2017-FS-WO-00514-F (ORMS)

Date: DEC 11 2016

This letter is our response to your Freedom of Information Act (FOIA) request dated October 30, 2016 and received October 31, 2016, and assigned FOIA case number 2017-FS-WO-00514-F. You requested "a copy of the Freedom of Information Act APPEALS Log for the Forest Service for the time period since 2009."

In response to your request, Office of Regulatory Management Services FOIA staff employees conducted a search for responsive records in the FOIAXpress database where all FOIA requests are entered and processed. We located 81 pages that are responsive to your FOIA requests.

We have reviewed 81 pages of records; we are releasing 31 pages in full, and we are releasing 50 pages in part with information withheld pursuant to Exemption 6 of the FOIA, 5 U.S.C. § 552(b)(6).

Exemption 6

Exemption 6 of the FOIA requires the Government to withhold all information about individuals in "personnel and medical files and similar files," where the disclosure of such information "would constitute a clearly unwarranted invasion of personal privacy." Exemption 6 also involves a balancing of the public's interest in disclosure against the individual's privacy interest.

We have determined that names and case numbers that related to an individual and any information that pertains to an individual must be withheld pursuant to Exemption 6 of the FOIA. The individuals have a clear privacy interest in the protection of this information, and there is little public interest in its release. The individual privacy rights outweigh the public's interest in this information.

The FOIA provides that requesters pay the reasonable costs for search, review, and duplication of records. Pursuant to Title 7 Code of Federal Regulations (CFR), Subtitle A, Part 1, Subpart A, Appendix A, there are no charges for the records enclosed as we are providing them electronically, and the amount falls below the minimum amount required for the Forest Service to collect fees. This concludes our response to your FOIA request.

This concludes the Forest Service's response to your FOIA request. The FOIA provides you the right to appeal this response. Any appeal must be made in writing, within 90 days from the date of this letter, to the Chief, USDA, Forest Service: 1) by email to wo_foia@fs.fed.us; 2) by regular mail to Mail Stop 1143, 1400 Independence Avenue, SW, Washington, DC 20250-1143; 3) by Fed Ex or UPS to 201 14th Street, SW, Washington, DC 20250-1143 and telephone (202) 205-1542. The term "FOIA APPEAL" should be placed in capital letters on the subject line of the email or on the front of the envelope. To facilitate the processing of your appeal, please include a copy of this letter and/or the FOIA case number assigned to your request.

If you need any further assistance or would like to discuss any aspect of your request please do not hesitate to contact the FOIA Public Liaison at (202) 205-1542. Additionally, you may contact the Office of Government Information Services (OGIS) National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at (202) 741-5770; toll free at 1 (877) 684-6448; or facsimile at (202) 741-5769.

Sincerely,

ANDRIA WEEKS

09/07/2011	11-0049-A	Appeal	08/01/2011	(b)(6)	Private Citizen	Re: OWCP case #'s; (b)(6) Chief, under the Freedom of Information Act, I requested relevant copies of records, emails, documents, notes, phone documentation, and/or documented conversations regarding the agency's rebuttal to the owep claims identified above. The Director of Albuquerque Service Center acting on behalf of the Agency has "again" arbitrarily and capriciously withheld requested information. This is a direct violation of law and regulations and it is a failure to follow your instructions. I requested information specifically produced by the agency. I am aware that I can request information from the Dept. of Labor. However, for the record ASC has indicated that no rebuttal information from the agency exists. The above OWCP and other claims were rebutted by the agency, and correspondence was exchanged with OWCP that was considered in their previous decisions. Chief, as you know I have a right to this information as provided by the laws and regulations of the U.S. Government. I will be providing ASC responses to legal counsel. In addition, I am officially submitting my appeal for your action in directing all parties involved to provide FOIA information as requested.	Closed	09/16/2011

