Being charged for an early termination fee on a contract that doesn't exist. I have all my original paperwork, no 24 month term on the phone plan. On their website, I had no contracts (only an IBA on an ipad, completely unrelated).

I have now spent 15+ hours trying to fix this. I have been without service for 6 days (healthcare provider during the pandemic). I finally went and bought a brand new phone.... can't port my number over.

Ticket: # 3946633 - Cox Communications Will Not Disconnect Service**Date:** 4/25/2020 11:44:09 AM**City/State/Zip:** Newport News, Virginia 23606**Company Complaining About:** Cox

Description

I moved out of a house one month ago and have been attempting to disconnect service. When I call, it becomes an run around a transfers to different departments and an eventual telephone hang up. Collections will say Billing has to solve it. Billing will say Disconnections will solve it. Disconnections says that collections will solve it. Because of the mandatory COVID19 shutdowns in VA, I cannot go to a store to disconnect and I can't turn in my equipment. They are still charging me and threatening to put this on my credit for collections. They offered to reinstate my service to keep this from posting to my credit report.

Ticket: # 3946730 - Xfinity claims 30 days no Solution

Date: 4/25/2020 1:26:05 PM

City/State/Zip: Richmond, Texas 77407

Company Complaining About: Comcast

Description

Almost 30 days ago, a phone was stolen/lost by FedEx. This was an online order from Xfinity Mobile. After paying nearly \$400, not including accessories, we have yet to get a supervisor on the phone to address this issue. My husband and I are both essential workers and our cellular phones aren't charging anymore. I've asked for a refund and haven't received a solution. During Covid-19, not being able to reach family members is detrimental to our lives. We have not received 1 phone call, 1 email or any other correspondence in almost 30 days.

Ticket: # 3946747 - Cable Bill

Date: 4/25/2020 1:38:32 PM

City/State/Zip: Lake Charles, Louisiana 70601

Company Complaining About: Sudden Link

Description

I want my cable bill and my wifi bill as 2 separate statements. Many customers use different companies for wifi and phone service. I should have that same right too. This is extortion to force me to use only their company. I issued 2 separate checks for their services and my bank has those records. They were that way before and all of a sudden Suddenlink put my bills back together to extort me and refuses to separate my bills or put them back like they were. They are extortionists. The mob extortionists. The mob operates this way, not a company. I want to file a complaint on the last foreigner speaking to me. She was rude. I waited an entire hour to hear her lie to me. I won't be forced to accept this kind of treatment anymore. They can be rude to you and lie to your face. If you ask for a supervisor, it is a discussion. It is my money, not theirs. I do not want to wait an entire and then be extorted. I did not ask to be bundled and do not want to be bundled. This company is not working with anyone during this pandemic. Our hours have been cut which means our budget has been cut. This company needs to be fined the way they treat their long term customers. No one should have to endure rudeness when I am under the care of a medical doctor and a psychiatrist. They are damaging my health. When we split this bill, it forces this company to treat you fairly. They separate the white people's bills so I want my bill back separated. I should not be coerced into knuckling under just to please this sad company. From this day forward, I do not want to speak to any foreign speaking agents. They don't understand English and they lie too much

I waited a whole hour to be hung up on. When I ask for another agent, they refuse. I have a right to speak to someone I can understand the language with. No customer should have to wait an entire hour to be hung up on by someone who lies and say they feel insulted. If you slightly raise your voice because you know they are lying to you, they just make up an excuse or state a false claim to hang up on you. This is a racist company, rude. This company has no customer service at all. Who makes a customer wait an entire hour before they take their call. They were having extended wait time before the virus. Do not let them lie to you. This is extortion if I don't like how you say something I just hang up on you. That's like being held hostage against my will. I want 2 separate bills. I did not ask to be bundled. Some people only has wi fi so what is the big difference. Separating your billing statements gives me excellent customer service. End this extortion game now. Separate my bills. I do not want to be bundled. My internet goes out several times per day and that is also frustrating.

Ticket: # 3946750 - bill dunning/Verizon

Date: 4/25/2020 1:42:14 PM

City/State/Zip: New York, New York 10019

Company Complaining About: Verizon

Description

I complained previously. I am handicapped and 79 years, visually hearing and wheelchair bound. I receive a SS check on the third Wednesday of the month and we have our bills on bill pay from the bank. We pay faithfully and on time if you are a few days late Verizon starts harassing you. Because of covid19 my aide who helps and oversees the bills was not at work. Verizon started in harassing with phone calls and texts, an inordinate amount of reminders during a pandemic. Can they ever stop it . it is disgusting and annoying. I hope you can stop them

Ticket: # 3946862 - billing

City/State/Zip: Miami, Florida 33190

Company Complaining About: T Mobile

Description

Tmobile been wating for 4 months for final bill and still waitting left carrier on 1-10-2020 ive been wait deligentliy for four months and still no final bill tmobile states that the bill and account has not been canceled and ive called them on 1-18-2- 2-18-20 3-18-20 and 4-18-20 and they state that the account has not been terminated but i keep getting letter sayin that the account is still active with aballanve of almost 1,154.00 this poor customer service and the account is putting my credit score and fico score in anegative with all this covid19 i as a customer have done and adquetly done my rsoinsiblity and tmobile keep saying that it not their fault please get with them and have this rectifed and corrected this has become a nervous wreck and over bareing and poor service on their part.

Ticket: # 3946901 - No Avenue of Reasonable Communication**Date:** 4/25/2020 4:12:11 PM**City/State/Zip:** Grayson, Kentucky 41143**Company Complaining About:** Sudden Link

Description

I've tried contacting my ISP (Suddenlink) Multiple Times over the last week to resolve an on-going issue with my service that I've experience for the last month or so. I understand with the pandemic that some systems are up in the air, but I've only been able to get in direct contact with a representative once after a dozen + phone calls. Every instance I've been put on hold for 2+ hours, and any attempt to use the "Call-back" feature leads to me being hung up on while waiting to connect to a representative. I've tried their online chat only to be met with the response that the only way to get the service I need is through their call-center.

Ticket: # 3946936 - Unwanted Solicitation Phone Calls

Date: 4/25/2020 4:37:05 PM

City/State/Zip: Oakland, California 94611

Company Complaining About: Prophet Manessah Jordan

Description

Receiving calls from Prophet Manessah Jordan soliciting money to solve my problems. Number given at end of call to remove our number from their call list has been disconnected. That number is 800-729-5169. We removed our name from his list once before but he started calling again in last 30 days since Covid19 crisis became feature news.

Ticket: # 3946957 - Xfinity over billed in Dec., no refund yet

Date: 4/25/2020 5:04:34 PM

City/State/Zip: Lakewood, Colorado 80232

Company Complaining About: Comcast

Description

Cancelled service early Dec after asking when year contract was up. Was billed in Jan, despise service shut off and 0 balance. Called Jan, Feb, March and told I'd have it in 8-10 business days. Still no refund. Got COVID excuse in March, reminded agent I'd been calling since Jan.

Ticket: # 3947002 - Equipment Charge**Date:** 4/25/2020 6:11:48 PM**City/State/Zip:** Haughton, Louisiana 71037**Company Complaining About:** AT&T

Description

I have moved to another city and my ATT internet modem has been in storage. I cancelled my phone and internet service with ATT January 20, 2020. I called ATT on many occasions, all of which I have documented, about the charge for the modem. Each time I get a different answer. I was told on April 14th that I was given an extension until September 2020 to pay the balance due of \$140.00. I explained that I don't have a job due to the COVID 19 virus and I cannot afford to pay this high balance for a piece of equipment. I was told by Amber, the representative, that I could call in and make payments, and I had until September to pay in full. Today I received a final notice from ATT saying the balance is due in full or I will be sent to collections. I called ATT, I had a lengthy with Tammy in collections on April 25th, explained my situation, of course there were no notes about an extension to pay on my account, and they were not willing to offer me any assistance. This outstanding balance is for a piece of equipment, not past due services. I have never been late with ATT and have been a loyal customer for over 12 years. Under these trying circumstances, I would think that a big corporation such as ATT would be willing to work with customers on equipment, and not just for phone or internet service. As soon as I am able, I will return the modem, but now I am pressured to pay this balance of \$140.00 This is a lot of money when YOU ARE NOT WORKING!! If I get turned over to collections for a piece of equipment, I will fight this to the end. They are taking food off my table during these difficult times. I will pay what I can, but I will never give my hard earned money to this gigantic money hoarding company again. I would like to file a complaint about making someone pay a balance for equipment, which is worthless to me, I am not using, and it will be sent back. I understand that I owe the charge, the point is I was told I would get an extension to September to pay it and especially now, I need it. This is unfair business practices by this monopoly company.

Ticket: # 3947079 - This company does not care.

Date: 4/25/2020 8:09:25 PM

City/State/Zip: New Haven, Connecticut 06513-2338

Company Complaining About: Frontier Communications

Description

I am unable to work at home and unable to do video chat for my sons therapy on weekdays I'm getting so many different types of answers to why my internet is not working even being blamed because I supposedly have too many devices hooked on to my Wi-Fi I can't even use one device without this thing acting up this is ongoing even before this pandemic but I really need the Internet more than ever now it has become more essential in this household.

Ticket: # 3947084 - COVID 19

Date: 4/25/2020 8:22:34 PM

City/State/Zip: Glendale, Arizona 85306

Company Complaining About: Cox

Description

I want to file a complaint against Cox Communications and Century Link. Neither will enter my home to set up internet service, but I need internet to work from home. They are listed as an essential service and yet refuse to do their jobs. They will not provide protective equipment to their employees. This endangers everyone else because we cannot work from home without internet and, therefore, either have to go to work or risk losing our jobs. They should be required to continue service, just like electric utilities.

Ticket: # 3947105 - Impolite, rude and arrogant Technician

Date: 4/25/2020 8:59:16 PM

City/State/Zip: Sunnyvale, California 94087

Company Complaining About: Comcast

Description

Cannot have the job done. Impolite. Lied. Entered our house with shoes on without even asking if he should take off his shoes in COVID-19 situation! Called comcast and my phone call was kept getting transferred between departments without solve the issue after 2 hours phone call... Very very frustrated!

Ticket: # 3947138 - Spectrum Internet Charging Unnecessary / Unfair Fees**Date:** 4/25/2020 9:58:57 PM**City/State/Zip:** New York, New York 10002**Company Complaining About:** Spectrum

Description

Spectrum Internet in NYC is charging \$9.99 to "activate" WiFi service that has already been installed and setup. On top of this fee, they're charging another \$9.99 fee called "self-install fee". This means that they're charging me money to do the work myself. Absolutely insane and unfair. This is especially true because the account had already been setup months before. I turned it off due to COVID-19 and then had to turn it back on a month later and the fees just kept adding up.

Ticket: # 3947179 - Billing Issues during a Pandemic threatening to disconnect service

Date: 4/25/2020 11:31:24 PM

City/State/Zip: Westminster, Colorado 80021

Company Complaining About: Sprint

Description

Called in to make payment arrangements as me and my husband have been off due to Pandemic. Talked to 10 people 2 days in a row and they said zero your bill or be disconnected. We have been with Sprint 16 years and will be leaving as soon as all 6 of our lines contracts are up!

Ticket: # 3947180 - Slow speeds and buffering

Date: 4/25/2020 11:32:09 PM

City/State/Zip: Spencer, Indiana 47460

Company Complaining About: Hughes Net

Description

Hughesnet has unusable internet speeds with buffering. Issues were pre- pandemic. I was promised I was receiving the same internet that was used by the USA Army and large companies, including Walmart. I was told that the packaged I purchased I could stream videos and my husband could use for online college, which has not been true since day of installation.

Hughesnet demands a \$400 cancellation fee when they can not provide services that were promised.

[Ticket: # 3947181 - Packet loss and speed decreases in online gaming, video streaming, Netflix, Hulu Etc. since before COVID-19](#)

Date: 4/25/2020 11:32:34 PM

City/State/Zip: Scottsdale, Arizona 85257

Company Complaining About: Cox

Description

Started in october of 2019 and Cox Communications will not acknowledge that it's an issue on their end and refuse to fix it. Had an "outage in my area" for 5 months now when we log into our account.

Ticket: # 3947214 - Media disinformation

Date: 4/26/2020 12:48:59 AM

City/State/Zip: Fort Worth, Texas 76116

Description

Misinformation from the likes of CNN, MSNBC, ABC,, and CBS are now costing lives and trillions of dollars. Their intentional dishonesty about the coronavirus created a worldwide panic causing a complete collapse of the world economy. Millions of people have been thrown into poverty and millions more will die of starvation. They must be held accountable. They've basically have yelled fire in a crowded theater and must be fined. We must force the media to present honest news.

Ticket: # 3947219 - Cox Communications and their lack of proper infrastructure

Date: 4/26/2020 1:14:46 AM

City/State/Zip: Phoenix, Arizona 85029

Company Complaining About: Cox

Description

Over the last year, I have had nothing but connectivity issues. Either having my internet go down for days at a time, or having such inconsistent packet transmission. I've bought new router / modems and it does not fix the issues that they tend to blame me for. Now that everyone is home due to the pandemic, my issues have only worsened.

Ticket: # 3947330 - WERV-FM Radio Station broadcast headline that grocery stores will soon close to customers.

Date: 4/26/2020 11:20:09 AM

City/State/Zip: Manhattan, Illinois 60442

Description

Around 12:00 PM on Saturday, April 25, this radio station broadcast a 'teaser' about a story that said grocery stores will soon close to public and only pick-up will be allowed because too many store employees are getting sick. This impressed me immediately as a comment that people would believe and would cause runs on groceries in the Joliet area. They then said something about how you can help store employees to stay healthy. These two links were found on the River 95.9 website. It may be what they were combining the stories. Please fine them and tell them to stop trying to cause runs on grocery stores. PEOPLE WILL GO HUNGRY.

<https://www.npr.org/sections/coronavirus-live-updates/2020/04/14/834395334/grocery-workers-should-be-designated-first-responders-supermarkets-and-union-say>

Ticket: # 3947367 - Cox Data Caps

Date: 4/26/2020 12:28:20 PM

City/State/Zip: Byron, Georgia 31008

Company Complaining About: Cox

Description

The biggest thing here is the robbery that Cox gets away with while pretending that it is standard. Almost all major internet service providers have gotten rid of data caps. Cox hasn't even always had them but actually added them which is completely opposite to what they should be doing. We live in an increasingly digital age where many people stream their TV, movies, and even work from home. Now, Cox has decided to waive their overage charges during the COVID-19 crisis which further proves that they have the ability to remove data caps.

Ticket: # 3947458 - TV channels and corona

Date: 4/26/2020 2:12:39 PM

City/State/Zip: Greenland, New Hampshire 03840

Company Complaining About: AT&T

Description

WHY do news reports on any TV channel show people close together, not 6' apart, and so many people without masks??? Who are the editors that allow this on any network, ESPECIALLY when they are reporting on the corona virus, and showing this on TV to the public???!!!

Ticket: # 3947541 - Invalid 2-step Authentication on Facebook and Hotmail accounts**Date:** 4/26/2020 4:13:13 PM**City/State/Zip:** Camarillo, California 93012**Company Complaining About:** Verizon Wireless

Description

My iPhone 6S and Toshiba computer were hacked on January 9, 2018. The passwords on my iPhone and computer, were changed in addition to my Facebook and 2 hotmail accounts. I have moved, purchased a new phone and a new computer, and continue to have my devices hacked. My Apple account was accessed also. In spite of having set up 2-step authentication for my 2 hotmail accounts AND Facebook accounts, I continue to get locked out of those accounts - and SHOULD be receiving notification that someone is trying to log in, BUT I DON'T. I am legally handicapped, and in the midst of this pandemic I am technologically barred from my support system. I cannot apply for any assistance, apply for a job, or do ANYTHING. My phone carrier is Verizon. At the time of the initial hack, we were using Hughes.net for our internet access, and due to its slow nature, I occasionally used my Verizon jetpack. At our new residence we utilize Spectrum. I'm currently working with an IT tech, but for the moment I am still locked out of my two hotmail accounts, my Mary Kay Facebook account, AND a the gmail account to get me back into my hotmail accounts. I have had about 3 decent night's sleep in over 2 years. Stress adversely affects my disability and overall health. I would like to apply for permanent disability, but cannot do so without secure accounts. Initially, after I was locked out of my iPhone, I purchased a flip-phone and wireless land-line. The land-line has never worked longer than 24 hours before it says that the account has been closed. Verizon refunded the cost of the phone, but the phone still does not work. We have a directory in our new neighborhood, and I listed THAT number, not knowing that it didn't work.

Ticket: # 3947568 - Phone Not Working/Billing/Services Not Working

Date: 4/26/2020 5:11:00 PM

City/State/Zip: Lauderhill, Florida 33313

Company Complaining About: Comcast

Description

Xfinity has become so overwhelming during these times where all customers need their services. However, they have become harassing! Although, all of my services continue to have connection issues, outages, error messages and services freezing; several troubleshooting measures having been taking but the issues continue. However, Xfinity contact me several times a day by phone and email about bills and disconnecting my services. I pay and it is never enough! They call me early in the morning, throughout the day/evening and by email with threats regarding disconnecting my services, but never fixing my issues. To top it of, I am dealing with my brother having COVID19 and is on a ventilator. Please stop with the harassmnet and threats!!! I don't appreciate it!!!!

Ticket: # 3947611 - msnbc and false information being presented about covid19 testing

Date: 4/26/2020 6:34:42 PM

City/State/Zip: Nashville, Tennessee 37214

Description

today at 515 pm cdt, the host on msnbc is giving false information about the level of testing that Georgia has completed calling it 7th worst state in terms of testing.

If you go look at the normal sources you can see this is not the case.

This network really needs to do better fact checking as giving incorrect information on this virus is deadly and dangerous.

The "reporter" involved is Andrea Mitchell

The way to solve this is to fine the network until it gets the hint to fact check things.

Ticket: # 3947658 - Frontier communication cuttin services during COVID lockdown

Date: 4/26/2020 8:10:11 PM

City/State/Zip: Chino, California 91708

Company Complaining About: Frontier Communications

Description

I have a bundle with frontier that expired last November on the same month they sent me flyer offering a lower bundle so I would not switch carrier I called and took the offer. Last month they suddenly charged me double my bundle price. I called and now they are saying that I should not be on that bundle; why of all season they would do such thing where most people are working from home why sent out flyers and offers that they will not abide by it. I called asking for my old bundle back and my old bill back and they said its not possible and i have to pay for the higher price. I filed a complain april 20 then april 23 they heartlessly cut my services. They sent me a flyer and lower bundle price good for 1 year so they should abide by it. I want refund and credit on my account too.

Ticket: # 3947684 - price gouging in nj

Date: 4/26/2020 9:22:11 PM

City/State/Zip: Farmingdale, New Jersey 07727

Company Complaining About: Cablevision

Description

On receipt of my recent Cablevision TV, internet & phone monthly service bill Sat Apr. 25th. It had not only

contained the arrears from prior month of Apr. 2020 but they increased the monthly service for the month of May 2020 in addition to the prior months increase one month later. Any prior call to cablevision was greeted with unresponsiveness and only an offer to reduce services at a higher cost or upselling. You cannot get thru to anyone at Cablevision now. I believe this is a special corporate American entity that feels it is empowered to act this way. With no concerns for seniors, seniors with disabilities and all during a worldwide pandemic.

I have been a Cablevision customer for at least 20 years, never paid late or have been delinquent. The situation of myself being disabled, having a wife who suffers from Systemic Lupus Erythematosus and caring for my 90 year old mother has been a daily ordeal. The extreme costs of living in the state of NJ does not allow for any increase costs in services.

I have for the prior Month of Mar. paid the same as the month before \$132 and plan on paying the same \$132 going forward for the month of May. They of course include in the envelope the typical psychological printed threat of service disconnect-disruption.

I believe New Jerseys Governor Murphy had ordered that price gouging is any prices increased by 10% or greater during this pandemic. And recommended it be reported.

monthly svc consistently was 131.49. month of apr increased to \$146, month of may increased to \$167

Ticket: # 3947687 - I NEED HELP PLEASE!!

City/State/Zip: Battle Creek, Michigan 49014

Company Complaining About: Tracfone

Description

Hi my problem is with tracfone's unlocking policy I recently hit a bad spot in my financial life and due to the COVID-19 pandemic I can't get the money to keep my phone activated so I had heard that Qlink wireless service is helping low income families with free monthly service so we can stay connected to the ones we love during these trying times so I filled out a application to bring my own phone to the service and I was approved but when I put the SIM card they sent me into my phone it says SIM card not allowed and told me to contact my carrier so I reached out and told them of my difficult situation and they said I can't carrier unlock my phone until I have my phone activated for 7 more months and I told them I need to unlock the phone to be used with a free government phone service and they still refused to help me out so I'm reaching out to you guys at the fcc in hopes to unlock my phone from tracfone services to be used with my free minute government phone services because I can't afford to buy a new phone and with everything that's going on I NEED a way to contact my loved ones!! 😞 please find it in your hearts to help me with this issue. Thanks

Ticket: # 3947733 - Comcast Illegal Billing Practice/Illegal Service Disruption

Date: 4/26/2020 11:20:43 PM

City/State/Zip: Cypress, Texas 77433

Company Complaining About: Comcast

Description

During the these troublesome times (COVID19) Comcast/Xfinity is disconnecting customers service, not honoring prior payment arrangements, or promised payment credits . Because of a problematic internet system and program called Assistance Plan it created , Comcast is not even able to reconnect service, when payment is made. Comcast is also hitting customers with exorbitant fees that may not be legal.

I tried to reach Comcast and asked for a supervisor. When the Rep transferred me, I was on hold for 40 minutes. Hung up on. Called back, another rep lied and said he was transferring me to a Supervisor immediately. Call went back into que and I listen to music. No supervisor ever came. Called back spoke to Rep who refused to get Supervisor. Please investigate!

Ticket: # 3947789 - Misleading information from NBC related to coronavirus coverage

Date: 4/27/2020 4:07:48 AM

City/State/Zip: Troy, Michigan 48083

Description

On both the NBC Nightly News (April 24, 2020) and Meet the Press (April 25, 2020), NBC mischaracterized information coming from the White House coronavirus task team. This is dangerous and irresponsible, and serves only to mislead the public in this time where clear communication is necessary. The statements below are easily refuted by reviewing the press conference footage in question (<https://youtu.be/YqsGjWNXB2M?t=1680>).

NBC Nightly News (April 24, 2020) - <https://youtu.be/C92LIAnGSc?&t=462> - Lester Holt said "And tonight, President Trump is facing widespread backlash after his comments wondering aloud about ****household**** disinfectants as a possible treatment for COVID-19"

Meet the Press (April 26, 2020) - <https://youtu.be/ld13RmoX6Y4?&t=228> - Chuck Todd said ".... the administration scrambled to contain the fallout from the President's suggestion that injecting ****household**** disinfectants might cure the coronavirus."

I have added emphasis on the word "household" above to highlight the gross misinformation these programs have perpetrated. At no point in the President's comments did he use or suggest the word "household". These news broadcasts have inserted a word which drastically alters the meaning of his words - seemingly for the purpose of sensationalizing and embarrassing the President, but by sacrificing journalistic integrity and their duty to the public. In the exchange they are reporting on, the President is simply asking if treatments exist or are being investigated which can eliminate the virus directly, rather than relying on immune response - a reasonable follow-up to the presentation made by a leading scientist (Bill Bryan, DHS) just before (<https://youtu.be/YqsGjWNXB2M?t=1680>).

These outright lies have led the White House to scale back press briefings at a time when communication is very critical to the public health. Also, by these broadcasts themselves introducing the idea of "household disinfectents" could lead to people in the public attempting unadvised self-treatment. The responsible thing to do would to have put the President's remarks in context, or not report on them as this exchange was only a brief, inconsequential sidebar in a long press conference.

Ticket: # 3947805 - Spectrum Availability Complaint

Date: 4/27/2020 7:12:25 AM

Company Complaining About: Spectrum

Description

My name is (b) (6).

After receiving a few calls about the need for payment I went ahead and paid Spectrum through my banks bill pay on Tuesday April 7, 2020. On Friday April 10, 2020 my cable and internet service were disconnected. Right in the middle of Covid-19 pandemic.

I contacted Spectrum and made my way to a supervisor. I explained the money was on the way but he refused to acknowledge payment because I used a third party Chase bank. I pleaded with him, explaining I am a sixty year old man that is in risk and needs these essential services for safety. He said the only way I could get my services restored was to give him a credit card. That's extorting a double payment from someone in a time we're experiencing this crisis.

Then I went to the Spectrum website and I see all the misrepresentation about your commitment to keep everyone connected. I'm sorry sir but how can you say that when my services were disconnected. Thank you for taking the time to read my concerns.

(b) (6)

Ticket: # 3947868 - Monthly increasing costs

Date: 4/27/2020 9:05:12 AM

Company Complaining About: Comcast

Description

After reaching out to Comcast Business via phone because my business is awaiting SBA disaster loan approval due to COVID-19, Comcast assured me that I had an extension on my bill and will not be charged any late fees. Though they did not reflect this on my account and charged me a late fee.

Comcast presented false information and are falsely charging its clients. This falsely puts the burden on their clients and their clients are forced to spend hours and hours on the phone because their representatives always transfers clients to wrong departments. It's a huge waste of time.

To solve this issue, I expect Comcast Business to call and/or my personal number and confirm with me that their promises of waiving late fees due to COVID-19 economic injury reflect on my account. This way clients do not waste hours on the phone due to their mistake.

Ticket: # 3948085 - Unwanted call offering to buy my house

Date: 4/27/2020 10:52:32 AM

City/State/Zip: Lancaster, Pennsylvania 17603

Description

I got a call from a man named Marcus saying they had just driven past my house and wanted to know if I want to sell it. He said that even with Coronavirus, he is still doing business. It feels a bit threatening to have a stranger call and say they just drove past my house. I don't believe that they actually did. I have a MD number, but I do not live in MD. The caller had a MD number, too.

Ticket: # 3948141 - Raising Internet Prices During Pandemic

Date: 4/27/2020 11:15:24 AM

City/State/Zip: Raleigh, North Carolina 27606

Company Complaining About: Spectrum

Description

Spectrum is raising prices for all Legacy Time Warner customers (15%-20% of their customer base) during a Pandemic in April 2020. For me, this equates to a 35% increase. Several other states have asked for the feds to step in to stop this.

Ticket: # 3948186 - Straight Talk Disconnected Service/COVID-19

Date: 4/27/2020 11:31:14 AM

City/State/Zip: Hope Mills, North Carolina 28348

Company Complaining About: Straight Talk

Description

His provider is Straight Talk.

He is calling about service being disconnected.

His service got disconnected this morning 04/27/2020.

He called them and they do not know anything about Keep America Connected.

He would like his service to be turned back on.

CTR414-phone

Ticket: # 3948279 - Apple iPhone and Verizon Wireless Services**Date:** 4/27/2020 11:57:17 AM**City/State/Zip:** Virginia Beach, Virginia 23467**Company Complaining About:** Verizon Wireless

Description

Under the guise of operating system phone and laptop updates, Apple rolled back the features on my phone and laptop so I can no longer connect to my iPhone hot spot using my bluetooth feature on my laptop; the laptop is creating unknown tracking and bundling files and storing them in unknown locations; developer apps as opposed to software company applications are automatically downloaded on my laptop without my knowledge or permission (e.g., there is an app that appears to bundle data from external devices and store them on the laptop for future upload via a cloud application without the users knowledge or permission; external devices also appear to be syncing with the laptop without the user's permission; other application features have been rolled back rendering the laptop primitive and vulnerable to access by unknown users (e.g., you can no longer distinguish, who, what, and how many devices are connected to the hotspot. The rollbacks make the user vulnerable to intellectual identification and intellectual property theft. Lastly, Apple does not return scheduled service call appointments and either Apple, the operating system, and/or unknown individuals who have already hacked into the system are preventing me from accessing my outstanding service ticket. Perhaps the Apple internet communication problems are part of the COVID-19 Pandemic crisis. I want my operating system and damaged software replaced with genuine and authentic Apple and Microsoft products engineered by Apple and Microsoft as opposed to STEM projects, intern developed apps, and other nonfederal government funded application development projects. I suspect my calls have been redirected from 10/2011 to date on both lines and/or monitored by unauthorized individuals (b) (6).

Ticket: # 3948286 - Optimum shut off services during pandemic

Date: 4/27/2020 11:59:05 AM

City/State/Zip: Valley Stream, New York 11580

Company Complaining About: Optimum

Description

Although optimum stated on their website they are committed to helping businesses stay connected during the pandemic they did just the opposite. We are a small business trying to stay afloat and having access to the internet is not only crucial for our day to day operations but also provides a means for my children to complete their school work. Optimum clearly does not stand by their word and have taken an apathetic approach to the pandemic. Our internet service was shut off on April 27, 2020. I waited an hour to speak to someone and one connected, the representative repeatedly asked me for payment. Although I explained that my business was struggling to stay afloat, it did not seem to resonate with the rep. To add insult to injury, the rep stated that he was not in a position to handle my account and transferred me to another department, where I waited another hour and a half. A rep finally answered the phone, I responded and the call was disconnected. Although I am trying to hold onto what little funds we had, I had to post a payment otherwise my business would have suffered even more economic injury. I am shocked that a company that is fully aware of the world's devastation due to Covid-19 would not take measures to stymie the effect and stress on individuals and companies. It is quite shameful and unacceptable.

Ticket: # 3948311 - Turned off Wi-Fi during covid 19 remote learning needed

Date: 4/27/2020 12:03:19 PM

City/State/Zip: Pennsville, New Jersey 08070

Company Complaining About: Comcast

Description

I have xfinity prepaid internet and was turned off on Saturday due to non payment. Upon calling i was given 7 more days that started again on Sunday..okay when i called them and explained to them that i could not be turned off for 60 days due to the keep america connected act and the fact that i have 4 kids home due to.covid 19 and they need internet for remote learning. I.was on the phone for 6 hours and spoke to 10 different reps whom told me that i could and would be turned off and would have to utilize the 1 hour hot spot to ensure my kids had ways to connect. I said no that was not the correct way to do.this and thus was granted my 7 days well now 6 days of service as they will be turning my service off once again coem Saturday wether or not i have children whom are remote learning and wether or not there is a stay order in place. As i was bluntly informed it doesn't per tain to us and my kids did not matter and unless the bill was paid in full they would turn us off. Please help as i stated i reside in NJ and i have children here whom.need service on to do school work and with out such they are not able to do it and this weekend when they turned us off we missed out on several work shops that were supposed to aide my children learning. Its not fair that because we have been affected by covid 19 that they could care less about us or my kids and just turn us off. Please as you attention to this matter is extremely important we are on number days.

Ticket: # 3948337 - No landline phone or internet available

Date: 4/27/2020 12:14:07 PM

City/State/Zip: Bells, Texas 75414

Company Complaining About: We Called Them All.

Description

We have called all the local internet & phone providers in our area, no one has services available to us. We are at a loss, as our cell phones do not work at home. With COVID-19, we need both services more than ever.

Ticket: # 3948356 - Cable

Date: 4/27/2020 12:19:41 PM

City/State/Zip: Waterbury, Connecticut 06704

Company Complaining About: Frontier Communications

Description

Frontier Communicatolns disconnected my cable/internet service during this pandemic. The State of Ct informed all subscribers that this company had agreed to keep families connected. I also noticed that I was charged a reconnect fee for service that was disconnected last month, but because payment was made one day late.

Date: 4/27/2020 12:34:22 PM

City/State/Zip: Golden Valley, Arizona 86513

Company Complaining About: Viasat

Description

When I signed up with viasat I told them I was a homeschool coach to multiple students. I told them I needed unlimited good internet cause my current internet was bad. They assured me that I would be better off with using thier internet service. Well I got tired of the lag and did a chat with them. They said they do not have a plan that would suit my situation. So now I have 4 students that can barely get thier schooling done. I signed a contract and I'm barely 10 months into it. With the coronavirus my student numbers have increased that's why I called them, to upgrade. What now? My kids do not get thier education or they have to spend 10 hrs a day watching the wheel spin. We need more than school time to use the internet, I pay Bill's and use it for everyday use too.

Ticket: # 3948430 - Broadcasting false information causing panic and hoarding

Date: 4/27/2020 12:41:54 PM

City/State/Zip: Princeton, North Carolina 27591

Description

The major news outlets are steadily broadcasting false information both about the president and the current pandemic. It's caused a great deal of emotional stress on my family and in my workplace. Can anything be done to police what's being broadcasted out to the nation? They must either provide obvious disclaimers on their opinions or not broadcast it.

If you have any questions please let me know.

Thanks,

(b) (6)

Ticket: # 3948617 - comcast

Date: 4/27/2020 1:31:20 PM

City/State/Zip: Martinez, California 94553

Company Complaining About: Comcast

Description

Comcast has a circular reporting structure. you are unable to lessen or cancel service during this time. call times are over 3 hours, which I understand since covid has made customer support more difficult.

The issue is that the website, which all customer support call tell you to go to do not support any form of relief. there is no way on the website to lower costs, cancel service, or ask for financial help. I feel this circular communication preventing people from lessening their service is a way to trap consumers in the monopoly Comcast already has.

It is also troubling that there is no way to see what I am being charged for. I have these bundles that are sneaked in, and then charged months later. I just want to know what each bundles baseline cost is. I want to know what I am being charged for, and I want access to adjust my account. If I lose my job, I don't want to be trapped in a service that does not seem to respect me as a person enough to let me have agency over my service. Why is it that there are so many bundles, snuck in, and there is no clarity of what bundles cost. I want an itemized list of what I am paying for and the ability to adjust the service. I understand covid has prevent appropriate customer service; however, if people are meant to go to the website, why isn't the website set up to help. I feel the process is designed to be intentionally difficult. I did not receive any help until the company was contacted by the Better business Bureau on my behalf. Which is unacceptable as Comcasts customer service should be able to answer its consumers, not just the ones who know how to leverage organizations that keep them accountable for the unethical way they treat marginalized people.

I'm still not over the "asshole Brown" thing either.

I want an itemized list, with costs on the line items of what each bundle costs, what the baseline service is, and how to 'online" adjust my service since I will be unable to call during this time.

Ticket: # 3948632 - AT&T Issues On Internet/COVID-19

Date: 4/27/2020 1:36:19 PM

City/State/Zip: Chelsea, Michigan 48118

Company Complaining About: AT&T

Description

He is calling about AT&T.

He has the bundle service package.

He lives in rural area.

He said, he's been trying to get service.

They have no fios out in his area.

He has some service; it is way too slow.

8-10 seconds on download speed.

8-10 seconds on upload speed.

His wife is a physician and he has children also.

He needs internet service so children can do schoolwork from home.

AT&T keeps passing the buck, saying that the FCC is not allowing service in his area.

CTR414-phone

Ticket: # 3948633 - Google Fi (cell provider) will not allow me to port my # out

Date: 4/27/2020 1:36:22 PM

City/State/Zip: Baltimore, Maryland 21214

Company Complaining About: Google

Description

I have tried to port my # out to 2 different carriers (Boost, which operates on Sprint lines) and Verizon. With both carriers, I've received error codes or messages that the # is ineligible to be ported. I have provided my account # and pin for the Google Fi account to both carriers and they have not been able to get the process completed.

After texting with Fi support, they have insisted it's a problem with the other 2 carriers, and not them. which is ridiculous. They do not have phone support 'due to covid' and have twice told me they'd have supervisors contact me, which has never happened.

Ticket: # 3948638 - Internet price gouging

Company Complaining About: Fusion

Description

Birch changed to Fusion and now they are overcharging on the bill when we had an agreement with Birch. The bill has more than doubled. They also threatened to disconnect us during this pandemic when our business has been almost void of funds. We made a good faith payment on 4/21 but they are still threatening cut off.

Ticket: # 3948844 - Not getting internet speed for internet package I paid

Date: 4/27/2020 2:37:55 PM

City/State/Zip: San Jose, California 95131

Company Complaining About: Comcast

Description

I have account with Xfinity, Service Package/Plan: Performance Plus Internet, with speed up to 75Mbps (Mega bytes per second). I never received such a speed. Previously before the year 2020, I was getting speed around 29 Mbps maximum and I was ok with that but since February 2020 onward, my connect drops once a day or once every other day, which is an inconvenience but I was still accepting and understanding of that. But the main issue for this complaint is since February 2020, my connection speed is noticeably much slower and my speed tests every week proves it ... that it averages around 10-12 Mbps ... much less than the 75Mbps for which I have been paying \$44.99 per month. I called in several times to report and finally Xfinity scheduled a tech to come out 1 month after I made the complaint about slow speed. Apr 22, 2020 a tech came out and checked the box outside my house. He did not come inside the house due to Covid-19, which is understandable and there was no need for him to come inside the house. He checked the physical connecting points, ran a test and indicated that the connect is there and acknowledged the speed is slow for which he has no control. I showed him the speed results history on my phone at various times, showing download speed of 5, 8, 15, 18 Mbps. He left without resolving anything as there is nothing to fix. I re-iterated to him the connection is not the problem. It's the slow speed and the occasional drop, which is testament to their lack of network reliability.

So that's the problem: I am paying \$44.99 per month for 75Mbps and only getting 1/4 or 1/3 of that speed on average. I am not getting what I am paying for. I asked that Xfinity bill me for the low-tier pricing and NOT the current Performance Plus Plan and they indicated that they are NOT offering any lower internet plan than this.

Ticket: # 3948898 - Overpriced internet services

Date: 4/27/2020 2:52:39 PM

City/State/Zip: Norfolk, Virginia 23507

Company Complaining About: Cox

Description

During the COVID 19 crisis Cox Communication wants to charge overpriced internet services. I called to cut my cable services off and just have internet services to work from home to cut down on bills because of COVID 19. Cox Communications wanted to charge me the same price as having cable services for internet services. That did not help my situation. They are the only cable telephone internet services in Norfolk VA.

Ticket: # 3948907 - Comcast is going up on Bills during Corona Virus

Date: 4/27/2020 2:55:51 PM

City/State/Zip: Silver Spring, Maryland 20902

Company Complaining About: Comcast

Description

Comcast has raised it's rates during the corona virus pandemic something they stated they would not do- Comcast reneges on contracts as well as their statements to government- This should also be investigated with the initial complaint filed- Comcast also claims they offer services to low income individuals which appears the reason they raise rates on long term customers

City/State/Zip: Ocala, Florida 34482

Company Complaining About: AT&T

Description

Your complaint against AT&T Corp. has been submitted to the Florida Public Service Commission and assigned TRACKING NUMBER: 181094.

Please refer to this number if you need to contact us in the future regarding this complaint.

I was just told by an attorney that the FL PSC DOES NOT handle these complaints but the FCC does. So,

For months now, I have endured Direct TV (ATT) degrading signals, buffering for shows and the very frequent SNOW on the screen during the day. Ive called and I am always told it's the weather and or other issue but the fact the product is terrible and as the service of the company. Ive endured long enough and feel the initial offering was misleading in that the signal is repeatedly going down and I am stuck in this contract but have to endure terrible service. I am rudely told by ATT that if I cancel I will owe hundreds of dollars. Well for 2 months now, not only is the service still terrible but one cannot reach anyone due to COVID. I cant express my dissatisfaction and the deplorable signals or inability to watch So what am I paying for? terrible signal service and service and I am being ripped off and I am a senior. Can the FCC help me cause I am at wits end

Company Complaining About: Cox

Description

It is really difficult to get Cox Business to honor their 60-day no-disconnect pledge. They won't extend until mid-June when I will be getting my Pandemic Unemployment Assistance and stimulus payment. I have been seriously impacted by Covid-19. Cox could have agreed to extend my due date until June 15.

Ticket: # 3949054 - Billing and service

Date: 4/27/2020 3:45:11 PM

City/State/Zip: Modesto, California 95354

Company Complaining About: Comcast

Description

Due to COVID-19, I have lost my job and struggling to make ends meet. I have attempted to contact Comcast Billing directly, requesting that they work with me, allowing me to keep my TV and internet. The representative was rude and abrasive, told me "it's not our problem that COVID-19 caused this, and we need to be paid." I asked to speak to a supervisor and was put on hold for over 45 minutes, until I decided I didn't want to wait. When I called back I got another representative that told me they could give me until April 28, 2020 to make a payment. I am still struggling to make ends meet and I know that the federal government is bailing out large corporations, Comcast being one!!! I have been a customer of Comcast since 2016 and resent being treated so poorly. Their customer service is rude and abrupt and it's not right to not give us customers a break during this very difficult and trying time!! If it's wasn't for the consumer, they wouldn't be in business!! Please help me with this. I need my tv and internet!!

Thanks

Ticket: # 3949266 - SAT Prep Test Scam

Date: 4/27/2020 4:54:15 PM

City/State/Zip: Colorado Springs, Colorado 80918

Company Complaining About: No Name

Description

I received a call from a woman claiming to be with a company working with the College Board to provide SAT prep booklets. She said my son (knew his name) had asked for the materials but due to COVID-19, they now had to send discs. She said that the discs needed to be returned after use due to a limited amount of discs. She said there was a charge (over \$100 - I did not write down to actual cost) for the discs but that would be returned after we sent the discs back. I asked repeatedly which company she was with but she would not answer. I knew it was a scam and told the woman that I knew. I ended up hanging up.

Ticket: # 3949316 - Internet

Date: 4/27/2020 5:08:58 PM

City/State/Zip: Lake Charles, Louisiana 70601

Company Complaining About: Sudden Link

Description

In retaliation for me filing a complaint with your office, Suddenlink turned off my cable in the middle of the pandemic before May 1, 2020. This is a nasty little company that extorts their clients. If you turn off my internet and my phone uses wifi and your office is closed, how do I pay for services? That is another reason why I separated my account. I told their supervisor my husband just lost all of his overtime which does affect our bottom line until my stimulus check arrives. Companies are not suppose to be cutting off services during this pandemic but this company did. This company is an extortionist and it coerces its clients by merging my statements together and lying about the reason. My electric bill has not gotten paid for 2 months and my services are still on. So, what is so special about Suddenlink. This month we lost an additional \$500 from our income due to the pandemic. I am tired of being extorted behind lies. I want my bill separated like it was before. I have a smart tv and an Amazon prime account so I can watch everything without their cable service that they gouge us for. My bill is \$287 per month and that is gouging us. New customers are connected for \$100 guaranteed for 2 years. Please help us get better rates and to keep our wifi on without being extorted.

Ticket: # 3949326 - Charter cut our internet off during Covid Pandemic

Date: 4/27/2020 5:16:09 PM

City/State/Zip: Ringgold, Georgia 30736

Company Complaining About: Charter

Description

My daughters are not able to complete required school work at home b/c Charter disconnected our services today. I am a Paramedic on the front lines that has lost hours of work b/c of pandemic and my husband lost his job so we are a one family income right now and they promised services would not be disconnected. What can I do to rectify this situation. I contacted them and it did no good. Please help!

Ticket: # 3949332 - Optimum disconnects service daily

Date: 4/27/2020 5:20:49 PM

City/State/Zip: Mahoopac, New York 10540

Company Complaining About: Optimum

Description

I was past due on my Optimum invoice just before the pandemic shut the schools down and businesses closing. I spend on average 3 hours on hold a day to have it restored however after they restore at 10 am we loss internet daily. I've been told since self distancing and having a school age child at home I am unable to work I call Optimum daily and have been told I'd have an extension until mid May but it is turned off daily at 10 am I havent received unemployment which was filed March 16th and I have not received stimulous check and I can not even get a person on the phone at the IRS to resolve that issue. My son needs to attend school and he can not without internet. By the time I get through to have it restored virtual classes are over and as he's ready to sign on in the morning he gets kicked off.

Ticket: # 3949362 - refused to port number no balance due

Date: 4/27/2020 5:42:29 PM

Company Complaining About: Tracfone

Description

straight talk wireless refused to port my number to a lifeline phone due to covid-19. They are a prepaid service and no balance was due . Bring you own phone sim card account . [REDACTED]

(b) (6) [REDACTED] I filed a complaint with the agency in my state CPUC as well. This refusal can and could be life threatening . I have the chat conversation with straight talk emailed to me. See attached. Thank you And please help me. (b) (6) [REDACTED]

Ticket: # 3949378 - Termination of Internet service after extension agreement

Date: 4/27/2020 5:52:27 PM

City/State/Zip: Big Spring, Texas 79720

Company Complaining About: Sudden Link

Description

I requested an extension due to being laid off bc of Covid-19. They approved me for an extension until May 13. They have now cut my services off and won't help get them back on. My son a 7th grader's grades will suffer due to this cut off of services.

Ticket: # 3949384 - Suddenlink price gouging

Date: 4/27/2020 5:56:34 PM

City/State/Zip: Conroe, Texas 77301

Company Complaining About: Sudden Link

Description

I live in Conroe TX 77301. The only cable provider in our area and has been so for many years I'd Suddenlink. Their prices are considerably higher than other providers just 10 minutes away. The only alternative we have is satellite and even then you have to get your internet from Suddenlink. No cable company should have that much power. At the beginning of the year my bill was \$149. I have had two price increases in the last 2 months. My bill is \$210. I have called and explained to them that I cannot afford these increases. I have asked for my bill to go back to what it was with no success. They are threatening to disconnect my service when I call if I don't pay. I am a single mom w three kids at home online schooling as most of America is. I am a registered nurse. I was diagnosed with COVID 19 3 weeks ago. I am under quarantine. My family is struggling hard and now we might be out of internet service and I can't even get out to get more service. And then there no other choices for cable internet. Everything else is slow and not equipped to handle 3 kids doing school work at the same time all day . I don't know what to do. I have tried contacting them over and over. It seems very unfair that they are doing this to us at this dire time of need. And we are forced to deal with it. Doesn't seem like it should be legal. Of gas station owners get fined for price gouging they should be too. It's criminal. They even increased the price for mobile phones it was \$20 a line for life they increased it to \$30. They are seriously taking advantage of the current pandemic. No one from their corporate office will even talk to me. You can see from my bills in Dec I was paying \$140. Jan \$166. Feb \$176. March \$211. Where does it stop?!!!

Ticket: # 3949423 - **COVID-19RELATED FRAUD TEXT MESSAGE**

Date: 4/27/2020 6:36:35 PM

City/State/Zip: Cranston, Rhode Island 02921

Company Complaining About: "customer Service"

Description

Today, 4/27/20 at 6:04 PM I received a COVID-19 RELATED FRAUD TEXT MESSAGE. The screenshot of that text is included below. It reads: FRM:Customer Support SUBJ:Looking for a good time with a nice Man MSG:<http://.covid19stayhome.ga/>. It came from a fraudulent number on my caller ID as 1-410-100-011

Ticket: # 3949446 - Deceptive advertising practices and fraudulent billing

Date: 4/27/2020 6:55:07 PM

City/State/Zip: Kingman, Arizona 86401

Company Complaining About: Sudden Link

Description

I signed up for internet service December 23, 2018. I was supposed to get 1 Gig download speeds. I reported this to Suddenlink on Dec 23, 2018 and a technician came to the home. Speeds have been slow since that time. When COVID-19 hit I tested my speed because my teenage daughter was in tears because she was not able to connect to her online class. I tested the speed and it was 10 mbps instead of 1000 mbps. On April 23, 2020 a technician came to my home and found that there were two splitter on the house that slowed the internet speed down that were installed by Suddenlink. Even after fixing the splitters the internet could only get 10-100 mbps speed. Another call was made to have the line balanced. It turns out that Suddenlink only has/d the capacity to deliver 400 mbps in my neighborhood, yet sold me on a 1 GiG plan. I requested that they credit my account the \$375 (\$25 X 15 months). They sold a service that they could not provide. And now they refuse to refund the difference between the 1 Gig plan and the 400mbps plan. In my view it was fraudulent to sell a plan that they cannot provide, it is fraudulent that they do not return the premium that I paid. I am not request a full refund. for the 15 months. only the difference between what they said I would get and what I actually got.

Ticket: # 3949467 - False Representation of Services and Cost**Date:** 4/27/2020 7:07:10 PM**City/State/Zip:** Brandon, Florida 33510**Company Complaining About:** Spectrum

Description

When I called Spectrum Cable in November 2019 for Television and Internet Services, I called from and advertisement for new customers for one year \$39.99 + 500 mega Internet Service. I was specific that my budget of less than \$75.00 per month and that I must have either CNN or MSNBC for my max budget.

TV AND INTERNET SERVICE PACKAGE

I explained that all I needed was a basic package because I mainly watch the news, either CNN or MSNBC and standard internet was sufficient. She recommended the Latino Package because it had more channels and that it included Spanish CNN. I told her I don't watch Spanish CNN. That I needed either CNN in English or MSNBC. She stated that on the English channels the MSNBC was included. She said that purchasing the Apple TV Boxes were excellent and would still be within my budget monthly until I pay them off and then I would own them. So I ordered two of the 2 Apple TV Boxes and one of the standard cable box. During Installation (prior to receiving the 2 Apple TV Boxes via mail) .the technician explained to me the pros and cons of the 2 Apple TV Boxes and the rental boxes. It was a stark contrast of what the sales rep. stated. So I decided to forego the xxx boxes and use three monthly rental boxes. The technician called in and added the additional two rental boxes, programmed and installed all three boxes. Technician gave me the phone to talk to the install tech on the phone and they stated that as long as I do not accept the delivery of the purchased boxes and/or if I receive them to return them unopened. I never received boxes but was charged for them on my first bill. I was told to pay est. \$15 and not to worry. That the boxes would drop off the next bill. I did not. My December bill finally came in correct for \$75.27 In January I happen to call in for a Technical Issue when the tech explained that I was only being charged for one boxes and that she had to make the adjustment before she can complete the tech issue. Then she said that the reason I was having the tech issues with the channels because the boxes were not registered under my account and the channels that were giving me problems were not in my package and that I did not have neither MSNBC OR CNN available. But I was being charged for the three boxes. I explained that I have been watching the MSNBC since the inception of service. I then was transferred billing and once again had to go over the WHOLE story AGAIN about what was sold to me, what they NOW say I have and how much. The cost was WAY OUT OF MY LEAGUE of affordability. I asked to please adjust my account appropriately but that the sales rep and the company had to be accountable for the sales representation of product and cost sold! And that include either CNN OR MSNBC within the package. The file was escalated to a supervisor whom PROMISED me that all will be taken care of. Now the next month the bill comes higher. Instead of adjusted to the estimated \$106 or \$116.00 (still way over what I bargained for but the cheapest they can offer me...I called AGAIN and was told that I upgraded my package. I DID NOT EVER REQUEST TO UPGRADE. Now AGAIN I had to go thru the WHOLE STORY AGAIN with Jessica A from the Ohio Call Center. She escalated the case to her supervisor Mr. Tyler who, she stated that he submitted a report request (b) (6) on March 19 2020 for "Campaign Correction" to bring my bill back to my regular bill amount. We scheduled a call back on 03/26/2020 at 4:30pm. I also requested the information on how to submit a consumer complaint against the original sales representative because I am Exhausted with trying to resolve this. She stated she was submitting the complaint on my behalf. NO CALL NO RESOLUTION OF

ACCOUNT NO NOTHING. INSTEAD I now get a higher bill for \$241.00 and threaten to shut off service. Every month the bill his going HIGHER AND HIGHER. I have called over 6 times and counting PRIOR TO TALKING TO Jessica A from the Ohio Call Center to get the package they offered me. Promises over and over from Spectrum that they will fix this and they do not. Now with the COVID Stay At Home Restrictions I stand to lose cable and internet, because they can't honor or fix this issue. My grandson will not be able to do his homework and I am risking my credit to be shot!

Ticket: # 3949489 - COMCAST cable regional sports fee

Date: 4/27/2020 7:17:39 PM

City/State/Zip: San Mateo, California 94401

Company Complaining About: Comcast

Description

Hello,

Comcast & Xfinity keep charging this regional sports fee even if there are no actual sports regionally or even nationally during this pandemic lockdown. It is unconscionable for cable companies to keep charging this fee given the dire economic situation. This should be eliminated!

Ticket: # 3949518 - Threat from COX to terminate my service

Date: 4/27/2020 7:42:36 PM

City/State/Zip: Newport Beach, California 92660

Company Complaining About: Cox

Description

About a year ago, COX implemented data caps in my area. Users were forced to comply with 1TB or less usage or pay \$50 a month EXTRA for an Unlimited Plan.

1TB is nothing for my family. So I opted to pay for the Unlimited Plan. I spoke to several COX reps during this time and the reasoning behind the price hike was because my area had no competition from other ISPs so COX could basically charge more. This is exactly what the reps told me. Sounded like price discrimination, but I'm not going to argue over \$50 a month.. I just paid it.

Now COX has posted a bulletin on their website saying because of Covid-19 they are freezing the data caps.

I thought, wow that is nice of them... Until today when I got a threatening phone call from COX that they were going to TERMINATE my service in next 5 days unless I reduce my data usage.

I looked at my data usage counter, I used 8TB in Jan, 2TB in Feb, 2TB in March, and this month will be 7TB.

so yeah I use alot of data.. But not more than usual.. especially for a heavy user paying the now suspended fees for COX's Unlimited Plan.

I've got 3 kids streaming movies and gaming all day long because they are out of school..

I use my computer, my wife uses her computer, my kids are zooming video conferencing with their classes...

We've got cloud backup for our computers, icloud backups using even more data.. so yes we use data.. lots of it

Are we heavy users? I guess in comparison to my retired neighbors that check emails once a week, sure..

But isn't that what the Unlimited Plan was meant for?

So the threat from COX is basically we will have our service cut off unless we substantially reduce usage.

How are we supposed to do that? Everything is on lockdown, kids are home all day, the family has literally

nothing else to do but stream movies. Is it me? or COX being really unreasonable during a crisis right now.

I feel like our rights are being trampled on here. And I say rights because we have no choice but to use COX.

They are a monopoly here. We cannot get AT&T, we cannot get Spectrum, we are stuck with a provider that wants to stick it to us, and if they can't stick it to us, they want to terminate our service which in today's time internet is an essential service.

The way I see it, lots of people are staying home because of the Corona Virus, and COX's network is getting overloaded.. so the plan is to terminate service for the heavy users... This isn't an entitlement, we are paying for service, we are good paying customers. We are being bullied by our ISP to reduce usage and we can't. and we also cannot switch providers, which is a huge problem.

We used to live in Spectrum territory. They have no data caps and I never heard a peep out of Spectrum about usage.

All of a sudden I live in a Mafia area now, where COX can basically do whatever it wants.. and I have no way out
AT&T has no service here, Verizon, Spectrum.. COX is my only option..

I request an intervention from the FCC. COX's data cap policy isn't fair across the board, its discriminatory in each zone, based on competition in the area.. I cannot believe this anti competitive monopolization doesn't violate federal antitrust law. This can't be right.

Please assist, my family, other families in my area, our livelihoods, our lives depends on your help.

Ticket: # 3949533 - Phone service turned off

Date: 4/27/2020 7:55:31 PM

City/State/Zip: Metuchen, New Jersey 08840

Company Complaining About: Metropcs

I live in new jersey and my phone service was turned off during covid 19

Ticket: # 3949536 - HOA Property Manager Won't Aim or Maintain Existing Antenna

Date: 4/27/2020 8:04:23 PM

City/State/Zip: Santa Clara, California 95051-5056

Company Complaining About: Lilacmg.com

Description

I own a condo and my property manager won't maintain or aim the TV antenna following roof repairs. I don't get all the local channels and others are scrambled. During the COVID-19 outbreak I'd like to get as much live news as possible. I'm on the bottom floor, so an indoor antenna gets less reception. Comcast would have to drop lines through two other units and I'm not sure I can have my own antenna installed on the roof. Please help me get OTA TV.

Ticket: # 3949548 - Without Internet

Date: 4/27/2020 8:11:47 PM

City/State/Zip: Washington, District Of Columbia 20019

Company Complaining About: Comcast

Description

I am DC resident in Ward 7. My address in (b) (6) I closed on my home on 3/27/2020 and have not been able to get internet. I have been given the run around from both Comcast and Verizon. I understand that this is a new development, but this is getting a little ridiculous especailly since we are currently in pandemic with a stay at home order in place. Internet is essential at this point in order to work from home. I am an essential employee. I am a Psychiatric Nurse Practitioner and I have been seeing my patients via Zoom and using my Electronic Health Record which requires fast internet. I have been using a hotspot which will not be able to sustain longterm use before it starts to slow down and interrupt my treatment for my patients. Please if there is anything that you can do or suggest for me to expedite myself and my neighbors to get interent. This will definitely become a hardship for myself and my patients because I won't be able to provide care.

Ticket: # 3949583 - Unstable connection with excessive packet loss

Date: 4/27/2020 8:47:51 PM

City/State/Zip: Las Vegas, Nevada 89103

Company Complaining About: Cox

Description

I have experienced an unstable connection and excessive packet loss with my internet connection. I have contacted Cox multiple times (dates upon request) to address the issue. After many hours on the phone, being passed from one tech to another on several different days over the period of several months I was told repeatedly that it was my equipment causing the problem. After spending hundreds of dollars replacing routers, modems, and cables, and even a brand new lap top (receipts available upon request) I was unable to resolve the issues. Cox did send tech's to my house to replace the lines from the street to my house. Then Covid-19 hit and the problems increased 10-fold to the point that I am unable to have consistent service throughout the day. I am paying for top level speeds but reach ranges in the 0Mbps - 300Mbps down (rarely surpassing this and 0Mbps - 20Mbps upload speed. (though Ping seems to remain in the 5-20 ms range.) I believe Cox does not have the infrastructure to support their current offerings and should not be allowed to advertise or charge for such services until such time that the investment in their infrastructure is made and nodes are split.

Ticket: # 3949649 - Bad service, 950 days later hurricane maria, no internet during quarantine | Arroyo Puerto Rico 00714

Date: 4/27/2020 10:25:46 PM

City/State/Zip: Arroyo, Puerto Rico 00714-9741

Company Complaining About: Claro

Description

Regards

During this coronavirus pandemic emergency, we are having difficulties with Claro's internet. Since September 20, 2017, when Hurricane Maria passed, we were left without any service, it was not until February 2018 that we went to the company to lend the Huawei, white modem. This was to use the mobile network of the company, the antenna was overloaded at the time, we complained to the company to work with the situation. After a few months, specifically in April the fixed line service returns but the signal was not stable, it came and went many times, the service did not last even 3 weeks and we were again isolated. Since then they gave us the white modem (Huawei) again, which did not help us at all, we had to use an ATT hotspot. Every day I sent a complaint claiming the lousy service. It was not until 2019 that they changed our modem for another one, this time a black modem (Huawei). At least this last modem has worked for us, but it also has its flashes. The problem that arises is, in the case of calls, for calls to have a tone, you must wait up to 40 seconds. When a call comes in or I make a call, the signal bar drops drastically can have all (5 bars) and currently drops and has only 1 signal bar. There is a moment when one wants to enter a page the message appears that the page is not available, try at another time. The last move from Claro that I saw was on Thursday, April 9, 2020, they were checking to fixed line and today 950 Days of Hurricane Maria, the cables are still damaged. I am sending you this message because we NEED another internet method not to depend only on the mobile network, we need the URGENT fixed line. We cannot wait any longer. To culminate from the curfew put in by the Government of Puerto Rico, Sunday, March 15, 2020, the Internet of the mobile network is fatal, we are hours without internet and it is unfair to be without the service for sending complaints to the FCC.

This complaint has attached documents:

- Modems
- Message sent to the company without receiving answers.
- Evidence that they got on the pole.

Best regards

(b) (6)

Ticket: # 3949653 - Unreasonable equipment return policy

Date: 4/27/2020 10:32:23 PM

City/State/Zip: East Quogue, New York 11942

Company Complaining About: Optimum

Description

I had a cable box completely shut down yesterday at my house so I called customer service to get the box charge off of my bill and determine the policy regarding returning the box. After speaking with someone, who was quite rude, I found out these are my options with regards to returning my box.

1. Go into my local store, stand on line, and return the box (risking my health and the health of others being that we are in the middle of a pandemic).
2. Call FEDEX myself, and out of my pocket, PAY for the return of the box. Continue to pay for the box on my cable bill, until the box is received and processed, which i imagine would take weeks.
3. Keep the box, but continue to be charged for a broken box, until the "crisis" is over.

As you can understand, all of these choices are unacceptable and irresponsible of any business in current times. A safe method for returning broken equipment free of charge to the consumer should have been available at this time of public health crisis.

Ticket: # 3949720 - Unacceptable data loss with Cox Communications in Peoria, AZ

Date: 4/28/2020 1:03:51 AM

City/State/Zip: Peoria, Arizona 85345

Company Complaining About: Cox

Description

I am experiencing unacceptable packet loss with my ISP, Cox Communications. While download speeds for things like streaming are ok, my packet loss can be anywhere from 10%-40% depending on time of day. I have to disconnect my phone from my wifi to make phone calls because my voice keeps dropping out on the other side. Playing multiplayer games online is nearly impossible. Sometimes my remote desktop connection to work will drop. There is no problem with the hardware in my home - I work in the IT field and know how to troubleshoot it. The word on various discussion boards online is that Cox has over-subscribed their lines and is not putting in enough effort to improve their infrastructure. This was an issue before the Covid-19 crisis but it has only become worse since then.

Ticket: # 3949722 - Commercials

Date: 4/28/2020 1:07:28 AM

Caller ID said Medicare Dept. Caller pretended to be from the US Government and wanted us to call them about our stimulus check and getting an increase in social security due to COVID. Call was on Sunday, 4/26/20, at 12:59 PM Mountain time.

Ticket: # 3949816 - Verizon Cancelled Internet Installation a day before my move. Put at risk of losing job.

Date: 4/28/2020 8:51:26 AM

City/State/Zip: Glen Allen, Virginia 23060

Company Complaining About: Verizon

Description

Verizon informed us on April 8 that they would not be able to come do our home install on April 9 when we were moving our services because we had just bought a house. We were told we would be contacted, but no information on how. After paying more to get internet with another provider they are now coming to do an installation. Nothing has changed as far as COVID, but now they are willing to come out, I think (no one has called to tell me what's going on). Our jobs at home help those same technicians who do installs (and hundreds of thousands of others). By abruptly cancelling, they put the value of an individual above the country. This policy was harmful and caused days of undue stress and fear of losing my job and new house. It was also unnecessary, as proven by the abrupt change in policy with their now willingness to do installs under a month later.

Ticket: # 3949894 - Optimum/Altice

Date: 4/28/2020 9:38:02 AM

City/State/Zip: West Islip, New York 11795

Company Complaining About: Optimum

Description

Almost four weeks this issue has been going on.

Forty years of loyal service to you.

Paid my bill on time for FORTY YEARS.

My DVR cable box is BROKEN according to your technician whom I spoke with 4/3 (Friday night).

He said he would mail me a new one.

I confirmed this on Saturday with another employee.

On Tuesday, I sent a DM via Twitter and was told the order was canceled because the DVR I have is no longer sold by Optimum & that I would have to leave my home during a pandemic to pick a new one up but was told I couldn't be sure one would be available. In addition, the vast majority of your stores are closed.

I then was on a chat with "Angel Francisco" who was either watching tv or something because it shouldn't take an hour to answer a simple question. The WiFi then went down and when the chat resumed, he/she said "where are you? You must be preoccupied." And then he disconnected. That was on 4/7.

I called back and was told I would get a call back in 45 minutes. I have not. That was TWO WEEKS ago.

On Friday, April 10 at 6:25 pm, I called and spoke to Randall who said a Samsung Cloud DVR would be mailed to me and he sent me an email confirmation and another email with a label link to mail the broken DVR cable box back.

On Tuesday, April 14, I spoke to Angel at 2:15pm and he hung up on me after 45 minutes. I then called back and spoke to Laura at 2:55 pm who confirmed the shipment and told me it would be mailed out Friday, April 17. I asked for a tracking number and she would not give me one.

All during this time, I have been sending DMs via Twitter to no avail. I receive a random response at 5am when I am sleeping.

I want someone to call my home from your Retention Department because I have been without service during a crisis for over two weeks and this is unacceptable.

40 years and you just don't care about me or my loyalty.

Heartbreaking.

I can be reached at (b) (6)

City/State/Zip: Boulder, Colorado 80304

Description

I am from Boulder Medical Center in Boulder Colorado. Today, our fax server was inundated with SPAM faxes from bigmessages.com. We are fighting a pandemic and these fools are sending us SPAM faxes and preventing us from providing medical care to our community. Shame on them!

Ticket: # 3949959 - False statement made by Comcast during covid 19

Date: 4/28/2020 10:22:15 AM

City/State/Zip: Pontiac, Michigan 48341

Company Complaining About: Comcast

Description

On Sunday April 26 I called Comcast spoke with an agent and made a payment arrangement to pay my bill on May 1st I was told on the call there wouldn't be any interruption of service on April 28 at 4:59 am my service was disconnected I tried to call in after 9 am to speak with someone regarding this issue I was left on hold for over 10 mins with no satisfaction when someone came back on the line her operator number is OL= said that it didn't matter that I was told my service would not be interrupted and yes I presided to tell her off cause I was giving a promise to pay and it was not kept on their end my cable is off as well as my security system

Ticket: # 3950006 - Loss of cable access

Date: 4/28/2020 10:42:24 AM

City/State/Zip: Pittsburgh, Pennsylvania 15221

Company Complaining About: Comcast

Description

I get most of my COVID updates via cable. It is easier for me to see (vision problems so reading tires my eyes after short time). Comcast will not restore my cable until I can pay, which I told them would be on the 3rd of the month. So basically I am now cut off from any entertainment. I don't have DVR or BlueRay. I can only watch on small devices like my phone, which will run out of charge quickly. I am POOR and at the mercy of big corporate bullies that don't look to see I pay a monthly bill on the 3rd each month. So I will be stuck inside; a disabled person, with my main distraction removed until May 3. I haven't received my CARE pay yet, so had no \$ to pay early with extra expenses right now. Comcast is a crook!!! PS: I already called them today the 28th to set payment, but they won't turn on my cable until the 3rd.

Ticket: # 3950026 - Insufficient internet

Date: 4/28/2020 10:50:55 AM

City/State/Zip: Rockland, Maine 04841

Company Complaining About: Consolidated Communications

Description

I read the Covid 19 pledge which did not address working from home with insufficient broadband. My husband is a radiologist and must work from home. The only company that can provide us with FTTH is Consolidated Communications, who refuses to help. How is he supposed to do his part as a front line worker with a speed of 4/1????

Ticket: # 3950051 - Verizon Internet Speed

Date: 4/28/2020 11:04:17 AM

City/State/Zip: Russell, Pennsylvania 16345

Company Complaining About: Verizon

Description

The consumers internet is terrible to start with.

Now with the COVID-19 issues its none existint.

The consumer uses the internet to run his company that he has from home.

The consumer states that they sold way to may subscriptions and now they can't supply the correct connections.

The consumer states that he bought a whole new computer and he is unable to set it up because he doesn't have the internet availability/speeds available to complete the procedure.

The consumer would like his internet fixed since he is paying for High speed internet and can't do anything.

He would like some sort of credit or something if they aren't resolving the issue.

Ticket: # 3950078 - Billing

Date: 4/28/2020 11:17:01 AM

City/State/Zip: Lake Charles, Louisiana 70601

Company Complaining About: Sudden Link

Description

Suddenlink called me and no, they are not trying to resolve anything without your involvement sitting at the table. Yes, they cut me off during a pandemic and they are the only utility company that has done that. Put my bill back separated today. I don't want to hear no more lies about a software that they ran. I have a master's degree in technology. This is all a bunch of lies. Fine their company or we can all talk about it together. Let me know if I need the President at the table too. I want this matter resolved now, not 3 days from today. Yes, I hung up in their face because it was the same old lie they have been peddling for 6 months. Learn a new story why don't you?

Ticket: # 3950281 - Price gauging during COVID-19 and oversaturation in service area

Date: 4/28/2020 12:24:29 PM

City/State/Zip: Auburn, California 95602

Company Complaining About: Sudden Link

Description

During the COVID-19 pandemic, we exceeded our monthly data plan because everyone in our family is required to stay at home. After this occurred a second time, we upgraded to the unlimited data plan to avoid more charges. Even after upgrading; however, Suddenlink still charged us overage fees and did so retroactively. We have been charged over \$70 in extra fees during this pandemic despite increasing our plan. We called to request that they waive the fees because of the pandemic, but they refused. The customer service agent refused to even transfer us to a manager. She was dismissive and rude. Suddenlink is one of the few companies refusing to help customers during this crisis. In addition to the overage fees, our Internet speed drops to 4Mbps during the evenings around 8:30 pm. This is 3x less than the 75Mbps speed that we pay for. This has been a greater problem since the pandemic but still occurred before the pandemic. The customer service person said that they can't guarantee anything and refused to adjust our bill. When a representative came out to our house, he admitted that the area is oversaturated. Our neighborhood has complained about this before, but Suddenlink continues to charge outrageous fees for poor service and does nothing about the oversaturation. Because of the area we live in, we have no other options for service. They are taking advantage of this. We want our overage fees waived and Suddenlink to deal with the oversaturation in our area.

Ticket: # 3950283 - interruption of service during the pandemic

Date: 4/28/2020 12:25:05 PM

City/State/Zip: Buffalo, New York 14209

Company Complaining About: Verizon

Description

I have two elderly friends, ages 91 and 97 who were one month in arrears on their Verizon phone bill. They were to have paid the March bill by April 25th. The phone service was discontinued on that date. I went to their house to see if they were ok and they were. I also secured the bill and after far too long listening to Verizon's recorded selections and messages about how important we are to them and having an online chat with someone, I was able to pay the bill by credit card. Because we wanted to pay it over the phone there was a surcharge of \$3.00. The phone service was finally restored on Monday morning.

Would it not be possible to call someone before turning off their phone during a pandemic when having emergency access to communication is imperative?

Ticket: # 3950331 - My bill is too high refused any help

Date: 4/28/2020 12:41:38 PM

City/State/Zip: Ontario, California 91764

Company Complaining About: Spectrum

Description

My bill went up \$25 I reached out for help and was greeted by a rude and insensitive to my situation customer service rep. I went on a told the person who went by Ryan that I live on a limited income and I cannot afford this bill spike. But he just repeated himself that nothing could be done and refused me any help. I asked for different options and I truly can't afford this at all. But Ryan swiftly ended the chat. This is completely unfair during a pandemic also to raise the rate to something that isn't affordable.

Ticket: # 3950362 - Corruption with Government officials

Date: 4/28/2020 12:50:37 PM

City/State/Zip: Jacksonville, Florida 32208

Company Complaining About: Other

Description

The "American Tower Corporation," is knowingly using faulty Amplifiers on their towers. It is the Covid 19 covered up. I have witnesses that will contest and evidence and medical documentation. Also willing conduct an experiment in my homes showing levels of lethal levels due to these towers. Also have their employees on record with witness present stating their equipment is faulty and they have no plans to fix their towers. Trump has owned this stock since 2016. Please address corruption.

Ticket: # 3950498 - Internet Service**Date:** 4/28/2020 1:40:39 PM**City/State/Zip:** Redding, Connecticut 06896**Company Complaining About:** Optimum

Description

Consumer is stating that he called Optimum to come to have his services switched to them from Frontier. Optimum disconnected his internet services from Frontier and then Optimum did not show up to have the services connected. Consumer stated that a tech was to come out and hook up the system and they never showed up. Consumer stated that he reached out to the service center and they were very rude to the consumer. Consumers father was in a nursing home and the home was going to set up a Zoom session so the family could see the father because the father had Covid 19 and this was that last time that they would be able to talk to him. Consumers father passed away. Consumer was upset because he told Optimum not to disconnect the internet until they were sure that they could reconnect everything right away. Consumer was told again that he would have to reschedule the appointment because no one was available to connect the service. Consumer stated that he has been calling Optimum and they are not answering and not returning his calls. Resolution: Consumer would like someone to come out to his residence and connect his service as soon as possible and he would like someone from the president's office to contact him directly.

Ticket: # 3950665 - Blocked internet access

Date: 4/28/2020 2:29:19 PM

City/State/Zip: Weed, California 96094

Company Complaining About: Digital Path

Description

We are operating under shelter in place orders here in Siskiyou county, CA. My landlord wants me to move out, but I have nowhere to go until I can move somewhere else - which is challenging bc of the covid issues. My rent is fully paid, and CA has blocked all evictions until the end of May. Working from home is my only option right now, which requires internet service. the internet has been under my landlord's name, and he has called the internet service provider and put the account on hold, even though I have fully paid for internet service for the month. The house is also in a rural area. There is no landline access and cell service is only intermittent. I need internet access in order to continue working. The ISP tells me they have to honor what the account holder wants. Because of the Covid closures, I have nowhere to go to get internet access and thus to be able to continue working - no library, no coffeeshops, and I can't go to a friend's house bc of covid shelter in place orders. My only recourse is to contact the FCC for help.

Ticket: # 3950714 - suspected scam calls

City/State/Zip: New York, New York 10011

Company Complaining About: Google

Description

Hello,

As a small business owner trying to get through COVID-19, I need your help.
I'm trying to move my Insurance Agency's data from Google to Microsoft as we migrated to a Microsoft platform and Google refuses to give me access to my account!

For all intents and purposes I'm a sole proprietor with only 2 temps working for me and Google will not provide the data until they "authenticate" me. I've tried every way to do that for them to verify my identity since the email above in question is still active.

I need your help intervening on my behalf. WE CANNOT ALLOW BIG TECH TO CONTROL OUR DATA LIKE THIS - ESPECIALLY DURING COVID19 THEY ARE NOT BEING THE LEAST BIT ACCOMMODATING FOR ME TO GET MY DATA.

I can be reached on (b) (6)

Thank you,

Ticket: # 3950745 - Optimum Availability Complaint

Date: 4/28/2020 2:55:29 PM

Company Complaining About: Optimum

Description

This email was listed in my internet services website. The internet company I am using took the “keep America connected pledge”. Which I thought was great. My husband and I have NEVER been late on a bill I must add, we’ve missed a payment because we’ve both unfortunately been layed off work from the pandemic. The pledge optimum took states clearly that they cannot terminate derive due to the inability to pay due to the pandemic. My has been terminated, I can’t contact any type of customer service from them. So since this company took this pledge and isn’t flowing it, what should be done? Please let me know, thank you!

Ticket: # 3950767 - Provider Lied Regarding Billing Adjustment

Date: 4/28/2020 3:04:20 PM

City/State/Zip: Wayne, New Jersey 07470

Company Complaining About: Optimum

Description

Due to Covid19 issues I am having, I called provider 4/14/2020 & they absolutely confirmed my bill would be adjusted to 98.72 for 2020. It was NOT adjusted. Contacted them again 2 times 4/28/2020 they gave me the runaround, and refused to make adjustment. I want this bill adjusted to 98.72 as they stated!

Ticket: # 3950777 - Replacement Lifeline phone does not work. Assurance Wireless refused to send paid for phone to me or communicate with me since March 9, 2020.

Date: 4/28/2020 3:07:47 PM

City/State/Zip: San Francisco, California 94102

Company Complaining About: Assurance Wireless

Description

Assurance Wireless sent a defective phone to replace my old lifeline phone that broke. They collected a \$5.00 replacement charge and sent me a phone that never worked with a battery that won't hold a charge. For over a month their phone number (888 321-5880) was busy day and night. When I was finally able to charge their defective phone for 48 minutes and get through to 611, I waited on hold for 38 minutes and when a man finally answered He said "Hello, Hello. I can't hear you and slammed his phone down and disconnected my call.

With no working phone I had no internet. When I finally got online on a borrowed computer the Assurance Wireless website as not working.

Assurance Wireless neglected to provide me with a working Lifeline phone two weeks before the Covid 19 virus interfered with communication so they can't blame it on Covid 19 problems.

Assurance Wireless has the worst phones and the worst customer service in any phone company I have ever dealt with. They should be fined or sanctioned or run out of business.

Assurance Wireless was the only free Lifeline phone provider in the area when I got service years ago and they tell me I can't keep my phone number if I change companies.

I have been going through medical procedures and looking for housing and I NEED a Lifeline phone NOW.

Please, please help me get a Lifeline phone that actually works with a battery that will charge and hold the charge.

I'm begging FCC for help.

Ticket: # 3950792 - billing

Date: 4/28/2020 3:10:25 PM

City/State/Zip: Evergreen Park, Illinois 60805

Company Complaining About: Comcast

Description

I was informed by an Xfinity rep that all customers with past due balances were automatically enrolled in some COVID-19 program for \$14.95/mo. This was not discussed with me and I feel I should be made aware when I'm paying out my pocket for something I might not even want. They also have an automated service that will not connect you with a live agent instead it texts you a link to text back and forth.

Ticket: # 3951152 - Scammed by Sprint

Date: 4/28/2020 5:18:12 PM

City/State/Zip: Hicksville, New York 11801

Company Complaining About: Sprint

Description

I opened a Sprint account through Best Buy on March 12. There were issues and on March 31, I returned it in the mail. The agent said I had to contact Sprint to cancel the account myself.

I contacted Sprint online and they said that I had to call to cancel. I returned the phone, so I had no way to call. I eventually got in email contact with Roberto Ramos, a Sprint Escalations Supervisor.

I demanded Roberto to cancel my account and that I had returned the phone. He said I had to wait till the return was fully processed, which it was a week later.

Meanwhile, Roberto convinced me not to leave Sprint and offered to price match Best Buy's deal. Everything was going fine. I ordered 4 phones. When I asked how to order the 5th, Roberto started claiming that I was committing fraud. He had me talk to Derick from fraud, who was the nastiest person I have ever talked to and recorded his call (with his permission) if you want.

He wanted me to go to a Sprint store. I told Roberto way before that I had several Covid-19 symptoms and live 10 miles from NYC, which is the US COVID-19 epicenter. I would be putting myself at risk as well as Sprint's employees and dozens of others. I told him I'm having trouble breathing and that if I end up in the ER, I won't be able to do anything, and he said he will be calling the cops and hung up. Very abhorrent and irresponsible behavior. He was trying to scare me into risking my life over phone service. He told me the other option was to fax. He got mad when I said I don't have fax. He told me to look on Google for free fax, which I did and sent several times with no confirmation from Sprint. It's 2020, they could just accept it directly through email like every other company.

I've been asking them to confirm the fax number since April 20. It is April 28th. I asked again to confirm the fax number on the morning of April 27th and a few hours later, my account was canceled and I'm now showing a near \$4700 charge.

I refuse to pay this. My family can't afford this amount while we have no service during such a crisis. I will immediately file a fraud chargeback with AMEX if that incorrect charge is charged to the autpay credit card because I DON'T authorize it. Call all the cops you want.

They also deleted 2 numbers I brought into Sprint, which I want back so I can port it out. First was (b) (6). This is illegal. They still want me to call knowing I have no service.

I want to stress that I originally contacted Sprint to cancel. What fraud do they think I'm doing by asking Sprint to cancel an account with a phone I returned? Again, Roberto convinced me to stay and told me to order 4 more phones and even sent me a temp phone to use, which he won't help me return. I wanted to close the account the second I got in contact with him.

I have no problem providing verification. I understand the need for fraud checks. I've sent all requested documents and can send it again and also send other information they might need.

I also want to point out that I was previously a Sprint customer from July 2017 to July 2018 and paid on time with no issues and left with my account in excellent standing. The account number was

(b) (6)

I don't understand why they're treating me like a criminal especially during such a horrible crisis. This is the worst behavior I've seen from a company. They're just jerking me with no info.

Ticket: # 3951163 - Stores closed due to COVID-19, charged for equipment they would not take back

Date: 4/28/2020 5:25:29 PM

City/State/Zip: Galveston, Texas 77550

Company Complaining About: Spectrum

Description

I called and terminated service with Spectrum effective 4/3/20 because I was moving out of state to an area they did not service. The move occurred during the COVID-19 shelter in place order in KY so the Spectrum stores were closed and unable to accept the return of the modem. On 4/12/20 I received a bill for an additional month of service (\$69.99) and the modem (\$59.00). I called and spoke with Jose that day and was told all of the fees would be waived and no follow-up was need. On 4/14/20 the account still showed a balance. The call center was closed due to "unexpected call volume" but an internet chat with Brendan and his supervisor Cory D (ticket #185555850001) resulted in the service charge being removed, a promise that a pre-paid mailer would be sent to me to return the modem and no charge would be made if the equipment was returned within 60 days. On 4/23/20 Spectrum made an unauthorized charge of \$59.00 to my credit card. On 4/28/20 I called and spoke with Brandy (ticket# 3211407) who said she credited the \$59 and then transferred me to Ace who said she had not passed along notes, had not credited the amount. He kept me on the phone supposedly holding for a supervisor with me until he hung up on me approximately an hour into the call. Stephanie, a supervisor called back and told me the \$59.00 charge could not be reversed but that she would send a new mailer and once returned, the charge would credit back.

Ticket: # 3951265 - Keep America Connected Pledge

Date: 4/28/2020 6:24:23 PM

City/State/Zip: Hugo, Oklahoma 74743

Company Complaining About: Sudden Link

Description

I am a Suddenlink Internet customer. Suddenlink has posted on their website <https://www.suddenlink.com> that they signed on the the Keep America Connected Pledge, that states they will not disconnect Internet service. Due to issues surrounding the coronavirus epidemic, I called Suddenlink on 04/06/20 about my past due account and was given an extension until 05/13/20 to get my past due amount caught up. On 04/28/20 my Internet service was disconnected for this same past due amount, during the middle of my extension, and extension I should not have had to get in the first place if they were truly honoring the pledge they signed. I had to find a way to get them paid before my own salary came through, and right in the middle of my payment extension. I hope you will find out why they are cutting customers off when they are claiming to be doing their part during this pandemic.

Ticket: # 3951287 - unwanted coronavirus spam call

City/State/Zip: Kirkland, Washington 98033

Description

Received a phone call of which the recorded message told me to hang on the line while I get transferred for an important coronavirus call. I am on the Do Not Call registry but it doesn't seem to work for me because I keep getting them.

Ticket: # 3951291 - Billing-no payment aragement extended

Date: 4/28/2020 6:50:25 PM

City/State/Zip: Middletown, New York 10941

Company Complaining About: Sprint

Description

Hello. I'm having an issue with the Sprint phone company in terms of them disconnecting my services and not extending any payment arrangements. I understand that" the FCC is working to ensure that Americans stay connected during the COVID-19 pandemic and is also taking steps to protect the health and safety of its staff" However sprint is not helping the issues. I have a past due bill of \$685, and I made a payment of \$150 today so that I would be able to get an extension and not disconnected, but sprint is asking for another up front amount of \$160 today to keep my services on. but I currently don't have that amount, and if I did I would have gladly paid it. All i asked was for two week extension. Sprint knows that I pay my account on time, I've been a sprint customer for more than 15 years. I don't understand as to why its not being granted during these hard times.

Is there any way that you can look into this issue? I don't want to have my services turned off, I need to communicate with my children while I'm at work. I'm not sure why they are not helping us Healthcare workers. I work in the ER and I need to keep in contact with my family.

Ticket: # 3951293 - robocall advertising about the coronavirus

Date: 4/28/2020 6:53:00 PM

City/State/Zip: Kirkland, Washington 98033

Description

This robocall had a recorded message saying that I needed to hold the line while they transferred me to an important message about the coronavirus. I am on the Do Not Call Registry so I do not know why I keep getting these calls.

Ticket: # 3951304 - Charged added fees and Internet tax

Date: 4/28/2020 7:01:46 PM

City/State/Zip: Las Vegas, Nevada 89115

Company Complaining About: Cox

Description

I noted an extra \$3.64 on the bill. Then noted internet tax added to the bill. Last year the entire year I had no service it was a constant battle to get service repairs. In addition was told if we come out there can be a \$75 charge. Cox is price gouging and over charging during this Pandemic time. I was never answered why there is an extra \$3.64 as I will not pay and furthermore I am owed all taxes back since the beginning of my service.

Ticket: # 3951307 - Internet out for second time in less than a month.

Date: 4/28/2020 7:02:23 PM

City/State/Zip: Phoenix, Arizona 85023

Company Complaining About: Cox

Description

Internet is out for the second time in less than a month. I am at home, during a pandemic, trying to work and get through the day. I do not pay \$120.00 a month to NOT have internet. This is unacceptable and because of Cox's failure to provide internet service, I will be forced to work late hours into the night after they restore service. If it is restored by 9:11 pm (6 hours from when it went out), that is.

Ticket: # 3951320 - Keep Americans Connected pledge

Date: 4/28/2020 7:17:23 PM

City/State/Zip: Petersburg, Virginia 23805

Company Complaining About: Verizon Wireless

Description

Verizon Wireless signed an agreement with the FCC not to cut service off during the Pandemic and yet they cut my service off and I had to pay the entire past due amount to get my service reconnected.

Ticket: # 3951385 - After 5 tech visits, still no service

Date: 4/28/2020 8:05:24 PM

City/State/Zip: Garland, Texas 75042

Company Complaining About: Spectrum

Description

I have had 5 Spectrum visit my home over the 5 days and have not been able to get internet installed. They keep sending the wrong technicians out that don't deal with fiber installations or aren't the bury crew. They aren't able to give me an exact date of my installation or aren't even able to notify me once the wire drop has been completed so I can schedule a service install. I'm unable to work from home and my child can't attend class during COVID19 because we have no service.

Ticket: # 3951410 - Suddenlink Billing Complaint**Date:** 4/28/2020 8:27:04 PM**City/State/Zip:** Eureka, California 95503-6550**Company Complaining About:** Sudden Link

Description

I have two telephone lines provided by Suddenlink. I informed Suddenlink that I was have intermittent problem with dial tone on my (b) (6) They attempted a repair from their office and said it didn't work and they were going to send out a Tech on 3/24/20. No mention of any charges for this. Tech came on 3/24/20 (did not enter home due to Covid 19) line worked when he left. He had me sign a pad (just signature line) nothing for me to see related to any charges. I was charged \$60. Problem returned immediately after tech left. I would like the charge reversed as I was not informed that there was going to be a charge. Suddenlink Chat room representative refused to reverse charges.

Ticket: # 3951435 - Misrepresentation and Billing

Date: 4/28/2020 8:45:04 PM

City/State/Zip: Fairfield, California 94534

Company Complaining About: Comcast

Description

My Xfinity package is 109.99 for 104+ channels, 300Mbps internet and phone. I dont have a phone but it was cheaper to get all three than just TV and internet. My complaints are:

1. The package for 104+ channels is \$109.99, however I cannot see any of the channels without an additional Broadcast Fee that keeps encreasing with no warning or explanation and is now \$14.99.

This is not an optional fee. I also have to pay another \$8.00 fee for Regional Sports that I do not want nor watch. This is also not optional. BTW, there are no sports right now due to COVID-19 so why charge for this? I would like to pay for package fee that was sold to me and not additional fees that keep encreasing during the term.

2. Out of the 140+ channels, I only watch about 10 of them. Yet I still have to pay for 140+ and the additional fees just to watch the 10 or so channels I want. I would like to pay for the few and only the few HD channels that I actually watch.

3. Internet is adverstised as 300Mbps. No matter what I do to optimize my internet, I cannot get more than 270Mbps and that is using only one device. Usually its less than 200Mbps and sometimes around 50 or less. I would like to pay for the bandwith that is actually being delivered and not what is falsely advertised.

4. If I try to get just internet with no TV or Phone, I actually have to pay more. This does not make any sense at all. I would like to pay a resonable "lower" price for the fractional service I am using.

5. I feel like Xfinity is extorting me, charging hidden fees (why not just add it to the package fee if it is mandatory?) and falsely advertising and claiming higher speeds.

Ticket: # 3951467 - Cox Cleveland NOT extending Data Cap Suspension

Date: 4/28/2020 9:11:58 PM

City/State/Zip: Broadview Heights, Ohio 44147

Company Complaining About: Cox

Description

AT&T, Verizon and Comcast have extended data caps yet Cox continue data caps on May 15, 2020. They obviously don't care about their customers all the money they will be racking in from overage fees.

As of 4/28/2020

<https://www.cox.com/internet/mydatausage.cox>

"We've got you covered. Beginning March 16, 2020 through May 15, 2020 data overage charges will be paused. Customers with Unlimited or 500GB data add-on plans will receive credits for their add-on plan for two bills. During this time we have suspended sales of our data plans. We want to help make sure you have the resources you need to remain productive during the coronavirus work and school closures."

Ticket: # 3951472 - AT&T disconnected my cell phone service during covid-19 and refused to connect without payment of \$900.00

Date: 4/28/2020 9:18:01 PM

City/State/Zip: Lake Worth, Florida 33461

Company Complaining About: AT&T

Description

AT&T disconnected my cell phone service during covid-19 and refused to connect without payment of \$900.00. I live alone and I have no phone during this pandemic due to att refusing to connect my service

Ticket: # 3951485 - Frontier

Date: 4/28/2020 9:33:14 PM

City/State/Zip: Stillwater, Pennsylvania 17878

Company Complaining About: Frontier Communications

Description

Frontier comm is billing me for up to 6 Mbps service and when speedtested since January 2020 has roughly averaged around 1. Tech support is no help and tries to transfer me to another person to sell me a faster plan with 15+ Mbps capabilities but are billing me for 6mbps but can't get more than 0.7mbps most of the time. With two children trying to do school work and a wife who is a nurse trying to download schedules for working during this pandemic it is unacceptable.

Ticket: # 3951486 - Will not let us remove phone lines we haven't used in years

Date: 4/28/2020 9:35:21 PM

City/State/Zip: Farmingdale, New York 11735

Company Complaining About: Nextiva

Description

We signed a three year contract with Nextiva which ended in 2019. After signing a contract, they updated their terms and conditions, saying all contracts will be automatically renewed. They never informed us of this change. Our business has shrunk, and now with Covid19, has got even smaller. However, Nextiva will not allow us to remove 7 phone lines that we do NOT use. They insist we need to keep them and pay for them. We cannot afford these phone lines as we have had a reduction in staff. We don't use these phone lines and haven't used them for years. However, Nextiva is insisting we pay for them for the next two years.

Ticket: # 3951487 - Internet

Date: 4/28/2020 9:36:34 PM

City/State/Zip: Ashby, Massachusetts 01431

Company Complaining About: Comcast

Description

I understand internet will be slow because of the Covid, but i pay for the boost. It should be at least 1/4 of the paid speed. I can get anyone from Comcast to take calls, as a qualified Gov tester in voice response system, Comcast is worst than the IRS and Avon. For upgrades of modem is a major violation off the FCC. This complaint is be forward to other gov departments to ensure i still rec payment for service attempts. The main line was recommended by the field tester to be replace prior complaint is already on file with FCC, after he observed the secondary line cracks and water in the pipe.

Ticket: # 3951527 - PA resident should get PA news not be mistreated by force to get NY news channels.

City/State/Zip: Wellsboro, Pennsylvania 16901

Company Complaining About: Dish Network

Description

That is being forced on me because I live in Wellsboro, PA. I can get no PA news concerning PA coronavirus 19. This is a major foul up because of the FCC rules according to Dish satellite service. Change the rule that zip code mandates the local channels you are allowed to get, this is wrong. I

Ticket: # 3951555 - Youtube censorship

Date: 4/28/2020 11:25:52 PM

City/State/Zip: Thornville, Ohio 43076

Company Complaining About: Google

Description

23ABC recorded an interview with Dr Erickson and Dr Massishi from California on COVID19 and at the time of the interview numbers of deaths, infections, etc. in their county, California, USA and other places in the world. They presented numbers some I have verified. Youtube has censored this video. We can no longer let giant internet companies censor information even if it is inconvenient to government or political entities. Please investigate this censorship and if we allow censorship by these companies then they need to be heavily regulated to make sure free speech continues. here is the link that was censored

https://www.youtube.com/watch?v=xfLVxx_IBLU&feature=youtu.be&fbclid=IwAR2U_z6AvoZhdTu6RYGAgi4H3SN1rODCKLZD2K-3qG6r1vgvEtGHwYUVST8

Ticket: # 3951560 - Frontier Communications

Date: 4/28/2020 11:41:09 PM

City/State/Zip: Lynd, Minnesota 56157

Company Complaining About: Frontier Communications

Description

Frontier Communications offers increased internet speeds and technician service when the service is not available and has cancelled appointment after appointment without notifying me. The lack of service during the pandemic has interfered with homeschooling and working from home. Discounts have been applied, but we need to bring to attention the customer service experience we are having with Frontier. I have been in contact with the MN Attorney General's Office, and they sent me documentation of contact with Frontier; then, they recommended I contact your office.

Ticket: # 3951591 - Consistent Loss of Service

Date: 4/29/2020 1:16:31 AM

City/State/Zip: Las Vegas, Nevada 89108

Company Complaining About: Cox

Description

Ever since the Covid-19 pandemic started, I began to experience loss of service. My internet goes down or is intermittent daily between 10 Am to 11 Pm. The company has not resolved my issue and all it does is blame my equipment instead of acknowledging issues with their infrastructure and service.

Ticket: # 3951703 - Fox News - Allows false information on Covid-19

Date: 4/29/2020 8:37:28 AM

City/State/Zip: Dalton, Massachusetts 01226

Description

I want to complain about Fox "News" allowing false information on their network about Covid-19. They should be given large fines and pay it to the families who have lost people from Covid-19. I expect the FCC to diligently and aggressively pursue this issue. This must be done immediately.

Ticket: # 3951784 - Service/Billing

Date: 4/29/2020 10:03:22 AM

City/State/Zip: East Sandwich, Massachusetts 20537

Company Complaining About: Comcast

Description

Comcast is her carrier.

She has been a customer for over 30 years.

She only needed 4 days until she got her SS check to pay her past due balance during this pandemic.

They shut her service off.

She asked them to wait until she got the SS check.

She has a heart condition and is very ill.

She has pneumonia.

Resolution:

She wants her TV back on.

She wanted them to wait just 4 days until she got her SS check.

They have none this before.

Ticket: # 3951822 - Cox phone and internet

Date: 4/29/2020 10:29:00 AM

City/State/Zip: Broken Arrow, Oklahoma 74012

Company Complaining About: Cox

Description

I called cox to add a fax line to my account, the agent stated she will send me an install kit but i never received the kit. I didn't called back until my bill got here and i been charge for the services i never used. The reason i didn't call is because i figure the orders where behind because of the pandemic, so i try calling 2 time for the same reason of my bill and i opted to cancel my fax line, when i cancel the agent stated that she will send me a box to return equipment, i stated to her that the reason I am calling you because i didn't get the kit and I am getting charge for a service I did no use because i didn't have an equipment, agent was very rude and she made me get out of my place and I answer back to her so angry, i try to explain many time and she will still tell me the same thing.

Thank you

Ticket: # 3951826 - At&t U-VERSE Internet & Home Phone Service

Date: 4/29/2020 11:08:04 AM

City/State/Zip: New Orleans, Louisiana 70116

Company Complaining About: Cox

Description

I am affected by the pandemic and am unable to pay for my Cable or Internet service. Cox continues to threaten disconnection and demands a "commitment" to pay by 5/21. How do I know if I will be able to pay by then?

Ticket: # 3951981 - Unable to contact Optimum**Date:** 4/29/2020 11:47:56 AM**City/State/Zip:** Butler, New Jersey 07405**Company Complaining About:** Optimum

Description

I'm not one to file cases against people but Optimum has pushed my limits. I upgraded my service from their basic plan (about \$48.00/month after fees) to a higher one due to the strain on my internet during the COVID-19 Pandemic. Got through just fine. I agreed to upgrade and they told we I'd receive new equipment within the next 48hrs, since my equipment is not compatible with the 300mbp service. Great, I can wait 2 days. Well 4 days roll around and I still don't have a package. I call around 1PM and their CS is CLOSED...DURING a PANDEMIC.. The guy told me he couldn't help but it was "mailed." Fine, it's Saturday, I don't have to work until Monday. I continue with him to switch my phone service from Verizon to them, to save money for my company (\$100 phone bill vs \$30, no brainer...PS this process started 4 days ago, when I upgraded my internet). So here I sit over a week later, I can't get a hold of anyone. I signed up for their callback no call, I signed up for their scheduled callback, no call. I emailed them, Facebook commented on their post and PM them as request/suggested. I currently have a \$100 bill during the middle of this for a service I can't use and can not get in touch with anyone. No new equipment and still no new phone service. A number of people requested I reach out to FCC to report them so here I am.

Ticket: # 3952006 - Optimum Frivolous Billing

Date: 4/29/2020 11:55:20 AM

City/State/Zip: Brooklyn, New York 11225

Company Complaining About: Optimum

Description

Optimum sent a technician to my house and attempted to charge me for a free installation. The technician demanded that I call Optimums phone system to submit payment for my free installation. The technician then left my residence leaving me with no internet service in a pandemic. I called Optimum back and they forced me to pay a 10 dollar fee to pay my first bill because their automated payment system was "broken" and could not be fixed.

In summary, I was fraudulently charged for a free installation and fraudulently charged for my first month's usage. I currently still do not have internet service at this house.

Ticket: # 3952013 - Hardship due to covid-19 company force you to pay before they offer assistance

Date: 4/29/2020 11:57:16 AM

City/State/Zip: Hollywood, Florida 33020

Company Complaining About: AT&T

Description

Behind on my internet bill so I called to make payment arrangement and then asked them to see if there is something they could do to offer some relief to me due to me not working as a result of covid-19. I was told that until I pay my past due balance there nothing hey can do. I was bounced from one department to the next with no help, the last dept I was pasted to I explain that I do not have the money to pay all the balance at this time can they offer any help, rudely I was told no. when I explain that I was trying to be a loyal customer and stay with att when I could call another provider and get a much cheaper rate, she told me let me then transfer you to the cancellation dept,

Ticket: # 3952063 - Xfinity Mobile Overcharging Every Month!!**Date:** 4/29/2020 12:14:12 PM**City/State/Zip:** Chicago, Illinois 60616**Company Complaining About:** Comcast

Description

I have been a customer with Xfinity mobile for over a year. Recently, they started to charge customers \$12 per GB data and cancelled 100MB free data they used to offer. I always keep cellular option "off" on my phone and set everything in "off" mode so that my phone only uses WIFI when available. Last month, I was billed for 272kb data, which I NEVER USED. I found that to be very strange since everything was in off mode. This month, I stayed at home at all time, so I am only using my home internet services. Yet, I was billed again for 0.01GB of data for \$12. When I checked my phone, again, it shows 0 byte of data usage. I was over billed for 2 months for \$24. If this continues, xfinity will keep overbilling me for something I NEVER used for as long as they can get away with it. They are running a fraud when everyone is suffering from the impact of COVID-19. They are overcharging because the gov't are NOT running at full capacity so there is NO oversight. I tried to contact xfinity mobile, but my calls were dropped every 15 minutes and there is no way you can get a live agent to address you issues. I am totally disgusted with the billing practice of xfinity mobile.

Ticket: # 3952154 - Left with no internet during covid19

Date: 4/29/2020 12:51:52 PM

City/State/Zip: Davenport, Iowa 52804

Company Complaining About: Mediacom

Description

Mediacom shut off my internet, I called to complain and spent over an hour troubleshooting with them before they mentioned that they shut off all of the old routers and modems and didn't know that I still had one. I rent my modem from them and they could see the type before we started troubleshooting. My kids have online classes and have missed many hours of instruction, video learning through Google classroom, they are cut off from communication with family and friends isolating them even further during these pressing times. They said they would rush a new modem to me and it would be to me via FedEx within 2 days. It has now been longer and I called back to check on the status. The woman I spoke with said the modem just now shipped and I wouldn't have it before Monday. That is even more time my kids are missing out on communication, schooling, and they will fall further behind and become more socially isolated because of mediacom. This is so unnecessary and unacceptable and it needs to be fixed immediately. There is a mediacom employee who lives down the street from us and drives his truck around all day. Why could they not have their local office bring me a new modem instead of using FedEx? This could be resolved much faster but instead they are making my family suffer while our bill is caught up and paid in full. They offered a measly \$15 credit on our account. Is that what my family is worth to them? I hope this doesn't happen to anyone else during this time because it is so important to have outside contact and communication.

Ticket: # 3952175 - Free subscription fraud COVID-19

Date: 4/29/2020 12:57:41 PM

City/State/Zip: Astoria, New York 11102

Company Complaining About: Spectrum

Description

Consumer is placing a complaint against Spectrum. Consumer states that she had previously service with spectrum, but since the service was horrible, she was forced to disconnect the service. Consumer states that since the classes were cancel her daughter was forced to take school online. Consumer spoke with the school member about the situation and they told her about the pledge of the FCC of keeping America connected and mandated providers to open their hot spot to any American that needs it for two months. When she called spectrum because that is the provider in her building they offer her a completely free 30 day subscription the agent promised to her that this was going to be free this happen on the 02-2020 by the 03-2020 she had a bill coming in and they told her that was a mistake of the system but that she did not had to pay for it. Then she was told that in case that she wanted to keep the service for \$45.00 that she just needed to keep the service for the next month otherwise she will need to call before the subscription is over to cancel. Consumer was interested on keeping the service and when she needed to pay the bill was up into the \$90.00 consumer called consumer service and ask why this was happening and they told her that the policy that they have is that if you keep the service you have to pay for the previews month as well. Consumer was never told about this. Consumer totally believes that Spectrum lie to her and took advantage of this. Consumer believes this is a fraudulent moved where they tell you a month free and if you stay with the service you need to pay. No policy of any company is above the law. Consumer is looking to have the month of march remove from her billing. She wants them to honor the offer. Consumer will pay for April.

Ticket: # 3952289 - Slow internet

Date: 4/29/2020 1:31:53 PM

City/State/Zip: Defiance, Ohio 43512

Company Complaining About: Metalink.net

Description

(b) (6) With the pandemic going on out internet is in and out of service or too slow to use. Our provider I was told has no plans for increasing the speed because of our rural location. I had to take an online course twice because of the speed and am required to do this yearly. If this happens again do you have money to give Metalink.net. The funds to increase our speed. Thank you for your help.

Ticket: # 3952300 - Poor Optimum service

Date: 4/29/2020 1:38:38 PM

City/State/Zip: Brooklyn, New York 11206

Company Complaining About: Optimum

Description

I work from home and get really poor internet service from Optimum cable. Multiple complaints throughout the year. They have never helped or fixed the problem as this has been going on before Covid-19.

Ticket: # 3952328 - DIRECTV STELAR ACT

Date: 4/29/2020 1:45:28 PM

City/State/Zip: Brandon, Vermont 05733

Company Complaining About: Directv

Description

The consumer states that she received a message from DIRECTV saying that they could lose their network channels (ABC, CBS, Fox and NBC) On June 1 because of the STELAR Act.

I explained to the consumer that Congress last year did not renew the law, and it's scheduled to expire June 1, which is why DIRECTV is notifying subscribers that they could lose the networks on that day.

I told the consumer that AT&T is urging Congress to pass a temporary extension, noting that some customers could lose access to important news updates during the Coronavirus outbreak.

The consumer would like for DIRECTV to do something to allow consumer to continue receiving these channels.

City/State/Zip: Glen Daniel, West Virginia 25844

Company Complaining About: Suddenlink

Description

During the global pandemic my kids school was canceled which resulted into online school.

Suddenlink decided to charge me 1100 dollars instead of 70 dollars a month for " data overuse" and now my kids cannot go to school this company is always committing fraud.

Ticket: # 3952620 - robocalls from spoofed numbers

Date: 4/29/2020 3:15:05 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the beginning of 2020, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are marketing calls. All of the numbers are presumably spoofed, and presumably they are all robocalls. The frequency of the calls has varied. For most of January and early February, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped.

Many of the spoofed numbers were registered for Greenville, MS. However, I have also received calls from Coffeetown, Booneville, Hollandale, Tupelo, Aberdeen and Winona. For a brief period, calls came in from out of state as well. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. The call I am reporting in this complaint was identified as coming from Kilmichael, MS.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 3952628 - unwanted AT&T covid calls

Date: 4/29/2020 3:19:01 PM

City/State/Zip: San Bruno, California 94066

Company Complaining About: At&t

Description

For three weeks I have been receiving frequent calls from AT&T informing me about covid-19. I have called them four times asking them to no longer call me. They continue to call me, despite my phone number not being associated with any AT&T account.

Ticket: # 3952659 - No internet service after service appointment**Date:** 4/29/2020 3:29:01 PM**City/State/Zip:** Atlanta, Georgia 30306**Company Complaining About:** Comcast

Description

I recently moved to the current address listed below. I signed up for Comcast Xfinity Internet service and paid the \$50 to move ahead with gaining my service and equipment. I set up my service appointment which was today 4/29/2020 from anywhere between 10-12. Due to the current situation with COVID-19 I was made aware that the technician would not enter my home to set up the service which is perfectly fine. The technician arrived 8 minutes before the cutoff time and had explained that he "knew that the line running into my building had service". He gave me my equipment with instructions and asked if I had questions, which I did not. I proceed to setting up the Gateway box as instructed, but come to find that neither port in my apartment has service so I was unable to complete my internet setup. I then called customer service after making yet another appointment through the app to have this issue looked at. I asked the customer service rep if there was any chance someone could come figure out the issue today. I have already paid for this service that I had to wait 2 days to get equipment for and now I have to wait an entire business day to actually have service. The customer service rep said that there were no appointments and I needed to be happy with the guaranteed appointment I had for tomorrow. I explained how this was not satisfactory since I have already paid for a service I do not have yet and now have to wait again. I am an essential employee working from home and this is a huge inconvenience. This is also not the first time I have had this issue with Xfinity with their technicians not ensuring service is connected in my home. The customer service rep said that since I have already paid for the service then I would have to call and make sure I get a credit for the days I have not had service. Again, huge inconvenience and this is something I should not have to follow up on as a consumer, because quite frankly, I doubt I will be successful in receiving the credit. Comcast/Xfinity is unfortunately the only service provider in the area that I live in and if I could choose someone else, I would, but I can't. I just wanted to bring this to the attention of whomever this may concern. I understand with COVID-19 companies have to make changes in how they operate, but if that is the case, I feel like the customer service rep should have done everything in his power to help me troubleshoot before just saying I have the wait. The technician should also have made sure that everything was connected properly. The technician sat outside my unit for an additional 30 minutes, so to say that everything is booked and they are busy is a little hard to believe.

Ticket: # 3952803 - robocalls from spoofed numbers

Date: 4/29/2020 4:21:06 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the beginning of 2020, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are marketing calls. All of the numbers are presumably spoofed, and presumably they are all robocalls. The frequency of the calls has varied. For most of January and early February, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. The call I am reporting in this complaint was identified as coming from Pascagoula, MS.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 3952991 - Suddenlink Internet service unreliable

Date: 4/29/2020 5:34:22 PM

City/State/Zip: Brenham, Texas 77833

Company Complaining About: Sudden Link

Description

For the past several months my Suddenlink Internet service has been unstable and often times unusable. I have called them many times for technical support and arranged for repair service, but they never address the issues with their system. They replaced the drop line that ran to my house, but that didn't solve anything. I've had a repair technician to my house twice in the past month and he has found no issues in my equipment. After being told that they would investigate the situation further on their end, my service has remained unstable. It often goes out while I'm attempting to work from home due to the Covid-19 pandemic. Despite all of the issue, they have continued to raise my monthly fee every 4 to 6 months. When I first signed up for service with Suddenlink, my monthly fee was around \$35 without any special offers. Now, my monthly fee is more than \$85 a month. While I haven't made a complaint to them about what I consider to be an excessive monthly charge, I have tried more times than I can count to get them to fix and maintain their lines and equipment and provide me and my neighbors reliable service. I've reached the point where I don't feel like I have any recourse in the matter. I don't know what more I can do to get them to address the issue. I do know that I am not receiving the level of service that I am paying for. Can you please help me get them to find and fix the issue once and for all?

Ticket: # 3953015 - Phone Service Contract - Early Termination

Date: 4/29/2020 5:50:33 PM

City/State/Zip: Bogata, Texas 75417

Company Complaining About: Jive Communications, Inc.

Description

The phone servers installed in 2013 by JIVE Communications, Inc are not functioning properly and interfering with our internet. Due to COVID-19, it is imperative that our internet and phone systems operate so we can serve our students remotely. Rivercrest ISD requests an early termination of our current contract with JIVE Communications, Inc which ends June 30, 2022.

Ticket: # 3953032 - Altice/ Optimum Internet Disconnected During Pandemic without permission

Date: 4/29/2020 5:58:03 PM

City/State/Zip: West Gilgo Beach, New York 11702

Company Complaining About: Optimum

Description

I was on the phone trying to understand why my bill increased \$40 from the fixed price this month. The representative said they could upgrade my service and restore the lower original price. I emphasized that due to the pandemic I am working from home and cannot lose connection. They assured me this was just a paper work change and no service impact. Suddenly the phone disconnects and my internet goes out. After calling back and waiting 2 hours they confirmed that "service was discontinued at users request". This is a huge issue while I am confined to my house. Please Help!

Ticket: # 3953062 - land line phone issues

Date: 4/29/2020 6:17:29 PM

City/State/Zip: Brooklyn, New York 11204

Ticket: # 3953112 - 1-800-340-2445 Toll Free number assigned to a non-existing RespOrg

Date: 4/29/2020 6:53:23 PM

City/State/Zip: San Diego, California 92127

Company Complaining About: Voxeo Corporation

Description

Dear FCC team,

I'm part of HP and I'd like to have some information in how to recover HP Supplies Planet Partner toll free number 1-800-340-2445. This number was routed to one of the offices of HP's 3rd party that due to COVID-19 is no longer in business. By reading your available documentation, I've tried to contact the RespOrg of this toll number to request transfer to another carrier, but Voxeo Corporation - listed as the RespOrg for this toll free number is no longer in business. I called Aspect, the company that purchased them and they don't know anything about this service. Is it another way HP can recover ownership - or route this toll free number to a functional new phone? We already have a provider that would take ownership but we do not know how.

Many thanks for your help on this issue.

Ticket: # 3953125 - Buckeye Cable Outages

Date: 4/29/2020 7:02:19 PM

City/State/Zip: Sylvania, Ohio 43560

Company Complaining About: Buckeye Cable

Description

We pay a lot of money monthly for Buckeye internet (and cable). It is constantly going out...even prior to covid. It's not fair that they haven't tried to resolve this. They just keeping taking my money and offering crappy service - but we have no other choice. It's criminal.

Ticket: # 3953175 - Several emergency alerts from Sweetwater County

Date: 4/29/2020 7:36:21 PM

City/State/Zip: Canon City, Colorado 81212

Company Complaining About: Sweetwater County

Description

I'm receiving emergency alerts from Sweetwater County regarding a servay about covid19 every 30 minutes to hour and I'm a truck driver and live in Colorado.... I'm quite mad that I'm receiving them even after I did the servay....

Ticket: # 3953227 - Hulu significantly increased commercial volume

Date: 4/29/2020 8:13:07 PM

City/State/Zip: Norwalk, Ohio 44857

Description

Hulu recently increased the volume significantly on all of their commercials. I believe this was done maliciously to entice consumers to purchase commercial-free plans, which cost more. I also believe the timing of this was taking advantage of the unfortunate pandemic occurring, which resulted in far more Americans being at home and thus Hulu decided to exploit that for financial purposes. I find this disgusting and appalling.

Ticket: # 3953231 - Internet speed less than guaranteed MINIMUM

Date: 4/29/2020 8:19:15 PM

City/State/Zip: Alvarado, Texas 76009

Company Complaining About: Rise Broadband

Description

My complaint is that I not getting at least the 60% minimum internet speed that I pay for month. For several months (including prior to COVID) there have been issues with internet speed and multiple calls were made to provider regarding reliability. I am on a 50M Unlimited plan, typical speed test results using Rise Broadband speed test application are in the 16-19 Mbps range. This is well below the 60% minimum that I should be receiving. Over the past week and a half, I have been experiencing download maximum speeds of less than 1 Mbps up to maximum of 4 Mbps. Weather conditions have been clear locally during this speed tests and time of day (early morning, mid-day, evening, late night) hasn't changed results so an excuse of 'network congestion' is not acceptable. I have followed company provided 'troubleshooting' steps completely and when they don't resolve the issue, their advice is to then call technical support. Company tells me that they have 'escalated' the issue, but they follow up to see if issue resolves once their technicians complete their 'fix'. Various times technicians have mentioned that Rise equipment as being at near capacity, which would explain network congestion due to inadequate infrastucture and support. There has also been the comment 'the need to add additional towers, because existing ones have too many customers trying to use them'.

Ticket: # 3953273 - Billing

charged reginal sports fee. Reginal sports are not being shown. Covid stopped all sports.

Ticket: # 3953343 - Hacked email Att refuses to help

Date: 4/29/2020 10:28:41 PM

City/State/Zip: Waukesha, Wisconsin 53189

Company Complaining About: Att

Description

my wifes AT&T email was hacked and the Password has been changed along with the security questions. When attempting to rectify this issue by clicking the "forgot Password" link the only option given was the security questions (that have been changed on us) no option to have a code sent to our phone or a recovery email that was already set up only the security questions. I searched the myatt.com site for help only to find articles telling me to change the password with no link or option to take me to do so or even detailing how to do so. I search the interwebs with the same results, I finally tried to use the online assistant who was to have a messaging conversation to help but was redirected to limbo, no help was going to be available that way. I finally called the 1-800-331-0500 number and spoke to a very nice representative who tried from her end to help but found she had the same limitations as I did in trying to fix this. She called her supervisor who informed her that due to the pandemic the mobile solutions group was short staffed and not to be disturbed she informed me she was not allowed to contact them and if she did she did not believe that they were even operational and informed me that sadly they were literally the only area in the company that could help me as they are the only group with authorization to reset passwords. I was then informed that it would have to wait until after the pandemic to get my wife's email back from a hacker. In the meantime a hacker has all of our information and could be doing god knows what with it, my wife has no email (in a world that is strictly social distanced and dependant on email) and I have a email/internet provider who refuses to help us until "after the pandemic". My call was placed to them around 8:33 p.m. cst on Wednesday 4/29/2020 incase you need to request the recorded conversation. Please help all we want is my wife's email back from a hacker.

Regards,

(b) (6)

Ticket: # 3953396 - Over charge by Verizon

Date: 4/30/2020 12:23:07 AM

City/State/Zip: Aiken, South Carolina 29802

Company Complaining About: Verizon

Description

my Verizon bill was late in payment

I called to pay and asked for an Explanation

About a 90.00 charge they said I was late paying my bill they cut off my phone and it was a reconnect fee

I explained there's a pandemic and money is tight and he said that I had promised to pay and didn't

So they cut my phone off

That was not true

I asked them to remove the fee he said he could only removed 30.00

I said ok

I'll contact the fcc and see what they say

I would like my bill back to normal please

These are hard times

This is gouging

Thank you

(b) (6)

Ticket: # 3953405 - AT&T/Direct TV Overbilling

Date: 4/30/2020 12:52:59 AM

City/State/Zip: Eastman, Georgia 31023

Company Complaining About: AT&T

Description

I just want to thank AT&T for taking care of me during the COVID-19 and the SARS-CoV-2 pandemic. My Direct TV bill for the month of May went up \$37.58. I now will be paying \$321.48. I wonder how high my June bill will be. Outrageous!! Once again I attempted to use the Live Chat but only got the virtual assistant. My complaint is that I should have been offered discounts to reduce my bill prior to my billing. Instead my bill was jacked up by nearly \$40.00 especially during the Corona Virus. I tried to post my complaint on the AT&T Community Forum but somehow my password was incorrect and I could not login. The same password I used to login to view my bill minutes before.

Ticket: # 3953408 - COX hidden charges

Date: 4/30/2020 12:58:34 AM

City/State/Zip: Las Vegas, Nevada 89147

Company Complaining About: Cox

Description

I subscribed Cox internet. First Cox charged me \$50 no credit check. Once they active my services, Cox charged me another \$50 for one time data deposit. Cox never mentioned \$50 deposit in the their ordering process. I have no idea how many other hidden charges are there. Cox pre installed their Modem/Wifi gateway to use their equipment in-order they can charge you with other fees like wifi fees and other hidden fees. This is hard times with the pandemic COVID-19 is going on and Cox is trying make matter more difficult for everyone.

Ticket: # 3953417 - Bait-and-switch

Date: 4/30/2020 1:25:30 AM

City/State/Zip: Porter Ranch, California 91326

Company Complaining About: Spectrum

Description

On 4/14/2020, I signed up with Spectrum for internet and cable services for the price that they advertised (I received in the mail) for internet and cable bundle deal for \$44.99 per month special for 12 months. The representative confirmed this bundle deal offer comes with 200 Mbps of internet speed and if I want to increase it to 400 Mbps, it's \$20 more. I told her I will be fine with the 200 mbps and I also told her I didn't need TV, I just need internet service, and how much less will that be. She said getting internet service alone will cost \$69.99, so going with this special bundle deal is cheaper. I went ahead and agreed to get this special offer. As the representative was processing my order, she told me there will be additional \$7.99 per month charge for the cable box and so the total will be \$52.98 + taxes and fees. I agreed, since I can't watch TV without the cable box. Before ending the call, she confirmed my order includes internet service, cable TV and informed me that they will ship the two boxes, (the internet modem and the cable box), I should get it within 5 days, but could take up to 10 days. I asked her if they have expedited shipping I'm willing to pay for so I can get my internet modem faster, but she told me they didn't have that available and I just had to wait. Later that day, I received a confirmation e-mail from Spectrum with my order/services/charges, which reflected my order correctly (see attached).

On April 24, 2020, I still had not received my boxes so I called Spectrum to follow up on the shipment. After being on hold for almost 30 minutes, I spoke to a representative who informed me that for some reason the order was never sent to the warehouse for them to mail out the boxes. I wasn't happy about this since now I had to wait another week or longer! Nevertheless, he said he can send the order to the warehouse. I asked him how that had happened, he said he doesn't know. I ask him shouldn't he investigate why or what happened so when he sends the request to the warehouse the same problem doesn't occur? He said no, there is no way he can find that out and all he can do is try to put it through again. He said he can't guarantee that it will go through, he said anything could happen and nothing is guaranteed. I thought that what a horrible attitude and how can someone in the business of customer service be allowed to give such a response, but then I'm dealing with Spectrum, and I can't expect anything better than this!

We finally received the two boxes and hooked up the internet modem last night, but noticed our internet was extremely slow. This morning, I called Spectrum to get the problem fixed. After holding for almost 40 minutes, the first representative I spoke with told me I don't have internet service on my account, I only have cable TV, and if I wanted to add internet service it will be additional cost. I asked him how that could be because I have internet, it's just very slow. He said he can't explain that but I don't show having internet service on my account. I told him that can't be because I got the bundle deal and have a confirmation e-mail of that order. He said he is the troubleshooting dept. and can't help answer that question and transferred me to customer service. After holding for another about 30 min, I was connected to Lauren. She looked up my account and told me the same thing, I don't have internet on my account, I only have cable. I told her there must be some kind of a mistake and went through explaining the same thing to her that I did to the previous representative. She tried to convince me that my e-mail confirmation, although it states "TV and Internet" I don't have internet and

I have to pay extra to get the internet service. After a long back and forth conversation with her and by putting up with her rude attitude, she was belittling me and talking over me, I told her to look at the e-mail they sent me on April 14, 2020, but she said she doesn't have access to the e-mail they sent me. I offered to forward it to her but she said I can't send her e-mail, I gave her my order # from the e-mail confirmation so she can look it up and see that my order was for internet and TV, but she said she can't look up my order, I asked to speak with her supervisor and she said her supervisor is going to tell me the same thing. I couldn't believe what I was hearing and I insisted for her to transfer me anyway. She said fine and placed me on hold for a while then came back and said her supervisor reviewed my account and told her to tell me that I have to pay extra to get internet service. I was feeling like I'm dealing with a corrupt company doing business in a 3rd world country and can actually treat customers this way and can get away with. I was feeling helpless so I told her I am done with them and I was going to hang up and call FCC to file a complaint. She said to hold on for a minutes then came back on the line again and said her supervisor wants to talk to me and transferred me to her supervisor, Stephanie. Stephanie sounded like she didn't know the entire situation, or acted as if she didn't, so I felt I had to explained the entire situation once again, only for her to concur with her employee and told me it doesn't matter what the e-mail confirmation states and that if I want internet services added she can do that but it will cost me additional \$44.99. She didn't want to hear my explanation that the sales representative specifically discussed my internet speed and also how much it would cost by it's own, if I didn't get the TV bundle deal, which confirms that I have internet in my order. She also wasn't able to explain to me why an internet modem was shipped to me, if there was no internet in my order. I told her that what they are doing is clearly a bait-and-switch and I was going to report them to the FCC. After my husband saw my frustration and was hearing how absurd and rude she was sounding, my husband took the phone from me spoke to her. Stephanie was speaking over my husband and again didn't have any explanation to any of this while my husband was asking her questions, she hung up the phone before taking care of the issue. I had not had my breakfast yet and by this time I was already feeling stressed, upset, frustrated and being lied to and therefore I wanted to make sure I continue attempting to get this resolved so I called back, and waited another 30 to 45 minutes before speaking to the 4th person, whom I had to tell my entire story all over again. While talking to this 4th representative, the connection seemed to be bad, she told me I was breaking up. I tried to move around to get a better reception but she hung up. I was ready to cry! Every representative I spoke to, including this one, asked for my call back number so incase we get disconnected, they said they can call back. After waiting 10 minutes for a call back that I never got, I called Spectrum again and after 30 minutes, I was connected to a 5th representative named Monie. By now, I was extremely frustrated and tired of being on the phone for over 3 hours straight so I requested for her to remove my cable TV and add internet only. She asked me why I want to do that? I was forced to start telling her the story all over again, for the 5th time! I told her I was tired and just want her to do this so I can get off the phone. I asked her how much is it going to cost me for the internet alone and she said it's \$69.99 but she said the prior representative has notated my account that I can have it for a special price of \$49.99. I told her to go ahead and just do it and I will handle the issue with FCC. She said since I'm going to get FCC involved she'll have to transfer me to her supervisor to do this and transferred me to her supervisor (6th person I talked to), who basically kept on pushing me to agree to add the internet as an additional service because I don't have internet service on my account. She too didn't want to hear a

Ticket: # 3953425 - Spectrum Charging Late Fees and Service Interruptions During A Pandemic

Date: 4/30/2020 1:40:40 AM

City/State/Zip: New York, New York 10027

Company Complaining About: Spectrum

Description

Spectrum services in New York City are adding late fees for services if the bill is unpaid , and interrupting television services for non payment. This is a disgrace to do this in the middle of a pandemic! A lot of creditors and companies are waiving late fees, and waiving payments for 90 days or more, but not Spectrum. When I call them to complain, they tell me there is nothing they can do. They are disgraceful as a company, always have been disgraceful, and they need a light shown on their horrid customer service. All they did do amid this COVID 19 crisis is offer two premium channels for free for a couple of weeks - this is laughable - how does that assist people with paying bills at a time like this??

(b) (6)

Ticket: # 3953442 - Excess late fees = 30% +

Date: 4/30/2020 3:06:41 AM

City/State/Zip: Raton, New Mexico 87740

Company Complaining About: Centurylink

Description

CenturyLink takes up to 30 days to change a bank account for payment . I am being charged \$30. for late charges on \$86.80 (charges before were \$86.63) of my bill due which is excess PRICE GOUGING for late fee. I want CenturyLink to make their late fees reasonable for all concerned this is about us not just me. CenturyLink is not a lending company and even if they were I would not get their credit card. I could not pay my bill after hours? Due to the Coronavirus I have to travel 20 miles to get my data card and I did not want to pay for it on line as costs more and I need to do what I need to do but 30%+ late fees is outrageous. Pay Bill

Current

Amount Due: \$116.80

Payment due by:

04/18/2020

My bills are usually due by the 16th. AutoPay.

Boy CenturyLink is trying to recoup its lose due to the lawsuit and I was not eligible for that one... I am environment friendly and I opted for paperless, therefore I cannot copy and paste anything from their website.

Ticket: # 3953456 - News and media covid 19

Ticket: # 3953545 - Failure to provide services paid for

Date: 4/30/2020 9:14:44 AM

City/State/Zip: Georgetown, Texas 78626

Company Complaining About: Sudden Link

Description

We are currently paying for 1gb of internet through Suddenlink which unfortunately is the only option we have in our neighborhood. They not only incorrectly hooked the fiber line up they have left a live wire running through my back and side yard all the way down to the street. I have made several attempts at having them A. Fix the internet to where it is at least functional and B. Bury the live line that they have left running through my yard. There has been multiple appointment's scheduled for the fix in which they simply don't show up or call. Due to the current pandemic my wife and myself are both working from home and are forced to use our cell phone hotspot to work bc the service we are paying for is useless. They are now calling threatening to cancel my account because I didn't make a 75 dollar payment within the 7 days of service that was never advised to be required not to mention I still have no functional service to pay for. I have called no less then 10 times and have about as many emails. I've had supervisors never return calls, customer service refuse to transfer me to leadership and multiple techs just never show up.

Ticket: # 3953569 - Cox Slow speeds

Date: 4/30/2020 9:40:57 AM

City/State/Zip: Plantsville, Connecticut 06479

Company Complaining About: Cox

Description

Of course the internet is maxed out right now, but my wife and I are having difficulty performing some of our work duties due to the inconsistent speeds that we have been experiencing. My wife is a nurse working in IT to try to support the COVID response and she is having difficulty with being able to conference with her colleagues. Things have slightly improved from a few weeks ago but it is largely still pretty slow and video calls are very unstable.

Ticket: # 3953634 - Xfinity Comcast internet

Date: 4/30/2020 10:22:13 AM

City/State/Zip: Pittsburgh, Pennsylvania 15238

Company Complaining About: Comcast

Description

I have been having issues with internet connectivity and speeds for weeks. I know things are slowing down with everyone working from home now, but I am one of those people as well so I need my internet to work. I have been on the internet customer chat and phone with Xfinity for over 12 hours, culminating in this morning where they disconnected me when I asked to speak to a supervisor. I said I either wanted my internet to work with speeds closer to I am paying for (600 mbps but working at 7 mbps) or I do not want to pay for service I am not getting. Instead of helping me, they just disconnected me. Every day I wake up, it's a different internet connectivity issue on all my devices. They said they couldn't send someone out to check outside (safe social distance) because only my internet wasn't working, and they needed all my services to be not working (internet, phone, tv) before they would respond. I understand with COVID19 the safety precautions and prioritization, but after weeks of issues and hours on the phone with them determining that is the only option, I was hoping to have get more than just disconnected.

Ticket: # 3953702 - New Service-Improper Install and Services not as Described by sales

Date: 4/30/2020 10:55:52 AM

City/State/Zip: Elkton, Florida 32033

Company Complaining About: Comcast

Description

Ordered service on Saturday, April 25, 2020. I was informed via chat rep that I was able to stream tv service to Roku devices in my house even though I would not have Xfinity internet (I have high-speed internet from another provider.) On Monday, April, 27 the installer came out during the scheduled time and connected only a single coax cable going to the house. (The cable used was not the one I needed to be connected; I planned to use the service in another room and add cable card devices as well as Roku streaming .) I was not home at the time of install as I was told I did not need to be. When I connected to the intended coax port in the home, I got no signal. I moved around and discovered the live port was an ancillary plug in the living room, and I had intended the box to be in another location. I chatted with an agent and was told someone would contact me asap about this and get it resolved. I hooked the box to the working outlet to ensure the service was what it was said to be and to be able to log in and play the service from Roku devices. I got an error when trying to access the app and chatted with technical support who could not figure out the issue, I called in and after several people got to someone that was the first to inform me that I had to have the Comcast internet service, not just internet service too to be able to stream the live content I was subscribed to. This was in direct contradiction what sales agents told me on the above mentioned Saturday. As of Wednesday, April 30, 2020, I had not been contacted about the cabling issue, so I called support. I was told that due to COVID-19, there would be no techs available until May 29, 2020. I asked why on the website I could get an appointment for a hookup the next business day, but to correct an improper install, it would be an entire month. I was told that is just how it is. I transferred to a disconnect agent hoping to get this resolved, and on both counts was not provided any viable options other to ask the tech support again if there was a sooner date.

Ticket: # 3953733 - Lifeline Equipment

Date: 4/30/2020 11:05:27 AM

City/State/Zip: Miami, Florida 33130

Company Complaining About: Access Wireless

Description

The consumer has Lifeline services and had a phone from Access Wireless.

On the 24th of April he states that his phone hasn't been working and needs a new working phone.

The consumer states that he called Lifeline and they said that he must pay for a new phone.

The consumer states he doesn't have the funds for a phone and he had received a government phone in the first place so why would he need to go buy a new phone.

The consumer needs a replaced phone that works since he is isolated at the moment and in case of an emergency he has nothing to rely on.

The consumer had to leave his home to make this call from a friends house, putting his life in danger since he is an older individual during COVID-19 Pandemic.

Company Complaining About: Suddenlink

Description

First off once I started with the company I told them I wanted unlimited and they refuse to go back and listen to the call. Now 6 months latter they said I have went over my data and want me to pay 1100 dollars. This is the only company that ive ever met that will allow you to keep going after your data and just keep charging you. Now my kids cannot go to school because this fraud of a company decided they wanted to take advantage. of a disabled veteran on a fix income

Ticket: # 3953851 - T-Mobile Billing & Portability**Date:** 4/30/2020 11:43:04 AM**City/State/Zip:** Farmington Hills, Michigan 48366**Company Complaining About:** T Mobile

Description

Porting a phone number from carriers; she was going to go to Straight Talk. He is calling about his mother. She had phone service with T-Mobile. She wants to get that phone number back. T-Mobile states the account was cancelled on March 12. They are stating if she pays a \$500 bill. His understanding is that she signed up for insurance with the carrier and that she would pay a deductible; she had to pay a very high deductible; for a broken phone; and got a very low quality in early March. She works in the Healthcare Industry; she was working more hours and could not get to her bills.

Accumulated outstanding balances. There was a pandemic and caller feels this is wrong. Resolution the caller is seeking is that they want T-Mobile to turn on her former phone number with them and port the number to Straight Talk. ***CTR386-phone***

Description

Optimum has our internet service which also provides phone service. With COVID-19 we are inudated with calls. Patients can't hear us as our phones are not working properly. After 3 weeks of having Optimum blame our phone lines, they realized that there are too many people using their lines and they need to increase coverage. To date - no assistance has been provided.

Ticket: # 3954016 - Comcast refuses to install to my rural home

Date: 4/30/2020 12:43:02 PM

City/State/Zip: Manakin Sabot, Virginia 23103-2021

Company Complaining About: Comcast

Description

During this pandemic lockdown I have been desperately trying to get Comcast to install new service in my existing home. I live in a rural setting, but the houses across the street have service. My wife is working from home, I'm trying to re-enter the workforce and I have two school age teenagers; all of which require high-speed internet service.

After 30+ days of conversations I was told today (4/30) that they cannot provide service to my address.

I'm frustrated, frightened and concerned that rural students and remote workers may be locked out from these essential capabilities.

I've been getting multiple calls a day (at least 2 a day) from random phone numbers regarding student loan forgiveness and payment deferment as it relates to COVID19. I have answered a few, they are almost always a recording. I have not pressed any buttons to continue but now I am getting calls from random people stating they have received missed calls from my number that I did not place.

Ticket: # 3954048 - Verizon dishonesty about number being unlimited

Date: 4/30/2020 12:56:16 PM

City/State/Zip: Scott, Ohio 45886

Company Complaining About: Verizon Wireless

Description

I own a tower device used to allow internet access, I had it connected for a term then disconnected it. The device was on an unlimited plan.

On Feb 6, 2020, I removed a number from a phone and restarted the internet access tower. At this time we told the staff member at the Verizon Store on Elida Road, Lima we required the unlimited plan to remain on this account. We were advised this would be the case.

I subsequently received a bill with \$3500+ of overages on this device.

We called and advised Verizon of this issue and they refused to remove the overage charge despite our 18 year history with them and our history of billing showing we have never had a bill like this. They did advise us that the account would be moved back to the phone it came from on Feb 6th and unlimited reapplied. This was Monday the 23rd of April. As of today there seems to be no changes and the tower device still works while the phone does not.

We were told they would remove 30% of the bill and allow us to make payments. I advised them I would not be able to do this especially due to the Covid19 downturn which has all but destroyed my business.

I feel that I was lied to able to data available to us and that Verizon has failed to act in any way to assist us.

Ticket: # 3954237 - Xfinity/Comcast Not Providing Service I Paid For

Date: 4/30/2020 2:01:19 PM

City/State/Zip: Tucson, Arizona 85719

Company Complaining About: Comcast

Description

I have been having continued internet issues with connectivity; sometimes my internet goes out 20-30 times a day. In contacting Xfinity, they have proceeded to tell me that I need a technician to come to my house, but due to the COVID-19 crisis, they cannot send someone. I asked that I be credited since I am paying service that they are not providing, and they have told me numerous times I would receive a credit on my bill. Yet every time I go to look at my bill, nothing shows up, and now when I try to reach an Xfinity agent, I am only given a chat box.

Ticket: # 3954238 - Raising Service rates on Cell Phone T-Mobile

Date: 4/30/2020 2:01:22 PM

City/State/Zip: Wyandotte, Michigan 48192

Company Complaining About: T Mobile

Description

I got my notification of billing today from T-Mobile with notice that they are raising my service rates with this bill. For the 4 phone lines I have it will be an additional \$144.00 a year!!! This is insane as most people are off work due to the Covid-19 and most companies are giving discounts or reducing costs. I feel like they are taking advantage of the situation we are in. I sent 2 text messages to them but got no response. They know what they are doing to us.

Ticket: # 3954247 - Sprint Billing unaffordable

Date: 4/30/2020 2:04:30 PM

City/State/Zip: Los Angeles, California 90046

Company Complaining About: Sprint

Description

I had purchased a lease special for Black Friday at Best Buy to get the new iPhone X with Sprint. The promotion was basically I was going to get one month free my bill wasn't gonna be doing till January and I was paying for my first month at the store that day I was getting the phone the very first day. I had looked over my bill and noticed something odd it basically was charging me for a month prior to when I actually purchased the phone.

I had purchased the phone November 24 they had me in a bill from October to November 23 I never use the phone from October to November 23 I barely got the phone on the 24th. I had purchased the phone November 24 they had me in a bill from October to November 23 I never use the phone from October to November 23 I barely got the phone on the 24th. When I called customer service they told me oh they have a special program where the payment goes Not only for the current month but for the month ahead except the month was prior to when I got the phone so how does that make any sense I didn't start the The service until the 24th. I have never heard of paying for last months bill when you didn't even have the phone service with them I had another phone service why would I do that. Also when I was at the store getting the phone for the very first time they told me I was paying for the month I was purchasing and I was getting a free month so I didn't have to pay until January. Also when I was at the store getting the phone for the very first time they told me I was paying for the month I was purchasing and I was getting a free month so I didn't have to pay until January. I had signed up for the \$65 plan they had changed up my plan to \$112 and they expect me to pay \$200 every month I did not sign up for this I cannot afford this and it's Covid season do they understand that nobody's working right now this is really My fault I should've known better I knew Sprint has a bad reputation for doing this and I don't know what I was thinking all I wanna do is get out of this phone service with them it's not worth it I had already paid over \$400 just for the insurance that they didn't offer another expect me to pay them \$2800 a year for phone bill I can't do it

Ticket: # 3954372 - Billing/COVID-19/service

City/State/Zip: Carlsbad, California 92011

Company Complaining About: Spectrum

Description

(b) (6) is placing a complaint against Spectrum. Consumer stated that on the month of March she called spectrum consumer service to terminate the internet service that she was receiving. The representative told her that the end of the billing cycle was the 30th of each month and that it was already charge into the card and they will charge her for the entire month consumer made this phone call on the 03.03.2020. On the 04.30.2020 consumer called again spectrum to cancel the service and they told her that her billing cycle ended on the 04.27.2020 and that she was going to get charge for the entire month. Consumer is stating that in her household there is not any incoming income. Her and her husband are lay off and the only money that they have safe is the one that they are taking from her. Consumer does not want to keep the service because they want to be able to feed their children. Consumer is looking for a resolution on having the money of the month of April refund back into the card and she wants the service to be terminated. Consumer does not know when her or her husband will go back to work and they are not interested on having any debts with any provider.

Ticket: # 3954404 - Lack of Service

Date: 4/30/2020 2:52:27 PM

City/State/Zip: Conroe, Texas 77303

Company Complaining About: Sudden Link

Description

Consumer needs to work at home because of the COVID 19 virus.

Consumer has been without internet for five weeks.

They have not come to fix it.

Consumer has tried to talk with them but the end up hanging up.

Yesterday they were supposed to have a repairman at his home at 7:00 a.m.

Did not show up.

Manager called back at 11 a.m. saying he could fix it within two hours.

When consumer got home it still was not working.

The underground line for DISH Network in his back yard was cut in half by Suddenlink - it cost the consumer \$140 to have it fixed so he could watch TV.

Suddenlink said they would pay \$86 toward the repair.

It will be six weeks on 3 May that he was to have internet and they won't give him credit for this period when there was no service.

This is not fair and the consumer wants them to make it right.

The consumer had to pay a deposit of \$180 to sign up for the service. ***CTR412-phone***

Ticket: # 3954443 - Cablevision Equipment

Date: 4/30/2020 3:02:02 PM

City/State/Zip: Scarsdale, New York 10583

Company Complaining About: Cablevision

Description

- consumer has cablevision which she has 5 cable boxes since 1976 and one of the boxes went dead.
- Stated that consumer would have to go to one of the stores which was not opened due to the COVID-19.
- consumer stated that she returned the bad box which is what she was told to do but today when she contacted Cablevision they told her that she should have kept the box because now they have to have tech come out for a charge for the installation .
- consumer was told today Thursday April 30th, 2020 that she was only allowed 4 boxes and already had 5 but the one was dead but the rep stated that they would have to come out and install the 5th box due to showing on her account she only has 4 but consumer sent back the 5th box to have it replaced.
- Account is under (b) (6)
- consumer would like this issue resolved by having her a new replacement box Samsung Optimum cable box shipped to her at no charge.

CTR395--phone

Ticket: # 3954470 - T-Mobile charging for equipment even though returned per guidelines

Date: 4/30/2020 3:11:07 PM

City/State/Zip: Kirkland, Washington 98033

Company Complaining About: T Mobile

Description

I went to a store for issues with battery depletion and the salesperson didn't even look at my phone and said I needed to replace it per warranty. They charged about \$100 for doing that, I think it was \$90 plus tax. The new phone wasn't scheduled to arrive for a week, and I figured out in the meantime that my email client was constantly downloading, which was the cause of the battery issue. I disabled it. When phone arrived never opened box, and was busy at work and then got Covid19. T-Mobile sent a text that I had 14 days to return the phone, so I took to a store 2 or 3 days later. Latest bill has charge for \$1,110.50 for phone re-stocking fee. I called customer service and they did some internal thing to track the phone down. They then sent me an email saying I returned it too late and am stuck with the payment. So I returned the phone within their guidelines not even opened, and am out over \$1,200!

Ticket: # 3954509 - WHISTLEBLOWER COMPLAINT

Date: 4/30/2020 3:21:10 PM

City/State/Zip: Tucson, Arizona 85711

Company Complaining About: Comcast

Description

WHISTLE BLOWER COMPLAINT.

Consumer works in the call center for Comcast as a supervisor in the NE Division for Small Business. She is a supervisor in that call center contracted by VXI.

She is calling with a whistle blower complaint.

They are using a residential telephone customers regulated account to apply credits as part of the COVID-19 issue.

Consumer believes they are using inappropriate funds with no intent to resolve the issue.

Consumer repeatedly questioned management about the issue but they just kept saying, 'let it ride.'

Comcast is not allowing consumers to participate in the assistance program and is allocating funds inappropriately.

Consumer was forced to log in to offer her credentials so employees could issue credits from this fund without her permission which she claims is unethical and inappropriate.

She had brought the issue to the attention of upper management and they terminated her employment on Monday.

Consumer is afraid but would like the information to be investigated and her name to be with-held for privacy and safety concerns.

Company Complaining About: Social Security

Description

Imposter is calling saying they are an SSA agent helping with an issue of direct deposit with the COVID-19 economic impact payments.

Ticket: # 3954644 - Billing - COVID-19

Date: 4/30/2020 4:03:33 PM

City/State/Zip: Westfield, Indiana 46074

Company Complaining About: Comcast

Description

I'm self employed and had to terminate my business due to corona virus. Comcast has provided internet, telephone and tv and they say my company has a contract that has not expired so they continue to charge me for services even though i am no longer at that location and no longer run the business. I have asked them to dismiss the monthly charges since i left the business in mid March but they have refused.

What can I do since i no longer can pay for these services and find myself now unemployed? Thanks.

Ticket: # 3954808 - DIRECTV Billing Issues

Date: 4/30/2020 4:55:26 PM

City/State/Zip: West Palm Beach, Florida 33405

Company Complaining About: Directv

Description

The consumer states that she is calling for help to file a complaint against DIRECTV whom she has TV services with.

When getting service with them she received the equipment and they told her that if she gave them her bank information the payment would be around \$55, if she did not the payment would be close to \$80.

The consumer stated she agreed to the bank information so she would pay less.

The first 2 months they did everything correctly.

In February the consumer realized that they were taking out \$116 without her authorizing the transaction, or getting notified about it.

The consumer called DIRECTV and they said they are taking that amount because they gave her certain channels.

The consumer states that the channels they told her she gets, she doesn't even receive and never even requested in the first place.

The representative told her that she would get credit on a card back for her to use for the next month payment.

The consumer states that they have yet to give her the credit.

The consumer states the they give her a period from the 1st to the 4th to pay her bill.

The consumer states that her payment went through on the 5th because of COVID-19 going on and she couldn't find an opened store. (the consumer got rid of auto pay because of the issues)

She paid \$89 on that date.

Now this months bill they had told her her bill will be less than the \$89.

Now the consumer received a bill for \$103, she called DIRECTV and they said it was because of her late payment.

The consumer states that during this time she tried looking for an open store and called DIRECTV to find a store.

The consumer states that she needs her money back for the months that they were taking \$116 out of her bank account without her permission.

Ticket: # 3954930 - Cancelled AT&T Service**Date:** 4/30/2020 5:47:06 PM**City/State/Zip:** Santa Ana, California 92706**Company Complaining About:** AT&T

Description

On April 16th 2020 I cancelled transferred my wireless service from AT&T to Verizon. My billing cycle with AT&T starts on the 17th of the month and ends on the 16th of every month. I received a bill from AT&T for service from April 17th - May 16th. Note this is after I cancelled my service with them on April 16th. I called AT&T and spoke to a representative that informed me that AT&T does not prorate service. The representative stated that the service was transferred on April 17th, conveniently the first day of the next billing period. I asked to speak to a manager who then repeated the same information. Needless to say my call to resolve the issue was to no avail. I've included documents attached noting my start date with Verizon as April 16th 2020. The AT&T bill in question is for \$109.67. As you may understand, the current world pandemic has negatively impacted my income like millions of other people and I cannot take on an extra bill especially one without cause. I look forward to hearing from you soon. Thanks so much.

Ticket: # 3955154 - refused to help me with lines that were tampered

Date: 4/30/2020 8:35:07 PM

City/State/Zip: San Jose, California 95131

Company Complaining About: Comcast

Description

I wrote an email to Xfinity explaining that my internet lines had been tampered with (I had witnessed it and even found the spots it was tampered with) and made the service horrible. I explained to them that this has happened several times and that every time I had been forced to fix it myself (even though they definitely should be able to help), only for it to be tampered with again. This eventually led to a call from a technician who tells me that my problem is a civil dispute and that they are not responsible for the lines inside the house in any way, which puzzles me because I've definitely had technicians help by checking lines inside the house (he says this is how it is, whether there is issues due to Covid virus or not). I tell him surely he could at least check the lines outside the house, which he says he could. A technician is sent out shortly after (his name was Travis), and when I take him to the main box, he glances at it briefly and says there is no problems without checking the lines anywhere else. I even explained to him that i found a specific spot where the line was tampered with, which he did not look at. I've never had customer service from someone so unwilling to help or listen or even take anything I'm saying serious. That is not my main issue though. The real issue is the fact that my lines have been tampered with multiple times and the technician (which was xfinity's answer to my complaint) is refusing to do anything at all to secure the line and restore my service to fully functional. I find this absolutely absurd and unacceptable.

Ticket: # 3955201 - Xfinity Internet unable to work from home

Date: 4/30/2020 9:57:47 PM

City/State/Zip: Chestnut Hill, Massachusetts 02467

Company Complaining About: Comcast

Description

Xfinity internet service has been unreliable with three outages in the past 1-2 weeks alone. I live in a state with a stay at home order due to COVID19 but I am unable to work from home because of internet service. Now I have to drive into clinic to see my patients tomorrow because I cannot rely on Xfinity to do telemedicine from home. They have not addressed this ongoing issue but continue to bill me 93 dollars per month.

Ticket: # 3955285 - Disconnected During COVID 19

Date: 5/1/2020 1:37:46 AM

City/State/Zip: Milwaukee, Wisconsin 53210

Company Complaining About: Spectrum

Description

Spectrum has disconnected my services twice during COVID 19. I have been laid off from my job. I was previously told by a representative that payment arrangements were not acceptable and will not be honored. Instead of assisting me, the representative tried selling me additional services. I need to know what my options are for keeping my services on during this pandemic until I can figure things out.

Ticket: # 3955290 - Equipment and Slamming

Date: 5/1/2020 2:45:32 AM

City/State/Zip: Colorado Springs, Colorado 80907-4522

Company Complaining About: Sprint

Description

I own a small business and decided to go with Sprint as a mobile provider starting in February 2020. The main reason I went with Sprint is because of the Multi Line program they offer for small businesses. At the time of this complaint (May 2020) I have still had no access to the multi line but am being charged for it. I have been trying to get in touch with Sprint since March 18th 2020 to discuss my service plan. I was deliberately put off and transferred and given the runaround I feel until the merger with T-Mobile went through. I am now being told I will not have access to 5G and my phones will not be unlocked. Then to top the issues off my account was suspended during the COVID-19 and Keep Americans Connected Pledge due to the missing handling of a payment which was taken out of my bank account. Getting in touch with Sprint customer service has been nothing but issue after issue. As soon as I mentioned I wanted to take my business elsewhere they gave not given me the codes to unlock my phones nor any support for the many service and billing issues I've brought to their attention.

Ticket: # 3955331 - Discontinued service 2nd time during COVID 19 virus

Date: 5/1/2020 6:42:33 AM

City/State/Zip: Amityville, New York 11701

Ticket: # 3955369 - SLAMMED by Optimum not honoring price and shutting down our internet during Covid-19!

Date: 5/1/2020 8:41:51 AM

City/State/Zip: Brooklyn, New York 11225

Company Complaining About: Optimum

Description

Hello,

In the beginning of February 2020, we were promised a rate of \$39.99 for Optimum 300, a plan that allowed for ultra-quick internet (up to 300), so we decided to sign up with them. For a few days, we did receive the fast internet, but then it ebbed, tdown to 30 of 40. We tried calling Optimum since mid-February regarding this issue, to no avail. Then we got our bill. Instead of it being in the \$39.99 range, it was in the \$6400 range a month, totally not what Optimum promised us! We tried calling Optimum SEVERAL times to dispute this, only to be ignored and phone disconnection. it was (and still is) IMPOSSIBLE to speak to anyone of any substance regarding this matter.

Then came Covid-19, and our internet was DREADFULLY Slow, PLUS with the SLAMMED bill they send us, we couldn't get hold of anyone on the phone for days (they don't even have an email address for customer service, which is totally non-existent!)

We finally decided to do 'livechat' which took me over an hour to get someone on there (in March, April 2020). We finally spoke on livechat to Danilo, who, saw what the issue is but told us they couldn't do anything and we should call customer service on the phone! Of course, no one answers Customer Service and we get disconnected every time! So Danilo promised to get a manager to call us back or e-mail us back, which of course never happens and our problem still remain!. Danilo at Optimum promises us that due to Covid-19, no one's shutting down our internet, and the manager will call us to resolve the issue. No phone call was received, and our internet was shut off by Optimum on 4/20 for non-payment, exactly what Optimum said they wouldn't do, they actually did! So we tried calling Optimum on 4/30 AGAIN, being on hold for more than an hour, and then being disconnected AGAIN! So we called Optimum back, finally getting hold of Rosanna in customer service, who told us that we have to REQUEST to put the internet back on, even though they slammed us and said they won't shut it off! Furthermore, Rosanna said once it's turned back on, she will call us to resolve the billing issue. After 6 hours, the internet was turned back on for a short while, but then shut off again. Of course Rosanna, employee id 6280 never did call us back. So now we have no internet, and the company SLAMMED us in pricing and doesn't honor the price they promised us for, nor the service speed! We feel totally SCREWED by Optimum. Please help!

Ticket: # 3955371 - AT&T Prepaid Scam

Date: 5/1/2020 8:43:20 AM

City/State/Zip: West Warwick, Rhode Island 02893

Company Complaining About: AT&T

Description

I changed my auto payment card to my debit card 3 months ago from my credit card, which I had accidentally added to my account previously. My debit card has been the default payment method for the last 2-3 months. If I'm signed up for autopay, ATT gives a discount of \$20+ a month on the phone bill. The last 3 months I have had to pay up to \$30 extra dollars a month because ATT has tried to charge my CREDIT CARD which is NOT THE DEFAULT CARD ON FILE, when there was money in my debit card account. When the credit card was declined, they turned off my phone services and added fees for restoration! I actually caught them trying to charge my credit card before my phone was turned off this month, and deleted the credit card from my account and then ADDED FUNDS MANUALLY to my account for their mistake and my phone was still deactivated! There is no clear way from the website to talk to a rep, and they only have live reps via the phone to talk to from 9am-9pm. Additionally, ATT does not send any sort of notification when a payment method has been declined to give customers a way to fix the issue before the services are deactivated. I tried this month to fix the issue before my services were deactivated to no avail. So in the meantime, I have to pay the fee in order to be able to access my phone which, during this coronavirus pandemic, I NEED. I would like the extra fees that I have had to pay over the last few months refunded, as this is AT&T's issue, not mine. Also, AT&T needs to take better care of it's prepaid customers.

Ticket: # 3955374 - SLAMMED BY OPTIMUM!

Date: 5/1/2020 8:45:57 AM

City/State/Zip: Brooklyn, New York 11225

Company Complaining About: Optimum

Description

Ticket: # 3955600 - ATT Billing Dispute

Date: 5/1/2020 11:08:00 AM

City/State/Zip: Belle Rose, Louisiana 70341

Company Complaining About: AT&T

Description

For the third month in a row, ATT has erroneously charged my telephone number. I have a pre-paid telephone. The bill renews on the 30th of each month and is set to "auto-pay". For most of the time that I've had this phone, I've usually paid the telephone bill one to three days early. This month was no different- especially since I closed the account I have set up for auto payments and the credit card associated with it. The renewal for the month of May was due on April 30th. As is evidenced by the attachments, I paid the amount on April 29th of \$70.00 plus applicable taxes for a total of \$75.22- the same amount which was due every month. ATT sent me a confirmation text on the 29th indicating the card was successfully charged. My bank posted the funds on April 30th. Yet on May 1st I had no service and was told that additional funds were required. Basically, it's bait and switch with ATT. I've prepaid the auto pay before and it never tried to double dip. Now, it's attempting to take the money that I paid early and force me to make a second payment because the auto pay didn't go through. It doesn't want to honor its discounts. I contacted them and requested a refund. They can't do it. That's fine. I'm switching anyway. But not without getting my money back. On top of it, ATT is "giving" me 10 GB of data service during the COVID outbreak. No they aren't they deducted it from the rollover data I already owned.

By the way, this happened during the COVID-19 disaster when the FCC specifically directed utility companies not to disconnect.

Ticket: # 3955772 - Billing/services COVID-19

Date: 5/1/2020 12:21:07 PM

City/State/Zip: East Meadow, New York 11554

Company Complaining About: Optimum

Description

Consumer has a two-year contract with Optimum. Consumer states that the clauses of the contract were based on a price lock down meaning that his price would not increase in the period of two years. Now consumer states that his price has raise \$30.00 for made out fees. Consumer states that even though the contract was based on a price that should lasted at least two years without any changes. Consumer has tried to call consumer service multiples times. Consumer has been patience about this. Consumer has sent letters, and nobody seems to call about this situation. Consumer has left a lot of messages while consumer service promised that they will return phone calls this never happen, also consumer states that they are threading him that they will disconnect his service during the pandemic. It is unacceptable that optimum is raising their prices in a this such as this. Consumer does not want his service to be interrupted, consumer was his billing to be fix and back to normal IMMEDIATELY. Consumer wants a refund of the extra money that they are charging him. Consumer will not stay on a contract if provider is no longer available to honor.

City/State/Zip: Brooklyn, New York 11206

Company Complaining About: Optimum

Description

Internet service is VERY unreliable. Our rates were raised earlier this year due to "upgrades" in our area, but service has been worse than ever. Makes working from home impossible during the pandemic, I need to rely on tethering to my mobile device rather than using the wifi I pay for.

[Ticket: # 3955863 - AT&T won't unlock my phone](#)

Date: 5/1/2020 12:52:53 PM

City/State/Zip: Bellevue, Washington 98008

Company Complaining About: AT&T

Description

I paid my phone off on Monday. It is Friday and their online system still won't even let me request to unlock the phone. Furthermore their call centers are closed. I am sympathetic to the call center issue due to Covid-19, but this should have no affect on their automated systems for unlocking phones.

Ticket: # 3956009 - Cable bill

Date: 5/1/2020 1:39:20 PM

City/State/Zip: Bellmawr, New Jersey 08031

Company Complaining About: Comcast

Description

Comcast increased my bill by \$45 per month without prior notification. Never sent email etc, just changed it. \$25 cable and phone \$20 on internet plus assessed \$10 late fee after they claimed to waive them due to Pandemic. My dvr has been changed 10 times, 15 service visits, no solution

Ticket: # 3956105 - tele marking calls to my number 4(b) (6) from area code 716

Date: 5/1/2020 2:05:01 PM

City/State/Zip: Ellicott City, Maryland 21042

Company Complaining About: 7165161652

Description

I have been receiving several calls from area code 716. I tried to use Vonage blocking feature but there is a limited number of calls that I can block. Each time they call, they use different last 7 numbers. I am US Federal Government employee (Dept Commerce - NOAA) and am required to work remotely (from Home) due to COVID-19 and my home phone is being used for Government Business Calls whenever am on shift.

Ticket: # 3956134 - Frontier Billing

Date: 5/1/2020 2:17:46 PM

City/State/Zip: Etters, Pennsylvania 17319

Company Complaining About: Frontier Communications

Description

- consumer stated that before the COVID-19 started she had contacted her utilities company to set up some type of arrangements.
- consumer was paid up on her bill as of March 13th, 2020.
- contacted Frontier to see if they had anything to help during this time of the COVID-19. The rep stated and they would waive the March 19th, 2020 bill as a skip pay but when consumer received her April 2020 billing she noticed that there was a new charge of \$9,54 due to not paying her bill for March 2020.
- consumer would like this issue resolved by having all the new charges dropped due to the COVID-19 - Keep American Connected Pledge, and any over payment that might have been paid.

CTR395-phone

Ticket: # 3956161 - inaccurate billing, unresponsive customer service

Date: 5/1/2020 2:27:18 PM

City/State/Zip: Woodmere, New York 11598

Company Complaining About: Optimum

Description

I was promised by customer service that I would get a promotion applied to my account starting March 2020. The total for internet and phone would be \$60. This did not happen, I am being charged over \$80 a month.

I have been calling for weeks and no one answers, the automated message says that due to covid 19 they are unavailable. I tried calling the corporate office and no answer. I tried chatting online and no one comes on. This is not the first time I have a similar issue with this company where they promise one thing and don't deliver. The company must be responsible for offers they provide their customers and abide by it. They should check previous notes and records and provide me what they promised and refund me for the difference from March 1, 2020.

Ticket: # 3956162 - Unburied Cable

Date: 5/1/2020 2:27:24 PM

City/State/Zip: Mundelein, Illinois 60060

Company Complaining About: Comcast

Description

My cable is lying un-buried on the neighbors lawn. Twice, the Comcast contractors have notified Comcast that they have completed the burial, and have done nothing. Due to Covid, I have two businesses working out of my home that will be shut down if my neighbors lawn service cuts the cable. Comcast just keeps writing repair "tickets" for incompetent subcontractors.

Ticket: # 3956163 - Safelink wireless

Date: 5/1/2020 2:27:36 PM

City/State/Zip: Calhoun Falls, South Carolina 29628

Company Complaining About: Safelink Wireless

Description

I have been a low income isuer of Lifeline benefits for 3 years. During the time of Covid-19 i recieved a text stating that extra data was provided because of the urgent need for internet access. My complaint is two fold. 1. For 6 months or more Safelink wireless has been unjustly turning off my access to service for lack of paying for a plan. It is my understanding that being enrolled in Lifeline services is to make sure that doesn't happen. I have lodged complaints about this to the company, lifeline and the better business bureau. I am unaware how Safelink is paid for providing the service but I am highly aware that they are actively abusing the situation and not providing explanation for why cancellation are happening. They give the same script each month i have called. There was a period of time i was without access because of their error and i have 2 handicapped children whose physicians call my phone regularly. I never got an apology only them blaming whomever I had spoke with prior. This is now not just a simple fluke after happening so many times. Please stop them from abusing lifeline consumers.

Ticket: # 3956226 - Internet disconnection

Date: 5/1/2020 2:49:25 PM

City/State/Zip: Cottage Grove, Wisconsin 53527

Company Complaining About: Spectrum

Description

Spectrum has indicated that they will interrupt my services if I do not pay by midnight tonight.

However, they are part of the Americas connected pledge for a couple more weeks due to the COVID situation.

Ticket: # 3956249 - Price Gouging from Comcast Business

Date: 5/1/2020 2:56:07 PM

City/State/Zip: Humble, Texas 77346

Company Complaining About: Comcast

Description

My bill before Corona virus was \$70 a month. As of April, after the shutdowns, Comcast increased my bill to \$130. When I called customer service, they said my plan has been discontinued and I could either decrease my speed for \$80 a month, or increase my speed for \$160 a month. When I asked what other options there were, they said "call back after April." It is now May 1 and my bill has gone up to \$160 a month.

Ticket: # 3956284 - High frequency transmissions

Date: 5/1/2020 3:10:25 PM

City/State/Zip: Renton, Washington 98055

Description

I need your assistance regarding unlawful frequency transmissions. I have contacted the police and they will not help as they cannot hear the frequency. My neighbor has soundproofed his shed that he runs a motor in and broadcasts high frequencies from. This goes on 24/7.

I have contacted you before on this. My home is no longer a safe haven for me. I am a high risk for covid-19. I am on chemotherapy so I can't go anywhere.

Please help me with him. Right now, it is at 90 decibels and the weekends and nights are usually the worst for high decibels and volumes.

Ticket: # 3956287 - Altice One

Date: 5/1/2020 3:11:30 PM

City/State/Zip: Babylon, New York 11702

Company Complaining About: Optimum

Description

Prior to the pandemic, I have called about missing certain tv channels we are paying for. During the pandemic, the internet service has been very sporadic and it's impossible to get someone on the phone to troubleshoot. Today I called and hit the sales prompt and was promptly put through. They can cater to "new" customers but have no regard for current customers. This has caused a major disturbance for work and school during the pandemic. I also went to two of their stores but both closed. I believe connectivity is essential during this time

Ticket: # 3956291 - Internet service.

Date: 5/1/2020 3:12:58 PM

City/State/Zip: Odessa, Florida 33556

Company Complaining About: Spectrum

Description

For the past 13 days we have lost our service from 2 to 3 hours in the afternoon due to outage issues with spectrum Internet. We have called him several times they said he will fix the problem then the very next day it happened yet again. We are running an insurance business from home due to COVID-19 and are losing money by being unable to help our clients and recruit to grow our business.

Ticket: # 3956307 - Rate hike - inferior service

City/State/Zip: Lowell, Indiana 46356

Company Complaining About: Directv

Description

As of today he has not been able to work for 3 months. Every company is working with him in light of COVID19. Two months in a row DirecTV has shut him off. He is self employed and has not been able to get. In the last two months they shut him off and force him to pay \$150+ to have the service restored. You cannot speak to an American citizen and the reps are difficult to communicate with because of the language barrier. His kids and grandkids are home and rely on the services for school and for internet. DirecTV is on tv claiming to support the American people. He wants to know why they are shutting him off.

Ticket: # 3956500 - Suddenlink - Increasing monthly charges for exceeding monthly data plan usage

Date: 5/1/2020 4:38:56 PM

City/State/Zip: Eureka, California 95501

Company Complaining About: Sudden Link

Description

I live in a rural area in Northern California, with only one internet provided via cable. Since the pandemic, I have been working from home and two of my kids in college came back home with classes online. I agree, my data usage is higher than usual, but this is not something we can plan and will most likely continue for several months. Other providers such as Comcast, have announced suspension of internet data cap to help customers with the crises. Internet is now a public infrastructure, like a road, to take us to work and school. In rural areas, we may only have one choice of provider, but we should not be penalized for living in areas less serviced. Our struggle is the same, our financial uncertainty is the same. Please make sure Suddenlink does not take advantage of customers at this time. Attempt to reach the company have been fruitless.

Ticket: # 3956503 - Internet

Date: 5/1/2020 4:39:30 PM

City/State/Zip: Glennville, Georgia 30427

Company Complaining About: Windstream Communications

Description

My family and I have been experiencing real difficulties during this pandemic. As you are aware, there have been no schools open and students have been given assignments via computers which requires online. Windstream disconnected my services on May 2, 2020. I called and explained my situation and to no avail I received a lack of compassion and still no services restored. If it wasn't for my child's education I wouldn't even care about the internet but the fact that she needs it for that purpose I find it very unprofessional and a lack of humanity that they would even do that without a care in the world.

Ticket: # 3956519 - Service Outage - Disabled Consumer Needs Access to Phone Services/Emergency Services in the Bronx

Date: 5/1/2020 4:55:39 PM

City/State/Zip: Bronx, New York 10451

Company Complaining About: Optimum

Description

The caller is a Rabbi in the South Bronx and stated that one of his Congregants had no phone service available and now way to contact any one. He stated that this person is disabled and has had sporadic phone service, for a very long time. However,, now the service is completely out. The consumer has service with Optimum . (b) (6) requested, on behalf of his Congregant, that the phone service be immediately repaired. (he believes that he may also have internet service that is also not working and all services have been sporadic.

The Customer/Consumer is:

(b) (6)

(b) (6) stated that Mr. (b) (6) does have a care provider/an aide and he believes her name is (b) (6) - her phone number is: (b) (6) - He asked that if there is any need to contact Mr. (b) (6), please use (b) (6) number because Mr (b) (6) has no way of making a phone call and no access to emergency services, himself. He stated that there is no way to reach him, presently due to the outage of services.

He again requested that the repair of this consumer's phone service be expedited due to the current pandemic and the fact that the consumer is disabled and requires phone service/access to communications in the event of an emergency.

Ticket: # 3956543 - AT&T Uverse

Date: 5/1/2020 5:12:14 PM

City/State/Zip: Joliet, Illinois 60435

Company Complaining About: AT&T

Description

I have an account with at&t uverse for 5 years and I can not remember the pin code or my security question due to it being set up 5 years ago. When I ask them if theirs anyway to reset the passcode and answer to the security question there was no answer and I was met with the same question and told to go into a location when all the locations are closed due to Covid-19.

Ticket: # 3956553 - AT&T Billing Issue - Prepaid Service Interruption -Wanted to Know if prepaid Service is Included in the Keep Americans connected Pledge

Date: 5/1/2020 5:19:34 PM

City/State/Zip: Lansing, Illinois 60438

Company Complaining About: AT&T

Description

The consumer has billing issues with AT&T that he has not been able to resolve.

The consumer requested an extension on the 4th of the month - It is a prepaid - He is afraid that his services will be interrupted, tomorrow/on the 2nd of May.

He has been requesting, for several months, that his service renew on the 4th of each month, for this prepaid service, due to the fact that this is when he receives his Social Security. He stated that when the economy is open, he drives an Uber and had also requested additional data.

He requested that this matter be resolved. He requested an extension of his phone service until May 4, 2020

He stated that when he called, he was placed on hold for over a half an hour and was not able to reach anyone. He also was promised a call back through AT&T's chat support feature. He stated that he requires access during the Pandemic.

Ticket: # 3956559 - Comcast service

Date: 5/1/2020 5:24:31 PM

City/State/Zip: Seymour, Connecticut 06483

Company Complaining About: Comcast

Description

Same issue with tv and internet service at our home. 4 calls to service rep and 2 visits from a technician. last visit tech left without fixing the problem and they will only offer a refund. Need internet to work for kids school work during Covid-19 stay at home orders.

Ticket: # 3956574 - Verizon Price Gouging during pandemic

Date: 5/1/2020 5:32:13 PM

City/State/Zip: North Kingstown, Rhode Island 02852

Company Complaining About: Verizon

Description

I am an essential customer service agent whose company ordered me to work from home starting 3/16. Verizon has just increased my rate off a rate plan without notice and price nearly doubled. I had to disconnect because I could not afford on 3/13 but first asked if any other plans. I was told no and that I had to return router. Also, incorrect billing and had payment issues for which I was penalized.

Ticket: # 3956605 - Optimum Cablevision - all we want is a new remote and have called 5x and still cannot get one

Date: 5/1/2020 5:58:12 PM

City/State/Zip: Bronx, New York 10461

Company Complaining About: Optimum

Description

My family has called Cablevision/Optimum/Altice has called 5 times since April 17th to get a new remote for one of our cable boxes. First, we were told it would be mailed in 5 to 7 business days. We then called after that and were told that they were having issues with their mail and they offered to have someone come out to the house and drop one off at our front door this past Friday (5/1/2020). I am in my 70's and my husband is in his 70's and has a heart condition so we have not been going out because of the pandemic except to my husband's cardiologist appointments once a month. We even received an automated response last night letting us know someone would be out here between 8-11 today. At 9:15 this morning, someone called my husband's cell phone and left a message stating that remotes are not dropped off at peoples homes and that we could either go to nearest center or that we could call and have one shipped to the house. They left this message on my husband's cell phone which he never leaves on so we had no idea this was even left to us. My husband and daughter both called back customer service today trying to get some answers. My husband was on the phone for over an hour because he was told that a manager was coming on to speak to him since we asked that since we are not getting any satisfaction with this issue. In the meantime, my daughter tried to call and spoke to customer service. She was told that the issue was escalated and that a manager was calling us back and that now a remote will be fedexed to us in 3 to 5 business days. So right now we have 2 cables boxes and one working remote since April 17th. We spend over 240 dollars a month on this service and cannot seem to get any satisfaction in getting a working remote. I nor my husband are going to this call center to pick one up because we are not risking our lives for a remote. Oh and we got many excuses today why they cancelled the call on us. Our area is too high to come out and deliver the remote and then we were told by someone else that they just dont do that and we should go out and pick it up ourselves if we cant wait. Does Cablevision not understand what is going on right now? I would not risk my life to go get a remote. We do not want anyone coming into the house either so we were asking them to call before the came and drop it off at our front porch which they again offered to do by the way. How can we get a working remote? We need some help here.

Ticket: # 3956613 - regional sports network fee on FIOS

Date: 5/1/2020 6:04:20 PM

City/State/Zip: Stafford, Virginia 22554

Company Complaining About: Verizon

Description

COVID shutdown has cancelled sports. Verizon FIOS still charging monthly 'regional sports network fee'. FIOS says it is government law and cannot refund/credit account. Someone is getting money and there is no product (in my case, MASN baseball network). Request options on how to get fee waived/refunded. Paying for product without getting product is not right.

Ticket: # 3956622 - Spectrum - Price Gouging During Pandemic

Date: 5/1/2020 6:09:05 PM

City/State/Zip: Van Nuys, California 91406

Company Complaining About: Spectrum

Description

Spectrum increased my monthly rate for Internet services without any warning or explanation. They increased my costs by \$15 per month during a pandemic and taking advantage of me in an area with no other options. This is unacceptable and cruel on Spectrum's part. They need to lower my rate to the first agreed upon rate.

Ticket: # 3956706 - Turned off my service during COVID19

Date: 5/1/2020 7:22:32 PM

City/State/Zip: Hurleyville, New York 12747

Company Complaining About: Spectrum

Description

Internet phone and cable turned off May 1st 2020 during COVID19 Pandemic. I have been customer for over 10 years paying \$200+ a month!! Besides the years of terrible service , there are consistent equipment failures and now everything turned off during these times.

How to resolve the problem? Stop Monopolies and offer the upstate NY Consumer more options! To help regulate pricing and provide better service. Need a petition? I have 100 plus signatures in the last 24 hrs. I can get more and inundate with complaints but I don't want over load the FCC with more complaints on Spectrum. I'm sure there are plenty.

Ticket: # 3956755 - Political calls won't stop

Date: 5/1/2020 8:18:05 PM

City/State/Zip: Lumberton, North Carolina 28360

Company Complaining About: Politicalcalls

Description

Some one keeps calling me about 8 times a day and I've asked them to stop calling me and they continue. I'm a therapist and this is interrupting my patient calls everyday. It's very disruptive to my essential job during Covid-19. I would like someone to look into this situation. I have Verizon and the caller ID comes up as "POLITICALCALL" from multiple locations.

Ticket: # 3956796 - Optimum raised up the monthly payment

Date: 5/1/2020 9:23:06 PM

City/State/Zip: Brooklyn, New York 11204

Company Complaining About: Optimum

Description

During this outbreak of Covid-19. I couldn't take care of bill well, yet I looked at the statement and found out that Optimum raised up the monthly payment from \$99 to \$159 without any notice from April's monthly payment.

Ticket: # 3956819 - Direct tv/At&t

Date: 5/1/2020 9:52:18 PM

City/State/Zip: Hedgesville, West Virginia 25427

Company Complaining About: AT&T

Description

I was told by the senators office to file a formal complaint against this company for disconnecting my service during this pandemic. They not only disconnected my service but charged me late fees as well. I am currently out of work due to Covid-19, and was not able to pay this bill.

Ticket: # 3956861 - Cox shut off service for non payment during covid-19

Date: 5/1/2020 11:31:29 PM

City/State/Zip: Hampton, Virginia 23663

Company Complaining About: Cox

Description

Cox vowed not to disconnect service .Yet we are still in the middle of the pandemic my family is out of work and our service has been shut off for non payment. While we have children who need the internet for school work.

Ticket: # 3956892 - A consumer complaint against Weave, a consumer communications company located in SLC, UT.

