronic files on non-PBGC sanctioned media. Observe PBGC best practices when receiving, storing, and transferring these files:

- Request that the electronic files on non-PBGC sanctioned flash drives and CDs are zipped and encrypted. Request that e-mailed electronic files meet the guidelines in Appendix A 2.1 Receive Sensitive Information via E-Mail.
- Scan unprotected and unencrypted electronic data on CDs, flash drives, and e-mails for viruses using a PBGC-encrypted laptop according to Appendix A 2.2 Scan Files for Viruses.
- Secure paper documents for safe transport to PBGC according to Appendix A 2.3 Receive/Transport Paper Documents.

**In this Section**

Appendix A 2.1 Receive Sensitive Information via E-Mail
Appendix A 2.2 Scan Files for Viruses
Appendix A 2.3 Receive/Transport Paper Documents

**Appendix A 2.1 Receive Sensitive Information via E-Mail**

**11/30/2012**

Use the following guidelines when receiving sensitive information:

- On receiving unencrypted data or data that is not password protected from a source outside PBGC, do not reply to the e-mail.

  If needed, acknowledge receipt of the e-mail with a new message that does not include the sensitive data or any attachments.

- If there is a suspicion that the data is compromised, report a breach or potential breach. See Appendix A.4 Reporting a Breach of Sensitive Information.

- Copy the received files (encrypted or unencrypted) to a separate directory on a PBGC laptop or PC, decrypt if needed, and run a virus scan. See Appendix A 2.2 Scan Files for Viruses.

**Appendix A 2.2 Scan Files for Viruses**

**07/01/2016**

Scan all CDs, flash drives, and e-mail attachments from outside PBGC before usage. See Appendix A 2.1 Receive Sensitive Information via E-Mail.

Laptops in the field may not have up-to-date virus scanning software. As an added precaution, ▸TRMD has a standalone PC available to check all data acquired in the field. To request assistance with scanning, see the TRMD Service Catalog.

To perform a virus scan:

1. If needed, place the CD or flash drive in a PBGC-encrypted laptop or standalone PC.
2. Double-click on the yellow shield  icon located in the task bar of the laptop.

   If the icon does not display, contact the PBGC Service Desk.
3. Select **Custom Scan**.
4. Select the drive and/or file to scan and click **Scan**:
   - **Virus not detected**: Use approved methods for transferring sensitive data (for example, zipped and encrypted files sent via e-mail from your pbgc.gov account to another pbgc.gov account, or use Large File Transfer (LeapFile) to send large files. See Appendix A 1 Sending Sensitive Information.
   - **Virus detected**: The name of the infected file, the virus detected, and the action taken on the virus display in the Results list. Click **Remove Risk** to clean the file. The antivirus software attempts to remove the virus; if it is not successful it quarantines the virus to protect your laptop. Please remember some viruses cannot be cleaned and you may need to request "clean" data. If unsure whether the virus was removed, contact the PBGC Service Desk for technical support.
5. Click **Close** to exit the application.

**Appendix A 2.3 Receive/Transport Paper Documents**

**11/20/2015**

In the field (for example, when acquiring data at the plan administrator's location) or at PBGC headquarter locations, staff may need to transfer a small or large volume of sensitive paper documents or files. Follow these PBGC best practices:

- When transferring a small volume of sensitive paper files, place the files in a locked briefcase, pouch, or other container for transit to PBGC. Put a tag, label, or decal on the briefcase, pouch, or container that lists you as the owner, your PBGC mailing address, and other contact information so that the container can be returned if it is lost or misdirected.
- If transporting sensitive information by car, lock the briefcase or pouch out of sight (for example, in the car's trunk) and bring it with you when you arrive at your destination.
- If you cannot lock up your laptop or briefcase in your hotel, keep the briefcase with you. Do not leave sensitive information locked in a car overnight.
- Only use on-site copiers, not commercial copying services. Ensure the copier does not retain any sensitive information.
- If files obtained in the field are too large to fit in a briefcase, ship to PBGC. See Appendix A 1.4 Ship Physical Sensitive Information.
- When transporting sensitive documents between PBGC headquarter buildings, secure the documents in a sealed container and take all other precautions necessary to secure the sensitive information, including actions noted above. Contractor employees must obtain approval by their immediate supervisor or COR prior to transporting any sensitive documents from one PBGC headquarter building to another.

In addition, on-site mobile scanning is an option for large amounts of paper documents. For PBGC, the ▸DMC performs all plan file scanning and most participant file scanning. All relevant documents collected from the plan administrator, sponsor, and other sources are indexed and submitted to the DMC to be scanned. See Process 11.2 Perform Site Visit for more information.

## Appendix A 3 Working with Sensitive Information

**11/30/2012**

PBGC employees and contractors are responsible for all sensitive information they obtain in the course of performing official duties, whether in electronic or hard copy format, and must treat such information in a manner that prevents the information from being accessed by or disclosed to a person or entity who is not authorized to receive it.

Responsibilities for protecting sensitive information include:

- Always log off, turn off, or lock your computer before leaving your desk to ensure that no sensitive information is compromised.
- Follow all guidelines, procedures, and best practices for sending and receiving sensitive information. See Appendix A 1 Sending Sensitive Information and Appendix A 2 Receiving Sensitive Information.
- Store sensitive information according to Appendix A 3.1 Store Hard Copy or Electronic Format Sensitive Information.
- Remove sensitive information from PBGC (for example, for teleworking) only according to Appendix A 3.2 Remove Sensitive Information from PBGC.
- Take precautions to protect sensitive information when printing. See Appendix A 3.3 Print Sensitive Information.
- When remoting or teleworking with sensitive information, follow Appendix A 3.4 Remote/Teleworking Guidelines for Protecting Sensitive Information.
- Report any breach or suspected breach of sensitive information immediately (see Appendix A 4 Reporting a Breach of Sensitive Information). For other security concerns:
  - Report any suspected security violation immediately to the PBGC Service Desk.
  - Report suspected poor security practices or any other suggestions to improve information security to PBGC's Senior Agency Information Security Office, the system's Information System Security Officer, or any EISO employee.
  - Direct general information security questions to Ask EISO.
  - For questions about privacy incidents, contact PBGC's Privacy Officer, OGC Privacy, or your supervisor.

**In this Section**

Appendix A 3.1 Store Hard Copy or Electronic Format Sensitive Information
Appendix A 3.2 Remove Sensitive Information from PBGC
Appendix A 3.3 Print Sensitive Information
Appendix A 3.4 Remote/Teleworking Guidelines for Protecting Sensitive Information

**Appendix A 3.1 Store Hard Copy or Electronic Format Sensitive Information**

**11/30/2012**

Follow these guidelines for storing sensitive information:

- Store sensitive information in a locked drawer, cabinet, or briefcase when it must be left unattended at home, while on travel in a hotel room, or in the office.
- Do not download sensitive information to a home computer.
- Use approved methods for storing information:
  - Encrypted laptops
  - Encrypted flash drives
  - Encrypted hard drives and CDs (work with the Service Desk as needed to create encrypted CDs)
  - PBGC network drives
- Shred or place in designated shred bins non-record copies of sensitive information in hard copy format when the information is no longer needed for an assignment or task (do not discard in recycling bins or regular trash). See the Records Management page on the PBGC Intranet.

**Appendix A 3.2 Remove Sensitive Information from PBGC**

**07/01/2016**

When necessary for an authorized business purpose (for example, teleworking or travel), request authorization to remove sensitive information by completing the appropriate form from ▸OBA or ▸OGC and submitting for concurrence to your immediate supervisor.

Once the supervisor approves, follow these guidelines to remove information from PBGC:

- Only remove copies of sensitive PBGC information from PBGC's offices, not original documents or records.
- Only remove the minimum amount of sensitive information necessary to perform a particular assignment or task.
- Only remove files containing sensitive information from PBGC when necessary and approved.
- PBGC staff that remove sensitive information in hard copy format from the PBGC's offices are responsible for taking reasonable precautions to prevent the loss or unauthorized disclosure of the information. See Appendix A 2.3 Receive/Transport Paper Documents for rules on transporting documents.
- Always use PBGC-owned systems (laptops and flash drives) to carry encrypted/password protected files outside of the office.

**Appendix A 3.3 Print Sensitive Information**

**11/30/2012**

Per Directive IM 10-3 Protecting Sensitive Information, promptly retrieve print outs from copiers, printers, or fax machines so that sensitive information is not accessed by individuals who do not have a need to know.

To securely print a job, ensure the printer does not start printing until you are physically present at the printer. First, select to print a "locked" job when printing and then provide a password at the printer's control panel to print. This functionality is only available on the Ricoh printers.

**Send a Locked Job to the Ricoh Printer**

1. From the application (for example, Microsoft Word or Excel), select to print from a Ricoh printer.
2. From the **Print** dialog box, click the **Preferences** button.

   The **Printing Preferences** dialog box displays.
3. On the **Setup** tab, select the **Locked Print** option in the **Job Type** drop-down box.
4. Click the **Details** button.

   The **Locked Print Details** dialog box displays.
5. Enter a user ID, a four- to eight-digit password, and click **OK**.

   The **Locked Print Details** dialog box closes.
6. After making any additional printer settings, click **OK** to close the **Printing Preferences** dialog box.
7. Click **Print** from the **Print** dialog box.

   The print job is sent to the printer and saved on the printer's hard disk.

**Print a Locked Job at the Ricoh Printer**

1. From the Ricoh printer, select the **Printer** button on the control panel.
2. Under the Jobs Lists & Error Logs section, select **Print Jobs**.
3. Selected **Locked Print Jobs List**.
4. Select your job from the list.
5. Select **Print**.
6. Enter the numeric password and click **OK**.

   The locked job type prints.

Top of Page

**Appendix A 3.4 Remote/Teleworking Guidelines for Protecting Sensitive Information**

**11/30/2012**

Follow these guidelines when working remotely:

- Access sensitive information through PBGC's network via PBGC Remote Access.
- Download and store sensitive information on PBGC-owned equipment or systems only (do not download to a personal computer) with written authorization.
- Do not send sensitive information to a personal e-mail account.
- Secure physically PBGC-issued laptops or portable electronic devices used for teleworking to prevent disclosure of sensitive information to unauthorized persons.
- Do not remove sensitive information from PBGC without written authorization. See Appendix A.3.2 Remove Sensitive Information from PBGC.
- Do not print sensitive information at home or a remote site.
- Observe all guidelines for e-mailing sensitive information. See Appendix A 1.1 Send Sensitive Information via E-Mail.

## Appendix A 4 Reporting a Breach of Sensitive Information

**11/30/2012**

All employees and contractors are required to report an actual or suspected breach of sensitive information as soon as they become aware of the incident. A breach is the actual or potential (however small) exposure of sensitive PBGC information (on paper or electronically) to unauthorized parties. A breach most often is the disclosure of personally identifiable or sensitive information that can result in a broad range of harm to individuals, including identity theft. Breaches can occur at any time and place when appropriate safeguards have not been followed.

PBGC personnel must report **all** breaches immediately upon discovery regardless of whether the breach has been confirmed or is only suspected.

To report a breach:

1. Navigate to PBGC's intranet.

   | **Note** If the intranet is unavailable, report the breach via e-mail to the Privacy Breach mailbox. |
   |---|

2. Click the **Report** link within the Report Breach section.

   The Report an actual or potential breach of sensitive information Web page displays, which describes the information required to include in the report of the potential breach.

3. Review the instructions on the page and click the For your convenience, please click here to begin the email link.

   An Outlook e-mail opens.

4. Complete the e-mail:
   a. Write the e-mail with the required information and according to the sensitive information guidelines for e-mail. See Appendix A 1.1 Send Sensitive Information via E-Mail.
   b. Add a recipient to the CC field:
      - Contractors: COR
      - Federal Employees: Supervisor
   c. Click **Send**.

   The PBGC Privacy office follows up with the submitter as needed.

5. If the breach involves fraudulent check cashing, proceed to TP 12 Fraud and Forgery.

## Appendix A 5 Reference and Training Information for Sensitive Information

**07/01/2016**

Use the following links for reference and/or training information for sensitive information:

- *OBA Records Management Policy & Procedures Manual*
- On the Directives & Policies page on the PBGC Intranet:
  - Directive IM 05-2 PBGC Information Security Policy
  - Directive IM 05-9 Privacy Program
  - Directive IM 10-3 Protecting Sensitive Information
- Large File Transfer, available at Data Acquisition, Section 4: Transferring Data Files
- Privacy Resources on the PBGC Intranet
- Records Management on the PBGC Intranet
- Report a Breach

# Appendix B Source Documents for Participant Data

**05/31/1996**

**In this Section**

Appendix B Preferred Source Documents for Participant Data Elements
Appendix B Source Documents for Active Non-Vested Participants and Terminated Vesteds with Creep
Appendix B Source Documents for Active Participants
Appendix B Source Documents for Participants Who Were Paid Out Distributions
Appendix B Source Documents for Retirees
Appendix B Source Documents for Terminated Non-Vested Participants
Appendix B Source Documents for Terminated Vested Participants

## Appendix B Preferred Source Documents for Participant Data Elements

**11/29/2011**

As of 10/2005, PBGC routinely requests proof documents (birth certificate, marriage certificate, spouse's birth certificate, and death certificate, as applicable) only from participants applying for benefits. Copies of these documents are acceptable.

The titles of forms listed as source documents in the Preferred Source Documents for Participant Data Table may vary from organization to organization. The listed titles are considered the most common and are representative of those used throughout the corporate world.

**Preferred Source Documents for Participant Data Table**

| Data Element | Primary Source | Secondary Source | Other Sources/ Memos To The File |
|---|---|---|---|
| **Universal Data Elements** | | | |
| Name | Pension Application<br>Employee Application | Employee Application<br>Birth Certificate | |
| Social Security Number (SSN) | W-2s | Pension Application<br>Employee Application | Insurance Enrollment Form<br>W-4s |
| Address | Pension Application | Employee Application | See TP 4 Participant Addresses and EDD Elections |
| Sex | Birth Certificate /PIF | Employee Application | Insurance Form |
| Marital Status | Marriage Certificate / PIF | Employee Application | Insurance Form |
| Date Of Birth (DOB) | Birth Certificate / PIF | Employee Application | Personnel Record/ Employee Card |
| Date Of Hire (DOH) | Personnel Record/ Employee Card<br>Pension Application | Personnel Action Form | Payroll Change Form |
| Date Of Termination Of Employment (DOTE) | Personnel Record/ Employee Card | Personnel Action Form | Payroll Change Form |
| Date Of Retirement (DOR) | Pension Application | Personnel Action Form | Benefit Calculation Statement |
| Type Of Retirement (ex. early, normal, disability) | Pension Application | Benefit Calculation Statement | Check Register |
| Form Of Benefit (ex. ▸SLA, ▸J&S) | Pension Application | Benefit Calculation Statement | Check Register |
| Spousal Information | Beneficiary Designation Form / PIF | Employee Family Record | Insurance Form |
| Date Of Death (If Applicable) | Death Certificate / PIF | Letters Of Notice | PBGC Death Project |
| Amount Of Benefit Receiving | Pension Application | Benefit Calculation Statement | Check Register |
| **Plan-Specific Data Elements** | | | |
| Hourly Rates | Hourly Rate Sheet | Payroll Change Form | Personnel Action Form |
| Salary Information | Payroll Register | W-2 | SSA |

| | | | |
|---|---|---|---|
| Pension Salary | Payroll Register | W-2 | SSA |
| Date Of Transfer Between Plans | Time Card | Personnel Action Form | Qualifying Event Notification |
| Date Of Participant Eligibility | Personnel Record | Pension Application | Benefit Calculation Statement |
| Years Of Service | Personnel Record | Payroll Register | SSA |

For union plans, a union steward might be able to provide some or all information.

Top of Page

## Appendix B Source Documents for Active Non-Vested Participants and Terminated Vesteds with Creep

**05/31/1996**

Collect names, SSNs, and addresses for all active non-vested participants, and make sample copies of source documents.

- birth certificates
- W2s and W4s from file, if applicable
- employment applications
- personnel action forms (or equivalent)
- payroll forms (for change in rates, dates of termination)
- insurance forms
- union records

## Appendix B Source Documents for Active Participants

**08/30/2011**

Collect information for all active participants. Some participant information is only retained on a sampling basis to support the participant data review, other documents should be collected to support benefit processing. See also Process 11.2 Perform Site Visit.

**Collect samples of the following:**

- birth certificates
- W2s from file, if applicable
- marriage certificates
- employment applications
- personnel action forms (or equivalent)
- payroll forms (for change in rates, dates of termination)
- time cards
- insurance forms
- employee family records (useful for finding unlocatable participants)
- death certificates (for beneficiaries in pay status)
- exit interviews
- memos/records regarding termination
- union records
- Form I-9 (proof of eligibility to work in the U.S.A.), if available

**Collect original copies of:**

- beneficiary designation form
- any spousal consent or waiver form
- participant loan documents - loan application, loan agreement, repayment schedule.
- QDRO documents.

Top of Page

## Appendix B Source Documents for Participants Who Were Paid Out Distributions

**05/31/1996**

Collect information on former participants who were paid out distributions or "cashed out," and make sample copies of source documents.

- check registers
- canceled checks
- retirement application forms (including spousal waivers, W4s, withholding forms, deductions, etc.)
- calculation sheets
- W2s from file, if applicable
- personnel action forms (or equivalent)
- payroll forms (for change in rates, dates of termination)
- death certificates (for beneficiaries in pay status)
- exit interviews
- beneficiary designation form

## Appendix B Source Documents for Retirees

**04/05/2002**

Review retiree information, and make copies of the preferred source documents for each data element. For each data element use the preferred source, when available. As trustee of the plan, PBGC takes the original of the retirement folder (including materials used in determining entitlement and calculating the benefit) for all retirees, if the plan administrator maintained such files. It is particularly important that PBGC collects ***all*** completed benefit related forms, not just sample copies.

- retirement application forms (including spousal waivers, W4s, withholding forms, deductions, etc.)
- ▶QDRO documents
- participant loan documents - loan application, loan agreement, repayment schedule
- birth certificates
- calculation sheets
- W2s from file, if applicable
- marriage certificates
- employment applications
- personnel action forms (or equivalent)
- any documentation identifying breaks in service and all start and end dates
- payroll forms (for change in rates, dates of termination)
- time cards
- insurance forms
- employee family records (useful for finding unlocatable participants)
- death certificates (for beneficiaries in pay status)
- exit interviews
- memos/records regarding termination
- beneficiary designation form
- Form I-9 (proof of eligibility to work in the U.S.A.), if available

Top of Page

## Appendix B Source Documents for Terminated Non-Vested Participants

**11/01/1996**

Collect names, SSNs and addresses for all terminated non-vested participants, and make sample copies of source documents. Note that the term "terminated non-vested participant" refers to people no longer actively employed by the company, and for whom there are records, who may not be covered by the pension plan or who may have terminated prior to completing enough service to be a deferred vested participant. Depending on whether the plan was properly amended according to ERISA amendments, PBGC ERISAfication of the plan may increase the universe of covered employees.

- birth certificates
- W2s and W4s from file, if applicable
- employment applications
- personnel action forms (or equivalent)
- payroll forms (for change in rates, dates of termination)
- insurance forms
- exit interviews
- memos/records regarding termination

## Appendix B Source Documents for Terminated Vested Participants

**08/30/2011**

Collect information for all ▸terminated vested participants. Some participant information is only retained on a sampling basis to support the participant data review, other documents should be collected to support benefit processing. See also Process 11.2 Perform Site Visit.

**Collect samples of the following:**

- birth certificates
- W2s and W4s from file, if applicable
- marriage certificates
- employment applications
- personnel action forms (or equivalent)
- payroll forms (for change in rates, dates of termination)
- time cards
- insurance forms
- employee family records (useful for finding unlocatable participants)
- death certificates (for beneficiaries in pay status)
- exit interviews
- memos/records regarding termination
- union records

**Collect original copies of:**

- beneficiary designation form
- any ▸spousal consent or waiver form
- participant loan documents - loan application, loan agreement, repayment schedule
- ▸QDRO documents

# Appendix C OBA Key Financial Spreadsheets Procedures

**07/01/2016**

The following OBA Key Financial Spreadsheets Procedures are available in PDF format:

- OBA Receivables Report
- Final Preliminary Probables Worksheet Spreadsheet 2015
- Multiemployer (ME) Reasonably Possibles Worksheet Results Report Spreadsheet
- Non-recoverable Future Financial Assistance Valuation Results Report Spreadsheet
- Table 1 PVFB and Non-recoverable Financial Assistance Spreadsheet 2015
- Table 1 and 7 Detail Report (FOD Report) Spreadsheet 2015
- Table 7 Reconciliation of PVFB Results Spreadsheet 2015

**Benefits Administration and Payment Department**
**Procedure for Key Financial Spreadsheets**

| | |
|---|---|
| **Name of Department Director:** | **Cathy Kronopolus** |
| **Department Director Approval – Signature and Date:** |  |
| **Effective Date:** | **July 1, 2015** |

## A. General Background

1. *Background Information*:

   i. Spreadsheet Title: BAPD Receivables Report
   ii. FOD Spreadsheet Reference No. BAPD/RSD SP/BAPD 47
   iii. Business Cycle Affected: Benefit Payments
   iv. Financial Statement Line Item Affected: Receivables
   v. Responsible Department/Division: BAPD
   vi. Spreadsheet Purpose: To convey the prior month's closing balance of receivables due to BAPD benefit overpayments.
   vii. Name of Spreadsheet Preparer/Owner: Jerome Smith Recovery Coordinator
   viii. Name of Spreadsheet Reviewer: David Smith BPB Branch Chief (acting)
   ix. Name of Spreadsheet Approver: David Smith BPB Branch Chief (acting)

2. *Inherent Risk Considerations* – the nature, extent, and timing of management review of individual spreadsheets should include consideration of the following:

   i. If this is a new spreadsheet, was the spreadsheet designed reviewed and approved prior to its use (Y/N)? The spreadsheet was designed, reviewed & approved in approximately 2014.
   ii. If this spreadsheet was based on a prior version and if any updates made, were those updates reviewed and approved (Y/N)? The spreadsheet is generated anew each month & is not edited thereafter.
   iii. Does spreadsheet contain any management estimates or assumptions (Y/N)? No
   iv. Does spreadsheet contain formulas that span multiple sheets (Y/N)? No
   v. Does spreadsheet contain any Lookup functions (Y/N)? No
   vi. Does spreadsheet contain any if/then functions (Y/N)? No
   vii. Does spreadsheet contain any Macros or Visual Basic programming (Y/N)? No

viii. Does spreadsheet rely on any imported data (Y/N)? No
ix. Does spreadsheet make use of filters (Y/N)? No
x. Does spreadsheet contain any hidden columns or rows (Y/N)? No
xi. Does the spreadsheet potentially contain confidential business data as defined by 18 U.S.C. 1905 (Y/N)? No
xii. Does the spreadsheet potentially contain privacy act data as defined by 5 U.S.C.522a (Y/N)? Yes

3. *Instructions on Spreadsheet Preparation* – The spreadsheet is created automatically when the user invokes the prescribed menu options in the Recovery Tracking Tool.

Instructions for creating the spreadsheet:

1. Login to the recovery tracking tool
2. Choose the '**Run Financial Reports**' option from the 'More options' drop down box on the Recovery Processing screen.
3. In the 'Available Reports' listbox, double-click the '**#2 FOD Report**'
4. Enter the first day of the reporting period – usually the first day of the previous month – and click 'ok'
5. Enter the last day of the reporting period – usually the last day of the previous month – and click 'ok'
6. The tool will compile the data and assign a unique Run ID.
7. To export the data to Excel, double-click the unique Run ID in the '**Report History**' listbox.

a. The Excel file will be located in the user's **H:\Ares\Output** folder and will be named **mmyy_BAPDReceivables(RunIDzzz).xlsx**
b. **mm** is the month following the first day of the reporting period (step #4 above). If the reporting period start date is 01 MAY 2015, mm = 06
c. **yy** is the year of the month following the first day of the reporting period (step #4 above). If the reporting period end date is 31 DEC 2015, yy = 2016
d. **zzz** is the unique Run ID assigned by Ares in step #6.

Instructions for reviewing the spreadsheet:

- Verify that the opening balance matches the closing balance from the prior month's spreadsheet
- Verify that the closing balance at the bottom of the detail worksheet matches the closing balance on the summary worksheet.
- Visually scan the detail worksheet for any obvious anomalies (blank rows, blank columns, unreasonable numbers, etc.)
- After the initial review, the Recovery Coordinator emails the spreadsheet to the BPB Branch Chief, recommending delivery to FOD.
- After the Branch Chief's review, the same email is forwarded to FOD. The email conversation serves as evidence of review.

Instructions for storing a copy of the spreadsheet:

Save a copy of the final spreadsheet in the shared drive location specified in the attached **Appendix: IT Management of Key Spreadsheets**

Additional instructions related to the spreadsheet review and delivery to FOD are contained in the BAPD Operating Manual, Technical Procedure 6.2F: http://intranet/standards_manuals/manuals/procedures/index.htm#TP6_2F.htm.

4. *Inclusion of Key Spreadsheets in Business Cycle Memos* – The spreadsheet & the associated Recovery process is documented in the Benefit Payments cycle memo.

## B. Management Considerations

1. Review and approval of all changes to a spreadsheet: The spreadsheet cannot be changed after it is created. It is protected with a complex, random password that is not recorded.
2. Validity of spreadsheet inputs should be ascertained (e.g. manually keyed or imported data is complete and accurate): The Recovery Tracking Tool includes system edits which prevent users from entering invalid data types (e.g. dates into number fields).
3. Updated consolidated list of all financial spreadsheets is included in the business contingency plan. The spreadsheet is delivered to FOD where it is used as a source for a ledger entry. The FOD copy is a record. The BAPD copy is retained only for reference purposes & is not considered a record, therefore it is not included in the business contingency plan.
4. Other (if necessary) N/A

## C. Promoting Spreadsheet Integrity

1. Password protection: It is protected with a complex, random password that is not recorded
2. Locking important calculation cells: All cells are locked to prevent changes.
3. Revision history (versioning). It cannot be updated.

## D. IT Access Restrictions, Storage, Archiving, and Backup of Key Spreadsheets

**See Appendix: "IT Management of Key Spreadsheets" for further details.**

1. Limiting access to write/update:
    i. The spreadsheet is stored in an area of the I:\ drive accessible only to authorized users: \\prod\fs\share\iod\RSD-Key-Financial-Spreadsheets\Receivables. This location as setup under the guidance of OIT and new users can only obtain access to it via the GetIT process.
    ii. Every year the business owner requests from OIT a list of all users who have access to this location.
        1. The owner then contacts each users' supervisor and determines if the user still needs access to the location.
        2. Access is removed (as needed) via the GetIT process.
        3. The owner than obtains an updated list of users from OIT and ensures only users with proper management approval have access.
2. Spreadsheet resides on file servers with periodic backups: The I:\ drive is periodically backed up by OIT processes.

3. Ensure compliance with WSD data retention and OIT storage and security requirements (e.g., using the recently redesigned I drive structure developed by the OIT).

    i. Retention: See B.3 above. BAPD's copy is not a record.
    ii. Storage: See D.1 above & the Appendix
    iii. Security: See D.1 above & the Appendix.

4. Other (if necessary): N/A

## IT Management of Key Spreadsheets

### Managing Access to Secure Repositories Containing Key Financial Spreadsheets

In collaboration with the Office of Information Technology (OIT), BAPD has established the following secure repositories (file system folders) for storage of key financial spreadsheets:

| Secure Repository Location | Primary Business Owner | Alternate Business Owner(s)[1] |
|---|---|---|
| \\prod\fs\share\iod\ASD-Key-Financial-Spreadsheets | House, Bill | Young Scott |
| \\prod\fs\share\iod\RSD-Key-Financial-Spreadsheets\Receivables | Smith, David | Gray, Michelle |

All access to the secure repositories above is managed through GetIT in accordance to the procedures outlined in the Enterprise Systems and Services Access Modification Standard Operating Procedure (SOP). That SOP is based on PBGC Access Control standard 01-32 which derives authority from directive PBGC Information Security Policy IM-05-02, section 7-C(1). This facilitates the process by which business owners can ensure "Least Privilege" by approving user access, thru GetIT, to secure repositories containing key financial spreadsheets which are necessary to accomplish tasks in accordance with their roles and responsibilities. The secure repositories detailed above, established in conjunction with OIT, are identifiable by access control entries for security principals beginning with "K-". These repositories are backed up nightly and comply with OIT storage and security requirements.

### Recertification of Access to Secure Repositories Containing Key Financial Spreadsheets

In collaboration with the Office of Information Technology (OIT), Business Owners from BAPD will work with OIT on an annual basis to recertify the access to secure repositories. OIT will provide Business Owners with reports of access to secure repositories containing key financial spreadsheets. The Business owner(s) for each secure repository will review the access of their users and update access as needed to ensure Least Privilege. This will ensure that access is based on need. Any access updates identified as part of the Recertification process will be made in accordance with the procedures outlined in the Enterprise Systems and Services Access Modification Process.

[1] If no alternate business owner is specified the, the highest ranking supervisor in the primary business owner's organization will be automatically assigned as a GetIT Approver for access to the repository

# Appendix E References

**09/30/2016**

# Appendix G Acceptable Proof of Age and Death

This appendix contains answers to questions concerning documents that are acceptable as proof of age and death.

**In this Section**

Appendix G1 Acceptable Proof of Age
Appendix G2 Acceptable Proof of Death

# Appendix G1 Acceptable Proof of Age

**08/30/2016**

**When are proof of age documents required?**

PBGC requires proof of age documents from customers when they apply for benefits.

**Are original proof of age documents required?**

Generally, copies are acceptable. However, PBGC may request originals or certified copies of any proof documents, for example if the document appears to have been altered.

**What document(s) are acceptable as proofs of age?**

PBGC accepts a copy of any one of the following documents that provide the individual's date of birth:

- Birth certificate
- Baptismal certificate or other church record
- U.S. Passport, expired or current (An unsigned passport is acceptable if the document appears genuine and OBA has no reason to question the individual's age or identity.)
- U.S. Passport Card, expired or current
- Permanent Residence Card (Green Card)
- U.S. Certificate of Naturalization

**Is a driver's license an acceptable proof of age?**

No, PBGC does not accept driver's licenses as proof of age.

**What other documents are acceptable for proof of age?**

If one of the above is not readily available, customers are directed to the ▶CCC for guidance about alternate proofs of age that PBGC accepts. Customers are advised that PBGC accepts any two from a list of alternate proofs of age.

**Does PBGC accept two of the same type of documents for alternate proofs of age?**

No. PBGC requires two different types.

**Must each document include the individual's date of birth?**

One of the two documents must provide a date of birth. It is preferable that both documents provide date of birth, but if that is not available, one alternate document may specify "age" that validates the date of birth provided in another alternate document.

**What alternate proofs of age are acceptable?**

- A notarized statement by the doctor or midwife who was present at the birth indicating the date of birth as shown in the medical records.
- A statement from the local office of the Social Security Administration showing the amount of the Social Security benefit being received and the date of birth of the recipient. A Social Security card is not acceptable proof.
- A military record of service.
- A marriage certificate, certified as correct by the custodian of the record.

- A vaccination record.
- A school record, certified as correct by the custodian of the record.
- A copy of a birth certificate of the participant's child showing the participant's age at the time of birth.
- Adoption papers.
- An accepted application for life insurance. This must be sent to PBGC by the insurance company.
- An employment record, certified as correct by the custodian of the record.
- A labor union card, certified as correct by the custodian of the record.
- Records of any fraternal organization to which the participant belongs, certified as correct by the custodian of the record.
- An official record of a foreign government or foreign church, certified as correct by the custodian of the record.
- A census transcript showing the participant's age. The participant may obtain this document from the US Census Bureau by requesting a census search using a US Census Bureau Form BC600. This is submitted to the Census History Staff, Bureau of the Census, Washington, DC. A fee is charged by the US Census Bureau. The participant must know the correct street address and name of the head of household at the time of the census.
- A petition for Naturalization of Certificate of Citizenship.
- An immigration visa or application for Permanent Residence.
- Foreign passport, expired or current.

Top of Page

## Appendix G2 Acceptable Proof of Death

**07/01/2016**

### When are proof of death documents required?

PBGC requires proof of death documents, for example, to:

- Determine the date payments were no longer payable to a payee, and whether any overpayments have occurred.
- Determine benefits that may be due the estate.
- Process a beneficiary's application for benefits and confirm the date the benefits begin.

### Are original proof of death documents required?

Generally, copies are acceptable. However, PBGC may request originals or certified copies of any proof documents, for example, if the document appears to have been altered.

### What document(s) are acceptable as proofs of death?

PBGC accepts any one of the following documents that provide the proof of an individual's death:

- Death certificate.
- Social Security Death Index (SSDI) report of death.
  Complete the SSA Death Master Query to request ▸BPD to perform a manual SSA Death Master File search.
  BPD forwards the results by e-mail.
- Statement of death executed by an attending physician or intern of the institution where the death occurred.
- Statement executed by a funeral director or authorized representative.
- Coroner's report or verdict of the coroner's jury of the state where the death occurred.

For additional guidance on documents that are acceptable as proof of death, contact ASK PPD.

# Appendix H Historical SPARR and SPDRR Information

**In this Section**

Appendix H1 Historical SPARR Information
Appendix H2 Historical SPDRR Information

## Appendix H1 Historical SPARR Information

**10/28/2016**

The ▸Small Plan Average Recovery Ratio (SPARR) is determined by the SPARR & SPDRR Coordinator, ▸OBA (see TP 25.1 Determine Small Plan Average Recovery Ratio (SPARR)).

**Small Plan Average Recovery Ratio (SPARR) Calculation Table**

| SPARR Year | SPARR Calculation Date | Covers Final Recoveries in Plans with Termination Initiation Dates in the Calculation Period | | Applies to Plans with Termination Initiation Dates | | Summary of Calculated SPARRs |
|---|---|---|---|---|---|---|
| | | Start | End | Start | End | SPARR (%) |
| FY 2016 | 09/09/2016 | 10/01/2008 | 09/30/2013 | 10/01/2015 | 09/30/2016 | 9.39 |
| FY 2015 | 07/17/2015 | 10/01/2007 | 09/30/2012 | 10/01/2014 | 09/30/2015 | 9.29 |
| FY 2014 | 05/06/2014 | 10/01/2006 | 09/30/2011 | 10/01/2013 | 09/30/2014 | 4.93 |
| FY 2013 | 08/26/2013 | 10/01/2005 | 09/30/2010 | 10/01/2012 | 09/30/2013 | 17.23 |
| FY 2012 | 06/21/2012 | 10/01/2004 | 09/30/2009 | 10/01/2011 | 09/30/2012 | 12.56 |
| FY 2011 | 01/31/2011 | 10/01/2003 | 09/30/2008 | 10/01/2010 | 09/30/2011 | 12.30 |

## Appendix H2 Historical SPDRR Information

**10/28/2016**

The ▸Small Plan DUEC Recovery Ratio (SPDRR) is determined by the SPARR & SPDRR Coordinator, ▸OBA. The SPDRR applies to plans with a termination initiation date on or after September 16, 2006, and total ▸UNGB that does not exceed $20 million.

**Small Plan DUEC Recovery Ratio (SPDRR) Calculation Table**

| SPDRR Year | SPDRR Calculation Date | Covers Final Recoveries in Plans with Termination Initiation Dates in the Calculation Period | | Applies to Plans with Termination Initiation Dates | | Summary of Calculated SPDRRs |
|---|---|---|---|---|---|---|
| | | Start | End | Start | End | SPDRR (%) |
| FY 2016 | 09/09/2016 | 10/01/2008 | 09/30/2013 | 10/01/2015 | 09/30/2016 | 29.84 |
| FY 2015 | 07/17/2015 | 10/01/2007 | 09/30/2012 | 10/01/2014 | 09/30/2015 | 29.53 |
| FY 2014 | 05/06/2014 | 10/01/2006 | 09/30/2011 | 10/01/2013 | 09/30/2014 | 13.56 |
| FY 2013 | 08/26/2013 | 10/01/2005 | 09/30/2010 | 10/01/2012 | 09/30/2013 | 33.45 |
| FY 2012 | 06/21/2012 | 10/01/2004 | 09/30/2009 | 10/01/2011 | 09/30/2012 | 30.72 |
| FY 2011 | 01/31/2011 | 10/01/2003 | 09/30/2008 | 10/01/2010 | 09/30/2011 | 33.77 |

# Appendix J Participant Forms Information

**07/01/2016**

### How does OBA use participant forms?

OBA uses participant forms to:

- Collect information to determine:
  - Benefit entitlement.
  - Benefit amounts.
  - When to begin paying benefits.
  - What type of benefit to pay (form and/or frequency of benefits).
  - Who is authorized to take actions on behalf of a participant, and what actions may be taken.
- Administer:
  - Debt collection.
  - Benefit processing.

### How do I prepare or provide participant forms?

- All participant forms are available through eALG and are standard enclosures to the appropriate letter templates.
- In exceptional circumstances when eALG is not appropriate (participants not loaded into Spectrum), hard copies are available from the DMC (see TP 34 Requests for Supplies).

### Where are samples of the participant forms?

- View and print participant forms and other enclosures from eALG Correspondence Help.

### Whose signature is acceptable?

- The participant's, beneficiary's, spouse's, or alternate payee's (only for his/her documents).

  **Note:** PBGC accepts electronic signatures on forms submitted via MyPBA (see TP 48 MyPBA Correspondence).

- The legal guardian of any of the above.
- The designated representative in a Power of Attorney (POA), subject to limitations (see TP 49 Power of Attorney and Guardianship).

### Is any other form of signature acceptable?

OBA accepts a notarized **Signature by Mark** such as an *X*. A **Signature by Mark** that is not notarized must meet the following criteria to be accepted:

- Two witnesses, who know the person making the mark, must sign and date the document at the time the mark is made.
- One of the two witnesses must state that he/she is a disinterested party; that is, someone who will **not** receive a direct financial benefit from the witnessed document.

For a POA that is **not** notarized:

- The representative of the person who makes the mark cannot be a witness.
- Neither of the two witnesses is required to state that he/she is a disinterested party.

See Policy 8.5-1 Signature by Mark for more information.

**Must a notarization date always match the date of the signature being notarized?**

No. ▸Spousal consent may be notarized on or after the date of the spouse's signature. Power of Attorney notarization may be on or after the date of the principal's signature, unless the special state rules provide otherwise. See TP 49 Power of Attorney and Guardianship.

## Appendix J Participant Forms Summary

**07/01/2016**

700 701 702 703 703MP 704 705 706 707 708 709 710 711 713 714
715 716 716A 718 719 720 720CD 720MP 721 721T 722 723 724 SSA 581

**Participant Forms Summary Table**

| Form # | Form Title | Usage Comments |
|---|---|---|
| **700** | Participant Application for Pension Benefits | • Post-▸DOPT participants use this to apply for ▸annuity benefits<br>• Gives the participant the option to elect form of benefit<br>**Includes:**<br>• Designation of Beneficiary for continuing payments<br>• Designation of Beneficiary for payments owed at death<br>• ▸Spousal consent to elected benefit form and ▸beneficiary<br>• Federal Tax Withholding Election<br>• Method of Receiving benefit payments<br>• Description of Benefit Options from PBGC - Your Benefit, Your Choice |
| **701** | Payee Information Form (PIF) | • Completed by ▸payees as part of the data collection/verification process<br>• Designation of beneficiary included for any amounts that may be due at death. |
| **702** | General Information Form (GIF) | • Requests information from non-retirees at ▸DoPT only upon management's approval<br>• For limited use only |
| **703** | Application for Elective Lump-Sum Payment | • Sent to ▸cash balance plan participants with lump-sum entitlements of more than $5,000.<br>• **Spousal consent is required** for an "elective" ▸lump-sum distribution.<br>**Includes:**<br>• Lump-Sum Payment Election<br>• Spousal consent to receive a consensual lump-sum benefit<br>• Participant Election of direct payment, rollover, or combination<br>• Special Tax Notice Regarding PBGC Non-Periodic Payments |
| **703MP** | Application for Elective Lump-Sum Payment [Missing Participants] | • Same as Form 703 (above), but sent only to participants in the Missing Participants Program.<br>• Requires notarization of the applicant's signature |
| **704** | Report of Earnings and Social Security Disability Information | Sent in January of each year to participants whose benefits are subject to earnings offsets to obtain income information for the prior calendar year. |
| **705** | Beneficiary Application for Pension Benefits | Eligible spouses of deceased participants who died after retirement, alternate payees (**shared payment - QDRO)** and beneficiaries (such as ▸C&C benefits or optional forms) use this form to apply for annuity benefits.<br>**Includes:**<br>• Federal Tax Withholding Election<br>• Method of Receiving benefit payment |

| | | |
|---|---|---|
| | | • Designation of Beneficiary for payments owed at death and/or for the remaining period of a certain period benefit. |

| | | |
|---|---|---|
| **706** | Beneficiary Application for Pension Benefits - Optional Forms | ▸QPSA spouses and alternate payees (**separate interest QDRO**) use this form to apply for benefits.<br>**Includes:**<br>• Election of Benefit Form<br>• Federal Tax Withholding Election<br>• Method of Receiving benefit payments<br>• Description of Benefit Options from PBGC - Your Benefit, Your Choice<br>• Designation of Beneficiary for payments owed at death and/or for the remaining period of a certain period benefit |

| | | |
|---|---|---|
| **707** | Designation of Beneficiary for Benefits Owed at Death (Currently Receiving Pension Benefits) | Completed by a participant currently receiving pension benefits to designate a beneficiary for payments owed at death. |

| | | |
|---|---|---|
| **708** | Designation of Beneficiary (Not Currently Receiving Pension Benefits) | Completed by a participant not currently receiving benefits to designate a beneficiary for payments owed at death. |

| | | |
|---|---|---|
| **709** | Plan Participation Information | Sent to a ▸woodwork participant to collect information to enable ▸OBA to determine entitlement to benefits. |

| | | |
|---|---|---|
| **710** | Application for Electronic Direct Deposit | • Payees use this form to choose EDD or change financial institutions.<br>• Sent at payee's request. |

| | | |
|---|---|---|
| **711** | Change of Beneficiary for Certain & Continuous (C&C) Benefits Only (Currently Receiving Pension Benefits) | Completed by a participant currently receiving Certain & Continuous annuity benefits to change his/her beneficiary for benefits payable for periods after death and before the Certain Period ends. |

| | | |
|---|---|---|
| **713** | Election to Withdraw Employee Contributions | • Sent to a payee who wishes to withdraw employee contributions before going into pay status.<br>• Sent to participant who wishes to withdraw employee contributions when applying for retirement benefits. |

| | | |
|---|---|---|
| **714** | Withdrawal of Employee Contributions – Non-Spouse Beneficiary | Non-spouse beneficiaries use this form to apply for payment of the deceased participant's employee contributions. |

| | | |
|---|---|---|
| **715** | Power of Attorney (POA) | Participant/beneficiary or alternate payee authorizes another individual to perform actions on his/her behalf while he/she is competent.<br>**Includes:**<br>• Filings Instructions<br>• Alternative POAs meeting PBGC's requirements are accepted.<br>• See TP 49 Power of Attorney and Guardianship for more information. |
| **716** | Certification of Social | • Mailed to affected payees periodically to ensure entitlement to |

| | | |
|---|---|---|
| | Security Disability Status | benefits.<br>• Payee completes to certify whether still eligible for Social Security disability benefits. |
| **716A** | Certification of Pension Plan Disability Status | • Mailed to affected payees periodically to ensure entitlement to benefits.<br>• Payee completes to certify whether still eligible for disability benefits under the pension plan. |
| **718** | Installment Payment Agreement | • Sent by ▸OBA to a debtor to recover overpayments.<br>• Debtor executes forms and returns it to ▸FOD. |
| **719** | Election to Withhold FIT from Periodic Payments | Payees complete this form to change federal tax withholding. |
| **720** | Application for Lump-Sum Payment | • Sent to post-▸DOPT participants, beneficiaries and ▸alternate payees who are eligible for a cash-out or a ▸Large Reimbursement.<br>• J&S Waiver Provisions do not apply.<br>• Includes participant election for payment destination.<br>• Includes Special Tax Notice Regarding PBGC Non-Periodic Payments<br>• EDD election does not apply. |
| **720CD** | Application for Lump-Sum Payment<br>[Child or Other Dependent] | • For use by a child or other dependant (▸QDRO) who is eligible for a single payment to apply for payment.<br>• Payment is processed through participant's payment record. |
| **720MP** | Application for Lump-Sum Payment<br>[Missing Participants] | • Same as Form 720 (above) but sent only to participants in the Missing Participant Program.<br>• Requires notarization of the applicant's signature. |
| **721** | Application for Eligible Rollover Payment – Non-Spouse Beneficiary | Sent to a non-spouse beneficiary entitled to a single payment that is rollover-eligible. |
| **721T** | Tax Election for Payment Not Eligible for Rollover | Sent to an estate or person due a single payment that is not rollover-eligible. |
| **722** | Financial Statement of Debtor | Sent to debtors who are seeking PBGC's consideration to waive or reduce their debt. |
| **723** | Request for Additional Time to File an Appeal of a PBGC Benefit Determination | Optional form available from Appeals Division, ▸OGC for customers requesting addtional time to file an appeal of a ▸BDL. |
| **724** | Appeal of a PBGC Benefit Determination | Optional form available from Appeals Division, OGC for customers to use to file an appeal. |
| **SSA 581** | Authorization to Obtain Earnings Data from SSA | • Form signed by participant authorizes ▸SSA to provide PBGC with earnings and employment data.<br>• Sent as needed, usually when there is insufficient information to determine benefit eligibility of amount of benefits. |

# Appendix N Correspondence and Phone Call Guidelines

**08/30/2011**

This appendix provides guidance on telephone calls and customer service.

**In this Section**

Appendix N1 Process CRM Telephone Call Records Guidelines
Appendix N2 PBGC Customer Service Pledge

## Appendix N1 Process CRM Telephone Call Records Guidelines

**12/22/2016**

▸CSD demonstrates its commitment to excellent customer service in many ways, including its timely and thorough responses to participant telephone calls and correspondence. CSD utilizes the ▸CRM system to record and track **all** incoming and outgoing participant calls.

The ▸CCC is often a participant's first telephone point of contact with the PBGC. The 800 number (1-800-400-PBGC, or 1-800-400-7242) and a TTY connection (Federal relay service at 1-800-877-8339) is provided to participants with most standard communications, including participant brochures, all ▸eALG letters and the participant newsletters. CCC phones are staffed from 8:00 A.M. to 5:00 P.M. (Eastern time) each work day. Regardless of whether the plan is at HQ or at an ▸FBA, participants are provided with the 800 number. ▸CSRs direct calls to the appropriate staff member in CSD (telephone ▸POC in the plan's ▸CMS Team) when they are unable to satisfy the participant.

CSRs are trained and empowered to handle a wide range of participant services and whenever possible will resolve the participants inquiry in the initial phone call. The CCC receives as many as 20,000 calls in a single month.

Upon receipt of a call from a participant, the CSR (or other CSD call recipient) utilizes the participant's ▸SSN or name to access basic information about the participant through and initiates a CRM record. Each telephone call is recorded in CRM using the appropriate problem code(s) and closed using a resolution code(s). Outgoing telephone calls to or about a participant are also recorded in CRM. The CRM Documentation Table provides additional guidance on documenting different call types in CRM.

**CRM Documentation Table**

| **CALL TYPE** | **call typically completed by...** | **M*** **OA**** | **Basic Elements Documented in CRM** |
|---|---|---|---|
| **Administrative Requests** | | | |
| **Residential Address Change** (For processing instructions, see TP 4 Participant Addresses and EDD Elections.) | ▸CCC | **M** | Street Address, City, State, Zip Code, Country Code, Telephone Number |

## Appendix N2 PBGC Customer Service Pledge

**06/30/2006**

**Our Service Pledge**

Our customers deserve our best efforts as well as our respect and courtesy:

- On the first call from you, our customer, we will say:
  - What can be done immediately and what will take longer.
  - When it will be done.
  - Who will handle your request.
- We will call you if anything changes from what we first told you, give you a status report, and explain what will happen next.
- We will have staff available from 8:00 A.M.–5:00 P.M. Eastern Time, Monday–Friday to answer your calls. For participant inquiries, our CCC will be open two hours longer, until 7:00 P.M. If you leave a message, we will return your call within one work day.
- We will acknowledge your letters within one week of receipt.

# Appendix O Acceptable Proof of Marriage

**In this Section**

Appendix O I. Introduction
Appendix O II. Length of Marriage Requirement
Appendix O III. Types of Marriage
Appendix O IV. Ceremonial Marriage
Appendix O V. Common-Law Marriage
Appendix O VI. Indian Tribal or Custom Marriage
Appendix O VII. Chinese Custom Marriage
Appendix O VIII PBGC Presumption of Marriage
Appendix O IX. Additional Resources
Appendix O X. Resources for Acceptable Proof of Marriage

## Appendix O I. Introduction

**11/29/2011**

PBGC recognizes a marriage based on the laws of the country or state in which the marriage occurred. However, PBGC may not recognize a marriage even though the marriage was valid where it was contracted if it is void because it violates the law or public policy of the state or country in which the participant and/or spouse lives. Furthermore, PBGC will not routinely attempt to establish that a marriage is not valid unless there is reason to suspect the validity of the marriage.

**Why does PBGC require proof of marriage?**

If a participant is married when he or she retires, PBGC must pay the benefit as a ▸QJSA, the plan's automatic form for benefit for a married participant, unless the participant elects another form of benefit with spousal consent, that is, the spouse waives the QJSA benefit (see Policy 5.4-7 Annuity Benefit Forms and *Summary of Qualified Joint and Survivor Annuity Requirements*).

Additionally, PBGC provides a ▸QPSA to a surviving spouse of a participant with vested benefits who dies before retirement (see Policy 5.7-2 Payment of Qualified Preretirement Survivor Annuities in Plans Terminating on and after August 23, 1984).

Proof of marriage must be in the file in order to pay the QJSA or QPSA or another form of benefit that is based on marriage, such as an ▸FSSB that is not a QJSA (see Policy 5.4-8 Paying and Converting Complex Benefit Forms). Proof of marriage is required even when the spouse waives survivor benefits.

**When do we require proof of marriage documents from our customers?**

**Pre-DOTR Retiree [Payee]:**

PBGC generally does not require proof of marriage if the participant retired prior to the ▸DOTR and is or was receiving a form of benefit based on marriage. PBGC accepts the prior administrator's determination of the form of benefit even if proof of the marriage is not received from the plan administrator, or is not in the plan administrator's files. However, the participant's spouse at retirement (as indicated in plan records) must provide proof of marriage when the surviving spouse's benefits are payable.

The Payee Information Form (Form 701) determines whether the participant was married when they retired and requests the marriage date, but the retiree is not required to send in proof of the marriage. However, PBGC may request proof of marriage if the validity of a marriage appears questionable or the form of benefit at retirement was not based on marriage and surviving spouse's benefits are subsequently found to be payable.

**Post-DOTR Retiree:**

PBGC requires proof of marriage for participants or surviving spouses who retire on or after DOTR (that is, benefits were not already in pay as of DOTR). PBGC's Participant Application for Pension Benefits (Form 700) asks whether the participant is currently married and requests the marriage date and proof of marriage. Similarly, PBGC's Beneficiary Application for Pension Benefits (Form 706), determines if the applicant is the spouse of the deceased participant and if so requests proof of the marriage. If proof of the marriage is not already in the file as a result of earlier data gathering, PBGC will request proof of the marriage; proof of marriage must be in the file prior to making payments.

Other Situations: PBGC will request proof of marriage if PBGC subsequently finds proof was not previously obtained or the validity of a marriage is questionable. Examples in which proof is otherwise required:

- PBGC finds surviving spouse's benefits are payable upon the death of the participant even though the participant's benefit at retirement was not a QJSA or a form of benefit based on marriage. For example, the plan provides an FSSB payable after the death of the participant, however, marriage was not a requirement at retirement or the elected form of benefit (with spousal consent) at retirement was not based on marriage. (Note that FSSBs are common in steel plans.) Eligibility is often based on whether the surviving spouse is the participant's widow(er) for Social Security purposes; marriage to the participant at retirement may or may not be required depending on plan provisions. See *Free Surviving Spouse Benefit (FSSB) Calculation & Benefit Administration Guidance*.
- The participant did not elect a QJSA and the spouse is claiming entitlement to a QJSA survivor benefits and a valid waiver to the QJSA is not in the file (see Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities)).

- More than one spouse claims entitlement to surviving spouse benefits. (Note that in certain situations, proof of divorce may also have to be requested.)

**What type of proof of marriage is acceptable?**

Generally, original documents are not required; copies are acceptable. However, original, certified or notarized copies of any proof documents may be requested if the document provided appears to have been altered. All proof of marriage documents must be imaged to the retiree's file (see TP 16.2 Maintain Participant File). *All documents, regardless of whether it is an original or certified or notarized copy must be returned to the retiree.*

If the applicant cannot provide proof of marriage and wants to receive the QJSA form of benefit, PBGC must document why the participant cannot provide proof and make a facts and circumstances determination based on the laws of the jurisdiction in which the marriage purportedly occurred to establish that the marriage is valid. All marriage proof guidance should be imaged to the participant's file in IPS (see TP 16.2 Maintain Participant File). The focus is whether PBGC can or cannot reasonably recognize the marriage.

***Additional Guidance:*** *If a participant cannot provide proof of marriage, PBGC cannot reasonably recognize the marriage, or the type of marriage is one that PBGC does not recognize, the participant may be able to elect one of the PBGC optional forms of benefit that provides a similar benefit.*

**Example:** If the plan's QJSA is a 50% joint and survivor benefit, but proof of marriage is not available or PBGC is unable to recognize the marriage (for example, proof of a common-law marriage is not readily available), the participant can elect the optional PBGC 50% joint and survivor benefit (spousal consent to the optional form should be obtained in good faith).

**How should proof of marriage be documented?**

Specific requirements for documentation of different types of marriage can be found throughout this Appendix. In addition, if desired, proof of marriage can be documented in the optional job aid *Proof of Marriage Record*, which includes instructions. For examples of how to use the job aid, see *Proof of Marriage Record Samples*.

**If the participant has been married multiple times, what additional proof does PBGC require?**

If a matter involves competing claimants to surviving-spouse benefits, contact Ask OPSS for guidance on how to handle the situation.

**Do we ever require proof that a marriage continues or has not ended?**

This issue occasionally arises, particularly in the following situations:

- A participant's marital status is unknown or given as single or divorced, and the spouse alleges a continued marriage.
- Another party, for example a subsequent spouse or family member, contests the existence of a marriage.

Once proof of a marriage is received (or if it is already in file), assume the marriage continues to exist until proof that the marriage ended, including if it was not valid or did not take place, is received. Generally, a party to the marriage does not have to prove the continued existence of the marriage, even, for example, if the parties were separated for several years but not divorced. Do not request evidence of a continuing marriage unless compelling evidence to the contrary is already in file or is received.

Proof of divorce is generally accepted as proof that a marriage ended. Other evidence (for example, a court order) that a marriage ended should be referred to ASK OPSS for guidance. In these situations, the marriage may have ended or may not have been valid, but certain marital or inheritance rights may remain or the marriage may meet the definition of a deemed or putative marriage.

On the rare occasion that evidence of continued marriage is needed, request the participant or spouse to provide at least two items from the list of proof documents in Section IV Ceremonial Marriage, subheading (iii): Presumption of Ceremonial Marriage (even if a ceremonial marriage is not alleged). The proof documents must be dated within one year of the participant's retirement date or date of death, or specifically indicative of the continuing existence of the marriage

as of the participant's retirement date or date of death.

