Ticket: # 4042842 - WORST INTERNET SERVICE EVER

Date: 6/22/2020 3:34:30 PM

City/State/Zip: Abilene, Texas 79602

Company Complaining About: Viasat

Description

For the past nine months, we've been paying over \$100 for horrible internet service. It is unfortunate that the first time I called to notify ViaSat about the horrible service WE are paying for, all they had to say was that we have used a certain large amount of data. With all due respect but we are paying for that data so I do not care about how much data I've used.

My problem is that I want to terminate my account however, they want me to pay \$225 dollars as the termination fee. This is ridiculous especially because this internet has made it impossible for my family and I to work from home. I

It has affected our ability to do our jobs. Due to COVID19 Pandemic, we could not cancel it but we would very much like to terminate this contract and not have to pay the \$225 especially because this has been the worst internet service we've ever experienced.

Our family is military and even in Germany we had better service than ViaSat. I do not understand how does a company tell me that I'm using too much data when it is in fact our money paying for this service.

Seriously, ViaSat has made it impossible to work from home during this pandemic. It is very unfortunate.

Ticket: # 4042887 - Cox communications, RI

Date: 6/22/2020 3:44:31 PM

City/State/Zip: Tiverton, Rhode Island 02878

Company Complaining About: Cox

Description

I have called on numerous occasions, since beginning of April, to get Cox Communications wired to my house which is a new construction. On the first call, they took the information and told me it would be \$1250 to set up an account and have the cable wired to the street because the cable on the street was outdated. They took the money via credit card, did send someone to put in the new pole about 9 weeks ago and no one ever came to hook service to the house. I have called countless times and still have had representatives tell me there is nothing they can do because Cox is not servicing customers at this time. I actually spoke to a supervisor on June 6ish, who told me there was nothing he could do I had to wait until my name came up on a list. I have had NO internet through this covid 19 and could not work from home. Cox claims to keep people connected and this statement is clearly a misconception. They could solve the problem by getting down to sending a tech to hook us up or refund our \$1250 and we will go with another provider.

Ticket: # 4043203 - Continuing extremely poor broadband (and cell phone) service from Verizon Wireless

Date: 6/22/2020 5:00:19 PM

City/State/Zip: Hamilton, New York 13346

Company Complaining About: Verizon Wireless

Description

Despite no less than 5 complaints to Verizon Wireless over the past couple of years, our broadband service (and cell phone signal) is terrible and often not usable. This has been particularly frustrating during COVID when our god daughter needed to use the internet for school. We are also dependent on broadband-connected home phone and cell phones for communication of any kind, including emergencies. While others in Hamilton stream video and are looking forward to 5 G service, we (3 miles outside Hamilton) typically connect at 3G or even 1X and can barely download GMail in about 3-5 minutes. I am enclosing a screen shot of the speed test performed today to this complaint. The problem has been looked at by Verizon technicians, and after each of our complaints, we see a marginal improvement. BUT NO LASTING SOLUTION. As we have NO cable or reliable land lines (we went to Verizon Wireless as IT was marginally better than our \$80 per month land line from Verizon, which developed severe crackling at every light rain storm. When we switched over to Verizon Wireless several years ago, the connection was 4G (albeit only 1 or two bars!) at that time. We have seen a continual degrading of the network's performance since that time. It appears that Verizon's network infrastructure is aging and is increasingly overloaded and needs improvement--possibly additonal towers are needed, as cell phone service drops frequently, as well.

Ticket: # 4043340 - Xfinity Service availability issues, billing issues and phone issues.

Company Complaining About: AT&T

Description

I purchased 2 new iPhones in July of 2019 from the ATT store located at 2883 Jamacha Rd, are A-D, El Cajon, Ca 92019. As explained by the sales person it was a buy one get one free if adding a new line. Roughly 7 months later I realized I was being charged for both phones. I called ATT and was advised I needed to address the issue with the store where purchased. The store was closed due to the COVID-19 outbreak. I was finally able to visit the store and was told that the sales rep failed to switch plans to an unlimited plan at the time of purchase and that there was nothing they could do as too much time had elapsed. So basically I was defrauded out of the \$1,000.00 purchase price for the second phone which was supposed to be free. Additionally Im being charged for an additional line that I have never used.

Ticket: # 4043685 - Porting issue with Verizon Wireless

Company Complaining About: Tds

Description

TDS, Blue Ridge GA needs to extend their fiber internet service! During the pandemic, (and likely during the next school year) I've had to teach from home, but instead I, along with the students who live in my area, are forced to drive several miles to areas with hotspots because TDS only offers "Lite Internet" with 1mbps (one mbps) in our area, which will not support anything beyond checking email - unacceptable! TDS has fiber internet within 2 miles of our area, but refuses to extend it. PLEASE HELP as we go into another year of possible remote learning!!

Ticket: # 4043705 - Pattern of Lying to customers.

Date: 6/22/2020 8:21:50 PM

City/State/Zip: Pflugerville, Texas 78660

Company Complaining About: AT&T

Description

Consistent with FCC Chairman Pai's "Keep Americans Connected Pledge," AT&T will continue to support our customers. Through June 30, 2020, for residential or small business customers who notify us that they are unable to pay their bills due to disruptions caused by the coronavirus pandemic, we will:

Not terminate any postpaid wireless, home phone or broadband residential or small business account.

This is what AT&T claims, yet they have suspended my service 3 times this month, though I have set up payment arrangement and made payments to them.

They are lying to their customers.

Ticket: # 4043711 - Inaccurate billing with no attempt by provider to resolve

Date: 6/22/2020 8:28:39 PM

City/State/Zip: 6639 Carlinga Dr, Florida 32507

Company Complaining About: Directv

Description

In January, my cable and internet bundled bill went up from roughly 100 to 160+/month, an unsustainable amount for me. By March, with reduced income due to COVID19, I began to inquire about ways to reduce the bill or suspend service. With several phone calls pleading for help, not one agent offered to suspend services temporarily- I discovered on my own that this could be done for \$7.00/month. I called April 6 and asked to have this suspension retroactive for March because it should have been offered and was not, even after I described such a scenario. I was refused but the agent said I was only 6 days into the billing cycle so he would prorate for April. I had already paid ahead for April \$142.56. When I called in March, I was given a \$20 discount so \$142.56 would be the new total for DirectTv and ATT internet in the future. The total for April was to be 33.26 with all taxes and fees. This ought to have given me a credit of \$109.30. While I did see a credit on my bill of \$91.63, that appears to have shorted me by \$17.37. I called on June 22, 2020 to resolve the issue. I spoke to an account specialist who could not explain the bill adequately. She turned me over to customer retention. In that 30 minute portion of my ordeal, the customer service rep. could not explain the charges and why there was a discrepancy. I also indicated a further issue with suspended service to be reinstated on 5/21. That was inaccurate, service was to be reinstated on 5/27. The property is a vacation rental and was vacant until 5/28. I wanted service reinstated a day prior to make sure it was working for guests. I received an email from my guests that they were without service. I had to have ATT come out for a service call. Service was restored June 1. This caused me expense and hassles with my guests. I should get a prorated credit for 5/21-6/1 as well. Further, my current bill with a credit of \$91.63 is over \$93. Simple math suggests that the new rate is over \$180...but not one of 4 ATT employees could tell me why or if that was the new rate. None could give me the credits promised, despite my having a confirmation number from the April call. I literally said, "if I understand correctly, you and your supervisor have been discussing this for over 10 minutes and neither one of you understands the bill, you cannot explain it to me and you cannot correct it, is that right?" The answer, "yes." So she told me she would send me to collections because they were offering gift cards and purging bills. I asked if that was an end around over correcting the billing, yes. Collections, Russell, said he could not help because my account has not been sent to collections. He routed me back to an "account specialist," who also could not explain the bill or correct it so she said she would stay on the line with me and send me to a "back office specialist. I had been on the phone for over one hour and forty minutes. It was at this point that the call went right back into the initial greeting loop and then promptly hung up on me. These practices are at best incredibly incompetent and at worst, deliberately obscured to take advantage of customers. I have been dealing with these issues for months and believe, as this has happened many, many times, that customer service reps deliberately hang up on hard calls if passing the buck does not work. I expect a full credit of what I am owed. I also would like to have future bills under \$100, as they were in year one and are on my home account of the same bundled services. Short of this, I will move services and drop 2 ATT accounts and 2 DirectTv accounts.

Ticket: # 4043733 - At t Wireless

Date: 6/22/2020 8:40:54 PM

City/State/Zip: Lansing, Illinois 60438

Company Complaining About: AT&T

Description

I upgraded one of my lines to a iphone pro \$1200 cost.

Day one when I received the device could not hear bad connection. The iphone is defective.

Everystore At t did not have the device instock or the area and store could not service me. Reason, my address was a certain distance to far out of the area.

I contacted At t Wireless and because of the Covid 19 and their employees are working from home. If I dont get a call center rep. They can not send me a replacement and just the runarounds.

I am paying for service that I am not getting.

Need a replacement non defective device.

Ticket: # 4043771 - No internet service

Date: 6/22/2020 9:13:49 PM

City/State/Zip: Lagrangeville, New York 12540

Company Complaining About: Optimum

Description

I am writing this letter to file a complaint against Altice, who is the parent of Optimum phone and internet service. I pay over \$150 a month for internet service, and today my internet service was down. I contacted Optimum 17 times today, and every time I called the representative listen to my issue, put me on hold and then hung up the phone. The wait time to speak with someone was over 60 minutes!! The last person I spoke with laughed at me on the phone and hung up. This internet provider needs to shut down immediately from doing any further business in this State. I am asking the FCC to please investigate this company and take appropriate action. I need to work from home due to COVID-19, and have severe health issues that prevent me from being able to go to my office. I missed 4 meetings today due to Optimum. I was told by my management team that I need to get this resolved or my job will be in jeopardy. As mentioned I have health conditions. Please help me FCC.

Ticket: # 4043773 - Optimum/Altice internet speeds, Brooklyn NY

Date: 6/22/2020 9:14:17 PM

City/State/Zip: Brooklyn, New York 11221

Company Complaining About: Optimum

Description

Hi, I recently moved and had to sign up for Optimum 1gig internet service (coming from Verizon Fios), and I am unable to get anything close to the advertised speeds, and trying to get them on the phone is next to impossible, on hold for an hour or more and then get disconnected, stuff like that. For the better part of today, none of their phones would even go through, it just said "due to COVID, our lines are busy, please go to our website" and it would hang up.

I'm sure that you guys have bigger things to deal with than one guys internet, but this is pretty bad, both in terms of false advertising, and egregious customer support. When I do manage to get someone on the phone(and I'm on hold as I write this) they don't tell me anything, give me the "I cant see your internet speed/service/etc.", "I have to transfer you", etc. The last tech they sent out said that its an issue from Optimum, nothing he could do, and the dude showed me his app or whatever they use, and under internet speed/service speed it was just blank. Obviously when I signed up, I was expecting close to 1gig number from speed tests, instead I'm getting like 145Mb-250Mb, depending on the test. The test Optimum links to on their website gives me the highest speed, every other one (Google, etc) is more around the 150Mb mark. Go figure, LOL

Ticket: # 4043826 - Comcast Xfinity charging for insufficient services

Date: 6/22/2020 10:03:21 PM

City/State/Zip: Woodinville, Washington 98077

Company Complaining About: Comcast

Description

I get internet via Comcast Xfinity. I upgraded my connection to a better package (promising 300mpbs) on May 30th, 2020 and found it to be just as slow as the old speed. It would occasionally increase (the download speed) to 150~, but usually it would be much much slower (at the older speed of 60~). The ping and upload were identical to the old values every single time I checked (11-12, and 5-6 respectively).

I waited awhile, thinking maybe the connection would improve if I waited a few days. I contacted them on June 4th, and after much troubleshooting the representative via the Chat told me a tech would come out within 24 hours. He never did. I contacted them again via the chat on the 10th and was told the same thing. Nothing happened. On the 15th I contacted them yet again, and this time was told a tech would at least contact me within 72 hours to schedule an appointment.

I did not mind waiting due to the pandemic (it's understandable), but I really did not like how they didn't even contact me or schedule a date for me.

I contacted them again (today, the 22nd) to downgrade to the original package I had, since it was basically the same speed anyway. They did so after chatting with them for awhile. Then they disconnected me and I had to connect again. I wanted to be given a credit so I would not have to pay the full amount of the new upgraded speed (total bill of ~\$98) and would instead pay the old amount (~\$65) since that was the speed I was getting most of the time anyway.

They completely gave me the run-around. They said since I contacted them on the 4th, I could get credit for that day only. They eventually admitted I could get credit for the 4th, the 10th, and the 15th, but refused to admit that if a problem is unresolved after a call, then it doesn't just go away. We just went around in circles from there. In the end they refused to give me any refund at all, and I said I would contact the FCC.

The problem can be resolved by not being charged the new rate (~\$98) for the month of June, since I was at slow, inconsistent speeds for all of it. I would only have to pay the old rate (~\$65) for that month. If they wanted to keep me satisfied as a customer after all this, then they would credit me a little bit on my account since I wasted a lot of time dealing with them.

Ticket: # 4043850 - Lifeline service stopped because of T-Mobile merger?

Date: 6/22/2020 10:21:41 PM

City/State/Zip: Kent, Washington 98032-6554

Description

I have been a Lifeline service customer with this company since Jan 2019

On June 8 2020 I lost the service after midnight. The phone won't connect to wireless carrier /T Mobile network anymore, no technical issue involved.

I tried reaching Support at LifeWireless through their website; they reply writing the same thing Thank you, please call Toll free number--which is no help since the phone is not

working and I can't just go and ask for somebody's phone with this COVID virus. After exchanging multiple web messages with them (they don't seem to have actual email contact) I

sought help elsewhere. Specifically I reached to this site <https://www.lifelinesupport.org/help/> They confirmed I am still eligible for Lifeline and can just try re-enrolling with Life

Wireless

When I try to do that I get message We not accepting applications in your area.

That makes me think: Is it connected to mega-merger that consumer advocates tried to stop in vain? It appears that with merger down they (T Mobile) are dropping poor/unprofitable folks like myself, w/o as much as providing a warning.

This is really despicable.

I have no way to use phone or internet, other than wifi hotspot by fast food restaurant along Pac Hwy. All in a time when COVID is still pretty much around.

These actions undermine ability of folks like myself to connect with employers and follow news updates on Health situation

Please consider opening a Formal Investigation into the issue, and possibly sharing with others.

FYI as for Lifelinesupport.org -- they asked me "to provide a good phone # where I can be reached" . I am ready to laugh out hysterically.

Ticket: # 4043911 - Xfinity's illegal billing and upgrade practices

Date: 6/22/2020 11:52:53 PM

City/State/Zip: Olympia, Washington 98506

Company Complaining About: Comcast

Description

During a request for a routine modem upgrade, I was required to sign a new contract, which I was assured by the service rep would not increase my bill. A month later, my bill had increased by \$50 for additional services I hadn't requested (TV services). When I asked for the new services, and the charges to be removed, I was assured they would be. Weeks later, they haven't been, and now I am being told my service (which I need to work from home during the pandemic) is in danger of being disconnected if I don't pay the additional amount. The additional services have also not been removed from my account going forward. I have support chat transcripts for all of these interactions.

Ticket: # 4043970 - Illegal phone software

Date: 6/23/2020 2:54:42 AM

City/State/Zip: Mesa, Arizona 85207

Company Complaining About: AT&T

Description

My phone was off today for 10 hours. I couldn't find out why. A friend of mine told me that a lot of the towers were going off for every phone company so that they could install spyware on your phone this one is called covid-19. I did as he suggested and went to settings then I went to Google settings and sure enough there was it's activated by Bluetooth. But there is no way to dislodge it from your phone. What the software does is wherever you're out and about if someone has any information about them and covid-19 whether they have it or not it shows up on your phone. And spreads to public officials I think that's totally illegal. I'm trying to figure out how to dislodge it from my phone if anyone knows please let me know.

Ticket: # 4043971 - Covid 19 virus

Date: 6/23/2020 3:05:51 AM

City/State/Zip: Mesa, Arizona 85207

Company Complaining About: Other

Description

My phone in the Philippines has this and cannot remove it.....Hey folks we have been duped again. I'll bet each and every one of you have a new app on your phone that lets the government know where you are at all times and who you come in contact with. Go to settings, then go to Google settings and I guarantee you at the top of your list of setting will be a covid-19 app that you cannot erase. You have to turn off your Bluetooth which is probably on. I'm telling you all we are being taken over by the New World Order. You have no more privacy you have freedoms that are slowly being stripped from you. I'm trying to contact Google to find a way to erase this new app I never gave them my permission to install. For now I have to keep my Bluetooth off. If you do what I said above and go to settings, and then to Google settings and read what the covid-19 app is oh, you will see that everyone you come into contact with who has their Bluetooth on your phone will not only transmit your health issues but also tell you who around you might have the covid-19. I don't believe this is set up for covid-19 at all. I believe this is set up to spy on you and everyone you come in contact with.

Ticket: # 4043991 - Lifeline Availability Complaint

Date: 6/23/2020 7:21:36 AM

Description

I here to discuss the free government phone service through universal Lifeline. This is a great product but has not kept up with our new way of life during Covid-20. Being provided with free unlimited phone and text is a must but now it's time to provide unlimited data as in internet.

Since Covid-20 my life has become a nightmare due to data caps issued by government lifeline phone providers. These caps limited the amount of data internet has never changed it cuts you off slows you down stops your access to the world, news, emergency information, food, supplies, financial help, income, family, help during our time of crisis.

The world has changed we're opening our states back up and the new way of life consist of on line activity. Order food, order grocery, unemployment, doctors visit

(virtural), appointments, you now order you needs supplies necessities online to pickup or have delivered

But if you have a government lifeline phone your deprived and cannot live in the new world.

Companies don't want a phone call they want you to go online to do your business

Please give us unlimited data in this new world we been forced to live it. Please keep up with the time make a change

Ticket: # 4043995 - Suddenlink by Altice refusing service

Date: 6/23/2020 7:25:46 AM

City/State/Zip: Amarillo, Texas 79103

Company Complaining About: Sudden Link

Description

We have had Suddenlink service at our home since October, and have had nothing but problems since installation. At the beginning of the Coronavirus pandemic, since we lost two incomes in our home, we called to see what could be done to keep service since the one income we have left (mine) is solely internet based (I teach ESL overnight to students in China), and we have two kids in school who needed to complete distance learning. We were advised of Suddenlink signing the "Keep Americans Connected Pledge," which meant no service interruptions would happen for at least 60 days. Great! That gave us time to ensure everything is caught back up and restored to normal.

We were greatly misinformed, as our service was shut off every single day for three weeks during peak time for my job, which caused me to lose my job. I could not ever contact anyone until after my work hours were over, and we never had any warning. We called daily, spent at least five hours on the phone between being on hold and arguing with representatives about whether or not they actually signed the pledge, and then we were always told in the end, "Oh, I am so sorry I did not know anything about the pledge. I can promise you that you will have no more interruptions." It happened continuously, until it finally slowed down to once a week. Now it is about once every two weeks, and I just recently started another job only to lose YET ANOTHER JOB DUE TO ILLEGAL SERVICE DISCONNECTION!!!!

HOW AM I EXPECTED TO PAY MY BILL TO THESE CROOKS IF THEY CANNOT EVEN KEEP THEIR PROMISE? THEY WILL NOT HELP ME AT ALL. THEY ONLY ARGUE WITH ME ABOUT EVERYTHING I SAY, AND DEGRADE ME FOR BEING STUCK IN A FINANCIAL RUT DUE TO THE GLOBAL PANDEMIC, AS THOUGH IT IS ENTIRELY MY FAULT THAT WE LOST TWO INCOMES DUE TO COVID AND ANOTHER INCOME DUE TO THEIR INCOMPETENCE!!!

I DEMAND IMMEDIATE SERVICE RESTORATION, AND CREDIT FOR THE INCOME LOST DUE TO THE COMPANY'S NEGLIGENCE!!!!

If only you knew how hard I worked and how many years I prepared to gain my place in my career, only to be shot down within the first few months because Suddenlink cannot get their business together.... You didn't just cost me a job, you destroyed a lifelong dream of mine. You are absolute unforgivable THIEVES!!!

Ticket: # 4044054 - No high speed Internet provider

Date: 6/23/2020 8:59:18 AM

City/State/Zip: Paris, Kentucky 40361

Company Complaining About: AT&T

Description

We are being discriminated against and held captive by AT&T. They have the rights to service our property, as well as our neighbors, and have refused to service us for decades. In the grip of the Corona pandemic life has become extremely difficult and having no reliable high speed Internet is crippling. My wife is a realtor and I run a small contracting business, without high speed Internet we are at a tremendous disadvantage especially now. We also Zoom all our religious services. It is extremely depressing to not be able to interact due to the speed of our internet. This seems like such a small thing from a financial giant like AT&T. They come out and do their survey and say it is not economically feasible for them. What about us? They have taken more government funds for the broadband initiative than any other company. At a time when we should be coming together to help one another AT&T is only concerned with their bottom line. Please help us.

Ticket: # 4044058 - Grandfather died and Grandmother is having problems with resolving cable issues.

Date: 6/23/2020 9:01:00 AM

City/State/Zip: Philadelphia, Pennsylvania 19119

Company Complaining About: Optimum

Description

My grandfather ((b) (6)) dies in January 2020. My grandmother, ((b) (6)), is an 84 year old woman and has been trying to resolve billing issues with Optimum since February 2020. She's discussed this issue with multiple representatives via the telephone. Optimum billing will not send her a bill, but sends her documentation that she will have cable services cut off. As of today, after sending over \$400 to resolve an unsent bill, her services were cut off.

Multiple customer service representatives have offered multiple solutions. None of these solutions have worked. The last recommended solution was that she go into an actual Optimum store; however, there is a pandemic and she cannot do that.

It is unclear - and a bit cruel - as to why this is so difficult. As a comparison, my grandmother has had fewer complications getting access to my grandfather's bank accounts, pension, and government benefits. I am long distance and cannot go into the store for her, but will certainly find her new services if necessary.

My grandmother and I are requesting this be resolved in an efficient way that restores her services and resolves bill mailing issues without putting her health at risk.

Ticket: # 4044090 - Interrupting Service

Date: 6/23/2020 9:31:42 AM

City/State/Zip: Jamaica, New York 11412

Company Complaining About: Sprint

Description

The provider Sprint, cell phone service

The phone number, (b) (6)

The consumer mention that her service has been interrupted three times in the month of June 2020.

The consumer said that her service was restore this morning 6/23/2020.

The consumer reach out to the carrier about the issue. She was told it was because of no payment.

The consumer then told them that she paid the amount of \$150.00.

Then the consumer asked the carrier why would they interrupted her service if she was effected by the pandemic (COVID-19)

Resolution

The consumer would like to have more time to pay her monthly payment because she been effected by the pandemic that is happening.

Date: 6/23/2020 9:38:08 AM

City/State/Zip: Leechburg, Pennsylvania 15656

Company Complaining About: Comcast

Description

I called to extend my date to July 4th, when I will be paid, a mere 4 days after the Pledge ends, and they informed me that there is nothing to be done, I have to wait til I am shut off and then call to do something. I merely need the date extended to the 4th and they are refusing to do so.

Ticket: # 4044167 - tracking covid patients and HIPPA

Date: 6/23/2020 10:01:24 AM

City/State/Zip: Thattown, Louisiana 70592

Description

It is a violation of American rights for the government to track citizens through their smart phones under the premise of informing them of potential covid risks. Furthermore, it is a HIPPA violation to alert the public of a potential exposure. YOU CANNOT DO THIS!!! If I am visiting with only ONE individual and you alert me of the exact time, duration and location of my potential exposure, it wont take a rocket scientist to put two and two together and figure out who the risk factor was, thereby violating HIPPA regulations. STOP SPYING ON TAX PAYING AMERICANS and start taking a very close look at fixing our corrupt government!!

Ticket: # 4044260 - Intermittent outages for internet services

Date: 6/23/2020 10:30:40 AM

City/State/Zip: Lakewood, New Jersey 08701

Company Complaining About: Optimum

Description

Over the past 3 months, during the COVID-19 shutdown, with everyone sheltered at home, and relying totally on the internet for our communication, it has become abundantly clear that optimum is selling us all services and guaranteed speeds that they do not have the capacity or infrastructure to support. After many visits by service people to our neighborhood during the most difficult times, (tipping out hats to them for all that they do), they, the optimum workers, have admitted that the system was not built to handle all the traffic.

Firstly, in the year 2020, there is absolutely no reason that this is not available for all of us.

Secondly, how do you charge, and guarantee internet speeds when you do not have the capacity to deliver on it.

This is clearly a case of a single company having a monopoly on this service, and controlling the market.

Please note that there is no FIOS by Verizon in our neighborhood, and our only option is Optimum

Thank you

Ticket: # 4044456 - Verizon Wireless Overage charges**Date:** 6/23/2020 11:29:16 AM**City/State/Zip:** Rock Hill, South Carolina 29730**Company Complaining About:** Verizon Wireless

Description

Verizon Wireless charged me over \$800 in data overage charges for one month. We have NEVER even come close to this usage in the past. There is no possible way, and they will not budge on the bill. They are taking FULL advantage of the covid-19 disaster. I tried talking with customer service and they won't budge on this bill. Our bills over the past few years have been at most \$250-\$300. It is not possible that our data has increased this much, and it is not possible to pay a \$1000 dollar phone bill when you are unemployed due to a nation wide pandemic. They should absolutely cut this bill by a huge number in order to keep their customer. Almost \$900 for data usage is horrendous. Shame on you Verizon!

Ticket: # 4044505 - Unwanted Calls

Date: 6/23/2020 11:39:21 AM

City/State/Zip: Fairview, New Jersey 07022

Ticket: # 4044588 - Spectrum Service Issues**Date:** 6/23/2020 11:56:24 AM**City/State/Zip:** El Paso, Texas 79924**Company Complaining About:** Spectrum

Description

On 25 May 2020, I called into customer care, as my May statement advised that some discounts I had been getting were expired (after 1 year) and that I'd continue to be offered a special rate, but not at the same price I previously had been, for an additional year.

I spoke with an associate named Ross. I asked him if he could tell me how much my bill would be increasing. He did some checking and told me that he could offer me a new discount on service. I wanted to drop Cinemax, but he told me that I had to keep it (at 9.99 a month, which I didn't want, as I don't watch Cinemax), in order to get the discount he was giving me. I had Cinemax previously for one year free, as it had been removed from the Silver package that I had, that offer was ending, and as such I wanted it removed – again Ross said I had to keep it in order to get the discount he was offering.

I agreed to the changes, and he had to make changes to my internet (I've had gig internet for over a year now) in doing so he said the system told him it was going to add the install fee again (I never asked to have gig removed to MAKE the changes) but he did advise that I would not be charged (I do see the charge on my July bill, but I also see it was credited, however I believe I was charged taxes on that fee, as my last bill was \$4 and change over what it should have been when I'd already paid the full May bill).

He made the changes, and we hung up. I then came to find minutes later that my TiVo was not receiving any channels. I called back and spoke with Leesha. She did some research and came to find that a simple (honest, and unintentional) "line of code" that was needed to authorize the Tuning Adapter for the TiVo had not been re-added when Ross made his changes (no big deal, it got fixed).

First, I want to obtain confirmation as to if I have to keep Cinemax to receive the discounts Ross provided me. I also need to see how long those discounts apply for, as he made zero mention, and lastly what discounts I am getting. He said I'd get a discount off my cable, but not on my internet (yes I still see a discount on my bill) so I want to verify if both will remain and if so for how long – I don't want to be shocked if next month the discounts are gone, and my bill skyrockets to over 300.00.

Next, I have been having slower than advertised speeds with my gig internet. These issues began in March, when COVID-19 began being factor in more folks working from home.

Back on point – I had reached out regarding my speeds, and was given a 40.00 credit (difference in cost between Ultra and Gigabit) for March, April, and May, per Miguel Ugalde here in El Paso. I have attempted for the past two days to reach out to both him, and Samuel Barragan (who I was advised at one point were supposed to be my "local point of contact" for issues), and have not heard back. I am simply trying to determine if this credit will continue to be applied, at best for this month, as I am still not getting my proper speeds. I can 100% confirm that I do get the speeds, IF I CHECK BETWEEN 1:30/2:00 AM – 5:00 AM or so daily. During the day/evening however, I am still getting 480-550MB (I

think I did hit 600MB twice) speeds. I understand this is caused by saturation on the network and node (again realizing everyone is still at home, but seeing some improvement during the hours when it really isn't being used by anyone else).

In the end, I'd like to see if this credit will continue to be extended, for no reason other than I am not getting the speeds I pay for. I never had issues with speed prior to March (again I know that COVID-19 isn't Spectrum's fault, but the maintenance of their infrastructure and ability to deliver those speeds, when you're charging 125.99 a month for them, is).

I am hopeful to speak with someone regarding this matter.
Thank you for your time.

Ticket: # 4044601 - No response from Purple Communications

Date: 6/23/2020 11:59:14 AM

City/State/Zip: Indianapolis, Indiana 46226

Ticket: # 4044624 - Comcast Internet Billing

Date: 6/23/2020 12:04:50 PM

City/State/Zip: Chicago, Illinois 60615

Company Complaining About: Comcast

Description

The consumer wants to file a complaint against Comcast.

The consumer has Internet services with them.

The consumer states that back when the pandemic started she called to increase the speeds for internet.

The consumer was told that if she wants to go back she would be able to.

The consumer states that when she requested to go back to Comcast Essentials.

The consumer was told that it would be a 3 Month process.

Apparently it is set up this way, even though she was told by 2 representatives that she can go back at any time.

They did explain that she must disconnect for 3 Months in order to get Comcast Essentials.

The consumer has been charged the regular internet price, but she needs to go back to the Comcast Essentials.

The consumer states that she is to be receiving call backs from manager that are to listen to the phone call that she made where they told her that she can go back to Comcast Essentials at any time.

The consumer states that when she upgraded to higher speed she was told it would be \$36 and she is being billed \$69.

The consumer needs to go back to the Comcast Essential and needs her bill adjusted from the initial time she made that call to go back to Comcast Essential.

The consumer needs her bill adjusted.

She was never informed about the 3 month process, if she had known she would have never upgraded.

Please refer back to the recorded conversation where the consumer asked your Comcast representative about going back to Comcast Essential and was told that she could at any time, and no 3 month process was mentioned.

Ticket: # 4044650 - Rincon Broadband

Date: 6/23/2020 12:12:13 PM

City/State/Zip: Solvang, California 93463

Company Complaining About: Rincon Broadband

Description

We have been a customer of Rincon Broadband, based in Carpinteria California, for approximately four years. during that time the internet service has been very poor, intermittent, or completely unavailable for extended periods of time.

Rincon Broadband seldom, if ever, respond to requests for assistance and simply ignore all the attempts to contact them including phone, email and fax. Particularly during covid-19, we work from home and rely heavily on internet service. our connection continues to be unstable and the company has made zero effort to rectify or to even communicate with us.

In my last communication with them, on the 17th June 2020, I requested repairs take place within five days, or I would continue with a complaint in the hope that they would simply do what is required. I have received no response, however tracking software indicates the email has been opened twice.

Unfortunately, we have few alternative options available to us at our location. Rincon broadband continues to draw the monthly fee the services that they are not providing.