Date: 5/2/2020 2:21:59 AM

City/State/Zip: Washington Ch, Ohio 43160-1404

Company Complaining About: Weave, 2000 W Ashton Blvd, Ste 100, Slc, Ut 84043; 801-701-1630

Description

5/2/2020 - Due to a number of factors, including very poor support, pathetic training, etc., I have decided to sever my relationship with Weave, a company who has been furnishing my VOIP phone system since March 2020. I have requested my three phone lines be ported back out to Spectrum, the original supplier of my phone service. To date, I have made numerous requests to Weave to furnish me the required PIN to allow Spectrum to secure my three landlines, the most recent request being yesterday, but they have refused by ignoring all my requests. The phones Weave furnished has been working but the third line has not been utilized by Weave and that analog line was very important to my business since it supplied my fax, my credit card terminal, my security and fire system's connection to the police and fire departments. I am a veterinarian who depends heavily on his fax and CC terminal for reports and revenue. Since my wife and I live above our clinic, we are concerned about our security as well since my clinic could be a target for those seeking drugs and the danger of break-ins, or even a fire concern us greatly since we presently have none of these protections due to the fact I cannot get Weave to relinquish my phone lines. This may not be criminal but I feel it should be under the jurisdiction of the FCC to force Weave to furnish the required PIN so that Spectrum can port-in my three phone lines. The financial losses I have encountered from Weave and from the current pandemic have been very damaging to my practice and to my family.

Ticket: # 3956901 - deceptive sales - charging same price for less speed

Date: 5/2/2020 3:10:59 AM

City/State/Zip: Cerritos, California 90703

Company Complaining About: Frontier Communications

Description

Hi, I recently placed an order over the phone for Frontier fios internet, they're charging me the same price as advertised speed of 500/500 mbps, but theyre only giving me 100/100 when i ordered. I didn't realize they were offering 500/500 for the same price when i placed the order on the phone, i only realized later when i looked at their website.

When i asked them about it, they told me it was because of covid19. (Which seems like a lie) because they're still able to provide 100/100 internet.

Thank you.

Ticket: # 3956919 - Not honoring FCC guidelines during Convid-19 pandemic

Date: 5/2/2020 5:52:35 AM

City/State/Zip: Whitehall, Pennsylvania 18052

Company Complaining About: Rcn

Description

RCN signed the FCC declaration that they would not disconnect individuals during the pandemic if behind in bill. They did not honor what they said they would and disconnected TV and internet even after the payment was made and they received it. This service removal has jeopardized 2 children's homework, and also a business. We were informed they signed it because of the Maryland governor signing an emergency declaration, Pa Governor signed the same thing for individuals.

Ticket: # 3956945 - Defying CDC guidelines: Fox News

Date: 5/2/2020 8:20:17 AM

City/State/Zip: Richmond, Virginia 23223

Company Complaining About: Assurance Wireless

Description

Fox News anchor Pete Hedgsmith was promoting protests during the 8am hour Saturday. He was showing images of large groups of people defying CDC guidelines classifying them as Patriots and encouraging viewers to exercise their right to assemble. During a Pandemic this seems extremely dangerous to promote this and risks the health and safety of Fox News viewers across the country.

Ticket: # 3956953 - Caller ID Spoof

Date: 5/2/2020 8:52:41 AM

City/State/Zip: Manchester, Missouri 63011

Description

We received a complaint from a member of the public that had received a robocall from a Caller ID purportedly our main DID. The robocall was about the COVID-19 pandemic, and it was definitely not something we initiated.

Ticket: # 3956965 - Questionable Billing Practices**Date:** 5/2/2020 9:21:15 AM**City/State/Zip:** Atlantic City, New Jersey 08401**Company Complaining About:** Comcast

Description

I have been a customer with Comcast for several years and have been on going billing issues with the company, I am signed up for a \$99 triple play package which after taxes and other fees is supposed to come to \$147.00 a month however almost every month the company has been adding to the bill causing the bill to exceed over \$250 in most cases which I am unable to afford and the company is unwilling to arrange payments on the account has shut the account off several times and has even charged me for restoring the account during the current pandemic in which Comcast agreed to reinstate customers accounts due to, I then had my services switched with out my permission or prior notifications from Comcast and my tv services were disconnected and I was told I had to pay almost \$700 today or it would then cost me over \$900 after May 2nd to restore the TV services, I have informed them several times that I have a disabled family member who lives with me and utilizes the tv for essential information especially in this time with what is going on across the country.

Ticket: # 3957008 - TV Reception

Date: 5/2/2020 10:14:52 AM

City/State/Zip: Schertz, Texas 78154

Company Complaining About: Other

Description

With Covid 19 going on, We are having trouble with the TV reception, we Need to be able to receive Alerts and Government Orders during this time, however we keep getting the NO SIGNAL so nothing shows up. We do not have cable/dish.

Ticket: # 3957028 - poor internet speed, no internet at all, internet goes out, no service

Date: 5/2/2020 10:48:52 AM

City/State/Zip: Shickshinny, Pennsylvania 18655

Company Complaining About: Frontier Communications

Description

I am paying for an internet service and not getting what I am paying for. It is out quite often and can not be used at all. When it does work, the speed they tell me I am getting is not being provided. We are getting under 1 meg of speed. It is so bad, we are unable to do something as simple as pay our bills online. My Wife is a healthcare worker and is working from home. She deals with ventilators and since the Covid 19 issue, she works mostly from home. She is often forced to go elsewhere to seek reliable internet. Our son is doing his Schoolwork from home now as well. He sometimes has to travel to the School's hot spot to upload or submit assignments. This issue has become worse over time and Frontier does not do anything to address these issues. My last complaint with the FCC was ticket (b) (6) . It was from 2017. Frontier contacted me and gave every excuse in the book. I pretty much gave up due to frustration. The internet service has gotten worse since 2017. Thank You.

Ticket: # 3957138 - WOWWAY TV and Internet service

Date: 5/2/2020 1:29:36 PM

City/State/Zip: Grovetown, Georgia 30813

Company Complaining About: Wow

Description

My Name is (b) (6), during these crisis I was told that internet services will be provided. I paid \$300 on April 30 towards my bill, no all of a sudden they disconnected my services and this is very frustrating and not fair. My wife works two parttime jobs from home and now she cannot log in on her job platforms, she is in desperate need of the COVID-19 assistance our address is (b) (6). Also, their billing cycle is outrageous we pay more TV than cable channels. Please help get our service restored according to the COVID-19 polices.

Thank you.

Ticket: # 3957255 - Spectrum internet, phone & cable turned off despite bank issued payments

Date: 5/2/2020 3:58:50 PM

City/State/Zip: Staten Island, New York 10304

Company Complaining About: Spectrum

Description

Spectrum turned off all 3 services(cable, internet &phone) yesterday, despite payments sent from my bank in March and April. I work from home, provided proofs of payment yesterday and was unable to convince two representatives to speak with a supervisor. On a 3rd try, the services were put on at 6:30 pm for 2 business days while they look for the payments sent by my bank. I have had Spectrum 2 years, payments always sent by bank automatically and yet this was not a consideration, not to mention that during this Pandemic, there should be considerations made. The money is out of my account and I may only have service until Monday. I am requested that my services remain on while they conduct their own internal investigations into the payments sent by my bank and deducted from my account..

Ticket: # 3957464 - Loud commercials

Date: 5/2/2020 9:41:55 PM

City/State/Zip: Punta Gorda, Florida 33982

Description

Why are commercials so loud still. Are providers lowering the tv show and then putting the commercial to full decibels by law?

Tonight we were watching tnt at 9:20 a commercial came on so loud, it seems like all. Because at 9:36. Covidvirus.gov. then on desovy at 9:37. We turned it down and it had to go 8 points lower. It was more than double.

Reference ID:18.5d321cb8.1588469252.e7de858

Ticket: # 3957484 - Billing

Date: 5/2/2020 10:56:06 PM

City/State/Zip: Quincy, Florida 32351

Company Complaining About: Dish Network

Description

I have dish network services, I've been a loyal and dedicated client for over 4 years. Recently I request a billing extension due to preparing for Covid-19. I understood and accepted the \$15 extension and agreed. I paid my bill as expected before the 7 day extensions was up. A few weeks go by and today 05/02/20 I noticed my bill was slightly higher than normal and seen they added a late fee on my bill. I immediately rushed to dish network chat for customer care about my bill knowing there could be a long wait time. I explained my situation over online chat and felt like I wasn't getting anywhere, I felt like no one was listening and they kept bouncing me around agent to agent until I lost patience. The concept is, I need to know why I have a late fee and why wasn't I explained this when signing up for an extension that I request a few days before my due date? I'm honestly tired of dish network treating me like garbage and wish they took me seriously and valued their clients!

Ticket: # 3957516 - Packet Loss in Chandler, AZ (Began Pre-COVID)

Date: 5/3/2020 12:28:25 AM

City/State/Zip: Chandler, Arizona 85226

Company Complaining About: Cox

Description

I use Cox internet in Chandler, Arizona and have been experiencing unacceptable amounts of packet loss (10-95%) over the past 6 months. It began several months before COVID caused increased network demands. I have tried all manner of new modems, resets, firmware updates, and have verified that my modem power and SNR levels are well within acceptable limits. Continued packet loss is an issue on Cox's side that greatly affects my ability to use the internet and Cox is unable to address the problem.

Ticket: # 3957517 - Frontier Communications Corp / My Home Internet Service**Date:** 5/3/2020 12:30:06 AM**City/State/Zip:** Irving, Texas 75062**Company Complaining About:** Frontier Communications

Description

So, I work for a major health care org providing tech support to hospitals and clinics in DFW area. On Friday April 24, 2020 I had more issues with my internet service. I had previous issues weekly for two weeks. I literally would have no service. Called Frontier Monday April 27, 2020. They put in a ticket for a tech to come to my home to look at my service on Tues April 28, 2020. That tech replaced the ONT-optical network terminal outside my house. I asked the tech why was it replaced. He said there was nothing wrong with it and that he just replaced it to show that he came out and did something. It seems to work ok for a couple of hours and then I started having issues with my internet sporadically dropping. I called Frontier another ticket was created for someone to come out Wed. That guy came out and didn't even bother looking at anything here at my house. He said he sat in his truck out front of my house and everything showed good. I told him what was happening. He told me it was my equipment. Got in his van and left. Thursday, I called frontier tech support and spoke to an agent who would not help me at all or do any trouble shooting. I called back and spoke to someone else who helped me. He found there were issues with my router going offline. So, he said that another group from there network team would be monitoring my service. Someone would call me back. No one called. He did open another ticket for a tech to come out Fri. So, Fri I called the president's office which is an escalation dept at their corp office. I told her what was going on and then she said she would get back with me Fri afternoon and didn't. So, the tech shows up at my house around 3pm. Tests the ONT and said it tested good. I told the tech what was happening. He hung around and we both verified my internet service was down. He said it was a central office issue. I said so now what. He replied the ticket would be for another tech to work at the Central office. I asked him then when this might be fixed. He replied today or Sat. So, sat 5/2 came and service is still going up and down. Called tech support and spoke to a supv and he opened another ticket for Monday 5/4 for a tech. I got on Facebook and went to Frontiers site and spoke to 3 different social community managers who told me bottom line I'd have to wait for the tech on Monday 5/4. So, they have no process in place for an existing customer having an issue that is still broken. There process starts all over again when a ticket is opened. I have been down for more than a week and NO one at Frontier seems to care. I have explained that I work in Healthcare doing tech support for a major Hospital and I work from home during the COVID-19 pandemic. It just didn't faze anyone. I have even threatened to cut service and didn't matter. Related tickets where tech is dispatched to house.

(b) (6)

5/1/2020 Called Frontier Communications escalation line called office of the president and spoke to Tabitha. No call was ever returned to me from Tabitha.

4257365-5/4/2020

Date: 5/3/2020 2:52:25 AM

City/State/Zip: West Tawakoni, Texas 75474

Company Complaining About: Boost Mobile

Description

We are trying to transfer phones from boost Mobile To Verizon because we have no service at our house with boost we cannot even make a phone call, Which is unacceptable because we have medically fragile kids and adults here but we paid for our phones out right when we got the service and had no contract we ask them to unlock our phones so we could Porten to Verizon they agreed to do it and then only did one when there were four other lines remaining we ask them again to unlock the phones they Again agreed to do so only for us to try again with Verizon to find out that they had lied once again and we are refusing to unlock our phones yet again after promising that they would we just want our phones unlocked so we can switch to Verizon so we could have service while my mom is in the nursing home during this COVID-19 and for my dad's doctors and my son's heart doctors to get be able to get a hold of them.

Ticket: # 3957633 - John Hook Fox 10

Date: 5/3/2020 11:08:32 AM

City/State/Zip: Phoenix, Arizona 85034

Description

John Hook on Fox 10 is on tv and social media fown playing COVID19 and stating the media is exaggerating the problem. He is on social media giving medical advice and he is not a doctor. When someone said it was not his place he said he could say whatever he wants its his Facebook page.

Ticket: # 3957653 - Spectrum inability to provide Service

Date: 5/3/2020 11:52:03 AM

City/State/Zip: Davenport, Florida 33897

Company Complaining About: Spectrum

Description

I recently moved into a new apartment. I tried to establish internet service for my new place. Because of Covid 19, my six year old son requires internet to continue his education through online distance learning. Spectrum is the only provider of internet for my area. Spectrum is unable to provide service in a timely fashion because the previous tenant was a Spectrum employee and they have special accounts. The previous tenant hasn't lived in this apartment for 5 months and Spectrum told me they can't just switch service and it would take up to 10 business days to do anything.

Ticket: # 3957675 - Signed up for services I did not ask for, service cut off and extorted before continuation of services

Date: 5/3/2020 12:27:41 PM

City/State/Zip: Yorktown, Indiana 47396

Company Complaining About: Bridgemaxx

Description

The ISP Bridgemaxx signed me up for a service that I did not request and did not properly notify me of this, terminated my service when I did not pay for said service, and forced me to make an additional payment before the due date to restore service, in the midst of of COVID-19 panic.

Additional Details:

I was on an internet Service plan with Bridgemaxx where I was paying \$49.45 per month for internet service with speeds of 3mbps down, 1mbps up. On March 18, I contacted Bridgemaxx and asked to be upgraded to a 6mbps down, 1mbps up plan that they offered for 59.45 per month. I still have the email saved wherein they made this offer, and I asked to be upgraded to it.

They instead signed me up for a "Double your speed" promotion that doubled my internet speeds for an extra \$20 per month. I did not realized that I was signed up for this promotion, and so in April I made a payment of 59.45.

Today, (5-3-2020) my service was disconnected and I received an email stating that I had an outstanding balance of \$10 from the previous month. I called in to their support line and was told that I would need to pay the outstanding \$10, plus the outstanding balance for the coming bill that is not due until 5-18-2020, including the \$20 for the promotion I did not sign up for, in order to restore service.

Ticket: # 3957718 - Internet service is out more than it is on and Optimum us unreachable/will not fix

Date: 5/3/2020 1:26:56 PM

City/State/Zip: Great Neck, New York 11020

Company Complaining About: Optimum

Description

For the past five or six weeks (no doubt at least partially due to the coronavirus outbreak), our internet service has been intermittently available, with regular outages Faron just a couple of goes in aggregate to multiple consecutive hours every single day. Yesterday it was out for more than twelve hours with three distinct interruptions, however, and today it continues to be unavailable (since yesterday). I have logged thirty six phone calls to Optimum over this multi-week period and not once have I been able to get a person on the phone, nor any help (their repeated self-help advice to disconnect equipment routinely fails to work, although for several of my phone calls after holding for 1-2 hours the service did occasionally come back, inexplicably). Starting this past week and continuing through today, though, their phone system makes you wait two hours on hold and then summarily disconnects you after a message that says they are experiencing higher than normal call volumes and that we should call back or use their online site, which of course we cannot do as there is no service (I am forced to use my work phone to complete this complaint). Please reach out to them ASAP and mandate that they fix the service issue(s) immediately, issue refunds for lost service (both phone and internet, which seem to be linked) and maintain a dedicated help line for future such outages so customer will not be completely vulnerable and left in the lurch with zero support (notwithstanding significant sums of monies paid!) and advise back accordingly as to specific actions taken. through

Ticket: # 3957744 - xfinity charging sports programming during covid

Date: 5/3/2020 2:13:06 PM

City/State/Zip: Westfield, New Jersey 07090

Company Complaining About: Comcast

Description

Xfinity/comcast has charged \$8.75 for a "Regional Sports Fee" for the past several months even though during this covid crisis there has been no regional sports programming. This seems unethical at best.

Ticket: # 3957854 - Keeping Americans Connected Pledge**Date:** 5/3/2020 4:57:25 PM**City/State/Zip:** Bath, New York 14810**Company Complaining About:** Sprint

Description

I - (b) (6) - am a customer of Sprint for my cellular telephone. Last month on or around 4/1/2020 I called Sprints customer service phone number because I had received a text message saying "Sprint : your account is scheduled to be disconnected. To avoid service interruption visit sprint.us/paymybill or call *3. FreeMsg" When I called customer service I was told that the only way to keep my service was to make a payment of \$188.79 which included a late payment fee. The gentleman that I had spoke to told me that after I made that payment I would be able to cal back and request a 30 day deferment. I conceded as I needed my phone in order to continue to do my online classes and had not heard of the "Keeping Americans Connected Pledge". Today - 5/3/2020 I received the same text message claiming that my account was scheduled to be disconnected. When I called them, I was told the same thing as last month, make the payment and then I could discuss getting a deferment. After arguing with the customer service agent I was transferred to what I was told was a supervisor. The supervisor said that I would still have late payment fees and I would only be able to get a deferment until 5/11/2020 which is 8 days away. I found this webpage - Keeping Americans Connected Pledge - during the wait to be transferred to the supervisor. I kept referencing the pledge and the supervisor said that everything in the pledge was impossible for me to get and that my service had already been suspended! Eventually the supervisor turned our service back on and told us that in order to get the 60 day deferment that I would have to call them back on the 11th of March.

Because of Sprint not keeping their promise to the Keeping Americans Connected Pledge I had to use my grocery and gas money to pay my 188.79\$ bill. I am now without a way to pay for medication, get to doctors or even buy groceries.

I thought that the point of the Keeping Americans Connected Pledge was to prevent people like me from unnecessary hardship during this already difficult time. If Sprint is doing this to me while I reference the Keeping Americans Connected Pledge, how many people are they "screwing over" during this pandemic?

Ticket: # 3957862 - Spectrum Cable services paid for but, not provided.

Date: 5/3/2020 5:12:25 PM

City/State/Zip: Fountain Valley, California 92708

Company Complaining About: Spectrum

Description

I have Cable with Spectrum and Direct TV with ATT and I pay for Premium Sports Packages and I have called them both to discuss a monetary rebate for services like Live Sports Programs I pay for and are not being provided due to the Corona Virus Pandemic . I stated to them even the Auto Insurance Providers are rebating due to the Corona Virus Pandemic. So I ask, why is Cable, Satellite or other TV providers billing us all that 40% extra charge on our Bills when they can't and don't provide Live Sports for us to watch?

The Spectrum Representative told me that there is no adjustment to be given..

Ticket: # 3957890 - Second complaint, still have no internet

Date: 5/3/2020 5:52:39 PM

City/State/Zip: Houston, Texas 77073

Company Complaining About: Comcast

Description

We can't get a person calling any Comcast number. We tired again to use the system they have in place to reset everything but again no internet! They sent a guy out (who did put a new line) he said the new line would fix the issues and still no internet! The guy who came out was EXTREMELY RUDE. We had to lie to him and tell him we had Coronavirus Because he insisted on coming in our home and then hung up on me when I told him we were not coming out to talk to him.

Ticket: # 3957903 - Internet constantly failing

Date: 5/3/2020 6:14:29 PM

City/State/Zip: Aurora, Colorado 80012

Company Complaining About: Comcast

Description

I am still a paying customer regardless of COVID. That being said, I cannot get Any support from xfinity. My internet goes down 3 times a Day, and they have no email/chat availability to report an issue. All they have is a phone line that never picks up, and when you Do get a rep all they recommend is a router restart. Case and point; im paying for a service i am not getting.

Ticket: # 3957928 - carrier non-compliance w Emergency Declaration, public services

Date: 5/3/2020 7:23:15 PM

City/State/Zip: Atlanta, Georgia 30303

Company Complaining About: Comcast

Description

Xfinity has said 2 things regarding the national Emergency Order:

1. It will NOT cancel people's internet service
2. It WILL provide public wifi.

It has failed on both counts, best as I can tell.

At least two of my neighbors have had internet service cut or halted during this pandemic. I have a space at a mixed use commercial residential building.

As well, Xfinity maintains a public website which touts "public internet is TEMPORARILY AVAILABLE", and then publishes a map of all locations where this is so, given a specific zip code. HOWEVER< I have checked these locations, and most DO NOT offer "public internet", but have instead a PAY PORTAL.

In fact, the ONLY RELIABLE PUBLIC SOURCE which I can locate in my area is approximately 8 blocks away... and that business is not OPEN for dining, only drive-in window.

This makes Xfinity's "promise" to the public moot, and shows no desire on the part of the company to honor it's promises.

I am SUPPOSED to have a "public wifi" login spot in the building where my studio exists - two in fact, yet EACH OF THESE offers only a PAY-ONLY SUBSCRIBER WINDOW.

All in all, I would suspect that less than 10% of Xfinity's "listed", mapped "public wifi hotspots" are functional - if that many.

Ticket: # 3957935 - QLink customer service is not telling me what is holding up the SIM card to better understand, yet they say it's ready to be shipped

Date: 5/3/2020 7:37:30 PM

City/State/Zip: Houston, Texas 77095

Company Complaining About: Qlink Wireless

Description

I left and came back to QLink Wireless 2-3 times, when I did so, the main purpose was because of them wasting time after the QLink SIM Card is ready to be shipped out, as they said Friday April 30th, and nowadays- I wait a week for this SIM card to be ready to be shipped out- it's GSM so it shouldn't take that long like CDMA SIM cards for Sprint, Boost Mobile, and Virgin Mobile phones, during the coronavirus pandemic- it's taking longer to send the SIM card for gsm out, taking two weeks to ship the SIM card, when they used to transfer it over to UPS Mail Innovations in 24-48 hours, usually I order Sunday to get it by the 2nd Monday after that Sunday, and usually UPS Mail innovations delivers it to USPS for final delivery on Monday because they deliver it after 11 when the USPS has already closed the window of opportunity for the UPS Mail Innovations to deliver it on that same Saturday, so QLink should use Fedex Smartpost so everyone can get their phone SIM card sooner so they can get the services they deserve especially during and due to the coronavirus pandemic- it wastes our time to not have a SIM card knowing we can't call or text until the delivery of the SIM card, wasting two weeks to transfer it to ups Mail innovations When we need the SIM card at the same time as it has to be activated for us, we have to wait to receive it, and we have to wait now two weeks due to the pandemic for QLink to give it to UPS Mail Innovations, Since it's GSM and is easier than CDMA, most carriers send it to you inactivated then you call and give them the ICCID starting with 89 to get it activated, next time from now on QLink should send them inactivated since their GSM and are much easier to activate then CDMA, because with Sprint CDMA you have to get a Special SIM called a UICC compatible and programmed with your specific device IMEI or MEID to use with that device and that it will not work with another phone even if that phone is fully compatible with Sprint 4G LTE service , keep in mind those sims have to be activated by sprint and Qlink themselves, for me- also keep in mind I requested a gsm sim, also when I asked to update the imei to get the configuration messages and correct apn settings automatically pushed to a GSM phone that is compatible with it, they say "no, you can put the same SIM card into ur new gsm device" I will but I need it to just update the imei on Qlink's website without replacing the sim, I can't do that, if I could- it should give me the option to either use my existing 3 size SIM card, or get another one (standard, to micro, to nano in order of largest to smallest),

QLink won't even transfer me to The QAS department as they have no way to reach them, and my email goes through an automated system where sometimes it's acting like I didn't put QAS in the email saying with an email back to just call QLink which they don't have a way to transfer me to the lady who handles the QAS department at QLink Wireless,

I would spend even \$1,000,000 to get the SIM card to be shipped right away and using FedEx Smartpost which is like UPS but they delivery straight to any mailbox even a P.O. Box like UPS Mail Innovations

I would even spend \$1,000,000 to get it inactivated to call and activate it later so I don't interrupt my current service before the SIM card comes, then I have no SIM card until the new sim comes- they Keep having to deactivate the service rather than send me a gsm sim and let me call in to activate it whenever I'm ready so it doesn't interrupt the current sim card's service while the order for a new SIM card is processing and shipping so I can use the phone service when I need to, and activate when I need to or when I'm ready to switch from GSM Sim Card to GSM SIM Card (which I previously had a GSM Sim, right before this new GSM SIM card is getting shipped out, since I'm shipping from two different SIM cards in the same type of network gsm, it's not a port in port out matter from a different virtual network to another one of the towers and networks QLink uses like t-Mobile GSM and Sprint nowadays, I'm not switching from cDMA to GSM, I'm switching from a gsm sim to get a replacement one cause my previous one broke

Ticket: # 3957951 - Router Charges**Date:** 5/3/2020 8:07:16 PM**City/State/Zip:** East Greenville, Pennsylvania 18041**Company Complaining About:** Comcast

Description

i am an xfinity customer who has internet services, to save some money and get better performance i bought my own router and modem, when i called xfinity to switch my gateway they informed me to discard the supplied router. this was over 2 years ago and now due to covid 19 i had to temporarily suspend my services until i move into my house i am being charged an equipment fee of \$100 for the unreturned router, even when i had cable with xfinity i took the devices to the xfinity center and they told me in person oh you could have just thrown these out, they go into the trash anyway. i spoke to customer service who then told me that an employee would never do that and the charges stand, this was not one occasion but two where employees suggested that discarding equipment was the norm so i never thought into it until now when i am being unjustly charged

Ticket: # 3958009 - AT&T

Date: 5/3/2020 10:12:07 PM

City/State/Zip: Wadmalaw Island, South Carolina 29487

Company Complaining About: AT&T

Description

It has been 83 days since I first reached out to AT&T to respond to my service needs and issues. There has been no response, no attempt for corrective measures and no adjustments to my bill. My connectivity has worsened since COVID and was throttled leading up to bill date and increasingly after that date passed (tested daily).

Ticket: # 3958010 - Data caps (Cox Cleveland)

Date: 5/3/2020 10:22:13 PM

City/State/Zip: Broadview Heights, Ohio 44147

Company Complaining About: Cox

Description

Even through a pandemic this is allowed??

Think about what your doing when you give the keys to the kingdom to the ISP. EVEN Comcast is extending data usages for another 60 days and I quote

"After pressure from consumer groups, major ISPs last month announced that they would be suspending all usage caps and overage fees for 60 days in response to the COVID-19 pandemic. After all, US consumers already pay some of the highest prices for broadband in the developed world"

"All Cox Internet plans include 1 TB (1024 GB) per month of data usage. Unlimited and 500 GB Additional Data Plans can be added for an additional monthly charge. Data usage in excess of plan may result in a \$10 charge for up to 50 GB of additional data and for each additional 50 GB block, except for Unlimited Data Plan subscribers. Unused data does not roll over."

<https://www.cox.com/residential/terms-and-conditions.html#internetOffers>

<https://www.techdirt.com/articles/20200428/09043844393/comcast-graciously-extends-suspension-completely-unnecessary-data-caps.shtml>

Ticket: # 3958032 - CNN's "The Pandemic and the President" DOCTORED AUDIO

Date: 5/3/2020 10:56:00 PM

City/State/Zip: Salem, Oregon 97302

Description

I do not mind how different networks report different versions of the news. I watch CNN, Fox and others. However, I am watching CNN's program referenced above and I believe they doctored audio on video footage. CNN has repeatedly reported, incorrectly, that President Trump said in March "... anyone who wants a test can get a test..." CNN's anchors would misquote the statement, even after playing the video clip that clearly says "... anyone who NEEDS a test can get a test..." In tonight's program, I was watching closely as the famous clip played... and it clearly had the President saying "wants" instead of "needs". This crosses a line for me. This is completely unacceptable and irresponsible... regardless of politics.

Ticket: # 3958061 - Unreasonable Price Fees Hikes/Fees**Date:** 5/4/2020 12:55:31 AM**City/State/Zip:** Moore, Oklahoma 73160**Company Complaining About:** Spectrum

Description

I have been a longtime subscriber to Time Warner Cable/ Spectrum internet. Recently my bill has drastically went up and I was told that "my promo was up and was going to be charged at regular price" even though I already surpassed the initial promo for a year. My price has changed 3 times and each time the price rose TWC/Spectrum said same thing. I originally paid 34.99 internet plan. This plan was a promotional price that lasted a year, after this point I was paying 44.99 internet which was fine, since this was the standard price. After a year and some time TWC/Spectrum added a \$5.00 fee to my bill, so I was paying 49.99 internet, well again a year and some time I get last month's bill to my surprise is \$59.99 for internet. I called TWC/Spectrum and they said this is the new price because I am still in a promotion that recently went away and the only thing they could do is give me a \$10 credit adjustment for being a longtime customer. Reluntanly I paid it so they won't hit my credit but now I need the FCC to step in & investigate to see if TWC/Spectrum are price hiking due to the Covid-19 pandemic because the hike happened around the same time. I would like for TWC/Spectrum to stop raising my internet price and let me pay the original standard price of \$44.99 with no extra future price hikes.

Ticket: # 3958080 - Cox Communications

Date: 5/4/2020 2:53:11 AM

City/State/Zip: New Orleans, Louisiana 70122

Company Complaining About: Cox

Description

Cox communications claimed that they would not disconnect internet services of customers who could not pay, through June of 2020 due to Coronavirus, however, my services were disconnected at about 9pm on yesterday. This occurred after I made a payment last week April 26th. I explained to them that I have a school aged child that relies on internet for online classes due to the pandemic and that we will not be able to receive assignments from teachers or attend online learning without internet service. They told me to pay the \$59, which I do not have right now, or they would NOT reconnect my internet. I want Cox to reconnect my services so that my child can continue online school for the remainder of the school year.

Ticket: # 3958106 - Xfinity Mobile Fraud and False Advertising

Date: 5/4/2020 7:10:32 AM

City/State/Zip: Mays Landing, New Jersey 08330

Company Complaining About: Comcast

Description

I've been with Xfinity Mobile since September of 2019. They've not been able to meet their advertised claims for service, and yet they refuse to let me out of my contract. Then, during the pandemic, an Xfinity representative took \$385 out of my bank account without consent, and now they refuse to discuss it with me.

Ticket: # 3958120 - No internet

Date: 5/4/2020 7:56:15 AM

City/State/Zip: Greenwood, Indiana 46143

Company Complaining About: Comcast

Description

As a DoD worker, especially in Covid times, I expect to have internet access. Comcast is failing in this regard because it has been 3 days in a row that they have been under maintenance or just not had internet access available.

Ticket: # 3958124 - Internet Billing Dispute**Date:** 5/4/2020 8:05:28 AM**City/State/Zip:** College Station, Texas 77845**Company Complaining About:** Sudden Link

Description

Internet service was upgraded mid billing cycle using online self service. The Suddenlink website stated the upgrade would increase monthly charge by \$30. The May bill arrived and the total monthly charge includes duplicates for April to May at old speed and new speed and April at lower speed. Called customer service to correct and spent 1 hour 48 minutes on call. Rep stated a credit was on the account for \$153.33; however credit card charge went through for \$338.94 and my online view of account has no credit. The \$153.33 credit would be a reversal of the duplicate charges created when upgrading speed. I need a credit of \$153.33 to correct duplicate charges. Suddenlink hours for customer service are limited and we are in a pandemic.

Ticket: # 3958145 - order # 7105820411

Date: 5/4/2020 8:32:21 AM

City/State/Zip: Grandview, Missouri 64030

Company Complaining About: T Mobile

Description

T-Mobile is trying to make my son catch Coronavirus on purpose by forcing him to go inside their stores. He tried buying a phone thru Apple but they closed due to covid shutdown. He has Verizon and they won't sell him a phone without a plan. He called T-Mobile and I validated my account for him after he told me what he was trying to do and after he tried ordering by phone T-Mobile tried getting him to change my bill and add insurance after he kept repeating he didn't want to do anything but pay for his mother a phone upfront in full and have it shipped. T-Mobile got mad they couldn't up sell him so they attempted charging him 20 to order the phone. This is deceptive business practices. He was told to create a account and order it online since I never made one for myself to save 20. After doing so he placed the order, and T-Mobile didn't charge his card but he had the money on their. After going thru all that the bank card he used charged a monthly fee 3 days later, and it just happened to be the same day T-Mobile finally tried to take the payment, not when he authorized it which is also fraud. You don't have authorization to charge the account as you please, you should have taken the money immediately when it was there. We are black people and barely getting by, we are not rich and don't have a ton of money sitting in accounts we expect better business then this. He really wants me to have this phone so now he going inside a store to ensure he charged instantly just to get the phone shipped. More blacks are dying in america from Coronavirus the. Any other race due to tactics being used like this company T-Mobile. AFTER DOING ALL THIS THE PHONE SHOULD BE FREE. My son was wanting to buy me a iPhone se for mother's day to surprise me but he had to ruin his plan and tell me about it.

Ticket: # 3958147 - Promotional trade-in credit

Date: 5/4/2020 8:33:18 AM

City/State/Zip: Short Hills, New Jersey 07078

Company Complaining About: Verizon Wireless

Description

I traded in my Samsung Galaxy S7 edge for a Pixel 4 last October. The promotional trade-in credit was \$400 provided the account had an unlimited plan which I had. I got an email showing a credit of only \$100 that would be paid out over 24 months. I called Verizon later in October and they went through the account and updated the notes to ensure that \$400 would be paid out. However they mentioned the credit will start showing in 3-4 billing cycles. It's May but nothing has been credited. Calling the customer center during COVID-19 simply means endless waiting.

Ticket: # 3958263 - Assurance Wireless Equipment

Date: 5/4/2020 9:53:38 AM

City/State/Zip: Bay Shore, New York 11706

Company Complaining About: Assurance Wireless

Description

The consumer has a government phone from Assurance Wireless which is not working properly at the moment.

She has called Assurance Wireless and they said they can send her a new phone but she must pay a delivery fee.

The consumer is on low income and on medicaid and doesn't have money to pay the \$5 delivery fee.

The consumer also has health issues.

They tell her it must be a \$5 delivery charge on a credit/debit card.

The consumer doesn't have a card and they told her to go to Walgreens and buy a card, the consumer is staying home because of COVID-19 and she is on a wheelchair.

The consumer just needs a new phone without charging her any more money.

CTR-415

Ticket: # 3958265 - Not abiding by Keep America Connected Pledge during COVID-19

Date: 5/4/2020 9:56:31 AM

City/State/Zip: Boise, Idaho 83713

Company Complaining About: Cable One

Description

All the internet service providers, as you know, suspended data caps owing to COVID-19 and everyone having to work at home. AT&T, Verizon, Comcast and others recently extended such suspension through 6/30/20. (<https://www.extremetech.com/extreme/309849-att-comcast-verizon-extend-data-cap-suspension>).

Sparklight, which took over Cableone, issued a recent press release SOUNDING like they did something nice "extends COVID-19 Response Efforts will extend its commitment to the Federal Communications Commission's Keep Americans Connected Pledge " but they failed to extend the suspension of data caps.

They extended other minor stuff to 6/30/20, but perhaps think we are all stupid enough not to notice they did not do what other ISP's such as Verizon, AT&T and Comcast did. They just do not mention the suspension at all. It thus necessarily expires on 5/12/20 without extension.

(<https://www.sparklight.com/press/Pages/Sparklight%C2%AE-Extends-COVID-19-Response-Efforts-Through-June-30-.aspx>) I phoned and messaged, and they confirmed they did NOT extend it. To issue a press release that makes it sound as though they are in accord with FCC's Keep America Connected when we are all still stuck at home working and have kids home, and are blowing through our data plans, is reprehensible. It is also an unfair competitive advantage, as their competitors will not be surcharging or forcing people like me to bump their plans to a higher cost but Sparklight sure will. Sparklight needs to suspend to 6/30/20 and not to allow the expiration on 5/12/20.

Ticket: # 3958276 - False/Misleading news reporting

Date: 5/4/2020 10:04:04 AM

City/State/Zip: Netcong, New Jersey 07857

Description

This station has disseminated this administration's conspiracy theories, lies and "alternative facts" since day one, and now it's lies about corona-virus/Covid-19 have tangibly increased the death toll and economic impact on this country by spreading baseless claims, conspiracies and misinformation about the severity, scope and reach of this virus that has wreaked havoc on our country. These actions have caused damages to property, public health and are responsible for unnecessary deaths of Americans. The mass broadcasting of lies to the American public cannot be tolerated. Do your jobs and protect our way of life.

Ticket: # 3958282 - Metro T-Mobile

Date: 5/4/2020 10:06:03 AM

City/State/Zip: Hanover Township, Pennsylvania 18706

Company Complaining About: Metropcs

Description

Metro offered a discounted phone plan for 60 days to reduce price due to COVID-19 pandemic. Which was 15.00 per month for 60 days, with 2 GB included with the plan. i contacted them today to advise that my data was not working. The automated system advised that my plan did not include data. I asked to speak to the representative, they advise that I used all of my data. Since i reside in PA and there is currently stay at home order. I have been using the home WI-FI. My plan renewed on May 1. They are stating that i have no data left and its only May 4. I have used my phone outside of my WI-FI range.

Ticket: # 3958323 - Optimum is charging a Regional Sports Network Fee but no sports are being played

Date: 5/4/2020 10:28:53 AM

City/State/Zip: Rhinebeck, New York 12572

Company Complaining About: Optimum

Description

I pay \$10.47 per month to Optimum as a Regional Sports Network Fee. Even with that fee, I don't see all the games - which is unfair. However, now, due to Covid-19, all sports have been cancelled or suspended for at least a month - more than a month in some cases, I believe. However, Optimum continues to charge me the \$10.47 Regional Sports Network Fee - which is even more unfair. I'm paying \$10.47 a month to watch replays of games from 1996, 2001, etc.

I've called them twice. The first time I was told "it's a government fee that must be charged - whether there are any games being played or not". The second time I was told there was nothing to be done and it was their right to charge fees as they see fit.

My son's college issued pro-rated refunds of room and board fees when campuses were closed. My gym stopped charging monthly membership fees when New York State mandated that they be closed. I could go on and on with other companies doing the right thing.

Why should Optimum be allowed to charge fees for something that they are not providing?

I believe that Optimum should provide customers with retroactive refunds, to March, of their Regional Sports Network Fees. And discontinue the fee until sports are resumed.

Ticket: # 3958328 - Speed Issues

Date: 5/4/2020 10:31:35 AM

City/State/Zip: Tulsa, Oklahoma 74136

Company Complaining About: Cox

Description

I've contacted Cox and done their full troubleshooting (as well as my own). There is nothing wrong with my router, modem, line, Wi-Fi receiver or otherwise. Cox is throttling my speeds because of node saturation and heavy load on their networks due to COVID-19 stay at home orders. Either charge us for what speeds we are generally getting (10-30down), don't throttle us or upgrade the networks using the insane amount of profit you as a greedy monopoly-like ISP make.

Ticket: # 3958426 - Optimum Availability Complaint

Date: 5/4/2020 11:10:39 AM

City/State/Zip: Roosevelt, New York 11575

Company Complaining About: Optimum

Description

Good Morning,

I would like to inform you that optimum / altice is actively disconnecting customers internet and phone services due to inability to pay which is a complete contradiction of their pledge with the FCC. I live in nassau county new tom high has been severely impacted by the corona virus. Optimum has not only disconnected my service but several others in my community.

Thank you,

(b) (6)

Ticket: # 3958442 - Optimum Internet

Date: 5/4/2020 11:18:04 AM

City/State/Zip: Scarsdale, New York 10583

Company Complaining About: Optimum

Description

To Whom It May Concern:

I have had nothing but frustration with the internet services provided by Optimum for the last few months, even before the outbreak of COVID-19.

Aside from not meeting the speed set forth in the agreement, there has been blocks of multiple hours (10+) and blocks of days where we have been without internet. A review of complaints on social media (Twitter in particular) reveals that I am not alone with this issue, yet Optimum says service is running fine and that there are no issues. It is near impossible to get a hold of anyone at Optimum to address this issue. Customer service is next to nonexistent and Optimum has refused to offer credits for the periods where I am without service.

Given the ongoing work-from-home Order by New York State, having functioning internet is beyond essential.

I look forward to hearing from you.

Best,

(b) (6)

Ticket: # 3958448 - Request for Help

City/State/Zip: Cheektowaga, New York 14227

Company Complaining About: Spectrum

Description

Several issues. My internet is very slow and cuts out many times each day. Then customers who never had their internet now get it for free due to covid 19 and I'm stuck paying their high fees for non working internet. I should be compensated for those same months of free service and my internet should be fully repaired to the condition I pay for!

Ticket: # 3958540 - T-Mobile Billing

Date: 5/4/2020 11:56:23 AM

City/State/Zip: New York, New York 10016

Company Complaining About: T Mobile

Description

She received a T-Mobile bill. She tried calling customer service. The customer service will not help her without a pin number. She applied for the service prior to the pandemic and her bill was supposed to be \$55. Now shes received a bill stating that she owes over \$160. She has never used the phone and assumed that she had to call to port the number in order to activate the account.

Ticket: # 3958617 - Internet access suspended during pandemic

Company Complaining About: Mediacom

Description

I woke up to take my college final and my daughter to do her schoolwork and the internet was not working. The cable wasn't either. We were without internet access for 12 hours even though Mediacom made an agreement with the fcc not to interrupt internet service

Ticket: # 3958695 - Spectrum Internet

Date: 5/4/2020 12:49:54 PM

City/State/Zip: New York, New York 10001

Company Complaining About: Spectrum

Description

I have been having very inconsistent WiFi speeds with spectrum for over a year. I have had 3 spectrum employees come to my apartment within a week and they all do the same thing and ask the same question but the problem never gets solved. Attached I have 2 photos showing the download speeds during this pandemic and before to show that it isn't just happening now due to everybody being at home using WiFi. I contact customer support monthly and their only solution is to have somebody come to the house to check the equipment but like I said I've done that so many times it fixed absolutely nothing. I just want my internet connection to be reliable for the price I am paying.

Ticket: # 3958739 - COVID 19- Unreliable Service**Date:** 5/4/2020 1:04:04 PM**City/State/Zip:** Springville, Alabama 35146**Company Complaining About:** Windstream Communications

Description

It is a pandemic and he does not have service at his home. He has been without phone service for 4 days. Every time it rains the service goes out and he is sent another modem. The issue is not with the modem or with his home, its normally an issue up the street. He is without service for at least 10 days a month. He had a business line with them but cancelled it because it never worked. The second line he had for years and the service with the phone line and the internet is unacceptable. The company will send a tech out and they will go up to the pole, make an adjustment and they'd have service up and running for a few days. He was supposed to have a tech come out on 5/3/2020 but nobody arrived and he is still out of service.

Spectrum TV turned off my cable during the Covid-19 pandemic while I have been unemployed. They've never sent me any correspondence on what steps I could take to avoid my cable being cut off during this pandemic

Ticket: # 3958751 - Straight Talk Phone Service

Date: 5/4/2020 1:09:18 PM

City/State/Zip: York, Pennsylvania 17402

Company Complaining About: Straight Talk

Description

My cell phone was turned off do to not being paid. My bank had frozen my bank card do to fraudulent bank activity. I did not know they did this, I texted my phone service provider and complained to them about turning it off with out notifying me. They told me there was nothing I could do unless I paid the bill. I told them that they were not aloud to do that at this time because of Covid 19. I was told that I had to pay my bill or they would not turn it back on. I am working from home and that is my only way I can communicate at this point. I had to run around and get a prepaid phone card to reactivate my phone service. I feel that they did not take into account the order that was given by President Trump that Utilities and phone service and internet providers could not turn these things off for non payment. Please help me to get this straightened out with them.[I would like a free month for the aggravation they caused me

Thank you

Ticket: # 3958832 - Causing Panic During Communist Chinese Corona Virus

Date: 5/4/2020 1:41:22 PM

City/State/Zip: Fort Worth, Texas 76120

Company Complaining About: AT&T

Description

I just watched a report on NBC in the Dallas/Ft Worth area. The article started out telling about the Tyson plants closing which could cause a shortage of beef, pork and chicken. This is something that has been in the news for a few days. As the story continued they began showing what meat cases either completely empty or with only a few items and stating over and over again that there IS a shortage of meat products. This to me is irresponsible. I just went to the store yesterday and there was NO shortage of meat. This is what caused people to panic to buy things like toilet paper in large quantities. The supplies may be low but most of that is caused by people watching Irresponsible News programs like this one. During this pandemic shouldn't sensationalized news programs like this be avoided and only the Real News be Reported.

Ticket: # 3958869 - Payment "Glitch"

Date: 5/4/2020 1:55:01 PM

City/State/Zip: Bronx, New York 10454

Company Complaining About: AT&T

Description

My bank account was authorized twice by AT&T's processor system because of a "technical glitch" I then was forced to call in and pay again; to resume service, as none of the charges before were able to be applied to my account. Because of COVID-19 I am not working and these two charges that were made took a total of \$165.72 out of my bank account. Because of this and then having to pay an additional \$71.97 on top of that to restore my service my bank account is now negative, and has resulted in fees totaling \$365 as of 04/22/2020.

The way that their customer service representative handled herself was completely disrespectful and completely ignorant of the current situation that we are experiencing. I live in New York and it was completely inappropriate of the representative to tell me to go into a store to handle my situation, and then to speak over me, to not let me speak and then hang up the call was deplorable.

I don't know how they are handling what is going on in the country, but I am struggling and relying on every penny. Because of this companies error I have negative funds to support myself, to purchase food and to pay my bills, and I do not know when or if I will be able to correct this with my banking institution. Your company made a mistake and you need to figure out a way to correct it. They are affecting peoples lives right now, because of errors. Errors that in other times might not be a big deal, but errors in this unprecedented time that literally mean the difference between being able to feed myself and my family. They need to compensate me for the fees that accrued due to their error, either in money or a credit for service.

Date: 5/4/2020 5:05:12 PM

City/State/Zip: Beaverton, Oregon 97005

Company Complaining About: Comcast

Description

I contacted Xfinity/Comcast in writing over a month ago (March 2020) advising that due to financial and other hardships related to Coronavirus including household loss of employment and being disabled (ADA status), and requested that my bill be reduced, but have not received a response. I have been what I thought was a loyal, valued customer for over five (5) years. Last week, I finally reached an agent (Renee K., Apr. 24) but did not answer her phone, so I emailed her where she exhibited unprofessional behavior and began using scare tactics, intimidation, then began citing one of the channels I've been paying for was going to be discontinued that I needed to lose services. I requested at that time to be contacted by a supervisor or director. She stated to me that there was no other level this complaint was going to, no one was going to handle it except her, that she was the only one who could handle my account. Since I knew she was behaving unlawfully, I asked that she refrain from any further contact to me. She continued to harass me by email, when I advised her I would be seeking assistance from hierarchy, i.e. I then contacted the corporate office once again by fax (215) 981-7790. This would make my 4th or 5th time contacting Xfinity Corporate but never receiving one response. On 05-02-2020 I attempted to contact them again using online chat. I was informed that I would receive credits due to service interruption issues that had persisted for over 3 months, the rep took my phone number stating a supervisor would contact me back, but while we were still chatting the rep abruptly disconnected me from chat. I contacted 3 to 4 more agents in chat, but each of them made promises that credits of \$80 for each month I had issues would be applied, but when I asked for confirmation, they each disconnected me from chat. I then was able to contact one additional agent, however she began to lie and backtrack from what the other agents confirmed. It was a circus, most negligent, unprofessional, fraudulent, etc., atmosphere. I became extremely frustrated and at that time terminated the chat. I then sent another fax to corporate but as of today, no response. I asked for and was offered credits as a resolution to defective service issues, have been plagued and disenfranchised by the Covid-19 situation, notified them early on before my bill became late, but have been treated with much fraud, negligence, not by policy or law, etc., by Xfinity. Now the company continues to send me late notices ignoring my request for arrangements being made on my bill. I have requested that at no fault of mine, services bills be discounted until the pandemic passes, but Xfinity behaves with greed and fraud rather than valuing my dilemma, thus they continue to grant me credits but then later state none was applied. I checked my account online but no credits as promised were applied. They have now continued sending me threats to disconnect my services. In my original faxes to them I also advised that I was experiencing issues with billing on my Xfinity Mobile services also. I have cable, tv, internet, mobile, etc., services with Xfinity.

Ticket: # 3959490 - Breaking a contract for Internet service

Date: 5/4/2020 5:31:18 PM

City/State/Zip: Hackensack, New Jersey 07601

Company Complaining About: Optimum

Description

On March 2, 2020 my residential bundled Internet bill from Optimum/cablevision became so high I thought I would call them to ask the cost of their televised Optimum 200 Business service. As a 70 year old senior I had been a customer for 30 years. The salesperson told me the cost would be \$214. per month. This was less than my residential bill of \$232. The salesperson scheduled a Tech to come to my home to install new equipment. That was March 10, 2020. The salesman said that because I was an existing customer there would be no installation charge. He also said that my phone number would not change. That day the Tech and myself watched on TV the first corona virus death in my town of Hackensack NJ 07601.

After the installation he asked me to sign for his visit. I did but forgot to ask for the "bill" . After the installation my phone number was changed by Optimum. It took a long time to fix that. The I found out that my bill was \$275. not \$214. I complained by phone at least 3 times and by email 3 times. My bill has not changed. And, they seem to not have recorded their salesperson's phone chat with me. Optimum handles my phone, Internet and TV. I am afraid they will cut off my services. I also believe that since they know my age 70yrs old. They are attempting to cheat a senior citizen. I do not know what I can do to help myself. Thank you, (b) (6)

Ticket: # 3959514 - Failure to Issue Refunds for Radio Station Event & Failure to Disclose Details Refund Details In On Air Ads, & Partially Disclose Through Social Media

Date: 5/4/2020 5:36:19 PM

City/State/Zip: Garner, North Carolina 27529

Company Complaining About: Radio One

Description

Radio One promoted an event called Women's Empowerment, scheduled for April 25th at the PNC Arena. Due to COVID-19 the show was postponed. This is understandable but concert goers have been demanding their money back. Radio One is not issuing refunds but they are supposed to be doing so. Their on air ads misleading. They do not tell you that you have the option to get a refund. On Facebook they were only posting bits and pieces of the refund policy, so people were still clueless and continue to vent on social media about wanting their money back. Certain places on the internet post about the refund, but it's at the very bottom of the article, while their requests for ticket holders to hold on to their tickets is at the very top. We have been demanding refunds but Radio One is blaming PNC Arena and saying that they are the ones not allowing them to issue refunds to concert goers. On 4/16 at 11:00, I spoke to the Marketing rep named Shariah Green. She advised me that PNC Arena is focused on scheduling hockey games for the year and has not provided Radio One with any details so that they can schedule a new event date or issue refunds. But, PNC Arena and Ticketmaster are both blaming Radio One for not issuing the refunds. After reaching out to PNC Arena and asking them if they were the reason why Radio One was unable to issue refunds, a rep from the arena responded by email with the following: "Tonya – Per our local Radio One office here in the Triangle, we are not authorized to provide refunds at this time." I have the email. Ticketmaster stated the same thing when I called them. And, Ticketmaster's site states the "If an event organizer is offering refunds for postponed or rescheduled events, a refund link will appear on your Ticketmaster account. Otherwise, you are encouraged to periodically check back online to see if the status of their event has changed." The Marketing rep who I'd spoken to by phone was kind enough to follow up with an email. She explained that she had forwarded my info to Jim Coleman who would assist me further with the refund inquiry. Days went by, and I never heard back. So, I emailed him. Nothing. I sent an email through the Chamber of Commerce and received a reply response from Gary Weiss at radio One on 4/22, asking for my contact number so he could assist. I never heard back from him either. On April 25, I posted my concerns on Facebook. The Marketing Director named Tracy immediately responded. She appears to be sincere in trying to help. She politely explained that ticket holders should be able to get refunds at this time and that this was the first she'd heard of this refund issues. That was on a Saturday. She took my information and stated she would follow up that coming Monday. I believe that she may be trying to get things moving. But, I just don't know why there is a hold up, if Radio One is under the impression that refunds are an option. I posted on Facebook again on 4/27. She replied and said that she is still working on this. Some of us paid \$293 for a single ticket. No matter how much was paid, ticket holders are getting the runaround. And, I dislike the fact that Radio One's social media posts and on air ads are so confusing, not disclosing the refund option, or only posting parts of the refund policy to ticket holders and listeners. It appears to be purposely misleading to me and others.

Ticket: # 3959561 - Disconnect Warnings

Date: 5/4/2020 6:05:53 PM

City/State/Zip: Chesapeake, Virginia 23322

Company Complaining About: Assurance Wireless

Description

Cox Communications never contacted their customers when rules regarding COVID-19 “no disconnections” changed. I have paid as much as I can after discovering cable TV is no longer apart of those temporary rules and now am being disconnected from my phone, TV & Internet due to a \$400 late bill and find it very hard pay them that much right now. I feel like I am exploited because I can’t work, solely relying on my husbands income with an autistic 5 year old that needs these things connected. Chesapeake , Virginia. Account (b) (6). Please help!

Ticket: # 3959574 - Throttling Upload speed - wow Way

Date: 5/4/2020 6:09:50 PM

City/State/Zip: St. Petersburg, Florida 33714

Company Complaining About: Wow

Description

While trying to use the upload speed that I have been paying for for the past 5 months. (these issues have been happening for 4+ months, before pandemic. They have sent out 3 technicians who have replaced cables, grounders, splitters and etc.

The issue is still occurring, when trying to stream to facebook, youtube, mixer or even Twitch the upload speed shoots up and then drops all the way down to 0 causing for an unwatchable experience. I have talked to others who livestream and they experience these same issues with WOW internet.

Ticket: # 3959603 - number portability, privacy

Date: 5/4/2020 6:21:39 PM

City/State/Zip: Canonsburg, Pennsylvania 15317

Company Complaining About: Net10

Description

I received a phone number from NET10 when I registered a phone plan with them for 30 days (1000 minutes) roughly eight months ago. Since then I have received too numerous to mention calls/texts(CCAC)(kids schools) in regards to "Samantha" "Anthony" and just now another person named "Jeffrey". Community College of Allegheny County (COVID19) (concerns me concerning MY COLLEGE RECORDS for Pell Grants and MY LOANS/CREDIT), gyms, social services,). NET10 says "use MINC" to change your number". All my business contacts have this phone number, my people have this phone number to call me on. Can the government do something about this seeing as I CAN'T EVEN FILE MY TAXES DUE TO THIS BECAUSE I TRIED THROUGH CREDIT KARMA. "another account holder has this number". WHAT?????

Ticket: # 3959632 - Substandard broad band

Date: 5/4/2020 6:46:22 PM

City/State/Zip: Jones, Oklahoma 73049

Company Complaining About: AT&T

Description

We have WISP based internet in our area. Our maximum available package provides performance around 8mb down and 6mb up. No volume caps. Cost is about \$80 per month. Cox Communications and AT&T are both within just a couple of miles of us with AT&T having a new neighborhood across the street where they are installing fiber. We have been told neither of them will come to our neighborhood because we don't have the home density they require. Our neighborhood is an older neighborhood in an area that was considered "rural" a few years ago. As the OKC area has grown, we are a hot new area for homes being built. However, these the two major ISPs won't bring broadband to us since as an older neighborhood, we don't bring them the profit they are used to. Our current ISP does a good job for a wireless ISP, but it is not sufficient to consistently remote work during COVID-19. This is a problem.

Ticket: # 3959644 - Over 100 unwanted robocalls

Date: 5/4/2020 7:02:38 PM

City/State/Zip: Mayport, Pennsylvania 16240

Company Complaining About: Altanta Ga

Description

Today's of 6:44pm we have had over 100 unwanted robocalls on our home phone. When answered, there is only a light beeping. They are from all over the country, many different numbers. It started at 11:30 am. They ceased from 2:30 until approximately 4:30, coincidentally during that time span, I was not home. After I returned back home, they started up again. We have had to turn off all of our ringers. I called our phone company and the FCC toll free line. I was told not to answer my phone. With COVID-19, I am working from home. We have no idea what to do. We do not have strong cell service and need our home phone.

Ticket: # 3959660 - Service call

Date: 5/4/2020 7:09:24 PM

City/State/Zip: Wall Twp, New Jersey 07719

Company Complaining About: Optimum

Description

Due to Optimum telephone cust service representative who did a hard boot of my wifi without my permission, caused wifi address i was familiar with to disappear. When she cld resolve recommended service rep to come out -I asked how much? No response from service rep. If rep had understood & explained hardboot wld revert wifi address to generic name it would have saved me not only a service call but also having to upgrade my cell service as i now need to use cell as hotspot in order to be able to work (working remotely due to pandemic). I will not pay that \$80 service charge when 1. the rep serious mishandled the situation or at very least did not understand the consequences of what she did when she did the hard boot and 2. I specifically asked how much it wld cost if a service person came out & got not response. Incompetent and dishonest

Ticket: # 3959661 - Complaint Against Verizon Wireless/ Verizon Communications**Date:** 5/4/2020 7:09:30 PM**City/State/Zip:** Conway, Arkansas 72034**Company Complaining About:** Verizon Wireless

Description

My spouse and I upgraded to the iPhone 11 Pro Max on March 6th and 7th of 2020. All early upgrade fees and taxes had been paid up front upon upgrade. Due to Covid 19, Verizon Wireless/ Verizon Communications closed all In-Store Locations, making it very difficult for us to return my older device within a timely manner. My spouse and I have been in contact with Verizon Wireless about additional early upgrade charges to April's bill that were not communicated to us. We paid almost a 400 dollar phone bill for April 2020. As of today, May 4th, 2020, Verizon Wireless/ Verizon Communications is charging us almost 700 dollar on our current May 2020 bill. 405 dollars of this bill is for the remaining balance of my older device I have been trying to return for weeks. Our family moved from Missouri back to Arkansas during this Covid 19 Pandemic and we needed a new shipping label. Upon first and second contact to request a shipping label for said device, I was advised by a Verizon Wireless Representative, I would not be held at fault for a late return due the Covid 19 Pandemic affecting everyone right now. I since have followed up with Verizon Wireless at least 6 more times about said shipping label. They are refusing to send it. Instead, they have sent an incomplete return kit to our address, links to non-related solutions and are now hanging up on me. It is now my belief due to Covid 19, they simply want the money and have no intention to resolve the issue or adjust our May bill. My spouse and I have done all we can to get this resolved with Verizon Wireless directly but now need your help in reaching a resolution. I just want a shipping label, so I can return my older device. I want the 405 dollars taken off our current May bill, so we can move forward with no further issues. We do not feel like valued customers and Verizon Wireless is forcing our hands into cancelling our service with them. What can be done about this? Thank you.

Ticket: # 3959664 - Frontier communications

Date: 5/4/2020 7:11:53 PM

City/State/Zip: Long Beach, California 90802

Company Complaining About: Frontier Communications

Description

I ordered the highest internet speed available from frontier communications end of March 2020. Frontier scheduled an installation appointment for April 3rd from 8am 5pm no one from frontier came out to install instead I received a voicemail stating internet installation would be rescheduled and a tech would come out April 7th between the hours of 8am and 5pm. Tuesday April 7th a tech showed up the tech advised that due to Covid 19 he would not set foot inside my home and I would be set up with a slower internet due to new protocol I explained that was not what I ordered or agreed to he advised me to take it up with frontier customer service. I contacted frontier customer service on April 8th and asked install be waived since they werent able to install the internet i initially ordered i was advised a supervisor would contact me no one ever contacted me called on April 16th spoke with Miranda I requested service be canceled also requested that I not be billed for installation fees since frontier was unable to come inside the home and properly install the internet Miranda the customer service agent advised services were cancelled I received a bill showing negative \$6. on 5/1 I was billed \$126.00 when i called customer service on 5/3 i was advised I was billed for the full month despite being told previously account was canceled and I would not be billed. I have attached the cancellation summary.

Ticket: # 3959698 - Who can AT&T be reported too for scamming the elderly?

Date: 5/4/2020 7:34:38 PM

City/State/Zip: Oroville, California 95965

Company Complaining About: AT&T

Description

My Mother tried getting internet, yet was forced into a TV package which she didn't want, but was told is the only option for her to have internet, refusing to even help her understand how to use the remote to access it. It was only supposed to be over \$80 per month, yet charged twice for the first month 106.60 + 138.03 then 229.88 for the the 2nd month because she wasn't informed of having to pay twice for the first month and received additional late fee for not paying one of the bills. Then during the Covid Pandemic without notice or warning, hiked the price 130.66 and refused to help her, giving constant run-around causing her heart to have issues. Now they have her charged with 187.84 for this month, therefore I spent the entire day on the phone, passed around like a joint speaking to many clueless stoners, who also wouldn't help. She asked if they would speak with me which they claimed they would, yet refused, so that even more time can pass and more bills charged to her while the issue remains unresolved. Now claiming that she is not required to have TV Service for internet, but trying to hold her to what plan they forced her to take in order for her to have internet. Lied to her about their satellite connection being faster than Comcast when in reality, dial-up would be much faster, especially on cloudy days when any connection you do get is at a stand-still. Had her email account under the AT&T address so that she could not access her account online, any request for a password went to the address on their website which she had no access too, which was the only issue resolved today. When Big Corporations run these scams, it runs your credit while costing them nothing, they simply sell your bill to collection telemarketers. I think it is time for them to be held accountable for their scams to rob the disabled elderly and other customers who have no voice. When the Big Corporations cause the payment issues, it should be their credit affected, and not the customers whom they are trying to rob.

Company Complaining About: Directv

Description

I have been getting overcharged for my service m, with no communication or options for a payment plan. As the days turn into weeks. The covid-19 pandemic continues to devastate my income and ability to support my family. Direct Tv have seemingly continued to over charge me while dodging my attempts to contact them so that we may come to a payment agreement. Three weeks ago I tried to make a payment arrangement, a employee agreed to a payment arrangement with me, but the next day they disconnected my TV and overcharged me once again

Ticket: # 3959725 - Returning equipment

Date: 5/4/2020 7:55:33 PM

City/State/Zip: Katy, Texas 77493-2393

Company Complaining About: Comcast

Description

Box on one of my TVs is not working and in order to have a new box sent to me, I had to agree to have a box charge added to my account. They issued credit but only until May 30. Due to Covid they will not come into my house but expect me to return the box to a UPS store. I have cancer and do not want to go out in public. If the box is not returned I will be charged twice for the same service. I have tried to call about making other arrangements to return the box with no success.

Xfinity wants to protect their employees but do not seem to be concerned about my health. It seems like they could provide me with a return envelope and phone number so someone can pick up the equipment.

Ticket: # 3959747 - Charged for unused services

Date: 5/4/2020 8:09:20 PM

City/State/Zip: Westville, Florida 32464

Company Complaining About: Hughes Net

Description

I tried to called two different times to cancel my internet service with HughesNet and was hung up on both times and also waited two hours (which I took pictures of) in a chat room, which no one ever came to and sent an email about canceling my service. I unplugged my modem and have zero data usage for last month and will have none for the upcoming month yet they still want to charge me \$138. I tried to explain that I am an essential employee, have been working 6 days a week during this pandemic and I felt like I did my part to try and cancel it. I have not used it at all since I tried calling to cancel but they still want to charge me. I feel like, considering the circumstances, I should not have a bill at all with HughesNet.

Ticket: # 3959895 - Shutting Off Service the Day after I activated it

Date: 5/5/2020 12:14:42 AM

City/State/Zip: Harrisville, New York 13648

Company Complaining About: Total Wireless

Description

I paid and activated service with Total Wireless 05/03/2020 and it worked for less than 24 hours. Randomly, while waiting for a call from my doctor, I realize they took my money and shut off service. I chatted in and spent hours with customer service, but they ultimately didn't turn it back on. It's a pandemic, and I have no other phone!

Ticket: # 3959914 - Comcast/Xfinity Data Caps**Date:** 5/5/2020 1:26:43 AM**City/State/Zip:** Des Plaines, Illinois 60016**Company Complaining About:** Comcast

Description

The Comcast data cap has been implemented for too long. It should not have been implemented in the first place, but aside from this, it has not increased over the years. The fact that this cap was temporarily lifted during the coronavirus pandemic, a time where more people are working from and not leaving their homes, shows this is entirely a way to charge customers more money. This is not about decreasing "strain on their infrastructure." And this is many years after ISPs received a tax breaks (to the tune of \$200 billion) to upgrade existing infrastructure.

The cap should be lifted entirely, or at the very least increased. As more people switch to streaming services and the internet becomes more ingrained in everyday life, 1TB per month is an astonishingly low number.

Ticket: # 3959950 - Windstream - Poor Internet Service**Date:** 5/5/2020 7:55:32 AM**City/State/Zip:** Clarkesville, Georgia 30523**Company Complaining About:** Windstream Communications

Description

Windstream provides poor internet service. This is the 2nd time in a week I have been without internet. Since I have been working from home as a result of COVID-19, my internet has been incredibly slow and completely unreliable (more so than usual). This is not the first time I have had issues with reliable internet through Windstream. About 6 months prior to this, I called Windstream requesting technical support for about a year because my internet speeds were so slow it would completely drop out. I have only been a Windstream customer for about 3 years and have had issues for the majority of that time. Any time I have questions regarding my service, they are unable to answer them due to their brilliant company structure. The call center employees are never able to answer simple questions (such as "when is the outage estimated to be restored" or "when will I receive a call back"). I am tired of paying an internet company for a service they fail to provide reliably. Unfortunately, options are very limited where I live and I am forced to use Windstream.

Ticket: # 3959972 - Internet Content Availability Complaint

Date: 5/5/2020 8:46:55 AM

City/State/Zip: El Segundo, California 90245

Description

I am writing to ask why YouTube/Google are allowed to remove videos of Scientific enquiry in the name of 'Harmful Information'.

Removing a TV Documentary on Covid 19 in California because they did not agree with the results - and then unilaterally without substantiation claiming it contradicted the WHO is CENSORSHIP - it is what Communist governments do to suppress inquiry, questioning and accountability to the people. Please call them to account on this!

Regards,

(b) (6)

A series of seven black rectangular redaction boxes of varying lengths, covering the signature and any accompanying text. The first box is short, followed by a slightly longer one, then a medium-length one, and finally three longer boxes of similar length at the bottom.

Ticket: # 3959980 - Internet home provider Optimum charged me \$10 late fee

Date: 5/5/2020 8:56:51 AM

City/State/Zip: Brooklyn, New York 11204

Company Complaining About: Optimum

Description

Optimum charged me \$10 late fee. Please audit and investigate the late fee policy and procedure that optimum is charging consumers. with a promotion, the internet costs \$49 and the late fee is \$10 . that is 20% late fee during a coronavirus pandemic. I would have loved to return the modem last month to them. But, cant cancel the services. Called customer service and was on hold for over 2 hours and couldn't reach a representative. and another time an hour on hold and didn't reach no representative. Please audit and see for yourself how customers cant reach a representative. Audit them by calling as a customer. I have a screen shot of the time on hold with them on my cell phone pictures. Also, they raised the prices to \$103.49 a month for internet. (service and modem and fees) how can a consumer on poverty level and seniors of \$12,000 a year income afford it? they spend 10% on their income on internet (but, my complaint was about the \$10 late fee that I think I should not have been charged) if you see my pattern of paying the bill. I sometimes pay advance 2 months.

Ticket: # 3960000 - Rural Broadband Internet Availability Complaint

Date: 5/5/2020 9:15:30 AM

City/State/Zip: Campbell, New York 14821

Company Complaining About: Armstrong

Description

I recently have read an article that was posted on CNN and I'm encouraged that someone at the FCC leadership understands the struggles and the failures of previous funding of expansion of broadband.

I have been trying for 11 years to get broadband expanded in my area. As you may know Spectrum (Charter), recently merged with former Time Warner. Specifically, they were required to expand services to 145,000 residents and business within New York State by 2020. The intent of the deal to allow them to merge, was to expand broadband into rural areas. Unfortunately, Charter had no intentions to expand to the last mile areas with less than 35 residents/business per mile. New York State Department of Public Services conducted a review of the situation and ultimately allowed them continue to operate within New York State and extended the deadline to have all 145,000 residence/business serviced by the end of 2021. I recently called Charter to see if they had any construction scheduled for my area. They said, not within at least the next couple of years and most likely never unless funding is provided. My neighbor and I are currently seven poles (already installed poles with space for them to run the cable), less than a 1/4 of a mile from there services and they will not expand. I have even gone beyond my neighbor and I further down the road and obtained signatures from multiple neighbors that would be a customer if the services were there to connect. Again, they refused.

Verizon is the current phone provider within our town. They only offer phone services and after several discussion with them, they have no plans to upgrade there current phone lines and equipment to be able to offer DSL or fiber.

In addition, there is no cell coverage in this area. If broadband were provided, there are devices (femtocells) that could be connected to broadband to deliver a cell signal within a home or business. This would essentially solve two problems if broadband were offered.

Due to the limitations of services, the only option is satellite internet (HughesNet/ViaSat) This as you know is not broadband nor is it reliable. The latency alone is problematic when operating on a VPN (virtual private network), cloud access, and video conferencing due to delays. When it rains services goes out. The data caps are very restrictive. For the monthly cost of satellite, there shouldn't be a data cap on the services. When you run out of data, you are slowed to dial up speed.

Due to recent stay at home orders, our house is operating with two adults working from home and two children schooling from home. There are resources that our school district is offering online but unfortunately, due to the data and latency limitations on our satellite connection we can not stream and video conference well. ViaSat and Hughesnet are the only two companies operating in the United States that refuse to remove the data caps during this time even though they signed the pledge. There response is we don't have data caps. We are unlimited .That's half true as nothing will work on dial up speeds in todays world. Please see there social media (Facebook) for upset customers feedback.

I don't believe that satellite is the solution going forward into the future and we need to stop funding these companies and focus on the wireline connections. The subsidizing of phone lines needs to stop and be only offered if broadband is provided. Why is Verizon receiving subsidies for phone line only services and refuses to upgrade to offer broadband? This was an issue with electric rural areas up until 1936 when the rural electrification act was passed. I believe something needs to be done similar to that with broadband. These companies have been getting funding for years and refuse to finish filling in the gaps. As you mentioned in the article, I am one of the people within a census block where services are shown to be provided by Charter, but do not exist everywhere within that census block. Due to this, no other provider can expand and receive funding to service the remaining residences that currently lack broadband within this block.

Armstrong is the next nearest broadband provider in the area but has stated, that they can not expand to me due to not qualifying for funding (within a census block showing service), and not being the designated phone provider to receive subsidization.

I'm truly within a technology black hole and have done everything I can think of for the last 11 years but the recent stay at home orders has driven this to a whole new level. The time to expand broadband everywhere is now. Especially, when we don't know how long this will last or if there will be a second wave in the fall or how long a vaccine will take to achieve. I've reached out to Rep. Tom Reed who represents my district and explained the same issues. He had indicated recently on a Facebook live that potentially in the Phase 4 stimulus of COVID that there would be infrastructure focus on broadband but was interested on how to solve the last mile issue. I believe you understand that fully after reading the article. Please continue the fight to fill in the gaps and educate congress and the other commissioners of the FCC on the issues so hopefully in this last round of funding, it will truly fill the remaining gaps. If you can help in anyway with my situation or provide any helpful information, it would be greatly appreciated.

Respectfully,

(b) (6)

Ticket: # 3960016 - Completely inaccurate information in headline and article

Date: 5/5/2020 9:20:03 AM

City/State/Zip: Bloomer, Wisconsin 54724

Description

Headline states On May 4 that Wisconsin conducts More than 11,000 COVID-19 test per day. That is completely inaccurate information and information is could have Been easily obtained before the post was made. This is an ongoing issue about providing accurate information and even having the source easily available to do so.

Ticket: # 3960081 - Mediacom Inconsistent speeds with internet

Date: 5/5/2020 9:59:19 AM

City/State/Zip: Wiggins, Mississippi 39577

Company Complaining About: Mediacom

Description

Our 1Gig service is constantly fluctuating from 95Mbps to 965Mbps and continuously drops. We pay for the 1 Gig service. We have exchanged modems and have had remote service calls and technicians to our residence. This all began before Coronavirus-19. Fixing the inconsistencies is what would solve the problem.

Ticket: # 3960091 - Comcast Internet in zip code 33306

Date: 5/5/2020 10:04:20 AM

City/State/Zip: Fort Lauderdale, Florida 33306

Company Complaining About: Comcast

Description

I have a 2 year internet subscription with Comcast at my home in Fort Lauderdale, Florida, zip code 33306. Every day at 9am, I lose internet for several hours. This happens EVERY SINGLE WEEKDAY and has gone on for months. I have bitterly complained to Comcast by telephone and through twitter @comcastcares and I get the same run-around. They tell me it's a scheduled outage, they are working to repair and it will come back on-line in 3 to 4 hours. They provide a time estimate for when it will come back on, but in this world of covid, where I am locked at home, I have no other option for a service provider because Comcast has a monopoly. I need help in making them fix the issue

Ticket: # 3960115 - Internet running slow and not working

Date: 5/5/2020 10:15:40 AM

Ticket: # 3960168 - Xfinity Internet

Date: 5/5/2020 10:31:07 AM

City/State/Zip: Dickinson, Texas 77539

Company Complaining About: Comcast

Description

Since August 2019 I have been having continuous internet issues. It is always going in and out. Downloads and uploads speeds are extremely low. I have reached out to technical support numerous times for the past months. Multiple service technicians have come out but nothing has been resolved. I have four kids who are doing home schooling at the moment due to the pandemic and they have not been able to complete their assignments on a timely manner due to internet connection loss. I continue to pay this outrageous amount for internet services monthly and it doesn't function properly and Xfinity seems to not care or have a solution for me. If I had the option to cancel services and choose another provider, I would have done it already. Unfortunately, my area doesn't have that option. I am at my wits with this!

Ticket: # 3960193 - Internet Billing

Date: 5/5/2020 10:39:13 AM

City/State/Zip: Brooklyn, New York 11221

Company Complaining About: Optimum

Description

I discontinued my previous optimum service in February as I've moved to another apartment complex. I spoke to the representative and was assured that this was done and would be sent a return label as I do not live near a store. I am currently keeping up with payments with my new optimum account and was continued being charged for the previous one that was no longer used. The return label was never sent and when I tried to call and resolve the issue several times there was no representative available (I am assuming because of COVID). When I left a number to be called back no one has done so. I finally got in touch with them recently and was told I would be called back to resolve this billing issue by a supervisor and is still not been resolved or done.

Ticket: # 3960205 - Service/ Covid-19

Date: 5/5/2020 10:41:47 AM

City/State/Zip: Monroe, Louisiana 71202

Company Complaining About: Comcast

Description

Consumer is stating that she is having the same problems as she had before with Comcast. Consumer states that she has an internet line that her mother depends on her for her doctors to be in constant monitoring. The line is not working constantly and her mother is on a list to an organ transplant. Also consumer states that there is constantly outrages and that when you call consumer service they won't help you. Consumer is also experiencing a lot of billing issues and when you call the consumer service there is always a long time period to way for. employees are constantly hanging up the phone. Consumer has place a complaint before about this and their practices still have not change. Consumer has a \$700.00 that she has trying to dispute but she has been unable to contact consumer service. Her bill was supposed to be around \$150. Consumer states also that they won't give you any service unless you pay and they do not work things out with you. The supervisor keeps telling her that they will call her back and fix her problems but this never happen. Consumer is tired about this situation and she wants someone to fix her billing. The internet line is very important to be active at all the time. Consumer wants someone to fix her service and billing IMMEDIATELY and permanently.

ctr408-phone

Ticket: # 3960250 - T-Mobile Availability Complaint**Date:** 5/5/2020 10:54:25 AM**City/State/Zip:** Seattle, Washington 98126**Company Complaining About:** T Mobile

Description

Today my cell phone service was shut off due to possible non payment, but I set up arrangements with customer care to make an installment plan, my first installment was paid On 4/14/2020 and the second was scheduled for 4/27/2020. TMobile did not notify me of any sort of insufficient funds or even made an attempt to withdrawal the remaining balance because I didn't receive any noticing or declining from TMobile or my bank. I have 6 lines in my account which is a \$20 restore fee per line on top of what was due. Now considering this pandemic we are all going through I have the letter from Chairman Pai about keeping us all connected but yet my services were shut off and just as I was trying to make a call to husband who was out stuck on the highway because the car battery has been a nightmare for us I couldn't make a call back to him to find out his status or if he was safe or anything. I couldn't believe this timing couldn't have been more any more worse today. I've paid what's due to restore our services but now I won't have money for a tow truck or the repairs our car might need because I had to pay our phone bills. I just wanted to let someone know that whoever was responsible for taking the pledge for TMobile customers(unless it was just me) didn't comply with the chairman's wishes.

I am not happy and very disappointed with TMobile services right now, I don't know how I feel going forward with keeping them as my cellphone provider.

Sincerely,

(b) (6)

Ticket: # 3960340 - Verizon Deleted My Cellular Account on 5/4/20

Date: 5/5/2020 11:22:30 AM

City/State/Zip: Stewartsville, New Jersey 08886

Company Complaining About: Verizon Wireless

Description

Im a long time Verizon customer in good standing, with my bill paid through 5/17/20 and autopay set up to automatically make the monthly payment. Yesterday 5/4/20 early afternoon, I found myself without cellular service. I call my 87 year old wheelchair bound mom throughout the day to check on her, and I work from home and need my phone for work. Only a few Verizon stores remain open and they'd like you to schedule an appoint before you visit. With no phone service I was not able to do that. I then tried to register online so I could chat with an agent but when I entered my phone number in the registration form it said I did not have an account and so I could not register. I try to adhere to Shelter in Place guidelines but finally I went to a neighbor's to use her phone to call Verizon and it was a long time with the transfer and hold time. The agent told me my account had been deleted. She did not know why. She required that I make a payment in full before she would restore my service even though I read her the Verizon text message on my phone that said I was paid through 5/17/20. In this time of Covid-19 and with my account paid til mid May, Verizon deleted my account for no reason they could explain, and Verizon was holding me hostage to make a monthly payment before my service could be restored. I said I was at a neighbor's house and did not have my credit card with me. Finally the agent said she checked with her supervisor and they made a payment to my account and restored my service, telling me to call the automated system and reenter my credit card information to restore autopay. In addition, a few months ago I contacted Verizon about the 55+ data plan which some of my NJ friends have, and I was told by Verizon you have to be a Florida resident to have that plan. My friends have only a NJ address and they have the 55+ unlimited plan. I want to know why my account was deleted from Verizon when I was paid through 5/17/20 and why Verizon told me to make a payment to restore my service, and why they would do this in the time of Covid-19. Did Verizon violate state and/or federal mandates for Covid-19? In addition, I want to know why I was denied Verizon's 55+ Unlimited call plan when others with only a NJ residence have the plan. Thank you. (b) (6)

Ticket: # 3960409 - Suddenlink Increased Bill during COVID19

Date: 5/5/2020 11:40:35 AM

City/State/Zip: Whitehouse, Texas 75791

Company Complaining About: Sudden Link

Description

Suddenlink just went up \$14 on everyone's cable bill. He is elderly, on a fixed income and relies on the service during the pandemic. The company does not offer any assistance for persons with disabilities and he thinks it is unfair to take advantage of people during this time.s

Ticket: # 3960580 - No Captions Created

Date: 5/5/2020 12:21:58 PM

City/State/Zip: Syracuse, New York 13204

Company Complaining About: Wcny Public Television

Description

WCNY, as an irresponsible, lazy and inept PBS affiliate - has failed to create captions for any of their 'Education Learn-at-Home' programming they have created during COVID-19. Did you allow this bypass of the captioning rules? Please ensure that WCNY provides captions on ALL of their broadcast and online productions. Very shameful if you gave them a pass on this during this important time where the deaf community needs the 'resources' for whatever they're worth - just as much as the rest of the viewers. Another example of WCNY wanting a PR opportunity without providing any substance.

Ticket: # 3960584 - unable to change service without info I was never provided.

Date: 5/5/2020 12:22:36 PM

City/State/Zip: Cambridge, Massachusetts 02138

Company Complaining About: Spectrum

Description

I have combo tv/phone/internet service in Campton NH with Spectrum. I have been on phone and chat with them multiple times since late March attempting to disconnect or do seasonal pause for service not needed due to rental restrictions from COVID 19. The company has failed to perform any of the requested actions, including sending me the 4 digit code they require for me to change anything on my account which they were supposed to mail. I switched to online billing, but cannot open the bill without the code WHICH IS ON THE BILL I CANT OPEN. One representative changed my code to a personal code WHICH DOESNT WORK except for a representative to look up the account. I stopped autopay as even the credit card company had no way to contact the company. Every time I try to contact the company I am on hold for nearly an hour and nothing is ever corrected. PLEASE NOTE SERVICE ADDRESS IS NOT BILLING ADDRESS.

I have never recieved a bill. I believe their system is attempting to send to service address which is not a recognized mailing address even after speaking to them to send to my mailing address.

Ticket: # 3960587 - Comcast Cable

Date: 5/5/2020 12:23:42 PM

City/State/Zip: New Middletown, Ohio 44442

Company Complaining About: Comcast

Description

Comcast cable has raised our cable prices twice in the last 2 months. I think this should be examined since there is a pandemic going on and many people are not working. I think it is unfair and not acceptable. I tried calling to discuss this, but they aren't answering phone calls. I also tried to set an account up online but it won't let me do it and there is no help. Prompts me to sign in and I can't.

I am retired and watch a lot of TV because I can't go out. Now everytime I turn around, they raise the rates.

Thank You

Ticket: # 3960592 - Comcast

Date: 5/5/2020 12:24:50 PM

City/State/Zip: Atl, Georgia 30311

Company Complaining About: Comcast

Description

On Wednesday, May 5, 2020, I received an automated call from Comcast threatening to disconnect my tv and internet services if I don't pay the 159.00 bill by May 12th. Extremely upset, I called a Comcast agent to ask why the urgency since I had just made April's payment on 4/17/2020. The bill is current and isn't due until May 12th.

As a Ga. Pre-K teacher who has been off work since schools closed in March, I was appalled that Comcast who has a contract to service underprivileged students at a minimal price would threaten consumers with service interruption. They have no idea if I have a child in my household who needs the service to complete the school year or not. This is undue pressure in a time of crisis. I must complete mandatory paperwork online, as well. Our health and rent along with my 7 yr. old granddaughter completing her schoolwork is paramount. I have nearly depleted all of my savings up to this point and my organization has yet to receive unemployment. For Comcast to bully and frighten me into payment is totally unacceptable. After paying last month, they WOULD NOT permit me to downgrade my services. If they did it to me I am sure they are doing it to other families who are experiencing virtual learning on all levels of education. I think this is disgusting! Comcast should extend free services for the anguish they have caused me and other families. They are more threatening than COVID-19. I can not believe at a time where nearly 70,000 Americans have died and over 3.6 million others are infected with Coronavirus, that Comcast would bully us!

Ticket: # 3960606 - Horric service at a horrific price

Date: 5/5/2020 12:28:35 PM

City/State/Zip: Parsippany, New Jersey 07054

Company Complaining About: Optimum

Description

I would like to lodge my complaint with the commission about my ISP, Altice USA d.b.a Optimum. Altice USA provides a service which would only be considered acceptable in a third world country. They provide service which frequently drops. They provide access to their network which is improperly configured and interferes with public DNS provider cloud flare because somewhere on their network they couldn't be bothered to follow standards and used 1.1.1.1 for some piece of equipment which interferes with my ability to access the internet, a service which I pay them almost \$100 a month for their asinine service. Not that you'd ever get them to admit that, because when you call customer support to have them fix an issue with their network, if you even get a live person after navigating their tedious and cumbersome IVR, you'll get someone who is located in another country and who's entire vocabulary consists of "Have you tried unplugging the modem and re-plugging it?". These support agents do not know any more then what their scripts tell them, and I cannot blame them. With the cost cutting measures the new French owner Altice is taking, they are not making enough to care.

But beyond my DNS woes, beyond their abhorrent customer service, beyond them raising prices on internet service to compensate for their own poor business model and increasing losses of Pay TV subscribers, my complaint with Optimum lies in the quality of their service. I work in IT; I understand the need for scheduled maintenance windows. The thing is, when I do scheduled maintenance, I must go through change management, send out notices to all clients affected and tell them when their service is going to be out so that they can prepare. Send them an e-mail, mail them a letter, I cannot simply go pull all the LAN cables out of the switch any time that I want and expect to still have a job. Without fail once or twice a month, my internet service will go down between the hours of 1-3AM and when I go to their service status page on their website, I get a message that says that Optimum is performing maintenance in my area that may impact my access to my service. I receive no e-mail, not notice other than not being able to connect to the internet. When it is not scheduled maintenance, it is their regular service outages. Random disconnects that last a minute or so. When the Coronavirus crisis began in March, consistently around 4PM each day the internet speed would decrease to single mbps before going down completely for up to 10 minutes. I pay for 200 mbps service. I have tried to raise this issue with Altice, but I am tired of waiting on hold for almost 2 hours with their IVR only to be hung up on, or to be transferred to the department only to be told it is closed. Or to not be able to get a live chat representative to convey this information to. Maybe they will listen now that the federal government is involved.

I pay Optimum to provide to me a service, a service which they have demonstrated that they are wholly incapable of providing reliably. I am sure in their response to this complaint, whatever compliance office who has no understanding of networking technologies whatsoever who will respond will try to shift blame. They will say it is the modem I own, and to give them an additional \$10 a month to ensure that I get the best service. That \$10 modem fee was added when the awful company that is Altice purchased, charging for something that was previously included in our optimum bill. I would expect nothing less from Altice, a company which established its American subsidiary only after failing to increase profits of their French wireline businesses. This a predatory company from its

inception. I urge this commission to do everything in their power to hold this company accountable. For their poor network, for their high prices and exploitation of monopolistic standing as well as their billing practices. This is my third complaint with the commission about Altice, this is not a company which learns from its mistakes. This is a company which makes these very mistakes on purpose to screw over their customer and hopes that they don't get caught by regulators.

Ticket: # 3960611 - AT&T No Availability

Date: 5/5/2020 12:30:05 PM

City/State/Zip: Allen, Texas 75002

Company Complaining About: AT&T

Description

The consumer wants to file a complaint against AT&T whom she has Internet and cable services with. The consumer states that they disconnected her service on accident and they told her that she must sign a contract for 12 months in order to restore her service.

The consumer called 2 weeks ago to cancel services because she thought she would be moving.

The consumer called back telling them that she wouldn't be moving and they said that they would write it down and notify them that she would continue service with them.

The consumer states that now she doesn't have any cable service but yet her Internet is still working so she's not sure what they did.

She has called and been on the phone for about 2 hours and they told her that they can't do anything unless she signs the contract with them.

The consumer is going to have to move in less than the 12 months and that is the reason why she does not want to sign the contract.

The consumer also states that even if she didn't have to move she shouldn't be forced to sign a contract for something that she didn't cause.

The consumer would like for AT&T to restore her services without having her sign any contract.

The consumer would like an apology for being thrown from one representative to another and spending 2 hours on the phone with them.

The consumer would like a credit for the time she will be going without cable services during this pandemic.

Ticket: # 3960715 - Charter Communications (Spectrum) Lying to FCC About Availability

Date: 5/5/2020 1:05:28 PM

City/State/Zip: Ironton, Ohio 45638

Company Complaining About: Spectrum

Description

To whom it may concern, I am moving to a new residence in the coming months. When entering the new address on the FCC broadband coverage map, it lists Charter Communications (Spectrum) as an available option. When contacting Spectrum, they say service is not available at that address. I am unsure why this would be listed as an option on the FCC site when Spectrum does not offer service there. The address is on a road between a US highway and state route. The lack of access to high-speed (non-satellite) internet in that region sets many at a disadvantage, especially in the midst of COVID-19 when students are having to do school work and connect with their teachers from home, and many working adults are trying to perform their job duties from home. Something needs to be done about this to provide everyone a level playing field and opportunities to be successful in modern society!

Description

My 90 mother's AT&T landline was ported to Boost Mobile without authorization. She is in seclusion due to Covid19 and medically fragile. She MUST have a landline. I tried calling Boost and they heard my complaint and put me on hold to escalate. I stayed on hold over an hour and no one picked up.

Ticket: # 3960840 - DSL Extreme Billing

Date: 5/5/2020 1:42:57 PM

City/State/Zip: Cleveland, Ohio 44135

Company Complaining About: Dsl Extreme

Description

The consumer states that she move March 30th and transferred her services to her new location and everything seemed great.

The consumer had to start working from home trying to do as much as she could.

The consumer got a lung infection and wasn't able to get tested for COVID-19 because she didn't meet all the symptoms.

Since April 8th she has been quarantining.

The consumer states that her internet hasn't been working.

The consumer states that they did a telephone diagnosis and was not effective because it didn't turn the internet on.

The consumer states that on Saturday they sent out a technician and was told her outside lines were okay and working.

The consumer states that she can't have anyone in and out of her house because she isn't sure if she does have COVID-19 and she has doctor's orders documents on a letter from them if they would like proof.

The consumer states that her service provider called and was transferred to the billing department and they were very rude and mean and said that hey will continue to bill her for the services since she isn't allowing anyone to go inside her home.

The consumer just got fired on Friday and the service provider is continuing to charge her.

The consumer states that shes been with this company for a long time and the fact that they spoke to her like that is rude and unprofessional.

The consumer will not continue to get charged for service she is not receiving.

The consumer would not mind to stay with them and have them fix her issues inside her home once the COVID-19 is gone.

If not the consumer would like to leave and cancel services with them.

If the consumer cancels service with them she expects not to be receiving any additional unexpected charged or termination fees since this is out of her control.

Company Complaining About: Spectrum

Description

Spectrum offered me a Galaxy cell phone & 14.00 monthly for service. I accepted. When the phone arrived, excitingly I opened the package, only to find it WAS NOT A Galaxy but an LG. I immediately called Spectrum ticket# (b) (6). I was told a 50.00 restock fee, I refused because it was not my error. I filed a grievance. MARCH , APRIL went by with no solution. I called again. I was told my grievance was void because of lapse time. I noticed I was being billed 19.99 auto withdraw from my BOA acct. So I called again with no solution. Feeling I had no option I activate the cell on May 2nd, only to find that I was limited to 1gig !! I was NEVER told the 14.00 monthly was for 1 gig. Today i walked into Spectrum store, they refused to exchange the lg phone although I was willing to pay the 50.00. I did not go in sooner because of the covid19 issue. I spoke to a manager explaining all of the above and was told to pay 6 months on the LG and refi a new phone. Please help me with this scenario.

Thank you, God bless

Ticket: # 3960982 - Verizon Equipment

Date: 5/5/2020 2:21:10 PM

City/State/Zip: New York, New York 10024

Company Complaining About: Verizon

Description

Verizon customer for 15 + years. She had to call them last week due to no Wifi service. They sent someone out and he would not come due to the COVID 19. He had her running back and forth for over an hour. She still had no service. Thursday she called home office.

He had her plug the router into the house phone jack.

The Router would not work. They were suppose to put order in for Router and it was to be there by Fri or Sat.

Verizon put a stop on a new router. Now they are sending her a refurbished router; not a New Router.

Caller pays \$90 every month and never get a new router. Resolution the caller seeks is to receive a New Router instead of the refurbished router; she also does not feel she should have to pay for this new router. ***CTR386-phone***

Ticket: # 3961283 - Phone Support

Date: 5/5/2020 3:57:29 PM

City/State/Zip: San Tan Valley, Arizona 85143-3884

Description

I have been with AT&T for some 30 years and their service is lessening daily, not necessarily due to the Covid-19 virus. my story is too long to explain it all but in a nutshell, AT&T is no longer interested in their customers. I understand Capitalism and all but in years past, when they didn't own all the competition, a customer could actually talk to a human and make progress. Today, I finally reached a human and she hung up on me within less than a second. I was trying to find out what kind of a deal I could get on a replacement smartphone. The difficulty, today, is that AT&T now owns an insurance company (another profit center) that wants to charge me \$200 to replace my phone. Being offered no other options, I think AT&T is too big after buying up all of its competition. Perhaps it's time for the FCC to investigate AT&T's lack of services.

Company Complaining About: Sudden Link

Description

I have services with Suddenlink that have been infiltrated by someone. I have had my PC and other devices checked for spyware or any type of malware and it's not on the devices. The problem is coming from my internet services. It has allowed this person to destruct any work I need done. This causing me not to function during the COVID19.

Ticket: # 3961407 - ATT Number has been compromised on Facebook, unwanted charges on monthly bill

Date: 5/5/2020 4:32:06 PM

City/State/Zip: Washington, District Of Columbia 20015

Company Complaining About: AT&T

Description

1. (b) (6) was provided along with a new device by an ATT employee at the 5301 Wisconsin Avenue, DC 20015 location on 2/8/20.

2. On 4/1/20, while on Facebook, I saw that another person was also accessing the account in DC. I attempted to change the password and when I typed in my phone number, this other person Dreadhead Lee came up. Whatever I did after that, I was unable to log into my account, unable to get any assistance from Facebook, ATT. As this person seems to be a criminal and has also accessed my messenger and other social media platforms, I have reported the matter to Metropolitan Police Department. The matter has been attended to even after it being a Covid -19, hate crime issue which is ongoing per the issues with ATT as of 2018.

Having opened two arbitration demands on the same issue with ATT in 2019 - sale of faulty devices and when the matter was taken up by an American Arbitration Association arbitrator Jeffery Cohen, his skills and technical abilities have created more issues rather than solving the consumer's pain point - ATT is selling below quality devices at a price that is called 'throwaway' in other parts of the world - here the consumer is having to protect herself from retaliation which is what ATT has attempted with the botched arbitration proceedings conducted by Cohen.

Because of the inability of AAA to protect the consumer, ATT has continued to provide faulty devices including this new phone and number. It has been hacked into and at the moment I do not expect AAA to provide any assistance when on 5/3/20, they were unable to prevent ATT from bullying, harassment and theft from this consumer along with a \$1,900 payment for the arbitration fees and \$1,500 for ATT's portion of payment paid within 30 days - 4/3/20. As be it, within 3 weeks - ATT provides this number to another person in DC who has used it to hack into all my accounts. I'm requesting the American Arbitration Association be investigated for having wasted time and money making things extremely confusing for the consumer whose not from the US and having bought 5 ATT devices in 2 years, as my rights have taken this latest attempt by ATT to discriminate and harass the consumer as grounds for requesting any feedback from the Metropolitan Police Department.

Ticket: # 3961445 - Parishioners charged for toll free teleconference calls

Date: 5/5/2020 4:43:42 PM

City/State/Zip: Worthington, Minnesota 56187

Company Complaining About: Centurylink

Description

I have been using FreeConference Call.com--I have been using a free teleconferencing phone service for parishioners who don't have Facebook, so they can participate in Sunday Worship Services and Scripture and Prayer Services during this time of pandemic. Two of the people have CenturyLink and have been charged for the "free" telephone conference number, having to pay about \$30 more than usual in March. They can no longer participate and so are missing out on this spiritual nurture and care. Please contact CenturyLink and ask them not to charge for toll free calls. Thank you.

City/State/Zip: Lansford, Pennsylvania 18232

Company Complaining About: Windstream Communications

Description

we have wifi through Windstream. They shut off our wifi twice during this pandemic, and i saw online that they were in the list of places not supposed to do so? We called and told them we were aware of this, and they said sorry there is nothing they could do, that they had no way of reaching a manager? We have since paid, but the problem is they shut us off illegally two times, i have a 7 year old son im trying to school, and they wouldn't turn it back on or help us at all.

Ticket: # 3961563 - Optimum Disconnected Services for 81 Year Old Consumer During Covid-19 - She Also Requested Original Phone Number Back

Date: 5/5/2020 5:25:32 PM

City/State/Zip: Long Beach, New York 11561

Company Complaining About: Optimum

Description

Please note: The long time, original phone number, assigned to this consumer is an old Verizon number and the consumer wants this number back. Therefore, it is requested that Optimum retrieve this number because it was in place prior to this unwarranted disconnection of services. (b) (6) (The number was already in use on Optimum's service when it was disconnected. She also stated that she had been a long time customer - the Optimum rep stated that she had been with them for 39 years) Originally the account was under her deceased husband's name : (b) (6)

This consumer is an 81 year old customer. Her husband passed away in 2018. She had left her account in (b) (6) name. However, all accounts/properties....were in both names.

On the night of April 30, 2020; her TV service went out. Therefore, she simply retired for the evening. The next morning, her daughter-in-law and her daughter had both tried to call her. However, when they could not reach her, they tried her cell phone. Her daughter then advised her that her home phone had been turned off. She told her that this would be very odd because she had just paid one bill and there was nothing overdue. (Her daughter-in-law normally pays her bills, while she is away during the winter season). When she returned home, and received all her mail, she saw a bill from Optimum and she simply paid it. Therefore, she knew that she had been current.

They decided that it must have been a neighborhood outage.

However, after her daughter-in-law had called Optimum. At first Optimum had stated that services had been interrupted due to non-payment. She advised that this is not possible. Optimum reviewed the records and found that she had paid these bills. They provided her with a confirmation number. Because her daughter-in-law could not stay on the phone any longer, she advised that she would have her mother-in-law call back in about the latest payment.

(b) (6) then called Optimum. Again, the non-payment issue was raised. She then provided the confirmation number. She also mentioned that when she returned, from the south, she had made a payment that was now due but it had already been paid. The rep stated that it was NOT turned off due to the payment because they can see that the account was all paid. During the conversation, the Optimum rep stated that the consumer had given the wrong address and this was for the "Bixby" account. (b) (6) assured the rep that she had lived in the house since 1974 and the address provided was the correct address. The rep then stated, "Oh, maybe this is the reason it is turned off - the Optimum tech may have had the wrong address"!

Apparently, there was confusion between her address and two homes that have been recently sold. One is next door and says sale pending and the other one is across the street and recently had

services installed, because the tech appeared at her door about two days before her services were interrupted!

The Optimum rep then advised her that the tech would come back out to turn the services back on. She also stated that there would be a re-connection fee! The consumer asked why she should have to pay to have services turned back on and the rep stated, "Trust me, you need to pay for the visit. You can pay and try to get the credit back, later"! The consumer provided her credit card number because she wanted her services turned back on. The consumer advised the rep that the phone was still in her deceased husband's name and asked for her to switch it over to her name so - if anything like this happened again, she could simply call and take care of everything or her Son and Daughter-in-law have the correct POA in place.

The Optimum rep then stated, "Oh, By the Way, Your NEW telephone number is: (b) (6)". The consumer was very upset and advised the representative asked why she could not have her own and original telephone number back? The Optimum rep stated, "no, this is impossible - you have a new number"! The consumer is 81 years old and MUST have the old original number back - she has had this number since 1974! This is the number that she remembers and ALL of her friends have on file for her.

Please provide her with her own phone number back when Optimum fixes the mistake that occurred when her services were interrupted! The number that this consumer has had since 1974 IS:

(b) (6)

After explaining this information to this CAMS, she wanted to know if there was anything in place due to the Covid-19 pandemic because she thought it would be very odd that people would simply be cut off services without any consideration or an extension to pay. The "Keep Americans Connected" Pledge was then discussed.

The consumer was further advised that she will most likely be receiving new equipment due to the fact that she put services in her name. She was told that she must pay the installation fee. The consumer stated that she pays a total of about \$243.00 per month. She does not expect her services to be increased due to this calamity of errors caused by Optimum.

Due to her advanced age, her family would NOT allow her to remain in the home without having working services. Therefore, she is staying with her son.

She also requested that Optimum refund her the installation costs. The consumer also requested a courtesy credit for all of the trouble that has been caused due to the erroneous disconnection of her services and the fact that the services have been off for almost a week. (Services will be turned back on, this Wednesday and were disconnected on last Thursday). Not to mention that she has had to use her prepaid minutes on her cell phone which is normally used for emergency purposes, only.

Ticket: # 3961661 - Internet

Ticket: # 3961670 - Re: Request received: Illegal sniffer device tracking and stilling personal information

Date: 5/5/2020 6:17:26 PM

City/State/Zip: Macon, Georgia 31206

Company Complaining About: Black Market

Description

This is a follow-up to your previous request (b) (6) "Illegal sniffer device track..."

Additional information: The organization who controls this sniffer device Macon are using the device against me. My computer files, phone, and bank accounts. Are compromised I feel with an attempt to black mail me or use my personal information for criminal activity. The individuals seem to be operating at (b) (6). The sniffer device sprays meth juice all over my body as a drug that allows the device to track me 24 hours a day. These people are trying to make my house into a radioactive house to make meth. They also release toxic fumes into my house making it difficult to breathe. These sniffers seem to be operating all over Macon especially between 12 to 6 o'clock at night the sniffers seem to be controlled by a phone and connected to a drone satellite. The Covid 19 is created by meth. Which is now micro wave with cocaine and heroin and release into the air, land and water.

Sent from Yahoo Mail on Android

Ticket: # 3961756 - Internet Access data during COVID19 and overcharging on the bill

Date: 5/5/2020 7:23:23 PM

City/State/Zip: Sacramento, California 95815

Company Complaining About: Verizon

Description

1. On April 28, 2020 Mr. Ronan Dunne, Group CEO - Verizon Consumer sent an email notifying us VZ will give us an extra 15GB of data on our devices for "school, work etc." We have a service whereas we receive 15GB of high speed internet per month, and unlimited internet at 600 dtp, very slow, until our data resets on the 23-24th of each month.

On May 5, 2020, not even one week since this offer, VZ notified me that one of our devices has only 10% of high speed data left, of the 15GB. I wanted to look online at our data usage but was given message that I could not access it. After waiting on the phone to speak with a VZ rep one hour, the VZ rep told me the 15 GB is for all devices. Probably VZ can manipulate data usage, can make it to consume the data faster etc., which I believe it's illegal.

I asked then if this was true how comes that two of our devices as the rep said, have already consumed 27 and 23 GB, respectively, 20GB extra total?? And my device had only 7 GB after consuming 7.65GB?

I believe VZ rep lied as did the April 28, 2020 email, which I believe is deceptive advertising practices.

2. VZ overcharged us on our bill since last year, in that initially said will give us a \$5 discount per device if we go paperless, which we did since approximately August 2019. In April 2020 we find out that to get the discount not only have to pay automatic payment but also to go without a bill. However, VZ did not send us a bill since last year in June-July. Now VZ put another setup on the account to go "paperless". We went paperless and on automatic payment since last year in August, and we should have gotten that discount. This amount might not be of importance but I feel VZ is misleading and deceiving us to extract more money for their service with much slower internet service. We have a university student in our household and a fourth grader that these days study over the internet. We cannot afford them to take 5 min to open a page, especially during midterms and finals.

Therefore, we complain for VZ deceptive and misleading business practices.

Ticket: # 3961796 - Issues with Xfinity**Date:** 5/5/2020 7:44:01 PM**City/State/Zip:** Oliver Springs, Tennessee 37840**Company Complaining About:** Comcast

Description

I have been a long time customer of Xfinity/Comcast and have continued to have issues with our internet service. I have asked for them to upgrade the lines outside of my house. We have had technicians tell us that the issue is outside not inside. We have done everything we can to try to correct the issues that we are having with speed. The company is charging me for speeds I cannot even come close to getting and the customer service they provide is horrible. I understand that we are in a pandemic right now but the service issues with them started way before now. Unfortunately, where I live they are the only service provider that I can have for WiFi and without WiFi I have no phones because my cell phone does not have a signal with using WiFi calling. This of course makes it very difficult to do anything when you call them and there only option is to consistently reset your device that has already been reset 100 times by other people as I get passed between representatives. I have requested multiple times to speak with someone in Management and have even went to the level of requesting to speak with someone in the Exec. office. I understand that I am not in a situation where I am without internet but working from home I need to know I have quality internet connections for meetings that I am conducting! I watch them go out and install new service in homes while they tell me that they have no way to send out a technician to check the service outside of my home. All I have asked for is to have someone come out to check the lines outside my house and to refund me the charges for speed that I am not receiving! I have communicated with at least 8 different people over a three week time frame with promises of returned calls and nothing happens. My current communication has had to occur through Facebook Messenger and even in that chain I have had at least 4 different people respond. It is very frustrating when a company knows that they have a monopoly in a specific area because they can choose to charge you whatever they want and treat you however they want because they know I have no other internet providers to choose. Something should be done about the monopoly that Xfinity has in this area. I should not have to resort to filing this complaint in order to get these issues resolved. All I have asked for is to have something scheduled so that I know they are planning to correct the issue and to credit my bill in the mean time since I have sent them pictures of multiple speed test proving that it isn't giving the applicable speeds that I currently pay for!

Ticket: # 3961849 - Internet slow

Date: 5/5/2020 8:13:48 PM

City/State/Zip: Redford, Michigan 48239

Company Complaining About: AT&T

Description

Slow internet over priced plan. I dropped my cable in September 2019. By not having cable, I lost my bundle discount thus causing my internet to go from \$50 to \$60. My internet speed is extremely slow as I work from home now since the pandemic and I'm always getting kicked off of the network at least 10 times per day. Also, movies load really slow. I received a letter in January for a free upgrade to a faster internet speed but when I never received an appointment due to the pandemic. The internet is so slow and disconnects so often I feel like I have dial up. Comcast is not in my area which is my favorite company, so the only option I have

City/State/Zip: Belfair, Washington 98528

Company Complaining About: Centurylink

Description

Hello

I have Been Trying to add a new line of internet service to my house. I live in a rural community the internet service is not that great so this best option. I stated at 9:30am this morning call into customer service about the billing for the 2nd line of internet service. The agent that I spoke to give me misleading information that did not match your website so asked her if I can be transfer to your sales department she said that she could not because I would have to place the order and they would not answer questions then I asked her to transfer me to her supervisor and after an hour and thirty min hold I was contacted to tech support. They could not help me. So tech contacted me to your retention department. Well my experience when from bad to worse. I spoke with Alex agent id- AC46328. He was nice and said that I can get the activation fee waved because the new line will have to be installed by a tech. Here is where it got worse he said that I can get the at ease program for 15.99 for free. because I asked him if a discount can be applied to the 2nd line for the inconvenience now being on hold for 4 hours giving misleading information be transfer to the wrong department he said yes that can happen. I said OK lets place the order well the system was down and he could not please the order and I had to call back in a few hours. I called in again 3:02pm got contacted back up to your retention department was on hold for 2 and 1/2 hours and talked to a really nice lady told her about the offer that Alex offered and told her to look at the notes she did but the issue came about the 15.99 at ease fee Alex gave the wrong information and this fee could not be wave the program that he was talking about could not be offered any more because the code was discounted she was in the process of helping me and we got discounted. I called back again at 5:39pm got transferred to a rude customer service agent explained the situation again he was unpleasant to work with asked him for clearly on the billing he became rude so asked to transfer to a sup was told that he was off shift and the order had to be canceled because I requested to be transfer to a sup to work with me. I said well then can we process the order then because I could not be contacted to a sup and I just wanted to get the order process and get a tech agent out. then he said no because the order had to be cancelled for the transfer to the sup and he was off and didn't want to process with me. Ok so my issue is that the agent should have told me that the staff was off so I can make a choice to have the order process or just call back tomorrow he made that choice for me by not helping me at the end I have to call back tomorrow to get the line set up again I understand the covid-19 has limited staffing but this is no excuse to lie about fees and treat customers this way. So what I would like is a discount on my bill and a phone call please thank you

Ticket: # 3962035 - Illegal Test Message from Online Travel Agency to Mobile Phone

Date: 5/6/2020 12:17:19 AM

City/State/Zip: Falls Church, Virginia 22041

Company Complaining About: Ovago (aka The Travel Outlet Of Virginia, A Texas Llc)

Description

I have been in contact with Ovago (The Travel Outlet of Virginia, A Texas LLC) to request a refund for a trip that was cancelled as a result of COVID. The agent of the phone requested that send them information via email. After we hung up, this same agent send me a text message to my mobile phone. I have never consented to receive text messages and within the body of the non-marketing message there was no opt-out feature. Separately, the telephone number that the text message came from was from an automated dialer (ADTS).

Company Complaining About: Time Warner

Description

I decreased services due to COVID-19 mandates. I asked to pay the entire \$75.00 internet fee (b/c I am keeping that service) and a pro-rated amount for the TV/cable service I discontinued. They refused, demanding I pay the full amount for dates 4/22-5/22/20.

Ticket: # 3962058 - Phone number ported after we cancelled porting permission with carriers

Date: 5/6/2020 2:07:50 AM

City/State/Zip: Geneva, Illinois 60134

Company Complaining About: AT&T

Description

We had looked to switch wired phone service and internet service from AT&T to Comcast. When the tech came learned we didn't have the internal wiring the tech needed to hook up equipment. With Covid19 tech couldn't come in. We cancelled the transfer. Spoke with numerous representatives from Comcast and AT&T to assured number wouldn't be ported and would remain with AT&T. Almost 2 weeks later the number was ported from AT&T. I'm trying to get my phone number back since I had it for 19 years and did everything we could to have the service not changed. AT&T made me get a new number to have service, paid \$35 and told they would get our original number back. I've tried to get the number back, keep calling people spending hours on the phone getting moved from person to person and dropped when I'm supposed to being sent to the correct group. I want my number back and someone that can actually help me.

Ticket: # 3962140 - unable to transfer my phone back to AT&T

Date: 5/6/2020 9:13:43 AM

City/State/Zip: Ofallon, Missouri 63368

Company Complaining About: Google

Description

I transferred my phone to google fi and unfortunately they said that it cannot be activated because I am currently not in the US, so I wanted to cancel the service with google fi and move my number back to AT&T. AT&T is asking me for my account number and pin which google fi provides after I cancel service. They do not want to cancel my service because I am temporarily out of the US, so I cannot have my phone transferred. So, right now I am stuck in this pandemic, in a 3rd world country without a phone because google fi refuses to activate my sim and also refuses to cancel the service and let me transfer my phone to AT&T. The most recent ridiculous chat with their support rep is attached. Please help. Thanks.

Ticket: # 3962148 - Spectrum - misleading billing and incorrect price increases

Date: 5/6/2020 9:21:12 AM

City/State/Zip: Independence, Kentucky 41051

Company Complaining About: Spectrum

Description

Spectrum stated on our March bill that our promotional price of \$54.99 was ending and the next month it would be \$10 more. We get the April bill and it went up to \$74.99...a \$20 increase. I tried numerous times to resolve through Twitter, email, and phone, without success. When I finally was able to speak to someone, they said they would not be able to adjust the pricing (though they admitted mistake in stating it would be a \$10 increase only to go up \$20), and a supervisor was supposed to call me back within 48 hours. That was two weeks ago. I complained to their AskSpectrum Twitter forum and was told they would review everything and get back to me. All they would say is "promotional pricing went up." I have yet to hear back from anyone. I have other friends/family members who have had similar experiences. Not sure why a company like Spectrum would pull this shady behavior, especially at a time like this with COVID-19 wreaking havoc on consumers all over the country. Thank you for your time.

Ticket: # 3962150 - Xfinity/Comcast Outages

Date: 5/6/2020 9:23:20 AM

City/State/Zip: Tyrone, Georgia 30290

Company Complaining About: Comcast

Description

This company had regular unannounced outages affecting the ability for Americans working from home during this pandemic and prior to it. Any help is offshore and nearly impossible to reach and there are no domestic resources for resolution. This is begging FCC action as well as class action lawsuits. Services paid for, handsomely, are not delivered.

Ticket: # 3962403 - Provider issues

Date: 5/6/2020 11:24:21 AM

City/State/Zip: Chickasha, Oklahoma 73018

Company Complaining About: Sprint

Description

email sent to Sprint;

I have called Sprint the last 2 days. I was calling to attempt to drop an unwanted line off my account. I tried to do this via chat. The chat agent took about 15 minutes to inform me that I had to call a phone number as they could not cancel a line. I informed the agent that I had already called. The number was automated response discussing the covid -19 issue and under staffing at the company. The automation directs you to hang up and goto Sprint.com. However ,Sprint.com has no place to cancel a line. The agent repeatedly directed me back to the telephone number provided. I attempted the line again and remained on the line for a lengthy time at which I was afforded the opportunity to speak to an agent. I was able to cancel the line with the agent, but only after he repeatedly tried to get me to take discounts and or give the number to another friend or family member under my account. I repeatedly told him to cancel the line and that I was not interested. Which brought me to today. I chatted with an agent and requested unlock of my phones on my account. I was asked why. I told the agent I was considering a move to another provider and my phones are all paid off. The agent then informed me after considerable time to call the same number I called yesterday. I made the call and Spoke to a person later identified as Angelina. I requested any i.d numbers in addition to her name. She acted as if she had none. My phone call with her lasted almost an hour 50 or more minutes of which were on hold. She repeatedly 3-4 times asked me why I wanted my phones unlocked. I told her the phones are paid off they are my property, unlock them. She repeatedly argued with me about trying to help me. I told her if she was trying to help me then do what I asked. She purposely slow played the call as a means to discourage me from getting the phones unlocked or cause me to hang up. I have been a Sprint customer for a decade. Look it up. I am considering a move to T-Mobile. If the customer service you have provided is any indication of their service level, I may just go elsewhere. Altogether. Contact me back or I will make an FCC complaint for failure to address my concerns.

I have also had unwanted subscriptions to Gamevento placed on my account. This has happened at least 3 times this calendar year. I have cancelled them each time by text, phone call and web site but the harassment continues.

Ticket: # 3962404 - sexual content robotexts

Date: 5/6/2020 11:24:29 AM

City/State/Zip: St. Johns, Florida 32259

Description

I have been receiving text messages offering medications to help "stay harder for longer." I have blocked the number and the company uses a different number to send another. The main issue I have with this, is that my 10 year old son uses my devices to do his "distant learning" due to the pandemic. I find this extremely offensive that my son is seeing these types of text messages pop up. If and when my child is exposed to sexual content should be up to my digression, not someone else's. This should be against the law, if it isn't already.

Ticket: # 3962494 - Spectrum Increase During COVID19

Date: 5/6/2020 11:51:12 AM

City/State/Zip: Vienna, Ohio 44473

Company Complaining About: Spectrum

Description

He has service with Spectrum. The carrier has increased the monthly bill \$20.34. They claim the reason is because his promotion has expired. They are in the middle of a pandemic and everyone is taking a pay cut. He called to try remove services to decrease the bill but was told that decreasing the services would increase the monthly billing price.

They are also threatening to cut off his service for nonpayment if he does not comply with the higher service costs.

He has been trying to get help with the bill for over 3 days. The company has no competition in his area.

Company Complaining About: AT&T

Description

My elderly mother is unable to dial and complete outgoing calls from her home phone. She is immune-compromised and following guidelines recommended for elderly to protect against contracting Covid-19. I want her home telephone to be fixed without the telephone people entering her residence. I want someone to call me with a status update as to fixing her phone and resolving her problem.

Ticket: # 3962823 - Issue with home phone

Date: 5/6/2020 1:47:29 PM

City/State/Zip: Mesquite, Texas 75149

Company Complaining About: AT&T

Description

I had initial issues with internet service, so I contacted AT&T. They recommended that I move from Internet Speed 100 to Internet Speed 1000 without any interruptions in service or additional charges. Since I have moved to Internet 1000 and installed the Modem AT&T provided, I HAVE NOT BEEN ABLE TO USE MY HOME PHONE. I want AT&T to fix my home phone so I can make calls. I want AT&T to provide me a status update on fixing my home phone. Both me and my husband are senior citizens and one of us is immune-compromised. We are following federal guidelines on self-quarantine to avoid contracting Covid-19, so we do not want anyone to enter our home.

Ticket: # 3962854 - Internet Speed Users**Date:** 5/6/2020 2:04:28 PM**City/State/Zip:** Union City, New Jersey 07087**Company Complaining About:** Optimum

Description

Due to COVID-19 I am working from home and rely heavily on my internet speed to accomplish my daily work. My internet speed is running at 530 kbps, which is extremely slow and not acceptable to meet my productivity for work. I called Optimum to explain my situation and ask that in the interim of this crisis that they increase my speed. They want me to pay for an upgrade which will increase my monthly cost to ~\$135. I do not want to upgrade, under normal circumstance I do have an issue with my internet speed. Its unfair they are taking advantage of this crisis.

Ticket: # 3962860 - ATT Mobility

Date: 5/6/2020 2:07:20 PM

City/State/Zip: New London, Connecticut 06320

Company Complaining About: AT&T

Description

I've been attempting to request call logs for my prepaid account, number 860-910-2322, from May 2019 to November 2019. Records are not available online for this time frame, the farthest I can search is late November I believe. Due to Covid19, I have been unable to reach a customer service rep over the phone, their hold times are extremely long and I currently share the number with my mother whom also needs use of it. I request ATT send call logs, billing records are not required. I need logs from May 2019 to November 2019 in a hard copy format sent via postal mail to my address.

Ticket: # 3962888 - ISP billing incorrectly

Date: 5/6/2020 2:21:14 PM

City/State/Zip: Colfax, California 95713

Company Complaining About: Sudden Link

Description

FCC,

I ordered Sudden link internet service over the phone. Where I live, Colfax CA I do not have many options for internet. I wrote down in detail the pricing options and reviewed them several times with the sales person. Once service was installed Sudden link sent me the invoice which was incorrect. I called and opened a billing dispute ticket on my account. A person wrote down my information and told me someone would get back to me. In the meantime, I paid only what I agreed too. (what I carefully documented). Today Sudden link turned my service off for non-payment. I'm currently working full time from home because of the COVID-19 and have no choice but to pay the entire bill. It REALLY angers me that Sudden link sales team can lie, deceive and say whatever they like without ANY accountability. Each time I contact Sudden link it takes over an hour to get a live person on the phone. Today the Sudden link message said the wait time would be 20 minutes and I waited 40 minutes. I didn't have time to wait an hour or two because of my work.

Please help. What options do I have?

Thank you,

Ticket: # 3962990 - Payola on Radio Station

Date: 5/6/2020 2:59:51 PM

City/State/Zip: Portland, Oregon 97250

Company Complaining About: New1027

Description

We requested for Savage Remix, a new remix track to raise fund for Covid19 charity, however the DJ of NEW1027, Mike Adam (@MikeAdamOnAir) said that their station is only for HOT AC.

'Savage remix' has been played by so many HOT AC station, but only this station refuse to play. The next tweet that came from him was Doja Cat's 'Say So' LIVE discussion. 'Say So' is also a competition against Savage Remix on the billboard chart. The double standard is so clear. Both tracks are the same genre but one is considered HOT AC.

Clearly payola is involved to prevent promotion for 'Savage Remix'

Please see evidence as attached.

Thank you for reading.

Company Complaining About: Verizon Wireless

Description

(b) (6) is filling a complaint against Verizon. Consumer is stating that Verizon took a higher payment out of his bank account causing his checking to overdraw due to the other bills. Consumer states that this account was actually his daughter's consumer does not remember the phone number. Consumer called consumer service to make a payment into the account on the 04.25.2020 that payment was supposed to be \$300.00 due to the verbal agreement that Mr. Kandoin had with the supervisor when he made the call. Consumer noticed that on the 04.29.2020 Verizon had taken a payment of almost \$800.00 consumer called customer service and asked why they took that amount of money out of his bank account after he received a confirmation number stating that they will only take the \$300.00 and then he was going to finish paying the rest. Consumer service told him that the confirmation number was for the \$800.00. Consumer feels like this was a fraud. Consumer states that he knew he did not have that much money in his account and that he would never authorize a payment like this. Consumer was told that he will receive a refund for \$500.00. Verizon rejected the request. Consumer's account is in overdraft. Consumer is disabled and he is a senior citizen. Consumer needs his money back to be able to survive during the pandemic. Consumer took the account for her daughter. Consumer only has a landline. Consumer wants his \$500.00 refund IMMEDIATELY.

Company Complaining About: AT&T

Description

On 31 Mar 2020, there was a tornado that took down 3 power lines up on hwy 63 in George County, MS. These poles lead to my box somehow to provide internet. Singing River Electric Power ALWAYS fixes their end on time & promptly!!! Since this tornado happened, I have been having issues receiving quality internet! I was able to get on my laptop by the Ethernet, have my cell phone connected to my wi-fi & also watch Roku through the wi-fi all at the same time. Since the tornado, I have not been able to do this. I had the same slllloooooowwww internet 2 years ago & they "fixed the issue". Now here we go again. I was more patient this time due to the covid19 pandemic going on. I have seen their technicians out & about...

I am in an area that only provides dsl. It hasn't been that long ago it graduated from dial-up. I used to pay around \$20-\$30 for dial-up. Now I pay \$51.00. I have consistently paid AT&T for their service! I finally called AT&T repair internet at (888)321-2375 on 21 Apr 2020, to report the issue. I was on hold for almost an hour! He ran a few tests online then stated that he couldn't find the issue on his end. He would have a technician out the next day. Welllll, the next day came & went! I refused to call them back & sit on forever hold again!

On 27 Apr 2020, I contact Mississippi Public Service Commission, not knowing what else to do. Cause you CAN'T contact AT&T Corporate yourself!!! I was not aware that AT&T internet is not REGULATED. This is so bullcrap to me! Everyone has to answer to someone, why not them! I KNOW they are not GOD!!!

On 28 Apr 2020, Annie with the MPSC contacted me to see what was going on, that's when she told me it's not regulated. She went ahead & formed a complaint for me with AT&T Corporate. AT&T (940-463-7946) called me back at 1:17 pm to inform me that they would have a technician contact me. The technician (no caller id) called me at 3:17pm on 1 May 2020, we spoke for 50 minutes. I had to give him the serial number off of my Netgear device (that I purchased from them!) so that he could "run" some tests on it. He informed me that I could not run my Roku, laptop & cellphone at the same time. (It was like when I lived in this older mobile home & I couldn't make coffee & toast at the same time!). All they can provide me is the slow speed they are presently giving. I explained to him, like I did to AT&T Corporate & MPSC, that I was able to get faster speed BEFORE the tornado knocked those 3 power lines down! He informed me that he couldn't see that far away & was unable to rectify the issue. I asked him if he couldn't put in an order or have someone put in an order to check their lines on those 3 power poles. He stated that he would let the proper people know. (I bet!)

So....after our conversation on the 1 May 2020, I have not used my Roku. When I use my laptop to get on the internet, I disengage the Wi-Fi connection from my phone. And guess what?! It's still forever slow!!!

Today, 6 May 2020, AT&T Corporate (940-463-7946) calls at 1:14 pm to advise me what the technician told her. They don't have high speed internet in my area. Again, I tell her that I was able to watch my Roku, use my laptop & have the Wi-Fi connected to my cell all at the same time before the power poles were knocked down. She advised me that I "have other options". This is very funny (sarcasm!) There are other internet providers up here, have I tried one of them? Seriously!!! Are you kidding me?!!! I pay you \$51.00 a month to provide me with dsl & now you're telling me you can't do that?! She will have another department contact me about my charges! And hung up.

I AM SO OVER THIS!!! I asked her if they fixed the issue on the power poles, she advised me they have. (bull!!!!). I advised her that I did exactly what the technician told me to do, only have one device running at a time. I told her that I am STILL having SLOW SLOW internet. What part of they don't give a rat's butt do anyone understand?!

They need to be held accountable for their actions & inaction!

not jennie! (as in I Dream of....)

Ticket: # 3963133 - Unwanted phone calls

Date: 5/6/2020 3:42:11 PM

City/State/Zip: Ewing Township, New Jersey 08618

Company Complaining About: Amazon

Description

There have been continual phone calls from 1-800-925-7053. The gentleman claims to be an Amazon representative. He states that my mother made a 400.00 + purchase and they just want to be sure that she actually made the purchase. Then, they claim the purchase came from a "laptop" in Ohio, etc, etc. The next thing is they begin asking for an account number (?) and so on. When my mother tells the "agent" that she will call Amazon herself, they get annoyed, insist they are Amazon, and do indeed get insistent with her that they need info from her. She wouldn't give them info and they hung up on her. I called them and told them I would report them... they hung up. I see there are other complaints filed with the FCC (2 I believe) for the same number. We have blocked the call, but it would be helpful if someone would check into this number. Unfortunately, during this very challenging time in our world's history (COVID 19), the scammers have gotten worse. People are struggling enough without this type of egregious action.

Ticket: # 3963138 - CenturyLink

Date: 5/6/2020 3:43:25 PM

City/State/Zip: Almyra, Arkansas 72003

Company Complaining About: Centurylink

Description

We lost internet access on April 13. After 5 correspondences with centurylink reps, 3 of which supposedly were not documented or a ticket written, we still haven't seen a service technician. The problem could be fixed with a new wire that was destroyed in the storm. Two scheduled dates came and went without any work done. Today is the 3rd scheduled day and we received an automated message: "The problem reported with your service is part of an outage. We will notify you again when it has been resolved and your ticket will be closed."

This is the first we've heard of this outage. As so many during this pandemic, I work from home and I currently have to use my vehicle hot spot for internet access.

Ticket: # 3963179 - Overcharging Internet and Telephone Bill for the Business

Date: 5/6/2020 3:56:50 PM

City/State/Zip: Miami, Florida 33128

Company Complaining About: Comcast

Description

Comcast internet and telephone services for business services has been fraudulently overcharging for months, despite Comcast under a contractual obligations with Judicial Research. We have been a paying customer for years until last January of 2020, when we modified the contract and retained one phone line and the internet with the monthly fees and taxes, totally \$153.35 (including all discount).

On February 12, 2020, I received a past due notice with an incorrect amount. I immediately called Comcast Business and asked for the reasons, I was told by Mr. Samuel Weintraut, it was an error and he will correct it and he will request for a retro credit but I have to sign a new 3 year contract and pay the past due \$ 315.00, in order to get any retro credits, so we complied. (See Exhibit A.)

March 16, 2020, We received any past due notice, no contract was implemented and no credits were given toward our account. we called Comcast Business, again for the same problem, there I was spoke to Mr. James Billup, same promises but nothing happened. Now I am paying double and no credits were issued and the Comcast is threatening to disconnect my business line during the COVID-19. Please Help.

Ticket: # 3963184 - CBS false information, and actors acting like covid 19 patients during emergency

Date: 5/6/2020 3:59:55 PM

City/State/Zip: St Louis, Missouri 63129

Company Complaining About: Cbs

Description

5CBS needs their license revoked. They lied for three years about Russian colusion. Now they use actors to make a line bigger. Making real patients wait longer for their shot of as many cars as they could.

We expect you to do your jobs. Time for talk is over. I demand action. I want follow ups. These are actions of a domestic terrorism, to scare people for political means. The definition of terrorism. I expect tjey should be treated as such.

Ticket: # 3963235 - Comcast Internet Equipment

Date: 5/6/2020 4:16:04 PM

City/State/Zip: Philadelphia, Pennsylvania 11916

Company Complaining About: Comcast

Description

The consumer called the Attorney General office and the PUC.

The consumer has very slow internet whom she has high speed with Comcast.

A technician came out and they decided that the issue was the modem.

They told her that because of COVID-19 no one is going into her home.

The consumer states that she got a call from her neighbor that someone was flagging her lawn.

The consumer has been contacting Brian Moore from the corporate office.

The consumer states that on her upper lawn there are red flags and marks all over.

The consumer states that she got the Excavation truck's name and she called them and they told her that they got hired by Comcast to go out there and do that.

She has contacted Comcast and they have no idea what is going on.

The consumer wants this issue addressed and does not want anyone doing anything on her property until this pandemic is over.

The consumer does not want them affecting something that may cause them to have to go into her home.

This all started because she is paying for high speed internet and isn't even receiving that.

CTR-415

Ticket: # 3963302 - Spectrum Internet Cancellation Prorate

Date: 5/6/2020 4:37:15 PM

City/State/Zip: Beaverton, Oregon 97008

Company Complaining About: Spectrum

Description

Due to COVID-19 I was notified that I would be laid off on 4/14/2020 effective 4/27/2020. As a result my family had to move and although we moved out of the house on 4/18, I was unable to call to cancel and return equipment until 4/27/2020. According to Spectrum, my billing cycle started on 4/22/2020 and I must pay \$74.99 for service through 5/27/2020. When I called to cancel I was on hold for 2 hours (this is why I did not have time to do this before 4/27/2020) where I was advised how to return equipment. I was not advised that I would still be required to pay for the next month of service as I was cancelling within 30 days after my last payment (made 4/10/2020). Now I have a bill for \$74.99 for service from 4/27 - 5/27 with no job due to COVID and I have already returned the equipment so I am not receiving service.

Ticket: # 3963351 - Tmobile Company

Date: 5/6/2020 4:49:15 PM

City/State/Zip: Englewood, New Jersey 07631

Company Complaining About: She Did Not Say Her Name

Description

Dear FCC representative,

I am writing because I received a phone call from a collection company that T-mobile had retained harassing me at home regarding my phone bill with them. I received this attached notice at work in March that my employment had been terminated temporarily due to Corona Virus and Covid 19 , following this email, my employer closed their office and has not opened up since then. I have not been able to pay Tmobile as a result of it. I have worked for the employer for 12 years so that the closure was a significant financial impact.

Ticket: # 3963368 - Tmobile Company

Date: 5/6/2020 4:55:53 PM

City/State/Zip: Englewood, New Jersey 07631

Description

I received a phone call from a collection agency stating that Tmobile had put my account into collection. Due to Covid 19 employer informed me that my job had been temporarily terminated until they resume. They still are yet to resume and I was unable to pay my phone bill as a result. I did not receive a bill or any notification from them. They instead just sent my account to collection without a notice of the amount they believed I owed or my chance to either dispute it or make arrangements to pay it.

Ticket: # 3963372 - Internet disconnected

Date: 5/6/2020 4:56:46 PM

City/State/Zip: Broadway, North Carolina 27505

Company Complaining About: Windstream

Description

Windstream turned off my internet service on 05/06/2020 for nonpayment

Thought we had 60 days during covid19

Windstream signed the form with FCC

not to interrupt service for nonpayment

Just don't get it?????

Ticket: # 3963421 - Directv

Date: 5/6/2020 5:23:23 PM

City/State/Zip: Port Gibson, Mississippi 39150

Company Complaining About: AT&T

Description

Directv have a policy stating you can get a extension until June 30, 2019 if you have been affected by the covid 19 virus . When I call on May 6 to request for the extension I was told they couldn't approve the extension. The rep told me my service will be interrupted on May 8.

Ticket: # 3963425 - Lifeline Phone Service Down for About A Month - Disabled Elderly Person that needs access due to Pandemic

Date: 5/6/2020 5:24:53 PM

City/State/Zip: San Francisco, California 94132

Company Complaining About: AT&T

Description

The consumer requested that you please speak with her daughter, (b) [REDACTED]

The consumer stated that her phone line has been down for about 1 month. She has been promised numerous appointment dates, all of which have been missed. She stated that this is a Lifeline account and she feels that AT&T is discriminating against her. She stated that this line belongs to an elderly disabled person in "lock down" due to the Covid-19 issue and they are discriminating due to the fact that it is a Lifeline phone service.

She stated that all of the neighbors have a landline. However, she is the only one that is out of service. She stated that it is because they are running a new line.

She stated that they had promised to have it fixed sometime between April 21st - April 24th. Then it was promised April 30, 2020. Then, they promised to have the landline restored by May 1, 2020.

The consumer stated that it is now May 6, 2020 and the phone line has not been fixed yet.

The consumer had her daughter, (b) (6) [REDACTED] file the complaint on her behalf .

Sam, Newt Gingrich here. While Pres Trump fought coronavirus & restarts our economy, Pelosi attacked & Biden moved further left. Trump needs your vote, but official records indicate you're not registered. Click <http://ncvreg.com/9842444500> to register now. AC

Ticket: # 3963515 - Cablevision/Optimum refuses to cancel services

Date: 5/6/2020 6:25:09 PM

City/State/Zip: Metuchen, New Jersey 08840

Company Complaining About: Optimum

Description

I have been trying to modify my current package with Optimum due to unemployment issues related to COVID. Optimum refuses to cancel services, and instead transfers my call from department to department, each time saying they are not the right department. Impossible to cancel.

Ticket: # 3963594 - Incorrect Billing and contract

Date: 5/6/2020 7:18:11 PM

City/State/Zip: Rockville, Maryland 20852

Company Complaining About: Verizon

Description

Verizon extended our contract without our agreement in March. We called in on April 6th after we noticed our bill had increased and was informed of their change. We asked to cancel / suspend service due to COVID-19 but they were unable to. The rep help reduce our bill in April 6 which we received an email. In May, they incorrectly billed us again.

Ticket: # 3963651 - Number being held hostage by Spectrum Business

Date: 5/6/2020 8:47:48 PM

City/State/Zip: Los Angeles, California 90066

Company Complaining About: Spectrum

Description

Due to total loss of income in my freelance photography business by Covid19 I changed my Spectrum internet and phone service from Spectrum Business to Spectrum Residential on 4-11-2020. Sales person assured me I will keep my phone number of 14 years (b) (6). But now Spectrum is saying they cannot transfer my phone number from Business to Residential, and billing me for both accounts. I have spent over 15 hours on hold talking to over dozen Spectrum customer service people during the past month. Please instruct Spectrum to transfer my phone number to my Residential account, so I can shut down my Business account without losing my 14 year old phone number. Both services are at the same address, and instead of reducing my bills I am being forced to pay double. I am not even going to another provider, but just a different department within the same company. Thank you for your assistance.

Ticket: # 3963688 - Horrible service

Date: 5/6/2020 9:20:15 PM

City/State/Zip: Beacon, New York 12508

Company Complaining About: Optimum

Description

I have been an unhappy customer of Optimum for years. I pay my bill in full and on time every month and yet they continue to provide spotty service at best. I understand the pandemic is rough on everyone business included but we are all suffering and I can not afford \$25 more a month for horrible service.

I would like to be treated like a new customer with good service at an affordable price.

Ticket: # 3963714 - Changing channels in package after contract signed.

Date: 5/6/2020 10:40:06 PM

City/State/Zip: Port Saint Lucie, Florida 34983

Company Complaining About: Comcast

Description

The Company constantly changes the channels in the package after you have made an agreement with them. When trying to cancel the service because of Comcast violating the agreement, they want to charge a fee. This is a clear violation of the law, and constitutes fraud against the consumer. What's worse is they do it under the cover of a pandemic.

Ticket: # 3963748 - Re: [FCC Complaints] Re: Verizon Issues

Date: 5/7/2020 12:19:05 AM

City/State/Zip: Boston, Massachusetts 02116

Company Complaining About: Verizon

Description

This is a follow-up to your previous request (b) (6) "Verizon Issues"

Dear FCC, I was told that Verizon would contact the credit reporting agencies to remove their erroneous charges and collections requests in my name (b) (6). Prior to the current pandemic I spoke with an FCC representative after February 18th, to ask for Verizon to provide me with copies of their correspondence and any documents sent to the Credit reporting agencies, stating they wrongly sent me to their agencies.

I cannot verify they will contact the agencies to clear up their mistake. FCC my question is would you please follow up with them on my behalf? They ignored me repeatedly until I contacted the FCC.

I hope to obtain all the proof that my CREDIT has been RESTORED to the EXCELLENT standing and that I have ZERO negative history with the three (3) Credit Reporting

Agencies: Experian Equifax TransUnion

Thank you for your time and consideration. (b) (6)

On Thursday, February 20, 2020, 8:48:17 PM EST, MY Business <(b) (6)> wrote:

#3 response to FCC email (for my records)

Dear FCC, thank you!!!

PLEASE NOTE: The correct spelling of my first name is (b) (6), a V not a B!

Mr. Olan Olude from Verizon said in the attached letter, it will take 30-60 days to remove Verizon's incorrect reporting of my account to the Credit Reporting agencies, but (1.) what should I do in the interim?

Although I truly appreciate Verizon correcting their mistake for billing me incorrectly, (2.) what are my rights in terms of Verizon DAMAGING my stellar credit history which has effected my lifestyle and kept me from applying for both jobs, housing etc. Because there is Verizon's Collections notice in my name, I have been reticent to have my credit checked by anyone and according to Verizon, will still need to wait another 30-60 days for amelioration of this matter!

(3.) How can I be assured that my credit rating/standing PRIOR to being targeted by Verizon's misreporting, will return to the stellar rating it was (which I have worked diligently to maintain for the past 25 plus years)?

(4.) Lastly, am I legally entitled to monetary damages from Verizon for the harm they caused to my financial footprint, which again I have worked so hard to maintain?

FCC, thank you for intervening on my behalf, since all of my efforts to be heard by Verizon fell on many deaf ears!

FCC, your response is greatly appreciated!

Sincerely, Ms. (b) (6)

Ticket: # 3963800 - Complaint about unusable cell phone from Sprint and more

Date: 5/7/2020 2:15:03 AM

City/State/Zip: Oakland, California 94601

Company Complaining About: Sprint

Description

I am writing as a customer of Sprint, a relative to a customer of Sprint on a family plan account with 4 other persons. This is specifically for the phone number "(415) 786..." which is an iPhone 8 Plus. I would like to complain about a Sprint not suspending all phone services for the above cell phone, despite no data being used over the last two months. I would like to complain about a Sprint still billing this account for the above cell phone. This includes data such as: talk, text, voicemail, email, Apps, social media, and location. This phone is broken physically and cannot make calls or any other actions. It is a non-working cell phone, that cannot be turned on. Also, a 17-year-old minor has only used the cell phone account. She does not need this service anymore, because she is at home all day. This is due to the Shelter-In-Place in Alameda County because of Covid-19. I have since reviewed the account and contract lease for the above cell phone. The signature, time, and agreement are none as the same as when this cell phone was purchased. I would like to complain about a Sprint for posting a fictitious cell phone contract lease to this account. Please contact at both emails: (b) (6)

Ticket: # 3963814 - Billed for internet service not received

Upgraded to 150 mbps due to covid homeschooling. Billed for 150 mbps service but only received 50-70mbps. Provider refuses to refund service fees for time using the 150 plan, but never received half the advertised speed.

Ticket: # 3963846 - Disconnected internet during COVID

Date: 5/7/2020 6:50:48 AM

City/State/Zip: Elm City, North Carolina 27822

Company Complaining About: Sudden Link

Description

I contacted suddenlink due to my internet being disconnected 5/4/20. I chatted with two individuals on two different occasions telling me my internet will be reconnected with in 2-4 hours. It wasn't. It been disconnected due to non payment. After I called yesterday they refused to reconnect my internet.

Ticket: # 3963896 - CenturyLink Availability Complaint**Date:** 5/7/2020 8:46:49 AM**Company Complaining About:** Centurylink

Description

During this Covid-19 crisis, some companies are offering free internet to school students, CenturyLink has stolen ours.

CenturyLink publicly says:

CenturyLink was among the original list of companies that took the pledge and today, the company committed to extending it through June 30.

At CenturyLink, we know our customers are counting on us to keep our network running so our children can continue to learn and the world's businesses can continue to run efficiently. We continue to stand ready, willing and able to meet our customers' near-term and long-term needs and have been ensuring traffic continues to flow smoothly across our network, regardless of increased demand. Here's the reality:

I called CenturyLink on April 29th because \$25 worth of loyalty credits had fallen off our bill. Customer service said they had a better plan for me. They proceeded to SELL ME SERVICE THEY CANNOT DELIVER TO MY ADDRESS.

After disconnecting my "grandfathered plan" of 8mb internet, the order was sent to the workers in the programming department who rejected the new plan's offer of 10mb saying it's not possible at my location. Now, customer service says they can't get the old plan back, and they can only offer 3mb to us. After being on the phone with them all day Wednesday and all morning Thursday, we agreed to try the 3mb today to no avail.

A technician came from CenturyLink and agreed that we've been really wronged. He personally can't get us more than 1 MB to work on this 3 MB service. He said 11 MB service is available in the area, but CenturyLink won't give it to us. We know more than 3 MB is available because we have a record from our speed tests with our prior 8 MB service. But again, Century Link won't let us have it. They said they will only sell 1.5 or 3 MB now.

So at this point, we have no internet strong enough to stream classes and six students trying to finish the school year. Two are college students are trying to take exams. My tenth grader was in the middle of an online college assessment test (CLT10) when the internet went down. We had to drive to McDonald's parking lot to submit it. My son had to go to McDonald's to submit his college video exam project. We have been going to the grandparents an hour away to get some work done for four days. CenturyLink is taking no responsibility. So, when other companies are offering free internet to school students, CenturyLink has stolen ours. I have spent two days with their customer service and technical teams unable to help. Often they are people who hardly speak English. They hire employees to provide customer service who don't know what they are doing resulting in hurt to these students who can no longer do classes. They need to be held accountable. I am so upset! The service we had worked just fine for all my kids' class needs. Century Link won't let us have it again. If you have connections with the company or any way you could pressure them to help, we would be grateful! They have a monopoly where we live out in the country, so we can't just sign up with another company.

I appreciate any help you can provide!

Waynesville, OH

Ticket: # 3963903 - Comcast/Xfinity puts wifi in worst channels for interference**Date:** 5/7/2020 8:51:42 AM**City/State/Zip:** Stafford, Virginia 22556**Company Complaining About:** Comcast

Description

I have had at least 4 calls with Xfinity due to my low quality WIFI. I have had my modem restarted multiple times, updated modems, updated my services to a higher speed, and performed other troubleshooting activities with NO improvement. The root of the issue appears to be that my wifi (2.4 and 5 bands) are hard coded to the most trafficked channels (6, 44 respectively). Tech support is completely incapable of dealing with the wifi channel issue even though it is discussed at length in Xfinity forums with the comment that changing wifi to a more performant channel is functionality recently restricted by Comcast. As I am working from home due to COVID-19, this issue needs to be resolved immediately.

<https://forums.xfinity.com/t5/Your-Home-Network/change-Wifi-channel-to-avoid-interference-from-neighbors/td-p/3289242>

Description

Verizon cancelled my families internet service, even after being made aware that I had been furloughed due to Covid 19, they are an unscrupulous predatory company who should be fined for their treatment of consumers.

Ticket: # 3963913 - Inconvenient/Poor Internet Service For Residential & Business Customers

Date: 5/7/2020 8:59:36 AM

City/State/Zip: Mt. Olive, North Carolina 28365

Company Complaining About: Hughes Net

Description

(b) (6)

(b) (6)

Whomever this may concern,

On behalf of the Hughes Net account holder, (b) (6) as well as, other Hughes Net account holders, there is most definitely an issue with the overall service with Hughes Net. I have contacted a Hughes Net Representative the other day in reference to concerns in general with the poor internet service. I understand due to the COVID-19 situation that many individuals are using more of service. I would say, entirely though after contacting colleagues with 'different' internet service providers before or during the COVID-19 pandemic has not experience these form of issues with internet speed nor performance. On the contrary, that is still a poor excuse as of why, not just Residential though Work From Home individuals having very low 'Download' and 'Upload' speed. For instance, I spoke with a Supervisor for Hughes Net as of May 4th, 2020. The issue was pertaining to the low internet performance and what can possibly be done towards a positive resolution. After speaking with the Hughes Net Representative, I was provided misleading information and was told that the internet was Up-To-Par when it wasn't after running several speed tests. There was no empathy towards the issues which is affecting numerous people. I also took upon myself to contact Hughes Net on May 5th, 2020 in reference to the situation. While speaking to a Hughes Net Supervisor, they have respected my inquiry and waved a fee of, if I'm not mistaken \$120.00 to have a Hughes Net Technician visit my Relative's residence in order to troubleshoot this issue at hand to see if the internet performance will improve. Overall, there was a slight improvement once the Hughes Net Technician finished troubleshooting. The information that was provided to me by the Hughes Net Technician was, "Well, the thing is that if you choose 2G instead of 5G when it comes to signing onto a VPN or in general that it will increase the speed and there is nothing else that we can do about the

'download' and 'upload' speed." Out of respect for the Hughes Net Technician, I did not want to start a disagreement for the fact there should be some form of action with companies entirely to avoid these issues in general or during a crisis. Furthermore, while attending my shift, after lack of performance of two days prior there is still a continuous issue with internet performance. To conclude, there have been other individuals with the same service that has similar issues and feel that Hughes Net is not doing their diligence as far as: Customer Service, Company Equipment, and Consumer Satisfaction. Please feel free to contact me via email or phone at your earlier convenience. Thank you for you time, stay save during the COVID-19 pandemic, and enjoy your day.

Sincerely,

(b) (6)

Ticket: # 3963982 - AT&T Fixed Internet service

Date: 5/7/2020 9:51:02 AM

City/State/Zip: Mcmillan, Michigan 49853

Company Complaining About: AT&T

Description

My understanding is that AT&T is receiving federal subsidies to provide internet to rural areas and with this being said I am very rural as is my daughter but we can not receive fixed internet due to it not being profitable enough to AT&T. My daughter and son in law have an AT&T tower on their property which is used as the point to obtain fixed internet in this area. When you enter their address in AT&T data to obtain fixed internet it is said to be unavailable, as is my address. Yet people around us (slightly beyond our properties) can obtain it. When questioned this I was told it was based on codes being turned on on the tower and it would not be profitable enough for them to turn on the code for us to access due to low population. My question is isn't this why AT&T is given a subsidy to help offset these costs? No one will confirm this officially and when I call AT&T I am told I can't go beyond sales since they are based on commission and as soon as they are told no to the address they can not go any further. Some one did call me back and tell me unofficially I may never get it due to these codes. I would not be arguing this fact as much as it is for my daughter who is a TEACHER who is now forced to teach at home due to this pandemic and is forced to use all of her data from her cell phone to teach children because if true a switch won't be turned on because it is not profitable enough! All I want is truth, is this here say or is there truth to this and if there is truth what does the subsidy really meant for.

Company Complaining About: Safelink Wireless

Description

Consumer is placing a complaint against safelink. Consumer is a lifeline receiver and he is stating that Safelink has not give him his minutes for this month. Consumer called safelink since the 05.01.2020 to report that he did not receive his minutes. Safelink is telling him that in fact he did receive them. The minutes that are on his account are from the remaining of last month. Consumer states that with the lock down he is using his landline and that is why he has 900 minutes left but he has not receive the minutes, messages. Consumer was told that he needed to upgrade and he did but he still does not have his minutes. Consumer was told that his minutes can take up to five business day to be activated. Consumer is a lifeline receiver for many years ago and he always receive his minutes on the first of the month. Consumer was told by the representative that he got lucky all this years. Consumer is tired of getting a run around. Consumer wants to change providers. Consumer is tired to repeat himself every time he calls safelink. Consumer feels like this is a fraud to the US government that they are receiving money for the program but they are not giving him his service. Consumer try to solve this problem since the first of the month.

Ticket: # 3964203 - Comcast Billing Issues

Date: 5/7/2020 11:19:26 AM

City/State/Zip: Harsens Island, Michigan 48028

Company Complaining About: Comcast

Description

The consumer wants to file a complaint against Comcast.

The consumer has received an email today that they changed his services they added a \$9.95 fee, broadcast TV fee \$2.50 that he doesn't even get and a dvr service rental at \$10 (which he doesn't have) and it says they removed service from a TV box.

His bill went from \$100 to \$140.46.

The consumer states that they would also not charge for any late fees because of COVID-19, but yet he got late payment fees.

He also received an email stating the confirmation of equipment he ordered, but never ordered anything.

The consumer continues to have on-going email issues.

The consumer had been notified that the issue would be resolved by the end of April and it's still continuing.

The consumer was told by an agent to get an account with google if he is still having issues.

The consumer would not like google because he is old and its hard to learn something new.

The consumer is updated with his Microsoft Edge and also Internet Explorer 8.1 but is still unable to send his emails because of the screen saying server unavailable or server to busy, retry.

The consumer needs his bill accurate to what the services he has and is receiving.

The consumer will not continue to pay for services he is not receiving.

The consumer wants his email issues fixed like promised and needs them to explain whats going on with his bill and get it adjusted immediately.

Company Complaining About: Sudden Link

Description

My internet service with sudden link powers my land line telephone. I do not have cell service where I live. I live in a small rural community and depend on the one provider in my area Suddenlink. My service cuts in and out all the time I have repeatedly asked them to fix our lines and they have give us a runaround for months. My neighbors are I'm there 80s and depend on there home phone to call out for basic needs due to coronavirus they are not able to leave the house. There home phone is cutting in and out its now a safety issue. My land line with sudden link cuts in and out I can not make calls its a safety issue. I have repeatly called sudden link for the past 6 months trying to get them to fix our internet and phone please HELP US. They ARE NOT FIXING THE PROBLEM.

Ticket: # 3964310 - Charging me for a service & scanned my liscense without permission

Date: 5/7/2020 11:48:59 AM

City/State/Zip: Georgetown, Texas 78626

Company Complaining About: Sprint

Description

In February or March I attempted to cancel my cellphone's insurance plan. Sprint had removed the feature online to manually adjust and remove the addon feature online myself. I went into the store and waited three hours. When they asked for my driver's license they scanned it without my permission and claimed they keep/digitally store it as a means of verification. I told them it is one more avenue to have my identity stolen and I did not consent. This is a change in policy without my consent and a use of my government id without my consent! They confirmed they canceled my phone's insurance plan. Come April I see a charge. I contact them via an online representative as COVID has shut things down. I explain the insurance was not cancelled and even though it cost me a month and a half of charges they refunded me only a month to which I cut them slack just to get it done. Certain the phone's insurance was cancelled here I am in May with the phone insurance still active and another month being charged to me. No longer able to modify my account like years before I am at the mercy of representatives who I wonder if are punished for not preventing cancellations or if they are just miserable at their job. My ID and my money has been stolen in essence and had any other small business without Sprint's footprint done this they would have hell to pay.

On a side note back in ~2018 they put me in contract even though I paid for a device in full so as not to be bound to a contract. I worked a call center for a phone company when younger and I believe the Sprint stores and call centers may have toxic quotas given the inability to get straight forward service. I understand their billing structure upsets a lot of people, I see it everytime I go in and frankly it is not clear and representatives don't convey charges well. I just have the experience of years to figure it out so I'm not shocked with changes unless they fail to disclose how one change affects something else which they do often or they modify the plan incorrectly if at all.

I've attached then last transcript.

Ticket: # 3964364 - Price Gouging

Date: 5/7/2020 12:07:02 PM

City/State/Zip: Seaside Park, New Jersey 08752

Company Complaining About: Optimum

Description

Optimum significantly increased TV and Internet prices in February, just as the Coronavirus pandemic hit. They arbitrarily increased my both TV by \$30 and claimed they served me notice when I was on seasonal status, away from the home, and only paying a flat rate. I did not receive a subsequent notice in my most recent bill where, for the first time, I paid for full services.

Ticket: # 3964388 - Being Limited during a Pandemic

Date: 5/7/2020 12:17:46 PM

City/State/Zip: Churubusco, Indiana 46723

Company Complaining About: Mediacom

Description

I've been fighting with Mediacom for almost 3 months now. I have done everything that they have wanted to fix my upload issues, and have spent over \$100 on new equipment because they continue to blame my setup, and they wouldn't replace the modem themselves. So my upload speeds drop to almost exactly 2mbps from 20mbps, almost exactly 2 hours into my peak upload usage every. single. day. Doesn't matter when I start, 2 hours in they get cut back. When I test using their speedtest it shows no issues, but any other speedtest I use show me 2-3mbps during these time periods, which actually reflect the speeds I get. They however won't acknowledge any other speedtest result. This has been going on since the start of the stay at home orders. I work at home and this has severely impacted my workflow, and I've had so many techs out that they are now charging me fees for tech visits. I believe that its either a massive coincidence, or I am being throttled to ease internet usage during the pandemic.

Ticket: # 3964428 - Phone Line

Date: 5/7/2020 12:29:43 PM

City/State/Zip: Chicago, Illinois 60620

Company Complaining About: Metropcs

Description

The provider MetroPCS, phone service

The phone number (b) (6)

The consumer stated that someone is using her phone number

Then she said when she makes a phone call someone is listening to the conversation.

She said that no one should be contacted to her phone line.

The consumer said that she notice about 2 weeks.

Then she said about how there is other phone lines connected to her service

The consumer reach out to the carrier about the issue. She was told to go to a local store but she is not able to because of being on lock down due to the COVID-19.

Resolution

The consumer would like for the issue to be fixed. She would not want someone else to be using her service as she does pay for the service herself.

Date: 5/7/2020 12:48:43 PM

City/State/Zip: Mechanicsburg, Pennsylvania 17050-9146

Company Complaining About: Sprint

Description

Requested assistance from Sprint regarding a final phone bill. We have switched carriers. The final phone bill discussed over the phone was confirmed total of 602.86. I have not yet, received a bill with this stated amount. I have requested an updated phone bill with this amount and requested, due to COVID-19 and a recent lay off, I have communicated with Sprint staff by phone and by USPS Mail. I have requested Sprint staff to decrease the total payment to \$250.00 and offered to pay this amount in full, and or extend the payments at \$50.00 per month until paid in full. I have been denied these requests and told to pay in full by May 20, 2020. I am requesting assistance with this matter from the FCC. Due to the COVID-19, these are extenuating circumstances and I am requesting help. I am willing to pay the bill and would prefer to settle the bill for \$250.00.

Thank you for your attention to this matter,

Consumer wants a credit into her account because of all this inconvenience that Century link is having. Consumer wants to know why they keep having outages.

ctr408-phone

Ticket: # 3964698 - WBAY TV2 Green Bay, WI

Date: 5/7/2020 1:45:11 PM

City/State/Zip: Green Bay, Wisconsin 54301

Description

Yesterday, I accused channel 2 here locally of being nothing more than rip 'n read "news" agency. Today, it was easy to prove that as they posted this story overnight:

<https://www.wbay.com/content/news/AP-Exclusive-Trump-admin-shelves-CDC-guide-to-reopening-country-570265821.html>

Even THOUGH Kayleigh McCanany came out with these comments an hour later at most:

<https://www.thesun.co.uk/news/11459328/trump-press-sec-kayleigh-mcenany-disputes-cdc-directors-second-coronavirus-wave/>

The news dept at Wbay was rude, got into a shouting match with me, hung up on me, and did EVERYTHING BUT, retracting this story

And this has been going on for YEARS. They WBAY News Director told me yesterday that they had "an obligation to tell the truth", then turned RIGHT AROUND and behaved like that. Furthermore, there are NO placed for anyone to refute their incompetence. Instead, they told me they "had the right to air what they please"

Well, one of us must be wrong. BUT, the difference is that I don't have the influence they do. This is clear fraud IMHO

The Communications Act of 1934 is the basis for these FCC contracts. It states:

(4) on-the-spot coverage of bona fide news events (including but not limited to political conventions and activities incidental thereto), shall not be deemed to be use of a broadcasting station within the meaning of this subsection. Nothing in the foregoing sentence shall be construed as relieving broadcasters, in connection with the presentation of newscasts, news interviews, news documentaries, and on-the-spot coverage of news events, from the obligation imposed upon them under this Act to operate in the public interest and to afford reasonable opportunity for the discussion of conflicting views on issues of public importance

Page 167

<https://transition.fcc.gov/Reports/1934new.pdf>

All I'm desiring is that the 6 major companies who use this dropbox system at 4AM cease and desist from determining WHAT the "news" will be, and simply go back to investigative reporting which is dead. In fact, ALL accountability is dead here

Please help

Ticket: # 3964820 - Pete Hegseth Fox News; calling for people to willingly get COVID19

Date: 5/7/2020 2:22:41 PM

City/State/Zip: Somerville, Massachusetts 02145-4331

Description

Please notify Fox News that the Pete Hegseth segment endangers lives. I do not watch this station and the time I have entered may not be correct as I saw the news about this unfortunate segment on Twitter. It is irresponsible that Fox aired this segment and need to retract the statement and announce how dangerous it is and that it counters safety measures. We have enough issues in the country right now and I do not agree with much of Fox news and think it is simply promoting many terrible ideas but will focus on this segment. Countless people are suffering across the globe and this has not been easy for anyone, but this message is truly harmful.

Description

My service was disconnected by Xfinity. I called and I was told I could pay my bill at the local office. The office is closed due to the pandemic. I paid my bill at Weis. When I called Xfinity they refused to turn on my service. I had my receipt number. I also have a letter from Xfinity stating they would not turn my service off during the pandemic.

Ticket: # 3964966 - Optimum

Date: 5/7/2020 3:14:30 PM

City/State/Zip: Calverton, New York 11933

Company Complaining About: Optimum

Description

I have been having issues with my internet and phone since 4/16/2020. I am disabled and due to COVID I needed these services to have access to my Doctor's. Appt's they are online and Phone. When I called due to services not working, technical support wiped my system out and rebooted. It still wasn't fixed. I continuously called and contacted them on Chat. .It was almost impossible to get through. Just this morning i waited for a call back for 2 1/2 hours. I got the call back it was a recording and disconnected again. Chat told me i needed a new router. I returned the router on 5/5/2020. I set it up and it still wasn't working. I called again i got a message due to high call volume we are unable to take your call. it satiated to go online to troubleshoot. How when that is my problem.I returned to the store Tara was outside directing customers. She was very rude and aggressive. She barked at every customer "What are you here for? I told her i was having problem with my service. "Where is your equipment?". I let her know it was home, and i have done everything i was told and it still wasn't working. . She then said if you cant get through have a cup of coffee and try back later! I have been trying for 3 weeks. The man behind me spoke up to her. He said i have to agree with this lady. I have been trying for 3 days. They never call back. I asked her is there an outage? She told me "I am not a technician!." I asked about a service call. I was informed it would cost me \$80. I didn't have a choice, they are a monopoly. I was speaking to the rep i was informed Tara was the superviosr. Tara came storming in just make her an appt! I was then told by tTara we are in a Pandemic and people are DYING! I started to cry and she gave me a tissue. I left with a new modem added \$10 for quicker internet and \$7.99 service plan. This morning i returned old modem. The man outside took it from me. I have no proof it was returned. The charge for \$7.99 was never taken off. My service still has interuptions. They are so expensive but we have no choice they are the only internet provider in my area. They refuse to give me an address to send a complaint. One of their workers gave me the number 888-382-1222. That is not the number. That is the do not call registry. Please break up this monopoly. Seniors are being taken advantage of too. We need someone to fight for our rights with this company. Thank you for any help.

Ticket: # 3965111 - Comcast charging for major league sports

Date: 5/7/2020 4:06:46 PM

City/State/Zip: Collingswood, New Jersey 08108

Company Complaining About: Comcast

Description

I have Comcast and their prices are continuously going up. One thing that they are still charging for, and have been, is that every customer is being charged for major league sports. They say that is part of the deal and that everyone pays it. But here is the issue I have. There are no sports being played during the pandemic, and yet, they are still charging their customers close to \$10 a month for that. How is that ethical, especially given the fact that I am paying over \$215 a month for internet, cable and a landline service? When I called their customer service, they told me that they have to charge that, and when I pointed out that no major sports are being played, they told me there was nothing they could do about it. First off, I don't think that all customers should have to pay for sports, because neither me or my husband watch them, and that should be an additional charge if you're a sports enthusiast. But it is especially wrong to charge people when these are not going on.

Ticket: # 3965191 - No Closed Captioning on Local 22 / 44 (WVNY / WFFF)

Date: 5/7/2020 4:38:42 PM

City/State/Zip: White River Junction, Vermont 05001

Company Complaining About: Local 22 / 44 (wvny / Wfff)

Description

The consumer states that she has been watching the Vermont governor's coronavirus briefings on Local 22 / 44 (WVNY / WFFF), and she is very frustrated with the fact that these broadcasts appear to lack closed captions altogether. She states that she had previously been able to receive over-the-air broadcasts from an NBC affiliate in New Hampshire until recently (which she judged to have more consistency in respect to the delivery of closed captioning), but she is no longer able to receive this channel through her television antenna due to a recent spectrum auction. Consequently, the consumer now needs to rely on 22 / 44 in order to get this valuable public safety information.

The most recent instance where the consumer reports observing the lack of closed captioning for the Vermont governor's daily coronavirus briefing on Local 22 / 44 was on Tuesday, May 5. The consumer also reports consistent problems with the lack of closed captioning during regularly-programmed local news broadcasts on Local 22 / 44, but was unable to provide specific information on when these issues were observed.

The consumer states that she has contacted the station several times regarding this matter; she reports that her experience has been that the station personnel has generally been very dismissive of her concerns regarding the lack of closed captioning.

The consumer uses an television antenna to receive these over-the-air broadcasts from Local 22 / 44.

Company Complaining About: Comcast

Description

In March or early April of this year, I called Comcast and spoke with a friendly representative to discuss my plan. Even though I had to arrange for a change that involved an upsell, I agreed for it to take place on April 23rd, with a price increase to \$59.10 per month for Internet (with Flex included for free). However, I am being charged \$74.05 per month on my paper bill and online, and there is no live support to correct the bill. The website says fees will be charged for lack of payment, so I am forced to OVERPAY to avoid additional charges even though I have already been overcharged by about \$15. Instead of connecting me with a live agent, the chat feature online kept prompting me to pay my incorrect bill, and when I tried to select the feature to schedule a call with an agent two or three times, I never received a phone call from a human that could correct the problem. It seems LOUSY that Comcast is overcharging when so many people are feeling a crunch economically AND that they don't have any path for a customer to address overcharges on a bill.

Ticket: # 3965508 - unwanted text

Description

The medical center continues to call 2x per day for the last 2-3 weeks and before Covid about the same to solicit. Live person on the phone. I have repeatedly asked them to stop.

Ticket: # 3965597 - Complaint again Charter Communication/spectrum

Date: 5/7/2020 8:30:41 PM

City/State/Zip: Ortonville, Michigan 48462

Company Complaining About: Spectrum

Description

Dear FCC

I've have service with spectrum/ charter communication since October 2011. Every month I've paid my bill.

I've had service techs at my house over hundred times. The service goes in and out. One of the techs told me it was a transmitter issue.

I've had the area manager at my house to fix this issue with no luck.

Spectrum has never given me any credit for the days I have not service. Honestly I don't know how they stay in businesses. We're not allowed to switch providers in my area so we're stuck.

What has broke my back now is the work from home and school from home in this covid 19 epidemic season.

My kid 13 & 6 cannot finish a zoom session, internet goes in and out.

My wife and I cannot work from home since the internet is very slow.

We have lost wages not only now but when techs come out.

Our kids seem disorganized with regards to school work. When we do connect the teachers have to stop entire class to help my kids with connection issues or ask them to just log out.

We are looking for two resolutions:

1. Charter/spectrum communication resolve our issue.
2. Charter/spectrum communication issue is credit for the years they've refused to listen to us and solve our problem. It's not fair to collection monthly charges if you're not providing the service.

Our service address is : (b) (6)

Ticket: # 3965600 - Frontier Internet Frequent Outages

Date: 5/7/2020 8:32:46 PM

City/State/Zip: New Richmond, Wisconsin 54017

Company Complaining About: AT&T

Description

Frontier Internet is out at least three times a week. Apparently their systems are robust enough to handle traffic in the early evening hours. This is critical and times when I need to do teleconferencing do to working at home related to pandemic. As often or not it's impossible to stream videos. There does not seem to be any solution, except comments to placate those of us in Wisconsin who are unlucky enough to have them in a troubled area

Ticket: # 3965686 - Re: [FCC Complaints Ticket No. (b) (6) Charged for equipment that was already returned

Date: 5/7/2020 10:03:07 PM

City/State/Zip: Los Gatos, California 95032

Company Complaining About: Sudden Link

Description

This is a follow-up to your previous request (b) (6) "Charged for equipment that ..."

Hello,

I received a letter dated March 11 from Altice representing Suddenlink that I would be receiving a refund for my FCC complaint below.

It stated I would receive a check for \$100 in up to 5 business weeks.

It has been over 8 weeks and I have not received a check.

I can understand a slight delay with the coronavirus issue, but this is ridiculous.
How do I reopen up my complaint in order to receive my refund?

Thank you,

(b) (6)

Ticket: # 3965690 - Hughesnet.com service

Date: 5/7/2020 10:18:05 PM

City/State/Zip: Idaho Falls, Idaho 83401

Company Complaining About: Hughes Net

Description

Hughesnet is blocking my internet access to my bank, East Idaho Credit Union. When I attempt to log in to my bank's on-line site, a full screen pop-up appears claiming the credit card they have on file will not accept a monthly charge. I do not have a credit card on file with Hughes. I pay with my bank's Auto Bill Pay. I was one day late and Hughes started blocking my on-line access to East Idaho Credit Union, and other web sites, such as coronavirusnearme.com. I try repeatedly to log in but am blocked by Hughes "friendly reminder." I have called them several times and asked that this "reminder" be stopped, but as of 8:00 pm today still cannot reach my bank. I'm sure this practice is illegal. I need some help, as Hughes is ignoring my requests.

Ticket: # 3965701 - Corona virus scam

Date: 5/7/2020 11:21:44 PM

City/State/Zip: Greenwood Lake, New York 10925

Company Complaining About: Ota Broadcasters

Description

I would like to receive Over the Air (OTA) Television signals from my residence but there are no nearby Transmission Towers or Repeater Towers to my location in Greenwood Lake, NY. Please have a transmission tower placed within 25 miles so that at least some local news can be viewed especially with the Corona Virus and without having to pay for cable or satellite tv.

Ticket: # 3965742 - 4 months of unacceptable service from Cox

Date: 5/7/2020 11:36:05 PM

City/State/Zip: Lake Forest, California 92630

Company Complaining About: Cox

Description

We moved to a new home and transferred our Cox service. Since we've moved in starting January, Cox has had an outage every 1-2 weeks during peak business hours. Alongside of this, Cox has been providing unusable service that is beginning to threaten my career as well as my significant others. Our connection, wired with Ethernet, has been extremely unstable with extreme packet loss, inconsistent speeds as low as less than 1 megabit, and non-stop ping spikes almost every single day since March.

They refuse to address the issue despite being contacted multiple times. During a pandemic of this nature this type of service should be criminal; we are lucky enough to have jobs and at this rate we won't have them unless we can find an internet solution that is not Cox, or if Cox can take ownership and resolve their issues. We've tried multiple routers and modems, calling them, and they still refuse to acknowledge any issues.

Attached to this complaint are screenshots that contain details regarding our unstable service and ping to several IP's - specifically Google Meet which is mandatory for our jobs, Netflix which we use for entertainment, and Cox's own website. I only recently started to log these issues, but as you can see our ping to various servers spikes into the hundreds of milliseconds multiple times per minute, multiples times per day, every single day of the week during peak business hours.

Ticket: # 3965762 - Cox Service Degradation**Date:** 5/8/2020 12:14:39 AM**City/State/Zip:** Las Vegas, Nevada 89139**Company Complaining About:** Cox

Description

I have documented issues of severe packet loss and connectivity issues. Everytime I troubleshoot with a cox tech, I am told there is an outage, and nothing can be done. When I get a notification the outage has cleared, I noticed my issues have not been solved. Upon contacting support again, another outage magically appears. Despite my repeated pleas and suggestions that my issue is separate, I am never accommodated, and never made whole through a pro-rated refund for lost service. Additionally, when service is degraded, I must fall back to cellular data to work from home per COVID-19 guidelines, and thus incur charges. I have sent them traceouts and ping tests which show the path and document the packet loss, yet they continue to insist it is my router, even when direct connected to the modem.

Ticket: # 3965815 - COVID-19 and NJ 101.5 Bill Spadea is a hazard to community

Date: 5/8/2020 7:45:15 AM

City/State/Zip: Wall Township, New Jersey 07719

Company Complaining About: Nj 101.5

Description

Bill Spadea is opposed to social distancing and believes the safety measures we've been directed to take constitutes fraud. That's his opinion, but what I heard him say this morning was dangerous and makes him a hazard to the community. He told us to protest by having someone over, and he's also advising people to not wear masks.

Ticket: # 3965915 - No Closed Captioning on Local 22 / 44 (WVNY / WFFF)

Date: 5/8/2020 9:42:27 AM

City/State/Zip: White River Junction, Vermont 05001

Company Complaining About: Local 22 / 44 (wvny / Wfff)

Description

The consumer states that she has been watching the Vermont governor's coronavirus briefings on Local 22 / 44 (WVNY / WFFF), and she is very frustrated with the fact that these broadcasts appear to lack closed captions altogether. She states that she had previously been able to receive over-the-air broadcasts from an NBC affiliate in New Hampshire until recently (which she judged to have more consistency in respect to the delivery of closed captioning), but she is no longer able to receive this channel through her television antenna due to a recent spectrum auction. Consequently, the consumer now needs to rely on 22 / 44 in order to get this valuable public safety information.

The most recent instance where the consumer reports observing the lack of closed captioning for the Vermont governor's daily coronavirus briefing on Local 22 / 44 was on Tuesday, May 5. The consumer also reports consistent problems with the lack of closed captioning during regularly-programmed local news broadcasts on Local 22 / 44, but was unable to provide specific information on when these issues were observed.

The consumer states that she has contacted the station several times regarding this matter; she reports that her experience has been that the station personnel has generally been very dismissive of her concerns regarding the lack of closed captioning.

The consumer uses an television antenna to receive these over-the-air broadcasts from Local 22 / 44.

Ticket: # 3965986 - Shutting off of cable boxes

Date: 5/8/2020 10:24:44 AM

City/State/Zip: Goleta, California 93117

Company Complaining About: Cox

Description

Cox is still going to shut down paying customers old cable boxes even though techs can't come into the home to install new equipment because of COVID-19. Not everyone is physically or mentally capable of installing cable equipment on their own. Cox claims they can't stop the automatic shut downs. Really? They're a tech company. They need to the shutdown until techs can come into the home.

Ticket: # 3966004 - Stand Up Against Cancer

Date: 5/8/2020 10:34:09 AM

City/State/Zip: Vista, California 92081

Description

I'm writing you this formal complaint due to a commercial that hit home for me. I woke up Friday morning to put my KFMB CW news on. Just to discover what you all thought was the right approach to fight cancer in some sort of "Drama" commercial, was the most horrible and disgusting commercial I've ever seen to pass on a message. My mom is fighting cancer at this time. Do you think this is the most appropriate way to discuss this awful disease. The commercial starts of by stating "we are sick of you, we over you"! Try to understand the side of the victim or victims fighting this disease. Do you think the best way is to take a bunch of actors that are over paid, especially now during COVID and the world at it's most unemployed in the history of the US. This is the most disturbing commercial get a grip on what your expecting as a positive message. Rethink your thoughts and understand there are people suffering a horrible disease and the last thing we want to see are these over paid actors telling me in a commercial they are sick of me. That's the way this commercial starts.

Ticket: # 3966049 - Vehicle Processing Department**Date:** 5/8/2020 10:44:15 AM**City/State/Zip:** Mays Landing, New Jersey 08003**Company Complaining About:** N/a

Description

I keep recewivcing calls from the "vehicle processing department". I haved asked numerous times over the past two years to be removed from the list, but I still receive calls. Sometimes on a daily basis. They spook their number to make it seem like they are calling from my area code. I never changed by phone number after I moved from northern nj to southern nj, but I still have older family memebbers living in north jersey. I am concerned for my family's safety during this pandemic. Of course I picked up a phone call with a number listed as if it is from where my family lives. When I picked up, I got the same opening script from the "vehicle processing department". I am very angry and I want them to stop. The number I received the call from is 908-264-1580.

