Re: FOIA Request No. F-00229-16 First Interim Response

For your information, Congress excluded three (3) discrete categories of law enforcement and national security records from the FOIA. See 5 U.S.C. § 552(c) (2006 & Supp. IV (2010)). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all of our requesters and should not be construed as an indication that excluded records do, or do not, exist.

This first interim response covers the following items of your request:

4) Redacted Name, opened December 13, 2013, closed March 7, 2014;

13) USAID/Acted Program, opened June 21, 2010, closed July 17, 2014;

USAID conducted a comprehensive search of the Office of the Inspector General (OIG) for documents responsive to your request. The search produced a total of 22 pages. We have determined that all 22 pages are partially releasable pursuant to Title 5 U.S.C. § 552 (b)(6), (b)(7)(C), (b)(7)(D), and (b)(7)(E).

FOIA Exemption 6 exempts from disclosure information about individuals in personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. In this instance, the release of such information could subject the individuals to threats, intimidation, harassment, and/or violence. For these reasons, any private interest you may have in this information does not factor into the aforementioned balancing test. Within the records we withheld names, personal cellphone numbers, signatures, personal identifiers, and OIG case numbers.

FOIA Exemption 7(C) protects records or information compiled for law enforcement purposes that could reasonably be expected to constitute an unwarranted invasion of personal privacy. This exemption takes particular note of the strong interests of individuals, whether they are suspects, witnesses, or investigators, in not being unwarrantably associated with alleged wrongdoing/criminal activity. That interest extends to persons who are not only the subjects of the investigation, but also to those who may have their privacy invaded by having their identities and information about them revealed in connection with an investigation. Based upon the traditional recognition of strong privacy interest in law enforcement records, categorical withholding of information that identifies third parties in law enforcement records is ordinarily appropriate. As such, we have determined that the privacy interest in the identities of individuals in the records you have requested clearly outweigh any minimal public interest in disclosure of the information. Please note that any private interest you may have in that information does not factor into this determination. Within the records we withheld OIG case numbers.

FOIA Exemption 7(D) protects records or information compiled for law enforcement purposes, the release of which could reasonably be expected to disclose the identities of confidential sources.

FOIA Exemption 7(E) protects records compiled for law enforcement purposes, the release of which could disclose techniques and/or procedures for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. We determined that disclosure of certain portions of the documents could reasonably be expected to risk circumvention of the law. Additionally, the techniques and procedures at issue are not well known to the public. Within the records we withheld OIG case numbers.

If you require any further assistance or would like to discuss any aspect of your request, you may contact Theresa Morris, the assigned FOIA Specialist by phone on (202) 712-0286 or at <u>thmorris@usaid.gov</u>. You may also contact USAID's FOIA Public Liaison, Claire Ehmann, at foia@usaid.gov.

Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services offered:

The investigation did not substantiate the allegation of kickbacks. However, the investigation uncovered a pricing markup of \$16,835 in one ACTED contract to Al-Rafal valued at \$199,869. Furthermore, the OIG was unable to verify two vendors who purportedly had competed for two ACTED contracts, totaling \$344,879, that were awarded to Al-Rafal.

Program (CAP) III. On 06/20/12,		e-mailed the OIG eight	
suspected fraudulent fuel receipts totalin	ng \$28,559.		

The OIG reviewed the eight receipts, which purportedly were from two Iraqi vendors: Oil Products Distribution Company (OPDC) and Atsahil Shop for Selling Oil and Petroleum Products (Atsahil Shop). Six OPDC receipts, all numbered 1150, were used to claim different fuel amounts. From the six receipts, only one showed a purchase date. Two Atsahil Shop receipts, both numbered 00043, claimed fuel expenses for two different dates.

The OIG obtained information on the fuel receipts from ACDI/VOCA. ACDI/VOCA claimed that the fuel used for generators was paid in cash directly to an OPDC truck driver, and the truck driver issued a temporary receipt to confirm receiving payment and delivering fuel. ACDI/VOCA was supposed to obtain a final receipt from OPDC's main office, but this process was not followed, so the truck driver's temporary receipts were used as final receipts. ACDI/VOCA's explanation of the duplicate numbered Atsahil Shop receipts was that the company manually added a serial number on receipts and accidentally repeated the same number.