11/09/2011	12-0007-A	Appeal	11/02/2011	Oberstar, David	Fryberber, Buchanan, Smith & Frederick	This is an appeal pursuant to 5 U.S.C. §525, concerning the U.S. Forest Service's refusal to disclose certain documents within its control. The requested documents are information showing the locations of the known goblin fern populations within the Wagner EA project area on the Chippewa National Forest. The agency's refusal to disclose the requested items violates the Federal Freedom of Information Act (FOIA), 5 U.S.C. §552 et. seq. In an FOIA dated August 22, 2011, MFI requested "a shape file	Closed	03/27/2012

						(GIS) showing locations of known goblin fern populations within the Wagner Project area." fThe Regional Forester denied the request, asserting that the information was prohibited from disclosure pursuant to Section 8106(a)(2) of the 2008 Farm Bill (codified as 25 U.S.C. §3056(a)(2)». By this letter, MFI hereby timely appeals the Regional Forester's decision pursuant to 5 U.S.C. §522 and 36 C.F.R. 200.08. MFI does not agree that the requested information is exempt from disclosure and respectfully requests that the Chief reverse the denial of the FOIA request and waive any associated fees.

12/02/2011	12-0010-A	Appeal	12/02/2011	(b)(6)	-	I am hereby appealing the partial denial of FOIA request #11-1965-R per 5 U.S.C. 552(a)(6)(A)(i) RE: Consider Item 2 No evidence or documents showing any abandonment procedures on the 2 County Seasonal Roads noted by the Manistee County Road Commission. No meetings or consultation noted between the Manistee Ranger District and the Manistee County Road Commission until the past few months; and most recent closure/obliteration was done fairly recent and before the DN on Marilla Too Project dated 5/27/11. The HMNF SEIS analysis or review was started well before the DN and should have been taken into account. No demonstrated need for the closures; no evidence of nontypical or potential	Closed	04/06/2012

					<p>resource damage on the Redbridge Fire Tower Road (Scenic Vista at the termination point of the removed fire tower) or Pole Road SE to and including the North Country Trail crossing. Minor culvert exposure on the section of Pole road SE of the intersection of Upper River Road access to the Manistee River (Scenic Vista site). Historical evidence of local use and maps that the roads are traditional travelways and have been used seasonally and have existed well before the 1986 HMNF Plan. 1965 USFS map shows the Pole road as good roads and not a primitive trail or historical road. USGS topo maps show the Pole Road as well as the Manistee County Equalization Department Maps and Planning Commission Maps. Many of the USFS maps dropped recognition of the roads in the area due to the inappropriate designation of this area and agenda of portrail of this area obtaining the DFC as a semi-primitive non-motorized (a de-facto wilderness); along with the non management areas in the OLD GROWTH DESIGN (a de-facto wilderness) Amendment just prior to the 2006 HMNF Revision process since the USFS could not inventory the true OLD Growth on the Forest. Evidence would support a bias on the District Level and Forest Level towards non-motorized recreation as evidenced by; the selection of alternative 7 objectives in the 1986 plan, the various amendments to the 1986 Plan and the 8/11/88 Settlement agreement/concession to the Sierra Club etal., and the preoccupation with The Implementation of The North Country Trail in the 1986 Plan as well as the USFS fostering the congressional approval of the Nordhouse Dunes Wilderness and Bear Swamp in that era. The Congressman supporting/pushing the Nordhouse Dunes was Dale</p>		
--	--	--	--	--	--	--	--

						Kildee from Flint area and was not pushed by the local second congressional representative at that time. I have appealed many project on the Forest for lack of consideration of additional motorized trail with the stock answer that that was beyond the scope of the project and the USFS did not take into consideration any demand analysis for additions to this type of recreation on the Forest. (now with the SEIS process we get a demand analysis for contested uses in the Appeals court.) Item 4 No NEPA documentation related to any site specific project in this area allowing the closure of a County Jurisdiction Road/travelway or any public input solicited related to closures without establishing a demonstrated need. No historical permanent signage in this area to claim USFS jurisdiction or any posting of signs of intent to close the road/travelway related to a site specific project. Disagree with the statement that the work performed in items 2 and 4 was done in 1995. Evidence at the sites would not support this statement and the vegetation condition would point towards a period within the last few years at the longe