If the validity of a marriage is contested (for example, when two individuals allege they were married to a participant at the time of death and claim entitlement to a surviving-spouse benefit), contact Ask OPSS for additional guidance.

**When do we require proof of divorce or that a marriage ended?**

PBGC should not routinely require proof of divorce or that a marriage otherwise ended. If the validity of a marriage is challenged, contact Ask OPSS for guidance. For example, if plan or PBGC records indicate that a participant was married at DOPT, but, at the time of retirement, the participant states that he or she is single or divorced, do not routinely request proof of the divorce. However, if communications with the participant or the participant's spouse indicate that the marriage has not ended, asking for proof of divorce would be appropriate if the marital status cannot be confirmed otherwise.

Top of Page

## Appendix O II. Length of Marriage Requirement

**10/28/2005**

Pension plans may require that a participant have been married for up to one year (but no more than one year) before surviving spouse or other spousal benefits are payable. A plan's length of marriage requirement may be less than one year however, one year is common. The same PBGC rules that apply to a one-year marriage requirement apply to requirements that are less than one year.

Plans with a one-year marriage requirement may deny ▸QPSA benefits if a participant has not been married for a full year as of the participant's death. Plans are required to pay benefits in the form of a ▸QJSA to a married participant (unless the spouse waives the QJSA). Note that if the participant dies or the couple divorces before a full year of marriage, the spouse may not be entitled to survivor benefits.

For additional information on this topic, please refer to Policy 5.7-4 Marriage Requirements.

## Appendix O III. Types of Marriage

**07/01/2016**

PBGC recognizes a marriage based on the laws of the jurisdiction in which the marriage occurred. In determining whether PBGC can recognize the marriage, consider the marriage types in the Types of Marriage Table.

**Types of Marriage Table**

| Type of Marriage | Description |
|---|---|
| **Ceremonial** | A marriage that is performed in public, by an authorized official or clergy, in accordance with the laws of the location where the marriage occurred. Most jurisdictions require that a license be obtained by persons intending to contract a ceremonial marriage. However, the marriage may be valid under State law despite the fact that a license was not secured.<br><br>*Refer* to IV. Ceremonial Marriage. |
| **Common-Law** | In some states a valid marriage may be created without a formal ceremony. Generally the parties must:<br>• Enter into the marriage by mutual consent to become husband and wife from that time on.<br>• Have intent to marry.<br>• Consider themselves to be husband and wife.<br>• Be legally capable of entering into a valid marriage.<br>• In some states, cohabit and hold themselves out to the public as husband and wife.<br>The marriage must be contracted in a state where common-law marriage is recognized.<br><br>*Refer* to V. Common-Law Marriage. |
| **PBGC Presumption of Marriage** | A presumption that a marriage exists when formal marriage documents are not available due to unusual circumstances. For example, the country in which the marriage was created limits or denies access to its records, or did not provide documentation, and the parties to the marriage provide convincing evidence of marriage.<br><br>If a matter involves multiple marriages and there are competing claimants to surviving-spouse benefits, contact ASK PPD for further guidance.<br><br>*Refer* to VIII. PBGC Presumption of Marriage |
| **Indian Tribal or Custom** | A marriage where the parties were subject to a tribal government at the time of the marriage, the parties had been following tribal customs and laws, and the marriage was in accordance with tribal customs and laws.<br><br>*Refer* to VI. Indian Tribal or Custom Marriage. |
| **Chinese Custom** | A marriage that took place in China and met the Chinese procedural requirements of law and custom.<br><br>*Refer* to VII. Chinese Custom Marriage. |
| **Putative** | Under the laws of some States, a party to a void marriage may acquire inheritance rights as a spouse; this relationship is called a putative marriage. The essential basis of a putative marriage is a good faith belief (in a life case) or good faith until the worker dies (in a death case). The marriage may be invalid because of some defect of which the putative spouse was unaware, such as a prior undissolved marriage of one of the |

| | |
|---|---|
| | parties, or failure to meet the requirement of solemnization.<br><br>*Refer cases of putative marriage to the ▸ PPD Marriage Issues Coordinator by sending an e-mail to the* ASK PPD with details about the marriage and the reason for contacting PPD. |
| **Deemed** | A marriage that would have been valid, except for a legal impediment.<br><br>A legal impediment may exist:<br><br>• When a prior marriage has not been dissolved.<br>• When an attempted dissolution of a prior marriage is not valid, for example, a mail-order divorce.<br>• If the prior marriage was dissolved, but there was a restriction against remarriage still in effect at the time of remarriage.<br>• If the marriage is invalid because of a procedural defect in connection with the marriage, for example, a religious marriage in a country that requires a civil ceremony or failure to comply with State licensing requirements.<br>• When the marriage is invalid for reasons under State law other than those listed above.<br>*Refer cases of deemed marriage to the PPD Marriage Issues Coordinator by sending an e-mail to the* ASK PPD with details about the marriage and the reason for contacting PPD. |
| **Same-Sex** | Refer cases of same-sex marriage to ASK PPD with details about the marriage and the reason for contacting PPD. |
| **Polygamous Marriage** | A foreign polygamous marriage contracted in a jurisdiction that recognizes such marriage may be considered valid in some states to the extent that the spouses share equally in the intestate personal property of the worker.<br><br>*Refer cases of polygamous marriage to the PPD Marriage Issues Coordinator by sending an e-mail to the* ASK PPD with details about the marriage and the reason for contacting PPD. |

## Appendix O IV. Ceremonial Marriage

**07/01/2016**

i. **Preferred Proof**

Obtain one of the following:

1. Marriage certificate.
2. Public record of the marriage: A copy of or statement as to a public record of the marriage, certified by the custodian of the record.
3. Religious record of the marriage: A copy of or statement as to a religious record of the marriage certified by the custodian of the record.
4. Foreign records: A foreign document based on church or civil records issued pursuant which shows the participant and spouse as husband and wife.

All marriage proof guidance should be imaged to the participant's file in ▸IPS (see TP16.2 Maintain Participant File).

If preferred proof of marriage is not readily available, request the applicant to obtain proof from the custodian of the record (for example, courthouse, church, civil authority, etc.) before requesting secondary proof of a ceremonial marriage.

ii. **Secondary Proof**

If preferred proof cannot be obtained:

Document the file with:

- An explanation about why preferred proof cannot be obtained.
- A description of the ceremony (when it took place, where it took place, who performed the ceremony, names of witnesses, and any other pertinent details).

Request one of the following:

- A signed statement from the clergyman or other official who performed the ceremony.
- Other evidence of probative value indicating a ceremony took place (for example, photos taken at the ceremony).
- Newspaper account of the wedding.
- Notarized statements from at least two people who have knowledge that the ceremony took place. Indicate in the statement the relationship of the person to the parties of the marriage and provide details of how the person knew of the ceremony.
- Notarized statements of witnesses to the marriage ceremony.

All marriage proof guidance should be imaged to the participant's file in IPS (see TP16.2 Maintain Participant File).

One piece of evidence is generally acceptable. However if the evidence is suspect or otherwise unconvincing, request additional evidence.

In determining the acceptability of the secondary proof, consider the following: the statement and conduct of the parties, length of time the parties have lived together as husband and wife, and whether children were born of the relationship.

If secondary evidence of marriage cannot be obtained, determine if a ***presumption of ceremonial marriage*** applies.

iii. **Presumption of Ceremonial Marriage**

When a ceremonial marriage is alleged, accompanied by cohabitation and repute, a presumption arises that there was in fact such a marriage. Apply the presumption of ceremonial marriage when neither preferred nor secondary proof of marriage can be obtained. The presumption of ceremonial marriage is strong when supporting evidence shows that the parties have lived together as husband and wife for many years, and it can be rebutted only by convincing evidence to the contrary. The absence of a record in the place where the marriage is alleged to have occurred will not in itself defeat the presumption.

To support a presumption of marriage, obtain two items from the following list that are indicative of a marital or husband-wife relationship:

1. Excerpts from naturalization certificates, deeds (for example, joint tenancy by the entirety), immigration

records, insurance policies, or passports which indicate the parties as husband and wife.

2. An IRS tax return, showing status as married, filing jointly, or married, filing separately. (Financial information is not needed and should be blocked out to preserve privacy.)
3. Records which show a marital relationship such as business, employment, bank, fraternal, school, labor, church, or birth records, including pension plan records and documents.
4. Official records from other government agencies indicating a marital relationship such a Social Security Benefit award notice.
5. Purchase agreements, contracts, or leases executed by parties, letters to both parties, or letters from one party to the other indicating a marital relationship.
6. Automobile titles made out jointly in the names of the parties.
7. Wills naming the other party as a spouse.
8. Any other evidence indicating a spousal relationship, such as birth certificates of children born of the relationship, a death certificate or obituary that indicates the marital relationship.

Evaluate the evidence that is obtained and document the file if a presumption of marriage is found. *If a presumption of marriage cannot be found, refer the case to the PPD Marriage Issues Coordinator by sending an e-mail to the* ASK PPD with details about the marriage and the reason for contacting ▶PPD.

**Note** Do not routinely attempt to establish a common-law marriage when a ceremonial marriage is alleged but no record is found.

iv. **Foreign Ceremonial Marriage**

The preferred proof of a foreign marriage is an official document that verifies the marriage ceremony occurred under the laws of that country. All marriage proof guidance should be imaged to the participant's file in IPS (see TP16.2 Maintain Participant File). If the participant or payee cannot provide an official document, *refer the case to the PPD Marriage Issues Coordinator by sending an e-mail to the* ASK PPD with details about the marriage and the reason for contacting PPD.

## Appendix O V. Common-Law Marriage

**07/01/2016**

### i. Basic Requirements

In some states a valid marriage may be created without a formal ceremony. While individual state laws vary, generally the requirements are:

1. The marriage is entered into by mutual consent of the parties to become husband and wife from that time on and is not solemnized by a ceremony;
2. The parties must have intent to marry;
3. The parties must consider themselves husband and wife;
4. Both parties must be legally capable of entering into a valid marriage;
5. In some states, the parties must cohabit and present themselves to the public as husband and wife.

### ii. Important Concepts

1. Agreement to marry.

   An agreement to marry must:

   - Contemplate a permanent union exclusive of others;
   - Be in the present tense; and
   - Contemplate a marital status that cannot be terminated at will but can be terminated only in the same manner as a ceremonial marriage, that is, death, divorce or annulment.

2. Cohabitation.

   Cohabitation means living together as husband and wife.

3. Sojourn.

   In some states a common-law marriage can arise from a temporary stay or sojourn within a state's borders if the parties present themselves as husband and wife, even though the parties were never domiciled in that state.

4. Common-Law Marriage entered into outside the U.S.

   Common-law marriages entered into outside the U.S. are generally not recognized. If a common-law marriage was entered into outside of the U.S., follow the instructions below according to marriage type, and contact ASK PPD for additional guidance.

   **Note:** If documentation of a ceremonial marriage cannot be obtained, do not automatically pursue proof of a common-law marriage unless a participant or spouse specifically alleges a common-law marriage exists or existed.

### iii. Participant Alleges Common-Law Marriage

If a participant alleges a common-law marriage:

1. Ask the spouse to affirm that he or she mutually consented or agreed to the common-law marriage with the participant. The affirmation may be:
   a. In writing or by other contact (phone, email, etc.). Continue to step 2.
   b. Deemed if the spouse gives spousal consent and waives the QJSA. A *Common-Law Marriage Facts & Circumstances Determination* form does not have to be completed and additional proof of the marriage is not required unless the plan provides other spousal benefits such as a ▸Free Surviving Spouse Benefit (FSSB).

**Hint:** Additional proof of the marriage is not needed in this situation because the spouse has waived the QJSA and the participant may elect the automatic form for unmarried participants or an optional form. The participant may elect an optional form of benefit that provides survivor benefits and designate the spouse as the beneficiary. The existence of the marriage is no longer relevant.

2. Complete the *Common-law Facts & Circumstances Determination* form.
3. Ask the participant to submit at least two forms of corroborating evidence as described in section v. Corroborating Evidence of Common-law Marriage.
4. Determine if PBGC can recognize the marriage following the instructions in vi. Facts & Circumstances Determination.

**iv. Surviving Spouse Alleges Common-Law Marriage**

If a surviving spouse alleges having been in a common-law marriage with a deceased participant, review the plan and/or participant's file to determine if the participant appears to have mutually consented or agreed to a common-law marriage with the spouse.

**Common-Law Marriage Facts & Circumstances Determination In file**

1. If a determination was previously made that PBGC will recognize the marriage between the participant and the surviving spouse, generally no further proof of the marriage is needed.
2. If a determination was previously made that the marriage could not be recognized, generally surviving spouse benefits will not be payable.
3. If a determination is not on file, determine if the participant previously affirmed the marriage. Continue to section iv., subsection 2, below.

**Common-Law Marriage Previously Affirmed by Participant**

The participant's affirmation of the marriage with the surviving spouse generally may be established by:

- A documented allegation by the participant in his or her participant record of marriage to the surviving spouse, even if not confirmed by corroborating evidence. For example, entries on a General Information Form (GIF), Payee Information Form (PIF) or other PBGC form; correspondence, or other documentation.
- Evidence in plan records indicating a marital relationship, for example, an employment application, health or insurance cards or records, emergency contact information, or other administrative documents identifying the spouse.

1. If the participant's affirmation of the common-law marriage cannot be established, go to section iv., subsection 3: Common-law Marriage Not Affirmed by Participant.
2. If the participant's affirmation of the common-law marriage can be established, complete the *Common-law Facts & Circumstances Determination*.
3. Ask the spouse to submit at least two forms of corroborating evidence as described in vi. step 5.
4. Determine if PBGC can recognize the marriage following the instruction in vi., step 6.

**Common-Law Marriage Not Affirmed by Participant**

If the participant did not previously affirm a common-law marriage with the other party (for example, the participant identified himself or herself as unmarried/single):

1. Complete the *Common-law Facts & Circumstances Determination*. Modify the form to document responses to the following question:
   - Why does the other party to the relationship consider himself or herself married to the participant?
   - Why does the other party think that the participant did not identify himself or herself as married?
   - Is there a valid reason why the participant could not enter into a ceremonial marriage?
2. Ask the party to submit at least **three** forms of corroborating evidence that the parties were married at the time of the participant's retirement and/or death, as described in vi. Facts & Circumstances Determination, step 5.
3. Determine if PBGC can recognize the marriage following the instructions in vi., step 6.

**v. Corroborating Evidence of Common-Law Marriage**

Corroborating evidence of the common-law marriage may be obtained from plan and participant records or from the participant or spouse.

1. A document that simply lists both parties may not sufficiently demonstrate a marital relationship if the parties used different last names.
2. Corroborating evidence of a common-law marriage will generally describe the nature of the relationship. For example, the document will:
   a. Identify the parties as husband and/or wife;
   b. List the parties as Mr. and Mrs.;
   c. Show the parties as using the same last name;
   d. Identify one of the parties as "spouse;"
   e. State the parties are "married"; or
   f. Include a similar description.
3. Acceptable evidence of a common-law marriage include:
   a. A judgment, decree, settlement agreement, ▸domestic relations order (DRO), or other court order issued by a court pursuant to state law that specifically recognizes the marital relationship of the parties. For example, the alternate payee under a DRO is specifically identified as the spouse. Additional proof generally is not needed in this situation.
   b. Beneficiary designations showing a relationship of spouse, husband, or wife. For example, a PBGC designation of beneficiary for payments owed a payee, or other designations, such beneficiary for an ▸Individual Retirement Account (IRA).
   c. Birth certificates of children resulting from the marriage indicating the parents' marital status.
   d. Church, school, labor or fraternal organizations.
   e. Death certificate or obituary for either party.
   f. Deed to house (for example, property held as "tenants by the entirety" or similar) or lease agreement.
   g. Employment/personnel records.
   h. Financial (for example, bank statements) records, business records, purchase agreements.
   i. Notarized statements from people (excluding children resulting from the marriage) who can confirm the relationship. Two or more statements are not adequate proof; at least one other form of evidence must be obtained.
   j. Health or life insurance policies.
   k. Immigration or naturalization papers.
   l. Proof that SSA, the Veteran's Administration, or other federal, state or local governmental agencies recognize the marriage or spouse for purposes of paying spousal benefits.
   m. State or federal tax returns showing a marital status of married.
   n. A will or probate document that specifically indicates the marital relationship of the parties. For example, the beneficiary of the will is specifically identified as the spouse.
   o. Other similar documents indicative of a marital relationship.

**vi. Facts & Circumstances Determination**

1. Review the *Common-law Facts & Circumstances Determination* to determine if the marriage was entered into in a state where common-law marriage is recognized. Refer to the SSA Program Operations Policy Manual, specifically policy GN 00305.075 State Laws on Validity of Marriages Entered into Without a Ceremony, to determine if the state in which the marriage was entered into recognizes common-law marriages.
   - If the state does not recognize common-law marriages, determine whether the couple subsequently lived in or sojourned to a state that does recognize common-law marriage.
   - If not, the marriage cannot be recognized. Skip to step 4.
2. If the marriage was entered into in a state that recognizes common-law marriage, evaluate the remaining

information on the *Common-law Facts & Circumstances Determination*, taking into consideration:

- Whether the information received appears to meet the related state laws for common-law marriage.
- Whether the information provided by the parties does not appear to conflict with the Basic Requirements (section i.) and Important Concepts (section ii.) and is reasonable and consistent. For example, if the participant consistently identified the other party as a friend, girlfriend or boyfriend, "unrelated;" described the relationship as "none;" or made statements that he or she was never married, the affirmation or mutual agreement requirement that the relationship was a common-law marriage generally will not be met. The other party must provide substantial convincing evidence to the contrary.
- Simply living together does not constitute a common-law marriage.
- The parties have consistently represented themselves as married to the public and other governmental agencies or organizations.

  **Example 1:** If the couple failed to inform a public assistance agency of the common-law marriage in order to qualify food, housing assistance, or Medicaid, the marriage may not have existed (or fraud may have been committed, in which the nature of the relationship would remain questionable).

  **Example 2:** State or federal tax returns indicate the parties filed as "single/unmarried."
- If one or both of the parties considered themselves no longer married simply because they stopped living together, then a common-law marriage may not have existed.
- A common-law marriage cannot circumvent legal barriers that would prevent either party from entering into a ceremonial marriage. For example, an earlier marriage that has not been legally terminated by divorce, annulment or death.

After reviewing the *Common-law Facts & Circumstances Determination*, continue to step 3, below.

3. Evaluate the corroborating evidence taking into consideration:
   - The evidence should describe the nature of the relationship as required in step 5.
   - Two different forms of evidence must have been received (for example, two statements from people who can confirm the relationship is not sufficient evidence; at least one other form of evidence is needed).
   - The evidence must reasonably corroborate the relationship. If any evidence indicates that a marital relationship did not exist, an explanation is required and additional corroborating evidence must be obtained and considered.
   - Evidence that corroborates the marital relationship over time generally should be considered as more consistent and therefore of higher corroborative value. For example, military papers showing the participant as married to the spouse that were issued 20 years ago and recently completed tax returns showing the couple as married.
4. Document the decision as to whether PBGC is or is not able to recognize the marriage for the purposes of paying spousal benefits.
   - If the determination is that the marriage can be recognized, follow the rules for payment of ▸qualified pre-retirement survivors annuities (QPSA) and ▸qualified joint-and-survivor annuities (QJSA) or payment of other benefits to a spouse, such as a FSSB or payments owed a deceased participant.
   - If the determination is that the marriage cannot be recognized, the participant is treated as being unmarried.

   **Hint:** If the participant is treated as unmarried, he or she may elect an optional form of benefit such as one of the optional joint-and-survivor annuities and provide protection for the other party that is equal to or exceeds the QJSA by designating the party as the beneficiary.
5. Image all completed documentation and proof to the participant or spouse's file (see TP16.2 Maintain Participant File).
6. If PBGC determines that the common-law marriage can be recognized and the participant was in pay, Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities) will apply.
7. If additional guidance is needed, contact the marriage issues coordinator at ASK PPD and confirm that the following steps have been taken:
   - A complete and accurate *Common-law Facts & Circumstances Determination* has been completed.
   - All corroborating evidence has been obtained (see step v. above).
   - All documentation has been imaged to the participant and/or spouse's file.

   ▸PPD will provide additional guidance to decide if the marriage can be recognized; request additional evidence if needed; and/or refer the matter to the Office of the Chief Counsel (OCC) if necessary.

Top of Page

## Appendix O VI. Indian Tribal or Custom Marriage

**10/28/2005**

For an Indian Tribal or Custom Marriage, if the tribe is known to provide for licensing or ceremonial requirements, request this documentation. Otherwise, request Indian tribal rolls as evidence.

All marriage proof guidance should be imaged to the participant's file in IPS (see TP 16.2 Maintain Participant File).

For additional information on this topic, please refer to the ▸SSA Program Operations Policy Manual, specifically policy GN 00305.090 Indian Tribal or Custom Marriage.

## Appendix O VII. Chinese Custom Marriage

**10/28/2005**

For a Chinese Custom Marriage, if the spouse's application claims Ceremonial Marriage to the participant, and the participant confirms this in writing, this is normally accepted as sufficient proof. If one party is deceased or lives outside the U.S., request alternate proofs of a Ceremonial Marriage, or the following, with a notarized translation:

- Three-generation papers.
- Certificate of village elder.

All marriage proof guidance should be imaged to the participant's file in IPS (see TP 16.2 Maintain Participant File).

For additional information on this topic, please refer to the ▶SSA Program Operations Policy Manual, specifically policy GN 00305.095 Chinese Custom Marriage.

## Appendix O VIII PBGC Presumption of Marriage

**07/01/2016**

In unusual situations, participants and spouses may not be able to obtain official documentation of the marriage, usually (but not always) because the marriage was created outside of the U.S. For example:

A marriage may have been created under a foreign jurisdiction without an easily recognizable ceremony or formal process. In some jurisdictions, a marriage may be created simply by registering the marriage with local officials and no formal documentation is issued.

Some countries where marriage records may be located limit or deny access to records. Such countries may include but are not limited to North Korea, The People's Republic of China, the former countries of the Soviet Union, and Vietnam.

Records of the marriage, official or otherwise (for example, a church record), may have been lost or otherwise cannot be located or have been destroyed.

If the participant or spouse is unable to provide documentation of the marriage:

1. If documentation is not obtainable, do not assume the marriage was common-law; common-law marriages that are contracted in foreign countries generally cannot be recognized. If such a common-law marriage is alleged, follow instructions in Section V. Common-Law Marriage and contact ASK PPD for additional guidance.
2. Ask the participant or spouse why formal documentation is not available and document the reason.
3. Assume a ceremonial marriage took place and follow the instructions in Section IV. Ceremonial Marriage, and obtain proof of the marriage described in ii. Secondary Proof or iii. Presumption of Ceremonial Marriage.

If a matter involves competing claimants to surviving-spouse benefits (that is, when a participant has been married multiple times), contact ASK PPD for additional guidance.

## Appendix O IX. Additional Resources

**03/27/2009**

For additional information relating to this topic, the following PBGC policies are useful:

- Policy 5.4-7 Annuity Benefit Forms
- Policy 5.7-2 Payment of Qualified Preretirement Survivor Annuities in Plans Terminating on or after August 23, 1984
- Policy 5.7-4 Marriage Requirements
- Policy 6.6-3 Qualified Domestic Relations Orders
- Policy 5.7-5 Spousal Consent (Qualified Joint-and-Survivor Annuities)

The *Summary of Qualified Join and Survivor Annuity Requirements* job aid provides a summary of applicable laws and regulations regarding ▸QJSAs.

The SSA Program Operations Policy website can also be consulted for additional information. The following topics are particularly useful:

- Common-Law Marriage – General
- State Laws on Validity of Marriages Entered into Without a Ceremony.

## Appendix O X. Resources for Acceptable Proof of Marriage

**09/30/2016**

**Forms, Letters, and Memos:**

*Common-Law Marriage Facts & Circumstances Determination*

**Customer Correspondence and Forms:**

*None*

**Guidance:**

*None*

**Exhibits:**

*None*

# Appendix Q OBA Systems

**07/01/2016**

## Introduction

This appendix provides a brief overview of the Office of Benefits Administration (OBA). OBA systems handle Plan and Participant data. Plan data contains multiple participants; while, Participant data contains individual data within a plan.

If you experience any problems while using the systems below, please contact the Help Desk.

**In this Section**

Appendix Q Actuarial Calculation Toolkit
Appendix Q Archive
Appendix Q Case Management System (CMS)
Appendix Q Customer Relationship Management (CRM)
Appendix Q eAutomated Letter Generation (eALG)
Appendix Q Image Processing System (IPS)
Appendix Q MyPBA
Appendix Q Payment Adjustment Calculation System (PACS)
Appendix Q Spectrum
Appendix Q eReports

## Appendix Q Actuarial Calculation Toolkit

**11/29/2011**

The ACT system (ACTv5) is used by actuaries to define how a plan is valued and how benefit statements for that plan should be generated. ACT also allows the actuary to define how a plan's benefit estimation calculation is to be completed, prior to final valuation.

Actuaries use ACT to take basic data from the Participant Data Review Report, which includes the finalized participant and perform the valuation. Once the valuation is complete:

- ACT data is provided to other systems such as ADT and Datahub, to load the data into the paying database, Genesis.
- Benefit statements for each customer is loaded into eALG (Automated Letter Generation) system, so that Benefit Determination letters can be sent to customers.
- All files related to that particular plan are archived and are made available through the Archive system.

ACT includes the following tools:

- ValTool: The Valuation Spreadsheet Tool.
- DRS: The DOPT Report System.
- A Design Tool: BET (Benefit Estimation Tool and BSRS - Benefit Statement and Recalculation System).
- A Runtime Tool: BET (Benefit Estimation Tool and BSRS - Benefit Statement and Recalculation System).

See the Actuarial Calculation Toolkit Web site for more information.

## Appendix Q Archive

**07/01/2016**

The Archive system stores all the historical data for a case including as applicable, electronic payment data from a plan's prior paying agent, the electronic source data used to build the participant database, the sampled participant database and the finalized participant database and the finalized plan valuations. The Archive system allows you to select a case and then view or copy any particular file associated with that case. Users can also access more than one case at a time.

The Archive system is the permanent storage location of ▸OBA's case-related software, including actuarial valuation spreadsheets, ▸Benefit Statement, and Recalculation Programs.

See the Archive Manual for more information.

## Appendix Q Case Management System (CMS)

**07/01/2016**

The Case Management System (CMS) is a suite of applications for OBA and other departments that tracks the processing and maintenance of a pension plan. It supports:

- Workflow, case and sponsor information;
- Milestone processing;
- Case processing team assignment data to other OBA mission-critical systems such as Spectrum, IPS, CRM, and eALG; and
- Other functions that underlie PBGC's trusteed case processing.

CMS maintains plan, financial, statistical, and other case-specific information for single employer and multi-employer plan terminations, ensuring efficient and accurate case processing and providing a flexible, easy-to-use interface that can rapidly accommodate changes in business requirements.

A User ID and Password is required.

Click the link below for job aids:

*CMS Job Aids and User Guide*

## Appendix Q Customer Relationship Management (CRM)

**11/30/2007**

The Customer Relations Management (CRM) system facilitates sharing of customer information across Departments and enables PBGC to better capture and measure its ability to meet customer service expectations. Specifically, the CRM application provides:

- Integrated workflow and tracking of customer contacts across channels;
- Synchronization with PBGC's systems that currently track and manage customer data; and
- Views into IPS/FileNet, Appeals Data, and Payment History Data.

See the CRM Home Page for more information.

## Appendix Q eAutomated Letter Generation (eALG)

**07/01/2016**

The eAutomated Letter Generation (eALG) System allows users to communicate quickly and efficiently with PBGC customers via automated, standardized letter templates, which may also be customized as-needed. eALG provides the user direct access to:

- An intranet, browser-based application;
- Genesis directly;
- New security requirements;
- Improved system and sub-system stability, reliability, and maintainability.

Continuation of the current level of integration with the following PBGC operations:

- PBGC off-site fulfillment
- Customer Relationship Management (CRM) System
- Image Processing System (IPS)
- eReports
- Case Management System (CMS)
- TRMD (Import Benefit data, ValPatch and ADL)

See the help page within the eALG application for more information. To access this application, a User ID and Password is required.

## Appendix Q Image Processing System (IPS)

**07/01/2016**

The Image Processing System (▸IPS) is an on-line repository for those ▸OBA plan and participant documents necessary for benefit determination and administration. The documents are available on-line for review as an electronic file.

IPS is primarily used to manage PBGC plan and participant documents. The IPS translates paper documents into digital images that are then saved and stored on optical disks. These digital images are retrieved at end user workstations using the index information assigned during the scanning process (SSN and/or ▸PBGC Case Number). Case number and doc type are the key indexes. Participant data includes case number, doc type, and SSN for each participant. System users can perform a participant name search to retrieve the plan name. IPS delivers confirmations of submitted letters to the eALG.

See the IPS User Manual for more information.

## Appendix Q MyPBA

**07/01/2016**

MyPBA is a software program that allows participants to submit certain forms and update their personal data via the PBGC Web site instead of by mail or phone. Using MyPBA, participants may conduct such transactions as:

- Apply for benefits
- Request a Benefit Estimate
- Submit the Payee Information Form (PIF)
- Designate a beneficiary
- Apply for Electronic Direct Deposit
- Designate or edit Federal Tax Withholding information

While MyPBA is actually used by PBGC's customers, OBA staff still must process the forms and requests that participants submit. However certain transactions, such as address changes, require no action by staff.

For additional information about MyPBA transactions, see TP 48 MyPBA Correspondence.

## Appendix Q Payment Adjustment Calculation System (PACS)

**08/30/2011**

PACS is a Web-based application to determine if PBGC must refund money to or recoup money from customers receiving a benefit or who received a benefit. PACS also establishes a recoupment schedule, if the customer owes PBGC money.

PACS retrieves customer information from the Genesis database and plan information from the CMS database to pre-populate data fields within the application. If any of the required information for pre-filling the forms is not in the database, the user can manually enter the missing data.

Anyone who has access to CMS or Spectrum may access all the functions in PACS.

See PACS Help on the PACS Application page for more information.

## Appendix Q Spectrum

**07/01/2016**

Spectrum replaces PRISM as OBA's participant database and benefit administration system. Spectrum enables CSD staff to enter, update, and view data in one application, which streamlines the data entry process and expedites benefit payments.

Spectrum allows CSD staff and other users to:

- View and update customer information.
- Manually add and bulk-load data.
- Create, edit, suspend, resume, terminate, and reinstate payments.
- View ledger information.
- Change payee status.
- Make standard data fixes.

In addition, Spectrum integrates with other PBGC applications and services, including Approval Service, eALG, CRM, and infrastructure elements such as the Genesis database.

See the Spectrum User Manual for more information.

# Appendix Q eReports

**07/01/2016**

**What is eReports?**

- eReports is a series of Web-based reports designed to provide authorized users with current and accurate participant-related data.

**How is eReports used?**

- eReports is used to monitor and manage Benefit Determination Letter issuance, participant data, benefit payments, etc.
- Reports may be generated on demand, providing the user with access to current data to better manage benefit processing.

**What are the benefits of using eReports?**

- Valuable tool for users to identify where data needs to be updated.
- All reports may be downloaded and exported to another application for further customization.
- A series of related reports are available at one user interface screen.
- Reports support OBA's management coordination efforts by summarizing overall performance and production activities.

**How do I access eReports?**

There are two methods to access eReports:

- From PBGC's Intranet, type "**eReports**" (or http://ereports) in the address line.
- Select the **eReports** link from the Unified Desktop.

**For more information...**

See eReports Online Help.

**In this Section**

Appendix Q eReports Summary

**Appendix Q eReports Summary**

**03/29/2012**

| | | |
|---|---|---|
| **Benefit Change Completion Report** | **Customer Data Report** | **Forecaster Report** |
| **Letter Information Report** | **Lump Sum Report** | **Unissued BDL Report** |

**Benefit Change Completion Report**

- The Benefit Change Completion Report identifies participants with an Active Benefit "1" (active pay) who have been issued a Benefit Determination Letter (BDL) but have pending benefits administration activities. Users may sort the pending activities into the following groupings:
- Active Benefit
- Pending Special Checks
- Pending Recoupments
- All Pending Changes Sorted by Type.

**Letter Information Report**

- The Letter Information Report indicates that participant records are populated with required valuation data in Genesis necessary to issue BDLs. This report also indicates if a benefit statement is on file and provides an overview of the Plan's Participant payment statuses.
- The Letter Information Report enables users to easily identify Customers who require locator action and manage the remaining Customers according to the types of Benefit Determination Letters they should receive based on: Payment Frequency, Customer Type, SSN, and Name.

**Customer Data Report**

- The Customer Data Report lists key data elements for all Customers in a specifically requested Pension Plan. The data elements are reported for all the Participants in the Plan, and includes their family members.
- The Customer Data Report is used throughout the life of the Plan, assisting the user in managing participant data.

**Lump Sum Report**

- The Lump Sum Report groups customers into one of five categories, comparing the Present Value of their Guaranteed Benefit to the total lump sum paid as of the report date.
- The Lump Sum Report allows users to quickly identify customers paid an estimated Lump Sum distribution and determine the appropriate follow-up action to be taken.

**Forecaster Report**

- The Forecaster Report provides information on participants that have or will have benefit changes within the next 30, 60, 90, and 365 days. It lists customers who are eligible for normal retirement, as well as pending benefit and deduction changes for retirees. Users may sort the pending activities into the following groupings:
- Active Benefit
- Pension Deduction Changes
- Future Payments.
- The Forecaster Report is used throughout the life of the Plan, and is a valuable tool in ensuring participant payment data is accurate, and when certain actions need to be taken.

**Unissued BDL Report**

- The Unissued Benefit Determination Letter report captures and lists participants or their beneficiaries that are eligible for a Benefit Determination Letter but have not yet received one.
- The Unissued Benefit Determination Report is used after the guaranteed benefits for Customers are determined.

# Appendix R Assignment and Withholding From Benefit Payments

**10/31/2008**

This appendix provides guidance in processing an assignment and/or withholding request from the benefit of a participant in a PBGC-trusteed plan. These requests are classified according to two categories, allowable and non-allowable deductions.

**In this Section**

Appendix R 1 Federal Tax Withholding
Appendix R 2 IRS Levies
Appendix R 3 Qualified Domestic Relations Order (QDRO)
Appendix R 4 Third Party Payment Requests
Appendix R 5 Non-Allowable Deductions
Appendix R 6 Garnishment Request or Child Support Not Ordered Under a QDRO
Appendix R 7 Request for Assignment of a Benefit Due an Incarcerated Payee
Appendix R 8 Resources for Assignment and Withholding from Benefit Payments

# Appendix R 1 Federal Tax Withholding

**10/31/2008**

**In this Section**

Appendix R 1.1 Introduction to Federal Tax Withholding
Appendix R 1.2 Annuity or Periodic Payment Tax Withholding and Reporting
Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting
Appendix R 1.4 Other Tax Withholding Considerations
Appendix R 1.5 1099-R Reporting Requirements
Appendix R 1.6 Non-Resident Alien Tax Withholding Requirements
Appendix R 1.7 Mandatory Withholding Requirements - Invalid TIN
Appendix R 1.8 Residents of the Commonwealth of Puerto Rico and other U.S. Possessions
Appendix R 1.9 Processing a Change to Federal Tax Withholding Election
Appendix R 1.10 Returned Form 1099-R
Appendix R 1.11 Requests for Replacement or Revised Form 1099-R
Appendix R 1.12 Additional Resources

**Appendix R 1.1 Introduction to Federal Tax Withholding**

**07/01/2016**

**Q1. What is the purpose of Tax Withholding?**

**A1.** PBGC withholds federal income tax in accordance with the Internal Revenue Code (IRC) and guidance it receives from the IRS regarding PBGC-specific issues. PBGC must withhold federal income tax from pension benefit payments, for both annuity and lump-sum payments. Tax withholding is done in anticipation that a taxpayer will have a tax liability. Federal taxes, but not state or local, are withheld from pension payments. The taxpayer may have a tax liability for which he or she is responsible. The liability may be more than, less than, or equal to the tax withheld.

**Q2. Why does PBGC require a Valid Taxpayer Identification Number from the Payee?**

**A2.** To fulfill its tax withholding and reporting responsibilities, PBGC requires a Taxpayer Identification Number (TIN). A foreign TIN, such as a Canadian Social Insurance Number (SIN), cannot be used. It is illegal to use a TIN that belongs to another person, including a deceased spouse.

**A valid TIN is:**

- a Social Security Number (SSN) issued by the Social Security Administration (SSA), or
- an Individual Taxpayer Identification Number (ITIN) issued by the Internal Revenue Service (IRS), or
- for estates, an Employer Identification Number (EIN).

a. **When a TIN is Available**

Follow the TIN Available Table to identify which TIN to use for the recipient.

| Recipient | Use the |
|---|---|
| Participant | Participant's SSN/ITIN |
| Spouse | Spouse's SSN/ITIN |
| Non-spousal Beneficiary | Beneficiary's SSN/ITIN |
| Estate | Deceased Payee's SSN or Estate's EIN |

b. **When a TIN is Not Available**

If a TIN is not available, mandatory tax withholding rules apply (refer to Appendix R 1.7 Mandatory Withholding Requirements - Invalid TIN).

> **Note** PBGC cannot refuse to make payments if an applicant for benefits or payee does not provide a valid TIN. Always encourage the applicant or payee to get a valid TIN—either an SSN or an ITIN from the IRS.

c. **Applying for an SSN or ITIN**

- SSN: For information on applying for an SSN, refer payees to the SSA at the SSA Web site or 1-800-772-1213. Applicants residing in the U.S. complete the SSA Form SS-5; applicants living outside the U.S. must use the SSA Form SS-5-FS.
- ITIN: Payees who do not qualify for an SSN may qualify for an ITIN from the IRS. To obtain an ITIN, IRS Form W-7 Application for IRS Individual Taxpayer Identification Number must be completed and sent to the IRS with proof showing the applicant is due pension benefits from PBGC and other required documentation described on Form W-7. Refer payees to the IRS Web site or 1-800-829-1040 for additional information.

Allow the applicant or payee 90 days from the date of our request to provide a TIN. If the TIN is not submitted timely, use a PBGC-generated ID number (a Dummy SSN) to make payment and apply mandatory tax withholding to the payment(s).

> **Note** A PBGC-generated ID number is not a valid TIN; therefore, mandatory withholding must be applied (see Appendix R 1.2 Annuity or Periodic Payment Tax Withholding and Reporting).

Sometimes applicants or payees may think that they do not need a TIN if they can claim withholding under a tax

treaty; however, a TIN is required to claim withholding under a tax treaty (see Appendix R 1.6 Non-Resident Alien Tax Withholding Requirements).

**Q3. Annuity vs. Lump-sum Payments - Why is it important?**

**A3.** For tax withholding and reporting purposes, annuities are periodic pension payments and lump sums are non-periodic pension payments. The tax rules that apply to periodic pension payments are considerably different than those that apply to non-periodic pension payments. One major difference is that different withholding methods and rates apply for annuities and lump sums. Another major difference is that tax on most lump-sum payments may be deferred; however, tax on annuity payments generally cannot be deferred.

**Q4. Are There Limits on Tax Withholding?**

**A4.** Under Policy 6.6-1 Withholding from Benefit Payments, PBGC may limit the amount of any withholding a payee requests to the extent allowed under the IRC and the withholding reduces or eliminates other withholdings required under federal law. For example, PBGC will not withhold additional or more tax than required if the requested withholding reduces or eliminates a payment owed under a QDRO or an IRS tax levy. PBGC may also limit the amount of a rollover-eligible payment that can be directly rolled into another qualified retirement plan or individual retirement arrangement (IRA) if it reduces or eliminates other required withholdings. Contact ASK PPD for additional guidance in these situations.

**Q5. Tax Advice vs. Tax Information – What is the difference?**

**A5.** There can be a fine line between giving advice and giving information. Do not give advice on federal income tax to payees. What may seem like information can really be advice and may be as simple as:

- If you do not have tax withheld, you will owe more on your income tax return.
- If you elect a rollover, your taxes will be less when you retire.
- When you get older you do not have to pay as much tax, so you probably do not need to have tax withheld.
- If we overpaid you, you were probably taxed too much. You should amend or adjust your tax return.

Guidance is limited to what is known and what PBGC will or can do:

- PBGC must withhold tax from your pension unless you elect otherwise. Here are the options you haveI cannot tell you which is bestYou should check with IRS.
- If you rollover your lump sum, we will not withhold tax or report the payment as taxable income to IRS.
- We can take out extra for taxes if you want, however, I do not know if you will owe less to IRS.
- We cannot change your 1099-R because you were overpaidWe will report the gross payment minus the amount withheld for recoupment as income to IRSorWe recommend that you check with IRS to see what effect paying us back may have on your taxes.

The only tax "advice" PBGC should give is: We suggest you contact IRS or your tax consultant for more information.

If in doubt about whether you are giving advice, rather than information, contact ASK PPD for help.

**Q6. How are payments to an Alternate Payee Under a Qualified Domestic Relations Order (QDRO) taxed?**

**A6.** ▸Alternate payees who are spouses or former spouses under a QDRO generally are subject to the same tax treatment (except for the 10% early distribution tax) and have the same withholding options as the participant for either an annuity or a lump-sum payment.

Children or other dependents are generally not liable for paying the taxes on the distribution. The participant remains liable for the taxes.

For more information on QDROs, see TP 13 Domestic Relations Orders and State Agency Orders.

Top of Page

## Appendix R 1.2 Annuity or Periodic Payment Tax Withholding and Reporting

**09/26/2013**

Annuities are subject to federal income tax withholding and reporting and are treated as wages for withholding purposes. PBGC does not determine the taxable income of annuity benefit payments; they are reported to the ▸IRS as "taxable income not determined." The IRS and the payee subsequently determine if all or part of the income is taxable. The portion of the benefit attributable to after-tax employee contributions is not considered for withholding purposes. PBGC must withhold federal income tax on annuities unless the taxpayer elects otherwise. There are multiple withholding options available to the taxpayer for having tax withheld.

PBGC cannot refuse to make payments if the payee does not provide a valid ▸TIN. A PBGC-generated ID number (that is, Dummy ▸SSN) is not a valid TIN and should only be used as a last resort. Encourage the taxpayer to get a valid TIN. If a PBGC-generated ID number is used, mandatory tax withholding rules must be applied to the payee's benefit.

### Tax Withholding Methods for Annuities for Taxpayers Residing in the U.S.

1. **No Withholding** - with this option, the taxpayer:
   - elects not to have tax withheld
   - must provide a home address in the U.S., and
   - must have the payment delivered to a U.S. address.
2. **Withholding Allowance Method** - the taxpayer elects to have his or her tax calculated using IRS Tax Tables, based on designated marital status and number of allowances.
   - Nothing is withheld if the annuity is less than the minimum amount in the Tax Tables.
   - This method is preferred by the IRS.
3. **Fixed Dollar Amount** - the taxpayer elects how much tax to withhold.

   > **Note** If a payee elects tax withholding based on a fixed percentage instead of a fixed dollar amount: 1) calculate the tax withholding based on that percentage of the current gross dollar amount of the benefit; 2) notify the payee in the eALG 300- or 500-series letter that the withholding amount will be treated as a fixed dollar amount and will not automatically adjust, even if the benefit amount changes in the future; and 3) ask the payee to contact PBGC if he or she wishes to change the withholding amount should the benefit amount change in the future (or for any other reason).

4. **Withholding Allowance Plus Fixed Dollar Amount**

   The taxpayer elects to have their tax calculated using IRS Tax Tables, based on a designated marital status and number of allowances, and requests an additional amount be withheld. The tax tables are in IRS Publication 15 (Circular E), Employer's Tax Guide (Including Wage Withholding and Advance Earned Income Credit Payment Tables).

5. **Election Unknown/No Election Received**

   If no election is received from the taxpayer, PBGC must still pay the annuity. An automatic or default withholding is applied, based on a marital status of "married" with three (3) allowances, regardless of known marital status.

   **Notes:**

   - Special tax withholding rules apply to payees who live outside the U.S. (refer to Appendix R Section 1.6 Non-Resident Alien Tax Withholding Requirements).
   - During the plan assumption process, participant withholding elections are captured from existing payment records (refer to Process 9 Plan Assumption).

Top of Page

**Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting**

**11/20/2015**

A ▸lump-sum payment is a non-periodic payment. The ▸IRS defines a lump-sum payment as the distribution or payment in one tax year of a plan participant's entire balance from all of the employer's qualified plans of one kind. PBGC refers to all non-periodic payments as "lump-sum" payments, which may or may not be a total distribution as defined by the IRS. Lump sums PBGC pays include:

- Lump-sum benefit payments of the present value (or lump-sum value) as of ▸DOPT of a benefit in a single sum under Policy 5.4-9 Lump Sum Benefit Payments.
- Refunds of elective ▸employee contributions under Policy 5.11-1 Calculation and Payment of Priority Category 2 Benefits in PBGC Trusteed Plans.
- ▸Large reimbursements under Policy 6.3-1 Underpayment Reimbursement and Interest Payments.
- Payments to estates under Policy 8.6-1 Payments to Beneficiaries.
- Non-rollover eligible payments that cannot be paid as special annuity payments.

All or part of a lump-sum payment may be taxable income. The taxable portion of a lump-sum payment is subject to federal income tax withholding and reporting. The non-taxable portion is not subject to tax withholding, but must be reported to the IRS. In addition, PBGC generally must withhold taxes from the taxable portion of a lump-sum payment; the taxpayer can only elect "No Withholding" if the payment is **not** rollover eligible. Therefore, unlike with annuities, PBGC must determine the taxable and non-taxable portions of a lump-sum payment.

Payees generally apply for a lump-sum payment and elect a payment or tax withholding method using the following forms:

- *Form 720 Application for Lump-Sum Payment*. Used by:
  - Participants
  - Surviving spouses due a lump-sum payment in lieu of a ▸QPSA
  - Surviving spouses who are the beneficiary for a lump-sum benefit due to a deceased participant
  - Alternate payees under a ▸QDRO who are spouses or former spouses
- *Form 703 Application for Elective Lump-Sum Payment*. Used by a participant.
- *Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate*.
- Plan Application. Used by a participant, beneficiary, or alternate payee and sent to the plan administrator before DOPT when specific requirements are met.

An alternate payee under a QDRO who is a child or other dependent uses *Form 720CD Application for Lump-Sum Payment*; however, a payment or tax withholding election is not provided as the payee is not responsible for the taxes on the payment. For guidance on making a lump-sum payment, see TP 20 Benefit Payments.

The amount of tax withheld from a lump-sum payment depends on a number of variables, including:

- Type or purpose of payment
- Taxable portion of the lump sum
- Method of payment
- Withholding method elected
- Whether the lump sum is rollover eligible

**Payment Rollover Eligible**

Payees may defer taxes on most lump-sum payments if the payee elects to roll the payment directly into another U.S. qualified retirement plan or traditional ▸IRA, or the payee rolls the payment over within 60 days of the payment date. All or part of the payment is payable in a rollover and the payee defers taxes on the taxable amount that rolls over. Rollover-eligible payments include:

- Lump-sum benefit payments or a large reimbursement to a participant, surviving spouse, or ▸alternate payee under a QDRO who is a spouse or former spouse.
- A large reimbursement to a participant, surviving spouse, or alternate payee under a QDRO who is a spouse or former spouse, as long as the payment meets the requirements in Policy 6.3-1 Underpayment Reimbursement and Interest Payments.
- Plan loans treated as "actual" distributions in which the benefit payment is offset by the value of the loan under Policy 6.6-4 Plan Loans.

In addition to rolling over the taxable portion of a lump-sum payment, the payee may also elect to roll over the non-taxable portion of the payment (for example, the non-taxable amount of a withdrawal of employee contributions), if accounted for separately. Exceptions in the rollover rules apply to rollovers to a Roth IRA and rollovers by a non-spousal beneficiary. Exceptions in the rollover rules apply to rollovers to a Roth IRA and rollovers by a non-spousal beneficiary. The payee may also elect to receive the non-taxable portion of the payment as a direct payment and roll over the remaining taxable portion (note that under IRS rules, the non-taxable amount of a payment is always first attributed to any direct payment to the payee).

**Rollovers to Roth IRAs**

The payee may elect to roll a lump-sum payment into a Roth IRA; however, the payee cannot defer taxes on the payment. The participant must meet specific requirements to roll a payment into a Roth IRA; the payee and the receiving financial institution are responsible for determining if those requirements are met. PBGC generally accepts an election for rollover to a Roth IRA, but special payment instructions apply (see Processing a Rollover Payment to a Roth IRA Interim Procedure).

**Rollovers by Non-Spousal Beneficiaries**

Lump-sum payments to non-spousal beneficiaries technically are not rollover eligible. However, certain non-spousal beneficiaries may elect to have a lump-sum payment (that would otherwise be rollover eligible) paid directly into an "inherited" IRA as rollover eligible, meaning the payee defers the tax. The 60-day rollover option available to recipients of rollover-eligible distributions does not apply to non-spousal beneficiaries. Recipients must either directly roll over the payment or take a check.

Rollovers by non-spousal beneficiaries are permitted if the payment meets the following criteria:

- The payment is otherwise rollover eligible.
- The beneficiary is a designated person who is not the participant's spouse. An estate or other entity, such as a church or charitable organization who is a beneficiary, cannot roll over the payment into an inherited IRA. Determine the beneficiary under Policy 8.6-1 Payments to Beneficiaries and TP 5 Death Processing.
- The distribution must be a direct trustee-to-trustee transfer to an IRA specifically set up to receive the distribution. The payee cannot elect to roll the payment into an existing IRA or the beneficiary's own IRA.
- The IRA must be clearly titled to show that it is an inherited IRA, for example:
  - Tom Smith as beneficiary of John Smith
  - John Smith, deceased 11/17/2006, for the benefit (FBO) of Tom Smith

**Payment Not Rollover Eligible**

The payee may not defer taxes if the payment is not rollover eligible. Payments that are not rollover eligible include:

- Payments that are not lump-sum payments, such as annuity payments or annuity underpayments that do not meet the definition of a large reimbursement (previously known as a large back payment reimbursement (LBR)).

- Lump-sum payments to estates or other entities, such as churches, charitable or other organizations.
- Lump-sum payments to non-spousal beneficiaries are technically not rollover eligible; however, payees may elect to roll the payment over as described in Rollovers by Non-spousal Beneficiaries.
- Lump-sum payments including interest less than $200.
- Plan loans treated as partial distributions of the benefit where the benefit is not offset by the value of the loan (contact ASK OPSS for additional guidance).

**Note** An election to roll over all or part of an ▸RMD is always rollover eligible, even if the payment is otherwise not rollover eligible.

For more information on lump-sum payments:

- Appendix R 1.3.1 Lump-Sum Payment Tax Withholding Options
- Appendix R 1.5 1099-R Reporting Requirements

**In this Section**

Appendix R 1.3.1 Lump-Sum Payment Tax Withholding Options

Top of Page

**Appendix R 1.3.1 Lump-Sum Payment Tax Withholding Options**

**11/20/2015**

**Note** Payees generally complete *Form 720 Application for Lump-Sum Payment* to receive a lump-sum payment. The form includes the tax withholding election. (See TP 20 Benefit Payments.)

**Lump-Sum Withholding Elections:** The withholding methods for lump-sum payments depend on whether the payment is rollover eligible (see Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting for information on rollover eligibility). Payees with a valid ▶ITIN can generally elect the withholding options in the Lump-Sum Payment and Tax Withholding Options Table for lump-sum payments. PBGC cannot refuse to pay a lump sum if the taxpayer did not make a withholding election.

**Lump-Sum Payment and Tax Withholding Options Table**

| # | Type of Lump Sum | Direct Payment | Direct Rollover |
|---|---|---|---|
| 1 | **Rollover Eligible Payment**<br>Payable to:<br>• Plan participant<br>• Surviving spouse<br>• Alternate payee under a ▶QDRO who is a spouse or former spouse | • **Mandatory withholding:** Withhold 20% of the taxable portion of the payment.<br>• **Withholding in excess of 20%:** The payee may elect more than 20% withholding by electing one of:<br>  • **Higher withholding percentage:** If this is the case, the user cannot input a fixed percentage in Spectrum. | **6** | **Payment < $200 per year including interest**<br>Payment may not be split. It is payable only as a direct payment or as a rollover. | Rows 1-5 apply accordingly, except:<br>**Withholding does not apply:** Do not withhold tax.<br>**Note:** The payee may still defer tax by subsequently rolling the lump sum within 60 days of receipt into a qualified retirement plan or an IRA that will accept the payment. | Rows 1-5 apply accordingly. |

**Notes:**

- Special tax withholding rules apply to **payees who live outside the U.S.** (refer to Appendix R 1.6 Non-Resident Alien Tax Withholding Requirements).
- **10% early distribution tax** may apply to lump-sum payments (refer to Appendix R 1.4 Other Tax Withholding Considerations), but it is not automatically withheld. The customer may elect a fixed percent of 30% if they wish to withhold the mandatory 20% plus the additional 10% early distribution tax.
- **Special tax treatments** may apply (refer to Appendix R 1.4 Other Tax Withholding Considerations).

Top of Page

## Appendix R 1.4 Other Tax Withholding Considerations

**08/30/2011**

### 10% Tax on Early Distributions

This tax applies to plan participants under age 59½ at the time a lump-sum payment is made unless:

- Participant attains age 55 on or before **actual** ▸DOTE.
- Payment is a disability benefit.
- Payment is due to the death of the plan participant.
- Payment is to an ▸alternate payee under a ▸QDRO.
- IRS levy applies to the payment.
- The payment is rollover eligible and payment is in a rollover into another qualified retirement plan, traditional ▸IRA, or Roth IRA.
- ▸IRS provides additional exceptions; however, not all apply to PBGC payments.

PBGC does not automatically withhold this tax.

Generally the 10% tax on early distributions does not apply to PBGC **annuity** payments.

### Alternate Payees under a Qualified Domestic Relations Order (QDRO)

Alternate payees who are spouses or former spouses under a QDRO generally are subject to the same tax treatment (except for the 10% early distribution tax) and have the same withholding options as the participant for either an annuity or a lump-sum payment.

### Special Tax Treatments

Special tax treatments such as capital gains treatment or the 10-year tax option may be available for non-periodic or lump-sum payments when:

- The participant was born before 01/02/1936.
- The lump sum is a total distribution. (As defined by the IRS, a total distribution is the distribution of a participant's "account balance" within one tax year. When distributed, no further payments (such as monthly or survivor benefits) are due the participant or surviving spouse or beneficiaries).
- The payment is directly to the taxpayer; the payee did not roll over any portion (payment must be entire account balance per the IRS).
- These special tax treatments have not been previously applied to a payment from the plan.

**Notes:**

- Alternate payees under a QDRO, surviving spouses, beneficiaries, and estates may use these special tax treatments if they meet the requirements for special tax treatments.
- Any subsequent payment, such as a residual lump sum payment outside the tax year of payment of the estimated benefit, is not eligible for the special tax treatments.
- PBGC does not adjust withholding calculations if an optional tax treatment applies. The taxpayer applies the capital gains or the 10-year tax option tax treatment when completing their tax return.

### Benefit Back Payments

Benefit back payments are annuity back payments or underpayments PBGC owes the taxpayer. Benefit back payments are payable as special payments or as ▸large reimbursements (previously called large back payment reimbursements (LBR)):

- Special payments are similar to annuity payments. However, the taxpayer can elect a tax withholding method for the special payment that is different from the method for the annuity. Base the tax withholding on the number of months for which the special payment occurs, instead of a single monthly payment. If the number of months is not given, treat the payment as a single monthly payment. Rollover options do not apply.
- Large reimbursements are back payments that are more than three times the amount of the participant's current or future monthly benefit **and** are more than $5,000 including interest. Pay large reimbursements as lump sums subject to the rollover rules that apply to other lump sums.
- A back payment may be subject to some of the special tax treatments, such as the 10-year tax option or capital gains treatments, which apply to other types of lump-sum payments, **if** the back payment is a total distribution (for example, a beneficiary receives a payment owed a participant and whether the payment is large or not, there is no additional benefit owed.)

