(2) The check can be sent to the Department of State Charleston or Bangkok Financial Service Center, where it is processed for deposit and entered into the overseas financial system.

(3) The check can be scanned to the Federal Reserve Bank for deposit. The information regarding the deposit (transmittal number, transmitted amount, post code and cashier code) is provided to the Department of State Financial Service Center and is recorded in the overseas financial system.

b. Cash collections are accepted at overseas posts and are placed into the Imprest Fund, thereby increasing the cashier's accountability. A form within the WinACS system used for Imprest Funds at overseas sites is completed by the cashier. The cash is transferred to the cashier's cash advance in order to reduce replenishment requests (4 FAH 396.5). WinACS permits the cashier to transfer up to the amount of cash on hand.

### 206 CASHIER OPERATIONS

#### 206.1 Responsibility for Cashier Policies and Procedures

a. The Director, OFO, is responsible for promulgating and publishing policies and procedures for cashier operations.

b. Policies and regulations established by law, the Department of the Treasury, the Government Accountability Office, and by this and other referenced Broadcasting Administrative Manual (BAM)

sections may not be changed or waived by the cashier, the cashier's supervisor, or any employee at an overseas post or office in the United States. BBG policies and procedures are based on specific legislative authorities, regulations, and good management practices. Changes and exceptions to the policies and procedures for cashier operations can only be considered when they do not violate statutory authorities, Federal regulations, or other governing authorities.

c. Post or bureau officials seeking a change or exception to any provision in Part 200, Cash Management, should contact the Director, OFO.

#### 206.2 Custody or Possession of Public Money

a. Except as provided by another law, an official or agent of the United States Government having custody or possession of public money shall keep the money safe without:

- (1) Lending the money;
- (2) Using the money;
- (3) Depositing the money in a personal account; and/or
- (4) Exchanging the money for other amounts, without specific authorization.

b. A person having custody or possession of public money, including any official having public money not for current expenditure, shall submit deposits of money without delay to the Treasury or a depository designated by the Secretary of the Treasury under law.

c. An official or agent of the Government having custody or possession of public money shall keep an accurate entry of each amount of public money received, transferred, and paid.

d. An official or agent not complying with this section may be removed from office and/or may be required to forfeit, to the Government, any part of the money held by the official or agent (to which they may be entitled) (31 U.S.C. 3302).

206.3 Supervisory Responsibility -At overseas locations, the correspondent or Station Manager, and, at domestic locations, the International Broadcasting Bureau (IBB) Director or his/her designee, has general supervisory responsibility for the financial management functions of the Imprest Fund maintained at their location. These responsibilities are to:

a. Ensure adequate equipment and secure facilities are provided for performance of disbursing and cashier operations;

b. Ensure personnel selected to perform cash management functions of disbursing, cashing, or collecting of funds are made aware of their accountability, responsibility and liability and are adequately trained to perform the function;

c. At overseas locations, ensure personnel are following specific instruction given to them by their respective USDO. Overseas Imprest Funds are guided by the Charleston and Bangkok Financial Service Centers;

d. Ensure regular hours are established during the official workday, and that such hours are conducive to the work environment for that particular location and allow sufficient time for the proper maintenance of official accounting records, verification functions, and preparation of fiscal reports as required;

e. Ensure reconciliation reports are filed with the USDO in a timely manner and a copy is being forwarded to OFO.

f. Investigate all suspected or alleged shortages or overages of cash or misuse of official funds and report such cases which cannot be satisfactorily resolved within 24 hours after discovery, to the BBG, OFO and, in the case of overseas Imprest Funds, their respective USDO.

g. Supervisory personnel failing to carry out the basic responsibility to assure protection of U.S. funds from waste, fraud, or misuse may be held personally liable for the repayment of the loss and/or may be subject to disciplinary action by the BBG.

206.4 Cashier Monitors – Overseas Imprest Funds - All overseas cashiers report to an individual cashier monitor (i.e., an employee working for the USDO) either at the Charleston Financial Service Center or at the Bangkok Financial Service Center. The Charleston and Bangkok Financial Service Centers are in contact with these monitors, who receive copies of all records and forms that the cashier sends to the Financial Service Centers.

206.5 Waiver Authority to Maintain Imprest Funds - In accordance with the Treasury FMS Directive cited in Section 202.16 the BBG continues to maintain Imprest Funds. Although FMS has directed that Imprest Funds be eliminated, the BBG is entitled to a waiver based on the following factors:

- a. Payments by EFT are waived in accordance the provisions of 31 CFR 208, Management of Federal Agency Disbursements, at Section 208.4; and
- b. The amount of each payment is less than \$25; or
- c. The political, financial, or communications infrastructure of a foreign country does not support payment by a noncash mechanism.

The BBG maintains written certification that our Imprest Funds meet one of the criteria above, which is filed in the OFO and is available for inspection and audit.

#### 206.6 Establishing a Cashier Operation

##### a. Action by Requesting Office

(1) A bureau chief or official of equal or higher rank requests, in writing, that the OFO establishes an Imprest Fund and recommends the employee to be designated as cashier and alternate cashier. One or more alternate cashiers should be named for each cashier, if possible.

(2) The request contains a brief justification that indicates the types of transactions and describes why the Imprest Fund is desirable. Normally, a Class A type operation is requested. If a Class B type is requested, the need for sub-cashiers should be explained. Each request shows the name, office, title of position, and office mailing address of the employees recommended to be the cashier, alternate cashier, and sub-cashier (if appropriate), the safekeeping facilities to be provided, and the estimated total amount of monthly expenditures to be made.

##### b. Action by the Office of Financial Operations

(1) The Director, OFO, determines if establishing a cashier operation is justified and in the best interest of the Government. The Director also determines, in consultation with the Office of Security, as appropriate, if facilities for safeguarding cash are adequate. BBG will not establish a cashier operation unless adequate safeguarding facilities are available. In consultation with the requesting office, the Director, OFO, will also determine the amount to be authorized and advanced, based on criteria suggested by the Treasury Department.

(2) The Director, OFO, prepares and signs SF-211, Request for Change or Establishment of Imprest Fund, for the designation of the principle and alternate cashiers.

(3) If OFO approves a request for a sub-cashier, it advises the sub-cashier by memorandum, with a copy to the Class B cashier.

(4) If OFO does not approve a request for cashier operation, it notifies the requesting official, in writing, stating the reason for the disapproval.

(5) A written request for advance of funds, with an attached approved copy of the SF-211, is forwarded for scheduling to the Treasury Regional Finance Center, or the USDO at the Charleston or Bangkok Financial Service Centers, on a SF-1166, Voucher and Schedule of Payments.

(6) Upon receipt of advance of funds check(s), OFO forwards check(s) to the designated cashier.

#### 206.7 Safekeeping, Training and Responsibility for Funds

##### a. Providing Approved Safekeeping Facilities

(1) The official who requests an Imprest Fund is personally responsible for assuring that approved safekeeping equipment is provided to the cashier for maintaining maximum security of the cash funds and receipts at all times. Cashiers for all classes (principal, alternate, or sub-cashier) must be provided separate safekeeping facilities.

(2) The safekeeping equipment must consist of a safe, or a combination and bar lock file cabinet within the cashier's office and a key lock cash drawer, in which the cash and receipts can be secured when not in the hands of the cashier. Cash may not be stored in file cabinets with key locks, the cashier's or any other employee's desk drawer, depositories in cashier's name only, or safe deposit boxes in cashier's name only.

##### b. Adequate Training for Cashiers

(1) Copies of the Cash Management Section of the BAM will be sent, along with the approved copy of the SF-211, to each newly designated cashier.

(2) The supervisor requesting the designation should ensure on-the-job training is given to the new cashier by the other cashier (principal/alternate) in that office.

(3) In the case of an overseas Imprest Fund, the User's Manual for WinACS, Automated Cashiers System will be provided to the cashier.

##### c. Supervisory Official's Responsibilities

(1) The supervisory official should assure that proper internal controls are established and maintained throughout each workday to protect the integrity of the cash and receipts. The following must be observed:

(2) No person other than the cashier assigned to the safekeeping equipment by the Office of Security is authorized physical access to the contents at any time.

(3) Whenever the cashier is absent from the immediate area, even for the briefest time, the cash drawer, receipts, etc., must be kept in his/her locked designated safe or combination and bar lock file cabinet.

(4) Arrangements must be made to adequately protect the cash funds and receipts during business hours, and at the same time, permit access to other file cabinets and records for the uninterrupted conduct of official business.

(5) The supervisory official should, from time to time, assure himself/herself that the cashier personally maintains maximum standards of security of the cash funds and receipts in his/her custody.

(6) Whenever there is a change of cashier, or when the combination has been compromised, the official must notify the Office of Security immediately for further guidance. In addition, upon discovery of a loss,

shortage, or theft of Imprest Funds, the supervisory official must immediately report all facts to the Director, OFO.

(7) The supervisor should make certain that adequate training has been given to his/her cashiers.

(8) The supervisory official is responsible for ensuring cash verifications and audits are performed as required.

(9) The supervisor is required to certify that he/she has read and understood the BAM, Title 7, Part 200, Section 206, Cashier Operations. A copy of this certification is to be submitted to OFO:

#### CERTIFICATION FOR SUPERVISOR

I certify that I have read the Broadcasting Administrative Manual, Title 7, Part 200, Section 206, Cashier Operations, and understand my duties and responsibilities as supervisor of the cashier(s) and also understand the duties and responsibilities of the cashier(s).

\_\_\_\_\_

Printed Name

\_\_\_\_\_  
Position Title

#### d. Cashier's Responsibilities

(1) A cashier is personally liable (legally responsible) for the custody and safeguarding of funds, receipts, and records of cash payments. He/she must take the following precautions:

- Verify the funds at frequent intervals and immediately report any shortages or overages to his/her supervisor for reporting to the designated officer.
- Advise supervisory official when an Imprest Fund is in excess of needs, so that the fund may be maintained at the lowest practical level.
- Keep all cash (currency and coins), advance of funds check(s), receipts, replenishment vouchers (FSC-27), statement of advances to alternate cashier, and sub-vouchers on hand in the designated safekeeping facility, accessible only to himself/herself.
- Make payments and advance funds only to authorized approving officials or those employees who have been given authority to receive funds by an authorized approving official.
- Request a number of small checks when requesting replenishment of his/her fund, in order to keep cash on hand to a minimum.
- Avoid commingling of Imprest Funds with other official or personal funds.

- During brief temporary absences from the immediate area, all cash, advance of funds check(s), receipts, etc. must be placed in the cashier's own safekeeping facility and locked. A locked desk drawer is inadequate for this purpose.
- Adhere to the basic procedures governing cashier operations in the applicable parts of the BAM.

(2) The cashier's responsibility for advanced funds continues from the time he/she receives the funds until proper and acceptable accounting is made, either to the officer who advanced the funds or another officer directed to receive the accounting for the advance.

(3) In the event of loss, shortage, or theft of Imprest Funds, including funds held by sub-cashiers, all facts concerning the loss, shortage, or theft should be reported immediately to the supervisor for further action.

(4) The cashier is personally responsible for any shortages, and, if directed, must replace any losses for which they have been found liable. Any overages are deposited to Miscellaneous Receipt Account 3220.

(5) Each cashier is required to certify that he/she has read and understood the BAM, Title 7, Part 200, Section 206, Cashier Operations. A copy of the certification is to be submitted to the OFO.

#### CERTIFICATION FOR CASHIER

I certify that I have read the Broadcasting Administrative Manual, Title 7, Part 200, Section 206, Cashier Operations, and understand my duties and responsibilities as a cashier of the BBG Imprest Fund.

Cashier

#### e. Access to Cashier's Funds and Records

(1) During the Absence of a Cashier – If the responsible supervisor determines that access to the cashier's funds is required, he/she will notify the Office of Security. The only other person/office authorized to gain access to the cashier's records and funds is the Office of Security, while in the presence of the responsible supervisory official.

(2) During Cash Verifications and Audits – A cashier makes available all necessary funds and documents to permit cash verifications and audits of his/her account, as required under Section 206.10, Verification and Audit of Imprest Funds, below.

#### 206.8 Use of Imprest Fund

##### a. Delegation of Authority for Payment

(1) Cashiers will make payment for goods and services only if the requisition or other equivalent document is signed by a properly authorized approving official, attesting to the propriety of the procurement. Such authority may not be delegated to an employee acting as a cashier, alternate cashier, or sub-cashier.

(2) A Signature Card for authorized approving officials must be on file with cashier. It will be the responsibility of each Administrative Officer to assure that updated signature cards are on file with the Imprest Fund cashier. Documents signed by an unauthorized official will not be honored by the cashier.

## b. Monetary and Other Limitations

(1) Monetary Limitations – Domestic cashiers are authorized to make payments not to exceed \$25 for any single transaction; overseas cashiers are authorized to make payments not to exceed \$500 for any single transaction. Receipts may not be split to evade these limitations. Emergency, one-time exceptions for a single transaction in excess of \$25, domestically, may be approved by the Director, OFO. If the Director, OFO is absent, the individual acting in his/her position will be the approving official. A waiver may also be obtained from the Director, OFO, for cash payments exceeding \$500 overseas.

### (2) Other Limitations include

- Imprest Funds may not be used for payment of salaries or wages; payment of transaction charges for persons or things other than local travel or drayage; advances; change-making purposes; or cashing checks or other negotiable instruments.
- Use of Imprest Funds for payment of money orders is limited to transactions where an appropriate receipt can be obtained and returned to the cashier within five workdays from the date of the money order advance.
- Except in justified emergencies, payments may not be made from Imprest Funds for articles or services in quantities or amounts which are covered by mandatory contracts or mandatory sources of supply.
- Articles or services, which under any provision of law are subject to restrictions, may not be purchased under conditions which do not fully comply with statutory requirements.

c. Types of Purchases Authorized for Cash Payments – Cashiers are authorized to make cash payments or to entrust on a receipt basis sufficient cash to an authorized employee for the following types of purchases:

(1) Small Purchases – Purchase are limited to those where direct cash or money order payment will be advantageous to the BBG because of the time element involved, reduction in paperwork, increased efficiency, or other valid reason. The following procedures must be adhered to:

- Purchases must be made in accordance with the principles, standards, and related requirements contained in procurement regulations issued by the Administrator of the General Services Administration and regulations issued by the BBG.
- The cost of purchases within the prescribed monetary limitations must be kept within reasonable bounds by ordinary shopping procedure of price comparison (competition), and the buyer must take advantage of any obtainable discounts.
- Purchases are normally supported by a Request for Supplies, Equipment or Services, or other equivalent form signed by an authorized approving official.

### (2) Repair of Equipment.

(3) Local Transportation – Reimbursement to employees for the authorized use of public transportation facilities such as buses, taxicabs, and privately owned automobiles on official business within the metropolitan area of their official station.

(4) Miscellaneous Items – Purchase of postage stamps, payment for the parcel post, C.O.D. postal charges, and local drayage charges. Local drayage is defined as the movement of supplies or commodities wholly within a recognized metropolitan area in which both the points of pickup and delivery are located.

(5) Entertainment – The Appropriation Act establishes a limitation on the maximum amount to be used for representation/entertainment in the U.S. This allocation is allotted to various elements. Requests for reimbursement from Imprest Funds must be authorized by the administrative official of the requesting element and approved by the Office of the General Counsel. The request for reimbursement must include a voucher that itemizes claims supported by receipts. Where the claim includes meals, the cost of the meal up to \$7.50 per employee attending the function must be deducted.

d. Means of Payment

(1) Reimbursement for Purchases – The procedures for cash reimbursement to an employee after the purchase has been made are:

- Employee presents an SF 1164, "Claim for Reimbursement for Expenditures on Official Business," and the vendor's acceptable receipt (original bill, sales slip, cash register ticket, or invoice, which names the articles purchased and the amount paid) to the cashier. Copies are not considered acceptable receipt forms. Purchases paid for by money order must also be supported with the money order stub.
- Cashier reviews the SF 1164 and receipts for completeness, as stated above, assuring that the SF 1164 has been signed by an authorized approving official.
- Cashier requests identification (ID) of employee picking up cash.
- Cashier immediately stamps "PAID" on the vendor's receipt document and staples it to the SF 1164.
- Cashier stamps original copy of SF 1164, stating the following:

	Received in Cash
Sum of \$	
Date	
Signature	

- Both the dollar amount and date of cash payment are recorded on the SF 1164 along with the cashier's initials. The employee receiving the cash payment signs his/her name certifying receipt of cash.
- Cashier matches signature with employee ID, returns ID to employee with cash.

(2) Reimbursement for Local Transportation - For reimbursement for local public transportation, hire of taxicab, or local use of privately-owned automobile, employee presents an approved and complete SF 1164 to the cashier. Before a payment is made, the cashier should assure himself or herself to the extent possible that the amount charged for each taxicab is reasonable and that tips to taxicab drivers are within the prescribed limitations (maximum 15 percent). He or she should also verify that all required information, including justification, where required, is shown, and that a properly designated employee has approved the voucher. Where the amount of a taxicab fare appears excessive, the approving officer should be contacted for verification.

(3) Money Orders – On presentation of a properly executed requisition, cashiers may use Imprest Funds to reimburse an employee for the purchase of money orders for payment of small transactions where the vendor or supplier is (1) reluctant to bill for the merchandise, or (2) the cost of an employee going to purchase the item would exceed the cost of a money order. Payment should only be made where (1) an appropriate receipt can be obtained, and (2) the money order carbon is returned to the cashier within five workdays from the date of the money order advance.

e. Sales Tax – When the legal incidence of a tax is on a vendor and is included as part of the purchase price of an article or services, the U.S. Government is required to pay the total amount. Gasoline taxes imposed on vendors or dealers by certain states is one example of such a tax. When the legal incidence of the tax is on the vendee, the U.S. Government normally is not liable for the payment. District of Columbia and most state sales taxes fall within this category. An employee making a purchase should advise the vendor that it is for the U.S. Government and request that tax not be charged. When a vendor sells at a price that is exclusive of the tax, SF 1094, U.S. Tax Exemption Certificate, will be furnished to the vendor where he or she requires evidence of the tax-exempt sale for use in claiming exemption from payment of the tax to the taxing authority; however, SF-1094 will not be issued to avoid payment of tax if the amount of tax on any one bill is \$10 or less. The cashier, however, may reimburse employees for all tax actually paid on official purchases.

## 206.9 Replenishment of Fund and Accountability Records and Reports

a. Replenishment of Funds – In order to maintain an Imprest Fund at the specified amount, replenishments must be made on a periodic basis, but not less than four times a year.

(1) Domestic Imprest Funds - The cashier should submit his/her replenishment voucher (SF-1129) to the OFO.

- Regular Replenishment – To obtain replenishment of an Imprest Fund, a cashier submits an original and one copy of SF-1129, "Reimbursement Voucher," together with his/her sub-vouchers and receipts to OFO. All sub-vouchers and receipts, including those from sub-cashiers, are serially numbered, beginning with "1" each fiscal year. Arrange sub-vouchers and receipts in numerical order and prepare an adding machine tape totaling them. Staple the sub-vouchers, receipts and the tape to the original SF-1129. Sign the original SF-1129 and forward it the Payment Center within the OFO for processing. The cashier must retain a copy of each SF-1129 for reference and use in preparing accountability reports.

If the authorized certifying officer questions any expenditure document at the time the cashier submits his/her replenishment voucher, the amount will be disallowed on the voucher and the supporting documents returned to the cashier. The cashier will arrange for the necessary correction and include the corrected document as a support for replenishment on his/her next voucher, or recover the questioned amount.

- Replenishment as of September 30th – At the close of each fiscal year, each cashier must submit, by October 10th to OFO, a reimbursement voucher for all expenditures made through September 30, not previously claimed. Individual payments covered by a reimbursement voucher are chargeable to the fiscal year in which the voucher is submitted to the cashier for payment.

(2) Overseas Imprest Funds – A reconciliation voucher and replenishment request are generated from WinACS and are sent to the post VOA Budget & Finance Office, along with the SF-1166, Voucher and Schedule of Payments, file, where they are verified and approved for processing. The SF-1166 file is encrypted for the ACO and sent directly to one of the two Financial Service Centers (Charleston or Bangkok) for processing by Department of State through the SHIFTS or FTP sites. The request for replenishment checks is processed by the Financial Service Center. A copy of the Cashier Reconciliation Statement (ACS-365), the Summarized Subvoucher Transmittal Report (FSC-21) and the Cash Count Worksheet (FSC-72) are submitted to the Cashier Monitor and to the OFO in Washington, DC.

b. Accountability Reports and Records

(1) Reports Prepared by Domestic Cashiers

- On the last workday of each quarter, or whenever there is a transfer of accountability between cashiers, the cashier (or his/her alternate, in the cashier's absence) sends a signed SF-1129 accounting for his/her Imprest Funds directly to OFO. Indicate on the SF-1129 the number of

reimbursement vouchers submitted during the month and the total dollar value. Clearly mark the SF-1129 as an "Accountability Report."

- If the Imprest Fund is small and the cashier submits only one reimbursement voucher each month to OFO, the cashier may send a signed copy of that voucher in lieu of the SF-1129 required in paragraph (a) above. In this case, the reimbursement voucher should be prepared on the last workday of the month, and a signed copy sent to OFO, clearly marked "Accountability Report."
- If the fund does not need replenishment during the month because of limited activity, the cashier must, nevertheless, send an original SF-1129 to the OFO. He/she must also send a signed copy as provided in (b) above. The cashier should clearly show, on the voucher, that reimbursement for any amount expended is not needed.

(2) Reports Prepared by Overseas Cashiers - The two forms every cashier using WinACS must complete are the ACS 365 and the ACS 99. These forms are Cashier Reconciliation Statement forms and reflect the carryover balances, the current accountability, and all activity that has taken place since the previous reconciliation, including the amount of sub-vouchers, cash spent, cash collected, and items in transit but not recorded. The cashier submits these forms to the cashier monitor, who then submits them to the Charleston or Bangkok Financial Service Center, where they are kept on file for five years.

(3) Records Maintained by OFO – OFO maintains General Ledger control accounts reflecting the amounts advanced by the Treasury Department to cashiers and reports to Treasury the status in the various external financial reports. It also provides budgetary accounting controls to prevent over-obligation or over-expenditure of allotments.

#### 206.10 Verification and Audit of Imprest Funds

##### a. Cash Verification

(1) The cashier's fund is subject to unannounced verification at any time. Unannounced cash verifications must be made of each Imprest Fund no less than once every three months. Unannounced cash verifications are made to ensure that the Imprest Fund is fully accounted for. The verification is made in the presence of the cashier by two employees of the OFO or the USDO at Department of State for overseas Imprest Funds. Cash is considered as consisting of:

- Currency/coins and uncashed Government checks on hand;
- Replenishment vouchers in transit (SF-1129)
- Receipts of advances to alternate and sub-cashiers;
- Completed sub-vouchers on hand.

(2) A record of cash verification and the dates of the verifications together with a statement of the results of each verification must be maintained in the OFO.

(3) Verifications are made to ensure that the Imprest Fund is fully accounted for. If a cash difference, deficiency, or other irregularity is disclosed, it must be reported promptly in accordance with Section 206.16.a.

(4) Follow the steps outlined below when performing a cash verification:

- Close down the Imprest Fund operation.

- Have cashier make available all necessary funds and documents. The following is needed: a copy of Treasury's designation of cashier (SF-211), cash box, advance of funds/replenishment check(s), replenishment voucher(s) in transit (SF-1129), receipt for cash advance(s) to alternate cashier, and completed sub-vouchers on hand.
- Using the Cash Verification Report Form, perform the currency and cash count and complete the verification details as shown on the report.
- Include under "REMARKS" any pertinent recommendations and findings. If the cash verification discloses any unauthorized use of, irregularities in connection with, or improper accounting of the operating cash fund, such information must be reported immediately to the Director, OFO.
- The report is signed by the employees who have performed the cash verification and the cashier responsible for the Imprest Fund.
- Retain the original for the file, give one copy to the cashier, and submit one copy of the completed report to the OFO.

(5) Audits are made for the purpose of verifying that all funds are properly accounted for, the amount of the fund is not in excess of the cash requirements, procedures are being followed to adequately protect the funds from loss or misuse, and the cashier is not making unauthorized use of the funds. Any unauthorized use of, irregularities in connection with, or improper accounting of the Imprest Fund must be documented and reported immediately to the Director, OFO.

(6) Follow the steps outlined below when performing an unannounced audit:

- Close down Imprest Fund operation;
- Perform a cash verification (see Section 206.10.a. above). Using the completed cash verification report, fill in the data as required on the audit report form.
- Count the number of cash verifications performed during the current calendar year and fill in the data as required.
- Perform a cash turnover review. Have cashier make available all replenishment vouchers during the current calendar year and follow the steps outlined below:
  - Total dollar value of replenishment vouchers during the calendar year divided by six (6). (Treasury recommends that the cashier turn over his or her advance at least once every two months.) If the advance is substantially higher than the average derived above, further review is needed. Other factors to be considered include:
    - What is the largest amount paid in a two-month period?
    - What is the processing time for preparation of the reimbursement voucher?
    - What is the length of time required for the disbursing office to process the voucher and return the replenishment check to the cashier?
  - If, after final review, it is determined that the fund is in excess of needs and should be reduced, refer to Section 206.12 for guidance. This review can also be done to determine if additional funds are needed.
- Spot-check to ensure the Imprest Fund operation has the approved safekeeping facility by following the steps outlined below:

- Is the fund kept separate from other funds?
- List type of safekeeping equipment.
- Does safekeeping equipment have proper security locks?
- Does each cashier have own facility?
- Is fund kept in cash box?
- Does cash box have key lock?
- Any disclosure of improper safekeeping controls and corrective action taken to ensure compliance with regulations should be noted under REMARKS.
  - Spot-check vouchers to ensure correct procedures are being followed.
  - Include under REMARKS any pertinent recommendations and findings.
  - The report is signed by the employees who have performed the audit and the cashier responsible for the Imprest Fund.
  - Retain the original for the file, give one copy to the cashier, and submit one copy of the complete audit report to the OFO.

206.11 Audits - The Office of the Inspector General (OIG) may perform audits of all Imprest Funds. Any unauthorized use of, irregularities in connection with, or improper accounting for an Imprest Fund, disclosed by the audit, must be reported promptly to the Director, OFO.

#### 206.12 Changes in Imprest Funds

a. Request for Change in Amount – Program Element (e.g. VOA, ENG) Heads may request, by memorandum, to the Director, OFO, changes in amounts advanced to cashiers. The memorandum should explain in detail the conditions justifying the change in the advance, the amount of the change, and the name, office, title of position and office mailing address of the cashier. The Director, OFO, determines the merits of the request, takes appropriate action, and advises the cashier.

(1) Request for Increase – Upon determination by the Director, OFO that there is a need for an increase in a fund, a letter along with a new Form SF-211 is prepared by the Director, OFO for internal approval and scheduling to the Treasury Regional Finance Center on SF-1166, "Voucher and Schedule of Payments." Section IV of Form SF 211, "Increase or New Advance" will be completed to request an increase in an advance for a cashier.

(2) Request for Decrease – When there is a need for a decrease in a fund, a new Form SF-211 is prepared by the Director, OFO. Section V of Form SF-211 will be completed indicating the amount the fund is to be reduced. Any one or a combination of the following should be attached:

- Remittance in cash or money order (cash, if mailed, should be transmitted by registered mail);
- Uncashed advance or reimbursement checks for cancellation and application to the original advance; and
- Statement showing the application of reimbursement vouchers in whole or in part to liquidate the original advance. If the entire amount of the voucher is to be applied, include a statement on the

voucher reading: "Draw no check – apply to advance." If only part of the voucher is to be applied, include a statement reading: "Apply to advance \$XXX; draw check for \$XXX."

(3) OFO transmits SF-211, accompanied by supporting evidence, to the Regional Disbursing Office (Department of State Global Finance Centers at Bangkok, and Charleston) for proper credit to the cashier's advance account.

(4) OFO may, based on experience or changing conditions, request that the cashier's supervisory officer initiate a request to decrease (or discontinue) an advance account, or justify its maintenance at the current level. It is in the interest of the U.S. Government to keep a minimum of cash outside the accounts of the U.S. Treasury.

206.13 Request for Discontinuance – A request for the discontinuance of an advance is processed the same way as a decrease (see Section 206.12.a.(2) above).

#### 206.14 Transferring Fund to Alternates or Sub-Cashiers

a. Not Exceeding 15 Days – To provide uninterrupted disbursing services during short absences of the cashier during the day or when the volume of work requires the services of the alternate, the cashier may make an advance to the alternate sufficient for operational purposes. The alternate signs a receipt for the advance and gives it to the cashier. At the end of each business day, the alternate turns over to the cashier the paid invoices and vouchers and the cashier replenishes the advance or voids the receipt if unexpended cash is also returned. If the absence of the cashier is for a full day or more, but not exceeding 15 workdays, the advance to the alternate should be for an amount sufficient to cover the period of absence. When the cashier returns, the paid invoices and vouchers and unexpended cash are turned over to the cashier, and the receipt for the advance is voided.

b. In Excess of 15 Days – If the foreseen absence of the cashier is in excess of 15 workdays, direct transfer of all funds on hand, including uncashed checks, if any, is made to the alternate. The checks on-hand are endorsed to the alternate. The cashier prepares an SF-1129, "Reimbursement Voucher," in quadruplicate in his/her name and completes the "Status of Fund" section of the form. He/she then adds to his/her certification of the voucher the words, "and has been transferred to (name of alternate cashier) as of this date." The alternate cashier acknowledges receipt of funds by inserting and signing on all four copies of the SF-1129 the statement: "The transfer of funds indicated has been received by me, (signature), Incoming Cashier." The cashier signs all four copies and submits the original and one copy to OFO. He/she keeps a copy and provides the fourth copy to the alternate cashier.

Replenishment checks are drawn payable to the alternate until accountability is returned to the regular cashier by the same process as above.

c. In Unforeseen Extended Absence of Cashier – Where transfer of funds cannot be effected as described in b above, or the alternate requires additional cash in the absence of the cashier, a committee of three is designated by the cashier's supervisor in collaboration with the Director, OFO. One member of the committee is the alternate cashier. This committee reviews the cashier's records and funds and prepares SF-1129 in the name of the cashier, as outlined in b above. The SF-1129 is signed by each member of the committee in the space provided for "Cashier's" signature. If the cashier is not available to endorse any checks drawn to him/her, the committee returns them to the OFO, or the USDO at the Department of State, with the SF-1129 for deposit and reissuance to the alternate.

d. Transfer of Funds to Designated Sub-Cashiers – Class B cashiers may transfer a portion of their funds in fixed amounts, to designated sub-cashiers on the basis of a receipt from the sub-cashier. The sub-cashier turns over his/her receipts to, and secures replenishment from, the Class B cashier as often as needed, but at least once a month. Advances should be shown in the "Status of Funds" section of the reimbursable voucher.

206.15 Replacing a Cashier – When a cashier is transferred or is unable to continue as a cashier, a new cashier is designated. Upon advice that a new cashier has been designated, the former cashier submits a final SF-1129. This form is prepared in the manner indicated in Section 206.14.b, showing the transfer to, and receipt by, the new cashier. If a new cashier is not immediately designated, this same procedure is used to transfer the account with full responsibility and accountability to the alternate. When a new cashier is later designated, the fund is transferred to him/her in the manner provided in Section 206.14.b above. If there is no alternate and a new cashier has not been designated, the account is closed by the submission of a final SF-1129 to OFO, accompanied by all unexpended funds.

#### 206.16 Physical Loss of or Deficiencies in Government Funds or Vouchers

a. Reporting Loss – When any physical loss or deficiency of Government funds (including checks or vouchers) is discovered, the person making the discovery (e.g., cashier, auditor, persons verifying the fund) reports the facts to the head of the cashier's organization element immediately. The head of the element reports the loss or deficiency to the Director, OFO immediately.

b. Irregularity on Part of Cashier – If an irregularity in his/her account occurs on the part of the cashier, the Director, OFO may request the cashier be relieved of duty and a new cashier be immediately requested or that the account be discontinued. The cashier is personally responsible for any shortages, and, if directed, must restore any losses for which the cashier has been found liable.

c. Granting Relief to Cashier – Under certain conditions, a cashier may be relieved of responsibility for a loss or deficiency, but only when the loss or deficiency occurred without fault or negligence on the part of the cashier and while the cashier was acting in his/her official capacity. Relief may be granted by the Director, OFO, if the shortage is less than \$750, or by the Government Accountability Office if the shortage is \$750 or more. Requests for relief are prepared by the cashier's supervisor and approved by the IBB Deputy Director and Director, OFO. If the requests are directed to the Government Accountability Office, they are signed by the Director, OFO and sent to the General Counsel, U.S. Government Accountability Office. All requests for relief include a determination of facts, recommendation for relief, and citation to the appropriation or fund to be charged to cover the shortage if relief is approved.

### **207 CASH MANAGEMENT – RECONCILING WITH TREASURY**

207.1 Preparation of SF 224 - OFO prepares an SF 224, "Statement of Transactions," after the close of each month and submits it to Financial Management Service (FMS), Department of Treasury, via the GOALS II on-line reporting system. The SF 224 reports all domestic disbursements, collections, and cancellations recorded in the accounting system during the prior month. It is due within three workdays after the close of the month. The Department of State (DOS) will prepare the SF 1219, "Statement of Accountability," and SF 1220, "Statement of Transactions," to report overseas activity.

#### 207.2 Reconciling Statement of Differences

a. FMS publishes the following reports on its website which are used to reconcile actual disbursements, collections, and cancellations with what was reported on the SF 224 or SF 1219/1220: Agency Confirmation Report (ACR); Agency Deposit Report; IPAC Support Listing; Statement of Difference Deposits; and Statement of Difference Disbursements.

b. OFO/DOS must reconcile what was reported on the SF 224 or SF 1219/1220 with what was disbursed from and deposited into BBG funds at Treasury. The ACR and IPAC Support Listing details are compared to the download of transactions from the accounting system that was used to report monthly disbursement activity on the SF 224 or SF 1219/1220. Documents appearing on the ACR and IPAC Support Listing that were not reported on the SF 224 or SF 1219/1220, and documents appearing on the download used for the SF 224 or SF 1219/1220 that were not reported by Treasury on the ACR and IPAC Support Listing, are the documents that should make up the total amount of the Statement of Difference Disbursements obtained from Treasury for that month.

c. The total of all receipt/collection documents reported on the SF 224 is compared to the total deposits for the month listed on Treasury's Statement of Difference Deposits. If the total of all receipt/collection documents does not equal the Statement of Difference Deposits for the month, an analysis is made to determine which receipt/collection documents make up the difference.

d. A report is prepared listing the outstanding documents that make up both Statement of Differences for the month. Also included in the report are outstanding documents that have not yet been entered into the accounting system or were entered erroneously that were discovered in previous months, but have not yet been reconciled. These differences should also appear on Treasury's current Statement of Differences for those prior accounting periods. This spreadsheet is distributed to OFO staff responsible for entering documents into the accounting system, to inform them of the documents that have to be reconciled and recorded, in order to reduce each month's difference to zero.

#### 207.3 Reconciliation of the Fund Balance with Treasury (FBWT):

a. Each month, a reconciliation is conducted of BBG's FBWT, as reflected on Treasury's Government-Wide Accounting (GWA) Account Statement, and BBG's general ledger. This process is accomplished in the Consolidated Reconciliation System (CRS) by loading the following reports received from Treasury or generated from BBG's accounting system:

(1) GWA Account Statement Monthly Activity – A Department of Treasury report that reflects the total amount of disbursements and total amount of collections made for or against each of BBG's funds, as reported on BBG's SF 224.

(2) SF 224 Detail – Information generated from BBG's accounting system, used to prepare the SF 224, "Statement of Transactions." It includes budgetary information pertaining to vouchers paid, check cancellations, IPAC transactions, and cash collections. This data should tie to the GWA Account Statement monthly activity.

(3) Trial Balance – Generated from BBG's accounting system; shows BBG's total monthly activity in each SGL account and each fund impacting the FBWT.

(4) Momentum Detail – Generated from BBG's accounting system. This report shows transaction detail of all general ledger activity having an impact on the FBWT. The data in this report ties to the Trial Balance's monthly activity.

(5) 1221, Z477, and Z478 – Detailed reports received from Department of State which list BBG's overseas transactions for the month (i.e. disbursements and collections, by fund and allotment, in foreign currency and U.S. dollars) that are processed by Bangkok and Charleston Financial Service Centers.

b. The two steps in reconciling the FBWT are:

(1) Reconciling the SF 224/1221 to Treasury's GWA Account Statement. The SF 224 Detail and the Momentum Detail are downloaded into Consolidated Reconciliation System (CRS) and are compared. Theoretically, these downloads should be the same. If there are discrepancies, this first step in the reconciliation process will indicate this. Reports are run in CRS to compare the 224 Detail and the amounts on the GWA Account Statement, and the differences are identified. The differences are researched, and, based on the findings adjustments are entered into CRS, as necessary. After adjustments, the SF 224/1221 should agree with the GWA Account Statement.

(2) Reconciling the SF 224/1221 to BBG's General Ledger. The next step is to reconcile what BBG has recorded in the accounting system to what was reported to Treasury. This is performed at the fund level. Each fund is examined individually by fiscal year to determine where discrepancies exist. As they are identified, further research is done by reviewing the SF 224, 1221, 477, and 478 reports. Based on findings, adjustments are entered into CRS, as necessary, and the effect the adjustments will have on the accounting system is analyzed. Proposed entries to correct any discrepancies in the general ledger are

submitted to the Director, OFO for approval. If approved, the adjustments are entered into the accounting system. As a result of the reconciliation, errors or omissions on the SF 224 will also be identified. Proposed adjustments to the SF 224 are also submitted to the Director, OFO for approval, and, if approved, will be made on the next SF 224 submission to Treasury.

## **TITLE 7**

### **PART 300 DEBT MANAGEMENT**

#### **SECTIONS**

301	Scope
302	Authorities
303	Definitions
304	Purpose
305	Interest, Penalty, and Administrative Charges
306	Exceptions
307	Use of Procedures
308	Collection Actions
309	Compromise, Suspension, or Termination of Claims
310	Close Out
311	Accounting of Various Charges and Refunds
312	Reporting of Treasury Report on Receivables and Debt Collection Activities
313	Federal Agency Agreements
Appendix I	Treasury Report on Receivables and Debt Collection Activities

## 301 SCOPE

301.1 Applicability of Federal Claims Collection Standards (FCCS) and 5 USC 5514: Except as set forth in this part or otherwise provided by law, the BBG will conduct administrative actions to collect claims (including offset, compromise, suspension, termination, disclosure and referral), in accordance with the FCCS of the General Accounting Office and DOJ, 4 CFR 101-105.

301.2 This part is not applicable to:

- a. Claims against any foreign country or any political subdivision thereof, or any public international organization; and
- b. Claims where the BBG Chief Financial Officer or a designee determines that the achievement of the purposes of any provision of law administered by the BBG require a different course of action.

## 302 AUTHORITIES

Under provisions of the Federal Claims Collection Act of 1966, 31 USC 3701-3719, as amended by the Debt Collection Improvement Act (DCIA) of 1996, (P.L. 104-134, Chapter 10), the BBG is to "maximize collections of delinquent debts owed to the Government by ensuring quick action to enforce recovery of debts and property arising out of the activities of or referred to" the BBG.

The provisions of 22 CFR 512, Collections of Debt Under the Debt Collections Act of 1982, are based on the joint regulations of the Government Accountability Office and the Department of Justice (DOJ) that pertain to the FCCS, 4 CFR 101-105 and 31 CFR 900-904.

In addition, the following statutes and regulations authorize the BBG to collect any debts due to BBG and the U.S. Government: Debt Collection Act; Deficit Reduction Act of 2005; 31 CFR 285 (Department of Treasury); and OMB Circular No.A-129, Managing Federal Credit Programs.

## 303 DEFINITIONS

303.1 Administrative Fees – Costs associated with collecting a debt from the date of the delinquency.

303.2 Actual Reimbursements – The actual amount of the agreement based on the signed order, which will be apportioned and allotted by the Budget Office.

303.3 Administrative Offset – Withholding of money payable by the U.S. from a person or entity, in order to satisfy a debt the person or entity owes.

303.4 Agreement Authentication – The designated agency officials of both trading partners must sign the agreement. These signatures must be present before the agreement can be deemed valid.

303.5 Agreement Number – A consecutive numbering identification process that is provided by the Office of Financial Operations (OFO).

303.6 Anticipated Reimbursements – The estimated or anticipated amount of the agreement(s).

303.7 Authority – The appropriate federal regulatory guidance and any pertinent arrangements between the two federal agencies entering into the agreement. These governing policies will help to substantiate the need for the reimbursable agreement.

303.8 Billings – The amount of the earnings charged to the customer that will be collected based on performance.

303.9 Billing and Financial Reporting Requirements – The addresses, names of action officers/project officers and fiscal points of contact. The information relating to where billings are to be sent must be provided, as well as information relating to the billing office(s). Individual names, phone numbers, facsimile numbers, e-mails and other pertinent information must be provided to facilitate coordination in the event problems or questions arise.

303.10 Collections – Actual receipts from the customer for services earned and billed.

303.11 Debt or claim – An amount of money or property, which has been determined by an appropriate Federal official to be owed to the BBG, by any person, organization or entity, except another Federal Agency. A debtor's liability arising from a particular contract or transaction shall be considered a single claim for purposes of the monetary ceilings of the FCCS.

303.12 Delinquent – A debt that has not been paid by the date specified in the BBG's written notification or applicable contractual agreement, unless other satisfactory arrangements have been made by that date, or that has not been in accordance with a payment agreement made with the BBG.

303.13 Disposable pay – The amount remaining in an employee's federal pay after required deductions for Federal, state and local income taxes; Social Security taxes, including Medicare taxes; Federal retirement programs; premiums for life and health insurance and such other deductions that are required to be withheld, pursuant to 5 CFR 581.105, including garnishments.

303.14 Due Date – The date payment of a debt is due.

303.15 Earnings – The actual earnings on the order based on delivered goods or services performed, but not yet collected.

303.16 Fiscal Terms – The full accounting classification (Department, Fiscal Year, Treasury Fund Symbol, Allotment, Organization, Project Code, and Budget Object Class, as well as obligation numbers) must be reflected for each trading partner. The Agency Location Code, a unique number assigned by Treasury, must be included on the agreement.

303.17 Interest – The amount charged and accrued from the date on which notice of the debt is first mailed or hand delivered to the debtor, using the most current address available to the BBG. The rate of interest assessed shall be the Treasury Tax and Loan account rate, as prescribed and published by the Secretary of the Treasury in the Federal Register and the Treasury Fiscal Requirements Manual Bulletins, in accordance with 31 USC 3717. Interest collected cannot be retained by an agency unless authorized by specific legislation.

303.18 IPAC – The Treasury based system, Intragovernmental Payment and Collection System, which is the mechanism whereby the inter-agency transactions (collections/disbursements) are made.

303.19 Penalties – Charges on debts that are delinquent by 90 days after the due date. Penalties collected cannot be retained by an agency unless authorized by specific legislation.

303.20 Referral for Litigation – Referral to the DOJ for appropriate legal action.

303.21 Reimbursable Agreement – A binding order or agreement with a Federal agency for BBG/IBB to perform or receive services.

303.22 Salary Offset – An administrative offset to collect a debt, in accordance with 5 USC 5514 (Installment Deduction for Indebtedness to the U.S.) through deductions at one or more officially established pay intervals, from an employee's current pay account, without his or her consent.

303.23 Treasury Offset Program (TOP) – Established by the DCIA to allow a debt owed to any Federal agency to be collected from any U.S. Government payment being made to a debtor. The TOP, which compares the names and taxpayer identification numbers (TINs) of debtors with the names and TINs of recipients of Federal payments, is an alternative collection mechanism for debts under 180 days delinquent. The DCIA requires referral of all debts that are 180 or more days delinquent to the TOP. The TOP includes use of: Tax Refund Offset; Vendor Offset; Federal Retirement Offset; Salary Offset; Social Security benefits and some Federal salary payments; Offsets to benefit payments such as Black Lung and Railroad Retirement Benefits, which may be added in the future; and Other Federal payments as allowed by law (as such payments are allowed into the program).

#### 304 PURPOSE

The policies and procedures that follow are provided to assist the Broadcasting Board of Governors (BBG) in collecting debts or claims that are due to the United States. Mandatory compliance is required unless justification in writing is provided. This section also discusses policies and procedures to be followed for interagency agreements.

#### 305 INTEREST, PENALTY, AND ADMINISTRATIVE CHARGES

##### 305.1 Assessment Methods

Except as otherwise provided by statute, by contract, or where authorities have been excluded in accordance with FCCS, the BBG will assess:

- a. Interest on unpaid claims, in accordance with existing Treasury rules and regulations;
- b. Penalty charges of up to 6 percent a year on any portion of a claim that is delinquent for more than 90 days;
- c. Administrative charges to cover the costs of processing and calculating delinquent claims; and
- d. Accrued interest charges for late payment shall be computed from the date of the initial mailing or of the hand delivery of the initial notice of the claim and interest requirements.

##### 305.2 Partial or Installment Payments

When a debt is paid in partial or installment payments, amounts received shall be applied first to outstanding penalty and administrative cost charges, second to accrued interest, and then to the outstanding principal. BBG shall consider waiver of interest, penalty charges and/or administrative charges in accordance with the FCCS, 4 CFR 102.13(g).

#### 306 EXCEPTIONS

### 306.1 Claims arising from the audit of transportation accounts

Claims arising from the audit of transportation accounts pursuant to 31 U.S.C. 3726 shall be determined, collected, compromised, terminated, or settled in accordance with the regulations published under 31 USC 3726 (see 41 CFR 101-41).

### 306.2 Claims arising out of acquisition contracts

Claims arising out of acquisition contracts subject to the Federal Acquisition Regulation (FAR) shall be determined, collected, compromised, terminated, or settled in accordance with those regulations (see 48 CFR, Chapter 1, Part 32).

### 306.3 Claims based in whole or in part on conduct in violation of antitrust laws

Claims based in whole or in part on conduct in violation of antitrust laws, or when there is an indication of fraud, presentation of a false claim, or misrepresentation on the part of the debtor or any other party having an interest in the claim, shall be referred to the DOJ for compromise, suspension, or termination of collection action.

## 307 USE OF PROCEDURES

Procedures authorized by this regulation (including, but not limited to, referral to a debt collection agency, administrative offset, or salary offset) may be used singly or in combination with other measures. Nothing contained in this regulation is intended to require BBG to duplicate administrative proceedings required by contract or other laws or regulations; or to preclude utilization of informal administrative actions or remedies, which may be available; to deter BBG from demanding the return of specific property or from demanding the return of the property or the payment of its value. The failure of BBG to comply with any provision in this regulation shall not serve as defense to the debt.

## 308 COLLECTION ACTIONS

Mandatory compliance is required in providing notice actions to be taken at significant dates in the collection process. A total of three progressively stronger written demands at approximately 30-day intervals will be made, unless a response or other information indicates that additional written demands would either be unnecessary or futile. When necessary to protect the Government's interest, written demand may be preceded by other appropriate actions under the FCCS, including immediate referral for litigation and/or offset. Procedures for the referral of unresolved claims to GAO and the DOJ are contained in 4 CFR, Part 1.

### 308.1 Initial Notice to Debtors

a. Initial collection effort shall be taken by the Office of Financial Operations (OFO) for any debt identified as a receivable. All debtors must be notified of the indebtedness. The OFO will send the first notice and subsequent notices.

b. The first notice to the debtor should include the provisions of 22 CFR 512, as well as stating:

(1) That payment in full (one lump sum) is expected, within 30 days of the notice;

(2) The BBG's intention, if necessary, to collect by offset, or ask the assistance of other Federal agencies to effect collection from the debtor on behalf of the BBG or an agency serviced by the BBG;

(3) The debtor's right to inspect the records of the debt and/or how to seek review of the debt;

(4) The debtor's right to offer to make a written agreement to repay the debt in installments, subject to acceptance by the Director of Financial Operations; and

(5) The debtor's rights, if any, to seek a waiver of the indebtedness.

c. The OFO is responsible for maintaining documentation of the receivables and posting them in the financial system. An individual file is to be prepared with the following information:

(1) Documentation supporting the amount owed;

(2) Information on the debtor (e.g., Social Security number, address, telephone numbers);

(3) Copy of the initial notification and subsequent notices sent to debtor;

(4) Any correspondence or communication with the debtor;

(5) Records of payments received showing amount and date of receipt;

(6) Disposition of the debt (e.g., paid off, suspension, termination, offset).

308.2 Follow-Up Action (Second Notice) - If payment has not been recovered within 30 days of the initial notice, a second notice will be sent. The debtor may also be contacted by telephone, e-mail or personal visit. When making contact by personal visit or telephone, a follow-up letter, which includes the interest due, will be sent to the debtor. This notice will demand payment and all contacts with the debtor will be documented.

308.3 Referral for Further Action (Third Notice) - If the debtor does not respond to either letters or telephone calls, within 60 days of the initial notice, the OFO sends a third notice restating the information previously provided, including the cumulative interest, administrative charges and penalty charges. The OFO will also notify the debtor that all further collection action may be taken by a collection agency. At this time, BBG will also notify the debtor that the claim is being referred to the Treasury Department so that the Treasury Offset Program (TOP) may be utilized, as applicable. If the debtor has not responded within 30 days after the third notice, the debt will be referred to TOP. For BBG employees, OFO may use the methods of collection by salary offset as set forth in the BAM, Title 7 500, Payroll, to collect a debt.

#### 308.4 Consumer Reporting Agencies

a. Referral to a consumer reporting agency (credit bureau) is to encourage repayment by setting forth the same expectations of the debtor as are routinely used in business, within the Privacy Act requirements as set forth in 31 U.S.C. 3711 (e) and FCCS 901.4. Notification of a failure to meet prior commitments adversely impacts a debtor's efforts to obtain additional credit.

b. Upon written request from OFO, the Internal Revenue Service (IRS) may disclose the mailing address of a taxpayer for purposes of locating a debtor to collect or compromise a Federal claim.

#### 308.5 Collection by Administrative Offset

Offset will be used whenever feasible and is not otherwise prohibited. Offset is not required to be used in every instance, and consideration should be given to the debtor's financial condition and impact of offset on BBG programs or projects. Procedures for offset in this section do not apply to the offset of Federal salaries under 5 USC 5514. BBG will promptly make requests for offset to other agencies known to be holding funds payable to a debtor and, when appropriate, place the name of the debtor on the "List of Contractors Indebted to the United States." BBG will provide instructions for the transfer of funds. BBG will promptly process requests for offset from other agencies and transfer funds to the requesting agency upon receipt of the written certification that the person owes the debt and that, if a Federal employee, the employee has been given the procedural rights required by 5 U.S.C. 5514 and 5 CFR 550, subpart K.

#### 308.6 Collection by Salary Offset – Current Employees

Please refer to the BAM, Title 7 500, Payroll, Time and Attendance and Leave Accounting.

308.7 Collection in Installments - Whenever feasible, and except as required otherwise by law, debts owed to the U.S., plus interest, penalties, and administrative costs as required by this regulation, should be collected in one lump sum. This is true whether the debt is being collected under administrative offset or by another method, including voluntary payment. However, if the debtor is financially unable to pay the indebtedness in one lump sum, payment may be accepted in regular installments. If the BBG agrees to accept payment in installments, it will obtain a legally enforceable written agreement from the debtor which specifies all of the terms of the arrangement and contains a provision accelerating the debt in the event the debtor defaults. The size and frequency of the payments should bear a reasonable relation to the size of the debt and ability of the debtor to pay. If possible, the installment payments should be sufficient in size and frequency to liquidate the Government's claim within three years.

308.8 Mandatory Reporting to Treasury Offset Program - Under the DCIA of 1996, any debt more than 180 days delinquent must be referred to the Treasury for offset against payments made to debtors through the Treasury. Debts that are under 180 days delinquent may also be referred to Treasury for collection.

308.9 Referral of Unresolved Claims - Procedures for the referral of unresolved claims to the Department of Justice are contained in 4 CFR 105. Claims on collection action that has been taken and cannot be compromised, suspended, or terminated shall be promptly referred to the Department of Justice for litigation. When the merits of the Government's claim are in doubt, the BBG should refer the matter to the General Accounting Office for resolution and instructions prior to proceeding with collection action and/or referral to the Department of Justice for litigation. Once a claim has been referred to GAO or to the Department of Justice, the BBG shall refrain from having any contact with the debtor and shall direct the debtor to GAO or the Department of Justice when questions concerning the claim are raised by the debtor.

#### 308.10 Collection Services

BBG has authority to contract for collection services to recover delinquent debts in accordance with 31 U.S.C. 3718 and FCCS 901.5. BBG may disclose delinquent debts, other than delinquent debts of current Federal employees, to consumer reporting agencies in accordance with 31 USC 3711(e) and the FCCS. BBG will not use a collection agency to collect a debt owed by a currently employed or retired Federal employee, if collection by salary or annuity offset is available.

### 309 COMPROMISE, SUSPENSION, OR TERMINATION OF CLAIMS

309.1 Compromise, Suspension, or Termination - A review by OFO is made on all debts, including debt owed by former employees, in excess of \$50 but less than \$100,000 that are being recommended for compromise, suspension or termination. The Director of OFO, shall appoint a "Claims Settlement Committee" with a representative from each of the following offices: Office of General Counsel; Office of Human Resources; and the OFO staff. This committee will review and determine appropriate action on claims in excess of \$50 but less than \$100,000, originating overseas or domestically.

The Director, OFO, and the Claims Settlement Committee have authority to compromise, suspend, or terminate a debt as provided by these regulations and 31 CFR 903.1(a). For cases within its jurisdiction on claims between \$50 and \$100,000, this committee shall have exclusive authority to compromise, suspend or terminate a collection action in accordance with the standards set forth in this section, as well as, to waive employee overpayments not exceeding \$500.

309.2 Compromise (Collecting a Reduced Amount) - A compromise may be sought by the debtor or by OFO (See 4 CFR 103.2 and 22 CFR 512), within the limits of Section 309.1 if it is determined that the full amount of the debt cannot be collected. On an individual basis, the authorizing official periodically reviews the agreements of authorized schedules of repayments to assure compliance and collection. Each request for compromise will be made by memorandum, which contains: the debtor's name; amount of the claim; brief statement of collection efforts; and reason why compromise has been approved.

309.3 Terminating Collection Action - The Director, OFO, has the authority to approve the termination of claims of \$500 or less, in accordance with the standards set out in this section, when normal collection action under Section 309.1 and 309 .2 has proved futile. The Financial Analysis and Reporting Branch must prepare a memorandum to the Director, OFO, containing: the debtor's name; amount of the claim; brief statement of collection efforts; and reason why termination has been approved

309.4 Suspending Collection Action - The BBG may suspend collection action temporarily if the debtor cannot be located after a diligent effort to locate the debtor has failed and there is reason to believe that collection at a future time may be more productive (See 22 CFR 512). The Financial Analysis and Reporting Branch must prepare a memorandum to the Director, OFO, containing: the debtor's name; amount of the claim; brief statement of collection efforts; and reason why suspension has been approved

309.5 Exceptions to suspension, termination, and compromise of a debt - The criteria and actions to suspend, terminate or compromise a debt do not apply and full collection must be pursued for any claim based in whole or in part on conduct in violation of the antitrust laws, or to any claim as to which there is an indication of fraud, the presentation of a false claim, or misrepresentation on the part of the debtor or any other party having an interest in the claim. Only the Department of Justice has authority to compromise, suspend, or terminate collection action on such claims. Furthermore, tax claims, as to which differing exemptions, administrative considerations, enforcement considerations, and statutes apply, are also an exception. Pursuant to 31 U.S.C. 3527, only the Comptroller General, or designee, may compromise a claim that arises out of an exception made by GAO in the account of an accountable officer, a federal employee.

### 310 CLOSE OUT

Close out occurs when the BBG terminates all collection activities. The IRS treats such written-off debt as income and OFO, therefore, reports this amount on Form 1099-C, Cancellation of Debt. OFO notifies the debtor by Form 1099-C (Cancellation of Debt) of the debt written-off being reported to IRS. The notification must be completed by January 31 for the previous year which the debt was terminated. OFO shall promptly report the write off to IRS by February 28, except

that reporting to IRS is not required if informed that the debt has been discharged pursuant to Chapter 11, Federal Bankruptcy Law. If reporting electronically to IRS, the due date is March 31.

### 311 ACCOUNTING OF VARIOUS CHARGES AND REFUNDS

#### 311.1 Notification and Assessment of Charges Interest and Penalties

a. Debtors with obligations covered by contracts, agreements, or other formal arrangements must be notified of charges for late payments. Such notice must specify that interest and penalty will accrue and is payable from a stipulated due date. For example, at the end of the 30-day period, the parties billed for a fiscal irregularity will be subject to interest payments and penalties, pursuant to 31 U.S.C. 3717.

b. Debtors with obligations not covered by contracts, agreements, or other formal arrangements should be informed of the requirement concerning charges for late payments on the initial notification of amounts due. Interest accrues from the date the initial notification of debt is first mailed or hand delivered to the debtor, but must be waived if the debt is paid within 30 days from that date.

311.2 Administrative Charges - Debtors must be notified that the administrative cost of processing and handling a delinquent claim (those over 30 days past due) are calculated upon the actual costs incurred and will be added to the debt. Such costs may include: the obtaining of a credit report; telephone or cable costs; or a fee paid to a collection agency.

311.3 Charges Collected - Amounts collected for interest, administrative, and penalty charges are credited as follows:

a. Interest to fund 95/3220, "General Fund Proprietary Receipts, Not Otherwise Classified," and

b. Penalty and Administrative Charges to 95/1099, "Fines, Penalties, and Forfeitures Not Otherwise Classified."

#### 311.4 Refunds and Credits in Accounts

Where a refund is made in whole or in part to a debtor for repayment of previously collected overpayments, refunds must be charged to the appropriation and allotment from which the overpayment was made and collected. In the audit and settlement of the accounts of any accountable official, full credit is given for any amounts that are collected by the U.S. The Comptroller General may compromise any claims on an accountable official.

### 312 REPORTING OF TREASURY REPORT ON RECEIVABLES AND DEBT COLLECTION ACTIVITIES

Treasury requires each agency to report the status of their debt portfolio quarterly. The report is called Treasury Report on Receivables and Debt Collection Activities (TROR). The TROR serves as a management report that illustrates the receivables owed to Federal agencies and the status of the overall Federal Government's debt portfolio. The report is submitted via internet by OFO staff. A sample of TROR is in Appendix I.

### 313 FEDERAL INTERAGENCY AGREEMENTS

313.1 Interagency Agreement Processing - To facilitate and improve reporting and collecting for Interagency Agreements, also known as reimbursable agreements, the following procedure is defined and will be used for all Interagency Agreements.

a. When a program office begins negotiations with another Federal agency to perform services for the other Federal agency and receive reimbursement, a written document must be drafted. The agreement must contain the following information:

- (1) Purpose
- (2) Scope of Work/Description of Services to be performed
- (3) Effective Dates/Period of Performance
- (4) Governing Authority
- (5) Financial Provisions/Estimated Cost of Services
- (6) The fiscal strip for both agencies, including each agencies Agency Location Code (ALC)
- (7) Program Office's Point of Contact
- (8) Financial Office's Point of Contact
- (9) Changes or Termination requirements
- (10) Resolution of Disputes
- (11) Delegation of Authority
- (12) Privacy/Security Safeguards
- (13) Specific Terms of the agreement

A sample agreement follows in Section 313.2

b. Obtain agreement from other Federal Agency on the draft.

c. Submit the agreement to the Office of Budget for clearance, review and acknowledgement. The Office of Budget must obtain Reimbursable Authority from OMB before funds are available.

d. The Office of Budget will forward the agreement to the Office of Financial Operations for acknowledgement. The Office of Budget will forward the agreement to the CFO for signature.

e. The CFO will return the agreement to the Program Office for final signature and to obtain final signatures from the other Federal agency.

f. The Program Office will send a final signed copy of the agreement to the Office of Budget and the Office of Financial Operations. Once OMB approves the reimbursable authority, the Office of Budget will request that the Office of Financial Operations establish a new allotment in the financial system, which will be used only for that particular interagency agreement. The Office of Financial Operations will post reimbursable receivables and revenues from reimbursables in the financial system.

g. The Program Office will obligate funds for transactions related to the performance of the services as required by the agreement.

h. On a quarterly basis, the Program Office will submit to the Office of Financial Operations a request to collect from the reimbursable agreement, unless frequency for collecting is otherwise

specified in the agreement. This request must contain spending line reports which list all expenses related to the agreement incurred during the quarter; this information will be sent to the serviced agency. Financial Operations will review the request and spending line report, review entries in Momentum for the project, and reconcile any differences with the program office. OFO will then create an invoice and process an IPAC collection for the invoiced amount. The request and spending line report must be received for processing no later than the 15<sup>th</sup> of the month following the end of each quarter, except at fiscal year end.

i. At fiscal year-end, the Office of Budget, the Office of Financial Operations and the Program Office will reconcile the account balances and prepare an estimate for year-end collection no later than the 10<sup>th</sup> of September. Actual collection may not occur until the next fiscal year.

### 313.2 Sample Interagency Agreement

---

INTERAGENCY AGREEMENT  
FOR  
SERVICES  
  
BETWEEN THE  
BROADCASTING BOARD OF GOVERNORS  
AND THE  
FEDERAL AGENCY

I. Purpose

A. This section establishes the terms and conditions of an Interagency Agreement (IA) between the Broadcasting Board of Governors (BBG) and the Federal Agency relative to the Federal Agency providing the BBG with complete services.

II. Scope

A. This section identifies the BBG program Office and the Federal agency offices To which this IA is applicable.

B. In this section list the "services" provided by the BBG to the Federal agency.

III. Effective Date and Period of IA

This IA shall be effective upon the signature of both parties and shall remain in effect for the period of one year, unless otherwise specified.

IV. Periodic Review

This IA is subject to review at any time upon the written request of either party, but shall be reviewed at a minimum quarterly to:

A. Determine the need for continuation, modification, or termination; and

B. Review the quality and timeliness of the systems implementation, support services, and receipt of all necessary data, which affect the initiation and continuity of financial management services.

C. Review to ensure compliance with the performance measures outlined in the attachment.

V. Resource Commitment/Definition

A. The BBG and the Federal agency agree that the BBG charges to the Federal Agency for the services covered in the Paragraph II D will not exceed \$XX.XX for recurring costs. For succeeding years cost will be adjusted by mutual agreement to provide for inflation, systems enhancements, and changed levels of services provided.

B. The BBG represents that sufficient resources are available to provide the services.

VI. Changes or Termination

A. Changes to this IA agreed to by both parties resulting from reviews called by either party or at scheduled intervals will be documented as described in Paragraph IIV B, above. Additional resources required of either party as a result of a change shall be obtained within a mutually agreed upon time. The approval authority for the BBG for the changes shall be the Chief Financial Officer, BBG and approval authority for the Federal Agency, shall be the Chief Financial Officer, Federal agency.

B. This IA may be terminated as follows: by the mutual, written consent of the Chief Financial Officer, BBG, and the Chief Financial Officer, Federal agency. The effective date of termination shall be mutually agreed upon by both parties.

VII. Notices

Any notice, request, demand, or other communication to any of the parties hereto shall be deemed given when received and shall be given in writing, and delivered against receipt, or sent by certified mail, postage prepaid, to such party at its address set forth below or at such other address as such party shall hereafter furnish in writing.

1. Chief Financial Officer,  
Broadcasting Board of Governors  
Room 3360  
330 Independence Ave., S.W.  
Washington, D.C. 20237
2. Chief Financial Officer,  
Federal Agency  
Washington, DC 20000

VIII. Staff Coordination

The following individuals are responsible for the management and coordination of the terms of this IA within their respective organizations. Copies of this IA, pertinent correspondence, and changes or other transactions pertaining to this IA shall be furnished to these individuals:

1. Program Director,  
Broadcasting Board of Governors

330 Independence Ave., S.W.  
Washington, D.C. 20237

2. Program Director,  
Federal Agency  
Washington, DC 20000

IX. Delegation of Authority

Authority is delegated to the BBG, if such delegation is needed.

X. Privacy Safeguard  
If applicable.

XI. Financial Provisions

A. Collections will be made via the IPAC system on a quarterly basis, unless frequency for collection is specified otherwise in the agreement. The fiscal strip used by both parties will be as follows:

BFY  
FUND  
Allotment  
Organization  
Function Code  
Project Code  
Object Class Code  
Obligation Number  
Agency Location Code (ALC)

B. Progress reports will be prepared by the BBG and submitted to the Federal agency.

XII. Terms

The Federal agency will satisfy mutually agreed upon performance requirements as outlined in the attachment.

XIII. Resolutions of Disputes

Any major disputes between the Federal agency and the BBG arising out of this IA which cannot be resolved through negotiations at lower organizational levels within the Federal agency and the BBG will be referred to the officials identified in Paragraph VII for resolution. In the event that no resolution can thus be reached, the officials identified in Paragraph VII will elevate the issue to higher levels within their respective organizations.

XIV. Authority

The authority for the Federal agency and the BBG to enter into the agreement is Public Law XXX-YYY, a specific act or other Congressional act.

Dated in Washington, D.C., this \_\_\_\_ day of \_\_\_\_, 200X.

\_\_\_\_\_  
Chief Financial Officer,  
Broadcasting Board of Governors

\_\_\_\_\_

# APPENDIX I

## Treasury Report on Receivables and Debt Collection Activities (95) Other Agencies (68) Broadcasting Board of Gov. -- First Quarter 2007

Part I - Status of Receivables		
	Number	Dollars
Section A Receivables and Collections		
1 Beginning FY Balance	0	1,333,820
2 New Receivables (+)	0	490,603
3 Accruals (+)		0
4 Collections on Receivables (-)		-91,933
(A) At Agency (-)		-91,306
(B) At Third Party (-)		0
(C) Asset Sales (-)		0
(D) Collections by Treasury through Offset and Cross-Servicing (-)		-627
(E) Collections by Sale After Foreclosure (-)		0
(F) Collections by Department of Justice (-)		0
(G) Other – must footnote (-)		0
5 Adjustments (+ or -)	0	0
(A) Reclassified/Adjusted Amounts (+ or -)		0
(B) Adjustments Due to Sale of Assets (+ or -)		0
(C) Consolidations (+ or -)		0
(D) Foreclosure Adjustments (+ or -)		0
(E) Written-Off Debts Reinstated for Collection (+)		0
6 Amounts Written Off (-)	0	0
(A) Currently Not Collectible (-)	0	0
(B) Written Off and Closed Out (-)	0	0
7 Ending Balance	0	1,732,490
Section B Additional Receivables Data (Information Only)		
1 Subsets of Ending Balance		
(A) Foreign/Sovereign Government (+)	0	0
(B) State and Local Government (+)	0	0
(C) Rescheduled Debt - Delinquent (+)	0	0
(D) Rescheduled Debt - Non-Delinquent (+)	0	0
(E) Interest & Late Charges (+)		330
Section C Delinquent Debt (Excluding CNC Debts)		
1 Delinquencies by Age		

(A) 1-90 Days (+)		490,602
(B) 91-180 Days (+)		23,361
(C) 181-365 Days (+)		19,012
(D) 1-2 Years (+)		36,629
(E) 2-6 Years (+)		0
(F) 6-10 Years (+)		0
(G) Over 10 Years (+)		0
(H) Total Delinquencies by Age		569,604
2 Delinquencies by Category		
(A) Commercial (+)	0	0
(B) Consumer (+)	0	569,604
(C) Foreign/Sovereign Government (+)	0	0
(D) State and Local Government (+)	0	0
(E) Total Delinquencies by Category	0	569,604

## Part II - Debt Management Tool and Technique Performance Data

	Number	Dollars
Section A		
Delinquent Debt 180 Days or Less		

1 Delinquencies 1-180 Days		
(A) In Bankruptcy (+)	0	0
(B) In Forbearance or In Formal Appeals Process (+)	0	0
(C) In Foreclosure (+)	0	0
(D) At Private Collection Agencies (+)	0	0
(E) In Litigation (At DOJ or Agency Counsel) (+)	0	0
(F) In the Process of Internal Offset (+)	0	0
(G) In Wage Garnishment (+)	0	0
(H) At Treasury for Cross Servicing (+)	0	0
(I) At Treasury for Offset (+)	0	0
(J) At Agency (+)	0	513,963
(K) Other - must footnote (+)	0	0
(L) Total Delinquencies 1-180 Days		513,963

## Section B

### Delinquent Debt (Over 180 Days Delinquent) Eligible for Referral to Treasury for Offset and Cross-Servicing

1 Debt Eligible for Referral to Treasury for Collection		
(A) Delinquent Debt Over 180 Days (+)		55,641
(B) Currently Not Collectible Debt (+)		0
(C) Total Delinquent Debt Over 180 Days and CNC Debts		55,641

Debts Ineligible for Treasury Offset Program (TOP) and Cross-Servicing (lines D through G)

(D) In Bankruptcy (-)	0	0
(E) In Forbearance or Formal Appeals Process (including Litigation) (-)	0	0
(F) In Foreclosure (-)	0	0
(G) Other - <u>must footnote</u> (+ or -)	0	0
(H) Balance of Debt Eligible for Referral to Treasury for Collection	0	55,641

<b>2 Debt Eligible for Referral to Treasury Offset Program</b>		
(A) Debt Eligible for Referral to Treasury for Collection (from 1H)	0	55,641
(B) Foreign/Sovereign Debt (-)	0	0
(C) Debt in Litigation for Enforced Collection (-)	0	0
(D) Other - <u>must footnote</u> (+ or -)	0	0
(E) Debt Required to be Referred to Treasury Offset Program by Agency	0	55,641
(F) Debt Referred to Treasury Offset Program (-)	0	-44,122
(G) Debt Referred to Treasury Offset Program through Cross-Servicing (-)	0	0
(H) Balance Remaining to be Referred	0	11,519

<b>3 Debt Eligible for Referral to Treasury or a Designated Debt Collection Center for Cross-Servicing</b>		
(A) Debt Eligible for Referral to Treasury for Collection (from 1H)	0	55,641
(B) Foreign/Sovereign Debt (-)	0	0
(C) Debt in Litigation for Enforced Collection (-)	0	0
(D) At Private Collection Agencies (-)	0	0
(E) In the Process of Internal Offset (-)	0	0
(F) Debt Exempted by Treasury from Cross-Servicing (-)	0	0
(G) Debt Returned from Cross-Servicing (-)	0	0
(H) Other - <u>must footnote</u> (+ or -)	0	0
(I) Debt Required to be Referred to Treasury or a Designated Debt Collection Center for Cross-Servicing	0	55,641
(J) Debt Referred to Treasury or a Designated Debt Collection Center for Cross-Servicing (-)	0	0
(K) Balance Remaining to be Referred	0	55,641

## Section C

### Collections on Delinquent Debt

<b>1 Collections of Delinquent Debt</b>		
(A) By Private Collection Agencies (+)	0	0
(B) By Litigation (+)	0	0
(C) By Internal Offset (+)	0	0
(D) By Third Party (+)	0	0
(E) By Asset Sales (+)	0	0
(F) By Wage Garnishment (+)	0	0

(G) By Treasury / Designated Debt Collection Center Cross Servicing (+)	0	0
(H) By Treasury Offset (+)	0	627
(I) By Agency (+)	0	91,306
(J) Other - must footnote (+)	0	0
(K) Total Collections on Delinquent Debt		91,933

Section D		
CNC Debt Status		
1 Currently Not Collectible Debts (Written Off and Not Closed Out)		
(A) At Private Collection Agencies (+)	0	0
(B) At Treasury or a Designated Debt Collection Center for Cross Servicing (+)	0	0
(C) At Treasury for Offset (+)	0	0
(D) Other - must footnote (+)	0	0
(E) Total - Currently Not Collectible Debts (1A-D not mutually exclusive)	0	0
2 CNC Debts Closed Out During the Current FY (+)	0	0

Section E		
Disposition of Closed-Out Debts		
1 Debts Closed Out During the Previous Calendar Year (CNC and Non-CNC Debts) (+)	0	0
(A) Reported to IRS on Form 1099-C (+)	0	0
(B) Not Reported to IRS on Form 1099-C - (must footnote) (1-1A)	0	0

## **TITLE 7**

### **PART 400 – VOUCHERS AND CLAIMS**

#### **SECTIONS**

401	Scope
402	Authorities
403	Definitions
404	Forms
405	Internal Controls
406	Tax Reporting Requirements
407	Voucher Processing and Payment Terms
408	Interest Penalties and Vendor Discounts
409	Exceptions in the Vouchering of Special Items
410	Accountability
411	Contract Financing
412	Purchase Card Program
413	Cashier Operations (Imprest Fund)
414	Claims

401 SCOPE – This instruction describes the requirements and processes for receiving invoices and disbursing funds to vendors for products and services and to employees for reimbursable expenses other than travel.

#### **402 AUTHORITIES**

402.1 The Accounting and Auditing Act of 1950 requires the U.S. Comptroller General to prescribe the principles, standards, and related requirements for accounting to be observed by each U.S. agency. It requires the head of each U.S. agency to be responsible for establishing and maintaining systems of accounting and internal controls.

402.2 The Prompt Payment Act of 1982 (Public Law 97-177), as amended (Public Law 100-496) requires U.S. agencies to pay their bills on time, to pay interest penalties when payments are late, and to take discounts only when payments are made within the discount period.

402.3 The Federal Managers Financial Integrity Act of 1982 (Public Law 97-255) requires agencies to ensure internal accounting and administrative controls are in place and obligations and costs are in compliance with law.

402.4 The Anti-Deficiency Act cross-walked to Title 31 – Money and Finance, Section 1341, 1349-51, 1511, 1514, 1517-19, dictates that obligations or disbursements will not exceed amounts appropriated, amounts apportioned, or amounts allotted for administrative control.

402.5 Chief Financial Officers' Act of 1990, Public Law 101-576, dated November 15, 1990.

#### **402.6 Administrative Regulations –**

a. GAO Policies and Procedures Manual for Guidance of Federal Agencies, Title 7 – Fiscal Guidance

b. Treasury Financial Manual

(1) Volume I, Part 2: Central Accounting and Reporting

- (2) Volume I, Part 4: Disbursing
- (3) Volume I, Part 5: Deposit Regulations
- (4) Volume I, Part 6: Other Fiscal Matters

c. OMB Circular A-123 (as revised and updated) which defines the implementation regulations for the Federal Managers' Financial Integrity Act of 1982.

402.7 Principles of Federal Appropriations Law, GAO Office of General Counsel, 1982, including relevant chapters, such as:

a. Volume I

(1) Chapter 4 – Availability of Appropriations as to Purpose

(2) Chapter 2 – Availability of Appropriations as to Time

b. Volume II

(1) Chapter 6 – Availability of Appropriations as to Amount

(2) Chapter 7 – Obligation of Appropriations

(3) Chapter 9 – Liability and Relief of Accountable Officers

c. Volume III

(1) Chapter 12 – Claims Against and By the United States

(2) Chapter 13 – Debt Collection

(3) Chapter 14 – Payment of Judgment

## 403 DEFINITIONS

403.1 Accelerated Payment – payment made prior to the due date as determined by the Prompt Payment Act of 1982.

403.2 Acceptance – means an acknowledgement by an authorized Government official that the goods received and services rendered conform with contract requirements.

403.3 Accountable Officer – any U.S. Government officer or employee who is responsible for or has custody of U.S. Government funds. The officer is personally liable to the U.S. Government for any losses the U.S. Government may incur due to the officer's actions or failure to act, unless and until relief is granted or the loss is recovered. Accountable officers include such officials as authorized disbursing officers, certifying officers, collecting officers, cashiers, and other employees who have custody of U.S. Government funds.

403.4 Allottee – are the various offices responsible for the planning, development, and implementation of administrative programs, policies and procedures. Allottees perform budget, fiscal and procurement oversight and coordination.

403.5 Approval – is the attesting by an authorized individual that the provider of goods or services for which the voucher is being prepared, is entitled to payment based upon the receipt of acceptable goods or services. Receipt and payment approval may be a combined attesting.

403.6 Approving Official – Individual who reviews cardholder statement, is responsible for authorizing cardholder purchases (for official use only), and ensures that statement is reconciled

and submitted to the Payment Office in a timely manner. Purchase Card Training is required to serve as an Approving Official. Approving Officials must be issued a memo of appointment from the Office of Contracts to serve as an Approving Official

403.7 Cardholder - individual Government employee to whom a Government purchase card is issued. The card bears the employee's name and can be used only by that employee for official purchases, in compliance with the agency's regulations and procedures and GSA Government Commercial Credit Card Services contract. Purchase Card Training is required to serve as a cardholder. Cardholders must be issued a Delegation of Appointment to serve as a cardholder.

403.8 Cardholder Statement – a statement listing all transactions during the billing period that is sent to each cardholder.

403.9 Central Contractor Registry (CCR) – The CCR is a centralized database maintained by the U.S. Federal government. Organizations wishing to do business with the federal government under a FAR-based contract must be registered in CCR before being awarded a contract.

403.10 Certification – is the final authorization for payment by an authorized certifying officer. Certification is required for all vouchers, except those covered by voucher schedules. In the case of voucher schedules, the certifying officer's signature applies to all the individual vouchers listed on the schedule.

403.11 Certifying Officer – an accountable employee for a U.S. agency (identified on a SF 210) who has been charged with the responsibility of certifying vouchers for payment. A certifying officer is responsible for verifying the accuracy and propriety of all documents upon which payment is to be based and certifying that the payment is legal, correct, and proper.

a. The certifying officer is personally liable for all certifications for payment. Certifying officers are accountable for, and required to make good to the U.S. Government, the amount of any illegal or improper payment resulting from their certification. The conclusions and actions of a certifying officer are governed by pertinent laws and regulations and the exercise of prudent judgment; and

b. A voucher payable to a certifying officer, other than a payroll voucher, is to be signed by another officer authorized to certify (31 U.S.C. 3528; Title 7, Fiscal Guidance).

403.12 Claim – a demand for monies due or alleged to be due.

403.13 Contract – is any enforceable agreement, including rental and lease agreements, purchase orders, delivery orders (including obligations under Federal Supply Schedule contracts), requirements-type (open-ended) supply and service contracts, and blanket purchase agreements between an agency and a contractor for the acquisition of property or services.

403.14 Date of receipt of invoice - is the later of :

a. For invoices mailed, the date a proper invoice is received by the designated agency office, if the agency annotates the invoice with the date of receipt at the time of receipt;

b. For invoices electronically transmitted, the date a readable transmission of a proper invoice is received by the designated agency office;

c. The date on the invoice if the agency fails to annotate the date of receipt (must be a proper invoice); or

d. Date of delivery if the contract specifies the delivery ticket may serve as an invoice.

403.15 Delegation of Authority – a written delegation issued by responsible agency personnel that establishes authorized cardholder(s), specifying spending and usage limitations unique to that cardholder.

403.16 Delivery Ticket – is documentation attached to the shipping receipt or invoice which indicates time, date, delivery routing and acknowledgement (in the form of a signature or initials) that the package has been received and accepted by an authorized person at the shipping destination.

403.17 Day – are the calendar day(s), including weekends and holidays, unless otherwise indicated.

403.18 Deductions – amounts subtracted from the gross voucher amount to determine the payment amount. Deductions can be for:

- a. Cash discounts offered by vendors;
- b. Credit memos (debts) that need to be offset; or
- c. Adjustments specified in the contract.

403.19 Designated Billing Office (DBO) – is the office or employee designated in the contract to receive invoices. Procurement documents should direct vendors to send all invoices to the ordering element, not to the Office of Financial Operations.

403.20 Designated Billing Office Report – a consolidated report sent to each agency billing office at the end of the monthly billing cycle. The Designated Billing Office Report will be the official invoice.

403.21 Disallowance – amount subtracted from voucher amounts to reflect administrative decisions not to pay the entire amount claimed. Disallowances may result from nonperformance, improper performance, improper billings, insufficient proof of performance, deductions of a debt, etc.

403.22 Discount date – is the date by which, if payment is made, a specified invoice payment reduction, or discount can be taken. Discount period begins on the date of the invoice and ends on the date of the discount terms. If no date is placed on the invoice by vendor, the discount period will begin on the date the invoice is received by the proper receiving office.

403.23 Data Universal Numbering System Number (DUNS) – the Contractor Identification Number used to identify Federal contractors. This number is issued by Dun and Bradstreet Information Systems and must be registered in the Central Contractor Registration (CCR) database.

403.24 Electronic Commerce – the integration of electronic-based systems to support common business processes. For example, the purchase card contractor will provide invoices electronically to Federal agency designated billing offices and accept payments electronically from Federal Government Payment Offices, and will provide electronic access to account data and reports.

403.25 Employer Identification Number (EIN) - is the Taxpayer Identification Number obtained by sole proprietorships, businesses, and U.S. Agencies to identify themselves when reporting wage and /or salary payments made as employers to other contracted parties.

403.26 Government Purchase Card – internationally accepted credit card available to Federal agencies under a single GSA contract for the purpose of making simplified acquisitions with a minimum of paperwork. These credit card services are available under a contract awarded by GSA for Government wide use.

403.27 Invoice or voucher – document used to authorize a payment. This document can be a form prescribed by a U.S. Agency and approved by the U.S. Department of the Treasury (e.g., Form SF-1034, Public Voucher for Purchases and Services Other than Personal (domestic); Form OF-206 Purchase Order, Receiving Report and Voucher) or an invoice in a format determined by the vendor, if it has all the required information as described below:

- a. Name and address of vendor;
- b. Invoice date and invoice number;
- c. Contract/Purchase order number, or other authorization for delivery of goods or services;
- d. Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed;
- e. Shipping and payment terms;
- f. Name, title and phone number of responsible official, where practicable, and
- g. Other substantiating documentation or information as required by the ordering document.

403.28 Partial Payment – is a payment made for partial delivery of accepted property or partial performance of accepted services.

403.29 Payments – disbursement of an obligation by issuing a check, cash, or funds transfer to a contractor under a contract or other authorization for property or services accepted by the agency. This includes payments for partial deliveries that have been accepted by the government and final cost or fee payment where amounts owed have been settled between the agency and the contractor. Payment occurs on the date the U.S. Treasury check or wire transfer is issued by the paying office, not the date it is recorded.

403.30 Payment date – is the date on which a check for payment is dated or the date of an electronic funds transfer (EFT) payment (settlement date). Payments made by EFT mechanism will be transmitted to the Federal Reserve Bank at least two business day prior to payment (settlement) date so as to be received by the contractor's financial institution on the established due date. These provisions must be written into the contract.

403.31 Payment Due date – is either:

- a. On the date(s) specified in the contract;
- b. In accordance with discount terms when discounts are offered and taken;
- c. In accordance with Accelerated Payment Methods (5CFR1315.5); or
- d. 30 days after the start of the payment period as specified in 5CFR 1315, if not specified in the contract, if discounts are not taken and if accelerated payment methods are not used.

403.32 Prepayment examination – examination of vouchers prior to certification. The objectives of a prepayment examination are to verify the accuracy of the payment, and the existence of supporting documentation.

403.33 Processing - receiving, sorting, preparing, approving, and prepayment examining of invoices. It begins with the receipt of invoices and concludes with the prepayment examination and presentation of invoices for certification.

403.34 Progress Payment – is a payment made as work progresses under the contract or before receipt of goods or services. This payment process is based upon costs incurred or the percentage or stage of completion as provided under the payment provision of a contract. This is also referred to as an advance, prepayment or contract financing.

403.35 Purchase Card Invoice – the report sent to the designated billing office from the contractor for payment of one or more agency cardholder statements. Agencies may elect to receive the invoice electronically.

403.36 Receipt of goods or services – signature acknowledgement that goods have been received or that services have been performed. This acknowledgment is the basis for approval.

403.37 Receipt of Invoice – for the purposes of determining a payment due date on which interest will begin to accrue, the main rule is that an invoice shall be deemed to be received, and payment due or interest starting thirty (30) days after the invoice is received and date stamped by the administrative office or COTR.

403.38 Receiving Report – is the written evidence of acceptance of property or services by a Government official (e.g., the fifth and sixth copies of Optional Form (OF)-347, Order for Supplies or Services, and Standard Form (SF)-26, Award/Contract).

403.39 Reimbursements – payments made by one U.S. Government agency to another to liquidate accounts payables arising from purchases of goods or services by the other U.S. Agency on behalf of the reimbursing U. S. Agency.

403.40 Simplified Acquisition – an acquisition of supplies, non-personal services, or construction in the amount of \$100,000 or less.

403.41 Split Claim -When claims for reimbursement are made for Representation Allowances, and the claim is split between different vendors or employees for the same occasion/event.

403.42 Suspensions – amounts subtracted from voucher amounts to reflect nonperformance or nonconformance to policy, lack of information, etc. The amount is withheld from the claimant and kept in suspense until the matter is resolved.

403.43 Taxpayer Identification Number (TIN) - is a unique number assigned by the IRS to taxpayers (individuals, businesses, and U.S. agencies) to be used in reporting tax and other returns. In the case of individuals and sole proprietorships, the TIN of the individual or proprietorship is the Social Security Number (SSN).

403.44 Vendor Express – a Government wide program to process vendor and miscellaneous payments electronically through the Automated Clearing House (ACH) network. The payments are deposited directly to the contractor's account on the payment date.

403.45 Voucher and Schedule of Payments (Form SF-1166) also referred to as a "voucher schedule," is a document used to authorize a payment. A voucher schedule might be a group of examined vouchers consolidated on the basis of the type of expense or the mode of payment.

#### 404 FORMS

404.1 BBG-44 – Purchase Order, Receiving Report and Voucher. This form is used to voucher all purchases and services where payment is to be made outside of the U.S. May also be used in place of special forms that are not readily available.

404.2 OF-1129 – Cashier Reimbursement Voucher and/or Accountability Report. This form is used by a cashier to account and be reimbursed for imprest funds.

404.3 FMS-210 – Signature Card for Certifying Officers. This is a card containing the official signature of an authorized Certifying Officer, as certified by the Agency Head or designee.

404.4 SF-1034 – Public Voucher for Purchases and Services Other Than Personal. This form is used to voucher disbursements for purchases and services other than reimbursements to employees.

404.5 SF-1047 – Public Voucher for Refunds. This form is used to process refunds due remitters.

404.6 SF-1049 – Public Voucher for Refunds, same as SF-1047. (Tabular form)

404.7 SF-1080 – Voucher for Transfers Between Appropriations and/or Funds. This form is used as a charge document and disbursement voucher by the agency receiving the funds.

404.8 SF-1081 – Voucher and Schedule of Withdrawals and Credits. This form is used by agencies within the Treasury disbursing area to conduct interagency expenditure transactions.

## **405 Internal Controls**

405.1 Separation of Duties- In accordance with good internal control practices, the following operations should be segregated from one another:

- a. Purchasing goods and services;
- b. Recording receipt of goods and services;
- c. Examining invoices;
- d. Preparing vouchers;
- e. Disbursing funds; and
- f. Settling Claims.
- g. Establishing/maintaining vendors

405.2 Supervision -Internal control objectives are achieved by instituting a system of supervision. Supervision of voucher processing and certification includes:

- a. Assigning responsibilities and duties to appropriate voucher examiners and clerical staff;
- b. Reviewing the work periodically; and
- c. Approving the work at critical points.

405.3 Audit Trail - An audit trail refers to the documentary or other evidence in place (either hard copy or magnetic storage device) that allows the retracing of a transaction to its source. For each voucher/claim the audit trail includes, but is not limited to:

- a. Requisition of goods;
- b. Request for proposals or solicitations;
- c. Issuance of purchase order or contract;
- d. Preparation of a receiving report or other evidence of performance or receipt;
- e. Preparation of vendor or U.S. agency invoice or voucher;
- f. Verification of names and signatures of individuals authorized to approve transactions; and
- g. Maintenance of logs to track claims in transit and voucher schedules.
- h. Accounting classification codes;
- i. Maintenance of relevant dates such as preparation date, processing date, accounting date;
- j. Maintenance of records (i.e., authorization of individuals to perform specific functions, signature cards, letter of authorization);
- k. Retention of supporting documentation and certificates;
- l. Retention of vouchers, supporting documentation, calculations, and computations, etc., for manual processes; and
- m. Maintenance, in an automated environment, of batch control logs, error listings, suspense and exception reports, etc.

## 406 TAX REPORTING REQUIREMENTS

406.1 A paying office is required to complete, by January 31 of each year, certain forms (e.g., IRS Form 1099-MISC, and IRS Form 1099-INT) for the tax year ending December 31 of the previous year. The 1099-MISC and 1099-INT files are electronically transmitted to the IRS by March 31 of the year for which the returns are being filed.

406.2 Forms to be filed include:

- a. IRS Form 1099-MISC, Statement of Recipients of Miscellaneous Income, to report non-employee compensation and other payments including rent, royalty, and fees to subcontractors and others not treated as its employees. The agency is to report on this IRS Form 1099-MISC any person, partnership, or professional group to whom it has paid in a given calendar year, \$600 or more in any form of compensation. This requirement applies to any recipient overseas, subject to U.S. tax laws, including foreign nationals with "green cards."
- b. IRS Form 1099-INT, Statement for Recipients of Interest Income, to report interest payments (due to late payments made under the Prompt Payment Act) made to individuals, partnerships, or trusts; and

406.3 Reporting Exceptions - The following recipients are not to be reported on IRS Form 1099:

- a. Recipients whose compensation is reported on IRS Form 941, Employers' Quarterly Federal Tax Return and/or IRS Form W-2; and
- b. Recipients not subject to U.S. tax laws.

## 407 VOUCHER PROCESSING AND PAYMENT TERMS

407.1 Central Receiving Point - Each administrative office or Contracting Officers Technical Representative (COTR) will, where possible, establish one central office (e.g., administrative or procurement office) responsible for receiving all invoices. Invoices may not be sent directly to the Office of Financial Operations.

407.2 The DBO receiving the invoice shall compare the invoice to the procurement agreement (contract, purchase order, or other authorized document) to verify compliance by the vendor with terms of the order. The invoice must comply with the definition of a proper invoice (see 403.26). If it is not correct, the invoice must be returned to the vendor for correction within seven days of receipt. Failure to return and notify the vendor in writing will result in automatic acceptance and receipt by the agency.

407.3 Invoice Submission Methods – Invoices may be hand-delivered, mailed using the U.S. Postal service, commercial package delivery service, facsimile machine, or electronic mail (e-mail).

- a. Invoices sent via facsimile must be marked "FAXed Original" upon receipt. The date of receipt is the date of receipt of the legible invoice.
- b. Invoices can also be sent via e-mail to the DBO. The date of receipt is date the e-mail was delivered to the e-mail address of the DBO's designated recipient. Contractors and vendors may submit their invoices to the AOs in the form of a PDF file. Other file types should not be accepted; only a PDF file is authorized for acceptance of electronic invoicing.

c. Contractors and vendors may submit their invoices to their AOs in the form of a PDF file. The vendor will generate their original invoice and sign the invoice. Vendors are responsible for their ability to produce the PDF file.

407.4 Designated officials shall promptly inspect property or services to ensure that prompt payment schedules are met. The Prompt Payment Act of 1982, as amended requires that BBG make payments no more than 7 days prior to to payment due date and as close as possible to, but no later than, the due date or, if appropriate, the discount date. Payment will be based on receipt of a proper invoice and satisfactory performance of all contract terms. When BBG fails to make timely payment or takes discounts after the discount date, interest penalties must be paid automatically. The exceptions to this requirements are if the vendor has not submitted EFT information, provided a valid Taxpayer Identification number or failed to maintain their registration in the Central Contractor Registry (for contractors required to register in the Central Contractor Registry).

a. In those limited circumstances when a specific payment date is provided for in the contract, payment will be made as close as possible to, but not later than that date.

b. For construction contract progress payments (by definition, partial payments), payment will be made as close as possible to, but not later than, the 14th day after receipt of the request for payment in the DBO.

c. Emphasis needs to be given that while early payments are permitted for construction contract progress payments, passenger and freight payments, and talent vendor payments, interest penalties still apply if the payment is made after the payment due date.

d. When a time discount is taken, payment will be made as close as possible to, but not later than, the discount date. The discount period starts on the invoice date and ends on the date of the specific discount terms. Discounts will be taken whenever economically justified, but only after acceptance has occurred.

e. Interest penalty payments are to be automatically paid when a payment is late, without the need for vendors or contractors to request them. The current rate is published by the U.S. Department of Treasury and may be found at [www.treas.gov](http://www.treas.gov)

407.5 Invoices must not be altered by the receiving office in any way. Altered invoices submitted to the Payment Office for payment will be returned to the DBO.

407.6 All invoices must be stamped with a mandatory receiving stamp to certify the receipt of goods and services. The SF-1164, SF-1034 and BBG-44 do not require the stamp. Invoices that do not have the required receiving stamp and all required information and signatures will be returned to the AO. A sample of the receiving stamp and instructions can be found below:

Obligation	Line & Amount
Received Date	Acceptance Date
I certify the goods and services indicated on the invoice Have been received by the BBG and are acceptable.	
<hr/> <div>Signature of Receiving Official/COTR      Date</div>	
<hr/> <div>Signature of Administrative Officer      Date</div>	
<hr/> <div>Administrative Officer Phone Number/fax</div>	

a. The receiving official may be the COTR, office director, requestor, or any other individual who has physically received and accepted the goods and services on behalf of the BBG.

b. Upon receipt of the invoice enter the invoice receipt date in the box marked "Received Date". This is the date you received the invoice. If by mail it will be the date received by interoffice delivery. If via email it will be the date of the email. If the designated billing office fails to annotate the invoice with the date of receipt, the date of the invoice will be considered to be the date of receipt of the invoice.

c. Enter the date the goods and services were accepted by the BBG in the box marked "Acceptance Date". This is the date the agency physically accepted the goods or services.

d. The invoice should then be returned to the AO for certification of funds availability, the identification of the obligation document number, the obligation line number(s), and dollar amount to be applied to each obligation line, along with the receiving official's signature and phone number.

407.7 AO submits the verified invoice to Payment Office within 3 calendar days of receipt, dates stamps the invoice into the Payments Office in the appropriate in-box. For contracts not in Momentum, the AO will attach copies of the purchase order and/or contract to the invoice to verify the vendors name, period of performance and rate of payment.

a. International invoices must be accompanied with international payment cover sheet. This will ensure that international payments are directed to the correct voucher examiner and not delayed.

b. "Same Day Payments" must be accompanied with the appropriate cover sheet, which includes an explanation of why same day payment service is required.

407.8 Payment Office – Procedures

a. Payment Office receives and audits invoice to ensure that it there is a valid obligation for the payment, it is a proper invoice, the required invoice stamp is completed and signed, and supporting documentation is attached to the invoice, i.e., copy of purchase order or contract.

b. Invoice Consolidation - Agencies are requested by the Treasury Department to increase the number of payment items per voucher-schedule, particularly in those cases where schedules cover only one, two, or three items. Additionally, the Payment Office shall ensure invoices are consolidated to the same vendor (and address), payment by a single check or funds transfer (I TFM 4-2025.50) when the following conditions exist:

- (1) Payment is made to a single office or location;
- (2) Payment is on behalf of a single U.S. Government bureau within a Federal Agency except when payment is made overseas, in which case the payment may be made on behalf of more than one U.S. Agency;
- (3) Consolidation is agreeable to the vendor or Federal agency;
- (4) Consolidation does not result in loss of discounts (this might occur if invoices carrying discount terms are held for payment beyond the discount date in order to combine with other invoices received or expected); and
- (5) Provisions of the Prompt Payment Act are not violated. Invoices should not be held beyond the payment due date (as defined under the Prompt Payment Act) solely for the purpose of consolidation with other invoices received or expected. The agency is liable for interest and penalties for any delays in payment to all vendors.

c. Payment Office enters the invoice and appropriate accounting data into the financial management system and verifies availability of funds.

d. Invoices with missing elements, i.e., required receiving stamp, invoice number, mathematical errors, supporting purchase orders or contracts, will be returned to the AO.

e. Certifying Officer verifies that data has been correctly keyed into the financial management system by comparing the invoices to the financial management system data and supporting documentation;

f. Certifying Officer determines if invoices processed into the financial management system data are eligible for certification; and

g. The financial system calculates the appropriate disbursement date based upon the dates provided on the receiving stamp on the invoice. International payments are processed through the International Treasury System (ITS).

h. All payments to non-federal entities are certified through the Department of Treasury's Secured Payment System (SPS). The payment information is entered into the SPS via a data entry operator, while Certifying Officers perform certification of the payments. In the event that it becomes necessary to change the scheduling of a voucher (schedule) previously submitted to FMS (different processing or payment date) or it becomes necessary to cancel a voucher previously submitted to FMS (prior to processing and release of payments), instructions for such actions will only be accepted from properly authorized individuals such as a Certifying Official or Designating Official.

i. Organizations doing business with the federal government under FAR based contracts are required to register in the CCR and maintain this registration. Registration in the CCR includes

maintaining current banking information so that payments can be processed via electronic funds transfer.

j. Intra-governmental Payment and Collection (IPAC) System - The IPAC System provides a standardized interagency fund transfer mechanism for Federal Program Agencies. Within BBG, this requires the timely review and processing of IPAC transactions. BBG must also use this same process to initiate charges to other Federal agencies.

(1) Steps to process charges to another Federal agency:

- The Financial Analysis and Reporting Branch, Accounts Receivable section is notified by a program office that a charge is to be made to another Federal agency. The program office provides a copy of the agreement, amounts expended under the agreement, and invoice for the goods or services provided.
- The Financial Analysis and Reporting Branch, Accounts Receivable section establishes a receivable for the amount of the reimbursement in the financial management system.
- A copy of the receivable record in the financial management system, a copy of the agreement with the other agency fiscal data, evidence of the amount expended (invoices, salary charges, and other cost documentation), and invoice are given to the IPAC accounting technician.
- The accounting technician accesses IPAC and processes an IPAC charge against the other agency for the amount owed.
- The accounting technician records a collection against the receivable in the financial management system.
- The accounting technician creates a folder for the IPAC with all the supporting documentation, a screen print of the IPAC charge, and a screen print of the collection. The folder is filed for future reference.

(2) Processing Charges to the BBG:

- Each business day, the Payment Office draws down the transactions affecting the agency's Agency Location Code (ALC) through the IPAC System.
- The Payment Office provides the IPAC data to the appropriate bureau within BBG. If the Payment Office cannot identify the responsible Bureau within BBG, using the information provided on the IPAC, the charging agency is contacted to provide additional information. The charge is reversed if the charging agency does not provide sufficient information to support it is a valid BBG cost.
- Each office has the responsibility of approving that goods/services were received and the payment is correct and proper; and providing the appropriate fiscal data.
- The office then provides the completed document(s) to the Payment Office.

407.9 Recovering Amounts Due - When an amount is due BBG from a vendor or contractor, collection is made by deduction (offset) from the current or next voucher submitted for payment. The Office of Financial Operations, Financial Analysis and Reporting will maintain a listing of vendor accounts receivable owed to BBG. Such deductions should be made whether the

collection is related to the voucher submitted for payment or not. The amounts collected will be credited against the accounts receivable for the vendor or contractor.

407.10 Vendor Deduction Inquiry Procedures - Vendors whose invoices have been reduced should work through their AOs to identify the reasons and amounts. The AO should contact the Payment Office if they need additional information.

407.11 Time-Barred Invoices - In accordance with 31 U.S.C. 3702 and 3726, a claim shall be allowed only if it is received by the DBO no later than three years after, for the payment of transportation related invoices or no later than six years after for the payment of all other invoices, excluding time of war, after the later of the following dates:

- a. Accrual of the claim;
- b. Payment for the receipt of goods or services is made;
- c. Refund for an overpayment for the goods or services is made; or
- d. Deduction is made from amounts due to the claimant to adjust excess charges paid previously.

407.12 When an Invoice is Not Needed - Invoices are not needed for:

- a. Transfers and purchases between U.S. agencies where an agreement between the agency and another relevant agency covers the range and costs of transactions; or
- b. Recurring payments for services when an agreement exists specifying the BBG will pay for the services received. These agreements call for the payment of a fixed amount at regular intervals over a specified period of time (e.g., rents, leases, or janitorial and custodial services).

407.13 Duplicate Invoices - Payment is made on original invoices only. If the original is lost, a copy marked "Duplicate Original" may be used when supported by an administrative approval (by the program AOs) on the document. Vouchers, voucher schedules, and supporting documentation must be marked clearly to prevent duplicate processing. The PASS 2 stamp should be used on all payment documents. Every invoice scheduled for payment will be marked using the PASS 2 stamp with the initials of the certifier and the date. Duplicate invoices are more likely to appear under one of the following conditions:

- a. Payments have been delayed and duplicate invoices are submitted by vendors as follow-up claims;
- b. Vendors submit invoices to more than one office for payment; or
- c. Invoices have been adjusted and are resubmitted after being paid.

407.14 Lost Invoice - The date of receipt of the invoice is the date on which the agency becomes liable for timely payments even if the invoice is subsequently lost. If an invoice is lost, the agency must obtain a copy or the details of the underlying transaction. If examination and certification are delayed, causing payment beyond the due date (based on the date of receipt of the original invoice), the agency is liable for interest and penalties.

a. For Invoices that are lost Before Payment

- (1) When an original voucher or invoice is lost before payment, the approving official obtains another voucher or invoice (unsigned) from the payee, if a copy is not on file. On all such

duplicates, the payee must state that the original has been lost and that payment has not been received.

- (2) If a memorandum copy of the lost invoice or voucher is available, the approving official prepares a new voucher or invoice from it. The new voucher or invoice must be distinctly and prominently marked "DUPLICATE." Attach the memorandum copy of the lost voucher to the duplicate.
- (3) The approving official inserts or attaches, securely, a full explanation of the circumstances surrounding the loss or destruction of the original voucher or invoice to the duplicate voucher.
- (4) Certification that administrative control has been established to preclude the making of a duplicate payment in the event that the original voucher or invoice is subsequently located is also required. Attach and file together all documents pertaining to both the original and the duplicate voucher. Administrative controls to prevent duplicate payments include:
  - Ensuring that sufficient and reasonable checks are built into the system (manual or automated) to prevent duplicate payments;
  - Ensuring that written procedures exist to prevent or reduce the possibility of duplicate payments;
  - Ensuring that examiners and certifying officers are aware of such procedures and of the circumstances that typically result in duplicate payments
  - Conducting periodic reviews of vendor paid files to ensure that duplicate payments have not been made;
  - Conducting unannounced checks to test the adequacy of procedures and their effective implementation; and
  - Conducting periodic reviews of reports produced by the system to ensure that duplicate payments have not been made.

b. For Invoices that are Lost After Payment

- (1) If an original voucher is lost after payment, the Payment Office should prepare another voucher based on the memorandum copy and mark such a voucher distinctly and prominently "SECOND ORIGINAL – PAID." The payee need not sign the voucher. The voucher must have supporting approval similar to the original voucher.
- (2) The Payment Office should provide a full explanation of the circumstances surrounding the loss of the original voucher and attach the memorandum copy. The second original is to be attested as a true copy of the first, over the signature of the certifying officer. The memorandum copy of the second original must be attached to the memorandum copy of the lost voucher and filed together with all documents pertaining to both the first and second original vouchers.

#### 408 INTEREST PENALTIES AND VENDOR DISCOUNTS

408.1 Interest Penalties - All elements and personnel involved in procurements and processing of invoices must take appropriate steps to reduce late payments and interest penalties.

- a. Notice of Interest Penalty – When BBG pays a late payment interest penalty, the payment must be accompanied by a notice of the amount of the interest penalty included in the payment,

the rate used by BBG to compute the penalty, and the number of days used by BBG to compute the penalty. The contract and invoice number should also be included in the notice to assist the contractor in reconciling the payment.

b. Exempt Invoices from Prompt Payment Act (PPA) - Complete Exemption for the following classes of payments are specified in the PPA:

- (1) petty cash vouchers;
- (2) communication bills;
- (3) insurance;
- (4) advance payment;
- (5) grants to non-profit organizations and individuals; or
- (6) utility payments.

c. Determining the Date Interest Starts – For the purposes of determining a payment due date and the date on which interest will begin to accrue if a payment is late, an invoice shall be deemed to be received (FAR 52.232-25 and 5 CFR 1315.4) On the later of :

- (1) For invoices that are mailed, the date a proper invoice is actually received by the designated agency office if the agency annotates the invoice with date of receipt at the time of receipt. For invoices electronically transmitted, only a PDF file is acceptable, the date a readable transmission is received by the designated agency office, or the next business day if received after normal working hours; or
- (2) The seventh day after the date on which the property is actually delivered or performance of the services is actually completed; unless
  - The agency has actually accepted the property or services before the seventh day in which case the acceptance date shall substitute for the seventh day after the delivery date; or.
  - A longer acceptance period is specified in the contract, in which case the date of actual acceptance or the date on which such longer acceptance period ends shall substitute for the seventh day after the delivery date;
  - On the date placed on the invoice by the contractor, when the agency fails to annotate the invoice with date of receipt of the invoice at the time of receipt (such invoice must be a proper invoice); or
  - On the date of delivery, when the contract specifies that the delivery ticket may serve as an invoice

d. Late Payment Interest Penalty Procedures will be calculated by BBG's use of the following procedures:

- (1) Interest will be calculated from the day after the payment due date through the payment date at the interest rate in effect on the day after the payment due date;
- (2) Adjustments will be made for errors in calculating interest;
- (3) (For up to one year, interest penalties remaining unpaid at the end of any 30 day period will be added to the principal and subsequent interest penalties will accrue on that amount until paid;
- (4) When an interest penalty is owed and not paid, interest will accrue on the unpaid amount until paid,

(5) Interest penalties under the Prompt Payment Act will not continue to accrue:

- After the filing of a claim for such penalties under the Contract Disputes Act of 1978; or
- For more than one year.

(6) Interest calculations are to be based on a 360-day year.

e. Penalties Not Due:

- (1) When payment is delayed because of a disagreement between BBG and a contractor over the amount of the payment or other issues concerning compliance with the terms of a contract (claims concerning disputes, and any interest that may be payable with respect to the period while the dispute is being settled will be resolved in accordance with the provisions in the Contract Disputes Act of 1978, 41 U.S.C. 601, except for interest payments required under 31 U.S.C. 3902 (h)(2); or
- (2) When payments are made solely for financing purposes or in advance, except for interest payments required under 31 U.S.C. 3902(h)(1) and (h)(2); or
- (3) For a period when amounts are withheld temporarily in accordance with the contract.
- (4) When interest penalties are less than one dollar.
- (5) When BBG cannot complete transmission of payment to a contractor by electronic funds transfer because of incorrect or incomplete bank account information provided by the contractor, BBG is exempted from payment of interest penalties for the period between the date of attempted transmission and the date on which the contractor supplies correct information to BBG.

f. Additional Penalties shall be entitled to a contractor when the contractor:

- (1) Receives a payment after the payment due date which does not include the interest penalty also due to a contractor;
- (2) Is not paid the interest penalty by BBG within 10 days after the date on which such payment is made; and
- (3) Makes a written request, not later than 40 days after the date on which such payment is made, that BBG pay such an additional penalty. The contractor request must specifically assert that late payment interest is due on a specific invoice and request payment of all overdue late payment interest penalty and such additional penalty as may be required. The written request must include the following:
  - Specific assertion that late payment interest is due for a specific invoice, and request payment of all overdue late payment interest penalty and such additional penalty as may be required; and
  - A copy of the invoice on which late payment interest was due but not paid and a statement that the principal has been received, and the date of receipt of the principle.
- (4) The maximum penalty shall be equal to one hundred percent of the original late payment interest penalty. The additional penalty shall not be greater than \$5,000.
- (5) The minimum penalty regardless of the amount of the late payment interest penalty, the additional penalty paid shall not be less than \$25. No additional penalty is owed, however, if the amount of the interest penalty is less than \$1.00.

- (6) Penalty basis -The penalty is based on individual invoices. Where payments are consolidated for disbursing purposes, the penalty determinations shall be made separately for each invoice therein.
- (7) The additional penalty does not apply to the payment of utility bills because late payment penalties for these bills are determined through the rate-setting process.

408.2 Invoices with Vendor Discounts - "When a discount is taken, payment will be made as close as possible to, but no later than, the discount date. If an agency takes the discount after the deadline, the agency shall pay an interest penalty on any amount remaining unpaid as prescribed in §1315.10(a)(6)." (5 CFR 1315.7) Payment must be based on receipt of proper invoices or progress payment requests and satisfactory performance of contract terms. For BBG's purposes, the discount date is the last day the discount is available, as stated on the invoice. If payment is made within the discount period, a specified invoice payment reduction, or discount, can be taken.

- a. Discounts will be taken whenever they are cost effective. A discount is cost effective when the rate offered is greater than the cost to the government for borrowing the money to pay the invoice. When the vendor has fulfilled the terms of the contract/order and a discount rate greater than the government cost of funds is offered, BBG will accept and process the invoice to earn the discount in all cases.
- b. The AO or COTR should ensure the following procedures are taken which incorporates the above criteria, to ensure vendor invoices offering discounts are taken to prevent the loss of budgetary resources.
- c. The COTR should obtain and mechanically stamp all invoices offering discounts with red ink as follows:

#### **FAST PAY – VENDOR DISCOUNTS**

- d. The AO or COTR should ensure the obligation number is cited in the required invoice-receiving stamp. The AO or COTR is encouraged to run a yellow highlighter pencil over the invoice terms of discount so the Office of Financial Operations can easily spot the discount.
- e. For those invoices forwarded to the Office of Financial Operations without a receiving report, the AO or COTR is still responsible for the receiving report, or for sending necessary documentation to the Office of Financial Operations to establish an account receivable for invoice discrepancies. To avoid the possibility of duplicate payments, the administrative office or COTR is not required to forward these receiving reports to the Office of Financial Operations but to maintain them in a file for review/audit. The AO or COTR should attach to these receiving reports either a copy of the invoice, or a second (duplicate) vendor copy of the invoice.
- f. If the vendor is mailing the invoice so late to the administrative office or COTR that the discount is lost, the administrative office or COTR is required to ask the vendor to mail future invoices on the date of the invoice. In such cases or for other reasons, the AO or COTR should forward the invoice to the Payment Office and annotate on the invoice the reason why the invoice was late in submission to the Payment Office.