02/08/2012	12-0020-A	Appeal	02/08/2012	(b)(6)	-	The redacted information, especially the reference checks, is impacting the transparency of the selection process. Without concrete evidence of what was actually said, I am left to believe that the panel utilized inappropriate information and based decisions upon inaccurate information.... In the Forest	Closed	07/25/2012

						<p>Service Letter dated December 27, 2011, with file code 6270, the Deputy Chief stated that the "current administration policy is that this privilege [Exemption 5] cannot be used to withhold records, unless you can justify in writing a specific "foreseeable harm" to an agency deliberative process. Unless there is a "foreseeable harm" the information must be released." In my FOIA response letter, (b)(6) stated three reasons for using Exemption 5; in my opinion none of these are valid nor applicable. His rationale included: frank discussion between subordinates and supervisors (theoretically, for two of the references, I am the subordinate!); protect against premature disclosure (not relative; the selection has been made); protect against public confusion (by not releasing the information, you are causing confusion.) Once again, there appears to be no foreseeable harm to the agency, and therefore the information should be released. The paragraph concerning Exemption 6 is not relevant as I did not ask for material concerning anyone other than myself. Once again, without this information there is no transparency and I am left to believe that some unethical actions occurred. (The selected person is local---maybe the person who conducted reference checks knew them and changed reference responses to eliminate some competition?!) I look forward to receiving the originally requested information so that I can better determine how to proceed.</p>

04/27/2012	12-0034-A	Appeal	04/27/2012	Jackson, Philip	-	This is an appeal of the response to Items 5 through 8. I requested specific regulations, rules, written policies, documents or other information relating to the requested items. The response was that "our handbook and manual regarding the 5400 Landownership contains the information you request and is publicly available on our website." I have carefully reviewed the referenced Manual and Handbook and cannot find any specific information relating to my request for any of the items. Please cite those sections of the Manual and Handbook or	Closed	06/12/2012

						any other sources which could provide the information requested. I do appreciate the answers to Items 9 and 10. The answer to Item 9 raises another question and I would greatly appreciate an answer if possible. I don't know if Mr. Smith received the first part of my request which describes the existing status and condition of the road. To briefly summarize, the road has not been maintained for several years and is unusable by motorized vehicles. The forest area served by the former road is closed to motorized vehicles by a permanently closed gate, and the former road is now designated as Joplin Trail. You answered that the ability of the U.S. to convey its interest to other parties depends on the wording of the original instrument. The interest conveyed in the original easement document is for an existing road. Since the road no longer physically exists, it seems that technically the USA has no rights to convey. Do I correctly interpret your answer to mean that it can only convey its rights for an existing road and no other use? The response letter, dated March 16, 2012 contained the following information: In regard to items 5 through 8, our handbook and manual regarding the 5400 Landownership contains the information you request and is publicly available at our website. A copy of our Manual is available at http://www.fs.fed.us/cgi-bin/Directives.get_dirs/fsm?5400 and the Handbook is available at http://www.fs.fed.us/im/directives/dughtml/fsh5000.html .		
05/08/2012	12-0035-A	Appeal	05/07/2012	Pawar, Aditya	Goldwater Institute in Defense of Liberty	Appealing denial of fee waiver I am writing to appeal the Regional Forester's decision to deny our request for fee waiver. The request for fee waiver was improperly denied. The City of Tombstone is in litigation with the Forest Service, not the Goldwater	Closed	10/01/2012

					<p>Institute. In concluding that factors five and six are not met, the Regional Forester stated curtly: "The fact that the Goldwater Institute is currently under litigation with the Forest Service shows a commercial interest." The Goldwater Institute is not in litigation with the Forest Service. As we stated, the Goldwater Institute is a non-profit educational organization. It employs scholars who routinely conduct independent research, request public records, and write policy studies, daily emails, daily blog posts, give interviews for radio and television news stations. The litigation department represents clients without charge. Two attorneys who work at the Goldwater Institute- (b)(6) and (b)(6)-are currently representing the City of Tombstone in its lawsuit against the Forest Service and other defendants. The Goldwater Institute itself is not in litigation with the Forest Service. Additionally, the Goldwater Institute is representing the City of Tombstone without charge. As is evident; there is absolutely no commercial interest accruing to the Goldwater Institute. The Regional Forester's bare assertion is without merit. There is no commercial interest in public interest litigation. Furthermore, there is no commercial interest in public interest litigation. The pending lawsuit between the City of Tombstone and the Forest Service seeks to restore a city's water supply. The litigation is purely in the public interest because the public health and safety of the residents of the City of Tombstone is at risk every single day that the outcome of the litigation is pending. Contrary to the Regional Forester's conclusion, disclosure is in the public interest and likely to contribute</p>	
--	--	--	--	--	--	--