**Tax on Excess Accumulations**

To make sure that participants receive their retirement benefits during their lifetime, rather than their beneficiaries', payments from all of a participant's pension plans begin no later than the participant's required beginning date. These payments cannot be less than the ▸RMD, whether PBGC pays as an annuity or in a single-sum. If the payment is less than the RMD, the participant may need to a pay a tax on excess accumulations that equals 50% of the unpaid part of the RMD. PBGC sets the ASD no later than RBD, so this tax does not apply to annuities.

Participants are responsible for determining the amount of the RMD because PBGC may not have all of the information needed to do so correctly. Refer the participant to *IRS Publication 575 Pension and Annuity Income* or the IRS Web site for additional information if requested. The payee generally cannot directly roll the RMD into another qualified retirement plan or traditional IRA. However, when processing a participant's application for a lump-sum distribution or other single-sum payment, accept the participant's election to roll all or part of the distribution, which may include an RMD, into another qualified retirement plan or traditional IRA. The participant may have the option of taking the RMD from the receiving plan or IRA.

**Appendix R 1.5 1099-R Reporting Requirements**

**07/01/2016**

**IRS Reporting Requirements**

PBGC reports pension payments to the Internal Revenue Service (IRS) on Form 1099-R. The taxpayer also receives a copy of this form for use in filing his or her income tax return.

**Annuities**

- In the year PBGC assumes payment, the payee will receive 1099-Rs from prior paying agent(s) and PBGC's paying agent. A PBGC 1099-R includes only payments made by PBGC's paying agent. The prior plan administrator and interim paying agent are responsible for issuing 1099-Rs for the payments they made.
- For tax purposes, PBGC's payments are considered "constructively paid" as of the issue date, usually the first of the month.
- PBGC may not always know the taxable amount of an annuity payment; therefore, as allowed under IRS rules, PBGC checks the "taxable amount not determined" box in box 2b of Form 1099-R. Generally, the taxable amount would be the same as the gross amount. However, the taxable amount may be less than the gross amount if the annuity contains a non-taxable portion, such as mandatory employee contributions.

**Lump Sums**

- Unlike annuity payments, PBGC determines the taxable and non-taxable income shown on the 1099-R.
- Two 1099-Rs are provided in the event of a split payment, when part of the lump sum is paid as a direct rollover and part is paid directly to the taxpayer.

**1099-R Box by Box**

The How PBGC Completes the 1099-R Form Table describes how PBGC completes the 1099-R form for annuity and lump-sum payments.

**How PBGC Completes the 1099-R Form Table**

| Box | Name | Annuities | Lump Sums |
|---|---|---|---|
| 1 | Gross Distribution | Total amount paid before tax or any other deductions are withheld. | Total amount paid before tax or any other deductions are withheld. |
| 2a | Taxable Amount | Blank - Not applicable to PBGC payments because PBGC does not determine the taxable amount of an annuity. | Direct Rollover = $0<br><br>Direct Rollover to Roth IRA = Taxable amount of the payment (which may or may not equal the amount in Box 1).<br><br>Direct Payment = Taxable amount of the payment (which may or may not equal the amount in Box 1). |
| 2b | Taxable Amount Not Determined | Checked<br><br>Checking box 2b allows the taxpayer to decide if there is some portion of his or her benefit that is not taxable (that PBGC may not be aware of or able to confirm) and to adjust his or her tax return accordingly. If PBGC did not check this box and entered an amount in Box 2a, "taxable amount," they may not have this opportunity, or | Not checked |

| | | | |
|---|---|---|---|
| | | the IRS may be less likely to accept an allegation from the taxpayer that a portion is non-taxable. | |
| 2b | Total Distribution | Not checked | Checked |
| 3 | Capital Gains | Blank - Not applicable to PBGC payments. | Blank - Not applicable to PBGC payments. |
| 4 | Federal Income Tax Withheld | The amount of Federal Income Tax withheld. | The amount of Federal Income Tax withheld. |
| 5 | Employee Contributions | Blank - Not applicable to PBGC payments because annuity payments are reported as "taxable amount not determined." | The non-taxable portion of the employee contributions, if any. |
| 6 | Net Unrealized Appreciation in Employer's Securities | Blank - Not applicable to PBGC payments. | Blank - Not applicable to PBGC payments. |
| 7 | Distribution Code | Distribution Codes 2, 3, 4, or 7. See Table How PBGC and the Paying Agent Determine the 1099-R Distribution Codes for an explanation. | PBGC uses distribution codes A, G, L (rare) 1, 2, 3, 4, 7, or certain combinations of the codes. Codes D, E, F, J, P, R, S, T, 5, 6, and 8 are not known to apply to PBGC payments at this time. See Table How PBGC and the Paying Agent Determine the 1099-R Distribution Codes for an explanation. |
| 8 | Other | Blank - Not applicable to PBGC payments. | Blank - Not applicable to PBGC payments.<br>1099-R instructions say to report:<br>Present value of the benefit if a total distribution is being made.<br>Percentage of the distribution if the payment is made to multiple beneficiaries (see Box 9a). |
| 9a | Your Percentage of Distribution | Blank - Not applicable to PBGC payments. | Blank - Not applicable to PBGC payments.<br>1099-R instructions say to report the percentage of the payment received by the person whose name is on the 1099-R, if the total distribution is made to more than one person. |
| 9b | Total ▶EEC | Blank - Not applicable to PBGC payments because annuity payments are reported as "taxable income not determined" | Blank - Not applicable to PBGC payments.<br>1099-R instructions say to report the total EEC or balance of remaining EEC. |
| 10 – 15 | State and Local Information | Blank - Not applicable to PBGC payments. | Blank - Not applicable to PBGC payments. |

**Distribution Codes on Form 1099-R**

The distribution codes in box 7 of Form 1099-R show the IRS and the taxpayer how the annuity and lump-sum payments should be treated for tax purposes and what, if any, special tax treatments may apply. PBGC and the paying agent

determine the distribution codes per the How PBGC and the Paying Agent Determine the 1099-R Distribution Codes Table.

**How PBGC and the Paying Agent Determine the 1099-R Distribution Codes Table**

| Distribution code in Box 7 of 1099-R | Annuities | Lump Sums |
|---|---|---|
| **Code 1 - Early distribution, no known exception** | Blank - Not applicable to PBGC payments. | The paying agent uses code "1" if the payee was not age 59 ½ or older at the time of the distribution. If the ▸DOB is blank, they use code "7."<br><br>The lump sum is subject to the 10% early distribution tax. (For an explanation of this tax, refer to Appendix R 1.4 Other Tax Withholding Considerations). |
| **Code 2 – Early distribution, exception applies**<br><br>Code "2" indicates that the 10% early distribution tax does not apply even though the taxpayer is or was under age 59 ½ at the time of the distribution(s).<br><br>For additional information on the 10% early distribution tax, refer to Appendix R 1.4 Other Tax Withholding Considerations.<br><br>To change a category of distribution code to "2," see Appendix R 1.11 Requests for Replacement or Revised Form 1099-R. | Code "2" indicates that the 10% early distribution tax does not apply because:<br>• The reported annuity payments are part of a series of substantially equal periodic payments, and/or<br>• The taxpayer is an Alternate Payee under a ▸QDRO.<br><br>Each year before the 1099-Rs are created, the paying agent sets the code to "2" if:<br>• The payee is not age 59 ½ as of December 31 and<br>• Code "3" or "4" has not already been entered.<br><br>(If the age of the payee cannot be determined, the paying agent's system will enter code "7.") | The paying agent does not determine if code "2" applies.<br><br>PBGC must notify the paying agent when code "2" applies, as follows.<br><br>The 1099-R instructions allow code "2" for lump-sum payments where the distribution was made:<br>• Because of an IRS levy.<br>• After separation from service with the DOPT employer in or after the year the participant reached age 55, *if known*. ## Appendix R 1.6 Non-Resident Alien Tax Withholding Requirements

**07/01/2016**

The tax withholding rules that apply to payees who live outside the U.S. (non-resident payees) may be different from those that apply to payees who live within the U.S. These rules are referred to as the non-resident alien (NRA) tax withholding rules and apply to all payees who live outside the U.S. regardless of whether the payee is a U.S. citizen or non-resident alien. How the NRA rules apply depends on whether the pension benefit is being paid as an annuity or in a lump sum.

### Annuities

If a non-resident payee elects **No Withholding**, the payer of an annuity benefit (in this case, PBGC's paying agent) must withhold 30% of the gross payment for Federal income tax. Elections to have tax withheld, as described in Appendix R 1.2 Annuity or Periodic Payment Tax Withholding and Reporting, by a non-resident payee are generally acceptable. A non-resident payee may also elect to have tax withheld under a tax treaty (see Tax Treaty Elections).

1. If a **No Withholding** election is received from a non-resident payee, enter the election into Spectrum:
   - Ensure that the non-resident payee's residence address outside the U.S. is also entered into Spectrum.
   - Do not attempt to enter NRA withholding; PBGC's paying agent will make this entry as described in step 2.

   > **Note** A non-resident payee may elect to have tax withheld under the Withholding Allowance Method, described in Appendix R 1.2 Annuity or Periodic Payment Tax Withholding and Reporting, with the result that no or zero tax is withheld. Such an election is acceptable.

2. PBGC's paying agent automatically applies 30% NRA withholding, if a payee who:
   - Resides outside the U.S. elects **No Withholding**.
   - Has elected **No Withholding** and moves outside the U.S.

   The **No Withholding** entry and address outside the U.S. must be in Spectrum in order for PBGC's paying agent to determine that the NRA rules apply.

3. PBGC's paying agent then:
   a. Solicits an *IRS Form W-8Ben Certificate of Foreign Status of Beneficial Owner for U.S. Tax Withholding* from the non-resident payee.

      *IRS Form W-8Ben Certificate of Foreign Status of Beneficial Owner for U.S. Tax Withholding* is used to claim tax withholding under a tax treaty (see Tax Treaty Elections).

   b. Changes the withholding from the 30% NRA rate to the default Withholding Allowance Method of "married with 3 allowances" (the payee is treated as not having made a tax withholding election).

4. If a non-resident payee has not made a tax withholding election (for example, when applying benefits), enter the default Withholding Allowance Method of "married with 3 allowances" into Spectrum.

   The payee is treated as having made an election to have tax withheld. PBGC's paying agent will solicit an *IRS Form W-8Ben Certificate of Foreign Status of Beneficial Owner for U.S. Tax Withholding* from the non-resident payee, as step 3 describes.

### Lump-Sum Payments

The NRA rules that apply to lump-sum payments depend on whether or not the payment is an eligible rollover distribution:

- **Eligible Rollover Distribution:** Tax is not withheld from eligible rollover distributions paid directly into another U.S. qualified retirement plan or a traditional or Roth IRA (located in the U.S.), even if the payee does not live in the U.S. Payees who live outside the U.S. and are due an eligible rollover distribution have the same tax withholding options as payees who live inside the U.S.:
  - If a non-resident payee is due an eligible rollover distribution, follow the procedures in Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting.

> **Note** Under the IRC, a **No Withholding** option does not apply to eligible rollover distributions. Therefore, the payee must elect to either have Federal income tax withheld or a direct rollover to another qualified retirement plan or a traditional or Roth IRA to not have tax withheld.

  - A non-resident payee may also elect to have tax withheld under a tax treaty (see Tax Treaty Elections).

- **Not Eligible Rollover Distribution:** A **No Withholding** election from a non-resident payee who is due a payment that is not an eligible rollover distribution cannot be honored. Elections to have tax withheld from a payment that is not an eligible rollover distribution, as described in Appendix R 1.3 Lump-Sum or Non-Periodic Payment Tax Withholding and Reporting, are generally acceptable as long as the withholding is at least 10% of the gross payment:
  - If a non-resident payee elects **No Withholding**, withhold 30% of the gross payment.
  - If the non-resident payee elects other than a fixed percent withholding of 10%, confirm that at least 10% of the gross payment is being withheld. If not, withhold 10% of the gross payment (default withholding).
  - If the non-resident payee does not make a tax withholding election, withhold 10% of the gross payment (default withholding).

> **Note** If a payee makes a **No Withholding** election, consider contacting the payee to ensure that the payee understands the NRA withholding rules and to give the payee the option to make an election to have tax withheld.

**Tax Treaty Elections**

The U.S. has tax treaties with a number of other countries under which tax is withheld in accordance with such a treaty. However, not all countries have such treaties. A tax withholding election under a tax treaty can only be honored if the resident country has a tax treaty with the U.S.

Non-resident payees may elect withholding under a tax treaty for either annuity or lump-sum payments by submitting *IRS Form W-8Ben Certificate of Foreign Status of Beneficial Owner for U.S. Tax Withholding* to PBGC or PBGC's paying agent. Only PBGC's paying agent can implement the form:

- If *IRS Form W-8Ben Certificate of Foreign Status of Beneficial Owner for U.S. Tax Withholding* is received by PBGC, ensure that the form has been imaged to the payee's file and notify PBGC's paying agent that the form has been received.
- If the *IRS Form W-8Ben Certificate of Foreign Status of Beneficial Owner for U.S. Tax Withholding* was received by PBGC's paying agent, PBGC's paying agent submits the form for imaging to the participant's ▸IPS file.
- PBGC's paying agent will evaluate the form and apply the tax rate under the treaty.

> **Note** The payee must have a valid taxpayer identification number (TIN) to qualify for tax treaty benefits. A PBGC-generated ID number (that is, ▸Dummy SSN) cannot be used to qualify for tax treaty benefits.

Top of Page

## Appendix R 1.7 Mandatory Withholding Requirements - Invalid TIN

**10/31/2008**

If a payee does not have a valid TIN, mandatory withholding applies regardless of the payee's tax withholding election. In addition, tax treaty benefits cannot be applied.

> **Note** If a PBGC-generated ID number (that is, a "Dummy" SSN) is being used, these mandatory withholding rules must be applied. It is illegal to use a TIN that belongs to another person, including a deceased spouse. Use of an invalid TIN may cause the participant to be overtaxed. The IRS will not issue a refund to a person with an invalid TIN. PBGC cannot deny a payment to a customer just because he or she does not have a valid TIN. To avoid mandatory withholding rules and resolve identity discrepancies, every attempt should be made to obtain a valid TIN. Refer to Appendix R 1.1 Introduction to Federal Tax Withholding, for instructions on how a customer applies for an ITIN.

**Annuity or Periodic Payments**

- **Residence within the U.S.** - PBGC applies an automatic or default withholding using a marital status of "single" with zero (0) allowances, regardless of actual marital status or number of allowances.
- **Residence outside the U.S.** - 30% Non-Resident Alien withholding must be applied. Notify the Paying Agent.

**Lump-Sum or Non-Periodic Payments**

- **Direct Rollover** (regardless of U.S. residency) to another U.S. qualified pension plan or traditional IRA – Do not withhold tax.
- **Direct Payment: Residence within the U.S.**
  - Rollover eligible – withhold 20%
  - Not rollover eligible – withhold 10%
- **Direct Payment: Residence outside the U.S.** – apply 30% Non-Resident Alien withholding. Notify the Paying Agent. (Refer to Appendix R 1.6 Non-Resident Alien Tax Withholding Requirements if the payee lives outside the U.S.)

## Appendix R 1.8 Residents of the Commonwealth of Puerto Rico and other U.S. Possessions

**07/01/2016**

This section describes the requirements for withholding from benefit payments when the payee resides in a U.S. possession.

*IRS Publication 570 Tax Guide for Individual with Income from U.S. Possessions* discusses how payees should treat income received from U.S. possessions, including the Commonwealth of Puerto Rico, for federal income tax purposes. In order to qualify for certain tax benefits, the payee must be a bona fide resident of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, the U.S. Virgin Islands, or Puerto Rico for the entire tax year. Generally a payee is considered a bona fide resident of one of the possessions if during the tax year they:

- Meet the presence test
- Do not have a tax home outside the relevant possession, and
- Do not have a closer connection to the United States or to a foreign country than to the relevant possession.

For inquiries about these tax benefits from residents of U.S. possessions other than Puerto Rico:

- Refer the case to ▸PPD by sending an email to the ASK PPD mailbox.

Bona fide residents of Puerto Rico will generally pay tax to Puerto Rico on their worldwide income. The U.S. income rule states that income is not possession income if, under the rules of the Internal Revenue Code (IRC) sections 861-865, it is treated as income:

- From sources in the United States, or
- Effectively connected with the conduct of a trade or business in the United States.

### Determining Possession Source Income

Income, including pension payments, which the payee receives from sources within Puerto Rico, must be separately identified from U.S. source income. Pension income is ”sourced” according to where services were performed that earned the pension. If the participant earned his or her pension by working:

- Entirely within the U.S., the pension would be considered U.S. source income.
- Entirely within Puerto Rico, the pension would be considered Puerto Rico source income.
- Part of the time in Puerto Rico and part of the time in the U.S. or elsewhere, PBGC considers the pension as U.S. source income. The pension income is also considered U.S. source income if the participant temporarily worked outside of Puerto Rico and continued to earn pension service. For example, airline flight crew members generally will not meet these requirements if they flew (that is, performed services) outside of Puerto Rico even if they were residents of Puerto Rico or based in Puerto Rico.

In addition, any interest PBGC pays on the pension payments is considered as having the same source as the income (for example, if the pension is Puerto Rico source income, the interest is considered Puerto Rico source income).

### Are special actions required if a payee is a resident of Puerto Rico?

Generally no special action is needed if a payee is a resident of Puerto Rico; continue to follow federal tax withholding procedures for PBGC pension payments. However, if the payee asserts that federal tax withholding should not apply to their benefit payment because they are a bona fide resident of Puerto Rico and their pension is Puerto Rico source income, special action may be required depending on whether the pension payment is an annuity or lump sum.

### Annuity or Periodic Payments

No special action is needed if the pension payment is an annuity. A federal tax withholding election should be obtained. Payees living within the U.S., including Puerto Rico, have the option of electing no federal tax withholding. Therefore, residents of Puerto Rico who believe they are not subject to U.S. federal tax withholding may elect to have no tax

withheld from their benefit payments.

**Lump-sum or Non-periodic Payments**

Unlike annuity payments, PBGC must determine the taxable portion of a lump-sum payment and report it to IRS. Special action is required if a resident of Puerto Rico asserts that their PBGC benefit payment is not subject to federal income tax and the payment is a lump-sum or non-periodic payment.

PBGC will not withhold U.S. federal income tax or report the payment as taxable if a payee requests that federal income tax not be withheld and declares in writing that he or she is a bona fide resident of Puerto Rico and the pension is Puerto Rico source income. The payee should be sent:

- *Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate* and a
- *Resident of Puerto Rico Request for Exclusion from U.S. Federal Income Tax Withholding* declaration.

The following guidance should be given to the payee when completing the application and declaration. If the declaration is received:

- PBGC will not treat the pension as U.S. source income and will not apply federal income tax withholding to the payment.
- The payment will be treated as not rollover eligible. PBGC will not rollover the payment to another qualified retirement plan or IRA, including a Puerto Rico plan. PBGC will only make the payment directly to the payee.
- The payee should elect "No Withholding" when he or she completes *Form 721 Application for Lump-Sum Payment – Non-Spouse Beneficiary or Estate*.
- PBGC will not withhold Puerto Rico income tax.

**Special coding is needed when entering the lump-sum payment in Spectrum and federal income tax will not be withheld.**

1. Obtain from the customer a signed *Resident of Puerto Rico Request for Exclusion from U.S. Federal Income Tax Withholding* declaration certifying they are excluded from federal tax withholding.
2. Contact ▶BPD regarding any payment or Spectrum-related questions when making payments to residents of Puerto Rico who are excluded from U.S. federal tax withholding.
3. Instruct the Paying Agent via e-mail to report a "zero" in the taxable amount box on the 1099-R form.

**Responding to Payee Requests that PBGC Withhold Tax for Puerto Rico**

As stated in Policy 6.6-1 Withholding from Benefit Payments, PBGC does not withhold from benefit payments any income that is not required by federal law to be withheld such as state or local taxes. Puerto Rico tax is treated similarly to state or local taxes. Therefore, PBGC does not withhold taxes for Puerto Rico nor generally report the pension payment to the Puerto Rico Department of the Treasury, (see *Non-Allowable Deductions, 1. State and Local Taxes* for additional information on responding to this request).

**IRS Reporting Requirements for Residents of Puerto Rico**

PBGC and ▶SSC report lump-sum payments to the IRS on Form 1099-R. The taxpayer receives a copy for use in filing their income tax return.

**Annuity or Periodic Payments**

PBGC will send a 1099-R to IRS showing the total amount paid. However, PBGC does not determine the taxable income of annuity benefit payments. These payments are reported to the IRS as "taxable income not determined." The IRS and the payee subsequently determine if all or part of the income is taxable.

**Lump-sum or Non-Periodic Payments**

The Paying Agent will send a 1099-R to the IRS reporting the amount of the payment and calculating the taxable amount as usual for lump sums unless instructed otherwise. If the payee returns a *Resident of Puerto Rico Request for Exclusion from U.S. Federal Income Tax Withholding* declaration, then instruct the Paying Agent via e-mail to report a "zero" in the taxable amount box on the1099-R form.

**Note** PBGC's decision to not withhold federal income tax is not a determination that the payee does not have a federal income tax liability. For information about their potential federal income tax liability, the payee should be referred to the Internal Revenue Service (IRS).

**Puerto Rico Tax Reporting Form 480.7C Informative Return – Retirement Plans and Annuities**

If a payee requests a Form 480.7C:

- For annuities:

  Request that ▸SSC send out the Form 480.7C. BPD maintains a Portal page where users can make the request. BPD sends an e-mail once a year (around early November) instructing users on how to use it.

- For lump sums:

  Ensure there is a *Resident of Puerto Rico Request for Exclusion from U.S. Federal Income Tax Withholding* declaration in the participant's file.

  Request that SSC send out the Form 480.7C. BPD maintains a Portal page where the request can be made. BPD sends an e-mail once a year (around early November) instructing users on how to use it.

**What about income tax the payee may owe to Puerto Rico?**

A payee may have a tax liability owed to Puerto Rico; however, PBGC does not make this determination. If the payee has questions about tax owed to Puerto Rico, refer the payee to the Department of the Treasury of the Commonwealth of Puerto Rico at http://www.hacienda.gobierno.pr,

or

**Departamento de Hacienda**
P.O. Box 9024140
San Juan, P.R. 00902-4140
Tel: (787) 721-2020

**Footnote 1** - Residents of Puerto Rico are considered as living within the United States and for federal tax purposes are treated as U.S citizens or resident aliens. The non-resident alien (NRA) tax rules generally do not apply to payees living in Puerto Rico.

Top of Page

## Appendix R 1.9 Processing a Change to Federal Tax Withholding Election

**03/29/2012**

Participants may request changes to their existing federal tax withholding elections either by phone or letter. The same rules that apply to other routine changes, such as address changes, also apply to these requests.

### Telephone Notification

Document the phone call, including the specific election changes the customer requests, in ▸CRM. Update ▸Spectrum with the requested changes as applicable:

- Election not to withhold.
- Marital status and number of withholding allowances.
- Specific amount to withhold.

### Written Notification

For written notification requesting a change to an existing tax withholding election, follow established guidelines for processing correspondence. For instances where a mandatory withholding would apply (such as for non-US residents or customers with invalid Taxpayer Identification Numbers), make reasonable efforts to contact the customer to determine their withholding preference.

### MyPBA

Participants can designate or edit a Federal Tax Withholding Election on ▸MyPBA which automatically updates their Spectrum records. See TP 48 MyPBA Correspondence.

**Appendix R 1.10 Returned Form 1099-R**

**03/30/2011**

If mail is returned, the following steps occur (refer to TP 4 Participant Addresses and EDD Elections for additional information).

- The post office will forward a Form 1099-R if a current forwarding order is on file at the post office.
- The post office will return a 1099-R to ▸SSC if the forwarding order has expired.
  - If the post office provides a forwarding address, SSC will change the address in ▸Spectrum and re-mail the 1099-R.
  - If the post office does not provide a forwarding address, SSC will review ▸CRM for a new address. If there is a new address, the 1099-R is sent to that address.
- If the address has not changed, the 1099-R will be sent to the Customer Contact Center (CCC). The CCC will use locator services to locate the payee and, if an address is found, update the address in CRM, and mail the 1099-R to the new address. Otherwise, the CCC will hold the 1099-R pending a request from the payee for the 1099.

## Appendix R 1.11 Requests for Replacement or Revised Form 1099-R

**07/01/2016**

### Requests for a Replacement or Duplicate Form 1099-R

If a payee reports non-receipt of a Form 1099-R or requests a duplicate 1099-R:

1. Advise the payee that he or she can review and print a duplicate 1099-R using ▸MyPBA (as of the date specified in ▸BPD's annual e-mail sent in early November).

   If a participant has not already registered, encourage him or her to do so by going to MyPBA and clicking "Create Your MyPBA Login."

2. For participants without Internet access, or for a duplicate 1099-R for prior years:
   - **Customer Contact Center:** Confirm the mailing address, enter the correct address in ▸CRM if necessary (see TP 4 Participant Addresses and EDD Elections), and mail the 1099-R in the pending file or a replacement 1099-R.
   - **CSD Staff**: Confirm the address, make any necessary change in CRM (see TP 4 Participant Addresses and EDD Elections), and mail the 1099-R.

   > **Note** Duplicate 1099-Rs up to 5 years prior are available on the Paying Agent's PLUS Web System, and up to 7 years prior are available upon request to the Paying Agent using the BPD Payment Support Community's portal page entitled 1099-R Tax Corrections and Updates.

### Requests for a Revised Form 1099-R

1. If a payee requests a revised 1099-R, refer the request to the appropriate ▸EBLS, FBA, or ▸PVA, who will then determine if the request can be honored. Customers may request corrections to the category of distribution code for disability, death, or a distribution made after separation from service with the ▸DOPT employer in or after the year the participant reached age 55. For guidance in determining if the 1099-R contains an error and must be corrected, see Appendix R 1.5 1099-R Reporting Requirements.

   > **Note** PBGC is required under ▸IRS regulations to correct an erroneous entry on a 1099-R. However, a payee may also use *IRS Form 5329, Additional Taxes on Qualified Plans (Including IRAs) and Other Tax-Favored Accounts* to inform the IRS that the 10% tax on early distributions does not apply when an erroneous category of distribution code has been entered on a 1099-R. Inform the payee of the option of using Form 5329 rather than waiting for PBGC to issue a corrected 1099-R.

2. If appropriate, forward the request to the Paying Agent for processing via the BPD Payment Support Community's portal page entitled 1099-R Tax Corrections and Updates.

   > **Note** The Paying Agent processes corrections recommended by the 15th of November the third year after issuance of the form. For example, the latest date a user can request a correction to a 2012 1099-R (issued in January 2013) is 11/15/2016.

**Appendix R 1.12 Additional Resources**

**10/31/2008**

The Forms and Publications section of the IRS website, http://www.irs.gov/formspubs/index.html, can also be consulted for additional information on this topic. The following documents are particularly useful:

- *Job Aid: Summary of Federal Tax Withholding Requirements and PBGC Benefit Payments*
- IRS General Instructions for Forms 1099-R and 5498
- IRS Publication 15 (Circular E), Employer's Tax Guide (Including Wage Withholding and Advance Earned Income Credit Payment Tables)
- IRS Publication 54 Tax Guide for U.S. Citizens and Resident Aliens Abroad
- IRS Publication 515 Withholding of Tax on Nonresident Aliens and Foreign Entities
- IRS Publication 519 U.S. Tax Guide for Aliens
- IRS Publication 570 Tax Guide for Individual with Income from U.S. Possessions
- IRS Publication 575 Pension and Annuity Income
- www.ssa.gov
- www.irs.gov

## Appendix R 2 IRS Levies

**07/01/2016**

The Pension Benefit Guaranty Corporation (PBGC) will honor federal tax levies against the benefit of a participant or beneficiary upon receipt of a Notice of Levy from the Internal Revenue Service (▸IRS). The participant's benefit must be in pay when the levy is received. PBGC will not place the benefit in pay at IRS's request.

State Street Corporation (▸SSC), as PBGC's paying and withholding agent, is responsible for implementing all IRS levies. In the event PBGC receives a levy, the form is sent to SSC for implementation.

The three types of IRS levy forms are:

- **Form 668-A(c) Notice of Levy:** This levy applies to assets, which can be a pension payment, the right to a pension payment, or the present value of a benefit. SSC must withhold the entire asset until a release from the levy is received from IRS.
- **Form 668-W(c) Notice of Levy on Wages, Salary, and Other Income:** This levy applies to income that is a pension payment and/or interest the participant currently receives or is scheduled to receive in the future. IRS allows a certain amount of the income to be exempted from the levy. SSC determines the exempt amount and withholds any remaining income until a release from the levy is received. If the exempt amount is more than the pension payment, SSC notifies IRS that withholding does not apply.
- **Form 668-D Release of Levy/Release of Property from Levy:** This levy releases SSC and PBGC from the levy and withholding stops.

PBGC does not notify the participant prior to the change in benefit amount because the IRS notification to the taxpayer is considered sufficient notice.

IRS levies include a statement that the levy does not permit the attachment of retirement type funds (which includes pension benefits paid by PBGC) unless the IRS indicates a specific authorization by checking a box and providing an additional signature on the levy. This box must be checked and the signature must be provided for PBGC to honor the levy.

Note that the IRS Levy deduction field in ▸Spectrum is not used as modifications to Spectrum are not required. SSC implements manual changes to ▸PLUS to implement an IRS Levy.

In the event the IRS levy form is directly received by PBGC:

**BPD or DMC**

1. Image a copy of the IRS levy to the participant's file.
2. Complete the *IRS Levy Cover Sheet for SSC*.
3. Send the original IRS levy and the *IRS Levy Cover Sheet for SSC* to:

   Operations Officer, Retirement Investment Services, at State Street Corporation

**CSD Headquarters Staff**

1. Image a copy of the IRS levy to the participant's file.
2. Complete the *IRS Levy Cover Sheet for OGC*.
3. Use interoffice mail to send the original IRS levy and the *IRS Levy Cover Sheet for OGC* to:

   Office of General Counsel/Privacy Officer

   1200 K Street, N.W.

   11th Floor

**FBA/PVA**

1. Image a copy of the IRS levy to the participant's file.
2. Complete the *IRS Levy Fax Cover Sheet*.
3. Fax the original IRS levy and the *IRS Levy Fax Cover Sheet* to OGC. Enter the following information in the **To** section:

   Fax: 1-202-326-4112

   Attention: Office of General Counsel
4. Complete the *IRS Levy Cover Sheet for OGC*.
5. Send the original IRS levy and the *IRS Levy Cover Sheet for OGC* to:

   Office of General Counsel/Privacy Officer

   1200 K Street, N.W.

   11th Floor

   Washington, DC 20005

Top of Page

## Appendix R 3 Qualified Domestic Relations Order (QDRO)

**09/29/2006**

PBGC will pay all or a portion of a participant's benefit to an alternate payee pursuant to a Qualified Domestic Relations Order (QDRO), as defined in ERISA sec. 206(d)(3)(B).

For additional information on the processing of QDROs, see TP 13 Domestic Relations Orders and State Agency Orders.

## Appendix R 4 Third Party Payment Requests

**03/30/2015**

A Third Party Payment request is a request to send a benefit payment to another person or an account that does not bear the ▸payee's name. PBGC may honor requests to pay 100% of the net benefit after federal income tax withholding (but not less) of a payee's benefit to a third party. PBGC cannot implement a third party payment request based on a phone call. The request must be confirmed and approved in writing by both parties.

Upon receipt of a third party payment request, follow the instructions in TP 20.5L Third Party Payment Requests.

## Appendix R 5 Non-Allowable Deductions

**09/29/2006**

1. State and Local Taxes
2. Health Insurance Premiums*
3. Life Insurance Premiums

PBGC does not deduct and withhold from pension benefits where not required by federal law. Requests to deduct State and Local Taxes, Health Insurance Premiums, or Life Insurance Premiums from a participant's benefit are generally not allowed by PBGC.

Upon receipt:

1. If the request originated by phone, contact the payee and document details in CRM. Respond in writing using the *eALG 539 Non-Allowable Deduction* letter if the request originated as a letter or if the request came from a third party such as a court, government office or similar agency.
2. Ensure that any written response is imaged into the participant's file (IPS).

* PBGC retains discretionary authority to withhold or deduct health insurance premiums or other amounts as appropriate, including where the agency agreed to withhold certain amounts in specific pension plans.

## Appendix R 6 Garnishment Request or Child Support Not Ordered Under a QDRO

**09/29/2006**

PBGC may receive orders that are not domestic relations orders, such as a garnishment order from a state agency for child support payments, or a California joinder. PBGC will not comply with an order that is not a ▶QDRO. PBGC is not bound by a joinder because it is preempted by ERISA. (A joinder is a procedure that developed in California to protect spouses under community property law before ERISA was amended to provide for QDROs. A joinder makes a pension plan a party to a divorce action between a plan participant and his or her spouse usually for the limited purpose of dividing the participant's benefit under the plan.)

If the type of order is not evident, treat the item as a Domestic Relations Order (DRO) and determine the qualification status as outlined in TP 13.2 Review Domestic Relations Orders.

## Appendix R 7 Request for Assignment of a Benefit Due an Incarcerated Payee

**07/01/2016**

PBGC may receive a request from a State requesting the payee's benefit be directed to the warden of the institution where the payee is presently incarcerated. These direct requests generally cannot be honored by PBGC as these requests are preempted by the anti-alienation provision of ERISA (see Policy 6.6-2 Assignment and Alienation of Benefits).

For all assignment requests of a benefit due an incarcerated payee, consider the following:

- A request to send the payee's benefits to the warden/jail may be honored if the request comes directly from the payee and can be confirmed by a written agreement between the payee and the warden or state. However, do not send the payment to the warden/state based on a court order or state form or agreements. In this instance, follow steps outlined in Appendix R Section 4 Third Party Payment Requests.
- Anytime a participant indicates payment should not be made to the warden/jail, the appropriateness of the request must be investigated and documented due to the possibility of coercion or intimidation.

**Note** Most states bar the slayer of a participant from receiving payments as that participant's beneficiary (a "slayer exception"). If a beneficiary convicted of killing the participant applies for benefits, or PBGC learns that a beneficiary in pay was convicted of killing the participant, see TP 20.5K Slayer Exception for guidance.

**When PBGC determines that payments cannot be sent to the warden/state**

Upon receipt of a request from a State requesting the incarcerated payee's benefit is paid directly to the warden/jail:

1. Complete and send the *Unable to Comply* letter stating that PBGC does not honor these requests.
2. Ensure a copy of the letter is sent to the participant.
3. Image the letter to the participant's file (▸IPS).

If additional guidance on how to proceed is required, contact ASK PPD.

## Appendix R 8 Resources for Assignment and Withholding from Benefit Payments

**09/30/2016**

**Forms, Letters, and Memos:**

- *IRS Levy Cover Sheet for OGC*
- *IRS Levy Cover Sheet for SSC*
- *IRS Levy Fax Cover Sheet*
- *Resident of Puerto Rico Request for Exclusion from U.S. Federal Income Tax Withholding*
- *Unable to Comply*

**Customer Correspondence and Forms:**

- *eALG 539 Non-Allowable Deduction*
- *Form 480.7C Informative Return – Retirement Plans and Annuities*
- *Form 720 Application for Lump-Sum Payment*
- *Form 721 Application for Lump-Sum Payment – Non-Spouse Benficiary or Estate*

**Guidance:**

*None*

**Exhibits:**

*None*

# Transmit Approved Transactions to PBGC's Paying Agent

**11/20/2015**

The Outgoing File Administrator collects, packages, sends and processes acknowledgments for authorized financial and non-financial changes to payee records that have passed system-based edits.

## In this Section

Overview for Transmitting Approved Transactions to PBGC's Paying Agent 2
Workflow for Transmitting Approved Transactions to PBGC's Paying Agent 3
Transmit Approved Transactions to PBGC's Paying Agent Procedures 6

# Overview for Transmitting Approved Transactions to PBGC's Paying Agent

**08/30/2016**

The Outgoing File Administrator collects, packages, sends and processes acknowledgments for authorized financial and non-financial changes to payee records that have passed system-based edits.

The Data Integrity Team reviews the *Error/Variance Reports*, tracks resolutions, and reconciles payment errors between Spectrum and PLUS.

# Workflow for Transmitting Approved Transactions to PBGC's Paying Agent

**11/20/2015**

**Note** For a hard copy of the workflow, click on the link to the printable PDF version, and print to a plotter printer in landscape orientation for optimal output. Specify these options from the **Print** dialog box.

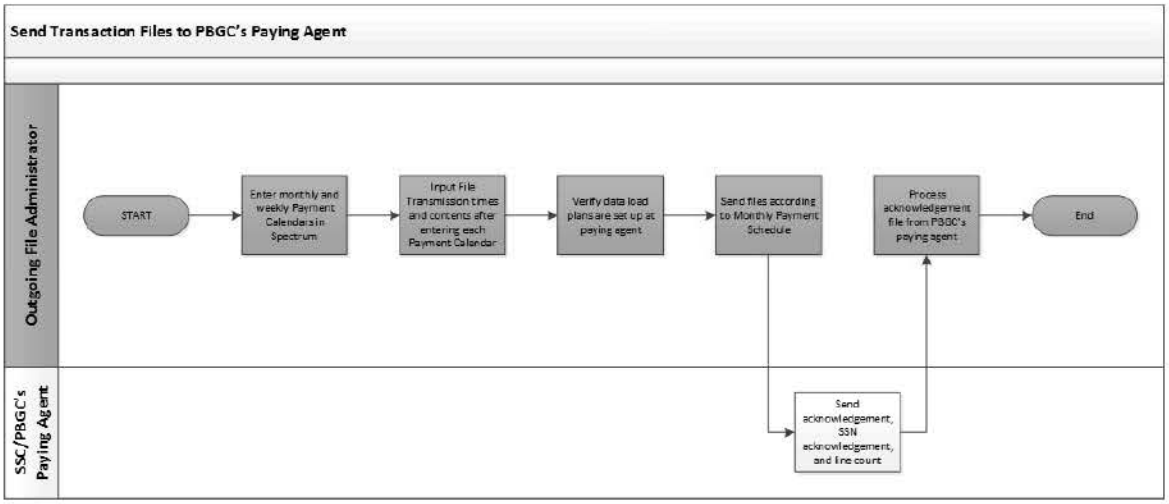
Click one of the following links to access a printable PDF version of the workflow:

- PDF of Workflow for Send Transaction Files to PBGC's Paying Agent
- PDF of Workflow for Reconcile Spectrum File Errors

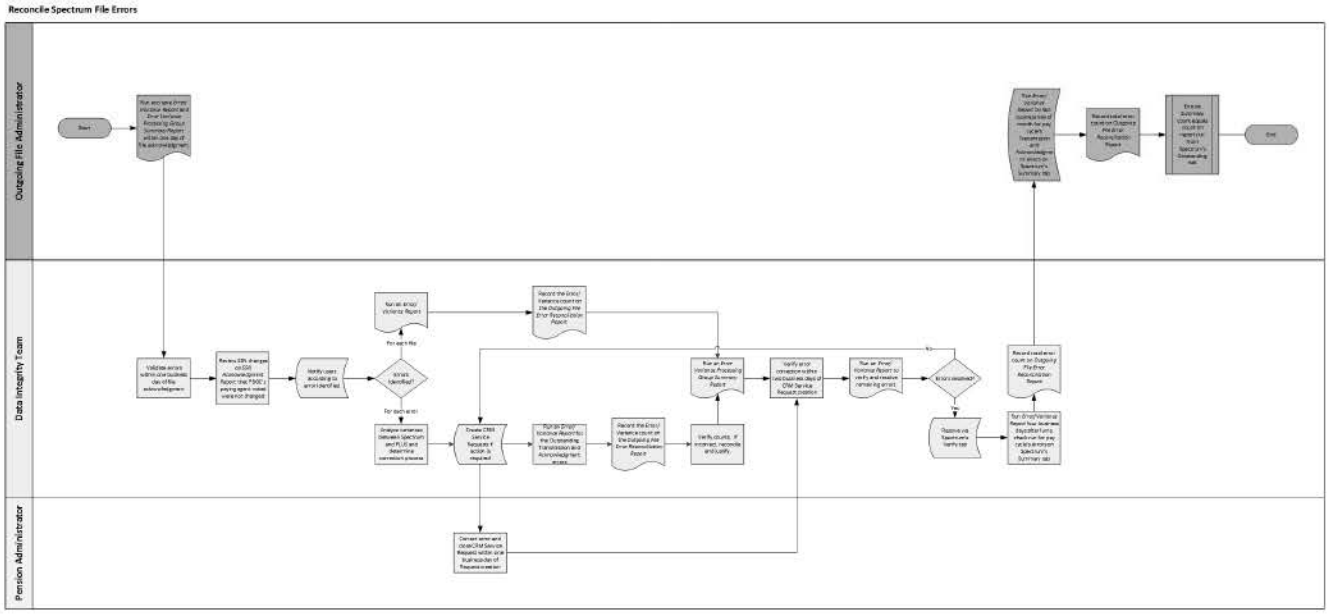
Select one of the following for the detailed workflow associated to the specific procedure:

- Workflow for Send Transaction Files to PBGC's Paying Agent
- Workflow for Reconcile Spectrum File Errors

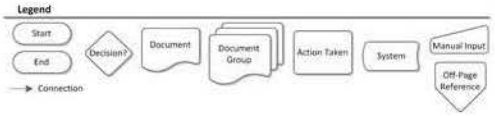
# Workflow for Send Transaction Files to PBGC's Paying Agent



# Workflow for Reconcile Spectrum File Errors



## Workflow Legend



# Transmit Approved Transactions to PBGC's Paying Agent Procedures

**08/30/2016**

| | |
|---|---|
| **Purpose** | To collect, package, send and process acknowledgments for authorized financial and non-financial changes to payee records that have passed system-based edits; to reconcile payment errors between PBGC systems and PLUS. |
| **Procedure Owner** | Outgoing File Administrator, Senior Pension Administration Supervisor, Pension Benefit Analyst, Data Integrity Team, Pension Administrator (CSD, PVA, FBA) |

## In this Section

1. Send Transaction Files to PBGC's Paying Agent via Spectrum 7
2. Reconcile Spectrum File Errors ..... 12
3. Run Reports..... 14

# 1. Send Transaction Files to PBGC's Paying Agent via Spectrum

**02/27/2017**

## Outgoing File Administrator

## Input Payment Calendars

1. Enter the monthly and weekly Payment Calendars in Spectrum by October 15th of each year.

---

**Note** It is important to enter the Payment Calendars on or before 10/15 because on any given date, Spectrum needs to know the cut-off dates for both the current and the following pay cycles. For example, if the Last Minute File date for the November 2015 pay cycle is 10/20/2015, then on the very next day (10/21/2015), Spectrum must know the cut-off dates for both the December 2015 pay cycle and the January 2016 pay cycles. If the *Payment Schedule Key Dates* are not finalized by 10/15, enter estimated dates in the Payment Calendars and change them once the *Payment Schedule Key Dates* are published.

**Note** Current Pay Cycle is defined as: once the Last Outgoing File Date and Time for a payment cycle has passed, the next pay cycle is considered "current." Pay cycles go from "Last Outgoing File Date & Time" to "Last Outgoing File Date & Time."

---

**Example - MONTHLY Pay Cycles**

| | |
|---|---|
| Last Outgoing File Date for 03/01/2016 monthly pay cycle | 02/16/2016 17:00:00 |
| From 02/16/2016 at 17:00:01 - 03/17/2016 at 17:00:00 the 04/01/2016 pay cycle is "current" | |
| Last Outgoing File Date for 04/01/2016 monthly pay cycle | 03/17/2016 17:00:00 |
| From 03/17/2016 at 17:00:01 - 04/18/2016 at 17:00:00 the 05/01/2016 pay cycle is "current" | |
| Last Outgoing File Date for 03/01/2016 monthly pay cycle | 04/18/2016 17:00:00 |

**MONTHLY PAYMENTS**

a. Retrieve the dates from the *Payment Schedule Key Dates* schedule.

b. Enter in each field

   i. Payment Date – pay cycle date (always the 1st of the month)

   ii. Pay Run Frequency – monthly

   iii. PBGC's Paying Agent - SSC

   iv. Pre-Trial Balance Date – leave blank unless otherwise instructed by Trial Administrator

   v. Last Outgoing File Date – last minute file date at 17:00:00 per *Payment Schedule Key Dates*

   vi. Death Processing Date – leave blank because the field is a placeholder for a future Spectrum enhancement

   vii. PA Check Run Date – PBGC's Paying Agent check run date per *Payment Schedule Key Dates*

   viii. ACH Settlement Date – Earlier of:

   - Payment Date
   - ACH Advance Funding date per *Payment Schedule Key Dates*

---

**Note** The ACH Settlement Date is usually the payment date (1st of the month). If the first of the month falls on a Saturday, Sunday, or Federal Holiday, the ACH Settlement Date reverts to the previous Friday.

For example; if the 2015 *Payment Schedule Key Dates* specifies Friday 07/31/2015 [not Saturday 08/01/2015] to advance-fund ACH's for 08/01/2015 payments, the user would input 07/31/2015, not 08/01/2015.

ix. Post Balancer Run Date - four business days after PA Check Run Date at 17:00:00

x. Additional Post Balancer Reconciliation: leave blank unless otherwise instructed by Balancer Administrator

c. Ask the BPD Program & Management Analyst who produces the *Monthly Payment Schedule* and *File Schedule* to verify all dates entered using the *Payment Calendar & File Verification E-mail.*

**WEEKLY PAYMENTS**

**Note** There are usually only 3 weekly files per month because there are typically no Off-Cycle payments run the same week as the Annuities & Specials check run date on the *Monthly Payment Schedule*. Generally, there are no weekly off-cycles processed around the fiscal year end 09/30 and the calendar year end 12/31.

d. Obtain the dates from the *Payment Schedule Key Dates* schedule.

e. Enter in each field

i. Payment Date – Friday's date

**Note** For entering weekly Payment Dates:

For Fridays dated 1, 2, or 15, use the next business day as the Payment Date. (The 1st of the month is reserved for monthly payments, the 2nd for "4049" payments, and the 15th for "SIDs.")

It is OK to use the same ACH Settlement date for both weekly and monthly payments.

When the last business day of the month is a Friday, use Thursday as the Payment Date.

ii. Pay Run Frequency - Weekly

iii. PBGC's Paying Agent - SSC

iv. Pre-Trial Balance Date – leave blank unless otherwise instructed by Trial Administrator

v. Last Outgoing File Date – 12:30 PM Tuesday

**Note** This is the date and time on or before which a payment must be approved for the payment date. It is **different** from the actual file transmission date and time, which is input on the Outgoing Transmissions Screen.

**Note** Spectrum uses this "Last Outgoing File Date" and time to enforce the Off-Cycle deadline date and time. For example, TP 29 Off-Cycle Payment specifies that weekly off-cycles with a 04/17/2015 payment date must be approved by NOON on Tuesday 04/14/2015. If we input 04/14/2015 at 12:30, Spectrum will not permit the user to approve a 04/17/2015 weekly off-cycle after 12:30 PM on Tuesday, 04/14/2015. We input 12:30 PM instead of exactly 12:00 PM to give Spectrum time to update all of the data and tables before it cuts off. If we wish to extend the deadline to 5:00 PM, we would input 04/14/2015 at 17:00 [military time] in the "Last Outgoing File Date" field. Spectrum would then permit approvals of 04/17/2015 dated weekly off-cycle payments up to 5:00 PM on 04/14/2015.

vi. Death Processing Date – leave blank because it is a placeholder for a future Spectrum enhancement

vii. PA Check Run Date – Thursday's date

**Note** Although the PA usually runs the weekly payments on Wednesdays, a Spectrum 4.0 edit ensures the Last File is sent before the PA check run date. By inputting Thursday's date, additional time becomes available to transmit the Wednesday file if problems exist.

viii. ACH Settlement Date - enter the same value as the Payment Date

ix. Post Balancer Run Date – three business days at 17:00:00 after payment date

x. Additional Post Balancer Reconciliation - leave blank unless otherwise instructed by Balancer Administrator

f. Ask the BPD Program & Management Analyst who produces the *Monthly Payment Schedule* and *File Schedule* to verify all dates entered using the *Payment Calendar & File Verification E-mail*.

## Prepare Checklist and Data Load Plans

2. Process Each Payment Cycle by creating a directory for the monthly pay cycle in the `I:\PRISM32\Integrator\FYYYY` folder and name it `YYYYMM`.

   - **Example**

     Name the folder 201509 for the September 2015 pay cycle and 201510 for the October 2015 pay cycle.

3. Use the *File Generation Checklist* to record the processing steps.

4. Finalize and place the *File Generation Checklist* in the monthly pay cycle folder by the 10th or previous business day of the following month.

   - **Example**

     The September 2017 pay cycle's checklist is due 09/10/2017.

5. Process the following plans as noted below.

   **For Data Load plans**

   a. Receive e-mails for new Data Load plans.

   b. Before the 1st file, verify that the plan numbers are setup at PBGC's Paying Agent, including the "sub-account" numbers "3, 4, 9 and Z" for each new plan.

      For example, new plan number "987654" should have 5 separate plan numbers setup on PLUS:

      i. 6-digit plan number, denote as 987654

      ii. 03 (disability payments) denote as 03-987654

      iii. 04 (death payments) denote as 04-987654

      iv. 9 (Roth IRA Rollovers) denote as 9-987654

      v. Z (Other [non-Roth] "split" Rollovers) denote as Z-987654

   c. If the plan is not set up, contact the user using the *STD E-mail to Setup Plan on PLUS*.

   **For new large plans (10,000 or more customers in pay status)**

   d. Discuss with PBGC's Paying Agent and agree upon a schedule for sending separate files containing the Data Load data for these large plans.

   e. Because of lengthy processing and file transfer times involved, it is best to send 20,000 customers or less in each file for new plans. For example, if the new plan has 60,000 customers, send three files of 20,000 each.

## Input Files

6. Two business days after the Payment and *File Schedule* are published:

   a. Verify Payment Calendars against the Payment and *File Schedule*.

   b. Input but do not approve File Transmission times and contents.

i. For each monthly and weekly payment calendar, schedule the files but do not approve them yet

ii. Retrieve the date and time from the *File Schedule*

iii. Use the following *Spectrum File Profiles* to define the contents of each file:

- Early file profile name: Monthly-Transmit All but OTP/BP
- OBA Cutoff file profile name: Monthly-All Payments
- Last Minute file profile name: Monthly-All Payments
- Weekly file profile name: Weekly-All Payments
- Trial Balance Date Time: This field is ONLY for the monthly OBA Cutoff file. Leave blank for other files. Enter 1:00 AM one business day after the date the Trial Balance Projection File is expected from SSC per the *File Schedule,* which is usually the same day as the OBA Cutoff file.

c. Ask the BPD Program & Management Analyst who produces the *Monthly Payment Schedule* and *File Schedule* to verify all dates entered using the *Payment Calendar & File Verification E-mail*.

7. By November 1st each year:

a. Agree on a date with PBGC's Paying Agent for an extra file containing name, address, and SSN changes to be sent in late December before they generate IRS Form 1099-R's.

b. Communicate this file date to the Management Analyst who is responsible for producing the *Monthly Payment Schedule*.

c. Schedule the file in Spectrum.

d. Input the date, time, and contents of the file using the Spectrum Standard Transmission Profile according to the *Spectrum File Profiles* called "Yearly-1099Rupdate".

e. Ask the BPD Program & Management Analyst who produces the *Monthly Payment Schedule* and *File Schedule* to verify the file entered using the *Payment Calendar & File Verification E-mail*.

## Process File

8. For each monthly and weekly payment cycle, send files according to the *Monthly Payment Schedule* and *File Schedule*.

a. On or before the first scheduled file for the processing month, approve the files for the monthly and weekly payment cycles for transmission. For example, monthly and weekly files for the 09/01/2016 payment cycle must be approved by 08/03/2016 (the date of the 1st weekly file).

9. Process the acknowledgment file.

a. Within one business day of each outgoing file generated, PBGC's Paying Agent sends an acknowledgment file.

b. Within one business day of each outgoing file generated, SSC uploads the PBGC *Integrator Transaction Detail Summary Report* (also known as the Line Count Report) to the PBGC Portal project "Benefit Payment Reports" under the folder "SLA_001_Integrator Trans Detail."

c. Within one business day of acknowledgment, confirm that the number of PBGC's Paying Agent transactions sent matches those received by PBGC's Paying Agent.

i. Run an *After Action Report*

The *After Action Report* is unable to run due to t7269.

BMA Operations posts the *After Action Reports* to the Portal at these times:

Early file: NOON on file date

OBA Cutoff file: NOON on file date

Last Minute file: NOON one business day after file date

Weekly files: NOON one business day after file date

ii. Compare the Line Count in the *After Action Report's* Outgoing Transmissions section to those reported on the Line Count Report using the *How to Check Line Count* exhibit. If the counts do not match, consult PBGC's Paying Agent and the PBGC Service Desk to determine why.

d. After verifying the line count in Spectrum, select "Approve to Load to Prod" for the acknowledgment file. This updates the customer records.

10. Process SSN changes.

a. Within one business day of each outgoing file generated, PBGC's Paying Agent places the *SSN Acknowledgment Report* in the PBGC portal project Benefit Payment Reports \ SLA_001_Integrator SSN Change Report folder.

b. Within one business day after the *SSN Acknowledgment Report* is received, upload the *SSN Acknowledgment Report* to the pay cycle directory in the BPB Integrator Operations portal project.

## 2. Reconcile Spectrum File Errors

**02/27/2017**

### VALIDATE

### Data Integrity Team

### Within two business days of acknowledgment:

**For each file:**

1. Validate both Transmission and Acknowledgment errors.

---

**Note** Exception for last minute file errors: Validate and distribute errors within two business days after the lump sum check run.

**Note** Transmission errors are generated any time a transaction is approved. The Error/Variance screen may show 99 transmission errors one day and 101 the next. DIT only processes transmission errors ONCE per FILE. DIT is not constantly looking for new transmission errors every day.

**Note** To confirm acknowledgment, look at the Outgoing Transmissions tab for the corresponding file date. The transmission status should read "Acknowledgment File Processed."

---

2. On the *SSN Acknowledgment Report*, review the SSN changes.
   - SSN changes also appear on the *Error Variance Report* with the message "Transaction was not acknowledged by the PA."
   - For SSN changes the Paying Agent did process, "resolve" the error in Spectrum.
   - For SSN changes the Paying Agent noted were not changed, create a CRM service request.

### For each error:

3. Create CRM service requests.

---

**Note** There are 4000 characters available to you if you desire to use it in the 'Additional Comments for Service' field. Do not use "#" or *any* special characters because Spectrum will truncate all text after and including these symbols.

---

**Note** Due to t7270 after creating each CRM service request,'re-filter' the Error/Variance screen.

---

### OUTSTANDING

### Pension Administrator (CSD, PVA, FBA)

1. Within one business day of service request creation date:
   a. Correct the error.
   b. Close the CRM service request, noting how it was resolved.
      If a Service Desk ticket was opened, include the SD number.

## VERIFY and RESOLVE

### Data Integrity Team

2. For each error in each file, within two business days of CRM service request creation, verify that the user closed the CRM service request.

