## Action Plan Purpose

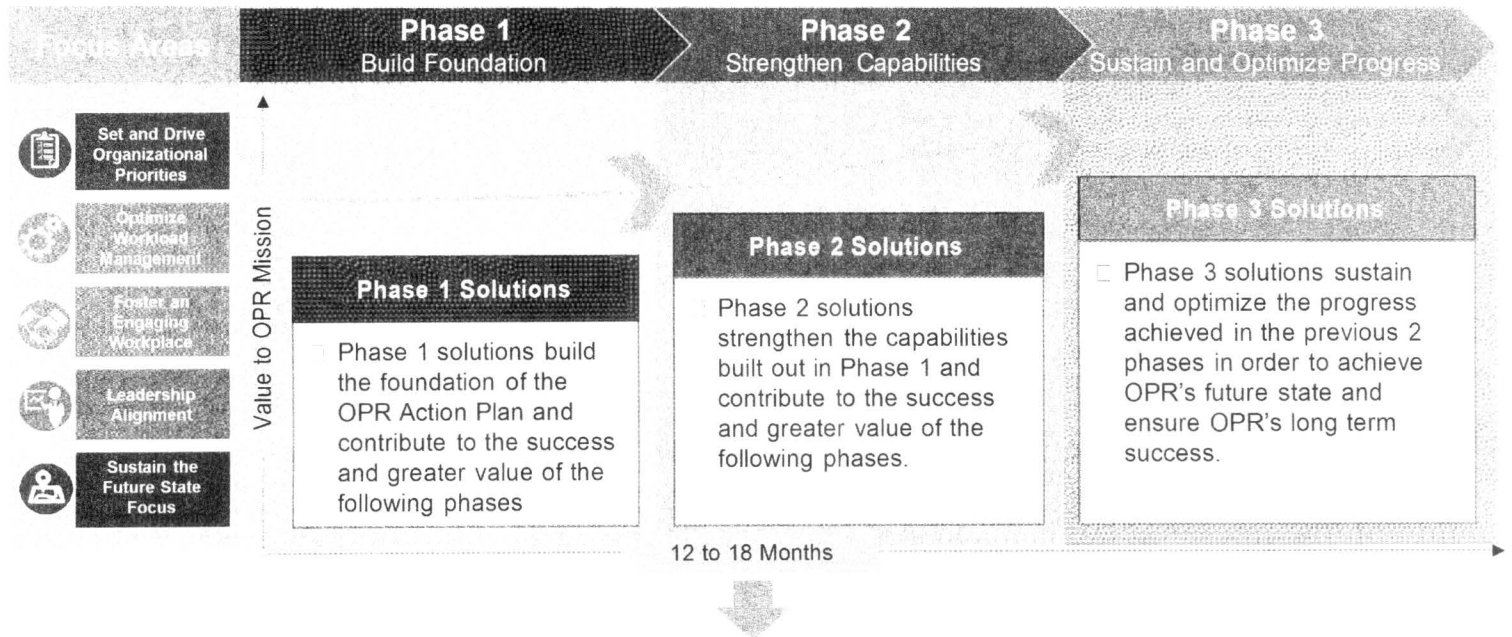

---

The OPR Action Plan provides the prioritized solutions, recommended management oversight capabilities, and roadmap in order to reach the desired future state.

- Provides strategic and operational perspective on how OPR should move forward
- Provides a 3 phase approach to build the foundation, strengthen capabilities, and sustain and optimize progress

# Executive Summary

The OPR Action Plan details a 3 phase roadmap with 5 specific focus areas for the prioritized solutions in order to reach the desired future state. It was developed by incorporating the completed current state assessment, the final OPR Future State, and the prioritized list of gaps.