Ticket: # 3966081 - Optimum (NY) suspended our service in the middle of COVID

Date: 5/8/2020 10:54:29 AM

City/State/Zip: Babylon, New York 11702

Company Complaining About: Optimum

Description

Despite Optimum claiming to be signed onto the FCC's "Keep Americans Connected" Pledge on March 13th they suspended our service this morning. Our bill, which was raise with no warning, was ONE DAY LATE (due 5/7) and they suspended all of our services. This caused my mother to be late to work (WFH) because she had to call & was forced to take money from her savings, because she had a cut to her salary, to pay the bill so she could work. We tried calling & never get through.

Ticket: # 3966126 - AT&T No service

Date: 5/8/2020 11:04:41 AM

City/State/Zip: Bronx, New York 10468

Company Complaining About: AT&T

Description

The consumer was suppose to pay her phone service yesterday.

The consumer states she was sick yesterday and wasn't able to make the payment.

The consumer woke up this morning without payment.

The consumer spoke to a representative and they told her she must pay now before

The consumer states they told her to buy a \$15 card to make the payment.

The consumer states that she can't leave her job to make a payment and doesn't have a credit/debit card to make the payment.

The consumer states that the stores have been closed.

The consumer states that last month she got an individual to pay her bill with there card, but with COVID-19 going on its hard to have someone do that for her.

The consumer states that as soon as she leaves work she can go ahead and pay the bill but she needs her services on in case there is an emergency with her daughter.

The consumer is a care giver and cannot leave her job to make the payment.

Ticket: # 3966130 - xfinity late fees during Corona virus

Date: 5/8/2020 11:05:51 AM

City/State/Zip: Lakewood, Colorado 80215

Company Complaining About: Comcast

Description

Was charged late fees for a late payment that I had to delay due to loss of my job. Call xfinity customer service and only got a recorded message. Went to local store and got no help what so ever.

Ticket: # 3966179 - Availability and Advertised Rates Issues with Verizon**Date:** 5/8/2020 11:23:13 AM**City/State/Zip:** Blakely, Georgia 39823**Company Complaining About:** Verizon Wireless

Description

I live in rural, Early County, Georgia. Our only cell provider option is Verizon. Our home is in a 10 mile area that runs along the state border, the Chattahoochee River that the Blakely, Ga Verizon tower does not reach. Verizon is aware of this, charges us full price for service, and recommended a third-party cell outdoor cell booster that costs \$500+ in order to receive a fraction of service in our home only. Our service has gotten worse since Hurricane Michael devastated our community and now with a local shelter-in-place order due to COVID 19, service has slowed even more. We have purchased a new third party booster which has improved service but not the full service we pay for. The booster cost \$549 and Verizon credited my husband's account \$275 after being on the phone with multiple reps for 3 hours. Every call is a minimum of an hour and usually the first call drops and we have to start from scratch. We think this is a intentional tactic to keep people from following through. They will not give us a monthly credit for the service they cannot provide. We must call in and stay on the phone for 1+ hours to get ran up the rep tiers to get to someone who has authority to help us.

Ticket: # 3966189 - CNBC promoting false CCP stories and Propaganda and acting as Foreign Agents

Date: 5/8/2020 11:27:03 AM

City/State/Zip: Annapolis, Maryland 21401

Company Complaining About: Nbc

Description

NBC and the CCP have significant joint business interests and I would like to file a complaint about this story: <https://www.cnbc.com/2020/05/07/coronavirus-china-vietnam-uae-top-list-as-citizens-rank-government-response.html>

which I consider to be Chinese propaganda perpetuated by a US news outlet.

City/State/Zip: Wadorf, Maryland 20601

Description

) trying to track and stop these calls that say we have a computer services refund check, or a charge for computer services or finally a get your federally funded Covid cash payment? I get all 3 types every single day on my work phone and usually several a day. Since they are calling my desk phone and not my cell it is the only call I get that is routed to my work cell, should be easy to see who's calling in. The number they call is (b) (6)

Ticket: # 3966338 - Discrimination

Date: 5/8/2020 12:24:50 PM

City/State/Zip: South Deerfield, Massachusetts 01373

Company Complaining About: Verizon Wireless

Description

En light of this COVID pandemic, I feel that Verizon is being Discriminating to other workers that work daily in this. I am not allowed the same discounts as Nurses, Responders, Teachers...I work in a Hospital daily and have to provide for the people that work here and the patients that are staying here. This is extremely discriminatory.

Ticket: # 3966611 - Comcast Failure to Provide Service or Answers**Date:** 5/8/2020 1:56:48 PM**City/State/Zip:** Naples, Florida 34120**Company Complaining About:** Comcast

Description

I have been trying to get Comcast to provide service to my new home since April 19. Every time I try to get someone to speak to I am either hung up on or given wrong information. After waiting since April 19 they informed me yesterday they cannot provide service to me. I have no other options in my area and Comcast services all of the homes around me. They have been no assistance and keep giving me the run around! In the middle of a pandemic. I simply need cable and internet and the line from from their equipment to my home.

Ticket: # 3966673 - youtube deleting videos because they violate their so-called "community standards"

Date: 5/8/2020 2:13:37 PM

City/State/Zip: Sterling, Virginia 20164

Company Complaining About: Virginia

Description

I have witnessed this video site deleting 4 videos that reveal the truth about the coronavirus, its origins, fearmongering used by the media and lies concerning who is responsible for this pandemic. I have warned them to stop the non-sense but they continue with it which is definatrly unconstitutional. I request that you issue an ultimatum stating that either they dispense with their anti-American stance or their license will be revoked. WE THE PEOPLE deserve much better than what they are giving us. Thank you.

Ticket: # 3966920 - Spectrum Billing Practices During Covid-19

Date: 5/8/2020 3:32:59 PM

City/State/Zip: Los Angeles, California 90025

Company Complaining About: Spectrum

Description

I was forced to move recently and had to do so under Covid-19 lockdown, while also working from home. While handling all this, Spectrum is charging me for a full month when they really only provided service for 2 days. They refuse to charge appropriately.

They should be charging for 2 days, not 31 days (especially when I have had a pay cut resulting from the economy).

Ticket: # 3966931 - Unwanted Phone Calls from Prince George's County MD

Date: 5/8/2020 3:37:25 PM

City/State/Zip: Herndon, Virginia 20170

Company Complaining About: Prince George's County County Executive, Prince George's County Council Chair

Description

I have been receiving phone calls from Prince George's County Maryland regarding their COVID-19 response. I am not nor have I ever been a resident of the county. None of their pre-recorded calls give me the option of removing my number from their call list. I do not know how they got my personnel phone number.

Ticket: # 3966980 - Overcharge of \$240 for Poor Optimum Service**Date:** 5/8/2020 3:55:13 PM**City/State/Zip:** Brooklyn, New York 11233**Company Complaining About:** Optimum

Description

In the beginning of March, we were having issues with our internet out of the blue. I contacted Optimum to setup an appointment after sitting on hold for two hours. Once the day came, no one arrived and no one called. So I had to setup another appointment - they told me I would not be charged for the missed appointment and didn't mention any fees included for the services.

Once they finally arrived to fix the internet, it turns out part of the coaxial cable was stapled to the wall by the Optimum technician who setup our internet, so the interruptions were entirely the fault of Optimum. Once I login to pay the bill the next month, we have a \$160 charge for a 'missed appointment fee' and an \$80 charge for a 'service fee' - charging me fees for things they specifically said I would not be charged for.

I sat on hold last Friday 5/1 for two hours trying to fix this billing issues - once I got through to someone they told me I shouldn't have been charged and that a manager would be in contact with me in the next 48 hours. No one reached out - so I called again today 5/8, sat on hold for three hours, and was told that I would still be charged for the service fee, even though our entire issue was caused by Optimums incompetence and poor service. Once I contested this, I was told that the manager would be in touch this week, which I know from past experience will not happen. I have seen from posts on Facebook and Twitter that they are raising prices during the pandemic, and many people have no internet or phone service or are still being charged huge fees for items that have been returned etc. This is a monopoly issue as they are the only internet providers we have access to in our neighborhood. We have nowhere else to go for an essential service while they continually prey on and gouge customers during a pandemic. If there is anything you can do, please help.

Ticket: # 3966993 - Spectrum

Date: 5/8/2020 3:59:20 PM

City/State/Zip: Fairport, New York 14450

Company Complaining About: Spectrum

Description

Spectrum is price gouging. Raising rates during a pandemic and not processing new service requests. They are also taking CC payments by phone and hanging up on customers. They also cut my service off 5/5/2020. And I am DISABLED.

Ticket: # 3967024 - Cell phone gouging during a pandemic

Date: 5/8/2020 4:08:19 PM

City/State/Zip: Fairport, New York 14450

Company Complaining About: Cricket

Description

Cricket cell service is now charging an additional \$2 on monthly bill. They raised these rates 4/30/2020. We are in the middle of a pandemic. I have the chat copies. He refused to bring my rate down the \$2 increase.

Ticket: # 3967068 - Optimum Billing Issues

Date: 5/8/2020 4:26:24 PM

City/State/Zip: Bronx, New York 10462

Company Complaining About: Optimum

Description

The consumer called Optimum on March 13th to set up Internet services with them.

The consumer spoke to a representative from Optimum and he opened an account for him under the name (b) (6) instead of (b) (6). (representatives fault because he clearly said (b) (6))

The consumer was told that he would owe \$112.00, \$59 for the connection (technician) and \$53 for the pre-month charge for internet service.

The consumer paid with a credit card on March 13th.

On March 14th they came out to his home to install the services.

On the 17th of March he called to add cable and when giving his name no one appeared and they said there was no account active under that name.

They came to realize the representative messed up and opened an account for him with a different name

They told him that he must close the account and then open a new one in order to add cable services.

The consumer was told they would credit the \$112.00 but he must pay \$92 for them to install new equipment and take the old equipment back from March 13th.

They also told him to use a different payment method so he wouldn't confuse the previous charge. He has yet to receive his money back.

On April 28th, the last day he spoke to them, he spoke to a supervisor that told him they would return the money to the card and understood that because of the reps wrongful doing in 24-48 hours (\$112.00)

The consumer was told he would receive a call to verify that he did receive the credit last week, yet he hasn't received a call or the money back.

He has been paying the balance for his services and because of COVID-19 he needs his money back now more than ever.

The consumer is paying the price for an employees mistake, that shouldn't happen.

Ticket: # 3967141 - Cox Communications No Availabiliy

Date: 5/8/2020 4:50:23 PM

City/State/Zip: Tulsa, Oklahoma 74135

Company Complaining About: Cox

Description

The consumer would like to file against Cox Communications whom he has internet with.

The consumer tried to pay a bill on April 30th and for some reason they didn't take the payment.

The consumer got his service shut off at 11 pm a few days ago.

The consumer knows that they signed the pledge with the FCC to not shut services off.

The consumer is upset that they shut his services off whenever they agreed not to by signing the pledge COVID-19.

The consumer would like for them to turn his services back on.

CTR-415

Ticket: # 3967178 - Slow, inaccurate and incomplete captioning by landline non-VRS forms of TRS

Date: 5/8/2020 5:02:39 PM

City/State/Zip: Winnetka, Illinois 60093

Description

FCC Order DA-20-281 grants for a limited time to non-VRS forms of TRS a waiver of the requirement that 85% of calls be answered within 10 seconds with the condition that 85% of calls be answered within 120 seconds because they are not equipped to handle increased calls arising from the COVID-19 crisis . Users of their captioning service, who were struggling with delays and inaccuracies before the emergency, now must deal with even more delays and inaccuracies that render the service virtually useless. Many of us know from our use of InnoCaption mobile captioning that accurate captioning without delays can be provided, even a time of crisis, by using ASR as part of the captioning program until a CA is available. The FCC needs to require the same level of service from all non-VRS providers of TRS.

Ticket: # 3967234 - Heavily congested Xfinity Internet Connectivity**Date:** 5/8/2020 5:32:59 PM**City/State/Zip:** Sammamish, Washington 98075**Company Complaining About:** Comcast

Description

The area where we live Comcast Xfinity is the only internet provider offering speeds greater than 100 mbps. Since the Covid-19 situation has unravelled and the number of people WFH has increased, I have noticed that the Comcast Internet speed hasn't been consistent and many time there is lot of packet drops resulting into extremely bad video conferencing experience for folks working from home. Initially, I thought it might be an issue with my home cable modem o r wifi router. However, I upgraded both of them to the latest but that didn't help. So, I called Comcast multiple times, even upgraded my service to a faster speed including paying \$15 more per month with the hope that the upgrade will fix the issue. However the issue still persists and it has been significantly impacting my and my wife work productivity. I also inquired with 4-5 of my neighbors who have Comcast and they all mentioned that they are experiencing similar issues with Comcast service for last 1-2 months . Comcast has been dragging its feet on the issue and is not fixing the root of the issue.

Ticket: # 3967263 - Please help - senior citizen

Date: 5/8/2020 5:49:35 PM

City/State/Zip: Frisco, Texas 75034

Company Complaining About: AT&T

Description

I have been having problems with AT&T billing (Internet, TV, and Phone - bundled). I tried to handle it on my own without getting a third-party involved. I did get in contact with the Office of the President at AT&T, but then I got pulled in a different direction due to family health issues and the COVID-19 crisis. I tried to reach out again to reach AT&T's OOP several different times, but I get stuck in there very thorough cycle of transfers. No one seems to be able to get me back to the person called 'Diamond' at the Office of the President. I am at the point that I need help from the FCC. I received a bill (disputed amount) and I went online. When I went online the account said I am in 'collections'. I wish I would have taken a picture of that, but I didn't. I paid what I have been paying on the account and logged out. I reached out to some friends and they informed me that due to COVID-19, AT&T cannot put me in collections or anyone for that matter. Also, the amount is disputed which is why I was trying to get help from the Office of the President in the first place. I am a senior citizen and I would appreciate if you can intercede in this on my behalf. Can you please help me get in touch with the Office of the President to someone who can fix my account which I have been paying on monthly? Thank you kindly.

Ticket: # 3967275 - charges on directv bill for regional sports fee

Date: 5/8/2020 5:57:57 PM

City/State/Zip: Seward, Illinois 61077

Company Complaining About: Directv

Description

We are being charged a regional sports fee of \$9.99 a month. With COVID-19 there are no regional sports going on. We do not feel we should have to pay that charge. Directv says no choice about it. I would like that credited to my account.

Ticket: # 3967328 - T Mobile Fraudulent and Deceitful Practices Causing Financial Harm

Date: 5/8/2020 6:33:52 PM

City/State/Zip: Las Vegas, Nevada 89148

Company Complaining About: T Mobile

Description

I own a business in Las Vegas Nevada and we do business solely in Las Vegas Nevada. The company's cell phone provider is T-Mobile. When we request new phones for our company, we request Las Vegas numbers cause we solely operate in Las Vegas and our ENTIRE workforce lives in Las Vegas. When the Governor provided the directive to have employees work from home, my company played our part in the solution to COVID 19 and sent as many employees home to work as possible. My company gets our land line dial tone from Cox Communications. So to follow the Governor's order we forwarded all our landline phones to the T-Mobile cell phones. When I got my first Cox Communications bill, there was a large long distance cost for only one phone call forwarded from the Cox landline to the T Mobile cell phone. It appeared to me that the world was viewing this 702 cell phone issued to my company as not being in Las Vegas. So the company called T Mobile through our representative (Amanda Galloway) and they said that the phone is a Las Vegas phone and it was not there problem. So I had to hire a phone consultant incurring more out of pocket expense to figure out why this phone solution was costing so much money because this phone cost was going to be detrimental to my company being able to operate financially and perhaps more importantly safely. After incurring costs with the phone consultant, the phone consultant introduced me to the "North American Telephone Exchange" where it clearly shows that the number in question (702) 969-3833 was a Mesquite Nevada number that generates much higher costs to call. All 15-20 cell phones besides this one that I also have from T-Mobile are Las Vegas numbers, I do not own a business in Mesquite, and I have no employees that live in Mesquite, etc. After I had to pay money and expend days trying to uncover this mystery that was being covered up by T-Mobile and now I know this could have been figured out in one minute by accessing the "North American Telephone Exchange", T Mobile said they would not reimburse me for the phone costs incurred, the consultant I had to hire, and all the dollars I am going to have to spend to change marketing and company materials to reflect a new number that is located in Las Vegas. As T-Mobile told me that they could not change that old Mesquite number to be a Las Vegas number. I am very disappointed by the fraudulent and deceitful practices of T Mobile and even more disappointed that all my money and efforts could have been minimized by T Mobile taking 30 seconds to look up the "North American Telephone Exchange". I feel I am entitled to my additional phone costs, rebranding costs, and compensation for my time and effort to deal with this issue solely caused by T Mobile due to T Mobile issuing an out of plan phone and then being deceitful or maybe lazy that caused me to incur more costs when those could have been avoided by simply referring to the "North American Telephone Exchange".

Ticket: # 3967370 - False Advertising

Date: 5/8/2020 7:05:29 PM

City/State/Zip: Greenwood Lake, New York 10925

Company Complaining About: Optimum

Description

If you look advertised pricing packages of Optimum in the following location (<https://www.optimum.net/pricing-packages>) they advertise Broadcast Basic as \$24.99 per month. After waiting over 3 hours for a callback which was from the wrong department and waiting another half hour for the transfer to the correct sales department. They then informed me that to add television to my account (I already subscribe to Internet for \$40) it would cost me at their minimum price of \$50. I asked why I couldn't get the advertised price for Broadcast Basic at \$24.99 and they said that it was not possible to get that low price. During the pandemic I would like to have reasonably cost Television and would love to use Over the Air transmissions but that is also not available to me. News with important information that changes daily should be available just like radio is around the United States.

Ticket: # 3967375 - Hidden charge for data overage

Date: 5/8/2020 7:06:18 PM

City/State/Zip: Greenville, North Carolina 27858

Company Complaining About: Sudden Link

Description

On May 7, 2020, I received a bill from my internet provider with a \$90 overage charge for exceeding the data cap for the period of 2/29/2020 to 03/31/2020. My provider is Suddenlink, 200 Jericho Quadrangle, Jericho, NY 11753-2701.

I called Suddenlink today, and talked at length with "Sarah", who told me Suddenlink could not waive this charge - or any other pending overage charges.

I have several issues with this overage charge. First is that I should have been warned I was nearing overage levels. Suddenlink claims they have an automated system, and I must have been informed. I do remember getting a message on my cell phone that said "This is Sue (don't remember actual name) from Suddenlink. Please call me back at 555 555-5555." I called 5 minutes after the time on the message. Got an answering system that was full, and not taking new messages. Tried calling back several times. Most times, the call was simply disconnected. When I did get through, I could not leave a message. I have to assume this is the way Suddenlink was "notifying" me of the situation using their automated system. I have looked back through the paper bills in 2020. There is no indication of any issue with data overage. The paper bills do not have any indication of how much data was used - as I am accustomed to seeing on cell phone bills. The paper bill is how I was informed of the \$90 overage charge - a communication tool that communicates when an effort is put into using it.

Was also told I could monitor internet usage using my online account. The Suddenlink online account is not at all user friendly. It is very good at communicating "specials" and at hawking tv shows - but very bad at providing the consumer with usable information. For example, in multiple places, the site states that the consumer can update their account any time of the day. When I tried these links, they did not work. Sarah today explained to me that since I am an existing customer there are some links that will not work. So, there was not way for me to take care of the overage issue online even though the site claims it can be done. Seems to me to be misleading at best and at worst fraud? Also, have not yet been able to figure out how to "monitor my usage" in my online account.

Really does not make for a happy consumer.

This charge is for the overage from 02/29 to 03/31. It is now May. I am very concerned since this does not cover the COVID-19 stay at home period when I know our internet usage has increased. Also really not in the "we are all in this together" spirit. Might even be taking advantage of the situation.

Would like to see these charges waived, and like for Suddenlink to provide a more transparent method of monitoring monthly data usage.

Ticket: # 3967400 - NewWave Communications/Cable One Cable Provider

Date: 5/8/2020 7:18:51 PM

City/State/Zip: Mooresville, Indiana 46158

Company Complaining About: Cable One

Description

I thought that I understood during the COVID-19 virus that companies could not change any billing. NewWave added on to my cable tv billing a \$16.15 charge for broadcasting local stations. This company is constantly raising prices and seems to be without justification.

Ticket: # 3967440 - Wrongly Charged

Date: 5/8/2020 7:48:34 PM

City/State/Zip: Corona, California 92880

Company Complaining About: Spectrum

Description

I was unhappy with service so I switched to ATT&T which was installed March 17th. Spectrum was not being used as of that date. I tried multiple attempts to contact them but due to COVID I was not able to get through. Tried chat and calling. I finally got ahold of someone but because it was a few days after my billing cycle they tried to bill me \$235 for another month. Got ahold of supervisor which admitted that they have had high call volume and trouble getting through. I work two jobs and couldn't sit on the phone for 2 hours. I was advised they would open a case and I would hear from them in 7 days. Heard nothing. Then get a bill and says I owe an additional \$61 for unreturned equipment. Everything was returned including the remotes that were optional. Rude and not willing to work with me on multiple occasions. was told different stories by different employees.

Ticket: # 3967446 - WOW Internet Service

Date: 5/8/2020 7:55:48 PM

City/State/Zip: Augusta, Georgia 30907

Company Complaining About: Wow

Description

I am not able to select another internet provider in my area. Due to this restriction the internet company WOW provides less than stellar service. I pay for 200 MBPS service but only receive 5 MBPS, this occurred before COVID-19 so this is not a new issue. When I call to see what can be done I have been hung up on. They will direct me to use their specific speed test which will show my speed at 70 MBPS, then I check on two different ones and it will show 5 MBPS. I asked if the other two are showing the same speed and yours is showing one that is over 10 times that amount how is that? I was hung up on. Please allow other companies to compete in areas. It will allow competition which is better for the consumer. I have no choice and because of that they do not have to provide a good service.

Ticket: # 3967504 - Keep Americans connected

Date: 5/8/2020 8:56:06 PM

City/State/Zip: Redford, Michigan 48240

Company Complaining About: Wow

Description

Do to covid-19 pandemic wow cable sign the keep Americans connected contract. I was laughed at by supervisor from wow cable when I was finally able to reach them after they disconnected my services and completely wiped out my sons work programs from school stating that their "keep Americans connected" contract ended last month even though we the American people we are ordered by our governor an extended are stay-at-home order. WOW cable would not and refuse to make a payment plan to turn my services back on they demanded it be paid in full knowing I was vulnerable in high risk for covid-19 informing them I was legally blind I need it to able to hear what was going on in this world and my son's needed internet to keep up on their homework. Before this pandemic even happened I have had ongoing issues with wow cable internet customer service they are very rude very very long wait time being hung up on consistently and they love to make their customers feel stupid by belittling them. There is way more to this issue if I could be contacted that would be great so I can go into further detail. If we the people were extended to stay home this keep Americans connected contract should have been extended as well.

Ticket: # 3967524 - Comcast Unfair Business Practice**Date:** 5/8/2020 9:23:12 PM**City/State/Zip:** Lancaster, Pennsylvania 17603**Company Complaining About:** Comcast

Description

Comcast Xfinity Basic Internet services started charging new Internet customers that receive government assistance, \$9.99 a month, due to the COVID-19 crisis. I receive government assistance per their requirements but because I am an existing customer I cannot qualify for this rate. I pay \$30 more a month. I feel discriminated against because I have budgeted my money to cover Internet charges while others can get the same services for a lot less. As a senior on medical assistance and unemployed during this crisis I feel I should be eligible for this deal also. I have been paying full price for two months now to avoid late charges and would like to receive this lower rate and be reimbursed. I have contacted Comcast's Customer Service and sign up department for the new program and have been turned down for the lower rate. Can you help me?

Ticket: # 3967554 - Constant issues**Date:** 5/8/2020 10:21:06 PM**City/State/Zip:** Johnson City, Tennessee 37601**Company Complaining About:** T Mobile

Description

T-Mobile, when I first did business with them, was a company that cared for feedback and acted on it. Over the last year, they have proven that they couldn't possibly care less for my complaints. I will mention the following:

Deceptive Marketing: It is the utmost dishonest to call it "Netflix On Us", and since it came out, I've still had to pay for it anyway. No matter what package I bought, even the so called "free" ones, I still paid extra. A lawsuit should be filed for this.

Second: My plan prices. I've provided honest feedback that the prices here cost way more than Verizon or AT&T, and when I reduce my number of voice lines as they are not needed, I am penalized for that not only by having to pay even more for the service, but to lose the "free perks" I never got for free in the first place. It seems T-Mobile only cares about people who buy multiple voice lines

Last, but not least, the service. My quality of service has become absolutely undependable and deplorable the minute I step indoors to any structure, be it a building or a house. My service is either non-existent, or so weak that is an absolute insult to say that I have a bar of service. My complaints over the past years have not only fallen on deaf ears, but all I ever hear is about the lousy Sprint merger. So, T-Mobile not only refuses to fix my problems, but they outright do not care about the issues that I've had.

I never wanted things to be this way, but I don't have any choice. I get that COVID-19 has slowed things down, but my issues go before the illness ever existed.

I am willing to talk to an executive member to work out any issues to an agreeable resolution, but the way T-Mobile has been operating is completely unacceptable.

Ticket: # 3967566 - Direct TV satellite updating in middle of news

Date: 5/8/2020 11:29:38 PM

City/State/Zip: Tuscaloosa, Alabama 35405

Company Complaining About: Directv

Description

Direct TV is updating their receivers in the middle of the 10 pm CDT TV newscasts. This has been going on for several nights now. Not a good idea w/the covid-19 going on & one of these times, it's going to happen during a severe weather outbreak. Didn't Direct TV have a similar problem just recently? Seems to me, they're ACTIVELY attempting to drive away customers, especially long time customers like me (since 2006). I've attempted to contact them but they REFUSE to listen. I couldn't tell you what my account # is @ the moment.

Ticket: # 3967608 - Verizon

Date: 5/9/2020 3:15:24 AM

City/State/Zip: San Diego, California 92117

Company Complaining About: AT&T

Description

I have a complaint re: Verizon. I spoke to different CSRs before purchasing lines with Verizon and they all assured that my phone numbers are portable. It's like a catch and I feel like that I was just fooled. The lady whose name is (b) (6) even said that she's sure I can still use our phone numbers from AT&T so she advised me to open up my lines so she can start the process. I had to purchase everything from AT&T and even paid off the supposed to be free phones. I spent a total of \$1200 upfront. And it's not an easy money especially this time of Pandemic. She said Verizon has better deals cos I am a nurse. So instead of helping me, I feel like they took advantage of me! As soon as I got the phones and SIM cards from Verizon, it's hard to get a hold of any of the CSRs. They even said that stores are closed and we have to do everything over the phone. She was trying to PORT my 2 important phone numbers and she's now saying it's not portable. Which is entirely different from what she was saying when she was selling!!! She gave me different phone numbers and website so I can do it myself but still no HELP! My numbers are still not portable! So after spending more than a thousand of dollars, do I still have to pay for reboxing fees of these phones I want to return? It's not my fault in the first place. I just updated my legal documents including our trust and living will also my bank information in the Philippines with approval to these phone numbers before any transactions... so I cannot afford to change my phone numbers like what she advise! I'd like to return these Verizon phones and SIM without paying anything and I want to make sure that that CSR gets a proper training! Cos this is so much HASSLE she caused me. Her name is (b) (6) and her phone number is (b) (6) She even misspelled my name in the account. Please contact me ASAP:

(b) (6)

Ticket: # 3967644 - Comcast problems

Date: 5/9/2020 7:19:53 AM

City/State/Zip: Holly, Michigan 48442

Company Complaining About: Comcast

Description

I have had Comcast for 14 years. I haven't had that many issues until covid 19 arose. Since December 2019 they have been changing my bill every month. Then they said I get a dVR on my box then next month I'm being charged for it, when they said it would be free. So every month I call nothing gets resolved, they just try to sell me a new package. Witch I've agreed to several times then they tell me my agreement is not valid. I've requested to speak to a supervisor several times. They say we will have a supervisor call you back after they give me another sales pitch. This is taking up so much of my time dealing with this company. For what being a loyal customer? For always paying my bill on time? They won't allow me to speak to a supervisor. They won't even put in my complaint. I have now waited by the phone for 4 days waiting for a supervisor to call. They won't!! I don't know what else to do?!

Ticket: # 3967668 - COVID-19

Date: 5/9/2020 8:57:58 AM

City/State/Zip: Akron, Ohio 44320

Company Complaining About: Sprint

Description

On or around April 15, I contacted Sprint to inform them I have not been working since the 9th of April and I could not pay my bill, so I was given an extension for the 12th of May. I contact by Chat and update of any change in my finances, so this is what one of what I was told. "\$650.92 will be paid by you on 05/23/2020. To cancel visit sprint.com at least one day before. By canceling or if it is unsuccessful you may forfeit eligibility for another payment arrangement. Full terms and conditions are available on sprint.com. Do you agree?" I can't promise that, because they will use it against me in the future. They did it in the past. If I work on the 11th, I would be able to pay them that much on/by that date. They care about their money now. After explaining the situation. If I start back to work, how will the employer call me? Sprint don't care.

Ticket: # 3967701 - Cell Phone service purchased through Verizon wireless sudden and ongoing very poor service

Date: 5/9/2020 9:55:13 AM

City/State/Zip: Middleburgh, New York 12122

Company Complaining About: Verizon Wireless

Description

I have used Verizon wireless for a few years. I live in Middleburgh NY 12122 and the Verizon service at that time until 2 months ago was excellent. Suddenly the reception during calls has been fading and dropping. I contacted Verizon several times in the last 2 months. around 4/7/20 they stated the problem was with my phone and I should use my insurance to have a new phone sent to me at the cost of \$149. My brand new phone had the same issues. I called Verizon back on 4/12/20 finally admitted that there is a problem and gave me a ticket number (b) (6). I called again on 4/14/20 to ask the status of the ticket number and Verizon said it is my phone set up and assisted me in troubleshooting my phone. The trouble shooting did not work and the Verizon rep stated that they cannot hear me due to my voice fading out. I called again about the ticket number and Verizon stated that "no status" was the message with that ticket number. I was then forced to purchase a Spectrum land phone.

I called Verizon on 5/8/20 asking the status of the ticket and the rep insisted that my set up was not working properly and proceeded to go through my phone remotely to check the set up. This Rep, Pierre, also stated that I was fading out and he would call me in an hour because the "set up" may take a little while to work. I used my phone during that hour and the those I called still couldn't hear me. In about an hour, I received a Tech coach text and I replied that The text coach said he would call me. Their reply was to call technical support again. I lost my job due to COVID19 and I am applying for jobs on line. I was selected for a job and scheduled for a telephone interview. I also asked many in my immediate area how their Verizon wireless phones are working and they are having the identical problem. Many have called Verizon to lodge a complaint with no resolution. Most people in my small town opted for Verizon wireless because it allowed quality calls and service. That ended two months ago. Many are laid off and/or in poor health and do not have money to purchase new service or new phones.

Many also are not having the ability to text while in the Village of Middleburgh.

Ticket: # 3967731 - bill

Date: 5/9/2020 10:33:29 AM

Ticket: # 3967733 - Suddenlink service failures, neglect of service, poor quality, lack of response

Date: 5/9/2020 10:46:19 AM

City/State/Zip: South Charleston, West Virginia 25309

Company Complaining About: Sudden Link

Description

I am a Suddenlink customer. I have tried to go in person to their store, which has been closed due to pandemic. I have been unable to reach suddenlink to work out a resolution despite 5 call attempts. Their schedule a call back feature automatically hangs up on you when you schedule this call back. We were forced to pay more money this past month when our internet service was slowed by suddenlink-

My wife is working from

Home so we had to pay this. We are also being charged for a rental router (for 10 years) that was Never provided - I would like refunded for the 8 years of fraudulent router rental and increased internet cost (20/month) as well as be provided internet that does timeout regularly and that is adequate speed and bandwidth for regular video conferencing (20.00 plus tax)

Ticket: # 3967741 - Billing and Customer Service

Date: 5/9/2020 10:59:06 AM

City/State/Zip: Maplewood, Minnesota 55119

Company Complaining About: Verizon Wireless

Description

Verizon Wireless has suspend my account in March 2020 for non-payment even though I had made payment right before the suspension. To have the line reinstated, the provider intended to charge me a reinstatement fee. I tried to rectify the issue with the company's representatives. But instead one of them would interrupt me all the time and argue with me. I asked that my account be closed completely from the date it was suspended. The representative would refuse to do that and added that I would still be responsible for the monthly charges even though the account was closed and not used. He would also choose an intimidation tactics by threatening me with all charges to come, including my equipment plan. When I asked to speak with the manager, the representative refused to connect me to one, stating that I would be given the same info by the manager as well. In April, I paid off completely my equipment plan so that Verizon does not use it as a leverage against me in the future. However, I still have numerous issues with my account. The most important one is that I am no longer a primary holder of the account according to the Verizon app and the website. Hence, I am unable to see my charges and make payments for them. Sometime in April, I tried to reach the customer representative by the phone again. After being on hold for more than 18 min, I gave up trying to fix this issue with the company itself. I do not find such practices on behalf of Verizon appropriate especially during this pandemic outbreak. But when you check its website, the company claims to be there for its customers. In practice, however, the reality is quite the opposite.

Ticket: # 3967743 - Phone company took money without authorization.

Date: 5/9/2020 11:00:37 AM

City/State/Zip: Detroit, Michigan 48215

Company Complaining About: Comcast

Description

I have an account with xfinity mobile for two cell phones. I called about a month ago to set up a payment arrangement for the bills because I'm unable to work at the moment due to the pandemic. The arrangement was for the 30th of May. I put money on my card to pay my rent and they went into my account on the 8th and took out \$302, despite there being a payment arrangement in place. I called the day before and spoke with a representative who advised me that there was a specific department that dealt with that and that he was going to have his supervisor call me back to go over refund since he was not available at the moment. I received no calls so I call back this morning and the customer service representative Annie told me it was past due and regardless of there being a payment arrangement in place, I still owed the money so I could not get it back.

Ticket: # 3967779 - My number is being spoofed

Date: 5/9/2020 11:46:24 AM

City/State/Zip: Maryville, Tennessee 37803

Description

Hello,

My name is (b) (6), for what it is worth I am filing a complaint because my number was spoofed on May 1st. I have gotten 26 'return' phone calls in the last hour. My business is closed from COVID and I am having calls forwarded from my business to my cell phone. This is ridiculous that it is NOT illegal when THIS specific caller is actually trying to scam people. Please do something about this.

Ticket: # 3967896 - Charged For Services Not Received

Company Complaining About: Spectrum

Description

The internet was hired for my son to do his homework and classes because of the pandemic that was the promotion that I agreed with the internet provider 60 days free with the installation included ,first month they do not stop the harassment of email calls saying that I they are going to collect for not paying the months is arrears,I spoke with many of them and none of them solves anything,they are going to investigate today , they disconnected the internet and if I do not pay the months is arrears they will not connect it , the worst thing is that my son cannot do his homework and I do not have the money to pay 3 months, 2 of which were free and the connection says that they record the calls in all I mention the promotion help me please I want to pay my month but just my payment was on May 19 \$34 dollars and cents now they are almost more than \$200 it is not fair it was error of them not mine thanks .

Ticket: # 3968052 - Terrible internet service

Date: 5/9/2020 5:13:22 PM

City/State/Zip: Sandy Springs, Georgia 30350

Company Complaining About: Comcast

Description

Consistent internet connection. Especially during the pandemic and having to work from home. The service has been terrible. There's been several days where I can't work! And in the climate now, the internet can't be the thing that makes me lose my job.

Ticket: # 3968085 - Internet issues with cox that never seem to get fixed

Date: 5/9/2020 6:17:47 PM

City/State/Zip: San Diego, California 92105

Company Complaining About: Cox

Description

I've been with cox communications for about 14 years now and I've always had some connection issues here and there that never were really a problem as they would fix the issue at hand as fast as possible but the last 2 years I've felt betrayed by their anti-consumer practices to first add data caps(which we didn't have before) but now I have unlimited data and pay for 150mbps download and 10mbps upload but these speeds I'm paying for are never reached always sitting at 60-90mbps down and 3-5 up. I am not getting what I've paid for ever. The cox customer support reps I talk to are usually pleasant but when talking to you sound as if they are reading off a script. Saying things like "there is an outage in your area" or "our techs are currently working on the issue" when in reality all they do is restart your modem and hope it works. Currently I am working from home, my kids are taking classes online however non of this is feasible as Cox's internet speeds are unreliable. Randomly shutting off, going from mediocre speeds to nothing, latency through the roof just for it to come back and do that multiple times. Support tries to throw buzz words at you thinking that you aren't tech savvy enough to understand what they are saying and try to BS you into thinking it's your fault instead of fixing the problem at hand. Since April 21st to today May 9th I've had problems that I've never had before, I've tried contacting support for help with no progress, thought to myself maybe it's on my end? Troubleshooted everything in my home but everything works 100%. I either suspect cox is throttling my internet for its own self interest or does not care about the problems their consumer is facing during a global health pandemic and chooses to ignore them. For that reason I've filed this complaint to the FCC.

Ticket: # 3968119 - Network service

Date: 5/9/2020 7:43:06 PM

City/State/Zip: El Dorado, Arkansas 71730

Company Complaining About: AT&T

Description

I live in Arkansas, but get my local channels out of Monroe, Louisiana. So I am not getting any of my local information on the news, it all comes from Louisiana. When I am getting updates on the covid19 pandemic, it comes from Louisiana. I am not getting any information from Arkansas. I do not think this is right. I pay for a service that is not helping me at all, there need to be some changes to this so we in lower Arkansas can get news pertaining to our state. I would appreciate some feed back from you!

Ticket: # 3968201 - ATT Violating FCC COVID-19 Pledge Extension

Date: 5/9/2020 11:36:14 PM

City/State/Zip: Fort Wayne, Indiana 46835

Company Complaining About: AT&T

Description

ATT says that they pledge to not terminate service for those who cannot pay due to COVID 19 through June 30. However, when inquiring about using this extension, they have ignored me through multiple platforms of communication. Since I cannot get confirmation from them that they will not terminate my service on May 22 or after, I am asking for the FCCs help in this matter. These attempts at contacting them are in addition to trying to communicate with them directly through their app.

Ticket: # 3968212 - Spectrum Internet Costing Me My Job

Date: 5/10/2020 12:51:29 AM

City/State/Zip: Los Angeles, California 90012

Company Complaining About: Spectrum

Description

I moved to a new apartment today. I called Spectrum 3 days prior to alert them of the move. The internet does not work and they told me a technician cannot come out until Wednesday. I am working from home a NEED Internet on Monday or I will lose my job. I spoke to a supervisor and they said there is absolutely no way they can escalate the request or get a technician out any sooner . I cannot go into my office due to COVID-19 and need Internet to do my job. I'm now paying for Internet that is not working and need this investigated.

Ticket: # 3968221 - Local access TV

Date: 5/10/2020 1:32:42 AM

City/State/Zip: North Haledon, New Jersey 07508

Description

Can you help NORTH HALEDON, HALEDON, PROSPECT PARK broadcast during COVID-19? We have programming, but, the studio at Manchester High School is closed.

As the Municipal Alliance Coordinator for Clifton and Wayne, I am well aware that

the isolation caused by COVID-19 can be extremely dangerous to the mental and physical health of our senior citizens. Especially those with only their TV to keep them company. Many haven't seen or heard another person in over 6 weeks.

We're reaching out to all New Jersey towns to find ways of connecting with seniors who haven't seen or heard another person for over 6 weeks. We're asking these towns to broadcast an exercise, craft or cooking demo or even encouraging messages from local business owners which we have offered to record at no charge.

We're contacting New Jersey towns to create and broadcast programming on their Channel 77 local station so that a senior citizen can turn off the news and tune in to their town. Messages from local business owners will give the feel of bringing Main St. home while an exercise class can help keep seniors active during COVID-19.

We are all aware that exercise can keep minds and bodies strong which is exactly what is needed during this time.

We're looking for COVID-19 heros and hope with your help we can reach all of New Jersey with either an encouraging message, exercise, cooking or crafting program, scenery or resource list.

Ticket: # 3968284 - DISH NETWORK

Date: 5/10/2020 9:47:54 AM

City/State/Zip: Wedgefield, South Carolina 29168

Company Complaining About: Dish Network

Description

I canceled DISH Network because they kept making errors on the bill and when we called in the representatives were too incompetent to resolve the issues. And, they would not stop trying to draft my accounts even when I told them too. This is the same problem that I am having now. They keep trying to do an automatic draft from a cash card for 400.00. The first time I called in the representative could not figure out what was going on. That was a waste of my time. The second time, today, the representative did figure it out, but they said there is no way that they can stop drafting the account and they will not accept payment arrangements on the cancellation fee of 400.00. During COVID-19, I am not working. I do not know what their problem is but I am about fed up.

Ticket: # 3968292 - ATT Access Plan**Date:** 5/10/2020 10:24:53 AM**City/State/Zip:** Kalamazoo, Michigan 49001**Company Complaining About:** AT&T

Description

I signed up for ATT's access plan, that should have been installed May 5 between 12-4pm. An agent came out but mentioned he need a line technician to come out to fix my cable lines which was rescheduled for May 9 between 12-4pm. No one ever showed up for my appointment and I've been unable to get service installed still due to the following six reasons that different agents from Tech and Customer Service:

- 1- COVID caused an agent shortage (despite my two scheduled appointments)
- 2- Facilities issues prevented the dispatch team from assigning an agent
- 3- My address was incorrect (despite a completed and correct profile and previous visit from ATT)
- 4- I may need to find a new service plan or provider because they cant give me service for some unknown error (despite a line tech never visiting my property)
- 5- They need to install a more expensive, fiber plan
- 6- The agent was late but was still supposed to arrive (despite never arriving)

I've now received a new appointment for May 14 between 8am-12pm but was sent a message that my install would be delayed indefinitely and to reach out to customer support for more info. In doing so, I got the same 6 responses from ATT with no straight answer about when or if I'll ever be able to receive a wifi install through them. My neighbor has complained about the same thing, being given a plan via the low income program but never actually given access to the services. It's a cycle of signing up, enrolling in services, never receiving equipment or service access and eventually having to cancel the contract and move on to another plan only to pay hundreds of dollars for a service we were promised with the same company.

Ticket: # 3968306 - Spectrum

Date: 5/10/2020 10:39:44 AM

City/State/Zip: Rochester, New York 14617

Company Complaining About: Spectrum

Description

I set up services February 29th of 2020 under the impression that I would get 3 months free. My balance on the account is still \$487 and after 12 phone calls to them trying to correct this issue, my balance has not be resolved and Spectrum shuts off my service once a week. I call them every time my service is shut off and they tell me they will fix it, but they never do. During a national pandemic, they are shutting off my internet service.

Ticket: # 3968325 - CELL SERVICE DISCONNECTED DURING COVID-19**Date:** 5/10/2020 11:25:43 AM**City/State/Zip:** Gurnee, Illinois 60031**Company Complaining About:** Comcast

Description

I had cell phone service with Xfinity Mobile.

I called the customer service number to ask that my automatic payment scheduled to run the next day be held or post-poned as I did not have money in my account to cover the payment. I do not have money in my account due to Financial strain caused by Covid-19. Even at such a desperate time, Xfinity Mobile refused to offer any kind of assistance; I asked to change the card on file, change the date the payment runs, post-pone the payment, schedule a payment for 10 days later, I asked for assistance in any one of these forms so I would not go overdrawn and suffer overdraft fees at a time when I already do not have enough money to feed my 3 small children. I reiterated my desperate situation and asked the payment please not process, I revoked my authority to debit my account and I was only told to go to the gas station or 7-11 to buy a pre-paid debit card to pay my bill; this is the only advice I was offered, to literally pull money out of thin air so I can change the card on file to a prepaid card. Unsure how else to stop Xfinity from taking the last \$40ish in my account that I needed to feed my kids, I asked that they just terminate my service. My service was immediately terminated. I have been unable to obtain new cell phone service due the security alert on my credit report being linked to the cell phone number that was disconnected by Xfinity. A family member offered to add a line of service for me, so 5 days later I am still without a phone and during an attempt to get a new line with a family member I was told we could not port over the cell number that I have had 10+ years because my service with Xfinity was disconnected due to non-payment, therefore the cell number would not be released, as a pin would need to be issued by Xfinity Mobile to release the number, but they only do that for current accounts. Prior to this billing cycle that I begged for relief, I was CURRENT! MY BILL WAS NOT PAST DUE, IT WAS DUE THE DAY AFTER I MADE THE PRO-ACTIVE CALL, and now I am being severely penalized. My family is 4 states away, I am in a shelter in place with 3 children, and no phone. My cell phone number that is being held hostage by Xfinity Mobile was ported IN to Xfinity Mobile, from ATT and has been my phone number for 10+ years and it the main point of contact for hospitals, doctors and therapists that work with my special needs toddler. I need this phone number back. I need cell service. How can a single mother who was current on her bill be without service and unable to start service with a new provider? This is not right!!

Ticket: # 3968341 - Another Rate increase

Date: 5/10/2020 11:59:58 AM

City/State/Zip: Carlisle, Pennsylvania 17013

Company Complaining About: Comcast

Description

Just when we are trying to get back on our feet after COVID-19,
Comcast just hit us with massive rate increase. Where in the HELL are you
people????????????????????????????????

Ticket: # 3968354 - Dish network

Date: 5/10/2020 12:15:10 PM

City/State/Zip: Fayetteville, Tennessee 37334

Company Complaining About: Dish Network

Description

We live in a rural area in TN and get news channels for huntsville, AL we get little to no information on what is going on in our state during this pandemic. My husband has to wait till he gets to work to find out what other people tell him or go on facebook and the news channels in tn don't update and put enough info on there. How do we get local TV channels from our state? we talked to dish network and they said the FCC controls that. During this pandemic we should know what is going on in our area! When the governor of TN issued a stay at home order we found out a day or so later.

[Ticket: # 3968360 - Rates and fees](#)

Date: 5/10/2020 12:30:08 PM

City/State/Zip: Haltom City, Texas 76117

Company Complaining About: AT&T

Description

I have AT&T for both Internet and cable with one box for one TV. My last bill for Internet and U300 Service before I changed it to Family rates was \$171.89 for one month. Ridiculous rates that cannot be justified. For equipment usage, their profit margin is high especially with the pandemic.

Ticket: # 3968387 - Mother's Day-COVID-19-Jehovah Scammer

Date: 5/10/2020 1:13:57 PM

City/State/Zip: Gainesville, Virginia 20155-4855

Company Complaining About: Wireless Caller

Description

Caller using spoof of local number 571-598-5586. (Recording attached)

Live voice, Foreign accent, difficult to understand. Called me on unlisted, no-not-call registered landline number. Was an appeal for money using COVID-19, Mother's Day and Jehovah. Gave a website, but I was unable to understand it. Directed me to call back on the number which was dialed (caller ID). Obviously some sort of scam, but it was unintelligible for much of it. Recording was left in my Comcast voicemail - 1:18 minutes in length.

Ticket: # 3968408 - pandemic issue

Date: 5/10/2020 2:09:46 PM

City/State/Zip: Broadview Heights, Ohio 44147

Company Complaining About: Cox

Description

Despite a pandemic and people needing access to UNLIMITED connectivity under data usage page it says I quote. "We've got you covered. Beginning March 16, 2020 through May 15, 2020 data overage charges will be paused. Customers with Unlimited or 500GB data add-on plans will receive credits for their add-on plan for two bills. During this time we have suspended sales of our data plans. We want to help make sure you have the resources you need to remain productive during the coronavirus work and school closures."

Ticket: # 3968421 - Equipment

Date: 5/10/2020 2:24:28 PM

City/State/Zip: Woodville, Virginia 22749

Company Complaining About: Verizon

Description

Am writing on behalf of a client who's is disabled. He is moving back to his house after having his leg amputated. There is no cell service and he want to have his landline reconnect. The phone company said they don't know when they can have a technician come out to reconnect the line. Just learned from my friend that a technician is going out to their house tomorrow to connect a landline they have. The phone company told me they can't send anyone due to Covid. This is a medical emergency. Reconnect the line ASAP and problem is solved.

Ticket: # 3968422 - T-Mobile Phone Service Shut off During Pandemic

Date: 5/10/2020 2:26:55 PM

City/State/Zip: Elkins Park, Pennsylvania 19027

Company Complaining About: T Mobile

Description

Ticket: # 3968464 - dangerous robo call

Date: 5/10/2020 3:16:21 PM

City/State/Zip: Auburn, California 95602

Company Complaining About: None

Description

I received three robo calls from: 707-463-5667 that informed me all three times that the corona virus was now fully contained and there was no longer any need to be concerned. This is a dangerous lie.

Ticket: # 3968500 - Consistent service outages by Suddenlink

Date: 5/10/2020 4:10:58 PM

City/State/Zip: Canyon, Texas 79015

Company Complaining About: Sudden Link

Description

We have consistently been losing internet service with our ISP, Suddenlink, for months. We have spent hundreds of dollars of our own money to purchase new modems to make sure the problem is not on our end with no luck. The outages happen daily between noon and 5 pm CST and will often occur every 5-10 minutes for 10 to 20 minutes at a time. My wife has had online college tests time out because of disconnections and I have had difficulty working from home during COVID due to outages. Customer service wait times are sometimes in excess of an hour to an hour and a half.

Suddenlink needs to improve their network, fix connection issues at the poll, improve tech support wait times, and fix reliability issues.

Ticket: # 3968597 - AT&T still turning off prepaid phones in global pandemic, keeping monthly customers on 60 day grace period- human/civil rights violations

Date: 5/10/2020 7:18:28 PM

City/State/Zip: Dallas, Texas 75205

Company Complaining About: AT&T

Description

AT&T has turned off my prepaid phone.

Again.

In a pandemic.

This corresponds to FCC Case (b) (6)

Forcing me to spend what little time I may have left if I catch a deadly covid case dealing with the victimization of their crimes.

I told you they lied in their response to you. A federal agency. And just as we have learned to expect in displays of this type of behavior, right in character, they again turned off my prepaid phone in a pandemic.

Where my city is on stay at home orders until at least June 15th.

Where there are no evictions allowed until July 25th and then there are 60 day periods through August 24th, with no chance of even starting an eviction until 60 days after, running through October 24th. So 60 days *after* October. Which would be December, and that may also be extended.

Where the ATT "offer" I didn't agree to, but was forced upon me, even states \$65 is in the account and the charges are \$15/month. While monthly customers have a 60 day grace period. And so I should have a \$50 credit.

Yet STILL...MONTHS...into the pandemic...where phones are not to be deactivated...AT&T is *terrorizing* US citizens turning their phones off in a deadly global health emergency.

Clearly the FCC's actions did nothing.

AT&T just discriminated against the poor and violated their human and civil rights *again*. A little over a month after dealing with the first FCC process.

Do not waste my time with ineffective deterrent bullshit. That is not what my tax dollars pay this agency to do.

What effective punitive actions and restitutions is the FCC going to take? And provide to me?

Such as starting with the responsible AT&T staff's immediate terminations. And sanctions stating they can never work in the public or customer oriented private sector again. While awaiting their trials, of course.

And if you all need to strengthen your powers during this pandemic, then do so. If this needs to be referred to the Department of Justice or any and all other agencies who can stop these crimes being committed- which is the role of these agencies- against Americans, then it is your job to refer it.

And if you even think of charging me for a "formal" complaint....

Lastly, what about the response, previously sent below? Including the other reply sent to the FCC prior to?

Adding today's second shut off and:

- Supposed to have \$65 (not even close to what they owe me) in my account that is being charged \$15/month and they still turned my phone off. In a pandemic.
- Endangered my life looking for wifi just to write and send this
- Wasting my time having to deal with this and terrorizing me when I might have 3-30 days to live if I catch a deadly covid case
- Cannot call 211 and 311 to get city covid assistance. Greatly endangering my life even further.
- charged me for 4 days I couldn't use my phone because they didn't notify me it was back on. So STOLE 4 days of service from me, meaning they also cut off my phone 4 days early. In a pandemic.

Prior email:

"Did you receive the below? What are the next steps?"

AT&T:

1. lied to a federal agency (you all, FCC)
2. kept my phone off in a pandemic for 18 days
3. then proceeded to charge me, when they are still not charging their other monthly customers
4. then charged me for 4 days of having the phone turned on that they didn't notify me about and I didn't use because I had no idea I could, yet I am still being charged for it
5. tried to gaslight me and make me think they are doing me some kind of special favor with their "courtesies"
6. what was "offered" can't even begin to touch the damages they are liable for
7. discriminated against one sector of their customer base- and in a pandemic no less- violating every human and civil right there is
8. terrorized their vulnerable customer base
9. Etc.

What is going to be done about this?"

Ticket: # 3968619 - internet and telephone (land line)

Date: 5/10/2020 7:53:10 PM

City/State/Zip: Edison, New Jersey 08817

Company Complaining About: Optimum

Description

PLEASE PLEASE PLEASE. this is my third time filing a complaint. Our internet and hphone constantly go down including my neighbors. We contacted optimum. we get no results we pay high prices for NO SERVICE. please act on our behalf. We cannot stay home and work from home during the pandemic.

Ticket: # 3968672 - Signals

Date: 5/10/2020 10:28:42 PM

City/State/Zip: Tallmadge, Ohio 44278

Company Complaining About: AT&T

Description

I receive stations over the air now because I can't afford cable now. WBNX Channel 55.3 in Cleveland was coming in very good till the 1st of March when all the covid started now even if rescanned doesn't come in any longer. Have sent several emails to them and still no signal over the air can be picked up.

Ticket: # 3968677 - Bait and Switch Tactics

Date: 5/10/2020 10:48:52 PM

City/State/Zip: Sunland, California 91041

Company Complaining About: Frontier Communications

Description

On April 23rd I filled a bait and switch tactic complaint against Frontier Communications and they still have not resolved the issue. This is my original complaint Ticket No. 3943280. The Covid-19 Virus quarantine has greatly affected my family and for this company to take advantage of a low-income senior is appalling.

Ticket: # 3968697 - Cox Internet Disconnected in Las Vegas Nevada

Date: 5/11/2020 12:17:46 AM

City/State/Zip: Las Vegas, Nevada 89141

Company Complaining About: Cox

Description

Cox disconnected my internet without warrant for 2 days and would not send a technician to my house because I was using my own router. My bill was paid on time and I have never been overdue. Once I was able to get a technician to my house they said that my house was disconnected on the street somehow. They also charged me for the technician visit. The issue was on their side but they made me pay. They also made me jump through a lot of hoops to get it working again. I had to leave my house multiple times during the pandemic to go to stores. Attached are my chat transcripts.

Ticket: # 3968702 - cablevision optimum cablecard fails with tivo

Date: 5/11/2020 12:29:06 AM

City/State/Zip: Syosset, New York 11791

Company Complaining About: Optimum

Description

cable card repeatedly fails with tivo though tivo box works fine. again ineed a replacement cablecard. >65 years old. during covid cant leave home to get new card at cablevision. they wont make any arrangements to ship a new one, even at my expense. this is unfair to disabled/seniors, esp during covid.

Ticket: # 3968705 - 1GB plan with 1TB Data Cap

Date: 5/11/2020 1:04:09 AM

City/State/Zip: Dublin, California 94568

Company Complaining About: Comcast

Description

Comcast offer a 1GB plan in my area. There is no competition for high-speed internet so I have no choice but to go with Comcast. Internet, given my job, is much like a utility aka an essential service I use.

Apparently the 1GB plan is subject to the same 1TB Data Cap as all other speeds below 1GB. For context, a user could go past that cap in three hours.

I don't mind paying more for the internet. In fact, I do pay more as I have the 1GB plan. What I do mind is the obvious monopoly and the price gouging. It's time for the government to get involved and regulate the situation. Given COVID-19 all but proving networks can support the enhanced usage and the fair use act preventing abusers, this seems like a no-brainer.

I am under no illusions though one man's complaint will move mountains; however, I would like a positive resolution to my cap situation and, equally importantly, I'd like to see some government action as COVID-19 winds down.

Thank you!

Ticket: # 3968715 - Internet throttled to 50 MB down and 5 MB up despite paying for Gigabit Internet

Date: 5/11/2020 1:12:09 AM

City/State/Zip: Leander, Texas 78641

Company Complaining About: Sudden Link

Description

Suddenlink is charging me over \$300 per month for cable internet speeds up to 1000 MB or "Gigabit" speeds and up to 50 MB upload. I am actually getting less than 10% of either speed for a premium price. My hardware is all updated and up to spec with firmware, drivers, and updates so my ISP is to blame. I would like a credit or someone to come repair this issue NOW. This is not the first time and given circumstances surrounding the pandemic- it is ridiculous to be financially taken advantage of by this company.

Ticket: # 3968739 - Line suspended through the Covid 19

Date: 5/11/2020 5:32:05 AM

City/State/Zip: Baltimore Maryland, Maryland 21202

Company Complaining About: Verizon Wireless

Description

I have been adversely affected by the Covid 19 CORONAVIRUS PANDEMIC. My goal is to pay down by bill. I don't like not being able to pay this. I am asking Verizon wireless to please work with me. So I can communicate with my students. I am asking them to work with me please I really would appreciate it

I have talked to my congressman about laws that need to be put in place....Law that will protect customers from being being sold defective device, deceptive and manipulative billing practices which are very unethical and my terrible data plan where the controlled network lowers the signal. I am creating a paper trail so if I have to file a lawsuit there is an paper trail and file with the FCC.

I am really considering an 15 million dollar federal class action lawsuit against Verizon for deception, manipulation and unethical bill practices. Selling devices that are defection. I would like to know who had my device before I did and why they turned it in. I am still being billed for lines i haven't used. When will that credit appear on my bill.

My goal is to file this lawsuit in US District Court when it opens. Subpoena every phone call made to customer service financial services and technical services and subpoena Shannon who is a Senior Manager in Executive management dept. My goal is to also subpoena the President/CEO of Verizon Communications to court to hear the case.

I will also get notarized statements from former past and current Verizon wireless. Who have experienced the noted problems above. My goal will be to also have some come to court and testify about their experience with Verizon Wireless.

Ticket: # 3968765 - SPECTRUM BUSINESS SERVICES BILLING

Date: 5/11/2020 7:56:51 AM

City/State/Zip: Thonotosassa, Florida 33592

Company Complaining About: Spectrum

Description

THERE WAS NO PROOF THAT WE DID NOT USE SERVICE OR REQUEST HOLD ON ACCOUNT. CREDIT FOR 45 DAYS OF TV & RELATED SERVICES SHOULD BE ISSUED ON ACCT

Ticket: # 3968766 - Billing issue from my phone company At&t

Date: 5/11/2020 8:01:26 AM

City/State/Zip: Washington, District Of Columbia 20019

Company Complaining About: AT&T

Description

I started a plan with AT&T in the summer. Just a one line cellular service. My first bill was about \$200 dollars which is a little high for one person but it was my first bill so I figured it was surcharges. Since then after my bill has been \$400 dollars or more which is ridiculous. I didn't know why I was being charged so much but need my phone for communication to others. About 3 months of paying extremely high bills with no additional services added, I was in search for answers. I contacted customers service several times it wasn't until I visited a AT&T store for 3 hours than an additional number was noticed on my account. A phone number I never had it wasn't connected to a phone. They were just charging me. I believe I was only credited a few dollars and no late fees which still would accrue on my bill monthly. This January 2020 I added my son. That first bill was how much my bill normally is \$400+. Crazy... But I figured it couldn't possibly get higher. We'll during Covid-19 month April my billing statement notice said my bill was \$474 still too high if you ask me. I then noticed it said my next bill would be \$ 790. I can not afford to pay these high bills any longer and would like my money back. This is unfair. I just have to regular cellular plans and pay on two phone. Can you please help me with this problem.

Thank you,

Ticket: # 3968859 - Century Link Billing Complaint**Date:** 5/11/2020 9:42:38 AM**City/State/Zip:** Minneapolis, Minnesota 55416**Company Complaining About:** Centurylink

Description

I need help. Today Century Link sent me a bill with a \$15 late fee, despite its alleged promise in the KEEP AMERICANS CONNECTED PLEDGE. That pledge states it will waive late fees during this period. But Century Link again plays the trickster, promising one thing and charging its customers another. Does this mean that each of the 20 million Americans who are unemployed must call its broadband provider to force it to keep its pledge? If so, that should be part of the statement at <https://www.fcc.gov/companies-pledging-keep-americans-connected-during-pandemic-go-above-and-beyond-call>

Add a statement that Century Link took the pledge but did not keep it, that the FCC does not have the authority to implement or enforce the pledge, so that each individual must call Century Link to enforce it.

Do you have any help for me?

Company Complaining About: Sprint

Description

I can't pay my cell bill due to loss of job from COVID 19 and they already suspended my service twice and now tomorrow turning off my service completely. I need my phones on to get job callbacks. They restricted my phones for over a month so, I can't call out or receive a phone calls. They business practice during pandemic is so disturbing and not a compassionate company.

Ticket: # 3969048 - 18% Price increase during emergency declaration

Date: 5/11/2020 10:53:19 AM

City/State/Zip: Porter, Texas 77365

Company Complaining About: Sudden Link

Description

April-May bill increased 18% to \$118.94 with no change to the billing items or services provided. This increase was implemented through a line called "Special discount". In the most recent bill the "Special discount" line reduced from \$40-\$22.50, an increase to my bill of 18%. The reason stated by Suddenlink is that was the end of a promotion period and when asked about Suddenlink's considerations for the emergency declarations and ongoing COVID-19 pandemic it as stated that the system does this automatically and is unable to postpone changes due to the current emergency. I was told that I can call back in June and attempt to get a new bundling package that may/may not reduce my bill.

Ticket: # 3969211 - Re: [FCC Complaints] Re: Slow Internet

Date: 5/11/2020 11:43:59 AM

City/State/Zip: Santaquin, Utah 84655

Company Complaining About: Centracom

Description

This is a follow-up to your previous request (b) (6) "Slow Internet"

Hi There

Our internet continues to be slow. Their claim that our computers are out of date are false. To test this we took our brand new laptop with basically nothing on it to run daily speed tests and still had the same results. Centracom is literally costing us money everyday as far as our business is concerned. We make several videos every month to promote our business. With a normal speed videos would take us approximately 20 minutes to make. With the current speed this process can take up to 4-5 hours . This service has been this way since we started using their service 2 years ago. (pre COVID-19) If you check their call center you can see how many times we have called in to have them fix our service. These calls to their service center can take anywhere from 30-60 minutes or longer. This costs us time away from our normal business activities and then they tell us that they can send a tech out for \$20. Why should we have to pay a tech for the service that we are supposed to already be receiving ? Our email literally takes minutes to upload and to process orders takes much longer.

When getting onto the Santaquin facebook page

https://www.facebook.com/pg/CentraComInteractive/reviews/?ref=page_internal

([https://urldefense.proofpoint.com/v2/url?u=https-](https://urldefense.proofpoint.com/v2/url?u=https-3A__www.facebook.com_pg_CentraComInteractive_reviews_-3Fref-3Dpage-5Finternal&d=DwMFaQ&c=y0h0omCe0jAUGr4gAQ02Fw&r=DE9ErmM0NKrpVuFyWcoKOo3fwwIGdV4oHG44glYf3vY&m=S_3Q9qk_JgPGw_xrC6xdGpMwgXvE9hA02IPYvKh55JM&s=m60sRaZ8D9F75fYKS0NePokj_qC_Jn3xMmNIB8qPcb8&e=)

[3A__www.facebook.com_pg_CentraComInteractive_reviews_-3Fref-3Dpage-](https://urldefense.proofpoint.com/v2/url?u=https-3A__www.facebook.com_pg_CentraComInteractive_reviews_-3Fref-3Dpage-5Finternal&d=DwMFaQ&c=y0h0omCe0jAUGr4gAQ02Fw&r=DE9ErmM0NKrpVuFyWcoKOo3fwwIGdV4oHG44glYf3vY&m=S_3Q9qk_JgPGw_xrC6xdGpMwgXvE9hA02IPYvKh55JM&s=m60sRaZ8D9F75fYKS0NePokj_qC_Jn3xMmNIB8qPcb8&e=)

[5Finternal&d=DwMFaQ&c=y0h0omCe0jAUGr4gAQ02Fw&r=DE9ErmM0NKrpVuFyWcoKOo3fwwIGdV4oHG44glYf3vY&m=S_3Q9qk_JgPGw_xrC6xdGpMwgXvE9hA02IPYvKh55JM&s=m60sRaZ8D9F75fYKS0NePokj_qC_Jn3xMmNIB8qPcb8&e=](https://urldefense.proofpoint.com/v2/url?u=https-3A__www.facebook.com_pg_CentraComInteractive_reviews_-3Fref-3Dpage-5Finternal&d=DwMFaQ&c=y0h0omCe0jAUGr4gAQ02Fw&r=DE9ErmM0NKrpVuFyWcoKOo3fwwIGdV4oHG44glYf3vY&m=S_3Q9qk_JgPGw_xrC6xdGpMwgXvE9hA02IPYvKh55JM&s=m60sRaZ8D9F75fYKS0NePokj_qC_Jn3xMmNIB8qPcb8&e=)) there are several others that have also experienced bad service with Centracom. Some on this page are suggesting that the newer parts of town have better service, If this is the case then I would suggest that they treat all customers with the same service and maybe they need to redo all the wiring on the older parts of town also. We are paying Centracom for the highest speed that they have available (250 mps) and are receiving basically anywhere from 10mps-50mps on an average day. We also pay them for boosters and a special modem. Please open up an FCC investigation on this company and you will find that we are not the only ones being scammed. I have attached almost 30 days of speed tests and I will continue to monitor it as we may have a claim for monetary damages. Please let us know if there is anything else that you need from us. As far as Centracoms claim about our older devices..this is False.

Thank You,

Ticket: # 3969302 - Dominion Power scam calls

Date: 5/11/2020 12:15:47 PM

City/State/Zip: Henrico, Virginia 23233

Company Complaining About: Dominion Power

Description

Recently, I have received a call from a company identifying themselves and "Dominion Power" who will disconnect my energy service unless I pay a bill immediately. They left a voicemail about this telling me to call back an 866 number . First of all, Dominion Power is no longer called Dominion Power but Dominion Energy of Virginia and I called Dominion Energy and there were no delinquent accounts. The number that the scammers asked me to call is 866-370-3749. When I called this number a teleprompter connected me to a person who did not identify themselves as Dominion Power or anything else. When I questioned who this was , they hung up. There have been a low of scam calls like this since the COVID pandemic and I wanted to notify the FCC to investigate this .

Ticket: # 3969340 - Cellular Provider Discount

Date: 5/11/2020 12:24:56 PM

City/State/Zip: Brooklyn, Wisconsin 53521

Description

I am a Federal Employee and for months I have been requesting my discount that is allowed through the Federal Telecommunication Act of 1996. I work for the Department of Veterans Affairs and I was informed to provide this information to my cellular provider which is Spectrum Communications (Charter Communications) in order to receive my discount on my services. I provided a hard copy of this information to the local Spectrum office and I also spoke with someone online with Spectrum as well providing them the information through the FCC. They stated that they will not comply with the Federal Telecommunication Act of 1996 and that they will not follow-up with me on this further. I asked that this be sent up farther in their organization to be reviewed but they declined to do so. Since this is what I was directed by my human resources to reference as well as proof of my Federal employment, I do not know what to do at this point but to submit this complaint. Especially now that I am using more telework and mobile communications during this Pandemic. Please follow-up with me on this investigation.

[Ticket: # 3969430 - Suddenlink shut off during pandemic for non payment after stating they would not shut people off](#)

Company Complaining About: Sudden Link

Description

Suddenlink shut our services off after stating they wouldn't during the pandemic due to non payment. They shut us off last month and are still billing us. Almost \$600 to restart service. This is a horribly run business that should be shut down.

Ticket: # 3969459 - Internet outage

Date: 5/11/2020 12:53:30 PM

City/State/Zip: Smyrna, Tennessee 37179

Company Complaining About: AT&T

Description

I wrote last week and advised that our line had been cut by construction. I was given a week before they said they would work on it because of Covid. That is bull because for the last 10 years since AT&T has cut jobs, that has been the stock date to attempt to get service fixed. In my last house over 10 years they always gave us a date of 1 to 2 weeks out and could never get the service fixed. We finally went with another company. Here we are stuck with AT&T. When the Presidents office called me after you sent them my complaint, Kelli advised that the wait was because of storms. I've talked to techs that said this is not true, but the scheduling practices are lame. Kelli had an I dont care attitude and said they would monitor our repair. What good does that do? She said she couldn't help me.

Ticket: # 3969527 - Safelink Availability Complaint

Date: 5/11/2020 1:16:42 PM

City/State/Zip: Chattanooga, Tennessee 37402

Company Complaining About: Safelink Wireless

Description

I'm looking for help. I hope you can direct me to a solution.

I've had my SafeLink account (phone number (b) (6)) a long time.

If I remember correctly, I've had it since fall 2013!

Is it possible to get my phone number turned back on, hopefully without any fees!?

My SafeLink account information says "canceled" and something about a "pending NLAD update"!

SafeLink is an "iffy" company to depend on any way. And they're shrugging off the blame for my account being canceled. They say it's not them!

Dealing with their customer service, especially the automated system, is extremely frustrating to say the least!

But at least during this difficult time I wasn't having to worry about paying for phone service!

As it was, I had to call them in April to deal with another situation as well!

(Then again, maybe it's related!)

I had hoped that call would be a final solution. But it wasn't!

I told them how despicable I thought it was to turn off someone's phone during the pandemic!

So, a couple of days ago when it was off again, I felt I had to pay \$17.71 for the service to be turned on.

I figured it was better than nothing. Considering, I really wanted to save money and Straight Talk (Which I just found out is like a sister to SafeLink and not much better!) costs me basically twice as much for the service.

After I got it turned back on I called and requested they refund my money since I'm on full food stamps and unemployed!

They agreed.

But now I'm waiting for the refund which supposedly can take up to 30 days to get back to my account!

And I had to sign up for a new number with Straight Talk. This means that I'm out \$38 and change + \$34.17? (Which Straight Talk said they will refund the last fee that was a mistake that didn't really match my phone!) .

Mostly, I would say the main problem is that my SafeLink service is to a phone that's on tons of paperwork such as my job applications and food stamps info!!! So, when that dawned on me, I had what I thought was a brilliant idea. I would just port my number that I'd had for years! But I was told that in order to port my number my SafeLink account had to be active! You can imagine how frustrated I was to hear that after having all this trouble!

Any help you can give is greatly appreciated!

(b) (6) ... I am currently unemployed and looking for work!

Ticket: # 3969544 - Internet & TV services.

Date: 5/11/2020 1:21:19 PM

City/State/Zip: Phoenix, Arizona 85053

Company Complaining About: Cox

Description

Cox will be shutting our services today and to my understanding they signed an agreement where they will not be keeping neither our TV and Internet services on after tonight due to non payment during this pandemic. I would like this to go to Cox's corporate office. Their chat service turned our services back on Friday and told us to call in on Monday to get our services extended out to the next Friday and said they would work with us on it, but will not do it.

Ticket: # 3969569 - trying to close my T-Mobile account due to COVID

Date: 5/11/2020 1:28:36 PM

City/State/Zip: Florida City, Florida 33034

Company Complaining About: T Mobile

Description

T-Mobile wont let me close my account due to i did not remember what my PIN code was. On all occasion when I call to discontinue service they request a PIN code that I don't remember. The service says all we can do is take a payment. Therefore the monthly charges keep adding up. Can seem to get a live person to ack on my request.

Description

I received this text: "Your phone number (b) (6) was shortlisted for the IMF COVID-19 relief fund. Visit <https://bit.ly/35RfIL2> to apply to receive funds." The message supposedly came from (844) 950-3149. I have blocked the sending number.

Ticket: # 3969615 - robocalls from spoofed numbers

Date: 5/11/2020 1:41:34 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the beginning of 2020, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are marketing calls. All of the numbers are presumably spoofed, and presumably they are all robocalls. The frequency of the calls has varied. For most of January and early February, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped.

Many of the spoofed numbers were registered for Greenville, MS. However, I have also received calls from Coffeetown, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula and Winona. For a brief period, calls came in from out of state as well. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. The call I am reporting in this complaint was identified as coming from Crystal Springs, MS.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, who ignore telecommunications laws, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 3969642 - Utility Pedestal

Date: 5/11/2020 1:47:56 PM

City/State/Zip: Colorado Springs, Colorado 80927

Company Complaining About: Centurylink

Description

We have a utility pedestal in our yard. CenturyLink has been accessing the pedestal multiple times a week for several weeks. Rather than fixing the issue they are doing patch work repairs resulting in additional trips to the pedestal in our yard. We do not use CenturyLink and this service is for an unknown neighbor. We are currently working at home due to COVID-19. Each time they want to access the yard they ring the door bell for us to bring our dog inside. This is disrupting our work. They are inconsiderate as they have not completed a long term repair in all these weeks. We are concerned about the significant trips to our yard when we go back to work in the office. We are given no notice for our dog who likes to be outside. I tried contacting them but it is very time consuming to get someone if you don't have an account number.

Ticket: # 3969707 - Spectrum complaint**Date:** 5/11/2020 2:01:28 PM**City/State/Zip:** Jamestown, New York 14701**Company Complaining About:** Spectrum

Description

I have a few issues. To start, I want to dispute the recent increase of \$15.89 to my bill from March to April, despite a message on my March invoice reading that my discount would continue for an additional 12 months.

I contacted Spectrum on 5/11/20 and after waiting on hold for 25 minutes I spoke to a Customer Service agent named, Kaila. Regarding the above, she advised that is not what it meant; that while I would still be getting "some" of the discount, the promotional discount was set to be removed beginning with my April invoice, hence the increase. Well that's NOT how it sounds to a customer! I suggest detailing the changes in customer's terms to avoid misinformation or miscommunication.

I further inquired as the price of my two services (cable and internet) is extremely inflated as it was! Kaila advised me that my TV Select contained an additional channel (IFC) that was charging me an extra \$12.75 A MONTH. I inquired where they obtained the authorization of such – Kaila said she couldn't tell me that information but that it was added on 7/30/2019. Again this is unbeknownst to me and was NEVER authorized and is NOT listed on any of my monthly billing statements! That sounds very suspicious and fraudulent to me. I had NO idea I even had that channel and have never even watched it.

Very nice girl and all, but NOT being able to answer questions OR get the answers to such questions as such is quite concerning.

I am seeking a refund to these fraudulent charges that have allegedly (per Kaila) been charged to my account since July 2019!

I further inquired with Kaila regarding a recent outage in my area where I received notification that if customers called into Spectrum, a credit was being issued for the Jamestown NY and surrounding area outage. Well – I TRIED to call Spectrum a few times for this and could NEVER get through to an agent due to hold times! She said that was too bad but that she could not issue anything! Terrible!

I have called Spectrum in the past and inquired of lower priced options and was told I have NONE! That I could not even upgrade to add the phone and get a better bundled price – that I would continue to pay what I was paying and that the phone service of \$20 would simply be added. I am looking to LOWER my bill, not increase it. I previously had the phone for emergency purposes, but later dropped it to LOWER my outrageous bill. Also, I have went into the local storefront and was apprised of upcoming changes that would allow for a cloud service where I could forgo the DVR service charges I currently pay. The Spectrum employee I spoke with said she would follow up with me and NEVER DID. Great customer experience – NOT.

Additionally, the Internet service is atrocious. Especially since the pandemic! I understand I have the lowest speed or whatever but it seems very bogged down over the last couple of months and

struggling for a decent connection. Not surprising though, since Spectrum is giving FREE internet to folks which I would think bogs down the service connections!

I want explanations of the above, refund of fraudulent charges and a better package that is MORE affordable and a bill that contains an explanation of charges. Not sure HOW Spectrum could bill for something that is not even broken down within the billing details. My last two bills are attached.

Thank you,

(b) (6)

Ticket: # 3969713 - Carrier refuses to port a phone number

Date: 5/11/2020 2:02:42 PM

City/State/Zip: Farmer City, Illinois 61842

Company Complaining About: Simple Mobile, 9700 Nw 112th Ave, Miami, FL 33178

Description

I switched to Simple Mobile on December 5, 2019 (Account (b) (6)) and ported my phone number (b) (6) to their monthly, prepaid service. I have been making monthly payments of approx \$61.27 for their "Truly Unlimited" plan which they advertise as unlimited minutes and data and 16GB of hotspot usage (26GB including their recently announced COVID-19 10GB bonus). My most recent payment was charged to my credit card on May 3, 2020 (Order ID (b) (6)), which should have covered phone/data service until the beginning of June.

In the evening of May 7, 2020 I noticed the internet connection on my phone was down. I tried calling my voicemail, but was unable to place a call. In the morning of May 8, 2020 I attempted to place a call again, but there was no connection. I checked my online account with Simple Mobile to find out my phone had "Invalid Status" and could not be used.

Since I did not have access to a working phone, I decided to contact their online support. The representative informed me my service had been disconnected because of "excessive roaming voice calls." I checked the call history on my phone to verify that the most recent voice call made from my phone took place on April 8, 2020 (exactly one month prior to the disconnection). I use my phone mostly for checking e-mail and browsing the web and rarely place or receive calls, so the claim of excessive voice calls of any kind sounded completely implausible. Furthermore, I had been confined to my house because of the lockdown since March 20, 2020. Thus, I knew there was no possibility of any "roaming" - in fact, I had not traveled since January 5, 2020.

I explained it to the agent and asked him to provide me the details of my alleged "voice calls" as well as my "roaming" activity, but he steadfastly refused. I then asked him to reconnect my service. He demanded two additional monthly payments to get my service restored - one to get a hold lifted and one to activate my phone.

As I was not going to pay for the same service thrice, I requested a phone number porting authorization, so I could move to a different provider. Again, the agent refused, claiming I had to pay them two additional monthly fees whether I used their services or not as there was a "valuation" on my account and it could not be ported.

Simple Mobile disconnected my service because of "roaming voice calls" that not only did not happen, but could not have happened. They refuse to provide any details or evidence of such calls. They had never contacted me by text or e-mail to alert me while these offending "roaming voice calls" were allegedly taking place. They are holding my phone number hostage and demand ransom to release it - a payment of approximately \$120 for services I do not want as I have no intention of ever dealing with Simple Mobile again. Lastly, they owe me approximately \$50 for services I have already paid for, but which they have failed to provide on what they misleadingly advertise as their Truly Unlimited plan.

Ticket: # 3969714 - COVID-19 Stay Connected Inquiry

Date: 5/11/2020 2:02:49 PM

City/State/Zip: Cromwell, Indiana 46732

Company Complaining About: Centurylink

Description

Hello good morning, I was wondering if I qualify for the opportunity to stay connected till June 30 and what I would need to do . With this virus going around their been no work. My bill is due may 13 but I don't have the funds and my card is automatically and not sure how to take it off so I don't charge me overdraft when it tries to take off my card. So if you can help me out on what I need to do to have that opportunity please write back thank you God bless and have a nice day

Ticket: # 3969794 - Citizens Band Radio Interference from Prior Violator

Date: 5/11/2020 2:24:34 PM

City/State/Zip: Long Beach, California 90808

Description

Local operator jamming channel 27.165, using profane language, talking to no one, rambling on and on broadcasting prerecorded personal info (phone numbers, addresses, etc), playing music, etc. None of the local operators can move to other channels as we can't hear each other. Since the Covid 19 outbreak, he jams the channel for up to 12 hours a day, He is a prior violator with letters from your office one attached below. Please help all of us other operators with this complaint. I could probably get another dozen signatures if needed. He runs illegal power of several hundred watts and constantly plays TV shows, telephone calls he makes to others, talks to no one claiming he is doing a Radio Show. I have multiple hand written logs showing date and times of said violations if needed. PLEASE help us with this man's flaunting of FCC rules, saying "The FCC won't do S*** to me!" This man is a threat to society. Please help in this matter.

"Letter From CEO of AT&T Communications

I don't think any of us have ever experienced a situation quite like this one. The coronavirus (COVID-19) pandemic has affected virtually everyone around the world, upended the engines of commerce, closed schools and some businesses, and disrupted the rhythms of our daily lives.

Connectivity is always essential to our customers – doctors and nurses, first responders, governments, banks, grocery stores, pharmacies and others delivering vital services. It's even more critical during a public health crisis that's challenging everyone. In fact, as a critical infrastructure provider, AT&T believes we have a civic duty to step up and keep our customers and communities connected.

I wanted to share some of the ways the people of AT&T are working to respond. We will keep this site updated with new developments as they happen.

Our path forward

One of AT&T's core values is to Be There when people need us. And we can't do that if our employees are sick. A simple, effective way to minimize risk is to maximize social distance. So last Friday, we implemented a sweeping work-from-home policy. If AT&T employees can work from home, they will.

We greatly appreciate our customers' patience as we manage through these challenging times. In these situations, we work to prioritize and serve critical needs. And because we anticipate higher call volumes, we recommend, when your need isn't critical and when possible, reaching out through att.com or our myAT&T app for customer support, additional resources or to access our online store.

Staying safe on the front lines

At the same time, we have implemented new policies and guidelines to help protect our nonmanagement and management employees who are on the front line serving customers or who can't do their jobs from home. We're working to keep up with demand for hand sanitizer and other supplies and are sourcing these from multiple vendors.

In retail, our goal is to limit employees' exposure while still upholding our responsibility to meet the essential needs of customers, FirstNet subscribers and the public safety community, who are counting on us.

So, today we'll begin closing 40% of our company-owned retail stores nationwide. Closures will continue while we concentrate our resources on select stores to meet the immediate service needs of our customers, including first responders and health care providers.

At stores that do remain open, we're adjusting store hours to 11 a.m. to 7 p.m. local time, and we're closing all stores on Sundays.

Staffing in stores that remain open will adhere to social distancing guidelines, while still being able to serve customers.

Our call center capacity has declined because of the leave accommodations we have made for employees who are parents of children whose schools have closed and our employees who are at higher risk for the coronavirus. As a result of reduced capacity in our call centers, we're taking the following steps:

Using new IVR (Interactive Voice Response) messaging that encourages customers to take advantage of our self-help online tools at att.com.

Adjusting call center staffing levels and shifts to ensure proper social distancing. This may result in longer hold times for service.

And just like in retail, we're taking actions to prioritize service issues - optimizing the handling of calls, whether inbound or outbound, and balancing capacity across all functions.

Our field technicians play a critical role in installing and repairing our services for millions of businesses and consumers. While their mission is essential to keep our customers connected, we also recognize that there is a balance between providing service and keeping our technicians safe. To accomplish that balance, we're providing them with new policies and procedures, so they feel comfortable serving customers at their businesses and in their homes, while delivering on our commitment to service. Our first priority is repair of the network and the services we provide to customers. Our second priority is installing broadband for health care providers, first responders, government and other essential business and service providers. We will work other inst

Ticket: # 3969883 - Loss of Intrernet

Date: 5/11/2020 2:52:29 PM

City/State/Zip: Grass Valley, California 95949

Company Complaining About: Sudden Link

Description

Internet is unreliable and providers refuses to invest in necessary equipment to provide reliable internet service.

It's really difficult to work from home, have zoom and webex meetings dusing the covid crisis. I pay for reliable internet broadband so i can work from home; tv video is impixelated, crappy service there too.

Provider has no local office open to exchange equipment. They guaranteed that if i drive 55 miles one way to exchange equiptment the office would be open. They were not - I drove 110 miles because these guys do not keep up with whats happening locally. - they shut down the office that serves most of the customers that service their area so they dont have to face them.

This is BS.

Ticket: # 3969906 - DMA for my area code 01237

Date: 5/11/2020 2:57:20 PM

City/State/Zip: New Ashford, Massachusetts 01237

Company Complaining About: AT&T

Description

I live in western MA in the small town of New Ashford, I've reached out to senators Warren and, Markey several times regarding the available local news coverage in our area or; more appropriately lack thereof. My zip code is 01237 and we've been placed into the Albany NY media market or DMA. What this means we hear New York news that includes Andrew Cuomo with NY City news , vs Massachusetts news and briefings from our republican governor Charlie Baker. We don't have cable service and must rely on satellite providers that refuse to provide any local news for our area. Direct TV/AT&T claim it's against the law and they could be fined by the FCC should they allow us local MA news feeds vs that of the FCC directed DMA coverage. Given the COVID 19 outbreak and new policies and procedures being enacted by the state of Massachusetts on a routine basis it's extremely difficult to stay informed on current polices, requirements, and procedures as well as being compliant with these directives.

I've reached out to the FCC who refused to help basically stating this is not negotiable, the DMA coverage assignments were created by Neilson years ago. It's troubling a ratings agency makes decisions on DMA coverage for satellite providers. What is the rational or logic for forcing Massachusetts's residents to be locked into coverage from another state? Can the FCC reconsider this DMA assignment and apply consideration for geographic location when making these assignments.

Ticket: # 3969945 - Cable/internet Service

Date: 5/11/2020 3:10:01 PM

City/State/Zip: St. Albans, West Virginia 25177

Company Complaining About: Sudden Link

Description

Extremely poor and Inadequate support to resolving phone/cable/internet outages to area homes. Two outages of 5-days each were experienced within 20 days, thus handicapping many people needing phone (sick or elderly), multiple folks working from home, and all generally inconvenienced during coronavirus quarantine days. Needs more staff and organized regional control center.

Ticket: # 3970169 - Broken promise and bogus pricing

Date: 5/11/2020 4:25:04 PM

City/State/Zip: Syosset, New York 11791-6326

Company Complaining About: Optimum

Description

Cablevision had broken it's pledge under "KEEP AMERICANS CONNECTED." They disconnected me for non-payment despite the COVID19 pandemic. When I filed a complaint with the NYS Public Service Commission, they reversed the money I had paid, but did not reverse the restoral fees or the late fees that was assessed on my account. It's my understanding that these companies pledged to do this, but it was not done. Additionally, in November, they removed channels from my package, but didn't reduce my price at all.

Ticket: # 3970195 - Potential Predatory Company

Date: 5/11/2020 4:32:04 PM

City/State/Zip: Sunnyside, New York 11104

Description

Call offering services not desired or possible for me (I don't own property and haven't listed property as indicated by the caller). I believe this is a predatory company targeting property owners who are struggling due to COVID-19.

Ticket: # 3970213 - Poor customer service and trying to push me aside

Date: 5/11/2020 4:38:20 PM

City/State/Zip: Morton Grove, Illinois 60053

Company Complaining About: Comcast

Description

I have been a customer of yours for many, many years, from two different homes. I am so incredibly disgusted and dissatisfied with your organization and the service you are failing to provide. This morning, my children were attending an E-Learning class and I was working from home. Our internet service was interrupted several times and my children missed class. I call to check on service and it takes 10 minutes to get passed the machine. I can't log in to chat because the internet is out. When I finally am able to log in and speak to someone (in Asia, I assume), all anyone can offer me \$20 credit. I have paid you several thousands of dollars over the years and you laugh at me with a \$20 credit. Furthermore, I rented a movie, for my children, last month and spoke to an Xfinity customer service rep about using a Military Appreciation coupon (I am a Veteran) for the rental. The coupon was never applied and I am being charged the full amount. During this pandemic, I never asked for my bill to be lowered, for you to do anything extra or special for me. I have made my payments on time, all the time, and this is how you serve me. You cannot imagine how frustrated I am having to deal with people that don't take me seriously or realize the mistakes that your company and it's employees have made. It's going to take more than \$20 for you to silence me. I want the coupon for the movie applied, and I want further compensation for the poor service and lack of care that has been presented to me by so many of your employees. I will be making formal complaints to the BBB and other agencies. How can you possible explain yourselves?

Ticket: # 3970314 - Unfair billing

Date: 5/11/2020 5:09:47 PM

City/State/Zip: Philadelphia, Pennsylvania 19140

Company Complaining About: Comcast

Description

Consumer needs the internet because of the COVID 19 virus.

Consumer pays his past due amount.

They don't credit his account for the full payment.

Their service is going in and out.

Consumer has a student that needs the internet for schooling purposes.

Consumer went in and paid what was believed to be the balance owed, they are telling she owes an additional \$45.

Consumer had paid a total of \$595.

They took more money than she owed to them.

Consumer is suspicious that they are "slamming" her account.

CTR412-phone

Ticket: # 3970340 - Phone Billing During Covid 19 (Pledge to the FCC)

Date: 5/11/2020 5:17:34 PM

City/State/Zip: Bakersfield, California 93309

Company Complaining About: Verizon Wireless

Description

Consumer is stating that he has Verizon as his provider. Consumer is stating that his billing is never consistent. Consumer stated that he calls each month to verify the amount that he owes, they even send him text messages. Consumer is stating that they are charging him late fees. Consumer stated that he received a text message stating that he would not get a late fee because of the pledge. They already added in a late fee to his bill. Consumer is stating that his bill should be around \$68.00, he received a message stating that the bill was \$73.00. Resolution: Consumer wants if they are saying that if they are not going to charge the late fee then they should not charge the late fee
CTR 406-phone

Ticket: # 3970349 - Spectrum Internet - Not providing speeds I am paying for

Date: 5/11/2020 5:20:18 PM

City/State/Zip: Los Angeles, California 90042

Company Complaining About: Spectrum

Description

I am a customer and subscribe to Spectrum Internet's 200mb/10mb plan. For several months now I have not been getting the speeds I am paying for. I typically get 20-50mbps download and 1mbps or less upload. a Spectrum tech came to my house and replacing wiring but the probably persists. The tech said Spectrum is not equipped to deal with the Covid19 influx and does not have the appropriate number of nodes to handle traffic or promised speeds.

Ticket: # 3970414 - False News Reporting NBC

Date: 5/11/2020 5:54:40 PM

City/State/Zip: Ocala, FL 34482, Florida 34482

Description

NBC News Chuck Todd regularly reports false and misleading information disguised as news. This is dangerous and harms the country by creating division and providing false and misleading information on our gov officials and health information during a pandemic.

Ticket: # 3970438 - Still being charged for NBA league pass

Date: 5/11/2020 6:05:28 PM

City/State/Zip: Las Vegas, Nevada 89141

Company Complaining About: Cox

Description

Hello, I'm a Cox cable customer. My bill is \$250 a month for cable/internet and a BIG part of that is the NBA League Pass I purchased. However, with the NBA canceled I am not receiving any refunds and am still being charged monthly for a service that Cox cable is not providing. My bill is very high and I am unable to work due to the COVID crisis, but Cox will not work with me to reduce my bill as they claim I am locked into a contract. I am attaching my correspondence with them.

Ticket: # 3970449 - difficult and delayed cancellation request answered with unfair early termination fees

Date: 5/11/2020 6:10:41 PM

City/State/Zip: Auburn, California 95603

Company Complaining About: 8x8, Inc.

Description

I have been a customer with 8x8 for over 12 years. I have been considering terminating my service with 8x8 for sometime as their service has deteriorated over the years. Getting tech support has been difficult as they often do not respond to support tickets. Recently due to the Covid19 shutdown I have found it necessary to consolidate my business costs and chose to cancel my 8x8 service. I logged into my account to cancel my service and I found that there was no easy way to request cancellation. I called and was told that I could not speak to a CSA and must submit a cancellation request online. After submitting several replies and numerous phone calls without response I finally solicited a response that was answered with an email asking me to answer several questions outlining why I wanted to cancel. After sending my response I again experienced a long delay waiting for a response. I again complained and was told that they were waiting for my response which they finally admitted that they had already received. Finally I was told that my cancellation required a 30 day notification period that would end on May 8 2020 and that my service would be canceled on that day. On May 11th I contacted the company to find out why my service still had not been cancelled. They again told me that they were waiting for my response to the cancellation conformation email. I informed that I had never received such an email. After I asked that a supervisor take over and respond I got a response from Krupa that my case manager would send me the confirmation email. Minutes later I received an email informing and apologizing for the delay and informing that the cancellation had now been rescheduled for May 13 and that my account would also now be subject to early termination fees of \$622.16 since the account was automatically renewed in Jan 2020. I was told several years ago when my company became an 8x8 reseller that our account was converted to month to month and so this account was converted back and renewed without my permission. Despite all of this I cannot understand a company that cannot waive early termination fees that are simply punitive in nature during this time when most companies are trying to help small business survive rather than hurt them even more than they are already hurt by the Covid-19 shutdown. 8x8 does not seem to have much heart or business ethics.

Ticket: # 3970480 - poor internet service with continuous complaining far too long

Date: 5/11/2020 6:34:00 PM

City/State/Zip: Panama City, Florida 32401

Company Complaining About: Comcast

Description

Slow internet service getting worse since November 2019 - Extremely slow. New equipment in Jan. 2020, was advised to upgrade to resolve problem which was not resolved, only increased my monthly bill. New equipment again at beginning of April 2020. Tech to home 05/08/2020 & 04/30/2020. Have called several times throughout. Effects my employment because I work remotely (- since prior to COVID-19.)

I did not click the link, but I can only imagine the lies it spreads. This is irresponsible, offensive, and completely inappropriate. The people sending this type of unwanted messaging to the American public should be prosecuted.

Ticket: # 3970593 - Suddenlink Service is Paid In Full, the deactivated modem remotely due to a billing problem and now refuse to restore service despite being paid

Date: 5/11/2020 7:51:32 PM

City/State/Zip: Truckee, California 96161

Company Complaining About: Sudden Link

Description

I have been a Suddenlink customer for over 10 years with no payment problems. Unfortunately, COVID 19 claimed the life of my father, whose bank account was being used to autopay for the service every money, when the bank froze his accounts. I contacted Suddenlink customer service multiple times but they never answered their phones. The local office was closed because of Corona virus. They finally deactivated the modem remotely before I could get anyone to answer their customer service numbers. I finally managed to reach a customer service representative to pay the outstanding bill using my personal credit card, and they committed to reactive the modem within 24 hours. After 36 hours the modem still was not reactivated. I called customer service again, and waited on hold for over 1.6 hours with no one answering the 800 number. I tried again the next day, and the person said that they could no reactivate the modem because I no longer had an account with Suddenlink, despite having paid in full and restored by service and the past due bill. I requested they reactivate the account as it was in good standing, but they said they could not do that and I had to contact the account verification team. I called them, but they were not open until the following Monday. I called the account verification team on that Monday, and they told me that I was not allowed to pay my bill by credit card, even though Suddenlink did that 3 days before, and that I had to contact my bank, have my credit card payment reversed, and then go down to my local Suddenlink office and pay the bill by check. I told them that my local office was closed permanently by Covid safety and would not be open anytime soon, and they said I then had to mail a check in for the payment and then they could talk further with me. I said, that is crazy, the bill is already paid in full, and perhaps it might be better that I find another internet service provider who could better treat me as a customer. They said that was an option for me, but they were the only internet service provider in my area. I said that is a monopolistic abuse of their privileges as the only internet service provider in our area. They said the choice was mine as to whether I wanted to be a customer, but as of this time, I did not have a contract with them.

I then called AT&T but they said they can not provide service, so I am now stuck with only Suddenlink. This is bad. So I called back Suddenlink to create a new service account. They were happy to create a new service account and charged me \$117 for service for the next month. I explained I already had the equipment and everything in place. They said to start new service, they needed to send out a technician, but they have no technicians available because of corona virus. I explained that I already had service in place that somehow got turned off and my account canceled by accident after I had paid my outstanding bill in full, and that all they needed to do was reactivate my modem and we should be good. They explained that after taking even more money from me for services this month going forward, they could not activate my modem because they had changed their internal software and had no ability to do that. I said, how could you deactivate a modem, but not be able to reactivate it. They said they were sorry, and would try to reach out to the local service team to see if they could reactive it. I said that would be fine and have them call me. I heard from no one. I

later got an e-mail that they had scheduled a technician to perform a service call in 2 weeks when I told them that noone would be at the property to meet them. Ugh!!!!

Really!!! I am seriously, this is my choice for internet services in the United States of America. They bill in advance for services they don't/cant deliver deliver for weeks? They don't hire enough people to answer their phones? They don't have systems in place that allows them to provide services for their customers? They cancel contracts and accounts despite those accounts being paid in full? For all this, I still pay more and more money and get nothing and I have no alternative choice as competition to turn to for internet services?

I paid my past due amount and account was in good standing, they canceled account, then asked me to reverse making payment to make the account in good standing, then repay the account by mail after they accepted payment, then canceled my account, then created a new account and then just reactivated the old account, charged me for another 1 month of service and now can not deliver that service for 2 weeks.

Ticket: # 3970643 - Raising customer fees by 30% during a pandemic (!)

Date: 5/11/2020 9:02:05 PM

City/State/Zip: Los Angeles, California 90068

Company Complaining About: Spectrum

Description

When I initiated service about a year ago at the rate of \$49.99/month, Spectrum led me to believe that I'd be able to extend my rate beyond the initial year. Now that the year is up, however, they're raising my rates by 30% to \$64.99, and they're refusing to discount them any lower than that. My latest bill also warns me that "To avoid a late fee, the BALANCE must be paid by the DUE DATE." These are unconscionably sleazy business practices for a company that's pledged to "keep America connected."

Ticket: # 3970748 - AT&T Billing

Date: 5/11/2020 11:22:11 PM

City/State/Zip: Tulsa, Oklahoma 74132

Company Complaining About: AT&T

Description

During COVID AT&T sent an email stating they would not charge for data, voice or text overages through May 13th. I received my bill it's consistently 100 and change. They charged me \$260.15. I'd contacted them last week to make sure I would not be charged for any overage. They have corrected a portion of the error after a second call today. I'll have to contact them a 3rd time to get it fully corrected.

Description

Sprint has notified us that during COVID 19, we are supposed to have unlimited hotspot. Unfortunately while speaking to another representative last week regarding the situation, I was informed that once you use the high speed hotspot, you then have to use the low speed hotspot. I do believe that there is suppose to be unlimited hotspot because of the information that was told to me. I believe Sprint is withholding the unlimited hotspot from us. I shared with Sprint that the only reason that I utilized my hotspot more than usual was as a result of the faulty software issue which locked my cell phone last week. I had to utilize the hotspot to attempt to download the icons that did not upload onto my cellphone. There were constant messages about percentages used for hotspot when there should not have been any messages. We are in a middle of a crisis, how is Sprint helping there customers while displaying lack of concern towards the customer?

In addition, we are paying \$183 monthly for devices that are not properly working. When we are in a place where there are no open WiFi's to use, our cellular data is suppose to kick in. We have turned our cellular button on and select the LTE/VOLTE to on, but still at times have no service. It is like our cellphones have to run off of WiFi solely, when we are paying for unlimited dada us have. The service is horrible! If you do not pay attention to Sprint, they will add unauthorized charges onto your account. This was done to the account at least three times. I had to contact Sprint tine after time after time to request that the charges regarding unauthorized insurance charges for a total of four lines be removed. We are requesting to get out of the phone contract with Sprint.

Ticket: # 3970774 - Internet service

Date: 5/12/2020 12:16:28 AM

City/State/Zip: Anderson Island, Washington 98303

Company Complaining About: Centurylink

Description

On April 25, 2020, I signed up with CenturyLink for internet service at my new house. On May 1, 2020, I received a notice saying that my service installation had been delayed. Since that notice, I have called many times to get some idea of when my service will be turned on. Today, I was informed that nothing has occurred to get my service started. Meanwhile, I am desperately trying to figure how to work at home during COVID 19 without internet service. If I had had proper communication from Centurylink, I would have arranged to buy a hotspot. I have no idea what is going on, why they can't install my service. It sounds like they are waiting for someone to move to assign me a internet line. I cannot wait for that to happen. Why aren't they laying adequate line for this area. They appear to be the only service provider on this island.

Ticket: # 3970785 - Intentionally misleading the public--ie LYING on the part of CBS during "60 Minutes"

Date: 5/12/2020 12:50:36 AM

City/State/Zip: Bethel, Ohio 45106

Description

I saw an interview with Mike Pompeo on ABC in which he said he agreed with intelligence reports that the COVID-19 virus was man made in China. It was a bit confusing, but later I saw a CBS 60 minutes segment about that interview in which CBS flat out misconstrued Pompeo's words to the point the made it seem he he did NOT agree with the intelligence reports. CBS --in the way they cut the clips,made it look like Pompeo said the opposite of what I had heard him say earlier. They lied. I think you should pay attention to "dis-information" that is spread over the airways. I would ask for a review of their license.

Ticket: # 3970842 - Medicare call scam

Date: 5/12/2020 7:08:25 AM

City/State/Zip: Friendswood, Texas 77546

Company Complaining About: Us Medicare Health Records Office

Description

Someone pretending to be from Medicare scammed us into giving our Medicare number saying that they are updating all the senior's Medicare benefit to include coronavirus coverage. They asked for Medicare number, name as it appears on the card, date of birth, height, weight, primary doctor's name and clinic. They said they are doing it over the phone than mailing because mail is slow due to pandemic. They ask if high-risk individual with diabetes, etc. They sounded so convincing even gave her name Ashley Miller.

Ticket: # 3970992 - Verizon Fios Incorrectly Billing for Services Not Received

City/State/Zip: Clifton, New Jersey 07013

Company Complaining About: Verizon

Description

Verizon Fios is charging me monthly for services I do not receive. Verizon Fios has been and continues to charge me \$7.89 per month for Regional Sports Network Fee at a time when the sports it is supposed to cover are not available due to COVID-19.

Ticket: # 3971032 - price increase on internet

Date: 5/12/2020 10:07:17 AM

City/State/Zip: Paterson, New Jersey 07501

Company Complaining About: Optimum

Description

I paid \$289 dollars for my cable bill because they shut my internet down on April 7th 2020, while my son was doing homework. I was forced to pay the money because I was working from home and my son had to do his homework, they said they wouldnt turn it back on unless I paid this amount of \$289.00. I also requested to receive the Covid 19 -price freeze, for stranded households and they didnt provide me with the service, stating it was there choice , if they would honor my request. After Five hours of waiting I paid the \$289.00 .This is May and now they are charging me an additional \$389.00 for the month of May, currently .I need them to give me a affordable price for internet service, or for free. I am not able to change internet services because my apartment building is under contract with this company.

Ticket: # 3971099 - Cox Communications Service Interrupted/COVID-19

Date: 5/12/2020 10:35:05 AM

City/State/Zip: Santa Barbara, California 93110

Company Complaining About: Cox

Description

She is calling about Cox Communications.

She has internet service only.

Cox Communications has turned off her internet service.

She has called Cox on 03/31/2020 to inform them she could not pay her bill.

Cox agreed to not cut service off, but Cox turned service off on 05/11/2020 between 8-9 pm.

This is her way of communicating with her job, family and doctors.

Ticket: # 3971160 - Regional Sports Fee

Date: 5/12/2020 11:04:19 AM

City/State/Zip: Collegeville, Pennsylvania 19426

Company Complaining About: Comcast

Description

Comcast is charging every cable tv consumer \$8.75/month for a regional sports fee. This fee should be waived during the pandemic since there are no sports to watch. I contacted them to remove this service from my account but they said they can't.

Ticket: # 3971203 - Choices in TV Viewing

Date: 5/12/2020 11:20:07 AM

City/State/Zip: Oyster Bay, New York 11771

Company Complaining About: Optimum

Description

The 'Rise Up New York' concert to raise funds for The Robin Hood Foundation (relief effort for pandemic) pre-empted viewing on every NY network station including cable channels. Communist nations use this propaganda driven programming. A free and open media includes viewing choices. Be careful not to allow the insidious dimensions of communism to take hold under the guise of a worthy cause.

Ticket: # 3971235 - AT&T Mobility Covid Response**Date:** 5/12/2020 11:31:33 AM**City/State/Zip:** Orlando, Florida 32808**Company Complaining About:** AT&T

Description

I have searched the internet to get conclusive information regarding AT&T Mobility Covid 19 consumer response. I have been a consumer of AT&T mobility for over 10 years, and have 10 wireless accounts. Me and my family have been impacted economically by the covid 19 outbreak. When I look online I notice the provider is committing to not disconnecting service of consumers until June 30. However, when I try to establish this pay arrangement online or over the phone with a AT&T representative they don't have the capability to establish this arrangement. I understand this virus is no fault of AT&T or anyone for that matter, I was just hoping to see something streamlined that the company is doing for their existing consumers, especially those loyal paying customers over the past decade.

Ticket: # 3971307 - NEXTIVA COMPLAINT**Date:** 5/12/2020 11:57:51 AM**City/State/Zip:** East Haven, Connecticut 06512**Company Complaining About:** Nextiva

Description

As I'm sure you are familiar, SERVPRO is a 24/7 Emergency Services Provider. Our company, like many others, is considered to be an essential business during this unprecedented time of the COVID-19 pandemic. Being an essential business, one who provides emergency services nonetheless, means we cannot shut down – no matter what. Amidst this pandemic we have transitioned to most of our staff working remotely, which means that now, more than ever, VOIP communication is the core of our business. We simply cannot afford to run into any service issues during this time.

Over the past years with Nextiva as our provider, we have run into consistent service issues. It is incredibly difficult to reach customer care at Nextiva outside of normal business hours. Because we have high call volumes at all points during the day, not just business hours, we have been forced to find solutions for ourselves. Our SERVPRO staff has had to troubleshoot, diagnose, and rectify Nextiva service issues internally, constantly. We were forced to this solution simply because it was easier than attempting to get help from Nextiva.

Now, with the bulk of our staff working from home, these service issues cannot be easily solved by us. However, our service issues do not only consist of trouble getting in touch with customer service; we have faced continued issues with the Nextiva app not working for employees, dropping calls, not dialing out, crashing in the middle of calls, etc. These are not minor issues. We are constantly dealing with them. These issues directly affect our livelihood as a business as well as our customer's access to emergency services.

We no longer wish to continue services with Nextiva. In the past, we had attempted to end our relationship with Nextiva due to service issues. We were quickly made aware by Nextiva that we were automatically renewed an additional 3 years in our contract without explicitly agreeing. Nextiva also informed us that to terminate this agreement would result in an outrageously high cancellation fee. Moreover, Nextiva refused to recognize our service issues with them as legitimate as they had no formal record of these issues (perhaps because we would have to wait on hold for extended periods of time when attempting to reach customer care).

During the pandemic, we need a reliable VOIP provider, we cannot continue to deal with these service issues. We are requesting that we are either released from our agreement with Nextiva without the fee or, at the very least, the FCC investigate the issues we've faced having Nextiva as our provider. Though we are a "large" SERVPRO Franchise, in the grand scheme, we are truly only a small, locally owned business. If we've experienced such issues being a fairly small company, we can only imagine what issues other Nextiva customers are facing.

We hope to be released immediately from our agreement with Nextiva with a full waiver of the early termination fee due to repeated service issues. The issues I've outlined here only seem to scratch the surface of the service issues we've faced over the years. In fact, these issues have been so prevalent in our company, nearly every member of my staff is prepared to produce a written statement

regarding the various issues they've personally experienced with Nextiva while working at SERVPRO.

I hope that the FCC may be able to provide our company with some reprieve in this matter so we can continue business operations as normal. We are tired of having to create work arounds and makeshift solutions to address Nextiva's shortcomings. If you need any additional information from me or would like for me to send over the written statements as I previously mentioned, please just let me know. My contact information is below.

Ticket: # 3971408 - Spectrum Cable Rate Increase During Pandemic**Date:** 5/12/2020 12:30:09 PM**City/State/Zip:** Cincinnati, Ohio 45244**Company Complaining About:** Spectrum

Description

On March 25th Spectrum Cable demanded a \$15.00 per month increase on internet usage. In an attempt to contact them, their hold times were exceeding 1 to 2 hours. During the hold, the call disconnected. On 5/12, I finally reached someone in customer service whom stated rate increases are permitted. Since I am set up for auto billing, I ended up paying for the increase without consent. I also performed a check on the internet service which was 60% less than the 200Mb/s they were supposed to be providing. The answer from Spectrum is that they can not guarantee speeds.

Ticket: # 3971413 - Service/COVID-19

Date: 5/12/2020 12:31:53 PM

City/State/Zip: Hermitage, Tennessee 37076

Company Complaining About: Comcast

Description

Consumer states that since the 05/02/2020 he has experienced no service for the past ten days consumer has been calling multiple times and they do not want to talk to him any longer. Consumer phone number was tagging an outage in the area and the call won't connect anymore. The whole past week he was told that the service was going to be up every day with a different hour. Consumer wants his service to be fix immediately. Consumer wants a credit into his account for the ten days that he was experiencing this outage. Consumer is working from home and this is affecting with his employee. Also, he was told that the FCC send a pledge out that nobody should be with no service and (b) (6) has been with no service for the past ten days. This is unacceptable consumer was charge for the entire month and consumer service won't speak to him.

Ticket: # 3971489 - Problems with Frontier Communications**Date:** 5/12/2020 12:58:24 PM**City/State/Zip:** Hanover, West Virginia 24839**Company Complaining About:** Frontier Communications

Description

We were behind on the phone bill. Because of that Frontier took away our long distance, caller id and voice mail. We were paying just enough to keep local service. We got a bill for \$181.15 which was the entire past due amount and was due by 5/8/20. I paid \$182.00 by phone on 05/04/20. The next day I called to see when they would restore our other services because before if we paid the entire past due amount, our other services would be restored the next day. I was told that there was a balance of \$43.41 due by 5/21/20. Then she said that we would have to pay the next two consecutive bills on time before they would consider restoring our other services. Since Frontier signed that Pledge during this Covid 19 I don't understand. My husband has to have a lung biopsy and we need to keep in touch with his doctors. We do not have a cell. We need our long distance service.

Sent letter of complaint to President of Frontier and complained to my state's Governor Jim Justice.

Ticket: # 3971492 - Service COVID-19

Date: 5/12/2020 12:59:41 PM

City/State/Zip: Las Vegas, Nevada 89147

Company Complaining About: Cox

Description

Consumer has a bundle service with COX. Consumer states that he has been out of TV service since the last week consumer has called many times to get his service fix but since COX tagged his location as outage, they are not answering his phone calls. Consumer states that on the 21st of this month the billing cycle ends they will charge him for the entire month when he has not had the entire month with service. Consumer needs his services to be working properly during this pandemic.

ctr408-phone

Ticket: # 3971583 - Talking to a Human Being

Date: 5/12/2020 1:24:49 PM

City/State/Zip: Richmond, Virginia 23221

Company Complaining About: Comcast

Description

I am unable to speak to a human being when I call Comcast. They make it difficult to find their phone number. Then, once you're on the phone, and prompt the system to connect you to a representative, they make every effort to Not connect you with a human, including circular prompts that take you back to the menu you started from. If you're persistent, they just hang up on you. This is absolutely inappropriate. In a time where millions of people are struggling through a pandemic and massive financial uncertainty, this should not be acceptable, **especially when you pay at a minimum \$80 a month for JUST internet service****. Comcast and Verizon have a near-complete monopoly. They should not be able to control access to something as vital as the internet, which is absolutely necessary to conduct nearly everything one does from day-to-day, including trying to find a job in a pandemic and economic crash.

Current services with AT&T

Mobile

U-Verse TV & Internet

Digital Life (security system)

To Whom it May Concern;

I would like to formally file a complaint on the service I have had to endure with AT&T representatives, also with in regards to some charges I have been disputing.

The handling of all this started with your representatives starting with the initial sale of the item. The representatives are after one thing and that is selling and acquiring the quote of sales they have to meet. I have dealt with a lot of other issues with AT&T on all your services, something happened a few years back AT&T lost the customer service they use to provide. And now we the customers have to pay the price for all the issues.

I need a response back from an AT&T Service Manager as soon as possible. I need a final answer to my issue, before I seek legal assistance from my attorney. I feel AT&T is profiting from customers like me who entrust you to take care of us, but yet we the customers are not important enough.

Let me start with the main issue on my mobile service;

Back on July 12, 2018, I went into a retail store and upgraded a device from an iPhone 6 Plus to iPhone X on line 361-425-6264. Please keep in mind this line is the line I had available to upgrade one of my devices, for which I used this upgrade for my line (b) (6) Then on/or about the 26th of July I went into the retail store and I was going to return the device, when my daughter decided to

keep the device iPhone X. We then swapped sims card and I stayed with her iPhone 7 Plus phone and she stayed with the iPhone X.

In or about the 26th of September, my daughter wanted to get the new iPhone XS MAX. She went on line and called and did a trade in from the iPhone X to the XS MAX phone. When this trade in took place AT&T added the new device iPhone XS MAX to line ending 5541. Which left the contract to iPhone X on line (b) (6) still active. We received the new device in or about October 4th 2018. The iPhone X was sent back to AT&T before October 18th 2018. I am unable to get a tracking number from USPS(it's too far back), but due to USPS not being able to trace that far back I might ran into some difficulties finding the tracking number. I did receive an email from AT&T on the 29th of October stating the following;

Trade-in Reference Number: (b) (6)
Dear RICARDO, (which the name is incorrect)

Great news! We have received and inspected the APPL A1901 iPhone X 256GB - OTH that you sent. Your AT&T promotional card in the amount of \$540 is currently on its way, and you should receive it within approximately three weeks.

If you have any questions, please feel free to visit our Request Help resources available here.

Thank you for your participation,

AT&T Trade-in Program Support Team

Well, I never received the \$540 promotional card and the installments were never removed from line 361-425-6264. I have been getting charged for this device since September 2018, reason I just caught this was because I went in on March 27, 2020. To purchase my son a phone and got the 11 Pro, at that point I was going to use line 361-425-6264 to upgrade knowing I should have that line available. When the rep at local retail told me otherwise, I explained to her I should only have 3 devices on contract and she stated no. I could not stay at the retail store long due to the COVID19 pandemic limiting to many of us in one place, and decided I would call when getting home. I started calling when I left the store at 6:30pm and I did not hang up with AT&T until 11:30pm and still did not get the issue resolved, she told me everything would be good just try to look for tracking number and call back. I tried the following day (again waiting forever), and explained I could not find tracking number from USPS. I did a couple of chats on line (also took forever) and all reps I dealt with assured me it was taken care of and there would not be any issues also insured that all notes were taken, and I would not need to repeat myself when I would call in again. Here I am 17 days later, I have been repeating and explaining over and over again with every representative and supervisor telling me different results and no one resolving the issue.

3-31-20 @ 8:23pm spoke to Nathanaly chat id (b) (6) - assured I would not have to repeat myself and transferred me to a supervisor, and guess what I had to repeat myself.

04-03-20 spoke to a supervisor by the name of Shelia she was very rude, said she isn't going to give me my money back this was a mistake done in 2018 and there was nothing she was going to do about it and basically left it like that, I will admit I was already frustrated with all of this crap and was cursing. I hung up the phone because I obviously was not getting any where with this rude lady.

On April the 7th spoke to Robert G. and he sounded very helpful, but obviously was not. I once again explained everything to him. He created a case on my promotional card for line 5541 and for line 6264 and gave me a case number and even emailed me, stating my case has been submitted with expected resolution date on April 10th 2020. And that I would be notified via email with the resolution of my case. I am still waiting for email.

On that same day my daughters Iphone XS MAX turns off by itself and wont turn back on at all. So she tries going on line to tech support and tries to get assistance on fixing the phone. (please keep in mind she takes really good care of her phones so she can trade it in when new one comes available). They could not do anything they would have to see it to repair it. Well phone is out of warranty already so I tell her to do an insurance claim on the phone for I have the family insurance on all phones. So now guess what, she calls in and well nope "you don't have insurance on this phone" they tell her. I am upset again; I call again and have to deal with unprofessional people at AT&T. I tell them I should have had the family insurance since the day I bought my sons phone (prior to the new phone on 3-27-20). They say no it was never switched over to the family and now that phone is not covered.

On April 8th I call and speak to Gian explained about the insurance issue and he said no problem I will take care of this for you. I asked him can you back date the insurance and credit me the difference because it was supposed to be cheaper than me paying individually for each line. Gian says, no problem (there is a chat for this conversation) I have taken care of it and back dated this for you, and that I would not have any problems doing my insurance claim.

I go and research my emails and received this email regarding my insurance plans dated October 2019

(b) (6),

We are pleased to announce that your AT&T Mobile Protection Pack will soon become AT&T Protect Advantage for 1.1 With AT&T Protect Advantage, there are more benefits than ever before.

The program changes will be effective October 22, 2019. Your monthly charge will increase from \$11.99 to \$15.00 per mobile number enrolled, and there will be new deductible tiers. See the deductible table below or go to phoneclaim.com/att to see the deductible amount for your device.

Here's a summary of the new benefits:

So, I go back to make a claim on Asurion and resubmit my claim and then I get an email stating it was denied.

April 13th, I chat online with Sebastian who then transfers me to Santiago (supervisor) and another show down with reps and supervisors telling different policies of AT&T.

Santiago starts to look into everything and I explain once again the whole situation and he says "well they have sent you your promotional reward of \$540.0

Ticket: # 3971621 - Suddenlink issues

Date: 5/12/2020 1:38:33 PM

City/State/Zip: Truckee, California 96161

Company Complaining About: Sudden Link

Description

This will be the second time turning in a complaint. I received a call from a manager based on the first complaint, but that individual has not followed up as he said he would and the service has become worse since the call.

We now have no cable service, which their technical cant resolve because they can't identify the equipment they installed. The internet service has been intermittent starting at 0900 each day and does not return to viable service until close to 1800 each day. I have called technical support twice since and each time they tell me there is no outage in the area, they can't identify the router, and they want to send a tech out. We have had techs to the house multiple times and they say there is nothing to fix. This is proven by the fact that we have service in the middle of the night. I have asked for a supervisor or manager to call each time, and as of now, I have yet to get a call.

Suddenlink would like to say this situation is due to the Covid Pandemic, but research on our account will show the service issues predate the outbreak. I have attempted to resolve this issue with them and they have failed to follow-up as promised and the service has actually degraded since the first complaint. I have asked for a supervisor to call me each time I called, but a return call does not happen.

Ticket: # 3971622 - Suddenlink Communications

Date: 5/12/2020 1:38:36 PM

City/State/Zip: Charleston, West Virginia 25314

Company Complaining About: Sudden Link

Description

Suddenlink has been a no-show for five (potentially six as of today) service appointments. I have called them several times and just been given the run around. It was documented by one of their workers that the issue is outside of my home and something someone needs to fix, but claim they "didn't know" a person needs to physically come to do the repair. my partner is working for a COVID surge hospital and needs to have a reliable connection, they have been informed of this also, they just don't care. At all. Their reps for the most part are rude and you cannot speak with a supervisor. They need to be ashamed and they need to be condemned by the FCC and any other powers that be that can make them re-think their attitude toward customers.

Ticket: # 3971653 - Spectrum wont offer extension on payment

Date: 5/12/2020 1:47:28 PM

City/State/Zip: Garden Grove, California 92840

Company Complaining About: Spectrum

Description

I wanted to file a complaint that spectrum is not giving me an extension and is charging late fees. They pledged that due to coronavirus they won't disconnect service. I have proof that I requested an extension and they said no.

Ticket: # 3971748 - Crap customer service signal issues

Date: 5/12/2020 2:22:45 PM

City/State/Zip: Stillwater, Oklahoma 74074

Company Complaining About: AT&T

Description

I've been a customer of AT&T for two years when COVID-19 happened I was told that they were going to work with us and that they would not shut our service off due to nonpayment as long as we were attempting to take care of things when I was able to go back to work. When we went back to work I called on May 1 or 2nd to discuss my cell phone bill with them and told them that on May 8th I will pay 150 on may 22 I would pay 150 and then going into June I would 150 each week to catch up my cell phone bill the lady said that was fine that would be no problem I got a call today telling me they were going to shut my phones off on the 14th because they only promise to keep them active through the 13th they did not promise to work with us on our cell phone bills. So here I am using my phone as a work phone and I am just now able to go back to work due to COVID-19 and I am being punished by that I have had nothing but spotty service for the last two months but since they was supposedly trying to to work with people I had not thrown a huge fit but now that they are being rude and I'm helpful it's time to really get someone involved to fix the situation for me. I shouldn't have to go to the road and talk on my phone when I use it for business services instead of being able to sit comfortably in my home and use my phone. Let's not y'all about the amount of random texts I get or random spam calls I get a day!

Chinese telecom giant Huawei announced Monday it will be hosting a panel on coronavirus "misinformation" featuring CNN host Van Jones.

#Misinformation on #COVID19 is hitting African American, Asian, Hispanic, rural & low-income Americans hard. On May 13 @NABJ, @IAMWILL, @VanJones68, @RolandSMartin & @EbonyJadeHilton discuss keeping Americans healthy + safe. <https://t.co/iali0OFBrR>
#HuaweiNABJWebinar pic.twitter.com/XSs58j0Wdk

— HuaweiUSA (@HuaweiUSA) May 11, 2020

According to the registration page, the May 13 webinar, hosted along with the National Association of Black Journalists, "will explore how journalists and leaders across industries can come together to fight against a unified enemy: COVID-19" and how "disinformation about the coronavirus disproportionately affects communities of color and low-income neighborhoods."

Black-Eyed Peas singer Will.i.am, consultant Dr. Ebony Hilton and journalist Roland Martin will join Jones on the panel. (RELATED: CNN Basically Published A Press Release From The Chinese Military)

Huawei has come under increased scrutiny by the Trump administration for the company's extensive ties to the Chinese Communist Party. The administration has sought to block its 5G tech from being used in domestic networks due to concerns over spying and the theft of intellectual property from American competitors.

The DOJ in January opened a 13-count indictment against Huawei, saying that it has engaged in a “decades-long” operation to “misappropriate intellectual property” from U.S. technology firms. It has also been accused of developing the monitoring system for Chinese Uyghur internment camps and selling U.S. tech to Iran in violation of sanctions.

The Chinese government has repeatedly spread misinformation about the coronavirus and tried to cover up its culpability for the spread of the deadly disease. Chinese government officials have even promoted a conspiracy theory alleging that the coronavirus was actually brought to the city of Wuhan by members of the U.S. military.

CNN has also come under fire for allegations of publishing Chinese propaganda. Last month, it published a story on the People’s Liberation Army while citing Chinese state controlled media as its source.

Ticket: # 3972046 - Horrible Internet Speed

Date: 5/12/2020 3:51:36 PM

City/State/Zip: Belmont, North Carolina 28012

Company Complaining About: AT&T

Description

We cannot function on the slow internet speed, we have contacted AT&T numerous times with no resolution, speeds are too slow to work from home and for my son to do online college classes. We tried contacting Spectrum for service but was told they will not come down my road any further to service the other 12 homes down my street only service the beginning of my road which is only a mile long. We are only running at 6 MB, which is unacceptable for work or school. Covid 19 requires working and schooling from home.

Ticket: # 3972047 - Frontier Cannot Provide Service Because "ports are "full

Date: 5/12/2020 3:51:45 PM

City/State/Zip: Woodruff, Wisconsin 54568

Company Complaining About: Frontier Communications

Description

Called for new Internet service to my new home. Was told by Frontier that there are no ports available and they could not provide service. No time frame for when I could get service. Address is serviceable, and Internet is needed to work from home, especially during this pandemic. Frontier needs to fix this, now.

Ticket: # 3972102 - Suddenlink, took my modem

Date: 5/12/2020 4:07:41 PM

City/State/Zip: Lubbock, Texas 79415

Company Complaining About: Sudden Link

Description

We wanted to add a telephone to our Suddenlink service. They brought a new modem. When they left they took my modem. This was a modem that belonged to me and not one that they had provided. I was at the time not paying any rental fee because I was using my own equipment. I went to the office and had them fill out an equipment search, two months later they had not called me back or even spoken to me about the modem, which belonged to me. I fell behind on payment because of financial difficulty due to Covid-19 and because of increases to their prices inspite of what they had advertised. My service was turned off. When I tried to pay my bill it showed that I needed to pay \$100.00 for the modem before my service would be restored. I called and after being put on hold for 30 min to an hour each time I called, I was finally able to reach someone. After arguing with me, the man told me that he took the equipment charge off of my bill and he filed another equipment search. I thanked him and called to pay the bill on the automated system since they charge \$10 to pay with a person. The bill was the same nothing was taken off. I called again today to speak to a person. I was on hold for an hour and 15 minutes and was told again that the entire bill is for service. After arguing he relented that \$100.00 is for their modem. The man told me that my bill has been sent to collections and I am not allowed to pay it. The store in Lubbock is closed. I dont' even know a way to return their modem. When they stole my modem that belonged to me they gave me no satisfaction for my equipment but now they want to send to a collection agency the bill for their equipment. I went in February to Suddenlink and they filled out a form to look for my modem, they said they will call me back in 5 to 10 days, I never heard back.

Ticket: # 3972110 - Transfer of ownership request

Date: 5/12/2020 4:10:03 PM

City/State/Zip: North Hollywood, California 91605

Company Complaining About: AT&T

Description

My mother passed away April 28, 2020 because of COVID 19. The reason i am here because i called AT&T to get ownership of my mother cell phone to be under my name but AT&T refer me to you. What can i do to get the account under my name with the same number. My mother name is

Ticket: # 3972118 - AOL attempts to extort money from subscribers

Date: 5/12/2020 4:12:31 PM

City/State/Zip: Charleston, South Carolina 29414

Company Complaining About: Aol

Description

AOL is using the COVID-19 as an excuse to keep customers complaints to an absolute minimum. I have been trying to access my AOL acct. all day, and keep getting "prove you are not a robot" and other delay tactics. All I want to do is change my Password, yet it keeps telling me it is not the right one, and it wont let me put in a new one, it gets me into the Prove you are not a robot cycle and I cannot get out of it. These large corporations are becoming way to abusive of the people who use them

Ticket: # 3972127 - Billing

Date: 5/12/2020 4:15:58 PM

City/State/Zip: Henderson, Nevada 89015

Company Complaining About: Directv

Description

Bill went from 73.73 to 140.32 Called several times to get this fix but they have been unwilling to help. Even tho I called JuanSG and left a voicemail telling them to talk to my husband cause I am busy during this COVID 19 with work and don't have time to talk. Everytime he calls they are unwilling to help. we have been trying to get this fixed since April 23, 2020. so far no one has billing willing to help.

(b) (6)

Ticket: # 3972131 - \$30.00 per month price increase in the last two months

Date: 5/12/2020 4:18:00 PM

City/State/Zip: Lake Havasu City, Arizona 86403

Company Complaining About: Sudden Link

Description

My billing has increased by \$30.00 per month in the last 60 days. I have called and recalled with we cannot do anything with the Covid 19 going on. I would like to know how the bill can increase this much within a short amount of time.

Ticket: # 3972214 - Spectrum fraud

Date: 5/12/2020 4:41:45 PM

City/State/Zip: Thousand Oaks, California 91362

Company Complaining About: Spectrum

Description

Spectrum has been randomly raising my rates without informing me, for the past couple of years. They raised them again during the Covid-19 pandemic. I called them and spoke to an agent and asked for an extension due to their "Keep American's connected" pledge, which they said they were giving me until the end of June. I also expressed that I was not going to pay them \$80 per month while they were giving internet for free to other college students, and overcharging me. I signed up at the rate of \$50 per month, and when that promotion ended it was raised to \$60. I never agreed to any price increases after that. The agent said they would adjust my bill back to \$60 per month to keep me as a customer. I am now receiving harassing phone calls threatening to disconnect my service for non-payment, and they keep sending me bills for \$75+ per month. I was left on hold for over twenty four hours to speak to an agent and try to have my bill corrected. The supervisor I spoke with is now actively defrauding me by refusing to correct my bill to the agreed amount, and saying that the agent I spoke with failed to enter it into their system, and they will basically charge me whatever they want, despite the agreement, because "other customers pay that much". In addition, my internet works about 60% of the time. When I called them on several prior occasions, it worked 10% of the time. They are defrauding me despite a contract (which I believe they recorded via phone without my consent, so there is evidence of the price agreement) for internet service they don't even provide. I expect them to honor our verbal contract and adjust my bill to the correct amount. I also expect to be compensated for the many hours of my time they have demanded of me, to try to correct their errors/fraud, which they still didn't do.

Ticket: # 3972277 - Price change with no warning and no one to talk to

Date: 5/12/2020 5:08:53 PM

City/State/Zip: Lakewood, New Jersey 08701

Company Complaining About: Optimum

Description

Every year optimum changes the price on their customers without prior warning. This year o remembered that and tried calling in countless timea to adjust the price back. I completely understand that they were overwhelmed with calls at the beginning of the covid-19 pandemic but I've been trying to get through to them for 2 months now and finally got through to the proper department who assisted me with bringing down my bill but said they could not credit the months i had paid extra that would be the billing departments job. I tried speaking with a few reps feom billing but they claim they cannot help me further and there are no supervisorsto speak with. I would appreciate a call from someone who can assistme in getting a credit fir tree difference i paid those months. Thank you.

Ticket: # 3972294 - Refuses to install new nodes and sells unadvertised speeds

Date: 5/12/2020 5:15:25 PM

City/State/Zip: Strongsville, Ohio 44136

Company Complaining About: Wow

Description

This problem started 1 year ago. We pay for 1GBPS and got 700GBPS. After covid the speed has dropped to as low as 25MBPS. The contractor has told me they have all the nodes and will not install them in a timely manner.

Ticket: # 3972329 - Windstream Agreement Complaint**Date:** 5/12/2020 5:36:18 PM**City/State/Zip:** Trumbull, Connecticut 06611**Company Complaining About:** Windstream Communications

Description

Windstream is over charging us for services that should be billed around \$500/month (we signed our agreement for \$487/month in 11.14.2016), but instead they have raised their prices to now charging us over \$800/month. We have for the past 3 years tried to let them know that we are not able to pay more than \$500/month and that we want to renegotiate our agreement, however, they say that the only way to get out of it is to pay in full for the 2 years that we have left, the only other way to lower our bill would be to sign up for another 5 years. They constantly threaten us that if we do not pay they will turn off our service (which they did in April 2020 for a couple of days even though we were in discussions with them and did pay), and now they are saying they will turn off our services on May 15. I have emailed and called every single person I have been able to find working at Windstream regarding lowering our bills and changing the agreement, explaining that we cannot afford more than \$500/month, but no one is willing to work with us other than offering their services for another 5 years. Please let us know how to proceed as we cannot afford to pay over \$800/month for these services – especially since there are service companies out there that are willing to sign us up for less than \$500/month and those companies will not even lock us in for 12 months. We feel like we are taken hostages by Windstream and having to overpay for their services for 2 more years will be devastating for us to. But we also need our phones as we are a medical laboratory starting to test for COVID-19 now and it would be very detrimental to our business if our services were shut down again. Please let us know if there is anything that we can do to get out of this impossible situation that we have been in for over 3 years.

Ticket: # 3972423 - Extremely Slow Internet Speeds

Date: 5/12/2020 6:33:33 PM

City/State/Zip: Vadnais Heights, Minnesota 55127

Company Complaining About: Comcast

Description

Signed up for 1Gbps internet service. I'm consistently receiving 30Mbps. Contacted Comcast many times and received no follow up when promised. I've been very patient given the pandemic and all, but Comcast isn't even making an attempt to work with me on resolving this and it's affecting my business since I work from home.

Ticket: # 3972472 - Suddenlink communications

Date: 5/12/2020 7:08:23 PM

City/State/Zip: Onalaska, Texas 77360

Company Complaining About: Sudden Link

Description

Suddenlink Communications. They are absolutely horrible.

The tornado hit here April 22nd and days later they disconnected the line from my house to the pole. Put a new line and hung it on my house like a water hose instead of reconnecting it. Nobody in my area has had service since the tornado. They refuse to credit our accounts.

Customer service is the worst ever when trying to call.

One man I couldn't understand refused to transfer me to someone else or a manager.

Today i was on hold for an hour and 10 minutes and instead of saying hello they just hung up.

I was told in my last call to them that nobody would be disconnected due to coronavirus. I was disconnected and also charged an extra \$300 for 1 modem and 1 box that I can not return to their office because it is closed due to the virus. It will also take over an hour round trip to drop it of they do open again.

Ticket: # 3972487 - Threat To Interrupt My Service

Date: 5/12/2020 7:19:16 PM

City/State/Zip: Greenbelt, Maryland 20770

Company Complaining About: Verizon Wireless

Description

On May 13 2020 I got my bill o the mail and called Verizon Wireless to ask about why my bill was now 341.00 when my last bill was 253.00 and I paid 118.00 of the bill. During this time we were promised by Vetizon that NO ONES service was to be interrupted or disconnected during the pandemic. I just lost my oldest brother and we had to beg for 10,000.00 to bring his body home from Amsterdam. I an 66 yrs old and I am being charged 55.00 a line plus I am.suspose to be getting the Military rate? Even if the time limit was June 30th

The deaths are still rising in the world and nothing right now is going to be normal. I would like more time during this National Crisis. Any help that you can be will be appreciated. I.calked at 6.18 p.m. waited 20 minutes and was hung up on by the billing department, because it was 7.05 p.m

Ticket: # 3972508 - RCN Internet Bill and Services**Date:** 5/12/2020 7:33:42 PM**City/State/Zip:** Washington, District Of Columbia 20019-2583**Company Complaining About:** Rcn

Description

RCN has been charging me Internet services of which I haven't been receiving. My connection speed should be 330 Mega Bits Per Second. However, after several outages, connection lost, and possibly bad wiring used to facilitate my connection it has been identified the wiring or cabling wasn't suffice and I have been paying for service connection I wasn't receiving. I contacted the company on May 12, 2020. Asking specific questions about my connectivity, functionality, and other issues with my bill. Such as why I am being charged for services I am not receiving. The company could not provide me with an effective answer.

However, they are willing to charge me during a Health Emergency Pandemic a \$54.00 fee to have a technician to come out and service their issues of which I alerted them about and they refused to give me a curiosity of finding the solution without a charge. This is total unacceptable particularly during this health crisis and pandemic. I even mentioned this to them about charging late fees.

Ticket: # 3972529 - Unwanted calls- Spam

Date: 5/12/2020 7:54:47 PM

City/State/Zip: Arlington, Virginia 22207

Description

715 pm ET, May 11 received a call purporting to be from the power company, Dominion Energy offering a 30% covid19 discount on my electric bill. Caller i.d. displayed Dominion and a 866 number. WUSA TV has reported this going on for some weeks. Can't law enforcement stop this?

Ticket: # 3972536 - Alltice not honoring pledge they advertise

Date: 5/12/2020 8:09:18 PM

City/State/Zip: San Angelo, Texas 76903

Company Complaining About: Sudden Link

Description

The pledge to keep us connected during all this pandemic was meant to be a saving grace as many of us lost work. However, last month, my service was disconnected. We got it turned back on. And again this month, and Alltice refuses to reconnect. While I acknowledge we owe the money, we have been out of work. We, as a household, were actually quarantined awaiting results last month 2 times, and could not work. When we were released, our jobs were gone. I just went back to work today, and have not yet recieved a stimulus payment. I called and tried to resolve this, to no avail. They will not even let me speak to a supervisor and will not restore service without payment. Yet they advertise that they are honoring the pledge, lying to everyone?

Ticket: # 3972672 - Impacted by COVID-19 and internet was disconnected

Date: 5/12/2020 10:30:10 PM

City/State/Zip: River Ridge, Louisiana 70123

Company Complaining About: Cox

Description

My name is (b) (6). I have internet service with Cox Communications in the New Orleans area. My services was suspended/disconnected this past week due to my inability to pay because my income has been impacted by COVID-19.

Ticket: # 3972698 - My internet, phone and the Tv service don't work

Date: 5/13/2020 12:06:50 AM

City/State/Zip: Quebradillas, Puerto Rico 00678

Company Complaining About: Liberty Cable Vision Of Puerto Rico

Description

I have been calling the company liberty cable of PR for NONSERVICE since December last year and they have send tech support for the problem and they are able to fixed the issue, I have to call them at least once a week because they tell me they will come over one day and they never showed up. The company knows there is a problem with the junction box in the neighborhood and they are just not fixing them fast enough. I have contacted them for the issues since the pandemic and my kids school have been turned in late because of the faulty service. But the sad part is I get the same bill every month without any adjustments or discounts. I'm tired of being lied too and taken advantage off. They need to be more proactive and work more diligently with their customers, we are not here to pay for a lousy service and it's more than 5 neighbors that are affected and they just keep us for last. They can easily send a crew with the basket and change the junctions box and that will help with the issue. The service is very spotty at daytime, lot of noice in the line my connection is loss due s issue and tv only works at night.

.

Ticket: # 3972754 - Optimum.net and Its Insensitivity to Customers During COVID-19

Date: 5/13/2020 3:10:53 AM

City/State/Zip: Bronx, New York 10456

Company Complaining About: Optimum

Description

On Tuesday, May 12, 2020 - Optimum.net suspended my internet service for making a partial payment. <https://www.optimum.net/pay-bill/account-activity/>. I contacted them as soon as I lost my job - because I realize the impact COVID-19 is having. I was never late on a payment until the pandemic's presence, and I am a homeowner. Rather than miss a payment - I sent a partial payment on May 8th of \$20.00 on a \$59.38 bill, as well as an additional payment of \$39.38 - to restore service to an operational level today.

JOE BIDEN MUST BE GIVEN EQUAL AIR-TIME.

Ticket: # 3972808 - Re: [FCC Complaints] Re: Internet service

Date: 5/13/2020 8:00:15 AM

City/State/Zip: Eustis, Florida 32736

Company Complaining About: Centurylink

Description

This is a follow-up to your previous request #3551744 "Internet service"

This is a follow up complaint sent to you back in September 2019 (Ticket (b) (6) regarding the none service of internet and telephone service and complete lack of company support from CenturyLink in our area to help solve these issues. As a matter of fact, there is a consensus on our area that CenturyLink is purposely disregarding our needs to inadvertently force us to disconnect service. All I get are excuses pointing out that phone and internet services is no longer regulated by the government so CenturyLink really doesn't HAVE to do anything.

I personally have repeatedly contacted CenturyLink about my internet service getting weaker and weaker and am now to the point that most days I have no internet at all (today no internet AND no phone service). The continued response is, it is what it is - we've done all we can do and if you don't like it you can cancel. They are well aware that in the rural area where I live the only other option is high priced satellite internet service that most in our area can not afford. Even now I am sending this email from my daughter's home on a wifi connected iPad because because I HAVE NO PHONE OR INTERNET SERVICE for the ——— so many number of times I can't even count.!

In this time of the COVID19 pandemic where some of us are forced to work from home, we have virtual doctors appointments scheduled, children attempting to complete classes online, and many other EMERGENCY SERVICES are being transacted through the internet, my area sits WITH NO PHONE OR INTERNET SERVICE. And CenturyLink could care less.

I have reached out to the CEO Jeff Storey after getting this email following the out break of COVID19

|
|
|
| To our valued CenturyLink customers: |

| |

|

|
| |

| As I continue to observe what's happening across the globe in response to the coronavirus outbreak, I'm compelled to share a few thoughts about our CenturyLink team, our customers and our communities. In my role, I'm often asked to speak about the strength of our network, which continues to perform as designed in response to increased internet traffic and video consumption worldwide. In this moment, however, what I'm so profoundly proud of is the power of our people.

I started in the telecom business more than 35 years ago, and I know what it's like to be on the front lines caring for customers. It's a privilege to serve others, which is why employee and customer

safety remains one of my top priorities. We'll continue to run our business to support customers in the safest way possible.

The CenturyLink team is singular in our goal to continue meeting your needs now and in the future. While about 75 percent of our global workforce is working from home, we still have CenturyLink employees in the field selflessly providing essential services to keep your families connected and your businesses running so you can serve others.

We recently introduced Safe Connections, a new way to work that allows our technicians to complete critical installations and repairs while minimizing the need to enter homes and businesses. For our residential services, we've modified our processes so our technicians can complete exterior work as usual, while relying on our customers to complete interior work. For our business services, technicians are working with onsite contacts to ensure their safety and that of our customers' employees. As our business environments vary, techs are collaborating with customers on options such as scheduling work outside of business hours or finding other ways to access equipment rooms. This gives us flexibility to ensure we're supporting our customers while still adhering to recommended social distancing guidelines. We'll continue to engineer innovative ways to work together to keep you connected and all of us safe.

As a global company that serves not only individual customers and families, CenturyLink is also proud to support government and business customers. We're working around the clock and across the globe to share our expertise where it's most needed:

- We donated and installed high-speed broadband to the U.S. Naval Ship Mercy to power its 1,000-bed emergency hospital just hours after it arrived at the port of Los Angeles.
- In Washington and Oregon, we donated high-speed connectivity and are waiving fees for several emergency field hospital operations to serve coronavirus and non-coronavirus patients.
- We provided an emergency bandwidth upgrade to support increased remote access for 1.2 million students and 150,000 employees in a major U.S. city when schools closed.
- When a leading provider of remote videoconferencing services announced it would provide videoconferencing tools for free to K-12 schools, CenturyLink was there to provide the additional bandwidth, giving schools nationwide the ability to teach kids at home.
- We partnered with PCs for People to provide low-income individuals access to affordable technology during a time of extreme isolation.

Connections are so important right now – both technological and human – and we're proud our network is integral to services like remote videoconferencing, which allows friends, families and colleagues to see each other across the street or around the globe without being near.

My commitment to you remains steadfast: We'll continue to protect the health and safety of our employees; to support customer needs with urgency and care; and to proudly embrace the challenges before us.

Thank you for being a CenturyLink customer. Stay well.

Jeff Storey

Ticket: # 3972843 - Windstream disconnected service during covid 19

Date: 5/13/2020 8:59:04 AM

City/State/Zip: Denton, North Carolina 27239

Company Complaining About: Windstream Communications

Description

It is clearly written on Windstreams website they will not connect internet service during covid 19. I live in N. C. and this is the second month they have disconnected our service. I made them aware we were laid off due to covid 19 and they demanded payment in order to reconnect service, along with charging a service fee.

Ticket: # 3972854 - inappropriate music for children and teenagers

Date: 5/13/2020 9:11:24 AM

City/State/Zip: Midland, Texas 79705

Description

On the Bobby Bones show during daytime hours i heard a song about a one night stand, very clearly about sex. This is not appropriate for a show when children will be listening, especially now during Covid when they are at home and not at school. (96.1 FM Midland Texas)

Ticket: # 3972888 - BUSINESS PHONE LINES

Date: 5/13/2020 9:41:30 AM

City/State/Zip: Nellysford, Virginia 22958

Company Complaining About: Verizon

Description

The are having a issue reconnecting our direct lines (6) say they are trying to fix but we have not had phone lines since friday morning. Please help us get this resolved we are a small real estate business trying to do as much business as we can during this pandemic AND this is not helping. WE NEED HELP PLEASE!!

Ticket: # 3972897 - FCCs Keep America Connected

Date: 5/13/2020 9:48:24 AM

City/State/Zip: Broadview Heights, Ohio 44147

Company Complaining About: Cox

Description

"FCC's Keep America Connected Initiative" would also include extension on exemption to bullshit data caps. So they are not extending it. Donating .00000001% of your wealth to something you don't care about doesn't change anything. Comcast and AT&T atleast fully extended everything originally asked.

Every time my children call in to their class teleconference to participate in their schools distance learning program my phone service is shut off. Since their school is closed due to covid-19 my children do not have access to education

Ticket: # 3973137 - Cox Communication Outage

Date: 5/13/2020 11:22:27 AM

City/State/Zip: Mesa, Arizona 85204

Company Complaining About: Cox

Description

The consumer has Cox Communication and in the last 10 they have had numerous issues with outages with his Cable.

The consumer states that is has been out for about 12 hours.

The consumer wants them to come and fix the issue immediately, they need to be able to see news during the COVID-19 pandemic.

The consumer would like a credit if this continue, since he is paying for services he isn't receiving.

The consumer states that he is not able to speak to an actual representative, he only gets a machine saying that there is an outage in the area.

Description

I spoke with Metro this morning due to my phone was cut off for charges not paid. I reiterated their agreement with the FCC to keep Americans connected and was told Metro is not affiliated with T-Mobile and will not follow FCC guidelines because they are a prepay phone company.

Ticket: # 3973229 - Internet Problem**Date:** 5/13/2020 11:55:21 AM**City/State/Zip:** South Milwaukee, Wisconsin 53172**Company Complaining About:** Spectrum

Description

I have a problem with Spectrum Internet Service. The quality of there service is terrible. I am loosing internet 3-4 times per day. Suddenly they just increased a price on the service this moth it went to \$73 per moth. and They just increased the speed to 200 MBPS . I was talking to them last year telling them that I only need up to 50 mbps band asking them to reduce the speed and price. That is how Time Warner cable ran business they offered slower internet for lower price. Spectrum keep raising unnecessary bandwidth every year and increasing the price. Last Year they have told me that they will come up with a plan for lower speeds. instead of that they increased the speed again. I am self employed and my business is closed because of COVID 19 I am not getting any income. I called Spectrum and they said that they can not help me. I have to pay the rate that they have set up. Their has to be ability for people to get chipper internet. I rely on the internet to communicate with my customers and other business activities. I do not play games and do not need 200 mbps speeds. I need slower internet for reasonable price. I am hopping that FCC will be able to help me with this problem. Thank you in advance

Date: 5/13/2020 12:08:33 PM

City/State/Zip: Mt Pleasant, South Carolina 29464

Company Complaining About: At&t

Description

I purchased an iPhone 8 in November 2018. From the beginning I had problems with this phone and called, went into 2 stores, tried online to resolve the problems. At one time a tech told me to delete all data 3 times which I told him no bc a warning came up. I finally did it and ended up with no phone at all. I've continued trying to obtain a phone that worked correctly all the time. 2 months ago I finally got my insurance to replace the phone which also didn't work bc after 2 weeks I discovered they sent an iPhone 6s. After more calls, trying online for hours they sent a restored iPhone 8 which again has the same problems as the original. I'm 68, disabled with heart disease, diabetes, HBP and physical limitations. Today after an hour I spoke to an ATT rep who transferred me to a department she said should cut me a check being concerned that I am high risk in this pandemic and home bound and need a phone that works correctly all the time. To shorten this I'll just say the 2 reps I spoke too were very rude and refused to do anything except charge me more money for an upgrade or get another restored and I'm sure defective iPhone 8 from insurance when it is covered by their warranty.

Ticket: # 3973293 - Unwanted Fax - daily advertisement

Ticket: # 3973344 - Comcast charging for un returned equipment during Covid-19 pandemic

Date: 5/13/2020 12:26:59 PM

City/State/Zip: Bellingham, Massachusetts 02019

Company Complaining About: Comcast

Description

Comcast Without any warning charged me 440\$ for un returned equipment during the current Covid-19 Pandemic all of the Comcast stores have been closed. I was instructed at the end of March to return my equipment to the store (closed). I have tried to reach out to Comcast on several times but their automated service recognizes my phone number and sends me in a loop to a recording of the store hours for the closed store. I now cannot pay my bills or go grocery shopping due to this and they are refusing to refund me the money. I need help.

Company Complaining About: Consolidated Communications

Description

Pandemic hits- stay at home order in effect; burden on fiber in norther VT for connectivity. Equipment shorts, lines fry, no connection, no cell service. Have to drive 25 miles to get service to place a call to consolidated tech support. 2 weeks later problem still not rectified.

Ticket: # 3973421 - comcast/xfinity continue incorrect billing and inability to resolve me

Date: 5/13/2020 12:42:38 PM

City/State/Zip: Arvada, Colorado 80005

Company Complaining About: Comcast

Description

Comcast carries my internet, tv and phone I am a long term customer. They do not provide a solution or any one to talk to. They have a prohibitive maze of automated systems to fend off customers. Last month I submitted an online complaint. Someone did eventually call me. After a long, long frustrating time nothing was resolved. Comcast just shoots out incorrect bills, messes around with service, fails to auto debit my account then charges late fees, fails to give credits that they previously agreed to, blame everything on corona virus staffing. This started prior to the stay home orders. They failed to credit one month then proceeded to double charge me. They eliminated stars programming from my package (contracted for two years). In lieu agent told me that they would charge me then credit me for stars and to call back when that expired. That has not happened. I have set up billing three times and to date they have yet to do it. They tell you to go online or on the remote and screen to see billing. I can see it.. They are forcing me to pay when I do not agree in order to continue service. They are over charging me generally and eliminated services and substituted inferior channels. They have demonstrated that they are unwilling and unable to resolve their billing inaccuracies, and hold customers over the barrel to pay disputed amounts.

Ticket: # 3973616 - Pour Internet Speeds

Date: 5/13/2020 1:46:45 PM

City/State/Zip: Aubrey, Texas 76227

Company Complaining About: Sudden Link

Description

Suddenlink has confirmed that they have over saturated nodes in my area and they will not be fixing it for a few months because they think it due to covid-19 people working from home. however they confirm that less people will not fix the speed they just dont want to damage their new node because of the people. they charged me \$60 to have a tech come out even though I didnt request it. we now are having random outages through out the day because of the node issues and they claim their are not issues in the neighborhood but everyone in the neighborhood is being affected. They are the only provider in our neighborhood so they are handcuffing because they know even with bad customer service we cant leave. I am suppose to get 400 download and 30 upload on my current plan attached is a screenshot of my current speeds. Because I run an online ecommerce business from home, they recommended I switch to business internet because I will get guaranteed speeds, I did. After it was installed, I was told they can't guarantee my neighborhood and charged \$245 for 2 days of internet and install, when I cancelled my business plan and kept my standard plan.

Ticket: # 3973640 - Internet scam

Date: 5/13/2020 1:53:38 PM

Ticket: # 3973660 - altice USA disconnected and demanded money

Date: 5/13/2020 1:59:56 PM

City/State/Zip: Kingman, Arizona 86409

Company Complaining About: Sudden Link

Description

I had contacted altice usa aka suddenlink in regards to the covid-19 bill help/extension and they extended my bill. the first bill was supposed to expire may 13th and suddenlink cut my service on may 11 and demanded that I pay my over due charges and late fees before they would reconnect me. I had to withdraw my bank acct 250\$ just to have my service reconnected

Ticket: # 3973681 - Service and Fraudulent Billing

Date: 5/13/2020 2:03:02 PM

City/State/Zip: Ny, New York 10034

Company Complaining About: Spectrum

Description

Good Afternoon FCC Commissioners:

I'm writing to you about Spectrum's unethical billing practices and their horrendous services. I have previously filed a complaint several months ago about their service and they never followed up to take corrective action after their many false claims that they attempted to reach out to me especially during a COVID-19 Pandemic.

For starters I disconnected Service from Spectrum effective May 1st. I was billed until May 6 for reasons unknown to me. I was also billed for their equipment which was mailed the same week with UPS. Here is the Tracking Number (b) (6)

i'm requesting a full scale investigation and I be immediately relived from their last bill dated May 5, 2020. I paid April in full on 4/21. I informed Spectrum as such time I will be disconnecting service and they failed to document such at such time after making several dozen phone calls to them throughout the month of April. I find Spectrum negligent, reckless and irresponsible. I'm seeking the FCC's immediate intervention.

Thank you.

Ticket: # 3973736 - discrimination

Date: 5/13/2020 2:25:26 PM

City/State/Zip: Kingman, Arizona 86409

Company Complaining About: Sudden Link

Description

Suddenlink discriminated customer due to race, and refused to let customer talk to supervisor. refused to provided full services, use covid -19 as excuse.

we have requested to send our bill to our email account, which is not additional service we requested, it is the services they provided. we never received the email. we checked and asked to send bill out at that moment testing, so we know they can do it, stay on the line for two hours, they could not figure out how to send bill to email. and stated because covid 19, they have to call back. but covid 19 did not stop them to cut our services (WE ARE LATE ON THE PAYMENT, WE ARE NOT ASKING EXTENSION, OR NOT PAY, JUST NEED TO SEND BILL TO EMAIL, SO WE WILL NOT MISS IT. THEY CUT OUR SERVICES WITHOUT SENDING ANY EMAIL.) they have enough man power to shut services, just could not provide services.

we requested to fix the problem, they could not, we requested to speak to supervisor, they could not. But they allow their employees to discriminate customer because customer's English has accent. first lady stated yelling via the phone she could not understand me, I asked to speak supervisor. she put me back in the cue. after I told 2nd lady, what has happened to me, she put me in the cue again, just little further, to chose nonEnglish option. but they don't offer my language. I graduated at U.S, I have master degree. I have accent with my English, but I function with my life and my job. no one treated me like this. 3rd person, stated he can understand me. but supervisor is not available.

I do not believe covid 19 should becoming the reason, Suddenlink discriminate customer. and I do not understand, they have man power to shut down the services, but do not have manpower to provide the service, and of course, the charge is full.

Ticket: # 3973772 - SPRINT THREATENING TO CUT SERVICES

Date: 5/13/2020 2:33:04 PM

City/State/Zip: New Rochelle, New York 10801

Company Complaining About: Sprint

Description

Sprint had threatened that if I do not make a payment by 5/22 my services will be disrupted. I was under the impression that they could not do that after signing the keep americans connected pledge. I have been deeply affected by covid 19, my job closed, i have been waiting 2 months for unemployment, and my college classes are all online. I can't afford to lose service or i risk my schooling. I have no income right now as a direct result of covid 19. How can they sign something and then not follow it?? I contacted Sprint and they could not answer any questions, they just kept insisting that i needed to make a payment in order to avoid service disruption which I have explained to them that I have no income at the moment.

Ticket: # 3973786 - At&t Not Providing Broadband**Date:** 5/13/2020 2:34:46 PM**City/State/Zip:** Hickory Grove, South Carolina 29730**Company Complaining About:** AT&T

Description

I recently moved to a semi rural area. The only internet access at our new residence is 20 plus year old DSL left over from the BellSouth area. For \$56 month, we are getting speeds of 3.8 mbps and 128 kbps upload. That is ridiculous. At&t appears to be telling the FCC on thing, but the reality is that they are doing nothing except taking the governments/taxpayers money for things like CAF and not providing.

Covid 19 has made it clear that we need broadband and At&t may counter this with mobile hotspot but I have that too. Still very slow, and about the same as DSL. FCC please make At&t do the right thing. Either update the system or sell the area to someone that can.....

Ticket: # 3973831 - Optimum Scam

Date: 5/13/2020 2:44:28 PM

City/State/Zip: Mount Sinai, New York 11766

Company Complaining About: Optimum

Description

I am a new customer to optimum and was promised and signed up for \$84.99 for life. I received my bill for the last two months and its for \$134.38 with all fees that I was not told about "9.99 TV broadcast fee" "10.47 regional sports fee". I tired to get through to customer service for over 3 weeks. I finally got the on the phone today and they told me there is nothing that they can do. In my area Optimum is the only service so they have a monopoly here and I cant cancel as I need this service for my kids school being home schooled during the pandemic. Optimum is taking advantage of customers like myself. I am hoping the FCC can step in here and help me resolve this issue. Thank you in advance.

(b) (6)

Ticket: # 3973842 - Billing Issues

Date: 5/13/2020 2:46:48 PM

City/State/Zip: Port Richy, Florida 34668

Company Complaining About: Frontier Communications

Description

Consumer is with Frontier

Consumer said she had it installed

Consumer said within a month of having the service they wanted to disconnect her because she didn't pay her bill

Consumer said she signed up for Auto Pay and they didn't take the money out

Consumer said she was never told until the auto pay got set up, she could pay another way

Consumer said she got her bill there was an extra installation charge of \$85

Consumer said she told Frontier the man did not do the installation right and he didn't tell her the implications of what she could do.

Consumer said when a different man came in said the other guy was right and then he did what she told him to do and charged her as a new repair charge

Consumer told Frontier that she wanted to speak to a manager, and they will not give her a manager, and they hung up on her

Consumer told them she would pay the bill, and they were hanging up on her

Consumer canceled service and got no verification of the cancelation and mailed back the router

Consumer called to see if they got the modem and asked why a manager never called her back and the rep told her that the manager was going to give her a \$85 pre-paid card, but after the 2 months

Consumer called Discover and put a dispute in

Consumer said because of Covid-19 she doesn't go out much

Consumer was going to give Discover an email from Frontier

Consumer wrote a letter to Discover about the whole issue

Consumer then received a letter from Discover

Consumer said the Rep left a message on her cell phone after she told her not to use that number

Consumer said she just wants the \$85 credited back to her Discover card

Ticket: # 3973940 - Phones out for nearly 3 weeks

Date: 5/13/2020 3:14:03 PM

City/State/Zip: Sherman, Texas 75090

Company Complaining About: Frontier Communications

Description

Our phones (and internet) with Frontier have been out for nearly 3 weeks. I live on the same property with my mother. We have separate phone lines and she also has internet from her phone line. She is 92 and depends on these things. On April 23, 2020, our phones went out suddenly. No dial tone. Her internet went out also. I called Frontier on that day and got a ticket number for my phone. The local repairman called and said a train had run into a pole downtown and taken down some lines. He said Frontier was having to call in a team to work on it and it was supposed to be resolved by April 28. Nothing happened. After my initial texts from Frontier on April 23 and 24, I only received 2 more texts on May 5 and May 7. They stated, "We are aware of the outage affecting N321 Grand. We currently do not have an estimated time when service will be restored." I called Frontier several times, lastly on May 12 and was told an "advanced team member" would be contacting me soon. Have not heard from that person yet. So today, May 13, I called you, the FCC, to complain and was told to fill this form out. Ironically, our phones came on about 30 minutes after I called. But, I wanted to let you know that nearly 3 weeks went by before service was restored with minimal info from Frontier. My 92 year old mom, who cannot leave the house because of Covid 19, missed calls on her birthday and Mother's Day, Dr. telehealth calls, pharmacy calls, etc.. A policeman came to her house to check on her because her friends couldn't get in touch. He said he would contact Frontier. Their sparse communication and ridiculous time it took to fix the problem, is poor business practice in my opinion. Additionally, I called Frontier to get credit for the time we did not have our phones/internet and was told I would get credit because I had a ticket since April 23, but because my mother's ticket came later (May 5), she would only get credit for the time since her ticket was created. I find that unreasonable, because I had told them on April 23 that her phone/internet was out, too, and no one told me at that time I needed a separate ticket for her until May 5. If you can do anything about her getting credit for no service since April 23, I would appreciate it. If not, that's okay. Thank you very much for your time. Sorry for the length...

Take care,

(b) (6)

Ticket: # 3973965 - Optimum Service Issues/Covid-19

Date: 5/13/2020 3:23:40 PM

City/State/Zip: Roslyn Heights, New York 11577

Company Complaining About: Optimum

Description

Her provider is Optimum.

She was supposed to get cable, internet and phone connected.

On 05/08/2020 someone was supposed to come out and connect service and ever showed.

So, she called Monday 05/11/2020 and was told she had to make another appointment, which was schedule for 05/12/2020 from 11-2 pm.

Technician came out and said, he could not find the wires for the cable.

There was no service hooked up at that time.

So, she called in again on 05/12/2020 Representative said, she would need to schedule another appointment for 05/13/2020 from 8-11 am.

So, she called them back and the order was not put in, and told her she would need to reschedule her again.

Her next appointment is for 05/15/2020 8-11 am.

She needs her service for her job.

City/State/Zip: Malvern, Pennsylvania 19355

Company Complaining About: AT&T

Description

My husband went to a satellite ATT store right before the Pandemic, he asked to "get an upgrade and try to keep the payment the same every month". While he was there, the salesperson changed my password and went into my account without asking for the extra security code i have on the account. My husband had no idea this was going on, he only found out when I questioned him on an email I got saying my password was changed! He came home and didn't know until the bill came that the salesperson added a new line and we were getting charged more now for that and more for his monthly payment!! When I called they said that he would have to return the phone AFTER the pandemic was over and that they would cancel the new number and that the Fraud department would be in touch. Today i find out that ATT is taking \$920.10 out of my bank account because we didn't return the phone!!!! I am not working and we cannot pay our bills and they charge us for the phone we didn't ask for!!! I called the fraud dept and they were rude and said it "was not fraud" being that my husband was in the store!!!! I don't know what to do and I am SO angry that this company would do this in the middle of everyone not having jobs...What do i do???

Ticket: # 3974360 - Failure to Provide Resolution and Restoration of Consistent Service

City/State/Zip: Lockport, Illinois 60441

Company Complaining About: Comcast

Description

On multiple occasions, through multiple means (automated, live, online, telephonic), I have attempted to contact Comcast regarding issues with my internet service. On every instance, they have provided temporary fixes that do not resolve the issue, or they have disconnected with me in progress. My service is intermittent at best and it is affecting the quality of my work. This problem has been exacerbated during the COVID-19 crisis, but is not a new issue. We have contacted Comcast multiple times about this over the past few years, with a new fix prescribed each time - none providing resolution. Now, it appears there is a minimalist approach to fix the issue. No escalation is done, no management reaches out to attempt to resolve, and there is no contact information provided to escalate the issues. By disconnecting during our communication sessions, not providing resolution, and not providing alternate ways to contact them, Comcast is failing to provide this service. There is a reasonable expectation that paid service is continuously provided to the consumer (outside of maintenance, of which none has recently been communicated) or that the issue would be resolved by the provider. This is not the case.

Ticket: # 3974402 - lack of internet service in the Salcha area

Ticket: # 3974562 - False TV reporting on CBS News

Date: 5/13/2020 7:55:14 PM

City/State/Zip: Eagan, Minnesota 55123

Company Complaining About: Comcast

Description

Tonight (5/13) while watching CBS Evening news, an article was being done on Corona virus. During the visuals, while the reporting dialogue was proceeding, an image of an bulldozer covering a mass burial site of wooden caskets was shown, with absolutely no context. This is IRRESPONSIBLE AND INFLAMMATORY REPORTING, only designed to stir negative emotions during a horrible time.

There needs to be a public retraction of this image and CBS NEEDS TO BE FINED FOR SHOWING SUCH A LIE associated with their article. My problem is not with Comcast, it's with irresponsible CBS journalism.

Ticket: # 3974598 - credits not being given

Date: 5/13/2020 8:30:05 PM

City/State/Zip: Auburn, Washington 98002

Company Complaining About: AT&T

Description

I switched to AT&T the week of black Friday in Nov 2019. I opened a new single line of unlimited data and I was told I would get a 25% discount applied to my bill because I am coast guard active duty. The clerk assisting me said that they will send an email to my military outlook account to verify my eligibility (even though I had my military ID on me) and that once I do that it will take a few billing cycles for the discount to apply (they were not specific on the timeline).

Fast forward to May and realize that my discount has not been applied. I give AT&T a call and they told me that I need to visit a store so that they can verify my military ID, so I have to find a store that is open during this pandemic to apply the discount. I did that, then I asked if I would get credited for the past months. The clerk told me to reach out to AT&T loyalty department, so I did. I was told they won't credit me; they said if I already had the discount and then it stopped all sudden then they would credit me for that time that it stopped but this was not the case. I argued that It was never applied, I did what I was told by verifying that email they sent me. They just said sorry.

I would like them to do the right thing by crediting from the time I opened the account till now. I did what I was told to receive the discount and they did not honor it.

Ticket: # 3974651 - False Advertisement

Date: 5/13/2020 9:11:02 PM

City/State/Zip: Montclair, California 91763

Company Complaining About: Frontier Communications

Description

Frontier Communications advertises 500Mbps/500Mbps speeds of service for \$39.99; however, they use COVID as an excuse to refuse service to customers. They only allow customers to receive 100Mbps/100Mbps of service while charging the customers the same price of \$39.99. Multiple technicians who have come to my neighborhood to install the internet confirmed 500Mbps is available and hardware is set up and ready for service at that speed. Please direct Frontier communications to honor their commitment and offer 500Mbps/500Mbps. As a side note, they charge a \$9.99 fee that was not disclosed at sign-up over the phone. All equipment was brought by the technician (nothing through mail) and Frontier is already charging \$75 for installation (\$25 over 3 months). This is a redundant charge.

Ticket: # 3974661 - NM Resident can only receive El Paso TX news

Date: 5/13/2020 9:25:20 PM

City/State/Zip: Las Cruces, New Mexico 88005

Company Complaining About: Comcast

Description

I live in Las Cruces NM, our cable company is Xfinity. We only receive local news from El Paso TX. Since this COVID-19 pandemic the only way the community can be aware of State of NM requirements is through the newspaper or the internet. Not everyone can afford either. Due to the extenuating circumstances it would be very beneficial for Las Cruces NM residents to be able to access a television news station on their televisions. Surrounding cities, Deming NM and Alamogordo NM are able to access both El Paso TX and Albuquerque NM television news, just not Las Cruces. Las Cruces is the second largest city in the State and we are limited in many ways due to this situation. Please consider a NM news channel for the residents. Thank you

City/State/Zip: Las Cruces, New Mexico 88011

Company Complaining About: Directv

Description

Las Cruces New Mexico is located in the south east corner of New Mexico. We cannot get any state legislative news out of Santa Fe and Albuquerque because their news shows are not allowed to transmit here, we "have" to watch news from El Paso, Tx. This has been a problem for years but marked inconvenience due to COVID19. For example when our governor makes announcements about businesses and protective measures in our state we have to listen on the internet. The only live communication we see this the governor of Texas and the mayor of El Paso who's rules and announcements are irrelevant. Please consider fixing this. Insist the local cable companies broadcast at least one Albuquerque or Santa Fe station.

Ticket: # 3974758 - Billing dispute with Spectrum

Date: 5/14/2020 12:26:37 AM

City/State/Zip: Santa Monica, California 90405

Company Complaining About: Spectrum

Description

I left my apartment in December 2020, and subsequently notified Spectrum that I would be terminating my account (until I had a new apartment and would like to renew my service). Over subsequent two months I believe I was overcharged for my final bill, and was forced to call Spectrum three times to resolve without success. I also told them that I had moved out of my old address. I have since called Spectrum three times to try to resolve the billing dispute, and spoke to customer services on each occasion. On the first occasion I was put through to another department, and cut off. Second time I was cut off. I then made two online efforts to resolve, but I got no helpful answer. Subsequently (today) I spoke to the first customer services agent who was actually helpful - she told me that if I pay \$162 for the bill owing, which is the amount on my bill today, and reuse the hardware I have in my possession (at my new apartment) the billing issue would be resolved, the hardware fee would be waived. I was happy, and thankful, that finally the issue was resolved satisfactorily. She then put me through to the reconnection department who claimed they could not hear me and cut me off. I immediately tried to reconnect with customer services again online (same day) and this time was told that my previous bill had been handed off to a collections agency! I was pretty shocked as this is the first I heard of it, especially because by this point I have contacted Spectrum more than 5 times trying to resolve the issue, and it had never been mentioned. Spectrum, on the other hand, have done literally nothing and not contacted me once. They are now telling me that I need to connect with the collection agency and 'it is no longer in their hands', but they are unable to tell me which collection agency it is 'because it was not noted on the computer'. How am I supposed to deal with this? I am isolated at home because of COVID 19, I believe this entire situation is due to Spectrum negligence and this is turning into an absolute nightmare. And yet, it always seems to be on me to resolve. Can I PLEASE get a resolution to this awful situation? Thank you.

Ticket: # 3974779 - AT&T cancelled my "Unlimited" Mobile Internet Data plan without warning or consent

Date: 5/14/2020 2:34:08 AM

City/State/Zip: San Diego, California 92106

Company Complaining About: AT&T

Description

I have been a continuous subscriber of AT&T's Unlimited Mobile data plan since it was introduced alongside the iPad 1 in April 2010. This plan originally offered truly unlimited data transfer, without throttling or network management. It was only available for a limited period of time in 2010, but anyone that originally purchased it and continuously maintained the plan was allowed to keep it in a "Grandfathered" way. However, AT&T did everything possible to get people off this plan, for example cancelling it for non-use or if your billing details were not up to date. In short, they didn't want customers on this plan anymore and did everything possible to discontinue service.

In 2017, the plan was modified from its original unlimited, un-throttled data to be network managed after 22 GB, similar to the then current "unlimited" practice. Despite its change from original terms, this 22 GB was not a hard cap, but network management, solely during times of peak traffic. At no time was an upper data transfer limit described.

AT&T has now started cancelling heavy use subscribers of their unlimited data plan, without notice, during a pandemic, and using fraudulent and deceptive reasons for the cancellation. This has now happened to me after using approx. 600 GB in one billing month from April - May 2020. Their email explanation for the cancellation (see attached) explains it was "based on your request" or for "non use". This is a lie. They are cancelling people for using it too much and hoping people won't complain. Their email also states that people can "resubscribe", but of course that plan is no longer available.

I wish to lodge an FCC complaint against AT&T for 1) Their unwillingness to deliver the "unlimited" service promised under the original terms or updated network managed terms, 2) for using deceptive tactics as part of this cancellation (instead of saying I was using too much, they have lied and said I wasn't using it or asked for its cancellation), 3) cancelling the service prior to the end of the plan period (they cancelled on 5/8/20 - and it is paid through 5/15/20, and 4) doing so during the Covid 19 Quarantine / Lockdown time period, in which commitments have been made to not cancel services. This is unacceptable behavior and is happening en masse to customers who AT&T doesn't want to provide service to - flying in the face of earlier FCC agreements to deliver what was promised to customers, even if it isn't convenient or profitable to do so.

The only solution is for AT&T to restore service not only to my account but all other "Grandfathered Unlimited" accounts affected by their deceptive cancellation practices. I would end by reminding AT&T of the FCC comments from 2014. "AT&T promised its customers 'unlimited' data, and in many instances, it has failed to deliver on that promise," said former FTC Chairwoman Edith Ramirez back in 2014. "The issue here is simple: 'unlimited' means unlimited."

Ticket: # 3974790 - Internet interruption/Keep america connected

Date: 5/14/2020 3:33:23 AM

City/State/Zip: Henderson, Nevada 89011

Company Complaining About: Cox

Description

On 5/14/2020 Cox communications had disconnected my services due to non payment, they where informed on 4/13/20, due to loosing my job i would try to make payments , i made a payment 5/13/20 and they still disconnect me, they also sent me a email about the keeping america connected amd waive late fees on 3/9/20 , everything was shut down due to covid 19 which led me to loose my job i texted them on support text and they wanted me to pay them before turning services back on, keep in mind Cox pledge to KEEP AMERICA CONNECTED threw these hars times.

Ticket: # 3974803 - Counterfit products being sold on Google and Yahoo

Date: 5/14/2020 6:08:33 AM

City/State/Zip: Tampa, Florida 33611

Company Complaining About: Google

Description

I have been frequently seeing suspect advertisements on Google and Yahoo for masks with NFL team logos on them. I have a degree in Advertising from a top-10 US public university so I know a few things about advertising. The first thing that made me realize these advertisements are suspicious is that they do not include the official NFL logo on the advertisement, meaning the masks are likely using the NFL's images without their permission and therefore are counterfeit goods likely made and sold by a Chinese entity trying to amass huge profits during the COVID-19 pandemic. The advertisements themselves don't appear that different to the average person, but to me they seem to be out of place, as if they were designed by someone who doesn't use English as their first languages. For instance, the name of the company whose name I captured from Google's Ad Choices feature is "American Sport Stuffs". Why would you call it stuffs? It should be American Sports Stuff, but they added an extra S to stuff and omitted the last s in sports because they don't speak the language regularly. Also, they don't have their own website, as a Google search of "American Sport Stuffs" doesn't provide a website, phone number or physical address for this company. That is the whole point of internet marketing, to make your business's contact info found easily, but this company is hiding, only generating sales directly through clicks from users of Google and Yahoo. Please investigate American Sports Stuffs, as well as Google and Yahoo for featuring these counterfeit advertisements that put money in the coffers of Google and Yahoo but take away money from US entities like the NFL and each of its' 32 teams and thousands of employees. Google and Yahoo are harming Americans by featuring scam advertisements like these because unsuspecting Americans are clicking on these scam advertisements and purchasing them online from God-knows-where and that causes their financial information to be compromised.

