**NATIONAL RECONNAISSANCE OFFICE**

14675 Lee Road  
Chantilly, VA 20151-1715

22 November 2016

This is in response to your letter dated 22 October 2016 and received in the National Reconnaissance Office (NRO) on 2 November 2016. Pursuant to Executive Order 13526, Section 3.6, you requested a mandatory declassification review of *"the Mandatory Declassification Review (MDR) Log maintained by the National Reconnaissance Office...2011 to present."*

A thorough search of NRO files and databases located the information you requested. Eight responsive pages are being released to you in part. The names of NRO employees and/or information related to NRO functions and activities are exempt from public release in accordance with the provisions of Section 3.5(c) of E.O. 13526.

You have the right to appeal this determination to the NRO Appellate Authority, 14675 Lee Road, Chantilly, VA 20151-1715, within 90 days of the above date. Should you decide to do this, please explain the basis of your appeal.

If you have any questions, please call the Requester Service Center at (703) 227-9326 and reference case number EOM-2017-00003.

Sincerely,

*for*

## Records on KH-11:

1. Several high-quality photographs of an assembled satellite (for example, a side view and a top view similar to the images of the HEXAGON in a test facility which are set forth in "The HEXAGON Story") - If the size or configuration of the satellite changed significantly over time I would like several photographs of each version.
2. A high-quality line drawing or schematic drawing of the complete satellite with descriptions of the major components - If the major components or configuration of the satellite changed significantly over time I would like a high-quality line drawing or schematic of each version.
3. A document or documents on the image-forming sensors(s) (for example, something similar to the NRO data book on the GAMBIT 3 camera or the NPIC technical publication on the GAMBIT 1 camera, both of which are in "Critical to US Security...") - If no such document exists, I would like a document or documents setting forth information similar to that contained in the "Numerical Summary of GAMBIT 1 Payload" or "Numerical Summary of GAMBIT 3 Payload", both of which are in "The GAMBIT Story." I would like any documents to describe both any light-sensing diodes and CCDs used and the numbers, types, and sizes of the mirrors.
4. A document or documents setting forth the dimensions and weight of the satellite. If these changed significantly over time I would like documents with this information for each version.
5. A document or documents listing the major contractors for the satellite.
6. A document or documents setting forth all or most of the following information: the mission number, launch date, photographic days (operational lifetime), best resolution, and brief remarks for each mission (for example, something similar to the GAMBIT 1 and GAMBIT 3 "Flight Summaries" in "The GAMBIT Story."