						<p>to an understanding of government operations or activities. In the letter denying our request for fee waiver, and in response to the explanation we offered regarding the second factor, the Regional Forester stated: "You do not explain how records from 1908 to present defining ecosystem conditions within a 20-mile radius of a designated wilderness area will be used to make this "connection." There is also no explanation of the nature of the "effects" on local government that will be evidenced by the disclosure of the requested records." Public health and safety is being threatened by the Forest Service's refusal to permit the repair of critical water infrastructure. It is our belief that the Forest Service intends to justify that refusal based on environmental concerns. The only way to assess this justification is to seek a complete record of the nature of what those concerns might be, which is precisely what our request does. It is clear error for the Forest Service to refuse to recognize the clear relevancy of the entire history of environmental findings within the designated wilderness to assessing the legitimacy of the Forest Service's actions. Additionally, in concluding that the "Goldwater Institute has not met factor 2," the Regional Forester reasoned that "information was not provided on how the information will be disseminated to the public 'across the 50 states.'" However, the Forest Service guidelines available on its website, which we followed while requesting a fee waiver, do not require the requester to show exactly "how the information will</p>

					<p>Southwest Region Law Enforcement and Investigations. My client, (b)(6), was badly injured in a motorcycle accident in Cleveland National Forest. I am attempting to identify the witnesses to the incident and the individuals who assisted him after his fall. As you can see from the attached Incident Report, the Forest Service redacted the names of all witnesses. As justification for the redaction, the Forest Service cites 5 U.S.C. § 552(b)(6). This section exempts from FOIA disclosure "matters that are . . . personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy." (5 U.S.C. § 552(b)(6).) I am appealing the Forest Service's redaction on three grounds. First, the information I requested is not contained in a personnel, medical, or similar file. These names are contained within an incident report. Thus, the threshold determination for section (b)(6) exemption is not satisfied. Second, the disclosure of these names in no way constitutes "a clearly unwarranted invasion of personal privacy." According to Department of Justice guidelines, this second component of exemption (b)(6) "requires a balancing of the public's right to disclosure against the individual's right to privacy. First, it must be ascertained whether a protectible privacy interest exists that would be threatened by disclosure. If no privacy interest is found, further analysis is unnecessary and the information at issue must be disclosed." (See http://www.justice.gov/oip/exemption6.htm; see also Dept. of Air Force v. Rose (1976) 425 U.S. 352, 372; Fund for Constitutional Gov't v. Nat'l Archives & Records Serv., 656 F.2d 856, 862 (D.C. Cir. 1981).) FOIA shields the</p>	
--	--	--	--	--	--	--

						disclosure of Social Security Numbers, medical information, or, in some cases, criminal records. Nothing about riding your motorcycle on public land in the middle of day even suggests personal, intimate, or protected information. The regional office of the Forest Service seems to interpret section (b)(6) as prohibiting the disclosure of any and all names. This is inaccurate. Indeed, what I have requested is not personal information at all; there is nothing about these individuals I can discern from an un-redacted Incident Report, merely who they are. Finally, the overall purpose of FOIA is to encourage disclosure of information whenever possible. I ask that in the spirit of disclosure you reconsider the actions of the regional Forest Service office.		
06/25/2012	12-0052-A	Appeal	06/25/2012	Norman, Gary	-	Appealing the denial or information - to make available the requested information in the Forest Service possession per 5 USC 552(a)3(A)(i) as it pertains to the request for information about sites (caves) selected by the Forest Service that determine primary and secondary zones under the proposed Indiana Bat Restoration Project. The extent of the request was to determine into which zone private property would fall and therefore which rules and regulations would apply to private property under the Forest Service's proposed Indiana Bat Habitat Project.	Closed	07/12/2012
07/03/2012	12-0053-A	Appeal	07/03/2012	Norman, Gary	-	Appealing Ranger Jim McCoy, Ozark National Forest, May 15, 2012, decision (Region 8) regarding Indiana Bat Restoration and location of caves.	Closed	08/20/2012