Ticket: # 3974908 - verizon shut off of my phonevservice.

Date: 5/14/2020 8:41:10 AM

City/State/Zip: Plympton, Massachusetts 02367

Company Complaining About: Verizon Wireless

Description

Verizon wireless has shut off my phone twice now and charged a \$80 reconnect fee even though i told them the last time they shut it off i would having trouble with finances due to covid-19 shutdown. They are not honoring there pledge to keep people connected.

Ticket: # 3975095 - Misleading, deceived, and lied too.

Date: 5/14/2020 10:47:04 AM

City/State/Zip: Mount Laurel, New Jersey 08054

Company Complaining About: Comcast

Description

Misleading, deceived me by granting me to make a payment in the amt of \$150.00 on 5/15/2020 after I told them I am working from home due to COVID-19. Instead I woke up on 5/14/2020 and my services were disconnected. I connected the Executive Services and was told that since I did not make a payment on 5/11/2020 my services has been disconnected and placed in some program due to the COVID-19. I asked for the call to be reviewed. The call was placed to the Executive Office 215-586-0515 on the day after I made my last payment I believe on or around 4/30/2020 or maybe on 5/1/2020. I was ensure none of my services would be disconnected. They violated the FCC Compliance policy and I want justice. There are no telling how many other customers they do this to.

Ticket: # 3975128 - Issues with switching carriers

Date: 5/14/2020 11:01:39 AM

City/State/Zip: Far Rockaway, New York 11691

Company Complaining About: Verizon Wireless

Description

On 4/27 I switched from Verizon to T-Mobile & activated he service on 5/2.I called a few days later & since I had been previously told I could return the phone to a Corporate store,called around 5/4 & was told a store in Lawrence,N.Y.& when I arrived there it was closed because of the pandemic.I called again the next day & a shipping label was supposed to have been sent to send the phone but to date It has not been received.On 5/13 I received a bill for \$30 that was due on 5/1 in addition to the \$121.68 for the previous bill which was posted to my bank account on the 5th & paid the \$30 on the 13th.

In addition,I had prior arrangements to end the serviceson 6/6/20 but being that I activated the new service on the 2nd,Verizon didn't terminate them until the 9th.

I will be emailing emails when I get the case #.Thankyou.

Sincerely,

(b) (6)

Ticket: # 3975179 - Set up phone service with suddenlink in west virginia

Date: 5/14/2020 11:19:37 AM

City/State/Zip: Nitro, West Virginia 25143

Company Complaining About: Sudden Link

Description

On 03/25/2020 I called suddenlink in west virginia to start phone service. Mine and my husband's jobs has started to begin having us work at home due to state closures because of covid 19, as a result my husband lost hours, when I requested new services I requested an estimate of the bill increase and was told the increase would be 10\$, when I received my next bill it was for 172\$ a 72\$ increase. I called and requested atleast some of the bill be reduced because I was misinformed and could not afford the bill due to reduced hours and was informed it would be much lower. The agent agreed to waive the 25 install fee I was never informed of and 14\$ additional charges I was never informed of. As of today, only 17\$ has been waived. I have asked to speak to an esc rep, as I was told they were the only ones able to adjust the bill, I have called 4 times and placed 4 call back requested, havent received a single response. I have been given the runaround, lied to by numerous agents about the bill, and still have a bill too high to afford sue to losses wages and being set up on a phone plan but lied to about the cost of said plan.

Ticket: # 3975333 - Canceled Service**Date:** 5/14/2020 12:10:47 PM**City/State/Zip:** Tampa, Florida 33612**Company Complaining About:** Frontier Communications

Description

I canceled my internet service with Frontier Communications on 2/12/2020. The billing cycle ended 2/10/2020. In March, rather than send me a prorated bill for the two days of service used, Frontier sent me a bill for the entire month. I attempted to contact the company; however, CSR availability was limited due to the coronavirus. Frontier is refusing to prorate my bill. When I canceled service on 2/12/2020, my internet service was disconnected. Why did Frontier Communications charge me for entire month of service when I was no longer able to access it? I would like to Frontier Communications to make the appropriate adjustments on my account.

Ticket: # 3975370 - Exorbitant cost to bring internet services to my home, We need a reliable internet option at a reasonable price!

Date: 5/14/2020 12:22:34 PM

City/State/Zip: Wayland, Michigan 49348

Company Complaining About: Charter

Description

My wife works for Michigan State University Extension and we have 3 children who attend elementary and middle schools and desperately need internet service in today's world with the covid 19 virus. I have been speaking to charter internet for over 10 years to try to get them to offer me services as my neighbor at the end of my property has charter internet services. Approximately 600 +/- feet from my home. They have quoted me a cost of over \$36,300 dollars. I am not a rich man and can not afford this expensive cost. Could you please help me so my family can survive in today world ? We are not asking for anything extra than just the ability to have a reliable internet service at a reasonable cost. PLEASE HELP MY FAMILY!!! Thank you! The Minch Family

Ticket: # 3975495 - Mediacom Communications**Date:** 5/14/2020 1:00:59 PM**City/State/Zip:** Indianola, Iowa 50125**Company Complaining About:** Mediacom

Description

Mediacom signed with the first roll out of agreements that internet providers would not disconnect customers during the COVID-19 pandemic due to children being home from school and doing online learning, or others working from home. I called customer service during the beginning of everything because my internet was disconnected, they said they were still disconnecting people during this time because they had to call and request this pause in disconnecting, in the initial release of this it was nowhere in the description.

They recently stated that they were pausing data caps and disconnects through June 30th 2020 in an extension agreement. This time they did include customers had to call and request it. My husband is just now getting back to work but we are nowhere near where we need to be in terms of paying the bill in full yet, so to buy some more time to get us back on track I called for the June 30th extension. There is no extension, if you request this, it is actually a request to downgrade your service, but also does not stop disconnections, even after I stated my children are still doing online learning for the time being. There also is apparently a required past due amount in order to even qualify for this, that also was not in the new agreement release.

There are several customers stating Mediacom is still disconnecting customers during this time despite requests that they can't pay their bills right now and have members at home that are required to use the internet for work or school.

Mediacom personally modified their agreement themselves as of yesterday May 13th stating monetary amounts to qualify, this was told to me personally by the customer service representative, Michelle, that I was speaking with on the phone, I checked their website and social media for this, still no update.

Now I have to somehow find the money to pay everything at once or face the disconnect and my children unable to complete the 2019-2020 school year.

Ticket: # 3975513 - Ips

Date: 5/14/2020 1:04:31 PM

City/State/Zip: Scio, New York 14880

Company Complaining About: Viasat

Description

Viasat disconnected very fast before I could pay the bill. Covid leaves us low on funds. Viasat is our only source of communication. They said I had to call them and request to have it turned on. My mother paid online. They said I should give out my personal info to someone who could do it for me. They wont reimburse my family. Agent disconnected me at her convenience.

Ticket: # 3975563 - at&t directv service

Date: 5/14/2020 1:24:44 PM

City/State/Zip: Oakdale, California 95361

Company Complaining About: AT&T

Description

I think it is very sad how at&t is treating there customers like me that is self employed and has no income coming in and living off there mom to help us out right now in this tough time , so they stop my service for non payment witch is fine but when I called on behalf of there pandemic relief deal they have they said I had to pay the past due first in order to proceed and to make a payment over the phone they still wanted to charge me a \$5.00 fee with the agent witch should be waived at this time so I had to tell them what im going through right now just to waive that fee so basically at&t is not helping there customers like they say they are. comcast is helping me , ford is ally is Verizon is and my mortgage is to but not them.

Ticket: # 3975607 - Disconnected Services During Covid 19

Date: 5/14/2020 1:46:03 PM

City/State/Zip: Oak Park, Illinois 60302

Company Complaining About: AT&T

Description

AT&T disconnected my services May 14, 2020, this after AT&T sent out letters stating they will NOT be disconnecting any services during the Covid 19. I was on hold from 11:22am to 12:03pm. AT&T are guilty of false advertising and defrauding the public.

Ticket: # 3975661 - AT&T FALSE ADVERTISING DURING COVID 19 PANDEMIC

Date: 5/14/2020 1:58:53 PM

City/State/Zip: Oak Park, Illinois 60302

Company Complaining About: AT&T

Description

AT&T sent out letters to customers stating no AT&T services will be disconnected during the Covid 19 pandemic. On May 14, 2020, my services were disconnected. I am a small business owner in the downtown area of Chicago and have not been able to work since March 23, 2020. Spoke with AT&T representative Karen KD029T May 14, 2020. Our call began at 11:22am to 12:03pm at which time she told me she could not restore my services due to the outstanding bill of \$547.45. I informed Karen that this is not honoring the information that AT&T sent out with the last bill promising not to disconnect services. She then says, that applied to bills that didn't already have a balance. I told her that was not the language stated in the letter. It simply stated no services would be interrupted During the Covid 19 pandemic to which AT&T lied.

Ticket: # 3975706 - Cutting off service to a minor without notice or consent from owner of AT&T WIRELESS account.

Date: 5/14/2020 2:17:20 PM

City/State/Zip: Del Mar, California 92014

Company Complaining About: AT&T

Description

I have my 13 year old Granddaughter on my AT&T account. As described in the attachment TWICE they have cut off her service without notice to me for reasons unknown. The first time she had no way to contact her mother when her Jr Hs was being EVACUATED because there was a gunman threat. And again yesterday when she was stranded at soccer practice during a pandemic. I've enclosed a chat with AT&T promising me an email yesterday to ensure correction. Never got an email. This is a safety issue for a minor and I want an analysis of my account to prevent this from happening again. Please ensure AT&T compliance.

Ticket: # 3975716 - T-Mobile Billing**Date:** 5/14/2020 2:19:12 PM**City/State/Zip:** Bronx, New York 10457**Company Complaining About:** T Mobile

Description

The consumer wants to file a complaint against T-Mobile her phone provider.

The consumer states that in March she made a payment of \$145 before COVID-19.

The consumer has never missed a payment.

The consumer states that once COVID-19 came around, they started helping consumers waive fees.

The consumer states that they charged her \$278.50 for March and for April \$241.00 and now for June they say she owes them \$800.

The consumer states they tell her that she had past overdue charges.

The consumer states that she also bought her daughter a ZTL phone and was told that the phone could be "join on demand" for a different phone as long as she pays half of the phone.

The representative told the consumer that they weren't able to do that because the phone was on a lease.

The consumer states that they never told her the phone was on a lease.

The consumer's daughter then lost the phone at the park, and she called to get the phone replaced.

They told the consumer that they were unable to replace the phone because it was on a lease.

The consumer wants her phone bill adjusted to the correct amount.

The consumer has always payed all of her bills on time, and she always pays them in 2 parts.

The consumer does not have past due balances.

The consumer states that they charge her \$5 for every payment.

The consumer wants to get a replacement phone for her daughter, because they never told her that the phone was on a lease.

If the consumer would have known that it was on a lease she would have never bought it.

CTR-415

Ticket: # 3975720 - Suddenlink Communications-Complaint**Date:** 5/14/2020 2:19:52 PM**City/State/Zip:** Austin, Arkansas 72007**Company Complaining About:** Sudden Link

Description

I have had Suddenlink Communications for Internet only for 13 months. My bill was \$68/month for "Internet 100". Suddenly, without any explanation, my bill is almost \$100 per month for the same "service" -- the service that works at about half speed. I have tested my internet speed. I have tried calling Suddenlink and was on hold for the billing department for almost an hour and a half Monday, May 11, 2020. I took a screenshot of how long I was on hold (see attached). I wrote them a letter asking them to call me and explain my bill. I have seen hundreds of complaints about Suddenlink's service, lack of customer service, not being able to reach a customer service representative, missed service calls, poor internet speed, etc. I have had enough. They disconnect my service and charge me a "late fee" AND a "reconnect fee" every single month but I have no way to contact anyone. Monday was my last attempt before contacting the FCC (and Arkansas Attorney General). I am being overcharged and do not have the service I am paying (almost double) for. I cannot reach anyone to speak with and they consistently charge me these additional fees because they choose to not answer the phone. As I said, I have seen hundreds of complaints about the exact same issue, among others, and I stand ready to file a complaint against them in court if I cannot get any results by contacting the FCC, FTC, and/or Attorney General. I would like my bill adjusted, I would like the Internet speed that I pay for, and I would like them to change their deceptive billing practices. This is a HORRIBLE company, but unfortunately I have no other options. Now that I am trying to work from home because of the pandemic, it has become a huge issue for me - I have had to pay these enormous bills just to keep working and not lose my job! They have literally shut my service off during the COVID pandemic! I did not think that was legal. I would appreciate any help from the FCC, FTC, BBB, or any other agency before filing a lawsuit. Thank you for your time and attention to this very important matter.

Ticket: # 3975727 - COMCAST bill gouging

Date: 5/14/2020 2:21:43 PM

City/State/Zip: Madison, Connecticut 06443

Company Complaining About: Comcast

Description

Comcast bill jumped from \$159.80 to \$171.60 with no ability to renegotiate lower rate and retain same services. Spoke with customer service rep Marcia who did not offer the same package for what I was paying prior. Fees/taxes go up in January but not explanation (other than corporate greed) as to why they would not be able to keep my bill as it previously was for same services. Horribly unethical company price gouging customers as they know many are working from home and need internet at least, which COMCAST has a monopoly on. The government needs to create more competition so companies like COMCAST are unable to take advantage of customers, especially during a pandemic. The most corrupt company I have ever dealt with.

Ticket: # 3975745 - Children falling behind

Date: 5/14/2020 2:25:33 PM

City/State/Zip: Saint Johns, Michigan 48879

Company Complaining About: Frontier Communications

Description

Since COVID-19, my two children are forced do online learning which is lacking among itself. That beats the alternative of them trying to teach themselves with packets of paper lessons that he district provides. Yet Frontier Communications still refuses to to provide me with the 6mb down that I pay for or hook me up the the 25mb down that is only a few hundred feet away from my house.

Ticket: # 3975818 - Unauthorized Charges for Services not Rendered**Date:** 5/14/2020 2:47:10 PM**City/State/Zip:** Pittsburg, California 94565**Company Complaining About:** Comcast

Description

I had originally ordered internet services through Comcast aka Infinity. I received the services for One entire day at the beginning of the Pandemic. An Irrate customer service rep shut my services down for a service from 3 years previously. Due to the COVID 19 I am able to leave my home and have underlying health conditions. I asked for them to pick up their equipment that they shut off and no response. Well on May 3rd they went into my account and took out \$219.00 without my authorization. I never received the services as originally agreed. Their web page stated as long as you haven't had past services within the last 6 months you are eligible for services. I was cleared and services rendered for one day until the disruption. Shady Comcast!

[Ticket: # 3975829 - att refusing to switch billing plan without physically going to a corporate store](#)

Date: 5/14/2020 2:49:23 PM

City/State/Zip: Takoma Park, Maryland 20912

Company Complaining About: AT&T

Description

Our household has 3 immune compromised members. ATT offered a \$15/mo prepaid plan which would served Shari, my partner and my needs. We are both on one bill in her name. While her # was no problem to move to the new plan, they were requiring me to go physically to a store to make this administrative change. ****note**** the primary corporate store near me in Silver Spring MD has been voluntarily closed due to the pandemic!

I initiated this change before the start of another billing cycle, and yet, adding insult to injury, another month's charges have accrued.

All I want is assistance making the plan change and to have these new charges reversed.

Ticket: # 3976020 - propaganda call

Date: 5/14/2020 3:39:42 PM

Ticket: # 3976044 - Harrassing phone calls

Date: 5/14/2020 3:44:39 PM

City/State/Zip: Lake Jackson, Texas 77566

Company Complaining About: Card Services

Description

Another thief telling me that since I have such a great payment history, they are going to give me a zero interest! Yesterday they told me that because of the pandemic, I didn't have to make a payment! Most of the time they call from numbers that have been discontinued. Yesterday they called from the bank that we use! I am sick and tired of these creeps, but mostly enraged because I know that they get some poor souls to fall for the crap they are dishing out. Please find a way to put a stop to this!

Ticket: # 3976079 - Complaint on Spectrum/Charter Services**Date:** 5/14/2020 3:57:32 PM**City/State/Zip:** Fairhope, Alabama 36532**Company Complaining About:** Spectrum

Description

I made attempts to reach Spectrum to cancel service on 4/15 and 4/16. The wait time to reach a representative was extremely long due to COVID. I went their website to see if I could cancel service, even tried the chat feature they have, but the message says they cannot cancel services online and one must call 833-267-6094 to cancel service, which I did try. I sat on the phone waiting to speak to someone for over 20 minutes one day and the same the next. My complaint is that I made attempts to reach them prior to the next billing cycle, which was 4/17/20. I moved out of my house and ceased using internet service with this company on 4/14/20. My equipment was mailed back to them via UPS on 4/22/20. My husband was not able to get through to a live rep until 4/19/20. Because the cancellation request was received on 4/19/20, two days past the beginning of the new cycle, Spectrum is charging me for an entire month's service, \$119.99. I am filing this complaint because 1) they only have 1 source for a client to cancel service... the phone. They need more options for a client to be able to cancel a service other than just the phone. Especially considering there is a pandemic at the time causing higher than usual wait times. 2) how is it even right for a company to charge you an entire month for only 2 days of service? I have made several attempts today to speak to a rep, then her manager and then the manager above that manager and no one was willing to help prorate my bill for the 2 days of service. They said they would need proof that I tried calling in, which seemed pointless to me because the lady said they wouldn't have known to cancel the service without me actually speaking to a representative. So what point would proving I made many attempts to reach them have helped me in any way? My phone call history does not go as far back as when I made those calls.

Ticket: # 3976080 - Cox cable misinforming

Date: 5/14/2020 3:57:40 PM

City/State/Zip: Gainesville, Florida 32607

Company Complaining About: Cox

Description

I saw Cox said they would not disconnect for hardship right now. I called for assistance and they said they were unable to stop anything when I asked for a couple extra days. I spoke to 3 people who were all unable to assist me and basically told me the disconnections were still happening. So on top of my faulty equipment Cox lied to everyone in a pandemic.

Ticket: # 3976175 - Cricket Wireless

Ticket: # 3976351 - Call From AT&T Office of the President

Date: 5/14/2020 5:38:17 PM

City/State/Zip: Oak Park, Illinois 60302

Company Complaining About: AT&T

Description

Today, I received a call from Reno Childs from AT&T's Office of the President at 4:12pm CST. My Childs immediately began to defends AT&T defaulted promise. AT&T vowed not to disconnect any services during the COVID 19. My Childs number is 1-469-377-1226. I informed Mr. Childs that there needs to be a cohesive message from the hierarchy to the phone representatives. I just spoke with AT&T last week and was told not to worry and I wouldn't have to make arrangements until after May 25, 2020. Again, AT&T have lied to the public regarding no disconnecting services during Covid 19.

Ticket: # 3976361 - Threats to disc my service**Date:** 5/14/2020 5:42:27 PM**City/State/Zip:** Hackettstown, New Jersey 07840**Company Complaining About:** Comcast

Description

I recieved a threatening letter from Xfinity today threatening to disconnect my residential service for using "a mechanized dialing service"! I called Xfinity 877-842-2107 to ask what exactly is a mechanized dialing system. They told me that my account, (b) (6) is "making more calls than I am allowed too". I went from one rep to another and they did in fact confirm my service can be disconnected if this continues. I assumed maybe one of my children was doing something on XBOX, but that was isnt the case.

I then realized exactly what is happening. My wife was furloughed to the Coronavirus in April. She has not been able to get through to the NJ Unemployment department. She has not yet been paid. The calls these people want to disconnect my service for, are the desperation of a housewife and mother, trying to get information on her NJ Unemployment. I advised the person speaking to me to Google "NJ Unemployment problems" and read some of the horror stories people in NJ and across the US are dealing with. He was obviously not US based and had no empathy or understanding.

Utility companies are bending over backwards to help people, as are banks, mortgage companies and food businesses. Xfinity is threatenting to disconnect my service for making call after call to the NJ Unemployment numbers. I advised "Richard" that in addition to our landline, my cell, my wife's cell and even my 13 year old's cell have been calling non stop for my wife's benefits. I have no missed a mortgage payment or anything. I have excellent credit, as does my wife. We havent missed any Xfinity payments either. How dare this utility threaten to disconnect service during a national emergency and pandemic! The State of NJ is still on lockdown.

This company cannot disconnect the lines of poor souls trying to get money for food and bills! Please tell me the FCC can weigh in to put a stop to this. This is an insult and horrible treatment of customers. They did even offer an "I'm sorry". I mean, pretend to show empathy and understanding. This company is horrible. I should not be threatened and treated like we did something wrong. Xfinity should advise their security people what exactly is going on in the US. I even asked him if he called any of these numbers to confirm they are NJ Unemployment. I'm so angry right now. My wife is upset and crying. Are you kidding me?! One of the guys I was speaking to was asking for my voicemail PIN! As if he was going to play my messages. I told him I would never give any PIN to anyone over the phone.

Ticket: # 3976391 - fox late afternoon news host

Date: 5/14/2020 5:56:00 PM

City/State/Zip: Midlothian, Virginia 23112-7319

Ticket: # 3976547 - Xfinity Cable

Date: 5/14/2020 7:33:53 PM

City/State/Zip: Acworth, Georgia 30101-6284

Company Complaining About: Comcast

Description

I have not had cable for 7 weeks. I have been calling you all and getting the run around since Thursday, April 2nd. Xfinity sent a tech out to my house twice. The first tech brought a cable box in a trash bag when we had already determined that our box was fine. The first tech never even entered our home. The second tech came out on Sunday and told us that our outside lines were bad. He also replaced a moca filter with no success. The tech also replaced wires in the house and removed an ampler that was no long connected to anything. We were told that a supervisor would call us or come out to our home on the following Monday or Wednesday. That has not happened. We have been without cable services for the 49th day yet Xfinity continues to call, email, and text "Overdue Account" notifications. We have called Xfinity 2-3 times a day for 7 weeks. We have attempted to go the the Xfinity store on two separate occasions and was not allowed inside due to COVID-19 concerns. So now that 49 days have passed and our cable bill is past due, Xfinity is threatening to disrupt services that we are not currently receiving on May 24th which I imagine will add on a reconnect fee when Xfinity finally gets around to resolving our issue. Please help us. I am a Social Studies Teacher and Disabled Marine Corps Veteran. I would love to be able to watch the local and national news on a daily basis to know what is going on in the world. Please help my family.

Ticket: # 3976588 - Sprint won't stop sending bills for closed account

Date: 5/14/2020 8:02:57 PM

City/State/Zip: Kent, Washington 98030

Company Complaining About: Sprint

Description

We instructed Sprint representatives to close our account in November of 2019, and confirmed it would be current/closed with no balance.

We were sent to collections in error in March 2020. We were then promised through several interactions that our account should have been closed out, bills continued in error, and they would fix the issue and we were good to go (can provide interaction numbers upon request).

As of today, 5-14, I have been dealing with customer service via the slowest chat responses imaginable (phones are unavailable due to staff shortages, COVID-19 related I'm sure) for over 3 hours, where they are proceeding to tell me I never requested the account be closed. Despite being told by 4 previous supervisors that the account was A. Closed, B. At zero balance, and C. that we'd not see another bill.

This is insane - I've spent over 24 hours dealing with customer service over something that should have been done the first time. To fix this: ensure my account was closed completely, zero out anything on your end that remains open due to your errors, and never contact me again.

Ticket: # 3976599 - AT&T Disconnection and Late Fees

Date: 5/14/2020 8:16:16 PM

City/State/Zip: Tigard, Oregon 97223

Company Complaining About: AT&T

Description

Despite AT&T's promise to uphold the FCC's request to stop disconnections and late fees during the pandemic... we received a text from Accounts demanding payment and threatening suspension of service, and when I reviewed the bill, there was a late payment charge... albeit small, it was there, billed on 4/21/20.

Just wondering if anyone else is being bullied by Accounts?

I have copies of the texts and statements, but this form's uploader wasn't working.

Ticket: # 3976732 - Unlimited account cancelled twice

Date: 5/14/2020 10:17:14 PM

City/State/Zip: Spring Valley, New York 10977

Company Complaining About: Red Pocket Mobile

Description

We purchased a monthly unlimited calling plan from Red Pocket Mobile for my son. His phone got shut down four days ago. We called Red Pocket who told us it was because he used too many minutes. The phone is currently used for his remote schooling due to the pandemic. I explained this to them and they said to send an email and they would restart it. They finally restarted it this evening but after two hours it got shut down again. We asked if his month can be extended or if there is any way to avoid this problem but we got no answers.

Ticket: # 3976772 - Frontier Communications won't provide service

Date: 5/14/2020 11:03:54 PM

City/State/Zip: Arlington, Washington 98223

Company Complaining About: Frontier Communications

Description

FRONTIER NEEDS TO PROVIDE PHONE AND INTERNET TO OUR HOUSE. I was told that this property was served by Frontier prior to building my new home. When I finally moved in during December 2019 we made sure cables were run from the Frontier Communications pedestal on the corner of our property into our home. During January 2020 we selected a phone and internet plan with Frontier. After multiple appointments scheduled to install service (which were either no-show or canceled by Frontier), we were contacted and told that they were unable to install service. Evidently the reasoning is that they have lines in our development running to our property, but somehow don't have enough "lines in the street" to connect us to service. I believe every single house in our neighborhood of 17 homes has service from Frontier as Frontier is the company that brought lines into the plat when it was done. No other company brought lines in when the plat was done, and I am sure Frontier had to execute an agreement saying they would serve the homes in the neighborhood and maintain their equipment, yet they are unwilling to provide us service. My understanding is that they don't want to run any more lines in the street to connect to our neighborhood, and a Frontier engineer told me that there are a couple of homes in the neighborhood who have been connected to "multiple twisted pairs" meaning that before all houses were built, some homes used their dedicated lines plus more in order to improve their speeds (which evidently Frontier must have unfairly allowed). My family and I are now in a situation with COVID where both my school-age daughters are unable to school from home and my wife and I have to work from home as well, and we are unable to do that. This is a serious issue and isn't right, that Frontier contracted to provide service to the properties in this neighborhood and will not or cannot serve my home. I live in a gated community and am a few hundred yards from Interstate 5, and how can I not get phone service or internet when they agreed to serve this neighborhood? That isn't right! I am only about 1700 feet off the end of a runway at Arlington Airport... how can I not get a land line? Frontier needs to solve this issue right away. Just because we are only 1 home in a neighborhood doesn't mean they can choose not to serve only us. My kids need to be able to complete school online just like the rest of the kids, and I need communications to do that.

Ticket: # 3976774 - insufficient service /poor customer/tech service /pixelation from the main line

Description

i was contacted by charter i return the call no answer they sent two memos i replied to the first memo no reply ,i called a local number i received a call from a local number i asked the gentleman from spectrum did some one call me from this number he said no one call from this number i spoke to customer service rep she told my rates were grandfathered in because my promotion ran out of promotion and the rates i have is what i have settle with but before they bought the company they said our rates would not be raised i had three tech"s come to my house each tech came up with a different solution since january they never check the main line outside of my residence where squirrels usually eat the line and when it rains service is poor after the rain after storms service is poor when raining for days overall i contacted my senator office because this is a ongoing problem since this company took over i have pictures of the pixilations and memos .with me being a high risk of underlying conditions from issues occurred while i was in campaign serving my country and covid-19 put me at risk my realties in lake city has the same problems of pixilation and neighbors on my block i am coming to make a decision of changing , a investigation needs to be done as they refer you to executive branch that has Reps that stick to script that is not beneficial to the consumer

Ticket: # 3976834 - JUNO Email Screen Freeze-Up Due to Too Much Scrip Advertising

Date: 5/15/2020 3:38:34 AM

City/State/Zip: Philadelphia, Pennsylvania 19152

Company Complaining About: Juno.com Free Email Service, Formerly Net.zero.com

Description

I am a senior citizen, and I some times must rely on email to do many things theses days. I could not even open an AMAZON account due to Juno screen freeze-ups that lasted over an hour, even with an Amazon Helpdesk person on the line waiting with me for the Juno email screens to load every 15 minutes or so. I do not believe they should be allowed to virtually disable communications by flooding accounts with on-line advertisements to such a degree. With COVID-19, Communications is vital, and Juno is interfering with it for the greed of advertising dollars. Isn't there a limit to what Juno can get away with ?

Ticket: # 3976837 - Major still ongoing problem with AT&T landline phone billing

Date: 5/15/2020 4:52:33 AM

City/State/Zip: Oakland, California 94610-1354

Company Complaining About: AT&T

Description

******Since this very long description needs editing as, I think it would be much more useful to the personal at the FCC and AT&T if I were to attach an MS word file attachment that I wrote & would likely be easier & more logical for others on your end to read. Thus if you think the file attachment is more clear and easier to read, ignore the long description below and use my MS word file attachment to send to AT&T which is the party about whom I'm addressing my complaint. read below if you desire!!! I've had and still have landline phone service with the same line and phone number since December, 1994 which is about 26 years. My landline phone service was great for about the 1st 15 or so years until AT&T involved themselves (that is to say they took over my service from SBC Global). SBC Global was reasonably priced, Their customer service was also great, helpful and pleasant which was great and I didn't have to argue or beg for repair service when my phone's external wires caused my phone system to not work well or not work. I would say that if I needed to call SBC Global, my former phone service provider & had a phone problem SBC Global would send out a repair technician who would gladly come out to find and fix the problem with my internal and external wiring, phone jacks or wiring in their outdoor box/station. The SBC technicians stick around in order to make certain that their repairs worked perfectly. Their customer service was also great, helpful and pleasant which was also true for the SBCglobal repair technicians.. OK...Here's the scope of my major ongoing problem with AT&T in a nutshell. From about September through December 2018 & January 2019. My land line phone service began to have terrible static to the point of not being able to have phone conversations due to the degree of the noise of the static which made it near impossible to have a back and forth conversation with another person as the static drowned us out and garbled everything each persons words within the conversation. The static was so bad that when anyone would call and leave a message on my voicemail, the voicemail messages were also indecipherable from the static. Thus after not being able to put up with not being able to use my phone for 5 months due to the degree of static, on February 4th, 2019 since I could no longer bear dealing with the problem with the phone static, I called the AT&T repair number, pressed several prompts requested by their robot computer and then was asked to hold briefly so that AT&T's computer system robot can send a signal to or through my phone to check out whether or not my phone or phone wires were in order. About 4 - 7 hours later, I received notice that I had an AT&T repair appointment for February 5th, 2019 from 8:00 AM and 12:00 PM. I was awake extremely early to make certain that I would be awake and present in case the technician needed to contact me as well as my being home to let the technician in so that he/she can diagnose and fix the problem with my phone. I sat around waiting for the technician who never showed up during that 2/5/2019 morning and left me hanging without even bothering to let me know that he/she would not be coming to my home so that I wouldn't have to sit around wasting time until 12:00 PM which caused me to miss even more work along with the disappointment & disgust from my co-workers. I spent a good deal of time trying to contact someone at AT&T who might deal with repair appointments in order to find out why the technician did not show up at my home. I explained what occurred and asked her if she could connect me with the repair or appointment department. The rep with whom I spoke connected me to another department where another rep found out something was wrong with my appointment but she didn't say anything specific. She had someone set up another morning 8:00 AM -12:00 PM repair

appointment for February 7, 2019 about which I was stood up once again by another repair technician and lost another day of work while waiting for the technician who didn't care to contact me not come to my home. THIS WAS THE FINAL STRAW FOR ME. I followed up by sending a complaint to the FCC about my problems with AT&T in regard to having(AT&T) actually get my phone repaired immediately no matter what. In my FCC complaint, I stated that I refuse to pay AT&T money for a service that I couldn't use given that it's not functioning well enough to be able to use it during that period. Since my phone had so much static that I'm unable to converse on it about 80-90% of the time, I'd be throwing money into a deep pool of quicksand for paying for a service that doesn't work nor paying a company that collects money while not caring that the service that they're providing is faulty because they really don't care. Roughly several days later, I was contacted by a representative from the AT&T office of the Vice President who seemed to want to find a resolution for my above mentioned problem, He told me that he would try to have a technician to be sent out at some point to take a look at the lines & try to diagnose the problem with my phone. However, I found out several weeks later that when this technician came out to diagnose my phone problem, I was away from home having surgery after my car was rear-ended at a stoplight and I wound up at a hospital. Obviously he had no way of getting into my house since I wasn't home to let him in nor was I told nor able to know when he would come to my house. During May 2109 after I filed another yet another complaint to the FCC about the same problem above. Mostly that complaint was mostly about AT&T not undertaking serious measures to definitely have my phone problem corrected to the point of it being fully functional. The second part of my complaint was about being consistently stood up by the AT&T repair technicians which only cause me to waste my time waiting and not being able to work. Shortly after the above newest FCC complaint, I received a phone call from a female representative from The AT&T either office of the vice president or office of the President. During our conversation, she asked me for a date that I could be available & she made a phone repair appointment for July 25, 2019 between 8:00 AM –12:00 PM. I thanked her for it. However the technician did not phone me while I was waiting for him to show up at my home on July 25, 2019 nor did he phone me. When I saw the time was about 1:40 PM, I was heading out the door to get to work since the cutoff time was 12:00 PM. The AT&T technician called me and said that he was running late and was unable to do fix my phone problem. I asked him why he didn't call me way before 12:00 PM which was the closing time window. He said he was busy. I asked him if he could come to my home in order to repair the problem On the Following Wednesday July 31, 2019. He said he asked he would ask his supervisor and he would come at 8:00 AM on that date. I added that could you please not be late or be a no show so that my problems with my phone would finally be resolved & a emotional relief given that this entire one plus year was an exhausting struggle and a useless chase that I want to be over and finished.

Lastly, I want to mention that AT&T was billing me for my monthly land line phone service despite the fact that they were well aware of the fact that they were aware that my phone isn't/wasn't functional. AT&T had to know that my phone wasn't working based on my multiple FCC complaints that are transferred directly to AT&T from the FCC nor would any AT& T repair technician come to my home to repair it up to that point in time. They have doubled or almost tripled my monthly service rate during the year plus problem with my phone that was usually not usable even though I made it extremely clear that I don't intend to pay for phone service that isn't functioning for the most part to AT&T via my FCC complaints to and about AT&T. At&T is now currently charging me.\$

Ticket: # 3976857 - Comcast Billing Complaint**Date:** 5/15/2020 7:18:47 AM**City/State/Zip:** Miami Gardens, Florida 33179**Company Complaining About:** Comcast

Description

Comcast/Xfinity Service Address: (b) (6)

Account Number: (b) (6)

Comcast/Xfinity Service Account Balance: \$700 plus

This is an official complaint against your Comcast representatives which is due to their unfair business practices of subjecting me to a series of disability discrimination, especially during these difficult times with the Coronavirus crisis.

Around the Summer of 2018, I traveled to your Comcast Service Center within Hollywood, Florida to request for new service and to eagerly take advantage of your Internet Essentials program as a disabled person that was and still is receiving low monthly Social Security income.

Unfortunately, I was wrongfully denied to sign-up for your Internet Essentials program and when I asked your Customer Service agents to give me a reason they would just repeatedly lie to me by saying I did not qualify.

Overall, I did receive my Comcast equipment for my new TV & Internet service but over a long period of time I would usually struggle to make my extremely high monthly payments even after I would sometimes receive small financial donations from my family and friends.

More recently, I did feel very much threatened and intimidated by your aggressive Comcast equipment collection agents at my home, and I also felt very uncomfortable with the constant email notices to unfairly return my Comcast equipment.

I also experienced some episodes of anxiety when I would receive several disturbing phone calls from your Comcast agents that were demanding for an enormous \$700 bill payment that would also occur as your company was repeatedly charging me a monthly bill during my disconnected Comcast service.

Presently, I still have no Comcast Cable TV service which blinds me from watching important Coronavirus news reports, especially the mandatory updates from the President of the United States and his Coronavirus Response Team of Experts.

I also do not have any Comcast Internet service which prevents me from properly communicating with my doctors, my other healthcare professionals and it also impedes me from getting other relevant survival information from the internet.

Ultimately, I am requesting for an immediate major reduction or complete waiver of my \$700 plus bill, and an immediate restoration or reactivation of my Comcast TV & Internet service, and also a monthly discount billing within your Comcast Internet Essentials program.

Your immediate attention and assistance towards this urgent matter is greatly appreciated.

Respectfully,

(b) (6)

Description

Xfinity problems: I tried to help my mom with Xfinity issues. She is 92 and in the hospital with COVID-19. She is on a fixed income and wanted to know options to decrease her bill. I am her proxy. I asked Xfinity for package options for my mother's Xfinity account. I did not ask to change her account, just wanted options to review with my mother. Xfinity would not work with me. They wanted to talk to her or have her call. They knew that she was in the hospital, with COVID-19. I asked how she could cancel her account and was told she would need to go on-line to her on-line account. She doesn't have an on-line account. They said she could not do it by mail. So, I couldn't get options and she can't cancel, if she chooses to because she doesn't have an on-line account. I could manage to get her an on-line account, BUT, I can't because the bank card number associated with her account was hacked and of course her card number changed. So it goes in circles. As far as Xfinity is concerned, she calls from the hospital or I put in the last 4 diigits of a card that doesn't exist any more. Bottom line: Xfinity has made it impossible for me to help my elderly mother.

Ticket: # 3977199 - FCC Broadband Coverage Map is not accurate for Charter/Spectrum for (b) (6)

Date: 5/15/2020 11:23:58 AM

City/State/Zip: Dryden, New York 13053

Company Complaining About: Charter

Description

Hello, this map is not accurate for my address: (b) (6)

[https://broadbandmap.fcc.gov/#/location-summary?version=jun2019&place_name=\(b\) \(6\) 0York%2013053,%20United%20States&lat=42.4555&lon=-76.276486&tech=acfosw&speed=25_3&vlat=42.456804294184565&vlon=-76.28030550000005&vzoom=14.616888425932583](https://broadbandmap.fcc.gov/#/location-summary?version=jun2019&place_name=(b) (6) 0York%2013053,%20United%20States&lat=42.4555&lon=-76.276486&tech=acfosw&speed=25_3&vlat=42.456804294184565&vlon=-76.28030550000005&vzoom=14.616888425932583)

Charter/Spectrum does not provide internet service to West Lake Road. I have called and spoke with them for the last 3 years and they refuse to run cable on the existing poles to my house from the nearest intersection of Route 38 and West Lake Road. They had previously told me May 2020 (in 2018, 2019, and in 2020), but I called two weeks ago and they it was not likely to happen until 2021 or if I wanted to pay \$20,000.00. With the Pandemic, it is becoming extremely difficult to keep sane as well as stay connect to my workplace. Both my wife and I are working from home and are negatively impacted by the lack of broadband service. We are expecting our first child in July and most of our appointments now have to be via telemedicine. Not to mention trying to 'see' our family members with video conferencing which barely works. I would love to pay for service or have the map reflect it does not exist and Charter is not meeting its commitment to expanding broadband access in Central NY.

Ticket: # 3977207 - service and billing

City/State/Zip: Philadelphia, Pennsylvania 19122

Company Complaining About: Comcast

Description

I have a bundles plan with Xfinity and I'm struggling with paying my bill on time because of the pandemic. I continue to pay my bill in full even though it a couple of days late Xfinity continue to attach late fees. What can be done so they can stop the late fees

Ticket: # 3977237 - Spectrum Unable to Deliver Advertised Upstream Data Rates in Durham, North Carolina

Date: 5/15/2020 11:32:17 AM

City/State/Zip: Durham, North Carolina 27701

Company Complaining About: Spectrum

Description

Hello FCC Team, Spectrum (dba Charter Communications) in Durham, North Carolina advertises a residential cable internet service called Spectrum Internet Ultra 400/20. This service included 20Mb/s of upstream throughput. Due to the COVID-19 Pandemic, the service is now over-subscribed and my family receives 2-3Mb/s upstream during peak business hours Monday-Friday. I have engaged Spectrum over 15 times since April 23rd regarding this issue, and the Service Provider has acknowledged a node oversubscription issue within the carrier infrastructure. This is the only high speed ISP that is available for my home in Downtown Durham. Spectrum refuses to provide any time table of when the fix will occur-- I need the help to the FCC to: 1) Enforce fair and equal access to high speed data services for my wife and I to do our jobs. 2) Enforce mis-advertised data rates. Thank you!

Company Complaining About: Verizon

Description

Hello,

I placed an order with Verizon Fios on Thursday, April 16th, 2020 for internet service. I know that with Covid-19 companies are in-home service but Verizon has not been able to give me an update on when they would be able to install internet when internet is integral for me to maintain employment while working from home. I know for a fact that they were able to send a technician to install my neighbor's internet within the last week.

Ticket: # 3977478 - Frontier Unreliable Service During COVID-19**Date:** 5/15/2020 12:53:49 PM**City/State/Zip:** Andrews, North Carolina 28901**Company Complaining About:** Frontier Communications

Description

He has Frontier for services. His landlines and internet is not working and have been inconsistent over the last two years. He has called over 50 times. In the last weeks he has called more than twenty times for service issues. He is paying for services that he is unable to use. He cannot watch YouTube or stream Netflix for example. He is in a small rural area and is one of two doctors that serve a community of 5,000. When his phone services are not working he is unable to perform his duties as a physician and serve the community. It is a matter of life and death where especially during COVID-19. He was on the phone trying to file a complaint with them but the phone service disconnected. He is asking that they ensure the services he pays for are being provided consistently.

Ticket: # 3977489 - Internet Provider Predatory To Seniors

Date: 5/15/2020 12:58:15 PM

City/State/Zip: Hobe Sound, Florida 33455

Company Complaining About: Comcast

Description

After many many hours trying to resolve this issue with Comcast customer service, supervisors, and their customer retention department, remains \$1139.90 in these predatory charges for 9 months of Comcast services billed under a non-necessary duplicate account for one residence. Initially, we just asked to add some windows and door security for new square footage added. Upon discovery of this gross error and dispute of said error, their various customer service departments were a mixture of fairly competent and concerned Americans who promised resolution and then outsourced poor English supervisors incapable of anything other than internal contradiction and ultimate refusal to correct this error. A minimum of 10 hours was spent on the phone to unsuccessfully resolve this. Additionally, as of recent COVID-19 events, we are unable to get through to anyone to return their equipment.

Ticket: # 3977578 - Google is blocking our Regional ISP Email

Date: 5/15/2020 1:22:41 PM

City/State/Zip: Kalispell, Montana 59999

Company Complaining About: Google

Description

We are a regional ISP in Northwest Montana since 1994 with thousands of customers using our email which Google routinely blocks for various reasons such as "too many emails" from us or other innocuous reason.

These blocks are particularly frustrating during the Covid-19 crisis as it delays or prohibits us from communication with our customers, first responders and EMS services who use our mail server and try to communicate with others who have GMAIL or hosted by Google email accounts.

We have sent many emails and contact forms over the years to try and correct this problem, since we should be trusted by GOOGLE since we are a long established reputable CLEC in the internet space.

We are asking the FCC to help get these blocks removed as it flies in the face of open internet and necessary communication.

I have asked them multiple times to stop. They won't, and use a different number each time. This is the third GOP text I've received in 2020 and I want it to STOP. Texts use up my data plan, and I've been on the do not call registry for many years. I'm including a screenshot of this one, but had already deleted the other texts.

Ticket: # 3977768 - Inconsistent Service

Date: 5/15/2020 2:20:21 PM

City/State/Zip: Berkley, Michigan 48072

Company Complaining About: Wow

Description

Over the past two weeks I have called Wow four times about complete internet outages, but to date have not had the issue resolved. I work from home by myself and need reliable service that I pay for to be provided. Between the outages and false download speeds it seems as though I am not getting what I am paying for. It has become evident that Wow is failing to maintain their infrastructure during the pandemic. Wow needs to be held accountable to their inaction to provide services paid for and their inadequate infrastructure maintenance.

Ticket: # 3977851 - Comcast service disconnected

Date: 5/15/2020 2:50:45 PM

City/State/Zip: Lilburn, Georgia 30047

Company Complaining About: Comcast

Description

Due to COVID-19 consumer has been unable to make a payment.

Consumer made a payment arrangement to be made on 5/24/20.

Consumer's TV services were turned off today even though a payment arrangement was in the system.

Consumer contacted the provider and they confirmed the payment was in the system.

Consumer would like Comcast to turn her service back on and hold to their end of the agreement.

Ticket: # 3977895 - lack of channels at the same price

Date: 5/15/2020 3:10:59 PM

City/State/Zip: Rahway, New Jersey 07065

Company Complaining About: Comcast

Description

Its a damn shame Comcast got rid of Starz & Cinemax. Now you want us to pay extra for them and you gave us EPIX which shows old movies and the same crap on 4 of its channels. All this during a pandemic. It's robbery!!! I have no choice but to use it because it is what is in my area but really once you took away premium channels that I was already paying for, then the price should've been adjusted to a lower rate. Especially now during this crisis. Shame, shame, shame!!!

Ticket: # 3977928 - RCN Billing Practices

Date: 5/15/2020 3:24:20 PM

City/State/Zip: Washington, District Of Columbia 20008

Company Complaining About: Rcn

Description

My husband and I are both currently unemployed due to COVID-19. RCN indicated they will double our bill the first week of August to \$88. They then sent a copy of the FCC press release showing their agreement with the FCC expired before then. Even though I explained multiple times that while we could afford the current balance with unemployment benefits, that there was no way we could afford having the bill double in the next several months while DC is still under a stay-at-home order through June, they refused to work with us to maintain our current rate. This seems completely against everything the FCC is currently working towards to support consumers. While RCN is currently offering lower rates for higher internet speeds, we have not asked for that-- we simply want to maintain our current rate. If RCN maintains the current rate for another year, we will be able to have critical internet access while we job search and get back on our feet financially.

Ticket: # 3977967 - Unwanted text

Date: 5/15/2020 3:37:00 PM

City/State/Zip: Cary, North Carolina 27519

Date: 5/15/2020 3:45:22 PM

City/State/Zip: Boones Mill, Virginia 24065

Company Complaining About: Comcast

Description

we ended our TV and internet service because we sold our house. It took us awhile to get by the ups store because of the coronavirus and everything going on with it. Even though we it got back to them within their time frame, they still charged us \$175.37 for un-returned equipment.

Ticket: # 3977998 - Billing

Date: 5/15/2020 3:47:30 PM

City/State/Zip: Nashville, Tennessee 37206

Company Complaining About: Comcast

Description

i have been a customer with xfinity for 5 years and it seems like it gets worse as the years go by. I am currently being charged for equipment and I think the way xfinity is handling is totally unfair. I was suppose to return items to them hence the reason my bill came up to 295. Keep mindful, I have been paying for the equipment my whole time with xfinity. On 05/13/2020, I had contacted them about this issue and also informed them that i no longer have the equipment due to my car being towed. Before all of that, I had also mention to them that I will do my best to get it out to them and that I work a lot. And now that COVID 19 is here (cause I am a medical professional), I have no time to get to them. They did not offer any other solution but just to bring it back. So I had to be stuck with this equipment. Back to Wednesday. I had contacted them to dispute this charges and afterwards, they have made it seem as if this is resolved. Today (05/15/2020) I had checked my account to see that the charges are still there. I did not get any help. Actually its been harder to deal with this company since the pandemic and they are not making anything easier. I had to disconnect from the chat due to working. So that still leave this problem unresolved. I had tried to report the issue internally and I keep being directed to the assistant, which I can't stand. I don't do well with automatic systems. I am tired of calling them every 3 months for something. xfinity never gives me peace. All I want to do is enjoy my services and pay my bill. Another issue is the fact that I had also tried to ask about paying for the equipment due to it being towed away and from my understanding, it seems as if they are going to bill me for the equipment without a limit. I need to know how much it is cause I am not paying for anything beyond its worth cause they want money. Thanks

Ticket: # 3978007 - Car insurance Scam

Date: 5/15/2020 3:48:38 PM

City/State/Zip: Cambridge, Massachusetts 02141

Description

Company called me claiming that I owed money on a car insurance plan. I don't own car insurance, and they hung up immediately after I said I had none. Likely taking advantage of people under hard times from COVID. Phone number was 2066361924

Ticket: # 3978039 - X-Finity disconnection

Date: 5/15/2020 3:59:07 PM

City/State/Zip: Sarasota, Florida 34276

Company Complaining About: Comcast

Description

My Cable tv, Internet & Home Securities we're terminated on 2-27-2020. On 3-13-2020 X-Finity took upon itself to start billing for all services without my consent. I had been trying to contact the company that limited hours of operation drastically. I held for hours at a time for a representative. I would hold until I got the message No one is available to call back at a later time or access the account online.

I have been calling X-Finity I spoke to several people.

I have been disconnected on 2-27-2020 yet on 3-13-2020 X-Finity reconnected services.

I am being billed for limited services that are not connected. At no point in time did I access speak or to anyone With X-Finity about this. I finally have been able to get an operator on 5-6-2020. Today on 5-15-2020 I have spoke to Jose 1101313 advising him to fully disconnect services because I have not had services since 2-27-2020.

This account had been terminated and activated several times. I have not watched TV since 2-15-2020 I have not been able to access my alarm since 2-15-2020 I have not been able to access the internet since 2-15-2020. I have not received any services after 2-27-2020 the Manager Sergio with Comcast stayed the bill is a final bill. There is no cancelation confirmation # to be provided. My Home Service Alarm to secure the property have not been able to access.

I have not been able to speak to anyone about why I have not been able to access even the Home Security part!

I know I am not the only person with an issue in this are or even nationally.

If services are to resume without knowledge that is wrong. Once my services were terminated the alarm that was set to secure the property was disconnected also. I have not been able to reconnect the alarm. This is very scary being we are in a national pandemic. I have been disconnected for non payment then to be reconnected at 100% full price not the emergency plan rate. That is wrong. This whole situation is wrong and is taking advantage of disabled elderly and people who are fighting for our lives. Comcast stayed that because X-Finity choose to

Ticket: # 3978050 - Abundance of Breaking news updates

Date: 5/15/2020 4:02:43 PM

City/State/Zip: Rochester, New York 14620

Company Complaining About: Dish Network

Description

I get WHAM TV13 programming channel via Dish. I DVR "General Hospital" since I work all day. When I go to play the segment, I am constantly getting interrupted breaking news updates during the time frame from 2:00 p.m. - 3:00 p.m. Daylight savings time. This is getting irritating with the cutting news channel because they consume most of the time that "General Hospital" is on. I end of missing most if not all of the segment. Lately, it is the COVID-19 pandemic but before that it was news stations that was thinking news worthy information to cut into the programing.

Ticket: # 3978169 - telephone service

Date: 5/15/2020 4:43:13 PM

City/State/Zip: Ravenden, Arkansas 72459

Company Complaining About: Centurylink

Description

Underground cable above the ground, down a gravel road, in multiple places for 3 miles. Service goes out every time it rains, someone runs over cable, road grader runs over, etc. Service out for 4 weeks during covid pandemic. Customer is RN at major hospital with telephone as the only way of contact.

Ticket: # 3978249 - Reoccurring sprint shut off during coronavirus

Date: 5/15/2020 5:00:30 PM

City/State/Zip: Perry, Michigan 48872

Description

Hello,

As of the second week in March 2020, I, (b) (6), lost my job as warehouse stocking in marine and fishing supplies. At this time, I called sprint to notify them I had lost my job and was unable to make the monthly payment. As of May 15th I have had my services shut off for the 7th time. I called and complained each time, which was 3 times per week for the first 20 days after I lost my job. Today, may 15th sprint would not return my service without a \$352 payment, which was intended for my rent payment. My data is my only means of applying for jobs at the moment. After the 7th call, I believe sprint has truly violated their pledge not to disconnect service. Now eviction and being homeless along with service disconnection are my major concerns.

Ticket: # 3978270 - Transferring my number

Date: 5/15/2020 5:08:20 PM

City/State/Zip: Louisville, Kentucky 40223

Company Complaining About: AT&T

Description

I am the owner of my business, and my business phone number is with AT&T, which I ported from my previous provider when I signed on with them in 2018. Due to the COVID 19 and working remotely, I decided to purchase a cell phone with T-Mobile to start using as my business phone number because my "personal" cell phone is with them. T-Mobile has made five requests for the phone number, but AT&T won't release my main business number, which is (b) (6) [REDACTED]. I have spent numerous hours on the phone with both companies trying to get this issue resolved over the past six weeks, but they can't seem to work out the problem, and I'm paying both phone bills at the same time until this is resolved. I am completely worn out over the whole situation. Please Help!

Ticket: # 3978318 - Stop SPAM callers

Date: 5/15/2020 5:29:33 PM

City/State/Zip: Fort Washington, Maryland 20744

Description

My problem is constant SPAM and unknown callers calling my home and cell phone numbers. I have tried blocking the numbers , that hasn't worked. They find knew numbers to call from. I have unlisted numbers....that hasn't worked either. This has been occurring for years. It temporarily stopped during this pandemic, but has picked back up again these past few weeks. How can I or you get this to stop?

Ticket: # 3978344 - Verizon Business ignoring internet outage for a Pharmacy during COVID-19

Date: 5/15/2020 5:45:24 PM

City/State/Zip: Maspeth, New York 11378

Company Complaining About: Verizon

Description

As a pharmacy in NYC during the COVID-19 pandemic, we experienced internet interruption. We had been experiencing intermittent internet issues up until this point, but the internet went out completely during a time of high traffic, essentially impeding our ability to serve our community. Verizon was attempted to be contacted multiple times, and every single time, we were left on hold or we were told the issue would be fixed "by the next business day". It took Verizon 6 weeks to send us a replacement modem, even after they had told us multiple times that they were mailing one out. In conjunction to the modem issue, there was also an input line issue, which we were guaranteed would be fixed and no repair had been done for 3 weeks. It took us 6 weeks to regain our normal internet access. We are an essential business during the epidemic and we find it astounding that a major communications company was unable to respond in a time of crisis.

Ticket: # 3978368 - Phishing phone call from Amazon.com's REAL phone number but it was not them

Date: 5/15/2020 6:04:06 PM

City/State/Zip: Carrollton, Texas 75006-4326

Company Complaining About: Amazon - But It Was Not Amazon - But Someone Using Their Phone Number

Description

Got a call today from V51600153000002 (Unknown Caller) using the REAL Amazon phone number of 1 888 280 4331

It asked if I had setup Prime account and to enter a number to let them know. I did not setup a Prime account - but I do have an Amazon account. The person wanted me to give them information but I said I needed to confirm WHO they were first. The person said my account was hacked from Colorado and that they had signed up for Prime for \$119??? and they wanted info from ME to prove who I was? they said my account was put "on Hold" and I told him to LOCK IT. I asked him to confirm part of the numbers from my last order and he said he could not do it because the acct was "on hold". He then said he could confirm my address info and I said anyone could have that. Then he said an email - which WAS NOT mine and I told him that was not mine. Then he said he wanted me to login to my computer and follow his directions to hit some keys. I told him that he needed to tell me ALL the keys now before I would do anything. He said I was being un-cooperative and he could not help me.

I looked up the phone number for Amazon and called it - but it is not being answered now due to COVID-19. I also tried to send a warning to Amazon.

Is this a known phishing SCAM phone call?

Ticket: # 3978477 - Overcharged for service call.

Date: 5/15/2020 7:14:31 PM

City/State/Zip: Patchouge, New York 11772

Company Complaining About: Optimum

Description

Optimum charged me 80\$ for a service call. When the technician arrived he traced the problem to the telephone poll where he fixed a wire on the poll and then everything was working fine. Optimum claims that since he fixed some wiring in my home (totally bogus) that I must pay the fee. What's to stop optimum from just periodically cutting off service to homes and then charging 80\$ to turn the internet back on? This kind of price gouging in the middle of a global pandemic is inexcusable, and shameful. I even have a picture of the technician on a ladder working on the street connection.

Ticket: # 3978531 - incorrect billing (again) by Direct TV - similar problem in March 2020

Date: 5/15/2020 7:56:22 PM

City/State/Zip: Purcellville, Virginia 20132

Company Complaining About: Directv

Description

Due to coronavirus closure in the Outer Banks, NC, I suspended Direct TV service on March 26 to our rental house (non-resident owners prohibited from entry to Outer Banks until this week!) However, I was billed for last month (\$168.57) and then billed for another \$140 yesterday, even though service was to begin today May 15. I had a similar error last March and needed to contact you then. I need a credit for April 15 - May 14 when TV service was officially suspended.

Ticket: # 3978679 - UNWANTED CALLS FROM BUSINESSES AND SCAMMERS

Date: 5/15/2020 10:22:18 PM

Description

RECEIVED A CALL TO MY LANDLINE FROM "APPLE" ACTUALLY 4 CALLS THAT DAY DAY.I HAVE NEVER DONE BUSINESS WITH THEM AND THESE CALLS CAME DURING A TIME OF COVID-19 CRISIS WHEN THERE IS VERY LITTLE BEING SOLD BESIDES EMERGENCIES THIS HAD TO BE A SCAM CALL.

Ticket: # 3978705 - cable box issue

Date: 5/15/2020 10:43:38 PM

City/State/Zip: Hastings On Hudson, New York 10706

Company Complaining About: Optimum

Description

I have been contacting them for 6 weeks and still no resolution they send bills and want payment for service we are not receiving they claim fed x doesnt deliver that is a lie they blame everything on covid 19 if they are essential they should not be able to have every location closed but the bronx which is hot spot if they cant provide they should be billing customers .

Ticket: # 3978717 - Unauthorized charges placed on my bill by my ISP (AT&T)

Date: 5/15/2020 11:11:10 PM

City/State/Zip: Los Angeles, California 90032

Company Complaining About: AT&T

Description

I received an unauthorized service plan for unlimited Internet services for \$30 per month applied to my bill for the months of March - May, 2020.

I noticed an increase of \$60 per month on my March bill. Then another increase of \$30 per month. When I checked closer, I had two Internet plans that I was being billed for simultaneously. One for \$60 was my regular plan that I've had for years. Another for an Unlimited plan that I did not order or authorize.

When I called AT&T, I was informed that AT&T added this service for all of their customers to "help" them during the Pandemic. I did not need this nor did I want it. After trying to skirt to issue, I escalated the issue to a supervisor who informed me that an employee had added these unauthorized serviced to my account unbeknownst to me.

Ticket: # 3978735 - Suddenlink not providing the speed I'm paying for

Date: 5/15/2020 11:52:31 PM

City/State/Zip: Grass Valley, California 95949

Company Complaining About: Sudden Link

Description

I am paying Suddenlink \$75.48 per month for 100 Mbps Internet access service. I've been on this plan for a few years, and while I've been relatively satisfied most of this time, it has deteriorated significantly the last few months. I realize that there is no guarantee that I'll always get the full 100 Mbps down and 7 Mbps up speeds, I've frequently been suffering with down speeds below 10 Mbps for hours at a time during peak usage periods. Prior to the last few months, my lowest down speed was usually at least 40 Mbps at peak times. I know that my equipment and setup are not causing the speed decrease, since I can still experience the full rated speed of the connection at times during off-peak periods. I also realize that there have been many more users online from their homes during this period due to the pandemic, but Suddenlink should either have increased their network capacity or offered a rate reduction to account for the deteriorated service. I'm still paying the full amount monthly for the service, but overall I'm getting less than half the bandwidth I previously got from the service. If Suddenlink isn't going to increase their network capacity to handle the current usage levels, I want a 50% rebate of the fees I paid in March and April and a 50% reduction of my monthly bill until they can deliver the rated speeds I'm paying for.

Ticket: # 3978765 - termination of internet

Date: 5/16/2020 1:16:38 AM

City/State/Zip: Gilbert, Arizona 85296

Company Complaining About: Cox

Description

Cox communications terminated services for non paymet when i did make a arrangement and am behind due to loss of hours and wages due to covid 19. I did pay the payment arrangement as promised and then was disconnected at 930 pm same day. Reached out to customer service and said I need to pay more money to have services restored. I work from home and can't have internet shut off also have 3 kids that have to home school as well.

Ticket: # 3978944 - AT&T not honoring the covid pledge

Date: 5/16/2020 12:28:58 PM

City/State/Zip: Available On Request, Oregon 97201

Company Complaining About: AT&T

Description

I have been financially impacted by the covid pandemic but att is threatening to disconnect if I do not pay in full. This is inconsistent with what has been promised on fcc site.

Ticket: # 3978951 - Verizon Price Gouging and Misrepresentation**Date:** 5/16/2020 12:39:24 PM**City/State/Zip:** Duluth, Minnesota 55803-9342**Company Complaining About:** Verizon Wireless

Description

I purchased a Verizon Jetpack hotspot on their recommendation for my home internet need in October of 2018. In March of 2020 I lost service when the speed dropped, probably related to COVID19 evacuations. They provided a work around to continue my service at an affordable rate. They instructed me on how to switch plans as necessary to retain consistent service. Now they are accusing me of manipulating my billing and they are charging me over \$300 a month due to overages to work from home. They will not credit these charges as they have over the past 2 months, now claiming this was never intended to be a permanent fix. They claim the Jetpack was never intended for home internet use. As a rural customer with no other internet provider options, they now feel they can take advantage and price gouge.

Ticket: # 3978968 - Constant internet problems with no resolution

Date: 5/16/2020 1:03:10 PM

City/State/Zip: Lancaster, Kentucky 40444

Company Complaining About: Windstream Communications

Description

I have had Windstream for the past 2 ½ years. During this time I've contacted windstream to fix the extremely slow speeds and the constant outages over and over. The last tech that came out told us we're can keep calling but Windstream is headed for bankruptcy and, in his experience, they aren't going to truly try to fix the problem. I gave up calling for nearly a year but it's a constant issue and trying to contact them again I've only received an automated reply that someone will get back to me in 2 days and that was 6 weeks ago. I know with covid things might be slow but I pay my bill the day it's presented every single month yet they can't even get me the almost 3 mbps that I pay 80.00 a month for on a consistent basis.

My neighbors (I live in an RV park) do not have their internet constantly going out. We've replaced all wiring in our rv so we know it's not us but they try to blame it on us without even trying to fix what's wrong. I just want what I'm paying for.

Ticket: # 3979011 - FCC Complaint Against Cox Cable

Date: 5/16/2020 1:36:38 PM

City/State/Zip: El Cajon, California 92019

Company Complaining About: Cox

Description

On 24 April 2020 I filed a complaint with the FCC re disconnection of service by Cox Communications in breach of their 13 March 2020 agreement with the FCC not to disconnect services due to the pandemic, and contrary to my own conversation with Cox Communications on 24 March 2020.

On 24 April 2020 when I spoke to Operator Mary she advised that despite Cox's assertion, services were still being disconnected for non payment and late fees were being attached. This was subsequently confirmed in the last statement received from Cox Cable.

On 24 April 2020 Operator Mary assured that no Cox Cable services would be disconnected where customers had advised on an in ability to pay due to the pandemic.

On 16 May 2020, my services were disconnected, and would not be reinstated until all arrears were paid. Operator Ollie was aware of the Cox Cable pledge to the FCC stating that the pledge "was only valid until 15 May 2020", which in effect was the day prior.

Cox Cable, after not honoring their pledge to the FCC to not disconnected customers, went ahead and disconnected me on 24 April 2020 as they had no process in place to support their claim to the FCC, and then at midnight of the day after, disconnected with late fees and penalties accrued payable before being reconnected.

Ticket: # 3979017 - Xfinity/Comcast billing for a cable box that was returned since March 2, 2018

Date: 5/16/2020 1:45:58 PM

City/State/Zip: Pinecrest, Florida 33156

Company Complaining About: Comcast

Description

On March 2, 2018 a Comcast Technician came to service my cable box, he gave us a new one and took the old one. Since that date I have been billed for 2 boxes instead of 1. I found out in Aug 17, 2019 that I was being still charged, I contacted the vendor they offered to fix it, open an investigation and give me credit. On March 23 2020 we received a new box for a 2nd TV installed for my adult son after Covid-19 and found out I was still billed for the box returned on March 2018. I called Comcast and they again said they would give me the credit and remove from bill, and that someone will call me back. Never happened! On April 29 2020 I called again (I have a ticket number and names of persons I spoke with) and they offered (again) to give me credit and remove box from my account. Still box is billed on my account and no credit has been given. Today May 16, 2020 I called again and they are repeating the story... they say the ticket opened was closed, they gave no credit and still bill me for a box that I returned on March 2 2018. I asked to talk to a supervisor, was sent to the fraud department, the gentleman who answer hang up after I explained my situation. Please help me!!

Ticket: # 3979037 - Racism Being Braodcast on the Radio

Date: 5/16/2020 2:04:28 PM

City/State/Zip: Madison Ht's, Michigan 48071

Description

Todd Schnitt's radio broadcast is constantly spewing hatred towards the Chinese and the Corona Virus. On Friday's broadcast he basically stated not to trust any Chinese. Although he said Chinese Communist, it can still be construed as Asian Americans to those who cannot tell the difference and cause racial attacks on innocent Asian Americans. His broadcasted opinion can be likened to Anti-Semetic Propaganda coming out of Germany in the 1930's.

Ticket: # 3979041 - Telecom refuses to allow phone calls**Date:** 5/16/2020 2:05:56 PM**City/State/Zip:** Beaverton, Oregon 97007**Company Complaining About:** Zippy

Description

Our FIOS internet service was transferred from Frontier to Zippy in the middle of the pandemic. In the process, they replaced our hardware router to model Greenwave G1100. This model does not allow us to use our pre-existing telephone services. Router blocks tmobile signal booster. Router also blocks the commercial-grade VOIP service. I asked Zippy to deactivate SIP ALG to enable us to use either of those phone services. They flat refuse. I asked Zippy to activate our pre-existing (but not currently subscribed) landline service (acknowledging that I'd have to pay for additional service). Zippy flat refuses.

As a translator and a federal appointee of US Commerce, I provide a critical service to multiple government agencies. Fortunately, I am able to telework during the government-ordered shutdown -- but only if I have a functional phone service. I am also caring for a terminally ill family member and need to call hospice and doctor frequently -- which I have been unable to do since the router was replaced. Everything worked fine until router was replaced.

Further compounded by a tmobile cell tower outage in my neighborhood since March, which is why tmobile signal booster is critical. There's no mobile telephony without it.

Ticket: # 3979093 - Suddenlink No Shows

Date: 5/16/2020 3:19:40 PM

City/State/Zip: Bullard, Texas 75757

Company Complaining About: Sudden Link

Description

I have had Suddenlink scheduled for over a month. Got a reminder call the evening before reminding me of appointment for new install of Cable tv and internet to a brand new home. 3 hour window time - nobody showed. I called and waited for a return call for 90 minutes. After speaking with the rep he said a tech would call me back in 15 min. No return call. I put in another phone call to Suddenlink - wait 45 minutes - she tells me that someone will get back to me in 2-3 days due to COVID 19. No explanation except COVID as to why tech did not show. My in-laws moved to Texas back in September of 2019 - it took them 2 months, multiple trips to the local Suddenlink office, multiple phone calls to get their tv and internet working. I do not understand how this company is allowed to stay in business with these kind of practices. They need to show up for appointments and call ahead.

Ticket: # 3979096 - TERRIBLY Slow Speeds, customer service made it WORSE

Date: 5/16/2020 3:22:38 PM

City/State/Zip: Little Elm, Texas 75068

Company Complaining About: Sudden Link

Description

Called to activate new, recommended modem, did not activate. Opted to re-activate the old modem that did work, Suddenlink activated it, now speeds are terribly slow, far worse than they were before trying to activate the newer, better modem. (I pay for 1000 Mbps down/50 Mbps up, with unlimited data and no throttling, and am currently getting 20 Mbps down and 2 Mbps up, best case) Called customer service 5+ times the past 24 hours and get treated like a moron, being told to restart modem, etc. Takes over an hour just to get a person on the phone. I am trying to be reasonable, given the pandemic, but this is beyond unacceptable.

Ticket: # 3979123 - Overage Billing; Misrepresentation by Suddenlink Communications**Date:** 5/16/2020 3:47:11 PM**City/State/Zip:** Truckee, California 96161**Company Complaining About:** Sudden Link

Description

Hello,

I was charged an additional \$75 for overage data on our account. When I called customer service to review the charge, we spent over an hour look at the data charts and information. It was clear that Suddenlink's monitors and recording devices were incorrect, as it was logging 70-80+ GBs of usage a day on some random days, even on days where we were not home for the majority of the day. On days we were home and using the internet, we had reasonable data usages. We never have had an overage in any other month and presently use not more than 60-70% of our data allowance despite that we are actually working at home everyday under the current circumstances. The data overage alleged by Suddenlink was prior to the Covid-19 issues and at a time when we not generally home during the day. We have a password protected account and there is no basis to claim that someone "stole" our internet and used substantially more data than we use on an everyday basis. Suddenlink attempted to make this argument and I advised them that it was completely inaccurate. It is clear that Suddenlink knows that their data is inaccurate and they are trying to use it as a means to overcharge our account.

The second time I called Suddenlink customer service they told me that they had reviewed the issue and would provide a \$75 refund on the next statement. This never occurred. I called a third time to Suddenlink and was told that no refund was ever issued.

I believe Suddenlink not only cannot prove any data overage if forced to do so, but has acted in a fraudulent and inappropriate manner by intentionally advising that they would provide a refund when it was never going to occur. It is clear now that I was given this information to make me "go away" and hope that I would not continue to pursue the issue. Lying to customers should be stopped and result in sanctions against the company.

Ticket: # 3979225 - Optimum cable

Date: 5/16/2020 5:40:27 PM

City/State/Zip: Newark, New Jersey 07107

Company Complaining About: Optimum

Description

[Ticket: # 3979245 - Operating without a license](#)

Date: 5/16/2020 5:50:08 PM

City/State/Zip: Adrian, Michigan 49221

Company Complaining About: 99.3? Bent Oak Church

Description

a person is operating a radio station without an fcc license, a search showed it was expired in 2001. This would be less troubling if it were not for the misinformation being spread on the station regarding COVID-19.

Ticket: # 3979302 - No internet services

Date: 5/16/2020 6:55:18 PM

City/State/Zip: Carolina, Puerto Rico 00983

Company Complaining About: Liberty Cablevision Of Puerto Rico

Description

Since May 1,2020 i have been calling the company to report that there is a problem with my internet service. the company send a technician at the begging of this month and he told me it was not my house that he believe is the outside source. Liberty said that on may 4,2020 the company allegedly made some repairs to correct the problem. The service was fine for a week and the problem started again. i called again and they suggested to change the modem and increase the megs from 30 megas to 200 megas, i agreed and they later came to my home and installed the new modem. But the service is still the same. I have internet for 8-10 hours and the rest of the time it comes and goes for hours. My family can work nor study from home due to this and during this pandemic i think the FCC should look into this. I paid my liberty bills no prevent for not having services and even paying i still dont get the services.

Ticket: # 3979332 - Amateur radio-repeater interference

Date: 5/16/2020 7:45:27 PM

Ticket: # 3979344 - Internet issue with speed and non resolutions

Date: 5/16/2020 8:11:55 PM

City/State/Zip: Frankfort, Illinois 60423

Company Complaining About: Comcast

Description

I had Comcast 1G Download speed purchased on May 13th,2020. After the install, was done. I noticed Download speeds of 140MPS and then speeds even slower. After over 8 hours in Chats and on phone with Technical Support. I am now being told I need a technician to come out to home and yet they cannot, because of the COVID-19 issue. Yet, I was sent a notice of TECH can come into home, for brief instances of issues. I am now being told that I will need a virtual phone call to address the issue. I am now waiting on another phone call and no resolution to the issue.

Ticket: # 3979447 - Internet speed

Date: 5/16/2020 11:56:35 PM

City/State/Zip: San Jose, California 95122

Company Complaining About: Comcast

Description

I have 1 gb speed plan, but I did not get that speed I pay for. I have called so many times about the issue, but they did not fix the problem and blaming because of the covid 19 everyone is using the internet. One of the representative told me that they have to install the "digital booster" outside the line, but they refuse to do so.

Ticket: # 3979579 - unlimited long-dissident calls

City/State/Zip: Monroe, New York 10950

Company Complaining About: Frontier Communications

Description

company gave us a "unlimited long-dissident USA voice plan" with no restrictions and shut off service after using 3000 minutes (in middle of Covid-19 season!!) by time opening the account i was insured that this is a "unlimited plan" was never informed of any restrictions

Ticket: # 3979588 - No Payment Plans**Date:** 5/17/2020 11:36:49 AM**City/State/Zip:** Hadley, Massachusetts 01035**Company Complaining About:** Spectrum

Description

Charter - Spectrum is a cable company that does not provide payment plans and will disconnect your service if one payment is late. This is not acceptable.

In addition, this will occur even with a COVID-19 Extension request. I collect a disability check the last week of every month and they refuse to offer a payment plan that would accommodate that. Please look into what my rights are as a disabled person during this virus. Not allowing a change in payment date, payment plans or preventing disconnection during COVID-19 IS UNACCEPTABLE. I requested an extension but they said the collections and disconnect would continue and that I am required to call back to turn the service back on. My confirmation number is (b) (6) Please contact them to correct this situation. 1) I need to make a billing date that will coincide with my disability check. 2) I need to be assured that no disconnection will take place. Thank you.

Ticket: # 3979607 - CopperWear Mask TV Ad

Date: 5/17/2020 12:35:28 PM

City/State/Zip: Lansing, Michigan 48910

Company Complaining About: Comcast

Description

CopperWear Mask TV ad claims "now available". My order was placed on 4/29/20. The status of my order, as of today, 5/17/20 is "Back Ordered". This is deceptive advertising! I wanted a mask ASAP for the Covid 19 virus. They promised 2-3 week delivery. Now, after 3 weeks, my order isn't even close. Their Phone #: 800-706-2991.

Ticket: # 3979669 - FOX NEWS

Date: 5/17/2020 1:43:49 PM

City/State/Zip: Venice, Florida 34293

Description

I was under the impression that a news agency with an FCC license has to tell the truth? Fox News is lying right on TV about the corona virus and people are listening to their advice. THEY ARE CAUSING DEATHS WITH THEIR LIES. Isn't this against FCC rules. FOX NEWS constantly lies to viewers.

Ticket: # 3979690 - Internet and Phone Issues**Date:** 5/17/2020 2:06:55 PM**City/State/Zip:** Lakewood, New Jersey 08701**Company Complaining About:** Optimum

Description

As an Optimum/Altice customer, I've been experiencing extremely low internet speeds the past few months. It's been really challenging reaching Optimum with the obvious covid19 environment. Recently, my phone service stopped working. Optimum isn't acknowledging it's their issue and after a frustrating week trying to get hold of them, they want to charge me a service fee to come fix the issue. They're also not acknowledging the internet slow downs on them. They're blaming covid on the problem. I'm very sympathetic to that, but it's highly unfair to pay premium pricing for internet and phone when the service isn't good and in addition, be charged for a service call when the phone isn't working altogether

Ticket: # 3979740 - Targeted Political Gaslighting

Ticket: # 3979746 - Internet service disruption

Date: 5/17/2020 3:20:02 PM

City/State/Zip: San Jose, California 95120

Company Complaining About: Comcast

Description

I have Internet service with Comcast. I am supposed to received \$500Mbps for downlink. However, at best, most of the times we hardly received 10 Mbps. Further, we have constant service outages that I have called many times. They acknowledge the problem in this area but does not seem to do anything about it. My daughter who is college student failed a midterm because we had Internet outage just 15 minutes before the exam starts. She had to drop the course. She is straight A student. I am also a University of California Professor and I have difficulty holding my meetings uninterrupted. I had to cancel some meetings because of these outages. This is my area of research and I have designed the most advanced modems when I was working 20 years ago at AT&T research Lab. Since the outage is in the area, the problem cannot be contributed to our modem. They already acknowledge that. They are not providing a service that they are charging us for that service. They must be held accountable for this. We pay monthly our bills in full while we are not receiving the service that we are promised. They blame it on COVID-19 while this is an infrastructure issue. It seems that they are not upgrading/repairing their stations that are the recipient of the signals form home modems.

Ticket: # 3979753 - Assistance with Sprint Pcs

Date: 5/17/2020 3:27:22 PM

City/State/Zip: Portland, Oregon 97294

Company Complaining About: Sprint Pcs

Description

Service Plans incorrect and not as I was told. Prematurely charged and 2the amount . the charges caused overdrafts and NSF charges from my bank when they had already been paid. Disconnected us during COVID -19 and had said they wouldn't . Now sent me to collections and I had only used prepaid service for one month. The other phone was broken . I would like these charges reversed and the reimbursement for the errors and excessive times that premature and incorrect billing amounts were submitted to my bank causing over 200 in overdraft fees, as well as the defective phone that i had purchased to be fixed or money returned . As well as the correction of billing and services to be as I was told and agreed to , my name cleared from credit bureau negative reporting .

Ticket: # 3979763 - ISP overselling their network and advertising perhaps false repairs

Date: 5/17/2020 3:50:52 PM

City/State/Zip: Coral Springs, Florida 33076

Company Complaining About: Blue Stream

Description

Bluestream ISP has been telling us that they have been doing repairs to help ease consumer bandwidth due to covid-19. The "repairs" have been going on for a while and they fail to provide a time table each time the ISP and consumer communicate about slow internet speeds. The consumer continuously has extremely high ping and slow and fluctuating internet speeds during the day which is only alleviated during the late hours of the night between 2-8 am EST. The consumer replaced the main wires outside and inside, the router, and the modem to account for the 200 MBPS speed and they find themselves receiving fluctuating speeds (wired) from 20-180 mbps, never at a consistent speed. Bluestream has failed to provide speeds these past couple of months and it is unethical to send a technician over to our house every time we complain about internet speed when the family has a person with a compromised immune system trying to practice social distancing while a bluestream representative said "I don't care if I have to send 5 technicians to solve your problem" before I mentioned social distancing. What can be done is for someone from a higher authority to investigate this unethical company who refuse to update their equipment and who fail to provide stable internet for a whole city and issue an ultimatum to fix and update their equipment to provide consistent internet speeds and low ping at all times, including when the network is saturated during holidays and covid-19, especially since we pay for speeds we do not receive and a lot of work is done from home now, especially since money is made off of playing console.

Ticket: # 3979770 - Complaint against Optimum Wireless**Date:** 5/17/2020 3:55:58 PM**City/State/Zip:** Brooklyn, New York 11221**Company Complaining About:** Optimum

Description

Due to the Pandemic I was not able to pay my monthly Internet bill. I proactively called in to request an extension in March and in April. I was told I would not be disconnected due to non payment. On Sunday April 17th, my services were in fact disconnected. I was not able to call in and speak to a rep directly without paying the past due balance. I had to call from my boyfriend's phone. Once I was able to get through I spoke to at least 10 reps and I was given different info each time. I had to pay over \$350 to get service restarted when initially I was told if I paid a past due it would be restored. I was up sold on a new plan and mobile service. I will not be able to pay my rent or buy food. They company has on their website that they signed the "keep America connected pledge" I was told by the rep that there is record I called in on April 21st for an extension yet I was still disconnected causing me even further hardship. Optimum has accepted Federal funds but is not passing the help on to their customers, Furthermore, I should not have to pay to speak to a representative or use someone else's phone to be able to reach a rep.

Ticket: # 3979798 - Internet issues

Company Complaining About: Optimum

Description

Ever since the pandemic started Speeds during the day have dropped below 5mbps when I pay for 100 and ping spikes are common.

The technician of optimum came, checked the wiring which he said was perfect and blamed my modem. He said since it was my modem causing the problem that I would have to either sign up for the Optimum protection plan which was a 6 month contract for 7 dollars each month or an \$80 charge. The technician left and issues persisted. I contacted the company but the phone rep hang up on me, I then contacted a worker who ran a test on my node and said there was "high usage", I asked if he could get someone to fix it and he said he didn't know any outside plant workers in Connecticut. The downloads and pings are horrendous, I cannot go on zoom calls without lagging for school and downloads are worse than dsl. Prime time is absolutely awful, the connection is only good at 12am when no one in the neighborhood is on. I am requesting that optimum repair my node as per their worker and reimburse me for every month of the protection plan they mislead me to sign up for- because my modem was working perfectly. I do not want a technician sent inside my home because the wiring is in perfect condition and there is no reason to risk exposure to the virus. The node repair must be done immediately especially when I am paying a \$3.50 network enhancement fee when my connection is deteriorating. The technician is only to come to my door to notify me that the repair has been done and to pick up the company modem, I will call optimum and have them provision my old modem.

Ticket: # 3979851 - FOX 4 (KHMT) and ABC 6 (KSVI)in Billings, MT

Ticket: # 3979863 - Cancellation billing from Spectrum

Date: 5/17/2020 7:34:26 PM

City/State/Zip: Beavercreek, Ohio 45432

Company Complaining About: Spectrum

Description

I feel taken advantage of by Spectrum. I have online statements (to save the company money), I have dealt with outages with no reimbursements, and I have ongoing rate increases since signing up- I have not complained any of the aforementioned items. Now that I have canceled my service, they are billing me for an entire month, albeit I only had service for 6 days in that month. I don't mind paying for what I used, but they should not be allowed to bill me for "services" I didn't use.

This is too much! Please do something to help them stop this practice. It is wrong, especially when so many are feeling the impact of layoffs due to COVID19.

I just want to pay for the days I had service.

Ticket: # 3979868 - International Calling Charges**Date:** 5/17/2020 7:42:48 PM**City/State/Zip:** Jersey City, New Jersey 07310**Company Complaining About:** Verizon Wireless

Description

Hi, I have been charged \$500 towards international calling minutes. I am from India and I regularly use internet calls over Facetime or Whatsapp to stay in touch with my family. During the month of March, my facetime calls to my mother have been charged to my bill by verizon. My average monthly bill is \$20 so this is 25 times higher and equal to two years of phone bill. I am not aware of the technicalities but it seems that Verizon is aware that such things can happen but failed to warn me or even allow me to block international calling from my account. I have been requesting the company for the past two weeks now to reverse these charges. These charges are extremely punitive to a customer who is not aware of the technicalities which can convert an internet call to a regular call. Moreover, I continue to use facetime and have not seen charges in my April bill. This is an extreme abnormality that such high charges "appear" in only one month's bill. I am requesting the FCC to please ask Verizon to reverse these charges and not put customers under further stress in middle of a pandemic. Again, all calls were made by going to the 'Facetime' app and using the contacts from there. In my 6 year history with Verizon, I have never incurred such high charges. This is not normal usage behavior or pattern. The history will show that.

Ticket: # 3979915 - Consistent Outages and shortage of other options

Date: 5/17/2020 8:51:50 PM

City/State/Zip: Pilot Point, Texas 76258

Company Complaining About: Sudden Link

Description

Tuesday 5/5/202 I started having issues with out networking being unavailable. My wife is currently working from home and was not able to adequately complete task that she needed to complete that day and had to leave the house due to this issue during the Covid-19 period. It is now 5/17/2020 and we are still experiencing issues even after having a tech come to our house. Originally we were told on 5/5/2020 that the issue would be fixed in 48hours. Later we found out that the issue stems from 05/03/2020 from what one representative had told us.

Ticket: # 3979936 - Charging Fees For Services Not Poviding

Date: 5/17/2020 9:12:46 PM

City/State/Zip: Los Angeles, California 90038

Company Complaining About: Spectrum

Description

Spectrum has passsed along to its customers (even for us customers who don't even watch sports) a \$13.50 per month Broadcast TV Surchrge for sports channel. Since the Covid 19 pandemic, there has been no sports being played to watch but they continue to bill its customers for "Other Charges" at \$13.50 per month broadcast tv surcharge.

Ticket: # 3979955 - Constant Internet Outages/Lapses**Date:** 5/17/2020 9:37:19 PM**City/State/Zip:** Springfield, Oregon 97477**Company Complaining About:** Comcast

Description

Throughout the last few years, despite replacing the provided gateway device multiple times, removing extraneous splitters, replacing old cabling, and doing everything in our power overall to correct the issue, our internet connection has become progressively worse. However, the provider insists that nothing is wrong, that all is functioning properly, and that there is no outage present. They've become entirely unwilling to render assistance, even before the pandemic began, to the point of leaving us on hold for hours only to hang up at the end without acknowledgement when we call for support.

It is my assumption that some section of the cabling running below-ground to the outdoor junction before it reaches our home, has a fault (as everything beyond that junction has been replaced at least once), and is potentially in need of replacement, even though the provider insists nothing is awry.

Ticket: # 3980026 - Violation of Privacy - Possible Identity Theft

Date: 5/18/2020 12:55:47 AM

City/State/Zip: Trussville, Alabama 35173

Description

I received a letter from Verizon wireless concerning an issue with a letter. The letter stated someone used my business name to open or attempt to open a line for a cellphone. I sent a Verizon a certified letter and they failed to respond to my request. Additionally, their customer service lines are horrible and every time I attempted to call the lines had a 35-45 min wait and before they blame it on COVID-19 this was before COVID. Additionally, I have personal account Verizon and the customer service lines are always heavy hold times - thus terrible customer service. Now they are leaking or allowing someone to attempt to use my business name to open an account without my authorization. Verizon has yet to respond to my written request about who applied, was this online? if so, what is the IP address - if this was in the store do we have video footage?

Sprint has limited my account even after calling and formally requesting covid19 assistance during the pandemic. Sprint is in violation of the fcc promise to keep connected during this pandemic while I wait for unemployment from my state for covid-19 assistance.

Ticket: # 3980059 - Denied Internet Essentials from Comcast

Date: 5/18/2020 5:06:20 AM

City/State/Zip: Warrenville, Illinois 60555

Company Complaining About: Comcast

Description

On 4/15/20 I had to cancel my internet service of approx 9 years due to lack of funds. I have been denied several times by Comcast for their low income Internet Essentials due to being a customer within 30 days. This is causing hardship to me during the COVID-19 crises. Within the past 2 weeks I was overnight in the ER due to illness. I am unable to have a televisit with my doctors due to no internet. Last week I had to pay a doctor \$100 for a missed televisit because I couldn't find anyone who would let me come over and use their internet for my appointment. I do all of my banking and bill paying online. I am unable to do this without internet. Illinois is under at stay-at-home order so libraries and other entities with free internet are closed. Lack of internet is affecting my mental and physical health. Comcast's website states they are giving 2 months free internet. Not to me. They keep refusing to give me the Internet Essentials and state I have to be without internet for 90 days. Even during the COVID-19 crises? That's inhumane. You won't be able to reach me by phone. My cell phone isn't working and I can't afford a new one. Please help!

Ticket: # 3980064 - Internet phone cable

Date: 5/18/2020 6:07:48 AM

City/State/Zip: Norton, Massachusetts 02766

Company Complaining About: Comcast

Description

Had my service disconnected last month during pandemic after comcast advertised they were not shutting off service during covid 19. I am disabled on a limited income. I called comcast and couldn't get thru. I messaged them thru messenger and received a message back 3 days later. I was told my service was not shut off but it was. I had no phone cable or internet. When I explained this I didn't receive a response and still haven't. I paid the bill and my services came right back on. This company is horrible and customer service even worse.

Company Complaining About: Comcast

Description

I contacted comcast and told them I was out of work on the 11th due to the pandemic I also stated I get no unemployment till the 29th was told they would hold the suspension till then I again notified them on the 14th and told them the same, this morning cable was off so I chatted with them at 6 am today was told to record was made Nd I was suspended. I am displaced because of the pandemic I have no money and they refuse to hear it

Ticket: # 3980086 - Slow Internet Speed

Date: 5/18/2020 6:53:14 AM

City/State/Zip: Wellington, Florida 33414

Company Complaining About: Comcast

Description

This is my second complaint in a year about the internet service of Comcast /xfinity. They regulate internet speed frequently, I never get more than 50% of promised speed, apart from when they send their technicians to fix non existent issues, to pretend as if there is some sort of an issue at the location. The agent visit will fix internet for few days and then it will return to the bad internet speed. During the pandemic their speed has been 20% of what they promised and I paid for. This morning the speed check on their website indicated I was getting 0.1 MB while they charge me for 100 MB speed.

Comcast has equally poor customer service, you can spend hours on Customer service phone or chat or texts without getting anywhere.

FCC has also failed to protect American interest by allowing Comcast and Verizon monopoly on internet. How are we going to thrive and stay ahead in this information and 5g age with the Comcast and Verizon monopoly and equally teeth-less FCC?

Ticket: # 3980185 - Internet and cable outage

Date: 5/18/2020 9:07:09 AM

City/State/Zip: Leander, Texas 78641

Company Complaining About: Sudden Link

Description

Our internet has been down since 5/14/20. We are working from home due to COVID 19 and without internet we can't work from home. We made several calls and had many techs come out, but they can't fix it because they are subcontractors. Suddenlink refuses to send a maintenance tech to replace the cable box, which the nodes are burned out per techs. There are at least 4 homeowners affected by this outage.

Ticket: # 3980187 - AT&T overage charges

Date: 5/18/2020 9:08:29 AM

City/State/Zip: Gretna, Louisiana 70056

Company Complaining About: AT&T

Description

Consumer claims AT&T is charging her overages on her home phone.

She only has 200 minutes on her home phone service due to the bill being so high.

She is being charged \$77 overages on her home phone.

The only reason she has gone over is due to the pandemic.

Consumer would like all of the overage charges to be waived.

Ticket: # 3980215 - Verizon Equipment

Date: 5/18/2020 9:22:23 AM

City/State/Zip: Philadelphia, Pennsylvania 19149

Company Complaining About: Verizon

Description

The consumer states that during the pandemic they cut her service off and charged her fees and are demanded her equipment back.

The consumer had cable and internet with Verizon.

The consumer states that she spoke to a representative and they said that she will continue to receive fees for the return of the equipment.

The consumer states that the bill went from \$544 to \$1200 now.

The consumer told them that because of the pandemic she cannot return the equipment because of stay at home orders.

The consumer states that a UPS truck was driving down her road and she handed it off to them so they should be receiving it.

The consumer would like for them to get rid of the bill for the equipment because it was out of her control on when she would be able to return it because of the pandemic and stay at home orders.

Description

I bundle with Comcast in FL&NJ. Stuck in FL due to pandemic & Comcast refuses to extend my seasonal rate. Offered cancer drs letters but to keep my phone no it will cost me \$54/mo a no I had when I switched to Comcast. No consideration given by US Co to US problem. Shame!

Ticket: # 3980304 - Comcast/Xfinity automatic increases

Date: 5/18/2020 10:08:46 AM

City/State/Zip: Keswick, Virginia 22947

Company Complaining About: Comcast

Description

Comcast has a history of increasing charges without increasing service every 8 to 12 months, but now it is increasing fees every 3 months or sooner without improvement to equipment or changes in service. One year ago, the charge was \$34.51 less; in seven months, it increased \$8.64; 4 months after that, it went up another \$1; then, in one month, it increased \$25. I'm constantly having to call and go through a huge hassle to discover the reason for the increase and to get them to lower the charge. My service in this area began 4 years ago at less than \$90. Nothing has changed, in fact, I've eliminated some service. I'm 73 years old, and it is an excruciating experience to have to constantly call. I have no choice if I want service, or I will have to pay for wiring installation by Century Link. Isn't this a violation of antitrust laws and an example of predatory behavior, especially in the time of the pandemic????

Ticket: # 3980305 - Interference on K2QW and W2RN Repeaters in New Jersey

Date: 5/18/2020 10:09:00 AM

City/State/Zip: Saddle Brook, New Jersey 07663

Description

For a weeks now the K2QW and W2RN Amateur Radio Repeaters in N.J. have been experiencing malicious interference on the repeaters. This includes keying the repeater for long periods of time with no call letters or identification.

At times foul language is transmitted. As these repeaters are being used for the health and welfare of Amateur operators in the current Covid-19 crisis we have had to shut down operation.

Ticket: # 3980385 - Comcast Issues - Keep America Connected**Date:** 5/18/2020 10:46:03 AM**City/State/Zip:** Chicago, Illinois 60643**Company Complaining About:** Comcast

Description

She is struggling because of Comcast's billing. They change the program and then they have to bill her for new boxes, and equipment. This causes excessive rental fees. She has paid \$200. Her bill was paid in full as of March 13th. Comcast should not have disconnected her service; her internet, TV and Phone - Keep America Connected; they charge late fees, disconnect fees and restore fees and they are not supposed to. Now they have disconnected her service as of May 17. Her bill was over \$296 per month.

Resolution the caller seeks is that her bill should not be almost \$300 per month and they should not have turned her service off; there is a pandemic going on. She wants her service back on and her monthly bill to not be this high. She has not asked for all the upgrades that are causing Comcast to have to update her equipment; that should go along with her service. ***CTR386-phone***

Ticket: # 3980407 - Optimum Online Long Island NY

Date: 5/18/2020 10:53:24 AM

City/State/Zip: Albertson, New York 11507

Company Complaining About: Optimum

Description

Optimum Online on Long Island, NY has been providing atrocious service since March. Ever since schools have been closed due to COVID-19 and the state has ordered all non-essential workers to quarantine, Optimum's service has been horrible. Day after day things just get worse. We have a 200Mbps download by 35Mbps upload package. We have never seen 200Mbps but maybe 185Mbps and that was well before January 2020. Their services started suffering slightly in early 2020 but come March, things have gotten much worse. Our average speed is 4Mbps download and 8Mbps upload.

Forget streaming television (which is our main source of TV in the home), our children are using distance learning programs which requires live conferences. It is entirely impossible at the speeds Optimum is providing. We have to "tether" our kids school devices from our cell phones in order for them to do their school work.

We have tried to contact Optimum number of times with their live chat online because their phone lines state that we get faster service that way. Their online chat system may have crashed because we wait for hours. I tried to call last week and I waited nearly an hour but a representative finally answered and at first told me that they do not see a problem with service. I explained the problem and they put me on a 30 minute hold, which I just could not do.

Altice owns Optimum and it seems as if their customers are unimportant to them. We have tried filing complaints online but their online system is broken as well.

Ticket: # 3980457 - Billing issues w/ spectrum

Date: 5/18/2020 11:10:27 AM

Ticket: # 3980496 - COVID-19 No Reasonably Priced Internet Access**Date:** 5/18/2020 11:20:42 AM**City/State/Zip:** Dayton, Ohio 45417**Company Complaining About:** Directv

Description

She recently signed a 2 year contract with DirecTV. She is without internet right now during the pandemic. DirecTV sent flyers to her home advertising a bundle of internet and TV for \$88. She called to take advantage of the bill because she has kids at home that need internet and she is currently paying \$85. One child is in middle school the other is in high school taking high school and college classes. She has to sit in a parking lot for them to use wifi and get their homework done. She was told that the promotion was for new accounts only and she would only be able to add Internet if she paid an additional \$59 a month. She is not working because of the pandemic and her husband is a disabled veteran. The service rep, Sara, was unwilling to assist her and wanted to transfer her to customer service, but customer service transferred her to speak to Sara. Sara was rude to her and continued to use a revolving door tactic to over talk the consumer and stonewall her. The consumer asked for a supervisor and Sara started talking again and antagonizing her, refusing to escalate the call. She put her on hold for 45 minutes. The consumer is a dialysis tech and performs dialysis for her husband and does not understand why Sara was so unwilling to her. She just signed up for service in February and does not understand why the company is unwilling to offer her a rate that is currently being offered.

Ticket: # 3980567 - Comcast COVID-19 Disconnection and Billing**Date:** 5/18/2020 11:50:50 AM**City/State/Zip:** Fairfield, California 94533**Company Complaining About:** Comcast

Description

She is having trouble with Comcast. They have been taking money out of her account. Last year she had \$800 taken from her account and she has been disputing the deduction with them since last August. Before this billing issue occurred her bills were paid on time. They claim that this is related to the security system equipment that she had, but that equipment was returned in the local drop box. The amount due was paid. She disconnected service because her and her elderly husband was unable to remember the code and she was charged \$25 for everytime she had to call and deactivate the alarm. A few months ago Comcast stated that they says that she owes over \$700. The bills have been erratic and are difficult to keep up with her. Despite COVID-19 her service was cut off yesterday. Her and her husband are elderly and are unable to get access to valuable information because of Comcast disrupting her services. She was told she has to pay \$417 to have services reconnected but she does not have that money to pay. She received another bill stating that she owes over \$1700, which cannot be true because she has been paying the bill price. She is asking that Comcast investigate her account and the amounts that were wrongfully disconnected. She is also requesting that the services be restored immediately.

Ticket: # 3980616 - Optimum COVID-19

Date: 5/18/2020 12:05:01 PM

City/State/Zip: Valhaleystream, New York 11581

Company Complaining About: Optimum

Description

The consumer wants to file a complaint against Optimum whom she has cable and Internet service.

The consumer states they told her they wouldn't cut her service.

They told her they would adjust the last month bill because of a promotion they failed to address.

The consumer received a notice saying they would cut her services off and was on the phone with them this morning and was to receive a follow up call on whether they would cut her service off or not.

The consumer needs her service, she is a New York City Teacher and needs the Internet during the COVID-19 pandemic.

The consumer needs to also make sure her bill gets adjusted like she was told.

City/State/Zip: Louisville, Kentucky 40223

Company Complaining About: AT&T

Description

I am the owner of my business, and my business phone number is with AT&T, which I ported from my previous provider when I signed on with them in 2018. Due to the COVID 19 and working remotely, I decided to purchase a cell phone with T-Mobile to start using as my business phone number because my "personal" cell phone is with them. T-Mobile has made five requests for the phone number, but AT&T won't release my main business number, which is (b) (6). I have spent numerous hours on the phone with both companies trying to get this issue resolved over the past six weeks, but they can't seem to work out the problem, and I'm paying both phone bills at the same time until this is resolved. I am completely worn out over the whole situation. Please Help!

Ticket: # 3980665 - Suddenlink Internet Speed and Phone Service**Date:** 5/18/2020 12:21:55 PM**City/State/Zip:** Minden, Louisiana 71058**Company Complaining About:** Sudden Link

Description

We have called Suddenlink several times concerning the internet speed. They came out, looked things over and told us everything is okay. I disagree. I own a business, Impressions Advertising Specialites, LLC, in Minden, Louisiana. I can hardly get anything done on the internet because of the speed. When checking emails, you have to wait sometimes up the 30 seconds before it appears on the screen. When sending emails, the same issue. I spend more time waiting on the internet than I do working. They told us "it's because of the Covid-19 and more people are working from home and the children are out of school and on the internet which slows it down." This is an unacceptable answer to my problems. The phones may work one minute and down 30 minutes to several hours. I have reset the system so many times. I am not the only one in our area with this problem. We need your help.

Company Complaining About: Optimum

Description

We are a healthcare facility. The bill for optimum which was due on April 30th, 2020 was not paid due to various changes due to COVID pandemic. In this situation, Optimum disconnected the internet and phone service without any prior warning. This caused a question raised for inquiry by you (FCC). I would appreciate if you (FCC) take proper action so that this sort of inconvenience does not occur in future and ask Optimum to compensate us for this episode of trouble. At present we have paid the bill in full.

Ticket: # 3981028 - Unauthorized attempt to withdraw money in spite of our agreement

Date: 5/18/2020 2:04:58 PM

City/State/Zip: Irvine, California 92603

Company Complaining About: Verizon Wireless

Description

Greetings and thank you for looking into this matter. I contacted Verizon in March 2020 and requested deferred payments due to Covid-19 and having financial difficulties. The customer service approved my deferred payment until the end of June 202 and recommended that I turn the auto-payment option off on Verizon's website. And I did immediately. A few days ago, I realized that Verizon has turned the autopay on and attempted to withdraw money from my checking account. Because there was not enough funds in my account, my bank charged me a fine of \$22! When I went back to my account on Verizon website, my autopay was on and it warned me that if I turn it off, I will loose my \$20/month saving for having autopay turned off. It seems as Verizon claims to help their customers during the Covid- 19, in reality, they lack integrity and honesty by causing more aggravation and cause for undue expenses and waste of time for calling my bank and spending time explaining the situation. Thank you for your help.

Ticket: # 3981274 - Fraud Charge against Comcast Xfinity

Date: 5/18/2020 3:07:00 PM

City/State/Zip: Dover, Delaware 19901-0219

Company Complaining About: Comcast

Description

I am filing this complaint against Comcast for the possibility of fraud.

In May 2019 I signed up for internet service with Comcast Xfinity at a rate of Twenty Nine Dollars and Ninety Nine Cents (\$29.99).

I started having the problem of losing service multiple times a day, and on occasion for eight plus (8+) hours or more. We did not contact Comcast at first due to the fact that in the past when there were problems it was never Comcast's fault, but also because we were warned by other Comcast customers that it was a typical problem with their service which Comcast puts off correcting for extended periods of time. On May 4, 2020 I went thorough the Comcast service they provide over the phone to see if that would correct the problem. It did not - the problem continued.

I contact Comcast to report this problem and I was told that Comcast was unable to send out their service people for customers having intermittent service problems to check and repair the problem due to the Coronalvirus, this service was only for customers who had lost total service. They could not provide in home service for intermittent service problems. However, they would be giving the intermittent service problem customers a Twenty Dollar (\$20.00) a month credit for the duration of the Coronavirus restrictions.

On May 15, 2020 I got my monthly bill in the amount of Forty Nine Dollars and Ninety Nine Cents (\$49.99). I contacted Comcast to have the bill adjusted to reflect the Twenty Dollar (\$20.00) credit I had been told about. That person didn't know anything about this credit.

I then contacted Comcast Corporate Headquarters. The first person I spoke with asked what my problem was only to realize that I was talking to a dead line - which I assume I had been hung up on. I called them back and spoke with a representative who was very polite, and said she would have someone contact me to try to solve the problem. They scheduled a Service Rep to come to my home between 3:00 and 5:00 PM THAT DAY to check out the service. Keep in mind this was the service they supposedly COULD NOT provide. The Service Rep check out the lines at my home, and said he couldn't fine a problem. They would have to send someone out at another time to check the line leading to the home from the pole. I again lost the connection twice the next day.

I then received a phone call from someone named Frank who stated he was with Comcast Corporate and wished to discuss my problem and see what could be done. After explaining the situation he said he would check my file and get back with me and see what they could do. He gave me his phone number - 410-931-5980 - and I could call him back any time from 12:30 pm. I was busy and unable to call Frank.

On May 18, Frank called me. Frank informed me that the only thing he could do was offer my a new rate package promotion they were having at Thirty Nine Dollars and Ninety Nine Cents (\$39.99), and

a Twenty Dollar (\$20.00) credit for Two (2) months only. This is unacceptable. They now want to charge me more for service they have been unable to provide, and only two (2) months of credit. I assume this is fraud - or at the very least price gouging. We are fully aware that the cable providers are losing customers in great numbers - mainly due to the extremely high rates they charge and the inability to provide reliable service and need ways to compensate for the lost revenue. However, ripping off existing customers is not the answer.

I am requesting that my monthly bill remain at the Twenty Nine Dollars and Ninety Nine Cents (\$29.99) and will be glad to forfeit the Twenty Dollar (\$20.00) originally I was told would be given to intermittent service customers.

Ticket: # 3981317 - AT&T - Not refunding my money \$43.49 after I return their NOT Working extender within 14 days of return policy

Date: 5/18/2020 3:18:36 PM

City/State/Zip: Placentia, California 92870

Company Complaining About: AT&T

Description

I order this WiFi Extender to improve the Wifi in my home, since day one they sold me the wifi service and said the router that they gave was good to cover the wifi within the home but we have lots of dead spots and having issue working from during the corona virus issue. They suggested that I should buy their extender. when I did that the extender didnt work even after I spend 3 hours with tech support. Si I told them I will return the extender and the tech support said it was ok for me to return it. Now AT&T do not want to refund the money even after the policy of 14 days return. They already charge my card and still have issue giving my money. Please help. See the 2 attachments for your reference.

Ticket: # 3981400 - Internet Availability at School

Date: 5/18/2020 3:41:58 PM

City/State/Zip: Bronx, New York 10459

Company Complaining About: Other

Description

Good evening,

I am writing with concern that internet companies will only provide free wifi for 60 days, however, schools in New York City transitioned to "remote learning" as of March 23rd. 60 days would officially end somewhere around May 23rd, however, our school year does not end until June 26th and have not discussed summer school.

My school is located in the Bronx; which is the poorest county in the State of New York and one of the poorest districts in the nation. While I understand you are a member of the FCC's press office, I would like to request that you forward this message to your constituents as a request for an extension for free wifi until the pandemic has ended.

The press release dated for May 13th suggests that tomorrow would last day that children could have internet access if their service began 60 days ago.

Please let me know who I should reach out regarding this matter. Thank you.

Best,

(b) (6), Principal

Ticket: # 3981403 - Comcast Cable Billing

Date: 5/18/2020 3:42:29 PM

City/State/Zip: Georgetown, Delaware 19947

Company Complaining About: Comcast

Description

The consumer is having issues with Comcast.

The consumer states that because of COVID-19 all the stores are closed and the only communication he gets is 800 calls saying they can't answer all calls and never gets assistance.

The consumer used to get the Hockey package \$140 a year.

The consumer states that for some reason they have a new system and he asked for the Hockey package this year like he always does.

This time they told him it would end at the end of baseball season.

The consumer states that they cut out the NHL channel and were forcing him to pay an addition \$26 for the next 3 months.

He was having issues and had to pay \$40 for a technician and ended up having the service back.

The consumer states that he is getting charged another \$26.

The consumer would like to pay \$140 every year like he always has for the past 22 years.

The consumer can't ever speak to a human being and thinks he must have added extra thinks he didn't need.

The consumer would like some help and get this package to what he always had paying \$140.

Ticket: # 3981431 - False Prophet**Date:** 5/18/2020 3:49:51 PM**City/State/Zip:** Amelia Ct Hse, Virginia 23002

Description

I owned a retail store at the time I sought outside the box so I thought was a True to bible Prophet.. WRONG...Made a huge mistake. In November 2019 I sent in a what was called a seed offering never got to speak to the Prophet but some other people which background sounded like a Call Center. Never heard anything until April 01, 2020 since then it has been a horrible nightmare. The more I block his numbers, he comes up with another. I have sent STOP to numerous calls as a reply, I have even blocked these numbers, It appears he has used every area code 855, 989,844, 708 now working on 205 area code numbers leaving message about somebody trying to take something from me(nobody but him) about someone in my family is doing something to me (Lie if I ever heard of such). I have received 28 calls to date, Blocked numbers 4 (how do you call from a number that is blocked?). I sent a certified cease and desist letter which was signed for to 310 Riverside Dr. #103 New York 10025 dated April 09, 2020; since the letter I have received 11 phone calls. I called his office dated 05 18, 2020 at 9:25 am ; I received another call same date at 1:18 pm from a (205) 708-2470. My telephone number has been on DO NOT Call Registry since 2000. This person is definition if insane. This harassment, stalking, texting and calling needs to STOP ASAP. This Covid-19 (losing loved ones) issue is big enough to deal with do not need harassment and all the above

Ticket: # 3981602 - Suddenlink - Bryan, TX - Billing

Date: 5/18/2020 4:42:21 PM

City/State/Zip: Bryan, Texas 77807

Company Complaining About: Sudden Link

Description

I have had such a problem getting to talk with anyone about my billing problem, and I have spent a total of 24 hours on the phone trying to solve multiple issues. The first issue was trying to get a technician out since we had moved. The first appointment was missed by me since we moved that day and the attic was blocked. Then, the next 3 were missed due to Suddenlink's own negligence. Once the technician arrived, things were better. He was kind, understanding, and knowledgeable. Previously, I was told that my rates would not increase because of the move and I would retain my deal after the move. Once the issue of establishing internet was resolved, I then got charged more than double my rate. The only reason I have TV and Phone on my bill is because when I first signed up, I was told it would be cheaper to bundle those three together than just to purchase the internet plan I desired. I called several times, asked to escalate and talk with supervisors or have a call back, and I never got any of them. I understand with COVID-19 that lines will be busy, but prior to this, any issue I had was solved in 1-2 calls totaling 2 hours max. I have had to call in 10+ times and spend 24 hours on the phone, which I could have used to be working instead. I was promised that my rates would not change, that my issues would be solved, that a technician would be on time and not miss 3 appointments, that a technician would call if re-scheduling was needed, and that this would be solved as fast as possible. Additionally, they do not have support over email, and at times, they are hard to hear. I looked for disability contact information so I could contact them via email, but the only thing I could contact them for would be a Closed Captioning Issue. They state they got rid of email support, but that doesn't comply with ADA laws for hearing impaired. Since the closest in-person location that is open currently is 400+ miles away from me, I can't feasibly access a store location to talk in person.

Ticket: # 3981614 - Net10 No Service During COVID19**Date:** 5/18/2020 4:48:21 PM**City/State/Zip:** Red Bay, Alabama 35582**Company Complaining About:** Net10

Description

Her and her husband have Net10 service. They have not had service for months during COVID19. They would go to the store each month and buy 1000 minutes and put the minutes on the phone. March 27 her husband went to buy 1000 minutes for each phone. It showed the minutes were accepted and the phones were ready to talk but she was unable to receive or make calls. She called Net10's 800 number and they said they would assist her. She has called over a dozen times trying to get this issue resolved. The last time she called she spoke with them for 45 minutes. They said they'd call her back but they didn't. Her husband went out and bought another 1000 minutes for each phone. He placed the minutes on one phone and realized it was not working. When he tried to make calls it says "Call End". They have now paid for two sets of 1000 minutes.

They are both elderly and ill and need the phone services. Her daughter went and signed her up for services with a carrier so they have access to the outside world.

The wireless numbers are (b) (6) (b) (6)

Ticket: # 3981616 - T-Mobile COVID-19

Date: 5/18/2020 4:49:19 PM

City/State/Zip: Columbia, Maryland 21044

Company Complaining About: T Mobile

Description

The consumer wants to file a complaint on T-Mobile.

The consumer states that during COVID-19 he is having unemployment issues the Department of Labor.

The consumer states that he called T-mobile back in April and explained the situation and that he shouldn't worry about it and they would call him back if anything.

The consumer states that in order to reach the May 23 deadline he would only be able to if the DOL situation gets resolved.

The consumer states that he offered them proof of everything that is going on and they didn't want that.

The consumer states that they are not understanding of anything and they pretty much say that you owe what you owe and they don't care, yet a representative told him not to worry about it because of the pandemic.

The consumer needs an extension until the pandemic is over or he is able to get his unemployment.

The consumer states that this is out of his control and doesn't want his service interrupted.

I inquired if Sprint could make adjustments to my monthly bill due to financial hardship because of COVID 19. Staff indicated that a credit adjustment of \$185.38 had been made to my account and confirmation email was sent. To date the adjustment has not been made. I have called and sent chats multiple times and still no credit has been made.

Ticket: # 3981880 - Spectrum

Date: 5/18/2020 6:45:45 PM

City/State/Zip: Columbia, South Carolina 29223

Company Complaining About: Spectrum

Description

I am writing because I have had Spectrum services for years, but in the past year I downgraded to internet only. I went in the cable store in 2019, and I was given a one year special for 49.99. The cable associate i the store told me to make sure I return before 4/2020 to renew because the promotion would expire in one year. I return to the cable store in 3/2020, and the associate told me that I would have to return on April 4, 2020 and he could give me the 49.99 year long special again at that time. He said he couldn't renew it in March because it had not expired yet, and I had to wait until the day it expired for him to enter in the new code. Well everything happened with COVID and I was unable to return to the store, but I did call in and spoke to an associate. At the time that I called in, it was because I was experiencing technical issues with the internet. The associate tried to help, but ultimately decided that she would need to have someone come out. She told me that she would credit my account for the missed days. Once it got closer to the time that the technician was going to come out, I called to postpone the tech call because I didn't want anyone entering my house during the COVID scare. It was at that time that I asked about the 49.99 special, and I was told that they would have to see what specials were available at that time because they couldn't do the 49.99 special. I told the associate that I wanted the same special that the associate at the store promised me in March, but I was then told that someone had changed the code to 65.99 per year. I told the associate that I DID NOT authorize anyone to change the code to that price or change it to any price at that time. I said that no one had discussed it with me. I asked the associate if the credit was added to my account from the last call, and I was told that no credit was ever added. I was very upset. So I asked to speak to someone in their retention department because I felt that I had been lied to and that someone was tampering with my account without my authorization. The associate told me that the annual fee that was given was the lowest they could give, so whoever put the code on gave me the best deal. Then she gave me the credit that I had never received from the prior associate and transferred me to retention or the equivalent because I was told that they didn't have a retention department. The person in that department placed me on hold for a significant amount of time. She returned and told me that the 49.99 promotion was part of a two year plan and she could not give me the 49.99 special or she would be fired. I told her that everyone I had spoken to prior to her confirmed several times that the 49.99 was a one year plan, and they had said nothing every about it being part of a two year plan. She said that she was told it was a two year promotion and she would be fired if she changed it. // I am reporting Spectrum because I was never told of a two year plan. I was told that I could get the 49.99 special again in April. When I called in April, I was then told that someone unbeknownst to the associate I spoke with had changed it, and that was the lower they could go. I was lied to about the credit being applied, and then when I was transferred the final time, I would told it was a two year plan and could not be changed or the associate would be fired. I've had other issues with associates calling me for trials of cable services, promising me that I won't be charged if I ended within a certain time, and then charging me full price any way. I don't like the way that Spectrum does business, and someone should investigate their practices. Please obtain recordings of the calls so you can hear the associates have lied to me more than once. Let me know what information you need from me.

Ticket: # 3981942 - Visat is RIPPING CUSTOMERS OFF

Date: 5/18/2020 7:35:09 PM

City/State/Zip: Kingsland, Georgia 31548

Company Complaining About: Viasat

Description

You called Sat May 16th 888.650.0860 spoke with Latisha. Set up internet services and cable to start working because of Covid19. She gave work order 1811.5876 to be set up Mon from 12 to 4pm. No one showed. Technician texted me stating he only does trouble shooting services calls. They took money 150.00 plus 22.58 without consent and provided no services. Overdraft my account.

Ticket: # 3981971 - Extremely slow Internet connection negatively affecting my work for FaceBook

Date: 5/18/2020 8:03:19 PM

City/State/Zip: Everett, Washington 98201

Company Complaining About: Comcast

Description

I work remotely during Covid for FaceBook. My VPN is so slow that FaceBook's Help Desk had their system drop-off multiple times while working remotely on my computer to find my file access problem. The computer is my FaceBook computer brought home. FaceBook determined the multiple drop-offs were due to extra-long transmission delays from my computer responding to the FaceBook computers.

Aside - Even the communications with our TV are terribly slow.

Ticket: # 3981976 - Spectrum TV billing

Date: 5/18/2020 8:05:11 PM

City/State/Zip: Ruskin, Florida 33570

Company Complaining About: Spectrum

Description

I have been having issues for days to get through to Spectrum TV, you are on hold for hours or after many minutes on phone you get disconnected and they do not call you back. I have been since 5/15/20 to put my service in Florida on vacation hold prior to the new billing cycle. They are charging me full price for a whole month I am not using their service. When you turn off a service you should be prorated why do they get away with this. I am struggling during the COVID19 and there is no customer relief at all...I finally got ahold of someone today. At 7:30 pm. They do not let you quit your service unless it is exactly on the date of the new billing cycle. Now I am stuck holding on to the service as I am back in Ohio and cannot return the equipment until I get back to Florida. Cable companies need to be regulated must be they are ripping consumers. I cannot afford the bills they sent I have told them and I can't get them on the phone to cancel on the dates I have to do this there is no window. Please help

Ticket: # 3982021 - Upload bandwidth is not usable during Peak Hour

Date: 5/18/2020 8:36:59 PM

City/State/Zip: San Ramon, California 94582

Company Complaining About: Comcast

Description

I upgraded my internet since Covid-19 but it provides no help. I am advertised for 300/10 plan but during peak hours I get less than 700Kbps of upload bandwidth that's less than 100KB/s, which is far less than needed for Video conference and home schooling.

BUT this is not only my problem, my entire neighborhood is facing the same problem. It's because Comcast has oversold the plans in my community without upgrading their infrastructure and now their service is a big bottleneck and EVERYONE is facing the capacity limit.

Please help and urge Comcast to lift the upload bandwidth capacity so we can still work/study at home. THIS IS AN ESSENTIAL PROBLEM now given we have to stay home!!!!

Ticket: # 3982094 - Prolonged Service Interruption

Date: 5/18/2020 10:26:34 PM

City/State/Zip: Springfield, Missouri 65810

Company Complaining About: Mediacom

Description

The neighborhood where (b) (6) is located has had intermittent internet failures for almost 2 weeks. Mediacom is aware that this is a large scale issue but is not taking action to fix the issue in a timely manner.

Due to the COVID-19 outbreak, several people in the neighborhood, including myself and my wife now depend on working from home for our livelihood.

Please encourage Mediacom to take action to quickly fix the issue.

Ticket: # 3982143 - Suddenlink/Altice overcharging in pandemic

Date: 5/19/2020 12:56:27 AM

City/State/Zip: Amarillo, Texas 79109

Company Complaining About: Sudden Link

Description

Suddenlink gave us a data overage fee this month. Of course we went over - offices are closed and kids were sent home to do schoolwork over the internet. We never were given warning that we were nearing our cap. How many customers are they profiting off in this pandemic?

Ticket: # 3982147 - Internet fees, and ONT box issues for \$200 when it's not my issue

Date: 5/19/2020 1:15:45 AM

City/State/Zip: Los Angeles, California 90026

Company Complaining About: AT&T

Description

I don't have to pay \$10 just for a piece of equipment that's doesn't get the speed that I pay for and also there are websites that loads really slow when I had other ISPS that never happened except for AT&T. Another issue is that AT&T is trying to charge me \$99 for a technician to come to my residence especially during a pandemic that I can't afford that at the moment.

Ticket: # 3982149 - Bill unusually high

Date: 5/19/2020 1:20:37 AM

City/State/Zip: Los Angeles, California 90026

Company Complaining About: Verizon Wireless

Description

I usually get charged \$150 for my bill and now I'm getting charged \$220 for no reason and It's Verizon's fault that I'm getting charged too much and I won't be able to afford it due to the COVID-19 Pandemic. They should fix it by trying to reduce the bill as the way it was as I always used the phone and never use any addons or all that.

Ticket: # 3982154 - My phone number has been spoofed

Date: 5/19/2020 1:28:22 AM

City/State/Zip: Connellsville, Pennsylvania 15425

Description

An ex boyfriend of mine and his ex wife which is his bestie n partner in crime have made an account using phone number (b) (6) they have gotten 6 others to form a group and have duplicated an old Facebook account of mine I have been put in their group and now they have access to my iCloud I can't take it anymore my son added me to his account to help me because he had cloned my old phone and number and stole my everything I hate to resort to this but they are destroying my life by stalking spoofing all the phone numbers he's put spyware in my apps n hid them I don't have Facebook or messenger accounts on here n can't because I'm afraid to my cars been damaged his ex wife n one of them have caused a problem due to the number duplications now my medical info has been damaged I don't know what else to do I have reported it to the law n they are looking into this atm I'm so upset n scared I don't have any life at all anymore n don't know what to do the number he was using or one of them is (b) (6) ya just get to the end of your ropes and now I can't use any of my phone apps n I am like a secondary device I can't download apps n I don't want this to continue recently I have been alerted by mail that someone was able to use my Medicare card omg this has got to stop the world is in a pandemic n they've created a pandemic thst I consider to be gangstalking please put an end to this for me and report this matter to all other carriers I was told when I called that I'm calling from a qlink account no this is an at and t phone that I have to pay monthly for another 19 months this is not fair to me please contact me at (b) (6) thank you hopefully there can be an end in sight n he's totally ruined 5 other devices and two tablets as well this is by far the most vicious attack I've ever been put through I wouldn't wish this on my worst enemy

Ticket: # 3982340 - Service agreement

Date: 5/19/2020 9:32:43 AM

City/State/Zip: Ranson, West Virginia 25438

Company Complaining About: Frontier Communications

Description

Frontiers fraudulent acts of the service agreement doesn't have any statements about covid19 or affidavits service agreements that any customers agree to addendums.

Ticket: # 3982347 - Xfinity COVID-19

Date: 5/19/2020 9:40:56 AM

City/State/Zip: Miami, Florida 33167

Company Complaining About: Comcast

Description

The consumer has bundled service with Xfinity.

On April 11th the consumer spoke to Keith in the Billing department and told him that with the pandemic going on she couldn't make a payment, so they extended it to June 12th.

On May 12 the consumer spoke to Cameron and he said that they would shut off her service for non-payment and they transferred her to the billing department and spoke to a supervisor Martin whom gave the consumer an extension to June 12th and on May 16th her service got shut off.

The consumer has no TV service.

The consumer would like them to turn her service back on because it was a president order and the consumer states they signed the pledge.

The consumer would like an adjusted bill for the June 12th bill due to this interruption.

CTR-415

Ticket: # 3982357 - Service

Date: 5/19/2020 9:46:11 AM

City/State/Zip: Milford, Connecticut 06460

Company Complaining About: Optimum

Description

Consumer states that he is having problems with Optimum. Consumer states that he is experiencing poor service. Consumer has called optimum many times and they keep bailing out and never show up. There have been three times that a technical shows in their residence and they have done nothing to fix their service. Consumer needs his service to be active during this pandemic. Supervisor never call back and you leave avoicemail

Consumer wants a refund and his service to be fix immediately.

Ticket: # 3982419 - Suddenlink Internet

Date: 5/19/2020 10:17:37 AM

City/State/Zip: Marietta, Ohio 45750

Company Complaining About: Sudden Link

Description

My internet barely works I have had a technician here and was informed nothing is wrong. I was then charged \$60 on my bill for a service call. I contacted them again yesterday and after almost 2 hours I was informed there is an issue and a tech would need to come out. That will cost an additional \$60. My bill continues to increase with no explanation and now I'm being charged for service calls for issues that aren't my fault. Something needs to be done about this company. I don't know if anyone who is not having the same issues. Makes it near impossible to work from home during this pandemic. They need to get this internet issue under control

Ticket: # 3982456 - Billing

Date: 5/19/2020 10:30:40 AM

City/State/Zip: Jacksonville, Florida 32209

Company Complaining About: AT&T

Description

I am being charged almost double on my bills. Due to pandemic I did get behind made an arrangement but because my contract is up I can not change my plan and its charging me full price which is almost doubled. My bill is usually around 185. But I have yet to see that. Now my new one is over 300.

Ticket: # 3982467 - (b) (6) CONTINUAL UNWANTED PHONE CALLS FROM "DEALER PROCESSING" TO MY LANDLINE TELEPHONE

Date: 5/19/2020 10:32:38 AM

City/State/Zip: Jacksonville, Florida 32210

Company Complaining About: Dealer Processing

Description

This is a follow-up to your previous request (b) (6) "CONTINUAL UNWANTED PHONE CA..."

May 18, 2020

I am updating my complaint for the record. The harassing phone calls from "Linda, at Dealer Processing" continue to disrupt my daily life. I had hoped that the pandemic would have a positive effect and the calls would cease, but they have not. I believe this should be a high priority in our government with the FCC as the situation has gotten out of control and there is nothing I am able to do to stop this on-going hell. I am forced to screen all incoming calls and clear my answering machine each time "Linda from Dealer Processing" calls my phone number. I am forced to take my phone off the hook at night to avoid being wakened by this phone harassment which causes me severe anxiety. Since these same calls are being made to innocent victims all over our country (possibly the world) it is extremely baffling that the culprits have not been tracked down and punished. There must be a way to resolve this horrible crime with all of the intelligence and technology available today it isn't surprising that we citizens would want to know why this is not stopped. I want to go on record that I will most certainly expect a class action lawsuit against the culprits who harm my privacy on a daily basis by infiltrating into my home through my land line telephone leaving me wondering and worrying what is truly behind this cruel intention that has been going on for approximately a year or longer.

Please respond with an update on any progress uncovering the responsible culprits and any class action lawsuits that may be upcoming,

Sincerely,

(b) (6)

Ticket: # 3982561 - DirecTV Covid-19

Date: 5/19/2020 10:50:23 AM

City/State/Zip: Charlotte, North Carolina 28269

Company Complaining About: Directv

Description

The consumer states that DirecTV disconnected her TV services even though she was told they wouldn't interfere with her services.

The consumer states that they told her it was because of no payment.

The consumer states that due to COVID-19 they were to keep the services on.

The consumer wasn't even behind until this month due to the pandemic and was told they wouldn't shut her service off.

The consumers husband is the account holder, Donald Miller but she is also an authorized user.

The consumer states that she would pay \$205 for HD tv and yet the quality is horrible and would like them to fix that.

The consumer would like her services back on immediately and would like her bill adjusted for them interrupting her service when they weren't suppose to.

Company Complaining About: Comcast

Description

Consumer states that his internet is not working properly, Consumer states that every day he is able to receive his internet after 4:00 pm. Consumer states that Comcast is always reporting outages. Consumer works from home and this is affecting him a lot. Consumer has try to call them but they do not answer to any of his calls. Consumer will not be paying for a bad service. Consumer wants his service to be fix immediately.

ctr408-phone

Ticket: # 3982656 - Suspended Service**Date:** 5/19/2020 11:20:10 AM**City/State/Zip:** Oakland, California 94605**Company Complaining About:** AT&T

Description

On May 14, 2020 I telephoned AT&T to request an extension on payment- as I had received a disconnection notice. I was given until May 30, 2020 to pay and avoid disconnection. On May 19, 2020, AT&T disconnected my landline phone. I telephone AT&T and was told my wait would be over 2 hours. I paid the bill and called back and was told the wait would be 6 minutes. AT&T allowed only a 60 day grace period during pandemic shut downs despite California remaining shut down. AT&T now wants to bill me a fee for disconnection/reconnection when it failed to honor the payment extension date.

Ticket: # 3982710 - COVID 19 - AT&T Cellular

Date: 5/19/2020 11:34:38 AM

City/State/Zip: Brookfield, Connecticut 06804

Company Complaining About: AT&T

Description

My income has been impacted by the Covid 19 pandemic and I explained this to AT&T regarding my bill and they still managed to force me to pay and then suspend my services along with a reconnection fee assessed. I would like to have all fees waived and I would like to switch services from AT&T to another provider without penalty. I had brought it to their attention that they agreed to "Keep Americans Connected Pledge." with the FCC. The AT&T representative said that has expired and it was good for March and April.

Will you answer a short survey?" My texted response was: "I have not give permission for your organization to text me, a violation of Do-Not-Call. Please remove this number from your database. Your information is being forwarded to the FCC. and the FTC"

Ticket: # 3983319 - AT&T is not refunding my over payment credit

Date: 5/19/2020 2:50:22 PM

City/State/Zip: Sugar Hill, Georgia 30518

Company Complaining About: AT&T

Description

I changed my at&t act. to voice over ip from pots lines. When i did this i had a credit of \$710.66 on my pots line ad (b) (6). They said i would get a check back in the mail for this. I called and t/w Brenda on 4/18/2020 and she told me the check was sent out on 4/17/2020. I never got a check for the refund. It's been over a month now. I am very busy business owner with all that's going on with covid-19 and all and really need this money back ASAP. Either send a check immediately or credit my new (b) (6) for the \$710.66 now.

Ticket: # 3983332 - Threatening to disconnect service

Date: 5/19/2020 2:53:47 PM

City/State/Zip: Rialto, California 92376

Company Complaining About: Spectrum

Description

They are threatening to disconnect my service during the pandemic when it specifically says that they will not during this time of need. I was released from my employment and with their outrageous increases in service charges it is difficult for me to pay this bill.

Ticket: # 3983338 - Optimum Internet Issues COVID-19

Date: 5/19/2020 2:56:18 PM

City/State/Zip: East Hanover, New Jersey 07936

Company Complaining About: Optimum

Description

The consumer wants to file a complaint against Optimum/Altice regarding her cable, phone, and internet services.

The consumer states that she is working from home and for the last 6 weeks she's been having issues with her internet going down constantly.

She has had a lot of technician and that there is a leak on a pole and they need maintenance crew to come.

The technician that came out today was the same one from April and they never send out the correct people to fix the issue.

The consumer is paying for services she isn't even getting.

The consumer isn't able to perform her job completely.

The consumer needs the issue fixed immediately.

The consumer needs credit for the times that she is paying for service that she is not receiving.

They were offering a \$5 credit for 2 months, so \$10 for the interruption of her not being able to report to work?!

The consumer states that the technician put in an OST referral apparently.

Date: 5/19/2020 3:52:15 PM

City/State/Zip: Redmond, Washington 98052

Description

I am a citizen's band base station operator. In my neighborhood, there is a signal that emits from an unknown source from the hours of 17:25pm until 11:30 am. It renders my equipment useless as the signal completely wipes out receive. 7db+. It's a constant carrier with little static. . My wife's uncle is a licensed ham, and suggested hunting it down with our own equipment. However, I'm a bit apprehensive due to the covid-19 pandemic and also looking suspicious to local law enforcement. . Is there anything the FCC can do? Or is this something I have to hunt on my own? This signal has been present for a couple years now. And is very aggravating. Please let me know what I can do as I wish not to break any laws. Thank you . Address is (b) (6) . Name (b) (6) .

Ticket: # 3983744 - Sprint - account opening COVID

Date: 5/19/2020 4:53:05 PM

City/State/Zip: Decatur, Georgia 30033-1037

Company Complaining About: Sprint

Description

Attempted to activate mobile phone service with Sprint for a resident of an assisted living facility who is not permitted to leave the facility due to Covid. After two hours on the phone with Sprint to activate service, they insist the applicant comes into a store with two forms of identification. Sprint stated there is no way around this, even though residents of assisted living facilities are not permitted to leave their facilities.

Ticket: # 3983750 - Cancellation

Date: 5/19/2020 4:54:21 PM

City/State/Zip: Mohegan Lake, New York 10547

Company Complaining About: Optimum

Description

Because of the pandemic I was forced to move with my two children to my parents' home. I called optimum/altice to cancel my service - this is when I was informed that "someone" had already called to cancel my service and that I owed the company over 300 dollars for equipment that was not returned. The fraudulent date of contact in their records was May 12, 2020. I called customer service on May 19, 2020 for cancellation. They first told me I owed the balance because I did not return the equipment since the 12th, even though I NEVER called (so for seven days I owed a balance of 300 just for equipment). They then said that I would not be charged for not returning the equipment promptly because all their locations are closed due to the pandemic, but that I still owed the 300 for not returning the equipment (even those all locations are closed). This is such a nominal issue, but their behavior during a time like this warrants some attention so that it does not happen to others. The rep then decided she no longer wanted to lie to me so she left me on hold after I requested a supervisor.

Ticket: # 3983786 - Credit Card Offer

Date: 5/19/2020 5:07:25 PM

City/State/Zip: Acton, Massachusetts 01720

Company Complaining About: Lifecare, Center

Description

Recorded message thanking me for choosing (using?) Visa etc.. I pressed 1 and spoke to a woman. I told her I have a Visa card with balance of \$7429.17 and exp. date 03/20. She asked for the card number. I told her that is confidential Then she hung up message Caller ID: LIFECARE, CENTER 1-978-263-9507 NOTE: LIFECARE is a nursing home in Acton, MA. Using that Caller ID during the Covid-19 crisis should be a crime.

Company Complaining About: Laura [i Think} Wa State Department Of Health

Description

On May 14, 2020 at 1607 hrs, my voicemail recorded a call from State of WA Department of Health # 206-224-0125. A lady by name of Laura left a message they were conducting a survey. She spoke very fast and did not sound professional at all. I had to play back the call to understand what it was about. I save the call. I did a check on the internet to see if it was real or bogus. My findings as follows: <https://www.everycaller.com/phone-number/1-206-224-0125/> According to Peoples; experience in the link a company by the name of ICF was contracted by them to do the survey. I did not authorize my number to be given out to anyone and for State of WA DOH to do that is a breach of my privacy. I believe I should be asked first if I wish to participate instead of DOH presuming I will. Know that I will not be participating in the survey and I want to know my legal rights to refuse without repercussions as the State Government has become very dictatorial since Covid 19. I look forward to a written response from FCC on how I should move forward with this breach of privacy. Thank you.

Ticket: # 3983911 - Suddenlink poor speeds poor service all around fraud

Date: 5/19/2020 6:27:32 PM

City/State/Zip: Milton, West Virginia 25541

Company Complaining About: Sudden Link

Description

I have been a Suddenlink cx for over 5 years. I pay for 400 Mbps and receive less than 50 daily on a wired connection. Multiple outages where the service can not be used at all. You call and receive no help with credit for loss of service or slow connection issues. Working from home due to covid-19 means a loss of income for my family when service is out for days at time. Latest issue I received email about new Suddenlink service installed under my maiden name at an address similar to mine. Confirmation was sent to my email. Who ever signed my name upon install. When I contacted them I was told someone using my email address and my address minus a directional code was just another customer with a similar name. Today I received email equipment is being shipped. Suddenlink was to call me back which they never did. To make things worse the fraudster is getting a faster speed and paying less. I want reliable service and the speed I pay them for. I also want a resolution to the service being installed in my name at a location I do not live and will not be responsible for. Suddenlink seems to be unwilling to fix any issues when you contact them

Ticket: # 3983954 - Internet Blockages**Date:** 5/19/2020 6:36:01 PM**City/State/Zip:** Pasadena, California 91105**Company Complaining About:** Verizon Wireless

Description

The internet on my mobile phone is frequently blocked. I tried contacting the California Commission on Teacher Credentialing (I've current licensure, and a friendly to both publicly and privately funded settings). The site spins (computer version of thinking). I was blocked from a site (for 2 weeks) that preventing a work based function of applying for COVID-19 relief funds from the CCF/Getty COVID-19 fund. The information available on my mobile internet was several weeks to a month old, and/or edited out the website information; I'm not expert, I simply defer to experts. I am 08' impacted (Fed breech), between regular assignments (I've a p/t position), am on medi-cal and food stamps for more than a year (the relevance being I'm pressed for a basic existence).

Ticket: # 3983969 - Mobile Phone Internet Blockages

Date: 5/19/2020 6:45:45 PM

City/State/Zip: Pasadena, California 91105

Company Complaining About: Verizon Wireless

Description

My mobile internet is frequently blocked from normal websites. I tried contacting the California Commission on Teacher Credentialing (I've current licensure and am friendly to both publicly and privately funded K12 schools), the site spins (computer version of thinking). The mobile internet would not allow access to the CCF/Getty COVID-19 web site for timely submission of relief application. My p/t employer struggles to stay afloat, and applying is legitimately important. I am 08' impacted (Federal breach), on medi-cal and food stamps for more than a year. Such navigation presses my existence as, for example, I missed receipt of a weekly pay check (\$200) because my 501(c)3 employer is pressed for cash. Can you advise/assist?

Ticket: # 3983988 - Direct TV

City/State/Zip: Franksville, Wisconsin 53126

Company Complaining About: Directv

Description

Promised \$300 gift card, got \$100 and some cheap USB cords. Promised price would not exceed what we had been paying for DISH, price almost doubled after 1 year. \$50 to \$60 more. Me, SSI disability, my wife laid off Covid 19 can not afford \$170+ a month. \$40 a month to cancel. They lied we want out!

Ticket: # 3983996 - Sports

Date: 5/19/2020 6:57:53 PM

City/State/Zip: Lakewood, California 90715-1130

Company Complaining About: Frontier Communications

Description

Frontier Communications is charging me (and every other subscriber) a "regional sports fee". Because of the COVID-19 pandemic there are no sports being played, hence, nothing to televise. That charge should be eliminated, since there is no service.

Ticket: # 3984063 - Suddenlink internet

Date: 5/19/2020 7:38:47 PM

City/State/Zip: Cross Lanes, West Virginia 25313

Company Complaining About: Sudden Link

Description

In March I contacted Suddenlink about intermittent internet issues throughout the day. They sent a technician out who said the problem was resolved. The issue continued to occur and I called them back, they set up an appointment for a tech to come out- which I later cancelled. I was charged a fee of \$60 and when I called to question the charge I was told an investigation would be done and I would be called and to wait for that call before I paid the bill. I was told I would receive a response within 7 days. After 7 days I called and was told it was still under review and to wait to pay my bill, and that because of covid issues I would not be disconnected. I was disconnected- paid the charge, and called and requested a callback from a supervisor twice. I did not get the call back.

Ticket: # 3984135 - Suddenlink Woes

Date: 5/19/2020 8:24:26 PM

City/State/Zip: Charleston, West Virginia 25301

Company Complaining About: Sudden Link

Description

On May 9th, I called to set up a transfer my services to my new address for the month of June. This resulted in Suddenlink disconnecting my services at my current address for 4 days while excruciatingly trying to reach a very unhelpful customer service that is obviously outsourced from another country. Due to COVID, my wife had to work from home and missed two days of work, having to take 1 day of her vacation to get paid. On the 4th day, after probably 40 calls attempting to get my service restored, and many false promises from them, they miraculously fixed the issue.

Ticket: # 3984172 - AT&T shut off phone/internet despite promises during pandemic

Date: 5/19/2020 8:53:22 PM

City/State/Zip: West Palm Beach, Florida 33411

Company Complaining About: AT&T

Description

AT&T shut my internet and phone on 5-18-2020. I had just spoke to them the week prior to being shut off, that I was furloughed and still waiting on either unemployment or my stimulus payment, then I would be happy to pay bill. They assured me I would not be shut off, but still shut me off on the day I was due to start working from home. Now I have lost income dyue to their actions. I have been their customer for 30+ years. They need to be penalized for their lies. Who shuts their customer off during a pandemic?

Contacted my service provided because it's unfair that they shut us off during a pandemic for such a little amount due, spoke to numerous managers with no resolution what's so ever im highly disappointed as a paying customer and even during these tough times I'm appalled that they still shut us off

Ticket: # 3984255 - Internet speeds not as advertised

Date: 5/19/2020 9:47:09 PM

City/State/Zip: Worcester, Massachusetts 01602

Company Complaining About: Spectrum

Description

Since this pandemic started, my internet speeds have plummeted. I started off paying for 100mbps downloading years ago. After this whole thing hit, I was averaging 60mbps or less. And often times would be down to less than 10mbps. This is on ethernet. I literally sit there and run speed tests consecutively and I can watch the numbers jump like a pogo stick. Clearly something is wrong with the signal.

I have had technicians over replacing things and lines and boxes and whatever and the issue persists. I even got upgraded to 400mbps for the same rate I was paying before and still, the speeds are almost NEVER as advertised even on ethernet. And again, are often under 60 or even in the tens.

This is unacceptable. There is clearly a signal issue that nobody is trying to fix. I have found out my neighbors are having the same issues as well.

They can directly see the signal issue on their end when I call. But they can't tell me why or how to fix it. We work from home and need reliable internet and cannot be trying to work on DSL quality speeds.

Most of the time, the wireless speeds are higher than ethernet speeds. But still not as advertised.

Ticket: # 3984257 - Over charge direct deposit

Date: 5/19/2020 9:48:29 PM

City/State/Zip: Portland, Oregon 97239

Company Complaining About: Centurylink

Description

Dear FCC staff,

I am complaining CenturyLink cheating customer like my case. During the pandemic ,I decided to apply direct deposit so my monthly payment will be reduced \$5.00. I spoke with CenturyLink customer service; he agreed to charge me \$40 per month if I setup direct deposit. On March 21st, 2020 I received notification CenturyLink still got \$45.00. On March 21st I emailed CenturyLink to complain over charge, but CenturyLink service never responded. I remembered in April I called again CenturyLink customer service she promised to charge my monthly bill \$40.00 including tax forever as long as being a loyal customer. Instead of reducing my bill, CenturyLink charged \$52.83 on May 7. On April 6, CenturyLink charged \$45.00 instead of \$40.00
On May 7, CenturyLink charged \$52.83 instead of \$40.00
Centurylink promises \$40.00 monthly charge including tax forever, but this company cheats customer. Thank for help to solve this problem. (b) (6)

Ticket: # 3984281 - False charging

City/State/Zip: Parkersburg, West Virginia 26101

Company Complaining About: Sudden Link

Description

Sent an email stating we went over our bandwidth amount and suggested upgrading to higher pkg pricing, we refused to. Dropped our usage greatly yet every month they keep increasing our bill higher rather than lower. Never had this issue before. Customer service was useless saying we owe the high bill even though usage drops and we know we did NOT use that much, down to only 1 web user that only web surf's plus one social media acct. The bill keeps rising to con us into paying for a higher pkg. They are falsely altering internet usage. This began approx when covid did.

Ticket: # 3984298 - Sprint Lost Connectivity, Poor Connection, No Service, and Illegal Cancellation

Date: 5/19/2020 10:27:50 PM

City/State/Zip: Lees Summit, Missouri 64064

Company Complaining About: Sprint

Description

Hello,

Sprint (my former network provider) violated its contract with Parachini Enterprises, LLC. Several oral agreements, written agreements, and terms were violated from day 1 of an approximate 2 year contract. The 2nd to last communication I had with Sprint, was Sprint begging me not to cancel my plan (I wanted to cancel that day). I was informed I would get an email from the Corporate Executive Department offering me additional savings and money back, because Sprint was worried about the T-Mobile merger and would do anything to save customers. To my dismay, I never recieved a communication back. The only thing I recieved was the disconnection of my service without any written or oral notice and a legal letter from a law firm demanding approximately \$500.00. In all, I had three or four phone numbers (only two of which worked, even after 2 years worth of complaints). Please contact me regarding this issue at (b) (6)

(b) (6). My service was cut less than 30 days following my 2nd to last communication with Sprint, which was during the middle of the National Pandemic (during lock down). This left me with no communication for my business, which ultimately failed. 2 devices never worked as promised (was informed an iPad and i Watch would have cellular services as they each had their own dedicated lines). 2 other lines constantly dropped calls and never worked. Sprint tried fixing this by sending me 3 different "boxes" to boost my signal, which I have learned was just their way of forcing me to allow any one with Sprint to use my electricity to power the box that did not work anyways. Sprint literally promised and tried everything to "fix" the service interruption issues, but nothing worked. Again, I was promised "substantial savings from Corporate due to the T-Mobile Merger", but only received complete disconnection during the middle of the National Pandemic and a legal letter from a law firm demanding approx. \$500.00. I have since switched to a different carrier and have no intention of ever using sprint mobile again. I recorded several of the calls, but may have lost the recordings. Phone numbers for two iphones, iwatch and ipad were (b) (6)

Ticket: # 3984304 - Internet Issues Thru COX Cable

Date: 5/19/2020 10:30:06 PM

City/State/Zip: San Diego, California 92115

Company Complaining About: Cox

Description

I am currently a customer of COX cable for their internet service and in recent months have had growing issues with my connectivity. As expect, I assume many of these issues are due to more people working from home with the current COVID 19 pandemic causing people to have to work from home.

Over the last few months, I have contacted COX cable about growing latency and connectivity issues I have been working with my company's IT department to to try and remedy so that I can do my job. And it has grown increasingly difficult and COX seems to have no real resolve other than basic tips, saying everything is fine when it is indeed not or asking for more money to have an additional department look into the problem.

As of today, I have attempted multiple restarts, reboots, command prompt tests, ping tests, speed tests, unplug, plug in, resets; to the point of even attempting new equipment. All of which has been done through my company's IT department, and still no solution.

As another attempt to find a solution I was sent a new modem to try. I set everything up correctly and contacted COX to activate the modem. Advising the rep helping me this was a hail mary test to see if maybe my equipment was the culprit. With no hesitation the equipment was activated and I was advised that the service would reset and should be back up within 30 minutes or so. End of call. Everything is set up and I log in to start working and low and behold still have the same issues. So I again contact the IT rep who has graciously been assisting me to advise of the situation. Since the equipment from work did not remedy the situation I was advised I'd need to return the it. Understandable. So everything is reverted back to my initial setup and I contact COX again to re-activate my previous modem.

Here's where I have a major problem and why I am filing this complaint. I call COX 6 TIMES only to be hung up on either by the system or possibly even a representative until I am finally able to reach someone only to get some extremely upsetting news.

The representative that I am finally able to reach tells me they can help me activate my modem. Great start! So I provide all the necessary information. Then I am told she is not able to activate this modem and I asked 'why?' completely puzzled as it was just being used up until this morning. She then tells me because I activated a new modem (which happens to be a newer model) that they cannot reactivate the old one. It is not compatible. How can it not be compatible if it was just being used earlier that morning? So I am told that it is not compatible with my internet package (which happens to be up to 100Mbps) and the modem is only sufficient for use up to 150Mbps. Now I'm no math wiz but I'm pretty sure that means my equipment DOES meet the necessary requirements as my package is under the specified limit on the modem. Which I advised her. I was then advised the equipment must have been "grandfathered in". I have had this service and equipment for about 3 years now and have had null to barely an issue up until this stay at home order and work from home

was made a requirement. Barely an issue and now my equipment is 'old' when in previous conversations everything was fine and the equipment was compatible and having no issues? She continued on stating she was unable to activate the equipment without lowering my internet package which I kindly told her that was not what I was looking to do and request to speak with a manager. I was advised someone would contact me shortly, within 15 -30 minutes. That was 2+ hours ago and still no call and conveniently they are now closed. So I am now completely without internet service and have no way to do my job in the morning because of complete negligence of this company. I am completely frustrated because I have a job to do and if I can't do it that is money out of my pockets. Money I pay this company for this horrible service. To the point I don't even want to deal with this provider anymore and started looking for a replacement. Unfortunately, I live in an area where only COX is available so I am stuck.

This is no way to deal with loyal customers. I pay for this service and expect it to work for me and even if there is an issue I expect is resolved. This is not good service and this is not a good company. I have come across many complaints of this same issue on their sites customer forums and instead of helping people they delete their post and place a message stating to contact Customer service. Where is the service in that? These people are taking money for services that are partially rendered and something needs to be done about it. This affects people's livelihood.

Ticket: # 3984316 - Suddenlink

Date: 5/19/2020 10:43:21 PM

City/State/Zip: Pikeville, Kentucky 41501

Ticket: # 3984323 - Assurance Wireless

Date: 5/19/2020 10:47:16 PM

City/State/Zip: Hill, New Hampshire 03243

Company Complaining About: Assurance Wireless

Description

Dear Sir/Madam,

I had a free, via federal help, phone. I only want/need it for emergencies. In addition, I live in NH: where service isn't accessible where I live. Several times on errands I attempted to make a call...to my home... but was unable to complete the call. I was cancelled due to failure to meet the federal requirements.

I do understand that isn't an issue for most cell phone users. I am on SSDI and technology is not easy for me. When I realized I was cancelled, I tried to reinstate myself. Again, technology reared it's ugly head. And I wasn't able to access the online version of the application. I tried so many times thinking it was an internet/website issue. Then my daughter made a suggestion that helped me access the forms. Meanwhile, I had called with my problem and the only answer was they would mail me the application... in 7-10 days. Why couldn't they take my application via phone???

During this pandemic, I found myself in what I fondly refer to "in the boonies". Even less automobile traffic than usual...and do you honestly think someone would stop to help me? I had necessary errands for food and medicine. I held my breath whenever I drove. I still am. Why? Because even though I finally after calls and calls, and yes, calls. Finally passed the new re-certification process. April 30th I was notified I would have the phone in 7-10 business days. On day 10- I called... no real answers...expediting it.. call tomorrow if you don't receive it. Didn't. Called again... told the basic same thing and another 7-10 business days..

I understand about the pandemic.... I am following all the rules. If Assurance Wireless meant.. up to 20 business days... shouldn't they have told me that. Shouldn't their representatives know? Instead of what I call, backpedaling.

I am grateful for the service you provide low income people, don't think I am ungrateful. I just have to wonder why did this happened

Thank you for "listening" and perhaps you can address this with the program. I am only one person... But one who let you know. There could be many, many others.

Sincerely,

Ticket: # 3984339 - Verizon Constantly not providing internet broadband

Date: 5/19/2020 11:33:25 PM

City/State/Zip: Washington, District Of Columbia 20008

Company Complaining About: Verizon

Description

I have had to call verizon fios on multiple occasions concerning the speed of my internet. I am constantly not receiving the broadband capacity as per the "Loyalty Customer" agreement between Verizon Fios and myself. I have not had the full capacity of my internet service for 6+ months. It is consistently proving 20-30 mbps versus 900 - 1Gb as committed by Verizon.

I have spent at least 5 hours (in total) on the phone with Verizon Fios customer service to solution this issue. The representatives never seem to be on the same page and I am being told different courses of action to obtain internet speeds as committed by Verizon Fios.

In the last month, Verizon has attempted to fix the issue with a previous router and suggest I upgrade to a SON router (at cost to me) to ensure I would receive near 1 GB on internet speeds. One representative told me the old router should have no problem in providing 1GB of internet and another representative said I would need to upgrade (at cost) to a newer 5G router with SON capabilities.

Since having the new router (at cost, when i was told the old one should be fine), I am still not consistently receiving internet speeds of approx 900MB - 1GB when hard line plugged into the router. I am getting speeds of 20-40 mbps with the new router. These low speeds were the same speeds in which caused me to reach out the Verizon Fios in the first place.

I am very unhappy with the performance of the internet service and have had to spend valuable time troubleshooting during a pandemic. I hope this can be solved immediately, as the committed internet speeds are a major requirement for professional and personal tasks my family and I complete on a daily basis; but most importantly requirements on working from home during the COVID-19.

This constant issue is a major inconvenience and has caused major delays in important activities.

Ticket: # 3984355 - Rude Representatives Ending Conversations Without A Resolution

Date: 5/19/2020 11:55:07 PM

City/State/Zip: Detroit, Michigan 48206

Company Complaining About: Google

Description

Contact Google Fi (my cellular phone carrier) about my cellular service billing. During the COVID pandemic, google has allowed me service, without having to pay a bill. In addition to having a young child recovering from the pandemic, I express to the first Representative, and further more how it was hard not to have a phone during this occupation freeze situation here in my area. The first representative looked into my account inadditon to offering a for sure solution. However we lost contact, that same representative email me with a follow up!

Called back to get my phone possibly troubleshooted, with two OTHER respresentatives of Google Fi, and they offered poor customer service! Not just poor, but rude as well, after repeating to me that is was nothing that they could, and basically how they had to help other customers, and ended our chat, with out a resolution

City/State/Zip: New Martinsville, West Virginia 26155

Company Complaining About: Sudden Link

Description

In the middle of a pandemic, Suddenlink increased it billing rate by 40% ---AND it is impossible to contact them. Phone calls are disconnected. THere is no way to message them or email them. I have always paid my bills in full and on time. I have an excellent FICO credit score---- but Suddenlink is going to blemish my credit rating.

I have tried and tried to contact them.

Ticket: # 3984474 - Old Lines

Date: 5/20/2020 7:38:13 AM

City/State/Zip: Wheelersburg, Ohio 45694

Company Complaining About: Frontier Communications

Description

I have lived in my current residence for over 4 years and have had nothing but problems with our service but the worst is that we have speeds that max out at 3 MBS/sec and are paying for more than that. I have called MANY times and am told that we are just in a bad area, at the end of an old line that has a great distance - but there is a Frontier hub much nearer us that they refuse to run a new line to and improve the service to our area. We are also stuck because Frontier has some sort of monopoly on our area and no other internet provider has rights to provide service, so we are stuck with internet speeds that are basically dial-up. My wife and I are both teachers and have needed reliable internet to work from home in this pandemic but unfortunately we have not gotten any help from Frontier.

Ticket: # 3984516 - Suddenlink

Date: 5/20/2020 8:56:42 AM

City/State/Zip: Scott Depot, West Virginia 25560

Company Complaining About: Sudden Link

Description

Like hundreds of other West Virginians, Suddenlink's internet has been atrocious and they have failed to fix it despite numerous complaints. Due to outages during this pandemic, I have had to risk my health and go into the office to work. And days when that is not available I have to work throughout the night to make up for lost time.

Suddenlink also adds charges to bills for programs you did not order. When you ask them to remove it, they give you a fraction of the money owed to you and then say because they gave you that fraction they cannot give you anymore money to make you whole. This clearly violates state and federal consumer protection laws.

Ticket: # 3984521 - AT&T Billing Complaint

Date: 5/20/2020 9:04:07 AM

City/State/Zip: Margate, Florida 33063

Company Complaining About: AT&T

Description

I have been using AT&T forever, and forever I have been fighting AT&T's slippery ways of gaining on customers and by-passing government's regulations.

I have not switched to the next, because the next also belongs to AT&T. I discover that out the hard way.

AT&T behaves in is such a bully way, because it has no real competition. It is monopolistic.

It all means, the customer has no actual defense against AT&T's daily, swiftly, frauds.

We, the customers, are its eternal victims.

An example,

For years AT&T has been selling me a program, U-verse bundle, supposedly, for a fair price of \$123.00 monthly,

However, from time to time, and every month since we joined, the bill rises like boiling water to \$175.00.

When my spouse and I finally screamed (like every rational citizen, we live on a budget), they play the everlasting game. "Oops! Sorry!"

But this has been happening every month for years (uncountable) because we have not a place to bring our grievances or a reliably honest government agency that is not in AT&T's deep pocket.

In the United States of America? Have we "cat nap" down to ThirdWorld comportment?

We have BBB, but it is a joke. They call themselves "Mediators." I will stop right there. Whatever strategy one can use, AT&T's bottomless pocket is unbeaten.

Another example,

Some day you call and ask why my bill is so high?

The response is, "We have added PROMO." What the hell is Promo?

I only watch the news on TV and nothing else. Why did you add Promo without my say?

"That is the way AT&T does business."

I am going to write to the CEO.

"Go ahead, make his day."

The response was correct.

After reaching out to the CEO, and for one month, things get comfortable once again; you are slaked and reassured.

The next month the price rises again, and this time, you have no one to contact, because all the contact numbers are unavailable, the webpage offers "Contact us," but swirls you around and around to nowhere. The automated machine tells you:

"There is no one available to receive your call.

AT&T is nice to everyone during the Corona Virus Pandemic . . .

Ticket: # 3984557 - Billing issues and outages

Date: 5/20/2020 9:27:36 AM

City/State/Zip: Dunbar, West Virginia 25064

Company Complaining About: Sudden Link

Description

I have had issues with Suddenlink for years. They have increased my bill without notice. When I called and explained that I was supposed to be locked into a rate for the life of my contract as long as I had the service, the lady I spoke with basically called me a liar and said they didn't offer such things. When I asked to speak to a supervisor she was very rude, put me on hold forever, and then told me a supervisor would have to call me back. They never did. Ever. I have called since to resolve the issue or have my bill lowered and they are always rude. During all of this, we experience slow or lagging service. Some days we lose service all together. During the recent issues with the pandemic, it has caused issues trying to get my child's school work done.

Ticket: # 3984570 - AT&T Availability Complaint

Date: 5/20/2020 9:35:59 AM

City/State/Zip: Playa Del Rey, California 90293

Company Complaining About: AT&T

Description

Hello,

I just got off the phone with AT&T. I assumed their billing/collections department knew about the FCC Keep Americans

Connected Pledge. I was told they heard about it. They interpret the Pledge in their favor, based on semantics.

AT&T has two types of account shutdowns. They can "Suspend" for non payment or "Terminate" for non-payment. Since "suspend" is not in the text of the Pledge, they will suspend for non-payment.

AT&T said, "we won't terminate your account if you can't fulfill your payment arrangement but, we will suspend."

Suspend or Terminate, it is the same result.

I told AT&T my inability to pay the bill was a pandemic related issue. I told AT&T I might be able to pay the bill around

July 15, 2020, depending on the "stay at home" orders and my employment status. That was not good enough for them.

They wanted a June 1, 2020, payment date and a partial payment today, May 14.

When I spoke with a supervisor she gave me a July 1 due date and told me it would not be extended and, the account would be suspended if they did not receive payment. She made a point of advising me the AT&T lawyers have provided AT&T guidance on this Pledge.

I don't believe the FCC intended to allow "suspensions" of service when they wrote "....not terminate service to any residential or small business customers because of their inability to pay their bills due to the disruptions caused by the coronavirus pandemic." Please correct me if I am wrong.

If AT&T is incorrect in their interpretation of the Pledge, please advise them.

Thank you,

(b) (6)

Ticket: # 3984573 - Poor Internet and Company is Trash

Date: 5/20/2020 9:38:55 AM

City/State/Zip: Cross Lanes, West Virginia 25313

Company Complaining About: Sudden Link

Description

This company continues to raise the prices of internet, the actual internet is crap and is incredibly slow, and it cuts in and out constantly. They will shut your internet service off without warning, even when you have a \$0 balance. Their customer service reps are from the middle east and are not american, which is trash. At this time, I am working from home due to covid-19 and can not do my job when my internet cuts out once an hour. Please do something!

Ticket: # 3984819 - Warranty Servcies calls

Date: 5/20/2020 11:13:07 AM

City/State/Zip: Cleveland, Ohio 44111

Company Complaining About: Warranty Services

Description

On 5/20/20 at 10:54 AM EST I received a call from 440-752-5052. The call started as automated message that my warranty was expiring and asked me to press 1 to speak to a representative or 2 to stop calls. I've previously pressed 2 and I keep getting calls. I tried a new tactic today and pressed 1. A woman named Adrianna picked up and I asked her what company she was calling from. She stated "Warranty Services" and that she needed more information to transfer me to a warranty representative. I told her the year and model of my vehicle and I was transferred to a woman named Melanie. Melanie said she was the warranty rep for Ford vehicles. I asked "Ford vehicles?" since I told the other woman a different vehicle manufacturer. The woman hung up on me. When I redial the number I get a busy signal--probably a spoof number. Both women I spoke to did not have a discernable accent, I am inclined to think the calls are coming from the US. These car warranty calls are ridiculous and need to stop. I am on the federal DNC list and I am certainly not a customer or someone who would otherwise fall under an acceptance to the various do not call laws and yet the calls persist. I am working from home in light of COVID-19 which means I need to use my cell phone more for work purposes and these calls are very distracting.

Ticket: # 3984859 - Rebuttal 3758621

Ticket: # 3984891 - AT&T Cell Phone Service Billing & Service issue

Date: 5/20/2020 11:41:00 AM

City/State/Zip: Elkton, Maryland 21921

Company Complaining About: AT&T

Description

Returning home from Florida April 10th found that calls could not be completed on phone at my home due to service connection to cell tower being dropped on most attempts. Contacted AT&T for assistance several time to deal with this issue but could get no resolution. Being under shelter in place orders due to the COVID-19 pandemic made the need for proper cell service even more critical. Since I could not get service incoming or outgoing, I changed carriers on the 20th of April. Prior to cancelling service I also dropped service for one device, a tablet. This apparently caused the bill to go up \$142 since the AT&T bill for the period of 20 April to May 19th was \$330.30, which was \$142 more than the previous month. AT&T should not be charging me for service that I do not receive. I could not use my phone for more than a week before cancelling and though I cancelled on the 20th, I was not able to use any service for the April 20 through May 19 billing cycle. I want AT&T to credit my account for the billed service for April 20 through May 19.

Ticket: # 3984929 - Price Gouging during Covid-19**Date:** 5/20/2020 11:53:12 AM**City/State/Zip:** North Abington Township, Pennsylvania 18414**Company Complaining About:** Comcast

Description

My recent Bill has increased by almost \$20 this month. It took days to get customer service to take a call. Amazingly someone answers the phone if you want to sign up for service but no one answers for billing issues. Finally, when someone answered it took 30 minutes to find out they could not help me, they were unable to get me to a supervisor and they didn't even know how to contact their supervisor. Is this price gouging during covid 19? I certainly can not afford an increase in my bill, it I need my internet service right now. Furthermore, Comcast claims I signed an agreement for a price increase. They stated the price increase was to occur at 24 months. When I informed them I have been at customer for 12 months they changed it to increase at 12 months. There is no contract and no signature. Comcast has admitted they cannot provide a documented contract. This conversation has been documented in the Better Business Bureau. This experience needs made public.

Company Complaining About: Verizon Wireless

Description

The consumer is having Internet network connection issues with Verizon whom she has phone and internet services with.

The consumer states that a technician told her that they were not going to update the towers that need to be updated.

The consumer states that when she uses her phone to make calls it goes straight to voicemail and there is no ring because she receives one bar with her home network connection.

The consumer is paying for services she is not receiving.

The consumer wants to know why they don't fix the towers like they should be so she can receive service.

The consumer states this has been going on for the past 2 years and they have her call log of this on going issue.

The consumer states that the last year has been the worst.

The consumer needs this fixed asap and its not because of COVID-19 because it was an issue before hand.

The consumer uses a hot spot to try and connect and takes her laptop to Verizon to get connectivity a while back.

The consumer would like a credit or something done for the times she has been paying and Verizon does nothing to address the issue.

The consumer states its suppose to be 4g connection strength and she only gets 1 bar sometimes.

The consumer states this is affecting her everyday life because she misses calls because they go straight to voicemail.

The consumer has been in the same location for 20 years.

City/State/Zip: New Haven, Connecticut 06511

Company Complaining About: Comcast

Description

Consumer was double billed.

They charge her late fees even when she pays on time.

She had a bill for \$198 in January.

Her bill used to be \$134 a month.

Consumer is disabled and on SSI.

Consumer was approached by someone who offered her a bundle for \$124 per month.

The equipment was supposed to be sent to her home.

She put down a \$100 deposit.

Consumer called Xfinity about the issue and was told she would not be disconnected due to the pandemic.

Xfinity disconnected her service.

Consumer paid the bill with her stimulus money.

Consumer has WiFi and home phone for \$15 month until 5/6/20 then the price would go up.

Consumer received the equipment and called the provider about it for assistance.

Consumer set up the box and the phone and WiFi came back on.

The next day everything was cut off again.

The bill went from \$124 to \$180 per month.

Consumer paid \$300 on 4/19/20.

Consumer is getting a shut off notice for \$300 even though she doesn't owe that.

They are claiming they will shut her service off if she doesn't pay that by 5/26/20.

Consumer does not owe that money.

Ticket: # 3985251 - Inability to provide services paid for

Date: 5/20/2020 1:23:50 PM

City/State/Zip: Hinsdale, Montana 59241

Company Complaining About: Nemont

Description

Due to Covid 19 we were forced to move in with my father-in law directly across the street from our old residence. In doing so we have had to combine our needs one being internet. Our provider is NEMONT, and I have had the displeasure again of having to deal with the inept. Lets start roughly 3 weeks ago when I called NEMONT to get the settings for email, to set up my father-in-laws tablet and phone with email along with the increase of bandwidth. I was given all of the old information prior to the change in 2019 of the email credentials leading myself on an internet quest to get the settings my self. That following monday or so I then called back was connected to a KEVIN whom was an ignorant pompous ass whom portrayed him self as the all mighty of internet service. I stated to KEVIN the issues and past interactions along with the outcome of the situation. long story short I was told no technician would be coming out and he would remotely reset my router because the router over at the new place is old and doesn't always work properly, and it will fix my problem.

I did a speed test it is showing 26.6 I increased to 75 while talking to KEVIN and it increased my bill to 140.00 a month from 80.00. The other issue is while writing this complaint my internet has dropped 11 times.

I couldn't keep this that short sorry, at the end of the day I need updated quality equipment to provide the service I pay for!!!

Ticket: # 3985529 - Extremely slow Internet connection

Date: 5/20/2020 2:37:07 PM

City/State/Zip: Fort Worth, Texas 76114

Company Complaining About: Spectrum

Description

Pings and traceroutes indicate significant packet loss on Spectrum/Charter network. Have ran pings and traceroutes on own network without getting dropped packets; Spectrum claims that signal issues exist, but any problems are external to the local network. Have replaced modem and the slow connection still persists. The Internet connection worked fine prior to March; as such I do not suspect on-site cable issues here, but rather possible issues with the node, although I was unable to get a technician on-site due to concerns about COVID-19 and a resident at high-risk (age 85) of COVID-19 complications.

Ticket: # 3985549 - Installation Fee Scam

Date: 5/20/2020 2:44:48 PM

City/State/Zip: Covina, California 91723

Company Complaining About: Frontier Communications

Description

We got an upgrade plan. Initially I did not want a technician to come over due to COVID-19 and I have expressed it to them; however, Frontier says it's policy to bring someone out even though I know that my equipment supports the upgraded plan. So when the technician came over, he was only here for 20-30 minutes max just to check wiring and call his superiors. Frontier did not listen to me and conned us 75 dollars for 30 minutes.

Ticket: # 3985745 - Suddenlink/Altice Complaint**Date:** 5/20/2020 3:47:32 PM**City/State/Zip:** Williamstown, West Virginia 26187**Company Complaining About:** Sudden Link

Description

We have been customers of Suddenlink/ Altice for a long time. We currently have the 1 gig internet service. We have had multiple issues with having to replace our internet modem that the company gives us due to outages. It seems like every time our service goes out the modem has to be replaced, which the company tries to charge a technician fee for. We have gone to the office and picked up the modem several times because tech appointments are often weeks out. None of the issues we have are our fault. It is all on the company. Now, during the worldwide pandemic, Suddenlink/Altice has increased our bill \$20 more per month without any warning or notice. This company is our only provider for internet available in our area. They are overcharging and abusing their customers. I have had several calls in where I have spoken to a manager and many more where a manager callback is promised but never occurs. When you call the customer service number, the hold times are outrageous. Now, you can't even get through because of the pandemic. Something needs done about this company immediately or other provider options need to be made available to consumers. I want my bill returned to the previous amount or better yet, given the same offer new customers are receiving---1/2 what I currently pay for life. UNBELIEVABLE! Please help us.

Ticket: # 3985759 - Re: [FCC Complaints] Re: AT&T/Directv

Date: 5/20/2020 3:50:44 PM

City/State/Zip: Gilbert, Arizona 85298

Company Complaining About: Directv

Description

This is a follow-up to your previous request (b) (6) "AT&T/Directv"

That is not my interpretation of the 2 minute conversation I had with Janet. Again, I didn't receive an upgrade. The receivers I rent and pay a separate fee to include warranty/repairs, was not working properly. I had a service call which was incorrectly input in the system so when the tech that came out tried to activate the replacement receivers, not new receivers they were just replacements, he spent 30+ minutes on the phone because they had to cancel and reenter my service ticket. I did not upgrade!

Given we are currently in a global pandemic and everyone in my home is high risk, including myself, I am not willing to switch services requiring anyone having to come to my home for installation. If AT&T is stating that I am able to end my contract when it is safe to change service providers and I will not be charged a fee, that I would accept.

I don't want to not want be to be trapped in this contract until September 2021.

Ticket: # 3985840 - Problem with Comcast

Date: 5/20/2020 4:13:27 PM

City/State/Zip: State College, Pennsylvania 16803

Company Complaining About: Comcast

Description

My most recent Comcast Infinity bill for my TV and Internet service increased the monthly charge from \$116 to \$142. I want to choose a cheaper service plan. Calling Comcast to speak to an agent is futile -- they place you into endless loops that never connect you to a person. Visiting the local Comcast office is futile -- it is closed until further notice due to COVID-19. When I chose the plan I wanted to switch to on their website and clicked Submit, the website closed me out and did not register my request. Comcast makes it impossible to switch to a less expensive plan than the one I have.

Ticket: # 3985893 - Honoring Aji's Pledge

Date: 5/20/2020 4:27:51 PM

City/State/Zip: Los Angeles, California 90027

Company Complaining About: Spectrum

Description

I got a threatening call and text from my internet provider, saying my service will be cut off if I don't pay, as due to Covid I was unable to make my april and may bills.

I thought it was clear, with spectrum signing your pledge, that this would not occur. Incensed, I called customer service only to find out they require you to "opt in" to deferred covid payment status.

No where on their website or social media could I find spectrum saying customers had to do this. I can only imagine the thousands who will get calls in the next few days and bills in the next few weeks with late fees, despite a supposed promise not to. This type of behavior is beyond immoral in these trying times, and I know I wont get any recourse trying to go up the ladder at spectrum, but to the person reading this, I implore you: Do not let your fellow Americans be taken advantage off by this company that cares only for profit. Find anyway to make spectrum change their unconscionable behavior. Please.

Date: 5/20/2020 4:44:21 PM

City/State/Zip: West Hills, California 91307

Company Complaining About: Spectrum Communications

Description

Consumer spoke to CICD with complaint ticket (b) (6)

Consumer is having a problem with Spectrum Communications

Consumer states she has been trying to pay her bill they do not have an accessibility option to pay the bill It would be much easier to use the DTMF.

Consumer states she has been trying to return a set top box for over a year and continue to be told that since 2018 she has a past due balance and she will not be able to return the box until the past due amount has been paid

Consumer recently learned how to pay online but at the beginning she didn't know how but they still do not have an accessible way to use the telephone.

She also notice her bill has increased

Consumer states she has a brain injury, cognitive issues and speech issues

Since 2018 she has been incurring fees, her service was interrupted right at the start of COVID-19. She has paid what she thought she owe but they have incurred fees over the time.

Lifeline is not honoring her discount

when they install phone service, they inappropriately installed it on the rain gutter (they fixed the wiring but have not repaired her the money that she had to pay to have someone come out to look at the problem

Ticket: # 3985972 - Internet provider refused to sent technician unless I answered personal health Covid questions. HIPAA and ADA violations!

Date: 5/20/2020 4:46:13 PM

City/State/Zip: Bartlesville, Oklahoma 74003

Company Complaining About: Sparklight

Description

My internet went out - I work from home. I have Sparklight as my provider. Called them and we thought I might need a technician. The CSR proceeded to tell me I HAD to answer 3 questions about my household, who was in my household, their ages, directly Covid questions - running fevers . I am protected under the ADA and HIPAA and could not BELIEVE they were asking me these questions. I pay Sparklight a monthly fee for a service! They were refusing a service I already pay for, because I refused to answer their CoVid related questions.