The OIG attempted to co	ontact OPDC and Atsahil Shop, bu	t was unsuccessful. OIG/Au

involving temporary receipts, and stated that someone from the operations department had gone to OPDC to obtain final receipts from the temporary receipts.

On 10/12/12, the OIG reviewed e-mails concerning Atsahil Shop fuel receipts. The review showed an inconsistency with dates, business stamps, and numbers listed on receipts. For example, one fuel receipt numbered as 00043 listed a fuel purchase for 1,881,200 dinars on 12/28/09. Another fuel receipt (also) numbered 00043 listed a fuel purchase for 1,988,750 dinars on 01/27/10. (Attachment 5, IAR-RR of e-mails, 10/12/12)

On 02/12/13, OIG/Audit issued an audit report on ACDI/VOCA's incurred costs for CAP III, for the period of 10/01/08 to 09/30/10. ACDI/VOCA claimed for security reasons it had accepted fuel receipts under third party names to avoid identifying ACDI/VOCA as an American organization. The audit questioned \$46,422 in unsupported fuel costs. (Attachment 6, Audit Report No. 6-267-13-015-N, 02/12/13)

On 03/07/13, USAID/Iraq issued a bill of collection for \$46,422 to ACDI/VOCA. (Attachment 7, USAID/Iraq Bill of Collection to ACDI/VOCA for \$46,422, 03/07/13)

For your information, Congress excluded three (3) discrete categories of law enforcement and national security records from the FOIA. See 5 U.S.C. § 552(c) (2006 & Supp. IV (2010)). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all of our requesters and should not be construed as an indication that excluded records do, or do not, exist.

USAID conducted a comprehensive search of the Office of the Inspector General (OIG) for documents responsive to your request. The search produced a total of 90 pages. We have determined that all 90 pages are partially releasable pursuant to Title 5 U.S.C. § 552(b)(3), (b)(6), (b)(7)(C), (b)(7)(D), and (b)(7)(E).

FOIA Exemption 3 protects information specifically exempted from disclosure by another statute, if the statute (A) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (B) established particular criteria for withholding or refers to particular types of matters to be withheld. The applicable statute is 5 U.S.C. app. 3 § 7(b), which states that "The Inspector General shall not, after receipt of a complaint or information from an employee, disclose the identity of the employee without the consent of the employee, unless the Inspector General determines such disclosure is unavoidable during the course of the investigation." This statute leaves the agency with no discretion, therefore this information must be withheld under subsection (b)(3) of the FOIA.

FOIA Exemption 6 exempts from disclosure information about individuals in personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. In this instance, the release of such information could subject the individuals to threats, intimidation, harassment, and/or violence. For these reasons, any private interest you may have in this information does not factor into the aforementioned balancing test. Within the records we withheld names, personal cellphone numbers, signatures, personal identifiers, and OIG case numbers.

FOIA Exemption 7(C) protects records or information compiled for law enforcement purposes that could reasonably be expected to constitute an unwarranted invasion of personal privacy. This exemption takes particular note of the strong interests of individuals, whether they are suspects, witnesses, or investigators, in not being unwarrantably associated with alleged wrongdoing/criminal activity. That interest extends to persons who are not only the subjects of the investigation, but also to those who may have their privacy invaded by having their identities and information about them revealed in connection with an investigation. Based upon the traditional recognition of strong privacy interest in law enforcement records, categorical withholding of information that identifies third parties in law enforcement records is ordinarily appropriate. As such, we have determined that the privacy interest in the identities of individuals in the records you have requested clearly outweigh any minimal public interest in disclosure of the information. Please note that any private interest you may have in that information does not factor into this determination. Within the records we withheld OIG case numbers.

FOIA Exemption 7(D) protects records or information compiled for law enforcement purposes, the release of which could reasonably be expected to disclose the identities of confidential sources.

FOIA Exemption 7(E) protects records compiled for law enforcement purposes, the release of which could disclose techniques and/or procedures for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. We determined that disclosure of certain portions of the documents could reasonably be expected to risk circumvention of the law. Additionally, the techniques and procedures at issue are not well known to the public. Within the records we withheld OIG case numbers.

