RRB E-FOIA: Online FOIA Request Form
Re: FOIA Appeal of C. 2017-1171
C. 2017-1669

In further response to our March 24, 2017 letter regarding your FOIA appeal, I have enclosed, on CD, a copy of the following sections of the Retirement Claims Manual (RCM) and the Disability Claims Manual (DCM):

RCM 3    RCM 9    DCM 12

The Railroad Retirement Board (RRB) is restricted with respect to the disclosure of information and records that pertain to an individual or identify the individual to whom they pertain by section 12(d) of the Railroad Unemployment Insurance Act (45 U.S.C. § 362(d)), which is incorporated into the Railroad Retirement Act by section 7(b)(3) of that Act (45 U.S.C. § 231f(b)(3)). Because section 12 of the RUIA and the Privacy Act (5 U.S.C. § 552a) prevent the disclosure of any documents or information concerning an individual without that individual's express written authorization, all personally identifiable information has been removed from the enclosed copy of RCM sections 3 and 9, and DCM section 12.

Please note that other than the removed personally identifiable information, the manual sections contained on the enclosed CD-ROM are the entirety of RCM section 3, RCM section 9, and DCM section 12 currently in use by the agency.
Portions which are no longer in use or never existed, and which therefore do not appear in the current manual in use by the RRB (for example, RCM subsections 3.1.2; 3.1.121 exhibits 8, 9, 12, 13 and 15; RCM 3.9.10; 3.9.20; 3.9.30; 3.9.91; 3.9.92; 3.11; 9.1 Appendix A; 9.3 Appendix A; 9.7.40; 9.7.50; 9.7.60; 9.10.90; 9.10.112; 9.10.114; 9.10.118; and 9.10.123; etc.), have not been included on the CD.

Because the entirety of current manual sections RCM 3, RCM 9, and DCM 12 in use by the RRB are enclosed, less any personally identifiable information, we believe this represents the fulfillment of your FOIA appeal.

Sincerely,

FOR THE BOARD
Martha P. Rico
Secretary to the Board
3.1.1 Background

By the mid 1960's, it had become apparent to the Federal government that the medical needs of individuals over 65 were being met either inadequately or with great financial difficulty. This was attributable to the fact that income at this age is often reduced substantially, while at the same time medical expenses are likely to increase. Though insurance coverage through individual policies could partially meet the needs of our senior citizens, Congressional opinion was that some form of Government aid on a national level was necessary.

Therefore, by an act of Congress, in July 1966, legislation establishing a national health insurance program, the Medicare program, (Title XVIII of the Social Security (SS) Act) was enacted (the 1965 amendments to the SS Act), with most of its benefits taking effect as of July 1, 1966. The Medicare program has two parts. They are the hospital insurance (Part A) part and the medical insurance (Part B) part. Both parts of the program have been modified and liberalized several times since its enactment.

In May 1966, the Social Security Administration (SSA) delegated authority to the Railroad Retirement Board (RRB) for administering certain provisions of the Medicare program for qualified railroad retirement beneficiaries (QRRB's). These included enrolling, premium collection and selecting a carrier to process Medicare Part B claims.

In July 1966, RRB had a Medicare population of approximately 560,000 beneficiaries who were age 65 or older. From 1966 to 1972, QRRB's who were also eligible for SS benefits could have had their Medicare jurisdiction with either agency. Usually, the agency that processed the beneficiary's application first assumed Medicare jurisdiction.

This changed with the enactment of Public Law (PL) 92-603 in October 1972. The 1972 amendments to the SS Act brought about several changes. It provided that RRB would have jurisdiction of all QRRB's who were receiving both railroad retirement (RR) and SS Act benefits. This increased RRB's Medicare population by approximately 330,000. These amendments also gave RRB legislative authority to contract with a carrier(s) to process Part B claims, collect Part B premiums and allowed for reimbursement of administrative costs. In addition, PL 92-603 also expanded Medicare coverage, effective July 1, 1973, to certain disabled people and people of any age with chronic kidney disease. This legislation also provided equitable relief for individuals whose entitlement or reentitlement rights were prejudices by error, misrepresentation or inaction of an employee or agent of the government.

Effective January 1, 1983, the "working aged provision" made employer group health plans (EGHP) the primary payer of benefits and Medicare secondary payer for individuals age 65 or over who were covered under an EGHP that covers 20 or more employees by reason of their own or their spouses current employment. The "working age provision" was modified and liberalized several times since its enactment.
The Deficit Reduction Act of 1984 (PL 98-369) included a provision to provide special enrollment periods and premium surcharge relief to individuals covered by the "working aged provision." The "working aged provision" were further amended to make Medicare the secondary payer for disabled individuals who were covered as an active individual under a large employer group health plan (LGHP) or a plan that covers 100 or more employees and also provided special enrollment periods and premium surcharge relief to the disabled individuals who were covered as an active individual under a LGHP.

Currently, the special enrollment periods and premium surcharge relief provisions are the same for the aged and the disabled primary beneficiary and his/her spouse. However, any other disabled family member, e.g., a disabled child, must be covered on the basis of an LGHP to qualify for the special enrollment periods and premium surcharge relief.

The Medicare Catastrophic Coverage Act of 1988 mandated major changes in the coverage and payment of benefits. Effective January 1, 1989, the Act provided for increased coverage under Part A and mandated the collection of additional premiums to cover these expanded benefits.

The Medicare Catastrophic Coverage Repeal Act of 1989 eliminated major provisions of the Medicare Catastrophic Coverage Act and restored Medicare benefits to the levels available prior to January 1, 1989.

The Balanced Budget Act of 1997 (P.L. 105-33) established the Medicare Advantage (MA) Programs. The Medicare Advantage plan is also referred to as Medicare Part C. Medicare Advantage plans first became available as an option for receiving Medicare benefits on February 1, 1985 (Public Law 97-248). The plans were originally referred to as Health Maintenance Organizations or HMOs, then as Medicare + Choice plans, and beginning in 2004 as Medicare Advantage plans.

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 added a prescription drug benefit to Medicare effective January 2006. The prescription drug benefit is referred to as Part D.

### 3.1.3 General Assignment Of Responsibility

The overall responsibility for the administration of the Medicare program rests with the Secretary of the U.S. Department of Health and Human Services (HHS). The Secretary has delegated certain administration functions to various components of the Department. In addition, as provided by the SS Act, a major role in the administration of the Medicare program has been given to public and private organizations.

Medicare was initially the responsibility of SSA and RRB coordinated their efforts with their Bureau of Health Insurance. However, as the program expanded, a decision was made to delegate responsibility for both Medicare and Medicaid to one agency.
In March 1977, the Centers for Medicare & Medicaid Services (CMS) was established. In 1977 and 1978, SSA delegated the authority to administer Title XVIII of the SS Act - "Health Insurance for the Aged and Disabled" to CMS. RRB now coordinates their efforts with CMS's Bureau of Programs Operations.

CMS's Regional Offices are responsible for a wide range of administrative activities. They include administrative coordination and operation appraisals as well as program interpretation and evaluation.

SSA has the responsibility for general management and operational aspects of the Medicare program. SSA determines if an IRMAA is applied to a beneficiary’s Part B or Part D premium rate.

### 3.1.4 Role Of CMS

Some of the functions of CMS are:

- maintains entitlement and utilization records; the RRB sends the HMRUNT file to the CMS, the CMS sends back the HDRRBEX file;
- collects premiums via direct bill from non-QRRB's;
- establishes, maintains and administers agreements and systems to meet the needs of State agencies, providers of services, intermediaries, carriers, RRB and other administrative agents involved in the program;
- formulates major policies involving technical issues; and
- oversees general financial management of the program;
- Sends the RRB the monthly Part C/D Request file for QRRB’s;
- Sends the RRB the monthly Part B reduction file For QRRB’s.

### 3.1.5 Role Of RRB

Persons covered by the RR system participate in Medicare on the same basis as those under the SS system. The RRB's authority to administer the Medicare program for RR beneficiaries is contained in the Railroad Retirement Act of 1974, Title XVIII of the Social Security Act and certain agreements entered into between the CMS and the RRB.

The RRB certifies and enrolls QRRB’s and deemed QRRB’s for Medicare Part A and Part B and determines the beginning and ending dates of such coverage. The RRB also:
• collects Part B and IRMAA B premiums by deductions from monthly payments or by
direct billing on a quarterly or yearly basis;

• issues Medicare health insurance identification cards;

• selects and enters into contracts with a Part B carrier to process Part B claims for
payment to QRRB's and deemed QRRB's and monitors the carrier's action (an RRB
employee is on-site at Palmetto GBA);

• establishes and maintains Medicare Part A and Part B entitlement records;

• maintains identification and entitlement information;

• collects only via deductions for Part C and Part D premiums as determined by CMS;

• collects IRMAA D premiums by direct billing through PAR. The RRB will deduct Part
D IRMAA premiums beginning with the January 2015 check for beneficiaries whose
annuity rate is large enough. If the annuity rate is not large enough the RRB will bill
monthly for Part D IRMAA premiums.

• assists beneficiaries and providers in receiving Medicare-related services;

• assists intermediaries and carriers in resolving claims payment related problems as
they pertain to QRRB's and deemed QRRB's; and

• investigates complaints of fraud and abused involving QRRB's and deemed
QRRB's.

3.1.6 Role Of RRB's Medicare Section (MS)

The Medicare Section (MS) within the Unemployment and Program Support Division
(UPSD), is the focal point for the RRB's Medicare activities. Its’ major functions are
enrollment in and maintenance of Part A and B, and premium collection of B, C and D
premiums. Maintenance includes working referrals, disenrollments, responding to
inquiries, premium adjustments, and payment of Part A Canadian claims.

3.1.7 Role Of RRB's Field Offices

Field offices are responsible for furnishing information and assistance relative to the
Medicare program to QRRBs before, during and after the enrollment process. In
addition, field offices furnish information and assistance to any intermediary, carrier,
provider or supplier relative to coverage or claims of RR beneficiaries. When field
offices do not have requested information immediately available, they should contact
the MS by e-mail, or by telephone if expedited action is required for assistance.
3.1.8 Financing The Part A Program

A. **Taxes and Appropriations** - The Part A program is financed by special contributions from employees and self-employed persons, with employers paying an equal amount. These contributions are collected with regular RR or SS contributions from the wages and self-employment income earned during a person's working years. Funds from general tax revenues are used to finance Part A benefits for people who are covered under the program but are not entitled to monthly SS or RR benefits. And, for individuals enrolled in premium Part A, the cost of Part A benefits is paid by the monthly premium paid.

**NOTE:** An employee or self-employed person who pays both social security and railroad retirement taxes may, as a result, pay excess taxes. Effective in 1968, excess HIB taxes may be claimed as a credit on federal income tax return. RR employers are required to notify employees who are also employed outside the RR industry that they may be entitled to a refund of excess taxes. The employee can ask the employer to furnish a breakdown of the amount of regular and Part A taxes deducted from RR compensation.

B. **Federal Hospital Insurance Trust Fund** - The taxes collected, the amounts appropriated from general revenues and the premiums paid are put into the Federal Hospital Insurance Trust Fund. Payments are made from this fund for all services covered by Part A except services for RRB Canadian Part A claims, which are paid from the Railroad Retirement Trust Fund.

3.1.9 Financing The Part B Program

A. **Premiums** - The Part B program is financed by a monthly premium paid by the Part B enrollee and subsidized by the Federal government from general revenues. During 1989, the monthly Part B premium consisted of two components; the basic monthly rate and the catastrophic coverage monthly premium. Effective January 1, 1990, the catastrophic coverage monthly premium component was dropped and the monthly premium was restored to a single amount.

B. **Medical Insurance Trust Fund** - The premiums deducted by the RRB from enrollees monthly payments are periodically transferred by the Secretary of Treasury from the SSEB to the appropriate portion of the Supplementary Medical Insurance Trust Fund. This fund is divided into the aged portion and the disability portion. Premiums collected by the RRB from enrollees who pay by direct remittance are deposited directly into the aged portion of the fund and, if appropriate, they are later transferred to the disability portion of the fund.
3.1.10 What is Medicare

The Medicare program is a Federal health insurance program for people 65 or older and certain disabled people. It is run by the CMS of the U.S. Department of Health and Human Services. RRB field offices across the country take applications for Medicare and provide general information about the program. Headquarters activities include establishing and maintaining the person's Medicare records.

3.1.11 The Four Parts Of Medicare

There are four basic parts to the Medicare program:

A. Part A - Medicare hospital insurance (Part A) helps pay for inpatient hospital care, inpatient care in a skilled nursing facility, home health care and hospice care. Part A has deductibles and coinsurance, but most people do not have to pay premiums for Part A. Part A may also be referred to as hospital insurance benefits, HIB or HI.

B. Part B - Medicare medical insurance (Part B) helps pay for doctors' services, outpatient hospital services, durable medical equipment and a number of other medical services and supplies that are not covered by Part A of Medicare. Part B of Medicare has premiums, deductibles and coinsurance amounts that the enrollee must pay. Participation is voluntary, that is, qualified persons must be enrolled in the plan and have the right to refuse or terminate their coverage. Part B may also be referred to as supplementary medical insurance benefits, SMIB or SMI.

C. Part C – Medicare Advantage Plans (Part C), also known as MA plans, are health plan options like Health Maintenance Organizations (HMOs) and Preferred Provider Organizations (PPOs). These plans are offered by private companies approved by Medicare. If an individual joins a Medicare Advantage Plan, they will still have Medicare. The person will receive Part A and Part B coverage from the Medicare Advantage Plan, not Original Medicare. All Medicare Advantage plans cover emergency and urgent care, but do not cover hospice care and some care in qualifying clinical research studies. Medicare Advantage plans may offer extra coverage, like vision, hearing, dental, and/or other health and wellness programs. Most include Medicare prescription drug coverage (Part D). In addition to the Part B premium, there is a monthly premium for the Medicare Advantage plan. An enrollee must have both Part A and Part B in order to enroll in a Medicare Advantage Plan.

New MOLI screens were created to provide information about a beneficiary’s Medicare Part C coverage and payment history if the beneficiary requested the deduction of the Part C premium from their RRB benefit. Refer to FOM-I-1540.15.8.
D. **Part D – Medicare prescription drug coverage (Part D)** is offered to everyone with Medicare. If a beneficiary decided not to enroll in a prescription drug plan when he is first eligible, he may have to pay a late enrollment penalty if he joins a plan later. The enrollee must live in the service area of the Medicare drug plan that he wants to join. It is not required for the beneficiary to be enrolled in Medicare Part B in order to enroll in a prescription drug plan. The person is required to be enrolled in Medicare Part A.

New MOLI screens were created to provide information about a beneficiary’s Medicare Part D coverage and payment history if the beneficiary requested the deduction of the Part D premium from their RRB benefit. Refer to FOM-I-1540.15.10.

**NOTE:** If the person is enrolled in a Medicare Advantage Plan (Part C) that includes prescription drug coverage and joins a Medicare Prescription Drug Plan (Part D), he will be disenrolled from the Medicare Advantage Plan (Part C) and returned to Original Medicare (Medicare Part A and Medicare Part B).

Medicare premium, deductible and coinsurance amounts are set each year according to formulas established by law. New payment amounts begin each January 1. Exhibit 7 reflects the Part A deductible and coinsurance amounts. Exhibits 3 through 6 reflect the premium amounts.

### 3.1.12 Who Can Get Medicare Part A

Generally, people age 65 and over can get premium-free Medicare Part A benefits, based on their own or their spouse’s employment. Premium-free means there are no monthly premiums. Most people do not pay premiums for Part A. A person can get premium-free Part A if they are 65 or over and any of the three statements are true:

- they receive benefits under the SS or RR system;
- they could receive benefits under the SS or RR system; or
- they or their spouse has Medicare-covered government employment.

If a person is under 65, they can get premium-free Part A benefits if they have been rated disabled under the SS Act and has received or be deemed entitled to receive payments from the RRB or SSA for the prescribed period of time.

Certain government employees and certain members of their families can also get Medicare when they are disabled for more than 29 months. Others may be able to get premium-free Part A benefits if they receive continuing dialysis for permanent kidney failure or if they have had a kidney transplant. Both of these categories of beneficiaries have to file with the SSA to obtain Medicare coverage.
If either the person or their spouse has 10 years of RR service or less than 10 years but has at least 5 years of service after 1995, they will be able to get premium-free Part A benefits. The Railroad Retirement and Survivors Improvement Act of 2001 (RRSIA) lowered the number of years of RR service required for RR benefits and RR Medicare. The earliest entitlement date based on RRSIA is January 1, 2002, see 3.2.20.

3.1.13 Who Can Get Medicare Part B

Any person who can get premium-free Part A benefits based on work can enroll for Part B, pay the monthly Part B premium and get Part B benefits.

3.1.13.1 Who Can Get Medicare Part C

In order to enroll in a Medicare Advantage Plan, a person must meet the following requirements:

- Must be enrolled in Medicare Part A and Medicare Part B
- Live in the service area of the plan
- Must not have end-stage renal disease (except when special circumstances exist)

3.1.13.2 Who Can Get Medicare Part D

In order to enroll in Medicare Part D, a person must be entitled to or enrolled in Medicare Part A only or Medicare Part A & Part B. It is not required to be enrolled in both. A beneficiary must obtain prescription drug coverage in one of the following ways:

- Choose or remain in Original Medicare and enroll in Part D through a participating and approved prescription drug provider (PDP), or
- Join a Medicare Advantage plan that offers prescription drug coverage (MA-PD), or
- Be enrolled by CMS (i.e., CMS will facilitate the enrollment of deemed eligible and subsidy eligible beneficiaries who do not enroll in Part D on their own). These beneficiaries will still be able to change the plan selected for them or to opt out of Part D when they receive notice of the plan selection from CMS.
3.1.14 Buying Medicare Part A And Part B

If a person does not have enough work credits to be able to get Part A benefits and they are 65 or over, they may be able to buy Part A and B or just Part B, by paying monthly premiums. These beneficiaries should file at SSA to obtain Medicare coverage.

Others may be able to buy Part A and B if they are disabled and lost their premium-free Part A solely because they are working.

3.1.15 Enrollment In Medicare

If a person is already getting a SS or RR benefit payment when they turn 65, they will automatically get a Medicare card (RL-865) in the mail. The card will show that they can get both Part A and Part B benefits. If they do not want Part B, they must follow the instructions that come with the card and return it to RRB.

The above process also applies when a person has been rated disabled under the SS Act and has received or be deemed to receive disability payments from the RRB or SSA for the prescribed period of time. A Medicare card will automatically be sent to the person.

Some people do not automatically get a Medicare card. They must file an application to get Medicare benefits. If a person has not applied for SS or RR benefits, or if government employment is involved, or if they have kidney disease, they must file an application for Medicare.

If a person must file an application for Medicare, they should do so during their initial enrollment period (IEP), to avoid late enrollment penalties under Part B, unless they qualify for a special enrollment period (SEP). A person's IEP is a seven-month period that starts three months before the month the person first meets the requirements for Medicare and ends at the end of the third month after they meet the requirements for Medicare. If they do not sign up for Medicare during the first three months of their IEP there will be a delay in starting their Part B coverage. Their coverage will be delayed from one to three months after enrollment, if they file in the remaining 4 months of their IEP.

If they do not enroll for Part B at any time during their IEP, they will not get another chance to enroll until the next general enrollment period (GEP). A GEP is held each year from January 1 through March 31. They may also be charged a premium penalty for late enrollment, unless they qualify for a SEP.

The enrollment period requirements and penalties for late enrollment described above for Part B also applies to people who buy Part A.
3.1.16 Medicare Card

The Medicare health insurance card is the person's proof of Medicare coverage. It shows the Medicare coverage a person has, Part A and Part B, Part A only, etc., and the date the coverage started. The Medicare health insurance card also shows the person's Medicare health insurance claim number, name and sex. Headquarters initially issues Medicare cards when a beneficiary becomes entitled to Medicare. Any field office or headquarters personnel can issue a duplicate Medicare card.

3.1.17 Intermediaries And Medicare Administrative Contractors

The Federal government contracts with private insurance organizations call intermediaries and Medicare Administrative Contractors to process claims and make Medicare payments.

A. Intermediaries - Intermediaries process claims submitted on a person's behalf by hospitals. They also handle inpatient and outpatient claims submitted by skilled nursing facilities, home health agencies, hospices and other providers of services.

Generally, a person does not need to get in touch with the intermediaries because the intermediaries pay most hospital, skilled nursing facilities, home health agencies, hospices and other providers of services directly. But, if a person has a question about a Part A bill, they should ask someone who works at the facility where the services were rendered for help. If they cannot answer the person's questions, they should then ask someone in the billing office at the facility where the services were rendered to help them get in touch with the Medicare intermediary that processes their Medicare Part A claims.

B. Medicare Administrative Contractor (MAC) - MACs process claims for services by doctors and other suppliers covered under Part B. The RRB is authorized by law to contract with a MAC to serve its beneficiaries enrolled in Part B. Accordingly, Palmetto GBA was selected to act as the sole Part B MAC for all QRRBs and deemed QRRBs. Part B claims are filed at the Railroad Medicare Claim Service Centers of Palmetto GBA. Palmetto GBA determines the amount payable and pays the claims on behalf of the RRB in accordance with their agreement with the RRB. If a person has any questions about a Part B claim, they should call or write Palmetto GBA.

Adequate provisions are made in the contract with Palmetto GBA for prompt, fair and equitable action on all claims. Palmetto GBA's performance under the contract is subject to supervision by the RRB. The RRB is responsible for evaluating the MAC's performance and providing them with funds for administrative costs and benefits. The administrative costs paid to Palmetto GBA are charged to the Supplementary Medical Insurance Trust Fund. The Railroad Retirement Trust Fund is not used for this purpose.
In addition, Palmetto GBA also:

- determines benefit amounts and make benefit payments to beneficiaries and/or physicians, suppliers and others who furnish covered Part B services and supplies;
- maintains records of payments made to physicians, suppliers and beneficiaries;
- assists and supports the RRB's Office of Inspector General (OIG) in areas concerning fraud and abuse; and
- provide the RRB/CMS with various fiscal and claims-related reports required to administer the program.

For more information on Palmetto GBA, see RCM 3.1.107.

3.1.18 State Health Agencies

State health departments obtain the information used to determine whether facilities meet the conditions for participation in the Medicare program. As part of this process, they advise the facilities of any necessary corrective actions. They also provide consultative services to assist facilities in meeting and maintaining the Medicare program requirements.

3.1.19 Peer Review Organizations (PRO's)

PRO's are groups of practicing doctors and other health care professionals who are paid by the Federal government to review the care given to Medicare patients. Each State has a PRO that decides, for Medicare payment purposes, whether care is reasonable, necessary and provided in the most appropriate setting. PRO's also decide whether care meets the standards of quality generally accepted by the medical profession. PRO's have the authority to deny payments if care is not medically necessary or not delivered in the most appropriate setting.

PRO's investigate individual patient complaints about the quality of care. PRO's also respond to requests for review of notices of non-coverage issued by hospitals to beneficiaries; and PRO's respond to beneficiary, physician and hospital requests for reconsideration of PRO decisions.

When a person is admitted to a Medicare participating hospital, they will receive “An Important Message From Medicare” which explains their rights as a hospital patient and provides the name, address and phone number of the PRO for their State. See Exhibit 11 for a sample of An Important Message From Medicare.

If a person feels that they were improperly refused admission to a hospital or that they were forced to leave the hospital too soon, they should ask for a written explanation of
the decision. Such a written notice must fully explain how the person can appeal the decision and it must give the name, address and phone number of the PRO where the person's appeal or request for review can be submitted.

PRO's are responsible for reviewing beneficiary complaints about the quality of care provided by inpatient hospital, hospital outpatient departments and hospital emergency rooms; skilled nursing facilities; home health agencies; ambulatory surgical center; and certain health maintenance organizations.

If a person believes that they received poor quality care provided by one of these facilities, they may complain to the PRO. The PRO will investigate written complaints. The complaint must be in writing. The PRO will help the person put their complaint in writing by taking the information from the person over the telephone and writing the complaint. If someone other than the PRO makes a complaint for a Medicare patient, the Medicare patient must give written permission for that person to represent them in the complaint.

### 3.1.20 A Medicare Beneficiary's Right To Decide About Their Medical Care

Under the Medicare law, when a person is admitted to a Medicare hospital or skilled nursing facility, gets Medicare home health care or enrolls in a Medicare-certified hospice or health maintenance organization, the person must be given information about their rights to make decisions about their medical care.

Generally, the person will be told about their rights to accept or refuse medical or surgical treatment. They will also be told about their right to make, if they choose, an "advance directive." An "advance directive" contains written instructions that states the person's choices for health care or names someone to make those choices for them. The instructions are to be used if the person is too sick or otherwise unable to talk. The paper giving the person's health care choices may be called a "living will" or "a durable power of attorney for health care."

A person does not have to have any "advance directive." But, if the person has one they can say "yes" in advance to treatment they want if they get too sick to talk to their health care provider. The person can also say "no" in advance to treatment they do not want.

Laws governing "advance directives" vary from State to State. The person's treatment choices will depend on what is legal in their State. The person can contact the health care professionals in their State about the State's rules for "living rules" or durable powers of attorney. They can also contact someone in their local State's attorney's office for this information.
3.1.21 Maintenance Of Program Integrity

A. Fraud and Abuse - If a person has reason to believe that a doctor, hospital or other provider of health care services is performing unnecessary or inappropriate services, or is billing Medicare for services that they did not receive, they should call RRB's Inspector General's toll-free Hotline. The toll-free number is 1-800-772-4258; in Illinois, they should call 1-312-751-4336. They may also send complaints in writing to RRB-OIG, Hotline Officer, 844 North Rush Street, Chicago, Illinois 60611-2092. They should not call the Hotline with questions about Medicare policy or delayed claims or payments.

Problems encountered with HMO's should also be reported to the RRB's Inspector General's toll-free hotline.

B. MAC Performance Evaluation - A program to evaluate the MAC's performance has been established by CMS. SSA is responsible for the evaluation of the area's MACs’ performance and RRB is responsible for the evaluation of the Part B MAC’s performance.

The RRB's contractor operations specialist at Palmetto GBA is Ms Sylvia Looper. Her mailing address is:

Ms. Sylvia Looper
Palmetto GBA
Augusta Corporate Center
Building 200
2743 Parameter Parkway Augusta, Georgia 30909

If you need to contact Ms. Looper by phone, her telephone number is 706/855-3099.

3.1.22 Assistance For Low-Income Beneficiaries

By Federal law, State Medicaid programs must pay Medicare costs for certain elderly and disabled people who have low incomes and very limited resources. Each State still maintains their own eligibility requirements for a person to receive Public Assistance.

A person may qualify for this assistance even if they did not work long enough to be able to get premium-free Part A. If they did work long enough to be able to get premium-free Part A, and they qualify in all other ways, the State will pay the Part A premium.

A. To Qualify

• a person must be able to get Part A;
• the person's annual income level must be near the national poverty guidelines (poverty guidelines for 2014 are set at $11,490 for one person and $15,510 for a family of two); and

• the person cannot have resources such as bank accounts or stocks and bonds worth more than the established amounts (in 2014, they range from $1,000 to $4,000 for an individual and up to $6,000 for a couple).

B. Where the Person Should Apply - If a person thinks they may qualify for assistance and they already have Medicare Part A, they should file an application at their State or local welfare, social service or public health agency that serves people on Medicaid. All of these agencies are State, not Federal agencies.

If a person thinks they may qualify for assistance but they do not have Part A, they should first file an application for Part A.

C. What a Person Should Ask For - When the person contacts their State or local Medicaid office, they should ask about the Qualified Medicare Beneficiary (QMB) program or the Medicare Buy-In program. They should explain that they think they qualify for help in paying their Medicare costs and they want to know when and where they can file an application.

3.1.23 Medicare Beneficiary's Rights Under Data Matching

In 1988, Congress passed a law that allows computer matching of the information that a person gives to the government. They should be aware that when the government collects or uses information about them, it must act under specific guidelines to protect the person's privacy. The government must:

• tell the person, at the time the information is collected, why the information is needed and how it will be used;

• make sure personal information is used only for the reasons given, or seek the person's permission when another purpose for its use is considered necessary or desirable;

• allow the person to see the records kept on them; and

• provide the person with the opportunity to correct inaccuracies in the records kept about them.

### 3.1.40 Buying Health Insurance To Supplement Medicare (MEDIGAP)

Medicare provides basic protection against the high cost of health care, but it will not pay all of the person's medical expenses, nor most long-term care expenses. For this reason, many private insurance companies sell insurance to supplement Medicare (Medigap insurance) as well as separate long-term care insurance. The Federal government does not sell or service such insurance.

**A. Shopping for Medigap Insurance** - If a person is thinking about buying a new private insurance policy or replacing an old policy to supplement their Medicare protection or cover long-term care costs, they should shop carefully. The person can also secure a copy of the "Guide to Health Insurance for People with Medicare (507-X)," to help them make Medicare supplement decisions.

**B. New Open Enrollment Period for Medigap Policies** - A new open enrollment period for selecting Medigap policies guarantees that for six months immediately following enrollment in Medicare Part B, people age 65 or older cannot be denied Medigap insurance or be charged higher premiums because of health problems. Even if they buy a Medigap policy and switch to another within the six-month open enrollment period (they may switch as many times as they wish) they can still get the open enrollment guarantee. All Medigap policies becoming effective after November 5, 1991, are covered by this law.

No matter how the person enrolls in Part B, whether by automatic notification or through an IEP, SEP or GEP, they are covered by the new guarantees if both of the following are true:

- the person is age 65 or older and is enrolled in Medicare based on age rather than disability; and
- the date the person gets by adding six months to the effective date for their Part B coverage, printed on their Medicare card, is in the future. The date arrived at is when the person's Medigap open enrollment ends.
Even though a person is guaranteed enrollment, their Medigap policy may not provide services for a preexisting condition until a six-month waiting period has passed.

C. New Standardized Medigap Policies - During 1992, most States will adopt regulations limiting the sale of Medigap insurance to no more than 10 standard policies. One of the 10 will be a basic policy offering a "core package" of benefits. The other nine will each have a different combination of benefits, but they will all include the core package. The basic policy, offering the core package of benefits, will be available in all States.

A person can call their State insurance department to find out when the new standardized policies will be available in their State and how many of the 10 have been or are likely to be approved for sale. The telephone number of their State insurance department is listed under "State agencies" in their telephone book.

If a person already has a Medigap policy, they may want to keep it. They do not have to switch to one of the new standard policies. But, if they buy a new policy, they will probably be required to choose from one of the new standard plans.

D. Medicare SELECT - In 1992, a new kind of Medigap insurance was introduced in 15 States. It is called Medicare SELECT. The difference between Medicare SELECT and standard Medigap insurance is that Medicare beneficiaries who buy a Medicare SELECT policy will be charged a lower premium in return for agreeing to use the services of certain designated health care professionals. These health care professionals, called "preferred providers," will be selected by the insurers.

Insurers, including some HMO's, offer Medicare SELECT in the same way standard Medigap insurance is offered. The policies are required to meet certain Federal standards and are regulated by the States in which they are approved.

The States in which Medicare SELECT policies were expected to be available are Alabama, Arizona, California, Florida, Indiana, Kentucky, Michigan, Minnesota, Missouri, North Dakota, Ohio, Oregon, Texas, Washington and Wisconsin. If a person lives in one of these States, they can ask their State insurance department about the Medicare SELECT policies that have been approved for sale in the State.

E. Coordinated Care Plans Instead of Medigap - Coordinated care plans that contract with Medicare are not Medigap plans. But they can be an alternative to standard Medigap insurance. See RCM 3.1.30 for more information about coordinated care plans.

F. Rules for Selling Medigap Insurance - Both State and Federal laws govern sales of Medigap insurance. Companies or agents selling Medigap insurance must
avoid certain illegal practices. Federal criminal and civil penalties (fines) may be imposed against any insurance company or agent that knowingly:

- sells a policy that duplicates Medicare coverage, Medicaid coverage or a private health insurance coverage;
- tells a person that they are employees or agents of the Medicare program or of any government agency;
- makes a false statement that a policy meets legal standards for certification when it does not;
- sells a policy that is not one of the approved standard policies, after the new standards have been put in place in their State;
- denies a person a Medigap open enrollment period by refusing to issue a policy, placing conditions on the policy or discriminating in the price of a policy because of a person's health status, claims experience, receipt of health care or medical condition; or
- uses the U.S. mail in a State for advertising or delivering health insurance policies to supplement Medicare if the policies have not been approved for sale in that State.

G. When Illegal Sales Practices are Suspected - When a person suspects that they have been a victim of illegal sales practices, they should report these practices to their State insurance department. States are responsible for the regulation of insurance policies issued within their boundaries. Since there are also Federal laws governing Medigap sales practices, it should also be reported to the appropriate Federal officials.

The State insurance department should be listed in the telephone book. To talk to Federal officials about suspected illegal sales practices, a person may call 1-800-638-6833.

A person may inquire about the necessity of securing additional insurance to supplement Medicare coverage. Detailed discussions of merits, recommendations, or endorsements of different overages or plans should not be made. Headquarters and field offices should not stock, display or distribute any material about private supplementary health insurance plans.

If a person seeks advice concerning a specific insurance plan, refer him to the insurance company for information or assistance. The responsibility for completion of claims for complementary insurance rests with the individual; if he requests your assistance, encourage him to seek other sources of help, if possible. There must be no indication on the complementary insurance claim or accompanying data that an RRB employee assisted the claimant, if the person is
so assisted per their request. Any person making a complaint concerning a specific insurance plan should be referred to that company for explanation; if he has contacted the company and has not gained satisfaction, explain that his recourse is to contact the State agency responsible for regulating insurance activities.

### 3.1.41 When Other Insurance Pays Before Medicare

If any of the following insurance situations applies to a person, they should notify their doctor, hospital and all other providers of services.

A. **Person or Person's Spouse Continues to Work** - Medicare has special rules that apply to beneficiaries who have group health plan (GHP) coverage through their employment or the employment of a spouse.

Effective January 1, 1983, group health plans of employers with 20 or more employees are primary payers and Medicare is secondary payer for workers age 65 or over, and workers' spouses age 65 or over. Group health plans must offer these people the same health insurance benefits under the same conditions offered to younger workers and spouses. The worker and the spouse of the worker have the option to reject the plan offered by the employer. If they reject the employer's health plan, Medicare will remain the primary health insurance payer. In that case, the employer plan is not permitted to offer the person coverage that supplements Medicare covered services.

An individual has the right to take legal action against a GHP which is primary to Medicare and fails to pay primary benefits. The authority for such legal action is under Section 1862 (b) of the Act.

Any problem regarding who is the primary payer will occur with the group health plan, not the employer. Inquiries should be referred to the appropriate CMS regional office. See Exhibit 17.

Under the law, the government recovers incorrect primary Medicare benefits from any EGHP which is primary payer. To recover Medicare payment, the government will take legal action against the GHP and may collect double damages.

The person also has a recourse. Any claimant, including an individual who received services, and the provider or supplier, has the right to take legal action against an EGHP that fail to pay primary benefits for services covered by both the EGHP and Medicare and to collect double damages.

It is also in the employer's best interest to have the EGHP pay primary benefits since the employer is hit with a tax penalty for contributing to a nonconforming EGHP.
EGHPs do not have any appeal rights. The EGHP would advise the Medicare intermediary they will not pay primary benefits. The Medicare intermediary would then contact CMS who would check out if it is a -GHP that should pay primary benefits. If CMS determines it is, CMS would instruct the Medicare intermediary not to pay primary benefits.

A person covered by a GHP should be encouraged to apply for Part A at age 65 since it is free and can help pay some of the expenses not paid by the -GHP.

If a person questions whether it is advantageous to apply and pay for Part B, advise of the following considerations so that the individual can decide what is best for his/her situation.

- He/she must consider how fully the -GHP covers the doctor's and other health services that Part B covers.
- He/she must also consider whether the secondary benefits that Part B would pay are worth the cost of paying the monthly premium.

The person's employer should provide him/her with an explanation of the options available under the GHP and how Medicare coverage is affected. The employer should also give the person an opportunity to make a choice.

If an employer plan denies a person coverage, offers a different type of coverage or pays benefits that are secondary to Medicare, the person should notify the Medicare Part B MAC.

B. Disabled and Under Age 65 - Medicare is the secondary payer for certain disabled people who have premium-free Medicare Part A and are covered under an employer's health plan or the employer health plan of an employed family member. This secondary payer provision applies to large group health plans (LGHP) of employers that employ 100 or more people.

Refer to A above for other information on EGHPs.

C. Other Situations Where Medicare Is the Secondary Payer.

- If a person has a work-related illness or injury it should be covered by workers' compensation or Federal black lung benefits. It is important that the Medicare claim form note that the treatment is related to a work-related illness or injury, even if the injury or illness occurred in the past.
- Medicare is a secondary payer during a period, generally 18 months, for beneficiaries who have Medicare solely on the basis of permanent kidney failure, if they have a group health plan based on current employment status themselves or through a family member.
• Medicare also serves as the secondary payer in cases where no-fault insurance or liability insurance is available as the primary payer.

Although Medicare benefits are secondary to benefits paid by liability insurers, Medicare may make a conditional payment if it receives a claim for services covered by liability insurance. In those cases, Medicare may pay the claim; then, when a liability settlement is reached, Medicare recovers its conditional payment from the settlement amount.

D. Medicare and Veterans Benefits - If a person has or can get both Medicare and veterans benefits, they may choose to get treatment under either program. But Medicare:

• cannot pay for services the person receives from Veterans Affairs (VA) hospitals or other VA facilities, except for certain emergency hospital services; and

• generally cannot pay if the VA pays for VA-authored services that you get in a non-VA hospital or from a non-VA physician.

Since July 1986, the VA has been charging coinsurance payments to some veterans who have non-service connected conditions for treatment in a VA hospital or medical facility, or for VA-authored treatment by non-VA sources. The VA charges coinsurance payments when the veteran's income exceeds a particular level. If VA charges a coinsurance payment for VA-authored care by a non-VA physician or hospital, Medicare may be able to reimburse the person, in whole or in part, for the VA coinsurance payment obligation.

Medicare cannot reimburse a person for VA coinsurance payments for services furnished by VA hospitals and facilities, unless the services are emergency inpatient or outpatient hospital services. Then, the Medicare payment is subject to Medicare deductible and coinsurance amounts.

If questions arise about whether the VA or Medicare should pay the doctor or other services covered under Medicare Part B, the Medicare Part B carrier should be contacted. If questions arise about whether the VA or Medicare should pay for hospital or other services covered under Medicare Part A, the provider of services should check with the Medicare intermediary.

E. Data Match - In 1989, Congress passed a law that will help Medicare get back an estimated $1 billion in taxpayer money. The law will enable Medicare to get accurate information about beneficiaries' health insurance.

The law authorizes CMS, the agency that administers the Medicare program, the Internal Revenue Service, SSA and RRB to share information about whether Medicare beneficiaries or their spouses are working and whether they have employment-related health insurance.
The process for sharing information from other agencies is called the Data Match. The Data Match will help Medicare find cases where another insurer should have paid first on Medicare beneficiaries' health care claims. A designated Medicare contractor will contact employers to confirm health insurance coverage information. For more information about a person rights under the data match, see RCM 3.1.23.

### 3.1.50 What Medicare Does Not Pay

Medicare does not pay for custodial care when that is the only kind of care a person needs. Care is considered custodial when it is primarily for the purpose of helping the person with daily living or meeting personal needs and could be provided safely and reasonable by people without professional skills or training. Much of the care provided in nursing homes to people with chronic, long-term illnesses or disabilities is considered custodial care. For example, custodial care includes help in walking, getting in and out of bed, bathing, dressing, eating and taking medicine. Even if the person is in a participating hospital or skilled nursing facility, Medicare does not cover the stay if all a person needs is custodial care.

### 3.1.51 Care Not Reasonable And Necessary Under Medicare Program Standards

Medicare does not pay for services that are not reasonable and necessary for the diagnosis or treatment of an illness or injury. These services include drugs or devices that have not been approved by the Food and Drug Administration (FDA); medical procedures and services performed using drugs or devices not approved by FDA; and services, including drugs or devices, not considered safe and effective because they are experimental or investigational. Some services are not covered by Medicare even when FDA has approved them.

If a doctor admits a person to a hospital or skilled nursing facility when the kind of care they need could be provided elsewhere, for example, at home or in an outpatient facility, that stay will not be considered reasonable and necessary, and Medicare will not pay for the stay. If a person stays in a hospital or skilled nursing facility longer than they need to be there, Medicare payments will end when inpatient care is no longer reasonable and necessary.

If a doctor, or the practitioner comes to treat a person, or the person visits the doctor or practitioner for treatment, more often than is medically necessary, Medicare will not pay for the "extra" visits. Medicare will not pay for more services than are reasonable and necessary for the treatment.

Medicare always bases decisions about what is reasonable and necessary on professional medical advice.
3.1.52 Services Medicare Does Not Pay For

Medicare, by law, cannot pay for certain services. These include services performed by immediate relatives or members of a person's household, and services paid for by another government program. If a person has questions about whether Medicare pays for a particular service, they should contact the Medicare Part B MAC.

3.1.53 Limitation Of Liability

Under the Medicare law, a person will not be held responsible for payment of the cost of certain health care services for which they were denied Medicare payment if they did not know or could not reasonable be expected to know, that is, the person had not received a written notice, that the services were not covered by Medicare. This provision is called limitation of liability and is often referred to as a "waiver of liability". This protection from financial liability applies only when the care was denied because it was one of the following:

- custodial care;

- not "reasonable and necessary" under the Medicare program standards for diagnosis or treatment; or

- for home health services, the patient was not homebound or not receiving skilled nursing care on an intermittent basis.

This limitation of liability provision does not apply to Medicare Part B services provided by a non-participating supplier who did not accept assignment of the claim.

This limitation of liability provision does not apply under most circumstances to Part B services furnished by a non-participating physician who did not accept assignment of the claim. However, in certain situations the Medicare law will protect a person from paying for services provided by a non-participating physician on a non-assigned basis that are denied as "not reasonable and necessary". If the physician knows or should know that Medicare will not pay for a particular service as "not reasonable or necessary", the physician must give the patient a written notice, before performing the service, or the reasons why the physician believes Medicare will not pay. The physician must get a written agreement to pay for the services from the patient. If the patient did not receive this notice, the patient is not required to pay for the services. If the patient did pay, they may be entitled to a refund.

3.1.60 Scope of Part A Benefits

Medicare Part A helps pay for four kinds of medically necessary care:

- inpatient hospital care;
• inpatient care in a skilled nursing facility following a hospital stay;
• home health care; and
• hospice care.

There is a limit on how many days of hospital or skilled nursing facility care Medicare helps pay for in each benefit period. But a person's Part A protection is renewed every time they start a new benefit period, see RCM 3.1.61.

Skilled nursing facility care is the only type of nursing home care that Medicare covers. Medicare does not pay for care that is primarily custodial, see RCM 3.1.50 for more information about custodial care.

The following sections are applicable for Part A service provided prior to January 1, 1989 and after December 31, 1989. See Exhibit 10 for Part A services provided in 1989 and exceptions for Part A services provided in 1990.

### 3.1.61 Benefit Periods

A benefit period is a way of measuring the person's use of services under Medicare Part A. The person's first benefit period starts the first time they enter a hospital on or after their Part A effective date. A benefit period ends when the person has been out of a hospital or other facility primarily providing skilled nursing or rehabilitation services for 60 days in a row, including the day of discharge. If the person remains in a facility, other than a hospital, that primarily provides skilled nursing or rehabilitation services, a benefit period ends when they have not received any skilled care there for 60 days in a row.

There is no limit to the number of benefit periods a person can have for hospital and skilled nursing facility care. However, special limited benefit periods apply to hospice care, see RCM 3.1.72.

Here are two examples of how the benefit period works:

- Ms. Jones enters the hospital on January 5. She is discharged on January 15. She has used 10 days of her first benefit period. Ms Jones is not hospitalized again until July 20. Since more than 60 days elapsed between her hospital stays, she begins a new benefit period, her Part A coverage is completely renewed, and she will again pay the hospital deductible. The hospital deductible is explained in RCM 3.1.63.

- Mr. Smith enters the hospital on August 14. He is discharged on August 24. He also has used 10 days of his first benefit period. However, he is then readmitted to the hospital on September 20. Since fewer than 60 days elapsed between hospital stays, Mr. Smith is still in his first benefit period and will not be required to pay another hospital deductible. This means that the first day of his second admission is counted as the 11th day of hospital care in that benefit period. Mr. Smith will not
begin a new benefit period until he has been out of the hospital, and has not received any skilled care in a skilled nursing facility, for 60 consecutive days.

3.1.62 How Medicare Pays For Part A Services

Medicare Part A helps pay for most but not all of the services rendered in a hospital or skilled nursing facility or from a home health agency or hospice program. There are covered services and non-covered services under each kind of care. Covered services are services and supplies that Medicare Part A will pay for.

Hospitals, skilled nursing facilities, home health agencies and hospices are called "providers" under the Medicare Part A program. Providers submit their claims directly to the Medicare intermediary. The person cannot submit claims for their Part A services. The provider will charge the person for any part of the Part A deductible they have not met and any coinsurance payment they may owe. Providers cannot require the person to make a deposit before being admitted for inpatient care that is or may be covered under Part A of Medicare.

EXCEPTION: If emergency inpatient services were provided by a nonparticipating hospital that does not bill for Medicare patients, the beneficiary will have to file a claim for payment. Such beneficiaries should be referred to the SSA district office for development and filing of a claim.

When a hospital, skilled nursing facility, home health facility or hospice sends the intermediary a Part A claim for payment, the person will get a Notice of Utilization that explains the decision Medicare made on the claim. This notice is not a bill. If the person has any questions about the notice, they should get in touch with the people (intermediary) who sent them the notice.

The intermediary also sends a notice when Part B benefits are performed by a Part A provider.

If the person is requesting information about, or requesting a duplicate notice, the person should contact the intermediary. However, if the person wishes to request this information directly from CMS, they can write to:

Centers for Medicare & Medicaid Services
Correspondence Branch, OMB. RM B3
1717 Equitable Building
6325 Security Boulevard
Baltimore, Maryland  20207

Any inquiry sent to CMS should contain the beneficiary's full name, address and Medicare claim number.

Although the intermediary issues the Notice of Utilization, the Entitlement Database (EDB) is maintained by CMS. Problems concerning utilization should be sent to:
A. **Claim for Payment** - Before a payment can be made for Medicare service, a written request for payment must be signed by the patient. Each of the provider billing forms contains a patient’s signature line incorporating the patient’s request for payment of benefits and authorization to release information. If, because of his/her physical and mental condition, the patient is unable to transact business at the time of admission, another person qualified to act on his/her behalf may sign the form. If necessary, an authorized official of the provider may sign the claim.

B. **Filing Timely Claims** - Claims for Medicare benefits must be filed on or before December 31 of the calendar year following the year in which the services were furnished. The Patient Protection and Affordable Care Act (PPACA) of 2010 amended the timely filing requirements for submitting Medicare Fee-for-Service claims to one calendar year after the date of service.

C. **Late Filing Due to Administrative Error** - When an error by the RRB, the SSA, the CMS, an intermediary or a MAC caused the failure of the provider to file a timely request for payment, the time limit for filing is extended through the last day of the sixth calendar month following the month in which the error is corrected, but not beyond December 31 of the third calendar year after the year in which the services were furnished.

### 3.1.63 Inpatient Hospital Services

Medicare Part A helps pay for inpatient hospital care if all of the following four conditions are met:

- a doctor prescribes inpatient hospital care for treatment of a illness or injury;
- the kind of care that is required can be provided only in a hospital;
- the hospital is participating in Medicare; and
- the Utilization Review Committee of the hospital, a Peer Review Organization or an intermediary does not disapprove the stay.

If all of the four above conditions are met, Medicare will help pay for up to 90 days of medically necessary inpatient hospital care in each benefit period. Medicare pays for only limited care in a psychiatric hospital, see RCM 3.1.66.

From the first day through the 60th day in a hospital during each benefit period, Part A pays for all covered services except the inpatient hospital deductible. The deductible is
an amount the person owes before Medicare will begin to pay for services and supplies covered by the Medicare program. The hospital may charge the person the deductible only for the first admission in each benefit period. If the person is discharged and then readmitted before the benefit period ends, they do not have to pay the deductible again. See Exhibit 7 for a list of the deductible amounts.

From the 61st through the 90th day in a hospital during each benefit period, Part A pays for all covered services except for the daily coinsurance amount. See Exhibit 7 for a list of the daily coinsurance amounts.

Hospital reserve days, explained in RCM 3.1.64, can help with the persons expenses if they need more than 90 days of inpatient hospital care in a benefit period.

Medicare Part A does not pay for the services of doctors and certain other practitioners, even though the person received these services in a hospital. Instead, those services are covered under Medicare Part B, see RCM 3.1.80.

- **COVERED HOSPITAL INPATIENT SERVICES**
  - a semiprivate room, two to four beds in a room
  - all meals, including special diets
  - regular nursing services
  - costs of special care units, such as intensive care or coronary care units
  - drugs furnished by the hospital during the person's stay
  - blood transfusions furnished by the hospital during the person's stay, see RCM 3.1.65 for information about coverage of blood
  - lab tests included in the hospital bill
  - X-rays and other radiology services, including radiation therapy, billed by the hospital
  - medical supplies such as casts, surgical dressings and splints
  - operating and recovery room costs
  - rehabilitation services, such as physical therapy, occupational therapy and speech pathology services

- **HOSPITAL INPATIENT SERVICES NOT COVERED**
  - personal convenience items that the person requests such as a telephone or television in their room
• a private duty nurse
• any extra charges for a private room unless it is determined to be medically necessary

If a person disagrees with a decision on the amount Medicare Part A paid on a claim or whether services they received are covered by Medicare Part A, they always have the right to appeal the decision, see RCM 3.1.110.

3.1.64 Hospital Inpatient Reserve Days

Medicare helps pay for a person's care in a hospital for up to 90 days in each benefit period. And Medicare Part A includes an extra 60 hospital days the person can use if they have a long illness and have to stay in the hospital for more than 90 days. These extra days are called reserve days. Once the person uses a reserve day they never get it back. Reserve days are not renewable.

Medicare Part A will pay for all covered services except for the coinsurance for each reserve day used. See Exhibit 7 for a list of the coinsurance amounts for reserve days. The person is responsible for paying the coinsurance.

The person has only 60 reserve days in their lifetime, and they can decide when they want to use them. After the person has been in the hospital 90 days, they can use all or some of their 60 reserve days right away if they do not want to.

If the person does not want to use their reserve days, they must tell the hospital in writing, either when they are admitted to the hospital or any time afterwards up to 90 days after they are discharged. If the person uses reserve days and then decides that they did not want to use them, they must request approval from the hospital to get them restored.

All Medigap plans pay some part of hospital bills after they person has used all of their reserve days. See RCM 3.1.40 for more information about Medigap insurance.

3.1.65 Coverage Of Blood Under Part A

Part A helps pay for blood, whole blood or units of packed red blood cells, blood components and the cost of blood processing and administration. If the person receives blood as an inpatient of a hospital or skilled nursing facility, Part A will pay for these blood costs, except for any non-replacement fees charges for the first three pints of whole blood or units of packed red cells per calendar year. The non-replacement fee is the charge that some hospitals and skilled nursing facilities make for blood which is not replaced.

The person is responsible for the non-replacement fees for the first three pints or units of blood furnished by a hospital or skilled nursing facility. When the person is charged non-replacement fees, they have the option of either paying the fees or having the blood
replaced. If the person chooses to have the blood replaced, they can either replace the blood personally or arrange to have another person or an organization replace it for them. A hospital or skilled nursing facility cannot charge the person for any of the first three pints of blood they replace or arrange to replace. If the person has already paid for or replaced blood under Medicare Part B during the calendar year, they do not have to meet those costs again under Medicare Part A. See RCM 3.1.81 for an explanation of coverage of blood under Medicare Part B.

3.1.66 Care In A Psychiatric Hospital

Part A helps pay for no more than 190 days of inpatient care in a participating psychiatric hospital in the person's lifetime. Once the person has used these 190 days, Part A does not pay for any more inpatient care in a psychiatric hospital.

3.1.67 Care Outside The United States

Medicare generally does not pay for hospital or medical services outside the U.S. Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands are considered part of the U.S. However, it can help pay for care in qualified Canadian or Mexican hospitals under certain conditions.

Payment can be made to a RR beneficiary for all covered hospital services furnished by a qualified Canadian hospital, regardless of where the beneficiary lives. The RRB acts as the Medicare Part A intermediary and makes payment for Medicare Part A claims for covered Part A benefits.

In Mexico, Part A benefits for covered inpatient hospital services can be paid in two situations. They are:

- the person is in the U.S. when an emergency occurs and a Mexican hospital is closer than the nearest U.S. hospital which can provide the emergency services they need; or

- the person lives in the U.S. and a Mexican hospital is closer to their home than the nearest U.S. hospital which can provide the care the person needs, regardless of whether or not an emergency exists.

If the person is planning to travel outside the U.S., they may want to buy special short-term health insurance for foreign travel. If the person has other health insurance in addition to Medicare, they should check to see if health care in a foreign country is covered under their policy.

See RCM 3.8 for payment of Medicare services outside the U.S.
3.1.68 Care In A Christian Science Sanatorium

Medicare Part A helps pay for inpatient hospital and skilled nursing facility services a person receives in a participating Christian Science Sanatorium if it is operated or listed and certified by the First Church of Christ, Scientist, in Boston. However, Medicare Part B will not pay for the practitioner.

3.1.69 The Prospective Payment System

Medicare pays for most inpatient hospital care under the Prospective Payment System (PPS). Under PPS, hospitals are paid a predetermined rate per discharge for inpatient services furnished to Medicare beneficiaries. The predetermined rates are based on payment categories called Diagnosis Related Groups, or DRG's. In some cases, the Medicare payment will be more than the hospital's costs; in other cases, the payment will be less than the hospital's costs. In special cases, where costs for necessary care are unusually high or the length of stay is unusually long, the hospital receives additional payment. But even if Medicare pays the hospital less than the cost of the person's care, the person does not have to make up the difference.

It is important to remember that the PPS system does not change the person's Medicare Part A protection. PPS does not determine the length of the person's hospital stay or the extent of care they receive. The law requires participating hospitals to accept Medicare payments as payments in full, and those hospitals are prohibited from billing the Medicare patient for anything other than the applicable deductible and coinsurance amounts, plus any amounts due for non-covered items or services, such as television, telephone or private duty nurses.

3.1.70 Skilled Nursing Facility Care

Medicare Part A can help pay for certain inpatient care in a

Medicare-participating skilled nursing facility following a hospital stay if the person's condition requires daily skilled nursing or skilled rehabilitation services which, as a practical matter, can only be provided in a skilled nursing facility, and the skilled care they receive must be based on a doctor's order.

A. What is a Skilled Nursing Facility? - A skilled nursing facility is a specially qualified facility that specializes in skilled care. It has the staff and equipment to provide skilled nursing care or skilled rehabilitation services and other related health services. Skilled nursing care means care that can only be performed by, or under the supervision of, licensed nursing personnel. Skilled rehabilitation services may include such services as physical therapy performed by, or under the supervision of, a professional therapist.

Most nursing homes in the U.S. are not skilled nursing facilities that participate in Medicare. In some facilities, only certain portions participate in Medicare. If the
person is not sure whether a facility participates in Medicare as a skilled nursing facility, they should ask someone in the facility's business office.

B. When Can Medicare Pay For Care in a Skilled Nursing Facility? - Medicare Part A can help pay for care in a Medicare-participating skilled nursing facility if all of the following six conditions are met:

- the person's condition requires daily skilled nursing or skilled rehabilitation services which, as a practical matter, can only be provided in a skilled nursing facility;

- the person was in a hospital at least three days in a row, not counting the day of discharge, before they are admitted to a participating skilled nursing facility;

- the person is admitted to the facility within a short time, generally within 30 days after they leave the hospital;

- the care in the skilled nursing facility is for a condition that was treated in the hospital, or for a condition that arose while the person was receiving care in the skilled nursing facility for a condition which was treated in the hospital;

- a medical professional certifies that the person needs and received skilled nursing or skilled rehabilitation services on a daily basis; and

- the Medicare intermediary does not disapprove the person's stay.

All six conditions must be met. Remember, the person must need skilled nursing care or skilled rehabilitation services on a daily basis. Part A will not pay for a person's stay if they need skilled nursing or rehabilitation services only occasionally, such as once or twice a week, or if they do not need to be in a skilled nursing facility to get skilled services. Also, Medicare will not pay for a person's stay if they are in a skilled nursing facility mainly because they need custodial care.

When a person's stay in a skilled nursing facility is covered by Medicare, Part A helps pay for a maximum of 100 days in each benefit period, but only if the person needs daily skilled nursing care or rehabilitation services for that long.

If the person leaves a skilled nursing facility and they are readmitted within 30 days, they do not have to have a new three day stay in the hospital for their care to be covered. If they have some of the 100 days left and they need skilled nursing or rehabilitation services on a daily basis for further treatment of a condition treated during their previous stay in the facility, Medicare will help pay.

In each benefit period, Part A pays for all covered services for the first 20 days a person is in a skilled nursing facility. For the 21st through 100th day, Part A pays
for all covered services except the daily coinsurance amount. See Exhibit 7 for a list of the daily coinsurance amounts.

Medicare Part A does not cover the person's doctor's services while they are in a skilled nursing facility. Medicare Part B covers doctors' services, see RCM 3.1.80.

- **COVERED SERVICES IN A SKILLED NURSING FACILITY**
  - a semiprivate room, two to four beds in a room
  - all meals, including special diets
  - regular nursing services
  - physical, occupational and speech therapy
  - drugs furnished by the facility during the person's stay
  - blood transfusions furnished during the person's stay, see RCM 3.1.65 for information about coverage of blood
  - medical supplies such as splints and casts furnished by the facility
  - use of appliances such as a wheel chair furnished by the facility

- **SERVICES NOT COVERED IN A SKILLED NURSING FACILITY**
  - personal convenience items that the person requests such as a television in their room
  - a private duty nurse
  - any extra charges for a private room, unless it is determined to be medically necessary

If a person wants to complain about a skilled nursing facility's treatment of patients or other conditions that concern them, they can contact the State survey agency. Each skilled nursing facility can give the person the telephone number and address of the State survey agency. The person can also look at a copy of the skilled nursing facility's latest certification survey report. The survey report will tell the person the results of the State survey agency's review of how well the agency thinks the facility followed the rules about the patient's rights, safety and quality of care.

If a person disagrees with a decision on the amount Medicare Part A paid on a claim or whether services they received are covered by Medicare Part A, the person always has the right to appeal the decision, see RCM 3.1.110.
3.1.71 Home Health Care

If a person needs skilled health care in their home for the treatment of an illness or injury, Medicare pays for covered home health services furnished by a participating home health agency. A home health agency is a public or private agency that specializes in giving skilled nursing services and other therapeutic services, such as physical therapy in their home. A hospital or other facility that mainly provides skilled nursing or rehabilitation services cannot be consider the person's home.

Medicare pays for home health visits only if all of the following conditions are met:

- the care the person needs includes intermittent skilled nursing care, physical therapy or speech therapy;
- the person is confined to their home, homebound;
- the person is under the care of a physician who determines they need home health care and sets up a home health plan for them; and
- the home health agency providing services is participating in Medicare.

Once all four of the above conditions are met, either Medicare Part A or Medicare Part B will pay for all medically necessary home health services. When the person no longer needs intermittent skilled nursing care, physical therapy or speech therapy, Medicare will pay for home health services if the person continues to need occupational therapy.

Medicare home health services do not include coverage for general household services such as laundry, meal preparation, shopping or other home care services furnished mainly to assist people in meeting personal, family or domestic needs.

For a person to determine whether they can get services under the Medicare home health benefit, they should ask their physician to refer them to a Medicare participating home health agency. The home health agency will evaluate the person's case and advise them about whether they meet the requirement for Medicare coverage. Home health agencies do not charge for the evaluation.

- COVERED HOME HEALTH SERVICES
  - part-time or intermittent skilled nursing care. This can include eight hours of reasonable and necessary care per day for up to 21 consecutive days - or longer in certain circumstances.
  - physical therapy
  - speech therapy
• if the person also needs intermittent skilled nursing care, or physical or speech therapy, Medicare will also pay for:
  • occupational therapy
  • part-time or intermittent services of home health aides
  • medical social services
  • medical supplies
  • durable medical equipment, 80 percent of approved amount

• **HOME HEALTH SERVICES NOT COVERED**
  • 24-hour-a-day nursing care at home
  • drugs and biologicals
  • meals delivered to a person's home
  • homemaker services
  • blood transfusions

Medicare pays the full approved cost of all covered home health visits. The person may be charged only for any services or costs that Medicare does not cover. However, if the person needs durable medical equipment, they are responsible for a 20 percent coinsurance payment for the equipment.

The home health agency will submit the claim for payment. The person does not have to send in any bills.

If a person disagrees with a decision on the amount Medicare Part A paid on a claim or whether services they received are covered by Medicare Part A, they always have the right to appeal the decision, see RCM 3.1.110.

### 3.1.72 Hospice Care

A hospice is a public agency or private organization that is primarily engaged in providing pain relief, symptom management and supportive services to terminally ill people.

Hospice care is a special type of care for people who are terminally ill. If includes both home care and inpatient care, when needed, and a variety of services not otherwise covered under Medicare. Under the Medicare hospice benefit, Medicare pays for
services every day and also permits a hospice to provide appropriate custodial care, including homemaker services and counseling.

Medicare Part A helps pay for hospice care if all three of the following conditions are met:

- a doctor certifies that the patient is terminally ill;
- the patient chooses to receive care from a hospice instead of standard Medicare benefits for the terminal illness; and
- care is provided by a Medicare-participating hospice program.

Special benefit periods apply to hospice care. Part A pays for two 90-day periods, followed by a 30-day period, and when necessary, an extension period of indefinite duration. Hospice benefit periods may be consecutive. If a beneficiary cancels hospice care during one of the first three benefit periods, any days left in that period are lost, but the remaining benefit period(s) are still available. And, a beneficiary may disenroll from the hospice during any benefit period, return to regular Medicare coverage, then later re-elect the hospice benefit if another benefit period is available.

Two Hospice Benefit Period Examples:

- Mr. Jones canceled his hospice care at the end of 59 days during his first 90-day benefit period. He lost the 31 remaining days of the first 90-day period. But if he wants to, he can choose hospice care again. He still have a 90-day period, a 30-day period and the indefinite extension period.

- Ms. Smith canceled hospice care during her final extension period. She cannot use the Medicare hospice benefit again.

There are no deductibles under the hospice benefit. The person does not pay for Medicare-covered services for the terminal illness, except for small coinsurances amounts for outpatient drugs and inpatient respite care.

The patient is responsible for five percent of the cost of outpatient drugs or $5 toward each prescription, whichever is less. For inpatient respite care, the patient pays five percent of the Medicare-allowed rate. The rate varies slightly depending on the area of the country.

Respite care under the hospice program is a short term inpatient stay in a facility. The Medicare beneficiary's inpatient stay gives temporary relief, a respite, to the person who regularly assists with home care. Each inpatient respite care stay is limited to no more than five days in a row.

While receiving hospice care, if a patient requires treatment for a condition not related to the terminal illness, Medicare continues to help pay for all necessary covered services under the standard Medicare benefit program.
• COVERED HOSPICE SERVICES
  • nursing services
  • doctor's services
  • drugs, including outpatient drugs for pain relief and symptom management
  • physical therapy, occupational therapy and speech language pathology
  • home health aid and homemaker services
  • medical social services
  • medical supplies and appliances
  • short-term inpatient care, including respite care
  • counseling

The Medicare Part A hospice benefit does not pay for treatments other than for pain relief and symptom management of a terminal illness. Regular Medicare can usually help pay for treatments not related to the terminal illness.

If a person disagrees with a decision on the amount Medicare Part A paid on a claim or whether services they received are covered by Medicare Part A, they always have the right to appeal the decision, see RCM 3.1.110.

3.1.80 Scope of Part B Benefits

Medicare Part B helps pay for:

• doctors' services;
• outpatient hospital care;
• diagnostic tests;
• durable medical equipment;
• ambulance services; and
• many other health services and supplies which are not covered by Medicare Part A.

The following sections tell more about these different kinds of care, the services that are and are not covered by Medicare Part B and what part of the person's medical expenses Medicare will pay.
3.1.81 Deductible and Coinsurance Amounts Under Part B

A. **The Annual Deductible** - The person must pay an annual deductible before Medicare begins paying approved charges for covered medical expenses. This is called the Medicare Part B annual deductible. The person needs to meet this deductible only once during the year, and the deductible can be met by any combination of covered expenses. The person does not have to meet a separate deductible for each different kind of covered service they receive.

B. **The Blood Deductible** - The person must pay any non-replacement fees charged for the first three pints or units of blood and blood components they use each year. The nonreplacement fee is the charge that some practitioners and facilities make for blood which is not replaced. This is called the Medicare Part B blood deductible. After the person has replaced or paid for the first three pints of blood and they have met the annual deductible, Medicare will pay 80 percent of the approved amount for blood, starting with the fourth pint. If the person has already paid for or replaced some units of blood under Medicare Part A during the calendar year, they do not have to pay for or replace that number of units again under Medicare Part B.

C. **Coinsurance** - After the person pays the annual deductible, they will owe a share of the Medicare-approved amount for services and supplies. This share is called coinsurance. Usually, the coinsurance share is 20 percent of the Medicare-approved amount.

Medicare determines the approved amount for each service covered under Part B. If the services were provided "on assignment," the person pays only the coinsurance, see RCM 3.1.100 for an explanation of assignment.

If the services were not provided "on assignment," and the charges for the services were more than the Medicare-approved amount, the person usually owes the Medicare coinsurance plus certain charges above the Medicare-approved amount. See Medicare-Approved Amounts in RCM 3.1.104. There are limits on the amount a doctor can charge a patient.

This explanation of the deductible and coinsurance amounts describes Medicare's payments system for most services covered by Medicare Part B. In cases where the payment for services is handled in a different way, the person will be given an explanation along with the description of services covered.

3.1.82 Doctors' Services Covered by Medicare Part B

Medicare Part B helps pays for covered services a person receives from their doctor in the doctor's office, in a hospital, in a skilled nursing facility, in the person's home or any other location.

A. **Major Doctors' Services Covered by Medicare Part B**
• medical and surgical services, including anesthesia
• diagnostic tests and procedures that are part of the person's treatment
• radiology and pathology services by doctors while the person is a hospital inpatient or outpatient
• treatment of mental illness, see RCM 3.1.88 for Medicare payment for nonhospital treatment which are limited
• other services such as:
  • X-rays
  • services of a person's doctor's office nurse
  • drugs and biologicals that cannot be self-administered
  • transfusions of blood and blood components
  • medical supplies
  • physical/occupational therapy and speech pathology services

B. Some Doctors' Services Not Covered by Medicare Part B
• routine physical examinations, and tests directly related to such examinations, except some Pap smears and mammograms
• most routine foot care and dental care
• examinations for prescribing or fitting eyeglasses or hearing aids
• immunizations, except pneumococcal pneumonia vaccinations or immunizations required because of an injury or immediate risk of infection and Hepatitis B for certain persons at risk
• cosmetic surgery, unless it is needed because of accidental injury or to improve the function of a malformed part of the body

C. Types of Doctors - Most doctors' services are furnished by a doctor of medicine or a doctor of osteopathy. Other "physicians" that can furnish some covered services include chiropractors, doctors of podiatric medicine (podiatrists), doctors of dental surgery or of dental medicine (dentists) and doctors of optometry (optometrists).

D. Chiropractors' Services - Medicare helps pay for only one kind of treatment furnished by a licensed chiropractor: manual manipulation of the spine to correct
a subluxation that is demonstrated by X-ray. Medicare Part B does not pay for any other diagnostic or therapeutic services, including X-rays, furnished by a chiropractor.

E. Podiatrists' Services - Medicare Part B helps pay for any covered services of a licensed podiatrist to treat injuries and diseases of the foot. Examples of common problems include ingrown toenails, hammer toe deformities, bunion deformities and heel spurs.

Medicare generally does not pay for routine foot care such as cutting or removal of corns and calluses, trimming of nails, and other hygienic care. But, Medicare does help pay for some routine foot care if the person is being treated by a medical doctor for a medical condition affecting the person's legs or feet, such as diabetes or peripheral vascular disease, which requires that the routine care be performed by a podiatrist or by a doctor of medicine or osteopathy.

F. Dentists' Service - Medicare Part B generally does not pay for care in connection with the treatment, filling, removal or replacement of teeth; root canal therapy; surgery for impacted teeth; or other surgical procedures involving the teeth or structures directly supporting the teeth. However, Medicare does help pay for services of a dentist in certain cases when the medical problem is more extensive than the teeth or structures directly supporting them. If a person needs to be hospitalized because of the severity of a dental procedure, Medicare Part A will pay for their inpatient hospital stay even if the dental care itself is not covered by Medicare.

G. Optometrists' Services - Medicare helps pay for Medicare-covered vision care, including the services of an optometrist if the optometrist is legally authorized to perform those services by the State in which he or she performs them. However, Medicare will not pay for routine eye exams, and it will usually not pay for eyeglasses. Medicare will pay for cataract spectacles, cataract contact lenses or intraocular lenses that replace the natural lens of the eye after cataract surgery. Medicare will also pay for one pair of conventional eyeglasses or conventional contact lenses if necessary after insertion of an intraocular lens.

3.1.83 Second Opinion Before Surgery

Sometimes a doctor may recommend surgery for the treatment of a medical problem. In some cases, surgery is unavoidable. But there is increasing evidence that many conditions can be treated equally well without surgery. Because even minor surgery involves some risk, Medicare recommends that the person get an opinion from a second doctor to help the person decide about surgery. Medicare will help pay for a second opinion. Medicare will also help pay for a third opinion if the first and second opinions contradict each other.
The person's own doctor is the best source for referral to another doctor. But, if the person wishes, they can call the Medicare Part B carrier for the names and phone numbers of doctors in their area who provide second opinions.

3.1.84 Services Of Special Practitioners

Medicare Part B helps pay for covered services a person receives from certain specially qualified practitioners who are not physicians. The practitioners must be approved by Medicare. Medicare-approved practitioners are listed below:

- certified registered nurse anesthetist
- certified nurse midwife
- clinical psychologist
- clinical social worker, other than in a hospital or skilled nursing facility
- physician assistant, a physician assistant can furnish certain services in a hospital or certain other facilities; can serve as an assistant-at-surgery; and can furnish services in any location that is designated as a rural health professional shortage area
- nurse practitioner and clinical nurse specialist in collaboration with a physician, a nurse practitioner can furnish services in a skilled nursing facility or a Medicaid nursing facility in any area. In addition, a nurse practitioner or clinical nurse specialist can furnish services in a rural area.

3.1.85 Outpatient Hospital Services

Medicare Part B helps pay for covered services a person receives as an outpatient from a participating hospital for diagnosis or treatment of an illness or injury. Under certain conditions, Medicare helps pay for emergency outpatient care they receive from a non-participating hospital.

When a person receives outpatient hospital services, they are responsible for the annual Medicare Part B deductible. In addition to the deductible, they are responsible for a coinsurance of 20 percent of the hospital's charge above the deductible.

When a person goes to a hospital for outpatient services, they are sometimes asked how much of their Part B deductible has been met. One easy way to answer that question is for the person to look at their most recent Explanation of Your Medicare Part B Benefits notice. From this form, it can usually tell how much of the annual deductible the person has met.

If the hospital cannot tell how much of the deductible the person has met and the charge for the services they received is less, the hospital may ask the person to pay the entire bill. The amount they pay the hospital can be credited toward any part of the
deductible they have not met. If the person pays the hospital for deductible amounts they do not owe, the hospital or the Medicare intermediary will refund the amount they overpaid.

- **COVERED OUTPATIENT HOSPITAL SERVICES**
  - services in an emergency room or outpatient clinic, including same-day surgery
  - laboratory tests billed by the hospital
  - mental health care in a partial hospitalization psychiatric program, if a physician certifies that inpatient treatment would be required without it
  - X-rays and other radiology services billed by the hospital
  - medical supplies such as splints and casts
  - drugs and biologicals that cannot be self-administered
  - blood transfusions furnished a person as an outpatient

- **OUTPATIENT HOSPITAL SERVICES NOT COVERED**
  - routine physical examinations, and tests directly related to such examination, except some Pap smears and mammograms
  - eye or ear examinations to prescribe or fit eyeglasses or hearing aids
  - immunization, except pneumococcal pneumonia and Hepatitis B vaccinations, or immunizations required because of an injury or immediate risk of infection
  - most routine foot care

### 3.1.86 Other Services And Supplies Covered By Medicare

**A. Ambulatory Surgical Services** - An ambulatory surgical center is a facility that provides surgical services that do not require a hospital stay. Medicare Part B will pay for the use of an ambulatory surgical center for certain approved surgical procedures. However, by law, Medicare can only pay centers that have an agreement with Medicare to participate in the Medicare program. If a person does not know if an ambulatory surgical center participates in Medicare, they should ask someone in the center's business office. If that person does not know, they should call the Medicare Part B carrier.

In addition to helping pay for the use of the ambulatory surgical center, Medicare also helps pay for physician and anesthesia services that are provided in connection with the procedure.
B. **Home Health Services** - If a person has both Medicare Part A and Part B, their Part A pays for home health services. However, if a person does not have Part A, Part B will pay for home health services as described in RCM 3.1.71.

C. **Outpatient Physical and Occupational Therapy and Speech Pathology Services** - Medicare Part B helps pay for medically necessary outpatient physical and occupational therapy or speech pathology services, if all of the following three conditions are met:

- the person's doctor prescribes the service;
- the person's doctor or therapist sets up the plan of treatment; and
- the person's doctor periodically reviews that plan

The person can receive physical therapy, occupational therapy or speech pathology services as an outpatient of a participating hospital or skilled nursing facility, or from a participating home health agency, rehabilitation agency or public health agency. The provider of services may charge the person only for any part of the annual deductible they have not met, 20 percent of the remaining approved amount and any non-covered services.

Also, the person can receive services directly from an independently practicing, Medicare-approved physical or occupational therapist in the therapist's office or in the person's home if such treatment is prescribed by a doctor. But, the maximum amount Medicare pays for each of these services provided by an independently practicing physical or occupational therapist is $600 a year. This is 80 percent of the maximum approved amount of up to $750. The Medicare payment would be less than $600 if charges for these services are used to meet part or all of the person's $100 annual deductible.

D. **Comprehensive Outpatient Rehabilitation Facility Services** - Under certain circumstances, Medicare helps pay for outpatient services a person receives from a Medicare-participating comprehensive outpatient rehabilitation facility (CORF). Covered services include physicians' services; physical, speech, occupational and respiratory therapies; counseling; and other related services. The person must be referred by a physician who certifies that they need skilled rehabilitation services. For most CORF services, the person is responsible only for the annual deductible and 20 percent of the Medicare approved-charges. Medicare helps pay for mental health treatment in a CORF, the Medicare payment limit for mental health treatment in a CORF is discussed in RCM 3.1.88.

E. **Partial Hospitalization for Mental Health** - Partial hospitalization means an ambulatory program of active care that lasts less then 24 hours a day. Under certain conditions, Medicare Part B helps pay for partial hospitalization for mental health services furnished by hospital outpatient units and by qualified community mental health centers. If a person is considering mental health treatment, they
should check with the program they have chosen to see if it meets the conditions for Medicare payment.

F. **Rural Health Clinic Services** - Medicare Part B helps pay for services of physicians, nurse practitioners, physician assistants, nurse midwives, visiting nurses, under certain conditions, clinical psychologists and clinical social workers furnished by a rural health clinic. The person is responsible only for the annual Medicare Part B deductible plus 20 percent of the Medicare-approved charge for the clinic.

G. **Federally Qualified Health Center Services** - Federally qualified health centers are located in both rural and urban areas. As part of the "federally qualified health center benefit," Medicare Part B helps pay for services of physicians, nurse practitioners, physician assistants, nurse midwives, visiting nurses, under certain conditions, clinical psychologists and clinical social workers. Also, as part of the federally qualified health center benefit, Medicare helps pay for certain preventive health services. The person does not have to pay the Medicare Part B annual deductible for services provided under the federally qualified health center benefit. The person is responsible for 20 percent of the Medicare-approved charge for the clinic.

There are some specialized services that may be provided by a federally qualified health center that are not part of the federally qualified health center benefit. For these services, the person does have to meet the annual Part B deductible. As long as the center meets Medicare requirements to provide these specialized services, Medicare Part B can help pay for them. The center will tell the person if the service they need is a specialized service. For example, the center may provide screening mammograms. If the person gets a mammogram at the center, they are responsible for any unmet part of the annual Medicare Part B deductible plus 20 percent of the Medicare-approved charge for the mammogram.

H. **Independent Laboratory Services** - Medicare Part B pays the full approved fee for covered clinical diagnostic tests provided by independent laboratories that are approved to perform them. The laboratory must accept assignment for these tests. See RCM 3.1.100 for an explanation of assignment. It may not bill the person for the tests.

Not all laboratories are approved by Medicare and some laboratories are approved only for certain kinds of tests. If a doctor orders tests which the laboratory is not approved to perform, Medicare does not pay for the tests, and the person can be required to pay for them. The person's doctor can usually tell them which laboratories are approved and whether the tests he or she is ordering from an approved laboratory are covered by Medicare. If the person's doctor can not tell, they should call the Medicare Part B carrier.
The person's doctor must accept assignment for covered clinical diagnostic laboratory tests which he or she furnishes. The doctor is not allowed to bill the person for the tests. See RCM 3.1.100 for an explanation of assignment.

I. **Portable Diagnostic X-ray Services** - Medicare Part B helps pay for portable diagnostic X-ray services a person receives in their home or other location if they are ordered by a doctor and if they are provided by a Medicare-approved supplier. The person can ask the Part B carrier whether the supplier is Medicare-approved.

J. **Other Diagnostic Tests** - Medicare Part B also helps pay for other diagnostic tests, including X-rays, that the person's doctor orders to evaluate the person's medical problems.

K. **Pap Smear Screening** - Medicare Part B helps pay once every three years for Pap smears to screen for cervical cancer. Medicare helps pay more frequently for certain women at high risk. Medicare also pays for diagnostic Pap smears as needed when symptoms are present.

L. **Breast-Cancer Screening (Mammography)** - Medicare Part B helps pay for X-ray screenings for the detection of breast cancer, if they are provided by a Medicare-approved supplier. Women 65 or older can use the benefit every other year. Younger, disabled women covered by Medicare can use the screening benefit more frequently. Medicare also pays for diagnostic mammograms as needed when symptoms are present.

For accurate up-to-date information on cancer prevention, detection, diagnosis, and treatment for patients, their families and the general public, a person can call the Cancer Information Service at 1-800-4-CANCER.

M. **Radiation Therapy** - Medicare Part B helps pay for outpatient radiation therapy given under the supervision of a person's doctor.

N. **Kidney Dialysis and Transplants** - Medicare Part B helps pay for kidney dialysis and transplants. For detailed information on this coverage, a person can get a copy of Medicare Coverage of Kidney Dialysis and Kidney Transplant Services by calling 1-800-MEDICARE (1-800-808-0772) or by visiting [www.medicare.gov](http://www.medicare.gov) on the Internet.

O. **Heart and Liver Transplants** - Under certain limited conditions, Medicare Part B helps pay for heart and liver transplants in a Medicare-approved facility. If the person is considering a heart or liver transplant, the person and their physician can find out about Medicare coverage by contacting the Part B carrier. If they belong to an HMO, the HMO will give them the information they need about Medicare coverage.
P. **Ambulance Transportation** - Medicare Part B helps pay for medically necessary ambulance transportation, but only if:

- the ambulance, equipment and personnel meet Medicare requirements; and
- transportation in any other vehicle could endanger the person's health.

Under these conditions, Medicare helps pay for ambulance transportation but only to a hospital or skilled nursing facility, or from a hospital or skilled nursing facility to the person's home. Medicare does not pay for ambulance use from the person's home to a doctor's office or to a dialysis facility.

Medicare usually helps pay only if the ambulance transportation is in the person's local area. But, if there are no local facilities equipped to provide the care the person needs, Medicare helps pay for necessary ambulance transportation to the closest facility outside the person's local area that can provide the necessary care. If there is a local facility equipped to provide the care the person needs but the person chooses to go to another institution that is farther away, Medicare payment is based on the charge for transportation to the closest facility that can provide the necessary care.

Q. **Durable Medical Equipment** - Medicare Part B helps pay for durable medical equipment such as oxygen equipment, wheelchairs and other medically necessary equipment that the person's doctor prescribes for use in the person's home. A hospital or facility that mainly provides skilled nursing or rehabilitation services cannot be considered the person's home.

To be considered durable medical equipment, the equipment must be able to be used over again by other patients, must primarily serve a medical purpose, must not be useful to people who are not sick or injured and must be appropriate for use in the person's home. Not all types of equipment that a person might find useful can meet all four of these requirements.

Only the person's doctor should prescribe medical equipment for the person. An equipment supplier should not take any of the following actions:

- contact the person first, either by phone or by mail, and offer to get the person's doctor or Medicare to approve an item. It is all right for the supplier to contact the person in response to calls from the person's doctor or other health care workers;
- say he or she works for, or represents Medicare;
- deliver equipment to the person's home that neither the person nor the person's doctor ordered; or
- send the person used items, while billing Medicare for new ones.
Some of these actions may be against the law. If the person believes a supplier has taken any of these actions, the person should alert the Part B carrier. First, the person should ask their doctor whether he or she ordered the item. If the person's doctor did not order the item, the person should file a complaint with the Medicare Part B carrier. They can file the complaint by phone, in person or in writing. The Part B carrier will investigate the complaint.

It is also illegal for a supplier to offer the person items at no cost to the person or offer to pay the Medicare coinsurance on items. If a supplier makes one of these offers, the person should file a complaint with the Part B carrier as described above.

NOTE: The durable medical equipment supplier must have the person's doctor's prescription before delivering any of the following items: seat lift chairs, power-operated vehicles, equipment for care of pressure sores or transcutaneous electrical nerve stimulators. In the case of seat lift chairs, Medicare covers only the lift mechanism, not the chair itself.

Medicare uses three methods of payment for durable medical equipment: Lease-purchase, lump-sum payment for purchase or rental charges. The Part B carrier will be able to provide more specific guidance to the person on which method will be used for a particular item.

R. Prosthetic Devices - Medicare Part B helps pay for prosthetic devices needed to substitute for an internal body organ. These include Medicare-approved corrective lenses needed after a cataract operation, ostomy bags and certain related supplies and breast prostheses including a surgical brassiere after a mastectomy. Medicare also helps pay for artificial limbs and eyes, and for arm, leg, back and neck braces. Medicare does not pay for orthopedic shoes unless they are an integral part of leg braces and the cost is included in the charge for the braces. Medicare does not pay for dental plates or other dental devices.

S. Medical Supplies - Medicare Part B helps pay for surgical dressings, splints and casts ordered by a doctor in connection with a person's medical treatment. This does not include adhesive tape, antiseptics or other common first-aid supplies.

3.1.87 Drugs And Biologicals

A. Pneumococcal Pneumonia Vaccine - Medicare Part B pays the full approved charges for pneumococcal pneumonia vaccine and its administration. Neither the $100 annual deductible nor the 20 percent coinsurance applies to this service.

B. Hepatitis B Vaccine - Medicare Part B helps pay for Hepatitis B vaccine administered to beneficiaries considered to be at high or intermediate risk of contracting the disease.
C. Hemophilia Clotting Factors - Medicare Part B helps pay for blood clotting factors and items related to their administration for hemophilia patients who are able to use them to control bleeding without medical or other supervision. The amount of clotting factors necessary to have on hand for a specific period is determined for each patient individually.

D. Blood - Medicare Part B helps pay for blood and blood components that a person receives as a hospital outpatient or as part of other services. See RCM 3.1.81 for an explanation of the blood deductible.

E. Antigens - Under certain circumstances, Medicare Part B helps pay for antigens prepare for the person by their doctor. They can check with the Part B carrier to see if Medicare will pay for their antigens.

F. Immunosuppressive Drugs - Immunosuppressive drugs are often given to prevent rejection of transplanted organs. Medicare Part B helps pay for drugs used in immunosuppressive therapy for one year beginning with the date of discharge from the inpatient hospital stay during which a Medicare-covered organ transplant was performed.

G. Epogen - Medicare Part B helps pay for the drug epogen (EPO) when used to treat Medicare beneficiaries with anemia related to chronic kidney failure, or with AIDS. The kidney failure patients are not required to be on dialysis. The EPO must be administered incident to the services of a doctor in the office or in a hospital outpatient department. Part B also helps pay for EPO that is self-administered by home dialysis patients or administered by their caregivers.

3.1.88 Medicare Payments For Non-Hospital Treatment Of Mental Illness

Medicare helps pay for services the person receives for nonhospital treatment of a mental illness. They may get the services from doctors, comprehensive outpatient rehabilitation facilities (CORFs), physician assistants, psychologists and clinical social workers.

These services for nonhospital treatment of a mental illness are subject to a special payment rule. In effect, once the annual deductible is met, Medicare Part B pays only 50 percent, not 80 percent, of approved charges for these services. On assigned claims, beneficiaries are responsible for paying the remaining 50 percent. For unassigned claims, beneficiaries may have to pay more. See RCM 3.1.100 for information about assignment.

Partial hospitalization services for treatment of mental illness are not subject to this special payment rule. Also, brief office visits for the sole purpose of monitoring or changing drug prescriptions used in the treatment of mental illness are not subject to this special payment rule. See RCM 3.1.86 for more information about partial hospitalization services.
3.1.89 Services Rendered Outside The United States

Services received outside the U.S. are generally not payable. Medicare Part B can help pay for services rendered in Mexico and Canada if certain situations exist.

- **FOR CANADA THEY ARE:**
  - the individual was in the U.S. when an emergency occurred and the Canadian hospital is closer than the nearest U.S. hospital which can provide the emergency services needed; or
  - the individual lives in the U.S. and a Canadian hospital is closer to his or her home than the nearest U.S. hospital which could provide the care needed, regardless of whether or not an emergency existed; or
  - the individual is in Canada traveling by the most direct route between Alaska and another State and an emergency occurs which requires an admission to a Canadian hospital (vacationing in Canada does not apply).

- **FOR MEXICO THEY ARE:**
  - the individual is in the U.S. when an emergency occurs and a Mexican hospital is closer than the nearest U.S. hospital which could provide the emergency services needed; or
  - the individual lives in the U.S. and a Mexican hospital is closer to his home than the nearest U.S. hospital which could provide the care needed regardless of whether or not an emergency existed.

**NOTE:** Medicare may not pay if the individual leaves the U.S. for a reason other than to obtain medical treatment (example: vocation), even though the medical emergency occurred within the U.S.

See RCM 3.8 for payment of Medicare services outside the U.S.

3.1.100 The Assignment Payment Method

Under the assignment method, a doctor or supplier agrees to accept the amount approved by the Medicare Part B MAC as total payment for covered services: the doctor or supplier agrees to "take assignment".

The assignment method can save a person money. The doctor or supplier sends the claim to Medicare. Medicare pays the doctor or supplier 80 percent of the Medicare-approved amount, after subtracting any part of the $100 annual deductible not yet met. The doctor or supplier can charge only for the part of the $100 annual deductible not met and for the coinsurance, which is the remaining 20 percent of the approved amount.
Of course, the doctor or supplier also can charge for services that Medicare does not cover.

Doctors and certain other practitioners and suppliers must take assignment on all claims for services furnished to Medicare beneficiaries who are eligible for medical assistance through their State Medicaid program, including Qualified Medicare Beneficiaries. See RCM 3.1.22 for Assistance for Low-Income Beneficiaries.

3.1.101 Participating Doctors And Suppliers

Doctors and suppliers may sign agreements to become Medicare participating. Medicare-participating doctors and suppliers have agreed in advance to accept assignment on all Medicare claims. Doctors and suppliers are given the opportunity to sign participation agreements each year. Medicare participating doctors and suppliers can display emblems or certificates which show that they accept assignment on all Medicare claims.

The name and addresses of Medicare-participating doctors and suppliers are listed, by geographic area, in the Medicare-Participating Physician/Supplier Directory. A person can get the directory for their area free of charge from the Medicare Part B MAC; or they can call the toll-free telephone number and ask for names of some participating doctors and suppliers in their area. Also, this directory is available to look at in any RRB field office, SS office, State and area offices of the Administration on Aging and in most hospitals.

3.1.102 When A Doctor Does Not Accept Assignment

If a doctor or supplier does not accept assignment, the patient must pay the doctor or supplier directly. The patient is responsible for the part of the bill that is more than the Medicare-approved amount, up to the limit explained below. The patient must pay this amount because the doctor or supplier did not agree to accept the Medicare-approved amount as payment in full. In this case, Medicare pays the patient 80 percent of the approved amount, after subtracting any part of the $100 annual deductible the patient has not met.

Even though a doctor does not accept assignment, there are limits on the amount that they can actually charge a patient. In 1992, the most a doctor can charge a patient is 120 percent of the fee schedule amount for non-participating physicians. The fee schedule is explained under Medicare Approved Amounts, see RCM 3.1.104. Doctors who charge more than these limits may be fined. If a person thinks they have been charged more than the acceptable level, they should call or write the Medicare Part B carrier.

Special rules for doctors performing elective surgery: In addition to the limit on charges, Medicare law requires doctors who do not take assignment for elective surgery to give the patient a written estimate of the patient's costs before the surgery, if the total charge for the surgical procedure is $500 or more. If the doctor did not give a written estimate,
the patient is entitled to a refund of any amount they paid the doctor over the Medicare approved-amount.

Many doctors and suppliers who do not take assignment on all claims may take assignment on some or most claims. The patient should ask the doctor or supplier whether they will take assignment on claims.

Examples of two payments for the same service are show below. Dr. A accepts assignment. Dr. B does not accept assignment. In both examples, the patient has already met the $100 deductible.

3.1.103 Participating Providers

Hospital, skilled nursing facilities, home health agencies, hospices, comprehensive outpatient rehabilitation facilities and providers of outpatient physical and occupational therapy and speech pathology services are all participating providers under Medicare Part B. They submit their claims to Medicare and must accept the Medicare-approved amount as payment in full for covered services. Medicare subtracts any deductible not met and any coinsurance amount and pays the provider. The provider then bills the patient for only those deductible and coinsurance amounts.

3.1.104 Medicare-Approved Amounts

Medicare Part B payments are based for the most part on Medicare fee schedule amounts. The fee schedule for physicians and certain suppliers lists payments for each Part B service and takes into account geographic variation in the cost of practice. The fee schedule amount is often less than the actual charges billed by doctors and suppliers. Part B usually pays 80 percent of the fee schedule amount, even if it is less than the actual charge.
When a Part B claim is submitted, the Medicare Part B carrier compares the actual charge shown on the claim with the fee schedule amount for that service. The Medicare-approved amount is the lower of the actual charge or the fee schedule amount.

3.1.105 Submitting Part B Claims

A. **Doctors, Suppliers and Other Providers Must Submit Claims For Medicare Patients** - Since September 1, 1990, doctors, suppliers and other providers of Part B services have in most cases been required to submit Medicare claims for the patient, even if they do not take assignment. They must submit the claims within one year of providing the service or may be subject to certain penalties. If a person has other health insurance that should pay before Medicare, that person can submit their own claims. See Person Files Their Own Claim, below.

   The person should contact the Medicare Part B MAC if their doctor or supplier refuses to submit a Part B Medicare claim for them if the person believes the services may be covered by Medicare.

B. **Doctor or Supplier Submission of Claim** - A doctor or supplier must submit a form, call a CMS-1500, requesting that Medicare Part B payment be made for covered services, whether or not assignment is taken. The doctor or supplier should complete the CMS-1500 and send it to the Medicare Part B carrier. The claim form should not be sent to RRB because it will delay the payment of the claim. When RRB receives a claim form, they forward it to the Part B MAC. The doctor or supplier orders and pays for a supply of the forms used for submission to Medicare. This is the same form that is used by SS beneficiaries.

C. **Enrollment in a Coordinated Care Plan** - If a person is enrolled in a coordinated care plan, a prepaid health care organization such as an HMO, a claim will seldom need to be submitted on their behalf. Medicare pays the HMO a set amount and the HMO provides their medical care. In most cases, the person is required to receive all non-emergency care through their HMO, or through arrangements made before they receive care. However, if a person gets an out-of-plan service, the claim should be submitted directly to the HMO.

   The person should consult their HMO membership handbook, or contact the HMO if their doctor or supplier needs an address.

D. **Person Files Their Own Claim** - In some cases, a person may need to file their own Medicare Part B claims. They may file their own claims for:

   - services covered by Medicare for which a person has other health insurance that should pay first on their claims;

   - services not covered by Medicare for which they want a formal Part B coverage determination;
• services provided that a doctor or supplier refuses to submit for a person, even though it is required by law;

• services provided outside the U.S.; and

• used durable medical equipment purchased from a private source.

The claim form, G-740s, should be sent to the Medicare Part B MAC.

This is a RRB stocked form and has the Medicare Part B carrier's address pre-printed on it.

E. **Time Limits** - Under the law, there are time limits for a person submitting their own Medicare Part B claims. For Medicare to make payments on a claims, they must be sent within the time limits. Medicare claims must be filed no later than 12 months (or 1 full calendar year) after the date when services were provided.

F. **Late Filing Due to Administrative Error** - When an error by RRB, SSA, CMS, an intermediary or a MAC caused the failure of the provider to file a timely request for payment, the time limit for filing is extended through the last day of the sixth calendar month following the month in which the error is corrected, but not beyond December 31 of the third calendar year after the year in which the services were furnished.

G. **Claims for a Person Who Has Died** - When a Medicare beneficiary dies, the way Medicare pays Part B claims depends on whether the doctor's or supplier's bill has been paid. Any Part A payments due to the hospital, skilled nursing facility, home health agency or hospice will be made directly to the provider of services.

If the physician or supplier had agreed to accept assignment before the person's death, payment will be made to the physician or supplier.

If the bill was paid by the patient or with funds from the patient's estate, Medicare's payment will be made either to the estate representative or to a surviving member of the patient's immediate family. If someone other than the patient paid the bill, payment may be made to that person.

If the bill has not been paid and the doctor or supplier does not accept assignment, the Medicare payment can be made to the person who has or assumes legal obligation to pay the bill for the deceased person.

The Part B MAC can provide the person, who is trying to get a Part B claim paid, with additional information about how to claim a Medicare Part B payment after a patient dies.
3.1.106 Explanation Of Your Medicare Part B Benefits Notice

After a doctor, provider or supplier sends in a Part B claim, Medicare will send a notice called Explanation of Your Medicare Part B Benefits (EOMB) to tell the decision of the claim. If payment is being made to the person, the EOMB will accompany the check. In assignment cases, a copy of the EOMB is sent to the person.

For services of a physician, this notice shows what services were covered, what charges were approved, how much was credited toward the $100 annual deductible, and the amount Medicare paid. For other Part B services the notice shows similar information. The person should examine the notice carefully. If they believe payment was made for a service or supply they did not receive, or the payment is otherwise questionable, they should call or write the Medicare Part B MAC.

Any person needing a duplicate EOMB should be referred to the Medicare Part B MAC. Written requests to the Part B carrier should contain the person's full name, address and Medicare claim number.

The address and toll-free telephone number of the Part B carrier is printed on the EOMB.

3.1.107 The Medicare Part B Carrier now known as the Medicare Administrative Contractor

A. Background - The Travelers processed Part B claims for QRRB's from 1966 through 1992. For 26 years, the contract with the Travelers was not subject to competitive bidding. In December 1991, a majority of the Board approved publication of its intent to solicit bids for the contract for RRB’s Part B carrier for Fiscal Year 1993. The RRB staff developed a Request for Proposals, which solicits bids, which are then evaluated by RRB staff. A recommendation is then made to the Board. Since 1991 The Travelers Insurance Company, Metra Healthcare and United Healthcare have held the contract.

The current Medicare Part B MAC is Palmetto GBA. RRB's arrangement with the Part B carrier is unique in that it is a nationwide operation. The Part B MAC can also process Part B claims for some SS beneficiaries with its agreements with CMS for some States. The Part B carrier can also be a Part A intermediary in several States.

B. Calling The Part B MAC - The Part B MAC has an automated telephone answering system to help make their responses faster and more accurate. When a person calls, they will be connected to a special automated voice system. If the person has a touch-tone telephone, they should follow the instructions they receive over the phone to get information about the status of their claims.

If a person needs other information or wants to talk about a claim, they can ask the system to connect them with a customer service representative at any time.
If the person does not have a touch-tone telephone, they should stay on the line after they dial and they will be connected to a customer service representative. The toll-free number is 1-800-833-4455.

If a person advises he is unable to contact the Part B MAC because the toll-free number is busy, suggest the call be made early in the morning or late in the afternoon because the volume of calls are lightest at those times. If repeated inquiries are received, contact the assistance manager or supervisor of beneficiary services.

Any inquiries you have on behalf of a person should be made to the assistant manager or supervisor of beneficiary services.

C. General Processing Procedure by The Part B MAC for Payment of Part B Claims

- **Beneficiary Has Part B Coverage** - The Part B MAC will determine the Medicare approved amount, subtracting any of the annual deductible that needs to be met, and issue the Medicare payment.

  If payment is being made to the person, he/she receives an Explanation of Medicare Benefits (EOMB) with the Medicare benefit payment. In assignment cases, both the physician or supplier and the person are sent EOMB's. The physician or supplier receives a composite check covering payment of several claims on a periodic basis, usually once a week or once a month.

- **Beneficiary Has No Part B Coverage** - If the person is not entitled to Part B benefits, a denial notice will be released.

  If the person advises he/she is entitled, the Part B MAC will check its records to determine if accurate data was used to process the claim the first time. If so, the Part B MAC will contact the MS for verification of coverage. If coverage is verified, the MS will be asked to correct the records at the CMS. The Part B MAC will then ask the MS for authorization to make a payment manually if:

  - The claim(s) submitted total $100, and
  - The claim is 90 days old.

If a physician or beneficiary does not cash a Part B benefit check for more than $5 within approximately 90 days of issue, the Part B MAC will contact the payee to determine why is was not negotiated. If appropriate, a duplicate check will be issued based on the beneficiary’s signed statement and the original check will be voided. The Part B MAC may request field office assistance if they are unable to contact the person. When the beneficiary cannot be reached, the Part B MAC will not void the check for at least 6 months.
3.1.108 Field Office Cooperation With Palmetto GBA

A. General - Field offices are responsible for seeing that QRRB’s in their area promptly receive the full benefits they are entitled to under Medicare. In carrying out this responsibility, each field office works with Palmetto GBA to achieve two goals:

- The prompt payment of Part B claims and
- To reduce the number of claims and bills returned to beneficiaries.

Field offices will not instruct Palmetto GBA on the processing of Part B claims. Field offices are expected to keep their regional directors and/or Operations--MS informed of the circumstances when it appears action taken or not taken by Palmetto GBA may not be conductive to the prompt payment of claims, and in keeping with RRB policies regarding the payment of Medicare benefits.

Field offices will not accept an overpayment case directly from Palmetto GBA. After Palmetto GBA has exhausted efforts to collect, the case will be referred directly to Operations-MS for further action.

Some specific situations in which field offices may give assistance are:

- Helping to secure needed information in cases when Palmetto GBA is unable to obtain it by telephone.
- Assisting in obtaining information needed for the payment of claims where the beneficiary has died.

B. Processing Problems - Palmetto GBA may, at time, request field office assistance in clearing up problem cases. Palmetto GBA is instructed to contact the local RRB field office for any assistance on all cases involving QRRB's. There may be instances when the field office will have to contact the local SSA DO; do not encourage Palmetto GBA to by-pass the field office and directly contact the local SSA DO for assistance.

3.1.110 Appealing a Medicare Decision

If a person disagrees with a decision on the amount Medicare will pay on a claim or whether services they received are covered by Medicare, they have the right to appeal the decision. The notice the person receives from Medicare tells them the decision made on the claim and also tells them exactly what appeal steps they can take. Appealing decision by Part A providers, peer review organization, intermediaries, carriers and health maintenance organizations are discussed in the following sections.
3.1.111 Appealing Decisions Made By Providers Of Part A Services

In many cases the first written notice of non-coverage a person will receive will come from the provider of the services, for example, a hospital, skilled nursing facility, home health agency or hospice. This notice of non-coverage from the provider should explain why the provider believes Medicare will not pay for the services. This notice is not an official Medicare determination, but the person can ask the provider to get an official Medicare determination. If the person asks for an official Medicare determination, the provider must file a claim on their behalf to Medicare. Then, the person will receive a Notice of Utilization, which is the official Medicare determination. If the person still disagrees, they can appeal as shown in RCM 3.1.113.

3.1.112 Appealing Decisions Made By Peer Review Organizations (PRO's)

When a person is admitted to a Medicare-participating hospital, they will be given a notice called An Important Message From Medicare, see Exhibit 11 for a copy of this notice. The notice contains a brief description of PRO's, and the name, address and phone number of the PRO in the person's State. It also describes the person's appeal rights.

PRO's make determinations mainly about inpatient hospital care and ambulatory surgical center care. The PRO's decide whether care provided to Medicare patients is medically necessary, provided in the most appropriate setting, and is of good quality. When a person disagrees with a PRO decision about their case, they can appeal by requesting a reconsideration. Then, if they disagree with the PRO's reconsideration decision, and the amount remaining in question is $200 or more, they can request a hearing by an Administrative Law Judge. Cases involving $2,000 or more can eventually be appealed to a Federal Court.

If a person belongs to a Medicare HMO, the HMO will usually make decisions about the medically necessity, the appropriateness of setting and the quality of the care received. In most cases, the person does not have the right to appeal to the PRO, but they always have the right to register complaints about the quality of their hospital care to the PRO. See RCM 3.1.115 for more information about a person's appeal rights for members of HMO's.

NOTE: In the case of elective, non-emergency, surgery, either the hospital or the PRO may be involved in pre-admission decisions. If the hospital believes that the person's proposed stay will not be covered by Medicare, it may recommend, without consulting the PRO, that the person not be admitted to the hospital. If this is the case, the hospital must give the person its decision in writing. If the person or their doctor disagrees with the hospital's decision, they should make a request to the PRO for immediate review. If the person wants an immediate review, they must make their request, by telephone or in writing, within three calendar days after receipt of the notice.
3.1.113 Appealing Decisions Of Intermediaries On Part A Claims

The appeals procedures consists of three steps: reconsideration, hearing and a court review. The beneficiary must request each step within certain time limits and the amount in controversy must meet certain minimum dollar amount criteria.

A. Services Furnished in U.S. or Mexico - Appeals of decisions on most other services covered under Medicare Part A (skilled nursing facility care, home health care, hospice services and a few inpatient hospital matters not handled by PROs) are handled by Medicare intermediaries.

- **Reconsiderations** - After a person receives the official Medicare determination, the person should first seek assistance from the intermediary. If a beneficiary contacts a field office or headquarters regarding a Medicare payment after having contacted the intermediary, attempt to answer their questions. If necessary, contact the intermediary.

If the beneficiary is still dissatisfied he/she may request further consideration of his Medicare claim. If a person disagrees with the intermediary's initial decision, they have 60 days from the date they received the initial decision to request a reconsideration. The claim in question can be for any amount.

The request can be submitted directly to the intermediary or through any RRB office.

Any inquiry received in a field office or headquarters from a person must be stamped to show the receipt date to protect the filing date for the reconsideration. A request for reconsideration should include the beneficiary's Medicare claim number, name, address, a brief reason for dissatisfaction and a copy of the Notice of Utilization. It should be indicated on the statement whether it was prepared in the field office or in headquarters. Forward the request and a copy of the Notice of Utilization to the intermediary whose address is shown on the Notice of Utilization. If the intermediary cannot be determined, secure the information from the nearest SSA district office. Field offices should not forward the request to headquarters.

- **Hearing** - If the person disagrees with the intermediary's reconsideration decision and the amount remaining in question is $100 or more, they have 60 days from the date they receive the reconsideration decision to request a hearing by an Administrative Law Judge.

If an inquiry is received by telephone or in person and an SSA office is conveniently located, advise the person to contact the SSA district office. If the person will contact the SSA district office in person, he/she should take the reconsideration notice along whenever possible.
If an SSA office is not conveniently located, or a written inquiry is received, accept the request for a hearing. The request must include the person's Medicare claim number, name, address, brief reason for dissatisfaction and a copy of the reconsideration notice. Send the material to the SSA district office. Advise the beneficiary that he/she will receive notification from SSA.

- **Court Review** - If the person is still dissatisfied after the hearing examiner's decision and the amount is controversy is at least $1,000 or more, they can eventually be appealed to a Federal Court. The action must be initiated within 60 days after the receipt of the notice of the hearing decision.

B. **Services Furnished in Canada** - Since Canadian claims under Part A are processed and paid by RRB using funds from the RR account, RR Act appeals procedures apply. To initiate the process, a written statement requesting reconsideration must be submitted within 60 days of the decision notice to the beneficiary on the Part A Canadian claim.

### 3.1.114 Appealing Decisions Made By MAC On Part B Claims

A doctor must provide a person with a written notice if he or she knows or believes that Medicare will not consider a particular service reasonable and necessary and will not pay for it. This written notice must be given to the person before the service is performed and must clearly state the reasons the doctor believes Medicare will not pay. If the doctor does not give this written notice and the person did not know that Medicare would not pay for the services they received, they cannot be held liable to pay for them. However, if the person did receive written notice and signed an agreement to pay for the services so they could be treated, they will be held liable to pay.

This written notice is not an official Medicare determination. If the person disagrees with it, they may ask the doctor to submit a claim for payment to the Medicare Part B carrier to get an official Medicare determination, Explanation of Medicare Benefits (EOMB). The claim must be filed within the specific time periods shown in RCM 3.1.105. In some cases, the person can file the claim.

- **Informal Review** - When the person receives the EOMB and the person still disagrees, they have the right to appeal that decision. They have six months from the date of the initial decision to ask the Part B MAC to review it.

The person should first seek assistance from the Part B MAC. If a beneficiary contacts a field office or headquarters regarding a Medicare payment after having contacted the Part B MAC, attempt to answer their questions. If necessary, contact the Part B MAC. If the beneficiary is still dissatisfied he/she may request further consideration of his Medicare claim.

The person should complete Form G-790 (original only) or submit a statement with the same facts. If the beneficiary has additional evidence, it should be attached to the G-790 or the statement. Send the request to Palmetto GBA at the address...
shown on the EOMB. A review of the entire claim will be done by Palmetto GBA by someone who was not involved in the original decision. A letter will be sent to the person with an explanation and the results of the review.

- **Fair Hearing** - Then, if they disagree with Palmetto GBA’s written explanation of its review decision and the amount remaining in question is $100 or more, they have six months from the date of the review decision to request a hearing before Palmetto GBA’s hearing officer. The request must be in writing. The person may combine claims that have been reviewed or reopened within the past six months, to meet the $100 requirement.

  The person should complete Form G-791 (original only) or submit a statement with the same facts. A copy of the informal review should be attached as should any additional evidence. Send the request to the Palmetto GBA office which conducted the informal review.

  Palmetto GBA selects a person to act as a hearing officer. The person is usually an attorney, but does not have had any previous involvement in the case. The hearing officer notifies the beneficiary of the time and place of the hearing, the specific issues to be resolved, the person’s right to counsel or other representation, the right to bring witnesses, the importance of bringing all evidence and the necessity of promptly notifying the hearing officer in writing if the person has any objections. After the hearing, the hearing officer will make a decision and a copy will be mailed to the person.

  If the person does not wish to appear or have a representative appear at the hearing, he/she must waive this right in writing. The statement of waiver must be sent to the hearing officer. The hearing officer will then make a decision based on the evidence previously submitted. A copy of the decision will be mailed to the person.

- **Administrative Law Judge (ALJ) Hearing** - If the person disagrees with The Palmetto GBA hearing officer’s decision and the amount remaining in question is $500 or more, they have 60 days from the date they received the decision to request a hearing before an Administrative Law Judge. They may combine claims that have had a hearing decision within the past 60 days to meet the $500 requirement. Cases involving $1,000 or more can eventually be appealed to a Federal Court.

  A request for an ALJ hearing can be made by submitting a written signed statement. Requests for Part B ALJ hearings should be forwarded to:

  Centers for Medicare & Medicaid Services  
  Medicare Hearing Work Group  
  P. O. Box 26683  
  Baltimore, Maryland  21207
CMS controls requests and forwards them to a designated ALJ through SSA’s Office of Hearing and Appeals. Any subsequent development will be handled by the ALJ assigned to the case.

3.1.115 Appealing Decisions Made By Medicare Advantage Plans

A beneficiary has the right to a fair, efficient and timely process to resolve differences with their Medicare Advantage plan. This process includes the initial decision made by the plan, an internal review, and an independent external review. The person has the right to ask his or her plan to provide and pay for a service they think should be covered, provided, or continued. They can ask for a fast decision if they believe their health could be seriously harmed by waiting for a decision about service. The plan must then give an answer within 72 hours if the following applies:

- It determines the person’s life or health could be seriously harmed if the plan took the normal 14 days to respond, or

- A doctor supports the request and indicates the person could be harmed if the plan takes 14 days to respond.

If the plan denies this request, the plan must tell the beneficiary in writing, why it won’t provide or pay for a service, and how to appeal the decision. The person can ask for a copy of their file containing medical and other information about their case. The plan may charge for copying this information. There are five levels of appeal available to beneficiaries in Medicare Advantage plans.

A. Reconsideration

The first level of appeal is called “reconsideration”. The plan’s initial denial notice will explain how to file this appeal and the plan’s address. A request for reconsideration must be filed within 60 days of the date of the plan’s initial denial notice. The request must be in writing. Some plans will allow beneficiaries to file the request by telephone. The enrollee, their appointed representative, or their doctor can call or write the plan for an expedited reconsideration. Once the plan receives the request for reconsideration, the plan has 30 days (for a standard service request), 60 calendar days (for a payment request), or 72 hours (for an expedited request) to notify the beneficiary of its decision.

A written request for reconsideration must include the following:

- The person’s name, address and Medicare card number.

- The reason why they are appealing and any supporting documentation that they believe may help their case.

- The person’s signature or the signature of their appointed representative.
B. Review by an Independent Review Entity (IRE)

If the initial denial is upheld, a beneficiary’s appeal is automatically sent to an IRE for review. The review will be expedited if the IRE determines that the person’s life or health may be seriously jeopardized by waiting for a standard decision. The IRE has 30 calendar days (for standard service request for coverage), 60 calendar days (for a payment request), or 72 hours (for a expedited requests for coverage) to notify the beneficiary of its decision.

C. Hearing with an Administrative Law Judge (ALJ)

If the person disagrees with the IRE’s decision, they or their appointed representative can request a hearing with an ALJ. The request must be made in writing within 60 calendar days from the date of the notice of the IRE’s decision. The request must be sent to the location specified in the IRE’s reconsideration notice. To get an ALJ hearing, the projected value of the denied coverage must meet the minimum dollar amount specified in the reconsideration notice (claims may be combined to meet the minimum dollar amount). If the ALJ decides in the person’s favor, the plan has the right to appeal the decision by asking for a review by the Medicare Appeals Council.

D. Review by the Medicare Appeals Council

If the person disagrees with the ALJ’s decision, they or their appointed representative can request a review by the Medicare Appeals Council. The request must be made in writing within 60 calendar days from the date of the notice of the ALJ’s decision. The request must be sent to the location specified in the ALJ’s decision notice. The Medicare Appeals Council doesn’t review every case it gets. If they decide not to review a case, the beneficiary or the plan may ask for a review by a Federal court.

E. Review by a Federal Court

If the person disagrees with the Medicare Appeals Council’s decision, they or their appointed representative can request a review by a Federal court. The request must be made in writing within 60 calendar days from the date of the notice of the Medicare Appeals Council’s decision. The request must be sent to the location specified in the Medicare Appeals Council’s decision notice. To get a review by a Federal court, the projected value of the beneficiary’s denied coverage must meet the minimum dollar amount stated in the Medicare Appeals Council’s decision.

3.1.120 Medicare Related Systems

The RRB's primary Medicare health insurance processing system is the Medicare Information Recorded, Transmitted, Edited and Logged (MIRTEL) system.
MIRTEL records and maintains Medicare health insurance information for all eligible QRRBs and deemed QRRBs, both aged and disabled. Records are accreted to the MIRTEL file by manual input, mechanical attainment selection, applications input through APPLE, and information transmitted from SSA about SS benefits that RRB pays. Information in the MIRTEL file is maintained by manual input, premium payment, validation with the CHICO file, information received from SSA in the screening process, and information received from CMS for the State buy-in operation. MIRTEL generates screening records for jurisdictional clearance with SSA, records their reply, generates bills for the collection of Part B premiums or adjusts the monthly benefit to start, stop or change the deduction of the Part B premium and transmits record changes to the Entitlement Database (EDB) maintained by CMS.

The MIRTEL file contains a record for all eligible aged and disabled beneficiaries regardless of enrollment or monthly payment status. The record contains information about the beneficiary's current and prior enrollment status, State buy-in information and activity. Addresses are maintained on MIRTEL only for beneficiaries who pay their premiums by direct remittance. Those MIRTEL records not containing an address pick up the address from CHICO when it is required for any activity.

The record remains on MIRTEL until the beneficiary dies or there is loss of QRRB status. The MIRTEL record is then dropped 18 months after the date of death or loss of QRRB status.

In addition to the record under the RRB claim number, pseudo numbers are set up as a special cross-reference type record. This cross-reference record is set up mechanically whenever a record is established with a pseudo number. The record will be mechanically dropped whenever the primary record is dropped. The cross-reference record allows activity from SSA to come in under the pseudo number and be mechanically associated with the RR number and processed.

The MIRTEL master file is a “flat” file. Information from the MIRTEL file may be obtained from the following sources:

- **MIRTEL On-Line Inquiry (MOLI)** allows direct access to selected data in the MIRTEL file and the new Part C and D history tables. MOLI may be used whenever there is a need for current Medicare status information. Any new data entered and processed by MIRTEL during a nightly computer run will appear on MOLI the following day. The Part C and D information is updated monthly.

  Both the field office and headquarter's personnel have access to MOLI. See FOM-I-1540 for additional information about MOLI.

- **MIRF** - MIRF (MIRTEL film) is a monthly film of all records on MIRTEL. Included are both active and inactive records. When the data on MOLI is questionable, verify the information on the MIRF. (Note: Production of the MIRF file was discontinued in 2006.)
• **MMAC - MMAC** (Microfilm of MIRTEL activity) is a weekly record of all activity processed in the MIRTEL file. In addition to the activity, the MIRTEL record is shown both before and after the MIRTEL record was updated with the activity. Effective with MMAC files from January 2007, MMAC files are available on CD-ROM, rather than microfilm.

• **MEDDAR – MEDDAR** (Medicare Daily Activity Report) is produced on each business day on which there is a MIRTEL run, and provides a cumulative record of all activities processed in the MIRTEL runs from the beginning of the calendar month. The report is in claim number order and shows the most recent and all previous activities processed in MIRTEL in the calendar month to date. The date of the MIRTEL run is also shown for each activity processed. In addition, the report shows the Paid Thru Date and any Excess Premium Amount recorded on the MIRTEL master as of the date of the most current activity processed in MIRTEL.

• **MEDMAR – MEDMAR** (Medicare Monthly Activity Report) is produced following the last business day of each month and provides a cumulative record all activities processed in the MIRTEL runs during the calendar month. The report is in same format and contains the same information as the MEDDAR reports. Upon completion of each MEDMAR report, the MEDDAR reports for the month are deleted.

Field offices do not have access to MIRF, MMAC, MEDDAR or MEDMAR records. Therefore, if the field office believes that the data on MOLI is questionable, they should call MS to have them verify the information from other sources.

### 3.1.121 CMS's Systems

The Medicare Section and field offices have access to several CMS systems.

A. **Enrollment DataBase (EDB)** - In 1991, CMS resigned their Medicare Enrollment functional area. The EDB is the successor to the Health Insurance Master File, which was CMS's centralized source of beneficiary Medicare enrollment information before the EDB was created in 1991.

B. **BERT** - BERT is an acronym for an on-line software tool called the Beneficiary Enrollment ReTrieval system. BERT provides authorized users with the on-line capability to search for, access, and review both current and historical Medicare enrollment and entitlement data for a specific beneficiary on EDB.

The beneficiary's information is retrieved by entering a RR claim number or a SS number (SSN) and, optionally, a Beneficiary Identification Code (BIC). The BIC is the symbol and prefix for the RR claim number or the BIC at the end of the SSN. When only a RR claim number or a SSN is entered, BERT displays limited identification information for all beneficiaries associated with the RR claim number or the SSN. When both a RR claim number or a SSN and BIC are entered, BERT retrieves the enrollment record for the individual claimant.
identified by that RR claim number or SSN and BIC combination. A RR claim number or a SSN and BIC combination is also called the Medicare health insurance claim number.

The Medicare Section and field offices have access to BERT. See RCM 19.4 for additional information.

C. **ERNIE** - ERNIE is an extension of BERT and an acronym for an on-line software tool called the Enrollment Retrieval New Interactive Edit. ERNIE was designed to update beneficiary Medicare enrollment information.

Changes applied to ERNIE are immediately applied to the EDB. Updates, like changes to a beneficiary's Part A effective date, are applied to the EDB by ERNIE and forwarded to other systems where applicable. ERNIE shares changed information with the Common Working File (CWF), SSA, RRB and CMS's Group Health Plan (GHP) and Third Party Systems.

When ERNIE facilitates changes to beneficiary information found on EDB, ERNIE relies on BERT to retrieve information from EDB. BERT performs the retrievals of data that ERNIE acts upon. It is BERT that decides whether an accretion of a new beneficiary record will be allowed. ERNIE is only accessible from BERT because BERT must retrieve the beneficiary record.

MS can make limited changes to the EDB through ERNIE. These limited changes are changes that could be made using CMS's forms, such as to remove a date of death, change a date of birth, etc. The majority of changes to EDB are done through the MIRTEL system.

Field offices do not have access to ERNIE.

C. **Common Working File (CWF)** - RRB is not directly involved in handling Medicare claims or the payment of Medicare claims for services performed within the U.S. The CWF is a Medicare Part A/Part B benefit coordination and pre-payment claims validation system which uses localized databases maintained by designated contractors (Host sites). The Host site provides Medicare intermediaries and MAC (also known as satellites) with beneficiary entitlement and utilization data.

Under the CWF, the country is divided into nine processing sectors. A Host site runs the system for each sector and maintains a database with information on all Medicare beneficiaries assigned to the sector. Each Medicare intermediary and carrier is a satellite in an assigned sector. Generally, the sectors were made on a geographic basis. However, there are some exceptions to this geographic alignment for processing considerations. All QRRB's are housed in the south sector.
When a beneficiary receives Part A/Part B services, the provider of services (e.g., hospital, skilled nursing facility, hospice, home health agency, doctor or various suppliers of services) starts the claim process by submitting a bill/claim to, for Part A claims, to its intermediary and for Part B claims, to the Part B carrier. The intermediary or the Part B carrier reviews the bill/claim and enters it into their system. The intermediary or the Part B carriers' history is updated and the bill/claim is also transmitted to the CWF Host site. This is usually done overnight. The CWF Host site edits the bill/claim for validity, entitlement, remaining benefits and deductible status.

The CWF Host site compares the data on the bill/claim to the beneficiary’s utilization shown on the CWF Master File. The CWF Host site transmits a reply back to the intermediary or the Part B carrier within 24 hours of receipt of the bill/claim. If the bill/claim is correct, the Host site will advise the intermediary or the Part B carrier to make payment. If the bill/claim is incorrect, the Host site notifies the intermediary or the Part B carrier by correcting the bill (automatic adjustment) or reject (utilization reject).

The intermediary or the Part B carrier, upon notice from the CWF Host site, takes the indicated action to either pay the bill/claim as entered, pay the bill/claim but make an adjustment, deny the claim or wait because the CWF does not currently have the information needed to determine if the bill/claim can be paid.

The intermediary or the Part B carrier will also send the notification of payment, denial, etc. to the beneficiary.

The Host site is also in daily communication with CMS. It sends updated information to be added to CMS's EDB. It also receives updated beneficiary information from CMS which it uses to update its database.

The entitlement information on the CWF is established or updated when RRB establishes or changes a EDB record for a beneficiary.

Field offices do not have access to the CWF.

D. Medicare Beneficiary Database (MBD) - The Medicare Beneficiary Database (MBD) is CMS's centralized database of beneficiary information. The MBD data is divided into four categories: Beneficiary Profile, Entitlement, Coverage and Medicaid. Once fully populated and integrated with other systems, the MBD will be the authoritative source of all beneficiary-level Medicare information; and other information systems, such as BERT, will be phased-out. See RCM 19.5 for additional information.

The Medicare Section and field offices have inquiry access to the MBD.
### Exhibits

**Exhibit 1 - Legislative History Provisions**

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>7-1-66</td>
<td>Established health insurance program (Medicare) for people age 65 or older and insured under the SS Act or the RR Act. Eligible insured individuals may enroll for Part A three months before age 65 and any time thereafter. No premium for Part A. Eligible individuals may enroll for Part B during their IEP or in a GEP within three years of their IEP. Part B is voluntary with a monthly premium. After Part A is terminated twice, an individual cannot re-enroll. Eligibility determinations and enrollment under both parts is the responsibility of both SSA and RRB.</td>
</tr>
<tr>
<td>1-1-73</td>
<td>Three year limitation for enrollment in Part B following the individual's IEP eliminated.</td>
</tr>
<tr>
<td>2-1-73</td>
<td>RRB received legislative authority to enroll and collect medical insurance premiums for all QRRB's entitled to annuities.</td>
</tr>
<tr>
<td>7-1-73</td>
<td>Coverage extended to disabled beneficiaries under age 65. Eligibility determinations and enrollment the responsibility of SSA and of RRB for all QRRB’s. Coverage extended to individuals with chronic renal disease. Eligibility determinations and enrollment of all applicants the responsibility of SSA. EXCEPTION: When RRB is paying a social security benefit, RRB will enroll the individual for chronic renal disease (this is after SSA made eligibility, entitlement, etc. determinations) even though the individual may not be eligible based on the regular disability or aged provisions. Coverage extended to uninsured individuals on a voluntary basis. Eligibility determinations and enrollment of all applicants the responsibility of SSA. In addition to the premium for Part B, enrollees would pay a premium for Part A. Applicants for premium Part A must file in their IEP or GEP. Established automatic enrollment for Part B for U.S. residents receiving an SS benefit and RR annuity.</td>
</tr>
<tr>
<td>1-1-81</td>
<td>A survivor may be reimbursed for unpaid physician's bill.</td>
</tr>
<tr>
<td>Date</td>
<td>Event</td>
</tr>
<tr>
<td>------------</td>
<td>-----------------------------------------------------------------------</td>
</tr>
<tr>
<td>4-1-81</td>
<td>The GEP (January through March) eliminated. An individual may enroll for Part B in his IEP and any time thereafter.</td>
</tr>
<tr>
<td>10-1-81</td>
<td>The GEP from January through March of each year was re-established.</td>
</tr>
<tr>
<td></td>
<td>Only expenses in the current calendar year may be considered in meeting the Part B deductible.</td>
</tr>
<tr>
<td>1-1-83</td>
<td>Federal service after 12-31-82 can be used to qualify a person for Part A and Part B.</td>
</tr>
<tr>
<td></td>
<td>Passage of the Working Aged Provision requiring employer to provide the same group health insurance coverage to both age 65 working individuals and those younger, if the employer consists of 20 or more employees. Also, Medicare became secondary payer of benefits in these instances.</td>
</tr>
<tr>
<td></td>
<td>The Deficit Reduction Act of 1984 provided premium surcharge relief, retroactive to 1-1-83, to those affected by the Working Aged Provision.</td>
</tr>
<tr>
<td>5-1-86</td>
<td>Changes affecting the SEP eliminated the requirement that the individual previously enroll for Part A to be eligible for a SEP. A retroactive adjustment was made to remove those months which could not previously be excluded from the premium penalty calculation because of non-enrollment for Part A. Also, the EGHP could be based on being the worker or the spouse of a worker any age, not under age 70.</td>
</tr>
<tr>
<td>1-1-87</td>
<td>Working Aged Provision extends coverage to disabled individuals, if certain requirements are met. This coverage is limited to the period between 1-1-87 and 12-31-91 as set by law. This period of coverage is commonly referred to as the &quot;sunset provision.&quot;</td>
</tr>
<tr>
<td>1-1-89</td>
<td>First year of implementation of the Medicare Catastrophic Coverage Act of 1988 provided the following:</td>
</tr>
<tr>
<td></td>
<td>• Annual Part A deductible imposes one time each year. Benefit periods eliminated.</td>
</tr>
<tr>
<td></td>
<td>• Protection against back-to-back payment of the Part A deductible for December/January of any year beginning December 1988.</td>
</tr>
<tr>
<td></td>
<td>• Part A provides expanded skilled nursing care and home health care.</td>
</tr>
<tr>
<td></td>
<td>• Establishment of a supplemental catastrophic premium to be based on an individual's income tax liability and collected by the IRS.</td>
</tr>
<tr>
<td></td>
<td>• Establishment of a Part B catastrophic component based on residency to be collected with the Part B Medicare premium. There</td>
</tr>
</tbody>
</table>
were 3 categories of enrollees: residents of Puerto Rico ($1.30), residents of other U.S. Commonwealth/Territories ($2.10) and all others ($4.00).

- Out-of-pocket medical expenses covered under Part B limited to $1370.00. The annual Part B deductible, 20% coinsurance of reasonable charges and the Part B blood deductible applied to this limit. Any amount that exceeded reasonable charges was excluded and had to paid by the beneficiary.

- Home health care coverage increased to allow up to seven days a week for 38 days under Part B.

- Mammography screening provided for elderly and disabled beneficiary under Part B.

- Coverage provided for home IV drugs ($550.00 deductible and 20% coinsurance) and immunosuppressive drugs used in the second year after transplant ($550.00 deductible and 50% coinsurance for immunosuppressives).

- Part B covers drugs other than IV drugs and immunosuppressives ($600.00 deductible and 50% coinsurance applied to these other drugs).

  Coinsurance for drug coverage under Part B was reduced to 40%, and the deductible was $652.00.

  Coinsurance for drug coverage under Part B was reduced to 20% and the deductible was later to be determined.

<td>11-26-91</td>
<td>Sunset provision for SEP for the disabled was extended to 9-30-95.</td>
</tr>
</tbody>
</table>

**Exhibit 2 - Medicare Premium Freeze**

**1973 MEDICARE PREMIUM FREEZE**
A. **Premium Freeze** - Premiums were increased for the period starting July 1, 1973, even though they were covered by the price freeze in effect at that time. It was later announced that the 7-1-73 rates would remain in effect through 8-12-73. It was also announced that rates that were erroneously put into effect on 7-1-73 would actually by the rates for the period beginning 8-13-73. From an operational standpoint, it was necessary to arrive at a single rate for August 1973 for computational purposes. This rate was $6.10 and was referred to as a "simulated" rate. Effective 9-1-73, the monthly premium rates increased to $6.30 and the comparable increases for late filing.

B. **Freeze Adjustment** - The overcharge of premiums for July and August was refunded by increasing the December 1, 1973 annuity checks or by reducing bills for direct payees and third party payers. The following tables show the refunds for each month:

**REFUNDS FOR JULY 1973**

</table>
The cases that were not mechanically adjusted in the mass premium rollback adjustment of December 1973, were identified in the claim folder by a pink 805 form, headed "Possible Rollback - Possible Refund."

Manual handling was taken if a refund was to be made. A refund was not made unless an annuity payment (recurring or lump sum) was being made to an eligible individual. In such cases, the pink 805 was noted "Refund Amt" was added to the award computation and the adjustment was explained in the award letter.

The folder was routed to the Medicare section for a transfer of the funds.

A manual refund of the "Refund Amt" was not made if an annuity payment was not being adjusted unless a specific claim for the refund was made. Then, a Form G-804 was prepared.

</table>

Effective 1-90, the basic premium without penalty was $28.60. There is no catastrophic component due to the repeal of the Medicare Catastrophic Coverage Act of 1988. Repeal does not affect premium amounts for 1989. Rates for all three residency tables are the same effective 1-90.

**Exhibit 5a – IRMAA (Income Related Monthly Adjustment Amount)**

2017 Part B IRMAA Tables
Listed below are the 2017 Part B monthly premium rates to be paid by beneficiaries who file an individual tax return (including those who are single, head of household, qualifying widow (er) with dependent child, or married filing separately who lived apart from their spouse for entire taxable year) or a joint tax return.

**2011 - Part D - Supplementary Medical Insurance (SMI) Prescription Drug Account - IRMAA**

Starting January 2011, the Patient Protection and Affordable Care Act requires beneficiaries in Medicare Part D prescription drug coverage plans whose incomes exceed the same thresholds that apply to higher-income Part B beneficiaries to pay a monthly adjustment amount in addition to their regular Part D plan premiums.

**Part D Base Beneficiary Premium for 2011 - $32.34**

Listed below are the 2011 Part D monthly income-related premium adjustment amounts to be paid by beneficiaries who file an individual tax return (including those who are single, head of household, qualifying widow(er) with dependent child, or married filing separately who lived apart from their spouse for the entire taxable year), or a joint tax return.

### 2009 Part B IRMAA Tables

The 2009 income-related monthly adjustment amounts that are included in the Part B monthly premium rates paid by beneficiaries with modified adjusted gross incomes over prescribed thresholds are shown in the following tables. Calendar year 2009 is the third and final year of the phase-in of IRMAAs and, therefore, the first year in which affected Part B enrollees will pay the full amount of the income-related premiums. The monthly premium rates paid by beneficiaries who file an individual tax return (including those who are single, head of household, qualifying widow(er) with dependent child, or married filing separately who lived apart from their spouse for the entire taxable year), or a joint tax return are as follows.

<table>
<thead>
<tr>

Exhibit 10 - Hospital Benefits In 1989

Hospital Benefits - January 1, 1989 - December 31, 1989

A. Inpatient Hospital Services - Under the provisions of the Medicare Catastrophic Coverage Act of 1988, the "benefit period" was eliminated as a way of measuring the use of services under Part B. Effective January 1, 1989, the "benefit period" was replaced with a single annual deductible. Medicare paid for unlimited medically necessary inpatient hospital care after the annual deductible was paid.

A "carry-over" rule prevented the payment of back-to-back deductible amounts in December and January. If an individual paid a hospital deductible in December 1988, no additional deductible was required if he was still a patient in or was readmitted to a hospital in January 1989.

Because of the Repeal of the Medicare Catastrophic Coverage Act of 1988, the following exceptions apply:

For hospital services provided in 1990 and later, no day before January 1, 1990 can be used in determining the beginning of a benefit period. For example, if an individual was hospitalized for 6 days in December of 1989 and still was in the hospital or was readmitted to a hospital in January of 1990, a new "benefit period" began the first day in 1990 that the person was in the hospital. A new 90 days of coverage was granted.

"Lifetime reserve days" used before January 1, 1989, are counted with "lifetime reserve days" used after December 31, 1989, in determining if the 60 day limit was used. No "lifetime reserve days" were charged for 1989.

The hospital deductible did not apply for services provided January 1, 1990 or later, if:

- an individual was receiving inpatient hospital services during a continuous period beginning before and including January 1, 1990, and a deductible was imposed in 1989; or

- a "benefit period" began in January 1990 and a deductible was imposed for a period of hospitalization that began in December 1989; or

- a "benefit period" began before January 1, 1989, and did not end on January 1, 1990.

B. Skilled Nursing Facility (SNF) Services - Under the provisions of the Medicare Catastrophic Coverage Act of 1988, the post hospitalization requirements were
eliminated. Effective January 1, 1989, Part A helped pay for inpatient care in a Medicare certified SNF if both of the following conditions were met:

- a doctor certified that the care was needed and the patient actually received skilled nursing or skilled rehabilitation services on a daily basis; and
- the Medicare intermediary or the facility's Utilization Review Committee did not disapprove the stay.

Part A helped pay for up to 150 days in a calendar year. For the first eight days of care during the year, Part A paid for all allowable expenses except the daily coinsurance amount. (See Exhibit 7 for a list of SNF coinsurance amounts.) Part A paid all other allowable charges for up to 150 days even if the patient is discharged and readmitted to a SNF more than once during the year.

NOTE: The requirements for post-hospitalization did not apply to an individual receiving extended care services from a SNF during a continuous period beginning before (and including) January 1, 1990, until the end of the 30 consecutive day period in which the individual is not provided inpatient hospital or extended care services.

Exhibit 11 - An Important Message From Medicare

YOUR RIGHTS WHILE YOU ARE A MEDICARE HOSPITAL PATIENT

You have the right to receive all the hospital care that is necessary for the proper diagnosis and treatment of your illness or injury. According to Federal law, your discharge date must be determined solely by your medical needs, not by "DRGs" or Medicare payments.

You have the right to be fully informed about decisions affecting your Medicare coverage and payment for your hospital stay and for post-hospital services.

You have the right to request a review by a Peer Review Organization of any written Notice of Noncoverage that you receive from the hospital stating the Medicare will no longer pay for your hospital care. Peer Review Organizations (PRO's) are groups of doctors who are paid by the Federal Government to review medical necessity, appropriateness and quality of hospital treatment furnished to Medicare patients. The phone number and address of the PRO for your area are:

TALK TO YOUR DOCTOR ABOUT YOUR STAY IN THE HOSPITAL

You and your doctor know more about your condition and your health needs than anyone else. Decisions about your medical treatment should be made between you and your doctor. If you have any questions about your medical treatment, your need for continued hospital care, your discharge, or your need for possible post-hospital care,
don't hesitate to ask your doctor. The hospital's patient representative or social worker will also help you with your questions and concerns about hospital services.

**IF YOU THINK YOU ARE BEING ASKED TO LEAVE THE HOSPITAL TOO SOON**

Ask a hospital representative for a written notice of explanation immediately, if you have not already received one. This notice is called a "Notice of Noncoverage". You must have this Notice of Noncoverage if you wish to exercise your right to request a review by the PRO.

The Notice of Noncoverage will state either that your doctor or the PRO agrees with the hospital's decision that Medicare will no longer pay for your hospital care.

If the hospital and your doctor agree, the PRO does not review your case before a Notice of Noncoverage is issued. But the PRO will respond to your request for a review of your Notice of Noncoverage and seek your opinion. You cannot be made to pay for your hospital care until the PRO makes its decision, if you request the review by noon of the first work day after you receive the Notice of Noncoverage.

If the hospital and your doctor disagree, the hospital may request the PRO to review your case. If it does make such a request, the hospital is required to send you a notice to that effect. In this situation the PRO must agree with the hospital or the hospital cannot issue a Notice of Noncoverage. You may request that the PRO reconsider your case after you receive a Notice of Noncoverage but since the PRO has already reviewed your case once, you may have to pay for at least one day of hospital care before the PRO completes this reconsideration.

**IF YOU DO NOT REQUEST A REVIEW, THE HOSPITAL MAY BILL YOU FOR ALL THE COSTS OF YOUR STAY BEGINNING WITH THE THIRD DAY AFTER YOU RECEIVE THE NOTICE OF NONCOVERAGE. THE HOSPITAL, HOWEVER, CANNOT CHARGE YOU FOR CARE UNLESS IT PROVIDED YOU WITH A NOTICE OF NONCOVERAGE.**

**HOW TO REQUEST A REVIEW OF THE NOTICE OF NONCOVERAGE**

If the Notice of Noncoverage states that your physician agrees with the hospital's decision:

You must make your request for review to the PRO by noon of the first work day after you receive the Notice of Noncoverage by contacting the PRO by phone or in writing.

The PRO must ask for your views about your case before making its decision. The PRO will inform you by phone or in writing of its decision on the review.

If the PRO agrees with the Notice of Noncoverage, you may be billed for all costs of your stay beginning at noon of the day after you receive the PRO's decision.
Thus, you will not be responsible for the cost of hospital care before you receive the PRO's decision.

If the Notice of Noncoverage states that the PRO agrees with the hospital's decision:

You should make your request for reconsideration to the PRO immediately upon receipt of the Notice of Noncoverage by contacting the PRO by phone or in writing.

The PRO can take up to three working days for receipt of your request to complete the review. The PRO will inform you in writing of its decision on the review.

Since the PRO has already reviewed your case once, prior to the issuance of the Notice of Noncoverage, the hospital is permitted to begin billing you for the cost of your stay beginning with the third calendar day after you receive your Notice of Noncoverage even if the PRO has not completed it review.

Thus, if the PRO continues to agree with the Notice of Noncoverage, you may have to pay for at least one day of hospital care.

NOTE: The process described above is called immediate review." If you miss the deadline for this immediate review while you are in the hospital, you may still request a review of Medicare’s decision to no longer pay for your care at any point during your hospital stay or after you have left the hospital. The Notice of Noncoverage will tell you how to request this review.

POST-HOSPITAL CARE

When your doctor determines that you no longer need all the specialized services provided in a hospital, but you still require medical care, he or she may discharge you to a skilled nursing facility or home care. The discharge planner at the hospital will help arrange for the services you may need after your discharge. Medicare and supplemental insurance policies have limited coverage for skilled nursing facility care and home health care. Therefore, you should find out which services will or will not be covered and how payment will be made. Consult with our doctor, hospital discharge planner, patient representative and your family in making preparations for care after you leave the hospital. Don't hesitate to ask question.

ACKNOWLEDGEMENT OF RECEIPT

My signature only acknowledges my receipt of this Message from (name of hospital) on (date) and does not waive any of my rights to request a review or make me liable for any payment.

Exhibit 14 - CMS Forms

FOM PART I/ARTICLE 17/1730

CMS-l500, SUPPLIER'S REQUEST FOR MEDICARE PAYMENT

Doctors, hospitals, and other suppliers use Form HCFA-l500 to claim reimbursement under Medicare Part B. The Railroad Retirement Board does not stock Form HCFA-l500; a provider must request it directly from the Centers for Medicare & Medicaid Services. The form is also numbered RRB-l500.

Forward requests for reimbursement to the appropriate Part B carrier. For regular claims, that is Palmetto GBA. For durable medical equipment or supplies, this is the regional DEMERC. Current addresses are shown in the Medicare Handbook (Form RB-23).

Exhibit 16 - Letter To Enrollee - Referral of MA Plan Problem to CMS

Beneficiary's Name
Address

Dear :

The Centers for Medicare & Medicaid Services has overall responsibility for the Medicare program, including Medicare Advantage plans..

The responsibility for resolving problems that beneficiaries may have with Medicare Advantage plans rests with the Centers for Medicare & Medicaid Services' Regional Offices. Therefore, we have referred your recent inquiry to the Centers for Medicare & Medicaid Services, Regional Office, (enter the address of the regional office).

They will evaluate the situation and respond directly to you. If you have any further questions or additional material, you should write to the Centers for Medicare & Medicaid Services' Regional Office.

Very truly yours,

Director of Operations

3.2.1 Scope Of Chapter

This chapter describes the basic entitlement and eligibility criteria for Medicare hospital insurance (Part A) and Medicare supplementary medical insurance (Part B). It discusses how eligible individuals establish entitlement for both parts of Medicare and how the Railroad Retirement Board (RRB) establishes effective dates of coverage. Also, this chapter explains the events that can terminate coverage. We have also included the procedures applicable when an individual's enrollment or coverage rights are prejudiced due to government error or inaction and reconsideration rights.

3.2.5 Part A – Entitlement Provisions

To qualify for Part A, an individual can meet either the aged or disabled requirements.

A. Qualification Based on Age - An individual is entitled to Part A for the first month after June 1966 that he or she:
   1. attained age 65; and
   2. is entitled to a monthly benefit; or
   3. has attained status as a qualified railroad retirement beneficiary (QRRB).

B. Qualification Based on Disability - An individual under age 65 is entitled to Part A for the first month after June 1973 that he or she:
   1. has been entitled to social security disability benefits for 25 consecutive months prior to 12-1-80; effective 12-1-80, the months do not have to be consecutive; or
   2. could have been entitled to a social security disability benefit had he or she not already established entitlement to monthly benefits; or
   3. has attained status as a disabled qualified railroad retirement beneficiary (DQRRB).

3.2.6 Transitionally Insured Provision

An individual who does not meet the requirements under the regular insured provision, can become entitled to Part A coverage. Coverage begins with the first month after June 1966 in which the individual meets ALL of the following requirements:

A. Files an application with SSA for deemed insured Part A coverage; and

B. Is not, or, upon filing application, would not be, entitled to a monthly benefit; and does not meet the requirements for certification as a QRRB; and
C. Has attained age 65; and

D. Has, if he or she attains age 65 after 1967, not less than 3 quarter of coverage (QC's) for each calendar year elapsing after 1966 and before the year he or she attains age 65; and

E. Is a resident of the U.S.; and

F. Is a U.S. citizen or an alien lawfully admitted for permanent resident who has resided in the U.S. continuously for the 5-year period immediately preceding the month all other requirements are met; and

G. Is not precluded from entitlement because he or she is covered, or would have been covered currently had he or she enrolled under the Federal Employee Health Benefits Act of 1959; and

H. Is not precluded from entitlement because he or she has been convicted of certain crimes against the U.S.

The Social Security Administration (SSA) has jurisdiction of all transitionally insured individuals. For men who attain age 65 in 1975 or later, and women who attain age 65 in 1974 or later, the same fully insured status is required for Part A.

3.2.7 Voluntary Hospital Insurance

Effective July 1, 1973, Part A became available on a voluntary basis to uninsured persons excluded under the transitionally insured provision because they do not have sufficient QCs, or because they are, or could have been covered under the Federal Employees Health Benefits Act program. This coverage is commonly called "Premium-HI." This plan is administered by the Centers for Medicare & Medicaid Services (CMS). To be eligible for Premium-HI, an individual must be:

1. Age 65 or older; and

2. A resident of the U.S.; and

3. Either a U.S. citizen or an alien lawfully admitted for permanent residence who has resided in the U.S. continuously for at least the past 5 years; and

4. Simultaneously enrolled for Part B or currently entitled to Part B; and

5. Ineligible for Part A coverage under both the regular and transitionally insured provisions.

3.2.8 End Stage Renal Disease Cases

The 1972 Social Security (SS) Act amendments extended Medicare health insurance coverage to certain persons who have chronic renal disease (CRD) requiring
hemodialysis (including peritoneal dialysis) or kidney transplantation. Only insured SS Act workers and their spouses and dependent children were eligible for coverage. Medicare health insurance coverage based on CRD is termed R-HI and R-SMI. Entitlement to R-HI and R-SMI coverage extends only to the individual afflicted with End Stage Renal Disease (ESRD), not to other members of the family. The insured status requirement could be met by career railroad employees (and their spouses and dependent children) only if they also had sufficient work and earnings to be covered under the SS Act. However, the 1973 Railroad Retirement (RR) Act technical amendments extended protection of R-HI and R-SMI to career railroad employees and their spouses and dependent children based on entitlement to an annuity under the RR Act or on a fully or currently insured status counting RR Act compensation as though it were SS Act earning. The 1978 amendments further liberalized the qualifications for entitlement to R-HI and R-SMI.

For a railroad employee to qualify for R-HI coverage, he or she must:

1. Be medically determined to have a chronic kidney disease that required kidney dialysis or transplant to maintain life, and
2. Be insured under the SS Act on the basis of combined railroad and SS earnings, or be entitled to an RR Act annuity or monthly SS benefit.

For a family member to be eligible, he or she must meet the requirements of 1 above and also:

1. Be the spouse or dependent child of a railroad employee who is either insured under the SS Act on the basis of combined earnings or entitled to a monthly SS benefit, or
2. Be entitled to a RR annuity or a monthly SS benefit.

SSA has jurisdiction of Medicare coverage for ESRD only cases, even for railroad workers and their families. However, when an R-HI enrollee attains age 65 or becomes eligible for Medicare for the disabled, Medicare jurisdiction will be transferred mechanically to RRB from SSA. Persons inquiring about Medicare for ESRD should be directed to the SSA field office nearest them.

EXCEPTION: If RRB is paying a SS benefit (LAF E) and SSA determines that an individual is eligible for ESRD, RRB will establish the Medicare record with the information provided from SSA. If no information was provided, contact the SS program center to secure the information necessary to enroll the individual. This is true even if the individual is not yet eligible for Medicare based on the regular disability or aged provisions. For these cases, because of the MEDCOR edits, it is necessary to establish the MIRTEL record by creating a MEDCOR Activity 13L and then submit a MEDCOR Activity 21S. The screening request will reject. Await the Screening Reject Referral and force clearance with a MEDCOR Activity 32S. When action is completed, delete the referrals on MEDREF.
If a disabled child’s Medicare effective date based on CRD is prior to the attainment of age 20, the HI date of birth has to be changed to prevent rejects at CMS. If the date of birth is not changed, Referral Code 5052 – PART A EFF DATE FOR DIB BENE INCORRECT will be produced. The RR date of birth should be the correct date of the birth. The HI date of birth should make the disabled child age 20 in the month of the Part A effective date. This should be done when the Medicare record is initially set up.

### 3.2.9 Qualified Railroad Retirement Beneficiary

A "qualified railroad retirement beneficiary" (QRRB) is a person who has been certified by RRB to SSA under Section 7 of the RR Act of 1974. Certification refers to the screening process which is the notification RRB transmits to SSA that an individual is a QRRB entitled to Medicare, Part A and Part B or Part A only. A QRRB can be certified on the basis of age or disability.

### 3.2.10 Aged QRRB

An individual who has attained age 65 may be certified as a QRRB if he or she meets any one of the following qualifications:

1. Is entitled to an RR annuity or pension, even if the annuity amount is zero, or
2. Has filed an application for Part A with RRB and would be entitled to an RR annuity if he or she ceased compensated service and filed an application for such annuity, or
3. Has filed an application for Part A with RRB and would be entitled as the spouse of a RRB employee if the employee ceased compensated service and filed an application for an annuity, or
4. Is so related to an RR employee that he or she can be considered under the special SS guarantee provision in computing the amount of the employee's annuity. It is sufficient to merely establish the relationship necessary for O/M consideration; whether the O/M would apply is irrelevant. It is unnecessary to determine if earnings would preclude inclusion in the O/M.

Effective January 1, 2002, if there are 10 years of RR service or less, but at least 5 years of RR service after 1995, an individual is considered a QRRB, and could be enrolled for Medicare.

If the employee has 5 years of service prior to January 1, 2002, use January 2002 as the QRRB status date. If the employee has 5 years of service on or after January 1, 2002, use the date the 5 years of service is obtained as the QRRB status date.

In some cases, the QRRB status date is used to determine the Part A effective date, see RCM 3.1.12 and RCM 3.2.20.
A spouse age 65 or older can qualify as a QRRB under item 4 even though the employee is less than 65 and not eligible for Part A if she or he has filed an application for Part A purposes and:

1. The employee is 62-64 and is receiving a reduced age and service annuity.
2. The employee is receiving a full annuity at age 60 based on 30 years of service.
3. The employee annuitant is under age 62 and is under a DF.
4. The employee is not on the rolls but is
   - at least 62 and has 10 years of service, or less than 10 years but at least 5 years of service after 1995, or
   - at least 60 and has 30 years of service

If the residual lump sum has been paid to any type of widow(er) because that person's annuity rate is zero, the widow(er) is considered entitled to an annuity and to be QRRB.

### 3.2.11 Disabled Qualified Railroad Retirement Beneficiary

An individual who is under age 65 may be certified as a disabled qualified railroad retirement beneficiary (DQRRB) if he or she meets the following qualifications:

1. Has been entitled to an RR annuity, even if the annuity amount is zero, or could have been considered in the computation of an annuity under the special SS guaranty provision, for at least 24 consecutive months prior to 12-1-80; effective 12-1-80, the months do not have to be consecutive, and
2. Has met the criteria for a disability benefit under the SS Act for at least 24 consecutive months prior to 12-1-80; effective 12-1-80, the months do not have to be consecutive.

See RCM 3.2.22.

RR Act annuitants who are receiving non-disability annuities can be deemed entitled to a disability benefit in order to establish entitlement to Medicare.

In addition, an employee annuitant must -

1. Satisfy SSA disability medical criteria,
2. Have a freeze-insured status, and
3. Satisfy the waiting period requirement.

A widow must -
1. Be at least 52 years of age,
2. Satisfy SSA disability medical criteria, and
3. Satisfy the waiting period requirement.

A child annuitant must -
1. Be at least 20 years of age, and
2. Satisfy SSA medical criteria for a child's disability benefit.

3.2.12 Deemed QRRB

An individual is considered to be a "deemed qualified railroad retirement beneficiary" (deemed QRRB) if he or she:

1. Is entitled to SS benefits based on his or her own wages and self employment income and is the spouse of an individual who has 120 months of creditable railroad service, or if less than 120 months, has at least 60 months of creditable railroad service after 1995; or

2. Is entitled to SS benefits based on the wages and/or self employment income of an individual who has 120 months of railroad service, or if less than 120 creditable railroad service, has at least 60 months of railroad service after 1995 (except a survivor of such an individual if the individual did not have a current connection with the railroad industry at the time of death).

The fact that an SSA award is certified to RRB for payment does not in itself make the beneficiary a QRRB. However, these individuals are deemed QRRBs for the purpose of convenience and consistency in handling claims. See 3.2.8 for information on ESRD cases.

3.2.13 Government Employment Quarters Of Coverage

A. General - Federal, State, and local government employment may be used in some cases to establish Medicare entitlement. QCs received for this type of employment are called Government Employment Quarters of Coverage (GEQCs). They cannot be used to establish entitlement to an annuity or a disability freeze. GEQCs should not be developed in all cases. First, every attempt should be made to establish Medicare based on railroad retirement earnings or social security wages. If this fails and if the application indicates government employment, an attempt should be made to establish Medicare based on government employment. General information about social security insured status can be found in RCM 5.6.5. Information about disability insured status can be found in DCM 6.3.2 and RCM 5.6.11.
B. Federal Employment — All wages paid to Federal employees after December 1982 are taxed for Medicare purposes. Federal quarters of coverage awarded January 1983 or later may be used to establish Medicare coverage.

In addition, a Federal employee may be granted deemed QCQs for Federal employment before January 1983 to establish Medicare coverage if:

- the employee was in an employer-employee relationship with the Federal government at anytime during January 1983, and;
- the employee was employed by the Federal government prior to January 1983.

Proof of Federal Employment - The employee must provide proof of Federal employment during the quarter(s) that he or she claimed to be entitled to GEQCs. In addition, if GEQCs are claimed for any quarter through December 1982, the employee must provide proof of employment by the Federal government during January 1983. In most cases, a DEQY will provide sufficient proof.

The term "employee" includes individuals in pay status (including those on approved annual leave or sick leave), those on approved "leave without pay", and certain other categories of individuals who are in non-pay status. If the individual was not in pay status or approved leave status, a statement from the employing agency that the individual was an employee at any time during January 1983 will suffice.

Form OPM 1528 is also acceptable proof of pre-1983 earnings as well as proof of Federal employment during January 1983. This form is given to employees when they leave Federal service. Other acceptable forms of proof may be W-2 forms, pay slips, or a signed statement from the employing agency certifying to the amount of wages paid each year as shown on the agency's records.

In cases in which the DEQY is not sufficient to determine GECQs in the pertinent time period, the employee should attempt to secure the necessary proof. Do not contact OPM. If the employee does not have the necessary documentation, advise him or her to write to the National Personnel Records Center to obtain a copy of his or her official personnel folder. The address is:

National Personnel Records Center
111 Winnebago Street
St. Louis, MO 63118-4126

The fax number is:
(314) 801-9270

It will be necessary to provide the railroad employee’s name, social security number, date of birth, and the name of the agency where the employee worked.
C. **State or Local Government Employment** - State or local government QCs awarded April 1986 or later may be used to establish Medicare coverage only. No quarters may be granted for employment before April 1986.

**Proof of State or Local Government Employment** - The employee must provide proof of employment during the quarter(s) that he or she claimed to be entitled to a GEQC. GEQCs cannot be awarded for government employment prior to April 1986.

In most cases, a DEQY will provide sufficient proof. Other acceptable forms of proof may be W-2 forms, pay slips, or a signed statement from the employing agency certifying to the amount of wages paid each year as shown on the agency's records.

D. **Disability Examiner Action** - If Medicare entitlement cannot be established in a disability cases based on railroad retirement earnings or social security wages, further development may be required. The disability examiner will check the application for an indication of Federal, State, or local government employment. If such employment is indicated, a DEQY must be requested. Upon receipt of the DEQY (or other acceptable proof), the disability examiner will determine whether the GEQCs will provide Medicare coverage.

1. **Federal Employment Claimed** - Under Public Law 97-248, Federal employment may be used in some cases to establish Medicare entitlement.

GEQCs are defined in item A above. An explanation of the Federal QCs that may be considered GEQCs is given in item B.

2. **State or Local Government Employment Claimed** - State or local government employment may be used in some cases to establish Medicare entitlement.

GEQCs are defined in item ‘A’ above. An explanation of the state or local government QCs that may be considered GEQCs is given in item B.

3. **Crediting GEQCs** - QCs for January 1978 or later may be determined as explained in RCM 5.6.18. Prior to January 1978, 1 quarter of coverage may be awarded for each $250 in wages in a calendar year up to the maximum of 4 deemed QCs if $1000 or more was earned in any 1 year. However, if using this deeming method results in the individual having insufficient QCs for Medicare, advise the employee that he or she can submit evidence, (e.g. paystubs, earnings and leave statements) of actual earnings in each quarter for the year in question. One QC may be awarded for each quarter in which there are wages of $50 or more.

3.2.14 **ALS (Lou Gehrig’s Disease) and Medicare Coverage**

Normally, to qualify for disability Medicare, RR Act annuitants and IPIs must meet SSA disability requirements for a period of 24 months of entitlement to an annuity. Medicare
coverage begins with the 25th month of annuity entitlement. The 24 months of actual or
deemed annuity entitlement cannot begin until after completion of a 5-month waiting
period. An applicant other than a child must be disabled for 5 full calendar months
before he or she becomes entitled to a period of disability under the SS Act.

Public Law 106-554, the Medicare, Medicaid, and SCHIP Benefits Improvement and
Protection Act (BIPA) of 2000, waives the 24-month waiting period for Medicare
coverage for disabled individuals diagnosed with Amyotrophic Lateral Sclerosis (ALS).

Effective July 1, 2001, persons who are determined to be disabled with Amyotrophic
Lateral Sclerosis, also known as Lou Gehrig’s disease, are entitled to Medicare (with
the right to refuse Part B) the month after the completion of the 5-month waiting period.
They do not have to meet the additional 24-month waiting period.

Starting July 1, 2001, this provision affects both new and current disability beneficiaries
with ALS. The earliest Medicare effective date for these individual is July 1, 2001.
Once an individual is determined to be disabled with ALS, the disability examiner will
forward the case to MS for enrollment.

These cases are not part of the attainment process. The enrollment will be manual.
Take the following action when enrolling an individual because of ALS:

1. Establish the MIRTEL Record by creating a MEDCOR Activity 13L. A MEDCOR
   Activity 12L will reject because the ABD and DF dates are required to verify the
effective date.

2. Once the MIRTEL Record is established, create a MEDCOR Activity 21S for the
   screening process.

Example 1:

The employee diagnosed with ALS has a DF date of 2-4-2001. His Medicare effective
date is 8-2001.

Example 2:

The employee’s DF is 11-16-1999. He is disabled because of ALS. His Medicare
effective date is 7-2001. This is the earliest date based on the law.

Example 3:

The employee’s DF is 10-23-2001, and he is disabled because of ALS. His Medicare
effective date is April 2002.

**3.2.20 Effective Date Of Part A Coverage Based On Age**

Part A coverage begins with the latest of the following:
• 7-1-66; or

• The month in which age 65 is attained; or

• The month in which the applicant attains status as a QRRB or insured status at SSA; or

• Effective September 1, 1983, 6 months before the month of filing an application which establishes entitlement for Part A. However, the effective date for the divorced spouse of a disabled employee may be 12 months before the filing date.

• Note: Prior to September 1, 1983, application filed at the RRB could have 12 months of retroactivity; and prior to March 1, 1981, applications filed at SSA could have 12 months of retroactivity.

• The Railroad Retirement and Survivors Improvement Act of 2001 (RRSIA) lowered the number of years of RR service required for RR benefits and RR Medicare. Prior to January 1, 2002, an employee had to have 10 years of RR service in order to be a QRRB. Effective January 1, 2002, if a RR employee has less than 10 years of RR service but has at least 5 years of RR service after 1995, they are considered a QRRB and could be enrolled for Medicare.

If the employee has the 5 years of service prior to January 1, 2002, use January 2002 as the QRRB status date. If the employee has 5 years of service on or after January 1, 2002, use the date the 5 years of service is obtained as the QRRB status date. In some cases, the QRRB status date is used to determine the Part A effective date.

RRSIA EXAMPLES:

Example 1:
If an individual is 65 in 11-2000; has 5 years of RR service in 9-2001 – QRRB status date is 1-02; and files in 1-2002 -
Part A effective date is 1-2002 and if yes to Part B, the Part B effective date is 7-2002.

Example 2:
If an individual is 65 in 11-2001; has 5 years of RR service in 2-2002 – QRRB status date is 2-02; and files in 3-2002 –
Part A effective date is 2-2002 and if yes to Part B, the Part B effective date is 7-2002.

3.2.21 Effective Date Of Part A Coverage Based On Disability

A. Introduction.

To qualify for Medicare, RRA annuitants and IPIs must meet SSA disability requirements for a period of 24 months all occurring after 6-71. Medicare
coverage begins with the 25th month. 7-73 is the earliest date on which Medicare entitlement can begin. The 24 months of actual or deemed entitlement cannot begin until after completion of a waiting period, when it is required (see B below). If there is an interruption in disability annuity entitlement after the 24-month period is started or completed, and the beneficiary subsequently becomes reentitled, only the balance of months needed to total 24 months of entitlement need to be completed. See RCM 3.2.22.

Partial months will be considered as full months when determining the Medicare beginning date. For example, an employee's disability freeze (DF) is effective 1-1-73. He chooses an annuity beginning date (ABD) of 8-7-73. The month of 8-73 counts as the first of the 24 months and Medicare coverage can begin 8-1-75.

Once it has been determined that the medical and insured status requirements have been met, the Medicare eligibility date will be established as follows:

1. In most cases, those awarded disability annuities and rated disabled under the SS Act will automatically be called up for establishment of the Medicare record and release of the enrollment package.

However, MS will manually establish an eligibility date and a call-up date in certain cases in which a disabled survivor child could have been included in the O/M prior to the effective date of the survivor annuity.

2. Non-disability annuitants and IPIs are not automatically called up. A manual tickler call-up must be entered to insure establishment of the Medicare record. This will be accomplished by completing Form G-65b for the 5th month before the Medicare beginning date.

A call-up established for a disabled retirement child or a disabled widowed mother remains open and effective even if, during the 24-month period, the child's status changes to a survivor child annuitant or the widowed mother's annuity changes to a DWIA or a WIA. The MS call-up should be closed out before the expiration date only if the disabled person recovers.

B. SSA Disability Waiting Period - Effective with benefits payable after 12-72 based on an application filed in or after 10-72, or an application filed before 10-72 on which a final determination was made in or after 10-72, an applicant other than a child must be disabled for 5 full calendar months before he becomes entitled to a period of disability under the SS Act.

There is no waiting period for children.

The 5-month waiting period applies to cases in which the disability onset date is 8-72 or later and the period of disability begins 1-73 or later, with Medicare coverage effective 1-75 or later. See RCM 1.2.120 for further information.
A 6-month disability waiting period must be served before entitlement to a period of disability in a case in which benefits would be payable under the SS Act before 1-73 or in which a final determination was made before 10-72.

The 6-month waiting period applies to cases in which the disability onset date is before 8-72 and the period of disability would begin before 1-73, with Medicare coverage effective before 1-75.

C. **Employee Cases** - The Medicare eligibility date for employee disability annuitants is automatically determined from the information supplied on Form G-325.

Shortly before the initial enrollment period (IEP) begins, a Medicare record will be established and clearance will be secured. Then, prior to the first month of the IEP, an enrollment package will be released.

The program does not provide for automatic selection of A&S annuitants who establish disability for Medicare only. Those cases in which a non-disability annuitant has been rate disabled under the SS Act are sent, after rating, to MS where manual call ups are set. Enter the call-up date on Form G-65b as the later of the following:

1. 24 months after the onset date shown in Item 26 of the G-325 (25 months if the waiting period is 6 months) (see B above), or
2. 19 months after the annuity beginning date shown on the award form.

This will be the 5th month before the Medicare beginning date.

**EXAMPLE:** Mr. Henry, born in 5-11 has been receiving an A&S annuity since 5-73. In 6-74, he files an AA-1d for Medicare purposes and is rated disabled effective 6-73.

MS will check to see if there has been entitlement to the A&S annuity from 6-73. If so, the Medicare eligibility date will be 11-1-75, 29 months from the onset date. Therefore, the tickler call-up will be entered for 6-1-75, the 5th calendar month before the Medicare beginning date.

D. **Retirement Child Case** - MS will enter a tickler call-up on Form G-65b for the 5th month before the Medicare beginning date. To determine the call-up date, add 19 months to the latest of the following dates:

1. The date the child attained age 18, or
2. The disability onset date entered in Item 28 of the G-325, or
3. The earliest date the child could have been included under the O/M, as shown in the remarks section of Form G-325 for a child who is not an IPI, or
4. The date the employee attained age 62, or

5. The date the employee became entitled to a DIB-O/M (5 or 6 months after his or her entitlement to a DF; see B above to determine the length of the disability waiting period).

If necessary, refer the case to the RBD to determine the O/M date to establish the correct Medicare effective date.

The case of each retirement child must be reviewed before the child is enrolled in Medicare. When the case is called up 5 months before the child is eligible for enrollment, MS will take the following actions:

1. Review the claim folder for any reports regarding the child. If the child has recovered, died, or married, do not take any action to enroll him or her.

   If the child has been employed since he or she was rated disabled and DPS has not reviewed the case since the employment was reported, refer the case to DSUBD for review.

   If he or she has been employed and the employment has been reconciled with the disability, enroll the child.

2. If there is no recent report on the child's employment and he or she has an SS number, send the case DSUBD for review.

E. Widow Cases - A disabled widow annuitant who also meets SSA's disability requirements will be automatically enrolled for Medicare when she becomes eligible.

   MS must set a manual call-up on Form G-65b for a disabled mother annuitant or an age 60-64 widow annuitant who establishes disability for Medicare only. Manual call-ups are established for the 5th month before the Medicare beginning date. Select as the tickler call-up date the later of the following:

   1. 24 months after the onset date entered in Item 28 of the G-325 (25 months if the waiting period is 6 months) (see B above), or

   2. 19 months after the annuity beginning date (as shown on the award form).

When a mother entitled to WCIA files for Medicare prior to 7-1-74, the application may be deemed to have been filed timely in the earliest month for which she met all eligibility requirements under the SS Act. Applications filed on or after 7-1-74 will have 12 months retroactivity.

EXAMPLE: Mrs. Curtis, born in 1922, has been receiving WCIA payments since 6-72. In 9-73 she submits a Medicare application and proofs establishing that her
disability began in 8-65 (Item 28 of the G-325). The call-up date will be 1-74, the 19th month after the 6-72 DOE.

If Mrs. Curtis had filed her Medicare application in 8-74, her application would have only 1 year retroactivity. The call-up date in that event would be 3-75, since her Medicare could begin no earlier than 8-75.

In some cases where the Part B effective date is retroactive, MS will immediately take action to establish a Medicare record.