#### **409 EXCEPTIONS IN THE VOUCHERING OF SPECIAL ITEMS**

409.1 This section of the MOA contains the agency's policy on vouchering special items. Special items are defined as those items that are either processed and/or certified differently than ordinary items. Some examples of special items include: advance payments to contractors,

allowances, capital expenditures, medical expenses for United States employees and other expenditures which are viewed as outside of the normal vouchering routine and in some cases are unique to BBG's foreign posts.

409.2 Advance Payments Other than Travel - Advance payments to contractors or vendors refer to a payment made in contemplation of future performance of a service, receipt of goods, incurring an expenditure, or for other assets, except payments for travel related service (e.g., airline tickets, rail transportation). BBG makes advance payments to contractors or vendors in anticipation of and for the purpose of facilitating performance.

a. Limitations on advance payments are described below:

- (1) Advance payments can only be made if authorized by a contract or purchase order.
- (2) In foreign areas, advance payments are subject to approval by the principal BBG representative at post.
- (3) A payment under a contract by BBG to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered (31 U.S.C. 3324).

b. Transaction Authorization - An advance of public money may be made only:

- (1) if it is authorized by appropriation;
- (2) Other law; or
- (3) The President. Specifically, the President may authorize an advance to a disbursing official if the President decides the advance is necessary to carry out the duties of the official promptly and faithfully and it is an obligation of the Government (31 U.S.C. 3324).

c. Eligible Advances - The following advances are eligible for payment as provided by specific law(s):

- (1) Charges for a publication printed or recorded in any way for the auditory or visual use of the agency (33 U.S.C. 3324);
- (2) Advances to employee for allowances (5 U.S.C. 5922);
- (3) Advances to employees for travel; (5 U.S.C. 5705)
- (4) Advance rental payments for less than 10 years (22 U.S.C. 2670)
- (5) Advance payments under contracts for property or services not to exceed the unpaid contract price (41 U.S.C. 255);
- (6) Training and tuition fees (5 U.S.C. 4109);
- (7) Advance payments of salary, allowances, and/or differentials, to or for the account of an employee whose evacuation, or a dependent's evacuation, is ordered under emergency evacuation procedures (5 U.S.C. 5522);
- (8) Advance payment, in whole or in part, of the estimated or actual cost as determined by the agency, to another agency of the U.S. Government for goods or services (5 U.S.C. 1535);
- (9) Insurance on official motor vehicles operated overseas;

(10) Insurance for health and life of FSN employees overseas; and

(11) Advance of pay to an employee upon assignment to a post in a foreign area (5 U.S.C. 5927).

d. Vouchering Requirements

- (1) Advance payments must be documented and recorded as receivables as soon as they are made.
- (2) When the advance payment made exceeds the amount of goods received or services performed, the Office of Financial Operations must treat the balance due as a receivable and collect the amount due.
- (3) Recorded receivables must be tracked and promptly adjusted to reflect the work or service delivered.

409.3 Representation Allowance - Allowable expenses for Representation Funds are described in Title 2 Section 200. The Standard Form 1034 (SF-1034) is the form to be used for vouchering or making payments or reimbursements for allowable representation charges. Whenever possible, include a number of claims incurred in the same month by a claimant on a single SF-1034.

a. The SF-1034 must contain among other things, an explanation concerning the following items as required by Standardized Regulations:

b. Vouchers for Entertainment:

- (1) Type and location of function;
- (2) Purpose:
  - Promotion of U.S. national interests
  - Protection of U.S. citizens' interests;
  - Promotion of economic activities; or
  - Commemorative and ceremonial requirements.
- (3) Names and titles of American and foreign guests of honor;
- (4) A description of the official business conducted when all guests are U.S. citizens.

c. Vouchers for Other than Entertainment:

- (1) Occasion;
- (2) Name and title of recipient or recipients;
- (3) Reason for expenditures;
- (4) Purpose (as defined above)

d. Split Claims – Make a cross-reference to the original payment on any subsequent SF-1034 for a part or balance due for the same occasion.

e. Receipt Requirements – Receipts should normally be attached to the SF-1034 to support each expenditure over \$25 on a single occasion. Expenditures for caterers or similar purveyors

should always be supported by receipts regardless of the amount. If it is not practical to obtain receipts for single payments over \$25, certification to this effect must be made on the SF-1034.

f. Submission, Approval, and Distribution of SF-1034.

- (1) Submission of the SF-1034 is done the same month the expenditure is incurred or as soon thereafter as possible;
- (2) Administrative approval is done by the head of the agency's overseas office, or his/her designee. They sign the voucher as the approving officer. Only American employees may be designated to approve representation vouchers.
- (3) Distribution and number of copies of the SF-1034 may vary in accordance with local practices; however, when a SF-1034 is paid, the original is included in the regular monthly accounts of the disbursing officer. When a SF-1034 cannot be paid because of lack of funds, the certifying officer at the post retains the original.

409.4 Purchase and Maintenance of Protective Clothing and Equipment - BBG has the authority for the purchase and maintenance of special clothing and equipment at Government expense for the protection of employees through the Act of August 2, 1946 (5 U.S.C. 7903). This provision applies to both domestic and overseas employees, including foreign national employees.

a. Determining the Propriety of Purchase – Overseas, the head of the establishment (or his or her designee) is responsible for determining that duties of an employee require special protective clothing or equipment suitable for purchase from BBG's funds. Domestic Division Chiefs or officers of equal or higher rank are assigned this responsibility. The determination should be stated in writing and attached to the voucher covering the purchase of the clothing or equipment.

b. Guidelines for Determining Propriety of Purchase

- (1) The general rule is that special clothing or equipment may not be purchased at Government expense if it is for the convenience, comfort, or personal benefit of employees, or may reasonably be required to be furnished by employees as part of the usual and necessary clothing or equipment for the duties for which they were employed.
- (2) The approving officer must be satisfied that two basic questions are answered in the negative:
  - Can the job be accomplished as expeditiously and satisfactorily from BBG's viewpoint without the special apparel or equipment?
  - Points to consider include, (1) Does BBG or employee receive the principal benefit? (2) Could the employee be required to perform the service without the particular item?
  - Is the clothing or equipment a type an employee should reasonably be required to furnish him or herself to enable them to perform the regular duties of the positions to which they were appointed? Points to consider include: (1) Is the clothing or equipment used in connection with regular duties, or only in emergencies or infrequent intervals? (2) Is the clothing or equipment assigned to a specific individual or available to different employees?
- (3) Allowable items do not readily lend themselves to specific detail since circumstances under which specific items of apparel or equipment are required vary. However, some examples of allowable items are listed below:
  - Rubber gloves and aprons for protection in handling poisonous chemical baths.

- Fire-resistant special purpose overalls (as opposed to overalls worn for usual mechanical duties).
  - Spiked boots for climbing poles, if such activity is part of an employee's normal duties.
  - Safety goggles (not sunglasses).
  - Costumes or unusual apparel not generally a part of an individual's wardrobe to be worn solely while performing a part in a program, production (television, motion picture, etc.)
  - Distinctive apparel to be worn by exhibit guides at international fairs and exhibitions in the performance of their duty when BBG participation in such fairs or exhibitions is under authority of P.L. 87-256 (Mutual Educational and Cultural Exchange Act of 1960).
  - Uniforms, uniform caps, or other identifying clothing.
- (4) Control – All clothing and equipment purchased from BBG funds for use by employees remains the property of BBG and must be properly recorded and controlled. They must be kept on BBG premises, available for any required user, except when being used off the premises in connection with official duties.
- (5) Maintenance – Costs for repairing and cleaning items of equipment and protective clothing purchased with BBG funds and kept on BBG premises for general use are properly payable from BBG funds. Uniforms, protective clothing or equipment in the custody of employees whose duties require them to wear such clothing may not be cleaned or laundered at Government expense.

#### 409.5 Capital Expenditure, U.S. Government Deposits

- a. Form SF-1034, should be used to voucher payments for the purchase of real property overseas. Form SF-1034, Public Voucher for Purchases and Services Other than Personal, is required domestically.
- b. Each voucher making payment for real property in foreign areas must be supported by an attested copy of a certificate by a local land expert as to the validity of the title. If a required certificate of a local land expert is not attached, the voucher must be supported by a memorandum, signed by the management officer, stating the circumstances and reasons for the absence of the certificate.
- c. Deposits for good or services should be vouchered as a charge against the appropriation chargeable with the related goods or services. The voucher must contain a statement that the deposit, together with the accrued interest, will be repaid to the U.S. Government when the nonexpendable item loaned, rented, or leased is returned. The payee must certify this statement. The Office of Financial Operations, Financial Analysis and Reporting must establish an account receivable.

409.6 FSN Employee Emergency Medical - Emergency Medical Expenses for BBG's FSN employees are covered under the joint FSN Employees plan administered by the Department of State. Costs incurred by the Department of State are charged back to the BBG allotment funding operations where the employee is working.

409.7 Official Residence Expenses - Official Residence Expenses (ORE) are intended to make possible the operation and maintenance of official residences in which principal representatives

can properly represent the United States abroad. Its purpose is to extend official hospitality to foreign dignitaries and important visitors. BBG personnel follow the ORE voucher processing established by the BBG. The Approving Official is to be a designated individual in the Office of Human Resources.

409.8 Advertising for Supplies and Services - Advertisements, notices, proposals for contracts, and all forms of advertising required by law may be paid for at a price not to exceed the commercial rates charged to private individuals with the usual discounts. The head of the agency may secure lower terms at special rates when the public interest requires it.

409.9 Local Transportation Claims - Local travel is defined as any travel within a 100 mile radius from the employees official duty station to another location for less than 12 hours, including work hours for official duty and required to perform the duties assigned to the employee.

- a. Local travel reimbursement is to be claimed on the SF-1164 Employee Claim for Reimbursement and approved by the supervisor. Administrative Officers should certify funds available and obligate these claims on the IA-151 Miscellaneous Obligation using object class 2163.
- b. Claims of less than \$25 are paid by the imprest fund cashier, claims greater than \$25 are paid by the Payment Center.
- c. Public transportation such as Metrorail and buses should be used for official travel within the Metropolitan area, and employees are urged to use these modes whenever time and circumstances permit.
- d. Cash Payment for Public Transportation - When it is not possible for an employee to obtain metro fare cards as provided above, reimbursement may be made for official travel on SF-1164, Claim for Reimbursement for Expenditures on Official Business. The SF-1164 is completed, approved, and submitted to a cashier for payment in the same manner as prescribed for taxicabs.
- e. Use of Taxicabs
  - (1) Receipts for all taxicab reimbursements are required for local travel, regardless of amount. The DC Taxi Commission requires taxi operators in the District of Columbia to provide passengers with printed metered receipts. These are the only type of receipts that will be accepted for local taxi services.
  - (2) Reimbursement - Reimbursement for use of taxicabs, when allowable, will be made when charges are properly vouchered and approved in accordance with the succeeding paragraphs. Reimbursement for tips to taxi drivers is limited to 15 cents where the fare is \$1 or less, or 15 percent of the fare where the fare exceeds \$1. If the amount of the tip, computed at 15 percent, is not a multiple of 5, it may be increased to the next multiple of 5. Claims for taxicab or similar local transportation expenses are fully itemized. Entries are made (e.g., date, points of origin and destination, cost of fare and tip) as each trip is completed. When fares exceed charges for one person, the number of other passengers is listed in the "From" column immediately below the applicable entry.
  - (3) Between Places Where Official Business is transacted -Taxicabs may be used only when advantageous to the Government and the expense of the taxicabs is justified by official needs that cannot be met through the use of public transportation. A taxicab should not be used for a trip of less than six blocks (each way) except for reasons of physical incapacity, seriously inclement weather, or when transporting official materials too cumbersome to carry. In each such case of use, the claimant must state the reason on the voucher. Also, reimbursement for use of a taxicab for a trip of less than six blocks (each way) may be allowed if the officer

administratively approving the voucher certifies on the voucher for each such use that time or official security factors were sufficiently critical to warrant the use of a taxicab.

(4) Use of Taxicabs Between Home and Office in Case of Necessity

- Basic Rule - The basic rule is that an employee is personally responsible for the cost of transportation between his or her home and place of duty.
- Employee Dependent on Public Transportation - Overtime Work - Reimbursement for taxi fare between office and home may be allowed in cases where the following conditions apply:
  - The employee working the overtime is dependent on public transportation and without alternative transportation; and
  - Travel time is during hours of infrequently scheduled public transportation or darkness. "Infrequently scheduled public transportation" does not mean that public transportation is not as readily available as at the height of rush hour. The determination involves such factors as risk of harm, and unusual and lengthy delays because of curtailment of service. "Darkness" connotes late evening hours when few people are using public transportation. Darkness is not a valid condition when solely based on early evening hours when much of the employed population is commuting from work.
  - Unusual Nature of Assignment- Overtime Work - Reimbursement for taxicabs between the place where official business is transacted and home for travel incident to officially ordered work outside an employee's regular working hours performed on a "call-back" basis or on a regular non-work day may be allowed in such rare situations where the use of taxicabs is demonstrably necessary to successfully perform the particular assignment. Such reimbursement is limited to taxicab use immediately proceeding and/or following the officially ordered overtime, and is allowable only when the employee and the officer ordering the overtime could not reasonably have taken action to preclude the necessity for use of taxicabs.

f. Use of Privately Owned Automobile

- Reimbursement - Reimbursement for use of privately owned automobile, when allowable, will be made when expenses are properly vouchered and approved in accordance with the succeeding paragraphs. Please contact your administrative officer for current mileage rate reimbursement. An Employee will, in addition, be reimbursed for the necessary cost of parking fees, ferry fares, and bridge, road, and tunnel tolls, unless administrative determination restricts their allowance. Employees are expected to exercise prudence and avoid such charges or keep them to a minimum.
- Between Places Where Official Business Is Transacted -Privately owned automobile may be used only when advantageous to the Government and the expense of such means of travel is justified by official needs that cannot be met through use of other means of transportation. Privately owned automobiles should not be used for trips of less than six blocks (each way) except for reasons of physical incapacity, seriously inclement weather, or when transporting materials too cumbersome to carry. In such case of use, the claimant must state the reason on the voucher. Also, reimbursement for use of a privately owned automobile for a trip of less than six blocks (each way) may be allowed if the officer administratively approving the voucher certifies on the voucher for each such use that time or official security factors were sufficiently critical to warrant the use of the automobile.

- Use of Privately-owned automobile Between Home and Office in Case of Necessity
  - Basic Rule - The basic rule is that an employee is personally responsible for the cost of transportation between his or her home and place of duty.
  - Use of Personally Owned Automobile Determined Advantageous to the Government During Regular Hours of Duty and/or Overtime Hours Immediately Preceding and/or Following Regular Hours - When it is determined advantageous to the Government for the employee to have his or her privately owned automobile available during the working day for use for travel between places where official business will be transacted, reimbursement will not be allowed between the employee's home and the places where official business is transacted. However, ferry fares, and bridge, road and tunnel tolls between such points will be allowed if they would not normally be incurred in driving to and from the employee's regular headquarters building, unless administrative determination restricts their allowance. Parking fees, when necessarily incurred, will be allowed at all places where official business is transacted, including parking fees incurred incident to duty at the employee's regular headquarters building.
  - When an employee pays for parking incident to duty at his or her regular headquarters building on a monthly basis, he or she may be reimbursed for those days during which the automobile is used for official travel on a pro-rata basis to be based on the number of days of actual rental period. Under no circumstances are parking fees allowable incident to duty at headquarters building if the automobile is not used as advantageous to the Government on official business to another place or places of duty during the day.
  - Unusual Nature of Assignment - Reimbursement for use of privately owned automobile between place or places where official business is transacted and home in connection with overtime work not immediately preceding or following regular working hours (including overtime work on a regular non-work day) may be allowed in such rare situations where the use of a privately owned automobile is demonstrably necessary to successfully perform the particular overtime assignment. Reimbursement for use of private automobile is not authorized, however, when used as transportation in lieu of public transportation in such overtime situations for the convenience of the employee. Reimbursement may include mileage to and from home and all fees necessarily incurred. Reimbursement is allowable only when the employee and the office ordering the overtime could not reasonably have taken action to preclude the necessity for use of the privately owned automobile.

g. Preparing Vouchers for Reimbursement

- (1) Form and Frequency of Filing Vouchers - Vouchers for reimbursement of expenditures for use of taxicabs and privately owned automobiles are prepared in original on SF-1164, Claim for Reimbursement for Expenditures on Official Business. Vouchers may be prepared as frequently as necessary, but preferably not more than once a week for those employees whose duties require recurring trips. However, vouchers must be submitted not later than sixty days after the expense has been incurred.
- (2) Data To Be Shown
  - All Vouchers - Enter the name of the Organization, name and organization symbol of the claimant, and office address of the claimant. For each trip, enter date, origin and

destination, and the amount claimed. Specify the purpose of each trip on the line (or lines) immediately following the entry for the trip; general statements such as "Official Business" or "To attend meeting" are not adequate. In the case of use of taxicabs, show the amounts of the fare and tip separately. In the case of use of privately owned automobile, enter the odometer readings at the beginning and end of each trip, total miles, and mileage claimed; also itemize and enter the amount of each parking fee and other allowable fees. If travel is less than six blocks (each way), state reason why taxicab or use of privately owned automobile was necessary. Enter totals of each column and grand total. The claimant dates and signs the SF-1164 in ink in the space provided.

- Additional Data To Be Shown on Vouchers for Taxicabs Between Place of Duty and Home - Overtime Work - If claim is made for taxicab fares under provisions above, itemize in connection with each claimed trip the conditions set forth in that paragraph and make the following affirmative statement that such conditions were met. "Travel performed by the claimant met the requirements of the MOA." Allow space before the next entry for a special approving officer to indicate his or her approval or disapproval and signature. Enter for each claimed trip the reason why use of a taxicab was necessary to successfully perform the assignment.
- General statements such as **"Time element" or "For security reasons" are not satisfactory; explanations must be specific.** Allow space before the next entry for the approving officer to indicate his or her approval and signature.
- Additional Data To Be Shown on Vouchers Involving Use of Privately Owned Automobile Between Place of Duty and Home - Where claim is made for parking incident to duty at regular headquarters building under provisions above, the mere fact that claims may be made for use of the automobile on that day for travel between places of duty is not sufficient to support the charge. Enter for each such parking fee claimed an affirmative statement that use of the privately owned automobile was advantageous to the Government. If the amount claimed is computed on a pro-rata basis, enter computation. Allow space before the next entry for the approving officer to indicate his or her approval and signature. When claim is made for mileage and allowable fees under provisions of above, enter for each claimed use of the automobile, why use of the automobile was necessary to perform the assignment. General statements such as "Time element" or "Need for mobility" are not satisfactory. Be specific. Allow space before the next entry for a special approving officer to indicate his or her approval and signature.

409.10 Canceled Reservations - Charges for canceled reservations are payable only if administratively approved as unavoidable official expenses. If a service fee for canceling a reservation for personal reasons or delay in notifying the carrier, the office should collect the fee from the traveler.

#### 410 ACCOUNTABILITY

410.1 Accountable Officers - Both the certifying and disbursing officer are considered "accountable officers" and, as such, when entrusted with or statutorily responsible for public funds become, in effect, a "trustee" for the taxpayers. These officials are personally liable for the loss or improper payment of the funds for which they are accountable.

##### 410.2 Certifying Officers' Personal Liability and Relief

a. Personal Liability - Certifying officers are accountable for and required to personally reimburse the government for an illegal or otherwise improper payment made by a disbursing officer because of their certification. Unlike disbursing officers or collectors of public moneys, certifying officers have no public funds in their possession. The responsibilities and accountability

of a certifying officer are provided in Title 7, Chapter 7, 31 U.S.C.3325 and 3328. When certifying a voucher, a certifying officer is held responsible for:

- (1) Information stated in the certified voucher and supporting records;
- (2) Computation of the certified voucher;
- (3) Legality of the proposed payment from the appropriation or fund involved; and
- (4) Unless relieved of liability by the Comptroller General or a delegate, repayment of the amount of any;
  - Illegal, improper, or incorrect payment resulting from any false, inaccurate, or misleading certificate made by the officer, and
  - Payment prohibited by law or which did not represent a legal obligation under the appropriation or fund involved.

b. Relief – the Comptroller General may relieve a certifying official from liability when the Comptroller General decides that:

- (1) The certification was based on official records and the official did not know, and by reasonable diligence and inquiry could not have discovered the correct information; or
- (2) The obligation was in good faith; no law specifically prohibited the payment; and the U.S. Government received value for payment.

c. Overpayment – a certifying official may be relieved from liability from an overpayment in the following cases:

- (1) When such payment is made to a common carrier under 41 U.S.C. 3726 and the Comptroller General decides that overpayment occurred because the administrative audit before payment did not verify transportation rates, freight classifications, or land-grant deductions; or
- (2) When such payment is provided under a U.S. Government bill-of-lading or transportation request and the overpayment was the result of using improper transportation rates or classifications, or the failure to deduct the proper amount under a land-grant law or agreement.

#### 410.3 Request for Decisions by the U.S. Comptroller General –

a. A disbursing official, certifying officer, or the head of an agency may request a decision from the Comptroller General on a question involving:

- (1) A payment the disbursing official or head of the agency will make; or
- (2) A voucher presented to a certifying official for certification.

b. All requests for decisions must be submitted to the Office of General Counsel.

c. The Comptroller General will issue a decision requested under 31 U.S.C. 3529.

#### 410.4 Law and Fact Questions

a. If the certifying officer feels that a particular voucher involves a question of law, or there are missing or incomplete supporting documents, or there are facts which are known but not evidenced, the certifying officer should promptly transmit such vouchers to the Director, Office of

Financial Operations. The Director, Office of Financial Operations will submit the request to the CFO or the GC if the Director, Office of Financial Operations cannot answer the question.

b. All vouchers must be supported by the original pertinent documents. When originals are not available, copies should be submitted, provided the approving official certifies each copy as a true copy. An approving official's memorandum transmitting the voucher should include:

- (1) Reason the claim is believed to contain a question of law or fact;
- (2) Administrative recommendation as to proper disposition; and
- (3) Statement as to whether or not an obligation in the amount or estimated amount of the claim has been established and that liquidation will not be made until properly instructed to do so.

#### 411 CONTRACT FINANCING

411.1 Progress Payments - The payments should be made in accordance with the terms of the contract. The contract may require the payments to be made periodically based on the progress made during the period, or it may require the payment to be made when either certain milestones are reached or the specified deliverables are received.

411.2 Required Documentation - The contractor completes the applicable form in triplicate and submits the form and the back up (invoices, etc.) to the office specified in the contract. Construction contract progress payment requests must include the following:

- a. Substantiation of the amount(s) requested including, at a minimum, an itemization of the amounts requested related to the various elements of work required by the contract;
- b. Certification by the prime contractor, to the best of the contractor's knowledge and belief, that:
  - (1) The amounts requested are only for performance in accordance with the specifications, terms, and conditions of the contract;
  - (2) Payments to subcontractors and suppliers have been made from previous payments received under the contract, and timely payments will be made from the proceeds of the payment covered by the certification, in accordance with their subcontract agreements and the requirements of 31 U.S.C. 39; and
  - (3) The application does not include any amounts, which the prime contractor intends to withhold or retain from a subcontractor or supplier in accordance with the terms and conditions of their subcontract. (This certification by the prime contractor is not be construed as final acceptance of the subcontractor's performance.)
- c. BBG must return to the contractor any progress payment request that is defective within seven days after receipt, with a written statement identifying the defect.
- d. The receiving element will date stamp the form. The progress payment is reviewed, verified, and approved by the assigned COTR or other designated official. The final SF-1443 submitted on a contract shall be stamped:<sup>1, 2</sup>

---

<sup>1</sup> The forms may be submitted with or without an invoice. The SF-1443 form is located in FAR II Part 53.303.

<sup>2</sup> All BBG elements with progress payments are required to date stamp the SF-1443 upon receipt (see Appendix 8.5.001).

**FINAL**  
**(Subject to Prompt Payment Act)**

e. For contracts that authorize progress payments, the COTR shall review and approve the invoice and forward it to the Payment Office, through the Contracting Officer. The requesting office has responsibility for receipt, tracking, and initial approval of the invoices by the COTR, but final approval of progress payments remains with the Contracting Officer.

**411.3 Progress Payments – Performance Deficiency**

a. Contractor's Responsibility - When a contractor receives payment for a construction progress payment request, and after receiving such payment, discovers a performance deficiency on the part of either the contractor or subcontractor which was covered in the payment, interest is due the Government for the unearned portion of the payment for the period between the receipt of payment and the correction of the performance deficiency or overpayment.<sup>3</sup> A contractor is obligated to pay interest to the Government on unearned amounts in its possession from:

- (1) The eighth day after receipt of funds from BBG until the date the contractor notifies BBG that the performance deficiency has been corrected; or
- (2) The date the contractor reduces the amount of any subsequent payment request by an amount equal to the unearned amount in its possession, when the contractor discovers that all or a portion of a payment received from BBG constitutes a payment for the contractor's performance that fails to conform to the specifications, terms and conditions of its contract with BBG under 31 U.S.C. 3905(a); or
- (3) The eighth day after the receipt of funds from BBG until the date the performance deficiency of a subcontractor is corrected; or
- (4) The date the contractor reduces the amount of any subsequent payment request by an amount equal to the unearned amount in its possession, when the contractor discovers that all or a portion of a payment received from BBG would constitute a payment for the subcontractor's performance that fails to conform to the subcontract agreement and may be withheld under 31 U.S.C. 3905(e).

411.4 Government's Responsibility - To allow for proper computation and recording of the interest payment(s) the Contracting Officer will prepare and direct an explanatory cover memorandum and copies of all documentation relating to the unearned payment to the Payment Office. The cover memorandum will include:

- a. Date of payment;
- b. The subsequent reduced progress payment request; and
- c. The date the deficiency was corrected, if applicable.

**412 PURCHASE CARD PROGRAM**

412.1 Program Description - This section describes the payment of small purchase charge card payments. These are cards that are issued to BBG employees for purchases of \$3,000 or less. Higher limits are allowed based on the needs and the level of Simplified Acquisition Training of

---

<sup>3</sup> When a contractor is obligated to pay interest on such unearned amounts to the Government as described above, the interest will:

- (a) Be computed at the rate of interest established by the Secretary of the Treasury;
- (b) Be deducted from the next available payment to the contractor; and Revert to the Department of the Treasury.

the cardholder. Other simplified acquisition methods (imprest funds, third party drafts, SF-44 forms, and purchase orders) may only be used in lieu of the Government purchase card when it is more cost-effective, practicable, or required by existing statutes.

The card bears the employee's name and can only be used by that employee. The card is subject to a single transaction limit, a monthly cardholder limit, and a monthly issuing office limit established by BBG. Small purchase cards provide significant savings in administrative costs over other methods. The card provider makes reports available to the appropriate cardholder, manager, or Payment Office. 1 TFM 4-4500 provides general guidance on the use of the card, terminology, and general agency guidelines.

#### **412.2 Definitions**

- (1) Approving Official – Individual who reviews cardholder statement, is responsible for authorizing cardholder purchases (for official use only), and ensures that statement is reconciled and submitted to the Payment Office in a timely manner. Purchase Card Training is required to serve as an Approving Official. Approving Officials must be issued a memo of appointment from the Office of Contracts to serve as an Approving Official
- (2) Cardholder - individual Government employee to whom a Government purchase card is issued. The card bears the employee's name and can be used only by that employee for official purchases, in compliance with the agency's regulations and procedures and GSA Government Commercial Credit Card Services contract. Purchase Card Training is required to serve as a cardholder. Cardholders must be issued a Delegation of Appointment to serve as a cardholder.
- (3) Cardholder Statement – a statement listing all transactions during the billing period that is sent to each cardholder.
- (4) Delegation of Authority – a written delegation issued by responsible agency personnel that establishes authorized cardholder(s), specifying spending and usage limitations unique to that cardholder.
- (5) Designated Billing Office – the payment office within a Federal agency that receives the "official invoice," which is a consolidated report listing all cardholder charges for the office served. This office is responsible for ensuring that payment of the official invoice is made in accordance with Prompt Payment Act deadlines.
- (6) Designated Billing Office Report – a consolidated report sent to each agency billing office at the end of the monthly billing cycle. The Designated Billing Office Report will be the official invoice.
- (7) Electronic Commerce – the integration of electronic-based systems to support common business processes. For example, the purchase card contractor will provide invoices electronically to Federal agency designated billing offices and accept payments electronically from Federal Government Payment Offices, and will provide electronic access to account data and reports.
- (8) Government Purchase Card – internationally accepted credit card available to Federal agencies under a single GSA contract for the purpose of making simplified acquisitions with a minimum of paperwork. These credit card services are available under a contract awarded by GSA for Government wide use.
- (9) Purchase Card Invoice – the report sent to the designated billing office from the contractor for payment of one or more agency cardholder statements. Agencies may elect to receive the invoice electronically.
- (10) Simplified Acquisition – an acquisition of supplies, non-personal services, or construction in the amount of \$100,000 or less.
- (11) Vendor Express – a Government wide program to process vendor and miscellaneous payments electronically through the Automated Clearing House (ACH) network. The payments are deposited directly to the contractor's account on the payment date.

412.3 Agency Procedures - In order to ensure the effective management of the charge card program within BBG, the agency has established the following internal controls:

- a. Designated M/CON staff to manage the program. Management of the program includes assurance that training is provided, maintenance of a current list of cardholders and approving officials, and an annual oversight review of the program;
- b. Written a delegation of authority for each cardholder;
- c. Established approved uses and limitations on the types of purchases and the dollar amounts;
- d. Established procedures for timely submission of cardholder statements to the agency designated billing office;
- e. Established procedures for maintaining security of the cards;
- f. Established procedures for handling disputes and returned, refused, damaged, or unacceptable items and partial deliveries; and
- g. Established card renewal procedures.

412.4 Review and Approval of Billing Statement - When a Government purchase card is used, the vendor providing the good or service to the agency is paid by the contractor that provides the credit card services to the Government. The paying agency then reimburses the contractor in accordance with the terms and conditions of the Government commercial credit card services contract and prompt payment criteria. The Payment Office is the DBO for the purchase card invoices. The Office of Contracts is the Agency/Organization Coordinator (A/OPC) for the purchase card program. The credit card vendor, at the end of each billing cycle, provides on-line access to the credit card statements for the DBO and each cardholder.

#### 412.5 Payment Office Responsibilities

- a. After notification from the credit card vendor via e-mail, the DBO downloads the BBG credit card invoices from the credit card vendor's website.
- b. The A/OPC has on-line access and will download credit card invoices as needed from the credit card vendor's website.
- c. The billing statement is used to prepare a voucher to pay the credit card vendor immediately to obtain the maximum rebate under the credit card program. The payment is made via Treasury's SPS as an ACH payment. The credit card voucher is entered into the financial management system and the entry clerk performs PASS 1 on the voucher. The Certifying Officer certifies the voucher for payment and performs PASS 2 in the financial management system. The payment is recorded in the financial management system as a PX transaction and recorded against suspense fund 95F3875.
- d. Upon receipt of the individual cardholder statements by Payment Office, the statements are logged into a tracking worksheet, which lists each individual cardholder, the amount of their transactions for that particular statement and the total for all of the statements received for that billing cycle. The worksheet is maintained as a tool to ensure all individual statements are sent to Payment Office each month and are reconciled to the total invoice.
- e. The Payment Office Accounting Technician then reviews the documentation provided by the cardholder to ensure that all required documentation has been provided by the cardholder, all fiscal information needed to record the statement has been provided, and all charges have been accounted for in the supporting documents.

f. The Accounting Technician then records each statement in the financial management system as an RM transaction. Within each RM transaction, the accounting technician is backing out that portion of the PX (original combined payment for all domestic cardholders) from the suspense fund (Line 001) and then applying the charges to the appropriate obligation, which was provided by the cardholder (Line 002 and subsequent lines in that RM). The Accounting Technician performs Pass 1 and Pass 2 approval on each RM document. The total of the RM entries entered must equal the payment made against the consolidated invoice.

g. The Accounting Technician maintains a file for each billing period. It contains the PX and back-up documentation, all statements and supporting documentation provided by each cardholder and the tracking log sheet kept as the statements were submitted to Payment Office.

#### 412.6 Purchase Card Program Offices and Cardholders

a. Each month the individual cardholders download their credit card statement from the credit card vendor's site.

b. The cardholder is to review the statement, reconcile the transactions to the buying log (Form IBB-0020), BBG/IBB Purchase Card Summary (Form IBB-0022) and any supporting documentation. Within three working days, the cardholder is to forward the signed statement, Forms IBB-0020/0022, and supporting documentation to the Approving Official.

c. The Approving Official reviews and approves the reconciled statement. The Approving Officer forwards the approved statement, Forms IBB-0020/-0022, and the financial management system Obligation Record screen print to Payment Office within the 8th work day after the billing date on the statement. The current billing date is the 6th of the month (on-line statements are generally available on the 7<sup>th</sup> of each month).

d. The cardholder is to contact the vendors if there are any transaction discrepancies to correct the discrepancies.

e. Failure to submit the monthly-reconciled statement to Payment Office by the eighth work day from the statements availability could result in suspension of the card.

413 Cashier Operations (Imprest Fund) - This section of the MOA contains the agency's policy on special voucher processes associated with the processing of imprest fund vouchers presented to a cashier for reimbursement.

#### 413.1 Payment Limitations

a. Cashiers are authorized to make cash or third party draft payments not to exceed \$25. Receipts may not be split to avoid this limitation.

b. In emergency situations a single transaction may be in excess of \$25 when the Director, Office of Financial Operations and the Chief, Office of Administration and Analysis make specific authorization. In the absence of these individuals, their designee may serve as the approving official.

c. Payment from an imprest fund may be made only after an obligation has been established.

#### 413.2 Other Limitations

a. Imprest funds may not be used for payment of salaries or wages; payment of transaction charges for persons or things other than local travel or drayage; advances other than those authorized below; change-making purposes; or cashing checks or other negotiable instruments.

b. Payments may not be made from imprest funds for articles or services in quantities or amounts which are covered by mandatory contracts or mandatory sources of supply, except in justified emergencies.

413.3 Allowable Expenditures - Cashiers are authorized to make cash payments or entrust sufficient monies to an authorized employee for the following types of purchases:

a. Small purchases – Purchases are limited to those where direct cash or money order payment will be advantageous to the agency because of the time involved, reduction in paperwork, increased efficiency, or other valid reason. The following procedures must be adhered to:

- (1) Purchases must be made in accordance with the principles, standards, and related requirements contained in procurement regulations issued by the Administrator of the General Services Administration and regulations issued by BBG.
- (2) Cost of purchases within the prescribed monetary limitations (as described above) must be kept within reasonable bounds by ordinary shopping procedure of price comparison (competition), and the buyer must take advantage of any obtainable discounts.
- (3) Purchases are normally supported by a FORM 1164 Claim for Reimbursement For Expenditures on Official Business, or other equivalent form signed by an authorized approving official.

b. Local transportation – Reimbursement to employees for the authorized use of public transportation facilities such as trains, taxicabs, and privately owned automobiles on official business within the metropolitan area of their official station.

c. Miscellaneous items – Purchase of postage stamps, payment for the parcel post, and local drayage charges. Local drayage is defined as the movement of supplies or commodities wholly within a recognized metropolitan area in which both the points of pickup and delivery are located.

413.4 Imprest Fund Transactions - Overseas Only

a. Cash Advances for Procurements– The procedures for purchase transactions where cash is advanced to an employee for making the purchases are:

- (1) Employee requesting the cash advance presents a requisition to the cashier, showing the name and address of the supplier, the articles or services to be purchased, the quantity, and the estimated amount required.
- (2) Cashier reviews the requisition for completeness and that the document has been signed by an authorized approving official.
- (3) Cashier requests identification of employee picking up cash advance.
- (4) Cashier stamps original copy of the requisition stating the following:

**CASH ADVANCE**  
**Received from Imprest Fund Cashier**  
**\$                      for**  
**which I hold myself accountable to the United States.**

**Date:**\_\_\_\_\_ **By**\_\_\_\_\_ **(Signature)**

**FINAL PAYMENT**

**Sum of \$**

**Date:**\_\_\_\_\_ **By**\_\_\_\_\_ **(Signature)**

Note: Both the dollar amount and date of advance are recorded on the requisition along with the cashier's initials. The employee receiving the cash advance signs his/her name certifying receipt of the cash advance.

- (5) Cashier retains the original requisitions which should be placed in an interim advance folder, preferably in alphabetical order, for accountability purposes. A copy of the requisition is given to the employee receiving the advance.
- (6) The cashier instructs an employee receiving an advance that, as a rule, the purchase should be made and a receipt document presented to the cashier on the same day. In any event, the purchase must be made and the receipt furnished to the cashier not later than the 5th workday following the date of advance. After this period, the cashier takes immediate action to recover the cash advance. If requested by the cashier, supervisory officials take prompt action to assist the cashier in recovering the advance.
- (7) When making the purchase, the employee must obtain an acceptable receipt from the vendor (original sales slip, invoice, or cash register ticket) which names the article(s) purchased and the amount(s) paid. The vendor's name and address must be on the receipt.
  - After the purchase is made, the employee must return the vendor's acceptable receipt to the cashier not later than 5 work-days from the date of the advance.
  - The cashier matches up the original requisition (from his/her interim advance folder) with the returned vendor receipt and immediately stamps "PAID" on the receipt document furnished by the employee and staples it to the requisition. The cashier will affix a second stamp marked "VOID" over the top portion (CASH ADVANCE) of the stamped requisition to void the certification made by the employee when the advance was received.
  - The following procedures are then taken in filling out the bottom portion (FINAL PAYMENT) of the stamped requisition in order to complete the imprest fund transaction:
    - If the acceptable receipt shows the same amount as the advance given the employee, that dollar amount is recorded and dated by the cashier. The employee signs his/her name certifying that receipt has been returned.
    - If the acceptable receipt shows a lower amount than the employee received in advance, the employee returns any unused cash to the cashier; the corrected total dollar is recorded and dated by the cashier. The employee signs his/her name certifying that receipt and unused cash has been returned.

b. Reimbursement for Purchases – The procedures for cash reimbursement to an employee after the purchase has been made are:

- (1) Employee presents the requisition (or other equivalent document) and vendor's acceptable receipt (original bill, sales slip, cash register ticket, or invoice which names the articles purchased and the amounts paid) to the cashier. Copies are not considered acceptable receipt forms. Purchases paid for by money order must also be supported with the money order stub.
- (2) Cashier reviews the requisition and receipts for completeness as stated above, assuring that the requisition has been signed by an authorized approving official.

- (3) Cashier requests identification of employee picking up cash.
- (4) Cashier immediately stamps "PAID" on the vendor's receipt document and staples it to the requisition.
- (5) Cashier stamps original copy of requisition stating the following:

**RECEIVED IN CASH**

**Sum of \$**

**Date:**\_\_\_\_\_ **By:**\_\_\_\_\_ **(Signature)**

Both the dollar amount and date of cash payment are recorded on the requisition along with the cashier's initials. The employee receiving the cash payment signs his/her name certifying receipt of cash.

- (6) Cashier matches signature with employee's identification and provides employee with funds.

413.5 Imprest Fund Transactions - Domestic Only - An employee making a purchase should advise the vendor that it is for the U.S. Government and request that tax not be charged. The SF-1094, U.S. Tax Exemption Certification, will be furnished to the vendor if he or she requires evidence of the tax-exempt sale; however an SF-1094 will not be issued to avoid payment of tax if the amount of tax on any one bill is \$10 or less. The cashier may reimburse employees for all tax actually paid on official purchases.

413.6 Replenishment - The replenishment of imprest funds is addressed in Title 7 Section 206.9, Cash management.

414 CLAIMS - These procedures address the process for submitting claims against the U.S. Government for money due or presumed to be owed that are not supported by conclusive obligations and documents. These procedures provide information related to the types of claims and general processing of these claims by the Payment Office.

414.1 Authority - The Government Accountability Office transferred claims settlement and related advance decisions, waivers, and other functions to certain departments and agencies as specified in Comptroller General Decision B-275605, dated March 17, 1997. The following specifies the claim and appropriate department or agency:

- a. Deceased Employee – Office of Personnel Management (OPM).
- b. These are claims for compensation and leave, and settlement of deceased employees' accounts (that are to be settled, that is, the agency or former employee's estate is disputing amounts of money to be or disbursed by the employing agency).
- c. Employee Relocation, Transportation, and Travel – General Services Administration (GSA).
- d. These are Federal employees' claims for travel, transportation, relocation expenses, and allowances assigned to GSA's Board of Contract Appeals (GSBCA).
- e. Transportation Carrier Appeals – GSA.
- f. These are transportation carriers' requests for review of audit actions taken by GSA on their bills for services provided the government that are assigned to GSBCA.

- g. Judgment Funds – Department of the Treasury (Treasury).
- h. Judgment fund payments (amounts payable from the permanent and indefinite appropriation) are authorized by 31 USC 1304 and setoffs against such payments 31 U.S.C. 3728 is assigned to Treasury's Financial Management Service, and Judgment Fund Group.
- i. Erroneous Payment by Employees – Agency.
- j. The authority to waive collection of erroneous payments from civilian employees under 5 U.S.C. 5584 is delegated to the Executive branch agency that made the erroneous payment.
- k. Settlement Authority Not Under GSA, OPM – Agency
- l. The claims settlement authority not otherwise transferred to GSA or OPM as listed above is delegated to the Executive branch agency where the activity claim arose.
- m. Advance Decision – Agency
- n. The authority to render advance decision concerning a function under section 211(a) of the Legislative Branch Appropriations Act, 1996, that was previously delegated by OMB has been transferred by virtue of section 204 of the GAO Act of 1996 to the agency to which such function was delegated. Also, the advance decision authority concerning claims not otherwise transferred by section 202 is also delegated to the Executive Branch agency out of whose activity the claim arose.

414.2 Assisting Claimants - Except in cases of unpaid compensation of deceased employees, government employees are prohibited by law from giving assistance to a claimant "otherwise than in the discharge of their proper official duties" in prosecuting a claim against the United States. It is intended that claimants should determine and initiate their claims against the U.S., relying upon their own knowledge and records. However, it is considered within the discharge of proper official duties to furnish claimants, upon their request, information as to their rights and procedures and forms for presenting claims.

414.3 Claims Documentation - Formal requirements are prescribed by statute or regulation for many types of claims, but some types of claims against the United States may be made very informally and deficiencies in the statement of a claim frequently may be remedied by a supplemental submission. Therefore, any written request for money from the United States that is signed by the claimant or the claimant's representative should be processed as a claim against the United States.

414.4 Time Limitation - It is not intended to imply that all statutes of limitations are necessarily limited to those listed in the MOA. It is incumbent on claimants to inform themselves regarding other possible statutory limitations to protect their interests. Claims received by the appropriate BBG office (based on type of claim) will be processed within that office or forwarded to the appropriate other government agency (OGA) for recording date of receipt even though it is not certain at the time of transmission whether or not settlement action is required by the OGA. The will ensure that claim is received timely due to potential time limitations.

414.5 Statutory Limitation – Except, as provided by law, all claims against the Government are subject to a six year statute of limitations as provided for in 31 U.S.C. 3702. This requirement is based on the premise that the agency that conducts the activity from which the claim arises receives the claim within that period. A claimant can review this information at [www.gpo.gov](http://www.gpo.gov). The claimant is also responsible for proving that the claim was filed within the applicable statute of limitations.

414.6 Types of Claims - Following is a list of claims that BBG typically reviews and processes in their program offices or require an external agency to process:

a. Claims for Private Personal Property Losses - These are employee claims for damage to or loss of personal property of employees at domestic and foreign posts that are settled by Office of Administration, Department of State.

b. Death of a Foreign Service National (FSN) – A death gratuity may be paid with respect to a Foreign Service National employee who dies from injuries sustained in job performance. Other amounts that may be due the employee, such as unpaid compensation, shall be settled by the post in accordance with local compensation plans. In determining the proper payee (e.g., surviving spouse, guardian of minor child, representative of estate), the administrative office may request authority to obtain local legal advice.

c. Claims for Amounts Due Deceased or Incompetent Creditors, Other than Employees – This relates to settlement of the claims for supplies furnished and services rendered with amounts due to their estates that can be settled by BBG.

d. Domestic Tort Claims – These claims relate to accidents occurring within the

e. United States, to include territories and possessions, for money damages for personal injury, death, or property loss or damage caused by the negligence or wrongful act of or omission by a BBG employee that can be settled by the Office of General Counsel.

f. Tort Claims Arising in Foreign Countries – These claims arise from accidents for money damages, for damages for personal injury, death, or property loss or damage caused by the negligent or wrongful acts or omission by a BBG employee that can be settled by the Office of General Counsel.

414.7 Referral of Claims - Any BBG employee receiving a claim against the United States in the course of official business who lacks authority to resolve the claim shall refer the claim to the appropriate BBG office or external agency as identified above.

414.8 Voucher Preparation - A voucher is prepared for each claim for each decision document (settlement agreement or claim adjudication) that directs payment of a claim by the Office of Financial Operations. The decision document and any other supporting documentation are attached to the voucher.

414.9 Voucher Review - Vouchering for the payment is made in accordance with 31 U.S.C. 3325. The voucher and supporting documentation are reviewed by the authorized certifying officer as prescribed in 31 U.S.C. 3528.

414.10 Source of Funds - Claims payable by BBG are recorded as an accounts payable and are charged to the current appropriation and allotment of the activity and program and location where the activity gave rise to the claim, except as stated below:

a. Settlement of claims arising under a contract are recorded as an accounts payable and are payable from the appropriation current at the time the contract was entered into or, in the case of severable services contracts, from the appropriation current at the time the services giving rise to the claim were performed.

b. Payments from accounts payable of expired accounts must be made in accordance with OMB Circular A-11 Preparation, Submission and Execution of the Budget and A-136 Financial Reporting Requirements, both of which implement P.L. 101-510.

414.11 Compromise, Suspension, or Termination - A review by the Chief Financial Officer is made on all debts in excess of \$500 but less than \$2,500 that are being recommended for compromise, suspension or termination. The Chief Financial Officer shall appoint a "Claims Settlement Committee" with a representative from each of the following offices: (1) Office of

General Counsel; (2) Office of Human Resources; and (3) Office of Financial Operations staff. The Claims Settlement Committee will review and determine appropriate action on claims in excess of \$2,500 but less than \$100,000, originating overseas or domestically.

414.12 Compromise (Collecting a Reduced Amount) - A compromise may be sought by the debtor or by Chief Financial Officer (See 4 CFR 103.2 and 22 CFR 512), within the limits of Section 8.15.10.2.1, if it is determined that the full amount of the debt cannot be collected. On an individual basis, the authorizing official reviews periodically the agreements of authorized schedules of repayments to assure compliance and collection. Each request for compromise, suspension or termination will be made by memorandum, which contains:

- a. The debtor's name;
- b. Amount of the claim;
- c. Brief statement of collection efforts; and
- d. Reason why compromise, suspension, or termination has been approved.

414.13 Overseas - Claims Not in Excess of \$500. Post AOs are delegated authority to approve the compromise, suspension, or termination of a claim not in excess of \$500 in accordance with the standards set forth in this section when normal collection action has proved futile. The post will maintain a permanent record of all such claims with a summary report being provided to Office of Financial Operations at the end of each fiscal year. The post AO (or other officer familiar with the debt) must submit a memorandum containing:

- a. The debtor's name;
- b. Amount of the claim;
- c. Brief statement of collection efforts; and
- d. Reason why compromise, suspension, or termination has been approved.

Claims in Excess of \$500. If normal collection action has proved futile, the post management officer forwards such claims to Financial Analysis and Reporting, Accounts Receivable with complete documentation and recommendation for settlement.

414.14 Domestically –

a. For claims originating in the United States when collection has proved futile, the bureau or office management officer may recommend by memorandum to the Office of Financial Operations the compromise, suspension, or termination of the debt, as prescribed in this section. Such memorandum should include complete documentation.

b. The Office of Financial Operations has the authority to approve the compromise, suspension or termination of claims of \$500 or less, in accordance with the standards set out in this section when normal collection action under Section 8.15.9.5 has proved futile.

c. The Office of Financial Operations must prepare a memorandum to CFO containing:

- (1) The debtor's name;
- (2) Amount of the claim;
- (3) Brief statement of collection efforts; and
- (4) Reason why compromise, suspension, or termination has been approved.

414.15 Suspending Collection Action - The BBG may suspend collection action temporarily if the debtor cannot be located after a diligent effort and there is reason to believe that collection at a future time may be more productive (See 22 CFR 512).

#### 414.16 Exceptions

a. Types of Exceptions - The criteria and actions to suspend or terminate a debt do not apply and full collection action must be pursued for any claim where there is an indication of misrepresentation or fraud on the part of the debtor or any other party having an interest in the claim. As stated in 4 CFR 101.3, when such claims cannot be collected, they shall be referred by the Office of the Legal Adviser to the Department of Justice, which shall determine what further action will be taken.

b. Compromise Exceptions - Pursuant to 31 U.S.C. 3527, only the Comptroller General, or designee, may compromise a claim that arises out of an exception made by GAO in the account of an accountable officer.

414.17 Close Out - Close out occurs when the BBG terminates all collection activities. The Internal Revenue Service (IRS) treats such written-off debt as income and Office of Financial Operations therefore reports this amount on Form 1099 MISC. Office of Financial Operations notifies the debtor by Form 1099 MISC of the debt write-off being reported to IRS. Office of Financial Operations shall promptly report the close out to IRS, except that reporting to IRS is not required if informed that the debt has been discharged pursuant to Chapter 11, Federal Bankruptcy Law.

## **TITLE 7**

### **PART 600 – GRANTS AND OTHER FINANCIAL ASSISTANCE**

#### **SECTIONS**

601	<b>Scope</b>
602	<b>Authorities</b>
603	<b>Definitions</b>
604	<b>Broadcasting Board of Governors Responsibilities</b>
605	<b>Grantee Responsibilities</b>
606	<b>Grantee Contracts and Leases Approval Procedure</b>
607	<b>Grant Closeout</b>

**601 Scope** – The BBG has broad statutory authority to issue grants per 22 USC 1471. Agency grants are divided primarily into two categories: (1) Grants for broadcasting operations made pursuant to specific statutory authority and (2) All other grants or federal financial assistance instruments issued for non-broadcast operations purposes. This section is primarily dedicated to information related to the issuance and administration of the broadcast grants, but where applicable, and as required, the information contained in this section may also be applied to the issuance and administration of the non-broadcast grants and/or other federal financial assistance instruments. Included is information on financial terms and conditions, direct and indirect costs, grant payments, property and equipment, financial reporting, records and audits, availability of funds, documentation requirements, monitoring, and closeouts.

**601.1 Applicability** – The material in this chapter applies to the BBG’s financial management policies for administering grants both domestically and abroad. It is the single authoritative and comprehensive source for grant policies. Grants issued by other agencies are governed by that agency’s policies and regulations. Officers should refer to this section for all matters relating to the BBG’s grant financial management. Unless otherwise stated, references in this section apply to BBG, including grantee operations both domestically and abroad.

**601.2 General Information** – Among other financial assistance instruments used in support of the agency’s mission, the BBG currently provides funding (as authorized in P.L. 103-108, the U.S. International Broadcasting Act, and as subsequently authorized each fiscal year by appropriation from the U.S. Congress) to three organizations herein referred to as grantees: Radio Free Europe/Radio Liberty, Radio Free Asia, and Middle East Broadcasting Networks. The characteristics of such assistance are (1) that the BBG does not directly receive goods or services for funds disbursed and (2) the recipient uses the funds to support activities that enhance BBG’s strategic goals and U.S. foreign policy. Grant funding is provided through the use of payments distributed monthly except when under a continuing resolution. Generally, assistance can be either monetary or in-kind (e.g., the BBG provides services, supplies, equipment, or materials in lieu of funds).

#### **602 Authorities**

**602.1** Public Law 95-224, Federal Grant and Cooperative Agreement Act of 1977; 31 USC 6301, et seq.

**602.2** Public Law 106-107, Federal Financial Assistance Management Improvement Act of 1999

**602.3** OMB Circular A-11, Preparing and Submitting Budget Estimates

602.4 OMB Circular A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations

602.5 OMB Circular A-122, Cost Principles for Non-Profit Organizations

602.6 OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations

602.7 The U.S. Code (31 USC 3511) authorizes the U.S. Comptroller General, in consultation with the Secretary of the Treasury and the Director of the Office of Management and Budget, to prescribe the principles, standards, and related requirements for accounting, and associated forms for each Executive U.S. Government agency.

602.8 In accordance with 7 GAO, Fiscal Procedures, the Department of the Treasury has responsibility for all disbursement forms, both general and specific. The BBG, however, is delegated responsibility for disbursement forms falling clearly within its functional area. Procedures for the use of a particular form are prescribed by the responsible U.S. Government agency.

### **603 Definitions<sup>1</sup>**

603.1 Advance – A payment made by U.S. Treasury Department check or other appropriate payment mechanism to a recipient upon its request either before outlays are made by the recipient or through the use of predetermined payment schedules.

603.2 Auditee – Any non-federal entity that expends Federal awards, which must be audited under this section.

603.3 Auditor – A public accountant or a Federal, state, or local government audit organization, which meets the general standards specified in generally accepted government auditing standards (GAGAS). The term “auditor” does not include internal auditors of non-profit organizations.

603.4 Audit finding – Deficiencies which the auditor is required to report in the schedule of findings and questioned costs by A-133 §\_\_\_\_.510(a).

603.5 Award – Financial assistance that provides support or stimulation to accomplish a public purpose. Awards include grants and other agreements in the form of money or property in lieu of money, by the Federal Government, to an eligible recipient. The term does not include: technical assistance which provides services instead of money; other assistance in the form of loans or loan guarantees, interest subsidies, or insurance; direct payments of any kind to individuals; and contracts which are required to be entered into and administered under procurement laws and regulations.

603.6 Cash contributions – The recipient's cash outlay, including the outlay of money contributed to the recipient by third parties.

603.7 CFDA number – The number assigned to a federal program in the Catalog of Federal Domestic Assistance (CFDA). The BBG Program Identification Number is 90.500.

603.8 Cognizant agency for audit – The Federal agency designated to carry out the responsibilities described in A-133 §\_\_\_\_.400(a).

---

<sup>1</sup> Definitions are as stated in: OMB Circular A-102, Grants and Cooperative Agreements with State and Local Governments; OMB Circular A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations; OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; OMB Circular A-11, Preparation and Submission of Budget Estimates; and Federal Grant and Cooperative Agreement Act, 31 USC 6301, et seq.

603.9 Compliance supplement – The Circular A-133, Compliance Supplement, included as Appendix B to Circular A-133, or such documents as OMB or its designee may issue to replace it. This document is available at [http://www.whitehouse.gov/omb/grants/grants\\_circulars.html](http://www.whitehouse.gov/omb/grants/grants_circulars.html).

603.10 Continuing Resolution – Continuing resolutions (CRs) are joint resolutions that provide continuing appropriations for a fiscal year. CRs are enacted when Congress has not yet passed new appropriations bills and a program's appropriations are about to or have expired, or when the President has vetoed congressionally passed appropriations bills. Because of the nature of CRs, you should operate at a minimal level until after your regular appropriation is enacted.

603.11 Cooperative Agreement – An award where

- a. The principle purpose of the relationship is the transfer of money, property, services, or anything of value to the state, local government, or other recipient to accomplish a public purpose of support or stimulation authorized by the Federal statute, rather than acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the U.S. Government; and
- b. Substantial involvement is anticipated between the Executive agency, acting for the U.S. Government or other recipient during performance of the contemplated activity.

603.12 Corrective action – The action taken by the auditee that:

- a. Corrects identified deficiencies;
- b. Produces recommended improvements; or
- c. Demonstrates that audit findings are either invalid or do not warrant auditee action.

603.13 Cost sharing or matching – That portion of project or program costs not borne by the U.S. Government.

603.14 Disallowed costs – Those charges to an award that the Federal awarding agency determines to be unallowable, in accordance with the applicable Federal cost principles or other terms and conditions contained in the award.

603.15 Equipment – Tangible, nonexpendable personal property including exempt property charged directly to the award having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. Consistent with recipient policy, lower limits may be established.

603.16 Excess property – Property under the control of any Federal awarding agency that, as determined by the agency head, is no longer required or needed for the discharge of its responsibilities.

603.17 Federal agency – Has the same meaning as the term “agency” in Section 551(1) of title 5, United States Code (USC).

603.18 Federal award – These are Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. Federal awards do not include procurement contracts, under grants, or contracts, nor can they be used to buy goods or services from vendors. Any audits of such vendors shall be covered by the terms and conditions of the contract. Contracts to operate U.S. Government owned, contractor operated facilities (GOCOs) are excluded from the requirements of this part.

603.19 Federal awarding agency – The Federal agency that provides an award directly to the recipient.

603.20 Federal financial assistance – Assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other

assistance, but does not include amounts received as reimbursement for services rendered to individuals as described in A-133 §\_\_\_\_.205(h) and A-133 §\_\_\_\_.205(i).

603.21 Federal program – All Federal awards to a non-Federal entity assigned a single number in the Catalog of Federal Domestic Assistance (CFDA). The BBG's Program Identification Number is 90.500.

603.22 Funding period – The period of time when Federal funding is available for obligation by the recipient.

603.23 GAGAS – Generally accepted government auditing standards issued by the Comptroller General of the United States, which are applicable to financial audits.

603.24 Generally accepted accounting principles – Has the meaning specified in generally accepted auditing standards issued by the American Institute of Certified Public Accountants (AICPA).

603.25 Grants – An agreement where:

- a. The principle purpose of the relationship is the transfer of a thing of value to the state or local government or other recipient in order to accomplish a public purpose of support, or stimulation, authorized by a law of the U.S., rather than acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the U.S. Government; and
- b. No substantial involvement is anticipated between the Executive agency, acting for the U.S. Government, and the state or local government, or other recipient during performance of the contemplated activity.

603.26 Grant Agreement – A standardized legally binding agreement used to provide financial assistance by the BBG to a "grantee." The Grant Agreement is to be drafted and signed by the BBG Executive Director and the authorized signatory of each individual "grantee" at the beginning of the fiscal year. The Grant Agreement details the full financial terms of the financial assistance in accordance with OMB guidance. In the event that the fiscal year begins under Continuing Resolution funding, the Grant Agreement will be amended to provide the amount of the initial grant once the appropriation has been signed into law.

603.27 Grant Amendment – The grant agreement may be amended by the BBG as necessary throughout the fiscal year.

603.28 Internal control – A process, effected by an entity's management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the following categories:

- a. Effectiveness and efficiency of operations;
- b. Reliability of financial reporting; and
- c. Compliance with applicable laws and regulations.

603.29 Internal control pertaining to the compliance requirements for Federal programs (Internal control over Federal programs) – A process by which an entity's management and other personnel provide reasonable assurance regarding the achievement of the following objectives for Federal programs:

- a. Transactions are properly recorded and accounted for, to permit the preparation of reliable financial statements and Federal reports; maintain accountability over assets; and demonstrate compliance with laws, regulations, and other compliance requirements.
- b. Transactions are executed in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on a Federal program; any other laws and regulations that are identified in the compliance supplement; and safeguarding funds, property, and other assets against loss from unauthorized use or disposition.

603.30 Major program – A Federal program determined by the auditor to be a major program in accordance with A-133 §\_\_\_\_.520 or a program identified as a major program by a Federal agency or pass-through entity in accordance with A-133 §\_\_\_\_.215(c).

603.31 Management decision – The evaluation by the Federal awarding agency or pass-through entity of the audit findings and corrective action plan and the issuance of a written decision as to what corrective action is necessary.

603.32 Non-Federal entity – A state, local government, or non-profit organization.

603.33 Non-profit organization –

- a. Any corporation, trust, association, cooperative, or other organization that is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest; is not organized primarily for profit; and uses its net proceeds to maintain, improve, or expand its operations.
- b. The term “non-profit organization” includes non-profit institutions of higher education and hospitals.

603.34 Obligations – The amounts of orders placed, contracts and grants awarded, services received and similar transactions during a given period that require payment by the recipient during the same, or a future period.

603.35 OMB – The Office of Management and Budget, Executive Office of the President.

603.36 Other Recipient – Any person or recipient other than a state or local government who is authorized to receive Federal assistance or procurement contracts. Includes any charitable or education institution.

603.37 Outlays or expenditures – Charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of third party in-kind contributions applied, and the amount of cash advances and payments made to subrecipients. For reports prepared on an accrual basis, outlays are the sums of cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received. They are also charges for services performed by employees, contractors, subrecipients, and other payees and other amounts becoming owed under programs for which no current service or performance is required.

603.38 Oversight agency for audit – The Federal-awarding agency that provides the predominant amount of direct funding to a recipient not assigned a cognizant agency for audit. When there is no direct funding, the Federal agency with the predominant indirect funding shall assume the oversight responsibilities. The duties of the oversight agency for audit are described in A-133 §\_\_\_\_.400(b).

603.39 Pass-through entity – A non-Federal entity that provides a Federal award to a sub-recipient to carry out a Federal program.

603.40 Personal property – Property of any kind except real property. It may be tangible, having physical existence, or intangible, having no physical existence, such as copyrights, patents, or securities.

603.41 Prior approval – Written approval by an authorized official evidencing prior consent.

603.42 Program income – Gross income earned by the recipient that is directly generated by a supported activity or earned as a result of the award (see exclusions in paragraphs A-133 \_\_\_\_\_.24 (e) and (h)). Program income includes, but is not limited to, income from fees for services performed, the

use or rental of real or personal property acquired under federally-funded projects, the sale of commodities or items fabricated under an award, license fees and royalties on patents and copyrights, and interest on loans made with award funds. Interest earned on advances of Federal funds is not program income. Except as otherwise provided in Federal awarding agency regulations or the terms and conditions of the award, program income does not include the receipt of principal on loans, rebates, credits, discounts, etc., or interest earned on any of them.

603.43 Program-specific audit – An audit of one Federal program as provided for in A-133 §\_\_\_\_.200(c) and A-133 §\_\_\_\_.235.

603.44 Project costs – All allowable costs, as set forth in the applicable Federal cost principles, incurred by a recipient and the value of the contributions made by third parties, in accomplishing the objectives of the award during the project period.

603.45 Project period – The period established in the award document during which Federal sponsorship begins and ends.

603.46 Questioned cost – A cost that is questioned by the auditor because of an audit finding:

- Which resulted from a violation, or possible violation, of a provision of a law, regulation, contract, grant, cooperative agreement, or other agreement or document governing the use of Federal funds, including funds used to match Federal funds;
- Where the costs, at the time of the audit, are not supported by adequate documentation; or
- Where the costs incurred appear unreasonable and do not reflect the actions a prudent person would take in the circumstances.

603.47 Recipient – A non-Federal entity that expends Federal awards received directly from a Federal-awarding agency to carry out a Federal program.

603.48 Single audit – An audit, which includes both, the entity's financial statements and the Federal awards as described in A-133 §\_\_\_\_.500.

603.49 Small awards – A grant or cooperative agreement not exceeding the small purchase threshold fixed at 41 USC 403(11) (currently \$100,000).

603.50 Subaward – An award of financial assistance in the form of money, or property in lieu of money, made under an award by a recipient to an eligible subrecipient or by a subrecipient to a lower tier subrecipient. The term includes financial assistance when provided by any legal agreement, even if the agreement is called a contract, but does not include procurement of goods and services nor does it include any form of assistance, which is excluded from the definition of "award" in paragraph 603.5.

603.51 Subrecipient – The legal entity to which a subaward is made and which is accountable to the recipient for the use of the funds provided. The term may include foreign or international organizations (such as agencies of the United Nations) at the discretion of the Federal-awarding agency. A non-Federal entity that expends Federal awards received from a pass-through entity to carry out a Federal program, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency. Guidance on distinguishing between a subrecipient and a vendor is provided in A-133 §\_\_\_\_.210.

603.52 Supplies – All personal property excluding equipment, intangible property, and debt instruments as defined in this section, and inventions of a contractor conceived or first actually reduced to practice in the performance of work under a funding agreement ("subject inventions"), as defined in 37 CFR 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts, and Cooperative Agreements."

603.53 Suspension – An action by a Federal awarding agency that temporarily withdraws Federal sponsorship under an award, pending corrective action by the recipient or pending a decision to

terminate the award by the Federal-awarding agency. Suspension of an award is a separate action from suspension under Federal agency regulations implementing Executive Orders 12549 and 12689, "Debarment and Suspension."

603.54 Termination – The cancellation of Federal sponsorship, in whole or in part, under an agreement at any time prior to the date of completion.

603.55 Third party in-kind contributions – The value of non-cash contributions provided by non-Federal third parties. Third party in-kind contributions may be in the form of real property, equipment, supplies and other expendable property, and the value of goods and services directly benefiting and specifically identifiable to the project or program.

603.56 Types of compliance requirements – Refers to the types of compliance requirements listed in the compliance supplement. Examples include activities allowed or disallowed; allowable costs/cost principles; cash management; eligibility; matching; level of effort, earmarking; and reporting.

603.57 Unliquidated obligations – For financial reports prepared on a cash basis, this is the amount of obligations incurred by the recipient that have not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the recipient for which an outlay has not been recorded.

603.58 Unobligated balance – The portion of the funds authorized by the Federal-awarding agency that has not been obligated by the recipient and is determined by deducting the cumulative obligations from the cumulative funds authorized.

603.59 Unrecovered indirect cost – The difference between the amount awarded and the amount that could have been awarded under the recipient's approved negotiated indirect cost rate.

603.60 Vendor – A dealer, distributor, merchant, or other seller providing goods or services that are required for the conduct of a Federal program. These goods or services may be for an organization's own use or for the use of beneficiaries of the Federal program. Additional guidance on distinguishing between a subrecipient and a vendor is provided in A-133§.210.

**604 Broadcasting Board of Governors Responsibilities** – BBG has organizational responsibility for the oversight and administration of grants and related funding.

#### 604.1 Establishment of the Grant

a. Grant Agreement: At the beginning of the fiscal year, the BBG Office of General Counsel reviews and clears the annual grant agreement which thereby grants funds for the planning and operating expenses related to international broadcasting to each grantee. The Office of General Counsel also reviews and clears any grant amendment prepared throughout the fiscal year.

b. Amending the Grant Agreement:

(1) Reduction of grant agreements – The BBG may reduce the annual grant funding level via a grant amendment based on revised cost estimates of grantee-related expenditures.

(2) Increase of grant agreements – The BBG may increase the annual grant funding level via a grant amendment based on revised estimates or increased grantee operating expenses. Increases may also include allocation of emergency supplemental appropriations as approved by OMB and Congress.

#### 604.2 The Financial Plan –

a. The BBG CFO must review and approve the annual financial plan prepared by each grantee organization. The approved grantee financial plan is to be submitted each month as part of the Grantee's monthly payment request. The financial plan provides guidance on a line-item basis for grantee

spending, and is used to monitor monthly Grantee spending trends and to justify monthly payment requests.

b. As the grant is administered throughout the year, the grantee may adjust the financial plan to reflect updated priorities and spending patterns. It is the responsibility of the CFO to approve these reprogramming requests as they are proposed. The Office of General Counsel also reviews and clears any grant amendment prepared throughout the year.

#### 604.3 Current Services

a. During BBG current services review, the grantees will submit updated requirements for the “Current Year” – the prior year Congressional budget request (to include: built-in requirements, i.e., inflation and pay raises and non-recurring costs, i.e., one-time purchases) – and the costs for continuing those services through the subsequent fiscal year.

b. It is the responsibility of the BBG grantee analyst to review the current services submission and coordinate with the grantees and the CFO to ensure that the current services estimate is in accordance with BBG funding levels, priorities, and OMB guidance.

c. It is the responsibility of the BBG to review the grantee’s updated salary projection, list of filled positions, and complete staffing pattern to verify that the assumptions comply with OMB and Board guidance. The Office of the CFO will conduct a comparability study each year to verify the comparability of compensation plans across all BBG entities.

#### 604.4 OMB Submission –

a. Building upon the Current Services submission and through consultation with the BBG, the grantees will submit updated requirements for the OMB budget request (August-Sept.) to include: built-in requirements, enhancements, program reductions, and non-recurring costs.

b. It is the responsibility of the BBG grantee analyst to review the OMB submission and coordinate with the grantees and the CFO to ensure that the OMB submission is in accordance with BBG funding levels, priorities, and OMB guidance.

604.5 Congressional Submission – Based on OMB’s passback funding guidance, the BBG grantee analyst will assist the grantees in preparing final estimates for the budget request year to include: built-in requirements, enhancements, program reductions, and non-recurring costs.

604.6 Grantee Agreement File – This section lists documents that should be included in the files related to grantees that receive awards from the BBG. The grants analyst should maintain these files.

a. A grant agreement file will include, but is not limited to, the following applicable documents:

- (1) The budget estimate, which indicates the amounts, by categories of expense, on which the BBG has based its support;
- (2) The Financial Plan;
- (3) The Grant Agreement and all Appendices and Amendments;
- (4) Financial reports;
- (5) Audit reports;
- (6) Official correspondence and memoranda;

- (7) Requests for payments and payment vouchers; and
- (8) Certifications (Lobbying, Debarment & Suspension, Nat'l Terrorism List, and CCR registration).

b. Non-Entity Grant files (those other than RFE/RL, RFA, and MBN) should also include:

- (1) Accounting System Survey (if new organization);
- (2) Notice of Grant Award (applies to domestic grants since we redelegate to overseas station managers to notify grantees);
- (3) Retention of Records;
- (4) Examination of Records;
- (5) Novation; and
- (6) Agreement Close-out.

#### 604.7 Budget Execution

a. Recording Grants in the BBG Financial Management System – Upon Congressional approval of the Current Year BBG appropriation, the Budget Office establishes an annual allotment funding level, based on each the grantee's approved annual program plan, and enters this into the financial management system. Allotments for existing grantees are as follows:

1060 – Radio Free Europe/Radio Liberty  
1065 – Radio Free Asia  
MN01 – Middle East Broadcasting Networks

b. Certification of Funds – The Funds Certifying Officer will obligate the amount of grant funding for each grantee based on the signed grant agreement using the 4100 allotment series in the financial management system. The first four digits of the obligation document number are the allotment number, followed by the last digit of the budget fiscal year (BFY). The remaining five digits are sequential numbers to be used at the Certifying Officer's discretion. Coding rules for Grantees include:

- (1) Transaction Code – The transaction code for establishing an obligation for all financial assistance programs shall always be "GO".
- (2) Function Code – The Office of the CFO shall assign Functions codes to be used for Grantees.
- (3) Budget Object Class – The Office of the CFO shall assign budget object class codes to be used for Grantees.

c. Monthly grant payments are to be executed as liquidations against the initial obligation. The grants analyst will review the monthly funding request submitted by the grantee against the approved financial plan and forward the approved request to the Funds Certifying Officer. The Funds Certifying Office will prepare the payment request (Form 1034) for the BBG Executive Director's signature and forward the signed payment voucher to the Payments Office for disbursement.

d. Establishing a Vendor Record – The Office of Financial Operations will prepare and update the vendor record in the BBG financial system based on data in the CCR.

e. Transfer of Funds – The Office of Financial Operations will provide funding to the Grantee by U.S. Treasury cash wire transfer (FEDWIRE) generated through the Automated Clearing House System

once the request for payment has been approved and signed by the BBG Executive Director. Disbursements will be based on the approved annual financial plan.<sup>2</sup>

f. The Administrative Officer is required to maintain monthly records of all grant payments, organized separately by grantee. The Budget Analyst assigned to each grantee tracks monthly grant payments against the financial plan as well as the total grant.

604.8 Grantee Monitoring – Grantee monitoring seeks to ensure that the grantee is using the funds for the intended purpose, is charging appropriate costs at appropriate times, and is meeting any goals that were articulated in the financial assistance agreement. Monitoring techniques include reports, as well as interaction with the grantee through meetings, site visits, telephone calls, written correspondence or audits. Program and financial reports are required for grants and cooperative agreements under OMB Circular A-110, OMB Circular A-102, and FAR 31.2 and are set forth in the following sections. The BBG will monitor the program, financial reporting, and OMB Circular A-133 audit reports.

a. General Monitoring – The BBG shall monitor grantee performance and compliance against the elements that make up the agreement as listed below:

- (1) The Grant Agreement as funded;
- (2) Program requirements contained in the authorizing statute;
- (3) Program regulations (or program guidelines, if incorporated into the award);
- (4) Administrative regulations;
- (5) Public policy requirements (such as drug-free workplace, protection of human subjects, and animal welfare); and
- (6) Special terms and conditions, if any.

b. Monthly Reports – The Budget Analyst assigned to each grantee tracks monthly grant payments against the financial plan as well as the reports listed below.

- (1) The CFO grantee analyst reviews the Grantees' reports submitted on Standard Forms 269 and 272 or SF-425 to ensure that all grant payments have been reported correctly for the current month as well as cumulatively; that the grantee has reported obligations and disbursements that are supported by the financial plan, and that no grantee at any time reports a financial status that is in violation of the Anti-Deficiency Act. (The Office of Management and Budget is consolidating and replacing the existing financial reporting forms SF-269 and SF-272 with a single Federal Financial Report (FFR) or SF-425. Beginning July 1, 2009 through September 30, 2009 the BBG will begin the transition from Standard Forms 269 and 272 to the new Standard Form 425. All Grantees must use SF-425 beginning October 1, 2009 as required by OMB.)
- (2) Statement of Obligations and Disbursements: The BBG grantee analyst reviews line item obligations against the allocation to date for each line item to ensure that the grantee is not projecting to over/under spend for any given item.
- (3) Status of Vacancy Report: The status of vacancy report is used by the agency to track the status of all grantee vacancies throughout the year.

---

<sup>2</sup> Due to the low number of grant recipients, the BBG has determined that it will not use either the Automated Standard Application for Payment (ASA) or the Payment Management System (PMS) to make grantee payments. If, in the future, the number of grant recipients increases, this decision will be reevaluated.

- (4) Exchange Rate Report: The BBG grantee analyst must review monthly reports submitted by Grantees that sustain significant currency exposure detailing the balance of their currency loss/gain.
- (5) Delinquent Reports – When a grantee has been determined to be delinquent in filing reports, the Office of the CFO shall send a letter reminding the recipient of delinquent reports. After 30 days, if the grantee has not responded the Office of the CFO will send a second notice letter. If after an additional 30 days the grantee has not responded, the Office of the CFO will send a third and final notice letter. After the third notice has been sent, the Office of the CFO will suspend all payments until such time as the overdue reports are filed.

c. Periodic Reviews – The BBG analyst who has oversight for reviewing all monthly reporting documents submitted by the grantees will review financial reports for compliance with the terms and conditions of the grant agreement. The review will include, but is not limited to, the following:

- (1) Costs incurred and reported within the authorized grant period;
- (2) Costs incurred are in accordance with the authorized items of expenditures as stipulated in the grant agreement;
- (3) Accurate calculations; and
- (4) Reallocations are within allowable limitations set forth in the grant agreement.

d. Midyear Review – Each grantee must prepare a report on expenditures and obligations as of March 31 of the budget year, and other financial status reports as requested by the CFO. The purpose of this review is to identify any surpluses or deficits relative to the financial plan and any reprogramming actions.

e. Third Quarter Review – Each grantee must prepare a report on expenditures and obligations as of June 30 of the budget year, and other financial status reports as requested by the CFO. The purpose of this review is to identify any surpluses or deficits relative to the financial plan and any reprogramming actions.

f. End of Year Review – The grants analyst will review the expenditure and obligation reports submitted by the Grantees as of September 30 of the budget year. The purpose of this review is to ensure that budget items were reported appropriately relative to the financial plan and approved reprogramming actions.

g. Audit Review – Financial Records And Federal Audits – The BBG, the Inspector General of the State Department, the Comptroller General of the United States, and any of their authorized representatives shall have the right to examine, audit, and copy, at any reasonable time, all records and books of accounts referred to in this section. Prior to acceptance of the final financial report, all discrepancies shall be reconciled and a copy shall be forwarded to the Office of the CFO for review or comment.

604.9 The Office of the CFO shall require the recipient to promptly refund any balances of unobligated cash that has been advanced or paid that is not authorized to be retained by the recipient for use in other projects.

604.10 The Office of the CFO shall ensure that the grantee has met proposed or required cost sharing.

604.11 The Office of the CFO shall deobligate the unliquidated balance of funds from the accounting records.

604.12 The Office of the CFO shall provide the grantee with proper instructions on the disposition of any equipment or furniture acquired with U.S. Government funds as stipulated in the appropriate OMB Circular.

604.13 The BBG shall make prompt payments to a grantee for allowable reimbursable costs under the award being closed out.

604.14 Prior to acceptance of the final financial report, all discrepancies shall be reconciled and a copy shall be forwarded to the Office of the CFO for review or comment.

## **605 Grantee Responsibilities**

### **605.1 Budget Formulation**

a. Current Services – The Grantees will submit updated requirements for the “Current Year” – the prior year Congressional budget request (to include: built-in requirements, i.e., inflation and pay raises and non-recurring costs, i.e., one-time purchases – as outlined by OMB guidance and the costs for continuing those services through the subsequent fiscal year.

b. OMB Submission – Building upon the Current Services submission and through consultation with the PSM Grantee formulation analyst, the grantees will submit updated requirements for the OMB budget request (August-Sept.) to include: built-in requirements, enhancements, program reductions, and non-recurring costs as outlined by OMB guidance.

c. Congressional Submission – Based on OMB’s passback funding guidance, the grantees will submit final estimates for the budget request year to include: built-in requirements, enhancements, program reductions, and non-recurring costs.

### **605.2 Financial Plan**

a. Upon Congressional approval of the current year appropriation, the grantee shall prepare and submit an annual financial plan. The CFO provides guidance regarding the structure of the financial plan for the grantees.

b. The financial plan is submitted with the payment request each month, and is the mechanism grantees should use for making reprogramming requests.

### **605.3 Budget Execution Procedures**

a. With the exception of the final report detailing final obligations and the annual audit, the grantee shall submit, no later than 90 calendar days after the date of completion of the award, all financial, performance and other reports as required by the terms and conditions of the award. The audited financial statements and the A-133 audit are due within the earlier of 30 days after receipt of the auditor’s report or nine months after the end of the audit period. The BBG CFO may approve extensions in advance when requested by the grantee.

b. Unless the BBG CFO authorizes an extension, a grantee shall liquidate all obligations incurred under the award not later than 90 calendar days after the funding period or the date of completion.

c. The grantee shall establish and maintain a current registration in the Central Contractor Registry.

### **605.4 Year-End Management of Grant Funds**

a. All interest earned on grant funds by grantees shall be remitted quarterly to the BBG as governed by the Cash Management Improvement Act (CMIA) of 1996, Public Law 101-453. Grantees may net bank charges against interest earned.

- b. Funds obligated by the BBG but not disbursed to the grantee at the time the annual award expires or is terminated shall revert to the BBG Agency Appropriation except for such funds encumbered by the recipient by a legally binding transaction applicable to this award or as stipulated in the grant agreement.
- c. Any funds granted but not expended by the grantees at the end of the fiscal year shall be subject to review by the CFO, and may be required to be returned to the BBG.
- d. If at any time during the life of the grant, or as a result of final audit, it is determined that BBG grant funds have been expended for purposes not in accordance with the terms and conditions of the agreement, the grantee shall refund such amounts to the BBG.

#### 605.5 Grantee Reporting Requirements

- a. Each Grantee is responsible for submitting monthly reports that include the following:

(1) Standard Form 425 (Grantees may use Standard Forms 269 and 272 until September 30, 2009, but after this date, they must use SF-425.): This form should be submitted on the 20th day of each month except for the final month of the fiscal year which shall be the 30th day of the month.

Reference: Circular A-110

(2) Statement of Obligations and Disbursements: This report should be submitted on the 20th day of the month except for the final month of the fiscal year which shall be the 30th day of the month.

Reference: Circular A-110

(3) Status of Vacancy Report: Each Grantee must submit a status of vacancy report that tracks Grantee vacancies throughout the year. This report should have the Position Title, Grade Level, Annual Salary, Date Vacant, and Expected Hire Date. The vacancy report should be organized according to division. This should be submitted in conjunction with the monthly payment request by the 26th day of each month prior to the month for which funds are allocated according to the financial plan.

(4) Exchange Rate Report : Grantees that sustain significant currency exposure are required to submit a monthly report detailing the balance of their currency loss/gain. This should be submitted in conjunction with the monthly funding request by the 26th day of each month prior to the month for which funds are requested.

- (5) Other types of reports include the following:

- Audit Reports – The grantee shall maintain at its principal offices in the United States and/or abroad full and complete records and books of accounts in accordance with accounting principles generally accepted in the United States or agreed to in the terms and conditions covering financial details applicable to the activities funded under this agreement. Each year, the grantee shall provide the BBG with a reconciliation of total disbursements as presented in their A-133 financial statements to the amounts reported as expenditures on the corresponding SF-425 (SF-272 until the end of FY 2009).
- All records required to be kept, including bid solicitations, evidence of shipment for commodities procured in the United States and procurement and service contracts, shall be maintained for a period of three years from the date of the submission of the final expenditure report, in a manner that will permit verification of the grantee's compliance with its representations, warranties, and obligations contained in this agreement. If any litigation, claim or audit is started before the expiration of the 3-year period, the records shall be retained until all open matters have been resolved.
- Awards to domestic organizations will, in addition to the records and audit provisions above, also contain provisions indicating the grantee is subject to the audit requirements found in OMB

Circular A-133. Recipients should be advised that a single or program-specific audit must be obtained when they expend \$500,000 or more in a year in Federal funds. For audits performed in accordance with the Circular, "completed audit packages" must be submitted to the Federal Audit Clearinghouse (FAC) and the Department of State, Inspector General's Audits Division.

Completed audit packages must consist of:

- A "reporting package" as specified in OMB Circular A-133 which includes financial statements and a schedule of expenditures of federal awards; a summary schedule of prior audit findings; the auditor's report; and a corrective action plan.
- A completed Form SF-SAC, Data Collection Form for Reporting on Audits of States, Local Governments, and Non-Profit Organizations. This form is based on information in the reporting package, signed by both the auditor and auditee, and used by the FAC as the basis for developing and maintaining the government wide audit database.

b. Types of reviews include the following:

(1) Program Plan – Each grantee must prepare an annual financial plan to be approved by the CFO and the Board as part of the development of the agency's annual program plan. The financial plan should include proposed allocations of all resources including current year appropriations, carry-over balances of prior year funds, and recoveries from prior year obligations if these impact the available funds for the fiscal year.

(2) Midyear Review – Each grantee must prepare an expenditures and obligations report as of March 31 of the budget year. The purpose of this review is to identify any surpluses or deficits relative to the financial plan and any reprogramming actions.

(3) Third Quarter Review – Each grantee must prepare an expenditure and obligation report as of June 30 of the budget year. The purpose of this review is to identify any surpluses or deficits relative to the financial plan and any reprogramming actions.

(4) End of Year Review – Each grantee must prepare an expenditure and obligation report as of the September 30 of the budget year. The purpose of this review is to identify any surpluses or deficits relative to the financial plan and any reprogramming actions. Each grantee must submit a report detailing final obligations for the budget year no later than 30 days after fiscal year end.

#### 605.6 Acquired Property and Equipment

a. The BBG does not fund grantee activities that involve the purchase of real property.

b. Property acquired by the grantee at a cost of less than \$5,000 shall be classified as "supplies" without regard to its useful life, and if otherwise allowable, are chargeable as direct costs to the award. For the purposes of the BBG grants, property and equipment refers to an article of nonexpendable, tangible, personal property having a useful life of more than one year, and an acquisition of cost of \$5,000 or more, shall be classified as Nonexpendable Furniture and Equipment (NEF&E). The BBG may permit or prohibit recipients from acquiring nonexpendable furniture and equipment with award funds. Items with an acquisition cost of \$5,000 or more are allowable as direct costs only if specifically permitted by the award terms and conditions.

c. Grant Terms and Conditions should include provisions calling for one of the following:

(1) No funds shall be used by the recipient to acquire nonexpendable furniture and equipment (NEF&E);

(2) All NEF&E procured by the recipient with award funds shall remain with the recipient after completion of the award period; or

(3) In accordance with the “property standard” section of OMB Circular No. A-110, the Grantee shall submit annually to the BBG an inventory of all equipment. The awarding Program Office will decide what disposition is to be made of the property. Requests for disposition instructions concerning property purchased with grant funds with a fair market value of \$5,000 or more must be submitted to the BBG 120 days in advance of the proposed disposition. If the BBG has not notified the grantee that the disposition is disapproved, the disposition will be deemed approved.

605.7 Transferred Property – Financial assistance is at times provided by the transfer of property rather than funds. The Office of the CFO will maintain a record of the transfer including a description of the property transferred, the date of transfer, and the receiving agent. Typical grant provisions will provide that the grant recipient gains title to property acquired with grant funds. However, if the BBG determines that property and equipment acquired with award funds will have a useful life in excess of any Federal purpose, the award may contain a provision withholding title to such property. Under such conditions the BBG may require the grantee to furnish the BBG with a listing of all nonexpendable property acquired with a value in excess of \$25,000 prior to completion of the project. In such cases, the BBG will receive the listing and arrange for appropriate disposition of the property.

## **606 Grantee Contracts and Leases Approval Procedure**

606.1 New Grantee contracts in excess of \$350,000 or leases in excess of \$200,000 require BBG approval. In these cases, the grantee should send the contract or lease (not a summary) to the BBG executive director, who then requests BBG CFO and GC review and make recommendations. Based on those reviews (during which any fiscal or legal problems are worked out), the BBG Executive Director sends a memo to the Board recommending Agency approval of the transactions. A formal vote by the Board does not need to be taken, but the Executive Director’s assurance to the Board of Governors that Agency staff has exercised due diligence is required. It is assumed that the Board of each grantee has already approved the transaction, if required by their own bylaws; this additional review by the BBG is to identify any problems at the federal level.

606.2 The Executive Director, as the liaison between the Board of Governors and the grantees, is key to the stewardship/oversight function of the BBG, and must make sure that the approval requested by the grantee is not presented to the Board without a recommendation from BBG staff, or if it is, that the Board is apprised that staff review has not yet occurred or is pending.

606.3 The BBG staff will make every effort to review the contracts or leases in a timely manner. To ensure that delays are kept to a minimum, the grantees should provide the contract or lease to the Executive Director as early as possible and include a date by which a BBG staff review is needed.

606.4 The approval process also applies to agreements such as union contract agreements. If you have any questions regarding whether an agreement requires BBG staff review and Board approval, please contact the Executive Director.

**607 Grant Closeout** – In accordance with Federal Regulations, termination costs must be calculated and submitted yearly by the Grantees. Grant closeout is the process by which the BBG determines that all applicable administrative actions and all required work of the grant have been completed. Final closeout and cessation of grants will be effected upon receipt of the final financial and performance report, and after determination that any other administrative requirements in the grant instrument have been met. In the event a final audit has not been performed prior to the closeout of the grant, the BBG reserves the right to recover appropriate amounts after fully considering the recommendations on disallowed costs resulting from the final audit. Beginning with FY 2009, the closeout estimate is due November 30 of each year.

## **701 SCOPE**

The purpose of this policy is to provide all available agency policy and guidance on travel management. This BBG policy governs the travel of all elements of BBG, as outlined herein. This subsection of the BAM contains the agency's policies and procedures for processing travel authorizations, claims, travel advance claims and recovery, and the use of Government-contracted charge cards for agency employees only. Following the procedures in this BAM, the BBG ensures documents submitted are in full compliance with Federal regulations and internal guidance currently provided to travelers, Administrative Officials, and Approving Officials.

## **702 AUTHORITY**

702.1 Federal Travel Regulations (FTR), Chapters 301- 304.

702.2 14 FAM, Chapters 500 and 600, Foreign Affairs Manual for travelers in the Foreign Service and other U.S. Government travelers for whom specific provisions apply.

702.3 Volume 22 of the Code of Federal Regulations (CFR), Sections 10.735-202(a), 2.4 and 3.0.

702.4 22 CFR 10.735-203 and in 22 CFR Part 3

702.5 The Government Employees Training Act (5 U.S.C., Ch.41; P.L. 85-507, as amended), implemented by E.O. 11348 of April 20, 1967

702.6 5 U.S.C. 4111

702.7 Travel and Transportation Reform Act of 1998

702.8 Public Law 105-264, dated October 19, 1998

702.9 112 STAT. 2350, 5 U.S.C. 5707; 40 U.S.C. 121.

702.10 Federal Travel Regulations contained in 41 Code of Federal Regulations (CFR), Chapters 301-51, 301-52, 301-54, 301-70, 301-71, and 301-76

702.11 Federal Travel Regulation (FTR), Chapter 302, Relocation Allowances

702.12 Foreign Affairs Manual (FAM), 14 FAM, Logistics Management

702.13 OMB Circular No. a-123, Appendix b, "Improving the Management of Government Charge Card Program,"

### **703 GENERAL TRAVEL MANAGEEMNT and DEFINITIONS**

**703.1 Application.** This section outlines standard travel practices. The applications are in accordance with the Federal Travel Regulation (FTR) and the Foreign Affairs Manual (FAM). The sole purpose of this directive is to enhance internal control polices and provide travelers/managers with supplemental guidance.

**703.2 Mandatory Use of the Travel Management Center.** Its Agency's policy that all travel be coordinated through the Travel Management Center (TMC) to ensure travel is arranged and approved in accordance with mandated statutory requirements and agency's directives. The TMC under the direction of the travel manager is responsible for ensuring that agency's travelers adhere to established guidelines.

**703.2.1 Travel Management Center Fees.** All travel authorizations reflect travel arrangements with E-travel online booking system or the onsite travel agent must include TMC processing fee. This fee is as follow:

- |  |                                     |
|--|-------------------------------------|
| • Hotel reservation                          | \$ 4.50 (online or with site agent) |
| • Airlines reservation with or without hotel | 72.99 (onsite agent)                |
| • Airline reservation                        | 7.99 (online only)                  |
| • Hotel and airline reservation              | 7.99 (online only)                  |

### **703.3 Authority for Travel and Transportation Reimbursements.**

Travel authorization (order) issued by competent serves as the authority to travel and the basis for all travel reimbursements. The travel authorization should document all expenses and stops where the travelers procure lodging and clearly state the purpose of each stop. This includes but limited to TDY stops, rest stops, stops awaiting transportation and official leave stops. Traveler is only authorized travel and transportation reimbursements for approved stops. For reimbursement purpose, a written authorization/order that quotes or reference an authority authorized to initiate the authorization/order is competent. The traveler and approving official are responsible for reading the remarks on the travel authorization for restrictive endorsements to ensure that travel can be accomplish as intended. If travel plans changes after the travel is approved, the traveler should attempt to get an email or verbal approval prior to the change. The traveler must plan accordingly to ensure the authorization reflects all required expenses, especially those that require special approval such as rental car, hired-room and conference fee. If stops and/or expenses are not included on the approved travel authorization the traveler may be responsible for paying the additional costs.

#### **703.4 Approval of Travel Expenses After Completion of Travel.**

All post travel requests for approval of expenses that need justification, such as rental car, non-standard expenses and actual lodging, should be in writing. The traveler should submit a memo, stating the expense was necessary, for approval by the Branch Chief. The travel authorization will be amended with memo attached. Standard reimbursable such taxi, tolls and baggage charges omitted from original authorization do not require a memo, however the authorization need to be amended to reflect the added cost.

**703.5 Obligating Funds in the Agency's Financial System.** After the approval the travel authorization in the E-travel system, Administrative Officers are responsible for obligating funds in Momentum, the agency's financial system. The TMC cannot legally issue tickets for travel until funds are properly obligated. The Administrative Officers should amend obligations in the financial system as travel authorizations are amended. In addition, the Administrative Officers are responsible for increasing obligations for changes trip plan after airline tickets were issued to accommodate additional airline tickets to be issued pending refund of previous issued tickets. In this case, the refund will be credited back to the allotment once a credit is received from the airline.

**703.6 Preparation of the Final Travel Voucher.** Traveler is responsible for submitting a travel voucher within 5 working days after completion of the trip. The E-travel system will automatically generate email alerts to inform the traveler to prepare a final voucher. These email alerts will be generated daily until the final voucher is submitted for approval. The final voucher must be submitted using the E-travel system and the traveler will be responsible for up-loading justification documents and all required receipts. If the trip involved foreign travel, the traveler should convert foreign dollars to U.S. dollars using exchange rate provided by vendor. In the absence of record of exchange rate, the traveler will use the integrated foreign currency exchange tool provided in the E-travel system. The TMC is available to assist the traveler in preparing the final voucher but the traveler must certify and submit the voucher for approval. The E-travel system will not allow for changes to the Per Diem reimbursement type or dates of travel without amending the travel authorization for proper approval. Additionally, the traveler should not include expenses on the voucher that were not approved through the amended process. See section 707 for additional details.

**703.6.1 Revised Voucher.** The purpose of a revised voucher is to correct a problem or issue during the approval process. The Authorizing Official should clearly state, in the remark section of voucher, the reason for returning the voucher. The traveler is responsible for correcting the issue and resubmitting the voucher back through the approval process. The TMC is available to provide administrative guidance.

**703.6.2 Reclaimed Voucher.** The purpose of a reclaim voucher is to claim expenses that were omitted from a previously paid voucher. All reclaim vouchers should be coordinated through the TMC with written request from the traveler. The request should clearly state the omitted expense and why the expense was not claimed on the paid voucher.

#### **703.7 Approval of Travel using Paper Authorization Forms.**

In situation where the E-travel system is not practical, such as PCS travel and special travel for employees stationed outside the U.S., Administrative Officer will process travel using paper orders. These orders should be through the normal process and routed through the Travel Services Manager. The Travel Service Manger will review orders to ensure all statutory requirement are met and funds are obligated in the agency's financial management system.

**703.8 Miscellaneous Expenses.** Expenses are limited those necessary and in the interest of Agency. Program managers must review the travel authorization to ensure expenses are necessary to complete assigned mission. Travelers are required to justify abnormal expenses such as rental car; hire of driver and fixer; hire room; equipment/supply purchase; excess baggage charge and text material. The justification should address alternative and the advantage

to government for elected expense. The Travel Manager will review expenses and justifications for and final approval and add restrictive endorsement for excessive expenses as needed. It's the agency's policy to authorize reasonable and necessary miscellaneous expenses for communication services and travel in and around the TDY sites.

**703.9 General Per Diem Policy.** In general per diem is authorized when the traveler is in a travel status for more than 12 hours on official orders. Per Diem is not payable if a traveler is in the area of duty station (within a 50 mile radius) and the traveler commute to and from home daily.

**703.10 Overnight Stops/Rest Stops Traveling to and From TDY SITES.** Travelers are not required to travel between mid-night and 0600. Therefore, the traveler is authorize an overnight stay at or closest to the midway point for any travel that extend 18 hours or more including layover at the airport. This overnight stay is authorized to and from the TDY site. A rest stop (different from a overnight stay previously mentioned) may be authorized for travel of 14 hours or more if premium class transportation is not authorized; the origin and/or destination is oconus. Rest stops are not authorized for the return to the duty station.

**703.11 Constructive Travel.** If the traveler, for personal reasons, arrives at the TDY site early or departs late, travel will be constructed. This means that per diem and expenses will start the day prior official TDY period and end the last day of TDY. The travel will also be charged leave for normal workdays.

**703.12 POC Use to and from TDY Sites Not to the Government Advantage.** If traveler elects to use POC for personal preference, travel reimbursement will be limited the constructed common carrier transportation cost available to the government plus constructed per diem.

**703.13 Receipt Requirements.** Receipts are required for all lodging costs regardless of the amount and for all expenditure of \$75 or more. Lodging receipt must be itemized and include the name and address of the lodging facility, the date lodging was procured, and if the room was shared with another traveler. All other must show the date nature of the service rendered (I.E. Taxi from airport to Woodbridge VA) or a description article purchased, date of service or purchase, and the unit cost. Rental car receipts must also be itemized. Receipts for hired car/driver/ fixer must include the vendor name, the cost per day or trip, total cost and method of payment. Note: The travel card charge is not considered a valid receipt however the statement can support a claim for lost receipts.

## **703.1 DEFINITIONS.**

**Constructive Cost** is the total cost of per diem, transportation, and incidental expenses, which would have been incurred for travel by a usually traveled route. However, reimbursement for indirect travel may not exceed the cost actually incurred.

**Constructive Travel Time.** Travel time allowed to travel the most direct route using the authorized method of transportation.

**Family.** Those individuals defined in Chapter - 300–3.1 of the FTR who are members of the employee's household at the time the emergency situation arises. For compassionate reasons, when warranted by the circumstances of a particular emergency situation, the approving officer may on an individual case basis expand this definition to encompass other members of the extended family of an employee and employee's spouse, such as the individuals named in FTR 300-3.1 who are not dependents of the employee or members of the employee's immediate household. In using this authority the approving officer will evaluate the extent of the emergency and the employee's relationship to, and degree of responsibility for, the individual(s) involved in the emergency situation.

**Fire, Flood or Act of God.** Fires or floods may be due to natural causes or human actions (e.g., arson) or other identifiable causes. Act of God means an extraordinary happening by a natural cause (as fire, flood, tornado, hurricane, earthquake or other natural catastrophe) for which no one is liable because experience, foresight, or care could not prevent it.

**Incapacitating Illness or Injury of Employee.** For purposes of this Section, an incapacitating illness or injury is one that occurs suddenly for reasons other than the employee's own misconduct and renders the employee incapable of continuing, either temporarily or permanently, the travel assignment. A sudden illness or injury may include a recurrence of a previous medical condition thought to have been cured or under control. The illness or injury may occur while the employee is at, or en route to or from, a TDY location.

**Government Travel Card.** Means a GSA-Contractor-issued travel charge card for use by travelers to cover major travel and transportation items such as rental vehicles, lodging, and meals in connection with official Government travel for which the contractor bills the employee. The term does not include personal credit cards issued to employees based upon their own financial merit by any credit card or other company.

**Indirect Travel.** Any journey that deviates from a usually traveled route for the traveler's personal convenience.

**Interrupted Travel.** Applies to stopovers on a usually traveled route for the convenience of the traveler. In such instances, leave is charged for excess time spent, and no per diem is paid for such periods of leave and contract fares cannot be used. Any extra expense caused by the interruption is borne by the traveler.

**Origin.** For travel entitlements origin is defined as; place the trip originates from. For BBG employees stationed in Washington DC, the origin would be Washington DC.

**Personal Emergency Situation.** The death or serious illness or injury of a member of the employee's family, or a catastrophic occurrence or impending disaster such as a fire, flood or act of God which directly affects the employee's home at the official station or the family and occurs while the employee is at, or en route to or from, a TDY location.

**Serious Illness or Injury of Family Member.** A grave, critical or potentially life-threatening illness or injury; a sudden injury such as an automobile or other accident where the exact extent of injury may be undetermined but is thought to be critical or potentially life-threatening based on the best assessment available; or other situations involving less serious illness or injury of a family member in which the absence of the employee would result in great personal hardship for the immediate family.

**Training.** The process of providing for and making available to an employee, and placing or enrolling an employee in, a planned, prepared, and coordinated program, course, curriculum, subject, system, or routine of instruction or education, in scientific, professional, technical, mechanical, training, clerical, fiscal, administrative, or other fields which are or will be directly related to the performance of the employee, in order to increase the knowledge, proficiency, ability, skill, and qualifications of the employee in the performance of his or her official duties.

**Travel Card Contractor** means the Travel Card Company on contract with GSA.

**Travel Card Program Coordinator** means an employee who has been designated to administer the Travel Charge Card Program within the BBG.

## **704 TRAVEL PLANNING, AUTHORIZATION AND APPROVALS**

**704.1 Travel Service Center.** All agency's employees are required to use the TMC for planning and arranging official travel. The Travel Management Center (TMC) is located in room 1645 of the Cohen Building. The TMC under the direction of the Travel Manager is available to assist employees with travel arrangements. Additionally, a representative from CarlsonWagonlit (Travel Agency) is available to assist with complex overseas travel. All travelers should use the E2 Solutions online booking system where possible, because this fee is significantly less than that charged by the Travel Agency.

**704.2 Requirement to use E-travel System.** All agency employees are required to use the E2 travel system to arrange TDY travel, with exception given for local travel arrangements and those stationed outside the United States. Employees are responsible for any additional costs that result from the use of an unauthorized travel agent. 41 CFR 301-50.5. The services of the TMC should be used for all official travel to ensure:

- Ensure the use of common carriers that offer discounts through government contracts,
- Obtain lodging that complies with the Hotel/Motel Fire Safety Act and that is within Government per diem rates,
- Ensure that overseas travelers comply with the provisions of the Fly America Act, and
- Obtain rental cars at Government rates
- Ensure travel is accomplished in the most economical and effective manner

**704.3 Travel is approved as follows:**

a. Travel by the VOA Director, VOA Chief of Staff, Office of Cuba Broadcasting Director, and the heads of independent offices is approved by the IBB Director or his/her designee.

b. Travel by staff of the officials listed in 703.3a and by heads of offices and services, are approved by the respective element head.

**704.4 Travel with Dignitary.** Travel to Accompany a Dignitary should be cleared with the Office of Security. A dignitary is defined as an official of Cabinet-level or higher rank.

**704.5 Consultants.** Travel by Consultants for IBB is approved by the IBB Director or his/her designee.

**704.6 BBG Board members, Directors and Staff Travel Approval.**

- The Executive Director or the Chairman or approves travel by the BBG board members, directors and consultants
- Directors or his/her designee approves travel by BBG staff members.

**704.7 Group Travel.** Group Travel (travel by more than one person to one location for the same purpose) is coordinated and approved by the IBB Director with the exception of VOA employees. The VOA Chief of Staff approves group travel for VOA employees. The following travel is not considered "group travel":

- Travel in order to convene as a group by members of statutory Committees, Commissions, or Boards is excluded from this requirement, and

- VOA employees traveling as a team of two, for example a cameraman and reporter are excluded from this requirement.

#### **704.8 Attendance at a Meeting**

a. The term "attendance at meeting" means attendance for the purpose of addressing an audience, participating in a public discussion, or participating in a conference. The term "attendance at meeting" does not include cases in which:

- (1) The purpose of an employee's presence at a meeting is to serve an operating program need, e.g., to acquire material for scripts, recordings, photographs, or guidance for use in the regular business of the BBG; or
- (2) The employee is present at a meeting held by a private organization for the purpose of participating in a Government-sponsored program.

b. Approval Criteria: The following criteria will be applied by the organizational elements when approving requests to attend a meeting:

- (1) The organization holding the meeting must be a significant one.
- (2) The organization must be one having a legitimate interest in broadcasting programs or initiatives.
- (3) There must be assurance that the meeting involved will discuss problems of immediate interest to broadcasting or the Agency.
- (4) There must be assurance that no group has been segregated or excluded based upon race, color, sex, religion or national origin from the meeting or conference, from any facilities of the conference, or from membership in the group.

c. Approval Requirements - Travel to attend a meeting to address an audience or participate in a public discussion must be approved by the head of the organizational element supplying the representative, the Director, Office of Public Affairs, or his or her deputy, and the Office of General Counsel prior to acceptance of the invitation.

d. Attendance as an Observer - Travel to attend a meeting, convention, conference, gathering or other form of assemblage, to represent the BBG merely as an observer, must be approved in accordance with Section 704.3. The subject matter of the meeting must be in a field of interest directly related to the duties of the BBG representative. The travel expenses for attendance at meetings as an observer are charged to the funds allotted to the element for regular official travel.

e. Attendance as a Speaker - The office supplying the representative must obtain preliminary clearance of the text or outline of the speech from the office concerned with the subject matter of the speech, and final clearance from the Office of Public Affairs prior to accepting the invitation.

- (1) Compensation - Without the advance approval of the Office of the General Counsel an employee may not accept personal compensation, fees, honoraria, or anything of monetary value for any consultation, speech, lecture, discussion, or appearance. Submit requests for approval to the Office of Analysis and Administration at the time clearance of the speech is requested. The Office of Analysis and Administration will forward the request to the Office of the General Counsel.
- (2) Suggesting Use of Funds - An employee who is prohibited pursuant to the provisions of paragraph (1) above from accepting compensation or anything of monetary value for certain activities may request that what he or she otherwise would receive be paid into the Treasury

of the United States, be donated to the BBG as a gift, or be donated to a charity by the sponsoring organization in its own name. Whether any donation or contribution is made and, if so, to whom, shall be left to the discretion of the sponsoring organization.

- (3) Reimbursement of Expenses - With the prior approval of the Office of Analysis and Administration and clearance from the Office of General Counsel, an employee who is prohibited from accepting compensation or anything of monetary value may accept from a sponsoring organization reimbursement of actual expenses incurred in connection with such activity, where allowed by 22 CFR 10.735-202(f).
- (4) Gifts - Where acceptance of direct reimbursement by an employee is prohibited or is disapproved, the BBG may nevertheless accept reimbursement as a gift. In such cases, and with the prior approval of the Office of Analysis and Administration, and clearance from the Office of General Counsel, the employee may accept accommodations or services in kind as a gift on behalf of the BBG.
- (5) Family members - A member of an employee's family who has been invited by the sponsoring organization to accompany the employee to a function is free to accept reimbursement for his or her expenses.
- (6) Solicitation of Reimbursement - An employee will not solicit reimbursement for expenses, nor will he or she solicit an invitation for a member of his or her family to accompany him or her in connection with an activity for which he or she is prohibited from receiving compensation or anything of monetary value.
- (7) Reimbursement may be accepted only when freely offered or tendered by the sponsoring organization. However, the Agency may in responding to an invitation to furnish an officer to speak, lecture, or participate in a conference, inquire whether the sponsoring organization is prepared to pay the actual and necessary expenses incurred in connection with such activity.
- (8) Official Reimbursement - When a sponsoring organization pays all or part of the expenses of an employee in connection with a speech, lecture, discussion or appearance, the BBG will not reimburse the employee for that portion of per diem and travel expenses that was paid by the sponsoring organization. However, no deduction will be made for luncheons, dinners, receptions, and similar functions incidental to the activity.

#### **704.9 Travel for Training Purposes**

a. Training may be accomplished through conferences, etc., that contribute to better supervision and management of the Agency's substantive functions, or classroom work, workshops, or other methods or combination of methods. Training does not include attendance of employees at such gatherings as meetings or conventions for the purpose of obtaining information concerning developments in their particular fields of interest. Travel for this purpose is considered official TDY travel and not a planned program of instruction. The travel expenses in such cases are chargeable to the organizational element's funds for official travel.

b. Clearance and Approval Requirements - Clearance and approval requirements are listed in 704.3b.

c. Travel expenses paid by the BBG incident to training are charged to funds allotted to the organizational elements for official travel to meet program needs.

d. When All Or Part Of The Expenses Are Paid By A Tax-Exempt Sponsoring Organization

- (1) Whenever an organization offers to pay all or part of the expenses of an employee, the matter must be referred to the Office of the General Counsel to determine whether the organization making the offer is tax-exempt under Section 501(c)(3) of the Code.
- (2) The Office of Financial Operations will accept payments by tax-exempt sponsoring organizations for travel, subsistence, and other expenses incident to training of an employee when approved by the Office of General Counsel. Such payments are for credit as a reimbursement to the appropriation charged for the employee's travel and other expenses.
- (3) Authorizing Acceptance of Payments by Employees - The Chief, Training and Development Division, may authorize an employee to accept payment from a tax-exempt organization, in cash or in kind, of expenses incident to training. The Office of the General Counsel may authorize an employee to accept payment from such an organization incidental to attendance at meetings. Conditions and factors governing the acceptance of these payments are cited in 5 CFR 410.701.
- (4) Reduction of Payments - Whenever a contribution, award, or payment, in cash or in kind, is made to an employee for expenses in connection with training, an appropriate adjustment will be made to any payment by the BBG to the employee.
- (5) The Preparing and Processing Travel Documents through E2 Solutions. The following additional information is needed:
  - When hotel or meals are provided, the travel authorization should indicate this in the comments section.
  - The use of taxicabs, or any other authorized item of expense not paid by the sponsoring organization should be included in the travel authorization and claimed in the Travel Voucher.
- (6) Reporting Requirements - As required by 5 USC 4113 and Office of Personnel Management (OPM) regulations, the Training and Development Division reports annually to OPM on each authorized contribution, award or payment, in cash or in kind, made and accepted for training purposes.

e. When All Or Part Of Expenses Are Paid By A Non-Tax-Exempt Sponsoring Organization - When all or part of expenses are paid by a non-tax-exempt sponsoring organization, the provisions of section 704.9d apply to acceptance of payment of travel and other expenses incident to training when all or part of the traveler's expenses are paid by a non-tax-exempt sponsoring organization.

**704.10 Travel on an actual subsistence expense basis** - This Section provides general guidelines for the administration of travel on an actual subsistence expense basis. Detailed guidance is provided in Section 301-11 of the FTR.

a. Situations Warranting Approval Of Actual Subsistence Expenses - Travel on an actual subsistence expense basis within and outside the continental United States (CONUS) may be approved when it is determined that the maximum per diem allowance would be inadequate for a specific trip due to the unusual circumstances of the travel assignment. It is not intended that reimbursement for actual subsistence expenses be authorized or approved when expenses exceed statutory per diem allowances by a small amount only. Reimbursement may appropriately be authorized or approved when the actual and necessary subsistence expenses exceed the maximum per diem allowance by ten percent or more. Examples of situations that may warrant approval of actual subsistence expenses include, but are not limited to, the following:

- (1) The employee attends a meeting, conference or training session away from the official duty station where lodging and meals must be procured at a prearranged place (such as the hotel where the meeting, conference or training session is being held) and the lodging costs incurred, because of these prearranged accommodations, absorb all or practically all of the applicable maximum per diem allowance;
- (2) The travel is to an area where the applicable maximum per diem allowance is generally adequate but subsistence costs have escalated for short periods of time during special functions or events such as missile launching periods, international or national sports events, world's fairs or conventions;
- (3) Based on a situation described in the paragraph above, affordable lodging accommodations are not available or cannot be obtained within a reasonable commuting distance of the employee's TDY point and transportation costs to commute to and from the less expensive lodging facility consume most or all of the savings achieved from occupying less expensive lodging;
- (4) The employee, because of special duties of the assignment or security issues, necessarily incurs high expenses in the conduct of official business, such as the procurement of superior or extraordinary accommodations;
- (5) The employee necessarily incurs unusually high expenses incident to his/her assignment to accompany another employee in a situation described in the preceding paragraph.

b. Maximum Allowance - The maximum amount of reimbursement for actual subsistence expenses is as provided below.