07/09/2012	12-0055-A	Appeal	07/06/2012	LiMandri, Charles	Law Offices of Charles S. LiMandri	FOIA request. Please consider this an appeal of the FOIA response, dated May 31, 2012, to our previous request for documents in the above-captioned matter. As indicated in the letter from Regional Forester Randy Moore of that date, we have followed-up with (b)(6) Regional FOIA Coordinator, via the e-mails attached below. (b)(6) has been very polite and cooperative but the additional information that we requested from her on June 7, 2012 has not yet been provided. Also, it appears to us that a great many other records were withheld including witness statements concerning the subject accident, including those with names and addresses redacted. Therefore, we wanted to get our appeal timely on record so as to not inadvertently waive any rights that our client might have to this information. 07/24/2012	12-0056-A	Appeal	07/20/2012	Jones, Michael	-	Non responsive to PA request 12-1601-R	Closed	08/21/2012
07/30/2012	12-0057-A	Appeal	07/30/2012	Bressman, David	Bressman Law	An appeal is being regarding the misapplication of the FOIA to the accident involving client, (b)(6). The appeal is based upon: Not receiving a final response determination within the statutory time limits; A challenge of the agency's interpretation of the request; or Any determination the requester believes to be adverse in nature.	Closed	03/07/2013
07/25/2012	12-0058-A	Appeal	07/17/2012	Magana, Bertha	California Appellate Project	(b)(6) requested under the Freedom of Information Act any reports, communications, or other documents relating to prior Forest Service employee, (b)(6). Specifically, (b)(6) requested an 11-page report that Forest Service special agent (b)(6) wrote regarding (b)(6) in July 2008 (referenced in a Press-Enterprise article published on November 21,	Closed	01/16/2013

					2008, entitled "Another suspect was looked at in Esperanza fire probe"). (b)(7)(C) received a response, signed by Acting Director of Human Resources Management, Roy M. Roosevelt, denying Item 4 of her request. Mr. Roosevelt cited Exemption 6 of the FOIA, stating that "lacking an individual's consent, proof of death, or an overriding public interest," he could neither confirm nor deny the existence of these investigative records. I appeal this denial of our organization's FOIA request. A copy of (b)(6) FOIA request and the agency determination which is the subject of this appeal is attached for your convenience. The documents that were withheld should be disclosed under FOIA because the public interest surrounding this matter greatly outweighs (b)(6) individual interest in privacy. Exemption

07/18/2013	13-0001-A	Appeal	09/24/2012	Patterson, David	-	1. The records were not produced in the time frame allotted from the time of my initial request as afforded by law. 2. I requested that I be contacted if the sourcing of	Closed	07/18/2013

						these records were to exceed \$50 in cost. 3. Nobody contacted me until the search and sourcing of these records were already performed and then I was presented with a bill for \$318.20 with no accounting for hours or the hourly rate of a staff assistant. 4. I have had contact with Tammy Randall-Parker as well as information specialist Bo Wood regarding the files that are according to Bo – over two feet thick in paper in only complaints. The presented files after printing on my computer barely total a quarter inch in paper thickness. 5. Randall-Parker was quoted in the Ouray County News Paper to come down and see the record on (b)(6) if anyone wanted to know the “true character” of the man behind San Juan Hut Systems. Randall-Parker also stated that the records were over two feet in paper thickness, just in complaints and citations. Therefore I do not agree with your determination and am re-soliciting the entire record – in particular the internal records that should exist with annual reports and any and all complaints, threats and intimidation to Forest Service Employees, contractors, and or clients of the San Juan Hut System. At this time I am only willing to pay \$50 since I was not contacted prior to the search. Furthermore I am requesting that any files that were withheld by made available immediately.