**EXAMPLE:** Mrs. Scott, born in 1919 began receiving a WCIA in 5-71. In 3-74, she filed proof establishing that she met the SS Act requirements for a disabled widow's benefit on 5-1-71.

Since she could have been eligible for a DWIA at least beginning 5-71 and since she established this fact before 7-1-74, the 24-month period will begin at the earliest possible date, 7-1-71, with Medicare beginning 7-1-73. MS will take action to establish a Medicare record.

If she had filed the same evidence in 9-74, her Medicare application would have only 1 year retroactivity (9-73), with Medicare beginning 24 months later, on 9-1-75.

When a widowed mother (father) established disability during her WCIA entitlement, her 24-month period will not be disturbed as long as she is converted to a DWIA or WIA. If the widowed parent first files to establish disability when converted to a DWIA or WIA, MS can use WCIA entitlement to determine the Medicare beginning date.

**EXAMPLE:** Mrs. Conroy, born in 6-23, has received a WCIA since 9-72. In 4-74, the annuity is to be terminated because her only child will attain age 18. In 3-74, she files to establish disability when her WCIA is converted to a DWIA. She is rated disabled under both Acts back to 6-69, and her DWIA is effective 4-74. Her 24-month period begins 6-74, the date she attained age 50. (A widow is not entitled to Medicare until she attains age 52.) 10 months of WCIA entitlement (from 6-73 through 3-74) are used to satisfy the waiting period. MS will enter a 1-75 call-up on Form G-65b (19 months after 6-73).

**F. Survivor Child Cases** - A disabled child receiving a CIA, who meets the disability criteria of the SS Act, will be automatically selected for Medicare enrollment when he becomes eligible. However, MS must determine the Medicare effective date and take action to establish the Medicare record or set a manual call-up on Form G-65b for 4 months before the effective date in any case in which a disabled survivor child was or could have been included under the O/M before the employee's death. To determine the call-up date, add 19 months to the latest of the following dates:
1. The date the child attained age 18, or
2. The disability onset date entered in Item 28 of the G-325, or
3. The date the child was eligible for inclusion under the O/M; the latest of: the ABD of the employee’s annuity, the date the employee attained age 62 or became entitled to a DIB-O/M (5 or 6 months after his or her entitlement to DF; see B above to determine the length of the disability waiting period), or 1 year before the existence of the child was mentioned in file.

### 3.2.22 Reentitled To Medicare After Termination Of Disability

Public Law 96-265, the Social Security Disability Amendments of 1980, made a number of changes in the law designed to remove disincentives for disability annuitants to attempt to return to work.

Prior to the enactment of these amendments, an individual was required to be entitled to a disability annuity for 24 consecutive months before he or she was entitled to Medicare. Any interruption in the 24-month waiting period necessitated that a new 24-month waiting period be met before Medicare could begin. The 1980 amendments provided that the 24-months of the qualifying period need no longer be consecutive.

In addition, beginning December 1, 1980, months from previous periods of disability benefit entitlement can be counted in determining when the 24-month waiting period is met if:

- the current disability onset date is no later than 5 years (60 months) after the end of a prior period of disability entitlement for an employee; or
- the current disability onset date is no later than 7 years (84 months) after the end of a prior period of disability entitlement for a widow(er) or child disability annuitant; or
- the current disabling impairment is the same as, or directly related to, the impairment which served as the basis for disability during a previous period of disability benefit entitlement (applies to individuals whose prior period of entitlement ended after February 29, 1988); or
- an individual whose previous disability entitlement ended for non-disability reasons prior to March 1, 1988 is reentitled to disability benefits with the same disability onset date. (If the individual’s previous period of entitlement ended after February 29, 1988, prior months of entitlement may be counted under the preceding rule.)

The 60 or 84 month period begins with the month following the last month of disability benefit entitlement (whether or not the individual actually receives a benefit payment for that month). It ends with the month before the first month through all of which he or she
is again under a disability. To determine if the current onset is within the 5 or 7-year period specified above, count back 60 or 84 months beginning with the month prior to the month of current onset.

- If the employee was entitled to disability benefits during the 60-month period (or the widow(er) or child during the 84-month period), count all months all disability benefit entitlement in the prior period to determine when Medicare coverage begins.

- If the prior period ended more than 60 (or 84) months before the current month of onset, do not count the months in the prior period since the individual must begin a new 24-month qualifying period.

EXAMPLES:

1. Mary Jones was receiving a disabled widow's annuity with Medicare deductions. She recovered and her annuity was terminated effective January 1999. In June 2001, she is again entitled to a disabled widow's annuity with Medicare deductions. Medicare can begin immediately because a 24-month waiting period has already been met.

2. John’s disability entitlement (based on an onset date of August 15, 2000 and an annuity beginning date of February 1, 2001) ended September 2002 because he was working. If he becomes disabled again at any time within 60 months of the September 2002 termination, the months in the prior period can be counted in determining when Medicare coverage may begin, regardless of the relationship between the two impairments. For example, if he becomes disabled again in December 2003, the 20 months from February 2001 through September 2002 will count in satisfying the 24-month waiting period. However, if John becomes disabled again after the 60-month period, i.e. after August 2007, the previous months of entitlement may only be counted if the current impairment is the same as, or directly related to, the previous impairment. If the two impairments are not directly related, John would have to begin a new 24-month waiting period.

3. Jane, who has been disabled since birth, was entitled to Medicare as an IPI on her disabled father's record beginning November 1985, the month she attained age 20. Since Jane's father recovered from his disability, his entitlement to disability benefits ended May 1986. Both Jane and her father were entitled to Medicare at the time of termination. In September 1993, Jane's father again became disabled, and he was reentitled to disability benefits beginning March 1, 1994. Since his prior period of entitlement ended before March 1, 1988 and more than 60 months elapsed between the prior termination and current onset, he must serve a new 24-month waiting period and his Medicare will begin March 1, 1996. Jane, however, can be immediately reentitled to Medicare beginning March 1, 1994, because her previous entitlement ended for non-disability reasons.
These provisions were effective for all those on the disability rolls as of December 1, 1980 and later. Any months of disability entitlement prior to December 1, 1980 were counted toward meeting the 24-month waiting period requirement as long as all months included occurred within the 60 (or 84) month period outlined above. Therefore, cases involving annuitants who were on the rolls as of December 1, 1980 but not yet entitled to Medicare would become entitled to Medicare earlier than the date that was in the record for processing their attainments. Because there was no mechanical means of identifying these individuals, they were enrolled as they were discovered. Individuals not enrolled timely were eligible for equitable relief.

Handling of These Cases

Disability Examiner Action—

Send Form G-405 to MS to enroll the individual. Disabled beneficiaries especially are likely to need Medicare to help them financially handle their medical expenses. When possible, send Form G-405 to MS to enroll the individual for Medicare while waiting for field development or other actions. Normally, enrollment by MS requires less than 5 work days. MS will establish the Medicare record and if necessary, apply equitable relief. Refer to DCM 6.4.4 for additional information.

If the Medicare effective date is not provided in item 9 of Form G-405, enter it in Summary/Comments section of the form. In addition, always show the basis for establishing the Medicare effective date. For example, show:

- Current onset date is within 60 months of prior period of disability entitlement. 24-month waiting period requirement already met.
- Current onset date is within 84 months of prior period of disability entitlement. 18 months of 24-month waiting period requirement already met.
- Current disabling condition is same as condition during previous period of disability entitlement. 24-month waiting period requirement already met.

MS Action

If the Part A and Part B entitlement date is in the past, or 4 or less months in the future, prepare a MEDCOR activity code 12L if the individual has never been enrolled for Medicare before. If the individual was enrolled for Medicare before and there is still a MOLI record, prepare a MEDCOR activity code 22. If the individual was previously enrolled but the record has been dropped, prepare a MEDCOR code 22. Follow current instructions for preparing the MEDCOR activity except for the following changes:

- Ann Beg Date - always blank
- Dis Freeze Date - always blank

If the Part A and Part B entitlement date is 5 or more months in the future, set a call-up date to take the action prescribed above. See RCM 3.4.2.

3.2.23 Crediting Of Supplemental Security Income Entitlement Months Towards Disability And Medicare Waiting Periods

Under the Railroad Retirement Act (RR Act), a disabled widow(er)'s annuity or a disabled surviving divorced spouses annuity cannot begin until 5 full months have elapsed from the onset date of disability, and Medicare eligibility cannot begin until after 24 months of annuity entitlement have elapsed.

The Omnibus Budget Reconciliation Act of 1990, P.L. 101-508, provides that prior entitlement months to Supplemental Security Income (SSI) under Title XVI of the Social Security Act or federally administered State Supplementary Payments (SSP) can be used to satisfy the 5-month waiting period for annuity entitlement and the 24-month qualifying period for Medicare for disabled widow(er)'s and disabled surviving divorced spouses.

Our General Counsel has ruled that this provision applies to widow(er)s and surviving divorced spouses filing for an annuity under the RRA.

The same months of SSI/SSP which are credited toward the 5-month waiting period for widow(er)'s disability benefits may also be credited toward the 24-month qualifying period for Medicare.

Medicare coverage can begin the later of:

* the 25th month of entitlement to Railroad Retirement benefits while under a disability.

* the 30th month after the disability began.

However, the earliest possible original beginning date or Medicare entitlement date for a widow(er) based on this provision is January 1, 1991.

EXAMPLE: A widow files a disability application in January 1991. Her disability onset is established as June 1, 1989, based on medical/vocational criteria. She received SSI/SSP from June 1989 through December 1990 (19 months). Considering her entitlement to SSI/SSP, her original beginning date would be January 1, 1991, since the 5-month waiting period based on the SSI/SSP entitlement ended before January 1, 1991. Her Medicare effective Date would be June 1, 1991, which is the regular Medicare effective date of January 1, 1993 (the 25th month of annuity entitlement), minus the 19 months of SSI/SSP.
3.2.30 Supplementary Medicare Insurance – Part B

Part B is voluntary insurance, provided under Title XVIII of the SS Act. Part B pays a substantial part of enrollees’ expenses for physicians’ services, home health services, hospital outpatient services and medical and other health services not covered by Medicare's Part A.

Anyone who meets the eligibility requirements becomes entitled to Part B if he or she enrolls during a specified enrollment period. It is possible to be entitled to Part B without being entitled to monthly benefits or Part A (for SS beneficiaries only), but only for those aged 65 or over. Under the automatic provision, an individual is deemed to have enrolled in Part B upon becoming entitled to Part A.

Part B is financed through premiums paid by enrollees and money appropriated from general revenues. The general revenue contribution is about 3 times greater than the amount of premiums paid by enrollees. Premiums are deducted from RR annuities, RSDI benefits or Civil Service annuities, whenever possible. Otherwise, they are paid by direct remittance by or for the enrollee.

3.2.31 Definition Of Terms

Because of the distinctive meanings attached to the words below in the part of the SS Act relating to Part B, they are defined here as they are used throughout this chapter.

- **ELIGIBLE** - "Eligible" and its derivatives refer to the requirements the person must meet to be able to enroll during an appropriate enrollment period and thus qualify for Part B.

  This word is also used in referring to individuals enrolled by a State to indicate that they meet the State’s requirements for buy-in under Medicaid. It will be clear from the context when this meaning is intended.

- **ENROLL** - "Enroll" and its derivatives refer to the process by which an eligible individual establishes entitlement to Part B. There are three different enrollment processes.

- **ENTITLED** - "Entitled" describes an eligible person who has enrolled and is covered under Part B as of a legally-specified month, depending on when the enrollment occurred. Part B benefits are payable for covered services received while entitled.

- **ENROLLMENT PERIOD** - "Enrollment period" refers to the time established by law during which a valid request for enrollment may be filed.
3.2.32 Kinds Of Enrollment Periods

There are two types of enrollment periods for all enrollees: the initial enrollment period (IEP) and the general enrollment period (GEP). There is also a special enrollment period (SEP) for aged and disabled beneficiaries who are covered under group health plans based on employment.

3.2.35 Eligibility For Part B

A. Requirements for Eligibility - The eligibility requirements for Part B are separate and distinct from the requirements for Part A. Unless excluded from eligibility by 1 of the factors listed in 3.2.36, an individual is eligible to enroll for Part B if he meets either of the following requirements:

1. Entitlement to Part A - Entitled to premium-free Part A based on age, disability or ESRD, he or she is eligible for Part B.

2. Alternate Requirement - Not entitled to Part A, but he or she has attained age 65 and is a resident of the U.S. (including the District of Columbia, Puerto Rico, the Virgin Islands, Guam, or American Samoa); and is either:
   - a U.S. citizen, or
   - an alien lawfully admitted for permanent residence who has resided in the U.S. continuously for the 5-year period immediately preceding the month in which he or she effectively files for enrollment, i.e., the month when the alien will be entitled to Part B based on the enrollment request.

   The 5 years' continuous residence may begin prior to the date that the lawful admission for permanent residence is granted e.g., where the original admission was illegal, or under color of law.

B. First Month of Eligibility for Part B - An individual's first month of eligibility for Part B is the month in which he or she meets the requirements in A above. Where eligibility is based solely on entitlement to premium-free Part A, the first month for which the individual is eligible for premium-free Part A is the first month of eligibility for Part B.

   The month of first eligibility for Part B is the fourth month of the IEP. The first month of eligibility is not necessarily the first month of entitlement. The filing date controls the entitlement date.

C. Additional Considerations

1. Prescribed Enrollment Period - A person may enroll only during a prescribed enrollment period.
2. **No Limit on Number of Enrollments** - Effective 4-1-81, there is no limit on the number of times an individual may enroll and disenroll as long as the individual continues to meet the eligibility requirements for enrollment.

3. **Earliest Entitlement** - For the earliest possible entitlement (coverage), an individual should enroll during the first 3 months of their IEP, i.e., during the 3 months before the first month of eligibility, as defined in B above.

4. **Prior Enrollment** - Eligibility need not be developed for a person previously enrolled who seeks to reenroll. unless, there is a basis for believing that the person is no longer eligible, e.g., he/she is a non-beneficiary who has recently lived outside the U.S.

5. **Premium Indebtedness** - A person may reenroll even though he/she owes premiums for prior Part B coverage.

6. **Monthly Benefits Are Suspended** - Do not confuse non-coverage situations with non-entitlement situations. For example, incarcerated felons whose monthly benefits are suspended retain entitlement to monthly benefits and Part A, as well as eligibility for Part B. However, health care services received while incarcerated may not be covered under Medicare due to the governmental entity exclusion.

### 3.2.36 Limitations On Eligibility

No person can enroll for Part B if he or she:

1. Has been convicted of a crime against the U.S. referred to in section 202(u) of the Act, (such as espionage, sabotage, treason or sedition); or

2. Loses entitlement to Part A for any reason, and cannot qualify for Part B according to the requirements in 3.2.35.

Prior to the 1972 Amendments, the SS Act provided that an individual could not enroll for Part B for the first time unless he did so in his IEP or in a GEP that began no later than 3 years after the close of his IEP. An individual whose Part B coverage was previously terminated could reenroll only if he did so in a GEP that began no later than 3 years after the last day of his previous coverage. If a person who was denied Part B coverage in accordance with this regulation enrolls for Part B in a subsequent GEP, his coverage cannot be made retroactive by virtue of the 1972 Amendments.

In addition, prior to 4-1-81, any individual who had been enrolled twice and terminated twice could not enroll again for Part B, except if an individual was covered under a State buy-in agreement. This individual could terminate his Part B coverage after the State buy-in coverage terminated and reenroll in a GEP regardless of the number of prior enrollments in Part B.
3.2.37 References

Sections 1836 and 1837 of the SS Act and SSA's Regulations 42 CFR 407.1 - 407.32 are references for the above procedure.

3.2.40 Rules On Enrollment Periods

A. The First Enrollment Period For the Aged

1. Filing and Effective Dates - For persons who attained age 65 before 3-1-66, the enrollment period began 9-1-65 and ended 5-31-66. Their Part B coverage was effective 7-1-66.

2. "Good Cause" Provision - Those individuals who were age 65 and otherwise eligible to enroll before 3-1-66, but who did not file for Part B before 5-31-66, were eligible to file between 6-1-66 and 9-30-66, if they could show "good cause" for their failure to file during the IEP. The effective date for Part B coverage under this provisions was 6 months after the application was filed.

B. Specific Times for Enrollment - The law provides specific times for an individual to enroll or to be deemed enrolled in Part B.

The IEP is explained in 3.2.41. If the individual does not enroll in the IEP, or if the Part B is terminated, he/she can only enroll in a GEP, see 3.2.42. However, individuals with employer group health plan coverage may be eligible for a SEP, if they meet the requirements of 3.2.113, 3.2.114 and 3.2.115.

If coverage under a State buy-in agreement terminates, Part B coverage period continues on an individual basis as though the individual had enrolled in the IEP, i.e., with no penalty.

C. Filing Occurs Outside Enrollment Period - Unless automatic enrollment applies (see 3.2.50), an enrollment request filed outside an applicable enrollment period is not valid and must be denied.

If an individual files an enrollment request shortly before an enrollment period and the request has not been denied by the beginning of the enrollment period, ask the individual to file again as soon as the enrollment period begins. The premature request need not be formally denied if he/she files in the enrollment period.

If an individual's request for enrollment will be denied because it is not filed in an IEP or GEP, advise the individual that he/she may enroll during a subsequent GEP. See 3.2.105 where there is failure to advise the individual to file a valid enrollment request during a prescribed enrollment period.
D. Part B Rights For Those with Part A Who Develop ESRD.--A beneficiary on Medicare when he/she contracts ESRD has a second IEP, beginning three months before and three months after the first month of R-HI eligibility.

3.2.41 Initial Enrollment Period (IEP)

A. First Opportunity To Enroll -The IEP is the first opportunity an individual has to enroll in Part B. The IEP is based on the month of eligibility for Part A for those who are eligible for Part B based only on Part A entitlement.

B. Seven-Month Period - For those persons who attain age 65 on or after 3-1-66 and disabled individuals, the IEP is a 7-month period. The IEP begins on the first day of the third month before the first month of eligibility and ends on the last day of the third month following the first month of eligibility. If the last day of the IEP falls on a non-work day for Federal employees, by the statute or Executive Order, the enrollment period will be extended through the first regular work day after the end of the period.

EXAMPLE: An individual's first month of eligibility is 7-92. The IEP begins 4-1-92 and ends 10-31-92.

C. When Part B Will Begin - For an individual who first meets the eligibility requirements for Part A on or after 3-1-66 and the disabled and enrolls in the IEP, the Part B effective date is related to the month of enrollment, as follows:

- If a person enrolls during first three months of IEP (in the 3 months prior to the first month of eligibility for Part B), Part B effective date is the first day of the month of eligibility.

- If a person enrolls during fourth month of IEP (month of eligibility), Part B effective date is first day of the month after the month of eligibility.

- If a person enrolls in fifth month of IEP (month after the month of eligibility), Part B effective date is the first day of the second month after he files. Thus, if a person first meets the requirements in June and enrolls in July, Part B begins the first day of September.

- If a person enrolls in sixth or seventh month of IEP (2nd or 3rd month after the month of eligibility), Part B effective date is the first day of the third month after he files. Thus, if a person first meets the requirements in June and enrolls in August, Part B begins the first day of November. If enrollment is in September, Part B begins the first day of December.

This chart Illustrates the situations described above:
D. **More than one IEP** - An individual under age 65 may have more than 1 IEP if he/she establishes entitlement to Part A based on disability or ESRD more than once.

**EXAMPLE:** When a disabled person's disability entitlement is terminated, Part A and Part B are also terminated. Part A is reestablished based on a second period of disability entitlement, or based on ESRD. The beneficiary has a new IEP beginning three months before the new date of entitlement to Part A.

No matter how often, or under what circumstances, entitlement occurred prior to age 65, every eligible beneficiary has a new IEP at age 65. An individual age 65 or over has only 1 IEP, except where the aged individual develops ESRD after age 65 and may have a second IEP based on ESRD.

No months prior to a new IEP are countable for premium surcharge purposes. If the beneficiary had paid a surcharge during the earlier period of Part B entitlement, that has no effect on the premiums due for the new enrollment. If the beneficiary is paying a penalty rate, the premium rate is reduced to the basic rate when he/she attains age 65.
3.2.42 General Enrollment Period (GEP)

A. Definition of GEP - The first GEP began 10-1-67 and ended 4-1-68, with Part B effective 7-1-68.

Beginning in 1969, for enrollments in a GEP prior to 4-1-81 and after 9-30-81, a GEP is the first calendar quarter of each year (January through March).

For enrollments in a GEP during the period 4-1-81 through 9-30-81, a person could enroll for Part B after his IEP at any time during the year.

B. GEP Enrollment - A person who fails to enroll during his IEP, or refuses automatic enrollment, may enroll only during the GEP. The person whose Part B has ended because of non-payment of premiums or voluntary withdrawal from Part B, may reenroll only during the GEP.

However, for a person who becomes eligible for Part B and does not lose that eligibility, the only time enrollment after the IEP need not occur in a GEP is where the individual meets the requirements for a SEP, as described in 3.2.113, 3.2.114 and 3.2.115.

Consult 3.7 to compute the applicable Part B premium rate in effect at the time of enrollment.

C. Extension of GEP - When the GEP ends on a day which is a non-workday, e.g., Saturday, Sunday, legal holiday, etc., an eligible individual may enroll on the first regular workday after the end of the GEP.

D. When Part B Will Begin - Part B entitlement based on a GEP enrollment always begins July 1 of the year during which the GEP enrollment takes place, unless the enrollment was during 4-1-81 through 9-30-81. Then, the Part B was effective the first day of the third month after enrollment (i.e., an individual who enrolled on 9-23-83 had Part B coverage beginning 12-1-81).

E. Inquiry Late in GEP - Individuals who inquire by telephone about enrollment shortly before a GEP expires should be told to make their request for Part B enrollment on a letter or postcard and immediately mail it to RRB, if they are unable to visit the FO before the end of the GEP.

F. GEP Enrollment Handling by MS Examiners – MS examiners will normally process a GEP enrollment using a MEDCOR 11-27 activity if this is the applicant's first enrollment into Medicare Part B.

If the GEP enrollment occurs after the following scenarios, do not use a MEDCOR 11-27 activity to process the enrollment:

- If the beneficiary was previously offered an option for Medicare Part B.
• If this is the beneficiary’s second enrollment and a penalty rate was applied to the first enrollment.

• If this is the beneficiary’s third or subsequent enrollment in Medicare Part B.

For the instances listed above, the enrollment will need to be processed with a MEDCOR 32 long activity (clear jurisdiction and cross-reference from SSA at CMS). Examiners can use information found on the imaging system, PAR, MOLI, and BERT to verify previous periods of Part B entitlement.

### 3.2.43 Relationship Between Initial And General Enrollment Periods

An individual's IEP may overlap a GEP in whole or in part. In such a case, the following considerations apply.

A. **GEP Ends With or Before End of IEP** - When the GEP ends with or before the end of an individual's IEP, the GEP has no effect on either the individual's enrollment or date of coverage. That is, the enrollment is based on the IEP.

B. **IEP Ends Prior to End of GEP** - If the IEP extends into, but ends prior to, the end of the GEP, the individual has the benefit of the additional time remaining in the current GEP in which to enroll, with a July 1 effective date for Part B.

MONTHS elapsing between the end of the IEP and the end of the GEP may count against the individual for premium penalty purposes if the period of Part B coverage terminates and the individual subsequently re-enrolls.

**EXAMPLE:** Mrs. Benton was born 11-4-22. Her IEP is 8-1-87 through 2-29-88. If she enrolls in Part B during 1-88 or 2-88, it is considered an IEP enrollment. If she enrolls during 3-88, it is a GEP enrollment and coverage begins with 7-1-88.

### 3.2.44 Reference

The following references were used for the above procedure: Section 1837 of the SS Act, SS Amendments of 1965 - Section 103(b), P.L. 89-732, P.L. 90-97, P.L. 90-248, P.L. 92-603 and P.L. 96-499.

### 3.2.50 Nature And Purpose Of Automatic Enrollment

Under the provisions of Title XVIII as originally enacted, an individual eligible for Part B had to take the positive action of filing a written request for enrollment. While most individuals did enroll, some persons who wanted Part B failed to enroll at their first opportunity because of senility, misunderstanding, or other reasons. Since the enrollment provisions are so strict, many incurred medical expenses before they had the opportunity to enroll again.
To avoid loss of coverage, the law as amended effective 7-1-73, to provide that eligible persons are "automatically" enrolled for Part B when they first became entitled to Part A. As part of the notice of automatic enrollment, individuals are informed of their right to decline Part B and given a reasonable period to notify RRB that they do not want Part B. By giving timely notice, they will not be deemed to have enrolled, and will not incur any premium liability.

A person who first becomes entitled to Part A after 6-73, is deemed to have enrolled or is "automatically" enrolled for Part B in accordance with the following rules. Automatic enrollment does not occur if the individual files with RRB a timely refusal of Part B.

A. **During First 3 Months of IEP** - An individual is deemed enrolled for Part B in the first 3 months of the IEP if he/she either:

- qualifies for Part A without an application by attaining age 65 while on the benefit rolls; or
- qualifies for Part A without an application by being rated disabled under the SS Act and entitled to monthly benefits for the prescribed period of time.
- files during or before the first 3 months of the IEP, an application with RRB or SSA which establishes entitlement to Part A.

The individual becomes entitled to Part B beginning with the first month in which he or she is entitled to Part A.

**EXAMPLE:** Mr. Bennett established entitlement to disability beginning 7-89 and is entitled to Part A based on disability beginning 7-91, his 25th month of disability entitlement. He is deemed enrolled in disability Part B during the first 3 months of his IEP which began 4-1-91, and will be entitled to disability Part B beginning 7-91, the first month of disability Part A entitlement.

B. **After First 3 Months of IEP** - If a person files the application establishing entitlement to Part A in the last 4 months of the IEP or during a GEP, he or she is deemed to have enrolled for Part B at the time the Part A application is filed.

**EXAMPLE:** Mary Hanover did not file for monthly benefits and Medicare when she attained age 65 in 9-90. In 11-91, she filed and was awarded monthly benefits and Part A. She did not refuse Part B. Because filing occurred after her IEP, but not during a GEP, she is deemed to have enrolled in Part B during the next GEP (1-92 - 3-92) with coverage beginning 7-1-92.

### 3.2.51 When Deemed Enrollment Does Not Apply

A. **Persons Living Outside the U.S.** - The law excludes from automatic enrollment persons who reside in PR or outside the U.S.
A high proportion of eligible individuals in PR receive medical care without payment on the basis of actual or presumed need. For them, as for persons living outside the U.S., automatic enrollment generally would not be advantageous.

Such individuals are told about Part B and advised that, if they wish to have such protection, they must file an enrollment request.

B. Persons Who Are Not Entitled To Part A - Automatic enrollment applies only to individuals eligible to enroll by reason of entitlement to Part A. Beneficiaries not receiving an annuity who want Part B must file a request during an enrollment period open to them.

If a person files an application for Part A (or for an annuity and Part A), which is disallowed, he or she does not qualify for automatic enrollment. Therefore, that individual must file an enrollment request during an enrollment period.

Because of the possibility of disallowance, an individual who is age 64 or older should be asked whether or not he or she wants Part B when filing for monthly benefits. If the disallowed individual elects “no,” he or she will not be enrolled for Part B under any circumstances. If he or she elects “yes,” the individual will be enrolled if eligible for Part B and the application was filed during a prescribed enrollment period.

C. Refusal of Part B Before IEP - A "no" election filed by an individual who is awarded monthly benefits precludes automatic enrollment if the benefit award notice is mailed no earlier than 3 months before IEP begins.

D. New Opportunity At Age 65 - An individual attaining age 65 who refused deemed enrollment when eligible for Medicare based on disability or allowed Part B entitlement and it terminated, is deemed to have enrolled in the 3 months prior to attainment of age 65.

3.2.52 Notice Of Right To Refuse Deemed Enrollment

Notices of deemed enrollment in Part B are sent to persons on the benefit rolls prior to the beginning of their IEP. Generally, the G-41 and package are sent 6 months before the month of eligibility for aged cases and 5 months before the month of eligibility for disabled cases.

3.2.53 Refusal Of Part B

When a beneficiary states that he or she wishes to refuse Part B, make all reasonable efforts to assure that the individual understands the nature and effect of refusing or terminating Part B.
Every person who is "deemed" to have requested enrollment is notified that he or she has until a specified date (at least 2 calendar months after the month in which notice of Part B coverage is mailed) to notify RRB in writing that he or she does not wish Part B. If a timely notice to this effect is filed, the person is deemed not to have enrolled, and does not incur any premium liability.

A. Timely Filed Refusal - Notice of refusal is timely if filed before Part B coverage starts. In those cases where the notice of entitlement is sent less than 2 months before the Part B coverage is supposed to begin or if it is sent after Part B coverage would begin, the notice of refusal is timely filed if it is filed within 2 months after the month the notice of Part B coverage is mailed to the person.

B. Refusal Not Timely Filed - Any refusal received after the time indicated in A above is treated as a request for voluntary termination of Part B. Part B coverage ends with the last day of the calendar month after the calendar month in which the refusal is filed.

There are some cases in which a notice of Part B coverage may not have been mailed timely or was not received by the enrollee. In such circumstances, the first indication to the enrollee of coverage may be a premium billing notice, a reduced benefit check, or some type of post adjudicative notice.

If a signed refusal of Part B is received or post marked no later than 2 months after the earlier of the following, it is acceptable as a timely-filed refusal of Part B:

- the month in which the beneficiary states the notice was received; or
- the month in which the beneficiary received the first premium billing, reduced check, etc.

If filed later, the refusal of Part B is treated as a voluntary request for termination.

EXAMPLE: Mr. Roy filed for an annuity in 4-91, shortly before his 64th birthday. However, in developing proof of age, it was found in 9-91, that Mr. Roy was born in 5-26, rather that 5-27 as he had alleged. Since he did not say "no" to the Part B enrollment question on his application, he was notified in 9-91 that he was entitled to have Part A and Part B effective 5-91, subject to his right to refuse Part B by filing an appropriate notice no later than 11-30-91. If such notice is received by that date, Mr. Roy will be deemed not to have enrolled. If the notice is received after 11-30-91, it will be treated as a request for voluntary termination, effective with the end of the calendar month after the month in which it was filed.

C. Refusal Rescinded During IEP - If an individual refuses automatic enrollment but, during the balance of the IEP, changes his or her mind and files a Part B enrollment request, the request is a valid IEP enrollment, despite the prior refusal. Coverage begins as noted in 3.2.41, depending on which month the enrollment request is filed.
D. **Current Application is Pending** - Applications include enrollment information and an explanation that an eligible individual who establishes entitlement to monthly benefits and/or Part A is deemed to have enrolled in Part B unless he or she answers "no" to the enrollment question.

In some cases, an individual not yet eligible to enroll in Part B may become eligible before all issues are fully developed and resolved. Thus, there will be cases in which an individual's first notice of Part B entitlement is received long after the first month of Part B coverage. Any such person has at least 2 months in which to file a refusal of Part B without incurring liability.

Any individual who has not affirmatively stated that he or she wants Part B is sent a notice. The notice is not essential if the individual has requested Part B coverage.

E. **Refusal by Incompetent Person** - Neither the IEP nor a GEP can be extended for an individual because he or she is mentally incompetent during all or part of the period.

However, where a Part A beneficiary enrolled for Part A and refused enrollment

- could otherwise have been automatically enrolled in Part B, and

- is shown to have been mentally incompetent at the time of the refusal, he or she may be deemed not to have refused Part B. This is true even if the beneficiary currently has Part B based on an enrollment filed after the refusal.

An individual will be considered incompetent for purposes of this subsection on the basis of the following documents:

- signed statement from a physician indicating that the individual was incapable of managing his or her own affairs at the time the refusal was filed, or

- certified copy of a court order showing that, at the time the refusal was filed, the individual had been adjudged legally incompetent.

If the potential enrollee is the party making the request, evidence must show that the individual is now competent.

To set aside a refusal, the beneficiary's responsible representative (or the beneficiary, if now competent) must submit proof

- within 12 months of the first month of potential entitlement or,

- if later, within 12 months of the month of the refusal, that the beneficiary was mentally incompetent at the time the refusal was filed.
All premiums owed for the retroactive period must be paid or RRB authorized to withhold them from monthly benefits payable.

Begin Part B entitlement with the month coverage would have begun had the individual never filed the refusal.

**EXAMPLE:** Della K. Tessen, DOB 6-15-25, had been entitled to an annuity since she was age 63. In response to a notice of automatic enrollment, she refused Part B in 5-90. Although she subsequently enrolled in 8-90, the 6th month of her IEP, and was awarded Part B coverage as of 11-90, her sister contacted the FO in 12-90 to advice that Della was mentally incompetent and had been at the time she had refused Part B in 5-90.

If evidence shows that Ms. Tessen was mentally incompetent at the time she refused Part B and if premium withholding from her monthly benefit check for the retroactive premiums due is authorized, her Part B entitlement date may be adjusted to 6-90. Even if Della had not enrolled later during her IEP, she could nevertheless be awarded Part B as of 6-90.

### 3.2.54 References

Sections 1837 and 1838 of the SS Act and the 1972 Amendments, Section 206 are references for the above procedure.

### 3.2.60 Voluntary Request For Enrollment

A. **Who Must Enroll** - While most persons are deemed to have enrolled for Part B, many individuals are excepted from automatic enrollment and must enroll.

To be entitled, or reentitled to Part B, individuals or their representatives must file either a properly executed enrollment form or any signed statement that unequivocally shows intent to enroll.

The form or statement requesting Part B can only be filed with RRB or SSA during a prescribed enrollment period.

The date of receipt (or mailing, if material) of an equivocal signed statement or improperly executed enrollment form may serve as the enrollment date. However, it must be followed by an unequivocal request for enrollment within 60 days of the date the individual is notified of the need to submit such a request.

B. **Enrollment Form Completed Improperly** - Any form which is unclear as to whether the person wishes to enroll is an improperly completed enrollment form.

Any office receiving an improperly completed enrollment form should notify the potential enrollee that, to enroll, he or she must file, within 60 days of the date of the notice, a written statement clearly expressing this intention and bearing his or
her signature or properly witnessed mark (or that of a responsible representative). This may be done on an enrollment form (enclosed with the notice) or on a supplemental statement. If the individual fails to respond within 60 days, the incorrectly completed form is not effective.

Among the improperly completed enrollment forms which may establish the application date are those in which the individual:

- Signed but failed to answer "yes" or "no."
- Answered "yes" but failed to sign.
- Signed with an unwitnessed mark, with or without answering "yes" or "no."

If a person writes on an enrollment form "I am already enrolled" or a similar phrase, check for dual deductions. If the person is not enrolled, have the FO contact the person to clarify if he or she wants Part B coverage.

If the person writes "I am a welfare recipient" or any statement constituting an allegation of State buy-in coverage, the office receiving the qualified or restricted enrollment application should initiate action to resolve the issue.

Enrollment forms returned by mail which have been checked "no" but are unsigned are treated and acknowledged as declinations. No further development is required merely to obtain a signature.

### 3.2.61 Enrollment Form Not In File

The fact that an enrollment request cannot be located in RRB or SSA's files does not necessarily mean that one was not filed. An individual may insist that the enrollment request was mailed timely even though RRB or SSA has no record of the request. Generally, the sooner the individual inquires about disposition of the enrollment request after the alleged filing, the more weight can be given to the person's allegation.

Thus, despite the absence of an enrollment request in RRB or SSA’s records, a finding that the individual is effectively enrolled may be made where supported by adequate evidence. If SSA is involved, contact SSA first to see if they have any information in their file. If not, secure from the individual a signed statement which documents as fully as possible the circumstances surrounding the filing of the enrollment request (i.e., when, how, and where filed, etc.), along with any corroborating evidence available.

**EXAMPLES:**

- **Enrollment Was Probably Filed** - It would be appropriate to find that an enrollment was filed as alleged where an individual:
  - says he or she enrolled during a prescribed period and furnishes specific information as to the time and manner of filing;
• has followed up with RRB or SSA promptly to question why the enrollment has not been processed (i.e., no later than 3 months after premiums should have been deducted from monthly benefits or premium billing notices sent); and

• submits corroboration, if available, of filing at the time alleged (e.g., a statement from another person who of his or her own knowledge can give information as to the time and manner of filing).

There must be no basis in file for doubting the credibility of the allegation.

• Enrollment Probably Not Filed - A finding of enrollment would usually not be appropriate where:

  • RRB or SSA's records show that the individual refused Part B at, or shortly after, the time he or she allegedly mailed the enrollment request, or

  • the individual first inquires about his or her enrollment status 4 or more months after coverage would have started, or after incurring substantial medical expenses.

A decision on this matter is strictly judgmental. No decision made by RRB personnel on enrollment or non-enrollment under the circumstances given in this section should be challenged, unless there is evidence that the judgement is incorrect.

3.2.62 Who May Execute A Valid Request For Part B Enrollment

An individual who is competent and physically able to transact business must file his or her own request for enrollment. The enrollment request must be filed during a prescribed enrollment period.

An individual who is incompetent, or is competent but physically unable to apply for enrollment, may be enrolled by the legal guardian or representative payee, if he or she has one. If there is no representative payee (e.g., the individual is a nonbeneficiary), the person providing care and/or support may enroll the individual. If such person is unwilling or uninterested, some other relative or friend willing to assume responsibility for premium payments may file an enrollment request on behalf of the individual.

The Part B premium notices are sent to the person who filed on behalf of the incompetent individual as long as he or she has such individual in care or assumes responsibility for premium payment. When he or she no longer has the Part B enrollee in his or her care, the notices will be sent directly to the enrollee, unless another person applies to receive them.
3.2.63 Prescribed Enrollment Forms

Most people are eligible for automatic enrollment. For those who are not eligible for automatic enrollment or wish to reenroll after a termination of Part B, the following forms are used:

- **AA-6, AA-7 or AA-8** - Application for Medicare Enrollment for employee, spouse/divorced spouse and widow/widower - Application form used by individuals who are not eligible for monthly benefits. See 3.2.162.

- **G-44** - Application for Medical Insurance - Mechanically produced during the GEP solicitation.

- **G-44b** - Application for Supplementary Medicare Insurance - used

  - to enroll individuals (not subject to automatic enrollment) who applied for monthly benefits and/or Part A but did not indicate on the application whether they wished to enroll in Part B;
  
  - to enroll during the GEP;
  
  - to enroll during the IEP if Part B was refused earlier in that IEP; or
  
  - to enroll during a SEP if only Part B is being requested.

- **G-44f** - Application for Supplementary Medical Insurance for People Outside the U.S. - Form used by persons living outside the U.S.

**Enrollment Item on Other Applications:**

An individual may enroll for Part B by answering "yes" to the enrollment item appearing on an application for monthly benefits, AA-1, AA-3 or AA-17.

RBD or SBD is responsible for assuring that an aged Medicare record is established when the above applications are filed.

3.2.64 Withdrawal Of Enrollment Before It Goes Into Effect

An individual, or proper party on his or her behalf, can withdraw the enrollment application by requesting withdrawal any time before Part B coverage is effective. They should be processed as a refusal of Part B coverage.

To serve as a withdrawal or termination, there must be an appropriately signed and unequivocal statement that the individual no longer wishes Part B coverage, or that he or she wishes to withdraw or cancel the enrollment request, etc.

An individual may withdraw an enrollment request any time before Part B coverage becomes effective. A withdrawal of the enrollment request is also honored if filed after
the effective month of Part B coverage but within 2 months after the month the enrollment request was filed.

An individual who enrolls during a GEP may withdraw the enrollment request at any time up to the following July, when Part B becomes effective.

When withdrawal of an enrollment request is not filed in time to prevent enrollment, it serves as a request for voluntary termination of Part B coverage, effective (as of July 1987) with the end of the month after the month in which the request is filed.

EXAMPLE: Millie enrolls in 7-92, the third month of his or her IEP, She may file an effective withdrawal at any time prior to 10-92 (2 months later). On the other hand, if the withdrawal request is not filed until 10-92, it is treated as a voluntary termination. This means that the Part B coverage (which begins 8-1-92) is terminated 11-30-92, (the end of the month following the month the withdrawal request was filed).

Whenever an individual indicates that he or she wants to withdraw or terminate Part B enrollment, you should ensure that he or she realizes the effect of such action.

If an enrollment form is received which is merely answered "no" and signed by a person who has enrolled for Part B, it should not be treated as a withdrawal or termination of Part B enrollment without further development. The individual should be promptly contacted for an unequivocal signed statement clarifying his or her intent. If a withdrawal or termination was intended, it can be considered filed as of the date of receipt of the "no" option form only if the unequivocal statement is submitted within 60 days of such receipt.

### 3.2.65 References

Section 1837 of the SS Act and SSA's Regulations 42 CFR 407.10ff are references for the above procedure.

### 3.2.70 Effect Of Reentitlement To Part A After Termination

A. **New IEP if Reentitled to Disability Part A** - During each separate period of Part A entitlement, Part B enrollment rights and premium rates are determined independently of enrollments during any previous periods of Part A entitlement. Where a person's disability Part A terminates and he or she later becomes reentitled to disability Part A, for purposes of Part B enrollment and premium amounts, he or she is deemed to have never had previous eligibility.

This means the individual has a new IEP, beginning 3 months before the first month of the new period of Part A entitlement. Note that disability beneficiaries do not always have a 24-month waiting period if they become reentitled to disability benefits.
B. **New IEP for Age 65 Part A** - Even if previously entitled to Part A as a disability beneficiary or ESRD patient, a person who becomes entitled to Part A under the regular or deemed insured provisions at age 65, has a new IEP. Part B enrollment rights (and premium amounts) are not affected by any events which occurred during previous periods of Part A entitlement.

If a person previously refused Part B, he or she has a new IEP based on the new period of Part A eligibility and may enroll for Part B.

If an increased premium was payable for late enrollment prior to age 65, the premium is reduced to the standard rate for the month of attainment of age 65 and following months of continuous coverage.

These provisions assure that all persons upon becoming entitled to Part A (at age 65 or otherwise) will be treated identically. Those who had one or more earlier periods of Part A entitlement are not penalized for events which took place during such earlier periods.

**EXAMPLE:** Mrs. Dibb, born in 9-30, established entitlement to Part A based on disability beginning 5-84 but refused Part B enrollment at the time.

Upon attaining age 65 in 9-95, she becomes eligible for Part A under the regular insured provision. Part B and Part A based on entitlement to disability benefits technically terminates with the month before the month of attainment of age 65.

Mrs. Dibb has a new IEP based on her new period of Part A eligibility and will be automatically enrolled for Part B as of 9-95.

If Mrs. Dibb had enrolled for Part B in a GEP and was paying in increased premium for late enrollment in the month prior to attaining age 65, her premium rate is reduced to the standard (unincreased) rate beginning at age 65.

These provisions ensure that all persons upon becoming entitled to Medicare at age 65 will be treated identically.

### 3.2.71 Part B Enrollment Of Reentitled Disability Beneficiaries

Section 103 of P.L. 96-265 modified section 226 of the Social Security Act effective 12-1-80, to provide that the 24 months in the disability Part A qualifying period no longer need to be consecutive.

A. **24 Months in Prior Period of Entitlement** - An individual may establish immediate entitlement to both Part A and Part B if he or she:

- becomes reentitled to disability benefits within the time limits specified 3.2.22, and
received disability benefits for at least 24 months during the earlier period of entitlement.

B. Less Than 24 Months in Prior Entitlement - An individual who becomes reentitled within the time limits specified in 3.2.17 (with less than 24 months prior disability benefit entitlement) may have such prior months counted toward the 24-month qualifying period during a subsequent period of entitlement to disability benefits.

C. Retroactive Part B Award - Medicare eligibility in reentitlement cases may begin before the month the award notice is sent to the individual. If limited to a choice of paying for retroactive coverage they did not know they had, or refusing Part B altogether, many individuals may refuse Part B.

Automatic enrollment should apply when an individual files an application for disability benefit reentitlement, and is eligible without a waiting period (or has a shortened waiting period) for Part A, and is deemed to have enrolled for Part B in the third month of the IEP. Therefore, he or she is awarded coverage beginning with the first month of disability Part A entitlement.

At the time of final processing, if more than 5 months' retroactive premiums must be withheld from the monthly benefit check, the individual is awarded Part B effective with the month in which final action is taken to process the Medicare record, (equitable relief applies).

They are advised of the option to have Part B begin with the first month of disability Part A entitlement provided that, within 30 days, the enrollee requests such earlier date and authorizes the deduction of the accrued premiums from monthly benefits.

The individual is also has the right to refuse Part B. If he or she refuses Part B by the end of the second month following the month the notice is mailed, he or she is deemed not to have enrolled and does not incur any premium liability. Any refusal received later than that is treated as a voluntary termination request.

EXAMPLE: Mr. Davis was previously entitled to disability for the period 6-84 - 12-87 and was entitled to disability Part A and Part B on the basis of 24 months if disability entitlement. He files on 4-12-91 alleging he became disabled on 11-15-90. When the claim is adjudicated in 8-91, Mr. Davis is found eligible for Disability and Part A beginning 12-90.

Because more than 5 months' Part B premiums have accrued, he is awarded Part B effective 8-91. He is advised he may have coverage beginning 12-1990, provided he notifies us in 30 days and authorizes deduction of all retroactive premiums.
If he decides instead to refuse enrollment, and does so by 10-31-91, he will be deemed never to have enrolled. The Part B effective 8-91 will be deleted and any Part B premiums that were withheld will be refunded to him.

Automatic enrollment does not apply for individuals residing in Puerto Rico or outside the U.S. because they are not subject to automatic enrollment. If such individuals desire Part B coverage, they must specifically request enrollment.

Refer to 3.2.17 for further information.

### 3.2.75 What Constitutes An Effective Enrollment

There are 3 ways for an eligible person to be effectively enrolled in Part B:

- Be deemed to have enrolled under the automatic enrollment provision.
- Personally enroll (or be enrolled by a proper person acting on his or her behalf).
- Be enrolled by a State under a buy-in agreement for the coverage of eligible individuals.

### 3.2.76 Individual Incapacitated During IEP, GEP, or SEP

No enrollment period can be extended because the individual is mentally incompetent during part or all of the period, or because he or she may have been physically incapacitated.

### 3.2.77 Enrollee Needs Help In Paying Premiums Or Claiming Reimbursement

A person, though competent and able to enroll for Part B, may need help in the mechanics of paying premiums or in claiming reimbursement for medical expenses. The difficulty may be temporary or indefinite and may come to light during the enrollment process or later.

The arrangements for assisting an individual to overcome the problem, will vary with the nature and duration of the impairment. The procedure described below is intended to guide FO's in procuring the necessary assistance for such enrollees.

The fact that RRB or SSA provides help, does not relieve the enrollee of the responsibility to pay premiums promptly, or to claim reimbursement timely in an acceptable manner.

A. **Locating a Person to Help Enrollee** - Ask the enrollee whether there is some relative or friend who might be willing to help him or her mail premiums, or claim reimbursement. Try to have the enrollee nominate a relative or friend who:
• is likely to be reliable,
• lives near the enrollee,
• has the enrollee's confidence,
• is interested in the enrollee's welfare, and
• sees the enrollee frequently.

If there is such a person, have the FO contact him or her. In the meantime, take care to avoid termination of coverage or a loss of reimbursement. It may be necessary, pending the selection of someone to assist the enrollee, for the FO to give the help the enrollee needs.

B. Representative Payee - If the enrollee is an beneficiary for whom a representative payee has been or should be appointed, explain to the representative payee that he or she is expected to give the necessary assistance.

C. Interviewing Relative or Friend - The FO should interview the relative or friend as soon as possible after you see the need for someone to assist the enrollee. If another FO is the servicing FO, ask that office to conduct the interview. Be sure to give the servicing FO full particulars about the situation. Wherever possible, select a relative or friend who lives near the enrollee. Explain the situation to the relative or friend. Instruct him or her in detail how to assist the beneficiary in paying premiums and claiming reimbursement.

Stress the importance of prompt payment of premiums (where premiums must be paid by remittance) and give the enrollee's relative or friend a copy of Form RB-23, Your Medicare Handbook.

The FO should tell the friend or relative who agrees to act for the person that, if he or she wishes to withdraw from the arrangement at any time, RRB would like 30 days advance notice. This should allow sufficient time to select another representative to assure that the enrollee will have necessary assistance continuously.

Explain, if appropriate, that any reimbursement checks due the enrollee from the carrier will be sent directly to the enrollee as long as he or she is capable of managing financial affairs. Also, if the enrollee receives monthly checks, ask the relative or friend to notify RRB promptly if the enrollee's condition deteriorates so that he or she might need help in managing benefits.

Stress that, although beneficiaries are encouraged to get help if they need it, this does not relieve the beneficiary of the responsibility for paying premiums promptly, and for claiming reimbursement promptly and properly.
3.2.78 Enrollment Process

A. **Voluntary Enrollment** - This section does not give information on special enrollment period (SEP) cases. That material is in 3.2.110

When an individual is not subject to automatic enrollment because he/she is not receiving an annuity or already entitled to Part A, they must file an enrollment request during a prescribed enrollment period. The eligibility must be developed, the Medicare record must be established or disallowed as appropriate.

When the request for enrollment is processed, send the individual a notice indicating whether it has been approved or denied (including a reconsideration paragraph).

B. **Automatic Enrollment**

- **Attainment Cases** - Prior to the first month of Part B eligibility (approximately, the 20th month of consecutive entitlement to disability benefits or at age 64 and 5 months), a beneficiary is mailed a Medicare health insurance card, G-41, showing the effective dates of Part A and Part B entitlement.

  Accompanying the G-41, are instructions that, if the individual does not want Part B coverage, he or she should check the appropriate box, sign, and return the G-41 to RRB before the effective date shown on it. Upon receipt of a refusal of Part B, a new Medicare card, G-43, is issued, showing the Part A entitlement date only.

- **New Entitlement Cases** - Eligible individuals filing applications establishing Part A entitlement can expect to receive their health insurance cards, G-41, approximately 6 weeks after adjudication. The card shows the effective dates of entitlement to Part A and Part B unless the claimant refused Part B; in which case the card shows Part A coverage only. Of course, each person who is automatically enrolled is notified that he or she has until a specified date (at least 2 calendar months after the month in which notice of the Part B coverage is mailed) in which to decline Part B.

3.2.79 Enrolling Beneficiaries Who Reside In Puerto Rico

When beneficiaries are identified from RRB records for automatic enrollment, beneficiaries residing in Puerto Rico are identified and sent an enrollment message. If the beneficiary wishes to enroll, they must notify RRB.

3.2.80 Enrolling Beneficiaries Who Reside In A Foreign Country

Beneficiaries who reside in foreign countries are also identified and if they wish to enroll or obtain additional information, they must contact RRB.
3.2.81 When An Enrollment Is Considered Filed

Enrollments made through the mail are considered filed when deposited in the U.S. mail, if this is advantageous to the enrollee, i.e., when this allows the individual to be enrolled during a certain month but the actual date of receipt would not.

The date of deposit will ordinarily be the postmark date. However, a filing date may be established up to 2 days earlier that the postmark where there is an identifiable delay in handling of mail in the U.S. Postal Service. Verification of such delay from postal authorities is not normally needed.

A filing date earlier than 2 days prior to postmark may be established based on a credible statement from the enrollee which is not contradicted by other evidence (e.g., a date shown on the enrollment request agrees with or precedes the alleged date of deposit).

When enrollments are received through the mails early in the month following the end of the IEP or GEP, retain the envelope containing the postmark until the enrollment is finally processed.

Enrollments mailed to RRB may have a 7-day tolerance applied to them if the date of filing is material, the postmark is illegible or missing (or the envelope is missing or destroyed), and it originated in the continental U.S. (other than Alaska).

That is, if an enrollment is received during the first 7 days of the month following the end of an enrollment period (or month - where the month of enrollment is significant), it will be presumed in the absence of any evidence to the contrary, that the writing was mailed before the end of the enrollment period (or month).

Where the postmark is illegible or missing, and the writing originated in Alaska, Hawaii, Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Northern Mariana Islands, the mailing date is determined on a case-by-case basis.

Despite the above provisions, if the writing from the enrollee is itself dated after the end of the enrollment period (or month, where the month of enrollment is significant), the writing would not be considered filed in the enrollment period (or month). This is because it appears that the individual did not attempt to enroll during such enrollment period (or month).

3.2.82 Extending The Enrollment Period

Sometimes the last day of an IEP or a GEP falls on a Saturday, Sunday, legal holiday, or any other day all or part of which is declared to be non-workday for Federal employees by statute or Executive Order. In such a case, an eligible individual may enroll in the first regular workday after the end of the enrollment period.
This non-workday rule does not apply to months before the end of the IEP. Thus, for example, if the third month of an individual's IEP ends on a non-workday and the individual enrolls on the next regular workday, he or she is considered to have enrolled in the fourth month of the IEP.

3.2.83 Enrollment Action - Claim For Entitlement Pending When IEP Or GEP Begins

Although most individuals who file applications which establish Part A entitlement will be automatically enrolled for Part B, there will continue to be cases in which the individual is not subject to deemed enrollment (e.g., those whose applications are denied and do not establish Part A entitlement).

Thus, in any case where:

- an individual expresses a desire for Part B during or shortly before an enrollment period, and
- there is any doubt about his or her Part A entitlement, the individual should be advised to file, as soon as possible, a Medicare application.

3.2.85 Deemed IEP Based On Alleged Date Of Attainment Of Age 65

The deemed IEP provision was instituted for individuals who missed their IEP (as established by RRB or SSA based on best evidence of age) because they relied on a document that led them to believe that they were not yet age 65.

Whenever a person believes, and there is documentary evidence indicating, that he or she was under age 65 during the IEP, a deemed IEP will be established.

For Part B (and Premium-Part A) enrollment purposes, the individual is treated as though he or she attained age 65 at the time shown on the erroneous evidence. The premium surcharge for late enrollment (if any) is figured by counting the months beginning after the end of the deemed IEP.

A. The Date of Birth Allegation - Usually, an individual alleges a DOB based on a document in the individual's possession. Some individuals, however, may not know when they were born or have only the vaguest idea of how old they are.

Where possible, obtain from the individual an allegation as to probable DOB, even if it must be qualified as "uncertain." The allegation is important because having a document agree with an allegation relieves RRB of the burden of "assigning" a DOB for deemed IEP purposes. Never insists on an allegation for this purpose.

It may be possible to help an individual recall family or historical references which will enable that person to remember his or her birth date. Under no
circumstances should you suggest a DOB to the individual, even if it seems the most likely DOB based on the evidence at hand.

B. Evaluating Evidence

1. **Document Not in Individual's Possession** - If an individual alleges a DOB based on evidence not in his or her possession, the document must be retrievable and must either agree with the alleged DOB or at least show that the person was under the age 65 during his or her IEP.

   Note, however, that it is more likely that a person relied on a document in his or her possession rather than on a record that has not been seen in years.

2. **Weight to Be Accorded Documents** - Where the individual does not know the correct DOB (which would include the case where a DOB is alleged but no evidence of that date is ever located), it is probable that various documents will show different dates of birth. No particular weight is assigned to a document based on its formality or having been recorded early in life.

3. **Usual Situation** - Rule A in 3.2.86 deals with the usual situation - an individual thinks he or she was born on a specified date in reliance on a document that is believed to be accurate. The reason for the person’s belief that the document is accurate is not material to the determination of the deemed IEP. Even if the individual submits conflicting documents as to DOB, the fact that he or she possesses a document and gives as his or her DOB shown on it is sufficient proof that there was reliance on that particular evidence, thus missing the IEP.

4. **No Real Allegation of DOB** - Rules B, C and D in 3.2.86 cover the rare but perplexing situations where an individual with various documents does not believe in the correctness of any of them; or alleges a DOB for which there is no corroborating evidence; or is unable to allege a DOB.

C. **Filing After Deemed IEP Ends** - Where an individual’s deemed IEP ended before the month of current filing, the person will be deemed enrolled in the current GEP or, if filing in April-December and automatic enrollment is applicable, during the next GEP. Where automatic enrollment is not applicable and the individual files in April-December, he or she must enroll for Part B during the next GEP.

   Only months after the end of the deemed IEP are charged against the enrollee in computing a premium increase based on enrollment during a GEP. If an erroneous surcharge comes to your attention, adjust the enrollee’s premium rate.

   When an individual requests enrollment in GEP and the file shows a prior enrollment attempt was denied because the individual was older than alleged
and outside his enrollment period, action should be taken on the evidence previously submitted. Use the actual DOB established for the individual.

3.2.86 The Date Of Birth To Be Established

The primary consideration in deemed IEP cases are:

The individual

- believes he or she was born on a certain date in reliance on one or more documents containing information as to DOB, or
- is confused about the correct DOB because of erroneous or conflicting information on documentary evidence of age; and
- The individual missed the IEP because of the belief, based on erroneous or conflicting documents, that he or she was too young to enroll during the IEP.

A deemed IEP may not be established for a person merely because some of the evidence submitted indicates that he or she is younger than his or her actual age.

A. Different Month of Birth - If the allegation and the document being used to establish the deemed IEP disagree as to month of birth, use the month indicated on the document unless the month of birth alleged is established by best evidence. If there is no allegation as to month of birth, use the month on the document that is being used to establish the deemed IEP.

B. Rules for Establishing Date of Birth - Usually, the individual alleges a DOB and submits a document to corroborate that allegation. In rarer situations, the individual is unable to corroborate an allegation or may state that he or she does not know the correct DOB. Following are the rules for establishing the DOB in cases involving a deemed IEP.

1. Rule A - DOB Allegation and a Document Agree - When the DOB allegation and a document agree, use the DOB alleged.

   EXAMPLE:  Marty Keith files in 4-85. He alleges he was born 7-17-20 and submits two documents. One shows 7-18-20, the other 6-12-18. His DOB is eventually established as 6-12-17.

   For deemed IEP purposes, 7-17-20 will be used because he submitted a document that agrees with his allegation.

   This is true even if the individual submits several other documents showing different dates of birth, some of which may be more advantageous. The fact that the individual alleges a date and submits even one corroborating document is sufficient to establish the alleged DOB for deemed IEP purposes.
2. **Rule B - Vague DOB Allegation** - The individual does not know the correct DOB, but believes he or she is about age 65 or younger. The individual submits (or obtains) various documents, some of which indicate that he or she is under age 65: Use the DOB which is closest to (but does not make the person older than) the DOB finally established.

**EXAMPLES:**

- Joan Martin files in 7-85. She presents 3 documents showing 8-12-19, 8-12-20 and 8-12-22. She does not know which document is correct, but believes she is between 62 and 65.

  Her DOB is finally established as 8-12-18 based on "best evidence" obtained for her by RRB. For deemed IEP purposes, 8-12-19 will be used because it is closer to the correct DOB.

- Ken Overfell stated he was unsure of his DOB and refused to make an allegation when he filed in 9-84, other than to say that he was about age 65. He submitted two documents which showed his DOB as 10-17-17 and 10-17-19.

  His DOB was established as 10-17-18. The DOB for deemed IEP purposes will be established as 10-17-19.

3. **Rule C - Definite Allegation, But No Proof of It** - The individual gives a definite allegation as to DOB and, according to the allegation, is about age 65 or younger. The person is unable to submit any evidence of the date alleged. However, some of the documents submitted (or obtained) indicate that the person was under age 65 during all or part of what is established as his or her actual IEP: Since this situation is comparable to that in Rule B. (i.e., the person does not know when he or she was born), follow Rule B.

**EXAMPLE:**

- Dan Arge alleged he was born in 1922 (month unknown) when he filed for an annuity in 10-84. He was unable to submit evidence of the alleged DOB but two documents were obtained which indicated that he was born 1-20 and 12-21 respectively.

  His DOB was eventually established as 11-16. For deemed IEP purposes, 1-20 will be used, with the month of birth established as indicated in 3.2.86A.

  Since Mr. Arge filed in 10-1984, his Part B will begin with 1-85, the month he is "deemed" to attain age 65.
Whitney Hertz filed in 3-83, alleging that he was born in 12-16. Documents submitted or obtained showed December 1914, 1915, and 1917. 12-14 is established as his DOB based on best evidence.

Use 12-15 as the DOB for deemed IEP purposes. Since Mr. Hertz is well past his IEP, establishing deemed IEP will affect only the amount of the premium surcharge for late enrollment (see 3.2.88).

4. Rule D - All Documents Show Age 65 or Over in IEP - The same or comparable situation described in Rule B or C exists but all the documents indicate that the individual was age 65 or over during the IEP: No deemed IEP may be established. The requirement that the individual have missed the IEP in the belief (based on a document) that he or she was too young to enroll during the actual IEP is not met.

EXAMPLE: Joe Hendricks filed in 12-82, alleging that he would be age 65 in the following month. He has no documentary evidence of this, but the FO helps him obtain two documents. Both show that he is past age 67. Additional development reveals that he is actually going to attain age 68 in 1-83.

No deemed IEP will be established because there is not evidence of his allegation and none of the documents obtained show that he was under age 65 during his actual IEP.

5. Rule E - No Evidence to Support Allegation - The individual alleges he or she is over age 65 (whether that person gives a definite DOB is immaterial), but has no evidence to support that allegation. Documents submitted or obtained show various dates of birth: Establish the DOB for deemed IEP purposes as in Rule B. That is, use the DOB which is closest to (but does not make the person older than) the DOB finally established.

3.2.87 Prior Month Attainment Rule

A deemed IEP may be established for an individual born on the first day of a month who files an enrollment request in the first month after the IEP.

Since persons born on the first day of a month are ordinarily unaware that they actually attain a given age in the preceding month, apply the deemed IEP provision without further development.

If there is evidence in file that demonstrates that the enrollee knew the "prior-month" attainment rule, do not use this rule.

EXAMPLE: Mr. Allen DOB 3-1-20, enrolled on 6-22-85. Although his enrollment request was filed in the month after expiration of his actual IEP, a deemed IEP of 12-84 - 6-85 is established and Part B coverage is effective 9-1-85.
On the other hand, if Mr. Allen had enrolled in 3-85, his Part B coverage would be effective 5-1-85 (see 3.2.41). A deemed IEP could not be established since he enrolled during his actual IEP.

3.2.88 Use Of The Deemed IEP

The DOB used for the deemed IEP is the person's DOB for Part B (or Premium-Part A) entitlement purposes. All provisions in the law and instructions relating to enrollment (including automatic enrollment, premiums, and coverage periods), are applied as if the person's date of attainment of age 65 based on deemed IEP rules was the actual date of attainment.

If an individual for whom a deemed IEP may be established is not subject to automatic enrollment and has not elected Part B, he or she should be contracted about the advantages of filing for Part B and given the opportunity to enroll.

In some cases, an individual who is otherwise eligible for enrollment on the basis of the deemed IEP provision may decline Part B enrollment (e.g., because he or she prefers other insurance, etc.). If that individual seeks to enroll for coverage at a later date, the deemed IEP protection no longer applies.

Similarly, if an individual was enrolled in Part B on the basis of a deemed IEP but that person allows coverage to lapse (either through non-payment of premiums or based on a request for termination), the premium protection afforded by the deemed IEP provision is not applicable should the person reenroll for coverage at a later date.

In determining the amount of the individual's Part B premium surcharge for late enrollment, begin counting months of non-coverage with the month following the end of the person's actual IEP, keeping in mind that some months of non-coverage may not be countable because of the working aged provision (see 3.2.119).

If an individual would be eligible for an SEP and/or premium surcharge rollback because of coverage under an employer group health plan (EGHP), the deemed IEP protection continues for that person. All determinations for SEP and/or premium rollback purposes will be used based on the deemed date of birth and deemed IEP.

EXAMPLES:

- Reenrollment in Part B - In 8-91, Mr. Smith, a fully insured worker, files for an annuity and Part A. He alleges, and has documentary evidence indicating, that he attained age 65 in 8-91. FO development of proof of age shows he actually attained age 65 in 8-89, and that he could have enrolled during the 7-month period 5-89 - 11-89. Nevertheless, his deemed IEP will be 5-91 - 11-91 based on the evidence he submitted.

  Mr. Smith's Part B coverage begins 9-91, although his entitlement to an annuity and Part A may be effective as early as 2-91. There is no increase
in premiums since he is considered to have enrolled in his deemed IEP for both enrollment and premium purposes.

Mr. Smith's Part B coverage is terminated effective 12-31-92 based on a request for termination filed in 11-92. He reenrolls for Part B during the 1994 GEP. In computing the premium Mr. Smith must pay beginning 7-94, all months of non-coverage in Part B following expiration of his actual IEP (5-89 - 11-89) through the end of the 1994 GEP must be counted, a total of 28 months. Thus, a 20% premium increase is applicable beginning 7-94.

- **Premium Penalty** - On 1-10-85, Mr. Jones enrolled in Part B and presented documentary evidence supporting his allegation that he attained age 65 in 8-83. The FO's development established that Mr. Jones actually attained age 65 as of 8-10-80. Since the claimant was mistaken as to his true age and his request for enrollment on 1-10-85 was filed during a GEP, his request is accepted and coverage begins 7-1-85. Of course, Mr. Jones's premium is increased by 10 percent because there are 16 elapsed months in the period 12-1-83 - 3-31-85.

- **Late Evidence** - In 3-91, Mrs. Jones (who had no EGHP coverage) telephoned a FO concerning her right to Part A and Part B, and stated that she would attain age 65 in 8-91. Since she was working steadily and did not want a reduced annuity, the FO advised her to file for Part A and Part B in 5-91, and to bring proof of age at the time. Mrs. Jones then wrote for and obtained evidence which showed she was born in 1923.

  She immediately filed a claim for an annuity, Part A, and Part B alleging she was born 8-15-23. Her DOB was established 8-15-23. She was advised by the FO that she would be awarded an annuity Part A effective 11-80, but that her Part B could not start until 7-92 since her Part B election had not been filed during an enrollment period open to her. She objected to the Part B delay because she thought for many years she would attain age 65 in 8-91 and had not known of the earlier DOB until shortly before filing. Upon being asked to do so, she submitted documentary evidence indicating an 8-26 DOB, and that she had been using this date of birth. On the basis of this evidence and her 5-91 enrollment request, a deemed IEP is established and Part B allowed with entitlement effective 8-91.

- **Automatic Enrollment** - In 7-85, Mr. Green, a fully insured worker, came to the FO and applied for an annuity and Part A. He presented documentary evidence supporting his allegation that he would attain age 65 in 8-85. However, FO development of age showed that he had attained age 65 in 8-84, and could have enrolled in Part B during the 7-month period 5-84 - 11-84.
Because the documentary evidence shows that the claimant was mistaken as to his true age, his deemed IEP is 5-85 - 11-85 and, since automatic enrollment applies, the claimant will be deemed to have enrolled for Part B during the first 3 months of his deemed IEP, with entitlement effective 8-85.

If Mr. Green's application establishing Part A entitlement had been filed in 12-85, he would be deemed to have enrolled for Part B during the 1986 GEP and his Part B coverage would begin 7-86. His premium, because of the deemed IEP, would be at the standard (unincreased) rate.

### 3.2.89 Enrollment Request Filed After Age 65 But Before Deemed Date Of Attainment

A person may file for Part B (or be subject to automatic enrollment) after his or her actual IEP ended and before the beginning of the deemed IEP (based on the documentary evidence on which the person relied.).

- **Deemed IEP Begins After GEP** - If enrollment occurs during a GEP and the deemed IEP begins after the end of the GEP, award coverage beginning the following July.

**EXAMPLE:** In 2-91, Mr. Brown files for a reduced annuity, alleging he was born 2-28, and submitting corroborating evidence. Based on evidence of higher probative value, a 2-4-24 DOB is established. An unreduced annuity and Part A are awarded effective 8-90.

Since Mr. Brown filed an application establishing Part A entitlement during a GEP and while eligible to enroll (being age 65 and entitled to Part A), he is deemed to have requested Part B enrollment. Unless he refuses such deemed enrollment timely, he have coverage beginning 7-91. If Mr. Brown had filed his application in 7-91, (i.e., not during a GEP), he would be deemed enrolled during the 1992 GEP, because this would permit coverage to begin earlier than enrollment in his deemed IEP (11-92 - 5-93).

- **Deemed IEP Begins During GEP** - If the deemed IEP begins during a GEP but after the enrollment request was filed, deem the person to have enrolled during the deemed IEP to permit coverage earlier than the following July. The individual does not have a choice of accepting the later coverage based on a GEP enrollment.

**EXAMPLE:** Mrs. Adams files a Part B enrollment request on 2-15-92. She submits her original birth certificate showing that she was born 6-24-25. She explains that she did not enroll for Part B when first eligible because she only recently discovered the birth certificate. She previously believed she was born on 6-24-27 in reliance upon an insurance policy issued in 1945 showing the 6-24-27 DOB.
Because Mrs. Adams relied on documentary evidence showing she was younger than her true age, a deemed IEP of 3-92 - 9-92 is established for her. This deemed IEP begins after her filing date, but during a GEP. She is effectively enrolled during her deemed IEP and is awarded coverage beginning 6-92.

- **Enrollment After GEP** - If the enrollment request is filed outside a GEP, the person is deemed to have enrolled during the next GEP or in the deemed IEP, whichever results in earlier coverage. This is not considered a late enrollment and there are no months which count toward a premium increase.

### 3.2.90 References

Sections 1837(d) of the Social Security Act and SSA's Regulations 42 CFR 407.14(b) are references for the above procedure.

### 3.2.95 Conditions For Providing Equitable Relief

**A. General** - Amendments in 1972 authorized relief when an individual's Part B enrollment, termination, or coverage rights are prejudiced because of the error, misrepresentation or inaction of an employee or agent of the Government. In such situations, the RRB, SSA, and/or CMS may take any action necessary to prevent or correct inequity to the individual. The actions include, but are not limited to the designation of enrollment and coverage periods, and appropriate adjustment of premium liability.

The actions may be part of the initial claims, process, post-adjudicative processing, or as a result of information or decisions that arise from the appeals processes.

The effective date of the "equitable relief" amendment was July 1, 1966. There is, therefore, no time limitation on granting relief.

Where the Government clearly erred, equitable relief should be considered on its own motion without the beneficiary having to ask for it.

Equitable relief applies to Part B in disability and ESRD cases as well as to cases involving the aged. It also applies to Premium-HI for the aged and for the working disabled. Equitable relief, however, never applies to premium-free Part A.

Equitable relief is the way of undoing harm caused an individual by the Government's actions, failure to act, or misinformation. However, it is still important to ensure that only correct actions are taken and proper information is given to an individual about Medicare. There is little consolation, for example, to an individual that we can grant relief to pay for his or her surgeon's bill, but cannot pay for the hospital stay during which the surgery occurred, except in the rare case where Premium-Part A is involved.
An equitable relief decision is not subject to appeal. However, an appeal can be made concerning the correctness of, for example, the entitlement date or the termination date. Additional information relating to erroneous information can be presented during the appeal process.

B. Requirements For Equitable Relief - The elements that must be present in each case where equitable relief is granted are:

• Government error, misrepresentative, or inaction;
• Prejudice to the individual's Part A or Premium-Part A rights; and
• Evidence of the error, see 3.2.96 below.

If the individual caused or contributed materially to the Government error by fraud or similar fault, equitable relief is not granted even if the main elements are present in the case.

C. Definition of Prejudice to Part B Rights - Prejudice to the individual's rights may consist of:

• carrying private insurance he or she did not need,
• electing surgery in advance of entitlement because he or she was misinformed about the entitlement date,
• missing an enrollment period,
• inability to pay a large premium arrearage which accrued due to Government delay, or
• any other hardship with health insurance or health care needs that is traced to Government error, misrepresentation, or inaction on enrollment, premium collection, or termination of entitlement.

D. What the Evidence Must Show - There must be evidence meeting the definition in 3.2.96 which shows that:

• the individual took such appropriate and timely measures to assert his or her rights as could reasonably be expected under the circumstances, and
• because of administrative fault, delay, or erroneous action or inaction by an employee or agent of the RRB, SSA, or CMS or another Federal Government instrumentality, the enrollment or premium rights would be impaired unless relief is given.
An "agent" of the Federal Government is one who is authorized to act on behalf of the Federal Government in matters pertaining to Medicare, such as an employee of a Medicare carrier.

If the evidence shows that an individual received misinformation from someone, e.g., employer, insurance company, which received the misinformation from an employee or agent of the Federal Government, this would also qualify for equitable relief.

E. What Does Not Justify Relief - Relief cannot be provided merely because of hardship or because of "good cause" for failure to enroll. There must be some erroneous action or inaction by the Government which is prejudicial to the rights of the individual.

Thus, for example, where an individual failed to enroll for Part B because he or she was covered under private non-employment-based health insurance, which was later terminated, the fact that he or she had "good cause" for not enrolling earlier and may now need Part B urgently does not justify relief.

F. No Minimum Amount of Premium - When an individual complains about an error, and the requirements of this section are met, equitable relief may be granted no matter how few months of coverage are involved or how small the amount of premiums involved.

For automatic consideration of, and notices about, the various kinds of equitable relief in the situations described in the following sections, the number of months coverage involved must be more than 5, or the premium arrearage either because of retroactive Part B entitlement, failure to deduct Part B premiums from monthly benefits, or failure to bill a beneficiary for Part B premiums must be for 6 or more months. Note that the determining factor in such situations is the number of months for which a premium is due, not the amount of premiums due.

On the other hand, for retroactive changes in the amount of a Part B premium because of (1) the addition of or a change in an Income Related Monthly Adjustment Amount (IRMAA), (2) imposition of a premium surcharge, or (3) a change in a Medicare Advantage premium reduction (see RCM 3.2.109), the determining factor is the amount of premiums due. For automatic consideration of equitable relief in such situations, the premium arrearage must exceed 5 times the current standard Part B premium. Exception: When the premium arrearage is due to IRMAA, the amount must exceed 5 times the current standard Part B premium plus the amount of the individual’s IRMAA (see RCM 3.2.108).

3.2.96 Evidence Of Government Error Or Delay

In most cases, the headquarters or the field office file shows that an error occurred, e.g., delay in awarding entitlement, erroneous termination, failure to bill for or collect premiums.
The individual alleges that his or her rights were prejudiced due to misinformation received. The allegations must be substantiated.

If possible, the Government employee or agent identified as having given the misinformation should report his or her recollection of the event. If the employee cannot recall the interview or discussion, he or she should nevertheless report on the probability that he or she gave the misinformation or misadvise that the individual claims receiving.

Equitable relief may not be granted unless the file contains documentary evidence. The evidence can be in the form of statements from employees, agents, or persons in authority that the alleged misinformation, misadvise, misrepresentation, inaction, or erroneous action actually occurred. In the absence of such personal knowledge, the evidence can consist of a statement that there is a strong likelihood based on personal knowledge or prior experience that an error occurred.

**3.2.97 Time Limits**

Ordinarily, claims for Part A benefits for covered services received during the 12-month period ending September 30 of any year must be filed on or before December 31 of the next year. Equitable relief does not apply to premium-free Part A. However, where administrative error causes the failure of a provider of Part A services to file a request for payment within the usual time limit, the time limit may be extended. The extension will end with the last day of the sixth month following the month in which the error is rectified and notice is sent.

Therefore, special language may be required for notices of awards or reinstatements of Part A entitlement involving retroactive months. This would occur where the usual claims filing time limit for services furnished in any of those months has ended (or will end within 6 months after the month of notice). The language should be similar to the following:

"If you received any services covered by Medicare during the period before October 1, (year), hospital benefits for such services can be paid only if the provider which furnished the services submits a claim for payment on or before (the last day of the 6th month after the date of the notice). You should telephone your local Railroad Retirement Board office if you have any questions regarding this matter."

This language is in addition to any language required because if the individual elects retroactive Part B entitlement. Language concerning Part B services for which the usual claims filing time limit has expired is sent only after an individual elects retroactive Part B entitlement in response to the initial award or reinstatement notice. Use Code Paragraph 921.
3.2.98 Equitable Relief And Premium Arrearage

Occasionally, the offer of equitable relief in order to award earlier or continuous coverage may result in a Part B premium arrearage. In such cases the letter to the beneficiary should explain the arrearage. The beneficiary should be advised that if he or she is not able to pay the arrearage in a cash lump sum, alternative arrangements for payment can be made.

Premium arrearage may be paid by offset from a monthly RR annuity or SS benefit, by cash refund, or if necessary, by recovery from a beneficiary’s estate. Offset from monthly payments can be made by withholding the full monthly rate (after current Part B deduction) or by partial withholding of some portion of the monthly rate until the full arrearage is recovered. If there is no current annuity entitlement, the arrearage can be paid by a single cash refund or by monthly installments. Premium arrearage can not be recovered by actuarial adjustment.

3.2.99 Payment Of Part B Premium Arrearage By Partial Withholding Or Monthly Installments

If a beneficiary indicates that recovery of the arrearage in one lump sum would create a financial hardship, certain alternative methods of payment are available. For beneficiaries currently entitled to monthly RR or SS payments, recovery by partial withholding is acceptable. For non-beneficiaries, monthly installments are acceptable. Such arrangements are designed only for those whose financial circumstances make it difficult to pay the premium arrearage in a lump sum. No further development of the beneficiary’s financial status need be taken if, after receiving such information, the beneficiary states that he cannot pay the arrearage in a lump sum, but accepts the installment payment or partial withholding offer.

The minimum monthly partial withholding or installment amount is the greater of:

1. $20.00, or
2. $20.00, or
2. 1/36 of the total arrearage amount.

Accordingly, monthly payments must always be for at least $20.00, and must be rounded up to the nearest dollar amount. When the arrearage due is larger than $720.00 (36 months x $20), the minimum monthly payment amount must always be greater than $20.00. In large arrearage cases, determine the minimum allowable monthly payment by dividing the amount of the arrearage by 36. (Example: If the arrearage amount due is $815.50, the minimum monthly payment is $815.50 divided by 36, or $22.65. Rounded up to the nearest dollar amount, this monthly payment would be $23.00.)

The Medicare Section (MS) will establish a record on the Program Accounts Receivable system (PARS). In most cases, PARS will generate the arrearage or option letter. Form G-363 should be prepared as a file record to document the arrearage computation.
MS will forward partial withholding cases to RBD or SBD. They will adjust the monthly payment amount in accordance with current procedures for applying partial withholding.

For installments payments for beneficiaries not in current pay status, MS will enter the arrearage amount on PARS, if this has not already been done. If a payment has been received, MS will credit the amount on PARS and set up installment billing.

If an individual defaults on installment payments, notify the individual that he or she has 30 days to remit the missing installments or the period of Part B entitlement covered by the installment agreement will be deleted. Any Part B benefit payments made for medical services received in these months will become overpayments which may not be waived. Those installment payments that were made prior to default will be refunded to the beneficiary.

Refer to RCM 3.7.52 for further information on how to collect unpaid premium.

Sometimes it is obvious that further recovery attempts are unlikely to result in collection of the amount due from any source. Especially in the case of a small arrearage, it is likely that the administrative cost of further recovery actions may actually exceed the amount due. Refer to RCM 3.7.60 for specific guidelines concerning the suspension of further recovery actions.

3.2.100 Enrollment Not Processed Timely

For a variety of reasons involving Government fault or error, an individual's Part B enrollment request may not be processed until several months or years after coverage should have started. Similarly, there may be a delay of several months or years in notifying the enrollee that coverage has been awarded.

Serious inequity is likely to result where such an individual is required to pay premiums for a long period of retroactive coverage which he or she may not have known existed, the beneficiary may have continued to carry nongovernmental health insurance, or the beneficiary may have deferred necessary treatment because he or she did not know they were insured against the cost of such treatment, and he or she may be unable to pay the premiums which accumulated over a long period of months or years.

A. 6 or More Months Premium Owed - If retroactive premiums for 6 or more months are due when an enrollment request is processed, or the enrollee is notified about the start of Part B more than 5 months after the entitlement date, Part B is awarded with the month in which final action is taken to process the award (current operating month). Months between the end of the enrollment period in which the request was filed (or deemed to have been filed) and the Part B entitlement date are not counted in determining whether or how much the enrollee's premiums must be increased for late filing. Send the enrollee a notice of the Part B award, informing him or her of the option of having Part B coverage begin earlier (the date coverage would have started if the enrollment request were handled timely), provided that within 30 days he or she (1) requests the
earlier date of coverage, and (2) either pays all back premiums due for months of coverage prior to the month shown on the award notice, authorizes deduction of the back premiums from his or her monthly payments, or arranges for an alternate method of payment.

The following combinations should be entered on the ARTX and the ARLT screen on PARS to generate the appropriate letter: if no monthly payments are in force, H4/H4; and, if monthly payments are in force, enter one of the following combinations: H2/H2, H1/H1 or H3/H3. See RCM 3.12 for the additional PARS entries necessary.

The individual cannot choose an intermediate date to begin Part B coverage. If permitted, this would enable the individual to select the month most advantageous to him or her and most costly to the Part B Trust Fund; for example, the first month in which he or she incurred substantial covered expenses.

In the event that an enrollee has already made it clear that he or she wants only prospective coverage or that he or she wants (and is willing to pay for) earlier entitlement, award Part B accordingly without mentioning the option. If the enrollee is currently requesting the earlier entitlement date, ascertain whether he or she is willing to pay the premium arrearage before any award action is taken. If the individual pays the accrued premiums in full (or agrees to installments or agrees to benefit deduction), make an adjustment in the award to show the earlier starting date of coverage.

If the enrollee selects the earlier effective date, MS should determine whether it is necessary to alert the enrollee to the need for filing promptly Part B claims for any covered services he or she may have received during the first months of the period of Part B entitlement. Ordinarily, claims for Part B benefits for covered services received during the 12-month period ending September 30 of any year must be filed on or before December 31 of the next year. If the time limit for filing Medicare claims has expired for some services, or will expire within 6 months after the month the award is approved, the amended award notice should advise the enrollee that such claims will be honored if submitted within 6 months after the month of notice. Include code paragraph 921 in the notice.

These procedures also apply when an application for enrollment was denied initially for any reason, and as a result of reconsideration or a hearing, the original decision is reversed.

EXAMPLE: Mr. Carr, whose first month of Part B eligibility is 7-90, files an application for Part B enrollment in 5-90. Due to error, his application was not processed until 6-92.
He will be awarded Part B coverage beginning 6-92 (23 month later than Part B coverage would normally have begun), and his premiums will not be increased, since he filed the enrollment request during the IEP.

Mr. Carr will be notified that his coverage could be made retroactive to 7-1-90 if he pays the back premiums for 7-90 through 5-92 of $689.40 (or authorizes the deduction of this amount from monthly benefits payable to him).

Assuming he elects 7-1-90 and the amended awarded is prepared in 8-92, the notice of award will advise him that he must file claims for any services received before 10-1-91, on or before 2-28-93.

In some cases where a person is awarded prospective Part B beginning many months after enrollment (or deemed enrollment), the individual may protest that he or she does not desire Part B enrollment, e.g., because he or she has secured other coverage which he or she now prefers to retain. In such cases (including automatic enrollment cases), if the enrollee's protest is filed within 2 months after the month in which he or she is notified of the Part B coverage:

- the Part B award is reversed,
- any premiums paid are refunded, and
- the individual is deemed not to have enrolled or, in automatic enrollment cases, is deemed to have refused enrollment.

B. Enrollment Not Processed But Premium Deductions In Force

Enrollee Not Notified Until 6 or More Months After Coverage Should Have Started - It is possible, especially in the case on an SS pure case, that premium deductions were initiated timely but the necessary enrollment activities were omitted. In such cases, the enrollee may or may not know about the deductions. Since no valid enrollment has been processed, claims for benefits could not be filed. It is possible that the individual is aware that deductions are being made, but that he or she simply has not yet had a claim to file.

In such cases, enroll the individual immediately, effective with the date deductions began. Notify the individual of the effective date of coverage, and if necessary, include paragraph 921. If the enrollee spontaneously objects within 2 months after the month in which he or she is notified of the coverage, the Part B award may be reversed. Any premiums collected should be refunded, and the individual will be deemed not to have enrolled or, in automatic enrollment cases, will be deemed to have refused enrollment. If he or she desires Part B but does not wish to accept coverage effective with the earlier date when deductions began, advise the beneficiary of the next general enrollment period. The beneficiary cannot accept an intermediate effective date of coverage.
C. **Death or Part B Termination Date Occurs Before Award Is Made**

Sometimes a Part B award is delayed so that the choice in A could not be made by the individual prior to the termination date of Part B (due to death, or to the termination of Part A for an individual under age 65). In such a case, the individual (or any of the survivors) should be given the option of electing Part B as of the date entitlement should have begun and paying the premiums, or refusing Part B entirely.

In other cases, an amended award, which would cause earlier Part B entitlement, is made to a person who already has been awarded Part B but the Part B termination date occurs before the individual (or survivors, if the enrollee is deceased) is able to make the choice of having earlier Part B entitlement. In these cases, the enrollee (or the survivors) should be offered the choice of accepting the new (earlier) Part B entitlement date and paying the additional premiums or refusing earlier entitlement.

For a deceased enrollee, enter H8/H8 on the ARTX and ARLT screens on PARS. See RCM 3.12 for the additional PARS entries necessary.

D. **State Buy-In** - If a Part B award is delayed for an individual who would be on State buy-in for each month of the retroactive entitlement period, make the Part B award effective with the proper month since the State will pay all the retroactive premiums. If State buy-in is involved, but would not apply for the first month of retroactive coverage, or for some intervening months during the retroactive period, the individual should be awarded a closed period of Part B for the buy-in period, and Part B as of the month of processing, with a choice of coverage for the non-buy-in months, if he or she will pay the premiums due.

**EXAMPLE:** Mary's award is processed in 4-92. Her first month of Part B entitlement should be 1-91. She was on State buy-in from 6-91 through 10-91. She would be awarded a closed period of buy-in coverage from 6-91 through 10-91, and continuous Part B from 4-92 on. She should also be informed that she may have Part B from 1-91 or from 11-91 if she will pay the premiums due from whichever date she elects (if she elected 1-91, she would not, of course, pay premiums for the intervening buy-in months).

E. **Open Applications** - If the requirements are met for an award based on an "open" application, and the beneficiary is, as a result, subject to an automatic enrollment in Part B, that is retroactive, the instructions in A above should be followed. This means that the delay in processing entitlement based on the "open" application is considered as a delay in awarding Part B.

### 3.2.101 Part B Awarded On Later Of Two Timely Enrollment Requests

After a person has been awarded Part B on the basis of an enrollment request, the RRB may discover an earlier timely enrollment request still unprocessed. If the RRB were, on
its own motion, to revise the existing Part B award to change the effective date of Part B coverage, the individual could be required to pay for many months of undesired retroactive coverage. Such action would likely result in complaints of hardship and inequity.

Handle cases involving an unprocessed earlier request from a person currently enrolled as follows:

- The enrollee’s premium rate is reduced, if necessary, to be consistent with enrollment period in which he or she filed the earlier request.
- Any excess premium payments are refunded or credited against future premium liability.
- The enrollee is notified that the prior premium rate had been erroneously computed, and that this error has now been corrected.

No other award notice action will ordinarily be taken.

Where the file reflects a current or timely protest (one filed within 6 months of notice) against the existing Part B award, send a notice to the enrollee. The notice will advise the beneficiary that Part B coverage can begin as of (a specified date - when coverage would have begun if the original enrollment request had been properly and promptly processed) if, within 30 days,

- the enrollee elects the earlier coverage, and
- pays the retroactive premiums which have accrued since the earlier coverage date or authorizes the deduction of such amount from monthly benefits.

**EXAMPLE:** Mr. Blue, who attained age 65 in 4-77 was awarded Part B effective 7-79 (based on enrollment during the 1979 GEP, with a premium increase of 10 percent. In 10-80, RRB finds a request for Part B which Mr. Blue filed in 4-87. Mr. Blue’s premium rate is reduced to the standard (unincreased) amount effective 7-79 and the previously collected premium increase is refunded or credited against future premium liability.

Mr. Blue is notified that the premium rate has been adjusted to correct a prior error. If RRB records show he protested timely about the effective date of Part B, he is also advised of the right to obtain earlier coverage.

**3.2.102 Delayed Or Incorrect Advice Frustrates Enrollment Or Termination Rights**

In some cases, an individual may be prevented from taking timely and appropriate action to enroll for or terminate Part B coverage due to administrative delay or misadvise. For example, an individual may write to the RRB shortly before, or during an
open enrollment period, but be prevented from enrolling because the RRB did not answer his inquiry until most of all of the enrollment period had elapsed. Relief in such cases will be provided to ensure that the enrollee's desires are met. Similar relief is provided in cases where an enrollee inquires about Part B termination and a reply is not given in time to permit him or her to file a voluntary termination request within the same calendar quarter in which he or she inquired about termination.

Handle all cases of this type as follows:

A. Inquiry Shows Unequivocal Desire to Enroll - When an individual inquires about Part B during or within 9 months prior to the start of an enrollment period that is open to the beneficiary, and from the nature of the inquiry it is clear that he or she wants Part B, award coverage based on filing on the first day of that period; do not delay the award of coverage by obtaining a second enrollment request. However, if taking action to provide such relief would result in the award of 6 or more months of retroactive coverage, award Part B prospectively, beginning with the month in which the individual is notified. Inform the individual of his or her rights to obtain earlier coverage by requesting such coverage and paying the accrued premiums.

B. Inquiry Does Not Show Unequivocal Desire to Enroll - If the inquiry does not express a clear and unequivocal desire to enroll, send the individual an enrollment card (Form G-44) and a letter informing the beneficiary that he or she may obtain coverage as of the date coverage would have started if we had promptly replied to his or her inquiry. Explain in the letter that the beneficiary may only have the earlier date of coverage if, within 30 days, he or she completes the Form G-44 and returns it with a premium payment (provide amount), if no benefits are currently payable. If the Form G-44 is returned promptly, the beneficiary will be deemed to have filed his or her enrollment request timely. Otherwise, the beneficiary must file during the next GEP.

EXAMPLES:

- On March 30, Mrs. Fortune telephoned a contact representative about enrollment for Part B. In the course of the telephone call, it became clear that Mrs. Fortune was 68 years old, had been eligible to enroll since age 65, and wished to enroll for Part B. The representative told Mrs. Fortune that she would mail her a completed enrollment application, which she should sign and return promptly. She received the application on April 10, and executed and returned it as advised. Part B was denied on the grounds that her request was not filed during the general enrollment period.

  Mrs. Fortune protested and, in connection with her complaint, the facts above were established through the signed statement of the contact representative. Under these circumstances, Mrs. Fortune will be considered to have enrolled during the GEP. The contact representative should have recorded her request as an official enrollment request, taken by phone,
during an enrollment period. He should have asked her to send in, as soon as possible, her signed statement that she wished to enroll (not necessarily on an application form). The record of the phone message serves as evidence that she enrolled timely, even though the signed statement is not received until after the GEP has ended. Since the records show she acted reasonably and in a good faith to enroll in accordance with information given by an official source, she should be treated as if she had received and acted on proper advice.

- Mr. Graves phoned the district office on 3-15-82 and stated that he wanted to "cancel" his Part B coverage at the earliest possible date. He was advised to submit a signed statement clearly expressing his desire to terminate Part B. He submitted the statement in 4-82 and was notified that his coverage would end on 5-82 (the end of the month after the month in which the termination request was filed). Mr. Graves protested this delay in termination, stating that when he telephoned the district office in March to request information about termination he had not been advised of the importance of submitting his termination request before the end of the month. Although the field office had no record of Mr. Graves' call, it stated such incomplete advice could have possibly been given. Mr. Graves' Part B coverage and premium liability will, therefore, end with 4-82, the month after the month in which his termination request would have been filed if he had responded promptly to correct and complete advice.

3.2.103 Part B Awarded Erroneously

A. General - In some cases, after an individual has been enrolled, new evidence may be discovered indicating that Part B was awarded in error or the date of entitlement is wrong. This may occur, for example, if information shows that the individual had not yet attained age 65, refused Part B enrollment, or did not file the enrollment request during an enrollment period.

B. Timely Protest - If the individual protests timely about the erroneous enrollment (i.e., before the Part B entitlement date, or, if later, within 6 months after the month in which he or she is sent a notice of Part B entitlement), the Part B award may be set aside.

Follow the procedures below in handling timely protests of enrollment.

If a timely protest as explained above is received:

- Delete the erroneous period of Part B coverage, and
- refund any premiums paid provided that the individual repays any Part B benefits paid pursuant to the erroneous enrollment.
EXAMPLE: Mr. Thomas, age 71, files a GEP election of Part B during 3-90. His application is erroneously handled like a SEP enrollment and he is awarded Part B coverage effective 4-90. Shortly after receiving the award notice, Mr. Thomas protests the Part B award because he will continue to be covered under his employer group health plan until he retires on 6-30-90.

The Part B award is corrected to 7-90. The erroneous period of Part B coverage is deleted and Part B premiums withheld from his monthly checks are refunded to him.

On the other hand, if Mr. Thomas does not protest until more that 6 months after the month he is sent the notice of Part B coverage, his protest can only be treated as a request for voluntary termination.

C. Wants to Keep Part B Coverage - Ordinarily, the individual will wish to retain Part B because he or she may have given up nongovernmental health insurance or incurred substantial medical expenses in reliance on the Part B award. Erroneous Part B awards will be handled as shown below:

1. **Error Discovered In or After Actual IEP** - If the error is discovered after the start of the individual's actual IEP, the Part B award will not be disturbed unless it was procured through fraud or similar fault of the individual.

   **EXAMPLE:** In 4-88, Mrs. Howe enrolls for Part B with coverage beginning 5-88, based on a finding that she was born 5-17-23. Newly discovered evidence, submitted in 6-90, shows that she was born 5-17-24. There is no evidence of fault. Do not change the Part B award.

2. **Fraud or Similar Fault** - If there was fraud or similar fault:
   - do not grant equitable relief, and
   - cancel the Part B award.

   Any Part B payments made during the period of erroneous entitlement will be treated as an overpayment. Offset any premium refund that may be due by the amount of the overpayments.

3. **Error Discovered Before the Actual IEP** - If fraud is not involved and an individual was enrolled erroneously and the error is discovered before the start of his actual IEP, Part A and Part B coverage will be canceled with the last day of the month in which the action is taken. The individual will be notified of the reason for the cancellation, and of the time when he may again enroll. Follow regular procedures for canceling Medicare coverage, rather than procedures for withdrawal from Part B coverage. Do not refund any premiums or attempt to recover any payments made due to utilization. Refer to RCM 3.3 Appendix B, G-811 instructions for activity code 06.
3.2.104 Part B Terminated Erroneously

A. General - When an individual's Part B coverage is terminated erroneously, he is in approximately the same situation as the person whose enrollment was not processed timely. That is, he does not know whether he has Part B or not, he may enroll in a non-governmental health plan to assure some protection for his medical expenses, he may defer necessary treatment because of his uncertainty about being insured against the costs of such treatment, etc. When the error is finally corrected, it would be unfair to reinstate his entitlement retroactively and require him to pay premiums for past Part B coverage that he had been unable to use at the time. Accordingly, the options offered to the individual whose enrollment was not processed timely should also be offered to the individual whose Part B was terminated erroneously, if 6 months or more premiums are owed.

B. Notice of Reinstatement - When 6 months or more premiums are owed, individuals should be given the same kind of option for termination as given in late enrollment cases.

The following combinations should be entered on the ALTX and the ARLT Screen on PARS to generate the appropriate letter: if no monthly payments are in force, E1/E1; and, if monthly payments are in force, enter one of the following combinations: E4/E4, E3/E3 or E2/E2. See 3.12 for the additional PARS entries necessary.

If the individual pays in full, authorizes withholding of the full amount from his monthly payments, or agrees to monthly installments, coverage should be reinstated as of the month of the erroneous termination. If necessary, alert the enrollee to the need for filing his claims promptly based on any Part B services on which the ordinary deadline for filing may have passed or be within 6 months of the month of reinstatement.

If the enrollee has already made it clear that he wants only prospective coverage or that he wants (and is willing to pay for) coverage during the retroactive period, reinstate Part B accordingly without mentioning the option. If the enrollee is currently requesting the earlier entitlement date, ascertain whether he is willing to pay the premium arrearage before any award action is taken.

In some cases where an individual's Part B is reinstated currently, the enrollee may protest that he does not desire Part B enrollment, e.g., because he had, in the interim, secured other coverage which he now prefers to retain. In such cases, if the enrollee's protest is filed within 2 months after the month in which he is notified that his coverage was reinstated, reverse the Part B reinstatement (i.e., permit the original termination to stand) and refund any premiums collected.
EXAMPLE: Mr. Clay’s Part B coverage was terminated effective with 10-31-91, due to a medical cessation of disability. In 12-92, his disability was fully reinstated on appeal with no break in entitlement.

Mr. Clay will be notified that:

- his Part B was erroneously terminated but is being reinstated effective 12-92; and

- if he wishes Part B reinstated retroactively he must submit a signed request for Part B as of 11-91 and authorize deduction of retroactive premiums amounting to $409.60 ($29.90 a month for 11-91 - 12-91 and $31.80 a month for 1-92 - 11-92) from his monthly benefit check or send in the payment or request an alternative method for paying the arrearage.

C. Error Discovered Less Than 6 Months After Month of Termination - If an erroneous termination is discovered less than 6 months after the effective month of termination, no relief from premium liability may be granted. Action should be taken to reinstate Part B coverage and collect past premiums due as soon as possible. If the enrollee spontaneously protests, advise him of the alternative methods of recovery.

3.2.105 Inadvertent Failure To Bill For Or Deduct Premiums – Non-Buy-In Cases

A. General - In some cases, long after a person has been awarded Part B and notified of his or her Part B coverage, it is learned that premiums have inadvertently not been billed or deducted from benefit payments, or that premium billing or benefit deductions were accidentally stopped months earlier.

The coverage remained intact with only the premium billing or collection mechanism being affected. However, by the time premium collection is initiated or resumed, the enrollee may be confused as to whether he or she had coverage during the non-premium period. Also, the beneficiary may be financially unable to pay the arrearage, or have difficulty in paying the arrearage, when the problem with premium collection is finally resolved.

It is not necessary to determine whether the enrollee was also at fault (e.g. should have known premiums were due and been prepared to pay them when the billing or deduction errors were finally corrected). The type of government error involved requires relief even if there is some carelessness on the part of the beneficiary.

Equitable relief is automatically considered to avoid hardship or the necessity of terminating Part B in cases where premium arrearage of more than 5 months accumulated because of administrative error.
In addition to the right to pay the arrearage through installment, the beneficiary has the following additional options to discharge the premium indebtedness:

- waiver of the premiums in cases of severe financial hardship; or
- termination of Part B entitlement effective with the month after the last month for which a premium payment was received and reinstatement of Part B effective with the current month for which premium collection activity is being resumed. This option is available only if there have been no claims made for Part B services during the entire period for which the premiums were not collected. This will not be implemented until the PARS letters are updated with the appropriate information about the termination of Part B entitlement. You will be notified when this will be implemented.

B. Premium Arrearage of 6 Months or More - When premiums are due for 6 months or more the enrollee should be sent a notice explaining the arrearage. Immediately reinstate premium collection with the current month and do not deduct or bill for the arrearage until at least 45 days have elapsed after the notice is sent so that the beneficiary has the opportunity to respond. The following Text Types should be entered on the ARTX screen on PARS to generate the appropriate letter: if no monthly payments are in force, enter one of the following combinations: A1/A1 or A5/A5; and, if monthly payments are in force, enter one of the following combinations: A2/A2, S5/S5 or S3/S3. See RCM 3.12 for the additional PARS entries necessary. If the enrollee is in current pay status, also establish a record for the amount of the arrearage on ASTRO (see RCM 16.5).

After establishing a PAR record send the file to "dormant" for 30 days, unless the payee is not in current pay status or the PAR record is established for a delayed Medicare Part B enrollment. If no reply is received after the call-up expires and payments are in current pay status (cps), ASTRO will automatically take action to recover the arrearage.

When there is no response to the initial notice in 30 days, and the case is not in current pay status and the PAR Dunning Flag was coded as a "Y", PAR will release a second notice. And if no response is made to the second notice in 30 days, PAR will release a final notice. When 30 days has elapsed after release of the final notice and no payment is received, no request for reconsideration or waiver is made, or method of payment is selected and the arrearage is over $100.00, PAR will refer the receivable out on the PAR BDMO OPEN RECEIVABLES REPORT. See RCM 3.7.60 "When Collection Attempts May Be Terminated" on how to close out the open receivable. For cases where neither a payment is received, no request for reconsideration/waiver is made, or method of payment is requested and the arrearage is less than $100.00, PAR will close out the debt and update the PAR uncollectible table 120 days after the final notice is released.
If a request for partial withholding or reconsideration is received after the call-up expires and payments have been suspended, reinstate the payments immediately. Consider partial withholding or a request for reconsideration just as if the request were received within 30 days of arrearage letter.

C. Premium Arrearage of Less Than 6 Months - Where the premium arrearage is not substantial, payment of the amount owed within the usual grace period will not normally create undue hardship for the enrollee. Therefore, no advance offer of waiver will be given where Part B premiums are due for 5 or fewer months of coverage. The following should be entered on the ARTX screen on PARS to generate the appropriate letter: if no monthly payments are in force, enter one of the following combinations: A3/A3 or A6/A6; and, if monthly payments are in force, enter one of the following combinations: A4/A4, S4/S4 or S6/S6. See 3.12 for the additional PARS entries necessary.

After establishing a PAR record send the file to "dormant" for 30 days, unless the payee is not in current pay status (cps) or the PAR record is established for a delayed Medicare Part B enrollment. If no response has been received to the arrearage letter when the call-up expires, and the case is in cps, take action to suspend and recover the arrearage. If the monthly rate is not high enough to recover the arrearage in a lump sum, forward the file to RBD or SBD for recovery.

When there is no response to the initial notice in 30 days, for cases not in cps and the PAR Dunning Flag was coded as a "Y" PAR will release a second notice. And if no response is made to the second notice in 30 days, PAR will release a final notice. When 120 days has elapsed after release of the final notice and no payment is received, no request for reconsideration or waiver is made, or method of payment is selected and the arrearage is over $100.00, PAR will refer the receivable out on the PAR BDMO OPEN RECEIVABLES REPORT. See RCM 3.7.60 "When Collection Attempts May Be Terminated" on how to close out the open receivable. For cases where neither a payment is received, no request for reconsideration/waiver request is made, or method of payment is requested and the arrearage is less than $100.00 PAR will close out the debt and update the PAR uncollectible table 120 days after the final notice is released.

Although no mention of waiver should be made in the arrearage letter in these situations, if the enrollee spontaneously complains of hardship do not recover the arrearage. If payments have already been suspended, reinstate them. Develop for waiver according to section E below.

D. Collection of Current Premiums - To prevent a premium arrearage form increasing while development is under way to establish an installment payment schedule, to determine whether payment of the arrearage can be waived or cancellation of Part B for the period of non-collection, the enrollee should pay for current coverage.
E. **Uncollected Premium Surcharges, IRMAAs, and Medicare Advantage Premium Reduction Amounts** - All the types of relief described in this section - except for cancellation of Part B coverage for the months from which premiums were not collected - can also be applied in cases of individuals who should have been assessed a premium surcharge for late enrollment (or were assessed a lower surcharge than they should have paid). The surcharge total owed would have to equal 5 months’ premiums at the current base rate to be considered automatically.

See RCM 3.2.108 and RCM 3.2.109 for information about the types of relief that can be applied in cases involving retroactive changes in the amount of a Part B premium because of the addition of or a change in an Income Related Monthly Adjustment Amount (IRMAA) or a change in a Medicare Advantage premium reduction.

F. **When Relief from Premium Liability Will Be Considered and Granted** - Many individuals, while willing and able to pay current premiums by deduction from monthly benefits or by direct remittance, may not have the resources to pay the premium arrearage even in minimum monthly installments of $20.00.

As explained in (B) above, if the arrearage is for 6 months or more, upon resumption of billing or premium deductions the individual will be notified about the possibility of waiver. Likewise, as explained in (C), waiver will be considered even for individuals with smaller arrearage if they request it or complain that it would be a hardship to pay the arrearage. The same criteria will be applied in determining whether waiver can be granted, regardless of whether the arrearage is 6 months or less.

Where 6 months or more of retroactive premiums are owed, only the premiums for current coverage should be deducted or billed immediately. The arrearage should not be recovered until 30 days after the enrollee has been notified of the arrearage to give him the opportunity to claim hardship.

If the beneficiary requests waiver, MS will request the FO to obtain a completed Form DR-423. Hold the file in dormant pending receipt of the completed financial statement. When the completed form is matched with the file MS will make the waiver determination.

The individual should be relieved of the obligation to pay an arrearage of premiums caused by Governmental fault if payment of the amount would deprive him of funds which are reasonably necessary for ordinary living expenses. MS will determine whether the arrearage situation meets the criteria for waiver and will so notify the enrollee. If the waiver request must be denied, advise the individual that installment payments or partial withholding are still permissible. See 3.7.
G. Cancellation of Part B/Premiums Not Collected - Cancel Part B coverage for the period during which premiums were not collected if the following requirements are met:

- the individual submits a written request to have the Part B coverage canceled during the (named) months;
- the request is filed within 30 days of the date of the notice sent to him; and
- the individual certifies that he/she has not filed, and will not file, claims for services covered by Part B during the period for which cancellation of Part B is sought.

Caution the individual who is granted Part B cancellation that if he/she erroneously states that no claims for Part B have been, or will be filed, and the opposite is true, any reimbursement received represents an overpayment that will not be waived on any grounds.

3.2.106 Delayed Deletion From State Buy-In Rolls Results In Premium Arrearage

An individual whose State buy-in coverage terminates is deemed to be individually enrolled with continuing coverage and premium liability from the month after the month in which his buy-in coverage terminates. In some cases, because of program delays, 4 or more months may elapse between the end of the buy-in coverage and initiation of premium collection.

Such individuals are not required to pay more than 3 months of premium arrearage. Most State buy-in deletions are handled mechanically, and relief is automatically given to anyone owing 4 or more months of retroactive premium (i.e., deductions or billing will be made for only three retroactive months and the current month).

When a premium arrearage of 2 or 3 months will be recovered, no special advance notice need to be sent to the beneficiary. However, if the individual spontaneously complains that he cannot afford to pay 1, 2 or 3 months retroactive premiums, it is possible to grant relief from even the 3 months' arrearage. MS will request the FO to furnish Form DR-423 to the beneficiary. "Hardship" cannot be assumed without this development, because the individual's loss of State buy-in presupposes an improvement in the beneficiary's financial status.

MS will determine whether the arrearage situation meets the criteria for waiver and will so notify the enrollee. If the waiver request must be denied, DRD will advise that installment payments and partial withholding are still permissible.
3.2.107 Delayed Deletion From State Buy-In Rolls Prejudices
Termination Rights

People who wish to terminate their individual Part B coverage after State buy-in coverage ends, face the same disadvantages if delayed deletion occurs, as those beneficiaries who choose to continue coverage.

By law, the States may terminate buy-in coverage as early as 2 months prior to the month they actually report to SSA that a specific individual has been deleted from the buy-in rolls. Each month SSA furnishes RRB a tape of that month's accretion and deletion activity.

Because of administrative delays, several months may have elapsed between the date of the State's deletion and the date the individual is notified of the deletion. Such an individual would technically owe premiums for the elapsed months. The law was not intended to penalize such individuals who had no opportunity to request termination during the last month they were covered by the State. Therefore, if an individual was not advised by the State of the deletion in or before the month of deletion, equitable relief can be granted. This allows an individual's Part B coverage to end effective with the termination of buy-in coverage (thus allowing him to avoid entirely any premium liability), if all the following conditions are met:

1. The individual submits a written request to have his individual Part B coverage end effective with the end of State buy-in coverage.
2. Such request if filed within 30 days of the date of the notice informing the beneficiary that the State is no longer paying his premiums.
3. The individual certifies that he has incurred no medical services covered under Part B during the months after buy-in termination.

If an individual did receive medical service covered under Part B after the end of buy-in coverage, his individual entitlement must continue until the end of the month in which the termination request is filed (if the request is filed within 6 months of buy-in termination). No intermediate date may be selected for the termination effective date.

3.2.108 Equitable Relief for Beneficiaries Subject to IRMAA

The equitable relief provisions allow the RRB to take action to correct inequity to an individual when the beneficiary’s Part B premium was calculated incorrectly. Therefore, when making retroactive adjustments to the Part B premium amount caused by the addition of or a change in an Income Related Monthly Adjustment Amount (IRMAA), equitable relief must be considered. Please note that equitable relief is based on the amount of retroactive premiums due, not the number of months for which a premium is due.
Automatic consideration of equitable relief in IRMAA cases generally means that the initial notice that premiums are due explains the options to pay by installment and to request waiver of payment of the premiums if payment would cause financial hardship. Cancellation of Part B coverage for the months from which additional premiums are due cannot be considered.

Equitable relief is applied as follows:

- Equitable relief will be automatically extended to an individual when the past due IRMAA exceeds 5 times the current standard Part B premium plus the individual’s IRMAA.

- If, at the time of the IRMAA determination, the individual is no longer entitled to Part B (e.g., voluntary termination), equitable relief will be automatically extended when the past due IRMAA exceeds 5 times the current standard Part B premium.

- If IRMAA determinations are made at the same time for multiple years, equitable relief will be automatically extended when the total IRMAA (for all years) exceeds 5 times the current standard Part B premium plus the individual’s IRMAA.

- If an IRMAA determination is made for a prior year and IRMAA does not apply for the current year, equitable relief will be automatically extended when the past due IRMAA exceeds 5 times the current standard Part B premium.

- If the individual loses variable SMI protection due to the imposition of IRMAA, equitable relief will be automatically extended when the total retroactive premium amount, i.e. the difference between the standard Part B premium plus the individual’s IRMAA and the variable Part B premium, exceeds 5 times the current standard Part B premium plus the individual’s IRMAA.

Here are examples of when equitable relief applies for beneficiaries subject to IRMAA:

**Example 1 – Retroactive IRMAA Determination, No Equitable Relief:** A beneficiary was entitled to Part B effective 01/2007, and paid the standard Part B premium of $93.50 for 01/2007 through 03/2007. In April 2007, a determination is made that he is subject to an IRMAA of $30.90. The beneficiary owes retroactive IRMAA totaling $92.70 (3 months at $30.90). Because the retroactive IRMAA does not exceed 5 times the standard Part B premium plus the IRMAA ($124.40 x 5 = $622.00), equitable relief does not automatically apply.

**Example 2 - Retroactive IRMAA Determination and Equitable Relief:** A beneficiary was entitled to Part B effective 01/2008 and paid the standard Part B premium of $98.90 for 01/2008 through 11/2008. In December 2008, a determination is made that she is subject to an IRMAA of $84.90 beginning 01/2008. The beneficiary owes retroactive IRMAA totaling $933.90 ($84.90 for 01/2008 -11/2008). Since this amount exceeds 5 times the standard Part B
premium plus the IRMAA ($183.80 x 5 = $919.00), equitable relief will automatically be extended.

**Example 3 - Retroactive IRMAA Determination with Premium Surcharge and Equitable Relief:** If the individual in Example 2 is subject to a 20 percent premium surcharge and a retroactive IRMAA determination is made in December 2008, the beneficiary would owe retroactive IRMAA totaling $933.90 ($84.90 per month for 01/2008 - 11/2008). Since this amount exceeds 5 times the standard SMI premium plus IRMAA ($183.80 x 5 = $919), equitable relief will automatically be extended. Note that the premium surcharge is not considered in determining whether equitable relief will automatically be extended.

**Example 4 - Retroactive IRMAA Determination, Variable SMI Premium and Equitable Relief:** A beneficiary paid a variable SMI premium of $64.50 for 01/2008 through 11/2008. In December 2008, a determination is made that he is subject to an IRMAA of $84.90 beginning 01/2008. Beneficiaries who are subject to IRMAA lose variable SMI protection; therefore the beneficiary owes retroactive premiums totaling $1312.30. This is the difference between the variable SMI premium and the standard Part B premium of $98.90 plus the IRMAA of $84.90 ($183.80 -$64.50 = $119.30 x 11 months). Since this amount exceeds 5 times the standard SMI premium + IRMAA ($183.80 x 5 = $919), equitable relief will automatically be extended.

**Example 5 - Retroactive IRMAA Determination and Equitable Relief; Individual Not Currently Entitled to SMI:** A beneficiary was entitled to Part B effective 01/2008 and voluntarily terminated coverage effective 07/2008. The standard Part B premium of $98.90 was paid for 01/2008 through 06/2008. In August 2008, a determination is made that she is subject to an IRMAA of $84.90 beginning 01/08. The beneficiary owes retroactive IRMAA totaling $509.40 ($84.90 for 01/2008 - 06/2008). Since this amount exceeds 5 times the standard Part B premium ($98.90 x 5 = $494.50), equitable relief will automatically be extended.

### 3.2.109 Equitable Relief and Medicare Advantage Premium Reductions

The equitable relief provisions allow the RRB to take action to prevent or correct inequity to the individual when the beneficiary's Part B premium was calculated incorrectly or a dis-enrollment was not processed timely. Therefore, when making retroactive adjustments to the Part B premium amount, caused by a change in a Medicare Advantage premium reduction period or a change to the reduction amount, equitable relief must be considered. For equitable relief to apply, the total past due premium amount (premium arrearage) must be greater than 5 times the current standard Part B premium. Please note that equitable relief is based on the amount of retroactive premiums due, not the number of months for which a premium is due.
Automatic consideration of equitable relief in cases involving changes in a Medicare Advantage premium reduction generally means that the initial notice that premiums are due explains the options to pay by installment and to request waiver of payment of the premiums if payment would cause financial hardship. Cancellation of Part B coverage for the months for which additional premiums are due cannot be considered.

Here is an example of how to determine the Part B arrearage in cases involving Medicare Advantage premium reductions:

**Example 1 – Failure to Disenroll Timely**

The beneficiary's Part B premium rate of $88.50 has been reduced by $75.00 because of the beneficiary's participation in a Medicare Advantage plan that offers this reduction. Notice is received from CMS in October 2006 that shows that the person actually left the plan in February 2006. Since the 9 months of additional premiums due for 02/2006 through 10/2006 (9 X $75.00 or $675.00) is greater than 5 times $88.50 ($442.50), equitable relief must be considered.

**3.2.110 Special Enrollment Period & Premium Surcharge Relief**

A. **Medicare Secondary Payer for the Aged** - Until 1983, Medicare was usually the primary payer of benefits. Any additional insurance the individual had was the secondary or last payer of benefits, which paid some or all of the expenses Medicare did not cover.

Effective 1-83, Medicare became secondary payer for those individuals, age 65 through 69, covered under an employer group health plan (EGHP). The EGHP had to cover 20 or more employees and be based on the individual's current employment or the current employment of a spouse age 65-69.

In 1986, the upper age limit of 69 was removed and Medicare became secondary payer for all those age 65 or over who were covered under an EGHP for 20 or more employees, based on current employment of the individual or spouse of any age.

B. **Enrollment Limits and Surcharge Revised** - After Medicare had become the secondary payer for the "working aged," Congress decided (in 7-84) that the enrollment period limitations and the premium surcharge for late enrollment were penalties that should not apply when Medicare was the secondary payer of benefits.

Amendments provided for a special enrollment period (SEP) effective 11-84. In addition, months effective 1-83 when Medicare was the secondary payer of benefits were to be excluded from the calculation of any Part B premium surcharge on premiums payable from 9-84 on.
In 1986, Congress decided the "working aged" who were covered under EGHPs from employers of any size, based on their own or their spouse's current employment, should not be subject to the enrollment limitations and premium surcharge requirements for the period of time in which they had the EGHP coverage.

Thus, even though Medicare was secondary payer only when the individual was covered under a plan that covered 20 or more employees, the SEP and premium surcharge relief were possible for all those covered under an EGHP of any size based on current employment.

In addition, the SEP and premium surcharge relief provisions were applied to Premium-HI under the same conditions in effect for Part B.

A "catch up" SEP beginning 8-86 and a recalculation of the premium surcharge for premiums due for 6-86 on was made available for all persons who met these new requirements but had not met the old rules.

C. Part B May Still Be Desirable Insurance - Even though the SEP is available for the members of a small employer's (less than 20 employees) EGHP, enrollment in Part B when the individual is initially eligible is encouraged because he/she is leaving himself or herself open to medical bills for which no payment may be made by the small EGHP.

Small EGHP's may voluntarily provide full coverage when the individual becomes eligible for Part A but later reduce the level of coverage. Only a GEP enrollment would be possible under this circumstance, unless the beneficiary terminates the EGHP coverage.

Even large EGHP's may have certain coverage omissions or deductible requirements that make Part B secondary payments an attractive option.

D. Medicare as Secondary Payer for the Disabled - Effective 1-87, Medicare became the secondary payer for the disabled "active individual" who was covered under his or her own or any family member’s large group health plan (LGHP)(a plan that covers 100 or more employee). The law was amended at the same time to allow these people to take advantage of the SEP and premium surcharge relief.

Under the 1989 amendments, effective for enrollments occurring in or after 7-90, and for premiums due beginning 7-90, the provisions were expanded so the disabled individual covered under his/her own or a spouse's EGHP (based on current employment) can also have SEP and surcharge relief, even though Medicare was the primary payer for such individuals. This change made the SEP requirements for the disabled the same as for the aged. However, the disabled also continue to have an SEP based on loss of LGHP coverage as an active individual.
The SEP based on loss of LGHP coverage as an active individual is the only type of SEP available to a family member other than a spouse. In addition, it applies to all "active individuals" where there is a change of coverage from LGHP to EGHP, as described in 3.2.115.

3.2.111 Description Of Terms Used In The Special Enrollment Period And Premium Surcharge Rollback Provisions

The terms described in this section are those used with the SEP and premium surcharge rollback. They may or may not be the same as terms used for Medicare as secondary payer. However, you must use the following description of terms in determining

- if an individual is eligible for the SEP,
- when the SEP should begin, and
- whether a premium surcharge rollback will apply and for what months.

A. Definition of Terms

- **Employer Group Health Plan (EGHP)** - An EGHP is any plan of, or contributing to by, an employer (including a self-insured plan) to provide health care (directly or otherwise) to the employer's employees, or the families of employees. The employer does not have to be in the United States, and the employee does not have to be working in the United States. A person working for a foreign employer, who has a plan that meets the definition in the first sentence, is covered under an EGHP for purposes of the SEP and/or premium surcharge rollback.

  For Medicare secondary payer purposes, the EGHP must be available to at least 20 employees. For SEP purposes, the EGHP can be of any size. However, when referring to an EGHP for the disabled, the term refers to a plan of any size below 100 employees. See 5., below.

  When used in all of the following SEP and premium surcharge rollback instructions, EGHP means specifically an employer group health plan based on the current employment of the beneficiary or the beneficiary's spouse.

- **"Based on Current Employment"** - "Based on current employment" means the individual - under whose plan the Medicare beneficiary is covered - must continue to be employed and not retired. When EGHP coverage extends into retirement, the date of termination of employment is the date of termination of "EGHP coverage based on current employment."

  Where the individual is employed on a contract basis (e.g., a teacher) and has completed the terms of the contract before the date the contract expires,
"current employment" ends when the contract expires. If a retirement pension begins prior to the date of the expiration of the contract, the date the retirement pension begins will be when employment terminates. Also, if there is any kind of "exit process" where the individual has clearly left the ranks of the employed prior to the contract expiration date, that earlier date will be when employment terminates.

When a determination is made for monthly benefits purposes that employment has terminated on a certain date, that date is also used as the date "current employment" has ended for EGHP coverage purposes.

- **Disabled Medicare Beneficiary** - A "disabled Medicare beneficiary" is a disabled worker, a disabled widow(er), or disabled adult child who is entitled to Medicare because of his or her disability, except for those who have end stage renal disease. (There is no SEP or premium rollback for those who have ESRD.

- **Large Group Health Plan (LGHP)** - The term "LGHP" is used exclusively with information on the disabled. An LGHP is an employer group health plan that is available to employees of one or more employers who normally employed at least 100 employees on at least 50 percent of its business days during the previous calendar year.

A multi-employer plan (such as a union plan) may cover employees of some small employers as well as employees of at least one employer that meets the 100 or more employee requirement. In such a case, all the employers - large and small- in this multi-employer plan are considered "large," and their plan coverage is considered LGHP coverage.

When used in all the following SEP and premium surcharge rollback instructions, LGHP means specifically a large group health plan covering the disability beneficiary as an active individual.

- **LGHP Is No Longer a Large Plan** - An LGHP is no longer considered a large plan effective January 1 of the year following the year in which the employer no longer employed 100 employees on at least 50 percent of its business days in that year. For purposes of this instructions, it is to be treated as an EGHP at that point.

- **Active Individual** - This term is used exclusively with information on the disabled. An active individual is an employee, an employer, a self-employed individual (such as the employer), an individual associated with the employer in a business relationship, or a member of the family of any of these persons.

"Employers" are individuals and organizations that are:

- engaged in a trade or business
• Organizations exempt from income tax (i.e., religious, charitable, and educational institutions), and

• the governments of the United States, the 50 States, Puerto Rico, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands, and the District of Columbia, including their agencies, instrumentalities, and political subdivisions.

The employer does not have to be in the U.S., as described above.

Often, the disabled person is the "family member" of the employee, employer, or individual associated with the employer in a business relationship. This means that a disabled person who is covered under an LGHP of a spouse, parent, or any other family member is considered to be an "active individual" even though the disabled individual is not actually the worker.

B. Basic Difference in LGHP and EGHP - LGHPs and EGHPs are both employer group health plans. The differences in their use with the SEP are shown in the following sections. In addition, there are the following basic differences.

Family members other than a spouse (e.g., a disabled adult child) can qualify for an SEP under an LGHP, but not under an EGHP.

When an LGHP becomes an EGHP because of a reduction in the number of employees, an SEP begins. This is the only situation where an SEP begins even though there is not break in employer group health plan coverage.

3.2.112 The Special Enrollment Period

The special enrollment period (SEP) is the period for enrollment in Part B that is provided for individuals eligible for Part B on the basis of age or disability, and who have been covered by an EGHP or an LGHP. Beginning 3-1-1995, the SEP lasts for 8 calendar months. The individual cannot file for an SEP enrollment before the SEP actually begins. An SEP cannot begin because a small employer EGHP offering voluntary primary coverage changes the coverage to secondary.

A. SEP Begins - The requirements for an SEP or subsequent SEP must be met (see 3.2.113, 3.2.114 and 3.2.115). The SEP begins with the earlier of the month of termination of the employment on which the EGHP or LGHP coverage is based, or the month of termination of the EGHP or LGHP coverage.

The reason for termination of the EGHP or LGHP coverage is immaterial. Termination of coverage may be due to termination of employment, or voluntary termination by the enrollee, or loss of coverage for any other reason.

An employee may voluntarily terminate EGHP coverage to begin an SEP, but the employer is still forbidden to offer him/her a Medicare supplement plan.
An SEP begins even if EGHP coverage is terminated for as little as one calendar day. However, employers and employees should be cautioned about the difficulty of finding insurance that would permit such an arrangement.

A change in the EGHP coverage from one health plan to another, when there is no day without coverage, does not begin an SEP.

B. No SEP Enrollment During IEP - The SEP is for those who do not enroll in Part B during the initial enrollment period (IEP). When an individual enrolls in Part B during the IEP, the enrollment must be processed as an IEP enrollment, under all circumstances. This is true even if the individual is in, for example, the 7th month of the IEP (which means that Part B coverage begins three months later) at the time he or she loses EGHP or LGHP coverage.

EXAMPLE: Warren is age 65 in July. His IEP begins with April and ends with October. He is covered under an EGHP until he retires the first of October. He enrolls in Part B in October, which is both the last month of his IEP and the first month of the SEP. Part B coverage begins with the following January under the IEP rules which take precedence. If Warren waits until November to enroll, his Part B coverage begins with December, since he is enrolling in the second month of the SEP.

C. SEP and GEP Overlap - The individual who enrolls in an "SEP month" that occurs in January, February, or March can elect to have the enrollment processed as either a general enrollment period (GEP) enrollment or as an SEP enrollment.

If an individual chooses a GEP enrollment, the premium surcharge is calculated using the months through the end of the GEP. However, the months of EGHP or LGHP coverage are subtracted from the calculation (see 3.2.119). The file is documented to show the individual chose the GEP enrollment even though coverage would begin earlier if the enrollment had been processed as an SEP enrollment.

3.2.113 Requirements For SEP For The Aged

Effective for enrollments beginning 8-1-86, an individual age 65 or over begins an SEP as soon as he or she is no longer covered under an EGHP based on current employment, if one of the requirements shown below is met.

A. No Previous Part B Enrollment - If the individual did not enroll in the IEP, he or she had to be covered under an EGHP based on his or her own or a spouse's current employment when first eligible for Part B.

B. Previous Part B Entitlement - If the individual enrolled in Part B during his or her IEP, and later terminated Part B, he or she had to be covered under an EGHP
based on his or her or a spouse’s current employment at the time of Part B termination.

C. **Subsequent SEP** - If the individual enrolled in Part B during an SEP, and later terminated Part B, he or she had to be covered under an EGHP based on his or her or a spouse’s current employment at the time of Part B termination.

There is no limit on the number of subsequent SEPs. Reenrollment may occur any number of times depending only on how often EGHP coverage is lost and regained. However, to have any subsequent SEP, the individual must have enrolled during the earlier SEPs available to him or her. Enrollment during a GEP that falls within an SEP (with a choice of the July 1 date of entitlement based on the GEP) satisfies the requirement for an "earlier SEP enrollment."

### 3.2.114 Requirements For SEP For Disabled Beneficiaries Covered Under An EGHP

The following requirements are to be used only for the disabled beneficiary who has most recently been covered, based on current employment, under his or her own or spouse’s EGHP. The requirements do not apply to "family members" other than a spouse. **Other family members** can have an SEP only on the basis of LGHP coverage.

The requirements a disabled beneficiary must meet are the same as those for the aged, shown in 3.2.113. There is however, one additional time a disabled beneficiary can begin an SEP which is not available to the aged.

As noted in 3.2.114, disabled beneficiaries who go from LGHP to EGHP coverage can have an SEP. If they do not enroll in that SEP, the non-enrollment does not bar them from an SEP when the EGHP coverage ends.

The SEP for the disabled beneficiaries covered under an EGHP as described above, is effective for enrollments and reenrollments that occur during or after 7-90.

### 3.2.115 Requirements For SEP For Disabled Beneficiaries Covered Under An LGHP

A. **Requirements** - The requirements are to be used when a disabled beneficiary is seeking an SEP and has, most recently, been covered under an LGHP as an active individual.

The references in this section to EGHP coverage can only apply when the EGHP coverage was based on the current employment of the disabled beneficiary or his or her spouse.

A disabled beneficiary begins an SEP:
• as soon as he or she is no longer covered under an LGHP as an active individual (or the LGHP no longer meets definition of a LGHP as shown in 3.2.111; that is, when the plan is no longer a "large" plan) and

• one of the requirements in 1, 2 or 3 below is met.

1. **No Previous Part B Enrollment** - If the individual did not enroll in Part B during his or her IEP, he or she had to be covered when first eligible for Part B under an LGHP as an active individual (or under his or her own or a spouse's EGHP based on current employment).

2. **Previous Part B Entitlement** - If the individual enrolled in Part B during his or her IEP, and later terminated Part B, he or she had to be covered under an LGHP as an active individual (or under his or her own or a spouse's EGHP based on current employment) at the time of Part B termination.

3. **Subsequent SEP** - If the individual enrolled in Part B during an SEP, and later terminated Part B, he or she had to be covered under an LGHP as an active individual (or under his or her own or spouse's EGHP based on current employment) at the time of Part B termination.

There is no limit on the number of subsequent SEPs as long as the individual met the requirements and enrolled in the previous SEPs. See the instructions in 3.2.116 concerning the conditions under which an SEP is deemed not to have occurred, thus permitting an SEP even where an earlier SEP seems to have been by-passed.

These requirements are effective for enrollments and reenrollments that occur during or after 1-87. If the requirement being used involves EGHP coverage (for example, the disabled beneficiary was enrolled in a spouse's EGHP based on current employment at the time of first eligibility for Part B), the requirements are effective only for enrollments and reenrollments beginning 7-90.

**B. Change from LGHP to EGHP** - Disabled beneficiaries covered under an LGHP as an active individual, as described in A. above, begin an SEP when the LGHP is reduced in size to less than 100 employees. The LGHP, for all intents and purposes, becomes an EGHP.

If they do not enroll when the LGHP becomes an EGHP, these disabled beneficiaries have another chance for an SEP when such EGHP enrollment based on current employment eventually ends, as noted in 3.2.116. This is only true if this EGHP coverage is based on their own or their spouse's current employment. It does not include disabled adult children.
EXAMPLE: Mary, a disabled beneficiary since 1987, had been covered under her working husband's LGHP, which has been primary payer of benefits, since she first became eligible for Medicare.

In May 1990, her husband's employer made no other changes except the reduction of staff to less than 100 employees for the balance of that year. Medicare would be the primary payer of benefits beginning with January 1991, Mary has an SEP beginning January 1991.

C. Change from EGHP to LGHP - If EGHP coverage changes to LGHP coverage as an active individual, an SEP does not begin. He or she will have an SEP when no longer covered under an LGHP as an active individual (assuming the requirements above are met).

3.2.116 SEP Deemed Not To Have Occurred

A. Full 8-Month SEP - The law provides a full 8-month SEP for an individual to enroll in Part B.

Therefore, when an SEP begins but, before the 8-months of the SEP expires, the beneficiary is once again covered under an EGHP or LGHP as described in 3.2.111, the SEP is deemed to have not occurred. This protects the individual's rights to an SEP or a subsequent SEP.

EXAMPLE: Michele, age 67, and covered under the EGHP for many years based on her own employment, retired on 7-1-02. Her SEP would run from 8-02 through 3-03. However, in 10-02, before enrolling in Part B, she begins working again and is once more covered under an EGHP. When she retires in 10-05, her SEP will begin at that time because Michele never had the advantage of a full SEP at the first opportunity.

B. LGHP Decreases in Size - When an LGHP is no longer a "large" plan, as described in 3.2.111, an SEP begins.

However, if the disabled beneficiary has EGHP coverage as a current employee or the spouse of a current employee and does not enroll in that SEP, he or she may nevertheless have an SEP when that EGHP coverage ends. In other words, the SEP that began when the LGHP became an EGHP is deemed not to have occurred.

EXAMPLE: Felix, a disabled beneficiary, did not enroll in Part B when first eligible because he was enrolled in his wife's employer plan. His wife's employer had more than 100 employees until 4-05. Beginning 1-06, the plan is no longer an LGHP; it becomes an EGHP at that point. Although he could have enrolled in Part B during the SEP beginning 1-06, Felix did not do so.
When his wife retires 10-1-06, Felix enrolls in Part B during the SEP that begins 10-06, since he has lost EGHP coverage based on current employment. The SEP that began 1-06 is deemed not to have occurred.

If Felix were a disabled adult child covered under his working parent's LGHP, he would have had only the one SEP beginning 1-06.

### 3.2.117 Part B Effective Date When Enrollment Occurs During The SEP

**A. Part B Effective Date** - Enrollment during the first month of the SEP results in Part B coverage effective with the first day of that month or any of the next 3 months as chosen by the beneficiary.

Enrollment during the last 7 months of the SEP results in Part B coverage effective with the first day of the month after the month of enrollment.

**EXAMPLE:** Edward Rote, age 65, had coverage under an EGHP from 1970 until the end of the month during which he retired - 9-05. His SEP begins with 10-05 and runs through 5-06. If he enrolls in 10-05, Part B can begin 10-1-05 or any of the 3 months after – 11-1-05, 12-1-05, or 1-1-06, as chosen by Mr. Rote. If he enrolls during the balance of the SEP, Part B begins with the month after the month of enrollment.

**B. Partial Month of EGHP or LGHP Coverage** - When EGHP or LGHP coverage is lost before the end of a calendar month, that partial month of EGHP/LGHP coverage is the first month of the SEP only if the individual enrolls in Part B during that month.

If enrollment does not occur during the first partial month of EGHP/LGHP coverage, the following month is the first month of the SEP.

**EXAMPLE:** Barbara Dooley has been covered under an EGHP based on her own employment since 2000. She retires on 6-15-02, at age 68. Her EGHP coverage ends on that same day. If she enrolls in June, her SEP begins with June and Part B will begin 6-1-02. If she does not enroll in June, the SEP will begin with July. If she enrolls in July, Part B will begin 7-1-02. If she enrolls during August through February (the balance of the 8-month SEP), Part B begins with the month after the month of enrollment.

### 3.2.118 SEP Enrollment

Field Office personnel must determine if the requirements for an SEP exist before they secure the necessary application for enrollment and evidence of coverage under an EGHP or LGHP. Therefore, the field office personnel must determine the following:

- if the health plan is an EGHP or LGHP, and
• if aged, was the EGHP coverage based on the individuals or individuals spouses current employment or if disabled, was the disabled individual covered under a LGHP as an active individual?

Self-employed individuals may be entitled to an SEP. In addition to meeting other requirements, until the end of 1990, the self-employed individual must be covered by an EGHP, under which two employees in addition to himself are eligible to be covered. As of 1-1-91, only 1 employee (in addition to the self-employed person) needs to be eligible for coverage under the EGHP for SEP and premium surcharge roll back purposes. The only exception is that disabled children must be covered by an LGHP.

A. Application Requirements - If an individual is filing an application for railroad retirement benefits at the same time he or she is enrolling for Medicare Part B during a SEP, a separate application is not required. Instead, the field office personnel should answer the appropriate Medicare-related questions on APPLE. A separate application, Form G-44b, may be developed at that time, but it is not necessary. Also acceptable is a simple, signed and dated statement on any other piece of paper such as, "I want to enroll in Medicare Part B", and include claim of EGHP coverage and the chosen Part B effective date.

Mark in red at the top of the enrollment, "SEP Enrollment."

B. Proof of EGHP - Preferred proof of EGHP coverage is on Form RL-311-F; however, stationary from the employer or insurance company is acceptable. It must show when coverage started and exactly when it ends.

See 3.2.160J for further information on applications and proofs.

3.2.119 Effect On The Premium Surcharge For Late Enrollment For The Aged And Disabled

A. Elimination or Reduction of the Surcharge - The surcharge is determined by counting the number of months when an individual could have been, but was not, enrolled in Part B after the initial enrollment period through the end of the enrollment period in which enrollment occurs.

When calculating the number of months during which an individual could have been, but was not, enrolled in Part B, the months of EGHP or LGHP coverage are excludable, as described below.

1. Exclusion of EGHP Months For the Aged - Effective for premiums due for 6-86 and later months, the calculation of the surcharge for late enrollment will exclude:

• those months beginning with 1-83 (or, if later, age 65) during which the individual can demonstrate he or she was enrolled in an EGHP based on his
or her or a spouse's current employment, even if the employer did not have 20 or more employees, and

- all months of Part B entitlement.

2. Exclusion of EGHP Months for the Disabled - The policies above are followed, except the months to be considered are those beginning with 1-87 and the earliest month for which the premium rollback can be effective is 7-90.

3. Exclusion of LGHP Months for the Disabled - Effective for premiums due for 1-87 and later months, the calculation of the surcharge for late enrollment will exclude:

- those months beginning 1-87 during which the individual can demonstrate he or she was enrolled as an active individual in an LGHP, and
- the months of Part B entitlement occurring as a result of an SEP enrollment.

B. Surcharge Reduction - The premium surcharge can be reduced or eliminated under the law even if the individual cannot have an SEP for any reason and is enrolling (or had enrolled) in a GEP.

The surcharge relief may be requested by any individual who is already entitled to Part B or who is filing a GEP request for enrollment, etc. and for whom the policy described in A. and B., above, would apply.

C. How Request For Surcharge Relief Should Be Made - Make sure the beneficiary requests exclusion of months from the determination of the surcharge on a signed request or Form G-44B. The FO should have the beneficiary mention on the request (or the FO may complete a Report of Contact) the months during which the individual had EGHP coverage based on current employment or LGHP coverage as an active individual.

Most often, this request will be part of an SEP enrollment package.

If the request for the surcharge reduction is not part of an SEP enrollment package, the Field Office should mark the request prominently at the top in red "Premium Surcharge Rollback" when forwarding it to MS. Make sure that the annotated page is on top.

Whether it is part of an SEP enrollment package or not:

- attach evidence of EGHP or LGHP coverage as in 3.2.120 and include a Report of Contact giving the months the FO personnel have determined should be excluded from the surcharge computation.
3.2.120 Evidence Of Coverage Under An EGHP Or LGHP

A. **EGHP Coverage** - Evidence of EGHP coverage based on current employment is required for an SEP or premium surcharge rollback. The evidence may be in any form as long as all of the following are present:

- there is no question the evidence is from the employer or from the EGHP,
- the evidence permits a finding of when the individual was covered under an EGHP based on current employment, and
- the evidence permits a finding of when coverage, based on current employment, ended (except in GEP enrollment cases where the EGHP coverage need not end to have the premium surcharge rollback).

The evidence need not indicate how large the employer is or if the EGHP is primary to Medicare.

B. **LGHP Coverage** - The same requirement shown above apply to the disabled beneficiary covered under an LGHP, with the following exception in cases when an individual is not working and is not the spouse of a worker, it must be determined if the individual meets the definition of "active individual" in 3.2.111.

The FO should on a Report of Contact or other statement, there should be given the following information on whether the group health plan is an LGHP, as defined in 3.2.111:

- When it is common knowledge that the group health plan meets the definition of LGHP, a Report of Contact stating that fact is all that is required as evidence that this factor is met.
- If there is a question whether the definition of LGHP is met, the beneficiary's signed statement, or the signed statement of the employer or the group health plan, relating to the definition, is acceptable. However, if there is any question as to the accuracy of the statement, development must be done to assure that the group health plan meets the definition of LGHP in 3.2.111.

When an SEP is being sought because an LGHP has become as an EGHP (employee force has dropped to less than 100), the above development is required to determine if such is the case.

C. **Other Evidence** - A certification from an employer's records by an authorized FO employee (e.g., a Field Representative as to the information on EGHP coverage based on current employment (or LGHP coverage as an active individual) is also acceptable.
3.2.121 Examples Of The Elimination Or Rollback Of The Premium Surcharge For The Aged And Disabled

A. **Enrollment Occurred Years Ago** - John attained age 65 in 2-83 and enrolled in Part A and Part B when he retired 1-1-85. He had primary EGHP coverage all months, but his Part A entitlement could only be retroactive 6 months, to 7-84. Concurrent Part A/EGHP coverage was required prior to the 1986 amendments for exclusion of months from the surcharge calculation, as explained in 3.2.130. Since Part A/EGHP coverage existed only for 7-84 - 12-84, he had a premium surcharge of 10 percent because 13 months elapsed after the end of his IEP to his first month of entitlement to Part A (i.e., 6-83 through 6-84).

In 10-90, John learns of the changes made by the 1986 Amendments and applies for a rollback in the premium surcharge. His SEP file already contains evidence that he was covered under an EGHP based on current employment all months from age 65 until retirement. Consequently, his premium rate is re-established at the base rate, retroactive to 6-86, and he receives a refund of the overpaid premium amount; i.e., the amount due to the 10 percent penalty.

B. **Surcharge Relief, But No SEP** - Rose, a beneficiary since age 62, was automatically enrolled in Part A when she attained age 65 in 12-89. She refused Part B because she had been covered under her husband's EGHP for many years while he was still working. She thought that her husband's EGHP was primary to Medicare. However, her husband works for an employer who has only 10 employees.

When Rose learns in 10-90 that the EGHP will not pay primary benefits, she decides to enroll in Part B. She cannot have an SEP because her EGHP coverage has not ended. She enrolls in the 1991 GEP, with Part B effective 7-91. There is no premium surcharge assessed for late enrollment because she submits evidence that she has been covered under an EGHP all months from age 65 on.

C. **Disabled Individual With LGHP** - Ken Kahn has been entitled to Medicare as a disabled beneficiary since 5-84. He refused enrollment in Part B because he was assured of coverage under his working wife's LGHP. Mrs. Kahn works for an employer of 100 or more employees. On 8-11-88, Mrs. Kahn Retires.

Mr. Kahn inquires in 9-88 about enrolling in Part B. Since he was enrolled as an "active individual" (i.e., the "family member" of an "employee") in an LGHP when he was first eligible for Part B, but is no longer so enrolled upon his wife's retirement, he meets the requirements for an SEP. Since 9-88 is the first month of the SEP, his Part B begins with 9-1-88. (If Mr. Kahn had filed in 8-88, 8-88 would have been the first month of the SEP.)
He has to pay a premium surcharge for late enrollment because only the months from 1-87 through 8-88 are excludable. The computation of the surcharge includes the months from 9-84 (the first month after the end of the disability IEP) through 12-86, a total of 28 months, resulting in a 20 percent surcharge for late enrollment. (As in all cases of disabled Medicare beneficiaries, the surcharge is eliminated when he is entitled to Medicare at age 65 because he has a new IEP based on conversion to retirement benefits.

D. Disabled Individual With EGHP - Same situation as example C, but Mrs. Kahn's employer always had less than 100 employees, and the EGHP was not a multi-employer plan encompassing at least one employer who had at least 100 employees (i.e., does not meet the definition of LGHP). Mr. Kahn had to wait until the 1989 GEP to enroll in Part B, with coverage effective 7-89, and a surcharge of 40 percent, based on the 55 countable months from 9-84 through 3-89. The law did not permit either an SEP or premium surcharge rollback based on EGHP coverage of the disabled in 1988, when his wife retired.

However, if Mr. Kahn inquires at any time after the law's change in 12-89, his premium effective 7-90 will be refigured to exclude the months from 1-87 through 8-88 from the premium surcharge calculation. Therefore, as of 7-90, his premium surcharge for late enrollment would be reduced from 40 percent to 20 percent.

E. Disabled Adult Child (DAC) Under LGHP - Lenny Backman, born 3-12-45, is a DAC entitled to Medicare since 3-75, based on the account of his deceased mother. He had been enrolled in Part B from 3-75 through 12-80 when his enrollment was voluntarily terminated.

From 1-81 through 8-87, when his father retired, he had coverage under his father's LGHP. His father had his own business with 185 employees. Since Lenny was enrolled in Part B when first eligible and terminated Part B when covered under and "LGHP" as an "active individual" (family member of a self-employed individual who had more than 100 employees), he may have an SEP that runs from 9-87 through 3-88. Assuming that he enrolls in 10-87, his Part B will begin 11-87.

Lenny's premium surcharge is established at 60 percent, counting the months of 1-81 through 12-86, plus 9-87 and 10-87 (a total of 74 months).

F. Decreased in Employees Disability - Tim Pagnozzi was covered under his working wife's LGHP when he became entitled to Part A (and refused Part B) effective 1-86. From 1986 through 1990, his wife's employer had more than 100 employees all year. Therefore, from 1987 through 1991, Medicare was secondary payer of benefits.

In 1991, the workforce dropped to less than 100 throughout most of the year. In 5-92, Mr. Pagnozzi files for Part B during the SEP that began 1-92, the first
month for which Medicare would be the primary payer of benefits. Part B begins 6-92.

The premium surcharge for late enrollment excludes the months 1-87 through 12-91 when Medicare was the secondary payer of benefits because of coverage in the previous year as an active individual under an LGHP.

The months 5-86 through 12-86 (8 months) have to be included in calculating the surcharge because they occurred after the end of his IEP and prior to 1-87, the effective month of the provision.

In addition, the months 1-92 through 5-92 are included in the calculation of the surcharge because they are months during the SEP when Mr. Pagnozzi was not yet entitled to Part B.

This is a total of 13 months and results in a 10 percent surcharge for late enrollment.

### 3.2.122 SEP Would Begin After Application Is Filed

The law requires that an enrollment in Part B be filed only during an enrollment period.

The law is silent on when evidence of termination of employment or EGHP/LGHP coverage may be accepted. Thus, such evidence may be accepted in advance of the beginning of the SEP.

The individual who is covered by an EGHP/LGHP when he or she files for monthly benefits and Part A, but will shortly terminate employment, has the option of refusing Part B at that time and enrolling in Part B when the SEP begins. However, see 3.2.112 as a precaution when discussing delays in enrollment, if there is any chance that employment will end during the IEP. That section explains that there can be no SEP enrollment until after the IEP ends.

**A. Filing Before the SEP Begins** - If the individual files for Part A and Part B after the IEP, alleging future termination of EGHP coverage (e.g., because of retirement), take a Part B application for processing as an SEP enrollment.

Although the SEP does not begin until the month the individual is no longer covered under the EGHP, the individual can still enroll for Medicare Part B under the SEP provisions while still employed. If an individual enrolls in Part B while still covered under GHP/LGHP or during the first full month when not enrolled in GHP/LGHP based on current employment status, the individual has the option of choosing an effective date for Medicare Part B. He or she may elect to have Part B effective either the first day of the first month of his or her enrollment or the first day of any of the following three months.
If the individual enrolls in Medicare Part B during any of the seven remaining months of the SEP, coverage begins with the first day of the month after the month of enrollment.

Examples of How Medicare Part B Effective Date is Determined

If an individual’s last day of coverage under a GHP/LGHP based on current employment status is March 13, 2005, the following applies:

1. If the individual files for Part B in February 2005, he or she can elect coverage beginning February 1, March 1, April 1, or May 1.

2. If the individual files for Part B in March 2005, he or she can elect coverage beginning March 1, April 1, May 1, or June 1.

3. If the individual files for Part B in April 2005, he or she can elect coverage beginning April 1, May 1, June 1, or July 1.

4. If the individual files for Part B at any time during the period of May 1 through November 30, 2005, i.e. the remaining seven months of the SEP, the Part B coverage becomes effective the first day of the month after the month of enrollment.

Because of folderless processing in MS, the FO should make sure this evidence accompanies the SEP enrollment request when it goes to the MS, especially the requested beginning date of Part B.

B. Effect of Automatic Enrollment - If an application is filed in a current GEP, or is processed as a "deemed filing" in the next GEP, any applicable premium surcharge is assessed based on a GEP enrollment. However, the documented months of coverage under the EGHP/LGHP are excluded from the surcharge calculation, as described in 3.2.119. The Part B enrollment is handled as if there will be no SEP involvement. This means Part B entitlement is effective with July 1 following the GEP.

C. GEP Enrollment Followed by SEP Enrollment - Whether the application is filed in a current GEP, or is processed as a "deemed filing" in the next GEP, any applicable premium surcharge is assessed based on a GEP enrollment. However, the documented months of coverage under the EGHP/LGHP are excluded from the surcharge calculation. The Part B enrollment is handled as if there will be no SEP involvement. This means Part B entitlement is effective with July 1 following the GEP.

However, when the SEP enrollment and evidence (if not previously submitted) is eventually received after the SEP begins, the Part B determination is amended. Part B will begin under the SEP rules on when coverage begins, and the premium surcharge (if any) is adjusted as necessary.
3.2.123 Self - Employment And The SEP

A. Treat Self-Employed Like Employees - All requirements and rights to an SEP and premium surcharge rollback that apply to employees apply also to the self-employed.

B. Spouse Is Covered Under EGHP or LGHP - If the spouses of the self-employed individual's employees are eligible to be covered under the EGHP or LGHP, the self-employed individual's spouse is also eligible for coverage under the EGHP or LGHP.

C. Number of Employees for SEP-EGHP - Until the end of 1990, the self-employed person seeking an SEP had to be covered by a group health plan under which at least 2 employees were eligible for coverage. As of 1-1-91, only 1 employee (in addition to the self-employed person) needs to be eligible for coverage under the EGHP for SEP and premium surcharge roll back purposes.

D. Effective Date for Change in Number of Employees - The change in policy in C, above is effective for enrollments in 1-91 and later months. Months of such EGHP coverage beginning with 6-86 may, however, be excluded from the calculation of the premium surcharge for late enrollment for the aged or, effective with 1-87, for the disabled.

There is no need to search for cases that may be affected by this change in the number of employees. However, any premium surcharge cases that come to your attention which would be affected by the change in policy are to be processed.

Where the prior request for an SEP was denied because the self-employed individual had only one employee eligible for EGHP coverage, it may be reopened, if the individual wants it to be reopened and it would benefit him or her.

E. Number of Employees for SEP - LGHP - The provisions relating to an SEP for the self-employed based on LGHP coverage require that the employer plan be available to 100 or more employees (in addition to the self-employed individual). Alternatively, the self-employed individual and his employees may be under a multiemployer group health plan that is available to employees of at least one employer group health plan that is available to employees of at least one employer who has 100 or more employees. (The law does not require that 100 or more individuals be enrolled in the plan, only that the plan cover employees of at least one employer that meets the 100-employee requirement.)

A disabled beneficiary may be either the self-employed individual (e.g., under a trial work period) or the "family member" of a self-employed individual and covered under the LGHP (if the family members of employees are offered the opportunity for such coverage).
F. **Insurance from Association, Lodge, Etc** - The self-employed individual may also be covered under health insurance offered by a professional association, lodge, fraternal organization, etc. For example, an attorney may be under a plan sponsored by the local Bar Association.

If there is:

- one employee of the association, lodge, or organization, or
- one employee of a self-employed member of the association, lodge, or organization, who is eligible for coverage under the same plan as the self-employed individuals are covered, that plan is considered an EGHP (or LGHP, if there are 100 or more such employees).

Thus, the self-employed individual (and spouse, if the employees' spouses are also eligible under the same EGHP/LGHP) has health insurance coverage that meets the definition of EGHP/LGHP coverage.

If the association plan for the self-employed members is not available to any employees, that plan is not an EGHP or LGHP. The self-employed member is not eligible for an SEP based on the health insurance coverage from such a plan.

Obtain evidence of EGHP or LGHP coverage from the EGHP or LGHP when the claimant is the employer. Include the name of the self-employed individual's company, if needed for the group health plan to identify the firm.

For premium surcharge rollback requests received from an aged individual at any time:

- Premiums for months prior to 6-86:
  
  Apply the rules in 3.2.130 if the self-employed individual was covered under an EGHP under which 20 or more employees were covered in addition to the self-employed person;

- Premiums for months after 5-86:
  
  Apply the rules in 3.2.119, if the self-employed individual was covered under an EGHP under which at least 1 employee was eligible to be covered in addition to the self-employed person.

For premium surcharge rollback requests received at any time:

- Apply the rules in 3.2.114 for the disabled self-employed individual for months of coverage under an EGHP.

- Apply the rules in 3.2.115 for the disabled self-employed individual for months of coverage under an LGHP.
3.2.124 SEP And Premium Surcharge Rollback For Those Who Are ELIGIBLE For Premium-HI

The SEP and premium surcharge rollback provisions apply to Premium-HI in the same way as they apply to Part B.

The Premium-HI surcharge for late enrollment is limited by law to 10 percent no matter how late the individual enrolls in the program. Excluding months of EGHP or LGHP coverage will either remove the surcharge completely or limit the period of time during which a 10 percent surcharge must be paid.

EXAMPLE: Helen was born 3-21-22. She was covered under her husband's EGHP until he retired on 5-31-91 at age 61. She never worked, but she meets the requirements for Part B and Premium-HI.

Helen's SEP begins with 6-91 and she filed in 9-91. She is awarded Premium-HI and Part B effective with 10-91 (the month after enrollment). Her premiums for Premium-HI and Part B are not increased for late enrollment as the only months after age 65 when she was not covered under an EGHP (according to the evidence she submitted), and was not enrolled in Premium-HI and Part B, were 6-91 through 9-91.

3.2.125 "Sunset Provision" For The Disability Provisions

A. Sunset Provision - The law contains a "sunset provision" for Medicare secondary payer, SEP, and premium surcharge limits for disabled beneficiaries. The date for the end of these provisions were originally 12-31-91, but has been changed by subsequent legislation to 9-30-95.

Therefore, as of 10-1-95, Medicare will be the primary payer of benefits for the disabled even if the disabled individual still has LGHP coverage. Since the provisions on Medicare as a secondary payer for the disabled person will expire then, the beneficiary will be able to meet the definitions in 3.2.111 after 9-30-95, as they will officially, no longer exist in the law.

B. Last SEP - The last SEP based on LGHP coverage for all disabled Medicare beneficiaries who meet the requirements for an SEP in 3.2.115 will begin with 10-1-95 and end on 4-30-96. These are the 7 months after the last month that the law formally recognizes there is such a thing as "LGHP" coverage.

C. Beneficiary Should Inquire in 1995 - The disabled Medicare beneficiary must understand that, if not entitled or re-entitled to Part B prior to 10-1-95, he or she should inquire as soon after 9-30-95 as possible to ensure that his or her rights under the law are protected.
3.2.126 "Sunset Provision" For The Disability Provisions

A. Sunset Provision - The law contains a "sunset provision" for Medicare secondary payer, SEP, and premium surcharge limits for disabled beneficiaries. The date for the end of these provisions were originally 12-31-91, but has been changed by subsequent legislation to 9-30-95.

Therefore, as of 10-1-95, Medicare will be the primary payer of benefits for the disabled even if the disabled individual still has LGHP coverage. Since the provisions on Medicare as a secondary payer for the disabled person will expire then, the beneficiary will be able to meet the definitions in 3.2.111 after 9-30-95, as they will officially, no longer exist in the law.

B. Last SEP - The last SEP based on LGHP coverage for all disabled Medicare beneficiaries who meet the requirements for an SEP in 3.2.115 will begin with 10-1-95 and end on 4-30-96. These are the 7 months after the last month that the law formally recognizes there is such a thing as "LGHP" coverage.

C. Beneficiary Should Inquire in 1995 - The disabled Medicare beneficiary must understand that, if not entitled or re-entitled to Part B prior to 10-1-95, he or she should inquire as soon after 9-30-95 as possible to ensure that his or her rights under the law are protected.

3.2.127 Value Of Part B Coverage As A Supplement To An LGHP Or EGHP

A. Background - Part B may be a valuable supplement to EGHP or LGHP coverage if health care expenses are high, or the plan coverage is poor.

Where Medicare is the primary payer because the plan is small, Part B coverage would often be a necessity.

In November 1991, however, certain open enrollment guarantees were legislated for those age 65 or over who purchase Medigap policies (insurance that helps to pay for expenses that Medicare does not cover). The open enrollment guarantees relate mainly to the availability and cost of Medigap policies.

The Medigap open enrollment period begins with the first month of entitlement to Part B on or after age 65 and continues for a total of 6 months.

In order to take advantage of these guarantees, the individual would purchase Medigap insurance within the open enrollment period. However, because of certain anti-duplication provision in current law, EGHP coverage (from any size employer) may prevent an individual from exercising his/her right to the guarantees. Once the open enrollment period has passed, the guarantees would be forfeited.
B. Procedures - The FO should explain that there are certain Medigap open enrollment guarantees that apply to individuals if the individual enrolls in Medigap insurance within 6 months of the month of entitlement to Part B.

Do not try to explain the guarantees in other than the general terms used above. Tell the individual to secure a copy of the publication "Guide to Health Insurance for People with Medicare."

Also, refer the individual to the Local Office on Aging or to the State Insurance Commissioner for details on the Medigap guarantees and the effect of the provisions on his/her particular circumstances.

Document the file of any individual, age 65 or over, who elects Part B while covered under an EGHP. This is to show that he/she was told of the existence of Medigap open enrollment guarantees and was referred to the Office on Aging or the State Insurance Commissioner.

3.2.128 Policy Issues Arising From SEP Or Premium Surcharge Rollback Provisions

This section explains various policy issues that have arisen in the taking and processing of claims for the SEP and surcharge reduction.

A. When Does SEP Begin for Those Who Are Covered Under Their Own and a Spouse's EGHP? - When coverage under two EGHPs (or LGHPs, or a combination of EGHP and LGHP) is involved, the SEP begins when the individual is no longer covered under any group health plan based on current employment (or an active individual).

For example, a man with EGHP coverage from his own employment retires. He retains EGHP coverage under his working wife's EGHP. His SEP does not begin until the earlier of his wife's retirement or termination of his coverage under her EGHP.

B. Which SEP Rules Apply Where an Aged Person Is Covered Under a Disabled Spouse's LGHP? - An aged person who wants an SEP must meet the rules for the aged, even if he/she is covered under an LGHP of a disabled spouse who is, for example, working during a trial work period.

The aged person's SEP begins when he/she is no longer covered under an EGHP based on current employment. In this particular case, the LGHP would be considered an EGHP.

C. Is the Surcharge Reduction Applicable Only When the Person Is Filing in an SEP? - No matter when an individual enrolls, in a GEP or in an SEP, the months as shown in 3.2.119 are excluded in determining the premium surcharge. In the case of a GEP enrollment while still employed, the evidence required to show the
months of EGHP coverage would not need to indicate an ending date for EGHP coverage. Be sure to show that retirement has not occurred to avoid redevelopment requests for retirement date.

D. If a Person Is Paid for Some Months After He/She Retires, When Does SEP Begin?

1. When pay received after retirement is attributed to the last month of employment for social security benefit purposes, that month is also the last month of "current employment" for SEP purposes. The SEP begins just as if no later payments were going to be received.

2. Disability payments, subject to FICA taxes, continue the duration of employment for up to 6 months.

E. Is a Former Employee Under "an EGHP Based on Current Employment" if He Has a Retirement EGHP but Has Been Rehired? - An employer group health plan based on former employment becomes an EGHP based on current employment when the individual is rehired by the former employer who is furnishing the retirement EGHP. In such a case, the coverage under the EGHP is attributed to current employment. This is true even if the payment for the EGHP coverage is being deducted from a pension or annuity payment.

If employed by an employer other than the one providing the group health plan coverage, however, the EGHP is a retirement plan and is not based on current employment.

F. If EGHP or LGHP Coverage Ends but Employment or Active Individual Status Continues, Does an SEP Begin? - An SEP begins when EGHP (or LGHP) coverage is terminated, even if the employment (or active individual status) on which it is based continues. This is true regardless of the cause of termination of the group health plan coverage, and whether or not the individual initiated the termination.

G. Are Clergy and Members of Religious Orders "Employee?" - If members of the clergy are covered for social security purposes as employed or self-employed individuals, they are employees for purposes of these provisions.

Those members of religious orders who have taken a vow of poverty are employees for purposes of the special enrollment period and premium rollback provisions as long as they are actively engaged in work for their Orders. This is true whether or not they are reported as employees by their respective Orders pursuant to an election by the Order under section 3121(r) of the Internal Revenue Code.
H. What Is the Status of a Divorced Spouse? - If a divorced spouse is covered under the EGHP/LGHP of the former spouse, the divorced spouse is considered to be a "spouse" for purposes of these provisions.

I. What About Furloughs or Lay-Offs? - In case where the employee if furloughed or laid off, a question arises as to whether the SEP begins with the first month of unemployment due to the furlough or lay-off. In such a case, the employer plan or the employer must be contacted and asked if, during these temporary non-work periods, enrollment in the EGHP/LGHP continues. The statement of the EGHP/LGHP (or employer) is accepted.

J. Can Plan Coverage Remain Primary After Employment Ends? - EGHP coverage can remain primary only through the last day of employment, or (at the employer's or the plan's choice) through the end of the month during which employment ends. In no case, can it be primary later than that. LGHP coverage is primary as long as the disabled beneficiary meets the definition of "active individual," and is under age 65.

K. Is TRICARE an EGHP? – TRICARE, formerly known as CHAMPUS, the Civilian Health and Medical Plan of the Uniformed Services, is an EGHP. However, only if the current coverage is based on an active duty military status, can loss of TRICARE result in an SEP.

For example, if a wife is covered under TRICARE based on her husband's current military service, TRICARE is an EGHP and she can have an SEP based on loss of TRICARE or termination of her husband's active duty status. If the wife is covered under TRICARE based on her husband's past military service (which is the most common case for the aged), loss of TRICARE does not begin an SEP.

L. Does an SEP Begin If the One Who Is the Worker Dies? - The death of the worker begins the SEP for the surviving spouse (or family member, if disabled and an LGHP is involved). This is true if the survivor was covered under the worker's EGHP or LGHP at the time of the worker's death.

However, the SEP will not begin if the survivor is also covered under an EGHP based on his or her own current employment, or under an LGHP as an "active individual."

M. Does an SEP Begin When an EGHP No Longer Covers 20 Employees? - An SEP does not begin because an EGHP no longer covers an employer who has "20 or more employees for each working day in each of 20 or more calendar weeks in the current or preceding year." The fact that the EGHP coverage is secondary because of the drop in the number of employees does not begin an SEP.
However, the drop in employees to less than 100 for an LGHP for the disabled does begin an SEP.

N. Are Federal Judges Who Attain "Senior Status" Retired for SEP Purposes? - Yes, senior Federal judges are retired judges of the U.S. court system and the Tax Court. Whether or not they continue to adjudicate cases, they are entitled to full salary as a retirement benefit. They are not considered employees for Medicare secondary payer purposes or for SEP purposes.

O. Are Domestic (or Life) Partners Considered Spouses for SEP Purposes? – No, beneficiaries age 65 or older or under age 65 and covered under a GHP based on the current employment status of a domestic (or life) partner are not spouses for SEP purposes and premium surcharge rollback purposes. However, under the equitable relief provisions, these beneficiaries are permitted to enroll in Part B as if the SEP provisions still apply. Grant equitable relief to the following individuals who:

- Refused Medicare Part B and whose initial enrollment period (IEP) begins 12/2004 or earlier; or
- Enrolled in Medicare Part B during the IEP and voluntarily terminated coverage prior to 12/2004.

In addition, the individual must submit evidence of GHP coverage based on current employment of the domestic (or life) partner. The individual may enroll in Medicare Part B during any month in which he/she has coverage under a GHP based on current employment. The individual may also enroll in Medicare Part B during the 8-month period that begins with the first full month after the GHP coverage based on current employment ends. Coverage begins with either:

- the first day of the first month of Part B enrollment, or
- the individual's choice between the first day of any of the following three months after the first month of Part B enrollment.

If the individual enrolls in Part B during any of the remaining seven months of the SEP, coverage begins with the first day of the month after the month of enrollment.

Example: The employee attained age 65 in November 2004. He refused Part B coverage because he was covered under his domestic (or life) partner’s group health plan (GHP). His partner, Mr. Smith, is working and the GHP includes domestic partner within the definition of spouse. In October 2011, the employee contacts a field office about enrolling in Part B because his partner is retiring January 1, 2012. Since a domestic partner, age 65 or older, cannot be recognized as a spouse, the SEP provisions no longer apply. However, under the equitable relief provisions, the employee may enroll in SMI during any month
in which he has coverage under the GHP based on current employment or during the 8-month period that begins with the first full month after the GHP coverage based on current employment ends.

3.2.129 SEP And Premium Surcharge Provisions For The Aged Prior To The 1986 Amendments

A. **Background** - Effective with 1-83, Medicare became secondary payer of benefits for certain aged individuals who were covered under employer group health plans (EGHPs) by reason of current employment.

The persons affected were those who were aged 65 or over but not yet age 70, and were covered, by reason of current employment, under their own EGHP or the EGHP of a spouse who was age 65 or over but not yet age 70. The EGHP had to cover at least 20 employees.

Individuals affective by this provision enrolled in Part B even though they were collecting little or no benefits because of the premium penalties and delays in starting coverage that had to be applied in all cases of enrollment after first eligibility. Section 2338 of P.L. 98.369 was enacted 7-18-84 to alleviate this hardship.

3.2.130 SEP And Premium Requirements In Effect Prior To 8-86

A. **SEP Requirements When Part B Not Elected in IEP** - Under Section 2338 of P.L. 98-369, the individual described in 3.2.129 was eligible for one SEP if he/she:

- was covered by an EGHP based on current employment when first eligible for Part B; and
- was covered by Part A and an EGHP during one or more months after being first eligible for Part B.