Ticket: # 4044676 - Internet availability

Date: 6/23/2020 12:19:32 PM

City/State/Zip: Guayama, Puerto Rico 00785

Company Complaining About: Claro

Description

Horizon Military Academy is a non-profit residential therapeutic boarding school and residential treatment located in RD 706 KM 7.1 Ranchos Guayama Salinas Puerto Rico 00751 (<https://goo.gl/maps/2YXz61uYWdwvdJKe6>). The institution provide health services, academic services and shelter services to young boys from 13 years old to 21 years old. We are located in the rural zone of Salinas Puerto Rico. We are part of the community of Ranchos Guayama. Before Hurricane Maria we had phone services from Claro PRTC, but after Hurricane Maria in our area the damages impacted the phone lines infrastructure. The FCC fund of 950 millions to improve broad band in Puerto Rico and US Virgin Island, was approved to improve internet and phone connectivity changing copper cable for fiber cable in Puerto Rico and US Virgin island. On December, 2019, Claro PRTC company, remove the coper cable in our infrastructure facility, and the company told us that they are going to change for fiber. On January, 2020 we established counication with an engineering of Claro PRTC, company who get the contract for our area and he told us that the project of our area was on road. On May 2020, we get information that the project of 1.3 kilometers of fiber from the nearest hub, was canceled. That decision from Claro PRTc is unacceptable.

Problem: Claro PRTC remove copper cable facilities to change for fiber cable facilities but canceled the project of 1.3 to 1.6 kilometers of fiber for Ranchos Guayama community.

Solution: Complete the fiber installation facility in our area already approved.

After COVID -19, we need those services immediately.

Consumer states that he used to have long distance calling included in his package and now they took it away and they are charging him separate it. Consumer is tired of calling and not get help. Consumer wants her bill to be back into the \$38.00 and to stay like that. Consumer also wants an statement of all the payments that he has made to the provider all the check that he has send. Consumer wants this promotion to be respected for a whole year. Consumer wants a month free of charge for this inconvenience. Consumer has been on the phone for three hours trying to get help for this situation. Consumer is 81 years old.

ctr408-phone

Ticket: # 4045294 - Cable

Date: 6/23/2020 2:44:09 PM

City/State/Zip: Grand Ledge, Michigan 48837

Company Complaining About: Comcast

Description

I have made several attempts to get my cable service cancelled. My job was impacted by COVID19 and I need to cancel cable services. I also need to downgrade my internet package. The phones service is great and need no changes there. Today I was transferred up to six times and had to call several times to reconnect. I waited over an hour for someone and they hung up on me.

Ticket: # 4045337 - NON WORKING SERVICE (Internet/Cable)

Date: 6/23/2020 2:51:14 PM

City/State/Zip: College Park, Maryland 20740

Company Complaining About: Comcast

Description

I have had ongoing issues with poor service for several months. I lose internet service EVERY day and my cable service works so poorly and constantly goes out and shows a dialogue box that reads in part "we're having trouble connecting to the internet..." I pay over \$250.00 a month for cable and internet service and have to use the Xfinity App daily to restart my modem, refresh my cable boxes and more. Once before some months ago a supervisor called me after reading information I said on a survey and told me my area doesn't have good signal. In the last two weeks the service goes out several times a day and I'm working from home during the pandemic. I take phone calls for a government agency whereas I'm an operator in a queue and this unreliable service works in contrast to that, yet they still want my money. Verizon was at my neighbors house two weeks ago and since then my problems have increased. My neighbor and I both use to call and threaten leaving Comcast, I guess she did, but think Verizon may have done something to affect my service as my issues are worse than before. Comcast VRU is set up to frustrate the customer, whereas, you can't reach a live person, instead you're subjected to the automated system sending a refresh or what have you. Requesting the FTC or Cable Commission intercede on my behalf to assist me with Comcast as they have been non responsive on Twitter where I private message them several times and submitted pictures etc. I'm tired of paying for services not rendered.

Ticket: # 4045362 - Internet service cancellation

Company Complaining About: Claro

Description

Since February 29 2020 I required a cancellation to Claro for my internet and phone service. They required from me to go to a Customer Service Center and give them back the router. For this they gave me 15 days. I had health issues and 1 week passed; I couldn't go. After that the 1st case of COVID-19 appeared on PR and I tried to call and I couldn't reach them. On March 17 2020 I reached someone by the phone and he said to me that I need to wait so they can see how the COVID-19 situation develops. I stayed unworried after I noticed that they started to charge my account. At the moment I have been with another provider since February and they continue to charge my account and don't solve anything. They called me liar and I'm tired to call and chat and nobody solve the situation. I already paid the first 2 months that they charged with the promise that they will solve the issue. They didn't solve it and charged 2 months again. I'm in a very difficult situation because my health is very compromised and now we have the dust cloud so I need to stay at home. I hope that you can help me

Ticket: # 4045417 - KMJI: Community Awareness during COVID- 19 Pandemic

Date: 6/23/2020 3:10:14 PM

City/State/Zip: Texarkana, Arkansas 71854

Company Complaining About: Kmji

Description

I am writing to request your assistance to ensure that listeners of KMJI Majic 93.3 FM Radio be informed of valuable, life-saving information during the COVID-19 Pandemic. The majority of the station's listening audience is African American- the ethnic group which has the highest number of deaths due to the coronavirus. Many Texas and Arkansas residents listen to 93.3 on a daily basis. I live in a twin city (Texas and Arkansas). The number of COVID- 19 cases have increased drastically in Texas and slightly less in Arkansas. The state's seven-day average in Texas has increased more than 86%. Texas Gov. Greg Abbott said Monday that tougher steps will have to be taken if daily coronavirus cases and hospitalizations continue to climb at current rates into July. KMJI is doing a very good job of entertaining our community, but it is not fulfilling its responsibility to inform its listeners on air about the pandemic. I have heard one Public Service Announcement on a few occasions. I have listened to Keeta King, local announcer, since March. Unless I failed to be listening at that moment- Ms. King has not mentioned the coronavirus. Her listeners need to be encouraged by her to wear a mask and wash their hands frequently. All of the members of this community benefit from or suffer the affects of what our media representatives do. Michael Baisden, syndicated host, talks about the coronavirus Monday-Friday. As a listener and tax payer I would like for Townsquare Media to demonstrate its commitment to the Texarkana area by ensuring that listeners hear information about the coronavirus on a daily basis. KMJI's radio announcers should be knowledgeable about information on the CDC website in order to educate our community on a daily basis. The African American community is not suffering from a lack of entertainment- they suffer from a lack of information. Thank you for your cooperation regarding this critical matter.

Ticket: # 4045437 - Cell tower site , Rainbow Springs NC

Date: 6/23/2020 3:16:42 PM

City/State/Zip: Franklin, North Carolina 28734

Company Complaining About: Hughes Net

Description

Upon moving to a rural area in Southeast Ohio, the COVID pandemic hit and my partner and I were stuck working from home with only one option for internet, a satellite based internet company called Hughesnet. Upon signing up, there was a "verbal" contract completed over the phone in which we were to receive 20Mbps internet speeds. Since the installation date, Hughes Net has sent service people out twice and we have spent countless hours on the phone, as internet speed tests showed speeds no faster than 2Mbps at the most. Additionally, we were quoted a monthly price of \$55 and have been billed over \$70 in subsequent months with the company. They issued us a credit for this, but have up to this point refused to let us out of the contract despite not offering services that were promised to be rendered.

Ticket: # 4045650 - Billing/ service/COVID-19

Date: 6/23/2020 4:08:46 PM

City/State/Zip: Budd Lake, New Jersey 07828

Company Complaining About: Optimum

Description

Consumer states that she is having problems with her cable provider. Consumer states that she is paying a high amount of cable \$255.00 for only cable. Consumer called to downgrade her service and the previews agent told her that will not work for nothing, she hang up the phone and she called in the next day. The new agent told her a prize, but she kept it on hold for about and house she had to drive to work and hang up the phone. Then she called in again and the agent told her that she should've stayed on the phone and get the prize. Consumer find this treatment disrespectful.

Consumer cannot believe that she is almost paying 300 dollars per cable services. Consumer does not have another provider in the area. Consumer cannot afford to pay this much consumer wants a better deal. Consumer wants a month free of services for the bad treatment.

Description

I had Sprint for a 2 year contract and during the Covid 19 i missed some payment but i still paid in full and finished the contract. My issues is that Sprint want me to pay 250 to keep the phone. I don't understand how I been paying for equipment fee for two years and finish it and yet they want me to pay more. The phone is mine and there is no balance owed.

Ticket: # 4045762 - AT&T unauthorized charges

Date: 6/23/2020 4:36:58 PM

City/State/Zip: Olathe, Kansas 66062

Company Complaining About: AT&T

Description

I called ATT back on 5/22 and spoke to a representative about lowering my monthly Internet & Cable bill. The representative informed me the bill would now be \$69 before taxes. \$20 for Internet service and \$49 for the cable. Today, I received my statement and it's \$97.61 (taxes included). I contacted ATT and Debra Employee ID #TM4979 stated that the internet promotion that I had expired in June, and they were no longer able to honor the prices I was given less than a month ago. I requested to hear the original sales call, and she said I needed to physically go to an ATT store to hear it. Unfortunately, due to the ongoing pandemic, I currently do not feel safe going to an actual store to hear it and would like to have the recording played. I think it's appalling that they would willing try to deceive me and tell me that now they cannot honor the prices given to me. I was willing to cancel my service back on the 22nd, but they transferred me to the 'retention' department and the rep promised me a better deal. I am NOT receiving a better deal. I am actually being billed for a higher amount. I would truly appreciate it if someone could please look into this as these charges were NOT authorized. I'm sure I'm not the only customer of theirs that is dealing with this type of deception.

Ticket: # 4045817 - Internet Interference - Forced Usage of Internal Router

Date: 6/23/2020 4:54:05 PM

City/State/Zip: Brooklyn, New York 11212

Company Complaining About: Optimum

Description

On June 22nd I called to upgrade my service from 400 MB to the 1 G service. I was promised a technician would come to my home on June 22nd and deliver a modem and that the technician would not enter my home due to the pandemic.

- no one showed up. On June 23rd after calling again, I was told a technician would arrive with a modem, and he did. The technician told me he had to enter my home to install the service. If I get infected with Covid-19, considering I do not leave my home, Optimum will be at fault. The technician installed a non-functional modem and told me it would work in 2 hrs. It didn't. I've been on hold, transferred and hung up on several times through out the day. My cell phone records and call recordings will attest to my complaints.

I currently work for a mayoral agency with the City of New York and currently, I can not work nor can I get appropriate support. Please help to resolve this issue.

I can be reached at (b) (6) for discussion.

SECOND TIME THIS ISSUE HAS HAPPENED AND SERVICE HAS NOT BEEN RESTORED WITHIN TIMELY MANNER. STILL KEEP GETTING FLYERS IN FROM SUDDENLINK ON NEW LOWER PRICE BUT THEY SAY THEY ARE UNABLE TO GIVE ME THE LOWER PRICE, WHERE AS OTHER PEOPLE HAVE THE LOWER PRICE

Ticket: # 4046077 - Comcast/Xfinity Cable TV Issues**Date:** 6/23/2020 6:44:15 PM**City/State/Zip:** Huntsville, Alabama 35810**Company Complaining About:** Comcast

Description

I have been contacting Comcast/Xfinity since March 2020 with an issue of my cable TV going in and out on a daily basis, several times per day and sometimes for hours at a time. Each time the recording tells me I am being transferred to a representative, but no one ever answers. My daughter contacted them on my behalf through a "chat" they had available and "Curtis" told her they couldn't assist me due to COVID-19. He stated they are only servicing people with complete outages, not a situation where the cable goes in and out (copy of chat conversation attached). I feel this is a farce on Comcast/Xfinity's part - especially when they are scheduling new installations in our area daily. Considering that COVID-19 will probably be an issue until a vaccine is available, are they going to tell customers they cannot provide service calls until then? I feel if they can visit a home to install new service, then they should be able to visit a home to perform maintenance for service issues. Thank you.

Services on my cellular device as well as 4 family members, including 3 teens and my wife who's hospitalized with covid 19 and I was terribly scared I wouldn't get a final phone call should something have happened. Oxygen to my home missed its delivery due to the outage and all we hear is a very private apology from the c.e.o stating he's taking ownership

I had to purchase 4 prepaid phones just in case .

Ticket: # 4046559 - Comcast not honoring Keep Americans Connected initiative,

Date: 6/24/2020 2:47:02 AM

City/State/Zip: Austin, Texas 78665

Company Complaining About: Comcast

Description

In April I applied for Unemployment and had to leave where I was living because the individual had lung cancer and did not want extra exposure to COVID-19. Comcast said they would provide the individual a discount or free connection. Instead, they keep charging me (who didn't live at the address anymore). I found out when they attempted to charge my card again. I called and said 1. they were supposed to switch the account to the homeowner. 2. I can't pay the regular rate and 3. they wanted to charge extra to talk to someone about payments instead of using a computer to pay. Then they cut off service instead of honoring the Keep American Connected initiative. Even though the individual was using the internet to contact their doctor.

To resolve the problem.

1. Give the homeowner the Basic account they promised.
2. Stop charging and claiming fee for a service I did not use and if I did they said would not be charged.
3. Don't disconnect service without warning medically compromised individuals.

Ticket: # 4046583 - Xfinity Billing for Cable/Internet

Date: 6/24/2020 5:56:45 AM

City/State/Zip: Houston, Texas 77065

Company Complaining About: Comcast

Description

Xfinity is claiming I owe charges of \$849.89 from 2019? I have made several attempts to dispute these charges with them before the Covid-19 Pandemic but since then I can't speak to anyone at all. They switched me to the Xfinity Assistance Plan until June 30, 2020, but wants \$816.81 by this date or they will disconnect services, therefore they waited a year to add charges to my bill and I cannot resolve or discuss why?

Ticket: # 4046611 - No internet service

Date: 6/24/2020 7:35:13 AM

City/State/Zip: Haymarket, Virginia 20169

Company Complaining About: Comcast

Description

Hello,

I just recently purchased a new construction townhouse in a three year old community in Haymarket, VA. For some reason, only Comcast services this area. This is my first issue. My second, biggest issue is the fact Comcast never survey the newest block of townhomes, so there are 8 of us, who all closed last week, without internet service in a world where all of us are required to remote work due to COVID restrictions. We have all filed numerous complaints, and so far are being told there is nothing we can do to make Comcast speed up surveying the addresses so that we can buy service. Most of us would also prefer having an option besides Comcast. Verizon FiOS services a nearby townhouse community but not mine. Spectrum doesn't serve us either. We're having to rely on only Comcast, who will not send someone out even though they already service the rest of the community.

Ticket: # 4046658 - WOW Internet - Says no late fees or disconnect

Date: 6/24/2020 8:49:32 AM

City/State/Zip: St Petersburg, Florida 33702

Company Complaining About: Wow

Description

WOW! has committed that during COVID-19, no services will be disconnected and no late fees would be charged until June 30, 2020.

On May 18th, while working from home, my home internet services were cut off. I called WOW who stated they disconnected due to a late bill. I paid the service so that I could have services continue so I could work. They cut my services and I asked if I would have any reconnect fees or late fees and mentioned the promise WOW made to the FCC. They said no late fees or reconnect fees would be applied.

I received my current statement dated June 18, 2020 and on the bill I have a reconnect fee of \$22.00 and a late fee of \$10.00.

So much for their commitment to you and their customers.

Ticket: # 4046686 - unwanted call, possible victim of spam

Company Complaining About: Sudden Link

Description

our suddenlink bill has been going up the past few months. for years it was the same amount every month until recently. we have used suddenlink for about 7 years and never noticed a discrepancy in billing and an "overage" until around april when covid started. my husband called about the april bill which was double the normal price and no one offered a solution or could even tell us how we had an over use. no one offered to raise the package to unlimited, which we thought we had. I called end of may about the new bill which was even higher and was finally offered an unlimited package for \$78 plus tax (this is what we were paying anyways so you would think we would have unlimited). we have been homeschooling just like everyone else and having to use the internet to stay in touch with my kids teachers. we feel like this is taking advantage of people being home and having to rely on being online. honestly I don't feel like we have used drastically more internet than normal since I don't normally use anything other than my phone for my business. our bill in the beginning was around \$40 and has slowly been going up. for example January bill was \$50.83, February was \$61.69, March \$110.74 (called), April dropped back to \$78.04, May \$78.04, June \$159.81 (my complaint that I filed with the FCC, July was supposed to be \$78 and was \$154.89. I was offered a \$45 credit from the june bill and they added a \$30 speed fee and a \$16.77 fee for changing account so I didnt even get a credit basically. we definitely have a discrepancy in billing and dont understand why nothing can be done about this company.

this is a copy of the message that I sent to the attorney general. most is from my last complaint with the FCC with additional complaints about my new bill.

Ticket: # 4047061 - Verizon FIOS - changed my account to contract without my information

Date: 6/24/2020 11:16:09 AM

City/State/Zip: Parsippany, New Jersey 07054

Company Complaining About: Verizon

Description

Dear Sir/Madam:

I was Verizon FIOS customer from Dec 24 2018. I was paying 39.99 USD for 100 MB speed and I could cancel my service any time I wanted. Verizon increased my monthly bill amount to 54.99 USD starting Dec 24, 2019.

So I called in January 2020 and asked them to reduce my monthly bill back to original amount of 39.99 USD, but I was refused by customer service. Since July/June 2019, Verizon started offering 200 MB speed for new customers.

On Feb 4, 2020, I called Verizon FIOS Customer Service to terminate my FIOS service. But representative offered to reduce my bill amount back to 39.99 USD. When representative updated my account, she changed my account terms without informing that she changed my account to 2 years contract with early termination fees. I was never informed by representative that I will have to pay early termination fees if I cancel my service before Feb 3, 2022.

Today, on 06/24 when I called to cancel the service, I was told that I had to pay early termination fees if I cancelled my FIOS services. Current FIOS speed of 200 MBPS is not good enough with COVID-19 lockdown.

Why FCC is not taking any action and fine these kind of bullying corporate against customers?

I want FCC to take action so that Verizon allow me to terminate my account without early termination fees.

Ticket: # 4047129 - Cable Issues**Date:** 6/24/2020 11:28:43 AM**City/State/Zip:** Chicago, Illinois 60617**Company Complaining About:** Comcast

Description

Since, May 2020 I have been out of cable service. I have contacted xfinity several times to try to resolve this issue. I tried multiple attempts of troubleshooting with technical support over the phone. But after these several attempts were made and failed, I inquired if they would be able to send a tech to my home to fix these technical issues. They informed me that they are not coming out due to COVID-19. However, they continue to charge me my full bill amount of 200+ dollars and they will not adjust my bill.

Ticket: # 4047278 - Verizon FIOS - changed my account to contract without my information

Date: 6/24/2020 12:02:36 PM

City/State/Zip: Parsippany, New Jersey 07054

Company Complaining About: Verizon

Description

Dear Sir/Madam:

I was Verizon FIOS customer from Dec 24 2018. I was paying 39.99 USD for 100 MB speed and I could cancel my service any time I wanted. Verizon increased my monthly bill amount to 54.99 USD starting Dec 24, 2019.

So I called in January 2020 and asked them to reduce my monthly bill back to original amount of 39.99 USD, but I was refused by customer service. Since July/June 2019, Verizon started offering 200 MB speed for new customers.

On Feb 4, 2020, I called Verizon FIOS Customer Service to terminate my FIOS service. But representative offered to reduce my bill amount back to 39.99 USD. When representative updated my account, she changed my account terms without informing that she changed my account to 2 years contract with early termination fees. I was never informed by representative that I will have to pay early termination fees if I cancel my service before Feb 3, 2022.

Today, on 06/24 when I called to cancel the service, I was told that I had to pay early termination fees if I cancelled my FIOS services. Current FIOS speed of 200 MBPS is not good enough with COVID-19 lockdown.

Why FCC is not taking any action and fine these kind of bullying corporate against customers?

I want FCC to take action so that Verizon allow me to terminate my account without early termination fees.

Verizon FIOS service stopped working for more than 10 hours. Also unable to login to my FIOS account. I have no internet and so unable to work and lost 1 day of pay.

City/State/Zip: Anderson, Indiana 46011

Company Complaining About: T Mobile

Description

Two weeks ago, there was an issue with our phones. We were not able to make calls, receive texts nothing. I have never had such an issue with my service and attempted to call and was not able to get through to TMobile, they were not answering phones and then a message would come up that they were having technical issues. Today, I am looking through my settings and I see this covid 19 tracker in my phone, and this happened after this massive phone outage across the nation from TMobile. It doesn't matter if it is android or iPhone, it is on our phones. We should have been notified and given a choice. IF they can put it there they can activate it whether I want it or not, and I want it off my phone now! I have a minor child and what about others who do, I have family with children with phones, whose peeking at them and monitoring them! our rights are infringed upon enough and our phones should not be invaded with health concerns and issues, that is not for them to be involved in! how can a phone track an illness! get it off!!!!!!!!!!

Ticket: # 4047419 - Keep Americans Connected

Date: 6/24/2020 12:37:33 PM

City/State/Zip: Mount Sinai, New York 11766

Company Complaining About: Optimum

Description

The consumer is calling in regards to Keep America Connected Pledge regarding Optimum/Altice Internet Service.

The consumer is calling on behalf of account holder (b) (6), account (b) (6).

Initially as part of the pledge through May they would keep everyone connected, then it was extended to June 30.

Between March and now he has had 23 interruptions/disconnections.

The consumer states that he has made over 20 calls to them.

The consumer called today and said that they have to make a payment in order to not get their service back on.

The consumer told them what is happening to the pledge they signed.

They told the consumer that they pretty much do what they want and won't turn anything back up until a payment is made.

The consumer has a disabled wife that is connected to an online device.

The consumer has 3 children that have missed a month because of interruptions.

They tell the consumer that there are a lot of system errors.

The consumer has lost wages over the pandemic so he will need his internet back on like told during the pledge, and once the payments are made they should adjust it accordingly since he received around 23 interruptions/disconnections between the month of March and now.

City/State/Zip: Lakewood, New Jersey 08701

Company Complaining About: Optimum

Description

Despite that I am subscribed to an upgraded internet service/speed, for several months Optimum's internet service has regularly been very weak and with frequent outages, to the point where the internet is often unusable and functionally useless. Optimum blames this on high area usage (perhaps COVID-related) but could easily remedy this by generally improving my area's service – e.g. by opening a new “node” – suggested by Optimum's own field technician and which they can readily do if they desire, or perhaps in other ways. Nevertheless, Optimum is not doing anything to address this matter, nor are they responding in any way – despite our numerous attempts to resolve this directly with Optimum.

Ticket: # 4047978 - Impossible to get a hold of company to work through issues

Date: 6/24/2020 2:47:05 PM

City/State/Zip: Brooklyn, New York 11206

Company Complaining About: Optimum

Description

Since the beginning of covid-19 (March through late May), we were getting consistent outages and speeds at under 10mbps (we pay for 300mbps). Everytime I called, they would tell me that I should just restart my equipment and if they needed to send a tech it would be \$75 if it wasn't an issue on their end. After I replaced all the equipment with my own, I had them send a tech over who verified for me that it was an optimum issue. When I got a hold of accounting one time (several multi hour attempts), they said they would know if we had outtages and would auto-credit us. However I don't find the auto credit we received to be fair or proportional to services we pay for. On top of that, I let them know recently (early June) that I had filed a name change for the account on 5/17. The rep told me that they'd call me back.

Problems:

- Call backs do not work and autoloop you back to menu option screen where no one answers.
- Slow speeds and constant outtages making work and entertainment impossible. (March-June)
- Name change hasn't been processed and the previous account owner no longer resides here.

What I want,

1. An adequate credit for the issues we've suffered through for 3 months.
2. The name change to process and I want the introductory rate.

Ticket: # 4048060 - ILLEGAL AND DECEPTIVE BILL PRACTICING**Date:** 6/24/2020 3:07:39 PM**City/State/Zip:** Los Angeles, California 90043**Company Complaining About:** Sprint

Description

On December 15, 2018 my family and I visited the Sprint location in Culver City. We wanted to upgrade our previous plan. Upon our transaction I made sure he went through our bill thoroughly . He stated with the upgrade we were going to save and he because we chose to upgrade he would throw in free accessories. We spent approximately 3 hours at Sprint. Only to receive a bill the following month of 2x the amount that was agreed on during the signing of the contract. I proceeded to contact Sprint to rectify the matter. They stated that was not only paying for additional line that was suppose to be disconnected BUT sales associate charged me for the accessories that were suppose to be FREE!! THIS IS TOTAL BILL DECEPTION!! He stated that it was only 100 and I should just pay it!! I called Sprint CS and the said they would refund me the additional line charge BUT they NEVER DID!!! I stuck paying the bill..... Festival to this year. Like millions of families, we too were affected by the COVID-19. Sprint sent out a generic statement about the crisis. But in the Month of May, Instead of prolonging the bill. I PAID almost \$1000. They refused to send me a bill. Every time I went online to access my bill. It would never open. On June 5th I went to the Sprint store in Inglewood, Ca to repair my phone. The associate told me that my phone was beyond repair and should trade it in for upgrade. I told him I was not happy with the service and he said that he would make sure that I would not go through my previous experience again. Upon my upgrade we went through my bill AGAIN. Hours were spent making sure I understood my bill CORRECTLY. He brought over the Store Manager "EDDIE" they stated that I was ripped off and my bill was paid off. He gave me a bill breakdown, so would be clear and there would not be any confusion on the bill should be generated on July 12th, 2020. On June 11th Sprint continuously attempted to deduct \$185 out of my bank account which was paid on JUNE 5th!!! I contacted them and they said I still had to pay that amount and my payment made on the 5th of June did not cancel my arrangement and I owed and additional 495 on the acct. THIS IS FRAUD!!!!!!!! They were EXCEPTIONALLY RUDE. They said someone would call me back. I NEVER received a call back. And they continued to attempt to deduct \$185 out of my acct. They charged my bank acct \$49.00. They are viscous. I contacted Sprint CS once again. The gentleman who handled my call was beyond rude and disrespectful. He said that the addional \$494 was for a bill and \$300 phone charge since my phone was damaged. He told me I had the money!! I spent in bills and upgrade over 1200 dollar in ONE month. THIS A CRIME. He the transferred me to a supervisor. He said that the associates and the store made a serious mistake, would look further into my bill, unlock my acct so I can review my bill, waive the fees that were placed on my bill and contact me with the updates. That was well over two weeks ago. I STILL HAVE YET TO RECEIVE A CALL. Today, June 24th, Sprint sent me a bill for \$481.00. NOT ONLY IS THE DECEPTIVE, BUT THIS IS ILLEGAL BILL PRACTICES!! PLEASE HELP.

Ticket: # 4048092 - Spectrum Covid-19 Billing

Date: 6/24/2020 3:15:40 PM

City/State/Zip: New York, New York 10128

Company Complaining About: Spectrum

Description

Spectrum Internet and TV. He attempted to disconnect in March. He was told by doctors to leave the area due to Covid-19. He called Spectrum to disconnect his service in his NY apartment in March; he was going to try to just suspend it but they bill him for full service.

But they kept billing him in spite of the fact that he has been attempting to cancel his service since March; they promised they would refund his money he paid in March. He has told them over 4 times that his service was to be cancelled. His bill is now for over 3 months.

The tell him that he has to pay the entire bill to get a refund. Spectrum refuses to disconnect or let him out of this. Resolution the caller seeks is because of Covid-19 he had to move out of his NY apartment; there were a lot of sick people in it and Spectrum refuses to cancel service that was requested for the first time in March and they continue to bill him; cancel service. He wants Spectrum to cancel service and not bill him because he was not there from March and refund his March payment. ***CTR386-phone***

Ticket: # 4048163 - Xfinity Comcast Overbilling

Date: 6/24/2020 3:34:37 PM

City/State/Zip: Stockton, California 95207

Company Complaining About: Comcast

Description

Xfinity/Comcast terminated TV amidst COVID19 crisis. Xfinity is charging late fees for services billed in advance. They are also charging usurious access fees to access channels supposedly available in promotional TV packages. Xfinity is charging monthly fee to access live sporting events. Since COVID19- there arent any sporting events. I removed Cable television service on 06.10.2020, Xfinity continues to bill me for these services, and instead of my bill going down it continues to increase. I've spend countless hours on the phone with Xfinity representatives & in local office & so far, no one has been able to resolve this issue.

Bigger concern: I am only one household. Xfinity charges me \$47 to access subscribed channels and for Xfinity's access to live events- Again, there arent any live events due to COVID19. Furthermore, my subscription to cable TV package should grant me access to product in which im paying for. We have a MAJOR overbilling problem that needs to be addressed immediately

I still have not received a reply to my last email. Will you please help me get a response from them?

From: (b) (6)
Sent: Wednesday, June 3, 2020 7:59 AM
To: FCC <consumercomplaints@fcc.gov>
Subject: Re: Request updated: Fiber optics not available

I have not had a response from my last email. I understand with the COVID 19 shutdown, but now it is lifted. Please respond to the email below.

Again my question has not been answered.

CenturyLink responded that internet via fiber is not available to my home. My question remains WHY? If the fiber cable is ran in front of my home, why can't I get internet via fiber. Why is it not available? ? ? ? Does CenturyLink need more equipment? ? Modern technology? More nodes? ? ? CenturyLink spent a lot of money running the fiber cable past my house, why can't I access internet via fiber? ? ?

The ADSL technology that is available at 10 Mbps download is an antiquated technology in this day and age of high speed internet.

My question is why is internet via fiber not available to my home? ? I am not asking what is available, I am asking why I can't get internet via fiber that is ran in front of my home. It is there, Why can't I access the internet via fiber? ?

Ticket: # 4048273 - T Mobile Outage**Date:** 6/24/2020 4:02:14 PM**City/State/Zip:** San Francisco, California 94103**Company Complaining About:** T Mobile

Description

6-24-20

Ajit Pai,

Let me tell you how bad the T Mobile outage affected California.

On Monday 6-15-2-0 at about 1pm as a T Mobile Customer my Phone service stopped. I was not notified by T Mobile in any way. I was (and am) working from home for the Ca Employment Development Department assisting 4.7 Million Unemployment Insurance Customers file claims and get paid benefit. The E.D.D. has been inundated with calls because our UI Dept has been unable to keep up with demand. The servers have crashed and we are just now hiring over 4,000 reps to assist in the back log. I hear that some claimants have been without benefits for 2 months and they can not reach UI on our phone lines or via email.

I work for the Work Force Service Division and because of Covid19 I have been working from home calling back UI customers. On that day I was able to reach only 13 UI customers. Sadly many are dealing with very serious challenges-no benefits means no food, possible eviction, no medications. The suicide rate has gone up in California as a result of covid19 and unfortunately the EDD needs all the tools at its disposal to help California residents get back on their feet. The T mobile outage made serious challenges much worse for the many EDD workers working from home who contract with T Mobile Service to serve California UI claimants. UI claimants are on the edge and very upset with the EDD. T Mobile made it impossible for EDD reps to reach out to UI claimants to help them put put on their table and keep a roof over their head. Many with families with children. Many Seniors and many many on the edge.

