REPLY TO
ATTENTION OF:

Freedom of Information/
Privacy Office

10 JUN 2013

This is in further response to your Freedom of Information Act (FOIA) request of October 23, 2008, and supplements our electronic message of May 12, 2010.

Coordination has been completed with another element of our command and other government agencies and records returned to this office for our review and direct response to you. We have reviewed the records and determined the records are partially releaseable to you. A copy of the records are enclosed for your use.

We have completed a mandatory declassification review in accordance with Executive Order (EO) 13526. As a result of our review information has been sanitized and 4 pages have been withheld in their entirety as the information is currently and properly classified TOP SECRET, SECRET and CONFIDENTIAL according to Sections 1.2(a)(1), 1.2(a)(2), 1.2(a)(3) and 1.4(c) of EO 13526. This information is exempt from the public disclosure provisions of the FOIA pursuant to Title 5 U.S. Code 552 (b)(1). It is not possible to reasonably segregate meaningful portions of the withheld pages for release. The records are enclosed for your use. A brief explanation of the applicable sections follows:

Section 1.2(a)(1) of EO 13526, provides that information shall be classified TOP SECRET if its unauthorized disclosure reasonably could be expected to cause exceptionally grave damage to the national security.

Section 1.2(a)(2) of EO 13526, provides that information shall be classified SECRET if its unauthorized disclosure reasonably could be expected to cause serious damage to the national security.

Section 1.2(a)(3) of EO 13526, provides that information shall be classified CONFIDENTIAL if its unauthorized disclosure reasonably could be expected to cause serious damage to the national security.

Section 1.4(c) of EO 13526, provides that information pertaining to intelligence activities, intelligence sources or methods, and cryptologic information shall be considered for classification protection.

In addition, information has been sanitized from the records and 4 pages have been withheld in their entirety as the release of the information would reveal sensitive intelligence methods. This information is exempt from public disclosure pursuant to Title 5 U.S. Code 552 (b)(7)(E) of the FOIA. The significant and legitimate governmental purpose to be served by withholding is that a viable and effective intelligence investigative capability is dependent upon protection of sensitive investigative methodologies. It is not possible to reasonably segregate meaningful portions of the withheld pages for release.

The withholding of the information described above is a partial denial of your request. This denial is made on behalf of Major General Stephen G. Fogarty, the Commanding General, U.S. Army Intelligence and Security Command, who is the Initial Denial Authority for Army intelligence investigative and security records under the FOIA. You have the right to appeal this decision to the Secretary of the Army. Your appeal must be postmarked no later than 60 calendar days from the date of this letter. After the 60-day period, the case may be considered closed; however, such closure does not preclude you from filing litigation in the courts. You should state the basis of your disagreement with the response and provide justification for a reconsideration of the denial. An appeal may not serve as a request for additional or new information. An appeal may only address information denied in this response. Your appeal is to be made to this office, for forwarding, as appropriate to the Secretary of the Army, Office of the General Counsel.

Coordination has been completed and we have been informed by the Central Intelligence Agency (CIA) that information is exempt from public disclosure pursuant to Title 5 U.S. Code 552 (b)(1) and (b)(3) of the FOIA.

The withholding of the information by the CIA constitutes a denial of your request and you have the right to appeal this decision to the Agency Release Panel within 45 days from the date of this letter. If you decide to file an appeal, it should be forwarded to this office and we will coordinate with the CIA on your behalf. Please cite CIA #F-2010-01292/Army #57F-09 assigned to your request so that it may be easily identified.

Coordination has been completed and we have been informed by the Defense Intelligence Agency (DIA) that their information is exempt from public disclosure pursuant to Title 5 U.S. Code § 552 (b)(1), (b)(2) (b)(3) and (b)(4) of the Freedom of Information Act and Executive Order (EO) 13,526 § 1.4 (c) (d) and (h). The statute invoked under Title 5 U.S. Code 552 (b)(3) is 10 U.S.C. §424, which allows for the protection of organizational and personnel information for DIA.

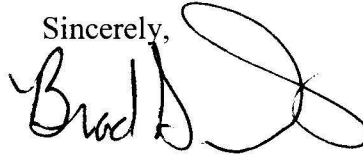

The withholding of the information by the DIA constitutes a partial denial of your request and you have the right to appeal this decision directly to the DIA. If you decide to file an appeal, it should be forwarded to the Director, Defense Intelligence Agency, ATTN: DAN-1A-FOIA, Washington, DC 20340-5100. Please cite MDR #0155-2010 assigned to your request so that it may be easily identified.

You have received all Army intelligence investigative records pertaining to this request.

There are no assessable FOIA fees.

If you have any questions regarding this action, feel free to contact this office at 1-866-548-5651, or email the INSCOM FOIA office at: INSCOM_FOIA_ServiceCenter@mi.army.mil and refer to case #57F-09.

Sincerely,

A handwritten signature in black ink, appearing to read "Brad S. Dorris". The signature is stylized with a large, looping flourish at the end.

FOREWORD

The Army Scientific and Technical Intelligence Bulletin (ASTIB) is a monthly publication summarizing the current level of US Army Intelligence knowledge concerning a specific scientific and technical mission area. It represents an ACSI approved position. The ASTIB is managed, printed, and disseminated by the US Army Foreign Science and Technology Center (FSTC), with specific issues written by FSTC, the Missile Intelligence Agency (MIA), or the Medical Intelligence and Information Agency (MIIA).

Comments regarding the information in this document and requests for additional information should be directed to FSTC, MIA, or MIIA as appropriate.

WILLIAM E. ODOM
Brigadier General, United States Army
Assistant Chief of Staff for Intelligence

Topics to be addressed in the Army Scientific and Technical Intelligence Bulletin (ASTIB): November 1981--February 1983 (U).

(U) Under procedures initiated in October 1979, various organizational units at the US Army Foreign Science and Technology Center (FSTC), the US Army Missile Intelligence Agency (MIA), and the US Army Medical Intelligence and Information Agency (MIIA) will address specified topics (mission area themes) in separate issues of the ASTIB. The following schedule has been developed:

INTRODUCTION

(U) This issue of the Army Scientific and Technical Intelligence Bulletin (ASTIB) was prepared by the Chemical Warfare and Life Sciences Branch, Military Technologies Division, US Army Foreign Science and Technology Center, 220 Seventh Street, NE., Charlottesville, VA 22901. As a result of recent inquiries about the state-of-the-art of Cuban chemical and biological warfare capabilities, this issue is devoted exclusively to that subject. Economically and militarily, Cuba is heavily dependent upon the Soviet Union and other Warsaw Pact countries. Presently, more than 1500 Soviet military advisors are in Cuba, in addition to a Soviet brigade of about 2000 men, to assist in Cuban military training and operational planning. As will become obvious to the reader, this Soviet influence is strongly manifested in the chemical and biological warfare area.

(U) Additional information on Cuban chemical and biological warfare capabilities and related topics can be obtained from the author, Mr. Victor Wolfe, Chief, Chemical Warfare and Life Sciences Branch.

(b)(1)

RESEARCH AND DEVELOPMENT (U)

(U) Very little is known about possible CBR research and development activities in Cuba. According to a Cuban open press article, a Central Chemical Troops Laboratory (location unknown) has been in existence for 25 years, and as of 22 June 1980, a new laboratory building was in the planning stages. A Dr. Julio Lopez Rendueles is apparently associated with this facility, but no other information is available on him or his areas of expertise.