10/09/2012	13-0004-A	Appeal	10/09/2012	(b)(6)	-	<p>I hereby am requesting a FOIA Appeal. Control Number (b)(6) (b)(6) It appears that my requested District Personnel File is inadequate. There appears to be a substantial amount of Documents, especially those documents related to my training missing. There is either a destruction of evidence or the file is missing as I have been told through current employees located at the office. (b)(6) (b)(6) had requested the search of my district file on 9/13/2012 with employee (b)(6) It seems my file has disappeared conveniently, and I am requesting this file be found and that my file is received by me through this FOIA Appeal process. Upon my resignation, I requested my district personnel file on two separate occasions with employee (b)(6), in which she stated it would be mailed to me. Since then I have not received my file, and I have since requested it initially through (b)(6) (b)(6) several times throughout email exchanges, and then through FOIA v..ith in between communication with (b)(6) and (b)(6) as well as (b)(6) Additionally on August 1, 2012 I requested the Misconduct Investigation conducted on the (b)(6) R.D. from the week of December 21st, 2009. Specifically (b)(6) prohibited personnel actions. It is stated that I am a third party requester. I Vvish to appeal this, as the record does directly pertain to me, as I have been reprised against due</p>	Closed	09/29/2014

					to my -vitness affidavit in the Report of Investigation. I was assured that my affidavit was confidential, which it was not. This is of great interest of many employees who have been reprised against in th.is investigation from their affidavits. These records (b)(6) I am certain there is an overriding of public interest in this investigation. It is perfectly acceptable to redact names, and any findings in this investigation, however, I am requesting the appeal be granted and the ROI affidavits be granted to me. I thank you for your time and efforts in this matter. Best Regards, (b)(6) (b)(6)			
10/25/2012	13-0005-A	Appeal	10/19/2012	(b)(6)	Private Individual	Appealing denial of fee waiver and withholding of documents. Request for waiver or reduction of fees I am requesting a waiver of fees because my request meets the following six fee waiver requirements: 1. The subject matter of the requested record concerns identifiable "operations or activities of the government." I am seeking the records for their informative value with respect to government hiring procedures and activities because I intend to write a publishable report on age discrimination within the federal agency. This information can only be obtained through FOIA. I am not requesting these records for their intrinsic information value. 2. The disclosure is "likely to contribute" to an understanding of specific government operations or activities because the requested information will be meaningfully informative in relation to the subject matter of the requested information. The information is not in the public domain and warrants a full fee waiver because the disclosure of this information will contribute to an understanding of government operations or hiring activities.	Closed	05/31/2013

					<p>3. The documents will not be of personal benefit to me. Writing an expository not-for-profit article about age discrimination in federal hiring practices will be of benefit to the public. My identity as a federal employee has been validated. My qualifications as a former professional paralegal (25 years' experience, five of which was with the USFS) and professional writer (MS Technical and Professional Writing) are documented and my employment as a natural resources planner involves writing environmental documents on behalf of the USFS. I have the expertise in the subject area to disseminate the information to the public. Therefore, the public will benefit from the records disclosed to me, with which I will use to write an expository article. 4. The disclosure of the requested document will contribute "significantly" to public understanding of government operations or activities, compared to the level of public understanding prior to the disclosure. There are few articles in the public domain that address statistically the topic of age discrimination in government hiring practices. In <i>McClellan Ecological Seepage Situation v. Cariucci</i>, 835 F.2d at 1286, the court made clear that "[FOIA] legislative history suggests that information [has more potential to contribute to public understanding] to the degree that the information is new and supports public oversight of agency operations...." The public understanding of the subject matter will be enhanced to a significant extent by information obtained from the disclosure of the requested documents. The release of this information is, in fact, certain to contribute to better public understanding of the Forest Service's operations and hiring practices. The public is always well-served when it knows how government hiring</p>	
--	--	--	--	--	--	--