Respectfully,

(b) (6)

City/State/Zip: Los Angeles, California 90035

Company Complaining About: Spectrum

Description

In the past 6 months Spectrum technicians have been to my home multiple times. During the pandemic, they have been to my home twice. Against my protestations, I have complied with requests. The field technician supervisor, Andrew, asked that I contact him directly with any concerns. I have done so multiple times, providing video of my ongoing problems.

Currently they have requested to come again. Each technician has failed to fix my intermittent internet. Their visits interrupt my work day and cause great concerns for my safety.

Andrew demanded I pay my bill in full, citing my delay for the ongoing intermittent internet problems. I acquiesced to ensure my service would not be interrupted.

I take legal issue with paying for a service I am not receiving. It is upsetting that each technician assures me the problem has been solved yet every day I experience delays or no internet.

I have short videos of no internet or delayed connection. Is there a fine this company can incur for failing to provide the stated service promised to customers?

At the very least, I want my payment refunded. There is very little hope the technicians scheduled will fix the problem. I find them to be poorly trained. I am extremely disappointed in Spectrum.

Company Complaining About: AT&T

Description

About a week ago, during this pandemic, ATT Wireless disconnected my service. Of course this was surprising considering they advised they aren't disconnecting service until June 30 due to this situation. As a result of this pandemic, our household, as many others, experienced reduced hours for work. To get my service back on, I had to pay \$250 on June 18 to restore, and set an arrangement for \$415 for June 27. We are all going through this situation. It's bad business to advertise helping customers, then suspend their service and force them to pay money needed for rent to keep the service on. This is ridiculous. Now there is an upcoming payment that we don't have. We didn't bring about this pandemic and consideration of the customers should be this company's priority.

Company Complaining About: Comcast

Description

Comcast high speed internet is 20 feet from our house. With a new drop just put in last month. But they want \$5000.00 to hook us up. Our neighbors did not have to pay that fee. Son needs this high speed to do class work from home. Because of COVID 19.

Ticket: # 4049693 - Suddenlink dishonest service**Date:** 6/25/2020 11:30:19 AM**City/State/Zip:** Troup, Texas 75789**Company Complaining About:** Sudden Link

Description

I moved to my residence on Feb.28. 2020. For a variety of reasons, Suddenlink people was unable to install my internet until March 25, 2020. Mid- march internet speed starts decreasing to 750kbs, I called many times and their excuses were the increase of activity because the COVID-19, a service interruption in my area, etc.... April bill comes, and they charged me regular charges, I also noticed that they are charging me an extra \$30 charge. They said this charge is the cost of renting their internet, this charge is on top of the cost of my plan. I signed up for a \$54.99 plan, and my bill comes of \$84.99 every month. April 28, my internet goes down completely, technicians start coming again, I am losing work hours, multiple calls going on. Until this day, June 26, 2020, my internet is running around the 70kbs, during the night it might go up. Multiple calls to Suddenlink, and no credit. They claimed that they do not have notes on my account. But they do record the conversations??? June 10, 2020, they suspended my service because I denied payment until receiving a credit, they promised me that if I paid my account, a supervisor was going to call me back and fix my situation. I paid the full bill plus late charges!!! I have not been called back, I have not received a credit and I still do not have the speed that I am paying for. Suddenlink is stealing from the clients. Taking advantage that in areas like mines, they are the only providers. Suddenlink owes me a credit for the last three months of service, plus an explanation of why they are charging me a rental fee that was not mentioned at all during our agreement. I cannot wait to see a class-action lawsuit against this company!!!

Ticket: # 4049709 - No internet access for more than a month

Date: 6/25/2020 11:34:19 AM

City/State/Zip: Savannah, Georgia 31419

Company Complaining About: Comcast

Description

Due to provider's failure to repair and/or upgrade outside cable in service area, internet access has not worked properly or at all for more than one month at my location. Provider states that problem will be corrected and service restored today June 25 with the installation and connection of a new cable, yet provider has done nothing in the last month to provide an effective alternative solution. We continue to pay for internet service even though there is NONE. In order to be able to work remotely from home, which is necessary during this pandemic, we have had to use cellular backup solutions at additional cost. This cost should be reimbursed by Comcast/Xfinity as the need for this is solely the result of their failure to repair/replace the outdated cable in a timely manner.

Ticket: # 4050000 - Broadband DSL services in my area

Date: 6/25/2020 12:51:18 PM

City/State/Zip: Wautoma, Wisconsin 54982

Company Complaining About: Centurylink

Description

Please bring faster DSL to our Road. With Covid-19 and the demand for internet services to be able to continue my 3 childrens education and work from home options. I feel that this is a necessity with the current situation and modern lifestyle. I have been paying 400\$ a month just to use hotspot data through cell phone companies and we are struggling financially. We are currently only offered 1.5mb through CenturyLink while neighbors are getting 3mb for same price and faster, this is not something i find fair.

Ticket: # 4050056 - Frequent Outages of Spectrum Internet

Date: 6/25/2020 1:06:32 PM

City/State/Zip: Monterey Park, California 91755

Company Complaining About: Spectrum

Description

6/25/2020 I pay \$69.99/month for Spectrum residential internet only service. Since at least 2019 it seems Spectrum internet outages have been occurring weekly. This affects my household and the other 79 homes within my gated community. Due to COVID-19 many of us are working from home and these frequent disruptions are preventing us from getting our work done. My neighbors are ANGRY with Spectrum as evidenced by the comments on our HOA Facebook page. Some of us use this spreadsheet to document the outages:

[https://docs.google.com/spreadsheets/d/1QIFpean25DRK-0lzSG-X1R360_wFJJS8G3F7WjHpK-8/edit?fbclid=IwAR1kZDIsh0zkxe9PciglHDA0PZm8FXS_Q-](https://docs.google.com/spreadsheets/d/1QIFpean25DRK-0lzSG-X1R360_wFJJS8G3F7WjHpK-8/edit?fbclid=IwAR1kZDIsh0zkxe9PciglHDA0PZm8FXS_Q-XJgT_1c3J6ZFgW5HHyCk7d5zo#gid=1464028803)

[XJgT_1c3J6ZFgW5HHyCk7d5zo#gid=1464028803](https://docs.google.com/spreadsheets/d/1QIFpean25DRK-0lzSG-X1R360_wFJJS8G3F7WjHpK-8/edit?fbclid=IwAR1kZDIsh0zkxe9PciglHDA0PZm8FXS_Q-XJgT_1c3J6ZFgW5HHyCk7d5zo#gid=1464028803)

The latest outage began last night and it's now 14+ hours and my home is still without internet service!!! Everyone complains to Spectrum and they say they've made corrections but the frequent outages continue. The last manager I spoke with earlier this month was Megan Johnston at (314) 755-1662.

1) Please order Spectrum to get their act together.

2) Please allow more competition so we have more choices for high speed internet.

Thank you for your assistance.

Ticket: # 4050324 - AT&T Internet

Date: 6/25/2020 2:18:46 PM

City/State/Zip: Lilburn, Georgia 30047

Company Complaining About: AT&T

Description

I have had internet service with AT&T since may of 2018 which was supposed to be for speed 10mbps. The service has always been painfully slow. I had called in a couple times during my services in 2018 and 2019 but due to COVID I am forced to stay in the house which caused me to see this issue more clearly.

I reported this issue back in March, where I spoke to a dispatcher that told me there was a wiring issue. AT&T had 2 technicians come out to fix the issue as I was only getting upload and download speeds of mbps and 2mbps . The technician advised that AT&T was not letting enough bandwith of internet through to my home. He called AT&T and asked them to open the connection further for me to receive more internet bandwith. After this was completed, my speeds were up to 10 mbps as they should be.

The technician advised that I call billing to be compensated for the time that I have had service that was inadequate.

I contacted ATT several times since May constantly to speak to a supervisor. I have been put on hold for hours, sent back to automated systems during this time and never was able to speak with anyone regarding my billing. My service was interrupted for nonpayment for the months starting in march when I had this issue.

Ticket: # 4050391 - Service/COVID- 19 / Emergency

Company Complaining About: Google

Description

Two weeks ago, there was an issue with our phones. We were not able to make calls, receive texts nothing. I have never had such an issue with my service and attempted to call and was not able to get through to TMobile, they were not answering phones and then a message would come up that they were having technical issues. Today, I am looking through my settings and I see this covid 19 tracker in my phone, and this happened after this massive phone outage across the nation from TMobile. It doesn't matter if it is android or iPhone, it is on our phones. We should have been notified and given a choice. IF they can put it there they can activate it whether I want it or not, and I want it off my phone now! I have a minor child and what about others who do, I have family with children with phones, whose peeking at them and monitoring them! our rights are infringed upon enough and our phones should not be invaded with health concerns and issues, that is not for them to be involved in! how can a phone track an illness! get it off!!!!!!!!!! In speaking with TMobile, the rep Maggie stated that it was placed there by google and apple and it was an app! Apps are a choice and are looked for by the user in the play store, not sneaked there without knowledge! This is not an app, this is forced, we were not made aware and it is HIPPA violation! Remove it!

Ticket: # 4050649 - Keep Americans Connected COVID-19

Date: 6/25/2020 3:43:08 PM

City/State/Zip: Valdosta, Georgia 31605

Company Complaining About: AT&T

Description

The consumer states he has cell phone and internet service with AT&T.

The consumer states that they disconnected his service even though they had signed the Keep America Connected Pledge.

The consumer states that he called them and they said that they only honored it until the month of May.

The consumer provided them with the information on the FCC site saying AT&T signed for the extension until June.

The consumer would like his cell phone services turned back on immediately.

The consumer states that the Internet didn't get shut off because its a separate from his cell phone.

The consumer would like him bill adjusted since you guys pledged to keeping the services on and now he is going to have to pay a full service bill for a interruption caused by a representative that doesn't know what his company pledged to.

City/State/Zip: Queens Village, New York 11428

Company Complaining About: Spectrum

Description

I have had poor internet service with Spectrum since I got the account. However in the last few months the service has been beyond SUBPAR! We are working from home and the internet is not reliable. I have called, had routers and modems switched. I have done everything in my ability to correct. I have called EVERY DAY in the month of June. In the time of covid, I have had to put myself and my family at risk by allowing technicians to come to my home 5 times! Nothing is fixed. Each time they come the service gets worse. I cannot help to think that Spectrum is intentionally providing slow/blocked service to ensure customers purchase faster more expensive plans. I do not have alot of devices and even my 2019 4K television that is connected by ethernet loses connection. No one has been able to fix it, yet they want to collect payment. My job is on the line because I have no service to do my work. I cannot go outside to work any where else because of my health issues. My service is still not working as I type this complaint. I need help getting it fixed and my bill needs to be reduced or cleared. I have not had service so I should not have to pay

Description

Since April 1st 2020 our entire town of Howell NJ has terrible internet. It is all related to Covid-19 and work from home etc.. the ISP "Altice" won't resolve the issue and we have had several technicians tell us that the company is having problems. We have no other provider of internet in our area.

Ticket: # 4051070 - Suddenlink Issues**Date:** 6/25/2020 5:47:04 PM**City/State/Zip:** Lubbock, Texas 79424**Company Complaining About:** Sudden Link

Description

On Sunday, June 21, 2020, we experienced an electrical storm in Lubbock, TX. My internet went down around midnight. On Monday, June 22, 2020, I restarted my router, but there were no lights on it. I took the router to Suddenlink to get a replacement. Side note; the staff there are unprofessional and extremely rude, even to change out a piece of equipment. I brought the router home and hooked it up, which didn't work. The following is what happened next:

6-22-20 @1:24 pm I called to place a service call to Suddenlink. When I called, you could only be sent to the FAQs on the internet and the call would disconnect. I called their "new customer" order line and spoke to ESL person. This person could barely speak English. I explained to the CS representative I was unable to get a human on the phone. I am 65 years old and have a pre-existing health condition. With the pandemic, I should not be without internet as it's my only source of connecting with the outside. The gentleman said he understood and said he was going to test the lines. Fifteen minutes later, he told me the lines needed to be repaired and he would schedule a tech. He also wanted a payment of \$25 over the phone, which I refused. I told him I would give a check when the tech showed up.

6-22-20 - Received email from Suddenlink about upcoming appt, and that I had chosen to upgrade my internet to 1 gig, doubling my monthly service charges. I called Suddenlink but couldn't get anyone on the phone.

6-23-20 - 10:00 am - called Suddenlink to ask about the additional charges. They told me this was not a repair appt, but to upgrade my services. I explained to them I had not requested that. They then told me they needed to cancel the appt and reschedule for the following day.

6-24-20 - I called a different ISP and requested service. They scheduled the appt for the following morning, 6-25-20.

On 6-25-20, new internet was installed from new ISP. I called Suddenlink and canceled the appt. I then received a call asking me if I was canceling the appt and I said yes.

6-25-20 - I went to Suddenlink to return the router (which did not work) and to get a receipt. I waited approximately one hour. They refused to give me a receipt for the router and also told me they would be billing me through July 17, 2020, even though I have no contract with them. This was never discussed before. Numerous people were in line to discontinue service and experiencing the same problems I was.

I DO NOT WANT TO PAY FOR SERVICE THAT IS NOT WORKING AND IS PENDING DISCONNECT. I DO NOT WANT TO BE CHARGED FOR EQUIPMENT I HAVE ALREADY RETURNED AND DOES NOT WORK.

I asked to speak to the manager, and was told they were not there. I asked to speak to a supervisor and was told there was none.

As a previous healthcare compliance officer, EVERY business is REQUIRED to have a code of ethics, code of conduct, compliance policies and procedures, service policies, etc. What this company is doing is criminal and there is no oversight or accountability. I have called the compliance department at the City of Lubbock to voice my concerns. Please advocate for individuals such as myself who have been wrongly mistreated for extremely poor service and compliance. Additionally, I

have NEVER received a bill from them, even though I called repeatedly. Thank you. The issues involve no availability, billing, service and interference.

Description

Kinetic/Windstream has told me multiple times that I have servicability in my area but when I go to call in and order the service they say sorry but we don't service your area. Is there anyway you guys could kick them in there arses and tell em to bring there internet here? I'm so tired of having internet companies put me down, I mean for fucks sake, I need internet for work since this Corona virus, and there holding me back. I can't even get a house cause I'm living with my parents, and don't have any credit... It's bullcrap...

[Ticket: # 4051162 - Cricket changed rates on me after I was told it was grandfathered in.](#)

Date: 6/25/2020 6:33:29 PM

City/State/Zip: Bartlett, Illinois 60103

Company Complaining About: Cricket

Description

I had a grandfathered plan with cricket and changed it to a new grandfathered plan that they were advertising for COVID. I was told it would be 15 dollars a month and that the rate would not change. Then I get a text that my rate was changing from \$15.00 to \$30.00 a month. Cricket used COVID to scam people to change their plans. This should be illegal as I was told numerous times that it was grandfathered plan.

Ticket: # 4051332 - AT&T failure of service and requiring customer to be possibly exposed to COVID-19

Date: 6/25/2020 7:51:14 PM

City/State/Zip: Hesperia, Michigan 49421

Company Complaining About: AT&T

Description

AT&T sent wrong equipment to replace defective equipment. Had to call to activate. Told that because the upgraded the equipment I am required to have a technician come into my home. I refuse to be exposed to COVID-19 by a roaming technician, so they will not activate the box remotely, and I am stuck with my defective equipment.

Resolve - remotely active the equipment they sent

Ticket: # 4051505 - Strait Talk again!

Date: 6/25/2020 10:01:12 PM

City/State/Zip: Tucson, Arizona 85716

Company Complaining About: Straight Talk

Description

Previous complaint: Strait talk has charged my credit card 4 times for 2 months of service. When I called to get one of the double charges removed they charged me again and then issued one refund. I am back to when I first contacted them about the double billing since they charged me and issued a refund the same day. Walmart has a good scam going if they double bill all their clients I think they can help their bottom line with fraud. I contacted them again today for the 3rd time and they said they would call back. They called back with a spam Spanish only lady that just kept talking and did not help. They need to quit double charging for each month and refund my credit card.

Current complaint: So for this month they charged the credit card twice again for prepaid services. I contact their chat they said they could not help and I needed to call. First time they hung up on me and the second time they kept me on hold for over 20 minutes. The Strait talk employee kept saying no one was available yet. When I asked if anyone else was there she said they had all quit. Then she said it was going to be longer. Then she came back and said the call was dropped. Asked to speak to her supervisor and she made like she was going to transfer me she instead made like she was transferring and then hung up. Besides their incompetence, they have still double billed me for this month. I removed the unit from my account and told the chat service to cancel my account. Again they are billing customers twice so they can provide other customers more service during COVID19. I suspect they are the source of skimming credit cards also. They need to refund the full 30 dollars since they keep charging for services I do not get and I have cancelled my account with them.

Ticket: # 4051515 - Fraudulent billing practices by Century Link

Date: 6/25/2020 10:07:15 PM

City/State/Zip: Redding, California 96001

Company Complaining About: Centurylink

Description

I closed my account in April. All equipment was returned by mail. I spoke with several customer representatives to ascertain my last bill of 103.51 would be the last. This was paid by June 01, 2020. I then received another bill for 108.36 due June 30. There is no reason for this bill, which included a 99.99 charge for unreturned HSI equipment and Nevada taxes. All the equipment was returned. It is CenturyLink's processes that are not operating and were certainly not functioning in April, at the beginning of the Covid-19 virus shut downs. We will not be extorted. Please refer to account number (b) (6) See all of the telephone calls with customer representatives. This bill is not an accurate reflection of the status of this account.

Ticket: # 4051538 - MediaCom Internet and Tv

Date: 6/25/2020 10:27:43 PM

City/State/Zip: Valley Center, California 92082

Company Complaining About: Mediacom

Description

Mediacom has failed to deliver internet and TV services that they promised.

I have been with them for 3 years, it has been a very rocky road. Because Mediacom has jurisdiction in our Area in North San Diego County they have a monopoly and no other competition can challenge them. Therefore customer care is non existent, they pretty much can do whatever they want to you and get away with it.

For example our internet has on a regular basis gone down 20 times a day, not good for my wife who relies on access for her work at Quest Diagnostics on the COVID-19 team and OSHA. The repair crew from Mediacom has been out to our Ranch at least 12 times, mostly blaming our inside wiring, well 2 years ago I had all coax cable terminals go from the pole straight to their equipment, eliminating any connection error, but still down 20 times a day.

At this point my wife was forced to drive 1-1/2 hour one way to work, because Mediacom failed to fix the problem, but yet still getting paid 200+ a month for their service.

Recently I built a ADU granny pad for my Mom, had TV service added to our bill, but to this day, Mediacom still has not provided TV service that my 89 year old mother can enjoy, what finally broke the camels back here is us calling for a technician again, for TV, scheduled appointment, waiting for technician to show up, and finding out that they tried calling us, with some phone number that doesn't exist !!!!

They have been here numerous times and they don't have my correct phone number on file ?????? That's a complete lie !!!!!

Not to mention, all of their tech support is overseas, another absolute disconnect with their clients. They need to be stopped from stealing money from our community and bring in competition!!!

Ticket: # 4051673 - Lies and Manipulations, false edits of news stories.

Ticket: # 4052046 - harrassing phone calls from collection dept.

Date: 6/26/2020 11:20:43 AM

City/State/Zip: Altadena, California 91001

Company Complaining About: AT&T

Description

AT&T placed 2 automated calls to my home stating " urgent " messages regarding your phone, please call our offices." I called today, spoke with " John Beard" He tells me that my acct was past due \$100. I told him I set up a payment plan June 6th where I plan to pay my bill in 2 payments, with the last payment of \$100 due 6/29. today was only 6/26. He then says the payment plan fell off your account. I ask him what would of happen if I had not called them today? was my service going to be interrupted? He did not answer. I told him as a consumer, to receive harassing back to back calls, well after I know I made a good faith payment initially and deferred the balance, was disturbing and unacceptable . I then told him I went on line prior to calling them today and verified my pending arrangement for 6/29/20. he had NO answer , kept insisting they did not see that on their end. this is a terrible billing system in that it does not capture consumer payment arrangements. He did say he would update my account with the 6/29 installment, that was only after I had to tell him i had already set up a payment plan. Initially when he got on the phone, the first thing he said was " your account is past due, would you like to pay the \$100"? I was shocked! because I knew I had already set up an arrangement. He offered no apology. since he took no accountability on behalf of AT&T, I then ask to speak to a manager, he then tells me I would have to call back by 10 am as there was no one available due to COVID 19. while I understand the limits due to COVID 19 I ask if he could at least take my information and have the manager call ME back after-all, I am the customer, its apparent your system screwed up and I want to speak to a manager. He said NO, I would need to call back . what kind of company is this? they pride themselves on good customer service yet when they cause a error , they cant even assist a simple request by having a manager call the consumer back. here again, the consumer is let down, no real explanation other than their system did not show the arrangement (yet I was given a confirmation when I set up the installments June 6) I also ask for a copy of our recorded phone call. He states he could not do that, again I would have to request from the manager. He did nothing to help me, only saying that the system dropped off the payment plan. He only made the situation worse by not willing to at least assure me he would have a manager return my call . I routinely make arrangements on my AT&T bill and need to be reassured this will not happen again. what AT&T needs to do is take accountability and look at the customers overall history before sending out urgent phone calls. What AT&T needs to do is if a consumer request a call back from a manager, the rep needs to pass that onto a manager! not have the consumer call back! they need to do a better job by training their reps good customer service.when a consumer such as myself (who has had continuous service for 10 years) was left to feel as though I caused the problem by not paying my bill is a real issue and needs to be addressed!

Ticket: # 4052462 - Electronic Wiretapping Violation**Date:** 6/26/2020 1:06:41 PM**City/State/Zip:** San Diego, California 92109**Company Complaining About:** Spectrum (from Today) And At&t (from The Past)

Description

This morning, June 26, 2020, I was speaking to my sister in Ireland at 8a.m. California time at (b) (6) and I was calling her from 8(b) (6) through my Spectrum landline account. She told me about her physical therapist Christine and how she finally got back to her after abandoning her for several months due to COVID-19 but that she now had a new physical therapist and didn't need her anymore etc. She went on and on and I was mostly listening. At 8:09a.m. the call dropped. Normally, I hang up the line, wait 15 seconds, and then call her back. But I did not hang up the line and all of a sudden the phone just started called her back but when she answered, it was a the conversation we had just had. She started talking about Christine and how she got back to her too late. It the exact conversation we just had.

I live in San Diego Co. and I have been the victim of illegal wiretap before since October 1, 2014 through what I believe is the HIDTA AT&T funded and led Hemisphere Project. I believe that rogue law enforcement have been and are wiretapping me illegally to gain insight into my legal strategies. Today, my lawyer is filing a second amended complaint in federal court which details the conspiracy of law enforcement agents and members of the District Attorney's Office. I am very afraid they are going to do something to me because I am suing based on constitutional violations not only from the illegal wiretaps for the past several years, but from crimes committed against me dating back to August 22, 2014. I need your assistance please. I am terrified that I am going to be harmed. This has been like torture. I need you to investigate the HIDTA administrative subpoena process in San Diego Co. It is being exploited to cover up criminal activity IN law enforcement and IN the DA's office. These people could go to prison for their crimes so they want to stop me and that is why I am being wiretapped. I need you to intervene please. I have been in contact with Emily Allen, Chief of Major Frauds and Public Corruption, at the US Attorney's Office Southern District here in San Diego. She wrote me a letter on April 15, 2020 documenting that she has sent my declarations to the FBI and that they may be contacting me but they have not contacted me as of the date of this complaint. Please communicate with them if you can. I will be reaching out to Emily Allen again in a letter today to document this. Thank you. (b) (6) cell phone). I have had several carriers since August 22, 2014 including, AT&T, Sprint, Spectrum, PCS Mobile and T-Mobile. I believe the Hemisphere Project has wiretapped me on all phones past and present.

I have attached server phone records from AT&T from Oct. 25, 2014 in which I believe the phone number 619-709-0000 was wiretapping me while I spoke to my ex-husband (b) (6) from (b) (6) I am also including a record from Oct. 10, 2014 when I believe the numbers with 9999999999 show evidence of initial infiltration. I need to know what the originating account of 789 means. I have these records available even though it happened a long time ago. I Thanks.

Illegal Wiretap--Current Spectrum landline (b) (6) and possibly cell phone T-Mobile (b) (6). Past numbers include AT&T landline from Oct 1, 2014-Sept. 9, 2015 at (b) (6) and Sprint cell phone Feb. 1, 2015-July 7, 2015 at (b) (6)

Ticket: # 4052463 - Spectrum internet service affect my livelihood

Ticket: # 4052561 - Rebuttal to #3927623

Date: 6/26/2020 1:28:42 PM

City/State/Zip: Nashville, Tennessee 37211

Company Complaining About: AT&T

Description

- I'm in receipt of AT&T responds. However I wanted to clarify that when Ms. Tammie called to said that the disconnection happened in error and that is not what she put on the response. I was scheduled for reconnection I was not supposed to reach out to anyone to schedule it or not that I was told so when I spend my entire Saturday trying to make sure I have internet before start of a work week. Again nobody showed up for the reconnection on March 18 as I had been told.
- Finally, Ms. Tammie offered to give me a credit of \$300.00 towards my wireless account. I rejected the offer because I lost income for a week I didn't work because I had no internet and I had bills to pay outside of the AT&T wireless bill. I understand AT&T want the money back to their pocket but I'm sorry I because the loss of income meant missed bills, and missed mortgage payment, overdrawn account in the middle of a pandemic.
- I expressed the willing to settle the case with a payment that is equal to my week of pay check plus the expenses incurred to install new service. At the time Ms. Tammie was determined to push down what she needed and i felt pushed and have to risk my health to go to the office in order to provide the paystub with the information she needed.

Company Complaining About: Verizon

Description

During the coronavirus pandemic, my business was shut down by executive order of Governor Phil Murphy of New Jersey. I reopened my business to find that Verizon automatically renewed my service without my consent at a higher price. When I disconnected, they attempted to charge me a \$1,000 cancellation fee. I seek my service disconnected with no penalty.

Ticket: # 4052894 - Fox "News"

Date: 6/26/2020 2:39:03 PM

City/State/Zip: North Babylon, New York 11703

Description

Fox News should not be allowed to have the moniker of news in its title. This network labeled Coronavirus as a hoax and encouraged its viewers to continue their lives as usual. Now it is mocking citizens that responsibly choose to follow the advice of medical experts by wearing masks. This network does not deliver the news in an unbiased manner.

Fox News is an entire network that is disseminating false information which will potentially cause deaths to others. This virus is not about "me", it is about "we". Please do not allow this to go on any longer. There are a series of clips in which this network promoted the virus as a hoax or as a scare strategy for Democrats, which potentially spread the virus. The FCC frequently fines networks or shows for the use of language, but this is far more severe, this network is spreading false information that will kill.

Please let me know if there is anything else that I can do or any other agency that I can contact to stop the spread of misinformation.

Ticket: # 4052953 - Suddenlink overcharging

Date: 6/26/2020 2:52:45 PM

City/State/Zip: Lufkin, Texas 75904

Company Complaining About: Sudden Link

Description

I have had suddenlink since January 2020 since ordering online i was told a different price then what i have been billed. I opted for paper billing and have only received 2 bills in this almost 7 month time. Now they are saying i have a almost \$1000 bill and its due to being over charged for services and me being without a job due to corona virus pandemic. I just started working from home about 2-3 weeks ago and they are not wanting to work with me about my bill and setting up a payment plan. I need my internet to work from home to pay my bills including suddenlink. I just want my bill to be sent and to be accurate and also get assistance with paying the bill on a agreed payment plan.

Ticket: # 4053060 - Comcast Business Internet

Date: 6/26/2020 3:21:26 PM

City/State/Zip: South San Francisco, California 94080

Company Complaining About: Comcast

Description

We were pretty satisfied customer until we need to cancel service. Comcast tagged us with extra 60 days of payment after our cancellation. The Comcast customer rep. just informed to sign the document and return equipment. It did not inform us about the extra 60 days of payment. This is not a right practice; why a customer needs to pay additional 60 days where the service is cancelled. The Comcast customer service representative should inform and warn the customer that one needs to provide 60 days notification prior cancellation. This way the customer could stay and use 60 days more of service. That was not done in our case.

We are reaching out to you if you could help us to resolve and WAIVE the extra 60 days payment especially under the current pandemic COVID-19 conditions. We are all economically under the same boat.

Ticket: # 4053373 - service issues fees multiple times

Date: 6/26/2020 4:45:39 PM

City/State/Zip: Victoria, Texas 77904

Company Complaining About: Sudden Link

Description

I had internet installed by suddenlink in February2020, the service was intermittent at best from the very beginning. I made multiple calls for support, they tried to tell me it was my modem. I replaced the modem, same issue, they finally sent a service tech out, same problem, called numerous more times and they sent another tech out (Suddenlink told me I would not be charged) and he did nothing. Called back and got another tech out and he finally fixed the problem. Suddenlink billed me for two service visits even though the service was never good from the initial install. On 6/8/2020 a Suddenlink rep said that both service fees for a total of \$120 would be removed because of the trouble I had with my service and issues I had with the techs. On 6/23/2020, I was told again that the fees would be removed within 24hrs and they were not. On 6/26/2020 I was told that they would not remove the charges so I asked to speak to a supervisor. The supervisor was busy, so was promised they would call when they got off the phone and they did not call back (which has happened many times in this experience). I paid the bill worried that I would lose service and I can't afford for that to happen as I work at home due to the Covid19 Pandemic. I just want the service fees credited back to my account since the service did not work from the very beginning.

Ticket: # 4053442 - Speed/COVID-19/Service

Date: 6/26/2020 5:00:15 PM

City/State/Zip: League City,, Texas 77573

Company Complaining About: Comcast

Description

consumer wants to place a complaint against Xfinity because consumer states that their service is been very poor. Consumer relays on his internet to work from home and when he calls consumer service they do not want to do anything to help him. Consumer is paying about 400 dollars per month. Consumer wants his service to be improve.

ctr408-phone

Ticket: # 4053486 - Spectrum Internet issues**Date:** 6/26/2020 5:15:37 PM**City/State/Zip:** Pasadena, California 91107**Company Complaining About:** Spectrum

Description

I have had repeated reliability issues with Spectrum aka Charter over the last 4 years. Once it appeared to be a problem with a loose connection at the pole exacerbated by winds. Two other times it appeared to be due to faulty cable modem hardware (new generation apparently had high rate of failure according to Spectrum technicians). But for the last three weeks, we've experienced an entirely new class of issue. We don't have an issue with the modem. We don't have an issue with infrastructure/wiring outside the home. We have an issue with our upstream/outbound packets just being dropped. During these outages, downstream packets continue to flow. When I called Spectrum on 6/18/2020 about the problem, they claimed there were no known issues in the neighborhood, however, when the tech arrived 7 days later, he immediately volunteered that indeed the maintenance crew was working on a problem that's existed for three weeks "an overloaded node, adding two more nodes and splitting the traffic between them because pretty much everywhere they are over-provisioned and don't have enough bandwidth to service customers". He then complained that the techs are pulling their hair out because Spectrum is signing up loads of new 'free' customers during the pandemic which is the reason they don't have enough bandwidth any more. This information was quite shocking to me. I remember being puzzled by Spectrum's marketing campaign over the last year or so trying to get customers to upgrade from 60Mbps to 100 or 200Mbps service thinking what a bad idea that would be if they didn't have the bandwidth headroom to support it. It's nonsensical because few customers actually care about speed of huge downloads (the only benefit of high speeds) and really only care that streaming works (which requires very little bandwidth) and that the service is reliable. So it seems that Spectrum may have grown themselves into a huge problem for their customers and may be slow to add bandwidth and restructure their network or to adjust their asymmetric up/down ratio to prevent the poor upstream service issues customers are experiencing right now. This is "network operations 101" type of stuff. Since NetNeutrality no longer exists, the problem could also be due to Spectrum utilizing QoS tagging to set a lower class of service/priority for packets from customers at lower tiers of service. It could simply be that their customers on the 200Mbps plan are crowding out the QoS queue for 'free' and lower tier customers. Every time I speak with them they ask me if I'd like to move up to the higher speed service which is a bit infuriating -- I just want my service to be up at least 99.9% of the time. My external IP uptime monitor that only checks every 5min is even showing 99.6% uptime, a dismal number -- given that the frequent outages last for only a few minutes a lot of the time, the actual uptime must be far lower than 99.6%. Please enforce some sanity on Spectrum and the industry as a whole. They must not be allowed to operate in this manner. They must be transparent about their network problems and credit customers for the issues. They have monitoring data to know what customers are having what types of issues and yet they do nothing and wait for customers to call then pretend they don't know what the problem is and dispatch technicians who can only verify that indeed the problem is in the network.