---

**Note** Exception for "Account Master Not Found" Errors: By one business day before the next scheduled file.

---

3. If the CRM service request is still open, send *STD E-mail to Follow-Up on CRM Service Requests* to POC and ask them to resolve the error and close the CRM service request. Be sure to copy the Project Manager, Assistant Project Manager, and Outgoing File Administrator on the *STD E-mail*.
4. Re-queue the "Account Master Not Found" errors so they will be transmitted in the next Outgoing File (must be completed one business day before the next scheduled file).

---

**Note** In Spectrum, filter by Plan Number, then "Select All" so you don't have to re-queue thousands of transactions (if it's a large plan, for example) individually.

---

5. If the CRM service request was closed, on Spectrum's Verify tab, enter a Disposition and Disposition Reason and resolve the error. Include SD number if any.

## MONTH-END

### Outgoing File Administrator

6. On the *Error Variance Report*:
   a. By the 10th day of the pay cycle month or previous business day (example: by 10/10/2017 for the 10/01/2017 pay cycle), run an *Error Variance Report* from the Resolved tab.
   b. Verify the resolutions of the lesser of: 10 transactions or a 5% sample.
   c. Use PBGC's Random Number Generator to select the sample.
   d. Annotate which transactions were selected on the *Error Variance Report*.
   e. Paste the results of the Random Number Generator in the second worksheet in the Microsoft Excel workbook.
   f. Post it to the BPB Integrator Operations portal.

## 3. Run Reports

**02/27/2017**

### Outgoing File Administrator

1. By the 10th or previous business day of the pay cycle month, send the *Large Payment Report* to the Program Analyst in the OBA Director's Office.

   For example, the 05/01/2017 Payment Cycle's *Large Payment Report* is due on 05/10/2017.

   a. Run an *After Action Report*.

      - *After Action Report* does not run due to Spectrum t7263, BMA Operations posts the *After Action Report* to the portal by 17:00:00 on the last business day of the month.

   b. Send the PBGC Portal link to the Program Analyst in the OBA Director's Office, using the *Large Payment Report E-mail*.

2. By the 10th or previous business day of the pay cycle month, prepare an *After Action Memorandum* using the template and post it to the Portal.
3. Present the *After Action Memorandum* at the After Action Team meetings, usually scheduled by the BPB Branch Chief or designee.
4. Update the Paying Agent *SLA Acknowledgment File Report* by the 10th of the pay cycle month.
5. Post it to the appropriate pay cycle's folder in the portal project called "BPB Internal Controls Project".

   Folder path: _BPB PA SLA Program/Monthly Reporting/FYyyyy/yyyy_mm

Workflow for Trial Balance .....3
Reconcile Variances .....4
Resources for Trial Balance .....6

# Overview for Trial Balance

**11/29/2011**

BAPD performs a Trial Balance before the annuity, special check and lump sum check runs to ensure that PBGC's paying agent makes only approved payments and to correct discrepancies (variances) between approved amounts and PBGC's paying agent's records before the check-run.

# Workflow for Trial Balance

**11/29/2011**

**Note** For a hard copy of the workflow, click on the link to the printable PDF version, and print to a plotter printer in landscape orientation for optimal output. Specify these options from the **Print** dialog box.

# Reconcile Variances

**11/20/2015**

| | |
|---|---|
| **Purpose** | To ensure that PBGC's paying agent makes only approved payments and to correct discrepancies (variances) between approved amounts and PBGC's paying agent's records before the check run. |
| **Guidance** | Trial Balance Desk Reference<br>Workflow for Trial Balance |
| **Procedure Owner** | Management Information Specialist |

The Management Information Specialist performs or monitors the performance of the monthly Trial Balance review and reconciliation of approved payments in the Spectrum system compared to projected payments in PBGC's paying agent's payment system before the annuity, special check, and lump sum check runs to ensure that the paying agent makes only authorized payments. Exceptions are identified and addressed in a timely manner in accordance with the published *Monthly Payment Schedule*, to ensure incorrect payments are not made.

The Trial Balance schedule is established for the entire fiscal year after key financial and non-financial processing dates are published. The Trial Balance forecast is scheduled to run at noon on the same day as the BAPD cutoff as published by BAPD. The Management Information Specialist schedules the Trial Balance forecasts using Trial Manager.

The process begins with the BAPD cut-off at which point the Second Integrator File is generated. The *Forecast of Approved Payments* is auto-run in the database and populates the tables with data. PBGC's paying agent updates the Second Integrator File and runs Trial Balance in PLUS. Trial Balance data is uploaded to the database and PBGC's paying agent sends an extract of the data to PBGC. The Management Information Specialist verifies receipt of automatically generated e-mail messages from Oracle Server Account signaling receipt and loading of the extract.

Refer to TP 11 Trial Balance of the BAPD Operations Manual for the following:

- Maintain the Trial Balance POC List.
- Trial Balance Variance Notification (TB Notify).
- Users Response to Variance Notification.

## Management Information Specialist

1. Review Forecast data for reasonableness.
2. E-mail *Forecast Detail Reports* to the distribution list.
3. Review variance data for reasonableness.
4. Identify false positives.
5. Select true variances and send to POCs, Variance Coordinators, and Managers.
6. Generate the *Distribution Report* and e-mail to all Variance Coordinators, Alternates, TPD Managers, Associates, and FBA Project Managers.
7. Give the *Variance Resolution Forms* and associated NFDE forms to the BPB Data Integrity Team to adjust Trial Balance and PLUS with the correct balance information.
8. Route NFDE to Data Integrity Team.
9. Process late submissions.
10. Validate data entry and correction codes.

11. Update `EOM_STAT.xls` on the PBGC Portal.
12. Prepare the *Closeout Memo & Timeliness of Non-Compliance Report* for the BPB Branch Chief detailing the monthly Trial Balance activity including the number of variances, accounting for false positives.
13. Research repeating variances after checks have been generated that could affect future cycle Trial Balance.

# NFDE

**08/30/2012**

The NFDE process is used to manually update PLUS by filing NFDE forms to add or change a participant's benefit payments outside of the normal check cycle and/or when Spectrum and PLUS are out of sync.

## In this Section

Overview for NFDE ..... 2
Workflow for NFDE ..... 5
NFDE Procedures ..... 6
Resources for NFDE ..... 17

# Overview for NFDE

**08/30/2016**

The NFDE process involves the transmission of payment-related transactions that cannot be handled through the automated process (AWA for approval and Integrator for transmission).

BPB staff enter transactional information into NFDE that formats the data for transmission to PBGC's paying agent. This mechanism is used:

- To make payments outside of the normal monthly payment cycle (weekly off-cycle payments).
- To accommodate transactions that fail due to system design limitations (for example, transaction 12, non-taxability of reissued checks) or program bugs.
- To issue instructions directly to PBGC's paying agent outside of the normal data transmission cycle for updates such as plan number changes (for example, SSN, Name, and Foreign Address) and to correct last minute problems such as duplicate payments that are discovered during the final preparations for issuing payments.

The following are key concepts and guidelines for use by TPD managers and team leads, PVA/FBA Project Managers, Associates, CORs, and EBLSs for avoiding incorrect payments:

- Key NFDE Concepts

NFDEs only update PBGC's paying agent's system (PLUS/PLUS Web), not Spectrum.

There are two components to a NFDE transaction:

1. Select **Transmit to BPB** in PLUS Web sends an e-mail to the NFDE mailbox with an attached spreadsheet.
2. Fax a completed and signed NFDE form to 202-326-4214 or 4216:
    - Do not use any other extension for NFDEs unless specifically directed to do so. BPB does not process NFDEs in a timely manner if misdirected to any number other than 4214 or 4216.
    - If the NFDE requires a signature by a TPD or RSD approver, do not use 4214 or 4216. Only properly completed and signed forms go to 4214 or 4216.

BPB processes NFDE transaction only when the faxed form is matched to the e-mailed spreadsheet:

- If BPB has a faxed form, but no e-mail, BPB alerts the submitter to the discrepancy.
- If BPB has an e-mail, but no faxed form, the transaction is not processed. Due to internal complexities, BPB is unable to isolate these discrepancies in time to the requester.

BPB's role is to verify the NFDE is properly authorized and the requested action is appropriate given the exact state of Spectrum and PLUS. Deadlines published on the monthly payment schedule are designed to ensure that BPB verifies the NFDE and requested action accurately. Please be mindful of the deadlines.

Due to PLUS constraints, the following types of NFDEs cannot be acknowledged in the normal way. BPB acknowledges them via an e-mail to the submitter no later than the second business day after the lump-sum split-check run:

- NFDEs intended to update an existing lump-sum payment.
- NFDEs intended to update an existing special check payment.
- NFDEs with an asterisk in any field (the asterisk indicates that the contents of the field are to be deleted).

- NFDEs that end a pay source.
- NFDEs intended to change the name, SSN, or plan number.

  These NFDEs must have “Name change,” “SSN change,” or “Plan number change,” written on the top.

Except for off-cycles and purged check reissues, which are transmitted each Wednesday, NFDEs are not transmitted to PBGC's paying agent until the date indicated on the monthly payment schedule, which is 3:00 P.M. on the same day as the last Integrator file. Verify that the NFDE was processed by checking the ledger. Consult payment or ledger schedule for dates the ledgers post.

- Instructions for paying lump sums and relevant workarounds

Refer to the *Spectrum User Manual* for instructions to create a one-time payment.

Refer to Appendix L of the *Spectrum User Manual* for instructions for changing and stopping back payments and one-time payments.

- Action type ADD versus UPDATE

If you select the wrong action type, the NFDE will likely not get transfered to PLUS.

**Action type UPDATE:** An **UPDATE** is used if there is a benefit on PLUS that needs to be modified.

> **Example 1**: PLUS is setup to pay a $500 special, but it should be $400. **UPDATE** the amount from $500 to $400.
>
> **Example 2**: An individual who is receiving a monthly payment has changed their address. UPDATE the address in PLUS.

**Action type ADD:** An **ADD** is used if a new benefit needs to be created on PLUS.

> **Example 1**: A $1,000 special check did not get processed in time and therefore is not in PLUS. **ADD** a new $1,000 payment.
>
> **Example 2**: A new retiree’s benefit remains queued in Spectrum. ADD the new payee to PLUS.

- Payment Frequency

If a payment frequency is mishandled, the NFDE may not be transferred to PLUS. Regardless of the payment frequency, the amount displayed by Spectrum is the equivalent monthly amount. Multiply the Spectrum amount by the appropriate factor to get the NFDE amount.

> **Example**: An annual payment of $120 displays in Spectrum as $10 per month.

For **annual payments**, multiply the Spectrum amount by 12 to get the NFDE amount.

> **Example**: A semi-annual (twice a year) payment of $600 displays in Spectrum as $100 per month.

For **semi-annual payments**, multiply the Spectrum amount by six to get the NFDE amount.

> **Example**: A quarterly payment of $240 displays in Spectrum as $80 per month.

For **quarterly payments**, multiply the Spectrum amount by three to get the NFDE amount.

- Recoupments

If a recoupment is mishandled, do not transfer the NFDE to PLUS.

On the NFDE, put the amount that remains after the recoupment amount is deducted.

**Example**: PLUS is set up to pay $1,000 monthly and a monthly $100 recoupment is implemented, then the amount that goes into the NFDE is $900.

# Workflow for NFDE

4. Complete Lump Sum Check and Special Check Updates 10
5. Rectify NFDE Data ..... 11
6. Process NBX Files ..... 12
7. Receive the Acknowledgment Reports ..... 13
8. Update PLUS for Items Not Supported by NBX/PLUS .. 14
9. Verify Reissue Purged Check Payment NFDE Form..... 15

# 1. Complete Monthly Adjustment Forms

**11/20/2015**

TPDs, FBAs, and Plan Administrators complete the *Monthly Adjustment Forms*.

## Senior Pension Administrator

1. Check the *Monthly Adjustment Forms* for data problems.
2. Place all other forms with data problems in the Management Analyst's inbox and log the transaction into the *NBX Spreadsheet* with a comment to the Management Analyst.
3. Check for *Return of Employee Contribution Forms*.
4. Place the *Return of Employee Contribution Forms* into the Management Analyst's inbox.
5. Check the *Lump Sum Check Forms* and *Special Check Forms* for update code "2" in the **Action Type** field.

   If the update code "2" is present in the **Action Type** field, log the transaction into the *NBX Spreadsheet* with an Exception comment.
6. Check the top of the *Lump Sum Check Forms* and *Special Check Forms* for the notation “Revised or Correction.”

   If “Revised or Correction” notation is present, place the *Lump Sum Check Forms* and *Special Check Forms* in the Management Analyst's inbox.
7. Place forms with an asterisk "*" in any field in the Management Analyst's inbox.
8. Check for *Adjustment Forms* and write “Late” on the form near the received stamp for *Adjustment Forms* received between 4:00 P.M. Trial Tuesday through 12:00 P.M. Friday:
   a. Place the late *Adjustment Forms* in the Management Analyst's inbox.
   b. Place all other *Adjustment Forms* in the Data Control All Other NBX Transactions inbox by 4:00 P.M. Trial Tuesday.

## Management Analyst

9. Fax the forms to PBGC's paying agent.
10. Stamp “FAXED” at the top of the form and return the forms to the Senior Pension Administrator.

## 2. Complete Off-Cycle Request Forms

**11/20/2015**

TPDs, PAs, and FBAs complete the *Off-Cycle Payment Request Forms* per TP 29 Off-Cycle Payment. The BPB Branch Chief reviews the *Off-Cycle Payment Request Forms* and supporting documentation to make a determination to approve or disapprove the request.

All *Off-Cycle Payment Request Forms* received after 12:00 P.M. Tuesday are considered late and are processed at the BPB Branch Chief's discretion. The BPB Branch Chief reviews all of the late *Off-Cycle Payment Request Forms* and determines whether to take any of the following actions:

- Process the payment in the current NBX payment cycle.
- Fax the form to PBGC's paying agent.
- Delay processing until the next NBX payment cycle.
- Disapprove the request per BAPD Technical Procedure 29.

### Senior Pension Administrator

1. Retrieve the *Off-Cycle Payment Request Forms* from the inbox by 12:00 P.M. Tuesday.
2. Check the amounts to verify that the totals are correct and that the amounts on the *Off-Cycle Payment Request Memorandum* and the manual data entry forms are equal.
3. Check the manual data entry forms to verify that they are approved correctly. Use the *Spectrum Approvers List* and *Manual Form Approvers List* to verify that the Approver is an approved approver and has the level of authority to approve the requested transaction.
4. Check the forms for completeness:
   a. Contact the requesting division or FBA if the request is incomplete or more information is needed.
   b. Ask the requestor to make the necessary corrections to forms and resubmit per BAPD Technical Procedure 29 if unable to correct the data.
5. Check to verify an *Annuity Check Form* is included with the *Special Check Form* if the participant is not established in PLUS.
   - Contact the requestor to have the form submitted if the *Annuity Check Form* is required but not included.
   - Inform the requestor that the Off-Cycle payment request cannot be completed until the *Annuity Check Form* is completed and submitted.
6. Check the PLUS, NBX, and Spectrum systems to verify the request has not already been paid.
   - If the request has been paid, inform the requester.
7. Submit all screened *Off-Cycle Payment Request Forms* to the BPB Branch Chief for approval.
8. Place the approved *Off-Cycle Payment Request Forms* in the Data Control NBX Off-Cycle inbox by 4:00 P.M. Tuesday.
9. Check PLUS to verify that a duplicate payment is not set up to be paid that month on check-run day.
10. Take a screen shot of the PLUS screen showing that no payment is set up and include the printout in the off-cycle file.

## 3. Review and Audit Data for Quality Control

**03/28/2013**

The Senior Pension Administrator retrieves the *manual data entry forms* from the Data Control inbox and reviews them for quality control.

### Account Auditor

1. Retrieve the *manual data entry forms* from the inbox and check each form against the data entered into the NFDE application to ensure the data on the *manual data entry forms* is the same as the data entered into the NFDE application.
    - Circle the field to identify where a correction is required if a difference is found.
2. Group all checked *manual data entry forms* by "forms for correction" and "forms complete" and return to Data Control.
3. Give Off-Cycle corrections to Data Control no later than 9:00 A.M. Wednesday.
4. Give Adjustment corrections to Data Control no later than 9:00 A.M. Trial Thursday.

# 4. Complete Lump Sum Check and Special Check Updates

**11/20/2015**

Lump Sum Check and Special Check updates are not supported by NBX or PLUS.

## Management Analyst

1. Retrieve the *Lump Sum Check Forms* and *Special Check Forms* from the inbox.
2. Review the *Lump Sum Check Forms* and *Special Check Forms* to determine if the requested transaction is correct:
   - Fax to PBGC's paying agent if the forms are correct.
   - Contact the requestor to explain the necessary corrections if the forms are incorrect.
     a. Request a new or revised form be sent to BPB with the term **Revised or Correction** and **Attention** with the name of the assisting Management Analyst written at the top.
     b. Instruct the requestor to send the corrected approved manual form to PBGC BPB by fax or forward to the Data Integrity Team Lead, Attn: BPB Manual Collection Box; provide information regarding any applicable processing deadlines.

## 5. Rectify NFDE Data

**03/28/2013**

### Management Analyst

1. Retrieve the incomplete or incorrect form from the inbox.
2. Review each form with missing or incorrect data along with the explanation provided to clarify the error and to determine the best approach to correct the error.
3. Contact the requester to explain how to make the necessary corrections.
   a. Request a new or revised form be sent to BPB with the term **Revised or Correction** and **Attention** with the name of the assisting Management Analyst written at the top.
   b. Instruct the requester to fax the corrected and approved manual form to the PBGC BPB or forward it to the Data Integrity Team Lead, Attn: BPB Manual Collection Box, and provide information regarding any applicable processing deadlines.
4. Retrieve revised forms marked **Revised or Correction** and addressed to them from the inbox.
5. Review the form to determine if the requestor corrected the form as advised.
   - Follow the incorrect forms steps listed above if still incorrect.
   - Initial the upper right corner of the form and place the form in the All Other NBX Transactions inbox in Data Control if correct by 1:00 P.M. Trial Wednesday.
6. Receive an e-mail notification from PBGC's paying agent listing the failed NBX transactions and an explanation of the error.
7. Retrieve the forms associated with failed NBX transactions from the inbox.
8. Review the forms to clarify the error and to determine the best approach to correct the error.
9. Contact the requestor within two business days following receipt of e-mail from PBGC's paying agent to explain the transaction failure, how to make necessary corrections, provide alternative approaches for getting the requested transaction processed, and any applicable processing deadlines.

# 6. Process NBX Files

**03/28/2013**

## Data Control

1. Run queries to verify that the following fields are correct:
   - Case Number
   - SSN
   - Name
2. Initiate the steps to generate the *Transaction Spreadsheets* for the combined data entered into NFDE for all the FBAs and Management Analyst:
   - `MasterPensionAddmmddyyyy.xls`
   - `MasterPensionChangemmddyyyy.xls`
   - `MasterLumpSumAddmmddyyyy.xls`
   - `MasterSpecialAddmmddyyyy.xls`

   The current date is input in the mmddyyyy format to identify the date the file is sent to PBGC's paying agent.
3. Generate the weekly Off-Cycles by 12:00 P.M. Wednesday to PBGC's paying agent.
4. Generate the monthly Adjustment files by 6:00 P.M. Trial Tuesday.
5. Check the *Control Total Reports* against the *Audit Spreadsheets* to verify that the totals are equal:
   - `MasterPensionAddmmddyyyy.xls`
   - `MasterPensionChangemmddyyyy.xls`
   - `MasterLumpSumAddmmddyyyy.xls`
   - `MasterSpecialAddmmddyyyy.xls`

   a. Research the variances and make corrections if the totals are not equal.

   b. Re-generate the spreadsheets and create and recheck the *Control Total Reports* after corrections are made.
6. Notify the Management Analyst that the *Audit Spreadsheets* are ready for certification.
7. Place a copy of the *Control Total Report* and *Audit Spreadsheets* in the Management Analyst's inbox.
8. Send the consolidated *Master Spreadsheets* via NBX File Exchange to PBGC's paying agent.
9. E-mail the *Control Total Reports* to PBGC's paying agent.
10. Move the *Transaction* and *Audit Spreadsheets* to the archive spreadsheet directory after successful upload to the NBX File Exchange.

    PBGC's paying agent runs the *Transaction Spreadsheets* through NBX and creates PLUS pension, special, and lump sum transaction files.

# 7. Receive the Acknowledgment Reports

**11/20/2015**

## Data Control

1. Receive the *Acknowledgement Report* from PBGC's paying agent.
2. Receive the *Off-Cycle Acknowledgment Report* by Monday following Wednesday's file transmission.
3. Receive the *Adjustment Acknowledgement Report* by Friday the week following Thursday's file transmission.
4. Generate entries into an acknowledgment table in NFDE.
5. Notify the submitter by e-mail of the successful transaction.
6. Move the *Acknowledgment e-mail* to the archive e-mail acknowledgment directory.
7. Provide the *PBGC's Paying Agent Error Report* and NFDE forms to the Management Analyst with explanation of the exceptions attached.
8. Provide a copy of the *PBGC's Paying Agent Error Report* to the BPB Balancer Team to aid in Integrator research.

## Management Analyst

9. Analyze the reason for the failed transactions and provide advice and guidance to the submitter regarding the best method to correct the error.
10. Resolve the exceptions and determine the disposition of the request within five business days.

## 8. Update PLUS for Items Not Supported by NBX/PLUS

**03/28/2013**

Users request the following updates to PLUS that NBX or PLUS do not support:

- SSN Change.
- SSN Name Change.
- Case Change.
- Starting or Stopping QDRO Deduction.

### Management Analyst

1. Review the e-mail request and verify it is from a manager and if it is correct.
2. E-mail PBGC's paying agent with instructions to make the requested changes to the PLUS data.
3. Review the *Employee Contribution Form* to ensure it is complete and correct.
   - Contact the user to address the problem and request a new or revised *Employee Contribution Form* if it is incomplete or incorrect.
   - Sign the *Employee Contribution Form*, make a copy, and mail the original to PBGC's paying agent by overnight mail.
4. Submit the copied *Employee Contribution Form* to the Data Integrity Team Lead to imaged to IPS.
5. Retrieve the *Late Adjustment Forms* from the inbox.
6. Review the *Late Adjustment Forms* to determine the purpose for the form and decide if the transaction must be processed due to special circumstances.
   - Submit the *Late Adjustment Forms* to Data Control to be processed in the current payment cycle.
   - Notify the requester by e-mail that the form was received late and that the requested transaction will not be processed in the current payment cycle unless there are special circumstances.
     a. Provide the requestor with alternative approaches for getting the requested transaction processed.
     b. Provide a reference to the *Monthly Payment Schedule*.
     c. Carbon copy: the BPB Branch Manager, BPB Management Analyst, and BPB Paying Agent COR.

# 9. Verify Reissue Purged Check Payment NFDE Form

**11/20/2015**

Checks become stale dated 180 days after the issue date, and can no longer be cashed. Funds from stale dated checks are returned to the PBGC Trust Account.

Each month PBGC's paying agent sends a *Purged Check Listing* to BPB of all checks that are not cashed, are outstanding for more than 180 days, and are stale dated.

## BPB Reissue Purged Check Coordinator

1. Generates a *Purged Check Report* no later than the last week of the month after receiving the *Purged Check Listing.*
2. Distributes an individualized report to each responsible Mail POC.

   FBAs fax requests for Reissue Purged Check NFDE forms to (202) 326-4214 or (202) 326-4216.

## BPB Reissue Purged Check Processor

1. Review each submitted Reissue Purged Check NFDE form and verify that it adheres to the following criteria:
   - Form Type: Is **Reissue Purged**.
   - Action Type: Is **Add**.
   - Submitter: Signed the form.
   - Submitter's name or User ID: Printed on the form.
   - Approver: Signed the form.

     Verify that the designated approver is on the list of AWA Approvers for NFDE.
   - Check Date: Matches the date on the BPB Payment Schedule.
   - Amount: Check the list of AWA Approvers for the NFDE Team to verify that the designated approver is authorized to approve the payment amount on the form.

   Does not meet the criteria above, e-mail the submitter indicating that the form does not meet the criteria and provide a reason for the rejection.
2. Locate the participant's record in PLUS Web.
3. Verify the following information submitted on the Reissue Purged Check NFDE form matches the participant's record in PLUS Web:
   - **Participant Search** page, enter the **SSN** to verify the following item:
     - SSN
   - **Search Results** page:
     - Case Number: Matches Account ID on form.
     - Address
     - Name
   - **Pension Recurring Participant Details** page:
     - Participant status: Is **Active**.

- Union ID: Matches Payment ID on form.

- **Pension Check Ledger History** page:
  - Check Number
  - Check Date
  - Payment Status: Is **Purged**.
  - Amount: Is net amount.

  If the address does not match the information in PLUS Web, check Spectrum.

  The information in Spectrum takes precedence. If any of the other items listed do not match the participant's record in PLUS Web, e-mail the submitter indicating the form does not match the participant's record, and provide a reason for the rejection.

4. Deliver the verified forms to the NFDE team to process.

# Other Pre-Check Run Discrepancy Reports

**11/20/2015**

Each month the BPB Management Analyst identifies and corrects payments that may be incorrect before the monthly check-run. The date varies according to the *Monthly Payment Schedule* posted on PBGC's Intranet. The Reports used in this process include:

- *More Than One Pay Source Report*
- *Missing Payment ID Report*
- *Negative Check Report*
- *Inconsistent Pay Status Report*
- *AS Control Report*
- *Status 3 Report*

# Duplicate Pay Source Report

**11/20/2015**

The *More Than One Pay Source Report* is commonly referred to as the *Duplicate Payment Report* because it lists payees with more than one pay source that may be getting incorrect payments.

# Overview for Duplicate Pay Source Report

**08/30/2011**

The purpose of this process is to identify and correct PLUS pay source records that may produce incorrect payments prior to the check-run, to ensure participant's benefit payment is accurate, and to ensure benefit payments are accurately posted to participant ledgers in Spectrum/PRISM.

# Workflow for Duplicate Pay Source Report

**08/30/2011**

|---|---|
| **Purpose** | To identify and correct PLUS pay source records that may produce incorrect payments prior to the check run; to ensure benefit payments are accurately posted to participant ledgers in Spectrum/PRISM. |
| **Guidance** | TP 28<br>NFDE<br>Trial Balance<br>Workflow for Duplicate Pay Source Identification |
| **Procedure Owner** | BPB Management Analyst, POC |

PBGC's paying agent stores the *More Than One Pay Source Report* on the PBGC Portal. PBGC's paying agent receives the NFDE and e-mails the *More Than One Pay Source Report E-mail* to the Management Analyst.

## BPB Management Analyst

1. Receive the *More Than One Pay Source Report Portal E-mail* that the *More Than One Pay Source Report* was uploaded.
2. Research each name on the list using PBGC Image Viewer, Case Management System (CMS), and Spectrum to identify the POC for the plan and determine potential cause of the negative check and a corrective action.
3. Research each name on list in PLUS and obtain screenshot of *Pay Source* screen.
4. E-mail the POC, POC Supervisor, and Cc: the Management Analyst indicating multiple pay sources were identified during trial balance that need to be reviewed:
   - Indicate the payee is scheduled to receive payment from more than one pay source.
   - Instruct POC to complete a NFDE form to correct the pay source if necessary.
   - Instruct POC to forward the approved NFDE form to the attention of the Management Analyst.
5. Receive e-mail from the POC indicating the data was valid or invalid.
   - If data is invalid, receive the NFDE. Check to ensure that it is correct, signed, dated, properly approved, and fax to PBGC's paying agent before the check-run.
6. Receive the *More Than One Pay Source Report E-mail* on check-run day, use the report to monitor corrections, and repeat steps 1-5.
7. Print and maintain copies of e-mails and NFDE for follow up the day of the check-run.
8. Re-check PLUS on check-run day to ensure NFDE changes were made.
9. Check Spectrum ledgers following check run to ensure no inaccurate payments for payees listed on the *More Than One Pay Source Report*.
   - If the data is accurate, forward copy of e-mail to DMC for imaging to IPS.
   - If the data is inaccurate, send e-mail to POCs indicating inaccurate payments.
10. Make changes in PLUS.

## POC

11. Receive e-mail and research PLUS and Spectrum to determine if multiple pay sources are valid or if there are inaccurate payments.
    - If the data is valid, e-mail the BPB Management Analyst indicating the payment from multiple pay sources is valid.
    - If the data is invalid, complete a NFDE and forward it to the Management Analyst.

# Missing Payment ID Report

**11/20/2015**

The *Missing Payment ID Report* process is executed to identify and correct PLUS payment records that do not have a Payment Identification Number (referred to as a Payment ID or Union ID in PLUS) before the monthly check-run. Ensure benefit payments are accurately posted to participant ledgers in Spectrum/PRISM.

# Overview for Missing Payment ID Report

**11/20/2015**

PBGC's paying agent generates and sends the *Missing Payment ID Report* twice monthly. The date is variable and can be found on the *Monthly Payment Schedule* on PBGC's Intranet. The first report is received from PBGC's paying agent the first day Trial Balance is sent. PBGC's paying agent sends an e-mail notification on the Check-Run Date to ensure all missing Payment ID's are identified and corrected before the check-run.

# Correct Double Payments in PLUS

**11/20/2015**

| | |
|---|---|
| **Purpose** | To identify and correct PLUS pay source records that may produce incorrect payments prior to the check run; to ensure benefit payments are accurately posted to participant ledgers in Spectrum/PRISM. |
| **Guidance** | TP 28<br>NFDE<br>Trial Balance<br>Workflow for AS Control Report |
| **Procedure Owner** | BPB Senior Management Analyst |

The purpose of this process is to prevent double payments.

## BPB Senior Management Analyst

1. Retrieve the *Approval Service Control Report* from the PBGC Portal project called "BPB Integrator Operations" within one business day after the Last Minute Cutoff.

   This project has sub-folders for each payment cycle.

2. If the report is not there by 10:00 A.M., contact BMA Operations, who is responsible for posting the report there.
3. Check the worksheet out of the PBGC Portal.
4. Save a copy to your `H: drive` and do not change the name of the report.

   The file has worksheets for AUTHL and AUTHP.

5. Research to determine if pay sources match on PLUS and Spectrum.
6. Check PBGC Image Viewer to determine if a NFDE was completed.
7. Where there is a potential double payment:
   - Send the *AS Control Report E-mail* to the User, FBA Project Manager and Assistant Project Manager, COR, and Cc: the BPB Management Analysts, and request that they complete (and if faxing send it to your attention) a NFDE form to update PLUS by close of business.
   - Monitor the fax for the NFDE and hand-deliver it to a BPB Management Analyst.
8. Enter the action performed in the Comments column of the worksheet.
   - If no action is necessary, explain why.
9. Save the updated worksheet on the `H: drive` and keep the same name.
10. Check the updated worksheet back into the PBGC Portal within one business day of the Last Minute Cutoff.

# Ledger Load

**08/30/2011**

The Ledger Load process is executed to coordinate Ledger Loads with PBGC's paying agent and OIT and ensure data quality of ledgers.

## In this Section

Overview for Ledger Load ..... 2
Workflow for Ledger Load ..... 3
Ledger Load Procedures ..... 6
Resources for Ledger Load ..... 10

# Overview for Ledger Load

**11/20/2015**

Ledgers are created as part of the check-run process. Each check-run creates a ledger file. PBGC's paying agent uploads Ledger Files to PBGC's servers in accordance with the *Ledger Load Schedule* published on PBGC's Intranet. Newly uploaded ledgers are immediately accessible within PLUS Web and are accessible within Spectrum within two business days.

Ledgers are referred to by FOD as Subsidiary Ledgers or Sub-Ledgers, while participants refer to ledgers as payment history.

# Workflow for Ledger Load

**08/30/2012**

**Note** For a hard copy of the workflow, click on the link to the printable PDF version, and print on Tabloid size paper (11" x 17") in landscape orientation for optimal output. Specify these options from the **Print** dialog box.

# Ledger Load Procedures

**11/20/2015**

| | |
|---|---|
| **Purpose** | To coordinate Ledger Loads with PBGC's paying agent and OIT and ensure data quality of ledgers. |
| **Guidance** | PRISM Online User Manual<br>Workflow for Ledger File Load<br>Workflow for Ledger File Error Correction |
| **Procedure Owner** | Ledger Load Coordinator, BPB Data Integrity Team, CSC DBA |

PBGC's paying agent uploads Ledger Files to the PBGC servers. Once the Ledger File upload is complete, an automated program stages the Ledger File to a temporary database table and generates a *Genesis e-mail notification* from Oracle Server Account to the responsible parties notifying them of the success or failure of the load.

The BPB Data Integrity Team (DIT) receives the *Oracle e-mail notification*, then completes the first section of the *Ledger Load Log* maintained on the PBGC shared network drive (Shared on 'BAPD1' Resources), executes a query producing the *Ledger Pre-Load Report*, and reviews the report results. The BPB DIT logs the inspection results in the second section of the *Ledger Load Log* and saves the *Ledger Pre-Load Report* to the network and shared `I:\Ledger Loads` in a folder named for the current Fiscal Year and month. Each report is numbered and logged.

The BPB DIT inspects the Pre-Load File by comparing the Record Count and PRISM Ledger Gross figures to the Control Total Record Count and CTRL Gross from the *Ledger Pre-Load Report*. For Non-Adjustment files, both pairs of numbers must match for the Ledger File to pass inspection at the pre-load phase. For Adjustment files, only the record counts must match. The number pairs should also match the figures presented in the data load e-mail from Oracle Server Account.

If the Ledger File inspection is successful, the BPB DIT notifies OIT to load the Ledger File to production. If the Ledger File fails inspection, the BPB DIT coordinates corrective action with OIT and PBGC's paying agent. Once OIT notifies the BPB DIT the Ledger File has been loaded to production, the BPB DIT performs a second inspection of the Ledger File by launching the Ledger Reporting Utility (LRU) and reviewing the results.

The BPB DIT inspects the Post-Load File by comparing the Record Count and PRISM Ledger Gross figures to the Control Total Record Count and CTRL Gross from the *Ledger Pre-Load Report*. Both pairs of numbers must match for the Ledger File to pass inspection at the post-load phase, and should also match the figures presented in the e-mail from the CSC Production DBA.

The BPB DIT logs the relevant data in the third section of the *Ledger Load Log* if the Ledger File passes the second inspection and saves the *LRU Report* generated by the second inspection to the network and shared `I:\Ledger Loads`. If the Ledger File fails inspection, the BPB DIT coordinates corrective action with OIT.

Post *PAAS Metrics Report* for the monthly check run and weekly off-cycle check runs to the PBGC Portal by noon of the deadline dates. For off-cycles, the deadline is typically the last business day of the week unless that is a holiday, then the deadline is the business day following the holiday. For the monthly check run, the deadline is the last business day of the month.

## In this Section

1. Load Ledger File ..... 7
2. Correct Post-Load Ledger File ..... 9

# 1. Load Ledger File

**11/20/2015**

The *Ledger Load Schedule* describes action items and deadlines for tasks not included in the *Monthly Payment Schedule*; and is published to PBGC's Intranet by the 21st of each month for the following month's activity. OIT loads corrections to production by the last workday of each month.

---

**Note** Procedures owners are to coordinate with backups at least one week prior to extended absences to ensure that Ledgers are loaded in a timely manner during any absences.

---

## Ledger Load Coordinator

1. Generate the *Ledger Load Schedule* and publish to PBGC's Intranet.
2. E-mail the *Ledger Load Schedule* to the OIT CSC DBA, PBGC's paying agent, and the BPB EBLS Advocates.

## BPB Data Integrity Team

3. Receive the *Oracle e-mail notification* of the Ledger File upload and complete the first section of the *Ledger Load Log* located on the shared `I:\Ledger Load`.
4. Execute a query that produces the *Ledger Pre-Load Report* and review the report result.
5. Log the inspection results in the second section of the *Ledger Load Log*.
6. Save the *Ledger Pre-Load Report* to the network and shared `I:\Ledger Loads` in a folder named for the current Fiscal Year and month.
7. Perform first inspection of the Ledger File:
   - Compare the Record Count and PRISM Ledger Gross figures to the Control Total Record Count and CTRL Gross from the *Ledger Pre-Load Report*.
   - For Non-Adjustment files, both pairs of numbers must match for the Ledger File to pass inspection at the pre-load phase.
   - For Adjustment files, only the record counts must match.

     The number pairs should also match the figures presented in the data load e-mail from Oracle Server Account.
8. Notify OIT to load the Ledger File to production if the Ledger File inspection is successful.
9. Coordinate corrective action with OIT and PBGC's paying agent if the Ledger File fails inspection.
10. Perform second inspection of the Ledger File by launching the Ledger Reporting Utility (LRU) and review the results:
    - Compare the Record Count and PRISM Ledger Gross figures to the Control Total Record Count and CTRL Gross from the *Ledger Pre-Load Report*.

      Both pairs of numbers must match for the Ledger File to pass inspection at the post-load phase, and should also match the figures presented in the e-mail from the CSC Production DBA.
11. Log the relevant data in the third section of the *Ledger Load Log* if the Ledger File passes the second inspection.
12. Saves the *LRU Report* generated by the second inspection to the network and shared `I:\Ledger Loads`.

13. Coordinate corrective action with OIT if the Ledger File fails inspection.

## 2. Correct Post-Load Ledger File

**11/20/2015**

### Ledger Load Coordinator

1. Deliver *Ledger Error Correction Candidates Report* to BPB Data Integrity Team.
2. Deliver correction reports to CSC DBA (GSSBFN and GSSBFN_detail).
3. Confirm corrections.

### BPB Data Integrity Team

4. Use the PRISM Ledger Error application to input corrections and notify the Ledger Load Coordinator when complete.

### CSC DBA

5. Load corrections to database and notify Ledger Load Coordinator when complete.

# Overview for Post Balancer

**03/29/2012**

The Balancer Team reviews and facilitates correction of unmatched payment records where the payments approved in Spectrum differ from the ledger record loaded into Spectrum from PLUS. The Balancer Team also provides assistance to the FBAs, PVAs, or TPDs.

# Post Balancer Procedures

**03/29/2012**

| | |
|---|---|
| **Purpose** | To review and facilitate correction of unmatched payment records where the payments approved in Spectrum differ from the ledger record loaded into Spectrum from PLUS. |
| **Guidance** | Analyze Variances Instructions |
| **Procedure Owner** | Balancer Administrator, Senior Pension Benefit Analyst, Data Integrity Team Supervisor |

## In this Section

1. Generate Post Balancer Reports ..... 5
2. Reconcile Monthly Post Balancer Reports ..... 7
3. Review the Post Balancer Reconciliation Reports ..... 9

# 1. Generate Post Balancer Reports

**11/20/2015**

## Balancer Administrator

1. Ensure the first CRON job for the Spectrum projection was run the day after the Last Minute file on the *Monthly Payment Schedule* to capture authorized payments for the month.
2. Ensure the second CRON job for Out of Balance (OOB) and Variance determination, was run on the ninth calendar day after the Last Minute file date.
   - **Example**

     If the Last Minute File date is 01/18/2012, the second CRON job is scheduled to run on 01/27/2012.

   The second CRON job should not be run until after the split lump ledgers are loaded.

   a. Review the proposed *Monthly Payment Schedule*.

   b. Reschedule the second CRON job for one calendar day after the split lump ledgers are loaded if the split lump ledgers are not scheduled to be loaded until after the ninth day after the Last Minute file.
      - **Example**
        - If the Last Minute file date is 12/16/2011, add nine days to figure out when the second CRON job is scheduled to run (12/25/2011).
        - If the split lump ledgers will not be loaded 12/27/2011, reschedule the second CRON job to run on 12/28/2011.
        - Send a request to the Service Desk to reschedule the CRON jobs.

   c. Request the Payment Schedule Preparer to correct the date of the second CRON job to the rescheduled date.
3. Create the *Balancer Reports* and check them for reasonableness: correct date, correct amounts from Spectrum and ledgers, and the counts on the *individual reports* match the *Balancer Status Report*.
4. Copy the *Excel spreadsheet reports* to the directory `I:\Balancer\YYYY\YYYYMM`.

   BMA Operations provides six reports including status codes that are uploaded to the PBGC Portal ten days after the Last Minute file date.
5. Update *Repeaters List* on the I: drive.
6. Initiate TAR's for system issues.
7. Prepare six *Balancer Control Sheets*, one for each of the following types of variances:
   - Spectrum Gross is Null – Annuities and Specials
   - Ledger Gross is Null – Annuities and Specials
   - No Match – Annuities
   - Spectrum Gross is Null – Lumps
   - Ledger Gross is Null – Lumps
   - No Match – Lumps

   The template is located in `I:\Balancer\BalrControlSheet.doc`.
8. Type the following in the comments section of the Control Sheets:

- Spectrum Projection Date: From the first Oracle e-mail. It should be the day after the Last Minute file.
- Split Ledger Load Date: From the Payment Schedule on the Intranet.
- Balancer Report Run Date: From the second Oracle e-mail. It should be nine calendar days after the Last Minute file.

9. Give the *Balancer Control Sheets* and *Balancer Reports* to the Data Integrity Team (DIT) Supervisor two business days after the second CRON job.

## 2. Reconcile Monthly Post Balancer Reports

**11/20/2015**

The Balancer Team completes reviews and corrections within four weeks of receipt of reports from Balancer Administrator and returns the report to the Data Integrity Team (DIT) Supervisor.

The DIT Supervisor certifies the BPB Balancer Error Correction process is complete and forwards the *Balancer Report* and *Balancer Control Sheets* to the Balancer Administrator ten business days after receipt from the Balancer Team.

### Data Integrity Team

1. Write or stamp the date received on the *Balancer Control Sheets*.
2. Review the *Balancer Report* for variances.
3. Analyze the variances between Spectrum and PLUS.

   See Analyze Variances Instructions for additional guidance.
4. E-mail the POC, Variance Coordinator, PVA or FBA, Project Manager, Assistant Project Manager, and Balancer Administrator the transaction error and provide the information about how to resolve the variance and request the POC respond to the e-mail message within two business days.
   - Cc: the TPD Manager if the POC is not the PVA or FBA.

     Refer to the BAPD Community Portal Page for the FBA contacts list.

     Refer to the *Variance Coordinators List* provided by the Trial Balance Administrator.
   - Send a second reminder e-mail requesting the POCs to follow-up within one business day.
   - E-mail the BPB Branch Chief, MCD Compliance, and COR if there is no response to the reminder e-mail.

     Corrections may be necessary on Spectrum, PLUS or both.

     PLUS corrections may require a NFDE form, or instructions to the POC to e-mail the Management Analyst to instruct PBGC's paying agent to make the corrections.
5. Use the *Balancer Variance Cover Sheet* as a guideline for which documentation to attach for each variance.
6. Update each variance in the Balancer application:
   a. Choose the out of balance (OOB) condition, corrective action, and enter comments as necessary.
   b. Close the variance in the Balancer application once it is resolved.
7. Run the *Balancer Report* reflecting that all variances were closed.
8. Sign and date the *Balancer Control Sheet* and return the finished package, along with the final *Balancer Report*, to the DIT Supervisor for review.
9. Update the *Balancer Review Status Report* four weeks after receipt.

### Data Integrity Team (DIT) Supervisor

10. Review and verify resolution and supporting documentation for all variances.
11. Update the *Balancer Review Status Report.*
12. Sign and date the *Balancer Control Sheets* and forward the finished package to the Balancer Administrator within ten business days of receipt from the DIT.

## 3. Review the Post Balancer Reconciliation Reports

**11/20/2015**

The Data Integrity Team (DIT) performs Reconcile Post Balancer Reports for each month, and returns the completed *Balancer Reports* and *Balancer Control Sheets* to the Balancer Administrator.

### Balancer Administrator

1. Review and certify the completeness and accuracy of the *Balancer Reports* and the *Balancer Control sheets* within one week after they are received from the DIT.
2. Run the *Balancer Status Report* to show that all variances were closed.
3. Use the Random Number Generator to insert the maximum number (the sample size is 20% of the maximum number) from each of the following six reports:
   - *PRISM Annuities and Special Balancer Report - Prism Gross is NULL.*
   - *PRISM Annuities and Special Balancer Report - Ledger Gross is Null.*
   - *PRISM Annuities and Special Balancer Report - Prism Gross and Ledger Gross Do Not Match.*
   - *PRISM Lump Sum Balancer Report - Prism Gross is Null.*
   - *PRISM Lump Sum Balancer Report - Ledger Gross is Null.*
   - *PRISM Lump Sum Balancer Report - Prism Gross and Ledger Gross Do Not Match.*
4. Highlight the specified number on the reports.
   a. Review the participants.
   b. Generate the *Random Number Report*.
5. Submit the *Portal Report for Post Balancer* by the 15th of the month following the payment month.
   - **Example**

     The Portal Report for the October 11th pay cycle is due November 15th:

   a. Complete the *Portal Post Balancer Checklist* on `I:\Balancer`.
   b. Access the PAAS Metrics Document Submission Portlet on the PBGC portal.
   c. Select Post Balancer.
   d. Select the date.
   e. Wait for the screen to refresh.
   f. In the "Upload file" box, attach the checklist you just completed.
   g. Check the boxes to indicate whether payments were on time and accurate.
   h. Submit the report.
6. Prepare the *Post Balancer Closeout Memo* for the BPB Branch Chief.
   - Include a statement above the Balancer Administrator's signature attesting to the review of the specifically identified sample.
7. Maintain hardcopy files of the monthly *Balancer Reports*, *Balancer Control Sheets*, and supporting documentation for current fiscal year and prior fiscal year.
8. Update the *Balancer Review Status Report*.

9. Upload the following documents to the PBGC Portal:
    - *BMA Ops Annuities and Special Balancer Report - Prism Gross is NULL.*
    - *BMA Ops Annuities and Special Balancer Report - Ledger Gross is NULL.*
    - *BMA Ops Annuities and Special Balancer Report - Prism Gross and Ledger Gross Do Not Match.*
    - *BMA Ops Lump Sum Balancer Report - Prism Gross is NULL.*
    - *BMA Ops Lump Sum Balancer Report - Ledger Gross is NULL.*
    - *BMA Ops Lump Sum Balancer Report - Prism Gross and Ledger Gross Do Not Match.*
    - *PRISM Annuities and Special Balancer Report - Prism Gross is NULL.*
    - *PRISM Annuities and Special Balancer Report - Ledger Gross is Null.*
    - *PRISM Annuities and Special Balancer Report - Prism Gross and Ledger Gross Do Not Match.*
    - *PRISM Lump Sum Balancer Report - Prism Gross is Null.*
    - *PRISM Lump Sum Balancer Report - Ledger Gross is Null.*
    - *PRISM Lump Sum Balancer Report - Prism Gross and Ledger Gross Do Not Match.*

# Funding Reconciliation

**03/28/2013**

The Funding Reconciliation process ensures that funds requested by PBGC's paying agent are used for approved benefit payments for Corporate, Class Action (Page-Collins) and Fleming, and that non-benefit payment activity funded by PBGC is properly documented.

## In this Section

Overview for Funding Reconciliation .....2
Workflow for Funding Reconciliation.....3
Funding Reconciliation Procedures .....4
Resources for Funding Reconciliation .....10

# Overview for Funding Reconciliation

**11/20/2015**

PBGC's paying agent stores the *Wire Transfer Request Letter* from its Public Funds Division on the PBGC Portal, initiating the monthly funding reconciliation process. The BAPD Deputy Director or designated alternate (BAPD Front Office) approves the funding requested in the *Wire Transfer Request Letter*. The BAPD Front Office prepares and signs a *Wire Transfer Request Memorandum* for PBGC's Financial Operations Department (FOD) authorizing a funds transfer to PBGC's paying agent.

BPB compiles the supporting documentation.

# Workflow for Funding Reconciliation

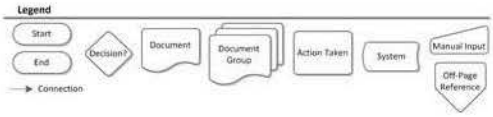
Workflow Legend



# Funding Reconciliation Procedures

**11/20/2015**

| | |
|---|---|
| **Purpose** | To reconcile funds requested by PBGC's paying agent to benefit payment records; to differentiate funding for benefit payments from funding for non-benefit payment activity; to review and audit the funding request documents. |
| **Guidance** | N/A |
| **Procedure Owner** | BPB Management Information Specialist, BPB Auditor, BAPD Deputy Director, BAPD Front Office, FOD |

PBGC's paying agent stores the *Wire Transfer Request Letter* with backup documents to the PBGC Portal and posts ledgers for the funded payments to PBGC's servers.

The BAPD Deputy Director, or BAPD Front Office staff drafts the *Wire Transfer Memorandum* to FOD and updates the *Funding Request Tracking Log* on the shared `I: drive`. The BAPD Front Office then scans and stores the Approved *Wire Transfer Memorandum* to the PBGC Portal, and sends a hardcopy to FOD. FOD wires approved funds to the paying agent and produces the *Monthly Benefit Funding Analysis and Benefit Funding Cumulative Totals* documents.

The BPB Auditor, or designated Preparer downloads the Approved *Wire Transfer Memorandum* from the PBGC Portal, assembles the backup documents that support the funding request, and reviews the documentation for accuracy and completeness. The BPB Auditor downloads the *Funding Reconciliation Excel Worksheet template* from the PBGC Portal, enters data into the worksheet, and balances the worksheet. Once the worksheet is balanced, the BPB Auditor stores the completed worksheet to the PBGC Portal and delivers the assembled hardcopy backup documents to the BPB Management Information Specialist for review.

BPB Management Information Specialist, or designated Reviewer downloads the completed *Funding Reconciliation Excel Worksheet* from the PBGC Portal and reviews the worksheet and hardcopy backup documents. The BPB Management Information Specialist then prepares the *Funding Reconciliation Memorandum* with attachments and routes the hardcopy memo to the BPB Branch Chief for review, concurrence and routing to the RSD Manager and BAPD Deputy Director.

The BPB Branch Chief reviews and approves the *Funding Reconciliation Memorandum* and routes to the RSD Division Manager for review. Both the Branch Chief and Division Manager must complete their review within one week after the monthly BPB After-Action meeting—normally held by the end of the month following the payment month (although scheduling conflicts may require extension to the first week of the following month). The RSD Manager forwards the reviewed memo to the BAPD Front Office.

1. Approve Funding Request Memorandum .....5
2. Balance Funding Reconciliation Worksheet.....7
3. Determine Non-Benefit Payments .....9

# 1. Approve Funding Request Memorandum

**11/20/2015**

## BAPD Front Office

1. Print the *Funding Request Letter* from the PBGC Portal.
2. Print the *Participant Payment Report* (PPR) and *Ledger Control Report* as supporting documentation for the *Wire Transfer Request Letter*.
3. Provide the *Funding Request Letter*, *PPR* and *Ledger Control Report* to the BAPD Deputy Director for review.
4. Create the *Wire Transfer Request Memorandum* if the BAPD Deputy Director authorizes the *Wire Transfer Request Letter*.
5. Scan the signed *Wire Transfer Request* and store on the PBGC Portal.

   All individuals in Cc: of memorandum should be team members of the PBGC Portal folder and automatically notified when the memorandum is uploaded.
6. Send the original hard copy of the Approved *Wire Transfer Request Memorandum* to FOD.

## BAPD Deputy Director

7. Update the *Benefit Funding Tracking Log* located `I:\WP\Department\Candee\Benefit Funding Request\Post-Portal Request.`
8. Draft, sign, and send the Approved *Wire Transfer Request Memorandum* authorizing FOD to send money to PBGC's paying agent.

## FOD

9. Receive the *Wire Transfer Request Memorandum* and send funds to PBGC's paying agent.

## BPB Auditor

10. Download the Approved *Funding Request documentation* from the PBGC Portal and determine the month of the funding request.

    - **Example**

      A memorandum dated March 31, 2011, with funds scheduled to arrive at PBGC's paying agent on April 2, 2011 will be included in the April reconciliation.

      The month of the funding request is based on the arrival date stated in the BAPD Funding Memorandum.
11. Obtain a copy of the *Funding Request Tracking Log* maintained by the BAPD Front Office.
12. Match the benefit funding number of the memorandum to a corresponding entry in the BAPD Front Office *Funding Request Tracking Log* and ensure that copies of all funding memorandums authorizing the transfer of funds to PBGC's paying agent during the reconciliation period are on hand.
13. Document discrepancies or irregularities in the Funding Request numbering sequence in the Notes tab of the *Funding Reconciliation Details Spreadsheet*.
14. Review the funding backup documents received from PBGC's paying agent and the Approved *Wire Transfer Request Memorandum* from the BAPD Director or Deputy.

    Each funding request is identified by a unique funding request sequence number.

15. Compile a binder of funding support documents from PBGC's paying agent and FOD.
16. Stores spreadsheets for Corporate, Page-Collins, and Fleming on the PBGC Portal.

## BPB Management Information Specialist

17. Review the *Funding Reconciliation Details Spreadsheet* from the BPB Auditor for accuracy and completeness.
18. Compile and send the following documents to the BPB Branch Chief and RSD Manager by the 22nd of the month:
    - *Funding Reconciliation Memorandum.*
    - *Funding Reconciliation Summary.*
    - *Funding Reconciliation Details Spreadsheet.*

## 2. Balance Funding Reconciliation Worksheet

**11/20/2015**

### BPB Auditor

1. Download the *Funding Reconciliation Excel Worksheet Template* (WKS) from the PBGC Portal (`BPB Internal Controls Project\D05 - Funding Recon Corporate, PC, Flem (Monthly)\Templates\YYYYMM_Corp_Fund_Rec_template.xls`).

   The template has four tabs: 1) Summary Template, 2) Detail Template, 3) MIS Template, and 4) Notes.

2. Complete the sections in the Summary Template while referring to the *Wire Transfer Request Memorandum* prepared by the BAPD Front Office.
   - Date: record "arrive on" dates of the funding request.
   - Benefit Funding Number, in sequential order.
   - Approved Funding amount.
   - Funding Type.
   - NBP Funding.
3. Use the Excel Insert Worksheet function to create a separate worksheet for each funding request.
4. Copy/Paste the Detail Template to each worksheet.
5. Rename each worksheet tab to match the Funding Request Number.
6. Complete each section of the detail worksheet:
   - Variance – requires no input, formula cells calculate the variance.
   - Funding Request Number & Approved Funding Amount – insert links back the Summary worksheet for these.
   - Bank Backup – Record details from the backup documentation supplied by the bank:
     - Date of the document.
     - Document type.
     - Dollar amount supported by the documentation.
     - Subtotal is calculated automatically.
   - Benefits Paid and NBP
     - Doc ID or Log Number - Enter the document ID:
       - If it's a *Ledger Load Report*, enter the log number for the report.
       - If a screenshot, enter the last name of the payee.
     - Date – For *Ledger Load Reports* enter the check or payment date.
     - Type – RMSM, LSM, OC as appropriate
     - Benefits Paid $$$ - Enter dollars and cents paid.
7. Compare the total for each of the three sections (PBGC Funding, PBGC's paying agent Documentation and Benefits Paid).
   - If the totals match and there are no variances, the spreadsheet is balanced, and continue to step 11.

- If the spreadsheet does not balance, investigate the variances, resolve, and continue to step 8.

8. Document variances in the Notes tab of the spreadsheet, thoroughly and completely explaining the variances for the reviewer.
9. Flag unresolved items for follow-up and continue to follow up until flagged items are resolved.
10. Summarize and report unresolved items at the end of the fiscal year.
11. Upload spreadsheet to the PBGC Portal.

## 3. Determine Non-Benefit Payments

**11/20/2015**

Funds wired to the PBGC's paying agent are used for two things: benefit payments that create ledger entries, or an action that does not result in a benefit payment, also known as a Non-Benefit Payment (NBP). NBPs usually do not create ledger entries. An important part of the Funding Reconciliation process is to identify and document the NBPs.

