Case No.: 14-0113

September 19, 2014

This is in response to your February 6, 2014, Freedom of Information Act (FOIA) request to the Department of Health and Human Services (HHS). You requested records regarding the premium travel reports for the years 2009 to 2013.

Enclosed is the CD containing records that you requested in excel format.

Exemption (b)(6) permits the withholding of privacy information, the release of which would constitute a clearly unwarranted invasion of personal privacy. Additionally, exemption (b)(7)(c) permits the withholding of personal information, in records compiled for law enforcement/investigatory purposes, the release of which could reasonably be expected to constitute an unwarranted invasion of personal privacy. Exemption (b)(7)(e) permits the withholding of investigatory records compiled for law enforcement purposes when disclosure would reveal techniques and procedures for law enforcement investigations. Exemption (b)(7)(f) permits withholding of names and other relevant information which, if disclosed to the public, would endanger the life or physical safety of law enforcement personnel. The withheld information includes names of employees who received accommodations for a medical disability and the Office of Inspector General travel.

There will be no charges in this instance because the billable costs are less than our threshold of \$25.

If you have reason to believe that the information withheld should not be exempt from disclosure, you may appeal. Your appeal should be sent within 30 days from the date you receive this letter to the Deputy Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Room 19-01, 5600 Fishers Lane, Rockville, MD 20857. Clearly mark both the envelope and your letter "Freedom of Information Act Appeal."

Sincerely yours,

Katherine

Premium Class Travel Report

This file is a Microsoft Excel workbook composed of three worksheets (note the three tabs at the bottom of this worksheet). Use the second worksheet (PCTR) to compile premium class travel data for submission to GSA. The last worksheet provides reference values for certain fields on the PCTR data sheet. In order to use this template, you should first make a copy of this file and name it appropriately as to what the contents of the file will be (e.g., DOE_FY2011.xls). You should avoid special characters or spaces in the file name.

Next, on the PCTR sheet, you should enter data rows, conforming to the format defined, or paste data into the sheets from another source if possible. If you are pasting data from another document, you need to ensure that the values in the data sheet are all valid and contained in the attached Reference sheet where necessary. Where possible, fields that must contain exact values have been linked to the reference sheets to provide a drop-down list of values inside the spreadsheet cells. An example data row has been included in row 2 of the PCTR sheet to show what a row of valid data might look like.

When you see a small red triangle symbol in the corner of a column label cell you can place the cursor over that triangle to see embedded instructions or definition for the data element. Also, note that columns with labels presented in a **reddish color** are required fields, while those in **bold black** text are optional at this time.

Purpose Code	
EMG	Employee Emergency: Travel related to an unexpected occurrence/event or injury/illness that affects the employee personally and/or directly that requires immediate action/attention. Examples: Traveler is incapacitated by illness or injury, death or serious illness of a family member (as defined Sec. 300-3.1 or Sec. 301-30.2), or catastrophic occurrence or impending disaster directly affects the employee's home. Emergency travel also includes travel for medical care while employee is TDY away from official duty station (Part 301-30), death employee/immediate family member when performing official duties away from the official duty station or home of record (Part70), medical attendant transportation (Part30), assistance travel for an employee with special needs (Part 301-13), as well as travel threatened law enforcement/investigative employees (Part 301-31).
MSN	Mission (Operational): Travel to a particular site in order to perform operational or managerial activities. Travel to attend a meeting to discuss general agency operations, review status reports, or discuss topics of general interest. Examples: Employee's day-to-day operational or managerial activities, as defined by the agency, to include, but not be limited to: hearings, site visit, information meeting, inspections, audits, investigations, and examinations.
SPC	Special Agency Mission: Travel to carry out a special agency mission and/or perform a task outside the agency's normal course of day-to-day business activities that is unique or distinctive. These special missions are defined by the head of agency and normally not programmed in the agency annual funding authorization. Examples: These agency-defined special missions may include details, security missions, and agency emergency response/recovery such as civil, natural disasters, evacuation, catastrophic events, technical assistance, evaluations or assessments.
CNF	Conference (Other Than Training): performed in connection with training. Consultation or exchange of information or discussion. Agencies to distinguish between conference and training attendance and use the appropriate identifier (see Training below). Examples: To participate in a planned program as a speaker/panelist or other form of presentation, host, planner, or others designated to oversee the conference or attendance with no formal role, or as an exhibitor
TRN	Training: Travel in conjunction with educational activities to become proficient or qualified in one or more areas of responsibility. 5 USC 4101(4) states that ``training' means the process of providing for and making available to an employee, and placing or enrolling the employee in a planned, prepared, and coordinated program, course, curriculum, subject, system, or routine of instruction or education, in scientific, professional, technical, mechanical, trade, clerical, fiscal, administrative, or other fields which will improve individual and organizational performance and assist in achieving the agency's mission and performance goals." The term ``conference" may also apply to training activities that are considered to be conferences under 5 CFR 410.404, which states that ``agencies may sponsor an employee's attendance at a conference as a developmental assignment under section 4110 of title 5, United States Code, when: (a) The announced purpose of the conference is educational or instructional; (b) More than half of the time is scheduled for a planned, organized exchange of information between presenters and audience which meets the definition of training in section 4101 of title 5, United States Code; (c) The content of the conference is germane to improving individual and/or organizational performance, and (d) Development benefits will be derived through the employee's attendance. "Agencies have to distinguish between conference and training attendance and use the appropriate identifier (see Conference--Other Than Training above). Examples: Job required training, Internships, Intergovernmental Personnel Act, and forums.
RLC	Relocation: Travel performed in connection with a transfer from one official duty station to another for employees/immediate family members, as applicable. Examples: Permanent change of station (PCS) moves for domestic and international transferees/new appointees, tour renewal, temporary change of station (TCS), and last move home