Ticket: # 4053663 - Suspension of Service without cause

Date: 6/26/2020 6:36:10 PM

City/State/Zip: Rolling Hills Estates, California 90274

Company Complaining About: Frontier Communications

Description

Due to Covid 19, I have been a stay home person doing most if not all of my business from my home office, on a few occasions I've had to go into my office to handle business, looking up files. Today I had no access to internet or a fax line, apparently Verizon had decided to suspend my account, without any proper notification of a billing issue.

Ticket: # 4053780 - payment arrangement

Date: 6/26/2020 7:48:12 PM

City/State/Zip: Oak Lawn, Illinois 60453

Company Complaining About: Comcast

Description

I have contacted several times about a payment arrangement each time was told something different. I have been with Comcast for over 10 years now and have never had a problem making a payment arrangement in the past until a few months ago when Comcast started non disconnection of internet service due to the covid virus. This has caused nothing but problems in making payment arrangement. I use to always be able to schedule a payment arrangement on the 3rd of every month but now I can no longer do this am being told if I dont make my payment by the 29th of the month my service will be disconnected except for my internet. Can not make a payment arrangement any longer for the 3rd of the month. Instead of helping people out during this pandemic comcast is making everything worse by not allowing any more payment arrangement. I have never had this problem up until a few month ago. So because I can't make a payment until the 3rd my services will be disconnected on the 29th. Instead of helping people out during the pandemic comcast is making everything worse with payments. Now I will have to cancel my service with comcast which I have bedn with for over 10 years and go with another provider as because I can't make my payment by the 28th and need to make a few days later on the 3rd

Ticket: # 4053828 - 2 Weeks Without Reliable Internet Service

Date: 6/26/2020 8:29:01 PM

City/State/Zip: Howell, New Jersey 07731

Company Complaining About: Optimum

Description

Cannot get Optimum to send out a site construction team to run new coax lines. It has been two weeks back and forth with 2+ hour wait times for technical support and twice they have sent technicians unprepared to run new lines from the street to the house. They are the only cable internet provider in the area and I have no alternative but do put up with their lack of customer support and attention to solve my issue. This is impacting my ability to work from home effectively during the current pandemic.

Ticket: # 4053892 - Data Cap Bandwidths

Date: 6/26/2020 9:30:32 PM

City/State/Zip: Foster City, California 94404

Company Complaining About: Comcast

Description

I am writing to you about the upcoming data cap limitations that are being put back in place at the end of this month. I am outraged in general at the greed companies like Comcast (and all other ISP's) put in place by limiting data usage; the last three months of SiP proves that their network can easily manage the increased traffic, but their story makes it seem like their infrastructure is a house of cards on the brink. Both my wife and I work in the technology sector where we are fortunate enough to be able to work full-time remotely. However we have had both children doing online schooling as well as spending hours online, unfortunately, watching shows on any number of streaming services, which is well outside the amount we would have allowed them internet access before SiP began just so we can do our full time jobs. Comcast sees the writing on the wall, and has decided to end the unlimited bandwidth on June 30th. But conveniently have added a new service that allows you to pay an additional \$50 dollars a month for unlimited data. I admit i might be wrong about the timing, but I am in IT and am constantly watching our cap limitations, and most likely would have been aware of that service, if anything just to be annoyed by it. With the numbers of new infections rising each day, it's only a matter of time before SiP is put back in place. Where does that leave people who can barely afford to pay thier bills due to a myriad of problems due to Covid-19? How can they provide a way to, well to be honest distract themselves and their children of the nightmares happening outside by being nickeled and dimed at every turn?! I am asking you to please take action on stopping this from happening. We have to be able to provide unlimited data across the board, just as some ray of light people can cling to in these nightmare times. If you like, I would be happy to talk with you about it. Thank you so much for all the work you're doing for us, I know it's not easy, but it's worth the work to help improve the lives of others.

Kind Regards,

(b) (6)

Ticket: # 4053912 - Complaint On Suddenlink

Date: 6/26/2020 9:51:14 PM

City/State/Zip: College Station, Texas 77840

Company Complaining About: Sudden Link

Description

Hi,

I have had multiple issues with my service, and have been hung up numerous times by their outsourced representatives. I am currently working from home due to the pandemic, and therefore I am reliant on internet to perform my job. Suddenlink will not cooperate in sending me a notice confirming that I have had issues. I have called over 15 times.

Ticket: # 4053935 - Fraud /Deceptive Practices/Billing

Date: 6/26/2020 10:05:26 PM

City/State/Zip: Arlington Heights, Illinois 60004

Company Complaining About: Wow

Description

I've had numerous problems with WOW cable. I was having issues with my service and was not able to log into my work portal due to extremely low upload speeds of 1 MP. They sent a tech out to fix the issue but the upload speed was still too low, still the same issues. The tech tried to extort me to agree to a new 2-year contract by removing most all of my 200 + cable channels and gave me the bare minimum channels for the same monthly fee of \$220.00, and also wanted me to pay more for increased speed for their service to work. I refused to agree to a new 2yr agreement as this was completely deceptive unethical. During this visit the tech also dropped a cable line right down the middle of my back yard and said he wouldn't hang it but would let someone know. I explicitly told him the line will need to be hung and not buried as they are excavating/regrading with new construction next door. A couple days later they sent someone to bury the line with shovels and went to dig right on top of gas and electric lines. I was able to stop them. I then had a conference call and while I was on the call the completely removed my cable line from the house to the pole and left, I now had no cable or internet service at all. I then called WOW to cancel my service in its entirety on April 15th and ordered new service with a new provider the same day. I was also told I could return the equipment when the offices reopened as they are all closed due to covid-19. I have the email confirmation from my new provider to prove I ordered new service with them on April 15th.

On June 25th I received a bill from WOW billing me for this entire period from April to July. I immediately called WOW to have this corrected. I called twice (I was conveniently hung up on) and finally spoke with David who said he was from Asia and he couldn't help me, but took my number and said he would have someone call me back. They never called. I called again four times on June 26th and spoke with four different people (Esa, John, Yenti, and Jacob) in their Nicaragua location in Central America.

In speaking with Jacob who stated his title was "Supervisor" stated he is still showing my account active and the best he can do was to backdate 30 days and I would need to pay the remainder of the bill. That's all that anyone can authorize. He said he had no record of me cancelling my service on April 15th, no record of the unethical behavior, or my call from yesterday June 25th. I stated to him it's illegal to bill someone for service you did not provide, he agreed it's illegal but said that's their company policy. He stated there is no one in the USA I can speak with, that all calls are directed to his call center office location. He then said I could send an email that would go to a higher department but didn't have the name of the department and all emails would be routed to his office call center location anyway. He refused to cancel my account because I wouldn't agree to the 30 days.

I have had some extensive overbilling issues with them prior to this that went on for a long period of time that they weren't sending me statement and couldn't even produce a bill at all. Let me know if you would like detail on that too.

This is only a summary of what occurred. I have spent countless hours on the phone trying to resolve this with no resolution. Could you please assist me with getting this corrected?

Company Complaining About: Metropcs

Description

The company is not willing to help me with phone services during pandemic. The company put a note on my account to not help me. Which this is prejudice on their behalf. This is not something any customer should be enduring at this time.

Ticket: # 4054021 - COMMUNICATION CENSORSHIP covid games aka Google Voice

Date: 6/27/2020 1:46:42 AM

City/State/Zip: Beverly Hills, California 90210

Company Complaining About: Google

Description

Goggle has restricted my ability to send text to my mother repeatedly thru 2020 via their Google Voice service. They seems have changed their policies as in the past, I was unaware of these limitations. What google says" If you send many text messages in a short period, or recipients mark your messages as spam, Voice may temporarily restrict you from sending more messages. & Your Google Voice account may be temporarily blocked from calling or sending messages. If this happens, please wait 24 hours and try again." When trying to communicate with my mother this is unacceptable. Anti-trust worthy! (b) (6)

Ticket: # 4054034 - Verizon blocked 2 hotspots without permission

Date: 6/27/2020 2:25:29 AM

City/State/Zip: Davie, Florida 33314-3726

Company Complaining About: Verizon Wireless

Description

Back in March when Covid19 raged through the US, my lovely cellphone company contacted my son through his cell phone that his phone was going to be charged for over usage on his hotspot. When we were bought, mind you, 2 additional phones, we were told that we had unlimited every thing. Come to find out 2 years later, we did not. My husband lost his work discount because they said that our plan was unlimited. They obviously blatantly lied to us.

We are in a Pandemic and my son needed to do his school work via his hotspot. Why via our hotspot??? Because AT&T lied about our internet. WE were paying for years internet that we didn't have. They gave us NOTHING. Can you imagine paying for something for years that you don't have. Sound like Verizon is doing the same thing. This needs to be rectified. My daughter is in a summer reading program and because we do not have internet because every company lies to get business that they do NOT provide!!! We went to use her hotspot and it was blocked.

Ticket: # 4054083 - Optimum

Date: 6/27/2020 8:30:48 AM

City/State/Zip: New Canaan, Connecticut 06840

Company Complaining About: Optimum

Description

Hello!

I'm an Optimum cable TV subscriber. I ordered a service - the South Asian package - several weeks ago and it was promptly added to my account. I've tried for the last few weeks to cancel the service, no representative is available to help me cancel. I have been told on more than one occasion that wait times are longer than usual due to COVID and that a representative will call me back in more than 45 minutes. Of the dozen or so times I've called and gotten this response, only once did I receive a call back. Unfortunately, this was when I was busy, so I asked the rep to call me back later - I never heard back. I believe Optimum is using this tactic to prevent its customers from removing services, so it can continue to bill them for unwanted services. Before you ask, I've searched online for a self-serve option to do this transaction, but it doesn't exist

Ticket: # 4054096 - Not allowed internet where I live?

Date: 6/27/2020 9:18:31 AM

City/State/Zip: Fort Johnson, New York 12070

Company Complaining About: Spectrum

Description

Trailer Park owner (Peter Godspeed) will not allow spectrum to install the lines needed for the internet in this trailer park of 10 or more trailers. I have tried encouraging him during this pandemic especially without resolve. I cannot afford hugesnet or others based on the extreme cost or very minimal data caps. I pay rent lot every month so I rent the property my trailer is upon. Is this fair?

Ticket: # 4054137 - Suddenlink

Date: 6/27/2020 10:38:01 AM

City/State/Zip: Paris, Texas 75460

Company Complaining About: Sudden Link

Description

I've had service with Suddenlink for over a year and they constantly go up on their prices which I've always had an issue . After the COVID-19 around April they truly jacked up their prices I went from paying \$167.00 to a \$335.00 bill. That company is taking advantage of the situation.

Ticket: # 4054138 - Internet outage

Date: 6/27/2020 10:39:20 AM

City/State/Zip: Rego Park, New York 11374

Company Complaining About: Spectrum

Description

Greetings,

I hope you are all well. In the past 30 days or so my area have been having random weekly internet outages where we would completely lose service for an extended period of time during the day, sometimes up to several times a day. Due to COVID, a lot of us have to work from home and it makes it really difficult to do so especially that Spectrum Tech support wait time takes really long and they provide satisfying answers to why these outages occur. Please let me know what can be done regarding this.

Ticket: # 4054146 - CNN/using Biden signage in segment

Date: 6/27/2020 10:46:16 AM

City/State/Zip: Prairieville, Louisiana 70769-4580

Description

This morning CNN showed Arne Duncan as an "expert" in education regarding the covid back-to-school plans. Over his right shoulder, propped up on his desk over another picture, was "Ready for Joe." Pretty sure that's a violation, isn't it?

Ticket: # 4054209 - Canceled service appt

Date: 6/27/2020 11:49:05 AM

City/State/Zip: Brooklyn, New York 11226

Company Complaining About: Optimum

Description

I called on Thursday 6/25, confirmed I had a service appt, I pressed three to cancel the service appt and hung up. I called back on Friday 6/26, was placed on hold and then told by a recording that I had a service appt that day bet. 2-5, I pressed three and canceled again! Called on Saturday 5/27/20 and was told that by a Mr Mike, I never called to cancel the appt (infact he said it never happened) so that they can get me a service charge! I have a fixed income, and my bill was 58.00 a mth and now its almost 70.00 a mth! We have all been affected by COVID19 but to be price gauged by Optimum is a total shake down. I need help yet again. I did not want to allow the service man into my apt due to COVID and that fact I don't want to be infected. Meanwhile, I cannot be local channels for three weeks now the box is broken and I was supposed to get one via mail and have not.

Ticket: # 4054260 - Late payment

Date: 6/27/2020 12:25:41 PM

City/State/Zip: New Bern, North Carolina 28562

Company Complaining About: Sudden Link

Description

My husband took the bill to the Suddenlink office to pay it. However, upon arrival he found that due to the pandemic their office was closed. By the time it reached their office somewhere in Pa. it was late. Now here we sit, with no cable and no internet. This is ridiculous!! I've been a customer for years and NEVER late. This was their fault, not ours.

Ticket: # 4054389 - Verizon Wireless

Date: 6/27/2020 2:50:28 PM

City/State/Zip: Hillsborough, North Carolina 27278

Company Complaining About: Verizon Wireless

Description

Trying to get a Port PIN to switch my phone number to a different provider and cancel service. Do not have. 4-digit account PiN (never did), and can't setup online account because transfer process has started. Have been told I need to go to a physical store in the next county in the middle of a pandemic to get a 4-digit PIN to get the Port PIN to transfer my number and close my account. Account holder is 73, health compromised and in a wheelchair, so this response is unacceptable when all that needs to be done is for Verizon to provide the tools to transfer the number and cancel service.

[Ticket: # 4054561 - Husband died, could not reduce/convert Verizon phone plan during pandemic, phone service now interrupted.](#)

Date: 6/27/2020 5:45:45 PM

City/State/Zip: Sparta, New Jersey 07871

Company Complaining About: Verizon Wireless

Description

My husband died and I could not change/reduce my Verizon phone plan during pandemic. I was directed to corporate stores, which have been closed for months in NJ. Phone calls to Verizon were unsuccessful. Local Verizon store could not alter the plan for me. Still being billed for unused phone lines at the cost of \$277 per month! I cannot get a live person online, only redirected to pay more money towards the bill.

Ticket: # 4054562 - Fw: [FCC Complaints] Re: Marketing and Advertising

Date: 6/27/2020 5:46:10 PM

City/State/Zip: Dallas, Texas 75222

Company Complaining About: Directv

Description

This is a follow-up to your previous request (b) (6) "Marketing and Advertising"

Dear Sir/Madam,

This is a continuation of issues with AT&T/DirecTV billing. As you can see, the initial complaint was related to incorrect information provided by an area sales representative. It actually took several months for the matter to be handled by a secretary to a vice president located somewhere in the northwestern United States.

Since late 2018, my DirecTV bill has been fluctuating anywhere from around \$100. to over \$170. every month. Even though I call customer service at AT&T every month to complain that according to the information I received from the vice president's office, my monthly bill was to be stable because I have been a customer since 1985. As a matter of fact, adjustments have been made by a Retention/Loyalty staff to keep me as a satisfied customer. The initial complaint stated I am on a fixed income and can not afford more than \$120. from my budget. My situation has changed since COVID-19. I am even more limited with my funds and am unable to pay these fluctuating bills. The Retention/Loyalty staff are not returning my calls and refuse to acknowledge my complaint. Therefore, I am once again requesting to initiate/file a complaint to at least get resolution to this issue. Although AT&T acquired DirecTV in the fall of 2016, I am told that DirecTV still operates as a separate entity and has its own Retention/Loyalty staff. In any case, there is definitely a disconnect in policy/procedure with regard to billing matters.

My personal information is the same, the original ticket (b) (6). Please let me know what else I need to do. Your assistance with this matter is appreciated.

Sincerely,

----- Forwarded Message ----- From: FCC <consumercomplaints@fcc.gov> To: Skylow75204 <skylow75204@yahoo.com> Sent: Monday, May 8, 2017, 10:57:09 AM CDT Subject: [FCC Complaints] Re: Marketing and Advertising

Skylow75204

Apr 27, 8:41 AM EDT

Please forward this email to the appropriate department for handling/resolution. I have contacted numerous customer service reps and thus far, no one has been able to provide a satisfactory resolution.

My name is (b) (6) and I have recently incurred serious issues with the DirectTV billing. My account number is (b) (6). Please review the following information.

I have been an AT&T customer since 1985. I have had the UVerse product since 2011. On January 9, 2017, I was approached by a field sales rep at my home. She indicated that AT&T UVerse was being phased out and DirectTV was being offered to customers at a discounted rate; which would make my bill lower; less than \$120. She also said that if I signed up, there was a 30-day trial period to use DirectTV and I could cancel without any consequences within that period. I tried the product and was not at all pleased with the service. The installation took place on 01/13/17 and I had serious concerns about what it entailed and the processing of the initial payment. I called customer service at 1-800-288-2020 to try to address the issues. I spoke to Mike and Josh, his manager. the manager confirmed that there was a 30-day trial period. Since then, I have made a number of phone calls to that customer service number and every time I call, I get conflicting information. On 01/24/17, I was told there was no 30-day trial period and if I wanted to opt out of DirectTV, there would be a \$480. early termination fee. I have made numerous attempts to resolve this matter over the phone and in person at the Park Ln store in Dallas, TX on 04/18/17. On that day, I spoke with Andrea and Lupe. Lupe identified herself as the Assistant Manager for the store, but ultimately said her hands were tied and there was nothing she could do.

My account is billed with DirectTV, a home phone, and internet service. At this point, I am so frustrated with AT&T and the lack of resolution to this problem that I no longer want to continue this business relationship. Please assist with this matter in whatever way possible. So far, it appears to me that AT&T is only interested in making money by scamming its customers with exorbitant charges/fees, telling them lies, and making a profit for expanding its business ventures. I am a senior

citizen on a fixed income and cannot afford the expensive charges from AT&T. My mailing address is:

(b) (6) and I can be reached at (b) (6)

Sincerely,

|

Ticket: # 4054581 - Internet cut by technician working on my neighbors service

Date: 6/27/2020 6:04:39 PM

City/State/Zip: Katy, Texas 77494

Company Complaining About: Comcast

Description

After my neighbor had an xfinity technician come out , who we observed going in and out of our neighbors yard, our internet dropped.

Upon contacting xfinity, they would not acknowledge the connection between their technician and our problem, and would do no better than schedule a technician for 4 days from now!

Unfortunately, this is unacceptable and the condescending way they xfinity cs rep dealt with my problem did not help either. I run a business from home because of covid, I did not cause this issue, their technician did, and xfinity should be turning that guy around to fix what he messed up, or get someone out here stat to get my problem fixed.

I've now been on the phone with this disrespectful lady for over an hour and despite trying to talk to a supervisor and promises thereof, I wait...

This type of service is unacceptable unwarranted and their unwillingness to accept, correct and close this issue has resulted in my having to file this complaint, on a Saturday.

Please assist me in correcting this wrong. Thanks very much

(b) (6)

Ticket: # 4054599 - Internet Provider

Date: 6/27/2020 6:15:38 PM

City/State/Zip: Evansville, Indiana 47725

Company Complaining About: Spectrum

Description

I cancelled all services except Internet with Spectrum on 4-30-20. Spectrum advised new modem was required to maintain my internet. Do COVID I could not get at their store. Spectrum mailed modem and it was received May 4, 2020. Now I am past due notices for the amount of cable & phone for May. I cancelled April. Spectrum says May is due event though, I had cancelled, Spectrum decided to mail it.

Ticket: # 4054779 - Billing & Access to Service

Date: 6/27/2020 11:09:54 PM

City/State/Zip: Los Banos, California 93635

Company Complaining About: T Mobile

Description

T-Mobile put my account on hold when Covid hit and promised me they would work with me when all payments were due. I called last Friday and paid 363 and in total 513 in a 2 week period. They are now telling me they cannot do anything without me paying another 350 in 3 days. I pleaded to at least allow me 2 weeks from the time I made the huge payment to pay more and the supervisor stated the FCC makes the rules and no longer allows for holds. My family was devastated by covid and I just started a new job. I will now lose all contact to my family and I am already separated from all of them. This is completely unjust. I paid double what a normal payment would be and asked for 2 weeks. How is it acceptable to grant holds and take it away without any warning despite telling me just 2 weeks ago that I would be granted another 2 weeks when making my payment. I want tmobile to be reasonable when assisting consumers get back on their feet especially those like me proving that I am working to get caught up on my bill. Please file this complaint. My last call with tmobile was on Friday 06/26. They accepted a payment of 365 and are now turning my phone off on 06/30 just 4 days later because I cannot pay another 350. I would like for Tmobile to quit blaming FCC for how they are now treating people and honor their promises. I was told I would receive another 2 weeks on the 26th after I made another payment and I did.

Thanks

Ticket: # 4055034 - Billing Issue**Date:** 6/28/2020 1:09:51 PM**City/State/Zip:** Manassas, Virginia 20110**Company Complaining About:** AT&T

Description

I have been dealing with this issue since April and I still am having no luck on getting it resolved. In April I tried to place an order to upgrade my phone, and it was supposed to ship within I think 3/5 days and it never came. So, In the beginning of May I called AT&T's customer service and was told the phone was out of stock, no issue okay. On May 20th I call AT&T since it was past the 7 days I was quoted and was told by a customer service rep they were no longer going to make that phone, and she helped me cancels the order so I could upgrade to a different phone, however, the phone already had installments on it, and she told me she had to open a case and put in a req but a back office to do it, fine okay, and was told 2/7 days. May 30th comes and the installments for the order I canceled was still on my account. And was told they opened another case! June 3 comes and I received my bill for June and AT&T has put a \$30 activation fee and \$28 installment fee for that phone / ordered that was canceled and I never received! So I call and someone waived the \$58 dollars and told me they were open yet another case, and gave me the same 10 day tome frame. Well, I had enough and wanted to cancel the line all together and call in today o n 06/28/2020 to cancel the line for (b) (6) - and was told I could not, because of the pending installments and this is getting ridiculous. I asked to speak to a supervisor and I'm still waiting on a call back, they would not transfer me, and when I asked for a address/ email something to file a complaint she said there was not any due to COVID and the manager could take me complaint when he called me back so. I am at my wits end, I really do not know how to get this resolved. And when July 3rd comes, the installments will be on my bill again. And I hate calling every days to get an answer.

Ticket: # 4055039 - Comcast/Xfinity Non-Operational Home Security Cameras

Date: 6/28/2020 1:12:21 PM

City/State/Zip: Houston, Texas 77093

Company Complaining About: Comcast

Description

Problem: home security cameras have not properly operated/worked for at least two months. FCC eventually got Comcast/Xfinity's attention and executive office took two weeks to return my calls. Scheduled tech to repair/install new camera(s) on Sat., June 20, 2020 but no one showed. Text message arrived around 1:40 p.m. that appointment scheduled Sat., June 27, 2020 between 2:00 p.m. and 4:00 p.m. Tech arrived at 2:00 p.m. but said he would only show me how to install camera due to strict orders surrounding prevention of COVID-19. I do not have COVID-19 and kept my distance. I told tech that I have been waiting months for the same old excuse? I was not climbing up on ladder to install or repair camera(s)! I would be cancelling my account at Comcast/Xfinity immediately. He left.

I also advise him that I need my phone due to the fact I've been affective by COVID-19

Ticket: # 4055561 - Incorrect information given

Date: 6/29/2020 9:26:38 AM

City/State/Zip: Roanoke, Virginia 24019

Company Complaining About: Us Cellular

Description

I went on the US Cellular website and logged into my account. I saw that I could pay \$30 to upgrade the phone early for (b) (6) and \$23.30 to upgrade the phone early for (b) (6). I called and was advised that was correct but I needed to go to the store in person. One of our phones is damaged so we decided to go in on 6/24/2020. When we arrived, we were forced to wear masks and then taken around the store to look at the phones we wanted to purchase. After this, we went back to a desk and were told that we had to pay hundreds of dollars to upgrade the phones. She told us the amounts online were incorrect. This is a bait and switch to get people in the stores to sell them a product during a pandemic just to get incorrect information. She then told us we should wait a few more months and maybe they would have a promotion. I am not sure why the website and phone center say one thing, and in person something else. They lost a sale of two phones for over \$1,000.

I would like the amount shown online on my account to be honored and the phones upgraded for these two lines at no additional monthly charge. I went in knowing I would pay monthly for the phones but at this point, the phones we wanted to purchase should be free. I have been a customer for over 10 years and should not have been forced to go in a store and then turned away stating the website was incorrect.

Date: 6/29/2020 10:30:03 AM

City/State/Zip: Miami, Florida 33186

Company Complaining About: Comcast

Description

We have been loyal customers of Comcast for 5 years, since the pandemic started we have experienced internet outages on and off to the point where it became unbearable especially having the kids doing home school and the adults trying to work remotely. I complained about the poor internet service and all I was told is that a note would be made on my account to "prevent" this from happening, does that mean it is selective interruption of services? Seems to be that way since we got our internet connection back 5 minutes after I made that phone call. I then inquired about loyalty fee reduction programs as compared to other provider offers, I thought we were paying way too much for the services and I was bounced around from department to department. 2 days later we were having the same internet issues and I decided to cancel service and go with a different provider. Comcast refuses to cancel my services until I pay what is owed on the account, which I stated I would but I wanted a credit on my account for all the times we did not have internet connection, I received a \$5 credit on my account and now they are threatening with "early termination fees". I would like my account to reflect the proper credit for lack of internet services, an adjustment to my bill for the month, since I cancelled in the middle of the service month and the early termination fees waived, I was forced to cancel services because of the lack of service. I gave them the opportunity to make it right both at the service level and customer loyalty and they are the ones who failed on both ends, I should not have to be penalized for it.

Ticket: # 4055721 - T-Mobile payment/COVID-19

Date: 6/29/2020 10:33:18 AM

City/State/Zip: Spartanburg, South Carolina 29301

Company Complaining About: T Mobile

Description

Consumer's daughter had heart surgery 6 months ago.

She was involved in a payment agreement with T-Mobile.

Then COVID-19 hit to cause even more issues.

Consumer has been calling every week to update them about her current situation.

Consumer will be going back tomorrow because her insurance agreed to send in a nurse to take care of her daughter.

T-Mobile claimed the FCC is regulating it that on June 30th they cannot continue to allow them to continue extending payments.

T-Mobile is saying she will be cut off after tomorrow.

Consumer's sister also passed away 4 days ago.

She was told she must pay \$700 by tomorrow or her service will be disconnected.

Consumer can pay something, but not \$700 today to keep her services.

Consumer was never told during this process that the 30th would be a 'can't help you anymore' time frame.

Consumer needs her phone service due to her daughter's health care issue.

Consumer is trying to pay her bill and stay their customer.

Consumer is was told by T-Mobile they are 'enabling her to not pay her bill.'

Consumer is a single parent with a special needs daughter is a perilous situation.

Consumer feels like she is being punished.

She has been transparent throughout the process and her last payment was made 3/20.

Consumer needs T-Mobile to assist her urgently and agree to her payment methods as she is finally able to go back to work.

Consumer has documentation of all the issues she has been through including medical documentation about her daughter.

Consumer desperately needs T-Mobile to work with her so that she can pay as much as possible to catch up since she goes back to work tomorrow.

Consumer would appreciate a call from corporate as soon as possible and she is more than willing to supply documentation.

Ticket: # 4055734 - Internet Latency and no internet

Date: 6/29/2020 10:38:04 AM

City/State/Zip: Ruckersville, Virginia 22968

Company Complaining About: Centurylink

Description

Internet drops constantly

Cannot stay connected for more than 5-10 minutes at a time.

Latency 1400-2400.

8mg max we are getting at most 2 down and .07 up when it is working half way.

I have contacted an attorney, Rob Bell, Governor Northram, Jim Friddle at the County of Greene. Mark Christie. Lloyd Snook.

Please, we need some resolution, so we can keep our jobs during this pandemic.

I am attaching 1 email from our neighbors which has many of their email addresses for reference.

Ticket: # 4055763 - Availability/COVID-19

Date: 6/29/2020 10:47:57 AM

City/State/Zip: Chicago, Illinois 60630

Company Complaining About: Comcast

Description

Consumer states that for the passed two weeks consumer has been experiencing poor service. Consumer states that he has been trying to contact Comcast constantly and that he has not have any luck to get a hold of them. Consumer then submitted a complaint in their website and still has not get a response. Consumer states that his service was completely out for three days and that on the four day the internet came back. Since that day consumer is having drop calls, not dial tone, no internet, very slow internet. Consumer has been constantly trying to speak with consumer service for the passed two weeks and he has been unsuccessful. Consumer is looking to have his service restore immediately and consumer also wants a credit for poor service and half of the money back into the account for the next month since they were only able to provider with god service half of the month. Consumer is a senior.

Ticket: # 4055828 - Unwanted advertising

Date: 6/29/2020 11:08:16 AM

City/State/Zip: Springfield, Illinois 62702

Company Complaining About: AT&T

Description

I am receiving unwanted advertising every time I open my phone, and several times per day. It interferes with paying bills by phone---the audio for the ads overrides the audio on the legitimate phone calls I make, and it was really hard to hear the prompts for my billing over the ad jingles. AT&T is my service provider. They are damn near impossible to reach right now due to COVID. I want an ad-free wireless service.

Ticket: # 4055852 - T-Mobil Blocked Texting

Date: 6/29/2020 11:15:11 AM

City/State/Zip: Glendora, California 91741

Company Complaining About: T Mobile

Description

On Friday, June 26, 2020 I sent a few of my family and friends a text message about an ice cream truck coming to my house on July 11th. In that message I added the link because everyone had to pre-order due to Covid-19 and not wanting people to congregate. Without my knowledge, my phone carrier flagged my text as spam and blocked me from sending out any messages while pending review. In finding out the situation, I talked to many people at T-Mobil, all the way up to the presidents office and was told they would not unlock my texting ability for at least 10 days and could possibly ban me permanently. I have explained that this is dangerous, especially with the current Covid situation and that I need the ability to message people, both family and friends who do not, and can not always receive calls.

