Re: HQ-2012-00389-F

This is the final response to the request for information that you sent to the Department of Energy (DOE) under the Freedom of Information Act (FOIA), 5 U.S.C. § 552. You asked for the following:

1. An electronic copy of the records provided to the Honorable Chairman Darrell Issa, who had in January 2011 asked your agency for various data concerning the administration of the Freedom of Information Act.
2. A copy of any correspondence whatsoever sent to Chairman Issa's office on the subject of the January 2011 inquiry, and any correspondence sent to Chairman Issa's office on the subject of FOIA.

On July 26, 2013, in a telephone conversation and subsequent email with Mr. Todd Burns of my office, you agreed to amend your request to the following:

1. A copy of the DOE FOIA case logs provided to Chairman Darrell Issa in response to his January 2011 request for various data concerning the administration of the FOIA, and
2. Correspondence sent to Chairman Issa's office regarding the January 2011 inquiry for the FOIA.

Your request was assigned to DOE's Office of Management to conduct a search of their files for responsive documents. The Office of Management has completed its search for records and identified the enclosed documents responsive to your request. The documents are being provided to you as described in the accompanying index.

After review, DOE has determined that certain information should be withheld pursuant to Exemption 4 and Exemption 6 of the FOIA, 5 U.S.C. § 552(b)(4) and (b)(6).

Exemption 4 of the FOIA protects "trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential." 5 U.S.C. § 552(b)(4). This exemption is intended to protect the interests of both the Government and submitters of information. This exemption affords protection to submitters who provide trade secrets, or

commercial or financial information to the Government by safeguarding them from the competitive disadvantages that could result from disclosure. The exemption covers two broad categories of information in Federal agency records: 1) trade secrets, and 2) information that is (a) commercial or financial, and (b) obtained from a person, and (c) privileged or confidential.

The information withheld under Exemption 4 consists of the names and identifying information of entities that applied for financial assistance from DOE through the Loan Guarantee Program, a Funding Opportunity Announcement, or by way of an unsolicited proposal, but have not received financial assistance or whose financial assistance was revoked. Disclosure of this information may harm the company by negatively affecting investor and public relations, and/or valuation of the company if this information was known to the public. Furthermore, this information does not shed any light on government operations, and disclosure may curtail companies from providing such information to the Government in the future. As such, this information will not be released.

Exemption 6 is generally referred to as the “personal privacy” exemption; it provides that the disclosure requirements of FOIA do not apply to “personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” 5 U.S.C. § 552(b)(6). In applying Exemption 6, DOE considered: 1) whether a significant privacy interest would be invaded; 2) whether the release of the information would further the public interest by shedding light on the operations or activities of the Government; and 3) whether in balancing the privacy interests against the public interest, disclosure would constitute a clearly unwarranted invasion of privacy.

The information withheld under Exemption 6 consists of personal information such as names of certain individuals and FOIA requestors, telephone numbers, home addresses, particular email addresses, and the information of deceased individuals whose medical records/histories are being sought under some of the FOIA log entries such as their names, dates of birth and social security numbers. This information qualifies as “similar files” because it is associated with particular individuals entitled to privacy. Moreover, releasing the information could subject some of the individuals to unwarranted or unsolicited communications. Since no public interest would be served by disclosing this information, and since there is a viable privacy interest that would be threatened by such disclosure, Exemption 6 authorizes withholding the information. Therefore, we have determined that the public interest in releasing this information does not outweigh the overriding privacy interests in keeping this information confidential.

This satisfies the standard set forth in the Attorney General’s March 19, 2009 memorandum that the agency is justified in not releasing material that the agency reasonably foresees would harm an interest protected by one of the statutory exemptions. Accordingly, we will not disclose this information.