Reasons for NBPs include but are not limited to:

1. Refunds by the paying agent to PBGC's trust account for multiple returns of funds (Returns to Trust, or RTT).
2. Over withholding of taxes.
3. Recovery collection errors.

Researching NBPs includes checking the customer record on PBGC's paying agent's benefit payment system to ensure that the funding did not result in a benefit payment, or that a ledger entry for the requested funds does not exist.

---

**Note** NBPs do not produce ledgers – ledger reports are not applicable.

---

### BPB Auditor

1. Review the funding backup documentation and determines reason for the NBP. NBP activity documentation from PBGC's paying agent includes but is not limited to:
   - *Reconcilement Correction Request Sheet.*
   - *Outstanding Check Reconciliation Listing*.
   - *Purge Sheet* with input date and record number.
   - *Memorandum* in re: Returns of Benefit Payments for CDA # xxxxxxxxx, listing record numbers and totals for individual Purge Sheets.
   - *Pension Check Request.*
   - Front and back copies of checks.
   - *Purged Check List*.
   - Copy of PBGC *Check Action Request Form* (CARF).
2. Look for the customer record in PLUS and ensure that the funding did not result in a benefit payment, or that a ledger entry for the requested funds does not exist.

   The PLUS Document Type should not be 1, 2, 3, or 4 the types for benefit payments produced by a check run or 5 – a manual check.
3. Update the *Funding Reconciliation Details Spreadsheet* in the Documentation, the Benefits Paid, and NBP sections using the designation `NBP` to record the NBP data.

Resources for eCARF ..... 37

# Overview for eCARF

**03/30/2016**

A collection of eCARFs is used to initiate Aftermath Transactions following check run processing. The forms are used by staff in CSD, PVAs, FBAs, BPD, and the CCC to initiate a request after confirming with PBGC and PBGC's paying agent systems that the requestor of the transaction is a current participant and that the request is valid based on their payment record. Then, BPD or PBGC's paying agent staff process the eCARF form.

An eCARF is initiated based on information from multiple sources including reports (Death Match, Purged Check, Outstanding Check) and calls received from participants inquiring or reporting an incident regarding their payment. A staff member reviews the information and determines the appropriate action based on the circumstances.

What are eCARF Transactions?

eCARF transactions involve two payment types: ACH and check payments. The eCARF process consists of 10 transactions performed by two groups: BPD and PBGC's paying agent (SSC). Of the 10 transactions, BPD performs four and PBGC's paying agent performs the remaining six transactions. For additional information, see the eCARF Processing Entities and Transactions Table.

For additional information about how the eCARF Portlets are organized, see the Structure of the eCARF Portal Community*.

**Note** The data needed to complete these transactions includes personally identifiable information (PII) and is considered privacy data that must be protected according to PBGC Information Security policy. See Appendix A Sensitive Information for additional information.

### eCARF Processing Entities and Transactions Table

| Processing Entity | Check Payment | ACH Payment | Job Aid |
|---|---|---|---|
| **BPD** | **eCARF-BPD Portlet**:<br>• **Stop and Reissue**: Use this transaction to stop a purged, damaged, or lost check and reissue it to the payee. The information on the check must be identical to the check being replaced.<br>• **Return to Trust**: Use this transaction to stop and return a payment to trust. This may be due to death or when a participant decides to return to the workforce after retirement. | **eCARF-BPD Portlet**:<br>• **ACH Deletion**: Use this transaction to delete an ACH payment within the cutoff date range specified on the payment schedule. | eCARF BPD Transactions Job Aid |

* Operating units initiate eCARFs from one of the data entry portlets in the BAPD Paying Agent Portal Community. Each data entry portlet has work queues associated with it that prompt BPB or PBGC's paying agent to perform the activities required for the given transaction. The image below shows all data entry portlets and work queues available to a Portal Administrator. Staff in operating units, BPB or at PBGC's paying agent only see those portlets that are appropriate to their job duties.{FILE6 ...

| | | | |
|---|---|---|---|
| | **eCARF-SSC Portlet**:<br>• **Stop and Reissue with Address Change**: Use this transaction to stop and reissue a payment to a new address when the participant relocates temporarily. | | |
| **PBGC's Paying Agent** | **eCARF-SSC Portlet**:<br>• **Stop and Reissue with Address Change**: Use this transaction to stop and reissue a payment to a new address when the participant relocates temporarily.<br>• **Stop and Reissue Deduction Check**: Use this transaction to stop and reissue a deduction check (for example, IRS levee or QDRO).<br>• **Stop and Reissue ACH Replacement Check**: Use this transaction to reissue an ACH replacement check.<br>• **Return to Trust ACH Replacement Check**: Use this transaction to return an ACH replacement check to trust.<br>**eCARF-Payment Verification Portlet**:<br>• **Copy of Paid Check**: Use this transaction to obtain a photocopy of the front and back of a negotiated check that is reported as not cashed by the participant. | **eCARF-Payment Verification Portlet**:<br>• **ACH Tracer**: Use this transaction to trace an ACH payment when a participant claims not to receive the payment by the third of the month. The request can be made for the current month and one month prior.<br>**eCARF ACH Reclamation:**<br>• **ACH Reclamation**: Use this transaction to reclaim funds electronically deposited into a deceased payee's account. | SSC eCARF Transactions Job Aid |

Types of Sources that Initiate an eCARF

The Types of Sources that Initiate an eCARF Table presents the different ways to initiate an eCARF.

### Types of Sources that Initiate an eCARF Table

| Source Type | Originator | Frequency | Description | Recipient |
|---|---|---|---|---|
| Participants Calls | Participants or their representatives (family member, nursing home, power of attorney) | Daily | Calls received from participants inquiring or reporting an incident regarding their payment. | CCC, FBAs |
| Death Match Report | PBGC's paying agent | Weekly | List of PBGC's deceased participants. | CSD, FBAs |
| Purged Check Report | PBGC's paying agent | Monthly | List of checks that have not been cashed or negotiated within the specified 180-day period. The checks cannot be negotiated. | CSD, FBAs |
| Outstanding Check Report | PBGC's paying agent | Quarterly | List of checks that have not been cashed but are still within the 180-day period, and therefore valid. | CSD, FBAs |

# eCARF Procedures

**03/30/2016**

| | |
|---|---|
| **Purpose** | To facilitate correct issuance of benefits to participants, to ensure the proper use of the eCARF Portlets and Queues, and to ensure the eCARF data is entered correctly. |
| **Guidance** | PBGC Directive IM 10-3 Protecting Sensitive Information |
| **Procedure Owner** | BPD and PBGC's paying agent |

## In this Section

Process eCARFs - BPD Staff.....6
Process eCARFs - PBGC's Paying Agent Staff .....23

# Process eCARFs - BPD Staff

**03/30/2016**

The ACH Deletion, Return to Trust, Stop and Reissue, and Stop and Reissue with Address Change transactions are initiated by staff members in the CSD, PVAs, FBAs, BPD, and CCC. These staff members are considered submitters. They use the eCARF-BPD Portlet to initiate eCARF transactions.

When a submitter initiates an ACH Deletion, Return to Trust, or Stop and Reissue transaction, the transaction is logged in the eCARF BPD Queue where a BPD staff member can pick it up for processing. A Stop and Reissue with Address Change transaction is logged in the eCARF BPD Approval Queue, and then it moves to the eCARF BPD Queue where a BPD staff member can pick it up for processing.

BPD staff use a series of applications to process eCARF transactions. Spectrum, CRM, and IPS are used to validate participant and payment information. PLUS Web is used for validating information as well as processing eCARF transactions. Additionally, there are numerous Portlets and queues on the Portal used to process eCARF transactions concurrently with PLUS Web.

The following sections provide details for processing each transaction.

## In this Section

BPD eCARF Transactions Job Aid ..... 20

## Process eCARF ACH Deletion

**03/30/2016**

To begin an eCARF ACH Deletion ensure that the check run was processed and that the ledger was posted to PLUS Web by the ACH Deletion Cutoff date that is published in the Monthly Payment Schedule. A BPD staff member completes the following steps to process the eCARF ACH Deletion transaction.

1. Launch PLUS Web and log in.

   The Stop Payment tab opens.

2. Launch the BPD Paying Agent Community and then click the **eCARF BPD Queue** link.

   A list of eCARF transactions displays.

3. From the queue, click the **Created On** date/time link for the first eCARF on the list.

   The eCARF opens in a new window.

4. Determine if the eCARF was submitted by CCC:

   - Not from CCC: Go to step 5.
   - From CCC: Do not process the request. Then, send it back to CCC. Go to step 7 to close out the transaction.

5. Copy the SSN from the eCARF and paste it into PLUS Web, then click the **Search** button.

   The search results for that SSN display.

6. From the search results, locate the record corresponding to the relevant Account ID (Case Number) and verify the following information matches the eCARF:

   - Payee name
   - Plan number
   - Payment type
   - Check date
   - Check amount
   - Check number is 000000000
   - Payment Status is "NA"
   - Stop Payment Requested is "N"

---

**Note** If the request is not for the current month or is missing from the ledger, return the eCARF to the submitter.

---

7. Verify the information matches:

   - If the information does not match:
     a. Click **Edit** at the bottom of the eCARF form.
     b. Select **NO ACTION TAKEN** from the **BPD Action** drop-down menu.
     c. Enter the reason the request cannot be fulfilled in the **BPD Comments** field.
     d. Select **Yes** in the **BPD Complete** field.
     e. Enter today's date in the **Complete Date** field.

f. Click the **Save** button. No further action is required.

The submitter receives an e-mail notification that the transaction moved from the eCARF BPD Queue into the eCARF BPD Completed queue.

- If the information matches, go to step 8.

8. From the search results, click the corresponding **SSN** link.

   The Pension Check Ledger History screen for the selected SSN displays.

9. From the ledger, select the payment that matches the eCARF and click the **Stop Payment** button.
10. From the **Type of ACH Deletion?** section, select the **ACH Deletion** option, then click the **Submit** button.

    A confirmation message states that the transaction has processed.

11. Review the Payment Confirmation page to ensure that the information is correct.
12. On the eCARF form:
    a. Click the **Edit** button.
    b. Select **PLUS UPDATED** from the **BPD Action** drop-down menu.
    c. Select **Yes** in the **BPD Complete** field.
    d. Enter today's date in the **Complete Date** field.
    e. Click the **Save** button.

    The submitter receives an e-mail notification that the transaction is complete. The notification e-mail serves as a prompt for the submitter to print the document and submit it for imaging.

For an example, see *eCARF – ACH Deletion.*

## Process eCARF Return to Trust

**03/30/2016**

Before beginning an eCARF Return to Trust ensure that at least three days have passed since the check run date published in the Monthly Payment Schedule. A BPD staff member completes the following steps to process the eCARF Return to Trust transaction.

1. Launch PLUS Web and log in.

   The Stop Payment tab opens.

2. Launch the BPD Paying Agent Community and then click the **eCARF BPD Queue** link.

   A list of eCARF transactions displays.

3. From the queue, click the **Created On** date/time link for the first eCARF on the list.

   The eCARF opens in a new window.

4. Copy the SSN from the eCARF and paste it into PLUS Web, then click the **Search** button.

   The search results for that SSN are listed.

5. From the search results, locate the record corresponding to the relevant Account ID (Case Number) and verify the following information matches the eCARF:

   - Payee name
   - Plan number
   - Payment type
   - Check date
   - Check amount
   - Check number
   - Payment Status is "NA"
   - Stop Payment Requested is "N"

   **Note** If the payment does not appear in the ledger, send the eCARF back to the submitter.

6. Verify the information matches:

   a. If the information matches, go to step 7.

   b. If the information does not match:

      i. Click **Edit** at the bottom of the eCARF form.

      ii. Select **NO ACTION TAKEN** from the **BPD Action** drop-down menu.

      iii. Enter the reason the request cannot be fulfilled in the **BPD Comments** field.

      iv. Select **Yes** in the **BPD Complete** field.

      v. Enter today's date in the **Complete Date** field.

      vi. Click the **Save** button. No further action is required.

      The submitter receives an e-mail notification that the transaction moved from the eCARF BPD Queue into the eCARF BPD Completed queue.

7. From the search results, click the corresponding **SSN** link.

The Pension Check Ledger History screen for the selected SSN displays.

8. From the ledger, select the payment that matches the eCARF and click the **Stop Payment** button.
9. From the **Type of Return to Trust?** section, select the **Stop and Return to Trust** option, then click the **Submit** button.

   A confirmation message states that the transaction has processed.
10. Review the Payment Confirmation page to ensure that the information is correct.
11. On the eCARF form:
    a. Click the **Edit** button.
    b. Select **PLUS UPDATED** from the **BPD Action** drop-down menu.
    c. Select **Yes** in the **BPD Complete** field.
    d. Enter today's date in the **Complete Date** field.
    e. Click the **Save** button.

    The submitter receives an e-mail notification that the transaction is complete. The notification e-mail serves as a prompt for the submitter to print the document and submit it for imaging.

For an example, see *eCARF – Return To Trust.*

## Process eCARF Stop and Reissue

**03/30/2016**

Before beginning an eCARF Stop and Reissue ensure that at least seven days have passed since the beginning of the payment month published on the Monthly Payment Schedule. A BPD staff member completes the following steps to process the eCARF Stop and Reissue transaction.

1. Launch PLUS Web and log in.

   The Stop Payment tab opens.

2. Launch the BPD Paying Agent Community and then click the **eCARF BPD Queue** link.

   A list of eCARF transactions displays.

3. From the list, click the **Created On** date/time link for the first eCARF on the list.

   Detailed information about the eCARF displays in a new window.

4. Copy the SSN from the eCARF and paste it into PLUS Web, then click the **Search** button.

   The search results for that SSN are listed.

5. From the search results, locate the record corresponding to the relevant Account ID (Case Number) and verify the following information matches the eCARF:

   - Payee name
   - Plan number
   - Payment type
   - Check date
   - Check amount
   - Check number
   - Payment Status is "Outstanding"
   - Stop Payment Requested is "N"

---

**Note** If the request does not appear in the search results, send the eCARF back to the submitter.

---

6. From the search results, click the corresponding **SSN** link.

   The Pension Check Ledger History screen for the selected SSN displays.

7. Scroll to the **Reissue Address** section which shows the address where the check was originally sent.

8. Verify that the address matches Spectrum:

   a. If the address does not match, reject the request as not valid:

      i. Click **Edit** at the bottom of the eCARF form.

      ii. Select **NO ACTION TAKEN** from the **BPD Action** drop-down menu.

      iii. Enter the reason the request cannot be fulfilled in the **BPD Comments** field.

      iv. Select **Yes** in the **BPD Complete** field.

      v. Enter today's date in the **Complete Date** field.

      vi. Click the **Save** button. No further action is required.

      The submitter receives an e-mail notification that the transaction was not approved.

b. If the address matches:

   i. In PLUS Web, scroll to the **Type of Stop & Reissue?** section.

   ii. Select the **Stop & Reissue to Participant** option, then click the **Stop Payment** button.

   A confirmation message states that the transaction has processed.

   iii. Review the Payment Confirmation page to ensure that the information is correct.

   iv. On the eCARF form:

      1. Click the **Edit** button.
      2. Select **PLUS UPDATED** from the **BPD Action** drop-down menu.
      3. Select **Yes** in the **BPD Complete** field.
      4. Enter today's date in the **Complete Date** field.
      5. Click the **Save** button.

      The submitter receives an e-mail notification that the transaction is complete. The notification e-mail serves as a prompt for the submitter to print the document and submit it for imaging.

For an example, see *eCARF – Stop and Reissue.*

## Process eCARF Stop and Reissue with Address Change

**03/30/2016**

The eCARF Stop and Reissue with Address Change transaction involves two steps. In the first step, a BPD Approver reviews and approves the request, and in the second step, a BPD Processor processes the transaction.

## In this Section

Approve eCARF Stop and Reissue with Address Change 14
Process eCARF Stop and Reissue with Address Change. 16

**Approve eCARF Stop and Reissue with Address Change**

**03/30/2016**

A BPD Approver completes the following steps to approve an eCARF Stop and Reissue with Address Change.

1. Launch PLUS Web and log in.

   The Search and View Payment Details tab opens.

2. Open the BPD Paying Agent Community, and then click the **eCARF BPD Approval Queues** link.

3. Scroll to the eCARF BPD Overnight Approval Portlet.

   A list of eCARF transactions displays.

4. From the list, click the **Created On** date/time link for the first eCARF on the list.

   Detailed information about the eCARF displays in a new window.

5. Copy the SSN from the eCARF, paste it into PLUS Web, and then click the **Search** button.

   The search results for that SSN display.

6. From the search results, locate the record corresponding to the relevant Account ID (Case Number) and verify:

   a. Name on the eCARF matches the name in PLUS Web:

      - If the name matches, continue to step 6.b.
      - If the name does not match, go to step 10, follow the steps for an invalid request, and include a comment that the names do not match.

   b. Address on the eCARF matches the address on the Check Ledger in PLUS Web:

      - If the address matches, go to step 10, follow the steps for an invalid request, and include a comment that the wrong transaction type was submitted.
      - If the address does not match, verify the address in Spectrum:
        - If the address matches, go to step 10, follow the steps for an invalid request, and include a comment that the wrong transaction type was submitted.
        - If the address does not match, continue to step 7.

---

**Note** The eCARF contains a comment stating that the address is temporary and must be used only for the Stop and Reissue with Address Change request.

---

7. In PLUS Web, click the **SSN** link to display the Pension Participation Information Options page.

8. Select the **Check Ledger History** option and click the **View** button.

   The Pension Check Ledger History page displays.

   a. Determine if the request is an ACH Replacement Check:

      - ACH Replacement Check: Select **ACH Replacement Check** from the **Transaction Type** menu, and click the **Save** button.

        This action sends the request to PBGC's paying agent. No further action is required.

      - Not ACH Replacement Check: Continue to step 8.b.

   b. Verify that the following information matches the information in PLUS Web:

      - Check date

- Check amount
- Payment type
- Payment Status is "Outstanding"
- Stop Payment Requested is "N"

9. In PLUS Web, click the check number link.

   The Pension Check Ledger Details page displays.

10. Scroll to the **Check Information** section of the page and view the **Check Address** fields to determine where the check was originally sent:

- If the name and address in the eCARF match the name and address in PLUS Web, do not approve because the Transaction Type is incorrect. Reject the request as not valid:

  a. On the eCARF, click the **Edit** button.

  b. Select **No** in the **BPD Approval** field.

  c. Enter today's date in the **Approval Date** field.

  d. Add a comment or reason for not approving the eCARF.

  e. Click the **Save** button. No further action is required.

  The submitter receives an e-mail notification that the transaction is not approved.

- If the name and address in the eCARF do not match the name and address in PLUS Web, process the request as valid:

  a. On the eCARF, click the **Edit** button.

  b. Select **Yes** in the **BPD Approval** field.

  c. Enter today's date in the **Approval Date** field.

  d. Click the **Save** button.

  The system places the request into the eCARF BPD Queue.

**Process eCARF Stop and Reissue with Address Change**

**03/30/2016**

A BPD Processor completes the following steps to process an eCARF Stop and Reissue with Address Change after it has been approved.

1. Launch PLUS Web and log in.

   The Stop Payment tab opens.

2. Launch the BPD Paying Agent Community and then click the **eCARF BPD Queue** link.

3. Scroll to the eCARF - Stop and Reissue with Address Change Portlet.

   A list of eCARF transactions displays.

4. From the queue, click the **Created On** date/time link for the first eCARF on the list.

   Detailed information about the eCARF including the new address displays in a new window.

   - If the eCARF is approved, continue to step 5.
   - If the eCARF is not approved:
     a. Select **No Action Taken** from the **BPD Action** drop-down list.
     b. Select **Yes** from the **BPD Complete** drop-down list.
     c. Enter the current date in the **Complete Date** field.
     d. Click the **Save** button. No further action is required.

     The submitter receives an e-mail notification that the transaction is not approved.

5. Copy the SSN from the eCARF and paste it into PLUS Web, then click the **Search** button.

   The search results for that SSN are listed.

6. From the search results, locate the record and verify that the **Case Number** matches the participant's record in the eCARF:

   - If the case number is FLEM, click the **Process by SSC** check box and click the **Save** button.

     The transaction is sent to PBGC's paying agent. No further action is needed.
   - If the case number is not FLEM, continue to step 7.

7. From the search results, click the corresponding **SSN** link.

   The Pension Check Ledger History screen for the selected SSN displays.

8. Verify that the following information matches what is in the PLUS Web Ledger:

   - Payee name
   - Plan number
   - Payment type
   - Check date
   - Check amount
   - Payee name on the eCARF
   - Payment Status is "Outstanding"
   - Stop Payment Requested is "N"

**Note** This information should match since the transaction was reviewed during the approval process.

9. From the ledger, select the payment that matches the eCARF and click the **Stop Payment** button.
10. From the **Type of Stop & Reissue?** section, select the **Stop & Reissue to Participant** option, then click the **Submit** button.

    A section with empty address fields displays at the bottom of the page.
11. Copy the address from the eCARF and paste it into PLUS Web.

    Each address line has a different character limit. See the Character Limit Table for guidance.

    - If the participant's address exceeds the character limit or is a foreign address that does not fit into PLUS Web, click the **Process by SSC** check box and click the **Save** button.

      This sends the request to PBGC's paying agent. No further action is required.
    - If the participant's address is within the character limit or is a foreign address that can be processed in PLUS Web, enter the address and click the **Submit** button.

      The PLUS Web Stop Payment Confirmation page displays.
12. On the eCARF form:
    a. Click the **Edit** button.
    b. Select **PLUS UPDATED** from the **BPD Action** drop-down list.
    c. Select **Yes** from the **BPD Complete** drop-down list.
    d. Enter the current date for the **Complete Date** field.
    e. Click the **Save** button.

    The submitter receives an e-mail notification that the transaction is complete. The notification e-mail prompts the submitter to print the document and submit it for imaging.

For an eCARF example, see *eCARF – Stop and Reissue with Address Change*.

## Approve Expedited Mailing Requests

**03/30/2016**

If a participant states hardship, PBGC can approve an expedited payment for eCARF Stop and Reissue, eCARF Stop and Reissue with Address Change, and eCARF ACH Replacement Check requests. The participant must provide justification of the hardship for the expedited request.

Expedited requests cannot be delivered to a P.O. Box, so when initiating the request, the submitter must first determine if the participant's address is a P.O. Box:

- Is a P.O. Box, then the submitter cannot submit the expedited request. A Stop and Reissue with Address Change must be submitted instead.
- Is not a P.O. Box, then the submitter must include the justification for hardship provided by the participant and selects the **Expedited Mailing** check box so that the processing team and PBGC's paying agent are aware of the request.

The request moves simultaneously through two different queues. The eCARF BPD Queue Overnight Approval is where a BPD approver reviews and approves the expedited request. The eCARF BPD Queue is where a BPD staff member completes the necessary steps to process the eCARF Stop and Reissue transaction or the eCARF Stop and Reissue with Address Change transaction. If the expedited mailing request is approved, as soon as the BPD staff completes processing the eCARF, PBGC's paying agent prepares the overnight payment. However, if the expedited mailing request is not approved, the payment is mailed as originally scheduled.

### BPD Approver

A BPD staff member completes the following steps to approve an expedited mailing request for an eCARF Stop and Reissue or an eCARF Stop and Reissue with Address Change.

1. Launch the BPD Paying Agent Community and then click the **eCARF BPD Queue Overnight Approval** link.

   A list of eCARF transactions displays.

2. From the queue, click the **Created On** date/time link for the first eCARF on the list.

   The eCARF opens in a new window.

3. Review the justification for the expedited mailing request:

   - If the justification is not valid:

     a. Click the **Edit** button.

     b. Enter the reason for rejecting the request in the **BPD Comments** field.

     c. Select **No** in the **Request Approved** field.

     d. Enter today's date in the **Complete Date** field.

     e. Click the **Save** button.

     PBGC's paying agent receives an e-mail notification that the expedited mailing request is not approved. The payment is mailed as originally scheduled. No further action is required.

   - If the justification is valid:

     a. Click the **Edit** button.

     b. Select **Yes** in the **Request Approved** field.

     c. Enter today's date in the **Complete Date** field.

d. Click the **Save** button.

PBGC's paying agent receives an e-mail notification that the transaction is approved. The payment is expedited. PBGC's paying agent staff update the comments field on the eCARF with the tracking number.

The following are eCARF examples:

*eCARF – Stop and Reissue (Overnight Mailing)*

*eCARF – Stop and Reissue with Address Change (Overnight Mailing)*

## BPD eCARF Transactions Job Aid

**03/30/2016**

The BPD eCARF Transactions Job Aid provides BPD with guidance for initiating eCARF transactions. The scenarios and examples in the BPD eCARF Transaction Scenarios and What to Do Table are not comprehensive.

### BPD eCARF Transaction Scenarios and What to Do Table

| Sample Scenario | Procedure | What To Do... | Expected Result... |
|---|---|---|---|
| A participant is deceased and is overpaid by PBGC because PBGC's paying agent was not notified in a timely manner of the death. | Return to Trust | • Check PLUS Web to verify the check status is "Outstanding."<br>• Check PLUS Web to verify participant's status is "Active."<br>• Update the participant information in CRM.<br>• Click eCARF-BPD from the BPD Paying Agent Community.<br>• Select **Return to Trust** from the **Transaction** drop-down list.<br>• Enter all required information.<br>**Note** Required information is indicated with an asterisk.<br>• Click **Save** and close. | • BPD receives a Return to Trust transaction in the BPD Queue.<br>• BPD processes the request in PLUS Web and stops the check.<br>• BPD indicates the request is complete and the Portal sends an e-mail acknowledgment back to the submitter.<br>• Submitter prepares and scans the request into IPS. |
| A Death Match Report indicates that a participant died and the ACH Deletion Cutoff date on the payment schedule has not passed. | ACH Deletion | • Check the Benefit Payment Schedule to verify the ACH Deletion Cutoff date has not passed.<br>• Update the participant information in CRM.<br>• Click eCARF-BPD from the BPD Paying Agent Community.<br>• Select **ACH Deletion** from the **Transaction** drop-down list.<br>• Enter all required information. | • BPD receives an ACH Deletion transaction in the BPD Queue.<br>• BPD processes the request in PLUS Web to delete the ACH.<br>• BPD indicates the request is complete and the Portal sends an e-mail acknowledgment back to the submitter.<br>• Submitter prepares and scans the |

| | | drop-down list.<br>• Enter all required information.<br>**Note** Required information is indicated with an asterisk.<br>• Click **Save** and close. | an e-mail back to the submitter.<br>• Submitter prepares and scans the request into IPS. |

# Process eCARFs - PBGC's Paying Agent Staff

**03/30/2016**

Stop and Reissue ACH Replacement Check, Return to Trust ACH Replacement Check and Stop and Reissue Deduction Check that the CSD, PVAs, FBAs, BPD, PSB, and CCC staff members initiates. These staff members are considered the submitters who use the eCARF-SSC Portlet to initiate eCARF transactions.

When a submitter initiates a Stop and Reissue ACH Replacement Check, Return to Trust ACH Replacement Check or Stop and Reissue Deduction Check transaction, the transaction is logged in the eCARF SSC Queue where a paying agent member can begin the respective process. PLUS Web and other paying agent specific systems are used for validating information as well as processing the eCARF transactions. Additionally, there are numerous portlets and queues on the portal used to process the eCARF transactions concurrently with PLUS Web.

The following sections provide details for processing each transaction.

## In this Section

## eCARF SSC: Stop and Reissue with Address Change

**03/30/2016**

### PBGC's Paying Agent Staff

1. Open the OBA Paying Agent Portal Community and click **eCARF SSC Queue**.
2. Confirm the submitter is approved by referring to the eCARF Authorization List provided by PBGC.
3. Confirm Check is outstanding in Check Status Database.
4. Enter the check request through Check Request Database (Special Services/Retiree Services Database).
5. Fill out the check request form confirming the correct plan name.
6. Save and submit the request.
7. Print Replacement Checks and send to the recipient.
8. Image the request to IPS.
9. If the request is not valid, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select **NO ACTION TAKEN** from the SSC Action drop-down.
   b. Enter the reason the request cannot be fulfilled in the SSC Comments field.
   c. Select **Yes** in the SSC Complete field.
   d. Enter the current date in the Complete Date field.
   e. Click **Save**.

   The requester receives an e-mail notification that the eCARF is removed from the **eCARF SSC Queue**.
10. If the request is valid, click **Edit** at the bottom of the eCARF form and enter the following:
    a. Select **PLUS UPDATED** from the SSC Action drop-down.
    b. Select **Yes** in the SSC Complete field.
    c. Enter the current date in the Complete Date field.
    d. Click **Save**.

    A notification e-mail serves as prompt for the requester to print the document and submit for imaging to IPS.

## eCARF SSC: ACH Tracer

**03/30/2016**

### PBGC's Paying Agent Staff

1. Open the OBA Paying Agent Portal Community and click **eCARF SSC Verification Queue**.
2. Confirm the submitter is approved by referring to the eCARF Authorization List provided by PBGC.
3. Click the **Created On date/time** to open the eCARF form in the work queue.
4. In PLUS navigate to the Participants Ledger and confirm that the payment was made.
5. If the request is not valid, click EDIT at the bottom of the eCARF form and enter the following:
   a. Select **NO ACTION TAKEN** from the SSC Action drop-down.
   b. Enter the reason the request cannot be fulfilled in the SSC Comments field.
   c. Select **Yes** in the SSC Complete field.
   d. Enter today's date in the Complete Date field.
   e. Click **Save**.

   The requester receives an e-mail notification that the eCARF is removed from the **eCARF SSC Verification Queue**.
6. Enter the ACH Database and confirm that the payment was not returned or rejected by the participant's bank.
7. Enter the findings into the ACH comments field and close out the issue.
8. If the request is valid, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select **ACH Tracer – Initiated from the SSC** Action drop-down.
   b. Click **Save**.

   The requester receives an e-mail notification that the request is initiated.
9. Following the response from Retiree Services, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select either **ACH Tracer – Completed – Funds Deposited** or **ACH Tracer – Completed – Funds Not Deposited** from the SSC Action drop-down.
   b. Select **Yes** in the SSC Complete field.
   c. Enter the current date in the Complete Date field.
   d. Click **Save**.

   The requester receives an e-mail notification that the transaction is removed from this queue. The notification e-mail serves as prompt for the requester to print the document and submit for imaging to IPS.

## eCARF SSC: Copy of Paid Check

**03/30/2016**

### PBGC's Paying Agent Staff

1. Open the OBA Paying Agent Portal Community and click **eCARF Payment Verification**.
2. Confirm the submitter is approved by referring to the eCARF Authorization List provided by PBGC.
3. Click the **Created On date/time** to open the eCARF form in the work queue.
4. If the request is not valid, click EDIT at the bottom of the eCARF form and enter the following:
   a. Select **NO ACTION TAKEN** from the SSC Action drop-down.
   b. Enter the reason the request cannot be fulfilled in the SSC Comments field.
   c. Select **Yes** in the SSC Complete field.
   d. Enter today's date in the Complete Date field.
   e. Click **Save**.

   The requester receives an e-mail notification that the eCARF is removed from this queue.
5. In the FISERV System, request a copy of the paid check.
6. Print front and back of check.
7. Image the request to IPS.
8. If the request is valid, click **Edit** at the bottom of the eCARF form and enter the following:
9. Select **Copy of Paid Check – Initiated from the SSC** Action drop-down and click **Save**.

   The requester receives an e-mail notification that the request is initiated.
10. When Retiree Services responds to the request, click **Edit** at the bottom of the eCARF form and enter the following:
    a. Select **Yes** in the SSC Complete field.
    b. Enter today's date in the Complete Date field.
    c. Click **Save**.

    The requester receives an e-mail notification that the transaction is removed from this queue. The notification e-mail serves as prompt for the requestor to print the document and submit for imaging.

## eCARF SSC: Stop and Reissue ACH Replacement Check

**03/30/2016**

### PBGC's Paying Agent Staff

1. Open the OBA Paying Agent Portal Community and click **eCARF SSC Queue**.
2. Confirm the submitter is approved by referring to the eCARF Authorization List provided by PBGC.
3. Confirm Check is outstanding in Check Status Database.
4. Enter the check request through Check Request Database (Special Services/Retiree Services Database).
5. Fill out the check request form confirming the correct plan name.
6. Save and submit the request.
7. Print Replacement Checks and send to the recipient.
8. Image the request to IPS.
9. If the request is not valid, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select **NO ACTION TAKEN** from the SSC Action drop-down.
   b. Enter the reason the request cannot be fulfilled in the SSC Comments field.
   c. Select **Yes** in the SSC Complete field.
   d. Enter the current date in the Complete Date field.
   e. Click **Save**.

   The requester receives an e-mail notification that the eCARF is removed from the **eCARF SSC Queue**.
10. If the request is valid, click **Edit** at the bottom of the eCARF form and enter the following:
    a. Select **PLUS UPDATED** from the SSC Action drop-down.
    b. Select **Yes** in the SSC Complete field.
    c. Enter the current date in the Complete Date field.
    d. Click **Save**.

    A notification e-mail serves as prompt for the requester to print the document and submit for imaging to IPS.

## eCARF SSC: Stop and Reissue Deduction Check

**03/30/2016**

### PBGC's Paying Agent Staff

1. Open the OBA Paying Agent Portal Community and click **eCARF SSC Queue**.
2. Confirm the submitter is approved by referring to the eCARF Authorization List provided by PBGC.
3. Confirm the check is outstanding in Check Status Database.
4. Enter check request through Check Request Database (Special Services/Retiree Services Database).
5. Fill out the check request form confirming the correct plan name.
6. Save and submit the request.
7. Associate submits to Manager for approval.

---

**Note** The Financial Control Area, Client Services, PBGC Team prints the Deduction Checks and delivers to the PBGC Team.

---

8. Image the request to IPS.
9. If the request is not valid, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select **NO ACTION TAKEN** from the SSC Action drop-down.
   b. Enter the reason the request cannot be fulfilled in the SSC Comments field.
   c. Select **Yes** in the SSC Complete field.
   d. Enter the current date In the Complete Date field.
   e. Click **Save**.

   The requester receives automatic e-mail notification that the eCARF is removed from the **eCARF SSC Queue**.
10. If the request is valid, click **Edit** at the bottom of the eCARF form and enter the following:
    a. Select **PLUS UPDATED** from the SSC Action drop-down.
    b. Select **Yes** in the SSC Complete field.
    c. Enter the current date in the Complete Date field.
    d. Click **Save**.

    A notification e-mail serves as prompt for the requester to print and to submit the document for imaging to IPS.

## eCARF SSC: Return to Trust ACH Replacement Check

**03/30/2016**

### PBGC's Paying Agent Staff

1. Open the OBA Paying Agent Portal Community and click **eCARF SSC Queue**.
2. Confirm the submitter is approved by referring to the eCARF Authorization List provided by PBGC.
3. Confirm Check is outstanding in Check Status Database.
4. Enter the check request through Check Request Database (Special Services/Retiree Services Database).
5. Fill out the check request form in the check request database and confirm the correct plan name.
6. Save and submit the request.
7. Associate submits to manager for approval.
8. Image the request to IPS.
9. If the request is not valid, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select **NO ACTION TAKEN** from the SSC Action drop-down.
   b. Enter the reason the request cannot be fulfilled in the SSC Comments field.
   c. Select **Yes** in the SSC Complete field.
   d. Enter today's date In the Complete Date field.
   e. Click **Save**.

   The requester receives an e-mail notification that the eCARF is removed from this queue.
10. If the request is valid, click **Edit** at the bottom of the eCARF form and enter the following:
    a. Select **PLUS UPDATED** from the SSC Action drop-down.
    b. Select **Yes** in the SSC Complete field.
    c. Enter today's date in the Complete Date field.
    d. Click **Save**.

    A notification e-mail serves as prompt for the requester to print the document and submit for imaging to IPS.

## eCARF SSC: ACH Reclamation (Incoming)

**03/30/2016**

### PBGC's Paying Agent Staff

1. Open the OBA Paying Agent Portal Community and click **eCARF SSC Reclamation Queue (Incoming)**.
2. Click the **Created On date/time** to open the eCARF form in the work queue.
3. Export spreadsheet and convert to 80 Common Plus Transaction Format (80 Byte).
4. Post the file to PLUS Edit.
5. If the request contains errors, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select **NO ACTION TAKEN** from the SSC Action drop-down.
   b. Enter the reason the request cannot be fulfilled in the SSC Comments field.
   c. Select **Yes** in the SSC Complete field.
   d. Enter the current date in the Complete Date field.
   e. Click **Save**.

   The requester receives an automatic e-mail notification that the transaction is removed from the eCARF SSC Reclamation queue.
6. If the request contains no errors, click **Edit** at the bottom of the eCARF form and enter the following:
   a. Select **INITIATED – RECLAMATION** from the SSC Action drop-down.
   b. Click **Save**.

   The requester receives an e-mail notification that the transaction is removed from the eCARF SSC Reclamation Queue (Incoming) and resides in the eCARF SSC Reclamation Queue (Initiated). Associated financial institution has 30 days to respond to the request.

## eCARF SSC: ACH Reclamation (Initiated)

**03/30/2016**

### PBGC's Paying Agent Staff

1. Once notification is received from the financial institutions concerning the disposition of the reclamation request, open the OBA Paying Agent Portal Community and click on the **eCARF SSC Reclamation Queue (Initiated)** hyperlink.
2. Open the transaction, click **Edit**, then select from the drop down menu and input the reason the financial institution provided.
3. If funds are received:
   a. Select **PLUS UPDATED** from the SSC Action drop-down.
   b. Select **Yes** in the SSC Complete field.
   c. Enter today's date in the Complete Date field.
   d. Click **Save**.

   A notification e-mail serves as prompt for the requester to print the document and submit for imaging to IPS.
4. If the reply is no funds reclaimed-insufficient funds, the request is processed as an eCARF Reclamation LOI.

   A notification e-mail serves as prompt for the requester to print the document and submit for imaging to IPS.

# eCARF SSC: ACH Reclamation (LOI)

**03/30/2016**

## BPD Portal Team

1. Open the OBA Paying Agent Portal Community and click **eCARF SSC Reclamation LOI Queue**.
2. In the **eCARF SSC LOI Queue** select the insufficient funds export view, and click to export the data to Excel.
3. Conduct clean-up activities as necessary in the newly generated spreadsheet (remove exponential notation, correct for leading zeros, etc.).
4. Import the spreadsheet to the Access database "Reclamation LOI.mdb."
5. Validate all information for the participant (for example, SSN, routing number, date, etc.) using Genesis.
6. Correct any errors found in the participant information.
7. Navigate to the mail merge template, "Template_InsufficientFundsLOI.docx."

   The template will automatically merge the Reclamation LOI and generate reclamation letter requests in a single Word file. Save the Word file using the following convention: LOI Insufficient Funds MMDDYY
8. E-mail the letters to the SSC Associate by midday Friday.

## PBGC's Paying Agent Staff

1. The SSC Associate updates the **eCARF SSC Reclamation LOI Queue** and mails/faxes the letters to the respective financial institutions.
2. If funds are received and the reclamation is succesful:
   a. Select **PLUS UPDATED** from the SSC Action drop-down.
   b. Select **Yes** in the SSC Complete field.
   c. Enter today's date in the Complete Date field.
   d. Click **Save**.

      A notification e-mail serves as prompt for the requester to print the document and submit for imaging to IPS.
3. If other responses are received, the SSC Associate images the request to IPS and updates the LOI Queue accordingly.

---

**Note** If no response is received from the financial institution within 45 days, the request is closed out.

---

**SSC eCARF Transactions Job Aid**

**03/30/2016**

## SSC eCARF Transaction Scenarios Table

| Sample Scenario | Procedure | What to do... | Expected result... |
|---|---|---|---|
| A participant moved and the check was mailed to the old address. No forwarding address was submitted to the USPS. The participant called to provide a new address and is requesting a replacement check. | Stop and Reissue – Address Change Permanent | • Check PLUS Web to verify check is outstanding (OUTSTDG).<br>• Check PLUS Web to verify the participant is "Active – Paying" in the **Participant Status** field.<br>• Update the participant information in CRM.<br>• Click the **eCARF Address** icon.<br>• Select **Stop and Reissue – Address Change** from the **Transaction** drop-down.<br>• Enter all required information.<br>**Note** Required information is indicated with an asterisk.<br>• Select **Permanent** (address change) from the **Change** drop-down.<br>• Click **Save**, and close ☒. | • SSC receives a Stop and Reissue with Address Change request in the SSC Queue.<br>• SSC processes the request in PLUS Web.<br>• SSC mails a replacement check to the participant.<br>• SSC indicates the request is complete and the Portal sends an e-mail acknowledgment to the ProcessCheckAction e-mailbox.<br>• A CCC Administrator prints the acknowledgment and scans it into IPS which can be viewed with PBGC Image Viewer. |
| A participant closed the bank account receiving benefit payment checks due to fraud. A payment dated 03/01/2009 was rejected by the bank since the account was closed. A replacement check was mailed to the participant's home address. Two weeks have elapsed and the participant has not received the replacement check. | Stop and Reissue – ACH Replacement Check | • Check PLUS Web to verify the Replacement Check is OUTSTDG.<br>• Check PLUS Web to verify the participant is "Active – Paying" in the **Participant Status** field.<br>• Update the participant information in CRM, if necessary.<br>• Select the **eCARF Address** icon.<br>• Select **Stop and Reissue – ACH Replacement Check** from the **Transaction** drop-down. | • SSC receives a Stop and Reissue with Address Change into the SSC Queue.<br>• SSC processes the request in PLUS Web.<br>• SSC mails a replacement check to the participant.<br>• SSC indicates the request is complete and the Portal sends an e-mail acknowledgment to the |

# Check Processing

**08/30/2011**

Check Processing covers processing checks received from participants or their designated representatives with emphasis on reconciling the information to account for all checks received.

## In this Section

Overview for Check Processing.....2
Check Processing Procedures .....3
Resources for Check Processing .....11

# Overview for Check Processing

**03/30/2016**

Debtors, relatives of debtors, representatives for debtors, or third parties send negotiable instruments to the OBA Lockbox (790374) at US Bank including: Live Personal Checks, Money Orders, Cashier's Checks, and sometimes uncashed PBGC Pension Checks, etc.

# Check Processing Procedures

**03/30/2016**

| | |
|---|---|
| **Purpose** | To process checks received from participants and/or their designated representatives; to reconcile the information with the aim to account for all checks received. |
| **Guidance** | TP8<br>eCARF<br>NFDE<br>Ledger Load<br>PBGC Data Breach Procedures<br>Cash Reconciliation Cycle Memo<br>Workflow for Check Processing Administration |
| **Procedure Owner** | BPD Check Processing Team, BPD Check Processing Coordinator |

US Bank sends returned pension checks, personal checks, money orders, cashier checks, and copy deposit checks to DMC to be imaged to IPS. DMC generates a *Daily IPS DM Report* of all transactions. PBGC's paying agent corrects Adjustment Ledgers and applies transaction codes in PLUS Web. The BPD Check Processing Team follows up with PBGC's paying agent to ensure that all requests are completed.

## In this Section

1. Receive Daily Check Bag ..... 4
2. Upload Daily IPS DM Report to BPD Operations Portal 5
3. Process Checks in BPD Operations Portal ..... 6
4. Adjust Payment Ledgers ..... 8
5. Process Treasury/IPAC Payments ..... 9
6. Process Overpayment Refunds ..... 10

# 1. Receive Daily Check Bag

**03/30/2016**

**Check Copies:** Debtors send checks to OBA Lockbox (790374) at US Bank. US bank sends the check bag to DMC. DMC images checks to IPS, generates the *Daily IPS DM Report,* and sends check bag and a hardcopy of the *Daily IPS DM Report* to the BPD Check Processing Team.

**Live Checks (misdirected):** Some debtors misdirect live checks and send them directly to DMC instead of to the OBA Lockbox (790374). These checks are also included in the daily check bag. BPD sends these checks to the OBA Lockbox (790374) and the checks eventually come back to BPD as a check copy.

**Returned Pension Checks:** Sometimes family members of deceased payees send uncashed PBGC pension checks to the OBA Lockbox (790374) or DMC. These checks are also included in the daily check bag.

## BPD Check Processing Team

1. Remove contents of check bag and compare what is in the bag to the hardcopy of the *Daily IPS DM Report*.
    - If the contents of the check bag match the information on the *Daily IPS DM Report,* date and initial the *Daily IPS DM Report*, place in bag, and send back to DMC.
    - If the contents of the check bag do not match the information on the *Daily IPS DM Report*, research to determine the cause of the issue. If necessary, initiate the PBGC Data Breach Procedures documented on PBGC's Intranet.
2. If there are any live checks in the bag, keep them in a locked cabinet and overnight them to the OBA lockbox as soon as possible that same day.

## 2. Upload Daily IPS DM Report to BPD Operations Portal

**03/30/2016**

### BPD Check Processing Team

1. In IPS Document Management (DM) generate the *IPS DM Check Report* for Alexandria for the previous day and save it as an Excel spreadsheet in the IPSDM Check Report folder on the shared `I: drive`.
2. Open the Microsoft Access Daily IPSDM Manifest database and import the Excel version of the check report.

   This tool obtains additional data from Genesis (for example, full SSN) and exports the report as a CSV file.
3. Upload the *Daily IPS DM Report* (CSV version) to the BPD Operations Portal.

   This populates the three queues: Copy, Live, and Pension.

# 3. Process Checks in BPD Operations Portal

**03/30/2016**

## BPD Check Processing Team

**Live check queue:** Complete the following for each check in the queue:

1. Click on a participant in the queue.
2. Record the check in the *Lockbox Deposits Spreadsheet* (there are 2 tabs: *Lockbox Deposits Monthly List* and *Daily Lockbox Deposit Sheet*) on the shared `I: drive`.
3. Place the check in the Fed Ex envelope.

   Obtain the Fed Ex label from the Fed Ex Coordinator.
4. Select SENT TO LOCKBOX in the portal queue.

   This removes the transaction from the live check queue and places it in one of the copy check queue.
5. Print the *Lockbox Deposits spreadsheet* and include it with the checks.
6. Deliver the package to the Fed Ex Coordinator.
7. Receive the Fed Ex tracking number from the Fed Ex Coordinator.
8. Enter the Fed Ex tracking number into the *Lockbox Deposits Spreadsheet* on the shared `I: drive`.

   Live checks should be sent to the OBA lockbox on the same day they are received from the DMC.

**Copy check queues:** There are separate queues for the following types of checks:

- Checks originally sent to the OBA Lockbox (790374) at US Bank.
- Checks originally sent to the DMC and subsequently sent to the OBA Lockbox (790374) at US Bank by BPD.
- Checks originally sent to the FOD Lockbox (790373) at US Bank (installment payments).

  Complete the following for each check in the queue:

  1. Click on a participant in the queue.
  2. Research PLUS Web, PBGC Image Viewer, Spectrum, and CRM to determine why the check was sent to PBGC.
  3. Validate the amount of the check:
     - If the debtor paid the correct amount, complete the *Adjustment Ledger Form* on the portal, directing PBGC's paying agent to update the associated payee's ledger.
     - If the debtor overpaid PBGC, process an overpayment refund.

**Pension check queue:**

1. Click on a participant in the queue.
2. Research PLUS Web, PBGC Image Viewer, Spectrum, and CRM to determine if the payment has already been returned to trust:
   - If payment was returned to trust, shred the pension check.
   - If the payment was not returned to trust, select Return to Trust in PLUS Web, and shred the pension check.

## 4. Adjust Payment Ledgers

**03/30/2016**

PBGC's paying agent receives the *Adjustment Ledger Form* in the SSC Processing Portal queue, makes ledger adjustment in PLUS Web, and marks as complete in the SSC Processing Portal queue. An *eCARF Acknowledgement E-mail* is generated from the SSC Processing Portal queue to the Check Processing Inbox.

### BPD Check Processing Team

1. Check PLUS Web to ensure the ledger was credited:
   - If ledger was credited, image the *eCARF Acknowledgement E-mail* to IPS.
   - If the ledger was not credited, follow up with PBGC's paying agent to ensure requests were completed.

## 5. Process Treasury/IPAC Payments

**03/30/2016**

The *FOD Debt Collection Report* (there are 2 tabs: *Debt Record Report* and *PIF & WO*) records payments made by debtors either by installments (via the FOD Lockbox (790373) at US Bank) or collected by the Treasury Department's Fed Debt program. The installment payments are part of the Daily Check Bag activity and therefore require no further action. The Treasury/IPAC payments must be researched so that the appropriate payment ledgers can be credited if necessary.

### BPD Check Processing Coordinator

1. Record the payment in the *Recovery CARFs Spreadsheet*.
2. Research PLUS Web, PBGC Image Viewer, Spectrum, and CRM to determine how the PLUS ledger needs to be credited.

   If the debt was incurred before PBGC's paying agent began making payments for that plan, there is no PLUS ledger and therefore no ledger credit.
3. In the Credit Month column, describe how the ledger is to be credited.

### BPD Check Processing Team

4. Complete the portal *Adjustment Ledger Form*, directing PBGC's paying agent to update the associated payee's ledger in accordance with the instructions in the *Recovery CARFs spreadsheet*.

## 6. Process Overpayment Refunds

**03/30/2016**

When debtors overpay their debts, PBGC instructs the paying agent to issue an overpayment refund. A common reason for this is for ACH payments. PBGC reclaims the money through an ACH reclamation, but the debtor also sends a check.

See the PSD process for eCARF procedures.

# Resources for Check Processing

# Outstanding Check Notification

**11/20/2015**

The Outstanding Check Notification process is executed to prepare and distribute a quarterly *Outstanding Checks Report* notifying the responsible point of contact (Mail POC) of checks that have not been cashed more than 60 days after issuance.

## In this Section

Overview for Outstanding Check Notification ..... 2
Format Outstanding Check Spreadsheet ..... 3
Resources for Outstanding Check Notification ..... 5

# Overview for Outstanding Check Notification

**03/30/2016**

Each quarter PBGC's paying agent produces an *Outstanding Check Listing* itemizing all checks that are outstanding and remain uncashed after two months and sends it to BPD. No later than the last week of the month after receiving the *Outstanding Check Listing*, the BPD Outstanding Check Coordinator/Operator generates an *Outstanding Checks Report* that facilitates distribution of individualized reports to each responsible Mail POC. Within two weeks from receipt of the spreadsheet BPD and PBGC's paying agent will resolve all unidentified POC data.

# Format Outstanding Check Spreadsheet

**03/30/2016**

| | |
|---|---|
| **Purpose** | To notify POC's of Quarterly Outstanding Checks. |
| **Guidance** | TP42<br>eCARF<br>Workflow for Outstanding Check Notification |
| **Procedure Owner** | BPD Outstanding Check Coordinator/Operator, Senior Pension Administrator |

PBGC's paying agent produces a quarterly *Outstanding Check Listing* of all uncashed checks that have been outstanding for greater than two months and stores the spreadsheet titled *PBGC Outstanding MMDDYYYY* on the PBGC Portal. The PBGC Portal automatically distributes the report to a pre-defined distribution list.

## BPD Outstanding Check Coordinator/Operator

1. Receive *PBGC Portal e-mail message* with a link to the *Outstanding Check Spreadsheet*.
2. Save the *Outstanding Check Spreadsheet* to the Outstanding Check directory on the shared `I: drive` as `SSCOutstandingChecks.xls`.
3. Open the OutstandingCheck Access database.
4. Confirm each step performed by the macro by clicking OK when prompted to complete the process of importing the *SSCOutstandingChecks Spreadsheet* into Access:
   a. Delete all entries in the temporary table *SSCOutstandingChecks* to prepare for the current run.
   b. Import PBGC's paying agent spreadsheet.

      This imports data from the spreadsheet to the temporary table *SSCOutstandingChecks*.
   c. Copy data from the temporary table *SSCOutstandingchecks* to the processing table *OutstandingChecks*.
   d. Enter user ID and password when prompted by the "Logon to Oracle 8" dialog box.

      These steps in the macro retrieve the information from Genesis.
   e. Update entries in the *OutstandingChecksTable* with the PBGC Case ID Number.
   f. Update the entries in the *OutstandingChecksTable* with the POC data.
   g. Archive entries in the *OutstandingChecksTable* to the ArchiveOutstandingChecks table for audit purposes.
   h. Prepare data in the order and format for e-mailing outstanding check data to the POC's.

      When the macro is complete, the *OutstandingChecksTable* displays the POC data.
   i. If there is a row containing no POC data indicating that no corresponding data was found in PRISM, research PLUS and Spectrum to identify the required POC data; work with PBGC's paying agent to identify the participant and check data necessary to retrieve the POC data.
5. Retrieve the *standard e-mail message* and attach to the clipboard:
   a. E-mail the *Outstanding Checks Report* and Instructions for How to Process an Outstanding Check to the Mail POC.
   b. Return to the *OutstandingChecksTable*, select and highlight all rows where the Login Last and First Name are the same.

c. Click TO and select the name of the outstanding check report recipient.

d. Type `Outstanding Report` in the Subject and insert the standard e-mail message from the clipboard into the body of the e-mail message and click SEND.

e. Repeat this process until the table is empty.

# Resources for Outstanding Check Notification

- *PBGC's Paying Agent E-mail with Outstanding Check List*
- *Outstanding Check Listing*

# Purged Check Notification

**11/20/2015**

The Purged Check Notification process is executed to prepare and distribute a monthly *Purged Check Report* notifying the responsible point of contact (Mail POC) of checks that have not been cashed more than 180 days after issuance.

## In this Section

Overview for Purged Check Notification .....2
Format Purged Check Spreadsheet .....3
Resources for Purged Check Notification .....5

# Overview for Purged Check Notification

**03/30/2016**

Checks automatically become stale dated after 180 days from the issue date and can no longer be cashed. Funds from stale dated checks are returned to the PBGC Trust Account.

Each month PBGC's paying agent sends a *Purged Check Listing* to BPD of all uncashed checks that have been outstanding greater than 180 days and have become stale dated. No later than the last week of the month after receiving the *Purged Check Listing*, the BPD Purged Check Coordinator/Operator generates a *Purged Check Report* and distributes an individualized report to each responsible Mail POC.

# Format Purged Check Spreadsheet

**03/30/2016**

| | |
|---|---|
| **Purpose** | To notify POC's of monthly Purged Checks. |
| **Guidance** | TP42<br>NFDE<br>Workflow for Purged Check Notification |
| **Procedure Owner** | BPD Purged Check Coordinator/Operator, Senior Pension Administrator |

PBGC's Paying Agent produces a monthly *Purged Check Listing* of all uncashed checks that have been outstanding for greater than 180 days and have become stale dated and stores the Stale Dated Payment Report Spreadsheet on the PBGC Portal. The PBGC Portal automatically distributes the report to a pre-defined distribution list.

## BPD Purged Check Coordinator/Operator

1. Receive the *PBGC Portal e-mail message* with a link to the *Purged Check Spreadsheet*.
2. Save the Purged Check Spreadsheet to the Purged Check directory on the shared `I: drive`.
3. Open the Purged Check Spreadsheet and remove PBGC's paying agent logo, headers, any other extraneous information, and make any other necessary changes.
4. Save the modified spreadsheet into the Purged Check directory on the shared `I: drive` as `SSCPurgedChecks.xls`, and close.
5. Open the Purged Check Access database, click Macros under Objects, then double-click Process_PurgeChecks to run macro.
6. Confirm each step performed by the macro by clicking OK when prompted to complete the process of importing the *SSCPurgedChecks Spreadsheet* into the database:
   a. Delete all entries in the temporary table *SSCPurgedChecks* to prepare for the current run
   b. Import PBGC's paying agent spreadsheet renamed to `SSCPurgedChecks.xls`

      This imports data from the spreadsheet to the temporary table *SSCPurgedChecks*.
   c. Copy data from the temporary table *SSCPurgedchecks* to the processing table *PurgedCheck*.
   d. Enter user ID and password when prompted by the "Logon to Oracle 8" dialog box.