Because the company had me do a hard reset on my phone, I am also without vital apps that require a text to confirm my identity.

I need to be able to unlock this right away and want to know how I can get this fixed.

Ticket: # 4055966 - Comcast makes me take their modem to get unlimited internet.

Date: 6/29/2020 11:47:40 AM

City/State/Zip: Atlanta, Georgia 30331

Company Complaining About: Comcast

Description

I have been a Comcast Sucker for the last 8-9 years. They have the best internet in my area, so i'm screwed. But because of worldwide pandemic, my wife and I are working from home. And of course, our kids are home. I wanted to add unlimited to my Xfinity plan. but THE CROOKS AT COMCAST SAY I HAVE TO TAKE THEIR MODEM TO GET UNLIMITED INTERNET. I have my own modem. And I know they will use their modem, in my house, as a hot-spot. THAT PUTS MY FAMILY AT RISK. Because people who access that hot-spot can gain name, address and password of the hot-spot they are using. I just want to add unlimited, and use my own modem. Have a great day!

Ticket: # 4055981 - Re: [FCC Complaints] Re: False Advertising / Price Gouging

Date: 6/29/2020 11:53:01 AM

City/State/Zip: New Carlisle, Ohio 45344

Company Complaining About: Spectrum

Description

This is a follow-up to your previous request (b) (6) False Advertising / Price G..."

Please let me know the status of my complaint. I have not received a response to my below email sent on April 25.

Thank you,

(b) (6)
[REDACTED]

The response from Spectrum / Charter Communications did not address the complaint of charging \$3430.50 for installation. The letter only indicated that I declined to move forward with the project. The reason I declined to move forward was that Spectrum / Charter Communications was charging me \$3530.50. No price adjustments were made to the price after filing the FCC complaint. This was my reason for filing the complaint. Again, this prices is unacceptable and demonstrates Spectrum / Charter Communications desire to price gouge during a pandemic. The advertisement was for free installation. Directly from Spectrum / Charter Communications website "Coronavirus Internet Offer For Students - We'll waive any installation or pre-payment fees to help get you started." However, after I spoke with the salesperson and scheduled an installation, they called two days before installation to tell me the price was \$3530.50. I was expecting for them to waive the installation fee as it was advertised on their website. The response submitted is not acceptable.

Ticket: # 4056039 - Damage

Date: 6/29/2020 12:03:56 PM

City/State/Zip: Atlanta, Georgia 30349

Company Complaining About: AT&T

Description

I order an Ipad on April 20. We are just coming back to the country due to the recent pandemic. Upon opening my package, I noticed my Ipad box is damaged and the device is damaged. Went to the ATT store NOTHING. I called att severaval times and was told buy tech support I need to call Apple. I then called FedEx and Was told I need to call the sender which is ATT. I called Apple and was told I need to call ATT. This is very frustrating and I should not keep getting the run around with these 3 parties. It seems one is blaming the other. No one wants to take responsibility.

Ticket: # 4056150 - Zero Internet Access

Date: 6/29/2020 12:29:37 PM

Company Complaining About: AT&T

Description

1. NW Houston Covid quashed area of under 50 homes, businesses, residences with students confined and barred from viable internet.
2. Discrimination. Fraud. Intentionally cut off from competing in markets, for jobs, unfettered access to internet so we can make a living, educate kids.

Ticket: # 4056203 - Optimum/Cablevision/Altice Nonexistent and Inadequate Customer Service

Date: 6/29/2020 12:44:39 PM

City/State/Zip: Englishtown, New Jersey 07726

Company Complaining About: Optimum

Description

I have and continue to pay for 3 cable TV boxes from Optimum. I began having trouble with one of them. I called customer service and was unable to get in touch with a live person; I was instead on an endless loop with an automated prompt that did nothing to resolve my issues. I then took the box to the Optimum Store in Freehold on 6/10 to swap it for new equipment. Upon arrival, despite there being 4 employees in the store I was told that they are not accepting equipment exchanges and that I should call customer service despite the previously mentioned failure in that regard. I then went home and called customer service; the only way I was able to get through was to go to the new customer prompt where they pick up right away. I spoke to Steve who told me that the box would ship in 2-3 days and they would not treat it like a new box (as in I would still have 3 boxes on my account and not 4). I then receive an email that a box was added to my account @ \$11 per month. I call back and Nicole assured me that the charge isn't real and that my account still shows 3 boxes. A week passes and no new box so I call and speak to Jazmine on 6/17. She said the information I had on the timing was wrong and that it would take longer due to the pandemic (I'm not sure how swapping a cable box out is affected by the pandemic). I finally received the box on 6/23 but notice that A) they did indeed add a 4th box to my account despite the repeated assurances otherwise during multiple phone calls and B) they did not send a return box for the old box despite assurances I would receive that. I call and speak to Arthur on 6/23 who makes notes on my account and passes me to Elizabeth in billing who confirms I won't see any impact on my bill and that the 4th cable box will be removed from my account. She added notes on my account. I then call and speak to Jessica about the lack of a return label. She says the only way to send back the box is to go back to the store that refused my swap in the first place and that they are required to take it back. She said to call while I'm in the store if they don't accept. I go to store on 6/24 and they again refuse to take back my equipment. I call in and speak to Mike who seemed shocked; then I hear static and he hangs up on my and does not call back despite having my number. I go back into store who offers me a printed return label. I send the box back finally At Walgreens and confirmed that the box was received via FedEx on Friday 6/26 and signed by "LGerman". I called back in on 6/29 to ensure the 4th cable box is removed from my account (my online profile still has it there) and Francisco said only customer service can help me despite my objections on the incredibly long hold times. I have been on hold for over 30 minutes as I'm writing this with no end in site hence this complaint in hopes of getting the problem resolved.

Ticket: # 4056243 - Frontier Communication

Date: 6/29/2020 12:56:04 PM

City/State/Zip: Berlin, Connecticut 06037

Company Complaining About: Frontier Communications

Description

We are being charged \$6 a month for a "regional Sports fee". Frontier claims it is to offset contractual charges to them. We don't watch sports and have no interest in traditional sports. (We are a karate family, lol) The problem is we are denied a refund or credit for this feature. No new sports are being shown because of the Covid-19, yet this fee is still being charged...to all with Prime TV package. I would like a refund and I am sure others would also. Paying for content not received.

Thank you

Ticket: # 4056331 - Availability/COVID-19/Service/Equipment

Date: 6/29/2020 1:17:24 PM

City/State/Zip: Pompton Lakes, New Jersey 07442

Company Complaining About: Optimum

Description

Consumer states that since 06.04.2020 consumer main cable box stop working. Consumer states that she try to call and report that her main box was not working and that they needed to send someone out to replace the box and they told her that they were unable to do it since she lives in a hot zone for COVID. Consumer states that later on she saw an optimum installment car two miles away from the road installing services to new consumers. Consumer states that she requested the box to mail out to her and then she will mail out the other box after she can confirm the box is working to send it back consumer service still block that option. Consumer then requested the technician to be send with no contact notice to drop the new box in the floor and the person come out to drop the other box and they still refused. Consumer is still getting charge for that box that she has been unable to watch from an entire month. Consumer wants all her service to be working. Consumer has spend about four to six hours on the phone trying to resolve this issue. Consumer never gets calls back and she has always pay her service on time. Consumer has been a current consumer of Optimum for 35 years. Consumer wants the box to be placed immediately consumer already try to go to the sale stores and they are the three closes out of boxes and the other two are two hours away from her location. Consumer wants her box to be replace and mail out immediately. Consumer wants a credit in her account for this inconvenience created by Optimum.

Ticket: # 4056335 - TV Provider Lied to me

Date: 6/29/2020 1:18:12 PM

City/State/Zip: Stamford, Connecticut 06906-1501

Company Complaining About: Optimum

Description

During the pandemic I spoke to Retention and they offered me a deal of \$91.91 including tax and discounted my current bill at the time. However after this call, my bills were not changed. I called Optimum back COUNTLESS times, and I was either disconnected or transferred. I have asked for a recording of this call. This is a terrible way to treat a customer who has been loyal to them for over 10 years.

Ticket: # 4056379 - robocalls from spoofed/fake numbers

Date: 6/29/2020 1:28:18 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are marketing calls. All of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day.

Many of the spoofed numbers were identified by my caller as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona and Crystal Springs, MS. For a brief period, calls came in from out of state as well. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. Other numbers have been wholly fictitious. Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. The call I am reporting today used a fake number. I tried to return the call, and was told by my carrier (Verizon) that the call 'could not be completed as dialed'. A quick internet search for area code 662 and prefix 914 revealed that there is no such area code-prefix combination.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4056676 - Fraudulent Call

Date: 6/29/2020 2:40:56 PM

City/State/Zip: St. Peters, Missouri 63376

Company Complaining About: Claimed To Be Ameren

Description

In May and June 2020, a man called our office to tell us he was from Ameren and was disconnecting our service due to delinquent payments. I told him we were not delinquent, he proceeded to ask how I pay my bill credit card or check. I told him online so he then gave me his badge number (15-55), first name Eric, my reference number 500-41 and customer service number 1-800-898-3401. All this information is false. We tried to call the number back he called us on but it is disconnected. I called Ameren, they know nothing of this and are not disconnecting due to Covid and we are not late on our payments. I feel he is trying to credit card information or checking account and routing numbers from those vulnerable. I feel it is worth the FCC looking into this.

Ticket: # 4056725 - Frequent Outages

Date: 6/29/2020 2:52:58 PM

City/State/Zip: Elizabethtown, Kentucky 42701-4745

Company Complaining About: Windstream Communications

Description

For about a month now, everyday that the temperature gets around 85 F or higher, we lose Internet connectivity for about 2-4 hours. I was told this was happening at several nodes/DSLAMs. Originally we were told that they were in the middle of replacing the equipment, but have since found out that the outages were due to the equipment overheating and not down due to maintenance. By the time the tech comes out, the service is already working and they tell us to call back if it happens again. Was told that same thing this morning and the Internet just dropped again a few minutes ago. I've also been told they only thing they're currently doing to temporarily fix the issue is to have someone from the Central Office take a fan out to the nodes once they overheat.

This has been especially frustrating since the current work from home order due to COVID-19 and need the internet in order to telework. This is just one of the many issues we have run into with Windstream in the past.

Thanks

Ticket: # 4056756 - Changed the bill pricing and then refusing to port my phone number

Date: 6/29/2020 2:58:58 PM

City/State/Zip: Brooklyn, New York 11229

Company Complaining About: Optimum

Description

I was bill hiked in the middle of the pandemic, I tried to explain to the representative back in April for bill reduction, it was denied. Therefore, I am trying to change the providers, currently optimum is doing all they can to stop my phone number porting. They continued to refuse and deny the phone number request for petty reasons such as "incorrect account number" although it was correct. They are doing this to keep me to continue to pay for their services, although I expressed many times with them that I am not keeping their services and request for them to please port my phone number over. This process has been over 1 month. They are still continuing to reject the porting to my new provider T-Mobile.

Ticket: # 4056812 - verizon billing issues

Date: 6/29/2020 3:16:49 PM

City/State/Zip: Ithaca, New York 14852

Company Complaining About: Verizon Wireless

Description

- The consumer has a complaint against Verizon wireless.
- Then consumer said she has a bill that was due June 1st.
- The consumer said there was a Verizon store that she would go to locally to pay it, but they closed it due to Covid-19.
- The consumer said she ended up mailing out the check on May 23rd so it would get to Verizon on time.
- The consumer said there is another store, but it can take her 45 mins to an hour to get to the store.
- The consumer said on June 12th she woke up to a text message telling her that her phone payment was due and had to pay it now.
- The consumer said she paid it the second time on June 12th, and she gave them a paper check
- The consumer said they cleared the first check on June 16th and the second check was cleared on the 15th.
- The consumer called to verify, and they told her in order to speak to a rep, they will charge her \$7.
- The consumer said they are also charging her a late fee a total of \$15
- The consumer said she paid the amount of \$84.07 twice.
- The consumer got a bill on the 20th for a total of \$173.29 with a July due date of 3rd.
- The consumer said she does not know what they did with her money for the checks she sent and would like to know.
- The consumer wants to talk to someone from Verizon to figure out what they did with her 2 payments of \$84.07
- They suggested the consumer to go online and make payments, but the consumer does not go online.

The invoice number for the recent bill, dated the 9th is [REDACTED]

Ticket: # 4056821 - At&t

Date: 6/29/2020 3:20:04 PM

City/State/Zip: Richmond, California 94801

Company Complaining About: AT&T

Description

At&t had an 'In-home specialist' come and offer me a new plan, the gentleman quoted me about \$40 cheaper than what my bill actually is. I called as soon as covid-19 hit to try to get a cheaper phone since i had lost my job, they told me my account was nowhere to be found wait for my first bill. the in-home specialist never returned my phonecall and now I cant return phone and am stuck with a very high monthly payment i cannot afford. I have yet to sign any terms and conditions or contract.

Ticket: # 4056867 - High Speed internet and Arkansas rural connect

Date: 6/29/2020 3:36:54 PM

City/State/Zip: Alma, Arkansas 72921

Company Complaining About: Windstream Communications

Description

I am hoping for your Assistance. I have lived in Dyer now since 2009 and I have had TERRIBLE internet speed which made it hard to ever work from home. With COVID 19 it made things almost impossible. I am sending to you the work that I am trying to get for my neighborhood. I have called my state director of commerce and my mayor. The problem is our coverage map shows incorrect speeds available to our neighborhood.

The Arkansas Rural Connect gives money to Internet Service Providers to give people living in towns over 500 access to 25/3 internet. Where we are is at 8/1.2 this is unacceptable and we need your action. Part of the reason is our coverage map they see shows we have access to Cox and High Speed internet from Windstream.

I was on a call today and no one with the state is going to do anything other than deflect. They told me the FCC has to do something. There is even more monies coming to this program and it is a perfect time to help people in our community get high speed internet as well as be able to sell that this community has a vital utility

Ticket: # 4056902 - Cable to house stops working, phone internet out too

Date: 6/29/2020 3:49:23 PM

City/State/Zip: Florence, Massachusetts 01062

Company Complaining About: Comcast

Description

I have used Comcast for internet/phone/cable for several years, and since the start of service my home has experienced regular outages, but since covid I notice the time out even more. Every day for anywhere from 15 minutes to several hours my home is without any phone, internet and television. I do not get a refund for these times, and despite numerous service calls the problem persists. Customer service is difficult to reach, and outright rude. I would like the problem to be addressed, and a refund for the time without service.

Ticket: # 4056926 - Unavailability of Covid-19 daily briefings of California's Governor Newsom

Date: 6/29/2020 3:54:45 PM

City/State/Zip: McKinleyville, California 95519

Company Complaining About: Directv

Description

In the current state of Covid-19 on the rise in California, it is imperative that our local ABC affiliate broadcast vitally important information & updates by OUR STATE'S GOVERNOR, Governor Newsom, to their viewers. Since the Stellar act was not renewed by Congress, out of area broadcasts have gone dark. KEAF channel 23 serving Shasta Co, Humboldt Co & surrounding areas REFUSE to broadcast this life & death daily informational updates by our Governor and REFUSES to give any plausible reason why they won't. This is an egregious breach of public trust & a breach of their moral & ethical responsibility to the citizens in their viewing area. This ABC affiliate KAEF has a responsibility to their local citizens in this time of enormous health crisis & as part of their FCC broadcasting contact with the federal government should be held to the highest standard of what is in the best interest of the local viewing public that they serve. They are failing, WE THE PEOPLE, WE THE PUBLIC, miserably!

Ticket: # 4056986 - Comcast bringing back 1TB data caps

Date: 6/29/2020 4:11:15 PM

City/State/Zip: Plymouth, Minnesota 55441

Company Complaining About: Comcast

Description

Comcast is bring back 1TB data caps while America is still in the middle of a pandemic.

My wife and I are still working 100% from home and I am very disappointed that Comcast has decided to bring back 1TB data caps starting July 1st. At the very least I would have expected that Comcast would have recognized that people are still working from home in mist of the pandemic. Why hasn't Comcast at the very least increased these data caps?

Ticket: # 4057193 - DirectTV Billing Complaint**Date:** 6/29/2020 5:17:41 PM**City/State/Zip:** Chagrin Falls, Ohio 44023**Company Complaining About:** AT&T

Description

Due the coronavirus we had issues with our mail and didnt get the bill on time. As a result, we were unable to pay our bill on time and had service interruption. As soon as we had the interruption, we paid our bill immediately. We are charged total of \$24.99 for this. We always paid our bills on time, this bill wasn't paid on time since we didn't receive our mail on time. Customer service refused to give us the credit for \$24.99 charge, refused to provide a manager to speak with stating that "they will call us back". Of course nobody called us. Our bill has been increased by about \$7 within past several month without any explanation. We would like out bill to be returned to our regular monthly charge of \$154.79 with all additional fees removed.

Ticket: # 4057254 - Charter-Spectrum Billing Dispute**Date:** 6/29/2020 5:39:19 PM**City/State/Zip:** Belle Rose, Louisiana 70341**Company Complaining About:** Charter

Description

I recently received a letter from Charter Spectrum regarding the details of my account. According to the letter, we have an outstanding balance exceeding \$147.00. The problem is that we've paid the bill, and our account indicates that we have a \$0 balance.

When COVID19 broke, I called asking for an extension by 2 weeks. I paid within the proposed time. However, we were enrolled in some random program that we never agreed to. When looking at the bill itself, it says there's a \$20 pandemic credit being made. But when I called about the \$147, the service rep couldn't explain the charge. At one point, the representative said the charge went all the way back to November of last year. That makes no sense. No reputable business would allow for the customer to carry a balance for that long. I told the agent this and reminded her that our service has never been interrupted. As a matter of fact, we'd decreased our business last year because we cancelled the cable and phone. Our bill should have decreased. Apparently, it did not. Something is amiss. And I hope this agency can assist us in resolving the issue.

Best,

(b) (6)

Ticket: # 4057276 - Inconsistent Internet Connection**Date:** 6/29/2020 5:48:44 PM**City/State/Zip:** Bartow, Florida 33830**Company Complaining About:** Comcast

Description

Since October 2019 our internet service has been disconnecting multiple times a day. Sometimes it is more than 10. We understand due to COVID 19 there has been an influx on residential service but our service problem began before the virus outbreak. We are currently paying over 100.00 a month for a service we are simply not receiving. We have no other choice but to choose xfinity in order to receive a broadband service. Paying a premium for a service that is not premium is not satisfactory. Receiving a reduced rate until the infrastructure can be updated to support the entire neighborhood would suffice. The amount of times the internet goes out creates large obstacles in searching for work. The service we receive in my opinion is about the value of \$40.00 month. Still a higher price than the low speed dsl available in the neighborhood.

Again I would suggest this only until the infrastructure hub split that needs to take place is finished. It is clear the service in the neighborhood has been sold beyond capacity.

Ticket: # 4057304 - Refund of unauthorized charges

Date: 6/29/2020 5:57:10 PM

City/State/Zip: The Colony, Texas 75056

Company Complaining About: AT&T

Description

ATT has still not refunded the charges for service that I did not receive in December and January 2020. Please see below.

I setup a new service with AT&T on November 13, 2019 installed by AT&T service Tech Michael S. I begin contacting them immediately that the service was not working. It took many phone calls, chats and two field service attempts to figure out that AT&T had installed a faulty modem box. This was replaced on January 28th; I was told by the technician that the bill would be adjusted. Today it 03/10/2020 and it remains the same. AT&T is trying to fraudulently collect an amount I do not owe. AT&T is aware that service did not work from November 13, 2019 until January 28, 2020 then the technician finally resolved the issue by replacing the box. I have spent countless hours on the phone with AT&T and the issue still has not been resolved. I called on December 19, 2019 @ 9:38 am; technician came out and could not fix the problem. I was advised they would call me to setup a new appointment. AT&T never called to setup new appointment with field technician. This was right before the Christmas and New Years 2019 holiday. I was out of town, and upon my return the service still was not working. I used AT&T chat service several times through the month of January culminating in a chat representative calling me back on Friday, January 24, 2020 @ 7:37 am and also at January 24th @ 9:50 am on the line two full hours trying to resolve this matter. The AT&T service technician David (972)569-7158 and (469)236-5630 came out on January 28 @ 9:53 am CST and determined that the original tech had installed defective equipment. David replaced the box and along with his supervisor Lorraine at (972)520-3037 assured me the problem had been fixed and a credit adjustment would be made to my account for the amount in full. They promised a full refund of charges. They advised me to call into request the adjustment and On January 28, 2020 @ 6:57 I called to update that

it was working and was told that bill would be adjusted. *****As of June 30, this has not been resolved. I have been IMPACTED by Covid-19 and it took 3 months for ATT to remove Uverse service. ATT never credit the FRAUDULENT charges for service in December and January of 2020 back. Their executive office closed it out with a refund for two days. I have called and used ATT chat window to resolve this multiple times for nine months!

This describes original complaint*****I called again on Jan 31, 2020 at 9:59 am February 2, 2020 @ 8:21 am February 7th, 2020 @ 5:37 am February 23, 2020 @ 1:14 pm February 25, 2020 @ 8:16 pm February 26, 2020 @ 6:56 pm March 4, 2020 @ 8:10 am also initiated chats via chat live on March 7th, 2020. March 10, 2020 @ 12:56 pm Spoke with Rebecca. Still

there has been no resolution. i have asked that the matter be directed to the executive office or office of the president at AT&T for resolution as I am filing complaints with the regulators and FCC.

Ticket: # 4057427 - PORTING NUMBER LOSS OF SERVICE TO MY BUSINESS - IMPORTANT

Date: 6/29/2020 6:55:53 PM

City/State/Zip: Mandeville, Louisiana 70448

Company Complaining About: AT&T

Description

I received a marketing visit from AT&T. I was given different options as to how AT&T can save me money on my telephone, internet and cable services. As the pandemic has hit hard and caused everyone financial burdens, I listened to the representative. I was given a time and date and went to the officer here in Mandeville to hear more. The deal was better than what I had at Spectrum, so I decided to change services. The technician arrived at my business a couple of hours late on the scheduled installation date. And after a few hours, he notified me that he was unable to proceed with the installation due to a wiring problem. My business address did not have the fiber optic wiring (probably wrong terminology) that AT&T needed and a workorder would have to be requested. However, late Thursday or early Friday, my front office worker came to inform me that my phone WAS NOT working. I called AT&T but did not receive any help at all. I called Spectrum, NO HELP AT ALL on Friday. On Monday (yes my business has been without telephone service and internet service ALL WEEKEND), MY BUSINESS IS STILL WITHOUT WORKING TELEPHONE SERVICE. My customers have been coming by frantic, because we have their vehicles and they are calling saying our phone is disconnected. THIS IS VERY FRUSTRATING AND I HAVE YET TO GET ANY ASSISTANCE or A REASON AS TO WHY MY PHONE SERVICE IS NOT WORKING. I HAVE LOST BUSINESS FOR 3 FULL DAYS and just opening back up after Covid19, this sends the message CUSTOM TINT SOLUTION IS CLOSED. I WOULD LIKE TO KNOW WHY MY PHONE SERVICE IS NOT WORKING, WHY IS IT TAKING 3 DAYS AND WHO IS GOING TO REIMBURSE ME FOR THE LOSS OF BUSINESS????

Ticket: # 4057431 - ATT LYING TO THE PUBLIC AND CHARGING DISCONNECT FEES

Date: 6/29/2020 6:59:41 PM

City/State/Zip: Harker Heights, Texas 76548

Company Complaining About: AT&T

Description

Att is still disconnecting customers service , even though they pledged to help by not disconnecting from March 13 2020 to June 30 2020...

Att has routinely disconnected customers wireless services and added a disconnect/reconnect fee per line for the costumer to help Att profit during the PANDEMIC.

Att has lied to the public by saying that they customers will not be disconnected until June 30th if they were unable to pay their bill. but this is 100% FALSE!!

please look into this fraud by att and please address them publicly.

The Board of the company says to make money even in the worst of times in our great country.

PLEASE HELP

Ticket: # 4057521 - Billing Issue with Suddenlink**Date:** 6/29/2020 7:46:59 PM**City/State/Zip:** Abilene, Texas 79601**Company Complaining About:** Sudden Link

Description

The consumer was never told that his home internet service has a data cap, when he signed up for service. He stated that he received a bill that was \$50.00 higher than the normal bill. He normally pays \$50.00 per month. However, the new bill, that was received was for the amount of \$99.85! There was no notification/warning from Suddenlink. He called Suddenlink and was told that he was sent multiple emails about going over his supposed data cap. He advised the rep that he received no such emails. He stated that even when he receives promotional emails, he opens these and reads these emails.

The rep told him to check his junk/spam folder. He was wondering why, IF Suddenlink is his provider, would they not set their filter to allow billing notifications and overages without sending it to the junk/spam folder(s).

The consumer checked his junk AND spam folders - He never received the notification, that was mentioned. He was on the phone with the supervisor at that time and even checked his trash can.

He stated that the reasoning was not really valid for him . He stated that he believes that this last bill covers June 3, 2020 through July 2, 2020. Even if he does have a data cap, he was thinking that due to the "Keep Americans Connected Pledge", to the FCC, that the data cap restriction would have been part of the Pledge by most broadband providers.

The consumer stated that he would like to know the actual limit/the amount data, that is provided for his internet plan as this was never explained.

He also asked if Suddenlink participated in providing access to hot spots or extended the data limits to assist consumers during the pandemic and times where most people were out of work.? He had understood that the Pledge, for countless carriers had been extended until June 30, 2020 !

Ticket: # 4057537 - Billing Issues with Charter Spectrum

Date: 6/29/2020 7:57:08 PM

City/State/Zip: Desert Hot Springs, California 92240

Company Complaining About: Spectrum

Description

Old/Original Account - Now an Internet only Account [REDACTED] 57

New Service for - internet, TV, and telephone - Account # Unknown

Mailing Address - (b) (6) [REDACTED]
[REDACTED] 40

NEW Home physical Location : (b) (6) [REDACTED]
[REDACTED]

About 2 months ago, (b) (6) [REDACTED] requested a transfer of their service from their old home to a new home that they built, (same city). Ms. Livingston is a first responder and only needed the internet service at the old location so they decided to start a new internet account at the old location and moved all their consumer owned equipment and installed it in the new home.

Due to the pandemic and possible exposure, the (b) (6) [REDACTED] decided, as a temporary resolution, to maintain their old home and their new home. Eventually, they will both live at the new home. However, this was the easiest resolution right now. Especially because they had not listed the old home for sale, yet.

When they started the new account, they asked that the account be billed separately so that they could easily cancel the internet service (the new account), at the old home; [REDACTED]
(b) (6) [REDACTED].

They had to provide the new address for their new home (b) (6) [REDACTED] - (Also Desert Hot Springs). However, they requested that Charter bill both accounts, separately, but to their MAILING address on record, (which has NOT changed):

(b) (6) [REDACTED]

They are receiving bills, at the correct MAILING ADDRESS, for the OLD HOME. However, the bills are for the same amount and include all three services, even though they moved their old equipment to the new home. The last bill that was received, for the OLD HOME, was on April 22, 2020 - the amount charged was \$127.82 - which happens to be the same amount that they have been paying all along. According to the representative, the old address "was supposed" to get the new account, which makes no sense to the consumer, because he has to worry about the rep making sure, that when the old home sells, that they are NOT charged any sort of early termination fee due to the NEW account, at the old home! Especially, because they have already moved their triple bundled service (phone, internet, TV), to the new home, from old location!

The consumer stated that he has NOT received a bill for the services that were supposedly transferred from the old home, when the representative insisted on starting a new account for the internet only service at the old residence. Instead, they are still being billed for all three services, when their old equipment was moved to the new location.. A tech visited the new home and ran the wire through the conduit to the home, only. The consumer hooked up all the equipment on his own.

What it appears has happened is that the original account is still in place at the original/old home on Verbena Drive - which is a good thing! However, the bill has NOT been corrected to show that there is only internet service at this location. Nor, has the billing statement been received since the April billing. Therefore, the real issue may be that both locations are combined on the one billing statement that is being sent to new physical location where there is NO mailbox.

Also, it appears that the bill, for the NEW home, on (b) (6) ., is most likely being delivered to the actual physical address and there is NO mailbox at the new address. use the MAILING address, ONLY, for ALL mail due to having been victims of identity theft a while back.

ALL bills should be sent to the MAILING address on record (b) (6) Springs, CA 92240

They are very concerned about not receiving correct bills. He stated that he continues to receive phone calls about being late on his bill and then is disconnected. He stated that he has been with this company about 30 years and has an excellent payment history.

However, for some reason , he cannot get the two accounts billed to the same correct mailing address and stress that at some point, when the old house sells, they will be disconnecting the INTERNET ONLY service and still maintain their service at the new home.

He requested someone's assistance to make certain that he receives both bills for the separate location and appropriate credits due to cancelling all services, except internet, at his old location. He was promised the internet only services, at his old location would be ab out \$49.00! He stated that he needs to see the triple service billing statements for the new home to make certain that he did in fact receive the promotional pricing that was promised - which was around \$100.00

Company Complaining About: Sprint

Description

On June 4th 2020 was about to pay my phone bill of approximate of \$95.00 and found out my account was charged with \$285.00 for 88minutes direct international call. Usually I use phone cards for international calls (Boss revolution). I recall making direct call to Nigeria couple of time but not near 88minutes sprint charging me for, anyway planned to pay my phone bill and after speaking to someone in the sprint finance office paid \$200.00 on June 4th and he remaining balance installment with my next two months bill. On or before June 22nd my phone disconnected for over due payment of over \$600.00....call sprint customer service couple of times what they were asking was to pay \$203.00 before my service could be reinstated despite explanation described above. On June 25th I called again and spoke to Leah id #1966501750 who restored my service after she said spoke to their international dept and told me she filling dispute about the bill, by 26th my phone disconnected till now am making this compliant. I want FCC to investigate the issue, requesting itemized bill payments. sprint had breached the customer contract by adding service not requested to my phone and charging same for service not provided. sprint action had caused some irreversible problem to me because I was not able to communicate with my children overseas even this difficult time of coronavirus pandemic. The last directed call to customer service Peach id #QV1478152 was not pleasant either wont listen to my complaints only concerned paying \$203.00 before anything.

Ticket: # 4058053 - AT&T broken scheduling system

Date: 6/30/2020 10:24:10 AM

City/State/Zip: Parkland, Florida 33076

Company Complaining About: AT&T

Description

I have ordered internet from AT&T on June 5th, scheduled for installation on June 27th. There was an issue with the fibre cable on the 27th, so the technician said that they will call and reschedule. AT&T decided it was ok to reschedule me 13 days after the original appointment because the scheduling system can't be controlled and its first come first serve. Despite the fact that I did come first, I certainly was not served.

I tried calling multiple times, escalated, got appointments screwed up by their customer service team and so much more just to get my internet. Now, a service that was supposed to start on June 27th, will start on July 9th because they cant work on their schedule. Because of this, I'm forced to leave my house during a pandemic, expose myself and my family to contagion risk, just because they can't be bothered to adjust their schedule to handle an installation they couldn't perform on time.