B. **SEP Requirements When Part B Was Elected in IEP** - The individual described in 3.2.129 was eligible for more than one SEP if he/she:

- Enrolled in Part B during the IEP, but later terminated Part B when covered under an EGHP based on current employment;
- Was covered by an EGHP based on current employment during each month after the IEP during when he/she did not have Part B; and
- Was covered by both Part B and EGHP during one or more months after Part B had been terminated.
If this individual enrolled in Part B during the SEP and later terminated Part B when again covered under an EGHP based on current employment, he/she could have another SEP when EGHP coverage was lost.

This situation could occur any number of time depending only on how often EGHP coverage based on current employment was lost and regained. However, to have the subsequent SEPs, the individual must have enrolled during the earlier SEPs.

C. When SEP Began - The individual who met the requirements in above, had a 7-month SEP that began with whichever of the following resulted in earlier coverage:

- The month in which the individual was no longer covered by an EGHP by reason of current employment; or
- The third month prior to the month of attainment of age 70 (under the original amendments, Medicare became primary at age 70 even if the individual continued to work).

No SEP could begin prior to 11-84. However, if an individual met the SEP requirements between 1-83 and 11-84, he/she began a special 7-month SEP as of 11-84.

D. When Part B Began - If age 70 was not involved, enrollment during the first month of the SEP resulted in Part B coverage effective with the day of that month. Enrollment during the balance of the SEP resulted in Part B effective with the first day of the month after the month of enrollment.

If age 70 was involved, enrollment during the 3 months prior to the month of attainment of age 70 resulted in Part B coverage effective with the first day of the month of attainment of age 70. Enrollment in the last 4 months of that SEP resulted in Part B effective with the month after the month of enrollment.

E. Premium Surcharge Rollback - Only months when the individual was covered under both Part A and an EGHP based on current employment were excludable in determining the premium surcharge for late enrollment. No months prior to 1-83 could be excluded in determining the surcharge. This provision was effective for premiums beginning with 9-84.

### 3.2.131 SEP and International Volunteers

Section 5115 of the Deficit Reduction Act of 2005, provides a 6-month SEP beginning January 1, 2007, for Medicare Part B and Premium Part A for an individual who is:

- serving as a volunteer outside of the United States through a program that is sponsored by a tax-exempt organization; and
• has (or had) health insurance that provided coverage to the individual while he/she was outside of the U.S. for the duration of the volunteer service.

**EXCEPTION:** Individuals who are entitled to Premium HI under the Premium HI for the Working Disabled provision are not eligible to enroll during the SEP for International Volunteers.

Under the SEP provision for international volunteers, qualifying volunteers can delay enrollment in Part B and Premium Part A, or terminate such coverage for the period of service outside of the U.S. and later re-enroll without incurring a premium surcharge for either late enrollment or re-enrollment. This section explains the necessary requirements for the SEP for Medicare Part B for international volunteers. Refer to FOMI 810.25.5 for additional information.

A. Evidence Requirements

Evidence of volunteer service, tax-exempt status of the sponsoring organization, and health insurance coverage outside of the U.S. is required for eligibility under the SEP provision for international volunteers and premium surcharge relief. The evidence is gathered by the field offices and may be in any form as long as there is no question that the evidence is from the sponsoring organization, the health insurance plan, and all of the required information is present. If evidence is obtained via telephone calls, field office personnel should record the information on the Contact Log.

- Evidence of Volunteer Service and Tax-Exempt Status of the Sponsoring Organization – The evidence must show that the individual served as a volunteer outside the U.S. through a program sponsored by a tax-exempt organization as defined in subsection B below.

- Evidence of Health Insurance Coverage Outside of the United States – The evidence must show that the individual had health insurance that provided coverage for the individual outside of the U.S. for the duration of the volunteer service.

See FOM1 810.25.5 on the evidence-gathering process performed by the field offices and the types of information that must be requested from and furnished by the individual. It is up to the individual to obtain the information from the necessary parties.

B. Definition of Sponsoring Organization

A sponsoring organization may be a social, religious, educational, scientific, and/or charitable organization as described in section 501(a) and (c)(3) of the Internal Revenue Code of 1986. The sponsoring organization can be a corporation, any community chest fund, or a foundation organized and operated exclusively for religious, charitable, scientific, testing for public safety, literary or
educational purposes, or to foster national or international amateur sports competition. Organizations for the prevention of cruelty to children or animals are also acceptable.

C. General Eligibility Requirements

An individual is eligible to enroll during the SEP if he/she meets the requirements discussed above and one of the following requirements:

1. No previous Part B or Premium Part A enrollment – If the individual did not enroll during his/her initial enrollment period (IEP), he/she had to meet the requirements as an international volunteer in the first month of eligibility for Part B and all months thereafter. (The first month of eligibility for Part B is the fourth month of the IEP).

2. Previous Part B or Premium Part A entitlement – If the individual enrolled during his/her IEP and later terminated coverage, he/she had to meet the requirements as an international volunteer in the month of the Part B termination and all months thereafter. If the individual previously enrolled during the general enrollment period (GEP), he/she must have enrolled in Part B or met the requirements as an international volunteer in the first month of eligibility.

D. Effective Date of the SEP for International Volunteers

The SEP for international volunteers is effective January 1, 2007. Premium surcharge relief only applies to months of international volunteer service beginning January 1, 2007. An individual who meets the evidence and eligibility requirements for an international volunteer effective July 1, 2006 or later is eligible to enroll in Part B during the SEP. If the last month of the volunteer service was July 2006, then January 2007 is the last month of the SEP. If the last month of volunteer service was August 2006, then February 2007 is the last month of the SEP and so on.

E. When Enrollment for Volunteers Can Occur

The SEP for volunteers is the 6-month period that begins the earlier of the first day of the month following the month for which the:

- individual was no longer serving as a volunteer outside of the U.S;
- organization no longer has tax exempt status; or
- individual no longer has health insurance that provides coverage outside of the U.S.
NOTE: Enrollment in Part B may not occur prior to the end of the IEP.

F. Effective Date of Part B Coverage for International Volunteers

Part B coverage is effective the first day of the month following the month of Part B enrollment.

G. Processing Requests for Part B Termination for International Volunteers

**Field Office Actions** – If a beneficiary has current Part B coverage and requests termination of Part B because he/she will be serving as a volunteer outside the U.S., the field office will advise the individual of the eligibility requirements that must be met in order to re-enroll during the SEP for International Volunteers, once the beneficiary returns to the United States.

The Part B termination date is the last day of the following month after the termination request was received. The field office will tell the beneficiary the date Part B coverage ends and that the volunteer service outside the U.S. must begin the month Part B coverage ends or earlier.

In addition, the field office will notate the Contact Log and image the termination request to the Medicare Section (MS) enrollment inbox for processing by indicating, “Beneficiary Eligible for SEP for International Volunteers” as the reason for the termination request.

**MS Actions** – The MS examiner will process the Part B termination request, send an RL-336 letter to the beneficiary, and notate on USTAR, “Beneficiary eligible for SEP for International Volunteers” as the reason for the termination request.

H. Processing SEP Enrollments for International Volunteers

**Field Office Actions** – All Part B enrollment requests from international volunteers will be handled by the field offices upon the volunteers’ return to the United States. The field office will forward the SEP enrollment package containing the Part B enrollment request (evidence of volunteer service, tax-exempt status of the sponsoring organization, and health insurance coverage outside the U.S.) to the MS via Imaging.

1. Individual Entitled to Part A

   - If the beneficiary already has Part A, use form G-44B for Part B enrollment. A signed and dated statement such as, “I wish to enroll in Medicare Part B” is also acceptable.
   - Annotate “SEP for INT’L VOLUNTEERS” at the top of the enrollment request.
• Image the enrollment request and the evidence to the MS enrollment inbox.

2. Individual Filing for Monthly Benefits and/or Part A and Part B

• If the individual files for monthly benefits and/or Medicare Part A and Part B after the end of his IEP, a G-44B is not required. However, follow the rest of the procedure listed in RCM 3.2.131 subsection H1 for the Part B enrollment request.

3. Individual Filing for Medicare Only – Part A and Part B

• If the individual is filing for Medicare only, prepare the appropriate application (AA-6 for employees, AA-7 for spouses/divorced spouses, and AA-8 for widow(er)s, surviving divorced spouses and remarried widow(er)s in accordance with current procedure.

• Image the application and the evidence for the necessary actions by the MS to process the enrollment.

MS Actions – There is no time limit for requesting premium surcharge relief. An individual who is already entitled to Part B and meets the international volunteer requirements, may request relief from the premium surcharge (penalty premium rate) at any time.

After checking for all necessary evidence, MS will exclude the months that the individual had Part B entitlement when calculating the penalty rate. For premiums due January 2007 and later, exclude all months the individual was serving as a volunteer outside of the United States for a tax-exempt organization and had health insurance that provided coverage while he/she was outside of the United States.

NOTE: Beneficiaries eligible for Part B and Premium HI under the Premium-HI for the Working Disabled provision are not eligible to enroll during the SEP for International Volunteers.

I. GEP and Premium Surcharge Relief for International Volunteers

Since there is no time limit for requesting premium surcharge relief, an individual who is already entitled to Part B, or who is filing a GEP enrollment and meets the International Volunteer requirements, may request relief from the premium surcharge (penalty rate) at any time.

• If the individual is enrolling in Part B during the GEP, the field office will forward the enrollment request via imaging to the MS for processing. The field
office should notate “Premium Surcharge Relief – INT’L VOLUNTEERS” on the request. Include all necessary evidence as discussed in RCM 3.2.131A.

- If the individual is already enrolled in Part B and is requesting premium surcharge relief, the field office should notate “Premium Surcharge Relief- INT’L VOLUNTEERS” on the request. The field office should include all necessary evidence discussed in RCM 3.2.131A and send all to the MS via Imaging to re-calculate the penalty rate.

### 3.2.132 References

Sections 1877(i) and 1839(b) of the SS Act and SSA's Regulations 42CFR 406.21, 406.23, 407.20, 407.25 and 408.24 and Section 5115 of the Deficit Reduction Act of 2005 are references for the above procedure.

### 3.2.140 Reconsideration

Every applicant or beneficiary has a right to request reconsideration of a decision by someone other than the person who made the initial decision.

The applicant/beneficiary must be advised of his right to reconsideration (use AB-25 back) in the following situations:

- Initial determination of Part A and/or Part B effective dates,
- Change in Part A and/or Part B effective dates,
- Denial of Application for Part A and/or Part B,
- Award of Canadian Part A payment, and
- Termination of Part A and/or Part B coverage (exceptions: death and voluntary terminations).

NOTE: If Part B is canceled after the 3rd month of the IEP because beneficiary does not want Part B and claims he never received a G-41, reconsideration rights should be given with the notice of termination.

If a Medicare ID card (exception: duplicate cards) is released manually, prepare a letter with AB-25 back showing date(s) of Part A and/or Part B entitlement (see Exhibit 3), unless the ID card will be released with an option letter which includes information about reconsideration rights.

If a Medicare ID card is released mechanically (includes cards generated by MEDCOR activities) for initial Part A and/or Part B entitlement or for a change in Part A and/or Part B entitlement, examiners do not prepare a Part A and/or Part B entitlement notice with reconsideration rights.
3.2.141 Reconsideration Requests

The applicant/beneficiary must submit a written request for reconsideration within 60 days after the date of the initial decision notice. The request need not specifically refer to "reconsideration" but it should clearly express the beneficiary's desire for further action.

Assessment and Training (A&T) - Recon Section will prepare the reconsideration decision. Refer to RCM 6.1 for instructions on examiner handling of reconsideration requests.

After the reconsideration notice is released, send the case to claim files. H&A will handle the case if the applicant/beneficiary appeals the reconsideration decision.

3.2.150 Termination Of Part A Coverage

A. **Beneficiary Under Age 65 - Disability Part A coverage, other than for end-stage renal disease** ends the earlier of:

   1. The day of death; or
   2. The month before the month age 65 is attained; or
   3. The month in which the disability benefit ends or if later the month after the month in which the notice of termination is mailed. If disability benefits stop because the beneficiary is working, but the person has not recovered from his or her disability, coverage may continue for after monthly disability benefits stop.

   See DCM 10.7.

B. **Beneficiary Age 65 or Over - Part A coverage ends with the day of death or when the person's eligibility for benefits under the RR and/or SS Acts ends. In case of death, protection continues through the month of death. However, a person over age 65 who no longer qualifies for benefits under either the RR or SS Act may reinstate the Part A protection if either of the following requirements are met.**

   1. Qualifies under the special transitional provision; or
   2. Qualifies under the uninsured Part A provision.

C. **Premium-HI Beneficiary - Coverage under Premium-HI ends:**

   1. With the day of death;
   2. The last day of the month following the month the beneficiary files a notice of voluntary termination with SSA;
3. The last day of the second month following the due date for premium payment if the premium is not paid;
4. On the date of termination of Part B coverage;
5. With the first month of eligibility for Part A as an insured or deemed insured person at RRB or SSA.

### 3.2.151 Termination Of Part B Coverage

Part B coverage may be terminated for any of the following reasons:

- Death of the enrollee
- Recovery from disability (for those under 65 whose entitlement was based on disability)
- Non-payment of Part B premiums
- Enrollee voluntarily chooses to end his Part B coverage.

The effective date of termination in each circumstance is discussed below.

1. **Death of the enrollee** - Coverage extends into the month of death, up to and including the date of death. This allows payment for covered medical expenses incurred during the period of the enrollee's last illness.

2. **Recovery from disability** - The last month of entitlement to a monthly disability benefit, or if later the month after the month in which the notice of termination is mailed. If disability benefits stop because the beneficiary is working, but the person has not recovered from his or her disability, coverage may continue after monthly disability benefits stop. See DCM 10.7.

3. **Non-payment of premiums** - Part B coverage terminates at the end of the grace period provided for the payment of overdue premiums. Normally, the grace period for payment of premiums is the 90-day period following the month in which the bill is issued. The grace period may be extended for another 90 days if there was good cause for failure to pay the overdue premiums within the initial 90-day period.

4. **Voluntary Termination-Non-State Buy-in** - Any beneficiary not covered under a state buy-in agreement may request termination of his Part B coverage at any time. A request for termination must be made in writing, unequivocally stating his desire to end Part B coverage, and signed by the enrollee. If the enrollee is incompetent, the statement may be signed by someone approved to act in his behalf. Form G-718, though not required, has been designed for this purpose.
Effective 7-1-87, termination in these cases is effective with the last day of month after the month in which the written notice is officially filed. Previously, the effective date for disenrollment was the end of the quarter after the quarter the request was filed. Premiums must be paid through the effective month of termination.

Disenrollment requests should be made via the MS telephone recorder. The appropriate MS expeditor will terminate Part B coverage and release a confirmation letter to the enrollee.

A signed statement from the beneficiary must be submitted to confirm the call. This statement should be directed to the appropriate MS expeditor in a sealed white envelope addressed: BRC-MS EXPEDITOR "Do not open in mailroom."

Disenrollment requests filed between 4-1-87 and 6-30-87 will be deemed to be filed on 7-1-87.

**EXAMPLE:** Termination request filed 2-15-78. Effective date of termination is 3-78. Premiums must be paid through 3-78.

5. **Voluntary termination following state buy-in deletion** - People who wish to terminate their individual Part B coverage after State buy-in coverage ends, face the same disadvantages if delayed deletion occurs, as those beneficiaries who choose to continue coverage.

By law, the States may terminate buy-in coverage as early as 2 months prior to the month they actually report to SSA that a specific individual has been deleted from the buy-in rolls. Each month SSA furnishes RRB a tape of that month's accretion and deletion activity.

Because of administrative delays, several months may have elapsed between the date of the State's deletion and the date the individual is notified of the deletion. Such an individual would technically owe premiums for the elapsed months. The law was not intended to penalize such individuals who had no opportunity to request termination during the last month they were covered by the State. Therefore, if an individual was not advised by the State of the deletion in or before the month of deletion, equitable relief can be granted. This allows an individual's Part B coverage to end effective with the termination of buy-in coverage (thus allowing him to avoid entirely any premium liability), if **all** the following conditions are met:

1. The individual submits a written request to have his individual Part B coverage end effective with the end of State buy-in coverage.
2. Such request if filed within 30 days of the date of the notice informing the beneficiary that the State is no longer paying his premiums.
3. The individual certifies that he has incurred no medical services covered under Part B during the months after buy-in termination.

If an individual did receive medical service covered under Part B after the end of buy-in coverage, his individual entitlement must continue until the end of the month in which the termination request is filed (if the request is filed within 6 months of buy-in termination). No intermediate date may be selected for the termination effective date.

### 3.2.160 Application Requirements

**A. Beneficiary on the Rolls During IEP** - An annuitant, a beneficiary of SS benefits certified by the RRB, or an IPI in a case currently on the rolls (whether payment is in force or in suspense) is not required to submit an application or additional evidence for Part A or Part B. The annuity application or supplement previously filed automatically establishes timely Medicare entitlement.

The automatic enrollment process begins 6 months prior to attainment of age 65. This is known as the attainments. A Medicare record is established and Form G-41 released before the beginning of the IEP. However, if an individual is receiving an annuity based on age and wishes to establish earlier Medicare eligibility based on disability, additional information will be required as described later in this section.

If an individual is automatically enrolled for Medicare (Part A and B), he may refuse the coverage any time before entitlement begins without penalty.

**B. Beneficiary Files for An Annuity During or After IEP** - Providing this is the first application filed and the beneficiary has not previously refused Medicare Part B coverage, a separate application is not required to establish Part A or Part B entitlement. However, the applicant in these instances must answer the question on the annuity application referring to whether he wants Part B coverage.

Part A coverage effective date may retroact up to 6 months from the filing date (12 months for the divorced spouse of a disabled employee). However, the Part B coverage effective date will be determined as though the beneficiary enrolled in a GEP unless the application is filed during the IEP. Therefore, if the annuity application is filed between January 1 and March 31, and Part B is elected, Part B coverage begins July 1. Otherwise, the application deems his enrollment in the next GEP unless a "no" election was made on the annuity application. If a "no" election is made, the beneficiary must file Form G-44b or send a signed statement to elect Part B during a GEP or SEP.

If the beneficiary does not answer the question on the annuity application about Part B coverage and is not enrolled in Medicare under another record, Part B coverage would have to be elected during a SEP or GEP. Enrollment in this situation could not be automatic.
If there is EGHP involvement, the individual may be eligible to enroll in an SEP.

C. **Employee Filing For or Entitled to an Annuity Based on Age Wants to Establish Early Medicare Based on Disability** - In addition to the annuity application and evidence that is being or has been developed previously, a supplemental AA-I isd must be developed to establish entitlement to disability Medicare (Part A and Part B). The AA-I should be marked "Application for Disability Freeze." In addition, proof of disability and Form G-251 should be developed.

D. **Widow(er), Surviving Divorced Spouse, or Remarried Widow(er) Filing for or Entitled to an Annuity Based on Age Wants to Establish Early Medicare Based on Disability** - In addition to the annuity application and evidence required for payment of the annuity, an AA-I7b must be developed to establish entitlement to disability Medicare (Part A and Part B). In addition, proof of disability should be developed. Also develop Form G-251 for a widow(er), but not for a surviving divorced spouse or a remarried widow(er).

E. **Employee Filing for Medicare Only** - An employee who does not wish to retire but wants to establish entitlement to Medicare only, must file an AA-I and proof of age. The application will establish entitlement to Part A, and entitlement to Part B if the employee elects coverage and the application is filed during his IEP, a SEP or a GEP.

An employee who previously filed an informational application while age 62-64, to qualify his spouse for Medicare, must complete a new Form AA-I during an enrollment period open to him, to qualify himself for Part A coverage and to enroll for Part B coverage.

RRASI application will not be entered on IC and will be processed manually. After making the QRRB determination, the Medicare examiner will create a MEDCOR Activity 12L to establish the Medicare.

In addition, the following evidence may be required as indicated:

<table>
<thead>
<tr>
<th>Evidence</th>
<th>When Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proof of Military Service</td>
<td>If needed to establish service months, 120 months or if less than 120 months 60 months after 1995.</td>
</tr>
<tr>
<td>Prior Service</td>
<td>If needed to establish service months, 120 months or if less than 120 months 60 months after 1995.</td>
</tr>
<tr>
<td>Lag Service statement from employer)</td>
<td>If needed to establish service months, 120 months or if less than 120 months 60 months after 1995.</td>
</tr>
</tbody>
</table>
The FO in a letter to the RR contact official, will request a report of the number of months of lag service through the application filing date. The FO will submit a copy of the letter with the application. The reply should be sent to MS.

F. Spouse or Divorced Spouse Filing for Medicare Only - A spouse or a divorced spouse who meets the requirements and wants to establish entitlement to Medicare must file an AA-7.

The application will establish entitlement to Part A, and entitlement to Part B if the spouse or divorced spouse elects coverage and the application is filed during the IEP, a SEP or a GEP.

RRASI application will not be entered on IC and will be processed manually. After making the QRRB determination, the Medicare examiner will create a MEDCOR Activity 12L to establish the Medicare.

In addition, the following evidence is required:

<table>
<thead>
<tr>
<th>Evidence</th>
<th>When Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proof of age of spouse or divorced spouse</td>
<td>Always.</td>
</tr>
<tr>
<td>Proof of age of employee</td>
<td>Always. (Will already be in file if employee is receiving annuity.)</td>
</tr>
<tr>
<td>Proof of marriage to employee</td>
<td>Always.</td>
</tr>
<tr>
<td>Proof of divorce from employee</td>
<td>Always from divorced spouse.</td>
</tr>
<tr>
<td>Proof of termination of prior marriage</td>
<td>Only if there is reason to doubt that the prior marriage terminated.</td>
</tr>
<tr>
<td>Proof of termination of latest marriage</td>
<td>Always from a divorced spouse who remarried.</td>
</tr>
<tr>
<td>Employee’s Certification (G-346), completed by employee</td>
<td>Required when legal spouse is filing except when the spouse’s application filing date is less than 90 days from the voucher date of the employee’s initial award.</td>
</tr>
</tbody>
</table>
When the employee and spouse are separated, the FO will request the G-346 directly from the employee. If the employee refuses to complete Form G-346, the spouse must submit statements concerning the employee's prior marriages from two other persons who know the facts, preferably relatives of the employee. If she cannot do that, she should submit a statement explaining why. The material will be reviewed by the Medicare examiner to determine if additional evidence (e.g., a search of court records) is required.

<table>
<thead>
<tr>
<th>Proof of employee's military service</th>
<th>If needed to establish service months, 120 months or if less than 120 months 60 months after 1995.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Employee's prior service</td>
<td>If needed to establish service months, 120 months or if less than 120 months 60 months after 1995.</td>
</tr>
<tr>
<td>Employee's lag service</td>
<td>If needed to establish service months, 120 months or if less than 120 months 60 months after 1995.</td>
</tr>
</tbody>
</table>

The FO, in a letter to the RR contact official, will request a report of the number of months of lag service through the application filing date. The FO will submit a copy of the letter with the application. The reply should be sent to MS.

FO will mark “Do Not Keypunch” on the G-230, for the AA-7 for a divorced spouse and route it to MS.

G. Widow(er), Surviving Divorced Spouse, or Remarried Widow(er) Filing for Medicare Only - A widow(er), surviving divorced spouse, or remarried widow(er) who meets the requirements and wishes to establish entitlement to Medicare must file an AA-8.

The application will establish entitlement to Part A, and entitlement to Part B if the applicant elects coverage and the application is filed during the IEP, a SEP or a GEP.

All AA-8’s are processed manually. After making the QRRB determination, the Medicare examiner will create a MEDCOR Activity 12L to establish the Medicare.

In addition the following evidence is required:
### Evidence When Required

<table>
<thead>
<tr>
<th>Evidence</th>
<th>When Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proof of death of employee</td>
<td>Always.</td>
</tr>
<tr>
<td>Proof of age</td>
<td>Always.</td>
</tr>
<tr>
<td>Proof of marriage to employee</td>
<td>Always.</td>
</tr>
<tr>
<td>Proof of termination of prior marriage</td>
<td>If there is doubt a prior marriage ended.</td>
</tr>
<tr>
<td>Proof of divorce from employee</td>
<td>Always from a surviving divorced spouse.</td>
</tr>
<tr>
<td>Proof of remarriage(s)</td>
<td>Always from remarried widow or a surviving divorced spouse who remarried.</td>
</tr>
<tr>
<td>Proof of employee's military service</td>
<td>If needed to establish service months, 120 months or if less than 120 months</td>
</tr>
<tr>
<td></td>
<td>after 1995.</td>
</tr>
<tr>
<td>Employee's prior service</td>
<td>If needed to establish service months, 120 months or if less than 120 months</td>
</tr>
<tr>
<td></td>
<td>after 1995.</td>
</tr>
<tr>
<td>Employee’s lag service (statement from employer)</td>
<td>If needed to establish service months, 120 months or if less than 120 months</td>
</tr>
<tr>
<td></td>
<td>after 1995.</td>
</tr>
</tbody>
</table>

The FO, in a letter to the RR contact official, will request a report of the number of months of lag service through the month of death. The FO will submit a copy of the letter with the application. The reply should be sent to MS.

### H. Child Filing for Medicare Only

A child who is eligible and who meets the relationship, dependency and O/M requirements, but who is not receiving an annuity or considered in the payment of the employee or spouse annuity, must file an AA-l9a to establish entitlement to Medicare.

The application will automatically enroll the child for Part A and Part B when all entitlement requirements are met. If the child does not want Part B coverage, refusal of coverage can be made by notifying RRB upon receipt of the notice.
informing of the entitlement effective date. In addition, the following evidence is required: proof of relationship, proof of the child's age and medical evidence.

I. All Beneficiaries, Electing Part B After Part A Established

1. Separate Application Not Required - A separate application to establish Part B coverage is not required, if a beneficiary:
   
a. Filed an annuity application or a Medicare only application during the previous year, and
   
b. Part A had not been established prior to that application at either SSA or RRB, and
   
c. The beneficiary elected Part B coverage on the application.

Beneficiaries meeting the above requirements are deemed to have filed during a GEP.

2. Separate Application Required - Beneficiaries who do not meet the requirements in 1 above may apply for Part B coverage by submitting one of the following during a GEP (January 1 through March 31 of each year):
   
a. G-44 - this form is released by headquarters to beneficiaries in the U.S. when Part B coverage was refused, withdrawn or terminated in the previous year, or
   
b. G-44b, or
   
c. A statement which clearly states the individual wants to enroll for Part B coverage.

The beneficiary will be enrolled for Part B effective July 1 of the year in which the G-44, G-44b or statement is submitted.

J. All Beneficiaries Filing In An SEP - Beneficiaries applying for Medicare in a SEP must officially file an application during any month in which an individual is enrolled in an EGHP/LGHP or during any of the 8 consecutive months following the last month in which the individual was last enrolled in the EGHP/LGHP based on current employment status. Usually, applications filed for annuity payments are also effective for Medicare purposes, automatically enrolling the beneficiary on a timely basis.

For all SEP election cases (not including the survivor annuity applications put on APPLE), the FO will develop Form G-44b, making certain that the official filing date complies with regulations. If applicable, the Part B effective date the enrollee has selected will also be shown. The FO will route the completed Form G-44b and proof of EGHP coverage to MS through Imaging. Preferred proof of
EGHP coverage is from the employer or insurance company. Mark the memorandum in red "SEP Enrollment". Show on the memorandum, whether a Form G-44b is being taken along with an application, the type of application and date of filing.

Form RL-311-F was developed to provide a uniformed method to allow field offices to secure the necessary information that is needed to process an SEP enrollment. It must show when coverage started and exactly when it ends.

If a disabled individual is enrolling in a D-SEP, additional material will be included. The letter from the employer to the employee with the following information 1) payment status has changed, 2) the effective date Medicare becomes the primary payer and a special enrollment period, and 3) the disability SEP, is available to those who wish to enroll in Part B will be included in the package. The letter from the Medicare carrier to the employer certifying that Medicare is now the primary payer and the effective date Medicare becomes the primary payer will also be included.

When filing a retirement annuity or Medicare only application and an SEP is involved, the FO will, when it is necessary, complete Item 114 on IC-AA-1, or Item 105 on IC-AA-3, or Item 18 of IC-AA-6 or Item 31 of IC AA-7 with a "NO" response to prevent mechanical enrollment for Medicare. In the "Remarks" section of the application indicate whether Form G-44b will be sent to MS with the annuity application or at a later date.

For survivor annuity applications put on APPLE, all the information is submitted on APPLE, the yes election and the proof of EGHP/LGHP coverage. For these cases put on APPLE, a Medicare record is mechanically established for Part A only and MS will manually set up the Part B coverage by creating a MEDCOR Activity 22L.

A signed statement expressing intent can also be used to establish entitlement to Part A and Part B (for Part B - the statement must be sent in during a specified enrollment period). In certain cases, a hospital admission form may be considered a valid application for Part A, and will protect the person's filing date.

When 3.2.160 is revised, FOM 810.30 should also be updated (section are basically the same).

**3.2.161 Handling Of AA-6 And AA-7**

The FO will enter the data on IC. The material is routed to MS. The computer will activate the claim and produce Forms G-68 or, if discrepancy can be detected, a pre-edit referral or printout. If RASI is requesting additional data, the Medicare examiner will drop the application from the system and enroll manually.
RRISA Applications will be handled manually. The Medicare examiner will make the eligibility determination and create a MEDCOR Activity 12.

A. MS - MS is responsible for processing all Forms AA-6 and AA-7 except in cases in which an annuity application is pending.

MS will refer a case to the retirement examiner for development action if:

1. A conflicting marriage or DOB is involved;
2. A common-law marriage is involved;
3. P/S must be developed or the creditability of M/S must be determined; or
4. Some other special circumstance is involved which makes handling by an adjudication unit desirable.

After the appropriate development action is completed, the retirement examiner will return the case to MS.

B. Retirement Examiner – The retirement examiner is not responsible for processing an AA-6 or AA-7 to completion in any case in which an annuity application is pending. Any case in which the annuity is paid final, before the Medicare application is processed to completion, should be sent to MS for handling.

The retirement examiner is responsible for taking development action and making decisions in cases referred to them as shown in A above. However, these cases should be returned to MS after the appropriate action is completed, unless an annuity application is pending.

3.2.162 "Informational" AA-6

An "informational" Form AA-6 was secured from an employee age 62-64 who has never filed an AA-1 or AA-1d annuity application and whose age 65 spouse is filing an AA-7. It is not longer necessary to secure the "Informational" AA-6'. Therefore, when the system call for one, the AA-7 should be dumped from RASI and after all necessary information is secured, the Medicare record should be established manually.

If an "Informational" AA-6 is submitted with an AA-7, close out the application and release an RL-323 to the employee with a copy to the FO. This letter instructs him to file for Part A at age 65 if he has not filed for an annuity by that time.

3.2.163 Establishing Age, Relationship And Service Months For AA-6 And AA-7

AA-6 and AA-7.
The RRSIA Medicare only applications (AA-6’s and AA-7’s) will not be put on IC. Proofs will be entered on APPLE. The Medicare records for these applications will be established manually. The Medicare examiner will evaluate the proofs as shown in RCM Part 4 and create a MEDCOR Activity 12L. RASI is not being changed for RRSIA, if one of these applications would be put on RASI, RASI would dump it because there is not enough service months.

If a Medicare only application is put on RASI and if the Medicare record is established manually, dump the application from RASI and code a G-661.

The remainder of this section was updated for the RRSIA 5-year but is probably obsolete (MS no longer enters the 998 cards) and will be removed at a later date:

A. **EE DOB.**

The EE’s DOB is usually keypunched into the record from a G-91 or G-91c. However, a type 998 G-68 will be issued in AA-6 cases if the document weight of the POA (item 6(e) of the G-91) is less than 30 or if the employee has less than 120 months of subsequent service.

B. **Spouse Relationship.**

Type 933 G-68’s will be issued in all AA-7 cases. These G-68’s are used to verify whether the applicant is the employee’s wife and whether the employee’s status qualifies his wife as a QRRB. If the Medicare DOE is 8-1-83 or earlier, "living with" must also be established.

To enter the required information in the RASI system, a G-68 must be submitted, see RCM 9.3

### 3.2.164 Establishing Service For AA-6 And AA-7

When there are less than 120 months or if less than 120 there are not at least 60 months after 1995 of subsequent service (S/S) on records, P/S, M/S, or lag must be developed. Once enough service months are developed and verified, establish the Medicare record manually by creating a MEDCOR Activity 12L.

The RRSIA 5-year application will not be put on RASI. If others are put on RASI and if the Medicare record is established manually, the application must be dumped from RASI and a G-661 coded.

Previously, a type 998 G-68 was completed and submitted as shown in 9.3 to allow the application to be processed to a completion on RASI.

Actions in Sections A though E below on how to develop the necessary service months is still valid, however, the 998s are no longer submitted.
A. **P/S** - If a record of enough P/S is in the folder so that 120 service months are established, enter the P/S data on a type 998 G-68. The retirement examiner will develop P/S if the total subsequent service, lag, and creditable M/S are less than the amount of service months needed, and P/S is claimed on the AA-6. When developing P/S, the retirement examiner will request verification of all service that could be used for annuity purposes, even though some of the service may not be needed to establish Part A entitlement.

B. **M/S** - If subsequent M/S is claimed and the M/S is needed to establish service months, send the case to the retirement examiner. The retirement examiner will develop any proofs necessary and send Form G-563, prepared as shown in RCM Part 11, to determine the creditability of the M/S. Any creditable M/S should be entered on a type 998 G-68.

C. **Lag** - When Form AA-6 indicates lag which is needed to establish service months, the FO will release a letter to the railroad contact official requesting the number of months of lag through the filing date of the AA-6. A copy of the letter will be submitted with the AA-6 and the reply will be sent to MS. Enter the lag on a type 998 G-68.

D. **Requesting Return of Credits From SSA** - If 120 service months are established in a case in which credits were previously transferred to SSA, complete Item 3 of Form G-37c to notify the appropriate SSA PC that enough service months have been established and to ask whether the employee is entitled to SS benefits on wages alone.

E. **Committed Value Cases** - An employee who received a committed value award is a QRRB, even if his award was based on less than required months of service. Therefore, if an AA-6 is filed in a commuted value case, enter enough service months on the type 998 G-68 to establish the service months. If there are not enough service months, the computer will dump the case.

### 3.2.165 Incompetency Cases

Forms AA-6 are not expected from incompetent employees because they would be filing for an annuity. However, incompetency may arise in spouse cases. The AA-7, has an item for indicating whether the application is signed by someone else on behalf of the spouse. However, the policy for determining incompetency is different in AA-7 cases. Since recurring payments are not being made, a formal determination under Section 19(a) of the RR Act is not required.

A. **Spouse in Mental Institution; Application Filed by Employee** - If an application is received from an employee on behalf of his spouse who is in a mental institution, accept the application without further development of incompetency.

B. **Spouse Not in Mental Institution; Application Filed By Employee** - If the spouse is not in a mental institution, the FO is instructed to secure a statement from her
doctor on Form G-478 of whether she can manage benefit payments in her own interest. If she cannot, accept the application from the employee. If the spouse can manage benefit payments, the FO will secure an AA-7 from her.

C. Application Filed for Spouse by Person Other Than Employee - If an application is received from a person other than the employee for a spouse who is in a mental institution or who does not understand the act of endorsement, refer the case to RBD for development action.

3.2.166 AA-8

AA-8 are handled manually. After all necessary proofs are received and if the requirements are met, establish the Medicare manually.

3.2.167 Processing Disability Applications

A. Application for Disability Freeze or Medicare Only - DSUBD will handle any application for Disability Freeze or Medicare only (AA-1d, AA-19a, or AA-17b) on behalf of an individual who is already receiving an annuity or is an IPI. DSUBD will develop the required medical evidence and rate the case on Form G-325.

The case is then routed to MS.

B. Application for Annuity and Medicare - DSUBD will handle any application for Medicare (AA-1d, AA-19a, or AA-17b) when an individual is also filing for an annuity or is an IPI. DSUBD will develop the required medical evidence and rate the case on Form G-325.

Employees annuity application which is submitted along with a Medicare application will be handled by DPS for employees. DPS will also handled a spouse application where the employee has filed for or is receiving a disability annuity and the spouse's filing date is prior to the disabled employee's "paid final" date and spouse applications filed based on a disabled child.

The payment of survivor benefits is handled by SBD. DSUBD will determine if the individual is disabled.

If an application is for a disabled survivor child and the employee was receiving an annuity before his death, if the child was or could have been included in the O/M before the effective date of his survivor annuity, the case should be routed to MS. MS will make a special determination of the child's Medicare effective date. The Medicare effective date, in such a case, may not be based on the effective date of the survivor annuity.

If a Medicare claim is granted and the effective date of Medicare coverage is within 5 months, route the file to MS to establish the Medicare record.
### 3.2.168 Handling In MS

After receiving Medicare grants MS will:

A. Create MEDCOR Activity 12L if the Medicare effective date is within 5 months.

B. Establish a tickler call-up on Form G-65b for 5 months before the Medicare effective date in any non-disability annuity case in which the effective date is not within 5 months.

C. Determine the Medicare effective date and create a MEDCOR Activity 12L or establish a tickler call-up for 5 months before the Medicare effective date in any case in which a disabled survivor child could have been included in the O/M prior to the effective date of his survivor annuity.

D. If you are creating a MEDCOR Activity to enroll an individual, do not release a RL-310.

   If the MEDCOR Activity will be created at a later date, a RL-310 should be released if an individual was not notified of their Medicare effective dates or if an individual was notified but the Medicare effective date was incorrect.

E. Send all retirement cases to RBD for the O/M test and send survivor cases to claim files or to the controlling unit.

### 3.2.170 Allowance Notices

DPS will release the appropriate notice regarding the allowance on an application that was filed for Medicare based on disability.

### 3.2.171 General Rules Regarding Denials And Cancellations

Prepare Form G-183, Part III, except in a case denied by DPS, to cancel or deny an application for Medicare, including an application which is transferred to SSA. If a Medicare application that was filed with an annuity application is denied, handle as follows:

A. If the annuity application is denied, prepare two G-183's, one for the annuity and one for Medicare.

B. If the annuity is awarded, prepare a G-183 to deny the Medicare application only.

   An application for a disability annuity is also considered an application for Medicare. When denying the annuity and Medicare, prepare only one G-183. If only the annuity is awarded, prepare a G-183 to deny Medicare.
A Medicare application, like an annuity application, must be closed out to remove it from the pending load. A Medicare application is closed out by the processing of a completed Form G-325 or Form G-299, with codes 1, 2, or 5 entered as the reason for the dump, or by sending the case to the coding clerk on a route slip marked "CWOA."

3.2.172 Denial Of Application As QRRB

A. **Under Age 65 or 62** - If a non-disabled applicant for Medicare will not attain age 65 within 3 months following the month in which an Part A application was filed, the computer will dump the application and print out a referral message. If the application must be denied, notify the applicant of the denial by using CL-872.

If a spouse application must be transferred to SSA because the employee is less than age 62 and does not have a DF, notify her of the transfer using CL-867.

B. **Less Than 60 Months of Service** - If the employee has less than 120 months of service, the computer will dump the application and print out a referral message. If 120 service months cannot be established, transfer the application to SSA as shown in 3.5.21. Use CL-865 to notify an employee and CL-866 to notify a spouse of a transfer because of insufficient service.

C. **Failure to Prosecute Claim** - If an applicant does not comply with a request to furnish evidence or data, and entitlement cannot be established on the evidence on record, dump the application and transfer it to SSA or deny it.

- Transfer the application to SSA if an application who meets the age 65 of disability requirements failed to establish some other factor of eligibility (e.g., 60 months of service).

- Deny the application if the applicant failed to furnish evidence to establish that he or she has attained age 65, will attain 65 within 3 months of the month of filing, or is disabled. Notify the applicant of the denial, using CL-873.

If the applicant later submits the required evidence, apply the reopening procedures in the same manner as they are applied in regular annuity cases.

D. **Cancellation of Application** - If an applicant requested the cancellation of a Medicare application before entitlement is established, notify the applicant of the cancellation and inform him that he must file a new application if he later wants Medicare coverage.

3.2.173 Denial Of Application As DQRRB

DSUBD will deny a Medicare application in a case in which eligibility for an annuity or for inclusion in the O/M has already been determined, by rating the applicant "not disabled" on Form G-325, and releasing the appropriate denial letter.
3.2.174 Notices Of Denial As QRRB

<table>
<thead>
<tr>
<th>Notice</th>
<th>When Used</th>
</tr>
</thead>
<tbody>
<tr>
<td>CL-865</td>
<td>Transfer of EE application - less than 120 months or if less than 120 months, less than 60 months after 1995.</td>
</tr>
<tr>
<td>CL-866</td>
<td>Transfer of SP application - less than 120 months or if less than 120 months, less than 60 months after 1995.</td>
</tr>
<tr>
<td>CL-867</td>

<td>Denial - applicant not age 65.</td>
</tr>
<tr>
<td>CL-873</td>
<td>Denial - failure to prosecute claim.</td>
</tr>
</tbody>
</table>

3.2.175 Part B Election Not Filed In IEP Or GEP

A. **First Filing Not in IEP or GEP**

An individual filing for the first time (who has not previously declined Part A) after the IEP and not in a GEP can be deemed to have filed for the Part B in the next general enrollment period. (See POMS 00805.030.) Do not deny these cases.

**Example:** The employee was fully insured and attained age 65 in 9/80. He did not file for monthly benefits because he was still working and saw no immediate need for Part A coverage. In 11/82 he changed his mind and filed. Because filing occurred after his IEP, but not during a GEP, he is deemed to have enrolled in Part B during the next GEP 1-83 - 3-83 with coverage beginning 7-1-83.

B. **Second or Later Filing Not in IEP or GEP**

If the applicant either:

1. previously filed for Part A only; or

2. had previously Part B coverage that terminated, and an application with a Part B is later filed not in a IEP or GEP, deny the Part B election.

If the application is received after the IEP but before the GEP, use code letter 820 with AB-25 backing to notify the person.
If the application is receiving after the GEP, use Form Letter RL-394 to notify the person.

### 3.2.200 Authorization Process

Adjudicative actions involving arrearages and refunds must undergo a quality review. Sometimes an authorizer may not agree with an examiner’s arrearage or refund action.

General instructions in this section for handling cases which are returned to an examiner for additional actions apply to the Medicare section only.

If a case involving an arrearage or refund must be returned to the examiner, the authorizer will write up all adjudicative exceptions requiring an examiner’s attention on RRAILS Form G-97b, Authorization Return Form. See RCM 11 G97b for detailed instructions how to access and complete RRAILS Form G-97b.

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>The reviewer will print out 3 copies of the G-97b, attach them to the claim folder or folderless jacket, and give everything to the section supervisor. The authorizer shall ensure that appropriate remarks are entered into USTAR.</td>
</tr>
<tr>
<td>2</td>
<td>The section supervisor will review the G-97b and decide if any exception is chargeable. If an exception is chargeable, the supervisor will check the “Charged” box. If an exception is not chargeable, the supervisor will check the “Not Charged” box. In either situation, the supervisor will sign and date the “Examiner” box. Regardless of whether an exception is charged, the section supervisor may complete the “Supervisor Comments” section if needed. The section supervisor shall then walk the claim file or folderless jacket with the attached G-97b to the examiner for corrective action.</td>
</tr>
<tr>
<td>3</td>
<td>The examiner should review all comments and make the necessary corrections within 3 days regardless of the section supervisor has provisionally charged an exception.</td>
</tr>
<tr>
<td>4</td>
<td>If the supervisor has charged an exception, the examiner may protest it by providing a written explanation explaining why it should not be charged in the “Examiner” area on the G-97b. In this instance, the claim file or folderless jacket should be returned to the section supervisor. The section supervisor will review the explanation and decide if the exception</td>
</tr>
</tbody>
</table>
should be overturned. If an exception is no longer chargeable, the supervisor will cross out the “Charged” box, check the “Not Charged” box, if necessary, complete the “Supervisor Comments” section, sign and date the G-97b, and return that form back to the examiner.

### Exhibit 2 - Claim Number Changes In Computer Record

#### A1. ACTION WHEN INCORRECT CLAIM NUMBER IS ASSIGNED

In processing incoming applications, supply and service will sometimes find that the wrong SS number has been shown on the application. In other cases, the computer program may create a referral because of a possible error in the SS number or the existence of a six-digit claim number for the person. Depending on the circumstances, take on or all of the following actions:

<table>
<thead>
<tr>

</tbody>
</table>
• Prepare G-299, Code 1 in col. 35, to dump the application from the computer and remove it from the pending load if the SSA number is wrong.

• Correct a six-digit claim number on the computer, by means of a G-394. (This action will not be involved if the record was dumped.)

• Drop any MIRTEL record previously established using Form G-811.

• Request the destruction of the delayed claim control card showing the wrong claim number.

• Correct the records in processing if they were set up under the wrong claim number.

Exhibit 3 – RASI processing of HI Applications

B1. General

The RRISA applications will not be entered on IC. They will be processed manually. Most Medicare only applications are handled manually. Non-RRISA Application are entered on IC, however, if a G-68 is required, MS dumps the application and enrolls the individual manually. The following was not updated for RRISA because RASI is not being changed. If a RRISA application is entered into the system, it will automatically be dumped because there is not 120 months of service.

A G-68 generated by the computer when additional data is required for the mechanical adjudication of an employee or spouse claim. The type of referral and certain identifying information is shown in the shaded "Type" space at the top of the form. Examiner entries are made in the line(s) at the bottom following the appropriate type code.

Enter examiner number 100 in the appropriate boxes on all Forms G-68 submitted by HB. Enter the date of completion and the examiner's initials in the lower right hand corner of the form.

Make an entry in each box of any item which must be completed. If necessary, precede an entry with zeros. For example, show 85 prior service months as /0/8/5/.

Occasionally, form G-354a and 805 referrals are produced for information and/or instructional purposes.

B2. TYPE 998

A. General - A type 998 G-68 is issued if the employee has less than 120 months of subsequent service. The identifying information at the top of the G-68 includes the type Code 998, the RRB unit, SS number, code name, subsequent service months with full lag assumed, subsequent service months through 1946, the claimed DOB, and the proper general file symbol as shown in RCM sec. 9.2.6.
B. **Service Entries** - Entries for P/S, M/S or lag are needed if the EE has less than 120 months of subsequent service as shown at the top of the G-68. NOTE: 30 years of service must be verified when the employee is 60-61 but not under a DF. RCM 3.2.58 indicates how the service is developed. After enough service of all types has been developed to establish entitlement, make the following entries:

1. O in the METHOD box, and
2. the number of P/S, M/S and lag months established in the P/S MONTHS boxes.

B3. **TYPE 933**

A. **General** - Type 933 G-68's with the notation ELG are issued in all AA-7 cases. Before completing the entries shown below, review the evidence in file in accordance with RCM Chapters 4.3, 4.6, and 3.2 to determine whether the applicant is the employee's wife and whether the employee's status qualifies the wife as a QRRB. The employee must be at least age 62 (or age 60 with 30 years service), or be entitled to a DF before the wife is qualified as a QRRB. If the Medicare DOE is 8-1-83 or earlier, "living with" must also be established.

If the not "living with" spouse is age 65 prior to September 1, 1983,

- prepare G-299 to dump case (code 7 in column 35),
- discard G-68, and
- create a MEDCOR Activity 12L to manually enroll with Medicare DOE no earlier than 9-1-83.

If the not "living with" spouse is 65 in September, 1983 or later, RASI will handle correctly.

District offices will submit additional information regarding support/court order only if spouse's entitlement date for Medicare could retroact prior to 9-1-83.

B. **ELG Notation** - Make the following entries on a G-68 marked "ELG."

<table>
<thead>
<tr>
<th>ITEM</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ELG</td>
<td>1. The applicant qualifies as a spouse QRRB as defined in RCM 3.2.9, i.e., she must meet the duration of the marriage requirement to qualify for an annuity. When code &quot;1&quot; is entered RASI will establish the earliest entitlement date possible. See code &quot;3&quot; if a male non-dependent spouse is involved.</td>
</tr>
</tbody>
</table>
2. The applicant does not qualify as a spouse QRRB.

3. Enter code "3" solely for male non-dependent spouses who first qualify as a spouse 3-1-77 or later. (Beginning 3-1-77 the dependency requirement for male applicants was eliminated.) If a male applicant established entitlement beginning before 3-1-77, i.e. dependency, enter code "1."

If a code 2 is entered in the ELG item, the spouse claim will be dumped from the computer.

B4. 805 REFERRALS

These referrals are labeled RASI Input Rejects. They result from the following situations:

A discrepancy exists between the claimed and verified DOB. The message reads, Verified DOB Not As Claimed - 901 Required.

Review the evidence and either correct the date, or dump the record if the verified date makes the applicant ineligible. If the verified date is correct, prepare Form G-394 to correct the claimed DOB, and resubmit the G-91 to keypunch.

A spouse's keypunched POA does not match with an AA-103. This situation occurs when an AA-103 is a keypunch reject. This 805 is labeled G-91 Not Required. Submit both the application and G-91 for repunching.

B5. G-354a REFERRALS

1. The spouse's DOB will be accepted if the claimed DOB is established by the proof of age. If the weight of the POA is less than 30, the system generates a "review only" G-354a after the HI record is established. Review the POA for acceptability. If the proof is unacceptable, refer to RCM 4.2.17.

2. In rare spouse cases when neither RASI-II nor the Research file contains an employee master file, the system will generate a G-354a referral with message, No Research Record For AA-103 - Submit Information AA-101.
3.3.1 Introduction

This chapter describes, in general terms, the functions of the health insurance computer system, i.e. the MIRTEL system (Medicare Information Recorded, Transmitted, Edited and Logged), and instructions for preparing input.

3.3.2 MIRTEL

MIRTEL records and maintains health insurance information for all eligible QRRBs and deemed QRRBs, both aged and disabled. Records are accreted to the MIRTEL file by manual input (MEDCOR activities), mechanical attainment selection and applications input through APPLE. Information in the MIRTEL file is maintained by manual input, premium payment, validation with the CHICO file, information received from SSA in the screening process, and information received from CMS in the state buy-in operation. MIRTEL generates screening records for jurisdictional clearance with SSA, records their replies, generates bills for the collection of SMI premiums or adjusts monthly benefit payments to deduct premiums, and transmits record changes to CMS’s Enrollment Database (EDB).

3.3.3 Contents Of MIRTEL

The MIRTEL master file contains a record for all eligible aged and disabled beneficiaries regardless of enrollment or annuity status. The record contains information about the beneficiary’s current and prior enrollment status, state buy-in information and activity. Addresses are maintained only for beneficiaries not entitled to annuity. Those records not containing an address pick up the address from CHICO when it is required for an activity.

In addition to the record under the RRB claim number, pseudo numbers are set up as a special cross-reference type record. This cross reference record is set up mechanically whenever a record is established with a pseudo number. The record is mechanically dropped whenever the primary record is dropped. The cross reference record allows activity from SSA to come in under the pseudo number and be mechanically associated with the RR number and processed.

3.3.4 MIRTEL Records

The MIRTEL master file is a flat file. Information from records on the MIRTEL master file can be obtained from the following sources:

A. MIRF (MIRTEL Film) is a monthly film of all records on MIRTEL. Included are both active and inactive records. Note: Production of the MIRF file was discontinued in 2006. See RCM 3.3, Exhibit 2 for instructions on reading the MIRF file.
B. **MMAC (Microfilm of MIRTEL Activity)** is a weekly record of all activity processed in MIRTEL. In addition to a record of the activity, the MMAC file shows the MIRTEL record both before and after updating. See RCM 3.3, Exhibit 3 for details on reading the MMAC file. Effective with MMAC files from January 2007, MMAC files are available on CD-ROM, rather than microfilm.

C. **MOLI (MIRTEL OnLine Inquiry)** allows direct on-line access to selected data on the MIRTEL file. Any new data entered and processed into MIRTEL during a nightly computer run will appear on the MOLI screens the next morning. See FOM-I-1540 for additional information about MOLI.

D. **MEDDAR (Medicare Daily Activity Report)** is produced on each business day on which there is a MIRTEL run, and provides a cumulative record of all activities processed in the MIRTEL runs from the beginning of the calendar month. The report is in claim number order and shows the most recent and all previous activities processed in MIRTEL in the calendar month to date. See RCM 3.3, Exhibit 1 for a list of Activity Codes. The date of the MIRTEL run is also shown for each activity processed. In addition, the report shows the Paid Thru Date and any Excess Premium Amount recorded on the MIRTEL master as of the date of the most current activity processed in MIRTEL.

E. **MEDMAR (Medicare Monthly Activity Report)** is produced following the last business day of each month and provides a cumulative record all activities processed in the MIRTEL runs during the calendar month. The report is in same format and contains the same information as the MEDDAR reports. Upon completion of each MEDMAR report, the MEDDAR reports for the month are deleted.

**Note:** MEDDAR and MEDMAR reports are available to authorized users by logging on to ftp://ftp_prod/Production/MAINFRAME/ and accessing the folders named MEDDAR and MEDMAR. Examiners should add a link to the reports to their Favorites or desktop.

Medicare examiners can use one or a combination of these sources to assist in adjudicating and processing referrals, inquiries and other work items. Examiners can use the MEDDAR and MEDMAR reports to find the date(s) on which a record appears on the MMAC files.

### 3.3.5 MIRTEL Input Forms

There are two input forms and the premium payment notices that update or change the MIRTEL file.

**Note:** Forms G-810 and G-811 were replaced in 1994 by MEDCOR. See RCM 3.13.

A. Medicare Input, G-810 is the basic input that can be used to set up a record, change fields and generate certain actions that will be transmitted to CMS for updating of the EDB. See Appendix A for G-810 instructions.
B. Medicare Input (Short Form), G-811 is an OCR form that requires minimal coding to generate a variety of activities, i.e., rescreening option change, etc. See Appendix B for coding instructions.

C. Premium Payment Notices, G-800, G-801, G-802, and G-803, are turnaround documents that are used to notify the beneficiary of the amount paid into the MIRTEL record. See RCM Section 3.10 for more information.

3.3.6 Activities

A. Screening - Screening records are taken into the MIRTEL file from the Retirement Adjudication System - Initial (RASI) operation, attainment selections and manual input (Form G-810, activity code 12). This incoming information is used to set up a MIRTEL record with a pending record status and to send a screening record to SSA for jurisdictional clearance.

B. Screening Replies from SSA - When the reply is received by MIRTEL, the screening request code (SREQ) is updated. If the reply is valid, the record status is cleared, the MIRTEL record is changed to reflect a new or different HI date of birth or entitlement information, an ID card is released and if appropriate, SMI premium collection initiated.

C. Rescreening - A record can be rescreened with the information from the existing MIRTEL record by using a G-811, activity code 21. The screening information can be changed by completing any of the optional fields on the G-810, activity code 21. If the record status shows that a screening reply was previously received, the new information will not be reflected in MIRTEL until the rescreening reply is received.

D. Internal Record Changes - There are few internal record changes that can be made without affecting the HIM. These changes are restricted to premium payment, third party and state buy-in information.

E. Record Change - All other change activities update the MIRTEL record and generate a universal RIC to change the HIM. These activities fall into several general categories.

1. Option Change - An option change can be made in the IEP or GEP. A withdrawal can be accepted any time to terminate Part B coverage.

2. Utilization Transfers - Utilization transfer activity codes can be used to establish or change a MIRTEL and send a universal RIC to the HIM to transfer a record and cross refer from one number to another. This can be done from either an SSA or RRB number to an RRB number.
3. Kill Credits - Kill credits are similar to utilization transfers in that they transfer a record in the HIM from one number to another, but they leave the former number open for a subsequent record.

4. Terminations - Terminations due to death, cessation of disability or loss of QRRB status are processed in the MIRTEL and conveyed to the HIM. Records terminated due to death, or loss of QRRB status, are retained in the MIRTEL for 18 months after the terminating event. Records terminated due to cessation of disability are reactivated when the beneficiary attains age 65 or becomes disabled again.

F. Inquiries - Printouts can be obtained of a MIRTEL record or of a MIRTEL and a matching CHICO record. See Exhibit 4 for instructions on reading the MIRTEL inquiry printout.

### 3.3.10 Monthly Operations

In addition to the processing done daily in the MIRTEL, certain action is taken monthly to validate and adjust CHICO.

All records on the MIRTEL file and all records on the CHICO file are compared to assure that the two files are consistent in record status and SMI option. When a MIRTEL record with a yes option and no paid through date, or one that is current or in the past matches a CHICO record with no deductions, an award is generated to initiate premium deductions. Adjustments are also made to stop SMI deductions on state buy-in accretions or voluntary terminations, if processed timely.

The MIRTEL record is updated to reflect any change in annuity status, i.e., a suspense or termination. Inconsistencies in SMI options or rates will be referred out for manual review. See RCM 3.6 for the handling of monthly referrals.

Changes of address processed in CHICO during the month are noted in MIRTEL and transmitted to the EDB.

### 3.3.20 Health Insurance Master Records - EDB

Although the RRB establishes entitlement, enrolls, collects premiums and maintains a record for all QRRBs and deemed QRRBs, the Centers for Medicare & Medicaid Services in Baltimore maintains the health insurance master records on the Enrollment Database (EDB). The EDB and updates to the Common Working File (CWF) permit and record payment of HI-SMI benefits. The EDB and CWF contain personal characteristics and utilization data. Data from the EDB may be obtained by accessing BERT or the Medicare Beneficiary Database (MBD).
Appendices

Appendix A - Medicare Input (G-810)

Note: Form G-810 was replaced in 1994 by various on-line MEDCOR screens.

Use

Use to manually create a health insurance record in MIRTEL and to secure jurisdictional clearance from SSA. HB also uses the G-810 to correct the MIRTEL and health insurance master (HIM) at SSA.

Completion

* Coding of this field is mandatory for all activities.

<table>
<thead>
<tr>
<th>Item</th>
<th>Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>* 1</td>
<td>Enter the symbol, prefix and claim number for the beneficiary. In a spouse IPI or AA-103 case enter MA. For a disabled child enter CA if no RR annuity or SS benefit is in force. If either payments are in force, enter WCA. Enter the symbol W for a widow. Do no use the same symbol for two beneficiaries. If a distinctive symbol is not available or was previously assigned, ask HB to assign a pseudo number.</td>
</tr>
<tr>
<td>* 2</td>
<td>Enter the appropriate code as shown below.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Code</th>
<th>Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>12</td>
<td>Establish HI Record and Screen. Creates a MIRTEL record, secures clearance from SSA and when jurisdiction clears, initiates the release of a G-41 (automatic enrollment) or G-43 (regular) ID card and if necessary, initiates premium collection. In addition to the regular mandatory entries, items 8, 11, 12, 19, 22 and 31 must be completed. Items 6, 7, 9, 13, 14, 23, 24, 25 and 26 may be coded if appropriate.</td>
</tr>
<tr>
<td>13</td>
<td>Establish HI Record Only. For HB use only, Creates a MIRTEL record, but does not send any information to SSA. In addition to the regular mandatory entries, items 8, 11, 12, 19, 22 and 31 must be completed. Any other item may be coded if appropriate.</td>
</tr>
<tr>
<td>20</td>
<td>Internal Record Change. For HB use only. Makes limited record changes without sending the information to SSA. To be used primarily to record state buy-in information and to remove a termination prior to the termination date. </tr>
</tbody>
</table>

**Disposition**

Release the original G-810 to a central desk in the unit for forwarding to the keypunch section. File the duplicate on the right side of the folder.
Appendix B - Medicare Input Short Form (G-811)

Note: Form G-811 was replaced in 1994 by various on-line MEDCOR screens.

Use

Use to take the following actions:

To terminate a MIRTEL record because of death, cessation of disability or loss of QRRB status.

To prevent year end billing when:

(a) The annuity is being withheld to recover an overpayment. Do not submit the G-811 until after the G-96 is processed.

(b) An annuity is reinstated at the end of the year (after December G-96 cutoff).

To obtain an informational printout of the MIRTEL record.

It is also used by MS to drop, change or correct records on MIRTEL, update the HIM, rescreen and obtain informational printout of MIRTEL and CHICO records.

<tr>
<td></td>
<td>Description</td>
</tr>
<tr>
<td>---</td>
<td>-------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>6</td>
<td>Death. Use with activity code 50 to enter the date of death on MIRTEL and the HIM for a non-annuitant. Can also be used to change the date of death on MIRTEL and the HIM. Enter the date of death.</td>
</tr>
<tr>
<td>7</td>
<td>Cessation of DIB. Use with activity code 51 to terminate a beneficiary’s Medicare coverage when he recovers from disability. Enter the date the Medicare coverage should terminate. The date cannot be more than one month prior to the Part A effective date.</td>
</tr>
<tr>
<td>8</td>
<td>Dual Annuitant. Use with activity code 25 to enter a SMI option 9 on the MIRTEL record. Enter the current date.</td>
</tr>
<tr>
<td>8</td>
<td>Former Number. Use with activity code 21 to screen on a new SSA number. Use with activity codes 30, 32, 34, 35 and 36 to transfer utilization either as a cross-reference or kill credit action. With activity codes 30, 32 and 36 enter the SSA number and suffix. Start the entry in the first box on the left, and convert the suffix to the appropriate numeric code. If the suffix is a single letter, enter the code in the first two boxes after the number, leave the last two boxes blank. If the suffix consists of a letter and a number, show the code for the letter in the usual place and enter the number in the following box; leave the last box blank. If the suffix consist of two letters, convert each to the appropriate codes and enter them in the last four boxes. With activity codes 34 and 35 enter the former or erroneous RRB number. Enter the number in the first nine boxes. If the number is six digits or less, enter zeros in the first boxes. A pseudo number may be entered in this item. Convert the symbol and prefix to the appropriate numeric BIC as shown on the form. Enter this code in the two boxes following the number. Leave the last two boxes blank.</td>
</tr>
<tr>
<td>10</td>
<td>Unit Designation. Enter the numeric codes for the unit preparing the form.</td>

<tr>
<td>11</td>
<td>Reserved.</td>
</tr>
</tbody>
</table>

**Disposition**

Release the original G-811 to a central desk in the unit for forwarding through HB to the computer room. File the duplicate on the right side of the folder.
Appendix C - Preparation Of SSA/CMS Forms

Certain actions can be taken only through the use of manual SSA/CMS forms, i.e., reactivating a skeleton record, changing data in the history field.

On all SSA/CMS forms, the RRB claim number must be converted to an eleven (11) digit number with a numeric equivalent for the symbol and prefix at the end of the number. The first digit of the number must be converted as follows:

0
1 A
2 B
3 C
4 D
5 E
7 G

Our prefix and symbols convert as follows:

A  10
H  80
MA 14
WA 16
WD 46
WH 86
WCA 13
WCD 43
WCH 83
CA 17
PA 15
PD 45
EXAMPLE: A713-01-6295 WOULD BE G13-01-6295-10

Always slash the number zero (0) except on Form HCFA-1365.

The date of birth, when required, must always be a six position numeric date.

When surname is required, enter up to six positions.

A. Form SSA-1364 - Request for Adjustment of HI Entitlement is used to correct selected fields on the Master Identification record. These fields are: current Part A entitlement, current Part A termination, current Part A option, current or prior Part B entitlement, current or prior Part B termination, current or prior Part B option, and the date of death.

If it is necessary to correct both the prior and current record, prepare an SSA-1364 for the prior entitlement first. Control the case until the corrected record is returned. At this time, prepare another form to correct the current record.

Completion

*Item must be completed or form will be returned to examiner for completion.

Item

*1. Claim Number

Enter converted RRB claim number

*2. Surname

Enter first six letters of beneficiary's last name.

*3. First Initial

Enter the first initial of the beneficiary's first name.

*4. Sex

Enter the appropriate sex code, M - male or F - female.

*5. Date of Birth (MMDDYY)

a. Month - enter a two position numeric in columns 20-21. The month must be between 01 and 12.
b. Day - enter a two position numeric in columns 22-23. The day must be between 00 and 31 and be consistent with the possible number of days in a given month. If day of birth is unknown, use 15.

c. Year - enter a two position numeric date to correct or enter a Part A entitlement date on the Master Identification record.

6. Part A Entitlement (MMYY)

a. Enter a four position numeric date to correct or enter a Part A entitlement date on the Master Identification record.

b. Enter **** (four asterisks) to remove Part A entitlement date or to indicate no entitlement.

   Note: If an entry is made in this item also complete items 7, 8, and 9.

   Note: Part A Entitlement date can not be changed if there is a Part A third Party Code in Master Identification record (the code will be other than zero).

7. Part A Termination (Date - MMYY)

a. Enter a four position numeric date in order to correct or insert a Part A termination date in the Master Identification record.

b. Enter **** (four asterisks) to remove Part A termination date from the Master Identification record or to indicate no termination.

c. Enter XXXX (four X's) to disable Part A coverage which was established erroneously.

   Note: If an entry is made in this item also complete items 6, 8, and 9.

   Note: The Part A Termination item cannot be changed if the Part A Third Party Code in the Master Identification record indicates third party buy-in (the code will be other than zero).

8. Part A Option Code

a. Enter one of the following one position alphabetic codes which describes the beneficiary's Part A status:

   C - Cessation of disability

   D - Denied
E - Automatic enrollment - no premium necessary
F - Terminated or voided; invalid enrollment
G - Good cause
H - Not eligible for Part A
R - Refused
S - Terminated; no longer entitlement under CRD provision
T - Non-payment termination
W - Withdrawal
X - Free Part A entitlement terminated
Y - Yes, premium is payable

Note: If the option code is C or S, the Part B Option Code item must contain a consistent entry.

b. If an entry is made in this item, also complete items 6, 7, and 9. The following chart illustrates allowable entries for the Part A Entitlement and Part A Termination items to be used in conjunction with the one-position alphabetic option codes:

<table>
<thead>
<tr>
<th>PART A ENTITLEMENT FIELD</th>
<th>PART A TERMINATION FIELD</th>
</tr>
</thead>
<tbody>
<tr>
<td>OPTION CODE</td>
<td>DATE</td>
</tr>
<tr>
<td>C</td>
<td>X</td>
</tr>
<tr>
<td>D</td>
<td>X</td>
</tr>
<tr>
<td>E</td>
<td>X</td>
</tr>
<tr>
<td>F</td>
<td>X</td>
</tr>
<tr>
<td>OR F</td>
<td>X</td>
</tr>
<tr>
<td>G</td>
<td>X</td>
</tr>
</tbody>
</table>
9. Part A Period of Entitlement
   a. Enter code "C" to designate current period.
   b. Enter code "P" to designate prior period.

   Note: If an entry is made in this item, also complete items 6, 7, and 8.

10. Part B Entitlement (Date - MMYY)
   a. Enter a four position numeric date to correct or insert the Part B entitlement date in the Master Identification record.
   b. Enter **** (four asterisks) to remove Part B entitlement date from the Master Identification record or to indicate no entitlement.

   Note: If an entry is made in this item, also complete items 11, 12, and 13.

   Note: The Part B Entitlement Date item cannot be changed to a later (adverse) date if either the Part A or Part B Third Party Code in Master Identification record indicates third party buy-in (the code will be other than zero).

11. Part B Termination (Date - MMYY)
a. Enter a four position numeric date in order to correct or insert a Part B termination date in the Master Identification record.

b. Enter **** (four asterisks) to remove Part B termination date from the Master Identification record or to indicate no termination.

c. Enter XXXX (four X's) to disable Part B coverage which was established erroneously.

Note: If an entry is made in this item, also complete items 10, 12, and 13.

Note: The Part B Termination item cannot be changed if either the Part A or Part B Third Party Code in the Master Identification record indicates third party buy-in (the code will be other than zero).

12. Part B Option Code

a. Enter one of the following one position alphabetic codes which describes the beneficiary's Part B status:

C - Cessation of disability

D - Denied

F - Terminated; invalid enrollment

N - No response to enrollment form

R - Refused Part B

S - Terminated; no longer entitlement under CRD provision

T - Terminated for non-payment of premiums

W - Withdrawal

Y - Yes, premium is payable

Note: If the option code is C or S, the Part A Option Code item must contain a consistent entry.

b. If an entry is made in this item, also complete items 10, 11, and 13. The following chart illustrates allowable entries for the Part A Entitlement and Part A Termination items to be used in conjunction with the one-position alphabetic option codes:
13. Part B Period of Entitlement
   a. Enter code "C" to designate current period.
   b. Enter code "P" to designate prior period.
      Note: If an entry is made in this item, also complete items 10, 11, and 12.

14. Previous BIC
    Leave this item blank.

15. Date of Death (MMDDYY)
a. Enter a six position numeric date in order to correct or insert the date of death in the Master Identification record.

1. Month - either a two position numeric in columns 48-49. The month must be between 01 and 12.

2. Day - enter a two position numeric in columns 50-51. The day must be between 00 and 31 and be consistent with the possible number of days in a given month. A day of 00 should be entered when the actual day of death is unknown.

3. Year - enter a two position numeric in columns 52-53.

b. Enter ***** (six asterisks) to remove an incorrect date of death.

16. Remarks

Leave this item blank.

17. Prevent HI Card

Enter a "T" to suppress issuance of an HI card.

*18. Sequence

a. The sequence number determines the order in which multiple transactions will be applied to the Master Identification record.

b. If corrections are being made to only one period of entitlement, make all the entries in the columns on the left hand side of the form. Sequence code "1" is preprinted in column 74 to accommodate these entries.

c. If corrections are being made to both the current and prior periods of entitlement:

1. Make all entries for the current period on the left hand side of the form.

   • Code "C" must be present in the Part B Period of Entitlement item. Refer to item 13 instructions.

   • Sequence code "1" is preprinted in column 74 to accommodate these entries.

*19. Requestor's Identification

Enter "02RR".
20. Record Identification

Code "/" is preprinted on the form.

Sign and date the form in the space provided.

SSA-1364 TRANSACTION CONFIRMATION

1. A Health Insurance Printout (HIPO) is electronically generated and is delivered to the individual who initiated the action to adjust HI entitlement as soon as final disposition is made of the transaction.

2. If the transaction is accepted, the HIPO will display the legend PROCESSED 1364 10.

3. If the transaction is alerted by the HDHIDUP program, the HIPO will display the legend PROCESSED 1364 followed by a two position alpha numeric disposition code. Refer to RCM 3.3 Appendix D (PM 7107, Chapter 26), for a description of the HDHIDUP disposition codes.

4. If the transaction is rejected by the HMERA program the HIPO will display the legend REJECTED 1364 followed by a two position alphabetic disposition code. Refer to RCM 3.3 Appendix D (PM 7107, Chapter 26), for a description of the HMERA disposition codes.

5. If the transaction is rejected by the HDHIDUP program the HIPO will display the legend REJECTED 1364 followed by a two position alpha numeric disposition code. Refer to RCM 3.3 Appendix D (PM 7107, Chapter 26), for a description of the HDHIDUP disposition codes.

6. The HIPO which is generated to confirm the transaction will display the master record (Master Identification record including Master Part A, Master Part B, and control records; the Cross-reference, Kill Credit; Skeleton; or RRB Flag record) which is present on the master file. If no master record is present, the word NIF will appear.

B. Form HCFA-1365, Request for Preparation of HIB Part B Query is used to retrieve a skeleton record from the inactive portion of the HIM and enter it on the active portion of the HIM. The use of this form is restricted to MS unit supervisor and GS-9 Claims Specialists.

This form must be followed by a fully coded RIC B to enter a complete record on the HIM; or by a HCFA-1364 to correct an erroneous date of death on the HIM.

Completion

For this form only the letter "O" (0) not the number zero should be slashed (keypunching will not be done at RRB).
Required Entries

Items 1, 2, 3, 4, 5, 6, 7, 15 and 16.

Item

1 - Enter the nine digit converted RRB claim number followed by the two digit converted RRB prefix/symbol.

2 - Enter K in column 13.

3 - Enter up to six positions of the beneficiary's last name. (Slash the letter "o").

4 - Enter the first initial of the beneficiary's first name.

5 - Enter "M" for male, "F" for female.

6 - Enter a six position numeric date of birth.

7 - Enter "10071".

15 - Enter "STATUS".

16 - Enter "02RR".

Sign your name, RRB, MS, and the date in the space provided.

C. Form SSA-1664, Request for Name/Sex Correction of HI Master Record is used to change a name and/or sex code.

Completion

Follow the instructions on the form. In item 6, Requester's Identity enter "02RR".

1. A Health Insurance Printout (HIPO) is electronically generated and is delivered to the individual who initiated the name/sex correction record as soon as final disposition is made of the transaction.

2. If the transaction is accepted, the HIPO will display one of the following legends:
   
   PROCESSED NAME CHANGE 10
   
   PROCESSED SEX CHANGE 10
   
   PROCESSED NAME/SEX CHANGE 10

3. If the transaction is alerted by the HDHIDUP program, the HIPO will display one of the following legends:
PROCESSED NAME CHANGE
PROCESSED SEX CHANGE
PROCESSED NAME/SEX CHANGE

The legend will be followed by a two position alpha numeric disposition code. Refer to PM 7107, Chapter 26, for a description of the HDHIDUP disposition codes.

4. If the transaction is rejected by the HMERMA program, the HIPO will display one of the following legends:

   REJECTED NAME CHANGE
   REJECTED SEX CHANGE
   REJECTED NAME/SEX CHANGE

The legend will be followed by a two position alphabetic disposition code. Refer to PM 7107, Chapter 26, for a description of the HMERMA disposition code.

5. If the transaction is rejected by the HDHIDUP program, the HIPO will display one of the following legends:

   REJECTED NAME CHANGE
   REJECTED SEX CHANGE
   REJECTED NAME/SEX CHANGE

The legend will be followed by a two position alpha numeric disposition code. Refer to RCM 3.3 Appendix D (PM 7107, Chapter 26, for a description of the HDHIDUP disposition codes.

6. The HIPO which is generated to confirm the transaction will display the master record (Master Identification record including Master Part A, Master Part B, and control records; the Cross-reference, Kill Credit; Skeleton; or RRB Flag record) which is present on the master file. If no master record is present, the word NIF will appear.

D. Form HCFA-1605 - MBR - BCM Printout Request is used to request a Master Benefit Record (MBR) Printout for a Social Security claim number.

Completion

Enter only the nine digit Social Security claim number(s). All other items should be blank.
E. **Form HCFA-1607 - Health Insurance Locator Cards** is used to request a Health Insurance Printout (HIPO) for an RRB or Social Security claim number.

**Completion**

Enter only the 11 character Social Security or converted RRB claim number and BIC code. All other items should be blank. Leave BIC blank if you want all beneficiaries on a claim number.

**example:**

+ 

RRB claim number A O13-O1-6295 would be 013-01-6295-10.

Social Security claim number 316-O1-5566 B3 would be 316-01-5566 B3.

**Transaction Confirmation**

1. A Health Insurance Printout (HIPO) is electronically generated and delivered to the individual who requested the HIPO as soon as a final disposition is made of the transaction.

2. If the transaction matches a master record without qualification, the HIPO will display the master record which will be one of the following:
   - the Master Identification record, including Master Part A, Master Part A, and control records;
   - the Kill Credit record;
   - the Cross Reference record;
   - the Skeleton record; or
   - the RRB Flag record.

3. If the transaction fails to match a master record, the HIPO will display the legend NIF.

4. If the transaction matches a family blockage/freeze record, the HIPO will display the legend BLCK/FRZ.

5. If the transaction is rejected by the HMERMA program, the HIPO will display the legend REJECTED HIPO REQ followed by a two position alphabetic disposition code.
Appendix D - HCFA PM 7107 chapter 26, HIM Record Codes

Health Insurance Master Record Approval/Alert/Exception Codes

A. HMERMA CODES

This list contains all HMERMA alerts and exception that may require clerical investigation. Some of the exceptions and alerts are from clerical input data and others are from intermediary, carrier and RRB input records.

**B. HDHIDUP CODES**

This list contains all HDHIDUP approvals alerts and exceptions. The approval codes indicate that the transaction has been accepted. The alert codes indicate that although a transaction has been accepted it contains a questionable condition which may require clerical investigation. The exception (reject) codes indicate that an error condition is present which precludes acceptance of the transaction. (These records require clerical investigation.) Some of the exceptions, alerts and approvals are from clerical input data and others are from intermediary, carrier and RRB input records.

1. **APPROVAL CODES**

<table>
<thead>
<tr>
<th>CODE</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>10</td>
<td>The transaction has been accepted and applied.</td>
</tr>
<tr>
<td>11</td>
<td>The transaction has been accreted to the master file and should be accreted to the alpha file (Universal RIC) or the master identification record was inserted at active location (RIC G).</td>
</tr>
<tr>
<td>12</td>
<td>The transaction overlaid a cross-reference record.</td>
</tr>
<tr>
<td>14</td>
<td>A change record transaction has been processed by HDHIDUP and should be accreted to the alph file (e.g., BIC change).</td>

<td>A change record transaction has been processed by HDHIDUP and should</td>
</tr>
</tbody>
</table>
be accreted to the alpha file as a change record (e.g., date of birth change) (Universal RIC) or the purge record (AFT) has been processed (RIC C).

16  A transaction has been processed by HDHIDUP but need not be sent to the alpha file since it does not affect claim number or personal characteristics.

17  A Master Part A for Master Part B record has been retrieved from the inactive master file and reaccreted to the active master file.

2. ALERT CODES

<table>
<thead>
<tr>
<th>CODE</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>AA</td>
<td>The name and/or the address portion of a master record does not conform to establish specifications. The remaining fields have been updated.</td>
</tr>
<tr>
<td>LO</td>
<td>The transactions contains an adverse Part A entitlement date with an adverse Part B entitlement date together with a corresponding change in either the date of birth or date of entitlement to disability. The adverse Part A and Part B entitlement dates have been applied.</td>
</tr>
<tr>
<td>L1</td>
<td>The transaction contains an adverse Part A entitlement date without a corresponding change in the date of birth or date of entitlement to disability. The adverse Part A entitlement date has not been applied.</td>
</tr>
<tr>
<td>L2</td>
<td>The transaction contains an adverse Part A entitlement date and a corresponding change in either the date of birth and date of entitlement to disability. The adverse Part A entitlement date has been applied.</td>
</tr>
<tr>
<td>L4</td>
<td>The transaction which does not contain a Part B entitlement date matches an HI master record which contained two periods of Part B coverage.</td>
</tr>
<tr>
<td>L5</td>
<td>The transaction contains an adverse Part B entitlement date. The adverse Part B entitlement date has been applied.</td>
</tr>
<tr>
<td>L8</td>
<td>A data indicator in the Universal RIC shows that it is a delete transaction form the MBR; however, the matching HI master record contains utilization.</td>
</tr>
<tr>
<td>9</td>
<td>A transaction containing a Part B option of T or W is attempting to terminate a recently entitled master record. The termination date in the transaction is not greater than the month of Part B entitlement contained in the HI master plus one month.</td>
</tr>
<tr>
<td>N1</td>
<td>Transaction which does not contain a Part A entitlement date matched an HI master record which contained two periods of Part A coverage.</td>
</tr>
</tbody>
</table>
The transaction is conveying the deletion of Part A - third party involvement.

The transaction is conveying the reinstatement of Part A entitlement.

The transaction is establishing a prior period of Part A entitlement.

The transaction contains CRD data which is in conflict with the CRD data in the master record. The CRD data in the master record is protected.

The transaction has been placed in orbit for systems' purposes.

The transaction contains a request to freeze a particular claim number and BIC; however, the record already is frozen.

The transaction contains a request to defrost a particular claim number and BIC; however, the record is not frozen.

3. EXCEPTION CODES

<table>
<thead>
<tr>

<tr>
<td>F7</td>
<td>The transaction is attempting to correct the inpatient hospital deductible; however, the amount of deductible contained in the transaction is greater than the amount of deductible allowed for the year of the earliest billing action contained in the transaction.</td>
</tr>
<tr>
<td>F8</td>
<td>The transaction is attempting to correct the number of Christian Science skilled nursing facility days remaining field in the HI master record; however, the number of full SNF days in the transaction exceeds zero or the number of coinsurance days exceeds 30.</td>
</tr>
<tr>
<td>F9</td>
<td>The transaction is attempting to combine two spells of illness; however, the date of earliest billing action in the transaction is not equal to the date of earliest billing action in the HI master record.</td>
</tr>
<tr>
<td>H4</td>
<td>The RRB RIC G type 5 (Part B termination record) matched an HI master identification record which contains no Part B entitlement (see also Alert codes).</td>
</tr>
<tr>
<td>H5</td>
<td>The RRB RIC G type 5 (Part B termination record) contains a Part B termination date which is invalid because it is not greater than the month of Part B entitlement contained in the HI master identification record plus one month.</td>
</tr>
<tr>
<td>H6</td>
<td>The RRB RIC G type 5 (Part B termination record) is attempting to terminate Part B entitlement on an HI master record in which there is Part B third party involvement.</td>
</tr>
<tr>
<td>H7</td>
<td>The RRB RIC G type 5 (Part B termination record) contains an event code which is other than NP, EW or CD.</td>
</tr>
<tr>
<td>H8</td>
<td>The RRB RIC G type 5 (Part B termination record) contains a termination of entitlement to disability benefits; however, the current reason for entitlement in the HI master identification record shows that entitlement is for other than disability.</td>
</tr>
<tr>
<td>H9</td>
<td>The RRB RIC G type 5 (Part B termination record) contain a termination of entitlement to disability benefits which precedes the date of entitlement to disability benefits in the HI master record by more than one month.</td>
</tr>
<tr>
<td>I1</td>
<td>The RRB RIC G type 1, or type 4, or type 5 did not match a master record on either claim number or BIC.</td>
</tr>
</tbody>
</table>
I2 The RRB RIC G type 1, or type 4, or type 5 matches a cross reference or skeleton record.

I3 The RRB RIC G type 4 (death notification) contains a date of death which disagrees with the bill date of death contained in the HI master identification record.

I7 The RRB RIC G type 1 (Part B option change) is attempting to reinstate Part B entitlement to an account on which Part B entitlement has terminated due to cessation of disability.

I8 The RRB RIC G type 1 (Part B option change) contains a refusal option, however, the HI master identification record contains a Part B termination.

I9 The RRB RIC G type 1 (Part B option change) is attempting to remove entitlement or to establish disadvantageous entitlement on an account in which there is third party involvement.

J2 A transaction containing a third party accretion matched an HI master identification record which does not contain Part A entitlement.

J3 A transaction containing a Part A third party accretion matched an HI master identification record which does not contain Part B entitlement.

J4 The transaction contains an invalid third party code (the code is other than I-9).

M1 An RRB RIC B skeleton record failed to match an HI master record on claim number, BIC, or given name.

M2 Although a Universal RIC failed to match an existing HI master record, it was not inserted because it contained a Part B option of P (RRB jurisdiction).

M4 The Universal RIC matched a master cross-reference record.

M6 The Universal RIC contained a Part B option of P and matched an SSA cross-reference number.

Exhibits

Exhibit 1 - Glossary of HI Terms and Codes

MIRTEL GLOSSARY

The following is a glossary of terms and abbreviations used in the MIRTEL system for microfilms, referrals, folder notices, and other records:

ACCOUNTING DATE (ACCTG DT) - Month, day and year an activity enters the MIRTEL system for processing.

ACCRETION/DELETION CODE (A D CD) - Code given by third parties to describe status of beneficiary.

Codes: blank - not applicable

  1 - accretion
  2 - deletion - annuitant
  3 - deletion - death
  4 - prepaid
  5 - deletion - other

ACTIVITY CODE (ACTIVITY, LAP CD) - Type of activity processed. The Activity Code may be followed by an alpha Type of Activity code. Valid Type of Activity codes include:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>C</td>
<td>CHICO monthly</td>
</tr>
<tr>
<td>Code</td>
<td>Description</td>
</tr>
<tr>
<td>------</td>
<td>-------------</td>
</tr>
<tr>
<td>D</td>
<td>Death match</td>
</tr>
<tr>
<td>E</td>
<td>Medicare Advantage Part B premium reduction transaction; only valid with Activity Code 17</td>
</tr>
<tr>
<td>I</td>
<td>IRMAA transaction; only valid with Activity Code 17</td>
</tr>
<tr>
<td>L</td>
<td>Long form activity</td>
</tr>
<tr>
<td>M</td>
<td>Mechanical input</td>
</tr>
<tr>
<td>R</td>
<td>Annual premium rate change</td>
</tr>
<tr>
<td>S</td>
<td>Short form activity</td>
</tr>
<tr>
<td>T</td>
<td>Variable rate</td>
</tr>
</tbody>
</table>

**Note:** In some situations, a Type of Activity code may erroneously be carried over from a previous transaction. Ignore the Type of Activity code if it is not relevant to the Activity Code. For example, if a code “40I” is displayed in a record, ignore the Type of Activity code of “I” since Type of Activity code “I” is only valid with an Activity Code of “17.”

Type of Activity codes not included in the chart above, e.g codes A, B, C and D, have no significant value.

**Activity Codes:**

02 - reply from monthly recert query

03 - name and address query response record from CHICO

04 - drop cross-reference record (internally generated only)

05 - drop record internally only (MEDCOR)

06 - drop record - deletion to SSA (MEDCOR)

07 - maintenance exception record

08 - mechanical replies

09 – SS application from PAM

10 - RASI application establish and screen or change record (mech)

11 - attainments - establish and screen or change record (mech)
12 - establish HI record and screen (MEDCOR)
13 - establish HI record only (MEDCOR)
14 - create cross reference record (internally generated only)
17 – premium rate change
17E – Medicare Advantage premium reduction activity
17I – IRMAA activity
17M – variable premium rate change
17R – annual premium rate change
20 - internal record change (MEDCOR)
21 - internal record change and rescreen (MEDCOR)
21 - rescreen only (MEDCOR)
22 - internal record change and RIC to SSA (MEDCOR)
22 - RIC to SSA (MEDCOR)
23 - withdrawal (MEDCOR)
24 - withdrawal after SBI (state buy in)
25 - option change (MEDCOR)
26 - reverse termination for non-payment (MEDCOR)
27 - GEP enrollment (MEDCOR)
30 - transfer utilization SSA-RRB (G-811)
31 - establish record and transfer utilization SSA-RRB (MEDCOR)
32 - transfer utilization SSA-RRB, internal record change (MEDCOR)
32 - transfer utilization SSA-RRB, clearance pending (MEDCOR)
33 - establish record and transfer utilization RRB-RRB (MEDCOR)
34 - transfer utilization RRB-RRB, internal record change (MEDCOR)
34 - transfer utilization RRB-RRB, clearance pending (MEDCOR)
35 - kill credit RRB-RRB (MEDCOR)
36 - kill credit SSA-RRB (MEDCOR)
40 - premium payment
41 - one payment only
50 - death termination
51 - cessation of disability (MEDCOR)
52 - (loss of QRRB status), deactivate number (MEDCOR)
60 - prevent billing in manual award case (MEDCOR)
61 - prevent year end billing (MEDCOR)
62 - release ID card (MEDCOR)
63 - release ID card - SSA request (mechanically generated only)
63D – CMS death match
98 – double inquiry of both MIRTEL and CHICO records (MEDCOR)
99 – inquiry of MIRTEL record only (MEDCOR)

ANNUITY BEGINNING DATE (ABD) - beginning date of entitlement to any RR annuity, even if the annuity is not in current pay status

AVERAGE DUE AMOUNT (ARRG DUE, ARRG AMT) - total amount of SMI premiums due for previous months

ARREARAGE DUE CODE (ARRG CD)

Codes

  blank - not applicable

  1 - premium deductions started, previous arrearage due

ASSUMED PAID THRU DATE (*) - used to show that the paid thru date in our system has not been actually established. This usually occurs in cases where jurisdiction is being transferred from SSA to RRB.
BATCH NUMBER (BTCH #), see also DATE OF LAST PAYMENT (DT LST PYMT) - for Premium Collection Group use only. This number provides a way of tracing the location of a particular premium payment.

BENEFICIARY'S NAME (BENE NAME) - space is provided in the MIRTEL system for ten letters of the first name, the middle initial, and twelve letters of the last name.

BENEFICIARY'S SS NUMBER (BENE SSA) - actual SS number of the beneficiary.

BILL RELEASE DATE (BILL REL DT) - month and year the last SMI premium bill was released.

CLAIM NUMBER (RRB CLAIM NO.) - symbol, prefix and six or nine digit RRB claim number.

CONVERSION REFERRAL INDICATION (CONV REF, C) also called HI CONVERSION CODE (HI CONV CD) - See RCM 3.6.10.

DATE OF DEATH (DOD) - month and year of beneficiary's death.

DATE OF LAST PAYMENT (DT LST PYMT) - first three digits of this field represent the batch number. The last three digits represent the sequential date. See also BATCH NUMBER,SEQUENTIAL DATE.

DATE UNIVERSAL RIC SENT (RIC REL DT) - month, day, and last digit of the year the most recent universal RIC sent to SSA.

DELINQUENCY DATE (DELQ DT, DQ) - last month and year payment can be made before coverage will be terminated for non-payment of premiums.

DISABILITY FREEZE DATE (DIS FRZ DT) - last month and year payment can be made before coverage will be terminated for non-payment of premiums.

EMPLOYEE'S SS NUMBER (EE SSA) - social security number of the railroad employee.

EVENT CODE AND DATE (EVENT CD.DT) - code and month and year entered on G-811 item 8. The "event" provides the reason for a specific "activity" in item 3 of the G-811.

Codes: 1 - yes option
2 - no option
3 - withdrawal
4 - withdrawal after state buy in
5 - good cause

6 - death

7 - cessation of DIB

8 - dual annuitant

EXCESS PREMIUM AMOUNT (EXC PREM AMT, EXC PREM, EX PR) - a premium payment amount that cannot be applied to the beneficiary's account at this time because it is less than a full month's premium amount.

G-44 GEP CODE (G-44 GEP) - mechanically produced code

Codes: blank - No G-44 required

1 - G-44 required

2 - G-44 released

3 - G-44 returned - no option

4 - G-44 returned - yes option

5 - deemed enrollment

GEOGRAPHIC CODE (GEO CD) - For ESA use-a mechanically produced code which refers to the region of the beneficiary's residence

Codes: 000-539 and 541-599 apply to non-foreign addresses

540 and 600-698 apply to foreign addresses

999- unknown

HI EFFECTIVE DATE (HED) - month and year of entitlement to Medicare Part A, Hospital Insurance.

HI TERMINATION DATE (HI TRM DT) - month and year HI coverage terminates, due to cessation of disability

HI DATE OF BIRTH (HI DOB) - date of birth used to establish entitlement to Medicare

ID ISSUE CODE (ID ISS) - pertains to Medicare identification cards
Codes:  
- blank - no card required
- 1 - G-41 required
- 2 - G-43 required
- 3 - G-41 released
- 4 - G-43 Part A released
- 5 - G-43 Part A & B released

LAST ACTIVITY PROCESSING CODE (LAP CD) - last activity processed in the MIRTEL system for this beneficiary. See ACTIVITY CODE.

LAST ACTIVITY PROCESSING DATE (LAP DT) - month, day and year of last activity processed in the MIRTEL system for this beneficiary.

ORBIT COUNT (ORB CNT) - for ESA only.

PAID THRU DATE (PD THRU DT) - month and year thru which SMI premiums have been paid.

PAYEE CODE (PC) beneficiary's payee code, if applicable

POSTMARK DATE (POSTMARK) - for Premium Collection Group use only - month and year of postmark on a premium payment

RRB DATE OF BIRTH (RRB DOB) - date of birth used to establish entitlement to an annuity under the RR Act,

PREVIOUS ACTIVITY PROCESSING CODE (PRAC) - second most recent activity processed in the MIRTEL system for this beneficiary (shown in the "Previous information" fields of the MIRTEL INQUIRY and MIRTEL FOLDER NOTICE. See "ACTIVITY CODE."

PREVIOUS ACTIVITY PROCESSING DATE (PRAD) - month and year of the second most recent activity processed in the MIRTEL system.

PREVIOUS RR NUMBER OR SECOND SS NUMBER (RRB/SSA/NO/SUF) - another claim number on which beneficiary is, was, or could be entitled to Medicare.

PSEUDO NUMBER (PSEUDO NO) - number (other than RRB claim no) assigned only by HB to identify a beneficiary.

RECORD STATUS CODE (REC STAT) - beneficiary's current situation in the MIRTEL record.
Codes: 00 - cross reference record
01 - annuity application filed, screening reply pending
02 - no annuity application filed, screening reply pending
03 - annuity in suspense - screening reply pending
04 - annuity in suspense, quarterly billing required, screening reply pending
05 - attainment, screening reply pending
11 - annuity in force, no deductions required
12 - no annuity, no billing required
13 - annuity in suspense, no deductions required
21 - annuity in force, adjustment required
22 - no annuity, quarterly billing required
23 - annuity in suspense, year end billing required
24 - annuity in suspense, quarterly billing required,
31 - annuity in force, deductions made
90 - cessation of disability
98 - inactive - no longer QRRB under this number
99 - death

REFERRAL CODE (REF CD) - most recent referral reason. See RCM 3.3 Exhibit 1a.

REFERRAL CODE DATE (REF DT) - month, date and year of most recent referral.

REF PAYEE CODE (REP PAY) - type of representative payee appointed for beneficiary.

Codes: blank - not applicable
1 - court appointed guardian
2 - Board appointed guardian

3 - parent for child

SCREENING REPLY DATE (SREP DT) - month and year RRB receives reply from SSA to RRB screening activity

SCREENING REQUEST CODE (SREQ CD) - type of screening request processed

Codes: 1 - initial screening request

2 - tracer request

3 - screening reply received

4 - rescreening request

A - initial screening request, SSA follow-up required

B - tracer request, SSA follow-up required

C - screening reply received SSA follow-up required

D - rescreening request, SSA follow-up required

SCREENING REQUEST DATE (SREQ DT) - month and year of most recent screening activity

SECTION UNIT CODE (SEC UNIT) - three letter abbreviation of the unit requesting MIRTEL information

SEQUENTIAL DATE (SEQ DT), see also DATE OF LAST PAYMENT (DT LST PYMT) - for Premium Collection Group use only. This number represents the day of the year a SMI premium payment is made (Example: January 20, 1978 is 020; December 28, 1978 is 362.

SEX CODE (SEX, SX) - sex of beneficiary

Codes: M - male

F - female

blank - unknown
SSA CLAIM NUMBER/SUFFIX (SSA CLM NO/SUF) - SSA claim number and suffix of account on which beneficiary is entitled to SS benefits.

STATE BUY IN ACCRETION (ACCR DT) - month and year state begins paying SMI premiums

STATE BUY IN DELETION DATE (DEL DT) - last month and year state pays SMI premiums

STOP BILL DIRECT/PAYMENT (STP BIL CD) - reason premium bills should no longer be released when coverage is still intact

Codes: blank - not applicable

1 - annuity in force, stop releasing bill

2 - annuity in force, payment accepted, possible refund due

3 - annuity in force, stop releasing bill and accepting payment

SMI AMOUNT PAID (AMT PAID) - amount of payment from G-323 or premium bill currently being processed

SMI EFFECTIVE DATE (SED) - month and year of entitlement to Medicare Part B, Medical Insurance

SMI OPTION CODE (SOC) - SMI enrollment status of beneficiary

Codes: 1 - first enrollment

2 - no response

3 - no election

4 - first termination

5 - second enrollment

6 - second termination

7 - SSA jurisdiction

8 - state buy in

9 - dual annuitant
SMI OPTION FILING DATE (SOF DT) - month and year beneficiary filed current SMI option

SMI PREMIUM RATE (RPD) - beneficiary's SMI monthly premium amount

SMI TERMINATION CODE (SMI TERM CD, also part of SMI TRM CD/DT) - reason for termination of SMI coverage

Codes:  blank - not applicable
         1 - terminated for non payment
         2 - withdrawal
         9 - old delinquency/date should be terminated for non-payment

THIRD PARTY CODE (3 PTY CD) - type of third party involvement

Codes:  blank - no third party involvement
         01 - third party investigation
         51 - Palmetto GBA
         52 - Metro - North Commuter Railroad Co.
         53 - Illinois Central Hospital Assn.
         55 - M-K Employees Hospital Assn.
         56 - Northern Pacific Beneficial Assn.
         57 - Union Pacific Railroad Co.
         58 - U.S. Steel and Carnegie Pension Fund
         60 - A.T. & S.F. Employees Hospital Assn.
         61 - Santa Fe Coast Lines
         62 - Santa Fe Employees Hospital Assn.
         69 - Texas and Pacific Railway Employees Hospital Assn.
         70 - Wabash Memorial Hospital Assn.
98 - death
99 - deletion

TYPE OF APPLICATION (TYPE APPL) - Source of record used to establish Medicare entitlement

Codes:
- blank - unknown
- 1 - EDP (RASI)
- 2 - manual accretion
- 3 - mechanical attainment (AGE)
- 4 - mechanical attainment (DISABILITY)
- 5 - force
- 6 - withdrawal
- 7 - SSA - RRB transfer
- 8 - SSA - RRB transfer (uninsured SSA)
- 9 - disability

TYPE OF BENEFICIARY (TYPE BEN)

Codes:
- 01 - employee
- 02 - spouse
- 03 - widow, widower, JA
- 04 - survivor child
- 05 - parent
- 06 - IPI
- 11 - disabled employee
- 12 - disabled spouse
13 - disabled widow, widower, JA
14 - disabled survivor child
16 - disabled IPI
21 - disabled employee - 65 or over
22 - disabled spouse - 65 or over
23 - disabled widow, widower, JA - 65 or over
24 - disabled survivor child - 65 or over
26 - disabled IPI - 65 or over

TYPE OF BILL (TYPE BILL) also TYPE OF LAST BILL (LST BIL CD) - type of last premium bill released.

Codes:
- blank - unknown or not applicable
- 0 - G-800
- 1 - G-801
- 2 - G-802
- 3 - G-803 (year end)

TYPE OF RECORD (TYPE OF REC) - shows whether the record is the HI record of the beneficiary or a cross reference number to the beneficiary's record.

Codes:
- blank - HI record
- 1 - cross reference record

VOUCHER DATE (VCHR DT) - month and year of most recent voucher action, usually a mechanical adjustment to deduct SMI premiums.

VOUCHER NUMBER (VCHR NO) - number of the most recent voucher action.

YEAR END CODE (YEC) - code used in suspense cases to denote year end billing status.
Codes: blank - not applicable

1 - prevents year end billing and termination for non payment

ZIP CODE (zip) - beneficiary's zip code.

**HEALTH INSURANCE SYSTEMS**
MIRF (MIRTEL Film)

This microfilm contains records of all Qualified Railroad Retirement Beneficiaries enrolled for either Part A or Part B or Medicare. Fourteen records are printed on each frame. This microfilm is produced each month.

Consult RCM 3.3 Exhibit 1 for detailed explanation of the terms and codes used on the MIRF.

</table>

**NOTE:** This code is used to define the SMIB deduction amount. It consists of three components: the Rate Table Indicator (S = Standard Table, P = Puerto Rican Table, C = U.S. Commonwealth/Territories Table), the Variable Rate Indicator (N = non-variable, V = variable), and the Penalty Percentage Indicator (000 through 220).

Exhibit 3 - MMAC (Microfilm of MIRTEL activity)

MMAC (Microfilm of MIRTEL ACTIVITY)

This microfilm reflects weekly additions to, subtractions from, and changes in the MIRTEL record. The MIRTEL record is manipulated by certain activity codes entered on the G-810, G-811 or through the RASI or attainment systems. The MMAC will show what activity was attempted, the existing master record, and the subsequent master record following the adjustment. In the event that the attempted activity cannot be processed, the MMAC will show "REJECT". Sometimes an activity will process, but the MMAC will show "ALERT." This is not a REJECT. An alert means a particular part of the record should be checked for accuracy. It advises of additional information to be considered in handling the case.

Consult RCM 3.3 Exhibit 1 for detailed explanation of the terms and codes used on the MMAC.

## Exhibit 4 - MIRTEL Inquiry

**MMAC Microfilm of MIRTEL Activity**

**MIRTEL INQUIRY**

This folder record printout is generated by preparation of Form G-811 with Activity Code 98 or 99. The G-811 can be prepared to obtain a printout of one beneficiary or of all beneficiaries entitled on a certain claim number. Detailed instructions for the preparation of Form G-811 are contained in section 3.3 Appendix B.

The following is a detailed explanation of the terms and codes used on the INQUIRY printout.

3.4.1 Scope Of Chapter

This chapter covers the establishment of Medicare records, the release of Medicare cards and enrollment cards, and the processing of enrollment cards. Included are instructions on establishing a record under a pseudo number when multiple beneficiaries are entitled to Medicare under the same claim number.

3.4.2 Attainment Cases

An attainment case is one involving an annuitant, pensioner, or IPI whose record is on PREH or a social security beneficiary on CHICO at the time of the monthly search for individuals becoming eligible for aged Medicare in the sixth succeeding month. The disability Medicare effective date is a month behind the aged Medicare effective date. The following chart indicates which cases will be included in the monthly search of PREH or the CHICO master. The files will be processed in MIRTEL on the first work day of the following month.

</tbody>
</table>
There are four different attainment processes. They are:

1. MAP – RR Retirement Aged Individuals
2. SURVEA – RR Survivor Aged Individuals
3. DIB ATTAIN Selection – RR Disabled both Retirement and Survivor Individuals
4. SSATS – SS Aged and Disability Individuals

These cases are handled as follows:

A. **QRRB** – A Medicare record is automatically set up in the MIRTEL file for an annuitant who is attaining age 65. This includes SS Only cases.

B. **DQRRB** - A Medicare record is automatically set up for a RR survivor or retirement annuitant who has been granted a disability freeze. It is not necessary for the beneficiary to be receiving a disability annuity. This includes SS Only cases.

However, a record must be established manually for the following:

- A retirement disability annuitant with a deemed freeze.
- A pure SS case not on CHICO because of LAF code is S2 or S3.
- Disabled child whose Medicare effective date is based on actual or potential eligibility as an IPI child.
- Disabled widow whose waiting period includes SSI entitlement as part of the 24 month waiting period.
- A pure SS case paid by RRB and individual is entitled to Medicare based on chronic renal disease (CRD).
- An individual entitled to disability Medicare based on ALS.
- H&A grants a disability and DF simultaneously or just grants a DF.
- A DF is awarded and the case will not be in pay status six months before the Medicare effective date.
- A DF is awarded, case is in pay status, but the DF information will not be updated to PREH six months before the Medicare effective date.
- A DF is awarded to establish Medicare only for an age and service annuitant.
- An award for Medicare is made based on the 74 Act/Government Employment provisions.

- A second DF is awarded to a disabled annuitant.

- See RCM 3.4.3

Generally, MS receives information about the above cases from the disability examiner via Form G-405. If MS is not immediately creating a MEDCOR activity to enroll the individual, a call up will be established. If the call-up is established, release a Form RL-310 if the individual was not previously notified of their Medicare effective date or if they were notified but the Medicare effective date was incorrect. When the call-up expires, 5 months prior to the Medicare effective date, MS will review the case and if necessary, create a MEDCOR Activity 12L.

### 3.4.3 Accretion Cases

An accretion case involves an individual who has not filed for an annuity and whose record, therefore, is not on PREH or the CHICO master. He or she must file an application for an annuity or for Medicare only at an RRB office, or for SS benefits at SSA.

**A. Mechanical Handling** - When a Medicare application filed 3 months before a beneficiary attains age 65 or older, or when a retirement annuity application which is filed or paid 5 months before the beneficiary attains age 65 or older, is certified mechanically, a record is automatically set up in the MIRTEL file. A MEDCOR Activity 12L is created by APPLE when a survivor annuity application is entered on APPLE.

**B. Manual Handling** - A record must be established manually by creating a MEDCOR Activity for a QRRB whose Medicare record is not established by the mechanical processing of an application. Manual handling is required when:

- A survivor application is entered on APPLE and there is current entitlement to Medicare claimed, and any survivor application that is paid manually.

- A retirement annuity or Medicare application is removed from mechanical processing before Medicare clearance is requested.

- An annuity is terminated erroneously in or after the month PREH is searched for attainments (see RCM 3.4.2); or

- An annuity is terminated erroneously and is not reinstated before the search of PREH for attainments (see RCM 3.4.2).

- A “deemed” QRRB, i.e. a person whose SS benefits are payable at RRB but who is not on CHICO, is in his or her IEP.
• A person whose SS benefits are payable at RRB and is entitled to Medicare based on CRD before the regular waiting period is up.

• An individual entitled to Medicare based on ALS.

• A Medicare only application if RASI is looking for information.

• See RCM 3.4.2B

There are a small number of cases in which more than one beneficiary is entitled to Medicare under the same RRB claim number when the prefix and beneficiary symbols are equal (e.g., M, X, W; or C and WC). Since the CMS Enrollment Database (EDB) requires every beneficiary to have a unique number, it is necessary to assign a "pseudo" number. When a second beneficiary with the same RRB claim number, symbol and prefix becomes eligible for Medicare, refer the case to MS for the assignment of a pseudo number. See RCM 3.4.20.

Cases should be sent to MS to enroll a QRRB who was not enrolled timely, has no Medicare entitlement on a LAF `C' benefit, and more than 5 months of premiums would need to be deducted. These cases are eligible for equitable relief. See RCM 3.2 for information on equitable relief.

If a beneficiary is entitled under two RRB claim numbers, the Medicare enrollment should be on the primary number (A or WA). See RCM 3.5.51 through 3.5.54.

3.4.10 Screening For Clearance

From the MIRTEL system, a screening request is sent to SSA to update SSA's Master Benefit Record (MBR) to show that RRB has jurisdiction of the individual's Medicare. The file sent to SSA is the PSRRB file. SSA processes this file, updates the RR JURIS line on the MBR with a start date, and stops premium deductions if premiums were being withheld from SS benefits. SSA will send a file back to RRB with the screening replies. This file is the ECRUT file. The ECRUT file contains the information that RRB sent to SSA and any SSA information that was picked up from the MBR, such as SSA’s Medicare entitlement dates, SSA’s premium amount, and the paid through date at SSA.

RRB will process the ECRUT file and MIRTEL will be updated with the most advantageous dates. A Medicare card will be released. A URIC will be sent to CMS on the HMRUNT file to establish a record on the Enrollment Database (EDB). When the record is transmitted to the EDB, a Medicare record is established in the RRB portion of the file and any SSA record previously established is automatically transferred from the SSA portion. CMS processes the HMRUNT file and sends back a file called the RBEX file, which contains the EDB Alert and Exceptions.

NOTE: For LAF `E' cases, because no information is picked up, the examiner should show Medicare effective dates from the MOR if they are more advantageous than the effective dates based on RRB entitlement.
3.4.11 Records Of Clearance

The following records will show whether or not clearance has been obtained:

A. Printout Reply for RASI Cases - RASI produces messages showing the information that it furnished to the MIRTEL system,

B. Printout Reply to Other Screening Requests - When clearance is received as a result of a MEDCOR Activity 12L, mechanical attainment or a PAM transaction, a "RRB Jurisdiction" printout is generated.

C. Printout Reply to MEDCOR Activity 99s - The printout reply to a MIRTEL inquiry (MEDCOR Activity 99S) shows the current status of the MIRTEL file.

D. MMAC File - The MMAC File (Microfilm of MIRTEL Activity) is a weekly record of processed MIRTEL activities and the MIRTEL master before and after processing of the activity. See RCM 3.3.4.

E. Folder Record - IBM cards showing jurisdiction were computer printed for the initial cases cleared with SSA in May 1966. The cards were prepared for qualified annuitants (whether payments were in force or in suspense), IPI's, and non-retired employees and spouses. Subsequent records were shown on 8 1/2" x 11" computer referrals marked "HIB Clearance." Beginning June 1978, the clearance record is titled "RRB Jurisdiction - Reply Processed."

3.4.12 Handling Referrals

Computer rejects often occur during the clearance operation. Since manual handling is required to establish or correct the EDB, it is important that MS handles these as soon as possible. If paper referrals are matched with folder material you are handling, the paper referral should never be ignored, unless it is stamped, "Associate With Folder and File Down" or "File Only." MS will handle referrals according to current instructions.

There is a monthly MIRTEL referral with the message "No Matching CHICO, MIRTEL SHOWS ANNUITY". These referrals are normally produced when RASI or PAM sets up a Medicare record before a payment is made. Usually once the payment is made no further action is necessary. Therefore, if one of these referrals is matched to a folder, pay the annuity or SS benefit. Only refer the case to MS if the person will not be paid (e.g., zero annuity rate.)

NOTE: There is a monthly MIRTEL referral with the message "No Matching CHICO, MIRTEL SHOWS ANNUITY". These referrals are normally produced when RASI or PAM sets up a Medicare record before a payment is made. Usually once the payment is made, no further action is necessary. Therefore, if one of these referrals is matched to a folder, pay the annuity or SS benefit. Only refer the case to MS if the person will not be paid (e.g., zero annuity rate.)
3.4.20 Assignment Of Pseudo Claim Numbers

MS is responsible for assigning "Medicare pseudo" numbers to "extra" beneficiaries (IPIs, disabled children, second wives, etc.). The six digit numbers used through November 1974 were in the 995001 through 999995 series. Effective December 1, 1974, the beneficiary's own SS number is assigned as the pseudo number. If the beneficiary does not have a SS number, a six digit pseudo number can still be assigned.

If a dual annuitant needs a pseudo number, assign one so that cross reference of the records can be done and to avoid generating referrals. It is not necessary to send a letter to the dual annuitant to advise of the pseudo number assignment. This is more for internal records.

If a pseudo number was assigned in error, do the following:

1. Create a MEDCOR Activity 05S to drop the MIRTEL record with the pseudo number.

2. Create a MEDCOR Activity 13L to reestablish the MIRTEL without the pseudo number.

3. If the EDB was set up as an “MA” on the RRB claim number and the individual is currently a “WA”, create a MEDCOR Activity 22S to change the symbol on the EDB from an “M” to a “W”.

4. Create a MEDCOR Activity 35S to kill credit and cross refer the EDB records.

Release a letter advising the beneficiary that his or her RRB claim number is the Medicare claim number, release a new Medicare card and advise the beneficiary to destroy the Medicare card with the pseudo number on it.

The following individuals will require pseudo numbers:

A. Retirement Cases

- Second or later disabled child (20 years of age or older) who is eligible under the O/M.

- Second or later wife of an employee, if a previous wife was enrolled for Medicare under an identical claim number and symbol.

B. Survivor Cases

- One dependent parent, if two are receiving benefits under the same claim number and symbol.

- Disabled child (20 years of age or older), if another disabled child was previously enrolled.
• The widow, if a previous wife was enrolled for Medicare.

3.4.21 Cross-Reference File

Although MIRTEL does carry a cross-reference of the pseudo number and actual claim number, MS also maintains a 3" x 5" index card file of all pseudo numbers indexed alphabetically according to employee's surname.

This file contains all identifying information: "pseudo" claim number (add an asterisk if the pseudo claim number is the beneficiary's own SS number), actual claim number, two files or duplicate code, the employee's name, the beneficiary's name, sex, and date of birth, and the type of beneficiary. Prior to 1992 these cards were prepared for all pseudo's. After 1991, new cards are only prepared for QRRB's who are given a six digit pseudo number because they have no SS number of their own. If an individual does not have a SS number, a six digit number is assigned.

3.4.22 Responsibility For Processing Claims

Because of the special coding and the cards required for assigning pseudo numbers, MS is responsible for establishing and if necessary screening these cases. The retirement, survivor and disability examiners will handle annuities in claims of this type as usual. However, any form they prepare must show the pseudo number.

3.4.23 Input Forms

If the need for a pseudo number is recognized before the initial screening, MS will enter the beneficiary's own SS number in “PSEUDO NUMBER” field on the MEDCOR Menu Screen and set up the cross-reference cards. Usually, however, a pseudo number case is identified by the receipt of an EDB reject. In this case, a MIRTEL record has already been established under the regular RRB number. In order to establish the pseudo number record in the MIRTEL file and the EDB, MS will take the following action:

• Create MEDCOR Activity 05S to drop the MIRTEL record,

• Create MEDCOR Activity 31L to establish the pseudo record on MIRTEL and the EDB and, which will also cross refer the SS number to the RRB pseudo number.

All future MEDCOR correction activity and Medicare forms for this record should contain the pseudo number.

3.4.24 Computer Output

The pseudo claim number will appear as the claim number on Medicare cards and records sent to and from SSA and CMS. The cross-reference records in the MIRTEL file will allow activity to process from SSA and CMS with only the pseudo number. On
all other output, the referrals, informational printouts and premium notices, the pseudo number will appear in body of the record.

3.4.25 Handling Correspondence

The mailroom sends all correspondence referring to Medicare to MS. If the claim number is a "pseudo" number, MS will convert it to the actual claim number so that the correspondence can be associated with the RRB claim number.

3.4.26 Notifying "Extra" Beneficiary

If a Medicare card showing the regular RRB claim number has been issued to a beneficiary who is assigned a "pseudo" number, MS will ask the beneficiary to destroy the Medicare card under the regular number. Use Form RL-362 for this purpose.

3.4.30 Automatic Enrollment

A. General - Before October 1, 1972, an individual who was eligible for Part B had to take positive enrollment action in order to obtain coverage. As the result of changes in the law effective October 1, 1972, most persons who are entitled to Part A beginning July 1, 1973 or later are "automatically" enrolled for Part B when they first become entitled to Part A. Instead of having to enroll affirmatively, the vast majority of Medicare beneficiaries who want Part B do not have to take any action. Action must be taken only if a beneficiary does not want Part B.

B. Applicants Who File For Annuities Preceding Or During Their IEP.- Under the law, beneficiaries who file an annuity application during their IEP are entitled to Part B. At the present time, Part B options are being obtained in most retirement and survivor cases. In order to be enrolled for Part B, the individual has to elect or check “yes” in the box by the “do you wish to enroll” question; otherwise, the Medicare record will be set up for Part A only.

In a manually processed case, the beneficiary should be enrolled for Part B by creating a MEDCOR Activity 12L.

C. When Automatic Enrollment Does Not Apply - Automatic enrollment does not apply to:

1. Persons Already Entitled to HI - Automatic enrollment applies only to persons not already entitled to Part A at RRB or SSA who become entitled after June 1973. Any person entitled to Medicare before July 1973 is not subject to automatic enrollment. If such an individual wants to enroll for Part B, he or she must file during a GEP. A non-annuitant who files a Medicare application, and subsequently files for monthly benefits, is also excluded from automatic enrollment.
2. **Applicants Who File Part B Options During an IEP** - In most cases an individual filing an annuity application during an IEP also files a "yes" or "no" Part B option. Automatic enrollment does not apply to such an individual.

3. **Persons Whose Disability IEP Precedes or Overlaps With Their Age 65 IEP** - In any given month some beneficiaries are in their IEP based on disability as well as on prospective attainment of age 65. Medicare records for other beneficiaries were previously established based on disability. The following general rules apply to these cases:

   a. **Part B Option in Record at Time of Prospective Age 65 Call-up** - A disabled beneficiary will not be included with the age 65 attainment group, when his or her case is called up for attainment (at age 64 years and 6 months) if RRB records show that the beneficiary has Part B coverage. Do not notify the beneficiary of continuing entitlement unless there would be a reduction in his or her Part B premium at age 65.

   b. **Part B Option Received Between 64 Years and 6 Months and Age 65** - Any Part B option received for a disabled beneficiary between the ages of 64 years and 6 months and age 65 is a valid option for or rejection of Part B as an age 65 beneficiary.

   c. **Part B Refusal or HI and Part B or Part B Termination in Record at Time of Prospective Age 65 Call-Up** - The attainment activity will reject because of the existing MIRTEL record. Manual action is necessary to enroll the beneficiary for Medicare based on age. The enrollment may include Part A and Part B or just Part B. A G-41 should be sent.

4. **Persons Residing Outside the U.S. or in Puerto Rico** - The law excludes persons living outside the U.S. (including residents of Puerto Rico) from automatic enrollment. High proportions of eligible individuals in Puerto Rico receive medical care without payment on the basis of need and do not enroll for Part B. For them and for persons living outside the U.S., automatic enrollment generally would not be advantageous.

### 3.4.31 Preparation of ID Cards

Medicare cards are produced from two separate data processing programs. One of the programs processes replacement Medicare card requests entered using the MEDCOR Activity 62 (Duplicate Medicare Card Request) screen. The other program, which is part of the MIRTEL processing, generates (1) Medicare cards for individuals on the rolls who attain Medicare eligibility, (2) initial Medicare cards for new enrollments during an Initial Enrollment Period (IEP), and (3) revised replacement cards for individuals whose coverage changes, e.g. the beneficiary declines Part B coverage, Part B coverage is
terminated due to non-payment of premiums, jurisdiction for Medicare is transferred from SSA to RRB, the beneficiary enrolls in Part B during a General Enrollment Period or Special Enrollment Period, or whose Health Insurance Claim Number changes, e.g. spouse-to-widow conversions.

Note: At one time mailing labels were generated along with the Medicare cards. The mailing labels were used to mail Medicare and You handbooks. Although Medicare and You handbooks are now mailed by the Centers for Medicare & Medicaid Services, information about the mailing labels continues to be displayed on program syslists and is used to track when a Medicare card is released. The labels originally carried alphabetic designations to distinguish the type of handbook to be released, and/or the type of enrollment, i.e. U.S. resident, Canadian resident, etc. The alpha designations are as follows:

<table>
<thead>
<tr>
<th>Alpha Designation</th>
<th>Description</th>
</tr>
</thead>
</table>
| A                 | Attainment; U.S. residents (Form RL-861)  
  Note: In a manually established attainment case, if the beneficiary's EDB record was not previously established at CMS, and if clearance is received early enough for the delivery of the Form G-41 at least 2 months before the Part A effective date, enter a “1” in the “ID ISSUE CODE” field on the MEDCOR Activity 12L, to release Form G-41. |
| A or B            | Non-attainments (U.S. residents) and attainments with Part A only (residents of Puerto Rico)  
  1. If it is necessary to secure Medicare clearance, create a MEDCOR Activity 12L, enter a “2” in the “ID ISSUE CODE” field on the MEDCOR Screen.  
  2. In an attainment case in which the Medicare entitlement was previously established at SSA, we must not provide a second opportunity to cancel Part B, since SSA previously picked up such a case for automatic enrollment.  
  3. In a case in which Medicare clearance is received too late to permit the delivery of a Form G-41 at least two months before the Part A effective date, Form G-868 is to be released with the Medicare card. |
4. In an accretion case, in which the individual has filed an application and elected Part B coverage.

Revisions to the two data processing programs were completed in November 2008, to allow printing of all Medicare cards on tear and water resistant paper affixed to the bottom center of a full page (8½ x 11) document. A Form RL-860 series letter is printed above the peel-off Medicare card. The revised forms are printed using a digital imaging system, rather than an impact printer. The revised format improves the print quality on the cards, safeguards personally identifiable information displayed on the cards, and streamlines the mailing process. The form number for all Medicare cards issued with a Form RL-860 series letter is Form G-41.

1. Medicare cards for beneficiaries who attain Medicare eligibility and that are mailed with IEP packages are printed with **Form RL-861**. Forms RL-861 are generally printed one or two months before the start of the beneficiaries’ Initial Enrollment Period (IEP). The forms are held in the Medicare Section until the start of the IEP, and then delivered to the mailroom for release with Booklet RB-12 and a return envelope.

2. All other Medicare cards generated from the MIRTEL processing are printed with **Form RL-866**.

3. All replacement Medicare cards generated from the processing of MEDCOR 62 activities are printed with **Form RL-865**.

### 3.4.32 Handling Of Medicare Cards

The attainment Medicare cards with Form RL-861 are delivered to MS for further handling. Medicare cards are generally sent to MS sorted by ZIP code and number order. The following explains what enclosures are to be released with the various Form RL-860 series letters and Medicare cards.

**A. Form RL-861 and Medicare card (Form G-41) to U.S. Residents (Attainments)**

Forms RL-861 are generally dated three months prior to the Part B effective date, i.e. the first day of the beneficiary’s IEP. MS will hold Forms RL-861 until that date, and then take the cards to the mailroom. The following material is inserted with Forms RL-861 by the mailroom:
1. RB-12, Welcome to Medicare.

2. Pre-Paid return envelope - P.O. Box 10794 (catalog #040385).

B. Form RL-866 and Medicare card (Form G-41) to U.S. Residents (Non-Attainment Cases)

After review for accuracy and quality, Forms RL-866 addressed to U.S. residents are mailed without enclosures. These are generally transmitting initial Medicare cards for new enrollments (not attainments) during an Initial Enrollment Period (IEP), and revised replacement cards for individuals whose coverage changes, e.g. the beneficiary declines Part B coverage, Part B coverage is terminated due to non-payment of premiums, jurisdiction for Medicare is transferred from SSA to RRB, the beneficiary enrolls in Part B during a General Enrollment Period or Special Enrollment Period, or whose Health Insurance Claim Number changes, e.g. spouse-to-widow conversions.

Note: Examiners should immediately notify Eileen Binkus by e-mail if a Form RL-866 and Medicare card were generated in error, or if the Form RL-866 needs to be pulled for special handling, e.g. a delayed Part B enrollment (RCM 3.4.33). Provide the Medicare claim number, the beneficiary's name, and the beneficiary’s mailing address, including the ZIP Code. Also indicate the date when a MEDCOR activity was entered to generate the Medicare card.

C. Form RL-866 and Medicare card (Form G-41) to residents of Puerto Rico (Attainments)

Beneficiaries residing in Puerto Rico are not covered by the automatic enrollment procedures and will initially be enrolled for Part A only. Hand prepare a Form G-44B for each individual from information shown on Form G-41. Stuff the following into mailing envelopes and forward them to the mailroom for mailing.

1. G-41, Medicare card - Part A only coverage (printed with Form RL-866).
2. G-44B, Application for Part B.
3. Form G-864
4. RB-20, Medicare for Railroad Workers and Their Families.
5. Return envelope - P. O. Box 10794 (catalog #040385).

If a Medicare card for a resident of Puerto Rico shows both Part A and Part B, or is not an attainment case, i.e. the Part A effective date is not in the current or a future month, handle it like a regular U.S. resident with Part A and Part B coverage as shown in B above.

D. Form RL-866 and Medicare card (Form G-41) to residents of Canada (Attainments)
Canadians are not covered by automatic enrollment and must file applications for Part B. Hand prepare a Form G-44B for each resident of Canada for whom a Form G-41 is printed. Stuff the following into mailing envelopes and forward them to the mailroom:

1. G-41, Medicare card – Part A only coverage (printed with Form RL-866).

2. G-44B, Application for Part B.

3. G-862, Canadian transmittal.

4. RB-104, leaflet.

5. AA-104, claim form.

6. Return envelope - P.O. Box 10794 (catalog #040384).

If a Medicare card for a resident of Canada shows both Part A and Part B, or is not an attainment case, i.e. the Part A effective date is not in the current or a future month, enclose only Forms AA-104, and RB-104. Do not include Form G-44B, Form G-862, or a return envelope. Release the package to the mailroom for mailing.

E. Form RL-866 and Medicare card (Form G-41) to Residents of Other Foreign Countries (Attainments)

Hand prepare a Form G-44B for residents of foreign countries other than Canada. Stuff the following into mailing envelopes and forward them to the mailroom:

1. G-41, Medicare card – Part A only coverage (printed with Form RL-866).

2. G-44B, Application for Medical Insurance.

3. RB-20, Medicare for Railroad Workers and Their Families.

5. Return envelope - P. O. Box 10794 (catalog #040385).

If a Medicare card for a resident of a foreign country, other than Canada, shows both Part A and Part B, or is not an attainment case, i.e. the Part A effective date is not in the current or a future month, forward the Form RL-866 without enclosures to the mailroom for release.

F. Form RL-865 and replacement Medicare card (Form G-41)

After review for accuracy and quality, Forms RL-865 are mailed to the beneficiary. There are no enclosures.
3.4.33 Delayed Notices Of Part B Enrollment

Part B enrollment may be delayed for many reasons. An individual, not eligible to enroll at the time he or she files for a reduced annuity, may become eligible before all issues are fully developed and resolved. His or her initial annuity award may be vouchered after PREH is searched for attainments. Unless a MEDCOR activity is created in such a case, a Medicare record will not be established unless the beneficiary inquires about Medicare entitlement. There will also be cases in which an individual's first notice that he or she is, or may be, entitled to Part B will be released after the first month of Part B coverage. These individuals must have at least 2 full months in which to file refusals of Part B without incurring premium liability or jeopardizing future enrollment rights.

Delayed cases will be handled as follows:

- MS will create a MEDCOR activity, if necessary, showing Part A and Part B.

- In an age 65 case, MS will manually prepare and release a Medicare card with Form RL-866 and Forms RB-12 and G-868. Form G-868 provides the option for the beneficiary to decline Part B coverage.

- In delayed disability cases, a Medicare card with Form RL-866 is prepared and mailed with Forms G-868 and RB-12.

The provisions of this section do not cover any individuals who have made specific "yes" or "no" options. They will be handled under regular enrollment procedures.

3.4.34 Processing Refusals Of Automatic Enrollment

Individuals who do not want Part B are instructed to sign the "NO" block on the back of the Medicare card, i.e. versions of Form G-41 dated before December 2006, or the back of Form RL-861 and to return the Medicare card. Upon receipt of the "NO" cards, MS checks the cards to be sure they have been properly completed, signed and mailed within two months of the month of mailing, and then processes them as follows:

A. Part B Refusal Received in Time to Prevent Premium Deductions - All Part B refusals processed up to the recent cut-off date of the 3rd month of the IEP can be recorded in the MIRTEL file with a MEDCOR Activity 25S with a "2" entered in the 'EVENT CODE" field and the date of filing entered in the "EVENT DATE" field. The MEDCOR Activity will prevent premium deductions, initiate the generation of a new Medicare card showing Part A only, print out Label B in the syslist and send a correction to the EDB. Form RL-331 will be released to the beneficiary.

NOTE: Between July and November 1973, ESA mechanically processed Part B refusals for several hundred DQRRB's. Form G-41 stamped "Associate With Folder File Down," is the folder record. G-701's were not prepared.
B. Part B Refusal Received Timely But Too Late to Prevent Premium Deduction - Part B refusals processed after the recent cut-off date of the 3rd month of the IEP are handled as follows:

1. Create a MEDCOR Activity 25S, enter a “2” in the EVENT CODE field and enter the 3rd month of the IEP as the filing date in the EVENT DATE field. If the 3rd month of the IEP is not entered, the activity will reject. This is also true when for an optional Part B effective date is established.

2. MAMMA will mechanically refund up to 6 months worth of premiums.

3. If necessary, refund the erroneously deducted premium(s) via the Medicare Payment System (MPS).

Show the following reason for refund:

"You notified us that you did not want Part B."

C. Part B Refusal Received After Start of Coverage Period - A Part B refusal postmarked on or after the date of coverage starts, or more than 2 calendar months after the month the enrollment package was released, is treated as a voluntary termination of Part B. The QRRB is charged with a termination, his or her Part B coverage does not end until the last day of the month following the month in which the refusal is received, and he or she is liable for Part B premiums for the period they had coverage.

Create a MEDCOR Activity 23S, enter a “3” in the EVENT CODE field and enter the date of the request in the EVENT DATE field to update the MIRTEL and the EDB records with the Part B termination. Release Form Letter RL-336 to inform the beneficiary when the coverage will be terminated and the effect this will have on future enrollments. If the letter is released early enough in a GEP to permit reenrollment, include Code Paragraph 997. In all cases, a copy of this letter should be forwarded to the appropriate field office.

### 3.4.40 Temporary Notice Of HI Eligibility

An applicant for Medicare will normally receive a Medicare card within 30 to 60 days after filing. If a person will need medical care before he can expect to receive his Medicare card, the F/O may issue a temporary notice of Medicare eligibility (RL-345) if all of the following criteria are met:

A. An application has been filed. (It may be filed at the time the notice is issued.)

B. The applicant's eligibility as a QRRB is apparent or has been determined.

C. Medicare services are needed immediately or will be needed before a Medicare card can be issued in normal operations.
D. MS has been notified of the F/O’s intention to issue the notice or the F/O has been authorized by MS to do so.

Since the applicant will make early use of the temporary notice, we must immediately establish his or her HI record so that it is available when an intermediary queries SSA for eligibility information. To do this, MS will complete a MEDCOR Activity 12L based on data called in by the F/O or, if clearance has already been initiated but is pending, take any action needed to expedite or force clearance.

3.3.41 Action By F/O

A. **Determine Eligibility** - Before issuing a temporary notice, the F/O establishes any basic eligibility requirements not already established as follows:

1. **Need for Temporary Notice** - The applicant must be able to give reasonable assurance that he or she will be using covered services in the immediate future and before he or she could normally receive the Medicare card.

2. **Proofs** - The applicant must submit acceptable proof of age and other proofs required to substantiate the claim.

3. **120 Months of RR Service or if Less than 120 months – 60 Months of RR Service After 1995 (Employee/Spouse Applicant)** - The employee must submit documentary proof that he or she has 120 months or if less than 120 months, 60 service months after 1995, e.g., a BA-6 showing at least enough service months. If the applicant cannot furnish adequate proof of service, the F/O will ask MS (by phone) to verify the claimed service.

4. **Insured Status (Survivor Applicant)** - The F/O will make an insured status determination of whether RRB has jurisdiction of the survivor claim.

5. **Jurisdiction** - SSA has a similar procedure to provide temporary notices of HI eligibility. Therefore, the F/O will refer the applicant to SSA if:

   a. SSA has jurisdiction of survivor benefits, or

   b. The employee has less than 120 months of RR Service or less than 60 months of RR Service after 1995.

B. **Telephone Notice to MS** - When it is determined that an apparently eligible applicant needs a temporary notice of Medicare eligibility, the F/O will call MS and furnish the data required to prepare the MEDCOR Activity as follows:

1. **Item 1 - RRB Claim Number, Symbol, and Prefix** - If there is no evidence that a 6-digit claim number was previously established, the F/O will furnish the employee’s SS number with the appropriate symbol and prefix. If there is a known prior claim number, the F/O will furnish it.
2. Item 5 & 5a - Date of Birth

3. Item 7 - Beneficiary SSA Number - If the applicant is other than an employee, his or her own SS number is required.

4. Item 8 - Employee's SS Number - This is required for any type of beneficiary.

5. Item 10 - Status of Annuity - The D/O will furnish the type of application filed, i.e., AA-1, AA-101, AA-17, etc. If the applicant is a survivor, the F/O will indicate if annuity payments cannot be made because of work deductions.

6. Item 13 - Part B Effective Date - The F/O will furnish this date only if a timely election is made. No date will be furnished if the applicant is not in an enrollment period.

7. Item 19 - Part A Effective Date - July 1966, or the earliest date the applicant became a QRRB, or six months prior to the filing date of a Medicare or annuity application, whichever is later.

C. Temporary Notice of HI Eligibility - Form Letter RL-345 will be issued by the F/O to an employee, spouse or widow applicant as evidence of entitlement to Medicare. A copy of the notice will be forwarded to MS either with the application or by G-26 if the application was previously forwarded.

3.4.42 Action By MS

A. Verifying 120 Service Months or 60 Service Months After 1995 - Occasionally, the F/O will require assistance in establishing the service months. In such cases check EDM. If prior service is involved, furnish the information to the F/O by return phone call. If lag service is needed, have the F/O secure proof. If military service is needed, have a supervisor walk down a "special" G-563.

B. Establishing Medicare Record - Determine whether or not an application was previously filed and clearance was requested.

1. Clearance Requested - If clearance was requested but is pending, get MBR's on all claim numbers involved and force clearance.

2. MEDCOR Activity Needed - If clearance was not previously requested, create a MEDCOR Activity 12L based on the information provided by the F/O.

C. Continuing Review for HI Eligibility – Review for any condition that would result in a disallowance of the claim for Medicare benefits.
1. **Disallowance** - Notify the F/O immediately if it is finally determined that the applicant is not eligible for Medicare. The D/O will contact the applicant to prevent the use of the temporary notice and to refer the applicant to SSA. Create a MEDCOR Activity 06S promptly to delete the Medicare record. Formally deny the claim and transfer it to SSA if applicable.

2. **Allowance** - When all claims material has been received and eligibility has been established, handle the folder in the normal manner.

### 3.4.50 Release Of Enrollment Kits During GEP

Forms RL-44/G-44 are prepared mechanically in December of each year (for the next year’s GEP) and sent to MS for review and forwarded to the mailroom along with the following material:

- G-712,
- G-860 (for U.S. residents),
- Return Envelope - P.O. Box 10794 (catalog #040385),
- Mailing Envelope (catalog 040380).

The enrollment kits are sent to QRRB’s (including DQRRB’s) who reside in the United States and who:

- Refused Part B enrollment in the previous year;
- Withdraw from Part B coverage in the previous year; or
- Terminated Part B coverage in the previous year by failing to pay premiums within the grace period.

Beneficiaries whose Part B coverage has been terminated twice before are excluded from this group.

The specific criteria for determining the QRRB’s to be solicited in each GEP is determined each year by SSA.

**NOTE:** Some Forms RL-44/G-44 need manual corrections before they are released. If the premium rate is $0.00, an examiner must calculate and enter the proper amount in red on the RL-44/G-44. When the G-44 comes back, a MEDCOR Activity 22L must be created to update the MIRTEL with the Part B entitlement date and the correct premium and to update the EDB.
3.4.51 Request For Enrollment Card

MS will handle requests for enrollment cards as follows:

A. If a G-44 was mechanically prepared and:
   
   1. The incoming correspondence requires no further reply, mark the correspondence "GEP Kit Released - File Only," and send to claim files.
   
   2. A further reply is required, mark the correspondence "GEP Kit Released," and handle the balance of the letter as usual.

B. If a G-44 was not prepared, a timely application is not on file, and the correspondence cannot be used as an application for Part B, send the material to the D/O to obtain a G-44b before the end of the enrollment period.

C. If a G-44 was not prepared and the request clearly indicates an intent to enroll, create a MEDCOR Activity 27S, enter a “1” in the EVENT CODE field and enter January, February or March in the EVENT DATE field. Release RL-331.

3.4.60 Responsibility For Processing Enrollment Cards

Adjudication units will not handle Forms G-44 or G-44B. MS will handle all processing related to GEP or SEP enrollments.

3.4.61 Properly Completed Enrollment Application

Form G-44 - When MS receives Forms G-44 or G-44b from the mailroom, they are to separate incomplete, mutilated and miscellaneous cards from those which have been properly completed. MS examiners will handle GEP elections by creating a MEDCOR Activity 27 and enter a “1” for a `yes' election or enter a “2” for a `no' election in the EVENT CODE field and enter January, February or March in the EVENT DATE field. GEP election cards with the premium rate shown in red are effectuated by creating a MEDCOR Activity 22L. When the action is complete, stamp them "Folder Record - Associate and File Down," and send them to claim files.

G-44b or Correspondence Received Clearly Indicates Part B Option "Yes" - The Medicare examiner will check the MOLI for the current status and will:

- If there is no MIRTEL record, (no Medicare record has previously been established) create a MEDCOR Activity 12L.

- If there is a MIRTEL record, create a MEDCOR Activity 27 and enter a “1” for a `yes' election in the EVENT CODE field and enter January, February or March in the EVENT DATE field.

- MIRTEL will generate a new Medicare card showing the Part B effective date.
3.4.62 Establishing Filing Date For Part B

These instructions apply to any Part B election made with RRB or SSA, whether made on an enrollment card, a Medicare or annuity application, or on any signed statement expressing an intent to enroll.

Establish the filing date in accordance with the following instructions:

A. Received During Enrollment Period - If an application is received in an RRB or SSA office during the applicant's initial enrollment period or during a general enrollment period, use the date of receipt as the filing date, see 3.2. If the application is postmarked in an enrollment period, use the postmark date as the filing date.

B. Received After Enrollment Period - If the application was signed during the enrollment period or if the date signed is not known, the application is deemed to have been filed on the last day of the enrollment period provided it is received in an RRB or SSA office before the eighth day of the month following the end of the enrollment period or it is postmarked no later than the first day after the close of the enrollment period.

3.4.63 Duplicate Cards

Cards may be returned with a message indicating that the person has already signed up. If there is an indication that the person has Medicare under another RRB number, handle in accordance with 3.4.65.

In all other cases, determine whether a previous "Yes" election is on record at RRB or SSA. If so, mark the card "Duplicate" and file it down. If there is no previous "Yes" election and the card does not show one, advise the person of this and ask him or her to complete another card. If there is no previous election and the duplicate card is properly completed, have it processed as usual.

3.4.64 Beneficiary Entitled At SSA

If there is an indication of SSA enrollment or entitlement, MS will take the following action:

A. If clearance has been received and jurisdiction has been transferred to RRB, inform the annuitant of that fact. If the card was not answered "Yes" or "No", handle as shown in sec. 3.4.68C.

B. If clearance was requested but jurisdiction has not been transferred to RRB, get MBRs on all numbers. See your supervisor for instructions if the issue cannot be resolved.
C. If the G-44 or correspondence indicates that the beneficiary has Medicare coverage under a social security number not previously shown in our file, create a MEDCOR Activity 21L and enter the social security number in the FORMER SS CL NO field.

   NOTE: Check DATA-Q to see if the annuity has been offset for SSA entitlement. If not, forward case on G-26a to payment examiner indicating no offset present.

3.4.65 Dual RR Annuitant

If a beneficiary states that he or she is enrolled under another RRB claim number, check MOLI on that number. If two Medicare records have been set up, handle as shown in 3.5.50 through 3.5.54.

3.4.66 Beneficiary Deceased

A. Deceased HI Enrollee - If the deceased beneficiary is a Medicare enrollee only, create a MEDCOR Activity 50S (enter a “6” in the EVENT CODE field and enter the date of death in the EVENT DATE field) to convey the death termination to the MIRTEL file and the EDB.

B. Deceased Annuitant - If the deceased beneficiary is an annuitant send the G-44 to claim files on a G-26 marked "Notice of Death." The date of death will be picked up in the MAMMA Run.

3.4.67 Changes Of Address

A. Beneficiary In Receipt of RRA Annuity (DATAQ Record Exists) If requests are made on enrollment cards for the addition or correction of a ZIP code, or for a complete address change, prepare a FAST change of address in accordance with 9.7 instructions. If a name change is required prepare a FAST transaction in accordance with 9.4 instructions for the correction. If the request is made in a separate communication, transcribe any pertinent information from the card to the correspondence and send the correspondence to the PSU for processing. If the correspondence is unsigned, mark it "Signature on G-44."

B. Beneficiary Entitled to Medicare Only If the beneficiary is not receiving an RRA annuity, i.e. that is no DATAQ record, prepare a MEDCOR Activity 22L to change the beneficiary’s address.

3.4.68 Improperly Completed Enrollment Cards

If an enrollment card cannot be processed in accordance with the preceding sections because it is not properly signed, the Part B option is not clearly indicated, the card is damaged, etc., handle it in accordance with the instructions below:
A. Card Not Signed - If the card was not signed, send it to the F/O to have it properly completed. No file annotation is needed.

B. Card Signed by Someone Other Than Payee - The enrollment card should be signed by the person to whom it was addressed. If it was signed by anyone else, handle according to instructions in RCM sec. 3.2.9.

C. Option on Card Not Clear - If the choice of option is not clear, or if contradictory answers are given, request the F/O to assist the individual in completing the application.

NOTE: The action taken will depend on the circumstances in the case.

3.4.69 Correspondence

Correspondence accompanying enrollment cards will be handled as follows:

- Destroy correspondence that does not require a reply and does not contain information of value.

- When a reply is necessary and the enrollment card is being separated from the letter for processing, transcribe any pertinent information from the card to the letter. The correspondence should then be handled in accordance with regular procedures.

3.4.70 Undeliverable Mail

When a G-44 enrollment package is returned for a better address, check MOLI for Medicare only cases and in an annuity case, check DATAQ, if a better address is not available, send the material on Form G-831 to the field for development of the correct address and delivery of the package.

Appendices

Appendix A

A1. Non-Disability Retirement Applications

A. Mechanical Processing - When an initial annuity application is processed mechanically in a retirement case, an HI record is automatically established or, if a SMI application was previously filed, premium billing is terminated and annuity deductions are initiated.

B. Manual Handling - When an application is dumped from the computer before HI clearance has been requested, the HI record must be established manually by the use of a G-810 activity code 12. If SMI coverage was previously established,
G-811 activity code 60, must be submitted to stop the release of SMI premium billing notices.

In manual cases in which the annuity is awarded less than eight months before the HI effective date, check to see whether an HI record has been established. If not, and the beneficiary is 64 years and seven months of age or older, prepare a G-810 activity code 12. If the beneficiary is under 64 years and seven months of age, enter an "MPS" call-up for the first day of the month before the start of the IEP. If automatic enrollment applies (see sec. 3.4.30), enroll the beneficiary for HI-SMI rather than HI only.

If HI clearance is received before the annuity is awarded, SMI premium deductions should be made. HI clearance is indicated by a record status code other than 01, 02, 03, 04, or 05 on the MIRF by a referral marked "RRB Jurisdiction" or by a printout showing a cleared record status. Do not deduct premiums until clearance is received.

C. **Denials** - When denying an application, if the applicant is at least 64 years and 9 months old but is not a QRRB, be sure to transfer HI data to SSA as shown in RCM Chapter 3.5, Exhibit 2.

**A2. Non-Disability Survivor Applications**

A. **General Handling** - A G-810 activity code 12 must always be prepared in a non-disability survivor case, other than a spouse-to-widow conversion case, or a case in which a widow was entitled to SMI as a retirement spouse IPI.

If HI clearance is received in such a case before an initial survivor annuity is awarded, SMI premiums should be deducted from the SMI effective date or the SMI paid through date, if shown. HI clearance and the SMI paid through date are shown on the MIRF or on a referral marked "RRB Jurisdiction". Do not deduct SMI premiums until clearance has been received, unless jurisdiction was transferred from SSA on SSA-1233RR as shown in item B.

If a widow files for a non-disability annuity and Medicare based on disability (on AA-17b), pay the annuity with "No SMIB This Cert" and control. After the case is returned, prepare Form G-325 as shown in RCM Part 11 and send the case to DB. See RCM sec. 3.2 for handling a case in which the annuity is denied.

B. **Form SSA-1233RR** - Form SSA-1233RR is used to indicate that activity code of survivor benefits and Medicare belongs to RRB. Always prepare a clearance G-810 transfer HI activity code from SSA to RRB. SMI premiums may be deducted before HI clearance is received if Form SSA-1233RR is received for a widow who was enrolled for SMI at SSA as the employee's spouse. If the widow was enrolled for SMI at SSA based on a wage record other than the employee's, HI clearance must be received before SMI deductions can be made.
C. **Spouse-to-Widow Conversion Cases** - When a widow's annuity, in a spouse-to-widow conversion case, is awarded less than eight months before the HI effective date, check to see if an HI record has been established. If not, and the widow is 64 years and seven months of age or older, prepare a G-810 activity code 12. If the widow is under 64 years and seven months of age, enter an "MPS" call-up for the first day of the month before the start of her IEP.

No action is necessary in a spouse-to-widow conversion in which an HI record was established under the spouse claim number. However, if the spouse annuity is suspended, prepare a G-811 activity code 60 as shown in RCM Chapter 3.14 before paying the widow's annuity and deduct premiums based on the SMI paid through date. A G-811 activity code 60 with the widow's the claim number symbol should also be prepared when awarding an initial survivor's annuity to a widow who was entitled to SMI as a retirement spouse IPI. Deduct SMI premiums beginning with the month following the SMI paid through date.

D. **Denials** - When denying an application, if the applicant is at least 64 years and 9 months old but is not a QRRB, be sure to transfer HI data to SSA as shown in RCM 3.5, Exhibit 2.

**A3. Disability Applications**

Occasionally, a non-disabled annuitant, i.e., young mother or reduced employee, may file an application for Medicare based on disability. Frequently, DB may rate the person disabled retroactively. If the person eligible or will be eligible within five months, prepare a g-810 activity code 12 (see section 3.2 for determining effective dates). This type of case will not be screened mechanically, therefore, failure to prepare the G-810 may affect the person's coverage.

When awarding a survivor annuity to a disabled child who was enrolled for SMI as a retirement IPI, prepare a G-811 activity code 60. Show "WC" in item 1 and 14 in item 4. This will change the MIRTEL record to agree with the new CHICO record and will initiate deductions from the paid through date.

**A4. Dual Enrollments, Entitlement Under Two RRB Numbers, Multiple Beneficiaries Under One Claim Number**

Send to MPS cases in which the beneficiary claims to be enrolled for SMI by both SSA and RRB. However, there is no need to refer to MPS cases in which SMI jurisdiction was transferred from SSA to RRB and Medicare information is shown on Form G-90. That is not an indication of dual SMI deductions.

If the beneficiary claims annuity entitlement under two different RRB numbers, obtain both folders and determine whether an HI record has been established under either claim number. If no HI record has been previously established, prepare a clearance G-810 for the primary claim number (A or JA) and enter code 9 into the benefit payment record for the secondary claim number (MA or WA), as shown in RCM sec. 3.5.6. If a
HI record has been previously established under both claim numbers, send the folders to MPS.

If the HI record of more than one beneficiary must be established under the same claim number and symbol, send the case to MPS for the assignment of a pseudo number.

A5. Preparation Of Form G-810

Before preparing any G-810, check the MIRF. If a record is on the MIRF do not release a G-810. A G-810 may be prepared in an age case when the beneficiary is 64 years and 7 months of age or older. A G-810 may be prepared in a disability case five months prior to the HI effective date (see sec. 3.2 for determining effective dates).

If a beneficiary is entitled to automatic enrollment (a U.S. resident is entitled to monthly benefits or filed for such benefits in his IEP, as shown in sec.3.4.50) and an HI record will not be established mechanically (see RCM Chapter 3.3, G-810 Instructions), prepare Form G-810 with code 1 (first enrollment) in item 12, the SMI effective date (based on the RRB application) in item 13, and the SMI premium rate in item 14. Do not deduct SMI premiums from the annuity award until HI clearance has been received except as shown in section A2, item B. Pay the annuity with "No SMI This Cert" shown on the award form. There usually is no need to control the file for further Medicare handling after the annuity is awarded. After clearance is received SMI premiums will be mechanically deducted from an annuity in pay status or MPS will receive a referral calling for manual deductions.

If the applicant files for SMI in a GEP, prepare a G-810 with an SMI effective date of 7-1 of the current year. Be sure to use the correct SMI premium rate for late enrollments.

If the application is filed outside an enrollment period or a "No" option is filed complete the G-810 without an SMI effective date and rate.

Note: If the SMI effective date is more than five months in the past, do not prepare a G-810. Control the file and forward to MPS after your action. Identify the case as "delayed enrollment" on the route slip.

A6. Reinstatements

Before reinstating an annuity, check the file and the MIRF to determine whether SMI premiums were deducted prior to suspension or paid direct for any period. If so, reinstate the premium deductions from the later of the month of suspension or the paid through date shown on the MIRF. When reinstating an annuity in a case in which HI clearance was received but SMI premiums were not previously deducted, begin deducting premiums from the SMI effective date.
A7. Recerts

If SMI premiums were not previously deducted but the MIRTEL file shows SMI entitlement, deduct SMI premiums from the recert award if the difference in the previous and current rates is at least $5.00 a month more than the current SMI premium rate. If the difference in rates is less than $5.00, suspend the annuity and reinstate it including the SMI premium deduction.

A8. Suspension

When a monthly benefit which had SMI deductions is suspended for return to LPS or RR employment include code paragraph 977 in the notification of suspense letter to the payee. This advises the beneficiary of the option of paying SMI premiums quarterly or being billed at the end of the year.

A9. Terminations

A. Retirement - When a spouse who was entitled to HI coverage on her husband's earnings record is divorced, her HI jurisdiction of suspense letter to the payee. This advises the beneficiary of the option of paying SMI premiums quarterly or being billed at the end of the year.

A9. Terminations

A. Retirement - When a spouse who was entitled to HI coverage on her husband's earnings record is divorced, her HI jurisdiction must be transferred to SSA unless she is entitled to a railroad retirement annuity on another earnings record. Prepare Form RR-80 (see RCM Chapter 3.5, Appendix A), Code Letter 852, and a G-811 activity code 52 to terminate the HI record. If a divorced spouse is entitled to an annuity on another earnings record, send the case to MPS for handling.

If a spouse who has HI entitlement but is not receiving an annuity (an AA-103 enrollee or IPI) is divorced or a disabled child IPI marries, prepare a G-811 activity code 52 to terminate the HI record, Code Letter 854, and Form RR-80.

B. Survivors - If a deceased employee had HI entitlement (based on an AA-101) but was not receiving an annuity before his death, terminate his HI record by preparing Form G-811 activity code 50.

When terminating the annuity of a remarried widow, a disabled child who married, or a spouse whose deceased husband was not insured for the payment of survivor benefits at RRB, prepare Form RR-80, Code Letter 852, and a G-811 activity code 52 to terminate the HI record. If a beneficiary whose entitlement on one earnings record is terminated, is entitled to an annuity on another earnings record, send the case to MPS.
3.5.1 General

The term "jurisdiction" is used in the Medicare program to indicate whether RRB or SSA is responsible for enrolling a person, issuing his/her Medicare card and collecting Part B premiums. Agreements between SSA and RRB have divided the responsibility. RRB is solely responsible for payment of Medicare benefits to qualified railroad retirement beneficiaries (QRRB's) residing in Canada.

3.5.2 Jurisdiction When Hi Record Established

RRB has jurisdiction of the Medicare of all QRRB's, see 3.2.9. Also under the 1974 Railroad Retirement Act, RRB assumes Medicare jurisdiction for all individuals whose SS benefits are paid by RRB, including those who do not meet the definition of a QRRB. All individuals who receive SS benefits from RRB are also QRRB's for Medicare purposes. However, since the categories of beneficiaries whose SS payments are under RRB jurisdiction include other than QRRB's, these individuals are "deemed" to be QRRB's for Medicare, see 3.2.12.

A Medicare record will not be established until a QRRB or a "deemed" QRRB files a railroad retirement or social security application. If SSA has jurisdiction when a Medicare record is initially established, that agency will continue to have jurisdiction until the QRRB files a railroad retirement application or an inquiry is received and jurisdiction clearance is requested by RRB. At that time, the Medicare jurisdiction is automatically transferred to RRB.

If the individual does not meet the definition of a QRRB and SS benefits are not payable at RRB, RRB does not have jurisdiction. However, once the Medicare is established at RRB, jurisdiction will not change as long as the person is a QRRB or SS benefits are payable at RRB.

EXAMPLE: SSA has jurisdiction over the Medicare of an employee with less than 120 months of service or less than 60 months of service after 1995 (except commuted value cases as shown in 3.2.164), a survivor whose annuity rate is zero and no other entitled at RRB, the disabled child of an employee who is under age 62 and not under a DF, or a survivor who elected a RLS.

3.5.10 Transfer From SSA To RRB

Medicare jurisdiction will ordinarily be transferred from SSA to RRB mechanically when:

A. A QRRB who filed for and was entitled to Medicare coverage at SSA, files for and becomes entitled to an annuity or files a Medicare application at RRB.

B. A spouse beneficiary receiving a LAF C DIB benefit and Medicare coverage at SSA attains age 65.
C. An annuitant who had Medicare coverage at SSA based on one DOB, attains age 65 based on a later DOB established at RRB.

D. An ESRD beneficiary at SSA becomes entitled to a LAF E SS benefit or qualifies for Medicare at RRB based on age or regular disability.

3.5.11 Mechanical Transfer When Clearance Requested

Jurisdiction is automatically transferred, as shown in 3.4.10, when clearance requests from RRB are processed against the Master Benefit Record (MBR) at SSA in Baltimore. Clearance requests are generated by the Monthly Attainment Program (MAP), the Survivor Electronic Attainments (SURVEA), the Disability Attainment Selection for RR (DIB Attainment Selection, the SS Attainment Selection (SSATA), Retirement Adjudication System Initial (RASI) processed applications, Post Adjudication Mechanical (PAM) transactions, survivor application put on Application Express (APPLE) and manual handling. Normally, the process will pick up the most advantageous dates from SSA and RRB will establish the Enrollment Database (EDB) record. If the SSA benefit is certified by RRB, RRB has to consider the SSA effective dates before screening.

3.5.12 Request For Transfer

If SSA, an annuitant, or an IPI requests the transfer of Medicare jurisdiction to RRB, the case should be routed to MS for handling.

MS will check MOLI and will take the following action, depending on the status of the case:

- If clearance has been received, MS will notify the annuitant or the IPI of that fact.
- If a QRRB and a MEDCOR Activity 12L was not created, MS will create the MEDCOR activity. If the beneficiary is not a QRRB, he/she will be told Medicare stays at SSA.
- If MOLI indicates that jurisdiction is pending (record status of 01, 02, 03, 04, or 05 or screening request code A, B, or D), MS will secure MBR's on all possible account numbers that the beneficiary may be entitled on. Using the information on the MBR, the on-line State buy-in master (SPACE), the on-line SSA direct bill master (SOBER) and phone calls to the appropriate SSA program service center (PSC), the MS specialist will finalize the screening.

3.5.13 SMI Premium Collections

After the transfer of jurisdiction from SSA to RRB, if the beneficiary elected Part B, the deduction of Part B premiums or the premium billing operation is initiated mechanically in most cases. If there is an arrearage, MS will set up PARS in accordance with 3.12.
3.5.20 Transfer From RRB To SSA

Medicare jurisdiction must be transferred from RRB to SSA if:

A. A non-disabled applicant is at least 64 years and 9 months old but is not a QRRB or "deemed" QRRB;

B. An annuitant, IPI, or AA-7 enrollee who is not a "deemed" QRRB loses QRRB status (included are cases in which the employee dies and SSA has jurisdiction of survivor benefits, a spouse is divorced, a widow remarries, or a disabled child marries);

C. A "deemed" QRRB is no longer entitled to SSA benefits; or

D. A "deemed" QRRB is no longer entitled or potentially entitled to a railroad retirement annuity (a widow remarries before age 50).

Cases in which a non-disabled applicant is younger than 64 years and 9 months old and is not a QRRB should not be transferred to SSA. Deny such a case and inform the applicant to apply for Medicare at SSA 3 months before the attainment of age 65. Also if a disabled adult child marries and is not 65 and is not receiving SS benefits, Medicare entitlement should be terminated. Route the case to MS so they can put termination information on EDB.

Be sure to create MEDCOR Activity 52S to terminate the MIRTEL record in any case in which a beneficiary loses QRRB or "deemed" QRRB status. Also an RR-3T or an RR-80 is prepared in every case in which the Medicare jurisdiction is being transferred to SSA. Normally, to transfer the Medicare, the survivor examiners prepares an RR-3T, the retirement examiners prepare a RR-80 and if necessary the Medicare examiner would prepare an RR-80. If an RR-3T or an RR-80 is not prepared or the preparation is delayed, the beneficiary can lose his Medicare coverage. The beneficiary should be notified, and Appeal rights should be given if annuity entitlement or Medicare entitlement is terminated.

When MS receives the RR-3T or RR-80, the Medicare examiner cross refers the EDB’s using CMS’s BERT system. MS will then pend the case to be sure SSA starts premium deductions.

3.5.21 Transfer Of Medicare Or Annuity Application

If an application is put on the system, close out and deny the application as shown in 3.2.170. When an AA-6 or AA-7 is denied and transferred, be sure to have the delayed claim card pulled. Refer to the Exhibit titled "RR-80-RRB Report of Health Insurance Information SSA Jurisdiction", at the end of this chapter.

A. Retirement Case - If an employee’s application is being denied because he has less than 120 months of service or less than 60 months of service after 1995,
make certain that lag, military service (M/S) and prior service (P/S) have been developed. If M/S or P/S has been claimed but not developed, send the case to the appropriate retirement examiner. Be sure to include any Part B election with material being transferred. If Medicare was erroneously set up, send the material to MS to ensure EDB record is cross referenced or terminated.

B. **Survivor Case** - If SSA has jurisdiction for the payment of benefits in a survivor case, Form RR-3T is sent to MS separately from the regular transfer packet.

C. **PURE SSA CASES** - If SS benefits were payable at RRB, send the case to CBS OR SPS.

### 3.5.22 Spouse Or Survivor Entitlement Terminates For A Reason Other Than Death

A spouse's status as a QRRB on her husband's wage record terminates when her husband dies, if he is not insured under the RR Act, and may terminate when she is divorced. A widow's QRRB status on her husband's wage record terminates when she remarries and a child's QRRB status terminates when he marries. Divorced spouses and remarried widows entitlement terminates if they become entitled to a RIB that is greater than the statutory share of the employee's PIA. Annuitants or IPI's do not lose QRRB status when their annuities are suspended or they are removed from the O/M because of excess earnings, etc.

**NOTE:** In certain cases in which an SS benefit is payable at RRB, SS benefits will continue to be payable and RRB will continue to have Medicare jurisdiction after a spouse is divorced or a disabled child or widow marries. Refer any case in which an SS benefit is being paid by RRB to the appropriate payment examiner for handling.

A. **Beneficiary Has QRRB Status On Another Wage Record** - A spouse who is entitled to an annuity on her own wage record or a remarried widow who marries another railroad employee continues to be a QRRB. In such a case, transfer the Medicare record from one RRB number to the other. Refer to Section B of Exhibit titled “Correcting HI Record When an Annuity Terminates for a Reason Other Than Death”, at the end of this chapter.

B. **Beneficiary Loses QRRB Status** - When a beneficiary loses status as a QRRB, transfer jurisdiction to SSA. Assemble the material with the Form RR-80 on top. Refer to Section A of Exhibit titled “Correcting HI Record When an Annuity Terminates for a Reason Other Than Death” and Exhibit titled “RR-80-RRB Report of Health Insurance Information SSA Jurisdiction”, at the end of this chapter.

If an in-force or suspended annuity is terminated, create a MEDCOR Activity 52S in addition to pressing PF-7 key to terminate the record on FAST. The MEDCOR Activity 52S will deactivate the MIRTEL record or change the record status to 98.
A Monthly Referral marked "Termination-Check Jurisdiction" will be issued after an annuity in current payment status is terminated with codes 44, 57, 59, or 61 if the MEDCOR Activity 52S is not created.

If an IPI or an AA-7 enrollee loses QRRB status (e.g., a spouse married less than 10 years is divorced), transfer jurisdiction to SSA using Form RR-80. Deactivate the MIRTEL record by creating a MEDCOR Activity 52S. Refer to Exhibit titled “RR-80 RRB Report of Health Insurance Information SSA Jurisdiction” at the end of this chapter, on instruction as to how to transfer Medicare jurisdiction - RRB to SSA

3.5.30 Correcting HI Record When Beneficiary Enrolled By Both Agencies

Cases arise in which both RRB and SSA have assumed Medicare jurisdiction for the same individual, despite the fact that jurisdiction should be with RRB.

These dual enrollments occur for various reasons, the wrong SS account number is on the records of either agency; the individual's entitlement at SSA is based on an account number other than her own or her spouse's account number; clearance is received at RRB just prior to the time that SSA updates its records with new benefit entitlement data; or the MBR does not have a start date in the RRB JURIS field.

Some of the indications of dual enrollments are as follows:

- A letter is received from the beneficiary alleging dual enrollment.
- Form G-44, was released to the beneficiary as a part of RRB's enrollment process. The form is returned with an indication that he/she was already signed up for Medicare at SSA.
- A notification is received from SSA indicating SSA Medicare enrollment.
- Unrounded MBC (gross SS rate) shown on the RR-la, RR-le or MOR.
- Cost of living listings

MS will handle these cases as shown in 3.5.31 and 3.5.32.

3.5.31 Initial Handling

A. Referral From CMS - When SSA or RRB enrolls a beneficiary for Medicare, CMS receives a transaction to accrete the record. The EDB takes the transaction and compares it to the EDB records. If the last name, first initial or first name and date of birth are the same as another record, or the SSA claim number is a cross reference on a RRB claim number, or the beneficiary's own account number (BOAN) is a BOAN on another EDB record, CMS receives an alert.
CMS reviews these alerts and for cases with railroad retirement involvement that they cannot handle are referred to RRB. MS handles these cases by taking the following steps.

1. Checks BERT to see if there are two records.

2. If there are two EDB records, are they for the same person? If not, mark the referral "NAN File Only", initial and date.

3. If both EDB records are for the same person, get a MBR on the SSA claim number, and a MOLI (‘GD’ and ‘SC’) print (get two sets of MOLI prints if both EDB numbers are RRB numbers).

4. If the beneficiary is receiving a LAF `C' SS benefit, check DATA-Q to see if RRA benefits are offset for social security.
   a. If RR annuity is enforce or in suspense and the "SS ENT" field is not "YES" or SS payments are enforce with the same SSA claim number and suffix, notify CBS if a retirement case or SAPT if a survivor case.
   b. If RR survivor annuity enforce and SS benefit is LAF `C' or LAF `E' is based on the employees SSA number, notify SAPT.

5. If the beneficiary is still a QRRB, take action to correct the MBR to show RRB has Medicare jurisdiction and consolidate EDB records.

B. Other Notice Of Dual Enrollment

Check EDB, MOLI and SSA's MBR as in section ‘A' above. However, if notice is from a RRB field office or an adjudicative unit, DATA-Q does not need to be checked.

If SSA's MBR shows that SSA has jurisdiction of the Medicare, handle as shown in 3.5.32.

3.5.32 Rescreening

When an F-2 referral or other material reflects that SSA's MBR does not indicate that RRB has jurisdiction of the individual's Medicare, MS will create a MEDCOR Activity 21S, or if any part of the MIRTEL record must be changed, a MEDCOR Activity 21L should be created. The MEDCOR Activity 21 is used only if there is a MIRTEL record. If there is no MIRTEL record, a MEDCOR Activity 12L should be created.

A. When The Screening Reply Is Received - MIRTEL will be mechanically updated if there is no evidence of current or prior premium collection.
If premiums are or had been collected, the case will be referred out for manual handling of the dually collected premiums. MS will refund any excess premiums via the Medicare Payment System (MPS) or create a MEDCOR Activity 20L to advance the paid through date. The paid through date should only be advanced to six months in the future, any other excess premiums should be refunded. Also, paid through date cannot be updated past December of the current year, unless it is after October when the new rate for the next year are put in the system. If there is any overpayment to the annuity because of SSA entitlement, the refund should be offered to DRD to be used to lower the overpayment.

B. Handling Cases With LAF `E' Code and E-Y Option for HOC and SOC - These specific records are pending because RRB is certified to pay the SS benefits and incorrect entries were made on the MBR. The MBR should be coded with an LAF `E' Code and RR Juris indicator that RRB has jurisdiction of the individual’s Medicare. But in these cases, the MBR was coded with a LAF `E' Code and reflects that SSA has jurisdiction of the individual’s Medicare. MS may receive the file for one or more of the following reasons:

- Referral - Unable to process activity-screening reply outstanding
- Referral - Folder Notice - Screening reply pending for 30 days - Tracer sent
- ALERT - Screening reject received-MIRTEL still pending
- CMS Exceptions
- Complaints about dual deductions or dual payments

Action: Check the MBR. If the MBR reveals there is a LAF `E' Code and SSA is deducting the Part B premium, refer the case to P&S – PAS, Attention Sharon Morris.

3.5.40 Change in SMI Elections

A change of election can be made on any RRB or SSA form or in a letter. The request for change of election must be properly signed by each beneficiary involved.

A. When an Election Can Be Changed to "Yes" - A beneficiary can change a Part B election to "Yes" during any period in which he/she would be eligible to enroll. This includes the seven months of his/her initial enrollment period (IEP), the three months of any general enrollment period (GEP) in which he/she could enroll or under a special enrollment period (SEP provision, enroll while still covered by an EGHP or during an eight month period beginning with the first day of the first month in which the individual is no longer enrolled in an employer group health plan (EGHP).
NOTE: If a SEP and GEP overlap, the individual who enrolls in January, February or March, can elect to have the GEP enrollment, rather than the SEP enrollment. If an individual chooses a GEP enrollment, a specific statement claiming premium surcharge should be secured so the months of EGHP coverage can be eliminated when the premium increase is calculated. An IEP and SEP cannot overlap; if the individual is in an IEP, SEP rules cannot apply.