Ticket: # 3986116 - Fraudulent and poor services**Date:** 5/20/2020 5:50:17 PM**City/State/Zip:** Saint Louis, Missouri 63130-1853**Company Complaining About:** AT&T

Description

I requested the company to send Technician but could not get one due to CoVid-19. Throughout the months of February, March, and April of 2020 I did not have services. Due to this I contacted another company to install new services. On April 6 the new company came out and installed new services. I am contesting the bill that is 538 dollars which is a falsehood. I was suppose to receive fiber optic cable for at&t services which was another falsehood. It was normal cable connected to my house instead of the fiber optic which is what they have been charging me for. Also At&t has been sending another bill under someone else to my residence saying that their services are active in my residence which is fraudulent because I do not this person and I am the only one with services at this residence. I have been paying the bill on my services from February 2019 until April of 2020 for bad services and falsehoods hoping that the issues would be resolved. It has not ever been resolved from the bad, horrible services to my bill steady going up from the \$128 a month which was the normal bill to going up to \$179.39 a month without any issues being resolved, nor me adding anything new on my services for it to go up. I am contesting \$300 of the \$539 bill at&t has sent. The charges are not correct and I refuse to pay a company, that has not solved any problems, fix the services, nor adjusting the bill for the whole year of bad services. AT&T has lied to me multiple times and also has given me the run around multiple times, with saying "we will send a technician out, or we will have a supervisor contact you" besides the technicians they have sent out, which none of the technicians fixed any problems but made it worse. I have not received a call back from any supervisor ever during this time. This compliant is an extension of complaint number 3 (b) (6)

Ticket: # 3986127 - charter spectrum - forcing in person installs during COVID-19

Date: 5/20/2020 5:57:53 PM

City/State/Zip: Brooklyn, New York 11206

Company Complaining About: Spectrum

Description

Charter Spectrum is forcing customers to pay \$199 to upgrade their services AND requiring an in-person visit from a service technician during the NYC lockdown. This is for existing customers, with active service and cable outlets.

Ticket: # 3986171 - Spectrum Internet Charging for Returned Cable Boxes**Date:** 5/20/2020 6:21:25 PM**City/State/Zip:** Sterrett, Alabama 35147**Company Complaining About:** Spectrum

Description

I called Spectrum to have my bill reduced on April 21st, 2020. My bill was supposed to be reduced and the return of my 3 cable boxes which I was told to be returned by May 12th by UPS delivery. I mailed the 3 boxes on May 6th and they were received on May 8th by the address which Spectrum instructed UPS to deliver returned cable boxes. Spectrum charged me for 3 cable boxes on my May 13th billing cycle even though the boxes were received. Spectrum stated they did not get the returned boxes until May 16th. I asked that the boxes be taken off my May 13th bill but they refused. Not only did I not have use of the 3 cable boxes I paid for until May 12th, but they charged me for boxes that were received by their facility on May 8th. The Spectrum agent stated that I should have returned them earlier than the 6 days I returned them in order that they arrive in the proper department of Spectrum. I have the tracking information where they were received on May 8th. Spectrum drastically increases their monthly rates each year stating the "promotion" ended. There needs to be regulations on such services that use personal and public property to run their cables to customers. It's an outrage how these companies are gouging Americans, especially when the internet has become a necessity in these times of pandemic.

Description

Verizon charges excessive taxes & fees for their home phone connect. During pandemic had difficulty paying bills, Verizon customer service was impossible to get in touch with and I am unable to use the app. Finally, today I was able to reach Verizon I was told that the number had been suspended but I am still being charged. Verizon failed to do it's duty and follow law when it did NOT send me a notice stating that the phone a utility was being disconnected. The last bill I received did not include notice of disconnect date or consequences I was sent NO NOTICE. I wanted to port the number or cancel the home service for which I haven't even used not even once, in over 2 years. I wanted to do this early this year and again in March but Verizon customer service was impossible insisting I click text links with swollen fingers and bad eyes I couldn't do it. Today I spend over 2 hours on the phone nothing achieved, they refused to cancel the phone, did not work with me on billing and bounced me from person to person without telling me if the call was being recorded or allowing me to opt out of music (disability issue) I want to cancel the line, port the number, work out a covid payment plan and should not be charged by Verizon without service or charged a late fee when the country was shut down. Verizon employees do not even know what home phone connect is -Verizon had also raised the monthly fee last year without notice as well. I have repeatedly informed Verizon that I require paper bills and notices I do not read email often enough & know that paper is required if issues arise. I do not agree to email from Verizon. I have told them this many times yet today when I said I didn't receive paper billing notice of cancellation I was told they sent an email which is a violation of my privacy. Please assist ensuring Verizon follows regulations and never shuts someone's utility without proper notice and never sends emails without permission thank you
ps I am unsure if Home Phone Connect is considered wired, internet or other

Ticket: # 3986314 - Spectrum twenty percent Internet Price increase during COVID -19

Date: 5/20/2020 7:42:25 PM

City/State/Zip: Dallas, Texas 75241-3778

Company Complaining About: Spectrum

Description

Spectrum increased the cost of Internet service by twenty percent (20%), starting in March 2020 just as the COVID-19 pandemic made Internet access an essential service for consumers. Spectrum is penalizing and discriminating against current customers, long time customers and disabled customers.

Ticket: # 3986321 - unwanted covid scam calls

Date: 5/20/2020 7:46:50 PM

City/State/Zip: New York, New York 10037

Company Complaining About: No Name

Description

since texting the City of NY text message notification re COVID (never agreed to anything) I have received 3 unwanted calls, scams about covid supplies and demands. I believe the city may have shared my number without permission the city asked ppl to text a number to receive notifications I never agreed to anything there were no options to agree to receive notices or how to cancel. I tried STOP and it worked but again, they did not provide notice on how to end the notifications. IN the meantime I have covid people trying to sell me or test me or scam me when before texts from the City of NY I had never received unsolicited texts.

The city text was 692-692, the numbers I received these scam texts from were 551-292-7383 and 929-395-1536

Ticket: # 3986356 - my iphone purchased from AT&T

Date: 5/20/2020 8:04:14 PM

City/State/Zip: Newark, Delaware 19711

Company Complaining About: AT&T

Description

I have been having issues with my iphone receiving phone calls and tried calling customer service but my issues were not resolved. Incoming calls go straight to my voicemail without ringing and this has caused extreme difficulty. This has been going on for quite some time but the last time I talked to AT&T about this issues was back in Feb 2020. I did all the troubleshooting with agents which was not helpful.

I keep getting missed phone calls and at times, some calls are very urgent such doctor phone calls for my sick child or official matter phone calls. It is frustrating to keep paying for the service and device which is not functional.

Other issue, I have is my phone got cracked today and I tried to contact Assurion through which I purchased my phone protection at the time of purchasing our phones from AT&T. Assurion is asking me to pay \$168, however, I was sold a different plan at the time of phone purchase. I was advised of declining deductible with time when I purchased and based on my understanding, I should not have been paying \$168. I am apalled with the misleading services I have received from AT&T and their partner Assurion.

This has truly caused lot of stress and agony during this pandemic. I can not afford to keep calling AT&T and spend hours on the phone to fix this issue and that is why I am filing complaint with FCC.

Please review this and help me ASAP, thank you.

Ticket: # 3986414 - Refund

Date: 5/20/2020 8:58:50 PM

City/State/Zip: Houston, Texas 77065

Company Complaining About: AT&T

Description

I have 2 complaints with Directv. First, I purchased the NHL Center Ice package and with the season held up due to the Covid-19 I requested on more than one occasion requested a refund for the un-played games. They keep telling me that they are not doing that at this time. It's been 2 months now. Second, Directv is charging a \$9.99 regional sports fee. I asked why they are charging for this when there have not been any live sports for 2 months. The answer I get is policy. to me that is not an answer. This totals up to about \$60 as of this time. They are doing this to all customers (with the added plan). I maybe wrong but this adds up to millions of dollars of customers money for services not rendered.

Ticket: # 3986433 - Account cancellation

Date: 5/20/2020 9:15:40 PM

City/State/Zip: Santa Monica, California 90405

Company Complaining About: Freedompop

Description

Right now the entire world is in an emergency time with the Pandemic COVID19. My phone service was unfairly terminated I no longer have an emergency mobile phone for over a month (since APR.20.2020). Most importantly, this number (b) (6) is linked to all my medical and personal records, etc.

- I will send over the documentation and the information as to how my phone was unfairly disconnected (I am attaching this docs from April 10th and another one from April 16th). And still, Freedom Pop does nothing to correct the matter and reinstate my account. Since the beginning of my service (about 4 years ago) I had turned Off the Auto Top Off as I never had any intention to exceed my minutes. I had accepted the limitations of the minutes I had under my contract and never went close or over that time limit.

After contacting FreeDomPop's support team about the issue a FP customer service agent Camilo responded via email on April 10th that my complaint was resolved and my account 'had been credited a refund' that would take between 3-5 days to post. I waited-no refund. On April 15th I contacted FP requesting update. Same day, April 16th received a response from the same FP customer service agent Camilo who had issued the original 'refund'. Now Camilo sends an email returning to the same rhetoric of the original issue- He completely disregards his correspondence email about the 'credited refund' and now has returned to square one. (The emailed documentation of the 'promised refund' is attached to the original complaint.) ON APR.20.2020 they terminated my service just because I didn't received the refund/credit so I contacted my bank.

I am unable to accept the suggestion to open a new account as it would create a major hardship to change from my email address alphaben@gmail.com and my long standing phone original number (b) (6) is linked to all of my medical accounts and therefore it is imperative that this number is restored.

At this time I am requesting that my original account and services of be "reactivated in whole to the original conditions".

Ticket: # 3986498 - Internet late fees and disconnect notice from Cox Cable..

Date: 5/20/2020 10:15:24 PM

City/State/Zip: Las Vegas, Nevada 89122

Company Complaining About: Cox

Description

The CEO has a message on the website that no one will be assessed a late fee or have their service disconnected due to the Covid-19. I have gotten late fees, and disconnect notices. I have contacted Cox a few times trying to get this resolved. I have no money. I am trying to get unemployment for almost two months, but the phones are always busy, and when i do get through, it says the queue is full call back tomorrow. I have explained this to Cox, and asked why isnt what the CEO said true? you are scheduling for disconnection, and he said this would not happen during this emergency. They will only give me an extra week to pay the balance. The CEO should not have put the statement out saying they will not disconnect when they are still doing it. if i get called back to my job, I need to be able to work from home. I will not be able to do that, because i will not have internet service.

Ticket: # 3986527 - Spectrum unfair business practices on Billing services

Date: 5/20/2020 10:40:54 PM

City/State/Zip: Whittier, California 90604

Company Complaining About: Spectrum

Description

I have Spectrum and they increased my bill this month. I believe it is related to COVID19. They stated am off a discounted amount. I have been paying the same amount for the last several years. However. I was not given 30 days notice of an increase. They sent it to me a week after my billing cycle started stating that if i cancelled now i am still liable for the entire amount and my bill will not be prorated. This is illegal and unfair business practices in that i have been on the same service for years. I believe they increased their rates due to COVID19 issues. The bill went from \$110 to \$141 per month, the very basic service.

Ticket: # 3986549 - Rate Increases for Internet Service

Date: 5/20/2020 11:17:03 PM

City/State/Zip: Lancaster, New York 14086

Company Complaining About: Spectrum

Description

Spectrum, my internet provider, increased my monthly rate by \$10 / month at the start of the COVID crisis when I became most reliant on my internet service due to requirement to work from home. I would like them to revert to my old rate of \$49.99 / month for my internet service, the same rate that they offer new customers in my neighborhood.

Company Complaining About: AT&T

Description

Hi Channel 13 I need help.

I have a Directv about 3 years ago.

When I get the directv i was told the sales man the price never will go up. And also I told the salesman that I do not want pay perview because I have kids. He said it's ok and the price was 50 dollars a months. After 2 year the increase from 50 dollars to 65 dollars to 80 dollars a months.. Now with this covid19 as you know all the kids are at home and I noticed that my daughter was using pay perview to purchase movies . I called directv 12 time to remove pay perview. They said yes it was removed.. Now after I told directv so many times ro removed pay purview they send this bill for me to pay.

I would like the channel 13 to help me to solve this matter....

Looking forward to hear from you

Ticket: # 3986604 - Slow and disrupted internet service

Date: 5/21/2020 1:24:07 AM

City/State/Zip: Charleston, West Virginia 25311

Company Complaining About: Sudden Link

Description

Paying for the fastest 1G but never get more than 400. It constantly drops which also causes my cellular data to kick in and my phone battery to die quickly. This happened before CoVID and continues. They gave us a small discount but no refunds for the past year.

And no offer of resolution. We have also had sudden disconnect with "incorrect password"and then a sudden return. I have pictures of the speed tests we've tried as well.

Ticket: # 3986623 - Harassment AT&T WiFi account

Date: 5/21/2020 3:40:41 AM

City/State/Zip: Miami, Florida 33173-3469

Company Complaining About: AT&T

Description

Please help soon! The WiFi account Xxx . I missed April payment agreed to pay \$116.74 on May 2nd payment posted on Personal checking account on May 7 2020 . i complained bill was to high and I will be closing account when all paid up for past services. Agent asked to reconsider and offered a \$18.50 discount on remaining balance. (From \$81.74 now \$63.25) I accepted the offer May 29th as due date , what they did not say this is an automatic withdraw it will be withdraw on this date and it cannot be canceled by WiFi provider. So with amount pending (received stimulus check) I went to the online app and paid the remaining balance. When no e-mail conformation arrived. the online app was used to access the account the payment due on account was now \$81.74 DUE DATE MAY 29th. After 9 days of calling customer support and holding the line for an average of 25min to talk to an agent this was impossible to resolve told the charge was for unpaid bill on Nov 2019 , then Jan 2020 , then Feb. 2020 then they jumped backwards to Nov 2019 . when asked were this information originates they stated in our past notes about the account. All Chase Bank records show payments made account is paid in full. On May 20th bank made arranged for no payments to WiFi provider to be processed for the next 18 months for any amount ranging from \$1.00 to \$999.00. I hope that was within my legal rights. This situation is worse than the Covid-19 problem .It is avoidable , unnecessary and hostile. Please help and advise. Thank You and God Bless. 2:59 am May 21st 2020.

Ticket: # 3986630 - Cellphone

Date: 5/21/2020 4:52:05 AM

City/State/Zip: Stone Mountain, Georgia 30087

Company Complaining About: Verizon Wireless

Description

This has happened to me as well as my husband several times. We keep running into this neighbor on our street and then when he see us, he starts talking about or regurgitating a conversation that my husband, (b) (6) and I had on the phone. It happened again on May 19, 2020, Tuesday evening. He always describe events that he would not know about, because he is just a neighbor and we do not interact with him or anyone that he knows. For instance, when I ran into him this past Tuesday, he asked me was my husband still in Afghanistan. We never told him that I recall that my husband was in Afghanistan. But, my husband and I had just had a conversation about Afghanistan and COVID-19. On one had he says he is not mosey and then he proceeds to ask a bunch of mosey questions. He wanted to know about troop movement, the Middle East and our communication. This creeped me out. One time, last summer, 2019, we ran into him in the grocery store. He started rambling on about nothing and then he started asking us a lot of personal questions about our life. He tried to chat about things in the neighborhood, but his questions seem very invasive and designed for a specific reason—to verify information he had possibly heard. Then he asked for my husband's cellphone number. Months later, a total stranger called my husband's cellphone saying that he was another neighbor in our subdivision and there was a package in our driveway. Huh? We have been in this subdivision for six years and the neighbor who called my husband phone appears to be on the surface, but his wife is not okay ! As a matter of fact, we reported some actions she exhibited towards us to the Gwinnett County Police. My husband and I never have her or her husband our cellphone numbers. Then last October 2019, I was outside with the pool technician watching him service the pool, when the neighbor who asked for my husband l's cellphone and ask questions about the military and troop movement and communication, (he used to work for AT&T), drove by and stopped and got out of the car and walked up on my property. He started talking about how nice our house was and the square footage and he then started repeating a conversation my husband and I had just had on our cellphones the night prior to him stopping by our home. Then he proceeded to talking about this nice light fixture in our basement and then he described the shape of the fixture and the movement of the light fixture. All of it that he described was an accurate description of the light fixture. He then says that he was in our house while it was being built. But, the light fixture he described was not purchased and install until after we were in our home, maybe even months or a year later after closing, The windows in our house are tinted dark and their blinds up. And his house is located behind the house that is directly behind our home? This creepy! Why does he know so much about our personal business when we are not friends with him. When we leave our home, we keep running into the same four neighbors. They live at (b) (6) is the one that always ask about the military and troop movement and communication. will just come into our house uninvited. We run into (b) (6) too much. At the grocery store, gas station. Then going to get the mail or take out the trash or to pick up a delivery from the front porch, we run into all four. They are almost always present. We are always in the space first and then they arrive. All four live in close proximity to our home. Why would someone we don't know, call my husband's cellphone., Why are we always running into (b) (6). Why is this man at ablevto describe a light fixture in our basement that we purchased after. We closed on our house and that is not visible to anyone outside our home. I had a laptop and I searched the computer name to

see if any other computer was connected to it and it was. The name listed was a person in our neighborhood, a few days later the laptop blew up.

Ticket: # 3986654 - Optimum's abusive practice

Date: 5/21/2020 7:33:39 AM

City/State/Zip: Putnam Valley, New York 10579

Company Complaining About: Optimum

Description

I have been an Optimum cable access customer for almost six years. After a seasonal hold last winter, my bill jumped from around \$60 to over \$100 a month. After hours spent on calls, my bill was reduced back to \$65, with a consequent reduction in speed (in spite of being promised 1.5x of previous speed). Further complaints led to an upgrade (an raise to \$85/month) and an order for a modem that never arrived.

I tried to get back in touch and have been unable to (due to 'covid-19' message).

So far, over the past 3 months, I spent over \$300, hours on the phone and only received slow access and rude service.

I also tried social media to no avail.

There must be some type of customer protection against this abuse? Please note, there are no alternative providers in this area (Putnam Valley, NY). And we depend on internet access among other things for at-home work and schooling.

Ticket: # 3986658 - US CellularHave cancelled my account during the PAndemic

Company Complaining About: Sudden Link

Description

As briefly as possible, we have "fought" with Suddenlink over connection issues for years. The last 2 months have been the final straw with the pandemic and virtual work and school for my wife and children. The connection has been reliable only about 10% of the time, it is a daily struggle to get work done, and Suddenlink refuses to address the issue, does not return agreed upon phone calls, and now has turned the service off over a \$20 past due balance which we refuse to pay until they resolve the service issues.

Ticket: # 3986671 - Internet, TV and VOIP complaint. Ticket No. is (b) (6) .

Date: 5/21/2020 8:24:13 AM

City/State/Zip: Orlando, Florida 32837

Company Complaining About: Comcast

Description

I'm Currently receiving internet, TV and phone service from Comcast DBA Xfinity. My current service started in November 2019 and while it has not been perfect we have worked through the early issues. Previously, I had been with Comcast and it's predecessors from 1989 until 2018 even though we had two cable companies available in our community. Because of cost issues I left comcast in 2018 and return in 2019 under a new two year agreement. Since the pandemic our service has been really bad across all three services. The TV constantly freezes up and will start repeating itself or will just shut off requiring a reset of their mini box and sometime a reset of their modem. The internet shuts off and has been extremely slow with streaming becoming unreliable. Our VOIP is unusable, it's garble and our neighbors have said that it's because of the bandwidth causing many of our TV an phone issues.

We have an area web site and many of my neighbors have also complained about the service. Home schooling has been impossible with the unreliable service.

After a month of phone calls to comcast customer service and technical support with no resolution, on 4/16/20 I elevated my complaint to Tom Karinshak [#441861] at ecare_2@comcast.com and received a response on 4/17/20 from Jacqueline P. The Office of Tom Karinshak. Nothing had changed, I kept having the same issues.

On 5/1/20 received another email from Melissa with the Office of Tom Karinshak. My name is Melissa with the Office of Tom Karinshak and I will be assisting you while my colleague is out of the office. I sincerely apologize for the delayed response to your inquiry. We have experienced a higher volume of emails, resulting in the inability to assist within our typical one business day response time. The email goes on to say that they are trying not to send tech's to the homes due to the Covid-19 which I fully understand, however the problem is not at the home as reported by other neighbors. At one point a neighbor reported that Comcast had replaced a Node in the system, I have no idea what that is and he went on to say that the service should improve. The very next day the service was still having the same issues. After some research I learned that the problem may be with the old cable network still being used during the high demand cause by the pandemic. If that is the case there is no current fix for the problem.

From Comcast: Our Response to Coronavirus (COVID-19):We're providing all our Xfinity Internet customers with unlimited data at no additional charge from March 13 – June 30, 2020.

As of this writing my TV signal is repeating itself. I request the immediate termination of my two year agreement without penalty and a partial refund of fees paid since March 1st, 2020 as compensation for poor service.

Thanks in advance,

Ticket: # 3986682 - AT&T cell outages

Date: 5/21/2020 8:40:38 AM

City/State/Zip: Boise, Idaho 83714

Company Complaining About: AT&T

Description

Over the past 30 days, AT&T cell service has been out for all customers in our area for a minimum of 9 days! During coronavirus stay at home order- we had horrible service, were charged for no service and what's most infuriating is that their backup is internet calling. So the internet that I pay for is their backup?? Are they going to pay my internet bills? This is horrible service to customers and fraudulent. I've had AT&T for 20+ years with no issues. I've lived in this community for 8 years. The tower has had maintenance issues. All of this happens, but they should be required to credit inconvenienced customers.

Ticket: # 3986707 - Bogus charge

City/State/Zip: Lasalle, Illinois 61301

Company Complaining About: AT&T

Description

ATT is still charging me \$270 for a phone that I paid. I cannot pay the remaining \$130 in valid charges on my bill before it's due. I spoke with ATT and have a confirmation number of (b) (6). I explained that I will gladly escalate my FCC claim and pay the fees associated with that before I pay for a phone that has already been paid in full. I filed a complaint last month, but was unable to answer my phone or return calls as I was COVID positive and quite sick. I attempted to return calls when I was no longer sick and no one returned my calls.

Ticket: # 3986712 - Amateur radio health net being interrupted

Date: 5/21/2020 9:04:21 AM

City/State/Zip: Aurora, Colorado 80018

Company Complaining About: Denver Radio League Supporting Ares

Description

i run an Arapahoe County Amateur Radio Emergency Services (ARES) health net (assisting people dealing with the present pandemic). The net is Mon-Sat 4 to 4:30 PM Mountain Time on repeater frequency 146.640 MHz. The repeater is run by the Denver Radio League. Someone has been frequently interfering with this net by keying their radio and holding it keyed. We are convinced that this is being done by a person because we often hear a TV in the background. The Denver Radio League has tried to determine who is doing this without success.

Ticket: # 3986729 - Xfinity Bill Complaint**Date:** 5/21/2020 9:17:03 AM**City/State/Zip:** Ewing, New Jersey 08638**Company Complaining About:** Comcast

Description

My service was temporarily shut off due to non payment. I paid the requested amount due that was listed on my account to restore service and my service was never restored. I spoke with a agent and a supervisor on 5/15/20 and was told there was nothing that could be done to assist me. I was affected by the COVID-19 layoff and the money I used, I barely had but I didn't mind the sacrifice for my children so they are able to watch TV but for them to take my money and offer me nothing was pure greed. They're offering a Internet and Phone discounted package for families who can't pay their bill which is amazing, however, I tried to pay my bill. So I'm out of \$260.00 dollars and still no service. I emailed an Execute named Daniel Friedman on 05/15/20 and to date I have not received a response.

City/State/Zip: New Orleans, Louisiana 70119

Company Complaining About: Cox

Description

Cox Communication is her carrier.

She had a Bundle plan internet -TV-Homelife.

Payment arrangements were made due to the Covid19 Virus they set up a payment.

The promise was not to disrupt services of add late fees.

Her payment plan is set up for June 30 for the bundled service

They shut off just her TV around May 13.

This doesn't make sense since it was a bundled plan.

Her TV went blank-a message went on TV to activated to enjoy the service.

She made a payment arrangement.

They tell her that she is he was 4 days shy of her 60 days.

They disconnected her for nonpayment which wasn't

to be made at this time.

They only disconnected the TV from the bundle.

The woman she spoke to made rude comments about her disability.

When she asked for her supervisor the women said sure and 2 seconds later

she hung up on her.

Resolution:

She would like her services to be restored.

She wants them to stop altering her services.

She wants compensation for the time they took her TV away when it wasn't time to pay.

Her payment arrangement was for June 30th.

Then the commercial for the show; the white anchor asks, " Who are you talking to?" ABC does not respect the Covid 19 any way at all. They mean to harm innocent lives with their diseased employees. Stop stalking me ! For witch practices for false perfect health.

Ticket: # 3987399 - Lack IT Infrastructure in Service Area**Date:** 5/21/2020 1:08:24 PM**City/State/Zip:** Chicago, Illinois 60653**Company Complaining About:** AT&T

Description

Currently, I am signed up for the AT&T Access internet service for low income residents in Chicago, IL. I have consistent and persistent network connectivity issues with the service. Although AT&T has been offering this service to other residents during the COVID pandemic, I fail to see or understand how the Access program can assist low income residents in the 60653 zip code if AT&T does not have the proper IT infrastructure in place to genuinely handle all the network traffic consisting of all the parents who have been forced to home school their children for the duration of the school year as well as the parents that have to work from home. AT&T seems to be trying to lessen the technological divide, but if they are not going to put the proper infrastructure in place to prevent the constant network connectivity issues, then the technological divide has not decreased.

Ticket: # 3987410 - NO INTERNET SERVICE**Date:** 5/21/2020 1:11:42 PM**City/State/Zip:** Rancho Dominguez, California 90220**Company Complaining About:** AT&T

Description

I live in a gated community within city limits and for years have not been able to get internet service! Being required to work from home is very difficult because the Hotspot device still isn't strong enough to go online and get work done. We need internet service in our neighborhood for students and adults to continue to work from home during this pandemic! Only a few residents have internet and that's confusing. I used to have AT&T, then one day I didn't with no explanation!!!

Ticket: # 3987420 - cable tv regional sports fee

Date: 5/21/2020 1:14:01 PM

City/State/Zip: Milton, Florida 32583

Company Complaining About: AT&T

Description

Cable providers charge a regional sports fee. The fee is based on your zip code which I find discriminatory, some pay nothing while i pay \$9.99 a month and sports have been stopped due to covid 19. This fee is robbing customers of \$120.00 per year which is a bogus charge.

Ticket: # 3987459 - Service/COVID-19

Date: 5/21/2020 1:25:39 PM

City/State/Zip: Bellmore, New York 11710

Company Complaining About: Metropcs

Description

(b) (6) states that his cellphone got broken and he was paying for an insurance for three years. Now that the device is broken and needs repair consumer called costumer service and they acknowledge that there was a problem into the system and that it shows that his insurance was cancel by an accident and therefor they will not be able to give a new device. MetroPCS does not want to be responsible about this incident. This is unethical and MetroPCS should give Mr. Abril a brad new phone for this. Consumer states that he has pay the insurance for a period of three years for this. Consumer states that if they cannot give him a BRAD-NEW device. He will ask for a refund of the full three years or else he will take the case to small claim courts. Spanish speaker needed when they call.

Ticket: # 3987460 - Backup Internet Service Provide - Service Issue of 12 Months - BCN Telecom (Subsidiary of AT&T)

Date: 5/21/2020 1:26:15 PM

City/State/Zip: Detroit, Michigan 48216

Company Complaining About: AT&T

Description

We have a backup internet service provider for one of our restaurants that we understand was not providing us service for a period of 12 Months but charging us the entire time.

I contact BCN on Wednesday May 20th to pay our outstanding bills from before the pandemic hit and was requesting a credit for the months that we were closed but were denied any relief from BCN even as we, hours before, reconciled all outstanding bills on our end to show good faith to the company.

This initiated an investigation when we called our IT infrastructure support company and they had informed us that the BCN backup internet port they monitor showed no signs of service for a duration of 12 months and in addition pointed out to us that they've had issues in the past with the activity of the backup internet where trouble tickets about the service were placed to BCN but no issues where resolved.

We are requesting the FCC to initiate an investigation about the lack of service provided over the last 12 months and are looking for a full refund of that entire amount along with a permanent suspension of the line with early termination fee waived.

Ticket: # 3987557 - Suddenlink Internet Billings Issue**Date:** 5/21/2020 1:54:56 PM**City/State/Zip:** Charleston, West Virginia 25302**Company Complaining About:** Sudden Link

Description

We keep getting overcharged for data overages. We were told until the branches re-opened due to covid they would give us the unlimited pricing. They did not the first month. The second month they gave us the pricing, but didn't add the plan to our bill. The second month they added the plan, but still charged us for data overages. They argued with me saying it wasn't added in time. I explained that was their fault that they didn't add it the first month. I have spent about 8 hours since March arguing over data. I have been told twice this was escalated and a manager would return my call, but they have not. I just want the data overages removed from my billing.

Ticket: # 3987736 - Internet connection and speed issues**Date:** 5/21/2020 2:50:31 PM**City/State/Zip:** Bullhead City, Arizona 86442**Company Complaining About:** Sudden Link

Description

I am having intermittent connection issues almost daily. The most recently I contacted Sudden Link on the 11 of May , my connection completely was gone they sent out a tech on May 13 with no resolution the tech explained to us that he called corporate because the junction box on the line needs replaced and they should be out here no later than Monday the 18th. I called on the 18th to double check the appointment, no appointment existed in the system. I said I have been without internet. They sent another tech out on May 19th who came gave us a new box and the internet still did not work. We called Sudden Link, who told us our accounts ending in 077 had been hacked and they did not know when it would be back on. My husband got on the phone to speak with a manager and was told manager were not speaking customers because of COVID 19. They told him it would be on by 21:00, the internet is currently on but it keeps disconnecting. I have yet to see Corporate Sudden Link Engineer come to fix the junction box on the line that is causing the issues.

Ticket: # 3987810 - No internet as promised

Ticket: # 3987896 - At&t Complaint During Covid-19

Date: 5/21/2020 3:24:20 PM

City/State/Zip: Inglis, Florida 34449

Company Complaining About: AT&T

Description

My phone service was interrupted May 19th, 2020 during this Covid-19 pandemic. I had the understanding that it would not be interrupted during this time but AT&T said an email/msg sent with update. Never received update message and out money that I needed for other bills/necessities since just getting back to work. My husband and I are both veterans and he has significant issues that makes it imperative for phone service.

Ticket: # 3987964 - Inconsistent service

Date: 5/21/2020 3:40:16 PM

City/State/Zip: Chagrin Falls, Ohio 44023

Company Complaining About: Sudden Link

Description

I have had Suddenlink for 11 months now and during those 11 months, we would lose internet probably 10-15 times a month for anywhere between 5 min and 2 days. When I call them to complain, all I'm told is that there is an "outage in my area" or that they don't have a reason why I don't have service. I'm paying almost \$90 a month to have inconsistent service that cuts out several times a week. I live in a moderately suburban/rural area and am limited to them, Spectrum (which doesn't have great service) or satellite internet (we've had them in TX and it was the slowest connection). I would like for Suddenlink to be held accountable for their poor connection and to be reimbursed for the days that I go without WiFi (which means that I can't work since I work from home even when there isn't a pandemic).

Ticket: # 3988080 - Straight Talk Complait

Date: 5/21/2020 4:19:37 PM

City/State/Zip: Cougar, Washington 98616

Company Complaining About: Straight Talk

Description

On May 18, 2020, I purchased an Android Straight Talk phone and Straight Talk Wireless 25GB. I attempted to activate the service on the phone for the next five hours. This included many different trouble shooting options and following directions from the instructions. After numerous calls to 877-430-2355, the customer service number for Straight Talk, and unable to speak with a person, I returned to Walmart to receive a full refund. The phone was refunded but the \$45 activation card was not. I was told that I would have to contact Straight Talk. Since I cannot speak to anyone, I am hoping that you can help me by putting me in touch with someone at Straight Talk. A Sales Associate at Walmart indicated that they had seen other customers experience this identical problem but they would not refund the activation card as it states "card is non-refundable". This is wrong and I cannot afford to loose even \$45 during this Covid time. Thank you.

Ticket: # 3988141 - RIP-OFF SIRIUSXM RADIO

Date: 5/21/2020 4:41:24 PM

City/State/Zip: Las Vegas, Nevada 89128

Company Complaining About: Siriusxm

Description

I was on the phone ONE HOUR with Ben at Siriusxm just trying to get my subscription switched. Ben was rude and verbally abusive & nothing was resolved so I hung up. I called back & Christine said she was a supervisor...same thing. Christine continuously talked over me and was also rude. I don't NEED THIS MISTREATMENT, particularly in a pandemic. I told both, that although I just received my bill in the mail yesterday on May 20, it's dated May 7. I changed to ebilling BEFORE I called. I will NOT PAY THE BALANCE OF \$249.51. I requested cancellation due to the verbal abuse and excessive hold time. When I got in my car 20 minutes my 2 year subscription had been cancelled without ever reaching out to me, when in fact Siriusxm should have taken the position of contacting me first to offer some type of compensation for my lost time & mistreatment rather than losing a long-time customer. Such immediate cancellation without upper management communicating with me is indicative of their overall attitude including rude employees. Peace

Ticket: # 3988182 - SDV -Unable to 'port' my phone number of many years SC from Verizon as they deactivated my phone number during the Pandemic without my permission...'

Date: 5/21/2020 4:51:08 PM

City/State/Zip: Northville, Michigan 48167

Company Complaining About: Verizon Wireless

Description

As a service disabled US Veteran My cell phone number of many years is ERY IMPORTANT to me. It has been purposely deactivated so it won't PORT OUT in at Verizon to my new phone carrier. I've called (5) times each time to Verizon executive offices and each time they tell me they are re-activating the number and I'm "hot potatoed around" on their phone hold for hours each time. The activation of my phone number was suppose to happen today at it never happens and it has been over a three week period. I'm PAID IN FULL as requested \$197.14 PAID IN FULL as the final billing states on May 13th, 2020 VERIZON APP.

See attachments below. Lastly, when I visited the Northville, MI Corporate store before it was closed during the pandemic in the month of April 2020, The manager stated I had nothing to worry about, Verizon had extended my time to pay by (60) days as advertised in the Wall Street Journal full page AD. She apologized for the mistakes that had been made on my account and I would receive the correct final billing on my Verizon APP. (See below) That Northville Verizon corporate store has never re-opened.

Very Important: Verizon is not to add any negative information to my credit report because my attached evidence below proves I did exactly as Verizon requested to pay the billing PAID IN FULL.

Ticket: # 3988242 - Comcast over charging

Date: 5/21/2020 5:07:36 PM

City/State/Zip: Owings Mills, Maryland 21117

Company Complaining About: Comcast

Description

I am a long time customer of comcast for many years, I was in a 2 year contract but within the first year added charges started to appear on my bill. I've called no one could give me a clear explanation after the 2 years in March 2020 my bill almost doubled. I've called numerous times and was told they could not give me a new promotion, they refuse to let me talk to the retention department or manager. Now that covid 19 hit I've lost income and can't afford to pay these ridiculous rates. They have interrupted my services, they call every day demanding a payment and now they are saying I have a block on my account and I have to pay \$325.00 in order to talk to me about a new plan. I can't afford to pay this and if they would have helped me months ago when I've called so many times my bill would be paid and it wouldn't be so high.

Ticket: # 3988385 - Spectrum not cancelling my internet

Date: 5/21/2020 6:18:07 PM

City/State/Zip: New York, New York 10021

Company Complaining About: Spectrum

Description

I have been a spectrum/time warner/charter customer for 8 years now. Had the same account through 2 moves of mine, and I was at the location of my last move for 3 years.

Now I am moving out of my apartment and I don't need to keep the spectrum account anymore.

When i tried to cancel it, the online portal did not have a way to cancel my account. It said, I have to call up a number and cancel it over phone. When I tried that, the wait time is over 2 hours and the call automatically drops after 30 minutes. When I reached out to them over facebook, their response was they can't help, and i have no other option but try the phone again or go physically to a store(in spite of the fact that my city, NYC, is under a covid19 lockdown).

I have spoken to my credit card company to block future charges. But this is still a terrible practice from spectrum. The fact that the only way they have to cancel an account is risk everyone's life by breaking quarantine protocol is unfathomable.

I sincerely hope, your organization could convince spectrum to put consumers first.

Sincerely,

(b) (6)

Ticket: # 3988465 - Comcast Monopoly and lack of service

Date: 5/21/2020 6:57:45 PM

City/State/Zip: Union City, California 94587

Company Complaining About: Comcast

Description

I dont have a choice of provider where my restaurant is located and had to go with Comcast for Internet/Phone/TV

They took over 6 weeks with 5+ hours of me on the phone to finally set things up. During this period we got hit with Covid and stopped business. Since were were in the middle of getting setup I had told the sales person to not include TV and she agreed that I would not get billed for it. However they are billing me extra and when I called them they want \$2000 for cancelling the TV. I have sent repeated emails to the sales person over the past 4 weeks but with no response.

I need them to remove TV and stick with phone and internet service only.

They are taking full advantage of their monopoly and providing the run around to customers like this. This cannot be the way such business are allowed to run and treat consumers. Utilities cannot be so difficult to procure?

Ticket: # 3988477 - no internet

Date: 5/21/2020 7:01:39 PM

City/State/Zip: Lincolnton, North Carolina 28092

Company Complaining About: Charter

Description

no one will provide us internet service. less than a half of a mile up the road they stopped service. in this new era of covid 19 i find it crazy that we dont have it especially with the upcoming school year ,our daughter is surely going to be required to have it.

Ticket: # 3988585 - cell phone charges

Date: 5/21/2020 8:16:19 PM

City/State/Zip: Warner Robins, Georgia 31093

Company Complaining About: AT&T

Description

I need a response to having a COVID-related charge removed from my cell phone bill. I have called the company 7 times and done whatever they ask - which is basically be patient. Today, I got a letter saying my service will be suspended.

Ticket: # 3988648 - Telephone Service Has Been Disconnected by AT&T

Date: 5/21/2020 9:16:44 PM

City/State/Zip: Boca Raton, Florida 33437

Company Complaining About: AT&T

Description

The consumer stated that her home phone line has been turned off by AT&T.

The phone was turned off 4 days ago , on 05/17/2020.

The consumer stated that she is paying several carriers, all at one time and she does not understand which carrier is providing what service.

She stated that she had Comcast's service and switched to AT&T about 2 months ago/sometime in March. The consumer signed up for a plan that cost \$80.00 per month.

However, her first bill was for \$300.00! She called the retention division to discuss the bill. She was advised, "That is what the bill is, we cannot do anything about it"!

She stated that Comcast billed her for the same time period and she was not certain as to which company she owed her actual bill.

While trying to sort this matter out, she believes that AT&T interrupted her landline phone service. She can receive incoming calls. However, she cannot place outgoing calls ? She reaches a recording that tells her to call AT&T.

The consumer stated that she has a sick child and has requested that AT&T reconnect the phone line, immediately, so that she has access to emergency services/during Covid-19. (The consumer is 84 years old).

The consumer requested to know which services are being billed by AT&T and why she is not being charged the \$80.00 that was promised.....for the phone line!

If, this is a bundled package, she believes that she is being charged, at least one of her services, twice. (She believes that Comcast provides the internet service. Because it is her understanding that one service is mandatory by the HOA (This may be the TV service).

The consumer requested that AT&T assist her in sorting this matter out and determining the correct services are connected. She also wants to be certain that she is being charged correctly.

Ticket: # 3988714 - Spectrum Didn't Honor Billing Agreement**Date:** 5/21/2020 11:32:38 PM**City/State/Zip:** West Hollywood, California 90046**Company Complaining About:** Spectrum

Description

On March 23rd I called Spectrum to re-negotiate my internet contract and spoke to a retention rep who quoted me a rate of \$49.99/month for 12 months internet only service effective immediately. The company did not honor the rate and my billing did not reflect the change, so I tried to call back and because of the COVID outbreak I was unable to reach anybody until May 21st, when a rep agreed that my record's notes indicated that I had been offered the rate of \$49.99/month but it looked like the order had never been put in. She again transferred me to retention because her office could not make the change and two more reps confirmed that I had been offered \$49.99 but said could they not honor this rate and the best rate they could offer was \$64.99/month, \$15 a month higher than the rate they initially quoted me. The reps continually told me they couldn't honor their promise "because of policy." This is not an acceptable way to negotiate with customers, especially for a critical utility in the middle of a national crisis, and they should honor the rate they initially promised.

Ticket: # 3988715 - Direct TV

Date: 5/21/2020 11:33:03 PM

City/State/Zip: Spring Valley, California 91977-1742

Company Complaining About: Directv

Description

My Direct TV charges changed since I entered the second year on my contract. The bill I am receiving is greater than what I was quoted when I signed the contract. I also went on the website and tried to change the package a few times; three times it just kept buffering, two times I made the changes but they never saved. The online system does not even give me the option to remove the NFL Sunday Ticket. I try to get in touch with them and no one answers the phone (this was happening before the COVID-19 pandemic; spent hours on the phone and trying to get through due to installation and billing issues). Wish to cancel

Ticket: # 3988764 - Bait and Switch tactics

Date: 5/22/2020 1:53:55 AM

City/State/Zip: Sunland, California 91041-4084

Company Complaining About: Frontier Communications

Description

On 3/27/20 at approximately 10:41am I spoke with Frontier Communications concerning the increase of my Frontier bill from \$35.88 to \$50.88 for basic internet only. I explained to the representative that I was on the California Lifeline program and since the Corona Virus outbreak-quarantine I have had financial difficulties. During our conversation the representative stated that he could reduce my bill to a monthly amount of \$34.74 plus tax and gave me a confirmation number (b) (6) to verify the reduction of my bill. On 4/21/20 I received my new Frontier Communications bill and it did not reflect the amount of \$34.74 plus tax as previously agreed upon on 3/27/20. On 4/21/20 at approximately 6:15pm I spoke to four Frontier Communications representatives and each stated that they could not honor the agreed amount that I was initially promised on 3/27/20.

On n May 6, 2020 I received a letter from Frontier Communications ignoring the previous amount of \$34.74 that I was originally quoted. In addition, they stated that they had offered me \$44.74 a month instead but I turned it down. However, what they failed to disclose in the letter to you was that they had also stated that if I agreed on this amount, they would place me on a 12-month contract with a \$60.00 termination fee. I have never had a contract with this company and they even advertise themselves as a contract free provider. I wonder if this could be in retaliation for my initial complaint.

I'm on social security and the lifeline program and have been struggling since the Corona Virus outbreak-quarantine. It seems extremely unethical and unjust for Frontier Communications to take advantage of a low-income elderly person by using bait and switch tactics. I am asking for this large corporation to honor the monthly amount of \$34.74 plus tax as initially agreed upon.

Ticket: # 3988793 - FACEBOOK IS ILLEGAL, CORRUPT & FAKE ACCOUNTS ARE BEING USED AS A "WEAPON" & WE'VE BEEN CYBER-STALKED FOR 3 1/2 TO 4 1/2 YEARS!!!!

(b) (6)

This morning at 10:10 while my daughter was in the middle of an online class Optimum Shut our services off for Non Payment.

With being out of work I was assured by the Governor's office and school district that Optimum signed the pledge and this would not be an issue.

I will be switching to Verizon once this pandemic is over and I'm back to work and Verizon workers are allowed back into homes to install. That does not help us now.

I'm so disappointed and frustrated.

I'm on hold with Optimum now but it is telling me I have over an hour hold time.

Please see the attached photo showing they have BRICKED all my services.

Thank you

Ticket: # 3988881 - AT&T refuses to end my subscription

Date: 5/22/2020 9:16:59 AM

City/State/Zip: Austin, Texas 78704

Company Complaining About: AT&T

Description

I am stuck in Europe since March 10th due to COVID-19 because of the travel ban. I have a prepaid subscription with AT&T, which I have tried to suspend, since the service does not work outside the US. AT&T claims there is no way to suspend my account if they cannot reach me via phone (which they can't because THEIR OWN service is not working here). First request to suspend the account is from March, and I have tried and tried to get that done up until this week. However, they have refused to do so claiming there is no way to do that, and kept billing me for the full amount (~50USD), even though the service is not active. I want to have a refund for March to May and I want my subscription to be interrupted.

PLEASE NOTE that the contact phone I provided IS NOT ACTIVE because of this issue. I can only be reached via email.

Ticket: # 3988895 - Service repair denial

Date: 5/22/2020 9:31:50 AM

City/State/Zip: Goodland, Kansas 67735

Company Complaining About: S&t Telephone

Description

Our local phone and internet provider refused twice to come into our building to repair required of internet and phone. while eventually repairing it, they have made it a complete hassle to get them to do it. all the while claiming COVID protocols on their behalf but not presenting us with said protocols stopping them from coming in building.

Ticket: # 3988923 - Optimum provided no way to cancel my services during the Pandemic

Date: 5/22/2020 9:44:54 AM

City/State/Zip: Guttenberg, New Jersey 07093

Company Complaining About: Optimum

Description

.No way to cancel service, charged during pandemic! My Optimum service was on seasonal till the end of March and I knew that with no job and no UI I would not be able to pay the regular monthly fee. I tried via the website and the AI chat, I called, tried Twitter and FB and every time was informed that I had to speak to a Customer Care Representative but due to the Pandemic their call volume was greater than expected and was either hung u p on, told to go back to the website or told to leave my ph # for a call back that was a robo call with no one on the other end of the line. Against the advice of the Governor of NJ and 1 month into the pandemic I drove 200 miles RT to our shore condo and stripped out all the Comcast equipment and shipped it via FED-x to the return label address provided by the Comcast website. That was in the beginning of April. And on March 26th I suspended my autopay. I was got a message on May 11th that on May 27th Customer Care Representatives would be back to work at Optimum and to select a date for a call back from the company. That is 2 months after I no longer wanted their service. So I have been forced for two months to keep their service even without any equipment there to utilize it! My service was disconnected as of May 29th Optimum told me even though I have tried every day since mid-March to cancel the service which at that time I had a ZERO BALANCE. Now Optimum wants me to pay \$284.73 for there purposeful lack of technical ability to allow customers to disconnect via the website. They force customer to speak with a Customer Care Rep. in order to stop the service in hopes of getting them to stay on as customer but during a Pandemic with no HUMAN working that is a Cruel and Unethical business practice. I wrote to Comcast H.Q. Optimum Cable, 1111 Stewart Ave., Bethpage, NY 11714 Attn: James Dolan, President CEO and Director and also filed a consumer complaint with the state of NJ. I have tried repeatedly to get justification for their unfair business practices and to get this charge removed from my account before they report me to a credit bureau and ruin my excellent 750+ credit rating. How are practices like this allowed to go on normally let alone during a pandemic? Please advise and Thank you.

Ticket: # 3988924 - Optimum Billing Issues/COVID-19

Company Complaining About: Frontier Communications

Description

My residence located at (b) (6) is serviced by Frontier Communications for our internet. The speed and quality of what they provide is less than what they are contracted to provide. Now, during Covid 19 stay home order we have had no internet for weeks. Our service is unusable, we are not receiving the service we are paying for. We have elevated this problem to customer service and technical support. The response from technical support was, "there is nothing we can do, you have very slow internet. Frontier have not invested in their infrastructure. You need to wait and see now that Frontier has been bought out if they upgrade your service".

Ticket: # 3989056 - Verizon Home Services

Date: 5/22/2020 10:43:21 AM

City/State/Zip: Philadelphia, Pennsylvania 19106

Company Complaining About: Verizon

Description

I contacted Verizon to down grade my services today on my account

(b) (6) after being told on a verizon chat, I would have no trouble downgrading my services. Because I have a small business in Philadelphia, I can no longer afford my in home tv and just wanted to down grade to internet only. Again the chat said they could not do it , but they could on the phone.

I also told them I had returned the modeum and they had not as of yet credited it.

Today I called and was treated very rudely by an associate. She told me that since I had a new contract I had to pay a \$290.00 disconnect fee, and I was unable to get just internet only unless I paid the disconnect and started over. I told her that was not fair, and that I needed some help due to Covid 19. She said there was nothing I could do. When I told her I would be forced to contact the FCC she informed me they had no juridistation over Verizon. She then sent me a bill with a termination fee. No attempt to help me just down grade during this terrible time, where Philadelphia is still locked down. I was forced to turn my services off. I would like to have the early termination and all fees paid up from take off.

Ticket: # 3989094 - FACEBOOK IS ILLEGAL, CORRUPT & FAKE ACCOUNTS ARE BEING USED AS A "WEAPON" & WE'VE BEEN CYBER-STALKED FOR 3 1/2 TO 4 1/2 YEARS!!!!

Description

WE are in a 'CYBER-WAR' and the FAKE CYBER ACCOUNTS are being used as a "WEAPON" by the "CYBER-TERRORIST(S)" I know Humans and a Cat that did NOT Have Facebook & Fake Cyber Accounts were set up in their names & now they are DEAD! I HAVE BEEN "CYBER-ATTACKED" every day for 3 1/2 to 4 1/2 YEARS & THE PERSON DOING IT IS TRYING TO USE FAKE CYBER ACCOUNTS TO "KILL ME" And is Cyber-Stalking and Cyber-Attacking My Teenage Son and Others. A computer professional came to my home in Sept. 2019 & confirmed there is a HACK on my Cell Phone, Home Computers & even on our ROUTER & May have some sort of WEB SYSTEM that's being used from the ROUTER. The Person Doing it is TRYING to "LIVE" Inside the FACEBOOK/INSTAGRAM COMPUTER SYSTEMS and is TRYING TO "LIVE" IN OTHER HUMAN BEINGS - INCLUDING TRYING TO MENTALLY and PHYSICALLY CYBER-ATTACK PRESIDENT DONALD J. TRUMP, AND IT'S EFFECTING HIS HEALTH. I reported the HACK on my Router to the Cable Company last year and the information was forwarded to FDLE. CORONAVIRUS & INVASION OF LOCUSTS was computer generated from FAKE FACEBOOK/INSTAGRAM/TWITTER & EVEN SNAPCHAT MAPPING Accounts. Every FAKE ACCOUNT REQUIRES an EMAIL or PHONE which is REGISTERED to a HUMAN BEING with IP ADDRESSES to Computers, Laptops, Kindles, Tablets, Phones, etc. MUST STOP the "CYBER-TERRORIST(S)" AND STOP CYBER WAR - MUST STOP FAKE CYBER ACCOUNTS & PROTECT NAMES & IDENTITIES & INFORMATION

Ticket: # 3989289 - High Packet Loss - Cox Communications - Phoenix, AZ

Date: 5/22/2020 12:15:52 PM

City/State/Zip: Phoenix, Arizona 85032

Company Complaining About: Cox

Description

This is an ongoing issue. For several years, there has been high levels of packet loss - well beyond what is identified as typical for Cox according to FCC documentation.

I'm routinely seeing 6-30% or more packet loss when outages occur, which is preventing my family's ability to work from home during the COVID crisis.

Documents attached demonstrate ongoing corrected/uncorrected packets from modem status page indicating network level issues with Cox's infrastructure leading to uncorrected/lost packets.

Ping Plotter screenshots show packet loss levels (red lines) and percentages. Screenshots are dated and times are shown in the graph.

Ticket: # 3989336 - Xfinity Home Security**Date:** 5/22/2020 12:30:10 PM**City/State/Zip:** Irvington, New Jersey 07111**Company Complaining About:** Comcast

Description

My service was to be moved from (b) (6) on May 21, 2010. The representative Paula cancelled my service on 5/18 instead of having it moved. I was told by Xfinity representatives that all I need to do is take the equipment with me; plug it up and if there were any issues Xfinity would be able to remote in. Now, Xfinity is saying because of Covid they don't have access to the code to make my security work. Also, they couldn't find my account. After service for almost a year and paying my bill, they couldn't find my account and they said that was another reason why they couldn't send a code to my security remote. A Supervisor from Xfinity Home was supposed to call me within 10 minutes from my conversation with Ruth the Representative this morning approximately around 11:30am. She took my phone number and name again, but haven't heard from anyone. I understand the Covid thing, however, I moved by the promise that I wouldn't have a problem with my service or else I would've waited to move. Now, no one is returning my calls or assisting me on the phone. I really need the security operating in my home. I cannot wait until this Pandemic clears up to get the security up and running. Please help.

City/State/Zip: Lagrange, Indiana 46761

Company Complaining About: Centurylink

Description

My internet has been down 3 times in the last week. I made it clear to them I was working at home because of COVID and this was putting me in danger of losing my job. Apparently that's funny to Centurylink. It isn't funny to me. My Mom is 81 years old and she has dementia. She is counting on me and I don't think this is funny. We were hung up on twice this morning, 3 people, 2 on the phone and 1 on chat said they couldn't help us - the chat person said she couldn't help me unless I could uninstall my modem and reinstall it at a different jack. One offered to send a technician out next Tuesday - 4 days away. The 4th live person we spoke to said there was a local outage and we didn't need to do anything to fix it.

I called Century Link just now to file a complaint and after 10 minutes a supervisor came on who didn't think there was too much wrong with what happened until I mentioned the FCC. If you can do anything to help, I would appreciate it. This isn't acceptable.

Ticket: # 3989620 - Unable to suspend service from Optimum Cable and impossible to reach customer service

Date: 5/22/2020 2:07:24 PM

City/State/Zip: Ridgefield, New Jersey 07657

Company Complaining About: Optimum

Description

I've been trying to reach Optimum online for close to 2 months now. I'm still getting billed about \$180 bucks a month for service that I'm not even using at the business due to Covid-19 lockdown in NY. I've reached out via social media and they've given me a number to contact retention which leads to a dead end and now i'm 2 months over due going into the 3rd month. I need my service to be suspended until business can be resumed and the charges to be removed from 3/15/2020 of when the lockdown has started.

Ticket: # 3989642 - Special needs Child needs your help

Company Complaining About: AT&T

Description

Due to covid I was requested for a bundle rate that includes Tv & Internet in March due to promotion ending. The representative I spoke with advised me Hughes Net is a third party affiliate and I would have to pay additional 72.35 I paid it got service. I started to see additional charges come out of my account from Hughes Net that was never authorized I called Hughes Net and canceled my contract after just two weeks. I received my bill from At&t and I was 160.00 I called and was told my promotion ended I advised I called to get bundle rate basically change my plan I was told there nothing I can do about it after calling 20 times I got Darrel in the loyalty department he reviewed my account and stated the money was never credited to my account he would fix it my service was turned off before May 13 which was the 60 days they're giving for the pandemic after speaking with Darrell my bill came for 103.00 I paid it. Checked email I have another bill for 179.00 I called back spoke with Shanta was told Hughes Net has the money It was sent to them I called Hughes Net they never received and money from At&t dish network. I have basic cable not internet on one TV there is no way I should have a bill for 179.00 the representatives are no help I'm constantly getting transferred around from billing to loyalty department and no one wants to correct the problem. I have three kids I can't afford to be paying for someone else who fails to do their job correctly. Please assist me in this dire situation.

City/State/Zip: Solon, Ohio 44139

Company Complaining About: Spectrum

Description

I have been a Spectrum-Charter customer for about 6 years as my Internet provider and switched to the TV services almost a year ago. I initially had basic streaming and found that it didn't have the ability to program shows (DVR in cloud) as I was told...so I called late last fall and was told that the only option I had was for them to change my service and that I could get a DVR that they provided. They said that they would set up my service, and it would cost me only \$12.99 per month, if I set it up myself. I was initially told that it would stream wireless to my modem and I'd be set to go. I was also told I could watch TV, record two channels at a time, and that I could watch other while recording. I forgot how many total hours I would get with the DVR, but it was not a lot, however, it was the only option that I had. OK..so they changed my service around, I got the box, and found that I had to HARD WIRE it, which was a nightmare in itself because of where my TV is situated. When I called, they told me they could send someone out, but I would have to pay...which I said "no!" The first lie: their DVR box was not wireless. The second lie: Once I had it set up and working, I discovered that if you happen to be watching a show and the DVR may be recording two shows on another channel, the DVR will change your station to one of the channels recording. I called and complained and told them that I specifically asked about all of that...they "apologized" and that I was given incorrect information. I had spoken to "Seth" when I set this box up. About a month and a half after I received the box...both hand modules would not work. I called and was told that was rare and to just return them to one of their stores for a replacement. Coincidentally, as I was walking in, someone came in behind me with the exact same problem and wanted new modules. The young man at the counter replaced them for free and told me that he seemed to be doing a lot of returns that day. Lie number 3: In March, I paid my Spectrum bill directly from my bank account at Citizens Bank. I have never had problems doing that with any of my banks, and the bill was paid on time. About a week and a half later, I received a note from Spectrum that if I didn't pay my bill, they were going to cancel my service. I was furious because my bill was paid and the money was taken from my account. I called and they insisted that they did not get my payment, and told me to pay at the store or they were going to shut off my account! I was furious because I work from home, need my Internet, and, I had paid the bill and had a confirmation from my bank! So, I called Citizens and they told me that the money was sent and that they had a confirmation that they gave me. I faxed that to Spectrum, which they were adamant about cancelling my service and even threatening to add charges to turn it back on if off! I've never had a problem with them and did not appreciate this treatment at all! So, I called my bank back and they told me that they would stop payment on the money that was already sent and would not charge me for this. I then went down to the Spectrum store in Macedonia Ohio (about 25 miles from me) and paid the bill. I then came home and called Spectrum and told them that I paid the bill and that my bank issued a stop payment. The lady in the billing department at Spectrum said that they "just applied the first payment" and that she didn't know what happened. I told her the whole story and that my bank issued a stop payment because this payment should have shown up several weeks ago. Incidentally, the day I paid and was talking to this woman was 4-3-20 and the date of the cancelled payment was 3-13-20. ?? She confirmed that she was now showing two payments and that I should cancel the stop payment. I told her that was already done and I was told once processed, could not be changed. I explained all that happened and she told me that they would

charge a fee, but it would be waived. She advised me to check my account on line in about a week to make sure that it was deducted, and then call back, which it wasn't, and I called back. I then get my April bill due in May and called again about the \$25.00 . A very nice woman "Asia," told me that she would go an put it in the system again and apologized. I told her that I was angry about having to call and that as I was looking at this bill, I am not happy about this sub-standard DVR plan that I set up based on original lie by customer service. Again, she was very nice and said she would transfer me because Spectrum was offering cloud DVR now. She then transfers me to a woman (Helen...in Georgia office) who had me on the phone for 2 HOURS! I made it clear that I wanted a wireless system and cloud services and she advised me on their "new" Apple TV plan. This plan is basically a type of modem that is made by Apple and they have some kind of a contract with them now to provide services, etc. She went over my account and told me that if I set this up and got rid of the DVR, I'd have up to 50 hours of programming (part of their package), it was extremely easy to set up (similar to Rokus which I have), and that it would only cost me for everything \$7.99 per month but that I would have to commit to Spectrum for 24 months. She told me that it would take 7-10 days for me to receive it and that I was to return their DVR box to a Spectrum office. She said that once I set up the Apple TV, everything would be set up and good to go...immediately. All of this was BIG LIE #4! First, I got the Apple box two days later, which I had explained that the 7-10 days was perfect because I was very busy that week. So, today (5-22-20), I finally had time this morning to set this up. The module that comes with this box was difficult to work with, but, I was able to finally, after close to THREE HOURS, get it set up to work on my TV, but could not find any DVR programming options. I went through the Spectrum guide, the APPLE TV apps, everything and NO DVR! By this time, it was noon, so I called customer service at Spectrum. I first spoke to "Dakota #2948532 in tech support. While speaking to him, I pulled up my account on the Internet. I saw that the \$25.00 was STILL on my account and not credited, yet, they had added the \$7.99 charge for this APPLE TV as well as the \$12.99 for the DVR. He told me that he didn't understand why I didn't have DVR and that he would make note about the credits due to me and then transferred me to "Ron" (his number was #4641709). Ron listened to me getting mad and said that he would see to it that my bill was straightened out and said that there were TWO PROBLEMS: (IIE #5) MY PRESENT SERVICE WOULD NOT WORK WITH THIS APPLE BOX, THEREFORE, I DO NOT HAVE DVR IN THE CLOUD SERVICE. (LIE #6) Additionally, SINCE I SET UP THE APPLE BOX, I OWN IT AND THEREFORE, AM COMMITTED TO PAYING FOR IT! The only way I could use it would be to "DOWNGRADE" my service! He was very nice and apologetic, but at this point, I am apoplectic! He also told me that they will continue to charge me the \$12.99 even though I disconnected it and that I needed to return it immediately! I was planning on doing that today, anyway, which I told him. Meanwhile, I NOW HAVE AN APPLE BOX which is basically acting like a modem, which I DO NOT NEED, AND AM STUCK WITH! The WITCH in Georgia that lied to me about this service and looked at my account while setting this up, DID NOT SAY THAT MY SERVICE WOULD NOT WORK WITH THIS! I WOULD BET THAT SHE WAS ON COMMISSION AND THEREFORE, MISREPRESENTED THIS WHOLE SERVICE! This guy "Ron" then transferred me to someone else in billing to see if they could reverse everything and I was then transferred to "Keith." Keith looked at the notes on my account and said that he couldn't transfer me directly but would have a supervisor call me back (guaranteed) within 2 hours. Lie #7: It is 2:25 pm right now, an

Company Complaining About: Sudden Link

Description

Suddenlink has said that I am delinquent on a payment. I have called for over a month now to prove to them the amount was paid and even offered proof that it came out of my bank account, but they do not help. After over 7 calls over the last 6 weeks now (pretty much a call a week), nothing is resolved and they have cut my internet service off twice (even during the COVID period). I keep being told that a supervisor will contact me, but no one ever calls me and it still reflects that my bill is delinquent and they are charging me fees for it. Their billing is not right and they are making me pay for it.

Ticket: # 3990023 - internet overage

Date: 5/22/2020 4:25:09 PM

City/State/Zip: Tyler, Texas 75701

Company Complaining About: Sudden Link

Description

our suddenlink bill has been going up every month. for years it has been the same amount until recently. we have called twice in the past couple of months and no one can seem to explain how for years we did not have a data cap and all of the sudden we have drastic overages. the first time my husband called the bill was almost double the normal amount and this was in april after covid started. no one could explain how we went over and no one offered him to raise the package to unlimited (which we thought we had). our bill that I received yesterday was double what we normally pay so I called and was finally offered unlimited which is \$78. that is the amount that we had been paying. i feel like they are price gouging since everyone is home and doing schoolwork online. I was told my bill going forward will be \$78 plus tax but one I dont trust that and 2 I want to speak to someone higher up about the all over the place prices. for example we used to pay about \$40 it has slowly gone up over the past year.

january \$50.83

february \$61.69

march \$110.74 (called to complain)

april dropped back to \$78.04 (the unlimited price I was just offered)

may \$78.04

the upcoming june bill is \$159.81

Ticket: # 3990123 - Disconnected during "Keep Americans connected" pledge

Date: 5/22/2020 5:20:01 PM

City/State/Zip: Portland, Oregon 97267

Company Complaining About: T Mobile

Description

I've called TMobile twice trying to bring it to their attention that I lost my job as a result of the covid19 pandemic and that my service was disconnected despite their pledge to keep Americans connected. It's become clear that they are knowingly dishonoring their pledge and that their "participation" was nothing other than a empty promise given at the time in order to maintain an unblemished perception of moral or ethical standing. Both calls to their customer support has been a frustratingly fruitless exercise in futility. They pretend to hear and agree with my position only to respond with the exact opposite of my concerns while trying to sign me up for a different plan using the money I'm no longer making. One rep even said "Yes we made that pledge but we actually have our own way of keeping Americans connected". Do they not know that's not the same thing as signing a specifically worded pledge using the strategies the FCC called for? Again, it seems this isn't simply some kind of oversight it technical error but a willful disregarding if honoring their pledge while attempting to keep a facade of cooperation and concern for the American people. They won't even admit wrongdoing. I want them to either honor their commitment to their pledge or let it be publicly known that their signature meant and means nothing because they have "their own way" if keeping me connected (which obviously hasn't worked).

Company Complaining About: Comcast

Description

I've been having problems every day with my Xfinity service but yet and still over speaking with customer service they want me to pay over 250 dollars a full payment for not even half of the service. I speak with customer service Monday May 11,20 about the problems with the service, and about the technician coming to my house in March doing the pandemic with no mask or gloves on so I could not let him in. And they told me that no technician can come out now. But they would send one to check the outside lines. Also, I explained to the representative that I have not received my unemployment and I will pay my bill next week. well, what do you know they cut my services off after the representatives to you stated to me my services would not be interrupted well I enclose a picture of my services being interrupted I had no Channels during the stay at home executive order. Knowing that my services were not working properly I feel all the money that I have contributed to Xfinity during the pandemic there was no reason to interrupt my services for \$160. I feel like they harassed me doing t his crisis. being that this happened I feel like I should have a year of free service. And the governor and the attorney general and the FCC should do something about this. I didn't even get the 10-day grace after your due date. But I was told my Services would not be interrupted then they put me in a plan without my knowledge. at this point if I wanted to leave I wouldn't be able to because of the pandemic technicians are not doing installation. I'm so sick of this abuse from Xfinity and the Philippines bad customer service. Please Help enough is enough I've started to take pictures and video footage of my services being out every day but the video will not upload on your website but if I am given a email address I will forward it to you.

Description

interrupted service during the pandemic after speaking to Customer Service I've been having problems every day with my Xfinity service but yet and still over speaking with customer service they want me to pay over 250 dollars a full payment for not even half of the service. I speak with customer service Monday May 11,20 about the problems with the service, and about the technician coming to my house in March doing the pandemic with no mask or gloves on so I could not let him in. And they told me that no technician can come out now. But they would send one to check the outside lines. Also, I explained to the representative that I have not received my unemployment and I will pay my bill next week. well, what do you know they cut my services off after the representatives to you stated to me my services would not be interrupted well I enclose a picture of my services being interrupted I had no Channels during the stay at home executive order. Knowing that my services were not working properly I feel all the money that I have contributed to Xfinity during the pandemic there was no reason to interrupt my services for \$160. I feel like they harassed me doing t his crisis. being that this happened I feel like I should have a year of free service. And the governor and the attorney general and the FCC should do something about this. I didn't even get the 10-day grace after the due date. But I was told my services would not be interrupted then they put me in a plan without my knowledge. at this point if I wanted to leave I wouldn't be able to because the pandemic technicians are not doing the installation. I'm so sick of this abuse from Xfinity and the Philippine's bad customer service. Please Help enough is enough I've started to take pictures and video footage of my services being out every day but the video will not upload on your website but if I am given an email address I will forward it to you. Technically I'm not late if they bill in advance.

Ticket: # 3990245 - service and billing

Date: 5/22/2020 6:36:18 PM

City/State/Zip: Orlando, Florida 32806

Company Complaining About: Spectrum

Description

(b) (6) [REDACTED] [REDACTED] We have bundled service Internet and Wired phone, Spectrum called us and offered 30-day free trial of TV connection, knowing that they have never provided for us a box with a TV connector. I called them several months starting in Feb 2020 and asked how they expected us to use their TV offer. Finally they admitted we would have to buy more equipment to get their TV at all! We told them my wife had three types of cancer to deal with and had 5 cardiovascular surgeries in the past year..i have only \$1,100/mo to live on and have spend most every waking moment on preparing a cure for the COVID-19 infected patients. every \$50 or \$100 means a lot to us SINCE i HAVE ONLY S.S..INCOME TO LIVE ON, but after wasting several hours on the phone, Kalin and Tim came up with no way of EVEN giving us ANY credit for \$100 overcharges for NO SERVICE at all. Allen offered \$50 return for our wasted billing, but both TIM and Allen simply hung up on me. My wife was in tears. Your people showed NO CONCERN for the VALUE of Human Life or just being decent and FAIR....we don't like to deal with lying, cheating and stealing....we work hard and sacrifice to SAVE LIVES of others..... THEY BILL US EVERY MONTH BUT REFUSE TO PROVIDE ANY SERVICE AT ALL FOR TV

Ticket: # 3990327 - Suddenlink overcharges

Date: 5/22/2020 7:28:01 PM

City/State/Zip: Bishop, California 93514

Company Complaining About: Sudden Link

Description

Suddenlink is my internet service provider. They have charged me unreasonable "Data Cap Overage" fees for the past 3 months billing. No where in my account is it explained what my "data cap" is. Additionally, it is unreasonable to take advantage of a family of 4 where the two adults are recently unemployed and both children are at home due to COVID by charging FAR more than the actual subscription fee is for above-normal usage. I need a full refund of the \$285 for two months overage fees and a secure subscription to a more affordable plan.

Ticket: # 3990384 - Spectrum internet cutting service.

Date: 5/22/2020 8:19:52 PM

City/State/Zip: San Antonio, Texas 78216

Company Complaining About: Spectrum

Description

SPECTRUM INTERNET is cutting service for late payments. I guess they don't know there's a pandemic going on in the United States.

Time to find a new internet provider service. How much bailout money did they get???

Ticket: # 3990422 - Connection drop and charge for replacement of line

Date: 5/22/2020 8:59:49 PM

City/State/Zip: Kingwood, Texas 77339

Company Complaining About: Sudden Link

Description

Suddenlink kept dropping signal, from 3 times a day in good times to 10+ some other days, due to COVID-19 and work from home, this was no longer acceptable.

Suddenlink told me it was my modem, so I bought a new modem, issue remained, they sent a tech and replaced wiring going to my house. then charge me a service fee, cabling outside my house is not my responsibility, and they also made me buy a unnecessary equipment when there was nothing wrong with mine.

To make it fair they should have accepted the removal of my fee, I have a chat log with all the conversation with Suddenlink if needed saved.

Attached also chat log.

Ticket: # 3990462 - Lack of Broadband internet services at my address.

Date: 5/22/2020 9:37:28 PM

City/State/Zip: Everson, Washington 98247

Company Complaining About: Wave Broadband

Description

I already bought a modem and ran cable the length of my driveway due to the fact that they'd already said my address could get service. This was turned down when the tech got here because my address is TWO POLES away from where the cable stops. My neighbors can get reliable 75mbps Broadband internet and my choices are either HughesNet (2mbps but latency 900+) or Ziply DSL (1mbps) which doesn't even work half the time. I'll do anything to get broadband internet to my house, my son can't do any schoolwork during this pandemic.

Ticket: # 3990489 - Spectrum (charter) billing abuses**Date:** 5/22/2020 10:09:01 PM**City/State/Zip:** Stoneham, Massachusetts 02180**Company Complaining About:** Charter

Description

hello,

Last month, I noticed my internet bill went up. I assumed it was in error, since it's already doubled in price since I had the service. The carrier (charter aka spectrum) claims they're not raising prices or cutting people off during the pandemic. When I called to complain that I never agreed to the surcharge, they told me they'd send me to collections if I didn't pay. I offered to continue to pay the agreed upon, already inflated charge, otherwise they could cancel my service. My child is forced out of school because of COVID and has to do all his schooling online. Despite my remitting payment for the regular payment amount (a difference of \$10) they cancelled my service and now my kid can't do his school work. They advertise a pledge that they won't screw people over during the pandemic, nor cut them off while their kids are in school, but apparently spectrum is doing business as usual. They even offered to up sell me "for only \$20 more a month" then changed the price to "only \$20 more than the new increased price."

I realize everyone has to make money and inflation exists, but 100% increase for crappy service with increasingly routine outages is not acceptable to me. I am in a rural area and they hold a monopoly on the service. My child can't submit his school work since he has no internet now.

As far as resolution, they've left such a bad taste in my mouth that the first option I'd love is someone to compete with them, so they couldn't abuse their customers as they do. Since that's not realistic, I'd be willing to continue the previous level of service, but I'm not willing to keep paying more and more for increasingly marginal service. If they were to upgrade the services, that might be one thing, but they're just taking advantage of a captive market. It's unfair and it's abusive, and downright evil of them to do it in a time where children can't get their school work done without internet service. I'd say please fine them, but I know it'd just end up getting passed on to us poor folk.

Ticket: # 3990551 - Failure to provide advertised service

Date: 5/23/2020 12:33:24 AM

City/State/Zip: Jarrell, Texas 76537

Company Complaining About: Sudden Link

Description

Tech arrived prior to install time and left BEFORE my 5 to 8 time frame advising dispatch i wasnt home BEFORE my time of appointment. Then another tech shows next day and is unable to leave service working. Have made several calls to get tech back out but none were provide till next week. I have kids the do school from and and i work from home due to covid 19. Phone support denied escalation to management and argued with me for 2 hours before escalation was processed to be addressed the next day as he needed to go catch the bus and Jeff was told NO sups could help on the spot. Now i have no internet and a cable box that states its deactivated. Customer reps very rude and hung on up.

Ticket: # 3990608 - Verizon

Date: 5/23/2020 4:54:05 AM

City/State/Zip: Upper Black Eddy, Pennsylvania 18972

Description

I purchased property in Upper Black Eddy, Pa, recently. It is a large property that is remotely located. People have been using the property as an illegal dump site, and at one point I even found a dead body there. For all those reasons, as well as the fact that I am building a new home there, I put up a driveway gate to secure my land and my new home construction from crime. I do not live there yet. I live 4 hours round trip away. I work nights and sleep days. I was under a Corona Virus quarantine. I have a doctor's note.

Apparently a neighbor's internet stopped working, and I awoke to a singular call from Verizon that they wanted to get down my driveway at the Upper Black Eddy property to repair the neighbor's internet, though the pole in question is located nearer my neighbor's property and is accessible by walking, as they have previously. This wouldn't have required coming around the long way and accessing my mile long driveway at all. Additionally, my neighbor had a fully functioning Verizon cell phone with internet capability at the time, as she called and texted me while I was asleep. Though I had only received one request from Verizon while I was asleep, Verizon contacted the State Police, from Dublin barracks to break into my property. Without a warrant, without a clear and present emergency, and without authorization, Verizon was a party to breaking down my driveway gate and entering my property. I am still in disbelief. Am I expected to call out of work and drive 4 hours every time the neighbor loses internet service?? This is ludicrous. My neighbor reportedly had a telemedicine appointment coming up. A telemedicine appointment is like a doctor's appointment. It is not used in the setting of imminent medical emergencies. If there existed an immediate medical emergency, an ambulance would have been called, not Verizon. Additionally, telemedicine is also accessible from a cell phone, as well as from a desktop computer. My neighbor had a fully functioning Verizon cell phone at the time that Verizon broke into my property. Verizon would have known that. Thankfully the law raises the bar pretty high regarding under what circumstances a private property can be broken into. Absent a warrant, a true immediate emergency with imminent loss of life, or a crime in progress, neither Verizon, nor the police they called, have the authority to break into homes or private properties. This is a bully. The neighbor in question, had a fully functioning Verizon cell phone with internet capability at the time that my driveway gate was broken in order to restore the neighbor's desktop service.

I believe that Verizon's actions in calling the police on me after only leaving me one singular voicemail message and then being a party to the break-in of my property was related to this very same technician being disgruntled about my prior PUC complaint. This technician had previously set up many many different appointments with me not that long ago, so that I could establish new phone service of my own on my Upper Black Eddy property. This same technician then failed to show up, missing numerous pre-scheduled appointments, and didn't even have the courtesy to call and say he wasn't coming. And if all that weren't enough, Verizon had tried to bill me for the technician's services, among other things, though he had put me through so much. I had been kept waiting and waiting on a job site for hours on end by myself. Thanks to that PUC investigation, I did not have to pay for those false charges. It is very coincidental and questionable then that this Verizon technician would later take such rash action against me, as immediately calling the police on me to gain access

to my property and then by being a party to the breaking in after leaving only a singular voicemail message. Verizon's actions in this case are very suspect. This begs redress. In terms of resolution, Verizon needs to reimburse me for the damages, and to give me a reasonable time in which to respond or simply enter my property on foot.

Ticket: # 3990698 - slow or non existent internet

Date: 5/23/2020 10:36:49 AM

City/State/Zip: Fort Mohave, Arizona 86426

Company Complaining About: Sudden Link

Description

Internet service goes out and when you call the wait is in excess of 45 minutes. Then they cut you off so the wait starts again. our phone service has been off for two weeks. I have made no changes to my account at all. Suddenlink is the worst internet service i have had in 25 years. If you are fortunate enough to reach some one they flat out lie to you and tell you it will be taken care of and some one will call you back, which never happens. They are using the covid19 as an excuse but the service has always been terrible.

Ticket: # 3990737 - number porting (b) (6)

Date: 5/23/2020 11:58:47 AM

City/State/Zip: R. Cucamonga, California 91739

Company Complaining About: Nextiva

Description

Due to a breach we have had as validated by the California Attorney General's Office and the Microsoft Employee as stated in the attached PDF. Nextiva was notified multiple times that we needed the Nextiva APP Licenses removed as they were found on several occasions to be activated to people that are not associated or employed by Aero-Marine, LLC. This began September 2018 and has continued through April 2020.

Michael Gutierrez, Sarah Anne, So Fellah, Mathew Lagrandy, CalCom Systems, Nextiva Sales, Nextiva Support were all part of the notification process and Nextiva refused to remove the Nextiva Apps no matter what we pledged to do. We offered to pay the full rate for the plan if they removed the Nextiva Apps as third parties using them were blocking our inbound calls and monitoring our calls, disconnecting our calls while we are doing business with clients. Nextiva employees kept our phones from ringing by facilitating the unauthorized use of our account to third parties.

They were also contacted by the San Bernardino County FBI Task Force to assist in the ongoing investigation that was resolved by the Attorney General's office on 9/30/19. We provided all of the information to Nextiva (letters from the AG and Microsoft, police reports) to ensure they were aware of the problem.

Nextiva refused to cooperate and the whole time kept billing Aero-Marine, LLC and letting unauthorized third parties use our services.

We also notified Nextiva that we are working with the DOI BIA for a COVID 19 Disinfectant offering to the DOD with Anne Jennings - the Federal Procurement Specialist so we can complete all of the requirements as well as interfere with my communications.

With all of the intrusions/blockings we notified Nextiva staff that we needed a new account in February to try and get the repeated intrusions under control and they took all of the Native American Company information and set up an account but would not release it to me Since February 8th, 2020.

At this point we needed to port out our business phone numbers in order to work and receive calls and we ported two numbers on May 7, 2020 at the same time but ported them to two different accounts but the same Carrier. One phone number was active immediately and completed with 24 hours to be able to make and receive calls (b) (6) and the other number was rejected immediately for the wrong pin number (b) (6), yet the same pin number, account name and manager was given for both numbers. One number was successful and one number was rejected using the same information.

I tried to port the (b) (6) number to the successful carrier account with the same information and we were able to get the number immediately on the carrier to dial out with (b) (6) but Nextiva rejected the port an additional 3 times. They are withholding the number until the 26th of May (per Drake - Nextiva porting stated this to the carrier and confirmed the date), then Nextiva Manager So Fellah changed the date to May 28th. Nextiva Continues to blame the carrier and then stated that Peerless is the one who is refusing to port the number out. I reached out to Peerless NOC last night and they shared that Nextiva has the ability to login to the ANImate portal and port the number out immediately.

I sent this new information to Nextiva Support and the staff - please see attached documents and I feel threatened and harassed at this point. This has been a two year problem and it seems like Nextiva is blocking the number from being ported out deliberately.

I want my number out and my accounts closed. It is my right to have privacy and I did not need to ask Nextiva to remove themselves from my phone numbers or fix the third party intrusions over a two year period.

I was also informed by Sarah Anne that FCC will only send the complaint back to her and that no one else will see the complaint from the Executive Offices. Therefore this complaint is worthless. The FCC will not expedite or force Nextiva to release our company phone numbers that we own or change anything on our accounts.

I also requested that Peerless release my phone number (b) (6) immediately in writing and via telephone request.

Ticket: # 3990910 - Regional Sports fee

Date: 5/23/2020 2:42:54 PM

City/State/Zip: Los Altos, California 94024

Company Complaining About: Comcast

Description

I have Xfinity subscription and part of this subscription is Regional Sports fee in the amount of \$8.00 per month.

Since start of COVID-19 epidemic there are no Regional or local Sporting events being broadcasted, yet we are still charged above fees.

I think if Comcast does not provide such services it is fair that they should not charge such fees as long as such Logal Sporting Services don't resume.

In my view it is simple, Comcast has an agreement with their customers to provide services and in return customers have an obligation to pay for such services being rendered.

Please ask Comcast and all other broadcasters to stop charging Regional Sports fees until such events resume in majority of the country.

Ticket: # 3990977 - Optimum

Date: 5/23/2020 4:17:25 PM

City/State/Zip: West Milford, New Jersey 07480

Company Complaining About: Optimum

Description

On March 19, we moved cancelled our Optimum Account, tried to return cable boxes etc., the office was closed to Covid 19. When we moved to our new home, same town we went with Altice, which is Optimum, they provide cheaper rates. I asked that they transfer my old phone number, which we had for 43 years, they told me no problem. Well after numerous phone calls and chats, I got nowhere. So I was stuck with new number. Now I've been paying the bill for new account, I get a notice that we owe them \$770 (\$550 is for equipment that can't be returned because they're closed. They finally tell be to return equipment via mail service which we did. Our two checks for new account have been cashed and I received a notice that we still owe , which I have proof that we paid. I'm worndering if they applied it to our old acct (which obviously is a different #) I can't get anywhere, either by phone, chat or email. We did go to an office in Oakland which stated they were open, only to find out they weren't. I'm frustrated don't know what else to do. Now they want to shut our service off. Please any help you can give us would be much appreciated. Thank you

Ticket: # 3991042 - Internet speeds much slower than what we pay for

Date: 5/23/2020 5:43:26 PM

City/State/Zip: Phoenix, Arizona 85050

Company Complaining About: Cox

Description

We pay cox for 300Mbps download and 30Mbps upload. About 2 weeks ago the internet took a drastic drop in performance. A technician came out, but due to covid, is unable to trouble shoot anything inside and just looks at the lines and says everything is ok, even though our speeds have more than halved. We replaced our equipment, at the technicians discretion and have had 0 improvement. Called cox multiple times and have been told that its due to increased traffic due to covid, but its happening at even 2:00AM, which they said is a low traffic time. They are unwilling to do any additional trouble shooting and basically rush me off the phone whenever I call. At best we are getting 200Mbps download and 10Mbps Upload, but more consistently we are getting 100-150Mbps download and 1-2Mbps upload.

Ticket: # 3991049 - AT&T Continues to Harrass Me for Early Termination Fees

Date: 5/23/2020 6:00:29 PM

City/State/Zip: Kingsburg, California 93631

Company Complaining About: AT&T

Description

Hello Again

AT&T took 301.76 out of bank account twice without my authorization. The first time they put the money back after a week of waiting. Then they took it out again a day before I was furloughed from my job & lost my health coverage! Now they are harassing me for the money again during this pandemic & I am beyond why such a huge company can prey upon people when the chips are down! I even told this to the unapologetic jerk that said I would still be charged!

Wow Really so I will continue to complain & they are threatening to send me to collections

This is the Original Ticket (b) (6)

Ticket: # 3991066 - Constant Ping Fluctuations/Intermittent Drops in Connection**Date:** 5/23/2020 6:31:03 PM**City/State/Zip:** Kent, Washington 98031**Company Complaining About:** Comcast

Description

Ping constantly fluctuates and causes intermittent drops in connection while using VOIP or other steady ping reliant programs. Started as of February and worsened as COVID 19 situation started and exacerbated when a nearby cable node was ran over. Technicians then linked the entire neighborhood to one node. Now every 2-5 seconds I get interrupts in my service. Attempts to call have been denied as not important yet disconnecting during work calls is a problem.

Ticket: # 3991072 - Slow throttle of internet

Date: 5/23/2020 6:36:41 PM

City/State/Zip: Salina, Kansas 67401

Company Complaining About: Cox

Description

It seems that every since Cox Communications gave us a cut on our bill because of COVID-19 the quality of our internet has deteriorated immensely. It buffers all the time. This was not the case before they gave us the price reduction. I feel they are throttling down the internet speed since giving the price cut

Ticket: # 3991153 - Optimum Needs to End Its Monopoly**Date:** 5/23/2020 8:56:50 PM**City/State/Zip:** Hopewell Junction, New York 12533**Company Complaining About:** Optimum

Description

We are a small business that has been closed during this Pandemic since March 16th. Since we were forced to close our Tattoo & Skincare Parlor which is owned by both my husband and me, we no longer have any income coming into the household, yet Optimum decided to shut our phone to our business down anyway against their pledge to Keep America Connected. They have not only shut down our phone and wifi making it impossible for us to be at our business to try to sell anything online or print a single item, but they have harassed us and are trying to bully us into paying with a credit card over the phone. They call anywhere from 7 in the morning and just called from a different number at 8:47 pm, well after the time they are allowed to call. They have disconnected any business behind in our town of Hopewell, going against their pledge during a time where no one is making anything, and they do this because they are the only provider available in our area forcing us to have to use them. The mini monopoly that they have had control over for the past 7 years is disgraceful and has led them to think they can bully whoever they want. It needs to end. They are not only raising their prices during a time of Pandemic but shutting down businesses and residential accounts when people can barely afford to buy food in New York.

Ticket: # 3991156 - Once again, my cable doesn't work

Date: 5/23/2020 9:01:00 PM

City/State/Zip: Briarwood, New York 11435

Company Complaining About: Verizon

Description

Once again my cable is not working. I have tried calling Verizon but because its Saturday night and they changed their customer service hours due to COVID-19, I cannot get any help. Even their automated system changed and I couldn't get anywhere with it. It's a horrible system. This happens every other month. My rate has skyrocketed to \$104.80 (I have basic cable and internet) and I can't get decent service. They have sent a technician out here to look at my setup and everything looked fine. Why I get this disruption, I don't know. Now I can't even get decent service because of the shortened hours. Even though the attachment is from December 2019, the message was the same. It's always the same

Ticket: # 3991178 - Billing

Date: 5/23/2020 9:39:34 PM

City/State/Zip: Brooklyn, New York 11233

Company Complaining About: T Mobile

Description

i have contacted T-Mobile on three attempts. The first contact with T-Mobile, my account was put on hold due to covid-19 and because I am currently not working. I was informed once the hold is uplifted on May 21, I will have the obligation to pay the new bill in May and the past due bill will be waived. When I called the second time prior to May 21 to follow up, I was told my bill was \$500.00 and T-Mobile refused to set up a payment arrangement with me and suggested to pay the entire bill of \$500.00. When I called the third time on May 21 when the hold was uplifted, my account was put back on hold again until June 3 and was suggested for me to pay almost \$300.00. I am being forced to pay hundreds of dollars with my credit card on file with T-Mobile and being refused to set up a decent payment arrangement that I can afford. Please contact me in regards to this issue and I hope that it can be resolved.

Ticket: # 3991181 - Comcast Refusing to Service new House**Date:** 5/23/2020 9:51:34 PM**City/State/Zip:** Tallahassee, Florida 32303**Company Complaining About:** Comcast

Description

My name (b) (6) my parents just bought a new house in Florida. I have recently graduated college and moved back to this house. The address of the new house is currently blocked For service by Comcast, presumably, because of the previous tenant. The address is (b) (6), Fl. My mother originally called Comcast on May 4th and submitted all needed paperwork by the 10th. She calls everyday and is thrown in circles by Comcast's customer service and sales team. It is May 23rd. I am currently look for a job and internet is essential to this process. Is there anything you can do to help me out. In this time going to library for internet is not even an option since it is closed due to the pandemic. My mother works from home and has to find someone's house to work from which is not safe as she is over 60 years old. Could you please help us get internet in this time. We moved into the house 19 days ago.

Ticket: # 3991210 - Comcast suspended service despite COVID 19 pledge

Date: 5/23/2020 11:17:41 PM

City/State/Zip: Denver, Colorado 80206

Company Complaining About: Comcast

Description

Television service suspended despite contact with Comcast that we are out of work because of COVID 19. Still charging late fees. Uncooperative customer service . Terrible untrustworthy company.

Ticket: # 3991243 - Ethnic bias

Date: 5/24/2020 2:06:25 AM

City/State/Zip: Sandusky, Ohio 44870-5993

Company Complaining About: AT&T

Description

1. I disconnected my cellphone around April 14 which was part of internet cellphone bundle. I couldn't afford cellphone bill due to covid paycuts.
2. I was told by representative that my internet \$39.99/month will remain the same for 12 months from Jan 2020 start.
3. On may 22 my internet bill went up to \$65/month and when I called at&t a rep Maria said that it was an error and consumer loyalty dept will resolve it.
4. The representative Bell in loyalty dept made me feel very uncomfortable/ maybe outright discriminated for my accent. When I asked to be transferred to another agent who would understand me she refused. She kept repeating she has worked 20 years with at&t and wouldn't hear the other rep's error statement. She in the end made me feel so helpless that I got bound in a 12 months contract with \$10 discount when in fact it should have come down to 39.99/month. When I said I need to check other internet providers she said- "so I will document that you said no to \$10 discount". she treated me very bad and when I asked to speak to customer satisfaction dept, she said at&t doesn't have such a dept. I haven't felt so down after a phone call with an agent. Yes I have an accent but I am easily understandable. I m at loss and need someone to hear/understand the helplessness I feel.

Ticket: # 3991254 - T-Mobile disconnected service during Covid 19

Date: 5/24/2020 3:12:06 AM

City/State/Zip: Georgetown, Indiana 47122

Company Complaining About: T Mobile

Description

Despite making pledge to not disconnect service, T-Mobile has disconnected my service and send texts that are threatening to disconnect my service unless I pay in full every day during covid 19.

Ticket: # 3991313 - Unauthorized additional charge on bill

Date: 5/24/2020 11:01:21 AM

City/State/Zip: Ovid, Michigan 48866

Company Complaining About: Spectrum

Description

I have had Spectrum Internet for months. This month I went to pay the bill, \$24.99 was added for television service. However, I did not call in and ask for it and I did not authorize it. I have called seven (7) times in a matter of a few days to have the charge removed, so I can pay my internet bill... NOT with the television service added. This is fraud. Period. If I had automatic payment, they would be getting money out of my account and then I would have to go through this nonsense to get the money back and it would take days (again) to get that money verified as fraudulent and then days for them to reverse the charge. During this pandemic time, we should be working together. To add charges to a bill without authorization, is inconceivable. Shame on this company. I was told that maybe someone talked to me and I didn't hear about a "Trial" period. Ok. However, NO ONE ever came to hook up television service to even have a "Trial" period. Besides that, I have DirecTv. I would never authorize a "Trial" period of anything.

Ticket: # 3991315 - Internet service**Date:** 5/24/2020 11:08:41 AM**City/State/Zip:** Minneapolis, Minnesota 55403**Company Complaining About:** Comcast

Description

Moved into a new home recently and signed up for Xfinity internet only connection. So far 4 tech visits have been scheduled with no connection yet.

Visit 1: May 15. The tech came half hour early and called. Because this was important I cut short my previous appointment and rushed over from my previous residence. The tech said he could not find the internet utility pole near my building. He said he will talk to his supervisor and figure it out since the area was within coverage and I could leave and he will call me back. Tech left without calling and I received a message for a reappointment.

Visit 2: May 20. Tech came in on time and gave me the modem. He went around the house and found the utility pole at a distance in the backyard. Commented the previous one probably left because it would take some work to get a line from there. Took a look at the junction box next to the wall and told me to get an electrician to drill a hole in the wall to get the cable through and rescheduled. Provided a cable to get it through and keep it ready.

Visit 3: May 23. I drilled the hole in the wall and got the cable through awaiting the tech visit. Got a message 1 hour ahead of schedule that the tech was here. Immediately went to the door but no one was there. No one called my number. Tech was a no show. Received another reschedule message for May 28.

My wife and I are physicians seeing patients on virtual visits because of COVID. These Xfinity guys do not care how critical it is for us to have high speed internet to conduct these visits online. Internet is an essential service and they don't appreciate the importance or timeliness of their job. This compromises our patients and puts us in a really tough spot. Please help.

Ticket: # 3991329 - Charged \$378 when Bill is usually \$37

Date: 5/24/2020 11:51:54 AM

City/State/Zip: Huntsville, Arkansas 72740

Company Complaining About: AT&T

Description

When we signed up for AT&T my part was supposed to be \$26.50/month. After a month or two that jumped to \$31.50 and now after 6 months \$37.12. Not a huge deal. Had a wedding in Germany that was cancelled due to Corona Virus, and this had to call to cancel since we couldn't get anything done through email or online. Called and waited on hold for over an hour but got nowhere with them. The tickets cost about \$300 total. Had my sister call me because she's the main account holder for our phone plan and said I owe \$378 because of two calls to Germany. Called AT&T and said they cannot do anything about it. Said I should have called them before making a call to Germany. This was the first time I've ever called outside of the US. No message saying the rate would be over \$3/minute

Ticket: # 3991361 - Comcast/Xfinity

Date: 5/24/2020 12:56:12 PM

City/State/Zip: Ship Bottom, New Jersey 08008

Company Complaining About: Comcast

Description

My service shuts off on a regular basis. It's been happening for almost a year, I am getting charged the full price every month and the issue is not getting resolved. I've repeatedly attempted to have a service person come to check the outside lines and equipment and they are now using the Corona Virus shut down as an excuse not to send a technician. It is an issue with the equipment OUTSIDE, not inside the house.

Ticket: # 3991389 - AT&T

Date: 5/24/2020 1:43:11 PM

City/State/Zip: Stone Mountain, Georgia 30083

Description

AT&T is unable to handle service with YAHOO there customer service is poor and they have this practice of hiring people who are perpetrating in a position or position in which they were hire in and don't know what they are doing! My Mother Mrs. Thelma Awbrey had a problem with her account U-verse the (Internet) Yahoo unable to log on for a week AT&T failed to contact all there customers of the problem and they still don't have everything up and running properly forget the COVID-19 working from home (S) they just don't know what they are doing. It' not a hold up with getting service they just, don't know what to do funny getting a job being hired and not being training AT&T motto!! I'm sick of being on the phone for hours talking to people who don't know what the (H) they are doing!!

Ticket: # 3991395 - CC button disabled

Company Complaining About: Cbs News

Description

I have attempted several times to view Reverb Documentary Series videos on cbsnews.com and the CC option/button seems to be disabled. The latest attempt is linked below:

<https://www.cbsnews.com/video/coronavirus-in-navajo-nation/>

I've contacted cbsnews.com and have not received a response as of yet.

NOTE: I am deaf and my contact number is text only. Email or text is the best way to contact me.

[Ticket: # 3991407 - Limiting my usage](#)

Date: 5/24/2020 2:07:46 PM

City/State/Zip: Lakewood, New Jersey 08701

Company Complaining About: Red Pocket Mobile

Description

My 20\$ plan includes unlimited minutes, yet the phone no longer works. The carrier says there is a clause that unreasonable use is reason to cut service. I use my phone for classes and study in these COVID-19 times. I hardly think that 5-6 hours a day 5 days a week is unreasonable in this situation.

Ticket: # 3991431 - Hughes Network BIG issue

Date: 5/24/2020 2:20:39 PM

City/State/Zip: Williamsport, Maryland 21795

Company Complaining About: Hughes Net

Description

I changed my satellite internet provider to Hughes Network back in Feb 2020 and have been crying ever since. Hughesnet (HN) advertises themselves as much faster than my old service (which cost half) but I needed the extra bandwidth and speed so I made the change. It did not work well from week one with terribly slow speeds. There were at least a dozen service calls until they hooked me up with a third part tech support team who fixed one major issue... turned out it was installed entirely wrong.

It sped up but still never was right. And then the virus shutdowns began and the world is crying over internet speeds. I've worked from home for 25 years. It's not exclusively online, I'm a potter, but I still sell pottery online, do banking online, search imagery online, and I can barely get open web pages now. It's maddeningly slow. I've been calling them for months, got to them once early and they said they would reduce my bill from \$95 to \$60 for the next 6 months.

I'm supposed to get download speeds of 35 mbps and I getting 0.3 mbps. Yes, that's LESS THAN 1!

I've called HN over 20 times to get to customer support and no one can be reached. They keep me punching buttons based on robot options. That's 20-30-40 minutes per call... One time an hour... and THEN the robot says to call back at another time.

The robots refer to pandemic slowdowns, but Hughesnet also says they're pushing bandwidth to educational systems. I have a legitimate business that sells online without spreading the virus. That is far more important than 2nd graders learning handwriting skills.

HN is still selling their services and trying to get new Hughesnet customers!!! When they can't even take care of their current customers!!! How is this legal??

Oh, and I'm also in a 2 year contract (that I did not realize when signing up) and there would be a huge fine to break it.

Ticket: # 3991464 - TV Programing

Date: 5/24/2020 3:02:08 PM

City/State/Zip: Greenwood, Delaware 19950

Company Complaining About: AT&T

Description

I am a Directv customer and live in Kent County, Delaware, about a mile from Sussex Co., DE, which is one of the 5 counties able to get WBOC-tv news with their Directv programming. During this time of the Covid-19 pandemic I think it is essential to be able to view our local news. NJ & Philadelphia in not our local news.

Ticket: # 3991588 - Cable Box Issue**Date:** 5/24/2020 7:44:54 PM**City/State/Zip:** Brooklyn, New York 11236**Company Complaining About:** Optimum

Description

For about two weeks now we have been waiting on a new cable box. I called on May 21st, 2020 which is a thursday for the second time asking where my replacement box was. I was told it would be here before monday-memorial day. Today is Sunday, May 24th, 2020 for a third time calling for my new box and was told it was canceled on May 19th, 2020 without anyone informing us especially since I called on the 21st of May.

I called once again on Sunday May 24th, 2020 to speak to a supervisor about the problem. The customer rep would not allow and was very nasty to me and told me fine "i will wait another 20mins for the supervisor to tell me the same thing" Ive been an optimum customer for years and this is how I'm being treated during a pandemic. I am pregnant and my mother is elderly we can not have anyone enter our house or go into the cablevision store ourselves. I think this is nasty behavior and unprofessional.

Apparently a supervisor by the name of JOSH was said to call me. which I don't understand after Ive waited all this time to speak to him. I gave them my cellphone number and was told I'd get a call in 2 mins. Which I did not.

During a time where things should be made simple it is not. Optimum has shown a disgusting side on how they treat their customers.

Ticket: # 3991621 - Verizon interrupted my service during the Covid19 period-I had a Covid19 issue(April-May billing cycle)

Date: 5/24/2020 9:00:32 PM

Ticket: # 3991665 - Cox fraud

Date: 5/24/2020 10:16:34 PM

City/State/Zip: Newport Coast, California 92657

Company Complaining About: Cox

Description

Cox communication has been charging us the fee for ultimate service which is supposed to be 300MBS but all we get is about 50-60mbs, and they dont send anyone to fix the issue despite many calls, their new excuse is covid, and higher traffic, they sold us an old modem(charged us monthly rent for 3 of them back in 2014 and gave us 2009 model modem, yesterday they sent a sub contractor that came to our house with no protective gear and was wearing his mask to protect his chin not face! when we called cox, they said oh, your modems are too old and you need to pay to get them upgraded, no mention of the fact they have been over charging us for a service that they have not provided.

Ticket: # 3991683 - Longview Kilgore Cable

Date: 5/24/2020 11:55:44 PM

City/State/Zip: Kilgore, Texas 75662

Company Complaining About: Longview Kilgore Cable

Description

During the pandemic/quarantine this company not only had the nerve to turn off services for everyone who lost their job due to Covid19 but also would use the excuse "well we are trying to run a business so y'all have to pay even if you are unemployed during a pandemic". Like beg my fucking pardon, y'all don't deserve customer's at that point like ever. Then I've reported them to the FCC & then LKC called me demanding why I'd contact the FCC reporting them. Tonight I call concerning how I can go about cancellation of my internet service & before I can ask a second question the "manager" hangs up. I call back asking why the he'll they'd hang up on a customer. They play stupid about hanging up. I am done. Everyone in my area hates this company. Y'all please do something about them.

Ticket: # 3991804 - Outage

Date: 5/25/2020 10:44:02 AM

City/State/Zip: Miami, Florida 33126

Company Complaining About: AT&T

Description

I called AT&T regarding my internet being down for some time. They told me and confirm it was an outage in my area it's been like that for 6 days and counting. There's a technical team I spoke with told me it was nothing major and it will be up by Sunday. Because of the pandemic I have to work from work from home and I am not able to. I was lied to about the outage being resolved. They also denied me credit towards my account for being without internet.

Ticket: # 3991915 - Comcast

Date: 5/25/2020 12:31:14 PM

City/State/Zip: Sacramento, California 95814

Company Complaining About: Comcast

Description

I have had issues with Comcast for over 2 years. The problems originate from the “tap”, which I know because my neighbors who are on the same tap are also having issues. Comcast has come out countless times to “fix” the problem and always insists it is a modem problem, when it is clearly something more. When I demand a senior technician, I am told I have to wait several months. This is unacceptable, I am working from home due to COVID-19 and for my internet to continually cut out puts my job at risk.

Ticket: # 3991977 - Re: Request received: Vastly over charged with no response from the company

Date: 5/25/2020 1:20:26 PM

City/State/Zip: Neosho, Missouri 64850

Company Complaining About: Sudden Link

Description

This is a follow-up to your previous request (b) (6) "Vastly over charged with no..."

So, suddenlink ripped me off for over \$200 a month for six months and expect to make up for it by giving me 2 months free which they were already offering customers for COVID. I am sending (again) my complaint to the fcc.Charlie Petersen

On Saturday, March 14, 2020, 7:00:34 PM CDT, (b) (6) wrote:

As of now all that I can add is that I have sent about half a dozen to different emails for suddenlink and surely, somewhere on my account record there will be a record of my chat conversation with customer service rep Micheal who is the one who confirmed my suspicion of this gross over charge occurring for about 8 months now; however, he said he could not correct it from his location.

Ticket: # 3992065 - Lifeline service through Safelink/Tracfone

Date: 5/25/2020 2:29:39 PM

City/State/Zip: Virginia Beach, Virginia 23453

Company Complaining About: Tracfone

Description

On May 18, 2020, during covid-19 outbreak and subsequent stay-at-home orders, I found phone service disconnected. No warning was received that this would occur, nor any correspondence provided of a necessary renewal. After numerous calls to customer support, a representative explained service was discontinued due to the phone ID on my original enrollment application did not match the phone being used, due to the fact that an initial defective Safelink phone had been replaced with a new phone, through Safelink support in October 2019. After sending a replacement phone, Safelink failed to update my account with the replacement phone ID. This matter went unaddressed, and I was never notified of this issue, until service was disconnected in May 2020. Upon reaching customer support, I was informed there was no course of action by Safelink to resolve the matter and the only option was to restart the enrollment process. Due to connection issues, the enrollment process could not be completed. Still without service as of May 25, 2020.

Ticket: # 3992069 - Spectrum deceit

Date: 5/25/2020 2:30:16 PM

Company Complaining About: Spectrum

Description

I was offered free services due to the covid online learning. I was later billed for these "free" services. I was lied to and taken advantage of.

Ticket: # 3992171 - Not receiving speed I'm paying for

Date: 5/25/2020 3:56:35 PM

City/State/Zip: Las Vegas, Nevada 89143

Company Complaining About: Cox

Description

Paying for 1 gigabyte and not receiving speeds for several months. Have asked to get repair completed with no avail. Also due to covid 19 will not complete trouble call.

Ticket: # 3992181 - Wrongful Bill**Date:** 5/25/2020 4:04:58 PM**City/State/Zip:** White Plains, New York 10605**Company Complaining About:** Optimum

Description

Hi There, I am filing a report because Optimum is not honoring the resolution that they gave me for my billing issue. The final result was to be an \$8 bill for March (due to a prorated credit) and then a \$30 monthly fee in the following months for the account to be on hold. My current bill does not reflect any of these changes that were claimed to be made by the Optimum representative. Currently, my bill says I owe \$300.40, as opposed to a combined total of the \$68 that was agreed upon.

I have attached a PDF with screen shots of this support session and circled in red the pertinent details regarding the above billing adjustments that were given to me by an Optimum representative. The root of this billing problem is due to Optimum withholding information that a hold status automatically times out after 6 months. When I initially put my account on hold, this was never explained to me. I asked the representative how to take the account off hold in the future, and they confirmed that I could just contact them again when I was ready.

Within the last few weeks, I have reached out to the online customer support again and they escalated my case to receive a phone call. When an Optimum representative called, they would not honor their previous resolution as shown in the PDF transcript and said they would have a supervisor call me back. It's now been 3 weeks and I have not received a call from a supervisor. When I try calling them, I have waited on hold for over 2 and a half hours, resulting in never getting connected to a person.

Additionally, Due to the COVID-19 Pandemic, I had mentioned to them that my small business was shut down and I am stuck in another state. Not only is this a wrongful bill, but to renege on their agreement with individuals during this unprecedented time is unconscionable.

Ticket: # 3992226 - Suddenlink Internet Issue**Date:** 5/25/2020 4:38:27 PM**City/State/Zip:** El Dorado, Arkansas 71730**Company Complaining About:** Sudden Link

Description

I have had network issues off and on since April 30th 2020. I upgraded my internet within the past two to three weeks of May 25, 2020 to their 1 GB internet plan. I was advised that the original modem I had from installation would work with the 1GB plan. That was incorrect, I had started having network issues at this point and on May 21, 2020 or May 22, 2020 I had a tech out to finally upgrade my modem. Modem was upgraded but I was still not receiving the minimum download speeds even during peak times of 600mbps, I was only getting 70-300mbps. Contacted Suddenlink right after the upgrade and was able to get a tech scheduled for today May 25 2020 to figure out what the problem is and the tech reported back to Suddenlink that they knocked on the door and no one answered and that was at 10:18am CST. I have been home and awake since 8am CST so I would have heard the knocking on the door. I contacted Suddenlink to try and address this issue at 11am CST and was advised by that agent that the tech did show up but no one was home and I informed that was incorrect, Agent then stated that he would have someone call me back and try to get another tech out today. No one call me back so I contacted Suddenlink again at 2p CST and that agent advised me that the call was rejected and that no one would be at my location until May 26 2020. I informed them I am a call center agent working from home due to the COVID-19 and that would not work. I have had to call out one night because of this issue and Suddenlink will not allow you to change your name or password on the new modem and they are the primary service provider around here because ATT only offers DSL speeds.

Ticket: # 3992236 - Useless ISP customer service and lied about service delivery

Date: 5/25/2020 4:42:17 PM

City/State/Zip: Las Vegas, Nevada 89148

Company Complaining About: Centurylink

Description

I ordered internet service from Centurylink in Las Vegas because I was moving there on May 22nd, 2020. I had a confirmed appointment for a technician to come do the install on that day.

The morning of I received an automated call telling me I had to call them and the number provided was dead (literally a non-existent phone line it just beeps twice and ends the call)

Their internet chat person told me they could not help me and to call them.

Their Twitter rep that I dm'd told me on Saturday (the 23rd) that they saw an appointment for 8am-5pm the following day. I sat in front of my door waiting on the 24th all day and they never arrived and stopped replying to my messages.

I have been heavily affected by COVID-19 and had to move due to loss of income, now I have lost a ton of income because I also have lost more work since I was not able to get on the internet to do my job.

These guys will literally not help me at all and of course today they are now using the excuse that "memorial day" is why they ignored me for THREE DAYS after NOT PROVIDING A REASON TO CANCEL MY INSTALLATION and I'm the one who has to get fucked for it??????

Ticket: # 3992255 - Internet Stability Issue

Date: 5/25/2020 5:09:29 PM

City/State/Zip: Dallas, Texas 75235

Company Complaining About: AT&T

Description

I am filing this FCC complaint to hopefully resolve the issue that I have with AT&T internet service. Recently, I have had issues with the stability of my internet connection and would often face "blackout" periods from my internet for hours at a time at random periods. I have spoken with technical support, allowed a technician to come out to my apartment, spoken with a social media specialist, but did not receive any tangible solution to my problem except \$20 off my future bills. I was told to simply call back each time I face an outage and to request a reimbursement for the day my internet is out. As a customer who is strongly reliant on the internet to work during these COVID-19 times, I found it completely unacceptable that a solution for my internet issues could be found by AT&T.

Ticket: # 3992284 - Internet rate increase

Date: 5/25/2020 6:18:11 PM

City/State/Zip: Santa Barbara, California 93105

Company Complaining About: Cox

Description

I have been with Cox communications for many years. Periodically they raised their rates and I reached out to FCC which then prompted Cox consumer team reach out to me, offer not to raise my rate any longer and offered \$59.99 per month. Then over a year ago that raised to \$69.99 and then last month to \$84.99! I reached out to Cox informing them of all of the above including that these days everybody offers discounts due to COVID and they raised my monthly. Asking for your guidance/help in case there is anything you can do to help reduce my monthly fees to what it was. Thank you!

Ticket: # 3992296 - Internet Speed Issues**Date:** 5/25/2020 6:45:52 PM**City/State/Zip:** Mars Hill, North Carolina 28754**Company Complaining About:** Frontier Communications

Description

Our internet quality has declined in recent months. Our speed fluctuates throughout the day in what I believe is a result of throttling. We now pay \$44 a month for up to 6Mb/s and live close to town on a main road yet our speed is as low as 1.5Mb/s throughout the day, typically when attempting to stream video, such as a zoom meeting. I'm a teacher who has to upload lectures to youtube during the pandemic since I cannot host live lectures due to the throttling. My upload speed is as low as .35Mb/s upload throughout the day which prevents me from uploading lectures. I have had to leave the house to access faster internet, putting the safety of my family at risk during the pandemic. The download speed used to allow me to at least video conference but now I cannot even get through a zoom meeting without a drop or a loss of picture quality. In addition, they seem to kick us off line several times a day and I know it's them doing it because once I changed the DNS server away from Frontier's server the problem stopped.

When we call about it, we usually get some excuse like "their system is down" or when we try the chat feature the chats get "mysteriously disconnected." Avoiding us is what they are doing, and I'm sick of it. If I could have another ISP, I would.

Ticket: # 3992457 - Re: [FCC Complaints] Re: My phone disconnected by Verizon

Date: 5/26/2020 12:27:11 AM

City/State/Zip: Brooklyn. Ny, New York 11234

Company Complaining About: Verizon

Description

This is a follow-up to your previous request (b) (6) "My phone disconnected by Ve..."

I know that it is well past 30 days since I received this email, but due to circumstances around the corona virus and my job and other issues re this, I wasn't able to respond until now. I never received a written response from Verizon. I don't know what they wrote to you, but they did nothing to resolve my issue and left me with no phone and no Lifeline service, since it was attached to my landline phone. I have been unable to make or receive any calls since then. I'm a senior citizen, and feel worried about not having a way to contact anyone if something happens to me. I know for a fact that Verizon could have left my copper wiring alone and still provided me with service even if the rest of the building was fiber optics since they dropped me and then gave me back my service to scare me into doing this more than once. I was still able to make and receive calls when they chose to allow it. They had the power to allow me to have my phone without the fiber optics, but instead chose to disconnect me without any notice. Please, if it is at all possible to help me, please contact me again. My cell phone has died and I'm left with no way to make or receive calls. I can't afford regular phone or cell phone prices and need my Lifeline back, so if you are able to help me, I would greatly appreciate it.

Sincerely,

(b) (6)

Subject: [FCC Complaints] Re: My phone disconnected by Verizon

Ticket: # 3992509 - I been labeled wrongly as iam spoofing on my girlfriend

Date: 5/26/2020 5:42:40 AM

City/State/Zip: Los Angeles, California 90020

Description

my girlfriend and me have been together for 8years. we have shared and trusted EACHOTHER with our emails, and have been for EACHOTHER to watch each others backs since day one. we both took a responsibility to care for our loved ones. and we helped EACHOTHER all the time when either needed a hand with our loved ones. Now our accounts have been vulnerable and we always notice changes or locations that we never modified or we were never at a precise location that our maps was supposedly saying we were at. so this caused tension btwn EACHOTHER and doubts. we have always had our families instigate problems btwn us and they always wanted us to break us apart. Now I have no way in communicating with my girlfriend right now and since the epidemic covid 19 and our restraining order that we currently have going. my mom and her aunt kept in touch since the last incident that was communicated verbally by mom to her aunt about supposedly me being out of the house for 2weeks n I was out supposedly cheating etc. when I been home with my mom. I question my mom bout what was supposedly said to my gfs aunt. and my mom said she didnt tell her aunt all that. so when my mom came to confront my gfs aunt about the extra made up story that my mom never said. Her aunt got all joker about it, yell at us thru the phone and referred to us as we were crazy and never call her again with at the end a bully laugh her aunt changed up on us. im 100% sure that my gfs aunt has told my gf a bunch of lies about me and my mom in how we feel about my gf personally. I know her aunt has gone thru my gfs and my personal private files, photos, etc. has literally turned my gf for one day speaking to me again and talking out our differences like we promise to EACHOTHER while our restraining order took place till present time still in progress. therefore, our communication has been either blocked, we no longer cant talk anymore or even pass down a heads up warning bout my gfs aunt and what she instigated btwn my gf and me. I have no reason why I have had to spoofed on my gf if we also have been EACHOTHER best friend and we always told EACHOTHER everything. so I'm clearly trying to file another report on what I believe 90%sure is right in how her aunt took advantage of my moms accent and sickness to get close to my mom to end our relationship like this. if I would be this wrong person od so called spoofer. I would not take the time to report this to FCC. I'm also reporting this and what it's my side of my story bc I need to protect my self and everything I have improved by attending my domestic violence classes every Wednesday. to fix my own issues and be a different person to reunite with my gf again. it's not fair untop of everything I'm going thru with the court case. n trying to change my bad habits I'm still being treated like a puppet and my life is being controlled by someone else unfairly. I really would like to talk to my gf so we can talk things out. and I can prove to her my innocence. if my phone number is reported as a scam or spoofer please speak to me about what I need to clarify to anybody. I sure don't like to waste ppls time and life. I can be honest.

Company Complaining About: Windstream Communications

Description

Consumer is trying to sign up with Windstream Comm. She just moved into an area where Windstream is the provider. She scheduled service to be installed as 2 lines were already at the home she just purchased. Provider told her there was no more space on her road and she would have to wait. Provider told consumer that during Covid-19 everyone picked up higher internet speeds. Provider states they cannot connect her to internet. Consumer wants Windstream to provide her with internet service.

Ticket: # 3992672 - Internet provider acting unscrupulously in a monopoly market

Date: 5/26/2020 9:59:11 AM

City/State/Zip: Georgetown, Texas 78628

Company Complaining About: Sudden Link

Description

My business in is Georgetown Texas. Suddenlink is the only cable provider in the location of my business. There are some wireless providers but they lack the service needed for today's heavy internet band widths.

We have had outages, equipment failures, improper billing, refusal to service failing equipment, failure to return promised calls, and absolute rudeness by customer service agents. The company is using the Covid-19 pandemic as an excuse to decrease services even further while charging premium prices for the same poor services.

I believe this company is taking advantage of a monopoly in our area and it should be investigated. It is not just me, I read blogs from the area that have constant complaints against Suddenlink.

Ticket: # 3992690 - Phone calls, same number, every 15 minutes

Ticket: # 3993456 - Verizon refuses to fix disrupted landline phone service

Date: 5/26/2020 2:28:11 PM

City/State/Zip: Brooklyn, New York 11209

Company Complaining About: Verizon

Description

My phone went off line on 5/23. I am 92 years old and having access to phone is life-or-death situation, I must have it to call emergency if/when needed. Verizon stated that the issue is likely due to switch to fiber from copper. But then Verizon refused to help me because safety concerns for Verizon's employees. These concerns is just a pretense , as I live in apartment building with separate room for Verizon equipment and safe visit can surely be arranged. I believe this to be blatant attempt to force clients to upgrade to fiber using Covid as an excuse to refuse service.

Ticket: # 3993488 - Illegal robocall

Date: 5/26/2020 2:35:48 PM

City/State/Zip: Iowa City, Iowa 52240

Description

Illegal robocall.

A recording that sounded drunk said it was "Michael" and offered fraudulent health insurance. I hit "1". A male scammer came on. I told it "Wow, Michael, your voice has changed?" It asked if I was inquiring about the offer. I told it "I'm informing you that I'm on the Do Not Call list and you MUST NOT call this number." It started on some smart-ass response so I told it "You know what? Get Covid and die." It started making stupid noises so I hung up on it.

Call length: 37 seconds.

Ticket: # 3993557 - early morning recorded phone call

Ticket: # 3993606 - Early Termination Fee

Date: 5/26/2020 3:11:07 PM

City/State/Zip: Rancho Palos Verdes, California 90275

Company Complaining About: Frontier Communications

Description

On July 2019 I signed a two-year contract with Frontier Communication but due to the Pandemic, I lost my job and we have to relocate to another city where the frontier is not available. After contacting them I was told that they won't be able to waive an early termination fee and they would keep on charging me until the contract ends. This is extremely unfair and depleting.

Ticket: # 3993656 - Suddenlink Internet

Date: 5/26/2020 3:26:46 PM

City/State/Zip: Poteau, Oklahoma 74953

Company Complaining About: Sudden Link

Description

I got Suddenlink internet for my 19 year old daughter so she could finish her college online due to the pandemic. Each week, it would go out and I would have to call them. Now it has been out for 9 days straight, periodically going in and out and shutting down completely. I had an appointment with them yesterday Monday the 25th yes they said they were coming out on Memorial Day but nobody had shown. I live in an 180 apt complex. There are several people out with the internet service. I called them last night asked the calmly why they didn't show up or call and when they could be here. Of course the gentleman was not American and I asked him if they could be here today May 26st. He said they could be here the 27th of May between 2-5 pm. The technician that has been out says he knows what the problem is. They are building a medical center behind the complex and the construction crew has cut a wire or huge cable line. That is what the problem is. We need a team and I told him that on the phone. I want the FCC to do an investigation on this company. I've had them 7 years with cable and never had a problem until they got bought out. This is ridiculous as my daughter needs to finish her college work. This is inconvenience everyone involved and we need answers and compensated or im gonna file a law suit. Please help!

Ticket: # 3993919 - Xfinity/Comcast Unreachable

Date: 5/26/2020 4:43:51 PM

City/State/Zip: Miami, Florida 33145

Company Complaining About: Comcast

Description

The consumer wants to know how to file a complaint against Xfinity/Comcast.

The consumer has had internet, cell phone, home phone and cable services with them for years.

The consumer wants to know how to communicate with them without having to go on the internet or hear recordings, because he can never get a live representative.

The consumer is filing this complaint for himself that pays \$210 for their services and can't get a hold of anyone.

The consumer wants to have a live phone call with a supervisor, the consumer is very frustrated that he can never get a hold of anyone regarding specific questions he has.

The consumer understands about COVID-19 but this has always been like this and needs changed.

The resolution to this issue it to have someone reach out to the consumer regarding his specific questions he has, that he will tell the supervisor once he gets a call because for all he know they will want to reply to him via text message or email and he wants a personal call.

Ticket: # 3994010 - Price gouging/increase

Date: 5/26/2020 5:15:09 PM

City/State/Zip: Hacienda Heights, California 91745

Company Complaining About: Spectrum

Description

Hi,

I've been a customer with Spectrum/Time Warner cable for over 5 years and have to fight unnecessary price increases with no new and/or better services attached. In light of the current COVID-19 situation, Spectrum has decided to raise my bill by \$20 dollars for the same level of service (300mbps) that I have been subscribed to for years without warning. To maintain or be at the price (\$65-69/monthly) that I was originally billed at I would have to agree to a lower tier of service (200mbps), to which I agreed as I have no other internet options in area at the moment.

Ticket: # 3994020 - RCN

Date: 5/26/2020 5:22:30 PM

City/State/Zip: Forest Hills, New York 11375-3625

Company Complaining About: Rcn

Description

Internet , Phone and TV Service was disconnected (May 26, 2020) due a 2 month past due for April 2020 and May 2020. I was charged for \$15 late for April and \$15 for May. Also, I was told that a restoration fee of \$40 restoration was assessed today . I immediately paid the entire amount to reinstate the service. A \$6 is being charge to pay via the phone. I am attaching a circular indicating or informing us that RCN cannot DEMAND payment nor DISCONNECT service during the Covid crisis, especially I am from NYC and had circular from our building advising that RCN will not disconnect the service. It was a very cold conversation with a heartless rep who took the call. I myself was sick during this crisis and had close family that even passed from Covid. That was a clear violation of the Covid guidelines from the NY Governor's office.

Ticket: # 3994121 - Cox Communications Failure to Uphold FCC's Keep Americans Connected Pledge

Date: 5/26/2020 6:21:10 PM

City/State/Zip: San Clemente, California 92672

Company Complaining About: Cox

Description

For the second time during this COVID-19 pandemic, Cox Communications has disconnected my Internet service after pledging not to disconnect any customer's Internet service in accordance with the FCC's Keep Americans Connected Pledge. The first time they disconnected my service, they claimed it was because some of my outstanding balance was from before they signed the pledge. Your intervention changed their mind, and I thank you.

Then, out of the blue, they disconnected my service again yesterday, saying that the original 60-day Pledge was up, even after Cox agreed to the pledge continuation through June 30th.

Now they're refusing to reconnect my service unless I schedule payments for my outstanding balance. I cannot schedule payments to be pulled from my bank account that has no money. This is called writing a bad check, which is illegal, and Cox knows this.

I've told Cox that I will settle my account once I start working again, but my word and the FCC's pledge mean nothing to them... only writing a bad check will get my Internet service reconnected according to Cox. I just wonder how many other COVID-19-affected customers are not being protected because they do not know where to turn.

Ticket: # 3994219 - Billing Issues/Withdrawal of Number

Date: 5/26/2020 7:24:02 PM

City/State/Zip: Mendham, New Jersey 07945

Company Complaining About: Verizon Wireless

Description

Verizon re-assigned my mobile number of over 17 years without any notice. For the past 15 of those years, I have lived outside the US but have maintained the number. The bills are paid from my US Bank Account - to which the bills are sent. I paid the last bill on April 10th. Verizon sent a bill for May for \$0 in May - due May 12. I do not to roam the phone when I am outside the US and have not used it since January nor travelled back to the US because I am locked down in Africa due to COVID. I thought nothing of a zero bill and thought perhaps I had some credit. I called Verizon on May 14th because I had a computer security attack and my accounts had been hacked, only to be advised that the April bill was a terminal bill, my account had been closed in March and my number has been reassigned to a government account. Numerous calls to Verizon have yielded no more information. Calls to my old number go to a generic voice mail with no response. Verizon gave no notice that my line was being terminated and to date still sent me another \$0 on June 12. Yet, I no longer have access to my number, cannot log into my online account, and cannot get any info about when and why my line was withdrawn with no notice when I made payments owed in full.

Ticket: # 3994266 - Verizon Never sent me a box for my trade in

Date: 5/26/2020 7:57:07 PM

City/State/Zip: San Jose, California 95120

Company Complaining About: Verizon Wireless

Description

I bought a s20+ a month ago and Im still waiting for verizon to send me a box for my trade in phone. They said they would send one when I first bought it but never did so I called them 2 weeks later and they told me they "forgot" about it but that " a box was on the way"

Its been close to another 2 weeks and still nothing Ive been on hold for 40 minutes trying to reach someone so I can get send my trade in to get my 400\$ credit/promotion that they advertised and convinced me to buy the new phone with.

Verizon please send a box to (b) (6)

Im talking to DK a supervisor right now and now he says they cant mail me a box. They want me to go to a post office now and because of covid I dont want to leave my house. They out me on hold for 40 minutes just to tell me they never sent me anything at all and they cant send out a box!

Ticket: # 3994270 - Increase in rate due to a service

Date: 5/26/2020 7:59:21 PM

City/State/Zip: Shelton, Washington 98584

Company Complaining About: Centurylink

Description

Good Afternoon,

My son and I were both required to work from home due to COVID19. We are both considered essential workers because we work for the Department of Social & Health Services in Washington State. Since my Son works in a call center we were told he would need a landline because they were not sure if his computer could be configured to take calls. We added the phone and I asked Centurylink numerous times if there would be any charges to my account or if there would be any fees if I cancelled the landline. I was told no. Today I called to cancel and was told y internet service bill for each internet account would increase from \$40 per month to \$45 per month. They said it was because I changed my services. NOT ONCE WAS I TOLD THIS WHILE ADDING A LANDLINE.

Ticket: # 3994313 - Insurance and credit

Date: 5/26/2020 8:39:45 PM

City/State/Zip: Chicago, Illinois 60615

Description

I have been a cricket customer since 2010. I ordered a new phone on may 21st 2020. I paid a \$25 upgrade fee. It was mentioned that I can have insurance added on my phone if it was under 7 days. I asked for insurance but somehow that part did not go through my order. My phone arrive on May 23rd 2020. I thought I could add it on is customer service. I called on May 26 the 2020 and the customer service rep was rude. She keep telling me to go to a store and get my insurance added by non essential businesses are closed on Illinois because of the . Covid19 virus. I also had to wait 3 days until my new phone worked even through I added my password. I want a credit for the lost time and insurance added to my phone. I played by the rules and was mistreated by Cricket wireless

Ticket: # 3994330 - Data Cap Overage

Date: 5/26/2020 8:44:08 PM

City/State/Zip: Lufkin, Texas 75904

Company Complaining About: Sudden Link

Description

We were charged an additional \$60 for a data cap overage. With Covid, we are working from home and have no other options but to use our internet. We were never informed of a data cap charge. It is absurd that they can charge this when people are forced to work from home.

Ticket: # 3994387 - Cable TV disconnected during pandemic because cable bill was a day late

Date: 5/26/2020 9:43:38 PM

City/State/Zip: Perkasie, Pennsylvania 18944

Company Complaining About: Comcast

Description

My tv were I can get news and reports about the current pandemic was disconnected by Comcast Cable because my bill which is scheduled to be paid on the 25 of the month was paid one day late because the banks are not open the 25th of May which is Memorial Day. Comcast has an automated system that disconnects services if your bill is past due. I called and Comcast who said it will that 24 to 38hrs to resolve issue meanwhile I can't get any emergency information from the TV or hear about any news

Ticket: # 3994397 - Phone Billing on a closed account

Date: 5/26/2020 9:57:07 PM

City/State/Zip: Herald, California 95638

Company Complaining About: AT&T

Description

I had to close my business due to COVID19 and I had to close my Business phone TRACFONE. I spent over an hour on March 27, 2020 with ATT to close out my Business account. I anticipated the last payment on the account and made sure that the Autopay on my bank account was able to pay the FINAL bill that I incurred. After the date of payout....I closed my Business Bank Accounts and my personal bank account. After all NO WORK...NO MONEY.

On or about April 14, 2020 my husband enrolled the two of us in to the TRACfone service.

Today 05 26, 2020 I received a bill for service that I do not owe. I spent another egregious amount of time getting passed around between several useless phone personnel who could not give me the help I needed to end this fraud.

I believe that these corporations are preying on those of us who are in a state of shock and disarray from the effects of the Pandemic on our lives. I expect ATT to withdraw this billing and to STOP the pursuit of the billing practice. I am asking an investigation into this sloppy handling of a terrible situation. I and my husband enjoy a great credit history and I fear that the ATT error will have an unnecessary and detrimental effect our credit.

Thank you

[Ticket: # 3994424 - Phone service terminated during coronavirus pandemic](#)

Date: 5/26/2020 11:05:21 PM

City/State/Zip: Mountain House, California 95391

Company Complaining About: AT&T

Description

Notified AT&T of economic hardship related to COVID-19 on April 7, 2020. However, my 4 lines of service were terminated. One line was terminated on 05/09/20. I called and it was reinstated on 05/20/20 only to have all four of my lines terminated again the next day, 05/21/20. Under "Keep Americans Connected", AT&T should not have done this. I am without any phone service.

Ticket: # 3994455 - Missouri

Date: 5/27/2020 12:28:09 AM

Company Complaining About: Cable America

Description

well for the 3rd time in 2 weeks our service is out. They make excuses. There is no 24 hour tech support. I work from home and this is going to cost me my job. One day was several hours. Another time it was at night. Then it was about 2 hours now its night and its out again. This company is the only dang thing we have to choose from in my neighborhood that is high speed. Cable america is literally taking my money what little if it i have thanks to covid 19

Ticket: # 3994464 - Business telephone number portability

Date: 5/27/2020 12:53:26 AM

City/State/Zip: Carolina Forset Myrtle Beach, South Carolina 29579

Company Complaining About: Horry Telephone Cooperative

Description

I own a business in Myrtle Beach SC. I have telephone service with H.T.C. Horry Telephone Cooperative. I need a more flexible telephone system and HTC charges 3 times the amount of virtual VoIP PBX systems, however they will not permit me to port my business phone number which I have had for almost 9 years since my business opened. Many of my customers know the number 8 [REDACTED] -

(b) (6) [REDACTED]

It is my understanding that I can take my phone number anyplace and to any company I want. Essentially, if they won't port my number they they have a monopoly over it. Holding my number hostage they are forcing me to stay with a lessor quality much more expensive service with them. With Covid 19 the one thing I need to do is save money, my business is a Restaurant, they other is to become more efficient. How can they legally hold my phone number and what can the FCC do about it. I need to have this rectified. I being held hostage and forced to pay higher rates for inferior service because they won't move my number to OOMA the company I want to go to. Not only have they refused to port the number to ooma by also to Ring Central, Vontage, On-Sip, 8X8 essentially they won't give the number to anyone.

Ticket: # 3994478 - Cox Not Helping During Coronavirus**Date:** 5/27/2020 2:37:41 AM**City/State/Zip:** Mesa, Arizona 85208**Company Complaining About:** Cox

Description

I am currently paying for 150mbps speeds but speed tests come in at 30-60mbps on average. I've tried two modems and bought a brand new router and it's the same issue. Cox is clearly overloaded on their infrastructure, but instead of admitting this is the case and giving aid to their customer base, they choose to blame "software" and say it's a "third party problem." All I wanted was a credit so that my bill reflected the rate that correlated to the speeds I am getting. But they said the "system" is only able to generate such credits. I know this is untrue and they can credit whatever amount they want. But instead of trying to help customers, Cox instead is aiming to keep its pockets lined through extortion of this pandemic. It's a shame. Attached is a screenshot of their own website's speed test which shows I am not getting 150mbps. This has been consistent over the past month.

Ticket: # 3994485 - unsolicited calls

Ticket: # 3994542 - Complaint against Purple**Date:** 5/27/2020 8:32:42 AM**Company Complaining About:** Purple Communications

Description

Good evening,

My name is (b) (6). I am the Power of Attorney for my elderly, deaf parents, (b) (6). They rely on VRS services for communication. My parents have been with Sorenson Video Relay for about fifteen years. They have been very satisfied with Sorenson and the services provided to them.

Around April 3rd, I tried to call the phone number that I have used for the past 10+ years and it repeatedly would not work. I sent my mom on her cell phone and asked her if she knew her VP was not working. She told me she was having problems and she didn't know what was going on... She told me that they had met a deaf man at church who worked for Purple. The man said he could give my dad an iPad and a Laptop. My parents allowed him to come over and he made some adjustments to their existing VP. Once my mom told me what had happened, I asked her to call me from their VP. When the call came in, it was a completely different number than her original 9 (b) (6) number. I told my mom I didn't recognize the new phone number which was (b) (6). My mom and dad were both completely confused what was happening. They did not know the man from Purple, Rafael Piloto(?) was going to make all these changes. Within the next few days, I spoke to Rafael. He needed my help trying to figure out the wifi passcode. None of these changes were sitting well with me because I could tell my parents, who are elderly, had no idea what was really happening. They wanted their original phone number because all of their deaf friends were trying to reach them at their old number. I asked my parents if they wanted to keep their old phone number that was setup years ago and Sorenson, or if they preferred to switch to Purple with a new phone number. They both emphatically said they wanted to keep Sorenson. My mom even texted me and said, "Sorenson is my kiss-fist" which in English translates to an emphatic "I LOVE Sorenson" or "Sorenson is my FAVORITE!" (very emphatically).

At that point, I called Sorenson Customer Service through the VP with my parents and explained what was taking place. They were able to get the original phone number to work again and get things back online for my parents. I sent a text to Rafael to tell him my parents did not want the Purple equipment and that they wanted to only use Sorenson. He repeatedly asked me to have them sign a form to "confirm the installation." I told my parents not to sign it. The Purple representative sent a label and my parents sent the unused equipment (laptop and iPad) back.

After more conversations with my parents regarding this issue, it was brought to my attention that not only did this representative change my parents phone number without their permission or without them fully understanding what was taking place, but he also changed my dad's email password and did not tell him the new password. My dad is not technologically savvy so he was unable to access his email for about three to four weeks. Also, my mom made a comment that didn't sit well with me. She said, "He told Dad to keep it a secret from Sorenson." I don't understand... It just sounds very sketchy to me.

The Purple representative was deaf and could sign using ASL, as my parents do the same. There was no communication barrier. They were never told they were going to have a different phone number. They did not agree to that. I feel that they were taken advantage of and I think this should be brought to the FCC's attention. What the gentleman from Purple did was create a big mess for my parents during a time (COVID-19 Pandemic) when my parents really needed full access to communication. They could not contact their friends or family for about a week, neither through their VP and through my dad's email for about three weeks. Had they become ill with the Coronavirus and not been able to access their family or friends, this would have been a major disaster for our family. I feel this "Switch" was completely unprofessional and unethical which is the reason I am making this complaint against Purple. My parents are elderly and challenged when it comes to technology, but they never allowed Purple to be their sole VRS provider.

Thank you for your help regarding this issue. Please let me know if there is any other information you need from my parents or myself in order for this complaint to be filed.

Date: 5/27/2020 10:57:32 AM

City/State/Zip: Lake Forest, California 92630

Company Complaining About: AT&T

Description

Please see AT&T response and my response. It was stated that I just wanted a new phone, the phone sent to me does not work correctly. I was never informed that a new contract was done, never told about the increased phone bill and AT& T is saying so what. After Bait & Switch AT&T solution for me to pay more money

Ticket: # 3994813 - Consistent Internet latency/speed/connectivity Issues**Date:** 5/27/2020 11:07:58 AM**City/State/Zip:** Milton, Florida 32583**Company Complaining About:** Mediacom

Description

I have had intermittent disconnections from service on a daily basis since starting service with MediaCom in Jan 2019, some days i get disconnected 1-3 times a day others its every 5 minutes lately i can't even stream a show from netflix without it pausing to buffer every few minutes on a supposed 1gbps line. I have now had 4 technicians out for the same reason and I am still experiencing the same issue. I have asked what can be done to refund a month of service and was told that it was not a consistent issue. However every single time i have called the TechSupport it has been for the exact same issue. 4 Techs later it is not fixed, one of them was during Covid-19 so i would have hoped not to need another during this time however that is not the case. I feel as if contacting the fcc is my only viable option to get the root cause of the issue fixed. I have included pictures of six consecutive internet speed tests while being the only connected device to the modem/router, these tests show the impact this has on my internet speed. Keep in mind that i pay for 1 gbps internet and im having issues seeing 15 mbps of download speed with constant drops of speed during download/streaming. Even when trying to upload the 8mb file for the pictures to this complaint form the upload failed due to intermittent disconnections. I hope not move to another company until a proper effort to fix the issue has been displayed from MediaCom and some form of compensation/explanation as to why compensation is not available as i have not received what i have purchased a single month. I was informed that they don't have enough of a record even with 4 techs assigned to the same issue, so from this point on i will be calling them every day that i experience any issue until it is fixed.

Ticket: # 3994814 - robocalls from spoofed numbers

Date: 5/27/2020 11:08:13 AM

City/State/Zip: Canton, Mississippi 39046

Description

Since the beginning of 2020, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are marketing calls. All of the numbers are presumably spoofed, and presumably they are all robocalls. The frequency of the calls has varied. For most of January and early February, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped.

Many of the spoofed numbers were registered for Greenville, MS. However, I have also received calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Crystal Springs and Winona. For a brief period, calls came in from out of state as well. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. The call I am reporting in this complaint was identified as coming from Holly Springs, MS.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 3994971 - Coronavirus

Date: 5/27/2020 12:01:05 PM

City/State/Zip: Bridgeville, Pennsylvania 15017

Description

Most media outlets are slanting their newscasts, promoting false information and fear about the coronavirus. The CDC has recently added new findings to their website and they are in plain view there, that the death toll from the coronavirus is .26 percent in the US. No news stations are reporting that information. This is happening everywhere. If there is anything you can do, that might save some lives, as the fearmongering, face masks, social distancing, and lack of proper healthcare due to fear, not coronavirus, is taking lives and seriously lowering the quality of life for all of us. Maybe you could broadcast the new CDC findings? Thank you. (b) (6), US Citizen

Ticket: # 3994999 - Keep America Connected Pledge Broken

Date: 5/27/2020 12:08:40 PM

City/State/Zip: South Winsor, Connecticut 06074

Company Complaining About: Cox

Description

Consumer states her internet service was suspended during the Covid-19 pandemic

Consumer said cox signed the Keep America Connected pledge and they still shut off her internet on 5/26/2020

Consumer's understanding was they were not to shut off internet until after June 30

Consumer needs the internet for the children to do their schoolwork

Consumer wants her service turned back on ASAP and them to work with getting her back balance caught up, via a reasonable payment arrangement

CTR402

Ticket: # 3995144 - Comcast Xfinity

Date: 5/27/2020 12:37:47 PM

City/State/Zip: Chicago, Illinois 60647

Company Complaining About: Comcast

Description

I own a small business that provides pediatric therapy. When COVID hit, I closed down the center and attempted to put all services on hold. When I contacted Comcast, I was told that they had a COVID policy in place and would work with me on it; I was told that they were working on a policy that would reduce the monthly bill for companies like mine. At that point, end March, the representative said she would apply a credit for now that would reflect this policy. I unplugged the modem since the office was closed. I didn't check my invoice until a month later and it reflected the March credit bringing the prior invoice down to \$85 instead of \$25 month and then reflected current month charges of \$178.40 for May. This time I tried to email Comcast but was told by Javier (see attached email) that no written communications were allowed to resolve this issue. I called again on May 5th and was told that it would be fixed and going forward the monthly fee would be \$29.95. Attached is a copy of the email confirming that dated May 6. I then received another bill recently for \$443.54. I called again and I spoke to a rep "Samantha ref# " who told me that I could not have spoken to anyone prior to May 22nd as there was no record on file and the lower monthly rate program did not start until May 22; after 5 minutes of arguing with her, I found the email confirmation. She argued a bit more and then, after putting me on hold, offered to reduce some of the rate and gave me a credit of \$120 that will take place on the next invoice.

The problem is that Comcast offered but did not honor the agreement and it has now taken me 2 hours to simply get a minimum credit. My balance from mid-March when I first contacted Comcast should have been \$29.95 per month (until June 30,2020.) I appreciate the credit offered by Samantha but based on my initial correspondence with Comcast and the fact that it's been turned off (or should have been) for almost all services since March 15, then the charges should reflect that as offered. I have paid the new balance of \$201.53 so that my account is current but would like a credit on my account that accurately reflects the \$29.95 per month that was offered to me initially.

Ticket: # 3995148 - Xfinity Services

Date: 5/27/2020 12:38:38 PM

City/State/Zip: Baltimore, Maryland 21205

Company Complaining About: Comcast

Description

The consumer states she was on the phone with another agent but the call ended since she wouldn't get a response from the agent.

The consumer states that she has bundled service with Xfinity.

The consumer states that she only has bundled service with them because whenever you call to set up service with them they force the consumers to get bundled because it's supposedly cheaper, even though the consumer only needed internet.

The consumer states that on May 5th she called Xfinity and told them she lost her job, therefore she must do something to make sure she can pay all of her bills during COVID-19..

The consumer states she told them she wanted to get rid of TV and Phone Services since she only needs Internet services right now.

The consumer states that on May 5th during that call she was told that they would reduce her price to \$14.95 and she would receive 200 mgbps of Internet service.

The consumer agreed since she was behind on many other bills including her home, car, and other needs.

The consumer received a text message on May 11th saying that her charge is \$14.95 for 200 mgbps of Internet and \$24.95 for limited basic TV.

The consumer clearly was told it would be \$14.95 for internet and she didn't want TV service.

The consumer needs this cleared up.

The consumer states the call is recorded and she has the text message showing what they now want to charge her.

The consumer needs the internet for her security cameras since she lives in Baltimore the city with the highest homicide cases this year.

The consumer needs her bill adjusted to \$14.95 immediately.

Ticket: # 3995258 - Optimum Altice KAC question

Date: 5/27/2020 1:01:26 PM

City/State/Zip: Garnerville, New York 10923

Company Complaining About: Optimum

Description

I am confused about the “pledge” they signed. They have shut my services off and refuse to turn back on until payment is made. I thought they signed a pledge agreeing to keep residential on regardless of ability to pay during pandemic? They told me it's at their discretion and that I don't qualify? I only owe for services during pandemic????

Ticket: # 3995277 - Closed Captioning and Inflated Billing Charges**Date:** 5/27/2020 1:07:14 PM**City/State/Zip:** New York, New York 10009**Company Complaining About:** Spectrum Charter Cable

Description

I am a senior citizen and I am hearing impaired. I want to file a complaint against Spectrum cable for inflated billing charges and closed captioning problems that they will not address. Also the lifeline program that they would not send information to me to apply although I am eligible for the program. I have repeatedly tried to address these issues with Spectrum to no avail they have increased my bill by \$65 took away programming and have blocked my internet my Wi-Fi have interrupted my phone service and I pay them for my phone service and I need to use my home phone because I am hearing impaired and have a special phone for my conversations. They have repeatedly interrupted my Surface the whole month of May also harassing me for payments although they say due to covid-19 they will not interrupt services for 60 days. My husband suffers from dementia and has been scared to death by these endless phone calls causing me to make \$145 payments and then an additional \$181.77 payment. All bills are inflated monthly starting at \$2 and going up when you questioned them why they cannot give you an answer but only threatened Interruption to services. I have proof that they did this intentionally they also jeopardize my health and my husband's Health by sending a technician to our home which was not necessary, the technician discovered on his computer that they had intentionally blocked my services from May 1st to May 3rd the interruptions continue throughout May. I would like something done with this cable company so that this does not happen to any other senior citizen or customer of theirs. They need to have their license taken away. I will not deal with them again. They are fraudulent scamming and have no respect for their customers.

Ticket: # 3995294 - Getting Charge For Service That Is Not Available

Date: 5/27/2020 1:12:56 PM

City/State/Zip: Bayamon, Puerto Rico 00956

Company Complaining About: Claro

Description

The provider Claro, does not have internet service

The consumer mention since January 8th, 2020 she has not had the service due to the earthquake.

The consumer said that she is getting charge for a service she does not have.

The consumer stated that she is getting charge the amount of \$53.00.

The consumer has not been able to speak to someone about the issue. She did say that she has tried calling the carrier about the issue but its been an issue due to the pandemic that is happening.

Resolution

The consumer said that she can return the equipment as she was told by a representative from Claro and she would not have to pay. Now the consumer said that she would like for the carrier to remove the plenty against her because she did not have the service.

Date: 5/27/2020 4:07:08 PM

City/State/Zip: Charleston, West Virginia 25314

Company Complaining About: Sudden Link

Description

for years we have received poor service but Suddenlink being the only company we can work with, makes it hard for us to do anything but complain. My main issue started at the beginning of the year and severely worsened after covid due to the fact I wasn't comfortable with someone entering my home. I did however contact Suddenlink MANY time during that month and they informed me it was an issue on their BUT they'd still need to send a tech out, scheduled a tech and the tech did not show up for THREE appointments and when one did, I was told my lines were good and my router needed to be upgraded. (sounded like bs to me and I even told him it made no sense) anyways, I proceeded to purchase a brand new router, problem was not resolved. I called suddenlink again and scheduled yet ANOTHER tech. This one came and said the first tech was full of it and it was not my router, I suggested to him that it is probably the tap near my house because that was the issue last time that suddenlink REFUSES to fix. He tested my lines again and told me the only place it could be an issue is the tap 100%, he swapped my router out, told me he did a work order for the tap so that someone could come out and it has almost been 2 months later, My internet is STILL horrible, no one has come to fix the tap and I've had to pay my bill in full EACH MONTH when I have me and my fiance who work from home and now have to struggle with internet, a deaf daughter who relies on internet to speak to us when we are not around. Suddenlink has to be the WORST company I have every dealt with in my entire life. All I get from them is excuses and false promises. As of 5/27/20 my internet is just as bad as it was the beginning of the year. This is a constant issue year round but it usually last a month or so, not 5.

Ticket: # 3995994 - Comcast business practices

Date: 5/27/2020 4:34:26 PM

City/State/Zip: Knoxville, Tennessee 37931

Company Complaining About: Comcast

Description

I have been a very long-time customer of Comcast/Xfinity. Over the years of service, I have paid \$43,000. I have recently downgraded my services from full cable channel lineup (@\$360/mo) to internet-only service. I increased my router from 300 Mbps to 600 Mbps. Since March, I have only been receiving 25 Mbps or less in speed. My TVs freeze and my computers drop the connection literally every 10 minutes. I have called and complained multiple times all of which I have had to sit on hold 2 or more hours each and every time. All call centers apparently are not in the states making it difficult to understand and hear the reps. Although they try, nothing ever gets resolved. Last week I was sent their newest router, the xFi 7 and was "assured" I would not have the same issues. But less than a week later, I am having the same if not worse issues. I am totally disgusted and over the issues I am having with Comcast. They scheduled a local tech to call - a week from now - because they are not sending out their techs due to COVID. I always work from home so working at home is nothing new to me but I know when there is a line problem. While they say the speeds on their end are fine it is clearly not. I asked that a supervisor call me and they once again assured me it would be one hour and they would call. Of course, that did not happen. I stated that if I did not receive a call within an hour, I would be filing an FCC and/or FTC complaint.

I would like my speed issues fixed with a reputable tech and I would like full credit for the last 3 months of problems as well as a full credit until the issue is done. I am paying for a 600mbps speed and only getting 25mbps speeds. It is egregious and it is unacceptable.

[Ticket: # 3996042 - Century Link increasing monthly svc. to \\$49.95 from \\$29.95 for dial up svc.!](#)

Internet svc. works worse during this pandemic. Hotmail returns fail with the note to try back later. Memorial Day at 1:30 I could not get svc.! It's just like dial up! Now they want almost twice as much! This is wrong!

Ticket: # 3996092 - Poor Cell phone service

Date: 5/27/2020 5:08:25 PM

City/State/Zip: King Salmon, Alaska 99613

Company Complaining About: Gci

Description

Our cell phone service has been nearly unusable for about two weeks. Callers trying to reach me either cannot get thru at all, or are sent directly to my voicemail. It doesn't even show as a missed call, just a random voicemail shows up in my inbox. I can rarely call out and usually after dialing it is silent for a few minutes and then disconnected. When I can get through the calls are dropped frequently. Texts are also not able to be sent. I don't know if I am missing incoming texts. I have sent emails to GCI and I have phoned them. They say it is a problem with a tower, but there are several towers in the area. I should add that I am a municipal employee and am on the "front line" of the COVID19 response and this is becoming a health problem for the 1600 people I help to provide services to.

Ticket: # 3996111 - Comcast

Date: 5/27/2020 5:13:26 PM

City/State/Zip: Miami, Florida 33128

Company Complaining About: Comcast

Description

I made a payment arrangement on 05/26 to pay my bill on 06/05. I spoke with a supervisor to get this done. I asked if there would be interruptions or if my plan would be changed to their stupid Covid plan. I was told "NO". No interruptions nor changes of any kinds. I asked several time to be certain and was again told there will no changes nor interruptions.

First thing this morning (05/27), the services were interrupted. I called and spoke with numerous people and supervisors whom escalated the call. They all say the notes that there was a payment arrangement and no services would be interrupted. The last person I spoke with said that they the notes now said there would be one. COMCAST IS LYING AND NOT STANDING BEHIND THE PAYMENT ARRANGEMENT THEY MADE. IT SHOULD NOT TAKE ALL DAY TO RESOLVE THIS MATTER AND THEN LIE TO A CUSTOMER IN ORDER TO SIMPLY GET OUT OF THE ARRANGEMENT.

Comcast, as everyone knows, is a monopoly that does not allow for other CABLE companies to compete in their areas. This is why they LIE to get out of arrangements and no one does anything about it.

My services need to be TURNED ON IMMEDIATELY!!!! I doubt they'll pay nor do anything about the inconvenience and aggravation that they have caused us all today.

Ticket: # 3996189 - Billing dispute not adjusted

Date: 5/27/2020 5:45:25 PM

City/State/Zip: Florham Park, New Jersey 07932

Company Complaining About: Optimum

Description

I have bundled service Optimum in NJ. I have returned equipment before the Covid 19 crises began on March 13th and I've still been getting billed for this. I've called 4 times about this issue with no resolution. I've been overbilled on every bill for the last 3 months and there has been no fixing it. I've been told a supervisor will call me back to help resolve the issue twice and I've never received a call back.

I've let each representative know that I'm not willing to pay this bill until the issue is rectified and I've been told OK by each one. However, now I'm being threatened with my service being disconnected when all I want is to not overpay for my service.

Ticket: # 3996222 - poor rural internet

Date: 5/27/2020 6:00:11 PM

City/State/Zip: Geneseo, Illinois 61254

Company Complaining About: Geneseo Communications, Geneseo Il

Description

We have to call often - such as every 7 - 15 days to get our internet up and running again. For example, just recently we had no internet from May 22 - 25 (Memorial Day weekend). We were out of service again for 2 hours on the 26. We received a notice that we would have no internet tonight, May 27 from 7 p.m. on - hopefully resolved by 7 a.m. This is not an abnormal situation. We have been dealing with this for years. Not only do we lose internet, we can not download email at times because it is so slow. We can not watch videos - which may seem not important to some. But as a school teacher - I needed those videos during COVID to continue school work. My husband works for a VERY prominent company and missed several meetings due to poor service. I am aware, and have been for several years that Geneseo Communications gets a substantial amount of grant money to improve rural internet services. I have done some research in the area, they have not completed this task in any surrounding areas. I would like to know where these millions of dollars are going? They are not servicing their customers as they had promised to do. I have filed complaints with the company as many of others have done. These complaints fall on deaf ears.

Ticket: # 3996232 - Internet Cutoff No Notice & Still being billed and paying

Date: 5/27/2020 6:03:53 PM

City/State/Zip: Carrollton, Texas 75006

Company Complaining About: Frontier Communications

Description

I am 80-years old and work full time to make a living. I signed a 2-year contract with Frontier ending around July 2020. Around March 2020 they cutoff my Internet without my knowledge even though I was being billed and paying. When contacting Frontier they stated I had to go online and agree to a new terms of service or they could not cut my Internet service back on. The fact I had no Internet access since they cut it off was not their problem, they said I could find an Internet Café or go somewhere to use the Internet, even though Dallas County was under mandatory shelter in place and everywhere was closed. They stated nothing else could be done until I did that even with the pandemic going on. They are still billing me. This is unreasonable and they could not even explain how I was notified my contract was changing, which I thought that was a reason for a contract so terms would not change. My daughter is filling this out for me over the phone.

Description

Throughout this pandemic we have been inside and the commercials on the television are louder than the programs once again. PLEASE MAKE THEM STOP THIS AT ONCE.

Ticket: # 3996285 - Unsolicited Junk Faxes to Business**Date:** 5/27/2020 6:24:26 PM**City/State/Zip:** Indianapolis, Indiana 46236

Description

I have a small private patient practice. I must maintain a fax number for health insurance companies who require HIPAA compliant responses. For several months, I have been receiving COVID-19 money schemes and similar 'deceased relative unclaimed asset' faxes routinely, having never provided access to my number. My service is able to block the faxes after receipt. However, once blocked, they senders utilize different numbers to get through. My fax service can not block without a full number, so the process continues.

Ticket: # 3996357 - Spectrum charging for technical assistance**Date:** 5/27/2020 7:09:59 PM**City/State/Zip:** Spartanburg, South Carolina 29306**Company Complaining About:** Spectrum

Description

I contacted Spectrum internet service initially because my router would not connect to my work VPN. I was advised that a new router would be sent. Shortly after, during a thunderstorm, my internet completely went out. I called again for technical assistance. After troubleshooting, the rep advised me that he was going to send out a technician. The tech came the very next day. He changed my router, but never said what the issue was. Now I'm receiving a bill of \$49.99 for a service call. Anytime I call Spectrum for a billing dispute, I receive a lot of pushback as to why the charge is valid. This time was no different. I asked to speak with a manager. I was then transferred to an escalations rep., then a manager at my request again. A lady named Joday answered the call and again began making excuses as to why I'm charged for technical service. She stated that the technician noted that I damaged my router after moving it. That was a lie. She stated that she would not remove the full charge. I could either settle for a \$20 courtesy credit or nothing at all. I asked how I file a formal dispute. She stated that since I wanted to formally dispute the charge, she was not able to even apply the "courtesy credit". I told her that I would not pay the charge and I wanted to know my dispute options. She stated she would submit a dispute for me, however a manager such as herself would look at it and see that the charge is valid...based on the technician's notes and that they rely on his integrity to back it up. I have a serious issue with the technician's integrity, because I had already called and submitted a complaint about him showing up without any protective gear during a pandemic. It's ridiculous that my internet went out, possibly storm related, and that Spectrum can charge me for a service call and claim that I damaged the equipment without any proof. All lights were working on the router, it just wouldn't connect. Obviously there was an equipment malfunction due to no fault of my own. Joday advised that she would submit the dispute in my behalf but assured me that the outcome would not be favorable for me. She says a manager would review it and then the charge would stick based solely on the technician's notes. She placed me on hold, then another manager named "Sarah" came on the line and made the situation worse. She advised me that no dispute could be filed. I would not receive the credit and that my complaint would not be escalated any further. The entire conversation was frustrating to say the least. I felt like I was not being heard, understood and that my business doesn't mean anything to them. I missed a day of work UNPAID due to the internet being out. I should not have to turn around and eat a \$50 charge for someone to come and fix my service...when no one can truly diagnose why the equipment was malfunctioning. I want this charge taken off my bill. Spectrum should be held accountable for service issues and not use it as an excuse to steal money from customers. They never want to listen to reason. They are a monopoly and for that reason, they feel like they can do whatever to their customers without repercussion.

Ticket: # 3996376 - Continued Delays over 45 days no help

Date: 5/27/2020 7:19:44 PM

City/State/Zip: Cameron, North Carolina 28326

Company Complaining About: Centurylink

Description

CenturyLink repeatedly has lied about when my service would be installed. First time I was guaranteed service in April, order delayed due to a part with an estimated completion date in June. Second time my order was delayed 3 times before I was told a third party company needed to install the cabling before CenturyLink would install service, but was told 3 times that service was going to be completed on that day or the following day I called. Latest contact with CenturyLink gives me no estimation of completion that is on the third party company and the eta is sometime in June (DURING COVID19 and working from home with little children needing to do work and entertainment).

Ticket: # 3996518 - Spectrum Internet

Date: 5/27/2020 9:14:20 PM

City/State/Zip: Fallbrook, California 92028

Company Complaining About: Spectrum

Description

On 5/12/20 I removed all TV services, and retained internet service in order to reduce my monthly expenses. I was told my new bill would be \$74.99 for internet only. Due to limited income during this crisis of COVID19 i had to shut down the internet as well so I called Spectrum on 5/22 to canceled the Internet and spoke to Jay who gave me ord#(b) (6). He never provided any type of disclosure or explanation of charges. My final bill included the full cost of the internet service \$74.99 for the next bill cycle from 5/19 - 6/19/20. On 5/27 5:05pm I called to get an explanation of the charge since I only used the internet a few days; I spoke to Tiacoia who told me it is a Spectrum policy is not to prorate the service. This was absurd; all utilities bill in advance and prorate the service. I requested to talk to a supervisor and was connected to a Lead named Anthony. He echoed the policy and refused to credit any portion of the charge. I told him I would at least request a 50% reduction; he refused and referred me to a supervisor who also refused.

This was the first time I was verbally informed of this; the rep I spoke to on 5/22 did NOT provide any disclosure of the final charges and/nor clarified that I would be billed for the entire month and would not be prorated according to the policy. Had this been explained to me, I would have made a decision to wait and use the service since I had already been billed in advance. Spectrum hides behind a policy that apparently was established a year ago. They may note this on the bill in very small letters, however, it does not exclude them to take responsibility for the incompetence of their employees who are required by law to provide disclosures of services added or removed. They are also NOT sensitive in any way of helping their customers with the current economic crisis. I understand all utilities bill in advance, however, they prorate their service based upon the dates the service is actually used and credit their customers for unused services. Why is Spectrum allowed to do this? it is an abuse of their company policy and they do not take responsibility for any misinformation or disclosures that should be provided to their clients. I urge you to have Spectrum comply with the same guidelines as all other utilities if they want to compete in the same arena. They should be required to comply with the same rules as all other utilities equally. It is a disservice to allow this company to get away with these type of shenanigans.

Ticket: # 3996523 - optimum/cablevision

Date: 5/27/2020 9:17:45 PM

City/State/Zip: Boonton, New Jersey 07005

Company Complaining About: Optimum

Description

I paid my bill on may 27,2020 when it was due. I then had no television service. I called and was told they are shutting off services to save customers money during the pandemic! If I chose to have my services turned back on, it would take 30 minutes. This did not occur. I called back and told it would take over 3 hours! I can not believe cable is allowed to turn off services due to the virus and the customer needs to call to have them restored! they also stated no supervisor was available to speak to. also, what gives optimum the right to do this?

Ticket: # 3996587 - Lied to about services and then charged full price for services I didn't receive

Date: 5/27/2020 10:30:09 PM

City/State/Zip: Midland, Michigan 48642

Company Complaining About: Charter

Description

Toward the end of January (29 or 30) I called Charter to cancel my tv and internet service as I was going to Florida for a few months planning to return the first or second week of April. When I told the person on the phone my plan she said, Oh you don't have to cancel, you can put it on a hold which will give you limited service while you are gone. I specifically asked what I would get and she told me limited internet and local channels. I specifically asked it it would run my Ecobee thermostat to monitor the temperature in my home as I live in Michigan and she said yes it would. I asked what I do when I am coming home and she said just call to resume regular services. I agreed to this plan as it sounded just like what a snowbird needed and since this was my first time doing this I didn't even know it existed. The expense was affordable enough that I could afford to purchase cable/internet in florida as well. So fast forward to March 18th and we were hit with a global pandemic. So I canceled my cable/internet in fl and it was pro-rated by Comcast for the month. In the meantime I never had internet services at my home in Michigan. My very next call was to Charter to resume my full cable/internet. Imagine my shock when they told me that because I was resuming services in the middle of the month I would be charged for the whole month because I wasn't gone for 60 days. I told them I didn't know anything about the 60 days and I never had service anyway while I was gone even though I paid a partial payment. I asked to speak to a supervisor. How can they change the rules on you? Why don't they pro rate like comcast? I never received any service I was promised. Looking back now I realize I was told what I needed to be told to maintain my service to them as I was going to cancel. I asked to speak to a manager as you can't promise people something and then change your mind and charge more ESPECIALLY to a retiree on a fixed income! I waited over an hour and a half to talk to the supervisor Joel number 4153057. He told me that it is their rules and he doesn't know why I was told misinformation-he told me you NEVER get internet for that low of a price and I would have paid quite a bit more for my thermostat to work. I asked how they could tell me it would work and then also not ever tell me about the 60 day rule. I asked how they could not inform their customer what they were really getting. They lied about what I would receive. I told him that is called bait and switch and is illegal. Asked if the FCC governed them and he said yes. Joel's exact words, "go ahead and file a complaint and it will come right back to me and a few months from now we will be having this exact conversation." I kept asking how they could not honor what I was told. Asked him to go back and review the tape. How can you promise a service for a price and then not give that????!! The only reason I stay with this company is because I have no choice where I live. I was treated with respect and honesty from all of the Comcast employees. Why doesn't Charter/Spectrum have to do the same? The monopoly in our service area is why! Thank you for your time reviewing this. To think in the middle of a pandemic they would treat a loyal customer this way (or any customer for that matter). Please just be honest with your customers and tell them what they really get or don't get for their money so they can make an informed decision based on fact..not empty promises.

Ticket: # 3996634 - Billing for Services after disconnection

Date: 5/27/2020 11:28:28 PM

City/State/Zip: Lewisville, Texas 75067

Company Complaining About: Frontier Communications

Description

Called Frontier to disconnect services as of 5/23/2020. I am being told there is a charge of 9.99 to disconnect services. Also I am required to pay for services till 6/18/2020 which is end of my billing cycle because it's my fault I had to move in the middle of my billing cycle. I was charged late fees for months the provider was not supposed to charge late fees due to COVID 19.

Ticket: # 3996670 - Re: [FCC Complaints] Re: Sprint Billing Complaint

Date: 5/28/2020 1:40:53 AM

City/State/Zip: Arcadia, California 91007

Company Complaining About: Sprint

Description

This is a follow-up to your previous request # (b) (6) "Sprint Billing Complaint"

Dear FCC, I have got your response and the new FCC # (b) (6) later this afternoon. Please let me forward you the complete email here - I will be sending it by another message. Hope you stay safe. Thank you. - by (b) (6)

(b) (6)

May 27, 2020

Re: FCC # (b) (6) complaints Sprint Corporation about Its Improper Charges and Irresponsible Service

Dear FCC:

Currently, I am still in the process dealing with Sprint's incorrect billing and its service issue.

1. On December 14, 2019, I was called to go to the Sprint store San Gabriel CA to open a new family account at \$125.00/month to replace my \$100.00/month old Sprint family plan that was upcoming expired. Unfortunately, the Sprint salesman did not activate our new account and closed our old one correctly. Both the old and new accounts had been opened creating the issues of our double billings and overcharged.

2. After I had processed going to contact Sprint's departments for two months, I got no response for fixing our billings and service problems. I had to file to FCC this March then I received the FCC Ticket (b) (6) and

(b) (6) very quickly even on the lockdown day.

3. Thanks for the help from Mrs. Katherine Devoe, the Sprint Executive & Regulatory Services officer in Dalas, TX. Mrs. Devoe already closed our old lines which was under my daughter's name and refunded our money occurred on the old account.

4. Our problems have yet to be removed. The incorrect billings for our new account of \$125.00/month plan has not been refunded, please see the details listed:

-

01/06/2020 \$272.25

-

02/07/2020 \$324.25 billing for Dec 14 to Jan 13, 2020

-

03/09/2020 \$212.28 billing for Jan 14 to Feb 13, 2020

5. I am confused that both billings for our new account and old one continue to come. Please have a view again attached. I don't know what I should be paying correctly. Last week, I tried the Express Payment but failed going through. The Sprint agency said our account had been terminated last December 14 by the Sprint store rep and we are not Sprint customers anymore even though the Sprint's old and new bills are still coming. On Monday the Memorial Day, I got the Sprint's notice showed that our family account had been scheduled to be disconnected.

6. Initially, the Sprint's employees operated our family lines at the store with their formal promise that we can keep our own three numbers in the new opened account. As you might understand, our own numbers, (b) (6) are very important for our family's life and work.

7. The local Sprint stores have yet reopened but the Sprint's Dalas executive affair office is too far to get my issues out. There may be language difficulties preventing communication. Typically, local wireless

companies do routines to maintain their old numbers for new customers. I wish I would have an assignment to get a baby-step approach by having to deal with a local Sprint rep for removing our family issues.

8. My daughter, (b) (6), a fresh undergraduate, received the first debt collection in her life for an old account that should be terminated or expired in December 2020. By far, we have not yet received any correction notice about this debt collection.

9. In the past few months, people have gotten a lot of relief and deferrals by blocking all inconvenient events and its proceedings nationwide for the duration of the COVID-19 crisis. As a Sprint's customer, we get heavy pressure by the wireless company. Six months past, the society is reopening, we only accomplished the rise of massive depression and severe procrastination disorder. I am sorry I even met mental anxiety to write you the update.

I look forward to having your response. Should any additional questions arise please do not hesitate to contact me by my email (b) (6) or my number (b) (6). Thank you for your attention to our family issues in the pandemic.

Sincerely,

(b) (6)

Ticket: # 3996695 - This is a complaint about Verizon Fios

Date: 5/28/2020 2:58:09 AM

City/State/Zip: Bronx, New York 10473

Company Complaining About: Verizon

Description

My mother family and I are trying to return back to Verizon, On her behalf I get to credit info which No one initially, told us upon going back we needed to submit a Social security number for verification or pay \$250.00 my mom has to pay upfront.

With senior citizen on a fixed income, and COVID-19 This is ridiculous at this time.

they tell you to verify info on the form but , the order may not go through.

They need to wave this fee we submitted Drivers Licence and social security this is private information. Former Bill from March Paid off By check mailed to Verizon in May. \$250 Dollars is a lot to submit to come back to this company very sneaky.

There are ways to verify a persons credit without Paying !

City/State/Zip: Fairfax, Virginia 22033

Company Complaining About: Nh Republican Party

Description

Yesterday I received an unsolicited political robo call from the NH Republican Party supporting Donald J. Trump's handling of the Covid-19 virus.

How they got my phone number is beyond me, as I am a Democratic Media Consultant.

Ticket: # 3996846 - Bickleton, WA phone issues

Date: 5/28/2020 9:49:53 AM

City/State/Zip: Bickleton, Washington 99322

Company Complaining About: Centurylink

Description

There are a number of damaged (noise on the phone line that renders it unusable), or completely non functional phone lines in the area. My parents are one of these customers. Most the the affected people are elderly with health concerns. Century link is the service provider and has done absolutely nothing for 6 months despite repeated calls. This is both a health and legal liability issue for these elderly people in the midst of the COVID pandemic.

Ticket: # 3996860 - Comcast Complaint

Date: 5/28/2020 10:02:09 AM

City/State/Zip: Plymouth, Minnesota 55447

Company Complaining About: Comcast

Description

- Comcast is treating the consumer poorly
 - every time he tries to call them he gets someone over seas and he can barely understand them
 - consumer has been laid off because of COVID-19 so he was just trying to get his bill adjusted
 - consumer is a senior citizen and has a hard time hearing
 - Resolution: consumer would like to speak to a supervisor located in the United States.
- Consumer would like them to reach out to him so they can discuss his bill.

CTR409-phone

Ticket: # 3996884 - Cancellation Issues**Date:** 5/28/2020 10:10:37 AM**City/State/Zip:** Amherst, New York 14228**Company Complaining About:** Sprint

Description

I've been with Sprint for about a year. Due to covid19, I had to move back home which isn't in the United States so I asked to cancel the service. The first time I called (April 24th) I had asked to have my service and automatic withdrawal canceled and was told I would no longer be billed after the billing cycle. Sure enough, the billing cycle ended and another took its place this time more expensive. So we called again on (May 26th) to check on why I was still receiving a bill. They told me that there was no cancelation and that they only put a stop to the automatic payments. Even though I know what I said, and they have a recording I told them I didn't want to pay another dollar after this final payment. They said ok we will send you a cancelation email which they never sent. two days later I check my phone and the service is still operating. So I call this one final time and they became really Passive-aggressive once they found out there was a second person near me and started questioning who they were talking to and offering new promos every time I asked for a cancelation. They then after repeatedly asking them to cancel my sprint subscription forwarded me to their cancelation service which I then asked to again to cancel my service. I had to refuse to hang up until they sent me a cancellation confirmation email.

1. They lied to me about the first cancelation stating that they would cancel after the cycle which they did not.
2. They lied the second time about how they would cancel my service but they didn't
3. They harassed me on the phone offering more promos when I made it clear I only wanted to cancel my subscription
4. They hiked my prices after I asked to cancel the first time stating that because I had been removed from the auto payment the charge had increased.

If you are able to get ahold of these recordings that they have they will prove without a doubt everything I have said.

Thank you for taking the time to read this I could not fit all of this in 3-5 sentences, and so I apologize for making you read through this.

My Phone number: (b) (6)

Ticket: # 3996966 - 8887130576

Date: 5/28/2020 10:39:36 AM

City/State/Zip: Woodstock, Alabama 35188

Description

Recorded call says they have a complaint against my social security number; Court date has been postponed due to COVID. etc. etc. Does NOT have the legal disclaimer "this is an attempt to collect a debt ... etc." Internet search indicates this number belongs to a debt collector. Says to call back to 8887130576. My credit score is in the 800s and my report is clean as a whistle. I can assure anyone that I have no debt issues.

Ticket: # 3997013 - No access to TV outside the apartment

Date: 5/28/2020 10:55:07 AM

City/State/Zip: New York, New York 10025

Company Complaining About: Spectrum

Description

(b) (6) signed a contract with Spectrum to provide bulk services. The product was supposed to provide services anywhere (I am physically not at the apartment due to Covid.

The channels that were promised were not available.

The spectrum app on Roku rejects the id (I use the (b) (6) ID).

The had me replace all the equipment turn it on and have not resolved this issue for at least two weeks.

Company Complaining About: Frontier Communications

Description

Frontier has been refusing to remove the late fees from my account for being unable to pay during the pandemic. They have sent me a letter letting me know they can legally turn off my services and I am to pay \$381 by 6/18/2020 due to lack of payment during the pandemic

Ticket: # 3997585 - Service refusal

Date: 5/28/2020 1:56:09 PM

City/State/Zip: Splendora, Texas 77372

Company Complaining About: AT&T

Description

Sudden Link Internet Service Provider is the only company offering internet service in my neighborhood. I'm being forced to work off of a mobile hotspot. their service port is on the utility pole in my front yard and they service the house on both side of me. This is costing me great revenue loss since the Covid 19 uprising.

Ticket: # 3997609 - Customer service assistance**Date:** 5/28/2020 2:02:48 PM**City/State/Zip:** Florida, New York 10921**Company Complaining About:** Optimum

Description

On the 19th of May, I contacted Optimum and advised them that one of the cable boxes was not working. The customer service rep determined that I needed a new box. I tried to contact Optimum yesterday and after several hrs of being put on hold I ended the call without anyone answering. Today, since 8:30 AM. I've tried to reach out to Optimum without any satisfaction. I eventually was able to contact someone via chat... it took them till 9:53 AM to finally respond. I explained to Deshauna the fact that I had not received any confirmation regarding the shipment of a new box. She advised me that there was no record of me calling. Around 15 minutes ago, I finally received a call (I had put my no on a call wait). I explained to the gentleman my issue and he confirmed that I in fact had called on the 19th with the issue, however, the shipment was cancelled because the original customer service rep had made an error. Optimum made no effort to reach out to me and clear the matter. I was advised that a new box will be forthcoming and that I should receive a confirmation via e mail. Optimum is a poor service provider, their customer service line is extremely difficult to access. Their prompt does not allow a customer to access a live person... the prompt immediately circumvents any "attempt" to reach someone live. They are using the "covid" situation for their LOUSY service. They have outsourced their customer service overseas and unfortunately some of the individuals do not understand the issue. My call on the 19th is a perfect example, the individual did not know how to process my request and subsequently Optimum chose to cancel without any further action. I am going to file complaints with you ICC till you investigate this company having poor service. We should have an option of choosing several providers rather than to be forced to use this poorly run corp.

Ticket: # 3997688 - rude collections agent

Date: 5/28/2020 2:21:00 PM

City/State/Zip: Atlanta, Georgia 30349

Company Complaining About: AT&T

Description

call into the 611 from my business account was transfer to personal accounts. Explain to the rep that I had a payment arrangement for the past due balance on May 30 and June 30 to get caught due to the effect COVID-19. The rep called into collections the rep told me I need to pay something today. I ask why when a payment arrangement was made in April as stated above. The collection rep rudly hung upwheni was trying to explain what was done April. I am a valued customer and should have been treated this way. Better customer training is need in the department.