      These steps in the macro retrieve the information from Genesis.
   e. Update entries in the *PurgedChecks table* with the PBGC Case ID Number.
   f. Update the entries in the *PurgedChecks table* with the POC data.
   g. Archive entries in the *PurgedChecks table* to the *ArchivePurgedChecks table* for audit purposes.
   h. Prepare data in the order and format for e-mailing purged check data to the POC's.

      When the macro is complete, the *PurgedCheck* table displays the POC data.
   i. If there is a row containing no POC data indicating that no corresponding data was found in PRISM, research PLUS and Spectrum to identify the required POC data; work with PBGC's paying agent to identify the participant and check data necessary to retrieve the POC data.
7. Retrieve the *standard e-mail message* and attach to the clipboard:

a. E-mail the *Purged Check Report* and *Instructions for How to Reissue a Purged Check* to each Mail POC.

b. Return to the *PurgedChecksTable* and click File.

c. Click TO and select the name of the purged check report recipient.

d. Type `Purged Report` in the Subject and insert the standard e-mail message from the clipboard into the body of the e-mail message and click SEND.

e. Repeat this process until the table is empty.

# Notice of Change

**03/28/2013**

PBGC's paying agent and PBGC update Spectrum system with new routing and account numbers from the Federal Reserve, to ensure participants are paid properly.

## In this Section

Overview for Notice of Change.....2
Load Accuity Data into Genesis.....3
Resources for Notice of Change.....5

# Overview for Notice of Change

**11/29/2011**

The Federal Reserve System notifies PBGC's paying agent on an ongoing basis of new or invalid routing and account numbers. PBGC's paying agent updates their system automatically for these Notices of Change (NOC) and each week sends an NOC file to PBGC with the corrected numbers. OIT runs a NOC process that updates PBGC's database accordingly. The process also updates bank address information that is received once each month by CD-ROM.

# Load Accuity Data into Genesis

**11/20/2015**

| | |
|---|---|
| **Purpose** | To update Spectrum with new routing and account numbers from the Federal Reserve to ensure that participants are paid properly. |
| **Guidance** | Workflow for Notice of Change |
| **Procedure Owner** | Senior Pension Administrator |

Accuity sends the bank address files on compact disc to the Senior Pension Administrator by overnight express mail on the 15th day of each month. Within seven business days from receipt of the Accuity CD, the Senior Pension Administrator should complete the following steps:

- Load the data from the CD to `W:\Drive\NOC`.
- Send an e-mail requesting that OIT Database Administrator (DBA) to load the data.
- Delete last month's file from `W:\Drive\NOC`.

The OIT DBA sends a reply e-mail to the Senior Pension Administrator confirming the Accuity file data is loaded into the Genesis database within two business days from receipt of the e-mail from the Senior Pension Administrator.

The NOC file is sent electronically from PBGC's paying agent to the PBGC Server each week on Friday by 1:00 P.M.

OIT runs a CRON job using the NOC file to update Spectrum each week on Friday at 7:00 P.M. Oracle sends two automated e-mail messages once the Spectrum update is complete: the *Log File* used to Load the NOC file and the *Post-NOC Load Process* showing Spectrum was successfully updated.

BMA Operations e-mails the *NOC Report* to the Senior Pension Administrator by the first business day of the week by noon.

The *Management Report* is due from the Senior Pension Administrator each week on Thursday.

In the event that there are no NOCs to report, PBGC's paying agent e-mails BMA Operations, OIT CSC DBA, and the Senior Pension Administrator by Friday at 1:00 P.M.

## Senior Pension Administrator

1. Ensure receipt of the CD by the 22nd of each month.
2. Load the bank address data from the CD to `W:\Drive\NOC\BankAddrFiles`.

   The file names are case sensitive and must be exact.
3. Delete the previous month's Accuity CD data from `W:\Drive\NOC`.
4. Prepare and send an e-mail to the OIT CSC DBA to inform them that the Accuity CD data is on the `W:\Drive\NOC` and *request to load the data* into the Genesis database.
5. Receive e-mail confirmation from the OIT CSC DBA that the Accuity data file was loaded into Genesis.
6. Ensure receipt of NOC file by Friday at 1:00 P.M.
7. Receive two automated e-mail messages from Oracle: the *Log File* and the *Post-NOC load process*.
8. Receive the *NOC Report* on Monday and place `W:\NOC\NOC Reports`.

   Follow up with BAM Operations if the *NOC Report* is not received by Monday.

9. Perform quality control check within two business days after the *NOC Report* is received by random sampling the Spectrum updates to confirm the NOC changes are correct.
10. Filter 'no match' errors where DEST or ACH is older than 30 days before the report date.
11. Send the *NOC Errors e-mail* to the PVA Project Manager, Assistant Project Manager, FBA, and COR within five business days after receiving the *NOC Report*.

    Refer to the Table of Reasons and Error Codes.
12. Prepare the weekly *Management Report* using data from the *NOC Report* in the `W:\NOC\NOC Reports`.

# Unscheduled Payments by the Paying Agent

**06/27/2013**

An unscheduled payment is an emergency payment made to payees outside of the normal check run.

## In this Section

Overview of Unscheduled Payments by the Paying Agent 2
Unscheduled Payments by the Paying Agent ..... 3
Resources for Unscheduled Payments by the Paying Agent 4

# Overview of Unscheduled Payments by the Paying Agent

**03/30/2016**

Sometimes contingencies may constrain payments to payees outside of a regular scheduled check run that result in an unscheduled payment. Approving these unscheduled payments is part of BPD's **payment reconciliation** function.

# Unscheduled Payments by the Paying Agent

**03/30/2016**

| | |
|---|---|
| **Purpose** | To make payments to payees outside of regular scheduled check run. |
| **Guidance** | FM 05-3 |
| **Procedure Owner** | BPD Branch Chief, Management Analyst, PBGC Paying Agent |

Unusual circumstances sometimes necessitate payments outside of a regularly scheduled check run. Approving these payments is a part of BPD's **payment reconciliation** function (FM 05-3). The request for an unscheduled payment must be submitted via a signed memo from a BPD Management Analyst, approved and signed by the BPD Branch Chief, and faxed to the PBGC paying agent.

**Non-benefit payments (NBP):** Unscheduled NBPs are disbursed via a **manual check**, not a check run. These payments are done outside of PLUS and do not result in a ledger record or a tax form. As NBPs, manual checks are not included on the *Benefit Payment Distribution* (known as Single-Multi) report.

**Examples:**

- Overpayment refunds: These become necessary when, for example, an ACH reclamation is successful and someone also sends in a check to repay an overpayment. Other scenarios result in the need for partial refunds.
- Check return fees: When a stop payment order is placed on a check, a check cashing company has no way to know that and therefore may honor the check. Reimbursing the check cashing company for the benefit payment can be handled under TP 2 Administrative Correction of Benefit Overpayments, but the check return fee, if PBGC chooses to pay it, is an NBP.

**Benefit payments (BPs):** Unscheduled BPs are disbursed via a previously unscheduled check run and are very rare. These should never be approved if the payment could be included in the weekly off cycle check run or another monthly check run. BPD contacts the PBGC paying agent, asking for the next available date for an unscheduled check run. Usually the PBGC paying agent can arrange one within 48 hours, but it may be longer than that if there are conflicting check runs. As BPs, these payments are included on the *Benefit Payment Distribution* (known as Single-Multi) report.

**Example:** This is very rare because BPs can almost always wait until a scheduled check run. An unscheduled check run is only appropriate for emergencies and must be documented in as a "deviation from procedures that is applicable to participant processing" as described in the OBA Operations Manual.

# Introduction to Recovery and Death Match Processes

**08/30/2011**

There are two ▶Recovery and Death Match Processes involving the following activities:

## Recovery of Benefit Overpayments

When the initial attempts to recover ▶benefit overpayments (for example, by ▶ACH reclamation or direct request) are not successful, field offices and ▶TPDs forward cases to the ▶BPB Recovery Team for more aggressive debt collection action. Key activities of the BPB Recovery Team include issuing subpoenas to banks to determine the identity of ▶debtors, issuing demand letters, executing installment agreements, forwarding debts to the U.S. Treasury Department for collection, and forwarding cases to ▶OGC or ▶OIG for further action as needed.

## Death Match

Death Match is the process of matching ▶Spectrum records with records in the Social Security Administrations (▶SSA) Death Master File (▶DMF). The ▶Death Match Coordinator ensures the DMF is updated on schedule, the automated Death Match process runs on schedule and at toward the end of each month (after the automated Death Match) sends lists of recent deaths to field offices and TPDs for last minute action.

**In this Section**

Recovery of Benefit Overpayments
Death Match Administration

## Recovery of Benefit Overpayments

**08/30/2012**

▶BPB recaptures overpayments made to ▶debtors or ▶participants in error or after ▶DOD. Overpayments are also recaptured for estimated benefits to living participants (▶BDL) situations.

**In this Section**

Overview for Recovery of Benefit Overpayments
Recovery of Benefit Overpayments Procedures
Resources for Recovery of Benefit Overpayments

**Overview for Recovery of Benefit Overpayments**

**11/29/2011**

The ▶Auditor responsible for Recovery Services performs a variety of duties necessary to ensure compliance with TP 6 Recover Overpayments of the ▶BAPD Operations Manual and Policy 6.4-1 Repayment of Benefit Overpayments through Recoupment, Recovery, and Administrative Correction as they relate to the management of recovery operations from overpaid participants and issuance of Administrative Subpoenas to banks.

**Recovery of Benefit Overpayments Procedures**

**11/26/2013**

| | |
|---|---|
| **Purpose** | To recapture overpayments in excess of $500 made to debtors or participants in error or after DOD. |
| **Guidance** | Fed Debt<br>NACHA Rule Book<br>Policy 6.4-1<br>Processing Recovery Referrals<br>Recovery Services Procedures<br>Recovery Status-Reason codes |
| **Procedure Owner** | RSD/BPB Recovery Coordinator |

**Prioritizing cases**

When the volume of work is such that cases can be processed timely, cases are generally handled on a first in, first out basis. However, team members may give higher priority to cases of high value and/or high likelihood of recovery when doing so, in their professional opinion, may increase the total amount of money recovered overall.

**Pursuing recovery by other means**

Sometimes personal phone calls and/or other efforts outside the normal process can be more effective than a subpoena or a demand letter. Team members may defer procedural steps (for example, sending a demand letter or a subpoena) until efforts of this nature are taken if, in their professional opinion, it makes the process more efficient or may increase overall recoveries.

**Minimizing hand-offs**

When the research results indicate that the next step is something that ▶BPB does (for example, revised tracking number memo, demand letter, subpoena, ▶OGC or ▶FOD referral, etc.), rather than sending it back to the ▶POC, BPB will perform the action directly and keep the POC informed.

For tracking number requests, when research uncovers new information that should be in the tracking number memo, make the correction directly and return the updated memo to the POC along with a tracking number.

**Team meetings**

Bring unusual situations that may require actions outside of the normal processes to the team meetings, as scheduled, for discussion.

Refer to TP 6 Recover Overpayments of the ▶BAPD Operations Manual for the following:

- Write off a hardship request for debts less than $1,000.
- Write-Off Cases.
- Initiate Recovery Actions.
- Process Hardship Requests.
- Subpoena Process.
- Process Estates, Trusts, and Other Legal Entities.

**Referring Cases to Treasury for Collection (CRS or FedDebt)**

Contact with debtors after a debt has been referred to Treasury

If a ▶debtor contacts ▶RSD (for example, if the debtor submits a late financial statement) about the debt after the case has been referred to Treasury for collection, refer the debtor to Treasury.

Once PBGC has referred a debt to Treasury for collection, per the Program Agreement, PBGC must cease any further communication with anyone associated with the debt. If an individual contacts PBGC regarding the debt after it has been referred to the Treasury Department, refer the individual to the following:

- For CRS: 1-855-549-2685
- For FedDebt: 1-888-826-3127

**Death Match Administration**

**08/30/2012**

The ▶Death Match Coordinator executes three specific tasks for the Death Match process:

- Verifies that the weekly Death Master File (▶DMF) update occurs each Monday.
- Verifies that the monthly (day before last Integrator file) Death Match process runs.
- Performs a "last minute" manual death match that enables ▶ACH payments to be deleted at the last minute near the end of each month.

**In this Section**

Overview for Death Match Administration
Workflow for Death Match Administration
Death Match Administration Procedures
Resources for Death Match Administration

**Overview for Death Match Administration**

**11/20/2015**

## Weekly Death Master File (DMF) Update

▶NTIS receives the Death Master File (▶DMF) from the Social Security Administration (▶SSA). ▶OIT downloads the weekly DMF update file from the NTIS website and uploads the DMF into ▶Spectrum on Sunday. The ▶Death Match Coordinator then receives two e-mails: the *Death Master File E-mail Notification* that the DMF has been moved from NTIS to Spectrum and that the upload is complete. The record counts are input weekly in the *Death Master File Tracking Spreadsheet* (there are 3 tabs: *Weekly DMF Update, Monthly Automated DM, Monthly Last Minute Manual DM*) and stored on the PBGC Portal.

## Monthly Automatic Death Match Process

An automated death processing (▶CRON Job) runs the day before the last Integrator File is sent to ▶PBGC's paying agent. Customers reported deceased on the latest *DMF Report* are updated to ▶Status 7 in Spectrum.

## Monthly Manual Death Match Process

On Mondays designated in the monthly payment schedule (generally Mondays between the last Integrator file and the first of the month), the Death Match Coordinator generates queries in ▶Golden 32 to determine the total number of records in the file correlating with ▶participants in active paying status in Spectrum and exports and sends the *Manual Death Match FBA Report Spreadsheet* to the ▶FBAs before the ▶ACH deletion deadline published in the *Monthly Payment Schedule* on PBGC's Intranet. The FBAs update the *Manual Death Match FBA Report Spreadsheet* that is stored on the PBGC Portal.

**Workflow for Death Match Administration**

**08/30/2011**

**Death Match Administration Procedures**

**11/20/2015**

| | |
|---|---|
| **Purpose** | To ensure PBGC's version of the SSA Death Master File is kept up-to-date and to ensure the data is used to avoid as many improper payments as possible. |
| **Guidance** | TP 5<br>eCARF<br>Workflow for Death Match Administration |
| **Procedure Owner** | Death Match Coordinator, FBAs |

The ▶Death Match Coordinator prepares a monthly *Death Match Closeout Report* for the ▶BPB Branch Chief.

**In this Section**

1. Verify Weekly DMF Update
2. Execute Monthly Automated Death Match
3. Execute Monthly Manual Death Match
4. Submit Death Match Closeout Report

## 1. Verify Weekly DMF Update

**11/20/2015**

▶OIT downloads the weekly Death Master File (DMF) from the ▶NTIS website and uploads the DMF into ▶Spectrum.

**Death Match Coordinator**

1. Receive two e-mail notifications:
   - *Death Master File E-mail Notification* to Field Offices that the DMF has been obtained from NTIS.
   - *Death Match Complete E-mail Notification* that DMF upload is complete.
   - Input weekly record counts in the *Death Master File Tracking Spreadsheet* (there are 3 tabs: *Weekly DMF Update, Monthly Automated DM, Monthly Last Minute Manual DM*) and store on the PBGC Portal.

## 2. Execute Monthly Automated Death Match

**11/20/2015**

▶OIT automatically runs a ▶CRON Job the day before the last Integrator File is sent to ▶PBGC's paying agent. The day before the Last File is sent to PBGC's paying agent, the ▶Death Match Coordinator identifies newly reported customer deaths in ▶Golden 32.

**Death Match Coordinator**

1. Run queries in Golden 32 to count number of newly reported customer deaths.
2. Include data from query in the *Death Match Closeout Report.*

### 3. Execute Monthly Manual Death Match

**11/20/2015**

The Monday after the Last File is sent (and subsequent Mondays per the payment schedule) to ▶PBGC's paying agent, the ▶Death Match Coordinator identifies newly reported ▶payee deaths in ▶Golden 32 and notifies field offices. ▶POCs initiate ▶eCARFs to delete ▶ACH payments or to stop payment on checks and return funds to ▶trust.

**Death Match Coordinator**

1. Receive two e-mail notifications:
   - *Death Master File E-mail Notification* to Field Offices that the Death Master File (DMF) has been moved from ▶NTIS to ▶Spectrum.
   - *Death Match Complete E-mail Notification* that DMF upload is complete.
2. Input weekly record counts in the *Death Master File Tracking Spreadsheet* (there are 3 tabs: *Weekly DMF Update, Monthly Automated DM, Monthly Last Minute Manual DM*) and store on the PBGC Portal.
3. Run queries in Golden 32 to identify newly reported payee deaths.
4. Export results of query.
5. E-mail results of query to field offices and ▶TPDs.
6. Receive the updated *Manual Death Match FBA Report Spreadsheet* from the ▶FBAs:
   - If response within 2 weeks, receive the updated *Manual Death Match FBA Report Spreadsheet* and store on the PBGC Portal.
   - If no response within 2 weeks, e-mail the FBAs.
7. Review actions taken by the FBAs in the *Manual Death Match FBA Report Spreadsheet* and e-mail the FBAs if discrepancies are found.

**FBAs**

8. Receive the results of the query from the Death Match Coordinator to initiate ▶ACH Deletions or stop payments on checks:
   - Submit eCARF to initiate the ACH Deletions:

     Include in eCARF comment section "Last minute death report from BPB".
   - Update the *Manual Death Match FBA Report Spreadsheet* and e-mail back to the Death Match Coordinator.
9. E-mail the Death Match Coordinator and explain actions taken in the *Manual Death Match FBA Report Spreadsheet.*
10. Receive e-mail from the Death Match Coordinator to resolve discrepancies, if any.
11. Process death verifications.

## 4. Submit Death Match Closeout Report

**11/20/2015**

**Death Match Coordinator**

1. Prepare and send the *Death Match Closeout Report* to the ▶BPB Branch Chief including:
   - Verification that the weekly Death Master File (▶DMF) update occurred each Monday.
   - Verification that the monthly (day before last Integrator File) Death Match process was executed.
   - Verification that a last minute manual death matches enabling ▶ACH payments to be deleted near the end of each month occurred.

# Introduction to Division Administration Processes

**03/30/2016**

This section documents administrative activities outside of Core Monthly, Aftermath, and Recovery and Death Match Processes. There are nine Division Administration Processes involving the following activities:

**In this Section**

Approval Administration
NBX Administration
NFDE Administration
PLUS Web Administration
Payment Schedules Development
Controls
Approvers Quarterly Confirmation
Paper Check Reconciliation
Paying Agent and Spectrum Data Synchronization
Paying Agent Invoice Processing
COOP Considerations
Year-End Activities

# Approval Administration

**11/29/2011**

The Management Information Specialist receives requests to change Approval Worklist Application (▶AWA) user functions and privileges/approval levels and Service Administration Tool (▶SAT) Approval Rules.

**In this Section**

Overview for Approval Administration
Approval Administration Procedures
Resources for Approval Administration

**Overview for Approval Administration**

**03/30/2016**

The Management Information Specialist processes changes to the Approval Worklist Application (▶AWA) user functions and privileges/approval levels and implements the changes in AWA.

The Approval Queue is purged each month. Following the purge, the *Purged Transactions Report* is sent to the ▶POCs and ▶Approvers notifying them of what was purged from the approval queue.

The Management Information Specialist processes changes to the Service Administration Tool (▶SAT) Approval Rules. These change requests include adjusting users' approval levels adjusted based on their status (for example, promotions, demotions, and terminations) for transactions based on certain dollar amounts as well for conflicts of interests, and changes to the threshold limits. The ▶OBA Director approves changes to the threshold limits.

**Approval Administration Procedures**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To assign, maintain and remove AWA functions using SAT; to monitor and maintain the AWA Approval Queue; to assign and maintain SAT Approval Rules. |
| **Guidance** | Workflow for AWA User Functions Maintenance |
| **Procedure Owner** | Management Information Specialist |

The Management Information Specialist is responsible for the following:

- Establish and maintain threshold limits for payments.
- Assign approval levels to employees and enable transaction routing to ▶approvers at their appropriate level.
- Assign approvers to cover other queues.
- Assign or bar employees from approving transactions in specific cases (inclusions and exclusions).
- Establish self-approval criteria; designate the proportion of transactions that may be self-approved.

The Management Information Specialist coordinates with the backup Approval Administrator to ensure reporting deadlines are met; adjusting out of office voice and e-mail messages to direct customers to the backup at least one week prior to extended absences; notifies ▶CSD/▶FBA management that approval changes must be submitted before the extended absence at least one week before a period of time when both the primary and backup will be unavailable (for example, the month of December).

**In this Section**

Change AWA User Functions and Purge AWA Queue

**Change AWA User Functions and Purge AWA Queue**

**03/30/2016**

The Management Information Specialist identifies all transactions in the approval queue that are pending approval and sends the *OBA Cut-off e-mail* notifying all ▶Approvers and the Management Team of the number of outstanding transactions by user/approver that are pending approval two days prior to the financial ▶cut-off date. One business day prior to the cut-off, the Management Information Specialist identifies pending transactions remaining in the queue and reports results to all approvers and the Management Team.

The Management Information Specialist completes updates to the approval threshold limits for ▶annuities, back payments and one-time payments within three business day from receipt of approval to do so.

The Management Information Specialist assigns a new approver, a temporary approver, or effect a change in approval levels within three business days of valid request from management.

▶Employee Separation

▶Inclusion and Exclusion Management

▶Payment Queue Purge

The Management Information Specialist identifies all transactions in the approval queue that are pending approval and sends the *OBA Cut-off e-mail* notifying all ▶Approvers and the Management Team of the number of outstanding transactions by user/approver that are pending approval two days prior to the financial ▶cut-off date. One business day prior to the cut-off, the Management Information Specialist identifies pending transactions remaining in the queue and reports results to all approvers and the Management Team.

The Management Information Specialist completes updates to the approval threshold limits for ▶annuities, back payments and one-time payments within three business day from receipt of approval to do so.

The Management Information Specialist assigns a new approver, a temporary approver, or effect a change in approval levels within three business days of valid request from management.

▼Employee Separation

**Management Information Specialist**

1. Receive e-mail from ▶OIT of the employee separation.
2. Verify the approval privileges for the separating employee.
3. Remove the employee's approval privileges, when appropriate.

▼Inclusion and Exclusion Management

Inclusions are managed by the Management Information Specialist and provide a way to assign specific approvers to a case. Approvers may be assigned for levels 1 and 2. Selected individuals must meet established ▶OBA-specific criteria. A plan must have at least two approvers at each level. Inclusions are established when management has determined it is advisable to assign specific approvers to a case. The Manager or Supervisor supplies the Management Information Specialist with the case number and the names of the approvers and approval levels. Exclusions are established by the Management Information Specialist to exclude Approvers from cases where there is a potential conflict of interest in the case. Refer to the Personal Interest Conflicts System (▶PICS) procedure for the procedures to request, manage and confirm excluded employees.

**Management Information Specialist**

1. Review the request and ensure the request is from the appropriate management level, that the approver(s) meets the criteria for the requested approval level, and that at least two approvers are identified for each level.
2. Use ▶SAT to add and update the inclusion(s).

   Refer to the SAT User Guide for a detailed description of the process.
3. Respond to the requestor confirming that the requested action has been implemented.
4. Use SAT to establish exclusions.

   Refer to the SAT User Guide for a detailed description of the process.

▼Payment Queue Purge

Financial transactions that are not approved by the final approval deadline are purged immediately following the deadline. The Management Information Specialist queries the approval queue and creates a report of the payment transactions remaining in the queue after the final deadline that have a payment date for the upcoming check run. The payment date, case number and case_cust_id from the report are

used to identify and match records in the queue that should or should not be purged. Transactions with past or future pay dates and deaths are not purged. ▶AWA is used to select and purge the transactions.

**Management Information Specialist**

1. Create a report listing the purged transactions.
2. E-mail the *Purged Transaction Report* to ▶OBA personnel and to the case points-of-contact.

   This notification provides users with the information needed to resubmit the transaction or to seek alternative methods of payment (for example, Off-Cycle checks), if necessary.
3. Maintain the formal list of purged transactions and all related correspondence for future inquiry and analysis purposes.

# NBX Administration

**08/28/2014**

**In this Section**

Overview for NBX Administration
NBX Administration Procedures
Resources for NBX Administration

**Overview for NBX Administration**

**08/28/2014**

▶Net Benefit Exchange (NBX) is a software program from ▶SSC to transmit payment oriented ▶NFDE electronic files to SSC in a secure manner.

**NBX Administration Procedures**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To approve, grant, modify, remove and re-certify PBGC employees' access to the NBX application. |
| **Guidance** | N/A |
| **Procedure Owner** | BPD COR, NBX System Administration Team, PLUS Information Owner, BPD Manager |

**In this Section**

Grant or Modify NBX Access
Remove NBX Access
Re-Certify NBX Access

**Grant or Modify NBX Access**

**03/30/2016**

**BPD Manager or BPD COR**

1. Submit an ▶ELAN via ▶GetIT to request ▶NBX application access for a PBGC employee.

**PLUS Information Owner**

2. Once a *Service Request E-mail* from GetIT is received, confirm the ELAN request is valid and approved.

**NBX System Administration Team**

3. Once an e-mail from GetIT is received specifying that the request has been approved, login to the NBX application.
4. Click **System Configuration & Utilities**.
5. Select **User Maintenance**.
6. Verify if the employee is new to the NBX application.
   - If the employee is in the NBX application, go to step 7.
   - If the employee is new to the NBX application, go to step 8.
7. Update the following fields in the NBX application,
   a. Highlight the employee.
   b. Click **Modify**.
   c. Update the fields as noted in the GetIT service request.
   d. Click **Save** and go to step 9.
8. Create a new record for the new employee using the information from the GetIT service request and Microsoft Outlook's address book.
   a. Click **Add**.
   b. Enter the **User ID**.
   c. Enter the **Name.**

   | **Note** List is refreshed and access for additional employees may be added. |
   |---|

9. Click **Cancel**.
10. Click **Exit**.
11. Once the NBX application is updated, go to the ▶BPD Systems Administration portal.
12. Click **Administration** to access System Admin Record Manager.
13. Enter the PBGC User's ID for the employee that was added or modified from the NBX application in the **Search For** field.
    - If the employee is in BPD Systems portal, go to step 14.
    - If the employee is new to the BPD Systems portal, go to step 15.
14. Click **Record Number** for the employee and the record will display.
    a. Scroll to the bottom of the record and click **Edit**.
    b. Update **NBX** from **No** to **Yes** to indicate the employee has NBX application access.
    c. Click **Save.**
15. Create a new record for the new employee
    a. Select the tab that relates to the location for which the employee works (that is, ▶FBA office location or Federal group).
    b. Click the **New Record Icon** to add the person to the location selected.
    c. Enter the **First Name.**

d. Enter the **Last Name**.
e. Enter the **PBGC User ID**.
f. Enter the **Extension**.
g. Select the **Department/Division** code from the drop-down list.
h. Enter the **Email Address**.
i. Change **Federal** to **Yes** or **No**.
j. Change **NBX** to **Yes**.
k. Click **Save**.

16. Close the service request ticket via GetIT.

Top of Page

**Remove NBX Access**

**03/30/2016**

**NBX System Administration Team**

1. Once an *HDELAN Employee Separation Notification E-mail* from PBGC's ▶OIT service desk or an e-mail from the PLUS Information Owner requesting employee access be removed from the ▶NBX application is received, login to the NBX application.
2. Click on **System Configuration & Utilities**.
3. Select **User Maintenance**.
4. Select the PBGC User to be deleted from the User Access List and click **Delete**.

   **Note** List is refreshed and access for additional employees may be deleted.

5. Click **Cancel**.
6. Click **Exit**.
7. Once the NBX application is updated, go to the ▶BPD Systems Administration portal.
8. Click **Administration** to access System Admin Record Manager.
9. Enter the PBGC User's ID for the employee that was deleted from the NBX application in the **Search For** field.
10. Click **Record Number** for the employee and the record will display.
11. Scroll to the bottom of the record and click **Edit**.
12. Update **NBX** from **Yes** to **No** to indicate the employee no longer has NBX application access.
13. Click **Save**.

**Re-Certify NBX Access**

**03/30/2016**

**NBX System Administration Team**

1. Compare the ▶BPD System Administration Database and ▶NBX application to ensure both are accurate, completely list all NBX users.
2. Go to the BPD Systems Administration portal.
3. Click **Administration** to access System Admin Record Manager.
4. Select **NBX Users** from the drop-down.
5. Click **Export to Excel.**
6. Select **Save As** from the drop-down and choose the H: drive.
7. Name file as follows: NBX Recertification User Access_YYYY
8. Send an e-mail to the BPD Managers and BPD ▶COR for each group/location identified in the excel file as having staff members with NBX application access.

**BPD Managers and BPD CORs**

9. Review and validate staff's NBX application access by setting the drop-down to **Keep** or **Delete** in the excel spreadsheet for each staff member.
10. E-mail the updated excel file back to the NBX System Administration Team.

**NBX System Administration Team**

11. Save all excel files received from the management teams and name as Department_NBX Recert.
12. Compile the results from the BPD CORs and BPD Manager into an excel spreadsheet and upload to the following portal location: PLUS Administration/User Access/Annual Recertifications/NBX Recert YYYY.
13. Review each employee and update as specified in the excel spreadsheet:
    - If the employee was set to **Keep,** there is no update required.
    - If the employee was set to **Delete,** see Remove NBX Access.
14. Notify the PLUS Information Owner that the BPD Systems Administration Database and NBX application are in sync.

**PLUS Information Owner**

15. Once notification is received from the NBX System Administration Team that systems are in sync, send a memo to the BPD Manager validating the completion of the annual recertification by providing an overview of the process for that year.

**Resources for NBX Administration**

## NFDE Administration

**In this Section**

Overview for NFDE Administration
NFDE Administration Procedures
Resources for NFDE Administration

**Overview for NFDE Administration**

**03/30/2016**

Net Benefits Exchange Form Data Entry (▶NFDE) Application Administration involves approving, managing, and confirming access to the NFDE application. An annual recertification process helps ensure that not only is NFDE application's access accurate and up-to-date, but that the ▶BPD System Administration portal database used to track and manage administration is an accurate reflection of the application's access.

**NFDE Administration Procedures**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To approve, grant, modify, remove and re-certify PBGC employees' access to the NFDE application. |
| **Guidance** | N/A |
| **Procedure Owner** | BPD Paying Agent COR, FBA COR, NFDE System Administration Team, OIT, OSSD, CSD Manager |

**In this Section**

Grant or Modify NFDE Access
Remove NFDE Access
Re-Certify NFDE Access

**Grant or Modify NFDE Access**

**03/30/2016**

**CSD Manager or FBA COR**

1. Submit an ▶ELAN via ▶GetIT to request ▶NFDE application access for a PBGC employee.

**BPD Paying Agent COR**

2. Once a *Service Request E-mail* from GetIT is received, confirm the ELAN request is valid and approved.

**NFDE System Administration Team**

3. Once an e-mail from GetIT is received specifying that the request has been approved, update the NFDE Administration access file (`NFDE.mdw`) by adding the PBGC User ID.
4. Send an e-mail to ▶OIT with the updated `NFDE.mdw` access file attached asking for the new file to replace the existing access file.

   Currently the requests are compiled and submitted each Friday in which changes were made to the access file.

**OIT**

5. Once an e-mail from the NFDE System Administration Team is received with an updated `NFDE.mdw` access file, replace the existing `NFDE.mdw` access file with the new file.
6. Send an e-mail to the NFDE System Administration Team confirming that the file has been updated.

**NFDE System Administration Team**

7. Once an e-mail from OIT is received stating that the `NFDE.mdw` access file has been updated, confirm with the PBGC employee that access is granted and validate access works as expected.
8. Close the service desk ticket via GetIT.
9. Create a new record for the employee if the individual is new to the ▶BPD System Administration portal, or if the individual already has a record, update the following fields:
   a. Change **NFDE_CENT** or **NFDE_DIST** to **Yes**.

      The NFDE application has two different user types, distributed and central. The majority of NFDE users are given access to NFDE Distributed. The users are able to access the NFDE application and enter transactions. The Central NFDE User is a very small group of users in BPD that are able to package and prepare transactions for transmission to the ▶PBGC's paying agent.

   b. Change **NFDEStatus** to **ACTIVE**.
   c. Change the **Date** to the date of the e-mail that was sent authorizing NFDE application access by the NFDE System Administration Team.
   d. Update **NFDECIOAddlineItemNo** with the service desk ticket number from GetIT. The number is captured for tracking purposes.

**NFDE System Administration Team**

1. Once an *HDELAN Employee Separation Notification E-mail* from PBGC's ▶OIT service desk or an e-mail from the ▶BPD Paying Agent ▶COR requesting employee access be removed from the ▶NFDE application is received, update the NFDE Administration access file (`NFDE.mdw`) by removing the PBGC User ID.

   The notification e-mail will be saved in electronic format to the PBGC's portal for audit purposes to show appropriate approval was received for each delete.

2. Send an e-mail to OIT with the updated `NFDE.mdw` access file attached asking for the new file to replace the existing access file.

   Currently the requests are compiled and submitted each Friday in which there have been changes made to the access file.

**OIT**

3. Once an e-mail from OIT is received with an updated `NFDE.mdw` access file, replace the existing `NFDE.mdw` access file with the new file.
4. Send an e-mail to the NFDE System Administration Team confirming that the file has been updated.

**NFDE System Administration Team**

5. Once an e-mail from OIT is received stating that the `NFDE.mdw` access file has been updated, update the following fields in the BPD Systems Administration portal to indicate the employee no longer has NFDE application access:
   a. Change **NFDE_CENT** or **NFDE_DIST** from **Yes** to **No**.
   b. Change **NFDEStatus** from **ACTIVE** to **DELETED**.
   c. Change the **Date** to the date of the e-mail that was sent authorizing the removal of access by the NFDE System Administration Team.

**Re-Certify NFDE Access**

**03/30/2016**

**NFDE System Administration Team**

1. Compare the ▶BPD System Administration Database and `NFDE.mdw` access file to ensure both are accurate, completely list all ▶NFDE users, and that both databases are synchronized.
2. Generate the excel file referred to as the NFDE Table from the `NFDE.mdw` access file used by the NFDE application to authenticate user access.
3. Sort the NFDE Table by group/location.
4. Contact the ▶OBA HR Liaison in Organizational Support & Staff Development (▶OSSD) to obtain the most current list of ▶CSD Managers and ▶FBA ▶CORs.

**OSSD**

5. Provide the NFDE System Administration team with an updated contact list of the current CSD Managers and FBA CORs.

**NFDE System Administration Team**

6. Send a *NFDE Recertification E-mail* to CSD Managers and FBA CORs for each group/location identified in the excel file as having staff members with NFDE application access.

**CSD Managers and FBA CORs**

7. Review and validate staff's NFDE application access by setting the radio button to **Keep** or **Delete** in the excel spreadsheet for each staff member.
8. E-mail the updated excel file back to the NFDE System Administration Team.

**NFDE System Administration Team**

9. Upload all excel files received from the management teams to the following portal location: ▶PLUS Administration/YYYY NFDE recertification/Manager Responses.
10. Compile the results from the FBA and CSD managers into an excel spreadsheet and upload to the following portal location: PLUS Administration/YYYY NFDE recertification/References.
11. Review each employee and update the following fields in the BPD Systems Administration portal as specified in the excel spreadsheet:
    - If the employee was set to **Keep** populate the **NFDERecerDate** with the date the e-mail confirmation was provided back by the manager via e-mail.
    - If the employee was set to **Delete** update the following fields in the BPD Systems Administration portal to indicate the employee no longer has NFDE application access:
        a. Enter **NFDERecerDate** with the date that the e-mail confirmation was provided back by the manager via e-mail.
        b. Change **NFDE_CENT** or **NFDE_DIST** from **Yes** to **No**.
        c. Change **NFDEStatus** from **ACTIVE** to **DELETED**.
        d. Enter **NFDEDeleteRef** with the date that the e-mail confirmation was provided back by the manager via e-mail.
12. Remove the PBGC User ID from the `NFDE.mdw` access file.
13. Send an e-mail to ▶OIT with the updated `NFDE.mdw` access file attached asking for the new file to replace the existing access file.

**OIT**

14. Once an e-mail with the updated `NFDE.mdw` access file from the NFDE System Administration Team is received, replace the existing `NFDE.mdw` access file with the updated file.
15. Send an e-mail to confirm the file is updated to the NFDE System Administration Team.

**NFDE System Administration Team**

16. Once an e-mail from OIT stating the `NFDE.mdw` access file has been updated is received, compare the BPD System Administration Database and `NFDE.mdw` access file to confirm all modifications are accurately and completely applied and that both databases are synchronized.

**BPD Paying Agent COR**

17. Send a *NFDE Recertification Memo* to the BPD Manager validating the completion of the annual recertification by providing an overview of the process for that year.

**PLUS Web Administration**

**06/27/2013**

The ▶PLUS Web Administrator confirms, validates, and manages access to PLUS Web. The PLUS Web Administrator is also responsible for managing PLUS Master Account to setup plans.

**In this Section**

Overview for PLUS Administration

PLUS Administration Procedures

Resources for PLUS Web Administration

**Overview for PLUS Administration**

**03/30/2016**

▶PLUS Administration involves approving, managing and confirming access to the PLUS Web system. An annual recertification process helps ensure that not only is PLUS's access is accurate and up-to-date, but that the ▶BPD System Administration portal database used to track and manage administration by PBGC is an accurate reflection of the application's access according to the system owner, ▶PBGC's paying agent.

PLUS Administration also involves approving, confirming, and managing each PBGC case on PLUS system's Account Master (i.e. plan setup).

**PLUS Administration Procedures**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To approve, grant, modify, remove and re-certify PBGC employees' access to the PLUS system and to approve, grant, or modify PBGC case setup on PLUS Account Master. |
| **Guidance** | *PLUS Web User Guide* |
| **Procedure Owner** | BPD Paying Agent COR, FBA COR, Paying Agent System Administration Team, PBGC's Paying Agent, PLUS System Administration Team, OSSD, CSD Manager |

**In this Section**

Grant or Modify PLUS Access
Remove PLUS Access
Re-Certify PLUS Access
Review PLUS Web Inactivity Report
Review PLUS Web Deactivation Report
Create or Modify a PLUS Account Master Service Request

**Grant or Modify PLUS Access**

**03/30/2016**

**CSD Manager or FBA COR**

1. Submit an ▶ELAN via ▶GetIT to request ▶PLUS access for a PBGC employee.

**BPD Paying Agent COR**

2. Once a *Service Request E-Mail* from GetIT is received, confirm the ELAN request is valid and approved.

**PLUS System Administration Team**

3. Once a fulfillment e-mail from GetIT is received specifying that the request has been approved, update the following two fields in the Request Management Line Item Summary screen in GetIT:
   a. Select the PLUS System Administration team member to complete the service request in the **Assigned To** drop-down list.
   b. Enter the **Target Completion Date** based upon the Paying Agent Service Level Agreement standards for the system access management.

      The Target Completion Date in GetIT may need to be further modified if the new employee is not immediately available in Microsoft Outlook.
   c. Click **Save.**
   d. Click **Ok.**

   **Note** The service request will be marked as completed if the line item is closed. Be sure to click 'Ok.'

4. Verify if the employee is new to the ▶BPD Systems Administration portal community,
   - If the employee is in the BPD Systems Administration Database, go to step 5.
   - If the employee is not in the BPD Systems Administration Database, go to step 6.
5. Update the following fields within the BPD Systems Administration Database using the information from the GetIT service request and Microsoft Outlook's address book:
   a. Change **PLUSWeb** to **Yes.**
   b. Change **PLUSWeb Status** to **Active Pending.**
   c. Enter the **PWCIOADDLineItemNo.** which is the GetIT service request number provided in the fulfillment e-mail message.
   d. Update the following fields if applicable:
      - **First Name**
      - **Last Name**
      - **PBGC User ID**
      - **Extension**
      - **Department/Division**
      - **Email Address**
      - **Federal**
   e. Click **Save** and go to step 7.

   **Note** The record for the employee displays in the Access Requests for SSC area in the BPD Systems Administration database.

6. Create a new record for the new employee.
   a. Select the tab that relates to the location for which the employee works (that is, ▶FBA office location or Federal group).
   b. Click the **New Record Icon** to add the person to the location selected.

c. Enter the **First Name**.

d. Enter the **Last Name**.

e. Enter the **PBGC User ID**.

f. Enter the **Extension**.

g. Select the **Department/Division** code from the drop-down list.

h. Enter the **Email Address**.

i. Change **Federal** to **Yes** or **No**.

j. Change **PLUSWeb** to **Yes**.

k. Change **PLUSWeb Status** to **Active Pending**.

l. Enter the **PWCIOADDLineItemNo.** which is the GetIT service request number provided in the fulfillment e-mail message.

m. Click **Save** and the record for the employee displays in the Access Requests for SSC area in the BPD Systems Administration database.

7. Complete the PBGC's paying agent's access request form, *State Street User Access Form: Benefit Payment Activities & Reporting*.

8. Upload the *State Street User Access Form: Benefit Payment Activities & Reporting* to the IPayBenefitsIPay User Access Form/Access Request/YYYY location on the portal.

   The form will be saved with the naming convention: MMDDYY_ADDPLUSweb.doc.

   **Note** The date used in the naming convention is the date the form will be sent to the PBGC's paying agent via e-mail.

9. Copy the notification link for the uploaded *State Street User Access Form: Benefit Payment Activities & Reporting*.

10. Click the PLUSWeb Requests tab in the BPD Systems Administration database.

11. Populate the SSC PLUSWeb Access Request with the following information:

    a. Select the **Request Type** from the drop-down list.

    b. Enter **Request Count** with the number of employees.

    c. Copy and paste the notification link from step 9 into the **Request Link**.

    d. Enter **Comments** with the names of the employees.

    e. Click **Save**

    **Note** The record displays automatically in the SSC PLUSWeb Access Request Queue in the BPD Systems Administration portal community.

**Paying Agent System Administration Team**

12. Once a notification e-mail from the BPD Systems Administration portal community is received, click on the access request link to the *State Street User Access Form: Benefit Payment Activities & Reporting*.

    **Note** The User can access the SSC PLUSWeb Access Request Queue in the BPD Systems Administration portal community to find the same link and access the form.

13. Submit the *State Street User Access Form: Benefit Payment Activities & Reporting* to the PBGC's paying agent Help Desk for processing.

    PBGC's paying agent Help Desk calls the BPD Paying Agent COR to validate that the access was approved for each employee.

    Once the notification with the **PLUS User ID** and **password** is received from the PBGC's paying agent Help Desk, send the PBGC employee an e-mail with the new **PLUS User ID** and a separate e-mail with the new **password**.

14. Update the *State Street User Access Form: Benefit Payment Activities & Reporting* with a **PLUS User ID** for each employee on the form.

15. Replace the original form with the updated *State Street User Access Form: Benefit Payment Activities & Reporting* on the BPD Systems Administration portal project.

**Note** Do not change the document name when replacing the original form with the updated form.

16. Go to the SSC PLUSWeb Access Request Queue in the BPD Systems Administration portal community and proceed accordingly for each request:
    a. Click the Created On hyperlink for a record and a pop-up window opens.
    b. Click **Edit**.
    c. Populate the SSC PLUSWeb Access Request Queue - PLUSWeb Access Requests form with the following information:
        i. Change **SSC Complete** to Yes.
        ii. Enter **SSC Complete Date** with the date the updated *State Street User Access Form: Benefit Payment Activities & Reporting* was uploaded to the portal.
        iii. Click **Save**.

        **Note** The record moves automatically to the SSC PLUSWeb Access Request Completed queue and automatically sends an e-mail to the PLUS System Administration Team.

**PLUS System Administration Team**

17. Once a notification e-mail from from the BPD Systems Administration portal community is received, go to the BPD Systems Administration portal community.
18. Select the Administration tab.
19. Scroll to the Access Request for SSC queue.
20. Click on the pending users below the status tab for a record and a pop-up window opens.
21. Click **Edit**.
22. Update the following items:
    a. Enter the **SSCPortalUID** which is the **PLUS User ID**.
    b. Change the **Status** to **Active**.
    c. Click **Save**.

    **Note** The record moves automatically to the Utility - Manage Records area in the BPD Systems Administration database on the portal.
23. Add the employee to the Microsoft Outlook distribution list of PLUS Users if the service ticket was for a new PLUS Web user.
24. Close the service request ticket via GetIT.

Top of Page

**Remove PLUS Access**

**03/30/2016**

**PLUS System Administration Team**

1. Once an *Employee Separation Notification E-mail* from service desk is received, verify if the employee has access in the ▶BPD Systems Administration database.
   - If the employee has access, go to step 2.
   - If the employee does not have access, update and close the request in ▶GetIT.
2. Update the record for the employee in the BPD Systems Administration database maintained on the portal by modifying the following fields:
   a. Change **PLUSWeb** to **No**.
   b. Change **PLUSWeb Status** to **Delete Pending**.
   c. Enter the **PWCIODeleteLineItemNo** with the GetIT service request number.
   d. Click **Save**.

   **Note** The record moves automatically to the Access Request for SSC queue.
3. Complete the PBGC's paying agent's access request form, *State Street User Access Form: Benefit Payment Activities & Reporting* for all employee records removed in the administrative database.
4. Upload the *State Street User Access Form: Benefit Payment Activities & Reporting* to the PLUS Administration/IPayBenefitsIPay User Access Form/Access Request/YYYY location on the portal.

   The form will be saved with the naming convention: MMDDYY_DELPLUSweb.doc.

   **Note** The date used in the naming convention is the date the form will be sent to the PBGC's paying agent via e-mail.
5. Copy the notification link for the uploaded *State Street User Access Form: Benefit Payment Activities & Reporting.*
6. Click the PLUSWeb Requests tab in the BPD Systems Administration database.
7. Populate the SSC PLUSWeb Access Request form with the following information:
   a. Select the **Request Type** from the drop-down list.
   b. Enter **Request Count** with the number of employees.
   c. Copy and paste the notification link from step 5 into the **Request Link**.
   d. Enter **Comments** with the names of the employees.
   e. Click **Save**.

   **Note** The record displays automatically in the SSC PLUSWeb Access Request Queue in the BPD Systems Administration portal community.

**Paying Agent System Administration Team**

8. Once a notification e-mail from the BPD Systems Administration portal community is received, click on the link to the *State Street User Access Form: Benefit Payment Activities & Reporting.*

   **Note** The User can access the SSC PLUSWeb Access Request Queue in the BPD Systems Administration portal community to find the same link and access the form.
9. Submit the *State Street User Access Form: Benefit Payment Activities & Reporting* to the PBGC's paying agent Help Desk for processing.

   PBGC's paying agent Help Desk removes access for each employee.
10. Go to the SSC PLUSWeb Access Request Queue in the BPD Systems Administration portal community and proceed accordingly for each request:
    a. Click the Created On hyperlink for a record and a pop-up window opens.

b. Click **Edit**.

c. Populate the SSC PLUSWeb Access Request Queue - PLUSWeb Access Requests form with the following information:

   i. Change **SSC Complete** to Yes.

   ii. Enter **SSC Complete Date** with the date the employee's access was removed.

   iii. Click **Save**.

> **Note** The record moves automatically to the SSC PLUSWeb Access Request Completed queue and automatically sends an e-mail to the PLUS System Administration Team.

**PLUS System Administration Team**

11. Once a notification e-mail from the BPD Systems Administration portal community is received, go to the BPD Systems Administration portal community.
12. Select Administration tab.
13. Go to the Access Request for SSC queue.
14. Click on a pending users below the status tab for a record and a pop-up window opens.
15. Click **Edit**.
16. Update the following items:

    a. Change **PLUSWeb Status** to **Delete**.

    b. Change **PLUSWeb** to **No**.

    c. Click **Save**.

> **Note** The record moves automatically to the Utility - Manage Records area in the BPD Systems Administration database on the portal.

17. Remove the employee from the Microsoft Outlook distribution list of PLUS Users.
18. Close the service request ticket via GetIT.

**Re-Certify PLUS Access**

**03/30/2016**

**PLUS System Administration Team**

1. Request the Paying Agent User Administration Database of all current ▶PLUS users from the ▶PBGC's paying agent.

**PBGC's Paying Agent**

2. Send the Paying Agent User Administration Database to the PLUS System Administration Team.

**PLUS System Administration Team**

3. Compare the ▶BPD System Administration Database and Paying Agent User Administration Database to ensure both are accurate, completely list all PLUS users, and that both databases are synchronized.
4. Generate the excel file from the BPD System Administration Database and sort by group/location.
5. Contact the ▶OBA HR Liaison in Organizational Support & Staff Development (▶OSSD) to obtain the most current list of ▶CSD Managers and ▶FBA ▶CORs.

**OSSD**

6. Provide the PLUS System Administration Team with an updated contact list of the current CSD Managers and FBA CORs.

**PLUS System Administration Team**

7. Send an e-mail to the CSD Managers and FBA CORs for each group/location identified in the excel file as having staff members with PLUS access.

**CSD Managers and FBA CORs**

8. Review and validate staff's PLUS access by setting the radio button to **Keep** or **Delete** in the excel spreadsheet for each staff member.
9. E-mail the updated excel file back to the PLUS System Administration Team.

**PLUS System Administration Team**

10. Upload each excel file received from the management teams to the following portal location: ▶PLUS Administration/YYYY PLUS recertification/Manager Responses.
11. Compile the results from the FBA and CSD managers into an excel spreadsheet and upload to the following portal location: PLUS Administration/YYYY PLUS recertification/References.
12. Review each employee and update the following fields in the BPD Systems Administration portal as specified in the excel spreadsheet:
    - If the employee was set to **Keep** populate the **PLUSRecerDate** field with the date the e-mail confirmation was provided back by the manager via e-mail.
    - If the employee was set to **Delete** update the following fields in the BPD Systems Administration portal to indicate the employee no longer has PLUS application access:
        a. Enter **PLUSRecerDate** with the date that the e-mail confirmation was provided back by the manager via e-mail.
        b. Change **PLUS_Access** from **Yes** to **No**.
        c. Change **PLUSStatus** from **ACTIVE** to **DELETED**.
13. Remove PLUS access for all employees that were identified as no longer needing PLUS access. See Grant or Modify PLUS Access.
14. Send an e-mail to the BPD Paying Agent COR when deletions are completed.

**BPD Paying Agent COR**

15. Send a memo to the BPD Manager validating the completion of the annual recertification by providing an overview of the process for that year.

**Review PLUS Web Inactivity Report**

**03/30/2016**

**PBGC's Paying Agent**

1. Upload weekly a *PLUS Web Inactivity Report* (commonly referred to as the *45 Day Inactivity Report*) of all users that have not used the system in the last 45 days to the portal.

**PLUS System Administration Team**

2. Open the *PLUS Web Inactivity Report* and add a **COMMENT** column to the report to document analysis, action taken and any notes of reference.
3. Once the **COMMENT** column is added to the *PLUS Web Inactivity Report*, review each user and determine the appropriate action.
4. Once the *PLUS Web Inactivity Report* is updated with all additional notes, upload the report to the portal.
5. Send the *First Warning E-mail* to users about access with a carbon copy to ▶CSD Manager or ▶FBA Manager and FBA ▶COR.

**Note** If a user is on the *PLUS Web Inactivity Report* and reaches 60 days of inactivity, then the user is moved to the *PLUS Web Deactivation Report.* See Review PLUS Web Deactivation Report.

**Review PLUS Web Deactivation Report**

**03/30/2016**

**PBGC's Paying Agent**

1. Upload weekly a *PLUS Web Deactivation Report* (commonly referred to as the *60 Day Deactivation Report*) of all users that have not used the system in the last 60 days to the portal.

   The account for each user on the *PLUS Web Deactivation Report* is deactivated.

**PLUS System Administration Team**

2. Open the *PLUS Web Deactivation Report* and add a **COMMENT** column to the report to document analysis, action taken and any notes of reference.
3. Once the **COMMENT** column is added to the *PLUS Web Deactivation Report,* review each user and determine the appropriate action.
4. Once the *PLUS Web Deactivation Report* is updated with all additional notes, upload the report to the portal.
5. Send the *Second Warning E-mail* with instructions on how to reactivate account to users and a carbon copy to ▶CSD Manager or ▶FBA Manager and FBA ▶COR.

| |
|---|
| **Note** If a user is on the *PLUS Web Deactivation Report* for two weeks in a row, then the user's account for PLUS Web is **deleted.** See Remove PLUS Access. |

**CSD Manager**

1. Send an e-mail with a *Notification of Authorization to Make Payments Memo* (see TP 59.1 First Pay and Customer Data Loads) to the ▶PLUS System Administration Team and the ▶BPD Paying Agent ▶COR to create an Account Master in PLUS.

   If an account is set-up in ▶CMS, an automated e-mail requesting an Account Master in PLUS is sent to the PLUS System Administration Team and the BPD Paying Agent COR.

**PLUS System Administration Team**

2. Once an e-mail is received from a ▶CSD Manager or CMS, save the e-mail to the portal as evidence of the request and for use in review of the request in subsequent steps.
3. Once the e-mail is uploaded to the portal, complete an Account Master form on the portal, which generates a service request to create an Account Master in PLUS.

**BPD Paying Agent COR**

4. Once an e-mail notification of the service request to create an Account Master in PLUS is received, review the Account Master form in the Account Master COR approval queue to verify the information.
5. Once information is verified, approve the Account Master form on the portal.

**PBGC's Paying Agent**

6. Once an e-mail notification of the Account Master service request is received, verify the form is complete and has been approved by the BPD Paying Agent COR.

   | **Note** It is important to monitor the queues and not rely on the portal e-mail notifications to initiate work. |
   |---|

7. Once information is verified, create an Account Master on PLUS within 24 hours by entering plan name, plan number and ▶Date of Plan Termination (DOPT) or deemed ▶distribution date for a missing participant program (MPP) request.

   The service request is automatically moved to the Paying Agent's initiated portal queue once updated with information.

**PLUS System Administration Team**

8. Once an e-mail notification stating that the Account Master has been initiated on PLUS is received, forward the e-mail notification to the PBGC ▶POC and the New Plan e-mail distribution list that the Account Master is available to use and data loads can be made to the plan.
9. Once the e-mail notification stating that the Account Master is available to use and data loads can be made to the plan has been sent, save the e-mail to the portal as evidence of notification.

**PBGC's Paying Agent**

10. Once Account Master is available on PLUS Web, which can take 3 days, close out the service request on the portal.

    The service request is then automatically moved to the Account Master completed queue.

**Payment Schedules Development**

**03/30/2016**

The timing of many of the ▶BPD processes is dictated by the various payment schedules.

**In this Section**

Overview for Payment Schedules Development
Payment Schedules Development Procedures
Resources for Payment Schedules Development

**Overview for Payment Schedules Development**

**11/20/2015**

The Management Analyst creates the Monthly Payment Schedule and Payment Schedule Key Dates using an Excel spreadsheet template. The spreadsheet template used to create these schedules is maintained on the PBGC Portal.

**Payment Schedules Development Procedures**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To enable processors to organize, process, and submit payments, changes, etc. relating to participants in timely manner; to determine the key dates in the monthly benefit payment cycle. |
| **Guidance** | N/A |
| **Procedure Owner** | Management Analyst |

The "Template" worksheet specifies the rule used to set the date of each event. Some dates must be entered manually, others are calculated by formulas. The worksheet also contains a link to the Office of Personnel Management website where federal holidays are scheduled.

The "Instructions" worksheet contains detailed step-by-step instructions for creating the Monthly Payment Schedule.

The "Key Dates" worksheet contains the Annual Payment Schedule Key Dates. This schedule is produced manually based on the schedule for the previous year. ▶PBGC's paying agent has major input into the dates. This sheet must be updated each year before any monthly schedules are created. After all the dates have been determined, the color-coded version of the schedule is created manually using the prior year's spreadsheet.