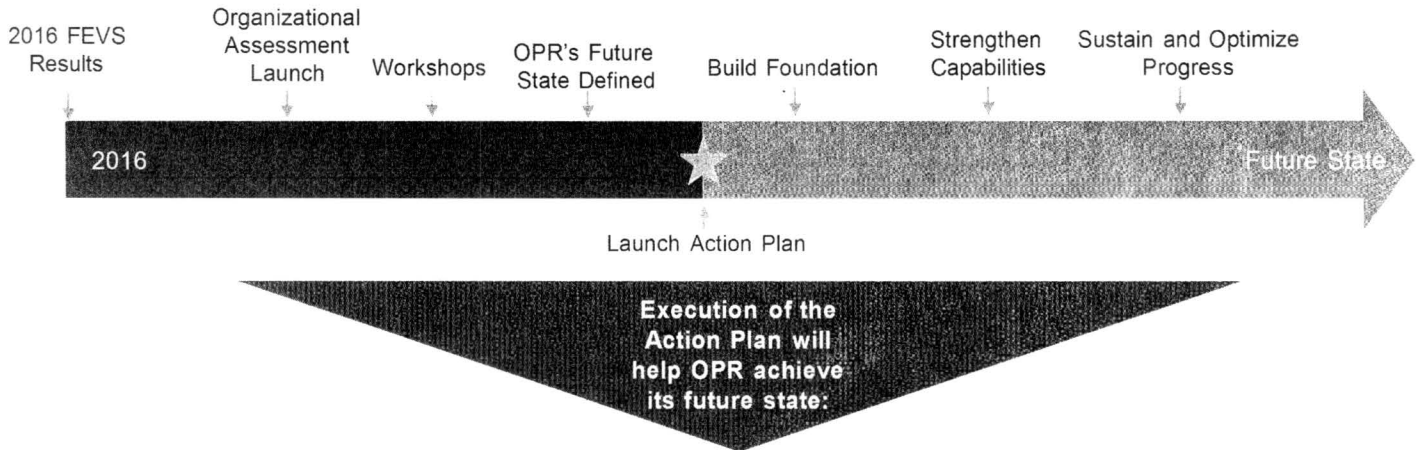

## OPR Future State

OPR is the source for authoritative Circular 230 guidance and provides proper, independent, and timely adjudication of Circular 230 related issues. By working collaboratively with the IRS and other tax communities, we promote sound tax administration, the protection of tax payers, and tax representation integrity. We accomplish this through an empowered, engaged, efficient, and respected workforce.

## Overview of the Journey

Findings from the current state assessment helped define OPR's prioritized gaps and develop a three phased action plan to build the foundation, strengthen capabilities and sustain and optimize progress towards the desired future state.

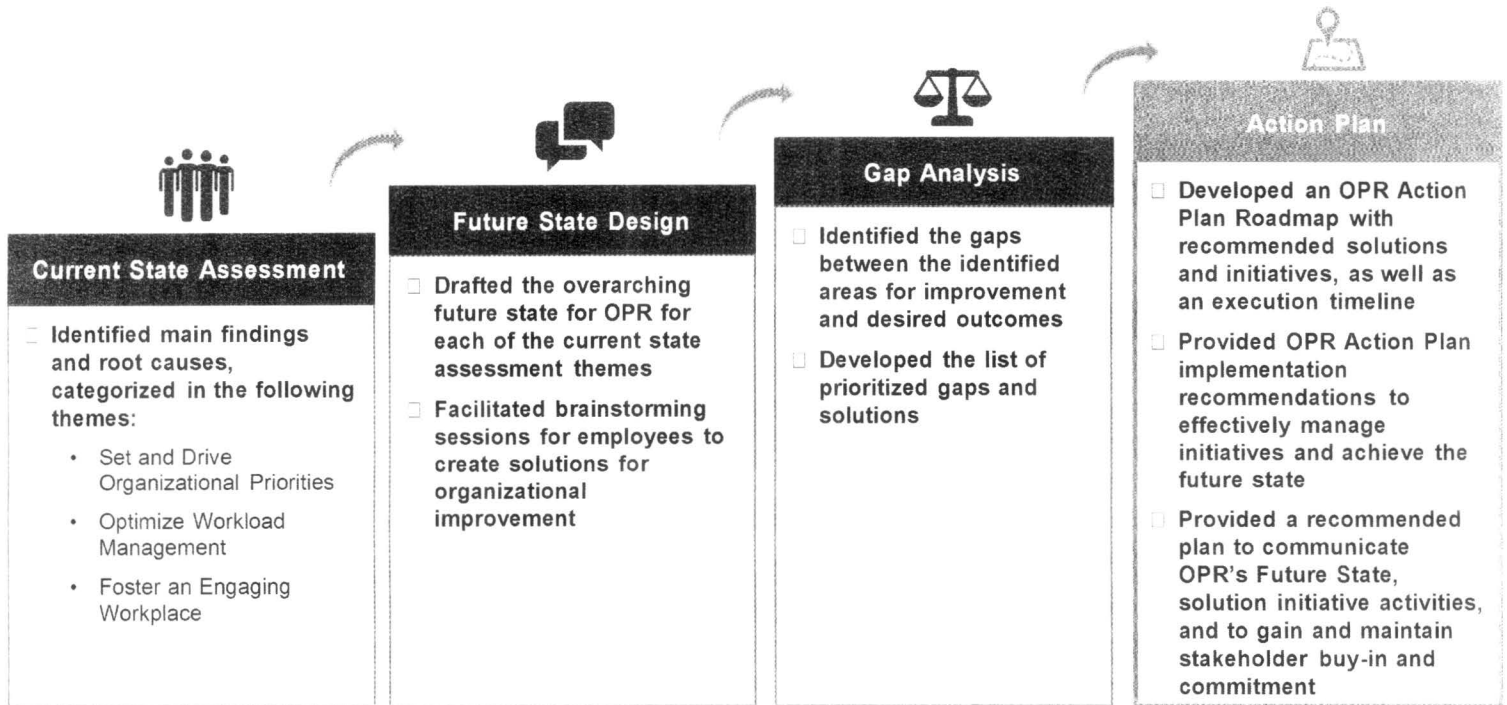

### OPR Future State

OPR is the source for authoritative Circular 230 guidance and provides proper, independent, and timely adjudication of Circular 230 related issues. By working collaboratively with the IRS and other tax communities, we promote sound tax administration, the protection of tax payers, and tax representation integrity. We accomplish this through an empowered, engaged, efficient, and respected workforce.