Ticket: # 3997705 - From a broken remote control to no service

Date: 5/28/2020 2:23:06 PM

City/State/Zip: Tamarac, Florida 33319

Company Complaining About: Comcast

Description

Comcast said many things and convinced me to upgrade 3 cable boxes to Xfinity, saying someone will drop them off, just plug them in and they will work. Boxes arrived next evening, and I was scheduled for surgery the next day so I couldn't spend a lot of time with programming.

In the past two weeks, we have gotten two sets to partly work, out of four.

I have been passed to second level support, who concluded the boxes only needed activation. And activation confirmed the needed that (and did it) and passed me back to regular support, who my mother swears told her that for \$199 they could send out a repairman. Now they say that's impossible at any price.

So for two weeks we've spent hours on the phone with activation, repair, two support levels, and no one can get the sets going.

This all started with just needing to replace one remote control--which never arrived because somehow we were placed on a "do not mail anything" list that doesn't apparently exist, but prevents their computer system from shipping anything at all to us.

I go back into the hospital for more surgeries next week. Mom is 95 and cranky, she WANTS HER TV. And we've worked every step with Comcast at least three times--only to be told that if we wait for after the Covid, they can send someone out maybe in six months or so.

The account is in the name (b) (6), that's Mom and I have her power of attorney as well as living with her and normally caring for her. But my hands are tied here. We've been strict about quarantine, have sanitation gear here (ozone and UV to CDC standards) and REALLY need Comcast to do something. When I'm out of hospital next week, I may not be able to see, let alone program equipment. All they do is have us chasing our tails and contradicting each other.

PLEASE. HELP.

Ticket: # 3997808 - Change in Cable Service

Date: 5/28/2020 2:43:36 PM

City/State/Zip: Brooklyn, New York 11216

Company Complaining About: Optimum

Description

I have been trying to reach Optimum for two days and their message keeps giving an excuse about volume being high due to COVID-19. I am trying to change my service because of less income and I need a response from them. They deliberately avoid any changes and their help support is useless.

Ticket: # 3997909 - AT&T billing

Date: 5/28/2020 3:11:14 PM

City/State/Zip: New York, New York 10024

Company Complaining About: AT&T

Description

Her provider is over charging her.

Consumer claims her phone was disconnected.

She did make a payment to get service back on.

Due to COVID-19 and the billing issues she has been unable to make a payment.

Consumer claims they are overcharging her and she would like to discuss the billing issues with AT&T.

Ticket: # 3997933 - Internet provider charging extra fees to access the Internet on top monthly billing

Date: 5/28/2020 3:20:23 PM

City/State/Zip: Dallas, Texas 75217

Company Complaining About: Spectrum

Description

During the pandemic that hit the US, I was more inclined to try the two-month free internet access that Spectrum was offering which obligated me to pay a monthly payment up to a year or two I believe. Spectrum is denying access to the internet since they refuse to install without an extra \$500 fee on top of the monthly billing. To my knowledge, the \$500 payment will go to building a connection for the internet to activate in front of my house. Further putting me into a troubling financial instability because of this forced contract. The only solution I see fit is to not charge me an additional \$500 fee or just outright cancel the contract.

Ticket: # 3998128 - Spectrum No Availability/COVID-19

Date: 5/28/2020 4:12:33 PM

City/State/Zip: Warren, Ohio 44481

Company Complaining About: Spectrum

Description

She is calling about Spectrum.

She has called Spectrum to set up appointment for service.

Spectrum is telling her it costs \$2000.00 for them to come up and hook up service.

She feels since it is the COVID-19, Why should she have to pay for Internet service to be put in when she has children at home.

She has COPD also.

She needs Internet service for her children's school.

She is trying to work from home also.

Ticket: # 3998567 - Optimum/Altice suspended service for non-payment

Date: 5/28/2020 7:30:47 PM

City/State/Zip: Glen Rock, New Jersey 07452

Company Complaining About: Optimum

Description

Optimum/Altice in NJ suspended my service for non-payment. I spoke to them in March letting them know I'm self employed and my business was shut down for now due to Executive Order from Governor Murphy due to Covid-19. Due to Executive Order No. 126, Optimum assured me that my service would not be shut off for non-payment. They suspended my service on 5/27. I paid them approx \$707 because I thought I had no choice, even though I didn't have that money to give. That was enough money to bring my account into the clear. It's been over 24 hours and my service has still not been turned back on. I've called them 4x. Their reps have lied, hung up on me, and given me the run around. I've rebooted my cable boxes and modem. Every time I turn on the cable box, it just says my cable has been suspended for non payment. When I go online and look at my account, it says my account is clear. The last rep I spoke to said there is an outage in my area. Meanwhile my neighbors with optimum have cable and the website says there are no outages. So they've lied and just refuse to turn my service on. I've tried their chat and they refuse to answer in there. I've also tweeted them and DM'd them on Twitter numerous times to no resolution. They just refuse to communicate. They're impossible to reach. I've tried their chat- they take so long and refuse to answer anything. They hope you just can't take it anymore and leave. After an hour I did. I uploaded a copy of one of the chats I had. I've now been on hold in their chat tonight for about 45 min with no response so far.

Ticket: # 3998721 - Suddenlink internet and cable service

Date: 5/28/2020 9:24:56 PM

City/State/Zip: St. Albans, West Virginia 25177

Company Complaining About: Sudden Link

Description

Have no internet service but paying for 400 Mb/s. Have had suddenlink tech out who said it is a problem at their box not our house. Waiting over a week for a fix. Also affecting our cable TV service. We are paying additional for SafeGuard to fix issues. Have called Suddenlink several times with long hold periods and promises to escalate. I have to work from home due to COVID and have had to switch to a cell service. Horrible service from Suddenlink. Paying too much to get nothing.

I signed up for a Coronavirus special cox was advertising 19.99 may the 9 on may the 22 I was sent a email saying my service was canceled I called customer service agent and they said it was a computer error and the the no longer would honor the covid 19 deal this is corporate greed praying on a pandemic

**Ticket: # 3998802 - Price-gouging During Covid-19, Data limits & Lying
Representatives**

Date: 5/28/2020 10:50:49 PM

City/State/Zip: Abilene, Texas 79601

Company Complaining About: Sudden Link

Description

I was charged a data overage (unaware that there was a data cap on my plan), with no warning that I was going over the cap and since working at home, my data usage went up exponentially. When I found out there was a data cap, I called in and asked what plan I had to upgrade to not have the cap, that was a 400 Mbps. I upgraded, but was still charged the overage (even though the rep told me he would refund that since I was unaware, and no notice was given). The rep told me it was a \$10/month upgrade (to the unlimited 400 Mbps), but when I got my next bill it was \$30/month. I have requested a recording review of the call, but they "are unable to locate any call where I spoke with a representative about data overage and upgrading." I was also told I would receive a call back from a supervisor 4 different times, and never received the call.

Ticket: # 3998805 - Suddenlink issues

Date: 5/28/2020 10:58:27 PM

City/State/Zip: Nitro, West Virginia 25143

Company Complaining About: Sudden Link

Description

Have been paying for 1000mbps Internet from Suddenlink and only receiving 30-40mbps. Have attempted many times to resolve the problem with customer service to no avail. Technicians have been to my home and verified my equipment is fine. The constant problems and outages are costing me wages while I am forced to work from home during COVID 19.

Ticket: # 3998830 - Scam - Free 2 months for students for Covid

Date: 5/28/2020 11:49:55 PM

City/State/Zip: San Diego, California 92130

Company Complaining About: Spectrum

Description

I was considering spectrum when the offer for 2 months free for students for new accounts came up. I was told that I was eligible for the offer since I do not have an active service yet, so I signed up. Spectrum gave me the one month credit (see attachments where we discussed the 2 months free offer) but refused to give me the second month's credit. They now said that I was only eligible for one month. There was no such thing mentioned when I chatted with Spectrum when they first gave me the one month free (see attached). Now they have threatened to cut my services unless I paid up. I only ask they they honor their offer to give students free access if I have a new account. Due to covid, everyone is stuck at home and need internet. Spectrum should honor they offer and not take advantage of people stuck at home and threatening to cut services.

Ticket: # 3998860 - Internet speed and connection

Date: 5/29/2020 1:47:22 AM

City/State/Zip: Lufkin, Texas 75904

"Letter From CEO of AT&T Communications

I don't think any of us have ever experienced a situation quite like this one. The coronavirus (COVID-19) pandemic has affected virtually everyone around the world, upended the engines of commerce, closed schools and some businesses, and disrupted the rhythms of our daily lives.

Connectivity is always essential to our customers – doctors and nurses, first responders, governments, banks, grocery stores, pharmacies and others delivering vital services. It's even more critical during a public health crisis that's challenging everyone. In fact, as a critical infrastructure provider, AT&T believes we have a civic duty to step up and keep our customers and communities connected. I wanted to share some of the ways the people of AT&T are working to respond. We will keep this site updated with new developments as they happen. Our path forward

One of AT&T's core values is to Be There when people need us. And we can't do that if our employees are sick. A simple, effective way to minimize risk is to maximize social distance. So last Friday, we implemented a sweeping work-from-home policy. If AT&T employees can work from home, they will. We greatly appreciate our customers' patience as we manage through these challenging times. In these situations, we work to prioritize and serve critical needs. And because we anticipate higher call volumes, we recommend, when your need isn't critical and when possible, reaching out through att.com or our myAT&T app for customer support, additional resources or to access our online store. Staying safe on the front lines At the same time, we have implemented new policies and guidelines to help protect our nonmanagement and management employees who are on the front line serving customers or who can't do their jobs from home. We're working to keep up with demand for hand sanitizer and other supplies and are sourcing these from multiple vendors. In retail, our goal is to limit employees' exposure while still upholding our responsibility to meet the essential needs of customers, FirstNet subscribers and the public safety community, who are counting on us.

- So, today we'll begin closing 40% of our company-owned retail stores nationwide. Closures will continue while we concentrate our resources on select stores to meet the immediate service needs of our customers, including first responders and health care providers.

- At stores that do remain open, we're adjusting store hours to 11 a.m. to 7 p.m. local time, and we're closing all stores on Sundays.

- Staffing in stores that remain open will adhere to social distancing guidelines, while still being able to serve customers.

Our call center capacity has declined because of the leave accommodations we have made for employees who are parents of children whose schools have closed and our employees who are at higher risk for the coronavirus. As a result of reduced capacity in our call centers, we're taking the following steps:

- Using new IVR (Interactive Voice Response) messaging that encourages customers to take advantage of our self-help online tools at att.com.
- Adjusting call center staffing levels and shifts to ensure proper social distancing. This may result in longer hold times for service.
- And just like in retail, we're taking actions to prioritize service issues - optimizing the handling of calls, whether inbound or outbound, and balancing capacity across all functions.

Our field technicians play a critical role in installing and repairing our services for millions of businesses and consumers. While their mission is essential to keep our customers connected, we also recognize that there is a balance between providing service and keeping our technicians safe. To accomplish that balance, we're providing them with new policies and procedures, so they feel comfortable serving customers at their businesses and in their homes, while delivering on our commitment to service. Our first priority is repair of the network and the services we provide to customers. Our second priority is installing broadband for health care providers, first responders, government and other essential business and service providers. We will work other installations as resources allow. Supporting customers and communities Here's what we're doing to help our customers and our communities get through this:

- Last week, we announced that we are suspending broadband usage caps for our home internet customers. That means no overage fees while people are home using more data.
- We're keeping our public Wi-Fi hotspots open for anyone who needs them.
- We continue to offer internet access for qualifying limited-income households at \$10/month through our Access from AT&T program.
- We won't terminate service of any wireless, home phone or broadband residential or small business customer due to an inability to pay their bill as a result of the coronavirus pandemic – and we're waiving late payment fees for those customers.
- We are underwriting expenses for a “one-stop” resource center to support eLearning Days from the State Educational Technology Directors Association. It's available to help all educators handle school closings and virtual learning.
- As public safety's partner – not simply a vendor or commercial network provider – our FirstNet teams are working closely with first responders – firefighters, police, medics and more – to keep them connected when and where they need it most.

-

Ticket: # 3999096 - Refusal to return funds, deceptive business practices

Date: 5/29/2020 9:54:35 AM

City/State/Zip: Minneapolis, Minnesota 55413

Company Complaining About: Comcast

Description

Due to covid 19 I was required to work from home. Now on furlough can't work. Paid April and May bill. \$40 removed from checking. Called 5/11 asked for refund told to call back in 7 days. Called 5/18 told must wait 7-10 business days . Called 5/27 asked for manager. Alex said will call me back af62pm. He never called. Again called and told that cannot get refund will be applied to future charges. Asked that service be disconnected. Returned modem 5/27/20@3:20 PM. Going on third week no refund. All reps led me to believe refund possible.

Ticket: # 3999123 - Spoofed phone call to Bank of America in France

Date: 5/29/2020 10:05:50 AM

City/State/Zip: College Park, Georgia 30349

Description

Our Bank of America employee in France received a suspicious phone call on May 19th from an individual claiming to be a Bank of America employee who was stuck in France due to Covid-19. He said his bank computer was broken because he dropped it. He asked the employee to help sending some files to another Bank of America employee, which needed to be sent within an hour.

He gave spelling of his name – Jason O'Baine. We verified the name in our system and confirmed no employee with that name is working for Bank of America.

The phone number he used to call the bank employee was listed as : (9) 00 44 21 7592 5064

Bank of America associate received the phone call at work phone number: 33 1 87 70 00 42

The call came in at 14:11 19th May 2020 (Paris time).

Ticket: # 3999156 - At&t complaint

Date: 5/29/2020 10:19:39 AM

City/State/Zip: Orlando, Florida 32837

Company Complaining About: AT&T

Description

I currently have service with At&t/ Direct Tv and due to COVID 19 I am unable to keep the service. I called to advice At&t about this and was advised that not only would my bill go from \$56 to 137.96 and I would also have to pay 150.00 disconnect fee. This is not what I agreed to and I feel it it unfair and excessive in this Pandemic.

Ticket: # 3999306 - Suddenlink Unreliability**Date:** 5/29/2020 11:16:41 AM**City/State/Zip:** Hurricane, West Virginia 25526**Company Complaining About:** Sudden Link

Description

The internet at my location has intermittently disconnected a total of 17 different times on 5/29/2020. This is in addition to previous unannounced, and unprovoked disconnections occurring over the previous 5 months. On a weekly basis, the internet has disconnected on average 5-6 times.

Any attempted remedies through Suddenlink a own support channels has resulted in no progress or solution to the issue. I have confirmed that the router and modem are not the source of the issue as the router is the most up to date model available and the modem is provided by Suddenlink.

The numerous internet disconnections has put my current source of income at jeopardy due to remote work being the only method of performing my job duties. As an example, if water or electricity were to have these same patterns of dropping service, they would be held liable, but due to the misclassification of internet services--especially during this pandemic where internet services are ESSENTIAL--Suddenlink seems to not care about actually fixing this issue (as is evident by their inability to solve this issue).

Previous attempts to rectify the situation have also garnered sarcastic or inappropriate responses from the Suddenlink CEO. This includes minimizing the impact of service interruptions and incorrectly assuming the service to be non-vital. I reference the letter sent by the CEO whereby he incorrectly assumes the purpose of my usage to be for "Roku streaming".

Ticket: # 3999307 - Lack Of Service & Repair

Date: 5/29/2020 11:16:45 AM

City/State/Zip: Phoenix, Arizona 85053

Company Complaining About: Cox

Description

I have to hire a 3rd party tech to come in my home to test and fix the connections that Cox Communications installed. They refuse to (blaming covid) to fix their products/services and will only credit if you complain more than once. They have already checked out the outside of house, the lines, etc. But keep sending out techs to check the same outside line. Switched out products (which already exposed me to them, negating the safety precautions in place). They want ppl to pay for their non-working service in hopes of waiting for a future place holder date to come into fix the issues. This is for both cable and internet through cox communications.

Ticket: # 3999393 - Service/ billing /fraud/Following up (b) (6) / COVID-19

Date: 5/29/2020 11:56:42 AM

City/State/Zip: Boston, Massachusetts 02114

Company Complaining About: AT&T

Description

Consumer states that he used to have a pre-paid service with AT&T until they cancel his service.

(b) (6) explains that AT&T was taking day off out of his billing cycle. Consumer states that his when he started on getting services on AT&T his billing started on the 19 and he finished on the 9.

Consumer states that this practices were on the entire time that he had the service with them.

Consumer tried many times on solving the problem with the until they got to the point on asking him for a account number. When he did not give this they suspended his account. Consumer filed a complaint previously but nobody return his phone calls. Consumer states that he wants a refund for all the days that were took off in his service plan. Consumer cannot believe that they shut off his service in the middle of a pandemic. Consumer has a list of all the months that they took his money earlier that the expected.

Ticket: # 3999442 - Spectrum

Date: 5/29/2020 12:11:23 PM

City/State/Zip: Wilmington, North Carolina 28401

Company Complaining About: Spectrum

Description

Internet cut off twice during pandemic. It's been off since may 5th but they are still charging me for it. Prices are too high, I paid 14.99 for same thing at almost 80 now, when they were time warner. That call nonstop with local numbers.

Ticket: # 3999546 - ATT/SBC Global

Date: 5/29/2020 12:45:02 PM

City/State/Zip: Chesterfield, Missouri 63017

Company Complaining About: AT&T

Description

Delmar Gardens provides nursing home services with 8 facilities in St Louis. We are required by law to notify family members of residents when an employee or resident tests positive for Covid-19. We send our notifications out using the family members address on file. For some unknown reason SBC Global has blacklisted us (delmargardens.com) so our emails are not going through to anyone with an email address that ends in sbcglobal.net. This is an awful thing for the company to do during this critical time when we are trying to notify family members about their loved ones in our nursing facilities.

Ticket: # 3999673 - Optimum No Availablility

Date: 5/29/2020 1:20:48 PM

City/State/Zip: Hackensack, New Jersey 07601

Company Complaining About: Optimum

Description

The consumer states she has Optimum bundled services.

The consumer pays \$100 something every month for their services.

The consumer owes them April and May but she mailed the check out last week and they claim they didn't get it.

The check is 7261 dated 5/18 in the amount of \$459.46 for the month of April and May.

Her husband just got the Corona virus 2 weeks ago and lost a lot of weight and doesn't know if he will survive.

The consumer states they turned off her TV services.

The consumer called at 11:24 am and they said they would call in no more than 40 min and have yet to call her back.

The consumer needs her service turned on immediately.

The consumer does not want to pay for the days she is going to go without service.

CTR-415

Ticket: # 3999695 - Cablevision - Beyond Poor Service**Date:** 5/29/2020 1:25:09 PM**City/State/Zip:** Westport, Connecticut 06880**Company Complaining About:** Optimum

Description

I have previously filed a complaint about poor service I continue to receive from Cablevision. In early November 2019 I had issues getting TV service and called Cablevision. At that time I was told I needed a new Cable box and would have to make an appointment to have someone come out. The wait time was two weeks. I have a holiday related business and understood I needed to be home for 5-6 hour spans with no guarantees for this service. I delayed the service & went without TV service for this time. Two weeks later I called again and another customer service person told me I could have the box delivered and install myself without issue. I did this. Six days later I received the box and attempted to install. Physical install was done but I could not get the service to work. I then called back and got cut off three times before I was able to speak to someone. I was told I needed to have someone come out to install. What good was the box delivery I asked. Their reply - I have no idea why someone sent it to you!! Now we in smack in the middle of the holiday season for my business. At odd times I would call in because a friend told me that you get a different answer every time you call Cablevision and there is no coordinated service or good training they provide employees. By February I had called 19 times and each time either got someone who gave me instructions that did not work or someone who said I have no idea how to handle this. 19 Times!!! The frustration was overwhelming. Now we get to March and Covid-19. Now I am home 24/7 and no TV service! I call back and talk to six more people. One person told me I got him by accident but he knew how to solve the issue. He solved the box issue in two minutes! Problem is now solved but I want credit on my bill for missed service & box charges - Cablevision has 55 minute waits for billing questions alone!!! Here is compliant (b) (6). Who is going to tame this monster!

Ticket: # 3999775 - Billing/Service Issues

Date: 5/29/2020 1:46:04 PM

City/State/Zip: Cheasapeake, West Virginia 25315

Company Complaining About: Sudden Link

Description

- The consumer is calling about Sudden Link as her carrier
- She has a bundled package
- She states they shut off her Internet service twice during COVID-19
- She states she has not received a bill since March from them
- She states she has tried to reach out to the carrier multiple times
- She states they have sent her shut off notices
- The consumer has a pacemaker
- The consumer wants a copy of her bill every month
- The consumer would like someone to reach out to her as she sent a money order that was cashed but not credited to her account

Ticket: # 3999983 - Bait and switch cricket covid-19 plan

Date: 5/29/2020 2:38:21 PM

City/State/Zip: Conyers, Georgia 30094

Company Complaining About: Cricket

Description

Signed up for the \$15 plan for 2gb in April. They did say price subject to change but past plans remained grandfathered and my account says grandfathered (see screenshot). I loaded the account with \$104 credit to cover the next several months. A month later they say the plan will be discontinued and I must pay \$30 a month. No acceptable during covid-19 and unemployment. Bait and switch offer. I want my \$104 credit refunded.

Ticket: # 4000073 - Complaint RE Cell Phone Service Suspension During COVID-19

Date: 5/29/2020 3:09:06 PM

City/State/Zip: Akron, Ohio 44313

Company Complaining About: AT&T

Description

Good afternoon - I hope this message finds you well and that you are having a wonderful week! I need some assistance. My cell phone service (AT&T) was just shut off for 'non payment'. However, I made a sizeable payment last week to AT&T (which should have circumvented this); and, there should have been some sort of notice before my service was suspended - which did NOT occur. I am currently unemployed due to COVID-19 and need assistance. My cell phone is the only phone that I have (I cannot provide another phone number at this time, because I do not have one). I thought that companies were not supposed to do this sort of thing during covid. I obviously missed something and could use your help. I do not have any files to attach, as I just found out when I tried to make a phone call. Thank you for your time and consideration. I look forward to hearing from you.

Ticket: # 4000123 - Charter Spectrum

Date: 5/29/2020 3:29:18 PM

City/State/Zip: Asheville, North Carolina 28801

Company Complaining About: Spectrum

Description

I prepaid my entire year of internet service so I would not have to worry about monthly bills, so my account had plenty of money in it.

I called up Charter Spectrum and asked to close my account due to not using it during the COVID-19 Pandemic. They said that they could shift it over to a seasonal hold and my bill would only be \$4.99. That way I could turn it back on without setting everything back up at any point. I agreed, and they basically turned off my internet.

Upon checking my bill, I noticed that the \$4.99 was not only a fee, they were additionally taking the original \$69.99 out of my account as well. I had no idea because I was not receiving a bill, and the money was just being deducted from my balance. When I asked them about it, the girl I spoke to said that they would refund the prorated amount and it should appear in the account within hours. When I called again they said they did not prorate it, and that they would not since I put it on a seasonal hold a day after my bill date! So not only were they charging me for the entire month, they were charging me fees too!

They refuse to refund any of the money and won't give me the money I already paid back - even though I am now not going to use it.

Everyone I talk to has a different story and nobody knows anything.

When I asked where I can see the balance on my account, the girl on the phone had no idea. Then her supervisor told me I had to look at previous statements. I told her the one lady said she was issuing a refund, so how would I see that? She said no refund was issued, and there was no way to see the balance on my account.

They are not clear about their billing, and are extremely devious and deceptive. I want my money back!!

Ticket: # 4000147 - Truck Interference

Date: 5/29/2020 3:37:16 PM

City/State/Zip: Pensacola, Florida 32501

Company Complaining About: Channels

Description

(b) (6) inform the FCC there's a truck in her community that's left on there OWN in which this truck is causing interference with a HUGE ANTENNA that sits on top of his truck . The trucker is able to take the ANTENNA off and on .

Consumer is located at a Assisted Living Development and the landlord haven't been available since the Pandemic

She shared that the local authorities have not done anything to assist with this matter.

Ticket: # 4000177 - CCTV Camera

Date: 5/29/2020 3:45:22 PM

City/State/Zip: Brooklyn, New York 11206

Company Complaining About: Optimum

Description

Hello!

I just filed a complaint last time with regards to the hanging wires from Optimum. (b) (6). Optimum fixed the wires however, they accidentally cut the wire of one of our CCTV cameras. I called them and informed me that we have to go to a retail store and present the proof for them to compensate. During this pandemic, we don't really want to go out and go their directly. They wouldn't let me speak with the manager and at the same time, there's really no assurance that they will replace. We just want to email them the proof and we can start from there.

Ticket: # 4000198 - Spectrum Internet Service**Date:** 5/29/2020 3:50:11 PM**City/State/Zip:** Lexington, South Carolina 29072**Company Complaining About:** Spectrum

Description

They are unable to supply equipment to support the internet service for which I'm paying. Our modem and router were "fried" in a thunderstorm last weekend, and we have been trying since then to get the equipment replaced, and a credit to our bill for the service they cannot provide. We reported the issue as soon as it was discovered last Monday, and the technician that was sent to our home was able to resolve only the TV cable box issues, not our internet service, because he was not supplied the appropriate equipment to support the faster internet speed I pay for. He was told there was none of that equipment at their warehouse. After speaking with several levels of supervisors, it was determined that equipment would be mailed out to me, expedited, because without internet service, my business cannot function. Since we're all working from home due to COVID-19, I am losing business and missing deadlines. I was told that Spectrum has "had trouble" getting this equipment for months, yet they have done nothing to resolve the issue. The other option offered to me was to see if one of the local stores had the equipment on hand, so I went to the local store on Wednesday, and stood in line for an hour, only to be told they also didn't have any of the equipment to support the 400 mbps speed. I have patiently waited to get the equipment that was supposedly mailed to me last Tuesday, but when it didn't show up by today (Friday), I contacted Spectrum to get tracking information. I learned that the equipment was NEVER MAILED TO ME AT ALL! They said there was a balance due on my account, which is not true, and if it were, the credit I'm due from not having service for a week would more than offset any error I may have made in paying my bill online. I have now been on hold for more than 30 minutes to speak with a supervisor to see how they're going to resolve this, but I am thinking I may have to sue for lost business at this point. Spectrum should not be able to even do business in this space, and I'm certain it is quite illegal for them to promote and sell Internet services when they don't have the capability of providing the equipment required to deliver it.

Ticket: # 4000229 - FAKE Geek Squad renewal call

Date: 5/29/2020 3:58:28 PM

City/State/Zip: Midlothian, Virginia 23113

Company Complaining About: Geek Squad

Description

I received a call from an Ohio number 330-267-7855 at 3:23 pm. I receive calls for work since I am working from home during the COVID-19 shutdown & called the number back at 3:33 pm. The person on the other line said they were calling to see if I wanted to renew my Geek Squad protection plan. When I asked the caller which computer they were covering, they could not tell me. They pretended to transfer me to a supervisor & I had the same response. Then, the gentleman started pretending to disguise his voice when I asked for a name. In a very high pitched voice he said his name was Cynthia & started laughing. I advised him that the number would be reported & hung up.

Ticket: # 4000235 - Service/COVID-19/ Service interruption

Date: 5/29/2020 3:59:42 PM

City/State/Zip: Bronx, New York 10453

Company Complaining About: T Mobile

Description

Consumer states that she has been receiving a lot of calls from T-mobile requesting to make the payment. Consumer called the FCC and an agent told her about the COVID-19 pledge that was renew it updated with a cover until 06.30.2020. Consumer called T-mobile again and they told her that the information given by the agent was wrong and that if she did not make the payment will would disconnect the service. Consumer called back to file a complaint. FCC pledge was in fact extended. Consumer phone service shall not be disconnected for a reason of not been unable to pay the service since this is due to the COVID-19.

ctr408-phone

Ticket: # 4000434 - Cell Phone Disconnect

Date: 5/29/2020 5:18:58 PM

City/State/Zip: Vancouver, Washington 98664

Company Complaining About: Verizon Wireless

Description

Hello - I am filing this on behalf of my brother, who has been in the hospital since the beginning of March. He had a tracheotomy and a feeding tube put in. His only form of communication is through text messaging. With Covid-19, he is unable to have visitors. Verizon disconnected his cell service for being late on a bill and they did not send a notice to prevent disconnection.

Ticket: # 4000523 - Phone number locked from previous provider, Sprint

Date: 5/29/2020 6:16:18 PM

City/State/Zip: Tyler, Texas 75701

Company Complaining About: Sprint

Description

We were Sprint customers from 2002 to 2019. During that time, we had four phones with this account. Somehow, Sprint kept my son's line (b) (6) open though it was opened under a new carrier. After months of our son's line not working properly (incoming calls and texts not going through), we reached out to both AT&T and Sprint to identify the problem. Sprint repeatedly assured us that the line was cancelled and number was unlocked. In March 2020, I reached out to Sprint again. After speaking to a manager, we found out that Sprint kept my son's line and it had been accruing a monthly bill. Sprint immediately corrected the billing and account error, and supposedly, unlocked my son's number. To date, my son's number doesn't work. This error has caused my son many issues, including missed calls from his physician, professors, family, and summer internship opportunities. Moreover, it has prevented us from effectively communicating with him and caused him to miss a message telling him Yale was closing for the remainder of the semester due to Covid 19 and he should remove all of his property before going home for spring break. He missed this message and is currently home with very little of his belongings.

We would like our son's phone number in working condition immediately and refunded the amount we paid for his monthly due to this disruption, since we moved his phone in September of 2019.

Ticket: # 4000535 - comcast

Date: 5/29/2020 6:21:45 PM

City/State/Zip: Chantilly, Virginia 20152

Company Complaining About: Comcast

Description

too many power outages without a reason ,finally after the 9th outage called Comcast and informed them that i work from home and I need to work, they credited only \$60 and reassured me that they will send a technician to my house and once he is done they will credit more since i have had too many outages, the manager informed me that she had put good notes on the acct and once i call back they should be able to provide me with extra credit!! keep in mind that on 5/26/20 once again power was out from 1-5pm , I have lost so many hours of work because of power outage! today i called to find out all of that was a lie, no manager had put notes on the account , the person who picked up the call his name was Cory ID#12119 had no idea what i was talking about, he made it sound like i was not telling the truth since there was no notes!!!! after screaming and yelling at him to get a manager, he came back and said we will give another \$27 credit and that's it!! Oh my God!! I told him how much of my wages of have lost due to power outage and his response was he was sorry and nothing else can be done, asked him to get a supervisor on the line which he proceeded to put me on hold for 30 min and finally a guy named Jeffery came on who refused to provide his last name and ID number!! i told him the entire situation again and his answer was that they don't pay for lost wages and that \$80 is more then enough of credit!! we as consumer pay almost \$150 a month so they can provide us TV and internet , why am I paying if they are not delivering the service as promised?? why is it that they can get away with stealing money from people like me who is struggling and working from home due to COVID19, PLEASE do not allow these sharks to do this to consumers

Ticket: # 4000542 - Both the phone number and online chat for Suddenlink seem to have automated menus that do not serve my problems with my television reception

Date: 5/29/2020 6:28:36 PM

City/State/Zip: Cabot, Ar, Arkansas 72023

Company Complaining About: Sudden Link

Description

Our local Suddenlink office is closed due to covid-19, so I can't reach a live person to get what I am paying for!

(1)Two sets, connected directly to wall cable, have lost channels, indicating weak signal. One has had this problem only since recent thunderstorms with wind. All automated directions mention a cable box, but these do not have one.

(2)Another set, with a cable box, which has had a technician come previously, has had sporadic connection with upper channels, but also now gets only the basic (local) channels! The automated directions given don't work.

Solution: I would think I need a technician, but I can't find a way to ask.

Ticket: # 4000545 - Mediacomm internet issues

Date: 5/29/2020 6:29:50 PM

City/State/Zip: Inlet Beach, Florida 32461

Company Complaining About: Mediacom

Description

My Mediacom internet service has not worked for the last month. At one point I did not have service at all for 3 days -- and this was during the COVID-19 quarantine. I have an elderly parent who lives with me and there were concerns if we needed medical help we would not be able to access since the service effected our phone as well since wifi was not working. I sent complaint to Mediacom corporate thru their website and heard nothing. When I called for service they made me wait for a week and this continued numerous times since they couldn't fix the issue. I asked a Mediacom representative for phone number for corporate office and was given a phone number that rang but no one answered and there was no way to leave a voice mail. I have not heard from Mediacom corporate. A maintenance technician come out today 5/29 at 11 am and it was working, then at 2:15pm it stopped again. This problem has not be resolved.

Ticket: # 4000574 - AT& Billing

Date: 5/29/2020 6:45:20 PM

City/State/Zip: Columbus, Ohio 43209

Company Complaining About: AT&T

Description

I cut off my cable, I was instructed to return the cable boxes which I did through my local Kinkos store. I notice that I had an overdue balance on my account and called and inquired about it, this was around April. I was told it was due to the cable boxes and once they received them I would have it removed.

In May I continued to receive messages that I owed money. I tried to communicate through calls, text and spoke with multiple people. On May 20th I spoke to an employee through chat for over an hour regarding this situation. I informed Charlie that I had spent several hours trying to get this resolved but I kept on getting late notices. I sat on the chat with him until he was able to contact the FedEx to verify, they had my items and that they were delayed due to COVID-19. This employee confirmed that all I needed to do was pay my monthly bill and my service would not be disconnected. I informed this employee that I was so relieved at this due to my current situation. I am working remotely due to COVID-19 and this situation has caused some financial stress. He assured me I would not be disconnected.

Today 5/29/2020 my services were disconnected. I called and spoke with several employees trying to get assistance. The first two stated that they saw a record that my equipment was on the way but there was no way to credit my account and I would need to pay \$111 to have my services turned back on. I asked several times why I could not have a credit until it posted, and they stated the only way to have services was to pay the amount and my credit will be on in two to three cycles. I stayed on the phone asking to be escalated until the last male rep informed me that my items were received but not all of them. He stated that one piece was missing and that is why I owed the money. This rep also accused me of lying when I stated I was told all my items were verified by Charlie. After speaking to the last rep. I gave up and stated I would just charge the amount. He transferred me to the collections department who told me I needed to pay \$150 to have service again. This even though everyone told me \$111.

I paid \$150 to have it turned back on.

Ticket: # 4000608 - At&t withholding my numbers from porting to T-Mobile

Date: 5/29/2020 7:09:31 PM

City/State/Zip: Plymouth Meeting, Pennsylvania 19462

Company Complaining About: AT&T

Description

Att withholding our numbers and we are unable to port them to T-Mobile. The formal reason we have outstanding balance and they cancelled our account and deactivated our numbers the moment we requested pin number to port my 5 lines to another company. We agree to make partial payment even our business is closed during nationwide emergency COVID pandemic, but att representative don't want to release our phone numbers. Also we don't have att service in my house area and promised wifi calling also doesn't work. So basically att requesting money for the service we din't have and no one in att don't want to help us. Despite not having service we paid for all previous months until pandemic shut down and overpaid \$160.

Ticket: # 4000651 - Suddenlink

Date: 5/29/2020 7:56:46 PM

City/State/Zip: S. Charleston, West Virginia 25309

Company Complaining About: Sudden Link

Description

For over the last year she has been paying for a 400mbps (\$54.99mo) service through Suddenlink. She has also been renting a modem/wireless router for an extra 10 bucks a month. The modem they were renting to her is only capable of 100mbps service (which is \$39.99mo.) Which does not support a 400mbps system. We have tried for months to talk to a supervisor even awaiting calls back we have never received. Another route we have taken was calling corporate which lead not only to another dead end but again within 24 hrs we were promised a call from a supervisor however it has been well over 48 hrs and still no word. Suddenlink will not try to resolve the problem. On top of this she now has bills labeled for around \$95.00 a month which did not start till this pandemic began. Last month we bought her a router and modem and they still are charging her the rental fee. Never payed over \$77.00 before. They are cheating customers and not providing the service been paid for.

Ticket: # 4000683 - Comcast Xfinity not complying

Date: 5/29/2020 8:44:47 PM

City/State/Zip: Lee, New Hampshire 03861

Company Complaining About: Comcast

Description

My husband and I have been calling Comcast Xfinity trying to establish a connection for over a month. We each have called 3 times, totaling 6. we were told by multiple reps that we couldn't do so. By the 4th rep we were finally told they would put in a request and expedite it as well as ensure a call back. a week later no such request was put in. We reached out again to a 5th rep who offered no assistance but to follow the normal process even though we asked for expedited assistance (which was not unreasonable as I need internet to perform my occupation. During COVID-19, we are REQUIRED to work from home and they didn't seem to care they were costing me my living wages). We finally asked for a supervisor who had advised he would put in an expedite for the initial part of the request but offered no further assistance to make sure our connection would be set up timely. No ticket numbers were provided until today when we confronted the representatives about it. The representatives also ignored my husbands questions and concerns and never addressed them or even tried to rectify the issue. All we were asking for was after a month of mishandling our account to expedite it, which apparently they were too good to do in this pandemic filled world.

Ticket: # 4000760 - Comcast imposing late fees during pandemic despite pledging not to do so

Date: 5/29/2020 10:28:13 PM

City/State/Zip: Bannockburn, Illinois 60015

Company Complaining About: Comcast

Description

Comcast indicated in a press release that they would be "no disconnects or late fees" associated with the pandemic. Unfortunately a \$10 late fee has been assessed to our company on the bill despite this pledge. Comcast has also indicated that the late fee would be waived upon contacting them, but their self-described 24/7 call center has reduced hours, preventing customers from being able to have their late fees removed or, in my case, their bill paid at all. The autopay associated with our account did not run properly for reasons that I am unable to figure out via online tools, I am unable to call to pay the bill/figure out the technical glitch preventing payment, and I am unable to call to waive payments. I do not believe it is proper of Comcast to penalize customers for their inability to keep pledges or keep call centers staffed.

Ticket: # 4000862 - Twitter Censorship

Date: 5/30/2020 8:36:56 AM

City/State/Zip: Woodbridge, Virginia 22193

Company Complaining About: Twitter

Description

Why has the FCC not stepped in to prevent Social Media platforms from censoring free speech? I thought that was unconstitutional, yet as evidenced by Twitter, Facebook and Youtube from banning contrary opinions on Covid-19 they are preventing the exercise of our first amendment right. I am sure they claim it is a private platform but given these platforms are open to the entire public, they operate in the public sphere.

Ticket: # 4000889 - Bad Node Causing latency issues live video/ audio needed for work/school

Date: 5/30/2020 9:08:33 AM

City/State/Zip: Hudson, Ohio 44236

Company Complaining About: Spectrum

Description

A bad node shown in image has been causing latency spikes of up to 500+ ms every few seconds causing problems with live video and audio for work and school. This has been an ongoing issue since Ohio stay at home order began. I have changed out my equipment and three techs have tested my line to tell me there is no problem. I then started with pingplotter and Winmtr and it was obvious it was a bad node (shown in image). When I brought up the issue dispatch told me they were aware of the issue and that it was expensive to fix and it wasn't presented as a priority. So to clarify ...

Spectrum has sent 3 techs to check the connection at my drop and in my condo during a national pandemic that they knew was caused by this bad node (see image). This should be fixed Asap as it makes using my 400 down 20 up connection useless for school/work.

Ticket: # 4000959 - Covid 19

Date: 5/30/2020 11:34:32 AM

City/State/Zip: Clovis, California 93612

Company Complaining About: AT&T

Description

Hello, I'm emailing because AT & T assured me because of the Pandemic I would have service thru Jun 30th. I like most Americans in this hard time am just trying to make the best of it. I have a son with special needs who uses the internet for his speech therapy.

Ticket: # 4000970 - Directv

Date: 5/30/2020 11:45:39 AM

City/State/Zip: Lafayette, Louisiana 70506

Company Complaining About: Directv

Description

They are charging \$9.99 a month for sport fees when there are NO live sports because of covid19!

Ticket: # 4000985 - Altice/Optimum irregular billing, won't cancel service

Date: 5/30/2020 11:55:15 AM

City/State/Zip: Brooklyn, New York 11221

Company Complaining About: Optimum

Description

Since being overtaken by Altice, Optimum Internet service has escalated about 250% in price, with no change in service. Actually, it's not harder to get service.

I was offered a promotion which would reduce my expense back to a reasonable rate, and the billing has never been accurate.

I've requested to cancel the service outright, as a result of the questionable billing and poor service. I now received additional billing.

I've seen invoices online which a week later were completely changed, suddenly charging different rates, removing discounts previously applied, and escalating the price.

It is now nearly impossible to reach anyone about cancellation. I cannot send an email to cancel; cannot cancel through an online portal. The recorded message uses COVID-19 as a scapegoat, along with technical issues, and busy personnel.

When trying to cancel in the recent past, I was told in an antagonizing way that Optimum had no competition in my area and I would not be able to find a replacement.

Ticket: # 4001012 - Unwanted phone call

Date: 5/30/2020 12:15:03 PM

City/State/Zip: Danvers, Massachusetts 01923

Company Complaining About: Medicare Health Insurance

Description

Caller claiming to be from "Medicare Health Insurance" calling to send me supplies relating to the Coronavirus pandemic.

He gave a sketchy address from San Diego CA, then switched it to Lawrence Kansas when he realized I was writing it down.

Gave phone # 1-877-486-2048 - but caller ID said #1-424-421-7704

Ticket: # 4001081 - harassment and a invasion of my privacy

Date: 5/30/2020 1:40:10 PM

City/State/Zip: Riviera Beach, Florida 33404-4523

Company Complaining About: AT&T

Description

AT&T has started again to harass me again, by knocking me off line forcing me to reconnect with my modem several times to day even while filling out this complaint, they were doing it once a day then twice a day then daily, this not only affects my on line activity but watching movies on my TV. what a way to feel safe with this COVID problems. I am a elderly Veteran.

Ticket: # 4001134 - Full bill charge after account was closed

Date: 5/30/2020 3:06:26 PM

City/State/Zip: Whitehall, Michigan 49461

Company Complaining About: AT&T

Description

I, William Munsee, was laid off due to Covid-19 and was forced to switch carriers due to significant decrease in my bill. I had called May 08, 2020 to make sure our bill was paid so we could switch providers which I had stated. We were not able to port our Numbers till May 13, 2020 and we were charged \$348 cause we were one day into a new bill cycle. I was informed and under the impression we were on May 08 done with AT&T wireless. I called a few different times and got in touch with loyalty department, but the gentleman was not very informative about my situation. I would like a prorated for the 1 day of service or for AT&T to just forget the 1 day that we didn't use and let my family and I go with the little money we have to live on till I get other employment.

Ticket: # 4001148 - Billings and Service Issues

Date: 5/30/2020 3:23:43 PM

City/State/Zip: Blakeslee, Pennsylvania 18610

Company Complaining About: Sprint

Description

A longtime customer of Sprint Wireless. During a time of Pandemic and Economic uncertainty. Sprint has fail to provide alternative billing arrangements and has allow service to deteriorate. Have experience poor service in calls and internet connections within the pass two months. Sprint has been unable to resolves these issues.

Ticket: # 4001158 - No Antenna for KRCB in Santa Rosa

Date: 5/30/2020 3:36:34 PM

City/State/Zip: Santa Rosa, California 95404

Company Complaining About: Krcb

Description

I live in Santa Rosa Calif and had been able to watch KRCB (Northern California Public Media) on my old fashion TV in the living room with my family. On April 29 they moved frequency from UHF to VHF. I have a box and rabbit ears and was told I could rescan my box and still get KRCB. I rescanned and DO NOT get KRCB. I called them and was told that because of hilly/mountainous terrain in the direct line path between the transmitter on Sutro Tower and their location it is not possible to receive KRCB in Santa Rosa, even with a VHF antenna. I now have no TV. I don't have a new smart TV or Roku. I don't have a dish or cable. I only want public broadcast, as I have had for years. This is terrible during Shelter in Place and shameful during a pandemic. It effects my whole family. I have access to a laptop to stream KRCB but it is poor quality and not the same. It was a family event watching programs on my big old fashion TV in the living room. This is so unfair! especially for those of us those of us with a limited income. Public broadcasting is supposed to be for EVERYONE.

Ticket: # 4001177 - Botched History

Date: 5/30/2020 3:57:03 PM

City/State/Zip: Bellevue, Washington 98005

Company Complaining About: Cnn

Description

You botched history. I have been in aviation and aeronautical engineering my entire life. Born and raised in Minneapolis, I've traveled to CA, TX, and FL to be a part of countless Nasa moments. Because of the global pandemic, I cannot be at the live events. I've been watching all my Space X launches via their livestream on YouTube.

With the pandemic, and riots in my home city I figured I would watch the launch on CNN to get more news than just the livestream from Space X. BIG MISTAKE. You...CNN...ruined history. You missed the 2 biggest events of today. When the clock struck 0 and the liftoff happened, you were instead showing a computer simulation of the mission. Why then? You could have shown that earlier or later to illustrate the purpose but at T-minus 0 seconds, you chose to show CGI rather than the real life rocket. Embarrassing. I know you were on a delay so don't say it was in case of a disaster, you just messed up.

If that wasn't bad enough, the stage 1 landing on the ship in the ocean is the second best part. You again, were off talking about other things. I had to re-watch the entire event AFTER it happened because you failed at memorializing this history event. SHAME ON YOU for calling yourself a broadcast news company. You failed space and aviation enthusiasts.

Ticket: # 4001188 - Fraudulent Charges**Date:** 5/30/2020 4:17:08 PM**City/State/Zip:** Louisville, Kentucky 40214**Company Complaining About:** Spectrum

Description

March 17th-19th I tried to cancel my cable through Spectrum via phone (do not allow you to cancel partial services online through their site). Received message "Due to high volume we are not accepting calls at this time" and was then disconnected. Finally got through via phone the morning of March 20th. Cable service was terminated during that call. Spectrum has been charging me for services not rendered plus late fees ever since. I have contacted them multiple times and reported them to the FTC but this issue has not been resolved. They simply keep telling me that they were busy due to COVID-19 and because service was canceled after the bill was printed they cannot refund my account. FYI: Spectrum holds a monopoly in this area so I do not even have the option of switching to a new provider.

Ticket: # 4001214 - Suddenlink is terrible

Date: 5/30/2020 4:48:47 PM

City/State/Zip: Enid, Oklahoma 73703

Company Complaining About: Sudden Link

Description

I arranged for my 80 yr old mother to have suddenlink bring her a new cable box and large remote for her eyes to connect to her new tv. The old box was outdated and wasn't working properly. I fully explained the situation after calling over 3 different days and being on hold for hours. When they arrived they connected the current box to the new tv and said they had no order for a new cable box and handicap remote and she would have to call again. She gets beyond anxious every time she calls and it takes hours on hold as they have furloughed all their staff and farmed calls to other countries, blaming it on covid. They have always had poor cust svc with no other options in Enid.

Ticket: # 4001293 - Directv - "Channels I Get" - Deceptive Trade - Not Channels the consumer actually receives.

Date: 5/30/2020 6:12:07 PM

City/State/Zip: Las Vegas, Nevada 89139

Company Complaining About: AT&T

Description

Directv lists all the channels available to the consumer based on their programming package. Due to the economic/covid crisis I have had to cut expenses. Not crying about it. Directv & ATT demonstrated to me on the phone today that they do not care about individual consumer cost concerns or how overpriced ATT is for consumers.

I changed programming package from Choice to Select.

When I looked on the ATT Directv "Settings & Help section " and "Channels I Get", ATT Directv list the programs the consumer should receive and call "Channels I Get"

According to ATT Directv All Channels & Channels I Get page, They state, "Listed below are all available channels. The channels you receive are marked. Use numbers to jump to a channel". I input 206 ESPN, not available. (See Image Attached). I input 692, 693 694, 696, not available. (See Image Attached). Nor is 215, & 216 , although ATTs Directv system clearly states I receive them.

This company and its employees (Bel, Joanna (Supv.) &v Adam (Senior Supv.) These people would not answer my question , "Where is ESPN, I should be recieving according to the Channels I Get system list?"

"Where is 692, 693 and all the channels Your system says I am to receive according to the Channels I Get system list?"

Bel, Joanna (Supv.) &v Adam (Senior Supv. responded with misdirect and confusing language in attempt to not answer the questions.

Please see images attached.

At the time of this writing ATT has blocked me from accessing my account when I went to retrieve my account number for this form per FCC request.

Ticket: # 4001294 - Spam call

Date: 5/30/2020 6:13:35 PM

City/State/Zip: Coventry, Connecticut 06238

Company Complaining About: Potential Spam

Description

Unwanted spam call for Covid-19

Ticket: # 4001407 - Verizon Jetpack

Date: 5/30/2020 9:47:28 PM

City/State/Zip: Brooklyn, New York 11225

Company Complaining About: Verizon

Description

I purchased the Verizon Jetpack at the onset of the Corona Virus pandemic. I left the city and never used it. Subsequently, the store closed so I was unable to return it. When I tried weeks later I was told there would be an enormous cancellation fee. I would like to return the item sans cancellation fee and return to my original plan.

Ticket: # 4001547 - Cox disconnected my internet service recently

Date: 5/31/2020 7:02:24 AM

City/State/Zip: Escondido, California 92027

Company Complaining About: Cox

Description

I have been a loyal customer to Cox communications here in northern San Diego County for 4 years. I was unable to pay due to a close friend contracting the corona virus. Not being able to contact friends or being formed of local covid updates has made things even more difficult.

Ticket: # 4001549 - Re: [FCC Complaints] Re: Re: Request received: Re: [FCC Complaints] Re:Phone service by landline

Date: 5/31/2020 7:09:59 AM

City/State/Zip: Laurel, Maryland 20708-3204

Company Complaining About: Windstream Communications

Description

This is a follow-up to your previous request (b) (6) "Re: Request received: Re: [...]"

----- Original Message -----

Date: Tue, 05 May 2020 13:13:47 +0000

Hi. They turned off my landline service. They had no right to do so due to law prohibiting utility turn off during covid 19 pandemic regardless if phone company was discontinuing service to customers or not the lines need to stay open. I need my landline to talk to family, bills and many other life reasons. I am a senior citizen and this is not right.

Also based on what I found out, other landline phone companies will not port my number since I have had it longer than ten years. Is that true?? I want to keep my number indefinitely because I have had it for 32 years!!!!

Thank you in advance. (b) (6)

Ticket: # 4001568 - COVID-19 Financial Hardship Discrimination

Date: 5/31/2020 8:32:57 AM

City/State/Zip: Syracuse, New York 13204

Company Complaining About: Boost Mobile

Description

Hi, my name (b) (6) and I am a customer of BOOST Mobile. My phone number is (b) (6) and i've been with BOOST for nearly 6 months more or less. I am being discriminated against by BOOST Mobile as a disabled American who is refusing to give me payment arrangement so that I can pay my arrearage and stop my phone from being cut off. The basis of the discrimination is that my cousin who lives with me and is a Boost customer had her account credited for the month of May and Boost mobile is denying me the same privilege in violation of my 14th Amendment right. The company is denying me the same privilege that it is giving other customers in violation of the United States Constitution during this COVID-19 pandemic - Financial Hardship. Finally, the company has not given me monthly bills since the beginning of my service with them in violation of the Uniform Commercial Code (UCC) so I can dispute any bills, nor has given me any required documentation of any Grievance Process. I request a printed bill every month, and help because my phone will be cut off tonight. Thank you

Ticket: # 4001616 - Issues with HughesNet

Date: 5/31/2020 10:10:48 AM

City/State/Zip: Savannah, Missouri 64485

Company Complaining About: Hughes Net

Description

On Friday, May 29, in the morning I call HughesNet to cancel my satellite internet citing that it is not capable of handling the type of work I need to do based on the current pandemic (latency issues and inability to stream without delay/buffereing). As college teachers we have no idea what we will be facing in the fall and being able to teach online for the near (or even far) future seems to be what we must plan for. HughesNet tried to get me to continue, or to pause the service even while admitting that their service could not provide me the ability to do my job currently. They will not cancel the service until June 13, my next billing date and at that time there will be added an early termination fee of \$280 because there will be at that time 14 months left on the contract. Additional information in the attachments--a more detailed explanation and a HughesNet email.

Ticket: # 4001651 - Speed connect internet

Date: 5/31/2020 11:07:49 AM

City/State/Zip: Mayville, Michigan 48744

Company Complaining About: Speed Connect

Description

I use to have internet that worked however especially during covid I've been having internet upload and download speeds so slow I can't watch ufc fight night on espn+ . I live in a area where speed connect is the only high speed internet available. I've called them in the past to fix the problem but my attempts never seem to make a difference, they will not reply to my emails anymore. I pay almost 70\$ a month for internet that has uploads speeds slower than 1 millibyte I'm supposed to get up to 50 megabytes per second..... It's a crime what they are doing they are stealing from me and selling me a subscription that can't fulfill , I'm unable to use any other subscription that requires internet (Hulu, Netflix, ESPN+, etc.) they should have to pay me for all these subscriptions for the last 5 months because I have no internet.

Ticket: # 4001714 - ISP Forcing Us To Slower Speeds**Date:** 5/31/2020 12:39:26 PM**City/State/Zip:** Blountsville, Alabama 35031**Company Complaining About:** Otelco

Description

Our ISP, Otelco, has been trying to force us to a slower speed for roughly a year. We normally get 8mbps on DSL, and one day roughly a year ago we were told that we can NOT get 8mbps in our area. We were told we could ONLY get 4mbps, and that they were lowering the speed and our monthly price. We told them NO, we do get 8mbps, and to not touch it. Well, they told us that we will just pay for the 4mbps price and still get 8mbps speeds. That is exactly what has happened for a year now until recently after another phone conversation with them concerning trying to get PROMISED fiber in our area. They, again, told us we CAN NOT get 8mbps, and this time they lowered our speeds to 4mbps. This is UNACCEPTABLE. In this current world, our children can't even do online school work during this pandemic with such slow speeds. We have patiently waited for 5 years now for their PROMISED fiber expansion, and now it's almost like they are attempting to FORCE us out of service, as this is a rural area which probably does not net them much profit. We are BEGGING that immediate federal intervention be taken, please!

Ticket: # 4001727 - Sprint keep America's connected

Date: 5/31/2020 1:06:22 PM

City/State/Zip: Coon Rapids, Minnesota 55448

Company Complaining About: Sprint

Description

Sprint has shut my phone off 5 times during the covid crisis due to billing to get it turned back on I have to call numerous times, they try to tell me i need to pay them now in order to turn my phone on i get different answers on the amount they tell me they are going to shut it off in 2 weeks

Ticket: # 4001737 - Sprint

Date: 5/31/2020 1:10:40 PM

City/State/Zip: Spokane, Washington 99208

Company Complaining About: Sprint

Description

Hello. I was under the impression that phone provers weren't able to disconnect during the pandemic. I have been turned off twice now in a two week period. Today the 31st then again on the 16th.... I contacted an agent on Thursday the 29th to inform them I still didn't have a payment has my unemployment hasn't come in since their was a freeze in Washington. The agent informed me I wouldn't be able to catch up even after the pandemic, proceeded to tell me my service was secured then today I get turned off. I informed them I was contacting you guys. My service has now been restored until June 16th.

Ticket: # 4001744 - Telephone Fraud

Date: 5/31/2020 1:25:36 PM

City/State/Zip: Anasco, Puerto Rico 00610

Company Complaining About: Fedex International - Lic. Jose Manuel Megollan Ozuna

Description

On the morning of Sunday, May 31, 2020 at 12:21 pm, a call was received apparently from Fedex International informing about a package of licenses from the Puerto Rico Department of Health and asking for a payment of \$ 900 for licenses to operate in the emergency. from covid-19. They gave us a tracking number that is as follows: (b) (6) the call was apparently made by Attorney Jose Manuel Megollan Ozuna and the phone number that was made was 477-677-1522

Ticket: # 4001749 - No Internet

Date: 5/31/2020 1:28:34 PM

City/State/Zip: Cary, North Carolina 27519

Company Complaining About: AT&T

Description

Our internet has been out since Friday! The neighborhood has experienced outages. AT&T has not worked on the problem! Others have been told it is a bad Modem. We were told 24 hours. It has been 48 hours and counting. In the midst of a pandemic, we cannot afford not to have this service.

Ticket: # 4001757 - Verizon phone & Internet

Date: 5/31/2020 1:45:23 PM

City/State/Zip: Brooklyn, New York 11204-2028

Company Complaining About: Verizon

Description

On 1/27/20 I switched phone & internet service fro Verizon to Optimum. Verizon was notified by Optimum and myself that they are no longer my service provider. When I called, I was told that I will receive a box with a return label to return their router. As I didn't anything from them, I called again, and again I was told that I'll receive a box and a return label. I received another bill from Verizon for \$132.26 and like a fool I paid it. When I received another bill, I called again and was told to take the router to a Verizon Store, by then we were already in middle of the pandemic and i was quarantined. I told that to Verizon and was told again that I'll receive a box with a return label but all I'm getting is more and more bills. Currently I'm due a refund from Verizon as of 1/27/20 and I still haven't received the box and return label they keep on telling me. My last communication I received is a letter from a collection agency. I may be reached at (b) (6) anything you can do to help me would be very much appreciated.

Ticket: # 4001846 - WOW broke an agreement made regarding my bill.

Date: 5/31/2020 4:07:37 PM

City/State/Zip: Augusta, Georgia 30904

Company Complaining About: Wow

Description

I have phone, internet and cable service with WOW. On 4/29/20 I called WOW and spoke with Customer Rep Eric about my past due bill. I was told if I pay \$250 of my \$592 bill my services would remain on and in good standing until the end of May. I agreed to pay \$300. I paid this amount and WOW still cut all 3 services off 5/13/20. I was told cable was not an essential service and if I wanted the services back I had to pay the balance of \$292. I felt defeated and lied to. I tried to make several calls to corporate and all calls would lead back to customer service. I finally spoke to a Supervisor and pleaded with him. He agreed to cut the services back on if I paid the current past due amount of \$70. The \$191 needed to be paid by 5/26/20. I paid the \$70 and the services were restored. This is not the first time WOW has made an agreement with about my bill and then disregarded the agreement. The services I pay for with WOW do not work properly. I have made Service calls about my equipment for over 3 years and the services still act up. The last 5 weeks the internet signal has been weak. I want WOW held accountable for their actions especially during this Pandemic. They are taking advantage of customers. I am tired of being billed for poor service.

Ticket: # 4001871 - Poor Service

Date: 5/31/2020 4:41:34 PM

City/State/Zip: Frisco, Texas 75036

Company Complaining About: AT&T

Description

I have had numerous problems with my service to include slow internet, loss of service ,equipment malfunctions. I have tried to reach out to ATT Tech support and customer service without any success. I have waited several times with wait times exceeding 60 minutes and then being disconnected other times said just to call back and disconnected again. Today I tried contacting ATT regarding my remote control it stoped working during the last ATT outage and needed assistance. I was given a hard time and was told that it was my problem. I ask to speak with a U.S. supervisor in which he was unable to help me I then ask to speak with someone regarding terminating my service due to the above. I was again put on hold for almost an hour then was disconnected without speaking to anyone. This is the only way to communicate with ATT is through the FCC which is unacceptable I understand the wait times due to the pandemic but poor and rude customer service is unacceptable my resolution is to terminate my contract with ATT without penalty so I may find a provider that will provide the basic service and customer service and without interruption.

Ticket: # 4001876 - Cox internet disabled after payment

Date: 5/31/2020 4:48:15 PM

City/State/Zip: New Orleans, Louisiana 70130

Company Complaining About: Cox

Description

After I paid my bill with a debit card Cox disabled my service and said I had to wait until Monday June 1 to get it back on. This is the second time they have violated the FCC rule on not disconnecting anyone's service. Mine you I have MS, and other diseases where I can't be out during this Pandemic. I am not even afforded the opportunity to get on hotspots. I have called Saturday night. And was in 2 chats. On Sunday I tried reaching them to resolve this and so far as of 3:45 pm Sunday I haven't gotten thru to them to resolve this issue. Cox gets your money then leave you with no service and I'm sick of it. You get no help from them. They just pass you to someone who don't deal with my issue or no one answers the switch over which I waited one time for over 2 hours just to have the person get back to me the next morning after I finally hung up.

Ticket: # 4001900 - Blocking from a public/local forum

Date: 5/31/2020 5:26:12 PM

City/State/Zip: Kingwood, Texas 77339

Company Complaining About: Assurance Wireless

Description

About a month ago, I posted a some information about a study (that was done in 2005) in helping with curing the SARS virus (which is similar to COVID-19).

This was posted on a local/public forum. It is www.kingwood.com, and on the "Forums" link. The administrator (whom goes by Joe), removed my post, and has blocked me from posting anything else.

This is a local and open forum.

I did NOT using any wording that would be a violation of the rules. I believe others have complained about his biased attitude on this forum.

I hope you will look into this violation of free speech.

Thank you for your time.

Ticket: # 4001912 - COVID response

Date: 5/31/2020 5:46:59 PM

City/State/Zip: Tulsa, Oklahoma 74134

Company Complaining About: Cox

Description

Even though Cox cable has said they are abiding by the FCC "Keep America connected" they are not. My family has been affected by COVID and wanted to pay our bill 2 days later. I called to ask them to extend my date and they refused. I told them about their commitment to the FCC and they stated that they weren't terminating my services but interrupting them. Interruption still means I can't work from home and my children still can't learn from home. Their CEO even stated on their web page to keep people connected. The rep on the phone even told me there is a fine line between interruption and termination and acknowledged we basically would not be connected as stated by their CEO.

Ticket: # 4001915 - AT&T Fiber Optic Internet Service Outage**Date:** 5/31/2020 5:50:26 PM**City/State/Zip:** Cary, North Carolina 27519**Company Complaining About:** AT&T

Description

My AT&T service has been out since 11:00am on Friday, May 29, 2020, as part of a broader service outage for my neighborhood and surrounding communities. I spent hours on the phone with AT&T to resolve the issue that they said was not a service outage when in fact, I later discovered that it had been reported hours earlier. I have been without internet, television and none of my connected home equipment has worked for 3+ days due to the outage. I will not be able to work from home on Monday, June 1 since service is still expected to be out (my employer is still closed due to COVID-19).

Ticket: # 4002052 - AT&T extended downtime and misleading customers

Date: 5/31/2020 10:01:28 PM

City/State/Zip: Cary, North Carolina 27519

Company Complaining About: AT&T

Description

Friday at ~11 AM ET May 29, 2020 AT&T Internet went down in our neighborhood and there has been complete downtime since. Among other things, we are unable to work in the pandemic with physical locations shut down. In addition, AT&T has intentionally mislead customers each day saying they are working the problem and it would be fixed the next day each day of the outage. We know they are misleading us based on insiders (NextDoor) telling us no actions in the case have taken place since an initial troubleshooting step was taken on Friday. Furthermore, they are telling customers different stories that are completely inconsistent and false to pacify us. As a business, AT&T would not accept this level of extended downtime from its partners or providers in any single one of their business units. As their customer, we expect the same level of commitment from them. We cannot accept this level of extended service unavailability.

Ticket: # 4002055 - Sprint

Date: 5/31/2020 10:30:05 PM

City/State/Zip: Phoenix, Arizona 85054

Company Complaining About: Sprint

Description

I was not able to use my phone for last two months due to phone not working correctly. I'm also, paying for a service I can't use. I had to buy a prepaid phone so I can receive my calls. Plus, my account was compromised and I had issues with identity theft. During COVID 19 I really needed my phone for jobs but sprint kept suspending me due to non payment. I'm not working and the fees are ridiculous plus, my bill is almost \$400 every month. I can not afford this. I Need options to keep my services but lower my bill.

Ticket: # 4002059 - Complete lies from Cox

Date: 5/31/2020 10:35:35 PM

City/State/Zip: Phoenix, Arizona 85054

Company Complaining About: Cox

Description

I was told two different stories. I was told my representative that getting complete cox care on my account It would include technician fees. Then I was told not true. Then the technician came out to just replace modem but then I asked there are no fees for this appointment correct? He said No fees. Then I get charged \$60 for appt. I was lied too and I feel helpless, then my service was shut off due to COVID-19 I can can barely pay bill then they charged my \$25 fees and shut off fees. This is a hard time and they're business practices are disgusting. I need these issues addressed and fees reversed. Where is the compassion.

Ticket: # 4002080 - Bill complaint against Verizon on a phone line that is not used at all

Date: 5/31/2020 11:50:38 PM

City/State/Zip: Los Angeles, California 90019

Company Complaining About: Verizon Wireless

Description

I am submitting a formal complaint regarding my phone line with Verizon (b) (6), the mainline on the account is (b) (6). The line ending in 3737 has not been used for more than 6 months, I have also fell behind due to COVID-19 due to loss of hours and wages. I have contacted Verizon and I have not been able to get anyone to call me back due to COVID-19. The problem with that is that I have a bill and I am falling behind due to my loss of wages. Please have someone assist me in getting this fixed I owe over 1000\$ because I have falling behind. The best way to get a hold of me is via cell at (b) (6)

Ticket: # 4002126 - Re: Internet Speed is only 1/10th of what I pay for

Date: 6/1/2020 8:01:55 AM

City/State/Zip: Wellington, Florida 33414

Company Complaining About: Comcast

Description

This is a follow-up to your previous request (b) (6) "Internet Speed is only 1/10th of what I pay for"

Follow-up comments

The issue is not resolved. The provider can't rectify the issue because they can't send a technician to correct the problem due to Covid neither they can provide a move date, so they removed two months charges. This is not a satisfactory resolution, I am not here to save money. They advertise 100MB speed they need to provide sustained internet speed of at least 75% of posted speed. It is not a local issue it has to be a network issue or other problem is their services.

Ticket: # 4002273 - Area of service.

Date: 6/1/2020 10:07:31 AM

City/State/Zip: Westport, Massachusetts 02790

Company Complaining About: Youtube Tv

Description

Hello. I live in Westport MA but I guess because we are so close to RI that we only get Providence news stations. But I live in Massachusetts and I want access to Massachusetts news stations and any tv provider will only offer the Providence market stations. That's messed up. I have had directv in the past and only can get Providence. Now I have YouTube tv and still only Providence. Bought an antenna and can't get a strong enough signal to clearly and fully watch Boston stations without interference. It's disheartening especially during this pandemic when I have to try to watch the governor on my phone.

Ticket: # 4002289 - Blocking my employer's VPN

Date: 6/1/2020 10:11:24 AM

City/State/Zip: Hagerstown, Maryland 21740

Company Complaining About: Antietam Cable

Description

I live in Hagerstown, Maryland where unfortunately Antietam Cable has a monopoly on the internet options for high speed internet. Due to Covid-19, my job has closed its offices and we are purely working remotely. I have to use high speed internet to log onto my company's VPN. It was working fine until about three weeks ago when Antietam Cable began blocking the VPN. I have conferenced both my company's IT and Antietam Cable's IT on the phone, and they both agreed that the problem is stemming from Antietam, however no IT person can determine how or why it's being blocked. They actually go so far as to state the official line, "We do not block any VPN's," however they agreed with my IT person that the problem was coming from them. I have been unable to work and am thus losing money. They seem uninterested in correcting this problem, and I have no other way to access the internet, besides trying to use my cellphone hotspot to logon to the VPN which is very slow and often disconnects.

Ticket: # 4002307 - Internet disruptions**Date:** 6/1/2020 10:27:54 AM**City/State/Zip:** Sterling Heights, Michigan 48314**Company Complaining About:** Comcast

Description

I have Comcast prepaid internet for months now, my internet will go out for HOURS at a time. Sometimes 8 hrs or longer. I've tried to reboot and restart my modem, I've called them for assistance but they can never figure out what's wrong, they claim they can't give me a refund for this month. Because I wish to cancel my service. I spoke with a gentleman named Mark. His employee number was 53557. They claim they can't cancel my service and refund me for this month because I'm half way thru my service. But I've been having this issue continuously for months and I was reluctant to get new service because of the amount of time it will take to have it installed and with the pandemic going on I was trying to avoid the hassle. It's annoying but it was cheap service, so I didn't expect a lot. However as time has went on, I've been a loyal customer with Comcast, and yet the problem is not only consistent at least once a day it'll go out for maybe 30mins to an hour, the problem is actually getting worse and worse as time passes. They claim they can send someone out or reboot the service but at this point I feel that Comcast is purposely slowing down and stopping my service for whatever money saving scheme they are trying to do. Because it makes absolutely no sense that something like this should be happening. My internet went out at around 8pm last night. It's now 10:30am and it's still not working. I've been on the phone with Comcast for the past 3 and a half hours and am still on hold and nobody will help me. Mark said he WILL NOT give me a refund for this month, but he will send in a request, which I didn't make sense. If he wasn't giving me a refund, who was he going to ask for approval?? Since it seemed he already made up his mind that it wasn't worth his time. I had to argue with him to be transferred to someone above him. And the first time I called they hung up on me and I had to call back and do the process all over. Mark is extremely rude and doesn't seem concerned with my issues.

Ticket: # 4002353 - Pending Issue with Verizon**Date:** 6/1/2020 10:49:02 AM**City/State/Zip:** Bronx, New York 10473**Company Complaining About:** Verizon

Description

To sir or Madam,

This is a follow up , and or update on the response to Verizon. A representative from Verizon credit Dept called are home on Friday. And She said EquiFax would have all of the information The Rep stated that all the credit information they have to verify goes to Equifax. So I told her my mother will call to verify, her credit. I ask the Lady whether the check was received to close out the account, she did not verify, then I stated that Is my mother paying \$250 because the equipment has not been returned ? She told me customer service can answer that. I said well My mother is not Paying \$250 dollars for nothing . AT ALL !

So My mother spoke to the Gentleman Handling the Call at Equifax and I was present at the time of the call. She gave her information to him, he checked and said There is nothing on File here , nothing owed by credit. Nothing at all

so who Is Lying Now ! Does Verizon what customers like my mother to Pay \$250 dollars Just because ? I hope i find out. They are being very sneaky and things don't seem right with No reasonable information just saying its company policy that customers pay \$250, I said not for no reason, people don't have money to give away like this. My mother put the needed info for credit check into the system already social security # and drivers licence the Executive Dept said to me that once you put in the social security number you won't have to pay \$250 and My mom did that. I also placed an order online order and It went through with no problems at all, even gave an installation date. Nothing came up in the order of paying \$ 250 . Its always A new story. I try to reach The Executive Rep

Olan He never called me back He was the first representative to contact us to go back to Verizon. The Equipment, will be sent back by tomorrow. BY UPS. The store for Verizon is not at our reach or not open Due to COVID-19 . But The representatives, are on a recorded line, But the don't tell the truth. I refuse to have myself or mother being taken advantage of. So If the FCC can step in to help us to solve this give us the truth on whats Regulatory and not fraud Please let us know. Every time there is a different story to getting our service placed. A social security number is not to be played with after Entering it I hope no one is using It for Fraud, and hope it doesn't stay on File. That is are concern We want to start our service .

City/State/Zip: Pomona, New York 10970

Company Complaining About: Optimum

Description

I have had 3 service calls in the past 2 weeks to look into my issue of poor internet service. I have increased my speed from 100 to 400 mbps. The issue has yet to be rectified. I am being charged for a service i am not receiving. I see this as fraud and Altice is taking advantage of the COVID-19 situation we are all experiencing. My technicians are stating it is an issue outside of my home which needs to be addressed. Altice has not sent anyone yet to address the cabling issues in the area. And yet they see no issue in increasing my bill. My neighbors are having the same issues as I am having. Since Altice has taken over i see a decrease in customer service. Please help.

Ticket: # 4002395 - Poor picture on my television

Description

I have had 3 service calls in the past 2 weeks to look into my issue of poor television picture quality. The issue has yet to be rectified. I am being charged for a service i am not receiving. The wind blows and i get a "pixeled" picture. I see this as fraud and Altice is taking advantage of the COVID-19 situation we are all experiencing. My technicians are stating it is an issue outside of my home which needs to be addressed. Altice has not sent anyone yet to address the cabling issues in the area. My neighbors are having the same issues as I am having. Since Altice has taken over i see a decrease in customer service. I filed a complain on internet as well. Please help.

Ticket: # 4002397 - Xfinity/Comcast

Date: 6/1/2020 11:06:30 AM

City/State/Zip: Chambersburg, Pennsylvania 17202

Company Complaining About: Comcast

Description

Asked to stop TV service in April when tv box stopped working. Had past due balance to pay . I had a past due balance that needed to be paid and advise them we no longer want to TV services when I paid the past due balance in full they reconnected my TV services for billing even though the TV box did not work I could not turn the box in because of the COVID-19 and they were closed now they don't open till June 8 and I have again a past two balance of 300 and some dollars when we did not want toHave the TV service. I've tried to resolve this with them several times all they wanna do a switch out the boxes and give me a new box which I don't need I have the latest communication with them as you can see if needed I will send those to you I continuously asked not to have TV services and they're only resolve is to send me a new box.

Ticket: # 4002407 - Regional Sports Fee on every month bill

Date: 6/1/2020 11:09:53 AM

City/State/Zip: Iselin, New Jersey 08830

Company Complaining About: Comcast

Description

As a Xfinity customer, there is a charge for "Regional Sports Fee" even though I am not watching it. Also especially during the COVID-19 situation when there are no live sports, it is indeed sucking the customers money by over charging this amount in every month's bill.

Ticket: # 4002467 - Deceptive illegal billing practices

Date: 6/1/2020 11:30:56 AM

City/State/Zip: Largo, Maryland 20792

Company Complaining About: T Mobile

Description

I have been with T-Mobile for over 20 years never missed a payment and without any warning or notification T-Mobile disconnected suspended my services on or about 05.31.2020, although my closing date is 06.02.20, and my account was paid in full for this period of time. When I reached out to T-Mobile to find out what was going on and why services were disconnected. I was told my bill was past due and I owed \$129, when my monthly bill is \$80. Although technically my bill was not due until 06.2.2020, I paid \$80, and service still were not restored. I placed a second call and was told I owed \$48.88, which was additional charges for restoring services, and past due balance. T-Mobile is illegally billing my account for third party charges which I have disputed and continued to dispute to this date. T-Mobile have no legal right to collect or bill for third parties and once consumer dispute charges cannot disconnect services while the dispute is in progress. During a pandemic while folks are unemployed, homeless T.Mobil showed no compassion, did not offer any extension just disconnected services based on fees that were no legal. This is unexcusable way of doing business during a difficult time for many families but must importantly totally illegal.

Ticket: # 4002489 - Charter Availability Complaint**Date:** 6/1/2020 11:41:40 AM**City/State/Zip:** Webster Groves, Missouri 63119**Company Complaining About:** Charter

Description**Subject:** Charter's Pledge

I know the Keep Americans Connected pledge is something you have been passionately involved in and I'd like to thank you for your efforts to support small businesses and families. I am writing to inform you that while Charter/Spectrum signed the pledge, they are not following the guidelines they agreed upon. My restaurants' service was shut off today for a 1 month past due bill of barely over \$100 dollars. We received no notification via phone or email (they claim it was on our bill which we likely did not receive because our businesses were forced to close and mail was held at the post office). We opened our restaurant this morning with no knowledge that our service had been disconnected. This resulted in dozens of orders being placed online for curbside service and we received none of them, as our online ordering tickets do not come through without an internet connection. So now, due to their greed and decision to not follow their pledge, rather than being able to make a little money (after being financially CRUSHED for the last two months) on a Saturday curbside brunch, we took a financial hit and provided negative experiences to our guests. This action on their part is incomprehensible. We have multiple businesses and accounts and a record of timely payments. Only one month late and with no attempt to contact us to resolve the issue, they chose to disconnect our service. Had they not committed to continuing service, we would have prioritized their payment. Knowing they had agreed to not discontinue service, we allocated funds available to other small, local, family owned vendors' bills. I'm blown away yet not surprised. We are fighting tooth and nail to keep our businesses alive through this and hits like these hurt now more than ever. We cannot afford these missed revenues. We cannot afford to provide a less than perfect experience to our guests. I don't know what I expect this email to result in but I feel that it is important that a person or company is held to their word. Charter should not be able to publicly claim that they are part of an initiative to support small businesses if they are not doing so. Thank you for your time.

As we continue to see and feel the effects of COVID-19 our restaurants will be limited to curbside service to ensure the safety of our team. We look forward to the time where we can welcome you into our dining rooms to enjoy our excellent food, beverage and hospitality. We appreciate your continued love and support!

Ticket: # 4002583 - dispute resolution for non service requested and not done; debt sold to collection agency

Date: 6/1/2020 12:13:19 PM

City/State/Zip: Goshen, Massachusetts 01032

Company Complaining About: T Mobile

Description

T Mobile service for cell phone was bought end of December 2019., but once home, no cell connection was available, so account was cancelled after 2 days. I paid the partial bill but T Mobile charged me for \$40 port fee which the store manager told me he would get it waived. T Mobile continued to bill me, in March I called T Mobile 3 times to dispute bill. They said due to Covid they would get in touch with Michael, manager of brick and mortar store, and they would call me back. They never closed the dispute with me and sold the debt to a collection agency. T Mobile on 06/01/2020 confirmed with store (recently opened) that store manager wanted to waive the \$40 for me, but b/c account was closed he could not. T Mobile help line said debt was sold one day ago to debt collection agency but they couldn't tell me who that was. No resolution was given to my dispute which kept me on phone for hours.

Date: 6/1/2020 12:18:48 PM

City/State/Zip: Urbana, Illinois 61802

Company Complaining About: Frontier Communications

Description

This is the second time I have been forced to file a FCC complaint against Frontier Communications due to excessive line interference or lack of dial tone. We are a business that is having to spend hours each month (or every other month) dealing with phone issues through this company. As they are a monopoly, I have zero options for choosing another provider. This is costing me valuable time and lost income due to not being able to process orders - which is even more dire due to the Covid situation.

What recourse do I have? Can I file a lawsuit in small claims court against Frontier Communications? This situation is untenable as it currently stands.

Ticket: # 4002760 - STELA Act Expiration & June 1 2020 loss of local channels from east coast west coast feeds

Date: 6/1/2020 1:09:46 PM

City/State/Zip: Blakely, Georgia 39823

Company Complaining About: Directv

Description

As of June 1, 2020, I have lost my Direct TV access to local channels via east coast (NY) & west coast (LA) feeds. I understand this has happened because the STELA Act was not renewed by Congress. Please help us to restore access, otherwise, I cannot see/hear news coverage at a time of pandemic crisis in our Country. I understand that 1.5 million people have been affected by this as of today. This is an emergency. We are isolated in very rural areas & need access to ABC, CBS, NBC, & FOX coverages from the east/west coast feeds because we do not have opportunities for any other local coverages in these rural parts of the country.

Ticket: # 4002815 - ATT turned down 530-669-7669 porting out request 2 times

Date: 6/1/2020 1:25:50 PM

City/State/Zip: Woodland, California 95776

Company Complaining About: AT&T

Description

To Whom It May Concern. Hope this email find you in a good spirit and show that I am trying to stay objective.

On 05/12/2020, per Tello.com, "We have initiated the port-in process for the number 1(b) (6) as you requested, but unfortunately, it was rejected by your previous mobile provider, indicating that there is a pending order with them.

On 05/15/2020, I called ATT and was told that my phone service would be disconnected on May 19, 2020 and the phone number (b) (6) will be kept for 30 days. Later I emailed tello.com the same information.

On 05/31/2020, per Tello.com, "Your porting request for the number 1(b) (6) has been submitted but unfortunately is being delayed by your previous provider. We have not received any type of response from their end."

On 06/01/2020, I called ATT and was told that a customer service supervisor would contact me addressing my concerns with their inconsistent porting-out information provided by ATT customer service reps.

ATT has not called back to me yet. I understand it may take longer due to COVID-19. However, judging from my own experience and other people's complaints on line, I do not know what to expect.

Best regards,

Ticket: # 4003139 - Bill Discrepancy

Date: 6/1/2020 3:14:21 PM

City/State/Zip: Houston, Texas 77073

Company Complaining About: Comcast

Description

I am currently a Comcast customer and I have autopay installed. Comcast services withdrew 226 from my account due to autopay and two days later, withdrew 202 because of a payment arrangement that I set. Despite Comcast taking 426 within two days, during this Covid19 pandemic; I dont want a refund. I simply want the 226 that was deducted from my account to be recognized and reflect from my bill along with the 202 that was taken two days later. I have called and spoke with Representatives from Xfinity and they all tell me that I didnt pay the 226 and that its due. I dont like the fact that I have to file a complaint with the FCC when at this time there are much more larger issues that America is facing right now but I am a family man of 4 and no longer with employment and I cant let this issue go. I have bank statements and documented photos supporting my claim.. Thanks in advance for taking the time go over my claim.

Ticket: # 4003168 - Repeated multiple day no service

Date: 6/1/2020 3:21:54 PM

City/State/Zip: Cameron Mills, New York 14820

Company Complaining About: Verizon

Description

Background: Literally decades of abysmal service from noise too outages.

Latest issue of no service this year begins with ~ one week of no service starting with Ticket

(b) (6) reported on April 28, 2020.

We are now in the third period of no service beginning May 29th and as of this writing still out.

My wife and I are elderly with significant health issues (I am a Viet-Nam vet with two service connected cancers attributed to Agent Orange plus stage 4 kidney disease.

Please note that we have no cell phone service at our home so must rely on the abysmal Verizon "service". I am concerned that in a health or other emergency we may not get timely help. COVID is no excuse as this is a persistent problem.

Ticket: # 4003327 - Scam Text

Date: 6/1/2020 4:05:10 PM

City/State/Zip: Davie, Florida 33325

Description

The consumer states that someone sent out a message to her through Whats app saying that because of COVID-19 all affected families would receive a gift cards from them.

The text message said "Whole food is giving \$175 per family this week to support families during this pandemic please click on the link to get the voucher <http://www.wholefoodsmarket.com/175usd.club>.

The consumer states that once you click on the link it prompts you to do 3 more steps in order to get the voucher.

The consumer called Whole Foods and they did say that it was a scam they aren't just giving away money.

The consumer wants to file a complaint.

Ticket: # 4003555 - ViaSat Cable Account**Date:** 6/1/2020 5:33:04 PM**City/State/Zip:** Oak Hills, California 92344**Company Complaining About:** Viasat

Description

My wife is a teacher who had to work from home due to COVID19. We live in a very rural area, about 10 miles from school. We have had Frontier Internet for years, but my wife needed faster service to communicate with students on Zoom, interact with district office, review student work, post finals, and submit grades. Frontier was just too slow to do all she needed to do for with students.

We called ViaSat because they claimed we could get faster service than we were getting with Frontier. We had to wait over a week for install, which was fine. However, the installer was supposed to arrive between 2-5 p.m. He showed up at 7:15 p.m., with his wife in tow. We were eating dinner when they arrived, so we had them sit down to eat with us before they got to work. They were a very nice couple. But, it took them 4 hours to install the cable and router. By then it was 11:30 p.m., it was so late, they only checked the signal outside. They never came in to check it on a computer. Everyone was already in bed, so we did not check either.

Once installed, we were connected to ViaSat for approximately 4 days when we called to complain that we were not getting any service, it was just loading. They told us we had already used 93 gigs of data! HOW? My wife was having to use her HotSpot on her cell phone to access Internet with her students because she could not use ViaSat at all.

We complained by phone three times that the service was not even close to what they claimed on May 4, May 7 and again on May 11th. I explained that it was WORSE than Frontier, my wife could not get out on the Internet at all, it was just loading and circling, and we could get no service. We asked for the technician to come back out and check it, and were told "No", they could see from where they were in Kentucky, that the service was working fine. Each call the rep would insist the service was fine every time we called to complain that all we were getting was loading and circling. So, they offered to upgrade us to the more expensive plan. What? We cannot get the service we have!

The fourth time we called on 5/15, I asked for a supervisor and was told no supervisor was available. So, I asked to cancel the service. We been charged \$100 for installation, a \$60 hold on our account, and \$70 for service...service that we never truly received. I was told that I would be charged an extra \$300 for canceling service before the 2 years. I asked again to speak to a supervisor to request that we not be charged since we received no service, and was told "No", that I could write the company if I wanted to complain.

Today, without authorization my credit card was charged \$344.03 because we canceled before the 2-year contract was up. I sincerely hope you can help me get this charge reversed. This is no way to treat people. We should not have to pay a deposit for a service we never truly had.

Thank you for your time in reading this. I hope you can help us.

(b) (6)

Ticket: # 4003589 - Charged with services I didn't request or receive

Date: 6/1/2020 5:48:33 PM

City/State/Zip: Atlanta, Georgia 30306

Company Complaining About: Comcast

Description

Hello,

I only use Comcast for internet. Starting in February they added a "DVR service" equipment fee. I reached out to request it be removed. I was told it was fixed. Not wanting to pay for services I didn't pay immediately wanting it removed off my bill. I was told the problem was solved and I wouldn't be charged a late fee.

It wasn't fixed and I was charged a late fee. This has been on going since then. I have been told on three separate occasions it was fixed.

I also requested that my internet be shut off temporarily at the end of March. Because I moved in with my sister during the COVID shut down. My internet was not shut off.

I just moved back in yesterday. I checked my Comcast and saw that they were going to shut it off if I didn't pay over \$300. Off which is over \$100 of service I haven't used or requested. And with none of the billing issues resolved.

I have requested multiple times to speak with someone and they keep sending me back to chatrooms through their phone systems.

Ticket: # 4003652 - Using EBS for non emergency content

Date: 6/1/2020 6:19:59 PM

City/State/Zip: El Paso, Texas 79925

Company Complaining About: Other

Description

El Paso is sending non emergent content over EBS. Mental health is important and could use non emergent means to communicate this using public information systems. Where Covid testing is another misuse. EBS I thought was for tangible threat emergencies like tornado, severe storm, active shooter, and etc..... The constant us for non emergent issues will cause non adherence to real threats because of "cried wolf too many times" syndrome.

Ticket: # 4003800 - HughesNet

Date: 6/1/2020 7:56:14 PM

City/State/Zip: Grand Junction, Colorado 81505

Company Complaining About: Hughes Net

Description

Hughes net never offered the internet they advertised. I stopped using there service only after a couple of months of using it.i tried to have them resolve the slow speeds by calling several times.on two occasions a technical support member supposedly fixed the issue at hand, only for it to not work right after. I would call again only to be told it's my fault and need to do less streaming, and they tried to upsell me more internet wheich would start my contract all over again. I have tried to cancel my account since September 2019. Because of the expensive terminations fees I had to save my money. I finally now have the money to do so and they are threatening to send me to collections even though they say they are taking money from my husband's credit card that they did not get permission to use. Now because of this Covid-19 they won't answer billing or cancelling service calls and only to add new service calls which is not okay. Charter is giving out internet for free to help people during this time, while they are sending peiple to collections because they refuse to answer the phone to cancel and only to add service.this is just another reflection of the long history of times they have been ripping people off and getting away with it.I have received an outrageous bill for the amount of \$644.43. I cancelled the internet and stopped using the services only three months after being signed up. Our family relied on mobile Hot spit through T-Mobile for internet. We were never able to utilize Hughes net internet because of the poor services. I called multiple times to cancel with no success. I sent back the equipment that Hughes Net asked for on May 18 2020 through there box they sent me with tracking number ending in 2932. I have documented pictures of the loaded equipment in the box places as requested, letters I have received from Hughes Net etc. I am a disabled mother of two working on my credit to be able to buy my family a home. This amount is outrageous. The letter that was sent to me does not even explain what the amount is for. I also have a documented picture of that.

The amount of \$644.43 needs to be dropped to the amount of 0.00\$ considering I have done what was asked. I have done what the business has asked since the last BBB complaint by sending back equipment. I would like this to finally be over.

Ticket: # 4003818 - misleading & fraudulent sales techniques at Cox Cable

Date: 6/1/2020 8:07:01 PM

City/State/Zip: Las Vegas, Nevada 89148

Company Complaining About: Cox

Description

We were promised that if we sign a 2 yr contract w Cox, that the monthly price would be fixed for 2 years, and that it would not change. All of a sudden, we went from \$167/mo. to a \$188/mo bill, after only a month. When we called, they used the excuse that the "bundle rate" changed, and now we're stuck in a contract for another year. We are both unemployed due to Covid 19. If we had not been promised that the monthly rate would be fixed for 2 years, we would have never renewed with Cox. Becuase they have a monopoly in this Las Vegas market, they think they can get away with misleading sales tactics.

Ticket: # 4003826 - FCC Complaint against Suddenlink Communications - 2nd Complaint

Date: 6/1/2020 8:17:22 PM

City/State/Zip: Flagstaff, Arizona 86004

Company Complaining About: Suddenlink Communications

Description

My husband and I have been working to resolve the internet issues we have been facing with Suddenlink Communications for over 2 months. I have previously submitted an FCC complaint re: the issues my husband and I have faced, but unfortunately, these issues have not been resolved, leading me to file a 2nd FCC complaint.

My husband and I have been charged for 1 gig speed with Suddenlink Communications but have never had internet speeds above 200 Mbps. There has been 4 technicians sent to our home to try to figure out whether the issue is on our end or with the Suddenlink Communication servers. Every technician has informed us that the issue is with the Suddenlink Communication servers and that our system is not the problem. However, when Naomi at the Suddenlink Communications Corporate Office updates us, she tells us that the technicians report that nothing is wrong with the Suddenlink Communications servers and there are no reported outages.

Today, Suddenlink Communications sent another technician to our house named Charles. I recorded our interaction (which I have attached to this complaint) for which he very clearly states that the issue is with the Suddenlink Communications servers and that their servers have been unable to keep up with the influx of internet users.

As you will hear in the recording, he states that each node is set up to handle about 200 customers, but since COVID-19, each node now has over 2,000 users on it and the Suddenlink servers have not been able to handle this influx. He also stated that customers who are paying for 100 Mbps services are only getting about 20 Mbps, customers who are paying for 400 Mbps service are only getting 100 Mbps. Charging customers for a service that is not delivered is FRAUDULENT.

We have been charged/paying for 1 gig service, and only getting a max speed of 200 Mbps, and sometimes, no internet service at all. We have asked for our bill to be adjusted to reflect the speed that is actually delivered, but Naomi continues to refuse and say's that she has to contact her field services rep to see if the problem is with the Suddenlink servers (This has now occurred 3 separate times). Every time she calls us back to update us on her conversation with the field services rep, she tells us it is NOT the Suddenlink servers. Furthermore, multiple phone calls that my husband and I have placed to Suddenlink are not documented in our account, causing us to have no recourse, nor the ability to hold Suddenlink accountable for their server issues and our grossly under-delivered internet speeds. This is why I elected to record the interaction between the Suddenlink technician and myself this morning. It was the only way to prove on our end that Suddenlink Communications is not being honest about their server issues with us and likely their other customers, yet charging us for internet speeds that they are not delivering.

Furthermore, as you will hear in the recording, I asked Charles (Suddenlink Communications tech) if he would be documenting these findings in our record, to which he stated, Of course, it is the only way for Suddenlink to know which servers need to be fixed. Yet, when Naomi called to update me on what Charles (Suddenlink Communications technician) reported, she informed me that the technician documented that everything was fine and nothing was wrong with the servers and no outages have been reported. Again, the reason I recorded the conversation with the Suddenlink Communications technician, Charles today.

I asked Naomi to escalate this issue to her superior, but she refused. I told her that this was a poor decision on her part and that she should be informing her Legal/Risk department of this issue, especially given that I have audio recording of their own technician stating that the Suddenlink servers are the issue, however, she again refused.

We are hoping to get resolution with Suddenlink Communications and our bill adjusted to reflect the internet speed we have actually been receiving. Once they own up to their server issues and adjust our bill accordingly, we will immediately pay them. Until then, we are holding payment in the hopes this will be resolved properly and professionally. Charging customers for a service they are not receiving is fraudulent, and we will escalate this legally if they do not immediately change their business practice to be in-line with Federal and State laws. I am sure my husband and I are not the only customers experiencing this issue, so a class action lawsuit may be the best option moving forward. Suddenlink must do the right thing and charge for speeds customers are actually receiving and work within the bounds of the law.

Your help in resolving this issue is greatly appreciated.

Ticket: # 4003925 - Cell Phone Trade in Value Dispute

Date: 6/1/2020 9:52:47 PM

City/State/Zip: Lexington, Kentucky 40514

Company Complaining About: AT&T

Description

My Wife Upgraded her phone in March and did not receive her new phone till Mid April. There was a promotion and she was suppose to get \$300 for her old cell phone to trade in. During the pandemic, the store would not take the phone for trade in asked us to send it in. When We received the documents it was only giving us \$150 credit, which was half of the promotion. I have tried to call At & T to resolve and they will not even listen to me. I have been with AT &T for a very long time.

Ticket: # 4003926 - Received a suspicious phone call stating that they were from College Board

Date: 6/1/2020 9:53:42 PM

City/State/Zip: Medford Lakes, New Jersey 08055

Company Complaining About: College Board

Description

Received a call stating they were from College Board & that my daughter (they knew her name & our phone#) was set up to take the SAT's on July 14. All SAT testing date were cancelled because of COVID. They were sending out a Test Practice Packet and needed a credit card # as the CD they were sending would need to be returned after the SAT's & that they would take the hold off the credit card once they received the CD back. I told them I would talk to my daughter and he abruptly hung up. The # they called from was disconnect when I try to call back. They must have spoof the # as it showed up as Joint Base which is the # for the Joint Base of Maguire/Fort Dix in NJ. Not sure how to solve it but want to know how that got my daughter's info. Did they hack into a system.

Ticket: # 4003966 - Lack of access to ISPs

Date: 6/1/2020 10:40:19 PM

City/State/Zip: Haines City, Florida 33844

Company Complaining About: Charter

Description

Charter Communications services over 99% of the zip code 33844. Requests were made to identify serviceability, with the prospect of paying a deductible to set up service. We were told someone would be sent out and after having to follow up, we were declined service. Due to COVID-19, we have had/continue to use expensive and unreliable satellite internet to complete school and work responsibilities. The only internet option is satellite and given today's day and age, we should have access to reliable internet service that is not satellite, data limited and access restricted. Charter Communications is listed as a provider under the FCC Fixed Broadband Deployment Data Center for the census block/address referenced.

Ticket: # 4004028 - Provider Refusal to Provide Services While Locked Down From Wuhan Virus

Date: 6/2/2020 12:18:06 AM

City/State/Zip: Redlands, California 92374

Company Complaining About: Spectrum

Description

We created a Seasonal Suspension for travel purposes overseas starting in January 7, 2020, with Spectrum (Time Warner Cable) that was to end on May 3, 2020, when we were scheduled to return from travel. While overseas we were put under lockdown and placed under a curfew for the community that we stay in. Our airline tickets were then canceled by the airlines in return to the USA. When we attempted to connect with our provider in the USA, either by Internet or telephone, (to let them know to extend our Seasonal Suspension), we were unsuccessful. On May 16, 2020 we were billed for a full month of services while still on quarantine and not knowing that our tickets would again be canceled past the May 16 billing date. After our airline tickets were canceled a couple times more we finally got a connection to a live agent in Colorado by telephone. His name was Chris, and gave us his ID# as P2928840. He refused to assist us on correcting the charges and threatened us by telling us there would be collections against our credit if we didn't pay, we had auto-payment from our credit card. He also refused to transfer us to the proper department to take action on this matter or allow us to talk to a manager, and stated that Spectrum-TWC had been open 24/7 during all the chaos from the pandemic, we had no excuse from not contacting the provider to stop the charges. We spent almost an hour on the telephone, from our overseas location, when he hung up the telephone. We called back the next day at a different time and made contact with another Spectrum-TWC agent who shut off our service but told us that Spectrum-TWC does not allow credit for non-usage of the Internet, even if there are extenuating circumstances, such as ours. We would like to know why the United States government is allowing service providers of Internet & communications the same tactics as those used in Communist China in order to extract charges without reasonable cause? In other words why can they rip off consumers that pay their bills on time and are dealing with other International restrictions that they have no control over?

Ticket: # 4004088 - Viacom's "I can't breathe"

Date: 6/2/2020 6:55:54 AM

City/State/Zip: Leland, North Carolina 28451

Company Complaining About: AT&T

Description

I was shocked yesterday when my daughter came to me in a panic. Her TV screen had gone blank and the message "I can't breathe" was streaming across the TV with heavy breathing. Mind you this was on Nick Jr. I get the message they were trying to send but on a kids channel. With covid already having them unset and reeling...this was just too much and wholly inappropriate.

Ticket: # 4004100 - Qlink wireless

Date: 6/2/2020 7:51:12 AM

City/State/Zip: Fredericktown, Ohio 43019

Company Complaining About: Qlink Wireless

Description

I have no income so i qualify for a free phone and data, this is an ongoing problem not receiving my data allotment. I've called them over 15 times to get the same procedure, i even bought one of their replacement phones and I'm still being blocked from my data. I don't know if it is intentional or not, i do know they are incompetent to run a cellphone business who receives government money. I am at my wits end literally, since the pandemic began i have been unable to receive my data and they don't know whats going on, they don't have the know how needed to fix this problem. How is it that they got this gov. contract to begin with? can you help me?

Ticket: # 4004125 - Update previous complaint # 3987888

Date: 6/2/2020 8:18:26 AM

City/State/Zip: Franklin, Tennessee 37064

Company Complaining About: AT&T

Description

I have spoken to two different employees of AT&T's Office of the President and gotten essentially the same response in concerning my request to upgrade our existing AT&T line and transfer box. The first, Karen stated that she was sorry but AT&T is not going to be able to help me because upgrading the line to our house was not cost effective; however, less than 1/4 mile away, in the neighborhood directly adjacent to the two lots of the family farm that touch our parcel, AT&T DOES supply high speed service. I explained to Karen that I have called every ISP in our area and none offer land line service. There is a satellite service available, however, they make you sign a two year contract and they only provide limited high speed per billing cycle, and with my job, I would regularly exceed the allotted high speed limit and therefore spend half a month with service as useless as what AT&T could currently offer me. I explained this to the second AT&T representative, Deborah Kito. She sympathized but said there was just nothing they could do. I even asked her what it would cost us to pay them to run the line, or could we run our own line to meet up with them and then pay to connect. She said that wasn't possible. I asked her what she tell me if I were a mother with a student who had to learn from home? She still said sorry, there was nothing they could do. So basically, AT&T is going to let customers out in the rural United States sit with no upgrades to their service because it isn't cost effective, they pick the easy cherries in town where running a new line is cheaper for them and to hell with everyone else who has a genuine need for their service. Nice...and that after receiving millions from the Federal government and pledging directly to the FCC to keep America connected. See their pledge here: <http://about.att.com/pages/COVID19> . They are breaking their pledge and spitting in the face of rural Americans everywhere.

Ticket: # 4004221 - 7 years ON time, then this & during COVID?

Date: 6/2/2020 9:37:18 AM

City/State/Zip: Kinston, North Carolina 28504

Company Complaining About: Sudden Link

Description

I initially had a data overage that I was not aware of as I had never had one before and thought we had unlimited data. I spoke to a customer service rep several times but never got my issue resolved. They advised they were going to escalate my issue and someone would call me back. They never did. This occurred during the pandemic so I was trying to be understanding and called them back. They had hour+ wait times so I opted for a call back, which they offered but never received a call. During this my wife paid our normal payment amount on the due date. We have never had an issue with this company before this. Then we got our next bill and there was a late fee because we did not pay the overage charge. So we started down the path of calling. They made it nearly impossible for us to make contact with them and do date, still have not been able to make contact. They have now shut off my service, charged me for equipment that I have and are ready to turn in to them. I would like nothing more than to pay them what I owe and turn in my equipment. I am not willing to pay a late charge. Every other company that I work with is being VERY accomidating during this time because they are the ones on limited hours and with extremely long wait times. Not Sudddenlink. Just turned my service off after 7+ years of on time payments, during COVID. Wonder if it ever crossed their minds that they may have some of the fault here. We have very limited options when it comes to internet services and the governance of these organizations needs to be in place, especially when so many are out of work and the organizations are not even open.

Ticket: # 4004307 - Intenet Overage Charges

Date: 6/2/2020 10:14:50 AM

Company Complaining About: AT&T

Description

We are living through the Covid pandemic and have children at home that have to use this to continues their education and are being charged for overages but they will NOT offer and unlimited plan to help with continuing education. My bill has \$300 in overages and cant get anyone on chat. I filed for relief which they did not give me!

Ticket: # 4004632 - Sudden Link No Availability

Date: 6/2/2020 12:11:10 PM

City/State/Zip: Cross Lanes, West Virginia 25313

Company Complaining About: Sudden Link

Description

The consumer states that his fathers Internet and Landline services have been down for several days.

His Father and account holder, (b) (6), has services with Sudden Link.

The consumer states that a big truck driver came down his driveway to get to a neighbors house and he believes that he accidentally knocked the wires and equipment down.

The consumers father is 76 years old and he is not able to get a hold of him since he must connect to the internet to get his calls.

The consumer states that Sudden Link has about 10 different phone numbers that all go to one center and you can never reach a live person.

This is an emergency situation since he lives alone and is 76 years old and especially now during COVID-19.

The consumer would like someone to come out and fix the service.

The consumer hopes his father will receive a credit for having no service for the time its down.

Ticket: # 4004943 - ATT COVID 19 Disconnections

Date: 6/2/2020 1:37:15 PM

City/State/Zip: Irvine, California 92603

Company Complaining About: AT&T

Description

I, like many other Americans, are experiencing hardships due to COVID-19. During the week of May 18th, our wireless service with ATT was disconnected and suspended due to non-payment. We reached out to them and had our services restored and were told we would have until June 15th to pay the rest of the past due balance (even though they signed a pledge saying that they wouldn't disconnect people until June 30th). Moreover, they didn't even wait until the 15, as of the morning of June 2 they again disconnected and suspended our wireless service.

Ticket: # 4004988 - ATT COVID 19 Activation Fees**Date:** 6/2/2020 1:49:26 PM**City/State/Zip:** Northglenn, Colorado 80233**Company Complaining About:** AT&T

Description

On April 16th I transferred services from Verizon to ATT. When I tried to use the online portal it was telling me I had to call in to port the numbers. The website mentioned they were waiving all activation fees for consumers who were new customers. The rep stated that was true for phone orders too. Some how I'm now being charged \$120.00 for activation fees and they're telling me this was not accurate information and they never had that going. Looking at their website it states that anyone who got service between April 2 and May 13 would have their activation fees waived. They are telling me that this is something that I have to pay.

Ticket: # 4004996 - Phone Charges

Date: 6/2/2020 1:50:21 PM

City/State/Zip: Louisville, Kentucky 40241

Company Complaining About: AT&T

Description

This is a COVID 19 Issue.

Consumer reached out to the company in April asking to change his plan.

For financial reasons they need to accomplish this.

Four days ago they suspended their phones - it is their only method of communication.

The consumer asked them to modify his phone plan but they have refused saying they have a contract that runs to November.

Consumer is asking them to make an allowance to remove one of his phone lines at this time.

Ticket: # 4005064 - Billing and pulling phone calls

Date: 6/2/2020 2:12:23 PM

City/State/Zip: Germantown, Maryland 20874

Company Complaining About: Sprint

Description

To whom it may concern,

On March 9, 2020 I contacted sprint because I noticed an increase in my monthly bill. I told them that the bill was too high. They informed me that the plan that I had expired. The account service representative put me on hold to see what plan he can offer me at the rate I was use to paying or cheaper. He comes back and says he has a plan for all four of my line for \$100 a month. I asked was this a promotion plan will it expire like my last one. He said No I said ok sounds good to me. He said I should see it reflect on my next months bill. A couple weeks later my next months billing statement was sent out and was even higher then the previous months. so I called sprint and asked to speak back to account services to see what was going on. I informed the rep about my call weeks ago and he said We don't have a plan like that nor any notes about this call on ur account so I asked for the call to be pulled he said he'll put in a request and someone will get back to me within 7-10 business days. 2 weeks has gone by and still never got a call. So I called sprint before my auto payment for the bill was due to come out my account. They said dye to the coronavirus pandemic it may take a little longer so my account was charged for the higher amount and I waited. May came and still no call was pulled they were still waiting mind you my payments are still being taking amount at higher rates. A account rep has been calling every week gong me updates that she's still waiting on the calls to be pulled. Friday may 29,2020 at 5:06 pm the rep called me and told me that it's been so long that they can't pull the calls and I told her I asked for the calls in March it's May and y'all should've been had the calls pulled. My bill continues to go up and nothing is being done to correct my plan.

I will like the calls pulled and the offer that was offered to reflect on my monthly bills moving forward.

Ticket: # 4005212 - At&t not keeping me connected during covid 19

Date: 6/2/2020 2:51:03 PM

City/State/Zip: Redwood Falls, Minnesota 56283

Company Complaining About: AT&T

Description

AT&T suspended my wireless service today. It says on their website and app I have until June 30th to pay my wireless charges. Their link to fill out a covid 19 waiver has not worked ever for me so I had no way to fill out the form stating I have been affected. I have been unable to reach customer service via chat or phone as well. I am a single mother 100% of the time and my youngest is 19 months old and has a congenital heart defect and I cannot work during the pandemic as I cannot take any risks of contracting covid 19 and passing it to her.

Ticket: # 4005315 - poor internet service from a monopoly that is non-responsive

Date: 6/2/2020 3:13:55 PM

City/State/Zip: Bridgehampton, New York 11932

Company Complaining About: Optimum

Description

Optimum Cable claims to be busy because of Covid crisis, but they are making us pay for substandard service. I am a professor and I cannot zoom with my colleagues or my students. I was able to do that with a different provider when I was in NYC. Now I am on Long Island and the service is too weak for online shopping or even to fill out the postal service's forwarding form! Knowing we could not get here until the end of May because of Covid, I tried contacting this company to cancel the TV part of my account since I wanted to be sure to have internet when we arrived and yet would not use it for all of March, April, and May. But they would not answer their phone except by robot and did not return calls. That is still true! I have wasted hours and hours trying to reach them. They don't accept email. They just make you pay and don't deliver service. When we arrived, even the TV did not work on channels 2 and 13. They had no picture but lines and no audio at all! I finally got them to answer the phone after many, many hours on hold. They refused any kind of credit and said that I would have to have a repair person in my house during the virus! This refusal to give credit for non-service is unfair and they make the false claim that I did not contact them. We are seniors and this account was in my husband's name (John Van Sickle). At 83, he couldn't recall the "name of the account" which turned out to be our address), so without knowing that, I could not contact them on the internet until I was in our house and the name showed up when they recognized us as a customer. It's wrong that we have no other option and they take full advantage of our dependence on them for communication!

Ticket: # 4005420 - Suddenlink cannot provide the level of service as advertised and billed

Date: 6/2/2020 3:45:00 PM

City/State/Zip: Flagstaff, Arizona 86005

Company Complaining About: Sudden Link

Description

I upgraded to Suddenlink's "1 Gig Internet" plan in 2/2020, from a 200 Mbps plan. I bought a new modem as well. Since that time, they have not been able to reliably provide the advertised 940 Mbps downstream and 40 Mbps upstream or speeds anywhere close.

When I first notified the local office of this, they sent out a service tech who spent a few minutes in my home, confirmed our speeds were only 200-400 Mbps down and 10-15 Mbps up, and stated "that's the best we can actually do. They're selling a service we can't actually provide." He then left. We were charged \$60 for this "service," without any prior notice or agreement to this fee until it appeared on our monthly bill.

I next went to the local service office, with both employees there at the time stating that they had no obligation to provide any baseline level of downstream or upstream service, as all plans are advertised as "up to." I pointed them to publicly available company statements that at least 50% of advertised service is a minimum acceptable quality. They stated that was wrong, and that "as long as you get any service at all, then we've done all we have to do." They stated their company would do nothing else for me, and one of the two present stated they were the manager. They refused to give me their names.

I had already filed an FCC complaint about a previous issue with their technical support line giving me a false number, 800-879-3781, to get more help. Calling this line resulted in being put on a spam call list which continues to this day with multiple unwanted calls from various numbers per month. I had been working with a Nathan (no last name provided) in their Customer Relations Dept. on that issue, which he state would be referred to internal review and otherwise nothing further would be publicly discussed. Suddenlink would not take any responsibility or any action for the spam calls.

In speaking with Nathan about this additional issue, he confirmed the publicly available information was correct and that they have a 50% minimum service guarantee. He dispatched a Mr. Joe Marrero to further evaluate the service issue. He also refunded the \$60 fee for the non-service visit. Mr. Marrero spent about 2 hours onsite on 3/17/2020 and found multiple issues with Suddenlink's hardware outside our home. Some of it he could fix that day, replacing equipment and lines. However, there were problems with the tap hardware being both out-of-date and damaged, as well as using "obsolete settings" that needed software adjustments. He could not fix those issue that day, but stated there would be additional service visits and further work "soon."

There has been no further in-person contact from Suddenlink since that time. I called Nathan's office and left several messages over the next few weeks, and he responded over a month later on 4/24/2020 stating he hadn't gotten any of my prior calls. He stated he would look into this delay

further, and call me back in 1 week or less. He also asked that I use cecrsdl@alticeusa.com for all further contact.

Once again, I have not been contacted again in over 1 month. I have emailed Nathan without response. I've left him phone messages again as well. I've also called and emailed Mr. Marrero, with no response. My local office remains closed due to the SARS-CoV-2 pandemic. No work has been done.

Meanwhile, there have been a few times our speeds drop to 5-10 Mbps downstream, or stop working altogether for 10-30 minutes. I am a doctor trying to provide telehealth from my home, and at times cannot do so due to these service issues. I have had unacceptable service, by Suddenlink's own standards, for over 3 months now.

We are still averaging speeds at only 2-40% of advertised, with very unreliable speeds throughout the day, and yet still being charged full price for service every month. And they have the gall to continue charging monthly "network improvement fees" as well. This is wrong. In my opinion, they need to fix my service issues and provide partial refunds for the duration of time they are unable to provide the minimum service required.

Ticket: # 4005464 - Wrongly billed for false COVID-19 support advertisement

Date: 6/2/2020 3:59:05 PM

City/State/Zip: South El Monte, California 91733

Company Complaining About: Spectrum

Description

During COVID-19 pandemic, in middle of April (around 4/13), we were advertised by Spectrum customer service that we could upgrade temporarily our existing internet service plan (\$20 per month for 20 Mbps) to 200 Mbps for 2 months for FREE to accommodate our middle school kids studying at home due to lock down. The service representative also advised us that we could switch back to our original plan after two months by calling back on 6/12. However, we got billed for \$64.98 on 5/18. We called back on 6/1 regarding to billing and Spectrum representative (Melisha) confirmed that was Spectrum mistake in billing. She also confirmed that Spectrum will credit back \$184.95 within 4 business days after our payment of \$64.98. Melisha advised us to call back on 7/3 to reinstate our original service plan (\$20 per month). However, on 6/2 we got a call from Spectrum service representative (Jacqueline, representative ID XAO) acknowledging that Spectrum provided wrong/false information leading to the upgrade. She further said that Spectrum will NOT credit back as well as will NOT reinstate our original plan (\$20 per month). We feel powerless, treated unfairly, and trapped in new plan (\$64.98 per month) by false/wrong advertisement of Spectrum which we could NOT afford even though we still need internet service for our middle school kids studying at home during difficult lock down.

We are looking for billing credit which we paid and our original service plan (\$20 per month), which we could afford, to be reinstated so our kids could continue their studying at home during this difficult lock down time. Really appreciate for your helps.

Ticket: # 4005867 - Re: [FCC Complaints] Re: Internet service disruption during Covid-19 lockdown

Company Complaining About: Optimum

Description

This is a follow-up to your previous request # (b) (6) "Internet service disruption..."

Hello,

I am writing in response to your last email.

My issue was not resolved and I am still trying to reach out to my internet provider. I wrote a direct email to an assistant, who was working with me on my questions on May 26, 2020. I received a phone call from him the following day with a promise to look at my complaint again, but unfortunately I did not hear back from him since then.

I would like to provide an email that I sent to Optimum on May 26 below.

"Hello (b) (6)

I am following up about my claim.

(b) (6) Account Number: (b) (6)

1) I did not receive any email from billing department about my Verizon reimbursement. The last time we spoke was April 30.

2) Also, the issue with my previous bills was not resolved.

3) In total I paid from my card to optimum \$319.99 for the period March 6 to May 31. Which appears to be higher then I expected with credited amounts.

I received credits on the account with my last bill for May, however I would like to know more details about the amount.

On April 28 I received your voice message with explanation of credit:

-both appointments for \$80 each;

-service interruption from February 22 till March 6 \$36.62.

On April 30 we spoke over the phone and you agreed to remove one of two late fees - \$10.

I have this current information available about my billing:

March 1 to March 31 - \$86.72 - I would like to dispute due to the service interruption (Feb 22nd - March 6)

April 1 to April 30 - \$86.48 + late fee \$10 = \$96.48 - no questions.

May 1 to May 31 - \$79.38 - no late fee as agreed on April 30 due to ongoing investigation.

My total payments to optimum in this case have to be \$262.58, which I would like to dispute because I did not have internet service from February 22nd until March 6.

Also, I would like to ask for the credit because I paid \$319.99, mentioned previously.

4) Besides that, my monthly plan was offering \$100 Amazon gift card, which I never received and I would like to receive it.

5) I am spending a lot of time trying to resolve the issue with very few attempts from Optimum to help me. I would like Optimum to offer me one month free internet service besides resolving issues mentioned above.

How can you help me with this? I am looking forward to hear from you. I would rather not submit a complaint to the FCC about how I've been treated.

Thank you for your help in this matter."

I am looking forward to hear from you soon.

Best,

(b) (6)

Ticket: # 4005891 - Verizon internet

Date: 6/2/2020 6:47:01 PM

City/State/Zip: Brooklyn, New York 11221

Company Complaining About: Verizon

Description

My boyfriend and I moved to a new apartment on April 15th and been trying to get internet since then. Our building has internet, but Verizon doesn't want to go inside of the apartment due to COVID which we understood and were very patient about. Original suggestion from Verizon was that they would install the internet at the end of April, then we been reached out, and they suggested that we will get internet on May 29th. We tried to email the contact person since Friday, but they never got back to us. In a current situation, when we have to work from home and catch public internet that entire building is using and which is quite slow because of that. It's rather inconvenient and frustrating that it's been 1,5 months, and we still made very little progress.

Company Complaining About: Senator John Cornyn

Description

I received a robocall claiming to be from Senator Cornyn, regarding a coronavirus-related town hall. At no time did I authorize anyone, even the senator, to robocall me, and I have expressed this particular sentiment when what I assume was a PAC texted me regarding the senator's election campaign. (To be clear, this is not a political complaint; I am a registered Republican, in fact. My problem is that the phone call was an unwanted robocall, and should not have interrupted my work.)

Ticket: # 4005906 - Negative Option Billing**Date:** 6/2/2020 6:56:23 PM**City/State/Zip:** Erlanger, Kentucky 41018**Company Complaining About:** Spectrum

Description

Hello,

I have tried to resolve the issue with Spectrum. However, it was not resolved. I signed up to have internet until mid-May. It was an offer by Spectrum to help students during the Coronavirus pandemic. I was never told, nor to my knowledge provided with information that stated that my service would be extended past mid-May. When I realized it had, I contacted Spectrum. First, the Spectrum associate said that they would submit a ticket to waive the bill and to check back in 3-5 days. When I did, an associate and manager told me there is no such thing as a ticket to waive the bill. Here is the gist of my complaint. I did not agree for service to be continued; in fact, I was told that it would stop mid-May. A contract required mutual assent and mutual consideration. (These are legal terms). However, I did not assent to a continuation of service. I realize there is something called negative option billing which I think may be relevant here. Additionally, I was told that a ticket would be submitted to see if the bill could be waived. I relied on the associates direction. I have screen shots of the chat if that would be helpful. The reason I am submitting this informal complaint is because I would like to see more regulation with this type of scenario. Especially since it was suppose to be an option for the impoverished under hardship due to the Coronavirus and to me seems to me to be all the more unconscionable.

Thank you for your time.

Ticket: # 4005916 - cell phone bill

Date: 6/2/2020 7:03:57 PM

City/State/Zip: Parma, Ohio 44134

Company Complaining About: AT&T

Description

I filed a complaint against ATT re: my cell phone bill. I talked to a woman by the name of Rayna Rogers. She sent us new phone's and changed our plan. She said she was putting us on the Unlimited starter plan for 120.00 a month. In addition she was also going to give me a \$20.00 manually credit for 24 months. She said my bill would be less than what I was paying and would be \$100.00 plus taxes. My April bill was \$177.48 and my May bill was \$155.73. I have been trying to reach Rayna for 2 months. I have left her multiple messages and she will not return my calls. I have talked to many reps at ATT and they all tell me the same thing which is only the office of the president can help me. I had to make a payment arrangement so my service wouldn't be disconnected because I cannot afford to pay more than I was quoted. I am asking for help to get this resolved. I was also charged late fees even though we were told ATT was not charging late fees because of the coronavirus.

I have been having problems with internet speed for 3 weeks, and they keep giving me the same excuse to no send anyone to fix, with the COVID-19 situation. The technician does not need to come inside my house to fix, the problem its outside.

Ticket: # 4006056 - Comcast refuses to fix service

Date: 6/2/2020 8:43:06 PM

City/State/Zip: Middleburg, Florida 32068

Company Complaining About: Comcast

Description

We have had intermittent internet, which is getting worse and worse, to the point of being down more than it is up. This poses a major problem when I am working from home as the business is currently closed because of covid. Multiple calls and I was told nothing was wrong. Appointments were scheduled and Comcast would cancel because the internet was up at that particular moment. Hours and hours of trying to get a hold of someone before we had a tech come out. He noted some things that might be causing the issue, fixed them and left. Of course the internet has not improved since then. Hours and hours on hold, going through automated systems and online chatting only to be told that they see there is an issue but they can not fix it. How am I supposed to work from home if the internet provider refuses to provide the service I am paying them for?????

Ticket: # 4006152 - Getting charge

Date: 6/2/2020 10:46:48 PM

Company Complaining About: Cox

Description

All begin, when I moved change my service to my new place. they told me I just needed to connect my modem and everything was going to be fine, well it wasn't. I call customer service for help and they try everything they could. They couldn't send me a technician because of COVID-19. So I call April 7 to disconnect my service and they did, I even got the confirmation E-mail, and the person I spoke to said I was just going to pay 19 something dollars for the days that I still had service on my old place. But when I got the bill I was still getting charge for the new month and I'm still getting charge still now. I call billing department and they told me they couldn't do anything.

Ticket: # 4006163 - COMCAST DISCONNECTED MY SERVICE DURING PANDEMIC**Date:** 6/2/2020 10:55:17 PM**City/State/Zip:** Sacramento, California 95822**Company Complaining About:** Comcast

Description

i signed up for comcast internet essentials in december. within 2 months i started having problems. first, my newly purchased computer was hacked and my OS was changed and my OS backup partition was deleted before i had a chance to make a copy of it. then i began having internet problems. i literally called comcast at least 3 times a week plus the numerous times i had to hard reset the gateway device plus all the other crap i had to do within comcast piece of crap phone apps that u have to install. then the apps wouldnt work and i would have to delete them and reinstall them. one app would tell me i was connected and the other app would tell me i wasnt. then one day i come home from work and my service was disconnected. my account did not show i had internet service anymore. i auto pay my bill of \$9.95 every month so i know it is not because of billing. not to mention that we are in the middle of a pandemic and utility companies are not allowed to shut off our service for any reason. i was never notified it was being shut off or anything. when calling comcast customer service u cant get a person. chat assistants told me they could not access my account and i need to contact internet essentials. internet essentials says to contact xfinity customer support. finally i got ahold of a person and was told it was disconnected bcuz someone called and tried to activate service to the same address. when i asked who called and did this i was told i could not have that info. i told them that some person, anybody can call and try to hook up service at my address and so they can just go and disconnect my service without notifying me or contacting me first AND I CANT GET THE INFO OF WHO THIS PERSON IS? WOW! THATS HOW U DO BUSINESS COMCAST?

i'd also like to report that since all of this has been going on, i believe both of my phones have also been hacked and i'm being spied on, possibly stalked and sabotaged.

NOBODY AT COMCAST WILL GIVE ME AN ANSWER AS TO WHY THEY SHUT MY SERVICE OFF WITHOUT MY PERMISSION, WITHOUT NOTIFICATION AND DURING A PANDEMIC WHEN THEY ARE TOLD THEY CAN NOT SHUT OFF SERVICE FOR ANY REASON. I ASKED FOR SERVICE TO BE TURNED BACK ON BUT THEY HAVE NOT DONE IT.

I DON'T EVEN BELIEVE THE CHAT ASSISTANT AND CUSTOMER SUPPORT IS REALLY EVEN COMCAST. MY PHONES ARE BEING SPIED ON AND CALLS AND MESSAGES ARE INTERCEPTED.

IF IT'S THE GOVERNMENT AND ILLUMINATI OR JUST MY ASSHOLE ROOMMATES AND THEIR FRIENDS, OR STUPID HACKERS IN INDIA OR SOMETHING, YOU ALL SATANISTS WITH 1 AGENDA. AND NO MATTER WHAT GOD WILL CLEANSE THE EARTH OF ALL EVIL. THAT TIME IS COMING SOON

Company Complaining About: Sudden Link

Description

I have a few different problems that have been adding up and I am finally tired of dealing with them. First, every year we have had service through Suddenlink, our bill has gone up, our monthly bill has increased by \$10 per month with no communication stating that it would be increasing. Second, you can't handle a bill dispute at your local office, you have to call the hotline. There are times I have been on hold for an hour or longer just to get to talk to a representative. Lastly, my last bill had an overage charge of \$180 due to schools being restricted to online schooling and my entire family was at home, all day long, using our internet for schooling. I have two kids that are in school and my wife and I are both teachers and we have had to use our time at home to create lessons and meet with our students through video conferencing. I called Suddenlink to see if something could be done about lowering my bill and I was told no. I asked to speak to a supervisor and I was told one would call me back in 20 minutes. I waited 2 weeks and still did not get a call. I called again and was told that a supervisor would call me that night and once again, I did not receive a call from a supervisor. I called a third time and was finally told by a regular associate that they only thing that they were doing in response to COVID was allowing customers to pay their bill late. As mentioned, my wife and I are teachers and we work hard for the money that we get to bring home. I was hoping that Suddenlink would work with us in response to COVID happening and as a result, us having to go over our limit, but that was just not the case. There are several people in our area and state that have had issues with Suddenlink and their lack of customer support.

Description

This is a follow-up to your previous request (b) (6) "Fiber optics not available"

I have not had a response from my last email. I understand with the COVID 19 shutdown, but now it is lifted. Please respond to the email below.

Again my question has not been answered.

CenturyLink responded that internet via fiber is not available to my home. My question remains WHY? If the fiber cable is ran in front of my home, why can't I get internet via fiber. Why is it not available? ? ? ? Does CenturyLink need more equipment? ? Modern technology? More nodes? ? ? CenturyLink spent a lot of money running the fiber cable past my house, why can't I access internet via fiber? ? ?

The ADSL technology that is available at 10 Mbps download is an antiquated technology in this day and age of high speed internet.

My question is why is internet via fiber not available to my home? ? I am not asking what is available, I am asking why I can't get internet via fiber that is ran in front of my home. It is there, Why can't I access the internet via fiber? ?

Company Complaining About: Wow

Description

since the release of the "keep america connected" by the fcc over 750 companies have agreed and extended to june 30th. i am a wow way! internet customer and since this pandemic began called to flag my account as a cover-19 related case as i lost my ability to work due tot he virus shutdown. as such i have still received a late fee every month in which i need to call and argue for about 30 min before its removed. after thee months of this nonsense my service was shut off this morning. i called wow to inquire and they have stated its due to non payment. i replied advising of the "kac" agreement and have been told they would reconnect me for 5 days and then start the process all over again as i will be disconnected again. i advised them that there own website clearly states the fcc policy on "kac" and that they have committed to following its guidelines of non interruption until jun 30. it is the 2nd of june and i cannot imagine having to call every 5 days to reconnect my services. i have not made any effort to not pay as much as i can as i don't want a large bill come end of the month so i have been paying as i can and significantly lowered the balance to \$45. Am i being given the short end of the stick because i actually made payments unlike the rest of the people allowing there balance to raise significantly? this is horrible.

Ticket: # 4006510 - T-Mobile Automatic Payments**Date:** 6/3/2020 10:25:24 AM**City/State/Zip:** Fort Worth, Texas 76147**Company Complaining About:** T Mobile

Description

When I switched cell phone provider from ATT to T-Mobile in the fall of 2018, I signed up for auto pay. Everything worked perfectly. When the credit card expired in November 2019, I updated the credit card on file and ever since T-Mobile has disconnected my cell phone for non-payment. Every month I call in; they will not take any action until the payment is made, and they reassure me that the the auto pay has been updated and will work the next month. Seven months later - it is not fixed. T-Mobile just disconnected my phone for non-payment in the middle of a pandemic and race riots. Please fine them for their ineptness.

Ticket: # 4006541 - Xfinity internet Service**Date:** 6/3/2020 10:37:23 AM**City/State/Zip:** Valley Springs, California 95252**Company Complaining About:** Comcast

Description

Hello- I filed a complaint April 20th. I heard back from a Xfinity a few days later. Xfinity said they were sending someone to survey the area and to discuss options for constructions for internet service. Well I never heard from them again. I have made MANY calls to Xfinity and they keep giving me the run around saying they will do something and then don't! My last returned phone call from xfinity was an automated call saying " we're sorry we don't service your area" What can of call is that?! I still don't have the answers as to why and how do I get it !!

A comment from FCC said the provider is required to send a written copy explaining that. It has been 6 weeks. I have called Xfinity dozens of times over the last 3 months I have received 3 call backs. 2 from the relationship manager, who blew me off/didn't do what he said he was, and last call from the automated service. I NEED to know HOW I get their service and or WHY Xfinity will not service our location. I have been calling Xfinity since COVID school closure mid-March. We are in DIRE NEED of internet service for homeschooling / distant learning. Especially with the uncertainties of when schools will be re-opening. We need a reliable service the can help provide the education my children deserve! Xfinity surrounds our neighborhood there is no reason they cannot supply us with service. Any help or suggestions from the FCC is SO greatly appreciated. I just don't know who to go to or what to do. Please advise.

THANK YOU

Ticket: # 4006588 - COMCAST charging me for services not received**Date:** 6/3/2020 10:49:27 AM**City/State/Zip:** Miami, Florida 33155**Company Complaining About:** Comcast

Description

First week of March 2020 only two boxes (out of 7) and the modem were working. Contacted Comcast to troubleshoot the equipment several times to no avail. Due to Covid-19 and both my husband and I having returned from a trip as well as being of a certain age we were under lockdown and no tech could come in to try and fix the problem(s). Finally middle of April the last two boxes and the modem stopped working. Again called Comcast to troubleshoot as well as contacted via chat and no results, during those calls I was assured that the account would be adjusted to show I was not receiving service. Finally around April 17th/18th (I have all the documentation of the equipment return) I called Comcast to let them know I will be returning the equipment and the account should be cancelled. I monitored the account for several days/weeks after the equipment was reported delivered by the carrier and the equipment showed "processing". It was finally processed and I expected all was well. Next thing I know I received a bill as if the account was never closed nor adjusted for non-service. I chatted with Comcast was told to call since they account had to be closed (again) on phone. I did and was assured that the account would be closed and credited retroactively to March. Yesterday I received another bill, this time PAST DUE for yet another month of services. I tried chat since I felt I needed proof of what I had done since the phone leaves no trace of what was discussed. I was told my account was open and that I needed to call in order to cancel. I explained that I had done just that in more than one occasion and that I was basically lied to that it was going to be done and was not; leaving me with no proof. The chat could not help and I went full circle to the beginning. I don't understand what is going on but realize that calling to cancel, yet again, is not going to solve my problem. I will continue with no proof that I want to cancel, that I have no equipment since April, that I have no service since then and only partial service since March... This is a disgrace and Comcast should be strongly reprimanded or fined for this behavior. I have been a customer for 11 years with impeccable record and automatic payments taken out monthly. I don't deserve this!!! I do not owe them a cent and WILL NOT BE BULLIED INTO PAYING THEM...PLEASE help me!!!! Where do I send you the documentation I have on the return equipment and the chats?

Date: 6/3/2020 11:35:08 AM

City/State/Zip: Bronson, Michigan 49028

Company Complaining About: Frontier Communications

Description

This is a follow-up to your previous request (b) (6) "Service"

To whom it may concern,

Here we are not even a year later and again dealing with the same issue. I received my bill for this month and for no reason it had increased over \$30.00. I called for assistance with the bill and was informed that there is nothing they can do. I am asking for help in our area for the high price and poor service we receive in our area from Frontier. This is a rural area that Verizon used to care for but was bought out by Frontier. We as consumers were to be grandfathered into their service which never happened. Frontier has continued to provide poor service but because we're rural and we have no other choice we are forced to pay out bills and suck it up. It is especially frustrating when you pay your bills regularly and consistently receive poor service. I am on a fixed income that does not change yet everything else around us continually goes up. Frontier knows that our area has no other choices so they do NOT have to do a thing or provide good service. I have had their service people here to assist me just to be informed they had turned down what little speed I have. We as consumers are not even aware that they are slowing down our speeds in an attempt for the consumer to buy a faster service, where does it end?

Please, please, please can someone help us with this issue or direct us to who can help? I have talked to other families in our area that are having the same issues, if you need names we can provide them.

It is very sad that we have to request help regarding such issues when we have major issues going on in our world such as Covid, riots and murder. A billing/service issue seems menial compared to those issues. I guess however, it is just as important in some ways since that is a service we count on yet is NOT readily available while being shut-in for three months.

Thank you listening to our concerns and please HELP us with this price gouging, poor customer service issue.

Ticket: # 4006841 - elected official - radio show

Date: 6/3/2020 12:05:14 PM

City/State/Zip: Dobbs Ferry, New York 10522

Company Complaining About: Wvox 1460am

Description

In Westchester County, NY, there is an elected official who hosts his own weekly radio show every Friday at 10:00am. He is not a guest on the show, but rather he hosts the show and controls its editorial content. I want to know if elected officials are allowed to control a broadcast medium like this to effectively promote themselves. The elected official has also used the show to promote irresponsible medical advice about the COVID-19 crisis, and promote the businesses of other people who are his friends.

Ticket: # 4006883 - SERVICE INTERRUPTED

Date: 6/3/2020 12:16:01 PM

City/State/Zip: East Orange, New Jersey 07018

Company Complaining About: Verizon Wireless

Description

My service was unjustifiably interrupted after making arrangements (which is properly denoted in my record). I contacted Tom at executive relations as I've spoken to him from another issue (1-800-779-2067, ext. 2143804), and was UNABLE to resolve THIS issue. For record I have an email 6/2/20 recognizing the payment arrangement. MY SERVICE WAS STILL INTERRUPTED
During this time of COVID and SOCIAL INJUSTICE ... SHAME ON YOU VERIZON!

Ticket: # 4007055 - ATT REFUSES TO TELL THE TRUTH AND REFUSES TO FIX MY ACCOUNT

Date: 6/3/2020 1:03:10 PM

City/State/Zip: North Las Vegas, Nevada 89032

Company Complaining About: AT&T

Description

I contacted Att before the pandemic and let them know my cellphone bill and the way my account was set up was wrong, I was promised a call back I never got. I had 2 additional lines I needed removed and this never happened. When then pandemic began my account was accumulating charges on lines I wasn't using I told this to att and that I had been awaiting a call back they said it was nothing they could do and I owed all the money even though they knew I was waiting on a resolution. I signed a waiver to prevent my account being disconnected and att still has suspended my services twice.

They are telling me if I don't pay them

800 in a pandemic \$400 of which are for 2 lines they were supposed to be removing for me and never called me back.

I called again in April they told me they would be applying credits to fix my account and still I waited for a call from a supervisor that never happened

Today I spoke with collections manager Annette who told me I must pay \$267 in order to have my services restored even though I signed a waiver in which att said they would not suspended my device or interrupt services.

Annette told me she saw a ticket for credits on my account but it was denied and no one contacted me to tell me.

Ticket: # 4007125 - SuddenLink Internet Speed

Date: 6/3/2020 1:22:46 PM

City/State/Zip: Kinston, North Carolina 28504

Company Complaining About: Sudden Link

Description

The consumer states that she has internet services with SuddenLink.

The consumer states she has a website which she paid \$200 for and now she can't even use her site because of the internet issues.

The consumer states that her kids aren't even able to finish their school work during his COVID-19 Pandemic.

The consumer needs them to come out and fix the issue.

The consumer is paying for services she is not receiving.

The consumer states that they should provide Fiber out to her area.

The consumer needs credit to her account if they aren't going to fix the issues.

Even if the issue does get fixed she would like a credit for the times she paid for full service and didn't receive it.

Ticket: # 4007316 - Dish TV service is awful

Date: 6/3/2020 2:07:46 PM

City/State/Zip: North Yarmouth, Maine 04097

Company Complaining About: Dish Network

Description

I am the POA for one (b) (6). He has alshemiers and cannot make a complaint himself. His Satellite TV service is via Dish-TV and it is the most terrible service ever since a technician added new equipment several months ago. It seems to drop service when changing satellites channels and then he is unable to get the service back.

I have tried to complain to Dish TV but they have the worst customer service I have ever run into. When dialing into their consumer line the voice mail system is of poor quality and awful level and full of distortion. I called and waited 1 half hour for a live customer service representative. His voice was nearly unintelligible due to the distortion. I tried to explain the problem and told them that if not satisfied I was going to file an FCC complaint. I even asked to speak with a manager and I could not hear him. I repeated my problem and he said they could send a person on the 17th of June. I said I was filing an FCC complaint as I have been chasing this around for over a week .

There must be a ton of complaints about there customer service as it is non-existent.

I understand the difficulty that businesses is having with the result of the Corona virus but enough is enough. If service is not equal to the cost then he should be getting rebates. I expect a reply and follow-up .

Ticket: # 4007333 - Sprint won't release my #

Date: 6/3/2020 2:14:39 PM

City/State/Zip: Grand Rapids, Michigan 49525

Company Complaining About: Sprint

Description

Sprint won't release my # or reactivate my phone on their network. I have had this # for 15 years and need it for business *especially now as I have no other means to contact my customers due to Covid-19-working from home. **much more details to follow upon inquiry-please help!! Thanks!!

Ticket: # 4007337 - low speed internet-2.1mbps can't work at home, etc

Date: 6/3/2020 2:15:11 PM

City/State/Zip: Eolia, Missouri 63344

Company Complaining About: Windstream Communications

Description

Windstream has not upgraded their service since it began service, some 20 years plus. Can't work from home, can't watch videos, can't watch news videos. I have lived same place for 30 years - Covid 19 news says stay at home -can't because of internetspeed

Ticket: # 4007367 - Re: Number Portability and Cancelled Service

Date: 6/3/2020 2:22:57 PM

City/State/Zip: Alma, Georgia 31510

Company Complaining About: Entouch Wireless (boomerang DbA Entouch)

Description

This is a follow-up to your previous [REDACTED] "Number Portability and Cancelled Service" Since the FCC has made it clear it will not do anything to help me with enTouch, and have issued a letter stating I have to sue, I will contact a law firm. Now that the country is opening back up from Covid-19, there are hundreds of hungry, blood-thirsty law firms that are desperate and would love nothing more than to file suit against a company like enTouch. It's ridiculous that this is necessary just to get a phone number back that they stole from me, no fault of my own. And I'm sure the law firms will look into how this was handled, or mishandled by the FCC as well. Thanks for supporting enTouch against me!!

Ticket: # 4007486 - Abusive billing during mandated COVID-19 business shutdown**Date:** 6/3/2020 3:00:08 PM**City/State/Zip:** Bristol, Pennsylvania 19007**Company Complaining About:** Comcast

Description

Our business was shut down by the Pennsylvania governor's order on March 15, 2020. We are still currently mandated to be closed. Shortly after this shutdown, I called Comcast to say we would not need their services (Cable TV and Internet) during the shutdown. The rep on the phone at the time said they would offer to forgive one month of service for now while they were working on their more permanent plan of providing relief for small businesses impacted by COVID-19 shutdowns. Since then, Comcast has continued to bill at full rate and now states we have an outstanding balance of \$741.20... for services we already told them we don't want. Multiple times during the past two months, we have attempted to engage with Comcast via both phone calls and online chats, only to have chats only answered by an automated bot, and phone calls stay on hold for 30+ minutes and then abruptly disconnected. I finally was able to talk to a Justin today at Comcast who said there is nothing they can do with the past bill. He also said there was a business support plan introduced for ~ \$30/month with paused TV and reduced Internet. This was NEVER offered to me. I would have taken that option. Justin told me that Comcast doesn't proactively send out info about this option (although I pointed out to him that Comcast had no problem sending our flyers and email soliciting me to purchase more services from them during this shutdown), and that it was my responsibility, as the customer, to call in and request this. So, I was supposed to call a number that never gets answered and request something that I didn't even know exists??? Justin said he talked to a supervisor that said there was nothing they can do about the prior bill, but when asked, Justin refused to give me even the first name of this alleged supervisor. I asked Justin to confirm the call was being recorded to document that Comcast was refusing to provide any relief and refusing to identify the person making this decision. I was given a Ticket # of (b) (6)

This is clearly a case of a big company taking advantage of a small business that is suffering from \$0 revenue during the COVID-19 government-mandated shutdown.

I ask that you review Comcast's abusive behavior, including their inability to provide customer service that is reachable in a timely manner to even attempt to resolve customer issues. BTW - After told that I would not be given any relief, including not even retroactively provided the \$30 option for limited service, I asked to have my service cancelled. That led to be putting on hold for 30+ minutes without anyone answering.

How does Comcast get away with this abusive behavior where they rape their small business customers and don't even provide the customer support capacity to cancel service?!

Please also let me know if there are any additional avenues to pursue to report improper COVID-19-related business practices.

Ticket: # 4007673 - Suddenlink internet service issues

Date: 6/3/2020 3:47:43 PM

City/State/Zip: Indianola, Mississippi 38751

Company Complaining About: Sudden Link

Description

Consumer has been receiving little to no service at all

Consumer has been working from home since Covid-19

Consumer also runs her business from home

Consumer switch over from a business account after 13 years thinking she might get better service but it is worst

Consumer has received no information for a tech visit that can go up the pole

When tech does comes out he states the line man needs to replace the node

Consumer stated she was told there is an outage in her neighborhood

Consumer stated when she checks with her neighbor their service is working only her service is not working

Tech refuse to give supervisor number, when he can't fix the problem

Consumer wants continuous working service and a credit for the down time

Ticket: # 4007756 - SPECTRUM INTERNET

Date: 6/3/2020 4:19:24 PM

City/State/Zip: San Gabriel, California 91776

Company Complaining About: Spectrum

Description

Back in January 2020, i called Spectrum to negotiate my Internet price as they have raised it for the same speed of 200 mbps from 54.99 to 69.99. I complained that it is too high for Internet Speed of 200 mbps when I am just getting 90 mbps on the average. He said that they guarantee speed up to 200 mbps and do not guarantee to get speed of 200 mbpd. Saw I asked him, if that is the case, what is the Internet percentage lose. He said 5-10 percent is the normal average. I replied, if that is the case, 90 mbps is more that 50 percent. He said, i should call support to fix that issue. We got back to the matter of the pricing, He offered to raise my speed to 400 mbps for 59.99 for 3 years to keep the account rather than move to AT&T for 39.99. I then ask him if they need to exchange my equipment. He said no and the new speed will take effect in 24 hour.

Five months later, i am still getting poor Internet speed that now working from home because of the COVID 19, has made it worst. I called for service and the technician who came has replaced my equipment and cable because he thinks it was what was causing the problem he got from his tester equipment. After all the work he did, he concluded that there is a problem with their service. He said he will file a report and another technician will work on the cable or equipment outside the house.

It has been a week and i have purchased a new equipment a week ago as well to make sure it is not my router that is the problem. Today, they have not worked no my issue and has been stalling me by saying they did not find a problem or they are having an outage but it will be resolve soon or they are resting my connect to fix the problem aside from having me reset my modem and router to fix the problem. The problem still exist and I am filing a complaint in hopes they (Spectrum) can fix their equipment or service to match what I have been paying. I am paying for 400 MBPS but I am getting same speed before even with the price increase. I have paid them for years but they have not provided the speed they promise on they plan.

Ticket: # 4007886 - Service/COVID-19/ Service interruption

Date: 6/3/2020 4:52:41 PM

City/State/Zip: Chicago, Illinois 60626

Company Complaining About: Comcast

Description

Consumer states that she has no internet in the middle of the COVID-19 pandemic. Consumer states that she has try to re-boot her system but apparently is not working. She called multiple times consumer service and she is unable to speak to an agent. Consumer needs her internet to be restore immediately, consumer states that she was about to pay her service and they disconnected her service due to no payment. Consumer states that she made the payment into her account for them not to disconnected the service and they still did it. Consumer needs her service to be connected due to the pandemic and the protester going on in Chicago.

Ticket: # 4008091 - Late Fees

Date: 6/3/2020 5:58:54 PM

City/State/Zip: Linwood, Pennsylvania 19061

Company Complaining About: Verizon

Description

My complaint is against Verizon. The Governor ordered that utility companies in PA are not to charge late fees due to the hardships caused by Covid-19. I contacted Verizon after receiving several bills which included late charges & was told they will not remove or reimburse me. I am asking for assistance as I have been a loyal customer to Verizon for the last 9 yrs.

Ticket: # 4008122 - dish tv local chanel

Date: 6/3/2020 6:20:51 PM

City/State/Zip: Lucedale, Mississippi 39452

Company Complaining About: Dish Network

Description

I live in Lucedale, Mississippi. The only local channels that are available are for Mobile, Alabama. Due to this, I am unable to follow the Mississippi Covid-19 requirements on an up to the minute basis. I know what Alabama requires, but I don't live in Alabama. I would like Mississippi channels. This is also an issue with hurricane preparedness. Please help!

Ticket: # 4008192 - Overcharging and insufficient means to access feasible ways to change plans

Date: 6/3/2020 6:59:59 PM

City/State/Zip: San Clemente, California 92672

Company Complaining About: Cox

Description

I recently acquired internet services from Cox communications immediately before the lock down was instituted. During this time Cox has completely blocked the ability to change plans online and is coercing customers into paying extra while offering others lower prices. If I was able to go to another ISP I do not have a choice as AT&Ts offering is as slow as dial up especially with multiple devices. Their website was literally impossible to use and impossible to change my plan to the plan I wanted as their new customer pricing expired when finally the dust of the corona virus began to settle.

Ticket: # 4008270 - Xfinity/Comcast lack of contact

Date: 6/3/2020 7:45:26 PM

City/State/Zip: Jacksonville, Florida 32219

Company Complaining About: Comcast

Description

Xfinity/Comcast claim to have 24/7 assistance for all problems related to your Xfinity services. Due to COVID-19 their stores are closed and they are not doing in-home repairs. This is understandable, however, they also do not have a way for you to call by phone and get technical support and the online chat is NOT working. The online payment is working perfectly however. I currently have Cable, WiFi, Phone and Security with Xfinity. I should be able to reach the company to report problems with any of these services.

Ticket: # 4008283 - att billing

Date: 6/3/2020 7:56:17 PM

City/State/Zip: Tooele, Utah 84074

Company Complaining About: AT&T

Description

in march i was billed 581.22 for a phonw bill that was 313.00 (ish).

fore 11 weeks i tried to get ahold of someone to figure out why. when i did get ahold of someone and i asked them to turn my kids phones down to the minimal servise that they provide with phone andtext. i was told that i wouldhave to out right buy the phones.

i then called my bank and reversed the payment. im not on auto pay what so ever with att.

i recently was put on the covid19 re leaf program. they are not honoring that. this moring i woke up to a disconnected phone. left my kids at home with no way of making any calls if needed be. now they are telling me that it will be 400 to turn back on. now that ive paid that they are strong arming me into paying them 974.00 within 27 days or they will turn off my service again.

Ticket: # 4008332 - COMCAST SERVICE FOR INTERNET, PHONE AND CABLE

City/State/Zip: Arlington, Virginia 22203

Company Complaining About: Comcast

Description

For the three years I have been a customer of Comcast in Arlington, Virginia, I have had major issues of disruption of services due to technical errors that have pervaded my land line phone, my broad band Internet and my television. I have been unable to watch television and use the Internet at the same time. I often cannot watch a movie or program without the service being interrupted sporadically so that I cannot even enjoy a movie or program. My company, KCW Design Group, LLC provides Veteran transportation for the VA between hospitals and clinics/appointed designations. If my land line is not working, my staff cannot get in touch with me to correct the problem. During the Covid crisis, this has substantially interfered in my ability to address a crisis because of the unreliable service for home phone and Internet. A technician visited my property to "correct" the services problems and was incompetent and rude. I have been dealing with this for 3 years and I ask that it be fixed once and for all and that my billing account be "zeroed" out. I can be reached by email at

(b) (6) Thank you for resolving this on-going problem with Comcast.

Ticket: # 4008349 - Higher prices and the Nastiness of representative

Date: 6/3/2020 8:46:15 PM

City/State/Zip: Monroe, North Carolina 28110

Company Complaining About: Spectrum

Description

Spectrum increased my bill \$70, due to a promotion that I did not have before hand ended. I have basic cable, phone, and Internet. I called tonight to ask questions about my bill, which I did not know would wind up to be a fight and a battle! Two things, month ago I called to get another box and it took 12 days to get and I was told I would be charged once it was activated. According to the man I spoke too, he said I was charged before all of it, (how can you charge for something I did not get) Second when I called tonight, I had to deal a nasty person on the phone, which yeah I got nasty back, I was trying to ask him questions, and he was annoyed that I was trying to get to the bottom of why the bill is so high. We raise prices during a pandemic.

Ticket: # 4008408 - Cricket wireless coved 19 scam

Date: 6/3/2020 10:00:56 PM

City/State/Zip: Huntley, Illinois 60142

Company Complaining About: Cricket

Description

I have (2) family plans with cricket wireless for approximately 10 years. The plan is 5 family members for \$100.00. The advertised a new plan for 15.00 a line. I called cricket along with other family members to see if we switched to the 15.00 a line that it was not temporary and would last otherwise, I would not switch. As to verify this I called in to different customer service individuals and received the same answer that you would be grandfathered in and as long as you don't make changes the 15.00 a month would not change. So after having the same family plans I decided to switch because of what their customer service people told me three times in three different calls. Also, my family called and received the same answer as I did. We switched in the middle of May, 2020 and was notified on May 29th, 2020 that the 15.00 plan on July 15th the plan will be no longer available and will be moved to a 30.00 a month plan.

I also had two family members switch to cricket for the 15.00 /month plan from another provider. She called numerous times and was told that price will not change unless you make a change to this account and you would be grandfathered in. We believed the because our previous plan for 10 years was grandfathered in as long as we didn't make any changes. Why would we switch our plan to save 5.00 a month for two months to have the charge an additional 10.00 a month after the two months. Cricket lied to me and my family on numerous calls. They are taking advantage of the Covid 19 hardship and should be ashamed of themselves!!!! Spamming people in hard times is a horrible thing to do. This is a total scam and needs to be looked into.

Ticket: # 4008416 - Hughes net Internet speed

Date: 6/3/2020 10:11:35 PM

City/State/Zip: Point, Texas 75472

Company Complaining About: Hughes Net

Description

Hughes net promised plenty of speed to stream movies and use multiple devices with their internet service. It's no where near enough to stream Netflix and that be the only device online. I need to be online for teaching from home during the Covid pandemic. My laptop runs so slow at times that it won't load certain educational pages. If they could get me the speed I need to do these things that would solve my problem. Otherwise I'm paying \$75 a month for nothing.

Ticket: # 4008435 - Unstable internet speeds/availability

Date: 6/3/2020 10:33:26 PM

City/State/Zip: Tarboro, North Carolina 27886

Company Complaining About: Sudden Link

Description

Starting around 03/10/2020 (see attached pictures), the internet speeds have been inconsistent and only reaching about 15% of the advertised speed for nearly two months. The problem started around the time NC received its Stay at Home Order. The unstable speed has caused issues with me working from home as well as the children being home all day from school. The technician that came on 05/05 said the problem was on the pole and he would put in a work ticket. I was charged \$60 for his visit and told two weeks later that he tested positive for COVID-19. A week after his visit and nobody came to work on the pole, I call back and find out the work ticket did not get sent so an appointment is made for the following week. Tuesday, 5/19 and no tech. I call support to just be given another appointment. Thursday, 5/21 no tech again. When I call this time, I was told I could get more than double my speed for \$10 more per month. I figured this was a decent deal and might get someone to come out. Maintenance tech visit rescheduled again for 5/28. Thursday, 5/28 a house tech came to upgrade my equipment for the faster speed package but is limited with my pole/line issue. Scheduled maint. tech visit was skipped again that day and then again on 6/3. My speeds improved for a short while after I called in to activate my personal modem in place of the rental but were unstable again in less than a week. Suddenlink's suggestion is to reschedule a maintenance visit. Compensation has been denied along with a request to remove the \$60 initial tech charge.

Ticket: # 4008459 - Covid 19 scam

Date: 6/3/2020 11:15:18 PM

City/State/Zip: Magalia, California 95954

Description

A woman with an accent left a message on my cell phone stating that I had tested positive for the Covid 19 virus and to call her to deal with the "release" of my medical records etc... Since I have not been tested for Covid 19 and I live in California, not Colorado where the number originated, this is obviously a scam.

Ticket: # 4008692 - Slowed incoming data

Date: 6/4/2020 10:07:03 AM

City/State/Zip: Sedalia, Missouri 65301

Company Complaining About: Verizon Wireless

Description

I have had the same cell phone service provider for approximately 15 years with no issues with incoming data but since COVID-19 myself and many others in my community and across the state have been is having issues with dropped calls slow incoming data slow outgoing data which I believe to be at the hands of our provider or From federal regulations. I have spoke to my provider about the issue and they suggest that I get a booster in the home because I am in a weak signal area. I have had good Internet service up until the last few months which leads me to believe this is not a issue that I can take care of at home nor should I. I truly doubt that this is a provider issue simply because it is systemic across our community and state. I hope you will look into the situation to find who is controlling the input and output of cell signals/Internet signals.

Ticket: # 4008695 - Severe service issues

Date: 6/4/2020 10:08:08 AM

City/State/Zip: Burlington, Kentucky 41005

Company Complaining About: Cincinnati Bell

Description

Please allow me to introduce myself as a resident of Boone County and the City of Burlington. My wife and I own and live at (b) (6) along with our two children. I am writing to ask for your review and assistance with the lack of reliable high-speed broadband services in our area. Our current provider is Cincinnati Bell, and the current maximum speed Cincinnati Bell offers to our home is 10Mbps. However, our actual average speed is much lower at only between 1-3Mbps. These speeds are reminiscent of the dial-up service at the infancy of the internet age.

My wife and I are both work-from-home employees for our respective companies. The recent COVID-19 pandemic and its resulting "stay at home" orders has caused in increased need for and reliance upon access to the internet for us to perform our jobs. Between participating in video conference calls, screen sharing and live presentations we are finding that internet speeds of at least 50 Mbps, and preferable 100 Mbps or more are necessary for us to perform work functions. Further exacerbating the issue, schools being closed due to the COVID-19 pandemic has required our children to perform their school work at home. Due to our very limited internet speed, our children are not able to complete their assignments in the allotted timeframes.

Per the FCC Fixed Broadband Deployment website our address is supposed to have access to 7 internet service providers. Of these, only Cincinnati Bell and Charter Communications (Spectrum) claim to offer speeds of 50 Mbps or greater.

However, the reality of the situation is that neither of these carriers, nor any of the others, actually offer speeds approaching 50Mbps in our area.

Cincinnati Bell does offer its 50Mbps service up Peel Road to a point, but that service stops at Garber Road. The same is true with Spectrum who offers speeds up to 940Mbps to our closest neighbor on Peel Road.

We have had numerous discussions with both Cincinnati Bell and Charter Communications (Spectrum) over the past two years and have had no success in convincing either to extend their high-speed service to all the residents of Garber Lane and the remaining homes West of Peel Road.

Within the past month, we have had discussions with Cincinnati Bell to inquire about the cost of having its high-speed service extended to our home at our expense. Cincinnati Bell's quote was \$95,000! Obviously, this quote is far outside what we consider reasonable for what has become an essential utility.

I am asking for your assistance in working with these providers to improve their very limited infrastructure. Asking our family to spend \$95,000 to gain access to a vital service that our neighbors on Peel enjoy is simply unreasonable.

Thank you for your time.

Sincerely,

(b) (6)

However, the reality of the situation is that neither of these carriers, nor any of the others, actually offer speeds approaching 50Mbps in our area.

Cincinnati Bell does offer its 50Mbps service up Peel Road to a point, but that service stops at Garber Road. The same is true with Spectrum who offers speeds up to 940Mbps to our closest neighbor on Peel Road.

We have had numerous discussions with both Cincinnati Bell and Charter Communications (Spectrum) over the past two years and have had no success in convincing either to extend their high-speed service to all the residents of Garber Lane and the remaining homes West of Peel Road.

Within the past month, we have had discussions with Cincinnati Bell to inquire about the cost of having its high-speed service extended to our home at our expense. Cincinnati Bell's quote was \$95,000! Obviously, this quote is far outside what we consider reasonable for what has become an essential utility.

I am asking for your assistance in working with these providers to improve their very limited infrastructure. Asking our family to spend \$95,000 to gain access to a vital service that our neighbors on Peel enjoy is simply unreasonable.

Thank you for your time.

Sincerely,

(b) (6)

Company Complaining About: T Mobile

Description

I pay T-Mobile for Unlimited Mobile & Internet service . I have reported problems with my services. Even though tech support has escalated the issues and "supposedly" resolved the problem it still continues. Recently it has become worse. I have found that my connections bandwidth seems to be restricted and radically slow down, including:

- 1- Have many dropped calls
- 2- Unable to get signal from tower
- 3- Unable to connect with tower
- 4- Failure with outgoing text messages
- 5- Unreceived & delayed receipt of text messages
- 6- People calling me but unable to get through (calls would not appear on my phone screen)
- 7- When a VM is left, it was delayed in being received
- 8- In past times I have been forced to upgrade my phone
- 9- Experience major slow down with my web browsers (even when using different browsers)
- 10-at times unable to access internet
- 11-GPS applications unable to get a signal
- 12-SERVICES WERE INTERRUPTED "TWICE" EVEN THOUGH THERE'S A COVID-19 EXECUTIVE ORDER, even though restored it should not have happened.

I'VE DONE EVERYTHIN FROM UPGRADING FIRMWARE & APPS, CLEARING CACHE, RESTARTING DEVICE.

Thank you for your help,

Ticket: # 4008890 - cell phone shut off during pandemic covid-19

Date: 6/4/2020 11:35:33 AM

City/State/Zip: Toms River, New Jersey 08753

Description

My cell phones were shut off on May 30th. I had to make a payment arrangement of 500.00 that I can't do for June 11th 2020. I read on the New Jersey site that there wouldn't be any shut offs during that time. I am in forbearance with my mortgage at this time and it is a hardship for me. I need my cell phone for work and is the only line to my daughter who lives far away. I tried to make another payment arrangement about a half hour ago and they wanted the full 700.00 to do that at a later date (18th). I don't know what to do. Please advise

Ticket: # 4008980 - Suddenlink Billing Customer Service....

Date: 6/4/2020 12:04:37 PM

City/State/Zip: Pottsville, Arkansas 72858

Company Complaining About: Rcn

Description

My daughter lives at our former residence. She wished to change internet providers (from RCN to Service Electric) and wanted to port our old number for convenience' sake. She began new service in April 2020 and was told by her new service provider that they could not port number due to pandemic. We maintained the old internet provider at least a month after my daughter began utilizing the new provider. After many calls by me to BOTH providers, each company said it was the other company's responsibility. I was told today that the number, which we have had since the early 1980's was no longer available, and I want to know if there is any recourse available to us, thank you.

Ticket: # 4009687 - Complaint to Altice/Optimum**Date:** 6/4/2020 3:39:31 PM**City/State/Zip:** Holtsville, New York 11742**Company Complaining About:** Optimum

Description

Altice/Optimum account # (b) (6)

I am a 72-years old retiree, during the Covid-19 pandemic I have to stay home and rely Internet on getting information, online shopping, and pay bills. Recently I feel very frustrated, after I received a warning on bill and a call from my Internet provider Altice/Optimum. "Your home Internet will be Cutted off soon if you don't make a full payment to cover a past due balance \$38.97 (in dispute) plus current monthly charges \$112.35 for a 200 Mb/s speed plan by June 8th". To act my rights as a consumer, now I have to seek assistance in solving the billing issue with this business. The dispute has lasted over 3 months remianing unresolved yet:

In the middle of this March, I called the company to upgrade my home Internet speed form 100 Mb/s to 200 (this is the starting speed the company currently provided on market) as I wanted to get faster connections and downloading/uploading speed for more than 3 devices used in my house. The problem was that I have never ever seen the speed gets up. All devices are still running at low speed as before. I tested it using two Speed Test apps the company provided, got the same rate less than 100 Mb/s by wired connection, and less than 30 Mb/s for wireless. This issue remains unchanged, even after their technicians came to my house and changed modem, cable connector and underground cables. One of the techs (Eugene) ran an on-site test by using direct wiring to laptop from modem, the app shows a speed rate around 75 Mb/s, but he said the signal from air was good (I don't understand what he explained. I only trust the speed displayed on the apps they provided). Then my bills had been keeping charges for the speed 200 Mb/s, even I spokto with a rep. Ryan around 3/22/20 asking to cancel the update. (see attached) I keep calling/chatting and even mailing to dispute the charges. I said "As a customer, I pay what I received (the quantity and quality just like people doing shopping at stores.)

I have been an Altice/Optimum customer over 7 years, I have never ever made a late payment before the technical related billing issue came up to me 3 months ago. Even if there were a Past Due balance in dispute, I always keep paying off undisputed portion of \$98.00 on time, though the company raises \$20/mo. to Internet subscribers' regular monthly charges this year. (compare with their advertized price \$47.00 for 200 Mb/s speed, I pay double for 100Mb/s).

I am trying to reach out a resolution:

I hope the company can dispatch technicians again to my house, check the speed currently in use. If a true test speed reaches out or close to 200 Mb/s with no fixes required for it, I take this speed and pay the remaining balance at all with no service fees. But if the test runs at not higher than 100 Mb/s, I ask for wipping out all PastDue balance from bills, and keep the original speed 100Mb/s as before with no service fees.

Notes: As there are vulnerable elders living in the house, all test or any work would be restricted to do on the wall of fundation where wire comes through to basement.

I am glad to see the company Altice/Optimum is one of the companies signed a pledge with FCC as "Keep American Connected Pledge". I am hoping the company would help customers stay together, and solve issues they have...!

Ticket: # 4009934 - Surcharges and Hidden fees

Date: 6/4/2020 4:43:15 PM

City/State/Zip: Woodbridge, Virginia 22191

Company Complaining About: Verizon

Description

Verizon hit my business with a \$340 early termination fee after I made very attempt to get increased speeds with them from there service. They stated they were unable to offer anything greater than DSL. I was forced reluctantly to switch in order to keep my business functional during covid lock down and now verizon seems to think that I owe them for their inability to provide adequate service. If they had upgraded their infrastructure to begin with I would never needed to call them to complain about the terrible service.

Ticket: # 4010028 - Internet issues

Date: 6/4/2020 5:06:56 PM

City/State/Zip: Oak Park, Illinois 60302

Company Complaining About: Comcast

Description

Dear sir or madam,

Thank you so much for listening. I am having a major issue with Comcast although I pay full price. The internet constantly goes in and out of service. I work from home and present for work and my job is at jeopardy with this horrible internet service. Also, the speed is is 50% of what I am paying for. Comcast would need to reimburse me for the 2 months of issues and not being able to talk to someone about it. I have been trying to get in touch with someone and after many days, finally someone was able to talk to me today on 6.4. They agree with me that the speed is really slow and when they run the tests the box signal they told me shows them red. So, they know there is an issue but when I asked for them to send a tech, they said they cannot because of Covid. So, I am still paying their fees. They need to compensate me for 2 months. (b) [REDACTED]

Ticket: # 4010076 - Excessive Charges for Connection with no breakdown provided

Date: 6/4/2020 5:19:52 PM

City/State/Zip: Homewood, California 94161

Company Complaining About: Sudden Link

Description

We have been requesting cable and internet connection with Suddenlink since Jan 2020. This is an area with only 1 provider. Suddenlink took months to reply, then Covid hit and they used that as reason to not provide service. They have recently provided a bid of \$13,218.95 for connection fees. When I asked if they would supply a breakdown of the fees they replied, We unfortunately do not give out a full itemized breakdown. How can this be legal? How can fees be this high? Plus, they say it will take 90-120 days to connect service! Assistance with getting a full breakdown and help understanding how fees this high can be charged. Thank You

Ticket: # 4010091 - Forced areas

Date: 6/4/2020 5:23:49 PM

City/State/Zip: Owenton, Kentucky 40359

Company Complaining About: Directv

Description

We live in Owen County, Kentucky , an hour south of Cincinnati, OH. We have Direct TV and are told that FCC regulations say we have to have Cincinnati as our local stations. Very frustrating that we can't watch what is happening in KY's capital which is 13 miles away. Especially frustrating now because we can't view our governor's daily Covid-19 updates. Also very confusing as there are Owen County residents who live farther north than us and their local stations are out of Lexington/Louisville. They also have Direct TV.

Ticket: # 4010144 - Failure to provide service in a timely manner

Date: 6/4/2020 5:41:27 PM

City/State/Zip: Jackson, Mississippi 39202

Company Complaining About: Comcast

Description

In our efforts to return to work after Covid-19, I contacted Comcast to obtain service for a business location . This request was made on April 28, 2020 over a month ago. My small business has signed a contract for services. I have personally called the utility marking service and the underground utilities are marked. When I contacted Comcast they said that August 28 is when they could get to this project. Comcast as well as many other Internet Service providers took Federal Money in 2009 to ensure the provision of services to under served areas of the country. That has not happened and the lack has been highlighted by Covid-19. I am simply asking for a high speed line at my small business so that I can get back to work. I am also asking for a timely installation of said high speed line. June 14 should be enough time for Comcast to send someone down to the City of Jackson to obtain a construction permit for digging a trench and running a line to my building.

Ticket: # 4010155 - Inappropriate billing after service failure

Date: 6/4/2020 5:45:02 PM

City/State/Zip: Brooklyn, New York 11238

Company Complaining About: Optimum

Description

My internet service provider's equipment failed in March. Due to COVID, and the fact that I am a doctor who worked with COVID patients, I could not in good conscience allow a service worker to enter my residence to fix the equipment. I informed the company that since they were not providing me with internet service due to broken equipment, that I would not be paying for internet subscription service going forward. I received two subsequent calls about this, and each time I informed them that I was not receiving internet service due to broken equipment and that I should not be charged for services not provided. I then received a call that a bill of over \$100 of non-payment for the subsequent months would be sent to collections at the end of the day (this call occurred at the very end of the day). I asked to speak to a person who could help me resolve this issue, and was put on hold indefinitely. It is inappropriate for this company to send a bill to collections for services that they did not provide, after being informed multiple times that they were not providing the service. I need the bill to be recalled from collections and the inappropriate service charges to be cancelled.

Ticket: # 4010178 - Comcast Non-Operational Home Security Cameras

Date: 6/4/2020 5:55:22 PM

City/State/Zip: Houston, Texas 77093

Company Complaining About: Comcast/xfinity

Description

Have reached out to Comcast/Xfinity several times to correct defective, non-operational home security cameras. Finally told to request one camera at a time (total 5 cameras need replacing). I did but was told that I had to install, meaning, I must get on ladder, remove wiring and existing camera, then re-wire new camera--a total five times. COVID-19 is used as defense for Comcast not sending technician out. Wearing mask and gloves while maintaining safe distance from the outdoors should suffice. Only I am there and believe me, I want to keep my distance from technician as much as he wants from me. I need security cameras installed immediately. Protesters, looters, etc. could easily attack my business and I want to monitor it at all times.

Ticket: # 4010191 - Hotwire.com engaged in false advertising and fraud on large scale affecting thousands, on info and belief...

Date: 6/4/2020 6:03:42 PM

City/State/Zip: Los Angeles, California 90036

Company Complaining About: Hotwire.com

Description

Hotwire.com is engage in false advertising on their main webpage.

During late May and June, the Hotwire.com main page has had a prominently featured announcement in the middle of the home page saying "we're now providing free cancellation on all new HotRate bookings with travel starting on or before June 15 2020."

When you click LEARN MORE within that announcement, the Hotwire.com pop-up repeats the claim, saying "we've teamed up with our travel partners to provide free cancellation on all new HotRate Hotel bookings with travel starting on or before June 15 2020."

I booked a HotRate hotel for May 29, and I cancelled immediately (using the "free cancellation" policy above), because of a change in plans due to COVID.

Then, a few days later, I got an email from Hotwire about my cancellation saying my booking was non-refundable. I was shocked. Hotwire.com kept my money, in complete violation of their heavily-featured and advertised "free cancellation" policy. My cancellation was not only not free, Hotwire.com kept the entire amount I'd paid.

I spoke to supervisor Joseph (ID# 391) and supervisor Maria (ID# 704); they both said that certain fares were not covered. I pointed out that their statements contradict what Hotwire.com says on its main page: "free cancellation on all new HotRate bookings." Joseph (ID# 391) said the word "all" did not mean "all." (Maria (ID# 704) said that she did not see the cancellation policy announcement on the home page. Only after I suggested she was lying, and that I'd have the recorded call evaluated, did she say "Oh I refreshed the Hotwire.com screen and see it now." But she still refused to admit it said "free cancellation." She claimed the LEARN MORE had fine print which clarified certain restrictions. I asked her to look at the LEARN MORE fine print, which also said "free cancellation on all bookings." She claimed she could not see it.

Hotwire.com deliberately misleads and defrauds customers by promising free cancellation for all bookings for travel before June 15 on their main Hotwire.com web page but then charging customers the entire rate even when they cancel within the time frame and abide by the criteria.

This seems like fraud.

This seems like deliberate false advertising that is hurting the American consumer.

Ticket: # 4010452 - Transferring hosude WIFI, money gauging system

Date: 6/4/2020 9:57:09 PM

City/State/Zip: Stillwater, Oklahoma 74075

Company Complaining About: Sudden Link

Description

I have been a Suddenlink customer for the past two years. This week I moved house and thought it would be a simple process to have my Wifi services transferred to my new address as it is only 100 meters away from my previous house and the previous tenants to the house had Suddenlink service. When I moved into the house, I was able to simply plug in the modem and router and the WIFI worked immediately. However, this morning at 9:00am the WIFI services were switched off. When I contacted Suddenlink (after I waited 40 minutes on hold) I was given absolutely no help at all. I was transferred between four different employees who gave little to no effort in helping. One employee in particular, Fredrika was incredibly rude and snappy when I told her I had been on the phone for almost two hours and just wanted to get the problem sorted out. The call came to an abrupt end when the fourth employee just hung up on me mid session. In total I was on the phone for two hours and 30 minutes! I have never been more frustrated and felt unvalued as a customer. Every month without fail Suddenlink takes 53 dollars from my bank account but now that I need help from them, they are too busy to help. I am a college student constantly struggling to make ends meet and now more than ever with classes online due to the pandemic I am forced to have WIFI. Not only do I not actually need a technician to come to my house as everything is already installed but they are refusing to send out a technician until June 11th by which time my online class will be almost over. This is a clear money racket so that Suddenlink can charge me for having a technician come to my house. Suddenlink has a monopoly over the town of Stillwater Oklahoma and they rule over their customers with an iron fist.

Ticket: # 4010498 - No option to pay past due.

Date: 6/4/2020 11:01:18 PM

City/State/Zip: Brooklyn, New York 11234

Company Complaining About: Optimum

Description

I received a statement in the mail stating I must pay \$17.21 cents to keep my services on, 6/3/2020. The internet was then disconnected and I was charged the full amount of \$71.59 before the actual due date of 6/15/2020. I was then told my service would be restored on 6/5/2020. This is in the middle of a pandemic. Why is there no option to pay your past due to restore a customers services. This was my first bill.

Ticket: # 4010509 - Comcast keeps cutting me off because of their mistakes

Date: 6/4/2020 11:16:16 PM

City/State/Zip: Brookhaven, Georgia 30319

Company Complaining About: Comcast

Description

I activated my Comcast account on May 15, but that afternoon my network went offline for no reason. I contacted their tech staff and they finally came to check on my problem after a couple of days. It turned out that their tech staff had accidentally unplugged me while installing someone else's network. The same situation occurred in early June again. My network was suddenly disconnected due to their mistakes. This is a special time due to the COVID virus. I am working from home now and my job is heavily dependent on the network. They have made me miss my meetings on very short notice several times. And because the technical personnel needs a couple of days to show up and help me repair my network, I can't make my rescheduled meetings as well. Since my office is closed, I have to find a public wi-fi and work in public places under the quarantine. It's only been around three weeks since I activated the Internet, but I've been struggling with my Internet situation for about a week on and off. This is a special time. I am very grateful for the service of technical personnel but this situation is not acceptable. They can not guarantee that this situation will not happen again, which has seriously affected my work. I hope I can get some effective solutions.

Ticket: # 4010543 - Derogatory Language Broadcast Multiple Times During Prime Time

Date: 6/5/2020 12:38:00 AM

City/State/Zip: Beaverton, Oregon 97006

Description

During a statewide quarantine and nationwide pandemic, KPTV in Portland Oregon broadcast a live illegal protest event on 6/4/2020. At 9:29, the "F" word was said twice; at 9:31 the "sh" word was said live on air.

Three obscene utterances in less than 5 minutes.

The overall tone of the event was bigoted, racist, hateful, inflammatory and exclusionary. Their broadcast license should be suspended or revoked.

Ticket: # 4010932 - Charging for Service after Cancellation

Date: 6/5/2020 11:14:43 AM

City/State/Zip: Durango, Colorado 81301

Company Complaining About: Spectrum

Description

Cancelled Spectrum Internet service beginning 5/19/2020.

Service was previously paid 4/29/2020 to 5/28/2020.

Spectrum is not only trying to claim we owe them money for unreturned equipment, even though we were using our own and were never billed for their equipment.

Spectrum also billed the credit card on file for another month of service, after cancellation of the account.

This charge has also been disputed with the credit card company, seeing as this looks to be an illegal attempt to extort money from the consumer, especially during a Pandemic...

Ticket: # 4011373 - Phone Billing**Date:** 6/5/2020 1:33:09 PM**City/State/Zip:** Camden, Delaware 19934**Company Complaining About:** Sprint

Description

Consumer is stating that he has Sprint as his provider. Consumer is stating that his contract was up and he went to the store to get his bill lowered. Consumer stated that they lowered his bill. The bill was to be \$200.00. Consumer stated that when everything shut down due to the pandemic the provider was back to charging him \$500.00 a month for his phone service. Consumer stated that Sprint disconnected the phones and he called them and they told him to pay on his bill and they would connect the phones. Consumer can not pay the \$500.00 phone bill and would like that his bill be reduced to the \$200.00 that it was. Consumer is stating that the additional fees are too high and he will not be able to afford to pay those fees, late fees are included in the charges.