If you require any further assistance or would like to discuss any aspect of your request, you may contact Theresa Morris, the assigned FOIA Specialist by phone on (202) 712-0286 or at <u>thmorris@usaid.gov</u>. PWC auditors noted situations/transactions in which fraud or illegal actions were likely to have (b)(6);(b)(7)(C) occurred. A significant portion of these transactions concerned payments made to Good Time Travel. EASDD paid more than a million Egyptian Pounds (approximately \$160,000), which is almost one third of the entire grant, to Good Time. There was no bidding or price offers obtained for the selection of the travel agency. | was concerned why EASDD would award such a large sub-contract to a travel agency that was supposed to be responsible for just public relations and training events in over 25 governorates. No invoices were provided for any of Good Time's claimed expenses for hotel lodging and meeting spaces, food, and transportation. (b)(6);(b)(7)(C) The contract called for a fixed amount based on 100 attendees regardless if only 40 or 50 trainees (b)(6):(b)(7)(C) to believe Good Time was inflating rates and claiming amounts actually attended. (b)(6);(b)(7)(C)	REPORT OF INVESTIGATION	(b)(6);(b)(7)(C);(b )(7)(E)
	Case Title: et al Case Number:	
	Period of Investigation: 03/28/2012 to 07/06/2012 OIG/I Office: Pretoria	(b)(6);(b)(7)(C);(b )(7)(D)
(b)(6);(b)(7)(C);(b )(7)(D)	Synopsis:	
	On March 28, 2012, the Office of Inspector General received an allegation from for John Snow Inc. (JSI), regarding false hotel receipts submitted by JSI employees for travel throughout Tanzania.	
	Through a routine internal audit of expense reports submitted by local staff in Tanzania, JSI noted discrepancies between the amounts some staff claimed as lodging reimbursement compared to the confirmed hotel rates. During the period under review, 88 expense reports from 41 different employees contained charges from seven different hotels for which rates claimed did not align with the confirmed rate schedules for the hotels. JSI managers spoke to one hotel manager who pointed out clear differences between the receipts submitted by JSI staff and actual hotel receipts.	
(b)(6);(b)(7)(C)	The OIG investigation confirmed that 49 JSI employees and one USAID/Tanzania employee each submitted at least one false hotel receipt - and some employees up to seven false hotel receipts - during a five-month period. The investigation also confirmed that one hotel, Golden Crown Hotel, was involved in the preparation and selling of false hotel receipts. Another hotel with questioned receipts, Oasis Hotel, was uncooperative with the investigation; its issues with fake receipts remain unresolved. The fraudulent receipts amount to approximately \$25,000.	(b)(6);(b)(7)(C)
(b)(6);(b)(7)(C)	The LISA ID/Tenzenia employee matter was referred to USAID/Tanzania The 49 JSI employees and two hotels were referred to the USAID/OAA/Compliance Division for possible debarment or suspension. To date, 14	(b)(6);(b)(7)(C)
	JSI employees are no longer employed by JSI due to the investigation and ISI is crediting the fraudulent funds to LISAID. The matter was also referred to	
	Tanzania.	(b)(6),(b)(7)(C)

	On March 28 2012 the OIG received a letter from	
	for JSI stated that JSI became aware	
	of potential fraud in its program in Tanzania. Through a routine internal audit, JSI noted	
	discrepancies between the amounts some staff claimed as lodging reimbursement	
	compared to the confirmed hotel rates. Further analysis of the period from October 2011	
	through February 2012 revealed a pattern of such deviations. During the period under	
	review, 88 expense reports from 41 different employees contained charges from seven	
	different hotels for which rates claimed did not align with the confirmed rate schedules	
	for the hotels. JSI managers spoke to one hotel manager who pointed out clear	(b)(6);(b)(7)(C)
(b)(6);(b)(7)(C)	differences between the receipts submitted by JSI staff and actual hotel receipts.