2013 Premium Travel Reports

Premium Class Travel Report

This file is a Microsoft Excel workbook composed of three worksheets (note the three tabs at the bottom of this worksheet). Use the second worksheet (PCTR) to compile premium class travel data for submission to GSA. The last worksheet provides reference values for certain fields on the PCTR data sheet. In order to use this template, you should first make a copy of this file and name it appropriately as to what the contents of the file will be (e.g., DOE_FY2011.xls). You should avoid special characters or spaces in the file name.

Next, on the PCTR sheet, you should enter data rows, conforming to the format defined, or paste data into the sheets from another source if possible. If you are pasting data from another document, you need to ensure that the values in the data sheet are all valid and contained in the attached Reference sheet where necessary. Where possible, fields that must contain exact values have been linked to the reference sheets to provide a drop-down list of values inside the spreadsheet cells. An example data row has been included in row 2 of the PCTR sheet to show what a row of valid data might look like.

When you see a small red triangle symbol in the corner of a column label cell you can place the cursor over that triangle to see embedded instructions or definition for the data element. Also, note that columns with labels presented in a **reddish color** are required fields, while those in **bold black** text are optional at this time.

Purpose Code	
EMG	Employee Emergency: Travel related to an unexpected occurrence/event or injury/illness that affects the employee personally and/or directly that requires immediate action/attention. Examples: Traveler is incapacitated by illness or injury, death or serious illness of a family member (as defined Sec. 300-3.1 or Sec. 301-30.2), or catastrophic occurrence or impending disaster directly affects the employee's home. Emergency travel also includes travel for medical care while employee is TDY away from official duty station (Part 301-30), death employee/immediate family member when performing official duties away from the official duty station or home of record (Part70), medical attendant transportation (Part30), assistance travel for an employee with special needs (Part 301-13), as well as travel threatened law enforcement/investigative employees (Part 301-31).
MSN	Mission (Operational): Travel to a particular site in order to perform operational or managerial activities. Travel to attend a meeting to discuss general agency operations, review status reports, or discuss topics of general interest. Examples: Employee's day-to-day operational or managerial activities, as defined by the agency, to include, but not be limited to: hearings, site visit, information meeting, inspections, audits, investigations, and examinations.
SPC	Special Agency Mission: Travel to carry out a special agency mission and/or perform a task outside the agency's normal course of day-to-day business activities that is unique or distinctive. These special missions are defined by the head of agency and normally not programmed in the agency annual funding authorization. Examples: These agency-defined special missions may include details, security missions, and agency emergency response/recovery such as civil, natural disasters, evacuation, catastrophic events, technical assistance, evaluations or assessments.
CNF	Conference (Other Than Training): performed in connection with training. Consultation or exchange of information or discussion. Agencies to distinguish between conference and training attendance and use the appropriate identifier (see Training below). Examples: To participate in a planned program as a speaker/panelist or other form of presentation, host, planner, or others designated to oversee the conference or attendance with no formal role, or as an exhibitor
TRN	Training: Travel in conjunction with educational activities to become proficient or qualified in one or more areas of responsibility. 5 USC 4101(4) states that ``training' means the process of providing for and making available to an employee, and placing or enrolling the employee in a planned, prepared, and coordinated program, course, curriculum, subject, system, or routine of instruction or education, in scientific, professional, technical, mechanical, trade, clerical, fiscal, administrative, or other fields which will improve individual and organizational performance and assist in achieving the agency's mission and performance goals." The term ``conference" may also apply to training activities that are considered to be conferences under 5 CFR 410.404, which states that ``agencies may sponsor an employee's attendance at a conference as a developmental assignment under section 4110 of title 5, United States Code, when: (a) The announced purpose of the conference is educational or instructional; (b) More than half of the time is scheduled for a planned, organized exchange of information between presenters and audience which meets the definition of training in section 4101 of title 5, United States Code; (c) The content of the conference is germane to improving individual and/or organizational performance, and (d) Development benefits will be derived through the employee's attendance. "Agencies have to distinguish between conference and training attendance and use the appropriate identifier (see Conference--Other Than Training above). Examples: Job required training, Internships, Intergovernmental Personnel Act, and forums.
RLC	Relocation: Travel performed in connection with a transfer from one official duty station to another for employees/immediate family members, as applicable. Examples: Permanent change of station (PCS) moves for domestic and international transferees/new appointees, tour renewal, temporary change of station (TCS), and last move home