I get that things happen, and I can accommodate a company saying it was out of their hands when they couldn't install on the previously agrees upon date. But this issue has to do with AT&Ts dispatch center not willing to take responsibility and schedule an appointment as close to the original as possible. There are many ways to handle a scheduling issue, but clearly at&t won't bother to deliver on their promise.

I ordered a service that wasn't installed on time, and because of that, I am forced, through no fault of my own, to live without internet for almost 2 weeks. This is unacceptable and shouldn't be allowed. Especially since this is a problem that can be fixed easily.

Ticket: # 4058124 - Xfinity services

Date: 6/30/2020 10:46:59 AM

City/State/Zip: Springfield, Massachusetts 01109

Company Complaining About: Comcast

Description

I'm a valued customer with xfinity a month before the pandemic happened my internet connection and tv services was interrupted everyday to the point that I couldn't enjoy any of my services while both my children are home. They forwarded me to text messages, automated responding, and finally after 4 months they finally sent a technician who agreed with me that my connections was in fact disrupted on there end. I called xfinity because I was receiving tickets for some of the times I called, and I was very dissatisfied with there customer service. To solve my problem because I refuse to pay for services I didn't enjoy, I would like my bill credited the full amount.

Ticket: # 4058477 - Emergency Alert System**Date:** 6/30/2020 12:36:23 PM**City/State/Zip:** Portland, Oregon 97208**Company Complaining About:** Other

Description

The FCC has neglected to utilize the Emergency Alert System during the Covid-19 pandemic emergency, that is re-emerging. The statistics plainly show that the USA population is the least responsible of all first world countries by a significant margin. <http://tinyurl.com/yd3zasm2>

The EAS needs to be used to broadcast plain and simple educational messages about how to wash then apply antiseptic to hands; what kinds of masks actually work; and visual animation showing how sputum is actually transferred, and how to block it. SHAME on the FCC for not exercising its authority to require use of the EAS when over 100,000 Americans have died. If that is not an emergency, what is?

Due to poor public education, Americans are unable to grasp the reality of the situation. Politically correct oxymoronic doublespeak terminology like "social distancing" is lost on most people. Firstly, distancing is ANTI-social. Secondly, people need to relate to simple things like "spittin distance, cus that's how ya git sick;" or, "fartin distance, cus if ya can smell it, then ya can git it." Every single medical professional with whom I have consulted agrees whole heartedly, and most said that they are going to start utilizing the simple message.

Company Complaining About: Comcast

Description

I am really upset about Xfinity's data caps. They are incredibly expensive for people like me who have to work from home during the COVID epidemic. Please force them to remove the charge for going over the arbitrary data caps that they have during this period that we are forced to work from home. They should also have to remove the bill of charging people who use non-rental modems.

Ticket: # 4059045 - Verizon changed notice settings

Date: 6/30/2020 2:52:33 PM

City/State/Zip: San Diego, California 92104

Company Complaining About: Verizon Wireless

Description

Verizon changed how we received our data coverage alerts. They stopped texting us like we had selected at the beginning of the pandemic and switched to push notifications through their app. They gifted their costumers some data and then stopped, so when we went over our data, we had no idea we eted going 46 Gigabytes over since they stopped texting us. My husband's phone received no alerts to the usage and I only received push notifications from the app which did not specify the details and looked like spam. When I tried to open the notice, it just brought up a terms and conditions to agree to which I did not. During a pandemic Verizon has stopped notifying customers how they asked to be notified and then says the charges are fair because they sent push notifications which didn't specify data coverage and use. Feels illegal and sneaky. They offered no help to pay the \$800+ dollar bill. Their website says for data coverage, all lines on the account will be notified by text and or email (we had previously gotten texts which stopped) and they took my husband off notifications all together and sent me push notifications.

Ticket: # 4059074 - Threat to shut off phones and harassing phone calls

Date: 6/30/2020 2:58:37 PM

City/State/Zip: Wonder Lake, Illinois 60097

Company Complaining About: Sprint

Description

My husband, who is the account holder for our Sprint phones, has informed Sprint that we have been affected by COVID-19 several times. We paid our bill on Saturday, but were shut off today. My husband called and had it turned back on but since then, I have received 8 phone calls from Sprint. They aren't leaving messages and when I answer, I can't understand what they're saying. They have called me a total of 12 times today. I have asked them to stop twice.

Date: 6/30/2020 4:12:15 PM

City/State/Zip: Philadelphia, Pennsylvania 19119-1610

Company Complaining About: AT&T

Description

SERVICES HAS BEEN DISCONNECTED TWICE IN THE MONTH OF JUNE. SUBMITTED REQUEST FOR SPECIAL PROVISIONS WITH REGARD TO COVID-19. RECEIVED NO ASSISTANCE WITH BILL OR SERVICES AND HAD MONEY WITHDRAW FROM MY CHECKING ACCOUNT ON THE DAY I RECEIVED MY DISABILITY PAYMENT REMOVING \$960. FROM MY CHECK TOTAL OF \$1252. I ALSO REQUESTED A FULL REFUND BECAUSE PAYMENTS WERE DELAYED UNDER THE COVID PROVISION. I WAS REFUSED A FULL REFUND AND WAS REFUNDED \$265. HAVING TO BUY FOOD AND PERSONAL PROTECTION SUPPLIES WAS IMPOSSIBLE.

ADDITIONALLY, THEY ARE DEMANDING \$239.00 THE BALANCE DUE BY JULY 1ST. I WON'T RECEIVE ANOTHER CHECK UNTIL THE 3RD OF JULY AND THEY REFUSED TO GIVE ME +2 DAYS.

Ticket: # 4059401 - Altice will not take back equipment, charging late fees

Date: 6/30/2020 4:19:31 PM

City/State/Zip: Manhasset, New York 11030

Company Complaining About: Optimum

Description

I discontinued our household internet service in May and was told that pickup and shipment of hardware was not an option and to return it to the store. The store in our area was closed until recently, when I went to return the modem. The representative who was fielding customers in the parking lot told me that the store was not equipped to take hardware due to coronavirus and to schedule a pickup, otherwise pay a fine. After attempting to call several times and waiting hours on end, I have not yet been able to contact anyone at this company and have already been charged \$100 as a late fee, which I understand should not be allowed under the Keep Americans Connected pledge.

Ticket: # 4059426 - Lack of internet availability

Date: 6/30/2020 4:27:58 PM

City/State/Zip: Deridder, Louisiana 70634

Company Complaining About: AT&T

Description

Our area only has access to unreliable satellite services that seldom work. During weather issues we are unable to get any updates for our area at our house. With COVID and the possibility of our neighborhood children having to school from home we are all concerned they will fall behind from lack of accessibility to their online schoolwork.

City/State/Zip: Doral, Florida 33178

Company Complaining About: AT&T

Description

I moved from one unit to another unit in the same building located at 4230 NW 107 Avenue, Apt 3507, from 3904. After Covid 19 me and my husband decided to move to one bedroom apartment. This building has a contract with ATT&T that you must have, before the moving my bill was all the time with ATT&T the \$164.00 per month. After I moved on April and I pay my first bill with the same service including reconnection charges a total of \$237.79 this first bill was paid on June 12th, 2020. Now I received a bill in the amount of \$198.72. I was told by ATT&T representative that my bill was going to be \$152.98 total, not true once I called the representative told me that my internet went up to \$56.00 from \$40.00 that was the price they had at the time of the moved. This is a total lie and this type of action from AT&T who always paid their bill on time and lies are not need it in the middle of a Pandemic.

Please correct this type of behavior you have the authority to do so.

Thanking you in advance for your cooperation in this matter.

Due to bad credit I had paid 450\$ to get internet. During covid-19. Unemployed. My son will need this for education. I have called twice and several emails. Tried making a thread, it made it to an existing thread and was put down. Internet stops every three minutes. I tape recorded this. I upgraded from 40\$ month to 150\$ month and same. They keep sending me emails that the internet is fine. Please help.

Ticket: # 4060159 - Deliberate fraudulent charges by Verizon my phone carrier

Date: 6/30/2020 10:27:36 PM

City/State/Zip: San Diego, California 92101

Company Complaining About: Verizon

Description

Every since of October 2019 thru the present day. I have had erroneous charges by my movil carrier Verizon. All of my phone calls have been made over WiFi and verizon had been billing as if it was made on the broadband service. Secondly, I even switched to a third party long distance company that you pay for the service and the issue you a number that will pair of with the international number, a distinct separate service and they still accessed charges for the calls. Although, knowing all along that I have my logs for all of the calls that proves and verify the facts. But to no avail their posture was to keep hammering, pounding away at me trying to persuade me against the irrefutable evidence that the call was made over their broadband and they can charge. I am so sick of it!! I made number of attempts to resolve the matter amicably but they stand firm not budging and upholding a fraudulent charge to my line. It's been very frustrating and very disgusting with their tactics! I need this situation which now has become a dilemma to be resolved in court. They have caused me so much distress emotionally, and financial hardship during this momentous pandemic covid-19.

I need this problem resolved immediately and I strongly desire but need advice to take legal action.

Respectfully,

(b) (6)

Description

Comcast informed me that my internet will be down for 8:00 am to 5:00 pm on 7/1/2020. I am currently working from home and they couldn't give me a reason why it will be down while they are promoting how they are supporting people working from home. I live in Jacksonville, Florida where cases of COVID-19 are spiking and I need to work from home. I need my internet for work!

Ticket: # 4060195 - Suddenlink Communications by Altice USA phone service denial

Date: 6/30/2020 11:28:49 PM

City/State/Zip: Meadow Vista, California 95722

Company Complaining About: Sudden Link

Description

In a neighborhood of health compromised individuals and in a "fire zone," Suddenlink has performed inadequately in ensuring a safe line of communications. Phone services have been down since June 18, 2020, with no offering of relief.

Without phone service, most families are unable to contact 911 and unable to receive reverse 911 calls necessary for evacuation notices in the event of a forest fire.

Despite their advertised comment that during this time of COVID-19 that they would treat phone service as a priority-1 issue, they are not responding to get customers back online; ergo creating a safety hazard.

Ticket: # 4060232 - Telemarketer Calls & Internet Interference**Date:** 6/30/2020 11:49:30 PM**City/State/Zip:** Akron, Ohio 44301**Company Complaining About:** AT&T

Description

I filed a complaint approximately one year ago because there was interference with some type of ham radio equipment on my Internet connection with AT&T. I work during the day outside of my home so, I did not notice the numerous telemarketer calls that were coming into my house while I was away. I believe that the spoofing started happening around the time of my first complaint but I only noticed it in the evening. Since COVID-19 hit, I have been working from home and have had numerous calls from hang up numbers. I have been paying for an unlisted number since I set up the account at the house that I bought in October of 2017. Not only did they charge me \$4.95 per month to have an unlisted number, they also did not unlist my number. AT&T refunded approximately 18 months of the discrepancy and still did not provide an unlisted service. I also got intermittent interference on my wifi connection. Since my home telephone was connected through Internet, each time the box went out, so did my telephone. Since I do not have a cell phone, you might be able to understand how frustrating this can be. Recently, I asked to have my telephone transferred back to a landline for reliability purposes. They set up the landline connection but I can only make calls out. I cannot receive any calls from my home number. Those calls are going to an AT&T voicemail service that I do not have access to. Additionally, it will take approximately one month from the date of the landline request before my total service will be restored. My request is that you look into this matter to find out why I did not receive the services that I requested as well as why I received so much telephone spam on an unlisted number that I paid for. I am also registered on the Federal DO NOT CALL website. I also feel that I am due another year's refund which I will address with them after my telephone is up again. This is scheduled to happen on July 9, 2020. The change request was made sometime around mid June 2020.

Ticket: # 4060282 - internet outage

Date: 7/1/2020 1:20:18 AM

City/State/Zip: Sunnyvale, California 94086

Company Complaining About: AT&T

Description

i have internet outage. i filed a complaint with my ISP and they sent us technician but he didn't showed up. we called customer support but they say they dont have any technician available for the coming one week. due to covid we have to work from home only. Internet is the basic need.

Ticket: # 4060323 - Cable service resulted i early termination

Date: 7/1/2020 5:06:23 AM

City/State/Zip: Sugar Land, Texas 77479

Company Complaining About: AT&T

Description

In 12/2019, I contracted with At &T for cable service over the r phone. ,I had to call about increase rates on bill, no service available on numerous occasions until I concluded that At &T was the benefactor-not me, for its lousy service, and I terminated the service. Upon installation, the tech wired the cord to my hardwood floors. I want At&T to restore my floors and/or rescind this termination fee. And with the pandemic and uncertain future, I could not continue to pay.

Ticket: # 4060325 - Promotion not being honored.

Date: 7/1/2020 5:27:03 AM

City/State/Zip: Plains, Pennsylvania 18705

Company Complaining About: AT&T

Description

In February 2020 I opened an account with AT&T and ordered a phone which was suppose to arrive to me by mail in 3-5days and then was informed days later that phone was on back order for 1 month. My wife, Mariah, contacted AT&T by phone and ordered a new phone on promotion (\$1 per month) and was told to have my original number switched to phone. Long story short, this has been an absolute nightmare. Around the time COVID hit, AT&T kept suspending my phone as they believed it was stolen and was attempting to charge for 3 lines. (Thankfully this fixed this). Currently, they are charging us \$20 a month and not honoring promotion. I have spoke with at least 5 representatives and 2 supervisors who promised credits would be issued and promotion would be honored. Despite hours of calls and constant reassurance that this would be fixed, AT&T has failed to honor promotion as promised.

Ticket: # 4060327 - Unlimited Data Access

I'M UNABLE TO VIEW CHANNEL 271 CHANNEL 3 GOES OUT WHILE VIEWING IT
THERE'S BEEN AN OUTAGE FOR OVER 24 HOURS I NEVER RECEIVED A CREDIT
A BOX IN MY HOME HAVEN'T BEEN WORKING FOR SINCE JANUARY
A TECH CAME OUT AND INFORM ME THAT ON THE SIDE OF MY HOUSE A WIRE NEEDS TO
BE UPGRADED BUT BECAUSE OF THE PANDEMIC THAT ARE NOT ALLOWED TO ENTER INTO
MY HOME. THIS PART IS A JOKE BECAUSE MUST OF THIS ISSUES WAY BEFORE THE
PANDEMIC
YOUR HAVE THREATEN ME ABOUT MY SERVICES AND ALSO DISCONNECTED EVEN
THOUGH I HAD A PAYMENT ARRANGEMENT
A FEW MONTHS AGO A REP NAME CESAR AFTER DISCUSSING MY PROBLEM GOT UPSET
BECAUSE I FELT HIS CUSTOMER SERVICES WASN'T TO MY SANCTIFICATION SO I NOTICE A
DECLINE IN MY SERVICES
I NEVER RECEIVED CREDIT FOR TURNING IN A ROUTER
THERE HAVEN'T BEEN NO SPORTS SINCE MARCH SO WHY I'M PAYING FOR THAT FEE.
IF MY SERVICES CONTINUE TO DECLINE AND I'M PAYING MY BILLS ACCORDINGLY I WILL
TAKEN FURTHER ACTION.
I HAVE PICTURES FROM WHEN THE LAST TECH CAME IN MY HOME AND THE WIRES LOOK
CRAZY.
SO PLEASE PROVIDED ME WITH A REFUND CHECK I DON'T WANT NO CREDIT IT NEVER
HELP AND I DON'T SEE IT ON MY BILL

Ticket: # 4060460 - Re: [FCC Complaints] AT&T cancelled my "Unlimited" Mobile Internet Data plan without warning or consent

Date: 7/1/2020 9:28:58 AM

City/State/Zip: San Diego, California 92106

Company Complaining About: AT&T

Description

This is a follow-up to your previous request (b) (6) "AT&T cancelled my "Unlimite..."

RE: AT&T FCC Response: File No. (b) (6)

Dear Sir or Madam,

I have received AT&T's response and feel compelled to rebut several items in the response which are factually incorrect.

Specifically AT&T's statement: "As a warning the service was suspended on 5/5/2020. Since the SIM card was not placed back into the authorized device within seven days, the service was cancelled on 5/12/2020." This statement is factually incorrect for the following reasons:

A "warning" implies that notice was given to Mr. (b) (6) that a Terms of Service violation was occurring. AT&T DID NOT make contact by ANY means, including email, telephone, text or postal mail to explain the violation, issue a "warning", or explain the "remedy" of returning the SIM to the "authorized" device. I am certain that AT&T can provide no evidence of contacting Mr. (b) (6) between 5/5/2020 - 5/12/2020 and believe they can not factually claim a "warning" and proposed "remedy" without contact.

Despite not communicating a "warning", Mr. (b) (6) took the SIM card and all of his devices, including the "authorized" device to the AT&T Store on 5/7/2020. This was within the seven day "warning" period and within the "remedy" period stated in the letter. The AT&T Store representative tested the SIM in all of the devices, including the "authorized" device and found the SIM card to have been permanently deactivated with the message "INVALID SIM". Quite simply, despite being returned to the "authorized" device, it did not and could not be remedied because the SIM card had been deactivated and was no longer usable in ANY device, including the "authorized" device, after 5/5/2020.

The AT&T Store Agent attempted to issue a replacement SIM card for the Account, thinking the issue was an old or faulty SIM card. In the process of attempting to issue a replacement SIM card, the Agent found the account had been terminated for excessive use. The agent was unable to issue a replacement SIM to be placed in an "authorize" device because the account was terminated on 5/5/2020.

In short, the "warning" explained in the response was not given to Mr. (b) (6) "remedy" explained in the response was not achievable by either Mr. (b) (6) directly or with the assistance of the AT&T Store Agent as the SIM card was permanently disabled and account terminated as of 5/5/2020. Simply put, there was no possible "remedy" open to Mr. (b) (6) because AT&T was intent on cancelling the account for using too much data, did so before the end of the pre-paid billing

period without refund and during a pandemic where they had promised to honor FCC Chairman Pai's "Keep Americans Connected Pledge".

While I realize the informal complaint process only facilitates resolution by having the two parties dialogue, it expects AT&T to be truthful in their reply. If AT&T could provide evidence of such a "warning" and that the "remedy" despite the "Invalid SIM" and terminated account, I will happily apologize for the accusation and drop the matter entirely.

Sincerely,

(b) (6) s

Ticket: # 4060600 - Verizon - Increased sales on already overburdened internet lines

Date: 7/1/2020 10:27:54 AM

City/State/Zip: Cresco, Pennsylvania 18326

Company Complaining About: Verizon

Description

Verizon internet service here in my area is beyond pathetic in this area, let alone what happened when the government-mandated stay at home orders for work. My DSL through the phone line with Verizon is a most 2.5 Mbps on a GOOD DAY! They added more users to the already maxed out service they have here, resulting in more money in their pockets and consistent drops in connectivity for their customers. Verizon MUST implement Fios or better service in this area, as we have many NYC vacationers coming to live in their vacation homes here, after this pandemic hit. Service/internet upgrades have to happen.

Ticket: # 4060683 - Shipping and Billing Error

Date: 7/1/2020 10:54:11 AM

City/State/Zip: West Palm Beach, Florida 33401

Company Complaining About: T Mobile

Description

I have Iphone 11 for our business account but with the COVID-19 Pandemic, everything is critical. We ordered the Samsung Note 10 5G and were advised they were not in stock but would be shipped to us within 3 business days. Five (5) business days later we still do not have the phones and they shipped the wrong phones. Called in to rectify the situation and they are forcing us to pay another deposit again, it is outrageous. We value every customer as always but need to be updated with the latest technology.

Ticket: # 4060708 - Comcast data caps during pandemic

Date: 7/1/2020 10:59:37 AM

City/State/Zip: Monroe, Washington 98272

Company Complaining About: Comcast

Description

Comcast has inexplicably reinstated their onerous data cap on my gigabit residential connection during the COVID-19 pandemic, a time when working from home is still the only option of employment for millions of people.

The new cap of 1.2TB is something my connection could chew through in under 3 hours if I am using it maxed out. Comcasts claims the cap is to protect the network and "create fairness", but the reliability of the network over the last three months has proved that this is not the case and that their data caps are just a petty cash grab from customers who have no functional alternative. The only other internet option in my area is 1mpbs DSL which isn't even fast enough for a video conference call, in effect making my life and employment dependent on Comcast.

Require Comcast to suspend or remove their data caps to keep people safe. Data caps at this time force people back to work at a time when it is not safe to do so.

Ticket: # 4060713 - Comcast/Xfinity deceptive service offerings

Date: 7/1/2020 11:00:49 AM

City/State/Zip: Lynnfield, Massachusetts 01940

Company Complaining About: Comcast

Description

I am a current Comcast/Xfinity customer for their high speed internet. In an attempt to increase my internet speed through their web site (from 100 Gb to 300 Gb) on June 26, 2020, I was lead to one of their product promotion page which diceptivelt appeared as the only way for me to increase my internet speed. Later it transpired that they would be sending me a starter kit. When the kit was delivered to my door, I discovered that they were trying to include a TV program package to my current subscription.

- 1) The same day I filled out the form (June 26th) they increased my internet speed to 300 Gb. And their app confirmed that my internet speed was 300 Gb. So far so good.
- 2) I called their 800 number to assure that I wouldn't receive a package. I was rest assured that there wouldn't be a package. On that call they confirmed that the oonly change to my service would be increase in my internet service to 300 Gb.
- 3) Two days later, their starter kit showed up at my door.
- 4) Although I made many attempts, I wasn't able to speak to a Comcast agent. Their IVR would ask me irrelevant questions wasting hours of my time. In the process they would make attempts to restart my cable modem without success disrupting my internet service.
- 5) On June 29th, I was able chat with their customer service about the situation and they told me that I wouldn't have this new cable TV service. However, yy Comcast app shows that I actually have the TV package. Also, during the chat session, without my consent they disrupted my internet service even though I told them repeatedly that I didn't want them to reset my modem.
- 6) The day after they increased my internet speed, I measured my internet speed and found that they reduced the speed to 100 Mb. My Xfinity app still shows that I have 300 Mb internet service while I measure (at least 10 times over the course of 3 days) less than 100 Gb.
- 7) I attempted calling Comcast/Xfinity 800 number multiple times. Each attempt resulted with them resetting my modem without my consent. Again, their IVR asking many irrelevant questions.

There are more steps involved in this process. For brevity I am not including those steps.

This company is not able to serve its customers and this is not new after the COVID-19 pandemic. I've been having similar issues with them in the past 8 years. In the past 8 years I was afraid to make any changes to my service knowing that they would waste many hours of my time and break what I already have causing customers service calls.

Although I invested many hours of my time, I am not asking for a compensation. I want FCC to be aware of Comcast's deceptive and wreckless practices in:

- 1) creating such greavances in serving their customers,
- 2) using the increase in service calls due to the COVID-19 pandemic as an excuse,
- 3) consistently providing dysfunctional web site leading customers to buying products which they don't intend to buy.

Kind Regards,

(b) (6)

Ticket: # 4060892 - Comcast

Date: 7/1/2020 11:44:32 AM

City/State/Zip: Woodstock, Georgia 30188

Company Complaining About: Comcast

Description

Comcast refuses to help us with issues regarding the signal to our Cable boxes. We have replaced them four times, through their retail stores. Each time, the boxes are unable to detect a signal. Comcast stated that they are unable to send technicians due to the Pandemic, even though, two supervisors, on two different occasions advised us that we had an appointment for a technician to visit, due to the ongoing issues. This turned out to be lies. Agents told us, upon follow up when no one showed, that there was no record of appts. I asked for credit for the time we have ben unable to use this TV. We were told that was not possible until a technician could verify the problem.

(Really??) We were then told that a technician would call us. This, too, never happened. In addition, we have TV's that are pixelating, which is a definite sign of signal breakdown somewhere.

We are desperate for help. These people should not be allowed to due business like this. I have also found a Facebook page, set up by Comcast, entitled "Comcast Customer service Sucks". I have found endless stories like mine. Your assistance would be greatly appreciated.

Thank you,

(b) (6)

Ticket: # 4060945 - lifeline assistance customer support unreachable- they hung up on me when I contacted safelink about my service being disconnected.

City/State/Zip: Miami, Florida 33173

Company Complaining About: Safelink Wireless

Description

my lifeline assistance with safe link wireless was not renewed, even though I provided all the documentation and due to pandemic, current renewal protocols were waived. I cannot use my tracefone (b) (6) due to unrenewable contract??

Ticket: # 4060998 - Comcast False Charges and No Option to Contact Support

Date: 7/1/2020 12:11:48 PM

City/State/Zip: North Miami, Florida 33181

Company Complaining About: Comcast

Description

I was charged \$69 by Comcast for Internet and Cable services after I had closed my account. I spoke with one of their representatives before cancelling my account and they assured me I would not be charged for any future amount. Nevertheless, they charged me the \$69 (they said "for future service").

I called their customer service line and explained the issue, and they told me the \$69 would be refunded to me. I never received the refund though, and now when I try to call them their customer service line cuts off before I can speak to anyone, citing "busy times because of Covid-19".

I would simply like my refund for the services I never received.

Ticket: # 4061357 - Suspended services

Date: 7/1/2020 1:23:08 PM

City/State/Zip: Leesburg, Virginia 20176

Company Complaining About: AT&T

Description

To whom it may concern,

I am writing regarding my services being suspended today and being forced to pay to reactivate my services. Two months ago, I called to confirm services being kept on during this pandemic. I also asked concerning what was written on the fcc website. The person I spoke with, told me that I shouldn't worry about it and that my services will not be canceled. I am writing because this is not acceptable.

This is lying to the customer.

Ticket: # 4061444 - Billing keeps raising

Date: 7/1/2020 1:40:05 PM

City/State/Zip: Huddy, Kentucky 41535

Company Complaining About: Sudden Link

Description

We are charged nearly \$200 for tv & I call they say I have the lowest package possible! Due to covid 19 pandemic etc you'd think they'd lower the prices to help others! The cable freezes at times

Ticket: # 4061544 - AT&T Consumer Scams

Date: 7/1/2020 2:00:01 PM

City/State/Zip: Oviedo, Florida 32765

Company Complaining About: AT&T

Description

When you call AT&T for service they tell you if its their issue you will not be charged for the service call. AT&T Charged \$107 for a technical service call because they did not bury their cable properly on a previous service call & cable was damaged a month later by landscapers. When I contacted AT&T to remove charges they told me due to COVID19 their in-field techs are now charging for service calls. I'm sick of companies blaming COVID19 for gouging consumers.

Ticket: # 4061579 - phone turned off during pandemic, bill is paid

Date: 7/1/2020 2:07:35 PM

City/State/Zip: Reedsport, Oregon 97467

Company Complaining About: Spectrum

Description

my bill is paid and an employee in the Coos Bay Oregon office has turned off my phone three times in the last two weeks. I got it back on twice through the call center. NO one will help me this time I can't even speak to a supervisor. He did this on purpose.

Ticket: # 4061603 - Fox "news"

Date: 7/1/2020 2:11:39 PM

City/State/Zip: Cordova, Tennessee 38018

Description

The Coronavirus pandemic has affected millions worldwide. Fox News has downplayed the virus and has given misleading or false information out on their shows in an effort to pander to President trump and his rhetoric that it is a hoax. I reported them to you months ago for them calling it a hoax and not to do as the CDC or Dr. Fauci says. Now there is sophisticated research links Hannitys coronavirus misinformation in the months of February, March and April to a greater number of Covid - 19 cases and deaths. Data shows Fox "news" touting trumps lies has kept millions from taking the coronavirus seriously. Laura Ingraham on her show intimates that Dr. Fauci and Joe Biden are "working in concert". -guess the Fauci/Gates rhetoric didn't stick. She recently interviewed Tx Lt Gov Dan Patrick who dismisses Dr. Faucis concerns and said on the show "I don't need his advice". this continuation of spreading lies, misinformation and trumps hoax rhetoric are going to get many more Americans sick and dead. If this is "just like the flu" then so be it, but if it is not, where is the harm in taking it seriously, and taking the precautions outlined by MEDICAL professionals? Medicine is a science. and they call it the practice of medicine. Early on the use of masks was not encouraged, but as more information came to light, mask wearing had been found to help slow the spread. Now we see people who watch this outlet of hate, Spreading lies and misinformation and are being harmed. This should be enough to sanction FOX and or shut them down. It is dangerous! America has had ENOUGH

Ticket: # 4061686 - Cell phone accounts

Date: 7/1/2020 2:30:37 PM

City/State/Zip: Vancouver, Washington 98664

Company Complaining About: AT&T

Description

Last week approximately around 623 I made arrangements with the supervisor with AT&T and then again on 629 I spoke with another representative over the phone who agreed to an additional arrangement to remind me more time to pay my bill due to my Covid hardship. It is July 1 and my cell phone has been turned off and the agents are refusing to honor the arrangement they have previously previously agreed to.

Ticket: # 4061694 - Optimum complaint

City/State/Zip: Jackson, New Jersey 08527

Company Complaining About: Optimum

Description

I want to report a Complete with optimum. I feel like this is completely unethical because I have no other choice for Internet in my area and without warning they raise their prices more than \$15 a month. I am constantly having outages in for service all the prices keep raising with no notification or regard especially during a pandemic. And the same age unfortunately Internet is a necessity as working from home and doing school online is required and I don't feel how I feel and is handling is this correct

Ticket: # 4061705 - Fios issues

Date: 7/1/2020 2:36:03 PM

City/State/Zip: Brooklyn, New York 11206

Company Complaining About: Verizon

Description

Consumer has issues with Verizon Fios.

During COVID-19 consumer needed a technician to come out and look at the issue.

Consumer was without TV, phone and internet service.

Her son was told to take the old router and cable set top box to the store and replace it with the new boxes.

Consumer was finally able to get someone to come out on 6/25 to address the outage.

Consumer was without service since March.

Consumer understands that Verizon couldn't send someone out sooner due to COVID-19, but is frustrated she was without service for so long.

Consumer has been unable to contact her doctors via the internet due to the outage issues.

Consumer also purchased movies previously that should have downloaded to the new equipment, but they didn't.

Consumer has been given the run around about all these issues.

Consumer wants to be compensated for those movies that have been lost or have them returned so that she can watch them.

Consumer's internet is still not back and she would like it to be returned as soon as possible.

Ticket: # 4061761 - Xfinity bad faith and discriminatory practices towards customer

Date: 7/1/2020 2:50:49 PM

City/State/Zip: Fairburn, Georgia 30213

Company Complaining About: Comcast

Description

I switched from prepaid services to Xfinity internet essentials over the past week because I was still being billed every month since March for my services, although Xfinity has a notice claiming that they would not be billing any of their customers during COVID. I was informed that I could then apply for Xfinity mobile as soon as everything was approved, which it has been but ever since then, I've run into nothing short of issues by this company. I started off online where initially I was not able to apply for anything because their website was not permitting me too. I notice that I could instead go into the store to purchase instead of having to complete online. The next day I went into the store and was told that I could not complete the purchase in store, I must do it online because its not allowing them to go past a certain screen when they try. They claim because I started online that's where I must complete although my cart was empty. After reaching out to another rep about this issue, I was told he was not seeing any blockages on his end and that I should be good to purchase in store. This happened two more times, with the most recent being today. Im home now and notice that when I try to purchase two devices today, they now want me to pay one in full, which was not the case until after speaking to another of there reps who claimed they were working on my case. Every time they claim they are, something on may account changes and then they do not know what else to do and become very stonewalling towards customers. I have submitted several reviews and have yet to speak with anyone higher up about the bad customer service, because obviously I'm not a valued customer and its shown every time I chat or call in.