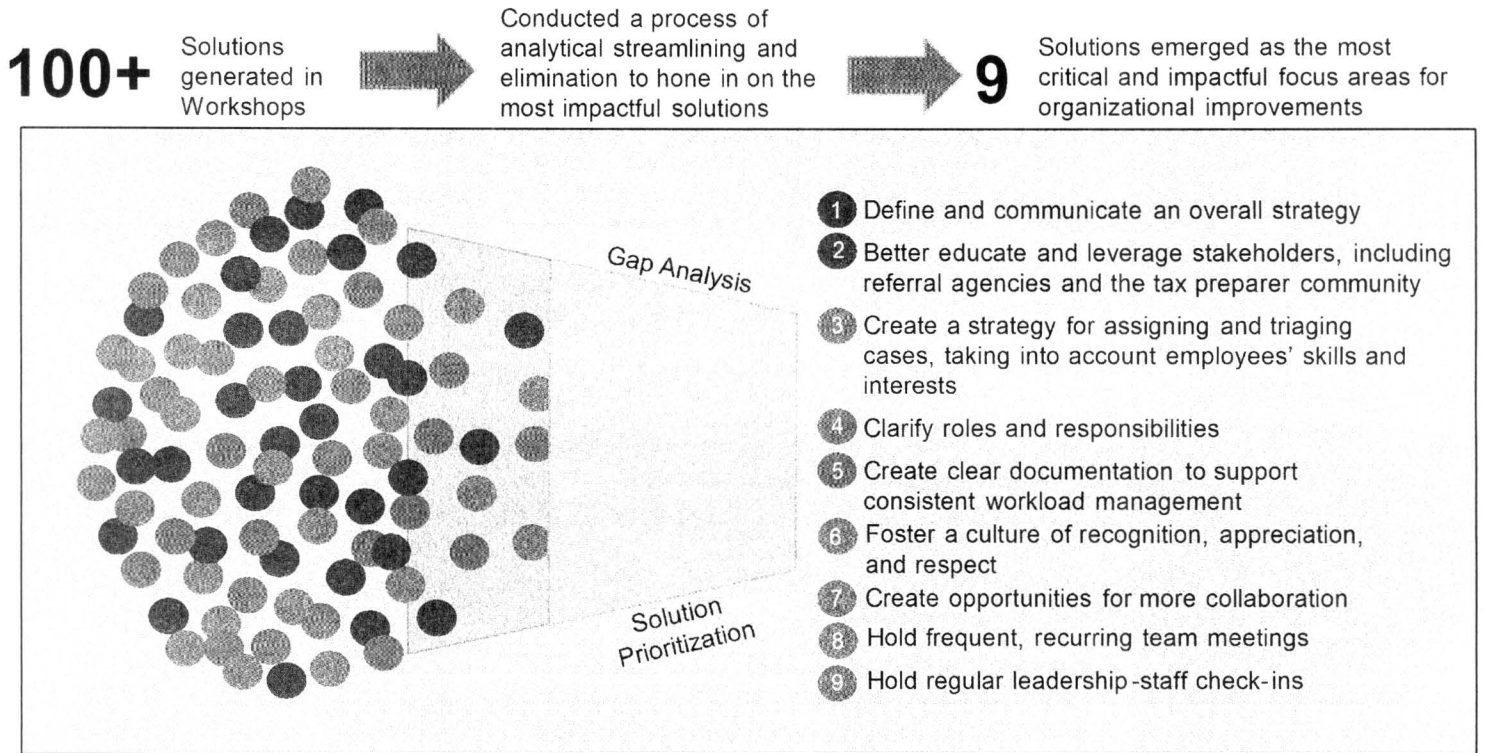

# Action Plan Creation Approach

The following approach was taken to build off the current state assessment and create an action plan that OPR can follow to achieve the desired future state.

# Prioritized Solutions Based on Most Impactful Areas of Improvement

The diagram below illustrates how the 9 main solutions were determined.<sup>1</sup>

<sup>1</sup> Please note that the last solution, "Hold regular leadership-staff check-ins," was later transferred to the *Develop and Grow Leaders and Staff* theme for more logical categorization.

## Action Plan Solution Focus Areas

The OPR Action Plan focuses on five key priority areas, which address opportunities for organizational improvement and will help OPR successfully drive towards the desired future state.

### And Support Long-Term OPR's Future State

#### Set and Drive Organizational Priorities

Recognized as the sources of authoritative Circular 230 guidance with proper, independent, and timely adjudication of Circular 230 related issues through a clear OPR Strategy that drives consistent and accurate case results, case litigation, a reduced back-log, increase in referrals, improved employee engagement, and outreach opportunities for staff.

