Sept. 3, 2010

Dear FOIA officer,

It's Seth Borenstein, national science writer for the Associated Press, the worldwide wire service. Pursuant to the federal Freedom of Information Act, 5 U.S.C. 552, I request access to and copies of the following materials:

- All correspondence, slide shows, e-mails, meeting and phone notes and logs, between Dr. David Conover and officials from other federal agencies and officials about funding for rapid grants to investigate the Apr. 20, 2010 BP Macondo oil spill.
- All correspondence, e-mails, meeting and phone notes and logs, between the Office of Legislative and Public Affairs and other federal agencies and officials about coordination efforts of federal grants and the meetings Aug. 31, Sept. 1 and Sept. 2 in Florida, Mississippi, and Louisiana. This should include all documents about media strategy, interview requests, denial of interview requests, instructions on which media should be talked to and which should be denied.

As a news media representative I am only required to pay for the direct cost of duplication after the first 100 pages. As a news media representative, I ask you to please waive any applicable fees. In the following eight paragraphs I will underscore my reasons in response to your guidelines on fee requests. I understand that is a separate process than my FOIA request. So I ask that you initiate both processes simultaneously. In other words, please start processing the FOIA request itself as you are doing the fee-waiver request. In the event that you disallow my fee-waiver request, I pledge to pay the price of the FOIA request up to \$200. Please notify me upon passing the \$100 and \$150 thresholds and reaching the \$200 limit if this is before a decision on fee-waiver request of if my fee-waiver is denied, however unwarranted that event may be. This paragraph should serve to authorize you to begin to accrue such charges, pending a decision on the fee-waiver request.

Through this FOIA request I am gathering vital information on the activities of the taxpayer-funded EPA that is important to the public's understanding of how its federal science funding agency spends public money and whether it is doing so in compliance with federal laws.

Now, let me specifically address the six hurdles used by the FOIA for fee-waiver determination by the U.S. Environmental Protection Agency and other federal agencies.

1. The subject matter of the requested records must specifically concern identifiable operations or activities of the government. This is about how federal tax dollars are spent and how taxpayer-funded officials communicate with the public about these decisions.
2. The disclosure should be "likely to contribute" to an understanding of government operations or activities. This is obvious. It's about public spending.

3. The disclosure must contribute to the understanding of the public at large, as opposed to the requester or a narrow segment of interested persons. Once again, this is about millions of dollars of federal money.
4. The disclosure must contribute "significantly" to the public understanding of government operations. See the first three. This is about federal funding, taxpayer-funded communications strategy.
5. The disclosure will not serve any commercial interest of me as an individual. My company does not sell newspapers individually. My company, The Associated Press, is a not-for-profit wire service (see the .org at the end of my e-mail) that is a consortium of members. Even the AP members will not likely sell a single newspaper more because of the disclosure. This is just a matter of a not-for-profit wire service fulfilling its public duty to ferret out the truth about the way government operates. In fact, the entire process will likely cost my company money because it involves my time.
6. The public interest in disclosure far outweighs commercial interest. First, as shown above there is massive amount of public interest. Second, as shown above, there is little if any commercial interest.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act and all segregable portions of otherwise exempt material. I reserve the right to appeal.

As I am making this information as a daily journalist and this information is of timely value, please contact me by telephone, rather than by mail if you have questions regarding this request. My phone number is 202-641-9454. My e-mail is sborenstein@ap.org. I look forward to your reply within 20 business days, as the statute requires.

Thank you in advance for your assistance.

Sincerely,

[signed]

Mr. Seth Borenstein
Science Writer
The Associated Press
1100 13th Street, NW, Suite 700
Washington, DC 20005-4076

Dear Mr. Borenstein:

This is in response to your September 3, 2010 emailed Freedom of Information Act (FOIA) request for the following records:

- All correspondence, slide shows, e-mails, meeting and phone notes and logs, between Dr. David Conover and officials from other federal agencies and officials about funding for rapid grants to investigate the Apr. 20, 2010 BP Macondo oil spill.
- All correspondence, e-mails, meeting and phone notes and logs, between the Office of Legislative and Public Affairs and other federal agencies and officials about coordination efforts of federal grants and the meetings Aug. 31, Sept. 1 and Sept. 2 in Florida, Mississippi, and Louisiana. This should include all documents about media strategy, interview requests, denial of interview requests, instructions on which media should be talked to and which should be denied.