- (1) Travel Within CONUS - The maximum daily rate shall not exceed 300 percent of the applicable maximum per diem rate for the travel assignment location.
- (2) Travel Outside CONUS - The maximum daily rate shall not exceed 300 percent of the applicable maximum foreign travel per-diem rate allowance (rounded to the next higher dollar).

c. Reimbursement Limitation - When the actual subsistence expenses incurred during any one day are less than the maximum daily rate authorized, the employee shall be reimbursed only for the lesser amount.

d. Approval And Clearance Requirements

- (1) Approval Officials - Justification for travel on an actual expense basis for all offices shall be included in the "Remarks Section" of authorization in E2.
- (2) If actual subsistence is incurred against an open authorization trip then justification shall be submitted in a memorandum form to the Director, Financial Operations.

e. Computation

- (1) Reimbursement Up To Approved Daily Maximum - Reimbursement of actual subsistence expenses up to the approved daily maximum is allowed for any day during which the employee is authorized payment for actual subsistence expenses.
- (2) Travel on Per Diem and Actual Subsistence during a Single Trip - Travel may be authorized or approved on both a per diem basis and an actual subsistence basis during a single trip. Generally, the applicable rate and/or reimbursement method for each calendar day (beginning at 12:01 a.m.) will be determined by the employee's status and location at 12:00

midnight of that calendar day. Only one rate and reimbursement method will be authorized for each day except when reimbursement is authorized for occasional meals or lodging. On the day of departure from the official station the reimbursement method and maximum rate will be the same as that authorized for the first location where lodging is required. On the day of return to the official station, the method and maximum rate of reimbursement will be the same as that authorized for the previous calendar day.

f. Itemizing Expenses - All employees authorized to travel on an actual subsistence expense basis are required to submit with their travel vouchers an itemized list of the amount spent daily for expenses incurred. This listing shows the amount spent daily for: (a) lodging, (b) meals (each meal cost should be listed separately), and (c) all other items of subsistence expenses. Receipts must be provided for all lodging expenses and all expenses greater than \$75.

#### **704.11 Use of Purchase Order for Lodging**

a. The Government Accountability Office (GAO), in Decision B-209375 dated December 7, 1982, granted the authority to use appropriated funds to pay for the rental or leasing of rooms by purchase order for employees traveling on TDY under extraordinary circumstances where reimbursement on an actual subsistence expense basis would be inadequate. Examples of such extraordinary circumstances would be:

- (1) Reporters assigned to cover the President who must stay with the rest of the press corps in accommodations arranged by the White House, or
- (2) Officials traveling with foreign dignitaries who must stay in the same hotel as the visitor in order to perform their duties effectively.

b. Approval Requirements - Each request to use this exceptional authority must be submitted to the Director Financial Operations in writing, in advance, and on an individual basis. The request must be in the form of an Action Memorandum and must explain:

- (1) The nature of the employee's TDY assignment;
- (2) Why the use of the requested accommodations is an integral part of this job assignment;
- (3) Why alternative accommodations cannot be utilized;
- (4) Why failure to provide the requested accommodations could interfere with the ability of the BBG to carry out its statutory mandate; and
- (5) Why the employee is not free to choose his/her own accommodations.

c. Preparation of Travel Authorization - Upon approval of the Action Memorandum, a travel authorization is prepared which specifies that lodging will be procured by purchase order in accordance with GAO Decision B-209375. A copy of the approved Action Memorandum must also be electronically attached to the travel authorization. Meals and incidental expenses (M&IE) are authorized in the amounts specified for the city or cities to be visited.

d. Preparation of Purchase Order - The purchase order is prepared by the appropriate purchasing office in accordance with standard procedures. No purchase order may be prepared for room rental costs unless copies of both the approved Action Memorandum and the travel authorization are furnished to document the purchase file.

#### **704.12 Travel to Attend an International Conference or Summit.**

a. Authority - Funds appropriated for salaries and expenses may be used to cover travel expenses that are incurred in attending official international conferences or summits in the United States and abroad. The requesting office must state on the Authorization of Official Travel that the purpose of travel is to represent the BBG at an international conference or summit. The name of the conference or summit must be stated. Travel performed for this purpose is subject to per diem rates not in excess of allowances approved for such conferences or summits by the Department of State (foreign areas), General Services Administration (CONUS), and the Department of Defense (Non-CONUS).

b. Approval And Limitation on Conference and Summit Travel - The IBB Director shall coordinate plans for representation at international conferences and summits. VOA employees who attend as journalists in a news coverage capacity are exempt from this requirement. The VOA Director will coordinate travel for news coverage. The IBB Director will determine the appropriate number of persons to attend the conference and ensure that number will be kept to the minimum necessary to carry out the mission.

c. Conference Planning - For Elements and Offices planning conferences, retreats, training activities or meetings which involve travel by two or more people outside the attendees' permanent duty stations, travel authorizations for all participants must be approved by the IBB Director or his/her designee. Those Elements and Offices responsible for planning a conference must ensure that the conference costs are kept to a minimum. Those responsible must document the alternatives and rationale used in selecting conference sites and determining attendance. The IBB Director will determine the appropriate number of persons attending the conference and ensure that the number of persons attending will be kept to the minimum necessary to carry out the objectives of the conference.

#### **704.13 Travel to or Within the United States for TDY, Training or Consultation By Employees Stationed Overseas**

a. Allotment Charged - The travel expenses of Foreign Service employees on TDY in the United States are charged to the travel funds of the element making temporary use of the employee's services.

b. Consultation Travel In The United States For Officers Assigned Overseas

- (1) Policy - It is BBG's policy not to authorize consultation travel for officers assigned overseas who are temporarily in the United States on other than official business.
- (2) Approval Requirements for Exceptions - Exceptions to the policy may be granted on a case-by-case basis by the Head or Deputy of the element, but only in instances when such consultation travel will satisfy the immediate needs of the BBG.
- (3) Allotment Charged - The travel expenses will be charged to funds allotted to the element requiring use of the officer for consultation.

**704.14 Emergency travel** - The payment of transportation and subsistence expenses may be allowed when an employee discontinues or interrupts a TDY travel assignment prior to its completion because of incapacitating illness or injury, death or serious illness with immediate family, or catastrophic occurrence that directly affects home within or outside the continental United States. This Section provides limited guidance on the approval and performance of emergency travel. Complete regulations pertaining to this type of travel are contained in Chapter 301-30.1 of the FTR.

a. Applicability - The provisions of this section apply to travelers covered by the FTR, Foreign Service employees are covered by the Uniform Foreign Affairs Regulations (14 FAM 500).

b. Approval Requirements - Emergency travel is approved by the head of the element to which the employee is assigned. Large organizational units may re-delegate this approval authority to as high an administrative level as practical to ensure adequate consideration and review of the circumstances requiring such travel.

c. Employee Responsibility and Documentation - As soon as an employee is incapacitated by illness or injury or informed of an emergency situation which necessitates discontinuance or interruption of the TDY travel assignment; he/she should attempt to contact the designated approving official for instructions. In the event that such contact cannot be made on a timely basis, payment of transportation expenses and per diem may be approved after the travel has been performed.

d. Authorized Travel Expenses –

(1) Incapacitating Illness or Injury of Employee - When an employee interrupts or discontinues a travel assignment because of an incapacitating illness or injury, transportation expenses and per diem may be allowed to the extent and within the limitations detailed in Section 301-30.4 of the FTR. These include:

- Continuation of per diem at point of interruption;
- Return to official station or home;
- Travel to an alternate location and return to the TDY assignment.

(2) Personal Emergency Situation - To the extent provided in Section 301-30.4 of the FTR, in the event of a personal emergency situation an employee may be authorized to:

- Return to the official station or home, or
- Travel to an alternate location where the personal emergency exists and return to the TDY assignment.

e. Procurement of Transportation - Contract carriers in designated city pairs, as well as other reduced fares available to Federal travelers on official business, should be used to the extent possible for travel approved under this Section. Additional instructions pertaining to travel advances and the use of personal funds, of the return portion of round-trip tickets, and of Government contractor-issued charge cards are contained in Section 301-51 of the FTR.

f. Medical Coverage While Overseas

(1) Foreign Service Employees – Section 904 of the Foreign Service Act of 1980 provides that if an individual eligible for health care under the Act incurs an illness, injury or medical condition while abroad (including TDY or detail assignment) which requires similar treatment, the cost of all or part of such treatment may be paid by the Government. Limitations on payments established by regulation may be waived whenever the Government determines that the illness, injury or medical condition clearly was caused or materially aggravated by the fact that the individual concerned is or was located abroad. To be eligible for such payment the employee must have obtained a valid medical clearance in accordance with the Uniform Foreign Affairs Regulations.

(2) Civil Service Employees - Under the provisions of the Federal Employees' Compensation Act, Civil Service employees may receive compensation for medical care when they suffer injury in the performance of their duty while located abroad.

#### **704.15 Educational Travel**

- a. Educational Travel must be requested and issued by the Office of Human Resources. Payment and reimbursement of expenses incurred in association with Educational Travel, as authorized per 14 FAM 532.5, may include actual expenses for transportation for the dependent child, travel per diem within the maximum applicable rates, as authorized, and transportation expenses for unaccompanied air baggage (UAB), up to the weight allowance of 113 gross kilograms, or 250 pounds.
- b. In lieu of transporting the UAB back to the dependent's post, the cost of storage may be claimed, per Department of State Standardized Regulations 285.1 (DSSR). Employees are responsible for making arrangements with local storage facilities to store the UAB and must pay all fees directly to the storage company. Reimbursement for this expense may be requested at post at a later date.
- c. As noted in DSSR 285.1, before electing storage as an option, the employee should consult post to determine what documents he or she will be required to produce in order to receive reimbursement. In addition, the employee is responsible for obtaining an estimate on the shipping of the UAB to determine the maximum reimbursement amount he or she will be authorized based on the particular circumstances. Payment of the storage portion of the claim will be limited to the constructed cost of shipment of UAB or storage, whichever amount is less.
- d. Reimbursement of any authorized Educational Travel expenses should be claimed via a Travel Reimbursement Voucher. The reimbursement request should include all necessary receipts and reference the entitlement detailed on the orders. The fiscal data charged for the payment of the claim will be the accounting data on the Educational Travel orders. This data should include the full accounting classification to specifically identify the travel as educational (budget object code 2162).

**704.16 Travel Arrangements** - Except as noted below, this Section applies to arrangements for all TDY travel in the U.S. by Civil Service and Foreign Service American and Foreign National employees, regardless of point of origin, and to overseas travel originating in the U.S. It also applies to domestic and international travel by non-employees which originates in the U.S. DSSR Paragraph 617, Amount of Advance Payment, applies to travel advances issued in the U.S. Additional regulations applicable to travel by Foreign Service American and Foreign National employees are contained in 14 FAM 500.

- a. Use of Special Lower Fares - Through fares, special fares, and reduced-rate round-trip fares shall be used for official travel when it can be determined before the start of a trip that this type of service is practical and economical for the Government. Round-trip tickets for special lower fares, which are restricted or have specific eligibility requirements, will be secured only when, on the basis of the journey as planned, it is known or can be reasonably anticipated that these tickets will be used. The use of special lower fares under these provisions does not take precedence over the mandatory use of contract airfares between selected city-pairs.
- b. Contract Carriers offering discount fares under the Government's city-pair program shall be utilized whenever possible. Although contract carriers have no advance purchase requirement, tickets should be requested 30 days in advance of travel whenever possible in order to take advantage of other discount fares, where available, on routes not served by contract carriers.
- c. Baggage Allowance for Travel Within the United States (including Alaska, Hawaii, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and U.S. possessions abroad) - The amount of baggage carried by the traveler at no charge by airlines is the same for less-than-first-class and first-class accommodations. Baggage above this limitation is excess

baggage. Reimbursement for baggage in excess of the weight carried free by the carrier will be allowed only if authorized or approved.

d. Baggage Allowance for Travel Outside the United States - When less-than-first-class air accommodations are authorized for travel beginning or terminating outside the United States (as defined in paragraph (1) above), the amount of baggage carried free in first-class accommodations will be allowed. Travelers may claim reimbursement on their travel vouchers for any authorized excess baggage. When first-class accommodations are authorized, baggage carried in excess of the weight carried free by the airline will be allowed only if authorized or approved. Travelers may claim reimbursement on their travel vouchers for any excess baggage over the limit for coach class but not first class or any excess baggage authorized.

e. Indirect or Interrupted Travel

(1) Policy - Official TDY travel shall be performed by the most direct, usually traveled route to conduct official business. Employees should develop their itineraries to permit travel by the most direct route, class, and mode of transportation authorized and available. When indirect or interrupted travel is performed for personal convenience, the provisions in paragraphs (3) and (4) below apply.

(2) Extra Expense - When a traveler deviates from a usually-traveled route for personal convenience, the extra expense for the journey that is by an indirect route or for accommodations superior to those authorized must be borne by the traveler. Tickets may only be issued for official travel.

(3) Limitations on Reimbursement - Reimbursement for costs incurred on a journey which is traveled by an indirect route is limited to the total cost of per diem, incidental expenses, and transportation by economy or coach air accommodations (regardless of mode of transportation used in indirect travel) which would have been incurred by traveling on a usually-traveled route. Leave is charged for any excess travel time.

(4) Leave - The employee should obtain approval prior to taking leave to perform indirect or interrupted travel during TDY travel. The traveler's supervisor evaluates the request to take leave while on an official trip, and approves or disapproves on the basis of need.

f. Stopover for Rest Period - In order to provide needed rest on long air journeys, a rest period not to exceed 24 hours may be authorized in route to TDY station when the traveler uses economy class accommodations for a trip of 14 hours or more of scheduled flight time, including scheduled stopovers of less than eight hours, on a usually-traveled route. The rest stop should be taken at a point midway in the journey or as near thereto as schedules permit, and per diem and incidental expenses are payable. Rest stops are not authorized if travel is performed by an indirect route or in first-class or business-class accommodations, except where no economy seats are available or airlines direct that business-class or first-class routing must be used.

g. Time Zone Adjustments

(1) Uninterrupted Travel - Travelers flying without interruption, except for flight connections, on a direct route with a difference of five or more hours between local time at point of departure when travel began and local time when arriving at the temporary or permanent duty point should, whenever possible, arrange departure to allow arrival at destination a full day before commencing duty.

(2) Per Diem during the adjustment period is payable to TDY travelers, except on return to the official duty station.

h. Passport and Visa Requirements

- (1) An employee scheduled for overseas travel must have a valid passport with the necessary visas. The employee should consult the TMC concerning the forms to be completed, photographs to be taken, and other requirements.
- (2) Diplomatic and Official Passports - The TMC will obtain passports, as well as the required visas, when a detailed itinerary and sufficient lead-time are provided.
- (3) Regular (Tourist) Passports - When indicated, official travel may also be performed with tourist passports. The TMC will assist in obtaining the passport but travelers may be required to secure their own visas. Employees may request reimbursement on the travel voucher for the cost of tourist passports and visas when their use for official travel is indicated.

i. Immunizations

- (1) Employees - It is the employee's responsibility to obtain the necessary immunizations for overseas travel. The Health Unit provides information on requirements and will administer inoculations if presented with a valid travel authorization containing at least one official signature. In emergencies, inoculations also may be obtained at the State Department Medical Division.
- (2) Non-Employees -Immunizations are not provided or reimbursable for non-employees such as experts or consultants traveling on official business. These travelers may obtain information on requirements from the office sponsoring the travel but must obtain their own inoculations.

#### **704.17 Travel Performance And Accommodations**

a. Method of Transportation - Travel on official business shall be by the method of transportation, which will result in the greatest advantage to the Government, cost and other factors considered. In selecting a particular method of transportation to be used, consideration shall be given to energy conservation and to the total cost to the Government, including costs of per diem, overtime, lost work time and actual transportation costs. Additional factors to be considered are the total distance of travel, the number of places visited, and the number of travelers. As cited in 5 U.S.C. 5733, "The travel of an employee shall be by the most expeditious means of transportation practicable and shall be commensurate with the nature and purpose of the duties of the employee requiring such travel."

b. Class of Service - It is the general policy of the Government that coach or economy shall be used for passenger transportation, unless expressly authorized under other provisions of this instruction.

c. Employee's Obligation - Employees traveling on official business are expected to exercise the same care in incurring expenses that a prudent person would exercise if traveling on personal business.

d. Authorized Methods - Methods of transportation authorized for official travel include railroads, airlines, helicopter service, vessels, buses, streetcars, subways, taxicabs, Government-furnished and contract rental automobiles and airplanes, and any other necessary means of conveyance. The method selected should comply with the policy stated in paragraph (A) above.

d. Limitation on Travel by Vessel - Except for travel between points served by ferries, travel by vessel is not considered to be advantageous to the Government in the absence of sufficient justification that the advantages accruing from the use of ship transportation offset its higher costs, i.e., per diem, fare, and lost work time. Requests for travel by vessel must be approved by the Director, Financial Operations and normally will be permitted only for medical reasons or in connection with U.S. Government-ordered evacuation overseas.

e. Traveler's Cost Liability When Selected Method is Not Used - The traveler shall use the method of transportation administratively authorized or approved as most advantageous to the Government. Any additional cost resulting from use of a method of transportation other than that specifically authorized, approved, or required by regulation, e.g., contract air service, shall be the traveler's responsibility.

f. Security Factor - When required for reasons of security, the mode of travel, accommodations, and route will be determined on the basis of providing the necessary safeguards.

g. Common Carrier - Since travel by common carrier (air, rail, or bus) will generally result in the most efficient use of energy resources and in the least costly and most expeditious performance of travel, this method shall be used whenever it is reasonably available. Other methods of transportation may be authorized as advantageous only when the use of common carrier transportation would seriously interfere with the performance of official business or impose an undue hardship upon the traveler, or when the total cost by common carrier would exceed the cost by some other method of transportation. The determination that another method of transportation would be more advantageous to the Government than common carrier transportation shall not be made on the basis of personal preference or minor inconvenience to the traveler resulting from common carrier scheduling. The following policies will aid in the selection of the most advantageous method of common carrier transportation:

(1) Contract Air Service - The use of discount fares offered by contract air carriers between certain cities (city-pairs) is considered advantageous to the Government and is mandatory for authorized air travel between those city-pairs.

(2) Non-contract Air Service - The use of non-contract air service may be authorized or approved only when justified. Advance authorization and the justification for the use of non-contract air service shall be shown on the travel order, or other form of travel authorization, before the actual travel begins unless extenuating circumstances or emergency situations make advance authorization impossible. In this event, the employee shall obtain a certificate of approval to his/her travel order at the earliest possible time after completing the travel. The approval and justification shall be stated on or attached to the travel voucher.

(3) Rail or Bus Service - Rail or bus service may be used when determined to be advantageous to the Government, cost, energy, and other factors considered and when compatible with the requirements of the official travel. The use of discount fares offered to the Government by rail or bus carriers between selected cities (city-pairs) is considered advantageous. Whenever these discount fares are offered, and the accompanying service will fulfill mission requirements, they should be used to the maximum extent possible.

(4) Carrier Rates - When two or more carriers charge different rates between the same points for similar accommodations, the carrier charging the lower rate should be used to the maximum extent possible unless it would increase per diem or other costs in excess of the difference in rates. However, contract carriers must be used wherever possible.

h. Rental and Government-Furnished Automobiles and Special Conveyances –

(1) When Used - Commercially rented vehicles, other than those under contract, and other special conveyances shall be used only when it is determined that use of other methods of transportation discussed in paragraph 2.4. (C) (2) above would not be more advantageous to the Government. In the selection of commercially rented vehicles, first consideration shall be given to Government-contract rental vehicles available under an appropriate GSA Federal Supply Schedule contract.

- (2) Approval Requirement - The hire of boat, automobile, taxicab, aircraft, or other conveyance will be allowed if authorized or approved as advantageous to the Government whenever the traveler is engaged in official business within or outside the employee's designated post of duty.
- (3) Government-Contract Rental or Government-Furnished Automobiles - When it is determined that an automobile is required for official travel, a Government-contract rental or a Government-furnished automobile shall be used as follows:
- A Government-contract rental automobile is the first resource for short-term rental of an automobile by a traveler on TDY travel. This applies to those who travel to their destination by common carrier, such as airplane, train, or bus, and are authorized to rent a vehicle for local transportation in the destination area. An employee may also use a Government-furnished automobile if a Government-contract rental automobile is unavailable or if use of a Government-furnished automobile is more practicable.
  - A Government-furnished automobile is the first resource when an automobile is required for official travel performed locally or within commuting distance of an employee's designated post of duty. If a Government-furnished automobile is unavailable, a Government-contract rental automobile may be used.
  - When a Government-owned or -leased automobile or other transportation equipment is used by an employee for official travel, its use will be limited to official purposes (31 U.S.C. 1343). Official purposes include transportation between places where the employee's presence is required incident to official business, between such places and places of temporary lodging, and when public transportation is unavailable or its use is impractical, between either of the above places and places necessary to obtain suitable meals. Also, transportation to drugstores, barber/beauty shops, places of worship, cleaning establishments, and similar places required for the sustenance, comfort, or health of the employee in order to foster the continued efficient performance of Government business will be allowed.
- (4) Collision Damage Insurance on Commercially Rented Automobiles - Since the Government relies on self-insurance, BBG cannot pay, nor can it reimburse employees, for the cost of the collision damage waiver or collision damage insurance available for an extra fee in commercial rental contracts in the United States. The waiver or insurance referred to is the type offered a renter to release him or her from liability for damage to the rented automobile. If a traveler is authorized to rent a vehicle, the Government assumes responsibility for any damage thereto while being used for official business. However, employees traveling overseas who are authorized to rent a vehicle may be reimbursed the cost of collision insurance.
- (5) Incidental Charges for Special Conveyances - If the hire of a special conveyance does not include costs of the incidental expenses of gasoline or oil, rent of garage, hangar or boathouse, subsistence of operator, ferriage, tolls, airplane parking, landing, and tie down fees, etc., the same should be first paid, if practicable, by the person furnishing the accommodation, or his or her operator, and itemized in the bill.
- (6) Consistent with general policy that travel expenses are advantageous to the government, only compact and intermediate size vehicles will be authorized for individual travel. Requests for larger vehicles must be justified.
- (7) Privately Owned Vehicle - The use of a privately owned vehicle shall be authorized when its use is advantageous to the Government. A determination that the use of a privately owned conveyance would be advantageous to the Government shall be preceded by a determination that transportation by common carrier, a government-contract rental

automobile, or Government-furnished transportation is not available or would not be advantageous to the Government. To the maximum extent possible, these determinations and the authorization to use a privately owned conveyance shall be made before the performance of travel.

- (8) Permissive Use of a Privately Owned Vehicle - When an employee uses a privately owned vehicle for personal conveniences and such use is compatible with the performance of official business, although not determined to be advantageous to the Government, such use may be authorized or approved provided that reimbursement is limited to the constructive cost of common carrier transportation.

i. Train Accommodations

- (1) Sleeping Car Accommodations - When overnight travel is involved, the lowest first-class sleeping accommodations available shall be allowed. Higher cost accommodations may be authorized or approved upon the employee's certification on the travel voucher that lowest first-class accommodations were not available or that use of superior accommodations was authorized or approved by the Director or his/her designee, as being required for security purposes.
- (2) Parlor Car and Reserved Coach Accommodations - When adequate reserved coach accommodations are available, officials authorizing travel shall require that those accommodations be used to the maximum extent possible. However, use of a parlor car seat may be allowed when the duration of the train travel exceeds four hours.
- (3) Extra-Fare Trains - Travel by extra-fare trains may be authorized or approved whenever their use is administratively determined to be more advantageous to the Government or is required for reasons of security. The use of National Railroad Passenger Corporations (Amtrak) Metroliner coach service is considered to be advantageous to the Government. Acela service is considered to be premium-class service.

j. Airline Accommodations - It is the policy of the U. S. Government that air travelers use the most economical fare structures available. Consistent with that general policy, there are circumstances, which warrant travel in first-class or business-class accommodations.

k. First-Class Travel Exceptions - Rest stops are not authorized when travel is performed in upgraded accommodations. First- class travel may be authorized under the following conditions:

- (1) When travel is conducted by couriers accompanying controlled pouches, and a lower premium-class air accommodation is not available.
- (2) No other reasonably available accommodations. The use of first-class air accommodations may be authorized or approved when coach-class air accommodations or premium-class other than first-class air accommodations are not reasonably available. Not reasonably available means no other class of accommodations, other than first-class accommodations is available on any scheduled flight in time to accomplish the purpose of the official travel.
- (3) When the physical condition of the traveler, as certified by competent medical authority, requires the use of first-class travel. Medical certifications must be dated within one year prior to the start of travel unless the condition is identified as a lifelong condition.
- (4) Regularly scheduled flights only provide first-class air accommodations. The use of first-class air accommodations may be authorized or approved when regularly scheduled flights between the authorized origin and destination points (including connecting points) provide only first-class air accommodations, and the employee certifies this circumstance on the travel voucher.

l. Business Class Travel Exceptions - Rest stops are not authorized when travel is performed in upgraded accommodations. Use of premium-class travel other than first-class air accommodations are limited to those below:

- (1) When TDY travel is conducted by any US government-funded traveler for direct travel, when the authorized origin or destination point is outside the United States (CONUS) and the scheduled flight time is in excess of 14 hours, including stopovers of less than eight hours, and when a rest stop cannot, because of the urgency of the mission, be taken. When this authority is exercised by the authorizing officer, an employee shall not be eligible for a rest stop en route or a rest period upon arrival at the TDY station;
- (2) When there is no space in economy accommodations on any scheduled flights in time to carry out the purpose of the official travel, which is so urgent that it cannot be postponed;
- (3) When the physical condition of the traveler, as certified by competent medical authority, requires the use of business-class travel. Medical certifications must be dated within one year prior to the start of travel unless the condition is identified as a lifelong condition;
- (4) When exceptional circumstances essential to the successful accomplishment of the mission or security reasons require the use of business-class travel. Travel is deemed to be mission critical if the failure to complete the travel would have a significant and detrimental impact on the accomplishment of the agency's mission; or
- (5) Where the cost savings from forfeiture of rest stop entitlement exceeds the incremental increase for business-class accommodations; and/or where measurable efficiencies are achieved from the traveler's avoiding use of work days for rest stops; and/or where business class facilitates work en-route and/or immediately upon arrival. A cost comparison must accompany both the request and the travel authorization.

m. Approval and Authorization for First Class and Business Class Travel accommodations

- (1) First-Class Travel - The use of first-class accommodations under the exceptions specified in paragraph (1) require prior approval from the Chief Financial Officer or his/her designee through the IBB Director for IBB employees or the BBG Executive Director for BBG office staff.
- (2) Business-Class Travel - Authorization to use business class for criteria specified in paragraphs (2)(a) through (c) requires prior approval at the appropriate supervisory level as follows. The Director of the IBB; Director, VOA; and Director, Engineering approve business class travel for employees within their respective units. The BBG Executive Director approves business travel for BBG Board and staff. The CFO or his/her designee must also review and approve all business class travel.
- (3) Requirement for Advance Authorization - Authorization for first class and business class travel where necessary shall be obtained in advance of actual travel. Where circumstances make advance approval impossible, the traveler shall obtain written approval as soon as possible in accordance with the above regulations.
- (4) Employee Responsibility and Documentation - The employee shall certify on the travel voucher the reasons for the use of first-class/business-class accommodations. Specific authorization or approval shall be attached to, or stated on, the travel voucher and retained for the record. In the absence of advance authorization or approval, the employee shall be responsible for all additional costs resulting from the use of first-class/business-class accommodations. The additional costs shall be the difference between the first-

class/business-class accommodations used and the lowest fare available at the time of travel.

n. Procedure for Requesting Upgraded Air Accommodations - Requests for business class and first class travel are routed to the TMC Branch Chief for approval through E2 Solutions. E2 Solutions identifies the additional cost to the BBG resulting from the difference between first-class accommodations and the next lower class accommodations and between first class and the lowest fare available.

o. Use of U.S. Flag Carriers - The Fly America Act, 49 U.S.C. 40118, requires all Government-financed air travel be performed on U.S. air carriers where such service is available.

p. Travel Between Two Points Abroad - 49 U.S.C. 40118 (d) provides that notwithstanding the provisions of 49 U.S.C. 40118 (a) and (c), Government-financed air travel by officers and employees of BBG, their dependents, and accompanying baggage may be performed on foreign flag air carriers between two places both of which are outside the United States. Congress noted that it expected that this authority will be implemented in a manner which will continue to encourage U.S. Government employees to use U.S. air carriers to the maximum practical extent.

q. Scheduling and Routing of Official Air Travelers - Employees, consultants, contractors, grantees, and other travelers funded by the BBG for all travel between the United States and points abroad should use a U.S. air carrier even though comparable foreign flag service may be available, cost less, financed by excess foreign currency and preferred by the BBG or the traveler. Travelers on transfer travel, and those who can exercise flexibility in scheduling their travel, are expected to schedule their trips to make use of U.S. air carriers.

r. U.S. air carrier service should be used for all travel EXCEPT:

- (1) When use of such service would interfere with the accomplishment of an essential mission.
- (2) When unaccompanied children (16 years of age or younger) would have to change airports at an interchange point, overnight at such points, or experience delays in excess of three hours at the interchange point.
- (3) When it has been determined that delay could be detrimental to the health of the traveler, an employee or dependent, or when traveling under emergency visitation or medical evacuation orders (certified by competent medical authority in the case of medical evacuation). Travel of medically authorized attendant(s) is also authorized. The authorizing officer must provide a statement to the traveler outlining the urgent travel requirement and the reason why U.S. carriers were not considered available. The traveler will file the statement with his/her travel voucher. Return travel is to be performed in accordance with the Fly America Act.
- (4) When an official traveler is denied boarding by a U.S. carrier, he/she may accept a seat provided by the airline's representative on a foreign flag flight, notwithstanding the availability of alternate U.S. air carrier service. This provision also applies to cases where a traveler is denied boarding while on indirect travel or annual leave which is taken in conjunction with TDY, home leave, or transfer travel. The traveler should attempt to get a statement of the denied boarding from the airline representative to file with his or her travel voucher.
- (5) When the gateway airport abroad is the traveler's origin or destination airport, and the use of U.S. air carrier service would extend the time in a travel status, including delay at origin and early arrival at destination, by at least 24 hours.
- (6) When the gateway airport abroad is an interchange point and the use of U.S. air carrier service would require the traveler to wait six hours or more to make connections at that point.

- (7) When connecting with ongoing flights at the gateway airport in the United States would extend his or her time in a travel status by at least six hours.
- (8) When the travel abroad is a portion of the trip to the United States, travelers may interchange to U.S. air carriers at a point, which will permit arrival in the U.S. on a flight, which directly serves the interchange point and destination. Likewise, when travel abroad is a portion of the trip from the United States, travelers may interchange to foreign carrier service at a point, which will permit departure from the U.S. on a U.S. air carrier flight directly serving the origin, and the interchange point. U.S. air carrier service will be used to the furthest interchange point with foreign carriers and foreign carriers will be used to the nearest interchange point with U.S. air carriers which will not extend the traveler's time in a travel status by more than six hours between points of origin and destination.
- (9) U.S. air carrier service does not have to be utilized abroad if it would require travel during normal sleeping hours (11:00 P.M. - 7:00 A.M.) and a foreign air carrier provides service during other hours.
- (10) U.S. air carrier service does not have to be utilized abroad if it would require a change of planes during normal sleeping hours and the foreign air carrier service would not require a change of planes during those hours.
- (11) Foreign air carrier service may be used abroad if it would eliminate two or more aircraft changes en route.
- (12) Short Distance Travel - Foreign air carrier service may be used when the elapsed travel time of a scheduled flight from origin to destination airport by foreign air carrier is three hours or less and service by U.S. carrier would involve at least twice such travel time.

s. Approval for Use of Foreign Air Carriers - is required whenever a foreign air carrier is used between the United States and points abroad. The traveler shall submit a memorandum to Director, Financial Operations prior to start of travel, providing full justification for the request for the use of the foreign air carrier. If the Director, Financial Operations concurs with the traveler's justification, the request will be forwarded to the Office of the General Counsel for approval. The traveler may appeal a negative ruling by the Director Financial Operations directly to the Office of General Counsel. This requirement is not applicable to travel described as travel between two points abroad or to travel addressed by the BBG announcements authorizing the use of foreign flag carriers between the U.S. and specific points abroad.

- (1) The approval memorandum discussed above is required before tickets procured in the U.S. can be released by the contract travel agency, and it must be attached to the travel voucher in E2 Solutions.
- (2) For travelers abroad who were unable to avail themselves of the prior approval process, a statement must be included on/with the travel voucher justifying their use of the foreign air carrier. Travelers are cautioned that if their justification is not accepted they will be subject to the financial responsibilities that result from their actions.

t. Payment in Foreign Currency - Legislative authority for certain programs and activities prohibit the expenditure of U.S. dollars for travel or other official purposes. In such instances, where foreign currency must be used for travel and where U.S. air carriers do not accept such currency, travel may be performed to the extent required on carriers which do accept U.S. currency.

u. Traveler's Financial Responsibility - Where the travel is by indirect route or the traveler otherwise fails to use available U.S. air carrier service or does not have approval to use a foreign

carrier, the amount to be disallowed against the traveler is based on the loss of revenues suffered by U.S. air carriers.

Travelers should not be held liable for minor variations when the differences in distance are relatively small and difficult to measure. The amount disallowed is calculated based on the percentage of the overall trip mileage flown on a foreign carrier.

$$\frac{\text{Sum of unapproved carrier segment mileage traveled}}{\text{Sum of all segment mileage traveled}}$$

For example, assume a traveler is going from Washington DC to Frankfurt, GDR via London, UK. The distance from Washington DC to Frankfurt, GDR is 4,065 and the distance from Washington DC to London, UK is 3,674 miles. The traveler uses an unauthorized foreign carrier to travel from London UK to Frankfurt, GDR.

$$\frac{\text{Sum of unapproved carrier segment mileage traveled}}{\text{Sum of all segment mileage traveled}} = \frac{391}{4,065} = 10\%$$

The use of a foreign carrier from London to Frankfurt represents 10% unauthorized foreign carrier usage. The traveler is liable only if the difference is greater than zero. The traveler is never liable for more than the segment fare payable for the segment improperly traveled.

v. Refunds or Adjustments - Under no circumstances will a traveler obtain a refund or credit from a carrier for an unused ticket. For tickets, which are exchanged (traveler exchange of an original ticket for one of lesser value) or returned, the traveler will surrender the ticket coupon to the carrier in return for a receipt or ticket refund application. Carriers are required to make refunds to the credit card indicated on the ticket. Receipts or ticket refund applications and any unused tickets or portions thereof, which were not turned in at the carrier's ticket office must be forwarded immediately to Financial Operations. Employees stationed overseas shall follow Embassy procedures when the tickets are purchased and processed by the Embassy.

w. Uncompleted Trips - The traveler must submit unused tickets, carrier receipts or ticket refund applications to the TMC with a statement on their voucher about the disposition of the unused tickets. In the case of e-tickets, the traveler will notify the TMC of any unused e-tickets with a statement on their voucher that the TMC has been notified. These actions must be taken when:

- (1) Travel is terminated short of the destination shown on the ticket;
- (2) The services furnished are of less value or different than specified on the ticket; or
- (3) The return portion of a round trip ticket is not used.

x. When there is no unused ticket for services not furnished, the traveler should obtain a written statement from the carrier's representative. The traveler will submit the statement with an appropriate explanation to the TMC, or to the appropriate Embassy official, and give:

- (1) The serial number of the ticket.
- (2) Points of travel for which the ticket was purchased, and the points between which the ticket was actually used.

#### **704.18 Travel Authorizations**

a. The Travel Authorization (Travel Order) must be established and processed via E2 Solutions. The Travel Arranger or the Traveler may initiate travel authorizations. Form IBB 34A is no longer used.

b. Procurement of Passenger Transportation

(1) The agency will provide a TMC program. Tickets are purchased through the Agency's centrally billed account.

(2) Reduced Service Rates – Use of through fares, special fares, excursion fares, reduced rate one-way, and round-trip fares for official travel is allowed only when contract fares are unavailable or it can be determined by the authorizing official before starting a trip that all things considered, using such service would be more practical and economical.

(3) Use of Travel Agencies in Foreign Areas - Paying fees for travel services charged by travel agencies in foreign areas are allowed when it is determined that such travel services cannot be obtained, without charge, directly from the carrier involved.

c. Special Security Requirements - All employees traveling to certain overseas destinations must undergo a briefing from Security prior to any and all travel. There is no exception. A list of countries currently designated for security briefings is maintained by the Department of State. Travelers should call the Office of Security at 202-619-5817 to arrange for the briefing. The traveler will attach the clearance, signed by the designated security official, to the E2 Travel Authorization.

## **705 TRAVEL ADVANCES**

**705.1 Approval** - In accordance with 5 U.S.C. 302, BBG has delegated the authority to approve and sign applications for travel advances to the Director, Financial Operations. All or any part of this authority may be re-delegated in writing to appropriate officials of BBG and to appropriate officials of other U.S. Government agencies that are authorized to perform administrative functions for BBG at overseas installations. In obtaining an advance, BBG is providing an advance of funds to employees who are authorized to perform official travel. The advances are based on BBG issued travel authorizations and officially approved applications for travel advances. The authority for making travel advances is contained in 5 U.S.C. 5705.

**705.2 Delegated Officials** - Each application form for a travel advance must be signed by an approving officer. Applications processed in Washington are approved by a delegated official in the Office of Financial Operations. Overseas applications are approved by the officer to whom he or she regularly delegates duties of an administrative nature or the administrative officer of the Department of State fiscal servicing post. The approving officer is responsible for determining that the travel has been properly authorized and the amount of advance requested meets the criteria in the following paragraph.

### **705.3 Forms, Limitations and Payments**

a. Domestic - The SF-1038 is used to provide travelers with an advance of funds prior to travel. Travel advances are issued via Citibank travelers checks for travelers who do not have a Federal issued government travel credit card or by electronic fund transfer.

b. Foreign - The SF-1038 is used by the traveler to apply for travel advances overseas.

c. The data cited for the advance must include:

- (1) The full fiscal accounting strip for the travel authorization;
- (2) The estimated date of travel completion;

- (3) The date paid;
- (4) The amount of the advance payment;
- (5) Printed Name of Payee;
- (6) Date advance received; and
- (7) Signature of Payee.

d. Limitation of Advance - Travel advances are limited to 80 percent of the estimated combined total of out-of-pocket expenses less payments by the U.S. Government to a third party, such as payments for tickets, and, when allowed, lodging. This limit includes permanent change of station travel, including advances for temporary quarters, and travel to attend training. If issued in traveler's checks, the travel advance is rounded down to the nearest \$50 increment. The minimum travel advance allowed is \$150. Advances at 100% are not allowed. The traveler and supervisor jointly determine the anticipated cash requirements for the trip and specify such on the Travel Authorization. It is the responsibility of the office preparing the travel authorization to ensure that the above guidelines are followed when travel advances are requested.

e. Payment by EFT - Allow a minimum of five working days to process the application for an electronic funds transfer or direct deposit. Prepare SF-1038, Advance of Funds Application and forward for processing to the TMC.

f. Payment by Travelers Check - Travelers checks are issued by the contract travel agency. Travelers prepare an SF-1038 and forward it for processing to the TMC. Employees must present their Travel Card and Travel Authorization to the TMC. New applicants for a travel card who are required to travel and have not yet received their travel card may apply for a travel advance. However there must be a Travel Card application pending.

g. For Employees Having a Suspended or Canceled Government Travel Card Due to Misuse or Delinquency - Employees whose travel card has been suspended or cancelled due to misuse of the travel card or for account delinquency will not be given a travel advance.

#### h. Repayment of Travel Advance

- (1) The traveler is responsible for repaying a travel advance by submitting a travel reimbursement voucher and/or by direct refund.
- (2) Travel Canceled or Postponed For an Indefinite or Lengthy Period - Return the advance to the Office of Financial Operations immediately upon receipt of notice of such action. The advance must be repaid in cash or by personal check. Traveler's Checks cannot be returned.
- (3) Travel Completed - Receiving an advance does not relieve an employee of the responsibility for keeping an accurate record of travel performed and expenses incurred, with supporting receipts where required, and submitting a completed and approved travel voucher. An employee must submit the travel voucher within five working days after completing the travel. The Office of Financial Operations will deduct the amount of the travel advance from the approved amount of the voucher. If the amount claimed on the voucher is less than the amount of the travel advance, attach to the face of the voucher at the time of submission a personal check or other form of remittance for the difference, made payable to: Broadcasting Board of Governors. Prompt submission of a travel voucher and repayment of excess funds advanced (if any) reduces paperwork and the possibility of deductions for the full or excess amount advanced.
- (4) Interest, penalty (after 90 days), and administrative charges may be assessed on amounts outstanding more than 30 calendar days after actual travel completion. When the repayment of a travel advance is not made within 30 days after travel completion, the debt collection process will take place in accordance with the Travel and Transportation Reform Act of 1998.

(5) When it is necessary, salary offsets will be used to collect past due travel advances.

**705.6 Type of Currency** - Travel advances may be issued via EFT, U.S. Department of the Treasury check or travelers' checks. Domestic travel advances are paid in U.S. currency. Travel advances for host country are paid in local currency only. For travel outside the host country, travel advances are normally paid in U.S. dollars.

**705.7 Outstanding Advance** - All prior travel advances to a traveler must be repaid (by voucher and/or direct refund) before the traveler departs on transfer, separation, home leave, or further TDY travel. A new advance is not allowed until prior outstanding advances for completed travel have been settled either by submission and approval of a voucher or repayment by personal check.

**705.8 Notification of Outstanding Advance** - A travel advance is a loan and must be repaid by either performing the travel and submitting a travel voucher or repaying the amount in cash or check. Outstanding advances are debts according to the Debt Collection Act, which provides for interest, and administrative charges to be assessed on the amount advanced beginning with the 31<sup>st</sup> calendar day following the completion of travel until the date the voucher and/or refund is submitted. Penalties may be assessed for amounts more than 90 days past due 31 U.S.C. 3717 (e)(2).

**705.9 Accounting for Travel Advance** - The following are the procedures for accounting for all travel advances issued against allotment accounts.

a. Travel advances charged to domestic allotments are controlled by using reports from the financial management system.

b. Travel advances charged against foreign allotments are controlled by using reports from overseas posts.

c. Travel advances issued by posts for Washington-authorized TDY travel are charged to the post allotment when the travel originates and ends at the post and are verified by reports from the Department of State financial service centers.

d. Prior to payment of any travel voucher or issuance of another advance, the certifying officer determines, through the financial management system, if the traveler has a prior outstanding advance. Any advance made against the travel order is liquidated against the voucher prior to payment to the traveler.

e. Voucher approving officials and administrative officers must ensure that all outstanding travel advances are deducted from travel reimbursement vouchers during the approval process. They are also responsible for notifying the traveler, by memorandum, requesting that the advance be settled within 10 calendar days if:

(1) The final travel reimbursement voucher is not submitted within the time prescribed above.

(2) Repayment is not made following travel completion, indefinite postponement, or cancellation of travel; and/or

(3) The approved amount of the voucher submitted is insufficient to cover the amount of advance outstanding and that the excess advance is due and payable.

f. Certifying Officers shall determine that outstanding travel advances are properly deducted before certifying a travel voucher. Travel advances made against one travel authorization may be deducted from the claim of another travel authorization when the allotment is the same.

g. If settlement is not made within 10 calendar days after the notification has been made according to section (1) above, administrative officers shall refer the matter with appropriate fiscal data and surrounding details to the Office of Financial Operations for collection action by salary deduction.

h. Monthly reports are available to administrative offices from the financial management system identifying open obligations for travel. Notification and collection action is performed at the program office as needed. Post management officers and program office fund managers will review, on a quarterly basis, the travel advance status reports, and inform Office of Financial Operations of errors and/or collection difficulties within 30 days after receipt of the report.

i. A travel advance is repaid by refund or voucher deduction in the same kind and amount of currency in which the advance was made, or in the equivalent thereof.

**705.10 Temporary Quarters Subsistence Allowance (TQSA) or Quarters Allowance (QA) advances** - To apply for an advance for Temporary Quarters Subsistence Allowance (TQSA) or Quarters Allowance (QA), the employee submits Form SF-1190, Foreign Allowances Application, Grant, and Report, to the Office of Human Resources to approve such allowances.

a. Advances for the Home Service Transfer Allowance (HSTA), Foreign Transfer Allowance (FTA), or miscellaneous expense allowance (MEA) are processed in the same way as advances for Permanent Change-of-Station (PCS) travel-related expenses and should be issued no earlier than 10 business days prior to departure.

b. When an employee is eligible to receive an advance of both PCS travel-related expenses and transfer allowances, the amount of each entitlement is computed separately but totaled and paid as a single advance.

c. Upon arrival at the assigned duty station, the employee should submit Form SF-1190, Foreign Allowances Application, Grant, and Report, to account for the applicable transfer allowance grant and a travel voucher/claim for the related travel expenses. The employee must refund any advance in excess of the transfer allowance or related travel expenses not subsequently accounted for.

d. The fiscal data required for payments and repayments of transfer allowances or related PCS travel expense advances are charged to the allotment to which the travel expense or transfer allowance expenses are charged.

e. An advance is established to control TQSA or QA advances. QA advances are repaid through bi-weekly credit from the payroll system. All other transfer allowance advances are liquidated by submitting Form SF-1190 on which daily expenses are itemized.

## **706 TRAVEL CARD PROGRAM**

This section prescribes policies and procedures covering the use of the General Services Administration (GSA) authorized travel charge cards for payments to commercial facilities for subsistence and miscellaneous travel expenses during officially authorized Government travel. Employees are required by law to use the Government contractor-issued travel charge card for all official travel expenses unless either the employee or the expense is exempted. The IBB Director may exempt IBB employees and the BBG Executive Director may exempt BBG staff from using the travel card if it is determined to be necessary and in the interests of the agency.

**706.1 Reference** - GSA contracts for the issuance and maintenance of travel charge cards to be used by Federal travelers to cover transportation, subsistence and other allowable expenses. Federal travel regulations contained in 41 Code of Federal Regulations (CFR), Chapters 301-51,

301-52, 301-54, 301-70, 301-71, and 301-76 implement statutory requirements and Executive branch policies for 1) the use of Federal travel charge cards by Federal employees authorized to travel at Government expense and 2) the collection of amounts owed to the Travel Card Contractor from an employee's bi-weekly salary.

**706.2 Employee Eligibility Criteria For a Government Travel Card** - Employees who must apply for an individual Government travel card are those employees expected to perform official travel frequently (two or more official trips) during the course of the year. A copy of the "NOTICE OF RULES FOR USE OF A GOVERNMENT TRAVEL CARD" (See Attachment) signed by the employee and his/her element head, must be received by the agency Travel Card Program Coordinator prior to the employee applying for the Travel Card.

Other employees who may travel infrequently during the year may apply for temporary activation of a travel charge card if a copy of the "NOTICE OF RULES FOR USE OF A GOVERNMENT TRAVEL CARD," signed by the employee and his/her element head, is presented to the agency Travel Card Program Coordinator authorizing the employee to apply for the Travel Card.

For these infrequent travelers, the Travel Program Coordinator will notify the Travel Card Company to deactivate the Card following the completion of travel. It is the traveler's responsibility to notify the agency Travel Program Coordinator via Email (with a copy to the traveler's Administrative Officer) at least 7 business days in advance of travel, to request the Travel Card Company to reactivate the employee's Travel Card account.

**706.3 Exemptions from Mandatory Use of Government Travel Card** - The FTR provides exempts the following payments and individuals from mandatory use of the government travel card:

- a. It is in the best interest of the United States to do so;
- b. Payment through a Government travel card is impractical or imposes unreasonable burdens or costs on Federal employees or Federal agencies, or
- c. The head of a Federal agency or his/her designee(s) may exempt any payment, person, type or class of payments, or type or class of agency personnel if the exemption is determined to be necessary in the interest of the agency. Not later than 30 days after granting such as exemption, the Agency Head must notify the Administrator of the General Services (GSA) in writing of such exemption stating the reasons for the exemption.
- d. The Administrator of GSA has exempted the following from the mandatory use of the Government contractor-issued travel charge card:
  - (1) Expenses incurred at a vendor that does not accept the Government contractor-issued travel charge card;
  - (2) Laundry/dry cleaning;
  - (3) Parking;
  - (4) Local transportation system;
  - (5) Taxi;
  - (6) Tips;
  - (7) Meals (only when use of the card is impractical or not accepted);
  - (8) Phone calls (when a Government calling card is available for use);
  - (9) An employee who has an application pending for the travel charge card;
  - (10) Individuals traveling on invitational travel; and
  - (11) New appointees.
- e. The BBGH exempts agency employees deployed overseas where the length of time for travel card statements sent via international mail to reach the employees coupled with the length of time

for BBG/IBB employees' payments via international mail to reach the issuing card company substantially exceeds the allowable 25-day payment due period causing the entire travel card process not to function in a productive manner). In addition the BBG/IBB exempts the following class of agency employees from mandatory use of the Government travel charge :

- (1) BBG/IBB employees whose permanent duty station is outside of the Continental United States. These employees may be in positions posted in transmitter relay stations, in Voice of America radio correspondent locations overseas, or other positions outside the Continental United States deemed appropriate for this exemption as determined by the Director, Office of Financial Operations;
- (2) BBG/IBB employees on temporary assignment TDY outside of the Continental United States for more than thirty (30) consecutive calendar days; and
- (3) Employees who travel less than twice a year.

#### **706.4 Application for a Government Travel Card**

a. The employee obtains a signed and dated "NOTICE OF RULES FOR USE OF A GOVERNMENT TRAVEL CARD" authorization (See Attachment) from his/her supervisor. The employee and supervisor must sign the Notice. The supervisor must send the Notice to the agency Travel Card Program Coordinator.

b. The employee obtains a Travel Card application form and Cardholder Account Agreement from the Travel Card Program Coordinator, Travel & Transportation Branch, OFFICE OF FINANCIAL OPERATIONS, Room 1645, Cohen Building. Also the Travel Card Program Coordinator forwards to the applicant via e-mail the Credit Card quiz to be completed by the applicant. The applicant returns a copy of the Quiz Certificate be with the completed application.

c. The employee completes and signs the Travel Card application and retains a copy of the Cardholder Account Agreement. By signing the application, the employee is bound by the Government contractor travel Cardholder Account Agreement which says in part that employees: 1) agree to use the Card only for official travel and official-travel related expenses away from their official station/duty station; and 2) agree not to use the Card for personal, family or household purposes. In addition, the Agreement provides that the billing statement is due and payable in full upon receipt of the statement but must be received by the Bank no later than 25 calendar days from the closing date on the statement in which the charge appeared.

d. The Travel Card Program Coordinator shall:

- (1) Ensure the supervisor's authorization form (the "Notice") accompanies each Travel Card application and the employee's Travel Card Application is complete, accurate and signed by the employee and the quiz certificate is included. NOTE: Only an employee's home address may be used as the billing address for the Travel Card;
- (2) FAX the Application to the GSA's Travel Card Contractor;
- (3) Review monthly and periodic travel card contractor reports on delinquencies and individual employee transactions to ascertain that charges/purchases and ATM cash withdrawals appear to be for official travel-related expenses; and
- (4) Prepare lists (by employee name and office) of cardholders more than 60 days delinquent and employees having possible personal charges or ATM cash withdrawals (unrelated to official travel) and submit these lists, through the Director Financial Operations, to the traveler's supervisor.

e. Government Travel Card Contractor shall:

- (1) Issue a charge card in the name of the employee upon the request of the agency Travel Card Program Coordinator; and
- (2) Promptly process the charge card application and mail the charge card directly to the Travel Card Program Coordinator.

#### **706.5 Use of Government Travel Cards**

a. Expenses Incurred for Official Travel - Travel cards issued under this program are SOLELY FOR EXPENSES INCURRED FOR OFFICIALLY AUTHORIZED GOVERNMENT TRAVEL. The employee is to use the charge card to pay for official travel expenses only, such as payment of lodging and meal expenses, authorized excess baggage charges (where permitted), the purchase of travelers checks for miscellaneous expenses, or the purchase of transportation, to the maximum extent possible, thereby reducing the amount of travel advance needed. Personal expenses not related to official travel should not be charged on the travel card. Use of the card may be suspended for misuse and disciplinary action may be imposed.

b. General Contract Information

- (1) The employee, as a cardholder, is issued a card valid for one or two years. Cardholders who become delinquent will be reported by the card vendor to credit reporting companies.
- (2) Late payment charges are assessed to the cardholder. No preset expenditure limits are placed on the card and the cardholder is provided travel accident insurance when purchasing transportation on the card.
- (3) Where the card is accepted, the cardholder is allowed personal check cashing privileges and, on an emergency basis at posts, may purchase travelers checks or cash from authorized contractor affiliated banks where the service is available.

c. Employees are provided automatic accident insurance and lost luggage insurance when using the agency's TMC for transportation arrangements purchased with the agency corporate travel charge card. Employees should call the agency's Travel Card Contractor for eligibility, coverage beneficiary information or to file an insurance claim.

d. Employees receive the card at their home address and are responsible for exercising the same care and responsibility for the security of the card and travel card number as with a personal charge card.

e. The card shall NOT be stored or kept by an administrative officer, supervisor, or secretary.

f. Employees are encouraged to black out the charge card number from receipts submitted with their travel vouchers.

g. If a Travel card is lost or stolen, the employee is to immediately notify the Travel Card Contractor by phone at 1-888-241-1514 or 1-800-790-7206(toll free in the U.S.) or collect at 904-954-7850 (outside the U.S.). After reporting a lost or stolen card, the Travel Card Contractor will send the employee appropriate forms to complete and return to the Travel Card Contractor.

h. The employee is not liable for any fraudulent charges if the card is lost or stolen provided the employee notifies the Travel Card Contractor promptly.

i. A travel card may be canceled by the employee, the Program Coordinator, or the contractor. Cancellation requests may be accomplished by telephone notification by the Travel Card

Program Coordinator to the Travel Card Contractor. Employees should inform the Travel Card Program Coordinator if the employee has canceled his/her card.

j. Employee Separations - When an employee resigns, retires or transfers to another Government agency, the following must occur:

- (1) The employee is to turn in their Travel Card to the Travel Card Program Coordinator;
- (2) The Travel Card Program Coordinator verifies that the employee has turned in their Travel Card by signing and dating the exit form that is used by employees (Clearance for Final Salary Payment, Form #IA-134);
- (3) The Travel Card Program Coordinator immediately notifies the Travel Card company by telephone to cancel the account; and
- (4) The Travel Card Program Coordinator cuts the card in half and disposes of the card.

k. Employee Residence Address Changes - To ensure uninterrupted service when an employee changes their residential address, the employee must notify the Travel Card company of the change in his/her official residence to ensure timely receipt of his/her travel card billing statement.

#### **706.6 Monthly Contractor Billings and Statement**

a. Monthly Billing Statement - Employees who have used their travel card will receive a monthly billing statement from the Travel Card Contractor at their home address or statements may be retrieved online. A statement is issued when expenditures are incurred or when a credit is posted to the account. If the travel card is used and a monthly statement is not received, the employee should contact the Travel Card Contractor. Payment in full for the amount billed is due and payable by the employee directly to the Travel Card Contractor within 25 days of the billing date shown on the cardholder's statement.

NOTE: AS PART OF THE GOVERNMENT CONTRACT AND CARDHOLDER MEMBERSHIP RULES, FULL PAYMENT IS DUE ON A MONTHLY BASIS. DEFERRED OR PARTIAL PAYMENTS ARE NOT ALLOWED. IF THE EMPLOYEE IS DELINQUENT IN PAYING THE BILL, CHARGE CARD PRIVILEGES MAY BE SUSPENDED OR CANCELLED AND THE EMPLOYEE MAY BE SUBJECT TO DISCIPLINARY ACTION.

b. Disputed Charges - If a Travel Card statement contains a disputed charge it is the employee's responsibility to immediately call the Travel Card Contractor to resolve the dispute. Employees must obtain a Dispute Form from the Travel Card vendor, to document the billing error and send the Dispute Form to the Travel Card vendor within 60 days of receipt of their statement.

c. Employee Liability - Employees are liable for all billed charges. Government employees are required to pay their just financial obligations in a proper and a timely manner pursuant to section 206 of Executive Order 11222 (May 8, 1965) and Government Ethics regulations. See 5 CFR 2635.101(B)(12).

d. Government Liability - THE GOVERNMENT ASSUMES NO LIABILITY FOR CHARGES INCURRED on employee travel charge cards, nor is the Government liable for charges against lost or stolen charge cards issued to employees.

#### **706.7 Collection For Delinquent Payments**

a. Authority - Public Law 105-264, October 19, 1998 (codified at 5 U.S.C. section 5701) and Federal Travel Regulation 301-54 and 301-76 authorize Federal agencies to

collect undisputed delinquent amounts incurred on an employee's individually billed travel charge card from an employee's disposable pay. Disposable pay compensation remaining after the deduction from earnings of any amounts required by law to be withheld. These deductions do not include discretionary deductions such as savings bonds, charitable contributions, etc. Deductions may be made from any type of pay you receive including basic pay, special pay, retirement pay, or incentive pay.

b. Suspension or Cancellation

- (1) Cardholder use of the card may be suspended by the contractor, when the cardholder has been delinquent for more than 60 days from the billing date, if a cardholder does not provide a valid and acceptable reason to the contractor.
- (2) A charge card may be canceled by either the agency's program coordinator, or contractor. Cancellation may take place for misuse by the cardholder or will take place when an employee separates from the BBG.
- (3) A travel advance will not be issued to an employee when use of the charge card has been suspended or canceled due to the employee's misuse or nonpayment. Exceptions may be granted on a case by case basis for travelers on extended overseas travel whom have lost their charge card when a written request for exemption has been submitted by the IBB Director and approved by the Director, Financial Operations. Requests for exception must include the traveler's name, purpose of the trip, destination, acceptability of credit cards, and the reason this employee has been selected for the assignment.
- (4) Misuse of a card is any use that is not related to official travel or for unauthorized purchases.

c. Due Process Notice for Employees Identified for Salary Collection - Procedures for salary collection of delinquent payments are in accordance with provisions of 41 CFR 301-54.100 and provide that employees be:

- (1) Notified of the type and amount of the claim and of the intention to collect the claim by deduction from their disposable pay and provided an explanation of their rights as a debtor;
- (2) Given the opportunity to inspect and copy their records related to the travel card contractor's claim;
- (3) Allowed an opportunity for a review within the agency of the decision to collect the amount from the employee's salary; and
- (4) Provided an opportunity to enter into a written agreement with the travel card contractor to repay the delinquent amount of the claim.

d. Salary Collection Procedures

- (1) The Director, Financial Operations, is designated to receive the written request from the Travel Card Contractor for collection from an employee's pay of amounts owed on a contractor-issued travel charge card.
- (2) The Travel Card Contractor will make a written request to Director, Financial Operations for salary collection of the affected employee's travel card debt. The Travel Contractor's written request to the Director, Financial Operations will include:
  - Delinquent debtor's name.
  - Travel card account number.
  - Social security number (if available).

- Amount of debt.
  - Travel Card Contractor's routing information for electronic payment of the employee's debt.
  - Travel Card Contractor's point of contact to allow the employee an opportunity to make a written agreement to repay the debt. The Director, Financial Operations will request that the employee's supervisor and Administrative Officer review the written request, documentation, and the employee's travel voucher records on file to ascertain if all properly submitted travel expense vouchers have been paid to the employee.
- (3) The Payroll Service Center will review the employee's payroll records to determine if the employee has the ability to pay the debt. The determination of the employee's ability to pay is based upon an analysis of 1) whether other garnishments or salary collections are being deducted from the employee's pay and 2) the percentage of disposable pay being deducted.
  - (4) If the employee does NOT have the ability to pay the debt, the PSC will notify the Director, Financial Operations who will notify the travel card contractor in writing that the agency cannot initiate salary collection action due to the employee having other debt collection with higher priority.
  - (5) If the employee has the ability to pay the debt, the Payroll Service Center will calculate the amount that will be deducted and the number of pay periods over which the collection will occur to fully repay the debt and notify the Director, Financial Operations. Collection begins no earlier than the pay period following 30 calendar days from the date of the signed receipt.
  - (6) The Director, Financial Operations will notify the employee by notice of Attachment 2 of the agency's intention to collect the debt by salary deductions. This notice to the employee will be sent via certified mail, return receipt requested, to the employee's home address. This notice will advise the employee that he/she will have 30 calendar days from the date of the signed receipt to review the information contained in the notice and to enter into a written agreement with the Travel Card Contractor to repay the debt. If no written agreement is made or if the debt remains unpaid, salary collection will commence with the pay period following the end of the 30-day period from the date of the signed receipt.
  - (7) If the employee makes an Agreement to repay the debt with the Travel Card Contractor at a later date, it is the responsibility of the employee to notify the Director, Financial Operations who will then coordinate with the Travel Card Contractor and Payroll Service Center to stop the salary collection.
  - (8) Collection will be terminated when the full amount of debt is collected, or the employee enters into a voluntary written agreement with the Travel Card Contractor to repay the debt owed, or when the employee separates from BBG.

**BROADCASTING BOARD OF GOVERNORS**  
**U.S. INTERNATIONAL BROADCASTING BUREAU**  
**NOTICE OF RULES FOR USE OF A GOVERNMENT TRAVEL CARD**

Date: \_\_\_\_\_

To: \_\_\_\_\_  
(Employee/Division)

From: \_\_\_\_\_  
(Division Director)

As your Division Director, I am authorizing your application for (or continued possession of) a Government Travel Card. The Government Travel Card must be used by Federal Government employees for official U.S. Government travel-related expenses away from their official station/duty station.

By using the Government Travel Card (Citibank Card), you agree to the terms and conditions of the Cardholder Account Agreement. That Agreement states, in part, that:

"I agree to use the Card only for official travel and official travel related expenses away from my official station/duty station in accordance with my Agency/Organization policy. I agree not to use the Card for personal, family or household purposes."

In addition, the Cardholder Account Agreement specifies the following terms and conditions for payment:

"My billing statement is due and payable, in full, upon receipt of the statement but must be received by the Bank no later than 25 calendar days from the closing date on the statement in which the charge appeared."

The Office of Administration reviews copies of your account statements and periodically sends reports to me of potential Government Travel Card misuse and/or delinquency for cardholders in my Division. **Be advised that you may be subject to disciplinary action for misuse of a government travel card or failure to make timely payments. In addition, misuse and/or delinquency in payment may result in suspension or cancellation of card privileges.**

Please sign and date this form and return it to me. You should retain a copy for your records. I will forward your signed Notice to IBB's Travel Card Program Coordinator. Once the Travel Card Program Coordinator receives this authorization, you will be able to complete an application form to get a Travel Card. The Office of Administration will not process your application for a Government Travel Card until it receives a signed and dated copy of this form.

**By your signature below, you acknowledge that you have read, understood, and agree to abide by the provisions for use of the Government Travel Card, including those specified above. You also acknowledge that you understand that you must possess and use a valid Government travel card whenever you are on official travel unless you or the expense is exempted by either the GSA Administrator or the Director, Financial Operations.**

(Director, Financial; Operations Division)

Subject: Notice of Intent to Collect Delinquent Travel Card Debts from Salary

This memorandum implements salary collection procedures outlined in IBB/MOA 660, Travel Card Program, in compliance with the Travel and Transportation Reform Act, P.L. 105-264. We recently received a request from BBG/IBB's Travel Card Contractor to deduct travel card debts owed from your biweekly salary. The following information submitted by the Travel Card Contractor is being provided to you for review as part of due process requirements required by P.L. 105-264.

1. Delinquent debtor's name: \_\_\_\_\_
2. Travel card account number: \_\_\_\_\_
3. Social security number: \_\_\_\_\_
4. Amount of debt: \$ \_\_\_\_\_. Amount to be collected per pay period: \$ \_\_\_\_\_
5. Travel Card Contractor's routing information for electronic payment of the employee's debt : \_\_\_\_\_
6. Travel Card Contractor's point of contact to allow the employee an opportunity to enter into a written agreement to repay the debt: \_\_\_\_\_

If a written agreement between you and the Travel Card Contractor is not completed within 30 calendar days from the date of the signed returned receipt that accompanied this mailing to you, salary collection will begin the next pay period following completion of this 30 day period. No more than 15% of your net disposable pay for each biweekly paycheck will be deducted and transferred to the Travel Card Contractor.

If you need more information on this matter, please call the Travel Card Program Coordinator, OFFICE OF FINANCIAL OPERATIONS Division, at 202-382-5614.

## **707 TRAVEL VOUCHERS**

**707.1 Travel Voucher Claims** - The Payments Branch of Financial Operations will process travel vouchers in an expeditious manner in order to allow the employee to make a timely payment to the Travel Card Company. FTR 301-52.17 requires an agency to reimburse employees within 30 days after a proper travel claim is submitted. Employees are entitled to late fees for travel claims that are not paid within 30 days of the submission of a proper voucher in accordance with FTR 301-52.19.

### **707.2 Authorized Expenses**

a. Laundry and dry cleaning at a TDY location are reimbursable as a miscellaneous travel expense. You must incur a minimum of 4 consecutive nights lodging on official travel to qualify for this reimbursement.

b. Fees to obtain money including fees for traveler's checks, money orders, certified checks and ATM fees necessary for official travel are reimbursable.

c. Special expenses for foreign travel that are reimbursable include commission on conversion of foreign currency, passport and visa fees, fees for photographs for passports and photos, foreign country exit fees, costs for birth, health and identify certificates and charges for inoculations and immunizations not available at a Federal dispensary.

d. If authorized on the Travel Authorization, telephone calls can be made for official duty purposes and for certain authorized uses. The following are examples of circumstances that constitute authorized use:

1. Calls to notify family, doctor, etc., when an employee is injured on the job.
2. An employee traveling on Government business is delayed due to official business or transportation delay and calls to notify family of a schedule change. Wherever possible, the employee should use a government telephone for the call, but may use a commercial toll network if a government telephone is not available and may claim reimbursement for the call when submitting a travel voucher in accordance with policies outlined herein.
3. An employee traveling for more than one day may make receive reimbursement for personnel phone calls for up to five minutes for each day in a travel status. These phone calls may be combined in a manner such that the total number of minutes divided by the number of days in a travel status does not exceed five minutes per day.

### **707.3 Traveler's Responsibility**

a. Travelers must prepare and submit a travel voucher through E2 Solutions to claim reimbursement for travel expenses. Receipts for all expenditures should be attached within the E2 application and reviewed during the approval process. The travel voucher for TDY must be submitted five days after completion of the travel. For extended TDY in the U.S., the submission should take place after each 30 days; and in the case of a transfer of station, the employee should submit their voucher after completion of each phase of the move.

b. Travelers must submit any unused tickets to TMC within five days after completion of travel.

c. If the traveler has paid by cash, personal check, traveler's check, personal credit card, or individual travel credit card they are responsible for obtaining a refund for any unused tickets.

**707.4 Approving Official's Responsibility** - The Approving Official must ensure that:

- a. Travel was performed as directed;
- b. Items of expense claimed are appropriate, reasonable and in accordance with applicable regulations, and receipts are attached to support the requested reimbursement;
- c. Adequate funds to pay for the travel have been obligated;
- d. Any unused tickets are processed for refund and unused tickets have been turned over to the TMC; and
- e. Each voucher is reviewed to ascertain that any leave (annual or sick) taken while in travel status by the employee is being properly reported on the employee's leave record and that no claim for reimbursement is being made for the period of leave.
- f. Ensure that data provides:
  - (1) Dates for Expenses Incurred – the travel expenses incurred by the employee or family member or other traveler are for the period of travel stated in the travel authorization. A period of two days before or after the "on/or about date" shown on the travel authorization is allowed before an amended authorization is required. When the travel authorization directs attendance at meetings, or conferences, the traveler may schedule the arrival for the day prior to and departure for the day after the conference. Any time over the authorized period of travel requires an amendment to the travel authorization.
  - (2) Claimed Amounts—The amounts claimed on the voucher must be in accordance with the applicable regulations as cited on the travel authorization, provisions of law, this regulation, or other applicable regulations.
  - (3) Partial Reimbursement Vouchers—Travelers must submit a partial reimbursement voucher for each 30 consecutive calendar days of reimbursable travel or training. The post of assignment will set the procedures by which a partial reimbursement voucher may be processed. Vouchers for PCS travel are submitted at the assigned PCS post. Vouchers for long-term training must be submitted in Washington. If lodging is obtained on a long-term basis for training, a copy of the lease must also be submitted with each voucher.
  - (4) Amount Payable to the Traveler—The amount allowed for interim payment or final settlement of a voucher, less any outstanding travel advance, is the amount to be certified as payable to the traveler.
  - (5) Items for Redemption—Any unused tickets, exchange orders, coupons, etc., for transportation or accommodations purchased (not used by the traveler) or denied boarding compensation checks, should be processed by Office of Financial Operations for domestic travelers and by the post TMC for overseas travelers.
  - (6) Authorized Traveler(s) — The traveler(s) authorized to travel at government expense is listed on the voucher. Family members traveling at no cost to the government must be included in the itinerary to reflect any extra cost that may be allowed when accompanying the traveler.

**707.5 Review of the Travel Voucher** - The Payment Branch of the Financial Operations Department is responsible for the receipt, audit, payment, and identifying discrepancies in claims (if applicable). The Payment Branch will:

- a. Perform a review to ensure that the E2 voucher is fully completed.
- b. Ensure that the document has been properly approved.

- c. Access the financial management system to ensure that a matching obligation (by full accounting classification) has been entered;
- d. Perform a full audit of allowable claims in relation to the travel authorization, pertinent Federal regulations, and the agency MOA.
- e. Provide an explanation of any amounts suspended or otherwise disallowed on the travel Voucher by forwarding a Voucher Difference Statement to the traveler. After receipt of the Voucher Difference Statement the traveler may submit a reclaim.
- f. Review the reclaim, which will include the traveler's explanation and a copy of the original Voucher Difference Statement.
- g. Certify for payment approved travel vouchers.
- h. Ensure that attachments include the receipts to document expenses and other pertinent information, which includes:
  - (1) Original receipts must be attached to all travel vouchers itemizing each individual item of expense being claimed (e.g., transportation paid directly by the traveler, parking, and car rental (if authorized), etc., regardless of cost. Receipts for taxi fares \$75 or greater must be attached. Receipts for newspapers and magazines with a daily cost of \$10 or greater must be attached.
  - (2) Lodging receipts are required regardless of amount, to substantiate lodging claimed. For long term lodging, a copy of the lease must be submitted with the voucher.

## **708 SHIPPING HOUSEHOLD EFFECTS, UNACCOMPANIED BAGGAGE, & PRIVATELY OWNED VEHICLES, and LONG TERM STORAGE**

### **708.1 Forms:**

- a. Travel Authorization (TA)
  - (1) IBB-0034, Authorization of Official Assignment Travel
  - (2) IBB-34A, Authorization of Official Temporary Duty Travel
- b. SF-1103, U.S. Government Bill of Lading (GBL)
- c.
- d. SF-1113, Public Voucher for Transportation Charges (public voucher)

### **708.2 General Information:**

- a. In this subsection the term household effects, also includes shipping unaccompanied baggage and privately owned vehicles, and storage.
- b. These shipments are conducted in accordance with the requirements spelled out in either the FTR or FAM, depending on which document is the controlling regulation for the particular move.
- c. The Agency employs the actual expense method when shipping household effects, which means that the Agency assumes the responsibility for arranging and paying for all aspects of transporting an employee's or traveler's household effects.
- d. The allowances addressed in this section of the BAM are the ones generally associated with each type of shipment. It is important to note that your Travel Authorization (TA) prepared in

conjunction with your move will specify the types of shipments you are authorized to make, the maximum weights for each type of shipment, and the source of funding for these shipments. For this reason, it is very important that the TA clearly identifies what should be accomplishing during the move, for example, shipping furniture, a vehicle, etc.

e. Household Effects (HHE): A HHE shipment includes furniture, household items, and personal items for use by you and your family. HHE is normally shipped as ocean freight if it is being sent overseas, and by motor freight if it is being shipped within the Continental U.S. or from/to Canada or Mexico.

- (1) Shipment to an assignment within the Continental U.S. or from/to Canada or Mexico: You are authorized to ship a net weight up to 18,000 pounds. Normally, long-term storage of HHE is not provided when you are assigned to a U.S. location.
- (2) Full Shipment to an Overseas Location: If you are not being provided with Government furnished quarters, you will be authorized to ship a net weight up to 18,000 pounds. If you ship less than 18,000 pounds, the HHE not shipped can be placed in storage, as long as the total weight of the shipment and storage does not exceed 18,000 pounds.
- (3) Limited Shipment to an Overseas Location: If you are being provided with Government furnished quarters that are equipped with sufficient furniture and major appliances to meet U.S. standards of living, you will be authorized a limited net weight shipment of up to 7,200 pounds. The HHE not shipped can be placed in storage as long as the total weight of the shipment and storage does not exceed 18,000 pounds.

f. Unaccompanied Baggage (UAB):

- (1) UAB is a small airfreight shipment containing the personal belongings needed by the employee immediately upon arrival at his or her destination. Items suitable for a UAB shipment include: clothing, toiletries, pots, pans, unbreakable dishes, sheets, blankets, and essential light housekeeping articles. UAB is not meant to include large household items such as furniture, major appliances or room-sized rugs, which will not fit easily into the cargo hold of an airplane. You cannot ship hazardous materials in your UAB. Please note that the packer has to certify the contents of UAB shipments and therefore, the packer must see what has been packed. For this reason, the packer cannot accept packed by owner (PBO) cartons.
- (2) UAB shipments are normally reserved for employees going to or returning from an overseas location. **Employees moving within the Continental U.S., or Canada or Mexico are normally not authorized a UAB shipment.**
- (3) The weight allowances for a UAB shipment are:

Employee:	250 pounds, gross weight
Second person traveling:	200 pounds, gross weight
Third person traveling:	150 pounds, gross weight
Each additional person traveling:	100 pounds, gross weight

- (4) Because of increased security requirements, it takes on average 14-21 days for your UAB to arrive at its final destination. Under the new security rules for the airlines, UAB falls under the category of "unknown shipper" and therefore, it must be held for a minimum of five days before it can be shipped, and then can only be shipped on a freight-only aircraft, which are normally scheduled less frequently than passenger aircraft.

a. Privately Owned Vehicle (POV): A POV is motor vehicle owned by the employee or an eligible family member. Your vehicle can be shipped only if a POV is allowed at your new duty location, and the shipment of your POV is authorized on your TA. **Note: If you are an individual**

**who is employed with the Federal Government for the very first time (new appointee) or an employee who is returning to the Government after a break in service, the BBG will not ship a POV for you.**

b. Temporary Storage: Normally when your HHE shipment arrives at your new duty location, you are authorized up to 90 days of temporary storage.

c. Long Term Storage: Continuous storage of your HHE is normally authorized when you transfer to an overseas location, and you did not ship all of the HHE that you are authorized to ship. The amount of HHE that you shipped to your overseas duty station, and the amount of HHE that you placed into long term storage combined cannot exceed your total HHE allowance of 18,000 pounds. **Note: Your items remain in long term storage while you are assigned overseas. Once you are transferred back to the U.S., you have 90 days to remove your items from long term storage.**

d. Consumables: This allowance only applies if you are assigned to an overseas location that is considered a consumables post. This designation means that needed foodstuffs are not readily available, and you are entitled to an extra weight allowance for consumables. A consumables shipment is limited to foodstuffs, and items used for personal or household maintenance such as toiletries or paper products. Perishable or frozen foods may not be sent in a consumables shipment. Your TA must specifically authorize the consumables allowance. The weight allowance for consumables is up to 2,500 net pounds for a two-year tour, and up to 3,750 net pounds for a three-year tour.

### **708.3 Responsibilities**

a. The Office of Human Resources (M/H) is responsible for:

- (1) Providing policy and regulatory guidance for travel and shipping to Agency elements.
- (2) Preparing the TA for the American officers assigned to the Transmitting Stations.
- (3) Obligating travel funds for the TA it prepares.
- (4) Processing for payment GBLs, public vouchers, and/or invoices received from the moving companies for HHE services provided to include storage of HHE.

b. The Office of the Chief Financial Officer (CFO) is responsible for approving the Authorizations for Official Travel.

c. Agency Administrative Officers are responsible for:

- (1) Preparing the TA for personnel assigned to their element.
- (2) Obligating travel funds for the TAs they prepare.
- (3) Processing for payment GBL 's, public voucher, and/or invoices received from the moving companies for HHE services provided to include storage of HHE.

d. The Network Support Division (E/OT) of the Office of Engineering and Technical Services has staff responsibility for arranging for household effects (HHE) shipments and storage.

<b>E/OT E-Mail Address for HHE Inquiries</b>
--

<a href="mailto:hhe_assistance@bbg.gov">hhe_assistance@bbg.gov</a>
--

e. Greenville & Northern Mariana Island Transmitting Stations: E/OT is responsible for coordinating all shipments for these two stations. The TA's covering these shipments are prepared by M/H.

f. Botswana, Germany, Kuwait, Philippines, Sao Tome, Sri Lanka, & Thailand Transmitting Stations:

(1) For shipments originating overseas (station to station, station to U.S.), the transmitting station is responsible for coordinating these shipments. The TA's covering these shipments are prepared by M/H.

(2) For shipments originating in the U.S., E/OT is responsible for coordinating these shipments. The TA's covering these shipments are prepared by M/H.

g. Other Agency Elements: E/OT is responsible for coordinating all shipments for these elements. The TA's covering these shipments are prepared by an Administrative Officer assigned to these elements.

#### **708.4 Shipping Process for E/OT Initiated Shipments**

a. The Administrative Officer or M/H employee responsible for issuing the TA provides a copy of the approved TA to E/OT by e-mail. The e-mail shall contain contact information for the employee. No coordination to ship the HHE can take place until the approved TA is received by E/OT.

b. Upon receipt of the TA, E/OT contacts a moving company to handle the movement of the employee's HHE, UAB, etc.

c. A representative of the moving company will then contact the employee to make the necessary arrangements to move his/her HHE, UAB, etc.

#### **708.5 Payment Process – GBLs and Public Vouchers**

a. The appropriate Administrative Officer must obligate sufficient funds for shipping when creating the Travel Authorization.

b. E/OT issues a GBL to the moving company to authorize the shipment. A separate GBL is issued to cover each type of shipment, HHE, UAB, etc.

c. When the moving company completes all actions covered by the GBL, the moving company completes its portion of the GBL, and returns it to E/OT attached to a public voucher.

d. E/OT reviews the documentation and if it is correct, stamps the SF-113 and certifies that the "...goods and services indicated on this invoice have been received by the BBG and are acceptable."

e. E/OT then forwards the packet to the appropriate Administrative Officer or M/H employee for further processing and payment.

f. The appropriate Administrative Officer or M/H employee confirms that sufficient funds have been obligated and forwards the stamped SF-113 and GBL to the Payments Branch for certification and payment.

#### **708.6 Payment Process – Storage Invoices**

- a. The appropriate Administrative Officer will create a Miscellaneous Obligation in the Financial Management System at the beginning of each fiscal year for the anticipated storage fees. The Administrative Officer must monitor the balance throughout the year to obligate and deobligate funds as necessary.
- b. Once HHE is placed into long-term storage, the storage company begins to invoice the Agency on a regular basis (monthly, quarterly, etc.) for payment of its storage charges. The invoices are normally received by E/OT.
- c. Upon receipt of the invoice, E/OT reviews it. If it is correct, E/OT stamps the invoice and certifies that the "...goods and services indicated on this invoice have been received by the BBG and are acceptable."
- d. E/OT then forwards the invoice to the appropriate Administrative Officer or M/H employee for further processing and payment.
- e. The appropriate Administrative Officer or M/H employee confirms that sufficient funds have been obligated and forwards the stamped invoice to the Payments Branch for certification and payment.

#### **708.7 Examination of Billings**

##### **a. Voucher Examination**

- (1) Generally, carrier bills are examined to determine whether the transportation services for which payment is claimed were duly authorized, whether the carrier bill is complete and supported with required documentation (e.g., original GBLs), and whether all computations of charges are correct. The Payments branch will notify the appropriate Administrative Officer of obvious overcharges and errors. It is the responsibility of the Administrative Officer to notify the carrier of these errors.
- (2) Verify that erasures, interlineations, or alterations are authenticated and explained by the person who made them;
- (3) Verify that the bill is payable to the proper carrier or agent;
- (4) Verify that when a GBL is payable in foreign currency, the "Bill Charges To" portion must contain the following:
  - The name of the requesting agency;
  - The complete address to be billed; and
  - The instruction on payment in foreign currency.

##### **b. Certifying officers:**

- (1) Certifying Officers are not held responsible for overpayments made for transportation services furnished on U.S. GBLs when such overpayments are due to the use of improper transportation rates or classifications. However, certifying officers are responsible for assuring that transportation bills are otherwise proper for payment prior to signing.
- (2) Certifying Officers must also verify that the voucher and GBL or other supporting documents are properly completed and correctly filled out.
- (3) The Certifying Officer is responsible for ensuring payments for storage services are reviewed and approved in a manner consistent with BAM Title 7 Section 400 Payment of Vouchers.

- (4) Regardless of whether the payment is for transportation or storage of goods, the Certifying Officer must ensure that duplicate payments are prevented and recover any duplicate payments that may have been made.

**708.8 Doubtful Claims** - When, in the judgment of the certifying officer, a carrier bill appears to involve doubt as to the validity on a question of law or accuracy of the documents furnished, or as to facts, which are known but not evidenced by the claim, have the voucher reviewed by the Director, Office of Financial Operations. The Director of Financial Operations will review supporting documentation to verify consistency with signed contracts and Federal Acquisition Regulations. In addition, the Director may request original signed documents if the documentation is illegible or otherwise suspect. Finally, the Director will recalculate claimed amounts to ensure mathematical accuracy. The Director of Financial Operations will forward questions of law to the General Counsel for review.

**Title:** Travel Charge Cardholder Policy

**Policy Tracking #:** OCFO-14-02

**Effective Date:** April 29, 2015

**Originating Office:** Office of the Chief Financial Officer, 202-203-4622

---

**(a) PURPOSE:**

(1) The General Services Administration (GSA) Travel Charge Card Program provides charge cards for official Government travel. There are two types of accounts available: individually billed accounts (IBA), and centrally billed accounts (CBA). IBA travel cards are issued to employees to pay for official travel and other related travel expenses. CBAs are established by the Agency for the Travel Management Center managers to pay for employees' official travel and related expenses (e.g., hotel, rental car, conferences, etc.).

(2) The use of the travel charge card for major travel expenses substantially reduces the Government's cash requirements by lessening the need for cash travel advances. It essentially provides a more convenient and efficient method of paying travel expenses.

(3) This document establishes policies and procedures covering the use of IBA Government travel charge cards.

**(b) AUTHORITY AND SCOPE:**

(1) Authorities include.

(i) Travel and Transportation Reform Act of 1998, P.L. 105-264;

(ii) Federal Travel Regulations (FTR), 41 C.F.R. §§ 300-1.1 through 304-9.7, including but not limited to the following sections relevant to travel cardholders: 301-51.1 through 301-51.8; 301-52.23 through 301-52.24; 301-54.1 through 301-54.102; 301-70.700 through 301-70.709; 301-71.213 through 301-71.214; and 301-76.1 through 301-76.103;

(iii) Government Charge Card Abuse Prevention Act of 2012, P.L. 112-194;

(iv) Office of Management and Budget (OMB) Circular A-123, Appendix B, Revised. Dated January 15, 2009;

(v) 31 U.S.C. § 3716;

(vi) BAM Title VII, Section 700, Travel and Transportation Management; and

(vii) BAM Title IV, Section 860, Credit Worthiness Policy.

(2) Scope. The provisions of this policy apply to all employees in offices or divisions of the Federal Government supervised by the Broadcasting Board of Governors (collectively, "the Agency"), who have been issued or are applying for a Government travel charge card.

**(c) POLICY:**

**(1) Employee Eligibility for a Government Travel Card.**

(i) Only employees (including civil service, personal services contractors, and Foreign Service nationals hired under personal services agreements) are eligible for individually billed accounts, as defined in paragraph (e)(9) below. Non-employees (including purchase order vendors or other contractor personnel) are not eligible for individually billed accounts.

(ii) In its discretion, explained in [FTR 301-51.2](#), the Agency has decided to issue travel charge cards to employees who travel frequently by the Agency's standards. Therefore, at the Agency, employees eligible to apply for an individual Government travel card are those employees expected to perform official travel frequently, defined as more than three official trips during the course of three consecutive years.

**(2) Liability for Charges.** Employees are liable for all charges billed to a Government travel charge card. The Government assumes no liability for charges incurred on employee travel charge cards, nor is the Government liable for charges against lost or stolen charge card issued to employees.

**(3) Use of Government Travel Cards.** Individually billed travel cards are issued to employees to pay for their own official travel and other related travel expenses only, such as lodging, meal expenses, car rentals, authorized excess baggage charges (when permitted), approved miscellaneous expenses, or the purchase of transportation. The Agency reimburses the employees for authorized and allowable expenses, and the employee is responsible for making payment to the travel card issuing bank. The travel cards may also be used to obtain cash advances, when approved, from an Automated Teller Machine (ATM). **USING THE TRAVEL CARD FOR PERSONAL EXPENSES NOT RELATED TO OFFICIAL TRAVEL IS PROHIBITED.**

**(4) Prohibited Purchases with the Travel Charge Card.** While the following list of examples is not exhaustive, the card must not be used to purchase the following:

(i) Fuel for a privately owned vehicle. (mileage reimbursements include the cost of fuel);

(ii) Rental vehicles for personal use which the Approving Official has not approved in advance;

(iii) Conference fees;

(iv) Travel accommodation or expenses for someone other than the cardholder (including reserving a block of hotel rooms for multiple people at once, or conference space, equipment, and related services), except for the cardholder's family members when the cardholder is performing relocation travel; and

(v) Travel or transportation tickets for consultants or other contractors.

(5) Exceptions. When special circumstances warrant exceptions to the policy in paragraph (c)(4), cardholders must contact the OCFO to request prior approval before making the purchase. The OCFO will document exceptions to travel card policy for future reference.

(6) Mandatory Use of the Government Travel Card. The Travel and Transportation Reform Act of 1998, (P.L. 105-264) requires Federal employees to use the travel charge card for all travel expenses and cash advances related to approved travel, unless an exemption applies as described below.

(7) Exemption from Mandatory Use of the Government Travel Card.

(i) The GSA Administrator will exempt any payment, person, type or class of payments, or type or class of personnel based on criteria in the FTR. The Administrator of GSA has exempted the following from the Mandatory Use of the Government Travel Charge Card:

(A) Expenses incurred by a vendor that does not accept the Government-contractor issued travel charge card;

(B) Laundry/dry cleaning;

(C) Parking;

(D) Local transportation system;

(E) Taxi;

(F) Tips;

(G) Meals (only when use of the card is impractical or not accepted);

(H) Phone calls (when a Government calling card is available for use);

(I) An employee who has an application pending for the travel charge card;

(J) Individuals traveling on invitational travel; and

(K) New appointees.

(L) Relocation expenses under FTR, Chapter 302, except en-route travel and house hunting trip expenses, See FTR 301-70.704 Note 1; FTR 301-51.2(1)l and,

(M) Employees who travel five times or less a year. See [FTR 301-51.2\(m\)](#).

However, the Agency has discretion to issue a travel card to employees who travel five times or less a year. The Agency's policy is to issue travel cards to employees that travel frequently by the Agency's standards, i.e., more than three times in three consecutive years.

(ii) Agency Exemptions from Mandatory Use of the Government Travel Card. The head of the Agency, or his/her designee(s), may exempt any payment, person, type or class of

payments, or type or class of Agency personnel from mandatory use of the Government travel charge card if the exemption is determined to be necessary in the interest of the Agency. In addition to the GSA's exemptions listed above, the Agency exempts the following categories of Agency employees from mandatory use of the Government travel card:

- (A) Employees who travel three times or less in three consecutive years; and
- (B) An employee whose travel card has been suspended or cancelled is exempt from the aforementioned requirement to use the Government travel card for all official travel expenses. Depending upon the circumstances leading to cancellation or suspension, the Agency may assist the employee in getting their travel card reinstated or re-issued.

**(d) PRIMARY RESPONSIBILITIES AND PROCEDURES:**

(1) Primary Responsibilities.

(i) Office of the Chief Financial Officer (OCFO). The OCFO has overall responsibility for establishing, implementing, overseeing, and evaluating the Agency's travel card program.

(ii) Agency/Organization Program Coordinator (A/OPC). The AOPC is responsible for direct management of the travel card program, including:

- (A) Processing employee travel card applications;
- (B) Planning, developing, and carrying-out travel card training for cardholders;
- (C) Monitoring cardholders' account activity for travel card misuse and delinquency, and taking appropriate action by notifying the Office of Human Resources, Labor and Employee Relations Division (OHR/LER) when misuse is discovered;
- (D) Providing guidance to travel cardholders regarding the Agency's travel card policies and the appropriateness of proposed charges;
- (E) Ensuring that appropriate steps are taken prior to suspension, deactivation, or cancellation of travel cards; and
- (F) Cancelling travel cards when cardholders leave the Agency.

(iii) Travel Cardholder. Travel cardholders are responsible for:

- (A) Using the travel card only for authorized reimbursable expenses incurred while on official travel, as misuse of a travel card may lead to disciplinary action up to and including removal from the Federal service;
- (B) Submitting complete travel vouchers and all required receipts within 5 working

days upon return to the official station to facilitate timely reimbursement and prevent travel card delinquency;

(C) Reviewing and reconciling his/her monthly statement and verifying that each transaction is legitimate and correct;

(D) Determining if any transactions on the monthly statement should be disputed. If a transaction must be disputed, contact the merchant first to try and resolve the issue. If it cannot be resolved with the merchant, contact the travel card issuing bank and dispute the questionable charges. The dispute must be initiated within 60 days of the transaction date;

(E) Paying the full statement balance of all undisputed charges due within 25 calendar days from the travel card statement date, as failure to pay undisputed travel card balances may lead to salary offsets or disciplinary action up to and including removal from Federal service (Please see [FTR 301-52.24](#) as well as [FTR 301-54.1 et seq.](#);

(F) Paying late fees that result from the cardholder's failure to make timely payments to the travel card issuing bank;

(G) Notifying the Agency/Organization Program Coordinator (A/OPC) of any unused restricted tickets where a credit exists. The credit must be used for future official travel before expiration (one year from purchase date);

(H) Contacting the AOPC regarding any problems with respect to the use of the Travel card;

(I) Notifying the travel card issuing bank and the AOPC immediately of any loss, theft, or unauthorized use of the travel card;

(J) Notifying the travel card issuing bank of an address change;

(K) Returning the travel card to the AOPC when permanently leaving the Agency or to close the account for other reasons; and

(L) Contacting the AOPC when transferring permanently between Agency duty stations.

(M) Contacting the Agency travel card issuing bank for information on accident insurance and lost luggage insurance coverage, or to file an insurance claim; and

(N) Taking GSA-provided travel cardholder mandatory refresher training every two years and providing all training certificates to the AOPC for records retention.

(2) Procedures.

(i) Applying for a Travel Charge Card. Agency employees may apply for a Government Travel Charge Card, without regard to position or grade level, if they currently travel for the Agency or anticipate traveling on official business, and if they are eligible as described in paragraph (c)(1). To apply for a Government travel card, applicants must follow the procedures below:

(A) Read the Agency's travel cardholder policy. In addition, employees should also read the Federal Travel Regulations (FTR), Part 301-51 – Paying Travel Expenses and Parts 301-54 and 301-76 – Collection of Undisputed Delinquent amounts Owed to the Contractor issuing the Individually Billed Travel Charge Card.

(B) Complete the GSA's online training on cardholder responsibilities and proper use of the travel charge card at <https://www.smartpay.gsa.gov/cardholders/training/online>. THIS TRAINING MUST BE COMPLETED BEFORE A TRAVEL CARD IS ISSUED.

(C) Print a certificate of completion for the GSA online training and make a copy. The applicant will need a copy of this training certificate later in the travel card application process, as explained further below.

(D) Obtain and complete a Travel Card application packet. Applicants can obtain a packet from the AOPC, located in the OCFO, Room 1655, Cohen Building, Tel. No. 202-382-5614, or by email, [cfofinancehelp@bbg.gov](mailto:cfofinancehelp@bbg.gov).

(1) Within the travel card application packet, first read the document titled "*NOTICE OF RULES FOR USE OF A GOVERNMENT TRAVEL CARD.*" Agree to the content of the notice, sign the notice, and obtain the travel approving official's or supervisor's signature.

(2) Next, read and sign the "Employee Acknowledgment of Training Understanding," and the Citibank Cardholder Agreement."

(3) Then, read and sign the Credit Release Statement in Section VI: (19) of *the Citibank Travel Card Set up Form*. The applicant may give or refuse permission for the Agency to obtain personal credit information. Travel card applicants' credit scores will be evaluated when applying for a travel card to determine credit worthiness in accordance with OMB Circular A-123, Appendix B and the Agency's credit worthiness policy. This credit evaluation may affect restrictions (e.g. the credit limit) that are placed on a travel card.

(4) Once all documents within the Travel card application packet are filled out, Applicants must attach a copy of the certificate of completion for the GSA online training to the end of the travel card application packet.

(E) Make a copy of the complete travel card application packet for personal records.

(F) Submit the original application packet documents, along with the certificate of completion for the GSA online training, to the AOPC.

(ii) Voucher Submission and Payments.

(A) Voucher Processing Schedule. The following schedule must be followed to comply with the FTR and to ensure that employees receive reimbursement for allowable expenses before the payment is due to the travel card issuing bank:

(1) The traveler must submit travel vouchers within five (5) workdays after completing travel. The travel voucher must include all required receipts and approval signatures.

(2) Employees will receive reimbursement within thirty (30) calendar days after submitting a complete and accurate travel voucher. If employees do not receive reimbursement within thirty (30) calendar days after submitting a complete and accurate travel voucher, a late payment fee applies, calculated according to [FTR 301-71.210](#). If the amount of the late payment fee is \$1 or greater, the Agency will pay the late payment fee to the traveler.

(3) If the traveler submits a voucher that cannot be approved, the approving official must return the voucher to the traveler within three (3) calendar days with an explanation of why it could not be approved as submitted.

(4) The traveler must correct and resubmit the voucher within five (5) workdays of receipt.

(5) For travel assignments that last longer than thirty (30) calendar days, travelers must submit travel vouchers within five (5) workdays after every thirty (30) calendar days on temporary duty travel.

(B) Receipts. Copies of original receipts must be attached to all travel vouchers itemizing each individual item of expense being claimed (e.g., transportation paid directly by the traveler, parking, and car rental [if authorized], etc.), regardless of cost. Receipts for expenses over \$75, and any other supporting travel-related documentation must be filed in the Agency's electronic travel system, and the Agency's financial system for record retention.

(C) Transportation Charges. When claiming reimbursement on a travel voucher for transportation expenses purchased with a Government travel card, the employee shall claim only the cost of transportation tickets actually used.

(D) Split Accounting. Agency travelers, Administrative Officers, and travel arrangers are required to split all travel-related expenses on the travel voucher between Agency-charged expenses (centrally billed account) and traveler-reimbursable expenses (individually billed account and other methods of payment). To support split accounting, the Travel Management Center (TMC) will automatically charge airline expenses identified by the traveler to the centrally billed account, for which the

Agency is responsible for making payment. Travel cardholders are responsible for paying their own official travel card charges to the travel card issuing bank directly. Approving Officials and Administrative Officers are responsible for ensuring that split amounts are properly annotated and should return any travel vouchers that do not comply to be corrected and resubmitted.

(iii) Disputed Charges. To dispute a charge, employees must obtain a Dispute Form from the travel card issuing bank to document the billing error and send the dispute form to the travel card issuing bank within 60 days after receiving their statement.

(iv) Lost or Stolen Travel Cards. If a travel card is lost or stolen, the employee must immediately notify the travel card issuing bank (Citibank) Customer Service Center by calling 1-800-790-7206, or calling collect at 904-954-7850 if outside the United States. After reporting a lost or stolen card, the travel card issuing bank will send the employee appropriate forms to complete and return to the travel card issuing bank. The AOPC and the employee's supervisor should also be notified. The employee is not liable for any fraudulent charges if the card is lost or stolen, provided the employee notifies the travel card issuing bank promptly. The employee may be responsible for charges made before the travel card was reported lost or stolen. The travel card issuing bank will mail a new card after the theft or loss was reported.

(v) Account Deactivation, Reactivation, and Cancellation for non-use.

(A) Deactivation. The AOPC will conduct periodic reviews, at least twice a year, to determine travel card usage/activity. The AOPC will work with the travel card issuing bank to deactivate travel cards that have been used for official travel three times or less in three consecutive years. Employees will be notified before their cards are deactivated. The deactivation consists of temporarily blocking the cardholders' ability to make transactions on the account without canceling the account altogether. An employee's travel card will also be deactivated if the employee's supervisor notifies the AOPC that the employee will no longer travel frequently enough to need his/her travel card.

(B) Checking travel card status. If in doubt, infrequent travelers may contact the AOPC to determine the status of their travel charge cards before upcoming trips.

(C) Reactivation. Reactivation of the travel charge card is at the Agency's discretion. If an employee needs to reactivate a travel charge card that has been deactivated, the employee should contact the AOPC at least three days prior to the official travel.

(D) Cancellation. If a deactivated travel charge card is not reactivated within one year from the deactivation date, the AOPC, after consultation with OHR/LER and upon notification to employee unions where appropriate, will cancel the travel card account.

(E) Re-application for a new travel card. To obtain a new travel card after an employee's travel card account has been cancelled for non-use, the employee must

submit a new travel card application, following the procedures in paragraph (d)(2)(i) above.

(vi) Misuse of Travel Card: Suspension, Cancellation, and Disciplinary Action.

(A) Misuse of the travel card is any use that is not related to official travel or for unauthorized purposes. The AOPC reviews the travel card activity report of all cardholder accounts to identify potential areas of concern. The AOPC notifies OHR/LER of any questionable charges/transactions. An employee's misuse of a Government travel card may result in any combination of the following:

- (1) Suspension of the travel card;
- (2) Cancellation of the travel card; and
- (3) Disciplinary action against the employee, up to and including removal.

(B) A travel card may be canceled due to an employee's misuse by either the Agency's AOPC or the travel card issuing bank.

(C) Any supervisor within a cardholder's chain of command may recommend disciplinary action for misuse of a travel card. The appropriate penalty will depend upon the seriousness of the offense, whether the cardholder's misuse was intended for personal gain, and all other relevant factors.

(vii) Travel Card Delinquency.

(A) Travel card delinquency is the result of an employee's failure to pay the charges incurred on his/her travel card by the due date on the travel card statement, in accordance with the terms and conditions of travel card issuing bank's cardholder agreement. Travel card delinquency is prohibited and may subject the cardholder to disciplinary action up to and including removal from the Federal service.

(B) Each travel cardholder is responsible for making payments according to the travel card issuing bank's cardholder agreement, even if the cardholder has not been reimbursed by the Agency for travel expenses by the payment due date. (See [FTR 301-52.24.](#))

(C) The travel card issuing bank will issue notifications regarding travel card delinquency to both the cardholder and the AOPC. The travel card issuing bank will issue:

- (1) A pre-suspension letter when a cardholder's account is 45 days past due;
- (2) A suspension/pre-cancellation letter when a cardholder's account is 61 days past due;
- (3) A cancellation notice when an account is 126 days past due; and

(4) A Charge off / Write off when an account is 180 days past due.

(D) When the AOPC receives information regarding travel card delinquency from the travel card issuing bank, the AOPC will contact the travel cardholder, the cardholder's supervisor, and OHR/LER.

(viii) Travel Card Cancellation.

(A) There are four (4) reasons for which the travel card issuing bank may initiate cancellation of an IBA:

(1) The account has been suspended two times during a 12-month period for undisputed amounts and is again past due;

(2) the account is 120 days past due for undisputed amounts and the procedures for suspension of the card has been met;

(3) upon determination that the card was used for unauthorized purchases; or

(4) if use warrants cancellation as deemed appropriate by OHR/LER and OCFO.

(B) A travel card cancelled due to payment delinquency may be:

(1) Reported to credit bureaus or similar entities;

(2) Referred to an outside collection agency; or

(3) Subject to late fees that may not be reimbursed by the Agency.

(ix) Collection for Delinquent Payments and Salary Offset. The Agency may collect undisputed delinquent amounts incurred on an employee's disposable pay (see definitions below). Agency employees who are delinquent in payment for more than 90 days on their IBA travel charge card accounts may be subject to salary offset procedures. These procedures may result in automatic payment to the bank deducted from the employee's disposable pay each pay period until the delinquent balance is paid in full.

(x) Due Process Requirements Prior to Conducting Salary Offset. The Agency implements salary collection in accordance with the due process requirements found in FTR 301-76-100. Before implementing salary collections from an employee's disposable pay, the Agency will:

(A) Notify the employee of the type and amount of the claim and of the Agency's intention to collect the claim by deduction from his or her disposable pay and provide an explanation of the employee's rights as a debtor;

(B) Provide the employee an opportunity to inspect and copy any and all records related to the travel card issuing bank's claim;

(C) Allow the employee an opportunity for a review within the agency of the decision to collect the amount from the employee's salary; and

(D) Provide the employee an opportunity to enter into a written agreement with the travel card issuing bank to repay the delinquent amount of the claim.

(xi) Centrally Billed Accounts, Travel Advances, and Cash Advances. In accordance with 41 CFR 301-71.300, the Agency should not require an employee to pay travel expenses using personal funds unless the employee has elected not to use alternative resources provided by the Government. When an employee does not qualify for a Government travel charge card, travels three times or less in three consecutive years, is awaiting issuance of a charge card, is traveling to a geographic location that does not accept credit cards, or when other special circumstances exist, the Agency may pay for travel expenses through centrally billed accounts, travel advances, cash advances against a Government travel charge card, or a combination of these methods of payment.

(A) Cash Advances against a Government Travel Card. Travel approving officials (usually the traveler's immediate supervisor) may only approve travel advances if they are necessary and are held to a minimum both in duration and amount. Cardholders may use their travel cards to obtain cash advances through an Automated Teller Machine (ATM) up to three (3) days prior to the beginning of official travel and while in travel status. Cardholders are not authorized to make ATM cash withdrawals after completing their official travel assignment. ATM withdrawals are limited to the pre-authorized allowance for M&IE, plus reimbursable expenses paid with personal funds. The travel card issuing bank or the ATM provider may charge a fee per withdrawal, regardless of the amount withdrawn. Withdrawal fees for cash advances related to approved travel are reimbursable. Withdrawing cash using the Government travel card for **personal use** is **strictly prohibited** and constitutes charge card misuse, which may result in disciplinary action.

(B) Travel Advance. When an employee will be traveling to a geographic location that does not accept credit cards, the Agency will either arrange to pay lodging costs directly or will provide a travel advance to the employee. The Agency also agrees to provide a travel advance for meals and incidental expenses (M&IE) to such geographic locations. If such employee is expected to incur cash expenses for drivers or translators, the Agency will either arrange to pay these costs directly or will provide a travel advance to the employee. Travel advances should be requested at least three weeks in advance of scheduled trip if possible and the Agency will process an advance payment to be deposited to the employee's bank account on record.

(xii) Employee Separations. When an employee resigns, retires, or transfers to another Government Agency, the following must occur:

(A) The employee must turn in his/her travel card to the AOPC;

(B) The AOPC verifies that the employee has turned in their travel card by signing and dating the employee exit form, titled Clearance for Final Salary Payment, Form # IBB-134;

(C) The AOPC immediately notifies the Travel Card company by telephone to cancel the account; and

(D) The AOPC cuts the card in half and disposes of it.

**(e) DEFINITIONS:**

(1) Agency/Organization Program Coordinator (A/OPC): Designated Agency's Travel Card Coordinator who administers the travel card program.

(2) Travel Approving Official: Travel approving officials are office directors, division managers or program managers throughout the Agency with travel approval authority. The travel approving official is typically the traveler's supervisor, who signs the traveler's voucher indicating approval for payment and for its content.

(3) Cancellation: Permanent termination of a travel charge card account.

(4) Cash Advance: Funds obtained from a travel card via ATM, or bank teller. Cash advances must be obtained in limited amounts commensurate with actual travel.

(5) Deactivation: Temporarily blocking a travel cardholder's ability to make transactions on the travel card account.

(6) Disposable Pay: The part of current basic pay remaining after the deduction of any amount required by law to be withheld. Required deductions do not include discretionary deductions such as health insurance, savings bonds, charitable contributions, etc. Deductions may be made from basic, special, and incentive pay.

(7) Travel Card: Means a GSA-Contractor-issued travel charge card for use by travelers to cover major travel and transportation items such as rental vehicle, lodging, and meals in connection with official Government Travel for which the contractor bills the employee. The term does not include personal credit cards issued to employees based upon their own financial merit by any credit card or other company.

(8) Delinquency/Delinquent Account: A debt on which payment is overdue.

(9) Individually Billed Account (IBA): An account established for a Government employee to pay for official travel and transportation expenses. IBAs are issued to Agency employees. The individual travel card can be used to pay any official business travel expense. The Agency's Travel Card Program is convenient to Agency travelers and it reduces administrative expenses. Individual travel cards are billed to the employee and paid by the employee.

(10) Centrally Billed Account: A Government account established by the charge card contractor at the request of the Agency. Centrally Billed Accounts (CBAs) are issued to the Agency. Central accounts are used to pay for commercial carrier transportation, purchased from the Agency's Travel Management Center (TMC). Travel card central accounts are billed directly to the Agency and paid directly by the Agency.

(11) Misuse: Use of the travel card for anything other than the official government purpose(s) for which it is intended, e.g. unauthorized cash advances, purchase of non-reimbursable personal expenditures and use of the travel card when not on travel status.

(12) Official Travel: Travel under an official travel authorization from an employee's official station or other authorized point of departure to a temporary duty location and return from a temporary duty location, between two temporary duty locations, or relocation at the direction of a Federal agency.

(13) Salary Offset: Is the collection of an undisputed, delinquent travel charge card amount via direct deduction from the employee's payroll disbursement or retirement annuity on behalf of the travel card issuing bank. Salary offset applies to individually billed accounts only.

(14) Suspension: The process by which an account/individual is prohibited from making purchases with the account/card due to delinquency or multiple pre-suspension actions.

(15) Travel Advance: Is the pre-payment of estimated travel expenses paid by the Agency to an employee via electronic funds transfer.

(16) Travel Card Issuing Bank: Is the Travel Card Company on contract with GSA.

(17) Travel Management Center (TMC): a commercial travel firm under contract that provides reservation, tickets, and related travel management services for official Agency travelers.

## **Title 7**

### **Part 800 MANAGEMENT ACCOUNTABILITY AND CONTROL**

#### **Sections**

821	Purpose
822	Policy
823	Authority
824	Scope
825	Responsibility of Managers
826	Risks
827	Management Controls
828	Management Reporting
828.1	Director's Report
828.2	Administration's Procedures
828.3	Distribution of Integrity Act Report
829	The Role of the Office of the Inspector General (OIG)

#### **821 Purpose**

The purpose of this part is to provide overall framework for compliance at the Broadcasting Board of Governors for the establishment and maintenance of sound internal controls and practices that provide reasonable assurance that the risks of fraud, waste, abuse, and mismanagement are reasonably mitigated by management, personnel, financial and operational systems.

#### **822 Policy**

It is the policy of BBG to acknowledge the requirements of laws regarding the establishment, maintenance, review, assessment, and reporting of internal controls. Internal controls are designed to provide reasonable assurance that the objectives of the agency assure the effectiveness of internal controls against waste, fraud, abuse, mismanagement, loss, unauthorized use, reporting errors, inaccurate data, and illegal or unethical acts in their units in accordance with OMB Circular A-123, A-127, A-136 and A-11.

The follows the Standards for Internal Control in the Federal Government as defined by the United States Government Accountability Office (GAO).

#### **823 Authority**

The Federal Managers' Financial Integrity Act (FMFIA) of 1982 and OMB Circular A-123, "Management Responsibility for Internal Controls," revised 2006, provides guidance to all Federal Managers on improving the accountability and effectiveness of Federal programs and operations by establishing, assessing, correcting and reporting on internal controls.

FMFIA requires all managers to conduct assessments of the adequacy of existing controls up to acceptable standards, specifically, conducting management assessment of the effectiveness of internal controls over financial reporting. The OMB Circular A-123 and FMFIA also requires agency to: (1) report annually to the President and to the Congress on the results of the Agency's self-assessment; (2) identify all material weaknesses detected; (3) and to establish plans for correcting those deficiencies.

## 824 Scope

Provisions of this section apply to the internal controls of all programs, operations, policy functions, management, administrative and accounting systems, and to personnel of the Broadcasting Board of Governors.

Internal control comprises the plans, methods, and procedures used to meet missions, goals, and objectives and, in doing so, support performance-based management. Internal control also serves as the first line of defense in safeguarding assets and preventing and detecting errors and fraud. There are five internal control standards; these are: Control Environment, Risk Assessment, Control Activities, Information and Communication, and Monitoring.

## 825 Responsibilities of Managers

In accordance with Part III of Office of Management and Budget (OMB) Circular A-123, "A deficiency should be reported if it is or should be of interest to the next level of management. Agency employees and managers generally report deficiencies to the next supervisory level, which allows the management structure to determine the relative importance of each deficiency." Deficiencies in controls that are identified during the management control review process must be included in the management internal control review reports.