B. When a "Yes" Election Can Be Withdrawn or Canceled - A beneficiary may cancel an application for Part B made during his IEP by filing a request for withdrawal or cancellation during the first 3 months of his IEP. A beneficiary may cancel an application for Part B enrollment when the enrollment was delayed, as shown in 3.4.33, the beneficiary has two months after the notice of enrollment is received to file a refusal of Part B. Use the screening request and screening reply dates to determine approximately when the Medicare card was released.

If an application for Part B is withdrawn or canceled, it is as if no application has been filed. Part B coverage is not effective for any period and no Part B premiums are due.

Handle the timely cancellation of a Part B application according to 3.5.41 and 3.5.42. A refusal of automatic Part B enrollment which is received before the Part B effective date, is handled in a similar manner, as shown in 3.4.34.

C. When a Change in Election is Treated as a Voluntary Termination - A request for withdrawal or cancellation of a Part B application, filed during the fourth through the seventh month of an IEP, outside an enrollment period, or more than 2 months after a notice of Part B enrollment is received, is treated as a voluntary termination. The beneficiary is, therefore, charged with a termination, his Part B coverage does not end until the last day of the month following the month in which the request for cancellation is received, and he is liable for the payment of Part B premiums for the period of coverage.

D. Termination after State Buy-In Deletion - See 3.2.107

3.5.41 Changing Election - Application Pending On Computer

When the election was made on Forms AA-1, AA-3, AA-6 or AA-7, and the application is pending on the computer, the method of processing the IEP election change depends on the status of clearance (screening request).

If screening reply or clearance has not yet been received, check MBR and create a MEDCOR Activity 32 with the appropriate information. If the information on the MIRTEL record is not changing, use the short version. If the information on the MIRTEL record is changing, use the long version. If there is Part B entitlement on the MIRTEL record, after the Activity 32 has processed, create a MEDCOR Activity 25S.

If clearance has been received, create a MEDCOR Activity 25S.
The status of Medicare clearance is indicated on the MOLI `SC' screen and in the record status on screen `GD'.

**3.5.42 Changing Elections In Other Cases**

Apply the following procedures when an effective IEP change of election is received in a case in which an annuity is in force or in suspense, a Form AA-6 or a Form AA-7 has been certified on the computer, and in any other case not covered in the preceding section.

A. **Election Is Changed to "Yes"** - Create a MEDCOR Activity 25S with a “1” in the EVENT CODE field and the date of filing entered in the EVENT DATE field. With this Activity 25, the date of filing has to be a month in the IEP.

   If it is a good cause (equitable relief case), create a MEDCOR Activity 25S with a “1” in the EVENT CODE field and enter the Part B effective date in the EVENT DATE field.

B. **Election Is Changed From "Yes" to "No" in Time to Prevent Premium Deductions** - An annuity is set up for mechanical adjustment on the cut-off date in the month before the month in which Part B is effective (generally, the 3rd month of the IEP). The MEDCOR Activity must be created and processed before or in the Last MIRTEL Run of the month before the Part B effective date. A change in election processed before that date will prevent premium deductions. Create a MEDCOR Activity 25S with a “2” entered in the EVENT CODE field and the date of filing entered in the EVENT DATE field to change the MIRTEL/MOLI and the EDB. The date of filing must be one of the first three months of an individual's IEP.

   In a bill-direct case, check MOLI to determine the premium status. If no premiums have been paid, create the MEDCOR Activity 25S.

C. **Timely Refusal Not Processed Timely** - Although the change of election may have been filed in time to withdraw or cancel Part B, it may not be processed in time to prevent crediting of a cash premium or the deduction of a premium from the annuity.

   If a Part B withdrawal, in a case in which an annuity is in pay status, is processed after the cut-off date in the month before the month in which Part B is effective (generally the 3rd month of the IEP) assume that the annuity has been set up for mechanical adjustment. If the MEDCOR Activity is processed in or later than the First MIRTEL Run of the month before the Part B effect date, deductions are likely to start. A change in election processed before that date can be recorded in and handle as follows:

   1. Create the MEDCOR Activity 25S with a “2” entered in the EVENT CODE field and the date of filing entered in the EVENT DATE field. The date of filing must be one of the first three months of the individual’s IEP.
2. Refer the case to the retirement or survivor examiner to stop premium deductions.

3. Refund the erroneously deducted premium, via the Medicare Payment System (MPS). Show the following reason for the refund:

"You notified us that you did not want medical insurance protection."

In a bill-direct case in which premiums have been collected, create the MEDCOR Activity 25S and refund the erroneously collected premiums via SURPASS.

### 3.5.43 Voluntary Termination

A. **Enrollee Contacts RRB Field Office** - When the enrollee contacts the field, the contact representative will secure a signed statement from the enrollee. When the field has the signed statement in their hands, they will send an e-mail to MS so the termination request can be processed and forward a signed statement to confirm the call. MS should handle as follows:

- When the e-mail is received, create MEDCOR Activity 23S, enter a “3” in the EVENT CODE field and enter the date of filing in the EVENT DATE field and release RL-336 to enrollee as notification that we have acted on his request. This also notifies him of the effect termination will have on future coverage.

- Control for signed termination request from the field.

B. **Enrollee Contacts Headquarters Directly** - If the enrollee sends a signed statement to headquarters clearly requesting a withdrawal from Medicare Part B. Create MEDCOR Activity 23S, enter a “3” in the EVENT CODE field and enter the date of filing in the EVENT DATE field and release RL-336.

If an ambiguous request is received, call the appropriate field office so that they can clarify the request.

### 3.5.44 "Yes" Election Outside Enrollment Period

If a "yes" election if filed outside of an enrollment period, deny the deletion with Form RL-394.

### 3.5.45 Acknowledging Effective Changes Of Election

Ordinarily, it will not be necessary to acknowledge effective requests for changes of election, since they are usually made through the field. However, if the individual requests acknowledgement, or it would be desirable to acknowledge the change of election for any other reason, release Form RL-331.
3.5.46 Effective Date Of Voluntary Termination

A. Request Filed After April 1, 1968 and Before July 1, 1987 -
   Part B coverage terminated the last day of the calendar quarter after the calendar quarter in which the request was filed.

B. Request Filed After June 30, 1987
   Part B coverage terminates as of the end of the calendar month after the calendar month in which the request is filed.

3.5.50 Establishment Of Dual HI Records

Every month the Research and CHICO files are used to select RR annuitants or SS beneficiaries who will be eligible for Medicare in the sixth succeeding month. A MIRTEL record is established and screening records are prepared for each SSA number that is available for the beneficiary (the employee's number, beneficiary's own SS number, and/or a SS claim number). The screening records are sorted to SSA number sequence before they are sent to SSA in Baltimore. A listing will be prepared whenever there is more than one screening record per SSA number and the RRB claim numbers differ. The screening request is still sent to SSA and the MIRTEL record is not changed.

The listing is forwarded to MS. Employees will be identified by a `10' preceding their name. Spouses will be identified by a `14' and widows will be identified by a `16'. It will be MS responsibility to ensure that:

- Only one enrollment package (G-41) or identification card (G-43) is released.
- The MIRTEL record (spouse or widow) is annotated with a dual annuitant indication (Part B Option of 9). This will prevent dual premium deductions.
- The EDB records are consolidated.
- Determine if the employee's annuity or social security benefit is large enough to sustain the monthly premium deduction. If it can, the beneficiary should be enrolled for Medicare on the employee claim number. If the employee's annuity is too small to sustain the deduction, the beneficiary's Medicare record should be established under the spouse's or widow's claim number.

A beneficiary should be enrolled for Medicare under only one record. However, in some cases, a beneficiary who is entitled to annuities under two RRB claim number may have records established under both claim numbers if:

- Form G-44 is returned with a "YES" option and the beneficiary does not state that he/she was previously enrolled for Medicare under another RRB claim number.
An employee files Form AA-1 and a record is established under the retirement claim number. In later months this same employee files Form AA-3 for a spouse annuity. A second record is set up under the spouse’s claim number 'MA'.

3.5.51 General Handling Of Dual HI Cases

If clearance has been requested (a clearance or MEDCOR Activity 12L was created or clearance was done mechanically) under either claim number in a dual case, the payment examiner should send both folders to MS, after any necessary vouchering action has been completed. MS will handle the case as shown in 3.5.51B and 3.5.52.

If clearance was not previously requested under either claim number, the payment examiner should handle the dual case as shown in item A, below.

The cost of living process generates a listing of dual annuitants where there is not Part B option code on the CHICO record. MS takes action to put a Part B option of 9 on the CHICO record.

A. Medicare Clearance Not Requested Under Either RRB Claim Number - A payment examiner should request clearance under the primary claim number (A or JA) by creating a MEDCOR Activity 12L and enter a 9 in the Part B Option Code field for the secondary claim number (MA or WA) or by entering code 9 in the Part B option box on the award form being prepared or, if the annuity is in pay status, by preparing and submitting Form G-607. Prepare the Form G-607 in accordance with regular name change instructions but enter code 8 in col. 14 and 9SMIB in cols. 16-20. See 9.4, G-607 instructions. If the payment examiner does not take this action, the material should be referred to MS.

B. Medicare Clearance Previously Requested - If clearance has been requested but MOLI shows that clearance is pending, MS will pend the case until the screening reply is received. When the reply is received MS will determine if a record has been established on one or both numbers. If records have been established on both numbers, MS will handle in accordance with 3.5.52.

If a record has been established on only one number, MS will create a MEDCOR Activity 25S, enter a “9” in the EVENT CODE field and enter the current date in the EVENT DATE field, to enter a 9 Part B option code on the MIRTEL record of the other number and also enter a 9 in the CHICO record using Form G-607.

3.5.52 Consolidation Of Established Dual HI Records

A. General - When the Medicare EDB records have been set up under both RRB claim numbers, determine under which claim number to consolidate the records as follows:

1. If Part B premium deductions have not been made under either RRB claim numbers.
• Consolidate the Medicare records under the primary claim number by creating a MEDCOR Activity 34S, enter the secondary RRB claim number in the FORMER RR CL NO field. Primary claim number is the employee number, prefix "A".

2. If Part B premium deductions have been started under the primary claim number (A or JA).
   • Consolidate the Medicare records under that number.

3. If Part B premium deductions have been started under the secondary claim number (MA or WA) and not under the primary claim number (A or JA).
   • Consolidate the Medicare records under the secondary claim number.
   • Changing the Medicare number after it has once been established would cause confusion.

B. Consolidation - Check MOLI in each case to determine whether there is a record under either or both RRB claim numbers. Determine under which claim number to consolidate the Medicare records. Consolidate the records as follows:

1. For the Claim Number Under Which the Medicare Record Is Being Consolidated
   a. If there is a record under that claim number, create a MEDCOR Activity 34S, enter the secondary RRB claim number in the FORMER RR CL NO field.
   b. If there is no record under that claim number, create a MEDCOR Activity 31L, enter the secondary RRB claim number in the FORMER RR CL NO field.

2. For the Claim Number From Which the Medicare Record Is Being Transferred
   • If there is a record under that claim number, create a MEDCOR Activity 25S, enter a “8” in the EVENT CODE field and enter the current date in the EVENT DATE field.
   • If Part B premium deductions are not being made, prepare Form G-607 as shown in 3.5.51.
   • If Part B premium deductions are being made, suspend the annuity on FAST-suspension/termination on DATA-Q by pressing PF-7 key and completing the necessary items. Reinstall payments with a Part B
option code 9 on the award form and refund any excess premiums via the Medicare Payment System (MPS).

3.5.53 Notice To Annuitant

MS will notify the annuitant that records have been consolidated and that the Medicare card under the RRB number from which the Medicare record was transferred should be destroyed. Prepare a letter to be released to the beneficiary. Select the paragraphs according to the type of correction made and whether or not an annuity adjustment and refund will be made:

1. Your health insurance coverage has been consolidated under _________.
2. Premium deductions will (not) (no longer) (continue to) be made under ______.
3. We will adjust your annuity payments under ________ and you will receive a refund for premiums deducted under that number as soon as possible.
4. If you are holding a health insurance card under ________ it should be destroyed.

Release the letter to the beneficiary and make any necessary annuity adjustment or refund.

3.5.54 Making Adjustments And Refunds.

When dual deductions of Part B premiums have been made under both RRB claim numbers, adjust payments and refund premiums due under the RRB claim number no longer having jurisdiction of Part B. Use a Part B option code 9 on the award form to indicate "dual annuitant". This will prevent solicitation in the future GEP's.

Make premium refunds via the Medicare Payment System (MPS). This will take care of the refund and the transfer of funds from the Part B account. When a refund is not being made (e.g., the premiums are used to offset an overpayment), the examiner will notify the premium collection clerk by memorandum (original only) of the amount of premiums to be transferred from the Part B account to the RR account. Show the period that the premiums covered. When transferring premiums by memorandum, send the folder and memorandum to the premium collection group for their action.

3.5.55 Request For Address And Name Changes

A. ADDRESS CHANGES - A request that is received for a change of address must be signed by the annuitant/applicant. In representative payee cases, the change of address request must be signed by the representative payee, and not by the annuitant/applicant. Upon receipt of an address change request, take the following action:
1. If a Medicare only beneficiary, create a MEDCOR Activity 22L to change the beneficiary's address on MIRTEL/MOLI and the EDB.

2. If annuity payable, enter the address change via FAST-COA to update the CHICO/DATAQ.

3. Prepare Form RL-476 to advise the beneficiary that action has been taken to change the address of his/her record.

B. NAME CHANGES - Documentary evidence in support of a name change is not required when the name change is based on court action. In such a case, the field office examination of the document submitted is sufficient. Take the following action when a request for a name change correction (incorrect spelling) is received:

Create a MEDCOR Activity 22L to update MIRTEL/MOLI and the EDB with the correct name. Also, be sure to enter a “2” in the ID ISSUE CODE field to release a new Medicare identification card.

After your action has been completed to change the beneficiary's name, attach a Form G-26 to the material and route to PSD.

Exhibits

Exhibit 1 - Correcting HI Record- Annuitant Terminates for Other than Death

When an annuity in current or suspended payment status is terminated for any of the reasons listed below, separate actions are necessary to correct the beneficiary's HI record.

G-96 Cause

<table>
<thead>
<tr>
<th>Code</th>
<th>Reason</th>
</tr>
</thead>
<tbody>
<tr>
<td>44</td>
<td>Beneficiary remarried</td>
</tr>
<tr>
<td>57</td>
<td>Spouse divorced</td>
</tr>
<tr>
<td>59</td>
<td>Annuitant or pensioner's benefit terminated</td>
</tr>
<tr>
<td>61</td>
<td>Cancellation of application</td>
</tr>
</tbody>
</table>

The HB or adjudication examiner in the section holding the folder should take the actions described below when an annuitant loses status as a QRRB. Cases in which the annuitant does not lose status as a QRRB should be sent to HB for handling. A referral
marked "Termination - Check Jurisdiction," is issued in these cases. However, do not wait for the referral to take the necessary action.

A. **Annuitant Loses Status as QRRB** - Jurisdiction will be transferred to SSA. Take the following action:

1. Prepare Form RR-80 with section B completed. Enter in item 14 the month and year in which the last check was issued and not returned for cancellation.

2. Release code letter 852 to the beneficiary to notify him of the transfer. Prepare a copy of the letter for SSA and attach it to the Form RR-80.

3. In addition to the termination Form G-96, prepare Form G-811 activity code 52 to deactivate the MIRTEL record and to alert SSA of the impending transfer.

4. If a not due check, from which a premium was deducted, has been cancelled, the examiner terminating the annuity will address a handwritten memo to the premium collection group in HB requesting a transfer of funds from the SMI account to the RRB account. Send the memo and the folder to the premium collection group so the transfer schedule number and date can be noted in the folder.

5. If a not due check, from which a SMI premium was deducted, is not cancelled, do not transfer funds from the SMI account to the RRB account. Instead, include the amount of the SMI premium in the annuity overpayment.

B. **Annuitant Does Not Lose Status as QRRB** - RRB retains jurisdiction if the annuitant does not lose his status as a QRRB. For example, RRB retains jurisdiction when a widow marries another RR employee and goes from a WA to MA. To transfer the annuitant's record from one RRB number to another, HB will take the following actions:

1. Prepare Form G-811, activity code 52 to deactivate the old RR number.

2. If there is an MIRTEL record under the new claim number, prepare Form G-810 or Form G-811, activity code 34.

3. If there is no MIRTEL record under the new claim number, prepare a activity code 33. This will establish a MIRTEL record under the new number and transfer utilization from the former RR number to the new RR number.

B. **Beneficiary Withdraws Annuity Application** - RRB will retain jurisdiction if he is a QRRB or a potential QRRB. If he is a QRRB, prepare a Form G-810, activity
code 20, to change the record status to bill direct (22) and enter a delinquency date.

If the beneficiary is not a potential QRRB, prepare a Form G-811, activity code 52, to deactivate the record and a Form RR-80 to transfer jurisdiction to SSA.

**Exhibit 2 - HI Jurisdiction Transfer - RRB to SSA**

RR-80-RRB Report of Health Insurance Information SSA Jurisdiction

Prepare original and one copy.

**Use**

Section A - Used to transfer Medicare data from RRB to SSA for persons not on the EDB under a RR claim number because they are non-QRRB's.

Section B - Used to transfer Medicare jurisdiction from RRB to SSA for persons on the EDB under a RR claim number who have ceased to be QRRB's.

**Completion**

Complete items 1 through 5 and item 17 regardless of which section will be completed; also complete items 6 through 8 if Section A is applicable, or items 9 through 15 if Section B is applicable.

<table>
<thead>
<tr>
<th>Item</th>
<th>Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter the beneficiary's RRB claim number.</td>
</tr>
<tr>
<td>2</td>
<td>Enter the beneficiary's Medicare claim number established on the RRB record. The symbol, if any, prefix and claim number must be shown to enable SSA to transfer any information on the EDB to the beneficiary's SSA claim number. If the beneficiary has been assigned a pseudo number, enter the pseudo number.</td>
</tr>
<tr>
<td>3</td>
<td>Enter the RR employee's SS account number.</td>
</tr>
<tr>
<td>4</td>
<td>Enter the SSA account number of the beneficiary for whom Medicare data or Medicare jurisdiction is being transferred. If none, enter &quot;NONE&quot;.</td>
</tr>
<tr>
<td>5</td>
<td>Enter the beneficiary's complete name and address. Enter the beneficiary's telephone number if it is available in the folder.</td>
</tr>
</tbody>
</table>

**Section A**
6. Enter the official filing date of the application. (If the application is an SS Medicare application, change "RRB" to "SSA.")

7. Enter the reason the beneficiary is not a QRRB, e.g., "Less than 120 months or less than 60 months after 1995", "Does not meet definition of spouse." If reason is long, enter "See Attachment" and attach an explanation.

8. Check box to indicate the Part B election shown on the application. If the application is an SS Medicare application, change "RRB" to "SSA".

**Section B**

9. Enter the effective date of Part A coverage.

10. Check the appropriate box and enter the date of the event that ended RRB Medicare jurisdiction. If the event was other than one of the printed reasons, describe the event.

11. Enter the effective date of the first Part B coverage period. Enter a termination date if the beneficiary's Part B coverage was terminated for non-payment of premiums or a voluntary cancellation of Part B coverage. The date in this item is not to be confused with the date jurisdiction ended, as shown in item 10.

12. Enter the effective date and termination date of the second Part B coverage period, if any.

13. Enter the premium rate for the last month the premium was paid (the month entered in item 14.)

14. Enter the last month and year for which the premiums were paid. Check the MOLI ‘GD' screen for this date. For spouse no survivor insured status cases, the premium paid through date will be the employee’s date of death unless SBI or bill direct involvement. If premiums were deducted from an annuity, determine the correct premium paid through date as follows:
   - If a "not due" payment has been cancelled, do **not** consider the premium paid for that month.
   - If a refund has been received or has been requested for the net amount of a "not due" payment after Part B deduction, do **not** consider the premium paid for that month.

15. Check the appropriate box to indicate the method of payment in use when QRRB status was terminated.

</tr>
</tbody>
</table>

Section C - For Field Office use only.

Section D - For SSA use only.

**Preparation Of Related Transfer Material**

Organize RR-80 with all related transfer materials which might expedite SSA's completion of the transfer action. Examples of materials which might be included are:

If Section A is Completed:

- The RRB or SSA Medicare application, or xerox copy if original must be retained.
- The annuity application, or xerox copy if original must be retained.
- Copy of denial letter when Section A is completed.

**Disposition**

No Transfer Of Credits Involved:

Attach any related transfer material to the RR-80. Letters on tissue paper should not be attached to the RR-80. Attach a good quality photocopy.

NOTE: DO NOT ATTACH ANY COPIES OF RR-80 TO G-73a

Transfer of Credits Involved:

Release G-73a with related transfer material to BIS. Release the RR-80 separately.

Examiners in larger units where central control areas are established should put the completed forms into the tray designated for RR-80's. These forms will be delivered daily to the MS. Personnel in other units may send the RR-80 to MS.

NOTE: DO NOT MAIL THE RR-80 TO CMS

MS will send all RR-80 forms to CMS through the facsimile process. This is done on a daily basis.
3.6.1 Scope Of Chapter

This chapter covers the various edit programs in MIRTEL and the HIM and the reject, alert and folder notices messages produced in these programs. Included are instructions for handling these referrals and other processing problems.

3.6.2 MIRTEL

The MIRTEL system has an elaborate system of edits to validate input, check the consistency of input to the existing record and verify the Medicare information on the CHICO file. All input both manual and mechanical is edited for completeness, validity and consistency of data in a series of edit programs.

3.6.3 OCR Scan Program

The program that scans the G-811 checks that entries have been made in items 3 and 4. Therefore the G-811 will reject if the scanner is unable to read the form or if either or both items 3 and 4 are blank.

3.6.4 G-811 Reformat Program

The scanned material is reformatted to change the data to the correct MIRTEL codes. The reformat program also checks that all entries are valid (numeric). Reject referrals from this program are self-explanatory. A new G-811 with correct entries must be prepared. The referral messages are listed in Exhibit 1.

3.6.5 Pre-Edit

All input is taken into the pre-edit program to check that data is valid (i.e., the codes are proper, the claim number and SSA numbers are established numbers, etc.); all mandatory fields are checked for entries (in addition to the general mandatory fields, each activity has its own set of required fields) and certain fields are checked against each other to assure that they are consistent. Activity that does not meet the edit criteria will be rejected. The messages on the reject referrals are self-explanatory. A corrected input must be prepared. The reject messages are listed in Exhibit 2.

In some cases certain data on the input may be questionable but does not prevent further processing. Alerts are produced in these cases. These alerts specify the questionable field(s). The field(s) should be verified. If the input was correct, no further action is necessary. If the input was erroneous, a correction must be prepared. These alert messages are listed in Exhibit 3.
3.6.6 Update Edits

Input can either establish or change an existing record. An activity designated to establish a record should not match an existing record and a change activity must match an existing record. The update program uses the following fields to match:

1. claim number (six or less digit number must also match on prefix)
2. pseudo number, if present
3. beneficiary symbol within certain tolerance, i.e., MA-WA, CA-WCA.

In addition, G-810 change activity (codes 20, 21, 22, 32 and 34 and all G-811 activity except 62, 98 and 99 must match on year of birth or if the year of birth is changing, the name must match.

Mechanical input, RASI and attainments, must match on criteria 1 and 3 listed above and the beneficiary's first name.

An activity to establish a record (codes 12, 13, 31 and 33) will reject if it matches an existing record. If an activity to establish a record makes a total match (same beneficiary) or partial match (same claim number symbol and pseudo number, if present) it will reject with the referral message "Activity To Establish Record Matched Existing MIRTEL." See Exhibit 2.

Mechanical input, RASI and attainments, although primarily designed to establish a record may match an existing record and act as a change activity. Therefore, this activity will not reject solely because it matches an existing record. It will, however, reject if it matches an existing record on claim number, prefix and symbol but not on name.

Once matched, all change activity is edited against the existing record to verify that the changes are acceptable for the activity and the record. For example, activity code 20 will reject if it is conveying an option change other than the changes that are acceptable for the activity and the record. For example, activity code 20 will reject if it is conveying an option change other than to or from SBI. Any option change option will reject if the record status in not changed to agree with the new option. The reject messages generated in the update are shown in Exhibit 2. Included in Exhibit 2 are referral messages generated in the update but not directly caused by an activity, i.e., a screening reply is still outstanding 30 days after the tracer request.

As in the pre-edit program, certain questionable change activity will process. However, an alert referral will be produced in these cases. These messages are shown in Exhibit 3.

Folder notices are produced as a record of action that has been taken. The messages for these notices are listed in Exhibit 5.
3.6.20 Rejects From The MBR

Screening records can reject because of conflicting information is SSA's MBR. The most common causes of these rejects are that the personal characteristics do not match, the SS benefit is terminated for a reason other than death or a SMI option of "P" prevents us from determining the paid through date. These rejects should be handled in accordance with current procedure.

3.6.21 Screening Replies

Screening replies from SSA are used to update MIRTEL. Generally, the most advantageous entitlement data from the reply or MIRTEL is retained in the updated record, i.e., a "yes" option is retained over a "no" option and the earliest HI-SMI effective dates. Occasionally the entitlement data from SSA conflicts with the data in MIRTEL and the reply cannot be processed mechanically. These cases will be referred out for manual handling and determination of correct entitlement information. These rejects will occur more frequently on rescreenings when jurisdiction cleared on the initial screening. Some reject messages are listed in Exhibit 3. These rejects are produced on regular yellow MIRTEL referral pages. Other rejects are produced on white computer paper and are listed in Appendix A. Determine the correct entitlement information and, if the record must be changed, prepare Form G-810 to correct the necessary data.

If the screening reply processes, a folder notice entitled "RRB Jurisdiction Reply Processed" will be produced as record of correct entitlement information.

3.6.30 Health Insurance Master (HIM)

All input to the HIM is edited in CMS's pre-edit and update programs. RRB input that is identified as an exception (reject) or an alert is returned to RRB. When this referral file is received at the Board, an 805 referral is produced.

Exceptions (rejects) occur when the error condition prevents processing of the transaction. When this occurs, a reject indicator is entered on the HIM Alerts are produced when the input has been accepted but contains a questionable condition which should be investigated. There is no indicator entered on the HIM when alerts are produced.

Three items are matched when input is sent to the HIM: sex, date of birth and name. An alert is produced when only two match. A reject is produced when one or non match. When all three match, the input is accepted.

3.6.31 Exception Format

All input to the HIM is edited in CMS's pre-edit and update programs. RRB input that is identified as an exception (reject) or an alert is returned to RRB. When this referral file is received at the Board, an 805 referral is produced.
Exceptions (rejects) occur when the error condition prevents processing of the transaction. When this occurs, a reject indicator is entered on the HIM. Alerts are produced when the input has been accepted but contains a questionable condition which should be investigated. There is no indicator entered on the HIM when alerts are produced.

Three items are matched when input is sent to the HIM: sex, date of birth and name. An alert is produced when only two match. A reject is produced when one or none match. When all three match, the input is accepted.

One of the following general captions and date the 805 is produced are printed at the top of the referral:

SSA-HIM Jurisdiction Reject
SSA-HIM Entitlement Transfer Reject
SSA-HIM Correction Reject

The next printed line contains the RRB claim number, date of birth, sex and name, followed by the date the activity was processed.

The last printed line contains the reason for the reject. See Appendix B for common exception codes and descriptions.

If "unable to determine the cause of the reject" is printed, check the exception code listing to determine why the referral was produced. See example 1 in Appendix C.

3.6.32 Resolving Exceptions

Prior to resolving any reject or alert condition, it will be necessary to first verify:

- The beneficiary's QRRB and Medicare status, and
- The Health Insurance Utilization Master and MIRTEL are consistent and contain the latest information.

In order for a correction to process, all three of the following must match: sex, date of birth and name.

In many cases the beneficiary is now deceased. However, a record correction is required. Some referrals are meaningless because corrective action had been taken or the condition was identified incorrectly. If one of the three matching criteria is being changed, an alert will always be produced but no action is necessary in these cases. See Appendix C for the types of conditions which result in these referrals.
3.6.40 Monthly MIRTEL

The MIRTEL monthly system validates the Medicare information on CHICO records any change in pay status or name and/or address, and adjusts the annuity to a start or stop SMI deductions or enters the SMI option if no adjustment is necessary. Any discrepancies between the two files are referred out for manual handling. The referral messages are explained in Exhibit 6.

Appendices

Appendix A - Master Benefit Record (MBR) Screening Rejects

Background

Screening records can reject because of conflicting information in SSA's MBR and what is being furnished by the RRB. The most common causes of these rejects are that the personal characteristics differ, the social security benefit is terminated for a reason other than death or a SMIB option "P" prevents determining a valid paid through date. Referrals are also printed when the MBR is coded with a SMIB option "P" and an "E" LAF code, or to acknowledge that jurisdiction has been transferred from SSA to RRB.

There should be a separate reply for each social security number screened. Each reply will show the reason for the reject or alert, or that no MBR is established for the social security number (NO RECORD OF BIC IN SSA FILE).

Referral Format

Each reject referral may have more than one reject cause identified. There will be one general caption printed on the top of the referral as well as the date the referral was printed. These captions will be:

- SSA HIM Jurisdiction Reject Referral
- Transfer of Jurisdiction - SSA to RRB
- SSA HIB Jurisdiction Alert Referral
- SSA HIB Jurisdiction Reject Referral

The next line of printing identifies the cause of the reject. A message will precede each screening record. Following are the various reject messages that will have to be investigated. Explanations and samples of each are included with this procedure.

REJECT MESSAGES - The grade level of the examiner who handles the reject is shown in ( ) following the messages:

1) No Record of BIC in SSA File (GS-5 thru GS-8)
2) Transfer Manually - Paid thru date undetermined due to "P" option (GS-7)
3) SSA Benefit Term A/C Death (GS-7)
4) SSA Benefit Term BIC Alive (GS-7)
5) No SSA Match on Identity of Beneficiary's (GS-8)
6) Dual Survivors - Transfer Completed - Please Investigate (GS-8)
7) Program Reject - Replies Not Equal to Request (GS-5)
8) Jurisdiction Code Discrepancy (GS-8)
9) MBR Incompatible W/RRB Symbol - Prefix (GS-5)
10) Entitlement Under Another SSA Claim Number (GS-7)
11) SSA Record Has No HI Data (GS-7)
12) Duplicate SSA/RRB Transfers (GS-7)
13) Manual Transfer - Cessation of Disability (GS-8)
14) Dual Annuitant (GS-5)
15) SSA Refund for Uninsured BIC Indicated (GS-8)
16) SMIB paid thru Date Assumed Pending Investigation of SSA Premium Amt. (GS-7)
17) Manual Transfer Required. SSA Term Date After RRB SMI Date (GS-7)
18) RR Annuity in Suspense - Verify Address for ID Card (GS-5)
19) Check for Possible Arrearage - RRB ENT Date Prior to SSA ENT Date (GS-7)
20) Deemed QRRB From SSA Under 1974 Amendments (GS-5)
21) Unable to Process Activity - Screening Reply Outstanding (GS-8)
22) P-option Encountered in MBR Record (GS-7)
23) Investigate Delinquent SMI Premiums (GS-7)

The line following the reject message will contain the RRB claim number, the social security number being screened (if matched to a MBR, SSA's suffix will also be printed), the RRB date of birth and option, and the type of screening record (ENT = employee's
social security number, XREF = beneficiary’s own social security number or the number of the wage earner whose earnings may entitle the beneficiary to SSA benefits).

The second line contains the RRB HI/SMI dates and the type of payment (annuity deduction, bill direct, etc.).

The third line identifies SSA's HI/SMI dates and option for the MBR record. The beneficiary's RRB name/address is printed to the right of the second and third lines. SSA's date of birth from MBR record is printed to the far right and between the third and fourth lines.

The fourth line identifies the RRB beneficiary (spouse, widow(er), etc.), record status and the jurisdiction code (RRB, NIF = no MBR established, SSA benefit terminated, etc.). If a MBR was matched and enrolled for SMI, SSA's SMIB rate will also be printed.

The last line of information will show SSA's effective date of suspension or termination, if applicable.

1) **NO RECORD OF BIC IN SSA FILE**

   Reason - This message occurs when there is no MBR for the corresponding SSN. It is usually printed on the same page with another screening record that rejected for other reasons.

   Action - None. The reject situation for the other screening reject should be resolved.

   Disabled child's name is different on SSA's records: RAFAEL GALLEGOS  
   Submit a G-810(21) with all necessary information and show name and address. However, show her name as RAFAEL GALLEGOS. When clearance is received, correct MIRTEL with a G-810(22) and have the machine release a card if necessary.

   Employee - screening record sent with spouse's SSN.  
   Release HMO teletype under SSN. If no record, force clearance with a G-811(32).

   If necessary, take action to rescreen with a G-811(21) or G-810(21).

   Dual annuitant receiving annuities under MA-123-45-6789 and A-999-99-9999.  
   Clearance was received under A-999-99-9999 but not under MA-123-45-6789.  
   Drop MA record with a G-811(05). Re-establish as HIB ONLY. A few days late, submit a G-811(34) under primary number and a G-811(25) under the MA or secondary number. Release a letter to beneficiary.
Spouse enrolled at SSA as uninsured BIC. Filed at RRB for annuity. She did not pay premium because of the annuity application filed at RRB and SMIB coverage terminated.

Call SSA PSC in reference to the premium status. Clear MIRTEL with G-810(32), using the most advantageous information.

Disability entitlement is questionable. Before any corrective action can be taken, the file should be sent to the disability program section to determine the freeze status. When the file is returned, either delete the MIRTEL using G-811(05) or, if necessary, clear the MIRTEL using G-811(32) of our information is correct or a G-810(32) if our information needs to be corrected. Then terminate Medicare coverage using current procedure if necessary.

If you have a pure SS case, file should be routed to the OSR instead of to the disability program section.

Spouse enrolled at SSA as uninsured BIC. Filed at RRB for annuity. She did not pay premiums because of the annuity application filed at RRB and SMIB coverage terminated.

Call SSA PSC in reference to the premium status. Clear MIRTEL with G-810(32), using the most advantageous information.

Disability entitlement is questionable. Before any corrective action can be taken, the file should be sent to the disability program section to determine the freeze status. When the file is returned, either delete the MIRTEL using G-811(05) or, if necessary, clear the MIRTEL using G-811(32) if our information is correct or a G-810(32) if our information needs to be corrected. Then, terminate Medicare coverage using current procedure if necessary.

If you have a pure SS case, file should be routed to the OSR instead of to the disability program section.

Female employee initially receiving SS survivor benefits under her husband's SSN (999-99-9999D4). She remarried, the D4 benefit was terminated, and payment history transferred to the new SSN. In this situation, RRB is paying the SS benefit and clearance was previously received under the D4 number. Therefore, the MIRTEL should be cleared with G-811(32).

2) **TRANSFER MANUALLY - PAID THRU DATE UNDETERMINED DUE TO "P" OPTION**

Reason - This message occurs when "P" options were previously put on the MBR. Screening action will not mechanically clear. SSA's HIB and SMIB dates are shown; however, a paid through date cannot be computed.
Action - Call the SSA-PSC for a paid through date and any other clarifying data. The MIRTEL should then be cleared using the most advantageous information.

If it is necessary to correct the HIB and/or SMIB date or to enter a paid through date, use a G-810(32) to clear MIRTEL. If the information on MIRTEL is correct and it is not necessary to enter a paid through date, use a G-811(32) to clear MIRTEL. Depending on the information provided by SSA and the information in RRB’s file, there may be a refund or an arrearage due. Also if an option letter was released, in addition to clearing MIRTEL, a corrected card and letter of explanation should be released.

Sometimes this referral is reduced when an examiner submits a G-811(21). He/she think clearance was not received and submits another G-811(21). In these cases it may not be necessary to call the SSA-PSC if you can find the referral or the necessary information on the MMAC is dated after the first G-811(21) was submitted. MIRTEL can then be cleared using this information. When this type of referral is produced, MIRTEL has to be cleared, whether we are screening initially or rescreening. If MIRTEL is not cleared, any input will reject because a screening reply is outstanding.

This referral was produced because SSA’s entitlement dates are more advantageous.

Call SSA-PSC to verify entitlement and to obtain a paid through date. Clear MIRTEL with a G-810(32). An arrearage is very probable.

This referral was produced because there may be a duplication in collection of SMIB premiums. If there was, a referral may be due. There is no change in entitlement dates.

Clear MIRTEL using a G-811(32). Call SSA-PSC to obtain a paid through date.

3) SSA BENEFIT TERM A/C DEATH

Reason - This message occurs when the MBR under the SSN indicates that the SSA beneficiary is deceased.

Action - Verify the DOD of the beneficiary. Then take one of the following actions:

1) If the DOD is prior to the effect date, drop MIRTEL with a G-811(05). Refer to Example 9.

2) If SSA was paying SS benefits and SSA’s HIB and SMIB dates are more advantageous, drop the MIRTEL record with a G-811(05). Refer to Example 10.
3) If RRB is certified to pay SS benefits and a good HIM should be established, take one of the following actions:

- If the MIRTEL record is established for HIB only and there is no election for SMIB, clear MIRTEL with a G-811(32), and then submit G-811(50). If the HIB date is not correct, use a G-810(32), then submit the G-811(50).

- If the MIRTEL record is established for HIB only and there is an indication that SMIB was elected, clear MIRTEL as Part A only. If the HIB date is correct use a G-811(32). If the HIB date should be corrected, use a G-810(32). Then submit a G-811(50).

- If the MIRTEL record is established for HIB and SMIB, drop the MIRTEL record using a G-811(05), re-establish using a G-810(31) as Part A only, then submit a G-811(50).

4) If an examiner was trying to establish a HIM based on a phone call or correspondence, a G-811(32) should be used to clear MIRTEL, then a G-811(50). If a premium arrearage exists, refer to RCM 3.7.42.

The DOD has been determined to be 1/81. Drop MIRTEL using a G-811(05).

SSA was paying benefits. SSA's entitlement dates are more advantageous.

Drop MIRTEL with a G-811(05). Assume that SSA collected premiums and a HIM record was properly established.

4) SSA BENEFIT TERM - BIC ALIVE

This message occurs when the MBR for the SSN has terminated for a reason other than death.

Reason - 1 A spouse or disabled child was enrolled on employee's SSN before his death.

Action - 1 Check the file for a SSA-1233R. This form should have some information concerning Medicare. Verify death of RR employee. This should be the same as the SSA DATE OF SUSP/TERM. If so, this would be the SMIB paid through date. SSA's HIB and SMIB dates are on the referral. Clear MIRTEL with a G-810(32) using the most advantageous information. If there is conflicting information, a call to SSA - PSC should be made before clearing MIRTEL. Refer to examples 11 and 12.

Reason - 2 An individual was enrolled as an uninsured beneficiary at SSA. Coverage terminated because he/she filed at RRB.
Action - 2 Call appropriate SSA-PSC for uninsured beneficiaries for correct information regarding their Medicare. Then, clear MIRTEL with a G-810(32) using the most advantageous information.

Reason - 3 Previous entitlement at SSA based on disability. Beneficiary is now recovered and the MBR has been coded accordingly. Beneficiary is now eligible for Medicare at RRB.

Action - 3 In most cases, RRB's dates will be correct and MIRTEL should be cleared with a G-811(32). However, if there is a discrepancy for an employee, disabled child, or widow (RR CASE), file should be routed to the disability section to determine disability status before clearing MIRTEL. If there is a discrepancy in a pure SS case, file should be routed to the OSR.

Reason - 4 Previous entitlement at SSA on another SSN. Beneficiary now files at SSA on another wage earner. The first entitlement is terminated because the information has been transferred to the second number.

Action - 4 Check RRB file for information regarding entitlement at SSA. If you are unable to determine the SSN, release a teletype under the SSN which was terminated; there should be a cross reference number. It may be necessary to rescreen using a G-811(21). If an individual's Medicare terminated because she filed at SSA under the RRB employee's SSN and RRB is certified to pay the SS benefits, a call to SSA PSC should be made to verify the HIB and SMIB dates and paid through date before clearing MIRTEL with a G-810(32).

Regardless of the reason that prevents the mechanical screening record from not clearing, you will have to clear MIRTEL, most likely with a G-810(32), using the most advantageous information. In some cases, a letter of explanation should be released to the beneficiary. There may be an arrearage or a refund due.

If it is necessary to put "P" options on the MBR, file should be routed to the appropriate GS-9 examiner, who in turn will call SSA.

Before the employee died, disabled child was enrolled at SSA under employee's SSN. When he died, the MBR was terminated.

All the information on the referral appears to be correct. Clear MIRTEL with a G-810(32), showing HIB 2-74, SMIB 2-74, and paid - through date of 7-76.

Before the employee died, spouse was enrolled at SSA under employee's SSN. When he died, the MBR was terminated.

There is a discrepancy: DOB is 1902. HIB DATE is 12-69, SMIB DATE is 6-78, and the SMIB rate is 9.60. A call to SSA PSC should be made. When reply is received from SSA PSC, MIRTEL should be cleared with a G-810(32) with the correct information.
5) **NO SSA MATCH ON IDENTITY OF BENEFICIARY**

Reason - This reject occurs when the personal characteristics from the screening request do not match the personal characteristics on SSA's MBR or as a result of the following:

1) RRB error
2) Prior wife
3) Employee screened against spouse's SSN
4) Dual annuitants - beneficiary receiving annuities as an employee and as a spouse/widow(er)
5) An employee and spouse born the same month and year; one screening record clears and the other one does not.

Action - Verify the SSN. If the SSN is not correct, drop MIRTEL with a G-811(05) and, a few days later, submit a G-810(12) with correct SSN.

If the SSN is correct, release a HMQ teletype. When replies are received:

1) If no record exists, clear MIRTEL with a G-811(32).
2) If the personal characteristics do not match, rescreen using a G-810(321). Correct the NAME, DOB or SEX, whichever one is preventing the screening request from clearing. Also, code the G-810 so that a card is not released. When clearance is received, correct MIRTEL with a G-810(22). If the given name or initial needs correcting, prepare a HCFA-1664 and have a card released.

If there is a second wife involved, drop MIRTEL, assign a pseudo number, and re-screen.

In the case of dual annuitants, drop the pending MIRTEL record with a G-811(05). Reestablish with a G-810(13) as HIB ONLY. Then a few days later, submit a G-811(34) under primary number and a G-811(25) under a secondary number. A short letter should be sent to the beneficiary. Also prepare G-607 for secondary number to enter SMIB option code 9 on CHICO.

6) **DUAL SURVIVORS - TRANSFER COMPLETED - PLEASE INVESTIGATE**

Reason - This message occurs when a screening record with a survivor prefix (WA or WCD) matches a survivor MBR (BIC D or C) which would indicate that both RRB and SSA are paying survivor benefits.
Action - Transfer has been completed. A HMQ teletype should be released to investigate the possibility of dual payment of survivor benefits.

If RRB is the only agency paying the survivor benefits, no further action is necessary.

If RRB is paying a survivor benefit and there is an indication on the MBR that SSA is also paying a survivor benefit, the file should be routed to the MOD. The MOD will determine which agency should pay survivor benefits. If it is determined that SSA should pay the survivor benefits, it may be necessary to transfer Medicare to SSA. That requires an RR-80 to remove "P" options from the MBR, G-811(52) and a letter to beneficiary. The MOD will determine the overpayment in these cases.

In most cases, this type of reject is produced when there is a disabled child, employee is still living and RRB is certified to pay the disabled child's SS benefits (LAF Code E). To avoid this type of reject, when screening is necessary, the prefix should be CA, type bene 16, and record status 02.

Refer to R.C.M. 7.4 Appendix C for a breakdown of LAF codes on the MBR. Refer to examples 13, 14 and 15.

RR employee living. RRB is certified to pay SS benefits for disabled child. Release a HMQ teletype. If the LAF CODE reveals that SSA is also paying a survivor benefit, file should be routed to the MOD.

RR employee is deceased. RRB has jurisdiction of survivor benefits. Release a HMQ teletype. If there is a termination in the LAF CODE on the MBR, no action is necessary.

In this situation, MIRTEL needs a record correction (G-810 Code 22) because of the name.

RR employee is deceased. RRB has jurisdiction of survivor benefits. Release a HMQ teletype. If there is a termination in the LAF CODE on the MBR, no action is necessary.

If the LAF CODE reveals that SSA is still paying benefits, the file should be routed to the MOD.

This file should be referred to MOD because the LAF CODE on the MBR is a "C".

Screening record sent with two SSN's, 123-45-6789 and 999-99-9999. We only received a reply under 123-45-6789. Rescreen using a G-811(21). Enter 999-99-9999 in item 9.

8) JURISDICTION CODE DISCREPANCY
Reason - This message also occurs when the MBR for the SSN has terminated for reasons other than death.

Action - Clearance will to be processed mechanically. MIRTEL has to be cleared with a G-811(32) if the information on the MIRTEL is correct or a G-810(32) if the information on MIRTEL needs to be corrected. The reason why the MER terminated is not as clear as with the SSA Benefit Term - BIC Alive reject. A call should be made to the SSA PSC if you are unable to determine why the reject was produced before clearing the record. Refer to Examples 17, 18, and 19.

Information in file disclosed that individual was previously entitled to Medicare based on disability. He recovered and subsequently a new period of disability was established and entitlement dates determined accordingly. The information in file was consistent and the information on MIRTEL was correct. Therefore, MIRTEL can be cleared with a G-811(32).

It was determined that the beneficiary filed at SSA and SSA paid benefits. However, SSA subsequently determined that payments were erroneous and terminated the MBR.

In this situation, MIRTEL should be cleared with a G-810(32), HIB effective 4-80. SMIB would be an option because, based on his filing at SSA, he could have had 4-80 and we have not yet cleared our MIRTEL. Option letter and related material should be released.

No information was conveyed from SSA. A call to the SSA PSC is necessary. Clear MIRTEL with the most advantageous information.

9) **MBR INCOMPATIBLE W/RRB SYMBOL - PREFIX**

This reject occurs when RRB screens with a prefix that is not compatible with the BIC that is on SSA's MBR.

Reason - 1. RRB is certified to pay SS benefits to a divorced wife. Screening record was sent as a WCA and SSA's BIC is a B6 or B9.

Action - 1. Drop WCA record with G-811(05), assign a pseudo number, and resubmit a G-810(12).

Reason - 2. Screening record was sent as a MA. Before clearance was received, the employee died and spouse is now WA. No change was made to the MIRTEL record.

Action - 2. Drop MA record with G-811(05) and submit G-810(12) as WA if RRB has jurisdiction of survivor payments. If SSA has jurisdiction of survivor payments, drop MIRF with a G-811(05) and release a HMQ teletype. If "options" are on the MBR, an RR-80 should be prepared.
This reject also results when we are paying an employee a SS B2 benefit as a WCA. The WCA record should be dropped with a G-811(05) and if the employee's Medicare has not been established under the A claim number, a G-810(12) should be submitted. A SMIB SSA option code of 9 should be entered for the WCA CHICO record using a G-607. Refer to Example 22.

Divorced wife's SS benefits were certified to RRB for payment.

Drop WCA record with a G-811(05). Assign a pseudo number and screen with G-810(12). If not processed timely, it may be necessary to offer an option.

Screening record processed as MA but the employee is now deceased. Record should be WA.

Drop MA record with G-811(05). submit G-810(12) as WA. If not handled timely, it may be necessary to offer an option.

Beneficiary is receiving an RR annuity as well as SSA benefits under his own SSN. He is also entitled to a SSA BI benefit which RRB is paying under RR claim number WCA-999-99-9999. Drop WCA record with a G-811(05). If Medicare has not been established as A, submit a G-810(12).

Prepare G-607 for SCA SSN to enter SMIB option code 9.

10) ENTITLEMENT UNDER ANOTHER SSA CLAIM NUMBER

Reason - This reject occurs when a beneficiary was previously entitled to SS benefits under one SSN. However, that benefit was terminated because of entitlement to SS benefits under another SSN.

Action - Check file for another SSN. If you cannot determine the other number, release a HMO teletype under the terminated SSN. The reply should show a cross reference number. Release a second HMO teletype under the cross reference SSN. Upon reply, either force clearance or rescreen. In some cases it may be necessary to call the SSA PSC.

11) SSA RECORD HAS NO HI DATA

Reason - This reject occurs when the MBR for the corresponding SSN has no HI information. However, there is an indication of SS entitlement under another SSN.

Action - Check the file for the other SSN. If you cannot obtain from information in file, a HMO teletype should be released under the SSN printed on the referral to see if there is a cross reference SSN. A second HMO teletype should then be released under the cross reference SSN. Depending on the second reply, either rescreen with a G-811(21), clear MIRTEL with a G-811(32), or, if MIRTEL has to be corrected, use a G-810(32).
In this situation, the beneficiary has been enrolled at RRB since 7066. Initial screening was made under his own SSN. His wife has now died and he filed for benefits under her SSN. RRB is paying the SS benefit.

After reviewing the file, it was established that RRB's HIB and SMIB are more advantageous, and that we previously screened under employee's SSN. Therefore, MIRTEL was cleared with a G-811(32).

12) **DUPLICATE SSA/RRB TRANSFERS**

Reason - This message occurs when there is a possibility that SSA transferred jurisdiction to RRB under two different SSN's.

Action - Release HMO teletypes under all SSN's involved. When replies are received either rescreen or force clearance. It may be necessary to call the SSA-PSC for Medicare information and notify SSA that they have a dual annuitant.

In this situation, it was determined that spouse had two SSA claim numbers 123-45-6789A and 999-99-9999B2. HMO teletypes were released and MIRTEL cleared accordingly.

13) **MANUAL TRANSFER - CESSATION OF DISABILITY**

Reason - This message occurs when a beneficiary was previously enrolled for Medicare at SSA based on disability. However, the MBR has been terminated for cessation of disability. RRB is now enrolling the beneficiary for Medicare.

Action - Reconcile effective dates and clear the MIRTEL with a G-810(32) or a G-811(32). Usually, RRB is trying to establish entitlement based on age.

In this situation, it was determined that MIRTEL can be cleared with a G-811(32) because RRB's HIB and SMIB dates are correct based on age. His previous entitlement based on disability was terminated correctly at SSA.

14) **DUAL ANNUITANT**

Reason - This message occurs when we receive two clearances for one SSN, and the RRB claim numbers are different. Refer to Examples 26 and 27.

Action - Instructions for consolidating the dual annuitant's records should be followed. See RCM 3.5.50.

**Primary Number**

Prepare G-811(34) and a letter to beneficiary.

**Secondary Number**
Prepare G-811(25) and, if necessary, an annuity adjustment

15) **SSA REFUND FOR UNINSURED BIC INDICATED**

Reason - This condition occurs when a screening record matches an MBR that is established for an uninsured SSA annuitant who is paying HIB and/or SMIB premiums directly.

Action - Transfer has been completed. Verify QRRB status. Compare RRB's HIB date to SSA's HIB date. Check the paid through date. If you determine that a refund of HIB premiums is due, file should be routed to the GS-11 supervisory claims specialist. If no refund is due, no other action is necessary.

Spouse paid HIB premiums to SSA for the period 7-1-78 thru 2-28-81. Spouse attained QRRB status 9-1-79. Therefore, a refund of HIB premiums is due for the period 9-1-79 thru 2-28-81. File should be routed to the GS-11 supervisory claims specialist who will make the necessary arrangements with CMS for refunding HIB premiums.

16) **SMIB PAID THRU DATE ASSUMED PENDING INVESTIGATION OF SSA PREMIUM AMT.**

Reason - There is a difference in SSA's and RRB's SMIB election and/or SMIB effective dates.

Action - Call SSA-PSC regarding SMIB premiums and election. Correct MIRTEL with a G-810(22), if necessary. If record has not cleared, use a G-810(32) to correct MIRTEL. There may be a refund due or an arrearage. Refer to Examples 29 and 30.

The paid through date on the referral is SSA's operating month when transfer action was taken. It must be verified.

RRB enrolling beneficiary based on age; previously enrolled at SSA based on disability. However, SSA's SMIB coverage was terminated. MIRTEL should be cleared with G-810(32); use SSA's HIB date, RRB's SMIB date. Option should be first enrollment with basic premium rate.

This situation resulted from rescreening. RRB and SSA's HIB and SMIB dates differ. SSA's PSC was called to verify the paid through date and a refund was prepared through the Medicare Payment System (MPS).

RRB's HIB and SMIB dates are more advantageous and premiums were being paid timely. In some situations the paid through date can be advanced instead of the MPS refund.

17) **MANUAL TRANSFER REQUIRED - SSA TERM DATE AFTER RRB SMI DATE**
Reason - This reject occurs when SSA's SMIB option is a termination or a withdrawal and RRB's SMIB option is a "YES."

Action - Verify enrollment and clear MIRTEL with the most advantageous information. If a correction is necessary, use a G-810(32). If MIRTEL contains correct information, use a G-811(32). In addition, a refund of SMIB premiums may be due. Call SSA PSC for the correct paid through date.

In this particular case, we screened using HIB and SMIB dates based on SSA's enrollment. There was no indication in our file that SMIB coverage was desired. Therefore, MIRTEL was cleared with a G-810(32), showing first termination, termination dates of 12-79, and a paid through date of 12-79.

18) RR ANNUITY IN SUSPENSE - VERIFY ADDRESS FOR ID CARD

Reason - The reject occurs whenever a screening record is sent to SSA and the beneficiary's monthly benefit is in suspense status.

Action - Determine QRRB status. If beneficiary is a QRRB and the address on the MIRTEL record is the current address, no further action is necessary. If the address on MIRTEL is incorrect or not shown, submit a G-810(22) to correct the address and to release a new identification card.

If the beneficiary is not a QRRB, Medicare should be transferred to SSA which is a G-811(52), RR-80 and letter to beneficiary should be completed.

Review disclosed that beneficiary is a QRRB and the address on MIRTEL is correct. Therefore, no further action was necessary.

19) CHECK FOR POSSIBLE ARREARAGE - RRB ENT DATE PRIOR TO SSA ENT DATE

Reason - This message occurs when RRB's SMIB date is prior to SSA's SMIB date, RRB has a refusal for SMIB, or RRB has a termination for SMIB coverage.

Action - Verify enrollment. Clearance was processed, however, it may be necessary to update or correct the MIRTEL with a G-810(22). In some cases a refund may be due or an arrearage may exist. It may be necessary to call the SSA-PSC for premium information.

In some cases you may have to reverse the termination with a G-811(26), then correct MIRTEL with a G-810(22).

In this case, a disabled child was enrolled at RRB with HIB 7-73, SMIB 7-73. However, the SMIB terminated 12-74. Child was enrolled at SSA with HIB 7-73 and SMIB 11-78. MIRTEL should be corrected to show second enrollment for SMIB.
20) **DEEMED QRRB FROM SSA UNDER 1974 AMENDMENTS**

Reason - This message occurs when a screening record matches a MBR with an "E" LAF code and "P" option SSA's HIB and SMIB dates are shown on the referral; however, RRB's HIB and SMIB dates are used to establish Medicare records.

Action - At one time this type of referral was informational. However, since we are not paying more SS benefits, a thorough check of the file should be made to determine the most advantageous dates for the beneficiary. The HIB effective date should always be corrected because, usually, there are no premiums involved. Depending on the circumstances, it may also be necessary to correct the SMIB effective date. Refer to RCM 3.2.90 for more specific instructions. The screening process has been completed and MIRTEL cleared. If MIRTEL should be corrected, use a G-810(22).

In some cases, it may also be necessary to call the SSA-PSC because of entitlement on another SSN. In addition, SSA may have deducted for a few months on the SSN on which we received clearance. You can determine this by checking the SSA award forms, the entitlement dates to benefits, when RRB started paying the benefits, and the G-90's. If a call is necessary, route file to a GS-7 examiner. This referral also identifies DOB discrepancies. If the DOB discrepancy has been resolved, correct MIRTEL accordingly. If not, forward file to the MOD.

If the beneficiary has lost QRRB status, it may be necessary to correct the MIRTEL record with a G-810(22) before submitting your G-811(52), RR-80 and letter to beneficiary.

DOB is the same at SSA and RRB. HIB and SMIB entitlement dates are the same. No further action necessary.

RRB's HIB and SMIB dates are more advantageous. Date of birth agrees. No further action necessary.

MIRTEL record is correct. However, if necessary, a G-607 should be submitted to correct the SS DOB on CHICO.

Medicare has been established based on RRB's DOB of 7-25-16. SSA's DOB is 7-25-14. Check the file. If DOB discrepancy has not been resolved, refer file to the MOD.

When correct DOB has been determined, if MIRTEL record needs correction, use a G-810(22). Correct according to RCM 3.2.46. If DOB on CHICO needs correcting use a G-607, according to RCM 9.4.

SSA's and RRB's HIB dates are the same. However, the MBR indicates an election for SMIB. Check the file. If there is no refusal, A G-811(25) should be
submitted to enter SMIB election on MIRTEL. If not processed timely, an option letter may be required and a G-810(22) prepared to enter SMIB election on MIRTEL.

SSA's HIB and SMIB dates are more advantageous than RRB's. If file review indicates that SMIB coverage is desired, the earlier HIB date and SMIB data can be put on MIRTEL with a G-810(22) and a new identification card should be released. If not processed timely, an option letter may also be required.

If SMIB coverage is not desired, correct HIB date with G-810(22) and release a new identification card.

RRB's and SSA's HIB dates are the same. However, SSA's SMIB effective date is more advantageous. Take one of the following actions:

1) If premium deductions have been initiated based on the earlier SMIB date and premium rate, correct MIRTEL SMIB date with a G-810(22) and release a new identification card.

2) If premium deductions have been initiated based on the later SMIB date and the premium rate is not correct adjust the annuity, refund excess premiums and correct the MIRTEL SMIB rate with a G-810(20).

3) If premium deductions have not been initiated, MIRTEL should be corrected with a G-810(22) to reflect earlier SMIB data and a new identification card released. In some situations, an option letter may be required.

This case concerns entitlement based on disability. SSA's dates are earlier because SSA has a earlier annuity beginning date.

Always correct HIB date. If deductions have started, do not change our SMIB date. If deductions did not start, correct the SMIB data and release a new identification card using G-810(22).

Sometimes, SSA's entitlement is based on CRD. This can be determined by checking the file thoroughly. If it is a CRD enrollment, release a teletype (HMO). If reply verifies that entitlement is established based on CRD, a G-810 should be submitted to correct the MIRTEL and there would be a premium arrearage. It may be necessary to call SSA for further verification.

21) **UNABLE TO PROCESS ACTIVITY - SCREENING REPLY OUTSTANDING**

This referral is produced when an activity matches a MIRTEL that has a screening reply outstanding. The activity will not process.
Check file and determine if there is a MER reject in file that was not processed. If there is no MER reject, release HMO teletypes and clear MIRTEL record accordingly, or rescreen if necessary.

22) **P-OPTIONS ENCOUNTERED IN MBR RECORD**

Reason - This message occurs when a previously established P-option is in MBR.

Action - Call PSC to verify paid through date. Then, prepare G-810(32) to correct MIRTEL and HIM.

After the paid through date is known, correct MIRTEL and HIM.

23) **INVESTIGATE DELINQUENT SMI PREMIUMS**

Reason - This message occurs when there is a SMI arrearage from SSA.

Action - Verify arrearage by calling PSC and handle according to RCM 3.2.

After the arrearage is verified, follow procedure for equitable relief.

**Appendix B - Common HIM Exception Codes And Descriptions**

- RRB record matched on BIC to HI master skeleton record (reject)
- RRB record matched on BIC unmatched on personal characteristics filming and investigation at SSA (alert).

**Appendix C - HIM Exception Conditions**

(Examples at end of Appendix)

1. **Type**
   - RRB record matched on BIC to HI master skeleton record

   **Condition**
   - A screening record is entered and a record under that number was previously established.

   **Action**
   - Drop existing record G-811(05). Assign a pseudo number in the appropriate manner G-810(31/33) GRADE 5

   **Condition**
   - Date of death was entered. Master record has not been deactivated. The beneficiary is alive (Refer to example 2).

   **Action**
   - Reactivate HIM (HCFA-1365). Allow 6 to 8 weeks to elapse. Enter a universal RIC to complete the correction. GRADE 8
2. Type RRB record conveying adverse Part A date (not applied. Refer to example 5.

Condition A HIB date has been established on HIM. A later date is on MIRTEL.

Action Determine the correct date. If HIM is incorrect, correct (HCFA-1364). If MIRTEL is incorrect, correct G-810(22). GRADE 7

3. Type Part A date inconsistent with other data.

Condition Date is missing or correct on MIRTEL. A date has been established on HIM.

Action Determine the correct entitlement date. If HIM is correct, correct MIRTEL G-810(22). If information on HIM is incorrect, correct (HCFA-1364). Allow at least 6 weeks to elapse and correct MIRTEL. GRADE 7.

4. Type Part A date for beneficiary is invalid.

Condition Sex code is missing or beneficiary code is incorrect.

Action Verify beneficiary status. If sex code is missing, correct with G-811(22). If beneficiary and sex codes are incorrect, use G-810(22). GRADE 5.

5. Type First Part A termination date is not consistent.

Condition Termination date is prior to the entitlement date on HIM.

Action Verify the correct entitlement and termination dates. Correct HIM (HCFA-1364). Follow this action with an appropriate universal RIC. GRADE 8.

6. Type RRB record matched on BIC, unmatched on personal characteristics.

Condition Sex code is incorrect or absent. Name on MIRTEL and HIM are different.

Action If the sex code is missing on MIRTEL but shown correctly on HIM, correct MIRTEL with a universal RIC G-811(22). (Refer to example 3). GRADE 5.

If sex code is correct on MIRTEL, but incorrect on HIM, correct with a HCFA-1664.
If sex code is incorrect on both records, correct each record.
GRADE 7.

If the sex code is correct but name differs on HIM and MIRTEL, determine correct name and correct with either G-810(22) or HCFA-1664.

7. Type RRB record conveying an adverse Part B date (applied). Refer to Example 4.
Condition An earlier date is on the HIM. Correction record contains a later date.
Action Verify entitlement. If HIM is correct, change MIRTEL to agree G-810(20/22). If MIRTEL is correct, change HIM (HCFA-1363). Follow with universal RIC.

8. Type Part B entitlement date.
Condition Part B date missing from MIRTEL.
Action Verify HIM. If coverage has terminated, check entitlement and termination dates. Make corrections (HCFA-1364). After the correction has processed, complete a universal RIC. GRADE 7.

9. Type RRB record attempting to terminate recently entitled master.
   (Term date not greater than Part B date plus 1 month)
Condition Self-explanatory.
Action Reverse erroneous termination G-811(26). Write an explanatory letter to beneficiary. GRADE 8.

10. Type Part B third party code.
Condition There is a discrepancy between MIRTEL and the trailer code on the HIM.
Action Determine correct information. Make necessary correction on a universal RIC. GRADE 5.

SSA PROCESS DATE - 10-09-81

RRB RECORD CONVEYING ADVERSE PART A DATE (NOT APPLIED)

Exhibits

Exhibit 1 - G-811 Reformatting Rejects

BOX 1 - ALL PREFIX INDICATOR BOXES ARE BLANK

ACTION: Determine and code correct prefix of claim number and resubmit G-811.

BOX 1 - MORE THAN ONE PREFIX INDICATOR HAS BEEN MARKED

BOX 1 - MORE THAN ONE SYMBOL INDICATOR HAS BEEN MARKED

BOX 1 - WRONG COMBINATION OF SYMBOL INDICATORS HAS BEEN MARKED

BOX 2 - CLAIM NUMBER CONTAINS INVALID DATA

BOX 3 - ACTIVITY CODE CONTAINS INVALID DATA

BOX 4 - TYPE BENEFICIARY CONTAINS INVALID DATA
BOX 5 - DATE OF BIRTH CONTAINS INVALID DATA
BOX 6 - SEX CODE CONTAINS INVALID DATA
BOX 7 - PSEUDO NUMBER CONTAINS INVALID DATA

ACTION: Determine correct entry for the box indicated on reject and submit another G-811.

BOX 8 - EVENT CODE CONTAINS INVALID DATA
BOX 8 - DATE CONTAINS INVALID DATA

ACTION: Determine correct event code or event date. Activity code, event code, and event date must be consistent. Submit another G-811.

BOX 9 - FORMER SSA OR RRB NO. CONTAINS INVALID DATA

ACTION: Verify that the former number is correct as well as the converted SSA claims suffix or numeric BIC for the RRB symbol and prefix. Submit another G-811 with corrected former RRB or SSA number.

BOX 10 - UNIT DESIGNATION CONTAINS INVALID DATA

ACTION: Correct and submit another G-811.

Exhibit 2 - Daily MIRTEL Referrals

ACTIVITY INVALID AGAINST DUAL ANNUITANTS-1225

CAUSE: This occurs when an activity is prepared for a record with a SMI option 9, dual annuitant.

ACTION: If the SMI option 9 is valid, the activity is unnecessary. If this record is becoming the primary record, prepare a Form G-811 activity code 05 to drop the record and a G-810 activity code 33 to establish the record and send a RIC to cross refer and transfer utilization from the former RRB number.

ACTIVITY INVALID FOR INACTIVE MIRTEL-1222

CAUSE: This will occur when an activity is processed for a record with record status 98, Inactive - No Longer QRRB. It can also occur with record status 90 or 99 if the activity does not reflect the termination.

ACTION: If the beneficiary has regained QRRB status or the death termination was erroneous and MIRTEL shows record status 90 or 99, correct the record with a G-810 activity code 22.
If the beneficiary has regained QRRB status and MIRTEL shows the record status 98, prepare a G-811 activity code 05 to drop the record, and

establish record with a G-810 activity code 13 if MBR shows a "P" option (G-811 activity code 22 is needed if there is a change in the surname.) or

establish record and screen with a G-810 activity code 12 if MBR shows "E" "Y" option.

NOTE: Beneficiary's terminated record must be removed from CHICO.

**ACTIVITY MATCH CROSS REFERENCE RECORD-1304**

**CAUSE:** An activity other than an ID request or inquiry matched a pseudo number cross-reference record.

**ACTION:** Prepare new input showing the RRB claim number in item 1 of Form G-810 or item 2 of Form G-811, also show the pseudo number in the appropriate area.

**ACTIVITY MATCHED MIRTEL CODED FOR DROP-1309**

**CAUSE:** Most activity is dropped immediately when activity 06 is processed, however, if the address is not in the MIRTEL record the record cannot be dropped until the address is received from CHICO. Any activity processed during this interim period will reject.

**ACTION:** If the action is valid it should be reentered.

**ACTIVITY/MIRTEL - SSA NUMBERS NOT EQUAL-1207**

**CAUSE:** This occurs when a mechanical activity matches MIRTEL but the SSA numbers are not the same.

**ACTION:** If the MIRTEL record is correct, mark the referral NAN.

If the SSA number on the MIRTEL record is incorrect, drop the record with a G-811 activity code 05 and reestablish the record with a G-810 activity code 13 (use activity code 12 if screening is required).

**ACTIVITY TO ESTABLISH RECORD MATCHED EXISTING MIRTEL-1301, 1003**

**CAUSE:** This reject occurs when the activity matched an existing record. This can be a complete match or partial match i.e., same symbol and pseudo number, if present.

**ACTION:** If the activity matched a record for a different beneficiary, and if the claim symbol is correct for both beneficiaries, establish a pseudo.

If the activity matched a record for the same beneficiary, check the entitlement data. If this data is the same, mark the referral NAN and file it down. If the entitlement data is different, determine which is correct. If the existing record is correct, mark the referral
NAN and file it down. IF the data on the activity is incorrect, prepare Form G-810 activity code 22 to correct the erroneous data.

ADDRESS DOES NOT MATCH RESIDENCY TABLE-1507

CAUSE: The SMI rate table indicator of S, P, or C does not agree with the address shown.

ACTION: If the sex code is missing, prepare Form G-810 activity 22, including the sex code and appropriate ID issue code.

If the address is required, prepare Form G-810 activity code 22 including the address and the appropriate ID issue code.

ADDRESS UNAVAILABLE - MIRTEL DROPPED - NO RIC SENT-1310

CAUSE: Activity code 06 was processed for a record without an address and the address was unavailable from CHICO.

ACTION: If it is necessary to send a RIC to delete the record, prepare Form G-810 activity 13 then five days later reenter the 06 activity.

ATTAINMENT MATCHED EXISTING MIRTEL - PROCESS MANUALLY-1237

CAUSE: This occurs when an attainment activity to establish a record and screen matched an existing record. This can be a complete match or partial match.

ACTION: If the activity matched a record for a different beneficiary, a G-810 activity code 12 should be submitted. If the claim symbol is correct for both beneficiaries, assign a pseudo number.

If the activity matched a record for the same beneficiary, check the entitlement data on both the existing record and the activity. If the data is the same, mark the referral NAN and file it down. If the data is different, determine which is correct. If the existing record is correct, mark the referral NAN and file it down. If the data on the activity is correct, submit either a G-810 activity code 22 or G-811 activity code 25.

NOTE: When a disabled beneficiary attains age 65, he/she has another opportunity to enroll in AMI at the regular non penalty premium rate.

If a variable rate was established in January and the enrollment based on age 65 is in the same year; the variable rate still applies.

ATTAINMENT TOO OLD TO PROCESS-1056

CAUSE: SMI effective date is 6 or more months before the processing date of G-810.
ACTION: MPS examiner should prepare G-810 to enroll individual according to instructions in RCM 3.2.89A.

**CATASTROPHIC EFFECTIVE DATE BEFORE SMI EFFECTIVE DATE-1509**

CAUSE: catastrophic effective date must be equal to or later than SMI effective date.

ACTION: Determine correct SMI effective date and/or catastrophic effective date and submit corrected G-810.

**CATASTROPHIC EFFECTIVE DATE LESS THAN MASTER DATE-ACTIVITY 17 REJECTED-1517**

CAUSE: The COL update established a variable rate, mechanical activity code 17 matched MIRTEL showing prior manual activity 17 with conflicting information.

ACTION: Verify catastrophic data and submit a G-810, if MIRTEL is incorrect.

**CATASTROPHIC EFFECTIVE DATE LESS THAN HI EFFECTIVE DATE-MASTER NOT UPDATED-1551**

CAUSE: The catastrophic effective date is prior to HI effective date.

ACTION: Verify information and submit corrected G-810, if necessary.

**CHANGE ACTIVITY NOT MATCHED TO MIRTEL-1300**

CAUSE: A change activity did not match an existing record on claim number, pseudo number, if present, beneficiary symbol, year of birth or if the year of birth is changed, the name.

ACTION: Check the matching fields on the MIRTEL and activity. If the activity is incorrect, prepare a corrected input. If there is no MIRTEL determine if the activity is valid. If it is, establish a MIRTEL record.

**COL VARIABLE-MIRTEL DOES NOT HAVE DEDUCTION STATUS-1515**

CAUSE: The COL update established a variable rate. Mechanical activity code 17 matched MIRTEL showing no deductions.

ACTION: Verify SMI entitlement. If SMI deductions are proper, correct MIRTEL. If not, stop deductions. If beneficiary is no longer a QRRB or is deceased, prepare a G-96 and send the case to the MOD.

**COL VARIABLE-MIRTEL SMI OPTION OTHER THAN 1 OR 5-1514**

CAUSE: The COL update established a variable rate and mechanical activity code 17 matched a MIRTEL record with a SMI option other than 1 or 5.
ACTION: Verify SMI enrollment. If SMI enrollment is valid, correct MIRTEL. If MIRTEL is correct, deductions should be stopped. Check for possible refund.

**COL VARIABLE-NO MATCHING MIRTEL RECORD-1513**

CAUSE: The COL update established a variable rate and mechanical activity 17 did not match a MIRTEL record.

ACTION: Verify Medicare coverage and identifying data. If valid, establish a MIRTEL record or correct matching data. If invalid, deductions should be stopped.

**COL VARIABLE-VERIFY SMI EFFECTIVE DATE-1516**

CAUSE: The COL update established a variable rate, mechanical activity code 17 showed deductions prior to SMI effective date on MIRTEL.

ACTION: Verify effective date. If MIRTEL is correct, deductions should stop if still prior to effective date. Refund premiums. If deductions are proper, correct MIRTEL.

**CROSS REFERENCE RECORD MATCHED EXISTING ENTITLEMENT RECORD-1302**

CAUSE: The mechanical activity to establish the pseudo number cross-reference record matched an entitlement record.

ACTION: Determine which record is correct, the pseudo number or the entitlement. Take appropriate action to drop the erroneous record.

**DOM APPLIES TO AUTOMATIC ENROLLMENT-1053**

**EE'S AGE OR D/F AFFECTS SPOUSE ENROLLMENT-1055**

CAUSE: The RASI system is furnishing the MIRTEL system data that can not be verified mechanically.

ACTION: Determine spouse's Medicare eligibility and initiate necessary enrollment action (possible pseudo number).

**ENROLLMENT DATA MISSING OR INVALID FOR THIS MIRTEL-1227**

CAUSE: This occurs when activity 22 has a 5 SMI option with SMI effective dates prior to the SMI termination date.

ACTION: Determine the correct entitlement data. If MIRTEL must be corrected, prepare Form G-810 activity code 22 with the correct information.

**IMPROPER USE OF RESERVED AREA-1041**

CAUSE: Entry made in G-811 item 11.
ACTION: Determine if coding in item 11 is applicable to another entry. Submit new G-811.

**INCONSISTENT DATA ON MECHANICAL INPUT-1042**

CAUSE: RASI or SS application processed. Entitlement data, identifying information, SSA number, etc. are inconsistent.

ACTION: Determine the QRRB or deemed QRRB who is or will be eligible for Medicare and initiate necessary enrollment action.

**IDENTIFYING DATA INCONSISTENT-1040**

CAUSE: Beneficiary symbol, type of beneficiary code and DOB entries are inconsistent.

ACTION: Determine what you were trying to do and for whom. Resubmit activity with corrected entries.

**INVALID OR INCORRECT ACTIVITY CODE-100**

CAUSE: Activity code shown on form G-811 or G-810 is not a valid code.

ACTION: Enter correct activity code and resubmit G-810 or G-811.

**INVALID OR INCORRECT ANN. BEGINNING DATE-1035**

CAUSE: ABD must be consistent with record status. If coded, must be equal to or less than processing date plus 3 months.

ACTION: Verify record status code, correct date and resubmit G-810.

**INVALID OR INCORRECT BEN SSA NUMBER-1016**

CAUSE: Must be a valid 9 digit SSA number. If the activity is for an employee and this item is coded, it must be as the employee's SSA's number. If beneficiary has no SSA number, item should be blank.

ACTION: Determine correct number and resubmit G-810.

**INVALID OR INCORRECT BEN SYMBOL-1004**

ACTION: Determine correct symbol and resubmit G-810.

**INVALID OR INCORRECT CATASTROPHIC DATA EFFECTIVE DATE-1505**
CAUSE: The catastrophic data effective date is either prior to 12088 or contains a month unequal to 01-12, or a year unequal to 88 or later.

ACTION: Determine the correct catastrophic effective date and submit corrected G-810.

INVALID OR INCORRECT CHANGE INDICATOR-1501

CAUSE: The catastrophic data code change indicator (Item 9, 1st position) on G-810 is other than X.

ACTION: Submit correct G-810.

INVALID OR INCORRECT CITY NAME-1046

CAUSE: A G-810 was prepared with a name and address. However, the system detected erroneous information or was unable to develop information from coded data.

ACTION: Verify address and submit corrected G-810.

INVALID OR INCORRECT CLAIM NUMBER-1003

CAUSE: Prefix A, six digit claim number is greater than 991273; prefix D, six digit claim number is greater than 415935; prefix H, claim number greater than 049159. The system will only accept a pseudo number in the claim number entry for G-811 activity codes 62, 98, or 99.

ACTION: Determine correct claim number and resubmit activity.

INVALID OR INCORRECT DATE OF BIRTH-1006

CAUSE: Month must be 01-12, day 00-31, year 00-99.

ACTION: Determine correct DOB and resubmit G-811.

INVALID OR INCORRECT DATE OF DEATH-1031

CAUSE: Should only be coded with activity code 13 or 22. DOD must be equal to or greater than SMI effective date, if coded. If no SMI effective date shown, must be greater than 6/66 for aged beneficiary or greater than 6/73 for disabled beneficiary.

ACTION: Verify activity code and if entry is applicable, resubmit corrected G-810.

INVALID OR INCORRECT DELINQUENCY DATE-1028

CAUSE: Entry is only allowed for record status codes 22-24. If record status is 22, the date should be greater than or equal to:

SMI effective date plus 2 months, or
the paid through date plus 3 months, or
the processing date plus 4 months.

If record status is 23 or 24, month should always be April. If no paid through date entered, the year should be the following year. If a paid through date is shown and is prior to December of the current year, enter the following year. If paid through date is December of the current year, enter current year plus 2.

ACTION: Determine correct date and resubmit G-810.

INVALID OR INCORRECT DIS FREEZE DATE-1036

CAUSE: DF date cannot be coded if Medicare entitlement was based on age. If coded, must be less than or equal to the processing date less 23 months.

ACTION: Verify the type of beneficiary. Enter correct date if required. Resubmit G-810.

INVALID OR INCORRECT EE SSA NUMBER-1017

CAUSE: This item must always be completed. If unknown, enter nines. Must be a valid 9 digit SSA number. Should be the same as the 9 digit RRB claim number.

ACTION: Determine correct number and resubmit G-810.

INVALID OR INCORRECT ENTRY MADE-1506

CAUSE: G-810, Item 9, last box, not blank.

ACTION: Submit corrected G-810.

INVALID OR INCORRECT EVENT CODE-1009

CAUSE: Unequal to 1-8 or not shown with activity codes 23-25, 27, 50 and 51.

ACTION: Determine correct event code and resubmit G-811.

INVALID OR INCORRECT EVENT DATE-1010

CAUSE: Event code entered without event date, month no 01-12, or year not 66-current.

ACTION: Determine current date based on event code, and resubmit G-811.

INVALID OR INCORRECT EXCESS PREMIUM-1026

CAUSE: Cannot be entered with activity codes 12 or 21. Cannot be greater than SMI premium rate. When removing excess (xxxx), option cannot be 2, 3, or 8.
ACTION: Determine correct amount, resubmit G-810.

**INVALID OR INCORRECT FOREIGN COUNTRY NAME-1045**

CAUSE: G-810 was prepared with a name and address. However, the system detected erroneous information or was unable to develop information from the coded data.

ACTION: Verify address and resubmit corrected G-810.

**INVALID OR INCORRECT FORMER NUMBER-1011**

CAUSE: If activity 34 or 35, must be valid 6 or 9 digit RRB claim number or a valid pseudo number. If activity is 30, 32 or 36, must be a valid 9 digit SSA number.

ACTION: Determine correct former number and resubmit G-811.

**INVALID OR INCORRECT GEO CODE-1050**

CAUSE: Geographic code is a mechanically produced code which refers to the region of the beneficiary's address. G-810 was prepared with a name and address. However, the system detected erroneous information or was unable to develop information from the coded data.

ACTION: Verify address and resubmit corrected G-810.

**INVALID OR INCORRECT HI DATE OF BIRTH-1015**

CAUSE: Month 01-12, day 01-31, year 00-99. Mandatory item.

ACTION: Enter correct DOB and resubmit G-810.

**INVALID OR INCORRECT HIB EFF DATE-1029**

CAUSE: Has to be consistent with identifying information. If age beneficiary, should be 7/66 or later and agree with age 65 and/or filing date. If a disabled beneficiary, must be 20 or older and date 7/73 or later.

ACTION: Determine correct date, resubmit G-810.

**INVALID OR INCORRECT HIB TERM DATE-1030**

CAUSE: Must be consistent with record status. Should be equal or greater than SMI effective date plus one month and less than processing date plus six months.

ACTION: Determine if entry is required and correct date. Resubmit G-810.

**INVALID OR INCORRECT ID ISSUE CODE-1032**
CAUSE: Must be coded 1-5 when a required entry. If the activity code is 20 and the SMI option is 8, the ID issue code must be coded 2 or 5. If the ID issue code is coded 1, the processing date must be 2 or more months before the SMI effective date and the SMI option must be code 1.

ACTION: Determine correct code and resubmit G-810.

**INVALID OR INCORRECT NAME AND ADDRESS-1048**

CAUSE: G-810 was prepared with a name and address. However, the system detected erroneous information or was unable to develop information from the coded data.

ACTION: Verify address and resubmit corrected G-810.

**INVALID OR INCORRECT PAID THRU DATE-1025**

CAUSE: Must be consistent with activity code, record status and SMI option. Has to be greater than 6/66 for age cases or 6/73 for DIB cases. Must be equal or greater than SMI effective date.

ACTION: Determine correct date, if applicable, resubmit G-810.

**INVALID OR INCORRECT PAYEE CODE-1033**

CAUSE: Should only be coded when beneficiary is in current pay or suspense status (RR or SS)> Do not enter payee code for IPI spouse.

ACTION: Determine status of and code correct payee code, if applicable.

**INVALID OR INCORRECT PREFIX-1002**

CAUSE: Prefix was omitted or not A, D or H.

ACTION: Determine correct prefix and resubmit activity.

**INVALID OR INCORRECT PSEUDO NUMBER-1008**

CAUSE: When coded, must be 995001 - 997999, of if a SSA No., must be the same as beneficiary’s own number. Cannot be coded for an employee or JA.

ACTION: Determine pseudo no. and resubmit activity.

**INVALID OR INCORRECT RECORD STATUS-1020**

CAUSE: Required entry and should be consistent with activity code.

ACTION: Determine correct code and resubmit G-810.

**INVALID OR INCORRECT REP PAYEE CODE-1034**
**CAUSE:** Should only be coded when a name and address is shown. Acceptable codes are 1-3.

**ACTION:** Determine if entry is required and enter code that is consistent with name and address.

**INVALID OR INCORRECT RRB DATE OF BIRTH-1014**

**CAUSE:** Month 01-12, day 01-31, year 00-99. Mandatory item.

**ACTION:** Enter correct DOB and resubmit G-810.

**INVALID OR INCORRECT SBI ACC DATE-1037**

**INVALID OR INCORRECT SBI DEL DATE-1038**

**CAUSE:** SBI accretion date must be shown if activity code is coded 12, 13, 31 or 33 and SMI option coded 8. Accretion/deletion dates can both be coded if SMI option is 1 or 5, will be rejected if option coded 4 or 6.

**ACTION:** Verify option and if applicable, enter correct accretion and/or deletion date. Resubmit G-810.

**INVALID OR INCORRECT SEX CODE-1007**

**CAUSE:** Mandatory entry M or F, 1 or 2, blank only accepted on inquiries.

**ACTION:** Determine correct sex code and resubmit G-810 or G-811.

**INVALID OR INCORRECT SMI EFF DATE-1023**

**CAUSE:** If entitlement is based on age, must be 7/66 or later. Will be verified when possible, with DOB and filing date.

If entitlement is based on disability, must be 7/73 or later. Will be verified when possible, with freeze date and ABD.

Can never be later than current date plus 6 months. Must be consistent with SMI option.

**ACTION:** Determine correct date and resubmit G-810.

**INVALID OR INCORRECT SMI OPTION-1022**

**CAUSE:** Must be consistent with record status.

**ACTION:** Determine correct SMI option code, resubmit G-810.

**INVALID OR INCORRECT SMI OPTION-1511**
CAUSE: Entry in catastrophic data, G-810 Item 9, indicates SMI coverage, but SMI options code unequal to 1, 4, 5, 6, or 8.

ACTION: Verify SMI option and catastrophic data and submit corrected G-810.

**INVALID OR INCORRECT SMI OPTION FILING DATE-1021**

CAUSE: Must be a valid IEP or GEP date.

REASON: Verify SMI option and catastrophic data and submit corrected G-810.

**INVALID OR INCORRECT SMI PENALTY PERCENTAGE INDICATOR-1504**

CAUSE: Penalty percentage indicator unequal to 000, 010, 020 through 220.

ACTION: Determine correct penalty percentage indicator and submit corrected G-810.

**INVALID OR INCORRECT SMI PREMIUM RATE-1024**

CAUSE: G-810 activity code other than 17 submitted.

For state buy-in cases, must be the current basic rate from the applicable SMI table.

For options 1 or 5, if establishing a SMI premium rate, must be one of the three SMI table rates and must agree with the enrollee's residence, otherwise, must be a table rate and be consistent with the catastrophic data on the MIRTEL master.

For options 4 or 6, must be a table rate and must be the SMI premium rate that was in effect when SMI terminated.

ACTION: Enter correct rate and resubmit G-810. Items 12, 13, and 14 must be completed. If the SMI rate is variable, use activity code 17.

**INVALID OR INCORRECT SMI RATE TABLE INDICATOR-1502**

CAUSE: Rate table indicator unequal to S, P, or C.

ACTION: Determine the correct entry and submit corrected G-810.0

**INVALID OR INCORRECT SMI TERM DATE-1027**

CAUSE: Must be consistent with record status and option. If consistent, must be greater than SMI effective date and equal to or less than processing date plus 6 months.

ACTION: Determine correct date, resubmit G-810.

**INVALID OR INCORRECT SMI VARIABLE RATE INDICATOR-1503**
CAUSE: Variable rate indicator unequal to N or V.

ACTION: Determine the correct entry and submit corrected G-810]

INVALID OR INCORRECT SSA CLAIM NUMBER-1018

CAUSE: When coded, must be a valid 9 digit SSA No. If SSA suffix is "A" and activity is
for an employee, it must be the same as employee's SSA number (item 8). If SSA suffix
is "A" and activity is not for an employee, must be the same as beneficiary’s SSA
number (item 7).

ACTION: Determine correct number and resubmit G-810.

INVALID OR INCORRECT SSA SUFFIX/SYMBOL-1019

CAUSE: If the activity code indicates SSA - RRB transfer (30-32 OR 35) must be a
valid SSA suffix. If activity code indicates RRB - RRB transfer 33-35), must be a valid
RRB symbol.

ACTION: Determine correct Suffix/Symbol, resubmit G-810

INVALID OR INCORRECT STATE ABBREVIATION-1044
INVALID OR INCORRECT STATE FOR APO - FPO-1051

CAUSE: A G-810 was prepared with a name and address. However, the system
detected erroneous information or was unable to develop information from the coded
data.

ACTION: Verify state abbreviation by checking RCM 8.1 Appendix B. Verify address for
APO-FPO. Correct address and resubmit G-810.

INVALID OR INCORRECT SUFFIX SYMBOL-1012

CAUSE: If activity code is 30, 32, 36 - must be 01-26. If activity code is 34 or 35 - must
be 10-11, 13-17, 43, 45-46, 80, 83-86.

ACTION: Refer to conversion chart on G-811. Enter correct numeric code and
resubmit activity.

INVALID OR INCORRECT 3RD PARTY CODE-1039

CAUSE: Can only be coded if record status coded 22. Must be acceptable 3rd Party

ACTION: Verify record status, enter correct record status and 3rd Party Code, if
applicable. Resubmit G-810.

INVALID OR INCORRECT TYPE BENEFICIARY-1005
CAUSE: Type beneficiary cannot be blank. Entry must be an acceptable code and must be consistent with the beneficiary symbol.

ACTION: Determine correct type beneficiary code and resubmit activity.

INVALID OR INCORRECT UNIT DESIGNATION-1013

CAUSE: Missing, zero, or unequal to acceptable numeric or alpha/numeric unit designation.

ACTION: Correct unit designation and resubmit G-810 or G-811.

INVALID OR INCORRECT ZIP CODE-1049

CAUSE: System detected erroneous information.

ACTION: Verify address and resubmit corrected G-810.

MIRTEL HAS NO ADDRESS - ACTIVITY MUST SUPPLY-1220

CAUSE: This occurs if the activity has a record status of no annuity application filed (12,22) and MIRTEL has either to be adjusted or deductions in force. (21 or 31).

ACTION: Prepare G-810 including the name and address.

MIRTEL SHOWS CHICO IN FORCE WITH DED-ACTIVITY HAS NO PAID THRU DATE-1229

CAUSE: This occurs when the activity is changing the record status from 31 to 21, 22, 23, or 24.

ACTION: Prepare G-810 showing the paid thru date.

MIRTEL SHOWS CHICO IN FORCE WITH DED-ACTIVITY INVALID-1234

CAUSE: This occurs when activity code 20 is used to enter a SMI termination date in the past.

ACTION: Prepare G-810 activity code 22 to take this action.

NAME AND ADDRESS NOT COMPLETED-1512

CAUSE: Activity code 17 requires that the name and address be entered.

ACTION: Resubmit G-810 with the name and address.

NAME AND DOB IN ACTIVITY AND MIRTEL NOT EQUAL-1233
CAUSE: This occurs when both a name and date of birth change are conveyed on the same activity. It may also occur if an activity matched the wrong MIRTEL record.

ACTION: Prepare a G-810 to change the name. A few days later, prepare a second Form G-810 to change the date of birth. If the activity matched an incorrect record, determine whether or not a pseudo number is required.

**NO ADDRESS IN MIRTEL OR ACTIVITY, UNABLE TO OBTAIN FROM CHICO-1306**

CAUSE: This will occur if CHICO is unable to furnish an address.

ACTION: Prepare G-810 including the name and address.

**NO REPLY TO SCREENING TRACER-1312**

CAUSE: The system generates this 30 days after the tracer if no reply is received.

ACTION: Query SSA's MBR using G-780b and handle in accordance with current instructions.

**NO VALID SSA NUMBERS PRESENT-1054**

CAUSE: Employee and beneficiary SSA number are blank, activity requires that at least one should be coded.

ACTION: Determine employee and/or beneficiary’s number and resubmit G-810.

**PAID THRU DATE AFTER SMI TERM-POSSIBLE REFUND DUE-1313**

CAUSE: The system generates this when premiums have been paid after the SMI termination date.

ACTION: If a refund is due, refund the excess premiums through the Medicare Payment System (MPS).

**PAYEE CODE REQUIRED FOR CHICO ADDRESS INQUIRY-1326**

CAUSE: This will occur if the activity does not contain a payee code and there is no payee code in the MIRTEL record.

ACTION: Prepare a G-810 to take the desired action, include the payee code.

**RPD ON ACTIVITY AND MIRTEL NOT EQUAL-SUBMIT G-810 ACTIVITY CODE 17-1518**

CAUSE: SMI premium rate on activity does not match rate on MIRTEL and catastrophic data indicators not provided.

ACTION: Verify rate, if catastrophic data applies, submit G-810 activity code 17.]
REP PAYEE DATA INCONSISTENT-1052

CAUSE: A G-810 was prepared with a name and address which indicates a REP PAYEE is involved (contains "FOR" "AND FOR") and REP PAYEE CODE is not 1-3, or REP PAYEE is coded and no REP PAYEE in NAME/ADDRESS.

ACTION: Verify REP/PAYEE and resubmit G-810 with corrected code or NAME/ADDRESS.

SBI ACTIVITY CONVEYING DEATH-MIRTEL NOT UPDATED-1231

CAUSE: This occurs when a mechanical SBI activity indicates death.

ACTION: Determine whether or not the beneficiary is dead. If he is not, request a corrected SBI card from SSA. If he is dead, take appropriate action to terminate the record, if it has not been terminated.

SBI ACTIVITY CONVEYING DEATH-MIRTEL NOT UPDATED-1224

CAUSE: This occurs when a G-810 activity is attempting to change the SMI option to or from SBI (8) without the accretion or deletion date.

ACTION: Prepare a corrected G-810 including the accretion or deletion date.

SEX CODE ON ACTIVITY AND MIRTEL NOT EQUAL-1235

CAUSE: This occurs when the sex code on G-810 activity code 20 does not match the sex code on MIRTEL.

ACTION: If the sex code on MIRTEL is correct, prepare a corrected G-810. If the sex code is incorrect on MIRTEL, prepare a G-810 activity code 22 to take the desired action and change the sex code.

SMI EFFECTIVE DATE IN ACTIVITY AND MIRTEL NOT EQUAL-1210

CAUSE: This occurs when the SMI effective date in a mechanical activity is earlier than the effective date in MIRTEL.

ACTION: Determine the correct effective date and prepare G-810 activity 22 to correct the date if necessary.

SMI OPTION INVALID FOR THIS MIRTEL-1221

CAUSE: This occurs when activity 20 conveys a SMI option (other than state buy-in) which is different than the option on MIRTEL. It will also occur if activity 22 conveys an option change without a corresponding change in record status, or conveys an illogical option change, i.e., MIRTEL has an 8 option and the activity has a 2 option.
ACTION: If a logical option change is required, prepare G-810 activity 22 to change the option and record status. If the option on MIRTEL is wrong and the change cannot be made with activity code 22, drop the record and reestablish it correctly.

**SMI PREMIUM RATE NOT CONSISTENT WITH INDICATORS-1510**

CAUSE: The SMI rate is not consistent with either the residency, variable or penalty percentage indicator. For example, indicators show standard table, non-variable, zero penalty percent and the SMI rate is less than the standard table rate.

ACTION: Verify SMI rate and indicators and submit corrected G-810.

**SMI TERM DATA INVALID FOR THIS MIRTEL-1226**

CAUSE: This occurs when an activity attempts to enter a SMI termination for a MIRTEL having a SMI option other than 1 or 5. It will occur if the termination data is incomplete, i.e., option 4 or 6 and no term date. Activity 20 will reject if it conveys a current or past termination or a change in termination date.

ACTION: Determine the proper enrollment information. If MIRTEL is incorrect, prepare a Form G-810 activity 22 to correct the record.

**TOB INVALID FOR THIS MIRTEL-1223**

CAUSE: This occurs when an activity with a type beneficiary, disabled now age 65, (2) matches a MIRTEL with a record status 90, Cessation of Disability.

ACTION: If a previously disabled beneficiary becomes reentitled based on attainment of age 65, the type beneficiary should be 0, (age 65).

**UNABLE TO CHANGE ENTITLEMENT DATES OR DOB WITH THIS ACTIVITY-1228**

CAUSE: This occurs when activity 20 contains either entitlement dates or a date of birth which is different from the MIRTEL record.

ACTION: If the dates need to be changed, prepare Form G-810 activity code 22 to correct the record. If the dates on the activity were incorrect, prepare Form G-810 activity code 20 with the correct dates.

**UNABLE TO ISOLATE NAME-1043**

CAUSE: Pre-edit program has a very comprehensive routine for isolating the QRRB's Name. However, if the group mark (1) does not precede the first line of address or the name contains NON-ALPHABETIC characters, this reject will occur.

ACTION: Verify NAME/ADDRESS, resubmit G-810.

**UNABLE TO PROCESS ACTIVITY-SCREENING REPLY OUTSTANDING-1308**
CAUSE: All activity, except activity 05, 21, 32 and 34 will try to process for ten days before it rejects. This referral will be generated on the tenth day if the screening reply still has not been received.

ACTION: Query SSA’s MBR had handle in accordance with current instructions.

**UNABLE TO PROCESS ACTIVITY WITH THIS MIRTEL-1205, 1232**

CAUSE: This occurs when the activity cannot be processed and none of the reasons listed above applies.

ACTION: MPS examiners give referral to supervisors; MOD examiners refer case to M&P-A.

**ZIP CODE IS MISSING-1047**

CAUSE: G-810 was prepared with a name and address but no zip code.

ACTION: Enter zip code and resubmit G-810.

**Exhibit 3 - MIRTEL Daily Referral - Alert**

**ALERT – ANN ADJUSTED – ARREARAGE DUE -2226**

CAUSE: This occurs when a beneficiary has Part B coverage and premiums have not been paid, either by deductions, direct bill, or by the state.

ACTION: Follow the steps outlined below to process an arrearage.

1. Check the date of the MEDREF referral. The arrearage period should be around that time. Use MOLI to determine what months the beneficiary had entitlement to Part B and to determine the correct premium rate. The MOLI CP screen will have detailed information about the premium rate, including information on IRMAA, Part B Reduction, variable rate and penalty rate.

2. Use PREH screen 3277 to determine what months premiums were deducted from the recurring RR or SS payments. The PYMT-BEG-DT field indicates the month the RRB paid out the benefit check. The SMI-PREM-AMT (NOTE: This amount could include Part C and/or D premiums. Check the MOLI CP screen for the Part B amount) field indicates how much was taken for the monthly premium. If there are entries in the TERM-SUSP-CAUSE-CODE field, the check for that month was not released, and therefore premiums were not deducted from the RR benefit for that month. If there is an entry in the SS-BENF-TERM-SUSP-CAUS-CD field, the SS benefit was not released for that month. Note any Medicare vouchers that appear in field RR-VCHR-NO. (TAX screen PF 21 will show recurring deductions from an RR benefit, but not always from an SSA benefit.) NOTE: See RCM 16.2 for further instructions on reading PREH screens.
3. Use PREH screen 3275 to determine which months had premiums deducted from non-recurring payments. The voucher number appears in the VCHR-NO-1 field and the VCHR-DT field has the date of the voucher. Premiums deducted from vouchers or refunded from vouchers appear in the SMI-ACCRU-OP-AMT field on page 3 of the voucher. Deducted amounts will have a minus sign before the amount. Refunded premiums will not have a minus sign. Only premium refunds created in MAMMA (example 003 voucher) appear here. (NOTE: This amount could include Part C and/or D premiums. Check the CH or DH screens.) Premium deductions from an RBD/SBD manual voucher could appear here as well as the multiple month deduction vouchers (example 004 voucher) that are created in MAMMA.

Example 1: PREH screen 3275 indicates an 004 voucher took place on July 1, 2009. Page 3 of the voucher indicates $192.80 was deducted. The $192.80 is two months of premiums at $96.40 per month for the months of June 2009 and July 2009. The premium deduction for multiple month premium deduction vouchers goes through the month of the voucher.

Example 2: PREH screen 3275 indicates an 003 voucher took place on June 22, 2009. Page 3 indicates $289.20 was refunded. The $289.20 is three months of premiums at $96.40 per month for the months of April 2009 through June 2009. The refund of premiums goes through the month of the voucher.

(TAX screen PF 23 will show non-recurring deductions from RR benefits, but not always from SS benefits. Deductions from non-recurring payments can also be seen on the imaged ROC, SURPASS or SOLAR award.)

4. Check the MOLI (DB) screen (FOM 1 1540.15.3) to determine what months, if any, were paid by direct bill.

5. Check BERT (TP) screen for the months premiums were paid by the state (RCM 19.4.15). MOLI (SB) screen (FOM 1 1540.15.4) has state-buy-in information as well, but BERT (TP) is the official record.

6. Use the PHUS (RCM 19.2.15 e) to determine what months SSA deducted premiums. The BERT (DB) screen, PF 6, will give you the amount paid by direct bill at SSA (RCM 19.4.15).

Check the imaging system for refunds issued through the Medicare Payment System (MPS).

8. Are there any months of coverage that did not have deductions made? Are there any months collected at a lower premium rate?

If yes, an arrearage is due. Write up the months and the premium amounts due on the G-363M. Be sure to use the correct premium rate. NOTE:
Beware of erroneous refunds that typically happen when a SBI refund voucher gives back too much money.

9. If six or more consecutive months of premiums are owed, check Palmetto’s records for utilization and BERT for HMO coverage. If the beneficiary did not use Part B nor was in an HMO for the arrearage period, the beneficiary has the option to cancel Part B for those months and have Part B effective with the month we resumed deducting premiums (RCM 3.2.105).

10. If the beneficiary is deceased, we can collect the debt from a survivor who is in pay status at the RRB and who lived with the deceased beneficiary at the time the debt was incurred. If no such survivor exists, send an email to the field to develop for an estate. If there is no estate, send the debt directly to uncollectible.

11. Use PAR to set up the arrearage record and to release the letter with the appropriate payment options (RCM 3.7.51).

12. Set up an ASTRO record per RCM 16.5 to start the collection process if there is an RR annuity in current pay status that is large enough to collect the debt in 36 months and there is no SS benefit, or the SS benefit is also too small to collect the debt in 36 months.

   • Do not use ASTRO if we are collecting from an SS benefit. Send the folder to dorm for 30 days to see which repayment option is chosen. Send RBD or SBD a G-812 on a G-26a to start full or partial withholding. When the worksheet is returned, set up a RECR table (RCM 3.12.18).

13. Send the case to authorization.

**ALERT - BENEFICIARY DECEASED - ARREARAGE DUE-2228**

**CAUSE:** This occurs when the paid through date is prior to the date of death.

**ACTION:** If premiums are due, handle in accordance with RCM 3.7.

**ALERT - CATASTROPHIC DATA DEVELOPED - INVALID RPD - ASSUME VARIABLE-2696**

**ALERT - CATASTROPHIC DATA DEVELOPED - RPD ASSUMED VARIABLE - VERIFY-2694**
**ALERT - CATASTROPHIC DATA DEVELOPED - RPD NONVARIABLE - VERIFY-2695**

**CAUSE:** MIRTEL validation of the recurring premium deduction (RPD) found an RPD other than standard table, nonvariable rate with catastrophic data. MIRTEL developed the catastrophic data.

**ACTION:** Verify RPD and other information. If MIRTEL is correct, check for refund or arrearage. If MIRTEL is incorrect, prepare a G-810 to correct MIRTEL and check for refund or arrearage.

**ALERT - CATASTROPHIC EFFECTIVE DATE EARLIER THAN PREVIOUS - ADJUST DATES-2605**

**CAUSE:** MIRTEL validation of the catastrophic data found that the current catastrophic data effective date is earlier than the previous catastrophic data effective date on the MIRTEL master.

**ACTION:** Send to M&P-A for referral to RCA.

**ALERT - CATASTROPHIC HISTORY OUT OF SEQUENCE - ADJUST MANUALLY-2606**

**CAUSE:** The validation process developed catastrophic data and the new catastrophic data effective date is prior to the one currently on the MIRTEL master.

**ACTION:** Send to M&P-A for referral to RCA.

**ALERT - CESSATION OF DIB - ARREARAGE DUE-2227**

**CAUSE:** This occurs when the paid through date is prior to the termination date due to cessation of disability.

**ACTION:** If premiums are due, handle in accordance with RCM 3.7.

**ALERT - CHECK EFFECTIVE DATES WITH DATE OF MARRIAGE-2114**

**CAUSE:** RASI system is furnishing MIRTEL system data that cannot be verified mechanically.

**ACTION:** MIRTEL will use the dates furnished by the RASI system. However, these dates must be verified and corrected if erroneous. In some cases, a pseudo number is required.

**ALERT - CHECK PAID THRU INFO - POSSIBLE REFUND DUE - MIRTEL NOT UPDATED-2810**

**CAUSE:** MIRTEL record indicates possible dual payment of SMI premiums.
ACTION: MIRTEL will use the dates furnished by the RASI system. However, these
dates must be verified and corrected if erroneous. In some cases, a pseudo number is
required.

** ALERT - CHECK ZIP CODE - UNABLE TO VERIFY IN ZIP MASTER-2113  

** CAUSE:** System accepted ZIP code but it was unverified. 

** ACTION:** Determine correct address for QRRB and correct address, if necessary. 

** ALERT - COL VARIABLE - MIRTEL'S PERCENT RETAINED POSSIBLE REFUND 
OR ARREARAGE-2518  

** CAUSE:** The COL update established a variable rate. The CHICO and MIRTEL penalty 
percentages were not equal. The variable rate was established based on MIRTEL's 
penalty percentage. 

** ACTION:** Verify rate. If the rate is correct, check for refund or arrearage. If the rate is 
incorrect, prepare a G-810 activity code 17 to correct MIRTEL and check for refund or 
arrearage. 

** ALERT - COL VARIABLE - POSSIBLE REFUND OR ARREARAGE-2519  

** CAUSE:** The COL update established a theoretical variable rate for an enrollee in 
billing status. 

** ACTION:** Verify rate. If necessary, adjust the paid through date on MIRTEL with a G- 
810 or collect the arrearage. 

** ALERT - COL VARIABLE RESIDENCY CHANGED - VERIFY SMI RATE-2517  

** CAUSE:** The COL update established a variable rate. The CHICO and MIRTEL rate 
tables are not equal. The variable rate was established based on CHICO's rate table. 

** ACTION:** Verify SMI rate. If it is correct, no action is necessary. If incorrect, prepare G- 
810 activity code 17 to correct MIRTEL and either refund excess premiums or collect 
arrearage.]

** ALERT - DATA IN ZIP CODE AREA INCONSISTENT WITH FOREIGN ADDRESS- 
2104  

** CAUSE:** System attempting to validate ZIP code. It accepted what was entered but is 
unverified. 

** ACTION:** Determine correct address for QRRB and correct address, if necessary. 

** ALERT - EE'S AGE OF D/F USED TO DETERMINE SPOUSE EFF DATE-2116  

CAUSE: RASI system is furnishing MIRTEL system data that cannot be verified mechanically.

ACTION: MIRTEL will use the dates furnished by RASI. However, these dates must be verified and corrected if erroneous. In some cases, a pseudo number is required.

** ALERT - INCORRECT HI DATE CHANGED TO AGREE WITH OTHER DATA-2101 **

** ALERT - INCORRECT SMI DATE CHANGED TO AGREE WITH OTHER DATA-2102 **

CAUSE: HI and/or SMI date changed to agree with option, DOB, filing date, etc. The changed date, which is the MIRTEL DATE(S), will be shown as well as the original date.

ACTION: Determine correct entitlement date and initiate corrective action, if necessary.

** ALERT – PAID THRU DATE AFTER DOD – CHECK FOR POSSIBLE REFUND-2224 **

CAUSE: Premiums are paid directly or collected from the annuity after the month a beneficiary dies. Beneficiaries on direct bill usually pay in advance, so it is possible they will pass away and premiums will have already been paid for months after the DOD. The RRB will take action to refund the premiums collected for months after the DOD.

Sometimes the RRB is not notified timely of a beneficiary’s death and not due checks with premium deductions are issued in months after the DOD. The premiums sent to the Part B trust fund in these cases need to be returned to the SSEB account or the SSA account, depending on whether the RRB deducted the premium from the RR or SS benefit. The Death Transfer Listing identifies most of these cases. UPSD completes SF 1081’s to transfer the premiums back to the SSEB or SSA account.

If monthly payments with deductions were issued after the DOD and PREH screen (3277) indicates the payments were suspended or terminated (with a code other than a death code) immediately before the death code was put on the record, a manual transfer will be needed.

EX: An EE passed away in May 2009. PREH’s 3277 screen indicates a check with a $96.40 premium deduction from the RR benefit was released in June 2009. The death code termination was entered on PREH 6-2-02 (from TERM-SUSP-ACCT –DT field) stopping payments. Since the death code termination initially stopped the payments, this claim number will appear on the Death Transfer listing and UPSD will take action to transfer the premiums from the Part B trust fund to the SSEB account. A manual transfer would not be needed.

ACTION: Follow the steps below in handling 2224 referrals.

1. Check to make sure the date of death (DOD) on the referral and MOLI are the same. If not, verify the correct DOD. NOTE: If the beneficiary is alive, delete the referral.
2. Use the MOLI DB screen and/or the PREH 3277 screen to determine how premiums were collected around the time of death.

Move to step 3 if premiums were collected by direct bill. Move to step 4 if deducted from the annuity.

3. If the MOLI (DB) screen (FOM 1 1540.15.3) shows a paid through date after the month of death, a refund is due. For procedure on Priority of Payment, see RCM 3.7.70. According to HI 01001.325, we do not develop for eligible survivors unless the amount due is 3 or more months of premiums. If less than 3 months is due, no further action is required. Send a G-363M to imaging, in case a survivor benefit becomes payable or a claim is made by an eligible survivor. If we receive a claim for a refund of less than 3 months, we would still pay it if the claimant were an eligible survivor. Use the Medicare Payment System (MPS) to pay any refund. (RCM 3.13.89).

4. Verify that there was a previous termination or suspension immediately prior to the DOD termination. Look at the “TERM-SUSP-CAUSE-CODE” line to verify that the code is a death code, most commonly a “1” for the EE, a “51” for an MA and a “41” for a WA or WCA. Hit PF12 to see if there is a previous termination or suspension code on the same line immediately before the death code.

If there is no previous code, no action is needed. If there is a previous code, move to step 5.

5. Complete a G-240 to transfer the Part B premiums deducted from the not due checks. Transfer the premiums from the appropriate Part B trust fund (Aged/Disabled and IRMAA/Regular ) to the RRB’s SSEB account (8010) if deductions were from a RR benefit; to 8011.6 if deductions were from an SSA aged (OASI) benefit; or to 8011.7 if deductions were from an SSA disability benefit (DI). Move to step 6 if the deduction was from SSA benefits.

6. In addition to the G-240 transferring premiums from CMS to 8011.6 or 8011.7, complete another G-240 to transfer the premiums from either 8011.6 or 8011.7 to the appropriate SSA account (OASI or DI).

NOTE: Always delete the referral on MEDREF after all actions are taken or if it is determined that no action needs to be taken. In addition, this procedure is only for Part B premiums.

**ALERT - PAYEE CODE MISSING - RECORD STATUS SHOWS ANNUITY IN FORCE-2115**

**CAUSE:** Self-explanatory

**ACTION:** Verify record status, if annuity in force, no further action required; otherwise, correct record status and corresponding data.
ALERT - PENALTY PERCENT AND RESIDENCY CODES CHANGED TO REFLECT NEW RPD AND RESIDENCY-2621

ALERT - PENALTY PERCENT CHANGED TO AGREE WITH RPD-2620

CAUSE: A G-810 activity other than a 17 changed the RPD on MIRTEL and is not in agreement with the catastrophic data code. The MIRTEL validation changed the catastrophic data to agree with the RPD and/or address.

ACTION: Verify rate. If rate and catastrophic data are correct, check for refund or arrearage. If information is incorrect, prepare a G-810 activity code 17 to correct MIRTEL and check for a refund or arrearage.

ALERT - POSSIBLE DUAL DEDUCTIONS -MIRTEL NOT UPDATED-2811

CAUSE: Both SSA and RRB set up Medicare records and possibly began billing or deductions.

ACTION: Prepare a G-810 code 22 if RRB HI and/or SMI date should be changed. Refund any excess premiums paid through the Medicare Payment System (MPS).

ALERT - REPLY CONVEYING TERM - MIRTEL NOT UPDATED-2801

ALERT - REPLY CONVEYING SBI ENROLLMENT - MIRTEL NOT UPDATED-2802

ALERT - REPLY HAS YES OPTION - MIRTEL TERM - NOT UPDATED-2803

ALERT - REPLY SHOWS 2ND ENROLL - MIRTEL 1ST ENROLL - MIRTEL INFORMATION RETAINED-2804

ALERT - REPLY HAS CONFLICTING DATA - MIRTEL INFORMATION RETAINED-2805

ALERT - REPLY SHOWS 1ST ENROLL - MIRTEL 2ND ENROLL - MIRTEL NOT UPDATED-2806

ALERT - REPLY RECEIVED - MIRTEL SHOWS DUAL ANNUITANT - MIRTEL NOT UPDATED-2807

ALERT - REPLY RECEIVED ON INACTIVE CASE - REPLY NOT PROCESSED-2808

CAUSE: These are rescreening replies which indicate a conflict between SSA and RRB Medicare records.

ACTION: Determine which record is correct. If the RRB record is incorrect; drop and reestablish the record correctly. Check whether any refund is due.

ALERT - REP PAYEE CODE CHANGED TO AGREE WITH OTHER DATA-2103
CAUSE: NAME/ADDRESS indicates REP PAYEE involved, no code shown; system enters REP PAYEE CODE 2. NAME/ADDRESS does not indicate a REP PAYEE, a REP PAYEE CODE was shown; system deletes code.

ACTION: Determine correct name and address and if a REP PAYEE was named. Initiate corrective action, if necessary.

**ALERT - RESCREENING REPLY CONVEYING EARLIER SED - MIRTEL NOT UPDATED-2809**

CAUSE: SSA has an earlier SED than shown on MIRTEL.

ACTION: Determine correct SED.

**ALERT - RESIDENCE CHANGED AND RATE ASSUMED VARIABLE - VERIFY-2642**

CAUSE: A G-810 activity other than a 17 changed the RPD on MIRTEL. The SMI premium rate on the MIRTEL master is not in agreement with the catastrophic data code. The catastrophic data coding was updated by the validation process.

ACTION: Verify the SMI premium rate. If the catastrophic data code and effective date are correct, NAN. If incorrect, submit a G-810 activity code 17. Also check for arrearages or refund.[

**ALERT - RESIDENCY CHANGED - NEW VARIABLE RATE DEVELOPED-2641**

CAUSE: A new variable rate with a penalty percent was established from a different rate table based on a change of residency.

ACTION: Verify new rate. If it is correct, check for refund or arrearage. If it is incorrect, prepare a G-810 activity code 17 to correct MIRTEL and check for refund or arrearage.

**ALERT - RPD AND RESIDENCY CHANGED TO REFLECT NEW ADDRESS-2602**

**ALERT - RPD CHANGED FOR NEW RESIDENCY - NEW RATE LESS THAN VARIABLE - REVIEW-2603**

**ALERT - RPD CHANGED TO CONFORM TO MASTER CATASTROPHIC CODING-2604**

**ALERT - RPD CHANGED TO REFLECT NEW RESIDENCY AND PENALTY PERCENT-2601**

**ALERT - RPD NOT MATCHED TO TABLE - VARIABLE RATE ASSUMED VERIFY-2697**

CAUSE: The MIRTEL validation changed the RPD to agree with the information in the MIRTEL record.
ACTION: Verify the RPD and other information. If MIRTEL is correct, check for refund or arrearage. If MIRTEL is incorrect, prepare a G-810 activity code 17 to correct MIRTEL and check for refund or arrearage.

**Alert - RPD Matched to New and Old Rate Tables - Verify Penalty Percent-2699**

**Cause:** The RPD matched a rate on both the old and new rate tables so MIRTEL could not determine the penalty percent.

**Action:** Verify RPD and penalty percent, prepare G-810 activity code 17 to show correct penalty percent in the catastrophic data.

**Alert - SBI Accretion on Variable Case - No Variable Rate-2630**

**Cause:** Catastrophic data on the MIRTEL master indicates a variable SMI rate but there is no variable base rate on MIRTEL.

**Action:** Submit a G-810 activity code 17 with catastrophic data and show the variable base SMI premium amount in item 14.

**Alert - SBI Deletion - Previous Variable Rate Not Available - Obtain-2238**

**Cause:** Catastrophic data on the MIRTEL master indicates a variable SMI rate but mechanical action is unable to restore it because there is no variable base rate on MIRTEL.

**Action:** Submit a G-810 activity code 17 with catastrophic data and show the variable base SMI premium amount in item 14.

**Alert - SBI Prior to SMI Term Date - Possible Refund or Arrearage Due-2222**

**Cause:** This occurs when a SBI Accretion prior to the SMI termination date is processed.

**Action:** If premiums were paid after the SBI accretion date, refund the excess premiums through the Medicare Payment System (MPS). If premiums were not paid through the month prior to the accretion, correct the arrearage amount and take action to recover the corrected amount.

**Alert - Screening Reply Received - MIRTEL Not Pending-1813**

**Cause:** G-810 or G-811 code 32 was prepared to force Medicare record before SSA clearance received.
ACTION: Determine the most advantageous HED and SED and correct the MIRTEL record.

**ALERT - SMI EFFECT DATE CHANGED TO LATER DATE-2223**

CAUSE: This occurs whenever the SMI effective date is changed to a later date.

ACTION: Verify that the later SMI effective date is correct. If it is not, prepare Form G-810 activity 22 to change the date.

**ALERT - SMI OPTION CHANGED FROM 1ST TO 2ND ENROLLMENT-2221**

CAUSE: This occurs whenever the SMI option is changed directly from 1st enrollment to 2nd enrollment.

ACTION: Verify the correct option.

**ALERT - SMI TERMINATED - ARREARAGE DUE-2220**

CAUSE: This occurs when the paid through date is prior to the SMI termination date.

ACTION: Determine if premiums are due and take action to collect them.

**ALERT - TERMINATED DIB-ENROLLED FOR AGE - PREVIOUS ENROLLMENT HAD ARREARAGE-2314**

CAUSE: This occurs when a previously terminated disabled beneficiary is reenrolled for SMI based on attainment of age 65.

ACTION: Determine if premiums are due for the prior period and take action to collect them.

**ALERT - UNABLE TO COMPUTE RATE - BASIC RATE IN MIRTEL-2210**

CAUSE: G-811 processed to set up GEP enrollment and MIRTEL cannot compute the SMI premium rate.

ACTION: Prepare G-810 activity code 20 to correct SMI premium rate. Items 12, 13, and 14 must be completed.

**ALERT - VARIABLE RATE EXCEEDS LIMIT FOR PENALTY PERCENT - CORRECT RATE OR CODE-2640**

CAUSE: MIRTEL shows a variable rate, but the RPD with penalty percent shown is equal to or greater than the nonvariable rate with that penalty.

ACTION: Verify RPD and catastrophic data codes. Prepare a G-810 activity code 17 to correct MIRTEL and check for refund or arrearage.
ALERT - VARIABLE RATE INVOLVED - CURRENT HI - RPD USED-2212

CAUSE: MIRTEL is unable to determine the SMI premium rate due to catastrophic coding. Rate on master was used.

ACTION: Verify rate. If it is correct, NAN. If it is incorrect, prepare a G-810 activity code 17 to correct MIRTEL.

ALERT - VARIABLE RATE INVOLVED - PENALTY ADDED TO VARIABLE BASE RATE-2213

CAUSE: A variable rate was established. The amount of the existing penalty percent was added to the variable base rate.

ACTION: Verify the SMI rate. If it is correct, check for refund or arrearage. If it is correct, prepare a G-810 activity code 17 to correct MIRTEL and check for refund or arrearage.

ALERT - ZIP CODE INCORRECT OR OMITTED - WAS DEVELOPED FOR ZIP MASTER-2109

ALERT - ZIP CODE OMITTED - NOT FULLY DEVELOPED FROM ZIP MASTER-2210

ALERT - ZIP CODE OMITTED - DEVELOPED IN ISOLATED AREA ONLY-2112

CAUSE: G-810 was prepared with name and address but ZIP code was omitted or incorrect.

ACTION: Enter correct ZIP code and resubmit G-810.

Exhibit 4 - Conversion Referrals

MESSAGE: AUX-(DIB) DUP CODE AND PSEUDO NUMBER INCONSISTENT.

CAUSE: This message was produced in the AUX and DIB conversions when there was an entry in only one of the fields.

ACTION: If there is a pseudo number and it is correct, prepare Form G-811 activity code 17 to remove the earmark. If the pseudo number is correct or missing, prepare Form G-811 activity code 05 to drop the record, then Form G-810 activity code 13 to reestablish the correct record. Also prepare Form G-811 activity code 22 to correct the HIM.

MESSAGE: AUX DUPLICATE - THIS RECORD RETAINED.

CAUSE: This occurred when there were two records for the same beneficiary on the AUX file. If only one record contained a pseudo number that record was retained. In other cases, the record to be retained was selected at random.
ACTION: ESA has the referral of the record which was dropped. Compare the dropped record to the retained record either using the referral or an old WHIM, and determine the correct data. Prepare Form G-811 activity code 17 to remove the conversion referral earmark or Form G-810 activity code 17 to make any necessary changes.

MESSAGE: AUX INVALID PSEUDO NUMBER - MIRTEL CONTAINS SPACES

CAUSE: This occurred in the AUX conversion when the entry in the pseudo number field was not a valid pseudo.

ACTION: Determine whether or not there should be a pseudo number. If not, prepare Form G-811 activity code 17 to remove the earmark. If a pseudo number is required, prepare Form G-810 activity code 05 to drop the record. Then prepare Form G-810 activity code 13 to set up the record with the pseudo number. Form G-811 activity code 21 is also required to send a universal RIC to the HIM.

MESSAGE: AUX INVALID RECORD STATUS - MIRTEL CONTAINS 02.

CAUSE: This occurred when the data in the AUX fields, SMI option, record status and jurisdiction was inconsistent. For example, if the jurisdiction code was 3 or 4, the record status should not have been 1, 2 or 4.

NOTE: The conversion entered a record status 02 (no annuity application filed - jurisdiction pending.)

ACTION: Determine the correct MIRTEL record status. Prepare Form G-811 activity 17 to clear the conversion referral earmark. Then prepare either Form G-810 or Form G-811 activity code 32 to change the record status.

MESSAGE: AUX - UNABLE TO ISOLATE NAME.

CAUSE: This occurred in the AUX conversion because: (1) the group mark did not precede the first line of the address; (2) in representative payee case, if the work "for" did not appear at the beginning of a line; (3) there was only one name; or (4) there were non-alpha characters in the name.

ACTION: Prepare Form G-810 activity code 17 to correct the name and address.

MESSAGE: BEN SYM INCONSISTENT WITH PREF OR TYPE BEN.

CAUSE: This occurred when the symbol was inconsistent with either / or the prefix or type of beneficiary, i.e., the beneficiary symbol was blank and the prefix was other than A or H and/or the type of beneficiary was other than 01, 11 or 21.

ACTION: Determine the correct entries for these items. Prepare Form G-811 activity code 05 to drop the record. Prepare Form G-810 activity code 13 to reestablish the correct record. If symbol or type of beneficiary was incorrect also prepare Form G-811 activity 22 to send a universal RIC to SSA. If the prefix was incorrect Form G-811
activity code 35 is required to send a kill credit from the wrong prefix and number to the correct one.

MESSAGE: DIB TOO YOUNG TO QUALIFY FOR MEDICARE.

CAUSE: This occurred in a disability case if the HI effective date is prior to a disabled child's attainment of age 20.

ACTION: If the child is not age 20, prepare Form G-810 activity code 17 to correct the effective dates. If he is not yet age 20, prepare Form G-811 activity code 06 to drop the MIRTEL record and the HIM. Notify the child when he will become eligible.

MESSAGE: DIB DIS HI EFF DATE PRIOR TO JULY 1973.

CAUSE: This message was produced in the conversion of the DIB file.

ACTION: Prepare Form G-810 activity code 17 to remove the conversion referral earmark and correct either the HI effective date or the type of beneficiary to non-disabled.

CAUSE & ACTION: Same as previous message.

MESSAGE: DIB DUPLICATE - THIS RECORD RETAINED.

CAUSE: This occurred when there were two records on the DIB file. If only one record contained a pseudo number, that record was retained. In other cases, the record to be retained was selected randomly.

ACTION: Same as AUX Duplicate.

MESSAGE: DIB MATCH DUP - THIS RECORD RETAINED.

CAUSE: This occurred when a DIB record matched a record created in the AUX conversion.

ACTION: Same as AUX Duplicate.

MESSAGE: EXCESS PREM ANN IN FORCE.

CAUSE: This occurred when the record status showed annuity in force (code 11 or 31) and there was an excess premium amount.

ACTION: Determine whether or not a refund is due. If a refund is due, issue the refund through the Medicare Payment System (MPS). Always prepare Form G-810 activity code 17 to remove the earmark and x out the excess premium amount.

MESSAGE: INVALID OR MISSING...
There is a series of messages involving invalid or missing data. The invalid data includes date of birth, SMI and HI effective dates, paid through date, etc.

CAUSE: These messages were produced after the final conversion if the field was blank, or a date was not valid.

ACTION: Prepare Form G-810 activity code 17 to remove the earmark and enter or correct the data.

MESSAGE: NO MATCH CHICO...

CAUSE: There are four messages to refer out cases in which the MIRTEL record indicated an annuity was in force or in suspense and no matching CHICO record was located. This could have occurred because the matching criteria differed or the MIRTEL record status was incorrect.

ACTION: If there is a CHICO record but the fields used for matching differ, correct the erroneous record. If CHICO is incorrect, either make the correction or refer the case to the appropriate module. Prepare Form G-811 activity code 17 to remove the earmark.

MESSAGE: NO MATCH MIRTEL...

CAUSE: One of five referral messages was produced when either an in force CHICO record with a SMI option of 2, 3, 4 or 8 or a suspended CHICO record did not match a MIRTEL record.

ACTION: The conversion program sets up a MIRTEL record based on the information in CHICO. Therefore, it is only necessary to verify that the record is correct. If it is, prepare Form G-811 activity code 17 to remove the earmark. If the record is incorrect, prepare Form G-810 activity code 17 to correct the record.

MESSAGE: OP DISC - CHICO INFORCE...

CAUSE: One of two option discrepancy messages was produced to indicate one record had a "yes" option and the other had a "no" type option.

NOTE: This message will not be produced in certain cases in which the discrepancy is temporarily acceptable, i.e., CHICO has a 4 option and MIRTEL has a 5 option.

ACTION: Determine the correct option. If the option on MIRTEL is correct, prepare Form G-811 activity code 17 to remove the earmark and correct CHICO either by an award action or Form G-607.

MESSAGE: POSSIBLE REFUND DUE - CHECK PAID THRU DATES.

CAUSE: This occurred when CHICO was in force with deductions and MIRTEL had a paid through date which was either current or in the future.
ACTION: Determine whether or not a refund is due. If so, refund the excess premiums through the Medicare Payment System (MPS). Prepare Form G-810 activity code 17 to remove the earmark and X out the paid through date.

MESSAGE: RPD DISCREPANCY.

CAUSE: This occurred when the recurring premium rate in MIRTEL and CHICO were not equal.

ACTION: Determine the correct premium rate. If CHICO is incorrect prepare an award to correct the rate. Also prepare Form G-811 activity code 17 to remove the earmark.

If MIRTEL is incorrect prepare Form G-810 activity code 17 to correct the rate.

MESSAGE: RR(SS) TERM FOR RSN NOT = DEATH CK QRRB STAT.

CAUSE: This occurred when a MIRTEL record matched a CHICO record (either an RR or SS benefit) which is terminated for other than death.

ACTION: Prepare Form G-810 activity code 17 to change the record status to 98, inactive - no longer QRRB. If jurisdiction transfers to SSA, prepare Form PR-80. If jurisdiction remains at RRB but on a different claim number, take action to cross-refer the numbers.

MESSAGE: SMI EFF DATE INCONSISTENT BETWEEN TWO FILES.

CAUSE: This occurred when MIRTEL and CHICO had the same SMI options but the effective dates were not equal.

ACTION: Determine the correct effective date. If CHICO is incorrect, prepare Form G-607 to correct the date. Also prepare Form G-811 activity code 17 to remove the earmark.

If MIRTEL is incorrect, prepare Form G-811 activity code 17 to correct the date.

Exhibit 5 - MIRTEL Folder Notice

ANNUITY IN FORCE W/DED - POSSIBLE REFUND DUE-3229

CAUSE: This occurs when a MIRTEL record with a paid through date which is current or in the future matches a CHICO record that is in force with premium deductions.

ACTION: Determine whether or not the paid through date is correct. If it is correct, refund the excess premiums through the Medicare Payment System (MPS).

CESSATION OF DIB - MIRTEL TERMINATED-3303
RCM 3.6

CAUSE: Result of G-811 activity code 51. If the termination date is prior to or in the same month as the processing month the referral will be printed when the activity is processed. If the termination date is in the future, the referral will be printed in the first processing run that corresponds to termination date.

ACTION: Referral will be sent to Claim Files to be associated with file.

IEP OPTION CHANGE - POSSIBLE REFUND DUE-3222

CAUSE: Result of a manual activity changing election from Part A & B to Part A only. MIRTEL record indicates that premiums have been paid starting with SMI effective date or after Part B termination date.

The paid through date and any excess will be printed below the message.

ACTION: Referral will be matched to activity and returned to examiner. (When you are changing from a Part A & B option to a Part A only, annotate activity that refund has been made or not applicable).

It will be the examiner's responsibility to determine correct action. If activity form indicates action taken previously stamp "FILE ONLY" and forward to Claim Files. Otherwise, request file and refund premiums.

LOSS OF QRRB - PREV ARREARAGE - CHECK ACCTS REC FOR AMT-3231

CAUSE: Beneficiary's entitlement is terminated and MIRTEL record indicates a previous arrearage.

ACTION: Check to determine the amount of the arrearage and whether premiums are due or have been collected.

MIRTEL DROPPED-3301

CAUSE: G-811 Activity Code 05 or 06 prepared.

ACTION: Referral will be associated with G-811 and returned to examiner only if requested. This will notify the examiner that his subsequent actions, if applicable, may now be submitted. If no further action is necessary, mark "FILE ONLY" and send to claim files.

PREMIUMS DUE FOR PERIOD PRIOR TO SBI-3221

CAUSE: An activity (MANUAL OR MECHANICAL) was processed indicating a buy-in accretion. However, the MIRTEL record indicates that premiums are still due for a period prior to the accretion date.

The paid through date and any excess will be printed below the message.
ACTION: If the referral from a G-810 or G-811, it will be matched with the form and returned to the examiner. (When you are processing SBI accretions and are aware of this situation, you should annotate the form that premiums are or are not due).

It will be the examiner's responsibility to determine correct action. If the activity form indicates premiums are to due, stamp "FILE ONLY" and send to Claim Files. Otherwise, request file and take necessary action to collect premium arrearage.

If the referral resulted from a mechanical activity, the file will be requested and returned to a GS-5 claims clerk in MPS.

**PREMIUMS PAID AFTER SBI - POSSIBLE REFUND DUE-3220**

CAUSE: An activity (MANUAL OR MECHANICAL) was processed indicating a buy-in accretion. However, the MIRTEL record indicates that premiums were paid after the accretion date. The paid through date and any excess premiums will be printed below the message.

ACTION: If the referral resulted from a G-810 or G-811, it will be matched with the form and returned to the examiner. (When you are processing SBI accretions and are aware of this situation, annotate the form that refund was made or isn't applicable). The examiner will determine the proper action. If refund is applicable, folder should be requested, otherwise stamp "FILE ONLY" and forward to claim files. If the referral resulted from a mechanical activity, the file will be requested and forwarded to a GS-5 claims clerk in MPS.

**PREMIUMS PAID AFTER TERM DATE - POSSIBLE REFUND DUE-3223**

CAUSE: Result of a manual activity changing election from Part A & B to Part A only. MIRTEL record indicates that premiums have been paid starting with SMI effective date or after Part B termination date.

The paid through date and any excess will be printed below the message.

ACTION: Referral will be matched to activity and returned to examiner. (When you are changing from a Part A & B option to a Part A only, annotate activity that refund has been made or not applicable).

It will be the examiner's responsibility to determine correct action. If activity form indicates action taken previously stamp "FILE ONLY" and forward to Claim Files. Otherwise, request file and refund premiums.

**PREVIOUS ARREARAGE - CHECK ACCTS. REC. OR ARREARAGE AMT-3224**

**PREVIOUS ARREARAGE - AMOUNT UNKNOWN - CHECK ACCTS REC.**
CAUSE: Record is being reactivated. Activity changing a first termination to a second enrollment or when a QRRB previously entitled to Medicare based on disability is attaining age 65.

The arrearage amount will be printed when available.

ACTION: Referral will be matched to activity and returned to examiner. (When you are processing second enrollment or an age attainment for a QRRB who was previously entitled based on disability, annotate the activity that premiums are due or have been collected).

It will be the examiner's responsibility to determine correct action. If activity form indicates previous action was taken, stamp "FILE ONLY" and return to Claim Files. Otherwise, request file and take necessary action to collect arrearage.

If the referral resulted from a mechanical activity, the file will be requested and given to a GS-5 claims clerk in MPS.

REVERSE TERMINATION - PREVIOUS ARREARAGE-3227

CAUSE: Activity processed reversing termination for nonpayment and past premiums still due. Applies to the current eligibility period.

ACTION: Referral will be sent to Claim Files. Past premiums will be collected when the next billing notice is released or when the annuity is adjusted.

RRB JURISDICTION - REPLY PROCESSED

CAUSE: An activity processed that cleared pending jurisdiction. The contents of the updated MIRTEL will be printed.

ACTION: Referral will be set to Claim Files if there is a paid through date on the referral. If no paid through date is shown, the referral is discarded.

SCREENING REPLY PENDING 30 DAYS - TRACER-3302

CAUSE: Screening reply pending 30 days from initial screening request date, MIRTEL generated another request.

ACTION: File is requested from Claim Files to determine why clearance has not been received.

SMI OPTION CHANGED - POSSIBLE REFUND DUE-3228

CAUSE: Result of a manual activity changing election from Part A & B to Part A only. MIRTEL record indicates that premiums have been paid starting with SMI effective date or after Part B termination date.
The paid through date and any excess will be printed below the message.

ACTION: Referral will be matched to activity and returned to examiner. (When you are changing from a Part A & B option to a Part A only, annotate activity that refund has been made or not applicable).

It will be the examiner's responsibility to determine correct action. If activity form indicates action taken previously stamp "FILE ONLY" and forward to Claim Files. Otherwise, request file and refund premiums.

**Exhibit 6 - Monthly MAMMA Referrals**

**8001 - MECHANICALLY ADJUSTED - ARREARAGE DUE**

CAUSE: This occurs when MAMMA is unable to determine the correct amount of the arrearage due. Deductions for the current month are started.

ACTION: Determine the correct amount of arrearage and take action to recover the arrearage.

**8002 - COMPUTATION ERROR - CHECK SMIB EFFECTIVE DATE AND RPD**

CAUSE: This occurs when there is discrepant information on the MIRTEL/MOLI record and MAMMA cannot create an award to start, stop, or change the premium deduction. No adjustment is made.

ACTION: Refer to P&S – PAS.

**8003 - MECHANICALLY ADJUSTED - POSSIBLE REFUND DUE**

CAUSE: This occurs when MAMMA is unable to determine the correct amount of the refund, mostly because of the State paying the premium and there is or was a variable rate involved. If the accretion and deletion dates on the MIRTEL/MOLI record are close together, an 8931 - SBI ACCRETION & RECENT DELETION - POSSIBLE ARREARAGE OR REFUND referral is also generated. Deductions are stopped.

ACTION: Determine the correct amount of refund due and take action to issue the refund check.

**8004 - IMPOSSIBLE CONDITION - REFER TO ESA**

CAUSE: This occurs when there is discrepant information on the MIRTEL/MOLI record and MAMMA cannot create an award to start, stop, or change the premium deduction. No adjustment is made.

ACTION: Refer to P&S – PAS.
MESSAGE: 8100 - SMI OPTION DISCREPANCY - ANNUITY WILL BE ADJUSTED NEXT MONTH

CAUSE: This occurs when the Part B option on MIRTEL/MOLI is not the same as the Part B option on CHICO/DATAQ. No adjustment is made.

ACTION: Refer to P&S – PAS.

8200 - CASE SELECTED FOR ADJUSTMENT – REJECTED

CAUSE: This occurs when there is discrepant information on the MIRTEL/MOLI record and MAMMA cannot create an award to start, stop, or change the premium deduction. No adjustment is made.

ACTION: Refer to P&S – PAS.

8300 - CRITICAL CONVERSION REFERRAL ON MIRTEL/MOLI

CAUSE: This occurred when the old Medicare system was converted to the new MIRTEL/MOLI system and there was something wrong with the Medicare record. This is obsolete.

ACTION: Refer to P&S – PAS.

8301 - UNABLE TO ADJUST MIRTEL/MOLI - REJECTED

CAUSE: This occurs when there is discrepant information on the MIRTEL/MOLI record. No adjustment is made.

ACTION: Refer to P&S – PAS.

MESSAGE: 8400 - MIRTEL/MOLI SHOWS SBI WITHOUT ACC DATE - UPWARD ADJ TO CHICO/DATAQ REQ

CAUSE: This occurs when the Part B option on MIRTEL/MOLI is 8, state buy-in with no accretion date, and CHICO/DATAQ has a Part B option 1 or 5. No adjustment is made.

ACTION: Determine the correct Part B option. If the Part B option is state buy-in, create a MEDCOR Activity 20L to enter the accretion on MIRTEL/MOLI. If the Part B option is not state buy-in, create a MEDCOR Activity 20L or 22L to correct the Part B option on MIRTEL/MOLI.

MESSAGE: 8500 - MIRTEL/MOLI HAS TERM OPT - UPWARD ADJ TO CHICO/DATAQ REQ - REFUND DUE

CAUSE: This occurs when the month of termination is prior to the processing month or there is no Part B termination date on MIRTEL/MOLI or MAMMA does not have enough
information to calculate the amount of the refund. Deductions are stopped, but a refund was not made.

ACTION: If the termination is correct, prepare a refund of any excess premiums. If necessary, create a MEDCOR Activity 22L to enter the Part B termination date on MIRTEL/MOLI or reverse the Part B termination if incorrect.

MESSAGE: 8600 - SMI OPTION DISCREPANCY - CHECK BOTH FILES

CAUSE: This occurs when the Part B option on MIRTEL/MOLI and CHICO/DATAQ are different and no adjustment can be made mechanically.

ACTION: Determine the correct enrollment data and correct either MIRTEL/MOLI or CHICO/DATAQ.

MESSAGE: 8700 - RPD DISCREPANCY - ANNUITY ADJUSTED

CAUSE: This occurs when the premium rates in MIRTEL/MOLI and CHICO/DATAQ are different. CHICO/DATAQ is mechanically adjusted to correct the rate to the one shown on MIRTEL/MOLI. This referral is no longer generated. However, there is data printed in the syslist.

ACTION: Determine the correct premium rate and if necessary, create a MEDCOR activity 17L to correct MIRTEL/MOLI. If necessary, prepare a refund or take action to collect the arrearage.

MESSAGE: 8800 - TERMINATION - CHECK JURISDICTION

CAUSE: This occurs when a MIRTEL/MOLI record with a record status other than 98 or 99 matches a CHICO/DATAQ record that was terminated for a reason other than death.

ACTION: Determine whether or not the beneficiary is still a QRRB. If no longer a QRRB, create a MEDCOR Activity 52S and take necessary action to transfer jurisdiction to SSA. If necessary, notify the beneficiary of the transfer. If the beneficiary remains a QRRB on the same number, create a MEDCOR Activity 05S to drop the MIRTEL/MOLI record and a day later, create a MEDCOR Activity 13L to reestablish the MIRTEL/MOLI record.

MESSAGE: 8900 - POSSIBLE REFUND DUE - CHECK PAID THRU DATE

CAUSE: This occurs when a MIRTEL/MOLI record with a paid through date which is current or in the future matches a CHICO/DATAQ record that is in force with premium deductions.

ACTION: Determine whether or not the paid through date is correct. If it is correct, prepare a refund for the excess premiums and create a MEDCOR Activity 20L to X-out the paid through date. If the paid through date is erroneous, create a MEDCOR Activity
20L to X-out the date. Enter all XXXs in the PAID THRU DATE field on the MEDCOR Activity 20L.

MESSAGE: 8901 - MIRTEL/MOLI PENDING – CHICO/DATAQ SUSPENDED WITH DED

CAUSE: This occurs when a paid through date should be applied to the MIRTEL/MOLI record because a CHICO/DATAQ record with Part B deductions was suspended.

ACTION: Determine why the record is still pending. Create a MEDCOR Activity 32L or 34L to clear the MIRTEL/MOLI record and update the paid through date.

MESSAGE: 8902 - MIRTEL/MOLI SHOWS LOSS OF QRRB STATUS – CHICO/DATAQ IN FORCE

CAUSE: This occurs when the record status on MIRTEL/MOLI is 98 and the CHICO/DATAQ record is in pay status (regardless of Part B option).

ACTION: Determine if the beneficiary is a QRRB or not. If the beneficiary is no longer a QRRB, send an e-mail to RBD or SBD to terminate the annuity. If the beneficiary is still a QRRB, drop the MIRTEL/MOLI record by creating a MEDCOR Activity 05S, then create a MEDCOR Activity 13L to reestablish the MIRTEL/MOLI record. If there is a surname change, once the MIRTEL/MOLI is reestablished, create a MEDCOR Activity 22L, adding the address and have a new Medicare card released.

MESSAGE: 8903 - MIRTEL/MOLI SHOWS CESSATION OF DIB – CHICO/DATAQ IN FORCE WITH DED

CAUSE: This occurs when the record status on MIRTEL/MOLI is 90 and the CHICO/DATAQ is in force with a Part B deduction.

ACTION: Determine the correct status of the beneficiary. If MIRTEL/MOLI is correct and the beneficiary is no longer disabled, send an e-mail to RBD or SBD to prepare an award to stop deductions. Make a refund of any excess premiums. If the beneficiary is still disabled, create a MEDCOR Activity 22L with XXXX in the PART A TERM DATE field and the PART B TERM DATE field to remove the termination dates.

MESSAGE: 8904 - MIRTEL/MOLI RSC SHOWS BENEFICIARY DECEASED – CHICO/DATAQ NOT TERMINATED

CAUSE: This occurs when the record status on MIRTEL/MOLI is 99 and the CHICO/DATAQ record is either in force or in suspense.

ACTION: Determine what generated the death notice to the MIRTEL/MOLI record and if that action was correct. If the beneficiary is deceased, send an e-mail to RBD or SBD and advise them that the annuitant is deceased. If the beneficiary is alive, create a MEDCOR Activity 22L with an active record status and XXXXs in the DATE OF DEATH field to remove the date of death.
8905 - RPD AND PAID THRU DISCREPANCIES - ANNUITY ADJUSTED

CAUSE: This occurs when there is a discrepancy between the Part B premium and the paid through date on MIRTEL/MOLI.

ACTION: Determine if the Part B premium and the paid through date is correct. If necessary, prepare a MEDCOR Activity 17L to correct the Part B premium. Also determine if the paid through date is correct and if a refund is due or an arrearage needs to be recovered.

MESSAGE: 8906 - NO MATCHING MIRTEL/MOLI – CHICO/DATAQ HAS SMI CODE

CAUSE: This occurs when a CHICO/DATAQ record, which is either in current pay status or in suspense, contains a Part B option code and there is no matching MIRTEL/MOLI record.

ACTION: If there is a MIRTEL/MOLI record for the claim number, check the matching criteria and correct either the MIRTEL/MOLI record or the CHICO/DATAQ record, if necessary. If there is no MIRTEL/MOLI record, determine whether or not the case was ever screened, and then create a MEDCOR Activity 12L to screen or Activity 13L to reestablish the MIRTEL/MOLI.

MESSAGE: 8907 - NO MATCHING CHICO/DATAQ - MIRTEL/MOLI SHOWS ANNUITY

CAUSE: This occurs when the record status on MIRTEL/MOLI is 11, 13, 21, 23, or 24; the screening reply date is more than three months in the past; and there is no CHICO record. This will also occur immediately if the record status on MIRTEL/MOLI is 31 and there is no CHICO/DATAQ record.

ACTION: If the problem is the matching, determine the correct data and take action to correct the appropriate file. If there is no CHICO/DATAQ record and it is evident the record status on MIRTEL/MOLI is erroneous, create a MEDCOR Activity 22L with the address screen to correct MIRTEL/MOLI; otherwise, refer the case to RBD or SBD to determine why the annuity was not paid. If the record status on MIRTEL/MOLI is 31 and there is no CHICO/DATAQ record, handle in accordance with RCM 3.5 Exhibit 1, Section C.

MESSAGE: 8908 - BEN SYM/TOB INCONSISTENT ON MIRTEL/MOLI AND CHICO/DATAQ FILES

CAUSE: This occurs when the MIRTEL/MOLI record partially matches a CHICO/DATAQ record, but the beneficiary symbol and type of beneficiary on the two files are not compatible. No adjustment is made.

ACTION: Determine which data is correct, and take action to correct the erroneous record.
MESSAGE: 8909 - INVALID OR MISSING PAID THRU DATE

CAUSE: The MIRTEL/MOLI system was unable to develop a valid paid through date.

ACTION: Prepare a MEDCOR Activity 20L to enter the correct paid through date.

MESSAGE: 8910 - ALERT - TERM OF DIB - ELIGIBLE FOR HI ADDITIONAL 7.5 YEARS

CAUSE: The disability annuity has been terminated for substantial gainful activity (SGA). The annuitant may be eligible for an additional 7.5 years of Medicare coverage.

ACTION: Notification only. No examiner action is necessary.

MESSAGE: 8911 - ALERT - ANNUITY ADJUSTED DURING MEDICARE EXTENSION PERIOD

CAUSE: The annuity has been adjusted (reinstated) after a disability annuity was terminated for substantial gainful activity (SGA) while Medicare coverage was extended for the 7.5 years.

ACTION: Notification only. No examiner action is necessary.

8920 - ANN NOT ADJ - MONTHLY RATE NOT MORE THAN A DOLLAR AFTER DED

CAUSE: This occurs when MAMMA does not start Part B premium deductions because the check rate will be less than a dollar after the Part B premium deduction amount.

ACTION: If necessary, create a MEDCOR Activity 20L or 22L to set up direct billing.

8921 - ANN NOT ADJ - VAR RATE CODE NOT N OR S AND NO CURR DEC ACT 17

CAUSE: This occurs when the MIRTEL/MOLI record was not updated with an Activity 17L in December to update the Part B premium rate.

ACTION: Create a MEDCOR Activity 17L to update the Part B premium rate on MIRTEL/MOLI.

8922 - RETROACTIVE IRMAA - EQUITABLE RELIEF APPLIES

CAUSE: This occurs when the past due IRMAA exceeds 5 times the current standard Part B premium plus the individual’s IRMAA amount. Current Part B with IRMAA deductions is started.

ACTION: Take action to recover the IRMAA arrearage.

8923 - CURRENT PAYMENT INSUFFICIENT TO WITHHOLD IRMAA DUE FOR PREVIOUS MONTHS
CAUSE: This occurs when the monthly payment is insufficient to recover an IRMMA arrearage due. Current Part B with IRMMA deductions is started.

ACTION: Take action to recover the IRMMA arrearage.

8924 - STATE BUY-IN INITIATED - IRMAA APPLIES

CAUSE: This occurs when MAMMA adjusts a payment because of SBI and IRMAA is also involved.

ACTION: Refer to P&S – PAS.

8925 - STATE BUY-IN DELETED - IRMAA MAY APPLY

CAUSE: This occurs when MAMMA adjusts a payment to start Part B deductions because the State is no longer paying the premiums and IRMAA may be involved.

ACTION: Determine if there is an arrearage and if so, take action to collect the arrearage.

8926 - IRMAA HIST SEQ PROBLEM - POSSIBLE ARREARAGE OR REFUND - SPECIAL LETTER REQUIRED

CAUSE: This occurs when MAMMA cannot collect an arrearage or make a refund because the IRMAA data on MIRTEL/MOLI is questionable.

ACTION: Prepare a letter advising the individual of the award action and determine if there is an arrearage or refund. Then take the necessary action to either collect the arrearage or prepare a refund.

8927 - IRMAA/OTHER PART B CHANGES - POSSIBLE ARREARAGE OR REFUND

CAUSE: This occurs when MAMMA adjusts only the current month for Part B and IRMAA and is not able to determine if there is an arrearage or refund for the Part B premiums and/or IRMAA premium.

ACTION: Determine if there is an arrearage or refund for the Part B premium and/or the IRMAA premium. Then take action to either recover the arrearage or prepare a refund.

8928 - IRMAA INCREASE PREVENTS DEDUCTIONS - DIRECT BILL REQUIRED

CAUSE: This occurs when MAMMA cannot take the entire premium, Part B and IRMAA, and stops the Part B deduction. The individual should be billed for the Part B premium with IRMAA.

ACTION: Create a MEDCOR Activity 22L with name and address and paid through date to set up direct billing.
8929 - IRMAA ADJUSTMENT MADE - NO ARREARAGE OR REFUND - SPECIAL LETTER REQUIRED

CAUSE: This occurs when MAMMA creates an award to adjust the IRMAA premium and there is no arrearage or refund due but does not generate a letter.

ACTION: Prepare a letter advising the individual of the award action.

8930 - WITHDRAWAL WITH IRMAA - POSSIBLE REFUND

CAUSE: This occurs when MAMMA creates an award to stop Part B deductions with IRMAA but cannot determine the refund amount.

ACTION: Determine the refund amount and prepare a refund.

8931 - SBI ACCRETION & RECENT DELETION - POSSIBLE ARREARAGE OR REFUND

CAUSE: This occurs when MAMMA creates an award to either start or stop deductions because of SBI involvement but cannot determine if the previous arrearage was collected or if a previous refund was made. An 8003 – Mechanically Adjusted – Possible Refund referral may also be generated.

ACTION: Determine if there is an arrearage or refund due. Then take action to collect the arrearage or prepare a refund.

8932 - UNABLE TO ADJUST - SOC = 1 OR 5, NO RPD & NO VAR RTE CD

CAUSE: This occurs when MIRTEL/MOLI has a Part B option of 1 or 5 but there is no Part B premium or no variable rate code on the MIRTEL/MOLI record.

ACTION: Determine if the Part B option is correct. If it is correct, determine the correct Part B premium and create a MEDCOR Activity 17L to update MIRTEL/MOLI with the correct Part B premium and variable rate code. If the Part B option is incorrect, create a MEDCOR Activity 22L to update MIRTEL/MOLI.

8933 - PREMIUM FLOATED, RECOVER ARREARAGE

CAUSE: This occurs when MAMMA stops the Part B premium deduction on one benefit and starts the current Part B deduction with IRMAA on the other benefit. Both the RR and SS benefits are being paid by RRB.

ACTION: Determine if there is an arrearage due. If so, take action to collect the arrearage.

8934 - RETROACTIVE IRMAA - WILL BE PROCESSED IN JANUARY
CAUSE: This occurs when a MIRTEL/MOLI record was updated with retroactive IRMAA (for the current year) information after the November MAMMA Run. An adjustment is not made.

ACTION: Notification only. No examiner action is necessary.

8935 - PART B REDUCTION & STATE BUY-IN

CAUSE: This occurs when MAMMA creates an award for a MIRTEL/MOLI record that reflects a Part B reduction as well as State Buy-in coverage.

ACTION: Refer to P&S – PAS.

8936 - MCR & OTHER PART B CHANGE POSSIBLE ARREARAGE OR REFUND

CAUSE: This occurs when MAMMA adjusts only the current month for Part B with a Part B reduction and is not able to determine if there is an arrearage or refund for the Part B premiums and/or Part B reduction.

ACTION: Determine if there is an arrearage or refund for the Part B premium and/or the Part B reduction. Then take action to either recover the arrearage or prepare a refund.

8937 - RETROACTIVE MCR CHANGE - EQUITABLE RELIEF APPLIES

CAUSE: This occurs when the past due Part B reduction arrearage exceeds 5 times the current standard Part B premium. Deductions are started for the current month.

ACTION: Take action to recover the Part B reduction arrearage.

8938 - MCR CHANGE - CURRENT PAYMENT INSUFFICIENT TO WITHHOLD ARREARAGE

CAUSE: This occurs when the monthly payment is insufficient to recover a Part B reduction arrearage due.

ACTION: Take action to recover the Part B reduction arrearage.

8939 - MCR CHANGE IN PRIOR YEAR - POSSIBLE ARREARAGE OR REFUND

CAUSE: This occurs when MAMMA is unable to collect an arrearage or make a refund for a prior year Part B reduction.

ACTION: Determine if there is a Part B reduction arrearage or refund due. Then take action to recover the arrearage or prepare a refund.

8940 - MCR CHANGE & STATE BUY-IN DELETION - POSSIBLE ARREARAGE

CAUSE: This occurs when MAMMA adjusts a payment to start Part B deductions with a change in the Part B reduction amount and the State is no longer paying the premiums.
ACTION: Determine if there is an arrearage for Part B and/or Part B reduction and if so, take action to collect the arrearage.

8941 - MCR ADJUSTMENT MADE - NO ARREARAGE OR REFUND - SPECIAL LETTER REQUIRED

CAUSE: This occurs when MAMMA creates an award to adjust the Part B reduction amount and there is no arrearage or refund due but does not generate a letter.

ACTION: Prepare a letter advising the individual of the award action.

8942 - MCR CHANGE - PREVIOUS DIRECT BILL OR TRANSFER - POSSIBLE ARREARAGE OR REFUND

CAUSE: This occurs when MAMMA adjusts only the current month for Part B and Part B reduction and is not able to determine if there is an arrearage or refund for the Part B and/or Part B reduction premiums.

ACTION: Determine if there is an arrearage or refund for the Part B and/or Part B reduction premiums. Then take action to either recover the arrearage or prepare a refund.

8943 - MCR HISTORY INSUFFICIENT OR CORRUPTED - POSSIBLE ARREARAGE OR REFUND

CAUSE: This occurs when MAMMA cannot collect an arrearage or make a refund because the Part B reduction data on MIRTEL/MOLI is questionable. Current adjustment is made.

ACTION: Determine if there is an arrearage or refund for Part B reduction premiums. Then take the necessary action to either collect the arrearage or prepare a refund.

8944 - PT B REFUND WITHHELD FOR POSSIBLE ARREARAGE

CAUSE: This occurs when MAMMA creates an award for a Part B reduction change but does not issue a refund because there may be an arrearage due.

ACTION: Determine if there is an arrearage due and if so, take action to collect the arrearage. If no arrearage, prepare a refund.

8945 - MIRTEL/MOLI SHOWS NO IRMAA – CHICO/DATAQ SHOWS CURRENT IRMAA - ADJUSTMENT NOT MADE

CAUSE: This occurs when there is a Part B premium deduction with IRMAA being made on CHICO/DATAQ and the MIRTEL/MOLI record does not reflect the IRMAA amount.
ACTION: Refer to P&S – PAS.

**8946 - MESSAGE: POSSIBLE C/D REFUND NO ANNUITY IN FORCE**

**CAUSE:** This referral is produced when CMS sends the RRB a refund request on the Part C and D Request File, but CHICO is not in force.

**ACTION:** If the annuity is in suspend or terminated for a reason other than death, use the Medicare Payment System (MPS) to make a refund to the beneficiary. Use Fund Code CREF on MPS for Part C refunds and Fund Code DREF on MPS for Part D refunds.

**ACTION:** If the annuity is terminated due to death, follow the instructions below.

1. Find the adjustment month on the Part C and/or Part D Adjustment screen for the check dated a month after the referral date. Ex: If the referral date is 12-13-2011, find the adjustment month for the 01-12 check date.

2. If the adjustment month is after the date of death on the referral, no action needs to be taken other than deleting the referral if the deductions came from a RR benefit. These are situations where CMS owes the RRB a credit, however the credit has already been taken when the Master Records Assistant prepares the monthly Part C/D funds transfers to CMS. Move to step 3 if the deduction occurred from an SS benefit.

3. If the C and/or D amount was originally deducted from an SSA benefit, send an e-mail to Mike Kelly in P&S. P&S will add those amounts to the accrual side of the SSA Trust Fund Transfer Request memo for accounting purposes. If there is a 900 series voucher number in the VCH field on the ALL DEDUCTIONS screen, Part C HISTORY, or PART D HISTORY screen, then the deduction came from the SS benefit.

4. If the adjustment month is equal to or prior to the date of death on the referral, develop for eligible survivors. Use Fund Code CREF on MPS for Part C refunds and Fund Code DREF on MPS for Part D refunds.

5. It is possible that some adjustment months could be credits and others actual refunds for the same beneficiary. If that happens, ignore the credits if the deductions came from RR benefits and take action to develop for eligible survivors. Notify P&S – Mike Kelly if the credits were deducted from SS benefits.

**NOTE:** Refunds can be applied to other debts on PAR. In addition, if the refund is not payable to a third party or another bene in CPS, do not develop for other survivors at this time. Place a 6 month call up on the case. We are waiting to hear from CMS what the minimum amount is to develop for survivors.

**8947 - INVALID VARIABLE RATE CODE OR IRMAA AMOUNT**
CAUSE: This occurs when the MIRTEL/MOLI record has an incorrect variable rate code or an incorrect IRMAA amount. No adjustment was made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a 17L to correct the variable rate code. If there is IRMAA and/or Part B reduction involved, refer to P&S - PAS.

8948 - INVALID PREMIUM RATE, VARIABLE RATE CODE OR PENALTY AMOUNT

CAUSE: This occurs when a MIRTEL/MOLI record has a Part B option of 1 or 5 and a premium rate, but the variable rate code is D or Z and the penalty percent and IRMAA are both zero. No adjustment was made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a 17L to correct the premium rate, or the variable rate code or the penalty percentage. If there is IRMAA and/or Part B reduction involved, refer to P&S - PAS.

8949 - INVALID VARIABLE CODE OR BASE RATE-1

CAUSE: This occurs when MIRTEL/MOLI has a variable rate code of V, C, or D and there is no variable base rate. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a 17L to correct the variable rate code or the variable base premium rate. If there is IRMAA and/or Part B reduction involved, refer to P&S - PAS.

8950 - INVALID VARIABLE CODE OR BASE RATE-1

CAUSE: This occurs when the MIRTEL/MOLI record has a variable rate code of N, R, or Z and also has a variable base rate. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a 17L to correct the variable rate code or the variable base rate. If there is IRMAA and/or Part B reduction involved, refer to P&S - PAS.

8951 - INVALID VARIABLE CODE, PART B OPTION OR PREMIUM RATE-1

CAUSE: This occurs when a MIRTEL/MOLI record has a variable rate code of N, a Part B option of 8, and the premium rate is not equal to the basic premium rate. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a 17L to correct the Part B option, the variable rate code or the premium rate. If there is IRMAA and/or Part B reduction involved, refer to P&S - PAS.

8952 - INVALID VARIABLE CODE, PART B OPTION OR PREMIUM RATE-2
CAUSE: This occurs when a MIRTEL/MOLI record has a variable rate code of N, a Part B option of 8, and the premium rate is not equal to the basic premium rate. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a 17L to correct the Part B option, the variable rate code, or the premium rate. If there is IRMAA and/or Part B reduction involved, refer to P&S - PAS.

8953 - INVALID VARIABLE RATE CODE OR PREMIUM AMOUNT

CAUSE: This occurs when the MIRTEL/MOLI record has a variable rate code of V, C, D, R, or Z; no Part C or D or IRMAA is involved; the percent is equal to zero; and the premium is not less than the basic rate. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a 17L to correct the variable rate code or the percent or the Part B premium rate. If there is IRMAA and/or Part B reduction involved, refer to P&S - PAS.

8954 - INCONSISTENT-HIB-SMIB-DATA-1

CAUSE: This occurs when the MIRTEL/MOLI record has a Part B option, or a Part B effective date, or a penalty percent, or a premium effective date, or a premium effective accounting date that is not numeric. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the fields that are incorrect. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8955 - INCONSISTENT-HIB-SMIB-DATA-2

CAUSE: This occurs when the MIRTEL/MOLI record has an invalid premium effective accounting date. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the premium effective accounting date. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8956 - INCONSISTENT-HIB-SMIB-DATA-3

CAUSE: This occurs when the MIRTEL/MOLI record has an invalid premium effective accounting date. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the premium effective accounting date. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8957 - INCONSISTENT-HIB-SMIB-DATA-4
CAUSE: This occurs when the MIRTEL/MOLI record has an invalid premium effective accounting date. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the premium effective accounting date. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8958 - INCONSISTENT -HIB-SMIB-DATA-5

CAUSE: This occurs when the MIRTEL/MOLI record has an invalid premium effective accounting date. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the premium effective accounting date. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8959 - INCONSISTENT -HIB-SMIB-DATA-6

CAUSE: This occurs when the MIRTEL/MOLI record has a Part B option of 0, 2, 3, or 9 and there is no Part C or D premium and MIRTEL/MOLI has one of the following: a premium rate, a residency code, a variable rate code, a penalty percentage, or a premium effective accounting date. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the fields that are incorrect. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8960 - INCONSISTENT -HIB-SMIB-DATA-7

CAUSE: This occurs when the MIRTEL/MOLI record has a Part B option of 1 or 5 and the variable rate code is not N, V, R, Z, C, or D; or the residency code is not P, C, or S; or the penalty percentage is not zero. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the fields that are incorrect. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8961 - INCONSISTENT -HIB-SMIB-DATA-8

CAUSE: This occurs when the MIRTEL/MOLI record has a Part B option of 8 and the variable rate code is not N, R, or Z and the variable base rate is zero; or the residency code is not P, C, or S; or the premium is not zero and the C and D amounts are zero; or the penalty percentage is not zero. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the fields that are incorrect. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.
8962 - INCONSISTENT -HIB-SMIB-DATA-9

CAUSE: This occurs when the MIRTEL/MOLI record has a Part B option of 8 and the variable rate code is not V, C or D and the variable base rate is greater than zero; or the residency code is not P, C, or S; or the premium is not zero and the C and D amounts are zero; or the penalty percentage is not zero. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the fields that are incorrect. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8963 - INCONSISTENT -HIB-SMIB-DATA-10

CAUSE: This occurs when the MIRTEL/MOLI record has a Part B option of 4 or 6 and the Part C and Part D premiums are zero and the Part B premium is not zero; or the residency code is not spaces; or the variable rate code is not spaces; or the penalty percentage is not zero.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the fields that are incorrect. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8964 - INVALID PREMIUM

CAUSE: This occurs when the MIRTEL/MOLI record has a premium rate less than zero. No adjustment is made.

ACTION: Refer to P&S – PAS.

8965 - INVALID VARIABLE RATE CODE OR PENALTY AMOUNT

CAUSE: This occurs when the MIRTEL/MOLI record has a Part B option of 1 or 5; the Part B premium is zero; the variable rate code is D or Z; and the penalty percentage is greater than zero. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the Part B premium or the variable rate code or the penalty percentage. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

8966 - INVALID PART A DATE

CAUSE: This occurs when the MIRTEL/MOLI record does not have a Part A effective date. No adjustment is made.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 22L to add the Part A effective date. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.
8967 - POSSIBLE DUAL DEDUCTIONS-1

CAUSE: This occurs when the CHICO/DATAQ record has an SS benefit in current pay and the Part B option is 1, 5, or 8 and there is a Part B premium deduction; or the variable rate code is D or Z and MIRTEL/MOLI has a Part B premium rate or a variable rate code of D or Z.

ACTION: Determine if a refund is due. If so, prepare a manual refund.

8968 - POSSIBLE DUAL DEDUCTIONS-2

CAUSE: This occurs when the CHICO/DATAQ record has an SS benefit in current pay and the Part B option is 1, 5, or 8 and there is a Part B premium deduction; or the variable rate code is D or Z and MIRTEL/MOLI has a Part B premium rate or a variable rate code of D or Z.

ACTION: Determine if a refund is due. If so, prepare a manual refund.

8969 - MIRTEL/MOLI – CHICO/DATAQ RATES NOT EQUAL

CAUSE: This occurs when there is a problem with the monthly payment rate that MAMMA calculated for the award. No adjustment is made.

ACTION: Refer to P&S – PAS.

8970 - MULTIPLE PT-B REDUCTIONS, POSSIBLE ARREARAGE OR REFUND

CAUSE: This occurs when the MIRTEL/MOLI record has multiple Part B reduction activities and MAMMA is not able to determine the correct action to take.

ACTION: Refer to P&S – PAS.

8971 - INVALID SMIB RECURRING DATE

CAUSE: This occurs when MIRTEL/MOLI has an incorrect Part B premium rate.

ACTION: Refer to P&S – PAS.

8972 - PREMIUM VARIABLE RATE CODE OR PENALTY AMOUNT

CAUSE: This occurs when a MIRTEL/MOLI record has a Part B option of 1, 5, or 8 and the variable rate code is V, C, or D and there is a current IRMAA amount.

ACTION: If there is no IRMAA or Part B reduction involved, prepare a MEDCOR Activity 17L to correct the Part B option, or the variable rate code or IRMAA amount. If there is IRMAA or a Part B reduction involved, refer to P&S – PAS.

The following two referrals should be obsolete. If they are generated, please refer them to P&S – PAS for further investigation.
MESSAGE: RPD & PAID THRU DISCREPANCIES - CHECK BOTH FILES.

CAUSE: This occurs when the recurring premium rate is different in both files and the paid through date on MIRTEL/MOLI is the current month or later.

ACTION: Determine the proper premium rate and paid through date and take action to correct the MIRTEL/MOLI record if necessary.