#### Optimize Workload Management

A consistent customer experience with excellent case completion timeliness and quality through enabling and efficient processes, procedures and technology.

#### Foster an Engaging Workplace

An empowered, engaged, efficient, and respected workforce with open communication across the board, an environment of collaboration, and recognition of individual success and skills from leadership and colleagues.

#### Leadership Alignment

An increased trust in leadership, buy-in from staff, and more opportunities for professional growth and development.

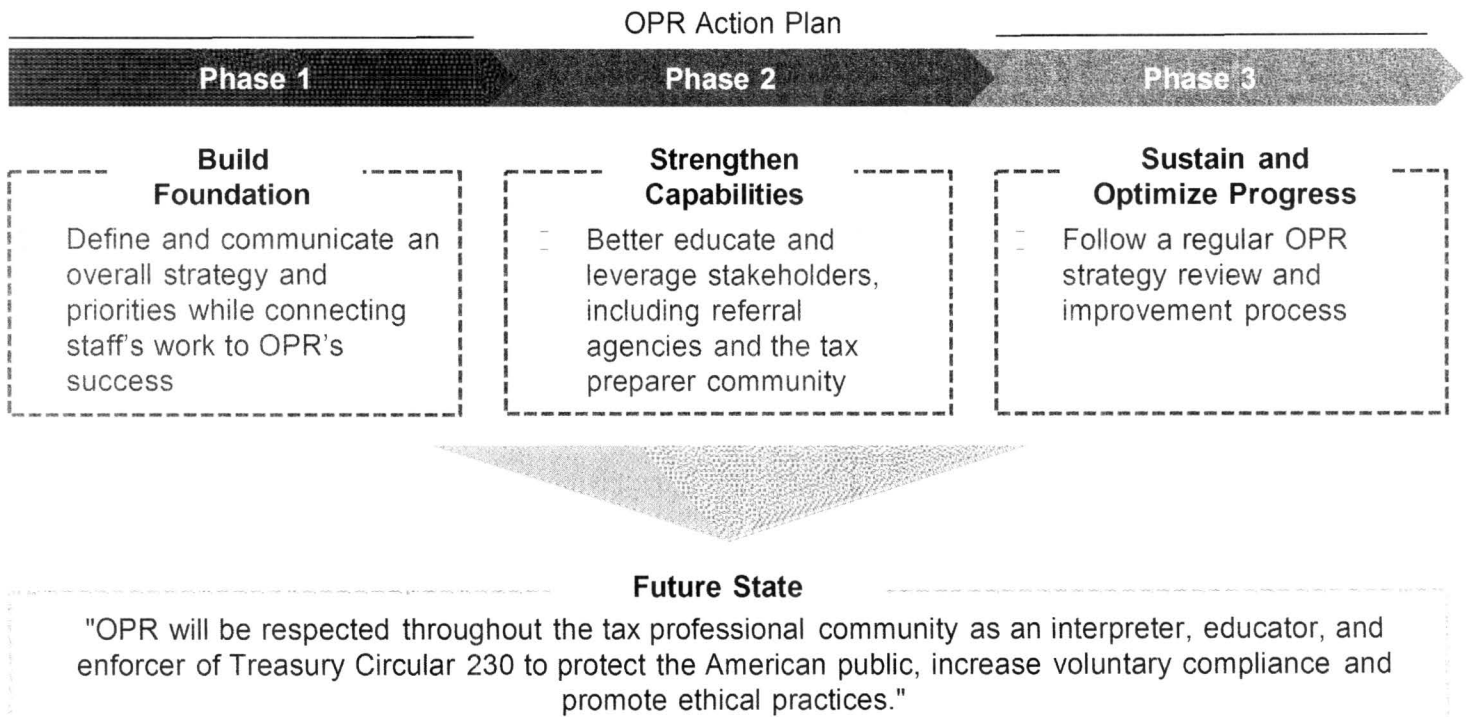

#### Sustain the Future State Focus

Timely, synchronized and prioritized identification and implementation of solution activities that align with and drive OPR's strategic priorities.

# Set and Drive Organizational Priorities

**Current State:** OPR's strategy is not clearly defined, communicated or operationalized, and a stakeholder outreach plan does not exist.