Managers are responsible for conscientiously assessing controls, knowing the adequacy of existing controls, and improving them, as appropriate. Managers are responsible for Agency, program and administrative resources. Management's responsibilities include:

- a. Ensuring that internal controls are established and, when established, in compliance with applicable regulatory guidance;
- b. Identifying and reporting the risks for waste, fraud, abuse and mismanagement of funds or property, conflict of interest, errors in reports and information, illegal or unethical acts and inherent mismanagement;
- c. Ensuring an annual assessment that reviews safeguards to verify their adequacy and certifying findings in accordance with procedure set forth annually by the Office of the Chief Financial Officer(OCFO);
- d. Modifying or replacing safeguards found to be inadequate in the annual assessments and identifying the inadequacies to management. Inadequacies of substantial consequence, identified by internal control authorities and policies of the OCFO, must be reported in a written statement to the next level manager in the organizational chain of command;

## 826 Risks

Risk that potentially compromise the control, integrity, and function of safeguarding resources must be addressed through established and specific internal controls with adequate oversight. Examples of risks that may compromise management's internal controls include:

- a. Inadequate quality and cost measurement, control and reporting capability;
- b. Improperly, unsupervised or poorly trained employees;
- c. Absence of reasonable checks and balances in any aspect of the operation;
- d. Broad ranges of authority to individuals transcending standard functional lines such as ordering, receiving, paying, inventorying, and issuing;

- e. Lack of prior supervisory approval for overtime, travel, supply requisitions, etc., or other transactions affecting agency fund control.
- f. Insufficient or undocumented, or non-current Delegations of Authority on file;
- g. Vague areas of responsibility in position descriptions;
- h. Infrequent or haphazard inventorying, record keeping and reporting of supplies and equipment.
- i. Noncompliance with Federal Financial Systems requirements, Standard General Ledger (SGL) Accounting Standards, and applicable Federal Accounting Standards.

## 827 Management Controls

Specifically, these measures provide reasonable assurance, if established and implemented properly, that an organization or function:

- a. Accomplishes its mission and objectives efficiently and effectively;
- b. Complies with applicable laws, regulations, policies and procedures;
- c. Safeguards funds, property, and other resources against waste, fraud, abuse, unauthorized use or mismanagement;
- d. Avoids conflict of interest;
- e. Makes effective use of human and financial resources;
- f. Maintains access to sufficiently reliable financial and statistical reports to maintain accountability over assets and liabilities; and,
- g. Holds managers and staff accountable for their performance and oversight of resources.

## 828 Management Reporting

Under the Reports Consolidation Act of 2000 (P.L. 106-531), agencies are permitted to submit combined reports in implementing statutory requirements for financial and performance management reporting to improve the efficiency of executive branch performance.

OMB Circular A-123 Reporting pursuant to Section 4. 31 U.S.C. 3512(d)(2)(B) (commonly referred to as Section 4 of the Integrity Act) requires an annual statement on whether the agency's financial management systems conform to government-wide requirements. This statement is reported, pursuant to OMB Circular A-136, OMB Bulletin No. 01-09 Form and Content of Agency Financial Statements and OMB Circular No. A-11, in the Agency's preparation of the Performance and Accountability Report (PAR).

### 828.1 Internal Report

All agency elements must complete their surveys and associated certifications within the timelines and processes established by the OCFO on an annual basis. The OCFO will prepare a report on material weaknesses identified and the status of remediation efforts of previously reported conditions. Previously reported conditions that have been resolved will not be updated after five years following resolution.

The OCFO reviews the financial systems to ensure compliance with OMB A-127. The Office of the Chief Financial Officer will submit the report on internal controls along with a recommendation regarding the agency-wide assurance statement to the Chairman, Broadcasting Board of Governors.

## 828.2 Procedures

The OCFO informs all elements, on an annual basis, of the procedures for Broadcasting's internal control assessments and appropriate reporting requirements. The OCFO may request additional information from elements and managers to satisfy reporting objectives.

## 828.3 Distribution of Reporting

The assurance statements are transmitted to the President; the President of the Senate; the Speaker of the House of Representatives; the Director of OMB; OMB's Office of Federal Financial Management, Management Integrity Branch and the Chairpersons and Ranking Members of the Senate Committee on Governmental Affairs, the House Committee on Government Reform and Oversight, and the relevant authorizing and Appropriations committees and subcommittees.

## 829 The Role of the Office of Inspector General (OIG)

The OIG routinely evaluates the BBG/IBB and grantees' practices, including oversight and internal controls, to determine compliance with applicable laws and regulations. The OIG routinely supports and augments the management internal controls and performance improvement efforts of the Agency. The OCFO will be advised by the OIG if an active part in the review of management internal controls will occur.

International Broadcasting Bureau  
Broadcasting Administrative Manual  
NOTICE

Material within this Broadcasting Administrative Manual (BAM) may no longer be current. To ensure having the most current BAM policy or procedure, please contact the Agency office responsible for the subject matter, e.g., information about performance appraisal, staffing, or compensation should be directed to the Office of Human Resources. For assistance in determining which office to contact, please contact the Analysis and Administration Division.

BAM Update: The policy with the most recent date takes precedence over policies in other sections of the existing and new BAM that have older dates.

## TITLE 8, OFFICE OF SECURITY, POLICY AND PROCEDURAL SECURITY REGULATIONS

### Section 110

#### ROLE OF OFFICE OF SECURITY

##### 111 Role of Security

##### 112 Scope of Responsibility

##### 113 Coordination

##### 114 Employee Responsibility

(see also BAM Title 5-A Section 550, Employee Responsibilities & Conduct)

### Section 110

#### ROLE OF OFFICE OF SECURITY

111. ROLE OF SECURITY - The Office of Security (SEC) is responsible for all matters affecting the security operations of all assigned personnel at overseas and domestic facilities. Specifically, it is responsible for the protection of BBG employees, safeguarding of classified materials and all physical security programs. SEC will coordinate with the Department of State (DoS) for all overseas physical security programs under the Chief of Mission Authority (COM). In addition, the Office of security has physical security experts who will provide onsite advice and assistance at overseas installations on critical security matters of particular concern to the BBG. SEC is also responsible for ensuring that the work force is staffed with individuals who have been investigated and adjudicated, as required principally by Executive Orders 10450, 12968, and 13467 and possess the proper security clearance/approval for their designated positions.

112. SCOPE OF RESPONSIBILITY - The Office of Security is composed of two divisions, the Physical Security Division and the Personnel Security Division.

#### PHYSICAL SECURITY DIVISION

- a. - Maintains the physical security program for the Broadcasting facilities worldwide.
- b. - Performs overseas/domestic security inspections/surveys as necessary.
- c. - Completes projects and contracts for services as necessary.

- d. - Manages the contract security guard programs.
- e. - Ensures the safe handling and the proper security classifications of all sensitive information.
- f. - Provides security briefings and performs document reviews as necessary.
- g. - Provides technical security services, such as technical security countermeasures, maintenance of security equipment and lock work to all Broadcasting elements as needed.
- h. - Manages ID card program.
- i. - Works with the Freedom of Information Act/Privacy Act program officer on all requests involving records within the Office of Security.

#### Investigations/Adjudications Division

##### Investigation Team

- a. - Investigates all applicants and contractors in accordance with Executive Orders.
- b. - Determines an applicant's eligibility for security clearance/approval.
- c. - Conducts update investigations of employees and contractors on a regular basis to ensure their continuing eligibility for a security clearance/approval.
- d. - Investigates matters involving employee misconduct which impact on national security interests, with the exception of those matters falling under the responsibility of the Office of the Inspector General.
- e. - Investigates counterintelligence/counterterrorism matters.
- f.- When necessary, performs defensive briefings/debriefings of personnel traveling overseas.
- g. - Coordinates security activities with other U.S.G. agencies.

##### Adjudication Team

- a. - Responsible for scheduling all investigative cases and is the primary point of contact with the Office of Personnel.
- b. - Schedules all update investigations.
- c. - Schedules and evaluates the results of all name and fingerprint checks performed by the Federal Bureau of Investigation.
- d. - Manages the contract investigator program.
- e. - Reviews all completed investigative reports to ensure thoroughness and accuracy.
- f. - Evaluates all investigative cases to make security clearance determinations.
- g. - Grant security approvals and clearances and confirms employee approval and clearance status to other agencies as needed.
- h. - Based on investigative findings, suspend security clearances, proposes granting, denial, or revocation of security clearance.

113. COORDINATION - The Office of Security is the sole point of contact on security matters within the BBG and with other agencies.

114. EMPLOYEE RESPONSIBILITIES (see BAM Title 5-A, Section 550, Employee Responsibilities and Conduct) - Employees are required to cooperate with the Office of Security with regard to its official inquiries. Employees are also expected to report to Security any information or circumstances which appear to negatively impact on national security matters or security concerns of the agency.

REGULATIONS

Revised in MOA  
March 1999  
Section 130

CLASSIFICATION MANAGEMENT HANDBOOK

FOREWORD

This handbook includes step by step guidance for all employees who create, process, or handle classified national security information. Executive Order 12958, Classified National Security Information, effective October 1995, prescribes a uniform system for safeguarding, classifying and declassifying information. The handbook:

- Contains policies and regulations on classification, safeguarding, and declassification
- Serves as the first step of a security education and training program about the Executive Order, and
- Provides marking instructions for documents.

The Executive Order emphasizes a commitment to the principle of open government while continuing to protect information critical to our nation's security.

This handbook is available to original classifiers, authorized declassification authorities, individuals responsible for derivative classification, security managers, unit security officers, security specialists, and all other employees whose duties significantly involve the creation or handling of classified information.

For additional guidance, contact the Office of Security.

### APPENDIX A. ROSTER OF ORIGINAL CLASSIFICATION AUTHORITIES

#### CLASSIFICATION AND ORIGINAL CLASSIFICATION AUTHORITY

##### 1.0 CLASSIFICATION MANAGEMENT

###### 1.1 BACKGROUND

Executive Order 12958, Classified National Security Information, effective October 16, 1995 replaces Executive Order 12356. It prescribes a uniform system for classifying, safeguarding, and declassifying national security information assigned to keep the American people informed on the activities of government. The Order also protects information critical to our nation's security. Implementing guidance on the provisions of Executive Order 12958 are contained in Information Security Oversight Office (ISOO) directives.

###### 1.2 AUTHORITY

Under the authority delegated in Executive Order 12958, the BBG may exercise and delegate to principle subordinate officials the authority to originally classify national security information as Secret and Confidential. The BBG Chairman has designated the Broadcasting Director as the Senior Official for Information Security. The Director of Security will oversee the program. Each delegation of original classification authority will be recorded, and such authority shall not be redelegated.

###### 1.3 DELEGATED RESPONSIBILITY

The Broadcasting Director will authorize appropriate officials to originally classify national security information as Secret and Confidential. The highest level of classification authority for each position is indicated by (S) for Secret, and (C) for Confidential. The Office of Security will maintain the Roster of Authorized Classifiers, which will reflect the positions having delegated classification authority and the level of such authority. Authorized classifiers who feel they no longer require this authority, will notify the Office of Security to delete their position from the list.

###### 1.4 SENIOR OFFICIAL FOR INFORMATION SECURITY

The Broadcasting Director has the overall responsibility for the Broadcasting information security program, including a security education program, to ensure effective implementation of Executive Order 12598. The Director of Security will oversee the program. These responsibilities include but are not limited to:

Establishing and monitoring policies and procedures to prevent over or under-classification of national security information and protecting classified information from unauthorized disclosure.

Recommends the following:

Proposals for reclassification in accordance with E.O. 12958.

Implementation plans which protect classified information and prevent unauthorized disclosure.

Identification of those officials, by position, delegated Secret and/or Confidential classification authority. The list will be prepared, maintained and published by the Office of Security.

Guidance concerning corrective or disciplinary action in unusually important cases involving unauthorized disclosure.

Reporting to the Director of the Information Security Oversight Office (ISOO) and furnishing reports and information as required under E.O. 12958.

Systematic document review for early downgrading, declassification and public availability.

Reduction of the amount of classified material and the number of persons authorized to classify.

Establishment and implementation of a system for processing, tracking and recording formal classification challenges made by authorized holders.

Guidance on agency development and implementation of an automatic declassification plan.

Training for all original and derivative classification authorities in classification as provided in E.O. 12958 and its implementing directives.

## 2.0 CLASSIFICATION CATEGORIES

To qualify for classification, information must meet two tests: first, it must fall under one of the specified classification criteria listed below (Section 1.5 of Executive Order 12958); second, an official with original classification authority must determine whether the unauthorized disclosure of the information, either by itself or in the context of other information, could reasonably be expected to cause damage to the national security.

Information may not be considered for classification unless it concerns:

(Extracts from E.O. 12958, Section 1.5. Classification Categories)

Sec 1.5 a. Military plans, weapons systems or operations;

Sec 1.5 b. Foreign government information;

Sec 1.5 c. Intelligence activities, sources, methods, or cryptology;

Sec 1.5 d. Foreign relations or foreign activities of the United States, including confidential sources;

Sec 1.5 e. Scientific, technological, or economic matters relating to the national security;

Sec 1.5 f. United States programs for safeguarding nuclear materials or facilities; or

Sec 1.5 g. Vulnerabilities or capabilities of systems, installations, projects or plans relating to the national security.

## 2.1 CLASSIFICATION LEVELS

Information may be classified at one of the following three levels:

TOP SECRET - Shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause exceptionally grave damage to the national security that the original classification authority is able to identify or describe. Broadcasting employees may not originally classify information at the Top Secret level. See Appendix A for Roster of Original Classification Authorities.

SECRET - Shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause serious damage to the national security that the original classification authority is able to identify or describe.

CONFIDENTIAL - Shall be applied to information, the unauthorized disclosure of which reasonably could be expected to cause damage to the national security that the original classification authority is able to identify or describe.

Except as otherwise provided by statute, no other terms shall be used to identify United States classified information.

If there is significant doubt about the appropriate level of classification, it shall be classified at the lower level.

## 2.2 CLASSIFICATION STANDARDS

Information may be originally classified under the terms of E.O. 12958 only if all of the following conditions are met:

An original classification authority is classifying the information.

The information is owned by, produced by or for, or is under the control of the United States Government.

The information falls within one or more of the categories of information listed in section 1.5 of the Executive Order.

The original classification authority determines that the unauthorized disclosure of the information reasonably could be expected to result in

damage to the national security and the original classification authority is able to identify or describe the damage.

If there is significant doubt about the need to classify information, it shall not be classified. Classified information shall not be declassified automatically as a result of any unauthorized disclosure of identical or similar information.

## 2.3 RESPONSIBILITY OF CLASSIFIERS

Classifiers are responsible for proper classification and protection of documents which they create. Information is classified in one of two ways - originally and derivatively. Only an Original Classification Authority (OCA), may formally make original classification determinations. Individuals with a security clearance, who are required by their work to restate classified information from an already classified source document, may classify derivatively at the level of their clearance.

Classifiers must determine which information is classified as SECRET or CONFIDENTIAL (depending on the classification authority delegated to that individual), how long it needs to be protected, and properly mark that information.

## 3.0 IDENTIFYING AND MARKING CLASSIFIED INFORMATION

A uniform security classification system requires that standard markings be applied to classified information. Except in extraordinary circumstances or as indicated in this handbook and as indicated in E.O. 12958, the marking of classified information created after October 16, 1995, shall not deviate from the following prescribed formats. If markings cannot be affixed to specific classified information, the originator shall provide holders or recipients of the information with written instructions for protecting the information. Markings shall be uniformly and conspicuously applied to leave no doubt about the classified status of the information, the level of protection required, and duration of classification.

### 3.1 ORIGINAL CLASSIFICATION

#### 3.1.1 IDENTIFICATION OF AUTHORITIES

On the face of each originally classified document shall appear the following:

Classification Authority. The name or personal identifier, and position title of the original classifier shall appear on the Classified By line. For example:

Classified By: David Smith, Chief, Division 5

Agency and Office of Origin. If not otherwise evident, the agency and office of origin shall be identified and placed below the Classified By line. For example:

Classified By: David Smith, Chief, Division 5

Department of Good Works, Office of  
Administration

Reason for Classification. The original classifier shall identify the reason(s) for the decision to classify. The classifier shall include, at a minimum, a brief reference to the pertinent classification category (ies), or the number 1.5 plus the letter(s) that corresponds to that classification category in section 1.5 of the Order. For example:

Reason: 1.5 (b), (c), & (g).

### 3.1.2 OVERALL MARKING

The highest level of classified information contained in a document shall appear in a way that will distinguish it clearly from the information text.

Conspicuously place the overall classification at the top and bottom of the outside of the front cover (if any), on the title page (if any), on the first page, and on the outside of the back cover (if any).

For documents comprised of information classified at more than one level, the overall marking shall be the highest level. For example, if a document contains some information marked SECRET and other information marked CONFIDENTIAL, the overall marking would be SECRET.

### 3.1.3 PORTION MARKING

Each portion of a document, usually a paragraph, but including subjects, titles, graphics and the like, shall be marked to indicate its classification level by placing a parenthetical symbol immediately preceding or following the portion to which it applies.

To indicate the appropriate classification level, the symbols (TS) for Top Secret, (S) for Secret, (C) for Confidential, and (U) for Unclassified shall be used.

Waivers from the portion marking requirements for a specific category of information must be forwarded through the Office of Security prior to submitting to the Director of the Information Security Oversight Office (ISOO), for approval. All requests must include the reasons that the benefits of portion marking are outweighed by other factors. Statements citing administrative burden alone will ordinarily not be viewed as sufficient grounds to support a waiver by the ISOO.

## 3.2 CLASSIFICATION EXTENSIONS

An original classification authority may extend the duration of classification for successive periods not to exceed 10 years at a time. For information contained in records determined to be permanently valuable, multiple extensions shall not exceed 25 years from the date of origin of the information. The Declassify On line shall indicate the date the original declassification instructions have changed. The revised instructions shall be conspicuously applied to the face of the document

and shall include the identity of the person authorizing the extension or other revision. The office of origin shall make reasonable attempts to notify all holders of such information and classification guides shall be updated to reflect such revisions.

An example of an extended duration of classification made on October 16, 2005, and originally marked for declassification 10 years from the date of the decision, may appear as follows:

Classified By: David Smith, Chief, Division 5  
Department of Good Works, Office of  
Administration  
Reason: 1.5(g)  
Declassify On: October 16, 2005  
Classification extended until October 16,  
2015 by: David Jones, Chief, Division 5

### 3.3 MARKING INFORMATION EXEMPTED FROM AUTOMATIC DECLASSIFICATION AT 25 YEARS

When an agency head or senior agency official exempts permanently valuable information from automatic declassification at 25 years, the Declassify On line shall be revised to include the symbol 25X plus a brief reference to the pertinent exemption category (ies) or the number(s) that corresponds to that category (ies) in section 3.4(b) of the Order. Other than when the exemption pertains to the identity of a confidential source, or a human intelligence source, the revised "Declassify On" line shall also include the new date or event for declassification. These categories are:

25X1: Reveal the identity of a confidential human source, or reveal information about the application of an intelligence source or method, or reveal the identity of a human intelligence source when the unauthorized disclosure of that source would clearly and demonstrably damage the national security interests of the United States.

25X2: Reveal information that would assist in the development or use of weapons of mass destruction.

25X3: Reveal information that would impair U.S. cryptologic systems or activities.

25X4: Reveal information that would impair the application of state of the art technology within a U.S. weapon system.

25X5: Reveal actual U.S. military war plans that remain in effect.

25X6 Reveal information that would seriously and demonstrably impair relations between the United States and a foreign government, or seriously and demonstrably undermine ongoing diplomatic activities of the United States.

25X7: Reveal information that would clearly and demonstrably impair the current ability of United States Government officials to protect the

President, Vice President, and other officials for whom protection services, in the interest of national security, are authorized.

25X8: Reveal information that would seriously and demonstrably impair current national security emergency preparedness plans.

25X9: Violate a statute, treaty, or international agreement.

The pertinent portion of the marking might appear as follows:

Declassify On: 25X-State of the art technology within U.S. weapon system.  
October 1, 2010

or

Declassify On: 25X4  
October 1, 2010

#### 4.0 DERIVATIVE CLASSIFICATION

Information classified derivatively on the basis of source documents or classification guides will bear all markings as prescribed in paragraph 3.0 except as provided below. Information for these markings shall be carried forward from the source document or taken from instructions in the appropriate classification guide.

CLASSIFIED BY: The derivative classifier shall concisely identify the source document or the classification guide on this line, including the agency and office of origin. For example:

Classified By: David Smith, Chief, Division 5  
Department of Good Works,  
Office of Administration  
Memo dated October 20, 1995

or

Classified By: CG No.1, Department of Good Works,  
dated October 20, 1995

When a document is classified derivatively on the basis of more than one source document or classification guide, the "Classified By" line shall appear as follows:

Classified By: Multiple Sources

The derivative classifier shall maintain the identification of each source with the file or record copy of the derivatively classified document.

A document derivatively classified on the basis of a source document that is itself marked Multiple Sources shall cite the source documents on its Classified By line rather than the term Multiple Sources. For example:

Classified By: Report entitled, New Weapons,  
dated October 20, 1995,  
Department of Good Works,  
Office of Administration

REASON FOR CLASSIFICATION. The reason for the original classification decision, as reflected in the source document(s) or classification guide, is not required to be transferred in a derivative classification action. If included, however, it shall conform to the standards in Paragraph 3.0 above.

DECLASSIFICATION INSTRUCTIONS. The derivative classifier shall carry forward the Declassify On line from the source document to the derivative document, or the duration instructions from the classification guide.

When a document is classified derivatively on the basis of more than one source document or classification guide, the Declassify On line shall reflect the longest duration of any of its sources.

When a document is classified derivatively from a source document(s) or classification guide that contains the declassification instructions, Originating Agency's Determination Required, or OADR, unless otherwise instructed by the original classifier, the derivative classifier shall carry forward:

The fact that the source document(s) was marked with this instruction; and the date of origin of the source document(s) or classification guide.

An example might appear as follows:

Declassify On: Source marked OADR  
Date of origin: October 20, 1990

This marking will permit the determination of when the classified information is 25 years old and, if permanently valuable, subject it to automatic declassification under section 3.4 of the Order.

#### 4.1 OVERALL MARKING

The derivative classifier shall carry forward the overall marking from the source document or the classification level instruction from the classification guide, and mark the derivative document as provided in paragraph 3.0 above. When a document is classified derivatively on the basis of more than one source document or classification guide, the overall marking shall reflect the highest level of classification of any its sources.

#### 4.2 PORTION MARKING

Each portion of a derivatively classified document shall be marked in accordance with its source, and as provided in paragraph 3.0 above.

#### 5.0 MARKING PROHIBITIONS

Markings other than Top Secret, or Secret and Confidential, shall not be used to identify information as classified national security information. No other term or phrase shall be used in conjunction with these markings, such as Secret Sensitive or Agency Confidential, to identify classified

national security information. The terms Top Secret, "Secret" and Confidential may not be used to identify unclassified executive branch information.

Classifiers will refrain from the use of special markings when they merely restate or emphasize the principles and standards of the Order. At the request of the Director of ISOO, the Director, on behalf of the Chairman of the BBG, shall provide a written explanation for the use of any special markings.

A transmittal document shall indicate on its face the highest classification level of any classified information attached or enclosed. The transmittal shall also include conspicuously on its face the following or similar instructions, as appropriate:

UNCLASSIFIED WHEN CLASSIFIED ENCLOSURE REMOVED  
or  
UPON REMOVAL OF ATTACHMENTS THIS DOCUMENT IS (CLASSIFICATION)

Documents that contain foreign government information shall include either the marking Foreign Government Information, FGI, or a marking that otherwise indicates that the information is of foreign origin. If the fact that information is foreign government information must be concealed, the marking will not be used and the document shall be marked as if it were wholly of U.S. origin.

Working papers containing classified information will be dated when created, marked with the highest classification of any information contained in them, protected at that level, and destroyed when no longer needed. When any of the following apply, working papers will be controlled and marked in the same manner prescribed for a finished document at the same classification level:

Released by the originator outside of the originating activity.

Retained more than 180 days from date of origin.

Filed permanently.

Bulky material, equipment and facilities, etc., will be clearly identified in a manner that leaves no doubt about the classified status of the material, the level of protection required, and the duration of classification. Upon a finding that identification would itself reveal classified information, such identification is not required. Supporting documentation for such a finding must be maintained in the appropriate security facility and in any applicable classification guide.

Information contained in unmarked presidential or related materials preserved in a presidential library or other repository and which pertains to the national defense or foreign relations of the United States and has been maintained and protected as classified information under prior Orders shall continue to be treated as classified information under this Order, and is subject to its provisions regarding classification.

## 6.0 CLASSIFICATION PROHIBITIONS AND LIMITATIONS

Information will not be classified in order to:

Conceal violations of law, inefficiency, or administrative error.

Prevent embarrassment to a person, organization, or agency.

Restrain competition.

Prevent or delay the release of information that does not require protection in the interest of national security.

Basic scientific research information not clearly related to the national security may not be classified.

Information may not be reclassified after it has been declassified and released to the public under proper authority.

Information that has not previously been disclosed to the public under proper authority may be classified or reclassified after an agency has received a request for it under the Freedom of Information Act (5 U.S.C. 552) or the Privacy Act of 1974 (5 U.S.C. 552a), or the mandatory review provisions of section 3.6 of the Order only if such classification meets the requirements of this Order and is accomplished on a document by document basis with the personal participation or under the direction of the Director, or the official designated under 5.6 of the Order. This provision does not apply to classified information contained in records that are more than 25 years old and have been determined to have permanent historical value under title 44, United States Code.

Compilations of items of information which are individually unclassified may be classified if the compiled information reveals an additional association or relationship that:

Meets the standards for classification under the Order and is not otherwise revealed in the individual item of information.

As used in E.O. 12958, "compilation" means an aggregation of pre-existing unclassified items of information.

## 7.0 CLASSIFICATION CHALLENGES

Executive Order 12958 encourages individuals to challenge classification decisions as a means for promoting proper and thoughtful classification actions. As a result of this, Broadcasting procedures will ensure that no retribution or other negative actions are taken against any individual initiating such a challenge. Those authorized holders wishing to challenge the classification status of information should present such challenges to an Original Classification Authority (OCA) who has jurisdiction over the information. Such a formal challenge should be made in writing, but does not have to be specific other than to ask why the information is or is not classified, or is classified at a certain level.

The Office of Security is establishing a system for processing, tracking, and recording formal classification challenges made by authorized holders. The records of challenges will be subject to the attention of the Interagency Security Classification Appeals Panel , which is under the auspices of the Information Security Oversight Office (ISOO). All classification challenges will be kept separate from Freedom of Information Act/Privacy Act requests with a separate record keeping system established to process and record the challenges.

All classification challenges will be reviewed by an OCA with jurisdiction over the challenged information. The OCA will provide a written response to the challenger within 30 days. If the challenger is not satisfied with the response, an impartial official or panel will review the challenger's request (supervisor of the OCA at the next highest level). If the challenge is not processed within 30 days, the OCA will acknowledge the challenge in writing and provide the challenger with a date when the OCA will respond. The acknowledgment must include a statement that if no response is received within 90 days, the challenger has the right to forward the challenge to the Interagency Security Classification Appeals Panel for a decision.

#### 7.1 CLASSIFICATION GUIDES

Originators of classification guides are encouraged to consult the users of guides for input when reviewing or updating guides. Also, users of classification guides are encouraged to notify the originator of the guide when they acquire information that suggests the need for change in the instructions contained in the guide. Classification guides shall be reviewed as circumstances require, but at least once every five years.

Each guide will be approved personally and in writing by an official who has program or supervisory responsibility over the information or is the senior agency official and is authorized to classify information originally at the highest level of classification prescribed in the guide.

#### 7.2 CLASSIFICATION GUIDES SHALL AT A MINIMUM

Identify the subject matter of the classification guide.

Identify the original classification authority by name or personal identifier, and position.

Identify an agency point-of-contact with subject matter expertise.

Provide the date of issuance or date of last review.

State precisely the elements of information to be protected.

State which classification level applies to each element of information and, when useful, specify the elements of information that are unclassified.

State, when applicable, special handling caveats.

Prescribe declassification instructions or the exemption category from automatic declassification for each element of information. When reviewing or updating a guide, the duration of classification prescribed for each element of information shall continue to correspond to the date of the guide's first issuance. When citing the exemption category listed in section 1.6(d) (8) of E.O. 12958, the guide shall also specify the applicable statute, treaty or international agreement. State a concise reason for classification which, at a minimum, cites the applicable classification categories in section 1.5 of the Order.

### 7.3 DISSEMINATION OF CLASSIFICATION GUIDES

Classification guides shall be disseminated as widely as necessary to ensure the proper and uniform derivative classification of information. All classification guides will be submitted through the Office of Security for review and final approval. The Office of Security will maintain a database of all classification guides approved and issued by Broadcasting. The OCA(s) will be responsible for obtaining approval of all classification guides before they are distributed.

### 8.0 DECLASSIFICATION AND DOWNGRADING

Information will be declassified as soon as it no longer meets the standards for classification under Executive Order 12958. It is presumed that information that continues to meet the classification requirements under this Order requires continued protection. In some exceptional cases, however, the need to protect such information may be outweighed by the public interest in disclosure of the information, and in these cases the information will be declassified. When such questions arise they will be referred to the Freedom of Information/Privacy Acts Unit. This office will determine, as an exercise of discretion, whether public interest in disclosure outweighs the damage to national security that might reasonably be expected from disclosure. Executive Order 12958 does not:

Amplify or modify the substantive criteria or procedures for classification; or create any substantive procedural right subject to judicial review.

If the Director of the Information Security Oversight Office determines that information is classified in violation of Executive Order 12958, that official may require the information to be declassified.

### 8.1 AUTOMATIC DECLASSIFICATION

Within five years from the date of Executive Order 12958, all classified information contained in records that (1) are more than 25 years old, and (2) have been determined to have permanent historical value under title 44, United States Code shall be automatically declassified whether or not the records have been reviewed. Subsequently, all classified information in such records will automatically be declassified no longer than 25 years from the date of its original classification, except for information which would:

Reveal the identity of a confidential human source, or reveal information about the application of an intelligence source or method, or reveal the identity of a human intelligence source when the unauthorized disclosure of that source would clearly and demonstrably damage the national security interests of the United States.

Reveal information that would assist in the development or use of weapons of mass destruction.

Reveal information that would impair U.S. cryptologic systems or activities.

Reveal information that would impair the application of state of the art technology within a U.S. weapon system.

Reveal actual U.S. military war plans that remain in effect.

Reveal information that would seriously and demonstrably impair relations between the United States and a foreign government, or seriously and demonstrably undermine ongoing diplomatic activities of the United States.

Reveal information that would clearly and demonstrably impair the current ability of United States Government officials to protect the President, Vice President, and other officials for whom protection services, in the interest of national security, are authorized.

Reveal information that would seriously and demonstrably impair current national security emergency preparedness plans.

Violate a statute, treaty, or international agreement.

## 8.2 SYSTEMATIC DECLASSIFICATION

Systematic declassification pertains to all classified agency records determined under Federal law to have permanent historical value wherever they may be stored. These records may be located or stored in:

The National Archives of the United States (including regional archive branches)

Federal Records Centers

Presidential Libraries

Agency file rooms or repositories

Other agencies

Other approved repositories, including contractor facilities, libraries, etc.

The Archivist will conduct a systematic declassification review program for classified information based upon the recommendations of the Information Security Policy Advisory Council or the degree of researcher interest and the likelihood of declassification upon review. Records will be reviewed in accordance with Executive Order 12958, its implementing directives, and declassification guides that this agency provides to the

Archivist. The Director of the Information Security Oversight Office will ensure that all declassification guides are reviewed for accuracy.

### 8.3 MANDATORY DECLASSIFICATION REVIEW

Broadcasting will declassify information that no longer meets the standards for classification under the Order. A process will be established to provide a means to administratively appeal the denial of a mandatory review request and for notifying the requester of the right to appeal a final decision to the Interagency Security Classification Appeal Panel. Information requested under the Freedom of Information/Privacy Act is released unless with holding is otherwise authorized or warranted under applicable law. Guidance on information requested under the Freedom of Information Act/Privacy Act will be issued throughout Broadcasting.

### 8.4 PROCESSING REQUESTS AND REVIEWS

Broadcasting may refuse to confirm or deny the existence or non-existence of requested information whenever the fact of its existence or non-existence is itself classified under this new Order.

When FOI receives any request for documents in its custody that contain information originally classified by another agency, or comes across such documents in the process of the automatic declassification or systematic review provisions of this order, FOI refers copies of any request and the pertinent documents to the originating agency for processing, and may, after consultation with the originating agency, inform any requester of the referral unless such association is itself classified under this Executive Order.

### 8.5 DECLASSIFICATION DATABASE

The Office of Security in coordination with the Records Management Staff and the FOI will cooperate with the Archivist in his/her efforts in establishing and maintaining a Government-wide database of information that has been declassified.

### 9.0 SAFEGUARDING

A person may have access to classified information provided that: 1) a favorable determination of eligibility has been made; 2) the person has signed an approved nondisclosure agreement; and 3) the person has a need-to-know the information.

Broadcasting will not disclose information originally classified by another agency without its authorization. An official or employee leaving will not remove any classified information from Broadcasting's control.

All Foreign Government Information (FGI) shall be safeguarded and provided a degree of protection at least equivalent to that required by the government or international organization of governments that furnished the information. When adequate to achieve equivalency, these standards may be less restrictive than the safeguarding standards that ordinarily apply to the United States' "Confidential" information, including allowing access to individuals with a need-to-know who have not

otherwise been cleared for access to classified information or executed an approved nondisclosure agreement.

#### 10.0 DISTRIBUTION CONTROLS

The Office of Security maintains control over the distribution of classified information to assure that it is distributed only to organizations or individuals eligible for access who also have a need-to-know the information. Each OCA will maintain a required distribution list that will be reviewed annually by the Office of Security. All recipients will cooperate fully with distributors who are updating distribution lists and shall notify distributors whenever a relevant change in status occurs.

#### 11.0 SECURITY CLASSIFICATION EDUCATION AND TRAINING

The Office of Security conducts annual agency security classification education and training programs. Training programs ensure that all employees who create, process or handle classified national security information have a satisfactory knowledge and understanding about classification, safeguarding and declassification policies and procedures; increase uniformity in the conduct of agency security education and training program; and reduce improper classification, declassification and safeguarding practices.

##### 11.1 INITIAL SECURITY EDUCATION AND TRAINING

The Office of Security conducts training for all cleared agency personnel on basic security policies, principles, and practices. Training is provided in conjunction with the granting of a security clearance, and prior to granting access to classified information.

##### 11.2 SPECIALIZED SECURITY EDUCATION AND TRAINING

Original classifiers, authorized declassification authorities, individuals specifically designated as responsible for derivative classification, security managers, security specialists, and all other personnel whose duties significantly involve the creation and handling of classified information must receive detailed training not later than six months from the date the employee assumes any of the positions listed above. This may be arranged through the Office of Security.

##### 11.3 REFRESHER SECURITY EDUCATION AND TRAINING

The Office of Security will provide refresher training to employees who create, process or handle classified information. Refresher training reinforces classification, safeguarding and declassification policies, principles and procedures covered in the initial and specialized training. Refresher training addresses issues or concerns identified during agency self-inspections.

#### 12.0 SELF-INSPECTIONS

"Self-Inspections" means the internal review and evaluation of individual Broadcasting activities and Broadcasting as a whole with respect to Executive Order 12958 and its implementing directives.

The Office of Security is responsible for Broadcasting's self-inspection program. The means and methods for the conduct of self-inspections include:

A review of relevant security directives, guides and instructions.

Interviews with producers and users of classified information.

A review of access control records.

A review of a sample of classified documents generated by Broadcasting offices.

Evaluation of classifiers' actions to comply with the standards specified in the directive on classification and declassification guides.

Review of the classification challenges program to determine if it meets the standards and requirements under Executive Order 12958.

Evaluation of the effectiveness of the security violation program and procedures to prevent recurrences.

### 13.0 SANCTIONS

Executive Order 12958 directs the Director of Information Security Oversight Office to report violations to the Chairman of the BBG so that corrective steps, if appropriate, may be taken.

All employees, contractors, licensees, certificate holders, and grantees will be subject to appropriate sanctions if they knowingly, willfully and negligently:

Disclose to unauthorized persons information properly classified under this order or predecessor orders.

Classify or continue the classification of information in violation of this order or any implementing directives.

Create or continue a special access program contrary to the requirements to this Order or contravene any other provisions under this Order or its implementing directives.

Sanctions could result in reprimand, suspension without pay, removal, termination of classification authority, loss or denial of access to classified information, or other sanctions in accordance with applicable laws and directives.

PART VIII OFFICE OF SECURITY, 200 PERSONNEL SECURITY REGULATIONS, 210 GENERAL  
Section 210

General

211 Purpose and Authority

211.1 Authorities

211.2 Other Reference

213 Policy

213.1 Employment and Retention

213.2 Suspension and Removal

213.3 Extended Absence from Duty

213.4 Re-employment

213.5 Purpose of Security Investigations

213.6 Type of Investigation

214 Notice of Personnel Action

Section 210

GENERAL

211 PURPOSE AND AUTHORITY

211.1 Authorities - The personnel security regulations in sections 200- 290 are prescribed for Broadcasting pursuant to the authority contained in the Act of August 26, 1950, 64 Stat. 476, 5 U.S.C. 3571, 7312, 7501, 7512, and 7532, Executive Order No. 10450 of April 27, 1953, as amended by Executive Order No. 10491 of October 15, 1953, Executive Order No. 10531 of May 27, 1954, Executive Order No. 10548 of August 3, 1954, Executive Order No. 10550 of August 6, 1954, Executive Order 12968 of August 4, 1995, National Security Directive 63 of October 21, 1991, Executive Order No. 13467 of June 30, 2008, and 5 C.F.R. 731, 732, 735, 736, and 752.

211.2 Other References - See BAM V-A-820 and V-B-870 for procedures when hiring non-U.S. citizens abroad for use in the United States; and BAM V-A 482 and 3 FAM 629 when American personnel marry aliens.

213 POLICY

213.1 Employment and Retention -Personnel shall be employed and retained in employment only when such employment is clearly consistent with the interest of the national security.

213.2 Suspension and Removal - The use of the suspension and removal procedures shall be limited to cases in which the interests of the national security are involved.

213.3 Extended Absence From Duty - The official responsible for authorizing or approving leave will notify the Office of Security as soon as it is known that an employee will be absent from duty or will not perform services for a period of 90 days or more. Such absence includes annual leave, military leave, sick leave, unexplained leave, leave without pay, or any combination thereof.

213.4 Re-employment - No person whose employment has been terminated by any department or agency under any security or loyalty programs, shall be employed in Broadcasting unless the Director of Security finds that such employment is clearly consistent with the interests of the national security, and the Office of Personnel Management determines that such person is eligible for such employment. The finding of the Director of Security and the determination of the Office of Personnel Management shall be made a part of the personnel record of the person concerned.

213.5 Purpose of Security Investigations - Security investigations conducted pursuant to these regulations shall be designed to develop information as to whether employment or retention in employment of the person being investigated is clearly consistent with the interest of the national security.

213.6 Type of Investigation - Permanent Appointments shall be made only upon completion of a sufficient background investigation.

214 NOTICE OF PERSONNEL ACTION - The Office of Personnel shall forward immediately, to the Office of Personnel Management, copies of all notices of personnel action taken in security cases.

PART VIII OFFICE OF SECURITY, 200 PERSONNEL SECURITY REGULATIONS  
Section 240

SECURITY DETERMINATIONS FOR ACCESS TO CLASSIFIED INFORMATION

241 Access Eligibility Policy and Procedure

242 Proceedings for Denials or Revocations of Eligibility for Access to  
Classified Information

Section 240

SECURITY DETERMINATIONS FOR ACCESS TO CLASSIFIED INFORMATION

REFERENCE:

A. Executive Order 12968 of August 4, 1995, Access to Classified  
Information.

B. Delegation of Authority to Direct and Administer Broadcasting's  
Security Program, Foreign Affairs Reform and Restructuring Act of 1998,

241 ACCESS ELIGIBILITY POLICY AND PROCEDURE

a. Determinations for eligibility for access to classified information are based on criteria established under reference A. Such determinations are separate from suitability determinations with respect to the hiring or retention of persons for employment or any other personnel actions.

b. The level at which an employee is approved for access to classified information is limited, and relates directly, to the level of classified information for which there is a need for access. Clearance for access to classified information includes access to information classified at a lower level.

c. It is Agency policy that a security clearance (access to classified information) will not be granted to a non-U.S. citizen and not normally granted to a U.S. citizen who claims dual citizenship to the U.S. and any other country. Individuals who officially renounce or attempt to renounce their non-U.S. citizenship (through appropriate channels, e.g., embassy,

consulate, interest section, etc.) and provide acceptable documentation of such action will be consider for clearance.

d. Access to classified information is terminated when an employee no longer has a need for such access. A determination that an employee no longer has a need for access is a discretionary determination made by senior management and is not subject to appeal.

e. Per reference B, the BBG has delegated to the Director, Office of Security, authority to direct and administer all aspects of physical, information and personnel security programs, including those under reference A.

#### 242 PROCEEDINGS FOR DENIALS OR REVOCATIONS OF ELIGIBILITY FOR ACCESS TO CLASSIFIED INFORMATION

242.1 Applicants and employees who do not meet adjudicative standards for access to classified information are:

a. provided as comprehensive and detailed a written explanation of the basis for that conclusion as the national security interests of the United States and other applicable laws permit;

b. provided within 30 days, upon request and to the extent the documents would be provided if requested under the Freedom of Information Act (5 U.S.C. 552) or the Privacy Act (3 U.S.C. 552a), as applicable, any documents, records, and reports upon which a denial or revocation is based;

c. informed of their right to be represented by counsel or other representative at their own expense; to request any documents, records, and reports (as described in the preceding subparagraph) upon which a denial or revocation is based; and to request the entire investigative file, as permitted by the national security and other applicable laws, which, if requested, will be promptly provided prior to the time set for a written reply;

d. provided a reasonable opportunity to provide a written reply, and to request a review of the determination;

e. provided written notice of and reasons for the results of the review, the identity of the deciding Office of Security authority, and written notice of the right to appeal;

f. provided an opportunity to appear personally and to present relevant documents, materials, and information to the adjudicative decision-maker. A written summary or recording of such appearance is made part of the applicant's or employee's security record, and

g. provided an opportunity to appeal in writing to an appeals panel. This panel, designated by the Director of Broadcasting, consists of an element director, the personnel director and the security director. Decisions of the panel are made in writing, and are final.

242.2 When the Director, Office of Security personally certifies that a procedure set forth in this section cannot be made available in a particular case without damaging the national security interests of the United States by revealing classified information, the particular procedure is not available. This certification shall be irrefutable.

242.3 This section does not limit or affect the responsibility and power of the Director of Broadcasting to make determinations of suitability for employment.

a. Nothing in this section requires the procedures prescribed in 242.1 be afforded an applicant where a conditional offer of employment is withdrawn for reasons of suitability or any other reason other than denial of eligibility for access to classified information.

b. Suitability determinations are not to be used for the purpose of denying an applicant or employee the review proceedings of this section where there has been a denial or revocation of eligibility for access to classified information.

#### 242.4 Additional Guidance on Denial or Revocation of Security Clearance

a. When, on the basis of the results of investigation, it is determined that the issuance of a security clearance/approval is not clearly consistent with the interests of the national security, the subject will be so notified by letter. To the extent permitted by security considerations, such letter will provide a specific and detailed explanation of the reasons for the proposed action.

b. The subject will be granted a reasonable period of time (normally 30 days) to reply in writing to such notice of intent. He/she may refute the allegations cited for the proposed action and/or provide additional information that has a bearing on the case. This reply, plus all pertinent investigative material, will be reviewed by the Chief, Investigations/Adjudications Division, who will make the final determination. Should the subject choose not to respond, the decision of the Chief, Investigations/Adjudications Division will be based on the available facts.

c. The final decision of the Office of Security, will be communicated to the subject in writing as promptly as circumstances permit. The letter will specify what action is being taken, the consequences of the action, and what further appeal rights, if any, may be available to the subject. The Office of Security may coordinate with the Office of the General Counsel to ensure that the basis for a clearance denial/revocation is sufficient. GC will coordinate with the Department of Justice as necessary.

#### 242.5 Temporary Suspension of Clearance

When information is developed casting significant doubt on an employee's continued eligibility for access to classified material, it may be necessary to temporarily suspend the individual's security clearance pending resolution of the matter. The Office of Security will issue a notice of temporary clearance suspension citing the grounds for the action to the employee. The employee's supervisor and the Personnel Office will be notified of the suspension and

denial of access to classified material. Every effort will be made to resolve the matter expeditiously. This temporary action does not necessarily require transfer of the employee to other duties.

PART VIII OFFICE OF SECURITY, 200 PERSONNEL SECURITY REGULATIONS, 250  
RESPONSIBILITIES AND SANCTIONS

Section 250

RESPONSIBILITIES AND SANCTIONS

251 General

252 Responsibilities

253 Types of Behavior to be Reported

254 Sanctions

SECTION 250

RESPONSIBILITIES AND SANCTIONS

REFERENCES:

- A. Executive Order 12968 of August 4, 1995, Access to Classified Information
- B. 12 FAM 260, Security Awareness and Contact Reporting, Section 262
- C. ICD 704, Personnel Security Standards and Procedures Governing Eligibility for Access to Sensitive Compartmented Information
- D. Presidential Decision Directive of August 5, 1993, "Security Awareness and Reporting of Foreign Contacts"

251 GENERAL

Reference A charges the Director with responsibility for providing active oversight of a security program designed to protect classified information. The Director of the Office of Security has the responsibility of overseeing this program. Efficient administration of this program requires that Security be notified immediately of any condition or behavior of an employee that could conceivably bear on his or her security clearance and/or ability to deal with classified or sensitive matters.

To assist the Office of Security in accomplishing this responsibility, all employees are encouraged and expected to report any information that raises doubts as to whether another employee's continued eligibility for access to

classified information is clearly consistent with the interests of national security.

#### 252 RESPONSIBILITIES:

a. The Office of Security has sole responsibility for making determinations concerning eligibility for access to classified information in Broadcasting (see Section 240 of this BAM for details).

b. Employees who are granted eligibility for access to classified information are responsible for:

(1) protecting classified information in their custody from unauthorized disclosure;

(2) reporting all contacts with persons, including foreign nationals, who seek in any way to obtain unauthorized access to classified information (see Section 500);

(3) reporting all violations of security regulations to the Office of Security; and

(4) complying with all security requirements set forth in Executive Order 12968 and this BAM.

c. All employees, whether cleared for access to classified information or not, are responsible for:

(1) securing any classified information that comes into their control and reporting the circumstances to the appropriate security officer as soon as possible, and

(2) reporting any employee behavioral indicators which fall into the category described in paragraph 253 to their supervisors or to the Office of Security.

d. Supervisors, in addition to the above responsibilities, must use their good judgment when deciding whether an employee's behavior is sufficiently serious to require a report to the Office of Security, or the post's regional security office (RSO). If there is any doubt, however, report.

#### 253 TYPES OF BEHAVIOR TO BE REPORTED

General types of behavior which may signal a cause for concern for an employees (mental, emotional, criminal, financial and medical) vulnerabilities or need of assistance, are listed below. All personnel are reminded that such reporting is intended to identify co-workers who may need help with a problem they cannot cope with by themselves. Timely intervention by concerned co-workers may prevent an employee from committing a serious breach of conduct or security, which could ultimately cost the employee a career or security clearance, if not corrected. For this reason, any of the following should be reported:

a. Behavior, activities, associations, or unreported contacts which tend to show that the individual is not reliable or trustworthy.

b. Deliberate misrepresentations, falsifications, vindictive/hostile behavior, theft, fraud, or omissions of material facts.

c. Any criminal conduct, dishonest conduct, or misconduct, use of intoxicants, or illegal drug use.

d. Any illness, including any mental condition, of a nature which in the opinion of competent medical authority may cause a significant defect in judgment or reliability of the employee, with due regard to the transient or continuing effect of the illness and the medical findings in such case. This refers to possible emotional or mental disorders of employees that appear to affect their judgment or conduct, and raise such a reasonable doubt as to their stability that advice should be obtained from (security, personnel and/or medical).

e. Financial misconduct - indicators may include calls at work from creditors, garnishments, bounced or bad checks, repossessions, unfavorable judgments, or other indications of difficulty, negligent or tardy child or spousal support payments, reckless or compulsive spending trends, frequent gambling or evident gambling debt, unexplained or sudden affluence.

f. Mishandling classified information, as evidenced by revealing to unauthorized persons, unauthorized removals including magnetic media, collecting/storing classified outside approved facilities, lax security habits that resist management counseling, e.g., discussing classified on non secure line; not properly securing classified information or areas; working on classified material at home.

#### 254 SANCTIONS

Employees will be subject to appropriate sanctions if they knowingly and willfully grant eligibility for, or allow access to, classified information in violation of Executive Order 12968 or this BAM.

Sanctions may include admonition, reprimand, suspension without pay, removal, and other actions in accordance with applicable laws and regulations.

PART VIII OFFICE OF SECURITY, 300 PERSONNEL SECURITY REGULATIONS, 310 AUTHORITY AND GENERAL POLICY

Section 310

AUTHORITY AND GENERAL POLICY

310 Authority and General Policy

310.1 Authority

310.2 Other References

311 Policy

Section 310

AUTHORITY AND GENERAL POLICY

310.1 Authority

The personnel security regulations are prescribed pursuant to the authority contained in the Act of August 26, 1950 and Reorganization Plan No. 2 of 1977; 64 Stat. 476, 5 U.S.C. 3571, 7312, 7501, 7512, and 7532; National Security Directive 63; and Executive Orders 12968 and 10450 as amended. See also guidance contained in the Code of Federal Regulations 5 CFR 731, 732, 736, 752, and 754 and the Foreign Affairs Reform and Restructuring Act of 1998.

These authorities grant the Director the right to suspend the employment of any employee and, following appropriate investigation and review, to terminate the employment of the employee whenever it shall be determined such action is necessary or advisable in the interests of the national security of the United States. 5 CFR 731 delegates to the head of each Federal agency authority and responsibility for adjudicating applicant suitability.

310.2 Other References

- Executive Order 12958, dated April 17, 1995, Classified National Security Information

- Executive Order 10865, dated February 20, 1960 relates to persons under contract with the U.S. Government, who are considered as applicants/employees for the purpose of these regulations. DOD's Industrial Security Manual DOD 5220.22 -M provides guidance for security procedures for contractors under the National Industrial Security Program (NISP).

- BAM V-A-820 and V-B-870 for procedures when hiring non-U.S. citizens abroad for use in the U.S.
- 3 FAM 160, Personnel Security.
- 3 FAM 620, Employee Responsibility and Conduct.

### 311 Policy

It is the policy of the Office of Security that a security clearance (access to classified information) will not be granted to a non-U.S. citizen or to a U.S. citizen who claims dual citizenship with the U.S. and another country. The Office of Security will consider for clearance an individual who officially renounces or attempts to renounce, through appropriate channels (embassy, consulate, or interest section, etc.), their non-U.S. citizenship and provides acceptable documentation of such action.

All applicants for employment will be investigated by the Office of Security to determine their eligibility and fitness for holding a security clearance/approval. Whenever investigation leads the Office of Security to make an adverse security determination, the individual will be so informed in writing. The individual will be given the opportunity to respond to the charges and may be assisted in this process by legal counsel or other representative of their choosing.

Employees are entitled to have counsel or other representatives present during any interviews with the Office of Security when the proceedings could result in adverse consequences for the employee.

PART I ORGANIZATION, 300 ORGANIZATIONAL DEFINITIONS, 340 OFFICE OF SECURITY  
OFFICE OF SECURITY

Section 340

See also BAM Part VIII and BAM Part II, Section 480, Delegation of Authority  
Number 8

The Office of Security is responsible for all matters affecting the security of the BBG (Broadcasting) personnel, domestic facilities and procedures. Specifically, it is responsible for safeguarding classified materials and all physical security concerns domestically. The Department of State provides physical security for overseas facilities. The Broadcasting Office of Security coordinates activities with the Department of State. In addition, the Office of Security has physical security experts who will provide on site advice and assistance at overseas installations on critical security matters of particular concern to Broadcasting. The Office is also responsible for insuring that the Broadcasting work force is staffed with individuals who have been investigated and adjudicated as required by Executive Orders 10450 and 12968 and possess the proper security clearance/approval for their designated positions.

PART VIII OFFICE OF SECURITY, 400 SECURITY REGULATIONS - CONTRACTS AND SERVICES,  
410 INVESTIGATIONS SECTION

Section 410

INVESTIGATIONS SECTION

411 PURPOSE of AUTHORITY

- 411.1 Position Sensitivity
- 411.2 Security clearance Levels
- 411.3 Appropriate Investigative Coverage
- 411.4 Coordination With Office of Personnel
- 411.5 Periodic Reinvestigation
- 411.6 Personal Interview

412 SECURITY PROCESSING OF AMERICAN CITIZENS AT OVERSEAS POSTS

- 412.1 FSNE Security

413 SECURITY PROCESSING OF DOMESTIC CONTRACTORS

- 413.1 Talent Contractors - Purchase Order Vendors

414 MARRIAGE TO ALIENS

415 VERIFICATION OF SECURITY CLEARANCES FOR OVERSEAS ASSIGNMENT AND TDY TRAVEL

Section 410

INVESTIGATIONS

411 PURPOSE of AUTHORITY

411.1 Position Sensitivity

According to requirements specified by the U.S. Office of Personnel Management, all positions are designated in terms of their national security sensitivity and level of security clearance, if any, to ensure appropriate investigative screening under Executive Orders 10450 and 12968. The sensitivity designation is based on an assessment of the degree of damage that an individual occupying a particular position could effect to the national security.

411.2 Security Clearance Levels

Security clearances are granted for access to classified material up to the Confidential, Secret, or Top Secret levels. Although some positions require no

access to classified material, the issuance of security approvals is still required and the provisions of E.O. 10450 will be applied.

#### 411.3 Appropriate Investigative Coverage

The position of the applicant/employee will determine the appropriate type of investigation required for security clearance or approval. Investigative coverage can range from National Agency Checks (NAC), to a NAC plus written inquiries covering former employers and references, to a Single Scope Background Investigation (SSBI). Regardless of what investigation is scheduled, should questionable, unfavorable, or derogatory information develop, coverage will be expanded as necessary to resolve the suitability and security issues/concerns.

#### 411.4 Coordination With Office of Personnel

All applicant/new employee investigations must be requested by the Personnel Office, which will be responsible for ensuring that all required security forms are properly completed and furnished to the Office of Security. Periodic reinvestigations and investigations for cause may be scheduled at the discretion of the Office of Security.

#### 411.5 Periodic Reinvestigation

All employees holding security clearances will be subject to periodic reinvestigation at appropriate intervals. The employee will be notified and furnished new update forms to be completed and returned to the Office of Security. Reinvestigations or special inquiries for cause can be initiated at any time to resolve issues and suitability/security concerns.

#### 411.6 Personal Interview

The subject of any personnel security investigation may be routinely interviewed at the discretion of the Office of Security. An interview will always be scheduled in cases where adverse or discrepant information is developed in order that the subject be given an opportunity to resolve discrepancies and counter allegations.

#### 412 Security Processing of American Citizens At Overseas Posts

Approval for creating/filling such positions (American Family Members [AFM], Part-Time or Intermittent or Temporary [PIT], is the responsibility of the Office of Personnel, but clearance of the candidate must be obtained from the Office of Security as noted in 3 FAM 123. 5-3. The appropriate Regional Security Officer in coordination with responsible officials determine whether or not access to classified material is required.

3 FAM 123. 8-6 specifies forms/data to be submitted for candidates eligible for sponsor-based clearances and those who are not eligible. For the latter, the Office of Security requires only one (1) copy of the SF-86, and the two FBI Fingerprint Charts cited must contain the OPM code number.

Every attempt will be made to expedite clearance for those candidates eligible for sponsor-based clearance upon receipt of the data specified in 3 FAM 123 8-6 d.

412.1 FSNE Security Investigation - see 3 Fam 920, "FSNE Employee Recruitment and Employment".

Investigations of FSNEs are conducted/coordinated by the responsible Regional Security Officer who must certify all such candidates for employment.

#### 413 Security Processing of Domestic Contractors

For any contract which entails access to classified material, all contractor personnel must possess appropriate clearances/approvals. Contractor clearances are normally granted by the Defense Security Service under the terms of the National Industrial Security Program (NISP) administered by the Department of Defense. All such contract clearance needs should be coordinated with the Office of Security. The latter will verify existing clearances through the Defense Security Service coordinating office and, in the absence of existing clearances, may initiate new clearance action at its discretion.

For unclassified contracts in which contract personnel require access to Broadcast facilities, the Office of Security must be notified for scheduling of National Agency Checks (minimum requirement).

##### 413.1 Talent Contractors-Purchase Order Vendors

Detailed security requirements are noted in agreements with Broadcasting Administrative Offices.

#### 414 Marriage to Aliens

All Foreign Service personnel who intend to marry a foreign national must inform the Office of Security in writing at least 120 days prior to the expected date of marriage. See 3 FAM 629 "Employee Marriage, Equivalent Bonds, and Cohabitation" for detailed procedures.

#### 415 Verification of Security Clearances for Overseas Assignment and TDY Travel

In conjunction with the Department of State and all other foreign affairs agencies, it has been established that all personnel assigned overseas or traveling TDY overseas must have their security clearances verified to the appropriate posts. Foreign service personnel generally possess Top Secret clearances and clearance verification is an integral part of the assignment notification process.

For TDY travelers, the verification is not centralized and it is the responsibility of the traveler and the sending office, or post, to ensure, early in the visit coordination process, that the traveler's personal data, including level of security clearance, is clearly cited. This should be done by telegram when the visit is announced, with a copy distributed to the post(s) Regional Security Officer. Clearance verification to an overseas post should be included in visit coordination. Personnel traveling TDY while already assigned overseas, must have their post of residence provide clearance verification.

Failure to provide verification of clearance will result in the visitor either being granted limited building access at post or being required to be escorted.

## NOTICE

Material within this Broadcasting Administrative Manual may no longer be current. To ensure having the most current policy or procedure, please contact the Agency office responsible for the subject matter, e.g., information about performance appraisal, staffing, or compensation should be directed to the Office of Human Resources. For assistance in determining which office to contact, please contact the Analysis and Administration.

## PART VIII OFFICE OF SECURITY, 500 REPORTING FOREIGN CONTACTS, 510 CONTACT REPORTING

### SECTION 510

#### CONTACT REPORTING

##### REFERENCES:

- a. Executive Order 12968 of August 4, 1995, Access to Classified Information
- b. 12 FAM 260, section 262, Security Awareness and Contact Reporting
- c. ICD 704, Personnel Security Standards and Procedures Governing Eligibility for Access to Sensitive Compartmented Information
- d. Presidential Decision Directive of August 5, 1993, "Security Awareness and Reporting of Foreign Contacts"

#### 511 PURPOSE

The purpose of the contact reporting policy is to protect the security of the U.S. and its employees, while ensuring the privacy of employees and their freedom of association. This policy seeks to ensure that security risks to persons or to the U.S. Government are identified at the earliest possible opportunity and deterred, and that protective steps are taken to avoid compromise of U.S. employees and national security interests.

#### 512 POLICY

Reporting contacts under this policy is not accomplished by, nor does it constitute reporting required by 3 FAM 4180, Marriage, Equivalent Bonds and Cohabitation.

##### 512.1 DOMESTIC

This section of the BAM applies domestically to all employees and contractors of the BBG, regardless of nationality. The Office of Security is responsible for administering this program domestically for the BBG.

#### 513 CONTACTS TO BE REPORTED

Broadcasting employees will promptly report contacts with individuals of any nationality, either within or outside the scope of the employee's official activities, whenever the circumstances appear to:

- a. indicate an attempt, intention or reasonable potential to obtain unauthorized access to classified, sensitive, or proprietary information or technology;
- b. indicate the possibility of continued contact with the foreign national for such purposes, or

c. the employee is concerned that he or she may be the target of actual or attempted exploitation by a foreign entity.

#### 514 SPECIAL ACCESS CLEARANCES

Employees with special access clearances are responsible for reporting to their sensitive compartmented information (SCI) security officers all close and continuing contact with foreign nationals, or any contact with representatives or citizens of foreign countries that is considered threatening or suspicious. In addition to the situations described in 513, these employees must also report contact with persons from other countries whenever they show undue or persistent interest in employment, assignment or sensitive national security matters.

#### 515 SANCTIONS

In accordance with E.O. 12968 (reference a), failure to report all contacts under the above described circumstances shall be grounds for appropriate sanctions. Continuous contacts, or failure to report contacts, in the situations described in 513 or 514, could result in the employee's eligibility for continued access to classified and/or sensitive information being withdrawn, and other actions deemed appropriate.

#### 516 LEGAL AUTHORITIES

The requirements of this section of the BAM are based on Title I of Public Law 99-399, the Omnibus Diplomatic Security and Terrorism Act of 1986, as amended, codified at 22 U.S.C., Section 4801 et seq.; Presidential Decision Directive of August 5, 1993 entitled, "Security Awareness and Reporting of Foreign Contacts" (PDDINSC-12) and Executive Order 12968, Access to Classified Information.

#### 517 RESPONSIBILITIES

a. The success of the reporting program is dependent upon the security awareness of every employee and upon his/her understanding of and cooperation with its intent. Employees should be alert to any suspicious activity or approach by individuals of any nationality. If an employee is unsure about the circumstances of a contact, he/she should discuss the situation with the Office of Security, to determine whether filing a report is necessary.

b. When contact reports are filed by employees, Security will review and evaluate the reported information and discuss the incident with the employee, providing counseling, as appropriate. If Security perceives actual or potential security problems relating to an individual of any nationality, they will advise the employee to take appropriate precautions.

c. Supervisors, rating officers, or other employees with first hand knowledge of employee security concerns will comply with the reporting requirements contained in Executive Order 12968, Section 6.2. Failure to do so may result in appropriate sanctions for violating the Order.

#### CONTACT REPORTING FORM

TO :

FROM : (reporting employee name and organization)

DATE :

---

Before completing this report, please reflect on each of the following, which MAY be indicative of an intelligence approach. Did your contact:

1. Actively seek a close personal association or unsolicited recurring contacts? Give gifts?

2. Inject a third party into the relationship?
3. Repeatedly appear in "chance encounters," including large social gatherings?
4. Provide or seek political, economic, military. or sensitive information outside of official channels?
5. Solicit biographical information or gossip about other personnel? Disclose such information about himself/herself, or others?
6. Suggest or encourage illegal activity, such as black marketing, unauthorized currency exchanges, etc.?

When answering, use "None" where applicable. Do not use "N/A" or "Not Applicable."

Contact's Name and Nationality:

Title/Position:

Type of Relationship (circle one): Official/Social

Provide as much biographical data on the individual as possible:

When did the contact occur?

Where did it occur?

What was the purpose of the contact/substance of conversation?

Were there any other participants? If so, please name them.

Please describe any significant details or unusual incidents?

## NOTICE

Material within this Broadcasting Administrative Manual (BAM) may no longer be current. To ensure having the most current policy or procedure, please contact the Agency office responsible for the subject matter, e.g., information about performance appraisal, staffing, or compensation should be directed to the Office of Human Resources. For assistance in determining which office to contact, please contact Cathy Brown or Renee Tyrance-Gauff of the Analysis and Administration Division on (202) 203-4664 or feel free to email this staff at [cbrown@bbg.gov](mailto:cbrown@bbg.gov) or [crgauff@bbg.gov](mailto:crgauff@bbg.gov).

BAM Update: The policy with the most recent date takes precedence over policies in other sections of the existing and new BAM that have older dates.

## TITLE 8, OFFICE OF SECURITY, BUILDING BAR NOTICE IMPLEMENTATION

### SECTION 610

### BAR NOTICE IMPLEMENTATION

#### I. OVERVIEW

This Instruction provides the policy and procedures for the implementation of Bar Notices on Broadcasting Board of Governors (BBG) employees or contractors who separate from the Agency. ***Bar notices are not limited to those who separate from the Agency. Individuals placed on administrative leave pending adverse action may be barred and even non-employees may be barred. A bar notice may be placed against anyone who is deemed to pose a threat to agency personnel or property.***

#### II. PRIMARY RESPONSIBILITIES

- A.** The Director of Security (SEC) is responsible for all security programs.
- B.** The Chief of Physical Security Division is responsible for managing all physical security programs within BBG.
- C.** The General Counsel (GC) is responsible for providing legal advice, counsel, and support to the Agency, for effectively representing the Agency as counsel before Federal, State, and other governmental agencies and courts, and for ensuring the Agency is in compliance with all pertinent laws, rules, and regulations.
- D.** The Director of the Office of Contracts (M/CON) is responsible for the consistent oversight and provision of professional, effective, timely and customer-satisfied acquisition/contract support to the Agency's international multi-media broadcasting programs, in full compliance with applicable Federal laws and regulations to help the Agency successfully accomplish its overall mission.
- E.** The Director of the Office of Human Resources (M/H) is responsible for providing worldwide personnel management policies, programs and services enabling the Agency to carry out its mission and enhancing the well-being of its employees.
- F.** The Chief of the Labor and Employee Relations Division (M/HL) is responsible for advising management in all interactions with its labor unions and advising management on how to correct

poor performance and employee misconduct in an effort to maintain positive employer-employee relationships that contribute to sustained productivity, motivation, and morale.

- G.** Each BBG employee is responsible for complying with the security policies and procedures contained in this Instruction.

### III. POLICY AND PROCEDURES

#### A. Implementation of BBG Facility Bar Notice

1. SEC will implement the Bar Notice Process upon receipt of derogatory information, court case files, or negative security determinations from the BBG staff, GC, M/CON, M/H or M/HL concerning any Full-Time Employee (FTE) or contractor (POV or PSC). ***A bar notice is not automatically generated as a result of the receipt of derogatory information or a negative security determination, but only upon a determination by GC, the Director of HR, the Director of Security, or their designee, that the individual poses a potential threat to Agency personnel or property.***
2. Individuals that have been escorted outside of the facility by Federal Protective Services (FPS), contract guard, or the SEC Special Agents will immediately forfeit their BBG Identification badge (credential) to the Agent or supervisor. This credential will be returned to SEC for processing in the Access Control System and the Employee's Security File (ESF). ***The fact that an individual is escorted from the building does not, in and of itself, generate a bar notice.***
3. Employees and contractors who have been placed under Bar Notice that have not previously surrendered their credential will have their access to BBG facilities removed in the Access Control System, and the Bar Notice will be placed at all BBG Entry Control Points (ECP) in Guard Post Orders.
4. Removal of the employee or contractor's security photo in the Access Control System database will prevent future access to any BBG facility. ***Such an individual may still be signed into the building by anyone with a valid permanent Agency ID card unless a bar notice has been placed.***
5. The Bar Notice will consist of the employee or contractor's name, security photograph, implementation date, and expiration date (if any). Distribution will be limited to Guard Post Orders, BBG Points of Entry, Guard Control, and the ESF.
6. If a barred or banned employee or contractor is required to return to BBG for official business (i.e. legal counsel, employee benefits consultation, union representation, exit processing, etc.), the requesting office will contact the SEC for coordination well in advance. SEC will determine if the request to temporarily "waive" the Bar Notice is valid. In the event the request is approved, the requesting office will coordinate with the SEC to insure that the barred employee or contractor is properly escorted. Upon completion of the official business, the individual will be immediately escorted out of the BBG facility and the Bar Notice will be reinstated.

#### B. BBG Headquarters Facility Security Standards

The BBG facilities within Washington, DC (Wilbur J. Cohen and Mary E. Switzer Federal Buildings) are designated Level IV facilities, as defined in the U.S. Department of Justice's "Vulnerability Assessment of Federal Facilities Report." The physical security standards specified in the Report apply to the aforementioned BBG facilities.

Office space within the BBG facilities is designated as either "restricted" or "unrestricted" space.

1. Restricted space is defined as an area where storage, processing, discussions, and handling of classified material may occur. Upon request, SEC may grant unescorted access to "restricted space" to any authorized person who has a valid national security clearance at the "secret" level or higher. Other personnel requesting access to restricted space must be escorted by an authorized person that has been granted "unescorted access" to the restricted area.
2. Unrestricted space is defined as an area where storage, processing, discussion, and handling of classified material are not authorized. Upon request, the SEC may grant access to "unrestricted areas" to any authorized person(s) that has received a favorable background investigation as determined by the SEC.

#### **C. Access to and within BBG Facilities**

1. Authorized personnel may have access to any entry door within BBG facilities if they have been authorized by their Office Director or Associate Director, and the SEC.
2. To request access to a specific entry door(s), forward your written request to your respective Office Director, Associate Director or designee for approval and coordination.
3. When the Director receives this request, he or she will forward a written request (via e-mail) to SEC's Domestic Security Branch that the request will identify the entry door and the requested hours of access. SEC will coordinate with the receiving work unit to implement the action.
4. SEC will process all requests within forty-eight (48) hours of receipt and will notify the requesting **Office** Director ( ~~delete~~ - of Security) or his or her designee when complete.
5. Hours of access to entry doors within BBG are defined as follows:
  - a. 24/7 - 24 hours a day, seven days a week, holidays included.
  - b. Flex - 6:30 a.m. to 6:30 p.m., five days a week, no holidays or weekends.
  - c. Core - 8:30 a.m. to 5:30 p.m., five days a week, no holidays or weekends.
  - d. Vendor - 7:30 a.m. to 3:30 p.m., five days a week, no holidays or weekends.
  - e. Other – Definable as required.
6. Access to freight elevators is granted on a case-by-case basis. To obtain access, follow the same procedures listed above for requesting access to a door or suite. ***Access to the freight elevators is controlled by the GSA Building Manager***

#### **D. BBG Identification Card (I.D.) or Credential**

1. All people within any BBG facility must possess and wear a valid SEC-issued Identification Badge or visitor pass at all times.
2. All employees must wear the badge on their outer garment on the front of their upper torso with the front of the badge (e.g. picture side) clearly visible.
3. The I.D. Badge must not be altered (e.g., affix stickers, pins, or other items). SEC will make exceptions to the mandatory pass rule for small children and for disabled visitors whose range of movement is severely limited.
4. Guards and SEC personnel will verify that an individual in BBG space without a pass is authorized to be present. Upon verification they will facilitate the issuance of a pass.

5. Employees will be required to “badge in” or sign a register when entering or leaving BBG facilities during security hours (6:30 p.m. – 6:30 a.m., weekdays, 24 hours on weekends and holidays).
6. When “uncleared” people, such as building construction contractors, are required to enter or remain in the building after working hours, the Contracting Officer’s Technical Representative (COTR) authorizing the work must arrange for an escort and obtain SEC concurrence. Such individuals must sign in and sign out on the appropriate register.

## TITLE 8, OFFICE OF SECURITY, DOMESTIC PHYSICAL SECURITY PROGRAM

### SECTION 710

#### DOMESTIC PHYSICAL SECURITY PROGRAM

##### 1. OVERVIEW

This instruction provides the policy and procedures for the protection of BBG employees, national security information and property located in BBG facilities.

##### 2. PRIMARY RESPONSIBILITIES

- a. The Director of Security (D/SEC) is responsible for physical security programs at BBG.
- b. The Chief, Physical Security Division (SEC) is responsible for implementing physical security programs at BBG facilities.
- c. The IBB Chief of Staff is responsible for ensuring that SEC is advised (in advance if possible) of any matters affecting the physical security systems in BBG facilities.
- d. BBG Senior Managers are responsible for ensuring staff compliance with the security policies and procedures contained within this instruction.
- e. The Director, Associate Director, or their designated representative within each Bureau is responsible for all safes and door security in his or her Bureau or Office.
- f. Each BBG employee is responsible for complying with the security policies and procedures contained in this instruction.

##### 3. POLICY AND PROCEDURES

###### A. BBG Headquarters Facility Security Standards

The BBG/IBB facility (Cohen and Switzer) is a designated Level IV facility as defined in the Department of Justice Vulnerability Assessment of Federal Facilities Report. The physical security standards specified in the report apply to the headquarters building. **(See Mandatory Reference, [Department of Justice Vulnerability Assessment of Federal Facilities Report](#).)**

Office space within BBG is designated as “restricted” or “unrestricted” space.

1. Restricted space is defined as an area where storage, processing, discussions, and handling of classified material may occur. Upon request, the Office of Security may grant unescorted access to “restricted space” to any authorized person who has a valid national security clearance at the “Secret” level or higher. Other personnel requesting access to restricted space must be

escorted by an authorized person that has been granted “unescorted access” to the restricted area.

2. Unrestricted space is defined as an area where storage, processing, discussion, and handling of classified material are **not authorized**.

Upon request, the Office of Security may grant access to “unrestricted areas” to any authorized person(s) that has received a favorable background investigation as determined by the Office of Security.

## **B. Access to and within BBG Facilities**

1. Authorized personnel may have access to any entry door within BBG headquarters if they have been authorized by their Office Director or Associate Director, and the Office of Security.

2. To request access to a specific entry door(s), forward your written request to your respective Office Director, Associate Director or designee for approval.

3. When the Director receives your request, he or she will forward a written request (via e-mail) to the Office of Security, Domestic Security Branch (SEC) that identifies the entry door and the requested hours of access. SEC will coordinate with the receiving Bureau to implement the action.

4. SEC will process your request within 48 hours of receipt and will notify the requesting Director or designee when complete.

5. Hours of access to entry doors within BBG are defined as follows:

24/7 - 24 hours a day, seven days a week, holidays included.

Flex - 6:30 a.m. to 6:30 p.m., five days a week, no holidays or weekends.

Core - 8:30 a.m. to 5:30 p.m., five days a week, no holidays or weekends.

Vendor - 7:30 a.m. to 3:30 p.m., five days a week, no holidays or weekends.

Other – Definable as dictated.

6. There is a 100% Escort Policy in place for the Cohen Facility. All visitors are required to be under escort by a credentialed full-time employee or authorized contractor.

7. Access to freight elevators is granted on a case-by-case basis. To obtain access, follow the same procedures (above) for requesting access to a door or suite.

## **C. How to Obtain a BBG Identification Card/Pass**

1. Individual BBG/IBB Direct Hires, Personnel Service Contractors, Purchase Order Vendors, and other Government entities including Congress must be sponsored by a BBG/IBB Bureau or Office to obtain an identification card.

2. Coordination by the sponsoring office with the Office of Public Affairs (PA) must be included for congressional personnel before final processing by the Office of Security.

3. To obtain an I.D. card, Bureau Chief's must forward a completed Personal Identification Verification (PIV) Request for BBG Credential Form to the Office of Security (SEC). (**See Mandatory Reference, IBB 1217**) It is the responsibility of the requesting Bureau or Office to determine the access level required by the individual(s). Only valid I-9 documents are accepted with the IBB-1217 (FPS Exception for Foreign-Govt ID).

4. All requests will be reviewed and are subject to approval by the Office of Security. The Office of Security uses the standards described in this instruction to make a decision on each request.

## **D. Authorization to Work in BBG Facilities**

1. Only those individuals who have been the subject of a background investigation and have received a favorable review by SEC are permitted to work in any BBG facility and be issued a BBG I.D. Badge.

2. Only people with a current security clearance verified by SEC are authorized to work within BBG Restricted Areas.

3. **Visitor** passes are not to be requested or used for people to **work** in BBG space unless approved by SEC. Bureau Directors must coordinate with SEC at least two work days in advance

of a visitor's proposed work start time so that SEC has time to determine whether or not authorization for a visitor pass is appropriate. Emergency cases will be handled on a case-by-case basis.

4. People without a security clearance, including Foreign Service National (FSN) and Third Country National (TCN) staff on temporary duty (TDY) to BBG Washington, may be authorized to work in BBG Restricted Areas of the building providing advance approval has been provided by SEC. The Bureau Director or designated representative must submit a request for such authorization to SEC at least one full week in advance of the proposed work date. The coordination must include a security plan on how access by the uncleared person to national security information will be precluded. SEC will base approval on its assessment of the adequacy of the proposed measures.

#### **E. BBG Identification Card/Credential**

1. All people within any BBG facility must possess and wear a valid (SEC) issued Identification badge or visitor pass at all times.

2. All employees must wear the badge on your outer garment on the upper torso front with the front of the badge (picture side) clearly visible.

3. The badge must not be altered (e.g., affix stickers, pins, or other items).

4. SEC will make exceptions to the mandatory pass rule for small children and those visitors attending functions whose range of movement is severely limited.

Guards and SEC personnel will verify that an individual in BBG space without a pass is authorized to be present. Upon verification they will facilitate the issuance of a pass.

5. Employees will be required to badge in or sign a register when entering or leaving the headquarters during security hours (6:30pm – 6:30am, Weekdays, 24 hours on Weekends and Holidays).

6. When uncleared people, such as building construction contractors, are required to enter or remain in the building after working hours, the direct-hire employee authorizing the work must arrange for an escort and obtain SEC concurrence. Such individuals must sign in and out on the appropriate register.

#### **F. Visitors and Guests to BBG Facilities**

1. All visitors and guests requiring access to any BBG facility must present a valid identification with photograph (US drivers license, U.S. Government-issued ID card, passport/visa, State Department building pass, or BBG-issued building pass) to the uniformed guards assigned to BBG before they may enter. Additionally, visitors and guests will be subject to metal detection and package screening before entering BBG unless waived by the Office of Security.

2. BBG employees who escort or request the admittance of an individual are responsible for the individual's compliance with the pass requirements and their prompt departure from BBG immediately following the completion of their business.

3. Only people with a current security background investigation verified by SEC will be given unescorted access to any Restricted Areas. All others must be escorted by cleared BBG employees.

4. All visitors must be escorted at all times by a properly credentialed FTE or CON and must adhere to the BBG Escort Policy in place for the Cohen Facility.

#### **G. Special Events/Temporary Additional Services (TAS)**

1. Events hosted by outside agencies in the Cohen Auditorium are requested through the GSA Building Manager's office located in the Cohen facility. If there are over 50 people or more, the event requester is required to contact the Federal Protective Service (FPS) Contracting Officer's Technical Representative (COTR) and submit a TAS request for additional Guard Support. For events over 50 people, 2 or more additional guards are required to handle the "over and above those normally provided" as stated in the Federal Management Regulation, Chapter 41, Sub Part C, 102-74.540. For events over 200 people, 4 additional guards are required. The FPS COTR

will determine the number of guards and the cost for each event. Requesting agencies are responsible to provide proper funding documentation to the COTR prior to any event.

2. FPS Contracting Office requires full payment five (5) working days prior to the event in order to provide the Contractor sufficient time to schedule additional guards for the event. Guards are required one-half hour prior and one-half hour after the event time scheduled. The FPS COTR will make all determinations on time sensitive events or emergency requests.

#### **H. Closed Circuit Television (CCTV) Surveillance**

1. Throughout all public/common areas within Cohen, to include exterior views of the entire perimeter, underground garage, and all access/egress points, the Office of Security has installed CCTV coverage that is monitored on a full time basis by local contract Guards. This system is also recorded on multi-DVR systems at a pre-determined interval.

2. All Full Time Employees (FTE's) and contractors are briefed in their Initial Security Briefing that all common/public areas are under surveillance by numerous pre-positioned cameras operated and monitored by Security personnel. This system has been installed and operated for the security and safety of all employees, contractors, and visitors to the BBG facility.

3. Any special surveillance requests are directed to the Director of Security or the Physical Security Division Chief.

#### **I. Deliveries to BBG Facilities**

1. Uniformed guards assigned to BBG will inspect all deliveries, including courier mail and packages, parcels, bags, flowers, and equipment before they enter any BBG building. In unusual or emergency circumstances, SEC may impose temporary restrictions to ensure that materials are not introduced into or removed from BBG space.

#### **J. Unauthorized Alteration of Security Systems**

1. Unauthorized modifications (i.e., propping open doors) or other actions adversely affecting the operation of any BBG physical security system will result in recommendations for security, administrative, and/or disciplinary action.

2. Any repair, upgrade, or maintenance of BBG physical security systems must be authorized by SEC to include coordination with the Guard Supervisor.

3. Written authorization from SEC must be obtained before any part of the BBG building, the building's security system, or any security locking device used for the protection of National Security Information is disengaged, modified, or affected.

#### **K. Safe and Door Combination Control**

##### **1. Safe Combinations**

SEC will maintain a master listing of all BBG classified safe combinations.

The Director, Bureau Chief, or designated representative in each Bureau and Independent Office will maintain a list of the security container (safe) combinations in a safe for his or her Bureau/Office. They must ensure that no unauthorized person gains access to these combinations.

## **2. Door Combinations**

SEC will maintain a complete list of BBG entry and private office door combinations. The Director, Bureau Chief, or designated representative in each Bureau and Independent Office has the responsibility for maintaining a list of the door combinations for his or her Bureau/Office. The combinations must be secured in a locked container consistent with the sensitivity of the materials contained in the room.

### **L. Changing Door and Safe Combinations**

1. Only SEC personnel may change door and safe combinations. When an individual having knowledge of a safe combination changes employment with the respective Bureau or Office, the Director, Bureau Chief, or designated representative must notify SEC and arrange to have the combination(s) changed within 72 hours of the employee's departure from the Agency.
2. The Bureau must notify SEC immediately if a Bureau/Office safe combination is **believed to have been** compromised and arrange to have the combination changed.

### **M. Lost and Found**

1. Any unattended property found within the confines of the Wilbur Cohen building will be turned into a security guard when found. If an officer is not in the immediate area, please notify guard control at 202 382-7111 and an officer will be dispatched. All found property will be immediately turned over to a guard supervisor, who will record the item found into a log book located in Guard Control. The Guard Captain will notify BBG/SEC that an item was turned in, date and time, and a short description of the item. SEC will determine if an agency wide announcement is necessary (depending on the value of the item).
2. Property will remain in Guard Control (secured) for a maximum of 30 days.

### **N. Response and Criminal Investigations**

1. Commensurate with all federal leased buildings, the Federal Protective Service (FPS) is the responsible law enforcement authority required to respond to incidents within the confines of BBG HQ. This includes criminal incidents, parking enforcement within GSA-owned parking at Cohen, and criminal investigations. Once Guard Control receives notification that a crime has occurred in Cohen, FPS is notified and dispatched for response. Contract guards contain the area until FPS arrives and takes control of the scene. FPS provides BBG/SEC and the complainant copies of the official incident report.
2. The Metropolitan Police Department (MPD) will assume all response responsibilities outside the perimeter of Cohen sidewalks to include the street. Directly across Independence Avenue, within the Mall, both Capitol Police and US Park Police have jurisdiction authority.

### **O. Photography in Federal Facilities**

1. Photography is strictly prohibited inside the Wilbur Cohen facility without prior approval by BBG/PA or BBG/SEC. This is required in order to protect installed electronic security systems, current security resources and operations, and techniques and procedures utilized by BBG/SEC.
2. VOA Tours and Special Events will establish specific areas that are deemed appropriate for photography prior to beginning their event. All guests will be under proper escort during VOA Tours and Special Events and will be informed of the restrictions on photography inside the Cohen facility.

BAM Update: The policy with the most recent date takes precedence over policies in other sections of the existing and new BAM that have older dates.

## TITLE 8, OFFICE OF SECURITY, OVERSEAS PHYSICAL SECURITY PROGRAM

### SECTION 810

### PHYSICAL SECURITY PROGRAMS (OVERSEAS)

#### OVERVIEW

This section identifies the overseas physical security policy for the protection of BBG/IBB employees, facilities and national security information. The terms and conditions stated within the Memorandum Of Understanding (MOU), dated May 15, 2001, between the Department of State (DOS) and the Broadcasting Board of Governors (BBG) is the authoritative document which defines BBG's security program as it relates to its overseas operations.

#### PRIMARY RESPONSIBILITIES

- a. The DOS is responsible for the physical, technical and procedural security of BBG facilities overseas.
- b. The BBG Security Director will serve as POC in Washington, DC, for all overseas security related issues between the BBG and DS Headquarters.
- c. The BBG Office of Security (SEC) has primary responsibility for interpreting, supplementing, and developing physical security policy and for oversight of BBG/IBB office physical security enhancements.
- d. Bureaus and Missions are responsible for notifying SEC when any action is contemplated that will affect agency use of office space.
- e. BBG Senior Managers (Governors, Administrators, and Station Managers) are responsible for ensuring that all employees and contractors coming under their authority are aware of and follow the IBB security policies and procedures contained in this OI.
- f. Unit Security Officers (USOs) are responsible for coordinating security activities within their respective IBB site or BBG/IBB Bureau.
- g. All BBG/IBB employees and contractors are responsible for complying with Agency security policies and procedures as reflected in this OI .

#### PHYSICAL, TECHNICAL AND PROCEDURAL SECURITY ISSUES

- a. DS has the responsibility for developing and issuing physical, technical, and procedural security standards, and identifying approved security equipment, in consultation with BBG and other federal agencies. Existing security standards may be modified, in consultation with the DOS whenever improved deterrents are identified.

## **SURVEYS**

- a. DOS will be responsible for conducting physical, technical, and procedural security surveys of all BBG overseas. RSOs conducting the surveys will make recommendations based upon established security standards and advise the senior BBG official at post of any weaknesses or deficiencies noted in the course of such surveys.

## **SECURITY PROGRAM INSPECTIONS**

- a. BBG may conduct periodic inspections of its facilities.

## **MANDATORY REFERENCES**

- a. **DOS/BBG MOU dated May 15, 2001**

118.4 Control

Section 110

INTRODUCTION

111 SCOPE

This section describes the arrangement of the acquisition relationship to other regulations, authorities, applicability, exclusions, deviations, and implementation.

## 112 PURPOSE

MOA IX implements and supplements the Federal Acquisition Regulation (FAR), Federal statutes, and directives of regulatory agencies. The FAR, Title 48, Chapter 1, Code of Federal Regulations (CFR), Broadcasting Acquisition Regulation (BAR), Title 48, Chapter 19 CFR (see paragraph 115 below), OMB Circulars, and MOA IX comprise the principal regulations with which all domestic procurements must comply.

## 113 AUTHORITY AND APPLICABILITY

113.1 Authority - Broadcasting acquisition policies and procedures are prescribed by the Director, International Broadcasting pursuant to the authority of the Foreign Affairs Reform and Restructuring Act of 1998; Reorganization Plan No. 2 of 1977; the Federal Property and Administrative Services Act of 1949, as amended; The Foreign Affairs Reform and Restructuring Act of 1998 enacted as part of P.L. 105-277; and other authorities applicable to a specific section or paragraph are cited therein. (See Chapter 200 for assistance program authorities, policies, and procedures.)

113.2 Applicability - The policies and procedures in MOA IX apply to all purchases, contracts, grants, cooperative agreements, and other agreements and acquisitions made by purchasing or contracting activities to procure supplies and services for the direct benefit of the Government or as in the case of assistance programs to provide funds or property to an outside organization to promote a public purpose.

## 114 EXCLUSIONS

Certain policies and procedures within the scope of Part IX will not be issued in the MOA when any of the criteria listed below apply. They will be issued as Circulars.

- a. Policies or procedures expected to be effective for less than one year;
- b. Classified subject matter:
- c. Policies and procedures in effect on an experimental or provisional basis for a reasonable period; or
- d. Policies and procedures which pertain to other activities in Broadcasting as well as to contracting and procurement if immediate issuance in the MOA is not feasible.

## 115 PUBLICATION

Broadcasting acquisition regulations that have a significant effect beyond the internal operating procedures or have a significant cost to or

administrative impact on offerors are published in the Federal Register and in cumulative form as Title 48, Chapter 19, Code of Federal Regulations (CFR).

#### 116 SENIOR PROCUREMENT EXECUTIVE (SPE)

116.1 Definition - The Director, Office of Contracts serves as the Senior Procurement Executive for Broadcasting.

116.2 Authority - The Senior Procurement Executive is delegated authority by the Director of International Broadcasting. This Delegation is contained in Delegation Order No. 99-10, dated October 1, 1999 (MOA II-280). The Procurement Executive is permitted to redelegate appropriate authority to other officers. The authority redelegated will be exercised under the Procurement Executive's general direction and control.

#### 116.3 Responsibilities

a. Overall - The Senior Procurement Executive is responsible for ensuring that all procurements, grants, and assistance agreements are made in accordance with applicable laws, rules, and regulations, and only by authorized warranted contracting officers.

b. Regulations and Procedures - The Procurement Executive is responsible for issuing Broadcasting's procurement regulations. This responsibility includes participating jointly with GC interagency committees to develop domestic procurement regulations and on joint committees to develop regulations on overseas procurement.

#### 117 IMPLEMENTATION

In addition to publishing MOA material of interest to business concerns in the Federal Register (see paragraph 115 above), other related material may also be published to provide a logical and comprehensive statement of policies and procedures i.e., grant program announcements. MOA IX material that is primarily for internal guidance will not be published in the Federal Register. Responsibility for distributing acquisition regulations is as follows:

a. The officer in charge of a purchasing or contracting activity is responsible for making available Broadcasting acquisition regulations to all activity personnel having related responsibilities.

b. The Office of Contracts is responsible for distributing the Broadcasting Acquisition Regulations (BAR) and revisions to the FAR in accordance with an established distribution list.

c. The Office of Contracts is responsible for distributing the MOA Part IX issuances and other regulatory and procedural material that may be issued by other Government departments to appropriate Broadcasting elements.

#### 118 DEVIATIONS ( FAR 1.4)

The use of any policy, procedure, form, or contract clause inconsistent with, or which varies from, those prescribed in this section, the FAR, or the Broadcasting Acquisition Regulation (BAR) is considered a deviation for which prior approval shall be obtained. (See paragraph 133.4).

118.1 Submitting Request - Submit requests for prior approval of deviations from Part IX or the FAR to the Senior Procurement Executive. Include in the request reference to the appropriate section of the regulation, indicate the nature of the proposed deviation, justify the proposed exception, and specify whether the request applies to an individual case or class of cases.

118.2 Proposed Deviation - The Senior Procurement Executive may authorize proposed deviations when, in the Senior Procurement Executive's judgment, such deviations are necessary to effectively perform Broadcasting operations, provided that:

a. Proposed deviations are cleared with the Office of the General Counsel (GC).

b. Individual deviations affecting only one procurement do not conflict with a statutory requirement.

c. Class deviations affecting more than one contracting action will be considered on an expedited basis jointly by the Senior Procurement Executive and the Civilian Agency Acquisition Council (CAA Council) unless, in the judgment of the Procurement Executive, circumstances preclude such joint effort, in which case the Procurement Executive will notify the FAR Secretariat of the deviation.

118.3 Expiration - Approved deviations that affect classes expire three years from date of approval, except when inconsistent with a specific provision in the approval of a deviation or unless the approval is rescinded earlier. Authority to continue a deviation after this period may be requested in accordance with paragraph 118.1.

118.4 Control - The control number for the deviation is assigned by the Office of Contracts. It will consist of a series number, fiscal year, and a regulation reference. The control number recorded on the document authorizing the deviation shall be cited in all references to the deviation. Separate registers are maintained by the Office of Contracts for all deviations granted. Approved deviations shall be recorded by indicating the appropriate section of the regulations, the nature of the deviations, and whether the deviation applies to an individual case or class of cases.

PART IX- PROCUREMENT, 100 GENERAL  
Section 120  
DEFINITION OF TERMS

120 Terms

- a. Senior Procurement Executive
- b. Authorized Representative of the Contracting Officer
- c. Field Authorized Representative of the Contracting Officer
- d. Contracting Activity
- e. Director
- f. Government
- g. Local Purchase
- h. Overseas Establishment
- i. Purchasing Activity

Section 120

DEFINITION OF TERMS

120 TERMS

- a. Procurement Executive means the Director, Office of Contracts.
- b. Authorized Representative of the Contracting Officer (abbreviated "AR/CO") means an official designated by the contracting officer to act on his behalf regarding any matter or phase of performance under a contract within the limits of their authority as delegated in writing by the contracting officer.
- c. Field Authorized Representative of the Contracting Officer (abbreviated "FAR/CO") means an official designated by the contracting officer to act on behalf of the AR/CO in the field regarding any matter or phase of performance under a contract within the limits of their authority as delegated in writing by the contracting officer.

d. Contracting Activity means the Office of Contracts. The term "procuring activity" shall be interpreted to mean "contracting activity".

e. Director means the Director of International Broadcasting, and the term "authorized representative" means any, person(s) working in Broadcasting (other than a Contracting Officer) authorized to act for the Director.

f. Government means the United States Government and shall be deemed to include any department or organizational component thereof, including Broadcasting.

g. Local Purchase means the authorized purchase of supplies and services from commercial sources by a purchasing or contracting activity for its own use or that of any element it supports. Local purchase is not limited to the immediate geographical area in which the purchasing activity is located.

h. Overseas Establishment means a transmitting station, correspondent bureau, or affiliate office.

i. Purchasing Activity means an office within Broadcasting that has one or more simplified acquisitions contracting officer(s) exercising limited redelegations of contracting officer authority up to the SA open market dollar threshold of \$100,000. The term Simplified Acquisitions Office shall be interpreted to mean purchasing activity.

- 139 Protests Against Award
  - 139.1 General
  - 139.2 Protests Before Award
  - 139.3 Protests After Award

## Section 130

### GENERAL POLICIES

#### 131 METHODS OF CONTRACTING

131.1 Competition - No matter which method of contracting is utilized (i.e., sealed bidding, negotiation, etc.), Broadcasting's objective is to solicit competitive offers (bids, proposals, quotations) from as many qualified sources as necessary to maximize full and open competition consistent with procuring the types of supplies and services required.

131.2 Sealed Bidding - Refer to FAR Part 14 for specific guidance on using this method of contracting.

131.3 Negotiation - Refer to FAR Part 15 for specific guidance on using this method of contracting.

#### 132 CONTRACTING SOURCES

132.1 Government - Pursuant to FAR Part 8, Procurement Offices are required to give full consideration to procurement from required Government sources prior to purchasing elsewhere. Information concerning such sources, including the regulations and schedules for acquiring

supplies and services from such sources, may be obtained from the Office of Contracts (CON).

Competition Advocate - As required by Section 20 of the Office of Federal Procurement Policy Act, the head of each executive agency shall designate a competition advocate for the agency and for each procuring activity of the agency. The competition advocates shall:

a. Be in positions other than that of the senior procurement executive;

b. Be provided with staff or assistance (e.g., specialists in engineering, technical operations, contract administration, financial management, supply management, and utilization of small business concerns), as may be necessary to carry out the advocate's duties and responsibilities.

c. Duties and Responsibilities:

Promoting the acquisition of commercial items, promoting full and open competition, challenging requirements that are not stated in terms of functions to be performed, challenging barriers to the acquisition of commercial items and full and open competition such as unnecessarily burdensome contract clauses.

Review the contracting operations of the agency and identify and report to the procurement executive on opportunities and actions taken to acquire commercial items to meet the needs of the agency; opportunities and actions taken to achieve full and open competition in the contracting operations of the agency; actions taken to challenge requirements that are not stated in terms of functions to be performed; new initiatives required to increase competition.

Government Printing Office

## Government Printing and Binding Regulation, FAR 8.8

132.2 Noncompetitive Sources - To ensure that BBG procurements conform to the policy of maximizing full and open competition, all proposed noncompetitive procurements shall be fully justified. Noncompetitive procurements exceeding \$100,000 must be approved in writing by a contracting official one level above the contracting officer and such procurements of \$1 million or more must be approved by the Senior Procurement Executive and the Competition Advocate.

### 132.3 Contracts Between Broadcasting and Government Employees or Their Family Members

a. The Senior Procurement Executive may authorize an exception to the policy in FAR Subpart 3.601. The exception shall be supported by a written Findings and Determination explaining the compelling reason why such exception must be granted. A contract with an employee for services may result in violation of the dual salary compensation statutes (5 U.S.C. 5533). Nothing in this paragraph is intended to render inapplicable the conflict of interest prohibition set out in 18 U.S.C. 208.

b. Contracts with the spouses, children, parents, brothers, sisters, aunts, uncles, or in-laws of current Broadcasting employees could give the appearance of nepotism. This type of contract requires the advance written approval of the Senior Procurement Executive, in addition to the approval of the Director for Management. See MOA V-A 850.

132.4 Contracts with Ex-Employees of Broadcasting or Their Family Members - To avoid the conflict of interest of providing the same or similar service under contract which was previously provided under employment, contracts with ex-employees of Broadcasting, or with firms in which ex-employees or their family members are known to have a controlling interest, may be entered into in the two years following separation from employment only with the written approval of the Director for Management. A written justification shall be made a part of the file. The justification must address the issue of conflict of interest and demonstrate that it does not exist or that in spite of its existence that Broadcasting's ability to meet its mission would be seriously harmed without the award.

132.5 Procuring Parts - Any part, sub-assembly, or component for equipment that is required for replenishing stock, repair, or replacement must be procured so as to assure safe, dependable, and effective operation of the equipment. When possible, to procure such parts without endangering this assurance, procure them on a competitive basis where they are fully identified and can be obtained from a number of known sources. However, where this assurance can be had only if parts are procured from the original manufacturer of the equipment or its supplier, restrict the procurement to these services and document the procurement file.

## 133 REQUIRED APPROVALS

133.1 Approvals - When required, approvals shall be obtained at the earliest stage possible in the procurement process. All approvals shall be in writing, dated, and made a part of the procurement file.

133.2 Liquidated Damages Clause - Obtain prior written approval of the Senior Procurement Executive before using a Liquidated Damages clause in a contract. The numerical amounts (i.e., dollars per day, etc.) stated in the Liquidated Damages clause must be supported by a written worksheet that documents the exact method used in computing the dollar rate. This worksheet must be part of the procurement file.

133.3 Deviations from Regulations - Obtain prior approval of the Senior Procurement Executive for any deviation from the Federal Acquisition Regulation. Submit requests for approval in accordance with MOA 119.1.

133.4 Forms - Obtain prior approval of the Senior Procurement Executive of any departure from the established content, printing, specifications or conditions for use of forms used in procurement or assistance programs. Include in the request for approval a description of the change or reason for the cancellation and, in the case of a new form, the purpose and savings anticipated. Forms for use solely by a Purchasing Activity are exempted from this requirement.

#### 133.5 Contract Actions Over \$5,000,000

a. Prior to the award of any contract or modification (including delivery or task orders, see FAR Subpart 2.101) exceeding \$5,000,000 the contracting officer shall obtain the written approval of the Director of International Broadcasting. The Contracting Officer shall forward to the IBB Director through the requesting Office, the file of each proposed contract action exceeding \$5,000,000, together with a transmittal memorandum and a narrative summary of significant data, actions and events related to the proposed contract action. The memorandum shall contain the prior approvals, certifications, verifications, opinions, etc. of the following: (i) approval by the head of the requesting office that the supplies/services are needed; (ii) certification by the Financial Management Office (FMO) that sufficient appropriated funds are available; and (iii) opinion of the General Counsel, that the proposed contract action complies with law and regulation.

b. The Contracting Officer shall not take final action to enter into a contract action over \$5,000,000 until written approval is received from the Office of the Director.

c. Delivery orders over \$5,000,000 which are issued against Broadcasting's requirements or indefinite quantity type contracts (provided the maximum ordering limit under the contract is not exceeded) and Inter-Agency agreements are excluded from the above approval procedures.

d. In determining the amount for approval purposes the following applies:

(1) For contract modifications, amount shall be based on the aggregate of increases and decreases. (See example in FAR 15.804-2(a)(1)(ii).)

(2) For requirements or indefinite quantity contracts, the amount shall be based on the estimated quantity.

(3) For options, the amount shall include all evaluated options.

133.6 Class Small Business Set-Aside Determinations - The Senior Procurement Executive shall approve determinations that supplies or services can be reasonably required from small businesses either on a total basis or a partial basis pursuant to FAR Subpart 19.502.

133.7 Notices of Intent to Terminate a Contractor for Default - Notices of intent to terminate for default contracts awarded to contractors that received a Certificate of Competency or SBA loan guarantee shall be approved by the Procurement Executive.

133.8 Solicitations for Information or Planning Purposes - The determination by a Contracting Officer that a solicitation for information or planning purposes is justified shall be approved only by the Senior Procurement Executive.

133.9 Paid Advertisements - Authority to approve the publication of paid advertisements in newspapers or other publications is delegated to the Senior Procurement Executive.

#### 134 SPECIFICATIONS, STANDARDS, AND PURCHASE DESCRIPTIONS

134.1 Specifications - It is Broadcasting's policy to consider use of Commercial Item Descriptions, Federal Specifications, Interim Federal Specifications, Military Specifications, and Broadcasting's Specifications in the order named. Requisitions shall specify and describe requirements in accordance with FAR Part 10 and FPMR Part 101-29.

a. Federal Specifications are promulgated by the General Services Administration (GSA). They are contained in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions (CID).

b. Availability of GSA Index of Federal Specifications, Standards and Commercial Item Descriptions - The Index (FPMR 101-29.219) is issued annually, with monthly cumulative supplements. The index contains general information on the use and ordering of Federal Specifications, Standards and CIDs. If any specification, standard or CID is used, copies should be on file in the office issuing the solicitation so they may be examined by interested offerors.

c. Broadcasting Specifications - If a Broadcasting element prepares a specification of interest primarily for Broadcasting, and the item is one that can be expected to be procured from time to time, the requisitioning office shall submit the specification to the Senior Procurement Executive for written official adoption and processing as a Broadcasting specification.

134.2 Standards - Are used to establish engineering or technical limitations and applications for materials, processes, methods, designees, practices, or related criteria to achieve the highest degree of uniformity in materials, products, or interchangeability of parts used in those products. Standards may be used in specifications, solicitations, and contracts.

a. ADP/Telecommunication Standards - Include specific software hardware standards developed by the Office of Computing Services (Z). When processing these type items, the requisitioner shall coordinate with Z to assure that the latest standard is being used.

134.3 Supplementary Information - When a required Federal Specification or Standard is used, supplementary descriptive information that is consistent with the specification or standard is permissible.

134.4 Purchase Descriptions - The written descriptions must be clear, accurate, and non-restrictive, and set forth all the essential form, fit, and function requirements of the item. Descriptions may not specify products peculiar to one manufacturer, producer, or distributor; unless the requisitioning office determines that the features of such products are essential and that other products lacking such features will not meet minimum requirements and so states in writing. The description must accompany the purchase request (i.e., requisition).

a. Technical or Performance Descriptions - Use these types of written descriptions in preference to "brand name or equal" descriptions. They shall describe the needs clearly and accurately and may include, as appropriate, service requirements, technical or performance details, warranty requirements, sample requirements, packaging, packing, and marking specifications, industry specifications and standards promulgated by technical, professional, or engineering societies, and associations that are widely used in commercial/industrial practice and that are readily available to suppliers.

b. Brand Name Products or Equal - The contracting officer shall use a "brand name or equal" description only when the characteristics of the item cannot otherwise be adequately described. "Brand name or equal" descriptions may not be used to obtain a specific product to the exclusion of similar products of at least equal quality and performance that meet actual minimum needs. If a "brand name or equal" description is used, the brand name model specified should be that which most closely meets the salient characteristics desired by the Government (Comp. Gen. B-163105). The Contracting Officer shall document the file with the basis for such description. The information shall be provided by the requisitioning office.

(1) Equal Products - The solicitation shall inform suppliers that offers of products substantially the same and equal in all significant and material respects to the brand name will be considered on an equal basis with the products named in the solicitation.

(2) Simplified Acquisitions - The same policies and procedures prescribed for contractual procurements shall be used to the extent practical in simplified acquisitions.

134.5 Deviations - If the needs of Broadcasting are not adequately covered by an existing Federal Specification, Standard or CID, pursuant to FAR Subpart 10.007, a deviation may be authorized by the Senior Procurement Executive. The requesting office shall submit for the Senior Procurement Executive's review a justification that demonstrates that competent review has been made and existing specifications have been found not to meet Broadcasting's need.

The Office of Contracts (CON) shall report the authorized deviations listed below to GSA.

(1) Major deviations such as the entrance of a new item and its identification into Broadcasting's supply system.

(2) A repeated deviation.

The report shall include recommendations for changes in the specification and a description of the deviation authorized and the justification.

135 RESPONSIBLE PROSPECTIVE CONTRACTOR [Reserved, See [IX BAM 9100](#)]

#### 136 ADDITIONAL POLICIES AND PROCEDURES

136.1 Affirmative Action in Support of Women's Business Enterprise - It is the policy of Broadcasting in implementing Executive Order 12138, May 18, 1979, that all purchasing and contracting activities take affirmative action to place awards with women-owned businesses. See FAR Subpart 19.9.

a. Simplified Acquisitions - Purchasing activities shall be proactive in identifying small, and/or minority, businesses which are also women-owned, and shall include those sources when requesting quotations.

b. Contracts - Special care shall be taken to identify women-owned businesses when establishing Bidder's Mailing Lists. If rotation of a bidder's list is used to decrease the number of firms solicited, the contracting officer shall ensure that all women-owned small businesses on the list are included in the firms to be solicited. When awards over \$100,000 are made to women-owned businesses, the contracting officer shall ensure that the Individual Contract Action Report, SF-279, is correctly coded.

136.2 Rental in Lieu of Purchase - If a situation arises in which Broadcasting's equipment requirements may be more economically filled by rental than purchase, the Contracting Officer's decision to rent, rather than purchase, shall be made on a case-by-case basis. In each case, consideration shall include the following criteria:

a. Whether the requirement is of short duration and whether the purchase would be costlier than rental;

b. Whether the equipment would become obsolete in a short time and whether replacement would be necessary; and

c. Whether the equipment is special/technical equipment, and whether the lessor would provide the maintenance and repair services at a lower cost than would otherwise be available.

#### 136.3 Publicizing Procurement Actions, FAR Part 5 (See IX BAM 520)

a. Commerce Business Daily (CBD) Synopses [Reserved, See IX BAM 520]

b. Soliciting Procurement Information - The following actions may be considered informal steps in the acquisition process and be used with the approval of the Office of Contracts (CON).

(1) Letter of Interest - A letter may be sent by the Office of Contracts to potential sources asking whether they are interested in performing work in a particular area and/or submitting responses for a particular procurement. Since the letter is a solicitation of interest only, it shall not ask for detailed cost or technical information. The contracting officer may authorize technical offices to perform this function. The initiator of the letter shall consult with and advise the Contracting Officer to prevent unauthorized disclosure of procurement information. Synopsis is not required for a letter of interest. For certain types of procurements, such as specialized technical equipment, prequalification of bidders or offerors may be necessary (See FAR Subpart 9.2.). The initiator shall in such instances limit letters of interest to concerns of proven competence that have previously performed in a timely and efficient manner or whose eminence in their field is accepted by industry.

(2) Public Advertisements - Authority to approve the publication of paid advertisements in newspapers or other publications is delegated to the Senior Procurement Executive.

(3) Presolicitation Notice - A presolicitation notice may be used as a preliminary step in sealed bid and negotiation. (See FAR 14.205-4(c), Standard Form 1417, and FAR 36.302.)

(4) Informal Communications - Many Broadcasting officials have contacts with representatives of industry. At these times discussions may turn to any number of procurement related subjects that may be of interest to the Government, such as new manufacturing techniques, processes, and equipment. Government officials shall, in such cases, refrain from providing any information on a specific or prospective procurement that might give the recipient an unfair advantage over other potential sources for the procurement. Information on specific proposed procurements shall only be released to all prospective contractors at the same time.

136.4 Non-Collusive Bids and Proposals - Determinations pursuant to FAR Subpart 3.103-2(b)(2) require the concurrence of the Office of the General Counsel (GC). In order to support a determination of non-collusion, contractor statements required by paragraph (c) of a Certificate of Independent Price Determination must clearly indicate that

the disclosure was not made for the purpose of restricting competition. If a certification is suspected of being false or there is evidence of collusion, the matter shall be reported to the Attorney General in accordance with FAR Subpart 3.3.

#### 136.5 Decisions Under the Contract Disputes Act

- a. The Contracting Officer shall review all pertinent facts and obtain advice and assistance of GC prior to rendering a written decision.
- b. The final decision shall include a statement of facts that will enable the contractor to understand both the decision and the basis therefore.
- c. The decision will also include a paragraph as required by FAR Subpart 33.211 which shall identify the Armed Services Board of Contract Appeals and include the address of the board. The contractor's copy of the decision shall be sent by certified mail, with return receipt requested.
- d. The Contracting Officer's final decision shall be approved by GC prior to the Contracting Officer's informing the affected contractor.

136.6 Payments - The Office of Contracts shall normally provide that invoices be submitted directly to the Dept. of State Accounts Payable Division (M/CFVM). The Contracting Officer/Specialist shall forward the invoice together with all related paperwork (i.e., receiving reports, approvals by Contracting Officers and/or Authorized Representatives of the Contracting Officer (AR/CO, etc.) promptly to the paying office (M/CFVM) so as not to delay payment. However, the Contracting Officer/Specialist shall ensure the proper inspection and acceptance of the contract deliverable has been completed before the requisitioning office submits the invoices to the paying office.

136.7 Replacement Contracts - Funds obligated in a prior fiscal year and remaining unexpended under a contract terminated as a result of default by the contractor are available for execution of a replacement contract provided that: (1) the replacement contract is awarded within a reasonable time, (2) the need existing at the time of the original contract continues to exist up to the execution of the replacement contract, and (3) the replacement contract is substantially similar in scope and size to the original contract. See Comp. Gen. B-198074 (7/15/81).

#### 136.8 Unsolicited Proposals - (FAR Subpart 15.5)

a. Scope - This section prescribes the policies and procedures for submission, receipt, evaluation, and acceptance or rejection of unsolicited proposals.

##### b. Definitions

(1) Minimum requirements - as used in this section means, only those features that are essential to meeting the Government's need.

(2) Coordinating office - as used in this section means, the IBB Office of Contracts (CON).

c. Advance Guidance - Potential offerors shall be encouraged to make preliminary contacts, as provided in FAR Subpart 15.504 with the appropriate Contracting Officer before expending extensive effort on a detailed unsolicited proposal or submitting proprietary data.

d. Procedures

(1) As the designated contact point to coordinate the receipt and handling of unsolicited proposals, the IBB Office of Contracts (CON) shall promptly acknowledge receipt of unsolicited proposals by letter.