(b)(6);(b)(7)(C)	On April 12. 2012. the OIG interviewed JSI	
(b)(6);(b)(7)(C)	stated that all of the voucher packages with the suspicious hotel	(b)(6);(b)(7)(C)
	receipts are kept off site in Dar Es Salaam. Three people in the Tanzania office are fully aware of the issue:	
	There were three resignations in the past week and a half: an	
	and two technical people. (Attachment 2, Memorandum of Interview, dated	
	04/12/2012)	

On April 26, 2012, the OIG reviewed documents obtained from JSI. JSI sent copies of several actual hotel receipts that JSI received when meeting with hotel managers as well as copies of a few suspect receipts submitted by JSI employees. JSI management visited St. Gaspar Hotel, Munich Hotel, and Golden Crown Hotel. JSI also sent a list of those staff who submitted allegedly fake hotel receipts. The list includes 42 employees out of a total of 108 employees in Tanzania. (Attachment 3, Record Review – Initial Docs, dated 04/26/12)

On April 30, 2012, the OIG obtained and reviewed travel voucher packages submitted by JSI employees and a summary document prepared by JSI. The summary included a list of travel voucher numbers with the names of the JSI employees who submitted the suspicious hotel receipts arranged by voucher number and hotel. There were 53 voucher packages, which included 88 receipts from seven hotels. Some voucher packages had more than one hotel receipt. The hotel receipts are all from the five-month period of October 2011 through February 2012. For each hotel, the OIG compared the receipts, looking at the overall layout of the receipt, the receipt numbering, the names, amounts, signatures, dates, and other identifying details. There were ten receipts from Oasis Hotel, seven from Morogoro Hotel, 23 from Hilux Hotel, four from Golden Crown Hotel, eight from St. Gaspar Hotel, 28 from Munich Hotel, and eight from Lush Garden Hotel. There were several discrepancies noted among the hotel receipts. (Attachment 4, Record Review – Voucher Packages, dated 04/30/12)

On May 23, 2012, the OIG reviewed additional documents received from JSI. These included a list of the addresses of the suspected JSI staff and an additional voucher package, number 59, related to JSI employed The hotel receipt in this package was from Hilux Hotel and did not resemble the actual receipt from the hotel. (Attachment 29 - Record Review - Additional JSI Docs 1, dated 05/23/12)

On May 24, 2012, the OIG summarized the JSI voucher packages submitted by the employees including the suspect hotel receipts and compared them to the real receipts for each employee. Eighteen JSI employees submitted a hotel receipt for which the hotel provided the real receipt and the two did not match. There were 32 JSI employees who submitted hotel receipts which did not resemble the actual hotel receipts, but because the receipt number was not from the hotel's actual numbering system, there would be no real hotel receipt to compare to. There were 17 JSI employees who submitted receipts from Golden Crown Hotel. The receipts are real, but the amounts are higher than the highest rate and there are not enough suites to accommodate all of the employees on the dates of

the receipts. In sum, 49 employees submitted at least one false hotel receipt. (Attachment 30 – Record Review – Summary of Employees and False Receipts, dated 05/24/12)

On June 28, 2012, the OIG reviewed additional voucher packages received from JSI that supported the names already included in the Record Review – Summary of Employees and False Receipts. There were 15 packages that are numbered as voucher package 54 through 70. (Attachment 31 – Record Review – Additional Voucher Packages, dated 06/28/12)

On June 29, 2012, the OIG reviewed information received from JSI regarding JSI employee disciplinary actions. JSI stated that, as of June 28, 2012, 14 employees either resigned or were terminated as a result of the investigation. Eleven employees resigned once disciplinary actions had been started, two employees resigned prior to disciplinary actions being started, and one employee was terminated. JSI is not able to pursue disciplinary actions on other employees until they receive the evidence to support the disciplinary actions. JSI is also in the process of crediting USAID for the costs that JSI believes were fraudulent. (Attachment 32 – Record Review – Additional JSI Docs 2, dated 06/29/12)

On July 27, 2012, the OIG summarized the dollar amount relating to the fraudulent hotel receipts submitted to JSI and included in the voucher packages reviewed. The fraud amounts to approximately \$25,000. (Attachment 33 – Summary of fraudulent hotel receipts, dated 07/27/12)

## **REPORT OF INVESTIGATION**

Case Title:	Social Investment Fund for Local Development (FISDL)
Case Number:	
Status:	Closed
Period of Investigation:	09/05/13-01/09/14
OIG/I Office:	San Salvador, El Salvador