Ticket: # 4061787 - BILLING ISSUE WITH VERIZON - paying more due to (2) accounts were created in error

Date: 7/1/2020 2:55:56 PM

City/State/Zip: Azusa, California 91702

Company Complaining About: Verizon

Description

I recently switch phone services to Verizon. We opened (4) phone lines and they added another line for the tablet. Instead of creating 1 account for the total of (5) lines, they split it into (2) accounts. Since beginning of June, I have been in contact with them but they never resolved my issue. It's Covid-19, so each time I try to call them, I have to be on-hold for over an hour . And when I called the last time, they just transfer me to a different department and that department is not the correct department. I had to pay the first bill of my (2) accounts and I ended up paying higher (\$340 plus \$150)--- I don't want my line disconnected especially this crucial time due to non-payment.

It'll be over a month now and they have not resolved the issue. They will make an excuse that they were calling me but I never received a call back. I'm the one who makes the follow-up.

I cannot afford to pay \$600 plus bills (estimate for the 5 lines) every month just because they made error on setting-up my account. Please help. As I'm writing this, I am on-hold again with them. I also sent a text message to the person who supposedly opened my account, but after several attempts, still no response. Nobody seems interested to help resolve the issue. Need help so desperately. It's misleading when they said I will save money when I switched to Verizon, but I ended up paying more. It feels like they are scamming people by creating (2) accounts and have them pay more on the first bill? Please... please help.

Ticket: # 4061833 - Reconnection and Late Fees**Date:** 7/1/2020 3:06:28 PM**City/State/Zip:** Brooklyn, New York 11212**Company Complaining About:** Optimum

Description

Optimum Cable Company disconnected my phone and internet services; and charged me several late fees and reconnection fees during the COVID-19 pandemic in violation of the Keep America Connected Pledge. I have called and complaint to customer service reps who were very rude and unwilling to assist even though I explained that my self and my sister needed the service to attend remote classes. I made a complaint with BBB and optimum did not remove the fees, instead, they actually gamed the deadline for the pledge and added extra fees. Not to mention, my sister is disable and does not possess a cell phone, so in the case of an emergency she would need a working home phone.

Ticket: # 4061860 - Verizon Wirelss fraudulently placed in plan I did not request

Date: 7/1/2020 3:12:46 PM

City/State/Zip: Felton, Delaware 19943

Company Complaining About: Verizon Wireless

Description

My cell bill is due 1st of month. I attempted to pay today and showed \$0 balance. I attempted to use virtual assistant and wouldn't permit me because stating I'm in "collection status". Supervisor informed me that as of yesterday I had an outstanding balance so placed on 6 month deferred although it wasn't past due balance. I received letter stating "because you notified us that you were impacted by Covid-19"....but the letter only indicated that late fees and termination would be waived through June 30. Didn't not inform me that my balance would be deferred. Additionally I NEVER MADE that request and they acknowledge it was automatic They will not take me out of the plan and because they zeroed my balance if I make a payment today, the due date, it will be held as a credit until next month They fraudulently placed me in a plan they claim I requested, they never indicated that although no past due balance that they would defer it, I have the screenshots showing they are listing my account as being delinquent so I can't access any online services and may in the future look like I needed financial assistance. They are refusing to take me out of the plan claiming that I "might" be able to opt out next month one the deferred bill cuts. I want out NOW as I never requested and they are causing issues as I am being listed as in collections for a balance that wasn't even due until today.

Ticket: # 4061945 - Ticket No. (b) (6) Bill issue with optimum that can't be resolved because no one answers the phone

Date: 7/1/2020 3:33:05 PM

City/State/Zip: Westbury, New York 11590

Company Complaining About: Optimum

Description

I had a deal with optimum to reduce my bill by \$15.00 per month for 1 year in March 2020. They gave me the reduced amount for a few months, and now it is back up to the original price (15.00 more). I have repeatedly tried to call them, left my number for a call back, to no avail. When I do get thru they tell me I have to speak to the disconnect division because the deal is with them, when they transfer me, hold times go on and on and then I get disconnected, I guess that's what disconnect division means to Optimum - no pun intended. Worst customer service ever. They can't blame Covid, they were horrible before that. I would like to pay the reduced amount but don't want to get hit with late fees or collection agency problems.

Ticket: # 4062034 - Billing issue with Verizon

Date: 7/1/2020 3:53:13 PM

City/State/Zip: Morgan Hill, California 95037

Company Complaining About: Verizon Wireless

Description

I have consistently received notifications about Verizon data usage for the past couple years. When my data is within a certain % of exceeding the limit on the cell phone plan, a text and email are sent to users. Without the user's knowledge, during the period of 3/25/2020 and 4/30/2020, as well as 5/1/2020 to 5/31/2020 Verizon supposedly added 15GB (each period) to the cell phone plan. While we were grateful, no one on the plan received a text or email regarding the added data or timeline. The actual usage was not reflected on the bill, and the bill was the same as usual. Upon speaking with a Verizon rep in store and online, it was confirmed that additional data was added at no charge due to Covid- yet there was no info about the timeline when this data would be provided. During these periods NO email or texts were received regarding an overage. Suddenly, on 6/27/2020 I received a text stating 10% data was left. Upon logging into my account, \$390 surcharge has been added due to 26 GB of overage data--all with ZERO texts or emails about coming within a set percentage. How could 26 GB have been used BEFORE the 10% warning was sent? I spoke with 3 reps at Verizon, the first two confirmed that strangely no notifications of any kind had been sent to anyone on the account about approaching OR exceeding the data limit. The next day I called back and the third rep stated that emails and texts had been sent, yet when all account holders checked their phone history, no alerts stating the data limit was approaching or had passed (other than a 10% remaining warning on 6/27/2020 AFTER 26 GB had apparently been charged) were found. The account holders signed up for a service that Verizon provides, the service being text and email alerts. Nowhere in the email OR text, does it say it is a courtesy. Additionally, if it is a service you can sign up for and when this service is not provided (especially during Covid) when it consistently has been in the past, it is completely unacceptable for Verizon to not be willing to waive the overage charges when the elected alert service was not provided and no communication was sent regarding the policy around Covid. While we are grateful for the added 15GB per cycle, the lack of communication regarding when this additional data would be added and would expire is an example of poor customer service practices. The account holder, my mother, had 3 surgeries since the pandemic and shelter in place, and it is completely unreasonable to take away a service that (loyal) customers come to rely on for bill payment, especially during uncertain times. I would like the \$390 surcharge to be waived this once on the basis that the account history clearly shows due to the text and email alert service, when a warning is sent about approaching data limit, minimal if any overage data is used. If the account holders were to receive the expected alert as elected through Verizon, then it is reasonable to believe that 26 GB of data would not have been used thus \$390 charge would have been avoided. Please do not penalize customers due to technology and communication failure on the business end.

Ticket: # 4062036 - Service/Billing

Date: 7/1/2020 3:53:33 PM

City/State/Zip: Washington, District Of Columbia 20011

Company Complaining About: AT&T

Description

AT&T is his carrier.

He has been with them for 12 years.

June 27 payment of \$69 if paid by the 30th.

He didn't have the money on the 30th.

An Asian lady told him if he pays \$50.00.

And he should pay \$20 on July 1st.

They told him they would turn the phone back on.

A woman named Noah was very mean.

He told her that he was having a situation.

She said he has until 5:00 today to pay the \$196.00 they were going to shut him off.

The other women mislead him.

Since this pandemic has been a big problem for him.

He is willing to make payment arrangements, but they will not listen to him.

He is 66 years old.

He has medical issues and h needs his phone for health reasons.

They told him he may not speak to a supervisor.

Resolution:

He needs them to keep the phones on so he can exist in the modern world today.

He needs his phone on for medical and business reasons.

He needs his phone to communicate with his family.

He is willing to make payment arrangements to pay his bill.

Has your work on broadband configuration also affected wifi, Internet--specifically email-- service as well as tv reception if you have an antenna as I do? I could not receive or send email 2 days last week. Why not?

I had perfect pictures on my tv before your work began. I had no idea what was happening to my perfect reception because the FCC did not notify Americans about the project. Then Coronavirus came and I could not get tv news when I needed it and couldn't leave my apartment to see tv at another place with cable, not an indoor rabbit ear antenna as I have had successfully for 12 years. I like books, magazines, newspapers as well as some tv Sincerely, (b) (6), retired English teacher who gives you poor marks for communication to the American public

Ticket: # 4062077 - Xfinity Home Internet Data Cap

Date: 7/1/2020 4:02:53 PM

City/State/Zip: Green Cove Springs, Florida 32043

Company Complaining About: Comcast

Description

Good Afternoon,

I am unhappy with the decision that Xfinity have made in reverting back to data caps even in the midst of this Covid-19 pandemic.

My wife and I are both currently working from home, and my wife especially is constantly having to make video calls and conferences whilst our two children are also in the home. This leads to far more internet data being used than usual.

If the data caps could be lifted for the entire country for three - four months whilst there was a big increase in traffic but no issues with connectivity, I do not see how including a data cap on an already expensive contract is moral.

Many Thanks.

Thank you again for your submission to the FCC. The FCC's role in this process is to facilitate a conversation between you and your provider. We received a response from your provider to your Ticket No. 4016198.

Here's what happens next:

Your provider is required to send you a written copy of its response. Keep in mind, If the carrier sends the response by postal mail, it could take up to 10 days for you to receive the response.

Please review your provider's response. If the issues you raised in your ticket remain unresolved, you can reply directly to this email with a short description of the problem.

Keep in mind that billing adjustments or other actions by your provider could take time to implement.

If we do not hear from you within 30 days, your ticket will be closed.

If you have new issues with your provider, you can file an additional complaint by going to: consumercomplaints.fcc.gov

(b) (6)

Jun 8, 2020, 7:07 PM EDT

In March my wife and I started working from home because of the covid19 pandemic. I sign onto my vpn at 8:00am and my wife signs on at 9:00am. Everyday at 10:00am we would both lose internet connection. I would get on the phone with optimum and wait at least an hour to speak to a customer service rep. They would troubleshoot with me and eventually have to send out a tech. I've had four techs here and get a different story every time. The internet will work for a few hours and then continue to drop off again. I've had multiple modems swapped out, new splitters installed outside my house, but nothing seems to resolve the issue. One tech told me it's an issue with Optimum because they have their old technology and their altice technology and when they change something to one the other has issues. I have documentation of the internet dropping because my house alarm is connected to the internet, so I took screen shots of what a normal day looks like. I just sat on hold for an hour and ten minutes to receive and \$14 per month credit for twelve months. I asked the

representative "this is great but how does this resolve my issue?" He stated " don't worry I sent an update to your equipment and it should resolve the issue". Well five minutes later I lost connection. This has been going on since March and I'm at my wits end! We pay \$280 per month for horrible internet and even worse customer service.

Update: the above was my first complaint and I received a call from Raymond L from Optimum stating there was an issue on their end and they were investigating it. I was told to allow 14 days in case they had to order parts to fix the issue. My internet was all of a sudden working for about two weeks. I was told we would discuss about a credit after the ticket was closed. I've called Raymond multiple times to discuss said credit, but he's conveniently not available every time I call. This afternoon I lost internet connection three times while trying to work from home, so the issue isn't resolved. I also received my Optimum bill in the mail today and noticed an \$80 service call fee. My bill this month is \$353.90 and my internet is still disconnecting. This has been going on since March! I was told by multiple Optimum representatives that I would receive credits, as I have called customer service well over 15 times, and haven't received a credit. This company needs to be held responsible for their actions!

Ticket: # 4062683 - Re: [FCC Complaints] Service related E-mails going to wrong accounts and unwanted E-mails

Date: 7/1/2020 7:16:01 PM

City/State/Zip: North Salt Lake, Utah 84054

Company Complaining About: Comcast

Description

This is a follow-up to your previous request (b) (6) "Service related E-mails goi..."

For years now I continue to get service related E-mails about my Comcast/Xfinity account on address that I have not shared with Comcast for that purpose. I want these E-mails to go to the official addresses I have on file in my account with Comcast and not to my work and a Google Gmail account that I don't use for E-mail but they continue to insist on sending me them. These E-mails cannot be opted out of because they are service related (training, features, informational etc.). There have been dozens of them over the past several months due to COVID. I opened a previous ticket (b) (6) and Comcast contacted me back in April and I worked with them dozens of times and sent many E-mails about this issue. They told me 3 separate times that the problem was resolved but the E-mails continue and it is now even worse. Instead of getting the E-mails at just 3 accounts I am now getting them at 4. I received one of these E-mails on all 4 accounts just the other day on June 27th. It seems that I received both an E-mail and some mail indicating the problem was resolved but as I say it is even worse now and the problem is NOT resolved and getting worse. I don't understand why this is so hard for them. I have used 4 different methods of opting out from these E-mails through my account, and also going back to when I originally shared these E-mails and opting out from those E-mails and they continue. My only option at this point is to close my account and re-open it but my guess is these E-mails will come to me forever and I can't stop them so I would have to close all my E-mail accounts and I can't do that at work obviously just to take care of this issue. Besides I'm under contract for 2 more years with them and there is not much I can do. I've been busy and I'm sure I was supposed to notify you before now that this is still continuing but I have E-mailed the folks that were working with me every time the E-mails continue and they are doing NOTHING about it.

Ticket: # 4062698 - Re: Service related E-mails going to wrong accounts and unwanted E-mails

Description

AT&T Wireless Aggressively Disconnecting Internet Service

I've been a continuous subscriber to what is now AT&T Wireless for 25 years. My most recent month of service was due the 25th of June. This morning my phone and internet service was abruptly suspended and I was told I'd have to pay the most recent month plus the newly billed month (which is billed in advance) to restore service.

I learned the Keep America Connected Pledge expired today. I shudder to think about the countless Americans who lost their jobs due to coronavirus and today were disconnected for owing one month, then forced to pay that PLUS prepay another month of service in order to restore their phone and internet.

How many people can afford that right now? These aggressive and predatory policies are being implemented on your watch. Their not only hurting individuals, they're hurting our economy. It's shameful.

Ticket: # 4062886 - COX Wireless Aggressively Disconnecting Internet Service

Date: 7/1/2020 9:27:46 PM

City/State/Zip: Santa Barbara, California 93101

Company Complaining About: Cox

Description

I downgraded my cable service to internet only during coronavirus. I need the internet to work.

I've been quarantined and unable to return COX's cable equipment. Yesterday, COX suspended my service (in clear violation of their Keep America Connected Pledge) and forced me to buy \$400 in their garbage cable tv equipment to restore vital service.

How many people can afford that right now? These aggressive and predatory policies are being implemented on your watch. They're not only hurting individuals, they're hurting our economy with these predatory policies. Are you doing anything about this?

Ticket: # 4062937 - AT&T DSL service

Date: 7/1/2020 10:20:36 PM

City/State/Zip: Prosperity, South Carolina 29127

Company Complaining About: AT&T

Description

I have had AT&T DSL since 2004. In the past couple years the service is getting worse and worse. They claim there is nothing wrong with my connection. It's spotty, it'll work and then hang up. My husband and I are both now working from home due to COVID. It was completely out for 7 days in May and 4 days just this past week. Their customer service and response is severely lacking. We want an upgrade to Uverse but was told they had no intentions to expand to us even though the high-end subdivision across the cove from us has this service. I feel like we're in a Ford Pinto on the information highway and I don't know what to do to make it better.

Ticket: # 4062938 - Overcharged by ATT Wireless

Date: 7/1/2020 10:26:45 PM

City/State/Zip: Pittsburgh, Pennsylvania 15213

Company Complaining About: AT&T

Description

My cellular phone bill jumped from 80\$ on average monthly to more than \$200 in May and then \$772.34 in July. This was charged for minutes used, even when I called 800 numbers and local numbers for my job for Zoom and Microsoft Team meetings. Also instead of billing me over two months they billed the bulk of it all on the June bill. Then ATT continuously texted me alerts saying if I changed my plan they'd help me lower my phone bill; I have had my low cost plan for years so this seems a ploy to profit from the Coronavirus by overcharging for using my phone for work as well as a ploy to push me into buying a new phone and upgrading my plan. The 772 dollars wasn't even detailed, it was just listed as "minutes" with no verifying detail. The whole thing feels shady and profiteering and I'm extremely dissapointed in overcharged when I earn less than 40 k a year before taxes and I have been working for a hospital from home this whole time and I need my phone to provide assistance to patients at our clinic. Many of us are working from home and yet ATT is profiting off us at this time. It makes me sick to my stomach that I had to pay the equivalent of my rent which is 850 a month for my phone because I'm using it so much more now.

Ticket: # 4062956 - Direct TV issues

Date: 7/1/2020 10:53:56 PM

City/State/Zip: Pinckney, Michigan 48169

Company Complaining About: AT&T

Description

On July 1, 2020 Direct TV shut off my TV service because I stopped paying them the higher charges showing up on my bill for the same service. Instead I paid them \$110.00 every month. I started getting emails from them threatening to cut off my service so I called them and was told by someone in their call center that they would notify someone else who would call me back to discuss this. I knew this issue had to be escalated to a different department other than their call center. I didn't hear anything back and got another threatening email. Then all of a sudden and without notice on July 1, 2020 I had no TV service. One of the issues that needs to be addressed is how they can terminate service with no notice of the date that will happen? That needs to be forbidden by rule or rule changes. I consider TV an essential service especially this time of year when dangerous storms can pop up at any time and the virus news is essential too. Secondly the Direct TV division is incompetent at best and the proper remedy would be to force them to sell that unit to a company who knew how to manage it much better. From the top down it's clear the people they have working for them lack the knowledge to understand problems and how to fix them. The call center while polite is at best inept except for handling very routine issues. Their people often inflate what they can do and when it will happen. As for my issue it took me at least 1-1/2 hours of my time on hold and talking to people and it's still not fixed. I was told they had been working for 2 hours to restore my service but they could not tell me when that would happen. That two hours started at least four hours after they had been paid all the back charges I owed them. Instead my service should have been restored immediately once they were paid if they had competent technicians and a system that would have made it as easy to turn it back on as it took them to turn it off. There's one other issue that's indicative of their incompetence. It's their online fastpay web page. You enter either your phone number or your account number and your zip code. If you enter your phone number, what you pay them will pay your phone bill...not Direct TV. But nothing on that page says that. So had I just entered my phone number that would have not paid my Direct TV bill. What I did instead is enter my phone number which is both my landline number and my Direct TV phone number for my account and I entered my Direct TV account number. And doing it this way still paid my telephone bill instead of Direct TV. That's a mistake that no competent programmer should make. You never allow something to process with inconsistent vital information of record. So when I didn't understand why my payment wasn't showing up with Direct TV, no one could help me initially until someone I found thought to check my landline account. Some

idiot at Direct TV thought I should contact my credit card company even though I had the actual confirmation number of that transaction. You never get a confirmation number for an incomplete online transaction. So with time spent haggling with them again, someone finally found my payment and the option was to cancel it and repay it again. For some reason they lacked the system to transfer that payment to Direct TV. Had I designed that system, there would have been a pulldown menu of service options to choose from: TV, phone, cellphone...etc. Once that selection had been made the account number and phone number would be provided in a text field. And the transaction wouldn't complete if the service selection didn't match the account number and phone number. Remedies: I feel Direct TV owes me \$100.00 for basically taking up my entire day dealing with their incompetence. I also feel this sum also reflects what my bill should have been reduced since March because the highest portion of that bill is for the sports channels which were next to worthless during the pandemic. So not having either the sports channels to watch nor being able to access their On Demand service because they won't provide my home with cable even though I'm about 2000 feet from their main cable line, they not only owe me money but owe everyone else money too who've been paying for all the worthless sports channels. If customers can't use their On Demand service, why should they pay the same rates as someone who can use it?

They cut my service off in May during covid 19 and had a payment arrangement but yet messed my bank account up rebutting money they should not have had with a payment arrangement did not refund my money to me and I feel they should refund me in a check

Ticket: # 4063099 - Optimum Outages in Jackson NJ

Date: 7/2/2020 6:45:38 AM

City/State/Zip: Jackson, New Jersey 08527

Company Complaining About: Optimum

Description

I have Optimum and the service is so slow and drops off to nothing at least 3x's a day. I upgraded to the 200 speed about 5-6 months ago hoping it would help but I've only seen it get worse. I've been working from home through COVID and I have to use my cell phone as a hot spot because Optimum keeps dropping out multiple times a day and is completely unreliable. Internet outages last hours while tv is fine. Call cservice and first two times I never got a return call when the option came up since there was a 45 minute wait time. Third time they said my modem was old and a tech would come out to replace it. Then they called back and tried to get me to do the whole turn off and back on thing again and I said send me the damn tech and modem. He came, said it was a rusty connection, said he fixed it, and left. Internet is still just as bad as it was before he came. Hundreds of Jackson residents are having the same daily outages, and they're doing nothing to fix it.

Ticket: # 4063112 - Internet outages/interruptions

Date: 7/2/2020 7:24:27 AM

City/State/Zip: Plant City, Florida 33566

Company Complaining About: Comcast

Description

Experienced internet interruption twice within 4 days - called in first interruption on Sunday had to wait till Tuesday at noon before a tech arrived he found someone disconnected my service in their box in the right of way he connected I had internet - no internet Thursday same week they cant send anyone till Monday There box in right of way appears tampered with and it's ununlockable - I explained I'm having to work from home because of COVID-19 they were just sorry - this will be a ongoing issue if they do not make their system complete and whole - unfortunately this is the only provider in my area so they have me over a barrel - Comcast-Xfinity actions regarding these interruptions are unacceptable since I have no choice in provider.

Ticket: # 4063141 - Cell phone Billing Issues**Date:** 7/2/2020 8:12:17 AM**City/State/Zip:** Brooklyn, New York 11239**Company Complaining About:** T Mobile

Description

I transferred services from AT&T to TMOBILE In December due to high bills with At&T. I was promised a cell phone bill of less than 100 dollars with 3 lines due to a promotion going on at that time from TMOBILE and I also received one of their employee discount for the life of the bill. The promotion consisted of me also trading in my current iPhones for new iPhones. While in the TMOBILE store I was told they will mail back two of the old phones to mobile for the trade-in however the third phone they gave me a label to mail it back on my own to tmobile within a week. I agreed. When I received my first bill the original plan I was offered in the store was deactivated because TMOBILE claimed one of the mail in phone was no longer eligible for the rate plan. I was so upset because I switched over to TMOBILE because my financial situation was not allowing me to pay the high bill at&T was billing me prior. My sister highly referred me of TMOBILE because she claimed they were great in accomodating new customers. How wrong she was. Now the bills from TMOBILE were adding up to more than AT&T. When I called TMobile for help they worked with me to manually adjust my bill down to 138.70 , January, 146.20 February, 142.00 in March which included insurance for two of the phones. The other months two months the bill went down due to credits they offered me because of the stress of this bill, however now the bill is now up to 180, manual adjustments is taking it down to 150 which is definitely to high for me, my bill keep going up and even though they tried to give me adjustments my bill currently is still too high. This whole process is stressful. I need the rates I was offered when I opened the account. I need an actual stable payment agreement I can afford. My financial situation is now worse due to COVID-19. please help me.

- The consumer said June 30th she got 2 bills and when she called to ask for a payment plan, they denied her request unless she puts a debit/credit card on file.
- The consumer does not want to do that since it wasn't something she done before.
- The consumer is still not working due to covid-19.
- The consumer wants T-Mobile to let her enter a payment plan without adding a card on file.

CTR-382

Ticket: # 4063989 - Frontier Overbilling**Date:** 7/2/2020 1:11:03 PM**City/State/Zip:** Coppell, Texas 75019**Company Complaining About:** Frontier Communications

Description

Around 5/14/20 I called my internet/TV/Phone provided about poor WiFi performance. I was advised I needed a new router (my current router was +10yrs old and had Verizon on it) as well as should up my WiFi speed. I was advised 75 was currently as high as I could get for now due to COVID and the fact that a technician would need to be sent for 100 or more. I was advised that the router would not cost anything and the only cost to the speed upgrade would be \$10 per month. They specifically stated there would be no need for a technician and therefore no installation fee. They said it would be implemented overnight. Within a day or so I had knock on the door, which was a Frontier technician. His first words were that he "didn't know why I'm here, there's nothing for me to do". I will also point out that in the middle of covid, he stayed in my doorway to talk to me without a mask. The next day I received an email from Frontier with an estimated bill amount that was considerably higher and included a \$75 installation fee. I called customer service and was advised I should not have been charged that fee, but they couldn't take it off until my official bill cycle happened with all the changes, which didn't end up happening until EOM June. The agent advised he would make all the notes indicate I should not be charged this amount. The June bill come out and was \$135 more than normal, which included the \$75 installation fee. I called in on 7/2/20 and spoke with 5+ folks, finally ending with Lauren in the retention department. They offered me \$23 credit, while I am going to be out at least \$200 over the next 4 months. I have been deceived by the initial call about poor service to sign up for something that is be costing me more than \$10 month. I spent over 3 hrs today on the phone, included being transferred to Collections by supervisor Priscilla, who said she was transferring me to her manager - instead, she transferred me to Collections despite me owing \$0. I should also mention that the router they sent was erroneously sent by Frontier to a 95019 zip instead of my 75019 (they used correct street address). This was not something I ordered or submitted, it was definitely there error. When I called about that, they advised I had to correct the problem, so I had to sign up for login credentials with either FedEx or UPS (can't remember which) and fix the problem myself.

Ticket: # 4064040 - Undisclosed charge

Date: 7/2/2020 1:26:03 PM

City/State/Zip: Austin, Texas 78717

Company Complaining About: AT&T

Description

While doing yard work, I accidentally cut the cable that provides my internet service. (The cable had been improperly buried across the middle of my backyard instead of in the utility easement that runs along the fenceline, so I didn't know it was where I was digging.) I called AT&T and made an appointment for it to be repaired. I WAS NOT TOLD THERE WOULD BE A COST FOR THIS SERVICE.

The next day, the repairman made the repair. As he was leaving, he said someone from AT&T would call or come by my house (really? during a global pandemic?) to determine whether they should charge me for the repair. Note, this is the first that anyone from AT&T told me that there MIGHT be a charge, and it was AFTER the work had been completed. In other words, I was not given the option to decline or postpone service in order to avoid a repair charge.

Nobody from AT&T ever called me, and I am not aware of anyone coming to my home to discuss it. They may have come when I was not home, but did not leave a note on the door.

When I received my next bill, it included a charge of \$105.74 for the repair.

I called AT&T Customer Service at 800-288-2020 and spoke to Brian (or Ryan, I'm not sure). He told me to call "the technical team" at 855-920-0146. I called the technical team and spoke to Camry. She said the technical team doesn't have authority to adjust charges. She transferred me to the Billing team and I spoke with Toni. She said the Billing team can't see the notes on the account and I would need to talk to the technical team. I explained that I already did that, and they referred me to Billing. She said there was nothing she could do, and transferred me back to the technical team, where I spoke with Kris. Kris said he could not adjust the bill because the cable was cut by me and not by AT&T.

I am submitting this complaint to ask that the charge be removed from my bill for the following reasons:

1. AT&T had buried the cable across the middle of the yard and not within the designated utility easement. I could not have known it was where I was digging.
2. AT&T did not tell me there could be a charge until after the work was completed.
3. The repairman told me someone would contact me to determine whether I should be charged for the repair. To date, AT&T has not made this contact.
4. My attempts to resolve the matter directly with four different AT&T representatives have been unproductive. The reps do not seem to have the authority to consider billing adjustments due to extenuating circumstances.

A copy of the bill is attached to this complaint. The charge in question appears at the top of Page 2 and is identified as "AT&T Tech Completion."

Company Complaining About: AT&T

Description

Not only am I being overcharged every month for a plan that does not even have unlimited data. I am now being harassed to pay my bill right away after I called and made an arrangement on chat to pay it July 11. I even have an email stating so from AT&T. The company has treated me horribly. Saying they will not honor the email. I've lost everything due to coronavirus and these people treated me awful. All my other companies have not treated me this way. They should at least all of the email. I will provide a copy of it below.

Ticket: # 4064371 - Cox Internet not being supplied at 120 mbps

Date: 7/2/2020 2:48:25 PM

City/State/Zip: Chandler, Arizona 85249

Company Complaining About: Cox

Description

Cox Internet has not met their contractual requirements for 7 months, now. They are supposed to supply 120 mbps and we are lucky if we receive half of this download speed. This started in November or December, 2019. Which was 3 months before Covid-19 at large usage of internet by everyone being quarantined. This is evident from no longer exceeding data limits on a monthly basis and has been discussed with Cox at length over phone, text, and in person. They blame wiring inside my home and I know their signal is not achieving required contractual agreement and have proof of this.

Ticket: # 4064402 - Unacceptable internet speed

Date: 7/2/2020 2:57:08 PM

City/State/Zip: Napa, California 94558

Company Complaining About: Comcast

Description

I pay for 75mbps (down) internet with Comcast. It was fine until a few weeks ago, then has slowed down to almost unusable during business hours (5-10mbps down). I've called in several times and wasted hours on the phone and online chat. They will not take responsibility for the slow speeds and instead try to blame it on my personal modem. I've tested my modem and router and tried new equipment all with the same poor results.

Since COVID, I work from home and am hindered with my work because of the unacceptable internet speeds.

Ticket: # 4064590 - Billing/ service/COVID-19

Date: 7/2/2020 3:42:40 PM

City/State/Zip: Austin, Texas 78766

Company Complaining About: T Mobile

Description

Consumer filed a complaint before with the FCC (b) (6) 7 base on this complaint she was told that her billing would be adjusted and that she had until the day of 07.09.2020. Consumer states that she receives a call from someone with the name of Rodney and he told her that she had until 5 o'clock today to make a payment or else her service would be interrupted. Consumer receive a call back number from John at the executive office, but it is out of service. Consumer does not appreciate the threats made to her on the call. As a resolution she is looking for a compensation for all this threats and time that she has wasted reporting them for their bad practices.

ctr408-phone

Ticket: # 4064596 - Re: Spectrum

Date: 7/2/2020 3:44:08 PM

City/State/Zip: Los Angeles, California 90027

Company Complaining About: Spectrum

Description

I filed a previous complaint - ticket # (b) (6) I want to make sure that that ticket / complaint has remained open.

Whenever the FCC, FTC, and Congress gets its balls back, please break up the telecom/internet monopolies that have caused undue customer expense despite our taxpayer dollars subsidizing their costs in past broadband bills.

Once more from my previous complaint:

1) Spectrum charges unnecessary fees. Previously, they had a \$10/month service fee for modems. They no longer charge that and no charge a \$5/month fee for wi-fi. This is ridiculous. I'm using the same modem I was before, a cost that has already been paid many times over since getting the device years ago. If they no longer need to charge for the modem, why was I paying the cost previously? Why is there a fee for wi-fi when that wasn't an issue before?

2) Prior to merging and becoming Spectrum, Congress was promised that consumer pricing would go down. It has not. The prices have remained the same or they raise it without telling you. I would like the FCC and the FTC to investigate this.