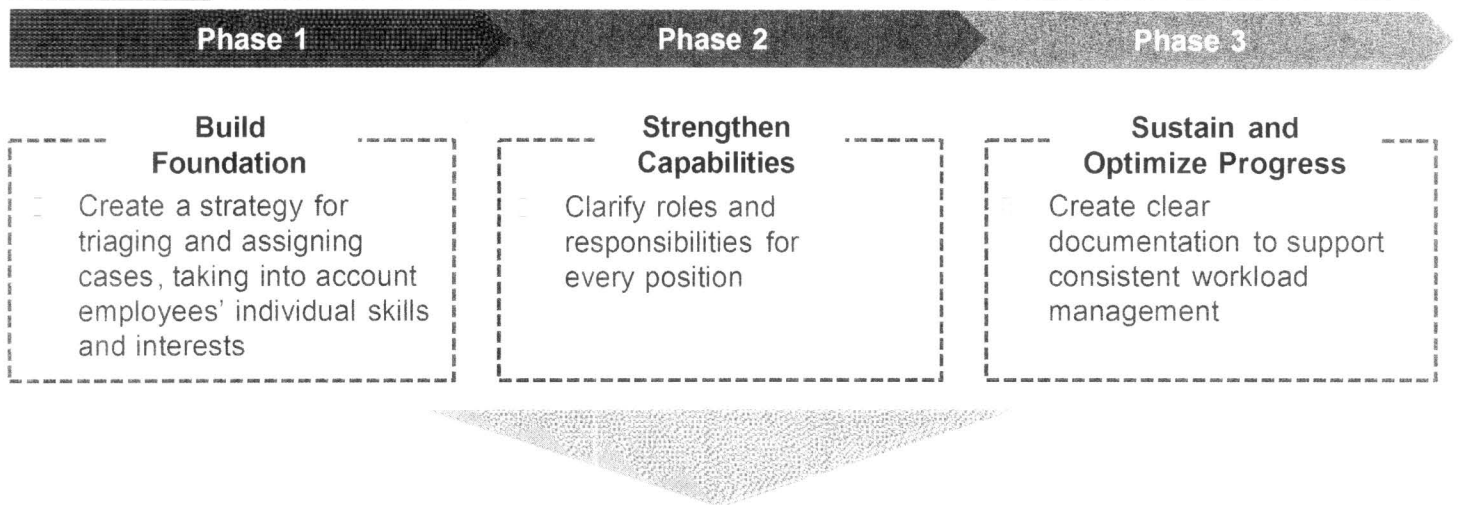

# Optimize Workload Management

**Current State:** Process standardization, performance metrics, case flow technology, and case triaging could be more strategic and aligned with employees' unique skills.

## OPR Action Plan

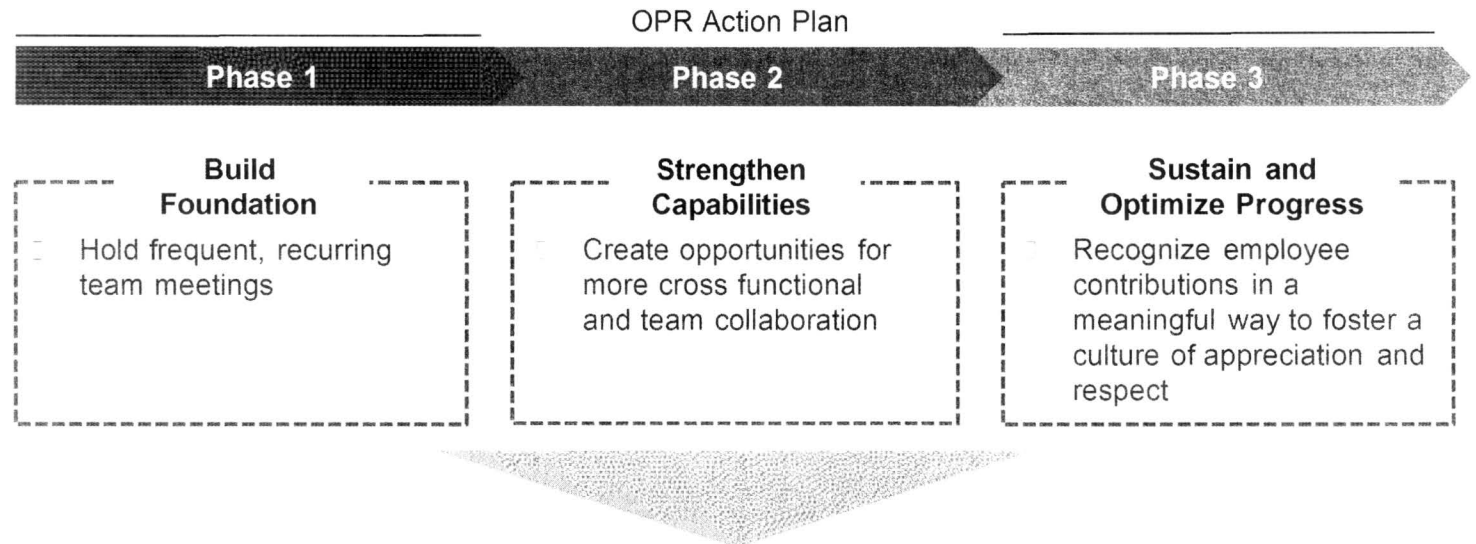

## Future State

"OPR will provide tax practitioners and customers with quality, efficient and appropriate case outcomes by identifying quality, relevant OPR brand-aligned cases and by empowering staff with appropriate decision rights and consistent approaches to cases."