#### Synopsis:

This investigation was predicated on information received regarding mismanagement of funds on a \$27 million limited scope grant agreement known as Mitigating the Effects of the Global Financial Crisis Project (Activity No. 519-0462). The OIG was informed that several local media sources reported that the Government of El Salvador (GOES) redirected program funds to organized gangs in El Salvador in an effort to support a nationwide gang truce. The affected component of the program was known as the Temporary Income Support Program (PATI), one of two components of the limited scope grant agreement. The PATI program was implemented by the GOES through its development agency known as the Social Investment Fund for Local Development (FISDL). The limited scope grant agreement was signed by USAID and the GOES on 03/16/10.

At the time of the allegation, the PATI program was in the seventh and final program cycle known as calls. The first six calls targeted eleven rural municipalities that were affected by flooding caused by Tropical Storm Ida in 2009. The seventh call of the program included six rural municipalities and six urban municipalities considered high crime/high poverty communities.

(b)(6);(b)(7)(C)

(b)(6);(b)(7)(C);(b )(7)(E)

The OIG did not find evidence to suggest that the PATI program was utilized to directly benefit gangs in the rural municipalities in any of the seven program calls. However, several GOES officials, including the and the formed the OIG that the GOES used the PATI program to directly benefit gangs in Ilopango

and other urban high crime/high poverty municipalities included in the seventh call of the PATI program. The said FISDL allowed gang leaders to choose PATI beneficiaries and that both major gangs received an equal amount of PATI slots to include gang members and their families. also stated that the PATI program was implemented successfully in Ilopango but the program was solely funded by the GOES because USAID terminated funding in all the urban municipalities.

The OIG also discovered a video recording of a meeting between GOES officials and leaders of the MS-13 and MS-18 gangs in Ilopango. In the video, a person identified as a FISDL official informed gang representatives in Ilopango of their respective gang's participation in the PATI program and that the PATI program in Ilopango was specifically for the benefit of the gangs.

The OIG confirmed that USAID/El Salvador did not disburse PATI funds for the municipality of Ilopango or any other urban, high crime/high poverty municipalities included on the seventh call of the PATI program.

### **Details of Investigation:**

On 09/05/13, the OIG interviewed PATI's who stated that the limited scope grant agreement was awarded directly to the GOES and implemented by FISDL. The purpose of the PATI program was to provide \$100 monthly stipends and 80 hours of vocational training for a six-month period to impoverished populations living in targeted municipalities in exchange for community based work. The program was implemented through six month cycles known as "calls." The first six calls of the program targeted eleven rural municipalities that were affected by flooding caused by Tropical Storm Ida in 2009. The seventh and final call of the PATI program included six rural municipalities and six urban high poverty/crime municipalities.

On 09/12/13, the OIG reviewed a local newspaper article from La Prensa Grafica. The article reported that approximately 750 gang members from the municipalities of Ilopango and Quezaltepeque were receiving PATI program funds. The article explained that mayors of the involved municipalities said that PATI funds were distributed evenly to the two main gangs in the country. On 09/12/13, the OIG reviewed a local newspaper article from El Faro. The article stated that on 06/19/13, FISDL and Ilopango municipality officials held a meeting with gang leaders from MS-13 and MS-18 to make a final decision on the 400 beneficiaries in Ilopango to receive PATI funds. The article stated that everyone in FISDL and the mayor's office in Ilopango knew that the PATI program in Ilopango was directed to the gangs and that 200 slots were reserved for each gang. (Attachment 3 – LAR: Record Review, El Faro Newspaper Article, dated 11/13/13)