(2) The Office of Contracts (CON) shall forward unsolicited proposal packages to the appropriate Contracting Officer for processing.

(3) The Office of Contracts (CON) shall determine which offices within Broadcasting are most likely to have an interest in the unsolicited proposal. A copy of the proposal package shall be forwarded to each office with instructions for evaluation and an established schedule for review.

(4) Offices receiving unsolicited proposals for evaluation shall conduct the evaluation in accordance with this Section, FAR Subpart 15.5, and any additional guidance provided by the Office of Contracts (CON).

(6) Offices shall complete the evaluation and submit their recommended action along with all copies of the unsolicited proposal to the Office of Contracts (CON). Offices shall notify the Office of Contracts (CON) of their recommended action within 14 calendar days after receipt of the proposal package.

(a) If the proposal is to be accepted, the evaluator shall provide a funded requisition and a written justification for awarding a contract without providing for full and open competition in accordance with the requirements of FAR Subpart 15.507.

(b) If the proposal is rejected, the evaluator shall provide the reasons for rejection to the Office of Contracts (CON) within five work days of receipt of the proposal. The Office of Contracts (CON) will be responsible for notifying the offeror in writing of the rejection of the unsolicited proposal.

(7) No part of an unsolicited proposal shall be duplicated or circulated outside of the evaluation office. Each unsolicited proposal shall be closely safeguarded to prevent disclosure of any restricted data. The Office of Contracts (CON) may duplicate unsolicited proposals to facilitate evaluation by more than one technical evaluation office.

136.9 Releasing Procurement Information - Pursuant to the Freedom of Information Act (5 U.S.C. 552) disclosure is the general rule, not the exception. All individuals have equal rights of access to information. The burden is on the Government to justify withholding a document.

Individuals improperly denied access to documents have a right to seek injunctive relief. MOA Part III-Section 524 outlines the BBG's procedure for disclosing information and records in accordance with the provisions of Public Law 90-23.

### 137 STANDARDS OF CONDUCT

The business ethics of all personnel charged with the administration and expenditure of Government funds must be above reproach and suspicion in all respects and at all times. Transactions involving expenditure of public funds must protect the interest of the Government and be such that the individual would not hesitate to make a full disclosure thereof. The maintenance of the highest standards of honesty, integrity, impartiality, and conduct by employees is essential to assure proper performance of Broadcasting's business. The avoidance of misconduct and conflicts of interest on the part of employees is indispensable to the maintenance of these standards.

137.1 Personal Interest in Contracts and Assistance Agreements - No employee of Broadcasting should have a real or apparent conflict of interest concerning specific procurement or assistance programs. This includes the award and administration of purchase/delivery orders, contracts, grants, and cooperative agreements. Conflicts of interest or at least the appearance of such, may occur when the employees or their family members have an interest in any business venture selling to Broadcasting or are recipients of a grant or cooperative agreement awarded by Broadcasting. Conflicts of interest may also occur when goods or services are purchased from the family members or relatives of employees. When it is not possible to purchase the goods or services from another source and/or a conflict or apparent conflict exists, the nature of the conflict shall be disclosed in writing to the BBG Office of the General Counsel (GC), who shall rule on the conflict. No further action may be taken on the proposed procurement unless GC has ruled favorably and the action is approved by the Senior Procurement Executive.

137.2 Report of Improper Activity or Fraud - Report immediately to the Office of Security (S) and/or the Dept. of State Office of Inspector General (OIG) any activity by a contractor, prospective contractor, employee of the Government, or any other person that appears to reflect improper behavior, fraud, or criminal conduct in connection with a specific procurement or assistance activity.

### 138 ADVANCE PROCUREMENT PLANNING SYSTEM (APPS)

Policy Letter 81-1 of the Office of Federal Procurement Policy requires each agency to establish an Advance Procurement Planning System (APPS).

138.1 Definition - "Major system" means, any project or system (regardless of the actual number of contracts involved) if the total cost of the project or system is expected to exceed \$25 million.

138.2 Policy - An Advance Procurement Plan is required for the following types of acquisitions and shall be received in the Office of Contracts by November 1 of each year.

- a. All procurements where the total cost is expected to exceed \$1,000,000.
- b. Exceptions for Task Orders exceeding \$1 million dollars on existing Task Order Contracts may be granted by the Procurement Executive.
- c. All "Major System Acquisitions" are also subject to the policies and procedures of OMB Circular A-109 and FAR Part 34.

#### 138.3 Plan Development

a. The Senior Procurement Executive is designated as the official responsible for the integration and unification of the management process for Major Systems Acquisitions, and to monitor implementation of the policies and practices set forth in Circular A-109.

b. Procurements Estimated in Excess of \$1,000,000 - The Senior Procurement Executive shall be included as an ex officio member of committees considering budget matters when procurements estimated in excess of \$1,000,000 are involved. Those decisions involving procurement will not be approved unless sufficient time is available to prepare solicitations, obtain and evaluate bids or proposals, audit (if necessary), negotiate, and make the contract award in a completely proper and orderly manner.

c. Major Systems Procurements - A written management/program objective Plan shall be developed. A Project Manager shall be selected by the IBB Director or his/her designee. The Project Manager shall prepare a Project Plan which shall include:

(1) An Executive Summary.

(2) An analysis of the need, including current deficiencies in meeting Broadcasting's mission, and the objective of the project.

(3) A discussion of the alternatives considered and cost effectiveness.

(4) Non-procurement factors involved, such as impact on other Broadcasting elements (i.e., space requirements, equipment usage, supply purchases, etc.).

(5) OMB Circular A-76 Policies for Acquiring Commercial or Industrial Products and Services for Government Use, dated June 13, 1977, if applicable.

(6) Life cycle cost estimates and basis for the estimates.

(7) Total project schedule, including built-in review points (milestones).

#### 138.4 Approvals

a. Procurements Estimated in Excess of \$5,000,000 - Requisitions for procurements estimated in excess of \$5,000,000 shall be personally approved in writing by the IBB Director or his/her designee, who shall receive such approval delegation in writing. An essential element in each approval package by the IBB Director or his/her designee shall be a procurement schedule which shall be jointly developed by the requesting office and the Contracting Officer.

b. Major Systems Procurements - The Project Manager shall provide a briefing of the Project Plan for the IBB Director of Broadcasting and appropriate staff before funds are sought. Written approval of the plan shall be obtained from the IBB Director before funds are committed for any Major Systems Acquisition.

138.5 Revisions to Plans - Revisions to Plans for procurements required due to budget changes, emergencies, or changes in program direction shall be subject to the same approval clearance requirements as the initial project approval.

138.6 Resolution of Disagreements - If there is disagreement between procurement, budget, and/or project offices as to method of procurement, the project schedule, or procurement schedule, or sources: - the matter shall be referred to the Director of International Broadcasting or his/her designee for resolution.

#### 139 PROTESTS AGAINST AWARD (FAR 33)

139.1 General - It is the policy of Broadcasting to consider all protests or objections to the award of a contract whether received before or after award. Protests or objections will be processed on a priority basis to avoid undue delay in the procurement and to insure fair treatment of the protester. Upon receipt of any protest or objection to an award, the Contracting Officer shall notify the Procurement Executive. Procedures are as follows:

a. When a protest is received and the Contracting Officer deems it desirable, he/she may request GAO, through GC, to render a decision on the protest before award is made. If the Contracting Officer knows that a protest has been filed directly with GAO, a determination to make an award in accordance with FAR Subpart 33.103 must first be approved by the Senior Procurement Executive. If award is to be made before a GAO decision is received, GC clearance shall be obtained and a Notice of Intent to make the award is furnished to the GAO. In such circumstances, formal or informal advice on the current status of the case shall be obtained from the GAO prior to making the award.

b. Resolution of a protest may make other bidders/offerors eligible for award. In appropriate cases, notice of a protest and the basis therefore should be given bidders/offerors and other persons involved or affected by the protest. Such persons will be advised that they may submit their views and relevant information within a period of not more than one week. If the protest has been lodged with GAO, they shall be advised that a copy of their submission should also be furnished directly to the GAO.

c. Reports required to be furnished to the GAO or protesters will be prepared for the signature of the Senior Procurement Executive upon clearance by GC.

139.2 Protests Before Award - The Contracting Officer shall attempt to resolve oral protests orally. If this fails, the Contracting Officer shall require that the protest be confirmed in writing within a specified period of time. In such cases, he/she must notify the protester that the award will be withheld until then. If the written protest is not received on time, the oral protest may be disregarded and the award made in the usual manner unless, upon investigation, the Contracting Officer finds that remedial action is required; in that event such action will be taken.

139.3 Protests After Award - Protests received after award will be given immediate consideration and processed as expeditiously as possible. The Contracting Officer shall provide notice of the protest to the Senior Procurement Executive, a copy of the written protest will be given to GC, and GC will be requested to review it and make recommendations.

(1) Upon receipt of a written protest, an attempt will be made to resolve the protest on an informal basis. If unsuccessful, the contractor will be advised of the protest and the reasons therefore. Steps will then be taken to ascertain:

(a) The stage of performance under the contract;

(b) Whether the delay in receiving supplies or services would be prejudicial to Broadcasting's interests; and

(c) The possibility of ordering a delay in performance pending investigation of the protest.

(2) If it appears likely an award may be invalidated and delay in receiving supplies or services is not prejudicial to the Government's interests, consideration should be given to a mutual agreement to suspend performance on a no-cost basis. Any such suspension will be referred to GC before formal action is taken.

EXHIBIT 130A

MEMORANDUM FOR:

THROUGH: [Director of Requesting Office]  
(Sequentially) [General Counsel]  
[Budget Officer]  
[Office Director of Requesting Office]

FROM: Office of Contracts - [Senior Procurement Executive]

SUBJECT: Proposed Competitive Award1 - Contract 2200-Q0241990

The Office of Contracts proposes to award contract [insert number]  
(Summary attached) to the All Purpose Corp. for Broadcasting's annual

contract for everything we need at Broadcasting locations in the Washington area. The estimated annual expenditure is over \$5,000,000. We request that, based upon your review of the accompanying contract file and the representations in the attached Summary, that you sign and date where indicated below. The file must be returned to the Office of Contracts (CON) by [insert date] in order to make award within the price acceptance period.

#### VERIFICATIONS

I verify that this acquisition effort is needed to satisfy a valid requirement, and that it is technically sufficient to protect the Government's interest.

[Director of Requesting Office] Date

I verify that funds are available for obligation under this contract and that the appropriate fund code is cited.

Financial Management Office Date

#### LEGAL OPINION

Based upon the representations contained in the summary and a review of the accompanying contract documentation, it is my opinion that this acquisition generally conforms with applicable laws and regulations and is legally sufficient to protect the Government's interest.

General Counsel Date

#### CLEARANCES

Office Director Date

NOTE1: Indicate whether competitive or non-competitive. If non-competitive insert Competition Advocate, before BBG General Counsel as a verification clearance level. The Competition Advocate is the Director Of Management.

  - 149.5 Removing Names from List
  - 149.6 Reinstatement on List
  - 149.7 Releasing Bidders Mailing Lists

## Section 140

### PROCUREMENT AUTHORITIES, RESPONSIBILITIES, AND PROCEDURES

#### 141.1 Contracting Authority and Responsibilities (FAR 1.602-1)

a. Requirements To Be Met Before Entering Into Contracts - In addition to the requirements of FAR Subpart 1.602-1, Contracting Officers shall ensure that all internal policies and procedures, are complied with prior to entering into any contract.

b. Executing Procurement Documents - Contracts, modifications, amendments, or supplements thereto may be executed only by officials delegated such authority by the Senior Procurement Executive. In addition to the official's signature, all procurement documents shall contain the actual date of signing. The office issuing such documents shall maintain a record of both the signature date and the date when the document was released to the contractor.

#### 141.2 Justification for Other Than Full and Open Competition (FAR Subpart 6.303) [Reserved, See IX BAM 630]

#### 141.3 Funding

a. Solicitations - Prior to the solicitation of offers, and prior to the award of any contract, the Contracting Officer shall ensure that sufficient funds are available for the proposed procurement . Such assurance shall be in the form of an approved requisition certified by a duly appointed Administrative or Budget Officer.

b. Indefinite Quantity Contracts - When an indefinite quantity contract requires Broadcasting to order a minimum quantity during the period of the contract, funds will be obligated in an amount equal to the minimum

requirement. (SF-26, Award/Contract, will be used for this purpose.) When orders are placed against the contract:

(1) They may cite the funding of the basic contract if available and placed by the Office of Contracts.

(2) They shall provide additional funds to cover the work thereunder if placed by other than the Office of Contracts.

c. Cost-Reimbursement Contracts - If the amount of a contract is predicated upon allowable costs incurred in the performance of the contract, an obligation in the amount of the estimated cost, including fees, shall be established at the time of award.

d. Contracts Conditioned Upon Availability of Funds - No contract shall be executed unless it is authorized by law or is under an appropriation adequate for its fulfillment (41 U.S.C. 11). The general rule relative to obligating funds by contract is that the contract must be made within the fiscal year or other period for which appropriations are funded. In order to accomplish procurements promptly at the beginning of a new fiscal year, it may be necessary to initiate a procurement chargeable to the new fiscal year funds prior to the availability of such funds. In such cases, the contract will provide for the contingency of funds being appropriated from which payment for contract purposes may be made (FAR Clause 52.232-19).

141.4 Ratifying Unauthorized Commitments - The Senior Procurement Executive may at his/her discretion ratify an unauthorized commitment if all the elements listed in FAR Subpart 1.602-3(b) are met. However, this does not guarantee that the Senior Procurement Executive will ratify an unauthorized commitment. The employee responsible for making the unauthorized commitment may be held personally liable for the amount of the unauthorized commitment and/or maybe be subject to administrative action.

#### 141.5 Reporting Identical Bids (FAR Subpart 3.3)

If Broadcasting has some reason to believe that identical bids resulted from collusion, a report shall be submitted to the Office of the Attorney General.

a. Preparing and Submitting Reports (FAR Subpart 3.303(e)) - The Contracting Officer shall prepare a report with supporting documentation for review by the Senior Procurement Executive within 20 calendar days following the discovery of identical bids. The report with supporting documentation will then be forwarded to the BBG Office of the General Counsel (GC) for review and submission to the Office of the Attorney General.

b. Distributing Reports - Two copies of the report, a copy of the Invitation for Bids, and a certified copy of the Abstract of Bids are for the Office of the Attorney General, U.S. Department of Justice, Washington, D.C. 20530, Attention: Assistant Attorney General, Antitrust

Division; one copy is for GC; and the Office of Contracts retains one copy.

141.6 Transportation - Transportation factors are important considerations in awarding and administering contracts. Requiring activities should consider these factors before submitting purchase requests. Contracting officers and contract administrators may secure traffic management advice and assistance, as well as information about other factors, from the Office of Transportation of the General Service Administration as identified in 41 CFR 101-40.101-1.

a. Place of Delivery - Unless there are valid reasons to the contrary, when procuring supplies from domestic sources, the Contracting Officer shall specify delivery within the United States regardless of ultimate destination.

(1) Supplies for Domestic Use - All contracts for supplies for domestic use shall specify delivery F.O.B. destination, within consignee's premises, as defined in FAR Subpart 47.303-7, unless a specific exemption has been granted, on a case- by-case basis by the Office of Contracts.

(2) Supplies for Overseas Use - Contracts for supplies for overseas use shall specify delivery to one of the following domestic designations under the conditions stated:

(a) United States Dispatch Agent - Supplies (i.e. printing) procured export packed for routine shipment to overseas locations shall be shipped through the United States Dispatch Agent (USDA) located nearest to a port having regular service to the overseas destination.

(i) Terms of Delivery - Procurements for shipment through a USDA will specify delivery, F.A.S. Vessel, Port of Shipment, as defined in FAR Subpart 47.303-9.

(ii) Shipping Instructions - The procurement document shall provide the contractor with the procedure for obtaining shipping and marking instructions from the USDA.

(b) Warehouse, Brooklyn, New York - Supplies for delivery to the Warehouse for assembling and export packing of shipments or for storage and subsequent shipment overseas shall be consigned to:

BBG - Broadcasting  
Federal Office Building  
29th Street Near Second Avenue  
Loading Door No. 15  
Brooklyn, New York 11232

(i) Terms of Delivery Procurements for delivery to the Warehouse shall always specify delivery F.O.B. Destination; unless exempted in writing by the Office of Contracts.

(ii) Address Codes - For procurements consigned to the Warehouse, shall include in the address, immediately after the word "Broadcasting," the letter codes "A" and/or "D," when applicable, to denote:

"A" Items to be AIR SHIPPED to post.

"D" Discount involved, receiving report must not be delayed.

b. Terms of Delivery - Generally, solicitations for supplies to be purchased for delivery within the United States shall specify one of following terms dependent upon the place of delivery (see a. above):

F.O.B. Destination, Within Consignee's Premises

F.A.S. Vessel, Port of Shipment

These terms provide that supplies will be delivered to the specified address or Port of Shipment and all transportation charges paid by the contractor.

(1) When the above terms are used, the solicitation will specify that offers of other terms will be rejected as non-responsive.

(2) If the Contracting Officer determines in writing that it would be more advantageous to the Government to acquire supplies, F.O.B. Point of Origin, the contractor shall be requested to prepay the transportation charges and add them to the contractor's invoice as a separate item. Invoices containing prepaid transportation charges should be accompanied by a paid transportation receipt, if available. (See FAR Subpart 47.104-2.) Transportation charges in excess of \$100 must be accompanied by a receipt. (See FAR Subpart 42.1403.)

c. Mode of Transportation - Solicitations should not normally specify a particular method or type of transportation or a particular carrier for delivery of procurement items. If special types of equipment or limited facilities for delivery and receipt of materials at destination permit the use of only limited equipment, such delivery requirements shall be included in the solicitation and made part of the contract.

141.7 Procurement Records and Files - Purchasing activities will establish and maintain official records of all their procurement actions. Registers and files will be organized and maintained in accordance with this paragraph. The head of each activity will ensure that all files are complete, current, and reviewed from time to time to ensure that required action is taken and that final disposition is made in accordance with MOA III.

a. Contract Case Files and Reports - The Contracting Officer maintains the Office's automated procurement tracking system data base and solicitation files. All contract case files are stored in this data base. Upon receipt of a requisition, the Office of Contracts shall obtain a case file number from the automated data base in numerical sequence, if one has not been previously assigned. Each transaction in excess of

\$25,000 is separately reported to the Federal Procurement Data Center (FPDC) on a SF-279, "Individual Contract Action Report".

b. Purchasing Activity Registers - Each Purchasing Activity maintains a Purchase Delivery/Order Register, or equivalent type of register, for recording all procurement documents which it issues. The register will be used to control all purchasing documents issued. They also are used to record information and statistics for compiling and preparing the report summaries appearing on the reverse of register forms.

c. File Folders - Use letter-sized folders, square cut, with prong fasteners, for contractual documents except construction contracts, and for those use pressboard binders. Use folders, square cut, for all other procurement files. Label folders to identify their contents by number and, as appropriate, contractor name or fiscal year series.

(5) Optional - Orders issued in a fiscal year series (Note: When a split award is made, label Invitation for Bid (IFB) folder to reflect the largest contract awarded.)

Strict compliance with these instructions will facilitate identification and orderly retirement of files.

d. Arrangement of File Material - File procurement documents and related papers in the order prescribed below. Take care to include all applicable material and to ensure that it is properly fastened to the appropriate side of the folder. Discard non-record papers, envelopes, and extra copies, and remove them from the file when there is no longer a need for them.

(1) Contracts, (other than construction) Grants, and Cooperative Agreements (Assistance Awards) -

(a) Right Side of Folder (tab side) - File from the bottom up in the following order:

(1) Original requisition and attachments or facsimiles that show the location of originals.

(2) Signed original of the Justification for Other than Full and Open Competition (JOFOC), when required.

(3) Findings and Determinations, when required.

(4) Contracting Office original copy of signed document.

(5) Number 2, signed copy, of Award/Contract, SF-26, when required.

(6) Report of Contract Award that shows -

(7) Contractor's name and address.

(8) Contract distribution and date.

- (9) Appropriation and accounting data.
- (10) Estimated and minimum cost of open-end contracts.
- (11) Statement supporting award to other than the low bidder.
- (12) Requisition or other document requiring modification action.
- (13) Amendment of Solicitation/Modification of Contract, SF-30, signed copy.
- (14) Receiving Report, reverse of SF-26, or Receiving and Inspection Report, OF-127.

(b) Left Side of Folder - File from the bottom up all pertinent material in chronological order of receipt, including:

- (1) Correspondence, copies of proposals.
- (2) Records of negotiations and conferences, cost estimates.
- (3) Approved final versions of contract and modifications with required clearances.
- (4) Copy of synopsis to Commerce Business Daily for announcement of proposed procurements.
- (5) Copy of Bidders Mailing List completed to show bidders and nonbidders.
- (6) Abstract of bids.
- (7) Copy of synopsis to Commerce Business Daily for announcement of award.
- (8) Letter that transmits Equal Employment Opportunity and Walsh-Healey Public Contracts Act posters to contractors.
- (9) Record of contract administration.
- (10) Performance evaluation report.

(2) Contracts, Construction - The following uniform contract filing system was established for use with the six (6) section file folders. The contract file should usually contain the records listed below, if applicable. Documents shall be filed in chronological order.

- (a) Section No. 1 - Contract Modifications (Label side of folder)

Acquisition Planning Information  
Requisition/Purchase Request for Contract  
Justification for Other Than Full and Open Competition (JOFOC)  
Independent Government Cost Estimate  
Preaward Clearances

Determinations and Findings  
Original of the Signed Contract/ Contract Modifications, including documents supporting modifications (consistent with this section documentation)

Section No. 2 - Preaward Documentation

Set-Aside Decision  
GC Clearance Draft  
CBD Synopsis  
Solicitation Mailing List  
Abstract of Bids/Proposals  
Contractor's Cost Proposal  
Record of Negotiations (if appropriate)  
Preaward Survey Reports  
EEO Clearances  
Small Business Subcontracting Plans  
Transmittal Letter(s) for Contract  
SF-99, "FPDS - Individual Contract Action Report (Over \$10,000)"  
Contractor's Correspondence w/Broadcasting Prior to Award  
"Report of the Award of Contract"  
Documentation/Correspondence Related to Contract Modifications (consistent with this section documentation)

(c) Section No. 3 - Contract Administration

Minutes of Post Award Conferences  
Minutes of Periodic Progress Meetings  
Site Visit Reports  
Consent to Subcontracting  
Approval of Equipment Purchase  
AR/CO Letter  
Notice to Proceed and Stop Orders  
Follow-ups on Delinquencies  
Show Cause/Cure Notices  
Security Visit Requests  
Request/Approval for Release Classified Documents  
GFP Reports/Disposition Records  
General post-award correspondence with contractors  
Telegrams to/from overseas posts

(d) Section No. 4 - Payments

Progress Payments (Invoices)  
Receiving Reports  
Insurance policies or certificates  
Bonds  
Record of Completion, Release of Claims or Receipts.  
Final Audit Report (Cost type contracts)

(e) Section No. 5 - Progress Reports

Progress Reports, Technical and Financial  
Payroll Records

(f) Section No. 6 - Miscellaneous

Protests after Award

FOIA Requests

Memorandum for File (Other than record of negotiations)

Notice to Unsuccessful Offerors and Record of Debriefing

Information Related to Location of Unsuccessful Offers/Proposals

(3) Solicitation for Offers (IFB/RFP Invitation for Bid and Request for Proposal) - When multiple contracts or orders result from a single solicitation, designate one file the Master File for those papers and documents unnecessary in the administration of the contracts awarded. The name of the Master File and its location and copies of documents from the Master File necessary for the administration of the contract must be in each contract file.

a. The file assigned the solicitation number should contain:

(1) Copy of solicitation.

(2) Copy of the synopsis to the Commerce Business Daily.

(3) Requests for solicitation bid sets.

(4) Abstract of bids.

(5) Bidders Mailing List coded to identify bidders and nonbidders.

(6) Rejected bids and no bids, originals only (all other copies and envelopes should be destroyed promptly after awards are made).

(7) Correspondence relating to the solicitation including return of late bids.

b. When no award is made, title the folder "NO AWARD," in addition to the solicitation number. The file should contain:

(1) Original requisition or certified "true copy".

(2) Bidders Mailing List properly coded to show bidders and nonbidders.

(3) Copy of solicitation.

(4) Copy of synopsis to the Commerce Business Daily.

(5) Abstract of bids.

(6) All correspondence relating to the solicitation.

(7) A memorandum to the file explaining the reason for the cancellation of the action or the rejection of all bids.

(4) Purchase and Delivery Orders - File Simplified Acquisitions order files in numerical sequence by fiscal year. Each order file should contain:

- a. Requisition or other document requesting procurement action.
- b. Purchase office copy of order, No. 2, including attachments (signed).
- c. Receiving Report copy of order, No. 6, (signed).
- d. Request for Quotations, SF-18, or Record of Telephone Solicitations, as appropriate.
- e. All correspondence, clearances, and approvals.

#### 142 POST-AWARD COMPLIANCE REVIEWS

142.1 Primary Responsibilities for Post-Award Compliance Reviews - The Senior Procurement Executive (SPE) is responsible for conducting post-award compliance reviews to ensure that all BBG acquisitions are awarded and administered in accordance with applicable law and regulation. The SPE may delegate some or all of this responsibility to the Chief of the Office of Contracts Policy Branch or other staff within the Office of Contracts. The SPE, or designee, will determine which contracts are to be reviewed. Contracting Officers responsible for selected contracts will submit contract files to the Office of Contracts for review as soon as practicable. However, submitting hard-copy documents is not necessary if the SPE or designee, can access all relevant documentation in the Contracting Officer's electronic contract file.

#### 142.2 Scope of Post-Award Compliance Reviews

- a. Post-award compliance reviews are not limited to any specific type of acquisition, type of material or service procured, or any dollar amount.
- b. Post-award compliance reviews will indicate whether Contracting Officers are:
  - (1) Purchasing only items authorized to be purchased;
  - (2) Determining and documenting price reasonableness in the contract file;
  - (3) Maintaining the standards of conduct prescribed in IX BAM 137;
  - (4) Utilizing required sources of supplies and services in compliance with FAR Part 8;
  - (6) Splitting or reducing the Agency's requirements to avoid procedures required for acquisitions above dollar thresholds set by the FAR or BBG policy, or dollar limitations in the Contracting Officer's warrant;
  - (7) Improperly delegating their responsibility to others;

(8) Exceeding the scope or limitations of their authority, including but not limited to any dollar limitations in the Contracting Officer's warrant or Re-delegation of Authority to use a Government purchase card;

(9) Reporting procurement actions to the Federal Procurement Data System - Next Generation;

(10) Complying with requirements for establishing, maintaining, and disposing of contract files pursuant to FAR Subpart 4.8;

(11) Including documentation in the contract file, which complies with the FAR and specifies a legal basis whenever procuring Agency requirements without providing for full and open competition. This documentation may include, but is not limited to, a reviewed and approved Justification and Approval (J&A) that complies with FAR Part 6 for all procurements described in FAR 6.001, a limited source justification when limiting competition for procurements under FAR Part 8, or other documentation compliant with FAR Part 13 for non-competitive procurements made using simplified acquisition procedures; and

(12) Complying with all other applicable policies and procedures.

142.3 Results of Post-award Compliance Reviews - Any findings or observations will be provided to the appropriate Contracting Officer, the Contracting Officer's supervisor, and the Senior Procurement Executive to address and correct identified weaknesses. Findings and observations may also be provided to the Acquisition Career Manager to recommend additional training.

143 CONTRACTING OFFICERS [Reserved, See IX BAM 165]

144 SIMPLIFIED ACQUISITIONS PURCHASING ACTIVITIES [Reserved, See IX BAM 165]

145 PREPURCHASE APPROVALS AND CLEARANCES

145.1 Approvals - Obtain approvals for procurement actions prior to solicitation of bids or offers.

a. Information Required - Include the following information in support of each request.

(1) Description of supplies or services required and justification therefore.

(2) The estimated cost of the proposed action and a statement that funds are available.

(3) An outline of the procurement plan that includes delivery requirements, date of issuing solicitation, date of award of contract, method of procurement and type of contract proposed, sources to be solicited, and any special requirements to be incorporated in the contract.

(4) Any proposed deviation from standard or approved forms or clauses prescribed in the FAR with justification to support such deviation, and

(5) A draft of the determinations and findings required by the pertinent section of the law involved.

b. Non-Office of Contracts Approvals - If there is a question regarding the necessity of contract approvals outside of the Office of Contracts, the Senior Procurement Executive will resolve the matter.

145.2 Review and Clearances - A review of proposed contracts or special purchases is required whenever it is necessary to assure that administrative, technical, fiscal, legal, and regulatory requirements will be met. Actions subject to review by an authority higher than the contracting or purchasing officer will not be entered into nor will an award be made prior to obtaining the required approval or clearance.

a. Review - Obtain the required approval or clearance prior to entering into actions or making awards that are subject to review by an authority higher than the contracting or purchasing officer.

b. Assistance - The Office of Contracts, GC, the technical divisions of Broadcasting, the Office of Inspector General (OIG) are available for assistance and guidance at all steps in the procurement process to assure compliance with the requirements stated above or as may be necessary to facilitate a specific procurement.

c. Legal Clearances - All contractual documents (except purchase orders) are subject to review and clearance by GC and, when appropriate, shall be submitted to GC in draft form. Obtain clearance by the assigned counsel prior to issuing Invitations for Bids, Requests for Proposals, executing a negotiated contract, or modifying a solicitation or contract that will cost over \$1,000,000. Administrative modifications, as a general rule, do not require a legal review or clearance. A Contracting Officer should seek the advice of his/her supervisor if there is a question. Contracting Officers shall ensure that all pertinent papers, including prepurchase approvals, as appropriate, are attached to the draft procurement packages that are determined as necessary to be forwarded to GC for review and clearance. See Exhibit 140 B for types of documents that may require legal review and clearance.

Obtain legal advice and assistance of the assigned legal counsel whenever:

(1) A non-standard clause is to be used in a solicitation or contract.

(2) A contract is to be prepared on other than a Standard or approved form.

(3) A reply is to be made to a contractor regarding a dispute, claim, or interpretation of a contract or contract clause.

(4) A lawyer representing a prospective contractor is to be present at a precontract briefing, discussion, or negotiations, in which case a member of GC should attend.

(5) A question of legality or compliance with regulations arises in connection with a contemplated procurement, the type of a contract to be used, and the preparation of contractual documents.

(6) Patents or rights are involved in a procurement.

(7) Whenever the General Counsel determines legal assistance is necessary.

d. Audit - The services of an auditor shall be requested when the circumstances of the procurement warrant it. Some of the conditions under which use of advisory audit services should be considered are:

(1) Whenever defective cost or pricing data are suspected in connection with cost-reimbursable procurements.

(2) When there is insufficient knowledge of the contractor's accounting policies or cost systems.

(3) When contract performance will extend over a long period of time.

(4) Whenever advance or progress payments are involved in a cost-reimbursable contract.

146 ADVANCE NOTICES OF AWARD - All advance notices of award must be in writing over the signature of the Contracting Officer except as may otherwise be authorized by this paragraph. Whenever an advance notice of award is issued, it should be followed as soon as possible by the formal contract document. Advance notices of award may vary, but will contain all the essential elements necessary to identify the award - identification of the solicitation, description of item or service, price, delivery requirements, and procurement document number assigned. The notice should clearly reflect the terms of the ensuring contract.

146.1 When Issued - Advance notice of award may be issued by contracting officers under any of the following circumstances:

a. A bid or offer will expire before the formal document can be released.

b. Delivery or performance is so urgent that requirements cannot wait the processing of a formal document.

c. The work to be performed is of an urgent nature and it is essential to authorize the contract in order to proceed with all preliminaries in connection with starting the work involved.

d. Other compelling circumstances exist; however, only with approval of the Senior Procurement Executive.

146.2 Telegraphic Notices - When justified, the Procurement Executive may authorize the issuance of telegraphic notices. Such notices will include a statement that written confirmation will follow. Confirmation will be issued without delay.

146.3 Oral Notices - Do not use except when the exigencies of the situation will not permit delay or security regulations preclude telegraphic notice. These notices will include a statement that written confirmation will follow. However, it is not routine policy to use "confirming orders."

147 PROCUREMENT REQUESTS - Procurement action is not normally taken until an approved procurement request, containing a written certification that funds are available, is received by the Procurement Activity. However, a Procurement Activity may take necessary action up to the point of contract award prior to the receipt of the procurement request certifying to the availability of funds when -

- a. Such action is necessary to meet critical program schedules.
- b. It is confirmed that the program has been authorized and funds will be available prior to the time an award is to be made.
- c. The head of the Simplified Acquisitions Unit authorizes the issuances of an invitation for bids, a request for proposals, or a request for quotations.

147.1 Requisitions - Submit procurement requests on a standard requisition form (Request for Supplies/Services). The document must be signed by a properly authorized official attesting to the propriety of the procurement and by a budget or administrative official authorized to certify that funds are available to cover the entire cost of procurement. Signature Cards of both officials, attesting to their authority, must be on file in the procurement office. (See Paragraph 147.2 below).

a. Item Descriptions - Each requisition must contain sufficient information or detailed description to assure full and open competition in the marketplace. The contract specialist or purchasing agent assigned the request will review its contents to ensure that it complies with FAR Part 10 instructions and MOA IX-134.1. Uncertain requirements or inconsistencies in a procurement request will be brought to the attention of the initiating official and clarification requested prior to taking procurement action.

b. Cost Estimates - The requesting office shall furnish an estimated cost of the procurement with each requisition. Estimates shall include the cost of packaging and packing, and transportation charges. Former procurement records, GSA and dealer catalogs or price lists, and Federal Supply Schedules will be helpful in estimating costs. Prospective supply sources shall not be solicited for prices in order to obtain cost estimates.

c. Independent Government Cost Estimates - All open-market requisitions that are funded for over \$250,000 shall include an attached independent

government cost estimate, that will be the basis for the amount of the funded requisition.

d. Delivery Time - The time required to process requisitions, prepare and issue solicitations, conduct negotiations, evaluate bids, and investigate and assure the responsibility of a prospective contractor is an essential factor in estimating procurement time-lag. Normally procurements will require a minimum of 60-90 calendar days between the receipt of a requisition and the issuance of an award. This includes approximately four weeks for solicitation preparation and legal clearance, 30 days for solicitation, and three weeks for evaluation and award. Requisitioning offices must request realistic delivery schedules and justify those of urgent or unrealistic nature. Requisitioning officers should ensure they receive a copy of the proposed estimated procurement milestone schedule from the assigned contracting specialists.

e. Funds Availability - The procurement request shall contain a certification by an authorized official that funds are available in the amount of the estimated cost of the procurement (see b above).

(1) When the actual cost of the procurement exceeds the funds made available by \$2,500 or less, the procurement may be awarded prior to obtaining certification for the additional funds, except in the last month of a fiscal year when all excess costs will require additional funds certification.

(2) When the actual cost of the procurement exceeds the funds made available by more than \$2,500 (at any time during the fiscal year), a certification of availability for the additional amount must be obtained prior to release of the procurement document.

f. Submission - The office submitting a purchase request can influence the degree of competition obtainable which will have a material effect upon prices. A requisition should be submitted to the contracting or purchasing activity office in sufficient time to allow -

(1) A reasonable period for preparing solicitations.

(2) Preparation of proposals by offerors.

(3) Evaluation of proposals by technical and cost/price analysts.

(4) Contract negotiation, preparation, and execution.

(5) Adequate contractor or vendor performance time.

Delays in submitting requisitions cause unrealistic delivery time and uneconomical prices. Avoid submitting requisitions on an urgent basis since they generally increase costs and restrict competition.

g. Procurement Milestone Schedule - The assigned contracting specialist will ensure that the appropriate milestone schedule form is completed and returned to the requisitioner within 5 business days after receipt of a complete procurement request package.

h. Procurement Lead Times and Cut-Off Dates - (See MOA IX 147.3(b).)

147.2 Signature Cards - Prepare a Signature Card, prescribed for use in verifying the authenticity of a person's signature and his or her authority to request procurement action or certify to the availability of funds, and forward a copy to each appropriate contracting or purchasing activity. Each Contracting and Purchasing Activity will establish and maintain a current and complete file of signature cards for -

a. Officials authorized to request procurement action.

b. Officials authorized to certify funds availability.

c. Officials authorized by a redelegation of authority to sign procurement documents.

147.3 Yearend Procurement - It is the policy of Broadcasting not to engage in excessive yearend spending except for unforeseeable exigencies, or other justifiable reasons. Requisitions submitted at the close of the fiscal year shall reflect actual requirements and must not be used as a means of consuming unused appropriation balances.

a. Responsibilities - Every officer controlling funds will take necessary action to prevent accelerated or unreasonable spending at the close of the fiscal year. Requisitioning offices are to keep orders for supplies and services to the minimum required to carry out only essential and approved programs. They are to order only those supplies or services required to meet a bona fide need arising in the fiscal year chargeable or to replace stock consumed in that fiscal year.

b. Procurement Lead Times and Cut-Off Dates - It is Federal law and procurement policy that all procurements be made competitively. There are exceptions to the rule, but the exceptions are not automatic, and they must be fully justified and legally sufficient. Opportunities must be set-aside for small and disadvantaged businesses. There are different and additional requirements for certain procurements over \$100,000 and \$500,000 that impact on the time required to make an award, and these requirements may be cumulative. It is as essential that sufficient time is allocated for each step at the end of a Fiscal Year, as it is at its beginning. Policy Letter 81-1 from the Office of Federal Procurement Policy requires agencies to establish lead times and cut-off dates to assure that these objectives and requirements are met by allowing sufficient time to prepare solicitations, obtain and evaluate bids or proposals, audit, negotiate and make contract awards in an orderly manner, and obligate funds prior to the close of a fiscal year. Therefore:

(1) Requisitions for contract actions expected to be in excess of \$100,000 (\$1,000,000 for construction) which are to be awarded by the end of the fiscal year must be received by the Office of Contracts, by June 1 of each year. This cut-off will apply even to those procurements that cannot be fully funded by that date. If a reasonable assumption can be made that funds will become available by the end of the fiscal year, the

requisition must initiate procurement action by June 1 of each year to allow sufficient time for internal administration processing and full and open competition. A written Statement of Work (SOW) and/or specifications adequate to solicit competition must accompany the requisition.

(2) Urgent or emergency requirements will be accepted at any time, provided that a written explanation of urgency is provided and signed by the Office Director. Acceptance of the justification prior to August 1 will be made by the Senior Procurement Executive. (Note: Absence of advanced planning/programming or funding approval will not be an acceptable explanation for urgency.)

(3) Requests for noncompetitive (sole source) procurements of any amount will be accepted only with written/signed justification. The same time deadlines will apply to noncompetitive as to competitive procurements. Noncompetitive procurements in the last quarter of the fiscal year must be approved as a program necessity by the Director of the requesting office. In addition, noncompetitive procurements during the last quarter which are between \$100,000 and \$1,000,000 must be approved by the Senior Procurement Executive.

c. Valid Fiscal Year Obligations - At the end of a fiscal year, to be recorded as a valid obligation, a fully signed purchase order, contract, grant, or cooperative agreement must be mailed prior to midnight September 30. This means deposited in the United States Postal Service system, not interoffice mail pickup. In exceptional circumstances, telegrams may be used if a valid offer and acceptance are created. See 35 Comp. Gen. 319 (12/2/55).

147.4 Numbering Procurement and Assistance Documents - The numbering of procurement documents, as prescribed in this paragraph, is for identifying and controlling the documents. The numbers assigned to documents that involve funds will also be used as obligation numbers by the Financial Management Office. Number all documents regardless of the amount of the procurement.

a. Contracts - Numbers for all contracts for the procurement of supplies or services will be provided sequentially and automatically as part of the case file number assigned to the requisition by the Office of Contracts automated procurement tracking system.

(1) Prefix each contract number with the symbol BB. The completed number will consist of the symbol, the four (4) digit allotment number from the requisition, a capital letter indicating the type of instrument (see below), the last digit of the fiscal year, the contracting activity procurement code, and the last four 4-digits of the case file number .

(i) C - CONTRACTS - including Letter Contracts and Lease Contracts, but excluding Indefinite Quantity or Requirements Type Contracts.

(ii) Q - INDEFINITE QUANTITY REQUIREMENTS TYPE CONTRACTS/BASIC ORDERING AGREEMENTS.

(iii) G - GRANTS/ COOPERATIVE AGREEMENTS

(iv) P - PURCHASE/ DELIVERY ORDERS

(v) S - SOLICITATIONS

indicates either "Invitation for Bid," "Request for Proposals," or "Request for Quotations." This letter code is for solicitations only and therefore appears only on documents that are not forwarded to the Financial Management Office.

(2) Supplemental agreements, modifications and change orders will bear the same number as the basic document plus further identification to indicate the change number.

b. Grants and Cooperative Agreements - Number grants and cooperative agreements as follows:

(1) Prefix each grant number with the symbol BB. The two letter office symbol of the requesting office (i.e. VOA, TV, the initials of the contracting officer, letter "G" indicating type of instrument, the last digit of the fiscal year, the contracting activity procurement code, and a four (4) digit sequentially number provided from the automated grant register. .)

c. Solicitations - Number Solicitation, Offer, and Award, SF-33, in the same series and manner as contracts.

d. Orders - Offices delegated authority to enter into procurement transactions (except the Office of Contracts, see para 147.4a) will number all procurement orders in accordance with the following mandatory, uniform numbering system. Procurement orders as used in this paragraph are defined as Purchase and Delivery Orders, OF-347; Multiuse Standard Requisitioning/Issue System Documents, SF-344; Orders for Professional (Talent) Services, and such forms as may be required by other Government agencies from which materials or services are procured.

(1) All orders shall be seven characters in length. The first character from the left shall be the last digit of the applicable fiscal year. The second and third characters shall be the Purchasing Activity's procurement code. The next four characters will be the sequential order number assigned by each issuing office. Offices shall start each fiscal year with number 0001. The number shall not exceed 9999 for any fiscal year. All seven character positions must be filled. A correct number would be 023-0012. An incorrect number would be 023-12. The third and fourth characters should be separated by a dash to be easier to read, even though the computer will ignore the dash.

(2) For offices that might issue more than 9,999 orders during a fiscal year or that need to make other internal uses of the purchase order numbering system, an alphabetic character may be substituted for the number in position four. If this exception is to be used, please contact the Office of Contracts before making this substitution.

e. Procurement (Activity) Codes - Each activity redelegated authority to issue purchase orders, delivery orders, grants, cooperative agreements, or contracts will be assigned a procurement code for such purposes. The Office of Contracts is responsible for assigning procurement codes used in the document numbers to identify the procurement activity. Address request for codes, with a reference to the pertinent Redelegation of Authority, to the Office of Contracts.

(1) Procurement code lists are maintained and distributed by the Office of Contracts. Report promptly all changes in organizations or authorities affecting procurement codes.

147.5 Contracting Officer's Signature - The Contracting Officer signs on behalf of the Government, over his or her typed or stamped name and official title. In the case of negotiated contracts, the contracting officer signs after the contractor, except where otherwise required by the particular contract or by the circumstances of the procurement. In all instances the date of signing must be shown.

a. Reproducible Masters - The Contracting Officer may sign a reproducible master of a unilateral contractual document; however, the copy intended to serve as the original will be stamped in capital letters "DUPLICATE ORIGINAL".

#### 148 SERVICE CONTRACTS

##### 148.1 Service Contracts -

a. Definition - A service contract is one which requires the contractor to furnish to the Government the time and effort of his or her personnel, rather than (or in addition to) an end product. In the following sections the terms "contract" and "contractor" also includes purchases orders and purchase order vendors.

(1) Typical categories of service contracts include procurement of the following:

(a) Maintenance, overhaul, repair, servicing, rehabilitation, modernization, or modification of systems and equipment.

(b) Advisory and assistance services (all types of professional services).

(c) Surveys and data collection, processing and analysis

(d) Operation of Government-owned equipment, facilities, or systems.

(e) Engineering and technical services.

(f) Training and education.

(g) Construction.

(h) Custodial, Janitorial and Guard Services.

(i) Language training.

(j) Talent Vendors.

b. Service Contract Act of 1965 -

(1) The Service Contract Act of 1965 (see FAR Subpart 22.10) embraces two general requirements with respect to service contracts entered into by Federal Agencies:

(a) Regardless of contract amount, no contractor or subcontractor holding a Federal service contract shall pay any of his or her employees less than the minimum wage specified in section 6(a)(1) of the Fair Labor Standards Act (29 U.S.C. 206).

(b) Federal Service contracts in excess of \$2,500 shall contain the provisions required by the Act with respect to such matters as minimum wages, including fringe benefits, to be paid the various classes of service employees engaged in the performance of the contract, safe and sanitary working conditions, and notification to employees of the compensation required under the Act.

(2) In compliance with the above requirements, it is necessary that all contracts include either of the clauses set forth in FAR Subparts 22.1005 or 22.1006 and obtain wage determinations pursuant to FAR Subpart 22.1008 for every contract which has as its principal purpose the furnishing of services through the use of service employees.

(3) The President signed amendments to the Service Contract Act, effective October 13, 1976, to clarify the Congressional intent of the term "service employee" as defined in the Act. These clarifications have in effect made it clear that "white collar" and "blue collar" workers are subject to the Act and that Federal Service contracts utilizing white collar workers (such as clerical, computer, technical, and most engineering contracts) are subject to the Act.

(4) Exemption - It is Broadcasting policy that the requirement to obtain Labor Department wage determinations is not applicable to Talent Vendor services obtained either under contracts or purchase orders under \$25,000.

148.2 Personal and Non-Personal Service Contracts -

a. Service contracts may be classified as either "personal" or "non-personal". These two terms refer to the relationship between an individual or those employees of a contractor who perform the services and the Government agency which procures these services.

b. Contracts for personal services are those contracts where, either under the terms of the contract or in the method of its performance and administration, the Government has the right to (or does in fact) supervise or direct the method by which the work is performed in a manner which creates an employer-employee relationship between the Government

and contractor personnel. See Paragraph 148.7 for further criteria in determining whether such an employer-employee relationship exists.

148.3 Policy on Contracting for Personal Services - Applicable statutes and Government-wide regulations provide that requirements for personal services generally shall be satisfied only by appointing individuals through personnel procedures. These statutes and directives may not be circumvented by means of contracting for personal services unless specifically authorized by statute. Normally, contracts which substantially result in the creation of employer-employee relationships between contractor personnel and the government are proscribed by law and Broadcasting policy (see Comptroller General decision B-186700 Jan. 1977).

#### 148.4 Specific Authority for Personal Service Contracts -

a. Broadcasting has authority to enter into personal services contracts under 22 U.S.C. 1471, as implemented by the annual Appropriation Act, for employment of persons on a temporary basis (the total Appropriation for any one fiscal year can not exceed \$20,000), and also, under 22 U.S.C. 1474, for aliens abroad (and within the United States, when employment in the United States of all such aliens is related to translation and narration of colloquial speech in a foreign language or the preparation and production of foreign language programs, but only when suitably qualified United States citizens are not available). (MOA V-A, Section 800.)

b. Under 5 USC 3109 as implemented by the annual Appropriation Act Broadcasting may procure by contract the temporary (not in excess of one year) or intermittent services of experts and consultants. As a rule, the temporary or intermittent employment of individuals as experts or consultants will be obtained by means of personnel action rather than by contract and by non-personal service contract. (For further guidance on use of expert and consulting services see par. 148.9 and MOA V-A 820 and 830.)

c. Personal service contracts issued pursuant to the special authority in paragraph a. above are subject to FTE ceilings (except for aliens abroad under 22 U.S.C. 1474 which are not subject to FTE ceilings) and other personnel laws, regulations, and limitations governing the types and nature of work to be accomplished. Although Broadcasting has these special authorities, it is policy to limit their use to the absolute minimum. In any case in which the use of a personal service contract is contemplated, the advice of the Senior Procurement Executive must be obtained, and a written finding and determination justifying the procurement shall be prepared for his or her signature and maintained with the contract file.

d. Personal or professional service contracts, when authorized and approved, are to be negotiated pursuant to 41 USC 252(c)(4); FAR Part 15.

#### 148.5 Guidelines for Recognizing Non-Personal Services -

a. The essential element present in all non-personal service contracts is that in the performance and administration of the contract there is established the status of an independent contractor. Under this concept the contractor has latitude for independent judgment, and all compensation which the contractor expects to receive includes profit, overhead, and any fringe benefits, such as annual leave, sick leave, holidays, social security, accident and health insurance, etc.

b. Non-personal service contracts may not provide for supervision by the AR/CO. Non-personal service contracts may provide that the services will be performed as assigned, requested, or scheduled by the AR/CO, and they should be administered accordingly.

c. Basic criteria for non-personal service contracts are:

- (1) The absence of an established employer-employee arrangement.
- (2) No immediate or continuing supervision by the Government.
- (3) The services are, by nature, considered to be non-personal and/or obtained on a job, unit of work, or end-product basis, not on a time basis except where time and materials or labor hours contracts are authorized pursuant to FAR Subpart 16.601.
- (4) Performance is judged by acceptable results, not by supervision.
- (5) The contractor exercises independent judgment.
- (6) Payment is made on the basis of a negotiated price or fee, and contractor is responsible for payment of workers performing the services.
- (7) The contractor is not entitled to regular employment benefits.
- (8) The contractor normally works his or her own hours unless the nature of the work, such as maintenance and operation of Government-owned facilities, requires specific hours.
- (9) Services are normally off Government premises using contractor's equipment and facilities.

d. Examples of Non-Personal Service Contracts -

(1) Contracts for technical assistance work requiring specialized equipment and trained personnel unavailable to the Government, but not involving the exercise of discretion on behalf of the Government, where the contractor performs work adequately described in the contract free of Government supervision such as:

(a) Construction and maintenance, overhaul, installation, repair, rehabilitation, modernization or modification of systems and equipment.

(b) Engineering services.

(c) News photography and wire services.

(d) Sound recording services.

(e) Exhibit fabrication and rehabilitation.

(2) Contracts with an individual for delivery of lectures, programs, reports, scripts without Government supervision, on specific dates, and on specialized subjects. Examples are:

(a) Talent Vendors, translators, announcers, writers, broadcasters.

(b) Advisory and assistance.

(c) Professional services of all types.

The types of contracts listed above must be administered strictly on the basis of obtaining the services involved on a job, unit of work, or end-product basis, at established rates per job, unit, or product where capability and production is the guide.

(3) Contracts for services where the contract provides for specific tasks to be performed in specific places, free of Government direction, supervision, and control over the fixed price for the work to be performed such as:

(a) Maintenance and operation of facilities.

(b) Janitorial and custodial services.

(c) Packing and crating.

(d) Guard services.

(4) Research and development contracts providing for a level of effort as long as the work is performed by the contractor independently of Government supervision and control.

#### 148.6 Administration of Talent Vendor and Professional Services Contracts

a. Many of these contracts, although written as non-personal service contracts, can be administered in such a manner as to be considered illegal personal service contracts. The following aspects of each contract must be scrupulously administered:

(1) Contract personnel must not be utilized in a trainee or probationary capacity to fill upcoming staff positions.

(2) Contracts must not be repeatedly extended for long term periods without careful reevaluation of need and present circumstances.

(3) Contract personnel must not be assigned duties and work not included in the written contract.

(4) Payments made must be for specific services under the contract and be based on acceptable units performed or delivered, on a job, unit of work, or end product basis, at established rates. Payments shall not be provided on a time basis.

(5) Pay schedules must be based on realistic prices prevailing on the open market and generally not based on Civil Service General Schedule wages.

b. Indefinite quantity contracts should be used whenever professional or talent vendor services are to be used on a regular or recurring basis and should be considered for the following types of services: writing film, radio, and TV scripts; announcing or voicing radio or TV scripts or programs; narrating films; conducting and taping interviews for films, radio, and TV; musical performance (voice and instrument); producing and conducting radio and TV programs; professional photographic services; professional translating or editing services. In these categories, an open-end contract should be executed to establish the terms and conditions of delivery or performance, the rights involved, and the rates per unit of delivery or performance. Payment should be made for the number of units delivered or performed at the established rates. Services that are required only occasionally or on a one-time basis should be obtained on a lump-sum definite-delivery contract or purchase order. (See FAR Subpart 16.5 for further guidance on use of open-end, indefinite delivery type contracts.)

c. Additional guidance on use of talent vendors is provided in the VOA Handbook for Talent Vendors.

d. For security regulations pertaining to persons who furnish services under contract or purchase order see MOA Part VIII-430.

#### 148.7 Guidelines for Recognizing Personal Services -

a. The test to be applied in determining whether an employer-employee relationship exists is one which demonstrates that the inherent nature of the services, or the manner in which they are provided, reasonably requires, directly or indirectly, supervision of contract employees by Government personnel. (See FAR Subpart 37.104 for additional guidelines.)

148.8 Contracting Officer Determination and Approval - Whenever there is doubt as to whether an employer-employee relationship will be involved in performance of a prospective contract or doubt exists regarding any of the guidelines in paragraph 148.7, gathering the information and data on which to base the determination shall be a joint effort between contracting and program personnel. The Contracting Officer shall request the advice and approval of the Senior Procurement Executive, the Office of the General Counsel and the Office of Personnel before processing any request to procure the services. Prior to issuance of any solicitation in such cases, the contracting officer shall determine in writing that the services to be procured will be non-personal in nature.

148.9 Contracted Advisory and Assistance Services - Obtaining contracted advisory and assistance services (CAAS) from either individuals or

organizations is subject to the controls and guidelines set forth in OMB Circular A-120, "Guidelines For the Use of Advisory and Assistance Services," dated January 4, 1988. (Copies are available from the Office of Contracts. This Circular supersedes OMB Circular A-120, "Guidelines for the Use of Consulting Services," dated April 4, 1980. The provisions of this Circular apply to advisory and assistance services acquired from non-governmental sources by procurement contract, personnel appointment, and advisory committee membership. However, only advisory and assistance services acquired by procurement contract are addressed in this MOA. FAR, Subpart 37.2 provides additional guidance on the same subject.

CAAS means those services used to support or improve Broadcasting's policy development, management and administrative decision-making, or to improve operational management, or administrative systems. Such services may take the form of information, advice, opinions, alternatives, conclusions, recommendations, and direct assistance. Categories of services which fall within the scope of this Circular are: individual experts and consultants; studies, analyses, and evaluations; management and professional support services; and engineering and technical assistance services. As a general rule, for services which fall within these categories to be considered CAAS, they must provide direct input into the decision-making, policy development, or management systems. In addition, CAAS arrangements cannot be used to fulfill requirements which are the direct responsibility of Broadcasting officials.

a. Preaward and Postaward Responsibilities, Approvals, and Requirements for Contracted Advisory and Assistance Services -

(1) Responsibilities - The Requisitioning Office is responsible for furnishing to the contracting or purchasing office, as appropriate, written supporting documentation to justify the need for CAAS. This written justification must provide a statement of need and will certify that such services do not unnecessarily duplicate any previously performed work or services. This justification shall accompany the purchase request. The Contracting Officer, as appropriate, shall make the determination as to whether a requested solicitation or procurement action, regardless of dollar value, is for CAAS. Whenever there is uncertainty as to whether the purchase request is for CAAS, the contracting or purchasing officer shall refer the request to the Procurement Executive for determination. Such determination shall be final. If the officer determines that a request for services is a request for CAAS, even though the requesting office may disagree, then the officer shall require documentation justifying the need for CAAS as described above. Upon completion of the contract, a written evaluation assessing the utility of the deliverables and/or performance of the contractor shall be provided to the contracting or purchasing officer for inclusion into the contract file.

(2) Approval - Written approval of the need for the use of all types of CAAS arrangements covered by this Circular shall be obtained by the contracting or purchasing officer and, as appropriate, from the Senior Procurement Executive. The Office Director is the senior official responsible for review and approval of all CAAS based on the policy and guidance contained in this Circular. The Office of Contracts is also

responsible for maintaining a list of all advisory and assistance services acquired by procurement contract, personnel appointment, or advisory committee membership.

(3) Requirements - Prior to the issuance of any solicitation or procurement action for CAAS, the contracting or purchasing officer, as appropriate, shall obtain the approval required under paragraph a.(2) above and insure that the applicable provisions of this Circular have been adhered to and that documentation required by the Circular is complete and included in the official contract or purchase order file. For CAAS awards over \$25,000, the contracting officer shall insure that they are properly identified as CAAS contracts on the Individual Contract Action Report, SF 279, for input into the Federal Procurement Data System.

b. Excluded Services - Following is a listing of categories of services which do not fall within the scope of this Circular. This is not an all inclusive listing. It is a sampling of the type of services which Broadcasting contracts for on a continuing basis.

- Architectural and engineering services of construction and construction management services.

- Routine maintenance of equipment.

- Engineering studies related to specific physical or performance characteristics of existing or proposed systems.

For a complete listing of excluded and exempted services refer to the Circular.

#### 149 SOLICITATION MAILING LISTS

149.1 Establishing Lists - Solicitation Mailing Lists are established and maintained by the Office of Contracts for use by all procurement activities. A list will be established for each four digit Standard Industrial Classification (SIC) Code of supply or service.

a. Eligible and Qualified Bidders/Offerers - Lists will include all eligible and qualified bidders/offers who have made application to be placed on a list or whom the contracting activity or requirement office considers eligible and qualified to furnish the items of a particular procurement. The Contracting Officer shall request all unlisted firms, added to a mailing list for a particular procurement, complete a Solicitation Mailing List Application, SF-129. (An SF-129 will be attached to the solicitation package.)

b. Notices to Solicitation Mailing Lists Applicants - After receiving and processing the application for placement on a list, the Office of Contracts shall notify the new prospective bidder in writing that the bidder/offer has been added to the Solicitation Mailing List.

149.2 Availability of Lists - Copies of Lists may be obtained from the Office of Contracts. All Purchasing Activities and requirement offices should use the Lists to the maximum extent possible.

149.3 Coding Solicitation Mailing Lists - Upon award of a contract, the Contracting Officer shall code the solicitation mailing list to reflect bidder/offer response and to indicate action to be taken by the Office of Contracts when recording responses on specific lists. Codes for this purpose are as follows:

CODE

- 0 - No response
- 1 - Responded, submitted bid/offer
- 2 - Responded, no bid/offer submitted

149.4 Responsibility for Lists - While the preparation and maintenance of Lists is the responsibility of the Office of Contracts, contracting and purchasing activities are required to initiate action to have Lists changed to meet their current needs.

149.5 Removing Names From List - In addition to removing names from a Bidders Mailing List for failure to respond to three consecutive solicitations, the Office of Contracts will remove the name of those firms who requested retention on a List but who failed to bid for five consecutive times. Such firms may obtain bidding sets for specific procurements thereafter either by written request or by calling the contracting officer issuing the solicitation.

149.6 Reinstatement on List - Firms described above may be reinstated when it is determined by the Office of Contracts that solicitation forms will be used as intended and not for the purpose of obtaining information on an automatic basis.

149.7 Releasing Solicitation Mailing Lists - When solicitations for bids/offers have been issued, prospective subcontractors, material suppliers, and others having a bona fide interest in such information may be furnished, upon request, with a copy of the bidders mailing list, unless issuance of the list is determined not to be in the Government's interest. However, after the date set for receipt of proposals, lists of offerors participating in negotiated procurements may not be released until after award. Bidders/offerors or their authorized representatives will also be permitted to examine the abstract of bid/offer file maintained in the Office of Contracts or may be furnished the information requested in accordance with MOA IX-138 and 22 CFR 503.4 through 503.8.

Exhibit 140A - Prepurchase Approvals

Type of Action Approving Authority

Contract for property or services the Director character, ingredients, or components thereof are such that the purchase or contract should not be publicly disclosed.

Contract for technical equipment necessary Director in special situations or in particular localities to assure standardization and interchangeability of parts when in the public interest.

Contracts for experimental, developmental, or research work, or for manufacture or furnishing of property for experimentation, development, research, or test.

Contracts over \$1,000,000 Director, or his/her designee

Contracts not in excess of \$1,000,000 Senior Procurement Executive

Cost, cost-plus-fixed-fee or incentive Senior Procurement type contracts. Executive Contract providing for advance payments. Senior Procurement Executive

Contract for architectural-engineering Senior Procurement services. Executive Negotiation of a contract after sealed Senior Procurement bidding for property or services Executive upon a determination that bid prices there- fore are not reasonable or not independently arrived at in open competition.

Personal service contracts not covered by Senior Procurement applicable personnel regulations. Executive (see MOA V-A-830).

Any proposed negotiated procurement for over Senior Procurement \$100,000 when a sole source Executive solicitation is to be employed regardless of the negotiation authority to be used.

Any procurement for consulting services Senior Procurement see MOA IX-148.9) Executive

Any proposed major procurement for Director which the total cost of the project or system (regardless of the number of con- tracts involved) is expected to exceed \$10,000,000 (see MOA IX139.3b.)

Exhibit 140B - Legal Clearance

Type of Document Exclusions

1. Solicitations Procurement actions when the Invitations for Bids, (FAR 14) amount involved, actual or Requests for Proposals, (FAR 15) estimated, is below \$500,000
2. Architect-Engineer Contracts (FAR 36.6) "
3. Negotiated Orders (e.g., Job Orders, Task Letters) issued pursuant to: Basic Ordering Agreements (FAR 16.7) " "Task Order Contracts," "Master Contracts," etc. "
4. Miscellaneous Acquisition Instruments (e.g., "narrative contracts," license agreements, lease agreements, ratifications) "
5. Cancellations (FAR 17.1) "

6. Contract Modifications (FAR 43) Bilateral " Unilateral " (See below for options) Terminations (FAR 49) Convenience " Default None

7. Letter Contracts (mailed or telegraphic) and superseding Definitive Contracts (FAR 16.603) None

8. Delivery Orders Unilateral Orders (e.g., Delivery Orders) issued under Indefinite-Delivery Contracts (FAR 16.5) and Federal Supply Schedules (FAR 8.4) regardless of amount

9. Exercise of Options Unilateral exercise of priced options evaluated at the time of initial award (FAR 17.2) regardless of amount

10. Assistance Agreements None

11. Other

Replies to congressional inquiries None

Replies to contractor claims

Replies to Comptroller General inquiries or decisions

12. Regulations

Broadcasting Acquisition Regulation

Manual of Operations and Administration Part IX None

Sample copies of Milestone Schedules -( negotiated and A/E procedures) are available in the Office of Contracts. A sample Advanced Procurement Planning Schedule is also available in the Office of Contracts.

## Section 150

## CONTRACT PROVISIONS, CLAUSES, AND AGREEMENTS

### 151 LIQUIDATED DAMAGES (FAR 12.2)

151.1 Policy - Liquidated damages provisions should not be used in supply or service contracts, other than construction, unless:

a. it can reasonably be expected that any delay in delivery or performance will cause the organization to suffer substantial damages; and

b. the extent or amount of such damages would be difficult or impossible to ascertain or prove.

### 151.2 Procedures

a. Approval - Determinations to use liquidated damages provisions must be in writing and approved by the Procurement Executive. Such determinations will take into consideration all essential facts available from the requisitioning office and the criteria set forth in FAR 12.202 and this paragraph.

b. Rate of Damages - The rate of damages to be assessed for delay must be reasonable in relation to the requirements and cost of the contract. Consider rates on a case-by-case basis. No fixed formula may be used which would result in the rate's becoming a penalty and, as such, unenforceable. Rates should generally be expressed in terms of dollars per day.

(1) Statement of Reasonableness of Rate - The contracting officer will prepare a statement for the file that will include information as to the reasonableness of the rate of assessment in relation to the contract price and a summary of the action taken to mitigate the cost of the damages.

(2) Provisions for Stipulating Rates - Listed below are examples of provisions that may be used in solicitations when the contract is to be subject to liquidated damages.

(a) If the successful bidder fails to make delivery or complete performance within the time specified there will be deducted from due

payment liquidated damages and not as a penalty, an amount equal to % of the bid price for the undelivered portion of the contract for each calendar day of delay. Delivery time will be calculated in terms of calendar days, including Sundays and holidays, after the date of receipt of award by the bidder or other formal notice to proceed.

(b) After receipt of award by the bidder, if there is failure to complete delivery by the time specified in the contract, the sum of \$ per undelivered unit will be deducted from payment as liquidated damages and not as a penalty for each calendar day. Delivery time will be calculated in terms of calendar days, including Sundays and holidays, after the date of receipt of award by the bidder or other formal notice to proceed.

c. Enforcement - When liquidated damages provisions are used, they will be strictly enforced. It is the contractor's responsibility to give notice of delays and to provide evidence to support any claim for remission of damages or extension of contract time.

d. Recommendations for Remission - Recommendations to the Comptroller General for the remission of damages for delay are prepared by the contracting officer for the signature of the Director of Administration after clearance of the recommendations in draft by the Procurement Executive. No request for remission of liquidated damages will be transmitted to the Comptroller General until all administrative remedies and all alternative remedial action available to the contractor under the contract have been taken. All recommendations for remission of liquidated damages are forwarded to the General Counsel for clearance and transmission to the Comptroller General.

## 152 TIME OF DELIVERY OR PERFORMANCE (FAR PART 12)

152.1 General - The time for delivery or performance is an essential element of a contract and must be clearly and accurately stated. Design schedules to meet the requirements of the particular procurement, but also take into consideration all relevant factors and possible restriction of competition should be stated. Contracting officers will question any delivery or performance requirement that appears unrealistic, and, if necessary, initiate action to make adjustments with due regard to the factors listed in FAR 12.102.

### a. Liquidated Damages Provision

Where timely delivery or performance is unusually important, liquidated damages provisions may be used as provided in paragraph 151.

b. Other Provisions - When the delivery schedule is to be stated in terms of a specific calendar date or based on the date of contract, solicitations will include one of the provisions prescribed in FAR 12.103.

152.2 Clauses (FAR 12.104) - Unless inapplicable to meet the needs of a particular procurement, use the clauses in FAR 12.104 in all solicitations and state the delivery time in terms of calendar days.

a. "Required" - Use the time of delivery clause "REQUIRED" only when early delivery is essential to program requirements and the requisitioning office so states in its request.

b. "Desired" - Use the time of delivery clause "DESIRED" in solicitations when early delivery is desirable but not an essential factor in the procurement.

#### 153 WARRANTIES (FAR 46.7)

153.1 Purpose - A warranty clause gives Broadcasting a contractual right to make a claim for the deficiency of supplies or services furnished without regard to any other contract provision pertaining to acceptance by Broadcasting. A warranty clause provides for additional time after acceptance in which to assert a right of correction of the defects, re-performance, an equitable adjustment in contract price, or other remedies. The value of a warranty clause depends upon the circumstances and the factors which influence its use.

#### 153.2 Policy

a. Use warranty clauses only when they can be enforced and the potential increase in price is outweighed by the protection afforded Broadcasting.

b. Do not use a warranty clause in cost-reimbursement type contracts when other contract clauses are sufficient to protect the interests of Broadcasting.

c. Any warranty clause included in a contract will not limit or be limited by any rights afforded Broadcasting by any other clause of the contract.

153.3 Clauses (FAR 46.710) - If appropriate and approved by the Director of Contracts, use the clauses in FAR 46.710 in solicitations and contracts and state the length of the warranty in calendar days.

153.4 Variation In Quantity (FAR 12.4) - To the extent that a variation is caused by the conditions specified in the FAR 12.4(a) that quantity may be accepted only to the extent specified in the schedule. State permissible variations as a percentage and they may be an increase, decrease, or a combination of both. There should be no standard percentage or variation. Each procurement for which an overrun or under-run is permissible should be based upon the commercial practices of the pertinent industry. The percentage should be no larger than is necessary to afford a contractor reasonable protection. In no event will the permissible variation exceed plus or minus 10 percent. Examples of products in which variations in quantity may occur because commercial practices are paper, printed products, wire cable or large quantities of items normally commercially bulk packed such as light bulbs. only to the extent specified in the schedule. (see paragraph 221b(3).)

153.5 Clauses (FAR 12.403) - Use the clauses in FAR 12.403 in all solicitation and contracts.

#### 154 COVENANT AGAINST CONTINGENT FEES (FAR 3.4)

154.1 Purpose (FAR 3.4) - This paragraph describes the use of "covenant against contingent fees" clause and the representation and agreement required of bidders and prospective contractors. Use the clause prescribed in FAR 3.404 to obtain the warranty required by 41 U.S.C. 254. The purpose of the clause is to prevent the use of improper influence in obtaining Broadcasting contracts and to eliminate arrangements which encourage the payment of inequitable and exorbitant fees that bear no reasonable relationship to the services performed, and to prevent resultant unwarranted expenditure of Broadcasting funds.

#### 154.2 Applicability (FAR 3.403)

The covenant applies to all contracts. It must be included in every contract over the simplified acquisition limit.

154.3 Reporting Possible Improper Influence (FAR 3.408-2) - If there is any suspicion that improper influence has been used to induce or tend to induce consideration or action by any Broadcasting employee or officer with respect to any contract on any basis other than the merits of the matter, report such suspicion to the General Counsel in the same manner as outlined in MOA IX-190.

154.4 Representations and Agreements (FAR 3.405) - Contracting officers are to ensure that each successful bidder or prospective contractor has furnished a representation and agreement to the conveyance with his/her bid or offer.

a. Exceptions (FAR 3.404) - Representations and agreements need not be required for the following:

. . . Sealed bid contracts that do not exceed \$25,000.

. . . The contract amount is not expected to exceed simplified acquisitions limitation.

. . . Contracts for services performed by the contractor in person under Government supervision and paid on a time basis, Personal Services Contract.

. . . Contracts for utility services with rates set by regulation bodies.

. . . Contracts awarded in foreign countries.

b. Failure or Refusal To Furnish Representation and Agreement - The contract specialist in the Office of Contracts will submit (1) the name of the successful bidder or prospective contractor who fails to furnish the representation and agreement after having been afforded the opportunity to do so and (2) all available information relating thereto. The Office of Contracts will investigate the reasons for refusal and take such action as may be appropriate.

c. Affirmative Representations - When the required representation is in the affirmative, the successful bidder or prospective contractor is

required to submit a completed SF-119 Contractor's Statement of Contingent or Other Fees.

d. Failure or Refusal to Furnish SF-119 (FAR 3.407) - Submit the case file and the name of the successful bidder or prospective contractor who refuses to furnish a completed SF-119 (or a statement in lieu thereof) to the Office of Contracts for appropriate action. If the contract has been awarded or offer accepted, consideration may be given to terminating the contract and to the contractor's future eligibility as a bidder or contractor. Document the contractor's record to reflect any adverse action.

154.5 Preserving Records (FAR 3.410) Make a copy of the executed representation and a completed SF-119, or statement in lieu thereof, together with all other pertinent data including that of action taken with respect to affirmative representations, a part of the contract file.

#### 155 OPTIONS (FAR 17.2)

155.1 General - This paragraph applies to contracts for supplies and services other than construction, A-E, ADP/Telecommunications, (ADP/T), research and development (R&D), but does not preclude the use of appropriate option provisions in construction, A-E, ADP/T, or R&D contracts.

155.2 Definition - As used in this paragraph, an option clause is a provision in a contract under which, for a specific time, Broadcasting may unilaterally elect to purchase additional quantities of the supplies or services called for in the contract or may elect to extend the period of performance of the contract.

155.3 Applicability - Option clauses may be included in contracts where increased requirements within the contract period are foreseeable or where performance beyond the original performance period may be in the best interest of Broadcasting. Do not use an option to renew unless there is continuing need to meet the requirements of the office. Funds for each fiscal year must be consistently appropriated and it will be necessary to formally modify the original contract to notify the contractor of the availability of funds therefore.

155.4 Clauses (FAR 17.208) - Unless inapplicable to meet the needs of a particular procurement, use the clauses and provisions in FAR 17.208 in all solicitations and contracts where inclusion of an option is appropriate.

155.5 Exercising Option - The exercise of an option requires the contracting officer's written notification to the contractor within the time period specified in the contract. Before exercising the right of Broadcasting to modify the contract, the contracting officer will determine.

. . . That funds are available for the new period.

. . . The requirement fulfills an existing need.

. . . Exercising the option is the most advantageous method of fulfilling the requirement.

. . . The option was in the form of a synopsis if required.

155.6 Documenting the File - Write a memorandum to the file or prepare a Findings and Determination (D&F), when appropriate, that documents the decision to exercise an option and the circumstances leading to the decision. The contracting officer will sign the memorandum or D&F.

#### 156 NOVATION AGREEMENTS AND CHANGE OF NAME AGREEMENTS (FAR 42.12)

156.1 General - The contracting officer will follow the current procedures specified in FAR 42.12.

#### 157 CLAUSE HANDBOOK

157.1 General - The contracting officer will review the current edition of the Federal Acquisition Regulation (FAR) and Office of Contracts Clause Handbook before finalizing the solicitation and/or contract, to ensure all Broadcasting specific clauses and provisions are incorporated as necessary.

#### 158 DRUG-FREE WORKPLACE (FAR 23.5)

158.1 Policy - The Drug-Free Workplace Act of 1988 (P.L. 100-690) requires contractors to certify, prior to the award of any contract \$25,000 and over, performed in whole or any part in the U.S., its territories, or its possessions, that they will maintain a drug-free workplace by (1) notifying employees that drug abuse in the workplace is prohibited, (2) establishing a drug-free awareness program, (3) requiring each employee to notify the employer of any criminal drug statute conviction occurring in the workplace, and requiring the contractor to so notify the Government, (4) requiring the imposition of sanctions or remedial measures for an employee convicted of drug abuse violations in the workplace and (5) requiring the contractor to continue, in good faith, on-going compliance with the above requirements. The Act is also applicable to contracts with individuals regardless of the dollar value. Individuals must certify that he/she will not engage in unlawful conduct related to controlled substances in the workplace.

158.2 Procedures - Contracting officers shall insert the provision at 52.223-5, "Certification Regarding a Drug-Free Workplace (MAR 1989)," in Section K of all solicitations to which the Act applies. The clause at 52.223-6 "Drug-Free Workplace (MAR 1989)," shall be inserted in Section I of all solicitations to which the Act applies.

158.3 Requirement for Simplified Acquisitions - Telephone solicitation of a vendor's quotations does not constitute an oral order and the Government is not obligated until a written order is received and acted upon. By including a statement, in the written terms and conditions attached to the written order, which states that the vendor agrees to certify to be drug-free during performance of the order, we give the

vendor the proper pre-performance notice to permit the vendor the personal choice of allowing the certification to take place or return the order unfulfilled. It is not Broadcasting's practice to use oral orders and therefore the use of "Confirming Orders," which in effect acknowledge the existence of an oral order, is not a normally acceptable practice.

(See MOA IX- 146.3.) The use of a "Confirming Order," which precludes the vendor having the pre-performance choice of certifying or refusing acceptance of the order should be avoided. The certification in some manner, oral written, or by acceptance of the offered terms and conditions must precede the contract performance. Therefore, when a telephone solicitation is made the vendor does not have to certify via telephone regarding the drug-free workplace certification. The Form "Supplemental Terms and Conditions," serves as a certification upon the vendor's acceptance of the resulting purchase order. However, for non-telephone solicitations the vendor should be requested to sign the written certification form prior to award. Use form "Certification Regarding Drug-Free Workplace Requirements -- Contractors Who Are Individuals," for this purpose.

Year 2000 Compliance Clause must be added - Information technology being purchased accurately processes date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology, used in combination with the information technology acquired, properly exchanges date/time data with it.

163.6 Hearings

163.7 [RESERVED]

163.8 Exclusions

Section 160

DEBARMENT SUSPENSION AND INELIGIBILITY UNDER 22 C.F.R 513

161 SCOPE - This Section prescribes the procedures for debarring or suspending parties for cause and for placing such parties in ineligibility status which will exclude or disqualify them from participation in all BBG procurement and nonprocurement programs (i.e., contracts, grants, and cooperative agreements).

## 162 ADMINISTRATIVE DEBARMENT OR SUSPENSION OF PARTIES

162.1 Procurement Programs (FAR 9.402) - See [IX BAM 940](#).

### 162.2 Nonprocurement Programs

a. Executive Order (E.O.) 12549, 51 Fed. Reg. 6370, provides that, to the extent permitted by law, Executive departments and agencies shall participate in a system for debarment and suspension of participants from programs and activities involving Federal financial and nonfinancial assistance and benefits. Debarment or suspension of a participant in a program by one agency shall have Government-wide effect. The Code of Federal Regulations, Title 22, Part 513 is the regulation implementing E.O. 12549.

b. The Senior Procurement Executive (SPE) is authorized, subject to 22 CFR § 513, Government Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-free Workplace (Grants), and this Section, to debar or suspend a party when it is determined to be in the public interest. Determinations to impose a debarment or suspension are coordinated with the BBG General Counsel (BBG/GC).

c. Certification Forms - Grantee organizations must complete agency forms "Certification Regarding Debarment, Suspension, and other Responsibility Matters for Primary Covered Transactions," and "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion for Lower-Tier Covered Transactions," to ensure compliance with the relevant regulations and this Section of the BAM.

## 163 PROCEDURES

163.1 [RESERVED]

163.2 [RESERVED]

163.3 Suspension - It is the policy of BBG to suspend parties only after an exhaustive investigation of the causes and a determination that suspension is in the best interest of the Government.

163.4 Reports - Heads of purchasing activities are responsible for promptly submitting to the Suspending and Debarring Official complete and accurate reports recommending debarment or suspension UNDER 22 C.F.R Part 513. Give a complete statement of the pertinent facts and indicate alleged criminal conduct, fraudulent activity, or suspicion thereof. Back-up the report by appropriate exhibits and include all known affiliates and the nature of the affiliation, a description of the grant or cooperative agreement amounts paid the awardee and amount due. Include a recommendation as to the period and scope of debarment or suspension. Coordinate the recommendation with assigned counsel.

a. Debarment - Include with recommendations for debarment under 22 C.F.R. §§ 513.300-513.325, a Notice of Proposed Debarment prepared for submission to the party in accordance with 22 C.F.R. § 513.312.

b. Suspension - Submit with recommendations for suspension of a party for causes and under the conditions described in or 22 C.F.R. §§ 513.400-513.420 (Nonprocurement), a Notice of Suspension prepared in accordance with 22 C.F.R. § 513.411.

163.5 Reducing Debarments or Suspensions - The Debarring Official may extend or reduce the proposed period or extent of debarments initiated by BBG in accordance with 22 C.F.R. § 513.320 (Nonprocurement). The Suspending Official may modify the period of suspension in accordance with 22 C.F.R. §§ 513.405, 513.415 and 513.420 (Nonprocurement).

163.6 Hearings - An opportunity to contest debarment or suspension will be given any party that BBG proposes to debar or suspend in accordance with 22 C.F.R. §§ 513.313 and 513.412 (Nonprocurement), if the party that is being proposed for debarment submits material facts that the Debarring Official determines to justify conduct of such a public hearing. Such parties may submit information in opposition to the proposed action either in person or in writing. All rebuttals shall be addressed to the Debarring or Suspending Official.

163.7 [RESERVED]

163.8 Exclusions - The BBG will: maintain a list of individuals/entities that are excluded from Federal procurement and nonprocurement programs; update that list regularly and periodically in accordance with internal procedures; and update the System for Award Management Exclusions accordingly. The BBG shall take action to scrutinize prospective business partners to help ensure that the BBG does not solicit offers from, award contracts, grants, cooperative agreements, or other prohibited arrangements, or consent to subcontracts with any individual or entity that is listed in the System for Award Management Exclusions or is otherwise ineligible to receive Federal awards or assistance.

**Title:** IX BAM 163 - Contracting Officer's Warrant System and Federal Acquisition Certification in Contracting Program

**Policy Tracking #:** CON-14-07

**Effective Date:** 01/20/2015

**Originating Office:** Contracts, x7843, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** This policy implements the BBG Contracting Officer's Warrant System (COWS), the Federal Acquisition Certification in Contracting (FAC-C) Legacy Program and the refreshed FAC-C Program (FAC-C (R)). It replaces BAM Title IX, Section 143.3 and rescinds all prior guidance related to the warranting of Contracting Officers.

**(b) AUTHORITY AND SCOPE:**

(1) Scope. This policy applies to all Contracting Officers (CO) employed by all offices or divisions of the Federal Government supervised by the Broadcasting Board of Governors (collectively "the Agency").

(2) Authorities.

(i) [Federal Acquisition Regulation \(FAR\) Subpart 1.6](#), Career Development, Contracting Authority, and Responsibilities;

(ii) [OFPP Policy Letter 05-01 of 4/15/05](#), Developing and Managing the Acquisition Workforce;

(iii) [OMB Memorandum of 1/20/2006 and revised 12/2008](#), The Federal Acquisition Certification in Contracting Program;

(iv) [OFPP Policy Memorandum of 9/3/2013](#), Increasing Efficiencies in the Training, Development, and Management of the Acquisition Workforce; and

(v) [OFPP Memorandum of 5/7/2014](#), Revisions to the Federal Acquisition Certification in Contracting (FAC-C).

**(c) POLICY:**

(1) In accordance with [FAR 1.603-1](#), the [OMB Memorandum of 1/20/2006 revised 12/2008](#), and the [OMB Memorandum of 5/7/2014](#), the Agency is establishing a Federal Contracting Certification for Contracting Officers as well as a Contracting Officer's Warrant System (COWS). This policy, as well as Attachments A, B-1, B-2, B-3, C, D, & E, describes:

(i) the FAC-C Legacy and the FAC-C (R) certification requirements for COs;

(ii) contracting officer warrant levels;

(iii) selection, appointment, and termination of appointments of contracting officers, as required by FAR 1.603; and

(iv) core education, training, and experience requirements for contracting professionals performing acquisition functions at the Agency.

(2) The FAC-C Legacy and the FAC-C (R) Programs will run concurrently until October 1, 2015, at which point the FAC-C (R) will replace the FAC-C Legacy Program.

Implementation of the FAC-C (Refresh) program is being transitioned in over the following months in order to give contracting professionals flexibility in attaining their FAC-C.

(3) The terms warrant, certificate of appointment, and appointment are used interchangeably throughout this document.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Senior Procurement Executive (SPE) responsibilities. The SPE is responsible for developing the Contracting Officer (CO) workforce. The SPE is also responsible maintaining a CO certification program, a procurement career management program, and a system to ensure the development of a competent, professional workforce to the support the accomplishment of the Agency's mission. This includes selection, appointment, and termination of appointment of COs.

(2) Acquisition Career Manager (ACM) responsibilities. The ACM is responsible for administering and managing the Agency's CO certification program, including tracking CO training requirements by individual, and ensuring that the Agency's acquisition workforce meets the requirements in [OFPP Policy Letter 05-01 dated 4/15/05](#) and [OMB Memorandum dated 5/7/2014](#), and other responsibilities assigned to Agency Acquisition Career Managers in [OFPP Policy Letter 05-01 dated 4/15/05](#).

(3) CO responsibilities.

(i) Per [FAR 1.602-2](#), COs are responsible for performing all necessary actions for effective contracting, ensuring compliance with the terms of the contract, and safeguarding the interests of the United States in all contractual relationships. Additionally, COs shall:

(A) ensure timely and accurate submission of contract action reports to FPDS-NG;

(B) ensure that the requirements of FAR 1.602-1(b) have been met and that sufficient funds are available for obligation;

(C) comply with the terms and conditions of the CO's warrant and any specified limitations;

(D) ensure contractors receive impartial, fair, and equitable treatment; and

(E) request and consider the advice of specialists in audit, law, engineering, information security, transportation, and other fields, as appropriate.

(ii) Per FAR 7.503(c)(12)(v), the CO must be a Federal Government employee or locally employed staff (LE staff), such as a Foreign Service national (FSN), third-country nationals, and U.S. citizen hired as LE staff. *Contractors, e.g. personal services contractors, are not eligible to be designated as COs.*

(4) Education Requirements.

(i) Education Requirements for GS-1102 Personnel. CO education requirements are set by General Schedule (GS) 1102, Contracting Qualification Standard for non-DOD acquisition workforce positions (AWP), developed by OFPP in consultation with Office of Personnel Management (OPM). These standards (“the Qualification Standards”) outline educational requirements, experience, exceptions, and waivers for contract specialists. As a result of the Qualification Standards, Agency personnel that occupy GS-1102 positions grades 5 through 12 are required to have either 24-semester hours of business related education or a baccalaureate (four (4) year) degree, from an accredited institution. GS-1102 positions grades 13 and above must have both 24 semester hours of business-related education *AND* a baccalaureate (four (4) year) degree, from an accredited institution. These educational requirements must be met for certification at the next GS level. See Attachment A for the standards as extracted verbatim from OPM’s website. For an updated version of this document, refer to <http://www.opm.gov/policy-data-oversight/classification-qualifications/general-schedule-qualification-standards/1100/contracting-series-1102/>.

(ii) Exception for GS-1102 Agency Personnel in Grades 5-12. Agency personnel that occupy GS-1102 positions will be treated as if they have met the standard for positions they have occupied since January 1, 2000. Employees who occupied GS-1102 positions at grades 5 through 12 will be considered to meet the educational requirements for other GS-1102 positions up to and including those classified at GS-12. This includes positions at other agencies and promotions up through grade 12. However, Agency personnel must meet specialized experience requirements when seeking another position. This exception does not apply if there was a break in service after January 1, 2000.

(iii) Exception for GS-1102 Agency Personnel in Grades 13 and Above. Agency personnel in GS-1102 positions at grades 13 and above will be treated as if they have met the standard for positions they occupied on January 1, 2000. This also applies to positions at the same grade in the same agency or other agencies if the specialized experience requirements are met. However, Agency personnel will have to meet the educational requirements and specialized experience requirements in order to qualify for promotion to a higher grade, unless granted a waiver as set forth in (6) below. This exception does not apply if there was a break in service after January 1, 2000.

(5) Experience Requirements.

(i) The experience requirements are generally based on the GS-1102 Qualification Standard. Experience may be time spent on the job in a contracting related job assignment, either in the private or public sector, which reflects the accumulation of knowledge, skills, and abilities during years of increasingly more responsible work assignments. Members of the Agency's contracting workforce should not only obtain the right number of years of experience, but also the breadth and depth of experience required to strengthen their skills and capabilities. This can be done through developmental opportunities and on-the-job experience. Sample developmental opportunities are outlined in the OMB Memorandum of 5/7/2014 and can be found on the Federal Acquisition Institute's (FAI's) website. In addition, BBG's contracting professionals can use DOD's On-the-Job training tool to document demonstrated work experiences in the contracting career field. The tool is available at <https://acc.dau.mil/CommunityBrowser.aspx?id=398979&lang=en-US>.

(ii) There is no exception to the experience requirement in the Qualification Standards, and Agency personnel requesting a warrant or certification must provide evidence of their experience in writing on their request for warrant or certification application. Satisfaction of experience requirements from one certification level may be applied to the satisfaction of experience requirements of a higher certification level.

(6) GS-1102 Qualification Standard Waivers.

(i) For a specific vacant position at grade 13 and above, the GS-1102 Qualification Standard includes a provision that permits the SPE to waive mandatory requirements. The SPE may consider waiving these requirements in unusual situations when a highly qualified candidate does not meet the GS-1102 Qualification Standards, such as the mandatory procurement training for FAC-C, FAC-C (R), a four (4)-year bachelor's degree requirement from an accredited institution, and twenty-four (24) semester hours in specified business courses.

(ii) To meet the conditions of OFPP Policy Letter 05-01 and the GS-1102 Qualification Standard, the SPE, on a non-delegable basis, shall sign a certification detailing the basis for a decision to waive some or all of the requirement(s). The certification must detail how the candidate shows potential for advancement to levels of greater responsibility and authority based on demonstrated analytical and decision making capabilities, job performance, qualifying experience, the impact on the Agency if the SPE does not issue a waiver to the candidate, etc.

(iii) The waiver is not transferable to another agency and does not apply towards the requirement for FAC-C certification.

(7) GS-1102 Training Requirements.

(i) This Agency, like all civilian agencies and DOD, is required to follow uniform core training requirements. To ensure consistency in the quality of training provided to the AWF, the Agency follows the course equivalency determinations accepted by Defense

Acquisition University (DAU) to ensure that core training is comparable across the AWF and qualifies for certification. Electives and other specialized courses do not generally require a course equivalency determination.

(ii) The GS-1102 training requirements are the same as the mandatory training requirements for FAC-C Legacy and FAC-C (R). They have been established to assure that job related knowledge, skills, and competencies are acquired by contracting professionals as they progress from entry level procurement positions to highly skilled contracting officers. The current training requirements are detailed in Attachment B-1, B-2, and B-3.

(iii) The SPE may waive the training requirements for an individual for GS-13 positions and above, based on that person's demonstrated analytical and decision making capabilities, job performance, and qualifying experience. See paragraph (6) above for additional information about the SPE's authority to waive mandatory requirements in the Qualification Standard.

(8) Federal Acquisition Institute Training Application System (FAITAS). COs shall use FAITAS to register for training courses and related career development opportunities at no charge. COs are also required to manage their certification and supporting documentation for quality assurance purposes in FAITAS. This includes recording their education, training, and experience. All Agency contracting professionals must register in the FAITAS system. The Agency will utilize the system to manage the Agency's contracting professional staff. This resource is available at <https://www.atrrs.army.mil/faitas/External/Login>.

(9) Federal Acquisition Certifications in Contracting Program.

(i) The Federal Acquisition Certification in Contracting program (FAC-C Legacy) and FAC-C (R) establishes core competencies that are considered essential for successful contracting, education and experience requirements, training, continuous learning to maintain skills currency and developmental activities for contracting professionals government-wide in civilian agencies.

(ii) The refreshed FAC-C program implemented under OMB's Memorandum dated 5/7/2014 is effective on 10/1/2014. This program will run concurrently with the FAC-C Legacy program until 10/1/2015. Then, the refreshed FAC-C program will replace the FAC-C Legacy program. During this transition period, contracting professionals will be able to complete some of the certification requirements using the FAC-C Legacy or FAC-C (R). Completion of Legacy Courses will satisfy training requirement for the indicated FAC-C Level if certification steps were already in process on 10/1/2014. Contracting professionals can continue to use the FAC-C Legacy Program on the current certification level until 9/30/2015. FAC-C holders certified under the previous FAC-C will be grandfathered in at their current level of certification, provided their continuous learning requirements are met. Current FAC-C holders may be required to take additional courses or meet course pre-requisites for courses at a FAC-C level at which they are already certified. For example, current FAC-C Level 1 holders must take the following courses before starting their FAC-C Level II training: FAC-023 – Basic Contracting for GSA

Schedules, FAC 031 – Small Business Programs, CLC 057 – Performance Based Payments, CLC 058 – Introduction to Contract Pricing and CLC 170 – Fundamentals of Cost/Price Analysis. See the attached transition options in Attachment B-3.

(iii) All GS-1102 COs with a warrant, and other contracting professionals that occupy positions in the 1102 job series, must be certified at an appropriate level within two (2) years, or no later than September 30, 2016. Also, any contracting professional issued an unlimited warrant after October 1, 2014 must be Level III certified. All individuals with warrants must meet the FAC-C program requirements at an appropriate level to support their warrant.

(iv) In exceptional situations and for compelling reasons, the SPE may waive the FAC-C training requirements for warranting purposes, by granting a non-transferable waiver, when the SPE determines this is in the best interest of the Agency. The supervisor of the requesting CO shall submit the waiver request to the SPE. Each waiver request shall include a description of: the CO's training, education, or experience deficiency; the estimated time requirement to meet the FAC-C requirements; and the impact on the Agency if the waiver is not granted. The ACM, or designee, shall maintain a record of all supporting documentation for the waiver.

(v) The SPE has determined that non-1102 COs are outside the scope of the FAC-C and FAC-R programs. Therefore, their participation in these programs are highly recommended, but not required to obtain a new warrant. These individuals' warrant limits will be at or below the simplified acquisition threshold.

(10) GS-1102 CO Certification and Warrant Levels.

(i) The [OMB Memorandums dated 1/20/2006 and 5/7/2014](#), identifies three levels of certification for all COs with varying requirements for education, training, and experience and the requirements are cumulative, (i.e., an individual must meet the requirements of each previous certification level). The FAC-C levels are not associated with warrant limits; however, the Agency is tying warrant levels to certification levels for 1102s as follows:

(A) *Level I CO (Junior)* is for simplified and formal acquisitions of commercial and non-commercial items above the micro-purchase threshold up to \$500,000. One (1) – two (2) years of contracting experience is required;

(B) *Level II CO (Intermediate)* is for formal contract vehicles of moderate to high complexity up to \$5,000,000. Two (2) years of hands-on contracting experience is required conducting progressively more complex acquisitions under Federal Acquisition Regulation (FAR) procedures and full comprehension of required contracting duties; and

(C) *Level III CO (Senior)* is for complex contract vehicles under FAR procedures and full comprehension of required contracting duties up to *unlimited* authority. Four (4) – five (5) years of extensive contracting work experience is required on conducting complex acquisitions and full comprehension of required contracting duties.

(ii) The detailed requirements, e.g., training, for the Agency's FAC-C is cited in Attachments B-1, B-2, and B-3.

(11) Non-GS-1102 Certification Warrant Levels. The Agency has identified additional warranting requirements that are not associated with the FAC-C / FAC-C (R), and which are explained in Attachments B-1 and B-2. Since these warrant levels are Agency-specific; they are not transferable to other agencies.

(i) *Micro-purchase CO* is for simplified acquisitions below the micro-purchase threshold for orders against Agency Indefinite Delivery/Indefinite Quantity (IDIQ) contracts and GSA Federal Supply Schedule (FSS) contracts. No experience is required;

(ii) *Simplified Acquisition Procedures (SAP) I CO* is for simplified acquisitions above the micro-purchase threshold up to \$25,000. Six (6) months of hands-on simplified acquisitions contracting experience is required; and

(iii) *SAP II CO* is for simplified acquisitions above the micro-purchase threshold up to \$150,000. One (1) year of hands-on simplified acquisitions contracting experience is required.

(12) CO Certification Requirements. Effective immediately, in order for an individual to serve as a CO Level I, II, or III, he or she must meet the core education, training, experience, and continuous learning requirements for the appropriate level, explained in Attachments A, B-1, B-2, and B-3. Level I, II and III certifications can be used outside of the Agency, provided the CO meets the appropriate education requirements and completes [FAI-approved, DAU, DAU-equivalent courses, or through fulfillment courses](#).

(13) FAC-C Certification process.

(i) To receive CO certification, an individual seeking certification ("the applicant") must prepare the application included in Attachment C. Then, the applicant must submit the application to his/her supervisor for signature. The applicant's supervisor will then forward the signed application to the ACM, or his/her designee, for verification and assessment of the application. The applicant's supervisor should take this opportunity to assess the skills and competencies of the applicant and develop a plan for enhancing or adding to the applicant's competencies, if appropriate. The applicant will receive a written confirmation of his/her CO certification from the SPE or his/her designee. Then, the applicant must request a FAI FAC-C certification within fourteen (14) calendar days from receipt of the processed application electronically through the FAITAS by creating and submitting a new certification request in the system to the Super ACM that includes the following:

(A) The FAC-C certification signed by the ACM;

(B) Education documentation and training certificates for the Level requested, if needed; and

(C) Experience information (e.g., résumé) that is applicable to the FAC-C Level requested in the system.

(ii) Upon receiving a FAC-C certificate from FAITAS, the applicant shall immediately provide a copy to the ACM for inclusion in the Agency's FAC-C files at email address [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov).

(iii) The issuance of the FAC-C certificate at a specific level is a one-time process. The certificate represents completion of Government-wide standards and each Executive agency shall accept the certificate as proof of competency for the certified level.

(14) Appointment and Warrant Authority.

(i) Appointing Official for COs. The SPE is the Agency's appointing official for COs. Prior to redelegating warrant authority, the SPE shall ensure that the applicant, or applicant's supervisor, demonstrates a valid organizational need for the requested authority. Factors such as volume of actions, complexity of work, value of the acquisitions to be assigned and the applicant's experience and organizational structure shall be considered by the SPE when determining whether to grant a warrant request. The SPE shall also assure the applicant has demonstrated an ability to apply applicable procurement laws, regulations, policies, and sound business judgment.

(ii) Selection and Appointment of COs. All warrants shall be issued on Standard Form (SF) 1402, Certificate of Appointment and shall indicate the CO's name, the warrant level and dollar threshold, any other limitations, and shall be signed by the SPE. Additional limitations on the scope of the warrant authority may be placed on a separate document, such as "Redelegation of Procurement Authority" (RPA), which will be referenced on the warrant. The SPE shall ensure the nominated CO meet the minimum requirements of Attachments B-1, B-2, and B-3, has a valid FAC-C certification, if required and meets any specialized training required. All warrants are serially numbered. Once the warrant is issued, it must be displayed openly to the public and Agency personnel in the vicinity of the CO's work area. To the extent incorporation by reference is used (e.g., RPA), copies of the referenced document shall be made readily available to the public upon request. A list of individuals who have been appointed as COs and the limits of their authority is available from the Office of Contracts (CON).

(iii) Proper Documentation Requirements. Consistent with FAR 1.603-2, the SPE shall determine the proper documentation required when the requested appointment and authority will not exceed the micro-purchase threshold.

(iv) Warrant request process. Warrant requests shall be sent to the ACM using the forms provided at Attachments D and E. Warrant limits, educational requirements, experience, and continuing learning requirements are listed in Attachment B-1, B-2, and B-3. A copy of the FAC-C Certification must be attached to requests for Level I, II, and III. The CO nominee will receive a written confirmation of his/her CO warrant from the SPE or his/her designee.

(v) Interim appointments. If it is essential to appoint an individual as a CO who does not yet fully meet the FAC-C or Agency's COWS requirements for the signature authority sought, the SPE may make an interim appointment for up to eighteen (18) months. *If an extension of time has been granted, but the individual does not complete the certification requirements by the extended date, the SPE's approval for the interim appointment will automatically terminate on that date.*

(vi) Expiration of appointments. All warrants shall expire no longer than two years from the date issued to align with the eighty (80) continuous learning points requirement. When a CO's warrant expires, a new warrant must be requested in writing by the CO's supervisor using the forms at Attachment D and E. Expired warrants must be destroyed by the CO immediately upon expiration of the warrant.

(vii) Termination of appointments. The SPE will terminate CO warrants in writing unless the appointment contains other provisions such as automatic expiration. The SPE may terminate warrants at his/her discretion for reasons such as failure to maintain skills currency, mission changes, CO reassignment or departure, unsatisfactory performance, or violation of ethics/standards of conduct.

(viii) *Warrants will be issued to individuals serving in positions requiring such authority and do not follow an individual from position to position.*

(ix) A Warranted CO shall be notified in writing of the effective date of the termination. The notification shall provide enough time and sufficient instructions to ensure that unauthorized obligations are not made. No termination shall operate retroactively. Upon termination, the original SF1402 must be returned to the ACM for placement in the official CO warrant file maintained by the CON Policy Branch.

(15) Waiver Requirement for Certification for Warranting Purposes. The SPE may waive the requirement for obtaining a certification for warranting purposes, in writing, on a case-by-case basis, but only if granting the waiver is in the best interest of the Agency. This waiver is not transferable to another agency. To obtain a waiver, please submit a detailed written request to the SPE.

(16) Specific Amount of Warrant Authority.

(i) COs have authority to sign contracting vehicles up to the value stipulated on the SF-1402. They also have authority to use Government-wide purchase cards as a payment mechanism for contractual actions over the micro-purchase threshold, up to their warrant authority for purchase card transactions, after confirming the receipt of goods and services.

(ii) COs shall not sign contracts, including modifications, options, estimated orders against an indefinite delivery contract, or any other agreement, that will result in the total amount of the contract exceeding their warrant authority. In some circumstances, higher-level COs must sign the contract when modifications to orders and contracts make the total amount of the contract exceed the CO's warrant limitation.

(iii) COs are not necessarily required to conduct or participate in every aspect of the contract personally. However, the CO is the person responsible for assuring the signed document complies with all applicable laws, rules, and regulations.

(iv) COs are legally responsible for their signed procurement documents. COs cannot sign “for” or over the name of another CO, or at a level exceeding the limitations stated on his or her warrant. Also, all Contracting Officers are responsible for ensuring that any contract awarded complies with all applicable laws, rules, and regulations. Additionally, CON Policy Branch will perform periodic reviews and spot checks using system reports to ensure COs are not exceeding their warrant authority.

(v) COs who exceed their warrant authority may be disciplined, up to and including removal from Federal service.

(17) Warrant Authority for Non-1102 Procurement Personnel. The SPE may grant non-1102 personnel warrant authority to issue purchase orders, delivery orders, and agreements up to the simplified acquisition threshold for commercial supplies and services, including construction. These individuals granted procurement authority must comply with all Federal laws, rules, regulations, Agency directives, FPDS reporting requirements, and other acquisition guidelines.

(18) Exemption from Warranting Requirements. The CO warranting requirement does not cover executing documents listed below unless it is specifically stated on his/her warrant. Although the following transactions and documents are exempt by the FAR warranting requirements, the SPE may require a warranted CO to sign any or all of the listed procedures:

(i) Request, Authorization, Agreement, and Certification of Training (SF-182) when used alone (i.e. without an obligating document, such as a Purchase Order);

(ii) Government Bills of Lading;

(iii) Micro-purchase credit card transactions;

(iv) Interagency Agreements; and

(v) Cooperative agreements and grants.

(19) Procurement Training Requirements. Individuals should use FAITAS to register for needed acquisition training courses and related career development opportunities to fulfill the procurement training requirement at no charge. This training must be completed prior to issuance of a warrant. Individuals in non-GS-1102 series are not required to meet the FAC-C / FAC-C (R) Level training requirements but must fulfill the training requirement applicable to the requested SAP Level that is outlined in Attachments B-1/B-2.

(i) Specialized Training Requirements. The SPE will require an eligible CO to complete specialized training (e.g., construction contracting, Architect/Engineer Services, information technology (IT), Lease or Purchase of Real Property, Lease Real Estate, etc.), and have hands-on experience performing the aforementioned types of acquisitions,

in addition to the minimum certification requirements, when the specialized training is relevant to a particular type of contract to which the eligible CO is, or may be assigned. This type of specialized training is also known as FAC-C Core-Plus Specialization. This training establishes additional training, experience and continuous learning requirements for FAC-C certified personnel who manage specific procurements requiring specialized knowledge, skills and abilities. Core-plus requirements will be added to the FAC-C certification in the near future and will be available on the FAI website.

(20) Reciprocity with Other Certifications.

(i) A DOD Defense Acquisition Workforce Improvement Act (DAWIA) certification in contracting is equivalent to a FAC-C at the same certification level, provided the education and continuous learning criteria for FAC-C is met. In other words, a valid, current FAC-C does not necessarily meet the requirements for the DAWIA certification. Determination of equivalency will be made by DOD on an individual basis.

(ii) A valid, current FAC-C Level I or II is considered to have met the Federal Acquisition Certification for Contracting Officer's Representative (FAC-COR) requirements for Level II. A valid, current FAC-C Level III is considered to have met the FAC-COR requirements for Level III. An individual with FAC-COR certification does not necessarily meet the requirements for the FAC-C.

(21) Certification and Warrant Maintenance. In order to maintain a CO certification and warrant, COs must meet continuing learning requirements by earning 80 continuous learning points (CLPs) of skills currency training every two (2) years, as explained in Attachments B-1/ B-2.

(i) Time to Complete CLPs. A CO may start earning CLPs immediately after certification, and must re-start earning CLPs every two (2) years after the date of the CO's certification. Earning more CLPs than required in a two (2) year period does not change or reduce CLP requirements for any future two (2) year period.

(ii) Failure to Complete CLPs. A CO certification and/or warrant will expire if the CO fails to complete CLPs in the timeframe set forth in paragraph (d)(21)(i) above. To regain certification status after a certification has lapsed, the 80 CLPs requirement must be completed within a two (2) year period. Should the lapse be longer than two (2) years, the SPE may review the situation on a case-by-case basis and make a reasonable determination of what training the individual requires to maintain the required competencies. If the warrant has lapsed, the SPE may revoke or modify the CO's warrant. If this is done, the SPE will notify the CO in writing when the revocation or modification will be effective, providing enough time to ensure that the CO makes no unauthorized obligations.

(iii) Documenting CLPs. COs must send copies of CLPs training certification to the ACM as well as maintain this information in the Federal Acquisition Institute Training Application System (FAITAS). The ACM shall monitor the CLPs for COs to ensure they meet these requirements.

(iv) Guidance on CLPs. COs should not retake their original CO training classes for continuous learning unless refresher training is required. Instead, COs are encouraged to use continuous learning opportunities to obtain core competencies, maintain critical acquisition skills, and acquire Agency recommended training, such as Performance Based Acquisition training, Green Purchasing training, Section 508 training, Federal Appropriation Law training. See the [FAI's FAC-C webpage](#) for continuous learning activities and guidance on earning CLPs and assigning points to various developmental activities. Additional guidance on CO competencies and skills currency is available at [FAI's FAC-C webpage](#).

(v) Records of Certification Documents. COs and the ACM are responsible for maintaining certification documentation for auditing purposes for FAI, who will conduct periodic agency audits to validate that the standards for the certification program are being met. Levels I, II and III COs must ensure their training data, education, and experiences are properly entered into [FAITAS](#) within sixty (60) calendar days after the effective date of this policy. All individuals who have received a FAC-Certification via FAITAS during their tenure at the Agency must provide a copy of the certification to the ACM as well as a completed application signed by their supervisor within fifteen (15) calendar days of issuance of this policy unless both documents are already on file in CON Policy Branch.

(22) CO Performance Management. Upon designation, supervisors of COs may include CO duties and responsibilities in a COs position description and rate that CO on performance of such responsibilities as part of an annual performance plan. For example, include reporting procurement data accurately and timely to FPDS-NG as a critical element or incorporate into an existing performance element.

(23) Resources for COs. FAI website maintains a variety of information for COs at <http://www.fai.gov/drupal/>. This website includes best practices, a FAC-C and FAC-C (R) requirements, continuous training requirements, and examples of acceptable skills currency training, and links to areas of interest.

**(e) DEFINITIONS:**

(1) Acquisition Career Manager (ACM) means an individual, appointed in compliance with [OFPP Policy Letter 05-01 of 4/15/05](#), with sufficient acquisition experience to lead an acquisition career management program. The ACM for the Agency is the head of the IBB Office of Contracts, Policy Branch (CON/P).

(2) Contracting Officer (CO), defined further in [FAR 2.101](#), is a person with the authority to enter, administer, and/or terminate contracts and make related determinations and findings.

(3) Super ACM, is an individual responsible for approving certifications in the FAITAS system on the behalf of one or more small Federal agencies.

**(f) EFFECTIVE DATE AND APPROVAL:**

## Attachment A

## COR Certification Training and Maintenance

Individuals seeking to meet the training requirement for COR certification may complete their training via a combination of classroom and web training. Courses labeled with a Federal Acquisition Institute Application System (FAITAS) course number below are offered by the Defense Acquisition University, and are available on the [FAITAS website](#). Enrollment instructions are available at the [Training page at FAI.gov](#), or click a link provided in the FAITAS course numbers below. To meet the training requirements, all course(s) for a particular level/option must be completed. COR Level I training is a prerequisite for COR Levels II/III.

## LEVEL I

Training	No. of Hours/Continuous Learning Points	COR Experience	Type of Contract	Continuous Learning Requirements

**Broadcasting Board of Governors, International Broadcasting Bureau  
Contracting Officer's Representative (COR)  
Application for Certification**

**Level I**

Level I requires 8-9 hours of training and no previous COR experience. Level I CORs may be called upon to perform low-risk fixed priced with basic provisions, such as supply contracts, purchase orders, and POV blanket purchase agreements.

**Training:** Classroom and/or online training is required for initial certification. For continuous learning, any combination of classroom or online training that contributes to learning the competencies is acceptable. Individual CORs should consult with their supervisor, the Contracting Officer or the agency's Acquisition Career Manager (ACM) located in the Office of Contracts, Policy and Procedures Branch to determine their specific training needs. Training options which satisfy this requirement include classroom, online, or a mix of both.

**Experience:** No experience required.

**Level II**

Level II requires 40 hours of training and at least one (1) year of previous COR experience. Level II CORs may be called upon to perform general project management activities and should be trained accordingly. This level of COR is generally appropriate for contract vehicles of moderate to high complexity, including both supply and service contracts. COR Level I classroom training is a pre-requisite.

**Training:** Any combination of classroom or online training that contributes to learning the competencies is acceptable. The Contracting Officer has been given the authority by the SPE to require an eligible COR to complete additional specialized training (e.g., performance-based service contracts, contract administration, construction contracting, etc.) when it is considered relevant to a particular type of contract to which the eligible COR is, or may be assigned. The specialized training is in addition to the certification requirements and may be required of the COR to meet the needs of the designation.

Required training should be determined by agency policy and the Acquisition Career Manager. Individual CORs should consult with their supervisor and the Contracting Officer to determine their specific training needs. Training options which satisfy this requirement include classroom, online, or a mix of both.

**Experience:** The essential competencies required for CORs or equivalent positions form the foundation for the knowledge, skills, and abilities to effectively perform as a COR. Experience may be gained by performing acquisition-related activities, such as performing market research; writing specifications, Statements of Work or Statements of Objectives; developing quality assurance surveillance plans; assisting the CO or COR as a technical monitor; and participating as a subject matter expert on a technical evaluation team. Recognizing that COR and other

acquisition-related activities are not generally full-time duties for individuals other than contracting professionals, experience may be gained by performing these activities on a part-time basis.

**Reciprocity With Other Certifications:** Individuals certified as Federal Acquisition Certification in Contracting (FAC-C) Levels I or II or Federal Acquisition Certification for Program and Project Managers (FAC-P/PM) Mid-Level/Journeyman are considered to have met the FAC-COR requirements for Level II. These individuals must submit their FAC certificates and continuous learning documents to the Acquisition Career Manager for FAC-COR certification.