MESSAGE: TOB CHANGED AGE 65 - RPD CHANGED TO BASIC - CHECK FOR POSSIBLE REFUND

CAUSE: This occurs when a disabled beneficiary with a penalty rate attains age 65. The MIRTEL/MOLI record is changed to show a type beneficiary "DIB, Now 65", and the Part B premium rate is changed to the basic rate. Action is also taken to automatically adjust the CHICO/DATAQ record.

ACTION: If Part B deductions are in force, verify that CHICO/DATAQ was adjusted timely and refund any excess premiums if necessary. If premiums were paid direct, determine if any premiums were paid at the penalty rate after the beneficiary attained age 65.

Exhibit 7 - Miscellaneous Referrals

MESSAGE: NOTIFY BA ( ) STEEL COMPANY RAILROAD OF DISABILITY ANNUITANT MEDICARE ENTITLEMENT.

CAUSE: Annuitant may be covered by group health insurance coverage that may be affected by his or her entitlement to Medicare before age 65 based on disability.

ACTION: Use RRAILS to prepare one copy of Form RL-10, "Notice to Employer of Medicare Coverage Before Age 65." Use MOLI to obtain the Medicare effective date to be entered on the Form RL-10. Use the RRAILS Contact Official lookup (see FOM-I-1596.25) to address Form RL-10 to the railroad’s benefits manager or RRA Awards Contact Official. The railroad’s BA number is shown on the MEDREF referral. Use RRAILS to send a copy of Form RL-10 to RRA Imaging.

MESSAGE: DAISY REFERRAL; WARNING-POSSIBLE DUPLICATE SMI RECOVERY

CAUSE: A DAISY referral is generated when an RBD/SBD examiner does not complete a MEDCOR 20 (or completes the MEDCOR 20 after cut-off) to advance the paid through date on MOLI after reinstating an annuity where premiums were withheld.

Example 1 - The PREH 3277 screen for recurring payments indicates premium deductions through May 2009. The 3277 screen indicates the June check was in suspense, code 65, because direct deposit was deleted. The July check is in suspense, code 88, because multiple months of Part B will be withheld. Recurring payments started again in August and the premium was withheld. –PREH’s 3275 screen for non-
recurring payments indicates the June check was reinstated on voucher 183 and the premium for June was withheld. (SMI-ACCRU-OP-AMT field on page 3 of the reinstatement voucher shows $96.40 withheld.) 3275 also has a 004 voucher dated 7-1-09. Page 3 of the voucher indicates $192.80 for June and July was withheld. June was withheld from the 183 reinstatement voucher and the 004 voucher. A refund for June is due.

Example 2 – The PREH 3277 screen indicates premiums were deducted from the May 2009 payment for a disabled employee. The June payment was in suspense, code 06. The suspension occurred because the May 2009 payment was returned. The July check was in suspense, code 88. Recurring payments started again in August and the premium was withheld. The PREH 3275 screen indicates the May check was reissued on voucher 697 and the May premium was withheld again. The June payment was reinstated on voucher 0001 and no premiums were taken. The 499 voucher on July 1, 2009 took premiums for June and July. Since the May premium was twice sent to the Part B trust fund, a G-240 is needed to transfer $96.40 from the Part B disability fund to the SSEB equivalent fund.

ACTION: Follow the steps below to process a DAISY referral.

1. Determine the period that is in question by the Accounting date on the referral. This is found under the “INFORMATION FROM DAISY” section on the referral.

2. Use PREH 3277 screen to determine which months were deducted prior to the suspension of the monthly benefit. Enter the information under “PREVIOUS VOUCHER WITH INITIAL PREMIUM DEDUCTION” on the referral.

3. Verify which months of premiums were recovered from the voucher by using PREH 3275 and checking the award form on imaging. Enter the amount of the premiums recovered and the period under “INFORMATION FROM AWARD FORM”.

4. Fill in the blanks under the “DETERMINATION WHETHER TO REFUND” section on the referral.

5. If there is a period of duplicate premium deductions, a refund is due. Check the appropriate box under “BASED ON THE INFORMATION FROM THE AWARD FORM”. Enter the period of the refund that is due on the referral. Process the refund that is due to the beneficiary. Complete a G-240 if needed to transfer funds that may have been sent to the Part B trust fund.

6. If there are no duplicate premium deductions, no refund is due. Check the appropriate box under “BASED ON THE INFORMATION FROM THE AWARD FORM” on the referral.
7. Examiner should sign and enter the date form was processed on the referral.

The completed DAISY referral form should be imaged after all actions have been completed.

**NO REFERRAL GENERATED – INITIATED THROUGH EMAIL OR PHONE CONTACT: PART B CLAIM REJECTS**

**CAUSE:** The Common Working File (CWF) is queried for entitlement data when a claim is presented for payment. The CWF and the Health Insurance Master (HIM) records should have the same entitlement data. If the entitlement data on CWF does not match the information on the claim, a reject will occur. Data must initially match on the last name, first initial, month and year of the DOB, and address before the provider information is verified. Other possible reasons why claims reject include:

- Erroneous DOD
- Erroneous Entitlement Date(s)
- Incorrect Name
- Incorrect Sex Code
- Incorrect Cross Reference (Showing incorrect SSA or RRB entitlement)
- Erroneous Cross Reference (shows SSA entitlement under a number which does not belong to the beneficiary)

**ACTION:**

First determine if MOLI, BERT or CWF has any erroneous information listed or the records do not have all of the same identifying information. If the MOLI, BERT and CWF records do not agree, make the necessary corrections so that all records are in agreement. If the records agree, access Palmetto’s claim system to determine the reject code.

Correct erroneous information on MOLI by performing a Medcor 22 Long activity. This action will also update BERT, specifically the DOB and address.

Correct erroneous information on BERT by performing the appropriate corrective action using ERNIE (Press PF 9 from Beneficiary Identification Screen). From this point, an examiner will be able to correct the following items: Beneficiary’s name, Sex code, Date of Death, Medicare entitlement dates and Cross references.
To correct erroneous information on the CWF, perform an overlay from BERT once the record is corrected. An overlay is performed from BERT using ERNIE (Press PF 9 from Beneficiary Identification Screen and then OC).
3.7.1 Scope of Chapter

This chapter covers the basic rules and procedures involved in the collection of SMI premiums, whether by annuity deduction, direct remittance or State buy-in. Various special situations are also covered, including delayed premium collection, recovery of unpaid premiums, refunds of excess premiums, and premium collection after termination.

3.7.2 Effective Date of SMI Premium Increase

Prior to 1983, the Secretary of Health and Human Services (HHS) was required by law to determine and publish in December of each year the monthly SMI premium applicable for the 12 month period beginning with the following July.

Due to the enactment of SS Act Amendments of 1983 (P.L. 98-21), the SMI premium is determined and published in September of each year to be effective for the following January. The regularly scheduled rate increase effective July 1, 1983 was delayed until after January 1, 1984 to conform with the new law.

3.7.3 Computation Of SMI Premium

A. Standard or Basic Premiums - The supplementary medical insurance program is voluntary. Enrollees pay a monthly premium. This premium does not cover the entire cost of the program. The remaining cost is subsidized by the Federal government from general revenue funds. Over the years, as program costs increase, the portion paid by the enrollee is reevaluated.

1. Premiums Prior to January 1989 - The law from 1966 through June 1973 had, basically, provided for the premiums to be set at one-half of program costs per aged beneficiary. Because of concern with the increasing financial burden which the premium could present with the program costs rising each year, Congress provided that, effective in July 1973, the SMI premium would be the lower of one-half of program costs for the aged, or the current premium increased by the same percentage by which social security benefits had been last increased. However, the increase in program costs did not level off. They continued to run so far ahead of benefit increases that there was never any year during which the program costs were the lower figure. Thus, program costs increased and the enrollee paid a decreasing share of them. In 1983, less than 25 percent of costs were met through the beneficiaries' premium contributions.

To improve the financial soundness of the medical insurance program, various laws were enacted that had the effect of limiting the SMI premium to 25 percent of the program costs per aged enrollee, with no consideration to be given to the cost of living rate increase in Social Security Benefits.
Security benefits. The first month this premium limit went into effect was January 1984.

The basic premium rate applies to individuals:

- who are subject to automatic enrollment (see RCM 3.4.50); or
- who enroll in their IEP or "deemed IEP" (see RCM 3.2.48) and who have continuous coverage; or
- who enroll no more than 11 non-enrollment months after the last months of the IEP; or
- whose premiums are paid under a State buy-in agreement;
- who have terminated and reenrolled within 12 months after the last month of State buy-in coverage; or
- who were enrolled based on disability with a penalty rate upon attainment of age 65; or
- who enroll when coverage under a group health plan (GHP) ends.

2. Premiums Beginning January 1989 - The Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360) established expanded Medicare benefits, commonly referred to as catastrophic coverage. To help finance the expanded coverage, the law provided for a Part B catastrophic monthly premium. Effective January 1989, this catastrophic premium was added to the basic premium. The catastrophic premium rate varied according to place of residence, with residents of Puerto Rico paying one rate; residents of Guam, American Samoa, U.S. Virginia Islands and Northern Mariana Island paying another rate; and residents of all other locations paying a third rate. (See RCM 3.1 Exhibits 2.1, 2.2 and 2.3 for specific rates.)

The law also provided for escalating prescription drug coverage beginning January 1990. A prescription drug premium was established to finance this coverage. In 1990, this prescription drug premium was to be implemented for residents of Puerto Rico and other U.S. Commonwealth/Territories. It was to be added for everyone else in 1991. The prescription drug premium varied according to place of residence.

In cases of change-of-residence, the new premium rate was to be effective with the first full month of residence.

The 1988 Act set the catastrophic premium and drug premium rates for the years 1989 through 1993. After 1993, the rate was to be indexed...
according to data on (a) program costs and premium revenues in the second and third preceding years (with an adjustment for recent trends in the consumer price index; and (b) actual shortfalls in reserves.

Note: The Medicare Catastrophic Coverage Repeal Act of 1989 retracted the major provisions of the 1988 Medicare Catastrophic Coverage Act, including both the outpatient drug benefit and the out-of-pocket limit. QMB benefits were retained.

B. Variable Premium - Effective January 1989, an individualized SMI premium can be computed for railroad retirement recipients if the annuity is paid under the railroad formula, and certain conditions as explained in B.1 below are met. The individually computed amount is called the variable SMI rate. The variable rate is computed using the base SMI premium before penalty surcharge. The variable SMI provision has applied to pure SS cases since 1986.

At the time a COL increase is applied to an annuity, it is also determined if the variable SMI rate will apply. See Appendix D for a detailed description of the conditions which will cause a variable rate to apply.

If a variable rate is established, it remains in effect until the next COL increase, unless there is an error in the determination or calculation process, or a State assumes premium liability. If it is initially determined that a variable rate does not apply, that decision will not be reversed, unless the annuitant questions his or her SMI rate, and a review indicates an error or processing delay.

1. **Determining If The Variable SMI Rate Applies** - The variable SMI rate should be computed when these three conditions are met:

   - The increase amount of the net "base SMI premium rate" is greater than the December net Tier 1 plus SS benefit minus the November net Tier 1 plus SS benefit. For pure SS cases, compare the December SS benefit to the November SS benefit. (The amount to compare in a pure SS case is the benefit amount before work deductions, overpayment reductions, attorney fee deductions, garnishment withholding, installment payments, and alien taxation.); and

   NOTE: The reference to "base SMI premium increase" means the difference between the annuitant's December SMI premium amount before penalty surcharge (variable or table rate) and the January table rate is computed, the penalty surcharge amount at the table rate is added back in to get the total SMI premium deduction.

   - A Tier 1 or SS LAF E benefit payment for November must be received (or held because of code 98 status) in the December calendar month. A SMI premium must be deducted from this payment. If the annuitant was in direct bill status because his railroad annuity was too small to deduct SMI and we
were not able to deduct SMI from the SS LAF E benefit this condition is also met; and

- A Tier 1 or SS LAF E benefit payment for December must be received (or held because of code 98 status) in the January calendar month. A SMI premium must be deducted from this payment. If the annuitant was in direct bill status because his or her railroad annuity was too small to deduct SMI and we were not able to deduct SMI from the SS LAF E benefit, this condition is also met.

The variable SMI premium is computed on Form G-700 "Variable SMI Computation Worksheet" when the above conditions are met. Form G-700 instructions, along with a detailed description of the situations which make the variable SMI rate applicable, are in Appendix D. The variable premium amount can never be less than the "old December base premium" amount. Beginning with the December 1988 COL, the "old December base premium" is $24.80. The only exception would be few SS pure cases where the variable rate applied in 1987. In such cases, the "old December base premium" could be $17.90 or the variable premium established in the 1987 COL.

2. Retroactively Changing The SMI Rate (Variable Or Not Variable) Once Established - Retroactive changes in an annuitant's Tier 1 or SS (LAF E or C) benefit will not cause a recomputation of the variable SMI rate. In other words, retroactive adjustments such as an AERO recomp, family change, changes to the SS offset amount, etc., have no effect on the SMI premium once established.

If there is a break in SMI entitlement or benefit entitlement after the variable rate determination has been made, the annuitant keeps the SMI premium as established if the SMI entitlement or benefit entitlement resumes before the next COL increase.

C. Basic Rate - The basic premium rate applies to individuals:

- who are subject to automatic enrollment (see 3.4.50; or

- who enroll in their IEP or "deemed IEP" (see 3.2.48, and who have continuous coverage; or

- who enroll no more than 11 non-enrollment months after the last month of the IEP; or

- whose premiums are paid under a State buy-in agreement; or

- who have terminated and reenrolled within 12 months after the last month of State buy-in coverage.
D. **Penalty Rate** - Under the law, SMI premiums must be increased by 10 percent over the basic rate for each 12 months an individual could have been, but was not enrolled in SMI.

Prior to April 1, 1981, an individual was limited to two lifetime enrollments in SMI, and after the expiration of his or her IEP, an individual could only enroll during a GEP (January – March of each year). P.L. 96-499 amended the law effective April 1981 by eliminating the two enrollment limitation and by allowing open enrollment in any month with coverage beginning the first day of the third month after the month of enrollment.

P.L. 97-35 amended the law further by eliminating the open enrollment provision. Effective October 1, 1981, SMI enrollment after the close of an individual’s IEP can only be processed during a GEP, i.e., January 1 through March 31 each year. Elimination of the two enrollment limitation was not affected by P.L. 97-35 and individuals may still enroll any number of times after terminations.

These amendments altered substantially the calculation of the months to be used in determining premium increases for late and delayed enrollments. Consult the following chart in determining the number of months to be counted to compute the correct premium increase (for enrollments effective October 1, 1981 and later):

<table>
<thead>
<tr>
<th>Months To Be Counted</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Initial Enrollment</strong></td>
</tr>
<tr>
<td>Add All Months in the Following Periods</td>
</tr>
<tr>
<td>All months of non-enrollment after the last month of the IEP up to and including:</td>
</tr>
<tr>
<td>The months which elapsed after the last month of a previous period of coverage up to and including:</td>
</tr>
<tr>
<td>March of the GEP year in which the individual enrolls.</td>
</tr>
<tr>
<td>The last month of the GEP in which the individual enrolls a second or later time.</td>
</tr>
</tbody>
</table>

**EXAMPLE:** Anna Smith attained age 65 and was otherwise eligible for SMI in August 1975. She first enrolled for SMI during the 1976 GEP and her coverage began in 7-76. No premium increase applied since there were only 4 months after the end of the IEP (12-75 thru 3-76) in which she could have been enrolled but was not. SMI was terminated in 12-77. She reenrolled in SMI in the 1979 GEP with coverage beginning 7-79. She was assessed a 10 percent premium increase since there were 19 months (12-75 thru 3-76 and 1-78 thru 3-79)
counted against her. SMI was terminated effective 6-30-81, and she reenrolled for the third time in the 1982 GEP with coverage beginning 7-82. A 20 percent premium increase is assessed because there are 28 months 12-75 thru 3-76, 1-78 thru 3-79, and 7-81 thru 3-82) in which she could have been enrolled in SMI but was not.

It would not be reasonable to increase a person's premium for failing to enroll during a period when the law prevented him or her from doing so. Accordingly, no person will be subject to a premium increase for any period during which he or she was barred by the two-enrollment limitation from reenrolling. In computing the premium increase for a person who was barred under prior law from reenrolling after his or her second termination from SMI, do not count any months elapsing after the last month of the second period of SMI coverage and before April 1, 1981, the first month he or she could reenroll without regard to the two enrollment limitation.

EXAMPLE: Ken Palmer, a retired employee, attained age 65 in 9-75. He enrolled in SMI during his IEP but voluntarily withdrew effective 6-76. He again enrolled in SMI during the 1977 GEP with coverage beginning 7-77. Termination of this second period of coverage occurred effective 3-31-78. Mr. Palmer enrolled for a third time in 6-81. Counted against him in computing the applicable premium rate effective 9-1-81 are 9 months from 7-76 thru 3-77 and 3 months from 4-81 (the first month he could reenroll without regard to the two enrollment limitation) thru 6-81 (the end of the month in which he enrolled). Months from 4-78 thru 3-81 are not counted because he was barred from reenrolling in SMI by the two-enrollment limitation. Since there are a total of 12 months in which he could have been but was not enrolled in SMI, a 10 percent premium increase is applicable.

EXCEPTION: 3-Year Exclusion Rule - Prior to the 1972 amendments, an individual could not enroll for the first time unless he or she did so in a GEP beginning no later than 3 years after the end of his or her IEP. An individual could not reenroll unless he or she did so in a GEP beginning no later than 3 years after the last day of previous SMI coverage.

Effective January 1, 1973, this restriction was eliminated. No person is subject to a penalty increase for any month in which he or she was barred from enrolling due to the 3-year limit on enrollment and reenrollment. Therefore, for persons

1. who are enrolling for the first time after 1972 whose IEP ended in or before 1969, or

2. who are reenrolling after 1972 whose previous period of coverage ended in or before 1969,

do not count any months elapsing after the last GEP available to him or her under the law in effect prior to the 1972 amendments and January 1,
1973 (which is the first month he or she could reenroll without regard to the prior limitations).

See RCM 3.1, Exhibits 3, 4 and 5 for a complete list of basic and penalty premium amounts since July 1, 1966.

### 3.7.4 Months For Which Premiums Are Due

A premium is due for each month of SMI coverage, beginning with the first month and continuing for all months of coverage, including each month in the grace period. A premium is due for the month of death (if SMI coverage was not previously ended) even if the enrollee dies on the first day of the month.

### 3.7.5 Methods Of SMI Premium Collection

SMI premiums are collected by one of the following methods:

- Deduction from annuity
- Direct remittance - either by enrollee or by a third party
- State buy-in.

### 3.7.15 Deduction From Annuity

The purpose of deducting premiums from the annuity is to help keep collection costs at a minimum. For this reason, the annuitant does not have an option to pay his or her premiums by direct remittance when annuity payments are in force. Collection must be made from the annuity unless the annuitant is covered under a State buy-in agreement.

### 3.7.16 Priority Of Deductions

The deduction for payment of SMI premiums has priority over any other claim against the annuity. The amount of any premium currently payable or overdue must be deducted before recovery of any overpayment of annuity, RUIA benefits or SS benefits.

### 3.7.17 Premium Deductions

A. Establishing the HI Record

The HI record must be established, and clearance received, before SMI premium deductions can be started. Check the file for an HI clearance referral, the MIRF (MIRTEL file), or MOLI for a cleared status. See RCM 3.4 for more information on the establishment of the HI record.

B. Mechanical Initiation of Premium Deductions
1. **Attainment Cases** - Premium deductions are started mechanically through the SMI Recert program. If the case is in PREH in time for the monthly search for attainment cases (see RCM 3.4.2) or if the record is screened and clearance received, deductions will be started in the month of attainment or shortly afterwards.

2. **GEP Enrollments** – Forms G-44 are mechanically prepared for release in January of each year to all QRRBs who are eligible for enrollment in the GEP. Processing of the returned Forms G-44 by MS will effect automatic deduction of premiums beginning with the July 1 check. See RCM 3.4.50 for more information on the processing of GEP cases.

3. **Initial Awards** - Neither RASI nor SURCAL will deduct SMI premiums from an initial award. RASI does send a screening request as part of its initial processing of a case in which the applicant is age 64 and 6 months or older. In initial SURCAL cases and cases dumped from RASI before a screening request is released, it is necessary to prepare a MEDCOR activity release a G-810 to screen the record if the applicant is age 64 and 6 months or older. Premium deductions will be started mechanically in these cases, after clearance is received and after the initial or partial accrual check has been released. Deductions will be started effective with the later of:

   - the SMI effective date, or
   - the month after the last month for which premiums were paid by direct remittance.

4. **SMI Recertification Program** - Each month, the MIRTEL record is matched against the Checkwriting Integrated Computer Operations (CHICO) record to make any required adjustments in the annuity rate. These adjustments are made as a result of the attainment processing, GEP enrollments, annuity reinstatements, current termination actions, MEDCOR activity processing, and State buy-in accretions and deletions. SMI premiums will be deducted from RR annuities whenever possible. However, if SMI deductions were initiated in pure SS case, the deductions remain on the SS benefit even when the RR annuity becomes payable; if an RR annuity is less the premium amount, the SMI premiums are deducted from the SS benefit; or if the RR annuity is suspended, the deductions are “floated” to the SS benefit.

   **NOTE:** SMI premium deductions remain where they are initiated unless that benefit is suspended, terminated or reduced to the level where deductions can no longer be made.

   a. **One-Month Adjustment** - These include all current types of activity (i.e., when the activity is effective in the month of processing.)
Retroactive State buy-in accretions are also one month recert actions with a refund made on a separate check.

b. Multiple Adjustments - Multiple adjustments are made when the activity processed is retroactive. The program determines the amount of premiums to be deducted and adjusts the payment accordingly. The maximum which can be deducted for non-State buy-in adjustments is five months of retroactive premiums plus the current month and the maximum for State buy-in deletion adjustment is three months of retroactive premiums plus the current month or 50% of the payment accrual. The payment accrual is either the RR or the SS payment amount where deductions are initiated, not the combined RR and SS payment amount. If the premiums due exceed these guidelines, the system will make a one month adjustment and produce an arrearage referral for manual handling. See RCM 3.2.98 – RCM 3.2.105 for further information.

3.7.18 Preparation Of Awards - General Guidelines

Whenever certifying a manual award (either initial, reinstatement, recertification, or reinstate - recert), always check the SMI enrollment status (folder record, MOLI, or MIRF) to determine whether or not an HI record has been established.

A. No HI Record Established - Complete a MEDCOR activity to screen and set up the HI record as discussed in RCM 3.4. Pay the award, premium deductions will be mechanically started after clearance is received.

B. HI Record Has Been Established - Check the SMI paid through date to determine if accrued premiums are due. If:

1. the paid through date is the current month or a future month, pay the award. Premium deductions will be mechanically started; or

2. the paid through date is past, deduct all unpaid accrued premiums including the month after the accrual month and prepare a MEDCOR activity to correct the SMI premium paid through date in MIRTEL.

3.7.19 Delayed Premium Collection

Refer to RCM 3.2.105.

3.7.20 Annuity In Suspense At Time Of Enrollment

When the RR annuity is in suspense at the time of enrollment and there is no SS benefit payable, the enrollee is billed direct.
3.7.21 Suspension After Premium Deduction In Force

When an RR annuity or SS benefit that had SMI deductions is suspended, the MIRTEL system will check to determine if there is another payment still in pay status at an amount that is large enough to deduct the SMI premium. If so, MIRTEL will cause an adjustment to CHICO to begin deductions from the annuity or benefit that is still in pay status. When the suspended payment is reinstated, the SMI deduction will not "float" back. It will continue to be made from "the other" payment until a suspension, termination or reduction in the payment amount makes it necessary to "float" the deduction.

EXAMPLE: An annuitant is receiving both a RR annuity and a SS benefit. The SMI deduction is being made from the RR annuity. The RR annuity is suspended. Later in the month, in the SMI Recert run, the MIRTEL system will (1) recognize the RR suspension, (2) test to see that there is an SS benefit in force, (3) test to verify that the SS benefit is larger than the SMI amount and (4) begin the SMI deduction from the SS benefit.

A. To Recover An Overpayment - When an annuity is suspended to recover an overpayment and there is no "other benefit" payable from which the premium can be deducted, the SMI premium is considered paid by deduction from the annuity. Apply only the balance of the annuity against the overpayment. Complete a MEDCOR activity to prevent year-end billing if the annuity is not to be reinstated by the end of the current calendar year or if it will be reinstated with an accrual ending after the December cut-off. (Refer to RCM 3.3.)

EXCEPTION: MS may start quarterly billing in an overpayment case if the recovery period will last a long time. Before reinstatement, examiners should check MOLI to determine the paid-thru date.

B. Other Suspension - If the annuity is suspended for a reason other than to recover an overpayment and no other benefit is payable, collect premiums according to one of the following methods:

1. Reinstatement Expected In Current Year - If it is apparent that payment can be reinstated within the current calendar year, collect the overdue premiums at the time of reinstatement. If the annuity will be reinstated with an accrual extended after the December cut off, prepare and release a MEDCOR activity code "61" at the time of suspension to prevent year end billing.

2. Annuity Payments May Not Resume Within Calendar Year - If it appears that annuity payments cannot be reinstated before the end of the calendar year, enclose Code Paragraph 977 with the suspension letter. This paragraph tells the beneficiary that he or she may pay premiums on a quarterly basis and that if he or she does not submit regular payments
during the year, we will bill immediately after the end of the year for all premiums due for the past year.

When completing this paragraph, show the months for which premiums should be paid to place the beneficiary on a regular quarterly billing cycle (not necessarily a calendar quarter cycle). Ordinarily, this will be the next three succeeding months after the last month for which a payment was released.

**EXAMPLE:** The last payment released was dated October 1 and covered benefits due for September. The premium deduction was for October. Code paragraph 977 would show "November through January."

Request any overdue premiums. If the individual makes a direct remittance as a result of this letter, regular quarterly billing will begin. Delinquency notices will not be released to such persons during the calendar year.

### 3.7.22 Constructive Awards

Prepare a MEDCOR activity to initiate clearance in constructive award cases. Use code "03" (Annuity in Suspense) for the Record Status. Add Code Paragraph 977 to the award letter, as described in RCM 3.7.21.

### 3.7.23 Year End Billing

**Enrollees Included In Year-End Billing** - If a suspended annuity is not reinstated by the December cut-off, the enrollee will be billed early in January unless action is taken to prevent the billing.

Year-end bills should not be released if:

- The annuity is being withheld to recover an overpayment. (The monthly SMI premium is considered to have been paid by deduction from the annuity. Therefore, only the balance of the amount of the annuity, after the premium deduction, can be considered in the offset of any overpayment of annuity, RUIA or SSA benefit); or

- The annuity was suspended for a reason other than to recover an overpayment, and it will be reinstated with an accrual ending later than November 30.

### 3.7.25 General

SMI enrollees not entitled to monthly benefits, or entitled to monthly benefits but the rate is zero or less than one month's premium, and not covered by a State buy-in agreement, pay their premiums by direct remittance. The premiums need not be paid by the enrollee himself. Many individuals are covered under a group payment arrangement until they become annuitants. In other situations, a relative, friend, or
fraternal organization may pay the premiums. Annuitants who are not currently in pay status due to a suspending event, and who will not be reinstated in the current taxable year, are included in the year-end billing. This procedure is described in RCM 3.7.23.

New enrollees who may pay their own premiums are generally billed quarterly (not necessarily a calendar quarter). About the first day each month, computer-generated premium notices (Forms G-800) are prepared and forwarded to the Medicare Section for processing. Initial bills cover the current quarter plus any unpaid months in the current coverage period. Enrollees may make their remittance by check or money order. Tracer bills are released if payment is late. If payment is not received by the last day of the grace period, a termination notice is released and coverage is terminated. For a detailed description of the direct payment operation, see RCM 3.10, processing Direct Premium Payments.

Enrollees on direct bill may want their Medicare jurisdiction transferred to SSA since they may be receiving monthly payments from SSA from which premiums could be deducted. However, once we have established jurisdiction over Medicare deductions, we do not transfer jurisdiction to SSA as long as the enrollee remains a QRRB. In addition, Medicare jurisdiction that is already established at SSA should be transferred here if the person is entitled to a benefit from the Railroad Retirement Board, with one exception. If a person is entitled to non-disability monthly railroad retirement payments and is also entitled to a DIB, CDB or DWB and early Medicare coverage at SSA, SSA will maintain jurisdiction over Medicare until the person attains age 65.

**3.7.26 Processing Miscellaneous Premium Amounts**

Although the direct payment system is based on a quarterly basis, miscellaneous amounts are processed to accommodate enrollees.

**A. Monthly Payments** - At or after the time of enrollment, the enrollee may ask to pay monthly basis despite the extra expense and inconvenience of such frequent payments. In such a case, advise the enrollee that though he will be billed initially on a quarterly basis and must pay the full amount in each quarter, he may pay the quarterly premium in one, two, or three installments. When the enrollee pays only part of the amount due, a premium notice (G-801) is released for balance due. The original grace period still applies and the balance due must be paid by the end of the grace period.

An enrollee who demonstrates the need for making monthly payments will be allowed to pay on a monthly basis with a 90-day grace period for each month’s premium.

**B. Payment in Large Installments** - Payment for any number of quarters will be allowed and properly credited to the enrollee’s account.
3.7.30 State Buy-In

The SBI Program was enacted in the Social Security Amendments of 1965 and was effective concurrently with Medicare on July 1, 1966.

Under the SBI Program, States may enroll certain groups of needy people under the Supplementary Medical Insurance Program (also referred to as SMI or Medicare Part B) and pay their premiums. (In some situations, the State may also enroll an individual for Medicare Part A.) The purpose of SBI is to permit the State, as part of its total assistance plan, to provide Medicare protection to certain groups of needy individuals. It also has the effect of transferring some medical costs for this population from the Title XIX Medicaid program, which is partially State financed, to the Title XVIII Medicare program, which is funded by the Federal Government and individual premiums.

Generally, a SBI group could include certain individuals who are entitled to cash assistance or "deemed" cash assistance for Medicaid eligibility purposes, and who also meet the eligibility requirements for Medicare coverage.

NOTE: "Deemed" cash recipients are those individuals who lose their eligibility for cash assistance because of an increase in their Social Security benefits, VA benefits or earnings. Congress determined that in certain cases, medical assistance should be provided for these individuals as if they were entitled to cash assistance. Therefore, the State pays the Medicare Part B premiums for these individuals.

Each State has its own annual income and resource level for determining whether an individual is eligible for Medicaid cash assistance or "deemed" cash assistance under the State Welfare program. Generally, a person who meets the State eligibility requirement for Medicaid also meets the requirement for the Medicare SBI Program.

Effective January 1, 1989, the Medicare Catastrophic Coverage Act of 1988 (MCCA) mandated that the State Medicaid programs cover a new category of individuals known as Qualified Medicare Beneficiaries (QMBs) for payment of monthly Part B premiums. These individuals exceed the State’s annual income or resource level for cash payments or "deemed" cash payments. The legislation requires, in part, that the States pay the monthly Medicare Part A and Part B premiums for the QMBs. The States determine QMB eligibility. The States pay the Medicare Part B premium for the QMBs through the Section 1843 SBI Enrollment Program. Section 1843 of the Social Security Act is limited to Part B enrollment and the payment of monthly Part B premiums. It does not apply to premium Part A. The States pay Part A premiums, instead, through the group payer arrangement.

A State is not required to modify its SBI Agreement solely to incorporate QMBs as a coverage group. QMBs are deemed to be included in all existing SBI Agreements in the 50 States and the District of Columbia because of the MCAA.
The monthly Part B premium paid by the States on behalf of QMBs qualifies for the Federal Medical Assistance Percentage (FMAP). In order for an individual to be eligible as a QMB, he must be entitled to Medicare Part A.

An individual's enrollment under a SBI Agreement is involuntary. The State may enroll the individual even though he/she does not wish to enroll, or has enrolled individually. An individual cannot voluntarily terminate SBI coverage.

When an application for Medicare is taken, the individual should be advised about QMB eligibility requirements. The annual income or resource level for QMB eligibility is subject to change each year. The income level for the specific year in found in the Medicare & You handbook.

### 3.7.31 Eligibility and Entitlement Requirement

SBI coverage groups include all individuals eligible for SMI enrollment who are receiving or are eligible for a category of assistance under Medicaid as specified in the SBI Agreement, or are reported by the State to be a member of its coverage group. The State pays, on behalf of each individual who is enrolled, the premium charge to which one enrolled in the initial enrollment period would be subject. In order to be eligible for SBI, an individual must first be eligible to enroll in SMI.

### 3.7.32 The Buy-In Agreement

Any State which desires to participate in the buy-in program has to have signed a Buy-In Agreement with the Secretary of Health and Human Services specifying the categories of Medicaid recipients for whom it wishes to buy-in.

A. **Buy-In Agreement Prior to January 1, 1974** - The States made all Medicaid eligibility determinations and thus were responsible for all accretions and deletions in the buy-in program.

B. **Buy-In Agreement After December 1973** - When the Supplemental Security Income (SSI) program was implemented in January 1974, the States were given the option of entering into a "1634 Agreement" with SSA. The 1634 Agreement, which derives its name from the section of the Social Security Act, authorizes the Secretary of Health and Human Services to determine Medicaid eligibility for the aged, blind, or disabled based upon the individual's entitlement to SSI benefits or federally administrated State supplemental payments.

C. **SSI Automatic Accrete (Auto-Accrete) States** - A number of States entered into 1634 Agreements and as a consequence became auto-accrete States for purposes of SBI. Each month, SSA transmits data exchange records for SSI recipients to CMS's buy-in system. Based upon information contained in the data exchange records, CMS accretes or deletes individuals to the SBI Master File, commonly referred to as the Third Party File.
D. **SSI Alert States (209.b States)** - States that did not enter into 1634 Agreements are referred to as "Alert States" or "209.b" States for purposes of SBI and they continue to make their own accretion and deletion eligibility determinations. These States can use the SSI standards under Title XVI or a more restrictive eligibility standard. The "Alert States" or "209.b States" which use the SSI eligibility standards for Medicaid determinations generally require only a signed State Medicaid application after the individual has filed for SSI. Those States which opted to use a more restrictive standard for Medicaid eligibility require a complete State application regardless of SSI status. When the data exchange records for SSI recipients residing in "Alert States" are transmitted from SSA to CMS, CMS prepares accretion or deletion alert records. The accretion and deletion alert records are transmitted to the States for appropriate action.

E. A State must notify the Social Security Regional Office in writing if it wants to enter into a 1634 Agreement or terminate an existing agreement. The Social Security Regional Office will contact the CMS regional office so that a realistic time frame can be established for the change. Modifications are required in the Third Party System whenever a State enters into or terminates a 1634 Agreement.

**NOTE:** Refer to the Appendices section for the SBI Coverage Chart which shows a list of States with "1634 Agreements" and whether the State is an "accrete" or "alert" state. Those using SSI standards but making their own SBI determinations are shown as alert*. The chart reflects changes since December 31, 1973, including agreements entered into, or expansion of coverage made as permitted by statute, based on a request made during 1981.

### 3.7.33 Effect of the SSI Program on Coverage Groups

The SSI program which became effective January 1, 1974, replaced the State administered Titles I, X, XIV, and XVI (each Title provides aid for the blind and/or disabled) which formed the basis for SBI coverage groups between July 1, 1966 and December 31, 1973. The federally administered Title XVI (SSI) is effective in the District of Columbia, the Northern Mariana Islands and the 50 States. The State administered Titles I, X and XIV remain in effect in Puerto Rico, Guam and the Virgin Islands. With the implementation of the SSI program, the description of the coverage groups were changed as follows:

A. **Coverage Groups Prior to January 1, 1974**

1. Individuals receiving money payments under a plan of the State approved under Title I or Title XVI.
2. Individuals receiving money payments under a plan of the State approved under Titles I, X, XIV, XVI or Part A of Title IV.
3. Individuals eligible for medical assistance under a plan of the State approved under Title XIX.

B. Coverage Groups after December 31, 1974

1. Individuals receiving SSI under Title XVI or a State supplement (whether or not federally administered) who are categorically needy under the plan of the State approved under Title XIX (Medicaid).

2. Individuals receiving SSI under Title XVI, a State supplement (whether or not federally administered) or money payments under a plan of the State approved under Part A of Title IV (Aid to Families with Dependent Children) who are categorically needy under the plan of the State approved under Title XIX (Medicaid).

3. Individuals eligible for medical assistance under a plan of the State approved under Title XIX (Medicaid).

4. Enrollment of QMBs in State Buy-In.

3.7.34 When A SBI Period Begins

A. If CMS makes an accretion based on data contained in the SSI master record, the SBI period begins with the first month for which CMS determines the individual meets the eligibility requirements for inclusion in the coverage group. This would be the first month the person is eligible for both Medicare and SSI or a federally administered State supplement and is a resident of the State. For recipients of cash assistance - either SSI, a State supplement, or a Part A of Title IV - reported to CMS by the State, the SBI period begins with the month reported by the State as the date the individual became a member of the coverage group; i.e, the first month the person is eligible for both Medicare and cash assistance and is a resident of the State.

B. Medical Assistance Only (MAO) recipients are the non-cash category of Medicaid eligibles. States which have included MAO in their SBI agreement have accretion and deletion responsibility for individuals who are entitled under this program. SBI coverage for these eligible individuals begins the first day of the second month in which the State makes the determination that the individual is eligible for MAO. However, SBI coverage is continuous for an individual who loses eligibility for cash assistance but whose Medicaid eligibility continues without interruption.

C. If an individual begins to receive cash for a month earlier than the month coverage as a MAO eligible would begin, the beginning date of SBI coverage is the first month for which a cash payment was received.
D. State submitted accretions are adjusted to a later date by CMS if one of the following conditions exists:

1. CMS's records shows that the individual does not meet all the requirements for Part B coverage (e.g., is not yet 65) on the requested accretion date.

2. The accretion date submitted falls in the middle of a period of SBI coverage for another State on CMS's records (i.e., it is later than the accretion date and earlier than the deletion date.)

3. The accretion date submitted is earlier than the effective date of the submitting SBI Agreement.

3.7.35 When A SBI Coverage Period Ends

SBI coverage ends with the earliest of the following events:

A. Death - SBI coverage ends on the last day of the month in which the individual dies.

B. Loss of entitlement to Part A Coverage - If an individual is under age 65 and loses entitlement to Part A, SBI coverage ends on the last day of the last month for which he/she is entitled to Part A.

C. Loss of eligibility in a State's coverage group - If an individual loses eligibility for inclusion in a State's coverage group, SBI coverage ends as follows:

1. On the last day of the last month for which he/she is eligible for inclusion in the coverage group, if the State notifies CMS within a reasonable time.

2. On the last day of the second month before the month in which CMS receives a deletion notice which the State did not submit within a reasonable time. A deletion notice received by CMS after the 25th day of the month will be considered to have been received in the following month.

3.7.36 Termination of SBI Agreement

If the SBI agreement is terminated, SBI coverage ends on the last day of the last month for which the agreement is in effect.

3.7.37 Termination and Withdrawal of SMI After SBI Coverage Ends

When an individual's SMI coverage under a SBI Agreement ends he/she is deemed to have enrolled for SMI in his/her Initial Enrollment Period with continuing coverage and premium liability from the month after the month in which the buy-in coverage
terminates. However, SMI coverage can be terminated after SBI Agreement ends if the beneficiary files a written request for termination.

A. Effective April 1, 1981, any individual whose SBI coverage has been terminated and who files a notice requesting termination of his/her individual SMI during the last month of buy-in coverage or during the six succeeding months will have his/her individual SMI terminated at the end of the month in which his/her notice was filed.

B. Effective July 1, 1987, in cases where the insured individual waits more than six months after SBI coverage ends to request withdrawal for SMI, Part B coverage ends at the end of the month after the month in which he/she notifies SSA, RRB or CMS that he/she wishes to withdraw.

C. Prior to July 1, 1987, if the individual waited more than six months after SBI coverage ended to withdraw, Part B coverage ended at the close of the calendar quarter following the calendar quarter in which he submitted his/her withdrawal request. If he/she is not receiving social security or railroad retirement benefits and he/she does not pay the Part B Premium, Part B coverage ends at the end of the month after the month in which the premium bill is sent.

3.7.38 Equitable Relief After Termination of SBI Coverage

The law was not intended to penalize individuals who had no opportunity to request termination during the last month they were covered by the State.

An individual's SMI coverage under SBI can be terminated retroactively for as many as two months before the State's notice to CMS that the individual is no longer eligible. After CMS receives notice from the State it notifies RRB of the deletion. When notification is received from CMS, RRB takes action to adjust the beneficiary's monthly payments to start premium deductions. Form RL-119d is mechanically released to the beneficiary advising him/her that the State has stopped paying SMI premiums and that premiums must now be deducted from RR or SS monthly payments.

In some cases, there may be administrative delays, causing a beneficiary to be in the third month after SBI coverage termination and owe three months SMI premiums before he/she is notified that his/her SBI coverage has been terminated. Such individuals are not required to pay more than three months of premium liability.

A. AUTOMATIC EQUITABLE RELIEF - Whenever there is more than a three month arrearage to be collected, the program automatically applies equitable relief. In some instances, the monthly benefit is not large enough to sustain a multiple month adjustment. The system will only make a one month adjustment. The record will then be identified by the monthly system and a referral captioned "MECHANICALLY ADJUSTED-ARREARAGE DUE" will be printed. SEE RCM 3.2.95.
B. **MANUAL CHANGE OF TERMINATION DATE** - If an individual was not advised by the State of the SBI deletion in or before the month of the deletion, equitable relief can be granted to allow SMI coverage to end effective with the termination of the SBI coverage (thus allowing the individual to avoid entirely any premium liability) if all of the following conditions are met:

1. The individual submits a written request to have his/her individual SMI coverage end effective with the end of SMI coverage.

2. Such request is filed within 30 days of the date of the notice informing the beneficiary of his SBI coverage termination.

   **EXAMPLE:** SBI coverage terminated on May 31, 1992. Request for SMI termination was made on June 2, 1992. Based on date of request, the termination date of SMI coverage would be June 30, 1992.

3. The individual certifies that he/she has incurred no medical services covered under SMI during the months after SBI coverage termination. The examiner should check the appropriate common working file if and when regular Part B or out-patient Part B services were done. If the individual did receive medical services covered under SMI after the end of the buy-in coverage, SMI entitlement must continue until the end of the month in which the termination request was made (if the request is filed within 6 months of buy-in termination). No intermediate date may be selected for the termination date.

   **ACTION:** Prepare MEDCOR Activity code 23 to process the termination. Use event code "4" followed by the date of termination. (Remember do not use the date of the request.)

C. **WAIVER** - If the individual spontaneously complains that he or she cannot afford to pay one, two or three months retroactive premiums, it is possible to grant relief from even the 3 months' arrearage. MS will request the field office (F/O) to furnish Form DR-423 to the beneficiary. "Hardship" cannot be assumed without this development because the individual's loss of State buy-in presupposes an improvement in the beneficiary's financial status. MS will determine if the arrearage situation meets the criteria for waiver and will so notify the enrollee. If the waiver request must be denied, MS will advise that installment payment and partial withholding are still permissible. See RCM 3.2.95 and 3.2.96 for more information on delayed deletion from SBI rolls.

### 3.7.39 SBI Process

After a State determines that an individual is either eligible for the State to pay their premiums (SBI accretion), or that the State should no longer pay their premiums (SBI deletion), the State transmits the information to CMS. The State transmits this
information to CMS prior to the 25th of each month. Any other record changes are also included with the monthly transmissions of the accretions and deletions.

At the beginning of the next month, CMS processes the information received from the States. Information about accretions, deletions and other record changes are maintained on CMS’s Third Party Master File (TPM), also known as the SBI file.

The TPM is CMS’s master file which contains a history of all transactions transmitted by the States. After the TPM is updated, CMS transmits a file to RRB of all the transactions received for QRRB’s. The file contains the accretions, deletions and other record changes for QRRB’s. This file is received by RRB in the same month that CMS updated the TPM.

Generally, MIRTEL master records are updated around the 12th of each month with the file received from CMS to reflect the accretions, deletions and other record changes. If inconsistent or impossible information is received or more than one transaction is received from CMS which does not match the information on our MIRTEL master record, MIRTEL is not updated. A manual input activity referral is generated for manual handling.

The matching criteria for SBI records are as follows:

- The initial match to MIRTEL is based on claim number (and prefix for six digits or less numbers), and beneficiary symbol. Tolerances are allowed for MA, WA, CA and WCA symbols.

- If the activity matches a cross reference record, it will be coded with the RRB claim number and input into the next MIRTEL RUN. When it is processed in the following run, the activity must match on sex code. This match will be ignored if either the activity or MIRTEL contains an unknown sex code.

- If the activity matches a MIRTEL master, it is further matched and must agree on either year of birth or first five characters of given name. If this agrees, a final match is made on sex codes. The transaction will reject if either the activity or MIRTEL contains an unknown sex code.

In the same month, during the monthly processing in the MIRTEL system, an award is created for the MIRTEL master records that were updated from the file received from CMS to either stop deductions and make a refund or initiate deductions. This adjustment will take place on the individual's payment dated the following month. The SBI vouchers are:

003 - Retroactive SBI accretion (including premium refund - RR annuity)

007 - Retroactive SBI deletion (including multiple premium deduction from RR annuity)

991 - Retroactive SBI accretion (including premium refund) - SS benefit
994 - Retroactive SBI deletion (including multiple premium deduction from SS benefit)

995 - Current SBI deletion (SS benefit)

### 3.7.40 F/O Handling of SBI Inquires Received

To secure information when contacted about a SBI accretion or deletion, the F/O will take the following actions:

A. The F/O will check the MOLI 'SB' screen to see what SBI information is currently shown. They will also check the MOLI 'GD' screen to be sure that the sex code and other identifying information is correct.

B. The F/O will secure all the social security and Medicaid claim numbers on which the individual may be entitled.

C. If the SBI allegation does not agree with MOLI, the F/O can check the SBI information available on BERT on both the RRB and SSA claim numbers. If BERT confirms the SBI allegation, the field office will request MS to update the MIRTEL master.

**NOTE:** MS will update the MIRTEL master if BERT has the correct information. If the SBI information was found to be under an incorrect number, MS will prepare Form RL-379 to advise CMS to correct their records.

D. If BERT does not have a record of the SBI for the enrollee, the F/O will release Form RL-380-F to the appropriate State Medicaid agency.

E. If an inquiry is received regarding QMB entitlement, the F/O will refer the individual to the appropriate State Medicaid agency. This is necessary because a specific application is required. RRB does not make any determinations regarding the QMB entitlement.

### 3.7.41 State Medicaid Agency Handling of Form RL-380-F Inquiries Received

The purpose of the Form RL-380-F is to give the State Medicaid agencies the correct identifying information so the correct SBI accretion/deletion information can be quickly obtained. Correct identifying information to be used on the Form RL-380-F should be picked up from MOLI. When the State welfare agency receives the Form RL-380-F, it will:

A. Use the identifying information on the Form RL-380-F to verify the correct SBI status.
B. Ask the appropriate local Medicaid agency to investigate the SBI allegation if no record is found for the beneficiary.

C. Check the inputs and reprocess with the correct data if an action was made to do an accretion or deletion.

D. Advise RRB of status of SBI actions.

3.7.42 F/O and MS Processing of State Medicaid Agency Replies Received

When replies are received from a State Medicaid agency the F/O will take the following actions to process the replies received.

A. If an enrollee is not eligible for SBI, the F/O will advise the inquirer accordingly.

B. If a Medicaid application must be filed, the F/O should direct the inquirer to the appropriate State Medicaid agency to file an application.

NOTE: It might take up to 90 days for processing if an application is filed.

C. If the State took an action under an incorrect claim number, the F/O will check BERT under the incorrect claim number. If SBI information is found under the incorrect claim number, the field office should request MS to correct MIRTEL. MS will notify CMS by releasing Form RL-379 if the BERT record needs to be corrected. If the State Medicaid agency has not indicated whether or not they are transmitting the correct number and/or correct SBI effective date, the F/O will advise them to do so.

D. If the State's processing action will not update the TPM and BERT until a later date, the F/O will pend their files for a call-up on the 20th day of the month that the State's processing action should take effect. The F/O will check the MOLI `SB' screen to see if the SBI information was processed. If correct information is not shown on the MOLI screen, F/O should check to see if BERT has been updated with the correct SBI information. If BERT has been updated, the field office should request MS to correct the MIRTEL master record.

E. The F/O will send a tracer (Form RL-380F) to the State Medicaid agency if there is no reply to the initial inquiry after 60 days. The top right hand corner of the tracer should be marked "Second Request". A copy of the tracer should be sent to MS. No further action will be taken by the F/O.

When the tracer is received in MS, BERT should be checked for a State buy-in record. Since more than 60 days has passed since the initial request was released to the State Medicaid Agency, MS should immediately contact the Office of Public Engagement, Division of Ombudsman Exceptions at StateBuy-In@cms.hhs.gov. The state name should also be included in the subject line of
the email along with the inquiry status (First Inquiry, Second Inquiry …). After 60
days or in critical cases, the DOE Director should be contacted.

F. If the reply received from the State Medicaid agency advises that the action to
accrete, correct or delete a record should have already processed, the F/O will
re-check the MOLI `SB' screen to verify the information. If the record is not found
or updated as advised, MS should be contacted for a re-check of BERT, and to
either correct the MIRTEL master or to follow-up with the appropriate CMS
regional office. No further action will be taken by the F/O.

If MS is unable to locate a State buy-in record for the beneficiary or the current
record has not been updated as advised, the examiner should send an encrypted
email to CMS at StateBuy-in@cms.hhs.gov. the listing of general CMS regional
office contacts maintained in the Medicare Section. This listing is no longer
maintained in RCM Appendix J, because the contact information changes too
frequently.

NOTE: If MS is unable to resolve the case after following above procedure, or if a
Congressional inquiry is involved, the examiner should e-mail a State buy-in
analyst at a regional CMS office under the Office of Public Engagement, Division
of Ombudsman Exceptions (DOE), explaining the issue and possible solutions.
E-mail communications is the preferred method. The e-mail should be encrypted
per current agency practice and sent to the following address:

StateBuy-in@cms.hhs.gov

The email should include the State name in the subject line of the email.

See RCM Appendix J for instructions.

G. If the State's reply indicates the inquiry was referred to a local welfare office, the
F/O will pend their file for an additional 60 days.

3.7.43 MS Handling of SBI Inquiries Received

If a SBI inquiry is received by MS, examiners will take the following action:

A. Examiners will check the MOLI screen. If a SBI record is not found on the MOLI
screen, examiners should check BERT under the RRB and any SSA claim
numbers available.

B. If BERT indicates there is an accretion date under another claim number and the
MOLI screen does not have this information, examiners should prepare
MEDCOR Activity Code 20 to update the MIRTEL master with the accretion date.
If the accretion date is listed under a non-RRB claim number, the Medicare
examiner will check SSA’s records to verify that jurisdiction of the beneficiary’s
Medicare is shown under RRB. The examiner will take appropriate screening actions if applicable.

NOTE: If the SBI information is found under an SS claim number, Medicare examiners should prepare and release Form RL-379 to CMS for them to fix the record to show RRB jurisdiction. Examiners should attach the RL-379 to an encrypted e-mail per current agency practice, and release the e-mail to the following address: StateBuy-in@cms.hhs.gov.

C. If no SBI entitlement is found, MS examiners will refer the SBI inquiry to the F/O for their handling. Form RL-85 should be released to the inquirer by field office personnel.

D. For Congressional inquiries, CMS’ Office of Public Engagement, Division of Ombudsman Exceptions (DOE) should be contacted by e-mail at StateBuy-in@cms.hhs.gov as discussed in RCM 3.7.42 Section F above. For State buy-in communications with CMS’ Office of Financial Management (OFM), Division of Premium Billing & Collections (DPBC), an electronic mailbox is available at DPBCStateBuy-in@cms.hhs.gov for the following inquiries:

- issues relating to State buy-in program rules and regulation;
- Part A and/or Part B premium billing and collections activity;
- daily and/or monthly TPS State Agency Input Excel data spreadsheets;
- and reconsideration requests for the premium liability amount shown on a Part A and/or Part B monthly bill. A CMS DPBC State Buy-in Specialist listing by region is included in RCM 3.7 Appendix J.

3.7.44 Mechanical Processing

The monthly State buy-in accretion/deletion actions are used to update MIRTEL record and are processed as Activity Code 20 "MECHANICAL". This activity is processed the same way as manual processing except that it can change SMI effective dates. A mechanical activity must pass the same matching and editing as any other type of activity. If possible, the MIRTEL record is updated with the SBI information. If not, reject referrals are produced showing "ACTIVITY 20 MECHAN". In some situations, the MIRTEL system generates an adjustment, but also produces alerts and folder notices requiring some manual handling due to questionable information in the record.

A. DAILY REFERRALS - These referrals are produced when a SBI action is unable to process.

1. No record on MIRTEL
2. Identifying data inconsistent

3. SBI information on MIRTEL inconsistent (e.g., SBI accretion on a case with SBI)

B. FOLDER NOTICES - These notices are generated if SBI information being transmitted shows an earlier Part B effective date than the date shown on MIRTEL.

C. PRE-EDIT MIRTEL REJECTS - These rejects are produced for closed period adjustments and other corrections.

D. ACCOUNTS RECEIVABLE REFERRALS - These referrals are produced if accretions are matched against an open accounts receivable item (type "30" or "35"). MS will request the folders involved and take the necessary action to recover any unpaid premiums and to set up SMI under State buy-in. (MEDCOR activity code 20.

NOTE: If the SBI refund is used to offset an arrearage, refer to section RCM 3.7.45.A.2

E. MECHANICAL SBI ADJUSTMENTS - These adjustments are made based on the contents of the updated MIRTEL record and are processed in the same computer run as other mechanical SMI adjustments to the check writing master record. The mechanical adjustments start or stop premium deductions, refunds premiums, if required, and releases letter RL-119d to the beneficiary.

F. MECHANICAL EQUITABLE RELIEF - Whenever there is more than a three month arrearage to be collected, the computer automatically applies equitable relief. In some instances, the monthly benefit is not large enough to sustain a multiple month adjustment. The system will only make a one month adjustment. The record will then be identified by the monthly system and a referral captioned "MECHANICALLY ADJUSTED-ARREARAGE DUE" will be printed. SEE RCM 3.2.95.

3.7.45 Manual Handling Of Computer Reject Referrals

Upon receipt of SBI referrals MS examiners tries to handle referrals without the folder.

A. ANNUITY IN FORCE WITH PREMIUM DEUCTIONS - SBI Accretions

1. If premiums were collected from the SBI accretion effective date, prepare MEDCOR activity code 20 or 22 and enter the SBI accretion effective date to update MIRTEL.

NOTE: The system will mechanically refund all premiums from the accretion effective date through the current processing month.
2. If premiums were not collected from the SBI accretion effective date, prepare MEDCOR activity code 20 or 22. Enter the current processing month to update MIRTEL. Premiums will be refunded from the current processing month only.

   NOTE: After SBI information is shown on MIRTEL, update MIRTEL again to enter the correct SBI accretion effective date.

3. If the SBI accretion was not handled mechanically, suspend the annuity on FAST - suspension/termination on DATAQ by pressing PF7 key and completing the necessary items. Then reinstate the annuity and explain the reason for the adjustment on the ALTA award letter. If necessary, refund any excess SMI premiums. See RCM 3.7.72 and 3.7.73.

B. ANNUITY IN FORCE WITHOUT PREMIUM DEUCTIONS - SBI DELETIONS

1. If SBI deletion was not handled mechanically, prepare Form G-607 type 8 with "0SMIB" or "0SMIS" completing the necessary items. (Make sure that the zeros are slashed)

2. If the premiums are not deducted the following month, refer the case to your supervisor.

4. Determine if an arrearage exists. Remember an arrearage can only be collected for three months prior to the deletion effective date.

C. ANNUITY IN FORCE WITHOUT PREMIUM DEUCTIONS - SBI ACCRETION

1. Prepare MEDCOR activity code 20 or 22. Include the accretion effective date. Determine if any excess premiums have been paid and refund premiums is necessary. See RCM 3.7.72 and 3.7.73.

2. Prepare Form G-607 to update the benefit payment file with SMI option code 8. (See G-607 instructions RCM 9.4.)

D. ANNUITY IN FORCE WITH PREMIUM DEDUCTIONS - SBI DELETION (CLOSED - PERIOD)

1. If premiums were collected during the closed period, make a refund of premiums collected during this period. See RCM 3.7.72 and 3.7.73.

2. If MOLI shows the correct information for the latest SBI period, no other manual action is necessary. Otherwise correct the last period with a MEDCOR activity code 20 or 22.

E. ANNUITY IN SUSPENSE AND BENEFICIARY CURRENTLY IN BILL-DIRECT OR IPI STATUS - SBI ACCRETION
1. SMI Previously Elected – Complete MEDCOR activity code 20 or 22. Enter the accretion effective date. Determine if any excess premiums have been paid and refund premiums is necessary. See RCM 3.7.72 and 3.7.73.

2. SMI Not Previously Elected - Prepare MEDCOR activity code 22. Enter the accretion effective date. Determine if any excess premiums have been paid and refund premiums if necessary. See RCM 3.7.72 and 3.7.73.

3.7.50 When Premiums Are Considered Paid

In general, premiums will be considered paid if deducted from a benefit even if it is determined later that the benefit was paid in error. Premiums will be considered unpaid and due if it is later determined that the monthly benefit was not paid to the beneficiary regardless of the circumstance.

A. Annuity Later Found To Be Not Due - If the premium was deducted from an annuity payment, the premium is considered paid even though the annuity payment for that month was erroneous. If a check was not cashed, but was returned for cancellation, see RCM 3.7.45 for instructions.

EXAMPLE: Mrs. Brown was receiving a divorced widow's annuity when she married in March 1982. The RRB was not informed of her marriage until June 1982. The last check released to Mrs. Brown was dated July 1, 1982. Her SMI premiums are considered to be paid through July 1982, even though she was not due an annuity after February 1982. When preparing a Form RR-80 to transfer SMI jurisdiction to SSA, enter July 1982 as the paid through date.

This provides the most continuous coverage to the beneficiary while the administrative transfer of Medicare jurisdiction is taking place. It also alleviates the need for a large initial premium deduction when deductions are resumed at SSA.

B. Withheld Annuity Later Found To Be Due - If a withheld annuity is later determined to be due, consider the premium to be paid at the time the annuity was first withheld only when:

- evidence showing the annuity was due is submitted before the end of the direct billing grace period, and

- all overdue premiums for the past calendar year can be deducted from the accrual.

EXAMPLE: An annuitant reported expected excess earnings which resulted in her annuity payments being withheld for the entire year of 1976. Her premiums could not be deducted from her monthly annuity and she failed to make cash premium payments, although billed regularly for such payments. She was notified in January 1977 of her premium obligation and subsequently notified that the SMI
coverage would terminate on April 30, 1977 unless premiums were paid by that time. She failed to make any cash premium payments and her SMI coverage terminated on April 30, 1977. In 1978, she submitted an annuity report for 1976 showing she had no earnings from October 1, 1976 through December 31, 1976 and was subsequently paid her annuity for those months. Since the annual report was not submitted before the end of the grace period, April 30, 1977, and the annuitant did not make timely cash payments, her SMI coverage was correctly terminated.

3.7.51 Recovery Of Unpaid Premiums

If there are any premiums due but unpaid, including premiums for months in the grace period or the premium for the month of death, enter the unpaid premium amount on the Program Accounts Receivable system (PAR) according to RCM 3.12. Recover any unpaid premiums by whichever of the following methods is the most readily available:

A. **Adjustment of Monthly Benefits** - Unpaid premiums can be recovered by withholding from any monthly benefits due to the enrollee. This includes any annuity due but unpaid at the time of the enrollee's death.

B. **Arrearage Recovery through Direct Collection Efforts** – If premiums are unpaid, the Medicare Section may request payment directly from the enrollee or the enrollee's estate. PAR is used to generate request for unpaid premiums.

C. **Beneficiary Dies Before Full Recovery Is Made** - When the enrollee dies and there are still premiums to be collected for some months of coverage, enter the arrearage amount on PAR and take the following actions to recover the unpaid premiums:

1. **Survivor benefits currently payable** - A SMI arrearage can be recovered from an accrued annuity, lump sum death payment, residual lump sum, or monthly survivor benefits. Include paragraph 979 in the award letter.

2. **No survivor benefits currently payable** - In a case where the debtor is deceased and no other individual is entitled to benefits on the same earnings record, recovery may be attempted from the estate of the deceased. See RCM 3.7.52 for instructions on estate development.

D. **Recovery From Part B by The Part B Carrier** - Unpaid premiums may also be recovered from any unassigned SMI benefits due to the enrollee or the enrollee's estate. When SMI coverage is terminated for non-payment of premiums, MS will release Form RL-461, Request for Offset of Unassigned Claims to the Part B Carrier, to request recovery of unpaid premiums from any unassigned SMI benefits payable. Upon recovery, the Part B carrier will send a check payable to the RRB. This check is to be deposited in the SMI trust fund; the recovered amount should be posted to the open receivable record on PAR.
E. **Waiver** - Recovery of unpaid premiums from a beneficiary or from any survivor eligible for benefits on the employee's earnings record may be waived if certain conditions are met.

F. **Uncollectible Determination** - If unpaid premiums cannot be collected by any of the methods described in A through E, MS will consider declaring the unpaid amount to be uncollectible. See RCM 3.7.52 for guidelines in making uncollectible determinations in Medicare debts.

### 3.7.52 Action To Collect Unpaid Premiums

A. **General Rules** - SMI premium arrearages not refunded directly can be recovered from RR or SS payments due the enrollee or the estate of a deceased enrollee under the Railroad Retirement Act or Social Security Act. Recovery attempts should always be made to recover a SMI premium arrearage regardless of the amount.

A record should be established on PAR for all arrearages. A Form G-363 and prints of PAR input screens should be completed as a file record of the arrearage.

Advance notice must be given before recovery actions are taken. The Medicare Section will release a PAR notice explaining the arrearage to the beneficiary. The beneficiary is requested to make payment arrangements within 30 days from the date on the notice.

B. **Actions Following Release of Request for Payment** - Take the following recovery actions when an arrearage exists:

1. Enter the arrearage onto PAR and based on information supplied by the referral or other file information, prepare the appropriate PAR letter to notify the enrollee of the reason for the arrearage and to request payment of the overdue premiums.

2. Generally, beneficiaries are given 30 days from the date of the notice to make payment arrangement. See Section C for actions to take when the 30 days expires or a response is received.

C. **Actions at Expiration on Due Date or Enrollee Response** - Take the following actions when the enrollee responds to our request for payment or when the 30 days expires and no payment arrangements have been made.

1. **Beneficiary Claims and Good Cause**
   
   a. **General** - When SMI coverage terminates because the individual failed to pay premiums within 90 days of the premium due date, the coverage may be reinstated if the enrollee demonstrates good
cause for his or her failure to pay in that period. The 1972 amendments to the SS Act provided a 90-day extension of the original 90-day period during which an enrollee may retain entitlement to SMI coverage by paying all past-due premiums in any case where "good cause" is a factor.

b. **Due Date For Premium Payments** - The due date for premiums is ordinarily the 5th day of the quarter for which the premium is payable in the case of "direct bill" enrollees. For beneficiaries in suspense status during a year, the due date for any premiums owed for months in that year is normally February 5 of the following year.

c. **Definition of Good Cause** - "Good cause" will be found where the enrollee establishes by a credible statement, not contradicted by any evidence available in file, that his or her failure to make timely premium payments resulted from conditions over which he or she had no control, such as:

- He or she was mentally or physically unable to make a timely payment and no one was acting on his or her behalf; or

- He or she had reasonable basis to believe payments were made because he or she had made arrangements for the payment of bills while absent from home; or

- He or she failed to receive billing notices because they were misaddressed or were lost in the mails; or

- Because of senility a second party took care of his or her regular bills but overlooked the SMI premiums.

d. **Good Cause Determination** - An enrollee must be advised of his or her rights to have SMI coverage reinstated if he or she pays the overdue premiums in the 90-day period immediately following the SMI termination date. Since good cause determinations are quite expensive in relation to the small amount of premiums involved, the following instructions are designed to keep them at a minimum while still apprising the enrollee of his or her rights.

- **Enrollee Requests Relief** - If the original request for relief does not cover the facts, secure a signed statement explaining why the premiums were not paid timely. Determine whether the statement meets the good cause criteria defined in the preceding section.

- **Reinstatement of Coverage** - If reinstatement of coverage is in order, advise the enrollee that SMI coverage may be reinstated if premiums due up to the
end of the extended grace period are paid promptly. If payment for this period has already been made, tell the enrollee that the coverage has been reinstated and that premiums should be paid promptly in the future.

The "bill direct" cases will be reinstated under protective code "002" procedure explained in RCM 3.10. All other cases will be referred to the supervisor of the group handling adjustments to the HI records.

- **Denial of Extension of Grace Period** - A determination that the enrollee has not shown good cause is subject to regular appeals procedures. Any premiums paid for months after the month of termination will be refunded if the termination is upheld.

2. **Payment Received** - If payment is received, the Medicare Section will process the payment in accordance with RCM 3.10 and credit the payment to PARS record according to RCM 3.12.

3. **Full Withholding Selected (or Applied by MS)** - Take the following actions when the enrollee request full withholding. Except in option cases, if no payment or other response is received after 30 days, MS will apply full withholding to recover the amount from any benefits payable on the account.

   If RR benefits are currently payable and the arrearage can be recovered from one month's benefits, MS will suspend and recover the arrearage from current payments due and enter the amount recovered on PAR.

   If recovery of the arrearage will take more than 1 month or if arrearage will be recovered from an SS benefit, MS will suspend and forward to the appropriate adjudicative section for reinstatement. Be sure to set an MS call-up for 2 months after the month of expected recovery.

   In 'no current pay' cases, if the beneficiary or payor does not respond to the initial notice within 30 days and no other beneficiary is in pay status on the record, current collection efforts should be terminated. Refer to RCM 3.7.52.

4. **Installment Arrangement Selected** - If the payor/beneficiary request to make monthly installment payments is approved, take the following actions:

   a. Post the remittance to the open receivable by creating a cash document.

   - When appropriate, forward correspondence for examiner handling.

   - Establish a record for the open receivable on the Installment Billing Table (INBT) for the agreed installment amount.
b. The MS examiner or specialist will make any appropriate changes to the Medicare record.

5. Partial Withholding Selected

The MS specialist will take the following action when the Payor/Beneficiary request to have his or her annuity adjusted for more than 1 month to recover the receivable is approved.

a. Modify the Billing Document as described in RCM 3.12.12 to change the Payor name and address to reflect the appropriate OP adjudicative section handling the adjustment as shown in the example below.

b. If this record represents an option case, the cause code should also be changed from C01 to cause code C07.

c. Set a MS call-up to review the case 2 months after the expected date of recovery.

d. Forward claim to appropriate OP Section for handling.

6. Full Cash Remittance Received - If a case remittance is received for the full amount of the receivable, create case documents on PARS for the amount of the remittance according to RCM 3.12.17 or RCM 3.12.20.

7. Over-Remittance Received - If more than the amount owed is received, create a cash document as described in RCM 3.12.17 or RCM 3.12.20. Refund the excess amount in accordance with established procedures.

8. Waiver Requested - If the beneficiary request that the receivable be waived, take the following actions.

a. Change the Waiver Request Flag to "Y" on the WAIV Table. Instructions for completing the WAIV table are located in RCM 3.12.25.

b. Develop for waiver in accordance with RCM 3.9.25.

c. If waiver is granted, create a cash document using the write-off Table (WROT). Instructions for this table are located in RCM 3.12.19. If waiver request is denied; release a notice to advise the beneficiary and enter date of waiver denial notice on WAIV Table.

9. Request for Additional Information - If the beneficiary requests additional information about the receivable, provide the requested information. Complete appropriate entries on the WAIV TABLE to indicate that a
review is in process. Instructions for completion of the WAIV TABLE are located in RCM 3.12.25.

10. **Undeliverable Notice - Address Change Request** - If a notice is returned as undeliverable, change the PAR record to show that the information is in development as described in RCM 3.12.5 and 3.12.12, and release Form G-831 to the appropriate field office to develop for a correct address.

    When a corrected or changed address is received, change the PAR records to reflect correct information.

D. **Recovery of Unpaid Premiums From the Estate** - If no current entitlement exists and no other method of recovery is available, MS will pursue recovery from the estate.

Note: Effective August 2008, action to recover unpaid premiums from a deceased beneficiary’s estate is handled by the Medicare Section with the assistance of the Debt Recovery Division in the Bureau of Fiscal Operations. If information is developed that there is an open estate from which unpaid premiums may be collected, refer complete information related to the arrearage and the open estate to BFO-DRD.

BFO-DRD will take some or all the actions otherwise taken by the Medicare Section as described in item 2 below, and advise the Medicare Section of the results of their actions.

1. **Initiating Estate Development** - Take the following actions to develop estate.
   
a. Release an e-mail to the servicing field office to request estate development. The e-mail should include all identifying information, including the date of death, amount of unpaid premiums and any other information which might assist the field in their development.

b. Pend the case for 60 days after the request for estate development is released to the field office. Because of the limited amount of time required to file a proof of claim with the court in open estate situations, it is important that the request be traced promptly if no response is received within 60 days.

2. **Handling Responses to Estate Development** - When the response is received, take appropriate action as described below:

a. **Estate is Open**

   If information is received that the estate is open for probate, take the following action:
1. Prepare a Form DR-0302, Statement and Proof of Claim and a Statement of Indebtedness.

Use Form DR-0302 to recover a debt when the estate of the deceased debtor is still open and there are sufficient assets to satisfy a significant portion of the debt and the administrator or executor of the estate has not made any repayment or contacted the RRB within 60 days of the notice of debt.

The Statement of Indebtedness is a detailed summary of the background of the debt and should provide the reason, period and supportive facts regarding the debt. It should be attached to all copies of the Proof of Claim.

1. Prepare the Original Form DR-0302 and Statement of Indebtedness for the clerk of the court in which the estate is to be probated.

2. Prepare a duplicate original copy of Form DR-0302 and Statement of Indebtedness for the legal representative. Label this copy "Duplicate Original" in the upper right corner.

3. Refer both copies to the Attorney adviser for Notary Public.

4. Send both notarized copies under Form G-305, Cover Memorandum for Estate Development, to the field office having jurisdiction for the location of the court for filing with the court.

5. Prepare 2 photocopies of the entire development package, one for the field office and one for the file.

b. Estate has been Closed - If information is received that the estate has been closed, the debt should be declared uncollectible if:

1. The amount of the debt is $1,500.00 or less,
   -AND-
   the amount distributed from the estate is not adequate to liquidate a substantial amount of the debt
   -OR-
   distribution was made more than 1 year prior to our request.

2. The amount of the debt exceeds $1,500.00,
the amount distributed from the estates is not adequate to liquidate a substantial amount of the debt

-OR-

distribution was made more than 3 years prior to our request.

c. **Estate was not Submitted for Probate** - If no estate will be submitted for probate, the debt should be declared uncollectible.

## 3.7.60 When Collection Attempts May Be Terminated

If recovery of a debt cannot be made by the means listed in RCM 3.7.51 and RCM 3.7.52, MS is authorized to make a determination that an overpayment is uncollectible. Once a debt has been determined to be uncollectible, collection efforts should be terminated. Collection efforts may only be renewed in accordance with RCM 3.7.61.

A. **Definition of Uncollectible Medicare Debts** - A Medicare debt will be considered to be uncollectible whenever evidence indicates no source of recovery currently exists because:

1. The individual is not currently entitled to SS or RR benefits and is not currently enrolled in SMI, or

2. Recovery of the debt cannot be accomplished by:
   - Further active collection efforts; at least 2 tracers have been released at 30 day intervals, or
   - Full or partial withholding of a currently payable railroad annuity or supplemental annuity of the debtor or other family group member living with the debtor currently or at the time the debt was incurred, or
   - Waiver of recovery.

3. The individual has been deceased for more than 27 months (the maximum amount of time allowed for claiming SMI) and the individual or legal representative of the estate demonstrates that the estates present and prospective inability to pay the debt.

4. No estate can be located. The survivors, if any, should not be contacted about accepting responsibility for the deceased individual’s debts unless they are in pay status.
5. The estate has been closed and the amount of the debt is $1,500.00 or less, and the distributed is not adequate to liquidate a substantial amount of the debt or distribution was made more than 1 year prior to our request.

6. The amount of the debt exceeds $1,500.00, and the amount distributed is not adequate to liquidate a substantial amount of the debt or distribution was made more than 3 years prior to our request.

7. The Medicare debt is the result of an incorrect Part B premium refund issued to the debtor, and tolerance applies to the debt. See section C. below for information on applying tolerance.

B. Terminating Collection Efforts - If an unpaid premium amount has been determined to be uncollectible, process the uncollectible determination as follows:

1. Complete a Medicare Uncollectible Determination worksheet, Form G-270.

2. Close out the debt on Program Accounts Receivable (PAR) system using the Write-Off table (WROT) as described in RCM 3.12.19. A copy of the WROT screen should be placed in the file along with the completed Form G-270.

3. If it can be determined that future entitlement might occur, use PAR write-off code (X51).

Example 1: A Medicare only beneficiary was enrolled for Part B and incurred a premium arrearage of $115.40. The beneficiary did not respond to the initial PAR notice and did not respond to the tracer collection notices. The beneficiary’s debt is reflected on the PAR “120 Day No Activity Report”. Since, the beneficiary may file for an annuity at a later date, the Medicare examiner will write off the debt using X51. See RCM 3.7.61 for renewing collection efforts.

Example 2: A Medicare beneficiary was enrolled in Part B and incurred a Part B premium arrearage of $192.80. The beneficiary is no longer in pay status, because he/she returned to work and cancelled his/her annuity application. After all appropriate collection attempts have been made, write off the debt using code X51. The beneficiary in this example may stop working and become re-entitled to an annuity at a later date. See RCM 3.7.61 for renewing collection efforts.

C. Tolerance – An incorrect or erroneous Medicare premium refund is not considered a benefit overpayment or a premium arrearage, and tolerance rules apply to recovery of the incorrect refund. In the interest of efficient administration, the Centers for Medicare & Medicaid Services (CMS) has
established a tolerance amount below which the RRB will not attempt to collect an incorrect Medicare refund. If the incorrect Medicare refund does not exceed 3 months Part B premiums at the beneficiary’s rate, no recovery action will be taken by RRB.

• If a case involves multiple erroneous refunds of 3 months or less at the beneficiary’s rate, the tolerance applies to the sum of the erroneous refunds. In other words, collection efforts must be initiated if the sum of all the outstanding erroneous refunds exceeds 3 months of SMI premiums at the beneficiary’s rate.

• In a case involving one or more erroneous refunds and a premium refund that is due the enrollee, the erroneous refund(s) are to be offset by the premium refund due the enrollee. If the amount of the debt after offsetting the amount of the refund is equal to or less than 3 months of SMI premiums, then tolerance can be applied.

• In a case involving current action on both an erroneous refund and an arrearage, the erroneous refund is to be collected along with the arrearage.

Example: Enrollee pays $106.00 for SMI (including a 10 percent penalty). She received an incorrect refund of $212.00. The tolerance in this case is $318.00 (3 times her SMI premium). Because the amount of the refund is less than the tolerance amount, we will not attempt to recover the erroneous refund from the enrollee.

Document all determinations in which tolerance is applied by completing a Form G-363M showing the calculation of the incorrect premium refund, and enter a notation similar to “No action taken to recover erroneous refund; amount does not exceed CMS tolerance amount.” In addition, establish the debts on the PAR system. See RCM 3.12.17 and 3.12.20 for instructions on closing out a debt on PAR when tolerance is being applied. Use Action Out code X50 (tolerance) to close out the debt.

3.7.61 Renewal of Collection Efforts on Uncollectible Debts

The Medicare Section (MS) is authorized to renew collection efforts on uncollectible Medicare debts.

A. When to Renew Collection Efforts - In general, MS may renew collection efforts whenever a source of recovery becomes available. If a source of recovery becomes available, forward the case to the MS for a determination. If entitlement to RR or SS benefits occurs alert the MS to consider renewal of collection efforts. The MS will renew collection efforts if any of the following occurs:

• The individual enrolls for SMI or
• The individual or a family member becomes entitled to a RR or SS benefit and is put in current pay status. Policy & Systems will run a computer program on a semi-annual basis that will match written-off Medicare PAR debts against the Checkwriting Master to look for new RR or SS entitlement. If the individual or a family member is found to be in current pay status, a USTAR referral MED-0WO will be generated for the MS to handle recovery of the uncollectible debt.

• There is an accrual payable to the individual.

• Any other source of recovery is discovered.

B. Action to Renew Collection Efforts - Take the following action to renew collection efforts on a previous uncollectible debt for any of the reasons indicated above.

2. Establish a reactivated accounts receivable record on PARS as described beginning in RCM 3.12.8. The amount established must be identical to the amount on the Uncollectible file. Remember that the Payor number and the debt amount are both used to match with the uncollectible file.

   a. REACTIVATE THE ENTIRE AMOUNT THAT IS REFLECTED ON THE UNCOLLECTIBLE FILE as described beginning in RCM 3.12.8. Be sure to use the SU, reactivated Medicare Uncollectible, transaction code or the record will not be deleted from the Uncollectible file. Also the original billing document Id number should be entered in the comments section of the reactivated billing document.

   b. Create a new uncollectible record for the portion of the debt for which collection efforts are not being renewed as described in RCM 3.12.19.

C. Renewing Collection Efforts in Current Entitlement Cases - If you are renewing collection efforts for an uncollectible debt for which the source of recovery is current entitlement to RR or SS benefits, follow the steps below in addition to those in B above.

1. If the benefit is not in pay status, prepare a Form G-812 to request the appropriate adjudication section to withhold the debt from the accrual due. Forward the G-812 to the Retirement Benefits Division (RBD) or the Survivor Benefits Division (SBD).
Forward the Form G-271, Medicare Uncollectible Reactivation Worksheet, to authorization via the imaging system.

The adjudicative unit will prepare the award forms to recover the debt from the accrual through the current month, and return the G-812 to MS indicating the action taken.

The MS will post the recovery to PAR.

If recovery is to be made from future accruals, the adjudication section will notify the annuitant that the debt is being recovered, giving the rates due and the month payments will begin on AB-25 back letterhead.

2. If the annuity is already in pay status, the MS will notify the annuitant of the intent to recover. Give appropriate options for repayment methods.

3.7.62 Adjusting SMI and RR, SSEB, Or SS Accounts

A. Checks Issued After the Effective Date of Suspension - When payments are suspended because of work deductions, a return to railroad employer or last person service, a payment may be returned for cancellation after the effective date of the suspension. For example, the employee returned to railroad service in February 1986 and returned his March 1, 1986 check. Because the March 1 check was not due and payable, the appropriate account must be reimbursed from the SMI Account. If the payments will not be reinstated with a large enough accrual to recover the full amount of the SMI premiums due, take the following action:

- Request a transfer of the SMI premiums from the SMI Account to the RR, SSEB, or SS Account by preparing Form G-240. (See RCM 11 for Form G-240 instructions.)
- Request the Medicare Section (MS) to correct the premium "paid-through" date on the MIRTEL. It should show premiums paid through the effective date of the suspension.

B. Checks Issued After Effective Date of Termination - Determine the correct action to take in adjusting the SMI and RR, SSEB, or SS Accounts according to the following:

- Check Terminated by Death of Enrollee (Claim in Pay Status) - The program that processes terminations also produces two death listings of cases in which SMI premiums were deducted from checks issued after the date of death. One listing reflects the cases were the SMI table rate was deducted. The other listing reflects the cases were the SMI variable rate was deducted from SS benefits. The listings are sent to MS to take the appropriate action to transfer the funds, in accordance with RCM 3.10.
• **Check Terminated by Death (Claim in Suspense)** - If payments were in suspense when the first notice of death is received and payments were issued after the month of death, take manual action to adjust the RR, SSEB, or SS and SMI Accounts.

• Complete Form G-240 to request a transfer of funds from the SMI Account to the RR, SSEB, or SS Account. See RCM 11 for instructions on the completion of Form G-240. Forward the G-240 to the Unemployment & Programs Support Division (UPSD.)

• **Check Terminated for Reason Other Than Death** - When payments are terminated for a reason other than death of the enrollee, action must be taken to assure continued collection of premiums, either at RRB or SSA. See RCM 3.5 Exhibit 1 for procedures on handling these cases.

  **NOTE:** If RRB maintains Medicare jurisdiction for a divorced and/or remarried beneficiary, it may be necessary to delete an existing terminated CHICO record before taking action to drop and reestablish the MIRTEL record.

C. **Erroneous Report of Death** - After reinstating the payments, forward a completed Form G-217 to MS with a note about the erroneous report of death.

  PSD will take action to reinstate the HI records and to void the entry on monthly transfer listing of death cases. See RCM 6.4.46 for complete information.

### 3.7.63 Termination Of Coverage - Annuitant Under Age 65

If SMI deductions based on an erroneous date of birth are in effect, and a FAST S/T is being entered to delete premium deductions, or for any other reason, enter the correct date of birth. Unless the correct date of birth is entered, the system will automatically re-institute premium collection based on the erroneous date of birth.

### 3.7.70 Priority Of Payment

If an enrollee dies or voluntarily terminates his or her entitlement so that coverage ends before the last month for which he or she has paid premiums, the excess premiums may be refunded only in the following order of priority:

A. **Premiums Paid by a Third Party** - Excess premiums paid by a third party will be refunded to the third party. The refund will be made whenever it is apparent that excess premiums have been collected.

B. **Living Enrollee (Voluntary Termination)** - Except as provided in (A) above, refund any excess premiums to the enrollee. Make the refund whenever it is apparent that excess premiums were collected. No request for refund will be necessary because the request for termination is considered an application for any excess premiums.
C. **Deceased Enrollee** - Make the refund to the legal representative of the deceased enrollee's estate. In the absence of a legal representative, make the refund to the enrollee's survivors in the following order of priority:

- the surviving spouse who was either living in the same household with the enrollee at the time of his or her death or was entitled to monthly social security or railroad retirement benefits on the same earnings record for the month of death;

- the child or children of the enrollee who were entitled to monthly social security or railroad retirement benefits on the same earnings record for the month of the enrollee’s death;

  **NOTE:** A stepchild or stepchildren of the deceased enrollee qualify in the same class as do natural or adopted children. Remember, if the enrollee is the widow, the employee's stepchild is the natural child of the enrollee.

- the parent or parents of the enrollee who were entitled to monthly social security or railroad retirement benefits on the same earnings record for the month of the enrollee’s death;

- the surviving spouse of the deceased who was not living in the same household with him or her at the time of death, and was not entitled to monthly social security or railroad retirement benefits on the same earnings record for the month of death;

- the child or children of the deceased who were not entitled to monthly social security or railroad retirement benefits on the same earnings record for the month of death;

- the parent or parents of the deceased who were not entitled to monthly social security or railroad retirement benefits on the same earnings record for the month of death.

3.7.71 **When Premium Refunds Can Be Made**

Refund excess SMI premiums according to the following rules:

**When a Formal Claim for Refund is Not Required** - A formal claim for refund is not required when:

1. Someone other than the beneficiary paid the enrollee's premiums is identified as such from our records. Where our records do not indicate that a second party paid the premiums, presume that the enrollee paid them. Assume that the person or the organization who received the premium billing notice paid the premiums. Proof of payment is not required unless a question is raised regarding whose funds were used to pay the premiums. If the amount of the payment in question is less than $25.00, a signed statement will be sufficient.

2. The refund can be added to a survivor's benefits payable.
3. The file establishes that there is a legal representative of the enrollee's estate, and contains sufficient identifying information to make payment to the representative. If the file does not establish that there is a legal representative, assume that there is no legal representative.

4. If a refund cannot be made under any of the first three conditions, a formal claim for the refund will be developed only if the amount of the refund due is equal to 3 or more months of premiums at the beneficiary's premium rate. If the amount is less than 3 months of premiums at the beneficiary's rate, make no refund until a survivor annuity becomes payable or a claim is received. However, if a request for refund is received, ask the field to secure a Form AA-21 and required proofs regardless of the amount. Documentation related to the refund should be imaged and detailed remarks entered on USTAR.

### 3.7.72 How a Refund is Made

The Medicare Unit (MU) issues Medicare premium refunds through the Medicare Payment System (MPS). See RCM 3.13.89 for instructions on completing a Medicare premium refund through MPS.

### 3.7.73 Premium Refund Proofs for Imaging

In order for the Medicare Unit (MU) to determine if a premium refund should be made, various external and internal agency informational sources must be reviewed. In premium refund cases where the information used to adjudicate the refund is not maintained and cannot be retrieved or recreated from the original source, the MU examiner or authorizer will assemble the supporting documentation as paper documents for scanning into the imaging system after the premium refund is processed and, if necessary, authorized. If the documents prove or support why a premium refund should not be made, the documentation should still be prepared for imaging.

**A.** The MU examiner or authorizer will package the following items for imaging as a single document with multiple pages in the order shown below:

- MEDREF or DAISY referral(s)
- MOLI DB screen(s)
- Form(s) G-363M, Payment Summary

  Include Form G-363M only if the adjudication action results in a refund. If no refund is to be paid, image Form G-363M as a separate document.

- Correspondence

  Correspondence includes but is not limited to: letters from beneficiaries, e-mails, memorandum, file notes, copies of checks, information from other...
RRB organizations (Policy & Systems, Program Evaluation Section) or from other agencies, such as the Centers for Medicare & Medicaid Services.

B. If authorization is not required, the MU examiner will take the following actions to assemble the document. If authorization is required, the authorizer will assemble the documents:

- If a piece of correspondence is smaller than 8 ½" x 11", tape it to a blank piece of 8 ½ “x 11” paper. Apply tape on the left and right sides only.
- If a piece of correspondence has information on both sides, xerox one side and include it in the package in the order it should be in.
- Staple the package with one single staple in the upper left corner. Remove all other staples.
- Write the form type, i.e. “PREMIUM PYMT PROOFS,” in the upper right corner of the first page of the stapled document. This is not to be confused with the form type “PREMIUM PAYMENT,” which is the name for packages submitted to Imaging that document premium payments posted.
- Place the stapled documents in the outgoing tray for the clerical staff to complete the routing of these documents.

C. MU clerical staff will take the following actions with the documents for imaging:

- Prepare a blue Form G-156 as the transmittal document for each group of PREMIUM PYMT PROOFS packages placed in the outgoing tray. Enter “Medicare File Only” as the scanning application on the Form G-156.
- Forward these packages to PSD-IDS by placing them in the tray for Medicare scanning applications. The tray is in PSD-IDS.

**Appendix D - G-700, Variable SMIB Computation Worksheet**

**SMI Premium Collection**

**Use**

Use a Form G-700 worksheet to compute the variable SMIB premium deduction amount when it has been determined that the variable SMIB rate could apply. Form G-700 is available on RRAILS. The determination should be made on December vouchers, certain reinstatement vouchers in January, and on COL reject vouchers throughout the year. If any of the situations listed below exist, the variable computation could apply, so the computation should be made.

Examiners may refer cases to the Operations and Claims Analyst for computation of the variable SMIB rate. The Operations and Claims Analyst will complete Form G-700 and return the case to the examiner.

Form G-700 is available on RRAILS. Many of the items on the form will pre-fill based on other entries that are made.

**A. December Manual Award Actions**

1. **Recertification of an RR Annuity or Pure SS Benefit**
   - Recertification includes partial to final, and spouse to widow conversion award actions.
• Annuitant received a November Tier 1 or pure SS benefit in December (or payment was withheld because of code 98 status) and will receive a December Tier 1 or pure SS benefit in January, and

• SMIB premiums are deducted from both the December and January payments, (or the annuitant was in direct bill status because the railroad annuity was too small to deduct SMIB, and we were not able to deduct SMIB from the SS LAF E benefit), and

• The increase amount of the new base SMIB premium rate is greater than the net Tier 1 plus SS benefit portion of the December benefit minus the November net Tier 1 plus SS benefit portion. (For pure SS cases, compare the December SS benefit to the November SS benefit.)

2. **Reinstate and Recertification of an RR Annuity or Pure SS Benefit**

• Annuitant is due a December Tier 1 or pure SS benefit in January, and will also be paid an accrual for a November Tier 1 or pure SS benefit in December, and

• The SMIB premium is paid thru December (or January) because the annuitant has been on direct bill, or SMIB deductions will be started up mechanically and premiums due will be retroactively collected.

• The increase amount of the new base SMIB premium rate is greater than the net Tier 1 plus SS benefit portion of the December benefit minus the November net Tier 1 plus SS benefit portion. (For pure SS cases, compare December SS benefit to the November SS benefit.)

3. **Initial Award Actions** - For an initial RR or pure SS award where the beginning date is November or earlier, and SMIB is effective November or earlier, the variable SMIB rate will apply if:

• Annuitant will be paid a December Tier 1 or pure SS benefit in January, and will receive an accrual payment for a November Tier 1 or pure SS benefit in December, and,

• The SMIB effective date is December or earlier, and,

• The increase amount of the new base SMIB premium rate is greater than the net Tier 1 plus SS benefit portion of the December benefit minus the November net Tier 1 plus SS benefit portion. (For pure SS cases, compare the December SS benefit to the November SS benefit.)

B. **January Manual Award Actions**
There is only one situation where the variable rate determination should be made. If you are handling a RR or pure SS benefit reinstatement or reinstate/recertification on a January voucher, and the following conditions are present, the variable SMIB rate will apply if:

- Annuitant was in current pay status (including code 98 status) for the December 1 payment, and SMIB was deducted from the December 1 payment (or the annuitant was in direct bill status because the railroad annuity was too small to deduct SMIB, and we were not able to deduct SMIB from the SS LAF E benefit), and

- Annuitant was suspended (for any reason) in December, but is being reinstated (reinst/recert) with accrual for December and SMIB deduction for January will be developed by MIRTEL, and

- The increase amount of the new base SMIB premium rate is greater than the net Tier 1 plus SS benefit portion of the December benefit minus the November net Tier 1 plus SS benefit portion. (For pure SS cases, compare the December SS benefit to the November SS benefit.)

Since this can get confusing when both an RR benefit and LAF E SS benefit are payable and only one or the other gets suspended in December (and reinstated in January), the following chart should help you to determine the proper action to take:

<table>
<thead>
<tr>
<th>Benefit</th>
<th>Status Dec 1</th>
<th>Status Dec</th>
<th>Status Jan</th>
<th>Variable Computation</th>
</tr>
</thead>
<tbody>
<tr>
<td>RR LAF E</td>

</tbody>
</table>

C. COL Reject Award Actions

Except for cases that reject in the RR or SS COL operations because the RR annuity or pure SS benefit was in suspense, compute the variable SMIB rate if the 3 specific conditions for a December recert action apply. (See A.1. Recertification of an RR Annuity or Pure SS Benefit in this appendix.)

For cases where the annuitant is entitled to an RR annuity only, and the annuity was in suspense at the time of the COL operation, a variable rate should not be
considered, unless the situation described in B. January Manual Award Actions exists.

For pure SS cases where the benefit is in suspense at the time of the COL operation, a variable rate should not be considered, unless the situation described in B. January Manual Award Actions exists.

For cases where the annuitant is entitled to both an RR annuity and LAF E SS benefit, and either the RR benefit or SS benefit was in suspense at the time of the COL, use the chart below to determine if the annuitant is eligible for the variable computation. If yes, compute the variable if the annuitant has been in direct bill status, or SMIB will be deducted from the accrual, and the increase amount of the new base SMIB premium rate is greater than the net Tier 1 plus SS benefit portion of the December benefit minus the November net Tier 1 plus SS benefit portion.

D. Redetermination of a Non-Variable SMIB Rate

A Form G-700 should be completed if an annuitant requests a review of his or her non-variable SMIB rate, and the case review indicates that:

- there was a computational error on the original Form G-700, or,
• if processing of a SMIB enrollment, benefit adjustment, or reinstatement would have been handled timely, the conditions in A. December Manual Award Actions or B. January Manual Award Actions would have applied.

Completion

<table>
<thead>
<tr>
<th>Item</th>
<th>Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Claim Number</td>
</tr>
<tr>
<td></td>
<td>Enter the claim number.</td>
</tr>
<tr>
<td>2</td>
<td>COL Year</td>
</tr>
<tr>
<td></td>
<td>Enter the year of the COL/SMIB premium increase.</td>
</tr>
<tr>
<td>3</td>
<td>Amount of SMIB Penalty</td>
</tr>
<tr>
<td></td>
<td>Enter the dollar amount of the SMIB penalty surcharge, if applicable. In order to determine the SMIB penalty amount for the COL year, use the appropriate Table in RCM 3.1, Exhibit 5. Find the applicable penalty percentage and the total premium effective with the COL year. Deduct the base premium rate from the total premium. The result is the penalty surcharge amount.</td>
</tr>
<tr>
<td></td>
<td>EXAMPLE: For the 2005 COL year, the base premium rate is $78.20. A penalty percentage of 80% would yield a penalty amount of $62.60 (i.e., $140.80 - $78.20).</td>
</tr>
<tr>
<td>4</td>
<td>Tier 1 Downward Adjustment</td>
</tr>
<tr>
<td></td>
<td>Indicate whether a downward adjustment to the net Tier 1 plus SS benefit is effective with December. If yes, compute a fictional November net Tier 1 plus SS benefit amount based on the December criteria.</td>
</tr>
<tr>
<td></td>
<td>EXAMPLE: A survivor family group changes in December, where inclusion of an additional member decreases the December Tier 1 of existing members. Compute a fictional November amount based on the inclusion of the additional member in November (using November family maximum).</td>
</tr>
<tr>
<td></td>
<td>NOTE: For a pure SS case, a downward adjustment effective December would necessitate a fictional November computation of the pure SS benefit. (Divide the SS benefit effective in December by the COL percentage to get the fictional November SS benefit.)</td>
</tr>
<tr>
<td>5</td>
<td>Total December Benefit</td>
</tr>
<tr>
<td></td>
<td>In the first column, enter the annuitant's net Tier 1 and SS benefit (LAF E or C) effective in December. This is the amount after COL and any other applicable...</td>
</tr>
</tbody>
</table>
adjustment. The total of these two amounts is the total December benefit to be used in determining the increase amount from the November to December benefit, unless the annuitant is a dual annuitant. In such cases, in addition to the first column entry, enter the net Tier 1 plus SS benefit of the other railroad annuity in the second column. Add the sum of all benefits payable to determine the total December benefit.

If only an RR benefit is payable (no LAF E or LAF C), enter the net Tier 1 only. If only a pure SS benefit is being paid, enter the Monthly Benefit Credited (MBC). The MBC is found on the MOR in the "New History Data" section, or on the COLA G-805 referral.

6. **Total December Benefit**

In the first column, enter the annuitant's net Tier 1 and SS benefit (LAF E or C) effective in November. This is the amount that was actually paid to the annuitant on his or her December payment, (or held due to code 98 status), unless the following conditions occur:

1. The annuitant's railroad annuity was in suspense in November, and he or she did not get a December 1 railroad annuity payment. The annuity is being reinstated and railroad accrual for November will be paid as part of the reinstatement.

   Use the November net Tier 1 that is represented in the accrual.

2. There is a Tier 1 downward adjustment effective with December benefit.

   Compute a fictional November net Tier 1 or pure SS benefit based on the December criteria.

3. There is a Tier 1 downward adjustment effective November or earlier.

   Use the downwardly adjusted November net Tier 1 or pure SS benefit.

   The total of these two amounts is the total November benefit to be used in determining the increase amount from the November to December benefit, unless the annuitant is a dual annuitant. In such case, in addition to the first column entry, enter the net Tier 1 plus SS benefit of the other railroad annuity in the second column. Use the sum of all benefits payable to determine the total November benefit.

   If only an RR annuity is payable, enter the net Tier 1 only. If only a pure SS benefit is being paid, enter the MBC.

7. **Total Benefit Increase**
Subtract the total November benefit from the total December benefit. **Enter the rounded Benefit Increase.** If the result ends in 5 cents to 9 cents, round up to the nearest dime. If the result ends in 1 cents to 4 cents, round down to the nearest dime. The result is the net benefit increase to be compared with the SMIB premium increase.

8. **SMIB Premium Increase**

In order to determine the SMIB premium increase, deduct the annuitant's current SMIB premium (i.e., variable or table rate), before penalty surcharge from the January base SMIB premium before penalty surcharge. The result is the annuitant's SMIB premium increase before penalty surcharge.

In order to determine the December SMIB premium before penalty surcharge, use the appropriate table in RCM 5.1, Exhibit 5. Find the applicable penalty percentage and the total premium effective with the current year. Deduct the base premium rate from the total premium. The result is the penalty surcharge amount. This amount should be deducted from the annuitant's December premium (variable or table rate) to get the premium before surcharge.

9. **Compare Increases**

In item 9A, enter the benefit increase from item 7. In item 9B, enter the SMIB premium increase from item 8. Check either 9A or 9B, whichever is lower. If 9B is lower, the variable rate does not apply.

10. If item 9A is lower, the variable SMIB premium will apply. Enter the annuitant's current SMIB premium (i.e., variable or table rate), before penalty surcharge. Add to it the benefit increase amount from item 9A, and any penalty surcharge amount from item 3. The result is the annuitant's variable SMIB premium.

Disposition:

- The Operations and Claims Analyst will forward the completed Form G-700 to the examiner who referred the case for computation. After taking appropriate action, the examiner should forward the completed Form G-700 for imaging.

- If the computation results in a variable SMIB rate, complete a MEDCOR Activity 22L, with the Address Screen (PF16) and Variable Part B Screen (PF14), to update MIRTEL. The Address Screen is required in order to generate notice to CMS of the new SMIB rate.

**Appendix E – Addresses of State Buy-In Agencies**

**STATE BUY-IN AGENCIES**

The listing of all State Buy-In Agencies is now located in RRAILS. Once you access RRAILS, click on the “New Case” button, then click on the “Add Contact” button. This
will bring up the Lookup Information menu. Click on the State Buy-In button. This will bring up the State Buy-In Contact Listing. This list is maintained by the Policy & Systems Medicare Unit. Requests for corrections and/or updates should be sent to the P&S Inquiry Group mailbox.

**Appendix J – CMS Contacts for State Buy-in**

State Buy-in problem resolution requests that cannot be corrected through regular channels, should be sent to CMS' Office of Public Engagement, Division of Ombudsman Exceptions (DOE) at StateBuy-in@cms.hhs.gov. Below is a State Buy-in contact listing for this office. The CMS State Buy-in analyst for each region is also available by telephone for Congressional level and urgent State Buy-in issues.

Only one Health Insurance Claim Number (HICN) per request is accepted. Allow 30 business days for the resolution of a State Buy-in problem request, prior to submitting a subsequent follow-up request.

CMS' DOE accepts State Buy-in problem resolution requests in three ways:

**E-mail to:**

CMS State Buy-in mailbox at StateBuy-in@cms.hhs.gov.

E-mail communications is the preferred method. In order to protect sensitive Personally Identifiable Information (PII), e-mail correspondences containing PII must be encrypted per current agency practice.

**Fax to:** 410-786-0319

**U.S. Mail to:**

Centers for Medicare & Medicaid Services, Office of Public Engagement, Division of Ombudsman Exceptions, State Buy-in Workload, P.O. Box 11977, Baltimore, MD 21207

To help route the request for problem resolution, indicate ‘State Buy-in’ and the ‘Name of the State’ in the subject line of each request.

3.8.1 Scope Of Chapter

Medicare cannot generally pay for hospital or medical services furnished outside the United States except for certain care in qualified Canadian or Mexican hospitals. All medical claims for services received in foreign countries other than Canada and Mexico must be denied. This chapter describes the health insurance services furnished outside the U.S. that are reimbursable under the Medicare program. In addition, this chapter discusses claims processing for both hospital and medical insurance claims.

Section 7(d)(4) of the Railroad Retirement Act provides for the payment by the RRB of covered hospital services furnished in Canadian hospitals. The full text of section 7(d)(4) is as follows:

4) The rights of individuals described in subdivision (2) of this subsection to have payment made on their behalf for the services referred to in subdivision (1) but provided in Canada shall be the same as those of individuals to whom section 226 [42 U.S.C. 426] and part A of title XVIII [42 U.S.C. 1395c et seq.] of the Social Security Act apply, and this subdivision shall be administered by the Board as if the provisions of section 226 and part A of title XVIII of the Social Security Act were applicable, as if references to the Secretary of Health and Human Services were to the Board, as if references to the Federal Hospital Insurance Trust Fund were to the Railroad Retirement Account, as if references to the United States or a State included Canada or a subdivision thereof, and as if the provisions of sections 1862 (a)(4), 1863, 1868, 1869, 1874 (b), and 1875 [42 U.S.C. 1395y (a)(4), 1395z, 1395aa, 1395ee, 1395ff, 1395kk (b), 1395ll] were not included in such title. The payments for services herein provided for in Canada shall be made from the Railroad Retirement Account (in accordance with, and subject to, the conditions applicable under subsection (b) of this section, in making payment of other benefits) to the hospital, extended care facility, or home health agency providing such services in Canada to individuals to whom subdivision (2) of this subsection applies, but only to the extent that the amount of payments for services otherwise hereunder provided for an individual exceeds the amount payable for like services provided pursuant to the law in effect in the place in Canada where such services are furnished. For the purposes of section 231i of this title, any overpayment under this subdivision shall be treated as if it were an overpayment of an annuity.

Section 7(d)(4) of the Railroad Retirement Act (45 U.S.C. § 231f (d)(4)) provides that qualified railroad retirement beneficiaries who could be entitled to hospital insurance benefits if those services were provided in the United States have the same entitlement even though such services were provided in Canada. Section 7(d)(1) of the Railroad Retirement Act (45 U.S.C. § 231f (d)(1)) provides the Board with the same authority to determine the rights of qualified railroad retirement beneficiaries with regard to their entitlement to hospital insurance benefits as the Secretary of Health and Human Services has with respect to individuals entitled to hospital insurance benefits under section 226 of the Social Security Act. Section 7(d)(4) also provides that “The
payment for services herein provided for in Canada shall be made from the Railroad Retirement Account."

### 3.8.2 Background

QRRBs are entitled to Medicare benefits under both the Railroad Retirement Act (RRA) and the Social Security Act. Since the inception of the Medicare program, the RRA has guaranteed that QRRBs receive hospital insurance benefits for covered services furnished in Canada, as well as in the United States. Before 1973, Social Security beneficiaries who were U.S. residents were limited to certain emergency inpatient care furnished in a more accessible Canadian or Mexican hospital. In 1973, the SS Act was expanded to include:

1. inpatient hospital care furnished in Canada or Mexico received by U.S. border residents regardless of whether an emergency exists, and
2. emergency inpatient hospital care required by a beneficiary traveling between Alaska and another State.

In addition, the SS Act covers physician and ambulance services furnished in connection with a covered foreign hospitalization. Payment may not be made for any other Part B medical and other health services, including outpatient services, furnished outside the United States.

The term “United States” means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa. It also includes the territorial waters adjoining these entities. This means the 3-mile limit off the shores of most of the United States constitutes American territory. In the case of Texas and Florida, the limit extends into the Gulf of Mexico within 9 miles (three leagues) off the shores of these states. If a ship or aircraft, even of American registry, is not within or above the land area or territorial waters of the United States, it is not considered to be within an American territory.

Because physician and ambulance services furnished in connection with a covered foreign hospitalization are covered under the SS Act and not the RRA, it is more advantageous for QRRBs to have their claims considered under the SS Act if Part B benefits are involved. SSA has delegated to the RRB the authority to make entitlement determinations under the SS Act for QRRBs claiming Part B benefits for services furnished in Canada.

The RRB forwards claims for inpatient connected services received in Mexico to the CMS Regional office. Since other services in Mexico are not covered, those claims are sent to the Palmetto GBA Dallas office for denial.
3.8.3 Summary Of Hospital Insurance (Part A) Benefits Outside The U.S

Under the Railroad Retirement Act, payment can be made to any railroad retirement beneficiary for covered hospital insurance services furnished by a qualified Canadian hospital. Payment may be made for all covered hospital insurance services received anywhere in Canada regardless of where the beneficiary lives.

In Mexico, inpatient hospital services are covered under the following situations:

1. an emergency occurs in the U.S. and the Mexican hospital is closer than the nearest U.S. hospital equipped to deal with the injury or illness.

2. A U.S. resident receives services in a Mexican hospital which is closer to or substantially more accessible to his or her residence than the nearest hospital within the U.S., regardless of whether or not an emergency exists.

A hospital that is not physically situated in one of the United States’ jurisdictions is considered to be outside the United States, even if it is owned or operated by the United States.

3.8.4 Summary Of Medical Insurance (Part B) Benefits Outside The U.S

Medical insurance benefits are limited to necessary physician and ambulance services furnished in connection with three specific situations.

Those situations are:

1. an emergency occurs in the U.S. and a Canadian or Mexican hospital is closer than the nearest U.S. hospital equipped to deal with the injury or illness.

2. a U.S. resident receives services in a Canadian or Mexican hospital which is closer to or substantially more accessible to his or her residence than the nearest hospital within the U.S., regardless of whether or not an emergency exists, or

3. a medical emergency occurs within Canada which requires admittance to a Canadian hospital while the beneficiary is traveling without unreasonable delay and by the most direct route between Alaska and another State. This provision does not apply when a beneficiary is vacationing in Canada.

Please note that medical insurance benefits are limited to physician and ambulance services furnished in connection with a covered foreign hospitalization. This means these services are covered both during the time period immediately before the beneficiary is actually admitted to the foreign hospital and during the covered foreign hospitalization itself. Payment may not be made for any other Part B medical services, including outpatient services, furnished outside the United States.
Payment may not be made for any item provided or delivered to the beneficiary outside the United States, even though the beneficiary may have contracted to purchase the item while they were within the United States or purchased the item from an American firm.

3.8.4.1 Medicare Services Received Aboard a Ship

Services rendered on board a ship in a United States port, or within 6 hours of when the ship arrived at, or departed from, a United States port, are considered to have been furnished in United States territorial waters. Services not furnished in a United States port, or within 6 hours of when the ship arrived at, or departed from, a United States port, are considered to have been furnished outside United States territorial waters, even if the ship is of United States registry.

The following services furnished aboard a ship are covered:

• Emergency and nonemergency services furnished by a physician or supplier aboard a vessel are covered when the ship is within the territorial waters of the United States.

• Emergency services furnished by a physician or supplier aboard a vessel are covered when the services are rendered while the ship is within the territorial waters of Canada (while the individual was traveling, by the most direct route and without unreasonable delay between Alaska and another State) and the emergency services are furnished in connection with a covered foreign hospitalization in Canada, including the day the patient is admitted to the Canadian hospital.

3.8.5 Chronic Care Services In Canada

Hospital insurance claims from beneficiaries living in Canada sometimes include claims for "chronic care" services. The term "chronic care" refers to a level of care lower than acute inpatient hospital care and significantly higher than custodial care. For purposes of claims processing, always consider a claim for chronic care services to be the same as a claim for skilled nursing services.

Chronic care services may be provided in one of two locales:

1. **Chronic Care Wing of a Public General Hospital.**

   Some public general hospitals in Canada set up chronic care wings to make better use of available hospital space, especially in less populous areas. Though the full range of acute treatment services is available (surgery, x-ray, etc.), chronic care patients have less need for them. Chronic care patients receive regular skilled nursing care daily and medical care when needed. The Canadian provincial plans pay most of the cost of chronic care, leaving the patient responsible for a smaller co-payment. (The co-payment in 2007 was
approximately $51.00 a day.) The patients' proportionate share of the cost generally increases the longer he or she stays in the chronic care wing. Patients usually leave the chronic care wing when space can be found for them in skilled nursing facilities.

2. Public Chronic Hospitals.

Patients are admitted to public chronic hospitals when no chronic wing is attached to the public general hospital. The level of care provided in the public chronic hospital is the same as that provided in a chronic wing of a public general hospital.

Chronic care facilities in Canada developed in response to a shortage of skilled nursing facilities. Today a large portion of the patients in skilled nursing facilities are transferred there from chronic care facilities. Likewise, a large portion of the patients in chronic care facilities are awaiting transfer to a skilled nursing facility. In most cases, skilled nursing facilities are smaller, less institutional, and have more comfortable accommodations than chronic care facilities. The actual care provided to patients in chronic care facilities versus patients in skilled nursing facilities is identical.

3.8.5.1 Alternative Level Of Care Services In Canada

On July 1, 2009 all acute and post-acute hospitals in Ontario began using a standardized Provincial Alternate Level of Care (ALC) Definition to designate patients as ALC. The definition applies to all patient populations waiting in all patient care beds in an acute or post-acute care hospital in Ontario.

Definition:

When a patient is occupying a bed in a hospital and does not require the intensity of resources/services provided in this type of care setting, the patient must be designated Alternate Level of Care (ALC) at that time by the physician or his/her delegate. The ALC wait period starts at the time of designation and ends at the time of discharge/transfer to a discharge destination (or when the patient's needs or condition changes and the designation of ALC no longer applies).

This does not apply to patients who are:

- waiting at home.
- waiting in an acute care bed/service for another acute care bed/service (e.g. surgical bed to a medical bed).
- waiting in a tertiary acute care hospital bed for transfer to a non tertiary acute care hospital bed (e.g. repatriation to community hospital).
MS Examiner Actions:

Medicare generally covers 3 days to find a bed after discharge as administrative days. RRB will pay up to 3 days after the beneficiary’s discharge to a continuing care facility. Only the co-payment portion of the charge, after the deductible, has been met will be reimbursed by the RRB.

3.8.6 Role Of Medicare Section (MS)

Under the RRA, the RRB administers the hospital insurance part of the Medicare program for QRRBs who receive services in Canada. Operations’ Medicare Section (MS) acts as a fiscal intermediary to process claims for payment. Its functions include: coverage determinations, applying the deductible and coinsurance amounts, and determining whether all conditions of payment are met. The MS supervisor and designated claims specialist are authorized to certify payment or denial of Canadian hospital insurance claims.

3.8.7 Definition Of Terms Used In Claims Process

Below is a list of terms and their definition commonly used in the claims process.

- **Application** - Every beneficiary living in Canada who is enrolled for hospital insurance coverage (HI) is provided with a Form RB-104 describing HI benefits. An application, Form AA-104, must be filed for reimbursement of HI services furnished in Canada. To claim payment, the beneficiary returns a completed Form AA-104 with paid bills attached, and in some cases, a doctor's statement indicating that the services were medically necessary.

- **Assignment** - A beneficiary may, if he or she wishes, assign the payment due to the provider. An assignment must be a written request signed by or on behalf of the beneficiary requesting that payment on his or her behalf be made to the provider.

- **Benefit Days for Reimbursement and Utilization Purposes** - The number of days of care charged to a beneficiary for inpatient hospital services will always be in units of full days. In counting inpatient days for reimbursement purposes and determining the total number of days utilized by the beneficiary, either the day of admittance or the day of discharge is counted. In the Province of Ontario, the day of admission is not counted but the day of discharge is counted. Some provinces may be operating under a Canadian government ruling of January 1, 1968, which required hospitals to "charge for date of admission but not for date of discharge." The MS will certify payment for either the day of admission or for day of discharge. If admission and discharge occur on the same day, the examiner will count one inpatient day for reimbursement purposes.

- **Benefit Period** - A benefit period is a period of time measuring a beneficiary's use of hospital insurance benefits. It begins on the first day a bed patient receives services
in a hospital. It ends after a person has been out of the hospital or skilled nursing facility for at least 60 consecutive days.

- **Canadian Provincial Plan** - Canada’s national health insurance program, which is also often referred to as "Medicare", is designed to ensure that all residents have reasonable access to medically necessary hospital and physician services, on a prepaid basis. Instead of having a single national plan, Canada has a national program that is composed of 13 interlocking provincial and territorial health insurance plans (i.e. Canadian Provincial Plans), all of which share certain common features and basic standards of coverage. Medicare payments made by the RRB are reduced by the amount of payment made for the same services by the Canadian Provincial Plan.

- **Chronic Care** - Chronic care is a term used in Canada to describe an intermediate level of care similar to skilled nursing services in the United States.

- **Doctor’s Certificate** - A doctor’s certificate is a statement confirming that the services furnished were medically necessary. It is required as follows:

  1. If no part of the charges for the services were payable under a provincial hospital plan.

  2. If accommodations more expensive than a semiprivate room are furnished, e.g., private room or intensive care facilities, reimbursement of the difference between the customary charges for the accommodations furnished and the customary charges for semiprivate accommodations may be made only if they are considered medically necessary. The more expensive accommodations will ordinarily be considered medically necessary only when the patient’s condition required it for his or her own health or for that of others.

- **Exchange Rate** - The price or sum per unit at which the currency of one country is exchanged for currency of another country. The MS uses the exchange rate to convert the reimbursable amount from Canadian dollars into U.S. dollars.

- **Excluded Services** - These are services excluded from coverage under the Medicare program. These exclusions apply to domestic and foreign care. They include private nursing care, personal comfort items and custodial care.

- **Inpatient Hospital Coinsurance** - The beneficiary is responsible for a daily coinsurance amount of one-fourth of the inpatient hospital deductible for the 61st through the 90th days of inpatient hospital services used during each benefit period. Also, the beneficiary is responsible for a daily coinsurance amount of one-half of the inpatient hospital deductible for each of the lifetime reserve days used in a benefit period.
• **Inpatient Hospital Deductible** - The amount a beneficiary is responsible for paying before the Medicare program starts paying for inpatient hospital service in each benefit period.

• **Inpatient Hospital Services** - When a beneficiary has been admitted to a hospital for treatment of an illness or injury, hospital insurance can pay for most of the items and services that are furnished. Inpatient hospital services include: room and board, regular nursing care, drugs, laboratory tests and use of hospital facilities. For more information on services covered under hospital insurance, see RCM Chapter 3.1.

• **Lifetime Reserve Days** - A beneficiary can use an additional 60 inpatient hospital days after 90 days have been used in a benefit period.

• **Post Hospital Home Health Services** - When an individual needs skilled health services on a part-time basis after treatment in a hospital or skilled nursing facility, hospital insurance can pay for home health care provided at home. Medicare can pay for: part-time skilled nursing care, physical therapy, speech therapy and occupational therapy. If home health services are covered under Medicare, a supplemental questionnaire may be needed to determine what type of services were received.

• **Proof of Services Received - General** - The claimant must submit documentary proof that he or she received covered services for which reimbursement is being claimed. As proof, the beneficiary may submit a bill. The bill must show payment has been made for such services or it must be accompanied by an assignment indicating that the beneficiary wishes payments due for covered services paid directly to the provider furnishing such services. Where a receipted bill carries a notation that payment was by promissory note, such a receipt is acceptable as proof of payment.

• **Promissory Note** - A promissory note is a written promise to pay at a fixed or determinable future time a sum of money to a specific individual or to bearer.

  If a receipted bill carries a notation that payment was by promissory note (or the beneficiary indicates that a promissory note was given as payment) assume an unconditional giving and acceptance of the note as payment in the absence of evidence to the contrary.

  The fact that the beneficiary paid his or her hospital bill by a promissory note is immaterial. It is also immaterial that the hospital endorsed or cosigned the promissory note.

• **Qualification Requirements for Providers of Service** - Where the requirements for provincial approval of hospitals or nursing facilities are substantially the same as the requirements for participation in the HI program, the certified Canadian providers are deemed to be eligible for participation in the Medicare program. We do not require a certification to that effect from the provincial agency nor do we determine that the providers of services do, in fact, meet all of the requirements for participation.
Similarly, if a hospital is accredited by the Canadian Counsel for Accreditation of Hospitals, we deem the hospital to meet all of the requirements for participation except the requirement of utilization review.

Where Western Benefits Administration of Ontario, Canada certifies that the provider of services for which reimbursement is claimed, is a hospital, skilled nursing facility, or home health agency, as those items are defined in Section 1861 of the SS Act, assume that the requirements for participation have been met.

- **Receipted Bill** - A receipted bill is a written acknowledgement by the person or organization furnishing the covered services that all or part of the bill has been paid. The receipted bill must show the beneficiary's name and the amount paid. Acceptable proof that the bill was paid is the original receipted bill or a certified copy of such bill. It should show "Received Payment," "Paid in Full," "Paid" or a phrase with the same meaning with the initials or signature of the person receiving the payment.

- **Skilled Nursing Coinsurance** - The beneficiary is responsible for a daily coinsurance amount of one-eighth of the inpatient hospital deductible for the 21st through the 100th day of skilled nursing services used during each benefit period.

- **Skilled Nursing Services** - When a beneficiary no longer needs all the services that only a hospital can provide, but still requires skilled nursing or rehabilitation services, hospital insurance can pay for skilled nursing services provided in a qualified skilled nursing facility. In Canada, such services may also be provided in a public chronic hospital or in the chronic care wing of a public general hospital. These services include room and board, regular nursing services, rehabilitation services, drugs and medical supplies. See RCM 3.1 for a discussion of the conditions that must be met before skilled nursing services are covered under the hospital insurance program.

### 3.8.8 Amount Of Benefits

Hospital benefits for services provided in Canada are reduced by the greater of the following:

- The amount paid (or which would have been paid upon application) under a Canadian provincial health care plan, or

- The total of the deductible and coinsurance amounts (converted to Canadian funds).

Apply the above reduction criteria if the beneficiary did not receive payment under a provincial plan because he or she failed to apply for it. Do not make a reduction in the payment of benefits if the beneficiary had an option to participate in a provincial plan but elected not to do so.
Compute each type of service separately, i.e., inpatient hospital care, skilled nursing care, and home health service. The same deductible and coinsurance amounts apply to both domestic and foreign hospital insurance services.

3.8.9 Review Of Incoming Claims Material

An application must be filed within the regular time limit established for all Medicare claims. The Patient Protection and Affordable Care Act (PPACA) was signed into law on March 23, 2010. Under PPACA, claims starting January 1, 2010, must be filed within one year of the date of service.

Review the Form AA-104 for completeness. If the form is not completed properly, return it to the applicant. Compare the Form AA-104 with the doctor's statement, if any, and reconcile any discrepancies with the beneficiary. When private accommodations are claimed and the beneficiary has not already submitted a doctor's statement of medical necessity, request one.

If the bill does not indicate that it was paid, or a receipted bill was not submitted, inform the claimant that reimbursement cannot be made unless a receipted bill or a bill with an assignment of benefits to the provider is received.

If there is a discrepancy between the amount alleged by the claimant and the amount shown on the receipted bill, reconcile it before forwarding the claims material to WBA.

3.8.10 Role Of Western Benefits Association Of Ontario, Canada

The RRB has designated Western Benefits Association (WBA) of Ontario, Canada to act as its agent in Canada. This organization provides the RRB with the information required to make a reimbursement determination. WBA represents the RRB as an agent and advisor.

In requesting certification of hospital insurance services furnished in Canada, the Medicare Section refers Form AA-104, receipted bills other statements, and Form G-760 to WBA. WBA takes the following actions:

1. Establishes that the services were received;
2. Verifies the total charges;
3. Verifies the amount payable under the Canadian provincial health plan;
4. Verifies the amount paid by the beneficiary;
5. Completes Form G-760 and certifies:
   a. That the services were provided to the beneficiary;
b. That the amount charged for services are reasonable costs, with appropriate exceptions listed in "Remarks;"

c. That the services are covered by the Medicare program with appropriate exceptions listed in "Remarks;" and

d. That the provider of services is a qualified participant.

When a question arises about any WBA determination, contact them to reconcile the difference. If WBA finds that the provider is not a qualified participant, deny the claim.

3.8.11 Obtaining Certification From WBA

Refer Form AA-104, all receipted bills, except those for Part B services only (a bill may be received for both Part A and Part B services), and Form G-760 to WBA for certification if the services furnished are covered under the Medicare program and the beneficiary is a QRRB. Prepare the referral package as follows:

1. Assemble the Form AA-104 and all attachments including correspondence that reconciles any discrepancy.

2. Prepare Form G-760. Enter the beneficiary’s name, RRB claim number, Medicare claim number (if different) and your signature on the Form G-760. WBA will complete the “Certification,” including the appropriate dates in item 1.

3. Fax Form G-760, Form AA-104, the receipted bill(s), doctor’s statement, etc. to WBA.

If accommodations more expensive than a semiprivate room are claimed and were not certified to be medically necessary, request WBA to determine the rate for a semiprivate room and to base its determination of reimbursable charges on that rate. Also, raise any other questions about the claim or bill that need clarification. These questions should be asked in the "Remarks" section of Form G-760. For example, if the daily rate on the hospital bill appears excessive, question whether it includes the cost of a private room.

4. Maintain the original forms until the completed Form G-760 is returned by WBA. Trace for the completed Form G-760 using the following schedule:

- Initial request: 45 days
- Second request: 30 days
- Third request: 14 days

The third trace should be made by telephone call to WBA.
3.8.12 Using Prior Utilization Data

When the claims specialist releases Form G-760 to WBA, the claims specialist will also review the Common Working File (CWF) to obtain Part A and/or Part B utilization information. Hospital services received in the U.S. are considered along with services received in Canada to determine the amount payable. For example, the benefit period, deductible and coinsurance amounts may be affected.

3.8.13 Who May Receive Payment

Payment of hospital insurance benefits is to be made as follows:

1. The individual who received the services if such individual paid for the services and submits documentary proof that such payment was made, or

2. The provider of services if the beneficiary makes an assignment.

3.8.14 Examples Of Computation Of HI Benefits

Here are some examples showing the computation of HI benefits for services received in Canada. The figures used in the following examples are not actual figures. If payment cannot be made for a particular day, do not count the day as a day of utilization, e.g., a person is hospitalized in a standard ward room and the Canadian provincial plan paid all charges in full. For more information, refer to Part 3 of the Intermediary Manual, section 3107.

A. Inpatient Hospital - Example - Mr. Jacobs was hospitalized for 90 days in a two-bed room. The daily rate was $90. The Canadian provincial plan paid the daily rate of $80 for a standard ward bed. The total cost of services covered under the RRA before exclusion is $8,100 (90 days x $90 full daily rate). The $8,100 total charge must be reduced by the amount paid under the Canadian provincial plan or the amount of the deductible and coinsurance adjusted to Canadian funds, which is more. The amount paid by the Canadian provincial plan is $7,200. The deductible of $124 plus the coinsurance amount of $930 ($31 x 30 days) is $1,054. This amount adjusted to Canadian funds ($1,054 x $1.07, a hypothetical exchange rate as of the date of the hospital bill) is $1,127.78. Therefore, we deduct $7,200 paid under the Canadian provincial plan from the total of $8,100. This leaves $900 in Canadian funds to be paid under the RR Act. This amount must be converted to U.S. funds as of the date of payment. $900 multiplied by a hypothetical U.S. exchange rate of .9346 is $841.12. This is the amount payable.

B. Skilled Nursing Care - Example - Mr. Bacon was in a covered nursing home for 100 days. The daily rate was $30. The Canadian provincial plan pays for no part of this skilled nursing service. The total cost of the skilled nursing services was $3,000 (100 days x $30). The coinsurance amount is $1,326.80 (80 days x
$15.50 \times 1.07$, a hypothetical Canadian exchange rate). The total charge for the skilled nursing services must be reduced by the amount paid under the Canadian provincial plan or the coinsurance amount, whichever is greater. Therefore, the amount payable in Canadian funds is $1,673.20 ($3,000 - $1,326.80). In converting the amount payable to U.S. funds, $1,673.20 is multiplied by .9346, a hypothetical U.S. exchange rate. The amount payable in U.S. funds is $1,563.77.

C. Home Health - Example - Mr. Corley received 100 home health visits in a 1-year period. The home health visits were $8 each. The Canadian provincial plan paid no benefits. The total cost of the home health services is $800. There is no deductible or coinsurance for home health services. Therefore, the amount payable in Canadian funds is $800. This amount must be converted to U.S. funds as of the date of payment. Do this by multiplying $800 by the U.S. exchange rate on the date the bill was paid ($800 \times .9346$, a hypothetical U.S. exchange rate, is $747.68). The amount payable in U.S. funds is $747.68.

D. Inpatient Lifetime Reserve Hospital Days - Example - Mrs. Evans was hospitalized a number of times in the same benefit period and used up her 90 days. Before a new benefit period started, she again was hospitalized. Mrs. Evans decided to use her 60 lifetime reserve days. She was hospitalized in a two-bed room. The daily rate was $90. The Canadian provincial plan paid the daily rate of $80 for a standard ward bed. The total cost of services covered under the RRA before exclusions is $5,400 (90 full daily rate \times 60 days). The $5,400 is reduced by the amount paid or the amount of the coinsurance adjusted to Canadian funds, whichever is the greater amount. The amount paid by the Canadian provincial plan is $4,800; the coinsurance amount is $3,720 ($62 \times 60 days). The coinsurance amount adjusted to Canadian funds is $3,980.40 ($3,720 \times 1.07$, a hypothetical exchange rate). Therefore, $4,800 paid under the Canadian provincial plan is deducted from the cost of $5,400. This leaves $600 in Canadian funds to be paid under the RRA. This amount is converted to U.S. funds as of the date the bill is paid. $600 \times .9346$, a hypothetical U.S. exchange rate, is $560.76. When this is paid, Mrs. Evans 60 lifetime reserve days will have been exhausted.

NOTE: RRB asks the beneficiary if (s)he wants to use lifetime reserve days or keep them for the future.

E. New Benefit Period – Example - Mr. Halbert had a heart attack and was admitted to the Douglas Memorial Hospital in Ontario, Canada on May 20, 2008. He was released on June 2, 2008 and was transferred to a skilled nursing facility (SNF). He was discharged from the SNF on June 23. Fifteen days later on July 8, Mr. Halbert suffered a stroke and was hospitalized from July 8, 2008 through August 28, 2008. He is considered to still be within his first benefit period because 60 days had not elapsed since his last hospitalization or discharge from a SNF. Mr. Halbert had a relapse and was re-admitted on November 24. He was discharged from the SNF on December 1, 2008. This is considered a new benefit period.
because more than 60 days elapsed from the date of his last hospitalization or discharge from a SNF (August 29 through November 23).

F. Acute Level of Care – Example – Mrs. Williams was hospitalized after suffering severe injuries from a car accident. After a 10-day stay in the hospital, Mrs. Williams was to be transferred to a skilled nursing facility. However, she could not be immediately transferred to the facility. She remained at the hospital for an additional seven days until a bed was available at the skilled nursing facility. Since Mrs. Williams no longer required the level of care normally provided in a hospital, her last seven days in the hospital were billed as ALC (Alternate Level of Care). She submits the bill of $2,500 to the RRB for payment. RRB will only reimburse her the co-pay for three of the days (the maximum).

3.8.15 Selecting Payee For Claims After Death

If the beneficiary who received the service dies, claims for unpaid benefits are paid as follows:

A. Bill Was Paid - Pay in the following order of priority:

- The person or persons who paid the bill.
- The legal representative of the estate if the bill was paid by the deceased enrollee or from funds from his or her estate. When the estate has already been closed, or when there may be an indefinite delay in the appointment of a legal representative, payment may be made to a surviving relative in the priority order listed below.
- The surviving spouse who was either living in the same household as the enrollee or was entitled to monthly SS or RR benefits (based on the same earnings record) for the month of his or her death.
- Child or children of the enrollee who were entitled to monthly SS or RR benefits (based on the same earnings record) for the month of his or her death.
- Parent or parents of the enrollee who were entitled to monthly SS or RR benefits (based on the same earnings record) for the month of his or her death.
- Surviving spouse who was not either living in the same household as the enrollee or was not entitled to monthly SS or RR benefits (based on the same earnings record) for the month of his or her death.
- Child or children of the enrollee who were not entitled to monthly SS or RR benefits (based on the same earnings record) for the month of his or her death.
• Parent or parents of the enrollee who were not entitled to monthly SS or RR benefits (based on the same earnings record) for the month of his or her death.

• Legal representative of the estate of the enrollee if the bill was paid by another person who is now deceased and no relative as described above exists.

Documentary evidence must be submitted to support the entitled person’s claim for benefits (i.e., proof of relationship, proof of payment, or proof of appointment).

B. **Bill Was Not Paid** - Pay to the provider of services if the provider accepts an assignment.

If no person survives who meets the above requirements, the benefit cannot be paid.

### 3.8.16 Preparation Of Award Through SURPASS; Completion of Form G-730

A. Instructional Memorandum No. 07-02 containing instructions for making Canadian Part A benefit payments is no longer accessible through PRISM. A paper copy is available in Policy & Systems until IM 07-02 can be incorporated into this section.

B. Use Form G-730 to document payment of the claim and the utilization of HI services furnished in Canada. See RCM 3.8, Appendix A for instructions on the preparation and certification of this form.

Because the U.S. foreign exchange rate for a Canadian dollar fluctuates, convert the reimbursable amount into U.S. funds as of the date of the hospital bill was paid and pay the converted amount. If the exact date of payment is not available, use the exchange rate in effect on the billing date. The Medicare Section maintains a listing of exchange rates for this purpose. There are some non-payment situations where an award form should be completed but no utilization charged. e.g., physician refuses to make a required certification or the provider fails to submit needed information.

### 3.8.17 Completion Of Award Letter

Form RL-340 or Form RL-341 is the award letter used to notify a Canadian beneficiary of entitlement to reimbursement for HI services in Canada. Award letter RL-340 is used when reimbursement will be paid to the beneficiary. Award letter RL-341 is used in assignment cases when reimbursement will be paid to the provider. The letter is released by the authorizer when the Canadian payment has been authorized on SURPASS. Complete the award letter carefully to show all the details. It is used as a record of HI services in Canada.
Complete Form RL-340 or Form RL-341 using RRAILS. Use the data shown on the completed Form G-730 to complete the form.

A. **Heading** - The beneficiary’s name and address are prefilled. Type in the salutation.

B. **Paragraph 1** - In the first line, enter the Net Amount Paid shown in Item 19 of the Form G-730. Enter the type of service(s), dates covered by the bill and number of health visits included, as shown in Item 6 of the Form G-730. If an RL-341 is being prepared, enter the name of the hospital in the first sentence.

C. **Paragraph 2** - List the exceptions and amounts shown in Items 8 (amount paid by Canadian provincial plan), item 9 (deductible and coinsurance amounts), and item 10 (non-covered services) of the Form G-730.

D. **Paragraph 3** - Enter the number of days or visits used on this bill, used to date, and remaining, as shown in Item 6 of the Form G-730 for each type of service.

E. **Checking RL-340 and RL-341** - Check the correctness of the data entered on the award letter.

F. **Disposition** - Route the original and 2 copies of the RL-340 or RL-341, with the Form G-730 and all related documentation to the authorizer. The authorizer will date the original letter and the 2 copies, and release the original letter upon authorizing the SURPASS award. The authorizer will also route a copy of the award letter with copies of all other documents to be imaged. The other copy along with the originals and/or copies of all other documents are to be filed in the Foreign Claims Voucher Book.

### 3.8.19 Processing Denials

A. **Reasons for Denials** - Deny the claim without referral to WBA if the beneficiary does not submit the necessary evidence, or claims only non-covered services. Some examples of non-covered services are:

1. Private nurse, comfort items, etc.

2. Inpatient hospital services when the cost is less than the deductible.

3. Skilled nursing services (SNF) when:
   - Beneficiary did not have a qualifying 3-day hospital stay;
   - Beneficiary did not enter SNF or chronic care facility within 30 days after release from hospital;
   - Nursing care had no relationship to condition requiring hospitalization; etc.
4. Home health services were not provided by an agency participating in Medicare.

After verification of the services by WBA, deny the claim if:

1. A. U.S. intermediary has already paid HI benefits on the claim.
2. The services are not covered.
3. The charges are less than deductible.

NOTE:

A beneficiary has 120 days to file a re-determination request on all Medicare claims.

B. Disposition of Claims - Prepare an original and 2 copies of the denial letter. Be sure to include the standard explanation of the beneficiary’s rights to reconsideration and appeal in the letter. Close out the entry in the Foreign Claims Voucher Book, and route all copies of the letter and all related documents to authorization.

If covered services are involved but the charges are less than the deductible, or the beneficiary does not submit necessary evidence, prepare a "dummy" Form G-730 as described in RCM 3.8.20.

The copies of the letter will be distributed as follows:

- Original - Claimant; the original bills and receipts should be included.
- Copy - To imaging along with copies of the claim and related documentation, i.e. bills and receipts.
- Copy - Foreign Claims Voucher Book along with copies of the claim and related documentation, i.e. bills and receipts.

3.8.20 Report To CMS Of Utilization

HI services furnished in Canada are charged against a beneficiary's utilization record in the same manner as services furnished in the U.S. Form G-730 is used to record utilization information and is sent to the Centers for Medicare and Medicaid Services (CMS). Form G-730 is also used when the claim is not payable but the services are chargeable against the beneficiary’s utilization record. The Medicare Section will send a “dummy” Form G-730 to CMS with the words “No Amount Payable” in the remarks section of the form.

Health Enterprises is no longer the intermediary that processes Forms G-730 to update the Common Working File (CWF). All Forms G-730 are to be sent to CMS via email.
After the case is complete, the authorizer will encrypt the Form G-730 Word document, attach it to the email and send it to CMS at the following address:

Richard.Wolfsheimer@cms.hhs.gov

Richard Wolfsheimer is our contact at CMS for processing Forms G-730. His telephone number is (410) 786-6160.

The authorizer should follow this email with a second email to Richard Wolfsheimer providing him the password to open the encrypted file. The same password will be used for all subsequent Forms G-730 encrypted and sent to CMS.

3.8.25 Introduction – Part B Services in Canada

Beginning in 1973, the Social Security Act provides benefits for certain Part B services furnished in Canada. Part B covers physician and ambulance services furnished in connection with and during specific hospital stays. The three situations are:

1. An emergency occurs in the U.S. and the Canadian hospital is closer than the nearest U.S. hospital.

2. Inpatient hospital services are furnished in a Canadian hospital which is closer to, or substantially more accessible to the beneficiary's U.S. residence than the nearest U.S. hospital which can provide adequate care, regardless of whether or not an emergency exists.

3. An emergency occurs in Canada while the beneficiary is traveling without unreasonable delay and by the most direct route between Alaska and another State.

Under this provision payment can be made for the following Part B services:

1. Physicians' services rendered to the beneficiary while he or she is an inpatient.

2. Physicians' services rendered to the beneficiary outside the hospital on the day of his or her admission as an inpatient, provided the services were for the same condition that required emergency treatment. Please note that claims for emergency room visits are not payable if there is no accompanying hospital stay.

3. Ambulance services, where necessary, for the trip to the hospital in connection with the beneficiary's hospitalization.

Even though the hospital stay of a QRRB is covered under the RRA, Part B benefits are payable only when the hospitalization is covered under the SS Act. CMS has authorized the RRB to make coverage determinations under the SS Act for QRRBs claiming Part B benefits.
3.8.26 Claims Development

A. General - Part B claims may be received from Palmetto GBA, directly from the beneficiary or indirectly through RRB field offices. A claim should be made on Form CMS-1500. (Claims submitted using obsolete Forms G-740s or HCFA-1500 are also acceptable.) The claim must be filed within the regular time limit established by law. Enter each incoming claim in the foreign Part B log book.

Each claim must include the beneficiary's residence, where the services were rendered, the type of services, and the nature of the illness or injury. If the claim lacks sufficient information to make a coverage decision, request the appropriate district office to develop the required information. If a claim for hospital insurance benefits has not been filed, have the district office secure a completed Form AA-104. Wait for the certification from WBA before making a determination on the Part B claim. WBA will determine whether the hospital is a "qualified" institution and whether benefits have already been paid by CMS.

B. Coverage Determination - In determining whether Part B benefits are payable, the Medicare Section claims specialist first determines whether Part A hospital benefits are payable under the SS Act. The claims specialist applies the provision of the SS Act regarding:

- accessibility of the Canadian hospital,
- residency requirement,
- Canadian travel requirements, (Use MapQuest or a similar application to determine if the beneficiary used the shortest practicable route traveling between Alaska and another state.
- whether physician and ambulance services furnished in Canada were furnished in connection with covered inpatient services, and
- whether the claim was filed within the time limit.

3.8.27 Emergency Hospital Admissions

A. Emergency Provision - An emergency will be considered to have occurred within the United States if the individual was physically present in the United States when the need for emergency inpatient hospital services arose and the individual's reason for departure from the United States was to obtain treatment at the foreign hospital. Thus, a person who becomes ill while enroute to a foreign country by ship or airplane and receives hospital services in the foreign country does not qualify to have payment made for these services.

The emergency requirement will be established based upon the statement of the physician who attended the patient at the hospital. The statement must describe
the nature of the emergency, furnish any relevant clinical information about the patient's condition, and also state that the services rendered were required as emergency services. The statement must include the date when, in the physician's judgment, the emergency ceased. Photocopies of hospital records can be used to substantiate the emergency nature of the situation.

B. Accessibility Determination.

1. Emergency Occurs Within the U.S. - If the emergency occurred within the U.S. determine from the criteria below whether the patient was admitted to the nearest or most accessible hospital from the site of the emergency.

   a. Participating Hospital 15 or Fewer Miles Farther From the Location of the Emergency Than the Admitting Canadian Hospital.

   If the distance from the location of the emergency to the nearest participating hospital with available beds or adequate emergency facilities is 15 or fewer miles greater than is the distance to the admitting Canadian hospital, accessibility is provisionally not met, but there must be a physician review to determine whether the nature of the emergency required immediate transportation to the Canadian hospital.

   If the review indicates that the nature of the emergency would have allowed the additional transportation time needed to take the patient without hazard to the U.S. hospital, the accessibility requirement shall be deemed not met unless evidence established the necessity for taking the patient to the Canadian hospital e.g., unusual medical circumstances; needed equipment and/or personnel unavailable in the U.S. hospital.

   Factors involving selection of a hospital which reflect the personal preference of the individual or physician does not have staff privileges at the participating hospital, nearness to beneficiary's residence, religious affiliation, presence of previous medical records at the nonparticipating hospital, cost, type of accommodations available, etc. are not considered in the accessibility determination.

   b. Participating Hospital More than 15 Miles Farther from the Location of the Emergency than the Admitting Nonparticipating Hospital.

   If the nearest participating hospital is more than 15 miles farther from the location of the emergency than is the admitting nonparticipating hospital the accessibility requirements shall be deemed met.
Request the field office to secure a statement from the beneficiary describing the circumstances of the illness or injury, when the emergency occurred and why the Canadian hospital was chosen. Ask the field office to determine the distances between the emergency site and:

- the closest U.S. hospital,
- the Canadian hospital that admitted the beneficiary.

2. **Emergency Occurred In Canada** - If the emergency occurred while the beneficiary was traveling in Canada between Alaska and another State, the accessibility requirement is considered met where the emergency occurred more than 15 miles from the U.S. border and the other Canadian travel provisions are met. If the emergency occurred within 15 miles of the U.S. border, apply the accessibility criteria described in B. 1. above.

C. **"Canadian Travel" Provision** - An emergency will be considered to have occurred while the beneficiary was traveling without unreasonable delay and by the most direct route between Alaska and another State if the emergency occurred while the beneficiary was enroute between Alaska and another border State by the shortest practicable route, or while making a necessary stopover in connection with such travel. To make this determination, secure a detailed itinerary from the beneficiary and apply the criteria below. The examiner may also use MapQuest or a similar application to determine the shortest practicable route possible.

1. **Shortest Practicable Route** - Ordinarily the "shortest practicable route" is the one that results in the least travel in Canada, between the point of entry into Canada and the intended point of departure. The amount of travel in the United States prior to entering Canada is not pertinent. A route involving greater travel within Canada may be considered the "shortest practicable route" if the additional travel would result in a savings of time or was necessary because of road or weather conditions, the age, health, or physical condition of the traveler, to make suitable travel arrangements, obtain acceptable accommodations, etc.

   However, the individual would be considered to have deviated from the "shortest practicable route" if the detour was unrelated to the purpose of reaching his or her destination (e.g., for the principal purpose of sightseeing or vacationing).

2. **Necessary Stopover** - The term "necessary stopover" means (a) a routine stopover for rest, food, or servicing of the travel vehicle, and (b) a non-routine stopover (even though of significant duration) caused by unsuitable road or weather conditions, the age, health, or physical condition of the traveler, the need to make suitable travel arrangements, or to obtain acceptable accommodations.
3.8.28 Services Furnished In Canadian Hospital Nearest To Beneficiary's U.S. Residence

In determining whether a U.S. border resident can qualify for Part B benefits, two criteria must be established: the beneficiary's "residence" and the accessibility of the Canadian hospital.

A. **Residence** - "Residence" means the beneficiary's fixed and permanent home to which he or she intends to return whenever he or she is away or a dwelling where the beneficiary periodically spends some time (e.g., a summer home).

   Residence will normally be determined from the address listed on the claim form.

B. **Accessibility** - The accessibility requirement will be deemed met if the Canadian hospital is closer to the beneficiary's U.S. residence than is the closest U.S. participating hospital. If the Canadian hospital is farther from the beneficiary's residence than is a U.S. participating hospital, accessibility will not be met unless the facts show that the U.S. hospital had no bed available, would not accept the patient, did not have the necessary equipment or personnel, or was inaccessible for some other reason.

   The personal preference of the beneficiary, his or her physician, or others in the selection of a hospital, the type of accommodations available, or the non-availability of staff privileges to the attending physician are not considered in determining whether a Canadian hospital is more accessible than a participating hospital.

   Request the field office to determine the distances between the beneficiary's residence and:

   - the closest U.S. hospital,
   - The Canadian hospital that admitted the beneficiary.

   If the admitting Canadian hospital is farther than the closest U.S. hospital, ask the field office to secure a statement from the beneficiary explaining why the Canadian hospital was chosen.

3.8.29 Disposition Of Part B Claims

A. **Claim Meets Coverage Requirements** - Prepare a letter to Palmetto GBA authorizing payment of the Part B claim. Briefly explain the basis for the favorable determination. Use the letter as a transmittal for the Part B claim, related material, and copy of the Form AA-104. Address all correspondence to:

   Octavia Huff
   Palmetto GBA
Her telephone number is (706) 855-3382.

Route the letter and all related documents to the authorizer. The authorizer will date the letter and all copies, and release the original letter upon authorizing the determination. The authorizer will also route a copy of the letter with copies of all other documents to be imaged. The other copy along with the originals and/or copies of all other documents are to be filed in the Canadian Voucher Book.

B. Claim Does Not Meet coverage Requirements - Prepare a letter to the beneficiary (with a copy to Palmetto GBA if they referred the claim to us.) Explain the coverage requirements and include the Medicare appeals paragraph.

Route the letter and all related documents to the authorizer. The authorizer will date the letter and all copies, and release the original letter upon authorizing the determination. The authorizer will also route a copy of the letter with copies of all other documents to be imaged. The other copy along with the originals and/or copies of all other documents are to be filed in the Canadian Voucher Book.

If the beneficiary protests the denial, consult with your supervisor.

NOTE:

A beneficiary has 120 days to file a re-determination request on all Medicare claims.

3.8.35 Medicare Benefits In Mexico

Claims for Medicare services furnished in Mexico are handled by the Centers for Medicare & Medicaid Services (CMS). When a claim for inpatient hospital benefits is received, the Medicare Section claims specialist forwards it to the appropriate regional office of CMS. The CMS regional office makes the coverage determination and:

• sends the Part B claim to Palmetto GBA for payment, or
• prepares and releases a denial letter.

The claims specialist answers general questions about Mexican coverage.

All claims for inpatient hospital services furnished in Mexico are sent to the appropriate CMS regional office. Claims for other services furnished in Mexico should be forwarded to Palmetto GBA in Augusta, Georgia. The geographic location of the hospital furnishing the inpatient services determines which regional office handles the claim. If the examiner cannot determine the Mexican state the hospital is located in from any of the documentation provided, he or she can use Google or MapQuest to assist in making a determination.
The following is a listing of all 31 Mexican states: Aguascalientes, Baja California, Baja California Sur, Campeche, Chiapas, Chihuahua, Coahuila de Zaragoza, Colima, Durango, Guanajuato, Guerrero, Hidalgo, Jalisco, Mexico, Michoacan de Ocampo, Morelos, Nayarit, Nuevo Leon, Oaxaca, Puebla, Queretaro de Arteaga, Quintana Roo, San Luis Potosi, Sinaloa, Sonora, Tabasco, Tamaulipas, Tlaxcala, Veracruz-Llave, Yucatan, Zacatecas

Appendices

Appendix A - Form G-730, Determination of Award

Form G-730 (6-86) - Determination of Award - Hospital Insurance Benefits for Services in Canada. If benefits are payable for more than one type of service (e.g. inpatient hospital, chronic care, home health, or skilled nursing facility), a Form G-730 should be prepared for each type of service.

Use

Used by the Medicare Section to reimburse a QRRB for HI services received in Canada.

**Signature And Disposition**

The Medicare Section specialist signs his or her name and enters the date on which he or she completed the form. The authorizer will sign his or her name and enter the date on which he or she authorized the completed Form G-730.

Route the completed Form G-730 with all related documents to the authorizer. Once the authorizer has authorized the Form G-730 and related SURPASS award (if any), a copy of the Form G-730 and related documentation will be routed for imaging, and a copy will be filed in the Foreign Claims Voucher Book. The original Form G-730 will be sent to CMS as an encrypted document via an email. Refer to section 3.8.20 for further information.
3.9.1 Scope Of Chapter

This chapter covers the handling of overpayments of Medicare benefits. The procedure for investigating the possible forgery of a Medicare benefit check is also included.

For further information on Medicare overpayments refer to:

Part B Intermediary Manual - Section 6400.

Social Security Claims Manual - Section 5500.

Medicare Overpayments - General

3.9.5 Medicare Overpayments Defined

A. **HIB (Part A) Overpayment** - A hospital insurance overpayment occurs when more than the correct amount has been paid in hospital insurance benefits to:

1. A "provider of services" (a hospital, skilled nursing facility, or home health agency) for items or services furnished an individual; or

2. An individual who received the benefit of the items or services.

B. **SMI (Part B) Overpayment** - A medical insurance overpayment occurs when more than the correct amount has been paid in medical insurance benefits to:

1. A physician or supplier of medical services for items or services furnished an individual; or

2. An individual who received the benefit of the items or services.

3.9.6 General Handling

A. **Overpayments in the U.S.** - These instructions cover the handling of HI overpayments made to or on the behalf of individuals living in the United States.

B. **HIB Overpayment in Canada** - A hospital insurance overpayment made to an individual living in Canada is to be treated as though it were a railroad retirement annuity overpayment. The instructions in RCM 6.6 apply except that nay case involving such an overpayment, regardless of the amount, is to be referred to MS.

C. **SMI Overpayment in Canada** - A medical insurance overpayment for a resident of Canada will be handled as though the individual were a resident of the United States.
3.9.7 Liability For Medicare Overpayments

A. Provider of Service, Physician, or Supplier Liable - A provider of services, physician, or supplier is deemed to have knowledge of the laws and regulations which apply to the payment of Medicare benefits. Therefore the provider or other person is liable for an overpayment made to him if:

1. The overpayment was caused by a mathematical or clerical error.
2. The overpayment was due to a duplicate payment which was retained by the provider or other person.
3. The beneficiary did not receive the services (or items) paid for.
4. The provider or other person accepted payment for services (or items) which he knew or should have known were not reasonable or necessary for treatment.
5. The overpayment resulted from a charge in excess of the reasonable charge.
6. A provider or other person, not qualified under SSA regulations to perform services (e.g., an immediate relative or member of the beneficiary's household), accepted payment for services.
7. A physician or supplier collected a payment on the basis of an assignment without disclosing that he had already been paid by the beneficiary (see SSCM section 10603.5).

B. Beneficiary Liable - A beneficiary is liable for repayment of overpayments made direct to him. He is also liable for overpayments made to a provider of services, supplier, or physician on his behalf if he received the services, the services were necessary, the charges were reasonable and:

1. The overpayment resulted from failure to properly apply the deductible or coinsurance; or
2. The overpayment resulted from benefits paid to the provider of services under the guarantee provision of section 1814(e) of the SS Act (see Part A Intermediary Manual - Section 3714 to 3714.3); or
3. The overpayment resulted from some other cause (e.g., non-entitlement or non-coverage) and the provider or other person acted reasonably in filing for and accepting Medicare payments. The provider or other person will be considered to have acted reasonably if he:
a. Had no basis for questioning entitlement or coverage or, if he did, brought it promptly to the attention of the intermediary or carrier, and

b. Complied with all pertinent regulations and had reason to believe the services were covered.

4. The provider or other person was without fault in causing the overpayment (effective with notices of payment sent after 10-30-72).

C. Dual Liability - The provider, physician or supplier and the beneficiary are jointly liable for an overpayment, provided the overpayment was made to the provider or other person for services which the beneficiary received, if:

1. The overpayment was caused by an error regarding entitlement or coverage of services and the provider or other person did not act reasonably and with due care in filing for and accepting the payment; or

2. The provider or other person received duplicate payments and turned one payment over to the beneficiary.

D. Limitation on Beneficiary Liability - A beneficiary who was without fault (i.e., did not know and could not be expected to know that the services were not covered) and whose claim under Part A or Part B has been disallowed because the services were not reasonable or necessary for the diagnosis or treatment of an injury or illness or because the care was a non-covered level of care (i.e., custodial care), shall not be liable for payment.

If the provider or other person in such a case also exercises due care (i.e., did not know and could not be expected to know non-covered services were involved), the Medicare program will make payment as if the services were covered. When payment is made, the provider and patient will be put on notice so that they cannot again claim lack of knowledge in subsequent claims involving similar situations.

If the provider did not exercise due care and the beneficiary was without fault, the provider would be liable for the services but could appeal both the determination as to coverage and "due care." If the provider did not exercise due care and collected from the beneficiary, the program would, upon application, reimburse the beneficiary. The payment would then be treated as an overpayment to the provider.

This provision applies only to Part A bills and assigned Part B bills for items or services provided after 10-30-72.
3.9.15 Intermediary's or Carrier's Responsibility

A. When the Provider of Services, Physician or Supplier Is Liable - The intermediary or carrier will notify the provider or other person of the overpayment, will offset the overpayment against any future benefits due the provider or other person and, if necessary, will ask for a refund. If recovery of an HIB O/P cannot be made from the provider of services, the intermediary will refer the case to SSA, Bureau of Health Insurance. If recovery of an SMI O/P cannot be made from a physician or supplier, the Part B carrier will refer the case to RRB.

B. When the Beneficiary Is Liable - The intermediary or carrier will notify the beneficiary of the overpayment, will offset the overpayment against any future unassigned payments due the beneficiary and, if necessary, will ask for a refund. If an HIB O/P is not recovered from the beneficiary, the intermediary will refer the case to SSA, Bureau of Health Insurance. If an SMI O/P is not recovered from the beneficiary, the Part B carrier will refer the case to RRB.

C. Dual Liability - The intermediary or carrier will send an overpayment letter first to the provider of services, supplier or physician. If the overpayment is not recovered within 60 days, the intermediary or carrier will ask the beneficiary for a refund. Any payments due the beneficiary will be withheld pending recovery from the provider of services or other person. If recovery of an HIB O/P cannot be made from either the provider of services or the beneficiary, the intermediary will refer the case to the Bureau of Health Insurance. If recovery of an SMI O/P cannot be made from either the supplier or physician or the beneficiary, the Part B carrier will refer the case to RRB.

D. What the Overpayment Letter Should Contain - The overpayment letter sent by the intermediary or carrier to the provider of services, physician, supplier or beneficiary should:

1. Clearly identify the overpayment by showing the name and address of the provider or other person, the dates of services, the nature of the services, the date and amount of the check(s) and to whom it was paid, and the amount of the overpayment.

2. Clearly explain why the payment was incorrect.

3. Identify and advise the amount of any Medicare benefits withheld.

4. Request a refund.

5. Notify the beneficiary that unless a refund is made, the overpayment may be deducted from his monthly annuity.

6. Inform a beneficiary of his right to a reconsideration or review of the overpayment decision.
7. Include an explanation of the waiver provision. See Exhibit 2 for a sample overpayment letter.

E. When the Beneficiary Requests That Recovery Be Waived - If a beneficiary requests that a Medicare O/P be waived or states conditions that might qualify him for waiver, the intermediary or carrier should refer the case to the Bureau of Health Insurance or RRB immediately.

F. When Beneficiary or Physician Is Deceased.

1. **Beneficiary Liable** - The intermediary or carrier should withhold the overpayment from any amount payable on the beneficiary's account to a relative or to the beneficiary's estate. If an amount is payable on the beneficiary's account to any other person or organization, that amount cannot be withheld.

2. **Physician Liable** - the Part B carrier should withhold the overpayment from any other Medicare payment due the physician's estate. If the O/P cannot be recovered by withholding, the carrier should refer the case to RRB immediately with any information received about an estate.

G. When the Beneficiary Is Entitled to Welfare Payments - The intermediary or carrier will contact the State Welfare Department, to determine whether that agency will refund an overpayment for which a beneficiary receiving or entitled to welfare is liable, if:

1. An HIB overpayment was caused by:
   a. Failure to properly assess the deductible or coinsurance;
   b. Payment for non-covered services; or
   c. Payment for services after benefits have been exhausted.

2. An SMI overpayment was caused by failure to properly assess the deductible.

   If the State Welfare Department will not refund the overpayment, the intermediary will refer the case to SSA, Bureau of Health Insurance, or the Part B carrier will refer the case to RRB without taking any further recovery action. A record of any contact made with the welfare department should be included with the material referred to SSA or RRB.

3. **Responsibility Of SSA**

   A. HIB O/P - SSA will receive all cases in which an overpayment of HIB benefits has not been recovered by the intermediary from a provider of services or
beneficiary. After determining who is liable for the overpayment, SSA will handle to completion all cases in which the provider is solely liable.

If a QRRB or DQRRB is liable for repayment of the overpayment, SSA will refer the case to RRB for consideration of waiver or recovery from benefits payable under the RR Act.

B. **SMI O/P - SSA will not handle SMI O/P for QRRB's or DQRRB's unless RRB requests that recovery be made form benefits payable by SSA, because the annuity is not in current pay status (see sec. 3.9.45). However, all cases in which a physician or supplier of services is liable for repayment should be sent to SSA for handling.**

**3.9.17 Responsibility Of RRB**

The chances of recovering a Medicare overpayment are better if recovery action is taken soon after the notice of overpayment is received. Therefore, Medicare overpayment cases should be given preferred handling.

A. **General - RRB is responsible for the waiver or recovery of an HI O/P in any case in which the beneficiary is liable for repayment. RRB will have complete jurisdiction over such overpayments. However, if waiver is not applicable, RRB cannot recover the O/P because the annuity is not in current pay status, and the beneficiary is receiving social security benefits, the case may be referred to SSA for recovery from the benefits payable by that agency (see sec. 3.9.45).**

B. **Responsibility of the Medicare Section (MS) - MS will take the following actions in cases referred to RRB:**

1. Review alleged overpayments of Medicare benefits to determine whether.
   a. The amount of the overpayment is correct;
   b. Recovery efforts have been directed to the person actually liable for the overpayment; and
   c. The intermediary or carrier has taken all necessary action for which it is responsible.

2. Clear up any problems or questions concerning a SMI overpayment with the Part B carrier and a HIB overpayment with CMS or the intermediary who handled the case.

3. Ask CMS to contact the State Welfare Department in any case in which a beneficiary, who is or may be entitled to welfare payments, is liable for an overpayment caused by failure to properly apply the deductible. Send the overpayment material with a transmittal letter to the Centers for Medicare
& Medicaid Services, Overpayment Section (see RCM 10.6, Item 27). In the transmittal, include the following information:

a. the overpayment was caused by failure to properly apply the deductible and the beneficiary is or may be entitled to welfare payments, and

b. a statement of what evidence shows that the beneficiary is or may be entitled to welfare and any identification number, etc., to be used in the contact with the welfare department, and

c. any unusual or unclear facts concerning the overpayment, such as the fact that the Part B carrier recovered part of it.

4. Send to the appropriate CMS regional office (see RCM 10.6, item 27a), cases in which the provider, supplier or physician is solely liable for the overpayment. Provide CMS with the name, address of the provider, supplier or physician and the reason why that person is liable for the overpayment in the transmittal letter.

5. Refer all other overpayment cases which are not under the jurisdiction of the Board to the Centers for Medicare & Medicaid Services, Overpayment Section (see RCM 10.6, item 27). This includes cases in which CMS has jurisdiction for the payment of survivor benefits. Provide the name, address and social security number of any survivor, or a statement that we have no record of a survivor in the transmittal letter. Include any information concerning an estate, if available.

6. In SMI overpayment cases only, send a carbon copy of the letter to the Part B Carrier.

7. Check for evidence of fraud or abuse.

8. If items 3, 4, 5 and 8 do not apply after completing actions 1, 2 and 9, prepare RL-390.

9. Notify the overpaid person of a decision to recover the overpayment (see sec. 3.9.44), or ask the adjudication unit that suspends the annuity to do so.

10. If the overpayment cannot be recovered from a railroad retirement annuity because the annuity is not in current pay status, the beneficiary is receiving social security benefits, refer the case to the controlling SSA Program Center for recovery.

11. File a proof of claim against the estate of a beneficiary who is liable for an overpayment, whose overpayment has not been recovered, and whose estate is still open (see sec. 3.9.53).
12. Transfer overpayments which cannot be recovered to uncollectibles and to GAO, if appropriate (see sec. 3.9.53).

C. Responsibility of Debt Recovery Division (DRD) - DRD will take the following actions in cases referred to RRB:

1. Determine whether to waive or recover all HI overpayments in which the beneficiary is liable.

2. Determine the method of recovery if waiver is not applicable.

3.9.25 When Recovery May Be Waived

Recovery of a Medicare overpayment from a beneficiary or from any survivor eligible for benefits on his earnings record may be waived if:

A. The individual against whom the recovery would be made was without fault in causing the overpayment; and

B. Recovery would:

1. Defeat the purpose of Title II of the SS Act, or

2. Defeat the purpose of Title XVIII of the SS Act, or

3. Be against equity and good conscience in accordance with Section 1870(c) of the SS Act.

Prior to the 1972 amendments (waiver actions considered before 11-1-72), an overpayment made to a deceased beneficiary who was at fault in causing an overpayment had to be recovered from any survivor eligible for benefits on the deceased beneficiary’s earnings record. The overpayment could not be waived even if the surviving beneficiary was without fault in causing the overpayment.

3.9.26 Without Fault

A. General - Since a finding of without fault is required in all cases before waiver may be approved, resolve this issue first. If "without fault" is not established, do not develop whether recovery would either defeat the purpose of Title II or Title XVIII of the SS Act or be against equity and good conscience.

The term fault as used in "without fault," applies to the overpaid person (beneficiary, provider of services, supplier, or physician) and to the individual from whose benefits the overpayment is to be recovered (a survivor entitled to...
benefits on a deceased beneficiary's wage record). The fact that the overpayment may have been caused by an administrative error will not, in itself, establish "without fault." The fault need not necessarily involve fraud. However, there are certain cases in which information in file will establish "without fault" without further investigation.

If a provider of services, supplier or physician is found to be without fault in causing an overpayment the overpayment must be recovered, unless waiver applies, from any benefits payable on the earnings record of the beneficiary on whose behalf the pseudo number was made.

In order to support a without fault finding, the evidence must show that the overpaid person exercised a high degree of care in determining whether he was entitled to the incorrect payment. However, the complexity of the circumstances which caused the overpayment and the capacity of the individual to realize that he was overpaid must be considered in determining the degree of care expected in a particular case.

EXAMPLE: If a beneficiary receives two identical checks within a short period of time based on the same claim, no payments are due based on additional claim, and the beneficiary appears to have reasonable intelligence and education, without fault will probably not apply. If, however, a duplicate payment is made in two checks of differing amounts, payments are due based on additional claims, and/or the beneficiary is of low intelligence or educational level, without fault may apply, depending on the circumstances in the case.

The following guidelines may be followed in determining whether a beneficiary is without fault in causing an overpayment:

1. A beneficiary is not expected to maintain a personal record of utilization.
2. A beneficiary is not usually expected to know the correct deductible amount.
3. A beneficiary is not usually expected to know which services are not covered by Medicare, unless he has been advised in writing that a service is not covered (see sec. 3.9.7, item D).

B. When an Overpaid Person Is at Fault - The person liable for an overpayment is usually at fault when the overpayment resulted from:

1. An incorrect statement by the person that he knew or should have known was false; or
2. Failure of the person to give information that he knew or should have known was material; or
3. Acceptance by the person of a payment that he knew or should have known was incorrect.

C. When an Overpaid Person Is Without Fault.

1. Reliance on Misinformation From an Official Source - The person liable for the overpayment will be found to be without fault if the overpayment occurred solely because the individual relied on misinformation from an official source. If the overpaid person is found to be "without fault" because of reliance on misinformation from an official source, recovery of the overpayment will be deemed to be against equity and good conscience.

Generally, reliance on misinformation may involved in overpayments resulting from payment for supplies or services which are not covered by Medicare. Reliance on the advice or information given to the individual must have some reasonable basis and must be restricted to information from an agent or agency of the U.S. Government, including intermediaries and carriers.

Generally, misinformation is not considered to be involved when duplicate checks are issued on the basis of the same claim or if information is provided on the basis of erroneous or incomplete records which the individual did not question. However, an individual may sometimes be found to be without fault in such circumstances.

2. Overpayment Discovered More Than Three Years After Notice of Payment Sent - In the absence of evidence to the contrary, the provider of services, supplier, or physician is deemed to have been without fault in causing an overpayment if the overpayment was discovered more than 3 years after the year in which the notice of payment was sent.

For examples of when "without fault" applies see SSCM 5589.2.

3.9.27 Defeat The Purpose Of Title II

A. General - Recovery of an overpayment would "defeat the purpose of Title II of the Social Security Act" (be contrary to the purpose and intent of the Act), if it would deprive the overpaid person of income that is reasonably necessary for ordinary living expenses.

Request the field to obtain a completed DR-423 from the debtor if the individual claims it would be a hardship to repay the Part B. Assume that recovery would defeat the purpose of Title II, without developing a DR-423, if there is an indication that the beneficiary is receiving or entitled to welfare payments.
B. **When "Defeat the Purpose of Title II" Applies -** Recovery of an overpayment will generally defeat the purpose of Title II if:

1. The person needs substantially all of his current income to meet his current ordinary and necessary living expenses; and

2. Recovery of the overpayment would reduce the person's total assets, not including household furnishings, wearing apparel, an automobile and a home of reasonable value in which the overpaid person lives, to:
   a. below $3,000 for a person without dependents; or
   b. below $5,000 for a person with one dependent. Allow an additional $600 in assets for each additional dependent.

If the overpaid person has assets which exceed $3,000, $5,000, etc., by less than the amount of the overpayment, it is possible to apply waiver to only part of the overpayment and to recover the balance.

**EXAMPLE:** A Medicare beneficiary was overpaid $1,850.00. He and his wife have assets of $6,000, excluding those outlined above. Their total income barely meets their ordinary and necessary living expenses. Assuming that the beneficiary was without fault in causing the overpayment, $850 of the overpayment can be waived and $1,000 can be recovered, leaving assets of $5,000.

Waiver of recovery against an estate may not be considered on the basis of defeat the purpose of Title II, even though waiver would have been proper on that basis during the lifetime of the overpaid person. The estate cannot considered to need income for ordinary and necessary living expenses.

For further information concerning "Defeat the Purpose of Title II," see SSCM 5550 through 5552.4.