Pursuant to 10 C.F.R. Part 1004.7(b)(2), I am the individual responsible for the determination to withhold the information described above. The FOIA requires that “any reasonably segregable portion of a record shall be provided to any person requesting such record after deletion of the portions which are exempt,” 5 U.S.C. § 552(b). As a result, a redacted version of the documents is being released to you in accordance with 10 C.F.R. Part 1004.7(b)(3).

This decision, as well as adequacy of the search, may be appealed within 30 calendar days from your receipt of this letter pursuant to 10 C.F.R. Part 1004.8. Appeals should be addressed to

Director, Office of Hearings and Appeals, HG-1, L'Enfant Plaza, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington DC 20585-1615. The written appeal, including the envelope, must clearly indicate that a FOIA appeal is being made. The appeal must contain all the elements required by 10 C.F.R. Part 1004.8, including a copy of the determination letter. Thereafter, judicial review will be available to you in the Federal District Court either (1) in the district where you reside, (2) where you have your principal place of business, (3) where the Department's records are situated, or (4) in the District of Columbia.

If you have any questions about the processing of the request or this letter, you may contact Ms. Angelia Bowman or Mr. Omer Pervaiz at:

MA-90/ Forrestal Building
1000 Independence Avenue, SW
Washington, DC 20585
(202) 586-5955

I appreciate the opportunity to assist you with this matter.

Sincerely,

Alexander C. Morris

Request #: HQ-2012-00389-F

Amended request for: 1) A copy of the DOE FOIA case logs provided to Chairman Darrell Issa in response to his January 2011 request for various data concerning the administration of the FOIA, and 2) Correspondence sent to Chairman Issa's office regarding the January 2011 inquiry for the FOIA.

The Office of Management has completed its search for records and located the documents responsive to your request:

- A copy of DOE FOIA case logs *are being released in part pursuant to Exemption (b)(4) and Exemption (b)(6)* – The withheld (b)(4) information consists of names and identifying information of entities that applied for funding opportunities with the DOE. The withheld (b)(6) information consists of personal information such as names of certain individuals and FOIA requestors, telephone numbers, home addresses, particular email addresses, and the information of deceased individuals whose medical records/histories are being sought under some of the FOIA log entries such as their names, dates of birth and social security numbers; and
- Three (3) documents are being released in their entirety. The documents are correspondence sent to Chairman Issa's office regarding the January 2011 inquiry for the FOIA.

Kalandyk, David C.	5/18/2007	regarding a Union organization releasing or publishing the medical status and attendance irregularities to its members. This is one time incident. The organization never asked for the employees approval or consent, and was done with malicious intent. This employee was subsequently, probably indirectly, eventually disciplined by the company he is employed. Would this constitute a violation of the Privacy Act? The work status and attendance of an individual is not something that that the employees would have a need to know.	CBFO 2007-010	5/18/2007	Transferred

