385	Comments: Requesting a detailed list of all the locations with this type of environment so that I could construct the model with a geographic component. However, at the very basic level it would be good to simply have an “official” number of facilities. National numbers are great, but any ability to include an foreign locations would be even better (I’m not sure if foreign buildings like Embassy’s would fall under the GSA’s umbrella, or directly through the State Department). I’ve looked online and haven’t been able to find anything directly addressing this information, but in essence it would be similar to identifying which buildings have childcare facilities which does appear to be something that can be found.

My position is that the denial is unwarranted for the reasons set forth below: I believe that the sixth exemption of FOIA, U.S.C. 552(b) (6). "because public disclosure of this information would constitute a clearly unwarranted invasion of personal privacy" is not applicable to this request and as such is improperly cited. The denial defies the President's state goal of making this administration "the most transparent in history" as well as Eric Holder and the Department of Justice's direction to favor "a presumption of openness." This FOIA request is limited to bulk data derived from total regional quantities of employee performance ratings (APPAS), broken out in a simple bulk format. It is unconscionable to suggest that the request "constitutes a clearly unwarranted invasion of personal privacy." In fact, the spreadsheet format submitted clearly makes any possibility of identifying an individual's personal performance rating impracticable.

At the same time that we are appealing, WTHR is in the process of revising the scope of our request for those invoices and other financial information. We plan to limit the number of invoices we would need. In turn, that would reduce the amount of paperwork GSA would need to fulfill our request. In addition, you wrote that GSA provided: "copies of the contract for each project (which includes a summary, costs, and dates), as well as change orders." I did not find in the contracts a summary of itemized/line item costs or dates. I found a project summary that includes overall project description, but little detail. 923	Comments: (1) Special Identification Number (“SIN”) 51 507, which is incorporated within the above Solicitation. This Solicitation has been “refreshed” at least 29 times, the most recent of which was “Refresh Number: 29”, which was released on January 7, 2013 (link attached). That “refresh” is the one I can find on the GSA website, but there were 28 before it. I was also able to do a Google Search and find “Refresh Number: 26”, which was released in June 2011 (link also attached). (We also have refresh 20, released in January 2010). Between Refreshes 26 and 29, there was a change in the description of the shredding requirements set forth in SIN 51 507, and that is what we are most interested in. But we also want to know what the refreshes before Refresh 20 said about shredding services, and whether those refreshes were consistent with Refresh 20 and 26 with respect to shredding services under SIN 51 507. (2) We are also interested in GSA contracts that two entities had (or still have) to provide shredding services pursuant to SIN 51 507 under Solicitation 3FNJ-C1-000001-B. Specifically, we are interested in Iron Mountain’s GSA Contract No. GS-25F-0066M, and Shred-It’s GSA Contract No. GS-25F-0011M. I need to find out when these contracts were originally awarded, when they were renewed, and whether they were ever modified or changed after being awarded? And any documents related to these contracts.

GSA responded to each request as they were numbered in the original request; for consistency, the requests will be referenced by those same numbers in this appeal. Request No. 1: As a preliminary matter, emails disclosed by the GSA in response to our first FOIA request make numerous references to telephone discussions between GSA's attorney, Nathan Guerrero, and attorney for Hill Country RV Resort, Michael Schaengold. Specifically, in an email dated July 21, 2011, Mr. Guerrero references a conversation in which Mr. Schaengold verbally requested a proposed letter from GSA with a settlement offer. This letter was again referenced in an email from Mr. Guerrero dated July 27, 2011, in which he states the letter containing a proposed settlement offer "that you and I have discussed" was approved, followed by language containing an offer of settlement in the amount of one-million two-hundred fiftythousand dollars (\$1,250,000.00).