### 3.9.28 Defeat The Purpose Of Title XVIII

Recovery of the overpayment would "defeat the purpose of Title XVIII" (be contrary to the purpose and intent of that title of the Act), if it would deprive the person of funds needed within a year for hospital or medical care reasonably necessary for his health. If recovery would not deprive the individual of a subsistence income (i.e., defeat the purpose of Title II), but would deprive him of necessary hospital or medical care, such recovery would defeat the purpose of Title XVIII. However, if recover would obviously defeat the purpose of Title II, only that one element need be developed.

The need for hospital or medical care must be real and tentatively planed to occur within a year (as distinguished from conjectural or in the distant future), and the commitment of the funds must be real and not conjectural, to be considered in determining whether
adjustment or recovery would "defeat the purpose of Title XVIII." The individual need not have begun the needed treatment or care, but he must have made the necessary plans to do so. He may have arranged for the treatment when it is medically appropriate or when he has accumulated the necessary cash to defray the expenses. A statement (1 or 2 sentences long) form the physician in charge or from a similarly authorized medical source is needed to indicate (a) whether the treatment and/or care is needed and (b) the estimated cost. Note that expenses already incurred for medical care, hospitalization, etc., are taken into consideration in determining whether recovery would defeat the purpose of Title II. No expense may be counted twice in determining whether recovery would defeat the purpose of Title II. No expense may be counted twice in determining whether recovery would defeat the purpose of Title II or XVIII.

3.9.29 Against Equity And Good Conscience

A. General - Under the SS Act, recovery of an overpayment will be considered to be against equity and good conscience where the beneficiary, relying on benefit payments or on a notice that such payments would be made, relinquished a valuable right or changed his position for the worse. In reaching such a determination, the individual's financial circumstances are irrelevant.

B. When "Against Equity and Good Conscience" Applies - Recovery of an overpayment will be deemed to be "against equity and good conscience" if the overpaid person is found to be "without fault" because of reliance on erroneous information from an official source (see RCM sec. 3.9.26).

Recovery of an overpayment from a beneficiary who is without fault is also deemed to be against equity and good conscience if:

1. The overpayment was made for items or services not medically necessary or for the expenses of custodial care; and

2. The overpayment was discovered more than 3 years after the year in which the notice of payment was sent.

In addition, a provider under Part A, or a physician or other supplier who accepted assignment under Part B cannot, after refunding a Part B for medically unnecessary or custodial care services, charge the enrollee who is without fault after 3 years have expired.

For further information concerning "Against Equity and Good Conscience," see SSCM 5553 through 5553.4 and 5589.2.

3.9.40 When To Recover

Recover the overpayment from the beneficiary or, if he is deceased, from a survivor entitled to benefits on his earnings record if:
A. Tolerance does not apply (see sec. 3.9.41); and  
B. The beneficiary is liable for the overpayment; and  
C. The overpayment cannot be waived; and  
D. The intermediary or carrier was unable to recover the overpayment.

### 3.9.41 When Tolerance Applies

A. Overpaid Person Alive.

1. **Benefits in Current Pay Status to the Overpaid Person** - Offset against benefits currently payable unless the amount of the overpayment is $5.00 or less.

2. **Benefits Not in Current Pay Status** - Do not request a refund or take any further recovery action if the amount of the overpayment is $15.00 or less, even if setoff may be possible against benefits payable to the overpaid person in a subsequent month or if immediate setoff action is possible against benefits payable to an individual other than the overpaid person.

B. Overpaid Person Deceased.

1. **Benefits in Current Pay Status to a Survivor** - Offset against benefits currently payable unless the amount of the overpayment is $5.00 or less.

2. **Benefits Not In Current Pay Status** - Do not request a refund or take further recovery action if the amount of the overpayment is $15.00 or less.

Although no recovery action will be taken when tolerance applies, any voluntary refund by a beneficiary will be accepted.

If tolerance applies, file the overpayment notice in the folder marked: "NAN; O/P under $15.01; No Monthly Benefits." Do not set up a program accounts receivable record. If an accounts receivable record was set up, close it out by entering code 88 in the "cause" columns (cols. 52-53) of the. Prepare Form RL-391 with a check in the "Determined Uncollectible" box and add: "Tolerance applied - No Monthly Benefits." If a SMI benefit was overpaid, send a copy of the RL-391 to Travelers. See secs. 3.9.80 and 3.9.81.

### 3.9.42 Methods Of Recovery

The overpayment can be recovered by one of the following methods in the order of preference listed:

A. Cash refund in one lump sum.
B. Set off against RR or SS Act benefits:

1. During the lifetime of the overpaid person, against RR or SS Act benefits to which he may be entitled, whether based on his own earnings record or the earnings record of another person; or

2. After the overpaid person's death, against RR or SS Act benefits or lump-sum payments payable to survivors on the overpaid person's earnings record.

The overpaid person is liable for the overpayment during his lifetime. Only upon his death can the overpayment be set off against benefits for other persons on the same earnings record.

C. Cash installments, provided the payments are made regularly and are substantial enough to liquidate the overpayment within a reasonable period of time.

D. Temporary Withholding (partial adjustment). (See sec. 3.9.43.)

E. Civil action against a beneficiary's estate (see sec. 3.9.53).

NOTE: An actuarial adjustment cannot be used to recover an overpayment of Medicare benefits.

3.9.43 Temporary Withholding

A. General - Temporary withholding (partial adjustment) consists of withholding part of a monthly benefit each month until the overpayment is recovered in full.

Temporary withholding may be offered if evidence indicates that the beneficiary is dependent on part of his monthly benefits for ordinary and necessary living expenses and recovery of the overpayment by any other method would cause financial hardship.

Temporary withholding is never permitted:

1. If the overpayment was caused by intentional false statements or misrepresentations by the person against whose benefits offset is being made, or by his willful concealment of, or deliberate failure to furnish, necessary information; or

2. In amounts of less than $10.00 a month; or

3. In other than even dollar amounts.

B. Beneficiary Without Fault - If waiver depends upon a finding of "Defeat the Purpose of Title II" and the DR-423 indicates that the beneficiary needs only part of his monthly benefit for ordinary and necessary living expenses, temporary
withholding should be granted. However, if other conditions for waiver are present and it would be necessary to withhold less than $10.00 a month to insure the beneficiary of income needed for his ordinary and necessary living expenses, waiver, not temporary withholding, should be granted.

If the overpayment cannot be recovered by temporary withholding, before termination of entitlement, without depriving the beneficiary of needed income:

1. Withhold from the beneficiary's monthly benefits the maximum amount possible without depriving the beneficiary of needed income; and

2. After the benefits are terminated, consider waiving recovery of the balance of the overpayment. No further without fault development will be needed. It will be necessary, however, to determine whether recovery of the remainder of the overpayment will defeat the purpose of Title II of the SS Act at that time.

C. Beneficiary Not Without Fault - If the beneficiary is not without fault in causing the overpayment, the temporary withholding must be set at a rate which will permit recovery of the overpayment before the expected last month of entitlement or within a 36 month period, whichever is earlier. If no monthly withholding amount is suggested by the beneficiary, withhold one-half of the monthly benefit, if this will result in recovering the overpayment within a 36-month period.

If the overpayment is not recovered before termination of entitlement, use all available means to recover the balance of the overpayment.

For further information, see SSCM 5516 TO 5520.6.

3.9.44 Notice To Individual

A. Request for Refund - The intermediary or carrier is responsible for sending a request for refund, similar to that shown in Exhibit 2, to the beneficiary. If a satisfactory letter was not sent, HB should return the overpayment material to the Part B carrier or the intermediary, as shown in sec. 3.9.17.

In certain unusual cases, MS will send an initial request for refund. See Exhibit 2 for a sample letter to be used as a guide. Send a copy of the letter to the field office.

B. Recovery Notice - MS will send a case to an adjudication unit for suspension of the annuity and a letter informing the individual of recovery action if:

1. The overpaid person is alive,

2. A previous letter was sent to the overpaid person, notifying him of his rights to reconsideration and waiver,
3. The overpayment is less than $200.00, and
4. The overpayment can be recovered from one month's annuity.

A G-167 must be prepared to notify the adjudication unit of the recovery action to be taken.

MS will prepare and send a recovery notice in any case not handled by an adjudication unit. Include in the letter:

- The amount of the overpayment and how and when it occurred,
- An explanation of how the overpayment will be recovered, including the option of refunding the overpayment in cash,
- The right to request reconsideration or review of the overpayment determination, if this right was not explained in a recent better, and
- An explanation of the waiver provision of the law, if not given in a recent letter.

If the overpayment is $200 or more or there is an indication that waiver may apply, send the overpayment letter to the district office for in-person delivery. Use Form G-421b as a cover memo.

See Exhibit 3 for a sample letter to be used as a guide. Send a copy of the letter to the field office.

### 3.9.45 Requesting SSA To Recover From SS Act Benefits

If recover from RR Act benefits is not possible because an annuity is not in current pay status, and there is an indication that the beneficiary is entitled to SS Act benefits, request the SSA program center to recover the overpayment. Ask the program center to advise when their recovery action is completed. Include the following information in the letter:

A. Name and address of the beneficiary or survivors;
B. SSA claim number;
C. Amount of the overpayment;
D. Cause of the overpayment; and
E. Reason recovery is not possible from RR Act benefits.

Send a copy of the letter to SSA Reconsideration Branch (see RCM 10.6, item 27), and the local carrier's office which notified RRB of the overpayment. It is not necessary to
notify the beneficiary or the survivors of the referral to SSA unless an inquiry is received. Establish a six-month tickler call up for control purposes. If, after the expiration of the call up, SSA has not recovered the entire overpayment, trace the program center "Attention: Recovery Unit" to request the status of the recovery action.

3.9.46 Reinstatement Of Payments By Adjudication Units

When sufficient monthly annuity payments have been withheld to offset the erroneous Medicare payment, complete the award form and withhold the amount due in the normal manner. Enter the amount recovered on Form G-376. Instruct the coding clerk to route the folder to "Accts. Rec." after vouchering.

Complete Form G-240 requesting the Medicare Section (MS) to transfer the amount of the overpayment from the RR account to the appropriate Medicare account. Control the folder to send to MS.

3.9.50 Survivor Benefits Payable At RRB

After the overpaid person dies, consider waiver or recovery of the overpayment from monthly benefits or lump-sum death payments due a survivor on the earnings record of the overpaid person. See Sec. 3.9.25 through 3.9.46.

3.9.51 Survivor Benefits Payable At SSA

If there is an annuity due and unpaid at death, MS will refer the case to an adjudication unit for offset. Transfer the balance of the overpayment, along with a letter of explanation and all material concerning the overpayment, to SSA, Program Review Section (see RCM Part 10.6, item 27a). See Exhibit 1 for a sample letter. Be sure to show all SSA claim numbers in the letter.

Do not set up an accounts receivable record for an overpayment being transferred to SSA. Close out any accounts receivable record previously set up by entering code 88 in the "Cause" columns (cols. 52-53) of the G-376.

3.9.52 No Further Benefits Payable At SSA Or RRB

If an overpaid person is deceased and recovery is not possible from any other source, liability rests with the estate of the deceased. If no further benefits are payable on the employee's earnings record, the overpayment is less than $100.00, and evidence of an estate is not available, terminate collection action as shown in sec. 3.9.61.

If the name and address of the administrator or attorney of the estate is in file, write a letter to that person, asking for a refund of the overpayment. If a refund is not received and the overpayment is less than $100.00, terminate collection action.
If the overpayment is $100.00 or more, develop for information concerning an estate as shown in sec. 3.9.53, whether or not the file contains evidence that an estate exists.

### 3.9.53 Recovery From Estate

To develop for an estate, ask the D/O to check with the probate court in the area where the overpaid person died or with the nearest relative to determine whether an estate has been opened and, if so, the name and address of the administrator of the estate, the identity and location of the court of jurisdiction, the expected closing date of the estate and the assets and liabilities of the estate. If the estate is closed or was not administered, the D/O should check to see who received the assets of the estate and the amount of those assets.

After developing for the existence of an estate, handle as follows:

A. **No Evidence of an Estate** - Transfer the overpayment to uncollectible (see sec. 3.9.60).

B. **Estate Open.** - File a proof of claim (see Exhibit 4) against the estate when there are sufficient assets to settle the indebtedness of the Board. File the original of the Proof of Claim and Statement of Indebtedness with the clerk of the court in which the estate is to be probated. File a duplicate original copy with the legal representative. Send copies of both documents to the D/O having jurisdiction of the area in which the court is located.

Some references to the SS Act for use in preparing a proof of claim are:

</table>
C. **Estate Closed or Will Not Be Administered** - When the assets of an estate have been distributed, a distributee may be liable for the refund if he still has the proceeds of the estate, or property resulting from the proceeds, in his possession. The liability of each distributee is proportionate to the share received. Therefore, request a refund from each distributee. If a distributee with substantial assets refuses to refund the portion of the overpayment for which he is liable and that portion is $200.00 or more, refer the case to GAO.

### 3.9.60 When To Classify A Medicare Overpayment As Uncollectible

Classify a Medicare overpayment as uncollectible when complete recovery or a reduction in the overpayment balance cannot be made by:

A. Waiver

B. Setoff against a current benefit accrual under the RR or SS Act; or

C. Further collection efforts.

### 3.9.61 Processing Uncollectible Cases

Uncollectible cases under the jurisdiction of RRB should be handled by one of the following methods:

A. **Suspending Collection Efforts** - Collection action may be suspended temporarily (establish a call up for future collection action) when:

1. The overpaid person is still entitled to benefits but offset is not possible and requests for refund have not been honored; or

2. The overpaid person will become eligible for benefits within 6 months following the month in which recovery action is discontinued; or

3. The debtor cannot be located after diligent effort but there is reason to believe that future collection action may be productive enough to justify periodic review; or

4. The debtor is unable to make current payments but his future prospects justify periodic review and recovery action.

B. **Terminate Collection Efforts** - Collection efforts should be terminated (transfer the overpayment to the uncollectible account on PARS when:

1. Substantial payments cannot be collected by any method; or
2. The debtor cannot be located and future collection prospects are remote; or
3. Cost of collection efforts will exceed the amount of the overpayment; or
4. The overpayment is less than $200.00.

When efforts to collect an overpayment are terminated, MS will prepare Form G-270 giving the reasons.

C. **Compromise Settlement** - See RCM 6.6.150 through 6.6.156 and SSCM 5537 through 5538.

D. **Refer to GAO** - See section 3.9.62 for when and how to refer an overpayment to the General Accounting Office.

### 3.9.62 Referral To GAO

A. **When to Refer a Case to GAO** - An uncollectible overpayment should be referred to GAO for further collection action when the overpayment is $200.00 or more and there is an indication of fraud or misrepresentation or the overpaid person appears to have the means to repay the debt.

B. **Information Required** - Before referring to GAO a case in which a beneficiary is liable for an overpayment, request the F/O to develop DR-423 or another statement of the debtor's financial condition, if such a statement is not in file.

Refer the case to GAO on GL-14 (see Exhibit 5) and include the following information:

1. The name of the overpaid person and the person liable for the overpayment.
2. The last known address of the person from whom recovery should be made.
3. The debtor's date of birth, RRB No., and SSA No.
4. A complete explanation of the overpayment.
5. A summary of collection action taken.
6. Evidence showing the debtor's ability to repay.

See sec. 3.9.71 for the entries to be made in part 2 of Form GL-14. When releasing the GL-14, transfer the overpayment to the uncollectible account.
3.9.70 Entering Medicare Overpayments In Accounts Receivable

All Medicare overpayments under RRB jurisdiction, except those in which tolerance applies, will be entered by HB on Form G-376 according to the instructions in RCM Part 11. After preparing the G-376, route the case to "Acct's Rec."

Overpayment in which tolerance applies or which are under the jurisdiction of SSA should not be entered on PARS. If such an overpayment is inadvertently entered in PARS, the entry should be closed out.

3.9.71 Code Designation And Appropriation Number For HI Overpayments

Separate accounts receivable have been established for overpayments of hospital and medical insurance. The codes to be entered in the overpayment type on PARS are as follows:

<table>
<thead>
<tr>
<th>Type Code</th>
<th>Type of Overpayment</th>
</tr>
</thead>
<tbody>
<tr>
<td>520</td>
<td>Medical Insurance Overpayments (Palmetto GBA)</td>
</tr>
<tr>
<td>540</td>
<td>Hospital Insurance Overpayments (USA)</td>
</tr>
<tr>
<td>550</td>
<td>Hospital Insurance Overpayments (Canada)</td>
</tr>
</tbody>
</table>

The appropriation numbers and trust fund titles shown below are used in preparing Forms GL-14 (see Exhibit 5).

<table>
<thead>
<tr>
<th>Appropriation</th>
<th>Trust Fund Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>75-20X8004</td>
<td>Federal Supplementary Medical Insurance Trust Fund</td>
</tr>
<tr>
<td>75-20X8005</td>
<td>Federal Hospital Insurance Trust Fund</td>
</tr>
</tbody>
</table>

3.9.72 Responsibility For Posting Waiver And Recovery Actions

Responsibility for posting waiver or recovery action on PARS depends on the action taken. If the overpayment is:

A. Waived - MS GS-08 examiners will post the waiver actions. This action is authorized by GS-09 examiners.
B. **Recovered from RR Act benefits** - MS will post the recovery at the time of reinstatement, if the overpayment is recovered from one month's annuity, after recovery if recovery takes more than 1 month. The adjudicative units will return the files to MS for posting to PARS after recovery.

C. **Recovered by cash refund** - MS premiums collections clerk will post the recovery.

### 3.9.80 Notifying SSA

Notify SSA of the disposition of every valid overpayment that has been referred to RRB. Send RL-391 and, if pertinent, a copy of the G-270 to CMS.

### 3.9.81 Notifying Palmetto GBA

When an SMI benefit overpayment is involved, send RL-391 and, if pertinent, a copy of the G-270 to the Railroad and Medicare Division, Palmetto GBA. A carbon copy of the letter to CMS may be used. In such cases, show the following information on the carbon:

- cc: Railroad and Medicare Division
  - Palmetto GBA

### 3.9.90 Forged Medicare Benefit Checks

When the payee of a SMI benefit check alleges that he did not endorse the check, the Medicare Part B carrier will develop the forgery claim and route it to the CMS regional office for investigation. Any unresolved SMI benefit check forgery claims on hand should be routed to the chief of Medicare programs who will forward them to the appropriate destination.

If a Canadian HI check forgery claim is received, forward it to CPPS for handling.

### 3.9.93 Handling After Report By U.S. Secret Service

The U.S. Secret Service will report the results of its investigation to RRB. MS will transmit the report to the Part B carrier. If the report is that the endorsement was forged, the Part B carrier will issue a new check to the payee, with an explanation stating that the U.S. Secret Service has assumed jurisdiction of the forgery, and will enter into reclamation proceedings with its bank.

If the U.S. Secret Service reports that the endorsement was not forged, the Part B carrier will notify the payee of that fact.

**Request For Refund Of Medicare Benefit Overpayment**

Dear:
Our records show you received $____ more in Medicare benefits than you should have. (Include an explanation which explains in simple, non-technical language how and when the incorrect payment was made.)

You are asked to refund by check or money order made payable to the Railroad Retirement Board and sent to our Payment Records Section at the address shown in the heading of this letter. If you do not repay this amount within 30 days of the date of this letter, it will be deducted from the annuity you are receiving under the Railroad Retirement Act.

If you believe that this determination is not correct, you may request that your case be reexamined. If you want this reconsideration, you must request it no later than 6 months from the date of this notice. You may make such a request through the nearest district office of the RRB. If additional evidence is available, you should submit it with your request.

The law requires than an overpayment must be paid back, unless both of the following conditions are met:

1. You were not responsible in any way for causing the overpayment. (If the payment was made to the beneficiary, rather than to the provider, add: "and you cashed the check(s) believing that the payment was correct"); and

2. Paying back the overpayment would keep you from paying your necessary living expenses, including current or planned medical expenses, or would be unfair for some other reason. If repayment would cause you serious financial hardship, it will be necessary for you to submit a statement of your income from all sources as well as your expenses and other debts.

If you believe both of the above conditions apply in your case, you should write the Railroad Retirement Board within 30 days from receipt of this letter. Unless we hear from you within 30 days, the overpayment will be recovered from your annuity.

Notice Of Recovery Of Medicare Benefit Overpayment

Dear:

(Explain in simple, non-technical language how and when the incorrect payment was made.)

The following methods of repayment are for your consideration:

1. Cash refund of ____ by check or money order made payable to the Railroad Retirement Board and sent to our Payment Records Section at the address shown in the heading of this letter.

2. Withholding your annuity from ____ through ____ The partial payment due for ____ would be released to reach you soon after the end of that month.
(Add the following item if information in file indicates that recovery by one of the above methods would cause financial hardship.)

- Temporary withholding. This means that ____ per month would be withheld from your annuity for ____ months from ____ through _____.

Please advise which of the methods you select to refund the overpayment.

(Include the following paragraphs if the individual has not previously been informed of his rights to reconsideration or waiver).

If you believe that this determination is not correct, you may request that your case be reexamined. If you want this reconsideration, you must request it no later than 6 months from the date of this notice. You may make such a request through the nearest district office of the RRB. If additional evidence is available, you should submit it with your request.

The law requires that an overpayment must be paid back unless both of the following conditions are met:

1. You were not responsible in any way for causing the overpayment, and

2. Paying back the overpayment would keep you from paying your necessary living expenses, including current or planned medical expenses, or would be unfair for some other reason.

If you believe that both of the above conditions apply in your case, you should write to the Railroad Retirement Board within 30 days of the date of this letter. If the conditions do not apply, you must arrange to refund the overpayment.

Unless we hear from you within 30 days of the date of this letter, your annuity will be suspended to recover the overpayment by withholding, as shown above.

If you have any questions about this letter, please contact the nearest district office of the RRB.

Statement And Proof Of Claim State Of Texas
The Probate Court of Wichita County Estate of John L. Doe, Deceased

To: Cleo M. Doe, Executrix
Estate of John L. Doe
305 Collins Street
Wichita Falls, Texas 76301
Overpayment of hospital insurance benefits under Section 7(d) of the Railroad Retirement Act as amended through 1974 (45 U.S.C. 231f) from 7-27-68 through 11-4-68 per attached statement.

$847.02

STATE OF ILLINOIS) vs

County of Cook)

I, Donald M. Smith, Director of Retirement Claims of the Railroad Retirement Board, a duly authorized agent for the United States in this behalf, being duly sworn, depose and say:

1. That the estate of John L. Doe, deceased, is justly and truly indebted to the United States in the sum of $847.02.

2. That the nature of said debt is set forth in the attached statement.

3. That the attached statement is a true and correct statement of account against the estate of John L. Doe, deceased.

4. That no part of said debt has been paid, but that the sum is now due and payable.

5. That there are no set offs or counter claims to said debt.

6. That said debt has priority and must be paid in full in advance of distribution to creditors, as and to the extent provided in Section 3466 of the Revised Statutes (31 U.S.C. 191) or other applicable provisions of law. Attention is also called to the provisions of Section 3467 of the Revised Statutes (31 U.S.C. 192) with respect to the personal liability of every executor, administrator, assignee, or other person who fails to pay the claims of the United States in accordance with their priority.

Subscribed and sworn to before me ______ Dated this _____ day of this_____ day of January 1975 _____ January 1975

Notary Public, Cook County, Illinois J. R. Feldhiem

My Commission expires _____ 19 _____ Director of Disability and Medicare Operations

Railroad Retirement Board

Chicago, Illinois
Statement Of Indebtedness John L. Doe, Deceased

John L. Doe became entitled to hospital insurance benefits under Section 7(d) of the Railroad Retirement Act of 1974 on 7-1-66. Section 7(d) of the Railroad Retirement Act (45 U.S.C. 231f) provides that:

"The Board shall...have the same authority to determine the rights of individuals...to have payments made on their behalf under section 226, and Parts A and C of Title XVIII of the Social Security Act as the Secretary of Health, Education, and Welfare..."

Mr. Doe entered Madison North Convalescent enter on 2-28-68. Benefits were paid on his behalf under Part A, Title XVIII of the Social Security Act for 27 days from 2-28-68 through 3-26-68. He was a patient at Cedar Rest Haven, a skilled nursing facility, from 3-26-68 through 7-15-68. No benefits were paid during this period. Mr. Doe was transferred to Deaconess Hospital for the period from 7-15-68 through 7-27-68. Benefits of $760.16 were paid during that period. He entered Madison South Convalescent Center on 7-27-68. Benefits totaling $2,527.69 were paid on his behalf for 100 days from 7-27-68 through 11-4-68.

Section 1812(a) of Part A, Title XVIII of the Social Security Act (42 U.S.C. 1395d) provides:

"The benefits provided to an individual...shall consist of entitlement to have payment made on his behalf...for post-hospital extended care services for up to 100 days during any spell of illness..."

Section 1813(a) of Part A, Title XVIII of the Social Security Act (42 U.S.C.1395e) provides:

"The amount payable for post-hospital extended care services furnished an individual during any spell of illness shall be reduced by a coinsurance amount...for each day...on which he is furnished such services after such services have been furnished to him for 20 days during such spell..."

Section 1861(a) of the Social Security Act (42 U.S.C. 1395x) status:

"The term 'spell of illness' with respect to any individual means a period of consecutive days..(1) beginning with the first day...on which such individual is furnished inpatient hospital services or extended care services...and (2) ending with the close of the first period of 60 consecutive days thereafter on each of which he is neither an inpatient of a hospital or an inpatient of a skilled nursing facility..."

When benefits were paid on Mr. Doe's behalf for the period from 7-27-68 through 11-4-68, the intermediary was unaware of the benefits paid on his behalf for 2-28-68 through 3-26-68. Therefore, benefits were paid for the entire 100 days, rather than for 73 days.
Benefits were also paid without deducting the coinsurance amount $5.00 per day for the 20-day period from 7-27-68 through 8-15-68.

Mr. Doe was overpaid a total of $100.00 because of the failure to apply the coinsurance and $747.02 for 27 days after his coverage period was exhausted. The total overpayment is $847.02.

Report Of Alleged Forgery

TO: District Manager
FROM: Chief, Waiver, Recovery and Penalty Section
Bureau of Retirement Claims

SUBJECT: Alleged Forgery of Medicare Check

Health Insurance Claim No.

Claimant:

The (name of carrier) recently referred to the RRB the matter of an alleged forgery of a Medicare benefit check for $ ____ issued on _____ to _____. It is our responsibility to submit such cases to the U.S. Secret Service for investigation and determination.

Attached is an original plus two tissue copies of our letter to the Special Agent in Charge of the _____ Secret Service Office. It is requested that a representative of your office contact that Secret Service Agent to deliver the original and first tissue copy of the letter and the attached exhibits.

Please advise us when the letter and exhibits have been delivered. Include in the written report any comments which the Special Agent may have concerning the content of our letter or the exhibits.

The additional copy of our letter to the Secret Service is for your file.

Alleged Forgery of Medicare Check

In the amount of

Claimant:

Dear Sir:

Palmetto GBA, the Railroad Retirement Board’s intermediary for Part B Medicare benefits to our annuitants, recently advised us of a claim of forgery on a Medicare payment check issued to _________. Benefit payments of this type are drawn by Medicare intermediaries from United States funds under Title XVIII of the Social Security Act.

The check in question was issued by Palmetto GBA, Augusta, Georgia, on _______, drawn on the Chase Manhattan Bank, New York, against the Federal Supplementary Medical Insurance Trust Fund. That check, numbered _______, was payable in the amount of ______ to_______ (name) (address) __________.

With their referral of this case, Palmetto GBA forwarded to us the original and four photocopies of the Medicare check in question, together with the forgery affidavit from the payee, ________.

Because the alleged forgery in this case involved a check representing funds of the United States, we are submitting this matter to your office for further handling and appropriate action. You will find enclosed copies of the following documents:

1. The original and four photocopies of the above described health insurance benefit check for ______, issued on ______ to ______ by Palmetto GBA.

2. Three photocopies of the forgery affidavit by ______ name ______ address ______, given to Palmetto GBA on ________.

3. Three photocopies of __________, signed on _________ by ____________.

4. Three copies of __________, signed on __________ by ____________.

After you have completed your investigation, please advise us of your recommendation or determination in this matter. We, in turn, will notify Palmetto GBA of your decision. If the forgery claim is substantiated, and if it is otherwise appropriate in this case, we will request Palmetto GBA to issue a replacement check to __________. If possible, please
return the original of the enclosed Medicare check, because we may be required to return it to Palmetto GBA for their records.

You may indicate the status or disposition of this case by checking the appropriate items on the next sheet and returning it to us at the address shown in the heading of this letter.

Very truly yours,

J. R. Feldheim

Special Agent in Charge
3.10.1 Scope of Chapter

This chapter provides information and instructions about Part B premium collection activities. The Medicare and Payment Services Section (MPSS), which includes the Medicare Unit (MU) and Tax, Clerical and Imaging Unit (TCIU), handles all Part B collection activities. This includes:

- the screening of premium notices;
- the collection of premium payments through the lockbox (US Bank is the current lockbox operator. The lockbox address is U.S. Railroad Retirement Board, Medicare Premium Payments, P.O. Box 979024, St. Louis, MO 63197-9000.)
- the control and deposit of premium payments;
- the crediting of premium payments to advance the paid thru date on MIRTEL;
- the crediting of payments to debts on PAR records;
- the handling of routine correspondence pertaining to these matters;
- the handling of premium payment rejects and alerts; and
- the various funds transfers involving Part B premiums, with detailed instructions on how to process the Death Transfer listing, page 13 of the MIRTEL statistics and PAR report 4693.

3.10.2 Types of Premium Notices (RL-800/G-800)

Forms RL-800/G-800 are the premium due notices mailed to beneficiaries who are on direct bill for their Part B premiums. Form G-800 is printed at the bottom of Form RL-800, and is to be returned by the beneficiary with his or her payment. Form G-800 has coded billing information that the lockbox operator enters for the electronic updating of MIRTEL.

A. Initial and Recurring

1. Form RL-800/G-800, Initial Notice - The due date shown is the fifth day of the month following the month of preparation. The period covered is the month of the due date, plus the two following months. Retroactive premiums for the current enrollment period are also included.

2. Form RL-800/G-800, Recurring Notice – After the initial bill is paid, recurring premium notices are prepared for a 3-month period (not necessarily a calendar quarter) until billing is stopped or coverage is terminated.
3. Form RL-800/G-800, Second Notice – If an initial or recurring notice is not returned with a payment within two months, a second notice is generated. The words “SECOND NOTICE” appear in the upper right hand corner of the bill for identification.

4. Form RL-800/G-800, Termination Notice – If an initial, recurring or second notice is not returned by the beginning of the termination month, a termination notice is generated. The word “TERMINATION” appears in the upper right hand corner of the bill for identification.

B. Year-End Bills (released only in January, March and April)

The year-end notices are sent to beneficiaries whose payments are in a suspended status. These notices cover unpaid premiums for the prior calendar year, and January through April of the current year. The words “YEAR-END” appear in the upper right hand corner of the bill for identification. The termination date is always April 30.

1. Around January 1 of each year, Form G-800 initial year-end notices are generated.

2. If no payment is received by March, then a second notice is released in March.

3. Termination Year-End Notices – In April, if the beneficiary has not paid his or her premiums, a third notice is produced. This notice is identified by the words “TERMINATION YEAR END” in the upper right hand corner of the notice.

3.10.3 Screening Initial and Recurring Premium Notices

Forms RL-800/G-800 are mailed to approximately one-third of the beneficiaries on direct bill each month. The premium notices that are to be mailed are forwarded to the MPSS/MU after the monthly billing run is completed on the first work day of the month. If the premium notices are not received by noon of the day after the billing run, the MU clerk should notify the supervisor to contact the designated P&S staff to initiate an investigation. Upon receipt of the premium notices, the MPSS/MU is responsible for taking the following actions:

A. Review notices for missing or incomplete name and address information.

1. P&S releases an e-mail to the MU with Monthly Billing Run data. Included in the data are claim numbers for notices with missing name and address information. Sort through the Forms RL-800 to locate the cases mentioned in the e-mail from P&S.

2. While sorting through the premium notices, additional premium notices with missing information may be found. Remove all premium notices that contain
missing or incomplete name or address information. Use MOLI or DATA-Q to obtain correct name and address information.

3. Manually complete a Form RL-800 on RRAILS with the correct address information. Include the billing information printed on the incomplete Form RL-800. Cut off the bottom of the incomplete RL-800 that contains the coded billing information and tape it to the bottom of the form manually created. Make a copy of the form to create a neat document with the coded billing information and release it to the beneficiary. It is important to handle these letters on the date of receipt, so that the beneficiary does not miss submitting a payment on time. The original Forms RL-800 with incomplete or missing name/address information should be destroyed.

B. Remove all premium notices for amounts exceeding $1,200. Refer the notices to the Senior Assistant to the Chief of MPSS (SACM) for review. The SACM will determine if the notices are correct. The SACM will release the correct notices and shred the incorrect notices. During October through December, be sure to include a Form T-800 with each notice if it is determined that the notice should be released.

C. Termination Notices:

The MPSS staff will make a copy of each termination notice, front and back. The copy will be released to the Field Office, as outlined below. The original notices will be released directly to the beneficiary from the mailroom on the day of receipt of the computer-generated notice.

1. Determine which Field Office services each beneficiary. This information is pre-printed on the notice. Group together the notices for each Field Office.

2. Complete a Form G-833 (Form RL-800/G-800 Contact-Third Notice of Medicare Part B Premiums Due) for each Field Office. The G-833 is found on RRAILS.

3. During the months of October through December, include one Form T-800 for each notice. Form T-800 gives beneficiaries information about Medicare premium rates and deductibles for the upcoming year.

4. Enclose the Form G-833 and the termination notices (and Forms T-800, if any) in a letter-size envelope for each Field Office. Show the Field Office name on the front of the envelope.

D. Deliver to Mailroom – Take all of the envelopes for the Field Offices to the mailroom for enclosing and mailing. The mailroom will put an address label for the Field Office on the envelope and enclose a return “lockbox” envelope pre-addressed to U.S. Railroad Retirement Board, Medicare Premium Payments, P.O. Box 979024, St. Louis, MO 63197-9000 for each notice.
3.10.4 Screening Year-End Bills

When an annuity goes into suspense the record status on MOLI changes to 23 for year-end billing. The year-end bills are printed and sent to the MPSS for sorting and handling. Follow these steps when processing year-end bills:

A. Check the beginning date of the period for which premiums are due on each notice. If the beginning date is January through July, a MU examiner will check for utilization for an equitable relief determination before a decision is made on whether to release the notice. Move to step B if the beginning date is August or later.

B. Address Review – Review name and address information on the notices to make sure the notices contain complete information. If any information is missing, use MOLI or DATA-Q to obtain correct name and address information. Manually complete a Form RL-800 on RRAILS with the correct address information and include the billing information printed on the incomplete notice. Cut off the bottom of the incomplete RL-800 that contains the coded billing information and tape it to the bottom of the form manually created. Make a copy of the form to create a neat document with the coded billing information and release it to the beneficiary. Include the manually prepared Forms RL-800 with the other Forms RL-800 to be delivered to the mailroom.

C. Third Year-End Bill to Field Office – Separate notices marked “TERMINATION YEAR END” and release to the Field Office printed on the notice. Follow these steps when processing third year-end bill notices:

1. Determine which Field Office services each beneficiary. This information is pre-printed on the notice. Group together the notices for each Field Office.

2. Complete a Form G-833 (Form RL-800/G-800 Contact-Third Notice of Medicare Part B Premiums Due) for every Field Office. The G-833 is found on RRAILS.

3. During the months of October through December, include one Form T-800 for each notice. Form T-800 gives beneficiaries information about Medicare premium rates and deductibles for the upcoming year.

4. Enclose the Form G-833 and the termination notices (and Forms T-800 if any) in a letter-size envelope for each Field Office. Show the Field Office name on the front of the envelope.

D. Deliver to Mailroom – Take all of the envelopes for the Field Offices to the mailroom for enclosing and mailing. The mailroom will put an address label for the Field Office on the enclosed envelope and enclose a return “lockbox” envelope pre-addressed to U.S. Railroad Retirement Board, Medicare Premium Payments, P.O. Box 979024, St. Louis, MO 63197-9000 for each notice.
3.10.8 Picking up the Lockbox and Lockbox Content

Background

Medicare premium payments are processed through Treasury’s general lockbox network by selected financial institutions. Effective February 2005, US Bank receives SMI premium payments at U.S. Railroad Retirement Board, Medicare Premium Payments, P.O. Box 979024, St. Louis, MO 63197-9000. US Bank also receives the IRMAA D premium payments at U.S. Railroad Retirement Board, Medicare Premium Payments, P.O. Box 979021, St. Louis, MO 63197-9000. The lockbox operation deposits all payments into the Medical Insurance Premium Aged account (75x8004.5). Payments received with a G-800 are electronically transmitted to the RRB on the bank file and processed into the Medicare Information Received, Transmitted, Edited and Logged (MIRTEL) system. If a G-800 is not submitted with a payment, MIRTEL is not automatically updated. US Bank forwards all payment information processed and correspondence received through the lockbox. This includes premium payments that the lockbox could not include on the bank file and payments submitted for arrearages on PAR. The entire package is delivered to the RRB mailroom and picked up by a MU staff member.

Picking Up the Lockbox

The MU staff member is responsible for going to the mailroom daily to pick up the package sent from US Bank. The package is usually delivered by 10:00 a.m. The US Bank will send an email to designated staff and supervisors in the MPSS and designated P&S staff if they do not send a bank file or lockbox. There are two possibilities where the bank would be sending the RRB an email.

1. There is a lockbox and no bank file.
2. There is neither a lockbox nor a bank file.

One email can be sent, to the designated RRB employees, indicating that there is a lockbox but not a bank file, or neither. Even if the bank notifies the RRB that there is not a lockbox or a bank file, the MU staff member should still go to the mailroom to check if a package has been delivered. If no package from the bank was in the mail room by 10:00 a.m., the MU staff member should check later the same day, around 2:00 p.m. If no package was delivered all day, the clerk should notify the SACM and indicate so by writing “No Lockbox” on the “Record of Incoming and Outgoing Work” log.

Contents of the Lockbox

The contents of the package received from the lockbox operation are as follows:

- Computer listing of processed Forms G-800, payments, credits, and deposit information,
• Processed Forms G-800 batched together with copies of original payments,

• Unprocessed Forms G-800 with copies of original payments (These payments will eventually be eliminated after the clerks follow the new cut and paste method when processing G-800s without an address.),

• Correspondence with a processed G-800 batched together with copies of original payments,

• Correspondence without a processed G-800 batched together with copies of original payments,

• Checks or coins (without a G-800/G-145 PAR notice) not deposited (Example: a check made out to the wrong organization),

• Forms G-145 with a copy of a payment attached,

• Forms G-145 without a copy of a payment attached (Example: a request for partial withholding),

• Foreign remittances,

• Checks returned with a stale date or checks that are pre-dated,

• Credit or Debit Vouchers,

• If there is a compact disc inside the Fed-Ex envelope, it should be walked to the SACM. The RRB receives a CD once a month at the beginning of the month. The CD contains payment information for the previous month.

### 3.10.9 Batches of G-800s

Premium payments submitted with a G-800 are grouped together and bundled in batches in each lockbox package. Each batch contains 50 or fewer payments and is numbered and labeled with a sheet called the Transaction Detail. The batch number is located in the upper left hand corner. The majority of the batches in the lockbox have G-800s and have therefore been included on the bank file for mechanical crediting of their paid thru date on MIRTEL. The MU staff member is responsible for crediting unprocessed payments to beneficiary records. See RCM 3.10.10 for instructions on handling payments not credited to an account.

A. Credited G-800s – Upon receipt of the credited G-800s, the MU is responsible for taking the following actions:

1. Verify that the Premium Payment listing matches the Advice of Deposit lockbox listing. See RCM 3.10.16 for a description of how to compare these forms.
2. Scan through a few of the forms in the batch to make sure they belong in that batch. Compare the Deposit Detail print-out to a few of the forms. The serial number column on the print-out matches with check numbers in that batch. If there is a discrepancy, notify the SACM who will contact P&S by email to report the discrepancy.

3. Check MOLI to make sure that the paid thru date was advanced mechanically. Get at least two claim numbers from each batch and check them on the MOLI (SC) screen to be sure the payments were processed. The LAP should be a 40 and the LAP date should be that of the last run. If MOLI does not indicate the payment was applied, check MEDREF for a Premium Payment referral. If there is not a Premium Payment referral with the date of the batch you are checking, notify the SACM who will contact P&S.

Note: Some spouses, widows and disabled children have pseudo-numbers. If the MU staff member checks MOLI for the claim number and does not find a record, he/she should check for a pseudo-number. Type “3” in the “CD” field on MOLI, enter the appropriate prefix and then the claim number provided.

Note: Some spouse records have a prefix other than MA. A spouse record on MOLI might also have XA, TA, or KA as a prefix. Always check the names on these records to make sure you are handling a payment for the correct spouse.

Note: During the dark days, MIRTEL does not run so the MOLI records will not be updated. However, lockbox packages could still come in on those days. Check the batches on the first day after dark days to make sure these payments were credited. If the paid thru date on MOLI has not been updated, notify the SACM who will send an email to notify designated P&S staff.

4. Place the batches in the appropriate boxes organized by date.

B. Unprocessed Forms G-800 – In some instances, the bank may not be able to process Form G-800, but the payment was deposited. In this situation, the bank will write the paid amount on the G-800 and forward the G-800 to the RRB in the lockbox package. The MPSS/MU staff member will update the MOLI record with the payment information. See RCM 3.10.11 for instructions for advancing the paid thru date for unprocessed G-800s.

3.10.10 Batches without G-800s

One of the batches in the lockbox will contain Medicare premium payments without a G-800. These batches should have a number that is not sequential with the rest of the batches. If a beneficiary sends in a Medicare payment without a G-800, the payment will be credited by the bank, but MOLI will not be mechanically updated. The MU staff member will follow the steps below to process batches without G-800s.
1. Make sure each item belongs in the batch. If there is a discrepancy, contact the designated staff member in P&S.

2. If there is not a claim number or name verify the check is made out to an acceptable payee (Retirement Medicare Section; Office of Programs; Medicare; Medicare Insurance; Medicare Premiums; Medicare Programs Section; Railroad Medicare; Railroad Retirement Board; US Railroad Retirement Board; USRRB; US Railroad Retirement Board Medicare Payments; or US Treasury). If it is made out to an acceptable RRB Medicare name, forward the payment to the MU on a G-115F. If the check is not made out to an acceptable RRB Medicare name, the bank deposited the funds in our lockbox in error. Make a copy of the check and return it to the bank with a note saying, “Not a RRB Medicare Payment”. The bank will correct the error with a debit voucher. See RCM 3.10.17 for information on debit vouchers.

3. If there is a name but not a claim number, forward the payment to the MU on a G-115F. The MU staff member will look up the beneficiary using MBD WebSphere or CMS BERT and take any further actions needed.

4. If there is a claim number associated with the payment, find the beneficiary on MOLI. If the MU staff member checks MOLI for the claim number and does not find a record, he/she should check for a pseudo-number. Type “3” in the “CD” field on MOLI, enter the appropriate prefix and then the claim number provided. If you cannot find the MOLI record move to step 5. If you find a MOLI record that does not have a direct bill record status of 22, 23 or 24, move to step 5. If you find a MOLI record that has a direct bill record status of 22, 23 or 24, move to RCM 3.10.11 for instructions on advancing the paid thru date.

5. The MU staff member should check to see if there is an open Medicare or RR debt on PAR for the beneficiary:
   a. If the check comes with a G-145, find the claim number and billing document identification number. (If there is not a G-145 with the check, locate the claim number as instructed above in step 3.)

   b. Search for the debt on PAR by entering the claim number on the ARCL screen. Verify the beneficiary name matches on PAR and on the payment submitted. Check to make sure the debt is a Medicare debt (the BILLING DOC ID will begin with B5).

      (For example: enter 123456789A 1 in the “Account #” field and hit Enter..)

If the open debt is a Medicare debt, move to RCM 3.10.12 for instructions on posting cash to an open Medicare PAR debt. Most payments for an open Medicare debt will have a G-145 with the payment. If the open debt is not a Medicare debt, move to step 6.
If the Medicare debt is closed out (balance of zero dollars), or if there is no Medicare debt, search for an open RRA (B2) or RUIA (B8) debt. The clerk should send a G-115F to the MU examiner and indicate that no open Medicare, RRA, or RUIA debt was found. See RCM 3.10.13 for instructions. If an open RRA or RUIA debt was found, indicate this on the G-115F and forward to a MU examiner for handling. Note: to search for a B2 document, put an “A” and then the RR claim number in the ACCOUNT # field on the ARCL screen.

If the amount of the payment submitted is greater than the amount of the Medicare debt open on PAR, create a C5 document as instructed in RCM 3.10.12. Complete the G-115F and indicate that the open PAR balance has been closed out and that there is an excess amount yet to be credited. The clerk will attach the check to the G-115F and forward to the MU examiner for handling. See RCM 3.10.13 for instructions on handling such cases.

6. If there is no open debt, send a G-115F to the MU examiner. See RCM 3.10.13 for instructions on handling such cases.

3.10.11 Crediting Payments – Advancing Paid Thru Date

The MU is responsible for taking the following actions to advance the paid thru date on checks submitted for current Medicare premiums:

1. After reviewing MOLI’s direct bill (DB) screen, take note of the beneficiary’s monthly premium rate, the current paid thru date of the beneficiary, and if there is an excess premium on the record. If there is an excess premium, add that amount to the amount of the payment submitted.

2. Determine the new paid thru date after combining any excess premium and the amount of the check. Examples of determining a paid thru date follow:
   - A beneficiary’s current record shows a paid thru date of August 2010. He has no excess premium and sends in a payment of $289.20. Since his monthly premium rate is $96.40, the payment of $289.20 is for 3 months of premiums. The new paid thru date is November 2010.
   - A beneficiary's current record shows a paid thru date of July 2010. His monthly premium rate is $96.40 and he has an excess premium of $50.00. He submits a payment of $350.00. Add together his excess premium and his payment to get a total credit of $400.00. This will pay four months of premiums with an excess premium. The beneficiary’s new paid thru date is November 2010 with an excess premium of $14.40.

3. Complete a MEDCOR 20 to advance the paid thru date and update the excess premium amount on the beneficiary’s record. See RCM 3.13.21 for instructions on completing a MEDCOR 20 activity.
While completing the MEDCOR 20, print the MEDCOR screen with the current paid thru date and the MEDCOR screen with the updated paid thru date. (It is important to document these screens before and after taking action to update the paid thru date. These screens will be imaged and will be helpful in the future if there is a problem with the record.)

4. Attach the check to the bottom of the updated MEDCOR 20 print and then staple the MEDCOR print-outs together with the updated action on top. In the upper right hand corner of the first page, write “PREMIUM PAYMENT” and release to be imaged.

Each payment credited must be documented by the MU staff member. For instructions on documenting premium payments credited, see RCM 3.10.14.

3.10.12 Crediting Payments – Posting Cash to Open PAR Debt

Payments submitted for open Medicare debts (arrearages and option cases) on PAR come into the lockbox as unprocessed payments. These checks can come attached to the PAR letter (G-145) or alone.

- The beneficiary may send back the G-145 letter without a payment attached, but instead request a waiver, partial withholding or full withholding. If the MU clerk receives a G-145 without a payment attached, the letter should be forwarded on a G-115F to a MU examiner for handling.

- The beneficiary might also make a selection on the G-145 and submit a payment at the same time. In this situation, the MU clerk should process the payment as instructed below, and forward a copy of the re-payment selection on a G-115F to MU examiner for handling. See RCM 3.10.13 for instructions on using the G-115F.

- If a payment comes in without the G-145, RCM 3.10.10 instructs the clerk to advance the paid through date or check for an open PAR debt if there is a claim number to work from. If the clerk does not have the G-145, but finds an open debt on PAR using the claim number, they would apply the payment and forward a copy of the payment with a G-115F to the MU examiner where they determine if an option was involved. The MU examiner would then change the Part B date and make PAR modification if necessary.

The open debt on PAR should be reduced upon receipt of a remittance by the amount of the current payment. The MPSS is responsible for taking the following actions to post the cash to the open PAR debt:

Take notice of the billing document identification number associated with the payment.

To apply the cash to an open PAR debt:
- From the ARCL screen, enter “N” in the ACTION line and “SUSF” in the SCREEN line and hit Enter.

- Enter “NEW” in the FUNCTION field and tab to TRAN and enter “C5.”

- Enter “2500” in the ORGN field.

- Hit Enter.

1. On the next screen (Header Screen), enter the CD number from the previous “SUSF” screen in the DEP NUMBER field. In the DOCUMENT TOTAL field, enter the total amount of the payment. Hit Enter. *Note: if the payment amount is greater than the remaining balance of the debt on PAR, close out the debt. See RCM 3.10.13 for instructions on handling the remaining balance of the payment.

2. On the Line screen, make the following entries:
   - Enter “001” in LINE NO,
   - Enter “B5” in REF BD,
   - Enter the billing document number from ARCL in REF BD NUM,
   - Enter “001” in REF LINE,
   - Enter “SA” in TRANS TYPE,
   - Enter the account number from ARCL in PAYOR,
   - Enter the amount of the credit in AMOUNT,
   - Enter “X24” in ACTION OUT,
   - Enter the check number in CHECK NUMBER.
   - Enter “Q” in the COMMND field at the top of the screen.
• Hit Enter to go back to the Header Screen. If the payment is successfully applied to a PAR record, the message will read, “READY FOR APPROVAL.” If an error message appears after hitting Enter, check to make sure all entries are correct. If there is still a problem, notify the SACM.

3. At the Header Screen, enter “A” in the COMMND field and hit Enter. If the payment is successfully applied to a PAR record, the message will read, “APPROVAL APPLIED.” If an ERROR message appears instead of an APPROVAL message, go back and check that all entries are correct.

4. Write the CD payment number for each credit on the copy of the check.

5. Write “PREMIUM PAYMENT” in the upper right hand corner of the G-145 letter and tape the copy of the check to the bottom of the letter. If the payment did not come with a G-145 letter, tape the copy of the check to a blank piece of paper. Write “PREMIUM PAYMENT” and the claim number in the upper right hand corner of the document. Release to be imaged.

Each payment credited must be documented by the MPSS staff member. For instructions on documenting premium payments credited, see RCM 3.10.14.

### 3.10.13 Forwarding Unposted Payments with G-115F

If the lockbox receives a payment and the money could not be posted on PAR or used to advance the paid thru date on MOLI, a MU staff member should forward the payment to a MU examiner using a G-115F. The claim number associated with the payment should be written in the subject line. The blanks on the form indicating the amount of the payment and the date the payment was received should also be completed before forwarding the payment to an examiner.

The clerk should also select a reason from the choices on the G-115F indicating why the payment was not credited:

- The record status is terminated (RS = 90, 98, 99);
- The record status shows deductions in force (RS = 31);
- The record status shows no current Part B (RS = 11, 12, or 13 and option code is 2, 3, 4, 6 or 8);
- Unable to locate Medicare entitlements, no open PAR balance for RRA or RUIA debt;
- Premium paid thru current year (New premium amount not established);
- PAR open balance of $________ closed out. $_______ in excess;
• And there is a blank space provided for any extraordinary circumstances to be written in.

Once the worksheet is filled out, the MU staff member should attach necessary documents and forward to the MU examiner for processing. In some cases, the MU examiner may determine that the payment can be credited to the beneficiary’s account. In this situation, the MU examiner should process the payment and complete the bottom portion of the G-115F. The MU examiner will indicate how the case was processed:

• Posted to PAR on claim number ________________;
• Used to advance paid thru date on claim number ________________;
• Used to offset (RRA)(RUA) overpayment on claim number ____________;
• Refunded back to the beneficiary on claim number ________________;
• Money was DI trust fund. Form G-240 attached (paid thru date advanced/refund made).

If a G-240 is needed, it should be notated on the G-115F and sent to TCIS for processing. Once all the necessary actions are completed, the form G-115F should be imaged. The Operations Analyst will review the G-115Fs to be certain that the cases have been completed.

3.10.14 Documenting Payments Deposited

All payments that were deposited into the lockbox, but were not credited mechanically through MIRTEL, must be documented on the Premium Payments Credited Worksheet located on the O drive (O:\Operations|PSD\PPCW). This includes payments credited to PAR for Medicare debts, payments used to advance the paid thru date on MOLI for current Medicare premiums, payments sent to the MU on a G-115F because non-MU staff could not credit the payment. The Premium Payments Credited Worksheet is very user-friendly. Only MU staff will enter information on the Data Input worksheet.

Follow the steps in the table below to document Medicare payments.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>

(RCM 3.10 Lockbox Processing and Funds Transfers)
<table>
<thead>
<tr>
<th></th>
<th>Enter the symbol/prefix (indicates type of beneficiary):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• If the payment is not a RRB annuitant, enter “NA”.</td>
</tr>
<tr>
<td></td>
<td>• If deposit only and no modifications, enter “DEP”.</td>
</tr>
<tr>
<td>2</td>
<td>Enter the claim number:</td>
</tr>
<tr>
<td></td>
<td>• Do no enter dashes.</td>
</tr>
<tr>
<td></td>
<td>• Enter “999999999” for days where there are deposits only.</td>
</tr>
<tr>
<td></td>
<td>• If there is no claim or valid number, enter “888888888”.</td>
</tr>
<tr>
<td>3</td>
<td>Bank Date of Deposit:</td>
</tr>
<tr>
<td></td>
<td>• Enter date of deposit that can be found in upper right hand corner of check.</td>
</tr>
<tr>
<td>4</td>
<td>Amount:</td>
</tr>
<tr>
<td></td>
<td>• Enter the amount electronically processed (if discrepancy see</td>
</tr>
</tbody>
</table>
5 Type of payment processing; place only one “X” in the appropriate field (advance paid-thru-date, credit PAR, or G-115F):

- Advance Paid Thru Date: Enter an “X” in this column if you are advancing the paid thru date ONLY.

- Aged or disabled indicator: Enter an “X” in either the ‘Age’ field for aged beneficiaries or in the ‘Disability’ field for disabled beneficiaries. (Note: If the beneficiary is under the age of 65 years old, he/she is disabled.)

- Credit PAR: Enter an “X” in this column if you are:
  - Crediting PAR
  - Crediting PAR & Advancing the Paid Thru Date

- G-115F: Enter an “X” in this box if you:
  - Completed a G-115.
  - Entered an “X” in the G-115F Transferred to Unit if payment was sent outside of section. (still enter “X” in the G-115F box even if you sent the payment to another unit)
  - Completed G-115 & Advanced Paid Thru Date &/or PAR.

6 Credited by: Enter your initials.

7 Verify that the Manual Deposit Amt field matches the Payment Listing.

3.10.15 Miscellaneous Processing – Correspondence, NSF Checks, Post-Dated Checks, Foreign Remittances, etc.

Occasionally, miscellaneous items are sent along with the lockbox. US Bank separates any miscellaneous items from the payments received. Miscellaneous items include anything listed below. The MU staff should take the following actions in handling these work items:

- Correspondence: This includes notes or letters written on G-800’s or sent separately. All correspondence should be attached to a G-26 and forwarded to a MU examiner for handling.
• Post-Dated Checks: Post-dated checks are payments that are sent in and dated in the future. US Bank will not be able to process such payments. If the check is dated within a week of the MPSS receiving it, the staff member should set it aside and process the payment by sending it to the lockbox once the check is current. See RCM 3.10.18. All other post-dated checks should be sent back to the beneficiary with an RL-371 indicating that the payment was not able to be credited because the check was dated in the future. Before releasing the RL-371 and the check to the beneficiary, the staff member should make a copy of those items to be imaged.

• Erroneous Checks: If a beneficiary submits a payment dated in the wrong year or made out to anything other than the RRB, US Bank will not be able to credit the payment. The MU staff member should send the beneficiary an RL-371 and manually notate why the payment was not credited and include the original payment. Before releasing the RL-371 and the check, the clerk should make a copy of those items to be imaged. NOTE: Sometimes the bank will deposit erroneous payments in the Medicare lockbox. See RCM 3.10.27 for information on refunding non-SMI premium payments.

• Checks made out to US Bank: The US Bank will no longer process any payments that are made payable to “US Bank.” If the US Bank receives a payment made payable to “US Bank,” the bank will forward the payment to the MPSS for handling. The bank will not deposit the payment because “US Bank” is not an acceptable payee in the formal work agreement between the RRB and the US Bank. The MPSS staff member should follow procedure listed above when handling such cases.

• Debit Vouchers and Credit Vouchers: See RCM 3.10.17 for instructions on handling such items.

• Foreign Remittances: If a payment is submitted in a foreign currency, the MPSS staff member should return the payment to the beneficiary with an RL-371 and advise that the payment needs to be in United States currency. Before releasing the RL-371, the clerk should make a copy and send to be imaged.

• NSF (Non-Sufficient Funds) Checks: If a beneficiary submits a check and does not have enough money in their account, US Bank will not credit the payment. US Bank will notify the RRB through ECP concerning any insufficient payments. A Policy & Systems staff member will check ECP daily for any insufficient notices and notify MU to take the appropriate actions needed.

3.10.16 Premium Payment Listing

When the Premium Payment listing is received from the 2nd floor, the MU staff member should check that the totals on the Premium Payment listing match the totals on the
Advice of Deposit lockbox listing. First, verify that one or two numbers on the lockbox listing are on the Premium Payment listing. Then, follow these steps to verify the totals match:

- Find the Grand Totals line at the bottom of the Premium Payment listing. This should indicate the number of items and also a grand total dollar amount.
- Find the Advice of Deposit lockbox listing with the same date as the Premium Payment listing.
- Add up the total dollar amount of batches with sequential batch numbers. This number should match the Grand Totals line at the bottom of the Premium Payment listing.

If a discrepancy is noted, or the Premium Payment listing is delayed more than three MIRTEL runs from the receipt of the lockbox listing, notify the SACM. (Note: MIRTEL processing may be delayed because of the dark period.)

3.10.17 Debit Vouchers and Credit Vouchers

If there is an adjustment concerning RRB Medicare accounts and a debit voucher or a credit voucher is issued, the US Bank will email the designated P&S Analyst to notify the RRB. The P&S Analyst will forward the email to the Chief of MPSS and the notification is filed and saved on the ‘O’ Drive.

3.10.18 Medicare Cash Payments Received in RRB Mailroom

If a check or cash is delivered to the RRB Mailroom and is identified by the Mail Clerk as a Medicare payment, it is forwarded to the MPSS. The mailroom identifies each payment received on a “Medicare Remittance Daily Log” worksheet and records each payment by claim number, name, and amount of payment. The worksheet is dated in the upper right hand corner and sent to the MPSS.

When the worksheet and payments are received by the MPSS, the MPSS/MU staff member records each payment on USTAR and puts the worksheet in the binder labeled “Medicare Remittance Daily Log.” The payments are then forwarded to the lockbox, U.S. Railroad Retirement Board, Medicare Premium Payments, P.O. Box 979024, St. Louis, MO 63197-9000.

3.10.19 Verifying Non-lockbox Cash is Credited

The MU staff is responsible for verifying the payments described in RCM 3.10.18 have been credited. After the payments have been sent to the lockbox, the lockbox should be credited within one month. The MU staff is responsible for comparing the “Medicare Remittance Daily Log” mentioned above and the Premium Payments Credited Worksheet located on the O Drive to verify the payments were credited properly. The
MU staff should compare the worksheets on a monthly basis. If there is a discrepancy, the MU staff should notify the SACM.

### 3.10.25 Unapplied Cash – Medicare Money Deposited in RR or RUIA Lockbox

Medicare premium payments are occasionally erroneously deposited into either the RR or RUIA lockbox. The RBD/SBD Customer Service Section will identify Medicare payments that are erroneously deposited in the RR or RUIA lockbox, and send an unapplied cash packet to MU. The contents of the packet include:

- Form G-115F detailing the amount of unapplied cash and the claim number;
- A copy of the UNAP Table on PAR (MU will change the UNAP to put the payment in the PAR MEDICASH account.); and
- A copy of the unapplied check.

The MU examiner will take the following actions:

1. Review the packet. If the copy of the check is missing, check ECP to get a copy of the check. The copy is needed before action can be taken to apply the payment.

2. Check MOLI to see if the beneficiary is on direct bill. If the beneficiary is on direct bill, complete a MEDCOR 20 to advance the paid thru date. Move to step 3 if the beneficiary is not in direct bill status.

3. Check the ARCL table in PAR for an open Medicare debt. If the debt is open, complete a cash receipt document (C5 document) to apply the payment to the debt. If the Medicare debt is closed, move to step 4.

4. Verify that the payments posted on ARCL that closed the debt are valid and not write-off documents (WR or W5). If any of the postings are WR or W5, cancel the C5 document and credit the unapplied cash to the debt. If the debt is correctly closed or if there is excess cash after applying it to the debt, refund it to the beneficiary. See RCM 3.7.72.

5. After completing all actions, send the packet for imaging. Label the packet as “Premium Payment”.

The MU examiner does not need to complete a Form G-240. The DRD will prepare Form SF-1081 to transfer the money to the Part B trust fund based on the PAR UNAP transactions that put the unapplied cash in the PAR MEDICASH account.
3.10.26 Unapplied Cash -- RRA or RUIA Money Deposited in Medicare Lockbox

RRA or RUIA payments are occasionally erroneously deposited into the Medicare lockbox, and occasionally Medicare payments are erroneously deposited into the RRA or RUIA lockbox. Instructions for transferring cash payments into the correct account are listed below. NOTE: Part D IRMAA premiums that are deposited erroneously are handled by Policy & Systems (P&S). Notify the P&S Medicare analyst if this occurs.

Process for Transferring RRA or RUIA Lockbox Credit to Medicare

1. The cash refund is posted to unapplied cash.

2. The DRD sends copy of check and correspondence to the Customer Service Representative section of the RBD or SBD.

3. The Customer Service Representative section of the RBD or SBD determines that unapplied cash should be transferred to Medicare and makes appropriate entries on PAR-UNAP.

4. The Customer Service Representative section of the RBD or SBD sends copy of unapplied cash packet to the MU.

5. The MU examiner will process credit as appropriate and send entire packet to imaging.

Process for Transferring Medicare Lockbox Credit to the RRA or RUIA accounts

1. The Customer Service Representative section of the RBD or SBD forwards a packet of unapplied Medicare lockbox cash to the MU for processing.

2. The MU determines that cash should be transferred to the RRA or RUIA.

3. The MU prepares appropriate forms G-240, and the Direct Deposit Specialist prepares appropriate forms SF-1081. The Direct Deposit Specialist submits SF-1081 forms to Bureau of Fiscal Operations (BFO) for transfer. A copy of Form SF-1081 is provided to the DRD via email. The remarks section will include the PAR Cash Receipt number and account number to post to open RRA or RUIA receivables.

4. The DRD will delete the C3 MED number associated with the payment and then establish a corresponding C2 or C8 using an action out code of 13A. The CR number and deposit date should remain the same.

The Process for Transferring Part B Refunds from the Medicare Account to RRA for an RRA Debt
1. When a Medicare Part B refund is available to offset an RRA debt, the MU examiner will send an email to the DRD-Group Mailbox to determine if the DRD wants to use the refund. The DRD will respond by email.

2. If the DRD will use the refund, the MU will prepare appropriate forms G-240, and the Direct Deposit Specialist will prepare appropriate forms SF-1081. The Direct Deposit Specialist then submits the SF-1081 forms to Bureau of Fiscal Operations (BFO) for transfer. A copy of the Form SF-1081 is provided to the DRD via email. The remarks section will include the account number or other appropriate information to identify the RRA or RUIA receivable.

3. The DRD will apply the credit to the open receivable.

### 3.10.27 Refund of Non-SMI Premium Payments

Occasionally a remittance is received and deposited by the Medicare lockbox that is not a SMI premium payment and cannot be used to reduce a debt on PAR. A medical provider, for example, may erroneously send a refund of Part B benefits to the Medicare lockbox, rather than to Palmetto GBA. Such payments are to be refunded to the provider or other party that submitted the payment. Here are the steps required to make the refund.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>The MU Examiner will complete a Special Payment Request memorandum to request the MU to issue a special payment.</td>
</tr>
<tr>
<td>2</td>
<td>Complete a Form G-240 to transfer the amount of the payment from the SMI Premium Account – Age 65 (20 X 8004.5) to the SSEB Account (60 X 8010). See RCM 11 for additional instructions on completing Form G-240.</td>
</tr>
<tr>
<td>3</td>
<td>Prepare and release a letter to the provider or other party to explain that a refund is being made. Here is some sample language:</td>
</tr>
</tbody>
</table>

“*The payment in the amount of $999.99 that you recently sent to the Railroad Retirement Board was apparently sent to us in error. We are refunding the amount of the payment to you. If you have not already received it, you will soon receive a check issued by the U.S. Treasury for the amount of the refund.*

*If your payment was a refund of an amount you received for services covered under Part B of Medicare, you should send your payment to Palmetto GBA, Railroad Medicare Part B Office, PO Box 10066, Augusta, GA 30999-0001. Palmetto*
GBA processes medical insurance (Part B) claims for railroad retirement beneficiaries."

Provide as much identifying information as possible, e.g. amount of payment, date of payment, patient’s name, etc., to help the provider or other party identify the erroneous payment.

| 4 | Hand deliver the request for a special payment and Form G-240 to the Director of Unemployment and Programs Support Division for authorization. |

The MU will issue the special payment using the Secure Payment System (SPS) based on the information on the Special Payment Request memorandum.

### 3.10.28 Beneficiary Claims Payment Not Credited

The MU examiner should take the following actions if a beneficiary claims to have submitted a payment that has not been credited to his or her Part B premium paid thru date or Part B arrearage.

1. Did the beneficiary furnish the date and the amount of the payment? If yes, move to step 2. If no, request that the field office contact the beneficiary to obtain the date of the check or money order.

2. Look up the date in the “DT LAST PYMNT” field and “AMT PD” field on MOLI’s Direct Bill screen. If the date on the DB screen is close to the date of the check or money order and the amounts match, then the payment was credited. If the dates are not close, move to step 3.

3. Is there a Premium Payment Reject or Premium Payment Alert on MEDREF? If no, move to step 4.

   If there is a Premium Payment Reject that has a date in the PYMT DT/ BCH NO field that is close to the date of the payment and has an amount in the PAID field that matches, then the payment in question was deposited in the lockbox. However, if there is a Premium Payment Reject, the payment has yet to be credited. Refer to RCM 3.10.29 for instructions on processing Premium Payment Rejects. If the dates are not close, process the referral and move to step 4.

   If there is a Premium Payment Alert that has a date in the PYMT DT/ BCH NO field that is close to the date of the check and has an amount in the PAID field that matches, then the check in question was deposited in the lockbox and has been credited. Refer to RCM 3.10.29 for information on processing Premium Payment Alerts. If the dates are not close, process the referral and move to step 4.
4. Check the ARCL screen on PAR. Is there a C5 document with the Action Out Code of 24? If yes, and the TRANS DATE for the C5 document is close to the date of the check and the amounts match, then the payment was credited. If no, move to step 5.

5. Use The U.S. Treasury Electronic Check Processing System (ECP) to search for the copy of the check. Currently, only checks that the lockbox processes with a Form G-800 appear on ECP. (We are, however, working with the bank that operates the lockbox to ensure all checks processed through the lockbox appear on ECP in the future.) If you find the check on ECP, there should be a Form G-800 with it. If you locate the Form G-800, go back to Steps 2 and 3 to double check that the payment hasn’t already been credited on MOLI. If you are sure it hasn’t, complete a MEDCOR 20 to advance the paid thru date and notify the SACM who will contact P&S. P&S will investigate why a check with a Form G-800 didn’t update mechanically. When the lockbox starts imaging all checks, it will not be necessary to inform P&S if you find a check without a Form G-800 that has yet to be credited. Move to Step 6 if no check was found.

6. Access the Premium Payment Credited logs on the “O” drive for the dates after the date of the check. The MPSS updates the log when they manually credit payments that are deposited through the lockbox without a Form G-800. If the MPSS can’t process the credit, they forward the payment information on Form G-115F to the MU and notate the log. It is possible a Form G-115F with the check is in route to the MU, or the MPSS action to credit the payment did not work. If so, take action to credit the payment. Move to Step 7 if you do not find the payment on the logs.

7. If the check is not found have the field office contact the beneficiary to secure a copy of both sides of the cancelled check or a copy of the beneficiary’s banking statement that indicates a withdrawal to the RRB was made. When the copy is received from the field office, take action to credit the payment.

3.10.29 Referrals

A. General

Rejects of regular premium payments are rare because the premium notices usually match the MIRTEL master from which they were generated. Before making any changes in the record, be sure that the referral and the master record being compared, as viewed through MOLI, refer to the same individual. Premium payments will reject when an activity has been processed to alter the MIRTEL master between the time the premium notice is generated and the time the premium payment is reentered into the system. Always be sure that the MIRTEL master, as viewed through MOLI, reflects the beneficiary’s true situation. Do not change the input document to agree with
MIRTEL/MOLI when there is a chance that a recent activity erroneously changed the MIRTEL master.

B. Rejects and Alerts

A "reject" code is produced when a premium payment cannot be applied to the specific account. Although usually included in the discussion of rejects, some referral codes are "alert" codes. When an alert code is produced, the premium payment has been credited to the beneficiary's account. The alert is issued so that the MIRTEL record can be checked for some specific reason. Additional action may be required to bring the MIRTEL record up to date.

C. Handling MEDREF Referrals

The MU staff members handle all referral actions. The following general rules pertain to the handling of all referrals:

1. Obtain a MOLI printout for comparison of identifying data.

2. If a discrepancy is not apparent, consult MMAC records for the period between the date the premium due notice was released and the current date. The MEDDAR and MEDMAR reports can also be checked to determine when an activity may have been processed to alter the MIRTEL record.

3. If a discrepancy is still not apparent, prepare a MEDCOR Activity 99 for an Inquiry printout of the beneficiary's entire MIRTEL file.

4. It may be necessary to check the U.S. Treasury's Electronic Check Processing system (ECP) to verify a premium payment. This may also help to determine who made the payment.

5. Once the referral is handled, delete it from MEDREF. The referral should be printed and added to the PREMIUM PYMT PROOFS imaging package per RCM 3.7.73 if an imaging package is to be setup for scanning. The following is a list of possible premium payment and billing referral codes:

1400 - Premium Payment Reject - No Master

If the input was not correct, prepare a MEDCOR Activity 20 to advance the paid thru date and delinquency date. If the input was correct, determine why no master exists, or reestablish the MIRTEL master and update the paid thru date. Sometimes this reject is generated if the bank incorrectly keyed data that was on the premium due notice. Other times, the MIRTEL record was dropped and reestablished with a pseudo number. If the correct claim number cannot be determined, refer the case to Policy & Systems – PAS. PAS will check the file that generated the premium due notice.

1401 - Premium Payment Reject - MIRTEL Jurisdiction Pending
Clearance must be completed before premium payments can be applied to a beneficiary's record. If necessary, prepare a MEDCOR Activity 32 to force clearance. After clearance is completed, prepare a MEDCOR Activity 20 to advance the paid thru date and delinquency date.

1402 - Premium Payment Reject - Annuity In Force Without Premium Deduction

This referral is produced when the MIRTEL master contains record status code 11 (Annuity in force; no deductions required) and a Part B option code other than 1 or 5. Unless the current premium payment can be applied to a prior period of coverage, refund the amount of the payment using the Medicare Payment System (MPS).

1403 - Premium Payment Reject - Check Option

This referral is produced when the MIRTEL master contains record status code 12 (No annuity; no billing required) and a Part B option code other than 4 or 6. Determine the correct Part B option. If the MIRTEL/MOLI record is incorrect, prepare a MEDCOR Activity 22 to correct it. Refund any excess premiums using the Medicare Payment System (MPS).

1404 - Premium Payment Reject - Annuity In Suspense

This referral is produced when the MIRTEL master contains record status code 13 (Annuity in suspense; no deductions required) and a Part B option code other than 4 or 6. Determine the correct Part B option and prepare a MEDCOR Activity 22 to correct the MIRTEL/MOLI record if necessary. Refund any excess premiums using the Medicare Payment System (MPS).

1405 - Premium Payment Reject - Premiums Being Deducted

This referral is produced when a premium payment is received after annuity deductions have begun. The initiation of annuity deductions will have corrected the record status code in the MIRTEL/MOLI record to 31 (Annuity in force; deductions made), so no further bills will be released. Refund any excess premiums using the Medicare Payment System (MPS).

1406 - Premium Payment Reject - No Longer QRRB Under This Number

Determine if all premiums due through the month of termination have been paid. If an arrearage exists, enter it into the accounts receivable record. If a refund is due, pay the refund using the Medicare Payment System (MPS).

1409 - Premium Payment Reject - Annuity In Force

This referral is produced when a record has been selected for mechanical adjustment to begin annuity deductions. The MIRTEL master as viewed through MOLI shows record status 21 (Annuity in force; adjustment required), and a stop bill code 2 or 3 has been entered. Refund any excess premiums using the Medicare Payment System (MPS).
1410 - Premium Payment Reject - Invalid Record Status
Send to Policy & Systems - PAS for referral to BIS analyst.

1411 - Premium Payment Reject - Duplicate Premium Payment
This referral usually means that the annuitant submitted two checks to the bank, and one was applied and the other rejected. Or, the referral could mean that the bankfile was processed twice. If numerous reason 1411 referrals are produced on the same day, notify Policy & Systems - PAS. PAS will check for a systems problem.

1413 - Premium Payment Reject - Invalid SMI Rate In MIRTEL
This referral is usually generated when the record status is 99 and the paid thru date is equal to the date of death. Determine what part of the payment should be applied and refund any amount that should not be applied using the Medicare Payment System (MPS). If the referral is generated for another reason, notify Policy & Systems – PAS. PAS will determine why the referral was generated.

1414 - Premium Payment Reject - Unable To Compute - SMI Effective Date Prior To 9/73
Send to Policy & Systems – PAS. PAS will determine why the referral was generated, or refer the case to BIS for investigation.

1415 - Premium Payment Reject - Excess Premium Exceeds SMI Premium Rate - Adjust Or Refund
This referral is produced when a premium payment is received and the excess premium amount on the MIRTEL master exceeds one month’s premium. The MU must determine if the premium payment prior to this one was handled correctly. Generally, ALERT 2675 will have been produced before this reject. Prepare a MEDCOR Activity 20 to remove the excess premium amount on the MIRTEL/MOLI record and refund any amount due using the Medicare Payment System (MPS). Or, apply the current premium payment by preparing a MEDCOR Activity 20.

1420 – Premium Payment Reject – Unable to Compute – PTD Prior to History
This reject is produced when the system is unable to adjust the paid thru date. There is either no paid thru date or an old paid thru date on the MIRTEL/MOLI record. Verify that the paid thru date on MIRTEL/MOLI is correct and prepare a MEDCOR Activity 20 to advance the paid thru date.

1450 - Premium Billing Reject - SMI Rate Not Found In Table
This reject is generally produced when the SMI premium rate is a variable rate. Determine if the variable rate is correct, and if so, manually prepare and release a Form
RL-800/G-800. Form RL-800/G-800 is on RRAILS. If the premium related data is not correct, refer the case to P&S – PAS.

1451 - Premium Billing Reject - Invalid Delinquency Date

This reject is produced when an incorrect delinquency date prevents the premium bill from being generated. The MU must review the record and either terminate the Part B coverage or correct the delinquency date. A premium due notice is not generated.

1452 - Premium Billing Reject - Billed Amount Exceeds $999.99

Verify that the bill is correct. If not correct, prepare a MEDCOR Activity 20 to adjust the paid thru date.

1453 - Premium Billing Reject - Unable To Compute

This reject is produced when MIRTEL contains premium payment data and the correct premium due amount cannot be calculated. The MU must determine the correct information and prepare a MEDCOR Activity 20 to correct the MIRTEL/MOLI record. If premium billing is required, advance the delinquency date. A premium due notice is not generated.

2412 - (Alert) - Premium Payment - Possible Refund

Check for any premium payments due the beneficiary. Refund any excess amount using the Medicare Payment System (MPS).

2415 - (Alert) - Premium Payment Received - Check Accounts Receivable

This referral is produced when premiums are received after Part B coverage has been terminated with an arrearage due.

1. Letter released to beneficiary and full payment is received before the PAR record is set up. - Reverse the Part B termination.

2. Letter released to beneficiary and full payment is received after the PAR record is set up. - Contact the beneficiary to see if he or she wants Part B coverage.

Update the Medicare record accordingly. - Properly close out the PAR record.

2416 - (Alert) - Premium Payment - Change In Third Party Code

This referral should no longer be generated. If it is, notify Policy & Systems – PAS to investigate.

2417 - (Alert) - Premium Payment Applied To Month(s) Prior To Previous Catastrophic Effective Date On MIRTEL
This referral is produced when the premium payment covers month(s) prior to the previous catastrophic effective date. MIRTEL applied the payment but is unable to determine the rate(s) for the prior period. Verify the rates and that the payment was correctly applied.

2418 - (Alert) - Premium Billed For Months Prior To Previous Catastrophic Effective Date On MIRTEL

This referral is produced when premiums are due for a period prior to the previous catastrophic effective date on MIRTEL, and MIRTEL cannot verify the amount of premiums due. The MU must determine the correct amount of premiums due. Manually prepare a Form RL-800/G-800.

2419- (Alert) – Premium Payment Due is Zero – No Bill Was Generated

Verify that the premium payment data on MIRTEL/MOLI is correct. If correct, no action is necessary.

2420 – (Alert) – Terminated for Non-Payment

When Part B coverage is terminated for non-payment of premiums, an accounts receivable record is established on the Program Accounts Receivable (PAR) System. Notice of premiums due after termination is released by PAR when the appropriate Text Type is entered. Refer to RCM 3.12.1 for instructions on establishing records on PAR.

The PAR record should be reduced upon receipt of a remittance by the amount of the current payment. If the receivable will be refunded on a recurring basis, an installment billing record must be established on PAR. Monthly billing notices are released until the entire balance is paid.

2675 - (Alert) - Premium Payment Yields Paid Thru Date Past December-Check Excess Premium

This referral is produced when the amount of the payment would extend the paid through date past December. Since MIRTEL cannot do this, the part of the payment that would extend the paid thru date past December was put into the excess premium and was deposited into the Part B Aged account. The MU should determine why this amount was paid. The payment might have been intended to also pay a spouse’s or other family member’s premium. Advance the paid through date for the proper enrollee. Transfer the premium to the correct fund and remove the excess premium amount. The excess amount must be removed from the MIRTEL/MOLI record in order for a premium due notice to be generated.

2676 - (Alert) - Premium Payments - Excess Premium Exceeds $99.99

MIRTEL cannot record any excess premium amount of more than $99.99. Determine both the correct amount of the excess premium and why the amount was paid. See ALERT - 2675.
D. Handling G-800 Edit Reject Referrals

The vendor for the Medicare Premium Lockbox transmits a daily file electronically to the RRB. This file contains Medicare Part B premium payments that were processed with an accompanying G-800 coupon.

The vendor manually inputs the scan line data from the G-800 and the actual payment amount received. The G-800 premium payment edit reject referral (approximately 8 ½ inches x 5 ½ inches in size) is generated when the G-800 scan line information is not keyed correctly for any particular premium payment. This means the payment rejected from file edits and cannot be sent to MIRTEL for processing.

The G-800 paper edit reject referrals are delivered to the Medicare and Payment Services Section (MPSS) by Computer Operations. The Senior Assistant to the Chief of MPSS (SACM) will refer the G-800 edit reject referrals to the MU examiner for adjudication.

The MU examiner will adjudicate the G-800 reject referral as follows:

1. Review the G-800 edit reject referral to identify the error. Each G-800 edit reject referral identifies the error that prevented the payment from processing mechanically through MIRTEL.

2. Use MOLI to verify the correct beneficiary who should receive credit for the payment shown on the G-800 edit reject referral. Generally, the RRB claim number reflected on the referral is correct. Complete a MEDCOR Activity 20 to update the paid through date, delinquency date, and any excess premium amount, if applicable for the beneficiary. Use the “amount paid” on the edit reject referral to determine the beneficiary’s new paid through date and any excess premium amount applicable. Sometimes, MMAC records and MEDDAR/MEDMAR reports may need to be checked to look for previous activities that may be pertinent to the investigation of the rejected premium payment.

Below is a list of the possible G-800 edit reject referral messages and how to handle each type of referral:

   BENEFICIARY IDENT DISCREPANCY - Check MOLI to determine the correct beneficiary symbol for the payment. Update the MIRTEL/MOLI record that has the correct beneficiary symbol according to the “amount paid” shown on the G-800 edit reject referral.

   PREFIX ERROR - Check MOLI to determine the correct prefix for the payment. Update the MIRTEL/MOLI record that has the correct prefix according to the “amount paid” shown on the G-800 edit reject referral.
RRB CLAIM NUMBER DISCREPANCY – Contact P&S for assistance in securing the correct claim number if the claim number cannot be found on MOLI. Send an e-mail to the P&S Inquiry Group Mailbox.

TYPE OF BENE ERROR – Find the correct beneficiary on MOLI. If the type of beneficiary code on the G-800 reject referral does not match the “TYPE OF BEN” code as shown on the MOLI General Data (GD) screen for the beneficiary, this is the reason for the reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

SEX CODE ERROR - Find the correct beneficiary on MOLI. If the sex code on the G-800 edit reject referral does not match the “SEX” code on the MOLI GD screen for the beneficiary, this is the reason for the reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

DATE OF BIRTH ERROR - Find the correct beneficiary on MOLI. If the date of birth on the G-800 edit reject referral does not match the “HI DOB” on the MOLI GD screen, this is the reason for the reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

RECORD TYPE ERROR – Find the correct beneficiary on MOLI. If the record type on the G-800 edit reject referral does not equal ‘0’, ‘1’, ‘2’, or ‘3’, this is the reason for the reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

AMOUNT DUE DISCREPANCY – Find the correct beneficiary on MOLI. If the amount billed as shown on the G-800 edit reject referral is not in correct numerical format, this is the reason for the reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

3RD PARTY ERROR - Find the correct beneficiary on MOLI. This code is not currently used. If the code is keyed into the BANKFILE record as anything other than ‘00’, the premium payment will reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

ACCR DEL CODE ERROR - Find the correct beneficiary on MOLI. This code is not currently used. If the code is keyed into the BANKFILE record as anything other than ‘0’, the premium payment will reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.
**RCM 3.10**

**PSUEDO ERROR** – A pseudo number error may be caused by the vendor keying in the data in an incorrect numerical format or simply, incorrect numbers not associated with the beneficiary may be keyed in as the pseudo number. Find the correct beneficiary on MOLI using the railroad claim number reflected on the G-800 reject referral. If a match on MOLI cannot be found through the railroad claim number, then access DATA-Q and/or PREH by the railroad claim number to find the beneficiary’s SSN or correct pseudo number for access to the correct beneficiary on MOLI. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

**BILL PROCESS DATE ERROR** - Find the correct beneficiary on MOLI. If the date that the bill was created is not keyed in as a proper date, the premium payment will reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

**AMOUNT PAID ERROR** – Find the correct beneficiary on MOLI. If the amount paid as shown on the G-800 edit reject referral is not in correct numerical format, this is the reason for the reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

**PROCESS DATE ERROR** - Find the correct beneficiary on MOLI. If the date that the premium payment was processed by the vendor is not keyed in as a proper date, the premium payment will reject. Update the MIRTEL/MOLI record according to the “amount paid” shown on the G-800 edit reject referral.

Once the referral is adjudicated, the screen print of the referral, the MOLI Direct Bill (DB) screen, any ECP screen prints, and the MEDCOR activity screen print showing the adjudicated action should be packaged and notated with the form type, PREMIUM PAYMENT for imaging per RCM 3.10.11.

**3.10.30 Retention of Accounting Documents**

Payment lists and credit listings, for both daily and third party payments, should be retained for at least one full fiscal year (October through September) after the fiscal year of processing. For instance, a payment listing produced in October 2002 should not be scheduled for storage until the fiscal year 2005 (October 1, 2004 through September 30, 2005). Photocopies of checks, third party bills, etc., may be destroyed when the payment and credit listings are sent to storage.

The payment and credit listings will be stored in accordance with item 5, RRB Records Schedule 10.
### 3.10.40 Part B Premium Funds Transfers

A. The chart below identifies funds transfers involving Part B premiums.

<table>
<thead>
<tr>
<th>Type of Action/Reason for Transfer</th>
<th>FORM USED</th>
<th>WHO DOES THE TRANSFER</th>
<th>RCM REFERENCE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Premiums deducted from monthly “Check Issue” transferred to CMS</td>

<td>3.10.43</td>
</tr>
</tbody>
</table>

B. Transfers are generally made between the following trust funds or accounts:

**Social Security Administration**

Agency Location Code 28-04-0001

<table>
<thead>
<tr>
<th>Social Security - OASI Trust Fund</th>
<th>28-28x8006</th>
</tr>
</thead>
<tbody>
<tr>
<td>Social Security - DI Trust Fund</td>
<td>28-28x8007</td>
</tr>
</tbody>
</table>

**Centers for Medicare and Medicaid Services**

Agency Location Code 75-05-0080

<table>
<thead>
<tr>
<th>Federal Hospital Insurance Trust Fund</th>
<th>75x8005</th>
</tr>
</thead>
<tbody>
<tr>
<td>Federal Medical Insurance Trust Fund</td>
<td>75x8004</td>
</tr>
<tr>
<td>Medical Insurance Premiums-Aged</td>
<td>75x8004.5</td>
</tr>
<tr>
<td>Medical Insurance Premiums-Disabled</td>
<td>75x8004.7</td>
</tr>
</tbody>
</table>

**Railroad Retirement Board**

Agency Location Code 60-00-9301

<table>
<thead>
<tr>
<th>Social Security Equivalent Benefit Account</th>
<th>60x8010</th>
</tr>
</thead>
<tbody>
<tr>
<td>Railroad Retirement Account</td>
<td>60x8011</td>
</tr>
<tr>
<td>Social Security - Aged Trust Fund</td>
<td>60x8011(6)</td>
</tr>
<tr>
<td>Social Security - Disabled Trust Fund</td>
<td>60x8011(7)</td>
</tr>
<tr>
<td>RUIA Trust Fund</td>
<td>60x8051.01</td>
</tr>
</tbody>
</table>
Part B fund transfers involving premiums deducted from railroad retirement annuities are made between the Social Security Equivalent Benefit (SSEB) account (60x8010) and the applicable Part B account (75x8004.5) or (75x8004.7).

### 3.10.41 Processing the Death Transfer Listing

The Death Transfer listing is produced monthly. The listing identifies cases involving deduction of Part B premiums from payments which were not due the beneficiary because of death.

**Example:** A beneficiary dies on 10-31-2009. The RRB is notified of the death on 11-02-2009, and enters an October 2009 Term date with a death code of “01” on CHICO (DATA-Q). The termination is entered too late to stop the release of the payment dated 11-01-2009. The 11-01-2009 check had a premium deduction of $96.40 that was transferred to CMS. The RRB needs to take action to transfer the $96.40 back to the RRB trust fund.

The Direct Deposit Specialist must complete a Form SF-1081 each month to transfer premiums in cases shown on the Death Transfer listing from the proper Part B trust fund to the proper RR or SSA trust fund. The amounts and the trust funds involved in the transfers are broken down on 5 separate listings: (Note: The listings only show cases where the benefit went immediately from being in current pay status to being terminated with a death code (01 for EEs, 41 for survivors, 51 for spouses). If a suspension or a termination code other than death immediately precedes the death code in the TERM-SUSP-CAUSE-CODE field of PREH’s 3277 screen, then MIRTEL will produce a 2224 referral (ALERT - PAID THRU DATE AFTER DOD - CHECK FOR POSSIBLE REFUND). The MU examiners process the 2224 referral.)

<table>
<thead>
<tr>
<th>PART B TRUST FUND</th>
<th>RR OR SSA TRUST FUND</th>
</tr>
</thead>
<tbody>
<tr>
<td>SMI AGED (75X8004.5)</td>
<td>RR SSEB ACCOUNT (60X8010)</td>
</tr>
<tr>
<td>SMI DIS (75X8004.7)</td>
<td>RR SSEB ACCOUNT (60X8010)</td>
</tr>
<tr>
<td>SMI AGED (75X8004.5)</td>
<td>SSA OASI ACCOUNT (28-28X8006)</td>
</tr>
<tr>
<td>SMI DIS (75X8004.7)</td>
<td>SSA DIS ACCOUNT (28-28X8007)</td>
</tr>
</tbody>
</table>

Each listing contains the following fields:

<table>
<thead>
<tr>
<th>FIELD</th>
<th>EXPLANATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>RR Claim No</td>
<td>Self-explanatory</td>
</tr>
</tbody>
</table>
The total of the amounts to be transferred for each listing are located on the last page of the listing in the "AMT TO BE TRANSFERRED" field. The Direct Deposit Specialist takes action to adjust this amount based on the investigation of the cases with an entry in the CD field.

The Direct Deposit Specialist will follow the steps below to investigate those cases.

1. Find the cases with a letter in the CD field.

2. Find the DOD on MOLI. Remember to search MOLI under the beneficiary’s own SSA number (GD-3) to find pseudo numbers.
   - If the DOD on MOLI matches the date in the TERM DT field, no action is necessary.
   - If the DOD on MOLI is earlier than the TERM DT, move to step 3.
   - If the DOD on MOLI is later than the TERM DT, move to step 4.
   - If there is no DOD on MOLI, move to step 5.

3. Line out the TERM DT and write in the DOD that appears on MOLI. Determine how much more needs to be transferred by adding the premium amounts deducted from the month after the DOD on MOLI through the TERM DT. To verify the premium rate for the months in question, check the rate deducted for those months in the SMI-PREM-AMT field on PREH. Write the additional amount next to the amount on the listing.
Example: The listing has a TERM DT of 06/2009 and an ACCTG DT of 07/2009. The listing indicates $96.40 needs to be reimbursed. Because the CD field has an “A”, a MU staff member needs to verify if $96.40 is the correct amount. MOLI has a DOD of 01/2009. PREH’s 3277 screen indicates $96.40 was deducted for 02/2009 (the month after the DOD on MOLI) through 06/2009 (TERM DT) totaling $482.00. Write $482.00 next to the $96.40 on the listing.

4. Line out the TERM DT and write in the DOD that appears on MOLI. If the later DOD on MOLI equals the ACCTG DT, then no money should be transferred. Write a minus sign in front of the amount on the listing.

If the DOD on MOLI is later than the TERM DT, but before the accounting date, add the premiums deducted from the TERM DT month to the month before the DOD on MOLI. To verify the premium rate for the months in question, check the rate deducted for those months in the SMI-PREM-AMT field on PREH. Write the sum with a minus sign next to the amount on the listing.

Example: The listing has a TERM DT of 01/2009 and an ACCT DT of 06/2009. The listing indicates $480 needs to be reimbursed. Because the CD field has an “A”, a MU staff member needs to verify if $480 is the correct amount. MOLI has a DOD of 03/2009. PREH’s 3277 screen indicates $96.40 was deducted from 01/2009 (TERM DT) through 02/2009 (the month before the DOD on MOLI) totaling $192.80. Write “-192.80” in front of the amount on the listing.

5. If there is no DOD on MOLI, check PREH’s 3277 screen. If there is no death code in the TERM-SUSP-EFF-DT field, then the beneficiary is alive. Write a minus sign in front of the amount on the listing. If there is a death code, make no change to the amount on the listing.

6. Add up the changes that were noted on the listing. Add that total to the amount in the “AMT TO BE TRANSFERRED” field on the last page of the listing.

NOTE: If the listing has duplicate claim numbers subtract the amount for one of the claim numbers and adjust the amount on the other claim number if necessary.

In the past, five SF-1081 forms would be completed to transfer funds from the CMS to the SSA or the RRB trust funds. Since the RRB cannot IPAC monies that do not involve a RR fund, the two Forms SF-1081 transferring funds from the CMS to the SSA were mailed to the SSA for processing. To make the process more efficient and enable the RRB to IPAC all amounts on the Forms SF-1081, the RRB now completes one Form SF-1081 to transfer all the adjusted amounts (including the amounts due SSA) in the “AMT TO BE TRANSFERRED” fields to the RRB trust funds (60X8010, 60X8011.6, 60X8011.7). The Direct Deposit Specialist will then complete one Form SF-1081 to transfer the amounts due the SS accounts from the RRB trust funds.

Follow the instructions in the table below to complete the Form SF-1081 to transfer all premiums to the RRB accounts:

</table>
When the forms are returned by a Certifying Officer, print 3 copies and distribute as follows:

- Deliver the original signed copy and 2 photocopies to the BFO-Accounting Section incoming tray.

Keep the other copy and file it in the Death Transfer folder.

3.10. 42 Processing PAR Report 46393, Page 13 of MIRTEL Statistics and Premium Payments Credited Worksheet

The lockbox deposits all premiums collected, whether for arrearages or for current direct bill payments, into the Part B aged account. The RRB must identify how much of the premiums deposited in the Part B aged account should be in the Part B disability account and then fax the information to CMS on form G-286.

- PAR Report 46393 (UNPAID PREMIUMS-DIS) identifies the amount of premiums to be transferred from the Part B aged account to the Part B disability account for premiums collected and credited to PAR for arrearages.

- Page 13 of the Monthly MIRTEL Statistics, Item 13-25 identifies the amount of premiums to be transferred from the Part B aged account to the Part B disability account for premiums collected and credited mechanically (G-800) to advance the MIRTEL paid thru date. NOTE: This information is not available yet.

- Premium Payments Credited Worksheet on “O” drive identifies the amount of premiums to be transferred from the Part B aged account to the Part B disability account for premiums collected and credited manually by the MU (MEDCOR Activity 20) to advance the MIRTEL paid thru date.

Follow the instructions below to complete Form G-286.

1. Get PAR Report 46393 and page 13 from the Monthly MIRTEL Statistics for the month the premiums are being transferred. If the MU does not have the reports call P&S for the PAR report and the SACM for the MIRTEL statistics.

2. Go to the “O” drive to get the total amount of premiums credited to disability cases for the month.

3. Follow the steps in the chart below to complete the G-286

3.12.1 Introduction

The Federal Financial System (FFS) is an integrated financial management system designed specifically for federal agencies. FFS enables agencies such as the Railroad Retirement Board to comply with federal laws and regulations in tracking and accounting of revenue. FFS is maintained by the Bureau of Fiscal Operations.

The Program Accounts Receivable (PAR) system is a subsystem of FFS. Through the establishment and maintenance of tables and documents in PAR, an accounts receivable record for each overpaid beneficiary under the Railroad Retirement Act, the Railroad Unemployment Insurance Act and the Medicare program is created. Input of specific information into PAR allows the system to address a variety of operational and administrative functions. PAR provides for:

- Automated tracking and maintenance of accounts receivables that originate from uncollected Medicare premiums, Medicare Part A and Part B benefit overpayments and equitable relief enrollments.
- Automated billing and follow-up functions, including installment bills.
- Automated processing of cash receipts and maintenance of accounts receivable offset information.
- Semi-automated referral of uncollectible receivables to other agencies for collection.
- Reports concerning activities within the accounts receivable area.

3.12.2 Operation Of PAR

Medicare arrearages and benefit overpayments are recorded and tracked in PAR. Data entry, approval and scheduling are done on-line.

PAR includes a variety of on-line processes for maintaining receivable records after they have been entered into the system. Current balances are available along with a history of recovery actions. Tables exist which track the printing and release of follow-up letters and recovery by partial or full withholding. Information contained in PAR can be viewed by both headquarters and field office personnel.

PAR maintains three types of screens:

- Table and Document Input screens which contain billing information and are updated by DRD and MS staff;
- Reference Tables which define valid codes used for editing billing data and for reporting; and,
• System Maintained Application Tables which contain data that has been processed by application programs.

Billing and cash receipt data is constantly entered into the Table and Document Input Screens. Valid entries update the appropriate System Maintained Tables. The Reference Tables are more static in nature but are still maintained on-line.

• Table and Document Input Screens
• Billing Document Input Screen (BD)
• Case Receipt Document Input Screen (CR)
• Installment Billing and Payment Table (INBT)
• Waiver of Recovery Table (WAIV)
• Recurring Cash Receipt Table (RECR)
• Cash Collection Input Table (CCIT)
• Write-Off Table (WROT)
• Reference Tables
• Type of Overpayment Table (TYOP)
• Cause of Overpayment Table (CAUS)
• Source Table (SRCE)
• Action Out Table (ACTO)
• PAYOR/Debtor Information Table (PDIT)
• PAYOR Table (PAYR)
• Uncollectible (UNCL)
• System Maintained, Application Tables
• Accounts Receivable Case History Header Table (ARCH)
• Accounts Receivable Case History Line Table (ARCL)
• Accounts Receivable Header Table (ARHT)
• Accounts Receivable Line Table (ARLT)
• Cash Receipt Line Table (CRLT)
• Cash Receipt Header Table (CRHT)
• Action Out Cross Reference Table (AOXR)

Detailed instructions for data entry to each of these tables are contained in appropriate sections of this procedure. Before this information is presented, however, a general review of table screen layouts is presented.

**General Screen Description**

Each screen used to update a table can be divided up into four distinct components.

• An Action Line
• Table Name and Key Fields
• Table Data
• Error Message Area

The Action Line at the top of each screen is used to scan or maintain data in each table and consists of a Screen Action, Table I.D. and USER I.D./Password. The Screen Action on this line defines the kind of processing action desired on each table. Three types of actions are available:

• Data Retrieval Actions
  • S - To Scan the table based on key fields
  • G - To Get a specific record based on key fields

• Data Maintenance Actions
  • A - To Add data to the table
  • C - To Change non-key fields in a table
  • D - To Delete data from the table
• Session Control Actions

• N - To go to the Next table identified in the Table I.D. field

• E - To End the session

• L - To Leaf to the same record on another table with the same key fields

• P - To interrupt or Pause a table session. This command allows you to return to the specific record previously in use without scanning.

The Table I.D. field defines the unique four character identifier for the table. It is always shown when a screen is displayed. This field is only changed when the user wants to move from the current table to another table. In this case, the user enters a Screen Action of 'N' followed by the table I.D. of the table to which user wants to go to. The USER I.D. and password are always required before any action can be taken on a table. The four character USER I.D. is displayed while the Password remains hidden.

The second component of all table screens is the table name and key fields. The key fields define what fields need to be specified in order to take a certain action on the table. For the Scan (S) action, a partial key can be specified. This will cause scanning of the records on a table to occur at the first instance that the key is matched. For maintenance (A, C, D) actions, the entire key must be specified.

The third part of each screen is the actual table data. For some tables each screen may consist of multiple records. The last component of each screen is the Error Message Area where error messages are shown when invalid actions are taken on a table.

The first step in creating a PAR accounts receivable record is to establish two identification and information tables. These are the PAYOR (PAYR) and the PAYOR debtor information table (PDIT). Completing these two tables creates a unique identifier for the individual PAYOR/debtor involved and each overpayment attributed to that individual.

To enter overpayment and recovery information requires the creation of a document. Each document consists of three different entry screens called the startup screen, input screen and line screen. Overpayment and recovery information is entered on-line and then edited for errors. After the edits are completed, the document is placed in a hold status on a suspense file. The document will remain on the suspense file until all detected errors are corrected and it is approved and scheduled for processing.

3.12.3 PAR System Sign On Procedure

The PAR system is a separate database that contains information on debts and overpayments owed under the Railroad Retirement Act, Railroad Unemployment Insurance Act and the Medicare program.
From your TPX menu screen, select PAR – PAR Production System under the Sessid field. The Program Accounts Receivable System Initial Screen will appear. The cursor will be positioned in the command line. Complete the following steps to access PAR tables.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter the number “1” in the command line and press enter. The PAR FFS1 TABLEID screen will appear.</td>
</tr>
<tr>
<td>2</td>
<td>The ACTION field is prefilled with the letter “H”. Type the letter “N” over the “H”. Your cursor will move to the “TABLEID” field. Enter the PAR table ID you want to view or update. Press enter. Your cursor will appear in the ACTION field of the PAR TABLEID you selected.</td>
</tr>
</tbody>
</table>

### 3.12.4 Establishing An Accounts Receivable Record

When an arrearage, Medicare Part A and B benefit, or option enrollment overpayment has been identified, an open accounts receivable record is established in PAR by creating a billing document. The steps for creating a billing document are shown below. These screens must be completed in the order in which they are listed.

- PAYOR TABLE (PAYR) screen.
- PAYOR/DEBTOR INFORMATION TABLE (PDIT) screen.
- Suspense File (SUSF) screen.
- BILLING DOCUMENT INPUT screen.
- BILLING DOCUMENT LINE screen.

Note: The PAYOR TABLE (PAYR) is a permanent record of the individual from whom RRB is requesting repayment of an open receivable. Once a PAYOR TABLE has been established for an individual, it does not have to be reestablished for each additional receivable identified. If a PAYOR TABLE already exists, begin with the PAYOR/DEBTOR INFORMATION TABLE.

Be sure that all other applicable Medicare actions have been completed and required file documentation made before establishing a PAR system record.
### 3.12.5 Completing The Payor Table (PAYR) Screen

**A. Accessing the PAYR Screen** - Once you have successfully signed on to the PAR system, access to the PAYR screen is accomplished as follows:

- Type “N” in the action field; your cursor will move to the “TableID” field.
- Type “Table ID PAYR”.
- Press ENTER.
- A blank PAYOR TABLE screen will appear.

**B. Completing the PAYR Screen** - Make the following entries next to or below the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields and will move through the screen in order as data entry fields are completely filled. Use the tab key to advance past all fields not specifically referred to here.

<table>
<thead>
<tr>
<th>Field ID</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>When the PAYR screen is accessed, the cursor will be positioned in the ACTION field on the action line of the screen.</td>
</tr>
<tr>
<td></td>
<td>• The ACTION field will be prefilled with an S, which signifies Scan Record.</td>
</tr>
<tr>
<td></td>
<td>• Type A for Add Record over the S.</td>
</tr>
<tr>
<td></td>
<td>• The cursor will advance to the TABLEID field.</td>
</tr>
<tr>
<td>TABLEID:</td>
<td>The TABLEID field will contain the correct table code NAME. Use the TAB key to advance to the next USER ID field.</td>
</tr>
<tr>

<td>Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the ACCOUNT NUMBER field.</td>
</tr>
<tr>
<td>ACCOUNT NUMBER:</td>
<td>Enter the RRB claim NUMBER. Precede serial claim numbers with zeros. Do not begin with the prefix. The 10th position of the ACCOUNT NUMBER is used to identify the prefix. Following the claim number, enter the</td>
</tr>
<tr>
<td></td>
<td><strong>prefix for this RRB claim number. The last position is a counter. Enter the appropriate sequential number that reflects the total number of records on this ACCOUNT NUMBER. The cursor will advance to the DEBTOR NAME field.</strong></td>
</tr>
<tr>
<td>-------</td>
<td>--------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>DEBTOR NAME:</td>
<td>Enter the name of the individual to whom the letter is being sent. A maximum of 30 characters can be entered in this field. If all positions are used, the cursor will advance to the next field. If fewer than 30 characters are entered, use the TAB key to advance to the add line 1 field.</td>
</tr>
<tr>
<td>NOTE:</td>
<td>This field may contain an employee's, spouse's, widow's or representative payee's name. This field may contain a title such as Adm: Valley Nursing Home. It may contain the name of an individual who notified RRB of the death of an annuitant, or contain &quot;Family or Friends&quot; in cases where contact is unknown.</td>
</tr>
<tr>
<td>SPECIAL SITUATIONS:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Development. In cases where development or investigative action is being taken to determine who is responsible for repayment, enter DEVELOPMENT in this field.</td>
</tr>
<tr>
<td>ADDR LINE 1:</td>
<td>Enter the first line of the address where the letter is being sent. <strong>DO NOT</strong> enter a group mark. In representative payee situations, <strong>DO NOT</strong> enter FOR and the annuitant's name on this line. In Family and Friends situations, <strong>DO NOT</strong> enter OF and the deceased annuitant's name on this line. A line is provided on the PDIT screen for this entry. A maximum of 30 characters can be entered in this field. Use the TAB key to advance to the PAYOR type field.</td>
</tr>
<tr>
<td>EXCEPTION:</td>
<td>If DEVELOPMENT was entered in the DEBTOR NAME field, enter an asterisk (*) in the first position of this field. Use the TAB key to advance to the PAYOR type field.</td>
</tr>
<tr>
<td>PAYOR TYPE:</td>
<td>Always enter an A in this field. The cursor will advance to the ADDR line 2 field.</td>
</tr>
<tr>
<td>ADDR LINE 2:</td>
<td>Enter the remaining portion of the address where the letter is being sent. A maximum of 30 characters can be entered in this field. If this line is not needed to continue</td>
</tr>
</tbody>
</table>
the address from ADDR LINE 1, make no entry in this field. Use the TAB key to advance to the ADDR line 3 field. **DO NOT** enter the city, state, and ZIP code on this line.

<table>
<thead>
<tr>
<th>ADDR LINE 3:</th>
<th>Enter the city, state and ZIP code where the letter is being sent.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>City</strong></td>
<td>Enter the city name in the first 19 positions of ADDR LINE 3. If all positions are used, the cursor will advance to the state field, otherwise use the TAB key to advance the cursor.</td>
</tr>
<tr>
<td><strong>State</strong></td>
<td>Enter the official state abbreviation. A complete list of abbreviations is shown in RCM 10.2, Appendix B. The cursor will advance to the ZIP code field of ADDR line 3.</td>
</tr>
<tr>
<td><strong>ZIP Code</strong></td>
<td>This field is designed for the ZIP+4 configuration. <strong>Only complete</strong> the first five positions. Use the TAB key to advance to the group bills field.</td>
</tr>
</tbody>
</table>

**EXCEPTION 1:** If DEVELOPMENT was entered in the DEBTOR NAME field, an asterisk (*) must be entered in the first position of the city, state and ZIP code fields. Use the TAB key to advance to the first position of each field.

**EXCEPTION 2:** For foreign address cases ONLY, enter the street address, city and province on ADDR LINE 1 and 2. Enter the country name in the first 19 positions of ADDR LINE 3. The first position of BOTH the state field and ZIP code field must contain an asterisk (*). Use the TAB key to advance to the first position of these fields after the country name has been entered.

**GROUP BILLS:** If this PAYOR will have multiple receivables on the same bill enter 'y', otherwise leave blank. Use the TAB key to advance to group dunn field.

**GROUP DUNN:** If this DEBTOR will have multiple receivables on the same bill enter 'y', otherwise leave blank. Use the TAB key to advance to the Provider Ind field.

**PROVIDER IND:** Always enter a B in this field, the cursor will return to the action field of the action line.

C. **Exiting from the PAYR Screen** - After completing the PROVIDER IND field, review the information you have entered on the PAYR screen to verify these
entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information.

1. **Establishing the PAYOR TABLE** - When all required entries have been completed and all information is correct, press ENTER. The message *LO30 ALL LINES ADDED will be displayed in the message area of the screen indicating the PAYOR TABLE has been established. In addition, the captions GROUP BILLS: and GROUP DUNN: will contain N's. These fields have been prefilled by the system, if they were left blank.

2. **Errors Detected** - If any errors are detected, or any required entries are not complete, an error or warning message(s) will be displayed in the message area of the screen. Refer to Appendix A of this chapter for a description of the problem and corrective action to be taken. Use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and complete the required entry or correct any entry as indicated. Continue to press ENTER and make any required corrections until the message *LO30 ALL LINES ADDED is displayed in the message area of the screen. It is important that all errors are corrected and all required entries are completed on the PAYR screen because subsequent screens are dependent on a PAYOR TABLE being established.

Once DEVELOPMENT action has been completed and the name and address of the individual responsible for repaying the debt has been determined, this information must be entered in the DEBTOR NAME, ADDR LINE 1:, ADDR LINE 2: and ADDR LINE 3: fields.

### 3.12.6 Completing The Payor/Debtor Information Table (PDIT) Screen

#### A. Accessing the PDIT Screen - After completing and entering the PAYR screen as described in RCM 3.12.5, the cursor will be positioned in the ACTION field on the action line of the screen. To access the PDIT screen:

- Type N for Next Screen in the ACTION field. The cursor will advance to the TABLEID field.

- Type PDIT in the TABLEID field.

- Press ENTER.

- A blank PAYOR/DEBTOR INFORMATION TABLE screen will appear.

#### B. Completing the PDIT Screen - Make the following entries next to or below the captions displayed on the screen. The cursor will place you in the first position of
each of the data entry fields and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>When the PDIT screen is accessed, the cursor will be positioned in the ACTION field on the action line of the screen.</td>
</tr>
<tr>
<td></td>
<td>• The ACTION field will be prefilled with an S, which signifies Scan Record.</td>
</tr>
<tr>
<td></td>
<td>• Type A for Add Record over the S.</td>
</tr>
<tr>
<td></td>
<td>• The cursor will advance to the TABLEID field.</td>
</tr>
<tr>
<td>TABLEID:</td>
<td>The TABLEID field will contain the correct table code NAME. Use the TAB key to advance to the user ID field.</td>
</tr>
<tr>
<td>USERID:</td>
<td>If you used the Next control command to access this screen from the payr screen, the USERID field will contain your PAR identification code and PAR password. (Your password will not be displayed on the screen.) Use the TAB key to advance to the ACCOUNT NUMBER field. Otherwise, you will need to enter your PAR identification code and PAR password. The cursor will advance to the ACCOUNT NUMBER Field.</td>
</tr>
<tr>
<td>ACCOUNT NUMBER:</td>

<td><strong>EOA:</strong> Enter an X in this field if the individual whose name and claim number entered in OTHER DEBTOR NAME #2 and OTHER PAYOR RRBCN #2 is entitled to an annuity on another railroad retirement account.</td>
</tr>
</tbody>
</table>

**C. Exiting from the PDIT Screen -** After completing the last required entry on the PDIT screen, review the information you have entered to verify these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information.
1. **Establishing the PAYOR/DEBTOR INFORMATION TABLE** - When all required entries have been completed and all information is correct, press ENTER. The message *L030 ALL LINES ADDED will be displayed in the message area of the screen indicating the PAYOR/DEBTOR INFORMATION TABLE has been established. The message *L030 ALL LINES CHANGED will be displayed if you were changing data as described in C3. In addition, the DEBTOR NAME: and PAYOR ADDR: fields completed on the PAYOR TABLE will now be displayed on this screen as well.

2. **Errors Detected** - If any errors are detected, or any required entries are not completed, an error or warning message(s) will be displayed in the message area of the screen. Refer to Appendix A of this chapter for a description of the problem and corrective action to be taken. Use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and complete the required entry as indicated. Continue to press ENTER and make any required entry as indicated. Continue to press ENTER and make any required corrections until the message *L030 ALL LINES ADDED is displayed in the message area of the screen. It is important that all errors are corrected and required entries are completed on the PDIT screen because subsequent screens are dependent on a PAYOR/DEBTOR INFORMATION TABLE being established.

3. **Changes Required** - If no errors are detected which prevent processing but changes are required in data contained on the PDIT screen, Follow the steps below to change the data entries:

   1. After accessing the PDIT screen, for the specific record, type C for change in the action field of the ACTION LINE.
   2. Use the TAB key to advance to the desired field(s).
   3. Type the desired data in the appropriate field(s).
   4. Follow instructions in C1.

   - Using the TAB key, position the cursor in the ACTION field on the action line of the PDIT screen.
   - Type E for EXIT in the ACTION field.
   - Press ENTER, the message "V2 ENTER NEXT TASK CODE" will appear.
3.12.7 Completing The Suspense File (SUSF) Screen

Following the completion of the PDIT screen as described in RCM 3.12.6, the next step in establishing an accounts receivable record is the completion of the Suspense File (SUSF) screen.

A. Accessing the SUSF Screen - To access the SUSF from any PAR screen, take the following actions:

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Position the cursor in the action field from any PAR table.</td>
</tr>
<tr>
<td>2</td>
<td>Type the letter “N”; the cursor will move to the “TABLEID” field.</td>
</tr>
<tr>
<td>3</td>
<td>Enter “SUSF”; the cursor will tab to the USER ID field.</td>
</tr>
<tr>
<td>4</td>
<td>Press enter. The SUSF Screen will appear.</td>
</tr>
</tbody>
</table>

B. Completing the SUSF Screen – Your cursor will appear in the “Action” field of the SUSF screen. Tab to the “Function” field and take the following steps to complete the SUSF table:

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter “New”</td>
</tr>
<tr>
<td>2</td>
<td>Tab to the “TRAN” field under the document ID.</td>
</tr>
<tr>
<td>3</td>
<td>● Enter B5. The cursor will advance to the DIVISION field.</td>
</tr>
<tr>
<td>4</td>
<td>● Enter 2500. The cursor will advance to the ID NUMBER field.</td>
</tr>
<tr>
<td>5</td>
<td>● Complete this field exactly as positions 3 through 13 of the BILLING DOC ID field on the PDIT screen. (This is the HI or pseudo number and beneficiary symbol and prefix code and counter.)</td>
</tr>
</tbody>
</table>
3.12.8 Completing The Billing Document Input Screen

A. Access the BILLING DOCUMENT INPUT Screen - Following completion and entering of the SUSF screen, the BILLING DOCUMENT INPUT SCREEN will appear as described in RCM 3.12.7.

B. Completing the BILLING DOCUMENT INPUT Screen - Make the following entries next to the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields beginning with the DOC DATE in the BILLING DOCUMENT INPUT section and will move through the screen in the following order. Use the tab key to advance past all fields not specifically referred to below. The first required entry will be in the TRANS TYPE field.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter the letter “E” in the action field. The cursor will tab to the “Trans Type Field.”</td>
</tr>
<tr>
<td>2</td>
<td>Enter one of the following two position codes depending on the type of accounts receivable record you are establishing. The cursor will advance to the ACTION field.</td>
</tr>
<tr>
<td></td>
<td><strong>If</strong></td>
</tr>
<tr>
<td></td>
<td>New Account</td>
</tr>
<tr>
<td></td>
<td>Reactivating a Debt</td>
</tr>
<tr>
<td></td>
<td>The cursor will move to the comments field.</td>
</tr>
<tr>
<td>3</td>
<td>If</td>
</tr>
<tr>
<td></td>
<td>Debtor is in current pay status</td>
</tr>
<tr>
<td></td>
<td>Debtor not in current pay status</td>
</tr>
</tbody>
</table>
4. Enter the total amount of the debt for the accounts receivable record you are establishing. You must use a decimal point and complete this entry to two decimal places. DO NOT use a dollar sign. Use the TAB key to advance to the bill print flag field.

**Note:** The Centers for Medicare & Medicaid Services requires a breakdown of Part B premium amounts between IRMAA and non-IRMAA. When establishing PAR records for arrearages involving both IRMAA and non-IRMAA premium amounts, additional entries are required on the Billing Document (BD) Line screen (see RCM 3.12.9). The BD Line screen allows for entry of a breakdown of the arrearage amount (Document Total).

5. Enter one of the following codes:

<table>
<thead>
<tr>
<th>If</th>
<th>Then</th>
</tr>
</thead>
<tbody>
<tr>
<td>Initial Notice</td>
<td>Y</td>
</tr>
<tr>
<td>No Notice</td>
<td>N</td>
</tr>
<tr>
<td>No Notice; all aging and referral aging processes applicable</td>
<td>S</td>
</tr>
</tbody>
</table>

The cursor will tab to the “Text Type Field”.

6. If Bill print flag is 'Y', enter one of the following two position codes to indicate the type of notice to be generated. (Be sure to make the corresponding entry on the Accounts Receivable Text Table (ARTX) after completing the billing document.) If special text is needed, see your supervisor. The cursor will tab to the “Dunning Flag” field.

<table>

</table>

**Examples**

**Example 1:** An enrollee’s current Part B premium of $93.50 is reduced to zero because of a $93.50 BIPA reduction applied to his Part B premium beginning January 1, 2007. RRB receives notice in July 2007 that the beneficiary disenrolled from the Medicare Advantage plan and is not entitled to a Part B premium reduction effective January 2007. RRB will take action to recover $654.50, i.e. the $93.50 reduction for January through July 2007. In this example, use text type:

   AA - If the enrollee is not receiving monthly benefit payments.
AB - If the enrollee is receiving a monthly payment that can be withheld to recover the arrearage.

These text types will give the enrollee the option to request a waiver of the past due premiums. The option to request waiver is offered because the premium arrearage of $654.50 is greater than 5 times $93.50 (or $467.50).

Note: When making retroactive adjustments to the Part B premium amount caused by a change in a BIPA reduction period or a change to the reduction amount, equitable relief must be considered. For equitable relief to apply, the total past due premium amount (premium arrearage) must be greater than 5 months’ premiums at the current base rate.

Example 2: An enrollee’s current Part B premium of $93.50 is reduced to $43.50 because of a $50.00 BIPA reduction beginning January 1, 2007. We collect premiums of $43.50 for January through April 2007. RRB receives notice in April 2007 that the beneficiary switched to a Medicare Advantage plan that does not offer a BIPA reduction effective January 2007. RRB will take action to recover $200.00, i.e. the $50.00 reduction for January through April 2007. In this example, use text type:

AC - If the enrollee is not receiving a monthly payment.

AD - If the enrollee is receiving a monthly payment that can be withheld to recover the arrearage.

These Text Types will not give the enrollee the option to request a waiver of the past due premiums. The option to request waiver is not offered because the premium arrearage of $200.00 is not greater than 5 times $93.50 (or $467.50).

Example 3: An enrollee’s Medicare Part B effective date is March 1, 2007. The RRB collected premiums of $124.40 ($93.50 for the basic rate and an IRMAA of $30.90) beginning March 1, 2007. The RRB receives information May 2007, that the enrollee’s IRMAA should be $67.90. In this example, the RRB will take action to recover $111.00, the difference between the initially collected IRMAA amount and the newly established IRMAA for the period of March 2007 through May 2007. In this example use text type:

AE – If the enrollee is not receiving a monthly payment.

AG – If the enrollee is receiving a monthly payment.

These text types will not give the enrollee the option to request waiver of the past due premiums. The option to request waiver is not offered because the premium arrearage of $111.00 is not greater than 5 times $161.40 (or $807.00).

Note: When making retroactive adjustments to the Part B premium amount caused by the addition of an IRMAA or by a change in the IRMAA amount,
equitable relief must be considered. Equitable relief is to be automatically extended if the past due IRMAA (premium arrearage) exceeds 5 times the current standard Part B premium plus the IRMAA.

**Example 4:** The RRB began collecting premiums of $138.10 ($113.50 for the basic rate and an IRMAA of $24.60) effective January 2009. (Please note that the basic premium and IRMAA amounts used in this example are not actual amounts.) The RRB receives information in November 2009 that the enrollee’s IRMAA for 2009 should be $203.70. In this example, RRB will take action to recover $1970.10, the difference between the initially deducted IRMAA amount of $24.60 and the newly established IRMAA of $203.70 for the period January 2009 through November 2009. In this example use text type:

AF - If the enrollee is not receiving a monthly payment.

AH - If the enrollee is receiving a monthly payment.

These text types will give the enrollee the option to request waiver of the past due premiums. The option to request waiver is offered because the premium arrearage of $1970.10 is greater than 5 times $317.20 (or $1586.00).

**NOTE:** The PAR CAUS TABLE contains a complete list of cause of overpayment codes, including those used by the Bureau of Budget and Fiscal Operations – Division of Debt Recovery (DRD) and Operations – Medicare Section (MS).

**Examples:**

**Example 1:** A beneficiary originally enrolled in a Medicare Advantage plan effective February 2006, that offered an $87.70 reduction in his Part B premium. Reduced Part B premiums of $.80 were withheld from the beneficiary’s monthly benefits effective with his February 1, 2006 payment. In May 2006, the RRB receives notice that the beneficiary switched his enrollment to a new Medicare Advantage plan that did **not** offer a Part B premium reduction. His enrollment in the new plan was effective April 1, 2006. We begin withholding unreduced Part B premiums of $88.50 effective with the beneficiary’s June 1 payment. A Part B premium arrearage of $175.40 (2 months at $87.70) is due from the beneficiary. Use Cause Code C21 when completing the Billing Document Input screen.

**Example 2:** We began collecting premiums of $105.80 ($93.50 for the basic rate and an IRMAA amount of $12.30) in January 2007. The RRB receives information from SSA in April 2007, that the enrollee’s IRMAA should be $30.90, rather than $12.30, beginning January 2007. In this example, we must recover
the monthly difference of $18.60 between the initially deducted IRMAA amount and the newly established IRMAA amount for the period of January through April 2007. Use Cause Code C22 when completing the Billing Document Input screen.

**Example 3:** We began collecting premiums in January 2007, at the basic rate of $93.50. In May 2007, we receive information from SSA that the enrollee must pay an IRMAA of $49.40 for all months in 2007. In this example, we must recover the IRMAA amount for the months January through May 2007. Use Cause Code C23 when completing the Billing Document Input screen.

C. **Exiting from the BILLING DOCUMENT INPUT Screen -** After completing the CAUSE OF OVERPAYMENT field, review the information you have entered on the BILLING DOCUMENT INPUT screen to verify these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information. When all information is correct, press ENTER. The BILLING DOCUMENT LINE SCREEN will appear.

### 3.12.9 Completing The Billing Document Line Screen

**Note:** When establishing PAR records for arrearages involving both IRMAA and non-IRMAA premium amounts, additional entries are required on the Billing Document (BD) Line screen in order to provide a breakdown of the Document Total entered on Billing Document Input screen. The BD Line screen allows for entry of a detailed breakdown of the arrearage amount (Document Total).

A. **Accessing the BILLING DOCUMENT LINE Screen -** Following completion and entering of the BILLING DOCUMENT INPUT SCREEN described in RCM 3.12.8, the BILLING DOCUMENT LINE SCREEN displayed below will appear.

B. **The MODE, DOCID and USERID fields on the action line of this screen will be prefilled from these entries you completed on the STARTUP screen.** Completing the BILLING DOCUMENT LINE Screen - previously entered on another screen or table. Each BILLING DOCUMENT LINE screen will accommodate entries for two overpayment types. Therefore, for an enrollee, several types of overpayments can be entered using the same BILLING DOCUMENT number. Repeat steps 1 – 7 if debtor has multiple debts.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Your cursor will be positioned in the Line No: field. Enter &quot;001.&quot; Or &quot;002&quot; if you are creating multiple debt entries. The cursor will</td>
</tr>
</tbody>
</table>
move to the amount field.

2 Enter the amount of debt using the decimal point for cents.

<table>
<thead>
<tr>
<th>If</th>
<th>Then</th>
</tr>
</thead>
<tbody>
<tr>
<td>If the debt is only for Part B.</td>
<td>Enter the amount entered on the Billing Document Input Screen.</td>
</tr>
<tr>
<td>If debt for Part B with IRMAA.</td>
<td>Enter the amount of Part B premiums owed without IRMAA.</td>
</tr>
</tbody>
</table>

Then tab to the “I/D” field.

3 “I/D” field. Use this field for reactivated or modified debts to increase or decrease the amount of the debt. Tab to the “Trans Type” field.

4 Tab to the “Type of Overpayment” field. Enter one of the following codes:

<table>
<thead>
<tr>
<th>Code</th>
<th>Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>520</td>
<td>SMIB Overpayment</td>
</tr>
<tr>
<td>530</td>
<td>Unpaid Premiums - Age 65</td>

</tr>
</tbody>
</table>
Each BILLING DOCUMENT LINE screen will accommodate entries for two overpayment types. Therefore, for an enrollee, several types of overpayments can be entered using the same BILLING DOCUMENT number.

If both sections of this screen must be completed, use the TAB key to advance the cursor from the ACTION OUT field in the top portion of the screen. The cursor will advance to the LINE NO field in the bottom portion of the screen. If multiple type overpayment exist, complete each entry on the lower portion of the screen as described for each caption above for more than two lines, press 'enter' after completing line two, otherwise follow instruction below.

C. **Exiting from the BILLING DOCUMENT LINE Screen** - After completing the TYPE OF OVERPAYMENT field, either in the top portion of the screen or at the bottom of the screen if both LINE NOS are completed, review the information you have entered on the BILLING DOCUMENT LINE screen to verify these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information.

### 3.12.10 Quick Edit Function

The Quick Edit function is used to edit entries you have completed on the BILLING DOCUMENT INPUT and BILLING DOCUMENT LINE screens. This function also signals the PAR System that all table and document screens required to establish an accounts receivable record have been completed.

A. **Beginning the Quick Edit Process** - Following your review of the BILLING DOCUMENT LINE screen and your determination that all required entries are complete and correct, Quick Edit is accomplished as follows:
• Position the cursor in the ACTION field on the action line of the screen.

• Type Q for Quick Edit in the ACTION field.

• Press ENTER.

B. Results of the Quick Edit Process - The PAR system always returns to the initial screen in a document screen series for display of edit, error or acceptance messages.

• The BILLING DOCUMENT INPUT screen will be displayed.

• The MODE field on the action line of the screen will contain a C indicating the system is in the correction mode.

1. No Errors Are Detected During Quick Edit - If all required entries on the BILLING DOCUMENT INPUT and BILLING DOCUMENT LINE screens have been completed and the system does not detect any errors, the DEBTOR NAME, ADDRESS, CITY, STATE and ZIP fields will be filled with entries you completed on previous screens. In addition, the following three messages will be displayed in the message area at the bottom of the BILLING DOCUMENT INPUT screen:

   • A -*CQ93 - DOCUMENT REJECTED

   • H -*FO53 - DOCUMENT NOT APPROVED

   • H -*S401 - READY FOR APPROVAL

   A printout of this screen should be filed on the left side of the folder.

   Route file to authorization.

2. Errors Are Detected - If any errors are detected during the Quick Edit process or any required entries are not complete, an error or warning message(s) will be displayed in the message area of the screen. Refer to Appendix A of this chapter for a description of the problem and corrective action to be taken. Use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and make the required corrections.

   The ACTION field on the action line of the screen may contain the letters EM. Because a maximum of six edit or error messages can be displayed on a screen, EM indicates there are additional edit or error messages for the screen you are viewing. To view the additional messages, press ENTER. The same screen with the additional edit or error messages will be displayed.
a. Moving from the BILLING DOCUMENT INPUT Screen to the BILLING DOCUMENT LINE Screen While Performing Quick Edit – Error messages always appear at the bottom of the BILLING DOCUMENT INPUT screen first. To check for any edit or error messages which may be displayed on the BILLING DOCUMENT LINE screen, or to make any corrections to the BILLING DOCUMENT LINE screen which are displayed on the BILLING DOCUMENT INPUT screen, press Enter.
b. Moving from the BILLING DOCUMENT LINE Screen to the BILLING DOCUMENT INPUT Screen While Performing Quick Edit - If it is necessary to return to the BILLING DOCUMENT INPUT screen from the BILLING DOCUMENT LINE screen while in the correction mode of Quick Edit:

- Position the cursor in the ACTION field on the action line of the screen.
- Press and hold down an alternate shift key (Alt),
- Press the cursor home key, ( ),
- Release the alternate shift key (Alt).
- Type NLO (zero) for Move to Top of Document in the ACTION field.

    NOTE: The third position of this ACTION command is numeric.

- Press ENTER. The Billing Document Input screen will again be displayed.

C. Exiting from Quick Edit - When all corrections have been made on both the BILLING DOCUMENT INPUT and BILLING DOCUMENT LINE screens, perform the Quick Edit function as described in section A. Continue to make all corrections and perform Quick Edit until the DEBTOR NAME, ADDRESS, CITY, STATE and ZIP, as well as the three messages described in section B1 are displayed on the BILLING DOCUMENT INPUT screen.

D. HOLDING THE BILLING DOCUMENT FOR APPROVAL

After the Quick Edit function has successfully been performed, the accounts receivable record you have completed must be held for approval. This is accomplished as follows:

- Position the cursor in the ACTION field on the action line of the screen
- Press and hold down an alternate shift key (Alt),
- Press the cursor home or rule key,
• Release the alternate shift key (Alt).

• Type H for Hold Document in the ACTION field.

• Press ENTER.

The STARTUP screen with the message A - CQ8H - DOCUMENT HELD shown in the message area of the screen will be displayed.

This completes the data entry position for the establishment of an initial accounts receivable record.

### 3.12.11 Approval Of The Billing Document

Before an accounts receivable record is actually processed and a billing document is established by the PAR System, the data entered on the BILLING DOCUMENT INPUT and BILLING DOCUMENT LINE screens must be approved by an authorizer. If any errors were detected in the calculation of the amount or the letter which requires correction, DO NOT approve or schedule the billing document. Return the folder to the claims examiner for correction of the PAR document screens, award and/or overpayment letter. Billing documents awaiting approval are housed in the SUSPENSE FILE TABLE (SUSF). Documents requiring approval are designated by the letters HELD in the STAT field and five zeros in the APPRV field on this table.

A. Accessing the SUSF Screen - To access the SUSPENSE FILE TABLE (SUSF) screen, take the following actions:

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Access PAR using instructions in 3.12.3.</td>
</tr>
<tr>
<td>2</td>
<td>Access the SUSF table using instructions in 3.12.7.</td>
</tr>
<tr>
<td>3</td>
<td>Under the Document ID “TRAN” field, enter “B5”. The cursor will move to the “ORGN” field.</td>
</tr>
<tr>
<td>4</td>
<td>Enter 2500. The cursor will move to the “Number” field.</td>
</tr>
<tr>
<td>5</td>
<td>Enter the numeric and alpha characters of the billing doc number you want to approve, and press enter. The SUSF screen will reflect the billing document ID you entered.</td>
</tr>
<tr>
<td>6</td>
<td>Press the “Home” key. Your cursor will move to the “Action” field.</td>
</tr>
</tbody>
</table>
7. Change the “R” to an “S”.

8. Press the Tab key until the cursor appears on the line of the billing document you wish to approve. Then press enter. The billing document input screen will appear.

B. **Approval Process** - Once the billing document requiring approval and scheduling is accessed and visible on the screen, take the following actions.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
</table>
| 1    | Review the billing document input screen for errors.  

<table>
<thead>
<tr>
<th></th>
<th>If</th>
<th>Then</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>BD Input Screen has errors.</td>
<td>Correct the errors and perform the Quick Edit function.</td>
</tr>
<tr>
<td></td>
<td>BD Input Screen does not have errors.</td>
<td>Go to step 2.</td>
</tr>
</tbody>
</table>

| 2    | Press enter; the billing doc line screen will appear. |
| 3    | Review the billing document line screen for errors.  

<table>
<thead>
<tr>
<th></th>
<th>If</th>
<th>Then</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>BD Line Screen has errors.</td>
<td>Correct the errors and perform the Quick Edit function.</td>
</tr>
<tr>
<td></td>
<td>BD Line Screen does not have errors</td>
<td>Go to step 4.</td>
</tr>
</tbody>
</table>

| 4    | Press the “Home” key. The cursor will move to the “COMMND” line. |
| 5    | Enter an “A” and press enter. Your cursor will remain on the |
C. Exiting an approved document.

Once the billing document has been approved, take the following actions:

1. Press the “Home” key. Your cursor will move to the “COMMND” field.
2. Enter the letter “E” in this field and press enter. You exit the billing document you approved.

### 3.12.12 Billing Document Corrections And Cancellations

It may be necessary to change or cancel an existing record because of incorrect information or the record was established under an incorrect document number. Use the following chart to determine if a Billing Document should be cancelled, Modified or Reduced by Cash Document:

<table>
<thead>
<tr>
<th>Situation</th>
<th>Corrective Action Required</th>
<th>Action Out Code Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Address/Name Incorrect</td>
<td>Modify Billing Document</td>
<td>None</td>
</tr>
<tr>
<td>Amount of Debt</td>
<td>Modify (Increase/Decrease)</td>
<td>Yes</td>
</tr>
<tr>
<td>Billing Document ID</td>
<td>Cancel (See Supervisor)</td>
<td>Never Cancel a Billing Document</td>
</tr>
<tr>
<td>No Debt Exist</td>
<td>Modify Billing Document</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Follow the steps below to modify or cancel a billing document as appropriate:

**Modifying a Billing Document** - Follow the steps below to modify a billing document when existing information must be changed.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Access the SUSF screen using the instructions in 3.12.7.</td>
</tr>
</tbody>
</table>
3 Press the “Tab” key. Your cursor will move to the “Trans Type” field.

4

<table>
<thead>
<tr>
<th>If</th>
<th>Then</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reactivating a debt.</td>
<td>Enter “SU”.</td>
</tr>
<tr>
<td>Modifying an existing debt.</td>
<td>Do not make an entry. Leave this blank.</td>
</tr>
</tbody>
</table>

5 Press the “Tab” key. Your cursor will move to “Document Total” field.

6 Enter the amount of the debt you are reactivating.

7 Press the “Tab” key until you reach the “Dunning Flag” field.

8 Enter “N”. Your cursor will move to the “Account Number” field.

9 Enter the “Account Number” as it appeared on the history table. Press enter. Your cursor will appear on the line screen “Line NO:” field.

10 Enter “001”. Your cursor will move to the amount field.

11 Enter the same dollar amount entered on the BD input screen. Your cursor will move to “I/D” field.

12 Enter the letter “I” if you are increasing the debt. Enter the “D” if you are decreasing the debt.

13 Press the “Home” key.

14 Perform the Quick Edit function.

15 Press the “Home” key

16 Enter the letter “H” to place the document on hold.

17 Enter the letter “E” to exit the document.
3.12.13 Using PAR to Generate Letters

The PAR system provides for automatic generation of notices called Bills and Dunnings both one time and recurring. By selecting certain options on user maintained tables you can determine the type of notices to be generated. This chapter discusses the following types of system generated notices.

1. Initial notice
2. Installment Bill

A. Initial Arrearage Notices

To use the initial notice function on PAR, the 'Bill Print Flag' on the billing document input screen (3.12.8) must be set to 'Y'.

You must then select the type of text you want printed on the notice by making the appropriate entry in the 'Text Type' field of the same screen. A Corresponding entry is also required on the Accounts Receivable Text Table (ARTX). An entry on this screen (ARTX) allows you to specify custom text to appear at the beginning of the initial notice. Instructions for using the ARTX are found in this chapter. Initial notices with corresponding ARTX are available for most cases entered in PAR.

B. Installment Bills

Installment bills request payment of a predefined amount of the outstanding balance each month. A DEBTOR can request that payment be made in installments. If this is approved, the installment plan and terms are established in the installment Billing and Payment Table (INBT). Once an entry is made in this table, the installment amount plus any past due amount will be billed each month.

The Premium Collections Clerk may change the installment amount if the need arises or deactivate the installment plan by setting the Active Indicator to 'N'. When the installment is deactivated, the text type must be changed by processing a modified billing document.

If a past due installment plan is re-negotiated, users should update the Effective Date field on the Installment Billing and Payment Table (INBT). If this field is not updated, Cash Receipts will continue to be applied to the past due amount, not to the renegotiated amount.

All other fields in the Installment Billing and Payment Table (INBT) are system maintained and updated when the bill is produced or cash is received against the bill.
C. **Printing Text on Bills**

PAR allows you to associate text clauses and custom text to the Billing Document. This text is printed on the bill.

Standard clauses have been preset and can be printed on the bill by entering the appropriate code from the Clause Text Type (TXTP). A Text Type code can be entered on the Billing Document Header and on each line of the Billing Document. If the Text Type is entered on the Billing Document, the pre-set clauses associated to that Text Type are printed on the bill. The program ensures that clauses are not duplicated on the bill. If no Text Type is entered on an Accounts Receivable Line Table (ARLT) record, the system will print a default text type.

D. **Reprint Option**

Bills can be re-printed by the system using the Bill Generation programs. If a bill/notice is generated with incorrect or missing data, it must be reprinted as described below:

Incorrect/Missing ARTX entries:

- Access the existing ARTX record, if any, and make appropriate changes using the C change control command. If corrections to this screen are not possible, i.e. BDID#, delete the incorrect record and re-enter.

- Change the Bill Print Flag on the outstanding billing documents table (OBDT) from 'P' to 'Y'.

  **NOTE:** Bills re-printed from this process will retain original dates.

Incorrect/Missing Document entries:

- To correct errors in a processed document, process a modified billing document according to RCM 3.12.12.

  **NOTE:** Bill reprinted from this process will reflect current system generated or user specified dates.

**3.12.14 Accounts Receivable Text Table (ARTX)**

Always use this table when the initial notice is to be prepared by PAR, the bill print flag is set to 'Y' or 'C'. This table allows the user to insert specified customer text at the beginning of the initial notice. The examiner must select from the choices of inserts and complete required information.
After the billing document has passed quick edits and been placed or 'held' status pending approval, access the Accounts Receivable Text Table by following the steps below:

A. **Accessing the ARTX Screen** The ARTX screen is accessed as follows:

- Type “N” in the Action field. Your cursor will move to the “TableID field”.
- Type the table ID ARTX
- Press enter.
- A blank Accounts Receivable Text table screen will appear.

B. **Accessing the Paragraph Inserts on the ARTX Screens** Make the following entries next to the captions displayed on the screen. Use the tab key to move through the screen in the following order.

<table>
<thead>
<tr>
<th>Caption</th>
<th>Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>Action:</td>
<td>When the ARTX is accessed, the cursor will be position in the Action Field on the action line screen. The Action field will be pre-filled with an 'R' - type an S over the R and TAB to the Table USER ID field.</td>
</tr>
<tr>
<td>USER ID:</td>
<td>Enter your four character PAR user identification number and your four character PAR password. (The password will not be displayed on the screen.) The cursor will advance to the next field.</td>
</tr>
<tr>
<td>Table ID:</td>
<td>The Table ID field will be pre-filled with ARTX. Use the TAB key to advance to the USER ID field.</td>
</tr>
<tr>
<td>TEXT INDICATOR:</td>
<td>Always type B. Cursor will advance to BD ID field.</td>
</tr>
<tr>
<td>BD ID:</td>
<td>Type the 2 character code that was entered as a text type on the billing document screens, i.e., A1, S2, H3.</td>
</tr>
<tr>
<td></td>
<td>Press enter.</td>
</tr>
<tr>
<td></td>
<td>The selected insert paragraph will appear. An 'R' will be displayed in the action field.</td>
</tr>
</tbody>
</table>

C. **Completing the ARTX Screen** Make the following entries next to or below the captions displayed on the screen. Use the arrows to advance to the desired position. When a space is required, the space bar should be used.
ACTION: Type 'A', for add over the 'R' in the action field.

TEXT INDICATOR: Always type 'B'.

BD ID: Type the complete billing document ID number over the insert title displayed in this field, i.e., type "B5 123456789J1" over "A1 Prem Due Instl/Wav".

REFERENCE ID: This area, located on the top right corner of the text portion of the screen will contain a reference ID number. The reference ID number is used to identify the text type and requestor on the printed letter. Type the last 2 digits of your examiner number over the last 2 zeros.

TEXT: All Medicare insert texts are 'fill in the blanks'. Type the requested text next to or below the captions as appropriate.

- Names - Enter First Name, Middle Initial, Surname
- Dates - MM-DD-YY or MM-DD-YY thru MM-DD-YY
- Dollar Values - Type dollar values using two decimal places and dollar signs

Press enter after all entries have been made. The message "All lines Added" will be displayed.

Use the C change control command to make any corrections other than the BD ID. Selected records must be deleted and re-entered to correct the BD ID.

D. Authorizing/Reviewing the ARTX Screen

For authorization or review Scan the desired 'Billing Document' record on the ARTX as described below.

- Type S in the Action field
- Type B in text indicator
- Type the complete Billing document ID number in BD ID field
- Press Enter.

E. Exiting from the ARTX Screen

- Using the TAB key, position the cursor in the Action field on the action line of the ARTX screen.
- Type E for Exit in the action field.
• Press enter, the message "V2 Enter Next Task Code" will appear.

3.12.15 Installment Billing And Payment Table (INBT)

Manually complete this table once an installment arrangement has been approved for a specific debt. A processed record or this table for an open billing document will result in the automatic release of monthly bill for the specified installment amount. An installment line will be added to this table each time an installment bill is generated or a cash payment is received. The system will update this table to reflect the received amount for each installment.

A. Accessing the INBT Screen

• Type “N” in the Action field; your cursor will move to the “TableID” field.
• Type the Table ID name INBT.
• Press enter.
• A blank Installment Billing table screen will appear.

B. Completing the INBT Screen

Make the following entries next to or below the captions displayed on the screen. The cursor will place you in the first position of each data entry fields and will move through the screen in the following order. Make entries only in the specified fields. Other fields are either completed by the system or not used at all.

ACTION: When the INBT screen is accessed, the cursor will be position in the ACTION field on the action line of the screen.

The ACTION field will be prefilled with on S which means Scan Record.

Type A for Add Record over the S.

The cursor will advance to the “TableID” field.

TABLE ID: “TableID” field will contain the correct table code name. Use the tab key to advance to the next field.

USER ID: Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the next field.

PAYOR CODE: Enter the full ACCOUNT NUMBER for the outstanding debt to be referenced just as it is shown on the PAYOR or PDIT screens.
BILLING DOC ID: Enter the Billing document ID code for debt to be referenced.

INST AMT: Enter the amount to be remitted each month. Use decimal points. Do not use dollar signs ($).

ACT IND: Use this field only if installment billing must be interrupted. Otherwise, leave blank. To interrupt billing set Act Ind. to 'N'.

TEXT: Enter one of the following codes to indicate that the special installment paragraph that is to be associated with this notice each month.

IA - Installments only

IB - Installments and Withholding

If both annuity withholding and installment billing apply as described in RCM 3.12.18, use text IB. Text IB advises the beneficiary that the withheld amount will not be reflected in the balance until the end of the recovery period.

Press Enter when all entries complete.

3.12.16 Securing The Billing Document Identification Number

Generally, a copy of the notice or form containing the billing document identification number will be returned with the payment or method of recovery selection. If it is necessary to secure the billing document identification number assigned to the overpayment when the open accounts receivable record was established, scan the ACCOUNTS RECEIVABLE CASE HISTORY HEADER TABLE (ARCH), Header table (ARHT) or any other table containing the billing document ID and other information.

A. Accessing the ARCH or ARHT Screen - The ARCH and ARHT screens are accessed as follows.

• Sign on to the PAR System as described in RCM 3.12.3.

• Enter the letter “N” in the action field. Your cursor will move to the “TableID” field.

• Enter ARCH/ARHT table ID.

• Press enter.

B. Scanning the ARCH or ARHT Screen - Because this is an information table, entries can only be made on the action line and key line of the table. Make the following entries next to or below the captions displayed on the action and key lines of the screen. The cursor will place you in the first position of each of the data entry fields and will move through the screen in the following order.
<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>When the screen is accessed, the cursor will be positioned in the ACTION field on the action line of the screen. The ACTION field will be prefilled with an S, which means Scan Record. Use the TAB key to advance to the “TableID” field.</td>
</tr>
<tr>
<td>TABLEID:</td>
<td>The TABLEID field will contain the correct table code name. Use the TAB key to advance to the USER ID field.</td>
</tr>
<tr>
<td>USERID:</td>
<td>Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the ACCOUNT NUMBER field.</td>
</tr>
<tr>
<td>ACCOUNT NUMBER:</td>
<td>Enter the RRB claim, followed by the prefix. Precede serial claim numbers with zeros. Billing Document ID numbers begin with B5. The cursor will advance to the identifier position of the PAYOR CODE field. DO NOT make any entry in this field.</td>
</tr>
<tr>
<td></td>
<td>After completing the PAYOR CODE field on the key line of the ARCH screen, press ENTER. An ACCOUNTS RECEIVABLE CASE HISTORY HEADER TABLE for the railroad claim number entered in the PAYOR CODE field will be displayed.</td>
</tr>
<tr>
<td></td>
<td>The action field will change to R, press enter until you have located the desired document.</td>
</tr>
<tr>
<td></td>
<td>The data area of the ARCH screen will be filled with information entered on the PAYOR TABLE, the PAYOR/DEBTOR INFORMATION TABLE and the billing document screens which were completed when the accounts receivable record was established.</td>
</tr>
<tr>
<td></td>
<td>In many cases, only one open accounts receivable record will have been established for a claim number. Where more than one open receivable record exists, by entering only the railroad claim number in the PAYOR CODE field on the key line of the screen, the first open receivable will be displayed. When determining the billing document identification number, it is necessary to page through the record in all cases to verify the number of records that exist and to determine which open accounts receivable record is related to the payment you are processing. To page through the record to get to the applicable billing document, press ENTER. The next ARCH/ARHT record</td>
</tr>
</tbody>
</table>
in sequence will be displayed. You can only page forward. If you pass the record you need, enter an S for Scan Record in the ACTION field on the action line of the screen and re-enter the claim number in the PAYOR CODE field on the key line of the screen. Press ENTER. The initial record for that claim number will again be displayed on the ARCH screen.

C. Exiting from the ARCH or AHRT Screens - The command for leaving the ARCH table is determined by your next task.

1. Moving from the ARCH Table to Another PAR Table Screen - If you want to access another PAR table screen from the ARCH table screen, take the following actions.

   • Position the cursor in the ACTION field on the action line of the screen.
   • Type N for Next Screen in the ACTION field.
   • The cursor will advance to the TABLEID field.
   • Type the Table ID name you want to access over ARCH.
   • Press ENTER.

     A blank screen for the table you requested will be displayed.

2. Ending the Session - To exit from the ARCH/ARHT table, take the following actions.

   • Position the cursor in the ACTION field on the action line of the screen.
   • Type E for Exit in the ACTION field.
   • Press ENTER.

3.12.17 Creating A Cash Receipt Document Using The Cash Collection Input Table (CCIT) Screen

   • Cash receipt document is mechanically produced by PAR for the following recovery methods by completing the CASH COLLECTION INPUT TABLE (CCIT).
   • Cash refund (cash, check or money order.
   • Tolerance.
• Waiver.
• One time annuity withholding.
• Amount was withheld from an accrual due,
• Small overpayment recovery situation.
• Compromise.

Creating a cash receipt document through completion of a CCIT screen has several advantages. When recovering for multiple fund accounts on the same receivable, the cash receipt document generated in PAR by the CCIT will automatically allocate the recovery between multiple accounts. Another advantage in creating a cash receipt document from the CCIT screen is that less data entry fields require completion.

Both the PAYOR CODE and the BILLING DOCUMENT IDENTIFICATION NUMBER assigned to the overpayment when the accounts receivable record was established must be known to complete a CCIT screen. If a copy of the notice or form containing these identifiers does not accompany a payment or method of recovery selection and the folder does not contain the information, or the CCIT screen is being completed without a folder. RCM 3.10.16 provides instructions for securing these keys.

Creating a Cash Receipt Document Using Table Screens - PAR has three table screens which mechanically generate cash receipt documents. The table screen completed depends on the method which will be used to reduce or recover the receivable. The following PAR tables generate cash receipt documents and are completed for the recovery methods listed below each table name.

1. Cash Collection Input Table (CCIT).

• Cash refund (cash, check or money order)
• Tolerance
• Waiver
• One time annuity withholding
• Overpaid amount withheld from accrual due
• Small overpayment recovery situations
• Compromise
Cash receipt documents created in PAR from the completion of the CCIT require approval and scheduling for processing like the cash receipt document created by completing the document screens. Instructions for completing the Cash Collection Input Table are found in RCM 3.12.18. Procedures for approval and scheduling of this PAR generated cash receipt document are located in RCM 3.12.24.

2. Recurring Cash Receipt Table (RECR).
   
   - Partial annuity withholding
   - Full annuity withholding

   Unlike the cash receipt document created from completion of the CCIT, the cash receipt document generated in PAR from completion of the RECR does not require approval and scheduling for processing. Instructions for completing the Recurring Cash Receipt Table are found in RCM 3.12.18.

3. Write-Off Table (WROT).
   
   - Used to transfer amounts from PAR to uncollectible

   The cash receipt document generated in PAR from the completion of the WROT does not require approval or scheduling for processing. Instructions for completion of the Write-Off Table are found in RCM 3.12.19.

A. Accessing the CCIT Screen - The CCIT screen is accessed as follows:
   
   - Sign on to the PAR System, as described in RCM 3.12.3.
   - Type MIT, leave one space, then type the table code name CCIT.
   - Press ENTER.
   - A blank CASH COLLECTION INPUT TABLE screen will appear.

B. Completing the CCIT Screen - Make the following entries next to or below the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>When the CCIT screen is accessed, the cursor will be positioned in the ACTION field on the action line of the screen.</td>
</tr>
</tbody>
</table>
- The ACTION field will be prefilled with an S, which means Scan Record.
- Type A for Add Record over the S.
- The cursor will advance to the TABLEID field.

**TABLEID:**
The TABLEID field will contain the correct table code name. Use the TAB key to advance to the USER ID field.

**USERID:**
Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the CR DOC ID field.

**CR DOC ID:**
The Cash Receipt Document Identification code on the CCIT screen is made up of a combination of 13 letters and numbers. The first two positions are referred to as the TRANS CODE on error and warning messages. The remaining 11 positions are referred to as the DOCUMENT NUMBER. Complete this field as follows:

- **Pos. 1-2:** Always enter C5
- **Pos. 3 - 13:** Enter as described below for the specific credit type:

  **Cash** -
  - 'CD'
  - Certificate of Deposit Number
  - PCU Assigned counter for this deposit item

  **Annuity Withholding**
  - 'AW'
  - Year and month of withholding; i.e., (9103 for March 1991)
  - Last 2 digits of examiner number
  - 3 digit counter, to indicate the number of withholdings for the specified date (9103) by this examiner today i.e., 001, 002, 010.
<table>
<thead>
<tr>
<th>Reclamation/Stop Credit via Treasury</th>
</tr>
</thead>
<tbody>
<tr>
<td>• 'TF'</td>
</tr>
<tr>
<td>• Year and month credit received; i.e., (9103 for March 1991)</td>
</tr>
<tr>
<td>• Last 2 digits of examiner number</td>
</tr>
<tr>
<td>• 3 digit counter, to indicate the number of Treasury credits received on the specified date by this examiner today.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>SMIB Refunds</th>
</tr>
</thead>
<tbody>
<tr>
<td>• SR</td>
</tr>
<tr>
<td>• Year and Month refund withheld (YYMM)</td>
</tr>
<tr>
<td>• Last 2 digits of examiner number</td>
</tr>
<tr>
<td>• 3 digit counter</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Administrative liquidations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use when a debt is liquidated by administrative decision such as, administrative cost exceeding recoverable amount, referred to CMS or compromise.</td>
</tr>
<tr>
<td>• AD</td>
</tr>
<tr>
<td>• Year and month of decision (YYMM)</td>
</tr>
<tr>
<td>• Last 2 digits of examiner number</td>
</tr>
<tr>
<td>• 3 digit counter</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>TOTAL PAYMENT: Enter the total amount of the remittance or recovery. You must use a decimal point and complete this entry to two decimal places. DO NOT use a dollar sign. Use the TAB key to advance to the ACCOUNT NUMBER field.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>ACCOUNT NUMBER: Enter the ACCOUNT NUMBER which was established on the billing document when the accounts receivable record which is being offset by this cash receipt document was established. Use the TAB Key to advance to the DIVISION field.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>DIVISION: Always enter 2500 in this field. The cursor will advance to the</th>
</tr>
</thead>
</table>
**DEPOSIT #:**  Complete this entry as follows. This field will accommodate an entry of 12 positions. If all positions are used, the cursor will advance to the next field, otherwise use the TAB key to advance the cursor to the trans type field.

- If the method of recovery is by cash, check or money order, enter the certificate of deposit number (CD#).

- If the method of recovery is by annuity withholding, waiver, tolerance, reclamation credit, etc. (any method other than cash, check or money order,) enter MS.

**TRANS TYPE:**  Always enter 'SA'.

**ACTION OUT:**  Enter the three position code from the list below which best describes how the overpayment was recovered or the reason for modifying. The cursor will advance to the next field.

- X21 Waiver
- X22 Offset Part B Benefits
- X23 Credit Card
- X24 Cash Refund
- X25 Partial Withholding
- X26 Full Withholding
- X27 SSA Benefit Offset
- X28 State Buy-In Offset
- X29 Cash Refund To Carrier/Inter.
- X31 Referred to CMS
- X32 No Overpayment Exist
- X33 Provider is Overpaid
- X34 Incorrect Trust Fund
- X35 Previous Offset
- X36 Administrative Error
- X37 Non-Sufficient Funds Check
- X38 RRA Offset Invalid
- X39 Compromise
- X41 No Means of Recovery
- X42 Administrative Cost Exceed Debt
- X43 Overreimbursement
- X44 Statute of Limitations
- X45 Referred to SSA
- X46 Premium Refund Offset
- X47 Delayed Reduced Premiums
NOTE: The PAR ACTO TABLE contains a complete list of action out codes, including those used by the Bureau of Fiscal Operations - Debt Recovery Division (DRD) and Operations - Medicare Section (MS).

REFERENCE BILL DOC ID: Enter the Billing Document Identification Number which was assigned when the accounts receivable record, which is being offset by this cash receipt document, was established. Always enter B5 in the first two positions of this field. The cursor will advance to the remaining 11 positions. Upon completion of the document number field, the cursor will advance to the next field.

NOTE: Always enter the REFERENCE BILL DOC ID online 01. Lines 02 through 07 are reserved for BUSI use only.

AMOUNT RECEIVED: Enter the same amount as was entered in the TOTAL PAYMENT field above. You must use a decimal point and complete this entry to two decimal places. DO NOT use a dollar sign. The cash receipt document generated by PAR will create the appropriate lines of activity from the information contained in the billing document.

NOTE: Always enter the AMOUNT RECEIVED on line 01. Lines 02 through 07 are reserved for BUSI use only.

C. Exiting from the CCIT Screen - After completing the AMOUNT RECEIVED field, review the information you have entered on the CCIT screen to verify that these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information.

1. Establishing the CASH COLLECTION INPUT TABLE - When all required entries have been completed and all information is correct, press ENTER. Be sure the 'A' is in action: The message *L030 ALL LINES ADDED will be displayed in the message area of the screen indicating the CASH COLLECTION INPUT TABLE has been established.

2. Errors Detected - If any errors are detected, or any required entries are not complete, an error or warning message(s) will be displayed in the message area at the bottom of the screen. Refer to Appendix A of this
chapter for a description of the problem and corrective action to be taken. Use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and complete the required entry as indicated. Continue to press ENTER and make any required corrections until the message *L030 ALL LINES ADDED is displayed in the message area of the screen. It is important that all errors are corrected and all required entries are completed on the CCIT screen. PAR will not mechanically generate a cash receipt document as long as errors are present.

D. Approving the Cash Receipt Document Generated from Completion of the CCIT Screen - Cash receipt documents generated in PAR from completion of CCIT screens require approval and scheduling for processing. Generally, a cash receipt document which is created through CCIT completion one day will appear on the DOCUMENT SUSPENSE FILE INQUIRY (SUSF) table the following day.

The approval and scheduling process for cash receipt documents generated from CCIT screen completion is the same as for the cash receipt document created through document screen series completion. Refer to RCM 3.12.24 for instructions on the approval and scheduling process.

3.12.18 Creating A Cash Receipt Document Using The Recurring Cash Receipt Table (RECR) Screen

Where partial or full annuity withholding is the method which will be used to offset an open accounts receivable record, a cash receipt document is generated through completion of the RECURRING CASH RECEIPT TABLE (RECR) screen. Unlike cash receipt documents created through completion of the document screen series or those mechanically generated from CCIT, cash receipt documents created from RECR do not require approval or scheduling for processing.

Both the PAYOR CODE and the BILLING DOCUMENT IDENTIFICATION NUMBER assigned to the record when the accounts receivable record was established must be known to complete a RECR screen. Instructions for securing these keys are located in RCM 3.12.16.

It is essential that the RECR screen be completed timely because the date entered in the OFFSET BEGIN DT field can only be the current or a future date. If the RECR screen is not completed until after withholding is in force, paragraph E of this section provides instructions for this situation.

A. Accessing the RECR Screen - The RECR screen is accessed as follows.

- Sign on to the PAR System as described in RCM 3.12.3.
- Type “N” in the Action field. Your cursor will move to the “TableID” field.
• Type the Table ID name RECR.
• Press ENTER.
• A blank RECURRING CASH RECEIPT TABLE screen will appear.

B. Completing the RECR Screen - Make the following entries next to or below the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>When the RECR screen is accessed, the cursor will be positioned in the ACTION field on the action line of the screen.</td>
</tr>
<tr>
<td></td>
<td>• The ACTION field will be prefilled with an S, which means Scan Record.</td>
</tr>
<tr>
<td></td>
<td>• Type A for Add Record over the S.</td>
</tr>
<tr>
<td></td>
<td>• The cursor will advance to the TABLEID field.</td>
</tr>
<tr>
<td>TABLEID:</td>
<td>The TABLEID field will contain the correct table code name. Use the TAB key to advance to the USER ID field.</td>
</tr>
<tr>
<td>USERID:</td>
<td>Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the ACCOUNT NUMBER field.</td>
</tr>
<tr>
<td>PAYOR CODE:</td>
<td>Enter the ACCOUNT NUMBER which was established on the billing document when the accounts receivable record, which is being offset by partial or full annuity withholding, was established. The cursor will advance to the Billing DOC ID field.</td>
</tr>
<tr>
<td>BILLING DOC ID:</td>
<td>Enter the Billing Document Identification Number which was assigned when the accounts receivable record, which is being offset by partial or full annuity withholding was established. Always enter B5 in the first two positions of this field. The cursor will advance to the remaining 11 positions. Upon completion of the document number field, the cursor will advance to the ACTION OUT field.</td>
</tr>
<tr>
<td>ACTION OUT:</td>
<td>Enter one of the following codes which describes how recovery is being made.</td>
</tr>
<tr>
<td>---------------</td>
<td>--------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>• X25 Partial annuity withholding.</td>
<td></td>
</tr>
<tr>
<td>• X26 Full annuity withholding.</td>
<td></td>
</tr>
<tr>
<td>CURRENT OFFSET AMT:</td>
<td>Enter the recurring withholding amount. You must use a decimal point and complete this entry to two decimal places. DO NOT enter a dollar sign. Use the TAB key to advance to the OFFSET BEGIN DT field.</td>
</tr>
<tr>
<td>OFFSET BEGIN DT:</td>
<td>Enter the month, day and year of the check issue date partial or full annuity withholding is effective. Precede single digit month and day entries with a zero. EXAMPLE: 03 01 90. Use the Tab key to advance to the TRANS TYPE field.</td>
</tr>
<tr>
<td>NOTE: The OFFSET BEGIN DT entered in his field cannot be prior to the calendar date on which the RECR screen is completed. It can be a future date. If annuity withholding is to be effective with the payment issued on July 1, the RECR screen can be completed on July 1 or anytime prior with an OFFSET BEGIN DT of 07 01. If annuity withholding was effective with the payment issued on July 1, but the RECR screen was not established by that date, 08 01 must be entered in the OFFSET BEGIN DT field. Paragraph E of this section provides instructions for special handling when the RECR screen is completed after withholding is in effect.</td>
<td></td>
</tr>
<tr>
<td>TRANS TYPE:</td>
<td>Always enter the letters SA in this field. The cursor will advance to the ORIG OFFSET field.</td>
</tr>
<tr>
<td>ORIG OFFSET MONTHS:</td>
<td>Enter the number of months partial or full annuity withholding will be in force. This is a three position field. Inasmuch as withholding will rarely be in force for more than 36 months, enter zeros in the first two positions as necessary. EXAMPLES: 036, 007.</td>
</tr>
<tr>
<td>APPLIED OFFSET MONTHS:</td>
<td>This item is completed from information contained within PAR. The cursor will skip over this field.</td>
</tr>
<tr>
<td>HOLD IND:</td>
<td>Make no entry in this field. Use the TAB key to advance to the next field. If withholding must be suspended for any reason, see paragraph E of this section for special instructions.</td>
</tr>
</tbody>
</table>
CASH ACCT: Make no entry in this field. Use the TAB key to advance to the next field.

ARCHIVE FLAG: Make no entry in this field when the RECR screen is being established. This field is only completed once partial or full annuity withholding has been completed and the CURRENT BALANCE field on this screen has been reduced to zero. Paragraph D of this section provides instructions for completing this entry once recovery through annuity withholding has been completed.

C. Exiting from the RECR Screen - After completing the ORIG OFFSET MONTHS field, review the information you have entered on the RECR screen to verify that these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information.

1. Establishing the RECURRING CASH RECEIPT TABLE - When all required entries have been completed and all information is correct, press ENTER. The message *LO30 ALL LINES ADDED will be displayed in the message area of the screen indicating the RECURRING CASH RECEIPT TABLE has been established. Approval and scheduling of the RECR screen are not necessary. Pressing ENTER and having the above message displayed on the screen will establish this table in PAR. Each month, a cash receipt document will be mechanically generated for the withholding amount entered in the CURRENT OFFSET AMT field until the open balance has been reduced to zero.

2. Errors Detected - If any errors are detected, or any required entries are not complete, an error or warning message(s) will be displayed in the message area at the bottom of the screen. Refer to Appendix A of this chapter for a description of the problem and corrective action to be taken. Use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and complete the required entry as indicated. Continue to press ENTER and make any required corrections until the message *LO30 ALL LINES ADDED is displayed in the message area of the screen. It is important that all errors are corrected and all required entries are completed on the RECR screen. PAR will not mechanically process and generate a recurring cash receipt document as long as errors are present.

The ORIG O/P FOR OFFSET, CURRENT BALANCE, HOLD IND, ARCHIVE FLAG, PEN %, ADMN COST and INT % fields in the data area of the screen will be filled with information derived from the PAR System.
D. Archiving the RECURRING CASH RECEIPT TABLE - The final cash receipt document generated from the RECR table will be for the remaining amount of the open balance. Once the CURRENT BALANCE field has been reduced to zero, and the claim is recertified to remove partial or full annuity withholding, the RECURRING CASH RECEIPT TABLE must be archived. This is accomplished as follows:

• Sign on to the PAR System as described in RCM 3.12.3.

• Type “N” in the Action field. Your cursor will move to the “TableID” field.

• Type the Table ID name RECR.

• Press ENTER. A blank RECURRING CASH RECEIPT TABLE screen will be displayed. The ACTION and TABLEID fields will contain the correct entries.

• Enter your PAR password and user identification code following the USERID caption on the action line of the screen.

• Complete the ACCOUNT NUMBER and BILLING DOC ID on the key line of the screen.

• Press ENTER. The RECURRING CASH RECEIPT TABLE for the PAYOR CODE and BILLING DOC ID you entered on the key line of the screen will be displayed.

• Type C for Change Record over the R in the ACTION field on the action line of the screen.

• Use the TAB key to move the cursor to the ARCHIVE FLAG field.

• Type Y for yes over the N appearing in the ARCHIVE FLAG field.

• Press ENTER. The following two messages will be displayed in the message area at the bottom of the screen.

• 01-PP01W DVAL TABLE ENTRY NOT FOUND

• 01-*LO31 ALL LINES CHANGED

An example of a RECURRING CASH RECEIPT TABLE in which the ARCHIVE FLAG has been set appears below.

When the RECURRING CASH RECEIPT portion of PAR is processed, this record will be archived and will no longer be displayed as a table screen.
E. Special Situations.

1. Annuity Suspended While Partial or Full Annuity Withholding is in Effect - Occasionally, it may be necessary to suspend an annuity from which deductions are being made to recover an overpayment. Because PAR does not interface with the payment systems, PAR must also be alerted if an annuity is suspended from which partial or full annuity withholding is in force. This is accomplished by changing the HOLD IND field on the RECURRING CASH RECEIPT TABLE (RECR). Take the following actions.