Lenderman	Andy	11/24/2006	<p>Requesting An annual report summarizing all on-the-job accidents involving Los Alamos National Laboratory employees and their subcontractors. Specifically, these reports should cover the years 2002 through 2006. It does not matter to me if the reports cover the fiscal year o the calendar year. I am not requesting safety incident reports for each and every accident. I am not asking for specific personal or medical records associated with these accidents. I also understand that due to the nature of the work at Los Alamos certain elements may need further review or redaction. But a reasonable person would assume that the lab would be required to provide some sort of annual safety summary report, in writing, to the federal Department of Energy and Congress.</p> <p>This summary may likely include the following elements:</p> <ol style="list-style-type: none"> 1. The total number of accidents at the lab covering all workers, including subcontractors. 2. The general category of the accident. 3. The number of work hours lost to accidents, and its cost or loss in productivity. 4. The number of workers exposed to radioactive materials during this time. 5. The number of fatalities that occurred on lab property, as a result of injuries suffered there, or that occurred in the course of doing lab work off lab property. 6. The total number of injuries that resulted in permanent disability. 7. O'Connor, Marc	10/19/2006	Requesting documents, images and other such data relating to a former Department of Energy facility located in Morgantown, West Virginia. This facility was formerly known as the Morgantown Ordinance Works and is popularly believed to have been instrumental in the production of materiel notably tritium gas for use in America's early nuclear weapons program. Presently, this facility is abandoned, in a considerable state of decay and the property has been sold to other businesses. The property this facility occupies is presently known as the Morgantown industrial Park, with an address of Morgantown WV, 26501. This facility figures into both local and national history and it is likely that this facility will be demolished in the near future. Various rumors exist as to the facilities aural floe in our nuclear weapons program and my intent is to secure information about this facility in order to author a historical monograph for public consumption on the World Wide Web and other Publicly accessible media as available. Particularly, this monograph is for historical and geographic education and preservation, given that the Morgantown Ordinance Works figures into both local and national history. Oakberg, John	6/30/2008	requesting all pages of the list showing the doses of the approximately 1500 badges issued for test "ANNIE". Requester expects that the individual names will be removed and that does not affect what is needed, as long as only the names are removed. The listing to which I refer is dated October 3, 1967 and appears to have been printed from computer records. To assist you in locating exactly what is being requested, attached are copies of what I received: the title page and page number 29, which contains the information for E. F. Oakberg, in addition to some other entries with the names removed. To reiterate, I request all pages of the above-mentioned document related to test "ANNIE", redacted just as shown on the attached page 29.	FOIA 08-222-	02/11/2009	Other Reasons

Ransohoff, William	2/13/2009	Requesting documents/information of a grant of a substantial amount of money which was made by DOE to JL Shepherd & Associates for the purpose of assisting JL Shepherd & Associates in efforts to develop a new shipping package for radioactive material. The package would ultimately have to receive approval from the USNRC and the USDOT. We do not know exactly when this grant was made, but it is our understanding that approximately \$2 million of DOE money has already been spent by JL Shepherd in its efforts, so we suspect that the grant was made a few years ago. We do not know what division of DOE made the grant, but have heard suggestions that it was the Orphan Source Recovery Program (OSRP) at the Los Alamos National Lab. We use the term "grant" loosely, we are not sure what form the money was given. Request that the docs be sent electronically or printed.	FOIA 09-00059-H	6/24/2009	Other Reasons	FOIA 2009-000093

Kumar, Mukesh	4/29/2009	<p>Requesting: The first consignment of sixty tonnes (60) of natural uranium arrived India from France on April 1st, 2009. This uranium ore will be processed at the Nuclear Fuel Complex (NFC) in Hyderabad and converted into four thousand fuel bundles, each bundle containing about 15 kg of uranium dioxide. The consignment that arrived at Hyderabad is part of 300 tonnes of uranium ore. It will then be used at the Rajasthan Atomic Power Station (RAPS). There are two power stations - RAPS-I and RAPS-II - about these we all are very well aware that had already been placed under IAEA safeguards. But it is not yet known that the NFC where the said uranium is being processed, is under IAEA domain or not. The undersigned has already requested IAEA to inform the status with regards to NFC's safeguards agreement but not responded by IAEA till now. Since the India is not a signatory to NPT, I would therefore like to seek this information under FOIA about the current position regarding the NFC in terms of IAEA safeguards from the Department of Energy at the earliest.</p>	FOIA 09-00190-K	5/15/2009	Other Reasons	FOIA 2009-000300

