FSA FOIA/PA FY 80-001-2007-000028

JUN 24 2008

This responds to your Freedom of Information Act (FOIA) request (copy attached) dated May 26, 2007, control number 80-001-2007-000028.

In response to your request, we located 22 pages. With respect to these pages, we are releasing 5 pages in full and 17 pages in part. Please note that the occasional instance in which there is no data listed in the requester or remarks columns does not signify a redaction. The document itself lacked data in these instances.

Exemption 6 (5 U.S.C. § 552 (b)(6)) of the FOIA protects personal information affecting an individual's privacy. Pursuant to exemption 6, 17 pages have been withheld in part.

Specifically, exemption 6 protects personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. The courts have held that the phrase "similar files" involves all information that applies to a particular person. When disclosure of information about particular individuals is requested, the courts have decided that it is necessary for us to determine whether release of the information would constitute a clearly "unwarranted" invasion of the individuals' privacy. To make this determination, we are required to perform a "balancing test." This means that we must weigh the individual's right to privacy against the public's right to disclosure. In this instance, we have determined that the disclosure of this information would shed little or no light on the performance of the agency's statutory duties and that, on balance; the public interest to be served by its disclosure does not outweigh the privacy interest of the individuals in question, in withholding it. The records withheld under this exemption include personal information such as the names of individuals filing Privacy Act requests and the names of individuals with farm loans.

If you believe our decision to withhold this information is incorrect, you may appeal it within forty-five (45) days of the date of this letter. In so doing, please provide us with a brief explanation of why you believe this decision is in error. Please include a copy of your initial request letter in your appeal package, and clearly mark both your letter and its envelope with the words "Freedom of Information Act Appeal." Mail your appeal package to the following address:

The cost of processing your request is \$16.89, calculated as follows:

¼ Hour of Professional Search Time @ \$ 12.49 per ¼ hour

22 Pages of Photocopying @ \$.20 per page

However, because the cost of processing your request is equal to or less than \$25.00, your fee has been waived because the cost of collecting this amount would be greater than the amount collected, pursuant to USDA regulations at Title 7, CFR, Appendix A, to Subpart A, §6(a)(4).

If you have any questions about any of the issues discussed in this letter, you may contact Barbara McLean at 202-720-6788; by email at Barbara.McLean@usda.gov; or by mail at 1400 Independence Avenue, SW, Room 3621-S, STOP 0506, Washington, DC 20250.

Sincerely,

A handwritten signature in black ink, appearing to read "Kent Politsch". The signature is fluid and cursive, with the first name "Kent" being more prominent than the last name "Politsch".

Verbatim:

"As E.L. Massey is in divorce proceedings and not being cooperative about divulging her 1/3 interest in the farm that she claims she has for community property interest, this info is needed to accurately access the assets as she is stating that she has reinvested her income from the farm back into the farm to keep it operating.....Although Mississippi is not a community property state Texas is. Half of the money she reinvested belongs to her husband. Judging from the large gov't subsidies the farm has received since 2000 - present [sic] we need this information on subsidies paid to prove the solvency of the farm and [sic] fear she may be hiding assets in the divorce. We would also like the subsidy applications so we have an accurate gauge of acres in production...amounts received...payee....or any other pertinent info you can supply."

To restate it: The average government payment (LDP, CCP, CRP, Base Acres Subsidy - all can be aggregated) for individual crops like corn, soybeans, cotton, wheat, etc. - for the latest years - for all U.S. counties. FY2007-0151 7/17/2007 Pursley, Sara

Note: This data was required information for enrollment in the program.

Requester is "with Central Bag Company our subsidiary Valley Bag and Supply sold USDA government bags to Superior Grain in Crosby, ND in December 2005. The contract number was VEP202944 split between SMRI and LMRJ. The customer has claimed that the two markings were delivered intertwined in the bales. We shipped the bags all to Missouri River Ag in Williston, ND. Based on our documentation from the manufacturing plant we are unable to see how this could have occurred on our side so we must look at the customer's side for answers."

Requester would like to find out the following:

"The inspector was on site according to Superior Grain the 3rd week of January 2006 for a probe and found that there was multiple bags mixed in the filled production. Was the inspection done at Missouri River Ag or was it a different location? I would like to know what the inspector observed. Did it appear that they had two pallets they were packing from that could have caused the mix up in the packed bags? Did the inspector look through un-packed bags as well? Were there any notes on the appearance of the pallets and bundles that were not yet packed? Did they appear that they had been repackaged?"