### **Level III**

The COR certification level depends on the type of contract the COR is managing and not all CORs manage the most complex and high-risk contracts. Level III CORs are the most experienced CORs within an agency and should be assigned to the most complex and mission critical contracts within the agency. Level III CORs are often called upon to perform significant program management activities and should be trained accordingly. At a minimum, those CORs for major investments, as defined by OMB Circular A-11, shall generally be designated as Level III CORs. Level III requires 60 hours of training and at least two (2) years of previous COR experience.

**Training:** Any combination of classroom or online training that contributes to learning the competencies is acceptable. The Contracting Officer has been given the authority by the SPE to require an eligible COR to complete additional specialized training (e.g., performance-based service contracts, contract administration, construction contracting, etc.) when it is considered relevant to a particular type of contract to which the eligible COR is, or may be assigned. The specialized training is in addition to the certification requirements and may be required of the COR to meet the needs of the designation.

Required training should be determined by agency policy and the Acquisition Career Manager. Individual CORs should consult with their supervisor and the Contracting Officer to determine their specific training needs. Training options which satisfy this requirement include classroom, online, or a mix of both.

**Experience:** The essential competencies required for CORs or equivalent positions form the foundation for the knowledge, skills, and abilities to effectively perform as a COR. Experience for a level III COR may be gained by performing acquisition-related activities in a leadership position such as the Program Manager; Integrated Product Team Lead or Project lead, specific duties such as leading technical evaluation team, being recognized as the subject matter expert for the project or chairing the Source Selection Evaluation Board. Recognizing that COR and other acquisition-related activities are not generally full-time duties for individuals other than contracting professionals, experience may be gained by performing these activities on a part-time basis.

**Reciprocity With Other Certifications:** Individuals certified as FAC-C Level III or FAC-P/PM Senior/Expert have met the FAC-COR requirements for Level III.

**Broadcasting Board of Governors, International Broadcasting Bureau**  
**Contracting Officer's Representative (COR)**  
**Application for Certification**

**Employee:** I certify that I have completed all necessary training and gained the required experience to obtain the technical competencies required to be certified as a Contracting Officer's Representative (COR). Experience is required for Levels II and III. The information in this form is, to the best of my knowledge, complete & accurate.

Employee Printed Name: \_\_\_\_\_ Date: \_\_\_\_\_

Title, Series, Grade: \_\_\_\_\_

Division: \_\_\_\_\_

- ☐ 8 hours of classroom BBG COR training or equivalent COR training completed \_\_\_\_\_ (dates);
- ☐ 8 hours of FAITAS # CLM-024 Contracting Overview training completed \_\_\_\_\_ (dates);
- ☐ 1 hour of procurement ethics training completed within the past year \_\_\_\_\_ (date);
- ☐ 4 hours of FAITAS # CLE028 – Market Research for Technical Personnel completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLM031 – Improved Statement of Work completed \_\_\_\_\_ (dates);
- ☐ 6 hours of FAITAS # CLC013 Performance Based Services Acquisition completed \_\_\_\_\_ (dates); and
- ☐ 8 hours of FAITAS # CLM017 Risk Management completed \_\_\_\_\_ (dates);

**Level III Training Requirements:****Level III Option 1 –**

- ☐ 40 hours of COR classroom training completed \_\_\_\_\_ (dates);
- ☐ 1 hour of procurement ethics training completed within the past year \_\_\_\_\_ (date);
- ☐ 4 hours of FAITAS # CLE028 – Market Research for Technical Personnel completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLM031 – Improved Statement of Work completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # FAC033 – Contract Management Strategies for Mission Success completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLM014 – IPT Management and Leadership completed \_\_\_\_\_ (dates); and
- ☐ 4 hours of FAITAS # CLB016 – Introduction to Earned Value Management completed \_\_\_\_\_ (dates); **OR**

**Level III Option 2 –**

- ☐ 32 hours of FAITAS # CLC222, Online Training for COR completed \_\_\_\_\_ (dates);
- ☐ 1 hour of procurement ethics training completed within the past year \_\_\_\_\_ (date);
- ☐ 4 hours of FAITAS # CLE028 – Market Research for Technical Personnel completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLM031 – Improved Statement of Work completed \_\_\_\_\_ (dates);
- ☐ 8 hours of FAITAS # CLM017 - Risk Management completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # FAC033 – Contract Management Strategies for Mission Success completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLM014 – IPT Management and Leadership completed \_\_\_\_\_ (dates); and
- ☐ 4 hours of FAITAS # CLB016 – Introduction to Earned Value Management completed \_\_\_\_\_ (dates); **OR**

**Level III Option 3 – For COR handling IT System Procurement**

- ☐ 8 hours of FAITAS # CLC106 – COR with a Mission Focus completed \_\_\_\_\_ (dates);
- ☐ 1 hour of procurement ethics training completed within the past year \_\_\_\_\_ (date);
- ☐ 8 hours of FAITAS # CLM024 – Contracting Overview completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLE028 – Market Research for Technical Personnel completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLM031 – Improved Statement of Work completed \_\_\_\_\_ (dates);
- ☐ 4 hours of FAITAS # CLB016 – Introduction to Earned Value Management completed \_\_\_\_\_ (dates); and
- ☐ 35 hours of FAITAS # IRM101 – Basic Information Systems Acquisition completed \_\_\_\_\_ (dates)

### **Experience Requirements:**

- ☐ Level I – No COR experience required.
- ☐ Level II - 1 year of previous COR experience required. The essential competencies required for CORs or equivalent positions form the foundation for the knowledge, skills, and abilities to effectively perform as a COR. Attach a resume detailing how the [COR competencies](#) found on the FAI web site have been achieved, including a detailed description of the program/contract(s) you were involved with and your specific actions to attain the required skills. The list of competencies will be updated during FY 2012.
- ☐ Level III - 2 years of previous COR experience required. The essential competencies required for CORs or equivalent positions form the foundation for the knowledge, skills, and abilities to effectively perform as a COR.
  - ☐ Attach a resume detailing how the COR competencies have been achieved, including a detailed description of the program/contract(s) you were involved with and your specific actions to attain the required skills.
  - ☐ Provide copies of the letter from the Contracting Officer with your COR appointment/designation.

### **Certification Equivalency:** (Only one required, if applicable)

- ☐ FAC-C Level I (or higher) completed \_\_\_\_\_ (date); **and**
- ☐ 1 hour of ethics training completed within the past year \_\_\_\_\_ (date)
- ☐ FAC-C Level II (or higher) completed \_\_\_\_\_ (date); **and**
- ☐ 1 hour of ethics training completed within the past year \_\_\_\_\_ (date)

### **Mandatory Continuing Training:**

To maintain a FAC-COR, CORs must earn the following continuous learning points (CLPs) every 2 years:

- Level I COR requires 8 hours every 2 years and 1 hour of procurement ethics course annually.
- Levels II and III COR requires 40 hours every 2 years and 1 hour of procurement ethics course annually.

The Acquisition Career Manager or his/her designee must monitor the continuous learning requirements for employees holding FAC-CORs to ensure they meet this requirement. It is the COR's responsibility to ensure that his/her continuous learning requirements are met. A FAC-COR certification will expire if the CLPs are not earned every 2 years, and the Senior Procurement Executive (SPE) and/or Contracting Officer (CO) may choose to revoke or modify a COR designation if this condition is not achieved. If the SPE or CO revokes or modifies a warrant, he or she will notify the COR holder in writing.

Has the employee met the mandatory skills currency? Yes \_\_\_ No \_\_\_ N/A \_\_\_

*Attach documentation to this application package that indicates that skills currency has been accomplished. Include completed course name, description, continuous learning points, and date completed.*

**Supervisor Concurrence:** I reviewed the information in this application, have verified it to the best of my knowledge as accurate and support the individual's certification as a Level I, Level II or Level III COR (*circle one*).

Supervisor Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Printed Name: \_\_\_\_\_

**Agency Acquisition Career Manager Endorsement:** I reviewed and verify that the information in this application, to the best of my knowledge, is accurate and support the individual's certification as a Level I, Level II or Level III COR (*circle one*). I will ensure that my organization maintains a copy locally with all back up information, suitable for audit validation.

ACM Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Printed Name: James McGuirk \_\_\_\_\_

**Agency Senior Procurement Executive Clearance:** I reviewed the information in this application and support the ACM's endorsement of the individual's certification as a Level I, Level II or Level III COR (*circle one*).

SPE Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Printed Name: Gary Hosford \_\_\_\_\_

### COR Designation Criteria Matrix

Risk Factor		Little or no risk associated with project	Significant or high risk associated with project
1	Sensitivity or Complexity of What is Being Procured	Oversight confirmed to basic inspection and acceptance (e.g., COTS or standard supplies)	Highly complex requirements; professional and technical services closely associated with inherently governmental functions; critical functions; continuous oversight or technical direction required (e.g., developmental; new or emerging technologies; poor or no performance history)
2	Number and Location of Performance Sites	Non-complex shipping/delivery to a single domestic delivery site	Highly complex shipping/packaging/delivery (e.g., requiring export, staging of shipments; multiple customers with competing requirements, multiple deliverables or sites; foreign performance site (s)) (span of control)
3	Impact of Delay	If project is delayed, no serious impact to mission that cannot be easily alleviated.	Serious impact on mission; high degree of impact on follow-on or interdependent projects; time is critical due to urgency, weather, or long-lead time items in critical path (e.g., contingency contract)
4	Visibility	Little or no internal or external interest anticipated	High degree of internal or external interest anticipated (e.g., GAO oversight; congressional engagement; or other special interests)
5	Contract Type/Structure	Firm fixed price contracts with basic provisions	Contracts other than firm fixed price (e.g., letter contract; cost-type contract; contract financing provisions required; hybrid contract; incentives; time and materials contract)
6	Special Considerations	No rights in data or government property required; No Personally Identifiable Information (PII) or security concerns.	High level of oversight required to assure government/contractor rights in data or government property; Significant security concerns relating to the contract classification or PII data.

**SAMPLE OF COR LEVEL I DESIGNATION LETTER**  
**FOR BPA/PO PURCHASE ORDER VENDOR**

Date: *(Insert date)*  
To: *(Insert office name and name of prospective COR)*  
From: *(Insert name of Contracting Officer)*  
Subject: Designation as a Level I Contracting Officer's Representative  
Reference: *(Insert BPA/PO number and contractor's name)*

Pursuant to Federal Acquisition Regulation (FAR) Subpart 1.602-2(d), you are hereby designated/authorized as the Level I Contracting Officer's Representative (COR) under Blanket Purchase Agreement (BPA)/Purchase Order (PO) No. *(insert number)* awarded to ***Contractor (insert contractor's name)*** effective *(insert date)*.

Attached for your information and records is an executed copy of the referenced BPA/PO. As the COR, you must be knowledgeable of the terms and conditions and technical content of the BPA/PO. Please read the contract and discuss any unclear areas with the Contracting Officer.

As the COR, your primary duty is to schedule assignments or hours as described in the referenced BPA/PO against executed delivery orders and to monitor the Contractor's performance to ensure that all of the technical requirements under the BPA/PO are met. In the performance of the duties delegated to you in this letter, you are cautioned that you could be held personally liable for actions taken or directions given by you to the Contractor that are beyond the authorities given to you in this letter.

The duties or authorities in this letter ***are not*** redelegable; therefore, you must advise the Contracting Officer, *(insert name of Contracting Officer, phone number)* or the Contract Specialist *(insert name of Contract Specialist, phone number)* immediately when you are unable to perform these duties. Your duties and limitations, as applicable to the BPA/PO you will be monitoring, are as follows:

**MONITORING PERFORMANCE.**

Ensure that the Contractor complies with all of the requirements of the statement of work as executed in the referenced BPA/PO. When a difference of opinion between you and the Contractor occurs, notify the Contracting Officer immediately for resolution and make recommendations as appropriate.

Assist the Contractor in interpreting the terms and conditions or performance requirements, provided that any interpretation or clarification is within the limitations prescribed within this designation.

Any decrease in or lack of performance shall be immediately brought to the attention of the Contracting Officer.

You will also be required to complete a Contractor Performance Evaluation within 30 days after the Contractor has met all terms and conditions of the contract/BPA/PO. See the below guidance under Evaluating Performance.

### **INVOICE REVIEW.**

Refer to FAR 32.905 for processing of invoices and follow to those conditions. Review the contractor's invoices/vouchers for reasonableness, availability of funding and applicability to the BPA/PO/orders and recommend approval or disapproval for payment. You are responsible for completing the review and submitting the invoice to the Accounts Payable Office within 5 days after receipt to ensure compliance with the Prompt Payment Act. If you cannot meet the required review time, advise the Contracting Officer and Accounts Payable Office. If recommending disapproval, return invoice to the Contractor within 5 days of receipt with the reason(s) why it is not a proper invoice, so that action can be taken to ensure government compliance with the Prompt Payment Act, thereby avoiding the payment of interest penalties to the Contractor. You may use the attached sample letter to return defected invoice(s) to the Contractor.

### **GOVERNMENT FURNISHED EQUIPMENT, MATERIALS AND FACILITIES.**

You are not authorized to provide any Government-owned or leased equipment or supplies or use of Government space to the Contractor, other than those specifically identified in the BPA/PO and authorized by the Contracting Officer.

During performance, it is your responsibility to oversee the Contractor's use and care of any Government-furnished property or supplies. If you observe any misuse of items, inform the Contractor of your concerns and advise the Contracting Officer immediately.

### **CHANGES TO THE BPA/PO/CONTRACT.**

You cannot authorize the Contractor to stop work, and you are not authorized to delete, change, waive, or negotiate any of the technical requirements that will affect price, quality, quantity, delivery, or other terms and conditions of the BPA/PO. Should a change (monetary or otherwise) to the contract become necessary, it must be made by a BPA/PO modification issued by the Contracting Officer. When in doubt, contact the Contracting Officer.

Any BPA/PO/contract change requested by the Contractor must be put in writing by the Contractor to the Contracting Officer for action; however, you should immediately advise the Contracting Officer of the proposed change since it may affect the contract price, cost, or delivery/performance schedule. When the Contracting Officer receives the proposed change, you will be required to provide the Contracting Officer with a written analysis and rationale for the change. You must also recognize and report to the Contracting Officer any government required changes to the contract (e.g., items or work no longer required, changes in the specifications, etc.).

### **INSPECTION OF CONTRACT ITEMS.**

When notified by the Contracting Officer, perform in accordance with the terms of the BPA/PO, inspection, acceptance or rejection of the supplies, services, or construction. Immediately notify the Contracting Officer of all rejections and the reason for the action. Review applicable progress reports from the Contractor and advise the Contracting Officer of any contractor problems or action required to be taken by the government.

**STANDARDS OF CONDUCT.**

As the COR, you are responsible for enforcing the Standards of Conduct (SOC) stated in a POVs the referenced BPA/PO. Please read the SOC very carefully and contact the Contracting Officer should you require further information or clarification on the subject matter.

**BPA/PO CONTRACT FILE CONTENT AND MAINTENANCE.**

Establish and maintain an organized Contract Administration file to record all contractor and government actions pertaining to the BPA/PO/contract. The COR's file is of particular importance since the documentation of your interaction with the Contractor may be used in the event of litigation. In addition, an organized file facilitates an easy transition from one COR to another if reassignment becomes necessary. The BPA/PO/contract may not warrant a separate folder for each file. If less than five (5) folders are used, the sections must be tabbed to segregate each file. The file(s) should be organized as follows:

- (1) File 1 - The contract instrument (i.e., contract modifications, task orders, delivery orders, and the contractor's proposals applicable to these documents).
- (2) File 2 - The COR's delegation letter, and all correspondence between the Contractor and the Contracting Officer, filed in chronological order.
- (3) File 3 - A copy of the Contractor's invoices/vouchers and any correspondence pertaining to the payments.
- (4) File 4 - The COR's written memoranda to the file on telephone conversations or other meetings with the Contractor.
- (5) File 5 - A copy of the Contractor's progress reports and other contract deliverables, and all correspondence pertaining to these documents.

**EVALUATING PERFORMANCE.**

Within 30 days after the contractor has met all terms and conditions of the BPA/PO, contract or order, you must *formally* evaluate the contractor's performance. Complete the attached sheet and provide the original to the contracting officer and maintain a copy in your COR file.

**CONTRACTOR TRAINING.**

The Contractor is not eligible for training. Exceptions to this rule are on a case-by-case basis and are approved by the SPE. You can only request training for the Contractor that is unique to IBB and related to the executed Statement of Work.

**COR TRAINING.**

To remain certified and eligible for designation, CORs must complete continuous training as follows:

- Level 1 – 8 hours of training every two years and one (1) hour procurement ethics course annually (may be agency sponsored, on-line, or equivalent)

Upon completion of the training, the COR shall submit copies of the training certificates to CON, Acquisition Career Manager (ACM) in room 4300, Switzer Building. ACM shall be responsible for

tracking the COR training by individual for the Contracting Officers and the BBG/IBB. Failure to complete maintenance training may result in suspension or termination of the COR designation.

CORs under a temporary designation must complete all training requirements within sixty (60) calendar days of the designation. If the COR does not complete the training, the Contracting Officer shall terminate the COR's temporary designation.

### **CONFLICT OF INTEREST.**

If applicable, the COR designee involved in contracting or procurement activities must complete Form OGE-450, Confidential Financial Disclosure Report. Notification of this designation is being submitted to the Ethics Office as required. You may be contacted concerning filing of the OGE-450. If you have any questions concerning this matter, direct them to the Agency Ethics Officer.

### **ACKNOWLEDGEMENT.**

Please acknowledge receipt and acceptance of this designation by signing below and returning the signed sheet to the Contracting Officer no later than *(insert date)* via email *(insert CO's email address)*. Your designation as the COR under the above numbered BPA/PO is terminated upon receipt of a written notice of termination from the designating Contracting Officer, the Contracting Officer's successor, or a higher level of authority. Please direct any questions you may have on this delegation to the Contracting Officer.

*(Insert Contracting Officer's name and title)*

Attachments: (1) BLANKET PURCHASE AGREEMENT/PURCHASE ORDER *(insert BPA/PO#)*  
(2) CONTRACTOR PERFORMANCE EVALUATION

### **COR ACKNOWLEDGEMENT**

I have read and fully understand the Contracting Officer's Representative (COR) designation letter dated *(insert date of memo)* and referenced contract and accept my assignment, responsibilities, and limitations as the COR under BPA/PO No. *(insert BPA/PO number)*.

**LETTER RETURNING INVOICE TO CONTRACTOR**

(Date)

***(Contractor Name & Address)***

Dear Sir or Madam:

The Broadcasting Board of Governors (BBG) is returning the enclosed Invoice No. \_\_\_\_\_, dated \_\_\_\_\_, because it is incomplete as defined by the Prompt Payment Act. BBG is prohibited by this law from making payment on an incomplete invoice.

In order to receive your payment, correct the deficiency(ies) noted in the checklist below.

- ☐ The invoice date and/or number is missing.
- ☐ The name and/or address of the contractor is missing.
- ☐ The BBG contract number, order number, contract line item number (CLIN) or other authorization for delivery of property or services, is erroneous or missing.
- ☐ The description, price, and/or quantity of property and/or services actually delivered or rendered is incomplete, incorrect, or missing.
- ☐ The shipping and payment terms, and such other substantiating documentation or information as required by the contract are erroneous, incomplete, or missing.
- ☐ The name, title, phone number, and complete mailing address of the responsible contractor official to whom payment is to be sent are incomplete or missing.
- ☐ The provision of all of the goods and/or services specified in the contract has not been completed.
- ☐ The invoice is completely or partially illegible.
- ☐ Other:

\_\_\_\_\_.

Please correct the invoice according to the item(s) noted and return it to the address identified in the contract or purchase order.

Sincerely,

***(COR Name, Title, Address, Telephone No., email)***

Enclosure: Invoice No. \_\_\_\_\_

### RATINGS

Summarize the contractor performance against the requirements of the contract and choose one rating which corresponds to the rating for each rating category.

- Outstanding = Work efforts meet or exceed contract requirements in ways that provide significant benefits to the government and is commendable as an example for others.
- Satisfactory = Work efforts generally meets the contract requirements with no or very minimal quality problems.
- Unsatisfactory = Work efforts do not comply with contract requirements, despite use of Agency resources. Recovery is no likely. If performance cannot be extensively corrected, it constitutes a significant impediment in consideration for future awards that contain similar requirements.

If contractor is rated either outstanding or unsatisfactory, an explanation shall be provided as to why the rating was given. If additional space is needed, attach a supplemental sheet:

1. Quality of End Products or Services: Rating/Comments:
2. Cost Control: Rating/Comments (This rating does not apply to Firm-Fixed Price contracts):
3. Timeliness of Performance/Delivery Schedule: Rating/Comments:
4. Compliance with Contract/BPA Terms and Conditions: Rating/Comments:
5. General Business Conduct: Rating/Comments:

**SAMPLE OF COR LEVEL II or III DESIGNATION LETTER**

Date: *(Insert date)*  
 To: *(Insert office name and name of prospective COR)*  
 From: *(Insert name of Contracting Officer)*  
 Subject: Designation as a Level *(insert level no.)* Contracting Officer's Representative  
 Reference: *(Insert contract number and contractor's name)*

Pursuant to Federal Acquisition Regulation (FAR) Subpart 1.602-2(d), you are hereby designated as the Level *(Insert level no.)* Contracting Officer's Representative (COR) under Contract No. *(Insert number)* awarded to *(Insert the name(s) of the contractor(s))*.

Under this designation, you are assigned responsibilities to assist the Contracting Officer in the administration of the referenced contract. This designation remains in effect for the length of the contract, as long as your COR certification remains current.

Attached for your information and records is an executed copy of the referenced contract. As the COR, you must be knowledgeable of the terms and conditions and technical content of the contract. Please read the contract and discuss any unclear areas with the Contracting Officer.

As the COR, your primary duty is to *(insert primary duties)* as described in the referenced contract and to monitor the Contractor's performance to ensure that all of the technical requirements under the contract are met. In the performance of the duties delegated to you in this letter, you are cautioned that you could be held personally liable for actions taken or directions given by you to the Contractor that are beyond the authorities given to you in this letter.

The duties or authorities in this letter *are not* redelegable; therefore, you must advise the Contracting Officer, *(Insert name of Contracting Officer, phone number)* or the Contract Specialist *(Insert name of Contract Specialist, phone number)* immediately when you are unable to perform these duties. Your duties and limitations, as applicable to the contract you will be monitoring, are as follows:

**MONITORING PERFORMANCE.**

Ensure that the Contractor complies with all of the requirements of the statement of work, specifications, or performance work statement as executed in the referenced contract. When a difference of opinion between you and the Contractor occurs, notify the Contracting Officer immediately for resolution and make recommendations as appropriate.

Assist the Contractor in interpreting the terms and conditions or performance requirements, provided that any interpretation or clarification is within the limitations prescribed within this designation.

Any decrease in or lack of performance shall be brought to the attention of the Contracting Officer or Contract Specialist.

You will also be required to complete a Contractor Performance Evaluation within 30 days after the Contractor has met all terms and conditions of the contract. See the below guidance under Evaluating Performance.

### **INVOICE REVIEW.**

Refer to FAR 32.905 for processing of invoices and follow to those conditions. Review the Contractor's invoices/vouchers for reasonableness and applicability to the contract and recommend approval or disapproval for payment. You are responsible for completing the review and submitting the invoice to the Accounts Payable Office within 5 days after receipt to ensure compliance with the Prompt Payment Act. If you cannot meet the required review time, advise the Contracting Officer and Accounts Payable Office. If recommending disapproval, return invoice to the Contractor within 5 days of receipt with the reason(s) why it is not a proper invoice, so that action can be taken to ensure government compliance with the Prompt Payment Act, thereby avoiding the payment of interest penalties to the Contractor. You may use the attached sample letter to return defected invoice(s) to the Contractor.

### **GOVERNMENT FURNISHED EQUIPMENT, MATERIALS AND FACILITIES.**

You are not authorized to provide any Government-owned or leased equipment or supplies or use of Government space to the Contractor, other than those specifically identified in the contract and authorized by the Contracting Officer.

During performance, it is your responsibility to oversee the Contractor's use and care of any Government-furnished property or supplies. If you observe any misuse of items, inform the Contractor of your concerns and advise the Contracting Officer immediately.

### **CHANGES TO THE CONTRACT.**

You cannot authorize the Contractor to stop work, and you are not authorized to delete, change, waive, or negotiate any of the technical requirements that will affect price, quality, quantity, delivery, or other terms and conditions of the contract. Should a change (monetary or otherwise) to the contract become necessary, it must be made by a contract modification issued by the Contracting Officer. When in doubt, contact the Contracting Officer or Contract Specialist.

Any contract change requested by the Contractor must be put in writing by the Contractor to the Contracting Officer for action; however, you should immediately advise the Contracting Officer or Contract Specialist of the proposed change since it may affect the contract price, cost, or delivery/performance schedule. When the Contracting Officer receives the proposed change, you will be required to provide the Contracting Officer with a written analysis and rationale for the change. You must also recognize and report to the Contracting Officer any government required changes to the contract (e.g., items or work no longer required, changes in the specifications, etc.).

### **VISITS AND MEETINGS WITH THE CONTRACTOR.**

As authorized by the Contracting Officer, and per the contract's requirements, make arrangements with the Contractor for periodic quality assurance visits to the Contractor's plant/site to:

- (1) Evaluate the Contractor's performance;
- (2) Evaluate changes affecting personnel, the schedule, and deliverables;

- (3) Inspect and monitor the use of government property, if applicable; and
- (4) Ensure that contractor employees being charged to the contract are actually performing the work under the contract.

A trip report fully documenting all activities during the visit must be written and a copy provided to the Contracting Officer within three (3) working days after the visit. Document the file to record each meeting and telephone conversation with the Contractor. A daily logbook is recommended which should reflect the date, time, name, and title of individual(s) involved, the subject matter, and the details of the meeting or conversation.

### **INSPECTION OF CONTRACT ITEMS.**

When notified by the Contracting Officer, perform in accordance with the terms of the contract, inspection, acceptance or rejection of the supplies, services, or construction. Immediately notify the Contracting Officer of all rejections and the reason for the action. Review progress reports from the Contractor and advise the Contracting Officer of any contractor problems or action required to be taken by the government.

### **STANDARDS OF CONDUCT.**

You are responsible for enforcing the Standards of Conduct stated in the referenced contract and FAR Part 3. Please read these sections very carefully and contact the Contracting Officer should you require further information or clarification on the subject matter.

### **CONTRACT FILE CONTENT AND MAINTENANCE.**

Establish and maintain an organized Contract Administration file to record all contractor and government actions pertaining to the contract. The COR's file is of particular importance since the documentation of your interaction with the Contractor may be used in the event of litigation. In addition, an organized file facilitates an easy transition from one COR to another if reassignment becomes necessary. The size of the contract may not warrant a separate folder for each file. If less than five (5) folders are used, the sections must be tabbed to segregate each file. The file(s) should be organized as follows:

- (1) File 1 - The contract instrument (i.e., contract modifications, task orders, delivery orders, and the contractor's proposals applicable to these documents).
- (2) File 2 - The COR's delegation letter, and all correspondence between the Contractor and the Contracting Officer, filed in chronological order.
- (3) File 3 - A copy of the contractor's invoices/vouchers and any correspondence pertaining to the payments.
- (4) File 4 - The COR's trip reports and written memoranda to the file on telephone conversations or other meetings with the Contractor.
- (5) File 5 - A copy of the Contractor's progress reports and other contract deliverables, and all correspondence pertaining to these documents.

### **EVALUATING PERFORMANCE.**

Within 30 days after the Contractor has met all terms and conditions of the contract or order, you must *formally* evaluate the Contractor's performance in the Contractor Performance Assessment Rating System (CPARS), in accordance with FAR Subpart 42.15 – Contractor Performance

Information. Interim evaluations shall be prepared for contract or order with a period of performance, including options, exceeding one year. For classified or sensitive contract or order, you must evaluate the Contractor's performance using the attached evaluation form which must be returned to the Contracting Officer within 30 days after the Contractor has met all terms and conditions of the contract. The need for an evaluation will depend upon the contract type and size of acquisition.

### **CONTRACTOR TRAINING.**

The Contractor is not eligible for training. Exceptions to this rule are on a case-by-case basis. You can only request training for the Contractor that is unique to IBB and related to the executed Statement of Work.

### **TRAINING.**

To remain certified and eligible for designation, CORs must complete continuous training as follows:

- Level 1 – 8 hours of training every two years and one (1) hour procurement ethics course (may be agency sponsored, on-line, or equivalent)
- Levels II & III– 40 hours of training every two years and one (1) hour procurement ethics course (may be agency sponsored, on-line, or equivalent)

Upon completion of the training, the COR shall submit copies of the training certificates to CON, Acquisition Career Manager (ACM) in room 4300, Switzer Building. ACM shall be responsible for tracking the COR training by individual for the Contracting Officers and the BBG/IBB. Failure to complete maintenance training may result in suspension or termination of the COR designation.

CORs under a temporary designation must complete all training requirements within sixty (60) calendar days of the designation. If the COR does not complete the training, the Contracting Officer shall terminate the COR's temporary designation.

### **CONFLICT OF INTEREST.**

If applicable, the COR designee involved in contracting or procurement activities must complete Form OGE-450, Confidential Financial Disclosure Report. Notification of this designation is being submitted to the Ethics Office as required. You may be contacted concerning filing of the OGE-450. If you have any questions concerning this matter, direct them to the Agency Ethics Officer.

### **ACKNOWLEDGEMENT.**

Please acknowledge receipt and acceptance of this designation by signing below and returning the signed sheet to the Contracting Officer no later than (*insert date*) via email (*insert CO's email address*). Your designation as the COR under the above numbered contract is terminated upon receipt of a written notice of termination from the designating Contracting Officer, the Contracting Officer's successor, or a higher level of authority. Please direct any questions you may have on this delegation to the Contracting Officer or Contract Specialist.

**LETTER RETURNING INVOICE TO CONTRACTOR**

*(Date)*

*(Contractor Name & Address)*

Dear Sir or Madam:

The Broadcasting Board of Governors (BBG) is returning the enclosed Invoice No. \_\_\_\_\_, dated \_\_\_\_\_, because it is incomplete as defined by the Prompt Payment Act. BBG is prohibited by this law from making payment on an incomplete invoice.

In order to receive your payment, correct the deficiency(ies) noted in the checklist below.

- ☐ The invoice date and/or number is missing.
- ☐ The name and/or address of the contractor is missing.
- ☐ The BBG contract number, order number, contract line item number (CLIN) or other authorization for delivery of property or services, is erroneous or missing.
- ☐ The description, price, and/or quantity of property and/or services actually delivered or rendered is incomplete, incorrect, or missing.
- ☐ The shipping and payment terms, and such other substantiating documentation or information as required by the contract are erroneous, incomplete, or missing.
- ☐ The name, title, phone number, and complete mailing address of the responsible contractor official to whom payment is to be sent are incomplete or missing.
- ☐ The provision of all of the goods and/or services specified in the contract has not been completed.
- ☐ The invoice is completely or partially illegible.
- ☐ Other:

\_\_\_\_\_.

Please correct the invoice according to the item(s) noted and return it to the address identified in the contract or purchase order.

Sincerely,

*(COR Name, Title, Address, Telephone No., email)*

**Title:** IX BAM 164 Designation of Contracting Officers' Representatives and Implementation of BBG Federal Acquisition Certification for Contracting Officer's Representatives

**Policy Tracking #:** CON-13-02

**Effective Date:** 11/20/2013

**Originating Office:** Contracts, x7843, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** This memorandum implements the BBG Federal Acquisition Certification for Contracting Officers' Representatives (FAC-COR) Program and revised procedures for the designation of a Contracting Officer's Representative (COR).

**(b) AUTHORITY AND SCOPE:**

(1) Scope. This policy applies to all Contracting Officers (CO) and CORs employed by all offices or divisions of the Federal Government supervised by the Broadcasting Board of Governors (collectively "the Agency").

(2) Authorities.

(i) [Federal Acquisition Regulation \(FAR\) Subpart 1.602-2 \(d\) \(1\) – \(6\)](#), Responsibilities;

(ii) [Office of Federal Procurement Policy \(OFPP\) Policy Letter 05-01 of 4/15/05](#), Developing and Managing the Acquisition Workforce; and

(iii) [OFPP Memorandum of 9/6/2011](#), Revision to the Federal Acquisition Certification for Contracting Officer's Representatives (FAC-COR)

**(c) POLICY:** In accordance with [FAR 1.602-2](#) and the [Office of Federal Procurement Policy \(OFPP\) Memorandum of 9/6/2011](#) the Agency is establishing a risk-based, three-tiered certification program for CORs. This policy, Attachments A and B, and the [OFPP Memorandum of 9/6/2011](#) describe the training and experience that the three levels of CORs must have, as well as the skills currency that CORs must maintain through continuous learning. This risk-based, three-tiered COR certification program better reflects the significant role of the COR.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Primary Responsibilities.

(i) Senior Procurement Executive (SPE) responsibilities. The SPE is responsible for developing the COR workforce and maintaining a COR certification program to ensure that the Agency's COR workforce focuses on partnering, performance, quality, accountability, and effectively meeting all Agency acquisition requirements.

(ii) Acquisition Career Manager (ACM) responsibilities. The ACM is responsible for administering and managing the Agency's COR certification program, including tracking COR training requirements by individual, and ensuring that the Agency's acquisition workforce meets the requirements in [OFPP Policy Letter 05-01 of 4/15/05](#).

(iii) CO responsibilities. The CO is responsible for contract administration and management, including properly designating CORs. *All contracts, purchase orders, Blanket Purchase Agreements (BPAs), call orders, delivery orders, and other acquisition vehicles placed under a Federal Supply Schedule shall have a COR designated in writing, if a COR will have responsibility for contractor performance or invoice processing.* The CO remains responsible for contractor performance and invoice processing until these duties are expressly delegated to a COR in writing.

(iv) COR responsibilities. CORs are responsible for completing all training and other requirements to obtain and maintain the appropriate level of COR certification, discussed below, to be designated as a COR. A designated COR ensures proper development of requirements and assists the CO in managing contracts, which may include any or all of the following duties: inspection, testing, acceptance of contract line items, surveillance of contractor performance, controlling Government furnished property, or reviewing and recommending approval/disapproval of invoices or vouchers. CORs on design and construction projects may perform additional duties, including but not limited to physical inspections of the construction work. Per FAR Subpart 7.503(c)(12)(v), the COR must be a Government employee. ***Contractors are not eligible to be designated as CORs.***

(A) COR Certification Levels. The [OFPP Memorandum of 9/6/2011](#), identifies three levels of certification for all CORs with varying requirements for training, experience and continuous learning based on the types of contracts/acquisition being managed.

(1) Level I COR is for low-risk, fixed-price orders with basic provisions, e.g. supply orders or simplified acquisitions for talent or clerical support services;

(2) Level II COR is for formal contract vehicles of moderate to high complexity, e.g. construction contracts or procurement of equipment or services that must conform to detailed specifications; and

(3) Level III CORs are the most experienced within an agency and should be assigned to the most complex and mission critical contracts within the agency. Level III COR is required for contract vehicles of moderate to high complexity that require significant acquisition investment, e.g. acquisition of IT systems.

The CO shall determine which certification level is appropriate for a contract based on the criteria matrix in Attachment C.

(B) COR Certification Requirements. In order for an individual to serve as a COR, he or she must meet the minimum training, experience, and continuous learning requirements for the appropriate COR level, explained in Attachments A and B. Obtaining a certification makes an individual eligible for designation as a COR, but does not mandate a designation. Note that Agency-instructed COR training is not currently certified by the [Federal Acquisition Institute \(FAI\)](#), and cannot be used for certification outside of this Agency. Level I, II, and III certifications can be used outside of the Agency, provided the COR completes [FAI-approved courses](#).

(C) Specialized Training Requirements. COs have been given the authority by the SPE to require an eligible COR to complete specialized training (e.g., performance-based service contracts, contract administration, construction contracting, etc.), in addition to the minimum certification requirements, when the specialized training is relevant to a particular type of contract to which the eligible COR may be assigned.

(D) Exceptions to Initial Training Requirements for Certification. Individuals do not have to repeat initial training requirements for the appropriate COR certification level, if they meet one of the following exceptions:

(1) Any individual, who previously completed 8 hours of COR training within two (2) years before the effective date of this policy and has completed 8 hours of skills currency training within the preceding twelve (12) months, shall be “grandfathered-in” as Level I.

(2) Any individual, who previously completed 40 hours of COR training within two (2) years before the effective date of this policy **and** has completed 8 hours of skills currency training within the preceding twelve (12) months, shall be “grandfathered-in” as Level II.

(3) Any individual who previously completed 60 hours of COR training (regardless of completion date), has acted in the capacity of a COR within two (2) years from the date of his/her COR nomination on contracts of moderate to high complexity, has completed 40 hours of skill currency training within the preceding 12 months, **and** validates his/her experience and competency to the ACM, who endorses it, shall be “grandfathered-in” as Level III.

Effective immediately, “grandfathered-in” CORs must meet the Continuous Learning Requirements (CLRs), explained in Attachment A, to maintain their certifications.

(2) Procedures.

(i) Certification process: To receive COR certification, an individual must prepare an application (see Attachment B) and then submit the application to the ACM, or his/her designee. The COR nominee will receive a written confirmation of his/her COR certification from the ACM or his/her designee. Then, the COR may request a FAI FAC-COR certification electronically through the [Federal Acquisition Institute Training Application System \(FAITAS\)](#).

(ii) Certification Maintenance: In order to maintain a COR certification, CORs must meet CLRs by earning continuous learning points (CLPs) of skills currency training every two (2) years, as explained in Attachment A.

(A) Time to complete CLPs. A COR may start earning CLPs immediately after certification, and must re-start earning CLPs every two years after the date of the COR’s certification. Earning more CLPs than required in a two (2) year period does not change or reduce CLP requirements for any future two (2) year period.

- (B) Failure to Complete CLPs. A COR certification will expire if the COR fails to complete CLPs on time. In this case, the CO may, on a case-by-case basis, revoke the COR's designation in writing and assign another COR to the contract (See the procedures in paragraph (d)(20) below). If a certification expires, the COR must complete the necessary CLPs before being reinstated.
- (C) Documenting CLPs. Certified CORs must send copies of CLPs training certification to the ACM. The ACM shall monitor the CLPs for certified CORs to ensure they meet these requirements.
- (D) Guidance on CLPs. CORs should not retake their original COR training classes for continuous learning. Instead, CORs should take courses relevant to the work they are performing as a COR. CORs should discuss their CLPs training with their supervisor, the CO, and/or the ACM. Additional guidance on COR competencies and skills currency is available at [FAI's FAC-COR webpage](#).
- (iii) Records of Certification Documents: CORs and the ACM are responsible for maintaining certification documentation for quality assurance purposes. Levels I, II, and III CORs must ensure their training data is properly entered into [FAITAS](#) within two (2) months after the effective date of this policy.
- (iv) COR Nomination Requirements. The requisitioning office shall nominate a Federal employee to serve as a COR, as well as an alternate COR, in the Momentum requisition document (IQ or FQ), well in advance of contract award. The nominee should be certified or capable of obtaining certification before contract award. The CO has the authority to decline COR nominations.
- (v) Nomination Package For COR Levels II and III. To nominate a COR at Levels II or III, the requisitioning office must submit a nomination package to Contracts, which includes the nominee's name, division, contact information, COR certification level, and previous experience as a COR, including a list of contracts for which the individual is currently designated/appointed as a COR. If any of the minimum COR qualifications listed in paragraphs (i)-(vi) below cannot be met, a justification explaining those circumstances shall be submitted to the CO with the nomination package:
- (A) Nominees shall have technical knowledge and experience to observe performance and to determine if a contractor meets the performance standards in the contract;
  - (B) Nominees shall have successfully completed the required training and certification or be eligible for a waiver (see paragraph (d)(18) below). The request for a waiver shall be included in the nomination package;
  - (C) Nominees shall acknowledge the requirement to attend subsequent skills currency and ethics training during the designation period;
  - (D) Nominees should be familiar with and comply with the FAR;
  - (E) Nominees should ideally be available for the duration of the contract; and

(F) Nominees should have sufficient time to monitor contracts effectively.

(vi) Designation of a COR to a Specific Contract. After reviewing a COR nomination, including the nomination package for COR Levels II and III, the CO shall issue a unique, written COR Designation Letter (“the Letter”). The letter must include:

(A) CO’s and contract specialist's/administrator's name and telephone number;

(B) Contract number;

(C) COR authorities & responsibilities, which must include evaluation of contractor performance at the end of each contract, order, or option period of performance;

(D) COR limitations, with emphasis on unauthorized commitments;

(E) Detailed description of the type and content of files the COR must maintain;

(F) Emphasis on ethics, procurement integrity, conflicts of interest, and standards of conduct, including a copy of the FAR Part 3 and other applicable authorities;

(G) Instructions on returning signed acceptance to the CO, see paragraph (d)(2)(viii).

COs should use and adapt Attachment D Sample COR Level I Designation Letter and Attachment E Sample COR Levels II and III Designation Letter.

(vii) The duties of the COR are limited to explicit responsibilities and authorities set forth in the Letter. **A CO CANNOT DELEGATE THE FOLLOWING DUTIES TO A COR:**

(A) Issuing task/delivery orders against a contract, BPA, or other acquisition vehicle;

(B) Changing any of the terms and conditions of a contract, BPA, purchase order, call order, delivery order, or any other acquisition vehicle;

(C) Signing contracts, BPAs, purchase orders, delivery orders, call orders, any other acquisition document, or modifications/amendments to any acquisition vehicle;

(D) Creating any liability on the part of the Government different from that set forth in the acquisition vehicle. (If during the course of performing COR duties, an unauthorized commitment occurs, the COR is to promptly request a ratification of the action from the SPE in accordance with Agency Policy);

(E) Issuing written correspondence to the contractor that will impact the cost or schedule of the contract, BPA, purchase order, call order, delivery order, or other acquisition vehicle. The authority to otherwise correspond to a contractor must require the CO’s approval and if approved, a copy of correspondence sent to the contractor shall be submitted to the CO for the contract file;

(F) Approving contractors' vouchers under cost-reimbursement contracts. However, a COR may review these vouchers and make payment recommendations to a CO; and

(G) Committing the Government to any adjustments to the price or cost of the contract, BPA, purchase order, delivery order, or any other acquisition vehicle.

(viii) Acceptance of COR Designation to a Specific Contract. Upon receipt of the designation to a specific contract, the COR shall countersign the Letter to indicate that he/she has received the Letter and accepts the duties, responsibilities, and limitations of the designation and then return the signed copy of the Letter to the CO. The CO may also require the COR's supervisor to sign the Letter to indicate he or she recognizes and accepts the demands on the COR's time and performance.

(ix) Record of a Designation. As soon as practical, usually within five (5) business days, after receiving a countersigned/accepted Letter, the CO will save a copy of the Letter in the official contract file, scan and attach the Letter in Momentum to the appropriate contract or other acquisition vehicle, email a scanned copy to [CORDesig@bbg.gov](mailto:CORDesig@bbg.gov), and provide a copy of the Letter to the contractor. For construction projects, the CO will provide a copy of the Letter at least five working days before issuing a notice to proceed.

(x) Waiver and Temporary COR Designation. If a COR nominee has not completed certification at the time of nomination, and if the requisitioning office provides the SPE a written explanation of unusual and compelling circumstances (e.g. the COR nominee was unable to complete initial training requirements and no other employee can serve as COR), the SPE may issue a one-time, written, case-by-case waiver for temporary designation of a COR. Waivers will require the following conditions:

(A) The COR nominee must complete an on-line procurement ethics course prior to receiving the temporary designation;

(B) The COR nominee must complete all training required for certification within sixty (60) calendar days of temporary designation; and

(C) The COR nominee must apply for COR Acquisition Certification within sixty (60) calendar days of the temporary designation.

(xi) Failure to meet conditions of a Waiver. If the COR does not complete all training requirements and submit the COR certification application to the ACM within sixty (60) calendar days of temporary designation, or if the application is denied, the temporary designation shall be terminated and the requisitioning office shall nominate a new COR.

(xii) Termination of COR's Designation from a Specific Contract/Acquisition Vehicle. The CO may terminate a COR designation for cause, including but not limited to: the COR's exceeding his/her authorities; conflicts of interest; unethical conduct; failure to perform; reassignment/resignation/retirement; or completion of the contract/acquisition vehicle. If a CO terminates a designation, the CO shall, at the same time:

(A) Modify the contract/other acquisition vehicle to reflect a change in the COR;

(B) Issue the COR a written notice of termination of designation;

(C) Issue a new, written designation letter to a new COR, unless the CO will perform the duties previously delegated to the COR;

(D) Provide the Contractor with notice of the termination, a copy of the new designation letter (if applicable), and a copy of the contract modification;

(E) Retain a copy of the notice of termination, new designation letter (if applicable), and modification in the official contract file; and

(F) Modify the record in Momentum.

(xiii) Designation of an Alternate COR to a Specific Contract/Other Acquisition Vehicle. The COR designation is unique to an individual and may not be further delegated. An alternate COR may be designated by the CO to act in the absence of the primary COR. This policy applies equally to the designation and eligibility of alternate CORs.

(xiv) COR Performance Management: Upon designation, supervisors of CORs may include COR duties and responsibilities in a COR's position description and rate that COR on performance of such responsibilities as part of an annual performance plan.

**(e) DEFINITIONS:**

(1) "Acquisition Career Manager" means an individual, appointed in compliance with [OFPP Policy Letter 05-01 of 4/15/05](#), with sufficient acquisition experience to lead an acquisition career management program. The Agency's Acquisition Career Manager is the head of the IBB Office of Contracts, Policy Branch.

(2) "Contracting Officer" (CO), defined further in [FAR 2.101](#), is a person with the authority to enter, administer, and/or terminate contracts and make related determinations and findings.

(3) "Contracting Officer's Representatives" (COR), defined further in [FAR 2.101](#), means an individual, designated and authorized in writing by the CO to perform specific technical or administrative functions. The terms Contracting Officer's Technical Representative (COTR), Authorized Representative of the Contracting Officer (AR/CO), Field Authorized Representative of the Contracting Officer (FAR/CO), and Technical Point of Contact (TPOC) are hereby changed to COR to align with the [OFPP Memo of 9/6/2011](#) and the FAR.

**(f) EFFECTIVE DATE AND APPROVAL:**

**Title:** IX BAM 165 – Contracting Officers

**Policy Tracking #:** CON-15-05

**Effective Date:** April 27, 2016

**Originating Office:** Office of Contracts, (202) 382-7838, bbgconpolicy@bbg.gov

---

**(a) PURPOSE:** The purpose of this policy is to detail the authorities and responsibilities of contracting officers.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

(i) [Federal Acquisition Regulation \(FAR\) Subpart 1.6 -- Career Development, Contracting Authority, and Responsibilities.](#)

(ii) [FAR Part 13 -- Simplified Acquisition Procedures.](#)

(2) Scope.

(i) This policy applies to all contracting officers (COs) and contracting officer representatives (CORs) employed by the Federal Government elements of the Broadcasting Board of Governors (i.e., Voice of America; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and International Broadcasting Bureau), referred to in this policy as “the Agency” or “BBG”.

**(c) POLICY:**

(1) Contracting Officers (COs).

(i) Authorities. The acts of a CO bind the government only when the contract is authorized by law or under an appropriation adequate to its fulfillment. A CO shall personally sign all contracts and modifications thereto<sup>1</sup>. The authority cannot be redelegated. A CO may enter into, amend, modify, and take other action with respect to contracts provided:

(A) Specific redelegation of authority from the Senior Procurement Executive (SPE) has been granted;

(B) All approvals and clearances have been obtained;

(C) The contract is written on a standard or other approved form or format as authorized by the appropriate FAR part and Broadcasting Administrative Manual (BAM) policy;

---

<sup>1</sup> See IX BAM 147.5 “Contracting Officer's Signature”.

- (D) The contract is authorized by law and regulations (including the FAR); and
  - (E) The contract complies with all applicable requirements of law, the FAR, and rules of regulatory agencies, such as the Office of Management and Budget.
- (ii) Responsibilities. The CO shall exercise reasonable care, skill, and judgment. The CO has primary responsibility and accountability for:
- (A) Understanding the scope and limitations of the redelegation of authority;
  - (B) Promoting competition to the maximum extent practicable, which may include, but is not limited to, conducting market research, participating in acquisition planning, posting requirements in the governmentwide point of entry, and preparing determinations and findings (D&Fs) and justifications that may be applicable to the acquisition;
  - (C) Preparing contracts in the format that will best serve the Agency's interests, and using standard forms without modification to the maximum extent practicable;
  - (D) Obtaining and considering all quotations and offers that are timely received in response to oral or written solicitations, evaluating responses in accordance with the criteria in the solicitation, and documenting evaluations in the contract file<sup>2</sup>;
  - (E) Executing and administering contracts;
  - (F) Safeguarding the interests of the government in contractual and noncontractual relationships, which may include conducting meaningful reviews of contractor requests for equitable adjustments, and fairly assessing when to terminate contracts for convenience, cause, or default;
  - (G) Determining facts relative to contracts, when necessary; which may require continuing coordination with CORs to ensure contract requirements are met;
  - (H) Ensuring the legal, technical, and administrative sufficiency of any contract which the CO has executed;
  - (I) Securing necessary legal, technical, and administrative review of contracts throughout the acquisition process;
  - (J) Using reasonable efforts to resolve controversies prior to contractor submission of claims under the Disputes statute; and if a contractor claim is submitted, issuing a written decision in accordance with the FAR<sup>3</sup>; and
  - (K) Considering all protests, regardless of the venue<sup>4</sup>, and providing documentation showing reasoned analysis for an actual award; in the case of a protest filed with the

---

<sup>2</sup> See CON Directive/Action Memo "Evaluation of Each Proposed Contract Action" for further guidance.

<sup>3</sup> See FAR 33.211 Contracting officer's decision.

Government Accountability Office (GAO), the CO shall provide a signed statement of facts describing the procurement, the evaluation factors for award, and the source selection decision that will be included as part of the agency report submitted to the GAO by the Office of the General Counsel (OGC), along with identical copies of the protest file for all interested parties of the protest, in accordance with IX BAM 139.1c<sup>5</sup>.

(iii) Selecting, Appointing, and Terminating COs. Only the SPE may select, designate, and terminate COs. A list of individuals who have been appointed as COs and the limits of their authority is available from the Office of Contracts.

(A) Selection. Experience, training, education, business acumen, judgment, character, reputation, and ethics are considered in selecting COs<sup>6</sup>.

(B) Appointment. It is the Agency's policy to redelegate CO authority to individuals by a written appointment in the form of a Certificate of Appointment signed by the SPE. Certificates of Appointment will be provided to IBB Offices by the Office of Contracts. The certificate will state the responsibility and authority of the appointee, and any limitations on the scope of the appointment, whether on the face of the form or by incorporation by reference to another document. All Certificates of Appointment are serially numbered. The certificate shall be prominently displayed in the vicinity of the CO's work area.

(1) Maintaining a certificate. Once a permanent appointment is made, and in order to function effectively, COs are required to maintain their certificates through continued training in pertinent subjects. Refer to IX BAM 163, Contracting Officer's Warrant System (COWS) and Federal Acquisition Certification in Contracting Program, for core courses and minimum hours of additional training required to maintain proficiency.

(C) Termination. A CO's appointment may be terminated by the SPE<sup>7</sup>.

(D) Modification. Any change in a designation is accomplished by canceling or updating the original Certificate of Appointment and issuing a new or revised certificate.

(2) Contracting Officer's Representative (COR). A CO may designate an appropriately qualified government employee to act as the COR<sup>8</sup>. This designation shall apply to a single contract, must be in writing, and must give specific instructions as to the extent that the representative may take action for the CO. Action may include testing, quality control,

---

<sup>4</sup> Protests may be filed with the Agency, the Government Accountability Office, or the U.S. Court of Federal Claims.

<sup>5</sup> See FAR 33.104 Protests to GAO and IX BAM 139 "Protests Against Award" for further guidance.

<sup>6</sup> See IX BAM 163 "Contracting Officer's Warrant System (COWS) and Federal Acquisition Certification in Contracting Program".

<sup>7</sup> See Footnote 6.

<sup>8</sup> See IX BAM 164 "Designation of Contracting Officers' Representatives and Implementation of BBG Federal Acquisition Certification for Contracting Officer's Representatives".

inspection, and acceptance at various stages of contractor performance, and approval of functions of a technical nature not involving scope, price, or terms and conditions of the contract. The responsibilities and limitations of the COR will be set forth in a written COR Designation Letter, a copy of which shall be retained in the contract file.

(i) Limitations. No personnel, other than the CO, are authorized to direct changes to a contractor's contract in any manner, regardless of whether the personnel's duties require meetings and discussions with contractors. To reiterate, only the CO is authorized to make contract changes.

(ii) Maintaining Records. COs will tell CORs the type of records they should maintain and the distribution. If a COR designation is revoked before completion of the contract, the representative's records shall be turned over to the successor or to the CO. When a contract is completed, the COR shall forward all records to the CO for retention in the contract file. In legal proceedings in which the OGC determines COR records are needed<sup>9</sup>, CORs shall provide their records immediately upon request.

### (3) Simplified Acquisition Contracting.

(i) Authority. In the absence of a specific Redelegation of Authority from the SPE, no employee is authorized to solicit prices, negotiate, enter into, make determinations or obligations with respect thereto, amend, or administer contracts.

(A) Simplified Acquisition (SA) Contracting Officers. Designated SA Contracting Officers are authorized to issue purchase and delivery orders, Blanket Purchase Agreements, and related documents as specified in their Certificate of Appointment and Redelegation of Authority. SA Contracting Officers are limited to the use of techniques specified in FAR Parts 8, 12, and 13. Each Redelegation of Authority will list specific limitations.

(B) SA Contracting Officers are limited to use of the procurement authorities listed below:

(1) Delivery orders against BBG and other agency contracts when so specified in the contract (Optional Form 347, Order for Supplies or Services);

(2) Purchase Orders for open-market purchases not in excess of \$150,000 (Optional Form 347);

(3) Delivery orders against Federal Supply Schedule Contracts (Optional Form 347); and

---

<sup>9</sup> Project offices may have records that are significant in litigation. For example, the daily inspection records of a construction project or minutes from recurring meetings with a contractor can be useful in resolving contractor claims for additional money.

(4) FEDSTRIP orders for supplies (Standard Form 344, via phone or fax, or through a U.S. General Services Administration (GSA) electronic shopping website).

(C) SA Contracting Officers must promote competition to the maximum extent practicable.

(1) For actions at or below the micro-purchase threshold, competition is not required if the SA Contracting Officer considers the price to be reasonable, and documents the rationale to support that determination in the contract file.

(2) If posting of the proposed contract action is not required<sup>10</sup>, SA Contracting Officers must consider soliciting quotes from at least three sources, which should include quotes from two sources not included in the previous solicitation.

(3) SA Contracting Officers shall obtain and consider all quotations that are timely received in response to oral or written solicitations, evaluate quotations according to the criteria in the solicitation, and document evaluations in the contract file.<sup>11</sup>

(4) For actions above the micro-purchase threshold, if only once source is available, SA Contracting Officers shall follow the procedures in FAR 13.106-1(b).

(ii) Responsibilities.

(A) Internal Instructions and Procedures. Each Overseas Contracting Officer Site/Station must issue internal instructions on procurement matters and establish appropriate controls to assure effective performance under authorities redelegated by the SPE, including specific responsibility for certification of contractor performance, as appropriate. Advice and approval by the SPE, or designee, must be obtained on all internal procurement instructions and procedures issued by the activity.

(B) Reporting Procurements. COs and Purchase Cardholders shall accurately report applicable contract actions, and modifications to those actions above the micro-purchase threshold to the Federal Procurement Data System-Next Generation (FPDS-NG) within three (3) business days after contract award<sup>12</sup>. Individuals without log-in access to the Financial Management System (currently named Momentum), must submit a consolidated list of all contract actions awarded by site/station, regardless of the dollar value, for the preceding month's awards via e-mail to [bbgfpds@bbg.gov](mailto:bbgfpds@bbg.gov), in the format included in IX BAM 460. Submissions are due by the 10<sup>th</sup> of each month.

---

<sup>10</sup> See IX BAM 520 "Publicizing Proposed Contract Actions".

<sup>11</sup> See CON Directive/Action Memo "Evaluation of Each Proposed Contract Action" for further guidance.

<sup>12</sup> See IX BAM 460 "Reporting of Contract Actions to the FPDS-NG and Coding of Service Contracts".

175 Set-Asides for Small Business

175.1 Class Set Asides

175.2 Class set Asides of Architect-Engineering Services

Section 170

SMALL AND SMALL DISADVANTAGED BUSINESSES

171 DEFINITIONS (FAR PART 19) - The size standards of small business concerns for procurement purposes are located in FAR 19.102.

171.1 Small Business - The Small Business Administration (SBA) prescribes what criteria a business must meet to qualify as a small business. These

criteria concern such things as average number of employees and average annual receipts.

171.2 Small Disadvantaged Business - A small disadvantaged business concern must meet the requirement of ownership listed in FAR 19.001.

172 POLICY (FAR Subpart 19.2) - It is the policy of Broadcasting to attempt to place a maximum of its total purchases and contracts for supplies and services with small and small disadvantaged business concerns. This does not only mean those exclusively reserved for small business concerns, e.g. acquisition of supplies and services which have an anticipated value of less than \$25,000, and which are subject to open market Simplified Acquisition procedures.

### 173 RESPONSIBILITIES

173.1 The Senior Procurement Executive - Is responsible for formulating policies and procedures and directing Broadcasting's program of procuring from small business concerns.

173.2 Director, Office of Small and Disadvantaged Business Utilization - The Policy and Procedures Officer serves as the focal point for Broadcasting for interfacing with the Small Business Administration.

173.3 Contracting Officers - Contracting officers shall recommend selected items or services that can reasonably be procured exclusively from small business for class set-asides. These items, after review by the Senior Procurement Executive will be added to the list of such items and services maintained by the Office of Contracts. The determination to make a class set-aside will be recorded in the case file.

173.4 Purchasing Activities shall make a continuing effort to increase the placement of orders with small business concerns.

173.5 Policy and Procedures Officer shall:

a. Coordinate the breakout of suitable items and services for procurement from small business concerns.

b. Develop and maintain a current list of items and services by classification code recommended for set-aside exclusively for small business concerns.

c. Coordinate inquiries and requests for advice from small business concerns on procurement matters.

d. Identify and encourage usage of small businesses on Solicitation Mailing Lists.

e. Ensure that participation of small business concerns is accurately reported.

174 COOPERATION WITH THE SMALL BUSINESS ADMINISTRATION (SBA) (FAR 19.4) -

174.1 Copies of Notices of Intent to Terminate a Contractor for Default - A contract involving a contractor to which a certificate of competency (COC) was issued or to which a loan was made by SBA shall not be terminated without prior approval of the Procurement Executive. The contracting officer shall then forward the notice of intent to terminate such contract for default to the SBA regional office issuing the COC.

#### 174.2 Appeals of Certificates of Competency Determination

a. If the contracting office disagrees with SBA's decision regarding issuance of a COC, the contracting office may make a recommendation to the Procurement Executive to file an appeal of the SBA decision.

b. The Senior Procurement Executive is the individual responsible for filing any formal appeal of a COC determination to SBA.

#### 175 SET-ASIDES FOR SMALL BUSINESS (FAR 19.5)

175.1 Class Set-Asides - The Contracting officer shall coordinate class set-asides with the Office of Contracts which is responsible for maintaining and distributing Broadcasting's lists of items selected for class set-asides.

175.2 Class Set-aside of Architect-Engineer Services Proposed architect-engineer (A/E) service contracts that are estimated not to exceed \$500,000 are set-aside exclusively for small business participation, except when it is determined on a case-by-case basis, on the recommendation of the technical support office for the acquisition and approved at a level above the contracting officer, that is unlikely that the specialized experience and technical requirements can be met by responsible small business firms.

PART IX- PROCUREMENT, 200 ASSISTANCE AGREEMENTS (GRANTS AND COOPERATIVE AGREEMENTS)  
Section 210

INTRODUCTION

211 Scope

212 Definitions

212.1 Cooperative Agreement

212.2 Grant

212.3 Substantial Involvement

213 Authorities

213.1 P.L. 95-224

213.2 P.L. 80-402

213.3 P.L. 87-256

213.4 P.L. 105-277

Section 210

INTRODUCTION

211 SCOPE - This section sets forth the policy and procedures governing the use of assistance agreements (grants and cooperative agreements). Because grants and cooperative agreements are classified as assistance agreements and not as procurements the Federal Acquisition Regulation (FAR), and other Federal acquisition regulations do not apply. However, OMB circulars which apply to grants and cooperative agreements and concern such things as initiating, negotiating, awarding, administering and closing out grants and cooperative agreements incorporate many of the FAR policies and procedures.

212 DEFINITIONS -

212.1 Cooperative Agreement means a type of assistance agreement used if Broadcasting's principal purpose in a given transaction is to transfer something of value to a recipient to accomplish a public purpose of support or stimulation authorized by Federal statute. This is when it is anticipated that there will be substantial involvement between Broadcasting and the recipient during performance.

212.2 Grant means a type of assistance agreement used if Broadcasting's principal purpose in a given transaction is to transfer something of value to a recipient to accomplish a public purpose of support or stimulation authorized by Federal statute when it is not anticipated that there will be substantial involvement between Broadcasting and the recipient during performance.

212.3 Substantial Involvement - Since the distinguishing characteristic between the two types of assistance agreements is the degree of Broadcasting involvement, a further illustration of the distinction is provided.

a. Anticipated substantial involvement does include:

- 1) Broadcasting's power to immediately halt an activity if detailed performance specifications are not met.
- 2) Broadcasting review and approval of one stage of work before work can begin on a subsequent stage.
- (3) Broadcasting review and approval of substantive provisions of proposed subgrants or subcontracts.
- (4) Broadcasting involvement in the selection of key recipient personnel.
- (5) Substantial, direct operational involvement or participation during the assisted activity.

b. Anticipated substantial involvement does not include:

- (1) Broadcasting approval of recipient plans prior to award.
- (2) Normal exercise of stewardship responsibilities such as site visits, performance reporting, financial reporting, and audit.
- (3) Unanticipated Broadcasting involvement to correct deficiencies.
- (4) review of performance after completion.
- (5) Inclusion of general administrative and/or statutory requirements.

## 213 AUTHORITIES

213.1. The Federal Grant and Cooperative Agreement Act of 1977, P.L. 95-224, U.S.C. 41.501A - was enacted to require executive agencies to distinguish procurement relationships from nonprocurement/assistance relationships. This is the first step toward achieving consistency in the

use of the various legal instruments by all agencies. The Act specifies and distinguishes three types of instruments that may be used contracts, grants, and cooperative agreements.

213.2 Smith-Mundt Act), P.L. 80-402 - authorizes the use of assistance awards to individuals or non-profit institutions, to "promote a better understanding of the United States in other countries, and to increase mutual understanding between the people of the United States and the people of other countries."

213.3 The Mutual Education and Cultural Exchange Act of 1961 (Fulbright-Hays Act), P.L. 87-256 - Authorizes the use of assistance agreements to individuals or non-profit institutions, to "enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries by means of educational and culture exchange; to strengthen the ties which unite us with other nations by demonstrating the educational and culture interests, developments and achievements of the people of the United States and other nations, and the contributions being made toward a peaceful and more fruitful life for people throughout the world; to promote international cooperation for educational and cultural advancement; and thus to assist in the development of friendly, sympathetic, and peaceful relations between the United States and other countries of the world."

213.4 Foreign Affairs Reform and Restructuring Act of 1998 P.L. 105-277 - establishes the BBG (Broadcasting) as an independent entity.

MOA Update: The policy with the most recent date takes precedence over policies in other sections of the existing and new MOA that have older dates.

PART IX- PROCUREMENT, 200 ASSISTANCE AGREEMENTS (GRANTS AND COOPERATIVE AGREEMENTS)

Section 220

POLICIES

221 Use of Procurement Agreement

222 Use of Assistance Agreement

223 Redelegations of Authority

223.1 Program Officer

223.2 Contracting Officer

Section 220

POLICIES

220 POLICIES

221 Use of Procurement Agreement - A Procurement Agreement should be used whenever Broadcasting obtains property or services for its direct benefit. Several tests of our receipt of direct benefit are: Do we retain ownership rights? Did we pay for full value (cost)? If we acquire property, it was probably as a result of procurement.

222 Use of Assistance Agreement

a. An Assistance Agreement may not be used in lieu of a procurement merely to avoid the formalities or administrative requirements of procurement. An Assistance Agreement is proper to use when Broadcasting's principal purpose in a given transaction is to transfer something of value to a recipient to accomplish a public purpose of support or stimulation. An example would be a grant to a lecturer to offset per diem expenses and/or an honorarium representing less than full compensation.

For purposes of defining less than full compensation, it may be assumed that an honorarium of \$100 per day or less would be less than full compensation for an individual who had gained sufficient prominence and stature to be considered as a program speaker.

b. There is no difference in the style, form, and format of grants and cooperative agreements. The distinction is the amount of Broadcasting involvement. If unsure which type of assistance agreement to use for a specific purpose, seek the advice of a contracting officer.

c. Assistance agreements cannot exceed five years duration, including any extensions of time for performance.

223 Redelegations of Authority - As in the case of contracts, grants and cooperative agreements may only be executed (signed) by a contracting officer or other Broadcasting employee who has been redelegated authority by the Procurement Executive. Any changes in the terms, conditions or specifications of an agreement become effective only when approved in writing by a contracting officer.

223.1 Program Officer - The authority to determine recipients, negotiate terms and conditions, and monitor grants and cooperative agreements involving funds available for international educational and cultural activities has been redelegated to certain individuals in the Voice of America (VOA) (see Redelegation of Authority No. M/K-85-3A dated November 12, 1985).

223.2 Contracting Officer - All assistance actions which have not been redelegated to individuals outside the Office of Contracts, shall be executed by a contracting officer.

MOA Update: The policy with the most recent date takes precedence over policies in other sections of the existing and new MOA that have older dates.

PART IX- PROCUREMENT, 200 ASSISTANCE AGREEMENTS (GRANTS AND COOPERATIVE AGREEMENTS)

Section 230

RESPONSIBILITIES

231 Program Office

232 Grants Officer

Section 230

RESPONSIBILITIES

230 RESPONSIBILITIES

Both the program (requesting) office and the Grants Officer Office of Contracts, have specific assigned responsibilities to them to ensure assistance programs are initiated, publicized, negotiated, awarded, administered, audited and closed out in an efficient and effective manner.

231 Program Office - The designated program office is responsible for:

- a. Initiating the assistance program with Broadcasting;
- b. Notifying the appropriate congressional committees fifteen days in advance;
- c. Publicizing assistance opportunities to afford the maximum number of potential recipients the opportunity to compete;
- d. Reviewing and evaluating proposals received in response to the notification executed in c. above;

e. Negotiating the terms and conditions of the assistance agreement, obtaining advice and counsel from the Grant Officer when required;

f. Monitoring the progress of recipients; and

g. Evaluating the program report.

232 Grants Officer- The Grants Officer, Office of Contracts, is responsible for:

a. Confirming the proposed assistance agreement is consistent with authorizing legislation. Disagreements will be resolved in consultation with the Office of the General Counsel (GC);

b. Determining the allowability and reasonableness of selected recipients' budgets;

c. Determining the suitability of the selected recipients' accounting practices for subsequent audit;

d. Executing (signing) the assistance agreement and any amendments thereto; and

e. Auditing financial reports and records to determine funds were expended properly.

MOA Update: The policy with the most recent date takes precedence over policies in other sections of the existing and new MOA that have older dates.

PART IX- PROCUREMENT, 200 ASSISTANCE AGREEMENTS (GRANTS AND COOPERATIVE AGREEMENTS)

Section 240

ADVANCE PLANNING

241 Lead Times

241.1 During the Fiscal Year

241.2 End of the Fiscal Year

242 Required Documentation for New Assistance Award Requests

243 Minimum Assistance Agreement Requirements

Section 240

ADVANCE PLANNING

241 LEAD TIMES

241.1 During the Fiscal Year - During the first three quarters of the fiscal year, office requests for assistance agreements shall be received in the Office of Contracts in sufficient time to allow the contracting officer to review and process the request and execute (sign) the assistance agreement at least 10 days before the required start date. The period of performance of the award will not be backdated. Late requests received in the Office of Contracts must have a written justification for the delay in meeting the 10 day requirement. The justification shall be signed by the office director. The office will also be responsible for obtaining the pre-award expenses incurred by a recipient prior to execution of the assistance agreement.

241.2 End of Fiscal Year - During the last quarter of the fiscal year, the following lead times are in effect:

a. Requests for the establishment of assistance agreements with new recipients who have not held a Broadcasting grant or cooperative agreement within the last two years shall be received in the Office of Contracts by August 15.

b. Requests for new awards to be made to current recipients of assistance must be received by September 1.

c. Requests to add projects or extend funding under existing grants or cooperative agreements must be received by September 15, provided the program need has been reviewed and certified by the office Director that the program is necessary, current funding is required to maintain continuity and the request is not being made just to keep funds from lapsing.

#### 242 REQUIRED DOCUMENTATION FOR NEW ASSISTANCE AWARD REQUESTS

The following list of documentation is required to be submitted to the Office of Contracts for all new assistance award requests:

a. Each request shall include the following certifications:

(1) Assurance of Compliance with Regulations under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and Title IX of the Education Amendments of 1972.

(2) Certification Regarding Drug-Free Workplace Requirements, is required for each assistance award.

(3) Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion is required for each assistance award.

(4) Certification Regarding Lobbying, and Disclosure of Lobbying Activities (SF-LLL). The Certification Regarding Lobbying is required for all awards of \$100,000 or more and the Disclosure is required, if applicable. A copy of the disclosure shall be submitted to the Office of Contracts.

(5) Certification of funds availability.

c. Each request shall be supported by a complete statement of the scope and purpose of the project.

d. Each request shall include a written record of all negotiations, including an analysis of competition, if any.

e. Each request for a cooperative agreement must have a specific statement of Broadcasting's anticipated substantial involvement.

#### 243 MINIMUM ASSISTANCE AGREEMENT REQUIREMENTS

An award shall be based on a written agreement under which the recipient agrees to use the funds in certain ways or to do certain things. Also, clauses covering reporting requirements, maintenance, and examination of

records, fiscal controls, etc., should be used wherever practicable, with such adaptations as may be necessary to meet the needs of the particular award. OMB provides guidance to executive agencies in the form of OMB Circulars which pertains to virtually all aspects of assistance agreements. Some of these circulars are A-120, A-122 and A-21. A contracting officer should be contacted for assistance in determining which OMB circular applies and what specific requirements must be met.

#### Exhibit 240A - Grant

GRANT AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND MEMORANDUM OF AGREEMENT, made and entered into by and between the Government of the United States of America (hereinafter referred to as the "Government"), acting through the BBG (hereinafter referred to as Broadcasting) and the grant organization (hereinafter referred to as the "Recipient").

WHEREAS, Broadcasting is conducting an educational and cultural exchange program as authorized under the applicable provisions of the Mutual Educational and Cultural Exchange Act of 1961, (Public Law 87-256), as amended, and

WHEREAS, Broadcasting deems it desirable to assist the Recipient in furtherance of the purpose of this program, and

WHEREAS, the Recipient is qualified and has indicated its willingness to carry out the program provided for herein in a manner and on conditions acceptable to Broadcasting.

NOW, THEREFORE, THIS AGREEMENT WITNESSETH:

#### ARTICLE I

##### PURPOSE

A .Broadcasting will obligate \$ to cover all domestic/international air transportation expenses of the Recipient during the performance of this Agreement. Therefore, the total provided under this Agreement is \$ .

B. The Recipient shall carry out this Agreement, in accordance with its proposal dated and any revisions to which both parties agree in writing. However, the Recipient's budget shall be in accordance with the Items of Expenditure stipulated under Section C of Article III of this Agreement. The above mentioned proposal is hereby incorporated by reference and made an integral part of this Agreement.

C. This Agreement is not intended to replace private efforts in this field but rather to supplement such efforts with financial assistance being limited in keeping with the nonprofit motive of the program.

#### ARTICLE II

##### PERIOD

A. The period of this Agreement shall be from through . All expenditures paid with funds provided by this Agreement must be incurred for authorized activities which take place during this period unless otherwise stipulated.

B. In the event the time prescribed herein should prove insufficient for the Recipient to carry out the program provided for herein, Broadcasting may provide such extension of the period of the Agreement as may be deemed advisable. Any extension will be effective only upon the execution of an amendment to the Agreement for this purpose. All requests for extensions must be received prior to the expiration date.

### ARTICLE III

#### PAYMENT AND ITEMS OF EXPENDITURE

A. The funds awarded pursuant to this Agreement shall be used for the purpose described in Article I; shall be paid to the Recipient in accordance with the provisions of Section B. herein below; and shall be expended in accordance with the Items of Expenditure set forth in Section C. herein below.

B. Requests for Advance or Reimbursement Payments may be requested monthly in the amounts required by the Recipient to carry out the purpose of this Agreement. Requests for payments shall be made on Standard Form 270 submitted to the Office of Contracts. The Recipient shall complete item 12 of the SF-270 and not item 11. Requests for payments shall be submitted in sufficient time to allow at least fourteen (14) days for processing. Each payment shall be the amount of expenditures anticipated during the following thirty (30) day period less any unexpended funds remaining from prior payments. This information must be reflected on the Standard Form 270 submitted for payment.

C. Items of Expenditure Amount

D. Transportation

Domestic. Broadcasting will withhold domestic air transportation funds provided under this Agreement. The Recipient shall use the Travel Management Center (TMC) method for all domestic air travel performed under this Agreement, as outlined in Appendix enclosed herewith.

OR

Domestic. Broadcasting will withhold domestic air \$ transportation funds provided under this Agreement. The Recipient shall use Government Transportation Requests (GTRs) for all domestic air travel performed under this Agreement, as outlined in Appendix enclosed herewith. \$

Total \$

International. Under separate arrangements, Broadcasting will provide \$ for international air transportation.

E. It is understood and agreed that the Recipient may make minor cumulative adjustments of up to five percent (5%) of the total budget, among the amounts specified for the items of expenditure set forth herein above. However, the Recipient may not transfer funds between the administrative and program budgets. No adjustment in excess of this margin may be made without the prior written approval of the Contracting Officer.

Select the appropriate Section F below for the type of organization receiving the award.

F. Allowability of costs incurred under this Agreement will be determined in accordance with Office of Management and Budget Circular A-122, "Cost Principles for Nonprofit Organizations," as in effect on the date of this Agreement. However, such costs are limited to the items of expenditure set forth in Section C. herein above.

F. Allowability of costs incurred under this Agreement will be determined in accordance with Office of Management and Budget Circular A-21 "Cost Principles for Educational Institutions" as in effect on the date of this Agreement. However, such costs are limited to the items of expenditure set forth in Section C. herein above.

G. It is understood and agreed that other expenses incurred by the Recipient in carrying out this program shall be met with funds other than those provided by this Agreement. The funds provided by this Agreement, however, are limited in expenditure according to the items specified in Section C. herein above.

H. The Recipient shall use United States flag carriers and economy accommodations for travel supported under this Agreement. All such travel shall be performed in accordance with the travel provisions of the Fly America Act.

#### ARTICLE IV

##### RESPONSIBILITIES

In carrying out the purposes of this Agreement, the Recipient shall be responsible for:

A. Planning, organizing and administering the programs described in Article I and in accordance with the Recipient's proposal as referenced in Article I B. and any revisions to which both parties agree in writing.

B. Maintaining accounting control over the funds provided by this Agreement with proper documentation, such as invoices, canceled checks, airline ticket stubs, etc. that will adequately substantiate all payments charged to this Agreement. Costs paid with funds provided by this Agreement must be identifiable in the Recipient's accounting system as costs charged to this Agreement. Lack of such documentation could result in a disallowance of charges to this Agreement.

C. When issuing statements, press releases, requests for proposals, bid solicitations, and other documents describing projects or programs funded in whole or in part with Federal money, all grantees receiving Federal funds, including but not limited to State and local governments, shall clearly state (1) the percentage of the total cost of the program or project which will be financed with Federal money, and (2) the dollar amount of Federal funds for the project or program.

The following Sections D and E are used when appropriate.

D. Assuring that all foreign participants funded under this Agreement are issued a form which indicates U.S. Government funding.

E. Enrolling participants under Health and Accident Insurance Coverage.

1. Providing insurance information and material to each participant. The insurance materials and reporting instructions will be provided to the Recipient.

2. In the event of accident or illness, assisting participants in the timely preparation, filing and resolution of claims and informing the Program Office of developments as well as reporting participants coverage dates.

## ARTICLE V

### KEY PERSONNEL

Within thirty (30) days after the date of execution of this Agreement, the Recipient shall furnish brief biographical sketches if these have not been previously furnished, including information on the education and experience, of officer personnel -- i.e., of the members of the professional staff in a program supervisory position engaged for or assigned to duties under this Agreement, and shall also provide similar information concerning such new personnel as may subsequently be assigned by the Recipient to duties in connection with this Agreement.

## ARTICLE VI

### REPORTS

The Recipient shall submit two (2) copies of the following reports, indicating the applicable Agreement number, to:

BBG (Broadcasting)  
Office of Contracts

#### A. Program

A report describing and evaluating the activities undertaken pursuant to this Agreement shall be submitted within ninety (90) days after the expiration date of this Agreement.

#### B. Financial

1. A report reflecting expenditures against each item of expenditure set forth in Section C. of Article III shall be submitted within ninety (90) days after the expiration date of this Agreement.

2. All international travel charged to this Agreement must be on an American flag carrier. If travel was on a foreign flag carrier, a statement justifying the use of a foreign flag carrier, which meets one of the exceptions cited in the "Fly America Act", must be included with the financial report. Travel on a foreign flag carrier which does not meet one of the exceptions of the Act will be disallowed.

#### ARTICLE VII

##### LIAISON

All liaison shall be with the designated elements of Broadcasting relative to the following responsibilities incurred by the Recipient under this Agreement:

A. Program

B. Financial - Office of Contracts

#### ARTICLE VIII

##### AMENDMENTS OR MODIFICATIONS

It is agreed that no oral statement of any person shall officially modify or affect the terms, conditions, or specifications of this Agreement. Any changes in the terms, conditions or specifications of the Agreement become effective only when approved in writing by the Contracting Officer.

#### ARTICLE IX

##### NONEXPENDABLE EQUIPMENT

The Recipient agrees that none of the funds provided by this Agreement shall be used for the purchase of nonexpendable items of equipment such as furniture or office equipment.

#### ARTICLE X

##### OMB CIRCULAR NO. A-110

The Recipient agrees to comply with OMB Circular No. A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and other Nonprofit Organizations, a copy of which is available from the Grants Officer, Office of Contracts

#### ARTICLE XI

##### GENERAL CONDITIONS

The attached General Conditions are made part of this Agreement and compliance of the Recipient with the provisions therein is mandatory.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the dates indicated herein below.

#### ARTICLE IV

##### RESPONSIBILITIES

In carrying out the purposes of this Agreement, the Recipient shall be responsible for:

A. Planning, organizing and administering the programs described in Article I and in accordance with the Recipient's proposal as referenced in Article I B. and any revisions to which both parties agree in writing.

B. Maintaining accounting control over the funds provided by this Agreement with proper documentation, such as invoices, canceled checks, airline ticket stubs, etc. that will adequately substantiate all payments charged to this Agreement. Costs paid with funds provided by this Agreement must be identifiable in the Recipient's accounting system as costs charged to this Agreement. Lack of such documentation could result in a disallowance of charges to this Agreement.

C. Stating in any announcement or publicity, where it is not inappropriate, that these activities are assisted financially by the BBG (Broadcasting) under the authority of \_\_\_\_\_. When issuing statements, press releases, requests for proposals, bid solicitations, and other documents describing projects or programs funded in whole or in part with Federal money, all grantees receiving Federal funds including but not limited to State and local governments, shall clearly state (1) the percentage of the total cost of the program or project which will be financed with Federal money, and (2) the dollar amount of Federal funds for the project or program.

The following Sections D and E are used when appropriate.

D. Assuring that all foreign participants funded under this Agreement are issued a form which indicates U.S. Government funding.

E. Enrolling participants under Health and Accident Insurance Coverage.

1. Providing insurance information and material to each participant. The insurance materials and reporting instructions will be provided to the Recipient .

2. In the event of accident or illness, assisting participants in the timely preparation, filing and resolution of claims and informing the Office of developments as well as reporting participants coverage dates.

#### ARTICLE V

##### KEY PERSONNEL

Within thirty (30) days after the date of execution of this Agreement, the Recipient shall furnish brief biographical sketches if these have not been previously furnished, including information on the education and experience, of officer personnel -- i.e., of the members of the professional staff in a program supervisory position engaged for or assigned to duties under this Agreement, and shall also provide similar information concerning such new personnel as may subsequently be assigned by the Recipient to duties in connection with this Agreement.

#### ARTICLE VI

##### REPORTS

The Recipient shall submit two (2) copies of the following reports, indicating the applicable Agreement number, to:

BBG (Broadcasting)

## Office of Contracts

### A. Program

A report describing and evaluating the activities undertaken pursuant to this Agreement shall be submitted within ninety (90) days after the expiration date of this Agreement.

### B. Financial

1. A report reflecting expenditures against each item of expenditure set forth in Section C. of Article III shall be submitted within ninety (90) days after the expiration date of this Agreement.

2. All international travel charged to this Agreement must be on an American flag carrier. If travel was on a foreign flag carrier, a statement justifying the use of a foreign flag carrier, which meets one of the exceptions cited in the "Fly America Act", must be included with the financial report. Travel on a foreign flag carrier which does not meet one of the exceptions of the Act will be disallowed.

## ARTICLE VII LIAISON

All liaison shall be with the designated elements of Broadcasting relative to the following responsibilities incurred by the Recipient under this Agreement:

### A. Program

### B. Financial - Office of Contracts

## ARTICLE VIII

### AMENDMENTS OR MODIFICATIONS

It is agreed that no oral statement of any person shall officially modify or affect the terms, conditions, or specifications of this Agreement. Any changes in the terms, conditions or specifications of the Agreement become effective only when approved in writing by the Contracting Officer.

## ARTICLE IX

### NONEXPENDABLE EQUIPMENT

The Recipient agrees that none of the funds provided by this Agreement shall be used for the purchase of nonexpendable items of equipment such as furniture or office equipment.

## ARTICLE X

OMB CIRCULAR NO. A-110

The Recipient agrees to comply with OMB Circular No. A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and other Nonprofit Organizations, a copy of which is available from the Grants Officer, Office of Contracts.

#### ARTICLE XI

##### GENERAL CONDITIONS

The attached General Conditions are made part of this Agreement and compliance of the Recipient with the provisions therein is mandatory.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the dates indicated herein below.

FOR THE RECIPIENT

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA

Signature

Contracting Officer

Title Office of Contracts

Date

Exhibit 240D - Request for Processing Assistance Award

MEMORANDUM FOR: Office of Contracts

FROM : Appropriate Office Head

SUBJECT : Request for Award of Grant/Cooperative Agreement to (legal name of recipient, followed by acronym in parentheses) in support of (actual project title)

PURPOSE : The award will (one or two sentences citing the purpose of the award

AMOUNT: Total funding amount

BEGINNING DATE: ENDING DATE:

REPORTING REQUIREMENTS: Unless special or interim reports are needed the Recipient will only be required to submit a final financial and program report within 90 days after the expiration date of the award.

DATE OF THE PROPOSAL: (date of original proposal /cover letter

RESPONSIBLE PROGRAM OFFICER: (office symbol and name TELEPHONE:

ADDITIONAL INFORMATION: Any other pertinent information may be added.

THIS REQUEST MUST BE ACCOMPANIED BY A REQUISITION

## Section 250

### AMENDMENTS

#### 251 Types

#### 252 Requirements

#### 253 Extension of the Performance Period

## Section 250

### AMENDMENTS

#### 250 AMENDMENTS

251 Types - An executed assistance agreement may be amended for following reasons: (a) increasing the amount of funding, (b) clarifying provisions, and (c) extending the performance period.

#### 252 Requirements

- a. All amendments shall be in compliance with MOA Part VII, Section 210.
- b. All requests for amendments shall be supported by a written request from the recipient explaining the need and purpose for the amendment.

#### 253 Extension of the Performance Period

- a. Requests for extension of the performance period under an assistance agreement shall be received in the Office of Contracts at least 60 days before the expiration date of the current agreement.
- b. Agreements will be amended to extend the performance period of the agreement with the approval of the program officer and contracting officer and upon execution of an appropriate amendment.
- c. Requests for extensions must include a summary of progress, fully explain the need for the extension, and include an estimate of the unobligated funds remaining and a plan for their use within the scope of the original purpose for which the agreement was awarded. The fact that funds remain at the expiration of an agreement is not in itself sufficient justification for an extension.
- d. Agreements will not be amended to approve late requests for extensions, except in very unusual circumstances.

## Section 260

### FUNDING

#### 261 Obligation of Funds

## 262 Recovery of Interest on Advanced Funds

### Section 260

#### FUNDING

##### 260 FUNDING

261 Obligation of Funds - Generally, awards may be made and funds obligated only for the fulfillment of requirements arising during the then fiscal year. Awards may be made and funds obligated in one fiscal year for a project to extend beyond such year, and payments under the award can be made from funds so obligated. In these cases it is frequently desirable to "grant" the entire fund (for obligation purposes) at the time of execution, but with payments to be made periodically to the recipient on the basis of need.

262 Recovery of Interest on Advanced Funds - To the extent interest is earned on advanced funds provided to the recipient, any and all interest earned shall become the property of the Government and shall be paid promptly to Broadcasting for deposit into the U.S. Treasury as miscellaneous receipts. Such interest shall not be used by the recipient or the program office for any purposes under the subject award.

### Section 270

#### RECIPIENT REPORTS

##### 271 Reporting Requirements

##### 272 Submission and Processing of Reports

###### 272.1 Interim Report

###### 272.2 Final Report

### Section 270

#### RECIPIENT REPORTS

##### 270 RECIPIENT REPORTS

##### 271 Reporting Requirements

a. Assistance awards to organizations involving funds of more than \$120,000 and a performance period of no less than 12 months, shall require financial reports to be submitted on a quarterly basis. Quarterly financial reports are necessary in order to reconcile the expenditures with the recipient's drawdown of funds.

b. All assistance awards at lower funding levels shall require financial reports to be submitted during the performance period as frequently as determined desirable by the program office and the contracting officer.

c. Each recipient shall submit program reports as frequently as required by the program office to ensure adequate monitoring of performance.

d. Financial and program reports cannot be required more frequently than quarterly nor less frequently than once per year, per OMB Circular A-110. To meet special program needs for information, alternative reporting schedules may be requested from the recipient, and if accepted, the revised reporting requirements shall be incorporated into the assistance agreement.

e. Every assistance agreement requires a final financial report and a final program report within 90 days after the expiration date of the agreement unless quarterly reports have been submitted during the period of the agreement and these reports are sufficient for Broadcasting to evaluate the program.

f. Recipients that fail to comply with the reporting requirements of their assistance agreements will not receive new awards until they are in compliance with the terms and conditions of their previous assistance agreement.

272 Submission and Processing of Reports - All interim and final reports will be submitted by the recipient directly to the Office of Contracts unless otherwise stipulated in the agreement.

When received, the Office of Contracts will log receipt of all reports and forward copies of both the financial and program reports to the program office. Contracts shall use appropriate correspondence to transmit reports to the program office. The program office shall return the yellow copy of the transmittal memo to Contracts to provide the results of their evaluation.

#### 272.1 Interim Report

a. The interim financial report will be reviewed by the contracting officer for compliance with the terms and conditions of the assistance agreement. Any discrepancies will be resolved by the contracting officer and the program office.

b. The interim program report will be reviewed by the program office to ensure that progress is in accordance with the terms of the assistance agreement and the objectives and goals of the assistance program are being accomplished.

#### 272.2 Final Report

a. The Grants Officer, will evaluate financial reports to ensure that funds are being expended for the appropriate items stipulated in the assistance. The Office of Contracts will also be responsible for the reconciliation of the drawdown of funds.

b. The program office, upon receipt of a program report from Contracts, will evaluate the report's accuracy and determine if the objectives of the assistance program were met.

c. If the program report is inadequate, the program office shall respond directly to the recipient and return the reply copy of the appropriate correspondence to Contracts with a copy of the program officer's response to the recipient. The program officer shall request a response from the recipient within 30-days and is responsible for follow-up with the recipient to ensure compliance with the program reporting requirements of the assistance agreement. All correspondence concerning the program report should be forwarded to Contracts for inclusion in the official assistance agreement file.

d. In reviewing final reports both the program office and the contracting officer will consult on any discrepancies they may find in reviewing both financial and program reports and determine the appropriate course of action to be taken.

e. If reports are not received by the due date, Contracts will notify the recipient of the missing report(s) and give the recipient 30-days to submit the missing report(s). f. If reports are not received prior to the 30-day extension expiring, Contracts will send the recipient a final notice stating that failure to submit the required report(s) -- whether interim or final -- shall be detrimental to the recipient receiving any future assistance awards.

#### Section 280

#### CLOSEOUT OF ASSISTANCE AGREEMENTS

#### 281 Procedures

#### Section 280

#### CLOSEOUT OF ASSISTANCE AGREEMENTS

#### 280 CLOSEOUT OF ASSISTANCE AGREEMENTS

#### 281 Procedures

a. The Grants Officer, Office of Contracts, is responsible for the closeout of assistance agreements. The closeout process shall be in accordance with the procedures specified by OMB Circulars and Broadcasting procedures - these are preaudit closeout procedures.

Upon receipt of the final financial and program reports the Office of Contracts takes the following action:

(1) Reviews the financial report to ensure that the expenditures of the recipient were in accordance with terms and conditions of the agreement.

(2) Provides the recipient with proper instructions for the disposition of any equipment or furniture acquired with Government funds as stipulated in the appropriate OMB Circular.

(3) Reconciles the expenditures with the payment record and requests any unexpended balance of funds from the recipient or requests that the final payment due the recipient is paid.

(4) Deobligates the unliquidated balance of funds from the accounting records.

(5) Receives the program office's evaluation of the final program report or if a final report is not required due to receipt of interim reports, the program office should prepare an evaluation based on the interim reports.

b. New assistance awards will be made only to recipients that have submitted adequate reports, when due, and have received evaluations of at least "satisfactory." The Director of the Office requesting a new assistance award may approve a new award to a recipient with a history of inadequate reports by stating the circumstances, in writing, that justify the new award. A copy of this justification shall be submitted to the Office of Contracts along with the proposed recipient's proposal before a new agreement will be executed by the contracting officer.

International Broadcasting Bureau

NOTICE

Material within this Manual of Operations and Administration may no longer be current. To ensure having the most current policy or procedure, please contact the Agency office responsible for the subject matter, e.g., information about performance appraisal, staffing, or compensation should be directed to the Office of Human Resources. For assistance in determining which office to contact, please contact Cathy Brown or Renee Tyrance-Gauff of the Analysis and Administration Division on (202) 203-4664 or feel free to email this staff at [cabrown@bbg.gov](mailto:cabrown@bbg.gov) or [crgauff@bbg.gov](mailto:crgauff@bbg.gov).

MOA Update: The policy with the most recent date takes precedence over policies in other sections of the existing and new MOA that have older dates.

PART IX- PROCUREMENT, 300 OVERSEAS PROCUREMENT  
Section 310

Procurement at Overseas Establishments (Transmitting Stations, Correspondent Bureaus and Marketing Offices)

Level I (Simplified Acquisitions up to \$100,000) procurement authority has been delegated to Broadcasting's overseas establishments. Procurement training is provided in Washington, D. C. before the head of an overseas establishment departs for his/her new assignment and refresher training is conducted overseas periodically by the Office of Contracts.

Overseas installations follow the basic Government procurement regulations contained in the Code of Federal Regulations (CFR) Chapters 6 and 19, the Federal Acquisitions Regulation (FAR), the Department of State Acquisition Regulations and Procedures (DOSAR).

The Senior Procurement Executive is responsible for issuing regulations and procedures with respect to Broadcasting's procurement activities. The responsibility includes joint participation with the Office of the General Counsel in developing procedures which are used only by Broadcasting.

ATTACHMENTS: (A) Contract Actions Awarded Tracking Sheet  
(B) Steps for Creating a FPDS-NG Template and BPA/Call Order Templates

1. PURPOSE. This memorandum establishes procedures for reporting awarded Contract Actions above the micro-purchase threshold and modifications to those actions regardless of dollar value, to the Federal Procurement Data System-Next Generation (FPDS-NG). FPDS-NG is a comprehensive web-based tool for Federal agencies to report contract data. The resulting data is used as a basis for recurring and special reports to the President, the Congress, federal agencies, and the public sector. FPDS-NG is the primary source for many of our internal and external reports; therefore, it is imperative that the data reported is timely, accurate, valid, realistic, and reliable.
2. ACTION. All Contracting Officers (COs), Contract Specialists (CSs) and Purchase Cardholders (PCs) with permanent and temporary delegated contracting authority above the

micro-purchase threshold shall be knowledgeable of this policy and ensure it is properly implemented. Failure to comply with the procedures may result in reduction of contracting authority, suspension of contracting warrants, and/or issuance of disciplinary action, up to and including removal from Federal service.

3. DIRECTIVES AFFECTED. Reference (a) is superseded with this new policy, which will be incorporated into Broadcasting Administrative Manual (BAM) Part IX, Section 4.
4. DISCUSSION. Reference (b) requires Federal agencies to use FPDS-NG to report most Contract Actions and to maintain this data at Internet site <https://www.fpds.gov>. A review of draft and unreported Contract Actions in FPDS-NG and Momentum display that a vast number of BBG actions have not been reported within three (3) business days after contract award.
5. DEFINITIONS.

Closely Associated with Inherently Governmental Function (CL): A function that is generally not considered to be inherently governmental but may approach being in that category because of its nature and the risk that performance may impinge on Federal officials' performance of an inherently government function.

Contract Action: Any oral or written action that results in the purchase, rent, or lease of supplies or equipment, services, or construction using appropriated dollars over the micro-purchase threshold, or modifications to these actions regardless of dollar value. Contract Action does not include grants, cooperative agreements, other transactions, real property leases, requisitions from Federal stock, training authorizations, or other non-FAR based transactions.

Contract Action Report (CAR): Contract Action data required to be entered into the FPDS-NG. Types of CARs are Basic Ordering Agreements (BOA), Blanket Purchase Agreements (BPA), BPA Calls, Definitive Contracts, Delivery/Task Orders, Indefinite Delivery Contracts (IDC), Indefinite Delivery Vehicles (IDV) and Purchase Orders. See FAR Part 2 for definitions of these actions.

Contracting Officer (CO): An individual who has received explicitly defined written authority from the Senior Procurement Executive (SPE) to enter into, administer, and/or terminate contracts and make related determinations and findings.

Critical Function (CT): A function that is necessary to the agency being able to effectively perform and maintain control of its mission and operations. Typically, critical functions are recurring and long-term in duration. A function that would not expose the agency to risk of mission failure if performed entirely by contractors is not a critical function.

Data Universal Numbering System (DUNS) Number: The unique 9-digit number is regulated and assigned by Dun & Bradstreet (D&B) to identify each physical location of a business or organization, which is used as the identification number for Federal contractors.

Federal Procurement Data System – Next Generation (FPDS-NG): An automated system used to collect and report Federal procurement contract awards. It is the single authoritative repository for procurement award data.

Generic DUNS Number: A DUNS number assigned to a category of vendors not specific to any individual or entity. See FAR Subpart 4.605(b)(1) for allowable use of Generic DUNS numbers.

Inherently Governmental: A function that is so intimately related to the public interest as to mandate performance by Government employees. This function cannot be performed by a contractor. See FAR Subpart 2.1 and 7.503 for further definitions.

Momentum: A financial management system used by most agency domestic offices, including the BBG. It reports financial obligations and reports contracts awards and modifications to FPDS-NG as well as populates some of the fields in FPDS-NG.

Other Function (OT): A function that does not fit the definition for inherently governmental function, closely associated with inherently governmental function (CL) or critical function (CT).

Procurement Instrument Identifier (PIID): Unique identifier for each contract, order, or agreement. Each PIID for the agency must begin with “BBG” and then followed with the appropriate numbering scheme for each Contract Action type. It must remain different from those used by any other agency for at least 20 years from the date of contract award for further guidance on PIIDs, contact bbgfpds@bbg.gov.

Purchase Cardholder (PC): An individual who has received explicitly defined written authority from the Senior Procurement Executive (SPE) to make authorized purchases using a government-wide commercial purchase card.

System for Award Management (SAM): SAM is the consolidation of government-wide acquisition and award support systems, such as Central Contractor Registration (CCR), Excluded Parties List System (EPLS), and On-line Representations and Certifications Application (ORCA) into one system. SAMstreamlines processes, eliminating the need to enter the same data multiple times, and consolidates hosting to make the process of doing business with the government more efficient.

6. PROCEDURE. (a) Effective immediately and in accordance with reference (b), all COs and PCs with temporarily or permanently delegated contracting authority above the micro-purchase threshold shall accurately report applicable Contract Actions, and modifications to those actions, regardless of dollar value to FPDS-NG no later than *three (3) business days after Contract Action*. FPDS-NG is available on the Internet at <https://www.fpds.gov/>. The CO or PC must verify that the CAR accurately reflects the Contract Action.

(b) All unclassified reportable Contract Actions using appropriated funds must be reported to FPDS-NG. See FAR 4.606 for detailed guidance on which awards are reportable and non-reportable awards.

- (c) Each Contract Action and every modification to the action shall have a unique PIID for each Contract Action awarded and reported to FPDS-NG. Each PIID must begin with “BBG” and be followed with the appropriate numbering scheme for each Contract Action type. Most PIIDs are a 12-digit number consisting of alpha-numeric characters.
- (d) Each Contract Action must identify and report a DUNS for the Contract Action reported to FPDS-NG. The DUNS number must identify the contractor’s name and address as stated in the resultant contract, and as registered in SAM. See FAR Subpart 4.605 for allowable use of a Generic DUNS number.
- (e) All Contract Actions, except for those mentioned in paragraphs (f) and (g) below, must be reported through Momentum to the FPDS-NG website. To report a Contract Action in Momentum, on the Header Page, the COs / PCs must enter their user id’s or the individual designated to complete the FPDS-NG action in the “FPDS Contact:” field. Users must remove FPDS-NG tasks from their Momentum in-boxes after the CAR is reported. Effective immediately, Momentum will require COs / PCs to complete the FPDS-NG action before any award can be processed.
- (f) For Contract Actions prior to fiscal year 2013 (i.e. Contract Actions that occurred before October 1, 2012) COs / PCs must report Contract Actions directly at the FPDS-NG website.
- (g) COs and PCs without log in access to Momentum, such as COs stationed overseas, must report Contract Actions directly at the FPDS-NG website. Also, these individuals must submit a consolidated list of all Contract Actions awarded by site/station, regardless of the dollar value, for the preceding month awards in the attached format (Attachment A) and to the this e-mail address: bbgfpds@bbg.gov. Submissions are due by the 10<sup>th</sup> of each month. Each site must designate the person(s) who will be responsible for submitting the monthly list and provide the individual’s name(s) via e-mail to bbgfpds@bbg.gov by March 20, 2013.
- (h) Individuals unable to report directly at the FPDS-NG site due to system issues must notify the Office of Contracts, Policy Branch (CON/P) immediately via e-mail at bbgfpds@bbg.gov and include a detailed description of the issue.
- (i) COs and PCs who designate another person to report contract data on their behalf, remain responsible for reviewing the entered data and for ensuring that the data entered into FPDS-NG is accurate, complete and timely. After the action is in final status, the COs/PCs must sign and date on the FPDS-NG printed action as evidence that the FPDS-NG entry has been reviewed and is accurate and complete.
- (j) FPDS-NG user accounts are established by CON/P. Persons who require a logon ID and password in order to report Contract Actions or facilitate data entry must request access via the following e-mail address: bbgfpds@bbg.gov. Please include the requestor’s name, title (e.g., contractor, procurement assistant, etc.), name of contracting

specialist/contracting officer that he/she will facilitate data entry for, and office name. Allow two to three (2-3) business days for account set up.

- (k) FPDS-NG Award and IDV Computer Based Training (CBT) is available at Internet site <https://fpds.gov> under the “Training” tab. This training is mandatory for new users.
- (l) Reference (c) is a resource that provides detailed instructions on FPDS-NG data entry that is available at <https://fpds.gov> under the “Training” tab. If you have any questions regarding data entry that are not clearly answered in the resource manual, submit your questions via e-mail to [bbgfpds@bbg.gov](mailto:bbgfpds@bbg.gov).
- (m) All mandatory FPDS-NG fields, as well as all optional fields that apply to a specific Contract Action, must be accurately completed in FPDS-NG. For example, in the Treasury Account Symbol field, enter code “95” for Agency Identifier, code “0206” for Main Account, and code “000” for Sub Account; for the Contracting Office ID and Program/Funding Office ID fields, select the office(s) that awarded and funded the Contract Action; clearly describe the Contract Action in the “Description Requirement” field; select the proper “Place of Manufacture” (POM) from POM field drop down list for the end product procured in accordance with the Buy America Act, etc.
- (n) Contract Actions for Personal Service Contracts (PSC) and Purchase Order Vendors (POV) must be identified in Momentum and FPDS-NG using Product Service Code R497 for PSC and Product Service Code R499 for POV. To identify these actions further, enter “PSC” or “POV” in the “Major Program” field in FPDS-NG.
- (o) Effective immediately, discontinue using Product Service Code 9999 to identify Contract Actions in Momentum and FPDS-NG (due to the vague description of the code). Product Service Codes can be found in Momentum, at the FPDS-NG website, and in the FPDS-NG Product Service Code Manual August 2011 Edition at website <https://www.acquisition.gov>.
- (p) All purchase card awards and modifications to those awards above the micro-purchase threshold must be entered into Momentum as Field Acquisitions Awards (FA), Field Acquisitions Orders (FO), Acquisitions Awards (QA), or Acquisitions Orders (QOs), and then reported into FPDS-NG with the “Purchase Card Payment Method” field selected “Yes”.
- (q) A hardcopy of the final FPDS-NG CAR must be filed in the contract file.
- (r) CON/P will monitor accuracy, validity, and timely submission of draft and final CARs. The Senior Procurement Executive must annually certify by January 1st the completeness and accuracy of the CAR data to the General Services Administration (GSA) and OFPP, in accordance with reference (e). To validate this certification, CON/P will conduct a statistically valid comparison of the agency’s FPDS-NG CAR against the associated contract files to ensure the FPDS-NG error rate is no more than five percent (5%) among selected data fields. The CARs sampled will be selected randomly and validated by an individual other than the CO who awarded the contract or the person who

entered the contract data in FPDS-NG. COs/PCs must promptly assist in the validation and verification process if contacted by the Senior Procurement Executive or CON/P.

- (s) To comply with the certification requirement, described in paragraph 6(r) and reference (e) above, at the end of each fiscal year, CON/P will conduct a review to determine if any Contract Actions during the previous fiscal year were not reported by the deadline in reference (b), and have not yet been reported to the FPDS-NG. CON/P will then:
  - (i) Notify the responsible CO or PC that he or she was responsible for a CAR that is now delinquent;
  - (ii) Re-establish a deadline for submitting the delinquent CAR to the FPDS-NG, no later than forty-five (45) days after the start of the new fiscal year; and
  - (iii) Notify the Senior Procurement Executive of the delinquency, so that he or she may take further action.
- (t) For Contract Actions prior to fiscal year 2013 (i.e. Contract Actions that occurred before October 1, 2012), which have not been reported to the FPDS-NG Website, The Office of Contracts will directly notify responsible individuals and establish new reporting deadlines for these delinquent CARs.
- (u) Based on the backlog of Contract Actions that need to be reported, individuals may use the FPDS-NG Express Reporting to consolidate multiple CARs issued under the same PIID for the same vendor that are awarded within the same fiscal year (see FAR Subpart 4.606). This method of reporting is used when it would be overly burdensome to report each action individually. When used, Express Reporting should be done at least once monthly. Also, the "Number of Action" field in FPDS-NG must indicate the number of Contract Actions consolidated in the one CAR transaction. For example, Purchase Order BBG50-P-10-0000 and 2 modifications against it were awarded in FY-2010. Consolidate and report these three awards under one CAR, instead of reporting them under three separate FPDS-NG actions. Express reporting cannot be used to report CARs from FY-2012 and later. For further guidance on this method of reporting, send questions to [bbgfpds@bbg.gov](mailto:bbgfpds@bbg.gov).
- (v) Another viable option to report the backlog of Contract Actions in FPDS-NG is through the creation of "Templates" in FPDS-NG. This method is useful for Contract Actions in which individuals frequently place orders with a vendor for a particular service/product which contain the same common data elements needed to be reported for recurring awards. This will eliminate the re-keying of elements that are the same for multiple records. You can create "Templates" for Awards and Indefinite Delivery Vehicles (IDV) from the Home Page in FPDS-NG by selecting the award type (Awards/IDVs) and from existing CARs. See Attachment B for instructions/example.
- (w) Reference (f) requires a new FPDS-NG coding for service contracts for new contracts awarded on or after March 1, 2012. Agencies are now required to report on the role contracted services play in achieving agency objectives. COs shall review the OFPP

Policy Letter 11-01, Performance of Inherently Governmental and Critical Functions. When a contract for services is initially awarded and each modification afterward, the CO shall ensure in the *first letters* of the FPDS-NG “Description of Requirement” field include the following:

- (i) Enter code “IGF::CL::IGF” for services that are predominantly for functions “Closely Associated” to inherently governmental ones;
- (ii) Enter code “IGF::CT::IGF” for services that are “Critical Functions”;
- (iii) Enter code “IGF::OT::IGF” for “Other Functions” when neither of the above applies; or
- (iv) Enter code “IGF::CL,CT::IGF or IGF::CT,CL::IGF ” for services that are a combination of “Closely Associated” and Critical Functions”.

Identifying CL and CT functions at the time of award should assist the agency (in the case of closely associated functions) in prioritizing which contracts may require increased management attention and oversight to ensure that mission creep does not result in contractors performing inherently governmental functions and (in the case of critical functions) ensure that the agency does not lose control of its mission and operations.

Note: This can also be accomplished by annotating these codes at the start of the Header Description block in Momentum.

- (x) Requests for waivers to deviate from these procedures must be sent to CON/P via e-mail at [bbgfpds@bbg.gov](mailto:bbgfpds@bbg.gov).

7. MAINTENANCE: This policy memorandum shall be maintained by the Senior Procurement Executive and updated as needed. If you have any questions pertaining to this policy memorandum, please direct them to Mr. McGuirk at telephone number (202) 382-7840 or via e-mail at [jmcguirk@bbg.gov](mailto:jmcguirk@bbg.gov).

## Attachment B -- Steps for Creating a FPDS-NG Template

1. On the FPDS-NG Home Page (see Figure 1), under the Awards or Basic IDVs, click the document (Delivery/Task Order Against IDV, Purchase Order, Definitive Contract, BPA Call, Blanket Purchase Agreements (BPA) or Indefinite Delivery Contracts (IDC)) that you want to open to create a template.
2. Enter recurring data on the document, and then click "Save Tmplt".
3. Enter name of template and description in the "Template Name" and "Template Description" fields, and then click "Save" and click "Close". See Figure 2 for sample template.
4. To open saved template, click either the Template Awards Inbox or Template IDVs Inbox, and select the template you created.
5. Click "Create Doc" on the template and then enter data on the contract action report (CAR) in accordance with the award.
6. Click "Save" and then click "Validate". If no error message appear, then click "Save" again and close by clicking the "X" in the upper right hand corner. Note: Templates can be created from existing FPDS actions.

**Title:** IX BAM 520 – Publicizing Proposed Contract Actions

**Policy Tracking #:** CON-15-03

**Effective Date:** April 27, 2016

**Originating Office:** Office of Contracts, (202) 382-7838, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** The purpose of this policy is to provide guidance related to publicizing proposed contract actions. Publicizing contract actions is important to increase competition, broaden industry participation in meeting government requirements, and improve small business access to acquisition information by identifying contracting and subcontracting opportunities.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

- (i) [Federal Acquisition Regulation \(FAR\) Subpart 5.1 -- Dissemination of Information.](#)
- (ii) [FAR Subpart 5.2 -- Synopsis of Proposed Contract Actions.](#)
- (iii) [FAR Section 12.603 -- Streamlined Solicitation for Commercial Items.](#)
- (iv) The Competition in Contracting Act (CICA) of 1984, [41 U.S.C. § 253.](#)
- (v) The Small Business Act, [15 U.S.C. § 631-657.](#)

(2) Scope.

- (i) This policy applies to all contracting officers (COs) employed by the Federal Government elements of the Broadcasting Board of Governors (i.e., Voice of America; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and International Broadcasting Bureau), referred to in this policy as “the Agency” or “BBG”.
- (ii) This policy applies to all contract actions, including purchase card transactions, expected to exceed \$15,000; and any contract action in any amount when advantageous to the government.
- (iii) Overseas COs shall adhere to this policy unless they can display a notice in a public place.

**(c) POLICY:**

- (1) For proposed contract actions expected to exceed \$15,000, but not expected to exceed \$25,000, an unclassified notice of the solicitation or copy of the solicitation shall be posted on the BBG website at [www.bbg.gov/partnerwithusdoing-business/](http://www.bbg.gov/partnerwithusdoing-business/), unless an exception referenced in FAR 5.101(a)(2)(ii) applies.

(2) For acquisitions expected to exceed \$25,000, the proposed contract action shall be synopsisized, and the synopsis transmitted to the governmentwide point of entry (GPE)<sup>1</sup>, unless an exception at FAR 5.202(a) applies.

(i) If the proposed action is synopsisized in the GPE, a minimum of 15 days is required before the related solicitation shall also be posted in the GPE, unless an exemption at FAR 5.102(a)(5) applies. Specifications, technical data, brand name justifications and documentation shall be included with the solicitation.