**In this Section**

Create the Monthly Payment Schedule
Create the Monthly Payment Schedule E-mail
Create the Payment Schedule Key Dates

**Create the Monthly Payment Schedule**

**03/30/2016**

**Management Analyst**

1. Open the *Payment Schedule Template* on the PBGC Portal and save a copy.
2. Update the Month and Year.
3. Use the information in the "Rule" column to determine the dates to enter in the "Date" column.
4. Eliminate all the formulas.
5. Sort the entire block of data in the "Date" and "ID #" columns.
6. Determine if there are any holidays for that month and if so, add rows for each one.

   For the December schedule only: Ask ▶PBGC's paying agent for the latest date that they can receive an Integrator file containing names, ▶SSNs, and addresses before running the 1099-Rs. Put an additional row in the schedule for that date. Label it as "INTEGRATOR file sent to PBGC's paying agent containing Name, Address and SSN changes. LAST FILE BEFORE 1099R RUN."
7. Remove the shading from the "Day" and "Date" columns and change text to black.
8. Create the *Monthly Payment Schedule E-mail.*

   See detailed instructions in the ▶BPD Procedures Project on the portal.

**Create the Monthly Payment Schedule E-mail**

**03/30/2016**

**Management Analyst**

1. Open the *Payment Schedule E-mail Template* on the PBGC Portal and save a copy.
2. Enter the Month and Year into the header.
3. Starting with event #50 in the *Payment Schedule Template* copy the block that has a border around it and paste into the *Payment Schedule E-mail Template.*
4. Adjust the row heights and widths so the schedule fits on one page in the *Payment Schedule E-mail Template.*
5. Print the *Payment Schedule E-mail Template* and review it carefully.
6. Delete the "ID #" column in the *Payment Schedule E-mail Template.*
7. Submit the Monthly Payment Schedule for review to the ▶BPD Team (including the BPD Manager) and ▶PBGC's paying agent one week prior to the check-run and make corrections as needed.
8. On the day before the ▶Annuity check run, create an e-mail using the *Payment Schedule OBA Webmaster E-mail* from the PBGC Portal. Attach the Word document and send the e-mail to the ▶OBA Web Team.
9. Review the Monthly Payment Schedule on the test intranet for accuracy. If the schedule checks out, instruct the OBA Web Team to put it into live production.
10. E-mail the Monthly Payment Schedule to the appropriate distribution list on the day following the ▶Annuity check run.

**Create the Payment Schedule Key Dates**

**03/30/2016**

**Management Analyst**

1. Review the prior year's Payment Schedule Key Dates and compare the dates with the upcoming year.
2. Create a draft of the Payment Schedule Key Dates.
3. E-mail the draft of the Payment Schedule Key Dates to ▶PBGC's paying agent.
4. Coordinate the final approval of the Payment Schedule Key Dates with PBGC's paying agent and the ▶BPD Manager.
5. Coordinate with the ▶OBA Webmaster to have the Payment Schedule Key Dates posted to PBGC's Intranet.
6. Provide ▶OIT the Cutoff and Last Minute File dates to be entered into Integrator.

**Resources for Payment Schedules Development**

# Controls

**11/29/2011**

A ▶control is a safeguard against risk.

**In this Section**

Overview for Controls
Operations of the Controls
Resources for Controls

**Overview for Controls**

**03/30/2016**

Internal ▶Controls are defined for PBGC "cycles" (also known as "processes") including Benefits Payment, Benefits Determination, Financial Reporting, Present Value of Future Benefits and Investments. Each cycle has a corresponding "cycle memo" (owned by the ▶ICC and maintained in Corporate Controls and Reviews Department (CCRD) which summarizes the associated processes and controls. ▶CCRD distributes the cycle memos to each department for review every winter (often February) and publishes updates in the early spring (often March/April). The memos are a key input for both the internal and external ▶auditors so the annual reviews/updates are scheduled such that they can be completed in time for the annual audits.

Information Technology Controls are defined for each information system including ▶PLUS and PLUS Web.

**Key Internal Controls**

The *Key Internal Control Matrix* is maintained in the CCRD whose director is a member of the Internal Controls Committee (ICC). All of the ▶key internal controls owned by ▶BPD are in the Benefits Payment cycle. These controls are associated with the Integrator (D01A), Trial Balance (D01B), Balancer (D01C), Approval Administration (D02A and D03), Funding (D05) and other processes (D09, D13, D14, and D16).

**Non-Key Internal Controls**

In addition to key internal controls, the cycle memos define non-key internal controls which are also important safeguards but do not rise to the same level of materiality as do key internal controls.

**Other BPD Internal Controls**

BPD develops other controls as needed to mitigate risks that CCRD and/or the auditors have not yet focused on (for example, Manual PLUS changes and Death Match). These controls may or may not be added to the CCRD-maintained control matrix in the future.

**Information Technology (IT) Controls**

Because of ▶OBA's reliance on ▶PBGC's paying agent's PLUS programs (PLUS, PLUS Web, MyPenPay), BPD must continuously monitor IT controls defined by the National Institute of Standards and Technology (▶NIST) in conjunction with the Federal Information Security Management Act (▶FISMA). NIST Special Publication 800-53 identifies nearly 20 different control families (Access Control-▶AC, Contingency Planning-▶CP, Incidence Response-▶IR, etc.) containing hundreds of individual IT controls that must be implemented and monitored. If a required control is not yet implemented, it must be documented on the quarterly *Plan of Action and Milestones* (▶POA&M) report.

**Operations of the Controls**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To report to MCD on a quarterly basis the existence and maintenance of internal controls over financial and non-financial activities in BPD. |
| **Guidance** | Approval Administration<br>Post Balancer<br>Funding Reconciliation<br>Integrator<br>Paper Check Reconciliation<br>Quarterly Confirmations<br>Trial Balance<br>Key Internal Control Matrix<br>OBA Key Internal Control Schedule |
| **Procedure Owner** | Key Internal Controls Coordinator, Management Information Specialist, Management Analyst, PBGC's Paying Agent COR, BPD Manager, OIT, MCD |

The following details the protocol for control owners logging and reporting control functions, and outlines the associated time frames.

- Employee Log for Controls
- Reporting Form for Controls
- Time Frames for Controls

| **Procedure Owner** | Key Internal Controls Coordinator, Management Information Specialist, Management Analyst, PBGC's Paying Agent COR, BPD Manager, OIT, MCD |

The following details the protocol for control owners logging and reporting control functions, and outlines the associated time frames.

▼Employee Log for Controls

▶Control owners initial the *Employee Log for Controls* sheet once the function associated with the control has been performed during the specified time period. Each control owner has a folder with the log designated for each month. The log is checked monthly.

MCD provides control sheets to the Key Internal Controls Coordinator to distribute to the control owners. Control owners document and investigate any discrepancies. The ▶BPD Manager reviews the completed control sheets for accuracy, signs off on quarterly control sheets, and returns the signed control sheets to the Key Internal Controls Coordinator.

**Key Internal Controls Coordinator**

1. Distribute control sheets to control owners.
2. Check complete control sheets for accuracy.
3. Give control sheets to the BPD Manager.
4. Return signed control sheets to MCD.

| **Procedure Owner** | Key Internal Controls Coordinator, Management Information Specialist, Management Analyst, PBGC's Paying Agent COR, BPD Manager, OIT, MCD |

The following details the protocol for control owners logging and reporting control functions, and outlines the associated time frames.

▼Employee Log for Controls

▶Control owners initial the *Employee Log for Controls* sheet once the function associated with the control has been performed during the specified time period. Each control owner has a folder with the log designated for each month. The log is checked monthly.

MCD provides control sheets to the Key Internal Controls Coordinator to distribute to the control owners. Control owners document and investigate any discrepancies. The ▶BPD Manager reviews the completed control sheets for accuracy, signs off on quarterly control sheets, and returns the signed control sheets to the Key Internal Controls Coordinator.

**Key Internal Controls Coordinator**

1. Distribute control sheets to control owners.
2. Check complete control sheets for accuracy.
3. Give control sheets to the BPD Manager.
4. Return signed control sheets to MCD.

▼Reporting Form for Controls

According to the schedule published by MCD, the control owner and their immediate supervisor sign the *Reporting Form for Controls*. The ▶BPD Manager or designate forwards the reports to MCD.

▼Time Frames for Controls

The specified time period varies from one control to the next. For example, the funding reconciliation control is performed monthly, the quarterly confirmations every three months, and the SAS-70 review is performed annually. All but four ▶BPD ▶controls are Phase I as defined by MCD's annual schedule. Phase II controls are due the same months as Phase I controls. D08 (SAS 70) is submitted annually.

## Approvers Quarterly Confirmation

**11/29/2011**

Each quarter the Management Analyst sends confirmation requests to various ▶POCs to verify the ▶AWA/▶SAT system authorization levels for non-financial and financial transactions.

**In this Section**

Overview for Approvers Quarterly Confirmation
Approvers Quarterly Confirmation Procedures
Resources for Approvers Quarterly Confirmation

**Overview for Approvers Quarterly Confirmation**

**03/30/2016**

The Management Analyst generates the *Quarterly Approval Report* from ▶AWA/▶SAT and sends the reports via portal notification to ▶CSD, ▶FBAs, MCD, ▶OASD, PPD, ▶ASD, ▶PBGC's paying agent, ▶BPD, and the Front Office Director for their review as well as to confirm any updates to approval levels in the AWA/SAT systems. The Management Information Specialist implements the authorization level updates in AWA/SAT.

Once confirmation of the changes is received from the portal, the Management Analyst drafts and e-mails the *Summary Memo* and generates the *Final Report* in AWA/SAT of all the changes. MCD provides *Control Sheets* to be signed and returned.

**Approvers Quarterly Confirmation Procedures**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To update AWA/SAT system authorization levels for non-financial and financial transactions. |
| **Guidance** | Workflow for Approvers Quarterly Confirmation |
| **Procedure Owner** | Management Analyst, Management Information Specialist, BPD Manager |

Each quarter the Management Analyst reviews the *Quarterly Approval Report* from ▶AWA/▶SAT and sends the report data via a portal notification to the ▶POCs to request system approval updates.

After receiving confirmation of AWA/SAT system approval level updates from the Management Information Specialist, the Management Analyst drafts and e-mails a *Summary Memo* of all updates to the Division Manager and ▶BPD Manager. MCD provides *Control Sheets* to be signed and returned.

**In this Section**

1. Update AWA/SAT System Authorization Levels
2. Distribute Summary Memo, Final Report, and Sign Control Sheets

## 1. Update AWA/SAT System Authorization Levels

**11/20/2015**

**Management Analyst**

1. Review the *Quarterly Approval Report* from ▶AWA/▶SAT and send the report via portal notification to the ▶POCs to get system approval updates.
2. Send the Management Information Specialist AWA/SAT system approval changes via a portal notification to be implemented.

**Management Information Specialist**

3. Implement approval level updates in AWA/SAT systems and e-mail to confirm the changes were made.

## 2. Distribute Summary Memo, Final Report, and Sign Control Sheets

**03/30/2016**

**Management Analyst**

1. Draft and e-mail a *Summary Memo* of all updates to the Division Manager and ▶BPD Manager.
2. File signed copy of the *Summary Memo.*
3. Generate the *Final Report* in ▶AWA/▶SAT and send to the BPD Manager.
4. Sign *Control Sheet* and give to the BPD Manager.

**BPD Manager**

5. Sign *Control Sheet* and give to the Senior Pension Analyst.

**Senior Pension Analyst**

6. Sign *Control Sheet* and return all to MCD.

**Paper Check Reconciliation**

**03/28/2013**

PBGC's Paper Check Reconciliation process ensures the accountability for all the checks printed and issued in support of the monthly ▶annuity check run process.

**In this Section**

Overview for Paper Check Reconciliation
Review the Paper Check Reconciliation Package
Resources for Paper Check Reconciliation

**Overview for Paper Check Reconciliation**

**11/20/2015**

PBGC's monthly pension checks are printed by ▶DST Output (DSTO), ▶PBGC's paying agent check processing sub-contractor for monthly benefit payment checks. The Key Internal Control Owner reviews and approves the monthly reconciliation of paper checks conducted by DSTO and PBGC's paying agent in accordance with PBGC's *Cycle Memo's* Key Internal ▶Control D09 (a.k.a. Control 17).

PBGC's paying agent compiles the *Paper Check Reconciliation Package* that reflects data from the check reconciliation process including comparing the number of checks printed according to DSTO to the number of checks printed according to PBGC's paying agent records. The *Paper Check Reconciliation Package* is submitted to the Key Internal Control Owner confirming that the Check Reconciliation process was completed, audited by DSTO, and reviewed by the paying agent auditors. The Key Internal Control Owner completes a *Paper Check Reconciliation Review Memo* to validate review of the *Paper Check Reconciliation Package* and sign the *Check Processor Control Sheets* documenting the Paying Agent Check Reconciliation was executed in accordance with the Key Internal Control D09.

**Review the Paper Check Reconciliation Package**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To ensure that PBGC's paying agent's reported printed Check Total for the Monthly Pension Check Run matches the check processor's reported printed Check Total; to ensure that the check processor's documentation supports any mutilated or pulled checks. |
| **Guidance** | Key Internal Control D09 (a.k.a. Control 17)<br>Key Internal Control Matrix<br>Cycle Memo<br>Workflow for Paying Agent Check Reconciliation |
| **Procedure Owner** | Key Internal Control Owner, DSTO, PBGC's Paying Agent |

**DSTO**

1. Perform the monthly check reconciliation process and produce the *DST Output Quality Audit Report.*

**PBGC's Paying Agent**

2. Review, validate and upload the *DST Output Quality Audit Report* to the PBGC portal as part of the *Paper Check Reconciliation Package* for the ▶BPD paying agent ▶COR by the 15th of the month.

**Key Internal Control Owner**

3. Review the *DST Output Quality Audit Report* and note errors, exceptions or non-compliance items:
   - If there are no errors, exceptions or non-compliance items, continue to step 4.
   - If exceptions or non-compliance items are found in the *DST Output Quality Audit Report,* notify the paying agent auditors that the *DST Output Quality Audit Report* has items of note and request details from PBGC's paying agent by sending a *Non-compliance Memo.* Continue to step 4.

   > **Note** Add non-compliance issue to the Management Program agenda and track until resolved.

4. Review the following supporting documentation and cross validate the check numbers and checks printed:
   - *PBGC Check Processing Sheet*: PBGC's paying agent report showing the totals of checks printed and processed.
   - *Check Security Sheet*: DSTO documents check numbers printed for the check-run, net amount of checks, and check totals.
   - *State Street Payee Converted Packed File Report*: ▶PLUS report generated from the check-run with breakdown of mailing groups, net amount, and check totals.
   - *Preprocessor Balancing Report*: DSTO's report showing the breakdown by mailing groups and check totals to be mailed.
   - *PBGC Monthly Production Reconciliation*: DSTO's Post Reconciliation of the Monthly Check Run production of the transmission, check stock, and output mailed.
   - *Check Stock Issuance Report*: DST's production reconciliation of checks issued including mutes and voids.
   - *Quality Control Check List*: Check list that DST uses for their verification of check output.
   - *Mail Distribution by Type Report*: DSTO's Mail distribution report by mail type showing check totals.
   - *Monthly Check Summary Spreadsheet*: PBGC's paying agent creates the ▶control spreadsheet to reconcile and confirm the check-run data transmitted to DSTO to what DSTO printed, inserted, and mailed.
5. Send any discrepancies to the PBGC's paying agent and an updated package is produced for the Key Internal Control Owner.
6. Create the *Paper Check Reconciliation Review Memo.*
7. Create a PDF called the *Paper Check Reconciliation Report* that includes the *Paper Check Reconciliation Review Memo* and the *Paper Check Reconciliation Package.*
8. Store the *Paper Check Reconciliation Report* on the PBGC portal under BPD Internal Controls project.

9. Sign the *Employee Log for Controls* that is stored in a locked desk drawer in a binder with the *Quarterly Reporting Form for Controls*.

   MCD provides both the *Employee Log for Controls* and *Quarterly Reporting Form for Controls* each quarter.

10. Sign the *Quarterly Reporting Form for Controls* with the BPD Manager at the quarterly review.

    BPD Manager visually inspects the binder at the quarterly review to confirm the *Employee Log for Controls* is being signed each month.

# Paying Agent and Spectrum Data Synchronization

**03/29/2012**

The Management Information Specialist ensures payment data in ▶Spectrum and ▶PLUS are consistent.

**In this Section**

Overview for Paying Agent and Spectrum Data Synchronization
Compare Paying Agent and Spectrum Data
Resources for Paying Agent and Spectrum Data Synchronization

**Overview for Paying Agent and Spectrum Data Synchronization**

**11/21/2014**

Each quarter, ▶PBGC's paying agent securely transmits an extract data file to PBGC via server and sends the file notification via PBGC Portal notification to the Management Information Specialist. The Management Information Specialist submits a request for ▶OIT via ▶GetIT to run a database job of ▶PLUS and ▶Spectrum data to populate table data with the system variances.

The Management Information Specialist runs queries and generates reports on the data and e-mails the data to ▶POCs. The POCs review the data to determine which system has the correct data: PLUS or Spectrum. The POCs have the data changes imaged to ▶IPS and e-mail the updated spreadsheets back to the Management Information Specialist.

PBGC's paying agent updates PLUS, if needed, and sends a notification that PLUS was updated.

## Compare Paying Agent and Spectrum Data

**11/21/2014**

| | |
|---|---|
| **Purpose** | To ensure payment data in Spectrum and PLUS are consistent. |
| **Guidance** | N/A |
| **Procedure Owner** | Management Information Specialist, Management Analyst |

Each quarter, ▶PBGC's paying agent securely transmits an extract data file to PBGC via server and sends the file notification via PBGC Portal notification to the Management Information Specialist.

### Management Information Specialist

1. Submit a request for ▶OIT via ▶GetIT to run a database job of ▶PLUS and ▶Spectrum data to populate table data with the system variances.
2. Verify the data load and e-mails OIT to notify the load was successful.
3. Attach the data files into Access and run various pre-written queries on the data to identify errors or differences between PLUS and Spectrum data.
4. Upload the reports generated from the queries to the PBGC Portal.

   The queries categorize the data by organization and data category:

   - ▶Annuity.
   - Deduction Source.
   - Destination.
   - ▶DOB.
   - ▶Pay Source.
   - Status.
   - Type.
   - ▶Genesis Annuities.
   - Genesis Deduction Source.
   - Genesis Pay Source.
   - PBGC's paying agent Annuities.
   - PBGC's paying agent Deduction Source.
   - PBGC's paying agent Pay Source.
5. Export query data for each category into Excel spreadsheets.
6. E-mail spreadsheets to ▶POCs with instructions and deadlines.
7. Import the updated spreadsheets into Access and run queries on the data into the ▶NFDE transmission format.

   The NFDE transmission format is sent to PBGC's paying agent via ▶NBX (transfer protocol).

### Management Analyst

8. Review report data and coordinate with POCs to determine data and system issue resolutions.

# Paying Agent Invoice Processing

**03/27/2014**

**In this Section**

Overview for Paying Agent Invoice Processing
Process Paying Agent Invoice
Resources for Paying Agent Invoice Processing

**Overview for Paying Agent Invoice Processing**

**03/30/2016**

▶PBGC's paying agent submits a monthly invoice to the ▶BPD Paying Agent ▶COR at PBGC for review and approval.

Each monthly invoice will include charges for all services rendered and supplies provided (per contract allowances) during that month.

PBGC's paying agent bills for completed work for monthly check issuance and ▶ACH payments in the same month the work is executed. So monthly checks, ACH and postage charges for the 10/01/2013 check run are charged on the 09/2013 monthly invoice since that is when the work was completed for these payments and the cost was incurred by the vendor.

**Process Paying Agent Invoice**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To correctly review and approve or reject a monthly invoice from PBGC's paying agent. |
| **Guidance** | N/A |
| **Procedure Owner** | BPD Paying Agent COR, FOD, PBGC's Paying Agent |

**PBGC's Paying Agent**

1. Send a *Monthly Invoice Package* to include all supporting documentation via a monthly email to Financial Operations Department (▶FOD) detailing all work completed.

> **Note** This submission is due within 45 days of the end of the month to the FOD via InvoiceManager@pbgc.gov and carbon copy the ▶BPD Paying Agent ▶COR.

**FOD**

2. Upon receiving a *Monthly Invoice Package* via email, load the invoice into the Consolidated Financial System (CFS).

**BPD Paying Agent COR**

3. Upon receiving a *Monthly Invoice Package* via email, save a copy of the email to the BPD Contract COR portal project in an invoice folder.
4. Print the *Monthly Invoice Package* which contains the PBGC Billing Spreadsheet, the actual PBGC monthly invoice, and direct deposit/ACH/pension back-up documents from the email.
5. Review of the *Monthly Invoice Package* and proceed accordingly:
6. Analyze and validate the paper check and ACH totals:
   a. Create a new tab in the *SLA_023 Monthly Invoice* excel workbook and name the tab **YYYY_MM**.
   b. Populate tab with paper check and ▶ACH payment numbers as provided in the backup documentation in the Direct Deposit - ACH - Paper Checks Pension and Lump Sum section of the *Paying Agent Monthly Invoice.*
   c. Validate the paper check and ACH totals against the numbers submitted on the PBGC Billing Spreadsheet.
   d. Verify paper check and ACH numbers match those on the monthly invoice.
7. Analyze and validate each line item on the monthly invoice against backup documentation:

> **Note** Backup documentation is listed on the Backup Reference List tab of the *SLA_023 Monthly Invoice* excel workbook.

   a. Verify the number of items being charged for each line on the PBGC Billing Spreadsheet are substantiated (i.e. match) on backup documentation.
   b. Populate the Invoice Tracking tab of the *SLA_023 Monthly Invoice* excel workbook with the number of items being charged for each line item.
   c. Verify that each line item charge subtotal in *SLA_023 Monthly Invoice* excel workbook matches PBGC Billing Spreadsheet.
   d. Validate that the total Monthly Invoice total in the *SLA_023 Monthly Invoice* excel workbook matches the PBGC Billing Spreadsheet.
   e. Validate total monthly invoice total in *SLA_023 Monthly Invoice* excel workbook matches the monthly invoice.
8. Confirm whether or not there are any perceived discrepancies and proceed accordingly:
   - If there are any perceived discrepancies between the *Monthly Invoice Package* and the analysis, send an email to PBGC's paying agent to allow for additional clarification or documentation to resolve the discrepancy.
   - If there are no perceived discrepancies between the *Monthly Invoice Package* and the analysis, move to step 9.
9. By the 5th business day of receiving a system generated email from CFS, enter **approve** or **reject** in CFS for the *Paying Agent Monthly Invoice.*
10. File hard copies of the review in a locked cabinet for auditing purposes and future reference.

**COOP Considerations**

**03/30/2016**

A ▶COOP is a collection of documents that describe how an organization's most important functions will be brought back into operation after some kind of adverse event disrupts them. The overall ▶OBA COOP plan is maintained in a different division and feeds into the agency level plan maintained in ▶WSD. This section summarizes ▶BPD-specific considerations surrounding continuity of operations and goes beyond the major catastrophes (for example, tornado, hurricane, major system failure, etc.) that are the focus of the agency-level plan, and extends into lower impact events that are mostly confined to BPD or a small subset of its customers.

The master copies of COOP test plans for BPD applications are maintained in the BPD Procedures Project on the PBGC Portal.

In the context of COOP, a "critical function" is defined as something that must be brought back into operation within seven days of the disruption and an "essential" function within 30 days. Senior management's general philosophy as it relates to BPD operations is that it is "critical" to continue existing payments and anything beyond that (for example, new payments, changing amounts, destination, etc) are, at most, "essential." Since ▶PBGC's paying agent is a completely separate entity, they can maintain existing payments even if all functions at PBGC are out of operation.

- **"Critical" functions** are those required to get paper checks in the mail and electronic direct deposits to the Federal Reserve. These functions include the continuing operation of ▶PLUS. Operations confined to PBGC in D.C. or any of its field offices including connectivity to PBGC's paying agent are not "critical" as defined in the context of COOP.
- **"Essential" functions** are those that are necessary to create new benefits or to change any data in PBGC's paying agent's system related to existing ▶payees (benefit amount, frequency, destination, etc.). These functions involve the following BPD systems and operations:
  - Approval Worklist Application (▶AWA) and Service Administration Tool (▶SAT).
  - Transmission of data to/from PBGC's paying agent (Integrator and ▶NFDE-related operations).
- Other key BPD-related functions including trial balance, post balance, and the various manual transaction processing functions are neither "critical" or "essential" as defined in the context of COOP.

**BPD Systems and Applications Table**

| System/Application | Description |
|---|---|
| AWA | Approval Worklist Application |
| ▶CMS | Case Management System |
| ▶CRM | Customer Relationship Management |
| ▶eCARF | Electronic Check Action Request Form |
| ▶Genesis | The unified database that underlies multiple PBGC systems, including Spectrum and CMS. Genesis serves as a repository for customer-related information. |
| ▶Golden 32 | Database used in the Death Match Process that is used to determine the total number of records in the file correlating with participants in active paying status in Spectrum. |
| ▶PBGC Image Viewer | The IPS subsystem used to view documents imaged to IPS. |
| ▶IPS | Image Processing System |
| ▶LRU | ▶Ledger Reporting Utility |
| NFDE | Net Benefit Exchange (NBX) Forms Data Entry |
| ▶NBX | Net Benefit Exchange |
| PBGC Portal | PBGC's document repository. |
| ▶PLUS | PBGC's paying agent's Pension and ▶Lump Sum System |
| ▶PRISM | ▶Participant Records Information System Management |

| | |
|---|---|
| SAT | Service Administration Tool |
| ▶Spectrum | Once fully implemented, Spectrum will replace PRISM as OBA's participant database and benefit administration system. It is currently used to administer payments, replacing PRISM Benefits. In addition, Spectrum integrates with other PBGC applications and services, including Approval Service (AS), ▶eALG, CRM, PRISM applications, and infrastructure elements, such as the Genesis database. |

Plan For Lower-Impact Adverse Events

Top of Page

**Plan For Lower-Impact Adverse Events**

**03/30/2016**

| | |
|---|---|
| **Purpose** | To ensure continuity of operations in the event of adverse circumstances. |
| **Guidance** | USPS<br>Zip Express |
| **Procedure Owner** | BPD, CSD, FBA, CCC, DO, Recovery Coordinator |

The following guidelines should be followed in the event of:

▼Loss of mail service

**BPD**

1. Notify the division database expert of the event.
2. Check the USPS website for a list of affected areas:

   If zip codes are not listed, Zip Express can be used to identify zip codes.
3. Put the list of zip codes into comma separated format.
4. Run a script/query to identify payees in the affected areas who get paper checks and the organization (▶CSD or ▶FBA) responsible.
5. Give this information to CSDs, FBAs, and the Customer Contact Center (▶CCC).

▼Disruption of service at a field office

**BPD**

- A key consideration is the approval queues of affected personnel.

  **Note** The ▶SAT administrator can assign temporary approvers to cover these queues.

▼Sudden influx of calls at the Customer Contact Center (CCC)

**BPD**

- Be alert after newsletters (several times a year) and 1099-R's (January) are mailed. It has also happened as the result of temporary loss of mail at a single post office.

# Year-End Activities

**03/28/2013**

Year-end activities are completed annually to make sure that accurate information is available to PBGC employees allowing for outstanding customer service to our ▶payees.

**In this Section**

Overview for Year-End Activities
Year-End Tax Reporting Deadlines Procedures
Resources for Year-End Activities

**Overview for Year-End Activities**

**03/30/2016**

The following ▶BPD activities are completed at the end of each calendar year to plan for the upcoming year:

- Year-End Tax Reporting Deadlines
- Direct Deposit Posting Dates
- Benefit Payment Cycle Review

## Year-End Tax Reporting Deadlines Procedures

**03/30/2016**

| | |
|---|---|
| **Purpose** | To provide the key processing activities and associated dates for end of year tax preparation, calculation, and reporting. |
| **Guidance** | N/A |
| **Procedure Owner** | OBA Webmaster, Management Analyst, PBGC's Paying Agent |

The Management Analyst provides a list of activity deadlines for the upcoming year-end related to tax processing. This information will help the staff to ensure up-to-date and accurate data is used in the preparation of the annual tax calculations and reporting and answer questions about PBGC's processing schedule should a ▶payee make inquiries.

**In this Section**

Create Year-End Tax Reporting Deadlines

**Create Year-End Tax Reporting Deadlines**

**03/30/2016**

**Management Analyst**

1. Review the prior year's Year-End Tax Reporting Deadlines and the Monthly Payment Schedule on the PBGC intranet for the upcoming January to determine the new dates for each activity.
2. Notify the ▶OBA Webmaster that a request to update the Year-End Tax Reporting Deadlines on the PBGC intranet will be provided by mid-November.
3. Create a draft of the *Year-End Tax Reporting Deadlines* document by the end of October.
4. E-mail the draft of the *Year-End Tax Reporting Deadlines* document to ▶BPD peers and a representative from ▶PBGC's paying agent for review.

**PBGC's Paying Agent**

5. Review the *Year-End Tax Reporting Deadlines* document.

**Management Analyst**

6. Continue the review process until all feedback has been addressed and dates in the calendar are finalized.
7. E-mail the *Year-End Tax Reporting Deadlines* document to the OBA Webmaster requesting the information be posted to the PBGC intranet.

**OBA Webmaster**

8. Publish the content of the updated *Year-End Tax Reporting Deadlines* document to the PBGC intranet.
9. E-mail the Management Analyst with links to the updated Year-End Tax Reporting Deadlines requesting verification.

**Management Analyst**

10. Verify the links to the Year-End Tax Reporting Deadlines on the PBGC intranet are correct.
11. Create the draft *Year-End Tax Reporting Deadlines E-mail.*
12. Send the draft to the Deputy Director for OBA with a link to the Year-End Tax Reporting Deadlines on the PBGC's Intranet requesting permission to send.
13. Send the *Year-End Tax Reporting Deadlines E-mail* to all of OBA when final approval has been provided by the Deputy Director for OBA.

# Introduction to Miscellaneous Processes

**08/30/2011**

This section documents activities outside of Core Monthly, Aftermath, Recovery and Death Match and Branch Administration Processes. There are six Miscellaneous Processes involving the following activities:

**In this Section**

Employee Contributions
IRS Levies
TGBR (Accuity) Users Quarterly Confirmation
Fleming Plan Administration

# Employee Contributions

**08/26/2012**

The purpose of the Employee Contributions process is to manage refunds of voluntary employee contributions (▶EECs) and mandatory employee contributions (▶MECs) only when there is a Roth ▶IRA ▶rollover.

**In this Section**

Overview for Employee Contributions
Workflow for Employee Contributions
Employee Contributions Procedures
Resources for Employee Contributions

**Overview for Employee Contributions**

**03/29/2012**

The purpose of the Employee Contributions process is to manage refunds of voluntary employee contributions (▶EECs) and mandatory employee contributions (▶MECs) only when there is a Roth ▶IRA rollover. ▶Participants who voluntarily contributed to a ▶plan, or were required to contribute to the plan as a condition of participation in the plan or as a condition of obtaining ▶benefits under the plan attributable to employer contributions are eligible for a refund of their contribution.

The refund may include pre-date of plan termination (▶DOPT) or post-DOPT interest: If interest is applicable, it is taxable unless it is rolled over into a qualified retirement account.

**Workflow for Employee Contributions**

**09/26/2013**

Note For a hard copy of the workflow, click on the link to the printable PDF version, and print on Tabloid size paper (11" x 17") in landscape orientation for optimal output. Specify these o

Top of Page

**Employee Contributions Procedures**

**11/20/2015**

| | |
|---|---|
| **Purpose** | To manage refunds of voluntary employee contributions (EECs) and mandatory employee contributions (MECs) only when there is a Roth IRA rollover. |
| **Guidance** | PBGC Policy 5.11-1 IV.B.5<br>PBGC Regulation Section 4022.7(b)(2)(B)(ii) |
| **Procedure Owner** | Management Analyst, BPB Data Control |

If there is a Roth ▶IRA rollover, ▶TPDs and ▶FBAs e-mail to request the employee contributions (▶EECs) and mandatory employee contributions (▶MECs) *MEC Payments Spreadsheet* template and prepare the EEC/MEC spreadsheet according to the directions on the "Definitions" and "Codes" worksheets tabs.

TPDs and FBAs then prepare the *NFDE Lump Sum MEC Form Memo* and address the memo to the ▶BPB Branch Chief and Cc: to the BPB Systems Analyst and Management Analyst, providing the payment date and a reason for the memo, and listing all the ▶participants included on the spreadsheet. TPDs and FBAs sign the memo and get the memo approved by an ▶approver with a manual transaction approval level equal to the highest individual payment amount listed on the memo. Once the memo is approved, TPDs and FBAs prepare an e-mail to the BPB Branch Chief with Cc: to the BPB Systems Analyst and Management Analyst, attaching the memo and spreadsheet.

**In this Section**

1. Verify EEC/MEC Memo and Spreadsheet Data
2. Approve EEC/MEC Payments

## 1. Verify EEC/MEC Memo and Spreadsheet Data

**11/20/2015**

▶TPDs and ▶FBAs print the *EEC/MEC Refund Request Memo* and request an authorizer with the appropriate authorization level for manual transactions who is part of the case team to approve and initial the memo. The original signed memo is faxed to the attention of the Management Analyst.

TPDs and FBAs contact the Management Analyst if additional information is needed.

**Management Analyst**

1. Provide the *NFDE Lump Sum MEC Form Memo* and *MEC Payments Spreadsheet* templates when requested and applicable processing deadlines.
2. Instruct the TPDs and FBAs how to follow the directions to prepare the *NFDE Lump Sum MEC Form Memo* and reinforce the following:
   - The *NFDE Lump Sum MEC Form Memo* serves as the authorizing instrument.
   - The spreadsheet must be complete and accurate.
   - No changes to the spreadsheet will be accepted for check processing.
3. Receive the *NFDE Lump Sum MEC Form Memo* and *MEC Payments Spreadsheet* sent by e-mail from the TPDs and FBAs:
   a. Verify that the Case ID Number, Name, ▶SSN and Distribution Amount are the same for each ▶participant listed on the *NFDE Lump Sum MEC Form Memo* and *MEC Payments Spreadsheet*.
   b. Verify that the sum total of all checks is the same on both the memo and the spreadsheet.
   c. Notify ▶NFDE Data Control if a difference is found and request to stop the ▶EEC/▶MEC check processing until the ▶BPB Branch Chief and TPDs and FBAs are notified and the discrepancy is corrected.
4. Receive the fax with the authorized *EEC/MEC Refund Request Memo* from the TPDs and FBAs and submit it to the BPB Branch Chief for approval.

## 2. Approve EEC/MEC Payments

**11/20/2015**

The ▶BPB Branch Chief signs the *EEC/MEC Refund Request Memo* to approve the issuing of the employee contributions ( ▶EECs) and mandatory employee contributions (▶MECs) payments and gives the authorized and approved *EEC/MEC Refund Request Memo* to the Management Analyst for processing the EEC/MEC refund. The Management Analyst submits the *EEC/MEC Refund Request Memo* to BPB Data Control for check processing.

▶PBGC's paying agent receives and processes the monthly adjustment ▶NFDE file, issues the EEC/MEC checks to PBGC ▶participants and or the designated ▶IRS qualified retirement account, and prepares the *Acknowledgment Report* and e-mail to BPB Data Control.

**BPB Data Control**

1. Receive a copy of the *MEC Payments Spreadsheet* by e-mail from the ▶TPD/▶FBA.
2. Prepare the MEC spreadsheet for import into NFDE.
3. Receive the authorized and approved *EEC/MEC Refund Request Memo* from the Management Analyst.

   The *EEC/MEC Refund Request Memo* is used as the master control list.
4. Compare the data in the ▶Lump Sum Check Table to the *EEC/MEC Refund Request Memo* to validate the spreadsheet import.

   The validation includes checking the participants Case ID Number, ▶SSN, Name, and payment amount.
5. Compare control totals before the NFDE file is transmitted to PBGC's paying agent.
6. Transmit the NFDE monthly adjustment file electronically to PBGC's paying agent.
7. Receive the *Acknowledgment Report* by e-mail from PBGC's paying agent.
8. E-mail the TPDs and FBAs to report the successful transactions.
9. E-mail the Management Analyst to report the failed transactions.

   The failed transaction report lists the participants' name, SSN, and the reason the transaction failed.
10. Prepare and send the signed *EEC/MEC Refund Request Memo* to the ▶DMC to be imaged to ▶IPS.

**Management Analyst**

11. Research the reason for the failed transaction(s) and determine why it occurred and how it can be corrected.
12. Contact the TPDs and FBAs to report the failed transaction(s) and provide assistance in correcting the error for resubmission.

**Resources for Employee Contributions**

**09/30/2016**

# IRS Levies

**03/27/2014**

PBGC ensures that ▶DMC images all levies to ▶IPS, reviews each levy, sends letters to the ▶participants and directs ▶PBGC's paying agent to make adjustments to pension payments if necessary.

**In this Section**

Overview for IRS Levies
Workflow for IRS Levies
Process IRS Levies
Resources for IRS Levies

**Overview for IRS Levies**

**03/27/2014**

▶IRS sends PBGC the following types of levies:

- *Form 668-A Notice of Levy* - a one-time levy that attaches to **all** of the funds or property of the taxpayer held by a third party.
- *Form 668-W Notice of Levy on Wages, Salary and Other Income* - a continuous levy on **part** of the funds held by a third party. This can be used to collect against a taxpayer's wages, salary or retirement income.
- *Form 668-C Final Demand* - a notification that a levy has not been responded to and needs to be handled.
- *Form 668-D Release of Levy* - a notification issued to the third party to stop the collection action against the taxpayer.

PBGC images each levy into ▶IPS, reviews and responds to the sender.

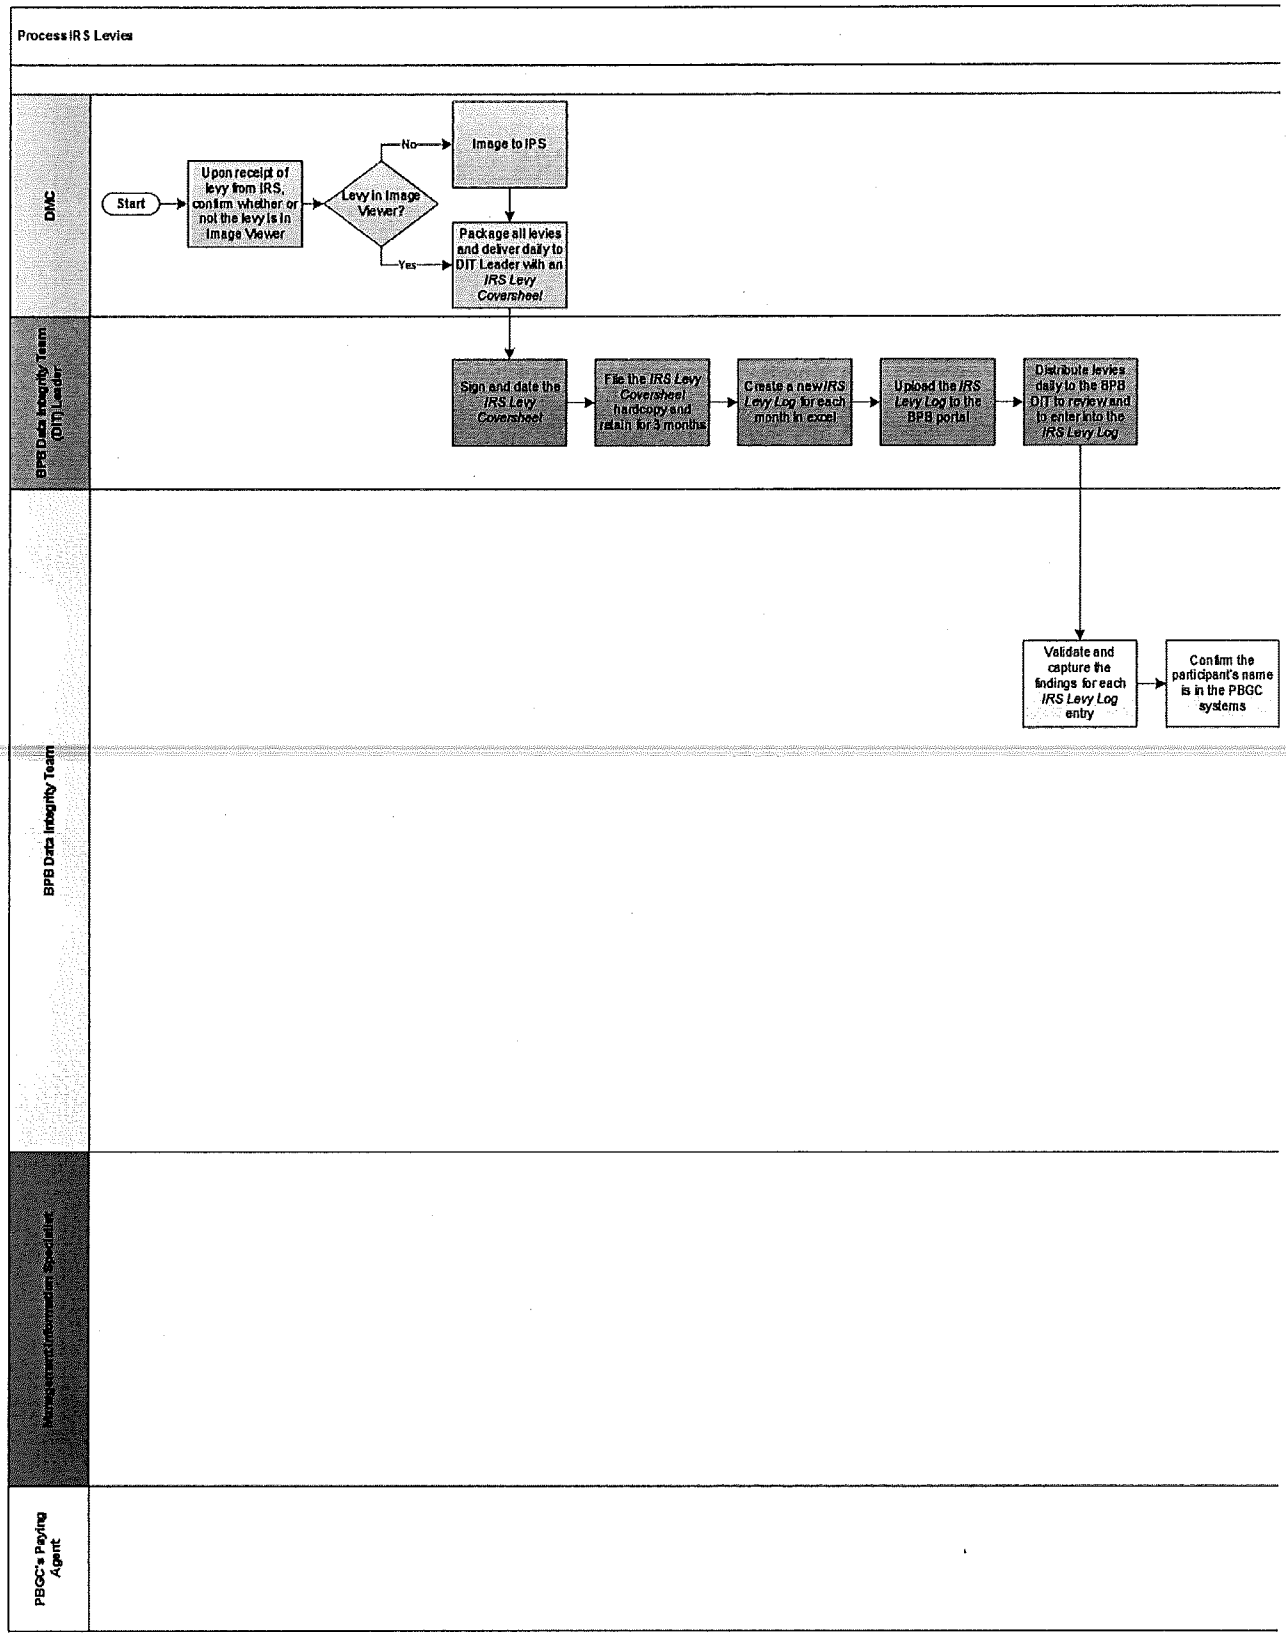
**Workflow for IRS Levies**

**12/22/2016**

Note For a hard copy of the workflow, click on the link to the printable PDF version, and print on Tabloid size paper (11" x 17") in landscape orientation for optimal output. Specify these o

Click one of the following links to access a printable PDF version of the workflow:

- PDF of Workflow for IRS Levies



▶Workflow Legend

Top of Page

**Process IRS Levies**

**12/22/2016**

| | |
|---|---|
| **Purpose** | To correctly process IRS levies to participants. |
| **Guidance** | N/A |
| **Procedure Owner** | BPB Data Integrity Team, BPB Data Integrity Team Leader, DMC, Management Information Specialist, PBGC's Paying Agent |

**DMC**

1. Once the ▶IRS sends a levy through the mail, confirm whether or not the levy is in ▶Image Viewer and proceed accordingly:
   - In Image Viewer, continue to step 2.
   - Not in Image Viewer, image to ▶IPS.
2. Package all levies together and deliver daily to the ▶BPB Data Integrity Team (▶DIT) Leader with an *IRS Levy Coversheet*.

**BPB Data Integrity Team Leader**

3. Sign and date the *IRS Levy Coversheet* as receipt of documents.
4. File the *IRS Levy Coversheet* hardcopy and retain for 3 months.
5. Create a new *IRS Levy Log* for each payment cycle month in Excel and name the file **IRSLevyLog-yyyymmdd** where yyyymmdd is the payment cycle date.

   **Example:** IRSLevyLog-20150401.xls is for the April 1, 2015 payment cycle.

   Upload the *IRS Levy Log* to the BPB portal.

   To navigate to the BPB portal, go to:

   Portal Project Name: BPB Internal Controls Project

   Folder: _BPB IRS_Levies

   Subfolder: FYYYYY
6. Distribute levies daily to the BPB DIT to review and to enter into the *IRS Levy Log*.

**BPB Data Integrity Team**

7. For levies received on or before the 9th of each month, validate and capture the findings in the appropriate pay cycle's *IRS Levy Log*.

   > **Note** You will generally be working on two payment cycle spreadsheets simultaneously. For example, when processing levies received by 03/09/2015, some changes will be logged in the 04/01/2015 Excel file and some will be logged in the 05/01/2015 worksheet.

   To determine which pay cycle's log to use, log the levies in the pay cycle's worksheet that the SSC action is to become effective. If no SSC action is necessary for a levy, log it in the very next pay cycle's log (which would be the earlier of the two logs you're generally working on). **Examples:** For a "668-A" levy (which requires no SSC action) received 03/09/2015, log it in the 20150401 log. A Form 668-W received on 03/09/2015 which results in the implementation of a levy deduction would be logged in the 20150501 log. But a Form 668-W received 03/09/2015 which does not result in the implementation of a deduction would be logged in the 20150401 log.

   a. Use SSN and name on the IRS levy to search and confirm the participant's name is in the PBGC systems.
      - If the participant is found, continue to step b.
      - If the participant is not found, log it in the very next pay cycle's log (i.e. if you're working on the 04/01/2015 and 05/01/2015 logs simultaneously, log it into the 04/01/2015 one), and proceed accordingly:
        - Create a pdf file of the levy with filename **NOTFOUNDyyyymmdd-NN**.

          The yyyymmdd is the date on the levy form and the NN is the person's first and last initials.

          **Example:** NOTFOUND20130223-MF for Michigan J. Frog's levy form dated 02/23/2013.

- Send a *IRS Person Not Found Letter* stating that the participant cannot be found in PBGC's systems.
- Upload the pdf file and the letter to the BPB portal.

  To navigate to the BPB portal, go to:
  Portal Project Name: BPB Internal Controls Project
  Folder: _BPB IRS_Levies
  Subfolder: NotFound

b. Confirm the levy is from the IRS and not the state:
- From the IRS, continue to step c.
- From the state, log it in the next pay cycle's log and send *CCS 708 IRS Levy State Denial* letter.

c. Confirm the IRS levy has a signature or printed name in the signature box.
- If the IRS levy has a signature or printed name in the signature box, continue to step 8.
- If the IRS levy does not have a signature or printed name in the signature box, note in the very next pay cycle's log that the action is to customize and send the *CCS 709 IRS Levy Denial* letter.

8. Confirm that PBGC systems data matches the IRS levy:
- First Name (The first name should closely resemble the participant's actual name. A shortened name such as "Fred" for "Frederick" is acceptable, as long as the ▶SSN matches.)
- Last Name (A misspelling of the last name should be corrected.)
- SSN
- Pension Plan Name (A truncation or abbreviation of the name is acceptable.)
  - If the last name and SSN on the IRS levy does not match what is in the PBGC systems, proceed accordingly:
    a. Call the IRS and request a corrected levy.
    b. Create a memo to document the call and image the participant's file to IPS.
    c. Log the memo in the very next pay cycle's log.
    d. Once the IRS sends the corrected levy, continue to step 9.

9. Determine the type of IRS levy received and proceed accordingly:

a. *Form 668-A Notice of Levy*: note in the very next pay cycle's log that the action is to customize and send the *CCS 709 IRS Levy Denial* letter.

b. *Form 668-W Notice of Levy on Wages, Salary and Other Income* or *Form 668-C Final Demand*, proceed accordingly:
- Note in the very next pay cycle's log that the action is to customize and send the *CCS 709 IRS Levy Denial* letter if the participant is:
  - Deceased
  - Net payment is equal or less than the exemption amount
  - Not in pay status
  - Received a lump-sum payment already and is due no more future payments
- Note the action is to customize and send the *CCS 710 IRS Levy Implement* letter in the *IRS Levy Log* if the net payment is more than the exemption amount:
  - Input the following in the IRS Levy Log for the pay cycle in which the deduction shall start:
    - Pay cycle date is the Levy Begin Date.
    - 12/01/2099 is the Levy End Date.

      The pay cycle date must be at least 21 days after the date of the *CCS 710 IRS Levy Implement* letter. Enter the pay cycle date that is approximately 6 weeks after the 15th of the month delivery date. For example, a levy received on 02/09/2015 will be implemented in the April 2015 pay cycle.
    - Levy amount

      **Example:**

      *Form 668-W Notice of Levy on Wages, Salary and Other Income* says to use the "married filing separately" exemption amount which is published in the *IRS Publication 1494* and is updated each calendar year. The exemption amount for 2013 is $833.33.

      Calculate the levy deduction so that the participant's resulting NET payment is equal to the married filing separately exemption amount in the *IRS Publication 1494*. The goal is to make the NET amount

equal to the exemption amount.

Net payment (before levy) $1535.08

Levied $-701.75 to get the 2013 Net for married filing separately exemption of $833.33

**Mathematical Equation:**

$1535.08

-$701.75

$833.33

- IRS Levy Deduction Mailing Address

  This is the "IRS address" on the levy.

c. *Form 668-D Release of Levy,* determine whether or not to stop deducting the IRS levy from the participant's pension payment and proceed accordingly:

- Stop deduction: note to stop the deduction on the 20th of the month in the very next pay cycle's *IRS Levy Log.*
- Do not stop deduction: note no further action is required in the *IRS Levy Log.*

**Example:** Stop a levy release logged in the 04/01/2015 log on 03/20/2015.

10. If the IRS levy is a participant's response to the *CCS 710 IRS Levy Implement* letter, proceed accordingly:

> **Note** *Form 668-W Notice of Levy on Wages, Salary and Other Income* specifies a default filing status of married filing separately with 1 exemption as defined in the *IRS Publication 1494.* The exemption amount for 2013 is $833.33. Whereas a married filing joint status has an exemption amount for 2013 of $1341.67. The difference in exemption amounts directly affects how much is deducted from the participant's pension payment.

a. Find the original IRS levy in a past *IRS Levy Log* and review actions taken.

b. Update the levy deduction so the participant's NET payment is equal to the exemption amount on the *IRS Publication 1494* for the filing status the participant indicated on Part 3 or 4 of the levy and any additional exemption amount the participant claimed for example being blind or over age 65.

**Example:**

**Original levy calculated as**

Net (before levy) $1535.08

Levied $-701.75 to get the Net for married filing separately exemption of $833.33

**Recalculate levy upon receipt of Parts 3 and 4**

Customer claimed single filing and a $125.00 exemption for over age 65.

*IRS Publication 1494* for 2013 has $833.33 for single filing exemption. Add $125.00 to the single filing exemption and target $958.33 for the resulting NET amount.

Net (before levy) $1535.08

Change the levy to $576.75 to get the desired NET of $958.33 based on single + $125.00 for over age 65

Make the change effective in the very next pay cycle. For example, if parts 3 and 4 were received on 01/09/2014, make the change to $576.75 effective on 02/01/2014. There is no need to wait 21 days.

**Mathematical Equation:**

$1535.08

-$958.33

$576.75

c. Customize and send *CCS 710 IRS Levy Implement* letter to the participant in the *IRS Levy Log.*

d. Mail Part 3 to the IRS (no CCS letter necessary).

11. Once all IRS levies in the package are reviewed and the *IRS Levy Logs* are updated, upload the logs (for both pay cycles you worked on) to the BPB portal by the 10th of the month or the previous business day if the 10th is a holiday.

**Management Information Specialist**

12. Review the *IRS Levy Logs* and approve the action the BPB DIT noted for each entry.
    - If no error is found, continue to step 13.
    - If an error is found, ask the BPB DIT to correct and resubmit to the BPB portal.

    **Note** Errors need to all be resolved prior to the 15th of the month when information is submitted to the ▶PBGC's Paying Agent.

13. Once all levies are approved, update the *IRS Levy Logs* and upload them by the 15th of the month or the previous business day if the 15th is a holiday to the following locations:
    - BPB portal - both pay cycles' logs
    - Paas Metrics Document Submission in the Benefit Payment Reports section of the PBGC portal – only the very next pay cycle's log (i.e. load the 04/01/2015 pay cycle's log by 03/15/2015, and the 05/01/2015 pay cycle's log by 04/15/2015).
14. Notify the PBGC's paying agent and the BPB DIT via e-mail.

**PBGC's Paying Agent**

15. Once MIS sends an e-mail notifying that the *IRS Levy Log* is uploaded to the BPB portal, download the log and review the current month's file.
16. Update ▶PLUS with the participant information for each *IRS Levy Log* entry in the tab entitled "SSCaction" by the Annuities and Specials Check run date on the Payment Schedule.

**BPB Data Integrity Team**

17. Within 2 business days after MIS sends an e-mail notifying that the *IRS Levy Log* is uploaded to the BPB portal (on or about the 15th of the month), send all CCS letters noted in the *IRS Levy Logs*.
18. By the 25th of the month or the previous business day if the 25th is a holiday, confirm that each IRS levy cited in the *IRS Levy Log* for the current month is correct in PLUS.
    - If no error is found, enter a note of review for the IRS levy.
    - If an error is found, contact PBGC's paying agent and request it to be corrected prior to the final review.
19. By the last business day of the month or the previous business day if the last business day is a holiday, complete review of all levies cited in the *IRS Levy Log*, update the log, and post to the BPB portal.

**Management Information Specialist**

20. Once BPB DIT sends the completed *IRS Levy Log*, check a random sample of 5% of levy entries by the 2nd business day and update the log.
    - If no error is found, continue to step 21.
    - If an error is found, correct it.
21. Upload the *IRS Levy Log* to the BPB portal.
22. Update the *Paying Agent Service Level Agreement Review Report* and post it to the BPB portal by the 10th of the following month or previous business day.