# Foster an Engaging Workplace

**Current State:** There is a lack of collaboration, team cohesion, knowledge sharing, open two-way communication, and a culture of top-down and peer-to-peer recognition.

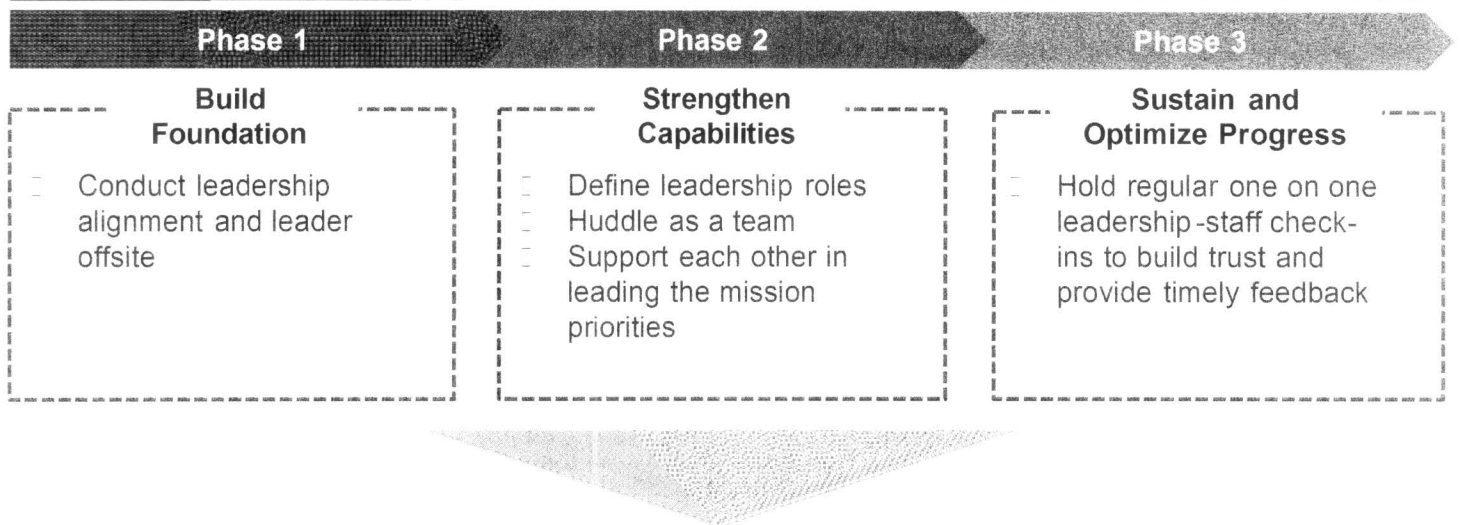

**Future State**

"OPR will foster an engaging workplace by providing opportunities for all employees to collaborate by recognizing their accomplishments and by investing in their individual growth and development."

# Leadership Alignment

**Current State:** There is a lack of strategic guidance, communication, recognition and team collaboration across OPR, which negatively impacts morale and productivity.