Deedy, Donna	5/10/2010	Requesting a copy of the contract between the DOE and Duke Energy for the MOX fuel agreement. Duke Energy has irradiated MOX fuel test assemblies in its Catawba and McGuire plant. Testing began in 2005, not sure when date of the contract is. May be possible that there is a clause in the original Shaw AREVA (formerly Duke, Cogema, Stone and Webster) contract that outlines burning the MOX fuel at Duke Energy plants, Catawba and McGuire. Suspects that there might be a separate contract either between Shaw AREVA and Duke Energy or DOE and Duke Energy since it involves another party, Duke Energy. Wellerstein, Alex	5/27/2010	<p>What I am interested in are the original patent specifications which describe the release of energy from nuclear fission chain reactions for military purposes. Colloquially these would be the original Los Alamos patents relating to the nuclear weapons developed during World War II. I have spoken with a former Los Alamos legal counsel who related to me that in his recollection, there were perhaps "six of them," kept in "a classified security safe in the patent group offices," and that the listed inventors included "Bethe, Teller, Fermi, Kistiakowsky, etc." I am interested in the specifications in full where it is possible to declassify them. Should the contents prove to be entirely impossible to declassify, I would also be interested in simply the titles, inventor names, and dates from this series. I will note that their value as patents is rendered moot by 42 U.S.C. § 2181 (a).</p>	FOIA 10-00205-K	7/13/2010	Other Reasons	-

Dear Chairman Issa:

We are in receipt of your January 25, 2011, letter to Alexander Morris, Freedom of Information Act (FOIA) Officer at the Department of Energy, regarding the importance of FOIA and the Department of Energy's efforts to comply with FOIA requirements.

The Department is working diligently to gather the information requested, and will provide a response to you as promptly as possible. We will keep you advised on our progress.

I appreciate the opportunity to assist you with this matter. If you have any questions, please contact me on (202) 586-2550.

Sincerely,

The Honorable Darrell Issa
Chairman
Committee on Oversight and
Government Reform
U.S. House of Representatives
Washington, DC 20515

Dear Chairman Issa:

This is in further response to your January 25, 2011, letter to Alexander Morris, Freedom of Information Act (FOIA) Officer at the Department of Energy (DOE), regarding DOE's compliance with and implementation of the FOIA.

After consultation with your staff, we are providing herewith, information responsive to items 1 and 2 of your request for the following offices within DOE:

- DOE Headquarters (excluding NNSA)
- Bonneville Power Administration
- Southeastern Power Administration
- National Energy Technology Laboratory
- Southwestern Power Administration

Information responsive to item 3 for the above offices will be provided in our next response. The FOIA logs for calendar years 2006-2010 for these offices are enclosed on a compact disc in Excel format, as specified in your request. Each FOIA case received up to December 10, 2010, that remains open is highlighted in yellow on each of the logs contained on the compact disc.

Due to the different tracking methods/tracking systems used by these offices during the time period encompassed by your request, the language in the "Final Disposition" column varies slightly. For part of 2009 and all of 2010, the term "other reasons" means that the case was closed due to one of the following reasons: 1) no records found, 2) cancelled/withdrawn, 3) referred/transferred, 4) fee related reason, 5) records not reasonably described, 6) not a proper FOIA request, 7) not an agency record, or 8) duplicate.

The public release of information contained in the FOIA logs - in particular the identities of the individual requestors - could discourage the unimpeded use of FOIA by members of the public. I ask that the Committee consider such unintended consequences and protect this information accordingly. If the Committee chooses to release individual information, I am available to discuss ways to mitigate these concerns.

Also enclosed is a complete response for items 4 and 5 of the request. These documents are provided in hard copy.

For your information, the Department is in the process of changing how it processes FOIA requests at Headquarters. We believe that once this process is fully implemented later this year, it will result in decreasing the amount of time that it takes DOE to respond to FOIA requests. Enclosed is a copy of the January 31, 2011 memorandum from the Deputy Secretary describing the new process.

The Department continues to work diligently to assemble the remaining information responsive to items 1-3 of the request for the following offices within the DOE:

- Chicago Office
- Oak Ridge Office
- Richland Operations Office
- Savannah River Office
- National Nuclear Security Administration
- Golden Field Office
- Western Area Power Administration
- Strategic Petroleum Reserve
- Idaho Operations Office
- Environmental Management Consolidated Business Center
- Office of Scientific and Technical Information
- Carlsbad Field Office
- Naval Reactors Laboratory Field Office
- Naval Reactors

We will provide a response to you as promptly as possible and will keep you advised on our progress.