						has been conducted. I do not intend to release personally identifiable information in my articles, nor disclose individual names. The federal agency is not permitted to make separate value judgments with regard to whether the information would contribute to public understanding of government operations or activities, or whether the documents are important enough to be made public. 5. My document request does not serve any "commercial interest of the requester" that would be furthered by the disclosure. The article I intend to publish will not result in a profit and I am not engaged in writing as a commercial enterprise. 6. Because I have no comme		
10/25/2012	13-0006-A	Appeal	10/18/2012	Weitz, Steve	David Morse & Associates	Please be advised that we represent the interests of Colony Specialty, Master Builder Group's general liability insurance carrier with regard to a cabin fire at the above captioned location and date. It is our understanding your agency has jurisdiction over this matter. We had requested a copy of your office's investigative report which was declined for the time being due to ongoing investigation as outlined in your local office's attached October 6, 2012 letter. We are appealing due to this dwelling's complete burn (leaving no evidence for the usual fire ensuing investigation) and that Master Builder Group, the on-site contractor is being blamed for the fire's cause. Your office's report would have a great deal of bearing and relevancy to our office's investigation and Colony's ultimate liability determination. Such would save the time and expense of subpoenaing and deposing your office's personnel should this matter lead to litigation. In addition, the on-site contracting personnel have not been responsive to date. Estimated damages could exceed \$30,000. Therefore we ask that you thoroughly	Closed	12/11/2012

						consider this appeal and forward us your office's investigative report, especially as it concerns the origin of this fire.

01/02/2013	2013-FS-HQ-00053-A	Appeal	12/26/2012	(b)(6)	Private Individual	This letter is my official appeal of the Freedom of Information Act Request decision, Control Number (b)(6). Complying with Federal Jaws is required of "Everyone" and failure to	Closed	07/10/2013

A					<p>comply with the Uniform Guidelines on Employee Selection Procedures (UGESP) and other EEO laws violates my rights. Therefore, I appeal the final decision. Furthermore, it is not possible that a reasonably knowledgeable human resources professional would not expect to and not find staffing, weighted applications and EEO statistical reporting information pertaining to my FOIA request when the agency's own official documented final response and supporting documents indicates/verifies and does not dispute that (1) an open position did exist for Job Announcement 12-1151060005-3328G-JA, (2) recruitment was conducted, (3) job applications were received, (4) an approach/method for determining qualified and unqualified applicants was used (whether the weighted application method was used or not), (5) applicants were selected and preferred to the hiring authority (whether ranking, minimum competency, banding or some other type of comparable hiring standard and cut scores method was used or not), (6) applicants were scheduled to and/or did receive interviews were notified, and (7) applicants supposedly received notice that the position was canceled due to budget constraints, after the facts. So, not only is it not possible to expect to and not find simple records that are required Federal laws to be maintained and used to perfect, meet and obey the UGESP and equal employment opportunity (EEO) goals and laws, it is unreasonable unbelievable that any human resources professional would even consider implying/stating that staffing did occur, and then, in the same official documented response, imply/state that it did not occur. Moreover, a reasonably technical</p>		
-------------------	--	--	--	--	---	--	--

						knowledgeable human resources professional would know that cancellations of job announcements or stating that positions are cancelled is an old often used human resources practice that (1) Prevents qualified individuals from being hired in favor of unlawful personally preferred individuals (2) Do not support officials and authority of initiatives and directives such as Executive Orders 13518 and J 3583 when they disagree with them for whatever reason(s) Conceal violations of Federal equal employment opportunity laws, particularly the Uniform Guidelines on Selection Procedures from higher level officials, authority and individual job applicants

	00059-A					the search for the appropriate records is not adequate. I am appealing your response and once again requesting that you provide me with the data, information, and analysis for the above subject area. As an example no data, information or analysis was provided that this guidance is in compliance with laws, regulations, Land and Resource Management Plans, or provide any evidence that maximum suppression effort would result in lower fire management costs. Again, I request that you send me the information that I previously requested on the effectiveness of the LAT program. As an example no data, information, or analysis was provided that this program is cost effective and a good buy for the taxpayers.