# TGBR (Accuity) Users Quarterly Confirmation

**08/30/2011**

The TGBR (▶Accuity) Users Quarterly Confirmation process is executed to ensure the Accuity (Formerly Thompson Financial Publishing (TFP)) application approved users list is current and accurate.

**In this Section**

Overview for TGBR (Accuity) Users Quarterly Confirmation
Workflow for TGBR (Accuity) Users Quarterly Confirmation
Update Approved Accuity Users Master List
Resources for TGBR (Accuity) Users Quarterly Confirmation

**Overview for TGBR (Accuity) Users Quarterly Confirmation**

**08/30/2011**

The Management Analyst issues access rights to the ▶Accuity application and sends an e-mail the first week of the month beginning each quarter to all approved application users to request they confirm they are still the designated Accuity application representative for their organization. Prior to October 31 of each year, renew annual Accuity (TFP) subscription.

Accuity provides complete financial information for Notice of Change (▶NOC) purposes and plan assumptions received by the ▶PLSs and ▶FBAs.

**Workflow for TGBR (Accuity) Users Quarterly Confirmation**

**08/30/2011**

**Note** For a hard copy of the workflow, click on the link to the printable PDF version, and print on Letter size paper (8.5" x 11") in landscape orientation for optimal output. Specify these options from the **Print** dialog box.

Fleming Plan Administration Procedures
Resources for Fleming Plan Administration

**Overview for Fleming Plan Administration**

**03/28/2013**

The ▶Fleming Plan is a unique ▶plan which is no longer offered to ▶participants; however, ▶BPB still administers the plan since there are participants in pay. The last payment for the Fleming Plan will be on October 1st, 2013. The plan pays ▶benefits as a 119-month certain payment that is similar to a 10-year ▶C&C, except under ▶IRS rules, since it qualifies as a ▶lump sum distribution. Therefore, the participant has the option to receive payments directly (minus 20% withholding) as a ▶rollover to an ▶IRA or ▶split pay (▶direct pay and rollover) with the choice to change payment option at anytime. These payments can be done monthly, quarterly or annually.

There were 1400 participants in this plan with the 119-month certain payment benefit and now there are approximately 450 remaining as of November 2010.

**Workflow for Fleming Plan Administration**

**03/29/2012**

Note For a hard copy of the workflow, click on the link to the printable PDF version, and print to a plotter printer in landscape orientation for optimal output. Specify these options from the

Workflow Legend

**Fleming Plan Administration Procedures**

**03/29/2012**

| | |
|---|---|
| **Purpose** | To administer the Fleming Plan. |
| **Guidance** | N/A |
| **Procedure Owner** | FBAs, NFDE Team, BPB Management Analyst, BAPD's Front Office, FOD, BPB Management Information Specialist, PBGC's paying agent, Participant |

The ▶NFDE Team processes the change requests and updates ▶Spectrum then forwards the information to the ▶PBGC's paying agent who updates the ▶PLUS Web. These changes help to ensure that the ▶participant's payment is processed correctly.

**In this Section**

1. Process Payment Option Change Request
2. Process Fleming Plan Payment Request

## 1. Process Payment Option Change Request

**11/20/2015**

The ▶participant requests a change in payment option (▶direct pay, ▶rollover or ▶split pay).

The ▶FBA receives all *Direct Payment Request*, *Rollover Request* and *Split Payment Request* and completes the *NFDE forms* to initiate the participant's change request.

The ▶NFDE Team sends the *Direct Payment Request* to ▶PBGC's paying agent and sends the *Rollover Request* to the External Financial.

| |
|---|
| **Note** All direct pays are recorded in the Plan# 199915 and rollovers are recorded in the Plan ▶FLEM/FLEM MH; and is recorded as such even if it is a portion of the *Split Payment Request*. |

The FBA creates the *NFDE form* and updates ▶Spectrum with direct payment option.

| |
|---|
| **Note** All direct pay must be updated in Spectrum even if it is a portion of a *Split Payment Request*. |

**NFDE Team**

1. Review the accuracy of the *NFDE form*.
2. Send the *Direct Payment Request* to ▶PBGC's paying agent and send the *Rollover Request* to the designated External Financial Institution.

## 2. Process Fleming Plan Payment Request

**03/29/2012**

The ▶PBGC's paying agent obtains all direct payments via ▶NBX whereas ▶rollovers are faxed in after obtaining approval to External Financial Institution.

The ▶FBA images the NFDE forms to ▶PBGC Image Viewer.

The PBGC's paying agent performs the pre-check run and sends the back-up documents and funding request letter to ▶BAPD's Front Office; and the rollover notification to the External Financial Institution.

▶FOD releases the funds via ▶CFS to PBGC's paying agent.

The PBGC's paying agent verifies that funds are received then pays the ▶participant on the first of the month; and sends the rollover payments to the External Financial Institution. All payment details are sent to BPB.

**NFDE Team**

1. Send ▶NFDE transactions for rollover payments via NBX to the PBGC's paying agent to be processed.

**BPB Management Analyst**

2. Sign-off on the Plan ▶FLEM/FLEM MH payment.
3. Fax the plan FLEM/FLEM MH payments to the PBGC's paying agent.

**BPB**

4. Transmit the Integrator file that includes the Plan# 199915 to the PBGC's paying agent.

**BAPD's Front Office**

5. Prepare the *Fleming Funding Memo.*
6. Review and approve the release of funds.

**BPB Management Information Specialist**

7. Use the payment details to perform the Ledger Load process that includes the Plan# 199915.

**Resources for Fleming Plan Administration**

# Program Services Branch Processes

**03/28/2013**

**Introduction:**

▶PSB is the branch that oversees the Post Valuation Administration including actuarial assistance, plan closing tracking and rejection review, sensitive correspondence and quality control review. PSB includes administering the ▶Missing Participants Program, the ▶Page-Collin's Program and Rettig Plan.

PSB is also responsible for the COR support for current actuarial contractors, in-house contract, ▶PVA offices, the locator contract, the Pension Search Directory, inter-agency agreements with ▶SSA, ▶PICs information and obtaining ▶SSEs from SSA.

This section focuses on the procedures for the Missing Participants Program, Page-Collins Program and Rettig Plan.

**In this Section**

Page-Collins Program Administration
Rettig Plan Administration

# Page-Collins Program Administration

**09/30/2016**

The ▶Page-Collins Program is a class action settlement that ▶CSD oversees for ▶OBA. Approximately 90% of Page-Collins benefits have been paid out and about 11,000 ▶participants remain unlocated. There were roughly 100 Page-Collins payments made in FY2010.

**In this Section**

Overview for Page-Collins Program Administration
Page-Collins Program Administration Procedures
Resources for Page-Collins Program Administration

**Overview for Page-Collins Program Administration**

**09/30/2016**

The ▶Page-Collins Program Administration process begins with either an inquiry that the ▶participant initiates or initiated by the Federal Supervisor/Staff who sends out mass mailings to the current addresses obtained from the available Locator Services.

The ▶Page-Collins Settlement Team uses the OBA Benefit Payment & Ledger Load Schedules to process completed application packages received and ensures that the participant is paid in accordance to the schedule.

Each quarter the ▶Check Run Administrator generates the *Quarterly Liability Report and Liability Spreadsheet* that ▶PSD and ▶OGC concurs; and PSD sends the approved documents to ▶FOD.

**Page-Collins Program Administration Procedures**

**09/30/2016**

| | |
|---|---|
| **Purpose** | To administer the Page-Collins Program. |
| **Guidance** | *Administar Methods and Procedures Manual* |
| **Procedure Owner** | Participant, Page-Collins Settlement Team, Contract Supervisor, Federal Supervisor/Staff, Check Run Administrator, PSD, Budget Department, CCS, OGC, BMA Team, BPD Staff, OBA Front Office, FOD, SSA, PBGC's paying agent |

The ▶Page-Collins Settlement Team ensures that the ▶Page-Collins payment request is completed and ready for payment authorization.

The ▶Check Run Administrator performs the check run process after all payments are authorized then forwards the necessary documents to be approved by ▶PSD and the ▶OBA Front Office who directs ▶FOD to release the funds to ▶PBGC's paying agent.

PBGC's paying agent pays the ▶participant, the Attorneys and the Locator Services once the funds received are verified.

**In this Section**

Determine if Participant/Claimant is Entitled
Review Application Package
Perform Payment Review and Authorization
Perform Page-Collins Check Run
Process Page-Collins Payment Request
Attain Quarterly Liability Report and Liability Spreadsheet Concurrence

**Determine if Participant/Claimant is Entitled**

**11/20/2015**

The ▶participant/▶claimant makes an inquiry about a possible ▶benefit or the Federal Supervisor uses Locator Services to obtain participants' current address and sends out a *Mass Mailing Letter (1978 Letter)* to the addresses obtained from the Locator Services. The participant completes and returns a *General Application (109 Letter)* package along with proof documents once found entitled to a benefit payment.

The claimant completes a *Conditional Benefit Notice (161 Letter).* The claimant provides date of hire and ▶date of termination (not to exceed ▶date of plan termination) to the ▶Page-Collins Settlement Team. If the claimant employment history is uncertain, the Page-Collins Settlement Team sends an inquiry to ▶SSA.

**Note** A participant receives a *Request for Certification of Pension Plan Participation (152 Letter)* to verify participation in certain plans such as Singer, Miller Betts, JP Stephens and Chase Brass) before an application is sent out.

SSA sends the employment history of the participant to PBGC and the Federal Supervisor is notified.

**Federal Supervisor**

1. Prepare periodic *Mass Mailing Letter (1978 Letter)* to send to affected participants recorded not paid in ▶Administar.
2. Change the participant or claimant status to ineligible in Administar when appropriate.
3. Calculate years of service with the date of hire and date of termination provided.
   a. If participant or claimant service is calculated, Administar automatically proposes a notice to be sent base on years of service; and Page-Collins Settlement Team periodically generates reports and produces notices.
4. Review SSA employment history and determine if the correct participant submitted the application package then determine the appropriate years of service where applicable (see Step 11).
5. Update years of service and note in Administar and recalculate benefits if applicable.

**Page-Collins Settlement Team**

6. Send out a mass mailing to participants in Administar.
7. Receive call then create a note in Administar that records the verification of date of birth, date of hire, date of termination, current address and employment with ▶plan sponsor in Administar once a positive response is received.
8. Send appropriate notice when applicable.
9. Determine if the participant or claimant is entitled to a benefit.
   a. If ineligible, send an *Ineligibility Notice (112 Letter)* to the participant or claimant and notify the Federal Supervisor.
   b. If eligible, determine type of benefit the participant or claimant is entitled to:
      - Send the participant or claimant with tradition benefits a *General Application (109 Letter).*
      - Send the participant or claimant with conditional benefits a *Conditional Benefit Notice (161 Letter).*
10. Request SSA earnings if Federal Supervisor is unable to calculate the years of service with the information received from the participant or claimant.
11. Send appropriate application or notice to the participant or claimant as follows:
    a. Send a *General Application (109 Letter)* for service years greater than ten.
    b. Send a *General Application (109 Letter)* for service years less than ten but greater than five.
    c. Send an *Ineligibility Notice (112 Letter)* for service years less than five.

Top of Page

The ▶participant/▶claimant returns application package and submits any missing information to the ▶Page-Collins Settlement Team if requested.

The participant/claimant gathers and sends proof of employment requested by the Page-Collins Settlement Team if the Federal Supervisor cannot verify employment using the ▶SSA earnings.

> **Note** A *Reminder Notice (149 Letter)* is sent out after the initial letter requesting additional information then 2 letters are sent out 60 days apart; and if no response is obtained then a *Final Reminder Letter for Additional Data (1984 Letter)* is sent out.

▶OGC and the Federal Supervisor make the final determination then notify the Page-Collins Settlement Team.

**Page-Collins Settlement Team**

1. Review the returned application package.
   a. If not completed correctly, request the missing information from the claimant.
   b. If completed correctly, verify the participant's identity.
2. Verify the claimant's identity once all the missing information is returned.
   a. If able to verify the claimant's identity, establish if correct claimant:
      - If the correct claimant is determined, set up payment record in ▶Administar.
      - If the incorrect claimant is determined, send the claimant a *Social Security Reviewed and Claimant not Participant Letter (1985 Letter).*

      For instance, if participant is deceased, the spouse will be first entitled. The children have to provide proof of parents' death in order to qualify as the correct claimant.
   b. If unable to verify the claimant's identity, request SSA employment history.
      - If SSA earnings verify employment, establish if correct claimant.
      - If SSA earnings do not verify employment, request proof of employment document.
3. Notify OGC and the Federal Supervisor if claimant ambiguity persists once all documents are received.

   Federal Supervisor and OGC consults and make final determination.
4. Set up payment record in Administar once OGC and the Federal Supervisor determine the correct claimant.
5. Batch and send the participant's application package to the Contract Supervisor.

**Perform Payment Review and Authorization**

**11/20/2015**

**Page-Collins Settlement Team**

1. Generate the *Pre-Check Selection Reports* in ▶Administar.
2. Correct the transaction in Administar.

**Contract Supervisor**

3. Review the batched application packages and the *Pre-Check Selection Reports*.
4. Authorize payment transactions in Administar.
   a. If there is no ambiguity, the payment transaction is correct and authorized in Administar.
   b. If the payment transaction is not correct, request that the ▶Page-Collins Settlement Team correct the transaction in Administar.
5. Review and authorize the corrected transaction in Administar.
6. Notify the Federal Supervisor that the authorized payment transactions are ready for final authorization.

**Federal Supervisor/Staff**

7. Review and finalize authorization of the payment transactions authorized by the Contract Supervisor in Administar.

**Perform Page-Collins Check Run**

**09/30/2016**

**Check Run Administrator**

1. Re-run the *Pre-Check Selection Reports* which includes the *Pre-Check Selection Report (Combined), Pre-Check Selection Report (Manual Reissues)* and *Pre-Check Selection Report (New Checks Plus Multiples)* in ▶Administar.
2. Do final verification of payments.
   a. If an error occurs, the Federal Supervisor reviews the error:
      - If no solution is found, the ▶Page-Collins Settlement Team notifies the ▶claimant and payment is removed for the month.
      - If a solution is found then correct the error; and start the ▶Page-Collins Check Run process (see the *Administar Methods and Procedures Manual*).

   b. If no error occurs, start the Page-Collins Check Run process.
3. Generate the following documents monthly in Administar:
   a. *Locator's Fees Report*
   b. *Page-Collins Payment Export* which includes the *Page-Collins Payment Export (Page80), Page-Collins Payment Export (Page80dp)* (Duplicate Payment) and *Page-Collins Payment Export (Page80rp)* (Rollover Payees)
   c. *Page-Collins Pension Search Export*
   d. *Pre-Check Selection Reports*
   e. *Quarterly Liability Report and Liability Spreadsheet*

   The *Quarterly Liability Report and Liability Spreadsheet* is not created each month.
4. Create the following monthly documents:
   a. *Advice Document*
   b. *Page-Collins Funding Memo*
   c. *Reconciliation Spreadsheet*
5. Update the following monthly:
   a. *20 Million Recap Report*
   b. *Budget Tracking Report*
6. Distribute the documents monthly to the following:
   a. *20 Million Recap Report* to the ▶External Board Members.
   b. *Budget Tracking Report* to ▶OGC and the Budget Department.
   c. *Locator's Fees Report* to ▶CCS.
   d. *Page-Collins Payment Export, Pre-Check Selection Report (Manual Reissues)* and *Pre-Check Selection Report (New Checks Plus Multiples)* to the External Board Members.
7. Send the *Quarterly Liability Report and Liability Spreadsheet* (see Attain Quarterly Liability Report and Liability Spreadsheet Concurrence).
8. Update interest in Administar monthly.
9. Generate then send the *Page-Collins Pension Search Export* to the ▶BMA Team.

**PSD**

10. File all documents including copy of disk sent to the External Board Members.

Top of Page

▶FOD receives the *Page-Collins Funding Memo* and *Reconciliation Spreadsheet* via the PBGC portal from the ▶Check Run Administrator then releases the funds via ▶CFS to ▶PBGC's paying agent via the PBGC portal.

PBGC's paying agent receives the *Advice Document, Reconciliation Spreadsheet* and *Page-Collins Payment Export* via ▶NBX from the Check Run Administrator. PBGC's paying agent pays the Attorney's, sends the ▶participants' benefit payments; and sends the Locator's fee payment to ▶CCS once FOD releases the funds a day in advance of the check date.

| **Note** PBGC's paying agent ensures that payments are made on the fourth Friday of each month. |
|---|

**PSD**

1. Approve and forward the funding request.
2. File the *SSC Payment Ledger* received from the PBGC's paying agent.
3. Reconcile the approved funding request against the benefits and fees paid.

**Check Run Administrator**

4. Send the *Page-Collins Funding Memo* and *Reconciliation Spreadsheet* via the PBGC portal to FOD.
5. Send the *Advice Document, Page-Collins Payment Export,* and *Reconciliation Spreadsheet* via NBX to the PBGC's paying agent.

▶OGC reviews and signs-off on the *Quarterly Liability Report and Liability Spreadsheet* once ▶PSD concurs.

▶FOD receives the approved documents via the PBGC portal.

**PSD**

1. Review and sign-off on the *Quarterly Liability Report and Liability Spreadsheet.*

   The Federal Supervisor reviews the documents prior to the Division Manager of PSD concurrence on the documents then sends the approved documents to OGC for signature.

2. Send the approved documents to FOD.

# Rettig Plan Administration

**09/30/2016**

The Rettig Program is a class action settlement that ▶CSD oversees for ▶OBA. About 98% of Rettig benefits have been paid out and approximately 130 ▶participants remain unlocated. Since July 2007, there have been only two Rettig payments (08/2007 and 12/2009).

**In this Section**

Overview for Rettig Plan Administration
Rettig Plan Administration Procedures
Resources for Rettig Plan Administration

**Overview for Rettig Plan Administration**

**09/30/2016**

The Rettig Staff reviews all applications and proof documents and sends the reviewed documents to the Federal Supervisor to sign-off on and forward to the ▶OBA Front Office which reviews and approves the release of funds to ▶FOD.

**Rettig Plan Administration Procedures**

**09/30/2016**

| | |
|---|---|
| **Purpose** | To administer the Rettig Plan. |
| **Guidance** | *Rettig Settlement Reasons Not Affected Codes* |
| **Procedure Owner** | Participant, Rettig Staff, Federal Supervisor/Staff, DMC, BPD Staff, OBA Front Office, FBA, FOD, PBGC's paying agent |

The Rettig Plan payment is initiated by an inquiry made by the participant. The participant receives an application and a request for proof documents if the participant is determined eligible and affected. The participant completes and returns the application and proof documents that leads to the processing of the payment request.

**In this Section**

Determine and Notify Participant of Determination Results
Complete Application Review
Process Rettig Plan Payment Request

**Determine and Notify Participant of Determination Results**

**11/20/2015**

The ▶participant sends an inquiry of a possible benefit payment to PBGC then the Rettig Staff determines the participant's eligibility and if the participant is affected.

**Rettig Staff**

1. Search and find the participant in ▶CleverPatch Forest & Trees.
2. Follow the path below:
   a. Click on the Start Menu.
   b. Go to Programs.
   c. Go to CA.
   d. Go to ForestAndTrees.
   e. Go to F&TRuntime then go to the file location `i:\SID\ArchiveRettigNewv7.ftv`.
3. Check the participant's eligibility.
   a. If the participant is ineligible, advise the participant of ineligibility and send the corresponding *Benefit Determination Letter* if not previously sent.

      ▶Benefit Determination Letters are coded based on whether affected or non-affected. The reasons not affected codes can be found in the *Rettig Settlement Reasons Not Affected Codes*.

      - If a letter is requested, send a copy if available in ▶IPS. Some of these letters are not available because they were deleted due to age.
      - If the participant insists on obtaining a copy of the previous letter, create a new letter with the original date but without new appeal rights generated.

   b. If participant is eligible, determine participant's payment status:
      - If the participant is paid already, advise the participant of prior payment.
      - If the participant is not paid, notify the Federal Supervisor.
4. If participant has insufficient data, notify the Federal Supervisor.
5. Gather the information from participant or ▶SSA due to the insufficient data and once received notify the Federal Supervisor.
6. Advise the unaffected participant, send the corresponding *Benefit Determination Letter*, and image the *Determination Memo* into the plan file created by the Federal Supervisor/Staff into IPS.
7. Create payment record in ▶Spectrum for affected participant.
8. Advise the affected participant and send the *Benefit Determination Letter*, *Benefit Statement*, and a benefit application then image *Benefit Determination Letter*, *Benefit Statement* documents into IPS.

**Federal Supervisor/Staff**

9. Search the ▶Lotus Millennium to determine a participant's payment status or eligibility determination status.
   a. If the participant is affected, determine the payment status:
      - If not paid already, obtain the *Benefit Statement* from the participant's hard copy file (see Step 7).
      - If paid already, notify the Rettig Staff of prior payment (see Step 3b).
   b. If the participant eligibility is recorded as determined already:
      - If determination is affected, determine payment status (see Step 9a).
      - If determination is not affected, notify the Rettig Staff of prior determination (see Step 3a).
10. Determine if the participant is affected after receiving additional information gathered (see Step 5).
    a. If the participant is not affected, create a "*Memo*" and update the record in Lotus Millennium then notify the Rettig Staff (see steps 6).
    b. If the participant is affected, create the *Benefit Statement* and create a participant's record in Lotus Millennium then notify the Rettig Staff (see steps 7 through 8).

Top of Page

**Complete Application Review**

**03/29/2012**

The ▶participant completes and returns the application and the proof documents.

▶DMC images the application and proof documents into ▶IPS and updates ▶CRM.

The ▶FBA sees a participant's application for Rettig benefits in IPS and sends a notification to the Rettig Staff.

**Rettig Staff**

1. Review the participant's application package and the proof documents.

**Process Rettig Plan Payment Request**

**10/28/2016**

The Rettig Staff creates the payment record in ▶Spectrum and ▶BPD transmits the file to ▶PBGC's paying agent.

PBGC's paying agent performs the Pre-Check run process, sends the backup documents to Rettig Staff, and sends the wire transfer request for the funding request to the ▶OBA Front Office.

The ▶OBA Front Office reviews the *Rettig Funding Memo* delivered by the Rettig Staff and approves the release of funds.

▶FOD releases the funds via ▶CFS to PBGC's paying agent.

PBGC's paying agent verifies the funds after receiving the documents via the PBGC portal then pays the ▶participant; and notifies the Federal Supervisor/Staff once payments are made.

**Rettig Staff**

1. Create the payment record in Spectrum.
2. Prepare the *Rettig Funding Memo* for the Federal Supervisor for review.
3. Deliver the *Rettig Funding Memo* after review to the OBA Front Office for final review and approval to release the funds.

**Federal Supervisor/Staff**

4. Review the *Rettig Funding Memo.*
5. Update the participant's record with payment date, amount and comment in ▶Lotus Millennium once PBGC's paying agent pays the participant and notifies the Federal Supervisor/Staff.

**Resources for Rettig Plan Administration**

**09/30/2016**

**Forms, Letters, and Memos:**

- *Benefit Determination Letter*
- *Benefit Statement*
- *Determination Memo*
- *Rettig Funding Memo*

**Customer Correspondence and Forms:**

# PBGC Securities Lending Program Procedures Manual

# Updated as of December 1, 2009

This Manual has been approved by:

_____

John F. Greenberg, CIO

## I. Securities Lending Summary

a. PBGC's securities lending program is a part of the overall investment policy. The objectives and parameters of the program will be incorporated in the agency's new Investment Policy.

b. Exposure to securities lending is encompassed primarily through State Street Securities Finance (SF). Acting as an agent, SF lends out the securities of PBGC's participating separate account portfolios custodied at State Street Bank. To a lesser extent, PBGC has investments in commingled funds at State Street Global Advisors (SSgA) and Barclays Global Investors (BGI) that engage in securities lending, subject to separate guidelines of those funds. The revolving fund (both long duration and TIPS) are custodied at the Department of Treasury and the securities within this portfolio are not loaned.

c. State Street Securities Finance

   i. Currently, all fixed income separate account portfolios, as well as the non-Delta private equity portfolio (3828), the PBGC Holding Account (3801), and certain of the public equity accounts are enabled for securities lending. SF is responsible for all facets of securities lending within these accounts, including, but not limited to counterparty assessments and all administrative functions. The collateral fund utilized is the Quality A Short-Term Investment Fund ("Quality A") and is currently managed by SSgA's Cash Management Group. On Day 7 of each month, earnings from securities lending at State Street are transferred to account 3801. The earnings split is (b)(4) to PBGC and (b)(4) to SF.

   ii. Quality A – Nature and Timing of Reviews

      1. The Quality A Fund is monitored monthly by reviewing the fund snapshot and collateral yield information provided on mystatestreet.com. Review of the snapshot includes the type of assets the fund holds, percentage allocations across asset classes, weighted average maturity, current yield and other key parameters. Any questions with respect to the Quality A fund are provided via e-mail to the contact within SF. If required, the PBGC will engage the portfolio manager of the Quality A fund. The answers provided are then formatted within an e-mail provided to the entire CID staff, including the CIO and Deputy CIO. The monthly securities lending report is attached to the e-mail. This ensures the CIO and Deputy CIO are kept informed of the

key drivers, trends, and issues impacting the securities lending portfolio over the past month. Additionally, State Street provides a monthly affirmation document to the PBGC affirming that no guidelines associated with the Quality A Fund have been violated over the past month. If there is a violation, the incident is investigated and determined to be meaningful. If it is not meaningful (e.g., a passive violation due to a downgrade), it is not elevated to the CIO. If it is considered meaningful, an e-mail detailing the issue and recommendation for resolving it to the CIO and Deputy CIO. Determination of meaningfulness of the violation will be determined by the contract monitor responsible for securities lending and his/her immediate supervisor. E-mail will be the main documentation utilized for each incidence.

2. Review of the fund's portfolio manager is completed at least twice per year, with one meeting on-site and one meeting in PBGC offices. This provides an opportunity to gain insight into the management of the portfolio over the previous six months and also provides expectations for management of the portfolio going forward. Meeting minutes are kept from each meeting and distributed via e-mail to the immediate group responsible for securities lending, as well as the CIO and Deputy CIO.
3. Investment guidelines for the Quality A fund are static since this is a commingled fund, of which PBGC is one of many investors in the fund. SSgA is obligated to notify the PBGC of any changes to those guidelines. Although the PBGC would not have the unilateral power to change or alter guidelines, it does have the ability to change to a different fund, if warranted by the guideline changes, or create a separate account. Any prospective changes to the investment guidelines are elevated to the CIO. The current Quality A guidelines can are in the i: drive: CID/SSC/Securities Lending.
4. The PBGC currently makes up about 1/3$^{rd}$ of Quality A.

d. Commingled Funds
    i. The PBGC participates in securities lending as unitholders in one or more of the SSgA commingled fund offerings that incorporate securities lending (currently, only the SSgA S&P 500 Flagship Fund). SF manages the securities lending program on behalf of SSgA. The collateral fund utilized for the commingled funds is the

Quality Trust for SSgA Funds and is also managed by SSgA's Cash Management Group. Note that SSgA previously utilized the Quality D fund, but created a carve-out of that portfolio on November 1, 2008.

ii. Quality Trust for SSgA Funds Trust Fund
    1. Since the Quality Trust encompasses collateral invested on behalf of all SSgA funds, the PBGC will tend to make up a small portion of this fund.
    2. Earnings from the securities lending program are contributed to account 3801 each month.

iii. The PBGC participates in securities lending as unitholders of several BGI commingled funds. BGI is considered to be the lending agent.
    1. All PBGC investments in BGI funds have a (b)(4) between the unit holders and BGI. The split earned by the unit holders is represented within the funds from an accounting and performance basis rather than segregated and provided to unit holders separately, either as reinvestment in the fund or distributed as cash direct to the unit holders.
    2. The seven commingled index fund investments at BGI receive a favorable (b)(4) The additional (b)(4) earned over and above the standard (b)(4) in the fund is accounted for on both an accounting and performance basis outside of the fund. PBGC has elected to reinvest income generated by the funds back into the fund that generated the revenue. Thus, it is not being distributed back to cash or used to offset fees.

iv. Each of our commingled funds invest in one or more of the following collateral funds.
    1. Cash Equivalent Fund II-S
    2. Money Market Fund A/B
    3. Money Market Fund BC
    4. Term Fund 12

v. SAS 70 Reports
    1. At least annually, the contract monitor shall review the securities lending portion of the SAS 70 reports of State Street and BGI.
    2. The contract monitor shall identify any exceptions in the SAS 70 report, inquire how the exceptions occurred, and how the exceptions were resolved.
    3. The monitor shall report the findings to a supervisor.

4. The contract monitor shall utilize the CCRD developed SAS-70 review template for these periodic reviews.

## II. Collateral Replenishment Requirements

a. On an aggregate program basis across each of its borrowers, the SF program seeks to maintain the mark to market at 102% on domestic securities loans. However, on U.S. government securities, the SF program allows the value of an individual U.S. government security to fall to 100% before marking to market again at the 102% level. For further details, see the Securities Lending Authorization Agreement between PBGC and State Street.

## III. Staff Assignments – Backup Responsibility Education and Cross Training

a. The contract monitor responsible for securities lending under the State Street custodial contract is required to monitor the SF program. Among the various responsibilities of the contract monitor is the preparation of the monthly report and the monitoring of the Quality A Fund. Currently, this individual is Michael Maloney. His main back-up is Mark Calisti, who had previous responsibility as the contract monitor and continues to be involved in monitoring the program. Also involved is Jennifer Byrnes, a direct report for Michael Maloney. Lastly, Nakia Gibson, who monitors securities lending for the BGI and the SSgA funds, can also assist as a backup.

b. Ample time is spent to enable contract monitors and back-ups cross training and education. This is typically done through participation in meetings with SF, as well as review of the monthly securities lending reports. For on-site due diligence with SF, Mike Maloney, Nakia Gibson, Mark Calisti, and Jennifer Byrnes will generally participate at each of these meetings. This enables each individual to receive an update on the performance of Quality A as well as the most significant issues impacting the PBGC program. If Mike Maloney were unavailable, any of the above individuals would be able to fill in during his absence.

c. More formal education opportunities (e.g. conferences) are only provided to the main contract monitor due to cost and other considerations, but presentation materials from these education opportunities are disseminated to the back-ups and a written review of the conference is provided to back-ups as well.

## IV. Continuing Training

a. At a minimum, the contract monitor is required to have 16 hours of formal continuing training per year related to securities lending. This will be accomplished by attendance at one or more conferences each year related to securities lending.

b. Due to the nature of securities lending, much of the training is on the job. Whenever an individual becomes responsible for securities lending, he/she engages one or more individuals at SF to provide training on securities lending, in general, as well as the specific PBGC program. He/she then hones his/her skills by preparing the securities lending reports each month and thoughtfully reporting the key findings to the group, including the CIO and Deputy CIO. Through conference calls and in-person meetings with the manager of the Quality A fund and those at SF, over time, the individual will become an expert on the program. Through this period, the individual previously responsible for overseeing the securities lending program as well as the individuals' direct supervisor and other individuals in CID that had previous exposure to the program or securities lending, in general, will act as a mentor to answer any questions while this person enhances their knowledge of the securities lending program.
c. Other training opportunities will be via news articles, monthly publications, and other documents provided by SF.
d. Additionally, this document has a brief overview of securities lending in the appendix section.

## V. Monitoring Developments in the Securities Lending Industry

a. Monitoring of developments in the securities lending market, changes in regulatory requirements will be done by having the contract monitor for securities lending under the State Street custodial contract attend one or more conferences per year.
b. Additionally, the contract monitor will review publications focusing on securities lending.
c. The PBGC will also leverage the relationship with SF to obtain access to their knowledge on the securities lending industry. At a minimum, SF will be required to provide updates quarterly in writing to the contract monitor on developments in the industry, as well as changes in regulatory requirements. At least annually, SF will provide to the PBGC the volumes and economics of its program, in writing. If developments in the industry and/or changes in regulatory requirements result in significant changes in the volumes and economics of the PBGC program, the contract monitor and others within CID and the PBGC will evaluate its contract, lending policies and participation for possible amendments.

## VI. MyStateStreet.com

a. Logging in
    i. https://my.statestreet.com
    ii. Insert username and password. If you need a username and password, contact Steve Davies or Mary Ellen MacDonald at State Street.

iii. Click on Products and Services/Securities Finance and the specific area within Securities Finance (e.g. SL Performance Reporter for Reports or SL Performance Analyzer for Analytics)

## VII. Reporting

a. Downloading the Monthly Report Data from mystatestreet.com
   i. General Information
      1. Some of the reports cannot be downloaded, whereas other reports can be downloaded into Excel. Unless otherwise states, print out the reports as each report will be combined into one aggregate report that will be scanned and saved.
      2. Unless otherwise noted, all reports are within the SL Performance Reporter.
   ii. First Business Day of Month
      1. Certain reports showing month-end are only available on the first business day of the following month since they are then updated the following day. Set up a reminder in Outlook to download the following files on the first day of the month following month-end.
         **a. Total on Loan by Program pie chart**
            i. Click on Loan to see the pie chart.
            ii. Click on Maximize icon.
            iii. Go to Page Setup and change to Landscape. Note that you will only have to do this once as all subsequent reports will be printed out in landscape.
            iv. Print out the report (not in color).
            v. This report provides a pie chart showing the type of PBGC assets (i.e. US Governments, US Corporation Bond and Equity, non-US Equity, non-US Bond) on loan as well as the aggregate dollar amount on loan for all the categories.
         **b. Total on Loan by Program Detail**
            i. Minimize the previous chart
            ii. Click on Total on Loan Detail
            iii. Print
            iv. This report provides lendable assets, collateral amounts, total on-loan, calculated mark, percent on loan, and collateral percent across four categories, including US corporates and equity, US government, non-US equity and non-US fixed income.

c. **Daily Top 10 Borrowers and Market Value of Securities on Loan Pie Chart**
    i. Click on Borrower
    ii. Click on Maximize icon
    iii. Print
d. **Borrower Detail**
    i. Minimize the previous chart
    ii. Click on Borrower Detail
    iii. Print

iii. The remaining reports are typically available by Business Day 8. Set up a reminder to download these reports.

1. **Quality A Fact Sheet**
    a. Click on Collateral
    b. Click on Collateral Fact Sheet and locate the month end reports for both funds, click on go and print
    c. Also, download the pdf and save on the I:/drive.
    d. This report provides key data on the Quality A Collateral Fund, including the Unit Price, WAM (weighted average maturity), the Liquidity Schedule, and Distribution by Sector. Compare the current month's Fact Sheet to the previous month's Fact Sheet to assess significant movements in types of assets, liquidity and the market value, among other factors.

2. **Daily Collateral Holdings by Asset Class**
    a. Click on Collateral
    b. Click on Daily Collateral Holdings by Asset Class and locate the month end report for the month and click go.
    c. Click on Download and when screen pops up, click on Excel Data and Save Report.
    d. Open the file in excel. You will see the first section contains Quality A data and the second section contains Quality D data. Ignore the Quality D data.
    e. Name the sheet Quality A.
    f. Delete the Quality D information (all information below the Grand Total line)
    g. Next perform the following tasks:
        i. Insert the title in Row 1, Column B "Quality _ - Collateral Holdings as of MMDDYY"

ii. In the last column, insert "% of Amortized Cost" and compute the market value/amortized cost for each asset class subtotal.
iii. Print out Quality A with the header repeated on each page.
iv. This report provides each individual holding in the Quality A fund and includes various statistics. Note that values are for the entire fund and the PBGC only holds a portion of this fund.

3. **Earnings by Program Bar Graph**
    a. Click on Earnings
    b. Click on Maximize icon
    c. Print
    d. This chart provides earnings during the month across the four investment categories.
4. **Earnings Detail**
    a. Click on Summary
    b. Click on Earnings Detail
    c. Print
5. **Consolidated Earnings**
    a. Click on Earnings
    b. Click on Consolidated Earnings and click go after locating the month end report.
    c. This report is broken out between non-TWA, TWA, and All Groups. Find the report that says "All Groups" in the upper right hand corner. It is typically page six and seven.
    d. Click on Print. When Print box pops up, print out.
    e. Save the report as a pdf.
    f. This report provides a historical view of earnings with annual earnings going back several calendar years as well as quarterly and monthly earnings results for the current calendar year.
6. **Earnings by Fund**
    a. Click on Earnings
    b. Click on Earnings by Fund and click go after locating the month end report.
    c. Click on Print. When Print box pops up, print out the relevant pages.
    d. Save the report as a pdf.

e. This report provides earnings detail including gross earnings, borrower rebate, net earnings and various other metrics by individual account.

7. **Income Attribution Detail**
    a. Click on Performance.
    b. Click on Income Attribution Detail and appropriate monthly report, then click go.
    c. This report is broken out between non-TWA, TWA, and All Groups. Find the report that says "All Groups" in the upper right hand corner. It is typically page five and six – the last two pages.
    d. Save the report as a pdf.
    e. This report provides client earnings, net earnings, net spread, collateral spread and funding spread across the investment categories and its sub-sectors.
8. **Total on Loan**
    a. Click on Loan.
    b. Click on Total on Loan and find the month end dated report under Month-End Reports.
    c. This report is broken out between non-TWA, TWA, and All Groups. Find the report that says "All Groups" in the upper right hand corner. It is typically page three – the last page.
    d. Save the report as a pdf.
    e. This report provides the collateral currency, cash collateral, non-cash collateral, calculated mark, market value of securities on loan, and collateral percent across the investment categories.
9. **Total on Loan by Fund**
    a. Click on Loan.
    b. Click on Total on Loan by Fund and find the month end dated report under Month-End Reports.
    c. Print.
    d. Save the report as a pdf.
    e. This report provides the fund name collateral currency, cash collateral, non-cash collateral, calculated mark, market value of securities on loan, and collateral percent across the individual accounts.

**10. Approved Borrowers**

a. Each month (typically around the 5th business day), you will receive an e-mail from a member of SF with the additions and deletions. Focus on the bottom of the last page as it details the additions and deletions from the previous month. Deletions should also have the rationale for its removal.
b. The policy pertaining to qualifying allowable borrowers and establishing credit limits for these borrowers is referenced in the PBGC Securities Lending Program Policy and Guidelines.

**iv. Assurance of Earnings**

1. Check to see if the income generated in current month is reasonable.
    a. Click on Performance tab.
    b. Go to Basis Point Return Summary and find current monthly report.
    c. Click Go.
    d. In the Basis Point Summary Report, find the page marked All Groups. This is typically the last page. Locate Average Collateral Balance total.
    e. Multiply the Average Collateral Balance by the difference between the Collateral Yield and the weighted average Rebate Rate shown on the Income Attribution Detail. (See formula below.)
    f. Divide by 12, multiply by (b)(4) and compare it to the actual revenue earned.
    g. Document this calculation on a separate page to be included in the monthly PBGC Securities Lending Report.
    h. If the result is not reasonably close to the actual revenue, the contract monitor will further investigate the difference with SF. The contract monitor will resolve the matter with SF, either by confirming that the actual revenue figure is correct or having SF amend the revenue earned. If there is an error in the actual revenue earned, the contract monitor will notify the CIO. An error may result in understated income that was earned within the Quality A fund or rebates paid to the borrowers and both would be investigated in the event of a

calculation that is considered reasonably outside the actual revenue reported. Documentation of the review will be within the monthly report.

$$\frac{[(\text{Average Collateral Balance}) * (\text{Collateral Yield} - \text{Wgt. Avg. Rebate Rate})] * \text{(b)(4)}}{12}$$

**v. Benchmarks**

1. SF shall provide a comparison of PBGC's securities lending performance to other U.S domiciled tax exempt lenders on quarterly basis. The contract monitor, currently Mike Maloney, and Mark Calisti will both review the report each quarter and seek further input from SF, if necessary, before disseminating the report to staff.
2. The benchmark report shall include a graph PBGC's securities lending Total Return to Lendables versus the group's Total Return to Lendables. The result shall also contain a written explanation of the difference in performance.
3. Save a copy of the benchmark report under I:/CID/SSC/Benchmark Reports and print a copy to be included in the Monthly PBGC Securities Lending Report. Include the previous quarter's benchmark report in the PBGC report for the interim months between quarters.
4. See Exhibit 1 of Appendix for a sample benchmark report.

**vi. Order of Monthly PBGC Securities Lending Report**

1. Page 1 is the cover page. Adjust for the date.
5. The order is then as follows:
    a. Quality A Factsheet
    b. Quality A Collateral Holdings
    c. Earnings by Program
    d. Earnings Detail
    e. Consolidated Earnings
    f. Earnings by Fund
    g. Income Attribution Detail
    h. Assurance of Earnings Calculation
    i. Total on Loan by Program pie chart
    j. Total on Loan by Program Detail
    k. Total on Loan
    l. Total on Loan by Fund

m. Daily Top 10 Borrowers and Market Value of Securities on Loan
n. Borrower Detail
o. Approved Borrowers

**vii. Monthly Characteristics and Performance Analysis**

1. Compare current month's information with the previous month.
2. Identify meaningful changes the Quality A Fund, including, but not limited to, differences in sector exposure, weighted average maturity of the portfolio, collateral yield, and rebate rate, as well as changes in utilization and total securities lending income.
3. Look for exceptions, such as data that has changed by more than 50% from the prior month, or any information that appears to be an outlier or inconsistent with prior periods.
4. Submit inquiries about characteristics,performance, and any exeptions to SF. Document the result in the monthly reporting email to PBGC staff.

**viii. Dissemination and Filing of PBGC Securities Lending Report**

1. The contract monitor, currently Mike Maloney, scans the entire report into a pdf and provides to Mark Calisti.
2. Subsequent to Mark Calisti's review, Mike Maloney e-mails the report to CID staff, including the CIO and Deputy CIO. The e-mail includes SF's responses to questions from the Monthly Characteristics and Performance Analysis.
3. Subsequent to the CIO's review, the CIO e-mails the report to the CFO.
4. The report is filed each month under I:/CID/SSC/Monthly Reports.

# APPENDIX

**Exhibit 1: Sample benchmark report from State Street Securities Finance.**

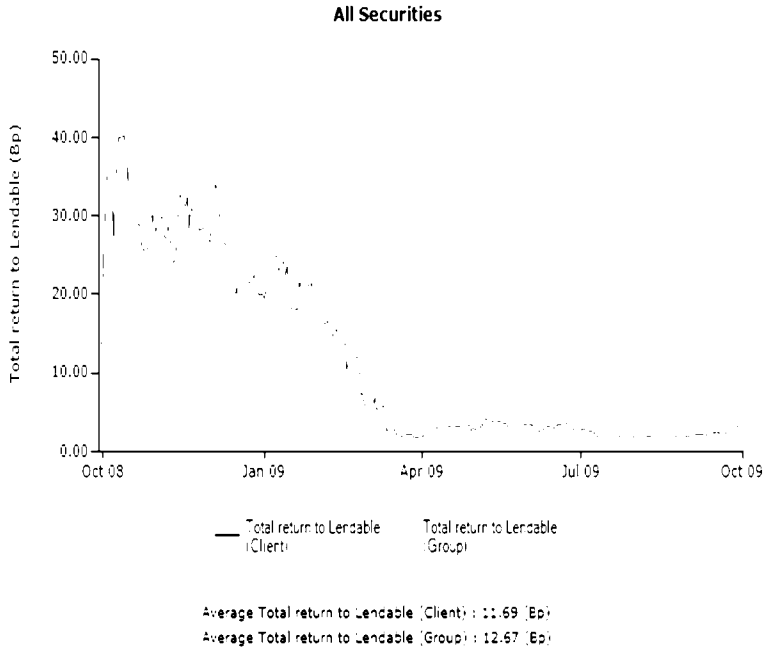
**Exhibit 2: An Introduction to Securities Lending: By State Street Securities Finance .**

**Exhibit 1 Sample Benchmark Report from State Street Securities Finance**

UPDATE: PBGC underperformed the universe by .98 basis points. One of the primary reasons for the underperformance was the small holding in Citigroup. The Citigroup trade commanded a demand spread of 6,200 basis points on average. Since the trade ran for over four months, many clients generated a disproportionate share of income from this trade.

## Benchmarking Comparison: Total Return to Lendable

- **Universe includes US domiciled tax exempt lenders**
  - Group lendables - $554.5 b
  - PBGC lendables - $13.9 b

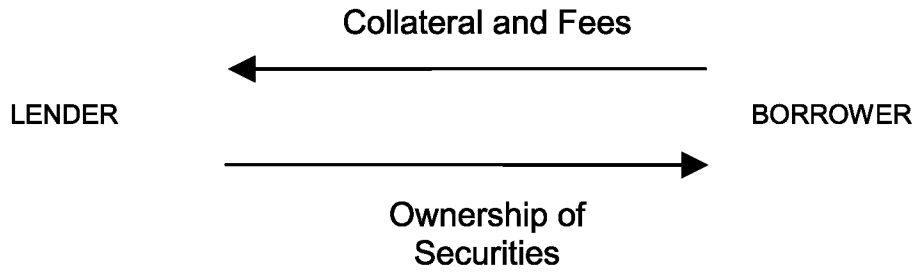


As of September 30, 2009

**Exhibit 2: An Introduction to Sec Lending: By State Street Securities Finance .**

## I. A Learning Guide to Securities Lending

b. An investment management product where participants generate revenue by temporarily transferring idle securities, in a collateralized transaction, to a borrower



b. Securities Finance Defined Role of the Agent Lender
   i. Facilitates lending transaction between lender and borrower
   ii. Receives cash or non-cash collateral with a margin of:
      1. 102% for U.S. securities
      2. 105% for non-U.S. equities
      3. 102% for international fixed income
      4. Marks to market daily to maintain margin
   iii. Invests cash collateral into a pool in order to generate a return
   iv. At loan initiation, negotiates rebate (cash collateral) or premium rate (non-cash collateral) with the borrower
   v. Rates determined by the level of demand for the security in the marketplace

Securities Finance - Defined Types of Lenders and Borrowers

| | |
|---|---|
| Mutual Funds | Broker / Dealers |
| Pension Funds | Securities Subsidiaries of U.S. and European Banks |
| Pooled Investment Vehicles | Highly Capitalized Foreign Banks |
| Insurance Funds | Bank Holding Companies |
| Endowments | |
| Foundations | |
| Corporate Treasuries | |
| Central Banks | |
| Offshore Entities | |

## Transaction Basics - Demand Drivers

- Cheaper and/or more efficient to borrow shares than to buy them on the open market
- Securities are borrowed by a counterparty that has a commitment to deliver shares which it has sold, but does not possess
  - All asset classes
- Securities are borrowed to create a "short" position in a security
  - All asset classes, but typically seen in corporate securities
- Tax treaties between governments allow for dividend arbitrage trades
  - For US plan sponsors, these are non-U.S. equities
- Securities are borrowed as part of a financing strategy
  - Typically U.S. and non-U.S. government securities

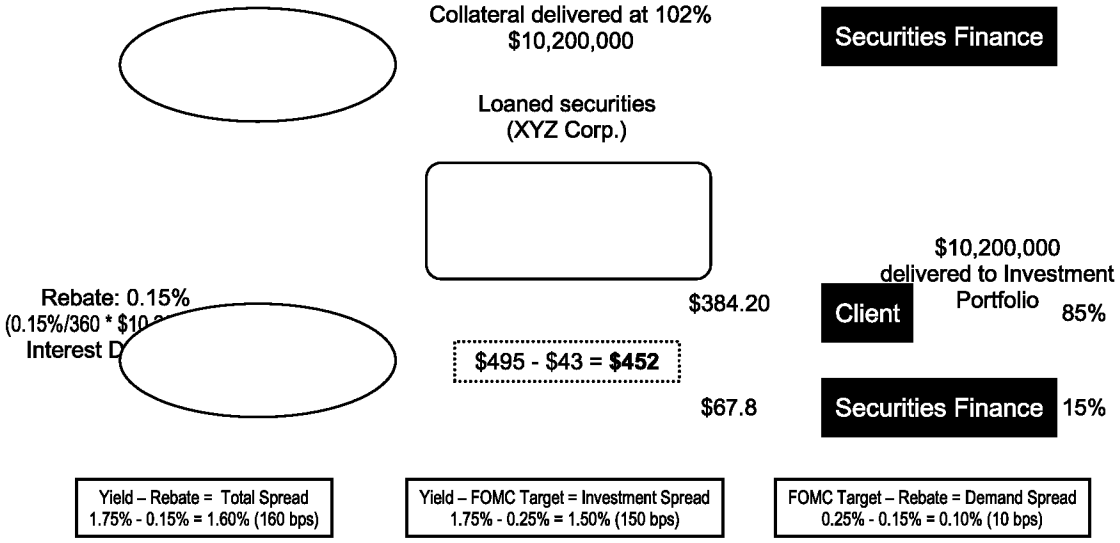
**Fundamentals of Securities Finance - Borrower and Agent Responsibilities**

| | | |
|---|---|---|
| Identifies Demand for Security In Market | | Monitors Demand for Securities in Market |
| Contacts Lending Agent and Negotiates Loan | | Loans Security to Borrower |
| Provides Cash or Non-Cash Collateral (fixed fee) | | Invests Cash Collateral; Receives Premium for Non-Cash |
| Performs Daily Mark to Market to Maintain Collateral Levels | | Performs Daily Mark to Market to Maintain Collateral Levels |
| Receives Rebate From Collateral Invested by Agent | | Receives Difference Between Collateral Yield and Borrower Rebate |

**Fundamentals of Securities Finance - One Day Sample Transaction**

- Morgan Stanley is looking to borrow 50,000 shares of XYZ Corp
  - 50,000 shares of XYZ Corp. has a market value of $10 million
- Morgan Stanley contacts the SF US Equity Trading Desk in Boston
  - State Street has the supply
- Terms are agreed
  - Rebate rate of 0.15%
  - Cash collateral
  - Open loan (no fixed period of time)
- Collateral is delivered
  - Cash collateral valued at 102% of the market value ($10,200,000)
- Cash is invested in an investment portfolio, earning 1.75%
  - Shares are delivered through DTC to MS

## Fundamentals of Securities Finance - One Day Sample Transaction Diagram

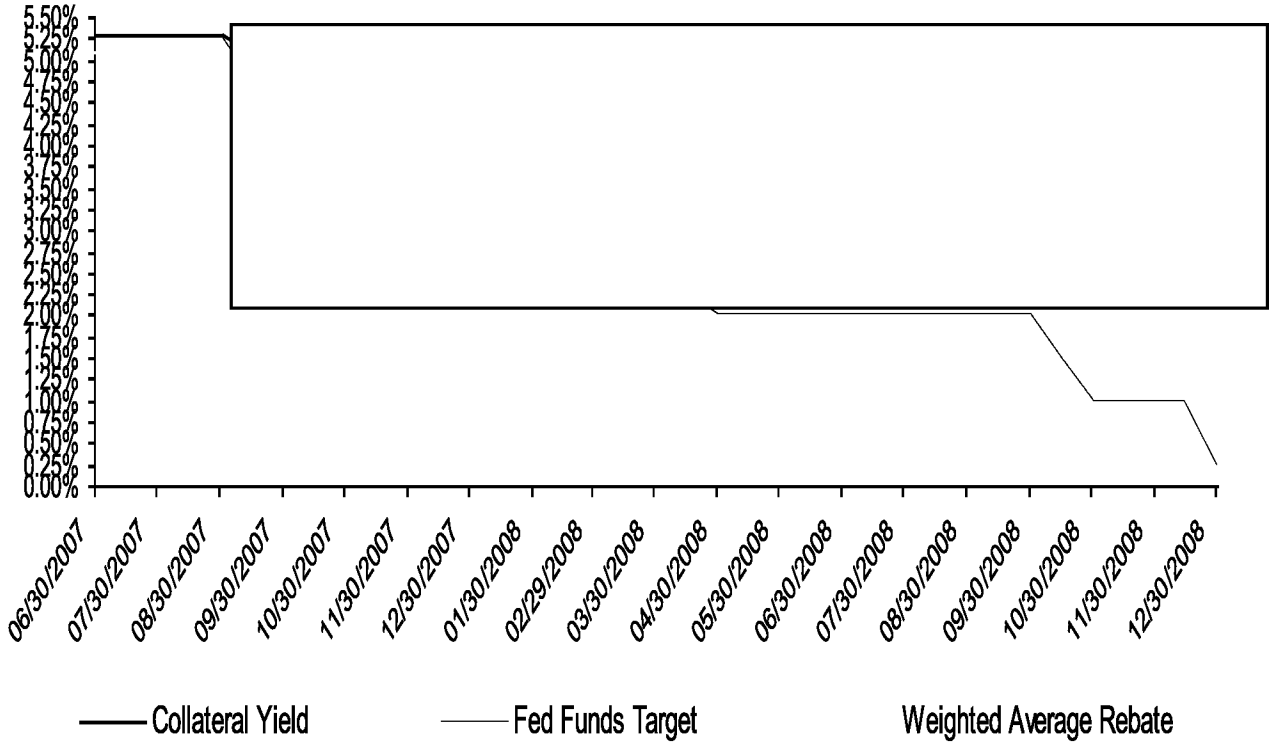


Collateral Yield and Rebate Rate are annualized using a 360 day basis.

As of December 31, 2008

**Fundamentals of Securities Finance - Effects of FOMC Activity – Hypothetical Situation**

- Because of the duration mismatch nature of the program, the seasoned portfolio gradually maximizes investment spread while the rebate rate on loans is automatically reset.



| | |
|---|---|
| 50 bps | September 18, 2007 |
| 25 bps | October 31, 2007 |
| 25 bps | December 11, 2007 |
| 75 bps | January 22, 2008 |
| 50 bps | January 30, 2008 |
| 75 bps | March 18, 2008 |
| 25 bps | April 30, 2008 |

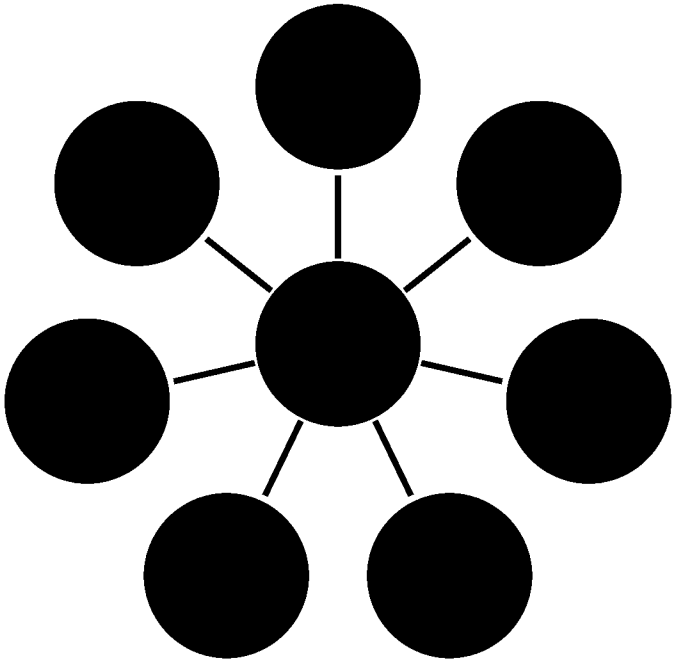
## Fundamentals of Securities Finance - Factors Affecting Income



## Key Definitions of Securities Finance

- **Securities Finance** is an investment management product where participants generate revenue by temporarily transferring idle securities, in a collateralized transaction, to a borrower
- **Securities Finance** is a method for beneficial owners to generate incremental returns with minimal risk
    - **Borrower** In most instances, a securities borrower is a financial intermediary, such as a broker, dealer or market-maker. These firms use the securities to meet an array of short-term needs, including: avoiding settlement failures, supporting hedging — short selling strategies and to facilitate arbitrage opportunities.
    - **Collateral** An asset pledged or delivered to a lender or its agent to secure a loan.