I appreciate the opportunity to assist you with this matter. If you have any questions, please contact me on (202) 586-2550.

Sincerely,

Ingrid Kolb

The Honorable Darrell Issa
Chairman
Committee on Oversight and
Government Reform
U.S. House of Representatives
Washington, DC 20515

Dear Chairman Issa:

This is in final response to your January 25, 2011, letter to Alexander Morris, Freedom of Information Act (FOIA) Officer at the Department of Energy (DOE) regarding DOE's compliance with and implementation of the FOIA.

In a letter dated February 15, 2011, we provided information responsive to items 1 and 2 of your request for the following offices within the DOE:

- DOE Headquarters (excluding NNSA)
- Bonneville Power Administration
- Southeastern Power Administration
- National Energy Technology Laboratory
- Southwestern Power Administration

We also provided a complete response to items 4 and 5 of the request.

At this time, we are providing information responsive to item 3 of the request of the above offices. We also are providing information responsive to items 1-3 of the request for the remaining offices of the Department listed below:

- Chicago Office
- Oak Ridge Office
- Richland Operations Office
- Savannah River Office
- National Nuclear Security Administration
- Golden Field Office
- Western Area Power Administration
- Strategic Petroleum Reserve
- Idaho Operations Office
- Environmental Management Consolidated Business Center
- Office of Scientific and Technical Information
- Carlsbad Field Office
- Naval Reactors Field Laboratory Office
- Naval Reactors Office
- Pacific Northwest Site Office

The FOIA logs for calendar years 2006-2010 for the offices referenced above are enclosed on a compact disc in Excel format, as specified in your request. Each FOIA case received up to December 10, 2010 that remains open is highlighted in yellow on each of the logs. A hard copy of the correspondence with the requester for each of these cases is also enclosed.

Due to the different tracking methods/tracking systems used by these offices during the time period encompassed by your request, the language in the "Final Disposition" column varies slightly. For part of 2009 and all of 2010 the term "other reasons" means that the case was closed due to one of the following reasons: 1) no records found, 2) cancelled/withdrawn, 3) referred/transferred, 4) fee related reason, 5) records not reasonably described, 6) not a proper FOIA request, 7) not an agency record, or 8) duplicate.

Some of the correspondence contains information that the Department would not release in response to a FOIA request, including personal privacy information. In addition, some of these materials originate from DOE's Office of the Inspector General. As such, these materials may contain information involving ongoing investigations and other related matters. As a result, we request that, if a release of this information is contemplated, you contact me or a member of my office prior to doing so.

The public release of information contained in the FOIA logs and these documents — in particular the identities of the individual requestors — could discourage the unimpeded use of FOIA by members of the public. I ask that the Committee consider such unintended consequences and protect this information accordingly. If the Committee chooses to release individual information, I am available to discuss ways to mitigate these concerns.

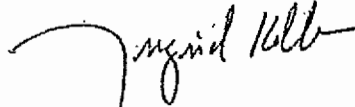

As stated in our February 15th letter, the Department is in the process of changing how it processes FOIA requests at Headquarters. We believe that once this process is fully implemented later this year, it will result in decreasing the amount of time that it takes DOE to respond to FOIA requests.

We note with regard to the materials received from the Oak Ridge National Laboratory, documents for the years 2006 and 2007 associated with completed or closed FOIA requests were destroyed in accordance with the National Archives and Records Administration, Administrative Records Retention Schedule 14.

Also, the Pacific Northwest Site Office no longer received requests directly after October 1, 2009. The Naval Reactors Field Laboratory Office reported FOIA cases under the Naval Reactors office up until October 1, 2009.

I appreciate the opportunity to assist you with this matter. If you have any questions, please contact me on (202) 586-2550.

Sincerely,

A handwritten signature in black ink that reads "Ingrid Kolb". The signature is written in a cursive style with a large, sweeping initial "I".