Ticket: # 4011385 - Spectrum billing is predatory

Date: 6/5/2020 1:36:50 PM

City/State/Zip: Milford, Ohio 45150

Company Complaining About: Spectrum

Description

I called on May 6th to change some of my services on my account and to save money during the pandemic. My Billing cycle is May 1 through the 31st. They changed my services and cancelled what I requested. I go to check to see I got credited for the services they happily removed. They never mentioned that I was still going to have to pay for them for the further 26 days that month. If I had been advised when I called to cancel of this, I may have made different decisions.

I feel I should be getting a credit for the services they removed.

Spectrum has a monopoly for services down here where I live and treat the customers poorly because of this. I work from home, I have to have high speed broadband. They are my only option. Something needs to be done reduce their stranglehold for us suburban/rural customers.

Thanks,

One of the fees is order place \$11.00. Next charge fee is, \$240.00 for a Jack, The last charge fee is a technician visit \$99.00.

The consumer stated that this issue happen on April 30th, 2020.

Now the consumer mention that she received a phone call from the technician on April 30th, 2020 that the visit work would be cancel do to COVID-19. Which the consumer stated that she understands.

Now the consumer does not understand why she is getting charge with fees whenever nothing was complete as she received the phone call that the service for that day was cancel.

The consumer has tried reaching out to the carrier about the issue but she has not been able to speak to someone.

The consumer provided the address where the work was suppose to be done at

(b) (6)

The consumer provided a secondary contact phone number, (b) (6) 9

Resolution

The consumer would like for the charge to be remove from the account because nothing was done on that day. Also she would like to know what technician provide this complete work when nothing was done. The consumer stated that what they are doing is a fraud and lying about the work being done.

Ticket: # 4011613 - Complaint against AT&T unethical business practices**Date:** 6/5/2020 2:53:20 PM**City/State/Zip:** Austin, Texas 78727**Company Complaining About:** AT&T

Description

I'd like to complain against AT&T unethical business practices. I'm a women owned business and trying to be alive here in the midst of covid-19. The City of Austin ordered shelter I placed for safety of others so I closed the shop on March 24-June 7,2020. And of course I wasn't here to collect any mails from them. Since I came back to work on May 8 till now I still don't get any mails. On June 4,2020 AT &T disconnected my service of internet and phone. My husband, (b) (6) has to come here to call them to reconnect it. They said that I owed \$48.18 and charge a reconections fee . I been with them for 3 years and never paid late but since this covid-19 they treated me like this with no sympathy or any discounts. I'd like to have them reconsider to waive any fees and give me discounts to help me get back on my feet. I'm trying to survive here since I reopened the business, none of the employees came back and customers are scared to come too. I'm very disappointed with AT&T on how they handled the difficult situation that I have to deal right now. Thanks for your concern!

Ticket: # 4011680 - Phone suspended against AT&T PROMISE NOT DO SO DUE TO COVID-19

Date: 6/5/2020 3:09:48 PM

City/State/Zip: Silverton, Oregon 97381

Company Complaining About: AT&T

Description

Good afternoon, I called few days and I did a payment arrangement with ATT to pay my bill on June 21 2020. AT&T did not honor the arrangement and still suspended my phone even though they had a promise not suspend people until June 30th. I tried calling at&t and phone will not even allow me to dial so I can pay bill, asking me to use a different phone. I did pay my bill in full but I believe such auction taken by them was morally corrupt and assuming illegal. I though I would turn this to your attention. under you tabs below is does not cover this issue.

Ticket: # 4011821 - Xfinity Collections on Equipment**Date:** 6/5/2020 3:47:06 PM**City/State/Zip:** Washington, District Of Columbia 20009**Company Complaining About:** Comcast

Description

Hello,

Xfinity has sent me to their equipment collections office after repeatedly telling me they would send me a return label and not following through. We are in the middle of a global pandemic and my city has been under a stay at home order. I have explained this at least 5 times to a representative on the phone, a chat system, and to the collections callers and their best response is for me to go to a UPS store to drop off the equipment as they are having trouble providing me with a return label. I have explained to the company that my equipment has been boxed up and ready to be sent out via UPS (there is a drop off in my apt. building) and all I need is for them to provide a label. It has been ready for months. I would even pay to have it shipped. I do not want to go out to a UPS store for public health reasons and now many of the businesses in the area are boarded up due to protests. It should be illegal for xfinity to send someone to "equipment collections" when the customer has clearly expressed unease at going out in public during a pandemic. They must have ways of helping those that are unable to do so.

Ticket: # 4011995 - Unfair misleading information and guidelines under regulations and program provided for Pandemic Relief

Despite being a customer for over two years and paying on time, upon being advised that I was eligible for an extension under their Pandemic resolution guidelines until the end of June 2020, it was then decided by another Lead Specialist in Optimum Cable vision (CT region office that I was ineligible) I spoke to a female rep, named Sam and a Male representative names Mel. In their call center. I am also unable to utilize phone for emergency purposes, after being advised I would.

Ticket: # 4012069 - Spectrum Internet Service Issues

Date: 6/5/2020 4:58:33 PM

City/State/Zip: Massillon, Ohio 44646

Company Complaining About: Spectrum

Description

He is calling about Spectrum.

This about internet service.

His service is bad.

He needs to get a modem.

Spectrum told him he would need to go to store to get modem.

He was supposed to take old modem back to store, which he did.

The store they sent him to do not have modem.

They told him to unplug modem and put the cord in the box.

Spectrum is telling him to reach into the box to get modem cord back out of the box because of the COVID-19.

He would like to see Jason Dunkle, help customers more than, say go get the cord out of box, he did not want to get cord from box he told customer to get cord out of box because of COVID-19.

Customer is worried that he could have gotten COVID-19, because he had to go get cord out of box.

Ticket: # 4012162 - Broadband Service to Home**Date:** 6/5/2020 5:33:02 PM**City/State/Zip:** Hampton, Tennessee 37658**Company Complaining About:** Comcast

Description

I am filing formal complaint about broadband internet supplier Comcast who I have been trying since prior to February to get them to provide service to a new residential home. I have had an open ticket with Comcast since February and visited local office twice prior to ticket. I built house 150 feet from my prior home which I have had Comcast Service for many years. I cannot get any action from them. They state they are escalating the ticket but no action ever takes place. I have been required to work from home due to Covid and my sons finished their senior year. We were only able to operate with a range extender providing some internet coverage to our home. My sons are starting college in the fall and we need reliable internet service however Comcast has a monopoly and taking no action to provide service. When a broadband provider has a contract to provide service to a specific area they should be made to honor this contract especially when existing houses all around have Comcast service. There has to be some governing body that holds Comcast accountable to provide services to the area they are contracted to support.

Ticket: # 4012264 - T-Mobile LTE data not working at all

Date: 6/5/2020 6:43:41 PM

City/State/Zip: Tuba City, Arizona 86045

Company Complaining About: T Mobile

Description

Hi, I live in Tuba City. Arizona, on the Navajo Nation. T-Mobile has been my wireless carrier for a number of years now. Their service is great whenever I have been off the reservation; however, their LTE data and internet connection is slow or non-existent whenever I return to Tuba City. This problem has been persistent for some time now. I used to ignore the discrepancy in service since I have been living in Los Angeles for the past decade, but since moving back to Tuba City to help my family during the pandemic, the problem has hindered my livelihood and tested my commitment to T-Mobile's service. I have contacted T-Mobile in the past and was given an answer that the data coverage on their end looks great, but the reality on the Rez is very different. Please help address this discrepancy in services provided. Thank you.

Ticket: # 4012547 - RECEIVER BOXES FAIL. This happens TOO OFTEN

Date: 6/6/2020 12:42:17 AM

City/State/Zip: Miami, Florida 33162

Company Complaining About: AT&T

Description

I have an account with at&t . The account (b) (6)

I opened my account July 2 ,2019. Since I opened the account I have had nothing but problems; no signal all the time and in August one of the receiver boxes stopped working, I was able however to get a new box overnight. Today June 5th another box went bad . I reported it to at&t and requested a new box to be sent to me overnight. I was told that I cannot get a new box in June 8th.

I am upset because I need to know what is happening in my community and the country. We are in a pandemic and there is also civil unrest. There is also violence happening..

I believe at&t is treating poor Black people

With poor customer service. I believe I deserve better. I demand better from at&t

Which is a multibillion corporation.

My reference # (b) (6) . Via was the agent I spoke with . She could not get authorization to expedite my request.

Please respond!

Ticket: # 4012568 - Cox is not honoring the keep Americans connected pledge

Date: 6/6/2020 3:24:56 AM

City/State/Zip: Mission Viejo, California 92692

Company Complaining About: Cox

Description

Cox has lied repeatedly and disconnected me 2x and not kept their word in honoring the covid 19

Keep Americans connected to June 30

Please resolve this immediately

They use fake information

They conned me into paying 100\$ when I have been at 0\$ of income for 12 weeks and disconnected me the next day and didn't reconnect me for 5 days

And today after they specifically said they would honor the agreement they disconnected me and said they can't help me and I need to pay 380\$

After paying them 200! Last month while I'm broke and my daughter needs internet for school

Ticket: # 4012585 - Unexplained Bill and charges

Date: 6/6/2020 7:36:53 AM

City/State/Zip: Atlanta, Georgia 30315

Company Complaining About: Comcast

Description

I was charged for being on an assistance plan from the pandemic. I have new broadcasting and sports fees I've never had I don't have any sports channels further no one even sent correspondence of any change. Also I was charged \$108 for no reason it's not even explained on the bill. I haven't made any changes to my service and I my bill was paid in full with no balance prior. I never changed my plan

Ticket: # 4012650 - Internet being disconnected during pandemic

Date: 6/6/2020 9:58:21 AM

City/State/Zip: Amarillo, Texas 79118

Company Complaining About: Sudden Link

Description

I was told by an agent that my services would not be disconnected at all due to nonpayment and that I would have until June 30, 2020 to pay my bill that I would not incur any late fees from that period, I have screenshots. After multiple attempts at communication via phone and agent chat that took nearly 8 hours I was eventually told their automated system was to blame and that it had to be manually turned back on, but varying answers from different agents told it'd take between 24-72 business hours and it was a Thursday. I ended up being taken off my entire work schedule for 7 days because it took so long for it to actually be turned back on and my son missed out on several important assignments. I was told I would not be paying for the days I had no connection and I expect that to be done on top of them paying for the days I missed out on from work, I contacted well in advance just to avoid this situation and was confirmed by an agent it would not have happened.

Ticket: # 4012656 - slow speeds for internet, paying for 1 gig getting only 18 Mbps

Date: 6/6/2020 10:03:39 AM

City/State/Zip: Prosper, Texas 75078

Company Complaining About: Sudden Link

Description

I am paying for speed for 1 Gig. For last week speeds have been test every day never testing over 20 Mbps. Call and get a voicemail saying they are have heavy call volume due to Covid-19 issues. Then give instruction to reset the modem , I do that and still speed of less than 20Mbps.

Ticket: # 4012735 - Comcast raising my bill every month. Service has been horrible for months. Customer service impossible to reach.

Date: 6/6/2020 11:26:38 AM

City/State/Zip: Holladay, Utah 84117

Company Complaining About: Comcast

Description

Comcast is inexplicably raising my bill every month. It was \$64.95 in April, \$77.21 in May, and I just got a statement they are billing me \$84.95 in June. Trying to contact customer service, I am on hold forever. On top of this, my speed has been horrible during the pandemic. I would cut them some slack there, but not for what they are charging. My internet is slow (especially the upload) and I am paying more than any of my friends that are in Google Fiber, Centurylink Fiber, or Utopia service areas.

Ticket: # 4012839 - Billing dispute

Date: 6/6/2020 1:36:02 PM

City/State/Zip: Waukesha, Wisconsin 53188

Company Complaining About: Spectrum

Description

We made a payment for the month of April 2020 and canceled early to come back to Wisconsin because of Covid-19. I talked to James a Supervisor Badge# 3126. Very rude and cold. Did not have the desire or patience to resolve the situation. I will never use Spectrum again because of their callous attitude. For that reason I am requesting a refund of \$106.86.

Ticket: # 4012922 - Unfair billing

Date: 6/6/2020 2:35:02 PM

City/State/Zip: Somerset, New Jersey 08873

Company Complaining About: Verizon

Description

I have verizon fios. I pay an obscene amount of money a month. I admit i never look at the bill. I happened to view the detailed bill under verizon charges and noticed a regional sports fee of 8.89. Now unless im an idiot there are no sports on due to the pandemic yet this company charges you monthly. Most people probably do not even notice it on their bills. I tried to contact customer service to have them fix it atleast until sports are back on and the moron told me that i am supposed to pay that that they are not responsible. How are you billing people for something that is not even on. There is no baseball, soccer, basketball, golf, tennis, no nothing. This is not fair to consumers given that everyone is struggling right now. I think that is wrong.

Ticket: # 4013093 - Racial Discrimination at Sprint Store

Date: 6/6/2020 6:17:05 PM

City/State/Zip: Brooklyn, New York 11229

Company Complaining About: Sprint

Description

I visited Sprint store in Brooklyn for service assistance. One of the associates blocked my entry and told me that they cannot service me and told me to call service center. I called Sprint service center and was told to go outside since they cannot service me. There was only one other customer in the store so social distancing was not an issue, but the other associate was saying that "I was a threat in this pandemic." The manager was called by the associate and he did not do much to provide quality customer service, but I was able to complete my call to Sprint. I did ask the manager for an apology and he did mockingly comply without providing proper customer service training to staff to fairly serve customers of various ethnic backgrounds.

Ticket: # 4013230 - Cox internet disconnection

Date: 6/6/2020 9:49:43 PM

Company Complaining About: Cox

Description

My internet has been disconnected multiple times through the coronavirus pandemic due to non payment because I am unable to work due to covid19 issues.

I was assured no disconnections or late fee payments until June 30th.

Obviously that is not true.

Ticket: # 4013231 - Excuses for speeds being slow, customer support negligent to help nor give explanations.

Date: 6/6/2020 9:50:01 PM

City/State/Zip: Blacksburg, Virginia 24060

Company Complaining About: Viasat

Description

Viasat has continued to not perform up to the speeds we pay for or anything remotely close. Our family pays for the second highest package of 25mbps download speed and we get .25-3mbps on a good day. Before Covid-19, customer service blamed it on people in the neighborhood "buying smart tv's" and the satellites cant handle all the traffic. Now during Covid-19 they blamed it on people being at home all day, these are obvious excuses because its 24 hours a day. We live in an area with no service and the internet goes down all the time. VERY unsafe and unreliable, we have attempted to contact customer service and all they try to do is bump up our plan to the highest plan with no promise of improvement. Our speeds currently match the same speeds as the lowest package and our bill is \$100 more than the lowest package. Extremely unfair.

Ticket: # 4013264 - Abuse,

Date: 6/6/2020 11:17:29 PM

City/State/Zip: Sugarloaf Township, Pennsylvania 18202

Description

Ticket: # 4013268 - Altice raising prices during the pandemic.

Date: 6/6/2020 11:30:04 PM

City/State/Zip: Oak Ridge, New Jersey 07438

Company Complaining About: Altice Usa

Description

Altice arbitrarily raised my internet rate 11\$. While they can charge whatever want I just wanted to let the FCC know that Altice has no problem raising rates across the board during the COVID19 pandemic. I called them and they would could not even reduce my internet speed to save me money. They bump my speed up for 1year.. but the fact remains I have to pay more now. Its a moral tragedy that FCC cannot stop companies from doing this during a pandemic when people are out of work.

Ticket: # 4013301 - Cox communication internet speed slower than advertised

Date: 6/7/2020 2:09:03 AM

City/State/Zip: Clifton, Virginia 20124

Company Complaining About: Cox

Description

Hello,

I recently switched the other day from Cox to FiOS Internet because I was not getting the internet speeds that Cox advertised. I was paying for 150 megabit per second service and for the last few weeks every time I ran a test I was getting 120 megabits per second at most. Often I was getting as low as 60 or 80 megabits per second. With Cox on the phone, I carried out their troubleshooting steps by connecting my laptop directly to my modem through an ethernet cable and connecting the modem directly to the coaxial cable coming into the house. This was a good test to rule out any issues in my home networking. In carrying out this test I was unable to get above 120 megabits per second, which as I told them matched the performance I had been seen throughout the last few weeks. During those conversations I asked if I could be credited for the lack of service over the preceding weeks and they told me they would not give me a credit. In other words I wasn't getting what I was paying for and they still charged me for the full amount even after I pointed this out to them and spent time on the phone troubleshooting it to rule out issues on my end. This was unsettling to me and therefore I wanted to reach out to you to let you know and file a complaint against them. I'm not really sure what recourse I have, however I would like at a minimum for the sake of principle to receive a credit for the service I did not get. I think that's only fair and helps keep them accountable to the customers. Please let me know if you have any questions and if this is something you could help me with, or if you simply have any advice for me. Thanks for all your help with this.

By the way, please note that in the presence of the pandemic I am very pressed for time. I work and I have children at home all day that I have to spend much of my day teaching them their school work. therefore my goal throughout this process is to invest as little time of mine as possible at chasing this down. That's why I very much appreciate your support through this. Cox has already cost me quite a bit of my personal time trying to troubleshoot and I was very compliant through that process which concluded my network was not the issue. So hopefully moving forward we can get them to please just give me a credit and rather than have to jump through a lot of additional hoops. My only goal in this process is to receive a credit for my last month's bill as I think that is fair given the troubleshooting that is already taken place.

As documentation, I have attached to screenshot of a side-by-side performance test that I did while I had both Cox and FiOS connected to my house. This test was done using the same computer connected directly to the Cox modem and then connected directly to the FiOS modem. This also helps rule out whether my computer was the issue as you can clearly see in the right-hand image that I was capable of getting much higher speeds using FiOS, and more importantly I was getting below the advertised speed of 150 megabits per second through Cox. Hopefully this helps.

For what it's worth, I'm an electrical engineer and am well versed with these technologies. In fact for the last six years I've worked as the director of engineering at iDirect, a company that develops

telecommunication equipment for providing internet service over satellite systems. I only point this out to hopefully give myself a little bit of credibility during this troubleshooting process.

Thank you,

(b) (6)

**Ticket: # 4013466 - covid no business provider is holding my business no. for 23 years
hostage**

Date: 6/7/2020 11:27:31 AM

Ticket: # 4013600 - Unwanted Robotexts

Date: 6/7/2020 2:34:13 PM

City/State/Zip: Tarpon Springs, Florida 34689

Description

I have been receiving unwanted robotexts all hours of the day for approximately one month. They solicit various products and services. Some examples are health supplements, celebrity news articles, and "amazon" phishing scams.

I understand that these types of trash texts can come from many places, but I do not frequently give out my information. That being said, I did give my e-mail and phone number to Instacart and Best Buy in order to complete a curbside orders during the pandemic. I did not agree to receive third-party communications at any point during these transactions. During this time, I completed a total of one customer satisfaction survey which was for my Best Buy purchase. Again, No where at any point did I agree to receive communications of any type from third-parties. I hope this is helpful and that we can find a solution to end these unwanted text messages.

Ticket: # 4013806 - TDS telecom billing practices/errors

Date: 6/7/2020 5:55:40 PM

City/State/Zip: Knoxville, Tennessee 37938

Company Complaining About: Tds

Description

I have had several problems with this company regarding paying my bill. Twice I have had payments credited to an unknown customer in another state and have been billed late fees for THEIR errors. On 5/10/2020, I paid \$46.44 (bill plus late fees during a pandemic and stay-at-home orders so I got to the post office late) plus a \$3.95 fee to pay this bill over the phone. Evidently, TDS did not run my payment through correctly because my bank doesn't show the payment cleared and on my bill due in June I was charged \$15 for a returned check charge and \$10 for yet another late fee. I checked my bank account, and on the day they charged me a returned check fee I had several hundred dollars available in my checking account...plenty to cover the \$46.44 and the \$3.95 fee. TDS needs to be audited/investigated for their billing practices and their excessive use of late fees, returned check fees, and high bills. They need to return the \$25 fees they've charged on my statement dated 5/22/2020 and they certainly need to return the \$10 late fee they charged me the previous month during stay-at-home orders. They also need to reduce their monthly charges and excessive fees. I am paying almost \$40 a month on a phone I barely use. And there are no options for landlines in my area that I am aware of other than TDS. They have the worst customer service and ethics I've ever seen.

Ticket: # 4013907 - AT&T Billing Me More

Date: 6/7/2020 8:30:50 PM

City/State/Zip: Isabela, Puerto Rico 00662

Company Complaining About: AT&T

Description

On May 7th At&t offered me a special plan for students which would only be available during COVID-19. This plan would allow me to have more data and pay the exact same amount I was paying at the moment, however I am currently being billed \$149 extra dollars. I asked my AT&T consultant multiple times if my bill would stay the same and I was told yes, I asked my representative to make notes on my file to make sure this did not happen. I called again on June 3rd to make confirm that my bill would not be affected in any way, however as I mentioned before I am being billed extra.

Ticket: # 4013932 - Locked in a monopoly for Internet Services**Date:** 6/7/2020 9:00:34 PM**City/State/Zip:** Lewisville, Texas 75067**Company Complaining About:** Frontier Communications

Description

I live in an apartment complex serviced by Spectrum Communications and Frontier Communications, but I am only able to get Spectrum. I am not receiving the service I need from Spectrum (even their highest internet plan does not have the required upload speeds I need for my job, which I'm required by my company to work from home right now due to the COVID19 situation). When I attempt to sign up for services with Frontier, I am told my address is within their coverage area but my specific apartment unit in the building is not wired and Frontier refused to attempt to connect service, even after they stated services are available for my address. I contacted Frontier initially on 5/16/2020 to request services and it was not showing up as available. I contacted customer service at the request of the Frontier Sales department to request a Sift ticket. The ticket was processed and closed on 5/19/2020 and told I was able to have services setup at my address and corrected their records. I reviewed their website ordering system and shows my apartment has coverage.. I placed an order over the phone with for 500 mbbs up/down through Frontier Sales over the phone (order number 77187646) and provided account number (b) (6) installation date of 5/27/2020. On 5/27/2020, Frontier contacted me by phone and stated the technician reviewed my unit within my apartment building and it was not setup and would not provide installation but the Sift ticket stated I was eligible. There are 18 units in my apartment building (I'm in building 7 or 23 buildings in my apartment complex) and it appears only my unit was not setup. I confirmed ATT, suddenlink, century link are not available at my address. I am locked in with Spectrum paying over \$80.00 a month for 400 mbbs down/20 mbbs up. Even their 940 mbbs down/35 mbbs up at \$110.00 a month does not meet my upload speeds. I stayed with family who has the 500 mbbs up/down services through Frontier and had no problems completing my job with buffering, scrambled video conferences, files locking up and systems I am required to use for my job freezing or running slow. I am locked in a lease for 12 more months and not able to afford to move to buy out my lease. I cannot continue to not receive the services I need when a company offers them but refuses to do the required work to install the services and the company I'm locked in does not offer the services I need.

Ticket: # 4014148 - Comcast is being deceptive with their Covid response page

Date: 6/8/2020 5:21:06 AM

City/State/Zip: Eugene, Oregon 97404

Company Complaining About: Comcast

Description

Comcast says they are not shutting people off through June 30th for being late on bills. Instead they are slowing peoples internet down with out telling them. No email, phone call or anything. I had to log into my comcast account and a random pop up told me this.

Ticket: # 4014159 - AT&T Availability Complaint

Date: 6/8/2020 7:13:07 AM

City/State/Zip: Spokane, Washington 99207

Company Complaining About: AT&T

Description

At&t shutting off service now no warning!

We were shut off no notice the other day with late fees of \$40 for last 3 months and also know of several other businesses that it's happened to as well recently.

We had contacted them awhile back that we were shut down due to the pandemic so they were aware. We contacted them again about a month ago telling them we hadn't received any relief yet from PPP, EIDL, or stimulus and they said no problem that they had the agreement to not shut off with FCC and when things opened up payment arrangements would be made.

None of this happened to dozens we know of recently in Spokane, WA. We were all shut off with no notice and charged full amount due plus late fees of \$40 a month for every back month to turn on service. 3 months worth.

They told us on the phone after going into the store and raising hell to have them get a live customer service agent on the phone because you can't get one right now thru your phone cause its automated message about the virus, they told us flat out they had no agreement with FCC that was binding and went til May 15th as a courtesy but were shutting people off now that were not current on their bills and not waiving late fees!

Somebody needs to kick At&t in the ass with hefty fines for lying to the FCC and public. It's an outrage that they are doing this while still under lockdown restrictions and millions can't work and now millions of at&t customers will be unable to communicate at all with family, or unemployment offices, food stamps, etc because they have no service and no internet and all libraries are closed to use computers. It's an outrage!

BTW they are requiring full payments to restore service no if ands or buts. No arrangements at all or warnings just shutting you off overnight.

Look into it. There's starting to be all kinds of complaints on the web and Twitter. We are notifying all the major news outlets to do stories on this because it's a safety and health issue!

Thank you!

Casey and Team

Ticket: # 4014571 - Cancellation Fee Which Was Sent to Collection

Date: 6/8/2020 11:03:37 AM

City/State/Zip: Sarasota, Florida 34231

Company Complaining About: Comcast

Description

I bought a new home in Dec, 2019 with my daughter as I am on disability. The pandemic hit so my daughter lost her job. I canceled the \$165 per month cable and internet bill as I cannot even make the house payment. Xfinity proceeded to charge me a \$220 Cancellation Fee. I have spoken to their customer service department on several occasions to explain the situation and make an attempt to get them to drop the cancellation fee as I am in dire circumstances. They now have a collection agency harassing me for payment. This fee should be waived considering the circumstances.

Ticket: # 4014715 - Optimum: Failure to provide service

Date: 6/8/2020 11:37:44 AM

City/State/Zip: Aberdeen, New Jersey 07747

Company Complaining About: Optimum

Description

I am a cablecard subscriber. On 5/22, a number of SD and music channels that are part of my Broadcast Basic plan went dark. Numerous calls provided conflicting information and solutions. Finally, I was told that I need to add a tuning adapter to restore the missing channels. I asked for a tuning adapter to be shipped because of COVID-19. I was informed that it had to be picked up. I was told to go to the store in Parlin, NJ. I asked the rep to call ahead and make sure that the store had a tuning adapter. The rep stated that she did call the store and that they had one. When I arrived at the store I was told that they have not had tuning adapters since November. I have denied service and lied to. Desired resolution: ship me the tuning adapter to verify if it will remedy the issue. Provide a clear answer as to whether there was a provisioning change on or around 5/22 to convert certain channels to SDV which would explain the outage. Provide a refund for the outage period.

Company Complaining About: Comcast

Description

We started to have trouble with two receivers back in March and I knew we wouldn't be able to get anybody out here to look at them because of the Coronavirus. Well here it is June and two out of the 3 tvs are not working. I called Comcast and they tried to reset them and it didn't fix the problem. Comcast then explains that they can have someone check the wires outside but they cannot come inside the house. Thats fine but they are still charging me over \$200 for one box working. I want compensation for the boxes not working. My husband works too hard to throw money out the window. If this problem isn't resolved I will end my service with them for good.

Ticket: # 4015598 - Optimum/Altice Cable Company Refusing New Service due to Prior Tenant's Balance

Date: 6/8/2020 3:33:14 PM

City/State/Zip: Jefferson Valley, New York 10535

Company Complaining About: Optimum

Description

My husband and I separated in April. He moved into an apartment the middle of April after living at our house for 16 years. He tried to get Optimum hooked up but with the COVID restrictions, Optimum said they were not doing new hookups until further notice. So, at the end of May they started new services again. When he called, the rep told him they could not give him service because the previous tenant did not pay their bill. So, he either has to prove that he did not live there before April or pay the previous tenant's bill. So, thinking there had to be some mistake, I called, and it is true.

Optimum has a policy that if you were to move into a new apartment, a home you purchased, a different condo, whatever, and the person living there before you did not pay their bill, your choice would be to email to Altice Collections Dept. a copy of your SS Card, your photo driver's license, and proof from a utility that you lived somewhere else to get the new service or pay the prior resident's balance on their cable bill. Is this ridiculous or what? In addition, every single one of the bills were/are in my name (including the house), so he does not have any proof from a utility company that he lived here.

I would have a problem emailing a copy of my SS card and my driver's license with my photo on it to anyone. It just sounds like I am handing someone on the other side of that email my identity to steal. It would be different if you could go into the store and show them these items, but to send them through the email sounds like a reckless and dangerous thing to do to me. In addition, I think the cable company should be going after the former tenant who had the service, not the new tenant.

Is this even legal to withhold service because a former customer did not pay his bill? I asked the Supervisor to give me this policy and refusal in writing, but he refused. He said it is not their policy to give refusal of service in writing.

I look forward to hearing from you, and I hope you contact Optimum/Altice One as well. My soon to be ex-husband's name is (b) (6). He's trying to get service at his new apartment in Jefferson Valley, NY.

Sincerely,

(b) (6)

Ticket: # 4015664 - robocalls from spoofed numbers

Date: 6/8/2020 3:49:04 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the beginning of 2020, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are marketing calls. All of the numbers are presumably spoofed, and presumably they are all robocalls. The frequency of the calls has varied. For most of January and early February, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped.

Many of the spoofed numbers were registered for Greenville, MS. However, I have also received calls from Coffeetown, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona and Crystal Springs, MS. For a brief period, calls came in from out of state as well. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. For the call I am reporting today, caller id was not able to identify a location. However, a search for area code 662 and prefix 214 indicates the number (almost certainly spoofed) is registered for Baldwyn, MS.

Most of the time, I do not answer the calls. I have been forced, to stay sane, to put my phone on Do Not Disturb, so I usually don't notice them right way. It is wrong that I am forced to do this, and the perpetrators of these actions should be punished. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. As I mentioned, I have been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4015696 - Spectrum Cable incompetence

Date: 6/8/2020 3:58:18 PM

City/State/Zip: Charlotte, North Carolina 28216

Company Complaining About: Spectrum

Description

Spectrum cable said they could mail equipment due to Covid. On April 9 I ordered a replace the remote. It's never been shipped. On May 1 they said 1st rep entered it wrong. On June 1 they said 2nd person set it up incorrectly. I asked for a supervisor who told me it now fixed and I would have it in a week. Today June 8 they said that it still was incorrect. How much must I put up with?

Ticket: # 4015788 - DCT/Momentum doesnt uphold contract, makes unauthorized changes to our account

445 12th Street SW,

Washington, DC 20554

SUB: T- Mobile Wrongly done the plan of mobile Phones account

Respected Sir,

This is to inform you, that my mobile phone service provider is T-Mobile and I am using their service since 2017 have a complaint on their billing

I am paying for three cell phones is approximately USD 170.00. After the Covid-19 my business is Tourism-related (Receptive Tour Operator) is down and I requested to reduce the lower plan from March 2020.

I speak the Customer service (611) 7 times in 4months, the staff of T-Mobile are not sincere to their customers, When I requested to change that plan, and send me an email confirmation or hard copy by post, for the documentary evidence for the change of plan. The staff of T-Mobile told me, for the security reason, we cannot send any email or letter from our end.

Two weeks before I had seen Verizon have mobile plan of USD 35 for each mobile, so I decided to change to Verizon, before that I call T-Mobile for checking that similar plan. The staff Ms. Nine told me that we have that same plan, we can provide that same and the total monthly bill comes USD 105 + taxes. I agree for that and asked to send me the email confirmation, which is not yet received. Now I get text message for this month bill is USD 597.00, Please advise the needful, to be questioned the company T-Mobile "why you are not providing customer change of plan by email or hard copy....??

"Consumers are protected by the Consumer Bill of Rights, The bill states that consumers have the right to be informed, the right to choose, the right to safety, the right to be heard, the right to have problems corrected, the right to consumer education, and the right to service."

I am ready to pay the amount of USD105 + taxes (not USD 597.00)

Awaiting your favorable response, hopefully I will change this provider very soon.

Thanking you,

Yours faithfully,

(b) (6)

Ticket: # 4016148 - Suddenlink billing/customer services issues

Date: 6/8/2020 6:39:16 PM

City/State/Zip: Lake Havasu, Arizona 86403

Company Complaining About: Sudden Link

Description

I was billed a late payment due to their error as my local office is closed due to Covid-19, so had to mail payment out of town. Mailed payment in plenty of time (9 days in advance), but they held onto my check and decided to cash it after my due date causing a late fee. Called regarding the matter and they said they can cash my check whenever they feel like it. Next month mailed my payment and they cashed it in plenty of time, but once again decided to add on a late fee from the previous month. Called again today and after two hang ups by them transferring me to the wrong department, the third call I told them they are to cancel my service at the end of the month to which I can not return any equipment to the office, they said I have to mail equipment to them at MY expense.

Ticket: # 4016152 - Hughesnet contract violation

Date: 6/8/2020 6:40:33 PM

City/State/Zip: Cornville, Arizona 86325

Company Complaining About: Hughes Net

Description

I live in a very rural area and Hughesnet has a monopoly on internet services here. I am a full-time college student. I take all my classes online due to the pandemic. Hughesnet only sells its service in a contract form and guarantees speeds of 25mbps upload and 4mbps download. I have had the contract for several months long before there was any pandemic scare and not once, have I received the speeds that I pay for. I never complained about the slow service until I was required to watch my lectures online for my classes. They won't play no matter what I do. I have plenty of gigs left on my data plan and the videos won't play. This happens across all streaming services, not just the one that plays my lectures. When I do an internet speed test on google the speeds are a fraction of what I was promised. Their website does not say "speeds up to 25mbps" it says that their plans will deliver 25mbps. I have contacted customer service so many times it is impossible to count. If you call them on the phone your are directed through the menu that goes in circles, ie, "for technical support press one" I press one and the recording will say, " I'm sorry I didn't get that, for technical support, press one.." over and over and over again. I have contacted them through the live chat and every time I ask what can be done about optimizing my educational website they rep will drop the chat and ignore me. indefinitely. I am paying every month on a contract that they are violating the terms of. What can I do? They have me trapped and I can't afford to be paying so much for so little in return. I have done all the troubleshooting that can possibly be done and have also done it with a customer service rep helping me do it through the live chat and they blame everything on the virus even though they have never supplied the speeds that they advertise.

Ticket: # 4016170 - Destruction of Emails by Former Provider**Date:** 6/8/2020 6:51:50 PM**City/State/Zip:** Atlanta, Georgia 30339**Company Complaining About:** Spectrum

Description

On June 1, 2020, Spectrum terminated internet service to (b) (6) account managed by Spectrum under its RoadRunner webmail platform for residents of Central Florida. The account belonged to (b) (6) who had moved to an assisted living facility for the elderly (AL Facility). Sometime in March 2020, the AL Facility, operated by Kisco Communities, determined to switch internet carriers from Spectrum to DirectTV, and commenced trading boxes. Due to the outbreak of the Covid-19 virus, the installation stopped midstream, without the switch being completed and without proper communication. It was rightly considered dangerous to have the technicians in the AL Facility, so some wires and boxes were left unpacked. But on June 1, all mail addressed to this address was terminated and deleted. The owners of the mail are not able to access the mail, and Spectrum has deleted all the mail without keeping any backup copies. Spectrum says they keep the mail for 3-5 business days after a "customer" terminates, but in this case the "customer" did not make the decision and was not notified of the deletion of all backups until it was too late to recover the email.

Most telecommunication carriers should keep backup copies of information available to them for at least 30 days to permit customers to access data once they realize that their service has been switched. Customers could be on vacation, or in the hospital, or unaware for at least up to a month that their service is being interrupted or interfered with. Most creditors provide for at least 30 days for consumer billing.

Similarly, if Kisco Communities is going to service the internet and other telecommunications services, it should likewise give notice and provide the ability to transfer backups of personal emails and similar information.

Ticket: # 4016198 - Internet Connection constantly dropping

Date: 6/8/2020 7:07:20 PM

City/State/Zip: Howell, New Jersey 07731

Company Complaining About: Optimum

Description

In March my wife and I started working from home because of the covid19 pandemic. I sign onto my vpn at 8:00am and my wife signs on at 9:00am. Everyday at 10:00am we would both lose internet connection. I would get on the phone with optimum and wait at least an hour to speak to a customer service rep. They would troubleshoot with me and eventually have to send out a tech. I've had four techs here and get a different story every time. The internet will work for a few hours and then continue to drop off again. I've had multiple modems swapped out, new splitters installed outside my house, but nothing seems to resolve the issue. One tech told me it's an issue with Optimum because they have their old technology and their altice technology and when they change something to one the other has issues. I have documentation of the internet dropping because my house alarm is connected to the internet, so I took screen shots of what a normal day looks like. I just sat on hold for an hour and ten minutes to receive and \$14 per month credit for twelve months. I asked the representative "this is great but how does this resolve my issue?" He stated " don't worry I sent an update to your equipment and it should resolve the issue". Well five minutes later I lost connection. This has been going on since March and I'm at my wits end! We pay \$280 per month for horrible internet and even worse customer service.

Ticket: # 4016293 - Optimum/Altice

Date: 6/8/2020 8:33:03 PM

City/State/Zip: Tampa, Florida 33647

Company Complaining About: Optimum

Description

I cancelled my services on 4/24, and was told by phone it was cancelled. I asked about my final bill and they said I could log in online and pay it. So I got the email of my amount due and I (stupidly) trusted them and paid what I thought was my last bill. I got another bill for this month, and found it very weird. I was already in Florida, and I had the box with the printed label to return my equipment that I didn't have since 4/24.

So I called them, they told me they never had anyone cancel my account. I told them I had call back in 4/24 and they said they will search for the call and call me back. That it will be within 72hrs. The representative said it takes time due to the fact of going into the system and looking for the call.

I got a call the same day, from a "manager" to tell me that they will cancel my account from this last pay period. But they won't honor my original cancel date of 4/24, and that they never found the call. According to him it wasn't in his department and that it is my fault for not knowing. I told him that I trusted the representative and that I don't work for optimum so I don't know what their cancellation process is.

He basically said too bad so sad, that since I paid the \$100 willingly they won't give it back. Even though there's a call somewhere (that they don't want to find) saying I cancelled.

He won't transfer me to anyone, he offered to transfer me to customer service at 7pm knowing they close at 5pm. And the call disconnected.

I'm looking for who else to go to. I won't let \$100 just be taken away from me, when I trusted the company! During this time of COVID, and uncertainty, they are taking/stealing money from hardworking people. I'm two months away from delivering a baby, at a high risk pregnancy, and I don't need this type of stress!

Ticket: # 4016323 - My Xfinity package

Date: 6/8/2020 8:57:01 PM

City/State/Zip: Baltimore, Maryland 21207-6322

Company Complaining About: Comcast

Description

As of 6/18/20,Xfinity increased my basic pkg from \$84.44 per month to \$104.39 a month. In mid-2019, I was told by them I would receive a senior discount but never received it. Called Xfinity today to discuss the problem (especially in light of the Covid19 pandemic) but was met with indifference and resistance. Maintaining my original fee of \$84.44, especially as a senior on a fixed income, would solve the problem.

Ticket: # 4016336 - Unused Roaming Fee Charges

Date: 6/8/2020 9:06:26 PM

City/State/Zip: Burtonsville, Maryland 20866

Company Complaining About: Comcast

Description

Dear Sir, I write to report Xfinity Comcast of overcharging me for service I didn't use.

I traveled to Sierra Leone in February 2020 and upon my return, I was charged \$602.55 for roaming fees. This is a service that I never used while in Sierra Leone. Throughout my time with Xfinity/Comcast mobile, whenever I travel overseas I've had to call Comcast to request the roaming feature (They have all my call records) if I needed to. This was the case in Canada, Mexico, and Italy. But unfortunately for Sierra Leone, it was different, I never used it nor did I request it but I was still charged.

Upon my return to the States, I called Comcast they claim that I was charged \$602.55 for 151 MB, I told them it was ridiculous and no one uses that small data amount just to be charged over \$600. I told them why would they set it automatic just so they can charge me as I turn my phone ON. The only thing I can remember up to this day is that I turned my phone (as always) upon arrival in Sierra Leone to correct my time and buy a new sim card. I never user used the service, and this can be seen on the account details that I didn't make any calls or send message, all I did was turn my phone ON.

Furthermore, due to this exorbitant charge on my bill, Comcast have failed to unlock my phone even though the phone has been fully paid for.

I have called them three times to explain to them but they have been very arrogant and never tried to listen to what I was saying. The frustrating part is that before we got hit with Coronavirus I've always paid my bills and most times automatic payment is done. I feel like they don't care about their customers even during this pandemic. I've had sleepless nights sometimes, worrying that my credit will be ruined.

I am pleading with the FCC to look into this issue and help me out. I believe there are other customers out there that might experience similar issues with Comcast but do not know how to make such complaints. Please help me and help the other voiceless people out there.

Please see the attachment.

Ticket: # 4016398 - COVID 19

Ticket: # 4016429 - Cox internet issues

Date: 6/8/2020 11:42:06 PM

City/State/Zip: El Cajon, California 92019

Company Complaining About: Cox

Description

We have been having internet issues constantly since the coronavirus quarantine. We have been told everything is fine, we bought a new router still same results. Called again and a tech came out said bad modem, bought a new modem same results. Still no results after 6 calls and 1 tech visit. ANother one coming but do not expect any other results. Basically b ought \$400 of new hardware for them to tell me to upgrade again (to their stuff). I just would like this fixed, feels like it is an issue with out internet in our neighborhood. The issue is not speed. It is we are losing packets and having high ping all the time. Cannot even play a video game on one device.

Ticket: # 4016439 - Service disconnected

Date: 6/8/2020 11:52:08 PM

City/State/Zip: Yorktown, Virginia 23690

Company Complaining About: Cox

Description

Cox has disconnected my service, as well as charged me late fee while their COVID response statements states they will not do that during then COVID period. I have call many time and continue to get hung up on and told there is nothing they can do

My children school is closed so everything is online

One adult in our home is workings at home due to COVID and needs internet access to keep his job I'm an essential worker working in nursing they have charge me for a tech to cone out to hook up services that I was told I wouldn't be charged for and won't send me my note on my account and blame it on the last person I spoke to saying they didn't note this and that and that it happens all the time and there is nothing they can do for me. I need internet in my home to continue to school my children and for him to continue to have a job.

Ticket: # 4016448 - billing

Date: 6/9/2020 12:21:30 AM

City/State/Zip: Valley Stream, New York 11580

Company Complaining About: Optimum

Description

This is my complaint...feel free to copy/edit it as fitting for you.

Optimum a.k.a AlticeUSA terminated my internet service on or about March 6 2020, and also charged a late fee to have my service restored. I just found the "KEEP AMERICANS CONNECTED PLEDGE" today when I signed in. My bill is due again tomorrow, June 6th, and I fear they will once again terminate my service as well as charge me additional late fees, and again violate their pledge they made to Americans. When contacted, they offered nothing but pay in full or be terminated.

I have little faith that they will do anything. Im content just to let the world know that they lied and offered no assistance to Americans during a pandemic, despite their pledge.

Company Complaining About: Centurylink

Description

Centurylink is my internet service provider. Service has been down since Friday June 5. It is now June 9 and there is still an outage. Since Friday, when I check status online or call to inquire, I've been told that the engineers are addressing the issue and am given a time for it to be resolved, usually within a couple of hours. That time comes and goes, the internet doesn't work, so I check again and a new time is listed for the outage to be resolved. This has gone on for days. I am working from home while also homeschooling because of the covid crisis.

Ticket: # 4016625 - Internet Outage During the Corona Virus Pandemic in WV**Date:** 6/9/2020 9:34:28 AM**City/State/Zip:** Alum Creek, West Virginia 25003**Company Complaining About:** Sudden Link

Description

On Friday June 5th, 2020, the Internet service provided by Suddenlink Communications failed due to an outage at 1 [REDACTED]. A complaint of the failed service was logged with the call center on Saturday morning June 6th, 2020. An automated voice system walked this customer through the reset process of both my modem and wireless router. When that failed, I was connected with an overseas call center who attempted the same process. After explaining that I had already attempted that process through the automated system, the representative at the call center tested the Internet connection and found that my home was not receiving service. An appointment was scheduled with a technician for Monday June 8th, 2020 between the hours of 5:00 p.m. and 8:00 p.m. On Sunday June 7th, 2020, my landlord approached me about the Internet issue after several other tenants in the same neighborhood had experienced a similar failure of service with their Internet. By his estimate, what started as a lack of service for one home was actually an Internet outage affecting 4-5 homes. He also explained that another tenant had approached him and scheduled a technician appointment the same day (Monday June 8th, 2020) as my appointment for a window. That tenant's appointment was set between the hours of 2:00 p.m. and 5:00 p.m. After returning to home from work at around 4:30 p.m. on June 8th, 2020, the technician never arrived to investigate the service issue at my home. At about 6:30 p.m., I contacted the overseas call center and the representative found shortly before my call, the technician had logged that he had been to my home and made personal contact with me. That event never occurred. The representative then logged a go back order to the technician to come back and make contact with me. That technician never returned to make contact with me. The representative called and said if the technician did not make contact, then call the call center back and record the technician's failure to show. I attempted to do this at about 7:45 p.m. 15 minutes before my appointment window closed at 8:00 p.m. On that call, I was on hold for 45 minutes with no contact with a representative from the overseas call center before I hung up my phone in frustration. My landlord was outside at the time and told me that the other tenant with a service appointment had made contact with the technician and declared the problem an outage and left. He left behind a open box containing a mess of wires and did not return the covering to the service box. I have attached that picture. Later that evening, I visited my parents to do some work on the Internet and received an e-mail with a pdf of a service order saying the technician had made contact with my home. That contact never happened. In addition, a crude smiley face was drawn in the signature line of the work order. On Tuesday June 9th, 2020, I attempted to call the overseas call center to report this during a break from work. After wading through the automated system, I made contact with the representative overseas, but the call was dropped. There was also a communication barrier with the representative since English was not her first language and she could not understand my accent. They attempted to call back, but my call was dropped again. I called the overseas call center back and asked to speak to someone in the United States due to the dropped call and my frustration with the previous communication due to the language barrier. The representative this time was a male and was rude. He refused to connect me to someone locally or even a supervisor when I requested a supervisor. In addition, he would not try to work through my request for compensation for the outage and only said I would be compensated for the outage at a later date. He said any complaints I have would have need to be logged with the technicians who are

on site fixing the outage. I explained to him I cannot since I am at work at the moment. I also mentioned that I will be leaving work early today since it is the primary election day in West Virginia. The representative then asked about my voting choices. I replied that simply was rude and none of his business. He apologized and said he was just trying to make polite conversation. I explained that is not a proper or polite question to ask in our culture. I pushed for a restoration time for the outage and the representative gave an estimated restoration time of 8:00 p.m. on Tuesday June 9, 2020. To compound the situation, the five day outage from Friday to Tuesday comes at a time during a global pandemic when Internet service is a vital tool for people trying to limit their time in the public.

Ticket: # 4016676 - Spectrum Internet Provider

Date: 6/9/2020 10:02:30 AM

City/State/Zip: Washington, District Of Columbia 20011

Company Complaining About: Sprint

Description

In October 2018 my grandson was leaving work and he was robbed, beaten left naked and for dead on the streets of NE DC. I contacted area hospitals and found out that WHC had a John Doe, upon arriving I found out it was my grandson. he had been stabbed multiple times, head injuries and was paralyzed and placed on a breathing machine which had I not gotten there they would have let him die from his injuries. A few weeks later he passed away. I contacted Sprint to see what could be done about the stolen phone, forwarded the police report and copy of the death certificate. Nothing was done for weeks so I had an attorney contact them and they took me making regular service payments on a lost phone and placed me on a plan that allowed me to pay for the phone only for 6 months which ended this month. I contacted them on 6/1/2020 and was informed that this plan was no longer in force, that I would have to pay for the phone in full or resume regular monthly cell phone serves. I was appalled. I am high risk COVID with pre-existing health conditions and was unable to have my bill increase from 201.00 to almost 300.00 per month. I informed them of this and they told me there was nothing they could because the program ended mind you one month after the death of my grandson in November, 2018, they took money and kept billing me under the arrangement for 5 months and 1 week, and I would not have known this until I called back as instructed by Sprint to call in June, 2020. Mind you I fought with them one year to have them place me on some type of affordable arrangement to pay for the phone and the phone alone. This is not what they want, they want me to pay for services on a stolen phone, or pay the phone in full. I am unable to do that and they refuse to place me back on the previous arrangements until the phone is paid for in full. I see no reason as to why I still have to pay for a phone that was stolen the owner of the phone is deceased. They refuse to talk to me, they have called me everyday since June 1, with no resolution to this problem so I am escalating it to you and when I informed them that I would be doing this, they stated we have a signed contract and hung up. I need help I cannot afford to pay what I am paying them now but manage to do so but I have to make arrangements every month to keep the service I now have. I am high risk COVID-19 and senior over the age of 65 and they will do nothing to assist me. I need help and I need it now. They have been forwarded the death certificate of my grandson, a doctor's statement from my doctor regarding COVID-19 restrictions and they have medical records from me from an accident sustained in 2009 in which my brother died as a result of that accident. If you pull their phone records dealing with my account all this information is in there. On several occasions they charged me for services that I didn't have and kept crediting my account only to increase the bill a few months later. I have been with Sprint since 2010 and only stay because I can make arrangements with them to pay the bill each month other couriers would not do this for me as I am in and out of the hospital for long periods of time due to the injuries I received from the car accident. Again I am over the age of 60, in bad health and I can't get no resolution from them from being a customer since 2010. My last conversation with Sprint was 6/8/2020 at which time I was informed to pay the phone off or my service would be interrupted for failure to pay the full amount of the bill. I am teleworking from home and my sprint phone is my only mode of telephone conversation.

I do not have a landline and can't afford adding one to the bill, I had that cancelled because I never use it and it didn't work properly. They have robbed me for years, please help me.

Company Complaining About: Verizon Wireless

Description

I switched in April to Xfinity phone because they were using the same towers as verizon and I thought like many of the Cheaper companies Xfinity and verizon were together. I found out they werent and my service with xfinity was horrible. Yesterday 06/08/20 I called Verizon to get back with them.. I had a balance of 250 and i paid 50 and did a payment plan for 125 for the 22nd. I was told by the department that took my payment i would be able to re-establish service i was passed around Verizon for approx. 2.5 hours and finally I got tired and the last person I spoe to yesterday sent me to bankruptcy because i did a chapter 10 earlier this year. THeY took care of the issue then sent me to sales department. I was told today i couldnt get service back till i paid balance in full. I explained that because of COVID-19 i went on a payment plan and the representative from the previous day told me i could go back on. I also explained i still had the SIM card and i wanted to reestablish service she wouldnt do it and she passed me along and i just decided to write a complaint because i have not found one person that knows what is flying there. I would like my services restored so i fdont have to be paying to companies and to come back home. I thnk since i was told that because i am on a payment plan i can have my services restored.

Ticket: # 4017165 - Suddenlink - the absolute worst of the worst

Date: 6/9/2020 12:32:25 PM

City/State/Zip: Whitehouse, Texas 75791

Company Complaining About: Sudden Link

Description

I just give up.

It took an fcc complaint to get my internet working (I use that term loosely since it only works about 50% of the time and the download and upload speeds are so bad it is impossible to do normal everyday internet tasks).

After that complaint was followed up on they were able to sort of get the internet running but I have had a line running across my driveway for more than 2 months. And the internet is so spotty I can't even believe this company has nerve to charge people for it.

But my complaint this time... once they turned the internet on they would not take the TiVo and boxes (that they NEVER got to work) back. Once the pandemic and closure was over I tried to do that.

Long lines outside. Since my service never really got up I opted to put the boxes- all in one bag and with a receipt tied up and their TiVo into the drop box. That was about 2 weeks ago. As of today they are still charging me for equipment and tv service that I don't use because they couldn't get it to work. I got direct tv after a month of waiting for them to get their equipment and lines to work. I have called and called and wait terminally on hold only to be hung up on. Today was last straw - after 35 min on hold it hung up on me again.

This company, their substandard product, and their absolutely abysmal service is really more than anyone should hav to deal with.

It is an embarrassment that would people have to Go through a government complaint form in order to talk to someone on their end.

for months our Optimum service has been going out intermittently. As a teacher, trying to zoom with my students has been challenging. Even through the quarantine and stay at home phase of Covid I've had to relocate to other homes to zoom. Boosting my service to 400 mbytes doesn't help because when the connection is lost, the megabits can't come through. I've called dozens of times but the service is still spotty at best. Please Help!!

Ticket: # 4017314 - Verizon Wireless Billing Complaint**Date:** 6/9/2020 1:08:17 PM**City/State/Zip:** Crisfield, Maryland 21817**Company Complaining About:** Verizon Wireless

Description**From:** (b) (6)**Sent:** Tuesday, June 2, 2020 12:53 PM**To:** craig.silliman@verizon.com <craig.silliman@verizon.com>**Subject:** RE: Account #1 (b) (6)

Please see forwarded email thread with an Executive Relations Escalations supervisor flat out dissembling about privacy on a generic account, which I refuse to employ to publicly air my personal grievances with Verizon.

I am "totally and permanently" disabled. I neither take nor make non-essential, non-emergency telephone calls. Verizon has been informed of this disability innumerable times over the past ten (10) years. But rank and file representatives obdurately insist on offering these generic email accounts - i.e., vccd@verizon.com<mailto:vccd@verizon.com>, cersWEExecutiveRelations@VerizonWireless.com<mailto:cersWEExecutiveRelations@VerizonWireless.com> - accessible to any employee assigned to the specific team or telephone calls as an option instead of complying with "reasonable accommodation" provisions of Title II, Subtitle A, of the Americans with Disabilities Act ("ADA"); and, communicating discreetly via professional Verizon assigned email account -- instead of a generic one open to unprofessional employees who promptly retaliate. This is a fact.

For the tenth time, I respectfully ask for either a regional customer service manager and/or director to communicate discreetly -- i.e., directly - with me concerning the sensitive, confidential issues I wish to raise with Verizon management. Two of (but not all) the issues that need to be immediately addressed but have not by either Executive Escalations and/or Wireless Escalations respectively are as follows:

1. The autopay option on the above account is not working though I am enrolled. A deduction was supposed to have been made on the 14th. But it is still pending. This service failure causes the account billing to double every month if I do not catch it (as I have this month). I am on a fixed income. The \$160 bill I had to pay to bring the account forward last month poses an economic hardship and, consequently, exacerbates the symptoms of my disabilities.

1. I respectfully asked that Verizon facilitate (place the order) a new account with Verizon Wireless (since Verizon already has my account information, which I authorize it to share with Wireless). I have no disposable income since the pandemic. But I need a basic (non-flip) handset that can be charged to the Wireless account set upon Verizon's end.

1. I am only looking for unlimited voice and text (no data) on the telephone. But I also need a SIM card for my Android tablet with a 6-10 GB data plan. The budget for both devices cannot exceed \$75/month (tax and fees included. And hopefully the accounts can either be consolidated or billed so they Verizon Freedom, DSL, and Wireless) all pay out automatically on the same day.

Subject: Verizon Wireless Executive Relations- Supervisor Request (b) (6)

Hello Mr. (b) (6),

My name is Ty W. and I am a Supervisor in Executive Relations and I forwarding my original response for your review. I hope you and your loved ones are all remaining safe during this time. My reason for contacting you is per your request issued to TJ. Respectfully, our email will process through our system for interaction with consumers from the Executive Relations department. I do thank you for considering bringing your business to Verizon Wireless as supporting new and existing customers is something work hard to do with high standards and integrity. I would love to provide assistance and clarify or answer any questions you may have remaining following the information provided by TJ. I am happy to hear all inquiries or concerns and will do my best to respond in a timely manner.

We thank you for your partnership with providing you with a reliable service provider and I look forward to helping by delivering to you the appropriate actions to get your matter resolved in a timely fashion. Please feel free to respond via email and I will follow up thereafter, if available to communicate via phone, I can be reached at 480-826-4828, Monday through Friday, from 8 AM to 5 PM PST. Thank you for your time.

Ticket: # 4017454 - Increased rate from \$38 to \$110 during coronavirus

Date: 6/9/2020 1:37:10 PM

City/State/Zip: Brooklyn, New York 11203

Company Complaining About: Optimum

Description

I use optimum. Since I was away during coronavirus on May 8 I spoke to an agent from Optimum whose ID is 4G1. He made it clear to me I had the option of paying \$10 a month to put my current contract on hold and whenever u want I could call in and they'd go back to same old contract. I asked him to repeat himself several times and he assured me that would be the case and I would not lose the contract. Well my sister called to add on WiFi again with the same contract and our rate went from \$38 to \$110. I have tried contacting them since last week to no avail. They are simply not taking calls. I don't know who to complain to but this is a horrible thing to do and clearly a company taking advantage of customers during a pandemic.

Ticket: # 4017509 - Phone/Internet refusal of service**Date:** 6/9/2020 1:47:54 PM**City/State/Zip:** Bentonville, Arkansas 72712**Company Complaining About:** AT&T

Description

I have resided at (b) (6), for approximately 3 years. When researching the house prior to purchasing, I contacted AT&T (who was also my provider prior to moving) and asked about service. ATT advised I was in their service area and that service was possible to obtain. As I researched the property further, I discovered ATT junction boxes containing buried wire on my property, and ATT service boxes on the residence. After purchasing the residence, I attempted (several times) to establish phone and internet service. ATT has informed me they will not repair or activate the old twisted pair style line as they want to replace it all with fiber. However, they advised they will not replace my line with fiber as it is not cost effective. I have offered to purchase DSL on the existing line, but they refuse, saying they are not selling new DSL accounts, only Uverse, but again will not upgrade the line due to cost. There are multiple residents on this route (12 or more) who are also may be interested in Att service but also are being refused availability due to the termination of this line and no replacement. Due to Covid, my children are now home without phone or internet access, resulting either in the inability to participate in online school (needed due to Covid school closures) or purchasing via hotspot or satellite at an exorbitant cost for unreliable service. Recontacted multiple times since with same results. Refusal to upgrade or repair line Access to residences would be reasonably easy as there are above ground (pole) power lines. Have also since learned that federal funding is available for improvement of broadband for rural areas but ATT still says they have no plan to return this area to active service. I have contacted other companies who state that they cannot service my house (neighborhood) as we fall within ATT's established boundaries and outside those other companies' service area.

Ticket: # 4017570 - Turned off cable during Covid-19

Date: 6/9/2020 2:07:17 PM

City/State/Zip: Milwaukee, Wisconsin 53216

Company Complaining About: AT&T

Description

I recently had my cable turned off during the Covid-19 due to a lack of payment but I signed up for paperless so no actual statement came to my home. And when I tried several times to log in online to pay my bill it was informing me that I had a balance of 0.00 and that I was unable to see my next bill this was going on for the months of Feb. to May

Ticket: # 4017583 - Suddenlink Fraud & Refusing to fix issues

Date: 6/9/2020 2:10:47 PM

City/State/Zip: Chickasha, Oklahoma 73018

Company Complaining About: Sudden Link

Description

We have had internet and cable problems from 3/1 to current 6/9.

Suddenlink dispatched a technician and they determined tap needed to be re-placed. I have contacted Suddenlink multiple times and they have sent out a 3rd party who diagnoses the issues as a bad tap and reports that a Suddenlink crew will need to be replaced.

I have called Suddenlink multiple times asking for the tap to be replaced.

We are paying for 100 mpbs and not receiving this signal on a constant basis. Additionally Suddenlink charged us an additional \$60 on 4/26; citing we were not home for one of the service calls. This was during the COVID crisis and 4 people were at home the day the technician was scheduled to arrive.

We witnessed him driving by the house, but he did not stop.

Please help us resolved getting our \$60 credit back and our tap replaced as Suddenlink as let this issue go on for over 3 months.

Ticket: # 4017619 - Sprint increased my phone bill without my authorization

Date: 6/9/2020 2:17:56 PM

City/State/Zip: Davis, California 95616

Company Complaining About: Sprint

Description

I have been using Sprint since 2015 for mobile phone service. I have a contract to pay about \$67 for 3 phone lines and 4MB of data per month.

Somehow, without my authorization, they secretly increased my bill to \$126 per month since Nov 2019, and as a results, I have been overcharged for the last 6 months of service. And during the pandemic when I lost my income, and when the payment was late, they just cut off my phone line and asked me to pay the overcharged bills before they restore the service.

This behavior is totally unacceptable. I petition FCC to investigate these billing issues.

Ticket: # 4017708 - Suddentlink Internet - Scammed and doesn't work

Date: 6/9/2020 2:39:05 PM

City/State/Zip: Lake Charles, Louisiana 70601

Company Complaining About: Sudden Link

Description

Suddenlink Internet - We were paying for higher level of internet speed and were paying every month but it was never adjusted on their end. Paying for higher service but not ever getting that service. Actually pre-covid service worse over time. (I lived in several places in the south and everyone else is so much better than sudden link, Can't not understand how sudden link has monopoly on SWLA region.

Ticket: # 4017801 - AT&T No Availability

Date: 6/9/2020 2:59:37 PM

City/State/Zip: Bueno Park, California 90621

Company Complaining About: AT&T

Description

The consumer states that for the last 3 years AT&T has taken advantage of consumers.

The consumer has a doctors appointment and with COVID-19 she does it over the phone.

The consumer paid \$280 2 weeks ago and now they are asking for another \$500 to turn both her and her husbands phones back on.

They disconnected both of their phone services.

The consumer called AT&T and they didn't help her.

The consumer is using her neighbors phone.

The consumer can't make any emergency calls if she has to and can't get to her appointments.

The consumers husband uses his phone for a business Uber/Lyft, his name is Dwaynes Grose and account holder who gave us permission to speak to wife.

The consumer states that she needs an explanation as to why they keep demanding money especially during the pandemic COVID-19 she needs to get to her appointment.

Her phone number is (b) (6)

Ticket: # 4017825 - Consumer Privacy Violations**Date:** 6/9/2020 3:04:04 PM**City/State/Zip:** Mount Gretna, Pennsylvania 17064**Company Complaining About:** Comcast

Description

Yesterday, I made a payment with Comast as I was roughly only TEN days late on my payment. On June 9th at 3:51 a.m. Comcast choose to send my landlord my account summary and notification I was late in paying. (I have copy of their communication) This is not the first occurrence and 3 other times I have worked directly with Comcast regarding disclosing my personal information to a 3rd party, once even in person at their office, each time I was promised this wouldn't happen again. This account is solely in my name and they only have information on my landlord seeing as she resided in this house previously. This is not only unfair this breaks every privacy policy there is and I reiterate I was only 10 days late in the midst of this COVID shut down. I need assistance and Xfinity/Comcast need some penalty on this matter.

Ticket: # 4017846 - We have services down for 9 days - we are a medical facility

Date: 6/9/2020 3:09:32 PM

City/State/Zip: Staten Island, New York 10305

Company Complaining About: Verizon

Description

Our services have been down and Verizon has not restored our services. We are a dialysis facility dealing with patients especially during the pandemic and we are an essential business. My emails go unanswered. My escalations fall on deaf ears.

Ticket: # 4017919 - COMCAST/TERRIBLE SERVICES

Date: 6/9/2020 3:25:00 PM

City/State/Zip: Braddock, Pennsylvania 15104

Company Complaining About: Comcast

Description

Since the pandemic, not only have I been contacting Comcast regularly but, they also sent a service man out. To know avail my service has gone from bad to worse to terrible, they aren't answering your call but they're taking your payments every month!!!!

Ticket: # 4018036 - Cut service without notification

Date: 6/9/2020 3:55:12 PM

City/State/Zip: Jacksonville, Florida 32277

Company Complaining About: Comcast

Description

Two days in a row, Comcast has cut my service off for maintenance. They knew about the issue more than an hour or two in advance, yet made no attempt to notify affected customers that there would be a service interruption. Cutting off our service for maintenance creates undue hardships for people working from home due to Covid-19 and others using their service. Comcast, at minimum, should be required to notify customers PRIOR TO disrupting service for maintenance. This would allow users to save or backup information prior to losing service and any work in progress. Almost every other online service provides notice. It is unacceptable that Comcast does not. The only notification they provide is a text when it comes back up ... which is often hours after its back up. One of the provided screenshots shows that they only provide notification AFTER they interrupt service and the other shows they knew about the issue well in advance of it being disrupted at 2:45 PM without ever notifying customers.

Ticket: # 4018148 - AT&T Pole Down

Date: 6/9/2020 4:24:58 PM

City/State/Zip: Hermitage, Tennessee 37076

Company Complaining About: AT&T

Description

She is calling about AT&T wires are down.

AT&T owns pole, per conversation with Nashville Electric Service said, that it was not there pole it was AT&T pole.

There are small children around this area, she is afraid that one of the children may get hurt.

She has called AT&T about this and AT&T are saying because of COVID-19 they do not have enough manpower to come out right away.

They told her it would be within couple of day or week.

She would like this handle as soon as possible, because of the children.

CTR414-phone

Ticket: # 4018159 - Unwanted and Abusive Calls**Date:** 6/9/2020 4:27:30 PM**City/State/Zip:** San Francisco, California 94102**Company Complaining About:** [Http://www.amresorts.com/](http://www.amresorts.com/)

Description

Hello - I have been receiving unwanted and abusive calls from <http://www.amresorts.com/> since early April. I answered the phone call and listened to their sales pitch but after expressing disinterest the caller became antagonistic followed by abusive. I asked that I not be contacted again and expected it to be done. Since then, I've received calls from them nearly every day for two months. They disguise their number to try to get me to answer but I don't normally answer numbers I don't know. The one exception was last week as I was expecting an emergency call related to COVID so when I answered and the person came on, I reminded them that I'd asked to be removed from their list and his response was, "go fuck yourself, go fuck yourself" then hung up. I've since received nearly daily calls again (the most recent call was today 6/9 from the following number 619-728-2431). I have requested they remove me over and over again and they havnn't, and when I have picked up they are verbally abusive to me. Please help.

Ticket: # 4018202 - Service/COVID-19/ Service interruption

Date: 6/9/2020 4:39:33 PM

City/State/Zip: Louisville, Kentucky 40203

Company Complaining About: Cricket

Description

Consumer phone stopped working. Consumer states that out of the sudden his phone was without a network. Consumer called consumer service and they told him that they were unable to fix the phone service they requested him to go to the store to get the phone fix manually. Consumer states that in the store they did not wanted to see him instead they told him that they could not offer any services due to the covid-19. Consumer wants his service to be fix immediately. Consumer states that they did not help him and they transfer him just to answer the questionnaire about how they do it but they never fix of put effort on fixing his service. Consumer wants his service back he cannot be without service during the pandemic. Consumer has an unlimited plan.

ctr408-phone

Ticket: # 4018258 - Coronavirus Unemployment Scam

Date: 6/9/2020 4:51:05 PM

City/State/Zip: Ann Arbor, Michigan 48103

Company Complaining About: Caleb Crutcher

Description

Received text from unknown contact by name of "Caleb Crutcher" posing as single father who needed help obtaining unemployment, saying to call him at 3138175124 and that his claim number was c6199606-0, and that he had lost his wife to covid-19. This looks like a scam.

Ticket: # 4018263 - Dispute Last Bill

Date: 6/9/2020 4:52:45 PM

City/State/Zip: Shelbyville, Kentucky 40065

Company Complaining About: Verizon Wireless

Description

Ported 2 numbers out May 14th. Billing Cycle is April 27th to May 26. I have been billed to May 26th. I have been billed for services I have not used. I would like a credit and to be able to pay this bill. Call center staff threatened me with collections and said my payment was late. I explained that I had to be quarantined because of COVID-19 and my employer had paid me a month late. I should be paying for services I have not used. Was considering coming back to Verizon but after this I highly doubt it.

Ticket: # 4018301 - ATT Service Problems in 77573**Date:** 6/9/2020 5:07:48 PM**City/State/Zip:** Houston, Texas 77258**Company Complaining About:** AT&T

Description

ATT has always had poor service in our area (League City, TX 77573). League City is a city that is rapidly growing and they haven't been able to keep up. There is an abundance of microcells in the area (this is a unit that connects to the wifi in order to get service through the wifi in areas with poor service). By the numbers (per capita) of microcells, they know that they have a problem. Then comes Hurricane Harvey. I'm guessing that they lost a tower or something and it has gotten much worse. With new technology, they have wifi calling through the phone and not directly using the microcell, but the microcell provides better coverage sometimes. This basically shouldn't be allowed as I have to pay Comcast for wifi, and ATT hops on that service, because they can't provide service, but they give no credit for using my wifi that I pay for separately. Now, with COVID and more people working from home and since I live in a Houston suburb, they are COMPLETELY unable to complete calls. My call ratio is 96% dropped (or can't communicate) 4% successful connection made (90% of that 4% gets dropped, or I lose comms). The success rate has to be greater than 1%. It should be greater than 99%. This is embarrassing to me personally, it should be to ATT, and as an American, I'm ashamed that one of our premier companies can't do what they say that they do best. Solution: ATT should NOT be allowed to sell new service in this area until they are able to provide successful calls to the clients that they currently have. Maybe they will have enough attrition to catch up if they stop selling new service. ATT has my issues documented. 281.636.1866
I'm not in a rural area, but there's no option for poor reception, or unable to complete calls.

Ticket: # 4018312 - NO PHONE

Date: 6/9/2020 5:10:32 PM

City/State/Zip: Houston, Texas 77004

Company Complaining About: Sprint

Description

I FILED A CLAIM ON JUNE JUNE 5 AND I WAS TOLD THAT I WOULD HAVE A PHONE MONDAY JUNE 8. TODAY IS TUESDAY JUNE 9TH NO PHONE AND THEY COULD NOT GIVE ME ANY ANSWERS. ALSO I ASKED IF THE REPLACEMENT PHONE BE NEW OR REFURBISHED. THEY REFUSED TO DISCLOSE THAT INFO I WAS TOLD THAT IS CONFIDENTIAL..AS A PAYING CUSTOMER NOTHING SHOULD BE HIDDEN. MY PHONE WAS BRAND NEW AND I WANT TO KNOW IF ITS BEING REPLACED WITH A OLD PHONE DURING THE COVID 19 PANDEMIC. THIS IS EXTREMELY DANGEROUS TO HAVE A REFURBISHED PHONE DURING THIS PANDEMIC. I DON'T UNDERSTAND WHY WILL THEY TRY TO DECEIVE ME CONCERNING A PHONE THAT I AM PAYING A HUGE DEDUCTABLE ON. ALSO I WAS MISLEAD ABOUT THE DEDUCTABLE AMOUNT. THAT'S NOT RIGHT AND UNETHICAL

Ticket: # 4018466 - Charter Spectrum Incorrect Bill

Date: 6/9/2020 6:19:11 PM

City/State/Zip: Asheville, North Carolina 28801

Company Complaining About: Spectrum

Description

I prepaid my entire year of internet service so I would not have to worry about monthly bills, so my account had plenty of money in it.

I called up Charter Spectrum and asked to close my account due to not using it during the COVID-19 Pandemic. They said that they could shift it over to a seasonal hold and my bill would only be \$4.99. That way I could turn it back on without setting everything back up at any point. I agreed, and they basically turned off my internet.

Upon checking my bill, I noticed that the \$4.99 was not only a fee, they were additionally taking the original \$69.99 out of my account as well. I had no idea because I was not receiving a bill, and the money was just being deducted from my balance. When I asked them about it, the girl I spoke to said that they would refund the prorated amount and it should appear in the account within hours. When I called again they said they did not prorate it, and that they would not since I put it on a seasonal hold a day after my bill date! So not only were they charging me for the entire month, they were charging me fees too!

They refuse to refund any of the money and won't give me the money I already paid back - even though I am now not going to use it.

Everyone I talk to has a different story and nobody knows anything.

When I asked where I can see the balance on my account, the girl on the phone had no idea. Then her supervisor told me I had to look at previous statements. I told her the one lady said she was issuing a refund, so how would I see that? She said no refund was issued, and there was no way to see the balance on my account.

They are not clear about their billing, and are extremely devious and deceptive. I want my money back!!

Ticket: # 4018644 - Terrible internet and inability to speak with company

Date: 6/9/2020 7:54:55 PM

City/State/Zip: Valparaiso, Indiana 46385

Company Complaining About: Hughes Net

Description

I signed up with Hughesnet when the pandemic started because I had to work from home as a teacher and my son as a student. After filing my first complaint with the FCC, Hughesnet improved my service and we were able to work minimally from home. Now, my data is being drained within 3-4 days and we are not even using it for school work. I was given a "Tier 4" phone number and PIN number to get expert help and it states it's invalid. Regular customer service puts me on a loop of automated prompts. I have also sent an email to an "executive" and he received no answer as to why my data is disappearing. I am paying \$70 per month for 3 days of data. I have been conned and stripped of my hard earned money during a time of despair. I gave them a chance to rectify the situation and I am done. I want out!

Ticket: # 4018732 - Internet Service Billing**Date:** 6/9/2020 8:38:16 PM**City/State/Zip:** Peoria, Arizona 85383**Company Complaining About:** Cox

Description

Cox communication has Gigablast service that offers download speeds of 940 Mbps \$115 a month. Cox has not met this requirement in my area and has continuously charged for Gigablast services. Currently Cox has not met these requirements due to the COVID 19. Cox nodes were already at capacity before COVID 19 and after COVID 19 the internet bandwidth has been severely impacted. Yet cox is charging full price for the service. In addition there is persistence interference with the bandwidth that has yet to be corrected. I have had 3 technicians come to my home stating there's nothing they can do. I have requested fair credits for the poor internet services in the recent months which I have yet to receive as promised. I have called customer service on multiple occasions and have escalated to supervisors with a promise of a call back yet I never receive any credits for the poor service.

While I understand that COVID 19 has had an impact on business and everyday life, Cox has not addressed communicated with their customers about the diminished services that were at the very least somewhat preventable. While Cox cannot control natural disaster that impacts their services, this does not negate the fact that Cox should provide credit for the service rather than have customers pay full price. I require monthly compensation for the months that services were not delivered for what was paid for

Ticket: # 4018754 - Comcast Cable T.V. disconnected my irrigation system and refused to come out and reconnect it

Date: 6/9/2020 9:07:48 PM

City/State/Zip: Lake Wales, Florida 33853

Company Complaining About: Comcast

Description

About two weeks ago we had cable installed. The technician disconnected the electrical plug for our irrigation system. I called customer service last night and spoke to Lauren who told that I should call the irrigation company and have them come out and fix what Comcast did. I asked to speak to a manager and was transferred to a floor supervisor who gave me the same response. They used the excuse that because of COVID19 they could not send a technician. I explained to them that the technician did this work during our COVID19 shut down and that calling our irrigation company is a ridiculous solution because what they would do is disconnect the cable plug from the electrical outlet and reconnect our irrigation system. The floor manager told me he got approval to send out a technician and that someone would contact me within 24 hours to set up a time for someone to come out to remove the cable plug from the electrical outlet and connect it to another electrical outlet. But, I have not heard from anyone at Comcast to set up a time. I am stunned at the poor customer service. The technician would not have to come inside the house and using COVID19 as an excuse to not send someone out is a cop out for the lousy job their technician did. No accountability at all.

Ticket: # 4018845 - AT&T broke the FCC's Keep America Connected pledge

Date: 6/9/2020 11:14:48 PM

City/State/Zip: Oklahoma City, Oklahoma 73116

Company Complaining About: AT&T

Description

AT&T signed the FCC's Keep America Connected pledge promising not to disconnect phone or internet services to customers who can't pay their bill due to COVID-19 through June 30th.

They lied. AT&T disconnected my internet for nonpayment on June 8, long before the June 30th deadline.

This company can't keep its word to the customers, and broke its word to the government. They signed your pledge!

Ticket: # 4018869 - Billing Issue Immediately terminated account during COVID

Date: 6/10/2020 12:06:38 AM

City/State/Zip: Denton, Texas 76207

Company Complaining About: Spectrum

Description

Our credit card being used for auto payment had expired and Internet service was discontinued instantly (6/9/20). With offices closed (I work from home) and free wifi locations would be risky, we were only able to resolve it by using a cell phone's Internet to log into the account to get a 4-digit access code, and then call to resolve the billing issue. When I asked why service was cut off during COVID when Spectrum had pledged not to, Spectrum said it was an automatic system issue, but they give free internet to lots of other people so it was ok. The issue also caused the modem not to work and required a service tech to come out to fix it.

Ticket: # 4018873 - Spectrum Is charging ridiculous amount for internet.

Date: 6/10/2020 12:15:11 AM

City/State/Zip: South Milwaukee, Wisconsin 53172

Company Complaining About: Spectrum

Description

To whom it may concern.

This is my second complain about Spectrum Company.

Spectrum is not helping the consumers. They have established monopoly in our sector and inflated their prices sky high. Spectrum is implying that the price has gone up because they have increased the speed to 200MBPS. I have repeatedly asked Spectrum to reduce the speed of the internet. And provide me with slower speed segment and reduce the price accordingly. For example reduce the speed to 100 MBPS and drop the price by 30%. My Internet bill has climbed up to \$73 per month that is almost as much as I pay for water and sewer. I do not play games or download allot of large files. I don't need internet with that much speed. The financial situation is very hard specially now after COVID19. Spectrum is not acknowledging my requests. They keep promising different plan's with lower prices but it never happens. After previous complain someone called me and just told me that they cannot do anything for me implying that its either "their way or the highway". This is unacceptable. Their should be a plans that can accommodate different market segments. If I would have been a doctor or a lower I would not care how much the internet is. But being a self employed running small business and paying over \$150 per month for home and business internet puts a huge dent in my budget. Spectrum need to consider all type of costumers not just the most privileged.

Sincerely

(b) (6)

Ticket: # 4018905 - Suddenlink Internet Service

Date: 6/10/2020 1:38:52 AM

City/State/Zip: Charleston, West Virginia 25303

Company Complaining About: Sudden Link

Description

I have reported internet speed and service issues to Suddenlink repeatedly over the last few years. Every time I am told I need to upgrade and pay more for faster speed, even though my current speed isn't being met (previously on 75 mbps plan but averaged less than 25 mbps). I recently contacted Suddenlink to report speed issues and to make sure I would not get any data overage charges due to changes in my work from COVID-19 and I was once again asked to upgrade my service. Not only is my internet speed still averaging less than 30 mbps after paying more for 400 mbps, but I also received a bill with \$90 in data overage charges after being promised any fees would be waived. I have 4 years of history in a detailed spreadsheet from the Speedtest by Ookla app showing speeds significantly below the services I've paid for and well below the standard for broadband service.

Ticket: # 4018927 - Unable to obtain reliable service or consistent speed

Date: 6/10/2020 2:51:49 AM

City/State/Zip: Lufkin, Texas 75904

Company Complaining About: Sudden Link

Description

I am paying for 1000Mbps, but they have yet to deliver since starting service with their modem or one I have purchased. Internet is not consistent, like their site suggests, and continuously drops out multiple times a day for myself and others in the city I have talked to. Maintenance is performed without proper notice for those affected by COVID19.

Ticket: # 4018936 - Obtaining service at new construction home in rural area**Date:** 6/10/2020 4:02:45 AM**City/State/Zip:** Bluefield, Virginia 24605**Company Complaining About:** Comcast

Description

I called Comcast in Aug 2019 and asked them if I could get service at my new home. I gave them the address and they said no problem, just give them a call when ready.

On May 19, 2020, ticket (b) (6) was filed. My husband, (b) (6), and I have made numerous phone calls since then with zero response other than "that address cannot be serviced". I was escalated and told by a fellow by the name of Ashish that I would have service within 72 hours on June 4, 2020 and a phone call when complete. I have yet to receive that phone call and it is June 10, 2020.

I called again on June 7 and the sales guy gave me the number 855-216-1588 to call. He said it was their construction coordinator's phone.....I highly suspect it's a voicemail depository for people Comcast just doesn't want to deal with. You NEVER reach a human....just an answering machine and NO ONE returns your calls.

I work from home. This is drastically affecting my ability to work. I have since discovered from neighbors that they were unable to get Comcast to provide service to them. There are people on this road that have cable service but I live at the end.

Reliable, dependable internet service has increasingly become as important as electricity in modern times. It has become almost virtually impossible to even file for food stamps or unemployment without it. Yet, you apparently cannot get cable service in all rural areas. And, even though Comcast has a monopoly as the cable provider for this area, they apparently refuse to offer services to under two miles of country road because they don't want to spend the money to run the line. And satellite service/dial up is essentially obsolete. Which leaves rural America in a worse circumstance than a lot of 3rd world countries. Especially now, when we are facing a pandemic that requires people to work from home.

Ticket: # 4018938 - AT &T disconnected my service during the pandemic

Date: 6/10/2020 4:57:22 AM

City/State/Zip: Pembroke Pines, Florida 33027

Company Complaining About: AT&T

Description

AT&at made a pledge to the FCC to keep wireless customers connected during the pandemic until June 30, 2020. I am not working and called them for payment extension but on June 10 they disconnected my wireless service. If my job calls me back to work they won't be able to call me. I need my service reconnected at least until June 30th due to the pandemic

Ticket: # 4018962 - Outrageous billing practice of Verizon Business

Date: 6/10/2020 7:32:54 AM

City/State/Zip: South Plainfield, New Jersey 07080

Company Complaining About: Verizon

Description

Our business was closed during the pandemic as per NJ Governor's orders and Verizon claimed they shut our phones and internet off for non payment even though payment was made and charged us \$391.99 to turn off service then reconnect even though we never lost phone service as we had returned calls to customers about when we would service their cars. We are being unfairly harassed for this payment of \$391.99 even during a global pandemic. It's appalling!

Ticket: # 4018968 - Pending Issue with Verizon**Date:** 6/10/2020 7:55:00 AM**City/State/Zip:** Bronx, New York 10473**Company Complaining About:** Verizon

Description

I have the following Ticket number CASE 2(b) (6)

I recently spoke to a person who works for Verizon, the person does not work for the office, but works in the local area store. I was told that the reason for the \$250 dollar fee for returning back is because, of the following reasons, 1, We left the company and it was like a penalty that within the 30 days, we had a pending account, My mother did pay that bill, I called in behalf of my mother to state that we would be leaving Verizon in march/April it wasn't noted. 2nd Is that we wouldn't have to pay \$250 if we change our Phone number. So The credit Dept is not being straight forward and saying what reasons

and not saying the truth. They wanted us to stay with Verizon and by my mother leaving the company and had 30 days in which we all have a pandemic going on even if we cut our local service how would we get service from Verizon? No Technicians are coming out especially at that time it stopped. No one could enter the home. So This \$250 Fee is for simply leaving the company, to ensure that the customer would not leave the company but keep service in place, 2nd, also change the telephone number which we will not do, to avoid a \$250 fee. Please investigate Verizon Credit dept they are stating false information. Manager of Credit Dept would not talk to us. The Gentleman I spoke with knows how this works, and so does a relative of mine. I want to dispute or investigate the credit Dept on the matter. We also want a response from FCC as well by mail Thank you.

Ticket: # 4018972 - Slow Internet Service That Constantly Disconnects**Date:** 6/10/2020 7:59:59 AM**City/State/Zip:** Brooklyn, New York 11233**Company Complaining About:** Optimum

Description

We paid for a 300 MBPS monthly plan in which the internet speeds were barely over 100 MBPS daily. The connection would also drop sporadically multiple times each hour. Optimum sent someone out to fix and that person was not able to do so. They promised to send a second person out but never did even after I followed up multiple times. They promised a billing credit to make up for this and ended up providing us with a lousy \$11 credit. This is in no way sufficient for over seven weeks of poor and interrupted service that Optimum neglected to fix. This had a direct and negative impact on my ability to work from home effectively through the COVID pandemic.

Ticket: # 4019331 - Optimum Online

Date: 6/10/2020 11:00:54 AM

City/State/Zip: Southampton, New York 11968

Company Complaining About: Optimum

Description

I am a tech support and network infrastructure design company that works for residential customers.

I have had at least 4 customers with the exact same issues caused by optimums dishonest practices

They charge you for services they do not provide. They lie about waiving fees and worst of all they make it almost impossible to get a resolution. I am typing this complaint and I have been on hold with their billing department for a total of 1 hour and 56 minutes at this point. I was disconnected yesterday after being on hold for 2 hours and 20 min. Yet they DEMAND payment for services not provided.

The issue that started this whole nightmare was that a customer couldnt function while Quarantining because their server kept going offline due to the extremely slow speed of the internet, we were paying for 200MB Download and 20MB upload speeds. We were actually getting 3MB download and less than 1MB upload.

After a 1 hour hold time and various tech support agents

They claimed that we needed the upgrade to improve the service.

We agreed to get 1 Gigabyte service. The appointment was scheduled and I drove 2.5 hours to be there and the tech just didn't show. I drove 2.5 hours back and they promised to reschedule and as a result of the inconvenience they would waive the installation fee.

The technician showed up on the rescheduled date and told us that our location DID NOT QUALIFY for 1 Gigabyte service and that the best he could do was 400MB, we agreed

The service was not at the 400MB speed and the tech claimed it needed "to process in the system and would take about an hour" I asked him to wait so that we could be sure the service was working properly and he refused stating that his supervisor would not allow him to wait.

I called to confirm this information and was told that the technician gave us false information and had to schedule another appointment

They sent someone out to upgrade us to 1 Gigabyte service a week later. when the technician arrived on site he said "I wouldn't get this, our 1 Gigabyte service isn't ready and we have nothing but issues with this" I was shocked he told me this and worried out that our service would go to NO SERVICE if he installed it so I said forget it.

The sales team then said we would incur a cancellation fee. After FOUR HOURS on the phone I finally got a rep to waive the cancellation fee and she also assured me that the other fees would also be waived. They were not.

Now we have the same horrible service we had from the start and that call I said earlier I was on hold with I am STILL ON!

I dug deep into other customer complaint and my suspicions are accurate they WITHOUT A DOUBT throttle their services, especially upload speeds in order to take the pressure off of their own network which is not able to provide the services they advertise. Yet they charge you for services that they are in NO WAY providing.

This is documented also in customer complaints all over the internet and has become painfully obvious over the last 4 months during the coronavirus pandemic.

They make is almost impossible to contact a person in order to get a resolution, I've been on the phone now for 2 hours and 25 minutes!!

This is not right, they are abusing and stealing from their customers and I hope that you will step in and give all of these people justice.

Ticket: # 4019412 - Degradation of cable service - TV and Internet

Date: 6/10/2020 11:26:00 AM

City/State/Zip: Evans, Georgia 30809

Company Complaining About: Comcast

Description

I am (b) (6) and i do live in Evans, GA. Almost 2 months ago we started experiencing pixelated images on our TVs. We called Xfinity and was told that they cannot come out to the home due to covid 19 restrictions in place but that they will send a technician to check outside the home. True enough they did send out two technicians who spent less than 20 minutes before leaving without fixing the problem.

The problem persisted even after Xfinity replaced our cable boxes. Almost a month ago our internet speeds dropped from 200 mbps downstream to 5mbps and 0.3 mbps upstream. We placed numerous calls to Xfinity and they couldn't fix the problem virtually. They suggested that it might be our modem. We called Netgear and they checked the modem and told us it was good but due to good customer service they decided to replace our modem. We installed the new modem with new cables and all - with no improvements to our service.

We placed numerous calls to Xfinity (sometimes waiting for an hour and a half prior to getting served) and they told us that they will be sending out a technician to our home to check the installation outside the home today 10JUN20 between the hours 0800 - 1000. After waiting till 1035 hours without a technician showing up or a call from Xfinity with an explanation as to why nobody showed up we contacted Xfinity and was told that they had no record of our appointment for today. I have attached screenshots of appointment confirmation for 10JUN20 between an Xfinity chat agent and my wife to this message.

I am Active Duty Army and I am allowed to work from home but i can't due to the deterioration of cable services. Whenever we call Xfinity they offer to run diagnostics on our modem. My modem is a Netgear CM 1150V gigabit modem that is compatible with Xfinity and is added to my Xfinity account. The house is connected to an Orbi router which is connected to the modem. I disconnected the router from the modem and connected a single laptop (with a gigabit network port) to the modem with a Cat 6 cable and received the same 5 mbps downstream and 0.3 mbps upstream (way less than my expected 200 mbps) so I know that the problem is not internal to my home. The home phone has also started dropping calls.

I do think we have a bad wiring outside the house and do need Xfinity to come out and check the wiring to my home and the Xfinity junction box outside the home.

I am paying over \$200 monthly to Xfinity and I have not been getting the service that I am paying for which is a shame on the part of Xfinity.

Ticket: # 4019576 - Issues with Comcast

Date: 6/10/2020 12:09:30 PM

City/State/Zip: Seabrook, New Hampshire 03874

Company Complaining About: Comcast

Description

3 years have had issues, put complaint in again few months ago, nothing had gotten done, they claim they can't find the issue, I have spoken with Vanessa Fisher from executive office of Comcast, they shut my services down to bare minimum cos we disputed our bill because of rotten service, they demand payments every month, they r using the pandemic as excuse to not fix issues,. I have sent pictures videos of our issues and sent emails to Vanessa, I have not gotten any response in close to a month now,. But they keep sending me bills and notices to pay or else. I have plenty of pictures, emails from 2 years ago of my issues, I demand better service and respect they should not be allowed to get away with this.

Company Complaining About: Cox

Description

Internet issues going back months before covid 19, node is too congested. Cox continues to give me run around and claim it is my network, modem, PC, etc. Then i am called by extremely rude people and nothing is done. I still pay my \$78 bill, but only receive upto 30mbps and high latency. Sharon at executive escalations told me not to contact the FCC anymore, but has done nothing to solve this issue other than offer a lack luster apology. I have contacted cox dozens of times for this same issue.

Ticket: # 4019817 - Sprint Cellular Service.

Date: 6/10/2020 1:00:41 PM

City/State/Zip: Warren, Indiana 46792

Company Complaining About: Sprint

Description

I have been a customer of Sprint since 2007, for the last year or more we have not been getting service at our home, we have just dealt with it, but with a son 12 yrs old home during the day and e-learning for his school, we can't just deal with it. I contacted Sprint on 6/5/20 asking if I could get out of my remaining contract with them (I had like 5 months left on my contract) due to the no service issue at our home (all of this was a recorded conversation), the person I spoke to said that they would send it to the "higher ups" to review and that I should receive a call back within 3 business day, on Friday, June 5th I still had not been contacted by ANYONE from Sprint, I contacted them again on Saturday, June 6th and inquired about my request. I was told that the person I was talking with would get in contact with someone in the "higher up" area and call me back yet that day, well I received the call back (no service so it was on my voicemail when I finally left our house that evening). the person who called me back said that more than likely the reason why I did not receive a call back from the "higher up" department was because of the COVID19 issues and they are behind on getting things caught up. Sunday, June 7th, my phone was deactivated by SPRINT, I used my husbands phone (on my account) to contact Sprint to see why my phone was deactivated, of course the lady from Sprint couldn't say why or how it was deactivated, but she did turn it back on. During this whole time from call 1 to the last call on Sunday, June 7th, I had been receiving text messages and e-mails from Sprint about them mailing out boxes to return my 3 devices back to them, e-mails saying to "come back to Sprint", Also these issues were discussed on Saturday, June 6th, I asked why was I receiving these texts and e-mails when I have never received the answer about if Sprint would let me out of my remaining contract due to no service at our home, NOR did I cancel I request to CANCEL my service AT ANY TIME. On Monday, June 8th, 2020 my Sprint account showed I had NO Contracts on any of my 3 cell phones, I NEVER CANCELED MY SERVICE OR CONTRACT, SPRINT did this all WITHOUT MY APPROVAL!! On Tuesday, June 9th, 2020 I switched service carriers on all 3 phones of mine and today (Wednesday, June 10th, 2020) I mailed back all 3 phones to SPRINT (they are leased thru SPRINT). I am filing this complaint because I know SPRINT is going to try and make me pay a termination fee, etc.. when in all reality, I NEVER CANCELED MY SERVICE CONTRACT, SPRINT DID IT WITHOUT ANY NOTICE! If I receive a bill from SPRINT for breaking my contract, I will hire an Attorney, I have records of all the times I contacted them and all phone calls were recorded (on their side). I want this resolved, I am very upset about all this because I was never contacted by SPRINT about ANYTHING, everytime I called in, they had no answer for me and always said someone in the "higher up" area would be in contact. NEVER HAPPENED.

Ticket: # 4019825 - Robocalls

Ticket: # 4020029 - Telephone Line Port/reconnection Failure by Frontier Communications

Date: 6/10/2020 1:50:29 PM

City/State/Zip: Santa Monica, California 90402

Company Complaining About: Frontier Communications

Description

Last month, I attempted to port (b) (6) from Frontier to Spectrum. After a few days, I decided to cancel that request and leave the line at Frontier. Nevertheless, on Saturday May 30, Frontier disconnected the line. The account is current, and but for this issue, there have been no problems. However, since May 30 I have tried in vein to get the number reactivated by Frontier. I never asked them to disconnect the service. I have been told that they can't/won't reactivate the line I have had for 15 years because of 1-It is off their switch, 2-they can't place an order since there is a pending order, and 3-they cont do an install of an additional line due to COVID (though they can install a single first line). I just want to restore my Frontier phone service as it existed prior to May 30, but have been told by the service and business team, they "can't do anything to help." This is not fair and unacceptable.

Ticket: # 4020037 - COVID-19 Unable to pay bill

Date: 6/10/2020 1:52:54 PM

City/State/Zip: Cheney, Washington 99004

Description

I recently contacted Century link on 6/9/20 to discuss my bill. I have lost my job, I have applied for unemployment benefits and have received nothing since March 2020.

I called Century link to discuss my situation to no avail. They repeatedly asked to make a payment arrangement in which at this time I am unable to do so.

I asked if they had any programs in place to assist customers in this situation. The only think that was repeatedcwas that I needed to make a payment or enter into a payment agreement in which I refused because I have no income.

Century link should have something in place for the many people that are faced with this situation due to no fault of their own. I received my 1st collection call from them today. Truly unacceptable.

Ticket: # 4020105 - business disconnect in error during COVID-19

Date: 6/10/2020 2:11:46 PM

City/State/Zip: Santa Monica, California 90404

Company Complaining About: Tpx

Description

Our business was closed for several months due to COVID-19. Our acct mgr at TPX, Lisa Romain, sent us a notice on May 19th for late pymt and we spoke with her directly. We informed her that our business has been closed. This was our 2nd attempt to reach out to TPX. She told us that we can request financial assistance due to COVID-19 hardship and we were instructed to send her an email with our request. This was done on May 19. She forwarded the request to the collections dept at TPX and included us in the contacts. On 6/9/2020 our phone lines were disconnected by the collections dept and we were told that we had a balance for 4 months and no record of a request for assistance. We were told that we had to pay in full the balance due plus \$275 additional fees to reconnect. After spending an entire day calling and emailing TPX I was told that Lisa did not process the request properly. The collections dept said they did not receive it. Each person pointed the finger at another dept. Meanwhile we still have no phones, we are losing business revenues, and are unable to take care of our patients who have been waiting for months for emergency care. TPX refused to acknowledge their error until we repeatedly pointed it out to them. They cost us business, they were unprofessional in their accountability for their own error. They disconnect critical business lines without proper notice. Additionally, they bully clients to pay large payments and hold your phone lines hostage until a payment is received. We have been with this company for 17 years in good standing. Always kept our account paid on time. We have now, today, made a 50% payment to release the phone lines so that we can get back to our business. But the lost time cannot be salvaged. We request TPX to waive the money due to compensate for the business lost because of these errors, which were made by their own employees. Also, TPX should be reprimanded for their bully tactics against struggling businesses during COVID-19. It is most difficult to understand why the company would not just turn the service back on once they have realized their own error? Why still continue to bully the client and cause more damage?

Ticket: # 4020173 - Comcast/Xfinity Internet Service

Date: 6/10/2020 2:29:19 PM

City/State/Zip: Bloomington, Indiana 47401-4166

Company Complaining About: Comcast

Description

The internet service through Comcast has been unreliable for over a month. For the past week, there have been multiple times when the internet has shut off. When I examine it with a speed test, it is well below what it should be (as low as 5%). I have tried to restart the system and this does not resolve the problems.

It has been very difficult to get a person on the line when I call in. I had to resort to calling for "new service" to get anyone on the phone. Several times I have been disconnected if I do not have my modem re-started by the automated Comcast system. When I do, I am also disconnected.

Their system is set up so that you must first have them re-start your equipment before you may speak with a person. Then they hang up, and when I call in, the process is repeated. The pre-recorded message always states that there are errors on the modem, which could certainly be a possibility.

My complaint has to do with the fact that there is not effective way to speak with an agent, other than by claiming I am looking for new service. I have waited for over an hour, and the person can't provide any useful answers. The supervisor who was supposed to call back never did.

I do realize that COVID presents many challenges: demand has increased, and local Comcast stores may be closed. However Comcast had a remarkably poor customer service reputation prior to COVID, so it seems inaccurate to blame this on COVID.

Ticket: # 4020196 - Philadelphia TV Stations 3-6-10

Date: 6/10/2020 2:35:41 PM

City/State/Zip: Pittsgrove Township, New Jersey 08318-4109

Company Complaining About: Abc - Cbs - Nbc (abc6) (cbs10) (nbc10) All Philadelphia Stations

Description

None of the Philadelphia TV stations (3-6-10) broadcast NJ Gov. Phil Murphy daily briefings [1:00pm] regarding CoVid-19 and Updates. Oh, but they will broadcast information on the same subjects if it is the Mayor of Philadelphia or the Governor of Pennsylvania. All three stations, 3 - 6 - 10 continue to broadcast their regular programming schedule during Gov. Murphy's message, but 'break into' their regular programs to listen to the Mayor and Governor. To correct this problem, they must carry these Broadcast because their FCC license states that they serve New Jersey. According to the granting of the license. Or else be fined for this failure.

Ticket: # 4020246 - phone number porting complaint 314-346-1807

Date: 6/10/2020 2:48:16 PM

City/State/Zip: St. Charles, Missouri 63303

Company Complaining About: Verizon Wireless

Description

My name is (b) (6), I have a Verizon prepaid account. The phone number to that account is (b) (6). I purchased a new phone for my mother as her old cell phone with Cricket was no longer working properly and was adding her cellular phone line to my prepaid cell phone account. When I purchased her new cell phone with Verizon I was told all I would need to transfer her phone was her account number with Cricket and her pin number with Cricket. We received the phone on Tuesday, June 9, 2020. I then contacted Verizon to port her cell phone number (b) (6) to her new phone. The customer service representative was foreign and there was a clear break in communication and the phone connection was bad. I asked for a representative on U.S. soil several times, was never transferred and she kept asking me more questions so I hung up. I received 3 more phone calls back from her which I did not answer since I was calling Verizon customer service again. After all of this, each time I tried to call, Verizon's automated system would say "we are sorry, your call cannot be connected at this time". Now, my mothers cell phone number was ported to my cell phone rather than to her new cell phone. Then I tried to contact them from her house phone, which is with Verizon, but billed separately under her name. Unfortunately to our dismay, I was informed there was a block on her home phone also and that she would need to go to a Verizon store and present her identification to prove who she was to access her separate home phone line. Now, this is an 83 year old woman with preexisting conditions during Covid 19 and they want her to go to a store!!! Incredibly upsetting and infuriating since when you call then, the first recorded statement they make is "We prioritize wellness during Covid-19". As a result of all of this, I don't have a working cell phone number, of which I need for doctors and appointments due to a car accident on March 15, 2020. She does not have a working cell phone number because her number was ported to my phone. Fortunately, so far her house phone with Verizon is still working, otherwise we would have no phone. Also, my prepaid phone bill is \$40.00 which is due on the 8th of every month. When I just paid on June 8, 2020, it said my minimum balance due is \$70.00. The only reason I can think of that this months bill would be \$70.00 is for her new line added to my account. The problem with that is when I purchased the phone, I paid for her line on that bill which was purchased on June 5, 2020. I want my phone number back, her phone number ported out of my phone and on to her new phone as it should have been done in the first place, the block off of her home phone which had nothing to do with any of it. I feel that this was a deliberate attempt at sabotage by the foreign customer service representative. Therefore, I believe that all foreign call centers should be closed down and at the very least and I hate to say this but the person that did this to us needs to be fired with some type of compensation to my mother and myself for such complete incompetence and severe inconvenience especially during this Covid 19 pandemic!!

Ticket: # 4020419 - Suddenlink deceit

Date: 6/10/2020 3:39:32 PM

City/State/Zip: Eastland, Texas 76448

Company Complaining About: Sudden Link

Description

Cancelled cable only and now the internet is somehow not working. Have called multiple times and been on hold too long to try and get it fixed, Was not having problems before I cancelled cable yesterday and now no internet at all. They do not provide an acceptable way to contact them. If there are problems it is much too difficult to get resolved. (Not a new problem since COVID19. Has been a problem long before.

Ticket: # 4020571 - cell phone support

Date: 6/10/2020 4:14:44 PM

City/State/Zip: Beaverton, Oregon 97007

Company Complaining About: Verizon Wireless

Description

My cell phone service is with Verizon. I contacted them because my phone would not send emails, would not synch with my laptop, there is no spam folder and emails download only to disappear, and voice reception and sending was not working. I went through several days of communication months ago to fix something and gave up because I had other things that I had to do. In this process I had to completely reinstall the software for the phone. When this was done the problem with not being able to send emails and the loss of the synching started. I was too busy to do anything about fixing these problems until today. I started at about 8AM and it is approaching 1PM and I have not been able to get anything fixed. In fact now the only email folder I have is the inbox and it is empty. Repeated attempts have failed to load any new or old emails. In addition to this my messaging does not work. I have called, been put on indefinite hold, disconnected, connected with virtual assistants that cannot answer any questions, and been on multiple live chat sessions. I have waited for up to an hour to get a response on a live chat but if I don't respond in seconds I get disconnected. I even called the sales number to try to get to talk to a person and when I was transferred I was disconnected. I know that the COVID crisis is making things more difficult but this is not acceptable.

Date: 6/10/2020 4:59:03 PM

City/State/Zip: Houston, Texas 77084

Company Complaining About: Comcast

Description

Consumer states that she has been having problems with her internet service. Consumer states that ever since she started having services with them they were offering her poor service. Consumer states that she was supposed to have credits applicable into her account and they told her that they need to add them manually and their system is not taking them. Consumer has an outstanding balance of \$1000.00. Consumer states that they are trying to make her go to stores where the people is very unpleasant. Consumer states that her speed is very slow from 60mbps they change it to 25mbps. Consumer states that they are overcharging her and they do not want to explain why. Consumer wants her internet to be back to normal. Consumer wants her credits to be apply. Consumer does not want her service to be interrupted in the pandemic. Consumer wants extra credit into the account for all this problems she has been having. Consumer was told that not to pay any money until the credit applies into the account and now her bill is very high. Consumer was told that all agents are working from home and they do not know what else to do to help her.

Ticket: # 4020767 - Refind issue - bundeled phone and internet (Uverse) billing

Date: 6/10/2020 5:08:37 PM

City/State/Zip: Agoura Hills, California 91301

Company Complaining About: AT&T

Description

Account name: (b) (6) t.

Phone number on account: (b) (6)

Refund owed to me: CHECK for \$100.83

Mailing address: (b) (6)

I had phone and internet service, bundled through AT&T's Uverse plan, for many years. I canceled and was owed a refund. AT&T eventually sent a check for \$100.83 or the refund -- but by the time the check arrived and I got it to the bank, the bank said the check is too old, refused to cash it, and said I should ask AT&T to re-issue the check. I did as told. AT&T's refund department (Mel in San Diego, through phone number 800-288-2020) promised me a new check to arrive no later than June 4, 2020. Today is June 10, 2020, and I just called AT&T. This time they said they will send me a "pre-paid card" for my refund. I did NOT pay them with a pre-paid card; I paid them with a CHECK. I told AT&T and they said they will connect me to a different department, then disconnected me and when I called back, I still could not get anyone to help. I want a refund in the same form of payment I gave them. A "pre-paid card" is not as liquid as cash, and I cannot use a "pre-paid card" anyway -- I am very high risk for COVID-19 and never leave my house. I want and deserve the SAME form of payment I used to pay AT&T -- a CHECK. (I can deposit a check remotely and have immediate access to the cash without ever leaving my house.) The refund amount is \$100.83. I have waited far too long. I want a check for the refund owed -- NOT a less liquid "pre-paid card" (that I cannot even use until, at the earliest, when reliable vaccines are readily available). Every other company gives a refund in the same form of payment. But AT&T refuses. This is totally unfair to take my check and issue something I cannot use as a so-called "refund." Please tell AT&T to issue a refund for the amount of money they owe me in the same form I used to pay them -- a CHECK, and NOT a "pre-paid card." I am entitled to a CHECK for the amount of money they owe me -- \$100.83, without further excuses or delay. Thank you very much!

Ticket: # 4020769 - Tmobile not unlocking my device

Date: 6/10/2020 5:09:14 PM

City/State/Zip: Ozone Park, New York 11416

Company Complaining About: T Mobile

I bought this tmobile device on internet around 10 months ago and used it with metro pcs for around 7 months, now tmobile and metro pcs are the same company...i came to pakistan to see my ailing father, was suppose to fly back to NY first week of march, but my flight was cancelled due to covid 19...then flight was reschedules for april 1...got cancellwd again as all the flight operations were suspended...im still stranded out here in Pakistan...trying to get back home to NY but no luck as of yet...now i wanted to use my device with a local sim here in pakistan but my phone is locked...i called metro pcs and was told that its a tmobile device so they have to unlock it...called tmobile many times and was told 10different stories...now they have told me that my tmobile device,s IMEI num is unknown to their data base....thisdevice is not black listed or stolen....tmobile just don,t want to unlock it.....after dealing with them for 3 months

Ticket: # 4020898 - Comcast

Date: 6/10/2020 6:04:38 PM

City/State/Zip: Chicago, Illinois 60618

Company Complaining About: Comcast

Description

In late may, I contacted Comcast by chat and requested a better rate plan with the same services. I was told that could be done and sent a link to accpet, I did and it was done, I then noticed that my entire plan had changed and that I was put into a 2 year contract without that being noted to me, I contacted comcast, went to a manager call back queue and was told there is nothing they can do that the plan was no longer available and the only way to get back to where I was account wise was to add each channel manually and that will raise my bill \$40 , I am stuck because I need internet and phone during covid, and I cannot get anyone to help me. In summary, I was put into a 2 year committment without that being explained and the company acknowledged that and told me it is what it is and that I will have to disconnect or deal with it, after 3 hrs of calls and talking to " the highest level of customer care mgmt" - I cannot understand why contracts can be glossed over and this is predatory.

Ticket: # 4020906 - ATT BILLING WIRELESS ISSUE**Date:** 6/10/2020 6:07:16 PM**City/State/Zip:** Naperville, Illinois 60565**Company Complaining About:** AT&T

Description

Respected BBB staff,

I am contacting you regarding our wireless service provided by ATT. I have had family wireless service with ATT for almost 20 years and have been a customer with Cingular before it was acquired by ATT. Recently, in the last year due to incorrect overcharges with international package and service disruptions, our family bill has yielded to absurd amounts of remaining balances. However, we would call to correct these mistakes and would be promised credits and the avalanche of remaining balances would get so vastly incorrect and inappropriate. For the year 2019 to 2020, we have been facing with these issues and have spend in collection 250 plus hours of phone calls and hold time for the issue to be fixed. In January 2020, after whole year worth of struggle and fight, we were issued a partial credit. However, the bill is still incorrect and the remaining balance is not representing the true balance owed as per our contract agreements and monthly usages.

This past week, June 09th, 2020, our services were disrupted amidst a global pandemic and where we live in Illinois, a state emergency with national riots and state wide emergencies. As a customer, for two decades, I was destroyed. My family which includes a ICU nurse and two medical students, who are actively working in the field and trying to save lives and help with health pandemic. They were denied access to any communication or cellular methods. I am in a state of complete loss of words and would like to humbly request BBB help in providing my family with the adequate service from ATT and its business partners have to offer.

I can provide the call duration logs, records of bill statements, the employee names, employee ID # and certain call histories with perspective to the incorrect and brutal overcharges placed by the company if needed.

Ticket: # 4020983 - Billing by SuddenLink - Poor Customer Service Treatment

Date: 6/10/2020 6:45:13 PM

City/State/Zip: San Angelo, Texas 76904

Company Complaining About: Sudden Link

Description

The consumer stated that he had cable service through Suddenlink for many years. He stated that the price constantly went up in price. the consumer also stated that the rate had gone up, to the point, that it became un-affordable/cost prohibitive. He stated that he was being charged \$209.00, per month, for internet, telephone, and TV. He also stated that the service was constantly going out and was very poor in quality. He stated that he paid them in full and closed out his account.

He asked about the equipment and how to return it. He let the customer service rep know, that if they sent return boxes, he would send the equipment back. The customer service representative advised him not to worry about the equipment.

He then received a bill for \$552.00 He then called Suddenlink and was told not to worry about the equipment but stated that the Suddenlink store was closed due to the Corona Virus. He spoke to a woman that advised him that his account would be closed out and that he did not owe them one thing. He was advised to wait until Monday and everything would be corrected. this issue went on and on without any proposal to resolve it or ship boxes, etc.

Suddenlink finally sent someone to pick up the equipment. He was a contractor and assured him that he had all of the equipment that required to be returned and it would be properly noted.

He now has another bill for \$250.00supposedly keeping the equipment too long.

He stated that the store was still closed last week!

The consumer stated that he had their services since 2011 and this is a terrible way to treat customers. He stated that this is extortion and Suddenlink is a criminal organization. He stated that he has excellent credit and he had advised one rep that he would sue them for damages, after this man called from the retention department. This same rep had threatened his credit and then advised him that , "You can't sue us, this is a hundred billion dollar company"! Mr. Lackey stated that the man was very rude and was bullying in nature.

The person, on the phone, demanded that he pay \$90.00 for picking up the equipment.

He stated that this is extremely unreasonable because the store was not even open so that he could return the equipment. He stated that he is now being held hostage with threats about ruining his credit.

The consumer requested that Suddenlink issue full credit and stop threatening him and treating him in this manner.

He stated that he had continued dialogue, from the day that he cancelled his account and paid his last required bill. He was also told not to worry about it at first. He stated, from that point, there was constant conversation regarding the account and the equipment. However, no one ever even offered to assist him in resolving the matter or providing return boxes as requested.

He stated that he wants this billing removed.

He stated that the Pandemic put everyone at a disadvantage and they cannot expect him to return equipment to a store that is closed and tried to make other arrangements!

He also stated that he wants an apology for the manner in which he has been treated and the manner in which his representative talked to him. He simply wants to free himself of this horrible company.

Ticket: # 4021096 - Phone disconnected for using to many minutes during COVID 19

Date: 6/10/2020 8:00:14 PM

City/State/Zip: Jackson, New Jersey 08527

Company Complaining About: Red Pocket Mobile

Description

Red Pocket decided that I used to many minutes on my phone regardless of the fact that I signed up for and paid for an unlimited plan which I bought through <https://www.waymorewirelessonline.com> . They therefore went ahead and deactivated my phone service without any prior warning leaving me with only text to communicate during these rough times of COVID-19. My children were unable to join their teleconferences that were set up from their schools. In order to get my phone reactivated, they forced me to upgrade to a more expensive plan (that comes with internet use which I have absolutely no use for and never use.) In addition to that I had already paid for this month at least twice in an effort to get my phone back up and running and their customer service hangs up the phone on you when you actually do get through to a live person.

Looking forward to hearing back from you.

Thank You

Ticket: # 4021130 - Complaint regarding lack of service from Verizon

Date: 6/10/2020 8:18:46 PM

City/State/Zip: Brooklyn, New York 11203

Company Complaining About: Verizon

Description

I moved into a new building in March 2020. As new tenants made calls to Verizon to set up internet we were told the wiring was not complete. They were unresponsive about expediting that process. After complaints were filed they arranged for wiring which was completed in May 2020. When they were contacted to initiate service for each unit, which we were told is ready now that the wiring was completed, they said they cannot provide appointments until December 2020. That is unacceptable. We are in the middle of a pandemic and they are refusing to provide service to a whole building which is a public safety concern. If we must work from home to support social distancing how can we do this without internet. The lack of follow up and action by Verizon is unacceptable. Verizon can arrange for same day set up to all units to avoid the need for service staff to make several trips.

[Ticket: # 4021134 - Xfinity collects fee despite its customer service supervisor said differently](#)

Date: 6/10/2020 8:21:02 PM

City/State/Zip: Russellville, Arkansas 72802

Company Complaining About: Comcast

Description

I had to disconnect the Xfinity Internet service due to moving out of the university apartment during the PANDEMIC. I talked to an Xfinity customer service representative and a supervisor and explained the situation. I was assured that I can reconnect the service in 6 months and no fee will apply. However, they quickly send the \$49.34 fee (\$60 fee minus \$10.66 credit in my account) to a collection. I request the fee be waived.

Ticket: # 4021196 - Offensive, I'll radio transmission

Illegal use of hi tech platforms. Of times the tech peirces eardrums and radar ,electrical whatever mores coils on sofa. How mu h longer until destroyed. Multiple complaints to NSA, Quantico, DoJ still happening through pandemic and riots. Folks on here from multiple state's claim fusion radar, vh1, video gamers on cell tower and relay Network using legal processors. I say hackers involved in multiple crimes in Cali, Miami, i, ATL, Smyrna, Philly, NC, And, Empire state bldg Radio tower. WWDB kicked them off in Philly so now using some illegal hookup w possible connection to tail lines. Gotta have a military tie in. No privacy in my home they are using a video to pobserve, comment and harrass us. In addition to two way microphone. How much longer?

Ticket: # 4021200 - Inconsistent Upload Speed**Date:** 6/10/2020 9:03:59 PM**City/State/Zip:** Paintsville, Kentucky 30052**Company Complaining About:** Sudden Link

Description

For the last two months I have had inconsistent upload or download speeds making the internet unusable. Prior to Covid they sent a technician who said maintenance would fix the connection at the pole which never occurred. Last month I contacted them again and the technician placed a maintenance request to change the tap, but maintenance has yet to show up. I tried to contact customer service this evening and the tellaprompter would not allow me to speak with an associate even though I have a business account and 24hr technical support. I am now going to switch to another internet provider due to not being able to get any support or communication for assistance. It is unfair for a company to charge full price and not provide the service that is stated. Our upload is so slow we can not even attach a picture.

Ticket: # 4021213 - Billing issue with deceased parents' cable provider

Date: 6/10/2020 9:23:27 PM

City/State/Zip: Tacoma, Washington 98405

Company Complaining About: Spectrum

Description

The cable provider "Spectrum" was my parents' service. in Poinciana, Florida. They both passed from COVID, in March and April - they were admitted to the hospital on March 25th, and never again regained consciousness. I managed to get from Tacoma, WA to their home at the end of April, packed up their equipment and returned it to Spectrum on May 1st. After speaking to the supervisor "Charlie" he said that would be all that was necessary, and they would transfer the account to the deceased account dept. and it would be taken care of.

Now, Spectrum is continuing to bill the account, and I spoke to Brian on 6/08, who told me that they would cancel the account as of now, but would not refund the bills for previous months. Their account was paid up to date before they were hospitalized, and with COVID restrictions, it was difficult, and risky for me to travel across the country, even as quickly as I did. It doesn't seem I should be responsible for paying for this, especially since a large part of the bill time was an error on their side.

Ticket: # 4021355 - Slow Speed of Internet, High Price and Monopoly in Edison, NJ

Date: 6/10/2020 11:54:44 PM

City/State/Zip: Edison, New Jersey 08817

Company Complaining About: Optimum

Description

Optimum's service is getting horrible day by day. Even before COVID situation, their speeds are very low, \$15 price increase right during COVID and now very soon they will be charging extra for McAfee Internet Security Service. In Edison, NJ, there is no other Internet Service Provider where Optimum has a MONOPOLY.

Ticket: # 4021492 - T-Mobile Equipment

Date: 6/11/2020 9:10:07 AM

City/State/Zip: Freeport, New York 11520

Company Complaining About: T Mobile

Description

The consumer states that she has cell phone service with T-Mobile.

The consumer states that her phone is not working properly.

The consumer states she is paying \$140 for service she is not receiving.

The consumer states her data on her phone doesn't work, she connects to her home wifi.

The consumer states she doesn't receive signal at times.

For example she maybe on a call and she won't be able to hear anything, but when she calls the next day its a bit better but still bad.

The consumer called T-Mobile and a representative told her they would fix the issue but have yet to do so.

Now they never answer the phone.

The consumer would like a credit to her account at least for the data she's been paying every month that she does not receive.

The consumer states that during the Pandemic she didn't even get a waive or anything like they said they would.

The consumer needs her equipment (cell phone) looked into, she should be able to make a simple call.

CTR-415

Ticket: # 4021550 - Dishonesty and unfair sales practices**Date:** 6/11/2020 9:41:23 AM**City/State/Zip:** Covington, Kentucky 41015**Company Complaining About:** Spectrum

Description

I wanted to write you to let you know how terrible my experiences at Spectrum have been. I have been a customer through multiple acquisitions and never complained and was making do with super old technology – but that was my fault. Once we have been working at home, we noticed the internet went out frequently so we called support to come look at it:

- 1) The technician was phenomenal and was surprised that we hadn't proactively been reached out to as signals should have been triggered to Spectrum on the issues of my internet. After 2 ½ hours, changing out the booster, re-running whole new wire outside the house and having it set up to have someone come to the road to change some settings he left. He did let us know we were legacy Time Warner and couldn't even get some of the current services if we changed and would be treated as a new customer at Spectrum.
- 2) The wire is still in the yard a week+ later and I have no clue when it will be buried.
- 3) I called the next day to switch to a new internet package since mine was 60 mbps (below the minimum Spectrum offers) and was told that I couldn't get the new subscriber offer and was 'lied' to by the tech and only sales can offer packages. After waiting for 30 minutes and being treated very rudely, I just decided to cancel my services – which I was then informed I wouldn't get any money back for this month and that I could provide no feedback on my terrible experience because sales doesn't do surveys. I am moving and my girlfriend is moving into my old house and he said we could order her new equipment but it could take 14 business days due to the Covid crisis, which I understood. I verified we wouldn't be double charged and he confirmed not until the internet was activated with her new equipment.
- 4) Her new equipment arrived 2 days later (not 14 business days) and we were told billing would start within 8 days, not at the end of the month – so lied to again.
- 5) Then Spectrum called Haley today and asked if she wanted the tv app as a free 7 day trial, she confirmed there would be nothing for her to do after 7 days and they said yes, it was a trial and would be removed unless she ordered it. Then she immediately received a new statement (instead of the original \$44.99 for 24 months) it had been updated to internet+tv for \$79+. She immediately called Spectrum and told them she never authorized a change to her agreement and after being transferred around was told she couldn't remove the service until she activated her account. Incredibly frustrating that a dishonest salesperson added a service without her approval and there is no way for her to remove it until she has to call yet again and remove it.

That is 3 blatant lies in under 8 days and if we had any other high speed internet providers at her address, we would gladly pay double for an inferior service just to not partner with Spectrum. I doubt I will get a meaningful response to this e-mail, but I am so disappointed in the service (internet outages with no proactive outreach), customer service (the rude, rude salesperson) and the integrity of the company you have become. I don't know what else to do but to reach out to you, the better business bureau, twitter and the FCC – but I hope you can do something to address these egregious issues because I assume if you are doing it to me, many others are being mistreated the same way. Lastly, I think it's crazy that we have install our own internet and get charged an extra fee for it. I am

100% okay with self install due to the crisis, but don't make me pay extra money and do the work, if anything I should get a credit towards the first months.

Ticket: # 4021621 - Suddenlink

Date: 6/11/2020 10:02:49 AM

City/State/Zip: Austin, Arkansas 72007

Company Complaining About: Sudden Link

Description

I was charged \$445 for equipment.

I disconnected service on April 23, 2020. During that call I was never told to ship or send back equipment.

June 1st I received a bill in the mail saying I would be charged \$445 for equipment. They took the money out of my account 10 days later.

All of their stores are closed due to covid 19. Taking the equipment to the physical store wasn't an option. So 10 days isn't very long to ship it which they never told me to do in the first place.

Me and my wife have called around 5 times since getting the bill, and they keep ignoring what we tell them. One lied and said she couldn't help my wife cause she wasn't on the account. When in fact my wife is the one who called to disconnect service with a phone call to them.

They refuse to do the right thing. I hope the fcc can help. Thank you.

Ticket: # 4021701 - Refusal to cancel service

The electricity went out again to day, I work from home I need my internet service now not in 6 hours.

Ticket: # 4022168 - WBBM Ads for Newsmax TV

Date: 6/11/2020 12:41:36 PM

City/State/Zip: Northbrook, Illinois 60062-5415

Company Complaining About: Viacom Cbs

Description

WBBM Radio has been airing ads for Newsmax TV without indicating that they are politically motivated. Newsmax TV is affiliated with various conservative interests. The ads have requested people to complete a survey about "how President Trump is doing", offered a free emergency radio in exchange for signing up for their newsletter, and most recently to receive the book "Blitz" by David Horowitz, subtitled "Trump will smash the left and win". According to information about Newsmax available on Wikipedia, during the COVID-19 pandemic in the United States, Newsmax sent an email to its subscriber list asserting that "the WORST thing you could do is get a vaccine when it becomes available" because "vaccines are one of the biggest health scares of our lifetime—a scam perpetuated among the American people." The email encouraged recipients to instead do something "far more effective" by subscribing to a health newsletter for \$39.95 per year. Once recipients signed up for the newsletter, they received a sales pitch to purchase a dietary supplement with "an advanced formula targeted to support your immune system health."

In my opinion, these ads for Newsmax are political in nature and should be so identified.

Ticket: # 4022330 - Billing

Date: 6/11/2020 1:25:05 PM

City/State/Zip: Ashburn, Virginia 20146

Company Complaining About: T Mobile

Description

T-Mobile ran commercials that they had a plan for \$15 a month. I called T-mobile and I was told that I could get the plan with automated payments. Then I just received a bill today for my old payment amount. They made up excuses saying things like...That was an old commercial. Then they said, it was only for Covid 19. Then they said it was only for pre-paid plans. The commercial did not say anything about that. Nor, did anyone say that to me last month...When I got setup for the plan. They refused to let me speak to a supervisor. I called them 3 times in an 1.5 time period today. Plus, AGAIN...My phone does not work in rural areas. I have complained about that as well! Nothing has changed!

Ticket: # 4022365 - Suddenlink (Altice) issues**Date:** 6/11/2020 1:35:10 PM**City/State/Zip:** Jonesboro, Arkansas 72401**Company Complaining About:** Sudden Link

Description

I've had gigabit for around 1.5 years now. This March my speeds dropped dramatically, pretty much maxing out at 350-460 regardless of time of day (even tested at like 3AM). I checked it on multiple computers (straight to the modem), same speeds. Before this I was getting at least 800 if not higher. At first I chalked it up to COVID congestion, but testing at 3AM proved that wasn't the case. Checked the levels on my modem, etc, everything looked fairly good. Removed splitter at the Dmarc, etc, nothing changed. I called technical support finally, "Jack" from overseas told me everything is fine on their end, that my modem is bad (1.5 year old Motorola MB8600) and that they need to be replaced every year or 2. I told him I was a sysadmin, and that I knew that was not the case, and told him to send a Tech out. Tech came out the next day, checked my lines, signal was a little hot so we switched the splitter out (when I say we, I mean me, he had me do it lol, but that's fine, nice guy). He knew I knew the system. Signals leveled out after new splitter, did the speed test, boom, same exact speed as before. He confirmed my thoughts that it was most likely a configuration problem or that my modem needed to be re-provisioned. He passed my ticket up to Tier 2. I waited a week for a callback, nothing. So May 15th, 2020, I called Tier 1, told them my deal, and all he could repeat was that I had a open ticket that had not been resolved. He literally just repeated that over and over. I asked him if he could provide an update to the ticket, or anything, and he flat out said no, he can't do that. He just kept repeating that there was an open ticket, and it had not been resolved. I told him how long to wait, he said 48 hours. I then reminded him I had been waiting a week already. Anyways, hung up. Now, today a week later, I called back. 45 minute wait, so I hung up.

We have had the Attorney General for Arkansas in town as of yesterday because of the issues with Suddenlink. She requested we file complaints directly to them as they are investigating the issues (we have had a town meeting in Jonesboro with Suddenlink themselves because of issues like this). I have filed that complaint, and now filing a FCC complaint.

I just want the Tier 2 tech to call and resolve my issue, and to get the service I am paying for.

My communication with Suddenlink is as follows.

May 7th, 2020 - First initial call with Tier 1 tech.

May 8th, 2020 - Service tech comes, confirms my issues, passes issue to Tier 2.

May 15th, 2020 - I call Tier 1 to get an update on my escalated ticket, he cannot provide that.

It is now June 11th, 2020, and I have not received any communication from Suddenlink minus a bill for the service I am not receiving.

Ticket: # 4022372 - GOUGING PRICING

Date: 6/11/2020 1:35:58 PM

City/State/Zip: St Charles, Illinois 60174-3430

Company Complaining About: AT&T

Description

Went out of a contract in February on business phone lines. No notifications on previous bill contract was ending. Bill went from \$350.00 avg to \$1200.00. Told unless we resign a new contract they couldn't lower it. While working this problem for weeks for resolution we decided after some 30 plus years at this location, with their services to switch to Comcast. Due to Covid Comcast was unable to switch now until July, and we are getting bills 3 to 4 times our normal rates we have paid for the exact same services for years on end. In this period of crisis for small business, where I have employees off, and sales down they have tripled my bill and offer no solution. We expect you to please follow up on this and have them do the right thing. I have not shorted payment on one bill as I am an honest person, but how they are able to legally triple a bill with no repercussions, then strong arm us into the only way to fix is to sign a new contract. Legal theft of us small business owners. I'm doing everything I can to keep my business open including paying them an extra 600.00-900.00 every month while I wait for a new supplier, its truly the worst business practice I have ever seen in my lifetime. I would appreciate the ability, especially during this Covid crisis, to be given a refund for these gouging tactics. I have no recourse, as my hands are tied with changing to a new provider, who because of the current crisis has no way of getting out to service us until later. Please look into this and help, advise, or provide direction so I can get out from under this enormous bill that they have given us no solution short of us signing a new contract.

Company Complaining About: AT&T

Description

Hello, I had my phone break on me and went to an AT&T store on May 23rd for a replacement/upgrade. I was told that I should order the Samsung S10E for a comparable phone (no phone in store for me to even be able to test)...was told that it would arrive in 3 to 4 business days. It did not arrive and I have been on several phone calls with AT&T to resolve getting mixed stories as to why i hadn't received. I was told that they would cancel the order and i could go into another store and get another phone that they had in stock. I went to another store and they said they could not sell me a phone until the issue with the other on order was resolved. 2 STORES 1HR DRIVE EACH WAY...still no phone. Was told that the resolution would be completed on the 11th...still no resolution. They said i could go to another store and try to get a phone...but no guarantee. I was told to "just go to a Walmart or Target and get a GO PHONE if i needed a phone before they could resolve. Customer service keeps transferring me to different departments saying there is nothing they can do. I do not feel like i should have to be spending any extra money on a phone when they do not have a resolution or compensation or anything that they can help me with. I am already losing business...trying to move forward... trying to make some sort of income during this pandemic...PLEASE HELP!!!

Ticket: # 4022416 - Verizon No Service

Date: 6/11/2020 1:46:56 PM

City/State/Zip: Marion, Ohio 43302

Company Complaining About: Verizon Wireless

Description

The consumer state that she has Internet service with Verizon whom she pays them \$50 a month.

The consumer states that they disconnected her Internet Service on Monday.

The consumer called Verizon and they didn't help her.

The consumer states she called again today that it would be done and fixed in a few minutes.

The consumer states that it still doesn't work.

The consumer states that Verizon told her that she has been turned over to Frontier.

The consumer states that they did a three way with Frontier and Frontier states they don't have her as a customer.

The consumer paid Verizon for her monthly Internet Bill this month and has never been late.

The consumer is not going to be giving Verizon any more money to not receive service.

The consumer also had VOIP Internet Phone Service and she can't use her phone if she doesn't have internet service.

The consumer uses the phone for medical appointments.

The consumer and her husband are both elderly and with COVID-19 still going on its had to miss appointment.

The consumer needs her internet service back on.

Ticket: # 4022495 - Disconnection of landline during covid19

Date: 6/11/2020 2:11:37 PM

City/State/Zip: St. Louis, Missouri 63146

Company Complaining About: Spectrum

Description

Spectrum disconnected landline with no notice June 10 at 4:30pm. They state the number is no longer in the area even though she moved to assisted living 2 miles away and has had the number 3 years since the move. Her service was disconnected during "keep America connected" and they say they cannot have a recorded message giving the new number to callers. She's 88 years old and this is a hardship for her to keep connected. We would like to keep original phone number 3(b) (6). She has had this number 55 years. New number (b) (6) with no forwarding number

Ticket: # 4022620 - No equipment

Date: 6/11/2020 2:48:39 PM

City/State/Zip: Florida, New York 10921

Company Complaining About: Optimum

Description

Cannot get an answer on inquiry for almost a month... my cable box is not working. I've requested a replacement. I call and at first I am told it shipped. It's weeks and I just followed up with them and they cannot tell me if it shipped. They are using their pandemic as an excuse for not responding on a timely basis... The average waiting time to get a call back is over 1.5 hrs and they outsource their customer service overseas and when they do call back the individual has a difficult time assisting. It becomes extremely frustrating. The FCC needs to investigate this company.. AWFUL service!!!!!!!!!!!!

Ticket: # 4022694 - Cox is unable to provide services as advertised

Date: 6/11/2020 3:06:01 PM

City/State/Zip: Scottsdale, Arizona 85260

Company Complaining About: Cox

Description

The Home Wiring Services Contractor Tech, Nick, came out to the house to do testing today. He found the throughput test at the tap showed full gigablast speed (box in alleyway). The packet quality test showed no packet loss. The jitter showed 75 ms and the other packet quality test number was 250ms. So we are paying \$109/mo for 900 mbps lan connection speed and we can only expect to get 200 mbps. Nick suggested downgrading to the 300 mbps plan until Cox can add more servers.

Basically, Cox is required to and plans to, add 25% more server capacity each year. In March, with COVID-19 Shut down, the demand increased so much that Cox would have to add 4 years (100%) more server capacity in one weeks' time to meet the new stay at home/work at home demand. Right now all Cox can do is move demand around to hit other servers when customers complain. Cox is going to need to process some serious refunds and downgrades of service until they can supply the speeds that they promise / advertise.

Also, I will be contacting Cox again because Nick was saying that there still could be a node in the area that was damaged during the looting 0.5 mi from this house. The reduced speed coincided with the unrest we experienced two weeks ago. Address is (b) (6)

Ticket: # 4022847 - Inadequate Infrastructure**Date:** 6/11/2020 3:44:00 PM**City/State/Zip:** Seattle, Washington 98122**Company Complaining About:** Wave Broadband

Description

Wave is my Internet Service Provider and has been unresponsive while resolving major internet service issues. Wave has allowed my neighbors and I to sign up and pay for service that they aren't delivering. They need to add additional capacity to their local network to service our block adequately. My service issues begun the day my neighbor signed up for service and an additional splitter was added to my service connection. I have been waiting patiently for 3 months since this happened for Wave to resolve the issue since I initially called technical support and determined the root cause of the issue. 6 weeks ago a technician informed me that he was initiating a construction request that would take 4-6 weeks to complete. I have not been contacted about progress of the request. I work from home due to the COVID-19 lockdown but cannot adequately perform my job due to dozens of days with no service. I simply want Wave to provide the service that my neighbors and I have been paying for. I have made several calls and received no response other than "we've initiated a new ticket for you, you should hear back soon".

I have been informed today that apparently there is no record of a construction request. It is infuriating to be treated like this as a customer.

Ticket: # 4022848 - Harassed by so-called lead on nextdoor.com

Date: 6/11/2020 3:44:50 PM

City/State/Zip: Murrieta, California 92562

Company Complaining About: Nextdoor.com

Description

Hi I received a invitation from another neighbor. To join nextdoor.com been on it for a while information about controlled burns the covid-19 a lot of useful information. And some posts and other matters interesting neck. Doing it for a little while. My lead in my area is (b) (6) But another person. Identifying herself as (b) (6) lead. Told me in a post on a thread. That I have no rights quit hiding behind the United States Constitution. Because on the Nextdoor app I have no rights. And we will determine I guess people like me will be able to post or not. I was thinking their platform is there. But FCC has some say and everything in the Airways. And I do not believe this has anything to do with the creators of next door or the other lead. It's (b) (6) ever since she showed up I'm trying to get into the app. I cannot. And now I have asked for a code to sign in to change the password but the cold never gets sent. Basically I am not officially blocked but I am blocked by her I believe. The main reason for this communication to the FCC is. I did not appreciate being told that they can do whatever they want to meet. Please help. Be well

Ticket: # 4022905 - Billing / Late Fee

Date: 6/11/2020 4:00:51 PM

City/State/Zip: Vero Beach, Florida 32963

Company Complaining About: AT&T

Description

Hello, about one month ago, I paid my phone bill a few days late. AT&T charged me a late fee. This was during the worst part of the COVID19 virus outbreak, and most systems were slowed or closed entirely. Most billing companies gave their customers extra time to pay their bills. But not greedy AT&T.

This is not the first time I've had ethical issues with AT&T. If you look online, there are MULTIPLE THOUSANDS of complaints about At&T. You are a strong government entity; why do you allow them to continue doing this, year after year? They seem to have no fear of you whatsoever.

You should launch an investigation of these complaints, and bring AT&T to court to defend their actions.

I would like my late fee refunded. Thank you.

Ticket: # 4023013 - Dominion Energy Phone Scam**Date:** 6/11/2020 4:29:16 PM**City/State/Zip:** Highland Springs, Virginia 23075

Description

Someone called and left a voicemail from (866) 466-0950 claiming to be from Dominion Energy. They threatened to shut off my power if I did not make an immediate payment. The message instructed me to return their call at the same number. When I called back, someone introduced himself as Jose from Dominion Energy. It did not sound like a normal call center. There was a lot of background noise and I could barely hear him. He asked me for my account number. I told him I'd call back because I didn't have it with me. I then looked at my account information online. Dominion's website said all utility disconnects were suspended due to Covid-19. The phone number provided also did not match any of Dominion's official numbers.

Ticket: # 4023040 - Verizon Regional Sports Network Fee

Date: 6/11/2020 4:40:18 PM

City/State/Zip: Carmel, New York 10512

Company Complaining About: Verizon

Description

Verizon FIOS has been charging an \$8.89 "Regional Sports Network Fee" on my cable TV bill even though no current sports have been broadcast during the pandemic restrictions on sports. Verizon tells me they cannot refund the fee because it's part of the package I have. This seems unfair and disingenuous. I do not feel I should pay for something I am not receiving. Please direct Verizon to refund the fee.

Ticket: # 4023063 - Internet rates

City/State/Zip: Murphy, North Carolina 28906

Company Complaining About: Viasat

Description

After the COVID 19, our internet provider went from \$100 a month to \$170 a month for the same service (can show bills as proof). On top of that, internet has been slower and a lot more difficult to use and they are not working with customers at all to provide relief knowing students have been required to continue schooling online.

Ticket: # 4023090 - Verizon Wireless

Date: 6/11/2020 4:54:12 PM

City/State/Zip: Coarsegold, California 93614

Description

I have a long list of issues trying to get problems resolved with Verizon Wireless. I have more than 25 emails with their executive relations department and I've spoken with more technical advisors than I can count. The average time on hold trying to get assistance and speaking with IT people has been around 3 hours. I've been a customer with Verizon for 23 years and their customer service has deteriorated to the point of being completely ineffective. I've attempted repeatedly to resolve the issues, and now believe they owe me money for the ridiculous amount of time and trouble they've put me through. I want to speak with upper management at Verizon and have them resolve issues that have been going on for 8 months now. It's not just about unwanted calls.

Consumer states that they are giving him a run around since two weeks ago.

ctr408-phone

Ticket: # 4023338 - Unfair, Deceptive, Abusive Acts and Practices**Date:** 6/11/2020 6:18:54 PM**City/State/Zip:** Charlotte, North Carolina 28269**Company Complaining About:** Verizon Wireless

Description

I'm reporting Verizon, via a complaint to the Federal Communications Commission (FCC) for Unfair, Deceptive, Abusive Acts and Practices. I'm very disappointed that my iPhone 6S has been hijacked on multiple occasions by Verizon and is virtually rendered useless. About a week before the COVID19 lockdown began in March I started having issues with applications on my phone launching automatically, the edit function randomly engaging with text copy, the phone randomly dialing recently called/received phone numbers, the closing out of applications, etc. I thought it was as a result of a dirty screen so I would wipe the screen, power off/on and it would settle for an hour or two but never resolved. I tried updating the iOS - no resolve. Then I received an email notifying me that I would receive free data for hot spot usage during the COVID19 lockdown. As soon as, I got the notification my problems resolved although I never use my phone as a hot spot. At the end of May, I received another notice that the free deal was ending, and immediately, the problems started occurring. That's when I took it to the Verizon Cellular Sales store on Tyvola Rd, NC. I was told I had a hardware issue and needed a new phone and, wouldn't you know it, I was a candidate for an upgrade! The phone I wanted had to be back-ordered, but I sat for HOURS with the rep trying to get a temporary phone online so I could have a working phone. Long story short, I left the store with a nonworking spare and my own phone while I waited a week for the new phone to arrive. When I walked out of the store, miraculously, my phone started working perfectly again. No trouble what-so-ever. When the new phone arrived in the store I canceled my order because my phone was still working perfectly. As soon as, I canceled my phone order suddenly, magically, all the problems I had before I went to Verizon began all over again! This is not a coincidence - Verizon is hijacking my phone and rendering it useless so that I will have to purchase products or services that I don't need. This is Unfair, Deceptive, Abusive Acts, and Practices. I am filing a complaint with the Federal Communications Commission and holding Verizon accountable for these practices.

Ticket: # 4023463 - Consistent problems with my internet

Date: 6/11/2020 7:09:11 PM

City/State/Zip: Warwick, New York 10990

Ever since this pandemic has started I have constantly had problems with my optimum internet. For example, I could not access my emails, optimum TV on my iPad was not connecting, my screen would freeze, problems connecting to facebook.

Ticket: # 4023503 - On day 10 without my phone number

Date: 6/11/2020 7:29:42 PM

City/State/Zip: Auburn, California 95602

Company Complaining About: Sprint

Description

So, apparently Sprint has lost my phone number, and I have no idea how many potential business clients I have lost because people have been unable to reach me. All of my advertising for my business has that phone number on it, at a time that I could really use the business given the COVID-19 crisis.

I got a letter in the mail from my poor mother. She's 75 years old and was concerned why my phone was "busy" when she called it, unable to reach me.

Ticket: # 4023508 - Charge for no services received, and for service interruptions from Optimum (Altice)

Date: 6/11/2020 7:34:28 PM

City/State/Zip: Hampton Bays, New York 11946

Company Complaining About: Optimum

Description

1. I requested cancellation of cable tv and internet services from Optimum on March 14, 2020, as I moved out of state due to COVID on March 15, 2020. My billing cycle ended March 16. Optimum is attempting to charge me for March 16 through April 15, 2020, despite my cancellation prior to the start of this billing cycle.

2. I am seeking resolution to my billing requests, which I have made both in writing and over the phone, and remain unresolved.

3. I am living with family in Colorado to be a caretaker during COVID. They should not charge me for past interruptions to service, nor for services beyond the date for which I cancelled. All equipment was returned promptly.

I am seeking resolution to my billing requests, which I have made both in writing and over the phone, and remain unresolved.

I am living with family in Colorado to be a caretaker during COVID. They should not charge me for past interruptions to service, nor for services beyond the date for which I cancelled. All equipment was returned promptly.

3. I had multiple service issues when the cable tv did not work, for which I called on multiple occasions. I requested a billing adjustment for my last official billing statement for the days when I have officially documented interruption of service. Totaling 12 days from Feb 3 through March 9, 2020.

4. They offered no resolution to date, and continue to bill me for April. They have not even changed my address, so the correspondence from them is very delayed.

5. I am being Charged for no services received!

Ticket: # 4023588 - Internet failures

Date: 6/11/2020 8:44:44 PM

City/State/Zip: Clendenin, West Virginia 25045

Company Complaining About: Sudden Link

Description

Suddenlink internet 100x10

Internet started failing early spring 2020. During the covid 19 pandemic...with 3 kids at home trying remote schooling. I also run a business from my home, so the internet is important.

We request the first technician...he comes and before even getting out of the truck had filed the service report (because I got an email saying the work order was closed...then my girlfriend said he showed up) saying there was a bad connection. I was charged 60\$ and he found no issues. After she complained of TV service as well he replaced tv boxes and left.

I called the next day and requested a tech again...a week later he shows up. He tests signal issues and "takes pictures because noone will believe me" about the signal loss at my connection where it comes into my home.

I call a week later because life gets in the way. Request another tech or I will cancel. I tell them Thursday because I could take the day off and be here....they give me a 10 hour window. I tell them that if they do not repair it that day I will cancel and not pay another penny of this past months bill...and all the service call fees.

I stay home all day...and they never show. I call to cancel and they tell me the cancellation line is now closed...and all stores are closed because of Covid.

Ticket: # 4023672 - Tucker Carlson Fox News June 8

Date: 6/11/2020 10:18:49 PM

City/State/Zip: Johnson City, Tennessee 37604

Description

I am writing to complain about the broadcast by Tucker Carlson on 8 June at 0845pm. This broadcast comment incites violence, and is not accurate news. I am also asking why Fox News, is allowed to be labeled a news entity in the US, when it is labeled as entertainment in all other broadcast spheres. I receive Fox news on line by a Charter Spectrum. Carlson Quote inciting violence is " this may be a lot of things, this moment we are living through, but it is definitely not about black lives and remember THAT WHEN THEY COME FOR YOU, AND AT THIS RATE, THEY WILL" is using fear and racist history to stoke racial tension among viewers. Furthermore, these are heinous comments, one of thousands coming from him, not to mention completely inaccurate information, especially regarding the corona virus. His show needs to be removed from the Network. And Fox News should not be labeled News when it is almost entirely opinion pieces fueling distrust of any one with a shred of understanding of facts, particularly scientific.

Ticket: # 4023686 - Resuming internet service

Date: 6/11/2020 10:39:40 PM

City/State/Zip: Menifee, California 92586

Company Complaining About: Frontier Communications

Description

I've invested too much time with Frontier's reps to perform the basic function of resuming internet service to my business, after having placed a hold on the account in March due to the pandemic. I've spoken to not less than 7 reps in a seemingly endless transfer from department to department. I need the service to resume normal business.

Ticket: # 4023690 - Optimum-CableTV and Telephone

Date: 6/11/2020 10:47:33 PM

City/State/Zip: Westbury, New York 11590

Company Complaining About: Optimum

Description

Around the end of March and the beginning of April 2020, I terminated my services with aka Cablevision, Optimum and/or Altrice. I delivered my 2 cable boxes to Cablevision/Optimum/Altrice in Bethpage. My services were disconnected as I no longer had a box. Since the Coronavirus/Covid-19 I have been trying to get through to Optimum as they continued to charge my account \$172-.88 per month. They put you on hold from 3 to 4 hours and then you lose connection. I would like for them to reimburse \$691.52 that was charged to my Chase bank account for the 4 month of \$172.58 per month charged. I finally was able to stop payment to Optimum. I would appreciate any intervention and help that you can provide. I called the company several times per day and they put me on hold for 4-5 hours and then I lose connection. Thank you

Ticket: # 4023800 - Spoof call using my number

Date: 6/12/2020 6:09:24 AM

City/State/Zip: Camarillo, California 93012

Description

At 8:00am British Summer Time, 12 midnight PDT, my wife received a call on her UK cell phone purporting to come from my AT&T cell phone 805 302 6871. Since this phone is only used when I am physically in the US, cannot be used for international calls, and has been switched off since February 1, 2020 because I am sheltering-in-place in the UK during the pandemic, it appears that someone may have hacked into my AT&T phone and call history and be attempting to impersonate my phone. My wife did not answer the call, and I have alerted some other possible contacts via email.

Company Complaining About: Safelink Wireless

Description

Safe Link was his carrier.

Icy should have been an unlimited plan.

Customer service is English is the 2nd or 3rd language.

(b) (6)

It is his old ticket number. [REDACTED]

***He wanted me to add: Black Lives Matter.

He didn't give permission to close any of his complaints.

The consumer states that Susan is terrible and never directly answers his complaints

Icy wants someone to contact him immediately.

The consumer needs to have a phone during this pandemic, he needs someone to contact him.

The consumer has filed a complaint against SafeLink

The consumer states that Susan Clark Milton is terrible and never directly answers his complaints.

Icy has medical problems and the phone should not have been shut off during this pandemic.

Nothing was resolved, He didn't give permission to close his other complaint.

The customer service people kept putting Icy's money on a minute plan and it should have been put on an unlimited plan.

Resolution:

Icy wants an explanation of why they shut the services off.

CTR394-phone

Ticket: # 4023974 - Billing from Sprint for deceased family member lost and/or stolen cell phone ending 0198

Date: 6/12/2020 10:25:07 AM

City/State/Zip: Washington, District Of Columbia 20011

Description

I received a call on 6/10/2020 from Elizabeth from Sprint my case number was (b) (6) I informed her that I would have to contact her back to schedule a date and time we could discuss the complaint that had been forwarded to them from FCC Ticket Number 4016685. On 6/12/2020 @ 9:20a, I contacted Elizabeth again to schedule a date and time, my first date and time was 6/29/2020 @ 9:00a, she informed me that wasn't a good time because they had to file their answer on 6/25/2020. So I changed the date and time to 6/19/2020 at which time she informed me that the only she would need to handle this case was for me to send her another copy of the death certificate. I am angry and would like to have this matter escalated to that of an hearing for the following reasons: (1), when I called Sprint after the death of my grandson to cancel the services I was informed to send them a copy of the death certificate, which I did, along with a copy of the bill and a letter that I had written them requesting how affordable payment arrangements could be made on the phone, the information I was given from the 877-365-6413, Supervisor Mark, was that I had to pay for the phone because of the contract. So I cancelled the services on the phone as well as the insurance because the insurance company Assurion wanted me to send 125.00 to have the phone replaced, why would I do that when my grandson was deceased, for one year Sprint charged me the full amount on the phone in question. Finally in October, 2019, I received a letter from Sprint regarding the phone and a payment arrangement. But in the interim of receiving this letter I kept receiving harassing calls to upgrade the phones on my plan, changes to my plan without authorization. it was all explained in FCC's ticket number (b) (5). But final arrangements were made to my satisfaction of 13.99 per month plus a fee that was never told me why of 8.99 I now feel that this was for the service on the phone and each time I called I got excuse after excuse as to what that fee was for. I was also told by Kera, Sprint Supervisor in October, 2019 that this payment arrangement would last for 6 months from the date and that in June 2020, I was to call Sprint back to continue the plan, and that the amount of the phone would decrease because of the payments made and that I could either opt to continue to pay these arrangements or pay the phone in full. On 6/1/2020 I contacted Sprint because I was under the assumption that I had through the end of June to continue with the current arrangements. This was not the case, on 6/5/2020 I received 4 calls from different Sprint representatives trying to force me to upgrade the phones on my plan which I felt was crazy because once again why would I upgrade a lost and/or stolen phone's plan. I was told by Stephaine from Sprint that upgrading would decrease the amount of the lost/stolen phone, I hung up because at this time I knew they thought I was crazy. I received another call at 10:00pm on 6/6/2020, regarding the payments on the lost/stolen phone, I had to disconnect the call and turn my phone off because nothing I said was taken into consideration like can we discuss this on Monday morning, I was sleep and in bed. Mind you once again that I am high-risk COVID due to pre-existing health issues, 64 years of age, in and out of the hospital for injuries sustained in a car accident in 2009 in which my brother was killed and I had to once again learn how to use my left side. So I am already dealing with issues that I don't have the time nor energy to keep going through something that I am trying to put closure to. Not only with my personal issues, I am due for another surgery in July (corrective). On March 12, 2020, I contacted Sprint and once again was given a number to send my doctor's statement for high risk covid and self

quarantine. I had made changes in my life to accommodate my health and so that I can continue to take care of my remaining family members as I've lost since 2008, my husband, a daughter, my mom and dad, 5 brothers, 3 sisters, 4 nephews, my grandson and then in April, I lost a nephew to Covid, so I am not trying to go back and forth with this as I thought it was already taken care of with the previous payment arrangements. Today, however today Elizabeth informed me that I had to send them another copy of the death certificate. How dare she, I told her that I could not afford another copy of the certificate and that after almost 2 years because items have been packed away I would not know where to begin to look for something that I had thought I had closure from. Sprint charges me almost 300.00 for my current services, which they interrupt whenever they want to, and they have informed me that either I pay the phone off in full or that my bill will increase this month as a matter of fact. I cannot go to DC Vital Records because (1) I have to stay in because of my health conditions, and (2) I can't afford it. Due to the deaths in my family, the burials of those that didn't have insurance and me teleworking with limited hours, a mortgage to pay, and other items I need to survive and keep those left behind, Sprint is my highest bill with me having a senior's discount, a federal government discount and a plan that I assumed was affordable. I have also been a Sprint customer for 10 years, and have 50 nieces and 18 nephews, that all have plans with Sprint based on my recommendation, not to mention friends and other relatives, because of the monthly payments arrangements they afford you when faced with hardships. If you review my bills from Sprint you will notice from 2009 to 2018, I called each month for arrangements due to medical reasons and deaths. But I've managed to keep the service going. When I explained to Elizabeth on today that there was no way that I could get and/or leave my house to go to Vital Records an argument ensued, which I have witnesses to attest to this fact because I had her on speaker because once again I informed her that I was working so I was multi-tasking while on the phone with her, she stated that if I kept the appointment for the 19th I would have to produce that document. I told her she could close out the case because that would not be happening. It is not my fault that they don't have the documents that I've furnished twice already in 2018 and again in 2019. I can't and I won't, please help me get closure to this madness, they not Elizabeth but Glen from Sprint threatened that if I didn't pay the amount in question which should show on my July's bill, because June's bills is already out that no further payment arrangements would be made and service would be interrupted, and he knew this, how now at this date? They haven't even given me the balance of the phone in question nor any alternative payment arrangements and informed me on Monday, that the plan that I am currently under to pay for the lost/stolen phone ended November, 2018, so how was I placed on a payment arrangement October, 2019 - June 2020, and my bills will attest that I have been paying that amount. They are strong holding and forcing me and threatening to disconnect my services and on May 2, 2020, when I made payment arrangements, and it was approved to split that payment, I gave them a Visa Card number as I can't go out of the house and they went into the account and took the additional payment without authorization which threw my mortgage payment off and they refused to return, so I had to pay a late fee to the mortgage company plus the return check fee, etc. This company is killing me. Also on 6/8/2020, I had to give authorization for this to happen, my doctor, spoke with them on a conference call because of the stress I've been under dealing with them. None of this has been taken into account and I have done everything in my power since 2018, to be in compliance. Now I am seeking the phone in question be deleted from my account for harassment, forced pay

Ticket: # 4024073 - ATT did not cancel my line

Date: 6/12/2020 10:57:56 AM

City/State/Zip: Roosevelt, New Jersey 08555

Company Complaining About: AT&T

Description

I spoke to ATT to cancel one of my lines - Feb 28, 2020.

Katie - Employee ID KH216W refused to review the audio of the conversation and "was enjoying my call" with extreme sarcasm.

Rather lose the account than credit per the other representative.

She additionally lied that the account has "always been this way". When I asked her to review the calls from Feb 28 about cancelling the line she refused to review the call. The line should have been cancelled.

I asked them to review - they told me they would rather have me contact the FCC. I'm disappointed additionally that they charged me late fees, when they were told and allowed a forbearance during COVID, they gave me late fees anyway.

Ticket: # 4024107 - Billing/COVID-19

Date: 6/12/2020 11:10:48 AM

City/State/Zip: Haltom City, Texas 76117

Company Complaining About: Spectrum

Description

(b) (6) is looking to get help from spectrum. Consumer states that she has a WiFi, internet, and a cellphone with spectrum. Consumer states that ever since she got the cellphone she had problems with it and that spectrum tried to fix it but they were unable to do so. Consumer states that she receive a bill that was \$57.00 for only internet. Consumer has called multiple times about the issue and she seem not to get help. Consumer states that she does not use her phone a lot. She mainly uses the phone to call doctor but her bills are going very high to the point that she even thought about giving up the line because she is unable to pay that amount. She is 75 years old and she has asthma and Parkinson syndrome. Consumer is very sad because she asked to terminate the line and they told her that she will still need to pay her equipment, equipment that is not working well since the begging. Consumer is in really need of help. Consumer does not want to give up her line. Consumer is in a very low income. Consumer is alone. Consumer needs Spanish speaker.

City/State/Zip: Auburn, California 95602

Company Complaining About: Sudden Link

Description

Sporadic internet service (internet goes down between 8 am and doesn't come back on until approximately 8:30 pm); inability to connect with tech support (left four messages for call back on 6/9, 6/10, 6/11 but no return call. Have done tests of modem connection as the recorded message asks, but the modem connection does not seem to be the problem as the service comes back on in the evening.

Though persons in this household are retired, we are on the boards of a couple of non-profits and have had to scramble to make connections during board meetings since Zoom connections not available. Would like ability to connect with customer service representative at the least; optimally would like no interruption in service. Problems with Suddenlink's sporadic service have been on-going for years and pre-date the Covid-19 era. Have to call customer service to request credit for non-service periods AFTER service is restored.

Ticket: # 4024194 - Centurylink Internet Issues**Date:** 6/12/2020 11:39:51 AM**City/State/Zip:** White Hall, Virginia 22987**Company Complaining About:** Centurylink

Description

I live in rural Albemarle County. The internet is spotty at best and our only source of phone, cell service and internet. When I call centurylink I am always told they are working on it. My livelihood depends on internet especially during covid and I can't get on the internet, not to mention online schooling. The Nextdoor app shows all our neighbors have problems as well. As a rural community when will the government help us get internet?

Ticket: # 4024348 - internet provider (Century Link)

Date: 6/12/2020 12:18:23 PM

City/State/Zip: Atlanta, Kansas 67008

Company Complaining About: Centurylink

Description

I am a new resident the the Baldwin Ks area. I have been trying to get internet service to my home through Century Link. I Have talked to them from operators to a 3rd part contractor to a field engineer many times. I have had two accounts open. The first account I talked to them at the beginning of May and they told me that they would supply internet to my home but their line in the street needs upgrading.. They explained to me that it would be done but it will take a month. After them charging me 100 dollars for a router that they were to ship to me and them being the only DSL company I was more then fine about it.

I called a month later, at the beginning of June to find out that they have canceled my account without my knowlage. I asked them why that happen? After may hours and multiple days I finally got an field engineer to explained to me that there were two account open mine and another, and that there line was limited out and the line in the road right away needed to be upgraded and they were not going to pay for it and that we the new customer were to have to pay for it, over 8 thousand dollars, (8 THOUSAND DOLLARS). All that money to install the line and they were still going to charge me a monthly bill. I asked them if we were to pay for it would we get a percentage of the monthly profit that they would get for using the new phone line that I paid for. As I figured they said no way. At that point we canceled the 2nd account.

After our encounter did some research I found out that Century Link has taken more than 3 billion dollars of tax payers money to provide internet to people and as I see it I am a tax payer and I need internet and they are saying no. I am wondering what we as tax payers paid for.

As for me, my wife works from home with a very big nursing home company and she is responsible for employing thousands of people and placing and maintaining the lively hood of all her residents in multiple states, And yes she is taking care of you mother or grandmother somebody you know and care about.(it is that big of a company). At this time of Covid-19 and the devastation it is putting on this age group the last thing she needs is a problem with her internet.

I have spoke with FCC directly on the phone and they have opened up an account 4023967.

As a resolution I would like Century link to upgrade THEIR line around Woodson Rd. and old Hwy Southwest of Baldwin City KS
so they can provide internet to the community that it so desperately needs.

Sorry it took so much to explain and hopefully this gets to the proper people that can resolve this problem. thank you for your time..

Ticket: # 4024378 - Suddenlink Internet Service

Date: 6/12/2020 12:25:13 PM

City/State/Zip: Victoria, Texas 77904

Company Complaining About: Sudden Link

Description

I suspect Suddenlink of price-gouging during the COVID-19 crisis because we transferred existing service when we moved at the end of February and have since discovered that (without our authorization) we were switched from an unlimited data plan, to a capped data plan where they're able to charge us extra for exceeding data caps. For months, Suddenlink customer service is completely inaccessible for existing customers. There's no online option to change our data plan back to what it was, and I have attempted to call numerous times over the past several months and cannot reach a human being. As soon as I get to the point where I'm holding for the next available CS rep, the line disconnects.

Ticket: # 4024452 - Star2Star Telecom Complaint

Date: 6/12/2020 12:46:56 PM

City/State/Zip: Sparta, Michigan 49345

Company Complaining About: Star2star Telecom

Description

1. Number Port agreement with other Telecom breach of agreement: picked an arbitrary date, cancelled service without notice to our company so number could not be ported.

2. Caused serious tangible and intangible financial business costs and damages due to downed phone services, with no written notification to our company.

3. Charged our company for 12 months of unused services. We dispute the autorenewal Star2Star is wrongly attempting to collect. a. We were given an autorenewal date. We were sent a final invoice. We paid the invoice up to the autorenewal date. We gave advanced notice of porting our services to another carrier. Star2Star accepted that port agreement. The day prior to our number being ported, Star2Star turned off our Critical Care Nursing Hotline phone service (during the COVID-19 Crisis) not allowing our patients, Physicians, nurses reach us. Not allowing our number to be ported.

Resolution: Register our complaint to protect other companies from Star2Stars questionable business practices regarding autorenewal.

Step in and stop the attempted collections/ arbitration process they are charging TLC Care Plus In Home Care - for 12 months of services that they will not be providing. We have now ported the number to a different Telecom who is currently providing our services.

Ticket: # 4025230 - billing

Date: 6/12/2020 4:11:32 PM

City/State/Zip: Hamilton, Georgia 31811-4847

Company Complaining About: AT&T

Description

I am a Disabled veteran and for some time I have been with DirecTV and their landline phone service. Over the years AT&T has continually broken contract arrangements with my wife and me. From the very beginning, my landline phone has been subject to changes that were not previously agreed on. Being a disabled veteran my phone was subject to a contract that gave me veterans status, and the contract had a precise contract amount that would be charged to veterans myself included. Over the years the service was changed without previously notifying me that the change was taking place, since the Time Warner buyout my landline service which I need because I stay in mountainous region. And have very little option if any of having service from any other company offering a landline, the reason that this is so important for my wife and myself is our service from time to time goes out the Internet satellite. Where I have service satellite is the only thing offered in the Harris County Georgia area which the state park is located. So you see if my wife or I need to call for a medical emergency and there is a storm or a communication breakdown, my landline is the only thing I have for calling for help. Recently AT&T has broke agreement after agreement with my landline phone service opting to raise the landline phone contract over and over. Their customer service has become outrageously complicated most times when asking for help you cannot get someone that has a command of the English language which I am 72 my wife is in her late 60s and we speak no other language than English. So when asked why contracts are being frequently broken customer service has no understanding of how to get, the answer to my questions recently my service was discontinued without word of anything warning. After what I thought was an arrangement for bills that did not believe I created seen I pay once a month, always on my check day but because I separated my DirecTV from my landline service it has been increasingly hard to get a phone bill that was not changing with additional costs, and of course I'm told my landline has not been paid I looked to my bank statements, and express a difference but it can customer service especially in this day and age with the pandemic, my request or rarely understood on the date 06/11/ 2020 my landline was cut off three times and I was told that the arrangements that were made to get my service returned, because I had not gotten a communiqué on what the contract payment dates he was very easy for AT&T to say my understanding of the contract dates was wrong. That's why my phone service had been cut off forcing me to pay \$270 to get service back on. Which totter customers this would not happen while the pandemic was plaguing the country and making arrangements would be harder than other times. So I'm making this complaint against AT&T for their falsehood, and they're outright deceptions. billing should be the same every month

Ticket: # 4025256 - Comcast

Date: 6/12/2020 4:16:27 PM

City/State/Zip: Frankfort, Illinois 60423

Company Complaining About: Comcast

Description

I had talk to a representative on the phone to find a bundle package that would fit my budget in October of 2018. He went thru the bundle packages with me and I found one that would fit my budget. I had ask if there were any charges that would be extra and he said No. So I signed up with Comcast and had everything hooked up. You have 30 days to decide if you want to keep Comcast. As time went on everything was fine. I was getting to the end of the 30 day trial. The next day after the 30 day trial I got a email stated I was going to be charged 10.00 more for going over the megabytes. I was not aware of this limitation. I would not have agreed to having Comcast as my provider. I told the representative to cancel my service. I was lied to. I call these company's to make sure I don't miss anything for hidden charges etc. They have sent me to Enhanced Recovery Debt Collection. So I had submitted a complaint to Consumers Finance Org. I got a phone call from them and told the representative why I had a complaint against Comcast. Enhanced Recovery dropped the Collection and took it off my Credit Bureau. So now I have IC System Collection Debt sent me a letter last week on 5/28/2020 from Comcast again for the amount of 246.38. Just in time for the COVID19. I don't appreciate being lied to. These cable companies need to thoroughly explain to the consumers what all is in their packages and any hidden charges that the consumer is not aware of!!!

Ticket: # 4025521 - Still charging me for “canceled” service

Date: 6/12/2020 5:51:31 PM

City/State/Zip: Pineville, Louisiana 71360

Company Complaining About: Sudden Link

Description

On May 4, 2020 I contacted Suddenlink Communications to inform them that I had moved to a different address and that I was wishing to cancel my services. The gentleman that I spoke with informed me that due to Covid-19 the company was offering assistance with bills, but I denied it and wished to cancel. On June 10, the company still charged me \$109 for a service I was no longer using. I contacted the company on June 12 to inform them of this issue and was informed by a young lady that there was no record of me speaking with a representative, and that my services were not canceled. I asked her if I could be reimbursed and she stated that it was not possible due to no one accessing my account. She then stated that the internet was still in use, which puzzled me because I do not reside at that address. Also, I was charged automatically which was not something I set up due to me having other obligations on certain days. She told me that the company would be contacting me later today and I was not contacted.

Ticket: # 4025541 - Harassing text with profanity and vulgarity.

Date: 6/12/2020 6:05:17 PM

City/State/Zip: Pensacola, Florida 32513

Description

I received a text early in the morning about Keto weight loss. Then I started getting them about 3 times a day> I politely opened up on of the text and explained that I did not need the product and to please remove me from the list since I had replied STOP many many times. Since That time , the same entity has not only increased the number of text that they send but it's early morning and all theu the date but now they are using profanity and vulgarities. They are texting from different numbers that can not be called back. If you dial any of the numbers back, it says that the number is none working. I am 61 years old with the Corona Virus so I can not turn my phone off or on silent and I should not have to. I have included phone numbers and web addresses for each contact. Please help me to stop this problem as the last several text are clearly retaliation for my request to stop texting me.

Ticket: # 4025572 - Charter and Internet Assist (Low Income Internet)

Date: 6/12/2020 6:26:52 PM

City/State/Zip: New Port Richey, Florida 34652

Company Complaining About: Charter

Description

She is a senior and her neighbors are paying \$17.00 for internet service

She also qualifies for the lower cost internet under low income provision along with the fact that she lives in Section 8 Housing. However, no one ever advised her about this program, when she called Charter. She stated that she called because she recently became aware for the Internet Assist program and the waiver of some of the requirements in place, that have been possibly waived during the pandemic.....(prior services, outstanding bills, etc.)

However, when she called Charter to explain that she is 76 years old and extremely low income...AND that she lives in Section 8 housing, she was told that they were sorry, but she would need to disconnect her services, for 30 days, before they can offer her the Internet Assist program!

The consumer cannot do this due to the fact that she needs to stay in touch with her doctor and her family/friends.

The consumer stated that her phone number, listed as her contact, can be used to locate her account. It is utilized when she calls Charter.

The consumer requested to be allowed to subscribe to the internet Assist program, without having to cancel her present services because she needs these services and cannot go 30 days without the service. She also stated that this information was not made available to her until one of her neighbors had mentioned the Internet Assist program about three weeks ago because she mentioned she was struggling to pay her bills.

Ticket: # 4025625 - AT&T fraud

Date: 6/12/2020 6:52:02 PM

City/State/Zip: Hillsboro, Oregon 97006

Company Complaining About: AT&T

Description

Signed a contract on 2/22/2010 with AT&T for 4 phones and wireless service for my family. AT&T store opened a business account for me knowing that the lines are for my family (all 4 of us were present at the store). The deal was supposed to be \$ 174 dollars per month, but I received my very first bill on 3/25/2020 which was # 696. Since then, I have been contacting AT&T numerous time and each time they have told me new and conflicting information, and they have failed to give me the deal I signed up for. They finally suspended my service since 6/8/2020 although per their own managers and per the COVID 19 pledge to FCC they claim they will not suspend people's service.

Ticket: # 4025852 - Billing for service and don't live at address

Description

I called and emailed the company to have service moved to new address. I have documentation showing that my move was being delayed due to covid. Although I have informed them that I will not move until 06/19/2020, they have turned off service at my current address and started service at new address. Not only did they start service at new address but are charging \$209 for the same service that i am paying \$75 dollars a month for currently and was informed that my rate wasn't going to change as I am not adding any new services, just keeping the exact same service as i currently have.

Ticket: # 4025858 - Re: [FCC Complaints] Re: Safe Link Lifeline

Date: 6/12/2020 10:43:18 PM

City/State/Zip: Wexford, Pennsylvania 15090

Company Complaining About: Safelink Wireless

Description

This is a follow-up to your previous request (b) (6) "Safe Link Lifeline"

I did receive an application for (b) (6) to continue to receive and use his SafeLink phone, however with him being locked down in his nursing home because of the Coronavirus, I have no access to his medical card or other information that SafeLink is asking me to submit. (b) (6)'s information and status has not changed since he first received his SafeLink phone a couple of years ago. My fear is that SafeLink will one day shut off Ernie's phone with no notice. This is Ernie's only form of contact with me and our 95 year old mother. At this time, we are not allowed in the nursing home and they are testing everyone for the virus next week. Please request from SafeLink to continue (b) (6) phone service until we are able to provide the information they requested. My phone number is for (b) (6). My name is (b) (6). I am (b) (6) sister and power of attorney. (b) (6) is MHMR, mental health, mental retardation.

Ticket: # 4025873 - Comcast Cable

Date: 6/12/2020 11:10:56 PM

City/State/Zip: Taneytown, Maryland 21787

Company Complaining About: Comcast

Description

durning a global pandemic we have paid every one of our bills on time now comcast sends us our bill this month up from 184.35 last month to 210.56 this month over the past few months it was raising a few dollars at a time but this is price gauging at its finest something needs to be done about the fact that they can cheat people out of money like this month after month for a service that used to be free with an antenna i am on disability and will now have to choose between meds or tv again this month its just not right

Ticket: # 4025917 - lagging internet

Date: 6/13/2020 1:07:49 AM

City/State/Zip: San Francisco, California 94134

Company Complaining About: Comcast

Description

It is disappointing to me that the FCC is not advocating for the regular US citizens. Big businesses cannot survive without customers. Happy customers should be a priority. Comcast has no competition and are throttling the internet which limits a lot of services that people hope to access during this coronavirus pandemic. Unacceptable.

Ticket: # 4025918 - Abysmal Internet Speeds**Date:** 6/13/2020 1:15:02 AM**City/State/Zip:** Moriarty, New Mexico 87035**Company Complaining About:** Centurylink

Description

Century Link refuses to upgrade archaic DSL with sub 3mbps speeds. Because we are in a rural area, we are confined to using Century Link as they are our only viable option. We are a household of 4, and because of the COVID-19 restrictions, we are confined to the house. More often than not, these speeds are below advertised and they cannot handle our internet usage.

Description

Connections been on and off. tried calling comcast but never had the chance to talk to an agent. all automated. for two days they should have fixed the issue. i am a student doing online studying because of the pandemic. it is a crucial time for me right now. they could have given a compensatory wifi access if the issue are not being resolved.

Ticket: # 4025954 - Altice One Services

Date: 6/13/2020 3:44:26 AM

City/State/Zip: Norwalk, Connecticut 06851

Company Complaining About: Optimum

Description

To whom it may concern,

I have been a costumer for decades; since Cablevision.... as time has gone by, they have raised there services economically yet, the service doesn't match up. I pay more for the "best internet" they offer. Needless to say; I pay for a service I don't get. It's always in/out.... Even before Covid; it was just as bad.

For a few weeks now, the raised my bill approximately \$10. I have no clue why that is. I attempted calling customer service numerous amount of times and nothing. No live agent. Automated service gives to runaround and then ends call with zero explanation. I'm not sure what's going on, but, it's criminal. I hope I can get help with this matter.

Ticket: # 4026003 - disconnection of landline during Covid-19 Orders

Date: 6/13/2020 8:26:05 AM

City/State/Zip: Fairfield, California 94533

Description

My phone number (b) (6) that has been my landline phone number for over 10 years. I am a disable veteran with health issues and young children in my home, cutting off my phone during a pandemic is horrendous. I would like my Primary Landline to be restored to (b) (6) T (b) (6) and restore the secondary Number (b) (6) which shows up like a Suisun city number. Comcast Xfinity

Ticket: # 4026105 - ATT Owes \$1400 for trade-in promotion since JANUARY 2020

Date: 6/13/2020 10:59:26 AM

City/State/Zip: Huntersville, North Carolina 28078

Company Complaining About: AT&T

Description

Summary

Promised Promotion: Trade in 2 iPhone X to fully cover 2 iPhone 11 (\$1400)

What ATT owes us: \$1400 in ATT credit to cover the 2 new phones

I started a plan with ATT back in January because they offered a promotion to cover a new iPhone 11 if we traded in an iPhone X (\$700). We were given a shipping label for our old trade-in phones that went to the wrong return center and now our package has been shipping back and forth between the return and trade-in center. I have called multiple departments and no one has no clue on our phones or trade-in status.

Full story

After starting the plan, we never received the shipping material/label so we decided to reach out to a chat representative. The rep gave us a label to print and we shipped it. After a month, I checked up and found out on my own that the label was sent to a return center rather than the trade-in center. So it has been sitting there with no updates.. if I didn't call in then when would they take actually take action?

End of March

I followed up again because there is NO transparency on the process. It turns out the phone arrived at the right facility and was somehow shipped back to the return center. I was redirected to multiple departments to end up not being able to take any escalation action.

Beginning of April

My phones are being shipped back to trade-in facility.