05/08/2013	2013- FS- HQ- 00145- A	Appeal	05/06/2013	(b)(6)	- Under the Freedom of Information Act (5 U.S.C. Section 552), I requested five separate FOIA requests that your department combined to a single request. I am not certain, but apparently combining separate requests to one, may be disadvantageous to requesting party and increases the fee. The documents I requested came to be five documents, because prior disclosures or additional research and unexpected events necessitated the documents. When I did send few of the separate requests in one e-mail, the intention was to assist you administratively; I was unaware that this would adversely affect the fees by loss of two hours and 100 pages. I also have some concerns about duplication. Many of the individuals in a given request most likely have duplicate documents. I am hoping duplication elimination may also assist with fee waiver or reduction. In each request, I had agreed to pay certain amount, which totals to \$225.00 in fees, should the fee waiver be rejected for some of all my requests, I still agree to pay the initial fee of \$225.00. It should be noted that today I paid \$226.00 for a prior request without raising any objections, but the \$546.00 fee, to be paid in lump sum is simply out of my budget and it	Closed	06/17/2013

						would create substantial financial hardship, as it may with many single income households with Government salary.		
12/17/2012	2013-FS-HQ-00149-A	Appeal	12/16/2012	Ahern, Richard	-	appealing the acting Southwestern Regional Forester's November 9, 2012, withholding of portions of 20 pages of the Nevada Gold Corporation's Plan of Operation under FOIA Exemption 4, 5 U.S.C. 552(b)(4).	Closed	03/27/2014

08/14/2013	2013-FS-HQ-00210-A	Appeal	08/13/2013	Borninski, Jack -		<p>The basis of my appeal are: NON RESPONSIVE. My FOIA request clearly stated: Please provide me with copies of the following items: provide me with copies of all grazing permits issued for the affected area that resulted in the cattle being placed there in 2012 and/or 2013, and identify the MJ/JJ owners of the cattle currently present there. The affected area is located on the Guadalupe Ranger District, and it has been clearly defined in my 5-30-13 letter to Mr. Tom Tidwell and my 6-7-13 email to (b)(6). I include this letter herein by reference, and I understand this letter is in your possession (see (b)(6) (b)(6)). My referenced 5-30-13 letter to Mr. Tom Tidwell that clearly defines the affected area is in possession by your employees (b)(6) and (b)(6), thus a clear definition of the affected area is in possession of these responders to my FOIA request, as follows. Additionally, (b)(6) was sent several photographs further defining the affected area, and he communicated to me that he understands where the affected area is located. In this APPEAL I again ask for all originally-requested records concerning the AFFECTED AREA only, as previously defined to your FOIA responders and as defined again above.</p>	Closed	08/08/2014

I appeal Forest Supervisor Kathleen Klein's August 16, 2013 decision to deny my fee category claim of all others. I spite of my certification which I made in the FIOA request that the information I requested would not be used for commercial purposes, Ms. Klein placed my request in that category. I requested documents related to inspections of communications facilities on Forest Service land so I could be better informed about the policies and practices Forest Service	Closed	08/07/2014

						employees follow in managing communications facilities on Forest Service land. Ms. Klein made no effort to determine that I would put the information to a commercial use as required by the regulations or even offer an explanation as to how one could profit from this information. I request you order Ms. Klein to furnish the documents I requested under the fee category for all others.		
11/25/2013	2013-FS-WO-00227-A	Appeal	09/22/2013	Oberdorfer, Richard	Western Radio Services Co.	I appeal Forest Supervisor John Allen's August 16, 2013 decision to deny my fee category claim of all others. I spite of my certification which I made in the FIOA request that the information I requested would not be used for commercial purposes, Mr. Allen placed my request in that category. I requested documents related to inspections of communications facilities on Forest Service land so I could be better informed about the policies and practices Forest Service employees follow in managing communications facilities on Forest Service land. Mr. Allen made no effort to determine that I would put the information to a commercial use as required by the regulations or even offer an explanation as to how one could profit from this information. I request you order Mr. Allen to furnish the documents I requested under the fee category for all others.	Closed	08/07/2014