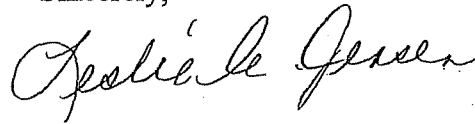

Records responsive to your request are enclosed. From the enclosed records I have determined to withhold portions of electronic mail documents that contain staff advice, opinion, and recommendation under the provisions of Exemption (b)(5) of the FOIA. Exemption 5 protects inter- and intra-agency records which are predecisional and deliberative. This exemption is intended to preserve the free and candid internal dialogue leading to decision making. In addition, I have determined to withhold personal identifiers under the provisions of Exemption (b)(6) of the FOIA. Exemption 6 protects

information that if released would constitute a clearly unwarranted invasion of personal privacy. I have further determined to withhold information concerning unfunded NSF proposals under the provisions of Exemption (b)(4) of the FOIA which protects proprietary/confidential business information. Your right of administrative appeal is set forth in Section 612.9 of the NSF FOIA regulation (copy enclosed).

I am consulting with NOAA, the Marine Mammal Commission and the Office of Science Technology Policy on emails that pertain to those agencies. I will advise you of the results of the consultation as soon as possible.

You requested a waiver of the FOIA fees and in this instance I have determined to grant the fee waiver. This release contains 463 pages.

Sincerely,

A handwritten signature in cursive script, reading "Leslie A. Jensen".

Ms. Jutta M. Schubert

Dear Ms. Schubert:

This is a final response to your November 2, 2010 emailed Freedom of Information Act (FOIA) request for records and my letters of December 2 and 29, 2010, January 6 and 27, and February 8 and 10, 2010.

Records from the January 2010 files of Dr. Thomas W. Peterson are enclosed. From the records I have determined to withhold information about specific unfunded applications. The Foundation protects from disclosure to third parties information about specific unfunded applications, including pending, withdrawn, or declined proposals. See 45 CFR 612.8 (h)(1). Information on unfunded proposal applications is also being withheld under the provisions of Exemptions 4 and 6 of the FOIA. Exemption 4 protects trade secrets and commercial or financial information that was obtained from a person outside the government and that is privileged or confidential. Exemption 6 protects release of personal information that its disclosure would constitute a clearly unwarranted invasion of personal privacy.

Further, proposal review information is withheld under the provisions of Exemptions 5 and 6 of the Freedom of Information Act (5 U.S.C. 552(b)) that protect from disclosure the predecisional, deliberative process and personal information and Exemption (k)(5) of the Privacy Act (5 U.S.C. 552a). Review information is protected as part of the deliberative process used by agency personnel in making decisions.

In addition, from the emails I have determined to withhold proprietary business information (financial information, key personnel, and budgets) under Exemption 4 of the FOIA. Exemption 4 is explained in paragraph number 2 above. Personal information has been withheld wherever it appears under the privacy protection of Exemption 6 of the FOIA. Exemption 6 protects records the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

I have further determined to withhold information from the enclosed records which contain staff advice and/or recommendations under the provisions of Exemption 5 of the FOIA. Exemption 5 protects the deliberative process used by agency personnel in making decisions. Your right of administrative appeal is set forth in Section 612.9 of the NSF FOIA regulation (copy enclosed).

This release contains 113 pages for a total release of 2140 pages. Please remit your payment in the amount of \$510.00. (Reproduction: 2040 pages @ \$0.25 per page) made payable to the National Science Foundation (NSF). Please send your check or money order within 30 days from the date of this letter to me, NSF, Room 1265, 4201 Wilson Blvd., Arlington, VA. 22230.

(#08-26)</p> <p>Is there any way that I could get access to the documents listed (but redacted) as footnotes 8 and 9, that the NSF obtained from the University of Wisconsin (case number A04050038). I believe that the actions taken by the University and it's officials during this investigation - particularly Provost Peter Spear, the investigator Frank Turkheimer and David Schultz who chaired the investigatory panel, including unaccounted delays past the University and the NSF/OIG set time limits, failure to account for delays or what happened to data durin gthose periods (lack of oversight), failure to sequester data (even well into the investigation), involvement of the complainant (Charles Casey) in the ongoing investigation (while he still had possession of the unsequestered and unprotected data in question), and disallowing these subjects to be mentioned in the hearing that were part of this case - completely and unfairly prevented me from getting a fair hearing from the University.</p> <p>When I requested what I assume is the data eventually turned over to NSF I was denied, as the University attempted to use my complaints about the handling of the data to imply guilt - all the while ignoring its own as well as the OIG's guidelines for handling an investigation of this type and delaying the onset of the NSF</p>
