TIMU Curator Anne Lewellen reapproximated the archival collection counts and changed the item count in the catalog records. Previous estimates were very high and most were lowered. In addition, she added some of the archival collections into ANCS+ as they had never been entered, although they had been counted as cataloged in earlier CMRs. The catalog numbers are much lower

Accessioning and cataloging of the PIPE photo collection was completed. Several new accessions were added to the collection through research projects and donations in FY05. Nine framed prints were deaccessioned because they did not fit the PIPE SOC; they were transferred to GLAC where these valuable Roland Reed photographs were originally taken and are now part of the museum.

We have a very noteworthy accession this year which is a large Civil War collection of over 5000 objects. This was a private exhibit and collection, called the General Sweeny Civil War Museum, and it was purchased by the National Park Service. We will hopefully begin the cataloging process in FY2006.