## OPR Action Plan

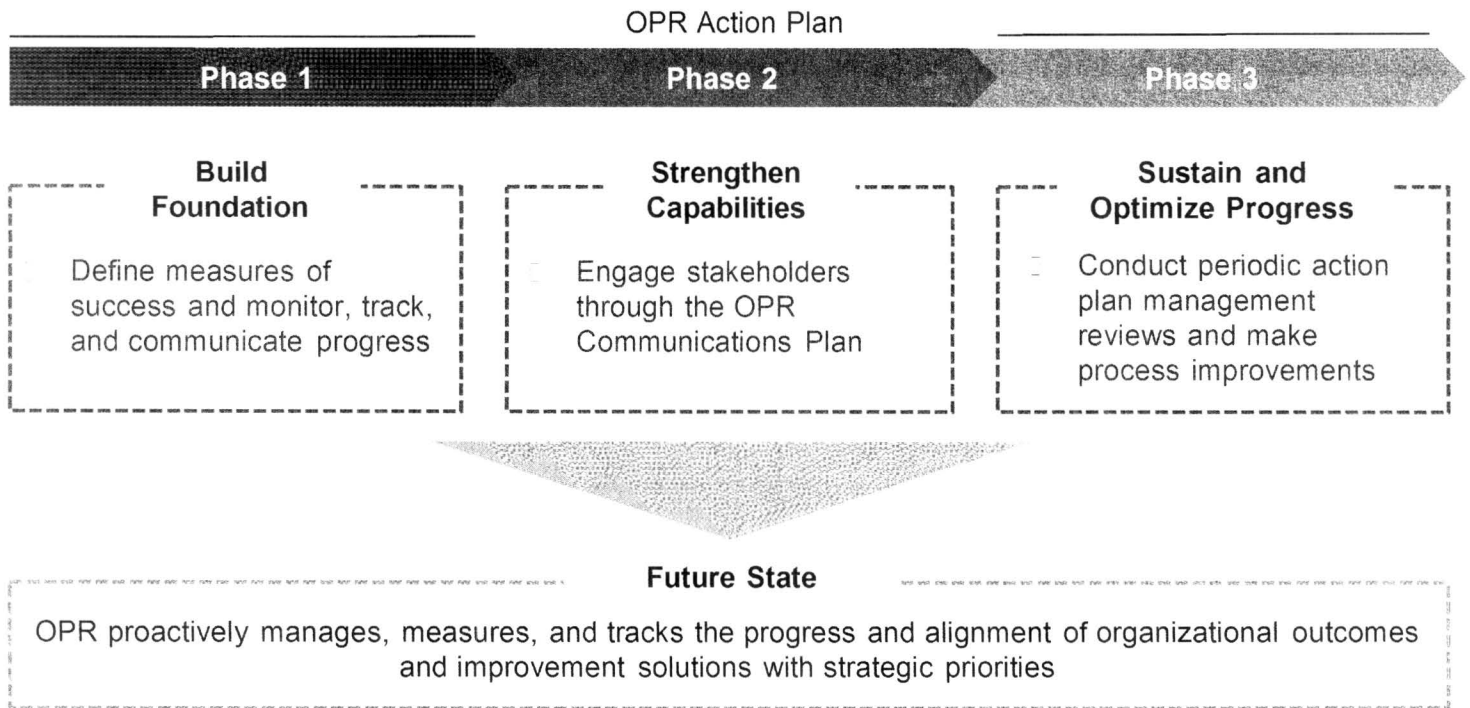

## Future State

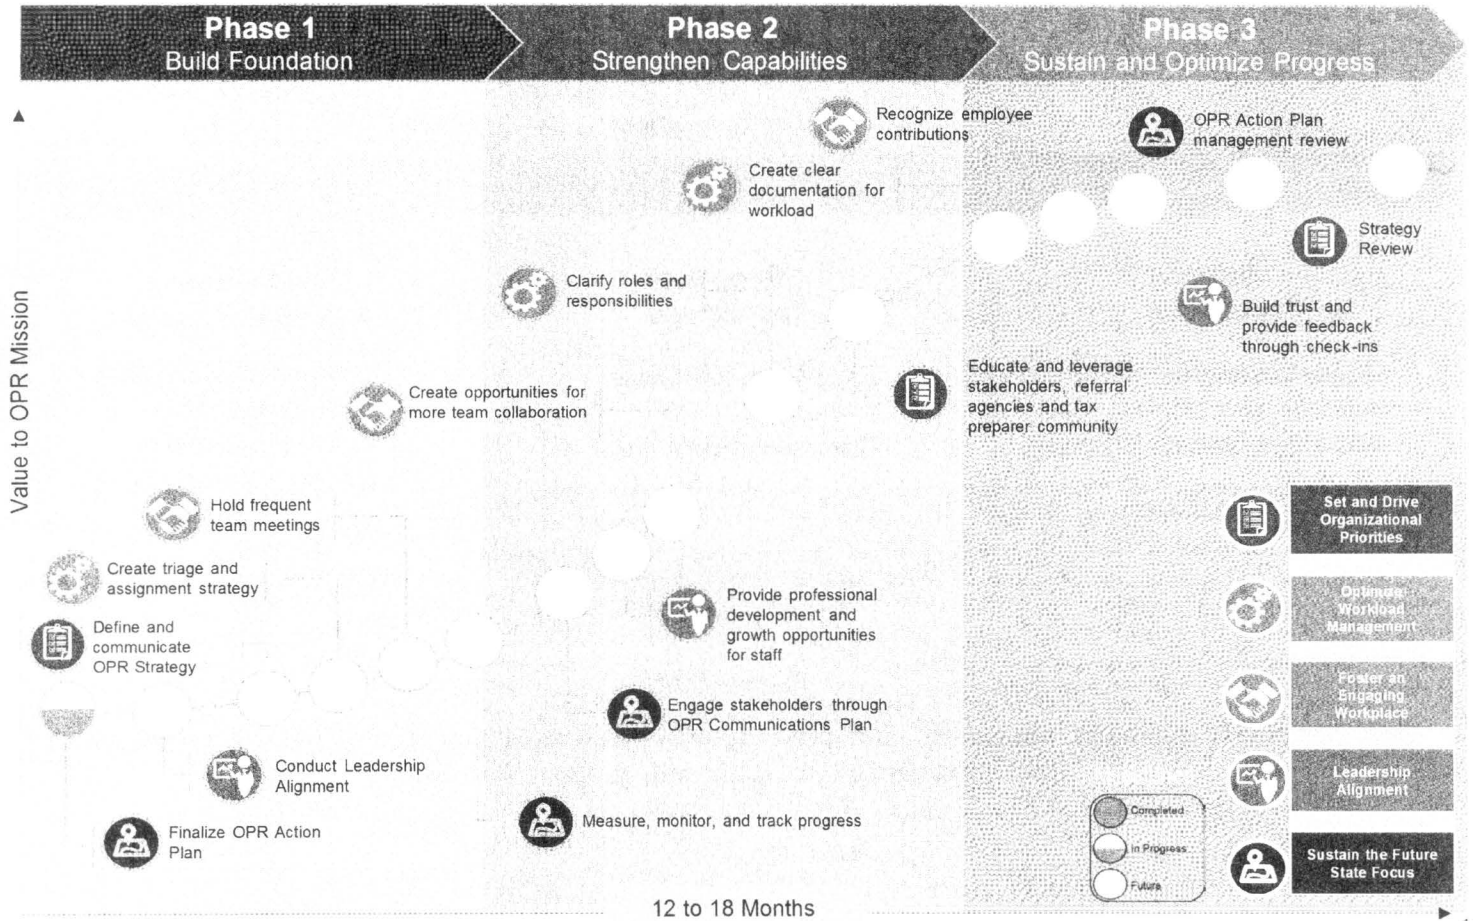

OPR leadership fosters an empowered, engaged, efficient, and respected workforce driven by open communication, timely feedback, recognition, and trust.

## Sustain the Future State Focus

**Current State:** OPR lacks a formalized program management function to manage implementation of the action plan.

# The OPR Transformation Roadmap

## Key Considerations for Action Plan Execution

In executing the action plan, OPR should take the following elements into consideration for effective achievement of the future state.

### Leadership Guidance and Transparency

The OPR Director and Managers must help to promote and lead organizational change while continually updating on the progress, so that staff and other stakeholders are informed and aligned.

### Stakeholder Buy-In

All organizational changes require buy-in from OPR stakeholders across multiple divisions in order to be as effective as possible.