- Sign on to the PAR System as described in RCM 3.12.3. Type “N” in the Action field. Your cursor will move to the “TableID” field.
- Then type the Table ID name RECR.
- Press ENTER. A blank RECURRING CASH RECEIPT TABLE screen will be displayed. The ACTION and TABLEID fields will contain the correct entries.
- Enter your PAR password and user identification code following the USERID caption on the action line of the screen.
- Complete the PAYOR CODE and BILLING DOC ID on the key line of the screen.
- Press ENTER. The RECURRING CASH RECEIPT TABLE for the PAYOR CODE and BILLING DOC ID you entered on the key line of the screen will be displayed.
- Type C for Change Record over the R in the ACTION field on the action line of the screen.
- Use the TAB key to move the cursor to the HOLD IND field.
- Type Y for yes over the N appearing in the HOLD IND field.
- Press ENTER. The following two messages will be displayed in the message area at the bottom of the screen.
  - 01-PP01W DVAL TABLE ENTRY NOT FOUND
  - 01-*LO30 ALL LINES CHANGED

NOTE: If the HOLD IND field is not completed timely, any cash receipt document(s) posted in error must be cancelled. Check the ACCOUNTS RECEIVABLE CASH RECEIPT LINE (ARCL) screen to determine if any
erroneous cash receipts were posted and to obtain the Cash Receipt Document (C5) Number.

An example of a RECURRING CASH RECEIPT TABLE in which the HOLD IND has been set to Y appears below.

Once the annuity has been returned to pay status, the HOLD IND must be changed back to N. This is accomplished by the same procedure as outlined above for changing the HOLD IND to Y.

2. RECURRING CASH RECEIPT TABLE Created After Partial or Full Annuity Withholding Has Gone into Effect - As stated earlier, the date entered in the OFFSET BEGIN DT cannot be prior to the calendar date on which the RECR screen is being completed. In the event the RECR screen is not completed until after one or more months of annuity withholding have occurred, take the following actions.
   
   a. Complete the CASH COLLECTION INPUT TABLE.
      
      • Calculate the amount which has been recovered from annuity payments prior to establishment of the RECR screen.
      
      • Complete a CCIT screen as described in RCM 3.12.18.
      
      • Enter the amount withheld from annuity payments in the TOTAL PAYMENT field.
      
      • Enter AW for annuity withholding in the TRANS TYPE field.
      
      • Enter one of the following codes in the ACTION OUT field.
         
         • X25 Partial Annuity Withholding.
         
         • X26 Full Annuity Withholding.
         
         • Have the completed CCIT generated cash receipt document approved and scheduled for processing.
      
      b. Complete the RECURRING CASH RECEIPT TABLE.
         
         • Determine the total number of months annuity withholding has been in force prior to completion and processing of the RECR screen.
         
         • Complete a RECR screen as described in paragraph B of this section.
• Enter the first day of the next monthly annuity payment from which full or partial withholding will be applied in the OFFSET BEGIN DT field.

• Enter the total number of months partial or full withholding will be applied, reduced by the number of months recovery has already been made prior to establishment of the RECR screen, in the ORIG OFFSET MONTHS field.

• The CURRENT BALANCE field, which is filled by the system, will reflect the amount which was recovered and processed through completion of the CCIT screen prior to establishment of the RECR screen.

C. Annuity Withholding and Simultaneous Recovery through Installment Billing - Occasionally, because of the amount of an overpayment, full annuity withholding may be in force. At the same time, the annuitant may have agreed to remit a certain amount each month in order to reduce the overpayment. Because both an INSTALLMENT BILLING AND PAYMENT TABLE (INBT), used to produce monthly billing statements, and a RECURRING CASH RECEIPT TABLE (RECR) cannot exist at the same time, examiners must take the following actions.

1. Establish a record for the debt on the Installment Billing Table(INBT) as described in RCM 3.12.15 Special Instructions.

2. Calculate the expected date of recovery by dividing the debt by the total of the withholding amount and the monthly installment amount.

3. Set an MS call-up for that date.

3.12.19 Creating A Cash Receipt Document Using The Write-Off Table (WROT) Screen

The Write-Off Table (WROT) is used to mechanically create a cash receipt document which will transfer open accounts receivable records from PAR to the uncollectible account. Accounts receivable records which have not had any collection activity posted to them for 60 days from the delinquency date will automatically default to WROT. In order for records appearing on WROT to actually be transferred to uncollectible, examiners must change the write-off flag and reason code and complete the action out code. Receivables to be transferred to uncollectible which do not appear on WROT can also be added to this table.

When transferring amounts to uncollectible, it is essential that the PAYOR TABLE contains the name of the person responsible for the debt as opposed to RECLAMATION, ESTATE DEVELOPMENT, etc. Paragraph E of this section provides instructions for correcting the DEBTOR NAME if necessary.

A. Accessing the WROT Screen - The WROT screen is accessed as follows.
• Sign on to the PAR System as described in RCM 3.12.3.

• Type “N” in the Action field. Your cursor will move to the “TableID” field.

• Type the Table ID name WROT.

• Press ENTER.

• A blank WRITE-OFF TABLE screen will appear.

B. **Transferring Existing WROT Records to Uncollectible** - To transfer an existing accounts receivable record to uncollectible, make the following entries next to or below the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields beginning with ACTION and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>When the WROT screen is accessed, the cursor will be positioned in the ACTION field on the action line of the screen. The ACTION field will be prefilled with an S, which means Scan Record. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>TABLEID:</td>
<td>The TABLEID field will contain the correct table code name. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>USERID:</td>
<td>Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the next field.</td>
</tr>
<tr>
<td>ACCOUNT NUMBER</td>
<td>Enter the ACCOUNT NUMBER for this record. Precede serial claim numbers with zeros. The cursor will advance to the identifier position of the PAYOR ID field. DO NOT make any entry in this field.</td>
</tr>
</tbody>
</table>

After completing the ACCOUNT NUMBER ID field on the WROT screen, press ENTER. The WRITE-OFF TABLE record for the railroad claim number entered in the ACCOUNT NUMBER field will be displayed on line 01 of the screen.

The ACCOUNT NUMBER ID, BD ID, TOTAL BILL AMOUNT, LAST DUN DATE, WRITEOFF FLAG and RSN fields will be filled with data contained within PAR.
<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>To transfer the existing record to uncollectible, make the following entries next to or below the captions displayed on the screen.</td>
<td></td>
</tr>
<tr>
<td>NOTE: Caution must be exercised when changing existing fields and completing required entries while in the CHANGE mode, as all records displayed on the screen are subject to change.</td>
<td></td>
</tr>
<tr>
<td>ACTION: When the WROT screen for the ACCOUNT NUMBER ID you entered above is accessed, the cursor will be positioned in the ACTION field on the action line of the screen.</td>
<td></td>
</tr>
<tr>
<td>• The ACTION field will be prefilled with an R which means Refill Record.</td>
<td></td>
</tr>
<tr>
<td>• Type C for Change Record over the R.</td>
<td></td>
</tr>
<tr>
<td>• Use TAB key to advance to the write-off flag field.</td>
<td></td>
</tr>
<tr>
<td>WRITEOFF FLAG: This field will be prefilled with an N, which means No. Type Y for YES over the N. The cursor will advance to the WRITE-OFF RSN field.</td>
<td></td>
</tr>
<tr>
<td>WRITEOFF RSN: This field will be prefilled with an A, which means Uncollectible - OPR. Select a Write-Off Reason Code from the list below which best describes the reason for transfer to uncollectible. Type this code over the A. The cursor will advance to the ACT OUT field.</td>
<td></td>
</tr>
<tr>
<td>1. Waiver</td>
<td></td>
</tr>
<tr>
<td>2. Compromise</td>
<td></td>
</tr>
<tr>
<td>3. Statute of limitations</td>
<td></td>
</tr>
<tr>
<td>4. Reserved</td>
<td></td>
</tr>
<tr>
<td>5. Recovery efforts exhausted</td>
<td></td>
</tr>
<tr>
<td>6. Adm. cost exceed debt</td>
<td></td>
</tr>
<tr>
<td>7. Referred to CMS</td>
<td></td>
</tr>
<tr>
<td>8. Reserved</td>
<td></td>
</tr>
<tr>
<td>9. Reserved</td>
<td></td>
</tr>
<tr>
<td>ACT OUT: Enter one of the following three position codes which best describes the reason for transfer of the accounts receivable to uncollectible.</td>
<td></td>
</tr>
</tbody>
</table>
C. Adding a Record to the WROT Screen - To add a record to the Write-Off Table, make the following entries next to or below the captions displayed on a blank WROT screen. The cursor will place you in the first position of each of the data entry fields and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>X21 Waiver</td>
<td></td>
</tr>
<tr>
<td>X31 Referred to CMS</td>

</tr>
<tr>
<td>X53 Reserved Write-Off Future Entitlement Possible</td>
<td></td>
</tr>
</tbody>
</table>

**Caption** | **Entry**
--- | ---
Action: | When the WROT screen is accessed, the cursor will be positioned in the ACTION field on the action line of the screen.

- The action field will be prefilled with an S, which means Scan Record.
- Type A for Add Record over the S.
- Use the tab key to advance to the TABLEID field.

**TABLEID:** The TABLEID field will contain the correct table code name. Use the tab key to advance to the USERID field.

**USER ID:** Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the ACCOUNT NUMBER field.

**ACCOUNT NUMBER:** Enter the prefix and railroad claim number which was assigned as the ACCOUNT NUMBER CODE when the accounts receivable record was established. Precede serial claim numbers with zeros. The cursor will advance to the identifier position. Enter the identifier position which was assigned when this record was established. The

---

A maximum of 13 records to be transferred to uncollectible.
D. Exiting from the WROT Screen - After completing the ACT OUT field, review the entries you have changed or added to the WROT screen to verify these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information.

1. Establishing the WRITE-OFF TABLE - When all required entries have been completed or changed and all information is correct, press ENTER. Where the ACTION field was completed with an A, and a record was added to this table, the message *L030 ALL LINES ADDED will be displayed in the message area of the screen. Where the ACTION field was completed with a C, and an existing record was changed, the message *L031 ALL LINES CHANGED will be displayed in the message area of the screen. The display of one of these messages indicates the WRITE-OFF TABLE has been established. Approval and scheduling of the WROT screen are not necessary. Pressing ENTER and having one of the above messages displayed on the screen will establish this table in PAR. A cash receipt document will be mechanically generated to reduce the open accounts receivable balance by the amount displayed under the TOTAL BILL AMOUNT caption and transfer this amount to uncollectible.

2. Errors Detected - If any errors are detected, or any required entries are not complete, an error or warning message(s) will be displayed in the message area at the bottom of the screen. Refer to Appendix A of this chapter for a description of the problem and corrective action to be taken. Use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and complete the required entry as indicated. Continue to press ENTER and make corrections until one of the messages described in D1 is displayed in the message area of the screen. It is important that all errors are corrected and all required entries are completed on the WROT screen. PAR will not mechanically process a cash receipt document and transfer an amount to uncollectible as long as errors are present.

Open receivable records are offset in PAR by creating a cash receipt document. The cash receipt document screen series can be used to generate a cash receipt document for all methods of recovery except for partial or full annuity withholding. This is the only method which can be used to post receipts to a receivable where the balance has previously been reduced to zero because of over reimbursement or duplicate recovery. The cash receipt document screen series must also be completed in situations where no billing document exists. The document startup, input and line screens must be completed to create a complete cash receipt document.
A. **Accessing the STARTUP Screen** - To access the STARTUP screen follow the instructions in RCM 3.12.3.

B. **Completing the SUSF Screen** - Make the following entries next to the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields and will move through the screen in the following order.

- **TRAN** - Always enter C5. The cursor will advance to the **DIVISION** field.
- **DIVISION** - Always enter 2500. The cursor will advance to the **ID NUMBER** field.
- **ID NUMBER** - This number is made up of a combination of 11 letters and numbers. Enter the code as follows.
  - Cash
  - 'CD'
  - Certificate of Deposit Number
  - PCU Assigned counter for this deposit item
  - Annuity Withholding
  - 'AW'
  - Year and month of withholding; i.e., (9103 for March 1991)
  - Last 2 digits of examiner number
  - 3 digit counter, to indicate the number of withholdings for the specified date (9103) by this examiner today.
  - Reclamation/Stop Credit via Treasury
  - 'TF'
  - Year and month credit received; i.e., (9103 for March 1991)
  - Last 2 digits of examiner number
  - 3 digit counter, to indicate the number of Treasury credits received on the specified date by this examiner today.
• SMIB Refunds

• 'SR'

• Year and month refund withheld (YYMM)

• Last 2 digits of examiner number

• 3 digit counter

• **Administrative liquidations** Use when a debt is liquidated by administrative decision such as, administrative cost exceeding recoverable amount, referred to CMS or compromise.

• 'AD'

• Year and month of decision (YYMM)

• Last 2 digits of examiner number

• 3 digit counter

After the ID NUMBER has been completed, use the TAB key to advance to the USER ID field.

**USER ID:** Enter your four character PAR user identification code and your four character PAR password. (Your PAR password will not be displayed on the screen.) The cursor will advance to the next field.

C. **Exiting from the STARTUP Screen** - After you have entered your PAR user identification code and PAR password, review the information you have entered on the STARTUP screen to verify that these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information. When all information is correct, press ENTER. The CASH RECEIPT INPUT SCREEN will appear.

### 3.12.21 Completing The Cash Receipt Input Screen

A. **Accessing the CASH RECEIPT INPUT SCREEN** - Following completion and entering of the STARTUP screen as described in RCM 3.12.20, the CASH RECEIPT INPUT SCREEN displayed below will appear.

The MODE, DOCID and USERID fields on the action line of this screen will be prefilled from these entries completed on the STARTUP screen.
B. Completing the CASH RECEIPT INPUT SCREEN - Make the following entries next to the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields beginning with DOC DATE and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>Enter E for entry. Use the tab key to advance to the DEP NUMBER field.</td>
</tr>
<tr>
<td>FUND:</td>
<td>Always enter HCFAAR</td>
</tr>
<tr>
<td>TRANS TYPE:</td>
<td>Enter ‘SA’ in recoveries for active accounts. Enter ‘SU’ in recoveries for reactivated uncollectible records.</td>
</tr>
<tr>
<td>DEP NUMBER:</td>
<td>Complete this entry as follows. This field will accommodate an entry of up to 12 positions. If all positions are used, the cursor will advance to the next field, otherwise use the TAB key to advance the Document Total.</td>
</tr>
<tr>
<td></td>
<td>If the method of recovery is by cash, check or money order, enter the certificate of deposit number (CD#).</td>
</tr>
<tr>
<td></td>
<td>If the method of recovery is by annuity withholding, waiver, tolerance, etc. (any method other than cash, check or money order,) enter MPS.</td>
</tr>
<tr>
<td>DOCUMENT TOTAL:</td>
<td>Enter the amount of the payment or recovery for the cash receipt document you are establishing. You must use a decimal point and complete this entry to two decimal places. DO NOT use a dollar sign. Use the TAB key to advance to the next field.</td>
</tr>
</tbody>
</table>

C. Exiting from the CASH RECEIPT INPUT SCREEN - After completing the DOCUMENT TOTAL field, review the three entries you have completed on the CASH RECEIPT INPUT SCREEN to verify that these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information. When all information is correct, press ENTER. The CASH RECEIPT LINE SCREEN will appear.
3.12.22 Completing The Cash Receipt Line Screen

A. Accessing the CASH RECEIPT LINE SCREEN - Following completion and entering of the CASH RECEIPT INPUT SCREEN as described in RCM 3.12.21, the CASH RECEIPT LINE SCREEN displayed below will appear.

The MODE, DOCID and USERID fields on the action line of this screen will be prefilled from these entries completed on the STARTUP screen.

B. Completing the CASH RECEIPT LINE SCREEN - Make the following entries next to the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields beginning with LINE NO and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>LINE NO:</td>
<td>Enter 001 for the first line you establish for a cash receipt document to offset a specific billing document. Increase this number by one for each succeeding line completed which pertains to the same billing document. This is a three position field. Since it is unlikely that more than a single digit number of lines will be established for any cash receipt document, enter zeros in the first two positions of this field. The cursor will advance to the REF TC field.</td>
</tr>
<tr>
<td>REF TC:</td>
<td>Enter B5 in the two positions of this field if a billing document has been established. The cursor will advance to the next field.</td>
</tr>
<tr>
<td></td>
<td>EXCEPTION: If no billing document has been established, or if the amount outstanding has already been reduced to zero, make no entry in this field. Use the TAB key to advance to the next field.</td>
</tr>
</tbody>
</table>

A payor screen must be established using the ACCOUNT NUMBER entered in the VND/PRV before this document will process.

| REF NUMBER:  | Enter the 11 position Billing Document Identification code to which this cash receipt document is being posted. The cursor will advance to the next field. |
|             | EXCEPTION: If no billing document has been established, or if the amount outstanding has already been reduced to zero, make no entry in this field. Use the TAB key to advance to the next field. |
A payor screen must be established using the ACCOUNT NUMBER entered in the VND/PRV before this document will process.

**REF LINE:** Enter the three position code which represents the line of the receivable this credit should be applied to on the original billing document, i.e., 001, 002. Use the TAB key to advance to the fund field.

**FUND:** Make no entry in this field. Use the TAB key to advance to the Fund field.

**TRAN TYPE:** Enter one of the following two position codes. The cursor will advance to the next field.

- **SA** Use in all recoveries for active accounts.
- **SU** Use in all recoveries for re-activated uncollectible accounts.

**VND/PRV:** Enter the ACCOUNT NUMBER for the debt record to which this document is to be applied.

**AMOUNT:** Enter the amount of the recovery to be credited to the type of overpayment code entered following the REF LINE caption above. You must use a decimal point and complete this entry to two decimal places. DO NOT enter a dollar sign. Use the TAB key to advance to the Action Out field.

**EXAMPLE:** A full cash remittance received for a receivable comprised of both age and disability funds. The combined amount of the age and disability portions will be entered in the DOCUMENT TOTAL field on the CASH RECEIPT INPUT SCREEN. However, on this screen, the amount of each portion will be entered on separate lines.
<table>
<thead>
<tr>

<td>X53 Reserved Write-Off Future Entitlement Possible</td>
<td></td>
</tr>
</tbody>
</table>
NOTE: The PAR ACTO TABLE contains a complete list of action out codes, including those used by DRD and MS.

Each CASH RECEIPT LINE SCREEN will accommodate entries for two separate lines of activity. If both sections of this screen must be completed, use the TAB key to advance the cursor from the ACTION OUT field in the top portion of the screen. The cursor will advance to the LINE NO field in the bottom portion of the screen. Complete each entry on the lower portion of the screen as described for each caption above.

C. Exiting from the CASH RECEIPT LINE SCREEN - After completing the ACTION OUT field on the last required line of activity, review the information you have entered on the CASH RECEIPT LINE SCREEN to verify that these entries are correct. If any errors are detected, use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and enter the correct information.

3.12.23 Quick Edit Function

The Quick Edit function is used to edit entries you have completed on the CASH RECEIPT INPUT SCREEN and CASH RECEIPT LINE SCREEN. This function also signals the PAR System that all document screens required to establish a cash receipt document have been completed.

A. Beginning the Quick Edit Process - Following your review of the CASH RECEIPT LINE SCREEN and your determination that all entries are complete and correct, Quick Edit is accomplished as follows:

- Position the cursor in the ACTION field on the action line of the screen.
- Press and hold down an alternate shift key (Alt),
- Press the cursor home key (→),
- Release the alternate shift key (Alt).
- Type Q for Quick Edit in the ACTION field.
- Press ENTER.
B. Results of the Quick Edit Process - The PAR System always returns to the initial screen in a document screen series for display of edit, error or acceptance messages.

- The CASH RECEIPT INPUT SCREEN will be displayed.
- The MODE field on the action line of the screen will contain a C indicating the system is in the correction mode.
- The letters RH indicating additional handling is required will be displayed under the STATUS caption.

1. No Errors Are Detected During Quick Edit - If all required entries on the CASH RECEIPT INPUT SCREEN have been completed and the system does not detect any errors, the following three messages will be displayed in the message area at the bottom of the CASH RECEIPT INPUT SCREEN:

   - A -*CQ93 - DOCUMENT REJECTED
   - H -*FO53 - DOCUMENT NOT APPROVED
   - H -*S401 - READY FOR APPROVAL

   NOTE  The above messages will appear if no errors are detected on the CASH RECEIPT INPUT SCREEN but errors may still exist on the CASH RECEIPT LINE SCREEN. Therefore, it is essential to page to the CASH RECEIPT LINE SCREEN for display of any error messages. This is accomplished by typing NS for Next Screen in the ACTION field on the action line of the screen and pressing ENTER. Because the system will remain in correction mode, any errors detected in LINE screen entries will be displayed in the message area at the bottom of the screen. If no errors are detected, the message area will be blank.

2. Errors Are Detected During Quick Edit - If any errors are detected during the Quick Edit process or any required entries are not complete, an error or warning message(s) will be displayed in the message area of the screen. Refer to Appendix A of this chapter for a description of the problem and corrective action to be taken. Use the TAB and ARROW keys to move the cursor to the incorrect field(s) or position(s) and make the required entries.

   The ACTION field on the action line of the screen may contain the letters EM. Because a maximum of six edit or error messages can be displayed on a screen, EM indicates there are additional edit or error messages for the screen you are viewing. To view the additional messages, press
ENTER. The same screen with the additional edit or error messages will be displayed.

a. Moving from the CASH RECEIPT INPUT SCREEN to the CASH RECEIPT LINE SCREEN While Performing Quick Edit - Error messages always appear at the bottom of the CASH RECEIPT INPUT SCREEN first. To check for any edit or error messages which may be displayed on the CASH RECEIPT LINE SCREEN, or to make any corrections to the CASH RECEIPT LINE SCREEN which are displayed on the CASH RECEIPT INPUT SCREEN:

- Position the cursor in the ACTION field on the action line of the screen.
- Press and hold down an alternate shift key (Alt),
- Press the cursor home key ( ),
- Release the alternate shift key (Alt).
- Type NS for Next Screen in the ACTION field.
- Press ENTER.

The CASH RECEIPT LINE SCREEN containing any additional edit or error messages will be displayed.

b. Moving from the CASH RECEIPT LINE SCREEN to the CASH RECEIPT INPUT SCREEN While Performing Quick Edit - If it is necessary to return to the CASH RECEIPT INPUT SCREEN while in the correction mode of Quick Edit:

- Position the cursor in the ACTION field on the action line of the screen.
- Press and hold down an alternate shift key (Alt),
- Press the cursor home key ( ),
- Release the alternate shift key (Alt).
- Type NLO for Move to Top of Document in the ACTION field.

NOTE: The third position of this ACTION command is numeric.

- Press ENTER.

The CASH RECEIPT INPUT SCREEN will again be displayed.
c. **Exiting from Quick Edit** - When all corrections have been made to the CASH RECEIPT INPUT SCREEN and CASH RECEIPT LINE SCREEN, perform the Quick Edit function as described in section A. Continue to make all corrections and perform Quick Edit until the three messages described in section B1 are displayed in the message area of the CASH RECEIPT INPUT SCREEN.

d. **HOLDING THE CASH RECEIPT DOCUMENT FOR APPROVAL** - After the Quick Edit function has successfully been performed, the cash receipt document you have completed must be held for approval. This is accomplished as follows:

- Position the cursor in the ACTION field on the action line of the screen.
- Press and hold down an alternate shift key (Alt),
- Press the cursor home key,
- Release the alternate shift key (Alt).
- Type H for Hold Document in the ACTION field.
- Press ENTER.

The STARTUP screen with the message A -*CQ8H-DOCUMENT HELD shown in the message area of the screen will be displayed.

This completes the data entry portion for the establishment of a cash receipt document by means of completion of the cash receipt document screen series.

### 3.12.24 Approval Of The Cash Receipt Document

Before a cash receipt document is actually processed and established by the PAR System, the data entered on the CASH RECEIPT INPUT SCREEN and CASH RECEIPT LINE SCREEN must be approved by an authorizer. Cash receipt documents awaiting approval are housed in the SUSPENSE FILE TABLE (SUSF). Documents requiring approval are designated by the letters HELD in the STAT field and five zeros in the APPRV field on this table.

A. **Accessing the SUSF Screen** - To access the SUSPENSE FILE TABLE (SUSF) screen, take the following actions:

- Sign on to the PAR System as described in RCM 3.12.3.
- Type “N” in the Action field. Your cursor will move to the “TableID” field.
• Then type the “TableID” name SUSF.
• Press ENTER.
• A blank SUSPENSE FILE TABLE screen will appear.

B. Completing the SUSF Screen - Make the following entries next to or below the captions displayed on the screen. The cursor will place you in the first position of each of the data entry fields and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>When the SUSF screen is accessed, the cursor will be positioned in the ACTION field which is prefilled with an S, which means Scan Record. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>TABLEID:</td>
<td>The TABLEID field will contain the correct table code name. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>USERID:</td>
<td>Enter your four character PAR user identification code and your four character PAR password. (Your password will not be displayed on the screen.) The cursor will advance to the next field.</td>
</tr>
<tr>
<td>BATCH ID:</td>
<td>TRAN - Make no entry in this field. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>ORG 1:</td>
<td>Make no entry in this field. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>NUMBER:</td>
<td>Make no entry in this field. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>DOCUMENT ID:</td>
<td>TRAN - Always enter C5 in the first two positions of the Transaction Code. Use the TAB key to advance to the next field.</td>
</tr>
<tr>
<td>ORG 1:</td>
<td>Always enter 2500 in this field. The cursor will advance to the next field.</td>
</tr>
<tr>
<td>NUMBER:</td>
<td>Enter the 11 position alpha and numeric code assigned to the cash receipt document which requires approval.</td>
</tr>
</tbody>
</table>
After completing the TRAN, ORG 1, and NUMBER fields under the DOCUMENT ID caption, press ENTER.

- The cursor will return to the ACTION field on the action line of the screen.
- The ACTION field will now contain an R for Refill.
- The cash receipt document you requested will appear on the first data line of the screen.
- In addition to the DOCUMENT ID field which you completed, the STAT, APPRV, ENTRY DATE, LAST DATE, LAST TERMINAL and LAST USER fields will now be prefilled by the PAR System.

C. Accessing the CASH RECEIPT INPUT SCREEN and CASH RECEIPT LINE SCREEN for Approval - To access the CASH RECEIPT INPUT SCREEN, take the following actions.

- Type S for Scan Record over the R in the ACTION field on the action line of the screen.
- The correct TABLEID and your USERID will be prefilled in these fields.
- Use the RETURN key to advance the cursor to the first position of the first data line on the SUSF table screen.
- Press ENTER.
- The CASH RECEIPT INPUT SCREEN will be displayed.
- The cursor will be positioned in the ACTION field on the action line of the screen,
- The ACTION field will be blank,
- The MODE field will be prefilled with a C for Correction Mode,
- The DOCID field will be prefilled with the cash receipt document number you requested,
- The letters RH indicating additional handling required will be displayed under the STATUS caption,
Two messages will appear in the message area at the bottom of the CASH RECEIPT INPUT SCREEN;

- H -*S401-READY FOR APPROVAL 1,
- H -*F053-DOCUMENT NOT APPROVED.

**D. Approval Process** - Once the cash receipt document requiring approval and scheduling is accessed and visible on the screen, take the following actions.

- Review the information on the CASH RECEIPT INPUT SCREEN to verify all entries are correct. Complete or correct any data entry items as necessary.
- Type NS for Next Screen in the ACTION field on the action line of the screen.
- Press ENTER. This will access the CASH RECEIPT LINE SCREEN.
- The FUND:, BUDGET ORG/SUB:, BOC/SUB: and VND/PRV: on each line of activity will be filled from information entered into the PAR System when the billing document was established.
- Review the information on the CASH RECEIPT LINE SCREEN to verify all entries are correct. Complete or correct any data entry items as necessary.
- Perform the Quick Edit function as described in RCM 3.12.23.
- Correct any data entry errors if possible.
- If you are unable to correct data entry errors, return the cash receipt document to HOLD until corrective action can be determined.
- Type A for Approval in the ACTION field on the action line of the screen. Use the NEW LINE key ( ) to move the cursor to the APPRVL field.
- Type Y in the APPRVL field.
- Press ENTER.
- The CASH RECEIPT INPUT SCREEN will be displayed showing the following two messages in the message area at the bottom of the screen.
  - A -*S001-APPROVAL 1 APPLIED.
  - A -*CY41-APPROVED DOCUMENT.
E. **SCHEDULING THE CASH RECEIPT DOCUMENT FOR PAR PROCESSING.**

After the cash receipt document has been approved, it must be returned to the SUSPENSE FILE TABLE and scheduled for processing by PAR. This is accomplished as follows.

- Return the cursor to the ACTION field on the action line of the screen.
- Type the letter O for Off-line processing.
- Press ENTER. The SUSPENSE FILE TABLE screen will be displayed.

The cash receipt document you have just approved will be displayed on the top line in the data area of the screen. The STAT field will still show HELD and the APPRV field will still display five zeros.

To verify the cash receipt document has been approved and scheduled:

- Type N for Next Screen in the ACTION field on the action line of the screen.
- Press ENTER. A blank SUSPENSE FILE TABLE screen will be displayed.
- The ACTION field will be prefilled with an S for Scan Record,
- The TABLEID field will contain the correct table code name,
- The USERID field will contain your PAR user identification code and password.
- Position the cursor on the first line of the data area of the screen.
- Type C2 in the TRANS field under the DOCUMENT ID caption. Use the TAB key to advance to the next field.
- Type 2000 in the ORG 1 field. The cursor will advance to the next field.
- Type the 11 character alpha and numeric cash receipt document number you have just approved in the NUMBER field.
- Press ENTER.

The approved cash receipt document will appear on the top line in the data area of the screen. The STAT field will now show SCHED indicating the cash receipt document has been scheduled for processing. The first position of the APPRV field will display a Y, indicating the cash receipt document has been approved.
3.12.25 Waiver of Recovery Table (WAIV)

The Waiver of Recovery Table is used to maintain data related to request for reviews and waivers of payment. Examiners may enter and update the waiver date, waiver denial date and current status of the waiver process. A record is mechanically added to this table when a receivable is established.

A. Accessing the WAIV Screen - The WAIV screen is accessed as follows:

- Sign on to the PAR system as described in RCM 3.12.3
- Type “N” in the Action field. Your cursor will move to the “TableID” field.
- Type the Table ID name WAIV
- Press ENTER
- A blank WAIV table will appear.

B. Scanning the WAIV Screen - To scan for a receivable record on the WAIV table, make the following entries next to or below the captions displayed on the screen. The cursor will be positioned in the ACTION field.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>The action field will be prefilled with an 'S' if the WAIV table was accessed from another table or 'next task code' prompt, otherwise type 'S' in this field.</td>
</tr>
<tr>
<td>TABLE ID:</td>
<td>The TABLEID field will contain the correct table code name. Use the tab key to advance to the USER-ID field.</td>
</tr>
<tr>
<td>USERID:</td>
<td>Enter your four character PAR user identification code and your four character PAR password. The cursor will advance to the Billing Doc ID field.</td>
</tr>
<tr>
<td>BILLING DOC ID:</td>
<td>Enter the complete Billing Doc ID number, i.e. B5 123456789A1.</td>
</tr>
<tr>
<td></td>
<td>Press Enter: - The selected record will be displayed on the top line.</td>
</tr>
</tbody>
</table>

C. Completing the WAIV Screen - To update the status of the waiver/review status, make the following entries next to or below the captions displayed on the screen.
The cursor will place you in the first position of each of the data entry fields beginning with ACTION and will move through the screen in the following order.

<table>
<thead>
<tr>
<th>CAPTION</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTION:</td>
<td>Type 'C' over the 'R' displayed in this field. Use the TAB key to advance to the field to be updated.</td>
</tr>
<tr>
<td>WAIVER</td>
<td></td>
</tr>
<tr>
<td>EXPIRATION DATE:</td>
<td>Enter the expiration date for waiver request rights for this receivable. Enter MMDDYY.</td>
</tr>
<tr>
<td>WAIVER REQUEST:</td>
<td>Enter one of the following codes to indicate if a waiver or review has been requested.</td>
</tr>
<tr>
<td></td>

**STATUS CHANGE DATE:** Enter the date that the status was last changed.

Enter MMDDYY
3.13.1 MEDCOR

The on-line Medicare Correction system (MEDCOR) replaces the paper Medicare input Forms G-810 and G-811 with on-line data input screens. MEDCOR edits the Medicare activity information on-line. A MEDCOR activity file is created to update the Medicare Information Recorded, Transmitted, Edited, and Logged (MIRTEL) system.

3.13.2 MEDCOR/MEDREF (on-line Medicare Referral system) Database

MEDCOR activity information is kept in a combined MEDCOR/MEDREF database, separate from other systems and resides on the Railroad Automated Processing Integrated Database (RRAPID).

Completed activity information may not match the information on the MIRTEL On-line Inquiry (MOLI) database if a MIRTEL rerun or MOLI rollback is necessary. If a MIRTEL rerun is necessary, the activity file would be brought back into the MIRTEL run. When the rollback is complete, all activity updates would be correctly shown.

Information from pending and completed activities is kept on the MEDCOR/MEDREF database. Pending activities may be viewed, deleted or changed. Pending activities are held in the MEDCOR/MEDREF database until processed in the next daily MIRTEL run. Information about processed activities is also held for management reports. Limited information about the processed activities can be viewed.

3.13.3 MEDCOR Security

Access to MEDCOR is limited by levels of security established through ACF2. Each level allows the user to browse, create, update and delete activities associated with that level. Access is also limited to individual screens and fields within screens. In addition, various types of activity processing for miscellaneous input, formerly the Form G-811, are limited.

The USER field is the user's signon id and is displayed on all MEDCOR screens. The USER field cannot be changed by the user and is included on any activity which a user creates, changes or deletes. An audit trail is established based on the user signon. MEDCOR's levels of security are:

- MEDCORSEE - MEDCORSEE allows the user access to limited MEDCOR activities to create, view and delete.
- MEDCORBFS - In addition to MEDCORSEE, the field offices will have access to MEDCORBFS. MEDCORBFS allows the user access to specific MEDCOR activities for the Field Service to create, view and delete.
• MEDCORDPS - In addition to MEDCORSEE, DPS examiners will have access to MEDCORDPS. MEDCORDPS allows the user access to specific MEDCOR activities for the examiners in the Disability Section to create, view and delete.

• MEDCORORS - In addition to MEDCORSEE, OPRNS examiners will have access to MEDCORORS. MEDCORORS allows the user access to specific MEDCOR activities for the clerks and examiners in the Retirement Benefits Division and the Survivor Benefits Division to create, view and delete.

• MEDCORMPS - In addition to MEDCORSEE, MS examiners will have access to MEDCORMPS. MEDCORMPS allows the user access to all MEDCOR activities for the examiners in the Medicare Section to create, view and delete.

• MEDCORMNG - In addition to MEDCORSEE supervisory access will have access to MEDCORMNG. MEDCORMNG allows the user access to all MEDCOR activities for MS supervisors and other designated individuals to create, view and delete and an additional delete function.

3.13.4 MEDCOR Screens

Screen MCMM001, the MEDCOR MENU screen, is the first screen displayed when entering MEDCOR and allows the user access to the various MEDCOR screens.

Most of the MEDCOR screens are used for inputting activity information. The activity screens are used to establish, maintain or delete a Medicare record on MIRTEL, and when necessary to update the Entitlement Database (EDB) at the Centers for Medicare & Medicaid Services.

The following are MEDCOR’s 11 main activity screens:

• Screen MCMU011 – MISCELLANEOUS INPUT;
• Screen MCMU012 – ACTIVITY 12 ESTABLISH/SCREEN SS;
• Screen MCMU013 – ACTIVITY 13 ESTABLISH ONLY;
• Screen MCMU020 – ACTIVITY 20 INTERNAL CHANGE;
• Screen MCMU021 – ACTIVITY 21 RESCREEN SS;
• Screen MCMU022 – ACTIVITY 22 INTERNAL CHANGE/URIC;
• Screen MCMU031 – ACTIVITY 31 ESTABLISH/CROSS REFER SS;
• Screen MCMU032 – ACTIVITY 32 CORRECT/CROSS REFER SS;
• Screen MCMU033 – ACTIVITY 33 ESTABLISH/CROSS REFER RR; and
• Screen MCMU034 – ACTIVITY 34 CORRECT/CROSS REFER RR.

• Screen MCMU162 – ACTIVITY 62 DUPLICATE MEDICARE CARD REQUEST

The following are MEDCOR's subordinate activity screens:

• Screen MCMU014 - VARIABLE PART B;

• Screen MCMU015 - PREVIOUS INFORMATION;

• Screen MCMU016 – ADDRESS; and

• Screen MCMU214 – PART B PREMIUM REDUCTION / IRMAA.

The main activity screens are accessed from Screen MCMM001. The subordinate screens are accessed from certain main activity screens in MEDCOR.

There are also 2 MEDCOR screens displaying limited information about MEDCOR activities: Screen MCMU017 (Pending Activities List screen) and Screen MCMI018 (Completed Activities List screen).

When a MEDCOR screen is displayed, the cursor is always placed on the first field which an entry can be made or changed. After an entry is made in this field, the cursor will then be placed on the next field which an entry can be made or changed in either the right or left column. If an error is detected, the cursor will be placed on the first incorrect field.

Some fields on the MEDCOR activity screens are for on-line editing, some fields are for display only (protected fields), and others will be used for additional processing at a later date.

### 3.13.5 Prefilling MEDCOR Screens

**A. For New Activities**

For newly created activities, the fields on MEDCOR Screens MCMU012, MCMU013, MCMU014, MCMU015, MCMU016, MCMU031 and MCMU033 will be blank. However, if there is a record on DATAQ, Screen MCMU016 will be prefilled from DATAQ.

For newly created activities, certain fields on MEDCOR Screens MCMU011, MCMU014, MCMU015, MCMU020, MCMU021, MCMU022, MCMU032, and MCMU034 will be prefilled with information from the MOLI database. Screen MCMU016 and MCMU162 will be prefilled from MOLI if there is an address on the MOLI record. If the address is not on MOLI but there is a record on DATAQ, Screen MCMU016 and MCMU162 will be prefilled from DATAQ.

**B. For Pending Activities**
For pending activities, the fields on the MEDCOR screens will contain data that was previously entered on the MEDCOR activity screens and added to MEDCOR. If a subordinate screen was not added to MEDCOR, the fields on the subordinate screens will be blank, even if previously prefilled.

### 3.13.6 Colors On MEDCOR Screens

Colors are consistent on all MEDCOR screens. The following colors are used:

- Blue is used for program names, map name, current date, page, time, directional messages and field labels.
- White is used for screen title, variable messages and user entered data and prefilled fields that can be changed.
- Red is used for error messages.
- Red reverse video is used for fields that do not pass the edits.
- Green is used for data fields which cannot be changed.
- Pink is used for system changed fields.

### 3.13.7 Layout Of MEDCOR Screens

The layout of the MEDCOR screens is consistent. The following applies:

- Row 1 has the screen id (map name), title and date and cannot be changed by the user.
- Row 2 has dialog name, title and time and cannot be changed by the user.
- Row 3 on the main activity screens has the RRB claim number. For the subordinate activity screens, Row 3 has the RRB claim number and the activity input number.
- Rows 4 through 19 contain the data headings and fields. Data headings cannot be changed by the user. The last line of data has the unit and user id.
- Rows 20 and 21 display system generated information or error messages and cannot be changed by the user.
- Row 22 displays '----RESPONSES----.'
- Rows 23 and 24 display valid key functions.
3.13.8 Help Screen On MEDCOR

The Help Messages were created by using the On-line Help (OLH), a package which works with the database system. The Help Message allows for instructions or examples to be displayed by pressing the PF1 key. Help information is displayed for a screen. However, if the cursor is placed on a specific field where help information is defined, help information is displayed for that field.

3.13.9 Function Keys On MEDCOR

The following function keys are the same for all MEDCOR screens:

- **CLEAR** exits a screen and goes to the previous screen within MEDCOR. If the activity screen was not added via the PF2 key, the data will not be used to create an activity or change a pending activity. If deleting a pending activity, if the activity screen was not deleted via the PF4 key, the activity will remain on MEDCOR. If on Screen MCM001, the MEDCOR Menu screen, clear will exit MEDCOR and returns to the RRAPID MAIN MENU screen.

- **PF1** displays the HELP SCREEN associated with the screen or field which the cursor is on.

- **PF24** displays a list of all key functions even if not applicable for the screen.

The following function keys are used on selected MEDCOR screens:

- **ENTER** processes the selection made on Screen MCMM001, the MEDCOR Menu screen and Screen MCMU017, the Pending Activities List screen.

- **PA1** goes to Screen MCMM001, the MEDCOR Menu screen. If the activity screen was not added via the PF2 key, the data will not be used to create an activity or change a pending activity. If deleting a pending activity, if the activity screen was not deleted via the PF4 key, the activity will remain on MEDCOR.

- **PA2** exits MEDCOR and returns to the RRAPID MAIN MENU screen. If the activity screen was not added via the PF2 key, the data will not be used to create an activity or change a pending activity. If deleting a pending activity, if the activity screen was not deleted via the PF4 key, the activity will remain on MEDCOR.

- **PF2** adds the entries made on a main or subordinate activity screen to MEDCOR after passing edits.

All entries made on any subordinate activity screen will be held until the main activity screen is added. The user will return to the main activity screen after the PF2 key is pressed twice on the subordinate activity screen.
When the main activity screen is added, all entries from added subordinate activity screens and the entries from the main activity screen will be added to the MEDCOR/MEDREF database and be used to create the activity record to update the MIRTEL master record. From the main activity screen, the user will return to Screen MCM001, the MEDCOR Menu screen, or Screen MCM017, the Pending Activities List screen, after the PF2 key is pressed twice.

The user who created the activity can change the pending activity they created. Only managers can change any activity on MEDCOR.

- PF4 deletes screens with activity information which was previously added on MEDCOR. If a main activity screen is deleted, any subordinate activity screens previously added to MEDCOR will also be deleted. A subordinate activity screen may be deleted, leaving the main activity screen.

The user will return to Screen MCM017 after the PF4 key is pressed twice from a pending main activity screen. The user will return to the main activity screen after the PF4 key is pressed twice from a pending subordinate activity screen.

The user who created the activity may delete an activity they created. The users can only delete the activity from the pending activity screen. Only a manager can delete any activity on MEDCOR and delete the activity from Screen MCM017, the Pending Activities List screen.

- PF5 refreshes the screen to the original information that was on the screen, blank, prefilled information from MOLI/DATAQ or what was added or changed on MEDCOR.

- PF7 pages to a previous page of information on Screen MCM017, the Pending Activities List screen and Screen MCM018, the Completed Activities List screen. This is true only if the claim number entered was in the database.

- PF8 pages to the next page of information on Screen MCM017, the Pending Activities List screen and Screen MCM018, the Completed Activities List screen. This is true only if the claim number entered was in the database.

- PF9 displays Screen MCM001, the MEDCOR Menu screen.

- PF14 brings up Screen MCM014, the Variable Part B screen.

- PF15 brings up Screen MCM015, the Previous Information screen.

- PF16 brings up Screen MCM016, the Address screen.

- PF17 brings up Screen MCM017, the Pending Activities List screen.

- PF18 brings up Screen MCM018, the Completed Activities List screen.
• PF 19 pages to the first page of information on Screen MCMU017, the Pending Activities List screen and Screen MCMI018, the Completed Activities List screen.

• PF20 pages to the last page of information on Screen MCMU017, the Pending Activities List screen and MCMI018, the Completed Activities List screen.

### 3.13.10 Creating, Changing Or Deleting An Activity On MEDCOR

Depending on the type of main activity screen, some of the subordinate activity screens are mandatory while others are optional. To create an activity record to update MIRTEL, a main and any subordinate activity screens must be added to MEDCOR. In order to include the information from any subordinate activity screens to the activity record to update MIRTEL, a main activity screen must be added to MEDCOR.

If the claim number, unit, (if applicable, beneficiary’s social security account number (SSAN), pseudo number) and activity input fields are correct, information on a pending activity, either a main or subordinate activity screen, may be changed. A subordinate activity screen may also be added to a pending activity if not previously added. A pending activity may also be deleted. In addition, information on a subordinate activity screen may be deleted leaving the main activity screen to be processed. However, if a main activity screen is deleted, any subordinate activity screen are also deleted.

Except for managers deleting an activity, any changes or deletions of a pending activity must be made from the main or subordinate activity screens. The pending activity screens will be in the corresponding main or subordinate activity edit screens.

After the PF2 key is pressed twice, (to add a newly created activity or to add changes made to a pending activity), on the activity screens, the information from the subordinate activity screens is included on the activity record with the information from the main activity screen to create the activity record to update MIRTEL. After the PF4 key is pressed twice (to delete an activity that was previously added to MEDCOR), on the activity screens or on Screen MCMU017, the information from the main activity screen and any subordinate activity screens will be deleted.

### 3.13.11 Accessing MEDCOR

Access to MEDCOR is through RRAPID. Access the RRAPID MAIN MENU as instructed in RCM 16.2.5. When the RRAPID MAIN MENU appears, type 27 in the NEXT SELECTION field on the RRAPID MAIN MENU screen and press ENTER. Screen MCMM001 - the MEDCOR Menu screen will appear.

MEDCOR uses the "Hot Key" function. The user can go to other systems on RRAPID without having to reenter the identifying data. Each system allows the user to change the identifying data.
3.13.12 Screen MCMM001 - MEDCOR Menu Screen

Screen MCMM001 is the first screen displayed when entering MEDCOR. Screen MCMM001 allows the user to access the MEDCOR main activity screens, Screen MCMU017 and Screen MCMI018.

If MEDCOR was entered via the "Hot Key" function, the claim number, beneficiary social security number and pseudo number may be carried over and inserted in the CLAIM NUMBER, BEN SSA NUMBER and PSEUDO NUMBER fields. These fields may be typed over or spaced out.

Below is an example of Screen MCMM001.

A. Accessing a Main Activity Screen on MEDCOR
To access a main activity screen to create an activity on MEDCOR, entries are mandatory in the UNIT, CLAIM NUMBER AND ACTIVITY INPUT fields on Screen MCMM001.

Entries should be made in the BEN SSA NUMBER and PSEUDO NUMBER fields on Screen MCMM001 as follows:

- **For Employees:** Make no entry in the BEN SSA NUMBER and PSEUDO NUMBER fields on Screen MCMM001.

- **For Beneficiaries Other Than Employees:**
  - If there is no MOLI record and the beneficiary does not have a pseudo number, make an entry only in the BEN SSA NUMBER field on Screen MCMM001.
  - If there is no MOLI record and the beneficiary does have a pseudo number, make an entry in the BEN SSA NUMBER and PSEUDO NUMBER (MS only) fields on Screen MCMM001.
  - If there is a MOLI record and the beneficiary does not have a pseudo number, make an entry only in the BEN SSA NUMBER field on Screen MCMM001.
  - If there is a MOLI record and the beneficiary does have a pseudo number, make an entry only in the PSEUDO NUMBER field on Screen MCMM001.

See Appendix A for entries for the edit fields on Screen MCMM001.

After entries are made in the UNIT, CLAIM NUMBER, BEN SSA NUMBER and/or PSEUDO NUMBER and ACTIVITY INPUT fields on Screen MCMM001, press the ENTER key. The MEDCOR main activity screen will then be displayed. For more information on the MEDCOR activity screens, see 3.13.13 through 3.13.18 and 3.13.21 through 3.13.27.

**B. Accessing Screen MCMU017 or Screen MCMI018**

To access Screens MCMU017 or MCMI018 an entry is mandatory in the UNIT field on Screen MCMM001. Entry in the CLAIM NUMBER field on Screen MCMM001 is optional. Entries should not be made in the BEN SSA NUMBER, PSEUDO NUMBER and ACTIVITY INPUT fields on Screen MCMM001. See Appendix A for entries for the edit fields on Screen MCMM001.

After entries are made in the UNIT field and if applicable, the CLAIM NUMBER field on Screen MCMM001, press PF17 to display Screen MCMU017 or press PF18 to display Screen MCMI018. For more information, see 3.13.19 for Screen MCMU017 and 3.13.20 for Screen MCMI018.
3.13.13 Screen MCMU011 - Miscellaneous Input Screen

Screen MCMU011 is a main activity screen. Screen MCMU011 allows the user to create various activities which include, deleting a MIRTEL record, making updates to a MIRTEL record and the EDB, secure jurisdictional clearance from SSA, clears jurisdiction, initiate the release of a Medicare identification card, etc. All users who have access to MEDCOR have access to Screen MCMU011. However, the activities that the user can create are limited.

Screen MCMU011 is accessed by entering 11 in the ACTIVITY INPUT field on Screen MCMM001 for a new miscellaneous input activity or selecting a pending miscellaneous input activity from Screen MCMU017.

If the day of birth is 00, the system will display 15. The MIRTEL master will also be updated with the 15 in the day position when the activity is processed. If the month and day are 00, use Screen MCMU022 to create the activity.

To create a miscellaneous input activity an entry is mandatory in the ACTIVITY field on Screen MCMU011 and entries in other fields on Screen MCMM011 should be made as follows:

- If the entry in the ACTIVITY field on Screen MCMU011 is a 05, 22, 26, 52, 60, 61, 62, 98 or 99, no other entry should be made on Screen MCMU011.
- If the entry in the ACTIVITY field on Screen MCMU011 is a 23, 24, 25, 27, 50 or 51, entries should also be made in the EVENT CODE and EVENT DATE fields on Screen MCMU011. No other entries should be made on Screen MCMU011.
- If a 06 is entered in the ACTIVITY field on Screen MCMU011, entries are optional in the EVENT CODE and EVENT DATE fields; either enter both or leave both blank. No other entries should be made on Screen MCMU011.
- If the entry in the ACTIVITY field on Screen MCMU011 is a 21, 30, 32 or 36, an entry should be made in the FORMER SS CL NO field on Screen MCMU011. No other entries should be made on Screen MCMU011.
- If the entry in the ACTIVITY field on Screen MCMU011 is a 34 or 35, an entry should be made in the FORMER RR CL NO field on Screen MCMU011. No other entries should be made on Screen MCMU011.

See Appendix B for valid entries for the edit fields on Screen MCMU011.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for that activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU011. PF2 will also add the changes made on Screen MCMU011 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.
Below is an example of Screen MCMU011.

### 3.13.14 Screen MCMU012 - MEDCOR Activity 12 Establish/Screen SS Screen

Screen MCMU012 is a main activity screen. Screen MCMU012 allows the user to create a MIRTEL record, secure jurisdictional clearance from SSA, establish the EDB record when jurisdiction clears, initiate the release of a Medicare identification card and
if necessary, start the premium deduction. Screen MCMU012 is restricted to MS and OPRNS users.

Screen MCMU012 is accessed by entering 12 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 12 or selecting a pending Activity 12 from Screen MCMU017. When Screen MCMU012 is added to MEDCOR, Screen MCMU016 must also be added.

Entries in the following edit fields on Screen MCMU012 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH, HI DATE OF BIRTH, EE SSA NUMBER, PART A EFF DATE, PART B OPTION and ID ISSUE CODE.

Entries in the PSEUDO NUMBER and BEN SSA NUMBER fields on Screen MCMU012 are carried over from Screen MCMM001 and cannot be changed on Screen MCMU012. Entry in BEN SSA NUMBER is required on Screen MCMM001. If assigning a pseudo number, entries in both the BEN SSA NUMBER and PSEUDO NUMBER fields on Screen MCMM001 should be made.

Entries in the ANN BEGIN DATE and 1ST FULL MO DIS edit fields on Screen MCMU012 are optional for disabled children and mandatory for other disabled type beneficiaries, otherwise the entries in these fields are optional.

Based on the entries in other fields on Screen MCMU012, entries in the following edit fields on Screen MCMU012 are optional: FORMER SS CL NO, PART B FILING DATE, GEP CODE, PART B EFF DATE, PART B PREM RATE and PAYEE CODE. Entry in the GEP CODE field will not be used to update MIRTEL.

BENEFICIARY NAME field is protected on the activity screen and will be blank until Screen MCMU016 is added. After Screen MCMU016 is added, the name entered there will be displayed on Screen MCMU012. If the name is incorrect after Screen MCMU016 was added, go back to Screen 16, make correction and add the screen again.

Entry in the EQ RELIEF ENROLL edit field is optional but restricted to MS users and will not be used to update MIRTEL.

See Appendix C for valid entries for the edit fields on Screen MCMU012.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU012. PF2 will also add the changes made on Screen MCMU012 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU012.
### 3.13.15 Screen MCMU013 - MEDCOR Activity 13 Establish Only Screen

Screen MCMU013 is a main activity screen. Screen MCMU013 allows the user to create a MIRTEL record without any information being sent to SSA or CMS, release a
Medicare identification card and if necessary, start, stop or change the premium deduction. Screen MCMU013 is restricted to MS users.

Screen MCMU013 is accessed by entering 13 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 13 or selecting a pending Activity 13 from Screen MCMU017. When Screen MCMU013 is added to MEDCOR, Screen MCMU016 must also be added. Screen MCMU014 and Screen MCMU015 can be accessed, but cannot be added as part of the activity.

Entries in the following edit fields on Screen MCMU013 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH, HI DATE OF BIRTH, EE SSA NUMBER, PART A EFF DATE, PART B OPTION and ID ISSUE CODE.

Entries in the PSEUDO NUMBER and BEN SSA NUMBER fields on Screen MCMU013 are carried over from Screen MCMM001 and cannot be changed on Screen MCMU013. Entry in BEN SSA NUMBER is required on Screen MCMM001. If establishing a MIRTEL record with a pseudo number, entries in both the BEN SSA NUMBER and PSEUDO NUMBER fields on Screen MCMM001 should be made.

Based on the entries in other fields on Screen MCMU013, entries in the following edit fields on Screen MCMU013 are optional: FORMER SS CL NO, ANN BEGIN DATE, 1ST FULL MO DIS, PART B FILING DATE, EQ RELIEF ENROLL, PART B EFF DATE, PART B TERM DATE, PART B TERM CODE, PART B PREM RATE, PAID THRU DATE, EXCESS PREMIUM, SBI ACC DATE, SBI DEL DATE, 3RD PTY/PROT CODE, PAYEE CODE, DATE OF DEATH. Entries in the EQ RELIEF ENROLL and PART B TERM CODE fields will not be used to update MIRTEL.

BENEFICIARY NAME field is protected on the activity screen and will be blank until Screen MCMU016 is added. After Screen MCMU016 is added, the name entered there will be displayed on Screen MCMU013. If the name is incorrect after Screen MCMU016 was added, go back to Screen 16, make correction and add the screen again.

No entries can be made in the PART A TERM DATE, DELINQUENCY DATE and ARREARAGE DUE CODE fields on Screen MCMU013. The PART A TERM DATE and ARREARAGE DUE CODE fields are for future use and will not be used for editing purposes or updating the MIRTEL. The DELINQUENCY DATE field is calculated by MEDCOR.

See Appendix C for valid entries for the edit fields on Screen MCMU013.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU013. PF2 will also add the changes made on Screen MCMU013 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.
Below is an example of Screen MCMU013.

3.13.16 Screen MCMU014 - MEDCOR Variable Part B Screen

Screen MCMU014 is a subordinate activity screen. Screen MCMU014 allows the user to create an activity with information about the Medicare Part B premium and is optional. This screen added with Screens MCMU022 and MCMU016 will create an activity formerly known as a "17."

Screen MCMU014 may only be accessed through the following main activity screens: Screen MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 or MCMU034 by pressing the PF14 key. The data on Screen MCMU014 will only be added to an activity record when Screen MCMU022 is added.

The PART B PREMIUM RATE field on Screen MCMU014 will always be carried over from the main activity. If an entry is made in the PART B PREMIUM RATE field on Screen MCMU014 that is different from what was entered on the main activity screen, the corresponding field on the main activity field will also be changed. When the main activity appears, the PART B PREMIUM RATE field on the main activity screen will be protected. If necessary to change the Part B premium rate, the change must be made on Screen MCMU014.

If Screen MCMU014 is added to MEDCOR, entries in the following edits fields on Screen MCMU014 are mandatory: PART B PREM RATE, CURR RESIDENCY CD, CURR VAR RATE CD, CURR PEN PERCENT and CURR CAT EFF DATE. If the entry in the CURR VAR RATE CD field on Screen MCMU014 is "V," an entry must also be made in CURR VAR BASE RATE. The entries in these fields will only be used to update MIRTEL when Screen MCMU022 is added.

No entries or changes can be made to the PREV PART B PREM RATE, PREV RESIDENCY CD, PREV VAR RATE CD, PREV PEN PERCENT, PREV CAT EFF DATE, PREV CAT ACCTG DATE, PREV VAR BASE RATE, 2ND PART B PREM RATE, 2ND RESIDENCY CD, 2ND VAR RATE CD, 2ND PEN PERCENT, 2ND CAT EFF DATE, 2ND CAT ACCTG DATE, 2ND VAR BASE RATE, 3RD PART B PREM RATE, 3RD RESIDENCY CD, 3RD VAR RATE CD, 3RD PEN PERCENT, 3RD CAT EFF DATE, 3RD CAT ACCTG DATE, 3RD VAR BASE RATE fields. These fields are for future use and will not be used for editing purposes or updating of the MIRTEL.

See Appendix D for valid entries for the edit fields on Screen MCMU014.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU014. PF2 will also add the changes made on Screen
MCMU014 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU014.

3.13.17 Screen MCMU015 - MEDCOR Previous Information Screen

Screen MCMU015 is a subordinate activity screen. Screen MCMU015 will display information that is not currently available to view on MOLI. This screen is for display only. The data displayed cannot be changed and will not be used to update MIRTEL.

Screen MCMU015 may only be accessed through one of the following main activity screens: Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 or MCMU034 by pressing the PF15 key.

See Appendix E for an explanation of what is in the fields on Screen MCMU015.

Below is an example of Screen MCMU015.

```

3.13.18 Screen MCMU016 - MEDCOR Address Screen

Screen MCMU016 is a subordinate activity screen. Screen MCMU016 allows the user to add, change or delete information about the address.

Screen MCMU016 is accessed through one of the following main activity screens: Screens MCMU012, MCMU013, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 or MCMU034 by pressing the PF16 key. If Screen MCMU022 is added with Screen MCMU014 to change the Part B premium, Screen MCMU016 must also be added.

Screen MCMU016 must be added when Screens MCMU012, MCMU013, MCMU031 and MCMU033 are added. Screen MCMU016 is optional when Screens MCMU021, MCMU022, MCMU032 and MCMU034 are added.

An entry should be made in the REP PAYEE CODE field on Screen MCMU016 only when a beneficiary has a representative payee. The NAME field on Screen MCMU016 should be filled with the beneficiary name or with the representative name if the REP PAYEE CODE field on Screen MCMU016 is completed. The first NAME/ADDRESS field on Screen MCMU016 should be completed. The second NAME/ADDRESS and the ADDRESS fields on Screen MCMU016 are optional depending on what information is required to complete the address.

The name entered on Screen MCMU016 will be carried over to the activity screens and cannot be changed on the activity screens. If the name is incorrect on an activity screen, user must change the name on MCMU016 and add the screen in order to update MIRTEL.

See Appendix F for valid entries for the edit fields on Screen MCMU016.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU016. PF2 will also add the changes made on Screen MCMU016 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU016.

3.13.19 Screen MCMU017 - MEDCOR Pending Activities List Screen

A. GENERAL INFORMATION

Screen MCMU017 will be displayed when the PF17 key is pressed on Screen MCMM001.

Screen MCMU017 lists the claim numbers of activities that were added to MEDCOR which are being held in the MEDCOR/MEDREF database pending MIRTEL processing. The claim numbers will appear in ascending claim number order. The activity will remain on Screen MCMU017 until the next daily MIRTEL run.

Also displayed on this screen are the type of activity (22L, 22S 31S, 32L, etc), the status of the activity (pending or deleted), the unit and user id of the user who created the activity and the date the activity was created.

When a 62L activity is created, the activity will show on the Pending Activities List screen with an ACT STATUS code of “P” (Pending) and the ACT DATE will be the date it is created. Each day Program 26162 is run to generate the file that is used to print replacement Medicare cards, and the ACT STATUS will change to a
“G” (Card Generated). The ACT DATE will be the date the activity was created. The information will remain on Screen MCMU017 until the next MIRTEL run. Examiners cannot delete or view activities with a “G” status code. Note: If a 62L is created during the dark days, the ACT STATUS will not change to a “G” until the first MIRTEL run after MAMMA.

If a claim number appears on Screen MCMU017, the pending activity can be selected to be changed or deleted. Managers can delete any pending activity from Screen MCMU017. All other users can only delete their own pending activity from the pending activity screen.

To display a pending activity, the user must locate the claim number on Screen MCMU017 and enter a 'P' to the left of the claim number and then press ENTER. The main activity screen for the pending activity will then be displayed and can be deleted or changed. If a subordinate activity must be added, changed or deleted, the user would then access it from the pending main activity screen.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will add the changes made on pending activity screen. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU017.

**3.13.20 Screen MCMI018 - MEDCOR Completed Activities List Screen**

A. **GENERAL INFORMATION**

Screen MCMI018 will be displayed when the PF18 Key is pressed on Screen MCMM001.

Screen MCMI018 lists information about MEDCOR activities. The claim numbers will appear in ascending claim number order. Also displayed on this screen are the type of activity (22L, 22S 31S, 32L, etc), the unit and user id of the user who created the activity and the date of the MIRTEL run, or in the case of Activity 62L, the date the activity was created.

If the user wants to determine if an activity was created and processed in the daily MIRTEL run, the user can page through the claim numbers on Screen MCMI018.

Information for the completed activities will be created when the activities are processed into the daily MIRTEL run. The completed activities will remain on the Completed Activities screen MCMI018 until the end of the month when the data is written to MEDCOR reports. The completed activities will be purged from screen MCMI018 when the MEDCOR reports are generated on the first work day of the next month.
Below is an example of Screen MCMI018.

CLEAR/PA1=MENU     PA2=RRAPID     PF1=HELP
PF7=PREV   PF8=NEXT   PF19=FIRST   PF20=LAST   PF24=KEYS

Then, when on Screen MCMI018, the PF7 and PF8 keys will not bring up the previous or next screen of information. Instead, user will get a message that there are no lower or no higher completed activities in the database. However, the PF19 key will bring up the first screen of information and the PF20 key will bring up the last screen of information.
3.13.21 Screen MCMU020 - MEDCOR Activity 20 Internal Change Screen

Screen MCMU020 is a main activity screen. Screen MCMU020 allows the user to make changes to the MIRTEL master record without sending information to CMS. This is used primarily to correct the paid thru date, to record State Buy-In information and remove a termination prior to the termination date. Screen MCMU020 is restricted to MS and OPRNS users.

Screen MCMU020 is accessed by entering 20 in the ACTIVITY INPUT field on the Screen MCMM001 for a new Activity 20 or selecting a pending Activity 20 from Screen MCMU017. Screen MCMU014 and Screen MCMU015 can be accessed for viewing only and cannot be added as part of the activity.

Valid data is required in the following edit fields on Screen MCMU020: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH and HI DATE OF BIRTH. Because the data in the TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH or HI DATE OF BIRTH fields on Screen MCMU020 are protected, if the information is incorrect, use Screen MCMU022. An entry is also mandatory in the RECORD STATUS field on Screen MCMU020.

The entry in the PSEUDO NUMBER field on Screen MCMU020 is carried over from Screen MCMM001 and cannot be changed on Screen MCMU020.

Based on the entries in other fields on Screen MCMU020, entries in the following edit fields on Screen MCMU020 are optional: ANN BEGIN DATE, 1ST FULL MO DIS, PART A TERM DATE, PART B OPTION, EQ RELIEF ENROLL, GEP CODE, PART B EFF DATE, PART B TERM DATE, PART B TERM CODE, PART B PREM RATE, PAID THRU DATE, EXCESS PREMIUM, ARREARAGE DUE CODE, SBI ACC DATE, SBI DEL DATE, 3RD PTY/PROT CODE, PAYEE CODE and ID ISSUE CODE. Entries in the EQ RELIEF ENROLL, GEP CODE, PART B TERM CODE and ARREARAGE DUE CODE fields will not be used to update MIRTEL.

No entries can be made in the BENEFICIARY NAME, DELINQUENCY DATE, PREV SBI ACC DATE and PREV SBI DEL DATE fields on Screen MCMU020. The data in the BENEFICIARY NAME, PREV SBI ACC DATE and PREV SBI DEL DATE fields are for future use and will not be used for editing purposes or updating of the MIRTEL. The DELINQUENCY DATE field is calculated by MEDCOR. If a name change is required, use Screen MCMU022 and also add Screen MCMU016.

See Appendix C for valid entries for the edit fields on Screen MCMU020.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU020. PF2 will also add the changes made on Screen MCMU020 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.
Below is an example of Screen MCMU020.

3.13.22 Screen MCMU021 - MEDCOR Activity 21 Rescreen SS Screen

Screen MCMU021 is a main activity screen. Screen MCMU021 allows an examiner to make limited changes to the MIRTEL master record and sends a new screening record to SSA. Screen MCMU021 is restricted to MS users.

Screen MCMU021 is accessed by entering 21 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 21 or selecting a pending Activity 21 from Screen MCMU017. Screen MCMU016 is optional.

Entries in the following edit fields on Screen MCMU021 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH, HI DATE OF BIRTH and FORMER SS CL NO. RECORD STATUS field is a protected field and cannot be changed. If MIRTEL has a record status of 31, MEDCOR will convert it to a 21 on the activity screen. If necessary to change the record status, use Screen MCMU022 first, then do your rescreening action.

Entries in the PSEUDO NUMBER and BEN SSA NUMBER fields on Screen MCMU021 are carried over from Screen MCMM001 and cannot be changed on Screen MCMU021. Entry in the EE SSA NUMBER field will be prefilled if a 9 digit RRB claim number, otherwise, this field will be blank. The EE SSA NUMBER field is a protected field.

Based on the entries in other fields on Screen MCMU021, entries in the following edit fields on Screen MCMU021 are optional: ANN BEGIN DATE, 1ST FULL MO DIS, PART A EFF DATE, PART B FILING DATE, PART B OPTION, EQ RELIEF ENROLL, PART B EFF DATE, PART B PREM RATE, PAYEE CODE and ID ISSUE CODE.

Entry in the BENEFICIARY NAME field is prefilled from MOLI is protected. If necessary to change the name, the change must be made on Screen MCMU016 and Screen MCMU016 must be added. When Screen MCMU016 is added, the change will be reflected on Screen MCMU021. If the name is incorrect after Screen MCMU016 was added, go back to Screen MCMU016, make correction and add the screen again.

See Appendix C for valid entries for the edit fields on Screen MCMU021.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU021. PF2 will also add the changes made on Screen MCMU021 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU021.

<table>
<thead>
<tr>

<tbody>
<tr>
<td>MCMD021</td>
<td>ACTIVITY 21 RESCREEN SS</td>
<td>HH:MM</td>
</tr>
</tbody>
</table>
Screen MCMU022 - MEDCOR Activity 22 Internal Change/URIC Screen

Screen MCMU022 is a main activity screen. Screen MCMU022 allows the user to make changes to the MIRTEL master record and sends a Universal RIC record to CMS. Screen MCMU022 is restricted to MS and OPRNS users.

When Screen MCMU022 is used and Screens MCMU014 and MCMU016 are added, former activity 17 will be created.
Screen MCMU022 is accessed by entering 22 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 22 or selecting a pending Activity 22 from Screen MCMU017. Screen MCMU016 and Screen MCMU014 are optional. Screen MCMU015 can be accessed for viewing only and cannot be added as part of the activity.

Entries in the following edit fields on Screen MCMU022 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH and HI DATE OF BIRTH.

The entry in the PSEUDO NUMBER field on Screen MCMU022 is carried over from Screen MCMM001 and cannot be changed on Screen MCMU022.

Based on the entries in other fields on Screen MCMU022, entries in the following edit fields on Screen MCMU022 are optional: ANN BEGIN DATE, 1ST FULL MO DIS, PART A EFF DATE, PART A TERM DATE, PART B FILING DATE, PART B OPTION, EQ RELIEF ENROLL, PART B EFF DATE, PART B TERM DATE, PART B TERM CODE, PART B PREM RATE, PAID THRU DATE, EXCESS PREMIUM, ARREARAGE DUE CODE, SBI ACC DATE, SBI DEL DATE, 3RD PTY/PROT CODE, PAYEE CODE, ID ISSUE CODE and DATE OF DEATH. Entries in the EQ RELIEF ENROLL, ARREARAGE DUE CODE and PART B TERM CODE fields will not be used to update MIRTEL.

No entry can be made in the DELINQUENCY DATE field on Screen MCMU022. The DELINQUENCY DATE field is calculated by MEDCOR.

Entry in the BENEFICIARY NAME field is prefilled from MOLI is protected. If necessary to change the name, the change must be made on Screen MCMU016 and Screen MCMU016 must be added. When Screen MCMU016 is added, the change will be reflected on Screen MCMU022. If the name is incorrect after Screen MCMU016 was added, go back to Screen MCMU016, make correction and add the screen again.

See Appendix C for valid entries for the edit fields on Screen MCMU022.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU022. PF2 will also add the changes made on Screen MCMU022 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU022.

```
MCMU022   MEDCOR/MEDREF   MM/DD/YY
MCDU022   ACTIVITY 22 INTERNAL CHANGE/URIC   HH:MM
          XCA 000-00-0000

BENEFICIARY NAME
```
Screen MCMU031 is a main activity screen. Screen MCMU031 allows the user to create a MIRTEL master record and sends a Universal RIC to transfer utilization from a SSA number to a RRB number. This screen is restricted to MS users.

Screen MCMU031 is accessed by entering 31 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 31 or selecting a pending Activity 31 from Screen
MCMU017. When Screen MCMU031 is added to MEDCOR, Screen MCMU016 must also be added. Screen MCMU014 and Screen MCMU015 can be accessed, but cannot be added as part of the activity.

Entries in the following edit fields on Screen MCMU031 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH, HI DATE OF BIRTH, EE SSA NUMBER, FORMER SS CL NO, PART A EFF DATE, PART B OPTION and ID ISSUE CODE.

Entries in the PSEUDO NUMBER and BEN SSA NUMBER fields on Screen MCMU031 are carried over from Screen MCMM001 and cannot be changed on Screen MCMU031. Entry in BEN SSA NUMBER is required on Screen MCMM001. If establishing a MIRTEL record with a pseudo number, entries in both the BEN SSA NUMBER and PSEUDO NUMBER fields on Screen MCMM001 should be made.

Based on the entries in other fields on Screen MCMU031, entries in the following edit fields on Screen MCMU031 are optional: ANN BEGIN DATE, 1ST FULL MO DIS, PART B FILING DATE, EQ RELIEF ENROLL, PART B EFF DATE, PART B TERM DATE, PART B TERM CODE, PART B PREM RATE, PAID THRU DATE, EXCESS PREMIUM, SBI ACC DATE, SBI DEL DATE, PAYEE CODE and DATE OF DEATH. The entries made in the EQ RELIEF ENROLL and PART B TERM CODE will not be used to update the MIRTEL.

No entries can be made in the DELINQUENCY DATE and ARREARAGE DUE CODE fields of Screen MCMU031. The ARREARAGE DUE CODE field is for future use and will not be used for editing purposes or updating of the MIRTEL. The DELINQUENCY DATE field is calculated by MEDCOR.

BENEFICIARY NAME field is protected on the activity screen and will be blank until Screen MCMU016 is added. After Screen MCMU016 is added, the name entered there will be displayed on Screen MCMU031. If the name is incorrect after Screen MCMU016 was added, go back to Screen 16, make correction and add the screen again.

See Appendix C for valid entries for the edit fields on Screen MCMU031.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU031. PF2 will also add the changes made on Screen MCMU031 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU031.

SCREEN MCMU032 - MEDCOR Activity 32 Correct/Cross Refer SS Screen

Screen MCMU032 is a main activity screen. This screen allows the user to make changes to the MIRTEL master record and sends a Universal RIC to transfer utilization from a SSA number to a RRB number. This screen is restricted to MS users.
Screen MCMU032 is accessed by entering 32 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 32 or selecting a pending Activity 31 from Screen MCMU017. Screen MCMU016 is optional. Screen MCMU014 and Screen MCMU015 can be accessed, but cannot be added to the activity.

Entries in the following edit fields on Screen MCMU032 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH, HI DATE OF BIRTH and FORMER SS CL NO.

The entry in the PSEUDO NUMBER field on Screen MCMU032 is carried over from Screen MCMM001 and cannot be changed on Screen MCMU032.

Based on the entries in other fields on Screen MCMU032, entries in the following edit fields on Screen MCMU032 are optional: ANN BEGIN DATE, 1ST FULL MO DIS, PART A EFF DATE, PART B FILING DATE, PART B OPTION, EQ RELIEF ENROLL, PART B EFF DATE, PART B TERM DATE, PART B TERM CODE, PART B PREM RATE, PAID THRU DATE, EXCESS PREMIUM, ARREARAGE DUE CODE, SBI ACC DATE, SBI DEL DATE, 3RD PTY/PROT CODE, PAYEE CODE and ID ISSUE CODE. The entries made in the EQ RELIEF ENROLL, PART B TERM CODE and ARREARAGE DUE CODE will not be used to update the MIRTEL.

No entry can be made in the DELINQUENCY DATE field on Screen MCMU032. The DELINQUENCY DATE field is calculated by MEDCOR.

Entry in the BENEFICIARY NAME field is prefilled from MOLI is protected. If necessary to change the name, the change must be made on Screen MCMU016 and Screen MCMU016 must be added. When Screen MCMU016 is added, the change will be reflected on Screen MCMU032. If the name is incorrect after Screen MCMU016 was added, go back to Screen MCMU016, make correction and add the screen again.

See Appendix C for valid entries for the edit fields on Screen MCMU032.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU032. PF2 will also add the changes made on Screen MCMU032 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU032.

MCDU032 ACTIVITY 32 CORRECT/CROSS REFER SS HH:MM
XCA 000-00-0000

BENEFICIARY NAME
Screen MCMU033 is a main activity screen. Screen MCMU033 allows the user to create a MIRTEL master record and sends a Universal RIC to transfer utilization from a RRB number to a RRB number. This screen is restricted to MS users.

Screen MCMU033 is accessed by entering 33 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 33 or selecting a pending Activity 33 from Screen MCMU017. When Screen MCMU033 is added to MEDCOR, Screen MCMU016 must...
also be added. Screen MCMU014 and Screen MCMU015 can be accessed, but cannot be added as part of the activity.

Entries in the following edit fields on Screen MCMU033 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH, EE SSA NUMBER, FORMER RR CL NO, PART A EFF DATE, PART B OPTION and ID ISSUE CODE.

Entries in the PSEUDO NUMBER and BEN SSA NUMBER fields on Screen MCMU033 are carried over from Screen MCMM001 and cannot be changed on Screen MCMU033. Entry in BEN SSA NUMBER is required on Screen MCMM001. If establishing a MIRTLE record with a pseudo number, entries in both the BEN SSA NUMBER and PSEUDO NUMBER fields on Screen MCMM001 should be made.

Based on the entries in other fields on Screen MCMU033, entries in the following edit fields on Screen MCMU033 are optional: ANN BEGIN DATE, 1ST FULL MO DIS, PART B FILING DATE, EQ RELIEF ENROLL, PART B EFF DATE, PART B TERM DATE, PART B TERM CODE, PART B PREM RATE, PAID THRU DATE, EXCESS PREMIUM, SBI ACC DATE, SBI DEL DATE and PAYEE CODE. The entries made in the EQ RELIEF ENROLL and PART B TERM CODE will not be used to update the MIRTEL.

No entries can be made in the DELINQUENCY DATE and ARREARAGE DUE CODE fields of Screen MCMU033. The data in the ARREARAGE DUE CODE field is for future use will not be used for editing purposes or updating of the MIRTEL. The DELINQUENCY DATE field is calculated by MEDCOR.

BENEFICIARY NAME field is protected on the activity screen and will be blank until Screen MCMU016 is added. After Screen MCMU016 is added, the name entered there will be displayed on Screen MCMU033. If the name is incorrect after Screen MCMU016 was added, go back to Screen 16, make correction and add the screen again.

See Appendix C for valid entries for the edit fields on Screen MCMU033.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU033. PF2 will also add the changes made on Screen MCMU033 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU033.

3.13.27 Screen MCMU034 - MEDCOR Activity 34 Correct/Cross Refer RR Screen

Screen MCMU034 is a main activity screen. This screen allows the user to make changes to the MIRTEL master record and sends a Universal RIC to transfer utilization from a RRB number to a RRB number. This screen is restricted to MS users.
Screen MCMU034 is accessed by entering 34 in the ACTIVITY INPUT field on Screen MCMM001 for a new Activity 34 or selecting a pending Activity 33 from Screen MCMU017. Screen MCMU016 is optional. Screen MCMU014 and Screen MCMU015 can be accessed, but cannot be added as part of the activity.

Entries in the following edit fields on Screen MCMU034 are mandatory: RECORD STATUS, TYPE BENEFICIARY, SEX CODE, PYMT DATE OF BIRTH, HI DATE OF BIRTH and FORMER RR CL NO.

The entry in the PSEUDO NUMBER field on Screen MCMU034 is carried over from Screen MCMM001 and cannot be changed on Screen MCMU034.

Based on the entries in other fields on Screen MCMU034, entries in the following edit fields on Screen MCMU034 are optional: ANN BEGIN DATE, 1ST FULL MO DIS, PART A EFF DATE, PART B FILING DATE, PART B OPTION, EQ RELIEF ENROLL, PART B EFF DATE, PART B TERM DATE, PART B TERM CODE, PART B PREM RATE, PAID THRU DATE, EXCESS PREMIUM, ARREARAGE DUE CODE, SBI ACC DATE, SBI DEL DATE, 3RD PTY/PROT CODE, PAYEE CODE and ID ISSUE CODE. The entries made in the EQ RELIEF ENROL, PART B TERM CODE and ARREARAGE DUE CODE will not be used to update the MIRTEL.

No entry can be made in the DELINQUENCY DATE field on Screen MCMU034. The DELINQUENCY DATE field is calculated by MEDCOR.

Entry in the BENEFICIARY NAME field is prefilled from MOLI is protected. If necessary to change the name, the change must be made on Screen MCMU016 and Screen MCMU016 must be added. When Screen MCMU016 is added, the change will be reflected on Screen MCMU034. If the name is incorrect after Screen MCMU016 was added, go back to Screen MCMU016, make correction and add the screen again.

See Appendix C for valid entries for the edit fields on Screen MCMU034.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU034. PF2 will also add the changes made on Screen MCMU034 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

Below is an example of Screen MCMU034.

BENEFICIARY NAME
3.13.28 Screen MCMU162 - Activity 62L - Duplicate Medicare Card Request

Screen MCMU162 is a main activity screen. Screen MCMU162 allows an examiner or contact representative to request a duplicate Medicare card and to change the address to which the card is mailed. Screen MCMU162 is restricted to MS and Field Service users.

Screen MCMU162 is accessed by entering 62 in the ACTIVITY INPUT field on Screen MCMM001, or selecting a pending Activity 62 from Screen MCMU017. The claim
number and pseudo number are carried over from the MEDCOR MENU screen and cannot be changed. The beneficiary name, record status, type beneficiary, sex code, HI date of birth, Part A eff date, Part B option, Part B eff date, ID issue code, ID issue date, rep payee code, name and name/address are pre-filled with MOLI data.

If the address is not on MOLI, it will pre-fill with DATAQ data. The only field that can be changed is the address field. If the address on record is incorrect or the annuitant requests that the duplicate Medicare card be mailed to a temporary address, you can enter a new address. **This will only change where the card is mailed.**

**CHICO/DATAQ and MIRTEL/MOLI will not be updated.** If the address is changed, you will receive a warning message stating “FAST/COA AND OR MEDCOR ACTIVITY 22L REQ TO CHANGE ADDRESS PF2-03 TO ADD, PRESS PF2 AGAIN.” If the address is changed, carefully review the entry for accuracy. The PF2 key must be hit twice to add the activity.

Below is an example of Screen MCMU162:

```
MCMU162 MEDCOR/MEDREF MM/DD/YY
MCMU162 ACTIVITY 62 DUPLICATE MEDICARE CARD REQUEST HH:MM
A XXX-XX-XXXX
PSEUDO NUMBER XXX-XX-XXXX
BENEFICIARY NAME
RECORD STATUS TYPE BENEFICIARY
SEX CODE HI DATE OF BIRTH
PART A EFF DATE PART B OPTION
PART B EFF DATE ID ISSUE CODE
ID ISSUE DATE
REP PAYEE CODE (1=LEGAL, 2=BOARD, 3=PARENT)
NAME
NAME/ADDRESS
NAME/ADDRESS
ADDRESS
ADDRESS
```
When a 62L is created, the activity will show on the Pending Activities List screen with an ACT STATUS code of “P” (Pending) and the ACT DATE will be the date it is created. Program 26162 will be run daily to generate the file used to print the duplicate Medicare cards, and the ACT STATUS code will be changed to a “G” (Card Generated). The ACT DATE will be the date the activity was created. The information about the activity will remain on the PENDING ACTIVITIES LIST screen until the next MIRTEL run. When MIRTEL runs, the activity information will be moved to the COMPLETED ACTIVITIES LIST screen and the ACT STATUS CODE will be changed to a "C" (Completed). The ACT DATE will be the date the activity was created. At this time, MIRTEL and MOLI will also be updated. The activity to update MIRTEL/MOLI will contain the name and address as well as other data. The only fields that will be updated on MIRTEL/MOLI are the last activity code, last activity date, ID issue code, ID issue date, the previous activity code and the previous activity code date.

3.13.29 Screen MCMU214 – MEDCOR Part B Premium Reduction / IRMAA Screen

Screen MCMU214 is a subordinate activity screen. Screen MCMU214 allows the user to create an activity with information about the Medicare Part B premium, Medicare Advantage Part B premium reduction (MCR) (see FOM-I-820.10.5) or Income-Related Monthly Adjustment Amount (IRMAA) (see FOM-I-820.10.6). The screen is optional. This screen, added with Screens MCMU022 and MCMU016, will create one of three activities – a 17L, 17E, or 17I.

Screen MCMU214 may only be accessed through the main activity MCMU022, by pressing PF17, PF18, or PF19.

<table>
<thead>
<tr>
<th>Press this PF Key:</th>
<th>To Create Activity:</th>
<th>To Do The Following:</th>
</tr>
</thead>
<tbody>
<tr>
<td>PF17</td>
<td>17L</td>
<td>Establish or change the current Part B premium amount, residency code, variable rate code, penalty percentage, and/or premium effective date.</td>
</tr>
</tbody>
</table>
PF18 17E Add, stop, change or cancel a Medicare Advantage Part B premium reduction.

PF19 17I Add, change or cancel an Income-Related Monthly Adjustment Amount (IRMAA).

The data on Screen MCMU214 will only be added to an activity record when screens MCMU022 and MCMU016 are added.

The CURR PT B PREM AMT field on Screen MCMU214 will always be carried over from the main activity. If an entry is made in the CURR PT B PREMIUM AMT field on Screen MCMU214 that is different from what was entered on the main activity screen, the corresponding field on the main activity field will also be changed. When the main activity appears, the PART B PREMIUM RATE field on the main activity screen will be protected. If a change in the Part B premium rate is necessary, the change must be made on Screen MCMU214.

If Screen MCMU214 is added to MEDCOR, entries in the following 17L fields on Screen MCMU214 are mandatory: CURR RESIDENCY CD, CURR VAR RATE CD, CURR PEN PERCENT, CURR CAT EFF DATE and CURR VAR BASE RATE (if the entry in the CURR VAR RATE CD field is a V). For a 17E, entries in the following fields are mandatory: MCR TOA CD, MCR PLAN NO and MCR PT B RED AMT, and the MCR START DATE. For a 17I, entries in the following fields are mandatory: IRMAA PREM AMT, IRMAA EFF DATE, IRMAA ILC, and CEC. The entries in these fields will only be used to update MIRTEL when Screen MCMU022 and Screen MCM016 are added.

No entries or changes can be made to the CURR MCR TOA CD, CURR MCR PLAN NO, CURR MCR PT B RED AMT, CURR MCR START DATE, CURR MCR STOP DATE, CURR IRMAA AMT, CURR IRMAA EFF DATE, and CURR IRMAA ILC and CEC. These fields are for information only and are not used for editing purposes or updating of the MIRTEL.

The add and delete functions work with individual screens and must be pressed twice to complete the processing for an activity. PF2 will, in a newly created activity, add the entries made on Screen MCMU214. PF2 will also add the changes made on Screen MCMU214 for a pending activity. Edits for the fields will be complete. PF4 will delete a pending activity.

**Activity 17L** – Instructions for completion of the Part B premium fields (17L) are as follows:
<table>
<thead>
<tr>
<th>Field</th>
<th>Completion Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>CURR PT B PREM AMT</td>
<td>Enter current Part B premium amount. The amount entered should be the:</td>
</tr>
<tr>
<td></td>
<td>• Base Rate or Variable Rate premium, plus</td>
</tr>
<tr>
<td></td>
<td>• Surcharges (Penalty Rate) (if applicable), plus</td>
</tr>
<tr>
<td></td>
<td>• Income Related Monthly Adjustment Amount (IRMAA) (if applicable), minus</td>
</tr>
<tr>
<td></td>
<td>• Medicare Advantage premium reduction (if applicable).</td>
</tr>
<tr>
<td>CURR RESIDENCY CD</td>
<td>Enter current residency code. Acceptable codes are:</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td>CURR VAR RATE CD</td>
<td>Enter current variable rate code. Acceptable codes are:</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td>CURR PEN PERCENT</td>
<td>Entry must be numeric; the last position of the entry must be 0; and the entry must be either 000, 010, 020, 030, etc., through the maximum percent on the current premium rate table.</td>
</tr>
<tr>
<td>CURR CAT EFF DATE</td>
<td>Entry should be numeric, in format of month (01 – 12), century (19 or 20) and year (00 – 99). Entry must be January of a year or equal to or greater than the Part B premium rate.</td>
</tr>
</tbody>
</table>
effective date. If the entry in the CURR VAR RATE CD field is a V, the CURR CAT EFF DATE should be January of the current year.

<table>
<thead>
<tr>
<th>Field</th>
<th>Completion Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>CURR VAR BASE RATE</td>
<td>If the CURR VAR RATE CD is V, C or D, a valid entry must be made in CURR VAR BASE RATE field. Entry must be numeric; and be equal to or greater than 24.80, and less than the current basic rate table of the year of the CURR CAT EFF DATE field. The last position must always be 0.</td>
</tr>
</tbody>
</table>

**Activity 17E** – Here are instructions for completion of the Part B premium reduction fields (17E activity).

**Note:** All entries on the 17E activity must be supported by information on the Medicare Beneficiary Database (MBD) MARx Premium screen, or otherwise verified by the Centers for Medicare & Medicaid Services. If the Part B premium reduction is for year before 2006, Part B premium reduction information may not be available on the MBD. In that case, use the BERT 18A screen (Managed Care Reduced-Premium Enrollment Periods).

<table>
<thead>
<tr>
<th>Field</th>
<th>Completion Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCR TOA CD</td>
<td>Enter the 1-character Type of Action (TOA) code. Acceptable codes are:</td>
</tr>
<tr>
<td></td>
<td>B  Begin a new Part B premium reduction. Also use code B to replace a current year Part B premium reduction with a Part B premium reduction for a different plan, or to change the Start Date of an existing plan. (See Note below.)</td>
</tr>
<tr>
<td></td>
<td>C  Begin or replace a Part B premium reduction for a prior year (closed period).</td>
</tr>
<tr>
<td></td>
<td>E  End a current or prior year Part B premium reduction.</td>
</tr>
<tr>
<td></td>
<td>W  Cancel (wipe-out) a current or prior year</td>
</tr>
<tr>
<td>Column</td>
<td>Description</td>
</tr>
<tr>
<td>--------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>MCR PLAN NO</td>
<td>Enter the 11-position Medicare Advantage plan number. The first position must be an E, H or R. Note: This is shown on the MBD MARx Premium Detail Data screen in 3 separate fields. The first 4 positions of the plan number are in the Contract Number (Crtt Num) field, the next 3 positions are in the Plan Benefit Package (PBP Num) field, and the last 3 positions are in the Segment Number (Sgmt Num) field.</td>
</tr>
<tr>
<td>MCR PT B RED AMT</td>
<td>Enter the Part B premium reduction amount. Enter the amount in dollars and cents with a decimal, e.g. 96.40. Do not enter a dollar ($) sign. An entry in this field is required, regardless of the TOA code.</td>
</tr>
<tr>
<td>MCR START DATE</td>
<td>Enter the Part B premium reduction start date. An entry in this field is always required. Enter date as MM-CCYY, e.g. 01-2008.</td>
</tr>
<tr>
<td>MCR STOP DATE</td>
<td>If the TOA is C, E or W, enter the Part B premium reduction stop date. If required, enter date as MM-CCYY, e.g. 12-2008.</td>
</tr>
</tbody>
</table>

**Note:** In order to change the Part B reduction amount for a current year plan, i.e. a beneficiary remains enrolled in the same plan, but the Part B reduction amount on record is incorrect, two 17E activities are required. First, prepare a 17E activity to cancel (wipe-out) (TOA CD = W) the current year enrollment. After this activity has processed, prepare a second activity to begin (TOA CD = B) the enrollment with the correct Part B premium reduction. Be sure to process both activities before the next scheduled MAMMA run.

**Examples:**

**Note:** In the following examples, the current year is considered to be 2008.

1. **Begin Part B Premium Reduction – Current Year - The beneficiary enrolled in Plan H1032097000 beginning 02/2008, his Part B effective date. The plan offers enrollees a monthly Part B premium reduction of $89.00. To begin the Part B premium reduction, a 17E activity is created with the following data fields:**

<table>
<thead>
<tr>
<th>MCR TOA CD</th>
<th>B</th>
</tr>
</thead>
</table>

   **MCR TOA CD** B
2. **Replace Current Year Enrollment With New Enrollment** - Beneficiary was enrolled in Plan H5820002000 in 2007, and CMS automatically extends her enrollment in the same plan for 2008. Enrollment in Plan H5820002000 with a $40.00 Part B premium reduction beginning 01-2008 is shown on MOLI. However, the beneficiary decides to change plans and enrolls in Plan H5404086000 during the Annual Enrollment Period. Plan H5404086000 provides a monthly Part B premium reduction of $96.40. The enrollment is effective 01-2008. To begin the new Part B premium reduction, a 17E activity is created with the following data fields:

<table>
<thead>
<tr>
<th>MCR TOA CD</th>
<th>B</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCR PLAN NO</td>
<td>H5404086000</td>
</tr>
<tr>
<td>MCR PT B RED AMT</td>
<td>96.40</td>
</tr>
<tr>
<td>MCR START DATE</td>
<td>01-2008</td>
</tr>
<tr>
<td>MCR STOP DATE</td>
<td></td>
</tr>
</tbody>
</table>

Processing of the 17E activity will cancel (wipe-out) the 2008 enrollment in Plan H5820002000, and begin the new Part B premium reduction for Plan H5404086000.

3. **Replace Prior Year Enrollment With New Enrollment** - MOLI shows that beneficiary was enrolled in Plan H5820002000 for all months in 2007, with a monthly Part B premium reduction of $93.50. A recent reconciliation of RRB records and CMS records shows that beneficiary was actually enrolled in Plan H5404086000 for all months in 2007, with a monthly Part B premium reduction of $50.00. In order to correct the 2007 enrollment records, a 17E activity is created with the following data fields:

<table>
<thead>
<tr>
<th>MCR TOA CD</th>
<th>C</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCR PLAN NO</td>
<td></td>
</tr>
<tr>
<td>MCR PT B RED AMT</td>
<td></td>
</tr>
<tr>
<td>MCR START DATE</td>
<td></td>
</tr>
<tr>
<td>MCR STOP DATE</td>
<td></td>
</tr>
</tbody>
</table>
Processing of the 17E activity will cancel (wipe-out) the 2007 enrollment in Plan H5404086000, and replace it with the Part B premium reduction for Plan H5404086000. Reason 2122 and 2124 referrals will be generated as a result of the processing.

4. **Cancel (Wipe-Out) Prior Year Enrollment** - MOLI shows that beneficiary was enrolled in Plan H5404062000 for all months in 2007, with a monthly Part B premium reduction of $93.50. A recent reconciliation of RRB records and CMS records shows that beneficiary cancelled her enrollment in the plan, and enrolled in the Original Medicare Plan. In order to correct the 2007 enrollment records, a 17E activity is created with the following data fields:

<table>
<thead>
<tr>
<th>MCR TOA CD</th>
<th>W</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCR PLAN NO</td>
<td>H5404062000</td>
</tr>
<tr>
<td>MCR PT B RED AMT</td>
<td>93.50</td>
</tr>
<tr>
<td>MCR START DATE</td>
<td>01-2007</td>
</tr>
<tr>
<td>MCR STOP DATE</td>
<td>12-2007</td>
</tr>
</tbody>
</table>

Processing of the 17E activity will cancel (wipe-out) the 2007 enrollment in Plan H5404062000. A reason 2122 referral will be generated as a result of the processing.

5. **End Current Year Enrollment** - MOLI shows that beneficiary is enrolled in Plan H5696002000 for all months in 2008, with a monthly Part B premium reduction of $96.40. Because the beneficiary moves to another state that is outside of the service area for Plan H5696002000, she cancels her enrollment in the plan in
February 2008. To end the Part B premium reduction, a 17E activity is created with the following data fields:

<table>
<thead>
<tr>
<th>MCR TOA CD</th>
<th>E</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCR PLAN NO</td>
<td>H5696002000</td>
</tr>
<tr>
<td>MCR PT B RED AMT</td>
<td>94.40</td>
</tr>
<tr>
<td>MCR START DATE</td>
<td>01-2008</td>
</tr>
<tr>
<td>MCR STOP DATE</td>
<td>02-2008</td>
</tr>
</tbody>
</table>

6. **Change Start Date of Current Year Enrollment** - MOLI shows that beneficiary is enrolled in Plan H5404016000 for all months in 2008, with a Part B premium reduction of $30.00. We receive information from CMS that the start date of the enrollment should be 02-2008, instead of 01-2008. In order to correct the record, prepare a 17E activity with the following data fields:

<table>
<thead>
<tr>
<th>MCR TOA CD</th>
<th>B</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCR PLAN NO</td>
<td>H5404016000</td>
</tr>
<tr>
<td>MCR PT B RED AMT</td>
<td>30.00</td>
</tr>
<tr>
<td>MCR START DATE</td>
<td>02-2008</td>
</tr>
<tr>
<td>MCR STOP DATE</td>
<td></td>
</tr>
</tbody>
</table>

Processing of the 17E activity will cancel (wipe-out) the enrollment beginning 01-2008, and replace it with an enrollment beginning 02-2008. Reason 2118 and 2120 referrals will be generated as a result of the processing. An arrearage will be due for 01-2008.

7. **Cancel (Wipe-Out) Current Year Enrollment** - MOLI shows that beneficiary is enrolled in Plan H5594001000 for all months in 2008, with a monthly Part B premium reduction of $96.40. A reconciliation of RRB records and CMS records shows that beneficiary cancelled his enrollment in the plan, and enrolled in the Original Medicare Plan. In order to correct the 2008 enrollment records, a 17E activity is created with the following data fields:
Processing of the 17E activity will cancel (wipe-out) the 2008 enrollment in Plan H5594001000. A reason 2122 referral will be generated as a result of the processing.

8. End Prior Year Enrollment - MOLI shows that beneficiary was enrolled in Plan H1032032000 for all months in 2007, with a monthly Part B premium reduction of $89.00. A reconciliation of RRB and CMS records shows that the beneficiary’s enrollment in the plan ended in 10-2007. To correct the record, a 17E activity is created with the following data fields:

<table>
<thead>
<tr>
<th>Field</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCR TOA CD</td>
<td>E</td>
</tr>
<tr>
<td>MCR PLAN NO</td>
<td>H1032032000</td>
</tr>
<tr>

Activity 17I – Here are instructions for completion of the IRMAA fields (17I activity).

Note: All entries on the 17I activity must be supported by information from a MEDREF referral or documentation from the Social Security Administration (SSA). Acceptable documentation from SSA includes IRMAA information obtained from an MBR or a copy of a letter to the beneficiary from SSA showing the results of a new IRMAA determination.
### IRMAA PREM AMT
Enter the Income-Related Monthly Adjustment Amount. Enter amount is dollars and cents with a decimal, e.g. 103.30.

### IRMAA EFF DATE
Enter the effective date (month and year) of the IRMAA entered in the IRMAA Premium Amount field. This will always be January of the IRMAA year, or if later, the beneficiary’s Part B effective date.

### IRMAA ILC
Enter the 1-digit IRMAA Income Level Code associated with the IRMAA Premium Amount. See FOM-I-820.10.6.2. Acceptable codes are 0, 1, 2, 3 or 4. A zero (0) is to be used if a previous IRMAA is cancelled, e.g. changed to zero.

### IRMAA CEC
Enter the 3-character IRMAA Change Event Code. Use CEC code INI (Initial Determination) to add an IRMAA. See FOM-I-820.10.6.8 for a complete list of Change of Event Codes.

### Examples:

1. A Screening Reject Referral for reason 5551 (ECRUT Record With IRMAA – Create Act 32 To Clear, Then Act 17I To Update IRMAA Info) is generated upon screening of record with SSA. Information from the referral shows an IRMAA Premium of $103.30, the IRMAA Year as 2008, and the IRMAA Level as 3. The beneficiary’s Part B effective date is 06-2008. After the screening reply is cleared, create a 17I with the following data fields:

<table>
<thead>
<tr>
<th>IRMAA PREM AMT</th>
<th>103.30</th>
</tr>
</thead>
<tbody>
<tr>
<td>IRMAA EFF DATE</td>
<td>06-2008</td>
</tr>
<tr>
<td>IRMAA ILC</td>
<td>3</td>
</tr>
<tr>
<td>IRMAA CEC</td>
<td>INI</td>
</tr>
</tbody>
</table>
2. A Congressional inquiry is received on behalf of a beneficiary whose MOLI record shows an IRMAA of $25.80 effective 01-2008. The Congressman’s office provides a copy of letter from SSA to the beneficiary advising him that the 2008 IRMAA has been removed effective 01-2008 because of an unanticipated loss of pension income. In order to remove the IRMAA, prepare a 17I with the following data fields:

<table>
<thead>
<tr>
<th>Data Field</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>IRMAA PREM AMT</td>
<td>0.00</td>
</tr>
<tr>
<td>IRMAA EFF DATE</td>
<td>01-2008</td>
</tr>
<tr>
<td>IRMAA ILC</td>
<td>0</td>
</tr>
<tr>
<td>IRMAA CEC</td>
<td>PIL</td>
</tr>
</tbody>
</table>

Below is an example of Screen MCMU214:
**3.13.50 MEDREF**

The on-line Medicare Referral (MEDREF) system replaced paper alerts, rejects, referrals and attainment listings produced by the Medicare Information Recorded, Transmitted, Edited and Logged (MIRTEL) system. The on-line information and new reports from MEDREF improved internal controls and management information.

The MEDREF screens contain information from the On-Line Medicare Correction system (MEDCOR), MEDREF, DATAQ and the MIRTEL On-line Inquiry (MOLI) database at the time the referral is created.

Although planned, the FOLDER NOTICE REFERRAL and the DATABASE REFERRAL are not yet on MEDREF. Referrals produced for the Medicare Section (MS) from other systems are not on MEDREF.

Enhancements were made to MEDREF in August 2001 to indicate what type of referral is being generated. For example, if the referral is an initial referral, INIT is displayed on the MEDCOR/MEDREF PENDING REFERRALS LIST and on the referral itself. There are several different kinds of flags that may appear on the screens. The displays and the interpretation of each display are shown below:

<table>
<thead>
<tr>
<th>Display</th>
<th>Interpretation</th>
</tr>
</thead>
<tbody>
<tr>
<td>INIT</td>
<td>Initial, No Tracers, No Others</td>
</tr>
<tr>
<td>INIT-TRAC</td>
<td>Initial with Tracer(s), No Others</td>
</tr>
<tr>

<td>Initial with Tracer(s) and Others</td>
</tr>
<tr>
<td>TRAC-INIT</td>
<td>Tracer to an Initial, No Others</td>
</tr>
<tr>
<td>TRAC-INIT-OTHR</td>
<td>Tracer to an Initial, with Other(s)</td>
</tr>
<tr>
<td>TRAC-OTHR-INIT</td>
<td>Tracer to an Other, with an Initial</td>
</tr>
<tr>
<td>OTHR-INIT</td>
<td>Other with Initial, No Tracers</td>
</tr>
<tr>
<td>OTHR-TRAC-INIT</td>
<td>Other with Tracer(s) and an Initial</td>
</tr>
</tbody>
</table>

**3.13.51 MEDCOR/MEDREF Database**

MEDREF referral information is kept in a combined MEDCOR/MEDREF database and resides on the Railroad Automated Processing Integrated Database (RRAPID). Referrals are added to the MEDCOR/MEDREF database after MIRTEL generates the data.

Pending referrals may be viewed only, or viewed and deleted. Selected information on deleted referrals is retained until written to reports. The reports are run on the first work day of the month and are produced on the 11th floor printer.
3.13.52 MEDREF Security

Access to MEDREF is limited by levels of security established for MEDCOR through ACF2. Each level allows the user to view only, or view and delete referrals.

The USER field is the user's signon ID and is displayed on all MEDREF screens. The USER field cannot be changed by the user and is included if a referral is deleted. An audit trail is established based on the user signon. MEDREF's levels of security are:

MEDCORSEE allows users access to create, view and delete limited MEDCOR activities. MEDCORSEE also allows users to view pending referrals. If someone wants access to MEDCOR or MEDREF, they must have this basic level of access. Users may have an additional level of security if they are required to do certain other activities or delete certain referrals.

MEDCORSEE and MEDCORBFS provide users in the Field Service access to create, view and delete specific MEDCOR activities; and view pending MEDREF referrals.

MEDCORSEE and MEDCORDPS allow disability examiners access to create, view and delete specific MEDCOR activities; and view pending MEDREF referrals.

**MEDCORORS** - DOC, BRB, BSB - G-810: 12, 20 - G-811: 50, 52, 60, 61, 98, 99
MEDCORSEE and MEDCORORS allow retirement, survivor and other examiners in Operations access to create, view and delete specific MEDCOR activities; and view pending MEDREF referrals.

MEDCORSEE and MEDCORMPS allow Medicare examiners access to create all activities, view all activities, and delete specific MEDCOR activities; and to view and delete pending MEDREF referrals.

**MEDCORMNG** - MNG, SUP, CPS, BDP - G-810: 12, 13, 17, 20, 21, 22, 31, 32, 33, 34 - G-811: 05, 06, 21, 22, 23, 24, 25, 26, 27, 30, 32, 34, 35, 36, 50, 51, 52, 60, 61, 62, 98, 99
MEDCORSEE and MEDCORMNG allow users access to create, view and delete all MEDCOR activities; and to view and delete pending referrals. There is also an additional delete function. Users with this level of access are normally supervisors in the Medicare Section.

MEDCORSEE and MEDCORDEL allow users in Assessment and Training access to create, view and delete specific MEDCOR activities; and view and delete specific
referrals. This security level was created for individuals responsible for handling Death Match Referrals.

**MEDCORREMM** - No Unit - G-810 none - G-811: 98, 99 - Mass delete referrals

MEDCORSEE and MEDCORREMM allow selected users access to create, view and delete limited MEDCOR activities; view pending referrals; and do mass deletions of certain referrals.

**MEDCORSMIB** - MNG, SUP, CPS, BDP - G-810: none - G-811: 98, 99 - Update SMIB Table

MEDCORSEE and MEDCORSMIB allow users access to create, view and delete limited MEDCOR activities, view pending referrals, and update the Part B premium table in MEDCOR.

### 3.13.53 MEDREF Screens - General

MEDREF has 12 screens - 1 menu screen, 1 list screen and 10 referral screens. Screen MCM0M060, the MEDREF Pending Referrals Menu screen, is the first screen displayed when entering MEDREF and allows users access to the various MEDREF screens. No information can be changed by the user on any MEDREF screen.

The following are the other MEDREF screens:

- Screen MCMU061 - PENDING REFERRALS LIST;
- Screen MCMI062 - ATTAINMENT LISTING;
- Screen MCMI063 - STATE BUY IN REFERRAL;
- Screen MCMI064 - DOD ALERT REFERRAL;
- Screen MCMI065 - SSA-EDB ALERT OR EXCEPTION;
- Screen MCMI066 - SCREENING REJECT REFERRAL (up to 3 screens per referral);
- Screen MCMI067 - DAILY REFERRAL;
- Screen MCMI068 - FOLDER NOTICE REFERRAL;
- Screen MCMI069 - MONTHLY REFERRAL;
- Screen MCMI070 - PAM REFORMAT REJECT; and
- Screen MCMI072 - DATABASE REFERRAL;
3.13.54 Colors On MEDREF Screens

Colors are consistent on all MEDREF screens. The following colors are used:

- Blue is used for program names, map name, current date, page, time, directional messages and field labels.
- White is used for screen title, variable messages and user entered data.
- Red is used for error messages.
- Green is used for data fields which cannot be changed.

3.13.55 Layout Of MEDREF Screens

The layout of the MEDREF screens is consistent. The following applies:

- Row 1 has the screen id (map name), title and date which cannot be changed by the user.
- Row 2 has the dialog name, title and time which cannot be changed by the user.
- Rows 3 thru 19 contain the referral message, referral information and the user id which cannot be changed by the user.
- Rows 20 and 21 display system generated information or error messages which cannot be changed by the user.
- Row 22 will display ‘----RESPONSES----’.
- Rows 23 and 24 display valid key functions.

3.13.56 Help Screen On MEDREF

The Help Message system will be added to MEDREF in the future using On-line Help (OLH). The Help Message will allow users to view instructions and examples by pressing the PF1 key. Help information will be displayed for a screen. In addition, if the cursor is placed on a specific field where help information is defined, help information will be displayed for that field. Currently, the help feature is not available on MEDREF.

3.13.57 Function Keys On MEDREF

The following function keys are the same for all MEDREF screens:

- **CLEAR** exits a screen and goes to the previous screen within MEDREF.
- **PF24** displays a list of all key functions even if not applicable for the screen.
The following function keys are used on selected MEDREF screens:

- **ENTER** processes the selection made on Screen MCMM060, the Pending Referrals Menu screen and Screen MCMU061, the Pending Referrals List screen.

- **PA1** goes to Screen MCMM060, the Pending Referrals Menu screen.

- **PA2** exits MEDREF and returns to the RRAPID MENU SCREEN.

- **PF1** displays the HELP SCREEN associated with the screen or field which the cursor is on.

- **PF4** deletes a referral on MEDREF. If referral deleted from the referral screen, the user will return to Screen MCMU061, the Pending Referrals List screen. Any authorized user may delete a referral from the referral screen. Only a manager can delete a referral from Screen MCMU061, the Pending Referrals List screen. If a referral is deleted from Screen MCMU061, the Pending Referrals List screen user will remain on Screen MCMU061, the Pending Referrals List screen when the referral is deleted.

- **PF5** refreshes Screen MCMM060, the Pending Referrals Menu screen.

- **PF7** pages to a previous page of information on Screen MCMU061, the Pending Referrals List screen.

- **PF8** pages to the next page of information on Screen MCMU061, the Pending Referrals List screen.

- **PF9** displays Screen MCMM001, the MEDCOR Menu screen. If user accessed MEDCOR using the PF9 key while on a referral screen in MEDREF, if the PF9 key is used again on the MEDCOR activity screen, user will return to the referral screen.

If MEDCOR was accessed from a MEDREF referral screen, if an activity is added to MEDCOR from the MEDCOR activity screen, the user will automatically return to the referral screen in MEDREF. If an activity is not added to MEDCOR, the PF9 key will return the user to the referral screen in MEDREF.

- **PF19** pages to the first page of information on Screen MCMU061, the Pending Referrals List screen.

- **PF20** pages to the last page of information on Screen MCMU061, the Pending Referrals List screen.

### 3.13.58 Accessing MEDREF

Access to MEDREF is through RRAPID. Access the RRAPID MAIN MENU as instructed in RCM 16.2.5. When the RRAPID MAIN MENU is displayed, type "30" in the
NEXT SELECTION field on the RRAPID MAIN MENU screen and press Enter. Screen MCMM060 - the MEDREF Pending Referrals Menu will be displayed.

MEDREF utilizes the "Hot Key" function. The user can go to other systems on RRAPID without having to reenter the identifying data. Each system allows the user to change the identifying data.

3.13.59 Screen MCMM060 - MEDREF Pending Referrals Menu

Screen MCMM060 is the first screen displayed when entering MEDREF. This screen allows the user to access Screen MCMU061, the MEDREF Pending Referrals List, which allows the user to access a referral screen.

If MEDREF was entered via the "Hot Key" function, the claim number may be carried over and inserted in the CLAIM NUMBER field on the screen. This field may be typed over or if the PF5 key is pressed, the data will be removed.

From this screen the user is able to select a group of referrals within a certain range by the last two digits of the RRB claim number, or all referrals for a specific RRB claim number. This selection can be based on claim number, referral code, referral date or referral type. Only those referrals in the database that match the criteria entered on Screen MCMM060 are displayed. If there are no referrals in the database for the criteria entered, a message will be displayed that no referrals were found. If there are referrals in the system for the selection entry made, Screen MCMU061 will be displayed. A message will also appear if the user did not enter sufficient information or incorrect information on Screen MCMM060. Refer to RCM 3.3, Exhibit 1a for referral codes. Refer to RCM 3.6 for handling of some of the referral messages. See 3.13.61 - SECURING A REFERRAL SCREEN for the various combinations on how a user can obtain the referrals.

RCM 3.13 Medicare Systems Revised Mar 23, 2017 Page 57 of 225
3.13.60 Screen MCMU061 - MEDREF Pending Referrals List

Screen MCMU061 is accessed from Screen MCMM060. This screen lists the selected referrals from the database. This screen allows referrals to be selected for viewing or deletion. Only authorized users are allowed to delete referrals.

A referral screen is accessed by entering a 'P' to the left of the claim number and pressing Enter. This action displays the referral screen corresponding with the claim number.

Referrals on this screen can be deleted by a manager placing a 'D' to the left of a claim number and pressing PF4. PF4 must be pressed twice to complete the deletion of the referral. The user will remain on Screen MCMU061.

USER MORRISA
3.13.61 Securing A Referral Screen

Referral screens can be accessed by making an entry in one of the following fields on Screen MCM060: CLAIM NUMBER, REFERRAL CODE, REFERRAL DATE or by entering a "P" by the left side of the type of referral. If a specific RRB claim number is not entered in the CLAIM NUMBER field, an entry must also be made in the BEG RANGE LAST TWO DIGITS and the END RANGE LAST TWO DIGITS fields. If an incorrect entry or incomplete entries are made, the user will get an error message.

After correct entries are made and the Enter key is pressed on Screen MCM060, Screen MCMU061 will be displayed. When on Screen MCMU061, enter a "P" to the left of the claim number and press Enter. Then, the referral screen will be displayed.

Following are examples of how a referral screen can be accessed.

A. SECURING A REFERRAL SCREEN USING THE CLAIM NUMBER

A specific claim number or 999999999 can be entered as the claim number and a beginning and ending range of the last two digits of the claim number on Screen MCM060.

1. SPECIFIC CLAIM NUMBER - Enter a specific claim number on Screen MCM060 and press the Enter key to see all the pending referrals for the claim number on Screen MCMU061. If the beneficiary has a six-digit claim number, use preceding zeros. An example of a specific claim number entry on Screen MCM060 is shown below:

```
MCM060          MEDCOR/MEDREF 07/30/01
MCDM060         PENDING REFERRALS MENU 09:43:08
CLAIM NUMBER 123456789
REFERRAL CODE 0000
REFERRAL DATE MMDDCCYY
BEG RANGE LAST TWO DIGITS XX
END RANGE LAST TWO DIGITS XX
ATTAINMENT REFERRAL STATE BUY IN/PARS REFERRAL
DOD ALERT REFERRAL HCFA-EDB ALERT OR EXCEPTION
SCREENING REJECT REFERRAL DAILY REFERRAL
FOLDER NOTICE REFERRAL MONTHLY REFERRAL
PAM REFORMAT REJECT DATABASE REFERRAL