(ii) For the acquisition of commercial items, the combined synopsis/solicitation procedure detailed in FAR 12.603 may be used.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES FOR CONTRACTING OFFICERS (COS):**

(1) Electronically posting proposed contract actions expected to exceed \$15,000, but not expected to exceed \$25,000:

(i) COs shall send the notice or solicitation, in the “description” format required by FAR 5.207(c), to [PostingNTE25k@bbg.gov](mailto:PostingNTE25k@bbg.gov) for posting to the BBG website. The notice must include a statement that all responsible sources may submit a response which, if timely received, must be considered by the agency.

(ii) If a solicitation is posted instead of a notice, the solicitation should be issued on a Standard Form 18, Request for Quotation (RFQ), and contain the following:

(A) A unique procurement instrument identifier (PIID) in Block 1. “Request No.” in the format required by FAR Subpart 4.16 and Agency policies and procedures<sup>2</sup>;

(B) A statement that the acquisition is set-aside for small business concerns; and

(C) An e-mail address that will permit the public to respond to the solicitation electronically, or cite alternate submission instructions.

(iii) If the description of the notice or solicitation is in an improper format, it will be returned to the CO for correction prior to posting by the Office of Contracts.

(iv) The notice or solicitation will be posted the next business day or not later than the date the solicitation is issued. COs shall keep a copy of the notice or solicitation as posted on the website as documentation for the contract file. The notice or solicitation shall remain posted for at least 10 days, or until after quotations have been opened, whichever is later; after which it will automatically be removed from the website without archiving.

---

<sup>1</sup> The GPE is currently the Federal Business Opportunities (FedBizOpps) website, <http://www.fbo.gov>.

<sup>2</sup> See Policy Memorandum No. 12-01 “Electronically Posting Solicitations Over \$15,000 and Not to Exceed \$25,000 to BBG Internet Website” for further guidance.

(2) Notices and solicitations for proposed contract actions expected to exceed \$25,000 shall be posted in the GPE. Any questions may be sent via e-mail to [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov).

(3) Requests for waivers to deviate from this policy should be sent via e-mail to [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov).

**(e) DEFINITIONS:**

(1) Contract action as used in this policy means an action resulting in a contract, including actions for additional supplies or services outside the existing contract scope. This term does not include actions that are within the scope and under the terms of the existing contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

(2) Synopsis is a summary of the proposed contract action. As stated in FAR Paragraph 5.207(a), each synopsis must include data elements such as the product or service code, proposed solicitation number, closing response date, point of contact or contracting officer, etc.

**(f) EFFECTIVE DATE AND APPROVAL:**

Approved by:

Effective Date:

  
\_\_\_\_\_  
John F. Lansing  
CEO and Director

4.27.16

**Title:** IX BAM 630 – Other Than Full and Open Competition

**Policy Tracking #:** CON-16-03

**Effective Date:** May 25, 2016

**Originating Office:** Office of Contracts, (202) 382-7838, bbgconpolicy@bbg.gov

---

**(a) PURPOSE:** The purpose of this policy is to provide guidance on how to prepare and process justifications for other than full and open competition.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

(i) [Federal Acquisition Regulation \(FAR\) Subpart 6.3 -- Other Than Full and Open Competition.](#)

(ii) The Competition in Contracting Act (CICA) of 1984, [41 U.S.C. § 253](#).

(2) Scope.

(i) This policy applies to the Federal Government elements of the Broadcasting Board of Governors (i.e., International Broadcasting Bureau; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and Voice of America), referred to in this policy as “the Agency”.

(ii) This policy applies to all acquisitions for goods and services, unless the requirement meets an exception listed at FAR 6.001<sup>1</sup>, or the requirement will be awarded pursuant to FAR Subpart 6.2 -- Full and Open Competition After Exclusion of Sources.

**(c) POLICY:**

(1) Full and Open Competition. Full and open competition shall be used to fulfill Agency requirements, unless other than full and open competition is permitted by one of the seven exceptions in FAR 6.302 -- Circumstances permitting other than full and open competition (which are listed in the chart in section (c)(4)(i)).

(i) Acquisitions that use brand-name descriptions or other purchase descriptions to specify a particular brand-name, product, or feature peculiar to one manufacturer do not constitute full and open competition<sup>2</sup>, and those acquisitions shall be justified and approved in accordance with this policy.

---

<sup>1</sup> Noted exceptions include in-scope contract modifications, orders placed under indefinite-delivery contracts, and contracts awarded using simplified acquisition procedures. Simplified acquisitions (i.e., actions under the simplified acquisition threshold - which is currently \$150,000 - and certain commercial items under FAR Subpart 13.5) are outside the scope of this policy and must follow the procedures in FAR 13.106-1(b) Soliciting from a single source.

<sup>2</sup> See FAR 6.302-1(c) -- Application for brand name descriptions.

(2) Justification and Approval for Other Than Full and Open Competition (J&A).

(i) A J&A shall be in the form of a separate, self-contained document, prepared in accordance with the FAR<sup>3</sup>. The “Justification for Other Than Full and Open Competition” template provided in CON Directive/Action Memo titled “Procedures for Other Than Full and Open Competition” may be used as a guide.

(ii) In addition to the FAR requirements, J&As shall address the following (when applicable):

(A) Office name, office symbol, project manager (PM), and PM telephone number;

(B) Project identification number;

(C) A full description of the requirement and its estimated total dollar value, which may be in the form of a statement of work, performance work statement, purchase description, or technical specification;

(D) A statement explaining whether the acquisition is a stand-alone acquisition or one in a series, or part of a related group of acquisitions; and

(E) If unusual and compelling urgency is a basis for the request<sup>4</sup>, when detailing the extent and nature of harm to the Agency, explain the circumstances that led to the need for an urgent contract action, including what serious injury, financial or otherwise, the Agency would incur if time were taken for full and open competition, and why the requirement could not have been processed in sufficient time to permit full and open competition.

(iii) The J&A shall contain sufficient facts and rationale to justify the use of the specific authority cited. Documentation in the justification should be sufficient to permit a reasonable business person to follow and be objectively persuaded by the rationale.

(iv) Lack of advanced planning, concerns related to the amount of funds available (such as expiring funds), administrative ease, reduced staff, or other internal intangible benefits are not lawful reasons for limiting competition.

(v) Preliminary arrangements or agreements with a proposed contractor made by someone other than an authorized contracting officer (CO) will have no effect on the rationale used to support an acquisition for other than full and open competition.

---

<sup>3</sup> See FAR 6.303 -- Justifications.

<sup>4</sup> See FAR 6.302-2 -- Unusual and compelling urgency.

(3) Certifications and Approvals.

(i) The PM and CO must certify that the justification is accurate and complete to the best of their knowledge and belief.

(ii) Acquisitions that meet the thresholds detailed in the chart below require the applicable approvals, listed in the order they shall be obtained.

<b>Dollar Threshold</b>	<b>Required Approvals</b>
≥ \$150,000	1. Project Manager and/or Director of the Program Office  2. Contracting Officer Representative  3. Contracting Officer For actions between \$150,000 - \$700,000, the CO certification also serves as approval
≥ \$700,000	Competition Advocate
≥ \$13,500,000	Senior Procurement Executive

(4) Publicizing Actions.

(i) A proposed contract action shall be synopsisized<sup>5</sup>, and the synopsis transmitted to the governmentwide point of entry (GPE)<sup>6</sup>, unless an exception at FAR 5.202 applies. The following chart lists possible exceptions that may be applicable for each justification:

<b>Circumstance Permitting Other Than Full and Open Competition</b>	<b>Possible FAR Exceptions to Synopsisizing Proposed Contract Actions<sup>7</sup></b>
6.302-1 -- Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements	5.202(a)(8)
6.302-2 -- Unusual and Compelling Urgency	5.202(a)(2)
6.302-3 -- Industrial Mobilization; Engineering, Developmental, or Research Capability; or Expert Services	5.202(a)(10) or (14)
6.302-4 -- International Agreement	5.202(a)(3)
6.302-5 -- Authorized or Required by Statute	5.202(a)(4) or (10)
6.302-6 -- National Security	5.202(a)(1)
6.302-7 -- Public Interest	5.202(a)(10)

<sup>5</sup> See FAR Subpart 5.2 -- Synopsis of Proposed Contract Actions and IX BAM 520 -- Publicizing Proposed Contract Actions for further guidance.

<sup>6</sup> The GPE is currently the Federal Business Opportunities (FedBizOpps) website, <http://www.fbo.gov>.

<sup>7</sup> The CO must ensure circumstances meet the qualifications for the exception.

(ii) In accordance with FAR 6.305 -- Availability of the justification, the approved J&A shall be made publically available through the GPE and Agency website<sup>8</sup>.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

**(1) Project Manager (PM).**

(i) The PM should discuss a prospective request for other than full and open competition with the COR, CO, and competition advocate as early as possible during the acquisition planning stage, and prior to submitting a requisition. Early discussions may avoid delays which might otherwise occur should it be determined that the request for other than full and open competition is not justified.

(ii) The PM is responsible for preparing the justification, and shall attach the J&A at the time of submitting a requisition.

(A) The PM shall conduct market research in accordance with FAR Part 10 -- Market Research, prior to submitting a requisition to ensure full and open competition is obtained to the fullest extent.

**(2) Contracting Officer's Representative (COR).**

(i) Once the COR is made aware of a prospective request for other than full and open competition, they shall work through this process with the PM. Working with the COR may resolve uncertainties, assist in finding additional sources for market research, and allow for proper scheduling of the acquisition.

(ii) Once a J&A is certified, the COR shall submit the J&A for the necessary approvals<sup>9</sup>, and return the approved J&A to the PM for submission with the requisition.

**(3) Contracting Officer (CO).**

(i) When there are circumstances for other than full and competition, the CO shall work with the PM, COR, and competition advocate to ensure the documentation complies with this policy and the FAR.

(ii) The CO must ensure that the market research conducted includes information specific to the supplies and services being acquired, and is sufficiently broad to ensure that all areas of competition were sought and achieved prior to approving or seeking approval for a J&A.

---

<sup>8</sup> [www.bbg.gov/partnerwithusdoing-business/](http://www.bbg.gov/partnerwithusdoing-business/).

<sup>9</sup> Please note that the competition advocate should be involved as early as possible, and prior to submission of a J&A for approval (see section (d)(1)(i) above).

(iii) The CO shall ensure the J&A, with all required approvals, is retained in the contract file.

(iv) The CO shall publicize actions in accordance with section (c)(4) above, and shall remove all contractor proprietary data<sup>10</sup> before publicizing and submitting a J&A via e-mail to [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov) for posting on the Agency website.

(v) If a written request for other than full and open competition is initiated by the PM but not justified, the CO shall document why the request was cancelled in the contract file.

**(e) EFFECTIVE DATE AND APPROVAL:**

Approved by:

John F. Lansing  
CEO and Director

---

<sup>10</sup> See FAR 6.305(e) for further guidance.

**Title:** IX BAM 710 – Acquisition Planning

**Policy Tracking #:** CON-15-04

**Effective Date:** September 2, 2016

**Originating Office:** Office of Management Services – Contracts (OMS/C), (202) 382-7838,  
[bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** This policy replaces the policy titled “IX BAM 710 – Acquisition Planning – Interim Policy.” The purpose of this policy is to provide guidance on how to prepare and process acquisition forecasts and acquisition plans.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

(i) [Federal Acquisition Regulation \(FAR\) Subpart 7.1 -- Acquisition Plans.](#)

(ii) The Business Opportunity Development Reform Act of 1988, Public Law 100-656 (which amends [The Small Business Act](#)).

(2) Scope.

(i) This policy applies to the Federal Government elements of the Broadcasting Board of Governors (i.e., International Broadcasting Bureau; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and Voice of America), referred to in this policy as “the Agency” or “BBG.”

(ii) This policy supplements the FAR<sup>1</sup> and is applicable to all acquisitions issued after the effective date of this policy.

**(c) POLICY:**

(1) Acquisition Forecasting.

(i) The Agency shall incorporate acquisition forecasting into its annual budget formulation process.

(ii) The Director of each Agency Element<sup>2</sup> shall plan acquisitions sufficiently in advance to minimize urgent acquisitions requests, distribute acquisitions as evenly as possible throughout the fiscal year, and otherwise promote an efficient, economical, and timely acquisition process.

(iii) Directors are responsible for acquisition forecasting and shall complete an Acquisition Forecast Form for all contract actions with an expected total value that

---

<sup>1</sup> If a conflict between the FAR and this policy were to arise, the FAR would prevail.

<sup>2</sup> Agency Elements: International Broadcasting Bureau; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and Voice of America

exceeds \$150,000 (the simplified acquisition threshold), referred to as “contract opportunities,” planned for the next fiscal year.

(2) Acquisition Planning. The Agency shall perform acquisition planning for all acquisitions.

(i) Written Acquisition Plan (AP).

(A) A written AP, which is prepared by the PM, is the principal document that must address all the technical, business, management, and other significant considerations that will control the acquisition, and is required for each procurement that meets the criteria and thresholds detailed in the chart below:

<b>Contract Type</b>	<b>Dollar Threshold*</b>	<b>Type of Acquisition Plan</b>	<b>Special Reviews, Coordinations, and Approvals**</b>
Firm-Fixed-Price	< \$150,000	A written AP is not required  Project Manager must include statement in (d)(4)(ii)(D)	None
	\$150,000 < \$10M	Informal Acquisition Plan	<p>≥ \$1M Senior Procurement Executive review required, SPE approval required for actions less than \$5M</p> <p>≥ \$1M General Counsel review required</p> <p>≥ \$2.5M must coordinate AP with the Agency Small Business Representative</p> <p>≥ \$5M CEO approval required</p>
	≥ \$10M	Formal Acquisition Plan	<p>Must coordinate AP with the Agency Small Business Representative</p> <p>Senior Procurement Executive review required</p> <p>General Counsel review required</p> <p>CEO approval required</p>

<b>Contract Type</b>	<b>Dollar Threshold*</b>	<b>Type of Acquisition Plan</b>	<b>Special Reviews, Coordinations, and Approvals**</b>
Other than Firm-Fixed-Price	< \$10M	Informal Acquisition Plan	Approval 1 level above the CO required  ≥ \$1M Senior Procurement Executive review required  ≥ \$1M General Counsel review required  ≥ \$2.5M must coordinate AP with the Agency Small Business Representative  ≥ \$5M CEO approval required
	≥ \$10M	Formal Acquisition Plan	Must coordinate AP with the Agency Small Business Representative  Senior Procurement Executive review required  General Counsel review required  CEO approval required
*M refers to dollar value in millions. **Special coordinations and reviews allow those officials to examine the written AP and provide input to ensure its contents does not conflict with Agency goals or policy requirements.			

(B) Written APs must follow the templates provided in the Acquisition Plan Template attachments, or equivalent documents.

(C) The project manager (PM), contracting officer representative (COR), and contracting officer (CO) shall approve all written APs.

(D) If other than full and open competition procedures will be used, the written AP must be coordinated with the Competition Advocate.

(E) Programs must allow sufficient time to work with acquisition team members to prepare written APs and solicitations, obtain and evaluate bids or proposals, audit (if necessary), negotiate, and make the contract award in a proper and orderly manner.

(F) When a written AP is required, a solicitation shall not be issued until the AP has been completed and the necessary approvals obtained.

(G) Revisions to written APs due to budget changes, emergencies, or changes in program direction shall be subject to the same approval requirements as the initial written AP.

(ii) Consolidated APs.

(A) A consolidated AP may be prepared for Agency-wide acquisitions when practicable. When a consolidated AP is feasible, it shall include planning for all known task/delivery or call orders that will be placed against the acquisition vehicle. Evidence of planning includes the task/delivery or call orders that meet the maximum ceiling price, maximum contract value, or total estimated value of the contract or agreement and the language in the AP shall specifically state that the AP covers all task/delivery and call orders up to the total contract value. When a consolidated AP for an Agency-wide acquisition vehicle does not cover the task/delivery or call orders, written APs for those individual orders shall be prepared in accordance with the AP Chart above in Section (c)(2)(i).

(B) All orders included in a consolidated AP must include a copy of the AP or a reference to the file where the written AP is located.

(iii) Waivers and Disagreements. The CEO, or designee, will:

(A) Resolve disagreements between procurement, budget, and/or project offices as to the method of procurement, project or procurement schedule, or sources; and

(B) Review requests for waivers and consider if there is a need to deviate from the acquisition planning requirements of detail and formality due to compressed delivery or performance schedules because of an urgency of the need for the requirement.

(3) Agency Acquisition Plan.

(i) Directors of each Agency Element shall incorporate information from acquisition forecasts and written acquisition plans to develop their Agency Element Acquisition Plan (AE/AP). The AE/AP shall include information related to procurements planned for the next fiscal year, such as the number of projected contract actions, the estimated dollar value of each contract action, and the subject matter.

(ii) Information from the Agency Acquisition Forecast and AE/APs will be used to develop an Agency Acquisition Plan, which will be included in the Agency budget submissions.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Chief Executive Officer (CEO). The CEO shall have the overall responsibility for the Agency's acquisition planning. As the Agency Head, the CEO's responsibilities are detailed in FAR 7.103. The CEO may delegate, in writing, any of these responsibilities as they deem appropriate.

(2) Senior Procurement Executive (SPE).

(i) Acquisition Forecast.

(A) As soon as possible after the Agency receives input from the OMB on its budget submission (commonly referred to as "OMB Passback"), the SPE shall issue an Agency-wide data call for planned acquisitions for the subsequent fiscal year.

(B) If the Agency plans to issue three or more awards for similar goods or services, the SPE shall include these in the forecast as a "Class of Contract Opportunities." For example, if the Agency plans to award three contracts for security guard services at different facilities, these should share one entry in the acquisition forecast.

(C) The SPE shall review and consolidate the information from all the Acquisition Forecast Forms and create one Agency Acquisition Forecast. Within 10 days the SPE shall submit the Agency Acquisition Forecast to the Administrator of the Small Business Administration (SBA) and the Director of Small and Disadvantaged Business Utilization, and ensure the forecast is posted on the Agency website at <http://www.bbg.gov/partnerwithus/doing-business/>.

(D) The SPE shall issue periodic data calls that require Directors to review the current acquisition forecast and notify the SPE of any additions, deletions, or other revisions. Any changes to the acquisition forecast shall be reviewed and reported to the SBA through the same process identified above.

(E) The SPE is responsible for responding to public inquiries related to the acquisition forecast, including requests for copies of the forecast.

(ii) Acquisition Planning. The SPE shall be included as an ex officio member of committees considering budget matters for procurements estimated in excess of \$1,000,000.

(iii) The SPE may delegate any of these responsibilities as they deem appropriate.

(3) Director of Agency Element.

(i) Acquisition Forecast.

(A) Directors shall compile all contract opportunities, and provide the required information on a complete Acquisition Forecast Form.

(B) Directors should review all of their current contract actions with costs that exceed \$150,000, determine whether they intend to award a contract for the same goods or services in the next fiscal year, and then complete the Acquisition Forecast Form accordingly. After completing the Acquisition Forecast Form for current contracts, Directors should then fill out information related to any new contract opportunities planned for the next fiscal year with input from PMs.

(C) The Acquisition Forecast Form shall reflect the Director's best predictions at the time it is written, but is not required to perfectly predict costs, timing, contract type, or other details.

(D) A budget at the level identified in the Agency's budget request, or the President's budget request if available at the time of the data call, should be assumed for the purpose of acquisition forecasting.

(E) After the Acquisition Forecast Form is complete, each Agency Element Director shall submit an electronic copy in MS Excel format to OMS/C via e-mail to [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov).

(ii) Acquisition Planning.

(A) Directors shall appoint PMs that shall be responsible for acquisition planning and preparing and submitting written APs.

(B) Directors are responsible for creating an AE/AP in accordance with guidance provided in the data call issued by the Budget Office - COR Team.

(4) Project Manager (PM).

(i) Acquisition Forecast. The PM shall report contract opportunities to the Director of their Agency Element using the attached Acquisition Forecast Form at Attachment A.

(ii) Acquisition Planning.

(A) The PM, or other official responsible for the program, is the Planner and has overall responsibility for acquisition planning and preparing written APs.

(B) When the written AP is complete, the PM, with assistance from the COR, shall submit the written AP for the necessary reviews, coordinations, and approvals. During this process, the PM may be required to make changes to the written AP based upon feedback given by the CO, General Counsel, SPE, small business representative, and/or competition advocate. The COR will work through those changes with the PM.

(C) For complex requirements, it is strongly recommended that the PM, along with guidance from the COR, set up an Integrated Product Team (IPT) to conduct acquisition planning. Members of an IPT should have some level of expertise related

to the requirement<sup>3</sup>, and be able to provide valuable input with drafting the AP and conducting market research. For written APs that require legal review, General Counsel should be invited to participate in planning sessions.

(D) For actions that do not require a written AP, the PM shall include the following statement with the purchase request package affirming that acquisition planning was done:

*Acquisition planning was coordinated with the contracting officer and appropriate subject matter experts (provide names) and completed on (date) with all parties in agreement.*

(5) Contracting Officer's Representative (COR).

(i) Once the COR is made aware of a requirement, either through acquisition forecasting or a requisition, they will guide the PM through the acquisition planning process.

(ii) The Budget Office - COR Team shall use information provided in the Agency Acquisition Forecast and AE/APs to develop the Agency Acquisition Plan.

(6) Contracting Officer (CO). The CO shall provide advice and assistance to the PM, COR, and IPT for acquisition planning, especially regarding areas directly related to the procurement process. Such areas include, but are not limited to, competition, contract type selection, source-selection procedures, acquisition considerations, and milestones.

**(e) DEFINITIONS (AS USED IN THIS POLICY):**

(1) Acquisition forecasting reflects forward thinking of what new or continued acquisitions will be processed in the upcoming fiscal year. It is a listing of expected acquisitions, developed based on the budget formulation process, and knowledge of existing contractual agreements where there is a continued need for requirements beyond the current period of performance, and a need for new requirements in the upcoming fiscal year. Acquisition forecasting is designed to help small businesses (including disadvantaged, service-disabled veteran-owned, and woman-owned small businesses) identify contract opportunities with the Agency. Furthermore, an annual acquisition forecast is a planning tool which enables the Agency to determine workforce requirements, project lead-times, and the best approach to accomplish acquisition needs; as well as ensure office and division requirements adhere to budget limitations.

(2) Acquisition planning is the process by which the efforts of all personnel responsible for an acquisition are coordinated and integrated through a comprehensive plan for fulfilling the agency need. It includes developing the overall strategy for managing the acquisition to ensure procurement needs are met in the most effective, economical, and timely manner.

---

<sup>3</sup> See FAR 7.104(a) which states "[i]n developing the plan, the planner shall form a team consisting of all those who will be responsible for significant aspects of the acquisition, such as contracting, fiscal, legal, and technical personnel."

(3) Class of contract opportunities for the purposes of this policy means three or more contract opportunities, grouped by the nature of supplies or services to be acquired.

(4) Consolidated acquisition plan means a written acquisition plan (AP) that includes more than one contract action. Combining the acquisition planning for identical requirements into a single AP would conserve resources by eliminating redundant AP development and AP review/approval/update processes. Consolidated APs are useful for indefinite delivery vehicles, blanket purchasing agreements, and basic ordering agreements.

(5) Contract opportunity means a planned contract award, including both options and new contracts, with a total cost that exceeds the simplified acquisition threshold of \$150,000, including options.

(6) Integrated Product Team (IPT) is a team composed of representatives from appropriate functional disciplines working together to build successful programs, identify and resolve issues, and make sound and timely recommendations to facilitate decision making. FAR 7.104(a) requires the IPT to consist of all who will be responsible for significant aspects of the acquisition, such as contracting, fiscal, legal, and technical personnel.

(7) Other than firm-fixed-price actions include all other contract types listed under FAR Part 16 that are not firm-fixed-price, which include: fixed price contracts with economic price adjustment, fixed price incentive contracts, fixed price contracts with prospective price redetermination, fixed price ceiling price contracts with retroactive price determinations, fixed price level of effort term contracts, cost reimbursement contracts, incentive contracts, time-and-material contracts, labor-hour contracts and letter contracts.

(8) Planner, as defined in the FAR, means the designated person or office responsible for developing and maintaining a written plan, or for the planning function in those acquisitions not requiring a written plan.

**INSTRUCTIONS FOR COMPLETION:**

1. **DATE PREPARED** - The date the document is completed.
2. **PREPARED BY** - The name of the individual completing the form.
3. **DESCRIPTION OF REQUIREMENT** - A brief but concise narrative of the products or services to be acquired.
4. **REQUESTOR** - The name of the program official requesting the products or services.
5. **PHONE NO.** - The phone number of the program official.
6. **PLAN/ACTUAL DATE SUBMITTED** - The date the program office plans to submit or actually submits the request.
7. **REQUIRED AWARD DATE** - The date the award needs to be made so the products or services are delivered in a timely manner.
8. **ESTIMATED TOTAL COST** - The total amount of the entire project including any optional quantities or extensions of performance.
9. **ESTIMATED INITIAL FUNDS** - The amount of funds currently available for the award.
10. **COMPETITIVE** - Check the appropriate block.
11. **IF NON-COMPETITIVE - BASIS** - A brief description of the reason the requirement cannot be made available for competition (FAR 6.3).
12. **NAMES OF POTENTIAL SOURCES** - Identify any firms known to be contenders for the required products or services based on past experience, existing vendor lists, or market research conducted.
13. **MARKET RESEARCH EFFORTS CONDUCTED OR TO BE CONDUCTED** - Describe actions taken or planned to allow the government to identify existing capabilities, technologies, and competitive forces to meet the current need. The extent to which commercial sources, Federal Supply Schedule (FSS) contracts, including blanket purchase agreements (BPAs) under those contracts, government-wide acquisition contracts (GWACs), multi-agency contracts (MACs) and other instruments intended for use by multiple agencies can possibly fulfill the agency's needs must be considered.
14. **SOCIO-ECONOMIC PARTICIPATION** - Identify whether known potential sources include any of the various types of firms specified by checking the appropriate block(s).
15. **FEDERAL SUPPLY SCHEDULE** - Check the appropriate block.
16. **PLANNED CONTRACT TYPE** - The type or combination of contract types expected to best meet the needs of the government. See \*\* note below regarding justification for contract type.

17. **COMMERCIAL ITEM OR SERVICE** - Indicate if the requirement can be satisfied by use of commercial items or services rather than government specified products or services. As currently described, if the need cannot be satisfied by a commercial item, indicate if it could be changed to convert to a commercial item.
18. **IF SERVICES, ARE INHERENTLY GOVERNMENTAL FUNCTIONS INVOLVED** - Refer to IX BAM 750 Performance of Inherently Governmental Functions to identify the services which are considered necessary for performance by government employees to ensure that any services being acquired do not fall within this category.
19. **SUITABLE FOR PERFORMANCE-BASED** - Indicate if the requirement can be met through performance-based services contracting and, if not, indicate the basis for not using this technique.
20. **OPTIONS** - Indicate if options will be required and, if so, the number and type of options (e.g. four one-year options to extend the period of performance or one option to purchase an additional quantity of a product).
21. **GOVERNMENT PROPERTY TO BE FURNISHED** - Indicate if government property will be furnished. If so, document the type of property.
22. **GOVERNMENT INFORMATION TO BE PROVIDED** - Indicate if government information will be furnished. If so, document the type of information.
23. **CONTRACTOR SECURITY CLEARANCE REQUIRED** – Indicate if the facility and contractor personnel for certain positions, as noted in the Statement of Work, require a security clearance before performance on the resultant contract. Where possible, it is recommended that contracted personnel requiring unescorted access to Federal facilities be pre-cleared for security purposes at the Tier 3 level with a favorable adjudication as prescribed under 5 CFR 731 and Executive Order 10450. If the contracted personnel are not pre-cleared, they must coordinate their submittal of security documents (SF-86), via the e-QIP application process, through the Contracting Office. Questions concerning security issues may be directed to Andrew Jansen, Office of Security, (202) 382-7789 or [amjansen@bbg.gov](mailto:amjansen@bbg.gov).
24. **IS PERFORMANCE IN AN AREA WHERE CONTINGENCY OPERATIONS ARE OCCURRING** – Indicate if contractor performance will be in an area where contingency operations are occurring. If unsure, consult with the B/COR Team.
25. **SOURCE SELECTION PROCEDURES TO BE USED** - Indicate if the requirement will be satisfied through a "tradeoff" or "technically acceptable/lowest priced" scenario.
26. **EVALUATION FACTORS** - If "tradeoff," indicate the areas to be used for evaluation.

\*\*\*\*\*

[\*\* Per Federal Acquisition Regulation (FAR) 7.105, discuss the rationale for the selection of contract type. In accordance with FAR 16.103(d), document why the particular contract type was selected.

- Explain why the contract type selected must be used to meet the agency need.
- Discuss the Government's additional risks and the burden to manage the contract type selected. For example, when a cost-reimbursement contract is selected, the Government incurs additional cost risks, and the Government has the additional burden of managing the contractor's costs. For such instances, acquisition personnel shall discuss:
  - How the Government identified the additional risks (e.g., pre-award survey, or past performance information);
  - The nature of the additional risks (e.g., inadequate contractor's accounting system, weaknesses in contractor's internal control, non-compliance with Cost Accounting Standards, or lack of or inadequate earned value management system); and
  - How the Government will manage and mitigate the risks.
- Discuss the Government resources necessary to properly plan for, award, and administer the contract type selected (e.g., resources needed and the additional risks to the Government if adequate resources are not provided).
- For other than a firm -fixed -price contract, at a minimum the documentation should include –
  - An analysis of why the use of other than a firm-fixed-price contract (e.g., cost reimbursement, time and materials, labor hour) is appropriate;
  - Rationale that details the particular facts and circumstances (e.g., complexity of the requirements, uncertain duration of the work, contractor's technical capability and financial responsibility, or adequacy of the contractor's accounting system), and associated reasoning essential to support the contract type selection;
  - An assessment regarding the adequacy of Government resources that are necessary to properly plan for, award, and administer other than firm-fixed price contracts; and
  - A discussion of the actions planned to minimize the use of other than firm-fixed-price contracts on future acquisitions for the same requirement and for transition to firm-fixed-price contracts to the maximum extent practicable. During the requirements development stage, consider structuring the contract requirements, e.g., contract line items (CLINs), in a manner that will permit some, if not all, of the requirements to be awarded on a firm-fixed-price basis, either in the current contract, future option years, or follow-on contracts. This will facilitate an easier transition to a firm-fixed-price contract because a cost history will be developed for a recurring definitive requirement.
- Discuss why a level-of-effort, price redetermination, or fee provision was included.

Acquisition personnel must document the acquisition plan with findings that detail the particular facts and circumstances, (e.g., complexity of the requirements, uncertain duration of the work, contractor's technical capability and financial responsibility, or adequacy of the contractor's

accounting system), and associated reasoning essential to support the contract type selection. The contracting officer must ensure that requirements and technical personnel provide the necessary documentation to support the contract type selection.]

**Attachment C:**

**FORMAL ACQUISITION PLAN  
TEMPLATE**

## **PART I - ACQUISITION BACKGROUND AND OBJECTIVES**

### **A. Statement of Need**

*[Summarize the requirement using a synopsis of the government's described need. The detailed description of the need should generally be an attachment to the acquisition plan.]*

*In describing the need, agencies have the ability to use existing requirements documents, modifying or combining existing documents, or creating new requirement documents. In developing these documents, it should be noted that various terms are used to describe the government's requirements based on the approach and the type of supplies or services being acquired. These are summarized below:*

*Specification* - The term "specification" generally refers to the description of the minimum essential technical characteristics of materials, products, or services to be acquired. There are a number of types of specifications. While the government often uses its own uniquely developed specifications and standards, preference should be given to using commercial item descriptions where possible. For a commercial item procurement, the government's requirement must be sufficiently detailed to permit offerors to know which of its products or services may be appropriate to propose. Therefore, the government's description should detail the type of product or service to be acquired and explain how the government intends to use it in terms of functions to be performed, performance requirements, or essential physical characteristics. Detailed, design-oriented specifications are less preferred as they impose a risk upon the drafter if performance fails. Performance-oriented specifications are preferred.

*Statement of Work* - A Statement of Work (SOW) describes the work to be performed in a detailed manner by using a series of orderly written directions or instructions on how to achieve an end product or service. The SOW provides the information necessary for offerors to prepare their response to the requirements of the solicitation and, after award, the SOW serves as the standard to measure if the work is being performed properly. The assumption is that if the reader follows the government's instructions, the performance will be acceptable. As with design-oriented specifications, a concern for using this type of solution is that it places responsibility on the government for accuracy as the drafter of the SOW.

*Performance Work Statement* - A Performance Work Statement (PWS) is a form of SOW that is used for performance-based contracting. Instead of being "process oriented" as a typical SOW is, a PWS is "results oriented" and places the burden of accomplishing the desired results on the contractor. This means the government advises what the end result should be without attempting to describe how to get to the end result. This has many benefits for the government since it often does not have the expertise to prepare a SOW with fully-developed requirements. Using a PWS is preferred as generally the government understands the problem that needs to be solved and the constraints to solving it, while industry is in the business of understanding and providing solutions. As a part of the PWS development, the government must also develop a quality assurance surveillance plan (QASP) and the acceptable quality level (AQL).

*Statement of Objectives- A Statement of Objectives (SOO) is a more preferred approach for describing needs for performance-based contracting. The objective of a SOO is to provide maximum flexibility to permit each offeror to propose its own innovative approach. Many agencies have had difficulty using the performance-based approach as it is difficult to conduct a job analysis and break the work down into measurable outputs. One significant problem with job analysis is that it may tend to focus the drafters on the "status quo" and analyzing the current process, which may not be the most efficient or effective means of performing. By using a SOO, the process is changed by permitting the offerors to provide the SOW based on their unique solution. Offerors use the solicitation and SOO as the basis for preparing their proposal. This technique also shifts the preparation of the appropriate performance measures and metrics (QASP and AQL) to the contractor. This often permits their performance to be judged based on their existing commercial practices.*

*This section should also include any information about various acquisition alternatives considered, including any market research efforts which led to the alternative chosen, any history of the procurement, and any related procurements or in-house efforts.]*

## **B. Applicable Conditions**

*[Describe any circumstances that will impact the acquisition. These may include the need for compatibility, constraints on performance, cost, schedule, or capability. If such conditions exist, discuss steps that will be taken to promote competition and socio-economic goals.]*

## **C. Cost**

*[Detail the estimated cost of the acquisition. If options are planned, the cost should be broken out to detail the base period and each option year's estimate. Include a discussion of the Independent Government Cost Estimate and how it was developed. Also address issues that may impact the cost and how they will be addressed or mitigated. Specific cost concepts or techniques that may be employed and which should be addressed, if applicable, include:*

- i. **Life-cycle cost** - This technique considers not just the cost of the item being acquired, but the cost of the item over its life. For example, if purchasing a piece of office equipment such as a copier, life-cycle costing could consider the cost of operation, including parts, supplies, maintenance, etc., in addition to the initial outlay for the piece of equipment.*
- ii. **Design-to-cost** - This technique is employed to try to achieve a balance between life-cycle cost, acceptable performance, and schedule. Cost is used as a constraint during the design or development phases and as a management tool throughout the acquisition and use of the system or component. An example of when design-to-cost might be used is in development of a prototype before full production. Because the highest percentage of product costs are committed based on decisions made during concept development and design, it is imperative that costs be monitored during key decision points.*
- iii. **Application of should-cost** - A should-cost evaluation is a special form of cost-analysis that reviews the economy and efficiency of the contractor's existing work force, methods or materials (see FAR 15.407-4). Should-cost reviews are conducted by a multi-functional team that looks at contracting, contract administration, pricing, audit, and engineering issues to identify short and long-term improvements to reduce the cost of*

*performance and to put the government in a better position to develop a realistic objective for negotiation. Should-cost techniques can be applied to both a program as a whole or to overhead costs. This complex process is often appropriate for a major system acquisition (FAR subpart 34.)]*

#### **D. Capability or Performance**

*[Describe the needed capabilities or performance characteristics of the supplies or the performance standards of the service to be acquired. If the government's requirements are sufficiently different from those of existing commercial or non-developmental items or services, discuss the feasibility of changing these requirements or why these requirements cannot be waived or revised to accept commercial or non-developmental products or services.]*

#### **E. Delivery or Performance Period Requirements**

*[Discuss the government's requirement in terms of delivery or performance period. In accordance with FAR 11.4, the delivery or performance schedule must be realistic and meet the needs of the government; however, it should not be unnecessarily short or difficult to attain, as such actions restrict competition, result in higher prices, and are inconsistent with small business policies. The acquisition plan should explain and provide reasons for any urgency.*

*In establishing schedules, factors such as urgency of the need, industry practices, market conditions, production time, small business capabilities, and the time needed for the government to fulfill its obligations such as furnishing government property or inspections should be considered. Also explain how performance will be monitored during performance.*

*If delivery or performance is very important, liquidated damages may be appropriate and a clause used in the solicitation. When using liquidated damages, it is imperative that there be a reasonable and verifiable basis for the amounts used. They should represent a reasonable forecast of what constitutes just compensation for the harm that is caused by late delivery or untimely performance. Such amounts cannot be considered to be punitive. Making a decision for using liquidated damages and how they will be calculated should be addressed in this section.]*

#### **F. Trade-Offs**

*[Address any trade-offs that might be employed among various factors or aspects of the acquisition and the potential consequences of such action. General categories for trade-offs include:*

- *Cost*
- *Capability or performance*
- *Technology obsolescence*
- *Schedule*

*This section might discuss how much money the government is willing to spend to increase technical capability and at what point the cost would become prohibitive. The pros and cons of specifying technical capabilities or performance criteria that are close to state-of-the-art versus going with more proven technology might be a topic for this section. In a highly volatile and changing market, provisions for technology up-date to prevent obsolescence might be discussed*

*along with a trade-off of cost to the government. If appropriate, discuss impacts to the schedule that might result from changes in capability or performance and cost.]*

## **G. Risks**

*[Risk management is an important aspect of any procurement plan. It is a technique for assessing what could go wrong during contract performance, determining which risks are important enough to deal with, and implementing strategies to deal with these risks. Risk assessment should be done as a preventative measure to prevent catastrophic problems that cannot be overcome once they occur. Risk response strategies include:*

- Avoidance - To avoid a risk, requirements may be changed.*
- Transference - A risk can be transferred by other actions such as allocating the risk to another system.*
- Mitigation - A risk can be mitigated by taking action to handle the unwanted outcome in an acceptable way.*
- Acceptance - Some risks may be appropriately accepted through recognition and control. For example, sometimes the cost of risk reduction far outweighs the benefits of reducing the risk.*

*Assessment of risks for an acquisition should be looked at for trade-off areas described above--cost, technology, and schedule. In addition, other risks that might be addressed are strategic risks in the market, legal risks, people risks, and change management risks. Risk assessment involves all stages of the procurement—pre-award, award, and post-award or contract administration.]*

## **H. Acquisition Streamlining**

*[Discuss the plans that have been or will be taken to streamline the acquisition. Efforts taken to stimulate industry involvement such as pre-solicitation conferences, industry briefings, one-on-one industry meetings, draft specifications or statements of work/objectives, draft solicitations, and attempts to use commercial items or products as well as commercial terms and conditions may be discussed. Another type of streamlining might be the use of innovative techniques such as reverse auctions or the multi-step process described at FAR 15.202.]*

## **PART II - PLAN OF ACTION**

### **A. Sources**

*[Indicate the potential sources of supplies and/or services that can meet the requirement, including consideration of FAR Part 8, Required Sources of Supplies and Services. Describe the efforts that have been or will be made to identify all qualified sources, including small, small disadvantaged, small women-owned, small service-disabled veteran-owned, and historically underutilized zone (HUBZone) business concerns (see FAR Part 19).*

*Any impact of bundling on the requirement and how that would impact the use of the various socio-economic programs should be addressed (see FAR 1.107). Combining several small requirements into one large or major acquisition or "bundling" may provide benefits to the government; however, it can have serious adverse impact on small business participation.*

*Therefore, if the requirement will involve bundling, explain the market research conducted which led to the decision that bundling was necessary and justified. Substantial benefits to the agency in terms of cost savings, improved performance or efficiency, reduced acquisition cycle time, etc. should be detailed*

*Also, discuss the results of market research and/or surveys and indicate the impact on the various parts of the plan in this section (see FAR Part 10). The extent to which commercial sources, Federal Supply Schedule (FSS) contracts, including blanket purchase agreements (BPAs) under those contracts, government-wide acquisition contracts (GWACs), multi-agency contracts (MACs) and other instruments intended for use by multiple agencies can possibly fulfill the agency's needs must be considered.]*

## **B. Competition**

*[Describe how competition will be promoted and sustained throughout the life of the acquisition. If there are impediments or barriers to competition, all steps to mitigate these issues should be discussed—for example, breaking out aspects or unbundling the procurement to promote competition. For procurements involving systems with spares and repair parts, address how competition will be sustained for these items. If subcontracting during performance is expected and desired, discuss how competition for subcontracting will be promoted.*

*Describe how the acquisition will be structured to encourage participation by and among companies within the small business programs outlined in FAR Part 19 (small business set-aside, woman-owned small business set-aside, 8(a) competitive set-aside, 8(a) sole source, HUBZone competitive set-aside, HUBZone sole source, service-disabled-veteran-owned small business competitive set-aside, service-disabled-veteran-owned small business sole source, woman-owned small business set-aside, or economically disadvantaged women-owned small business set-aside).*

*If the procurement is not competitive, describe the appropriate authority under FAR 6.302, and provide convincing evidence of why competition cannot be obtained. A Justification for Other Than Full and Open Competition should be attached to the acquisition plan.*

***For indefinite-delivery indefinite-quantity contracts, in accordance with FAR 16.504(c)(1)(ii)(C), a decision must be made as to whether or not to use multiple awards. In accordance with FAR 16.504(c)(1)(i), except for indefinite-quantity contracts for advisory and assistance services as provided in FAR 16.504(c)(2), to the maximum extent practicable, preference must be given to making multiple awards of indefinite-quantity contracts under a single solicitation for the same or similar supplies or services to two or more sources. In accordance with FAR 16.504(c)(1)(ii)(A) and (B), the contracting officer must avoid situations in which awardees specialize exclusively in one or a few areas within the statement of work, thus creating the likelihood that orders in those areas will be awarded on a sole-source basis; however, each awardee need not be capable of performing every requirement as well as any other awardee under the contracts. The contracting officer should consider the following when determining the number of contracts to be awarded:***

- *The scope and complexity of the contract requirement*
- *The expected duration and frequency of task or delivery orders*

- *The mix of resources a contractor must have to perform expected task or delivery order requirements*
- *The ability to maintain competition among the awardees throughout the contracts' period of performance*

*The multiple award approach must not be used if:*

- *Only one contractor is capable of providing performance at the level of quality required because the supplies or services are unique or highly specialized;*
- *Based on the contracting officer's knowledge of the market, more favorable terms and conditions, including pricing, will be provided if a single award is made;*
- *The expected cost of administration of multiple contracts outweighs the expected benefits of making multiple awards;*
- *The projected task orders are so integrally related that only a single contractor can reasonably perform the work;*
- *The total estimated value of the contract is less than the simplified acquisition threshold;*  
*or*
- *Multiple awards would not be in the best interests of the government.]*

### **C. Contract type selection.**

*[Discuss the rationale for the contract type. The acquisition plan must include findings that detail the particular facts and circumstances (e.g. complexity of the requirements, uncertain duration of the work, contractor's technical capability and financial responsibility, or adequacy of the contractor's accounting system) and associated reasoning necessary to support the contract type selection. The contracting officer must ensure that requirements and technical personnel provide the necessary documentation to support the contract type selection. In accordance with FAR 16.103(d), document why the particular contract type was selected.*

- *Explain why the contract type selected must be used meet the agency need.*
- *Discuss the government's additional risks and the burden to manage the contract type selected (e.g., when a cost-reimbursement contract is selected, the government incurs additional cost risks, and the government has the additional burden of managing the contractor's costs. For such instances, acquisition personnel shall discuss –*
  - *How the government identified the additional risks (e.g., pre-award survey, or past performance information)*
  - *The nature of the additional risks (e.g., inadequate contractor's accounting system, weaknesses in contractor's internal controls, non-compliance with Cost Accounting Standards, or lack of or inadequate earned value management system)*
  - *How the government will manage and mitigate the risks*
- *Discuss the government resources necessary to properly plan for, award, and administer the contract type selected (e.g., resources needed and the additional risks to the government if adequate resources are not provided).*
- *For other than a firm-fixed price contract, at a minimum the documentation should –*

- *Include an analysis of why the use of other than a firm-fixed-price contract (e.g., cost reimbursement, time and materials, labor hour) is appropriate.*
- *Detail the particular facts and circumstances (e.g., complexity of the requirements, uncertain duration of the work, contractor's technical capability and financial responsibility, or adequacy of the contractor's accounting system) and associated reasoning essential to support the contract type selection.*
- *Assess the adequacy of government resources that are necessary to properly plan for, award, and administer other than firm-fixed price contracts.*
- *Discuss the actions planned to minimize the use of other than firm-fixed-price contracts on future acquisitions and for the same requirement to transition to firm-fixed-price contracts to the maximum extent practicable. During the requirements development stage, consider structuring the contract requirements, e.g., contract line items (CLINs) in a manner that will permit some, if not all, of the requirements to be awarded on a firm-fixed-price basis, either in the current contract, future option years, or follow-on contracts. This will facilitate an easier transition to a firm-fixed-price contract because a cost history will be developed for a recurring definitive requirement.*
- *Discuss why a level-of-effort, price redetermination, or fee provision was included.*

*Acquisition personnel must document the acquisition plan with findings that detail the particular facts and circumstances, (e.g., complexity of the requirements, uncertain duration of the work, contractor's technical capability and financial responsibility, or adequacy of the contractor's accounting system), and associated reasoning essential to support the contract type selection. The contracting officer must ensure that requirements and technical personnel provide the necessary documentation to support the contract type selection.]*

#### **D. Source-selection procedures**

*[Discuss how the decision for award of the acquisition will be made. Who will be the Source Selection Official—the contracting officer, or another agency official? In determining the best value for the government, will a "trade-off" process be employed, or will a "lowest price technically acceptable" process be used? If using a trade-off process, describe the evaluation factors and their relationship to the goals of the procurement (see FAR 15.304). Describe the relative importance between technical, business management, past performance, and cost factors in the selection process. Discuss how options, if utilized, will be evaluated. When EVMS is required and a pre-award Integrated Baseline Review (IBR) is contemplated, discuss how the IBR will be considered, conducted, and if compensation will be given to offerors. (See FAR 34.202(d).)]*

#### **E. Acquisition considerations**

*[This section should describe the basic contracting decisions made with respect to the acquisition. These include:*

- *Contract type and the rationale for the choice (see Section C).*

- *Special contracting methods to be employed – multi-year contracting, options, etc.*
- *Any special clauses or provisions which may be required.*
- *Any FAR deviations that may be needed.*
- *Whether Sealed Bidding or Negotiated procurement was chosen and why.*
- *If acquiring equipment, the decision to acquire by lease or purchase and why.*
- *A discussion of performance-based contracting and rationale if not used.*
- *Rationale behind using another agency either through consolidation of requirements for a new acquisition or use of their existing procurement vehicles. Discussion should include the impact on the various socio-economic programs and sources.*
- *For information technology requirements, how compliance with capital planning and investment control requirements of OMB A-130 and 40 U.S.C. 1422 were assured.]*

#### **F. Budgeting and funding**

*[Describe how the budget estimates were developed. If all necessary funds are not currently available, discuss the schedule for obtaining the additional funds. Provide detailed information on the funding amounts by providing data such as appropriation account, fiscal year, line item and project name. If funding is obtained from multiple projects, provide a complete listing of each source.]*

#### **G. Product or Service Descriptions**

*[In accordance with FAR Part 11, set forth the rationale for the choice made for the product or service description as detailed in Part I, Section A- Statement of Need.]*

#### **H. Priorities, Allocations, and Allotments**

*[Certain urgent requirements with short delivery schedules may be subject to the Defense Production Act of 1950. If this requirement is listed as an authorized program for priorities, allocations, and allotments, the reasons should be detailed in this section. (See FAR 11.6.)]*

#### **I. Contractor Versus Government Performance**

*[The long-standing policy of the federal government has been to rely on the private sector for needed commercial services. Agencies are required by OMB Circular A-76, dated May 29, 2003, to classify all activities performed by government personnel as either commercial or inherently governmental functions. OMB Circular A-76 requires that commercial activities should be subject to the forces of competition through either a streamlined or standard competition between the government and industry. This section should address the requirements of OMB Circular A-76 if applicable to this acquisition.]*

#### **J. Inherently Governmental Functions**

*[An inherently governmental activity is an activity that is so intimately related to the public interest as to require performance by government personnel. These activities involve the exercise of substantial discretion in applying government authority and/or in making decisions for the government. Inherently governmental activities normally fall into two categories: the exercise of sovereign government authority or the establishment of procedures and processes related to the*

*oversight of monetary transactions or entitlements. OFPP Policy Letter 11-01 <http://www.gpo.gov/fdsys/pkg/FR-2011-09-12/pdf/2011-23165.pdf> addresses actions needed to ensure inherently governmental functions are not part of any procurement action. Actions taken to comply with these requirements should be addressed in this section (see FAR 7.5 and IX BAM 750).]*

## **K. Management Information Requirements**

*[Discuss what type of monitoring system the government will employ to ensure timely, effective, and efficient performance under the contract. Examples might include use of performance monitoring techniques such as use of computer programs like Microsoft Project, PERT or Gantt charts, regularly scheduled meetings, key milestone reviews, etc. If an earned value management system (EVMS) is to be used, discuss the methodology the government will employ to analyze and use the earned value data to assess and monitor contract performance. In addition, discuss how the offeror's/contractor's EVMS will be verified for compliance with the American National Standards Institute/Electronics Industries Alliance (ANSI/EIA) Standard-748, Earned Value Management Systems, and the timing and conduct of integrated baseline reviews (whether before or after award, see FAR 34.202).]*

## **L. Make or Buy**

*[Generally the contractor is given wide latitude in determining whether during performance of a contract it should make or buy any items required. Such decisions are made based on factors such as lowest overall cost or technical risk. For acquisitions >\$12.5 million (or at lower dollar values if circumstances justify their use) as described in FAR 15. 407-2(c), a "make or buy" plan may be required of a contractor. Detail the decision to require or not require a "make or buy" plan.]*

## **M. Test and Evaluation**

*[Describe the test program the government plans to employ during contract performance and the test program to be required of the successful contractor. Any special test procedures of the contract should be addressed such as prototype development, dual development, milestone testing, special inspections, etc.]*

## **N. Logistics Considerations**

*[Discuss the logistics issues involved for reliability and maintainability of the equipment or systems to be acquired over its expected life. Discuss whether support will be by the contractor or the agency, both in the beginning and over the life of the acquisition. Other important considerations include:*

- *Any special maintenance and servicing considerations*
- *Quality assurance requirements*
- *Use of warranties*
- *Standardization concepts, including use of commercial repair products*
- *Requirements for contractor data (including repurchase data)*
- *Data rights, including the estimated cost and how the data will be used]*

## **O. Government-Furnished Property**

*[Discuss any plans to provide government-furnished property (GFP) (which includes materials or facilities) and indicate whether the property is currently owned or will be acquired (see FAR 45.102). Other issues that may be addressed include:*

- *Any schedule for providing the property*
- *The condition of the property*
- *Whether use of the GFP is optional or required*
- *Any plans for ensuring appropriate control and accountability for GFP*
- *If potential contractors may have existing GFP, steps that will be taken to mitigate any competitive advantage that might arise from use of the existing GFP]*

## **P. Government-Furnished-Information**

*[Detail any government-furnished information that will be provided. This may include manuals, schematics, drawings, test data, reports, etc. Also describe how this data will be provided during the competitive process, such as through individual copies to offerors, providing data on the agency web site, or by establishing a reading library. The schedule and means for providing the information to the successful contractor after award should be discussed as well as any impact delays by the government in providing the data might have on contract performance.]*

## **Q. Environmental and Energy Conservation Objectives**

*[Discuss the impact of any environmental or energy conservation efforts associated with the acquisition, including use of recovered materials and preference for environmentally preferable products and services. If hazardous or toxic materials might be involved or be a byproduct of contract performance, indicate actions which may be taken to mitigate potential environmental damage. If the contract performance requires an environmental assessment or environmental impact statement, provide the details of this requirement. (See FAR Part 23, FAR 11.002, and FAR 11.303)]*

## **R. Security Considerations**

*[If the requirement involves classified or unclassified but sensitive data, discuss how appropriate security will be established, maintained, and monitored during contract performance. Discuss service contracts where contractor employees will be granted continuing and official access to government buildings and facilities to perform the work. Discuss the level of risk and security requirements for the contractor facility and contract personnel who will perform the work and how this will be handled during contract performance. Where possible, it is recommended that contracted personnel requiring unescorted access to Federal facilities be pre-cleared for security purposes at the Tier 3 level with a favorable adjudication as prescribed under 5 CFR 731 and Executive Order 10450. If the contracted personnel are not pre-cleared, they must coordinate their submittal of security documents (SF-86), via the e-QIP application process, through the Contracting Office. Questions concerning security issues may be directed to Andrew Jansen, Office of Security, (202) 382-7789 or amjansen@bbg.gov. (See FAR 4.4 and 4.13)]*

*If the requirement involves contractors performing in critical environments overseas, discuss how security will be handled. A detailed security plan may also be required.]*

## **S. Contract Administration**

*[Provide particulars of how the contract will be administered to ensure timely, effective, and compliant performance. If all or part of the administrative functions will be delegated, they should be set forth in this section. Discuss if a post-award conference is planned or desired. Also discuss special requirements of the contract such as quality control procedures, inspection, and acceptance criteria. In accordance with FAR 1.602-2, for all contracts and orders other than those that are firm-fixed-price, a contracting officer's representative (COR) must be designated and authorized by the contracting officer after nomination by the requirements official. A COR may be designated for firm-fixed price contracts and orders as appropriate. However, the contracting officer is not precluded from retaining and executing the COR duties as appropriate.]*

## **T. Other Considerations**

*[Discuss other issues that may be applicable to the procurement and are not covered elsewhere. These may include, among others items:*

- *Value engineering provisions*
- *Pre-proposal or pre-solicitation conferences*
- *Site visits for contractors*
- *Pre-award surveys*
- *Technology update provisions*
- *Standardization concepts*
- *The industrial readiness program*
- *The Defense Production Act*
- *The Occupational Safety and Health Act*
- *Support Anti-terrorism by Fostering Effective Technologies Act of 2002 (SAFETY Act)*
- *Foreign sales implications*
- *Special requirements for contract to be performed in a designated operational area or supporting a diplomatic or consular mission]*

## **U. Additional Requirements for Major Systems**

*[If the requirement is designated as a Major System under agency procedures, address the requirements of FAR 7.106, FAR Part 34, and the following:*

- *Address alternatives, and set forth the strategy to satisfy the mission need in the most effective, economical, and timely manner.*
- *In the Statement of Need, include current deficiencies in meeting the Agency's mission, and the objective of the project.*
- *If the major system is for information technology, a discussion of the consideration given to acquiring it by using modular contracting (dividing the large requirement into several smaller acquisitions that would be easier to manage, reduce the risk of obsolescence, and improve the ultimate system to be provided).*

- *Address non-procurement factors involved, such as impact on other Agency elements (i.e., space requirements, equipment usage, supply purchases, etc.).*
- *OMB Circular A-76 Performance of Commercial Actions, revised May 29, 2003, if applicable.*
- *Life –cycle costs and the basis for the estimate.*
- *Total project schedule, including built-in review points (milestones).]*

**V. Additional Requirements for Acquisitions Involving Bundling**

*[If the acquisition involves bundling, the requirements of FAR 7.107 must be addressed.]*

**W. Additional Requirements for Telecommuting**

*[To ensure compliance with section 1428 of Public Law 108-136, the requirements of FAR 7.108 must be followed.]*

**X. Identification of participants in the acquisition process**

*[List the names and contact information (phone numbers, titles, or organizational code) for the following individuals:*

- 1) Responsible Contracting Officer*
- 2) Contract specialist, if assigned*
- 3) Responsible Program Manager*
- 4) Contracting Officer's Representative, if different from (3)*
- 5) Additional individuals who helped prepare the acquisition plan*
- 6) Source Selection Official]*

**Y. Attachments to the Acquisition Plan**

*[List all documents that are incorporated and made a part of the acquisition plan.]*

**Z. Milestones for the acquisition cycle.**

*[Detail the major milestones for the procurement as follows:]*

<b>MILESTONE</b>	<b>Projected Date</b>	<b>Revised Date</b>	<b>Actual Date</b>
1) Acquisition plan approval			
2) Completion of acquisition package including: requisition, Statement of Need/Statement of Work/Statement of Objectives, data requirements, evaluation factors, evaluation plan, Quality Assurance Surveillance Plan			
3) Justification for Other than Full and Open Competition			
4) Any other required D & F approvals			
5) Issuance of synopsis			
6) Solicitation drafted; reviews begin			
7) Solicitation reviews completed			
8) Issuance of solicitation			
9) Proposals due			
10) Initial evaluation of proposals			
11) Request audits or field pricing reports			
12) Receive audits or field pricing reports			
13) Begin negotiations			
14) Complete negotiations			
15) Request final proposal revisions			
16) Final proposal revisions received			
17) Final proposal revisions evaluation			
18) Contract preparation, reviews, and clearances obtained			
19) Notify unsuccessful offerors			
20) Contract award

**Title:** IX BAM 750 - Performance of Inherently Governmental Functions

**Policy Tracking #:** IBB-12-05

**Effective Date:** July 10, 2014

**Originating Office:** IBB Office of Administration (202) 203-4595

---

**(a) PURPOSE:** The purpose of this policy is to protect the Government's interests by preventing contractors from performing Inherently Governmental Functions. In addition, this policy implements Office of Federal Procurement Policy guidance on performance of Inherently Governmental Functions.

**(b) AUTHORITIES AND SCOPE:**

(1) Authorities.

- (i) [FAR Subpart 7.3 – Contractor Versus Government Performance](#);
- (ii) [FAR Subpart 7.5 – Inherently Governmental Functions](#);
- (iii) [OMB Circular A-76](#) (revised May 29, 2003);
- (iv) [OFPP Policy Letter 11-01, Performance of Inherently Governmental and Critical Functions, 09-12-2011](#);
- (v) [Technical Correction to OFPP Policy Letter 11-01](#).

(2) Scope.

- (i) This policy applies to all offices and divisions of the Federal Government supervised by the Broadcasting Board of Governors (collectively “the Agency”).
- (ii) This policy applies to all requirements for procuring services, including contract awards, modifications to awards for services, task orders against Blanket Purchase Agreements, and other contract vehicles.

**(c) POLICY:**

(1) Prohibitions. The Agency shall not use contractors to perform Inherently Governmental Functions, including but not limited to the following examples:

- (i) Conducting foreign relations or determining foreign policy;
- (ii) Determining Agency policy, such as determining the content and application of regulations;
- (iii) Determining Federal program priorities for budget requests;
- (iv) Determining budget policy, guidance, and strategy;

- (v) Supervising Federal employees;
- (vi) Selecting individuals for Federal Government employment, including interviewing individuals for employment;
- (vii) Approving position descriptions or performance standards for Federal employees;
- (viii) Determining what Government property to dispose of and on what terms;
- (ix) Federal procurement activities, including but not limited to:
  - (A) Determining what supplies or services are to be acquired by the Government;
  - (B) Participating as a voting member on any source selection board;
  - (C) Approving any contractual documents, such as documents defining requirements, incentive plans, and evaluation criteria;
  - (D) Awarding contracts;
  - (E) Administering contracts on behalf of the Government, including but not limited to:
    - (1) Serving as a Contracting Officer's Representative;
    - (2) Ordering changes in contract performance or contract quantities;
    - (3) Taking action based on evaluations of contractor performance; and
    - (4) Accepting or rejecting contractor products or services.
  - (F) Terminating contracts;
  - (G) Determining whether contract costs are reasonable, allocable, and allowable; and
  - (H) Participating as a voting member on contractor performance evaluation boards.
- (x) Approving Agency responses to Freedom of Information Act requests or approving Agency responses to administrative appeals of denials of Freedom of Information Act requests;
- (xi) Conducting administrative hearings to determine the eligibility of any person for a security clearance, or involving actions that affect matters of personal reputation or eligibility to participate in Government programs;
- (xii) Collecting, controlling, or authorizing disbursement of public funds, such as fees, royalties, duties, fines, or taxes, unless specifically authorized by statute;
- (xiii) Controlling the Agency's treasury accounts;

(xiv) Administering public trusts; and

(xv) Drafting Congressional testimony, responses to Congressional correspondence, or agency responses to audit reports from the Inspector General, the Government Accountability Office, or other Federal audit entity.

(2) Service Classifications. All requisitions for services and statements of work shall include a Service Classification of Closely Associated with Inherently Governmental Functions, Critical Functions, or Other Functions (see paragraph (e) below for definitions).

(3) Contract Oversight. When the Agency contracts for services that are Critical Functions or Closely Associated with Inherently Governmental Functions, the Contracting Officer and Contracting Officer Representative will implement appropriate managerial oversight to:

(i) Prevent contractors from performing Inherently Governmental Functions;

(ii) Maintain control over the Agency's mission and operations; and

(iii) Protect the Government's interests.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Program and project managers, the Agency's acquisition workforce, and all employees who prepare or approve requisitions for services shall familiarize themselves with [FAR Subpart 7.5](#) and [OFPP Policy Letter 11-01](#), paying special attention to the lists of examples, tests, and guidelines for classifying functions as Inherently Governmental Functions (IGF), Critical Functions (CF), or Closely Associated with an Inherently Governmental Function (CA/IGF).

(2) For further guidance on how to apply these tests and guidelines, contact the IBB Office of Contracts, Policy and Procedures Branch.

(3) Requisitioning Office Responsibilities. Whoever develops the statement of work, requisition, or other documents defining the Agency's requirements for a service contract shall:

(i) Classify the services in accordance with [OFPP Policy Letter 11-01](#), consulting with the IBB Office of Contracts, Policy and Procedures Branch as required;

(ii) Identify services as Closely Associated with Inherently Governmental Functions, Critical Functions, or Other Functions, in all statements of work, requisitions, or other procurement requests; and

(iii) Write a meaningful description of the services in requisitions or other procurement requests.

(4) Administrative Officer Responsibilities. If an Administrative Officer receives a requisition for services that are classified as Inherently Governmental Functions, he or she shall return the requisition to the requesting official.

(5) Approving Official Responsibilities.

(i) Approving officials must confirm, in writing, that services the Agency plans to procure comply with [OFPP Policy Letter 11-01](#). Approving officials may satisfy this requirement by signing a requisition, prepared in Momentum, with the following text incorporated into either the description or extended description fields in the requisition's header: "I, the approving official, confirm that, to the best of my knowledge and understanding, the services that will be procured pursuant to this requisition do not include work that must be reserved for performance by Federal employees, and that the Agency will be able to manage contractor performance consistent with its responsibility to perform inherently governmental functions and maintain control over the Agency's mission and operations."

(ii) No approving official shall approve a requisition for IGF services. If an Approving Official is asked to sign a requisition for IGF services, he or she shall return the requisition to the requesting official.

(6) Contracting Officer Responsibilities.

(i) If a Contracting Officer receives a requisition for services that include IGF, he or she shall return the requisition without action to the appropriate Administrative Officer, or other official from the requisitioning office, for deletion of the IGF services requirement.

(ii) If a requisition for services does not include a Service Classification and a description of work, the Contracting Officer shall:

(A) Return the requisitions to the Requesting Official and remind that official that he or she is required to provide a Service Classification and a meaningful description of services with each requisition for services; and

(B) Notify the Requesting Official that the Office of Contracts, Policy and Procedures Branch provides guidance on how to categorize services.

(iii) For procurement of services above the simplified acquisition threshold, the Contracting Officer shall include the following in the contract file:

(A) The approving official's confirmation that the procurement complied with OFPP Policy Letter 11-01; and

(B) Analysis, developed in coordination among the requisitioning office, the Contracting Officer, and the Office of the General Counsel, which establishes that:

(1) The contract does not include functions that appear on the list of IGF in the FAR or Appendix A to OFPP Policy Letter 11-01;

(2) No statutes or other authority identify functions included in the contract as IGF, or otherwise require performance of these functions by Federal employees;

(3) The proposed role for the contractor is not so extensive that it would preempt or inappropriately restrict Agency management from developing, considering, or taking courses of action;

(4) If the contract includes functions that are CA/IGF, that:

(i) The Agency has given special consideration to using Federal employees to perform the function; and

(ii) The Agency has sufficient capacity and capability to give special management attention to contractor performance, limit or guide the contractor's exercise of discretion, ensure reasonable identification of contractors work products, avoid conflicts of interest, and preclude unauthorized personal services.

(5) If the function is a CF, that the Agency has sufficient internal capability to control its mission and operations.

(iv) If, after contract award, a Contracting Officer discovers that a contractor has performed IGF, the Contracting Officer shall take prompt corrective action, as necessary, such as strengthening contract oversight, in-sourcing work, the non-exercise of option periods, issuing a cure notice, terminating the contract, or terminating the portion of the contract being used to fulfill inherently governmental responsibilities.

(v) If a Contracting Officer discovers that any Agency employee directed a contractor to perform IGF, the Contracting Officer shall notify the employee's supervisor for appropriate action. In addition, if a Contracting Officer discovers that a COR directed a contractor to perform IGF, the Contracting Officer may immediately terminate the COR's designation.

(vi) Required Training.

(A) The Office of Contracts Policy Branch, the Office of the General Counsel, The IBB Office of Administration, and the Office of Human Resources Training Division shall coordinate to develop training for Agency staff on management of IGF, CA/IGF, and CF.

(B) All Agency Contracting Officers, Contract Specialists, Contracting Officer Representatives, Administrative Officers, and all Agency personnel who have authority to approve requisitions shall take this training no less than every two years.

(vii) Review and Updates to this Policy. In order to comply with [OFPP Policy Letter 11-01](#), and in accordance with [BAM Title II, Section 100](#), the IBB Office of Administration,

in coordination with the Office of Contracts Policy Branch, shall review this policy annually.

**(e) DEFINITIONS:**

(1) Service Classification means the Agency's determination that services fall into one of the following categories: Inherently Governmental Functions, Closely Associated with Inherently Governmental Functions, Critical Functions, or Other Functions.

(2) Inherently Governmental Functions (IGF) are activities so intimately related to the public interest as to require performance by Government employees, including all examples listed in [FAR Subpart 7.5](#) and [OFPP Policy Letter 11-01](#).

(3) Closely Associated with Inherently Governmental Functions (CA/IGF) – While [OFPP Policy Letter 11-01](#) does not provide a precise definition of “Closely Associated with Inherently Governmental Functions,” generally tasks that are Closely Associated with Inherently Governmental Functions are those contractor duties that could expand to become IGF. [OFPP Policy Letter 11-01, Appendix B](#) (page 15 of the linked document) lists examples of functions Closely Associated with Inherently Governmental Functions, including but not limited to:

- (i) Supporting or providing advice or recommendations with regard to inherently governmental activities;
- (ii) Work in a situation that permits or might permit access to confidential business information or other sensitive information;
- (iii) Dissemination of information regarding agency policies or regulations;
- (iv) Participation in a situation where it might be assumed that the participants are agency employees or representatives;
- (v) Provision of legal advice and interpretations of regulations and statutes to Government officials; and
- (vi) Provision of non-law-enforcement security activities.

(4) Critical Functions (CF) means functions that are necessary to the Agency being able to effectively perform and maintain control of its mission and operations. Typically, critical functions are recurring and long-term in duration. A critical function is not necessarily so intimately related to the public interest as to mandate performance by Government employees.

(5) Other Functions means all tasks or services that are not IGF, CA/IGF, or CF. That is, functions which are neither so intimately related to the public interest as to mandate performance by Government employees, nor necessary to an agency's maintaining control of its mission and operations.

**Title:** 9 BAM 940 – Contractor Debarment, Suspension, and Ineligibility

**Policy Tracking #:** CON-13-07

**Effective Date:** 09/29/2016

**Originating Office:** Office of Management Services – Contracts (OMS/C), (202) 382-7838,  
[bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

**(a) PURPOSE:** The purpose of this policy is to implement suspension and debarment procedures to protect the Agency, as well as the Federal Government as a whole, from doing business with individuals or organizations that are not responsible.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

(i) [The Federal Acquisition Streamlining Act of 1994, Pub. L. 103-355 § 2455, 108 Stat. 3327 \(See 31 U.S.C. § 6101 NOTE\).](#)

(ii) [Federal Acquisition Regulation \(FAR\) Subpart 9.4 – Debarment, Suspension, and Ineligibility.](#)

(iii) [Executive Order 12549, Debarment and Suspension.](#)

(iv) [Executive Order 12689, Debarment and Suspension.](#)

(v) [48 Code of Federal Regulations \(CFR\) Part 1909, Contractor Qualifications.](#)

(vi) [Delegation Order 99-11, Redelelegation of Contracting Authority to the Senior Procurement Executive, Office of Contracts](#) or current version (delegations of authority are attached to [2 BAM 480 - Delegations of Authority](#)).

(2) Scope. This policy applies to the Federal Government elements of the Broadcasting Board of Governors (i.e., Voice of America; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and the International Broadcasting Bureau), referred to in this policy as “the Agency.”

(3) Relation to Other Policies. This policy supersedes [9 BAM 160, Debarred, Suspended, and Ineligible Bidders](#) regarding contractor suspension or debarment under [FAR Subpart 9.4](#). The policies in [9 BAM 160](#) relating to non-procurement suspension and debarment remain in effect until repealed or superseded.

**(c) POLICY:**

- (1) The Agency shall not award contracts or other procurement instruments, or solicit offers from contractors listed in the System for Award Management (SAM) Exclusions at website address <http://www.sam.gov><sup>1</sup>.
- (2) The Agency shall do business with responsible contractors and consent to subcontracts with responsible contractors only (see paragraph (e) Definitions below).
- (3) The Agency shall suspend or debar contractors only when necessary to protect the Government from doing business with non-responsible contractors.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

- (1) The Senior Procurement Executive (SPE) is the Agency's Suspending and Debarring Official (SDO). The SDO shall suspend or debar contractors in consultation with the Office of General Counsel, in accordance with [FAR Subpart 9.4](#), and in accordance with the procedures in this policy.
- (2) Role of the Office of Inspector General. The Office of the Inspector General for the Department of State and the Broadcasting Board of Governors (OIG) is responsible for investigating waste, fraud, and abuse of Government funds.
- (3) The Chief of the OMS/C Policy Branch, or designee within the OMS/C Policy Branch, shall:
  - (i) Serve as the primary point of contact with the OIG for purposes of suspension and debarment under [FAR Subpart 9.4](#), and related investigations;
  - (ii) Provide support to the SDO, as required, by making recommendations regarding individual suspension or debarment actions, drafting or reviewing suspension or debarment determinations, reviewing administrative agreements offered as an alternative negotiated resolution to suspension or debarment actions, or performing any other tasks related to general management of suspensions or debarment;
  - (iii) Maintain records on each suspension or debarment; and
  - (iv) Enter the required information of suspended or debarred contractors in the SAM Exclusions in accordance with FAR 9.404.
- (4) The Office of the General Counsel (OGC) shall:
  - (i) Advise the SDO on all suspensions and debarments;
  - (ii) Advise the Chief of the OMS/C Policy Branch on suspension and debarment support activities;

---

<sup>1</sup> SAM Exclusions has replaced the Excluded Parties List System.

(iii) Review and clear all notices of suspension, notices of proposal to debar, decision memos regarding suspension, decision memos regarding debarment, and administrative agreements to ensure the documents satisfy all legal and regulatory requirements;

(iv) Advise contracting officers (COs), project managers (PMs), contracting officer representatives (CORs), and other individuals regarding the preparation of suspension and debarment consideration packages;

(v) Attend suspension and debarment hearings; and

(vi) Coordinate with the Department of Justice to defend the Agency if the SDO's suspension or debarment decisions are challenged in court.

(5) Investigations Initiated by Agency Personnel:

(i) All Agency personnel shall promptly report information they suspect is cause for a contractor's suspension or debarment to the appropriate CO. Causes for suspension or debarment are fully described at [FAR 9.406-2](#) and [9.407-2](#), but generally include:

(A) Committing fraud, or any other criminal offense, in connection with obtaining, attempting to obtain, or performing a contract with the Agency;

(B) Violations of the Drug-Free Workplace Act of 1988;

(C) Commission of any offenses that indicate a lack of business integrity or business honesty (e.g. submitting false claims for payment, theft, forgery, embezzlement, falsification or destruction of records, making false statements, or tax evasion);

(D) Serious, willful, or repeated violation of the terms of a Government contract; or

(E) Any other cause that is so serious and compelling that it affects the present responsibility of the contractor.

(ii) When the appropriate CO receives information that they believe is cause for a contractor's suspension or debarment, the CO shall write an Action Referral Memo (ARM) to the SDO. The ARM shall include:

(A) Identification of the contractor(s) involved and their address, available in the [SAM](#);

(B) A statement of the acquisition history with the contractor(s) identified. This section should include the procurement instrument identifier for any current contract between the contractor(s) identified and the Agency, a summary of what the Agency is purchasing under any current contract with the contractor(s) identified, and the procurement instrument identifiers for any previous contracts the Agency has awarded the contractor(s) identified.

- (C) A statement of facts regarding why the CO recommends suspending or debarring the contractor(s) identified. This section should answer the questions what happened, who was involved, and when and where each event occurred;
  - (D) Identification of all the causes for suspension and debarment from [FAR 9.406-2](#) or [9.407-2](#) that apply to the statement of facts;
  - (E) Copies of any supporting or documentary evidence;
  - (F) A list of necessary or probable witnesses, along with their contact information, who may need to testify at a fact-finding hearing; and
  - (G) Recommendation regarding whether to suspend or debar the contractor(s) involved, and in the case of debarment, regarding the period of debarment.
- (iii) When the CO does not have first-hand knowledge of the facts that support suspension or debarment, the person(s) who have first-hand knowledge should draft the statement of facts. However, the ARM must reflect the CO's independent judgment recommending suspension or debarment.
- (iv) After receiving an ARM, the SDO, or designee within the OMS/C Policy Branch, shall coordinate with the heads of all offices within the Agency that receive services from the contractor(s) involved to determine whether suspending or debarring the contractor would deny the Government of its only source for critical supplies or services.
- (v) After receiving an ARM, the SDO, or designee within the OMS/C Policy Branch, shall coordinate with the OIG. The SDO must report waste, fraud, and abuse of Government funds, or other criminal activity to the OIG. Furthermore, suspension and debarment actions initiated by the Agency must be coordinated with the OIG in case they relate to matters already under investigation by the OIG.
- (vi) After coordination with the OIG, the SDO, or designee within the OMS/C Policy Branch, shall coordinate with the Interagency Suspension and Debarment Committee<sup>2</sup> to determine if other federal agencies have an interest in the proposed suspension or debarment and to determine which agency should act as lead agency.
- (6) Investigations Initiated by Referral from the Office of Inspector General:
- (i) The OIG conducts investigations of waste, fraud, abuse, or other criminal activity, by Government contractors, and may initiate suspension or debarment proceedings by issuing a Report of Investigation (ROI).
  - (ii) The SDO, or designee from within the OMS/C Policy Branch, reviews the ROI and drafts a determination memo which recommends suspension, debarment, or no action based on the information provided by the OIG.

---

<sup>2</sup> See <http://isdc.sites.usa.gov/>.

(iii) If the SDO decides to proceed with suspension or debarment, the SDO, or designee within the OMS/C Policy Branch, shall coordinate with the heads of all offices within the Agency that receive services from the contractor(s) involved to determine whether suspending or debarring the contractor would deny the Government of its only source for critical supplies or services.

(iv) After coordinating with affected offices, the SDO, or designee within the OMS/C Policy Branch, shall coordinate with the Interagency Suspension and Debarment Committee to determine if other federal agencies have an interest in the proposed suspension or debarment and to determine which agency should act as lead agency.

(7) Suspension Decisions and Hearings:

(i) Standard for Suspension - The SDO may only suspend a contractor when the SDO determines that there is adequate evidence that immediate action is necessary to protect the interests of the Federal Government pending completion of an investigation, legal proceedings, or debarment proceedings. Although adequate evidence is a low evidentiary threshold, analogized to probable cause, the SDO shall seek counsel from the OGC on whether the facts in each case constitute adequate evidence.

(ii) Notice of Suspension - After completing all the steps in sections (d)(5) or (d)(6) above, if the SDO determines there is adequate evidence to suspend a contractor, the SDO shall issue a formal, written notice of suspension to that contractor via certified mail which includes all of the required information under [FAR 9.407-3\(c\)](#), including the contractor's opportunity to respond (see (d)(7)(iv) below). The SDO shall seek OGC's clearance regarding the notice of suspension before issuing the notice and shall notify the OIG when the notice has been issued.

(iii) Immediate Effect of Suspension - Suspension shall be effective at the time the contractor receives the notice of suspension and shall remain in effect:

(A) Unless the SDO decides to terminate the suspension, which may be based on information submitted by the contractor or a suspension hearing;

(B) Until the end of the investigation, legal proceeding, or debarment hearing identified in the notice of suspension; or

(C) As otherwise detailed in FAR 9.407-4.

(iv) Deadline to Respond to a Notice of Suspension - Any opposition to a suspension must be submitted within 30 calendar days after receiving a notice of suspension. The opposition is submitted at the time of delivery, mailing, e-mailing, or transfer to a courier service. The Agency is not required to accept a contractor's untimely submission.

(v) Decisions Without a Suspension Hearing - When a fact-finding suspension hearing is not required, as explained in [FAR 9.407-3\(d\)\(1\)](#), the SDO shall issue a suspension decision memo based on the administrative record, including an ARM, a ROI, and any information submitted by the contractor in opposition to suspension. The SDO shall seek

OGC's clearance regarding the decision memo and issue a suspension decision memo within 30 working days after receiving the contractor's opposition to suspension; or, if the contractor chooses not to submit information in opposition to suspension, within 30 working days after the contractor's deadline to submit information.

(vi) Suspension Hearings - If a contractor's submission in opposition to a suspension raises genuine issues of material facts, and if otherwise required by [FAR 9.407-3](#), the Agency shall hold a suspension hearing, according to the requirements in [FAR 9.407-3](#), which affords the contractor an opportunity to appear with counsel, submit evidence, and present and confront witnesses.

(A) Scheduling Suspension Hearings. If the circumstances warrant a suspension hearing, the hearing shall be scheduled within 20 calendar days after the Agency receives a contractor's opposition to suspension, unless the contractor requests a longer period of time. However, the Agency reserves the right to refuse an unreasonable request for delay.

(B) Fact-Finding Board. Suspension hearings shall be headed by a three-member fact-finding board consisting of one representative appointed by (1) the Director of Management Services, (2) the Senior Procurement Executive (other than the CO who submitted the ARM to the SDO), and (3) a Director of an affected Agency Element<sup>3</sup> (other than someone that has worked as a PM or COR on a procurement with the contractor), from each of their respective offices.

(C) Agency Representation. The CO who submitted the ARM to the SDO shall present the Agency's case. If the contractor is represented by counsel at the suspension hearing, OGC shall assign an attorney to present the Agency's case at the suspension hearing.

(D) Written Findings of Fact. The three-person fact-finding board shall deliver written findings of fact addressing all issues of material fact in dispute between the contractor and the Agency, to the SDO within 10 calendar days after the suspension hearing.

(vii) Decision Memo - Based on the written findings of fact from the suspension hearing, the SDO shall issue a written decision memo to the contractor that either sustains or terminates the existing suspension. The SDO shall seek OGC's clearance regarding the decision memo and issue the suspension decision memo to the contractor within 30 calendar days after the suspension hearing.

---

<sup>3</sup> Agency Elements: International Broadcasting Bureau; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and Voice of America

(8) Debarment Decisions and Hearings:

(i) Standard for Debarment - The SDO may only debar a contractor when the SDO finds there is a preponderance of evidence that the Government needs to be protected from a non-responsible contractor. The preponderance of evidence standard in this context requires that the SDO compare proof supporting debarment to proof opposing debarment, and to conclude whether it is more probably true than not that the Government needs to be protected from a non-responsible contractor. The SDO shall consult with the OGC regarding whether the facts in each case meet the preponderance of evidence standard.

(ii) Notice of Proposal to Debar - After completing all the steps in sections (d)(5) or (d)(6) above, if the SDO determines there is preponderance of evidence supporting debarment of a contractor, the SDO shall issue a formal, written notice of proposal to debar that contractor via certified mail which includes all of the required information under [FAR 9.406-3\(c\)](#), including the contractor's opportunity to respond (see (d)(8)(iii) below). The SDO shall seek OGC's clearance regarding the notice of proposal to debar before issuing the notice and shall notify the OIG when the notice has been issued.

(iii) Deadline to Respond to a Notice of Proposal to Debar - Any opposition to a debarment must be submitted within 30 calendar days after receiving a notice of proposed debarment. The opposition is submitted at the time of delivery, mailing, e-mailing, or transfer to a courier service. The Agency is not required to accept a contractor's untimely submission.

(iv) Decisions Without a Debarment Hearing - When a fact-finding debarment hearing is not required, as explained in [FAR 9.406-3\(d\)\(1\)](#), the SDO shall issue a debarment decision memo based on the administrative record, including an ARM, a ROI, and any information submitted by the contractor in opposition to debarment. The SDO shall seek OGC's clearance regarding the decision memo and issue the debarment decision memo within 30 working days after receiving the contractor's opposition to debarment; or, if the contractor chooses not to submit information in opposition to debarment, within 30 working days after the contractor's deadline to submit information.

(v) Debarment Hearing - If a contractor's submission in opposition to a debarment raises genuine issues of material facts, and if otherwise required by [FAR 9.406-3](#), the Agency shall hold a debarment hearing, according to the requirements in [FAR 9.406-3](#), which affords the contractor an opportunity to appear with counsel, submit evidence, and present and confront witnesses.

(A) Scheduling Debarment Hearings. If the circumstances warrant a debarment hearing, the hearing shall be scheduled within 20 calendar days after the Agency receives a contractor's opposition to debarment, unless the contractor requests a longer period of time. However, the Agency reserves the right to refuse an unreasonable request for delay.

(B) Fact-Finding Board. Debarment hearings shall be headed by a three-member fact-finding board consisting of one representative appointed by (1) the Director of Management Services, (2) the Senior Procurement Executive (other than the CO who submitted the ARM to the SDO), and (3) a Director of an affected Agency Element (other than someone that has worked as a project manager (PM) or contracting officer's representative (COR) on a procurement with the contractor), from each their respective offices.

(C) Agency Representation. The CO who submitted the ARM to the SDO shall present the Agency's case. If the contractor is represented by counsel at the debarment hearing, the OGC shall assign an attorney to present the Agency's case at the debarment hearing.

(D) Written Findings of Fact. The three-person fact-finding board shall deliver written findings of fact addressing all issues of material fact in dispute between the contractor and the Agency, to the SDO within 10 calendar days after the debarment hearing.

(vi) Decisions after a Debarment Hearing - Based on the written findings of fact from the debarment hearing, the SDO shall issue a written decision memo, according to the requirements in [FAR 9.406-3\(e\)](#), to the contractor that either imposes debarment or notifies the contractor that the Agency will not impose debarment. The SDO shall seek OGC's clearance regarding the decision memo and issue the debarment decision memo to the contractor within 30 calendar days after the debarment hearing.

(9) Maintaining List of Contractors Excluded from Federal Procurement Programs. The OMS/C Policy Branch shall maintain the list of contractors debarred, suspended, or otherwise ineligible for bidding on contracts.

**(e) DEFINITIONS:**

(1) Contractor means any individual or other legal entity that:

(i) Directly or indirectly, submits offers for or is awarded, or reasonably may expect to submit offers for or be awarded, a Government contract, including a contract for carriage under Government or commercial bills of lading, or subcontracts under a Government contract; or

(ii) Conducts business, or reasonably may be expected to conduct business, with the Government as an agent or representative of another contractor.

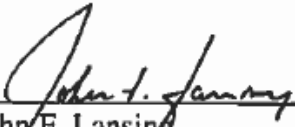

(2) Responsible contractor means a contractor that meets the standards in [FAR 9.104](#), including but not limited to: ability to comply with delivery or performance schedules, satisfactory performance record, satisfactory record of integrity and business ethics, and all other applicable standard in [FAR 9.104](#).

(3) Suspending and Debarring Official (SDO) means a designee authorized by the head of agency to impose suspension or debarment.

9.29.16

**Title:** IX BAM 1310 – Fair and Reasonable Price Determination

**Policy Tracking #:** CON-16-02

**Effective Date:** May 25, 2016

**Originating Office:** Office of Contracts, (202) 382-7838, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** The purpose of this policy is to provide guidance to contracting officers on the requirement to determine price reasonableness, and guidelines for making that determination.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

- (i) [Federal Acquisition Regulation \(FAR\) Subpart 8.4 -- Federal Supply Schedules.](#)
- (ii) [FAR 13.106-3 Award and documentation.](#)
- (iii) [FAR Subpart 14.4 -- Opening of Bids and Award of Contract.](#)
- (iv) [FAR Subpart 15.4 -- Contract Pricing.](#)

(2) Scope.

- (i) This policy applies to all contracting officers (COs) employed by the Federal Government elements of the Broadcasting Board of Governors (i.e., International Broadcasting Bureau; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and Voice of America), referred to in this policy as “the Agency” or “BBG”.
- (ii) This policy applies to all contract actions above the micro-purchase threshold<sup>1</sup>.

**(c) POLICY:**

- (1) Prior to awarding a contract or placing an order, COs must determine that the proposed price is fair and reasonable.
- (2) Simplified Acquisitions. For actions below the simplified acquisition threshold, price reasonableness shall be determined in accordance with the procedures set forth in FAR 13.106-3 -- Award and documentation, and documented on the BBG Fair and Reasonable Price Determination - Simplified Acquisition Procedures form<sup>2</sup>, or an equivalent document.
- (3) Sealed Bidding. When contracting by sealed bidding, an Abstract of Offers shall be completed in accordance with FAR 14.403 -- Recording of bids, and the CO must determine

---

<sup>1</sup> See FAR 13.203 Purchase guidelines for further guidance regarding micro-purchases.

<sup>2</sup> The form is an attachment to CON Directive/Action Memo “Procedures for Price Reasonableness Determinations (Contract Pricing)”.

that the price of the winning bid is fair and reasonable using the price analysis techniques in FAR 15.404-1(b) as a guideline. That analysis shall be documented in the contract file.

(4) Contracting by Negotiation. When contracting by negotiation, price reasonableness shall be determined in accordance with FAR Subpart 15.4 -- Contract Pricing, and documented on the BBG Price Negotiation Memorandum template<sup>3</sup> or equivalent document.

(5) Simplified Procedures for Certain Commercial Items. For the acquisition of commercial items above the simplified acquisition threshold using FAR Subpart 13.5:

(i) Using simplified acquisition procedures, which is strongly encouraged, price reasonableness shall be determined in accordance with Section (c)(2) of this policy.

(ii) Using sealed bidding (FAR Part 14), price reasonableness shall be determined in accordance with Section (c)(3) of this policy.

(iii) Using contracting by negotiation (FAR Part 15), price reasonableness shall be determined in accordance with Section (c)(4) of this policy.

(6) General Services Administration (GSA) Federal Supply Schedule (FSS) contracts. When establishing a blanket purchasing agreement (BPA) or placing an order against a FSS contract for:

(i) Supplies and fixed price services for performance of a specific task that do not require a statement of work (e.g., installation, maintenance, and repair) -

(A) A price reasonableness determination is not required as GSA has already determined prices and rates under schedule contracts to be fair and reasonable<sup>4</sup>. The CO shall include the following statement affirming this in the contract file:

*In accordance with FAR Subpart 8.4 – Federal Supply Schedules, a separate determination of fair and reasonable pricing is not required because GSA has already determined the prices under schedule contracts for supplies and fixed priced services for performance of a specific task to be fair and reasonable.*

(B) However, a price reasonableness determination is required if the solicited services result in the proposal of a level of effort or labor mix by schedule holders for the performance of a specific task. In such cases neither the level of effort nor the labor mix has been determined to be reasonable by GSA. This applies even if the schedule holders use their schedule rates in their proposals to arrive at the offered prices. Rates alone are not sufficient information to determine a price fair and reasonable.

(C) Furthermore, the CO shall use the ordering procedures detailed in FAR 8.405-1 when placing an order under a schedule contract and FAR 8.405-3 when establishing

---

<sup>3</sup> See previous footnote.

<sup>4</sup> See FAR 8.404(d) Pricing.

a BPA, and ensure the contract type complies with the requirements of FAR 8.404(h) Type-of-order preference for services.

(ii) Services that require a statement of work -

(A) A price reasonableness determination is required<sup>5</sup>. A technical analysis shall be conducted to evaluate the proposed level of effort and labor mix for the CO to use in combination with the hourly rate, either from the schedule contract or contractor quote, to determine whether the total price is reasonable. The CO shall document findings on the BBG Fair and Reasonable Price Determination - Simplified Acquisition Procedures form<sup>6</sup>, or an equivalent document.

(B) The CO shall use the ordering procedures detailed in FAR 8.405-2 when placing an order under a schedule contract and FAR 8.405-3 when establishing a BPA, and ensure the contract type complies with the requirements of FAR 8.404(h) Type-of-order preference for services.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES FOR CONTRACTING OFFICERS (COs):**

(1) COs, and no other Agency official, shall make the determination and affirm that the proposed price is fair and reasonable. COs shall maintain the written fair and reasonable price determination in the contract file.

(2) Techniques to Evaluate Price Reasonableness: Based on the types of acquisitions within the Agency, the following are the most commonly used techniques:

(i) Price Analysis<sup>7</sup>: When an offeror is not required to provide cost or pricing data, price analysis must be used to ensure the overall price is fair and reasonable.

(ii) Cost and Price Analysis<sup>8</sup>: When an offeror is required to provide cost or pricing data, cost analysis must be used to evaluate the reasonableness of individual cost elements. Price analysis must then be used to verify that the overall price offered is fair and reasonable.

(iii) Cost Realism Analysis<sup>9</sup>: Cost realism analysis shall be performed on cost-reimbursement contracts, and may be used for actions such as competitive fixed-priced contracts<sup>10</sup>.

---

<sup>5</sup> See FAR 8.405-2(d) Evaluation and FAR 8.405-3(b)(2)(vi).

<sup>6</sup> The form is an attachment to CON Directive/Action Memo "Procedures for Price Reasonableness Determinations (Contract Pricing)".

<sup>7</sup> See FAR 13.106-3(a) Basis for award and FAR 15.404-1(b) Price analysis for commercial and non-commercial items.

<sup>8</sup> For cost analysis, see FAR 15.404-1(c) Cost analysis.

<sup>9</sup> See FAR 15.404-1(d) Cost realism analysis.

<sup>10</sup> COs may consider using cost realism analysis to evaluate offers for competitive fixed-price contracts when one of the factors at FAR 15.404-1(d)(3) applies, however, the Agency strongly advises that this analysis not be used for this contract type without the involvement and guidance of the Office of Contracts Policy Division.

(A) Please note that the government's cost realism analysis is frequently challenged by contractors in protest venues, and the CO's judgment is likely to be upheld in a protest if it is (1) in accordance with the evaluation criteria stated in the solicitation, (2) informed, (3) thorough, (4) reasonable and not arbitrary, and (5) adequately documented.

(iv) Technical Analysis<sup>11</sup>: When "similar to" items or commercial items that are "of a type" or requiring minor modification are being purchased, the CO should request a technical analysis from personnel having specialized knowledge, skills, experience, or capability in the areas applicable to the procurement. COs should request technical assistance to evaluate the types and quantities of material proposed, and the need for the types and quantities of labor hours and the labor mix.

(3) Comparing proposed prices of competitors is the preferred basis for price reasonableness, so COs should use this method whenever possible<sup>12</sup>, along with all bases for which there is recent, reliable, and valid data.

(4) When price reasonableness is based on comparison to prior/historical prices, the CO must ensure that the previous pricing was determined fair and reasonable based on adequate and documented price or cost analysis, which must be validated<sup>13</sup> (for example, by confirming there has been no significant time lapse).

(5) When establishing a blanket purchasing agreement (BPA), placing an order against a FSS contract, or in conjunction with the annual BPA review, COs are strongly encouraged to request an additional discount off schedule contract prices and rates for all actions, however, COs shall seek a price reduction when the order or BPA exceeds the simplified acquisition threshold<sup>14</sup>.

(6) Once quotes or proposals are received for competitive and sole source procurements, COs must ensure that safeguards are taken to protect proprietary information, both technical and cost related, from unauthorized disclosure.

(7) Waivers: Requests to waive the requirement for submission of certified cost or pricing data in accordance with FAR 15.403-1(c)(4) shall be sent via e-mail to [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov).

---

<sup>11</sup> See FAR 15.404-1(e) Technical analysis.

<sup>12</sup> See FAR 13.106-3(a)(1) and FAR 15.404-1(b) Price analysis for commercial and non-commercial items.

<sup>13</sup> See FAR 15.404-1(b)(2)(ii) for further guidance.

<sup>14</sup> See FAR 8.405-4 – Price reductions.

**(e) DEFINITIONS (AS USED IN THIS POLICY):**

(1) Contract action means an action resulting in a contract, or an addition to the contract scope, or an action issued pursuant to the Changes clause that results in an equitable adjustment to the contract price. This term does not include a contract modification issued pursuant to the Changes clause for funding and other administrative changes.

(2) Cost analysis refers to the review and evaluation of any of the separate cost elements and profit or fee in an offeror's proposal to determine a fair and reasonable price or cost realism. Cost analysis generally cannot be used without price analysis.

(3) Cost or pricing data consists of all the facts that can be reasonably expected to contribute to the soundness of estimates of future costs and to the validity of determinations of costs already incurred<sup>15</sup>.

(4) Cost realism analysis is required in cost-reimbursement contracting and is the process of independently reviewing and evaluating specific elements of each offeror's proposed cost estimate to determine whether the estimated proposed cost elements are realistic for the work to be performed; reflect a clear understanding of the requirements; and are consistent with the unique methods of performance and materials described in the offeror's technical proposal. In other words, this analysis evaluates whether an offeror's estimate is too high or too low.

(5) Fair and reasonable price is the price that a prudent business person would pay for an item or service under competitive market conditions.

(6) The Federal Supply Schedule (FSS) program, as defined in the FAR, is directed and managed by GSA and provides Federal agencies with a simplified process for obtaining commercial supplies and services at prices associated with volume buying.

(7) Price analysis is the evaluation and review of the total price of an item (or program) without regard to the individual elements of cost or proposed profit. This analysis always involves some form of comparison with other prices.

(8) Technical analysis is an examination and evaluation to determine and report on the need for and reasonableness of the resources proposed by the offeror to complete the contract.

**Title:** IX BAM 3290 – Payment Documentation

**Policy Tracking #:** CON-16-04

**Effective Date:** June 29, 2016

**Originating Office:** Office of Contracts, (202) 382-7838, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** The purpose of this policy is to ensure that invoices are efficiently processed and proper supporting documentation is provided for all contractor invoices as evidence that federal funds were expended in an appropriate manner.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

- (i) [Federal Acquisition Regulation \(FAR\) 32.905 -- Payment documentation and process.](#)
- (ii) The Prompt Payment Act, [31 U.S.C. §3901, et seq.](#)
- (iii) [Office of Management and Budget Memorandum dated July 17, 2015, Improving Government Efficiency and Saving Taxpayer Dollars Through Electronic Invoicing \(M-15-19\).](#)

(2) Scope.

- (i) This policy applies to all contracting officers (COs), contracting officer representatives (CORs), project managers (PMs), and other Government contracting officials employed by the Federal Government elements of the Broadcasting Board of Governors (i.e., Voice of America; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and the International Broadcasting Bureau), referred to in this policy as “the Agency”.
- (ii) This policy applies to all contract actions.

**(c) POLICY:**

(1) Electronic Invoicing. Invoices for new awards must be submitted electronically through the Agency’s web-based service, which is currently the [Invoice Processing Platform \(IPP\)](#).

- (i) Electronic invoicing is not required for such activities as utilities, purchase card transactions, contracts with vendors using personally identifiable information (PII) for identification, relocation services, Purchase Order Vendor (POV) contracts where performance is in the Cohen Building, and other areas where Federal electronic invoicing processes do not match common industry practices.
- (ii) If a contractor is unable to comply with the electronic invoicing requirement, the contractor must submit a written waiver request to the CO for approval.

(2) All invoice payments, with the exception of interim payments on cost-reimbursement contracts for services, must be supported by a receiving report (or other Government documentation authorizing payment) and supporting documentation to validate that all supplies and services were received in accordance with the contract. The receiving report or other Government documentation authorizing payment must include the information detailed in FAR 32.905(c) Authorization to pay.

(3) When contract financing, such as advance or interim payments, are approved and authorized<sup>1</sup>, supporting documentation must be obtained to ensure that all supplies and services were actually received in accordance with the contract, and maintained in the contract file.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Contracting Officer (CO).

(i) As stated in the Broadcasting Administrative Manual (BAM), the CO has primary responsibility and accountability for administering contracts<sup>2</sup>, which includes ensuring proper invoices are received and there is satisfactory contractor performance. If the CO designates a COR in writing, the COR will then have responsibility of monitoring contractor performance and invoice processing<sup>3</sup>.

(ii) COs shall include the clause “Electronic Invoicing and Payment Requirements – Invoice Processing Platform – (IPP)” in every written solicitation and contract action.

(2) Project Manager (PM). The PM, or receiving official, shall forward a receiving report or equivalent document to the CO within 5 days after government acceptance or approval of supplies or services, unless other arrangements have been made in writing<sup>4</sup>. Documenting acceptance should be completed as expeditiously as possible. In other words, the PM should not wait until an invoice is received to document acceptance.

(3) Invoice Review Process.

(i) Timeframe for Review.

(A) Electronic invoices must be reviewed and either approved or rejected within 7 days of receipt to ensure compliance with the Prompt Payment Act. If no action is taken on an invoice within 5 days, the invoice will be forwarded to the designated back-up in IPP to ensure action is taken within 7 days.

---

<sup>1</sup> See FAR Part 32 -- Contract Financing.

<sup>2</sup> See IX BAM 165 Contracting Officers.

<sup>3</sup> See IX BAM 164 Designation of Contracting Officers’ Representatives and Implementation of BBG Federal Acquisition Certification for Contracting Officer’s Representatives, section (d)(1)(iii) CO responsibilities.

<sup>4</sup> Other arrangements may include requiring the PM or the receiving official to forward receiving reports directly to the designated payment office.

- (B) Non-electronic invoices, once approved, must be submitted to the Accounts Payable Office within 7 days of receipt. If the invoice cannot be reviewed in the required time, the Accounts Payable Office must be notified in writing within 5 days of receiving the invoice.
- (ii) Once an invoice is submitted, the CO shall review the invoice to ensure it complies with contract terms and contains all the items of a proper invoice as required by the FAR<sup>5</sup>.
- (iii) If the PM has not already submitted a receiving report or equivalent document, the CO shall request the receiving report along with any additional supporting documentation.
- (iv) The CO shall review the receiving report and supporting documentation submitted by the PM. If there is a proper invoice and the CO has documentation of satisfactory contractor performance:
- (A) For electronic invoices, the CO shall upload the receiving report and supporting documentation as invoice attachments in IPP, and approve the invoice in IPP within 7 days of receiving the invoice<sup>6</sup>.
- (B) For non-electronic invoices, the CO shall approve the invoice and submit only the invoice to the Accounts Payable Office within 7 days of receiving the invoice. A copy of the invoice, receiving report, supporting documentation, related correspondence, and payment documentation must be maintained in the contract file.
- (v) If the invoice does not comply with FAR requirements, is not accurate, or further information is needed from the contractor before processing the invoice, the CO shall reject and return the invoice to the contractor immediately, along with an explanation as to why the invoice is improper. Rejecting the invoice shall be done within 7 days of receiving the invoice, and input from the PM may be required in this determination.
- (A) For electronic invoices, the CO shall provide the explanation in the “reject comments” section.
- (B) For non-electronic invoices, the “Letter Returning Invoice to Contractor” in the BAM<sup>7</sup> may be used as a template.
- (vi) This process shall be accelerated in accordance with the FAR for food items detailed in FAR 32.905(b)(3).

---

<sup>5</sup> See FAR 32.905(b) Content of invoices.

<sup>6</sup> Please note the invoice will be escalated to the designated back-up in IPP after 5 days.

<sup>7</sup> See IX BAM 164, Attachment D – Sample of COR Level I Designation Letter for BPA/PO Purchase Order Vendor.

**(e) DEFINITIONS (AS USED IN THIS POLICY):**

(1) Contract financing payment, as defined in the FAR, means an authorized government disbursement of monies to a contractor prior to acceptance of supplies or services by the government<sup>8</sup>.

(2) Day means calendar day.

(3) Designated payment office, as defined in the FAR, means the office designated in the contract to make invoice payments or contract financing payments.

(4) Electronic invoice is an invoice that is submitted through the Agency's web-based system, which is currently IPP.

(5) Invoice refers to all types of payment requests.

(6) Invoice payment, as defined in the FAR, means a government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Agency. Invoice payments do not include contract financing payments.

(7) Non-electronic invoice is an invoice that is not submitted through the Agency's web-based system, which is currently IPP. Examples include a hardcopy invoice or an invoice submitted via e-mail.

(8) Receiving report, as defined in the FAR, means written evidence that indicates Government acceptance of supplies delivered or services performed. A receiving report or equivalent document must meet the requirements of FAR 32.905(c).

**(f) EFFECTIVE DATE AND APPROVAL:**

Approved by:

Effective Date:

  
\_\_\_\_\_  
John F. Lansing  
CEO and Director

  
\_\_\_\_\_

<sup>8</sup> See FAR 32.001 Definitions for additional information.

**Title:** IX BAM 4110 System for Award Management and required use of the Data Universal Numbering System

**Policy Tracking #:** CON-15-01

**Effective Date:** April 27, 2016

**Originating Office:** Contracts, x7843, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:**

(1) This policy establishes Agency procedures regarding required contractor registration in the System for Award Management (SAM) and required use of the Data Universal Numbering System (DUNS).

(2) Requiring contractor registration in SAM establishes a common source of vendor data for the Government and increases visibility of vendor sources (including their geographical locations) for specific supplies and services.

**(b) AUTHORITY AND SCOPE:**

(1) Scope. This policy applies to the Federal Government elements of the Broadcasting Board of Governors (i.e., VOA, OCB, TSI, and IBB), referred to in this policy as, “The Agency.” This policy applies to all Contracting Officers (CO) employed by the Agency.

(2) Authority.

(i) [FAR Subpart 4.6](#);

(ii) [FAR Subpart 4.11](#); and

(iii) [Delegation Order 99-11, Redlegation of Contracting Authority to the Senior Procurement Executive, Office of Contracts](#) or current version (delegations of authority are attached to [II BAM 480 - Delegations of Authority](#)).

(3) Related References. Class Deviation from Federal Acquisition Regulation (FAR) 4.1102 and 4.1103, effective December 8, 2005 (Attachment 1).

**(c) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) DUNS.

(i) In accordance with FAR Section [4.605](#), the CO must identify and report a DUNS number for the successful offeror on a contract action (as defined in [FAR 4.601](#)). The DUNS Number must identify the successful offeror’s name and address, except in cases when the CO decides that a generic DUNS number is appropriate per [FAR 4.605\(c\)](#).

(ii) The CO’s use of a generic DUNS number should be limited and is only permitted in the situations described in FAR [4.605\(c\)](#). When the CO determines that a contract action

requires a generic DUNS number, the CO shall follow the procedures under FAR [4.605\(c\)](#).

(2) SAM.

(i) In accordance with [FAR Section 4.1102](#), the CO shall verify that prospective contractors are registered in the SAM database prior to award of a contract or agreement (as defined in [FAR Section 4.1101](#)) except if one of the exemptions described in [FAR Section 4.1102](#) apply.

(ii) The CO shall ensure that evidence of the prospective contractors SAM registration is included in the contract file.

(iii) All contracts or orders to contractors not registered in SAM must be documented using the attached Memorandum to File – Vendor SAM Registration Exception form, or its equivalent. The completed form must be included in the contract file.

(iv) Unless the acquisition is exempt under FAR Section [4.1102](#), the CO shall follow the procedures under [FAR Section 4.1103](#).

(v) In accordance with the Class Deviation dated December 8, 2005, individuals who are engaged by the Agency because of their talent and intellectual content as well as policy and journalistic expertise are not required to be registered in SAM, provided their awards total less than \$2,500 per fiscal year. See the attached FAR deviation.

(vi) COs are required to incorporate the appropriate provisions and contract clauses in solicitations, agreements, and resultant contracts that are applicable to [FAR Subpart 4.11 – SAM](#) and [FAR Subpart 4.6 – Contracting Reporting](#).

**(d) DEFINITIONS:**

(1) Per [FAR Section 2.101](#), Registered in the SAM database means that:

(i) The contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, the Contractor and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into the SAM database; and

(ii) The contractor has completed the Core, Assertions, Representations and Certifications, and Points of Contact sections of the registration in the SAM database;

(iii) The Government validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The contractor will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and

(iv) The Government has marked the record “Active”

MEMORANDUM TO FILE (MTF) - Vendor SAM Registration Exception Form

References: (a) Requisition # \_\_\_\_\_  
(b) FAR 4.1102(a) Policy  
(c) FAR 4.1103 Procedures

- 1) The purpose of the Memorandum to File is to document the reasoning for prospective contractors being exempt for System for Award Management (SAM) registration prior to award of a contract or agreement.
- 2) Prospective contractors are not required to be registered in SAM when it is due to one of the following circumstances (Contracting Officer shall *circle* the most relevant reason):
  - a) FAR exceptions:
    - i) Purchases under the micro-purchase threshold that use a Government-wide commercial purchase card as both the purchasing and payment mechanism, as opposed to using the purchase card for payment only;
    - ii) Classified contracts (See FAR 2.101) when registration in the SAM database, or use of SAM data, could compromise the safeguarding of classified information or national security;
    - iii) Contracts awarded by: deployed contracting officers in the course of military operations (See FAR 4.1102(a)(3)(i) for more detail); contracting officers located outside the United States and its outlying areas, as defined in FAR 2.101, for work to be performed in support of diplomatic or developmental operations (See FAR 4.1102(a)(3)(ii) for more detail); or contracting officers in the conduct of emergency operations (See FAR 4.1102(a)(3)(iii) for more detail);
    - iv) Contracts with individuals for performance outside the United States and its outlying areas;
    - v) Contracts to support unusual or compelling needs (See FAR 6.302-2);
    - vi) Contract actions at or below \$30,000 awarded to foreign vendors for work performed outside the United States, if it is impractical to obtain SAM registration (Note: State in comments section why registration is impractical); and
    - vii) Micro-purchases that do not use the electronic funds transfer (EFT) method for payment and are not required to be reported (See FAR Subpart 4.6).
  - b)
    - i) Class Deviation dated November 17, 2005. State in comment section how the deviation applies to this award.

**Title:** IX BAM 4215 Contractor Performance Information (CPI) and Contracting Performance Assessment Reporting System (CPARS)

**Policy Tracking #:** CON-14-06

**Effective Date:** June 10, 2015

**Originating Office:** Office of Contracts, x7840

---

**(a) PURPOSE:** This policy provides guidance and procedures for reporting contractor performance information (CPI) to the Contractor Performance Assessment Reporting System (CPARS) and related past performance databases in accordance with [Federal Acquisition Regulation \(FAR\) Subpart 42.15 – Contractor Performance Information](#).

**(b) AUTHORITY & SCOPE:**

(1) Authority.

- (i) [The Federal Acquisition Streamlining Act of 1994, Pub. L. 103-355 § 1091](#), as amended (Codified at [41 U.S.C. § 1126](#));
- (ii) [FAR Subpart 42.15 – Contractor Performance Information](#);
- (iii) [FAR Subpart 17.2 – Options](#), specifically including but limited to [FAR 17.207](#) regarding exercise of options;
- (iv) FAR Parts [9](#), [13](#), [15](#), and [36](#); and
- (v) [Delegation Order 99-11, Redlegation of Contracting Authority to the Senior Procurement Executive, Office of Contracts](#) or current version (delegations of authority are attached to [II BAM 480 - Delegations of Authority](#)).

(2) Related References.

- (i) [Guidance for the Contractor Performance Assessment Reporting System \(CPARS\) manual dated July 2014](#) or current version;
- (ii) [User Manual for CPARS Reporting dated December 2014](#) or current version; and
- (iii) [User Manual for the Federal Awardees Performance and Integrity Information System Reporting dated July 2014](#) or current version.

(3) Scope. This policy applies to all Agency personnel responsible for preparing, submitting, reviewing, or evaluating contractor past performance information in accordance with the FAR.

**(c) POLICY:**

- (1) The Agency's Contracting Officers (COs), with assistance from the Contracting Officer Representatives (CORs), technical office, and other end users of the product or service where

appropriate, are responsible for and shall assist with preparing past performance evaluations at least annually and at the time the work under a contract or order is completed.

(2) Past performance evaluations are required for contracts and orders for supplies, services, research and development, and contingency operations, including contracts and orders performed inside and outside the United States. See Paragraph (d)(13) below for specific guidance on when contractor performance evaluations must be prepared in CPARS. Financial assistance agreements and awards (e.g., Grants and Cooperative Agreements) are not entered into CPARS.

(3) The Office of Contracts (CON), Policy Branch shall monitor the Agency's compliance with past performance evaluation requirements, and use CPARS and Past Performance Information Retrieval System (PPIRS) metric tools to measure the quality and timely reporting of past performance information.

(4) The Government-wide guidance for the CPARS, and Federal Awardees Performance and Integrity Information System (FAPIIS) guides shall be utilized in conjunction with [FAR Subpart 42.15](#) and this policy.