### Measures of Success

- Increased retention of top performers, participation in professional development and training, and positive responses to pulse surveys and FEVS.
- Streamlined case management process that produces more efficient and effective outcomes
- Increased number of website visits and listserv registration; more interaction with OPR's published content
- Increased number of quality referrals
- Increased quality and timeliness of closed cases

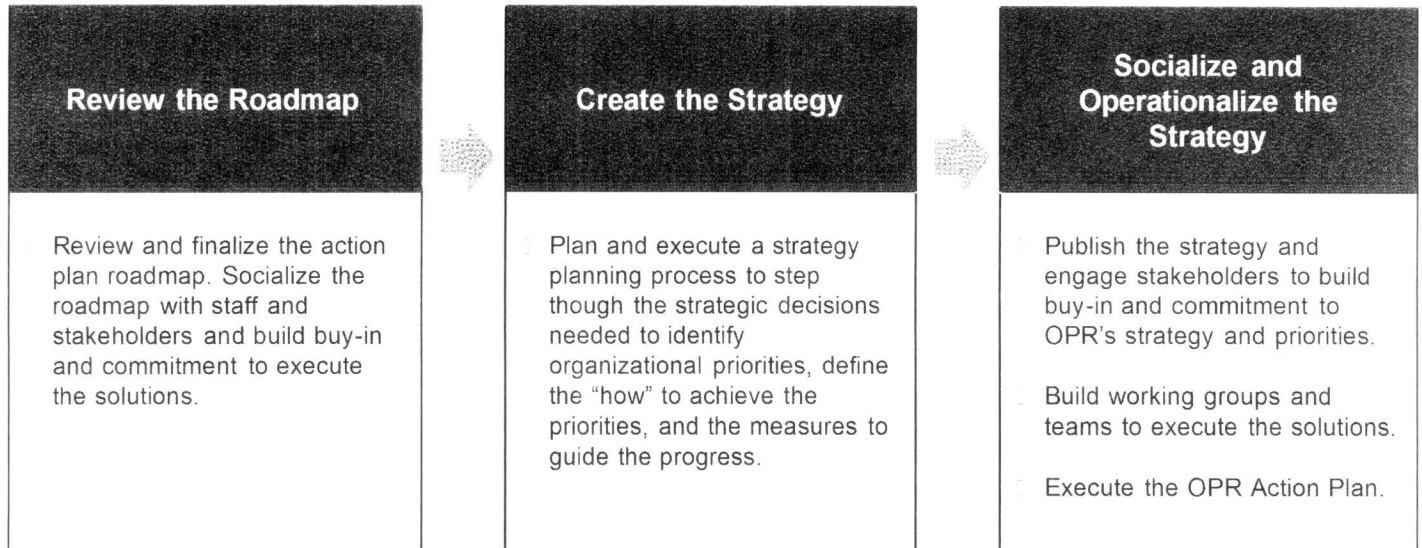

### Continued Monitoring and Evaluation

The OPR Action Plan should be monitored for effectiveness and alignment to OPR priorities and may need to change based on stakeholder feedback and effectiveness. Additional priority recommendations may also become relevant as the program progresses.

## Summary and Next Steps

The roadmap provides both a strategic and operational perspective on how OPR should move forward to build the foundation, strengthen capabilities, and sustain and optimize progress towards the future state.

### Let's get started...