On 09/23/13, the OIG interviewed FISDL PAT who stated (b)(6);(b)(7)(C) that the municipalities were responsible for selecting and vetting PATI participants. In order to (b)(6);(b)(7)(C) become a PATI beneficiary, each participant had to meet the following criteria: 1) over 16 years old, 2) unemployed, 3) not enrolled in a formal educational system, and 4) reside in the community at least six months. did not know why the mayors from the municipalities of (b)(6);(b)(7)(C) Ilopango and Quezaltepeque told the press that PATI funds were distributed to gangs. could not confirm the information because the municipalities were responsible for the selection of the beneficiaries. FISDL did not object to the selection of participants as long as the participant met the selection criteria established by the program. member met the selection criteria and the PATI program was executed in poverty-stricken (b)(6);(b)(7)(C) communities with a high crime rate, thus it was possible that some participants of the program belonged to criminal gangs. (b)(6);(b)(7)(C) stated that and other representatives from FISDL attended a meeting with the mayor, (b)(6);(b)(7)(C) of llopango and members of the community (as mentioned in El Faro's newspaper article), but FISDL could not determine if the community members present represented any gangs. did (b)(6);(b)(7)(C) not remember anyone discussing the selection process of gang members during the meeting. (Attachment 4 – LAR: Interview o dated 09/23/13) On 09/24/13, the OIG interviewed KPMG - El Salvador who stated (b)(6);(b)(7)(C) that KPMG provided monitoring and evaluation (M&E) services for the PATI program. USAID did not disburse any funds for the six urban municipalities included in the seventh call of the program; KPMG did not collect any information or conduct any M&E services for the urban communities. (Attachment 5 – IAR: Interview of dated 09/25/13)

On 11/13/13, the OIG reviewed USAID's report of its internal review of the allegations of PATI funds mismanaged by FISDL. The report concluded that due to the media allegations, FISDL's failure to address USAID's concerns, and the fact that the program criteria was not consistently followed in the urban municipalities, mission staff recommended that USAID/El Salvador management terminate financial support for the six urban municipalities under the seventh call of the program. The report concluded that no USAID funds were used to support PATI activities in the six urban municipalities. On 11/13/2013, the OIG reviewed USAID/El Salvador implementation letter No. 12 which officially informed the GOES that the six urban municipalities were excluded from USAID/PATI funds. (Attachment 7 – IAR: Record Review, USAID Implementation Letter Number 12, dated 11/13/13)

On 11/20/13, the OIG searched the U.S. Department of Treasury, Office of Foreign Assets and Control (OFAC), Specially Designated Nationals and Blocked Persons List (SDN) database and verified that the Salvadoran gang known as Mara Salvatrucha (MS-13) was currently listed. According to OFAC, MS-13 was sanctioned on 10/11/12 for its involvement in serious transnational criminal activities. Organizations listed on the SDN database are subject to Executive Order 13581 which prohibits U.S. entities or persons from engaging in transactions (to include contributions of funds, goods, or services) with MS-13. (Attachment 8 – LAR: Record Review, OFAC SDN List, dated 11/20/13)

On 11/26/13, the OIG re-interviewed KPMG/El Salvado stated that KPMG conducted monthly field visits to oversee the implementation of the PATI program including six rural municipalities for PATI's seventh call. The field visits were coordinated with the municipalities and FISDL. KPMG did not conduct surprise visits because of logistics and security concerns. However, KPMG's inspection team did not give prior notification of what projects or vocational training courses to inspect until the day of the inspection. KPMG had not encountered indications of wrongdoing in the PATI program. (Attachment 9– IAR: Interview of Lated 11/26/13)

## **Rural Municipalities**:

On 12/11/13, the OIG interviewed ATI for the Santiago de Nonualco rural municipality. stated the Santiago Nonualco municipality participated in all seven PATI calls and had over 4,000 participants. PATI was very important and beneficial to the community because it produced self-sustaining small businesses and entrepreneurs and lowered crime in the area. The municipality had a very good working relationship with FISDL who visited the municipality once per week to enquire about PATI.

Santiago Nonualco is a high crime area where gang activity is prevalent. pelieved that approximately five percent of PATI participants were gang members belonging to either MS-13 or MS-18. The gang members included in the program participated fully in PATI's projects and training courses. They were chosen because they applied for the program and they met the program's selection criteria. The municipality was never pressured by gang leaders to select any of their members. (Attachment 10 – IAR: Interview of dated 12/11/13)

On 12/11/13, the OIG accompanied a KPMG M&E officer to three PATI projects implemented in the Santiago Nonualco municipality. The OIG was able to verify the projects' existence and the attendance of most of the participants. The OIG observed that the participants contained an

	reduce the country's murder rate. Another objective of the initiative was to further educate and