**(d) DEFINITIONS, PRIMARY RESPONSIBILITIES, AND PROCEDURES:**

(1) CPARS is a web-enabled system that is used to input, collect, and manage contractor Past Performance Information (PPI) for applicable, unclassified contracts and orders that exceed the simplified acquisition threshold in [FAR Subpart 42.15](#), for architect-engineer (A-E) contracts/orders at or above \$30,000, for construction contracts/orders at or above \$650,000, and for all A-E and construction contracts/orders terminated for default. The CPARS generated past performance evaluation is used to communicate a contractor's strengths and weaknesses on a given contract or order for a specific period of time that is used for future source selection purposes. These evaluations are automatically transmitted to PPIRS at website <http://www.ppirs.gov>. The following systems are part of the overall CPARS tool:

(i) Past Performance Information Retrieval System (PPIRS): A web-based system that is used to retrieve contractor past performance information. PPIRS consists of three components, Report Card (RC), Statistical Reporting (SR), and the Federal Awardees Performance and Integrity Information System. These three components support the FAR requirement to consider past performance information prior to making a contract award and exercising any contract option (FAR Parts [9](#), [13](#), [15](#), [17](#), [36](#), and [42](#)).

(ii) Federal Awardees Performance and Integrity Information System (FAPIIS): A web-based system that contains specific information on the integrity and performance of covered Federal agency contractors and grantees. FAPIIS is available to Federal acquisition professionals for their use in award and responsibility determinations. FAPIIS provides users access to integrity and performance information from the FAPIIS reporting module in the CPARS, proceedings information from the Entity Management section of the System for Award Management (SAM) database, and suspension/debarment information from the Performance Information section of SAM.

(2) CPI means Contractor Performance Information.

(3) Contractor Performance and Integrity Information (CPII): CPII is the integrity and past performance information recorded in the FAPIIS.

(4) *Each report requires the below roles (for ease of reference, these roles are provided in the order in which they are utilized during the CPARS reporting process). For a further description of these roles, see the Guidance for the Contractor Performance Assessment Reporting System (CPARS) Manual found at <http://www.cpars.gov/refmatl.htm>. See the CPARS manual for a basic CPARS workflow that includes most of the below roles.*

(5) Focal Point: A Focal Point is a Government employee who serves as the CPARS system administrator and liaison between the systems users. The Focal Point is in the CON Policy Branch and can be reached via email at [bbgcpars@bbg.gov](mailto:bbgcpars@bbg.gov). This individual is responsible for initiating the assessment process for all applicable awards. Responsibilities also include but are not limited to:

- (i) Setting up and maintaining user accounts and general user assistance;
- (ii) Registering contracts in CPARS within 30 calendar days of contract award using the auto- registration function or by entering them manually;
- (iii) Providing notifications to Assessing Officials (who are COs, as further explained in paragraphs (d)(8)-(9) below) Assessing Officials and their Assessing Official Representatives (AORs) (further explained in paragraph (d)(10) below), and controlling registration of contracts for assessments;
- (iv) Granting CPARS system access as necessary for Assessing Officials, AORs, Reviewing Officials (ROs), and Contractor Representatives;
- (v) Controlling and monitoring of CPARS, including the status of overdue evaluations;
- (vi) Informing relevant Agency personnel of CPARS online and classroom training, and facilitating this training as needed.
- (vii) Assigning Alternate Focal Points (limited to 5) to assist the Focal Point with his or her duties;
- (viii) As a best practice, notifying the Agency Point-of-Contact of reports more than 30 calendar days overdue;

(6) Alternate Focal Point. Alternate Focal Points may assist the Focal Point in performing any of the duties listed above under the Focal Point with the exception of assigning additional Alternate Focal Points.

(7) Agency Point-of-Contact. This individual is the overall coordinator of all the focal points at the Agency level. This person is also in the CON Policy Branch and can be reached via email at [bbgcpars@bbg.gov](mailto:bbgcpars@bbg.gov). This individual serves as the point of contact for the Agency for resolving system issues, and recommending/coordinating changes to the CPARS. Responsibilities also include but are not limited to:

(i) Granting individual access to the various past performance and integrity systems, approves and assigns focal points, and maintains regular progress and compliance reporting at the Agency level.

(ii) As a best practice, periodically reviewing the quality and timeliness of the Agency's CPARS submissions and referring late submissions or submissions with insufficient detail to the Senior Procurement Executive (SPE), and the appropriate Assessing Official, AOR, or supervisor for appropriate action.

(8) Assessing Official. The Contracting Officer (CO) is the Assessing Official. The Assessing Official executes contracts or orders and is responsible for the accurate and timely reviewing and processing of past performance evaluations in CPARS. The CPAR should be completed no later than 120 calendar days after the end of the contract or order's performance period. Assessing Officials are encouraged to discuss contract/order performance with the contractor during the performance period and CPAR process. Responsibilities also include but are not limited to:

(i) Manually registering contract information for specific contracts/orders within 30 calendar days after award if the Focal Point has not auto-registered the contract/order. The Assessing Official and Focal Point will coordinate registration of contracts/orders;

(ii) Reviewing the quality of the entire evaluation and validating the proposed ratings and remarks entered by the AORs;

(iii) Forwarding the assessments to the Contractor Representative for review and comment through the CPARS. After the contractor's comments are received or the allotted comments period has passed, the Assessing Official may close, modify, and/or forward the assessment to the Reviewing Official; and

(iv) Ensuring that the Focal Point is informed about who will fill all CPARS roles, including the AORs, Contractor Representatives, and Reviewing Official immediately after the contract is awarded.

(9) As used in this policy the terms CO and Assessing Official are synonymous.

(10) Assessing Official Representative (AOR). The Contracting Officer Representative (COR) is typically the AOR and must be a Government employee. The COR is also the AOR, provided the CO delegated this responsibility to the COR in the COR designation letter, in which case the COR/AOR is responsible for inputting timely and quality narrative information in the CPARS. The Contract Specialist (CS) may also serve in this capacity, provided the CS has sufficient knowledge of the contractor's performance to provide a quality assessment. Multiple AORs may be assigned to a contract. Assessing Officials and AORs shall refer to the referenced Guidance for the CPARS manual, Section 3.5.3 – AOR, for additional responsibilities for the AOR.

(11) Contractor Representative (CR). The individual the contractor or vendor designates as the CR is responsible for receiving, reviewing, and submitting comments, if the contractor chooses to do so, under a specific contract or task order within the FAR-prescribed time

period. The Assessing Official shall obtain the name, title, email address and telephone number of the designated CR, who will in turn, provide that information to the Focal Point for authorization access to CPARS. Assessing Officials, AORs, and ROs shall refer to the referenced Guidance for the CPARS manual, Section 3.5.5 – Designated Contractor Representative for additional responsibilities for the CR.

(12) Reviewing Official (RO). The RO provides the check-and-balance when there is a disagreement between the Assessing Official and the CR regarding the Agency's assessment of the contractor's performance. This RO must review and sign the evaluation when the contractor indicates non-concurrence with the CPAR. The RO shall be a warranted CO within CON, as assigned by the SPE or the SPE's designee.

(13) GUIDANCE ON PAST PERFORMANCE REPORTING.

(i) In accordance with the FAR Subparts 42.302(b)(11) (Contract Administration Functions) and FAR Subpart 42.1502, The Assessing Official shall prepare performance evaluations of contractors' performance in CPARS for each contract or task/delivery order that meets or exceeds the below dollar values:

(A) Architect-engineer (A-E) services contract of \$30,000 or more, and each A-E services contract that is terminated for default regardless of contract value;

(B) Construction contracts of \$650,000 or more, and for each construction contract terminated for default regardless of contract value.

(C) Other services and commodities that exceeds the Simplified Acquisition Threshold (currently \$150,000), as explained in [FAR 42.1502\(b\)](#). An evaluation is required if a modification to the contract/order causes the dollar amount to exceed the simplified acquisition threshold.

(ii) Ongoing Responsibility to Monitor Contractor Performance. Continuously monitoring, documenting, and assessing contractor performance is an ongoing responsibility throughout a contract's period of performance. This includes frequent, meaningful communication and feedback with the contractor. Assessing Officials and AORs are strongly encouraged to document contractor performance throughout the period of performance in order to maximize detail in the final report and minimize details forgotten when the report is due. Assessing Officials and AORs should meet at least quarterly to discuss and document contractor performance.

(iii) Exception to Above Requirements. [FAR Subpart 42.15](#) exempts contracts awarded under [FAR Subpart 8.7](#), Acquisition from Nonprofit Agencies Employing People Who Are Blind or Severely Disabled (AbilityOne Program) from the evaluation requirement.

(iv) Administrative Requirements. The completed evaluation reports shall only be released to U.S. Government personnel who have a legitimate need to access the reports as a part of their duties (e.g., participants on a source selection committee) and to the contractor whose performance is being evaluated. Disclosure of such information to other than the aforementioned U.S. Government personnel could harm the commercial

interests of the Government, harm the competitive position of the contractor being evaluated, and impede the efficiency of Government operations. Since contractor reports may be used to support future award decisions, they must be marked “For Official Use Only/Source Selection Information.” COs shall refer to the referenced Guidance for the CPARS manual, Section F, 6.0 – 6.4, for additional guidance on marking and protection of the CPAR.

(v) Reporting Agency Indefinite Quantity Contracts (IQC) and Orders against them, Indefinite Delivery Indefinite Quantity (IDIQ) Contracts and Order against them, Basic Purchase Agreements (BPA), Basic Ordering Agreements (BOA), Orders Against Another Agency’s Indefinite Delivery Vehicle (IDV), and Other Types of Awards.

COs shall consider the guidance in the referenced Guidance for the CPARS manual, Section B, 2.1 – 2.13, for guidance on reporting the Agency’s IQCs and orders against them, reporting orders against BPAs and BOAs, reporting orders against another Agency’s IDVs including Federal Supply Schedule (FSS), Government Wide Acquisition Contracts (GWAC), Multiple Agency Contracts (MAC), reporting 8(a) Direct Awards, and reporting other types of contracts and orders.

#### (14) FREQUENCY OF REPORTING FOR CONTRACTS AND ORDERS AND TYPES OF REPORTS.

(i) COs and CORs must ensure that contractor performance is assessed in CPARS at least annually throughout the entire period of the performance for contracts and orders exceeding one year in duration and on completion of the contract’s period of performance. For contracts and/or orders with a period of performance of less than one year, a single report is due when the period of performance expires.

(ii) As a best practice, the Assessing Official should complete interim evaluation reports frequently enough to ensure the Agency can rely on CPI when making determinations whether or not to exercise an option to extend a contract’s period of performance. Accordingly, for contracts that exceed one year or contain option years, the Assessing Official should complete interim evaluation reports on either a quarterly or semiannual basis.

(iii) COs and CORs shall consider the guidance in the referenced Guidance for the CPARS, Section E, 5.1 –5.5, for frequency in reporting contracts and orders, e.g., interim reports, annual interim reports, final report, addendum reports, administrative reports, etc.

#### (15) ACKNOWLEDGING PERFORMANCE OF SMALL BUSINESS SUBCONTRACTORS.

(i) CPARS assessments apply to the performance of prime contractors only. However, if a small business subcontractor completes a critical aspect or 25 percent or more of the work under a contract, evaluators may acknowledge subcontractor efforts by including comments about the subcontractor in the assessment area entitled “Small Business Utilization.” Including the subcontractor’s full legal name and its DUNS number in this section is a best practice and is strongly recommended.

(ii) COs must use the assessment area entitled “Small Business Utilization” to evaluate the contractor’s performance in meeting the goals in its small business subcontracting plan or other similar small business incentive programs set out in the contract.

(iii) COs shall consider the guidance in the referenced Guidance for the CPARS manual, Section B, 2.12 Subcontractor Evaluations and Attachment 3, Sections A3.23 and A3.30 – A3-30.6 Utilization of Small Business (USB) for reporting subcontractors and their utilization of small businesses.

(16) RATING, NARRATIVE, AND EVALUATION AREAS.

(i) A common five-level assessment rating system is used to evaluate a contractor's performance. Ratings range from Unsatisfactory to Exceptional. The definitions of each rating, together with related guidance for preparing the narrative, are provided in the Evaluation Ratings Definitions found in the [FAR Subpart 42.15](#), Table 42-1 – Evaluation Rating Definitions and in the referenced Guidance for the CPARS manual.

(ii) Areas of Evaluation.

(A) Past performance information is relevant information for future source selection purposes, regarding an offeror’s performance under previously awarded contracts. It includes, for example, the contractor’s record of conforming to contract requirements and to standards of good workmanship; the contractor’s record of forecasting and controlling costs; the contractor’s adherence to contract schedules, including the administrative aspects of performance; the contractor’s history of reasonable and cooperative behavior and commitment to customer satisfaction; the contractor’s record of integrity and business ethics, and generally, the contractor’s business-like concern for the interest of the customer.

(B) COs shall consider the guidance in the referenced Guidance for the CPARS manual, Section E, 5.0 – Past Performance Reporting Requirement: Compliance and Quality Information, Attachment 3, Sections A3.25 – A3.31 for the common evaluation areas to rate the contractor’s performance.

(iii) Narrative.

(A) It is essential that the evaluation report includes clear, relevant information, which accurately depicts the contractor’s performance, and is based on objective facts supported by performance data. The report must include a clear, non-technical description of the principal purpose of the contract or order.

(B) The narrative must be robust and must clearly and definitively support the correlating rating.

(C) Do not use acronyms or Agency-specific terminology. The completed report may be viewed and considered by source selection officials across U.S. Government agencies. Therefore, the report must be easily understood by any U.S. Government Official assessing it.

(D) COs shall consider the guidance in the referenced Guidance for the CPARS manual, Section D, 5.0 – CPARS Timeline and Workflow, Sections 4.2 – 4.3 and Attachment 2 – Evaluation Rating Definitions for guidance on ratings and narratives.

(iv) Impact.

(A) Contractors utilize the completed past performance reports in order to secure new contracts, by including references to specific reports in their offers. Assessing Officials and AORs must be vigilant to ensure that the report contains an accurate portrayal of the contractor's performance. The past performance reports are a tool for use by the CO and COR in order to encourage contractors to provide the Agency with superior products and services.

(B) Per [Office of Federal Procurement Policy Memorandum dated April 1, 2002](#), the filing of protests, the filing of claims, or the use of alternative dispute resolution, must not be considered by Agency personnel in either past performance evaluations or source selection decisions.

(17) CPARS REPORTING TIMELINE AND WORKFLOW. The Assessing Official, AOR, and RO shall consider the guidance in the referenced Guidance for the CPARS manual, Section D, – CPARS Timeline and Workflow, Sections 4.1, 4.4 – 4.9 for CPARS reporting schedule and workflow.

(18) INSTRUCTIONS FOR COMPLETING A CPAR. The Assessing Official, AOR, and RO shall consider the guidance in the referenced Guidance for the CPARS manual, and the User Manual for CPARS Reporting, for instructions on how to complete a CPAR.

(19) CONTRACT FILE. Copies of all evaluations (final, interim evaluations, etc.) shall be maintained in the contract file.

(20) FAPIIS.

(i) Separate from CPARS requirements above, [FAR 42.1503\(h\)](#) requires contractor data to be reported in FAPIIS within 3 calendar days after a CO:

(A) Issues a final determination that a contractor has submitted defective cost or pricing data;

(B) Makes a subsequent change to the final determination concerning defective cost or pricing pursuant to [FAR 15.407-1\(d\)](#);

(C) Issues a final termination for cause or default notice; or

(D) Makes a subsequent withdrawal of termination for default, or a conversion of termination for default to a termination for convenience.

(ii) Immediately upon entering the information into FAPIIS, the CO must also transmit copies of all relevant documents to the CON, Policy Branch at email [bbgcpars@bbg.gov](mailto:bbgcpars@bbg.gov),

including a brief explanation of the actions taken and the date the information was posted in FAPIIS.

(iii) COs shall refer to [FAR Part 9](#) for additional required contractor data that must be reported into FAPIIS.

(iv) COs shall refer to the Federal Awardee Performance and Integrity Information System (FAPIIS) User Manual found at website address (<https://www.cpars.gov/pdfs/FAPIISUserManual.pdf>), for the workflow process for entering the above documents into FAPIIS.

(v) COs must contact the Agency CPARS Focal Point at [bbgcpars@bbg.gov](mailto:bbgcpars@bbg.gov) to request access to the FAPIIS input module.

**(21) CONSIDERING CPII BEFORE AWARDING A CONTRACT OR ORDER (SOURCE SELECTION), OR EXERCISING AN OPTION.**

(i) Prior to awarding a contract (including a task/delivery order under a multiple-award IQC, BPA, IDIQ, or any other ordering vehicle) anticipated to exceed the simplified acquisition threshold or prior to exercising any option, the CO must consider CPII in the following circumstances:

(A) When making a best-value award decision. The CO must assess the offeror's past performance to make a comparative evaluation of that performance as an indicator of how well the offeror is likely to perform the contract.

(B) As part of a responsibility determination. The CO must consider whether the offeror has a satisfactory record of performance and integrity in order to make a positive determination that the offeror is responsible, and, therefore, eligible to receive the award.

(ii) The CO retains the documented CPII, as discussed below, in the contract file as part of the source selection and responsibility determination documentation.

**(22) CPI AS A COMPARATIVE EVALUATION FACTOR.** When using CPI as a comparative evaluation factor for source selection purposes in best-value awards, the CO must comply with the elements required by the FAR (See FAR Parts [12](#), [13](#), or [15](#), as applicable).

**(23) OBTAINING CPI.**

(i) The CO or CS must attempt to obtain CPI for an offeror's contracts by searching PPIRS-RC, the primary source for contractor performance information for U.S. Government contractors.

(ii) If the CO or CS does not have access to PPIRS-RC, he/she must request an account from the Agency's Focal Point at [bbgcpars@bbg.gov](mailto:bbgcpars@bbg.gov), who will provide instruction for how to navigate the PPIRS website ([www.ppirs.gov](http://www.ppirs.gov)) for access to search the database. If

the Technical Evaluation Panel (TEP) is responsible for evaluating past performance, the TEP members may be granted access for a maximum of 90 days at a time.

(iii) If the CO determines that PPIRS-RC does not contain sufficient data for the purpose of adequate comparative evaluation, the CO has broad discretion to consider or authorize consideration of CPI from other sources, which he/she deems relevant and reliable. Other sources of CPI may include, but are not limited to:

(A) Contractor performance assessments of contractors not registered in the System of Award Management (SAM) or assigned unique DUNS numbers. These contractors will not have their CPARs posted to PPIRS-RC, and the CO or CS accesses them by contacting the CPARS help desk and querying the Past Performance Coordinator, who maintains a database of CPARs not accepted by PPIRS-RC;

(B) Business references named in the offeror's proposal;

(C) Commercial databases such as Dun and Bradstreet, etc.; and

(D) Others who have relevant information about the offeror's performance, including the COR or members of the technical evaluation panel who have direct, personal knowledge of the offeror's performance.

(iv) The offeror must be provided an opportunity to address adverse CPI obtained from references on which the offeror has not had a previous opportunity to comment, if that information makes a difference in the Agency's decision to include the offeror in or exclude the offeror from the competitive range. Any past performance deficiency or significant weakness must be discussed with offerors within the competitive range during discussions.

(v) CPARS provides contractors the opportunity to comment on any information included in individual performance reports during the assessment process. Therefore, if a CPAR states that a contractor elected not to comment on an assessment that includes adverse past performance information, a CO reviewing that CPAR may conclude that the contractor had previous opportunity to respond to this adverse past performance information, including for purposes described in [FAR Subpart 15.3](#).

(24) CPI IN DETERMINING RESPONSIBILITY. COs must use the information available through PPIRS to support responsibility determinations for prospective contractors, giving particular attention to any information concerning the offeror in FAPIIS (available through PPRIS at <https://www.ppirs.gov>). When FAPIIS contains information concerning an offeror, COs must document the contract file to explain how the information in FAPIIS was considered and what actions were taken as a result.

(25) CPARS SYSTEM REMINDER EMAILS. To assist in the reporting process, CPARS provides a variety of system reminder e-mails for the Government and the contractor. Assessing Officials, AORs, ROs, Focal Points, and Alternate Focal Point shall refer to [The User Manual for CPARS Reporting](#) for a complete list of email notifications available.

(26) CPARS TRAINING.

(i) The Assessing Official is responsible for ensuring that the AOR is knowledgeable about the CPARS and the availability of on-line training. There are several web-based training modules for CPARS Overview, Quality and Narrative Writing, Focal Point and Agency Point-of-Contact Functions, Contractor Overview, and FAPIIS Overview. These on-line, web-based training classes are interactive and at no charge to participants.

(ii) Training is *mandatory* for all Agency employees who are responsible at any stage of past performance evaluations. COs, CSs, the Focal Point, Alternate Focal Points, and the Agency Point-of-Contact must complete the CPARS Overview, Narrative and Writing, and FAPIIS Overview training classes. CORs must complete the CPARS Overview, and Narrative and Writing training classes. The Focal Point, Alternate Focal Points, and the Agency Point-of-Contact must complete the Focal Point and Agency Point-of-Contact Functions training class.

(iii) Online CPARS training is also available to contractors. The Assessing Official is responsible for ensuring that the contractor is knowledgeable about the CPARS and the availability of on-line training. The Assessing Official shall recommend that the contractor complete The Contractor Overview training class, so the contractor becomes familiar with CPARS.

(iv) To register for classes or view the on-line training cancellation policy, access <http://www.cpars.gov/allapps/cpcbtdlf.htm>.

(v) Completed CPARS training courses may be used towards continuing learning points (CLPs) needed to maintain contracting authority and COR designation. Please send certificates of completion to [bbgcpars@bbg.gov](mailto:bbgcpars@bbg.gov) for inclusion in CON's acquisition training log.

(27) RESOURCES FOR CPARS. In addition to the training described above, the CPARS website provides access to user manuals for [CPARS](#) and [FAPIIS](#), as well as in-depth guidance at <https://www.cpars.gov>. In the event there is an inconsistency between this policy and any of the CPARS systems user manuals or guidance, please contact the Agency Point-of-Contact for guidance, via email at [bbgcpars@bbg.gov](mailto:bbgcpars@bbg.gov).

# **QUALITY ASSURANCE SURVEILLANCE PLAN (QASP)**

## **1 INTRODUCTION**

This quality assurance surveillance plan (QASP) is pursuant to the requirements listed in the performance work statement (PWS) entitled [insert name of services]. This plan sets forth the procedures and guidelines Broadcasting Board of Governors (BBG) will use in ensuring the required performance standards or service levels are achieved by the contractor.

### **1.1 Purpose**

1.1.1 The purpose of the QASP is to describe the systematic methods used to monitor performance and to identify the required documentation and the resources to be employed. The QASP provides a means for evaluating whether the contractor is meeting the performance standards/quality levels identified in the PWS and the contractor's quality control plan (QCP), and to ensure that the government pays only for the level of services received.

1.1.2 This QASP defines the roles and responsibilities of all members of the integrated product team (IPT), identifies the performance objectives, defines the methodologies used to monitor and evaluate the contractor's performance, describes quality assurance documentation requirements, and describes the analysis of quality assurance monitoring results.

### **1.2 Performance Management Approach**

1.2.1 The PWS structures the acquisition around "what" service or quality level is required, as opposed to "how" the contractor should perform the work (i.e., results, not compliance). This QASP will define the performance management approach taken by [insert name of program office/monitoring activity] to monitor and manage the contractor's performance to ensure the expected outcomes or performance objectives communicated in the PWS are achieved. Performance management rests on developing a capability to review and analyze information generated through performance assessment. The ability to make decisions based on the analysis of performance data is the cornerstone of performance management; this analysis yields information that indicates whether expected outcomes for the project are being achieved by the contractor.

1.2.2 Performance management represents a significant shift from the more traditional quality assurance (QA) concepts in several ways. Performance management focuses on assessing whether outcomes are being achieved and to what extent. This approach migrates away from scrutiny of compliance with the processes and practices used to achieve the outcome. A performance-based approach enables the contractor to play a large role in how the work is performed, as long as the proposed processes are within the stated constraints. The only exceptions to process reviews are those required by law (federal, state, and local) and compelling business situations, such as safety and health. A "results" focus provides the contractor flexibility to continuously improve and innovate over the course of the contract as long as the critical outcomes expected are being achieved and/or the desired performance levels are being met.

### **1.3 Performance Management Strategy**

1.3.1 The contractor is responsible for the quality of all work performed. The contractor measures that quality through the contractor's own quality control (QC) program. QC is work output, not workers, and therefore includes all work performed under this contract regardless of whether the work is performed by contractor employees or by subcontractors. The contractor's QCP will set forth the staffing and procedures for self-inspecting the quality, timeliness, responsiveness, customer satisfaction, and other performance requirements in the PWS. The contractor will develop and implement a performance management system with processes to assess and report its performance to the designated government representative. The contractor's QCP will set forth the staffing and procedures for self-inspecting the quality, timeliness, responsiveness, customer satisfaction, and other performance requirements in the PWS. This QASP enables the government to take advantage of the contractor's QC program.

1.3.2 The government representative(s) will monitor performance and review performance reports furnished by the contractor to determine how the contractor is performing against communicated performance objectives. The government will make a determination regarding incentives based on performance measurement metric data and notify the contractor of those decisions. The contractor will be responsible for making required changes in processes and practices to ensure performance is managed effectively.

## **2 ROLES AND RESPONSIBILITIES**

### **2.1 The Contracting Officer**

The contracting officer (CO) is responsible for monitoring contract compliance, contract administration, and cost control and for resolving any differences between the observations documented by the [Insert title of BBG authority for performance management: "contracting officer's representative (COR)," "quality assurance representative (QAR)," or "program manager (PM)"] and the contractor. The CO will designate one full-time COR as the government authority for performance management. The number of additional representatives serving as technical inspectors depends on the complexity of the services measured, as well as the contractor's performance, and must be identified and designated by the CO.

### **2.2 The Contracting Officer's Representative**

The contracting officer's representative (COR) is designated in writing by the CO to act as his or her authorized representative to assist in administering a contract. COR limitations are contained in the written appointment letter. The COR is responsible for technical administration of the project and ensures proper government surveillance of the contractor's performance. The COR is not empowered to make any contractual commitments or to authorize any contractual changes on the government's behalf. Any changes that the contractor deems may affect contract price, terms, or conditions shall be referred to the CO for action. The COR will have the responsibility for completing QA monitoring forms used to document the inspection and evaluation of the contractor's work performance. Government surveillance may occur under the inspection of services clause for any service relating to the contract.

## **3 IDENTIFICATION OF REQUIRED PERFORMANCE STANDARDS/QUALITY LEVELS**

The required performance standards and/or quality levels are included in the PWS and in Attachment 1, "Performance Requirements Summary." [Adjust the following sentences to reflect the instant acquisition.] If the contractor meets the required service or performance level, it will be paid the monthly amount agreed on in the contract. If the contractor exceeds the service or performance level, it is eligible to receive an incentive or award fee as stated in the contract. Failure to meet the required service or performance level will result in a deduction from the monthly amount.

## **4 METHODOLOGIES TO MONITOR PERFORMANCE**

### **4.1 Surveillance Techniques**

In an effort to minimize the performance management burden, simplified surveillance methods shall be used by the government to evaluate contractor performance when appropriate. The primary methods of surveillance are [include those that apply]

- Random monitoring, which shall be performed by the COR designated inspector.
- 100% Inspection – Each month, the COR, shall review the generated documentation and enter summary results into the Surveillance Activity Checklist.
- Periodic Inspection – COR typically performs the periodic inspection on a monthly basis.

### **4.2 Customer Feedback**

The contractor is expected to establish and maintain professional communication between its employees and customers. The primary objective of this communication is customer satisfaction. Customer satisfaction is the most significant external indicator of the success and effectiveness of all services provided and can be measured through customer complaints.

Performance management drives the contractor to be customer focused through initially and internally addressing customer complaints and investigating the issues and/or problems but the customer always has the option to communicate complaints to the [CO, COR], as opposed to the contractor.

Customer complaints, to be considered valid, must set forth clearly and in writing the detailed nature of the complaint and must be forwarded to the COR. The COR will accept those customer complaints and investigate using the Quality Assurance Monitoring Form – Customer Complaint Investigation, identified in Attachment 3.

Customer feedback may also be obtained either from the results of formal customer satisfaction surveys or from random customer complaints.

### **4.3 Acceptable Quality Levels**

The acceptable quality levels (AQLs) included in Attachment 1, Performance Requirements Summary Table, for contractor performance are structured to allow the contractor to manage how the work is performed while providing negative incentives for performance shortfalls. For certain critical activities such as those involving [insert names of any critical services], the desired performance level is established at 100 percent. Other levels of performance are keyed to the

relative importance of the task to the overall mission performance at [insert name of government activity receiving services].

## **5 QUALITY ASSURANCE DOCUMENTATION**

### **5.1 The Performance Management Feedback Loop**

The performance management feedback loop begins with the communication of expected outcomes. Performance standards are expressed in the PWS and are assessed using the performance monitoring techniques shown in Attachment 1.

### **5.2 Monitoring Forms**

The government's QA surveillance, accomplished by the [insert COR, QAR, or PM], will be reported using the monitoring forms in Attachments 2 and 3. The forms, when completed, will document the government's assessment of the contractor's performance under the contract to ensure that the required results [or service or quality levels] are being achieved.

5.2.1 The [insert COR, QAR, or PM] will retain a copy of all completed QA surveillance forms.

## **6 ANALYSIS OF QUALITY ASSURANCE ASSESSMENT**

### **6.1 Determining Performance**

6.1.1 Government shall use the monitoring methods cited to determine whether the performance standards/service levels/AQLs have been met. If the contractor has not met the minimum requirements, it may be asked to develop a corrective action plan to show how and by what date it intends to bring performance up to the required levels. [Insert when appropriate: Failure to meet the AQL may result in a deduction from the monthly payment, using the deduction percentages shown in Attachment 1. Likewise, if the contractor exceeds the performance standards, an incentive or award fee will be paid, in accordance with the incentive fee or award fee plan included in the contract.]

### **6.2 Reporting**

6.2.1 At the end of each month, the [Insert title of person who will prepare the report – COR, QAR, or PM] will prepare a written report for the [Insert title of government representative responsible for overall monitoring of performance – COR, QAR, or PM] summarizing the overall results of the quality assurance surveillance of the contractor's performance. This written report, which includes the contractor's submitted monthly report and the completed quality assurance monitoring forms (Attachment 2), will become part of the QA documentation. It will enable the government to demonstrate whether the contractor is meeting the stated objectives and/or performance standards, including cost/technical/scheduling objectives.

### **6.3 Reviews and Resolution**

6.3.1 The [insert title of government representative responsible for overall monitoring of performance – COR, QAR, or PM] may require the contractor's project manager, or a designated alternate, to meet with the [insert CO, COR, QAS, or PM] and other government IPT personnel as deemed necessary to discuss performance evaluation. The [insert CO, COR, QAR, or PM] will define a frequency of in-depth reviews with the contractor, including appropriate self-assessments

by the contractor; however, if the need arises, the contractor will meet with the [insert COR, QAR, or PM] as often as required or per the contractor's request. The agenda of the reviews may include:

- Monthly performance assessment data and trend analysis
- Issues and concerns of both parties
- Projected outlook for upcoming months and progress against expected trends, including a corrective action plan analysis
- Recommendations for improved efficiency and/or effectiveness
- [Insert if appropriate: Issues arising from the performance monitoring processes]

6.3.2 The QAR must coordinate and communicate with the contractor to resolve issues and concerns regarding marginal or unacceptable performance.

6.3.3 The [insert COR, QAR, or PM] and contractor should jointly formulate tactical and long-term courses of action. Decisions regarding changes to metrics, thresholds, or service levels should be clearly documented. Changes to service levels, procedures, and metrics will be incorporated as a contract modification at the convenience of the CO. *[Only include this if paragraph if the QASP is incorporated into the contract.]*

**WORKPLAN TEMPLATE**

# WorkplanTemplate

<b>Contract #:</b>	_____		
<b>Project Title:</b>	_____		
<b>Vendor:</b>	_____		
<b>Start Date:</b>	_____	<b>End Date:</b>	_____
<b>Location:</b>	_____	<b>Budget:</b>	_____

## 1. Project Description

*4-6 line description of main project objectives, target audience and key activities.*

*Note: Description should be carefully written since it may be shared with internal or external stakeholders.*

## 2. Work Plan

### a. Project Context

This project will *contribute* to the project GOAL listed below.

This project will be *accountable* for achieving the **project objectives** listed below.

The project will report against the **performance indicators** listed below to measure progress towards achieving the project objectives. Each indicator will include a definition, baseline, target and data source as part of the SOW.

<b>PROJECT GOAL</b>	
_____	
_____	
_____	
<b>Project Objective(s)</b>	
<b>Objective 1:</b>	<b>1.1 Indicator:</b>
_____	<b>Definition:</b>
_____	<b>Target:</b>
_____	<b>Baseline:</b>
_____	<b>Data Source:</b>

	<b>Activity Number:</b>  <b>1.2. Indicator:</b> <b>Definition:</b> <b>Target:</b> <b>Baseline:</b> <b>Data Source:</b> <b>Activity Number:</b>
<b>Objective 2:</b> <hr/> <hr/> <hr/>	<b>2.1. Indicator:</b> <b>Definition:</b> <b>Target:</b> <b>Baseline:</b> <b>Data Source:</b> <b>Activity Number:</b>  <b>2.2. Indicator:</b> <b>Definition:</b> <b>Target:</b> <b>Baseline:</b> <b>Data Source:</b> <b>Activity Number:</b>

## b. Activities

The major activities the project will carry out to reach these objectives are listed below. Activities which are public events are indicated. **Public events** are significant project activities to which the general public and/or PRT officials are invited.

**Objective 1:** \_\_\_\_\_

Activity	Estimated Completion date	Public event?
1.1.	MM/DD/YYYY	Yes/No
1.2.	MM/DD/YYYY	Yes/No
1.3.	MM/DD/YYYY	Yes/No

**Objective 2:** \_\_\_\_\_

Activity	Estimated Completion date	Public event?
----------	---------------------------	---------------

Activity	Estimated Completion date	Public event?
2.1.	MM/DD/YYYY	Yes/No
2.2.	MM/DD/YYYY	Yes/No
2.3.	MM/DD/YYYY	Yes/No

### 3. Quarterly Reporting Schedule *(adjust according to grant timeframe)*

Reporting Period	QR Submission Date
January 01 – March 31	April 30
April 01 – June 30	July 31
July 01 – September 30	October 31
October 01 - December 31	January 31

**Attachment C:**

**EXAMPLES OF PERFORMANCE MEASURES**

Category	Focus	Purpose	Measure of Success
Schedule performance	Tasks completed vs. tasks planned at a point in time.	Assess project progress. Apply project resources.	100% completion of tasks on critical path; 90% all others
	Major milestones met vs. planned.	Measure time efficiency.	90% of major milestones met.
	Revisions to approved plan.	Understand and control project "churn."	All revisions reviewed and approved.
	Changes to customer requirements.	Understand and manage scope and schedule.	All changes managed through approved change process.
	Project completion date.	Award / penalize (depending on contract type).	Project completed on schedule (per approved plan).
Budget performance	Revisions to cost estimates.	Assess and manage project cost.	100% of revisions are reviewed and approved.
	Dollars spent vs. dollars budgeted.	Measure cost efficiency.	Project completed within approved cost parameters.
	Return on investment (ROI).	Track and assess performance of project investment portfolio.	ROI (positive cash flow) begins according to plan.
	Acquisition cost control.	Assess and manage acquisition dollars.	All applicable acquisition guidelines followed.
Product Quality	Defects identified through quality activities.	Track progress in, and effectiveness of, defect removal.	90% of expected defects identified (e.g., via peer reviews, inspections).
	Test case failures vs. number of cases planned.	Assess product functionality and absence of defects.	100% of planned test cases execute successfully.
	Number of service calls.	Track customer problems.	75% reduction after three months of operation.
	Customer satisfaction index.	Identify trends.	95% positive rating.
	Customer satisfaction trend.	Improve customer satisfaction.	5% improvement each quarter.
	Number of repeat customers.	Determine if customers are using the product multiple times (could indicate satisfaction with the product).	"X"% of customers use the product "X" times during a specified time period.
	Number of problems reported by customers.	Assess quality of project deliverables.	100% of reported problems addressed within 72 hours.
Compliance	Compliance with award standards.	Alignment, interoperability, consistency.	No significant negative findings during architect assessments.
	For web site projects, compliance with Style Guide.	To ensure standardization of web site.	All web sites have the same "look and feel."

Category	Focus	Purpose	Measure of Success
<b>Redundancy</b>	Compliance with Section 508.	To meet regulatory requirements.	Persons with disabilities may access and utilize the functionality of the system.
	Elimination of duplicate or overlapping systems.	Ensure return on investment.	Retirement of 100% of identified systems as noted in XX
	Decreased number of duplicate data elements.	Reduce input redundancy and increase data integrity.	Data elements are entered once and stored in one database.
	Consolidate help desk functions.	Reduce \$ spent on help desk support.	Approved consolidation plan by XX.
<b>Cost Avoidance</b>	System is easily upgraded.	Take advantage of e.g., COTS upgrades.	Subsequent releases do not require major "glue code" project to upgrade.
	Avoid costs of maintaining duplicate systems.	Reduce IT costs.	100% of duplicate systems have been identified and eliminated.
	System is maintainable.	Reduce maintenance costs.	New version (of COTS) does not require "glue code."
<b>Customer Satisfaction</b>	System availability (up time).	Measure system availability.	100% of requirement is met. (e.g., 99% M-F, 8am to 6pm, and 90% S & S, 8am to 5pm).
	System functionality (meets customer's / user's needs).	Measure how well customer needs are being met.	Positive trend in customer satisfaction survey(s).
	Absence of defects (that impact customer).	Number of defects removed during project lifecycle.	90% of defects expected were removed.
	Ease of learning and use.	Measure time to becoming productive.	Positive trend in training survey(s).
	Time it takes to answer calls for help.	Manage/reduce response times.	95% of severity one calls answered within 3 hours.
	Rating of training course.	Assess effectiveness and quality of training.	90% of responses of "good" or better.
<b>Business Goals/ Mission</b>	Functionality tracks reportable inventory.	Validate system supports program mission	All reportable inventory is tracked in system.
	Turnaround time in responding to Congressional queries.	Improve customer satisfaction and national interests.	Improve turnaround time from 2 days to 4 hours.
	Maintenance costs.	Track reduction of costs to maintain system.	Reduce maintenance costs by 2/3 over 3-year period.
	Standard desktop platform.	Reduce costs associated with upgrading user's systems.	Reduce upgrade costs by 40%.

**Attachment D:**

**TYPES OF SURVEILLANCE METHODS**

## Types of Surveillance Methods

### 100 Percent Inspection

This is usually the most appropriate method only for infrequent tasks or tasks with stringent performance requirements, e.g., where safety or health is a concern. 100 percent inspection is too expensive to be used in most cases.

### Random Sampling

This is the most appropriate method for recurring task. For example, services are sampled to determine if the level of performance is acceptable. Random sampling works best for when number of instances and a statistically valid sample can be obtained. Computer programs may be available to assist in establishing sample procedures.

### Periodic Inspection

This method, sometimes called "Planned Sampling," consists of the evaluation of tasks selected on other than a 100 percent or random basis. A predetermined plan for inspecting part of the work is established using subjective judgment and analysis of agency resources to decide what work to inspect and how frequently to inspect it.

### Trend Analysis

This method should be used regularly and continually to monitor the contractor's on-going performance over time. Data for tracking trends can be gathered from all other evaluation sources and methods of database upon which the trend analysis is based. This database should be created and maintained by government personnel. The contractor's own metrics may provide most of the information needed for the analysis.

### Customer Input

Although usually not a primary method, it is a valuable supplement to more systematic methods. For example, in a case where random sampling indicates unsatisfactory service, customer complaints can be used as substantiating evidence. In certain situations where customers can be relied upon to complain consistently when the quality of performance is poor, e.g., dining, facilities, building services, and customer surveys. However, use caution when assessing and evaluating customer input. Sometimes customer input can be complaint-oriented and not actually related to actual requirements of the contract.

### Third Party Audits or Assessment

Third party audits or assessments refers to contractor evaluation by a third party organization that is independent of the contractor. All documentation supplied to, and produced by, the third party should be made available to the government by the contractor.

**Title:** IX BAM 4600 – Quality Assurance

**Policy Tracking #:** CON-16-05

**Effective Date:** September 2, 2016

**Originating Office:** Office of Management Services - Contracts (OMS/C), (202) 382-7838,  
[bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** The purpose of this policy is to provide guidance and procedures related to inspection of supplies and services prior to acceptance, to ensure that supplies and services acquired under contract conform to the contract action's quality and quantity requirements.

**(b) AUTHORITY & SCOPE:**

(1) Authorities.

- (i) [Federal Acquisition Regulation \(FAR\) Part 46 -- Quality Assurance.](#)
- (ii) [FAR Subpart 37.6 -- Performance-Based Acquisitions.](#)
- (iii) [FAR Part 42 -- Contract Administration and Audit Services.](#)
- (iv) [Office of Management and Budget Circular dated May 29, 2003, Performance of Commercial Activities \(No. A-76 Revised\).](#)

(2) Scope.

(i) This policy applies to all contracting officers (COs), contracting officer representatives (CORs), project managers (PMs), and other Government contracting officials employed by the Federal Government elements of the Broadcasting Board of Governors (i.e., Voice of America; Office of Cuba Broadcasting; Office of Technology, Services, and Innovation; and the International Broadcasting Bureau), referred to in this policy as “the Agency.”

(ii) This policy applies to all contract actions.

**(c) POLICY:**

(1) The Agency is required to perform all actions necessary to verify that contractor supplies and services conform to contract requirements.

(2) Contract Quality Requirements.

(i) The criteria listed in FAR 46.203 – Criteria for Use of Contract Quality Requirements shall be used to determine the extent of contract quality requirements that the contractor is responsible to uphold, which is based on the complexity and criticality of the contract item, as well as its technical description (commercial vs. military-federal). These actions may range from Government relying on the contractor's existing quality assurance

system to requiring the contractor to implement a comprehensive program for controlling quality.

(ii) The FAR clauses related to the appropriate contract quality requirements, as detailed in FAR 46.202 – Types of Contract Quality Requirements, shall be included in the solicitation and contract. The 4 Contract Quality Requirement categories are:

(A) Contracts for Commercial Items. The Agency shall rely on the contractor's existing quality assurance systems for in-process inspection.

(B) Government Reliance on Inspection by Contractor. The Agency shall rely on the contractor's existing quality assurance systems for in-process inspection for actions at or below the simplified acquisition threshold unless the CO determines that there is a need to test supplies or services before tender based on the factors in FAR 46.202-2(b).

(C) Standard Inspection Requirements. The related clauses require the contractor to maintain an inspection system acceptable to the Agency, allow the Agency to perform in-process inspections and tests, and require the contractor to make records of their inspection work available.

(D) Higher-Level Contract Quality Requirements<sup>1</sup>. Due to the type of Agency acquisitions, use of these requirements would rarely be used except for major system acquisitions, and the Senior Procurement Executive (SPE) must approve the standards used for this level.

(iii) In addition to the related inspection FAR clauses<sup>2</sup>, the following clause may be used for Standard Inspection Requirements and Higher-Level Contract Quality Requirements<sup>3</sup>:

Quality Control

- a. Quality Control. The contractor shall establish a complete quality control program to assure the requirements of the contract are provided as specified. One copy of the contractor's basic quality control program shall be provided to the CO at the preaward survey conference or no later than at the pre-performance conference if a preaward survey is not conducted. An updated copy must be provided to the CO on contract start date and as changes occur. The program will include, but not be limited to the following:
- (1) An inspection system covering all the services stated in the Performance Requirements Summary of the Statement of Work. It must specify areas to be inspected on either a scheduled or unscheduled basis, and the individuals who will conduct the inspection.

---

<sup>1</sup> "Examples of higher-level quality standards include overarching quality management system standards such as ISO 9001, ASQ/ANSI E4; ASME NQA-1, SAE AS9100, SAE AS9003, and ISO/TS 16949, and product or process specific quality standards such as SAE AS5553." FAR 46.202-4(b).

<sup>2</sup> See FAR Subpart 46.3 – Contract Clauses.

<sup>3</sup> [Office of Federal Procurement Policy, Pamphlet Number 4 "A Guide for Writing and Administering Performance Statements of Work for Service Contracts."](#)

(2) A method of identifying deficiencies in the quality of services performed before the level of performance is unacceptable.

(3) A file of all inspections conducted by the contractor and the corrective action taken. This documentation shall be made available to the Government during the term of the contract.

- b. Quality Assurance. The Government shall monitor the contractor's performance under this contract using the quality assurance procedures specified in the Performance Requirements Summary of the Statement of Work.

(3) Government Contract Quality Assurance. As detailed in FAR Part 46, Government contract quality assurance must be conducted by Agency personnel or under the direction of Agency personnel before acceptance to determine whether the contractor supplies or services meet contract terms and conditions in regards to quality and quantity. For actions that require Government contract quality assurance, it may only be provided in addition to, not as a substitute for, contractor responsibilities for assuring delivery of conforming products or services.

(i) Quality Assurance Surveillance Plan (QASP).

(A) A QASP is required for all performance-based service contracts, and may be used for supplies contracts to detail Government oversight personnel and surveillance methods<sup>4</sup>. The QASP may be developed by Agency personnel or offerors may be required to submit a proposed QASP with their offer or proposal for consideration in development of the Government's plan.

(B) The Agency's QASP can either be incorporated into the contract action, which is strongly recommended, or be provided for informational purposes to detail how the contract will be managed from the Agency's perspective. If the QASP is incorporated into the contract action, it is enforceable and any change to the document must be issued by a bilateral modification. If the QASP is marked "For Informational Purposes Only" and is not a part of the solicitation or award, it is not enforceable but the Agency retains the right to change or modify inspection methods.

(C) The QASP should be developed concurrently with the performance work statement (PWS) or statement of objectives (SOO)<sup>5</sup>. The QASP shall detail the following:

- (1) Required Services/Tasks. This should relate back to a specific task in the PWS or SOO.

---

<sup>4</sup> See Attachment A – QASP Template, from ASI Government which may be used as a guide.

<sup>5</sup> Attachment B – Workplan Template may be used as a tool to assist in drafting PWS and SOO objectives and related activities.

(2) Performance Standards. This standard is set by the Agency. Examples include error rates, accuracy rates, completion of milestones, cost control, staying within the target costs<sup>6</sup>.

(3) Acceptable Quality Levels. This should detail the allowable leeway or variance from a standard before the Government will reject the specific service.

(4) Types of Surveillance Methods.

(i) Several surveillance methods<sup>7</sup> may be used to measure contractor performance. The methods used will depend on resources (availability of the evaluator and associated costs), the task criticality, performance requirements, and the surveillance period.

(ii) The surveillance methods to be used should be discussed with the contractor to confirm they are fully understood. Whatever form of surveillance is used, the Government should take care to ensure that no undue interference with contractor operations occurs. A post-award conference should be held to brief contractors on surveillance requirements and responsibilities.

(5) Incentives. Positive and negative incentives may be listed, and can be used when performance exceeds standards or is below standards. Incentives can be monetary or non-monetary, and must be realistic, attainable, and built on performance objectives and standards.

#### **(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Project Manager (PM).

(i) The PM, or other official responsible for the program, is responsible for developing any specifications for inspection, testing, and other contract quality requirements essential to ensure the integrity of supplies and services.

(ii) For complex requirements, it is strongly recommended that the Integrated Product Team (IPT) used to conduct acquisition planning assist with developing these specifications.

(2) Contracting Officer (CO).

(i) The CO shall work with the PM and, if delegated, COR to ensure the quality requirements match the PWS. The CO shall also ensure such requirements are provided to contractors, and copies of those requirements and inspection results are maintained in the contract file.

---

<sup>6</sup> See Attachment C – Examples of Performance Measures.

<sup>7</sup> See Attachment D – Types of Surveillance Methods.

(ii) If approval for high level quality requirements is needed, the CO shall send the standards via e-mail to [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov) for SPE approval.

**(e) DEFINITIONS (AS USED IN THIS POLICY):**

(1) Acceptable quality level (AQL) is the maximum percent defective, the maximum number of defects per hundred units, or the number of defects in a lot that can be considered satisfactory on the average. The allowable leeway or variance from a standard before the Government will reject the specific service. And AQL does not say that the contractor may knowingly offer defective service. It implies that the Government recognizes that defective performance sometimes happens unintentionally. As long as the percent of defective performance does not exceed the AQL, the service will not be rejected by the Government. The contractor, however, must reperform the defective service when possible.

(2) Contract quality requirements, as defined in the FAR, means the technical requirements in the contract relating to the quality of the product or service and those contract clauses prescribing inspection, and other quality controls incumbent on the contractor, to assure that the product or service conforms to the contractual requirements.

(3) Government contract quality assurance, as defined in the FAR, means the various functions, including inspection, performed by the Government to determine whether a contractor has fulfilled the contract obligations pertaining to quality and quantity.

(4) Integrated product team (IPT) is a team composed of representatives from appropriate functional disciplines working together to build successful programs, identify and resolve issues, and make sound and timely recommendations to facilitate decision making.

(5) Performance work statement (PWS), as defined in the FAR, means a statement of work for performance-based acquisitions that describes the required results in clear, specific and objective terms with measurable outcomes.

(6) Quality assurance are those actions taken by the Government to check goods or services to determine that they meet the requirements of the SOW.

(7) Quality assurance surveillance plan (QASP) is the Agency's inspection plan. The QASP documents methods used to measure performance of the service provider against the requirements in the PWS. The agency relies on the service provider to monitor daily performance using their own quality control plan, but retains the right to inspect all services. When the agency makes a performance decision, the agency re-evaluates and modifies the existing QASP, based upon the selected provider and the selected provider's accepted quality control plan.

(8) Quality control plan is an offeror's self-inspection plan that is included in all offers and tenders. The quality control plan describes the internal staffing and procedures that the prospective provider will use to meet the quality, quantity, timeliness, responsiveness, customer satisfaction, and other service delivery requirements in the PWS.

(9) Statement of objectives (SOO) is a statement of work that states the overall performance objectives. It is used in solicitations when the Government intends to provide the maximum flexibility to each offeror to propose an innovative approach and allows offerors to develop the PWS, performance metrics and a measurement plan, and the QASP for evaluation for contract award.

**Title:** IX BAM 4800 Mandatory Use of Financial Management System and Electronic Contract Files

**Policy Tracking #:** CON-14-08

**Effective Date:** June 15, 2016

**Originating Office:** Contracts, x7843, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:**

(1) This policy and its attachments provide the standard procedures and guidance that mandate documentation to be included in each type of contract file.

(2) This policy also implements:

(i) use of the Financial Management System (FMS) to process all contract actions including contract closeouts; and

(ii) use of the FMS to electronically file and store all documents related to contract actions.

**(b) AUTHORITY AND SCOPE:**

(1) Scope.

(i) This policy applies to the Federal Government elements of the Broadcasting Board of Governors (i.e., VOA, OCB, TSI, and IBB), referred to in this policy as, “The Agency.”

(ii) This policy applies to all Contracting Officers (CO) and all Purchase Card Holders employed by the Agency.

(2) Authorities.

(i) [Federal Acquisition Regulation \(FAR\) Subpart 4.8 – Government Contract Files](#); and

(ii) [Delegation Order 99-11, Redlegation of Contracting Authority to the Senior Procurement Executive, Office of Contracts](#) or current version (delegations of authority are attached to [II BAM 480 - Delegations of Authority](#)).

**(c) POLICY:**

(1) Agency COs who have access to the Agency’s FMS (e.g. all warranted COs at duty stations within the continental U.S.) must:

(i) use the FMS to process all contract actions including contract closeouts; and

(ii) use the electronic contract file function within the FMS to file and store all documents related to contract actions.

(2) Agency COs who do not have access to the Agency's FMS (e.g. locally warranted COs at duty stations outside of the continental U.S.) are not required to use the FMS, but must still maintain paper copies of all contract actions and related documentation in the contract file in accordance with [FAR Subpart 4.8](#). As soon as Agency COs gain access to the FMS, they will be required to use the FMS as described above.

**(d) PROCEDURES:**

(1) Establishing Electronic Contract Files. After the effective date of this policy, Agency COs who have access to the Agency's FMS shall use the FMS to:

- (i) process all contract actions including contract closeouts; and
- (ii) establish electronic contract files to store all documents relating to contract actions.

(2) Contents of Contract Files. Contracting Officers are responsible for ensuring that their contract files meet all requirements described in [FAR Subpart 4.8](#). Contracting Officers shall refer to [FAR Subpart 4.803](#) regarding contents of contract files, as well as the attached simplified acquisitions file review checklist (Attachment 1) and the formal contract file review checklist (Attachment 2). The attached checklists are used by the Office of Contracts Policy Branch to review whether contract files are complete. In addition, the attached checklists are guidance from the Office of Contracts Policy Branch regarding contract file contents. Documentation in addition to the items on these checklists may be required in specific cases, and Contracting Officers are ultimately responsible for ensuring that documentation in their contract files is sufficient to constitute a complete history of the transaction for purposes stated in [FAR 4.801](#). The Office of Contracts Policy Branch shall update the attached checklists at least once annually. However, Contracting Officers should be aware that requirements for contract files in the FAR may be updated more frequently than the attachments.

(3) Optional Functions within the FMS.

- (i) Creating and posting solicitations through the FMS and downloading FAR clauses and provisions to awards through the FMS are encouraged but not required. However, if a CO chooses to create solicitations, post solicitations, or download FAR clauses within the FMS, copies of these documents must be uploaded to in the FMS, attached to the award/procurement document.
- (ii) Purchase cardholders are encouraged, but not required, to use electronic contract files within the FMS. However, if a purchase cardholder decides not to establish an electronic contract file, the cardholder is still responsible for retaining all documentation relevant to the purchase in a manner consistent with Agency policy. Examples of relevant documentation include a copy of form IBB-0042 (Request for Supplies or Services), a copy of form OF 347 (Order for Supplies of Services), approval from the cardholder's Approving Official, special clearances (e.g. for IT equipment, promotional items, memberships, etc.), and any other pertinent documentation.

(4) Guidance regarding using the FMS. For guidance regarding use of the FMS to process contract awards, or to create electronic contract files, contact the Office of Contracts (CON) Policy Branch via email at [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov).

(5) Deviations. Any deviation from the procedures above is subject to advance approval on a case-by-case basis by the Senior Procurement Executive (SPE). To request a deviation, submit a written request via email to the SPE proposing alternative procedures. If approved, the SPE shall issue a written waiver. A copy of the SPE's approved, written waiver must be included in the contract file.

**(e) DEFINITIONS:**

(1) Contract, per [FAR Subpart 2.1](#), means a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. It includes all types of commitments that obligate the Government to an expenditure of appropriated funds and that, except as otherwise authorized, are in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; job orders or task letters issued under basic ordering agreements; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilateral contract modifications. Contracts do not include grants and cooperative agreements covered by [31 U.S.C. 6301](#), *et seq.* For discussion of various types of contracts, see [FAR Part 16](#).

(2) Contract action means any oral or written action that results in the purchase, rent, or lease of supplies or equipment, services, or construction using appropriated dollars over the micro-purchase threshold, or modifications to these actions regardless of dollar value. Contract action does not include grants, cooperative agreements, other transactions, real property leases, requisitions from Federal stock, training authorizations, or other non-FAR based transactions. (See [FAR 4.601](#))

(3) Financial Management System (FMS) means an information system that may perform all financial functions (including general ledger management, funds management, payment management, receivable management, and cost management), as well as financial portions of information systems that can support both financial and non-financial functions, necessary to support financial management (including automated and manual processes, procedures, and controls, data, hardware, software, and support personnel dedicated to the operation and maintenance of system functions). See [OMB Circular A-127](#). The Agency currently uses the Momentum FMS.

(4) Contract closeout means all actions required to comply with [FAR 4.804](#) or [FAR 42.708](#), where applicable, upon completion of a contract action (examples of completion of a contract action include physical completion of a contract (See [FAR 4.804-4](#)); or delivery, acceptance, and payment pursuant to a purchase order, task order, or delivery order).

**(f) EFFECTIVE DATE AND APPROVAL:**

CEO and

**Title:** IX BAM 9100 Responsible Prospective Contractors

**Policy Tracking #:** CON-15-02

**Effective Date:** April 27, 2016

**Originating Office:** Contracts, x7843, [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov)

---

**(a) PURPOSE:** This policy establishes standards and procedures for determining whether prospective contractors and subcontractors are responsible per [FAR Subpart 9.1](#).

**(b) AUTHORITY AND SCOPE:**

**(1) Scope.**

(i) This policy applies to the Federal Government elements of the Broadcasting Board of Governors (i.e., VOA, OCB, TSI, and IBB), referred to in this policy as, “The Agency.”

(ii) This policy also applies to all Contracting Officers (CO) employed by the Agency.

(iii) This policy further applies to all proposed contracts with any prospective contractors or subcontractors being considered by Agency COs, except as follows:

(A) In accordance with [FAR Section 9.102](#), the determination of Contractor responsibility does not apply to Agency proposed contracts with:

(1) Foreign, State, or local governments;

(2) other U.S. Government agencies or their instrumentalities; or

(3) Agencies for people who are blind or severely disabled (see [FAR Subpart 8.7](#)).

(B) In addition, the Agency is not required to perform a responsibility determination when the Agency places a task or delivery order against a contract for which the General Services Administration has already performed a responsibility determination at the time GSA awarded the underlying contract, e.g. GSA Schedule Federal Supply Schedule (FSS) purchases, Government-wide Acquisition Contracts (GWAC), etc. (See [Advanced Tech. Sys, Inc., B-296493.6 \(Comp. Gen.\), Oct. 6, 2006.](#))

**(2) Authorities.**

(i) [FAR Subpart 9.1](#); and

(ii) [Delegation Order 99-11, Redlegation of Contracting Authority to the Senior Procurement Executive, Office of Contracts](#), or current version (delegations of authority are attached to [II BAM 480 - Delegations of Authority](#)).

**(c) POLICY:**

(1) Agency purchases shall be made from, and Agency contracts shall be awarded to, responsible prospective contractors only.

(2) In accordance with [FAR 9.103\(b\)](#), no purchase or award shall be made unless the CO makes an affirmative determination of responsibility. When the CO lacks sufficient information to determine the prospective contractor is responsible, the CO must make a determination of non-responsibility. If the prospective contractor is a small business concern, the CO shall comply with [FAR Subpart 19.6](#). (If Section 8(a) of the Small Business Act applies, see [FAR Subpart 19.8](#).)

(3) A prospective contractor must satisfy the following general standards, set forth in [FAR Subsection 9.104-1](#), to be determined responsible:

(i) Have adequate financial resources to perform the contract or the ability to obtain them (see FAR Subsections [9.104-1\(a\)](#), [9.104-3\(a\)](#));

(ii) Be able to comply with the required or proposed delivery or performance schedule taking into consideration all existing commercial and Government business commitments(see FAR Subsections [9.104-1\(b\)](#), [9.104-3\(b\)](#));

(iii) Have a satisfactory performance record (see FAR Subsections [9.104-1\(c\)](#), [9.104-3\(c\)](#));

(iv) Have a satisfactory record of integrity and business ethics(see FAR Subsections [9.104-1\(d\)](#)), 42.15;

(v) Have the necessary organization and experience, accounting and operational controls, and technical skills or ability to obtain them, including , as appropriate, such elements as production control procedures, property control systems, quality assurance measures, and safety programs applicable to materials to be produced or services to be performed by the prospective contractor and subcontractors (see FAR Subsection [9.104-1\(e\)](#), [9.104-3\(a\)](#));

(vi) Have the necessary production, construction, and technical equipment and facilities or the ability to obtain them (see FAR Subsection [9.104-1\(f\)](#), [9.104-3\(a\)](#)); and

(vii) Be otherwise qualified and eligible under applicable laws and regulations (see FAR Subsection [9.104-1\(g\)](#)) and FAR 9.108 (inverted domestic corporations).

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Contractor Responsibility Clauses. COs are responsible for incorporating the appropriate provisions and contract clauses in solicitations and resultant contracts that are applicable to [FAR Subpart 9.1](#). However, the standards in [FAR 9.104](#), referenced above, apply to all procurements and contracts, even if they are not incorporated into the solicitation.

(2) Obtaining Information for Responsibility Determinations. Before making a determination of responsibility, the CO shall possess or obtain information sufficient to be satisfied that a prospective contractor currently meets the applicable standards in [FAR 9.104](#), referenced above in paragraph (c)(3). The following sub-paragraphs include requirements and guidance regarding obtaining information for responsibility determinations.

(i) Required Checks against System for Award Management Exclusions for all awards. COs shall check all prospective contractors against the exclusion records in the System for Award Management (SAM) for all parties debarred, suspended, proposed for debarment, declared ineligible, or excluded or disqualified under the non-procurement common rule. See [FAR 9.405](#) for further details. COs shall check prospective contractors against SAM Exclusions<sup>1</sup> at each of the times listed below:

(A) upon receipt of offers, bids, and proposals;

(B) again immediately prior to award, modification, or other contract action with a contractor, including placing orders exceeding the minimum guarantee under an indefinite delivery indefinite quantity contract and placing orders under Federal Supply Schedule contracts and Blanket Purchase Agreements; and

(C) prior to awarding new work, exercising options, or otherwise extending the duration of current contracts or orders.

(ii) Guidance on other sources of information for all awards. To support determinations regarding contractor responsibility, COs shall consult sources of information appropriate to the circumstances, which may include the following:

(A) past performance data, including verifiable knowledge of personnel within the Agency;

(B) information submitted to the Agency by the prospective contractor, including bid or proposal information;

(C) commercial sources of supplier information of a type offered to buyers in the private sector;

(D) pre-award survey reports (see [FAR Subsection 9.106](#) for guidance); and

(E) Other sources (e.g., publications; suppliers, subcontractors, and customers of the prospective contractor; financial institutions; other Government agencies; business and trade associations; and DUN & Bradstreet reports).

---

<sup>1</sup> Note: SAM Exclusions has replaced the Excluded Parties List System (EPLS).

(iii) Required Checks in the Federal Awardee Performance Integrity Information System (FAPIIS) for awards exceeding the Simplified Acquisition Threshold (SAT).

(A) Before awarding a contract in excess of the simplified acquisition threshold, the CO shall review the performance and integrity information available in the Federal Awardee Performance and Integrity Information System (FAPIIS), (available at [www.ppirs.gov](http://www.ppirs.gov), then select FAPIIS), including FAPIIS information from the System for Award Management (SAM) Exclusions and the Past Performance Information Retrieval System (PPIRS). In accordance with 41 U.S.C. 2313 (d) (3), FAPIIS also identifies:

(1) An affiliate that is an immediate owner or subsidiary of the offeror, if any (see FAR 52.204-17, Ownership or Control of Offeror); and

(2) All predecessors of the offeror that held a Federal contract or grant within the last three years (see FAR 52.204-20, Predecessor of Offeror).

(B) When making a responsibility determination, the CO shall consider all the information available through FAPIIS with regard to the offeror and any immediate owner, predecessor, or subsidiary identified for that offeror in FAPIIS, as well as other past performance information on the offeror (see [FAR Subpart 42.15](#)). For evaluation of information available through FAPIIS relating to an affiliate of the offeror, see FAR 9.104-3(c). For source selection evaluations of past performance, see FAR 15.305(a)(2).

(C) COs shall use sound judgment in determining the weight and relevance of the information contained in FAPIIS and how it relates to the present acquisition.

(1) Since FAPIIS may contain information on any of the offeror's previous contracts and information covering a five-year period, some of that information may not be relevant to a determination of present responsibility, for example, a prior administrative actions such as debarment or suspension that is expired or otherwise has been resolved, or information relating to contracts for completely different products or services.

(2) Because FAPIIS is a database that provides information about prime contractors, the CO posts information required to be posted about a subcontractor, such as trafficking in persons violations, to the record of the prime contractor (see 42.1503(h)(1)(v)). The prime contractor has the opportunity to post in FAPIIS any mitigating factors. The CO shall consider any mitigating factors posted in FAPIIS by the prime contractor, such as degree of compliance by the prime contractor with the terms of FAR clause 52.222-50.

(D) The CO shall document the contract file to indicate how FAPIIS was considered in any responsibility determination, as well as action taken as a result of the information.

- (E) When considering information in FAPIIS before awarding contracts in excess of the SAT pursuant to [FAR 9.104-6](#) and subparagraph (A) above, if the CO obtains relevant information from FAPIIS regarding criminal, civil, or administrative proceedings in connection with the award or performance of a Government contract; terminations for default or cause; determinations of non-responsibility because the contractor does not have a satisfactory performance record or a satisfactory record of integrity and business ethics; or comparable information relating to a grant, unless the contractor has already been debarred or suspended, the CO shall do the following:
- (1) Promptly request additional information from the offeror in order for the offeror to demonstrate responsibility to the CO (but see [FAR Section 9.405](#)); and
  - (2) If the information appears appropriate for debarment or suspension, prior to proceeding with award and in accordance with Agency procedures, the CO shall notify the CON Policy Branch via email at [bbgconpolicy@bbg.gov](mailto:bbgconpolicy@bbg.gov), so that the CON policy branch can review the information before alerting the Agency official responsible for initiating debarment or suspension actions.
- (3) Documenting Responsibility Determinations in the Contract File. The contract file shall include support documentation to adequately reflect the CO's decision regarding responsibility of a prospective contractor (See [FAR 9.105-2](#)).
- (i) Documentation for simplified acquisitions. For simplified acquisitions, the CO shall, *at a minimum*, document the contract file to state that no active exclusion record was found in SAM for a prospective contractor and to identify the date that SAM was reviewed. To satisfy this requirement, it is Agency best practice that COs include a screenshot or printout from the SAM dashboard in the contract file, demonstrating there are no active exclusions for a prospective contractor. When a screenshot is impractical because a prospective contractor is not required to register in SAM per [FAR Subpart 4.11](#), a memorandum to file is acceptable documentation.
  - (ii) Documentation for actions above the SAT. For all contracts and orders in excess of the SAT, COs shall document determinations regarding contractor responsibility using the attached BBG Determination of Contractor's Responsibility form, or equivalent document.
- (4) Documenting Non-Responsibility Determinations in FAPIIS. In addition to documenting the contract file, the CO shall document a non-responsibility determination in FAPIIS. (See [FAR 9.105-2](#) for greater detail.)
- (5) CO responsibilities regarding small business concerns and certificates of competency. Upon determining and documenting that an apparent successful small business offeror lacks certain elements of responsibility, the CO shall withhold award and refer the matter to the Small Business Administration (SBA), which will decide whether or not to issue a certificate of competency (see [FAR Subpart 19.6](#)). If SBA issues a certificate of competency for a small business concern, the CO shall accept the SBA's decision and award the contract accordingly.

**(e) DEFINITIONS:**

(1) Contract means a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. It includes all types of commitments that obligate the Government to an expenditure of appropriated funds and that, except as otherwise authorized, are in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; job orders or task letters issued under basic ordering agreements; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilateral contract modifications. For discussion of various types of contracts, see [FAR Part 16](#). (See [FAR Subpart 2.1](#))

(2) Concern means any business entity organized for profit (even if its ownership is in the hands of a nonprofit entity) with a place of business located in the United States or its outlying areas and that makes a significant contribution to the U.S. economy through payment of taxes and/or use of American products, material and/or labor, etc. “Concern” includes but is not limited to an individual, partnership, corporation, joint venture, association, or cooperative. For the purpose of making affiliation findings (see [19.101](#)), include any business entity, whether organized for profit or not, and any foreign business entity, i.e., any entity located outside the United States and its outlying areas.

(3) Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria and size standards in 13 CFR part 121 (see FAR Subsection [19.102](#)). Such a concern is “not dominant in its field of operation” when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration must be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity. (See [15 U.S.C. 632](#).)

**BROADCASTING BOARD OF GOVERNORS  
DETERMINATION OF CONTRACTOR'S RESPONSIBILITY  
(Federal Acquisition Regulation (FAR) 9.1,)**

Contract Number: [insert contract number]

Contractor Name: [insert contractor name]

**FINDINGS**

In accordance with FAR 9.104-1, a prospective contractor is determined to be responsible after considering all of the following responsibility standards:

(a) Has adequate financial resources to perform the contract, or the ability to obtain them (see FAR 9.104-3(a)). *Please explain below. [Much of the financial information is furnished by the contractor at the request of the government.]*

---

---

(b) Is able to comply with the required or proposed delivery or performance schedule, taking into consideration all existing commercial and governmental business commitments. *Please explain below. [This information may be obtained from records and experience data.]*

---

---

(c) Has a satisfactory performance record (see FAR 9.104-3(b), FAR 9.104-6 and FAR Subpart 42.15). *Please explain below. Note: A prospective contractor must not be determined responsible or nonresponsible solely on the basis of a lack of relevant performance history, except as provided in FAR 9.104-2.*

---

---

(d) Has a satisfactory record of integrity and business ethics (see FAR 9.104-6 and FAR subpart 42.15). *Please explain below.*

---

---

(e) Has the necessary organization, experience, accounting and operational controls, and technical skills, or the ability to obtain them (including, as appropriate, such elements as production control procedures, property control systems, quality assurance measures, and safety programs applicable to materials to be produced or services to be performed by the prospective contractor and subcontractors) to perform this contract (see FAR 9.104-3(a)). *Please explain below.*

---

---

(f) And, has the necessary production, construction, and technical equipment and facilities, or the ability to obtain them, to perform this contract (see FAR 9.104-3(a)). *Please explain below.*

---

(g) Is otherwise qualified and eligible to receive an award under applicable laws and regulations (see FAR 9.104-6 regarding FAPIIS and FAR 9.108 regarding inverted domestic corporations). *Please explain below. [Check the System for Award Management (SAM), exclusion records, to determine if the contractor has been debarred or suspended or other otherwise excluded from receiving a contract. Identify date if no active exclusion record is found for the vendor in SAM.]*

---

In accordance with FAR 9.105-1 (c), I have considered all the information in the Federal Awardee Performance and Integrity Information System (FAPIIS) (FAR 9.104-6) (available at [www.fapiis.gov](http://www.fapiis.gov)), including information that is linked to FAPIIS such as from the SAM and the Past Performance Information Retrieval System (PPIRS), and any other relevant past performance information (see FAR 9.104-3(c) and FAR Subpart 42.15, in arriving at the above findings.

#### **DETERMINATION**

Based on the above, [insert name of prospective contractor] has been determined to be a responsible contractor, in accordance with FAR Subpart 9.1, for performance under Contract No. [insert contract number]. I hereby determine that award be made to [insert name of prospective contractor] in the amount of [insert contract price] for the period [insert period of performance, including options], said contract price being fair and reasonable and in the best interest of the U.S. Government.

---

[Insert name/signature of Contracting Officer]  
Contracting Officer

---

Date

**IN ACCORDANCE WITH FEDERAL ACQUISITION REGULATION (FAR) 9.1, SEE THE BELOW IMPORTANT NOTES\* REGARDING DETERMINATION OF CONTRACTOR'S RESPONSIBILITY**

*\*The contracting officer's signing of a contract constitutes a determination that the prospective contractor is responsible with respect to that contract. In accordance with FAR 9.104-3(d)(1), upon making a determination of nonresponsibility with regard to a small business concern, the contracting officer shall refer the matter to the Small Business Administration (SBA), which will decide whether to issue a Certificate of Competency (see subpart 19.6). In accordance with FAR 9.105-2(a)(2), when a Certificate of Competency is issued for a small business concern (see Far subpart 19.6), the contracting officer shall accept the Small Business Administration's decision to issue a Certification of Competency and award the contract to the concern.*

*\*In accordance with FAR 9.105-2(b), any supporting documentation used to determine responsibility, including any preaward survey reports, the use of FAPIIS information and any applicable Certificate of Competency, must be included in the contract file.]*

*In accordance with FAR 9.104-6(d), the file must be documented to indicate how the information in FAPIIS was considered in any responsibility determination, as well as the action that was taken as a result of the information.*

*In accordance with FAR 9.104-6(b), sound judgment must be used in determining the weight and relevance of the information contained in FAPIIS and how it relates to the present acquisition. Since FAPIIS may contain information on any of the offeror's previous contracts and information covering a five-year period, some of that information may not be relevant to a determination of present responsibility, e.g., a prior administrative action such as debarment or suspension that has expired or otherwise been resolved, or information relating to contracts for completely different products or services.*

*\*In accordance with FAR 9.104-6(c), if the contracting officer obtains relevant information from FAPIIS regarding criminal, civil, or administrative proceedings in connection with the award or performance of a Government contract; terminations for default or cause; determinations of nonresponsibility because the contractor does not have a satisfactory performance record or a satisfactory record of integrity and business ethics; or comparable information relating to a grant, the contracting officer shall, unless the contractor has already been debarred or suspended –*

- (1) Promptly request such additional information from the offeror as the offeror deems necessary in order to demonstrate its responsibility (but see 9.405); and*
- (2) Notify, prior to proceeding with award, in accordance with agency procedures (see FAR 9.406-3(a) and 9.407-3(a)), the agency official responsible for initiating debarment or suspension action, if the information appears appropriate for the official's consideration.*

*In accordance with FAR 9.105-2(b)(2), the contracting officer shall document the determination of nonresponsibility, in FAPIIS (available at [www.cpars.gov](http://www.cpars.gov), then select FAPIIS) if the determination of nonresponsibility is based on lack of satisfactory performance record or satisfactory record of integrity and business ethics; and SBA does not issue a Certificate of Competency. The contracting officer is responsible for the timely submission of the nonresponsibility determination, within 3 working days, as well as sufficiency and accuracy of the documentation regarding the nonresponsibility determination.*

**Title:** Granting Authority to Operate Agency Information Systems

**Policy #:** TSI-12-01

**Effective Date:** 06/11/2013

**Originating Office:** Technology, Services, and Innovation, IT Directorate (202) 382-7271

---

**(a) PURPOSE:** This policy designates BBG's Chief Information Officer (CIO) as the Certifying Official for all Agency Information Systems (as defined in paragraph (B)(ii) below), provides guidance on the Information System risk management process recommended by the National Institute of Standards and Technology (NIST), and establishes procedures for Certification as part of the risk management process.

**(b) AUTHORITY & SCOPE:**

(1) Authority: This policy implements requirements and guidance found in

- (i) [The Clinger-Cohen Act](#) (Pub. L. 104-106; 40 U.S.C. 11101 et seq.)
- (ii) [The Federal Information Security Management Act](#) (44 U.S.C. 3541 et seq.);
- (iii) [OMB Circular A-130](#), including [Appendix III, Security for Federal Automated Information Resources](#) (Nov. 2000);
- (iv) [NIST Special Publication 800-18, Rev. 1](#), Guide for Developing Security Plans for Federal Information Systems (Feb. 2006);
- (v) [NIST Special Publication 800-37, Rev. 1](#), Guide for Applying the Risk Management Framework to Federal Information Systems (Feb. 2010);
- (vi) [NIST Special Publication 800-53, Rev. 3](#), Recommended Security Controls for Federal Information Systems and Organizations (Aug. 2009);
- (vii) [NIST Special Publication 800-53A, Rev. 1](#), Guide for Assessing the Security Controls in Federal Information Systems and Organizations (Jun. 2010);
- (viii) [NIST Special Publication 800-60, Rev. 1](#), Guide for Mapping Types of Information and Information Systems to Security Categories (Aug. 2008);
- (ix) [NIST Special Publication 800-64, Rev. 2](#), Security Considerations in the System Development Life Cycle (Oct. 2008);
- (x) [NIST Special Publication 800-82](#), Guide to Industrial Control Systems (ICS) Security;
- (xi) [Federal Information Processing Standards Publication 199](#) (FIPS 199), Standards for Security Categorization of Federal Information and Information Systems (Feb. 2004);

(xii) [Federal Information Processing Standards Publication 200](#) (FIPS 200), Minimum Security Requirements for Federal Information and Information Systems (Mar. 2006);

(xiii) [The E-Government Act of 2002](#) (Pub. L. 107-347; 44 U.S.C. 3501 Note);

(xiv) [OMB Memo M-03-22](#), OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002 (Sep. 2003); and

(xv) [OMB Memo M-11-29](#), Chief Information Officer Authorities (Aug. 2011).

(2) Scope: This policy applies to all offices or divisions of the Federal Government which the Broadcasting Board of Governors supervises pursuant to the U.S. International Broadcasting Act (collectively, “the Agency”) and all Information Systems developed, procured, acquired, modified, or operated by any office or division within the Agency (collectively, “Agency Information Systems”).

**(c) POLICY:**

(1) All Agency Information Systems must receive a written Authority to Operate from BBG’s CIO, regardless of the cost associated with developing, procuring, acquiring, or modifying the Information System.

(2) The CIO is the Certifying Official, who, in consultation with the IBB Director, is responsible for:

(i) Issuing;

(ii) Denying;

(iii) Placing conditions upon; or

(iv) Rescinding;

Authority to Operate an Information System on behalf of the Agency.

(3) The CIO issues, denies, conditions, or rescinds Authority to Operate based on a determination, made in consultation with the IBB Director, whether an Information System will operate at an acceptable level of risk to the Agency’s organizational operations (including but not limited to the Agency’s broadcasting mission, functions, image, and reputation), organizational assets, individuals, other organizations, and the nation. (See [NIST Special Publication 800-53, Rev. 3](#)).

(4) The CIO shall determine whether to issue Authority to Operate through a formal Certification process. Certification is an ongoing process, with the following steps, as detailed in Section D of this Policy:

(i) Initiation – Either an IBB Office or Broadcasting Element, in conjunction with the Information Security Management Division, or an Information System Owner, develops

an Information System Security Plan. The plan categorizes security risks associated with an Information System and identifies Security Controls to mitigate those risks. The Security Plan is reviewed and approved by a Security Assessment Panel designated by the CIO;

(ii) Development – Either the Agency develops the approved Security Controls for an Information System developed in-house, or the Agency ensures that a procured Information System has developed all of the security controls identified by an approved security plan;

(iii) Implementation – The Security Assessment Panel tests Security Controls, or reviews assessments conducted by outside organizations, and makes recommendations to the CIO. The CIO, in consultation with the IBB Director, then makes a final decision whether to authorize the system to operate;

(iv) Operation and Maintenance – The Information Security Management Division and the Information System Sponsor continuously monitor the effectiveness of Security Controls.

(v) Ongoing Re-Certifications – Each Information System must go through a new Certification process as determined by the CIO.

(5) The process, described in Section D below, is not intended to impose an unnecessary administrative burden. Because Information Systems vary greatly, the CIO should tailor the Certification process to the characteristics, complexity, and level of risk associated with each Information System. For Example, the Certification process for an Information System which is also a Broadcast and Communication System should be tailored to the unique design and operation of that system. Furthermore, security controls that result from the Certification process should not unduly interfere with the broadcast functions of an Information System which is also a Broadcast and Communications System.

**(d) PROCEDURES & PRIMARY RESPONSIBILITIES:**

(1) The IBB Director shall consult with the CIO regarding issuing, denying, conditioning, or rescinding Authority to Operate an Information System. However, when the IBB Director is not available, the IBB Director may delegate this function to the IBB Deputy Director or the IBB Chief of Staff.

(2) The CIO shall exercise the following responsibilities, but may delegate them to an employee who reports to the CIO, when the CIO is not available:

(i) Implement the Information System Certification procedures established by this policy;

(ii) Oversee the work of Security Assessment Panels;

(iii) Report to BBG senior management on the effectiveness of the Information System Certification process; and

(iv) Consult with the IBB Director before issuing, denying, placing conditions upon, or rescinding Authority to Operate an Information System.

(3) The Heads of all IBB Offices and Broadcasting Elements shall:

(i) Ensure that all Information Systems they develop, procure, acquire, operate, or modify are covered by an approved Security Plan and receive written Authority to Operate from the CIO.

(ii) Plan and budget for the Certification process, as well as continuing Re-Certifications.

(4) Initiation

(i) As soon as an IBB Office or Broadcasting Element identifies a need to procure, develop, modify, or Re-Certify an Information System, the head of that office shall designate an Information System Sponsor. The Information System Sponsor shall serve as the primary point of contact with the CIO's Office, as well as the Information Security Management Division, regarding the Information System.

(ii) The Information System Sponsor shall consult with the Chief Information Security Officer in the Information Security Management Division to:

(A) Determine whether the proposed development, procurement, or modification requires a new Authority to Operate, or whether the proposed Information System would be covered by an existing, overarching Authority to Operate for multiple sub-systems; and

(B) Obtain guidance on the Certification process, as necessary.

(iii) Before an IBB Office or Broadcasting Element begins developing, modifying or procuring an Information System, the Information System Sponsor shall submit a proposal to the CIO for initial review, which includes:

(A) The name and contact information for the Information System Sponsor;

(B) The purpose of developing, modifying, or procuring the Information System;

(C) The Information System's technical requirements;

(D) The Information System's requirements for interconnecting, or sharing information, with existing Agency Information Systems;

(E) A list of any deviations from [IT Standards, version 13](#).

(F) A Privacy Impact Assessment, if required by [The E-Government Act of 2002](#), §208 (see [OMB Memo M-03-22](#) for guidance regarding when a Privacy Impact Assessment is necessary);

(G) The budget for the Information System, including the Certification process; and

(H) Any additional program management or technology requirements.

(iv) After thoroughly reviewing items (a)-(h) in Paragraph (D)(iv)(3) above, the CIO shall notify the Information System Sponsor whether he/she approves the proposed action (i.e. developing, modifying, or acquiring an Information System) to move forward to the Security Plan development phase. If the CIO does not approve the proposed action, he/she shall provide a detailed, written explanation for his/her decision to the Information System Sponsor.

(v) Security Plans for Information Systems Developed by the Agency:

(A) If the IBB Office or Broadcasting Element intends to develop, acquire, or modify an Information System in-house, then the Information System Sponsor shall develop a Security Plan, with support from the Information Security Management Division, and submit the Security Plan to the CIO.

(B) All Security Plans shall comply with [FIPS 199](#), [FIPS 200](#), [NIST Special Publication 800-53](#), and [NIST Special Publication 800-60](#). Security plans for Information Systems which are also Broadcast and Communication Systems shall also follow guidance in [NIST Special Publication 800-82](#). Because these plans are highly technical, the Information System Sponsor should contact TSI's Information Security Management Division as soon as possible to obtain guidance.

(C) Upon receipt of a Security Plan, the CIO shall assign a Security Assessment Panel to conduct a thorough review of the plan.

(D) The Security Assessment Panel shall ensure that the plan categorizes risks to Confidentiality, Integrity, and Availability correctly under [FIPS 199](#), and includes all required security controls under [FIPS 200](#) and [NIST Special Publication 800-53](#). The Security Assessment Panel may recommend changes to the Security Plan or require additional information, as necessary.

(E) An IBB Office or Broadcasting Element may begin developing or modifying an Information System only after the Security Assessment Panel approves the Security Plan.

(vi) Security Plans for Information Systems Procured by the Agency: If an IBB Office or Broadcasting Element intends to procure an Information System, then the Information System Sponsor is responsible for coordinating with the Information Security Management Division and the Office of Contracts to ensure that the request for proposals, statement of work, specifications, and other documents include requirements that the Information System Owner shall perform at least one of the following functions, as appropriate, based on recommendations from the Information Security Management Division:

(A) Develop a Security Plan in compliance with [FIPS 199](#), [FIPS 200](#), [NIST Special Publication 800-53](#), [NIST Special Publication 800-60](#), and [NIST Special Publication](#)

[800-82](#) in the case of Information Systems which are also Broadcast and Communication Systems;

(B) Obtain and submit the results of a private-sector Security Controls Assessment;

(C) Obtain and submit the results of a Security Controls Assessment developed by another federal agency, or another non-federal organization, which has implemented the same Information System; or

(D) Comply with an Agency-developed Security Plan and Security Controls Assessment;

(5) Development

(i) For Information Systems developed or modified in-house - The Information System Sponsor is responsible for ensuring that all Security Controls identified in the approved Security Plan are included in the development or modification of the Information System.

(ii) For procured Information Systems – The Information System Sponsor is responsible for coordinating with the Office of Contracts prior to contract award, to ensure the Agency procures an Information System that includes all Security Controls identified in an approved Security Plan. The Information System Sponsor, or a representative from the Information Security Management Division, or both, should be included in a technical evaluation panel for Information System procurements.

(6) Implementation

(i) Security Controls Assessment for Information Systems Developed or Modified by the Agency:

(A) The Information System Sponsor shall notify the Security Assessment Panel when the Security Controls identified in the Security Plan have been implemented and are ready for a Security Controls Assessment.

(B) The Security Assessment Panel shall conduct tests for each Security Control to ensure the Security Controls are implemented correctly and functioning as intended.

(C) After the Security Controls Assessment is complete, the Security Assessment Panel shall make written recommendations to the Certifying Official regarding whether Security Controls are adequate, and if additional controls or actions are necessary.

(ii) Security Controls Assessment for Information Systems Procured by the Agency:

(A) When it is impractical or impossible to conduct an in-house Security Assessment for a procured Information System, the Security Assessment Panel may review a security Certification from an outside organization, performed according to industry

standards (e.g. the International Organization for Standards 27001 standards for information security management).

(B) After reviewing an outside security Certification, the Security Assessment Panel shall make written recommendations to the Certifying Official regarding whether to accept the outside security Certification, and if additional controls or actions are necessary.

(iii) Issuing Authority to Operate

(A) After the Certifying Official:

- (1) Reviews the approved Security Plan;
- (2) Reviews the written recommendations of the Security Assessment Panel; and
- (3) Consults with the IBB Director;

the Certifying Official shall determine whether the proposed Information System will operate at an acceptable level of risk to the Agency's organizational operations (including but not limited to the Agency's broadcasting mission, other functions, image, and reputation), organizational assets, individuals, other organizations, and the nation.

(B) If the level of risk is acceptable, the Certifying Official will issue Authority to Operate to the Information System Owner.

(C) Each Authority to Operate shall be in writing and shall contain an expiration date, no later than three years after the date Authority to Operate is granted.

(D) The Certifying Official may issue a limited Authority to Operate, which shall either expire on a designated deadline, or shall mature into a full Authority to Operate, lasting up to three years, on the condition that the Information System Owner must take any or all of the following actions, as directed by the CIO:

- (1) Implementing additional Security Controls,
- (2) Conducting additional Security Controls Assessments, or
- (3) Complying with other security requirements.

(7) Operation and Maintenance

(i) Continuous Monitoring – The Chief of the Information Security Management Division, within TSI, shall appoint an Information System Security Officer (ISSO) for each Agency Information System. The ISSO and the Information System Sponsor are responsible for continuously monitoring the effectiveness of Security Controls. The ISSO and Information System Sponsor shall report system vulnerabilities or significant

changes in risks to the Certifying Official, so that he/she may make informed decisions about whether to place conditions upon, or rescind, an authority to operate, in consultation with the IBB Director.

(ii) Re-Certification - At least 30 days before an Authority to Operate expires, the Information System Sponsor is responsible for submitting to the Certifying Official a request for Re-Certification that shall include:

(A) A list of any changes in the Information System's technical requirements;

(B) A list of any changes in the Information System's requirements for interconnecting, or sharing information, with other Agency Information Systems;

(C) All information required by [FIPS 199](#), [FIPS 200](#), [NIST Special Publication 800-53](#), [NIST Special Publication 800-60](#), or [NIST Special Publication 800-82](#); and

(D) The Budget for the Re-Certification process, if any.

(iii) The CIO shall assign review of the request for Re-Certification to a Security Assessment Panel.

(iv) The Security Assessment Panel shall either:

(A) Conduct a new Security Assessment; or

(B) Review information in a new security Certification, provided from an outside source, under the same circumstances described in paragraph (D)(vi)(2) above.

(v) The Security Assessment Panel shall then provide the Certifying Official with a written recommendation regarding whether Security Controls are functioning as intended, and if additional controls or actions are necessary.

(vi) After reviewing the written recommendations of the Security Assessment Panel, and consulting with the IBB Director, the Certifying Official shall make a new determination whether the Information System continues to operate at an acceptable level of risk to the Agency.

(e) **DEFINITIONS:** As used in this policy, the terms below are defined as follows:

(1) Authority to Operate means the official, management decision by the Chief Information Officer to authorize the operation of an Information System after evaluating security risks associated with the system and security controls designed to mitigate those risks. [NIST Special Publication 800-37 Rev. 1](#).

(2) Availability means ensuring timely and reliable access to, and use of, information. [44 U.S.C. § 3542](#); [FIPS 199](#).

(3) Broadcasting Element means the Voice of America (VOA), the Office of Cuba Broadcasting (OCB), and all offices, divisions, directorates, or sub-organizations within VOA and OCB.

(4) Broadcast and Communication System means equipment, information resources, or components thereof, which perform specific functions that are integral to the broadcast production process and operate independently of any other Information System. Examples of Broadcast and Communication Systems include audio and video switchers, cameras, broadcast video playback, recording devices, master control automation and routing systems, camera robotic control networks, and radio audio console networks. A system may be both a Broadcast and Communication System and an Information System.

(5) Certification means a comprehensive analysis of an Information System's Security Controls by appropriate officials assigned by the CIO. See [NIST Special Publication 800-37 Rev. 1](#).

(6) Certifying Official means the official who may issue Authority to Operate on behalf of the Agency. For the purposes of this policy, the term Certifying Official is synonymous with Chief Information Officer (CIO). See [NIST Special Publication 800-37 Rev. 1](#).

(7) Confidentiality means preserving authorized restrictions on information access and disclosure, including means for protecting personal privacy and proprietary information. [44 U.S.C. § 3542](#); [FIPS 199](#).

(8) IBB Office means any component or subcomponent within the Agency that reports directly to the IBB Director.

(9) Industrial Control System means equipment that is typically used in the industrial sector (e.g. electric, water and wastewater, oil and natural gas, transportation, chemical, pharmaceutical, food and beverage, or manufacturing industries) and which uses deliberate guidance or manipulation to achieve a prescribed value for a variable. Examples include Supervisory Control and Data Acquisition (SCADA) systems, Distributed Control Systems, or Programmable Logic Controllers.

(10) Information System means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. [44 U.S.C. § 3502](#). A system may be both an Information System and a Broadcast and Communications System, as defined above.

(11) Information System Owner means the person or organization responsible for developing or operating an Information System. This refers either to an element within the Agency or an organization from which the Agency procures an Information System. See [FIPS 200](#).

(12) Information System Security Officer means the individual responsible for maintaining the appropriate operational security for each Information System or program. See [44 U.S.C. § 3544](#).

(13) Information System Sponsor means the person, or persons, from an IBB Office or Broadcasting Element that requests Authority to Operate an Information System and coordinates with the Certifying Official (CIO) and the Security Assessment Panel.

(14) Information Technology means any equipment or interconnected system, or subsystem, of equipment that is used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. This includes computers, peripheral computer equipment, software, firmware, support services, and related resources. [40 U.S.C. § 11101](#).

(15) Integrity means guarding against improper information modification or destruction, and includes ensuring information non-repudiation and authenticity. [44 U.S.C. § 3542](#); [FIPS 199](#).

(16) Security Assessment Panel means a person, or persons, whom the Certifying Official tasks with evaluating the security risks of implementing an Information System and advising the Certifying Official. The Security Assessment Panel will often, but does not have to, include the Chief of the Information Security Division and the Information System Security Officer who is, or will be, responsible for the Information System under evaluation. *See*, [NIST Special Publication 800-37 Rev. 1](#).

(17) Security Control means a management, operational, or technical safeguard or countermeasure for an Information System that protects the confidentiality, integrity, and availability of the system and its information. [NIST Special Publication 800-37 Rev. 1](#).

(18) Security Control Assessment means the testing or evaluation of the management, operational, and technical safeguards in an Information System to determine the extent to which the safeguards are implemented correctly, operating as intended, and producing the desired outcome. [NIST Special Publication 800-37 Rev. 1](#).

Interr

**Title:** Safeguarding Personally Identifiable Information Policy

**Policy Tracking #:** TSI-13-05

**Effective Date:** April 23, 2015

**Originating Office:** T/IS x7200

---

**(a) PURPOSE:** The Government is responsible for safeguarding Personally Identifiable Information (PII) (see definitions below) which the Government collects or maintains. This policy's purpose is to protect the Agency's PII assets from unauthorized disclosure and/or loss.

**(b) AUTHORITY & SCOPE:**

(1) Authority. This policy implements requirements and guidance found in the following:

- (i) [The Privacy Act of 1974, 5 U.S.C. § 552a](#);
- (ii) [The Federal Information Security Management Act of 2002, Pub. L. 107-347](#);
- (iii) [OMB Memorandum M-06-16](#) Protection of Sensitive Agency Information (June 2006);
- (iv) [OMB Memorandum M-07-16](#) Safeguarding Against and Responding to the Breach of Personally Identifiable Information (May 22, 2007);
- (v) [NIST Special Publication 800-53, Rev 4](#), Recommended Security and Privacy Controls for Federal Information Systems and Organizations (April 2013); and
- (vi) [NIST Special Publication 800-122](#), Guide to Protecting the Confidentiality of Personally Identifiable Information.

(2) Scope.

- (i) This policy applies to all Federal employees of the Broadcasting Board of Governors (BBG), and all offices of the Federal Government supervised by the BBG (collectively, "the Agency"). In addition, the Agency shall incorporate the policies and user responsibilities in this document into contracts as necessary, and apply the user responsibilities below to contractors who collect, access, maintain, or in any way use PII on behalf of the Agency.
- (ii) This policy applies to all information assets containing PII including financial, contractual, human resources, and any other PII collected, processed, or stored by the Agency.
- (iii) In general, Agency programs, broadcasts, or other content are not affected by this policy. However, some news gathering information may be covered by this policy, such

as sensitive information about contacts and sources. Please see the [VOA Best Practices Guide](#) for guidance regarding confidential sources.

(iv) This policy does not apply to classified information. Please see [BAM Title VIII](#), Sections [130](#) and [240](#) or contact the Office of Security, for further guidance regarding classified information.

(3) Related policies.

(i) [BBG Breach Notification Policy \(July 2008\)](#); and

(ii) [BBG FISMA Information Systems and Accreditation Boundaries](#).

**(c) POLICY:**

(1) PII Protection. The Agency shall maintain a system of administrative, technical, and physical safeguards to prevent unauthorized PII disclosure.

(2) Relation to Telework. All of the policies and procedures in this document apply equally to alternate worksites under telework agreements as they do to Agency facilities. For example, the requirements described below regarding protecting PII from disclosure, physically securing PII in locked drawers or rooms when not in use, locking computers before leaving them unattended, and disposing of document or devices that contain PII must be followed at alternate worksites.

(3) Removal of PII material.

(i) Records containing PII in hardcopy (i.e., physical documents) should not be sent or removed from the Agency's premises as a general rule. Removal of hardcopy records containing PII for work-related reasons, including telework, requires prior approval by an employee's direct supervisor, as well as the Information System Security Officer (ISSO) following the procedures in paragraph (d)(3) of this policy. When removal of documents containing PII is necessary, Agency Supervisors and ISSOs may only approve removing the minimum amount of information necessary to accomplish work requirements.

(ii) Portable storage devices (e.g. USB drive, portable hard drive, laptop storage, CD, etc.) that contain PII, MAY NOT be removed from the Agency's premises. Instead of using portable storage devices, the Agency will utilize secure remote access technologies.

(4) Remote Access to PII. PII may only be accessed from outside the Agency, if the following conditions are met:

(i) Remote access is allowed only via technologies that implement secure and encrypted communication channels that do not allow local downloading, capture, copying, or printing, or are approved and implemented by the Deputy CIO; and

(ii) Remote data access is logged for accountability. Remote access to the Agency network will be automatically logged by the system allowing for external access

(currently Virtual Private Network (VPN) access). Remote access to specific systems which contain PII data shall automatically log remote access as well as maintain an audit trail of the remote user's record access and actions. This data will be retained by TSI for a minimum of six months.

(5) If a mobile device containing PII is lost, or data are suspected of being compromised, the Deputy CIO has the authority to have the mobile device remotely locked, rendered inaccessible, or erased.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

**(1) Access Control.**

(i) Supervisors and managers who are responsible for granting employees access to systems that store PII must only grant employees access to these systems based on work requirements.

(ii) Supervisors and managers who are responsible for granting contractors access to information systems that store PII must NOT grant a contractor access to these systems before the user responsibilities listed below are incorporated into the contractor's contract.

**(2) User Responsibilities.** Any person who collects, accesses, maintains or in any way uses PII on behalf of the Agency (collectively "Users") is responsible for the following:

(i) Users must protect PII from disclosure to any person or entity who has not been granted access to that information;

(ii) Users must not use their access rights to exploit controls or access PII for any reason other than performance of their official duties.

(iii) Users must take and successfully complete the Agency's Security and Privacy Awareness Training annually;

(iv) Users must report confirmed, as well as suspected, privacy breaches to the Chief Information Security Officer;

(v) Users must use encryption methodology approved by the Deputy CIO to store or transmit PII by Agency e-mail;

(vi) Users must NOT transmit PII using personal e-mail accounts;

(vii) Users must physically secure PII (e.g., in a locked drawer, cabinet, desk, or safe) when not in use or not otherwise under the control of a person with a need to know. PII may be stored in a space where access control measures are employed to prevent unauthorized access by members of the public or other persons without a need to know (e.g., a locked room or floor, or other space where access is controlled by a key lock, cipher lock, or card reader). But the use of such measures is not a substitute for physically

securing Sensitive PII in a locked container when not in use. Users must NOT leave documents containing PII unattended;

(viii) Users must lock their computers (Ctrl + Alt + Del) before leaving them unattended;

(ix) Users must NOT place PII on publicly accessible systems, including but not limited to Internet webpages or e-mail servers;

(x) Users must NOT disclose or transmit any PII while using a public access connection;

(xi) Users must NOT use persistent cookies or automatic form-filling features in websites or web browsers;

(xii) Users who have permission to remove documents containing PII from Agency facilities must remove only the minimum amount of information necessary to accomplish work requirements and must return all documents containing PII to Agency facilities once those work requirements no longer exist;

(xiii) Users who have permission to take documents containing PII with them during temporary duty travel (TDY) must keep documents containing PII in their physical possession at all times while traveling, commuting, or while otherwise in transit (e.g. documents containing PII must be transported as carry-on luggage and may not be checked) and must continue to physically secure documents containing PII as described in paragraph (d)(2)(vii) throughout the TDY assignment.

(3) Procedures for Requesting Removal of or Remote Access to PII. To remove PII from the Agency premises or to access PII remotely, a request must be made to the Information System Security Officer (ISSO) and the Deputy CIO as follows:

(i) The requestor shall submit a PII removal or remote access request to the ISSO of the information. The request must be in writing and describe:

(A) Why PII removal or remote access is needed and how the request will impact the Agency's mission;

(B) The specific information to be removed or accessed, and how it will be stored;

(C) Who will be removing or accessing the data; and

(D) How long the User(s) will need to remove or remotely access the data.

(ii) The ISSO is responsible for weighing the potential risk of unauthorized disclosure against the benefit to the Agency's mission. Within 10 business days, the ISSO shall notify the requestor and his or her supervisor in writing if the request has been approved or rejected. If the ISSO approves the request, he or she shall forward it to the Deputy CIO at the same time he or she responds to the requestor and his or her supervisor.

(iii) The Deputy CIO shall consider technical solutions that allow remote access to PII, their costs, and time and staff resources needed to implement a solution. Within 10 business days after receipt of request, the Deputy CIO shall notify the requestor and the ISSO of his or her decision on a technical solution, the costs and resources required to implement a solution, and if appropriate alternatives exist.

(iv) If the request is approved and implemented, the ISSO is responsible for auditing access to his or her system's PII and monitoring for data breaches or unauthorized activity. The ISSO may revoke permission to remove or remotely access PII, at any time, by issuing a written revocation, including an explanation, to the requestor and the Deputy CIO.

(4) Disposition of PII.

(i) Relation to Records Retention Schedules. When documents or devices that contain PII are no longer necessary to conduct the Agency's business, then PII should be properly retired to the National Archives and Records Administration (NARA) or destroyed. The destruction or disposal of PII must be conducted in accordance with any litigation holds, the Federal Records Act, and records disposition schedules approved by NARA. Retired hardware should be properly sanitized before disposal (e.g. no disk images contain PII, the hard drive has been properly sanitized).

(ii) Methods of Destruction. Only records designated as temporary in a NARA-approved records disposition schedule and non-record copies may be destroyed. When destroying records designated as temporary or non-record copies, Users must sanitize or destroy documents or devices that contain PII as follows:

(A) Hard copies of documents containing PII must be shredded or pulped;

(B) Portable storage media (e.g. CD, USB Drive, Micro-SD card, etc.) must be erased using a wipe out utility or shredded;

(C) The hard drive from computer systems or mobile devices must be erased using a wipeout utility or physically destroyed.

(5) Enforcement.

(i) This policy constitutes specific instructions and directives to managers, supervisors, and employees. Failure to comply with this policy constitutes a failure to follow instructions and/or negligent performance of duties – both of which are misconduct. All employees are reminded that misconduct may result in discipline, up to and including removal. Additionally, employees are reminded that a failure to perform required duties satisfactorily may be reflected in performance evaluations, and may even result in the non-performing employee being placed on a Performance Improvement Plan (PIP), which may make the employee subject to removal based on failure to improve and sustain performance at a satisfactory level.

(ii) Contracting Officers and Contracting Officer's Representatives are responsible for monitoring contractor performance and taking appropriate action if a Contractor fails to meet contractual responsibilities regarding protection of PII.

**(e) DEFINITIONS:**

(1) Personally Identifiable Information (PII) is information which can be used to distinguish or trace an individual's identity, such as an individual's name, social security number, biometric records, address information etc. alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, medical, educational, financial and employment information etc. See [OMB Memorandum M-07-16](#) and M-06-19. PII is a form of Sensitive but Unclassified Information.

(2) Sensitive but Unclassified Information is information that is not classified for national security reasons, but that warrants/requires administrative control and protection from public or other unauthorized disclosure for other reasons.

(3) Information System means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See [44 U.S.C. § 3502](#).

(4) Information System Security Officer (ISSO) is an individual with assigned responsibility for maintaining the appropriate operational security posture for an information system or program.

**(f) EFFECTIVE DATE AND APPROVAL:**

**Title:** XI BAM 300 Information Security Awareness and Role-Based Training Policy

**Policy Tracking #:** TSI-14-01

**Effective Date:** June 10, 2015

**Originating Office:** T/IS x7200

---

**(a) PURPOSE:** Federal legislation and executive branch guidance establish minimum acceptable information security practices for Federal computer systems, including information security awareness training. This policy defines information security awareness training and role-based training requirements and responsibilities.

**(b) AUTHORITY & SCOPE:**

(1) Authority. This policy implements requirements and guidance found in the following:

- (i) [The Federal Information Security Management Act of 2002, Pub. L. 107-347](#);
- (ii) [5 C.F.R. § 930.301](#), Information systems security awareness training program;
- (iii) [NIST Special Publication 800-16](#), A Role-Based Model for Federal Information Technology / Cyber Security Training;
- (iv) [NIST Special Publication 800-50](#), Building an Information Technology Security Awareness and Training Program (Oct. 2003); and
- (v) [Office of Management and Budget \(OMB\) Circular No. A-130, Appendix III](#).

(2) Scope.

- (i) This Security Awareness and Role-Based Training Policy applies to all Federal employees of the Broadcasting Board of Governors (BBG), and all offices of the Federal Government supervised by the BBG (collectively, “the Agency”).
- (ii) In addition, the Agency shall ensure that contractors (as defined in paragraph (e)(1) below) comply with security training requirements by incorporating the policies in this document into contracts as necessary.
- (i) The policy does not apply to classified information. Please see [BAM Title VIII](#), or contact the Office of Security, for further guidance regarding classified information.

(3) Related policies.

- (i) [XI BAM 200 - Safeguarding Personally Identifiable Information Policy](#) ;
- (ii) [BBG Breach Notification Policy \(July 2008\)](#).

**(c) POLICY:**

(1) The Agency will ensure that 100 percent of employees and contractors successfully complete the Agency's information security awareness training, as well as role-based training requirements for users with significant information security responsibilities, prior to being granted access to Agency computer systems or being granted privileged IT accounts for use at the Agency.

(2) The Agency will ensure that 100 percent of employees and contractors successfully complete required training, which the Chief Information Security Officer (CISO) identifies as required for those employees or contractors, during the course of the year. Specifically, employees and contractors may be required to complete one or more of the following:

- (i) Periodic Information Security Awareness Refresher Training;
- (ii) Any additional general user information security training, deemed necessary by the CISO; and
- (iii) Role-based information security awareness training.

**(d) PROCEDURES AND PRIMARY RESPONSIBILITIES:**

(1) Information Security Awareness Training Procedures, Roles, and Responsibilities.

(i) CISO.

(A) The CISO is responsible for identifying or creating, administering, and tracking compliance with the Agency's information security awareness program. The CISO shall develop training material that includes the following topics, as well as any new policies or guidance developed as the result of emerging IT security issues:

- (1) Email security threats and user best practices;
- (2) Web browsing threats and user best practices;
- (3) Information security incident identifications and information security incident reporting;
- (4) Reporting suspected abuse of Agency computer resources;
- (5) Annual information security awareness training requirements and user responsibilities; and
- (6) Other critical information security policies and practices.

(B) The CISO shall update the training materials as frequently as needed, but not less than once per year, as dictated by information security threats and incidents.

(C) The CISO shall track compliance with information security awareness training. If employees or contractors fail to complete the training within the time specified for the training groups identified in sections (d)(1)(ii) and (d)(1)(iii) of this policy, their computer accounts may be disabled. In addition, action may be taken as described in the Enforcement section of this policy.

(ii) Information Security Awareness Training for Employees.

(A) New Employees at Agency Headquarters. All new employees at Agency headquarters will receive information security awareness training during their initial orientation. The Office of Workforce Support and Development shall record who successfully completes the training and communicate this information to the CISO. If circumstances prevent completion of the training during orientation, new employees are required to complete an on-line course at the time they receive their Agency computer account from Agency Technical Support Services (TSS) staff.

(B) New Remote Employees. Employees who work at locations where TSS staff do not have a presence shall complete information security awareness training within 1 week after receiving their Agency computer account, and they shall communicate successful completion to the TSS help desk and the CISO.

(C) Current Employees. All current employees shall successfully complete refresher information security awareness training when notified by the CISO. The announcement and instructions for completing annual training will be sent via Agency email, and employees shall complete the training within 30 days of the training announcement.

(iii) Information Security Awareness Training for Contractors.

(A) New Contractors at Agency Headquarters. In all cases when a contractor will have an Agency computer account and will provide services at Agency headquarters, the Contracting Officer (CO) or Contracting Officer's Representative (COR) shall assign the contractor to successfully complete information security awareness training, identified by the CISO, at the time the contractor receives his/her Agency computer account from Agency Technical Support Services (TSS) staff.

(B) New Remote Contractors. In all cases when a contractor will have an Agency computer account and will provide services to the Agency at locations where TSS staff do not have a presence, the CO or COR shall assign the contractor to complete information security awareness training, identified by the CISO, within one week after receiving an Agency computer account, and to communicate successful completion to the TSS help desk and the CISO.

(C) Current Contractors. When notified by the CISO, the CO or COR shall assign contractors to successfully complete refresher information security awareness training, identified by the CISO, within 30 days.

(2) Role-Based Security Training Procedures, Roles, and Responsibilities.

(i) CISO.

(A) The CISO is responsible for identifying or creating, administering, and tracking compliance with the Agency's role-based information security training program. This training is oriented toward those employees and contractors who have Significant Security Responsibilities. The CISO shall identify Agency staff with Significant Security Responsibilities and identify or create appropriate training materials. The CISO shall update the training materials as frequently as needed, but not less than once per year, as dictated by information security threats and incidents.

(B) The CISO will track compliance with role-based information security training requirements. If employees or contractors fail to complete the training within the time specified, their computer accounts may be disabled. In addition, action may be taken as described in the Enforcement section of this policy.

(ii) Role-Based Security Training for Employees. All employees with significant security responsibilities shall successfully complete role-based computer security training at least annually and whenever notified by the CISO. The announcement and instructions for completing annual training will be sent via Agency email and employees shall complete the training within 30 days of the training announcement. Subject to written approval of the CISO, employees may substitute alternate training that is appropriate for their area of responsibility.

(iii) Role-Based Security Training for Contractors. In all instances when a contractor will provide services to the Agency and will have Significant Security Responsibilities, the CO or COR shall assign the contractor to successfully complete role-based training, identified by the CISO, within 30 days.

(3) Additional Security Training Procedures, Roles, and Responsibilities

(i) CISO. The CISO is responsible for identifying, creating, administering, and tracking additional training opportunities designed to address timely information security issues or to address deficiencies in employee or contractor information security knowledge.

(ii) Additional Information Security Training for Employees. Employees shall successfully complete any additional training identified by the CISO aimed at correcting deficiencies in employee information security knowledge.

(4) Reporting. The CISO shall report statistics on the overall participation rate to Agency management and the Office of Inspector General annually.

(5) Enforcement.

(i) This policy constitutes specific instructions and directives to managers, supervisors, and employees. Failure to follow instructions may result in discipline, up to and including removal from Federal service. Additionally, a failure to satisfactorily perform

required duties may be reflected in performance evaluations and may result in additional measures to address the performance deficiency.

(ii) COs and CORs are responsible for taking appropriate action if a contractor fails to complete assigned tasks, such as required security training, or fails to meet contractual responsibilities regarding information security. The CISO shall track contractor compliance with training requirements and notify the appropriate CO or COR of any instances of non-compliance.

**(e) DEFINITIONS:**

(1) Contractor, for the purposes of this policy, means an individual or organization that:

(i) Has entered into a contract with the Agency (as contract is defined in [Federal Acquisition Regulation 2.1](#) which includes formal contracts, task orders, delivery orders, and other contractual vehicles); and

(ii) Is assigned an account to access the Agency's network or other Agency information systems.

Please note that this definition does not include remote, freelance journalists (commonly referred to as stringers) who send information to Agency employees only by file transfer protocol, but do not access Agency information systems.

(2) Significant Security Responsibilities means planning, architecting, implementing, testing, maintaining, or administering Agency computer systems or networks.
