Records Release Office

This is in response to your Freedom of Information Act (FOIA) request dated May 16, 2007, requesting a listing of DAIG investigations closed since October 1, 2004. Army IG records are exempt from the mandatory disclosure provisions of the Privacy Act of 1974, Title 5 United States Code (U.S.C.) Section 552a(k)(2). Therefore, your request has been processed under the provisions of the FOIA, Title 5 U.S.C. Section 552.

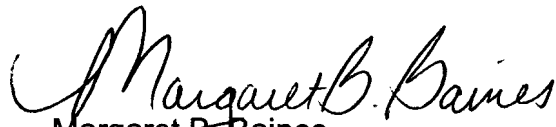

Enclosed are releasable documents responsive to your request. Where boxed-in and noted within the documents, information has been withheld that is exempt from the mandatory disclosure provisions of the FOIA exemption (b)(6). Exemption (b)(6) applies to information about individuals in "personnel, medical files and similar files," when the disclosure of such information would constitute a clearly unwarranted invasion of personal privacy.

This action constitutes a partial denial of information under the FOIA. As the Initial Denial Authority (IDA), I partially denied your request. You may appeal this denial decision in writing within 60 days from the date of this letter.

If you decide to appeal, please address your appeal through this office (ATTN: SAIG-ZXR), The Inspector General, 2511 Jefferson Davis Highway, Arlington, Virginia 22202-3912, to the Office of the General Counsel, Department of the Army. That office has the appellate authority for Army Inspector General initial FOIA determinations. In any such appeal, you should also provide a copy of this letter, along with sufficient justification upon which the Office of the General Counsel may base a decision.

All fees assessable under the FOIA for the processing of this request have been waived. If you have any questions concerning this response, please call Mr. De Ocampo or me at (703) 601-1093. Please refer to Case Number 07-532 when you call this office.

Sincerely,

Margaret B. Baines

DIG0500112	AR 40-501, paragraph 8-19c(5), stated that all members of the Ready Reserves not on active duty would be screened for medical fitness annually. DA Form 7349-R, Initial Medical Review-Annual Medical Certificate, would be used to record the results of the clinical screen. The form would be filed in the individual's health record. Evidence in our investigation indicated a lack of compliance by Army reservists, not on active duty, to complete this review. Not completing the AMC between periodic physicals could lead to a situation where a reserve Soldier's condition would go unnoticed by HCPs and the command and could include conditions rendering Soldiers unfit for military service. Additionally the regulation was not clear on whether this was a command or individual responsibility.
DIG0500112	██████████ failed to complete a subordinate's OER in a timely manner.
DIG0500112	██████████ failed to take appropriate action.
DIG0500112	Evidence in our investigation indicated that Soldiers processing through the MUIC at Ft. Bragg received a pre and post-health assessment. The questions Soldiers must respond to did not thoroughly address changes in medical and dental health. As a result, Soldiers with underlying medical and dental conditions that are not a "current" health issue will not be identified in the deployment processing. The current system does not provide the HCPs the means to fully discover if Soldiers deploying out have any conditions that might create a risk to the Soldier and to others. This was especially applicable to reserve component Soldiers. Questions used on the Annual Medical Certificate (DA7349-R) require the Soldier to answer to whether they have had any medical or dental changes in health since their last physical and whether they have been hospitalized or had surgery since their last physical would more effectively identify Soldiers who might be non-deployable.
DIG0500114	██████████ improperly showed preferential treatment.

DIG0500118	██████████ failed to complete OERs on subordinates in a timely manner.

DIG0600099	<p>OTHER MATTERS:</p> <p>1. The complainant stated his OER was late, the senior rater used gimmicks to place derogatory information into the OER, and the OER should have been referred to him so he could comment. In accordance with Army Regulation 20-1, the complainant had other forms of redress.</p> <p>2. The complainant stated that because his OER was not final, he was not considered by a promotion board and school selection board. Evidence indicated he was considered by the boards, but was not selected.</p> <p>3. The complainant stated that the unit would not release him so he could take another assignment. His complaint was previously presented to the DIV IG who determined the unit was under a stop-loss order and the complainant should be retained.</p> <p>4.