This month

I followed up with the trade-in support team and they provide just a generic response. "Thank you the system has not shown as updated"

I am fortunate to be able to have some funds to cover the phone plan installments since January. But imagine other customers that may not be able to especially during the pandemic.

This experience has really turned me away from continuing with ATT in the near future. As i was explaining my situation to an ATT associate, she told me "should i redirect you to the cancellation department?".

Documents:

Email chain where I am discussing the situation with ATT support. (Communicating with ATT Trade-in Support.pdf)

Package tracking status of our 2 old iPhones (Tracking_Status_Part_1.jpeg, Tracking_Status_Part_2.jpeg)

First statement bill in January (A(b) (6))

Ticket: # 4026226 - Altice

Date: 6/13/2020 1:21:07 PM

City/State/Zip: West Sayville, New York 11796

Company Complaining About: Optimum

Description

My tv service is intermittent. When I call customer service, I'm often on hold for 3 hours and then disconnected. When I try their "chat feature" same thing. Their robot says they'll connect me with a technician, but then there is no response. I've been dealing with this for months. I'm reluctant to file a complaint but I don't know how else to reach this company. It's not only because of the pandemic - it's been pretty bad since they took over optimum.

Ticket: # 4026234 - Xfinity

Date: 6/13/2020 1:29:54 PM

City/State/Zip: Northbrook, Illinois 60062

Company Complaining About: Comcast

Description

I was told a tech would drop off a new modem and tv box today and they never arrived. Then after an hour on hold and on a call I was promised credits of \$70 and the call dropped - and nobody called me back. Then on chat i was told no credits were applied. This was because i now have to go to the Xfinity store and waste more time and money and risk exposure to COVID due to this incompetence. I am disabled and have one working lung so I am not happy about this. Plus last week i was left on hold for over 2 hours by an agent and they never once got back on the line. I want credits for what was promised and for my time and inconvenience and these are NEW credits and not related to credits before June 13. I demand that the promised credits are applied and that i am compensated for my troubles and inconvenience on top of the lack of service. The issues have affected my TV and Internet services btw. My complaints is about service reliability as well as the lack of appropriate and honest customer service I have received.

Ticket: # 4026323 - Port Restrictions

Date: 6/13/2020 2:56:14 PM

City/State/Zip: Arlington, Washington 98223

Company Complaining About: Comcast

Description

Some port ranges have been closed by my internet provider, Xfinity, restricting my access to some services including software that my wife needs to work during the pandemic by restricting our access to ports. We have been able to work around the issue, but a household without an engineer may not be so lucky, possibly causing them to lose their job.

Ticket: # 4026581 - Verizon Runs a Crooked Corrupt Scam**Date:** 6/13/2020 6:49:23 PM**City/State/Zip:** Hernando, Florida 34442**Company Complaining About:** Verizon

Complaint Detail / Problem

Complaint Type: Advertising Issues

Problem: Verizon Wireless convinced me to buy a high dollar iPhone 11 ProMax and because I am an old person over 55, I was assured that my monthly bill would be \$80 less all the special charges and other crooked taxes and fees they charge. This is a clear case of misrepresentation. Today, I was out and about driving around trying to use Google Maps and other data related features like Amazon music. And none of the services worked. So, I got to sit in my truck in the Home Depot parking lot in the 90-degree heat for 2.5 hours waiting for someone from Verizon to hear my situation. I needed data for Google Maps so I could find an address to deliver some stone to a guy. What I found out eventually was that when Verizon put me on the old person \$80 a month program they throttled back my data connectivity to 600 mghz. So, Patrick in Alberque in technical support put me on a \$130 a month plan so I could get the system to actually work again. He says in order for data to work, people require atleast 1 mg of connectivity. This would have been good to know when Verizon mis-sold the \$80 a month plan without ever mentioning that the 600 mghz would fail to work with anything. A bunch of crooked, greedy jerks that run a monopoly and should be run out of town. Lying, cheating, hard to reach people that need to be taken down a few notches! Instead of giving me a price break they took my service away and made it a challenge to get things correct again and now my bill is way higher than it was before I bought this iPhone 11. Crooks! Crooks! Crooks!

Desired Resolution / Outcome

Desired Resolution: Billing Adjustment

Desired Outcome: Misrepresentation is a crime! If Verizon does not offer decent data connectivity for the \$80 a month, they should not be able to use that in their sales pitch to sell you know phones and merchandise. They should not be allowed to be dishonest with their products. My wife and I should be charged the \$80 a month for Verizon's maximum data connectivity at 5G a month for life able to process over 100 MB. There should be a corporate apology for throttling us back and selling me the iPhone Pro Max knowing full well that I would be left broke down without connectivity when I rely on data to use Google Maps, etc. This is about a powerful company lying to the little guy. Misrepresentation should equal a complete re-evaluation of how Verizon is treating old-timers like me. I don't mind paying for the service, but misleading customers to make a sale is completely not right!

Message to BBB

People Over 55 should be notified that Verizon scams them into thinking they can buy unlimited data for a discounted \$80 a month when in reality they are throttled back to 600 Mhz and as a result no programs function. Programs like Google Maps, Security Services, and others can be crucial when out on the road traveling. When you lose those services because you lost your service in exchange for what you thought was a discount, that is a scam. This should be shared on national, and local news. A bunch of greedy crooks run Verizon and they should be held responsible for setting this kind of scam up. Then to use the \$80 per month to sell a phone that will be throttled back is another crime. In my view, this company should be expected to re-evaluate their game and if they want to help old people, they should not legally be allowed to capitalize on what they infer to be my technology

ignorance and stupidity! I have been around long enough to know when I have been taken. Everyone should know about this!!! I predict others are being gouged with this \$80 a month offer they incentivise while forgetting to mention, customers will lose their data connectivity. Let FOX news in on this!

Complaint Background

Not all of these questions are required. Please provide as much information as you have.

1. Product/Service Purchased: Cellular Service
2. Model Number:
3. Contract, Account, or Policy #:

15. Last Name: Knows
17. Purchase Price: \$130.00
18. Disputed Amount: \$130.00

Ticket: # 4026669 - Scam for free monies for COVID-19

Date: 6/13/2020 8:57:59 PM

City/State/Zip: Stockbridge, Georgia 30281

Description

A text from 1-320-429-7176 saying they were an agent to help me get free money grant! The contacted me originally on messenger as one of my friends! They said I had to fill out a form for them and to tell the truth! Said she got \$90k from them! I called my friend and she said it was not her and had to be a scam! This happened today 06/13/2020.

Ticket: # 4026745 - Consistent Slow Internet

Date: 6/13/2020 11:05:58 PM

City/State/Zip: Austin, Texas 78705

Company Complaining About: Spectrum

Description

Internet speed is inconsistent, Spectrum claims there is no issue and has sent technicians to “fix” the connection but problem remains. Spectrum has refused to compensate for lost service that has affected working from home during COVID-19. They have increased the monthly bill rate, despite several complaints about internet issues.

Ticket: # 4026827 - Anti Consumer Data Caps

Date: 6/14/2020 7:01:27 AM

City/State/Zip: Murfreesboro, Tennessee 37130

Company Complaining About: Comcast

Description

The ability of companies like Comcast to create artificial data caps on their internet (especially in regards to high speed bandwidth) is not only unfair but anti consumer. We live in a country that must see that Internet Service Providers are granted a special status in the market where in many cases they are a designated legal monopoly. Unless the federal government is going to set a standard opening up the market with "one touch" installation rules and allowing external competition in, data caps need to be removed. We live in a society that is constantly connected and with greater levels of data trafficking the network(s). Multiple studies have shown that users with data caps are unhappy, overcharged, and late on accepting/installing security updates leaving them completely exposed to attacks. In addition, as COVID-19 has shown the world that remote work is the future, more and more people are going to be given (or mandated) a work from home policy resulting in more and more of a dependency on home ISP networks. A report from Comcast and AT&T already shows that the average home (pre-COVID19) sits at half the industry data cap level, what is expected to occur in the next few months or years? Please consider opening the market up as these caps are solely benefiting private company profit margin and limiting the American people's ability of free flow of information and exchange.

Ticket: # 4026853 - number portability denied by Verizon; cannot transfer to Tmobile

Date: 6/14/2020 8:25:22 AM

City/State/Zip: Knoxville, Tennessee 37918

Company Complaining About: Verizon

Description

Verizon network been down last 2 plus weeks could not make or receive calls. After countless hours online with support Verizon confirmed network issues but never resolved. Bought new iPhone from Tmobile on 6/12/20 but learned from Tmobile on 6/13/20 that Verizon requiring new port out pin/transfer pin to move phone number to Tmobile. The app, website etc will not allow me to get that port out pin/transfer pin. Verizon customer service said they cannot create over phone and for two days the website that issues the port out pin/transfer pin says "Oops there seems to be a problem. We're having some trouble right now please try again soon". For 2 days I cannot get the port out /transfer pin to use my new phone. All bank accounts, insurance, utilities etc. are tied to that number so Verizon is really screwing me. I am a disabled woman with limited mobility and going to the store to get this taken care of is a burden not to mention the risk of contracting Covid-19 if I had to go inside a Verizon store to get this completed. Please help me.

Ticket: # 4026911 - Dish Service Interruption

Date: 6/14/2020 10:14:05 AM

City/State/Zip: Concord, North Carolina 28027

Company Complaining About: Dish Network

Description

My service was interrupted twice without notice. I logged in to make a payment yesterday, service was not reinstated, so I chatted in with an agent. After doing so, she informed me that I was on local programming only due to Covid19 but since I made the payment she would reinstate. She did so only to have my service interrupted again today for non-payment.

Ticket: # 4026918 - internet not working properly

Date: 6/14/2020 10:38:01 AM

City/State/Zip: Dunnellon, Florida 34431

Company Complaining About: Viasat

Description

I have filed several complaints about the internet data speed with my Viasat/Exede provider. They REFUSE to come out to the property and do an in-person diagnostic to figure out why my speed are between 5-7 mbps download speed & in the 2 -4mbps for upload. They continually use the same excuses about how many devices I have connected. Other devices connected to the router should not make a difference to an Internet speed test it keeps spinning and spinning it I try to play YouTube or anything. They are now using network congestion and the pandemic even though this issue has been going on since the day of install well before the Covid19 health crisis.

My issues happens whether its the beginning of my monthly cycle, no matter what time of day or night (including 2-5 am). I have repeatedly asked for a service person via multiple phone calls and this has been an issue since install. They charge me a monthly fee for service calls, but they will NOT come out. They are stealing my money and denying the very service they sold me. I also keep getting a 603 data unavailable error whenever I try to use NetFlix, and I am hardwired to the tv from their modem. I am paying for Netflix service which relies on the internet so I am losing money there as well because it wont work. On 6/14 I spoke with Roman at Viasat and asked him to let me speak to a supervisor who refused to get on the phone. When asked for his supervisor's name, he told me his name was "Devon", and when asked for any type of identifying info for him (i.e., badge #, etc) he said there was none for either of them. I pay \$110 per month for a service that does not work properly and a company that refuses to come out and resolve the issues. I would like to be credited or discounted for my services as they are unwilling to deliver what they advertised and what I pay for. I also believe they should be looked into as the speeds are NOWHERE in the realm of what is acceptable for 2020. I have attached today's speed test.

Ticket: # 4027001 - ALTICE MOBILE BILLING FOR SERVICES CANCELED

Date: 6/14/2020 1:03:38 PM

City/State/Zip: Millstone Twp, New Jersey 08535

Company Complaining About: Optimum

Description

I signed up for Altice Mobile in February and canceled before the service was activated. They do not have a customer service department so I was forced to file complaints and request cancelation via their app which was never completed. Due to COVID I was unable to go to an Optimum store. Since they continued to charge my credit card I filed multiple disputes with Chase Business Credit Card services and was given credits only to be charged again the following months. I have spent hours on the phone with Chase and just recently received a charge of \$348 from Optimum on my credit card which I even changed the card # 2 months ago but Chase still allows the charge. Please help me stop charges for services I have never used and canceled 4 months ago.

(b) (6)

Ticket: # 4027059 - Disabled Mother without phone, internet and cable service for 7days without any update from Suddenlink

Date: 6/14/2020 2:28:35 PM

City/State/Zip: Nokomis, Florida 34265

Company Complaining About: Suddenlink

Description

My mother's lives in rural West Virginia. She is disabled- very limited mobility- but can stay at home as long as she has a means to call for help. She had been without phone, internet and cable for more than 7 days and there has been no attempts to send a service tech to communicate or fix the issue. Also, our neighbor is in final stages of cancer treatment. They too have no way to make an emergency call. When they are already so isolated due to COVID-19 due to their vulnerabilities... this is inexcusable of the company to be unresponsive to their most vulnerable clients. Please help to hold this company accountable to restore the much needed services. My phone number is [REDACTED] -

(b) (6) [REDACTED].

Ticket: # 4027115 - Erroneous Information

Date: 6/14/2020 3:42:12 PM

City/State/Zip: Carson, California 90745

Company Complaining About: Sprint

Description

I was effected by COVID 19 and sprint graciously let me setup an arrangement. I made the payment early and was told I could go on line and modify that particular arrangement. I did so and was told since I cancelled the complete arrangement my service was interrupted.

Now I'm told it can't be reinstated and I did exactly what I was told by the representative! I do tired of all the double talk, do they stand behind anything they say? some

Ticket: # 4027144 - COVID related price gouging

Date: 6/14/2020 4:06:42 PM

City/State/Zip: Austin, Texas 78721

Company Complaining About: Grande Communications

Description

Problem description:

April 2020 my monthly service charge went up without any notice or explanation from Grande. Grande also began charging a higher monthly equipment charge, also without any notice or explanation. I've had this account for years and my established charges are not tied to any promotion.

My account was on Autopay, and since I was never notified of a change in charges, the new higher charge was denied by my bank. Grande then ended my autopay account, without notice, and charged \$95.83 in various fees to my account. I was never notified of these surcharges until my next monthly bill. The next bill I received on 4/20/20 clearly stated at the top "Payment Received" for the full amount I was expecting to have been charged, but also included surcharges.

On 4/29/20 a member of my household called to ask about the surcharges. The representative agreed that some surcharges were in error (late fee & payment denial) and would be waived. The representative confirmed that autopay was active and the account in good standing if we made a one time payment of \$5 then. Please note when referring to Grande's posted Customer Rights Notice that the maximum late fee allotment is a one-time \$5 charge.

On 6/12/20 service was turned off without notice. When I contacted Grande I was told autopay was not active on my account, and that my rate had gone up because "a promotion expired". As a result, I had missed a payment and my total surcharges were now \$204.94. The representative I spoke with on 6/12 actually told me she was sending me to collections for this bill, which is definitely an abuse of customer rights and not how collections work. It speaks volumes to how Grande has chosen to present themselves as a company during this pandemic. Considering that my original service charge is supposed to be \$35, this is exorbitant. Considering we are in a pandemic that is creating economic hardships for everyone, this seems like particularly predatory price gauging.

Desired Outcome

1. An adjustment of current account charges to \$101.70 which includes all service and equipment charges, as well as normal monthly fees, at my March 2020 rate for the two months of service during which Autopay was disabled. 2. A prorated credit to my following month of service to reflect days of lost service. 3. A notification AND EXPLANATION of any rate changes at least one month in advanced of proposed changes.

Ticket: # 4027175 - Constant issues

Date: 6/14/2020 4:40:05 PM

City/State/Zip: Fort Myers, Florida 33901

Company Complaining About: Comcast

Description

I noticed that my service (triple play) was changed without my knowledge in May 2020. My channel lineup was changed to 40 channels with 15 HD channels. I was unable to watch any local tv channels. I contacted Comcast only to go in circles with the automated system they have. It kept disconnected my calls or sending me text messages, it would allow me to speak with an agent (this went on for a week). Once I finally got through to an agent (after 45 minutes of dealing with the automated system), I had to deal with a person who was overseas that REFUSED to transfer me to the retention department and also REFUSED to send me to their supervisor. They mute the phone, put me on hold (with music), get me back on the line and do the refusals all over again. June 1st I was finally able to get my account "fixed" but my bill was \$20 more than it was before the switch. June 10, 2020 I called to speak with an agent, only to be frustrated with the automated system AGAIN. I texted Comcast and asked to speak with an agent in retention, I was told that I was speaking with someone in the department regarding billing. I wanted retention. I ended up texting with an agent named Amit who not only changed my entire account, I lost my premium channels, I lost ID channel, and the number for my landline was changed. I called Comcast again June 11 and spoke with someone from the "retention" department and was told there was nothing they can do. I have had service with them for many years. I have never had this much trouble before. I called again June 12th and was told the same exact thing, "the agent should have been honest with you and told you that you would be losing channels. There is nothing that can be done at this point." Ever since the pandemic has occurred and the agents are working from home, they are doing what they want to do to people's account without their knowledge and lying to people about everything else. I am very unhappy with Comcast at this point. I am paying \$180 a month for triple play and I lost my premium channels (Epic, Starz), ID and my landline was changed (I didn't ask for a new home phone number). This costs too much not have anything and not be happy with the service!

Ticket: # 4027241 - Regarding Suddenlink in San Angelo, Texas

Date: 6/14/2020 6:39:58 PM

City/State/Zip: San Angelo, Texas 76905

Company Complaining About: Sudden Link

Description

I have moved to Japan with the military last month so I called them May 12th, 2020 and cancelled my service and mailed my router in I rented. 6 days later on May 18 I was charged for another month of service. After hours of calling and recalling their tech support, because billing send you in an endless loop with a message about the Corona virus, I found someone to help me and promised the money would be put back on the debit card it was taken from in 10 days or less. It's been about a month since then and nothing has happened.

In August of 2019 my service was down for 8 days and I was promised by someone in the local office they would pro-rate my next bill, which also never happened.

Ticket: # 4027256 - Terrible, Terrible, Terrible internet.

Date: 6/14/2020 7:16:03 PM

City/State/Zip: Brooklyn, New York 11232

Company Complaining About: Spectrum

Description

Spectrum, formally Time Warner, provides terrible internet. The speeds are never what they advertise and my service goes down about 5 times a day. I didn't realize how bad it was until I started working from home during the pandemic. I call about 5 times a day to inquire what is wrong. I get different answers every time. Almost like they know they have sub par service and are trying to hold together their infrastructure with duct tape and toothpicks and hope no one notices. Yesterday they told me a node had a problem which caused an outage in a five block radius that included my block. That resulted in having no upload speeds for 24 hours. We had mediocre download speeds but it's the upload speeds I need for my business. Customer service is good when you can get a helpful person but they are never local. In addition to excuses, their lines are not maintained. I live two blocks from Spectrum and can look out my backyard to see what can only be described as a rats nest of cables that the poor service person they sent out sighed at the sight of. They don't maintain lines and services and are one of the only affordable games in town at the moment in my zip code (11232). Verizon is the other option but can only offer DSL. We were promised fiber by both Verizon and Spectrum and are left with sub par service. Please please please hold them accountable and press them to update and service their lines BEFORE nodes crash or in my case, wires become tangled and service is so poor, it shouldn't be described as an isp.

Ticket: # 4027306 - Unreliable internet connection

Date: 6/14/2020 8:23:57 PM

City/State/Zip: Jacksonville, Arkansas 72076

Company Complaining About: Sudden Link

Description

Our internet drops out several times a day, some times 10 or more times. This has been happening for several weeks and we have contacted Suddenlink over and over about it. Each time they claim the issue is something different and "fix" that, but we still have the same problem. I need reliable internet as I am working from home due to covid-19.

[Ticket: # 4027364 - Pay for no internet service](#)

Date: 6/14/2020 10:18:09 PM

City/State/Zip: Mounds, Oklahoma 74047

Company Complaining About: Tds

Description

We have always had poor internet service pretty much from day 1. They are over capacity and don't care. With COVID-19 we have no service. We continue to pay non-existent service.

Ticket: # 4027370 - OPTIMUM IS TAKING MY MONEY AND NOT GIVING SERVICE

Date: 6/14/2020 10:32:43 PM

City/State/Zip: Edison, New Jersey 08817

Company Complaining About: Optimum

Description

I have had optimum internet since March 2019 and never had a problem. The night of Sunday June 7, it goes out. We get an email. Comes back a few hours later. We get an email in the morning that service was restored. Now, a week later, EVERY DAY, the internet goes in and out every few minutes. We cannot work from home (and there is nowhere to go because of the pandemic). We cannot do research for our jobs. We cannot even order things on amazon or pay bills. Some websites are not mobile phone friendly. Every time I have called Optimum (it has been 3 now), I am either on hold for over 45 minutes or have opted to be called back in the same amount of time and never gotten a call back. They WILL NOT schedule a technician to come (they keep trying to do things remotely), and they WILL NOT give us any type of credit on our bill. We can't get through the online chat either. We have not had reliable internet for a week now, and we're STILL EXPECTED to pay our full bill on the 22nd of this month of June. They are making us pay for a service we can't even use. It has been a week. How much more will we not be able to use the internet? They are a scam stealing people's money right now.

Ticket: # 4027392 - Number Portability Issue

Date: 6/14/2020 11:33:51 PM

City/State/Zip: Ashland, Virginia 23005

Company Complaining About: Unreal Mobile

Description

Unreal mobile never informed me that it will be changing my cellphone number to a landline, also never informed me that they will be offering me a Voice Over IP service.

Unreal mobile never informed that my initial price will be raised by 29.9% and proceeded to charge my credit card on file without my authorization; and, when I called to inquire I was told that they have the full right to collect service fees without informing me; which I informed them that I did not and will not approve of.

I started the process of porting out my number from Unreal mobile on May 4th 2020; only to find out that Unreal Mobile refuses to release my number to my new service provider under the pretext that it takes weeks at a time to get the process underway. I waited for two weeks along with my new carrier Straight Talk that documented the entire ordeal.

I have been faced with income loss because of the COVID19 pandemic, and being unable to have a reliable means of communication made my situation even more precarious and compounded my losses by preventing me from getting a new source of income. Also made it very dangerous for I wasn't able to communicate with the outside world.

Please help me and help everybody else that's stuck in my situation and unable to file a complaint such as mine.

Ticket: # 4027393 - Fraudulent cellphone sales

Date: 6/14/2020 11:39:14 PM

Company Complaining About: Truconnect

Description

On 6/2/20 I placed a prepaid phone order to truconnect. They promised me same day shipping and 3-5 day delivery. Within 48 hours my existing phone was deactivated prior to receipt of my new phone. After several unsuccessful attempts to resolve this matter with customer service I still as of 6/14/20 have not received my prepaid new phone nor have I been able to get my existing phone reactivated. I am a 65 year old combat wounded, disabled, and decorated Veteran who is living in a SNF nursing home. Due to COVID we are not allowed visitors or outside contact except with our cell phones. As of today 6/14/20 with no new phone yet I am completely isolated from outside contact.

Ticket: # 4027476 - billing

Date: 6/15/2020 7:55:11 AM

City/State/Zip: Sanantonio, Texas 78244

Company Complaining About: AT&T

Description

Im being billed in excess of what I was agreed to in my home. Rep said my monthly bill would be \$175 monthly. 1st bill was \$500 & I called Rep and he said he would take care of it, with his Supervisor. a month later COVID happened and he said to wait but he was still working with Supervisor. A month later he said he is working on it with his Supervisor & to pay something. Months later, issue not resolved & bill is \$1700+ and phone was disconnected, called and was told the issue would be resolved, phone connected temporarily & I should hear from ATT rep tp resolve my bill. That was 7 working days ago. I've rec'd another bill and issue not resolved. Rep gave my 4-promotional VISAs, that don't work to pay for the phone I gave him, to pay Sprint. So I also have a bill from Sprint for their phones for \$750. Resolution - Correct my bill to reflect the agreed upon amount & provide the promised 4-VISAs or cancel my service and return my phones.

Ticket: # 4027545 - Issue with Frontier Communications Billing

Date: 6/15/2020 9:28:59 AM

City/State/Zip: Tampa, Florida 33612

Company Complaining About: Frontier Communications

Description

I attempted to get wifi services via Frontier Communications on April 6th, 2020. Due to the COVID-19 pandemic, Frontier Communications told me AFTER SETTING UP MY BILLING INFORMATION they could NOT install my wifi equipment because they could not enter my premise and my apartment is not serviceable by Frontier because it lacks the proper install set-up. Therefore, I attempted to cancel my account and services with them. They continue to send me bills for the wifi services I am not receiving. I do not want to pay bills for services I am not receiving and I do not want my lack of paying these bills to affect my credit score. I would like all bills to be DROPPED and my Frontier account CANCELLED. I am not liable to pay a bill for internet I am not receiving.

Ticket: # 4027632 - StarLink Access

Date: 6/15/2020 10:15:17 AM

City/State/Zip: Durango, Colorado 81303

Company Complaining About: Verizon Wireless

Description

(b) (6) is not serviced by any internet provider. I have signed up for StarLink and want the FCC to do all you can to support this solution. We need something and the latency of current satellite systems is too slow for working remotely so we are stuck on cell phones during the pandemic. Really sad when the USA paid a lot for everyone to have access to the telecoms and they never provided us any new service. Our phone lines are still on telegraph polls.

City/State/Zip: Kingston, New York 12401

Company Complaining About: Spectrum

Description

SPECTRUM IS REFUSING TO MAIL ME A REPLACEMENT MODEM, WHILE CHARGING ME A RENTAL FEE FOR A FAULTY MODEM. I HAVE BEEN ON THE PHONE WITH THEM FOR DAYS TRYING TO GET THE ISSUE FIXED AND THEY ARE TELLING ME NOW I HAVE TO RISK MY GRANDMOTHER BEING EXPOSED TO COVID WITH EMPHASEMA AND COPD, BECAUSE THEY SEE THE MODEM IS WORKING FROM THEIR END BUT NOT FROM MY END. ON MY APP IT SHOWS THE MODEM IS DISCONNECTED AND THEY SAY ON THEIR END IT SHOWS CONNECTED. THEY ARE CHARGING ME FOR EQUIPMENT THAT IS FAULTY AND REFUSE TO MAIL ME A REPLACEMENT. THEREFORE THEY ARE CHARGING ME FOR SERVICE I CANNOT ACCESS.

Ticket: # 4028201 - Make McClanahan Cable Inc provide internet or allow Spectrum provide it

Date: 6/15/2020 1:12:47 PM

City/State/Zip: Grundy, Virginia 24614

Company Complaining About: Mcclanahan Cable Inc

Description

McClanahan Cable Inc is a very small company in Buchanan County that has franchise rights within our community and does not provide internet or phone services, nor do they ever plan on it. Internet access is an essential service in this time, especially due to the recent Covid-19 pandemic. Spectrum, our local internet provider is ready and willing to provide us with essential internet services but cannot due to this company not willing to allow them to. They have tried to come up with agreements and have not been successful in the last decade. I'm writing this as a last resort, and hopeful to see an impact. We have started a petition within our community and have gotten many signatures. (Attached you will find some more info on her company, it is a very small company so there is not much information on it). Please make her comply by providing us with access to internet or to allow Spectrum to provide us with it.

Ticket: # 4028256 - xfinity cable internet outages everyday since June 8 2020

Date: 6/15/2020 1:27:34 PM

City/State/Zip: Buffalo Grove, Illinois 60089

Company Complaining About: Comcast

Description

Hello FCC Team, Since June 8th every day we are experiencing the Xfinity Comcast internet outages.

2. Have your report number ready.

We are trying to plan our lives for rest of the month during this pandemic. Our request is ti Xfinity Comcast

3. Add more details to your report.

team, let us know if the issue will be resolved permanently. That way we can move to our other home until Comcast figures out technical issues.

Complaint Summary

Complaint Type: Consumer to Business Complaint

Nature of complaint: Product Issues

Problem description:

I've had two techs out in the last two days. One just left and closed the ticket saying the issue was fixed knowing it wasn't on the phone again. My husband has a remote presentation for work at noon and I can't access the files I need. Still on hold. Look at the TIME I've spent on my 3rd call today! As a high risk for COVID-19 I need to work from home and cannot perform my job even paying for 1G service. I either lose \$480 a day or expose myself to a deadly virus.

Desired Resolution: Other (requires explanation)

Desired Outcome

Provided WOW can't provide the services as advertised and I've lost a day of work and many hours previously due to their inability to provide services I want my daily salary of 53/hr scheduled for 9 hrs daily to compensate for lost wages and personal suffering from lack of credibility and having to work into the morning to recover of and when service is restored. Current damages are at \$477 for one day off work.

Ticket: # 4028413 - Internet Service**Date:** 6/15/2020 2:08:49 PM**City/State/Zip:** Cochran, Georgia 31014**Company Complaining About:** AT&T

Description

I have requested internet service from ATT starting over ten years ago when I was told service wasn't available, but was put on an availability waiting list. About a year ago I learned about fixed wireless internet. I requested the fixed wireless service twice from ATT. Both times the tech said there wasn't a signal but said to try again every month or so. Today I called AT&T and after playing phone tag I spoke to someone with the fixed Wireless Internet. The person confirmed my neighbors service but said I couldn't get it because of COVID, then put blame on the FCC when I stated my neighbor just got the service last week. How can my neighbor in a rental house get the service in one try and I can't get service at all?

Ticket: # 4028465 - Charging for services after a request for a hold(corona virus)

Date: 6/15/2020 2:19:16 PM

City/State/Zip: Union City, New Jersey 07087

Company Complaining About: Optimum

Description

Knowing I would not need internet services, I called to request a hold. Was told not a problem. I returned to the address 2 months later to find the bills were still charging service. I spoke to the 1st Rep and she told me what balance I need to pay and that the 2 months of service would be credited. Just like the hold, the credit never happened and after speaking to 4 Reps and 2 supervisors all they tell me is that I owe the 2 months of service. (even though there was no usage)

Ticket: # 4028482 - Keep America Connected

Date: 6/15/2020 2:22:19 PM

City/State/Zip: Los Angeles, California 90046

Company Complaining About: AT&T

Description

AT&T has turned off her service during the Covid 19 Pandemic

She thought they signed the pledge to keep America Connected.

Her service was shut off Friday the 12th. She did not have the money. She thought they would make arrangements with her. When she called they said they didn't know anything about the Keep America Connected Pledge. They said they could not help her and she was going to have a reconnection fee. She is a senior and lives on 1 check. She would like her service turned back on with arrangements to pay off her bill.

Ticket: # 4028493 - Misleading clients causing time and money. Please HELP!

Date: 6/15/2020 2:24:59 PM

City/State/Zip: Naples, Florida 34120

Company Complaining About: Comcast

Description

One of their agent sold me a phone. I call next morning and requested to exchange it. The agent said I have to wait till the stores reopens. So I did. Due to COVID19, they extended their opening date. Now they are saying it's passed their return or exchange policy. I have all the emails and proofs that I did what I was advised to do. Nowhere in the email No one is replying to my email.

Ticket: # 4028833 - Excessive charges for services never provided by Verizon

Date: 6/15/2020 4:07:06 PM

City/State/Zip: Astoria, New York 11102

Company Complaining About: Verizon

Description

1. On 15 February I moved to a new apartment, which is located in an areas not serviced by Verizon FIOS.
2. Before moving, I visited two nearby Verizon stores to cancel the services and return the equipment. In both cases I was referred to a distant store in College Point.
3. In late February, I was finally able to visit that distant store with the only objective of cancelling my service and returning the equipment. However, my request was not processed since that was a "request number" (some code) that was missing. I was told that without that code, no returns / cancellations could be made and my request was not processed.
4. In early March, while already working from home due to Covid, I called Verizon in an effort to get the serviced cancelled, for the forth time (2 retail stores, plus the distant store). Apparently, only on that date, the service was interrupted.
5. By then more than a month had passed since my original request and, despite no services had been used, the bill continued to be issued and sent to the old address.
6. During the call, I was informed that I had 30 days to return the equipment.
7. A few days later, In response to an automated call from Verizon, I informed that I was unable to return the equipment due to Covid-19 and the restricted working hours of the distant store.
8. Verizon continued to issue invoices and charging fees for the non-payment of services and non-return of the equipment. Those fees and invoices were sent to the old address, which was vacated in early February.
9. After more than 3 months of efforts, I was able to finally return the equipment, but was charged with more than \$600 USD of services never provided and fees.
10. I tried a few times to resolve this with Verizon, but Verizon refuses to waive any of the costs, and only indicates that, once the equipment is received, a partial refund may be issued.
11. I hope you can liaise with Verizon, validate the events described above and, if you consider the above behavior abusive, request that Verizon reimburse the client of all costs incurred beyond 15 February (invoices were never received, equipment could not have been returned and charges for services not provided should not have been billed).
12. Thank you in advance for your consideration.

Ticket: # 4029008 - Re: [FCC Complaints] Re: Re: [FCC Complaints] Re: Issues with TV and Internet and extender and can not get help.

Date: 6/15/2020 4:45:28 PM

City/State/Zip: Antioch, California 94531

Company Complaining About: AT&T

Description

This is a follow-up to your previous request (b) (6) "Re: [FCC Complaints] Re: Is..."

I have not been able to respond but I still need get this resolved and I am not satisfied with ATT resolution. Att sent multiple techs to try to fix my cable and internet but they were not able to. Due to Covid and safety for my family, and ATT sending techs to my house but not fixing the issue, I decided at that time that I did not want to expose my family anymore. . See the pic of the electrical safety issue left by the last ATT Tech. However, the issues have gotten worse, my DVRs don't work, I can't rewind my TV's or record my bill has increased, I received a notice to return equipment that Att added to my account that I never had which is going to cause issues to my credit and my account was not credited for the proper amount to resolve the last issue.

I am reaching out to get ALL of these issues resolved by ATT including my service, billing and equipment and get a technician that is knowledgeable and qualified the first time to get my service working properly. . Please assist me to finally get a proper resolution. Thank you, Priscilla Nevarez

Ticket: # 4029068 - billing

Date: 6/15/2020 5:02:52 PM

City/State/Zip: Portland, Oregon 97280

Company Complaining About: AT&T

Description

I have been furloughed since March 1, 2020 due to Covid19 shelter in place order in Oregon, Multnomah County. I have exhausted all my savings with no timetable for returning to work. My employer calls me to notify of possible work and AT&T wants to cut off my service therefore my employer will have no way to contact me.

AT&T wants the past due amount or service will be stopped. I'm one of the 40 million people currently unemployed. In Oregon the Governor has ruled that no utility, gas, electricity, water cannot be disconnected due to the virus impact. The governor is considering the same for phone service, but has not issued a statement.

I have exhausted all my savings and have only funds for rent, food and medicines. To make a \$45.00 dollar payment means no food or medications for two days. This is heartless and cruel as my situation, through no fault of my own. AT&T needs to be severely chastised for not assisting their customers in light of the state shutdown due to Covid19.

Ticket: # 4029136 - Phone Equipment Issues**Date:** 6/15/2020 5:30:00 PM**City/State/Zip:** Washington, District Of Columbia 20017**Company Complaining About:** Sprint

Description

Her friend has Sprint for cell phone service. He went to Sprint store. She had to drive twice with the pandemic and they wanted her to come back again. They wanted to send her to 2 other stores. The reps in the store were very immature and not helpful. He was sent 2 phones. The phone was damaged in the store and they did not acknowledge this. They wanted to sell him a \$50.00 screen protector. Tech Support went to Mgr Marcus in the store. They wanted her to bring back the box the phone it came in. A brand new phone was not available in the store. They were made to come back to the store to find out phone was not available. If they were told this they would not have wasted an entire afternoon. They had gone back to DC to get box and went back to Store in Silver Springs, They were told there was not a new phone. She made a fuss in the store about wasting her gas and time and why didn't they check before they left the store. Sprint called Saturday evening and kept him on the phone for hours. They wanted him to pay a damage fee. Sprint needs to provide a new phone and a formal apology. They should provide a free screen protector

Ticket: # 4029170 - Formal Complaint against Qlink**Date:** 6/15/2020 5:45:11 PM**City/State/Zip:** Louisville, Kentucky 40220**Company Complaining About:** Qlink Wireless

Description

My son is a Black disabled adult customer of Qlink for LifeLine cell phone services living alone in Atlanta.

Not only did Q Link Wireless wrongfully suspend his wireless telephone services while we were submitting annual eligibility documentation (according to LifeLine Support), they also have refused to send him a replacement phone or advise us when we can expect shipment of the requested and paid for replacement phone (paid on May 29th). Their shameful customer service line has no opportunity for a customer to reach a live agent for help (it is stuck in some poorly designed recorded message loop) and my son is left without service during this global medical pandemic. You cannot imagine the stress of him not having telephone service experienced by his family or health care support team during this time of racial unrest in the city of Atlanta. I have sent several emails and called countless times to resolve this issue with no joy. Whatever you can do is much needed and will be greatly appreciated.

Ticket: # 4029495 - Comcast failing to provide advertised upload speed

Date: 6/15/2020 8:30:13 PM

City/State/Zip: San Francisco, California 94131

Company Complaining About: Comcast

Description

I pay for 5Mbps upload speed. Since March 2020, upload speed has been highly variable, and frequently less than 2.5Mbps, usually during the working day when it's most needed. I have tried resets, etc. and confirmed with reps that modem signals are good. Also tried with modem plugged directly into the point-of-entry cable, and PC hardwired to the modem. Repeated chats/calls with comcast reps have gone nowhere. Escalations have been ignored. Since the signalling seems fine, and my download speeds are also good, my assumption is that comcast have underprovisioned, (or oversubscribed), their upload bandwidth, not taking increased usage due to covid-19 into account, but I cannot get beyond their first-level support to get more info on possible causes or remedies.

Company Complaining About: T Mobile

Description

The whole day on Monday 6.15.2020 there was no service on my 3 lines and these issues have been going since Covid19 - March 2020 with no accountability whatsoever from TMobile. Their customer service is really nasty and when you complain about their service, they try their best to make it a personal issue but they do collect in full on the credit card every month.-I want restitution as bill credits to say the least and I would like the FCC to take a look at how they conduct their business (reliability) dealings with their customers.

Ticket: # 4029613 - Intermittent internet and phone

Date: 6/15/2020 9:38:59 PM

City/State/Zip: Mohave Valley, Arizona 86440

Company Complaining About: Sudden Link

Description

Starting in March 2020 amid all the covid issues our internet and phone started disconnecting several times a day. Called Suddenlink and was put on hold for over 30 mins and then they hung up on me. Called back and asked for scheduled call....never called me back. We continued to deal with the awful connection and no phone for another month. In that time our account was and still is current..their office closed here locally in Bullhead City Az. 3 weeks ago we started contacting them again....they sent a tech that pulled a splitter off their outside line and called it good. They charged us 80 dollars and we still had no internet or phone. Called the next day and they sent 2 more techs out a week later that brought used equipment and cut away all our cables they didn't think we needed. An hour after they left the internet was out again. We reboot 12-20 times a day. Tonight I called them again to no avail...sat on hold for 33.09 mins just to be hung up on again. They just need to fix it their issue without charging me again and credit for all the days I've had little to no service.

Ticket: # 4029690 - No access to phone calls or texts for hours

Date: 6/15/2020 10:58:33 PM

City/State/Zip: Fall River, Massachusetts 02723

Company Complaining About: Metropcs

Description

I have Metropcs and have been unable to make calls or texts for more than 10 hours. If we don't pay the bill they shut off our service, but they have no repercussion for leaving millions of people with no way of calling loved ones or conducting business or emergency services during a pandemic??
repercussion

Ticket: # 4029721 - T-Mobile and Metro by T-Mobile Violate FCC Pledge Not to Shut off Cell Phones Leaving Customers Stranded and Without a Lifeline

City/State/Zip: New York, New York 10035

Company Complaining About: Metropcs

Description

T-Mobile/Metro by T-Mobile signed the FCC's "Keep Americans Connected" pledge, promising not to shut off anyone's service during COvid-19 pandemic, at least, through June 30, 2020.

Despite their promise, they cut me off, which is not only a violation, but it's also egregious and obscene behavior, especially when they did it for ONE payment of \$30, which is \$1/day, or, in this case, \$5.

I spoke with almost 10 different T-Mobile/Metro by T-Mobile Customer Reps, Supervisors, and Mangers, on four different occasions, over 7 hours and they all absolutely refused to right their wrong. Our phones are our lifelines and I need my phone turned back on and it never should have been turned off to begin with. Thank you.

Ticket: # 4029750 - AT&T lied about COVID help

Date: 6/16/2020 12:23:26 AM

City/State/Zip: Katy, Texas 77450

Company Complaining About: AT&T

Description

AT&T said they would waive any data overage charges during the pandemic. They have chosen not to honor that since the charges were over an unstated threshold. I would like them to honor their promise. They need to turn back on my phone and waive the overage charges and reconnect fee.

Ticket: # 4029792 - slower than paid for internet, and disruptions...

Date: 6/16/2020 7:02:41 AM

City/State/Zip: Boonville, Missouri 65233

Company Complaining About: Sudden Link

Description

We are paying for 100 mbps speeds with Suddenlink at 214 E Ashley Road, Boonville, MO 65233. Currently this morning the speed I see on speed test is 7-8 mpbs. Last night it was 2-3 mbps. We've had the internet stop randomly completely multiple times over the last couple of weeks. It's getting extremely annoying having to reboot the modem almost daily just to stay online, and stay online at a speed far below what we are paying for. There is one port out on the modem (cannot connect any internet supported devices to it) and a technician is supposed to come and bring us a new modem today to fix that but this speed throttling has got to stop... Both my wife and I are currently working from home due to COVID-19 in call center customer service jobs that require use of a VPN. In order to successfully do our job we need our internet to be reliable and fast... Calls over the internet break up if speeds go below a certain point, which in turn results in quality ratings on calls going down, and in turn could cause us to lose our jobs or our employer to lose their contract with their clients.... This is an essential job since we work for a cafeteria plan that handles Flexible Spending Accounts for many government agencies across the nation. Please fix this problem ASAP.

Ticket: # 4029873 - Suddenlink Communications Complaint**Date:** 6/16/2020 9:02:26 AM**City/State/Zip:** Hurricane, West Virginia 25526**Company Complaining About:** Sudden Link

Description

Our internet and cable cords run underground and were accidentally dug up while extending our driveway. We called as soon as it happened 3 weeks ago to get a technician out and fix it. The earliest available appointment they had was 9 days after we called. When the appointment date came they did not come, or call that they weren't coming that day. I had taken off work to meet them there. I am working from home right now due to COVID19 and having to work else where for the time being since I don't have internet. I called and asked when the technician was going to arrive, and was told they moved my appointment to the next day. They didn't even notify us of the change! I had taken a day of leave from my job, then my husband took a day of leave the next day to meet the technician. Guess what, they didn't show AGAIN. Or call and notify us. After calling and asking what's up, they assured us someone would be there over the weekend but couldn't narrow down a day or time. So we stayed at the house by the phone all weekend to assure we didn't miss them. I'm sure you can guess at this point what happened next, NO SHOW/NO CALL AGAIN!!!! When you call and ask to talk to someone else, or a supervisor you're told they cannot let you talk to someone else. Monday 6/15 we're told we will have a technician this afternoon. At about lunch time I call just to confirm. Can you blame me? This guy tells me he can't give me any information or update because I can't verify my account because my husbands name is the only name on the account. I had given him the account number and pin and he still wouldn't tell me anything. My question is, why has every other "customer service" rep (if you could even call it customer service) been able to give me information on this matter?! So now today, Tuesday 6/16 they say a technician is coming today between 8AM-8PM but we are not getting our hopes up on that. We don't know what to do at this point. How can a company lie to their customers over and over? How is this legal? There is no consistency with whoever answers the phone, one person told us yesterday that a technician will be here today (6/16) and the next time we called the person told us there isn't a technician available until Monday (6/22)! We haven't had cable or internet since June 2nd, and when we tell them we don't feel we should pay our bill for this month (seeing how we haven't had cable or internet at all) they say they can't do that and we must pay even though they can't provide their services this whole month so far. I have filed a complaint with the public service commission in my state and now filing with FCC. This is absolutely unacceptable and we need answers. I can't even work from home like I am supposed to do right now, because we don't have internet. This has caused a huge inconvenience to our family.

Ticket: # 4029892 - Comcast charging too much

Date: 6/16/2020 9:09:19 AM

City/State/Zip: Warrenton, Virginia 20187

Company Complaining About: Comcast

Description

I have been overcharged every month since December 2019. I keep getting charged for 2 months, plus they charged me a reactivation fee in December, when I spoke to someone who had record of my payment, and there was an issue with there system. I have my bank statements proving my payments. They are still continuing to charge me double, and also saying if I do not pay the whole amount, they will shut off my service, which includes my internet. I need the services for work, and for my son. If I had the option, I would chose Verizon, however they are not in our area as of now. I am very frustrated and upset they are continuing to do this, plus add on late fees, which a few times I was not late, and the late fees keep increasing, and are not a set rate, which does not make sense to me. I am a single mother, who works part time, and with the COVID situation, they said they are helping people and are being understanding, however they have not done anything like that. They need to know that they cannot continue to treat people like this and take advantage and just try to keep adding charges and getting more money.

Ticket: # 4029898 - Radio Station Promoting Protest

Date: 6/16/2020 9:17:24 AM

City/State/Zip: Carmichael, California 95608

Company Complaining About: Kzzo 100.5 The Zone

Description

Hello - I filed a complaint last week and have had no response from you regarding radio station KZZO in Sacramento, CA, 100.5 The Zone.

The radio station was promoting a large protest during a spike in Covid-19 cases. We have been sheltered in place for the last two months and prohibited from having large gatherings. It is a dangerous risk to public health for the radio station to be promoting this activity and I would like them to be held accountable.

Ticket: # 4029991 - Re: Unfair / Deceptive / Fraudulent Practices -- Cox Communications

Date: 6/16/2020 10:00:00 AM

City/State/Zip: Southington, Connecticut 06489

Company Complaining About: Cox

Description

This is a follow-up to your previous request (b) (6) "Unfair / Deceptive / Fraudulent Practices -- Cox Communications"

After my complaint I was contacted by a Cox representative who assured me that the whole situation was a mistake and that the opportunity would be used to "re-train" the person who enrolled me in the more expensive internet package and sent me the unnecessary modem.

Unfortunately, this was not the end of the ordeal. On my next bill I noticed that I had an equipment charge for the new modem I had never needed in the first place. When I contacted Cox I was told that it was because (despite the Covid pandemic) I had not returned the new modem I had never needed quickly enough. I was told that once I returned the new modem the charge would be taken off my bill. I brought the modem to the UPS store to be shipped back the same day.

Despite this, the equipment charge continued to persist on my billing statement. After it being there for approximately 4 weeks--long after Cox should have received the returned modem--I called to inquire. The initial person I spoke with essentially doubled-down on this issue, telling me that the reason I was still being billed was because I sent back the wrong modem (the new one) when I should have sent back the old one and that is why I continued to be charged. She also demanded that I provide proof that the modem had been returned in order to have the charge removed from my bill. This was obviously something I did not have. Only after explaining that I had previously had to file an FCC complaint regarding this issue did the person transfer me to someone else who she said may be able to help me.

I explained the situation to the new person I spoke with. She was unable to do anything at the time we spoke, but stated she would fill out an "equipment research form" and that I should hear something in 3-5 business days. Meanwhile, Cox continues to show an overdue balance on my bill related to this modem and is now sending me emails saying my service will be discontinued unless I pay it.

In short, even though Cox claims that this situation has been resolved, it has only been resolved partially. I continue to be billed for the new modem that I returned weeks ago, and which I never needed in the first place and was sent only so I could be enrolled in a more expensive internet service.

Ticket: # 4030458 - Fwd: Re: [FCC Complaints] Re: T-Mobile Prepaid

> Subject: Fwd: Re: [FCC Complaints] Re: T-Mobile Prepaid

> To: FCC <consumercomplaints@fcc.gov>

> Cc:

>

> Dear FCC Team,

>

> The matter remains unresolved.

>

> In phone conversations on April 21 and 22, Ms. Guerra and her supervisor Mr. Chavez cynically requested me to violate lock-down orders, put my health at risk, and visit offices that are currently closed due to COVID19 as a precondition for maintaining phone and internet service. Both emphasized the earlier suggestion by a member of their team that I should consider getting a different mobile phone provider. (I am a prepaid customer of almost ten years.) Unfortunately, Ms. Guerra's account of the matter is not truthful, as she and her supervisor communicated that they had access to records of the issue dating back to 2018, as well as multiple FCC complaints I filed. The content of past phone conversations with T-Mobile, albeit all recorded, was misrepresented. The fact that I may lose all phone and internet service by Thursday 4/23 was fine with them. This stands in stark contrast with T-Mobile's public emergency statement: "Keeping you connected is a top priority."

>

> (b) (6) declined to receive documentation of earlier multiple holds placed on multiple accounts by T-Mobile, saying he had seen them already or an investigation would not yield any results today. It was also insinuated in the conversations that I was looking for free service, that my bank account might not have sufficient funds and, as in this letter and conversations with reps, that they needed to see my bank statements, have a three-way call with my bank, or know how much money I have on the account. He also denied that my account had already been closed down, as the clerk showed me on her iPad in the T-Mobile store prior to the lockdown.

>

> As agreed with Ms. Guerra, I made another payment attempt to T-Mobile, this time via bank bill payment, on April 22. The same supervisor was supposed to contact me on April 30 to confirm receipt of the payment, but did not. After hours on hold with my bank due to COVID19, I provided Transaction IDs of several most recent holds T-Mobile placed on my bank account on two different days. My bank informed me that T-Mobile's verification system appears to be flawed.

>

> As of today, May 15, I am still waiting for a call from Jessica Guerra's supervisor with a resolution. He said he was not yet ready to have a phone conversation and provide feedback from the engineers. He did not confirm receipt of the bank's check either, which T-Mobile received on April 28 according to my bank, but which has not yet been submitted for payment. I am concerned about again losing vital phone service, now during lockdown, due to T-Mobile's unwillingness and/or inability to process any form of payment. The next payment cycle is scheduled to start on May 23.

Ticket: # 4030515 - I think the car warranty fake calls have spoofed my phone.

Date: 6/16/2020 12:33:13 PM

City/State/Zip: Lorain, Ohio 44052

Company Complaining About: The Warranty Center

Description

I continually get telemarketing calls from "the warranty dept" and also "cardmember services" both of which are scams I know that nobody will do anything about. However, it appears they are using my number somehow to call other people as I got a guy that called me back actually. I told him I didn't know what he was talking about and he said he is getting calls from "ohio line" and so he redialed it and got me. I thought our Governor, Mike Dewine was working with you to stop these calls. I work in healthcare and throughout this covid crisis I need to answer my phone running a home care agency and I can't begin to tell you how frustrating it is to have a telemarketer calling, particularly the same two all the time. I have blocked every number they call on but they keep finding more.

Ticket: # 4030563 - Spotty Internet

Company Complaining About: Gtt Communications, Inc

Description

Our internet service was disconnected due to non-payment. We did get in touch with our internet service provider to arrange payment or get an extension because our business experience difficulties due to COVID-19. Our provider refused to do so. Service wasn't restored even after we paid more than half of our outstanding balance.

Ticket: # 4030724 - Interference

Date: 6/16/2020 1:20:19 PM

City/State/Zip: Tallahassee, Florida 32308

Company Complaining About: Straight Talk

Description

I am following up with a previous complaint of the Florida Department of Highway Safety and Motor Vehicles. During this pandemic the building has been minimally manned and there has been no issues with any signal to my wireless device. A few of the supervisors have been approved to return to the building and all of sudden I cannot send a simple text message to any one or make a phone call without having to walk out to my vehicle.

Ticket: # 4030847 - AT&T

Date: 6/16/2020 1:48:17 PM

City/State/Zip: Pilot Point, Texas 76258

Company Complaining About: AT&T

Description

Please don't just read and ignore this. I am completely fed up with the way AT&T is allowed to operate. I have been a customer with them for a very long time and over the last couple of years it has gotten out of control. Its either service doesn't work the way it is supposed to, they add charges to your account that you did not approve such as international calling . Yet there is absolutely no reason to add it nor ever been an international call made on my service. Now it has been billing issue after issue. With the whole COVID thing going on life is pretty hard for thousands of people. AT&T offered to work with people and help them. Me being one of those. I set up a payment arrangement and kept my word, yet today my phone is off. I have been on the phone since 8:05 AM on June 16th 2020 being transferred to at least 10 different departments and representatives to still at 12:30 no phone service. I have been recording every phone conversation I have had with AT&T for the last year because of all the issues I have had with them. So just today alone I have at least 6 different representatives stating it is their mistake that my phone is off right now and has been for over 4 hours now. Yet no one can get it back on. I have been told so many different stories that I cant even keep up, thank goodness its all recorded. I have been promised at least 6 times that my phone will be on in 15 to 30 minutes. Yet 4 hours later no phone. I was told this morning by a representative in which I also have every name and ID# of each representative I have spoken with along with the recording that he not only restored my service but he also gave me an extension on my past due bill to the date of July 24th 2020. Well guess what that too is a lie, since my phone is still not on I have had to call again only to find out he did not make no such arrangement. I have him 3 times confirming the date and assuring me it was done. I have no phone and no reason not to have a phone on and continue to be lied to. I own a telecommunication company and we actually install AT&T antennas and radios on cell sites, I also know that FCC can charge AT&T if a site goes down and customers are not able to use it. We have had to work late hours to insure service is up and running to prevent that from happening. And if FCC does charge that to AT&T the cost is then placed upon the contractor doing the work. All of this is completely unacceptable if the FCC doesn't have the customers of AT&T best interest. I as a customer of AT&T should not have to be ok with being lied to, mislead by their lies and suffer because they cant do what they say they are doing. I now have lost not only 4 hours of service but I also have lost 4 hours of business. Now we are talking about my income, AT&T income is not more important than mine or anyone else's. Yet they are allowed to get by with this time and time again. Why is this? I have decided that I am done with this and I am taking all my recordings of lies and unprofessionalism and all representatives names and ID's to the media. I know there are thousands of people that are as fed up as I am. They can not continue to charge the rates they charge and give the lies and service they give. No one makes the do what's right , that only happens when someone's pockets are getting lined. No one cares that ordinary people like me suffer because of it. That is until now, with the world being what it is now people do care, when all these big corporate companies keep getting richer and the rest are not making it and all we get is lied to. The world does care now and will listen, especially when everything is documented the way I have it. I mean actual voice recordings of over 10 AT&T representatives not being either trained or just flat out lying at the cost of me. This has to end and I will most definitely not stop until it does. Please help get

this resolved so not only I can have the service I pay dearly for but so that thousands of people can as well. Thank you !

Ticket: # 4030883 - No High Speed Internet in my area**Date:** 6/16/2020 1:59:10 PM**City/State/Zip:** Tucson, Arizona 85756**Company Complaining About:** Cox

Description

Hello my name is (b) (6) I am writing this because I have lived at my address for three decades. My area is rural and poor which I believe is the reason we do not have high speed internet when the town up the street Sahuarita and Green Valley have high speed internet as well as the Desert Diamond Casino. I have no idea why my community/are and I are passed by. We have many students in my area that go to Sunnyside School District and the district has to provide mobile hotspots for them to do their work. With the Corona Virus and schools maybe being closed in August this is very needed! Please help us so the kids can have somewhat even playpen field with their peers that have access to high speed internet. We do have access to Hughes Satellite internet but it is not conducive for anything. I have being using my hotspot on my phone to have zoom meetings with my students when school was in session. My mom has called the inter net providers when I was a child about high speed internet as I have and they do not give a descent reason as to why or when they would ever get high speed internet access out there.

Ticket: # 4031140 - Service, Billing & Equipment - Optimum

Date: 6/16/2020 2:50:17 PM

City/State/Zip: Lake Hiawatha, New Jersey 07034

Company Complaining About: Optimum

Description

I have been trying for well over a month to get a hold of someone who can assist with various issues concerning my Optimum services. I have a bundle plan with internet, cable and telephone.

- 1) I need to cancel 3 of the 4 cable boxes that I have and cannot get in touch with a representative by phone to do so. They can cancel these by phone and while I know I will need to physically bring them in to their store, I cannot even speak to anyone to inquire what kind of safety precautions they are taking due to the pandemic or what the average wait time is (I need to be working at home ...)
- 2) I consistently have spotty internet so I wish to inquire about that -- but yet again -- cannot get a hold of anyone -- the automated attendant keeps customers in an endless, hopeless loop, asking them to hold but no one ever answers. I am working from home as well as my children and we rely on decent internet service. You would think they would be socially responsible during this pandemic and provide better service to their customers.
- 3) Since I have bad wifi, I purchased a new modem and router for the other side of the house but I cannot activate the modem because I need to do so with them! Via their web site, I tried to either exchange their modem for my new one or to add the modem to no avail. On their web site, I just got to a dead end where they tell you to call for service.
- 4) I called for service several times and each time was clearly transferred overseas to reps who were of no assistance whatsoever. In fact, they tried to sell me additional services while I was on this 'false' hold. I was at one time told I was being transferred to a specialist who could help me activate my modem only to be transferred back to the original automated attendant. Very frustrating to say the least. Another time I was told someone would call me back the next day and I never did.
- 5) I wish to cancel my landline because it is no longer used and I cannot even do that -- either through their web site or via telephone. Because no person ever answers!

I wonder if they only have two people working in the entire company! Online social media posts are filled with extremely frustrated customers who are being denied services they are paying for. It is unfortunate that we do not have a choice in our area and must be subjected to this. We literally cannot get a hold of anyone who can provide useful assistance.

Can you please get someone in high-level management to address these serious concerns? Is there any way to have competing companies vie for our business and why are we only subjected to one service provider in our area??

Thank you for addressing these concerns.

Ticket: # 4031308 - Charged For Service that was never activated

Date: 6/16/2020 3:30:28 PM

City/State/Zip: Edgartown, Massachusetts 02539

Company Complaining About: Verizon

Description

I have no dial tone at (b) (6). Due to COvid19 I was unable to contact Verizon to cancel service as there is no internet here and cell service is unreliable. They had very long hold times due to COVID 19. They continued to bill me even though the service doesn't work. I was finally able to call to cancel service on 06/16/2020. Verizon is now charging me for the full amount of service and threatening my credit.

Ticket: # 4031384 - AT&T 10 Line Cell Account

Date: 6/16/2020 3:46:27 PM

City/State/Zip: Orlando, Florida 32808

Company Complaining About: AT&T

Description

Despite coming to an agreed upon payment arrangement with AT&T to keep our services active with an agreed upon payment agreement on file. Our Service was disconnected on May 26.

My mother subsequently called AT&T directly from her job at which point she was instructed to pay the full outstanding balance of \$1,540.00, in order to restore our account. She complied with the request out of desperation in order to re-connect services.

This was not only embarrassing for all of us, but it has also caused a temporary undue hardship because those funds were needed for other essential expenses. This is why I was so proactive in trying to prevent this from happening. We were promised by AT&T's Office of the President that no interruptions would occur.

Because this account was paid in full and was NOT late as of March 13; the Keep America Connected Pledge is not being honored; this account was effected by COVID-19. Unfortunately, they didn't honor that promise and we suffered as a result.

They DID cut the services off to a 10 line cell phones and they asked for all of the \$1540 paid and that created a significant hardship.

Resolution the caller is seeking is he wants AT&T to HONOR the agreements that are promised. They are communicating and there are issues of the COVID-19 Keep America Connected Pledge.

Ticket: # 4031583 - AT&T Billing Issues/COVID-19

Date: 6/16/2020 4:39:09 PM

City/State/Zip: Frisco, Texas 75034

Company Complaining About: AT&T

Description

The complaint is against AT&T.

This is for bundle package.

She has been having billing problems with AT&T.

AT&T has increased her bill and they cut her service off.

But they signed the Pledge to Keep America Connected, which is still active as of 06/16/2020.

AT&T has sold her fiber service, but she only has cooper line service.

She is being charged for something she is not getting.

She tried to reach out to AT&T, through the internet and AT&T had a screen up saying excuse our dust, and it did not work.

She would like her service turned back on.

She would also like late fees and other charges removed from her account.

Ticket: # 4031607 - Failure to issue timely refund of major overpayment**Date:** 6/16/2020 4:46:54 PM**City/State/Zip:** Carpentersville, Illinois 60110**Company Complaining About:** Comcast

Description

On May 26, 2020, I accidentally sent an ACH payment of \$4061.00 to Comcast Xfinity instead of my credit card company. Comcast received it on May 27, 2020 and credited my account with this payment, using \$191 of it toward my current balance and leaving the remaining \$3,870 as a credit balance. When I realized my mistake a week later, on June 3, 2020, I contacted Comcast and was told by an agent that Comcast would not refund the credit for 15 days, however, I could submit proof from my bank of the finalized payment to waive the 15 days. I faxed Comcast the required paperwork on June 4, 2020. On June 10, 2020, the refund had not been processed so I called again. Another agent told me there was a ticket and that they would be processing my refund and that I should have in 3-5 business days. On June 15, 2020, the funds were still being held by Comcast so I called again. This time I spoke to an agent and to next level supervisors from another country. They said another ticket would need to be submitted as the other was closed with no action. I was told a refund would be done in 4-6 weeks, and then another supervisor said it would be 3-5 business days. My husband then contacted an agent at Comcast via social media who looked at our account on June 16, 2020 who told him that our refund would be coming in 15-21 business days. We don't know what to think and are getting the complete runaround by Comcast. Meanwhile, I am out almost \$4000 which meant I had to wipe out my savings to pay the credit card company I originally was attempting to pay, while I wait on Comcast. During a pandemic, not having a savings emergency fund is risky. Even if we get the money sooner rather than later, Comcast is not justified in holding on to excess funds that were received electronically. I need the FCC to hold Comcast accountable for this and hopefully provide compensation to us for the loss of use of our funds. Thank you.

Ticket: # 4031704 - unwanted phone call

Date: 6/16/2020 5:13:32 PM

City/State/Zip: Woodbine, Maryland 21797

Company Complaining About: Pnc Bank

Description

call supposedly from PNC Bank stating that due to Corona Virus they were offering relief on loan payments, etc. The number from caller ID is associated with a large number of reports of spammers using the PNC name for various scams. Put these people in jail!

Ticket: # 4031783 - The Consumer Ordered Cable TV in April Never Delivered by Charter Due to Pandemic

Date: 6/16/2020 5:42:54 PM

City/State/Zip: St. Charles, Missouri 63301

Company Complaining About: Spectrum

Description

The consumer ordered TV services in April, from Charter Spectrum. However, he was advised that they were NOT installing services for anyone during the Pandemic.

Therefore, he never received any service. He never received any equipment and he never received a bill.until a collection agent showed up.

He is being billed for services that were never delivered.....he only signed up for the TV service. However, he was advised that they could not perform installations at that time. The only records that they have is his order. Yet, they are demanding payment.

Charter then sent a rep, Robert, from RCH Cable, to his home. This collector is a sub contractor for RCH Cable (866-944-2583). He began asking neighbors what kind of a car that he drove, and made himself sound like an investigator. He left a flyer on his door.

Then he went down the hall to neighboring homes. The collection rep knocked on both of his neighbors' doors, when he could not locate the consumer. The RCH rep then told his neighbors that (b) (6) does not pay his cable bill! He offered that information when they asked why he was knocking on their doors and why was he looking for (b) (6). This collector is a sub contractor for RCH Cable (866-944-2583). The collection agent wanted \$128.92....in CASH, right then and there! His phone number is: 3(b) (6)

He called the rep, Robert, and advised him that he does not have any equipment and the rep asked, "How he would like it if he came over and took that equipment, boy"!

The rep then stated, "Just because he has white privilege, he still has to pay his cable bill! He threatened the consumer and stated that he would come and get the equipment. The consumer, again tried to explain that he has never had any services and does not have any equipment and never has had any equipment either.

Now Charter is demanding \$180.00 even though he never has had any services.

Charter has told him that he MUST pay the \$180.00 because it has aged past a certain point - it is now with collections and because you signed up for it, you HAVE to pay for it.

He tried calling the main number for RCH Cable and they stated that it is NOT their problem and he must pay the bill.

The consumer wants this harassment stopped, immediately.

The consumer never received a confirmation number or account number. He asked that they immediately correct this wrongful collection activity. Remove his information from collections, properly credit him for the services that they never delivered to his home, and redact any derogatory information that they are reporting. He also stated that he wants an apology from Charter AND from RCH Cable. He cannot believe that he has been treated in this manner when he never received any service, no equipment, etc.

Ticket: # 4031821 - Internet issues

Date: 6/16/2020 6:00:17 PM

City/State/Zip: Stratford, Connecticut 06614

Company Complaining About: Optimum

Description

Hello , I have been with optimum /altice for 20

Years. I have called into the company over 15 times since January about our internet issue. We have no connection and I get “ you have the highest modem and our area is a busy area due to a dead end

“ I am for sure about to leave the company, due to covid I teach from home and am having issues with logging on. I would like to file a complaint because all they do is reboot our all brand new modems / boxes and get no difference in services at all.

Ticket: # 4031855 - Unable to cancel due to COVID-19 limitations set by Spectrum

Date: 6/16/2020 6:17:36 PM

City/State/Zip: Greenville, South Carolina 29615

Company Complaining About: Spectrum

Description

I attempted to cancel Spectrum service at their 1042 Woodruff Rd, Greenville store location on Monday, 6/8, before the close of my billing cycle. Due to Spectrum imposed restrictions at their retail locations, I was unable to speak with a member of their team without waiting outside in a line, in the sun, for an unknown period. I followed up when I had time available later that week on Saturday, 6/13. Unbeknown to me, between Monday and Saturday, my bill cycle reset. When I went on Saturday and waited over an hour to speak to someone, they wanted to charge me a full month for four days (7/10-7/13) of service because I was unable to cancel due to their COVID-19 restrictions earlier that week. Upon learning this after leaving the store, I called Spectrum to explain the situation, and they said there was nothing they would do to assist. I then calculated my own pro-rata for the four days of service (\$9.33) and deducted this from their last payment of \$69.99 before filing a dispute with my credit card company for \$60.66 (the overpayment) for services not received. In addition to the dispute with the credit card company for services not received, I would like this complaint on file with Spectrum's regulatory body due to their billing practices that were exacerbated by their COVID-19 restrictions.

Ticket: # 4031888 - Lying sales agent. horrible customer service

Date: 6/16/2020 6:28:43 PM

City/State/Zip: Naples, Florida 34104

Company Complaining About: Comcast

Description

This is the 4th time I have to contact regarding this problem with comcast. Stated in the email I received from Comcast June 16th 2020, their records show on February 12th, 2020 I subscribed to their double play package at the rate of \$75 for 12 months. The sales rep stated on the phone call with me that the first 3 months would be free and I would also receive 1 year of access to showtime free of charge. After the free 3 months are over it will be \$13 per month or I can choose to cancel the TV portion of my package and my total bill will be lowered. This conversation was recorded on comcasts recording system, like it states before every conversation starts. I even had two of my peers listening to the call on my end to see if it sounded sketchy. After Nick G was unable to preform adequate customer service his manager reached out to me. After this conversation we were still unable to come to an agreement that this is a major problem. Meredith told me during our conversation that the call I had with the initial salesman was unable to be found and listened to. They allegedly have no way to go back and hear what happened during that phone call. Now I am stuck paying over \$100 per month for services that are horrendous. The level of customer service is atrocious and the refuse to find a solution to my problem. All they do is state the current promotions I am able to choose from. Completely disregarding the fact that I have been lied to in the past and put in this situation. This is the worst experience I have ever had with a single company. I am not asking for much, all I want is fair treatment. My family has been a customer of theirs since 2005. We have paid thousands of dollars to this company and the fact that during a global pandemic with 42 million people out of work they can not help a customer out with a blatant problem. The solution is so simple but the conversation with them goes no where. Please help anyway you can.

Ticket: # 4031895 - Price gouging

Date: 6/16/2020 6:35:17 PM

City/State/Zip: Fairfield, Connecticut 06824

Company Complaining About: Optimum

Description

I have been an Optimum customer for nearly 30 years in good standing. We subscribe to internet, tv and phone services. There is only 1 other provider in our zipcode and it is Frontier, which is DSL and does not support working remotely from home well during the Covid pandemic. My husband and I both have to work from home and hold video conferences daily. Optimum raised my bill this month by \$15. I see that they are offering superior internet service (level 400), Premier TV and phone to new customers for \$129/mo for LIFE. I am an existing customer, with a lower level internet (level 200) and I am paying \$240/mo. I feel that Optimum is price gouging existing customers, especially those like us who are unable to cancel service because we need it for our jobs during the pandemic. I spoke to them, after trying for 10 days, and was told they cannot lower my bill to what they are offering new customers.

Ticket: # 4032144 - Can not reach Emergency Services due to lack of reception in my home

Date: 6/16/2020 8:39:00 PM

City/State/Zip: Arlington, Texas 76017

Company Complaining About: AT&T

Description

Hello,

I live in Arlington, TX. I live in the middle of the city. When we moved into our home 3 years ago, we had slight reception issues. Over time these reception issues have gotten much worse. It is at the point now that when I am working from home, due to COVID, I have to sit in my car with the AC running just to get service and make the calls that are required. I can also not receive calls in my home. The call automatically drops and then goes directly to voicemail.

I have reached out to AT&T regarding this lack of service. I am never given a direct response to what the issue is and I have never been provided with a solution.

Sitting in my car and having to make calls, it is inconvenient, but not dangerous. What I can not deal with, is being in a dangerous situation and not being able to reach emergency services. On Saturday evening, we heard banging in our back yard. When I peaked out the window, I saw a shadow. We immediately went into our room and contacted the non-emergency number since we were not sure what it was. The call would not even go through due to my lack of signal. We do not have a land line, as most people do not these days, so my cell phone was my only option for reaching out for help. The same issue occurs with both of my boys phones, as they are also through the same provider. When the non-emergency number would not go through, I decided to call 911. Again, the call would not go through ... it was as if the phone did not even exist. At that point, I was basically screwed. We had no means to contact any type of emergency service, and had to lay in wait to figure out what was going on. Luckily for us, it was a neighbor's dog that had gotten out. They enter our backyard to retrieve him as it was so late and they did not want to wake us. Luckily for us, there was no real danger. I can not help but ask myself though ... what would have happened if there was. I had no way to reach anyone. I had 4 cell phones in the house and I COULD NOT REACH EMERGENCY SERVICE. In a true emergency, this could literally mean the difference between life and death.

There is no reason, while I live in the middle of a major city, that I should not be able to get basic cellphone services in my home. I would argue, that since I am taxed for such emergency services through the cell phone company, they are obligated to ensure that I have the ability to reach them. I always knew that the lack of service in my home was inconvenient ... which I have dealt with. What I hadn't realized, is that it was dangerous. This is not something that I can, or will, overlook. AT&T has an obligation to provide me with the services that I pay for, and they have an obligation to ensure that I can reach emergency services if it is needed. I am not sure what they need to do to address this problem, but they need to figure it out and do it quickly. I will not endanger myself, or the lives of my children, because this does not seem to warrant any concern on their part. I have attempted to take the appropriate actions to get this addressed, and I have not gotten the assistance that I need. Please help me in reaching out to them to have them resolve the problem.

Thank you,

(b) (6)

Ticket: # 4032199 - Suspension of Services

Date: 6/16/2020 9:29:55 PM

City/State/Zip: Gainesville, Virginia 20155

Company Complaining About: Cricket

Description

Carrier stated that it would not suspend services due to adding a protection in the account because of COVID19. Without giving any other warning, they suspended my services and now they want me to pay all the bill to restore. I want to move out of them and they are holding my phone numbers hostage.

Ticket: # 4032293 - T Mobile refuses to compensate us for Shortage

Date: 6/16/2020 11:09:57 PM

City/State/Zip: Spring Hill, Florida 34606

Company Complaining About: T Mobile

Description

We have been with T Mobile for six years. Since 2015 it has been a continuing situation. with phone Service. Mind you during the Covid19. Instead of waiving a fee for a month or so,they gave 60 days. Constantly harassing my son to see if he will pay or it will get disconnected. Back then, Corporate office had the audacity to tell us to switch companies,so they would not have to deal with their constant Negligence. Now they have merged with Sprint making it worse.

Yesterday 06/15/2020. at about 12.41 pm I tried reaching my Stepdad and the call failed. I called from house phone,it went through. I did not think anything of it as I got a call from my Cab Service at 12:51 pm. I arrive at my imaging app't. Once I'm finished I tried calling the Cab Service and it will ring ring ring call would not go through as it would also fail. I call the 1 800 number where I scheduled my trip. I let them know. Was told I would have to wait an Hour for pick up. Call the 813 number AGAIN!.

The owner tells me" we are having problems with cell phones and cannot get ahold of his drivers". I would have to wait one hour and 45 minutes. I'm infuriated. Call Hotline Number again, say.s we are having "Technical Difficulties". Please try your call again later. At this point I'm worried about Myself/My Son/My Dad. We are out and have not cell phone service. I'm Stranded in the Middle of no where/ My son as well,tries reaching me. Text me upset. And I forgot My dad as well had an appointment. All drivers had issues with their phones. Mind you many had T Mobile. Even My Doctor.s Assistant who called me to tell me she left me a message. I did not get till she told me. I checked and Voicemail was there. a very important one. I got home within two hours. still no service. I chatted with a T- Mobile team. I was infuriated. As still we are..

I was told to call 1-800-937-8997 today 6/16/2020. I called this morning,speak to a representative,She claims "she could not speak to me because I was not Authorized", "That my son would have to call". I request to speak with a Suoervisor. to document my call. I speak to "Alma' from " Richmond Virginia". I explain to her,She said" unfortunately my son will have to call" and I requested to document my call so when he does call,we will not have to repeat ourselves.

We called and spoke to 'Alia" that's exactly how she spelled it. At the beginning it once again! we had to explain. So basically it was a waste of time. But after my son gave Authorization to add me,that's when all went sour from there. She was trying to give us a credit of 10 dollars for all four phones. I said no. Unacceptable. T mobile has to be held accountable for all Incurred. As this is not the first time..Then she was literally auctioning the price, 'okay,I'll give you 15 dollar's credit for all three phones. I just lost it. I said, first off,this is not a foreign country. We are in THE UNITED STATES and I am appalled. This is not foreign Currency we are talking about. She replied " I Understand,But we have to divide it into the daily cost". I requested to speak to a Supervisor. She said okay! came back an less than a second " Supervisor in not available" But as I stated. Kept on. I requested a Supervisor AGAIN!. She Stalled me AGAIN. I hung up.

Call AGAIN! After many minutes I get another Rep,He stated his name is DJ (something) I greet him,as I'm explaining what just occurred,I asked for his full name and I get a mute for awhile.. I say hello! Hello! Hello! (Mute). As I'm about

hang up,he say's "Hello" was to late. I believe that was intentionally done.

I call AGAIN! Speak with ARRIANNA! I specified I'm done. Want to speak with a Supervisor. AGAIN.. She lures me into thinking "she will not be as Alia. Ask me to please wait awhile". I will be in Mute mode till she goes into the account and checks Our previous conversation. I too told her what I felt.. After like 15 minutes she comes back and offers me the same Credit. Informs me "Corporate Office told them to offer all who lost connection that". I was more infuriated than ever.. I requested to speak to a Suoervisor as I was going to file a Complaint with the FCC to reach Corporate Office.

There was a time you reached them Directly,but they have gotten so Shady as Deceitful coaching their Associates into what to say as do. Violating Our Consumer Right's. This is not a Privilege . This is OUR GIVEN RIGHT. We must remind all,without us they would not run a Multi Million or Billion company, as Associates have Job's. My son has been paying for Service since 2015. On four lines.. Mine-His- His Grandparents as another line that has been suspended (unsure if he is paying on that line). How dare they want to provide such miserable credit. As they now are charging for extra Data. Unbelievable. Yet, Service is beyond poor..

I requested to speak to a Supervisor, again.. I told her I was not playing. If I did not receive a call back with an hour, I will Proceed with my complaint. As also made it clear that IF this individual was going to waste my time, I will Proceed with complaint. This call ended on or about *:35. It's now 10:59. "CLYDE". "The Supervisor of escalations" as she spelled out for me. "He will call me back.

I also Reminded them A phone is as essential as as A PPE for this Plague. And this Company put us in harms way.

Ticket: # 4032311 - Predatory Practices/Pricing

Date: 6/16/2020 11:29:03 PM

City/State/Zip: Seattle, Washington 98122

Company Complaining About: Comcast

Description

The only opportunity I have to pay my bill is via phone call, as the online portal does not and has never worked for me to access my account information. I have communicated this inability through multiple contacts with customer service who has neglected to provide a solution. As I called to pay my bill in April, the balance was not reflective of my monthly premium, and since I was not able to verify the details of that bill in writing, I had to try to reach their customer service, which was nearly impossible. After finally getting a hold of someone online, they informed me late fee's had been assessed (starting after the pandemic and after they had advertised that they would not be charging late fees for services provided within the pandemic) and they would send a request to waive them. Since that online interaction last week, I have been receiving 3+ phone calls a day from before 8 AM to after 7 PM from a 888 number that disconnects when I pick up. If i return the call, it sends me to comcast's pay your bill line (automated). The current bill price continues to go up beyond the services/premium I have agreed to, and I am not able to receive a detailed description of the charges. I spent another multiple hours on the phone trying to reach someone today, and was shamed for having paid bills late in the past (although I had already explained my inability to pay through typical avenues since the website does not work.) Completely unacceptable practices and predatory collecting.

[Ticket: # 4032368 - spoofing complaint](#)

Date: 6/17/2020 1:36:22 AM

City/State/Zip: Tulsa, Oklahoma 74119-3016

Company Complaining About: AT&T

Description

1. Port requests have been cancelled. Solution: Reactivate or release number so it can be ported.
2. Multiple attempts to notify AT&T via phone and online of my inability to pay bills due to coronavirus disruptions have been unsuccessful. Solution: For AT&T to provide me a way to notify them, in writing via US Mail if necessary.

Ticket: # 4032424 - Piracy

Date: 6/17/2020 7:20:50 AM

City/State/Zip: St Petersburg, Florida 33713-1711

Company Complaining About: Wow

Description

Below is the complaint emailed my internet provided yesterday. It is one of many such complaints within the past year.

Message: "Someone is attempting to pirate my internet connection. I lost both my internet and phone connection within a ten-minute space of time. I have reboot my router and modem. However, my internet speed has dropped notably. I believe this is happening because I have the 1-GIG connection; however, it is only for my household use, and not for pirates. "

My connection speed with gradually drop to below 175 Mbps and as low as 8 Mbps, and yesterday I lost the ethernet and telephone connect completely. This problem has been happening long before the COVID-19 crisis. Wow has never resolved it, and give my excuses that it is my equipment when the equipment is brand new.

City/State/Zip: Brooklyn, New York 11239

Company Complaining About: AT&T

Description

I contact AT&T about the termination of my cell phone services that will occur on June 30th. I live in the NYC area and our Governor has issued an executive order declaring a state of emergency. I notified the AT&T that I was unable to pay due to the covid-19 pandemic. I was told by the representative that i will incur late fees and a re connection fees if i can not pay my cell phone bill. I was also asked if i can make a payment; i barley have money for food. I asked if they were aware of the moratorium and the executive order which enforces by law companies not charge late fees or report to credit bureau (s), the representative was unaware. I have four lines my two children and elderly sister are on my plan. Until i was forced to quarantine i paid my bill on time and was in good standing. All of my other creditors Mortgage , car note, credit card etc. are all in compliance and have not threaten to disconnect service or damage my credit. I don't have a house phone and this is my only means of communication. Please give this email the attention it deserves.

Ticket: # 4032526 - Availability of Media**Date:** 6/17/2020 9:08:02 AM**City/State/Zip:** Miami, Florida 33161**Company Complaining About:** Visible

Description

A basic visual media service is currently unavailable at a reasonable price. I believe I should be able to get without purchasing anything (antennae's, boxes, TVs or phones or computers, contract obligations) a basic set of channels that includes local and live (not streaming looped live) news. During pandemic planning and chaos, war, social unrest planning in the last planning sessions th FCC clearly did not account for this accessibility especially to local channels and live news. This service should cost no more than \$15. An antennae does not provide national news coverage. This is a step back to the installation of cable infrastructure in 1980. The transition is to be seamless not taking away. Perhaps this contributes to the current unrest and needless dying in a refusal to stay at home. I can't see how you would bother defending the lack of access and step backwards. No need to respond to me. This is a suggestion toward perspective fairness and continued success.

Furthering the matter individual stations require a registration and name of cable provider as a coop approach to cable access. While that's efficient it's ineffective in allowing consumers to put together a reasonably priced product. You Tuube for example charges \$54 just to stream NBC news or CNN news. These are national news outlets with live coverage that are necessary to daily life. The tv shows and movies are personal choices. Internet was supposed to stay free public access WiFi too and that got given to cable and phone providers who overcharge based on the original intent and that's been ignored too. It's the FCCs responsibility not my phone provider. Please use my data to it's true meaning.

Also this text box doesn't scroll allowing me to verify content message and edit grammar.

Company Complaining About: Sudden Link

Description

My cable/internet bill with Suddenlink has been fluctuating since the pandemic. We had an outage in May, while on the phone the rep asked if there was anything else. I asked about my bill. he placed me on hold. He came back and said he would look it over and call me back. I forgot about it. I received my latest bill and it was \$100 more than usual. I called again this week and told I was going over my internet cap. I was unaware I had a cap. I been with this company for many years. I asked to speak to a supervisor and denied. I was told I needed to pay \$30/per month to have unlimited but there was nothing they could do about the previous charges. i explained I am now working from as required by my company per the pandemic. Still no resolution or ability to talk to management. I have looked over my bill and have been charge 150.00 for the internet usage. They also denied me calling earlier stating in the notes it was only about the outage that day. This is not true and the rep did not put in the notes about my billing question. I would like to file a complaint. I do not believe Suddenlink has lived up to what they post on their website about keeping people connected during the pandemic. I was unaware of the cap on my bill, my money refunded for the overage. Their unlimited usage is still capped at 400 mpbs.

Ticket: # 4032705 - Optimum Profiteering

Date: 6/17/2020 10:30:41 AM

City/State/Zip: Norwalk, Connecticut 06851

Company Complaining About: Optimum

Description

Around 2/20 just when the COVID pandemic began Optimum raised it's rates significantly (from \$65 to \$90) per month for internet with no explanation. It's the same service but now that everyone is remote and dependent on it to do their job they took advantage. They were clever and added an "special credit" to everyone's bill so the monthly cost looked the same until Connecticut began to re-open at which point they discontinued the credit and the rate increase came to light. This is despicable, they are the only reliable internet in the area and we are dependent on that to do our jobs remotely so we have no other choice but to be extorted by Optimum. The rates should revert to what they were prior to the COVID pandemic.

Ticket: # 4032743 - TV and Internet Service Requested by Blue Ridge Comm.

Date: 6/17/2020 10:43:05 AM

City/State/Zip: Cresco, Pennsylvania 18326

Company Complaining About: Blue Ridge Communications

Description

My complaint and also for many of my surrounding neighbors is that we do not have options other than satellite for TV, internet and phone. Verizon says it is available but it is not for those who do not have it already. Complaint put in to them also. Blue Ridge runs 1/2 mile up the road from us with hundreds of houses in between that would take their service. Why can this not be done, this is 2020 and it seems like we live in the stone ages?? With Covid19 (a world wide pandemic) many of us have been forced to work from home, which we can not even do because the satellite internet that we have is horrible. Zoom meetings and forms are impossible to open and just lag!! We have to leave our homes to go to a friends to work - why is this, it is unfair? How is this safe, how is this even able to happen at a time like this? Please consider the 1/2 mile and continue it down the road. I heard from a friend that Wooddale is getting Blue Ridge as we speak so this should also be possible for us here!! Thank you for your time and consideration.

Ticket: # 4033170 - Billing for services not received

Date: 6/17/2020 12:34:33 PM

City/State/Zip: Ahoskie, North Carolina 27910

Company Complaining About: Spectrum

Description

I ordered Spectrum services for the new home I was moving into on March 11, 2020. Spectrum sent me two boxes of equipment, the Covid-19 stay at home order went into effect on 3/13/2020 and the remodeling of the home went on hold till contractors could get into the home. I placed boxes in the garage unopened because the customer service rep at spectrum said no billing would start till the devices were activated. I then received a bill at the new home on May 26th which was for 3 months of service. I called and they only offered me \$20 credit. On June 7th I had a technician come from Spectrum because the self set up did not work. He said the house was wired incorrectly and he would have to run new lines, he did and when he was installing the equipment he noticed it was not the right equipment for North Carolina, it was Ohio equipment.

I could not have activated the equipment even if I wanted to.

I called Spectrum and attempted to resolve the issue on 6-17-2020 and was again told that \$20 was all the credit I could get. The bill ended up at \$490.77. I disconnected all services except the internet because of this gross overcharging.

This is highway robbery and should not be allowed. I request a refund for all services prior to June 7th, 2020.

Ticket: # 4033207 - Samsung Customer Support

Date: 6/17/2020 12:46:26 PM

City/State/Zip: Seattle, Washington 98146

Company Complaining About: Samsung

Description

I have a Samsung television and the HDMI ports are not working. I contacted Samsung Corporation USA via online chat to address my concern with their product. Samsung cannot service or repair my product due to Covid which is ridiculous as I can drop off the TV at a Samsung service area.

Samsung stated there is no possible way to service their products during Covid. What? How can you continue to sell millions of TV's during Covid with no plan or solution to repair your own product should an issue occur? This is poor business practice. Not only that but there website states "From cracked screens to transferring data, our techs are ready to help. Television. Samsung has a large network of repair technicians." Apparently they have NO large network of repair technicians. That is false advertising

over the last couple of years centurylink keeps turning off my long distance (without my permission) when I catch them (I use long distance only when I fax also have a cell phone) but I am still paying for it on my bill. when I ask them to restore service it takes several days several phone calls and hours of on the phone. I am over 65 years this service is essential to me because of covid-19 I have to do mre stuff at home

Ticket: # 4033429 - FRUSTRATED WITH AT&T

Date: 6/17/2020 1:39:31 PM

City/State/Zip: West Bloomfield, Michigan 48324

Company Complaining About: AT&T

Description

I have a customer a very very long time. There was a bill that was PAID but there was a problem with the payment. I paid online the entire bill to my account that had been closed, immediately I paid through another account. Okay so a few days later I received an email that showed the amount doubled. I called AT&T, no payment recorded. I call my credit card, the payment was there, I call AT&T they still didn't see it. Long story short basically it was paid 3 times to my credit card by the 4th time I used a entirely different card. After all that AT&T BLOCKS my account from paying with ANY credit card for 6 MONTHS. How INCONVENIENT even through this pandemic AT&T stores have been closed, I have to pay through my SAME account with a check. I just tried to pay the bill just a few minutes ago and it was the same thing. I have dealt with it being FRUSTRATED the ENTIRE TIME I just want this madness to end! PLEASE! Maybe I can even get a small credit for my loyalty and inconvenience.

Ticket: # 4033539 - Poor service

Date: 6/17/2020 2:00:52 PM

City/State/Zip: Northville, Michigan 48167

Company Complaining About: Sprint

Description

Horrible service constantly. From calls dropping, can't send a simple text and just place a call. They want hundreds of dollars a month for basic service and I can't even get on a web page. I keep paying the money and they keep disconnecting my phone even though they're supposed to not do that during this covid-19 way she and they have done it twice they disconnected my phone on top of everything even after making a \$400 payment. I'm unemployed and laid off and I can't even get unemployment I'm still waiting for it. It's impeding my work search it's impeding looking forgot it's impeding my children's education it's impeding me getting on unemployment websites because I don't have a laptop I only have my phone. It's impeding my contact to get in touch with me like for my children's School and including job contact they can't call me.

Ticket: # 4033679 - Title 47 of the CFR

Date: 6/17/2020 2:30:32 PM

City/State/Zip: Howell, New Jersey 07731

Company Complaining About: Optimum

Description

I have been having intermittent internet outages, with the internet being out more than it is on (on average 20 hours per day of downtime, with up time in 30-minute intervals).

I have been unable to work from home. I have lost connection while in critical work meetings, I have been unable to teach my students (250 residents of Monmouth county). I am unable to stream music, watch tv on my streaming services, I have a smart house with smart lights and thermostat, and I cannot control anything.

My husband is a first responder and he has been unable to perform his vital work functions due to the lack of internet connectivity. At this critical time due to COVID-19, first responders and essential employees should have fast, reliable internet service

I purchased a new modem and router, that did not help, your Advanced technicians deleted my home network (of which I have spent countless hours trying to get my devices all reconnected to my new network), that did not work. I just had to upgrade my cell phone plan to have mobile data tethering, so I don't lose my job.

On the rare circumstances that my service is working, my speed is terrible. As a customer who pays extra for 300 mbps, I am experiencing upload speed of 5 mbps and download speeds of 28 mbps.

I have spent countless hours on the phone with Optimum, on hold. Technicians have missed service appointments; I cannot get anyone on the phone to help. After waiting for hours for a call back I have had customer service agents hang up on me or give the run around. Every customer service agent I speak to tells me something different, bottom line my neighbors on my street are all experiencing the same issues and it is probably an amplifier on your end-- but no one will come out here to fix it.

This unacceptable. The problem is not resolved. I have spent over \$150 trying to get access to a service I pay for. I have not been able to use the \$200+ a month of other services I pay for that depend on internet connection. I have receipts to show the expenditures I have had to put out in addition to the services that I pay for that I have not been able to use. My cell phone bill also contains proof of the number of times I have had to call optimum and the extreme wait times.

Ticket: # 4033885 - Phone outage

Consumer states he's paid \$50 for card plus \$4.00 which is taxes

Consumer states he's not receiving all the gigabyte that he suppose to receive

Consumer states ever since the Covid 19 apparently they change there services.

Ticket: # 4034150 - Coverage Issues

Date: 6/17/2020 4:08:59 PM

City/State/Zip: Nashville, Tennessee 37205

Company Complaining About: AT&T

Description

Last week I began having extremely limited accessibility to AT&T cell service where I live. I called them for assistance and was told it was a software issue that they were not able to fix.

The problem has made service rarely available and unstable. I drove to a Target parking lot to file this complaint and access my bank account.

I visited an AT&T store nearby - the Rep replaced my SIM card for a small fee and changed my network settings. I then install the newest OS update on my iPhone. None of these actions solved to problem. It appears that they have removed the cell tower that was near my apartment without considering customers useage. I pay for the service so I find that unacceptable. Please help me get this issue worked out with AT&T. I'm especially concerned since COVID19 has negatively impacted my livelihood and my ability to leave my home.

Company Complaining About: Out Of Area

Description

During this pandemic, telemarketing calls stopped, thank God. Now they are starting up & they are trying to make up for lost time. One number called me about three times in a couple of days but this one won't let up, five so far. Haven't answered but you can bet it's probably a robocall that just keeps on dialing. I'm so sick of this.....my ringers have been turned off on my landline for so long, it isn't funny. Even friends can't reach me. This just isn't right.

Ticket: # 4034690 - Overbilled

Date: 6/17/2020 6:28:34 PM

City/State/Zip: Worcester, New York 12197

Company Complaining About: Verizon Wireless

Description

We started out by looking online for providers with unlimited hotspot/MiFi wireless plans. Verizon came up and we had used them in the past in California, so decided to try them again. We called and spoke with Paige Brock to find out what hotspot we needed and to see how the service was in our area. We told her we had a MiFi from before, Paige advised us that we could use that instead of buying a new one. She could even activate it right over the phone because there is no SIM card. She told us the plan was unlimited but after 15 gigabytes of premium we would lose priority, her words not ours. We had no idea what that was until she explained. (Throttling) We also made sure we were not in a contract, which we are not, and could see if the service meets our needs or we could cancel after one month. We were okay with that and decided to proceed. The unlimited plan was \$70 per month and when we got our first bill I saw it was \$80 plus tax and a one time fee for a total of \$103.99 and I emailed Paige to inquire why it went up. Paige told us to email her and let her know how the service was and to see if we wanted to move our cell service and our business line over to Verizon. Paige had emailed and text us before when we first were signing up, but as soon as we asked about why our bill was \$10 more per month, she has not responded. We still have AT&T for 240 gigabytes per month for \$60, but the service can be spotty. We are adopting two boys and because of Covid-19 they have been doing school online and the internet being spotty was inhibiting their schooling. When we got our second bill we thought there was a big mistake because it was for \$1,097.32. We looked at the bill to see we were not on an unlimited plan as we were told, instead, we were charged \$10 per gigabyte over 10 gigabytes. We used 115 gigabytes and were charged \$1010.00 on overages. As soon as we got the bill, we again reached out to Paige with no response again. We then called customer service and escalated our situation with a supervisor, Sandie, and then to her manager. We gave them Paige's name, Verizon business email address, and phone number she had text us from and they said they were looking to see who she was but could not find her. They also said that maybe she is no longer with Verizon. All of a sudden the person we talked to is no longer with the company? It has been only one month. We were told by Sandie that her and her manager would get back to us and they also have yet to do so. Maybe Paige just did not have proper training to help with the service she was trying to provide or maybe with Covid-19 she had a quota to fill. We feel like we have been swindled or are being taken advantage of. This is 100% not what she explained or went over. We specifically asked if there would be any overages and she said no.

Thank you in advance for any help,

(b) (6)

Ticket: # 4034696 - Comcast changed my gateway admin credentials without notification and without permission

Date: 6/17/2020 6:29:19 PM

City/State/Zip: Boulder, Colorado 80303

Company Complaining About: Comcast

Description

Around the end of May 2020 and beginning of June 2020, all employees at my company were out of the office and working remotely due to COVID-19. When we returned to the office, we found that our Internet Gateway administrator password had been reset to a factory default password by Comcast. This was executed by Comcast without our permission and without any notification. This caused loss of productivity, as we could not access and configure our MAC filter settings to verify compliance with our company security policies. On June 17, I decided to attempt to log in to the gateway using factory default passwords published online for Comcast Gateways, and found that one of them ('highspeed') provided access to our Gateway. This opened our company up to security vulnerabilities, caused directly by negligence within Comcast.

Comcast support does not provide a mechanism to lodge this type of issue with them. Due to our office location (East Boulder, Colorado), Comcast is the only internet provider available. Where is the accountability ?

Ticket: # 4034842 - Poor Customer Service

Date: 6/17/2020 7:26:34 PM

City/State/Zip: Tamarac, Florida 33321

Company Complaining About: Comcast

Description

As of June 7, 2020 we have been without cable and internet, because the neighbors dog chewed through the main cable cord interfering with our service for the third time. When I called Customer Service to resolve this issue they made it clear that they will not be able to send anyone to fix it due to covid-19 which I respected; however, the day prior to my call there was a Comcast provider at my neighbors house. And when I called them again to clarify this they placed me on hold until the call dropped or hung up.

Ticket: # 4034897 - Scam call spoofed my bank caller ID

Company Complaining About: Wells Fargo Ban

Description

Scam call received from a number that was pretending to be my bank. I answered, and it was a recording telling me this was and "apology notice from my utility company" for over charging me. I have had several of these calls where they pretend to be my bank, my health care provide/insurance company, etc.

Ticket: # 4034982 - Sprint tower issue/ drop calls/ poor internet service

Date: 6/17/2020 9:08:14 PM

City/State/Zip: Rochester, New York 14609

Company Complaining About: Sprint

Description

back in March a few weeks before covid-19 pandemic was at its worst I went to sprint to get mobile service, three weeks later it has been an nightmare with this phone carrier. My fiance and I have been through multiple devices, and A50 galaxy her this would be the third phone and now we are at the A51 Samsung galaxy and the problem is still dominating the purpose of our service. Wish sprint could give better phone and internet service.

Ticket: # 4035014 - Packet Loss on / after local node hop

Date: 6/17/2020 9:36:43 PM

City/State/Zip: Manalapan, New Jersey 07726

Company Complaining About: Optimum

Description

Every day, except Sundays in particular, between the hours of 9AM and 1AM (the next day) Eastern Time since early April 2020, there have been packet loss on or after the local node hop located at 67.59.242.57, bearing the hostname [433be039.cst.lightpath.net]. One dropped packet at any end can do damages to livestreaming platform Quality of Experience, which is a big problem for those whose livelihood, during the pandemic, relies on live audio/video streaming. Affected hops to Twitch's ingest server, located at 52.223.227.148, the IP that [live-jfk.twitch.tv] resolves to, includes the following Optimum-owned hops/BGP points: 67.83.245.22 [ool-4353f516.dyn.optonline.net], 65.19.114.7 [451be007.cst.lightpath.net] and 65.19.98.49 [451be031.cst.lightpath.net]. Altice / Optimum has been extremely negligent to provide consistent upload speeds, often dropping to 3Mbps and, at some points, 0Kbps upload speeds. Optimum has done nothing to fix this issue.

Ticket: # 4035101 - Thousands of repeated phone calls with no caller ID

Date: 6/17/2020 10:53:00 PM

City/State/Zip: Los Angeles, California 90025

Description

My law firm main phone line is 310-481-6030. The office has been closed during the COVID-19 pandemic but is now reopening. Just before closing in March, 2020, multiple calls were coming in with nobody on the other end of the line. The VOIP provider Spectrum Business and the landlord (switchboard operator)'s tech were unable to solve the problem. During the pandemic, I set all phone calls to the office line to be forwarded to my cell phone, but no robocalls of this kind ever came through to the cell phone. Back in the office last week and this week, and the phone calls are coming in incessantly, less than a minute apart. I am told that the incessant robocalls have continued often through the pandemic when people were only rarely in the office suite to experience it. The landlord's tech rep says there have been more than 6,000 of them. There is no Caller ID. The calls do not show up in Spectrum Business's website access that I have for the business account. They are disrupting the switchboard and the entire office suite of lawyers with the incessant ringing. If the phone is picked up, all one gets is a dial tone. Anonymous call blocking by Spectrum Business does not block these calls.

Ticket: # 4035156 - Internet access

Date: 6/18/2020 12:52:48 AM

City/State/Zip: Sulphur Springs, Texas 75482

Company Complaining About: Sudden Link

Description

Our service provider was limiting our service to two-three megabytes per second due to an unpaid bill. We rely on that service for work and other usage. When the service provider was contacted, the technician Ahmed stated that the bill was the issue. This is difficult during these troubling times when offices are closed due to Covid, preventing people from going into offices, etc. Please check the policies and practices of Sudden Link part of Altice Mobile and see if something can be done. Once the bill was paid usage speed increased some but not to the full capacity.

Ticket: # 4035309 - Comcast Issues

Date: 6/18/2020 8:56:05 AM

Ticket: # 4035381 - Sudden Link Speed

Date: 6/18/2020 9:41:26 AM

City/State/Zip: Greenville, North Carolina 27834

Company Complaining About: Sudden Link

Description

The consumer wants to report Sudden Link whom she has TV and Internet Services with.

The consumer is paying for services she is not receiving because she is scheduling appointments for technicians to fix the issues and they don't show up.

One other issue was that a technician came to their home during the pandemic WITHOUT a mask so she asked him to do things outdoor but not come inside, he came in through her garage without her permission.

The consumer states that her wifi was fine when they came because they came to fix something else and she guesses he got mad and messed something up since once he left it wasn't working.

The consumer states that when she gets on the phone she asks for a supervisor and they can never get one on the phone.

The consumer wants a technician to come out and fix the issues.

The consumer states that Sudden Link is the only provider in her area.

The consumer states that they unprofessional.

The consumer pays for 400 mgbs of Internet and she never gets above 120.

The consumer states she's always had speed issues.

The other issue she needs fixed is technicians not showing up and when they do show up nothing gets fixed.

The consumer has had a TV box that has never worked and she called because of WIFI Issues.

The consumer spoke to representatives oversees and couldn't understand them.

2 couldn't speak English, one put her on hold and they hung up on, and the other was rude.

Consumer needs credit for paying for service she doesn't receive since technicians never show up to fix the issues.

Date: 6/18/2020 10:12:29 AM

City/State/Zip: Alexandria, Kentucky 41001

Company Complaining About: Sprint

Description

- consumer asking that if the provider sign the Keep American Connected Pledge and has extended it out until June 30th, 2020, Sprint has no right to cut him off.
- Sprint has disconnected his service this morning Thursday June 18th, 2020 and had him make a commitment to pay \$400 before they would reconnect him back up - Sprint has consumer Social Security card for payment and stated that if he could not be able to pay that much but if he called back by July 1, 2020 and only has to pay \$107.00 and then will have to commit to pay the rest.
- consumer doesn't understand how Sprint can do this to a consumer while the pandemic is going on, and Black Live Matters Concerns.
- doesn't feel that these company should be able to lie about what they are getting and what they are paying for.
- Sprint made the consumer make a commitment to pay \$400 on his Social Security card and consumer feel that is immoral and disrespectful.
- consumer would like to have this issue resolved by Sprint standing behind the signed Keep Americans Connected Pledge and does not feel that he should have commit to pay \$400 to get his service reconnected.

CTR395—phone

Ticket: # 4035673 - international calling plan during covid

Date: 6/18/2020 11:15:24 AM

City/State/Zip: Billerica, Massachusetts 01821

Description

I came to Greece February 11. I come every year and use the \$10 a day pass. But because this year I cam for 49 days to give my mom who is 90 yrs old a chnce to see family before she isn't able to travel. The world exploded that first week and we haven't been able to see family. Also I haven't been able to get a flight home. Maybe after July 1st. We are not sure. Verizon had issued a great offering for customers that bought the extra international plan that cost \$130 in additon to the \$221 I was paying for USA service. The \$130 plan typically provides 1000 texts, 250 minutes and 1/2 gb of data. Well that offering ended May 31st. I'm requesting that the plan be extended until we can fly home safely and not get the virus. I don't want to be here. I want to see my two kids and two dogs. I have a business in Provincetown MA and I really need to be home. So not running my business, having to borrow \$161k to cover my losses is enough of a hardship. So I am hoping Verizon can extend the offering for those stuck overseas. Every phone call I make requires me being on hold for at lease an hour. I eat up the 250 minutes in 3 days. Please advise. Ticket: # 4035786 - COVID-19 Not able to pay bill

Date: 6/18/2020 11:42:58 AM

City/State/Zip: Charlotte, North Carolina 28226

Company Complaining About: Verizon Wireless

Description

Due to COVID-19 I am not able to fullfil my obligation to pay my Verizon phone bill. I have contacted the company to ask if my contact can be broken without pently. I rather not accumulate a bill that will continue to pile up and result in phone being cut off and turned over to collections.

Ticket: # 4035878 - unsolicited political robocall

Date: 6/18/2020 12:02:23 PM

City/State/Zip: Everett, Washington 98203

Company Complaining About: Haakon, On Behalf Of Bob Statchen

Description

I received a robo text with the following message: "Hi, Patrick! This is Haakon and I'm a volunteer with Democrat Bob Statchen's campaign for State Senate. He's currently serving on active duty in the National Guard to protect us from the pandemic, but will be returning at the end of June. Would you consider voting for Bob or will you be supporting the GOP in November?"

I am not Patrick. There is no Patrick in my household. I have never given my number to any political group. I receive these texts every election cycle from various candidates despite being on the do not call registry. I have had this number for eight years and have never given it to any political party.

Ticket: # 4035936 - Radio Interference

Date: 6/18/2020 12:19:14 PM

City/State/Zip: South Houston, Texas 77587

Description

The consumer has a Low Power Radio.

The consumer states that he is getting Interference from a repeater.

The consumer states his call sign is KJJG 92.5 FM.

The repeater that is doing the interference is K 223 CW.

The consumer states its a pirate radio (unlicensed).

The consumer states that a couple days ago they connected to a radio 1480KLVL.

The consumer states that this person is using Circular antennas illegally.

They do not use directional antenna and requests an urgent response from the FCC because their interference is very strong.

The consumer has had this interference for 2 years and everyday it gets worst.

The consumer is calling on behalf of Iglesia Central Liberation and their pastor and the audience of the station KJJG that call the radio station saying that there is too much interference and they are unable to hear clearly.

According to the license, K223CW must use the 1230 AM or the 880 AM like main radio to transmit music and they are not using it, they are re-transmitting from 1480KLVL.

We request someone to please look into this and please send an FCC investigator.

Please don't tell the station because then they will just lower the transmission signal strength.

We have spend thousands of dollar with lawyers trying to resolve this issue.

With COVID-19 going on we are unable to invest any more money into this issue.

The churches economy is very low.

I the pastor Juan Joel Gutierrez declare that this complaint is true and sincere under god and the FCC that we are not lying.

I am responsible for this complaint, I ask for a fast response please.

I ask under god and the name of Jesus to please help us.

Ticket: # 4036077 - COVID-19 Price Gouging Optimum

Date: 6/18/2020 12:50:38 PM

City/State/Zip: Brooklyn, New York 11226

Company Complaining About: Optimum

Description

I lost my job due to COVID-19 in March. This past bill for June, my price doubled. I called inquiring about rates advertised on the website, but Optimum refuses to give me any price option other than my price that is now doubled. When I ask why, they disconnect me. I wasted 5 hours on the phone with them on Tuesday June 9th. The final rep I talked to said they would get back to me but never did. I was also denied the right to speak to a supervisor as three of the prior reps gave me different answers about my "options," but the final verdict was that I'm locked into this new rate that I never agreed to pay. I've never missed a payment and rely on my internet to make what little I can freelancing until my studio opens in September. I cannot afford to pay \$120/month for basic internet when I paid 69\$ for it before. I've tried switching services, but installations are not allowed until December.

Ticket: # 4036202 - Optimum Internet

Date: 6/18/2020 1:18:47 PM

City/State/Zip: Avon By The Sea, New Jersey 07717

Company Complaining About: Optimum

Description

I have been using Optimum for my internet provider (my building is only wired for Optimum so I have no other choice.) through this whole pandemic. I am a software developer and have to work from home and connect to my work network using VPN. I have had them to my condo twice and even gone as far as buying my own equipment to resolve this issue. I pay for 300 mbps download speeds and have been charged full price this whole time and most of the time the connections are so slow (at times only 10 mbps) that I can not stay connected with work, in turn, I can not perform my job properly. They have not resolved this issue after many hours on the phone with them they have left me no choice but to file this complaint.

Ticket: # 4036245 - Sprint disconnecting services during Pandemic

Date: 6/18/2020 1:29:39 PM

City/State/Zip: San Diego, California 92171

Company Complaining About: Sprint

Description

Sprint has disconnected my services twice despite them being informed several times that I have been furloughed since March due to the Pandemic. I have been making partial payments and understand that I am still responsible for the remaining balance. They are trying to get their customers to pay the whole balance with the threat of not reconnecting services if they can't. With a payment arrangement it's the same threat and the remaining balance is divided into just 2 payments due within two weeks of each other. I'm a disabled Veteran, single mother and need my phone for my TeleHealth Appointments. As soon as I mentioned filing a complaint with the FCC they changed their tune and stated that my services will be restored until the end of the end of the month then it is "business as usual". Communication companies should not be able to disconnect services during a National Disaster such as this Pandemic. We need an Act of Congress to ensure that everyone has communication and is not being charged high charges in order to do so.

Ticket: # 4036274 - Unfair/ Fraudulent Billing

Date: 6/18/2020 1:39:17 PM

City/State/Zip: Arcadia, California 91006

Company Complaining About: AT&T

Description

I have been with AT&T for my business land lines for over 10 years. For my 5 land lines I have been paying an average of \$275.00-\$350.00 per month for the past several years. We were not in full operation during Covid-19 crisis and when we came back I was shocked to see the AT&T bill has gone up to \$1600 + . Since then, I have been trying to move away from AT&T to Spectrum and AT&T has declined the porting request numerous times . I had already filed a complaint against AT&T on the porting issue (b) (6) on 06/11/2020). AT&T has increased my bill by over 500% and not letting me port my numbers. Also getting calls from AT&T demanding payment.

Please Help. Thank You

Ticket: # 4036420 - Microsoft Corporation has shut both myself and my wife out of our accounts and our computers

Date: 6/18/2020 2:14:28 PM

City/State/Zip: Fort Atkinson, Wisconsin 53538

Company Complaining About: Microsoft Corporation

Description

They can't get it that my wife and I share several accounts, including internet service provider. We both use the address dmcagoon50@gmail.com, but we have different accounts with separate cell phones and telephone numbers. They think our behavior with these two lines "is suspicious behavior". Numerous attempts to contact them by phone have failed. Apparently they are not answering support center calls because of COVID 19, They always use "no reply" e-mails. They are denying us due process as required by law. They have to give us some means of contacting them, especially if they are going to take as onerous an action as disabling our accounts and computers.

Ticket: # 4036470 - Billing/COVID-19/service

Date: 6/18/2020 2:25:05 PM

City/State/Zip: Roslyn Heights, New York 11577

Company Complaining About: Optimum

Description

Consumer states that he has a bundle service with Optimum. Consumer states that on May.19.2020 Consumer called consumer service because he notice an increase on his bill. Consumer states that the bill was 10 dollars more than what he usually pays. While he was talking with Consumer service and complaining about them raising the service during a pandemic trying not to help people nut sinking them more by raising their prices while the economy is very bad. Consumer was told that he was going to place a permanent credit into the account for the \$10.00 dollar more for a period of 12 months. Consumer states that by the next billing cycle he did not receive a credit and because he send the bill with ten dollars short, he receive a message saying that his service was going to be disconnected. Consumer wants the promotion to be honor. Consumer wants also another credit because they created an inconvenience for him.

Ticket: # 4036525 - Data Issues

Date: 6/18/2020 2:39:24 PM

City/State/Zip: Brooklyn, New York 11215

Company Complaining About: Metropcs

Description

Consumer said Metro offered a special covid-19 plan

Consumer took the \$15-month plan with 2 gigs of data

Consumer was told to keep her phone on WIFI and turn off mobile data

Consumers bill is from the 11th of one month to 11th of the next months

Consumer said its charges her data from the 1st of the month through the 30th of the month

Consumer is told by Metro Pcs that she used up her 2 g of data and she has not, and her phone shows she did not use it

Consumer is owed 4 G of data for the last 2 months

Consumer said that they need to change it, so the 2 G go from the 11th of one month to the 11th of the next month

Consumer said they need to honor the agreement that when she has WIFI on and turning off mobile data it should not use mobile data then

Consumer just wants Metro PCs to give her the 4G of data that she never used, and correct how they process the data, so it reflects correctly on the billing

Description

i tried to set up verizon fios service in my house in january around the 22 the tech came to do the installation. he never completed it. he came 3 hours late and i had to leave for work. he promised he would finish the job he never did. i called verizon to get the issue resolved the next day they never came back. long story short it takes about an hour to get someone on the phone i called 3 times then covid happened first week of march they would not send a tech out. i had to pay someone 285 dollars to finish the install. it worked for a week and stopped working. i called verizon several times it takes 2 hours to speak to a representative and they can't fix my issue. they're calling for the bill from january i will not be paying because i never had working service. now they're telling me they're only responsible to bring the service into my house not connecting my devices and it's my problem the service isn't working. the picture below is all i get when i power my service on.

Ticket: # 4037102 - robocalls from spoofed numbers

Date: 6/18/2020 5:01:50 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the beginning of 2020, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are marketing calls. All of the numbers are presumably spoofed, and presumably they are all robocalls. The frequency of the calls has varied. For most of January and early February, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped.

Many of the spoofed numbers were registered for Greenville, MS. However, I have also received calls from Coffeetown, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona and Crystal Springs, MS. For a brief period, calls came in from out of state as well. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. For the call I am reporting today, caller id was not able to identify a location. The area code is 552. A quick internet search revealed that there is not area code 552, and that any call one receives from that area code is illegitimate.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4037177 - Product Issues

Date: 6/18/2020 5:18:14 PM

City/State/Zip: Rochester, New York 14621

Company Complaining About: Motorola

Description

I purchased an unlocked phone from Motorola that is unable to be activated as it has sim card issues. Due to Covid-19 and waiting on the mail after 9 failed sim cards, they simply refuse to refund my money for the non working & unactivated phone & 2 year warranty. The device just launched and apparently on many forums plenty others are having the same issues with this defective product across the board with different providers.

Ticket: # 4037295 - Comcast/Xfinity Internet Issues

Date: 6/18/2020 5:52:38 PM

City/State/Zip: Port Saint Lucie, Florida 34986

Company Complaining About: Comcast

Description

Hello,

We installed a new modem as required by Comcast/Xfinity on June 11, 2020. Just prior to the equipment being installed, we were having internet issues. We called several times to report the issue only to be told to reset the modem.

The first time we called was Jun 11, 2020 and my husband was on the phone with them for 2 hours installing and activating the new modem. The internet starting going out again every night from 6:30 pm to 9:30 pm. I made a phone call the next day June 12 2020 to try and get it resolved. The automated system kept saying to reset modem. so we would reset it and it would work for a while and go out again.

Due to COVID, I have been working remotely from home since Apr 1 2020 and am in fear of losing my job due to the outages caused by Comcast/Xfinity. I am at wits end because we NEVER had this problem before. I've now made 13 calls with about 6.5 hours of my work time being on hold and talking to the technicians. We even had one technician come out to check outside cable connections and he was very "short" on the explaining the issue to me. He stated we have a lot of activity in the house so that could be causing it. I couldn't believe it. I asked if I was going to be credited for my time and inconvenience and they said yes. so for 11 days with these frustrating issues, they are crediting me \$22. I earn more than that an hour, therefore, their credit is basically useless to me. How does that even equate to the amount time lost and frustration I've had to deal with. They need to credit me at least \$150 for my time away from work and inability to work.

I know things are unfair in life, I get it, but they are a conglomerate of a company who don't give a hoot about us everyday Americans trying to make ends meet during these unprecedented times. I'm fortunate to be still be able to work, but I'm in fear that my internet issues this past 10 days is damning to my employment.

We have had Comcast/Xfinity for over 5 years and NEVER had this issue. I'm beyond frustrated that they cannot "FIX" my problem. I have been very patient and understanding during this tumultuous time. Enough is enough. It's like they don't even care. They can pull their records on how many times. To date, I've made 13 calls and spent over 6.5 hours on the telephone trying to get this fixed.

Please help me.

Ticket: # 4037327 - Not getting what I'm paying for

Date: 6/18/2020 6:02:23 PM

City/State/Zip: Lake Havasu City, Arizona 86406

Company Complaining About: Sudden Link

Description

With suddenlink I pay every month for 100mgbs and only receive on average 25 to 30 mgbs . Unlimited then they want to go and try and charge me for overage usage. This has been going on for well over a year. Called many times and my speeds are increased for a day or few hours then are low again. They try to blame it on Covid but this has been happening sence last year. .

Ticket: # 4037371 - Verizon billing

Date: 6/18/2020 6:28:35 PM

City/State/Zip: Scottsdale, Arizona 85255

Company Complaining About: Verizon Wireless

Description

Verizon wireless offered a pandemic overage allowance of 15 GB per month on all accounts. However they cut off that allowance midway through the latest billing period for my account. They do not give access to data usage for particular days during the billing period. On the billing statement for the period May 16 -June 15 2020, they show data overage usage as 12.93 GB out of a 13 GB overage allowance. Total usage for the period was 22.93 GB. This was from use of Verizon's hotspot service necessitated by poor internet coverage I had during the month from an ISP that I have since dismissed. Verizon charged me $13 \times \$15/\text{GB} = \195 for overage data. On my inquiry call to them they claim that all of my overage was after the expiration of their allowance, but they cannot show me the data proving that. Since the allowance during the billing period was 25 GB and my usage was under that, I feel I should not have to pay the full amount they are charging for the alleged overage, if anything at all.

Ticket: # 4037402 - TV & Internet service issues with Cox

Date: 6/18/2020 6:48:33 PM

City/State/Zip: Laguna Niguel, California 92677-2735

Company Complaining About: Cox

Description

Hello...

Cox was unable to resolve constant service issues at my home re: TV and Internet (which also impacted the alarm). I even signed up for the monthly service charge but the technicians would not enter my home (covid19) to service the issues. I have not cancelled my policy with Cox, after 1.5yrs of a 2yr contract. Cox is trying to bill me for the balance of the contract, but they could not correct the service issues. Therefore, I see no reason to pay the contract in full, given that I did not receive the service per the contract. Please help me communicate to Cox. I have called and called them. All phone calls are recorded. I give the FCC permission and access to review those many calls to Cox. Thank you (b) [REDACTED]

Ticket: # 4037496 - Bill

Date: 6/18/2020 7:31:38 PM

City/State/Zip: Westminster, Maryland 21157

Company Complaining About: Verizon Wireless

Description

I called June 14 & spoke to Mary. She was supposed to order me a plantronics 5200. She checked with her supervisor to make sure she could send it overnight. It never arrived Tuesday as promised. She said she was working from home due to the pandemic. Im so confused as to why it never arrived. She said it was available! And when I asked her why my bill increased she was clueless. My Verizon wireless bill increased \$15. I was told that I had an ongoing monthly credit for as long as I have Verizon service!

Ticket: # 4037657 - Internet price raised, took away my discount

Date: 6/18/2020 9:46:09 PM

City/State/Zip: West Palm Beach, Florida 33411

Company Complaining About: AT&T

Description

I went to pay my bill and found AT&T raised my \$36.00 internet promotion to \$56.00 a month. I had a special discount at my request because I was having difficulties paying my bill. Since they shut me off without notice during the pandemic, which they were not suppose to shut me off during the pandemic, the office of President, Mike had service turned back on without a restoral fee. Well apparently they are getting the restoral fee by raising the rate monthly by \$36.00. This is unfair and should not be allowed. This company plays games with their customers bills in hopes that the customers will not notice. Because they shut off my internet without prior notice, they caused my to loose my job because I was suppose to have started working from home the day they shut off my service. So they have hit me with a double whammy. The claim they gave me a credit of \$75.00, but then take back \$36.00 of that credit. How unfair is this company and how can they get away with these things. My promotional discount was still good for another 3 months. This company does what ever they want to do. Who plays games with their loyal customers during a worldwide pandemic where everyone is struggling for money? What a horrible company to do this when I have been their customer for 30 + years?

City/State/Zip: Bath Springs, Tennessee 38311

Company Complaining About: AT&T

Description

I work for the State of TN in health care, and every since we had storm damage in March I have had ZERO service at work in Decaturville TN. With all the COVID going on I CAN NOT keep my work phone tied up especially for personally use. There should be no reason I can't use my cell that I pay \$129 a month for in town!!

Ticket: # 4038231 - covid19

Date: 6/19/2020 11:16:18 AM

City/State/Zip: Suwanee, Georgia 30024

Company Complaining About: AT&T

Description

I did an upgrade with AT&T over a month ago and it was a fiasco. The AT&T Authorized dealer added a second phone AND second line to my account. I do not have but one phone and one line. They shut my phone off last month because I did not pay the second line and phone bill. To get it back on, I paid it. I can't get anyone to help resolve this issue. Please help.

Ticket: # 4038256 - Unreasonable/Unethical billing practice/policy change during Covid

Date: 6/19/2020 11:22:29 AM

City/State/Zip: Plano, Texas 75075

Company Complaining About: Frontier Communications

Description

I called in to cancel my internet FIOS service with Frontier today due to change in personal circumstances. I was expecting a small prorated refund as that has been my experience with cable, phone, car insurance and really any other service providers as well as Frontier a few years ago. Thus I was appalled when the agent told me that not only I was not to get a single cent back I would also be hit with a disconnect fee which is something I've never heard of since I started service with Frontier in 2018. Given that I prepaid for the next month of service from 6/07 to 7/06, I called in to cancel the service on 6/19 I would reasonably expect my last month of bill be prorated and a refund be issued, however the agent said that's no longer the case. I asked I wasn't aware of this change in policy and was never communicated such change. She said the terms are on page 2 of my bill. I went back and pulled it up a few of my past billing statements and viola this new verbiage is only inserted in my June bill (see attached). As my account is on autopay thus I don't usually check my bills but as I went back to check the older statements I did not notice any such language on any of the older bills. I have not received any communication or was not made aware of this policy change in any way shape or means nor was there a grace period for this policy to take effect. It is disappointing for Frontier to institute such customer unfriendly practices during this time. Based on the above, I'd respectfully ask Frontier to re-evaluate my account as I had not been late on a single payment once over the last 2 years, and prorate my last month's bill based on my cancellation date and waive the disconnect fee as both are not fees/services charges I was made aware/properly informed over the last 2 years and issue me the prorated refund no matter how small as I believe this is the right thing for business to do, especially during this very difficult time when people can't plan ahead about their life given the unusual circumstances. If Frontier Corporate can do the right thing here, you'd earn my respect as well as business going forward. Sincerely Yours.

Ticket: # 4038523 - Wow Internet - Service not provided

Date: 6/19/2020 12:28:37 PM

City/State/Zip: Augusta, Georgia 30909

Company Complaining About: Wow

Description

I am like many during the pandemic who have been transitioned to work-from-home. My work is text-based, emails and small documents only. We have had Wow! Internet for 18 days now, and have experienced 5 internet outages, of several hours each, during business hours.

If I don't work, I don't get paid. This is a problem.

I am a good customer, with a credit already on my account and another payment on the way to them as I type this. They never have to ask me for money. All I ask is that I get the service I am paying for. So far, that has not happened, and they cannot tell me when this situation will improve - or event IF it will improve.

The outages are not at my home. They are AREA outages, as explained by the company to me. But their policy is that they have to send a technician out to my home a minimum of 5 times in one month before they can let me out of the contract - and of course there is a fee incurred each time. Without those visits, I owe them more than \$300. But that many visits will cost me \$300.

Ironically, they have already cost me more than \$300 in unpaid wages.

This is ridiculous. They have specifically said that they cannot provide the service for which I have contracted. I would like to be let out of my contract and allowed to move to a service that is consistent. Though I loathe xfinity/Comcast, I never experienced this issue with them.

Ticket: # 4038657 - Suddenlink Internet provider

Date: 6/19/2020 1:02:50 PM

City/State/Zip: Cabot, Arkansas 72023

Company Complaining About: Sudden Link

Description

This is the WORST service we've ever had. There is no phone number listed for our local office in Cabot, AR. I realize it's currently closed due to COVID-19 but this was a problem before issues with the virus began. Our only option is to call 844-874-7558 and wait an eternity to speak to someone that barely understands English. I called this number last week because my husband is working from home and internet kept going out in the middle of his work day. The rep assured me we had a strong signal and this wouldn't happen again. Instead, we are dealing with daily service interruptions. Please help. We only have two internet service providers in our area and they are both terrible. I don't want my husband to lose his job because of our lack of internet. In the meantime, I'm on hold AGAIN waiting to see if they will ever send a tech to solve the problem.

Ticket: # 4038785 - Billing and Customer Service

Date: 6/19/2020 1:35:04 PM

City/State/Zip: Russiaville, Indiana 46979

Company Complaining About: AT&T

Description

Employees have refused to work with me during this pandemic. I made a payment arrangement for June 30, 2020 and when I call them it says they say the payment arrangement says June 19, 2020. I have email and text message proof of it being set for June 30, 2020. I also have a screenshot from the At&t App that says June 30, 2020. Last month they told me that they only have to help for 60 days but I thought the website said 90 days. I want AT&T to make sure that my payment arrangement stays for June 30, 2020.

Company Complaining About: Frontier Communications

Description

Consumer is having problems with Frontier Communications. Consumer states that on May.20.2020 she started to notice that her internet was going back and forth. Consumer waited to see if the service will improve but it did not so she called consumer service to report her problem. While she was on the phone with the agent she was told that she might needed a new modem because the one that they gave her it was a year old 2019 version. Consumer did the troubleshooting with the agent and the person stated that on their end everything was on place, but if the wi-fi di not improve to call back to order the modem. Consumer internet never improve so she called back to get the modem. Consumer states that the new agent did not know anything of what the person was talking about and when she requested the modem they told her that they were going to send it on mail. Consumer needs help on connected the new modem and they do not want to send out someone to connected the modem. Consumer needs help and consumer was told that she was going to be charge for the visit while she is already paying for protection on the sub chargers on her bill. Consumer wants the modem 2020 installed in her house. Consumer states that she did not do anything to the modem and that this is on their end to fix.

Ticket: # 4039222 - Billing discrepancies

Date: 6/19/2020 3:32:19 PM

City/State/Zip: Forest Hills, Kentucky 41527

Company Complaining About: Sudden Link

Description

For the past several months (Nov 2019 till June 2020) we are having constant problem with bill payments.

Every month we have to call the customer service center and ask for discrepancies in the billing statement.

We have been paying our monthly due properly for the past 13 of 14 years.

This month in the billing statement we had incurred \$118.26 additional amount stating partial month activity from March 3/13 to 6/17.

We have paid the bills for March till May 2020 without seeing any of these charges for those months. If there was a charge for March it should have appeared in the month of April about this partial month activity.

Contacted the representative every month regarding discrepancies and during those calls we were not given any information on this partial month activity information.

Ms. Julian on 6-17-2020 at 2:46 P.M contacted me and informed about this amount and asked her why and she could not give an answer to it. She said that it was for change for service. We never asked for any changes in service for the months from April to June except in March 2020 regarding increase in the internet to 400. The amount should be only \$30. This has been notified to customer service personal and they mentioned to me that it has been changed and have not seen in the bill so far.

Ms. Julian asked me to go directly to Prestonsburg office to clarify this and when I went it was closed due to COVID-19. This person does not even know what is happening to places where a person can go in person for remitting the payments.

Our county is also taken action against Suddenlink due to problems the community is facing.

I request you to look into the matter and do the needful. I can provide all the necessary documents for your perusal.

Company Complaining About: Sudden Link

Description

I been having issues with my cable since before COVID19, I contacted Suddenlink about , they would constantly boot it on their end , still not fix . The pictures froze , pixelates and cut off. I contacted Suddenlink again through Chat they send tech , the tech came over check all the cable wires he said there's no problem on our wires he said it's the main box the hub and that he will send the report in , so he left cable still doesn't work , we have not cable , I contacted Suddenlink just to make sure do the got the report , well the tech did not turn it in he reported that nobody home . So I was told to just go to the Suddenlink store and swap my cable box . I went to the store I was stopped at the door was told that they don't swap cable box , but the lady said she will put in report (3) now a tech is coming to my house Wednesday. On Wednesday he came did exactly what tech number one did , same report it's not our wires, it's the main cable hub . He said he will talk to his supervisor and see .. he left still mess cable .. now I chat again with Suddenlink Jose he had the nerve to ask me what do you want me to do about it , I told him , I want Suddenlink go fix the hub main cable box , he wanted to send another tech to May home and charge me 60.00 I refuse, I want my cable to work correctly

Ticket: # 4039881 - Chronic equipment Failure

Date: 6/19/2020 7:50:35 PM

City/State/Zip: Frisco, Texas 75036

Company Complaining About: AT&T

Description

I have Internet, wireless Phone and TV service with ATT. I have had several equipment issues and malfunctions with my U-Verse equipment. I have tried using Tech Support and been unsuccessful in getting help to resolve my issues. I have even paid for and outside tech service to come to my home to resolve something that could have been resolved with tech support. Today I called tech support for Tv issues again and again I was told they were able to help me I was told a tech support person would have to come to my home to trouble shoot the problem. This leaves my family without TV service for the whole weekend. I spoke with The loyalty team regarding this(Christina) and was no help in getting my problem resolved. ATT has neglected to provide proper working equipment and service as well as customer support. It is a shame that a customer has to write a letter to the FCC in order to get the service that we deserve and pay for ATT has also used the Covid Pandemic as an excuse in the past for slow service in which I understand but POOR and RUDE customer service has nothing to do with the pandemic it and is unexceptable.

Ticket: # 4039991 - AT&T Refuses to fix their tower

Date: 6/19/2020 9:28:38 PM

City/State/Zip: Frierson, Louisiana 71027

Company Complaining About: AT&T

Description

We have had AT&T fixed wireless service for more than a year and it has worked fine. In early March of this year, a lightning storm damaged the equipment on their tower. It completely knocked out Sector# 310410048067477. Their engineers keep reporting that the tower is working fine, even though on multiple occasions the contracted techs they send out to check our equipment have gone all the way to the base of the tower and checked the signal from there and reported IT IS STILL DOWN.

We have been without internet now for 3 months. The technicians that they have sent out (at least 10 tech visits to our house) all say the same thing: "The tower is STILL DOWN in this sector. They still haven't fixed it"

It has been suggested to several times by the technicians that the reason they have not replaced the equipment on the tower is because so few people are utilizing Sector# 310410048067477 so this won't justify the expense of replacing the necessary equipment.

PLEASE help me. I have had to go into work daily during this pandemic and risk mine and my families health because of AT&Ts incompetence and indifference. I am fortunate to have the option to work from home, but I require an internet connection.

I am also a public official, DeSoto Parish School Board Member. I have already missed one virtual online school board meeting due to this service interruption.

In summary, AT&T has accepted massive funding from the government to provide this rural internet access. They now refuse to fix the equipment they installed on their tower that was damaged by lightning back in March.

Ticket: # 4040026 - att shut my service off

Company Complaining About: AT&T

Description

on June 18th, 2020 AT&T shut my phone service off due to non payment, att signed an agreement with the FCC staying they would not shut services off until June 30th, 2020 due to COVID-19 but yet my phone was still disconnected and I will be charged a reactivation fee because of it .

Ticket: # 4040053 - ATT device returns & refunds

Date: 6/19/2020 11:01:49 PM

City/State/Zip: Turnersville, New Jersey 08012

Company Complaining About: AT&T

Description

On September 13, 2019 I purchased an apple watch (online from AT&T) series 4. I had some technical issues with the device, I called customer service and the issue persisted, so I returned the item via mail (a prepaid label that AT&T provided in the package) tracking number [REDACTED] (b) (6). I have attached the tracking information below.

I honestly have lost the amount of calls I have made to AT&T regarding this issue. I have been giving a significant amount of case numbers that have led to no solution, but to continue to charge me for the device and the monthly service because they never received the item.

I reached out to the third party company who AT&T has contracted to handle their packages(after usps newgistics picks up the packages for them) "newgistics" which is handled by Pitney Bowes. They informed me that on their end it shows that *Proof tender over to return to agent* which means it is under the possession of newgistics. However, they were not certain on the language that was being used and they asked that for this to be resolved AT&T would have to call newgistics on my behalf. I called ATT to attempt that to which I was placed on hold for 5 hours and then 3 hours and both calls were ended by ATT. It has come to the point that I wasn't able to afford my bill along with the pandemic and I had to get the services shut down as they were continuing to charge me for the apple watch that is in the possession of newgistics since September of 2019.

AT&T has ultimately not helped me with locating a device that is not in my possession and would not help me locate it with the 3rd party company they have used for returning devices.

My name is (b) (6) [REDACTED]

Ticket: # 4040125 - Sprint treating me and my family horribly

Date: 6/20/2020 4:04:56 AM

City/State/Zip: Lake Forest, California 92630

Company Complaining About: Sprint

Description

Hi ,

We do have a family wireless plan with Sprint and our account number is : (b) (6) . Our service has been horrible since their merger with T-Mobile and in our new place we barely receive any calls . This has been a giant issue since my parents are elderly and they should be able to reach me in the midst of this current public health crisis . I went to the Sprint store multiple times try to explain to them the issue , return our phones and get out of our contract . But each time I went into the Sprint I have been told by Sprint that I need to pay a hefty penalty if I want to get out and been dismissed in a condescending / racist fashion . This is not fair , I have no coverage , I get dropped calls everyday and my parents need to reach me especially in this current pandemic situation . Our phones are in perfect condition , all I want is for us is to return Sprint phones and end our Sprint contract . We should not be responsible for any fees/penalties , this is not our fault , it's theirs and their horrendous network coverage .

Thank you ,

(b) (6)

Ticket: # 4040218 - Poor quality to no internet service

Date: 6/20/2020 9:46:37 AM

City/State/Zip: Navasota, Texas 77868-8301

Company Complaining About: AT&T

Description

Throughout the weeks, and of course since Covid-19, our internet service has continued to deteriorate. I do understand there are more people using this service and that will result in slower speeds but constantly being down and always being told there is an internet outage in our area is getting pretty tiring. We are six miles from a tower with fixed wireless internet service. If this is all that AT&T can provide, we should not be being charged for our service at all. My last month bill was only apparently \$4.30 and this month, the service is no better and we have been down two out of the 4 weeks.

Ticket: # 4040287 - Bait & Switch

Date: 6/20/2020 11:14:28 AM

City/State/Zip: Hernando, Florida 34442

Company Complaining About: Spectrum

Description

Field Representative, Mr Tim Card stopped by our home and asked what provider we currently had for internet phone and cable. Stated to Mr. Card that our current provider was Centurylink and we were happy with their service. Mr. Card stated to both I, my partner and her sister who reside in the home with me that he could offer the same at half the price along with 120 channels included for \$34.00 plus taxes. The billing came in and showed normal billing of \$117.00. Called Spectrum and spoke to a CSR who stated that what we were told was wrong. The only relief she could offer was to disconnect the TV and phone which was added without disclosing and the internet speed in which we had with Centurylink would be cut in half. At this point we were angry that Spectrum Rep lied to us just to get our business. She then transferred me to their retention center to find a resolution. I then spoke to Mike in this department who told us that their field reps lie and that we should never speak to them. He refused to honor the contract in which Tim Card had promised, refused to provide the speed we had with Centurylink for the price we were told. On top of this we are now required to take the box to UPS and drop off. Due to the COVID pandemic and our health we have been afraid to go out in Public areas. The resolution that we expect is to honor the commitment that the field representative stated

Which is 120 channels with internet for two years at the rate of 34.00 with applicable taxes.

Ticket: # 4040389 - Billing - Verizon Wireless

Date: 6/20/2020 12:53:10 PM

City/State/Zip: Tulsa, Oklahoma 74130

Company Complaining About: Verizon Wireless

Description

My phone was disconnected on May 20th due to not being able to make a payment on my Verizon account. I was charged reconnect fees for each line on my account, when Verizon vowed to not assess late fees, or disconnect phones during the pandemic. I have just spoken to Verizon, and I was advised that I had to call and notify them of my hardship. Why did American citizens have to call and advise of our hardships, when the entire world was struggling with this pandemic?! I feel Verizon, and all other cell companies should've followed the direction of auto insurance companies and many others; and just agreed to no disconnections or late fees across the board, with or without customers contacting them as we were all affected in some way! Most of the time, we are unable to reach representatives by phone, as we get recorded messages advising our calls can't go through from their end, had to call the number 3 times to get it to finally connect to the automated system to be transferred to a rep.

Ticket: # 4040579 - Billing and Access

I attempted to put my Spectrum account on hold due to COVID related reasons. Spectrum continued to charge me and I disputed the charges. Now that my account is in dispute, Spectrum has discontinued my service and I have no access to internet. Unfortunately, there are no other providers in my building.

Ticket: # 4040588 - Billed for services not rendered

Date: 6/20/2020 3:46:28 PM

City/State/Zip: Porter, Texas 77365

Company Complaining About: Sudden Link

Description

I have had no cable service for 8 weeks and they keep charging my account for technical visits that no show or I did not set. The issue after 7 technicians have arrived is in the plant. I have logged over 28hrs of calls to their various departments. I have had my other services disconnected for non payment of services I had not even received for the most part. I have cried, begged and offered a solution.(make me a new account and fix this one later). My bill keeps rising and my credit is suffering greatly. My bill is over 500 now! And they say theyll disconnect if I do not pay it. Or say theyll put a hold on it until they fix my issues but I get disconnected for non payment anyway. During the entire National emergency I have not had TV and many days of no internet after I paid. 3 months ago was my 1st issue w the internet, they came and fixed it and 4 days later the cable went out and hasnt come back. They're charging me without giving me my services I pay for. 3 MONTHS during a National Pandemic and no way to get the emergency information.

Ticket: # 4040604 - Refusal to credit account for device received

Date: 6/20/2020 4:16:20 PM

City/State/Zip: Winter Springs, Florida 32708

Company Complaining About: Verizon Wireless

Description

My household was due for an upgrade for a device and returned the old device to their processing center as all in-person locations were closed due to COVID. On our May billing statement, we realized that the device was not accounted for and we were charged an additional \$349. My husband called three times to speak about the shipping of the device and was told that our phone lines would not be cut and that once he provided confirmation of receipt, they would adjust the amount owed. He provided this to them twice. On June 8th, 2020, our phone lines were cut due to non-payment. I immediately called and spoke with a representative who insisted I pay the full amount. After 30 minutes of waiting, his manager was able to confirm that the device was actually received on June 1st, 2020 and was "just not processed." No other explanation given. At that point in time, I was told that I still needed to pay the extra \$349 even though they had the device in their possession and that "they would credit it back on the next billing cycle." I was pressured several times to just pay the amount, but I refused to pay the additional money as they were incapable of processing a device, so I definitely don't trust they will return my money. I was transferred to billing services who confirmed the receipt of the device, claimed they would waive any re-connection fee and customer service fee (yes, they charge \$7/phone call to speak to a live person) and that my bill would be adjusted in 5-7 business days. It is now June 20th and no adjustment has been made, and Verizon still considers my account in collection status. It is impossible to get a hold of a live representative, and the "virtual chat assistant" simply gives me automated messages to pay my bill. This is now the SECOND time this has happened to us, the first time was in 2018. This seems to be an ongoing problem, and I feel that this company may be taking advantage of their customers by requesting money that is not owed and not resolving the situation until people are exasperated and give up. I feel that their billing practices and return practices should be investigated.

Ticket: # 4040637 - Suddenlink/Altice service

Date: 6/20/2020 4:50:44 PM

City/State/Zip: St. Albans, West Virginia 25177

Company Complaining About: Sudden Link

Description

I have had no internet service since 6/15/20. Due to COVID-19 I am currently working from home and reliable internet is necessary. I have contacted Suddenlink customer service and the only information they provide is that there is an outage and they are working on it. I have seen no evidence of any work being done. There is no weather or emergency-related issue.

Ticket: # 4040670 - Spectrum unused service charge

Date: 6/20/2020 5:14:44 PM

City/State/Zip: Victorville, California 92394

Company Complaining About: Charter

Description

I disconnected services on June 8th 2020 at 3:52 p.m. spectrum is charging me a whole month of service because cycle begins on the 4th of every month. I called and spoke to a manager and I told them I would pay the difference but not for the full month they said they couldn't do anything about it I tried to negotiate they refuse to help. Today is June 20th I called at 1:23 p.m. I believe this is unfair to be charged for services I didn't received. They also sent a statement with the past due balance saying it's due now on the same day that I canceled. Check the dates on the statement and receipt posted below. Even though I was impacted by covid-19 I was always up to date with my payments. Please help stop this unfairness going on with spectrum. Thank you

Ticket: # 4040791 - Zply Fiber/Frontier Communications Issues**Date:** 6/20/2020 7:45:37 PM**City/State/Zip:** Welches, Oregon 97067**Company Complaining About:** Zply Fiber

Description

I cannot attach a bill as the connection is too slow.

Our road was upgraded to DSL a little over ten years ago. Most people were on cable at the time, but our Internet provider decided that it would simply keep the phone line and choose to never upgrade the service. In ten years we have never had an increase in speeds from 3Mb/s, even as Oregon state government has been given funds to upgrade speeds in rural regions. Zply and Frontier are ignoring my household and my neighbors as we have been requesting faster speeds for years. We are far, far below the average suburban speeds, which puts us at a huge disadvantage during COVID 19 as we all try to work from home. Even worse, the speeds have fluctuated sometimes to completely cutting out several times (even as I write this).

Ticket: # 4040874 - Slow and unusable internet speed

Date: 6/20/2020 10:08:25 PM

City/State/Zip: Truckee, California 96169

Company Complaining About: Sudden Link

Description

During peak periods - weekends and evenings - the speed of the internet slows to the point it cannot be used. The advertised speed is 50+ MBPS but during peak periods the speed goes down to a few KBPS. During non peak periods all works well. The company insists that they must inspect my equipment and that they have no complaints about speed in the neighborhood, but that is not true. They will not accept the possibility the bandwidth may be a problem, which it must be as everything works fine during non peak times. Need to increase bandwidth. No need to have any employee in the house during COVID time as they insist.

Ticket: # 4040943 - Xfinity Service Outages and Non-Responsiveness**Date:** 6/21/2020 2:00:50 AM**City/State/Zip:** Seattle, Washington 98144**Company Complaining About:** Comcast

Description

Xfinity has a monopoly in many urban areas. This leads to poor quality of service and the inability for customers to get reliable high speed internet. My issue is that Comcast took down my neighborhoods network for 5 days and as a customer there's nothing I can do and nobody looking at the problem, this impacts my career and the career's for many people in my neighborhood during COVID-19 and the new remote working strategy that comes along with it. I suggest that the US government no longer provides funding in any capacity to Comcast/Xfinity, allow for municipal internet and spur on competition in this market by allowing for spectrum auctions and dark fiber usage by smaller companies.

Ticket: # 4040961 - Unfair pricing

Date: 6/21/2020 3:20:26 AM

City/State/Zip: Abilene, Texas 79603

Company Complaining About: Sudden Link

Description

I recently added services due to the pandemic I was forced to leave the office and work from home I got the fastest package of internet. The 1 gig and they advertised 85-90 a month price for life I am not sure of my exact amount as I opted for paperless billing and was promised a 50 amazon gift card. Not even a month later and they come out with a 75 per month price for life for the same one gig. I called to get that rate but they said it was only available to new customers. That is unacceptable how can they possibly offer a price for life on the same services but force certain customers to pay more for the exact same service? I pay timely everytime and even early. Its seems unethical that they would charge a price for life and have some customers paying more for absolutely no reason and refuse to offer all their customers who opted for their highest price plan at this lower rate of 75 a month. It already difficult enough with the pandemic and now they are forcing some customers to pay more than others on the EXACT same service.

Ticket: # 4041001 - Verizon Internet**Date:** 6/21/2020 8:37:26 AM**City/State/Zip:** Henrico, Virginia 23294**Company Complaining About:** Verizon

Description

We have been a Verizon prepaid customer for a while. For over 6 months, I have contacted Verizon in regard to poor internet quality. Initially, they only offered 50/50 fios service for prepaid customers. We utilized that, while renting their modem for an additional \$15/ month, total monthly charge, \$65. My wife works from home, has been prior to covid19. The service stability has worsened prior to, and after, covid19 appeared. After numerous trouble tickets with Verizon, more than 7, still no technical support person from Verizon could resolve anything. We made a decision to change to their newly offered increased internet speed, thinking this changed October or November last year (unknown to us). This change was done June 5 or June 8, as well as paying the internet renewal for services through July 5 or July 8. For 2 weeks after, I continually contacted Verizon technical support through chat, phone hold times after outrageous, still no resolution. Come to find out, changing to the new speed meant a new router is needed. NO ONE MADE THAT KNOWN WHILE SUPPOSEDLY OFFERING TECHNICAL SUPPORT. On June 20, I spoke with a chat representative who stated her name was Red. She said ok I'll get you the router you need, previously she said router was outdated for the speeds but he couldn't place order billing had to. She stated she spoke with a supervisor who approved a credit on the account for \$69, and I could STILL rent the new router monthly for \$15. Well, of course, our call dropped, no callback from Red the 2nd time. Spoke to a new rep, who confirmed Red the credit should be on my account, still isn't. Now we wake up today and our internet is off! This is unacceptable. Verizon phone and chat services are unavailable today. As large as this company is, this is ridiculous and they are a rip off. Meanwhile, my wife has to log in for work at 8 a.m. Monday morning. This poor internet and customer service from Verizon needs to be addressed and resolved. Ridiculous. Then after Red states she was fixing the issue and adding router to be rented monthly, I get an email indicating \$200+ is due by July, charging me for a router and shipping.

Ticket: # 4041005 - ATT Fixed Wireless Scam**Date:** 6/21/2020 8:44:04 AM**City/State/Zip:** Spurger, Texas 77660**Company Complaining About:** AT&T

Description

I live in a rural community and pay for ATT's Fixed Wireless internet service. I have had this service for 3 months. Over that 3 month span ATT had failed to provide internet service for over 15% of the period, claiming that there are issues with the tower.

Since Covid I have been forced to work from home and rely on internet to perform my job, by necessity. ATT is impacting my ability to earn a living and I am forced (by necessity) to have HughesNet as a backup, and much slower connection.

ATT is discriminating against me and my community as if this was an outage in an urban center it would be fixed within hours, not weeks. I don't think it is unreasonable to expect the service that ATT sold me and others in my community. Their local quasi-monopoly position does not give me, or my community, relief of other practical option.

ATT should have a Service Level Agreement with consumers of their product that provides for clear and actionable timelines for Internet Service Interruptions, and should have to compensate (be held accountable) for failure to meet the Service Level Agreement. Otherwise, small consumers, like myself, are held hostage by these large companies.

Ticket: # 4041048 - Fraudulent /deceptive billing practices by Spectrum TV, Phone Internet

Date: 6/21/2020 10:44:56 AM

City/State/Zip: Beverly Hills, California 90209

Company Complaining About: Spectrum

Description

In April during Covid19 contacted Spectrum to cancel my service. Spectrum representative convinced me that in lieu of cancelling Spectrum would reduce my bill. When May bill came none of the promised reductions were applied on my bill. I called again on May 21, 2020, and told Spectrum to cancel my service, because none of the promised reductions had occurred. The Spectrum rep. said that the changes were not showing in the system, but they could tell the acct. was accessed. Spectrum said it would confirm in writing it was reducing my monthly bill by \$ 51.83 (received email confirmation from Spectrum), and it could be reduced an additional \$ 12 if the DVR was returned, so I kept the Spectrum service. My June bill comes, and once again no reduction was applied on the account. When I called Spectrum about the false/deceptive billing statement, only after telling them I had an email confirming the new billing charges did they concede, but stated I had to go online to see that my actual bill was less than what their billing statement that they are sending to their customers for payment. They are intentionally sending out false paper billing statements. Its fraud. Attached below is documentation supporting the fraud.

Ticket: # 4041051 - Tracking software

Date: 6/21/2020 11:06:03 AM

City/State/Zip: Roseville, California 95661

Company Complaining About: AT&T

Description

I have just found out that Google has downloaded covid-19 tracking software on my android phone without my knowledge or permission. This has happened to several people that I know.

Ticket: # 4041081 - Verizon DSL Broadband**Date:** 6/21/2020 12:18:17 PM**City/State/Zip:** Beverly, Massachusetts 01915**Company Complaining About:** Verizon

Description

My DSL Broadband rarely rises above 2.89 mbps download speed. I recently purchased a gaming subscription to Stadia for my son, which requires 10 mbps download speed. I can't use it and now have to cancel because even though Verizon says they will provide up to 15 mbps, this is never the case. I'm then sent a million FIOS solicitations which is more money and in-home installation required during a pandemic.

In Essex County (01915), approximately 6,000 people do not have access to 25 Mbps wired broadband.

25 Mbps download and 3 Mbps upload is the minimum speed for an Internet connection to be classified as "Broadband" by the FCC.

Company Complaining About: Sonic

Description

Sonic has promised 12 download/2 upload for years but I have been getting 6-7 download and 1 upload for 70 a month. They have been levying lot of taxes.

They keep telling me they see 12/2 on their side, but we do not see that. I have talked with other people and they said they saw the same thing but they do not want to get involved because they are OK with the speeds.

This is becoming a serious issue during Covid-19 times when people are WFH and need to do video conferencing. With 5-6 download and 1 upload, this does not work for \$70 a month.

Ticket: # 4041377 - Phone service shut off without notice

Date: 6/21/2020 9:14:11 PM

City/State/Zip: Portland, Oregon 97211

Company Complaining About: AT&T

Description

My phone service was shut off without any warning. This was during the COVID-19 pandemic on 5/14/20. When I attempted to call I was unable to speak to a customer service associate until the payment was made in full. The Associate indicated to me that this issue had happened to "several of the AT&T members." I should have had an opportunity to dispute this payment prior to making a mandatory payment!

Ticket: # 4041380 - Another outage tonight .

Date: 6/21/2020 9:28:27 PM

City/State/Zip: Julian, Pennsylvania 16844

Company Complaining About: Zito Media, Inc.

Description

There is another multiple hour outage tonight with no updates on when it might be fixed. With having to work from home because of the coronavirus I have no idea what I'm supposed to do when my ISP is continually having multiple day service outages. This is truly ridiculous.

Ticket: # 4041412 - Billing I Refusal to remove installment for a returned phone**Date:** 6/21/2020 11:25:55 PM**City/State/Zip:** Huntsville, Alabama 35810**Company Complaining About:** AT&T

Description

I upgraded phones (SAMSUNG Galaxy S9) at the end of August 2019, received new phones (IPHONES) on August 31 and October 1, 2019. I returned two Samsung S9 in the provided boxes. In March, I see that AT&T started charging me for the Galaxy S9 phone. I contacted them and was given a credit. The manager said that it (phone) had to be in the warehouse and still processing. Well.. it June 21st and I am still fighting because AT&T refuses to accept the fact(s) I have provided. I have provided the tracking from USPS, as well as, Newgistics. I even contacted the USPS - Post Master, which informed me that the package was sent and that AT&T could not dispute the tracking information. The USPS was wrong, AT&T refuses to accept the information and will not respond to my request to remove the installation charge or return the phone to me. In addition to the phone dispute, AT&T owed me money/credit, and shut off my phone. They had me go to the corporate store in Huntsville AL to assist with locating the phone. This was during the pandemic and I am a high risk senior. The manager said she could not help, she did not know why they sent me there, and service would not be interrupted. Well, they interrupted service and can you believe they have the audacity to charge me a restore fee. I have had enough!

Here is the chronological order of my interactions and request for assistance. Under the current circumstances and my health conditions, this has been quite stressful.

** Contacted Benjamin – August 18th 2019 – online Chat to inquire about promotion I was emailed. I have a copy of the chat.

1. Jobine - Called tollfree number and she took order (August 2019)
2. Jobine - called for assistance to activate phones
3. Jobine - assisted with port of a number - called again because I received an email that one phone was received. Jobine stated that the warehouse was running behind.
4. [REDACTED] - March 27th - 2:09pm (6 HOURS ON THE PHONE) I identified that there was an installment for the Galaxy S9 phone I shipped, so I contacted them with the tracking number and photos of the boxes I sent. I was given a case number (CM20200327_145065156) and told I would receive a text or call. I AM STILL WAITING !!!
5. Jessie - March 27th -3:55 PM - Transferred to another department.
6. Crystal - April 20th 11:06 *****TRANSFERS & DISCONNECT START
7. Marissa - April 20th - told that I did not need to add a line, so I was transferred.
8. Gary -April 20th - transferred to another department
9. Denise - April 20th Told to call Rewards - Nothing done (7.5 hours on the phone)
10. Cami G - April 23 2020 -Social Media Specialist - Posted a need for assistance - Nothing done
11. Maurice C - April 24, 2020 - Social Media Specialist - Posted a need for assistance -Nothing done
12. Carlton - April 25, 2020 - Social Media Specialist - Told to call rewards department
13. Brian - April 26 2020 - Rewards Department -Told wrong department
13. Brian - April 26 2020 - I spent 8 HOURS on the phone _ Steve told me that they could not find phones. Provide another number to call

14. Ruth - May 3 2020 - WRONG DEPARTMENT AGAIN. Told to call DMDR. Suggested that I go to a corporate store during the Pandemic (2.5 hours on the phone)
15. Corporate Store- May 18 2020 - 11:00 AM- Asked for Manager at the Corporate store. She said.... I don't know why the told you to come here...I cant help. There's a case number and I don't know why they haven't helped. I told her that I wanted to get this resolved and did not want service interrupted. Manger said " DONT WORRY.....AT&T are working with customers till JUNE...YOU ARE OK. (3 hours)
16. Yolonda - May 18 2020 Called back and was told that she found the phone and I would get a credit. Also told that I did not need to add the line to receive the upgrade BOGO offer. After an hour on the phone... she transferred me to Loyalty Dept to cancel the added line. (4 Hours on the phone before transfer) Waited 45 minutes to be told by ALEX that he didn't know if that was correct.
17. AT THIS POINT on May 20th 2020 - I WAS DUE A CREDIT OF ABOUT \$170.00. AT&T DISCONNECTED SERVICE DURING A PANDEMIC IN ADDITION TO OWING ME MONEY.
18. Jose - May 20 202 - COLLECTIONS DEPT - Service was interrupted - 30 minute hold - TRANSFERED (1 hour on the phone before I requested a manager)
19. Jodie - May 20, 2020 - I requested a Manager
20. Archie - May 2020 - On the phone for a while (5 HOURS) and ARCHIE said " I MUST GET OFF THE PHONE BECAUSE I HAVE BEEN ON THE PHONE WITH YOU TOO LONG AND WE ARE LIMITED ON HOW LONG WE CAN ASSIST. I requested a Manager. I was told a Manager would call me later.
21. Manager - May 20, 2020 - Called me and provided a credit. I was told that this would not be an issue on the next month. I asked for a credit on the restore fee because AT&T owed me money. Manager stated that I could get the credit back but would need to call in next month because it was not on the bill yet.
22. Carlos - June 18, 2020- 3:21 pm -Installment fee is back on the phone I returned (\$32.96). Also restore fee (\$35.00). On the phone with Carlos for 1.25 hour before he understood the frustrations and did not know why no one responded to the case. He got a manager on the line.
23. George -Manager said could help, but could not. Told me loyalty department. I asked for the number for DMDR and was provided the wrong number.
24. Iris - June 18 2020 - 4:51 pm - Tried to help - Said She was puzzled why no one responded to case numbers. She took details and provided two case number (CM20200618_145928528 & CM20200618_145928530). She said she wanted to assist. Her suggestions that the phone be returned to me and the added line be removed. Her hands were tied, some notes in the system preventing credits. TRANSFERED to Loyalty Department. (2.25 HOURS on the Phone)
25. Jen - June 18 2020 waited on hold 30 minutes. She could not help TRANSFER to Manager. (1 Hour on the Phone)
26. Heraldo - June 18 2020 - Manager _ I asked for number to DMDR Dept. He provided the wrong number. 1-866-895-1099 - I DECIDED TO QUIT AFTER 3 .5 HOURS ON THE PHONE

So, today June 21, 2020 I am being charged an installment fee for a Samsung Galaxy S9 I returned on OCT 5 2019. In addition, I was charged a restore fee for a disconnect when AT&T owed me a substantial credits. I have attached the tracking information from USPS and Newgistics/Pitney Bowes for the records.

USPS - Postal Manager said that the phones were shipped, and they were then picked up / shipped from another carrier. (Newgistics)

Newgistics (1-877-860-5997) They do not answer the phone and you cannot leave a message.

I have been call Newgistics since April and no response.

AVERAGE HOURS ON HOLD, TRANSFERS, WRONG NUMBERS, DISCONNECTS, AND REPS WHO COULD NOT ASSIST = 8.5 HOURS EACH CALL

26 REP X 8.5 HOURS = 221 HOURS OF BEING ON THE PHONE WITH ONE COMPANY!!!

I EVEN CALLED AT&T CORPORATE (210-821-4105) AND LEFT VM.

I REQUEST THAT THE EITHER THE PHONE (SAMSUNG GALAXY 9) BE RETURNED , OR THE INSTALLMENT FEE BE REMOVED. (Especially if I am going still being charged for it), I ALSO NEED AN ANSWER ON WHETHER I NEEDED THE ADDITIONAL LINE FOR THE PROMO, AND A CREDIT FOR THE RESTORE FEE (which would not have happened IF...AT&T PAID ME THE CREDITS I WAS DUE).

I have send two emails, two instant messages, as well as endless chat attempts. I request immediate assistance.

Ticket: # 4041431 - Xfinity services

Date: 6/22/2020 12:44:29 AM

City/State/Zip: Littleton, Colorado 80128

Company Complaining About: Comcast

Description

We have Xfinity internet, tv and phone bundled and over the past two weeks our service has been down on three separate occasions. One of those occasions our internet was down for a day and a half, the other about 5 hours and again it is out tonight. I am extremely frustrated as my wife and I are to be working from home due to the pandemic, but cannot get anything done with the horrible service from Xfinity. We pay our bill on time every month no questions asked, but don't get the service we pay for. When it starts effecting our livelihood and our ability to work and make a living, something needs to be done.

Ticket: # 4041470 - False advertising and overcharging

Date: 6/22/2020 5:47:37 AM

City/State/Zip: West Monroe, Louisiana 71291

Company Complaining About: Comcast

Description

I have been contacting this company since April 2020 about a credit promised to me because of overage charges that were supposed to be waived due to the pandemic. I have not received the credits promised to me and have been lied to several times about getting the credit and charges waived. I have screenshots of conversation about credits being applied that were not and also of the bills I have paid overage charges on. Nothing has been resolved as of yet.

Ticket: # 4041474 - ATT issues

Date: 6/22/2020 6:41:44 AM

City/State/Zip: Rosemount, Minnesota 55068

Company Complaining About: AT&T

Description

Re: ATT issue – land line (b) (6)

Account numbers (b) (6)

Dear FCC:

I am writing to request your assistance with ATT. I have not been able to port my number from ATT to Spectrum (my new provider) as promised. I am also asking that ATT relieve me of the direct TV “contract” they believe is in effect.

My husband died last year. I called ATT in February to change the name on my accounts and to request a single bill as ATT was sending 2 bills for different services. Unbeknownst to me they closed the accounts and opened new ones. This led to several months of duplicate bills and each time I would call and spend hours on the phone to get a refund.

In March my land line stopped working. It took hours on the phone, a new sim card and eventually a trip out in a Pandemic to get a new box which I was charged \$200 to address the issue. In May my land line stopped working again. Hours were spent on the phone, being transferred to people who went thru the same steps repeatedly. I was sent to a store for another sim card which did not address the issue. ATT said they would replace the box. I requested to pick one up at a store as I had been without my landline for weeks – they said I would be charged another \$200. I requested an exception to allow me to replace in store as I am 80 years old, live alone and had not had a landline for weeks. They said no, if I went to the store they would charge me so I had to wait to have a replacement shipped. No one at ATT could help me I just had to wait.

I subsequently made the decision to go to another carrier and moved all my business – phone, internet and cable to that carrier. As of this writing my number has not been ported from ATT to my new carrier (Spectrum). I had to call ATT to reactivate my line. This required that they charge me and order a credit score. I had no payment issues on my accounts previously – but the person told me they could not opt out so I agreed.

When I cancelled my service, ATT told me I would be charged for the remainder of a direct TV contract. Because they gave me new account numbers back in February they said I was locked in for two years. This was not explained to me at the time and I had no intent of extending a contract when I called to change the name on the account.

I still do not have my land line working. I am asking for the FCC to assist in resolving this issue and with getting ATT to waive the penalty for breaking the “contract” for direct TV.

Lastly, I cannot emphasize enough how stressful this has been and continues to be. These providers should be required to support elderly and/or disabled customers in home if needed.

Sincerely,

(b) (6)

Ticket: # 4041625 - internet service

Date: 6/22/2020 10:01:31 AM

City/State/Zip: Watchung, New Jersey 07069

Company Complaining About: Optimum

Description

On and around July 15 2019 I signed a contract with Optimum for a year at \$59.15 and my bill today is \$69.15 it went up \$10.00 not \$1,2 OR 3 BUT IN ONE MONTH \$10.00. Today is June 8 2020 and my contract is not up yet but they raised my price already to 10.00 more dollars. I have called and it took me 45 minutes to get a customer service which told me in these words "That's the price Ms" He didn't even try to help or listen to me situation. This is not the first time ! I have been having problem's with this company and the attitude from there customer service. I have in the prior years spoken with a very nice supervisor by the name of John Trachen which was so very helpful. Now noone will even let me speak to a supervisor after a 45 minute wait. I HAVE BEEN A CUSTOMER FOR MANY YEAR OVER 15, AND OVER 10 DOLLARS THEY WILL LOSE ME MY BUSINESS. I AM NOT THE ONLY ONE THAT FILED COMPLAINS WITH THEM DUE TO THERE PRICES. THEY INCREASE MY BILL BUT 10 DOLLARS, NOT 1,2,3. I HAVE SPOKEN TO THEM AND THEY JUST DON'T SEEM TO UNDERSTAND THAT I HAVE BEEN A LOYAL CUCTOMER FOR THOSE MANY YEARS. THEY ARE WILL TO LOSE MY BUSINESS OVER 10 DOLLARS. IAM VERY UPSET AND DISCOURAGED ON HOW THEY TREAT THEIR COSTMERS > IF NOONE DOES ANYTHING ABOUT IT IT JUST TELL BUSINESS THAT THEY CAN RAISE THE PRICES WHEN THEY WANT TO . NOW WITH COVID 19 WHEN PEOPLE ARE OUT OF WORK THEY RAISED MY PRICE!!! THEY SHOULS BE ASHAMED OF THEM SELVES!!!

Ticket: # 4041819 - AT&T monopoly

Date: 6/22/2020 11:02:40 AM

City/State/Zip: Hull, Georgia 30646

Company Complaining About: AT&T

Description

We live at (b) (6). We purchased a brand new home in February of 2018. We found out that our home is wired for AT&T internet. We called them to come hook up our high speed internet and they replied with the fiber or bandwidth has not been run there. We asked them how long before it would be and they told us to call their offices. We have called several times and have received no help. We called Windstream, who provides internet service to our area to find out that since the house is wired for AT&T, they nor anyone else can provide us service. This is considered a monopoly to us. I am a school teacher and have two children. During this pandemic we have had to leave our home every day, so I can virtually teach my students and my children can do there own school work. This is unacceptable and something needs to be done as soon as possible. It is not fair for AT&T to control our house and us not be able to use another provider, such as Windstream who is willing to provide us service but can not. Please advise us as to what we can do. We look forward to a resolution to this ongoing problem. We are also going to contact the Federal Trade Commission and Department of Justice if this is problem is not solved in a timely manner. Thank you.

Ticket: # 4041946 - Cox Communication Services

Date: 6/22/2020 11:44:30 AM

Ticket: # 4042014 - Constant Outages For All Services

Date: 6/22/2020 12:07:29 PM

City/State/Zip: Dickinson, Texas 77539

Company Complaining About: Comcast

Description

He stated that IF his services happen to be out, when Comcast attempts to contact him, he would like them to contact him on his cell phone because he needs Comcast to correct this issue. His Cell phone number is: 8(b) (6)

His services went out on the 17th / 18th somewhere between noon and 2:00 pm. Services were out until 2:00 am 3:00 am the next morning. Because he had called for a technician/appointment, he cancelled the appointment thinking that the problem had been resolved.

However, this occurred again. Services went out again on the 19th of June.

(b) (6) stated that his services (Phone, Internet, and TV) have been completely out of service four times in the past five days. The services have been out for as much as 12 hours at a time.

He stated that he has called Comcast, at least five times due the extended periods of time that services have been out. The consumer stated that on June 19, 2020, was advised, by Nancy, (in Honduras), that due to the elevated numbers of cases... for Covid 19, they are NOT sending techs to his area. However, she promised him a call back at 9:00 am on the 20th of June. The consumer stated that he has heard nothing back. Nor, has a tech showed up to repair services in this area.

The consumer stated that it is obvious that the problem is in Comcast's equipment, and not inside his home, because the service goes out completely during the day. Services are out during the busiest times of the day/while most people are telecommuting). He stated that if he is up very late at night, the service becomes available.

The consumer believes that it is possible that the node is overloaded.

He requested that Comcast immediately correct this issue provide the services for which he pays. He also requested appropriate credit for the services being out for extended periods of time.

The consumer stated that while customer service reps are very nice and attempt to help consumers, they are very ineffective due to the break down in communications /language barriers.

Ticket: # 4042040 - Billing

Date: 6/22/2020 12:12:43 PM

City/State/Zip: Port Austin, Michigan 48467

Company Complaining About: Comcast

Description

Comcast

Consumer stated that he put services on vacation mode in November 30 2019 and off until April 15 March 15. 2020 Resume Services

March 26, 2020 consumer received a call from his neighbor that a water line broke house was flooded

Consumer tried catching a flight in April but was not successful because of Pandemic Carnivorousness

Consumer didn't get home until May 2

Services Center been close

He's been calling and spoke to multiply customer reps throughout the country in Jamaica Illinois and 2 reps in the Caribbean Mexico.

The reps have broken English in which it's hard to understand

Consumer thought speaking to someone in Mexico was a go because an agreement was made but unfortunately that wasn't the case because NOW consumer received a bill for \$760 dollars in which he is not paying

Consumer have the cable box in which he can return

He offer to pay vacation rate because he wasn't living in the house when the flooded occurred

Ticket: # 4042097 - Spoofing Scam

Date: 6/22/2020 12:22:44 PM

City/State/Zip: Randleman, North Carolina 27317

Company Complaining About: Paula White

Description

I received a call on 6/20, and the caller ID says SBA GA Recovery, Atlanta Northeast, GA. The number is 678-459-5966. Since I have recently applied for assistance through the Small Business Administration, I thought the call may be important. When I called back it is a voice recording from Paula White, spiritual advisor to the President, about an upcoming event that supposedly has something to do with pandemic assistance. I believe this is illegal, and she should be fined at the greatest extent allowed. It is especially disturbing that she is utilizing the name of a government office that is crucial during this time to trick people into listening to her garbage.

Ticket: # 4042140 - Possible Intentional Misspellings of Covid on New Broadcast

Date: 6/22/2020 12:31:17 PM

City/State/Zip: Fayetteville, Arkansas 72701

Description

The local channel 5 (KFSM) newscast on Thursday 6/18 did not spell Covid correctly in the closed captioning as long as I was watching, yet spelled nearly every other word correctly. Instead of Covid, here was what showed: "kobe, covered, but, coburn, cocaine, covert". The worst phrasing that didn't match the voices was "inmates tested positive for cocaine". I contacted the station but also wanted to contact the FCC as well.

Ticket: # 4042389 - "Keep Americans connected"

Date: 6/22/2020 1:35:49 PM

City/State/Zip: Coral Gables, Florida 33134

Company Complaining About: AT&T

Description

Covid shut down my new small business, 3 weeks after I opened account.

Have not used the phone at all, plus it was disabled.

All ATT support did was they credited \$6,85 late fees, but would not help

With \$405. bill for not using the phone. The keep connected, should be we will keep on billing your closed business.

Ticket: # 4042404 - Scammed Call

Date: 6/22/2020 1:42:01 PM

City/State/Zip: Detroit, Michigan 48228

Company Complaining About: Cte

Description

- The consumer said Thursday and Friday he was having issues with scammed calls.
- The consumer said he reported them to the police, and the FBI and they referred the consumer to us.
- The consumer said they were scammed \$4,000.
- The consumer said they were pretending to be his electric company, so he paid them out of panic.
- The consumer did say that he is backed up on his bills due to COVID-19 so he thought it was legit.

Ticket: # 4042632 - No Internet or Phone Service since April 28. 2020

Date: 6/22/2020 2:43:08 PM

City/State/Zip: Omaha, Nebraska 68114

Company Complaining About: Cox

Description

A portion of her services are NOT working. On May 7, 2020, two techs came out and tried to direct them from the outside of the home so that they could get the services up and running. However, they could not fix the services. She has NOT had internet or phone service since April 28, 2020.

She visited the office in person because they have not had the services for which they pay. The local office advised them that there is nothing that can be done. They explained that due to the pandemic, they are not making in home service calls.

The consumer stated that she deducted the cost of the internet, last month, from her bill. However, it is the phone and internet that is out and has been out since the latter part of April.

The consumer stated that she wants the services for which she pays and she wants these services repaired, immediately. They need access to phone and internet service.

Ticket: # 4042658 - Verizon Data Throttling

Date: 6/22/2020 2:49:33 PM

City/State/Zip: Jersey City, New Jersey 07302

Company Complaining About: Verizon Wireless

Description

Verizon throttled my data usage, which was excessive in the last month, due to COVID work from home orders, in order to cause me to upgrade to a more expensive, larger data plan. They did not notify me. They claim to have emailed me but the address to which they send my bills was not where they emailed it. They have not identified the account to which they sent notice.

Ticket: # 4042667 - unable to get anyone on phone to discuss a problem with my email.....

Date: 6/22/2020 2:51:33 PM

City/State/Zip: Brooklyn, New York 11229

Company Complaining About: Optimum

Description

i am trying to get an email from a company and it is urgent. i have not been able to get anyone on the phone for assistance from Optimum cable company, 718-617-3500. I have been calling and they have for two months a recording saying that nobody is there due to covid. They nobody answering their phones and no way of helping their customers -- You immediately get cut off after being told that new customers should go their website....i feel this is ridiculous...i pay \$228 per month and i need to have assistance. Today is 6/22/2020 and most companies are returning to work. How can they not have people working from home??? I need to get an email asap and i am having this problem.....terrible.

Ticket: # 4042735 - Xfinity Internet

Date: 6/22/2020 3:05:54 PM

City/State/Zip: Hanover, Pennsylvania 17331

Company Complaining About: Comcast

Description

Hello!

Didn't want to file a complaint but Xfinity has left us no where. My neighbor filed an FCC complaint on hardly receiving the Wifi services that are paid for. I am now having the same issue, unable to work from home. Xfinity came out to her house (neighbor) and stated it was an underground line that needs replaced. Spoke with Xfinity, they promised to resolve the issue or compensate until it is fixed and never heard back. Issue is ongoing.

Need to work from home at least 20 hours a week d/t COVID restrictions..

(b) (6)

Ticket: # 4042737 - Associates lie about service costs and processing requests; xfinity will not honor promises

Date: 6/22/2020 3:06:29 PM

City/State/Zip: Homestead, Florida 33030

Company Complaining About: Comcast

Description

I have had multiple issues with xfinity this year. They are as follows. I have called more than 10 times in recent months to resolve these myself. I am always met with more lies and promises the issue is fixed, for them to have done absolutely nothing.

#1 - I moved to a new address (b) (6), and was going to transfer my service. Due to the pandemic I never set up my modem, so there was no internet going to this house. I called and spoke with an associate on the phone who told me my account would be temporarily suspended so I wouldn't be charged. I come to find I was charged when there was no internet even going to the house. I called and spoke to more than five associates and they all told me they "processed a credit/refund." I never got the credit.

#2 - I was told by phone via associate that if I signed up for autopay/paperless I would immediately get \$10 off my bill. When this didn't happen a chat associate told me there is a 45 day waiting period. The first associate lied and didn't tell me that and they wouldn't honor it

#3 - When service was moved to my new house (b) (6) a technician came and ran the line and set up the modem. He was very rude and impatient. It was move day so I had boxes of belongings and he refused to allow me a few minutes to find my own modem. He got out an xfinity modem and told me very clearly the first 30 days use of their modem is free, then I can return it. When I was charged for it a chat associate told me there is no free use of the modem, so the technician lied so he didn't have to wait for me to find mine.

#4 - My monthly plan I agreed to is \$39.99 a month. My bill this month says over \$79. A chat associate refused to give me an itemized list of why and said all the charges were "valid." No reason given for expensive bill and no resolution

Possible issue #5 - I tried to cancel my service today. On the phone I was told there is n charge for canceling. Because I don't believe them I filled out the online cancellation form since I don't trust the phone associate. We will see if they try to charge me.

I have spend countless hours trying to resolve these issues with xfinity and now want to pursue legal action if these problems are not resolved.