USER
MORRISA
------------------------RESPONSES-------------------------------
ENTER=PROCESS PA2=RRAPID PF1=HELP
PF4=DELETE PF5=REFRESH PF9=MEDCOR
```
All pending referrals in the database for the claim number entered on Screen MCM060 will appear on Screen MCMU061. Referrals are sorted by the referral date.

To access a referral screen, enter a "P" on the left side of the claim number as shown below and press Enter. The referral screen will then be displayed. Refer to RCM 3.13.64 through 3.13.74 for the various referral screens.

<table>
<thead>
<tr>
<th>CLAIM NUMBER</th>
<th>FLAG</th>
<th>TYPE OF REFERRAL</th>
<th>CODE</th>
<th>DATE</th>
</tr>
</thead>
<tbody>

C. SECURING A REFERRAL SCREEN USING A DATE

A referral date and a beginning and ending range of the last two digits of the claim number, or 999999999 as the referral date and a beginning and ending range of the last two digits of the claim number, can be entered on Screen MCMM060.

1. SPECIFIC REFERRAL DATE AND RANGE - Enter a specific referral date and a two digit BEG RANGE LAST TWO DIGITS and an END RANGE LAST TWO DIGITS (of the claim number) on Screen MCMM060 and press Enter to see all the pending referrals in the database with that referral date within the beginning and ending range entered. If the beginning range is 00 and the ending range is 99, all pending referrals with that referral date will be displayed. If the beginning or ending range is a single digit, precede with a zero. An example of a specific referral date and a beginning and ending range being entered on Screen MCMM060 is shown below:

MCMM060  MEDCOR/MEDREF  07/30/01

All pending referrals in the database for the type selected within the range entered on Screen MCMM060 will be shown. To page between the screens, use the PF7 and PF8 keys. Referrals are sorted by the last two digits of the claim number.

To access the referral screen, enter a "P" on the left side of the claim number as shown below and press Enter. The referral screen will then be displayed. Refer to RCM 3.13.64 through 3.13.74 for the various referral screens.
3.13.62 Deleting A Referral On MEDREF

Once a referral is on MEDREF, the referral remains until it is deleted.

A. DELETING A REFERRAL FROM THE REFERRAL SCREEN

After the referral screen is accessed, the referral will be deleted by pressing PF4 twice. When the deletion is complete, the user will return to Screen MCMU061 and a message will appear to advise that the deletion was completed.

In most cases, the beneficiary's social security number or pseudo number will be carried over to Screen MCM001. If it is not, go to MOLI to secure the social security number or pseudo number. If you are creating an activity on MEDCOR and receive a message that there is no MOLI record, but you know that a MOLI record exists, go to MOLI to secure the social security number or pseudo number before exiting. In addition, you must enter your unit and the activity number you want to create.

The MEDCOR activity screen will then be displayed. If the MEDCOR activity screen is added, the MEDREF referral screen will then be displayed. If the MEDCOR activity screen is not added, use the FP9 key to return to the referral screen.

After action is taken to handle a referral, go to the referral screen and press PF4 twice to delete the referral.

See MEDCOR/REDREF for a sample of Screen MCMU070, the PAM Reformat Reject screen. See RCM 3.3 Exhibit 1a for the messages.

3.13.73 Medicare Payment System (MPS)

The Medicare Payment System (MPS) is a web-based system for calculating and issuing Medicare payments and letters. Medicare payments include, but are not limited to:

- Canadian Part A benefit payments
- Premium refunds
- Erroneous payments received in the Railroad Retirement Board’s Medicare lockbox

Beginning in January 2017, MPS replaces the Survivor Payments System (SURPASS) previously used to issue Medicare payments. It also replaces the Automated Award Letters to Annuitants (ALTA) previously used to issue Medicare payment letters. SURPASS and ALTA will still be in use, but not for Medicare purposes.

3.13.74 Accessing MPS

Access to MPS is through a link on Boardwalk, under Applications. On the Applications screen, click on WEB Applications, then Medicare Payment System. A welcome screen is displayed upon accessing MPS.

3.13.75 MPS Levels of Access

There are six levels of access to MPS. A description of the levels is shown below:

- EXAMINER – Those with examiner access can enter, modify, and submit Medicare payments and letters. After a payment has been started by an examiner, only (s)he can enter data for that payment.

- TRAINEE – Those with trainee access can enter, modify, and submit Medicare payments and letters. After a payment has been started by a trainee, only (s)he
can enter data for that payment. An authorizer must review all payments entered by trainees, regardless of dollar amount.

NOTE: Do not remove trainee status from any user until all cases assigned to the trainee are complete.

- **AUTHORIZER** – Those with authorizer access can enter, modify, and submit Medicare payments and letters. After a payment has been started by an authorizer, only (s)he can enter data for that payment. In authorize mode, the user can either approve another examiner, trainee, or authorizer's payment or return it for corrections. They will be unable to enter or modify data on another user's payment while authorizing it.

- **SUPERVISOR** - Those with supervisor access can enter, modify, and submit Medicare payments and letters. They can also reassign a case from one examiner/trainee/authorizer to another and delete payments when needed. Supervisors also have access to

- **FIELD OFFICE** – RRB Field Office staff have read-only access in order to review the status of payments.

- **SYSTEMS ADMINISTRATOR** – System Administrators are able to perform maintenance as needed to maintain the system.

### 3.13.76 MPS Award Process

MPS Medicare payments are initiated by examiner input. Data on the claim number is gathered from sources such as MIRTEL Online Inquiry (MOLI), Payment Rate and Entitlement History (PREH) and Electronic Check Processing (ECP). Based on the data provided by the examiner, MPS calculates the net amount due for the Medicare payment.

After the data entry and calculations have been completed, the examiner completes the letter and submits the award for payment. If the refund is over $1,000, an authorizer is required to review the case and either approves it for payment or returns it to the examiner for correction. If the refund is over $5,000, a second authorizer is required to review the case before the payment is approved. All payments entered by trainees require authorization, regardless of the dollar amount.

MPS vouchers the award based on the fund code(s) selected during the calculation process. Payments are vouched in the first DAISY run after they have been approved for payment. Since DAISY can only voucher one award per claim number in a single run, payments involving multiple fund codes will voucher separately with each new DAISY run. The priority of payment of each fund code is determined by the payment amount. The fund code with the highest payment amount vouchers first. The fund code with the second highest fund code payment would voucher next, and so on.
A separate award form is imaged for each fund code. The award form is sent to Workdesk when the award for that fund vouchers. The letter associated with the payment is sent to Workdesk when all funds have successfully vouchedered.

3.13.77 Prefilling Information From Other Systems

MPS prefills information from the MIRTEL On-line Inquiry (MOLI) and the Applications Express (APPLE). The system used to prefill information is determined by the refund type selected by the examiner when adding a new payment.

The following is a general description of the data obtained from other systems:

- MOLI – In Medicare refunds and Canadian Part A payments, MOLI is accessed to obtain contact and address information.
- APPLE – In Medicare Survivor refunds, APPLE is accessed to obtain contact and address information.

3.13.78 MPS Screens

The Medicare Payment System interface contains the following screens and tabs:

1. Login/Welcome Screen
   a. My Dashboard
   b. Add New
   c. System Alerts
   d. Admin Settings (displayed only for users with Supervisor or Admin status)

2. My Dashboard Screen
   a. My Dashboard
   b. In-Progress
   c. Sent to Auth
   d. Pending Auth
   e. Completed
   f. Reports
   g. Add New
i. Payment screen

ii. Details screen

iii. Summary screen

h. Search For Payment

3.13.79 MPS Login/Welcome Screen

The Login/Welcome screen is the first screen displayed when entering the Medicare Payment System. The screen includes the following buttons:

1. My Dashboard – when clicked, transfers the user to the My Dashboard screen

2. Add New – when clicked, transfers the user to the Payment screen

3. System Alerts – when clicked, a pop-up lists any system alerts

4. Admin Settings (displayed only for users with Supervisor or Admin status) – when clicked, contains the following drop-down menu:

   a. Assignment Management – when clicked, transfers the user to the Payment Assignment Management screen

   b. Fund Codes – when clicked, transfers the user to the Manage Fund Codes screen

   c. Letter Information – when clicked, transfers the user to the Manage Paragraphs screen

   d. Standard Notes – when clicked, transfers the user to the Manage Standard Notes screen

   e. System Alert – when clicked, transfers the user to the Manage System Alerts screen

   f. Users Information – when clicked, transfers the user to the Manager User Roles screen

3.13.80 MPS My Dashboard Screen

The My Dashboard screen includes tabs to access, search and add new payments, as well as create reports. It also displays the number of payments made in the past 90 days within each of the following payment status categories:

- In-Progress – these are payments started by an examiner that are not completed or sent for authorization. Payments that reject for any reason also return to the
In-Progress area. When this tab is clicked, it transfers the user to the In-Progress screen.

- Sent to Auth – these are payments sent for authorization but not assigned to an authorizer. When this tab is clicked, it transfers the user to the Sent to Auth screen.

- Pending Auth – these are payments sent for authorization that are assigned to an authorizer. When this tab is clicked, it transfers the user to the Pending Auth screen.

- Completed – these are payments that are completed. When this tab is clicked, it transfers the user to the Completed screen.

In addition to the payment status tabs mentioned above, the Dashboard contains the following tabs:

- Reports – when clicked, transfers the user to the Reports screen
- Add New – when clicked, transfers the user to the Payment screen
- Search for Payments - Users can search for payments by Claim #, Social Security #, Pseudo # or Payment #. Search results can be sorted by clicking any of the headers listed in the results panel.

### 3.13.81 MPS Payment Screen

The Payment screen is used to initiate a new Medicare payment. The Payment screen is accessed by pressing the Add New button from the Dashboard. The user will be able to select from the following payment types:

- Medicare Beneficiary- these are payments made to a beneficiary due a Medicare refund (the system defaults to this category)
- Survivor – these are payments made to one or more survivor(s) of a beneficiary due a Medicare refund
- Canadian –these are payments made for Canadian Part A claims

After the payment type is selected, the user will enter an RRB claim number in the Search box and hit the Search button. If no results are found, an error message is displayed. If results are found, a list of all beneficiaries under that claim number is displayed.

The following fields are displayed for Medicare Beneficiary and Survivor payments once a valid claim number is found:
<table>
<thead>
<tr>
<th>FIELD</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Beneficiary</td>
<td>Name(s) of all beneficiaries under that claim number that have a MOLI record (if entering a Medicare Beneficiary or Canadian payment) or an open SMIB APPLE application (if entering a Survivor payment)</td>
</tr>
<tr>
<td>SSN</td>
<td>The beneficiary's SSN (if unavailable, will read all zeros or nines)</td>
</tr>
<tr>
<td>DOB</td>
<td>The beneficiary’s date of birth (MM/DD/YYYY)</td>
</tr>
<tr>
<td>BEN</td>
<td>The bene’s beneficiary symbol (See FOM1_1540.10 for the list of symbols)</td>
</tr>
<tr>
<td>Payee Code</td>
<td>The beneficiary’s payee code</td>
</tr>
<tr>
<td># Shares</td>
<td>The number of shares payable to the payee indicated on that row (USER ENTERED)</td>
</tr>
<tr>
<td>Total Shares</td>
<td>The total number of shares for the payment (for example: a refund split between two survivors would have 2 total shares, one share each) (USER ENTERED)</td>
</tr>
<tr>
<td>Payable Shares</td>
<td>The total shares payable to all payees (MECHANICAL)</td>
</tr>
<tr>
<td>Period: (A) from (MM/YY)</td>
<td>The month and year the refund period began (USER ENTERED)</td>
</tr>
<tr>
<td>Period: (B) To (MM/YY)</td>
<td>The month and year the refund period ended (USER ENTERED)</td>
</tr>
<tr>
<td>Actual: (C) Premium Rate</td>
<td>The monthly premium rate paid from Period (A) to Period (B) (USER ENTERED)</td>
</tr>
<tr>
<td>Actual: (D) No. of Months</td>
<td>The number of months from Period (A) to Period (B) (MECHANICAL)</td>
</tr>
<tr>
<td>Field</td>
<td>Description</td>
</tr>
<tr>
<td>--------------</td>
<td>-----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Actual: (E) Amount</td>
<td>The total amount paid from Period (A) to Period (B) (MECHANICAL)</td>
</tr>
<tr>
<td>Required: (F) Premium Rate</td>
<td>The monthly premium rate that should have been paid from Period (A) to Period (B) (USER ENTERED)</td>
</tr>
<tr>
<td>Required: (G) No. of Months</td>
<td>The number of months from Period (A) to Period (B) (MECHANICAL)</td>
</tr>
<tr>
<td>Required: (H) Amount</td>
<td>The total amount that should have been paid from Period (A) to Period (B) (MECHANICAL)</td>
</tr>
<tr>
<td>Refund: (I) Difference</td>
<td>The total difference between what was actually paid and what should have been paid from Period (A) to Period (B) for that row (MECHANICAL)</td>
</tr>
<tr>
<td>(J) Total</td>
<td>The total payment amount due for all periods entered</td>
</tr>
</tbody>
</table>

To add a new row for fields (A) through (I), users will hit the Add button below the (J) Total: field.

After entries are made in the above fields, users will designate how the funds are split among the 9 fund codes. To open the fund code designation box, users will click on the Add button after Selected Fund Codes.

For each fund code included in the payment, users will click the Include box next to that fund code and enter the total payment for that fund in the Payment box on that line. As each payment amount is entered, the amount in the Total at the bottom will be updated. This Total, after all fund codes have been selected and updated with payment amounts, must equal the Worksheet Total amount. The Worksheet Total amount is prefilled with the total from field (J) of the calculation section. The user will hit Ok to accept the fund code selections or Cancel to exit the fund code selection area. If Cancel is selected, a message will pop up asking “Are you sure you want to Cancel?” with the options “Ok” or “Cancel”.

The following is a description of the available fund codes:

<table>
<thead>
<tr>
<th>FUND CODE</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>SMIA</td>
<td>Part B, aged</td>
</tr>
<tr>
<td>SMID</td>
<td>Part B, disabled</td>
</tr>
</tbody>
</table>
Under the fund code selection area is a Remarks box. Entries made in the Remarks box will appear on the Award Form.

At the bottom of the Payment screen are three buttons:

- **Save** – This button must be pressed to save all entries made on the Payment screen before advancing to the next screen
- **Submit** – This button is inactive on the Payment screen
- **Cancel** – This button is used to exit the Payment screen and return to the Dashboard. If the Save button was pressed prior to hitting Cancel, the payment will show up on the Dashboard as In-Progress. If Save was not pressed prior to hitting Cancel, no entries will be saved.

After a user completes the Payment screen and successfully saves, they will click the Details button at the top of the screen to advance to the Details screen.

### 3.13.82 MPS Details Screen

The Details screen is used to compose the payment letter to the beneficiary/payee. The Details screen is accessed by clicking on the Details button at the top of the Payment screen after successfully entering and saving the payment information.

The top of the Details screen lists the payment type (Medicare Beneficiary, Survivor, or Canadian) and the claim number from the Payment screen. The beneficiary(s)/payee(s) selected on the Payment screen are listed under the Select a Beneficiary header. The following information is listed for each beneficiary/payee:

- **Beneficiary/Payee** – The beneficiary/payee’s name
- **SSN** – The beneficiary/payee’s social security number (if available)
• DOB – The beneficiary/payee’s date of birth
• Payee Code – The beneficiary/payee’s payee code

If only one beneficiary/payee was entered on the Payment screen, it is preselected on the Details screen. If more than one beneficiary/payee was entered, the user will select the beneficiary/payee by clicking anywhere in the row with the desired beneficiary/payee.

Below the beneficiary selection area, is the Letter area. The following information is listed:

• Paragraph – The code paragraph selected
• Title – The title of the code paragraph selected
• Sort – Used to move the selected code paragraph(s) up or down (indicated by arrows)
• Remove – Used to remove the selected code paragraph(s)

Nothing will be listed in the Letter area until a code paragraph is selected. The user will bring up the list of code paragraphs by clicking the Select Paragraphs button. The following is a list of the code paragraphs and their descriptions:

<table>
<thead>
<tr>
<th>CODE PARAGRAPH</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>955A 956A</td>
<td>Medicare Premium Refund; Premiums deducted from annuity</td>
</tr>
<tr>
<td>955B 956B</td>
<td>Medicare Premium Refund; Premiums collected after death</td>
</tr>
<tr>
<td>955C 956C</td>
<td>Medicare Premium Refund; RRB and SSA deducted</td>
</tr>
<tr>
<td>955D 956D</td>
<td>Medicare Premium Refund; Premiums collected after termination</td>
</tr>
<tr>
<td>955E 956E</td>
<td>Medicare Premium Refund; RRB and State deducted</td>
</tr>
<tr>
<td>955F 956F</td>
<td>Medicare Premium Refund; Premiums paid twice</td>
</tr>
<tr>
<td>955G 956G</td>
<td>Medicare Premium Refund; Change in</td>
</tr>
<tr>
<td>Code</td>
<td>Description</td>
</tr>
<tr>
<td>-------</td>
<td>------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>955H</td>
<td>Medicare Premium Refund; Limited payability</td>
</tr>
<tr>
<td>955I</td>
<td>Miscellaneous</td>
</tr>
<tr>
<td>955J</td>
<td>Medicare Premium Refund; Medicare Advantage Part B premium (BIPA)</td>
</tr>
<tr>
<td>955K</td>
<td>Medicare Premium Refund to Third Party; RRB and State deducted</td>
</tr>
<tr>
<td>955L</td>
<td>Part B IRMAA Refund; IRMAA reduced</td>
</tr>
<tr>
<td>955M</td>
<td>Part B IRMAA Refund; IRMAA eliminated</td>
</tr>
<tr>
<td>9999S</td>
<td>Custom Paragraph; Blank for custom paragraph entry</td>
</tr>
</tbody>
</table>

To select a code paragraph, the user will click the box on the line with the desired code paragraph and then click the Add button. The selected code paragraph will then show up in the Letter section.

Only one code paragraph should be selected per letter, with the exception of the Custom Paragraph (9999S). The Custom Paragraph may be selected on its own or in addition to any other code paragraph. The reason for this is that the information in the code paragraphs other than the Custom Paragraph is prefilled from data entered on the Payment screen. Selecting multiple code paragraphs from 955A-956J will load the same data to each code paragraph and lead to inaccurate letters.

Four of the code paragraphs require the user to enter data after selecting that code paragraph. The data will be entered in a drop-down box(es) after selecting that code paragraph. The following are the code paragraphs that require data entry and the data requested:

1. 955J – Medicare Premium Refund; Medicare Advantage Part B premium (BIPA)
   a. “Enter amount of monthly Part B premium reduction (Max: $9999.99)” – User will enter the amount by which the Part B premium is reduced

2. 955L – Medicare Part B IRMAA Refund; IRMAA reduced
   a. “Enter YEAR for which IRMAA premium was collected” – User will enter the year for which the IRMAA premium was collected
   b. “Enter previous IRMAA premium (Max: $9999.99)” – User will enter the previous IRMAA premium amount
c. “Enter current (revised) IRMAA premium (Max: $9999.99)” – User will enter the current IRMAA premium amount

d. “Select the first month for which IRMAA premium refund is due [Month]” – User will select the first month for which the IRMAA premium refund is due from the drop down menu

e. “Select the last month for which IRMAA premium refund is due [Month]” – User will select the last month for which the IRMAA premium refund is due from the drop down menu

3. 955M – Medicare Part B IRMAA Refund; IRMAA eliminated

a. “Enter YEAR for which IRMAA premium was collected” – User will enter the year for which the IRMAA premium was collected

b. “Enter previous IRMAA premium (Max: $9999.99)” – User will enter the previous IRMAA premium amount

c. Select the first month for which IRMAA premium refund is due [Month]” – User will select the first month for which the IRMAA premium refund is due from the drop down menu

d. “Select the last month for which IRMAA premium refund is due [Month]” – User will select the last month for which the IRMAA premium refund is due from the drop down menu

4. 9999S – Custom Paragraph

a. [Blank] – User will enter any text in place of or in addition to any code paragraphs (NOTE: There is no spell-check so the user must check spelling and grammar prior to accepting the entry)

Beneath the Letter area is the Address. For Medicare Beneficiary and Survivor payments, this is read-only. Users are unable to update the address within the Medicare Payment System. The address for Medicare Beneficiary payments is prefilled from MOLI. If there is an error with the address for those cases, it will need to be updated on MOLI prior to completing the payment. The address for Survivors is prefilled from their APPLE application. If there is an error with the address for those cases, it would have to be updated on the APPLE application by a Field Office representative.

At the bottom of the Details screen are three buttons:

- Save – This button must be pressed to save all entries made on the Details screen before advancing to the next screen

- Submit – This button is inactive on the Details screen
• Cancel – This button is used to exit the Details screen and return to the Dashboard

After the user completes the Details screen and successfully saves, they will click the Summary button at the top of the screen to advance to the Summary screen.

3.13.83 MPS Summary Screen

The Summary screen displays a summary of the information entered on the Payment and Details screens, as well as a view-only preview of the award form and letter(s). The Summary screen is accessed by clicking on the Summary button at the top of the Details screen after successfully entering and saving the payment and letter information.

The top of the Summary screen lists the payment type (Medicare Beneficiary, Survivor, or Canadian) and the claim number from the Payment screen. The beneficiary(s)/payee(s) selected on the Details screen will be displayed with the following information:

• Name – The beneficiary/payee’s name
• Address – The beneficiary/payee’s address
• Bank Info – The beneficiary/payee’s bank information, if available
• # Shares – The number of shares being paid to that beneficiary/payee
• Payment Share – The amount being paid to the beneficiary/payee

Beneath the beneficiary/payee information is the Total, indicating the total number of shares for all beneficiary(s)/payee(s) for that payment, with the total paid for all shares to the right of it.

The date range for the payment is displayed below the payment total. The Beginning Date and Ending Date for each row entered on the Payment screen will be listed.

The user can view the award form by clicking the View Award button. A preview of the award form is displayed in a new browser tab. There is a separate award form for each fund code selected but only the award form for the primary fund code is viewable on MPS. All award forms will be mechanically sent to WorkDesk once the payment successfully vouchers. Since DAISY can only voucher one payment per claim number per day, payments with multiple fund codes will voucher one fund code payment daily until all funds have been vouchered. Therefore, the award forms for those payments will be sent to WorkDesk over multiple days as they are vouchered.
The user can view the letter(s) by clicking the View Letters button. A preview of the letter (or letters if there are multiple payees) is displayed in a new browser tab. The letter(s) mechanically issue after the payment successfully vouchers.

Beneath the buttons to view the Award and Letters are two headers:

- Selected Fund Codes – Lists the fund codes selected for the payment
- Remarks – Shows the remarks entered by the user on the Payment screen

At the bottom of the Summary screen are three buttons:

- Save – This button is inactive on the Summary screen
- Submit – This button is used to submit the payment
- Cancel – This button is used to exit the Summary screen and return to the Dashboard

After a user completes the Summary screen and successfully submits the payment, the Summary screen is still displayed. Users can click the Dashboard button at the top of the screen to return to the Dashboard screen.

### 3.13.84 MPS In-Progress Screen

The In-Progress screen lists all payments currently in progress and any rejected payments. Users with Supervisor or Admin status will see all in-progress and rejected payments for all users. All other users will see only those assigned to them. The In-Progress screen is accessed by clicking the In-Progress tab on the menu bar at the top of the Dashboard screen. The user can search for a specific payment by the following criteria:

- Claim # (do not enter the prefix or symbol)
- Social Security #
- Pseudo #
- Payment #

The in-progress payments can be sorted by any of the criteria listed at the top of the results panel by clicking on the name of the desired criterion. The sortable criteria are as follows:

- Refund/Claim – This is the refund type. There are three different refund types:
  - Medicare B – A payment made to a Medicare beneficiary
Medicare S – A payment made to a survivor of a Medicare beneficiary
Medicare C – A Canadian Part A payment

- Pseudo # - The payee’s pseudo number, if applicable. If there is no pseudo number, this field is blank.
- Claim # - The RRB claim number
- Payee Name – The name of the payee
- Fund Code – The primary fund code for the payment. If the payment involved more than one fund code, the primary fund code is listed in red.
- Payment – The payment total
- Payment # - The payment number
- Exam ID – The ID number of the examiner who entered the case
- Auth 1 – The ID number of the authorizer who authorized the case, if applicable. If no authorization is needed, a “0” is shown.
- Auth 2 – The ID number of the authorizer who completed the second authorization of the case, if applicable. If no second authorizer is needed, a “0” is shown.
- Complete Date – The date the payment was completed
- Rejected Date – The date the payment rejected, if applicable. If the payment did not reject, this field is blank.
- Actions – the available actions to take for that payment. There are two actions:
  - View Payment Summary (symbolized by a magnifying glass icon) – Opens the payment in a view-only capacity
  - Reopen Payment (symbolized by a round arrow icon) – Reopens the payment for modifications. This action can only be done before the payment is sent to DAISY for processing.

### 3.13.85 MPS Sent to Auth Screen

The Sent to Auth screen lists all payments currently sent for authorization, but not assigned to an authorizer. Users with Supervisor or Admin status will see all Sent to Auth payments for all users. All other users will see only those they sent for authorization. The Sent to Auth screen is accessed by clicking the Sent to Auth tab on
the menu bar at the top of the Dashboard screen. The user can search for a specific payment by the following criteria:

- Claim #
- Social Security #
- Pseudo #
- Payment #

The sent to auth payments can be sorted by any of the criteria listed at the top of the results panel by clicking on the name of the desired criterion. The sortable criteria are as follows:

- Refund/Claim – This is the refund type. There are three different refund types:
  - Medicare B – A payment made to a Medicare beneficiary
  - Medicare S – A payment made to a survivor of a Medicare beneficiary
  - Medicare C – A Canadian Part A payment
- Pseudo # - The payee’s pseudo number, if applicable. If there is no pseudo number, this field is blank.
- Claim # - The RRB claim number
- Payee Name – The name of the payee
- Fund Code – The primary fund code for the payment. If the payment involved more than one fund code, the primary fund code will be listed in red.
- Payment – The payment total
- Payment # - The payment number
- Submitted Date – The date the payment was submitted for authorization
- Action (symbolized by a pencil icon) – Opens the payment

**3.13.86 MPS Pending Auth Screen**

The Pending screen lists all payments currently assigned to authorizers for authorization. Users with Supervisor or Admin status will see all Pending Auth payments for all users. All other users will see only those assigned to them. The Pending Auth screen is accessed by clicking the Pending Auth tab on the menu bar at the top of the Dashboard screen. The user can search for a specific payment by the following criteria:
The pending auth payments can be sorted by any of the criteria listed at the top of the results panel by clicking on the name of the desired criterion. The sortable criteria are as follows:

- **Refund/Claim** – This is the refund type. There are three different refund types:
  - Medicare B – A payment made to a Medicare beneficiary
  - Medicare S – A payment made to a survivor of a Medicare beneficiary
  - Medicare C – A Canadian Part A payment
- **Pseudo #** - The payee’s pseudo number, if applicable. If there is no pseudo number, this field is blank.
- **Claim #** - The RRB claim number
- **Payee Name** – the name of the payee
- **Fund Code** – The primary fund code for the payment. If the payment involved more than one fund code, the primary fund code will be listed in red.
- **Payment** – The payment total
- **Payment #** - The payment number
- **Submitted Date** – The date the payment was submitted for authorization
- **Exam ID** – The ID number of the examiner who entered the case
- **Action** (symbolized by a pencil icon) – Opens the payment

### 3.13.87 MPS Completed Screen

The Completed screen lists all payments that have been submitted for payment. Users with Supervisor or Admin status will see all Completed payments for all users made in the last 90 days. All other users will see only those they completed. The Completed screen is accessed by clicking the Completed tab on the menu bar at the top of the Dashboard screen. The user can search for a specific payment by the following criteria:
• Claim #
• Social Security #
• Pseudo #
• Payment #

The completed payments can be sorted by any of the criteria listed at the top of the results panel by clicking on the name of the desired criterion. The sortable criteria are as follows:

• Refund/Claim – This is the refund type. There are three different refund types:
  o Medicare B – A payment made to a Medicare beneficiary
  o Medicare S – A payment made to a survivor of a Medicare beneficiary
  o Medicare C – A Canadian Part A payment

• Pseudo # - The payee’s pseudo number, if applicable. If there is no pseudo number, this field is blank.

• Claim # - The RRB claim number

• Payee Name – The name of the payee

• Fund Code – The primary fund code for the payment. If the payment involved more than one fund code, the fund code will be listed in red.

• Payment – The payment total

• Payment # - The payment number

• Exam ID – The ID number of the examiner who entered the case

• Auth 1 – The ID number of the authorizer who authorized the case, if applicable. If no authorization is needed, a “0” is shown.

• Auth 2 – The ID number of the authorizer who completed the second authorization of the case, if applicable. If no second authorizer is needed, a “0” is shown.

• Complete Date – The date the payment was completed

• Rejected Date – The date the payment was rejected, if applicable. If the payment was not rejected, this field is blank.
• Actions – the available actions to take for that payment. There are two actions:
  
  o View Payment Summary (symbolized by a magnifying glass icon) – Opens the payment in a view-only capacity
  
  o Reopen Payment (symbolized by a round arrow icon) – Reopens the payment for modifications. This action can only be done before the payment is sent to DAISY for processing.

3.13.88 MPS Reports

The Reports can be accessed by clicking the Report tab on the menu bar at the top of the Dashboard screen. The user is prompted to select a report from the Select Report drop-down menu. There are two sections of Reports- Examiner/Authorizer Tools and Medicare Division. The reports under Examiner/Authorizer Tools are viewable by all users, but the reports under Medicare Division are only viewable by users with supervisor or administrative access.

The following reports are available under Examiner/Authorizer Tools in the drop-down menu:

• All Awards as Examiner
• All Awards as Authorizer
• Refunds by Claim #
• Refunds B. SSN

The following reports are available under Medicare Division in the drop-down menu:

• Address Verification
• Monthly Report
• Output by Unit
• Refunds Paid on MM/YYYY
• Refunds by Status
• Refunds by Exam/Auth
• Refund Amt Totals by Unit
• Refunds by DAISY Status
To run a report, users will click the report they wish to run and enter the requested information. The following is how to run each report available in the Examiner/Authorizer Tools section:

1. **All Awards by Examiner** – This report returns all awards the requesting user entered as an examiner. The user will enter information in the requested fields and hit the Run Report button to display the results.

<table>
<thead>
<tr>
<th>FIELD</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Start Date . . .</td>
<td>A drop-down calendar is displayed for the user to select the beginning date of the report</td>

</tr>
<tr>
<td></td>
<td>• Pending Auth – Includes Pending Auth payments only</td>
</tr>
<tr>
<td></td>
<td>• Completed – Includes Completed payments only</td>
</tr>
</tbody>
</table>

The following is how to run each report in the Medicare Division section of the drop-down menu. These reports are only accessible by users with supervisor or admin status:
1. **Address Verification** – This report returns the addresses for all completed cases within the date range specified by the user. The user will enter information in the requested fields and hit the Run Report button to display the results.

<table>
<thead>
<tr>
<th>FIELD</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calendar: MM</td>
<td>A drop-down menu of the months numbered 01-12 is displayed for the user to select the report month</td>

<tr>
<td>All Users</td>
<td>A drop-down menu of all the users in the Medicare Payment System is displayed for the user to select from. The user can also select All Users to return results for all users in MPS.</td>
</tr>
</tbody>
</table>

7. **Refund Amt Totals by Fund** – This report lists the number of payments and associated dollar amount for each fund code for the specified time frame. The user will enter information in the requested fields and hit the Run Report button to display the results.
### 3.13.89 Entering a Medicare Beneficiary or Survivor Payment on MPS

Payments made via the Medicare Payment System can only be made when a valid RRB claim number exists on MOLI or, in the case of survivor refunds, a valid SMIB application on APPLE. All payments paid via MPS are issued as One Pay Only (OPO) awards.

Once a Medicare examiner has determined that a Medicare payment should be made, the user will enter MPS through the link on Boardwalk.

<table>
<thead>
<tr>
<th>FIELD</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Start Date . .</td>
<td>A drop-down calendar is displayed for the user to select the beginning date of the report</td>
</tr>
<tr>
<td>End Date . .</td>
<td>A drop-down calendar is displayed for the user to select the end date of the report</td>
</tr>
<tr>
<td>All Payments</td>
<td>The user will select from three options on the drop-down menu:</td>
</tr>
<tr>
<td></td>
<td>• All Payments</td>
</tr>
<tr>
<td></td>
<td>• DAISY Approved Payments Only</td>
</tr>
<tr>
<td></td>
<td>• DAISY Rejected Payments Only</td>
</tr>
</tbody>
</table>

8. **Refunds by DAISY Status** – This report lists all DAISY payments for the specified time frame. The results are sortable by DAISY status. The user will enter information in the requested fields and hit the Run Report button to display the results.
Follow the instructions below for each screen to enter a payment for a Medicare Beneficiary or Survivor:

**A. Welcome Screen**

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Click the Add New button to add a new payment</td>
</tr>
</tbody>
</table>

**B. Add New Screen**

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Select the Payment type:</td>
</tr>
<tr>
<td></td>
<td><strong>If the payment is for…</strong></td>
</tr>
<tr>
<td></td>
<td>A living Medicare beneficiary</td>
</tr>
<tr>
<td></td>
<td>A deceased Medicare beneficiary with a living spouse on MOLI</td>
</tr>
<tr>
<td></td>
<td>A deceased Medicare beneficiary with survivor(s) with SMIB APPLE application(s)</td>
</tr>
<tr>
<td></td>
<td>A Canadian Part A claim (instructions for Canadian payments will be covered in the next section)</td>
</tr>
</tbody>
</table>

| 2    | Enter the Medicare claim number in the search box and hit the Search button |

Once a valid claim number is found, the Add New screen becomes the Payment screen. If no valid claim is found for the number entered, an error message will be displayed.

**C. Payment Screen**

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter the number of shares payable to the payee(s):</td>
</tr>
<tr>
<td></td>
<td><strong>If…</strong></td>
</tr>
<tr>
<td></td>
<td>There is one payee</td>
</tr>
</tbody>
</table>
There is more than one payee (e.g. APPLE survivor payments) | Enter the number of shares (almost always 1) in the # Shares box on the line for each applicable payee

<table>
<thead>
<tr>
<th>2</th>
<th>Enter the total number of shares for the payment:</th>
</tr>
</thead>
<tbody>
<tr>
<td>If...</td>
<td>Then...</td>
</tr>
<tr>
<td>There is one payee</td>
<td>Enter the number 1 in the Total Shares box</td>
</tr>
<tr>
<td>There is more than one payee</td>
<td>Enter the total number of shares for all payees</td>
</tr>
<tr>
<td></td>
<td>NOTE: The total number of shares for survivor payments is equal to the number of eligible survivors. See the section on Payments Requiring Special Handling for further instruction on how to handle cases where not all survivors file an APPLE application.</td>
</tr>
</tbody>
</table>

| 3 | Enter the first month in the payment calculation period in the box under Period (A) From (MM/YY). Enter the date in MM/YY format as indicated. |

| 4 | Enter the last month in the payment calculation period in the box under Period (B) To (MM/YY). Enter the date in MM/YY format as indicated. The number of months in the period from (A) to (B) will calculate mechanically and prefill in the boxes under Actual (D) No. of Months and Required (G) No. of Months. |
| | NOTE: If the Premium Rate amounts in boxes (C) and (F) change for the period entered from (A) to (B), a new period must be added for each change. See step 5. |

| 5 | Add a new period, if necessary. Click the Add button beneath the (J) Total box to add a new row. Return to step 3. |
| | NOTE: Payment periods must be added in chronological order, with the exception of arrearage offsets which may be entered in any order. This is to ensure the dates load into the code paragraphs on the letters correctly. Arrearage periods are automatically excluded from the letters. A Custom Paragraph will need to be added to notify the payee about any arrearage offsets. |

| 6 | In the box under Actual (C) Premium Rate, enter the premium rate paid for the... |
calculation period entered in boxes (A) and (B). Do not include the dollar sign. The total amount paid for the period from (A) to (B) will calculate mechanically and prefill in the box under Actual (E) Amount.

7 In the box under Required (F) Premium Rate, enter the premium rate that should have been paid for the calculation period entered in boxes (A) and (B). Do not include the dollar sign. The total amount that should have been paid for the period from (A) to (B) will calculate mechanically and prefill in the box under Required (H) Amount.

The difference in the amounts of boxes (E) and (H) for that row will be mechanically calculated and prefilled in the box under Refund (I) Difference. If the difference for that period does not result in a refund, the amount prefilled in box (I) will have a negative sign before it.

8 If there is another payment period, click the Add button under the Total (J) box to add a new calculation row. Return to step 3 for the new calculation row.

If a calculation row was added in error, click the Delete button at the end of that row to delete it.

9 Click the Add button next to Selected Fund Codes to open the fund code selection box.

10 Select all fund codes included in the payment total from box (J) of the calculation section and indicate the payment amount for each fund as indicated below:

<table>
<thead>
<tr>
<th>If. . .</th>
<th>Then. . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>The fund code is included in</td>
<td>• Click on the Include checkbox next to that</td>
</tr>
<tr>
<td>the payment</td>
<td>fund code</td>
</tr>
<tr>
<td></td>
<td>• Enter the payment amount for that fund in the</td>
</tr>
<tr>
<td></td>
<td>Payment box</td>
</tr>
<tr>
<td></td>
<td>• If there are multiple fund codes, include the</td>
</tr>
<tr>
<td></td>
<td>fund code splits in the Remarks box under the</td>
</tr>
<tr>
<td></td>
<td>Selected Fund Codes area</td>
</tr>
<tr>
<td>The fund code is not included</td>
<td>Do not check the Include box next to that fund</td>
</tr>
<tr>
<td>in the payment</td>
<td>and do not enter a payment amount</td>
</tr>
</tbody>
</table>

The payment total from box (J) of the calculation form prefills into the space.
next to Worksheet Total in the fund code selection box. The amount in the box next to Total in the fund code selection box updates mechanically as each fund payment is entered. The amounts in the Worksheet Total and Total boxes must match in order to accept the entries.

Click Ok to accept the fund code(s) selection and payment allocation.

| 11 | Enter any remarks regarding the payment in the Remarks box under the Selected Fund Codes area. The remarks will display on the award form. |
| 12 | Click the Save button in the bottom tool bar to accept all entries made on the Payment screen. The message “SUCCESS: true TEXT:PAYMENT SAVED” should be displayed. Click OK. |

### D. Details Screen

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Click the Details button at the top of the page to go to the Details screen.</td>
</tr>
</tbody>
</table>
| 2    | Select the beneficiary/payee(s):  
|      | **If. . .** | **Then. . .** |
|      | There is one beneficiary/payee | That person is preselected; move to step 3. |
|      | There is more than one beneficiary/payee | Click on the beneficiary/payee to select and move to step 3. |
| 3    | Click the Select Paragraphs button to open the code paragraph selection box. |
| 4    | Select the applicable code paragraph(s) by clicking on the checkbox next to the description:  
|      | **If. . .** | **Then. . .** |
|      | There is one reason for the payment | Select one of the code paragraphs from 955A-9999S.  
|      | | NOTE: Code paragraph 9999S may be selected on its own or in addition to any of the code paragraphs from 955A-956J. |
|      | There is more than one reason for the payment | Select code paragraph 9999S.  
|      | | NOTE: Since the payment periods |
are mechanically inserted into the letters, choosing two code paragraphs from 955A-956J would load the same dates for both paragraphs and result in inaccurate letters.

5 Click the Add button to accept the code paragraph selection. The code paragraph number and title should show up under Paragraph and Title in the Letter section.

6 Rearrange the paragraph order:

<table>
<thead>
<tr>
<th>If. . .</th>
<th>Then. . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>There is only one code paragraph</td>
<td>Skip to step 7.</td>
</tr>
<tr>
<td>There is more than one code paragraph</td>
<td>Use the up and down arrow icons under Sort to move the code paragraph up or down, if desired.</td>
</tr>
</tbody>
</table>

7 Click the X icon under Remove to remove code paragraphs, if necessary.

8 If there is more than one beneficiary/payee, repeat from step 2 for each.

9 Click the Save button in the bottom tool bar to accept all entries made on the Details screen. The message “SUCCESS: true TEXT:SUCCESS” should be displayed. Click OK.

### E. Summary Screen

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Click the Summary button at the top of the page to go to the Summary screen.</td>
</tr>
<tr>
<td>2</td>
<td>Review the data for accuracy. If necessary, return to any of the previous screens to make corrections.</td>
</tr>
<tr>
<td>3</td>
<td>Click the View Award button for a preview of the award form. Review for accuracy.</td>
</tr>
<tr>
<td>4</td>
<td>Click the View Letters button for a preview of the letter. Review for accuracy.</td>
</tr>
<tr>
<td>5</td>
<td>Click the Submit button in the bottom tool bar to submit the payment:</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>If. . .</th>
<th>Then. . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>The payment was for less than</td>
<td>The payment requires no</td>
</tr>
<tr>

### 3.13.90 Entering a Canadian Part A Payment on MPS

MPS screens for completing Canadian payments are not yet available.

### 3.13.91 MPS Payments Requiring Special Handling

**A. Multiple Survivor Payments With Missing/Incomplete APPLE Applications**

Payments made to multiple APPLE survivors are completed on MPS in one transaction. If one or more of the survivors failed to complete their APPLE application(s), their portion of the payment must be set aside in case they complete the application later. Since MPS is set up to issue all portions of a survivor payment in the same transaction, special handling is required in these situations.

The examiner must determine the payment amounts due to each survivor, including those who have not filed applications. The portion(s) due to the survivor(s) who haven’t completed their application(s) should be removed from the calculations on the Payment screen as a one month offset. The remaining portion(s) will be issued to the survivor(s) with completed applications. A note must be made in the Remarks section screen indicating that there is a portion of the payment remaining.

When and if the remaining survivor(s) complete their application(s), the payment(s) would be issued as a new transaction with the previous survivor’s payments removed as an offset. A note should be entered in the Remarks. See the example below.

**Example:**
A deceased bene is due a refund for the period 1/16-3/16 at $121.80 per month. The total refund due is $365.40. There are three survivors but only two completed their APPLE applications for their portion of the payment. Each survivor’s portion of the payment would be $121.80. The Payment screen should be completed as usual but the Total Shares should be entered as 2 instead of 3, and the third survivor’s payment of $121.80 should be taken off as a one month offset. This will leave the remaining $243.60 to be split between the two survivors who completed their applications. A note should be made in the Remarks section to indicate that the offset is due to a remaining survivor.

If the third survivor completes their APPLE application after the other payment has been completed, the same process should be used to issue their portion. The refund period should be entered as usual on the Payment screen, the Total Shares entered should be 1, and the payment amount of $243.60 for the previous two survivors should be taken off as a one month offset. This will leave the $121.80 due to the third survivor. The Remarks section should be notated accordingly.

B. Survivor Payment Paid to a Family Member in Pay Status With a MOLI Record

MPS is set up to issue the payment to the same beneficiary to whom it is due. If that beneficiary has died and the payment is payable to a family member in current pay status, that case requires special handling. Since the family member is in pay status, they do not need to fill out an APPLE application and the payment would be issued as a Medicare Beneficiary payment instead of a Survivor payment. When selecting the beneficiary to issue shares to on the Payment screen, the surviving family member should be chosen instead of the deceased beneficiary. Since this will make it look like the refund is in their name, instead of the deceased beneficiary’s, a note must be made in the Remarks section noting that the refund was due to them as a survivor of the deceased bene.

NOTE: Since these are Medicare Beneficiary (not Survivor) payments, the payee information is prefilled from MOLI. This means the payee needs to have a MOLI record. If the payee does not have a MOLI record, see Part C below.

C. Survivor Payment Paid to a Family Member in Pay Status Without a MOLI Record

Payments of this type cannot be made at this time. Procedure will be updated as soon as it is available.

D. Survivor Payment with Less than Three Months of Premiums Payable

The Medicare Unit (MU) only develops for survivors if the payment amount is equal to three months’ premiums or more. If the payment amount is less than three months’ premiums and there is not an eligible family member in pay status, an examiner should fill out a G-363M on RRAILS and send it to Imaging. The MU would not develop for survivors and no further action would be taken.
If survivor(s) file later for the Medicare payment, the payment would be handled like a regular survivor payment. The examiner would use the calculations from the Imaged G-363M to fill in the calculations on the Payment screen.

E. Payments that Net to Zero

Sometimes a payment will be offset to zero by other amounts owed. In this situation, an examiner should fill out a G-363M on RRAILS and send it to Imaging as a record that it was handled. No further action would be necessary.

### 3.13.92 Modifying or Deleting Payments on MPS

Payments entered on the Medicare Payment System can be modified or deleted before they are sent to DAISY for payment. Payments are sent to DAISY the night they are submitted as completed. Therefore, completed payments must be reopened before the end of the business day they were entered if the user wishes to modify them.

Payments can only be modified or deleted by the examiner assigned to that case or a user with supervisor or admin status. After entering the Medicare Payment System, users should follow the instructions below to modify or delete payments.

#### A. Modifying an In-Progress/Sent to Auth/Pending Auth Payment

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Click the My Dashboard button in the middle of the screen or the Dashboard button in the top menu bar. The Dashboard displays all the user’s in-progress payments.</td>
</tr>
<tr>
<td>2</td>
<td>Select status of payment to be modified:</td>
</tr>
<tr>
<td></td>
<td><strong>If the payment is. . .</strong></td>
</tr>
<tr>
<td></td>
<td>In-Progress</td>
</tr>
<tr>
<td></td>
<td>Sent to Auth</td>
</tr>
<tr>
<td></td>
<td>Pending Auth</td>
</tr>
<tr>
<td>3</td>
<td>Find the payment that needs to be modified. To find a payment, users can do any of the following:</td>
</tr>
<tr>
<td></td>
<td>• Search for the payment by claim number, social security number, pseudo number or payment number using the Search box</td>
</tr>
<tr>
<td></td>
<td>• Click on any of the headers in the results panel to sort the results by that</td>
</tr>
</tbody>
</table>
Open the selected payment by clicking on the Open Payment button (indicated by a pencil icon) under Actions. The Payment screen will be displayed upon reopening the payment.

Modify the payment

B. Modifying a Completed Payment

Completed payments must be reopened by a user with supervisor or admin access. Users with examiner/authorizer/trainee access will need to contact their supervisor to reopen a completed payment.

Users with supervisor or admin access will follow the instructions below to reopen a completed payment for modification:

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Click the My Dashboard button in the middle of the screen or the Dashboard button in the top menu bar</td>
</tr>
<tr>
<td>2</td>
<td>Click the Completed button or tab near the top of the screen</td>
</tr>
<tr>
<td>3</td>
<td>Find the payment that needs to be modified. To find a payment, a user can do any of the following:</td>
</tr>
<tr>
<td></td>
<td>• Search for the payment by claim number, social security number, pseudo number or payment number using the Search box</td>
</tr>
<tr>
<td></td>
<td>• Click on any of the headers in the results panel to sort the results by that criterion</td>
</tr>
<tr>
<td>4</td>
<td>Reopen the selected payment by clicking on the Reopen Payment button (indicated by a round arrow icon) under Actions.</td>
</tr>
<tr>
<td>5</td>
<td>A message will be displayed asking to verify the action. Click Ok. This returns the payment to the In-Progress screen</td>
</tr>
<tr>
<td>6</td>
<td>Click the In-Progress button or tab near the top of the screen</td>
</tr>
<tr>
<td>7</td>
<td>Find the payment that needs to be modified using the same methods as step 3</td>
</tr>
<tr>
<td>8</td>
<td>Open the selected payment by clicking on the Open Payment button (indicated by a pencil icon) under Actions. The Payment screen will be displayed upon reopening the payment.</td>
</tr>
<tr>
<td>9</td>
<td>Modify the payment</td>
</tr>
</tbody>
</table>
C. Deleting a Payment

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Click the My Dashboard button in the middle of the screen or the Dashboard button in the top menu bar</td>
</tr>
<tr>
<td>2</td>
<td>Click on the button or tab that corresponds to the status of the payment being deleted: In-Progress, Sent to Auth, Pending Auth or Completed.</td>
</tr>
</tbody>
</table>
| 3    | Find the payment that needs to be modified. To find a case, a user can do any of the following:  
  - Search for the payment by claim number, social security number, pseudo number or payment number using the Search box  
  - Click on any of the headers in the results panel to sort the results by that criterion |
| 4    | Delete the payment |

<table>
<thead>
<tr>
<th>If the case is . . .</th>
<th>Then . . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>In-Progress</td>
<td>Delete the payment by clicking on the Delete Payment button, indicated by a fire icon. A message will be displayed asking to verify the action. Click OK. The payment is now deleted.</td>
</tr>
<tr>
<td>Sent to Auth</td>
<td>Request deletion from your supervisor. The supervisor must assign the payment to an authorizer and instruct the authorizer to return the payment to the examiner. The authorizer will click the Reopen Payment button (indicated by a circle arrow icon) to return the payment to In-Progress status. Once the payment has been returned it will be listed as In-Progress and can be deleted as indicated above.</td>
</tr>
<tr>
<td>Pending Auth</td>
<td>Request deletion from the authorizer assigned to that payment. The authorizer will click the Reopen Payment button (indicated by a circle arrow icon) to return the payment to In-Progress status. Once the payment has been returned it will be listed as In-Progress and can be deleted as indicated above.</td>
</tr>
</tbody>
</table>
arrow icon) to return the payment to In-Progress status. Once the payment has been returned it will be listed as In-Progress and can be deleted as indicated above.

| Completed         | Request deletion from your supervisor. The supervisor will click the Reopen Payment button (indicated by a circle arrow icon) to return the payment to In-Progress status. The user can then go back to step 2 to complete the deletion. |

### 3.13.93 Assigning Authorizers/Reassigning Payments on MPS

Examiners assign cases to themselves automatically when they start a new payment. Once that payment is assigned to an examiner, no other examiner can complete that case unless it is reassigned. A user with supervisor or admin status can modify payments, but not submit them. Supervisors/Admins can assign authorizers to cases and change the examiner or authorizer already assigned to a case. Below are instructions on how cases are assigned and reassigned.

#### A. Assigning an Authorizer to a Payment

Once a payment has been Sent to Auth, it will be eligible for assignment to an authorizer. Payments that are Sent to Auth must be assigned to an authorizer for authorization before the payment is complete.

The supervisor/admin user will complete the following steps to assign an authorizer to a payment:

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter the Medicare Payment System through the link on Boardwalk</td>
</tr>
<tr>
<td>2</td>
<td>Click the Admin Settings button at the top of the Welcome page</td>
</tr>
<tr>
<td>3</td>
<td>Select Assignment Management from the drop-down menu</td>
</tr>
<tr>
<td>4</td>
<td>Find the payment(s) that need to be authorized by using one of the following methods:</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>To Find. . .</th>
<th>Then. . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>A specific claim or payment number</td>
<td>Enter the claim or payment number in the Claim/Payment # box and hit</td>
</tr>
</tbody>
</table>
Select an Authorizer

<table>
<thead>
<tr>
<th>If . . .</th>
<th>Then . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>Only one authorizer is needed for the payment</td>
<td>Click on the drop-down menu under Authorizer #1 and select an authorizer. The message “[Name of Authorizer #1] has been assigned as AUTHORIZER1 on Payment # [number]” should be displayed. Note: Authorizer #1 must be a different user from the Examiner.</td>
</tr>
<tr>
<td>If two authorizers are needed</td>
<td>Select authorizer #1 as indicated above, then click on the drop-down menu under Authorizer #2 and select another authorizer. The message “[Name of Authorizer #2] has been assigned as AUTHORIZER2 on Payment # [number]” should be displayed. NOTE: Authorizer #2 must be a different user from the Examiner and Authorizer #1.</td>
</tr>
</tbody>
</table>

Once an authorizer has been assigned to a payment, that payment will move from the Sent to Auth screen to the Pending Auth screen.

B. Assigning a different Examiner/Authorizer to a Payment

If the original examiner is unable to complete their assigned payment, it can be reassigned to a new examiner.
The supervisor/admin user will complete the following steps to reassign an examiner or authorizer to a payment:

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter the Medicare Payment System through the link on Boardwalk</td>
</tr>
<tr>
<td>2</td>
<td>Click the Admin Settings button at the top of the Welcome page</td>
</tr>
<tr>
<td>3</td>
<td>Select Assignment Management from the drop-down menu</td>
</tr>
<tr>
<td>4</td>
<td>Find the payment(s) that need to be reassigned by using one of the following methods:</td>
</tr>
<tr>
<td></td>
<td>To Find. . .</td>
</tr>
<tr>
<td></td>
<td>A specific claim or payment number</td>
</tr>
<tr>
<td></td>
<td>All results by a specific examiner or authorizer</td>
</tr>
<tr>
<td>5</td>
<td>Click the drop-down name menu under Examiner or Authorizer (#1 or #2) and select the new Examiner or Authorizer. The message “[New Examiner/Authorizer Name] has been assigned as EXAMINER/AUTHORIZER on Payment #[number]” should be displayed.</td>
</tr>
</tbody>
</table>

### 3.13.94 Authorizing Payments on MPS

All payments assigned to an authorizer for authorization will show up on the Pending Auth page for that user. To authorize a payment, an authorizer will complete the following steps:

<table>
<thead>
<tr>
<th>STEP</th>
<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Enter the Medicare Payment System through the link on Boardwalk</td>
</tr>
<tr>
<td>2</td>
<td>Click the My Dashboard button</td>
</tr>
<tr>
<td>3</td>
<td>Click the Pending Auth button or tab</td>
</tr>
</tbody>
</table>
4. Find the payment that needs to be authorized. To find a payment, a user can do any of the following:
   - Search for the payment by claim number, social security number, pseudo number or payment number using the Search box
   - Click on any of the headers in the results panel to sort the results by that criterion

5. Click the Open Payment button under Action (indicated by a pencil icon) to open the payment for review (opens to the Payment screen)

6. Verify that all entries on the Payment screen are correct:

<table>
<thead>
<tr>
<th>If. . .</th>
<th>Then. . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>All entries are correct</td>
<td>Go to step 9</td>
</tr>
<tr>
<td>The incorrect beneficiary/payee or number of shares is entered</td>
<td>Check box number 1 under the Change Needed? heading</td>
</tr>
<tr>
<td>The incorrect number of Total Shares is entered</td>
<td>Check box number 2 to the right of the Total Shares box</td>
</tr>
<tr>
<td>There is a calculation error</td>
<td>Check box number 3 under the Add button in the calculation area</td>
</tr>
<tr>
<td>There is an error related to the fund code selection or allocation of funds</td>
<td>Check box number 4 next to the Selected Fund Codes area</td>
</tr>
<tr>
<td>There is an error in the Remarks</td>
<td>Check box number 5 next to the Remarks section</td>
</tr>
</tbody>
</table>

7. Complete the following steps to enter notes to the examiner regarding any errors:
   - Click the Notes button on the right side of the screen to open the Notes menu
   - Click +Note to open the notes selection box
   - Check the box next to the appropriate error and/or enter a custom note in the text box (the check box next to Custom Note must be checked in order to type in the text box)
   - Click the Add button to save the notes
**NOTE:** Notes entered in the Notes section on the right side of the screen are only visible in MPS and will not appear on the award form

<table>
<thead>
<tr>
<th>8</th>
<th>Click the Save button in the bottom tool bar to accept all entries made on the Payment screen. The message “SUCCESS: true TEXT:PAYMENT SAVED” should be displayed. Click OK.</th>
</tr>
</thead>
<tbody>
<tr>
<td>9</td>
<td>Click the Details button at the top of the page to go to the Details page</td>
</tr>
<tr>
<td>10</td>
<td>Verify that all entries on the Details screen are correct:</td>
</tr>
<tr>
<td><strong>If. . .</strong></td>
<td><strong>Then. . .</strong></td>
</tr>
<tr>
<td>All entries are correct</td>
<td>Go to step 13</td>
</tr>
<tr>
<td>The letter is incorrect</td>
<td>Check the box next to the Letter header</td>
</tr>
<tr>
<td>11</td>
<td>Complete the following steps to enter notes to the examiner regarding any errors:</td>
</tr>
<tr>
<td>• Click the Notes button on the right side of the screen to open the Notes menu</td>
<td></td>
</tr>
<tr>
<td>• Click +Note to open the notes selection box</td>
<td></td>
</tr>
<tr>
<td>• Check the box next to the appropriate error and/or enter a custom note in the text box (the check box next to Custom Note must be checked in order to type in the text box)</td>
<td></td>
</tr>
<tr>
<td>• Click the Add button to save the notes</td>
<td></td>
</tr>
<tr>
<td><strong>NOTE:</strong> Notes entered in the Notes section on the right side of the screen are only visible in MPS and will not appear on the award form</td>
<td></td>
</tr>
<tr>
<td>12</td>
<td>Click the Save button in the bottom tool bar to accept all entries made on the Details screen. The message “SUCCESS: true TEXT:SUCCESS” should be displayed. Click OK.</td>
</tr>
<tr>
<td>13</td>
<td>Click the Summary button at the top of the page to go to the Summary page</td>
</tr>
<tr>
<td>14</td>
<td>Verify that all information on the Summary screen is correct:</td>
</tr>
<tr>
<td>• Click the View Letters button to see the letter</td>
<td></td>
</tr>
<tr>
<td>• Click the View Award button to see the award</td>
<td></td>
</tr>
</tbody>
</table>
### Submit payment or return for corrections:

<table>
<thead>
<tr>
<th>If . . .</th>
<th>Then . . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>All entries are correct and no error boxes are checked</td>
<td>Click the Approve button in the bottom tool bar to approve the payment.</td>
</tr>
<tr>
<td></td>
<td>The message “Payment Complete-Payment has been completed” should display if no further authorization is required. Click Ok. The payment will voucher with the next DAISY run.</td>
</tr>
<tr>
<td></td>
<td>If a second authorization is required, the message “Payment Submitted-Payment has been submitted for 2\textsuperscript{nd} authorization” should display. The second authorizer will repeat the authorization process.</td>
</tr>
<tr>
<td>There are error boxes checked on the Payment or Details</td>
<td>Click the Return button in the bottom tool bar to return the payment to the examiner for correction. The payment will return to the examiner’s In-Progress screen.</td>
</tr>
</tbody>
</table>

**NOTE:** The Return button only appears at the bottom of the Summary screen if one or more error boxes were checked on the Payment and/or Details screens.

16 Click Cancel or the Dashboard button to return to the Dashboard

### 3.13.95 Vouchering Awards on MPS

When an award has been authorized for payment, MPS assigns a voucher date and number and formats it into an award activity record that is passed to DAISY/CHICO.

The voucher date assigned is generally the date of the DAISY run in which the award will be processed. Awards are assigned voucher numbers based on the fund code.

The valid voucher numbers, by fund code, are:

<table>
<thead>
<tr>
<th>FUND CODE</th>
<th>VOUCHER NUMBER</th>
</tr>
</thead>
<tbody>
<tr>
<td>SMIA</td>
<td>216</td>
</tr>
</tbody>
</table>
3.13.96 Voucher Rejects on MPS

If an award rejects in DAISY/CHICO, the payment can be reopened by a supervisor. Once it has been reopened, it will return to the originating user’s In-Progress queue on MPS. The examiner can then correct the reject and resubmit for payment. The payment will also be listed as rejected in the Reports section of MPS. Users with supervisor or admin status can view the rejected payments by clicking on Refunds by DAISY Status in the Reports section.

If the rejected payment cannot be reopened, a new award must be established to pay the rejected amount. If a payment to multiple survivors is being paid and the entire award rejects, it can be reopened and the errors corrected. If the award is a partial reject, some survivors vouchered while others rejected, a new payment will need to be created for the rejected amount.

If the rejected award does not require revouchering, it should be deleted.

</tbody>
</table>
| UNIT       | **Entry is mandatory.** The entry in this field is carried over to all the MEDCOR main and subordinate activity screens and cannot be changed on the MEDCOR activity screens.  
  
Enter the appropriate unit as shown below:  
  
**MS examiners should enter HB1, HB2, HB3, HB4, HB5, HB6, HB6, HB7, HB8, HB9**  
  
**DSUBD:** Disability initial examiners should enter DPI, and disability post examiners should enter DPP.  
  
**RBD and SBD:** Retirement examiners should enter BRB, survivor examiners should enter BSB, and other examiners in Operations should enter DOC.  
  
**Field Offices** should enter BFS.  
  
**RRB Helpline:** HB5  
  
**Internet:** HB7  
  
**Others who have access to MOLI should enter SEE.** |
| CLAIM NUMBER | **Entry is not necessary when accessing Screen MCMU017 or MCMI018.** If a RRB claim number is entered, if an activity was added to MEDCOR, the claim number will be displayed as the first RRB claim number on Screen MCMU017 or MCMI018. If no claim number is entered, the first claim number on the pending or completed list will appear on Screen MCMU017 or MCMI018. If prefilled via the HotKey, entry can be spaced out.  
  
**Entry is mandatory when accessing a MEDCOR main activity screen.** The entry in this field is carried over to all the MEDCOR main and subordinate activity screens and cannot be changed on the MEDCOR activity screens. If an incorrect entry was made and the activity was not added to MEDCOR, do not add the activity. Hit the clear key until you return to Screen MCMM001 and start over. If the activity was added to MEDCOR and not processed into MIRTEL, delete it and start over from Screen MCMM001. If the activity was added to MEDCOR and processed into MIRTEL, establish a MIRTEL record under the correct RRB claim number and consolidate the incorrect RRB claim number under the correct RRB claim number.  
  
In an entry is made, the RRB symbol, prefix and claim number...
should be entered. If 6 digit RRB claim number, precede with 3 zeros. The RRB symbol and prefix should be entered in the appropriate space, if necessary, space to the correct field. For example, the "M" in MA-123-45-6789 should be entered in the second space of the CLAIM NUMBER field.

Blank blank, blank M, blank P, blank J, blank C, blank W, WC, blank X, blank K, KC, blank T and TC are valid RRB symbols.

A, D or H are valid RRB prefixes. If the RRB symbol is equal to blank blank, blank C, blank M, blank J or blank X, then the RRB prefix must equal A.

The RRB claim number should be numeric. A 9 digits RRB claim number cannot start with 729 or 000 and the 2 middle positions cannot be 00. A 6 digit RRB claim number with a prefix of A must be greater than 0 and less than 991274. A 6 digit RRB claim number with a prefix of D must be greater than 0 and less than 415936. A RRB claim number with a prefix of H must be greater than 0 and less than 049160.

<table>
<thead>
<tr>
<th>BEN SSA NUMBER</th>
<th>Make no entry when accessing Screen MCMU017 or MCMI018. If prefilled via the HotKey, space out the entry.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The following applies when accessing a MEDCOR main activity screen:</td>
</tr>
<tr>
<td></td>
<td>For employees:</td>
</tr>
<tr>
<td></td>
<td>Make no entry.</td>
</tr>
<tr>
<td></td>
<td>For non-employees:</td>
</tr>
<tr>
<td></td>
<td>• If ACTIVITY INPUT field on Screen MCMM001 is 11, 20, 21, 22, 32 or 34, enter beneficiary's social security account number (SSAN) if the beneficiary does not have a pseudo number. If beneficiary has a pseudo number and this field was prefilled via the HotKey, space out the entry. If no SSAN and no pseudo number, enter 999-99-9999.</td>
</tr>
<tr>
<td></td>
<td>• If ACTIVITY INPUT field on Screen MCMM001 is 12, 13, 31 or 33, entry is mandatory. Enter beneficiary's SSAN. If no SSAN, enter 999-99-9999.</td>
</tr>
</tbody>
</table>

The SSAN cannot be the RRB claim number or the employee's SSAN. The SSAN should be numeric and cannot start with 729 or 000 and the 2 middle positions cannot be 00.

The entry in this field is carried over to some of the MEDCOR main activity screens and cannot be changed on the MEDCOR main activity screens. If an incorrect entry was made and the activity was not added to MEDCOR, do not add the activity. Hit the clear key until you return to Screen MCMM001 and start over. If the activity was added to MEDCOR and not processed into MIRTEL, delete it and start over from Screen MCMM001. If the activity was added to MEDCOR and processed into MIRTEL, drop the MIRTEL record with the incorrect beneficiary's SSAN and establish a MIRTEL record with the correct beneficiary's SSAN. If a MIRTEL record exits but a incorrect beneficiary's SSAN is enter on Screen MCMM001, you will receive a reject message.

<table>
<thead>
<tr>
<th>PSEUDO NUMBER</th>
</tr>
</thead>
<tbody>
<tr>
<td>Make no entry when accessing Screen MCMU017 or MCMI018. If prefilled via the HotKey, space out the entry.</td>
</tr>
<tr>
<td>The following applies when accessing a MEDCOR main activity screen:</td>
</tr>
<tr>
<td>For employees:</td>
</tr>
<tr>
<td>Make no entry.</td>
</tr>
<tr>
<td>For non-employees:</td>
</tr>
<tr>
<td>• If ACTIVITY INPUT field on Screen MCMM001 is 11, 20, 21, 22, 32, 34 or 62, enter the beneficiary's pseudo number if the beneficiary has a pseudo number and make no entry in BEN SSA NUMBER field on Screen MCMM001.</td>
</tr>
<tr>
<td>• If ACTIVITY INPUT field on Screen is 12, 13, 31 or 33, enter the pseudo number if initially assigning a pseudo number or if a pseudo number was previously assigned. When the ACTIVITY INPUT field is 12 on Screen MCMU011, entry in the PSEUDO NUMBER field is limited to the Medicare Section (MS) personnel only.</td>
</tr>
</tbody>
</table>

The entry in this field is carried over to the MEDCOR main activity screens and cannot be changed on the MEDCOR main activity screens. If an incorrect entry was made and the activity was not added to MEDCOR, do not add the activity. Hit the clear key until you return to Screen MCMM001 and start over. If the
activity was added to MEDCOR and not processed into MIRTEL, delete it and start over from Screen MCMM001. If the activity was added to MEDCOR and processed into MIRTEL, establish a MIRTEL record under the correct pseudo number and consolidate the incorrect pseudo number under the correct pseudo number.

The pseudo number cannot be the RRB claim number or the employee's SSAN. If the pseudo number is not a 6 digit number and the SSAN is not 999's, the pseudo number must be the beneficiary's SSAN. The pseudo number should be numeric and cannot start with 729 and the 2 middle positions cannot be 00. If 6 digit pseudo number, precede with three zeros and the 3 middle positions must be 995, 996, 997 or 998.

### ACTIVITY INPUT

<table>
<thead>

Appendix C - MEDCOR Main Activity Screens - Entries That Can Be Made

FIELD NAMES AND ENTRIES THAT CAN BE MADE

MEDCOR SCREEN
FIELD NAME ENTRY

BENEFICIARY NAME

Display only on Screen MCMU020.

Entry not necessary on Screens MCMU012, MCMU013, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034.

If entry, the 1st name should be alpha in the 1st position, the 2nd through 12th position can be blank or alpha and no alpha after a blank space. The middle initial should be blank or alpha. The last name should be alpha in 1st position, the 2nd through 12th can be blank or alpha and no alpha after a blank space.

This field is not moved to the activity record.

RECORD STATUS: Entry is mandatory on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034.

If the RRB symbol is C, entry should be 02, 12, 22, 90, 98 or 99. If MIRTEL/MOLI record status is 11, 21 or 31 and the entry in RECORD STATUS is 12 or 22, Screen MCMU016 should also be completed.

Enter the appropriate record status code as shown below:

01 Annuity Application Filed - Jurisdiction Pending - enter only on Screens MCMU012 and MCMU021, if MIRTEL/MOLI's record status is 01, 02, 03, 04 or 05.

02 No Annuity Application Filed - Jurisdiction Pending - enter only on Screens MCMU012 and MCMU021, if MIRTEL/MOLI's record status is 01, 02, 03, 04 or 05.

03 Annuity in Suspense (Year-end Billing) - Jurisdiction Pending - enter only on Screens MCMU012 and MCMU021, if MIRTEL/MOLI's record status is 01, 02, 03, 04 or 05.

04 Annuity in Suspense (Quarterly Billing) - Jurisdiction Pending - enter only on Screens MCMU012 and MCMU021, if MIRTEL/MOLI's record status is 01, 02, 03, 04 or 05.

05 Attainment - Jurisdiction Pending - enter only on Screens MCMU012 and MCMU021, if MIRTEL/MOLI's record status is 01, 02, 03, 04 or 05.

11 Annuity Application Filed - Jurisdiction Cleared - enter only on Screens MCMU13, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034.
In entry in PART B OPTION, the Part B option should be 2, 3, 4, 6, 8 or 9.

12 No Annuity Application Filed - Jurisdiction Cleared - enter only on Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If entry in PART B OPTION, the Part B option should be 2, 3, 4, 6, 8 or 9.

13 Annuity in Suspense - Jurisdiction Cleared - No Billing Required - enter only on Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If entry in PART B OPTION, the Part B option should be 2, 3, 4, 6, 8 or 9.

21 Annuity Application Filed - Jurisdiction Cleared - To Be Adjusted - enter only on Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If entry in PART B OPTION, the Part B option should be 1, 5, A, B, C, or Z.

22 Medicare Only Application Filed or Annuity in CPS Without Sufficient Funds to Make Deductions - Jurisdiction Cleared - Direct Billing Required - enter only on Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If entry in PART B OPTION, the Part B option should be 1, 5, A, B, C, or Z.

23 Annuity in Suspense - Jurisdiction Cleared - Year-end Billing Required - enter only on Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If entry in PART B OPTION, the Part B option should be 1, 5, A, B, C, or Z.

24 Annuity in Suspense - Jurisdiction Cleared - Quarterly Billing Required - enter only on Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If entry in PART B OPTION, the Part B option should be 1, 5, A, B, C, or Z.

31 Annuity in Force With Premium Deductions - Enter record status 21 if MIRTEL/MOLI record status is 31 and it is not changing. If MIRTEL/MOLI record status is 31 and it is being changed to 22, 23 or 24, entry should also be made in the PAID THRU DATE field.

90 Cessation of Disability - enter only on Screen MCMU022. If entry is 90, entry should also be made in the PART A TERM DATE field.

98 Loss of QRRB Status - enter only on Screen MCMU013
99 Death - enter only on Screens MCMU013, MCMU022, MCMU031 and MCMU032. If entry is 99, entry should also be made in the DATE OF DEATH field.

**TYPE BENEFICIARY:** Display only on Screen MCMU020, if blank or incorrect use Screen MCMU022.

Entry is mandatory on Screens MCMU012, MCMU013, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034. The entry in TYPE BENEFICIARY is linked with the RRB beneficiary symbol as indicated below:

<table>
<thead>
<tr>
<th>IF RRB SYMBOL</th>
<th>TYPE BENEFICIARY SHOULD BE</th>
</tr>
</thead>
<tbody>
<tr>
<td>bb</td>
<td>01, 11, 21</td>
</tr>
<tr>
<td>bM, bX</td>
<td>02, 12, 22</td>
</tr>
<tr>
<td>bW, bT, bK, bJ</td>
<td>03, 13, 23</td>
</tr>
<tr>
<td>WC, TC, KC</td>
<td>04, 14, 24</td>
</tr>
<tr>
<td>bP</td>
<td>05, 15, 25</td>
</tr>
<tr>
<td>bC, bX, bM</td>
<td>06, 16, 26</td>
</tr>
</tbody>
</table>

For all Screens, if the 1st position of entry in TYPE BENEFICIARY is 0 or 2, the calculated age must be equal to or greater the age 64 and 6 months.

For all Screens, if the 1st position of entry in TYPE BENEFICIARY is 1, the calculated age must be less than age 65.

For Screen MCMU032, the entry in TYPE BENEFICIARY does not have to match MIRTEL/MOLI's type beneficiary, it should be consistent with the entry in the HI DATE OF BIRTH field.

On Screens MCMU021, MCMU022 and MCMU034, the entry should be the same as on MIRTEL/MOLI unless MIRTEL/MOLI's record status is not 90 and the beneficiary is going from disabled to disabled now age 65, (the 1st position is changing from a 1 to a 2); or MIRTEL/MOLI record status is 90 and an age 65 enrollment is being processed (the 1st position can be changed from a 1 to a 0). In both situation, the name and date of birth on the activity must match what is on MIRTEL/MOLI.

Enter the appropriate type beneficiary code as shown below:
01 Employee, age 65
11 Employee, disabled
21 Employee, previously disabled now age 65
02 Spouse, age 65
12 Spouse, disabled
22 Spouse, previously disabled now age 65
03 Widow(er), age 65
13 Widow(er), disabled
23 Widow(er), previously disabled now age 65
04 Survivor child, age 65
14 Survivor child, disabled
24 Survivor child, previously disabled now age 65
05 Parent, age 65
15 Parent, disabled
25 Parent, previously disabled now age 65
06 IPI, age 65
16 IPI, disabled
26 IPI, previously disabled now age 65

SEX CODE: Display only on Screen MCMU020. If blank or incorrect, use Screen MCMU022.

Entry is mandatory on Screens MCMU012, MCMU013, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034. Enter the appropriate sex code, M for Male or F for Female. If an entry is made and the sex code is different from what is shown on MIRTEL/MOLI, the NAME and/or HI DATE OF BIRTH should match.

PYMT DATE OF BIRTH

Display only on Screen MCMU020. If blank or incorrect, use Screen MCMU022.
Entry is mandatory on Screens MCMU012, MCMU013, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034. Enter the enrollee's date of birth used to pay benefits. Entry should be numeric, format of month (01 - 12), day (01 - 31), century (18, 19 or 20) and year (00 - 99) and be greater than 12-1-1849.

If MIRTEL/MOLI has 00 in the day field, MEDCOR will display 15. If both month and day are 00, 00's will be displayed.

**HI DATE OF BIRTH:** Display only on Screen MCMU020. If blank or incorrect, use Screen MCMU022.

Entry is mandatory on Screens MCMU012, MCMU013, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034. Enter the enrollee's date of birth used to establish Medicare entitlement. Entry should be numeric, format of month (01 - 12), day (01 - 31), century (18, 19 or 20) and year (00 - 99) and be greater than 12-1-1849.

The entry in HI DATE OF BIRTH is used for all comparisons made during the edit process.

If the HI date of birth on MIRTEL/MOLI is changing, other than the day of birth from 00, name on Screen MCMU016 should match what is on MIRTEL/MOLI.

If MIRTEL/MOLI has 00 in the day field, MEDCOR will display 15. If both month and day are 00, 00's will be displayed.

**PSEUDO NUMBER:** Display only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034.

**BEN SSA NUMBER:** Display only on Screens MCMU012, MCMU013, MCMU021, MCMU031, and MCMU033.

**EE SSA NUMBER:** Entry is mandatory on Screens MCMU012, MCMU013, MCMU021, MCMU031 and MCMU033.

If RRB claim number is nine digits, MEDCOR will prefill on the activity screens. Otherwise, enter employee's SSAN or 999-99-9999's. If the RRB claim number is nine digits, the EE SSA NUMBER should be the same as the RRB claim number. The SSAN should be numeric, 1st 3 positions cannot equal 000 or 729 and the middle 2 positions cannot equal 00.

**FORMER SS CL NO:** Entry is optional on Screens MCMU012 and MCMU013.

Entry is mandatory on Screens MCMU021, MCMU031 and MCMU32.

The FORMER SS CL NO should be numeric, 1st 3 positions cannot be 000 or 729 and the middle 2 positions cannot be 00.
The FORMER SS CL NO suffix, can be 2 alpha characters or 1 alpha and 1 numeric characters.

The following are valid suffixes:

Ab
Bb, B1, B2, B3, B4, B5, B6, B7, B8, BA, BD, BG, BH, BJ, BK, BL, BN, BP, BQ, BR, BT, BW, BY,
C1, C2, C3, C4, C5, C6, C7, C8, CA, CB, CC, CD, CE, CF, CG, CH, CI, CJ, CK,
Db, D1, D2, D3, D4, D5, D6, D7, D8, DA, DC, DD, DG, DH, DJ, DK, DL, DM, DN, DP, DQ, DR, DS, DT, DV, DW, DX, DY, DZ,
Eb, E1, E2, E3, E4, E5, E6, E7, E8, E9, EA, EB, EC, ED, EF, EG, EH, EJ, EK, EM,
F1, F2, F3, F4, F5, F6, F7, F8,
J1, J2, J3, J4,
K1, K2, K3, K4, K5, K6, K7, K8, KA, KB, KC, KD, KE, KF, KG, KH, KJ, KL, KM,
Wb, W1, W2, W3, W4, W5, W6, W7, W8, W9, WB, WC, WF, WG, WJ, WR, WT,
Mb, M1,
Tb, T2, T3, T4, T5, T6, T7, T8, TA, TB, TC, TD, TE, TF, TG, TH, TJ, TK, TL, TM, TN, TP, TQ, TR, TS, TT, TU, TV, TW, TX, TY, TZ

If an entry is made in FORMER SS CL NO, the following applies:

• If the former SSA suffix is Ab, HA, J1, J2, J3, J4, Mb, M1, Tb or TA; and the RRB ben symbol is blank, the FORMER SS CL NO should be the employee SSAN.

• If the former SSA suffix is not Ab, HA, J1, J2, J3, J4, Mb, M1, Tb or TA; and the RRB ben symbol is blank, the FORMER SS CL NO should not be the employee SSAN.

• If the former SSA suffix is Ab, HA, J1, J2, J3, J4, Mb, M1, Tb or TA; and the RRB ben symbol is not blank, the FORMER SS CL NO should be the beneficiary’s SSAN.

• If the former SSA suffix is not Ab, HA, J1, J2, J3, J4, Mb, M1, Tb or TA; and the RRB ben symbol is not blank, the FORMER SS CL NO should not be the beneficiary’s SSAN.

• If the former SSA suffix is Bb, B3, B4, B8, BA, BD, BG, BH, BJ, HB, TD, TG, TH, TJ or TK; and the RRB ben symbol is bM, the FORMER SS CL NO should be the employee’s SSAN.
• If the RRB ben symbol is bC or WC and the FORMER SS CL NO is the employee's SSAN, the first position of former suffix should be C.

• If the beneficiary's sex is female, the FORMER SS CL NO cannot be the following:
  B1, B4, BG, BH, BJ, BR, BT, BW, BY,
  D1, D3, D5, DC, DH, DJ, DK, DM, DP, DQ, DR, DS, DT, DX, DZ,
  E4, E5, E6, E9, EF, EG, EH, EJ, EK, EM,
  F1, F3, F5, F7,
  TF,
  W1, W3, W5, WB, WG, WR, WT

• If the beneficiary's sex is male, the FORMER SS CL NO cannot be the following:
  B, B2, B3, B5, B6, B7, B8, B9, BA, BD, BK, BL, BN, BP, BQ,
  D, D2, D4, D6, D7, D8, D9, DA, DD, DF, DL, DN, DV, DW, DY,
  E, E1, E2, E3, E7, E8, EA, EB, EC, ED,
  F2, F4, F6, F8,
  W2, W4, W6, W7, W8, W9, WF, WJ

FORMER RR CL NO: Entry is mandatory on Screens MCMU033 and MCMU034.

If entry in FORMER RR CL NO, if 6 digit former RRB claim number, precede with 3 zeros. The former RRB symbol and former prefix should be entered in the appropriate space, if necessary, space to the correct field. For example, the "M" in MA-123-45-6789 should be entered in the second space of the FORMER RR CL NO field.

Blank, blank M, blank P, blank J, blank C, blank W, WC, blank X, KC, blank T and TC are valid former RRB symbols.

A, D or H are valid former RRB prefixes.

The former RRB claim number should be numeric. A 9 digits former RRB claim number cannot start with 729 or 000 and the 2 middle positions cannot be 00. A 6 digit former RRB claim number with a prefix of A must be greater than 0 and less than 991274 or greater than 994999. A 6 digit former RRB claim number with a prefix of D must be greater than 0 and less than 415936 or greater than 994999. A former RRB claim number with a prefix of H must be greater than 0 and less than 049160 or greater than 994999.
If the former RRB ben symbol is blank, bC, bM, BJ or bX the former RRB prefix must be A or H.

The former RRB claim number cannot be the RRB claim number.

**ANN BEGIN DATE:** For Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if the record status is 02, 12 or 22, make no entry.

For Screen MCMU012, for a disabled or disabled now age type beneficiary other than a child, enter the ABD. For disabled or disabled now age children, if an entry is made in 1ST FULL MO DIS, enter the ABD. If the TYPE BENEFICIARY is age 65 and the RECORD STATUS is 01, 03, 04, 05, 11, 13, 21, 23 or 24, the ABD can be entered. If the entry in PART B OPTION is Z, make no entry.

For Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if the type beneficiary is disabled or disabled now age 65, if an entry is made in 1ST FULL MO DIS, enter the ABD. If the TYPE BENEFICIARY is age 65 and the RECORD STATUS is 01, 03, 04, 05, 11, 13, 21, 23 or 24, the ABD can be entered. If the entry in PART B OPTION is Z, make no entry.

Entry should be numeric, format of month (01 - 12), century (19 or 20) and year (00 - 99) and be greater than 12-1934 and less than current date plus 3 months.

**1ST FULL MO DIS:** For Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if the type beneficiary is age 65, make no entry.

For Screen MCMU012, for a disabled or disabled now age type beneficiary other than a child, enter the 1ST FULL MO DIS. For disabled or disabled now age children, if an entry is made in ANN BEGIN DATE, enter the 1ST FULL MO DIS. If the entry in PART B OPTION is Z, make no entry.

For Screens MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if the type beneficiary is disabled or disabled now age 65, if an entry is made in ANN BEGIN DATE, enter the 1ST FULL MO DIS. If the entry in PART B OPTION is Z, make no entry.

Entry should be numeric, format of month (01 - 12), century (18, 19 or 20) and year (00 - 99) and be greater than 12-1934 and less than current date plus 3 months.

If type beneficiary is a disabled child, the entry should be less or equal to the current date minus 18 months. For other disabled type beneficiaries, the entry should be less than or equal to the current date minus 23 months.

**PART A EFF DATE:** For Screens MCMU012, MCMU013, MCMU031 and MCMU033, entry is mandatory.
For Screens MCMU021, MCMU022, MCMU032 and MCMU034, entry can be made.

Entry should be numeric, format of month (01 - 12), century (19 or 20) and year (00 - 99). If entry in PART A EFF DATE, an entry must also be made in the ID ISSUE CODE.

AGED PART A EFFECTIVE DATE:

Entry must be equal to or greater than 07-1966; and equal to or greater than age 65; and cannot be greater than the current date plus 6 months.

If the entry in PART B FILING DATE is an IEP DOF, the entry in PART A EFF DATE should be equal to the latest of the following: 07-1966 or the month the person attained age 65.

If the entry in PART B FILING DATE is an GEP DOF, DEEMED GEP DOF or there is no entry in PART B FILING DATE, the entry in PART A EFF DATE should be equal to or greater than the latest of the following: 07-1966 or the month the person attained age 65.

If the entry in PART B FILING DATE is not an IEP, GEP or DEEMED GEP, the entry in PART A EFF DATE must be equal to the latest of the following: 07-1966; or the month the person attained age 65; or if the DOF is less than 09-83 or RRB ben symbol is blank X, 12 months prior to the DOF; or if the DOF is greater than 08-83 and RRB ben symbol is not equal to blank X, 6 months prior to the DOF.

DISABILITY PART A EFFECTIVE DATE:

Entry must be equal to or greater than 07-1973; less than the month the beneficiary attained age 65; and cannot be greater than the current date plus 6 months.

If the entry in PART B OPTION is Z, the entry must be equal to or greater than the latest of: 07-1973 or the year and month in which age 20 is attained.

For disabled children:

- If there is an entry in ANN BEGIN DATE and 1ST FULL MO DIS, the entry must be equal to the latest of the following: 07-1973; or the year and month in which age 20 is attained; or ABD plus 24 months; or FFMD plus 24 months.

- If there is no entry in the ANN BEGIN DATE and 1ST FULL MO DIS, the entry must be equal to or greater than the latest of the following: 07-1973 or the year and month in which age 20 is attained.

For other disabled type beneficiaries:

- If there is an entry in ANN BEGIN DATE and 1ST FULL MO DIS, the entry must be equal to the latest of the following: 07-1973; or ABD plus 24 months; or FFMD plus
29 months if FFMD is after 07-1972 or FFMD plus 30 months if FFMD is before 08-1972.

- If there is no entry in the ANN BEGIN DATE and 1ST FULL MO DIS, the entry must be equal to or greater than 07-1973.

**PART A TERM DATE:** For Screens MCMU013, MCMU020 and MCMU022, if the entry in RECORD STATUS is 90 or if MIRTEL/MOLI's record status is 90, entry is mandatory.

Entry should be numeric, format of month (01 - 12), century (19 or 20) and year (00 - 99) and be equal to or greater than the Part A effective date and less than current date plus 2 months.

XXXXXX's can be entered on Screen MCMU020 if the Part A termination date on MIRTEL/MOLI is greater than the current date. XXXXXXX's can be entered on Screen MCMU022 if the Part A termination date on MIRTEL/MOLI is equal to or less than the current date. If XXXXXXX's are entered in PART A TERM DATE, MIRTEL/MOLI's record status must be 90; the entry in the RECORD STATUS must be 11, 12, 13, 21, 22, 23 or 24; and the entry in the ID ISSUE CODE must be 2.

If a date is entered in PART A TERM DATE, the entry in the RECORD STATUS must be 90. If entry in the PART A TERM DATE, the entry in the PART B OPTION must be what is on MIRTEL/MOLI.

No entry allowed on Screen MCMU013.

**PART B FILING DATE**

For Screens MCMU012, MCMU013, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034: If the entry in PART B OPTION is A, B, C, Z, 4, 6, 8 or 9, make no entry. If the entry in PART B OPTION is 3, 1 or 5, an entry can be made.

Entry should be numeric, format of month (01 - 12), century (19 or 20) and year (00 - 99); if aged, be greater than 08-1965; if disabled, be greater than 03-1973; and not greater than the current date plus 5 months unless it is equal to 01, 02 or 03 of the current year plus one.

**VALID AGED IEP DATE OF FILING:**

If age 65 after 02-1966, the DOF must be after age 64 plus 8 months and before age 65 plus 4 months.

If age 65 before 03-1966, the DOF must be after 08-1966 and before 10-1966.

**VALID AGED GEP DATE OF FILING:**

If age 65 before 03-1966 and DOF is after 09-1966; or age 65 after 02-1966 and before 12-1967 and the DOF is after age 65 plus 3 months, the DOF must be equal to 10-

If age 65 after 11-1967 and DOF is after age 65 plus 3 months, the DOF must be equal to: 04-1981, 05-1981, 06-1981, 07-1981, 08-1981, 09-1981, or 01, 02, 03 of a year greater than 1968 through the current year.

**VALID AGED DEEMED GEP DATE OF FILING:**

For Screen MCMU012 only, if age 65 and DOF is after age 65 plus 3 months, the DOF must be 01, 02, 03 of the current year plus 1.

**VALID DISABILITY IEP DATE OF FILING:**

DOF must be after Part A effective date less 4 months and before Part A effective date plus 4 months and before age 64 plus 9 months.

**VALID DISABLED NOW AGE 65 IEP DATE OF FILING:**

DOF must be after age 64 plus 8 months and before age 65 plus 4 months.

**VALID DISABILITY GEP DATE OF FILING:**

DOF must be after Part A effective date plus 3 months and before age 64 plus 9 months and be equal to 04-1981, 05-1981, 06-1981, 07-1981, 08-1981, 09-1981, or 01, 02, 03 of a year greater than 1973 through the current year.

**VALID DISABLED NOW AGE 65 GEP DATE OF FILING:**

DOF must be after age 65 plus 3 months and be equal to 04-1981, 05-1981, 06-1981, 07-1981, 08-1981, 09-1981, or 01, 02, 03 of any year through the current.

**EQ RELIEF ENROLL** For Screens MCMU012 (MPS only), MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if entry in PART B OPTION is A, B, C or z, entry is mandatory. Enter 1, 2, 3 or 4 as shown below:

<table>
<thead>
<tr>
<th>ENTER EQ RELIEF ENROLL</th>
<th>IF PART B OPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>A</td>
</tr>
<tr>
<td>2</td>
<td>B</td>
</tr>
<tr>
<td>3</td>
<td>C - 3rd or later enrollment - OMN</td>
</tr>
</tbody>
</table>
The data in the EQ RELIEF ENROLL field is not moved to the activity record.

**GEP CODE:** Display only on Screen MCMU020.

For Screen MCMU012, an entry may be made when the record status is 01, 02, 03 or 04. Valid entries are 4 or 5.

If 4 entered, yes election in current GEP, the PART B OPTION should be 1 or A, the PART B FILING DATE should be January, February or March of the current year, the PART B EFF DATE should be July or the current year and the ID ISSUE CODE should be 2 or 5.

If 5 entered, deemed GEP, the PART B OPTION should be 1, the PART B FILING DATE should be January, February or March of the current year plus 1, the PART B EFF DATE should be July of the current year plus 1 and the ID ISSUE CODE should be 2 or 5.

The data in GEP CODE is not moved to the activity record.

**PART B OPTION:** Entry is mandatory on Screens MCMU012, MCMU013, MCMU031 and MCMU033.

Entry is optional on Screens MCMU020, MCMU021, MCMU022, MCMU032 and MCMU034.

Valid entries are:

1. **1st Enrollment** - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034
   
   If 1 entered, make no entries in the EQ RELIEF ENROLL, PART B EFF DATE and PART B PREM RATE fields. On Screen MCMU012, do not enter the GEP CODE.

2. **No Response** - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034
   
   If 2 entered, make no entries in the EQ RELIEF ENROLL, PART B EFF DATE and PART B PREM RATE fields. On Screen MCMU012, do not enter the GEP CODE.

3. **Refusal** - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034
   
   If 3 entered, make no entries in the EQ RELIEF ENROLL, PART B EFF DATE and PART B PREM RATE fields. On Screen MCMU012, do not enter the GEP CODE.
If 1 entered, make entries in the PART B EFF DATE and PART B PREM RATE fields.

A 1st Enrollment/Good Cause - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If A entered, make entries in the EQ RELIEF ENROLL, PART B EFF DATE and PART B PREM RATE fields.

4 1st Termination - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If 4 entered, make entries in the PART B EFF DATE, PART B PREM RATE, PART B TERM DATE and PART B TERM CODE fields. For Screen MCMU021, MIRTEL/MOLI must have a Part B termination date.

5 2nd Enrollment - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If 5 entered, make entries in the PART B EFF DATE and PART B PREM RATE fields.

B 2nd Enrollment/Good Cause - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If B entered, make entries in the EQ RELIEF ENROLL, PART B EFF DATE and PART B PREM RATE fields.

6 2nd Termination - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If 6 entered, make entries in the PART B EFF DATE, PART B PREM RATE, PART B TERM DATE and PART B TERM CODE fields. For Screen MCMU021, MIRTEL/MOLI must have a Part B termination date.

8 State Buy-in - enter only on Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034

If 8 entered, make entries in the PART B EFF DATE, PART B PREM RATE and SBI ACC DATE fields.

9 Dual Annuitant - enter only on Screen MCMU013

C 3rd or Subsequent Enrollment - enter only on Screens MCMU013
If C entered, make entries in the EQ RELIEF ENROLL, PART B EFF DATE and PART B PREM RATE fields.

Z  Enrollment based on disability/months not consecutive - enter only on Screens MCMU012

If Z entered, make entries in the EQ RELIEF ENROLL, PART B EFF DATE and PART B PREM RATE fields.

PART B EFF DATE:  For Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU033 and MCMU034:  If entry in PART B OPTION is 2, 3 or 9, make no entry. If entry in PART B OPTION is 1, A, 4, 5, B, 6, 8, C or Z, entry is mandatory.

Entry should be numeric and format of month (01 -12), century (19 or 20) and year (00 - 99).

AGED PART B EFFECTIVE DATE

The entry must be greater than 06-1966 and less than the current date plus 6 months, unless the entry is equal to 07 of the current year plus 1 year.

If the entry in PART B OPTION is 4, 8 or A the entry must be equal to or greater than the month and year the beneficiary attained age 65.

If the entry in PART B OPTION is 6, B or C, the entry must be equal to or greater than the month and year the beneficiary attained age 65 plus 6 months.

If the entry in PART B OPTION is 5:

- If the entry in PART B FILING DATE is 10-1967, 11-1967, 12-1967, 01-1968, 02-1968 or 03-1968, the entry must be 07-1968.

- If the entry in PART B FILING DATE is 04-1981, 05-1981, 06-1981, 07-1981, 08-1981 or 09-1981, the entry must be one of the following based on the entry in PART B FILING DATE:

<table>
<thead>
<tr>
<th>DOF</th>
<th>ENTER</th>
</tr>
</thead>
<tbody>
<tr>
<td>04-1981</td>
<td>07-1981</td>
</tr>
<tr>
<td>05-1981</td>
<td>08-1981</td>
</tr>
<tr>
<td>06-1981</td>
<td>09-1981</td>
</tr>
<tr>
<td>07-1981</td>
<td>10-1981</td>
</tr>
</tbody>
</table>
If the entry in PART B FILING DATE is 01, 02 or 03 of a year after 1967, the entry must be July of the filing year.

If there is no entry in PART B FILING DATE, the entry must be one of the following:

- July of any year after 1967 greater than the date age 65 attained plus 6 months;
- or
- 08-1981, 09-1981, 10-1981, 11-1981 or 12-1981, if the Part B effective date is greater than the date age 65 attained plus 6 months.

If the entry in PART B OPTION is 1 and the entry in PART B FILING DATE is during the IEP:

- If age 65 after 06-1966:

The entry must be one of the following based on the entry in the PART B FILING DATE:

<table>
<thead>
<tr>
<th>DOF</th>
<th>ENTER</th>
</tr>
</thead>
<tbody>
<tr>
<td>LESS THAN AGE 65</td>
<td>DATE AGE 65</td>
</tr>
<tr>
<td>DATE AGE 65</td>
<td>DATE AGE 65 PLUS 1 MONTH</td>
</tr>
<tr>
<td>DATE AGE 65 PLUS 1 MONTH</td>
<td>DATE AGE 65 PLUS 3 MONTHS</td>
</tr>
<tr>
<td>DATE AGE 65 PLUS 2 MONTHS</td>
<td>DATE AGE 65 PLUS 5 MONTHS</td>
</tr>
<tr>
<td>DATE AGE 65 PLUS 3 MONTHS</td>
<td>DATE AGE 65 PLUS 6 MONTHS</td>
</tr>
</tbody>
</table>

- If age 65 before 03-1966 and the DOF is after 08-1965 and before 06-1966; or age 65 after 02-1966 but before 07-1966 and the DOF is after age 64 plus 8 months and before age 65 plus 4 months, the entry must be 07-1966.

- If age 65 before 03-1966 and the DOF is after 05-1966 and before 10-1966, the entry must be one of the following based on the entry in the PART B FILING DATE:
If the entry in PART B OPTION is 1 and the entry in PART B FILING DATE is during a GEP:

- If the entry in PART B FILING DATE is 10-1967, 11-1967, 12-1967, 01-1968, 02-1968 or 03-1968, the entry must be 07-1968.

- If the entry in PART B FILING DATE is: 04-1981, 05-1981, 06-1981, 07-1981, 08-1981 or 09-1981, the entry must be equal to one of the following based on the entry in the PART B FILING DATE:

<table>
<thead>
<tr>
<th>DOF</th>
<th>ENTER</th>
</tr>
</thead>
<tbody>
<tr>
<td>04-1981</td>
<td>07-1981</td>
</tr>
<tr>
<td>05-1981</td>
<td>08-1981</td>
</tr>
<tr>
<td>06-1981</td>
<td>09-1981</td>
</tr>
<tr>
<td>07-1981</td>
<td>10-1981</td>
</tr>
<tr>
<td>08-1981</td>
<td>11-1981</td>
</tr>
<tr>
<td>09-1981</td>
<td>12-1981</td>
</tr>
</tbody>
</table>

- If the entry in PART B FILING DATE is 01, 02 or 03 of a year after 1967, the entry must be July of the filing year.

If the entry in PART B OPTION is 1 and the entry in PART B FILING DATE is during a deemed GEP, the entry must be July of the current year plus one.
If the entry in PART B OPTION is 1 and there is no entry in PART B FILING DATE, the entry must be one of the following:

- If age 65 after 06-1966, the entry must be one of the following:
  
  DATE AGE 65, or
  DATE AGE 65 PLUS 1 MONTH, or
  DATE AGE 65 PLUS 3 MONTHS, or
  DATE AGE 65 PLUS 5 MONTHS, or
  DATE AGE 65 PLUS 6 MONTHS, or
  July of any year after 1967, or
  If SBI involvement, the entry must be equal to or greater than the month and year the beneficiary attained age 65

- If age 65 before 03-1966, the entry must be one of the following:
  
  07-1966, or
  12-1966, 01-1967, 02-1967, 03-1967, or
  July of any year after 1967, or
  If SBI involvement, the entry must be equal to or greater than the month and year the beneficiary attained age 65

- If age 65 after 02-1966 and before 07-1966, the Part B effective date must be one of the following:
  
  07-1966, or
  July of any year after 1967, or
  If SBI involvement, the entry must be equal to or greater than the month and year the beneficiary attained age 65

**DISABILITY PART B EFFECTIVE DATE**
The entry must be greater than 06-1973; and less than the current date plus 6 months; and less than age 65.

If the entry in PART B OPTION is 4, 8 or A the entry must be equal to or greater than the Part A effective date.

If the entry in PART B OPTION is 6, B or C, the entry must be equal to or greater than the Part A effective date plus 6 months.

If the entry in PART B OPTION is 5:

- If the entry in PART B FILING DATE is 04-1981, 05-1981, 06-1981, 07-1981, 08-1981 or 09-1981, the entry must be one of the following based on the entry in PART B FILING DATE:

<table>
<thead>
<tr>
<th>DOF</th>
<th>ENTER</th>
</tr>
</thead>
<tbody>
<tr>
<td>04-1981</td>
<td>07-1981</td>
</tr>
<tr>
<td>05-1981</td>
<td>08-1981</td>
</tr>
<tr>
<td>06-1981</td>
<td>09-1981</td>
</tr>
<tr>
<td>07-1981</td>
<td>10-1981</td>
</tr>
<tr>
<td>08-1981</td>
<td>11-1981</td>
</tr>
<tr>
<td>09-1981</td>
<td>12-1981</td>
</tr>
</tbody>
</table>

- If the entry in PART B FILING DATE is 01, 02 or 03 of a year after 1973, the entry must be July of the filing year.

- If there is no entry in PART B FILING DATE, the entry must be one of the following:
  
  July of any year after 1967 greater than the Part A effective date plus 6 months; or
  
  08-1981, 09-1981, 10-1981, 11-1981 or 12-1981, if the Part B effective date is greater than the Part A effective date plus 6 months.

If the entry in PART B OPTION is 1 and the entry in PART B FILING DATE is during the IEP, the entry must be one of the following based on the entry in the PART B FILING DATE:
<table>
<thead>
<tr>
<th>DOF</th>
<th>ENTER</th>
</tr>
</thead>
<tbody>
<tr>
<td>LESS THAN PART A DT</td>
<td>EQUAL PART A DT</td>
</tr>
<tr>

<td>12-1981</td>
</tr>
</tbody>
</table>

- If the entry in PART B FILING DATE is 01, 02 or 03 of a year after 1973, the entry must be July of the filing year.

If the entry in PART B OPTION is 1 and there is no entry in PART B FILING DATE, the entry must be one of the following:

- PART A DT, or
- PART A DT PLUS 1 MONTH, or
PART A DT PLUS 3 MONTHS, or
PART A DT PLUS 5 MONTHS, or
PART A DT PLUS 6 MONTHS, or
July of any year greater than the Part A eff dt, or

If SBI involvement, the entry must be equal to or greater than the Part A effective date

**DISABILITY NOW AGE 65 PART B EFFECTIVE DATE:** The entry must be greater than 06-1973; and less than the current date plus 6 months; and less than age 65.

If the entry in PART B OPTION is 4, 8 or A the entry must be equal to or greater than the Part A effective date.

If the entry in PART B OPTION is 6, B or C, the entry must be equal to or greater than the Part A effective date plus 6 months.

If the entry in PART B OPTION is 5:

- If the entry in PART B FILING DATE is 04-1981, 05-1981, 06-1981, 07-1981, 08-1981 or 09-1981, the entry must be one of the following based on the entry in PART B FILING DATE:

<table>
<thead>
<tr>
<th>DOF</th>
<th>ENTER</th>
</tr>
</thead>
<tbody>
<tr>
<td>04-1981</td>

<td>12-1981</td>
</tr>
</tbody>
</table>

- If the entry in PART B FILING DATE is 01, 02 or 03 of a year after 1973, the entry must be July of the filing year.

If the entry in PART B OPTION is 1 and there is no entry in PART B FILING DATE, the entry must be one of the following:

PART A DT, or
PART A DT PLUS 1 MONTH, or
PART A DT PLUS 3 MONTHS, or
PART A DT PLUS 5 MONTHS, or
PART A DT PLUS 6 MONTHS, or
DATE AGE 65, or
DATE AGE 65 PLUS 1 MONTH, or
DATE AGE 65 PLUS 3 MONTHS, or
DATE AGE 65 PLUS 5 MONTHS, or
DATE AGE 65 PLUS 6 MONTHS, or
July of any year greater than the Part A eff dt, or
If SBI involvement, the entry must be equal to or greater than the Part A effective date

PART B PREM RATE or Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU031, MCMU032, MCMU033 and MCMU034, when the entry in PART B OPTION is 1, 4, 5, 6, 8, A, B or C, an entry is mandatory. Enter only a table rate (not a variable rate) in PART B PREM RATE.

For Screen MCMU022, when the entry in PART B OPTION is 1, 4, 5, 6, 8, A, B or C, an entry is mandatory. Enter the PART B PREM RATE, either a table or variable rate.

If the PART B OPTION is 8, the PART B PREM RATE should be the basic rate.

If Screen MCMU014 is completed, the PART B PREM RATE should be consistent with the CURR RESIDENCY CO, CURR VAR RATE CD and CURR PEN PERCENT. The entry in PART B PREMIUM RATE must be numeric and last position must be a 0. If the entry in the CURR VAR RATE CD is a N, the entry in PART B PREMIUM RATE must be the table rate indicated at the percent entered in CURR PEN PERCENT. If the entry in the CURR VAR RATE CD is a V, the entry in PART B PREMIUM RATE must be less than the table rate indicated at the percent entered in CURR PEN PERCENT.

PART B TERM DATE or Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if the PART B OPTION is 4 or 6; or the RECORD STATUS is 90; or MIRTEL/MOLI's record status is 90, an entry is mandatory.

Entry should be numeric, format of month (01 -12), century (19 or 20) and year (00 - 99) and be greater than 6-1966 and equal to or greater than the PART B EFF DATE.

On Screen MCMU020, XXXXXX's can be entered if the Part B termination date on MIRTEL/MOLI is in the future. On Screen MCMU022, XXXXXX's can be enter if the Part B termination date on MIRTEL/MOLI is equal to current date or past. If XXXXXX's are entered in PART B TERM DATE, the PART B OPTION should be 1, 5, A or B.

If Part B terminated for non-payment, the PART B TERM DATE should be greater than the PART B EFF DATE plus 3 months. If the Part B termination resulted from a withdrawal, if the PART B TERM DATE is greater than 8-1987, the PART B TERM DATE should be greater than the PART B EFF DATE plus 1 month, otherwise the PART B TERM DATE is always the last month of a calendar quarter. If Part B terminated because the enrollee is no longer disabled, the PART B TERM DATE should be greater than the current date.
PART B TERM CODE or Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if entry in the PART B TERM DATE and it is not XXXXXXX's, entry is mandatory.

Enter 1, 2 or 3 as shown below:

1 - If Part B terminated for non-payment.

2 - Enrollee withdrew from Part B coverage.

3 - Medicare coverage terminated because the enrollee is no longer disabled.

The data in PART B TERM CODE is not moved to the activity record.

PAID THRU DATE For Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, entry is optional.

Entry should be numeric, format of month (01 - 12), century (19 or 20) and year (00 - 99); be greater than 06-1966; cannot be less than the Part B effective date; and cannot be greater than the current table rate in the MIRTEL system.

XXXXXX's can be entered in PAID THRU DATE on Screen MCMU020 to remove the paid through date on MIRTEL.

If MOLI's record status is 31 and the entry in RECORD STATUS is 22, 23 or 24, an entry must be made in the PAID THRU DATE.

If the entry in PART B OPTION is 2, 3 or 8, make no entry.

If there is an entry in the SBI ACC DATE, the PAID THRU DATE cannot be less than the entry in the SBI ACC DATE.

If there is an entry in the DATE OF DEATH or the PART B TERM DATE, the PAID THRU DATE cannot be greater than the entry in those fields.

EXCESS PREMIUM: For Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, entry is optional.

If entry and not XXXXXXX's, the entry must be numeric (999.99); less than the Part B premium; and the entry in RECORD STATUS must be 22, 23 or 24.

XXXXXX's are allowed on Screens MCMU020 and MCMU022 if MIRTEL/MOLI has an excess amount and MIRTEL/MOLI's Part B option is not 2, 3, 8 or 9.

DELINQUENCY DATE or Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, if the RECORD STATUS is 22, 23 or MEDCOR will calculate the delinquency date. If the RECORD STATUS is not 22, 23 or 24, MEDCOR will remove the delinquency date.
ARREARAGE DUE CODE

Display only on Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034.

The data in the ARREARAGE DUE CODE field is not moved to the activity record.

SBI ACC DATE: For Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, entry is optional.

Entry should be numeric, format of month (01 - 12), century (19 or 20) and year (00 - 99) and be equal to or less than current date plus 2 months.

If entry in SBI ACC DATE, the entry in PART B OPTION can be blank, 1, A or 8.

If aged, the entry in SBI ACC DATE should be equal to or greater than the date the beneficiary attains age 65. If disabled or disabled now age 65, the entry in SBI ACC DATE should be equal to or greater than the Part A effective date.

If MIRTEL/MOLI Part B option is 1 and the entry in PART B OPTION is 1, an entry must be made in the SBI ACC DATE and the SBI DEL DATE.

If the entry in PART B OPTION is a 1 and the SBI ACC DATE and SBI DEL DATE have entries, the entry in SBI ACC DATE must be equal to or less than the entry in the SBI DEL DATE.

If the entry in PART B OPTION is 8 and the SBI ACC DATE and SBI DEL DATE have entries, the entry in SBI ACC DATE must be equal to or greater than the entry in the SBI DEL DATE and the SBI DEL DATE must be equal to or greater than MIRTEL/MOLI's SBI accretion date.

SBI DEL DATE: For Screens MCMU013, MCMU020, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034, entry is optional.

Entry should be numeric, format of month (01 - 12), century (19 or 20) and year (00 - 99) and be equal to or less than current date plus 2 months.

If entry in SBI DEL DATE, the entry in PART B OPTION can be blank, 1, A or 8.

If MIRTEL/MOLI Part B option is 1 and the entry in PART B OPTION is 1, an entry must be made in the SBI ACC DATE and the SBI DEL DATE.

If MIRTEL/MOLI Part B option is 8 and MIRTEL/MOLI record status is less than 98, if the PART B OPTION is 1 or A, an entry must be in the SBI DEL DATE.

If the entry in PART B OPTION is 8 and the SBI ACC DATE and SBI DEL DATE have entries, the entry in SBI ACC DATE must be equal to or greater than the entry in the
SBI DEL DATE and the SBI DEL DATE must be equal to or greater than MIRTEL/MOLI's SBI accretion date.

**PREV SBI ACC DATE**

Display only on Screen MCMU020.

The data in the PREV SBI ACC DATE field is not moved to the activity record.

**PREV SBI DEL DATE**

Display only on Screen MCMU020

The data in the PREV SBI ACC DATE FIELD is not move to the activity record.

**3RD PTY/PROT CODE**

For Screens MCMU013, MCMU020, MCMU022, MCMU032, and MCMU034, entry is optional.

Valid entries are 01, 51, 52, 53, 54, 55, 56, 57, 58, 60, 61, 62, 63, 64, 66, 67, 69, 70, 98, 99.

If entry in 3RD PTY/PROT CODE is not 99, the entry in RECORD STATUS must be 22, 23, or 24. If entry in 3RD PTY/PROT CODE is 99, the entry in RECORD STATUS must be 21, 22, 23 or 24.

**PAYEE CODE** For Screens MCMU012, MCMU013, MCMU020, MCMU021, MCMU022, MCMU031, MCMU032, MCMU033 and MCMU034:

If the ben symbol is C; if the second position of the TYPE BENEFICIARY is 6; or if the record status is 02, 12, 22, 90, 98 or 99, make no entry in the PAYEE CODE field.

If the ben symbol is not C; if the second position of the TYPE BENEFICIARY is not 6; or if the record status is 01, 03, 04, 05, 11, 13, 21, 23 or 24, make entry. Valid entries are 1, 2, 3, 4, 5, 6, 7, 8 or 9.

If the ben symbol is blank blank, the PAYEE CODE must be 1. If the ben symbol is blank J, the PAYEE CODE must be a 2. If the ben symbol is blank M or blank X, the PAYEE CODE must not be a 1. Otherwise the PAYEE CODE may be 1 through 9.

**ID ISSUE CODE** For Screens MCMU012, MCMU013, MCMU031 and MCMU033, entry is mandatory.

For Screens MCMU012, MCMU020, MCMU021, MCMU022, MCMU032 and MCMU034, entry is optional.

Valid entries are:
1 G-41 Required

If 1 entered, the Screen must be MCMU012; the Part B effective date must be equal to or greater than 30 days; and the record status must be 01, 02, 03, 04 with a Part B option of 1 or A or the record status must be 05 with a Part B option of 1.

2 G-43 (Medicare Card) Required

If a 2 is entered, the record status cannot be 90, 98, or 99 and the Part B option cannot be 9.

3 G-41 Released

If a 3 is entered, the record status must be 01, 02, 03, or 04 and the Part B option must be 1 or A.

4 G-43 (Medicare Card) Part A Released

If a 4 is entered, the Part B option code must be 2, 3, 4, or 6. For Screen MCMU13, the Part B option code can also be 9.

5 G-43 (Medicare Card) Part A & B Released

If a 5 is entered, the Part B option must be 1, 5, 8, A, B or C.

If there is an entry in the PART A EFF DATE and/or PART B EFF DATE, the ID ISSUE CODE must have an entry.

DATE OF DEATH For Screens MCMU013, MCMU022 and MCMU031, entry is mandatory when the record status is 99.

Entry should be numeric, format of month (01 -12), day (01-31), century (19 or 20) and year (00 - 99); be greater than 06-1966; if aged, be greater than 06-01-1966; if disabled, be greater than 06-01-1973; be equal to or greater than the Part A effective date; and be equal to or less than the current date.

XXXXXXX's are allowed on Screen MCMU022.

For Screen MCMU022, if entry and not XXXXXXXX's, the entry in RECORD STATUS must be 99. If XXXXXXXX's, if MIRTEL/MOLI's Part B option is 1 or 5, the entry in RECORD STATUS must be 21, 22, 23 or 24. If XXXXXXXX's, if MIRTEL/MOLI's Part B option is 2, 3, 4, 6, 8 or 9, the entry in RECORD STATUS must 11, 12 or 13.

Appendix D - MEDCOR Screen MCMU014

MEDCOR VARIABLE PART B SCREEN - SCREEN MCMU014
### FIELD NAMES AND ENTRIES THAT CAN BE MADE

<table>
<thead>
<tr>
<th>MEDCOR SCREEN FIELD NAME</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>PART B PREMIUM RATE</td>
<td>If Screen MCMU014 is added to Screen MCMU022, a valid entry must be made in the PART B PREMIUM RATE field and it must be consistent with the entries in the CURR RESIDENCY CD, CURR VAR RATE CD and CURR PEN PERCENT fields on Screen MCMU014. The entry in the PART B OPTION must also be 1, A, 4, 5, B, 6, C or 8. The entry in PART B PREMIUM RATE must be numeric and last position must be a 0. If the entry in the CURR VAR RATE CD is a N, the entry in PART B PREMIUM RATE must be the table rate indicated at the percent entered in CURR PEN PERCENT. If the entry in the CURR VAR RATE CD is a V, the entry in PART B PREMIUM RATE must be less than the table rate indicated at the percent entered in CURR PEN PERCENT.</td>
</tr>
</tbody>
</table>
| CURR RESIDENCY CD        | If Screen MCMU014 is added to Screen MCMU022, a valid entry must be made in the CURR RESIDENCY CD field. Valid entries are:  
  - S - Standard Table  
  - P - Puerto Rico Table  
  - C - Commonwealth/Territory Table |
| CURR VAR RATE CD         | If Screen 14 is added to Screen MCMU022, a valid entry must be made in the CURR VAR RATE CD field. Valid entries are:  
  - V - Variable Rate  
  - N - No Variable Rate |
<table>
<thead>

</table>
| REP PAYEE CODE           | If the beneficiary has a representative payee, make an entry. Valid entries are:  
                          | 1 - Court Appointed  
                          | 2 - Board Appointed  |
3 - Parent

**NAME**
Enter the beneficiary's name. If entry in REP PAYEE CODE, enter the beneficiary's representative name and the start of the 2nd or 3rd line of address should start with "For."

**NAME/ADDRESS**
The group mark indicating the start of address must be at start of the 2nd, 3rd or 4th line. Only one group mark in address.

Fields before group mark are the name segment and must be alpha. Fields after group mark are the address segment and could be alpha, numeric or "%" or "/".

Retirement Claims Manual (RCM)

Section RCM 9
9.1.1 Scope of Chapter

This chapter describes, in very general terms, the functions of the major retirement and survivor EDP (Electronic Data Processing) programs. Special attention is given to explaining the action required on retirement cases being paid under RASI. Directions for preparation of data input forms are contained in the appendices at the end of this chapter. Basic instructions on the proper manner of completing forms, (e.g., acceptable abbreviations, titles, etc.), can be found in Chapter 8.1, Appendices B through D. For more information on the various topics discussed, consult the references given throughout this chapter.

9.1.2 Summary Of Retirement EDP Programs

Listed below are brief descriptions of the major EDP programs involved in retirement cases. Check the RCM cross-references for additional details.

A. RASI - The basic retirement EDP program is RASI (Retirement Adjudication System - Initial). RASI adjudicates, calculates, and awards initial employee and/or spouse annuities under the provisions of the 1974 Railroad Retirement Act.

RASI accepts applications and proofs into the system, requests data from examiners when necessary (see RCM 9.2), mechanically makes TRIC requests and RUJA clearances, and produces mechanical referral messages (see RCM 9.3). RASI awards annuities in the majority of cases entered into the system. Those cases that cannot be paid mechanically, including some that must be denied, are dumped for manual handling. RASI produces award forms for every paid case; some require review before filing, others do not. In cases where it appears that an overpayment could occur, RASI will produce a "computation only" referral to aid examiners in adjusting the annuity. SMIB deductions are never made on RASI initial awards, but are handled mechanically where necessary after the cases have paid final. When the proper data is received, RASI will award IMPACT (partial) awards in employee age and service cases and SPAR (partial) awards in spouse cases.

B. SAARA (SUPPLEMENTAL ANNUITY AND RETIREMENT ATTAINMENTS) - When an employee attains age 65 or age 60 and is eligible for a supplemental annuity, MAP (Monthly Attainment Program) calls the case up for processing by SAARA, which is part of RASI's post-adjudication program. See RCM 9.2 for further information about the post-adjudication program.

C. CAPRA - CAPRA (Calculate and Pay Retirement Annuities) Not currently operational.

D. TRIC - TRIC (Telecommunicated Request for Interagency Coordination) secures earnings and benefit data through the EDP systems of SSA and RRB. RASI
routinely requests, through TRIC, SSA wage and benefit data for all employee and spouse applications. Examiners can generate a TRIC request by submitting a Form G-60 to RASI, RCM 7.4 describes TRIC in greater detail.

E. **MAP** - MAP (Monthly Attainment Processing) produces referral messages for selected cases requiring examiner handling because an annuitant or an IPI has attained an age where an annuity adjustment is required. For instance, MAP will produce referrals in cases where a child attains age 16 or 18 or a student attains age 22.

F. **TACAL** - TACAL (Tax Credit and Liability) produces quarterly reports of employer tax liabilities and credits involved in supplemental annuity payments. TACAL produces a monthly microfilm of the tax credit master file which reflects current tax liability/credit activity. RCM 9.3 explains TACAL referral messages produced to identify discrepancies in the TACAL record.

G. **Medicare Enrollment** - Five months before an employee or spouse attains age 65, MAP selects the case to establish a health insurance (HI) record, to determine the annuitant's eligibility to Medicare Coverage and to transmit the record to SSA for the establishment of the Health Insurance Master (HIM) file maintained at SSA - BDP in Baltimore. RCM 3.2 and 3.3 contain more information about Medicare enrollment operations.

H. **APPLE** – APPLE (Application Express). Please refer to FOM 1, Section 1581 for detailed instructions and functions of APPLE.

### 9.1.3 Summary Of Survivor EDP Programs

The major EDP programs involved in death cases are briefly described below. Cross-references to more detailed descriptions in the RCM have been provided.

A. **SURCAL** - The basic survivor EDP program for monthly and non-monthly awards is SURCAL (Survivor Calculations, formerly known as the "360 program"). SURCAL performs three separate operations: (1) Awarding an initial recurring annuity; (2) Awarding a spouse-to-widow(er) conversion; or (3) Awarding one-payment-only cases such as LSDP, RLS or accrued annuities. Operation (1) is accomplished by Forms G-360/G-360a and is more completely described in Section 9.1.60 below and in Appendix B (G-360/G-360a instructions) to this chapter. Operation (2) is accomplished by Form G-360 and is more completely described in Section 9.1.61 below and in Appendix B (G-360 instructions) to this chapter. Operation (3) is accomplished by Forms G-359a and G-359b and is more completely described in section 9.1.62 below and in Appendix B (G-359a and G-359b instructions) to this chapter.

B. **SURVEA** - When a survivor annuitant attains a certain age, examiner handling may be required, e.g., child attains age 18 or student attains age 19 or age 22. The selection and referral of these cases to examiners is accomplished by
SURVEA (Survivor Electronic Attainments). Referral messages are issued which describe the reason for selection. If necessary, examiner action is taken. The "diary" conversion EDP program that mechanically recertified such cases is not currently operational.

C. Medical Enrollment - The process of Medicare enrollment in survivor cases is identical to that described in Section 9.1.2G above. The only difference is that SURVEA is the selection program in survivor cases rather than MAP as used in retirement cases.

D. TRIC - Earnings and benefit data are secured through the EDP systems of SSA and RRB by TRIC (Telecommunicated Request for Interagency Coordination). In survivor cases, TRIC automatically releases requests for the wage record of deceased employees when the examiner prepares a Form G-73a. All initial requests for benefit and wage data for survivor annuitants must be done manually by completing Form G-60. TRIC is described more fully in RCM 7.4. Instructions for completing Form G-60 can be found in Appendix C to this chapter.

9.1.4 Summary Of Benefit Payment Operation Programs

The Benefit Payment Operation is comprised of three subsystems. One operates on a daily, another on a monthly, and the third on an annual basis. The total system, comprised of over 50 programs, provides for the accumulation and maintenance of records necessary for the issuance of payments under the Railroad Retirement Act and for the control of data to report to the Internal Revenue Service on the amounts of supplemental annuity payments made during the year.

A. Daily Subsystem

1. DAISY - DAISY (Daily Activity Input System) produces a record of all award activity, involving mechanical or manual payment of benefits. DAISY edits all award records to insure completeness; checks money amounts to insure correctness of individual manual award actions; and balances individual voucher batches. DAISY's output becomes the input of the Chico program described below.

DAISY also verifies the ZIP code on all awards and change of address actions. If the ZIP code is missing or wrong on any action, and the city and state is mechanically identifiable, DAISY adds the correct ZIP code to the record, producing a file notice of the change.

2. Chico - Chico is the benefit payment check-writing operation. This program screens all awards and termination/suspension (G-96) actions against the master benefit payment file. In its screening process, Chico updates the master with new award actions, and changes rates in
recertification actions. Chico's output is a comprehensive file of all award and termination activity.

3. Processing Daily Accrual/Reject Awards - This system prepares listings of accepted and rejected award actions, as well as an accrual tape for the Treasury Department's disbursing operation. Also, it accumulates all daily awards for processing in the monthly operation.

B. Monthly Update Subsystem - The monthly subsystem involves several programs which: (a) create the check issue file in ZIP code sequence; (b) produce tables showing distribution of payments by state by type of benefit; (c) create a tax credit file; (d) create the supplemental annuity 1099 files; and (e) select a testing file involving 1% of annuity awards.

C. Annual Subsystem - This system accumulates, from check records, the amount paid in supplemental annuities for the preceding calendar year. Then, a Form G-1099 is printed for each beneficiary for income tax purposes and a tape file report is prepared for the Internal Revenue Service.

9.1.5 Routing Of G-626

Refer to FOM1 1581.35.4

9.1.6 Correction Of RASI Application Input Rejects

APPLE includes many of RASI's application input edits, so input rejects should be rare. If RASI does reject an application, a referral is produced. These referrals are e-mailed to RBD for handling.

9.1.7 Recording Claims Data

Refer to FOM1 1581.13 for APPLE Instructions.

9.1.9 Notice Of Death

A. Employee - If notice of death is received in a pending RASI case, submit a type code 991 screen dump the case.

When REQUEST shows that the case has been dumped:

- If a partial award has already been made, take action to terminate it.

- Route the folder to Survivor Initial Claims, noting on the G-26 "1st Notice of Death."

B. Spouse - If the spouse dies while his/her claim is pending on RASI, dump it. Take action as above if a partial payment has been made. Send the case to
Retirement Initial Claims for development of accrued annuities due but unpaid at death, if necessary.

If a spouse-only claim is pending on RASI when the employee dies, dump the spouse claim and handle in accordance with A above.

### 9.1.20 Initial Handling In Module

**A. General** - Develop an annuity claim to the fullest extent possible without waiting for a computer referral. If the G-230 shows the required evidence was previously submitted, and REQUEST indicates the evidence is still pending, check the proofs in the file for acceptability and submit the appropriate data to RASI via KeyMaster - "RASIFORM."

Form G-227 should be stapled to the front of each claim folder containing an initial retirement application when it is received in BRB. This form was revised in 1996, to provide additional controls to ensure complete case adjudication. Enter the filing date and ABD in the appropriate spaces to ensure that our customer service commitment is met. The form can also be used for dormant file call-up purposes.

When the case is initially examined, notate the ACTIONS NEEDED section to establish a checklist of actions necessary to complete the initial award. These items should be crossed off as they are completed. Any actions taken, such as RASIFORM entries, should be listed under ACTIONS TAKEN. Any post actions needed after the initial award has been completed should be listed in the bottom section of the form. The case should then be forwarded to the post section to handle any listed actions. After the case is paid final and all actions have been completed, the form should be removed from the folder and discarded.

**B. Representative Payee** - Check each claim folder for evidence of incompetency of the applicant and develop, through the field, for a representative payee if necessary. While waiting for this information, enter a type code 997 RASIFORM screen with the appropriate code indicating a representative payee is required but not yet appointed. Once a representative payee is required but not yet appointed. Once a representative payee has been chosen, prepare a second 997 screen to enter the name of the representative payee.

**C. Disability Cases** - Disability cases on RASI are handled by BDMO.

**D. Annuity Beginning Date** - RASI cannot recognize a spouse case in which the ABD depends on the date the spouse first has a child in her care or the date of the child's adoption. If the ABD should be the first day of the month the spouse first has a child in her care or the first day of the month of the child's adoption, complete a type code 996 RASIFORM screen to enter that date into RASI.
In a case where the applicant demonstrates "an intent to retire" (see RCM 1.7.21) before the last period of employment shown on the application started, prepare a type code 991 RASIFORM screen to dump the case from RASI. Pay the case manually.

RASI cannot recognize a case in which the spouse files for a reduced annuity and the ABD could be retroactive to a period during which she received an unreduced annuity based on having a child in her care. In such a case, prepare a type code 996 RASIFORM screen to change the ABD to the first day of the month following the month her unreduced annuity terminated to avoid an overpayment.

Each time RASI is programmed to process cases with a cost-of-living increase, the earliest ABD that can be handled by RASI will change. In general, RASI will handle a case with an ABD two years retroactive from COL effective date. For instance, when adjusting for the 1-96 COL increase, RASI will not be able to handle a case with an ABD earlier than 1-1-94.

E. Review of G-346 - Check the G-346 submitted with spouse applications to determine whether the employee has certified that the applicant is in fact his/her spouse. Also determine if any previous marriage has been terminated and if the present marriage is valid. If further development is necessary, set a manual OP code (RCM 9.4) to prevent payment of the claim until these determinations can be made.

F. Cancellation - If an individual files an application for an annuity and then advises (s)he wishes to cancel his/her application, prepare a type code 991 RASIFORM screen to dump the case from RASI. The 991 may also be used to dump a case after it has been paid final by RASI. For example, when an individual wishes to cancel the original application after RASI has made final payment and submits a second application, if the original application still appears on REQUEST and if there is no overpayment (e.g., annuitant returns his check), prepare a 991 with applicable code 147 or 149 to drop the first application from RASI. RASI will then accept any subsequent applications submitted by the individual. Any case where an overpayment exists must be manually handled.

9.1.21 Manual Coding Of Supporting Data

When the claim folder is initially sent to RIS, the data on the G-230, the application, the G-88A.2 and the G-91, if submitted with the application, have already been entered into RASI. Any necessary data received later must also be entered into RASI via the appropriate RASIFORM screen(s). Make the appropriate notation on the G-227 that the data was entered, along with your initials and the current date.

Any tracing action for a particular document should be ignored if the G-227 shows that the data was submitted to RASI within the previous seven-day period.
9.1.22 Current Connection (C/C) Determination

RASI will create a 947 call-up for an examiner C/C determination if:

1. The year the employee last worked in the RR industry is more than three years before the year in which the annuity will begin; and

2. The year in which he last worked outside the RR industry according to his application) is more than two years after the year he last worked in the RR industry; or,
   - the employee was involuntarily separated from RR employment and his C/C could be deemed; or,
   - the employee claimed federal employment after the DLW-RR; or,
   - the employee is a Canadian citizen performing service in Canada for a U.S. employer.

In cases without examiner input, review the C/C determination made by RASI if:

1. The applicant is rated disabled under Section 2(a)4; or if

2. A supplemental annuity is involved,

Since a C/C is needed for eligibility for both types of annuities.

If review determines RASI's C/C determination is incorrect and no recertification is required, notate the file and prepare Form G-59r. The Research record must be corrected to establish a call up at age 65 for age annuities with at least 25 years of service, or at age 60 for D/A case with at least 30 years of service for supplemental annuity development. If the employee is currently eligible for a supplemental annuity, or within 90 days, control case and initiate payment.

9.1.23 Proof Of Age (POA)

If a document establishing proof of age is submitted, prepare a type code 900 RASIFORM screen. Documentary evidence is accepted by RASI if it agrees with the claimed month and year of birth.

Prepare a type code 996 RASIFORM screen (see RCM 9.4) for correction of the claimed DOB if a different DOB is proven but still permits payment. If a DOB is proven which make the applicant ineligible, dump the case and handle manually.

POA is always required before final payment can be made in disability cases. If payment must be made without POA to expedite a 2(a)5 case, submit a 900 to verify claimed DOB. Control folder after payment until an acceptable POA is obtained.
9.1.24 Lag Compensation

Forms G-88A.2 are routed from the mailroom to RIS for entry into RASI. If the DLW shown on the G-88A.2 is different than the claimed DLW, the DLW shown on the G-88A.2 is accepted by RASI.

If two lag employers are claimed on the annuity application, the field will release two employer lag Forms G-88A.2. Consolidate the service months and compensation data from both Forms G-88A.2 and enter that data into RASI on a type code 958 RASIFORM screen. This, in effect, will be treating service months and compensation as though reported by a single employer.

A manual OP code is a computer code, which allows acceptance of an application into the system and develops it to the point of calculation, but will not allow payment. RASI will set a manual OP code for any one or more of the following reasons:

- Employee
- Previously filed an annuity application with RRB.
- EE indicates entitlement to a non-covered service pension.
- Spouse
- Previously filed an annuity application with RRB.
- Invalid spouse SSA number.
- EE felony conviction indicated.
- Employee or Spouse
- Rejected input on a type code 996 RASIFORM screen.
- Self-employment indicated, and the field office has determined that BRB examiner review required.

RASI will also set a manual OP code if the Manual Review block on the Form G-230 is checked. The field office should request Manual Review when a question of eligibility exists and a review by the BRB examiner is necessary before any payment is released. A request for Manual Review zeros out the IMPACT and/or SPAR. Some situations where Manual Review would be indicated are:

- The applicant is still working and the field office is concerned that alleged LPE or SE is actually RR employment.
• M/S or lag required for eligibility and not previously verified and IMPACT rate entered.

• Marital status or validity of marriage is questionable and SPAR rate entered.

• There is an overpayment established in the case.

If an examiner wishes to prevent payment on a case, he can set a manual OP code by using the appropriate code on a 995. After all necessary action has been taken on the claim and if a final review of the case indicates there is nothing to impede payment, submit another 995 to change manual OP code. (See RCM 9.2 for 995 instructions.)

9.1.26 RUIA Clearances

A. Pre-Clearances - When an application for an age and service annuity is entered into RASI, a pre-clearance (without the annuity rate and ABD information) is released to SUBS computer operations. If SUBS has a record of an RUIA claim for the current or preceding benefit year or an overpayment still outstanding, a reply is sent to RASI that a record exists and thus further clearance is required. If SUBS has no record of an RUIA claim for the current or preceding benefit year, the tape is returned to RASI showing "No Record". When an annuity claim is ready for an award and the tape record shows that a "No Record" pre-clearance has been received, payment is made without further RUIA clearance.

There is no pre-clearance for disability applications, due to the stronger likelihood that an RUIA record may be created after RASI receives the application. Therefore, RASI obtains RUIA clearance with rate and ABD information for all disability awards.

B. Final Clearances - If the pre-clearance indicates that a record exists in an age and service case or if this is a disability case, RASI sends a partial or final clearance request, showing the annuity rate and ABD to SUBS when the annuity claim is ready for payment.

C. RUIA Clearance on Award Form - Item 35 of the G-354r shows the amount of any RUIA payments that are being recovered from the annuity, or "NO REC" if the pre-clearance was returned as a "No Record" case, or "NONE" if there was a record, but no overpayment.

NOTE: When there is a large RUIA amount to be recovered but insufficient annuity accrual to recover the amount, RASI will withhold payment for a month if there is enough accrual to recover the RUIA amount. In final awards, if the RUIA amount cannot be recovered with the extra month's accrual, RASI will produce a "Compute Only" award. In partial awards, if the RUIA amount cannot be recovered with an extra month's accrual, RASI will not pay the partial rate, but will withhold payment until a final rate can be paid.
D. **Dump Cases Involving RUIA Clearances** - See RCM 5.9.12 for handling RUIA clearance in claims dumped because of death. In cases dumped for denial, transfer to SSA, or other reasons that will not result in award, no further action on RUIA clearance is required. The need for RUIA clearance in cases dumped for ROC award is indicated on REQUEST, Screen 12 - "BUSI CLR."

If the contents of this location is a 2, 3, 4, or 7, RUIA clearance is required. Prepare Screen 17 (BUSI Clearance) on ROC for regular clearance. The "Remarks" block should show "Cancel previous clearance," if any. (Code was any other than 7.)

If the code is "1-NO REC," no further RUIA clearance is required unless a RUIA folder record is in file (see RCM Chapter 5.9.40-5.9.44 for handling cases where a RUIA folder record is involved) OR one of the requirements in RCM 5.9.12 is applicable.

If the code is 5 or 6, RUIA clearance has been received. If the ABD and rate will not be changed on the ROC award, and the type of action (partial, final or recert) lines up with the previous recovery, (5 = CASE COMPUTED FINAL; 6 = CASE COMPUTED PARTIAL) no further RUIA clearance is required for this particular action. If there is an RUIA recovery, a money amount will be shown in the "RECOVBUSOC" or "RECOVBUSRT" fields of REQUEST, Screen 13.

If the ABD is being changed in the ROC adjustment, note this in the "Remarks" section of Screen 17 (ROC) - BUSI Clearance. Also note the amount and date of entitlement of any social security benefit the annuitant may be receiving.

E. **Rates Involving Work Deductions** - Clearance is secured based on the annuity rate before temporary work deductions are applied. Therefore, it is possible that a RASI W/D case could result in a situation where "BUSI EXCEEDS ACCRUAL."

If a case is dumped from RASI for this reason, examiners should certify the case using the rate which is actually going to be paid (rate after W/D's).

In RASI W/D cases where the accrual amount after W/D's is sufficient to recover the requested RUIA amount, RASI will make final payment based on the clearance received. Although SUBS should be furnished the rate paid, no further clearance action should be taken until end-of-year policing. This is because the W/D applied by RASI is a temporary deduction. In these cases the actual monthly rate payable is not known until permanent work deductions are applied. Therefore, the RUIA clearance based on the actual rate payable will be secured by RBD as part of end-of-year policing. These end-of-year clearances will also be secured in those cases where a "BUSI EXCEEDS ACCRUAL" situation occurred.
9.1.27 Work Deductions

RASI assesses temporary work deductions (TWD's) based on application or Research data. RASI considers factors such as employee or spouse LPS, excess earnings indicators for the employee or spouse, non-work months, the employee's work deduction insured status, and the annuitant's annuity components subject to deductions. RASI can apply either recurring or non-recurring deductions.

A. **Regular TWDs** - RASI uses the PIA 2 and VDB amounts computed for the current month and applies those amounts to all months subject to deductions in the accrual period. In reduced age 62 cases, the ABD age reduction factor is applied to the work deduction components.

RASI does not make tier 1 work deductions in any month the annuity is reduced for social security benefits.

RASI does not apply any TWD's to tier 1 or the VDB in months or years the applicant expects earnings to be under the monthly or annual exempt amounts. (However, a spouse's tier 1 is subject to TWD's for the employee's excess earnings.)

B. **LPS TWDs** - RASI reduces tier 2 and the supplemental annuity, if any, by one dollar for every two dollars of LPS earnings; however, RASI will not deduct more than 50% of the net tier 2 and sup annuity.

RASI considers up to two periods of non-RR employment beginning before the ABD. Calculations are based on the average monthly salaries; TWD's may be reduced or eliminated in the month after non-RR employment ends.

RASI applies LPS TWD's to a spouse annuity for LPS earnings of the employee, the spouse or both.

More information about RASI's TWD processing is in RCM 5.7.50 and 5.7.115.

A. **General** - Prior to the 1988 amendments, only involuntary MS in the 6-15-48 through 12-15-50 period was creditable as compensation. Effective 12-1-88, voluntary MS in this period can be credited as compensation. After leaving MS, the employee must have returned to RR service in the same or next year without any intervening non-railroad earnings.

In TRIC requests beginning 4/03/90, RASI provides SEARCH with MS data for as many as four periods, including codes for the MS means of entry (voluntary or involuntary). RASI also provides an intervening earnings code from the AA-1.
Before this data was available, BCC made all creditability determinations in these cases and reentered them to SEARCH.

B. Employee ABD 12-1-88 and Later - Cases with a G-90 "Re-entry - A" date of 2-21-89 and later have the M/S creditable as compensation information correctly provided, if applicable. If the "Re-entry - A" date is 2-20-89 or earlier, the M/S was credited without considering the 1988 Amendments. A RASI award message will appear in Remarks. A new G-90 should be secured. (See RCM 9.3.13 "POSSIBLE 1988 AMENDMENT M/S CASE. G-90 RE-ENTRY DATE BEFORE 1988 AMENDMENT COULD BE CONSIDERED.")

C. Employee ABD Before 12-1-88 - When there is voluntary M/S in the 6-15-48 thru 12-15-50 period, RV&AD-CCS will determine if the M/S is creditable as compensation effective 12-1-88 based on the 1988 Amendments. If it is, the M/S will be credited as wages, in order to get the case paid on RASI without an overpayment. (RASI would use all the M/S as compensation from the ABD, but the correct payment should consist of one rate from the ABD thru 11-30-88 (using M/S creditability rules in effect prior to the amendment), and a second rate effective 12-1-88 using the additional M/S period provided by the 1988 Amendment.)

In order to avoid any RASI overpayments, RASI will pay with the M/S credited as wages, and an award message will appear in these cases. (See RCM 9.3.13 "POSSIBLE 1988 AMENDMENT M/S CASE. CONSIDER M/S AS COMPENSATION", to alert examiners that the cases may need further manual action.

D. Effect of Non-covered Employment - RASI and SEARCH were revised in April, 1990, to recognize the intervening earnings code from the AA-1. Until then, voluntary 1948-50 MS could have been erroneously credited as compensation, if the employee's intervening earnings as discussed in "A" above were from non-covered employment. Employment such as civil service is not included in wage records from SSA and would not have been identified by BCC without special procedures.

In these cases, claim representatives were instructed to cut off proof of MS periods at 6-14-48. CR's notated the summary screen of APPLE and showed the full MS period. Prepare a G-563 in such cases to see if the MS can be credited and used as wages.

9.1.41 Employee And Spouse EDP Award Forms

RASI generates two basic types of award forms. The criteria used to determine the type of form generated in a given case is whether or not initial payment was made prior to October, 1981.
Forms G-354E are used to pay supplemental annuities to employees who were initially paid on RASI prior to October, 1981. These forms are printed horizontally and show a breakdown of only the most current rate payable. They are similar to the award forms used prior to the enactment of the 1981 Amendments; however, revisions have been made because of new age reduction and windfall cutback provisions.

Forms G-354R and G-355R are used to pay employees and spouses whose initial payment date is after September, 1981. These forms are printed vertically and show break down of up to six rates.

If the employee and spouse are awarded on the same voucher, "SPOUSE ALSO" is printed in "Remarks" of the G-354R and "EMPLOYEE ALSO" in the "Remarks" section of the G-355R.

**9.1.43 Computer Output For Awards**

A. **Preparation and Release of Award Letters** - ALTA produces the RL-20e award letter for the award notification process. The numbers of the code paragraphs used on the award letters are shown on the award form. After the computer prints the RASI awards and the corresponding RL-20e's, the letters are forwarded to the mailroom for release.

B. **Other Computer Output** - The remaining computer output is routed in the following manner:

- Award forms are sent to the examining units.
- The disposition records tape is held in BIS to be used in the monthly report operation.
- The checkwriting tape is held in BIS to be used in the daily disbursement award operation.
- The research tape is sent to update that file.

**9.1.44 Examiner Review Of Final Award**

A. **General**

Certain awards paid final by RASI require examiner review of the printed award to determine if additional action is necessary to finalize the case or the award contains elements vulnerable to error. This is called an "EDP Review".

When an award is paid final by RASI, either "REVIEW" or "NO EDP REVIEW MESSAGE" will be in the Remarks section.
"REVIEW" in Remarks means that additional development and/or adjudicative action is required, or the award contains particular elements vulnerable to error. One or more review messages identifying the additional development required and/or the error-prone area(s) to review also are displayed. The messages and the required examiner action are described in RCM 9.3.14.

"NO EDP REVIEW MESSAGE" in Remarks means that additional development is not required to finalize the initial award and no error-prone elements are present.

NOTE: Although additional adjudicative action usually is not required when "NO EDP REVIEW MESSAGE" is in Remarks, a review of specific types of these cases may be requested at certain times. For example, Policy and Systems may request a review of all RASI awards in December and January to verify routine revisions made for the annual cost-of-living job; or in May, after the annual earnings update in SEARCH and Lag Recycle in RASI.

B. Awards That Do Not Require "EDP Review"

Prior to the implementation of USTAR, examiners reviewed all paper copies of awards paid final by RASI which contained a "Review" message in Remarks. In some cases, a USTAR referral is now established when the award is received. An "EDP Review" of these awards is not required.

An "EDP Review" is not required when any of the following applies:

1. A referral is established in USTAR. The "Review" messages for which USTAR referrals are established are identified in RCM 9.3.14 with this notation:
   "A referral is established in USTAR (RIS-XXX) upon receipt of the award. An examiner EDP Review is not required".

2. There is a notation following the "Review" message in RCM 9.3.14 stating either that the message does not require review and examiner action is not necessary or that the message is obsolete.

3. "NO EDP REVIEW MESSAGE" is shown in Remarks (see "NOTE" in Section A for exception).

C. Awards That Require "EDP Review".

An award with a "Review" message in Remarks requires an "EDP Review" by an examiner when none of the situations described in Section B, above, apply.

Do the following when an "EDP Review" is necessary:

- Thoroughly review the entire award.
• **Sign and date** the award when the review is complete, then send it to Imaging.

• Take all required action indicated in the "Review" message(s).

• Review specific areas identified in the "Review" message(s).

• Take all other necessary action identified in the review.

D. **Guidelines for Review**

Use these guidelines when handling all awards paid final by RASI with a "Review" message in Remarks.

1. **General – Employee and Spouse Awards**

   • Take all action indicated by the messages in Remarks (e.g., Release G-88p, test the O/M, process SALSA OPO, trace proof of M/S);

   • Review specific areas identified in Remarks (e.g., TWD's, RRA Maximum, M/S);

   • Review areas currently under study, as requested by the section chief or P&S-RAC (e.g., recalculate the RRA Max reduction);

   • In addition to reacting to the review message(s), review the following items to make sure the information is correct and any pending action has been completed:

     • Name and address;

     • Correct tier information passed to RASI from PREH in spouse only awards;

     • Outstanding proofs;

     • Current Connection;

     • Other pending actions - spouse award, SOLAR award action, SALSA;

     • Unanswered inquiries;

     • Additional development.

2. **Employee Awards**

   a) **M/S**
• Check use of M/S as wages or compensation for VDB entitlement.

• Look for 805 rejects for proof of M/S. If the employee had more M/S periods than RASI can accommodate (currently four), develop the creditability of the remaining M/S.

• Review proof of M/S for acceptability (see FOM1 955). Specifically consider beginning and ending dates of active duty, method of entry, and type of discharge. Compare the periods of active duty, supported by proof of M/S, to actual periods considered on the G-90.

• Review multiple periods of M/S, consecutive periods of M/S and RV&AD-CCS's creditability determinations, with special attention to voluntary enlistment or re-enlistment, during the period 1-1-47 to 12-15-50.

• Check G-90, item 2, for overlapping M/S months.

b) Lag

If lag was required for eligibility, compare the number of months credited with the G-88A.2 information.

3. Spouse-Only Awards

Verify that the tier data is the most current available. If the employee has been recertified since the data was received from Research, the spouse's annuity must be recertified.

4. Compute-Only Awards

Each situation which results in this type of award is listed in the award messages in RCM 9.3.14. Although RASI passes data to Rate History in some of the situations, it is still necessary to prepare a full set of the appropriate award forms so that TCIU will receive the information. The "COMPUTE ONLY - MECHANICAL ZERO RATE" cases are an exception to this rule. See RCM 9.3.14.

Compute-only awards should be checked for accuracy in the same way as regular awards, but should be processed to conclusion as directed in the award message instructions, depending upon the compute-only reason.

9.1.45 Partial Certifications

A. Employee Awards

1. General - To expedite payment in initial cases, RASI pays cases under IMPACT (Initial Monthly Partial Annuity Certification in Tiers). Under this program, field representatives compute a partial rate for most employee
applicants at the time the applications are taken and note the tier amounts on the G-230. If the SSA number can be verified and there is no pending name or address change, RASI will pay IMPACT rates in age and service cases within a few days.

The field will also submit IMPACT rates for selected disability cases. For those disability cases in which the field office is satisfied that all eligibility requirements are met other than the allowance of disability, the district office will compute an IMPACT rate and enter it on Form G-230. However, RASI will not pay the IMPACT rate until Form G-325 (type code 970) is received with a disability rating. At that point, RASI will determine an IMPACT ABD and pay a partial rate, unless the case is ready for final payment. In that case, RASI will pay a final rate based on a final ABD.

Examiners may also enter an IMPACT rate into RASI with a type code 911 screen. An examiner-initiated IMPACT rate will override a manual OP code already established in a case. However, RASI will not pay the final rate until the manual OP code is cleared.

RASI pays the partial rate effective with the first day of the month the application is processed, if the month is later than the month the employee last worked in RR service. If the application filing date and DLW RR are in the same month, RASI pays the partial rate effective the first day of the month following the filing month. RASI will not pay a partial rate of less than one month's accrual. If the ABD is in a future vouchering month, RASI will pay the partial rate effective with the first day of the month a full month's annuity accrual can be paid. If the case is ready for final payment before the partial rate is paid, RASI pays the final rate instead of the partial rate.

When field office personnel determine that manual review of the case is needed and mark the G-230 accordingly, they can also compute and enter an IMPACT rate on the G-230, if they are sure the employee is eligible for an annuity.

The IMPACT rate for these cases will be picked up by RASI, but the presence of the manual review code on the G-230 will cause the rate to be zeroed out. RASI will continue to issue a manual OP code referral, which will show the IMPACT rate zeroed out. If, upon review, the IMPACT rate can be paid, enter the rate shown on the G-230 into RASI with a type code 911 screen. RASI will then determine an ABD for the IMPACT rate and pay it.

NOTE: RASI will not zero out an IMPACT rate when a manual OP code is established for a reason other than "manual review." For example, if the application shows self-employment, RASI will set a manual OP code.
pending examiner review to determine if it is LPE, but the IMPACT rate will not be zeroed out.

More information on IMPACT awards is found in Exhibit 5 of this chapter.

2. Examiner Action - No examiner action is required to pay the IMPACT rate. Once the partial rate is keyed from the G-230, RASI will pay that rate without requesting any additional information from examiners.

Continue to process applications in the usual manner required to pay a final rate. If a case where an IMPACT rate has been paid is dumped or suspended before a final certification is made, the partial payments made must be considered in the subsequent adjustment.

If the final rate computed is less than the partial rate paid and an overpayment results and cannot be recovered from the accrual, RASI will produce a "Computation Only" award form and dump the case for manual handling. If the overpayments can be recovered from the accrual, RASI pays the case and releases code paragraph 426A.

When the "Computation Only" award form is received, examiners must make a manual certification to pay the case final and recover any overpayment.

B. Spouse Awards - SPAR (Spouse Partial Annuity Rate) is the payment system which makes partial payments to spouse applicants.

1. Field Initiated SPARS. Field representatives compute a partial rate for most spouse applicants at the time the applications are taken and note the tier amounts on Form G-230.

All payments will be effective the first of the month prior to the current voucher month. If the G-230 is marked "Manual Review," RASI will create a manual OP code, zero out the SPAR rate and generate a manual OP code referral, showing the SPAR rate zeroed out.

Review the folder. If the SPAR rate can be paid, enter the rate from the G-230 on a type code 911 screen. DO NOT recompute the SPAR rate. Only the rate that was put on the G-230 by the field office should be entered.

After the SPAR rate has been entered into RASI, RASI will determine an ABD and pay a SPAR rate unless a restriction applies as listed in #2 below.

2. Examiner Action - Examiners may also enter a SPAR rate into RASI with a type code 911 screen. An examiner-initiated SPAR rate will override a
manual OP code already established in a case. However, RASI will not pay the final rate until the manual OP code is cleared.

RASI will not pay an examiner (or field)-entered SPAR rate if any of the following conditions exist:

a. The actual ABD is after the first of the current month, causing insufficient (less than one month’s) accrual.

b. The employee has not been paid at least a partial award.

c. A name or an address correction is pending.

d. The PREH record does not contain the employee's benefit data in spouse-only cases.

e. The case has been coded for final payment, or coded for a denial, or a partial payment is pending or has already been made.

f. (Reserved)

g. The spouse's ABD is zero.

h. The spouse has a W/D insured status and excess earnings are indicated. (Examiner-initiated SPARS only.)

Exhibit 6 has further information on SPAR rates.

9.1.60 Initial Survivor Recurring Benefit (SURCAL) Program

Almost all types of initial monthly survivor cases can be awarded on the computer in the SURCAL program. Forms G-360 and G-360a are used to produce an award. Based on the information punched from the G-360 and G-360a, the program will compute the annuity rate, extend the accrual, and produce a G-364d award form, an RL-43d award letter (with the appropriate code paragraphs) and tapes for checkwriting and Research.

The program, however, is not designed to handle all the situations which can arise. For a full description of the conditions under which the program cannot handle a particular case see Appendix B (G-360 instructions) of this chapter.

9.1.61 Spouse-To-Widow(er) Annuity Conversion (SURCAL) Program

Almost any spouse annuity can be converted to a widow(er)'s annuity electronically on the SURCAL conversion program.

The conversion program begins when the G-96 is processed to terminate an employee’s annuity after his death. The G-96 electronically sets up a special record called an interim widow(er) (IW) tape for the spouse annuitant whose payments are in
force. When all necessary additional data has been received from the new widow(er), the conversion is effected by the completion and processing of Form G-360. The information on the G-360, combined with the information already on the checkwriting tapes is sufficient for the SURCAL program to compute the widow(er)'s annuity rate, extend the accrual, make deductions in previous payments and produce a G-364d award form, an RL-43d award letter (with appropriate code paragraph) and tapes for checking and Research.

The program, however, is not designed to handle all the situations which can arise. For a full description of the conditions under which the program cannot handle a particular case see Appendix B (G-360 instructions) of this chapter.

9.1.62 LSDP, RLS Or Accrued Annuity Awards By EDP

Payments of most types of LSDP's, RLS's, and some accrued annuities due but unpaid at death can be awarded on the computer in the SURCAL program. Forms G-359a and G-359b are used to produce such awards electronically. Based on the information punched from the G-359a and G-359b, the program will award the correct payment, produce a G-364d award form, an RL-43d award letter (with appropriate code paragraphs), and tapes for checkwriting and Research.

This program, however, is not designed to handle all situations which can arise. For a full description of the conditions under which the program cannot handle a particular case see Appendix B (G-359a instructions) of this chapter.

9.1.63 Preparation And Release Of Award Letters And Checks

After the SURCAL awards are processed on the computer and the RL-43d award letters are printed, the letters are sent to the Payment Control Coordination Group (PCC) where enclosures are attached, if appropriate. The letters are sent to the mailroom for release. Foreign address letters are sent regular mail.

The Treasury Department encloses Form G-178 with the check.

9.1.64 SURCAL Award Form And Notifications

A. G364d (Survivor Benefit Determination of Award or Printout Record) - This G-364d is used as the award form and as the printout for referral messages for lump-sum and recurring awards. There is a single copy printed for the folder record; no other copies of this form are prepared.

- **Referral Printouts** - If the form is used as a referral for examiner handling, the "Remarks" block will show "THIS CASE NOT PROCESSED FOR REASONS STATED BELOW" and a message indicating the reason for the referral. (See RCM 9.3.20 for the list of referral messages and the action required for each message.)
• **Award Printouts** - If an EDP award has been made, the voucher number appears at the top of the G-364d. This form also shows the amount paid, the payee's name and address, which code paragraphs were printed on the award letter and which enclosures (if any) were sent to the beneficiary.

This form contains basically the same information as the G-359 for lump-sums and the G-364.1 for monthly annuities and are largely self-explanatory.

1. **Annuity Awards** - The computer prints entries in the applicable items on the G-364d. An award form is produced for each payee code and payment data pertaining only to that payee code appears on the form.

2. **Lump-Sum Awards** - The computer prints entries in the applicable items on the G-364d. An award form is produced for each payee code.

3. **Disposition** - The G-364d is sent to the appropriate module for association with the folder. The computer automatically produces a disposition record for the award.

B. **Award Letter** - RL-43d is the award letter used for both a monthly annuity and a lump-sum payment. A copy is not filed in the folder because only one RL-43d is printed and that is sent to the beneficiary.

1. **Preparing RL-43d** - The computer is programmed to print on the RL-43d the following code paragraphs as required:

   - For LSDP: 500, 500.2, 500.8, 502.1, 503, 504, 504.1, 504.2, 519.2, 519.3, 520.1, 520.2, 520.3, 520.4, 520.6, 520.7, 521, 521.1, 521.2, 535, 542, 570.1, 570.2;

   - For RLS: 500.1, 514, 515, 516, and 517, 3100;

   - For Accrued Annuities: 504.3, 521.2, 538, 538.1, 539, 539.1, 570.3, 570.4, 711.3, 711.4, 3100, 3101, and 3102.

   The computer-printed RL-43d will also show if RB-5, RB-7, or G-475 is an enclosure.

2. **Routing and Releasing RL-43d** - The RL-43d award letters are sent to the Payment Control Coordination Group (PCC) where the enclosures are attached. Award letters for all SURCAL cases are mailed by RRB while the checkwriting tape is sent to Treasury. Treasury includes Form G-178 with the check.
C. Other Notices - Claims examiners will prepare any required notification other than that given in Form RL-43d. If the applicant has requested additional information, furnish it by separate letter. If anyone else must be notified of the award take appropriate action to furnish such notice. For instance, when necessary, take the proper action to:

- Notify a Congressman, labor official, or person holding power of attorney; or
- Notify SSA when an RLS is awarded (see RCM 8.1.67); or
- Notify payee of a share assigned to him by an eligible person; or
- Notify a D/O of a decision; or
- Notify the applicant who authorized payment to the funeral home that payment has been made (see RCM 8.1.68).

D. 805 Referrals - When an award based on G-360, G-360a or G-359a, G-359b input data is not possible, the computer may issue a referral message on an 8" X 5 1/2" (805) sheet. (See RCM 9.3.20 for the list of referral messages that will be issued in these cases.)

9.1.65 SURCAL 6 Month Notices

6 Month Notice In Spouse-To-Widow(er) Cases - 805 referrals are issued by SURVEA six months after the employee's date of death. If the DOD is unknown at the time of termination, Research uses an assumed DOD, 1 month prior to the time of termination. (Their records are earmarked that this is an assumed DOD.) If an assumed DOD was used and the employee was enrolled in Medicare, send the case to HB to correct their records after all other action is completed.

Appendices

Appendix B

G-359a - Request for EDP Award of LSDP, RLS, or Accrued Annuity (NCR Paper)

(Original and One Copy)

Use

Used with a G-359b to produce an electronic LSDP award when the employee acquired his 120th month of RR service before 1-1-75. Also used with a G-359b to produce an electronic RLS or accrued annuity award.
General Information

Payment of most types of LSDP's and some accrued annuities due but unpaid at death can be awarded by this EDP program. However, handle the case manually, if it falls in one of the following categories:

- An INITIAL award of an accrued annuity, or
- A case not shown in item 3 of Form G-359a (e.g., a widow's RLS payment in a no-election case); or
- Payment is to be made to more than six beneficiaries; or
- A deferred LSDP award to a widow when she is entitled to a WCIA; or
- An LSDP or RLS award was previously made and the check is being reissued; or
- A parent elected the RLS; or
- The last check which is being deducted from the LSDP involves transfer of funds (RRB is paying the SS annuity or a SUP ANN is involved); or
- Payment can be made to both the funeral home and P B/E, and the total reimbursable burial expenses are greater than the LSDP and/or accrued annuity; or
- Two or more P B/E are involved, and the priority of B/E is different, and the total reimbursable B/E is greater than the LSDP and/or accrued annuity; or
- a check or EFT payment is being recovered from the LSDP, and 2 or more beneficiaries are being awarded.

Preparation

1. Item 1 - Enter the RRB claim number, showing the prefix in column 3. If there are fewer than nine digits in the claim number, leave the unused boxes blank. The last box on the right must contain the last claim number digit.

2. Item 2 - Enter "1" under the appropriate symbol for each payee on this award; enter "X" for each previous or potential payee. This applies for RLS, LSDP and accrued annuity payments. For example, if an RLS is to be awarded to three children but only two have filed applications at the time of the award, enter "1" in each of the first two boxes and "X" in the third. When the third application is received and ready to be paid, enter "X" in the boxes under L-1 and L-2 and "1" in the third box.
3. **Item 3** - Enter the applicable "Type of Payment" code. If payment does not fall into one of the types indicated in this item, handle it manually.

The "types of payment," and a brief explanation of each payment is given below:

<table>
<thead>
<tr>
<th>Code on G-359a</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>LSDP to widow(er).</td>
</tr>
<tr>
<td>2</td>
<td>Deferred LSDP to widow(er).</td>
</tr>
<tr>
<td>3</td>
<td>LSDP minus EE's last check to widow(er).</td>
</tr>
<tr>
<td>4</td>
<td>LSDP plus accrued annuity to widow(er).</td>
</tr>
<tr>
<td>5</td>
<td>LSDP Plus accrued annuity to payer of burial expenses.</td>
</tr>
<tr>
<td>6</td>
<td>LSDP to payer of burial expenses or funeral home.</td>
</tr>
<tr>
<td>7</td>
<td>RLS is elected.</td>

<td>RLS to two or more in unequal shares.</td>
</tr>
<tr>
<td>A</td>
<td>Accrued annuity to payer of burial expenses (includes payment of windfall).</td>
</tr>
<tr>
<td>B</td>
<td>Accrued to widow(er) or relatives (widow(er) or relatives do not need to be eligible to receive an annuity). Also use this code if the recipient is receiving the accrued annuity partly as a relative, and partly as a payer of burial expenses.</td>
</tr>
<tr>
<td></td>
<td>NOTE: For codes A &amp; B, if an RUIA transfer is involved, pay manually.</td>
</tr>
<tr>
<td>C</td>
<td>LSDP minus withheld EFT to payer of burial expenses.</td>
</tr>
<tr>
<td>D</td>
<td>LSDP minus withheld EFT to widow(er).</td>
</tr>
<tr>
<td></td>
<td>NOTE: Codes C and D should be used if outstanding not-due EFT payments are being withheld, i.e., the TFS133 is not in file. These codes can be used in cases where the EE's last check includes SS benefits and/or supplemental annuity since no transfer of funds is involved.</td>
</tr>
<tr>
<td>Code</td>
<td>Description</td>
</tr>
<tr>
<td>------</td>
<td>-------------</td>
</tr>
<tr>
<td>E</td>
<td>Last check previously withheld, now returned.</td>
</tr>
<tr>
<td>F</td>
<td>Partial Payment. This code should be used when incomplete information in file is preventing timely processing of monthly recurring award and the field has requested immediate payment. Continue to send cases to the Director's Office when such cases are specifically requested by the Director. In all other 'dire need' type cases, you can continue to send them thru the Director's Office, or you can make the payment on OPO SURCAL. Exhibit 1 gives a schedule in making an OPO payment on SURCAL. If the OPO SURCAL can be used instead of going thru the Director's Office. Document the file to show how the amount of payment is arrived at. Research will not receive any information until the case is paid final.</td>
</tr>
</tbody>
</table>
| G    | LSDP minus last check to payer of burial expenses.  

NOTE: A "G" can easily look like a "6" to a keypunch operator. To avoid confusion, if you can't write a capital "G" different from a "6," write a small "g". |
| H    | Last EFT previously withheld, now returned. |
| J    | Widow(er)'s last check due at death. The code applies to those cases where the widow(er) was in CPS, died, and one or more last checks (or EFT payments) are due. If there is any change in the computation, payment should be made on the manual award forms. |
| K    | WF one payment only. Use this code when making an accrued WF payment to:  

- survivors of a deceased EE  
- survivors of a widow(er)  
- widow(er) being paid survivor benefits by SSA, WF one payment only due as a spouse  
- widow(er) being paid by RRB, WF one payment only due as a spouse (no increase mechanically because of interim widow status)  
- remarried widow(er), previous WF entitlement as a spouse or widow(er)  

NOTE: A G-59 must be sent to Research. |
| L    | LSDP minus outstanding overpayment to FH. "Outstanding
overpayment” includes both EFT payments and checks.

| M | LSDP minus EFT payment(s) to payer of burial expenses. Use this code if the TFS133 is in file. |

4. **Item 4** - Employee information:
   
a. **Item 4(A)** - Enter the deceased employee's first name, middle initial, and last name. Leave one space between initials and names. If more than 20 characters (including spaces) are required to enter the first name, middle initial, and last name, change the first name to an initial. If the name is still too long, omit the middle initial. If the last name exceeds 18 characters, omit both the first and middle initials and enter the last name only.

b. **Item 4(B)** - Enter the employee's SS account number.

c. **Item 4(C)-(G)** - Self-explanatory. Do not complete these parts if an accrued annuity or partial payment is the only benefit being awarded.

5. **Item 5** - Enter the beneficiary’s own SS account number if the beneficiary is the widow (or widower).

6. **Item 6** - Always enter in blocks 70-76 the total benefit payable. Include the amount to be paid on this award, as well as any shares that have already been paid, or that are being withheld for future payment.

   Complete the portion below "Total benefit(s) payable" ONLY if adding or subtracting the last check(s) or EFT payment(s). When necessary, complete this portion as follows:

   - Enter the amount of the LSDP next to the top "S" sign.
   - Check the "+" box and enter the amount of any annuity due but unpaid being awarded with the LSDP or check the "-" box and enter the amount of the last check or EFT payment which is being deducted from the LSDP.

   The result is the total benefit payable to be entered in blocks 70-76.

   Blocks 1-54 are for future use, and should be left blank.

7. **Item 7** - Complete this item as explained below.
   
a. **Item 7(A)** - Complete this item only if awarding an LSDP. No entries are required if the RLS or an accrued annuity is the only benefit being awarded.

b. **Item 7(B)** - Complete this item only if awarding an LSDP. No entries are required if the RLS or an accrued annuity is the only benefit being
awarded. Enter "1" if it appears the widow(er) will be eligible for an annuity at age 60 or "2" if there is no widow(er) or if the widow(er) will not be eligible for a WIA.

c. Item 7(C) - Enter:

- "1" when awarding an LSDP to a widow(er), or a dependent parent, and all RLS would be payable to the payee on election (code "1" will cause a G-475 to be enclosed with the award letter).

- "2" when the beneficiary has inquired about an RLS and information about it will be furnished later (code "2" will release code paragraph 520.3).

- "3" when the beneficiary has inquired about an RLS and it is not payable because benefits paid exceed the employee's gross RLS (code "3" will release code paragraph 542).

- "4" when awarding a LSDP or accrued annuity to applicant who claimed excess burial expenses in Greece or other foreign country as explained in RCM 2.8.117. Use specifically when "type of payment" code in item 3 is 5, 6, A, C, G, or M. Entering a "4" in this item will release code paragraph 521. In these cases, enter the amount of B/E that can be paid in item 6 on the G-359a and the actual B/E paid in items 12 and 13 on the G-359b.

- "5" when awarding an applicant when a portion of an LSDP or accrued annuity is withheld pending an application from a legal representative of an estate. Use specifically when "type of payment" code in Item 3 is 5, 6, A, C. Entering a "5" in this item will release code paragraphs in 570.1 and 570.2 if a LSDP is involved; or code paragraphs 570.3 and 570.4 if an accrued annuity is involved.

- "6" when awarding a RLS, LSDP or accrued annuity to one payee, in which a share of the award has been assigned (e.g., there are two P's of B/E, and one is assigning his share of the LSDP to the other. Entering a "6" in this item will release code paragraph 521.2. (This code can only be used when one payee is involved, because if there are two or more payees, SURCAL would not know who should get CP 521.1.)

   NOTE: If paying the LSDP, include the burial expenses paid by the assigner in the amount of burial expenses paid by the payer.

- "9" when awarding a payment in which no mechanical award letter should be releases. This could be used for any of the "types of payment" in item 3 when something special must be said that is not provided in the routine code paragraphs normally released with that type of payment. If "9" is used, a special letter should be manually prepared and released at the time the award is authorized for payment.
8. **Item 8** - Enter the widow(er)'s DOB if a widow(er) survives AND an LSDP or RLS is being awarded. If an accrued annuity is the only benefits being awarded, make no entry in this item.

9. **Item 9** - Enter "1" for final award. Do not use "2" in any OPO SURCAL payment. A "2" is now obsolete.

10. **Item 10** - Enter examiner and authorizer numbers:
   a. **Item 10(A)** - Enter your examiner number.
   b. **Item 10(B)** - The authorizer should enter his number after authorizing the code sheet.

   **NOTE:** See section 9.1.64 for information about award forms and notifications and Chapter 9.3 for a list of referral messages produced by the EDP survivor program.

**G-359b - Request for EDP Award of LSDP, RLS, or Accrued Annuity**

(Continued from G-359a), (NCR Paper - Original and One Copy)

**Use**

Used with a G-359a to produce an electronic LSDP award when the employee acquired his 120th month of RR service before 1-1-75. Also used with a G-359a to produce an electronic RLS or accrued annuity award. (See the G-359a instructions for when a manual award must be made.)

**General Information**

At least one G-359b must be completed in every case. Section I of the G-359b should be completed only when awarding an RLS, an accrued annuity (alone), or an LSDP to PB/E or to a funeral home. Complete section II of G-359b in all cases. Section II of G-359b accommodates only two payees but, by using additional forms, a lump-sum payment can be made to as many as six payees. When additional code sheets are necessary, complete only section II. For example, if the forms are being completed to award an RLS to six children, complete one G-359a, one G-359b in full and two additional G-359b's, section II only.

**Preparation**

**SECTION I**

Complete this section only if you are awarding:

- An RLS;
• An accrued annuity; or
• An LSDP to the PB/E or to the funeral home.

Make no entries in this section if you are awarding the LSDP to a L/W widow.

1. **Item 11** - Complete this item only if awarding an RLS.
   a. **Item 11(A)** - Enter the amount of the gross residual.
   b. **Item 11(B)** - Enter the total deductions for other benefits to be made from the RLS.
   c. **Item 11(C)** - If an election has been made, enter "1" if the employee is insured at SSA on wages only or "2" if he is not insured. Otherwise, leave blank.
   d. **Item 11(D)** - Enter "1" if payment of the RLS is being made to the payee because he is the designated beneficiary; otherwise, leave blank. Skip to item 13 if you are awarding an RLS in UNEQUAL shares.

2. **Item 12** - Complete this item if the type of payment in item 3 on the G-359a is: 5,6,A,C,G,L or M. If payment is being made to the PB/E enter the amount of the reimbursable B/E. If code 4 is entered in item 7(C) on G-359a, enter the actual amount of burial expenses paid. If payment is being made to the funeral home, enter the unpaid amount of the B/E incurred by or through the funeral home.

   Make no entry unless the award is based on reimbursement for, or payment of, B/E.

3. **Item 13** - Complete this item as follows:

<table>
<thead>
<tr>
<th>ITEM 3 ON G-359a IS:</th>
<th>ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>• B or 9</td>
<td>The amount payable to each payee on this award.</td>
</tr>
<tr>
<td>• 5,6, (if P B/E), A,C,G or M</td>
<td>The amount of B/E paid by each payee on this award.</td>
</tr>
<tr>
<td>• 6 (if FH), or L</td>
<td>The same amount as entered in item 12 on the G-359b. (If more than one FH is involved, enter the amount payable to each FH.)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>ITEM 7(C) ON G-359a IS:</th>
<th></th>
</tr>
</thead>
</table>
SECTION II

Complete one "Name and Address Block" for each payee. Make the entries in the same manner as you would on an award form. Although separated into two parts for keypunching, the five lines in each address block on the G-359b correspond to those on award forms. If more than two payees are involved, complete "Name and Address Blocks", as required, on additional Forms G-359b. When using additional Forms G-359b, no entries are required in items 11, 12, or 13. Be sure to show the claim number on all Forms G-359b where indicated in columns 1-12.

1. **Cols. 1-12** - Enter the RRB claim number; show the prefix in column 3. If there are fewer than nine digits in the claim number, leave the unused boxes blank. The last box on the right must contain the last digit of the claim number.

2. **Cols. 13-32, 33-52, and 53-72** - Enter the first three lines of the payee's name and address (indicate the beginning of the address by a group mark). When paying the LSDP to a funeral home, be sure to show the legend "FOR ACCT OF" and the employee's name either on the second line which begins with keypunch block number 33, or on the third line, which begins with 53. (The legend triggers the printing of Code Paragraph 535 on the award letter.)

3. **Cols. 74-76** - Enter the application number as shown in items 24, 25, and 26 of the G-663 (601, 602, 603, etc.).

4. **Col. 78** - Enter the same payee symbol NUMBER which is printed above your entry for this payee in item 2 of G-359a. (Enter "1" for L1, "2" for L2, etc.).

5. **Col. 80** - Enter "1" if the name and address requires more than three lines and is continued to at least one more line. Enter "2" if address continuation is not required.

6. **Cols. 13-32 and 33-52** - If "1" is entered in col. 80 (see 5 above), enter the fourth line of the address in cols. 13-32 and, if required, enter the fifth line in cols. 33-52.

7. **Col. 78** - Enter the same payee symbol number as you did in the preceding col. 78 (see 4 above).
8. **Second Name and Address** - If there is more than one payee, complete the second name and address block of the form for the second payee in the same way as the first (except that no entry is made in col. 1-12).

9. **Examiner and Date** - Self-explanatory.

10. **Disposition**

   (a) **Examiner Action** - Attach both copies of the code sheets with a gem clip to the material filed on the right side of the folder and route the claim to authorization. If the entry in item 3 of the G-359a is 4, B, F, J or K and the accrued annuity is taxable, route the case to TAX-IAS after payment. Taxable accrued annuities include any tier 1, tier 2 or VDB payable for a period after 11-83 and supplemental annuity accrual payable for any period.

   (b) **Authorizer Action** - Sign and date the form in the space provided. As instructed by your supervisor, send the original code sheets for keypunching, file and duplicate in the folder, and have the folder controlled until the G-364a is received.

   **NOTE:** See section 9.1.65 for information about award forms and notifications and Chapter 9.3 for a list of referral messages produced by the EDP survivor program.

**G-360 - CAL Worksheet For Monthly Benefits**

(NCR paper - original and one copy)

**Use**

Used with one or more G-360a to produce an electronic award of a monthly survivor annuity.

The following pages provide detailed information concerning payments made by SURCAL.

**Note:** After recert cut-off in November 1993, SURCAL will process recertification and initial awards with OBD's of 12-1-92 and later.

**General Information**

1. **Requesting An EDP Award** - A G-360 and G-360a are needed in all initial and recertification (spouse to widow(er) or partial-to-final) cases. A separate G-360a is required for each payee code. Each G-360a should contain only information for the particular beneficiary under that payee code.
Based on the data entered on the G-360 and G-360a, SURCAL determines the survivor's rate(s) and produces a G-364d award form, an RL-43d award letter and tapes for Rate History.

The accrual check and award letter are mailed separately. In most cases, the letter will be mailed one day before the accrual check is released by Treasury. Form G-178 will be enclosed with the check by Treasury. Foreign address letters will be sent by regular mail.

If any item on the G-360 and the G-360a does not apply, make no entry in that item.

NOTE: If an item is being completed, unless otherwise specified, enter zeroes in any unused spaces before the entries.

Always use an ink pen when completing Form G-360 and G-360a.

2. When SURCAL Cannot Make An EDP Award - SURCAL is not programmed to correctly award claims with unusual circumstances, so these cases must be handled manually. Cases which should not be paid on SURCAL include those in which the following circumstances exist.

A. SURCAL Cannot Make A Correct Award On An Initial Award Or A Recertification Award When:

- The OBD requires more than two date breaks.
- A J&S annuity is payable.
- A waiver of annuity is involved.
- An employee annuity restored amount computation is required and the vested dual benefit basic amount shown on Form G-90 is not based on an AMR and increment years.
- A widow(er) is entitled to a transitionally insured social security benefit.
- The employee had no earnings after 1936.
- The deceased employee was a pensioner (claim number prefix "H").
- The sole survivor minimum may apply for a single child or parent and an AIME, TRANS, or 1977 O.S. PIA is involved.
- The TRANS PIA applies and the year of eligibility is 1980 or later.
- The 1977 O.S. PIA is involved.
• A widow(er) and a divorced young mother/father are entitled.

• There is a retirement (RR or SUPP) overpayment to both the employee and the spouse.

• There is a survivor other than the applicant in current pay status.

• The widow(er) is receiving monthly social security benefits and her social security claim number suffix is other than "A," "D," "E," or "F".

• The report of the employee's death is erroneous. (If only the date of death was reported incorrectly, the claim can be paid on SURCAL.)

• A RIB limitation must be considered in a case where the employee's ABD is 1-1978 or later, more than one accrual rate must be computed, and either:

  1) the RIB limit amount should be ARF'ed; or

  2) the employee was born on the first day of the month.

• A RIB limitation must be considered, there is no entry in item 29, and either:

  1) the current RIB PIA is a SPEC. MIN. PIA; or

  2) a female employee's ABD or age 62 birthday is before 8-1961.

• A RIB limitation applies and the widow(er) is entitled to the alternative PIA.

• A RIB limitation must be considered and the employee was born in 1896 or earlier.

• Delayed retirement credits (DRC's) must be considered and the case involves a maximum or a RIB limitation.

• PIA #1 and PIA #9 are different, DRC's are involved and the OBD is in the same year as the year of the EE's death.

• A 1974 Act Tier II is payable.

• The Frozen Minimum PIA applies. The Frozen Minimum PIA may apply if the year of eligibility is 1979, 1980 or 1981; the PIA is an AIME or Trans; and the PIA on the OBD is $261.20 or less for 12/92 or $267.90 or less for 12/93.

B. SURCAL Cannot Make A Correct Initial Award When:

• A recertification is required, e.g., a widow(er) is receiving a Mother's/Father's Annuity but is being recertified to a Widow(er)'s Annuity during the accrual period.
- All children or both parents do not receive the same social security benefit rate.

- The widow(er) is entitled to an Alternative PIA and the Family Maximum applies.

- More than nine payee codes are involved.

- A remarried widow(er) or disabled remarried widow(er) has an age reduction based on a previous widow(er)'s annuity or disabled widow(er)'s annuity.

- The family group composition changes during the accrual period.

- All annuitants do not have the same OBD.

C. **SURCAL Cannot Make A Correct Recertification Award When:**

- The spouse annuity must be suspended or terminated for any reason.

- Before the employee's death, RRB was paying only an social security wife's benefit.

- Three deduction rates must be considered.

- The spouse annuity has been adjusted for partial withholding which will continue after the OBD.

- All members of the family group do not have the same deduction amount.

- The tier II portion of the spouse annuity has a work deduction component that is being withheld.

Use the following guide for paying initial and recertification awards.

**Cases Paid On December 1993 or Later Vouchers**

<table>
<thead>
<tr>
<th>Survivor OBD:</th>
<th>Case Involves:</th>

<td>Pay mechanically on</td>
</tr>
</tbody>
</table>
earlier but not before 12-1-92 | shown in 9.1* | SURCAL
December 1993 or later | No exceptions as in 9.1** | Pay mechanically on SURCAL

For a spouse-to-widow(er) conversion, if the employee's 1-2-94 check was released be sure to check to determine if the spouse 1-2-94 check was actually increased. If so and,

* if the widow(er)'s OBD is November or earlier, there will be two spouse rates involved. The OBD spouse rate should be entered in item 46, the increased spouse rate in item 50 and the correct spouse minimum guaranty rate in item 47.

** if the widow(er)'s OBD is in December or later, only one spouse rate is involved. The correct spouse minimum guaranty rate for tier 2 must be computed and entered in item 47.

D. Actions SURCAL cannot do

SURCAL is not programmed to provide Research with the necessary information in the following situations.

1. If the annuitant is within 4 months of attainment of a terminating event, SURVEA will not release an attainment notice.

2. If the annuitant is a dual annuitant, a G-59 must be released to Research.

3. If the annuitant is more than 64 and 2 months, the Medicare enrollment must be done manually.

4. If a reduction amount is reduced to zero in a partial-to-final case, a G-59 must be released to Research.

<th>Entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>G360-1</td>
<td>RRB Claim Number and Page Number - Enter the prefix (i.e., A or D) and claim number. If there are fewer than nine digits in the claim number, enter zeroes in the unused boxes. The last box on the right must contain the last claim number digit.</td>
</tr>
</tbody>
</table>

Note: The SURCAL program will mechanically assign the correct check
symbol based on the type of beneficiary being paid.

SECTION A - GENERAL INFORMATION

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>G360-2</strong></td>
<td><strong>Type of Request</strong> - Enter one of the following codes which indicates the type of award that is being requested.</td>
</tr>
<tr>
<td></td>
<td>1 - Recert (all spouse-to-widow(er) conversions)</td>
</tr>
<tr>
<td></td>
<td>2 - Final (all initial cases)</td>
</tr>
<tr>
<td></td>
<td>3 - Both (spouse-to-widow(er) conversion and initial award.)</td>
</tr>
<tr>
<td></td>
<td>4 - Partial-Final (recertification if the survivor is already in pay status)</td>
</tr>
<tr>
<td></td>
<td>8 - Partial - Reserved for future use. Do not use.</td>
</tr>
</tbody>
</table>

| **G360-3** | **Beneficiary Symbol by Payee Code** - Enter the appropriate beneficiary symbol according to the payee code. If the symbol is a single character, enter it in the first box and leave the second box blank. Enter subscripts as necessary. |
| **G360-3** | Refer to RCM 8.9, Form G-364 instructions for a listing of the beneficiary symbols and their subscript(s). |

| **G360-4** | **Original Beginning Date** - Enter the month and last two digits of the year of the survivor's beginning date. For example, if the beginning date is December 1989, enter "12" and "89." |

| **G360-5** | **Second Date Break** - Reserved for future use, do not complete. |

| **G360-6** | **Type of Computation** - Always enter a "2". |

SECTION B - EMPLOYEE INFORMATION

| **G360-7** | **Deceased Employee's Name** - Enter the deceased employee's first name, middle initial and last name. Leave one space between the initial and names. If more than 20 characters (including spaces) are required to enter the first name, middle initial and last name, change the first name to an initial. If the name is still too long, omit the middle initial. If the last |
| **G360-8** | **Employee's SS Account Number** - Enter the employee's SS account number unless it is the same as the RRB claim number entered in item 1. |
| **G360-9** | **Employee's Date of Birth** - Enter the employee's date of birth. |
| **G360-10** | **Employee's Date of Death** - Enter the employee's date of death. |
| **G360-11** | **Marital Status at Death** - Enter the employee's marital status at death:  
  - Code "1" - Male married; or  
  - Code "2" - Male single, widowed, or divorced; or  
  - Code "3" - Female married; or  
  - Code "4" - Female single, widowed, or divorced. |
| **G360-12** | **Employee's ABD** - Enter the employee's annuity beginning date if the employee received an annuity before he died. If the employee's application is pending, the ABD should be determined. If an annuity was never awarded, enter "999999." |
| **G360-13** | **EE Contribution Amount** - Reserved for future use, do not complete. |
| **G360-14** | **EE SSA Insured Status** - Enter "1" if the employee has an insured status under the Social Security Act. Enter "2" if the employee does not have an insured status. If the insured status of the employee is unknown, enter "1."  
  The insured status of the employee, for SSEB purposes, can be determined by looking at the G-90. If the employee does not have an insured status, the retirement G-90 will show "9999" for SSEB PIA. The survivor G-90 will have the notation, "No SS insured status for SSEB." |
| **G360-15** | **M/S Needed for Eligibility** - Enter "1" if the employee's military service is needed to give the employee 120 service months. |
| **G360-16** | **88 Amend 48-50 M/S Code** - Complete this item if the employee has military service in the period from 6-15-48 through 12-15-50. Under the 1988 Amendments the military service is creditable if it was voluntary, preceded and followed by the required railroad service and the employee and not have intervening non-railroad employment. Prior to the 1988 Amendments, involuntary military service is creditable as compensation. (For further information on the creditability of 1948-50 military service under the 1988 Amendments, refer to RCM 5.4.7-5.4.10.) |
Tier II increase from OBD - Enter code "1" if the employee has military service in the period from 6-15-48 through 12-15-50, the military is creditable as compensation under the 1988 Amendments (as described above) and it is used to increase the annuity from the OBD (OBD is 12-1-88 or later).

No tier II increase - Enter code "3" if the employee has military service in the period from 6-15-48 through 12-15-50 and the military service is creditable as compensation under the 1988 Amendments (as described above) but does not increase tier II because it is used as wages.

Not creditable under the Amendments - Enter code "4" if the employee has military service in the period from 6-15-48 through 12-15-50, but it is not creditable as compensation under the 1988 Amendments either because it was involuntary, or because it was not preceded and followed by the required railroad service, or because the employee had intervening non-railroad employment. Note that military service in that period which was involuntary could have been creditable before the 1988 Amendments.

SECTION C - TIER I COMPONENT DATA

G360-17 Year of Eligibility - The death PIA to be used in a survivor's annuity computation is determined by the employee's year of eligibility. In general, the employee's year of eligibility is the earlier of:

- the year the employee died; or
- the year the employee's disability freeze began; or
- the year the employee attained age 62.

Enter "9999" if the year of eligibility is prior to 1979 or the appropriate year if the year of eligibility is 1979 or later.

G360-18 PIA Code - Enter the code to denote the type of PIA entered in item 19. Enter one of the following codes:

"1" - AIME PIA
"3" - TRANS. PIA (Only if year of eligibility is 1979)
"4" - AMW PIA

NOTE: If the survivor's annuity was initially paid using an AMW PIA based on a disability freeze and the alternative PIA now applies, AIME PIA information must be entered in items 18 thru 20. Refer to RCM 8.9 G-364.1 Special Situations 14.

| G360-19 | Employee Regular PIA on OBD - Enter the PIA, corresponding to the code entered in item 18, that is applicable on the survivor's OBD. If the original beginning date is prior to a PIA increase, SURCAL will update to the current PIA in the same manner as is done on manual awards.

SURCAL cannot compute a case when the TRANS PIA applies and the year of eligibility is 1980 or later, or if a 1977 O.S. PIA is involved. Therefore, pay these cases manually.

SURCAL will compute the sole survivor minimum in cases involving an AMW PIA.

If the sole survivor minimum for 1 child, or 1 parent may apply in a case involving an AIME or TRANS PIA, SURCAL cannot compute the correct original rate. Pay such a case manually. The sole survivor minimum may apply if only 1 child is involved and an AIME or TRANS PIA is involved and the 12-1992 PIA is less than $348.20, or the 12-1993 PIA is less than $357.20.

The sole survivor minimum may apply if only 1 parent is involved and an AIME or TRANS PIA is involved and the 12-1992 PIA is less than $316.50, or the 12-1992 PIA is less than $324.70.

| G360-20 | Employee AIME/AMW - Enter the employee's AMW or AIME used for the regular PIA shown in item 19 above.

| G360-21 | Total Family Max - In initial cases, where the benefit conversion saving clause does not apply, make no entry; SURCAL will compute the SSA family maximum, if applicable. If the employee's annuity was payable under a savings clause in the month before he died, enter the established unrounded SSA family maximum in effect on the survivor's original beginning date. (For further details on savings clauses, refer to RCM 8.9, G-364.1 instructions.) If the OBD is prior to a PIA increase, SURCAL will determine the new SSA family maximum.

| G360-22 | Years of Coverage - Enter the employee's actual number of years of coverage even though such years are less than 20 or more than 30.

If there are no years of coverage, because the employee's combined RR and SS earnings were less than 25% of the maximum creditable amount
for every year, leave this item blank.

Complete items 23-25 only if the widow(er)'s alternative PIA will be used in the computation of tier I.

<table>
<thead>
<tr>
<th>G360-23</th>
<th>Alternative Year of Eligibility - Enter the alternative year of eligibility. If AIME PIA information is not entered in items 18 thru 20, the case will reject.</th>
</tr>
</thead>
<tbody>
<tr>
<td>G360-24</td>
<td>Alternative PIA or OBD - Enter the alternative PIA that is applicable on the survivor's OBD.</td>
</tr>
<tr>
<td>G360-25</td>
<td>Alternative AIME - Enter the AIME on which the alternative PIA is based.</td>
</tr>
</tbody>
</table>
| G360-26 | Red RIB PIA - Enter the PIA (PIA #1, PIA #9, or SPC MIN PIA) that will be used in the computation of the RIB limitation on the survivor's OBD. If the original beginning date is prior to a PIA increase, SURCAL will update to the current PIA in the same manner as is done on manual awards. An entry is required if the employee was considered entitled to a reduced RIB before he died as explained in RCM 8.9, G-364.1 instructions and: • The fictional RIB PIA and survivor tier I PIA are the same and the screening guide (see RCM 8.9, G-364.1 instructions) indicates that the WIA may be subject to the RIB limitation; or • The fictional RIB PIA and the PIA for the survivor tier I computation are different. In these cases, do not use the screening guide. However, in most cases, the fictional RIB and the regular death PIA will be the same. Always enter the RIB PIA in item 26 if the RIB limit must be considered. In most cases, SURCAL will compute the RIB limit based on the employee's DOB and ABD. However, if the employee was born on the first of the month, the widow(er)'s OBD is before the EE would have attained age 62 or if the RIB limit must be ARF'ed, SURCAL cannot compute the correct RF months. In these cases, the RIB amount must be computed manually and entered in item 29. If the employee's ABD is 12-1977 or earlier, SURCAL will update this rate for a COL increase. If the employee's ABD is 1-1978 or later, the case must be paid manually if more than one date break must be computed.

SURCAL cannot compute the initial RIB limit if the RIB PIA is a SPEC. MIN. PIA or if a female employee's ABD or age 62 birthday is before 8-1961. In these cases, the RIB amount must be computed manually and entered in item 29. SURCAL will update this rate for a COL increase, if applicable.
<table>
<thead>
<tr>
<th>G360-27</th>
<th>Reduced RIB AIME/AMW - Enter the AMW or AIME on which the PIA in item 26 is based.</th>
</tr>
</thead>
<tbody>
<tr>
<td>G360-28</td>
<td>Reduced RIB YOC - Enter the employee's fictional RIB years of coverage even though such years are less than 20 or more than 30. Leave this item blank if the employee had no fictional RIB years of coverage.</td>
</tr>
<tr>
<td>G360-29</td>
<td>RIB Limit Amount - If SURCAL cannot compute the RIB limitation, enter the deceased employee's fictional RIB limitation applicable on the survivor's OBD, if the employee is entitled to such a computation. In such cases, items 26-28 should also be completed. Refer to item 26 for an explanation of when the RIB limitation must be computed manually. If the ABD was 1-1978 or later, use a G-59, item 7 to notify Research and TAX-IAS of the number of RF months involved.</td>
</tr>
</tbody>
</table>
| G360-30 | DRC Code - Enter the code which indicates the percentage of increase to the PIA that should be used:  
- "1" for 1/12 of 1%, the employee must have attained age 65 before January 1982.  
- "3" for 1/4 of 1%, the employee must have attained age 65 in or after January 1982 and before December 1989.  
- "4" for Other, if one of the following circumstances applies:  
  - 7/24 of 1%, the employee must have attained age 65 in or after January 1990 and before December 1991.  
  - 1/3 of 1%, the employee must have attained age 65 in or after January 1992 and before December 1993.  
  - Refer to G-364.1, Section A description of items 26-39 for information on additional percentages.  
Note: In the space provided, enter the percentage that will apply. |
| G360-31 | DRC Months - Enter the number of DRC months from "01" to "84." |
| G360-32 | Reserved for future use, do not complete. |
| G360-33 | Reserved for future use, do not complete. |
| G360-34 | Reserved for future use, do not complete. |
SECTION D - TIER 2 COMPONENT DATA

NOTE: No entry should be made in this section if a 1981 amendment beneficiary (remarried widow(er), remarried disabled widow(er), remarried young mother/father, surviving divorced spouse, surviving divorced disabled spouse, divorced young mother/father or 1983 amendment parent) is the only beneficiary being paid on this award.

<table>
<thead>
<tr>
<th>G360-35</th>
<th>Tier 2 Code - Always enter a &quot;2.&quot;</th>
</tr>
</thead>
<tbody>
<tr>
<td>G360-36</td>
<td>Tier 2 Takeback Code - Complete this item in all cases. Enter one of the following takeback codes:</td>
</tr>
<tr>
<td></td>
<td><strong>Code</strong></td>
</tr>
<tr>
<td></td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Use the T/B chart in RCM 8.9 G-364.1 instructions for determining the appropriate code to enter.</td>
</tr>
<tr>
<td></td>
<td>If the survivor tier 2 before takeback is $10 or less, SURCAL will internally change the code from &quot;1&quot; or &quot;2&quot; to code &quot;3&quot;. If the tier 2 is $10.00 or less and the takeback applies, do not enter code &quot;3&quot; since the award will reject.</td>
</tr>
<tr>
<td>G360-37</td>
<td>Tier 2 Total 4(g) Takeback Amount - Complete this item in all cases. Enter the total 4(g) takeback amount to be recovered, if applicable. If no takeback is involved, enter &quot;999999.&quot; See RCM 8.9 G-364.1 and G-364.7 Instructions for the proper way to determine the takeback amount.</td>
</tr>
<tr>
<td>G360-38</td>
<td>OBD Employee Tier 2 - Enter the 1981 Amendment employee tier 2 amount as computed on Form G-364.4. If the computed tier 2 is zero, the case must be paid manually.</td>
</tr>
<tr>
<td>G360-39</td>
<td>Employee Tier 2 Service Months - Enter the number of service months shown on the survivor wage record that corresponds to the tier 2 amount being used.</td>
</tr>
<tr>
<td>G360-40</td>
<td>Employee Tier 2 AMC - Enter the AMC amount shown on the survivor wage record that corresponds to the tier 2 amount being used.</td>
</tr>
</tbody>
</table>
| G360-41 | Employee VDB for Tier 2 - Complete this item only if the employee can
be deemed to be vested for a vested dual benefit in the month of the survivor OBD. Refer to RCM 8.9 G-364.1 and G-364.4 instructions for additional information on when the vested dual benefit amount should be computed.

Enter the vested dual benefit amount computed on Form G-364.4, item 5(a) or 5(b).

</table>
G360-75 | **Examiner Name and Date** - The examiner's name should be signed and the current date entered.  
G360-76 | **Authorizer Name and Date** - The authorizer's name should be signed and the current date entered.

**G-360a - SURCAL Worksheet for Monthly Benefits (Continuation Sheet) (NCR paper - original and copy)**

**Use**

Use with the G-360 to produce an electronic award of a monthly survivor annuity.

**General Information**

A separate G-360a is required for each payee code. Each Form G-360a should contain only information for the beneficiary under that payee code. However, only one G-360 is required even though more than one G-360a must be completed for each payee code.

If any item on Form G-360a does not apply, make no entry in the keypunch block.

In items that apply, enter zeros in any unused spaces to the left of the entries, except when completing any name item.

Always use an **ink** pen when completing Form G-360a.

| G360a-1 | **RRB Claim Number** - Always complete this item. Enter the prefix (i.e., A or D) and claim number. Leave the first two boxes before the prefix blank. If there are fewer than nine digits in the claim number, enter zeros in the unused boxes. The last box on the right side must contain the last claim number digit.  
**Page** - Enter the page number in the two boxes provided. The first G-360a must be numbered page 2, because the G-360 is pre-printed page 01. Therefore, additional Form G-360a's should be numbered from page 3 through 10 depending on the number of payee codes involved in the award. If there is only one digit to the page number, enter zeros in front of unused boxes, i.e., 02, 03, 04, etc. |

**SECTION A - IDENTIFYING INFORMATION**
<table>
<thead>
<tr>
<th>G360a-2</th>
<th>Payee Code - Enter the appropriate payee code.</th>
</tr>
</thead>
<tbody>
<tr>
<td>G360a-3</td>
<td><strong>Beneficiary Symbol</strong> - Enter the beneficiary symbol for this payee code. If the symbol is a single character, enter it in the first box and leave the second box blank. Enter subscripts as necessary. Refer to G-364 instructions for a listing of the beneficiary symbols.</td>
</tr>
<tr>
<td>G360a-4</td>
<td><strong>Application Number</strong> - Enter the application number in the first block as shown on the chart below. The next boxes are used for the number of applications that have taken, i.e., 101, 201, etc.</td>
</tr>
</tbody>
</table>

**Application Number To Be Entered in Item 4**

<table>
<thead>
<tr>
<th>Application No.</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>AA-17, or G-476c</td>
<td>1</td>
</tr>
<tr>
<td>AA-18</td>
<td>2</td>
</tr>
<tr>
<td>AA-19</td>
<td>3</td>
</tr>
<tr>
<td>AA-19a</td>
<td>4</td>
</tr>
<tr>
<td>AA-19s</td>
<td>7</td>
</tr>
<tr>
<td>AA-20</td>
<td>5</td>
</tr>
<tr>
<td>AA-17b and AA-17</td>
<td>8</td>
</tr>
<tr>
<td>G360a-5</td>
<td><strong>Filing Date</strong> - Enter the month, day and year in which the application on which this award is based was filed. Precede a single digit entry with a zero to fill all boxes.</td>
</tr>
</tbody>
</table>
| G360a-6 | **Rep Payee Code** - Complete this item only if there is a representative payee receiving payment for the beneficiary. Enter one of the following codes:  
- "1" if the payee is court-appointed;  
- "2" if the payee is neither court-appointed nor parent for child;  
- "3" if the payee is a parent of a child. |
| G360a-7 | Reserved for future use, do not complete. |
## SECTION B - BENEFICIARY DATA

| G360a-8 | **Beneficiary Name** - Enter the beneficiary's first name, middle initial and last name. Leave one space between the first name and the middle initial and the last name. |
| G360a-9 | **Beneficiary SS Number** - Enter the beneficiary's own social security account number. If the beneficiary has no social security number, enter "0000-00-0000." |
| G360a-10 | **Beneficiary Date of Birth** - Enter the beneficiary's date of birth. |
| G360a-11 | **Beneficiary Sex** - Enter the code which indicates if the beneficiary is male or female. |
| G360a-12 | **Tier 1 Restricted** - Reserved for future use, do not complete. |
| G360a-13 | **Tier 1 Restricted Code** - Reserved for future use, do not complete. |
| G360a-14 | **Family Code** - Complete this item only if the beneficiary is a young mother/father - type beneficiary, or a minor child or disabled child whose entitlement to a child's annuity is used to entitle a young mother/father - type beneficiary to an annuity. The codes entered in this item are used to tie a young mother/father - type beneficiary to the particular child who creates her/his entitlement. Enter "1" on the G-360a for payee code 1 and on each G-360a for any child/disabled child who causes the young mother/father's entitlement. Enter "9" for any child/disabled child included in the award who does not cause the young mother's/father's entitlement. See RCM 2.3 Appendix C for more information about assigning, correcting, and deleting family codes. |
| G360a-15 | **MDC (Minor Disabled Child Code)** - Enter "1" if the beneficiary is:  
  - a minor child, age 16 or 17, who was rated disabled in order to extend tier I payments to a young mother/father - type beneficiary; and  
  - the young mother/father - type beneficiary whose entitlement to tier I is continued. Thereafter, in any case in which this code is used, it should be used for at least two beneficiaries. |
| G360a-16 | **Twin Code** - Complete this item only if: |
1) more than one beneficiary entitled to benefits on the same claim number has the same DOB; or

2) there are parent beneficiaries with beneficiary symbols of P and F, or of LP and LF.
   - In situation (1), enter code "1" for the first beneficiary and "2" for the second, "3" for the third, etc.
   - In situation (2), enter code "1" for F or LF, "2" for P or LP.

A beneficiary who is assigned a twin code retains the twin code for as long as annuity entitlement continues, even if the other beneficiaries with twin codes lose entitlement.

<table>
<thead>
<tr>
<th>G360a-17</th>
<th>Grandchild - Enter &quot;1&quot; only if the beneficiary is entitled as a minor grandchild, a disabled grandchild or a student grandchild.</th>
</tr>
</thead>
</table>

| G360a-18 | Youngest Child Date of Birth - Complete this item if the beneficiary is a young mother/father type annuitant.  
Enter the date of birth of the youngest child whose entitlement to an annuity qualifies the young mother/father.  
Note: This item contains a four position year. Enter December 25, 1993 as 12251993. |
|----------|------------------------------------------------------------------------------------------------------------------|

| G360a-19 | Medicare Paragraph - If a disabled widow(er) is being awarded, there must be an entry in this item. A disabled child may be paid without an entry in this item.  
Enter the appropriate Medicare code paragraph number; i.e., 833, 834, 836, 836.1, 836.2, or 9999. The last box on the right side must contain the last digit of the Medicare code paragraph number. "9999" should be entered if awarding a disabled widow(er) who does not require a Medicare code paragraph, e.g., widow(er) already has Medicare under a State buy-in plan.  
The appropriate entry in this item should be determined as follows:  

<table>
<thead>
<tr>
<th>Situation</th>
<th>Entry in Item 19, Medicare Paragraph Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Disabled Widow’s Annuity Award -</td>
<td>0833</td>
</tr>
<tr>
<td>Medicare allowance before age 65</td>
<td></td>
</tr>
</tbody>
</table>
NOTE: If paragraph 833 is used, an entry is also required in item 20. See the item 20 instructions for further details.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>(b)</strong> Disabled Widow(er)'s Annuity Award - Medicare denial notice will be sent separately</td>
<td>0834</td>
</tr>
<tr>
<td><strong>(c)</strong> Disabled Child's Annuity Award - Medicare allowance payments made directly to child</td>
<td>0836</td>
</tr>
<tr>
<td><strong>(d)</strong> Disabled Child's Annuity Award - Medicare allowance, child has representative payee</td>
<td>836.1</td>
</tr>
</tbody>
</table>

NOTE: SURCAL will compute the Medicare effective data for the paragraph inserts in code paragraphs 836 and 836.1 by adding 24 months to the survivor's OBD.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>(e)</strong> Disabled Child's Annuity Award - Medicare allowance, child now on direct bill</td>
<td>836.2</td>
</tr>
<tr>
<td><strong>(f)</strong> Disabled Widow(er)'s Annuity Award - no Medicare paragraph needed</td>
<td>9999</td>
</tr>
</tbody>
</table>

**G360a-20** Medicare Paragraph Insert - Enter the month and year of the Medicare effective date. For example, if the Medicare effective date is October 1995, enter "1095". The Medicare effective date is the latest month and year as follows:

- the 30th full month after disability began (add 29 months to the date entered in item 28b of G-325), or
- the 25th month of Railroad Retirement benefit entitlement.

**G360a-21** SSA Disability Onset Date - If the widow(er), remarried widow(er) or surviving divorced spouse has been rated disabled under the Social Security Act, enter the month and year of the first full month of disability. Refer to Form G-325 item 28(b) and SSA-831 item 15(a) or 28(c) for the onset date. This entry is before any waiting period that may be required.
| **G360a-22** | **SSA Disability Term Date** - If the widow(er), remarried widow(er) or surviving divorced spouse has been rated disabled under the Social Security Act, and that disability has ended, enter the month and year the disability was terminated. Refer to Form G-325a item 7 and SSA-831 item 15(b) or 28(c) for the termination date. |

**SECTION C - PARTIAL RATE**

| **G360a-23** | Reserved for future use, do not complete. |
| **G360a-24** | Reserved for future use, do not complete. |

**SECTION D - MILITARY SERVICE ACCOUNTING**

| **G360a-25** | **Tier 1 Military Service Accounting** - Reserved for future use, do not complete. |
| **G360a-26** | Reserved for future use, do not complete. |
| **G360a-27** | **Tier 2 Military Service Accounting** - Reserved for future use, do not complete. |
| **G360a-28** | Reserved for future use, do not complete. |

**SECTION E - NAME AND ADDRESS**

| **G360a-29** | **Name and Address** - Complete this item in **ALL CASES**, for each beneficiary.  

Enter the name and address, including those of a representative payee, in the same manner as entered in manual awards on the G-364 payment sheet. Always indicate the beginning of an address by a group mark.  

The G-360a has spaces for 22 characters in lines 1 through 5. The last |
two boxes in lines 1 through 4 and the last three in line 5 are for future use. Do not make entries in these boxes.

Line 6 on Form G-360a is for future use. Do not make entries in line 6 of the address portion of Form G-360a.

SECTION F - REDUCTIONS

NOTE: When paying a partial-to-final award, if a previously used reduction amount is reduced to zero, a G-59 must be sent to Research and TAX-IAS.

| G360a-30 | OBD Public Service Pension Amount - If the beneficiary is subject to a public service pension reduction, enter the exact amount of the public service pension the beneficiary was receiving on the OBD. |
| G360a-31 | 2nd Deduction - Public Service Pension Amount - Enter the exact amount of the public service pension the beneficiary was receiving on the second rate break. |
| G360a-32 | PSP RED Status (Public Service Pension Reduction Status) - Complete this item in all cases in which the annuitant is receiving a public service pension. Enter:
  - "1" Exempt - If the tier 1 portion of the annuity will not be reduced for the public service pension because of an exemption.
  - "2" Lump Sum - If the amount of the reduction is based on a lump sum that was previously paid to the beneficiary.
  - "3" Recurring - If the tier 1 portion of the annuity is being reduced because of receipt of a monthly public service pension. |
| G360a-33 | PSP Source (Public Service Pension Source) - Complete this item in all cases in which the annuitant is receiving a public service pension. Enter:
  - "1" OPM - If the annuitant's public service pension is paid by the federal government.
  - "2" NON-OPM - If the annuitant's public service pension is paid by a state or local government agency. |
| G360a-34 | OBD Social Security Amount - If the beneficiary is subject to a social security benefit reduction, enter the social security benefit rate payable |
to the annuitant on the OBD.

The tier 1 social security benefit reduction amount is equal to the amount of the social security benefit payable to the annuitant, after reduction for age, public service pension and worker's compensation, but before work deductions.

<table>
<thead>
<tr>
<th>G360a-35</th>
<th>2nd Deduction - Social Security Amount - Enter the social security benefit rate payable to the annuitant on the second rate break.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The tier 1 social security benefit reduction amount is equal to the amount of the social security benefit payable to the annuitant, after reduction for age, public service pension and worker's compensation, but before work deductions.</td>
</tr>
</tbody>
</table>

| G360a-36 | Social Security Benefit PIA - Enter the latest PIA on which the beneficiary's social security benefit is based. |

| G360a-37 | Social Security Benefit Claim Number - When the beneficiary is entitled to an Social Security Act benefit based on someone else's earnings record, enter the social security claim number; otherwise, leave this item blank. |
|          | Never enter the deceased employee's social security claim number. (Even though the deceased employee may have the social security earnings, a social security benefit cannot be paid on his/her social security earnings because these earnings have been combined with his/her RR earnings.) Never enter the beneficiary's own social security account number. If (s)he is receiving social security benefits based on his/her own earnings, that number should be entered in item 9 "Beneficiary's SS Number." |

| G360a-38 | Social Security Benefit Suffix - If the beneficiary receives a monthly SS Act benefit, enter the beneficiary's SSA claim number suffix code. For example, if the widow(er) is receiving an RIB at SSA, enter "00A," in this item. Disregard any subscripts. |

| G360a-40 | Basis of Employee Annuity Reduction - Enter the code which indicates the type of employee annuity reduction: |
|          | • "1" - Net tier 1 - Enter code "1" if either the employee or widow(er) had railroad earnings prior to 1975. The tier 1 of the widow(er)'s annuity will be reduced by the amount of the net tier 1 of the employee annuity. |
- "2" - Total employee annuity - Enter code "2" if neither the employee nor the widow(er) had railroad earnings prior to 1975. The entire widow(er) annuity will be reduced by the entire employee annuity.

| G360a-41 | OBD Employee Annuity Reduction Amount - If item 40 is coded "1" (Net Tier 1), enter the amount of the employee annuity net tier 1 (i.e., the tier 1 after reductions for age, social security benefits, military service, worker's compensation or public disability benefits) paid to the widow(er) or parent that corresponds to the OBD. If the employee net tier 1 is zero, enter "0000.10."

If item 40 is coded "2" (Total EE annuity), enter the total amount of the employee annuity that correspond to the OBD.

NOTE 1: Research needs to be notified if the beneficiary's employee annuity is paid under P.L. 94-547. Furnish this information to Research on a G-59. In item 1, show the deceased employee's claim number. In item 7F, show the widow(er)'s employee annuity claim number and explain that the widow(er) is also entitled to an employee annuity paid under P.L. 94-547.

NOTE 2: If the survivor annuity is an initial "D" or "A" case and is awarded after the employee annuity is in pay status, complete Form G-59, showing the widow(er)'s employee annuity claim number in item 1, to notify Research of the dual entitlement. In item 7f, show the deceased employee's claim number, explain that the employee is also entitled to a widow(er)'s annuity rate and month of voucher. The SURCAL case should be pended for the SURCAL output sheet, G-364d, in order to get the widow(er)'s annuity rate. Then, the G-59 should be completed and released to Research.

| G360a-42 | Second Deduction - Employee Annuity Reduction Amount - If item 40 is coded "1," enter the amount of the employee annuity net tier 1 (i.e., the tier 1 after reduction for age, social security benefits, military service, worker's compensation or public disability benefits) corresponding to the second rate break. If the employee net tier 1 is zero, enter "0000.10."

If item 40 is coded "2," enter the total amount of the employee annuity that corresponds to the second rate break.

| G360a-43 | Employee Annuity Gross Tier 1 - Enter the gross employee tier 1 to which the beneficiary is entitled on the latest computational rate break.

| G360a-44 | Employee Annuity Claim Number - If the widow(er) or parent is entitled
to an employee annuity, enter the claim number under which it is being paid, only if the claim number is a six-digit serial number. If there are fewer than six digits in the claim number, enter zeros in unused boxes.

| G360a-45 | Reserved for future use, do not complete. |
| G360a-46 | Reserved for future use, do not complete. |

### SECTION G - OVERPAYMENT DATA

All overpayments will be recovered from payee code 1. Complete items 47-55 and item 63, if the overpayment was made to the employee.

| G360a-47 | **Employee Railroad Annuity Overpayment** - Enter the amount of the employee's regular RR annuity overpayment that is to be recovered on this award. |
| G360a-48 | **Employee Supp Annuity Overpayment** - Enter the amount of the employee's supplemental annuity overpayment that is to be recovered on this award. |
| G360a-49 | **Employee Social Security Benefit Overpayment** - Enter the amount of the employee's social security benefit overpayment that is to be recovered on this award.  
**NOTE:** When an entry is made in item 49; items 53, 54 and 55 must all be completed. |
| G360a-50 | **Employee Non-Tax Overpayment** - Enter the amount of any overpayment that is not an overpayment in tier 1, post-1983 tier 2, post-1983 vested dual benefit, Supp or SS, that is being recovered from this award. For example, use this item to recover a HI-SMI overpayment. |
| G360a-51 | **Last Check** - Enter a "1" if the overpayment being recovered is the employee's last check. |
| G360a-52 | **PREV EST Overpayment** (Previously Established Overpayment) - Enter a "1" if the overpayment being recovered was previously established. 
A previously established overpayment is an overpayment that was discovered and calculated before the current award action. Simultaneous discovery and recovery of the overpayment is not considered previously established. |
For example, a last check or an employee overpayment that was calculated at the request of the survivor section is not considered previously established. However, an overpayment that was calculated prior to the employee's death would be considered previously established.

<table>
<thead>
<tr>
<th>G360a-53</th>
<th>Employee SS Benefit Overpayment Claim Number - If item 49 is completed, enter the social security claim number on which the benefits to be recovered were paid.</th>
</tr>
</thead>
<tbody>
<tr>
<td>G360a-54</td>
<td>SS Benefit Suffix - If item 49 is completed, enter the social security benefit suffix that corresponds to the social security claim number entered in item 53. The suffix should be entered beginning with the first box of the item. Any unused boxes should be left blank.</td>
</tr>
<tr>
<td>G360a-55</td>
<td>Employee SS Benefit Overpayment Fund Code - When item 49 is completed, enter either:</td>
</tr>
<tr>
<td></td>
<td>• Code &quot;8&quot; - Overpayment entered in item 49 will be transferred to the OASI Trust Fund; or</td>
</tr>
<tr>

</tbody>
</table>
08  531.1    LSDP recovery.

G360a-64  Partial Code Paragraph - Enter "1" in the box if the rate being paid is NOT based on a final wage record or for any reason the rate is not considered the final annuity rate.

G360a-65  Examiner Name - The examiner's name should be signed and the current date entered.

G360a-66  Authorizer Name - After all examiner entries have been verified, the authorizer's name should be signed and current date entered.

G360a-67  Remarks - Use as needed to explain any unusual circumstances involving the award to facilitate reading the file.

Disposition

Examiner Action - Attach the G-360 and G-360a code sheets with a gem clip to the right side of the folder.

Authorizer action - Send the original sheets for keypunching, file the duplicate on the left side of the folder and control the folder until the G-364d is received.

Print Out

A single copy of Form G-364d is printed for the folder record; no other copies are prepared. This form shows the payment data, the payee’s name and address and the numbers of the code paragraphs which were printed on the RL-43d award letter. The G-364d does not show HIB or SMI information. If SMI deductions are applicable, it will be necessary to deduct the appropriate premium from the monthly rate.

Special Situations

- Assumed DOD Used

If the DOD is unknown at the time of the termination, Research uses an assumed DOD, 1 month prior to the time of termination. (Their records are earmarked that this is an assumed DOD.) If an assumed DOD was used and the employee was enrolled for Medicare, send the case to BDMO to correct their records after all other action is completed.
Appendix C

G-60 - TRIC Request for Wage and MBR Information (Original and folder copy)

Use

Use as an input data sheet to: (1) initiate a tape request for SS earnings (except for a deceased employee), PIA computations, and SS benefit data for employees and (2) initiate a request to SSA to update or delete an MBR earmark.

NOTE: Effective July 1999, RRB paper form G-60 is obsolete. Use the G-60/G-60S PC Program to enter all G-60 requests on-line. RCM 9.1 Appendix C (G-60) procedure has been retained to assist in completing the on-line forms.

Completion

PART I - IDENTIFICATION

Item 1: Enter the prefix, using "A," "D," or "H." Enter the RRB claim number. If the employee has a 9 digit claim number, enter only A, D, or H in the first space provided. If the claim number has less than six digits, precede with zero(s).

Item 2: Enter the employee's social security account number.

NOTE: Do not release a G-60 if the employee has no SS account number. In this type of case, release a G-563 to Claims Certification Unit for a manual computation of any needed PIA.

Item 3: Enter the appropriate numeric unit designation code as shown in this item.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Item 4: Enter the employee's surname (up to ten letters) and the first and second initials of the employee's given name.
Item 5: Enter the employee’s date of birth. Use preceding zeros where necessary.

Item 6: Enter code "1" if the employee is male; code "2" if female.

PART II - ANNUITY REQUEST INFORMATION

Item 7: Complete this item as follows:

- Enter code "1" if the employee's annuity is in current payment status at RRB.
- Enter code "2" if the employee's annuity is in suspense at RRB.
- Enter code "3" if the employee's annuity has been terminated by RRB.
- Enter code "4" if Item 13 is coded "91." See instructions for Item 13.

NOTE: The Item 7 code is instrumental in earmarking and maintaining RR data in SSA's MBR. RRB should not initiate MBR earmarking if a RR annuity is not in payment status. Therefore, leave Item 7 blank if initial payment action is pending or if a G-90 is being requested for annuity estimate purposes only.

When a PAM Award or MOR is received with the Review Message "ALERT-EARMARK MBR WITH CORRECT RR CLAIM NUMBER/PREFIX" the examiner must check the DPA DATA section of the transmittal for the employee's total service months. If 120 or more months are shown, enter code "1" in this item.

Item 8: Enter the beginning date of the employee's RR annuity. Enter preceding zeroes where needed.

Item 9: Enter the RRA disability onset date for all disability type requests. This item opens for entry only after items 14 and 15 have first been completed. It opens up for disability annuity codes “03” or “08”.

The RRA disability onset date may be obtained from the following:

- Item 17 of OLDDS, or
- Item 18 of OLDDS.

Item 10: Complete this item in all cases in which the employee has a current connection. Enter code "3" if the employee had a current connection on 12-31-74 but not on his ABD. Enter code "4" if the employee has a current connection on his ABD, whether the ABD is before or after 12-31-74.

If the employee does not have a current connection, leave this item blank.

NOTE: In order to change the vesting year for determining eligibility to a vested dual benefit, an examiner can obtain corrected PIA's with a type request 13, together with
completion of the vesting year, quarters of coverage through the vesting year, the insured status indicator, and, if M/S is involved, the M/S-as-used code. A type of request 01 will also change the vesting year on the requested G-90 with the corrected c/c data. It will still be necessary to correct the Research record with a G-59 or award action with the correct G-90 date.

**Item 11:** Enter the date of the employee's last railroad work. Enter preceding zeroes where needed. In recomp cases, leave this item blank.

**Item 12:** Enter the date of the employee's last non-railroad work. Enter preceding zeroes where needed. In recomp cases, leave this item blank.

**Item 13:** Enter the appropriate request code as follows:

A. **Regular PIA Calculations**

- Use code "01" for an initial request for an earnings record and MBR information for a 1981 or 1983 Amendment employee based on his/her own account number. This request will generate PIA (and latest 19 recomps, if applicable, for type annuity other than reduced 60/30) and Tier II calculations. Use this code only for an initial request when no folder record exists or Tier II calculations are required. Do not use this code for 1974 Act Cases (see code "10"). For cases paid under the 1937 Act, see "B."

- Use code "10" for an initial request for an earnings record and MBR information for a pre-1981 Amendment employee, whose ABD is 1-1-75 or later, based on his/her own account number. This request will generate PIA and AMC calculations. A code "10" in this item should only be used for initial requests when no folder record exists or because AMC calculations are required. Do not use this code for cases paid under the 1937 Act.

When this item is coded "10," Item 36 must be completed or the request will reject.

**NOTE:** In 1974 Act cases, where the ABD is prior to 1-1-75, use request code "13." A code "01" or "10" in this situation will cause the request to reject. If AMC calculations are required, they must be requested manually from CCU via Form G-563.

- Code "16" - Blank, do not enter.

- Use code "62" in conjunction with a code "05" in Item 14 to request recalculated PIA's and latest 19 applicable recomps for reduced 1983 Law Year (LY) 60/30 cases. An AGE 62 RECALC cannot be calculated prior to December 1st of the year the employee is age 61.
Use code "88" to request recalculated PIAs, AMCs and Tier II for cases in which M/S creditability has changed due to the 1988 Act Amendments.

Use code "90" in conjunction with a code "1," "2," or "3" in Item 7 to update the MBR (e.g., to indicate a name change for a female employee, etc.). Complete only Items 1, 2, 3, 4, 5, 6 and 7.

Use code "91" in conjunction with a code "4" in Item 7 to remove an MBR earmarking (e.g., denials, wrong SSA number earmarked, etc.). Complete only Items 1, 2, 3, 4, 5, 6 and 7.

**NOTE:** Codes "90" and "91" will not produce a reply from SSA. Once the G-60 information is transmitted, assume that the proper action was taken by SSA. For additional information concerning MBR earmarking see RCM 7.4.60 through RCM 7.4.67.

**B. Recomp and '37 Act PIA Data**

Use code "13" to request recomp PIA data, or PIA's for cases paid under the 1937 Act. When this code is used, the G-90 program will consider the SS wages earned in and after the ABD year in the PIA computations. (See "SPECIAL SITUATIONS" for a description of the data provided for '37 Act or "conversion" cases. If different or additional computations are required, they must be specifically requested with a G-563.

**NOTE:** Do not request recomp PIA data before September of the year following the ABD year. If the G-60 is submitted for recomp PIA data before September of the following the ABD year, the G-60 will reject.