3) Pricing doesn't matter to them. For example, you may start with a \$45/month Internet-only 100 Mbps package. It goes up to \$70 or so after the 'special pricing' ends. Most people know to call and get the 'special pricing' extended. Sometimes you have to threaten to switch (but to what? It's a monopoly). This can work or not work. But the only difference between the \$45/mo and \$70+/mo is that you took the time out of your day to negotiate. That's stupid. It seems \$45/mo is the base and everything else is a healthy margin.

4) That margin has not been invested in upgrading equipment. We've seen this throughout the COVID crisis. Since March, my Internet has gone down at least 4-5 times, most likely due to heat and network load. Instead of investing in the future, they pay their shareholders and executives.

5) Spectrum and Comcast are a monopoly. I can either have minimum 100 Mbps Spectrum Internet or AT&T 5 Mbps Internet. This is not competitive whatsoever.

We've seen that accessible broadband is critical to the future of this country. It should be treated as either a right or public utility like in other more enlightened countries.

Ticket: # 4064650 - Suddenlink- Altice

Date: 7/2/2020 3:57:04 PM

City/State/Zip: Georgetown, Georgia 78626

Company Complaining About: Sudden Link

Description

I contracted with Suddenlink to have my internet installed 3 June 2020. Suddenlink is the only internet provider in my community. As of today, 2 July 2020, I have yet to receive internet. Suddenlink has sent out multiple technicians to my property and no one has provided me with any information on the status of me receiving internet. When I call the company, I am unable to speak with a supervisor and the customer service representatives also cannot provide me with an update on my internet. Due to COVID 19, I have had to work from home without the essential service of internet. I have been forced to purchase a internet plan from Verizon to have some internet in my house while waiting of suddenlink to provide me with internet. Additionally, on 1 June 2020, suddenlink charged my account \$117.49 for a service and installation that hasn't been provided and charged my account \$8.53 on 25 June 2020 for a service that hasn't been provided.

Ticket: # 4064714 - Robo Call Harassment

Date: 7/2/2020 4:17:24 PM

City/State/Zip: New York, New York 19928

Company Complaining About: Spectrum

Description

Spectrum (Charter Communication) is ROBO Calling 4-5 times EVERYYY day including weekends for at least TWO MONTHS involving a billing dispute. Have asked them to stop the calls but told by their representative they 'Couldn't'. Calls began 8:11 am and have come as late as 9:45pm. Am 82 years old, this is seriously effecting sleep and health. Have had to turn my phone off and this is dangerous for my health at my age. Am a cardiac patient. The dispute is because they have increased the price for the stand alone simple internet Wi fi service during Covid by 40%! Due to my age and health can not have installers from another company to change providers. Service started in 2017 @\$34.99, the price DOUBLED in three years to \$69.99. PLEASE HELP TO STOP THE CALLS. Thank you. This is pure harassment.

Ticket: # 4064920 - Suspicious Text (Spam)

Date: 7/2/2020 5:09:06 PM

City/State/Zip: Lakewood, Colorado 80215

Description

I received a text from 970-281-7314, it read:

Hello Mary this is Agent Brad Hall from the federal bureau of finance in connection to a fresh program to covid 19 stimulus cheque package....please text us back as soon as you get this text message

First of all I know someone from our government wouldn't text me this. My name is (b) (6) so I am concerned about that. I didn't respond to todays text at all. Just came here to report it.

Ticket: # 4064975 - Billing issues- False and misleading information given from Rep to purchase services

Date: 7/2/2020 5:29:19 PM

City/State/Zip: Mobile, Alabama 36608

Company Complaining About: Verizon Wireless

Description

My husband and I came into Verizon store around 6/3/2020 to inquire about pricing and possibly switching to Verizon in hopes of getting a lower bill and better service. I straightforwardly let the Verizon rep know that our goal was to reduce our bill and obtain better service, we were current customers at the time of AT&T and had been for some years. He assured us that we would get a better bill as well as better service as he was promoting the 5G service of Verizon. Now that I have switched to Verizon my service is awful and was much better with At&T wireless 5G network . Due to COVID-19 Pandemic I work out of my home office and my phone barely works without dropping calls and breaking up and my clients that I service can barely hear me most time when talking over the phone and this has caused a major disservice to operating my business at home in my office, my office are now complaining that they cannot hear me in my home when that wasn't the case before switching to Verizon. Initially the rep said At&t does not have true 5G but Verizon does. When going back into the store to confront him about his promotion of 5G with Verizon when addressing my phone issues, he stated that he didn't know when the 5G was going to actually be active in our area, and he did not state that when trying to coerce me to switch phone service. When going back to the store to inquire about my current billing inconsistent issues and phone problems and the fact that nothing that he promised nor promoted was accurate. The rep became very rude as he had also been a few days prior but this time he was very rude I ended up speaking with the manager Mike and informing him of the situation and the total disrespect of the rep Larry. Mike was respectful but nothing was done about my very apparent issues with billing mostly as well as service issues he told me to call tech support to correct phone issues. I am very disgruntled and upset about the very poor level and lack of quality of service that I have received as well as extremely misleading information to get me to switch over, this has caused me unnecessary hardship. My previous bill with AT&T for both my lines including tax and a monthly phone charge for my then Samsung Note 9 was \$222.00 and that included taxes and with unlimited talk, text, and data as well as 5G network. I stressed to the rep that I could only reduce my bill not increase the amount he assured me that my bill would be lower than my current service. He gave me a print out for a bill amount of \$212.00 he told my husband and I that the Galaxy S20 phones were on a special promotion and it was a buy phone and get the other for 1/2 off that day. When we went in the store that day the price of the phones were posted and the phones were around \$1200 I wanted to pay the phone off in cash that day so I wouldn't have to finance it and the rep said not to do that because he wasn't sure which phone Verizon was going to give me the 1/2 off discount on. On 7/1/2020 when I went back in the store to find out the pay off amount for my phone was actually \$1504 that day he told me that there were no finance charges so I couldn't understand for the life of me how the payoff amount shot up to over \$1500 he said that it was tax, that some more information that the rep voluntarily left off on top of the fact that the phones were NEVER priced that high the day we switched service. The price that was posted was a little of \$1200 NOT \$1,399 +. Also when I went back into the store I noticed that the previously posted prices were no longer posted, NO prices were posted at all on the phones. I asked the manager why NO prices were posted on the phones he said he didn't know why but would fix the

issue. The last thing I would like to address when confronting the rep and going back in the store, I noticed on my very high priced \$371.00 bill (\$it was actually about \$290.00 once I received my trade in credit of \$81.00) that I didn't get my full 1/2 off for my 2nd phone, Larry stated, "oh you only get up to \$500 credit for the 2nd line" I told him and the manager absolutely not when he told me and my husband and the other rep that was in training the day when we signed up that my 2nd line was definitely 1/2 off. This was the last straw and another thing that the Verizon rep misled me on as well as used false advertisement to coerce me to switch as well as give me inaccurate bill quote is what caused me to go ahead and sign up that day other wise I never would have. I feel very taken advantage of and very misled as a customer with Verizon and demand that I am given what I was told from the beginning to resolve this issue or we can return the phones and be released from all obligations of Verizon Wireless and continue service with another carrier.

Ticket: # 4065048 - Billing

Date: 7/2/2020 5:53:34 PM

City/State/Zip: Greenbelt, Maryland 20770

Company Complaining About: Comcast

Description

February 2019 I ordered Cfonity/Comcast Home Security. I was told and lead to believe that there was no contract with my home security system. I have been placed on a Special Program since the pandemic. Now today a foreign billing rep I formed me that I signed a 2 yr agreement for the Home Se purity which I had made 25 calls about during the 15 months I had the service. Now Comcast is refusing to take my Home Security off of my account and close my account. Unfortunately I was forced to cancel my services due to moving due to financial hardship. I am very concerned that Comcast. I am 67 yrs old and disabled. Comcast is using the deceptive practice of bate and switch. I was asked to pay in order to cancel my service. When I ordered Comcast I was assured by the rep that it was 79.00 a month us taxes and no contract with Comcast.

During these very hard times thus type of deception is disgusting. People especially my age are struggling.

Ticket: # 4065061 - Yes phone scam

Date: 7/2/2020 6:01:58 PM

City/State/Zip: Albany, California 94706

Company Complaining About: Unknown

Description

Someone just called me from 510-395-8918 and said they were calling from a Medical group and asked if I could help them OK. I was expecting call from county test organization because my wife wants to be tested for COVID 19 - so without thinking I said yes. They hung up right after I said yes. Please let me know if there is anything I can do to protect us from fraud resulting from my "yes" being recorded. Thank you! Randell Lee

Ticket: # 4065080 - Improper Bill

Date: 7/2/2020 6:11:31 PM

City/State/Zip: Vancouver, Washington 98684

Company Complaining About: Comcast

Description

When the sound on my cell phone ceased functioning, I called xfinity technical support. After a hour , during which they were unable to fix the problem, they referred me to the Manufacturer, Samsung. Sansung teh support took over the phone remotely and confirmed it to be in good working order and referred me back to the provider. I then went to the xfinity store locally. They took my phone, changed some settings and handed it back to me. They said "something was turned off and we turned it back on. My phne worked and I was happy. During the following month, because of covid, I rarely left the house and my phone worked well. Notice of my bill arrived, however and I was being charged an additional \$72 for "data usage". When I called xfinity I was out on hold and then disconnected twice. I reverted to "Chat". On the chat, after another hour, the person determined that indeed the "mobile date" button setting had been changed so that I was no longer accessing the xfinity router in my home but was instead "roaming" while at home. The technician's supervisor authorized only a \$20 credit on a \$72 erroneous charge, one that they had created with their technicians error. When I said that wasn't adequate and asked to contact the supervisors "supervisor., the chat was cut off by them without an answer or explanation. Xfinity owes me \$52 as far as I am concerned. In point of fact, they should compensate me for lost hours dealing with poor technical support and the glitches in their system that hung up on me while I was waiting for an agent on "hold".

Ticket: # 4065122 - Covid assistance

Date: 7/2/2020 6:35:26 PM

City/State/Zip: Los Angeles, California 90048

Company Complaining About: Sprint

Description

Hi- I would like to file a complaint against Sprint for cancelling my service in the midst of the Covid-19 Global Health Pandemic. I have been a customer of Sprint for over 20 years and it is disgusting and unacceptable that they are forcing customers to commit to payment arrangements to restore service when there is no end in sight for the pandemic. I am located in California, one of the hardest hit states, have been on mandatory shelter in place orders for months, have not been able to work, and have not received any update from EDD (Unemployment). Despite everything, I am still trying my hardest to find employment but I cannot do that if my service is interrupted. Sprint is taking zero responsibility as of 6/30/20. The Keep Americans Connected Pledge needs to be reinstated ASAP, it is not safe or healthy for people to be stuck at home for months on end unable to contact anyone.

Ticket: # 4065128 - Comcast/Xfinity Lying to Customers

Date: 7/2/2020 6:37:19 PM

City/State/Zip: Fall River, Massachusetts 02720

Company Complaining About: Comcast

Description

My billing plan with Comcast was put on an extended seasonal plan until May 22 due to financial hardship due to Covid19. I asked the agent to please extend this seasonal plan an additional 60 days. The agent confirmed that he and his manager had approved my 60 day extension and that my billing statement would reflect this extension. Nothing changed in my account, the extension was not applied and upon calling Comcast to address this, they did not acknowledge anything the previous agent told me. The original agent that I chatted with lied to me and deliberately misrepresented Comcast services/billing and even told me his manager had confirmed that the extension had been approved and applied. There are countless posts online on the BBB, Reddit and other social media platforms from other customers complaining of the same experience; being lied to by Comcast, and promised something that was not delivered with regard to service/billing.

Ticket: # 4065200 - Altice Customer Rep. Fraud / Sabotage to our account

City/State/Zip: Litchfield, Connecticut 06759

Company Complaining About: Optimum

Description

On 06/30/2020 (Morning) we called Optimum to ask about stores that are open so we could trade in one of our Cable boxes that was giving us trouble. Wait time 45 min. plus, asked for a call back. Never received one during that business day.

On 07/02/2020 8:00 am called again for the same reason. Requested a call back. We received the call and I was speaking with Rep. Amr, I explained the issue just wanting to know where I can trade in an old box for a new one as that Altice closed the store close to us (Litchfield / Torrington) He informed me that there are no stores closer than Bridgeport and we could mail that one to Altice and a replacement would be shipped to you. I asked what we were to do while we had no box, he basically stated wait for a new one. I stated we are paying a lot of money for this service I am not going to pay for a box we do not have. His response you are not paying a lot that's all we can offer. To make a long story short I asked to speak with a Manager he said No! We went through the issue again. He said that's all we will do, I asked for a manger again; he again stated NO! The conversation got heated. And I hung up.

At that point we lost all services! (9 am) TV and Phone came back our phone rang 860-567-5179 it was Amr and he stated he was going to report me. I also stated I was going to report him. At this time, it was noticed that we no longer had Internet!

I went down to the Litchfield / Torrington Store to see if I could talk to someone anyone. As that my wife was trying to get through to the Help desk and was on hold. Wait time 45 min's plus.

After an hour on hold we were finally contacted to another Rep. Stanley we worked through the trouble shooting process. After getting our internet back. I asked what happened he informed me that our internet was shut off. We again asked to speak to a manager this rep. said OK then we were disconnected.

I checked my cell phone and saw that a message was left from (347) 418-4600 the message from Amr at 9:01 am message stated (actions will be taken against your account). We lost our service at 9:01am

It is clear that he shut off our internet.

I will be saving this VM from Amr to share as required.

At 9:05 my wife received the attached email from Optimum (coachshcrpv@optonline.net) stating that our account. NO SUCH REQUEST BY US WERE MADE!

We received a request from you to suspend your service and product. We are processing your request. Please allow 24 hours for the process to be completed.

If you believe this is an error please login below to cancel the request and continue enjoying our product. failure to do this will result in service termination

As that we have 3 people working from home during this Covid 19 crisis. The Internet is critical!

- Teacher: working with Students
- Banking: Customer Support Mortgages (CT Based Bank)
- Military Aviation Customer Support (Pratt & Whitney RTX)

All three of us were disconnected from our servers and jobs. Not to mention that when we were finally reconnected all devises had to be reconnected because they were all deleted from our account.

This is unacceptable and we are demanding that Altice take action, this a blatant act of sabotage to our account. Given the email generated from Optimum it is now harassment.

Ticket: # 4065230 - Facebook "Hate Speech"

Date: 7/2/2020 7:32:21 PM

City/State/Zip: Bellevue, Washington 98004

Company Complaining About: Comcast

Description

I have been banned (not allowed to post) from Facebook for 3 days for /commenting/posting "Because average Americans are morons." That was in response to a post, I think, that, essentially, said why aren't people wearing masks to minimize coronavirus infections.

Facebook called it "hate speech." Really? I have seen far worse. My comment, at worst, was sarcasm. It was intended to be humorous. But, to Facebook, it's hateful. I do not understand. Worse, Facebook do not provide you with a process to disagree and appeal. In fact it does not show you exactly which post you commented on. Appeal is robotic and predetermined. One is guilty! You can click on a button to disagree with their finding, but you cannot say anything. You cannot say what you intended ... there is no interaction. The fact is that there is no open process to appeal, there is no clear definition of "hate speech" on their site (certainly, no examples). I have seen many more worse posts.

I realize Facebook is being criticized for not policing its site. But, banning people for minimally disturbing posts is, in my opinion, restriction on my Freedom of Speech. Furthermore, there is, essentially, no process to appeal. It appears to be just an automated process that identifies certain phrases and bans people without due process. I realize Facebook is under criticism about its sites. But, when they are not screening well, the appeal is automated and not providing a complaint process for the affected customer, the website is becoming overbearing, restrictive Facebook compliant speech center!

By the way, there appears to be no way for one to reach Facebook: no working phone number, no chat process, no working emails ... nothing. Yes, it is a private company, but as a user, I am its customer. I am its basis for their advertising revenue. I deserve their respect. At least to the extent that I should be able to defend myself ... that I do not post "hate speech."!

Ticket: # 4065273 - my T-Mobile phone service has been illegally cut off**Date:** 7/2/2020 7:53:28 PM**City/State/Zip:** Santa Barbara, California 93110**Company Complaining About:** T Mobile

Description

I have an agreement with T-Mobile not to be suspended nor cut off. I have evidence of that agreement with T-Mobile. The agreement sustains through Dec. 2020. I was told by the T-Mobile supervisor to ignore all of the reminder messages and all the phone calls saying I had to contact them because she could not stop the system from sending those, but that she guaranteed I would not be cut off nor suspended. I have that evidence and that promise from T-Mobile. But I have been cut off from making any / all calls e.g. all calls I attempt to make go straight through to the T-Mobile payment center and an announcement that I have been suspended. The kindest I can be is to state that this is a computer algorithm error and that T-Mobile must immediately reconnect me and stick by the arrangement and promised they made to me. I also am not allowed any WiFi ability on my phone nor data. Occasionally texts get through. And so far incoming calls get through, so I do not believe they have disconnected my number. However any attempt making an out going phone calls gets hijacked to the T-Mobile payment center even though I have an agreement and proof of that agreement / evidence I can provide. I am a senior citizen. Without my phone I cannot resolve other issues that are collapsing due to Covid. I do also have evidence that my income is effected by Covid, and this evidence has been accepted by every other business. In addition to the proof of agreement with T-Mobile not to be suspended, I also can provide that letter as evidence that i am Covid affected. Without my phone, if I were to become ill, I would not be able to phone my doctor. And I am not able, because T-Mobile has illegally cut off my phone even though I do have an agreement with T-Mobile, unless I walk to town to get WiFi, I am basically cut off. This cannot be what the Federal nor State nor Local government has in mind during the most at risk months of Covid-19. Indeed, T-Mobile is forcing me to leave my home to be able to make any contact with the world, which is the opposite of the help and good will that was previously arranged and to which I intend to hold them to their word. I will continue to try to work with T-Mobile during the next days. Hopefully, once I email the evidence of T-Mobile's promise to me to their CEO Mike Sievert, fingers crossed, this will be corrected from the top down. It has not been possible to correct it from the bottom up. If it is not corrected from the top down or bottom up, and since I do have evidence of the agreement that I would not be suspended, I lean with gratitude to the FCC to enforce T-Mobile to correctly implement the agreement that was made. As efficient vehicle for future reference, I look forward to an FCC complaint #. Thank you. As per your pull down menu below which solely gives the option of 'wired' or 'internet (VOIP)' I don't believe a cell phone nor T-Mobile fits either of those descriptives, but in order to get through this form, I have chosen the 'closest' possibility e.g. 'internet (VOIP)' although that does fit either.

Ticket: # 4065340 - Fraudulent Person Using My Number

Date: 7/2/2020 8:40:12 PM

City/State/Zip: Chicago, Illinois 60610

Description

I have Experian Identity Works due to a data breach unrelated to the issue I am emailing you about today. I got an email from them saying they found something under internet surveillance. When I looked at it someone else's name showed up with my Verizon cell phone number. That person's information is (b) (6). I have already notified Verizon's fraud department and they said there hasn't been any suspicious activity on their end. I am demanding that this be investigated. The Verizon fraud rep. said that this is the third alert she has gotten from customers today (July 2, 2020) regarding Experian notifying them via email that their number has been compromised. Something has to be done with this because she also said that spoofing has been rampant since the COVID-19 lock down happened in mid-March.

Ticket: # 4065425 - Internet Complaint with Verizon Fios

Date: 7/2/2020 10:09:33 PM

City/State/Zip: Sudbury, Massachusetts 01776

Company Complaining About: Verizon

Description

Have been trying to get my internet fixed for two months. They said I needed an upgraded router and needed to do an in person install but couldn't because Of Covid19. Finally had to cancel Fios and now they are charging me \$330 to break contract they never could honor.

Ticket: # 4065524 - Paying for speeds not getting

Date: 7/3/2020 1:10:59 AM

City/State/Zip: Minnetrista, Minnesota 55331

Company Complaining About: Mediacom

Description

I've been a mediacom client paying for 200 MPS speeds and have consistently getting well below that as I do speed tests. There's been little to no response from Mediacom to solve the problem. It's to the point where I can effectively complete my work at home and I've been forced to work at home with the current Coronavirus epidemic. I'm just looking for accountability and the proper support.

Ticket: # 4065634 - High speed internet

Date: 7/3/2020 9:02:17 AM

City/State/Zip: Honea Path, South Carolina 29654-9110

Company Complaining About: AT&T

Description

For years we have been trying to get high speed internet to our rural area. We have signed petitions to no avail. Its already on our road. The cable company will not finish running the line down our road. It is a heavily populated rural area. Our kids have been at home during Covid shutdown having to do school work from home and needing to have internet. I have been given a new job opportunity to work from home, but no internet. In this day we should not have to beg to get what is considered a basic necessity for this day and time. Whoever has our area under contract for high-speed internet is failing our community and our kids. According to the phone company there is a contract in our area that prohibits other companies from providing competitive option. This should be illegal. Please help.

Ticket: # 4065644 - Internet Service Disruption**Date:** 7/3/2020 9:16:33 AM**City/State/Zip:** Montrose, West Virginia 26283**Company Complaining About:** Sudden Link

Description

Service is going out every day in area. Affected neighbors have called. Will not investigate outage. All parties being told it's equipment in house and a technician will need to look at individual equipment. My equipment is not affecting all of my neighbors, and vice versa. Technicians aren't available for weeks. Myself and several neighbors are working from home as a result of COVID19. One neighbor runs a business out of their home. My child is supposed to be participating in an education program online. We can't do any of these things without service. There is clearly an equipment issue affecting us all, but they won't send anyone to investigate that.

Ticket: # 4065670 - Billing

Date: 7/3/2020 9:48:55 AM

City/State/Zip: Washington Park, Illinois 62204

Company Complaining About: Sprint

Description

Sprint Cellular company informed me on 6/21 that Covid-19 protection would end, but explained that I will be able to work out payment agreement. Called in today to be told that was told to me on 6/21 is not valid and after making company aware that I am without money and have two people in the home with Covid-19, so can they please work with me. Sprint representative told me they could care less and upper management told them to care less about customers. Covid-19 is a huge issue, and numbers are not going down and income is not coming in. This is horrible that companies such as Sprint and many more could care less and have the ability to care less about customers and pandemic

Ticket: # 4065675 - Optimum Service Delays / Lack of Understanding

Date: 7/3/2020 10:00:06 AM

City/State/Zip: Wayne, New Jersey 07470

Company Complaining About: Optimum

Description

Hi. I've now been waiting over a week to pair three Optimum cards, which I had to pick up at their store rather than having them mailed to me (odd given our Covid-19 conditions), to my TIVO devices. Two technicians arrived at my house, one after the allotted time block, only to tell me they sent the "wrong kind of tech". Supervisors are basically refusing to speak with me. Despite that fact that I've been a long time good paying customer, it seems Optimum is not as interested in resolving an issue that involves a third-party equipment, in this case TIVO.

Ticket: # 4065692 - spoofed calls

Date: 7/3/2020 10:22:50 AM

since receiving my grant from the SBA COVID-19 Economic Injury program i've been getting phone calls from random numbers with my area code which is not even in the state in which i reside.

Ticket: # 4065903 - Comcast

Date: 7/3/2020 12:33:54 PM

City/State/Zip: Manahawkin, New Jersey 08050

Company Complaining About: Comcast

Description

I am the primary account holder for my mother's phone in Florida in an assisted living facility. Her phone has been out of service for close to 100 hours. I started calling Comcast about it on the 30th of June. After approx 12 hours of phone calls, I am now being told a service ticket was only treated today where 30 minutes previous was told one was created on the 1st vs the 30th. That my mother needs to have another phone to troubleshoot or she will be without phone service until COVID is over. I was also asked if this was a new line/modem. Installed by Comcast 3 possibly 4 years ago. I was also told the modem technology was out of date, never recieved any notice to upgrade. To me all this says anyone who is elderly, not tech-savvy, or doesn't have another phone or ADA is without a lifeline.

Ticket: # 4066027 - Complaint about AT&T wireless bill

Date: 7/3/2020 1:39:34 PM

City/State/Zip: Boston, Massachusetts 02215

Company Complaining About: AT&T

Description

In April 14th, I returned to China because of the Covid-19 pandemic in the US and normally I will suspend my wireless account until I come back to Boston. While AT&T upgrade my account and move the website of AT&T premier, which is the one I used before, to the new one. I can't find any site in the website that I can have vacation suspension, which only cost \$10 and I can have my account suspended for 6 months. I keep chatting with AT&T customer support on their website and ask them for help, and they said they already helped me do the vacation suspension and they are sure that it will only cost me \$10. But AT&T still charge me the same amount of money this month, even though I already asked them to suspend my account, more than one month ago. This is not fair and it's unreasonable. I cannot accept this. I need them to cancel the charging of those two accounts that I told them to suspend. Thank you! I am in China now, please contact me with this phone number: (b) (6)

Ticket: # 4066050 - Bandwidth data cap

Description

Comcast should suspend internet data cap policies in due to response to the coronavirus pandemic and digital transition to cloud services . We use to have unlimited internet service w/o data caps and make internet GREAT AGAIN by offering no data cap on internet service.

Ticket: # 4066143 - Many months of problems with audio on cable tv. Lied to by service representative. Cannot get in touch with anyone.

Date: 7/3/2020 2:30:10 PM

City/State/Zip: Aurora, Colorado 80016

Company Complaining About: Comcast

Description

Audio problems with cable tv. Was told not sending service techs to residences during Covid 19 after we had a tech at our home just a couple weeks ago. Read me a sentence to decline service. We are paying for a service contract.

Ticket: # 4066157 - Cox Communications Not Providing Customer Service**Date:** 7/3/2020 2:35:45 PM**City/State/Zip:** Las Vegas, Nevada 89142**Company Complaining About:** Cox

Description

Recently I have been monthly outages with Cox Communications. This occurs when I am in the middle of my work day, and due to COVID I am working from home. I lose work and money when this happens, but that is not the worst of it. During the most recent outage on 07/02/2020. I was told several conflicting stories. I was told first that the outage was resolved at 1:30pm, but I was later told, all by different people, that there was another outage, that the issue was only with me, and that the issue was resolved by a fixed cable at 2am the next morning. My service returned at 8pm on the 2nd. All interactions with customer service have been marked with conflicting information and an unwillingness to answer my questions. I am stuck paying for this unreliable service that is interfering with my ability to work.

Ticket: # 4066264 - OPTIMUM CABLE TV SERVICE**Date:** 7/3/2020 3:40:43 PM**City/State/Zip:** Stamford, Connecticut 06902

Description

I have filed a Complaint before regarding Optimum Cable TV SERVICE in Stamford, CT, part of THE ALTICE CORP., which YOU DISMISSED. I am filing another complaint, because I pursued the Attorney General's Office, State of CT., where I was given a name of Marc Shapiro, and an email address, the person to whom I SENT MY EMAILS SEVERAL TIMES IN THE LAST 6MOS. AND RECEIVED NO ANSWER.

Today took the Cake and is, as they say, 'the straw that broke the Camel's back.' My TV went out yesterday, and had a blue screen and would not go on; I finally got someone on service, who helped me, after many attempts, and reset, and re=booted my system. She told me to go to CABLE TV today, exchange the box (I had an old box in one room, that is not set up for digital services [even though I do not have a digital TV], she said to get a new CABLE BOX and REMOTE, and specifically checked and said my local Optimum Cable TV office on Cross St., Norwalk, CT was open. By the way, my problem was with understanding this woman's English; I tried to get her name several times and could not understand her; several times I had to ask her to repeat, over and over, again, her instructions; this is unacceptable; I drove over to my local Optimum Office in Norwalk, fighting a hr.'s worth of 4th of July traffic, and then was told - an associate came out with a mask and there were 3 of us, with the same problem (returning boxes, etc.), and he said that they were NOT accepting anything except payments today!!! He said we should come back on Monday; I spoke with him in an angry tone, telling him I was SPECIFICALLY told I could exchange the box today, and I said, "OF course you are accepting payments only and NOT GIVING SERVICE< I also told him I was going home to file a Complaint with the FCC --- because Optimum does NOT CARE ABOUT customers, just the money. HE TOLD ME TO GO TO THE BRONX, NY OFFICE --- I SAID WHAT ARE YOU KIDDING? YOU GO TO THE BRONX --- THAT IS NOT EVEN AN OPTION. I was really angry. Even if I had called that office, YOU WOULD NOT GET A REAL PERSON; ONE OF MY BIG COMPLAINTS IS THAT A CUSTOMER CAN NEVER GET A REAL PERSON WITH OPTIMUM; YOU ARE DIVERTED OVER AND OVER AGAIN THROUGH VOICE MAIL;

The next Complaint lies with the MOTHER CORPORATION, ALTICE, which is an international DUTCH communications firm, based in the US in Brooklyn, NY. I call it a "Yuppie" corp., when it shows only young people and attracting young people (who, by the way do not seem qualified); I had an issue with the programming of OPTIMUM< with VICE TV, which shows explicit violence, sex acts, and drug use, especially showing the use of marijuana in all of its access and usage --- it is a disgusting channel; I blocked it, but it is NOT a PAY PER VIEW Channel and it is open to children just streaming through the channels --- that is what they want, i.e., to corrupt the youth; it should not be on pay per view either -- they probably know that, b/c no one would pay for that dirt. CABLE Has removed the Jimmy Swaggert TV show, which has been a comfort to a friend of mine, taking care of a cancer-stricken spouse; instead, they replaced it with some 'hijacked' jewelry channel, looking like criminals that just got out of jail; they removed my Disney channel where I could watch G rated old, retro Disney movies, and I was willing to pay \$10/mo for that service; their CHEDDAR NEWS AND SPORTS, etc., are their own channels, with 'yuppies' getting a salary, but not knowing what they are doing or saying - it is infuriating -- I blocked those channels also. ALTICE is a self-propagating institute, and it should be investigated by the Federal Government for infractions, for misrepresenting itself, for not being receptive to its customers, and the public, and to seem to be IMMUNE from local

laws and PTO groups, when it comes to its programming. IT DOES NOT, IN ANY WAY, SHAPE OR FORM, LISTEN TO ITS CUSTOMERS. If one is to "Google" Altice, one can find all kinds of consumer complaints, with actual websites set up to actually find a way to contact ALTICE; it is said that they even reject 'certified mail.' Why are they exempt from the laws: local, state and federal? What good is the FCC if it cannot police ALTICE, which is obviously a MONOPOLY, and an international one at that. I will also be writing to President Donald J. Trump,, because he needs to know about big businesses who set up companies, 'off shore,' rip off the American people, take away jobs, and they do not run the companies in an efficient manner. Everything is going back to local enterprises, especially after COVID, 'farm to table,' 'made in the USA,' etc. YOU NEED TO STOP THE ILLEGAL ACTIVITIES OF ALTICE CORPORATION, A SUBSIDY OF AN INTERNATIONAL COMMUNICATIONS CORP. IN THE NETHERLANDS. No wonder they do not want to answer me, or the millions of customers it sucks money from.

I was told by you, previously, that they were not breaking any laws, and because I "CHOSE" to pay, as a consumer, through capitalism, to pay for this service, I could always "CHOSE" not to have the service, or switch carriers. Fairfield CO., CT, and NY/NJ are 'locked down" with ALTICE --- they have a monopoly; there is DISH, but my neighbors said they got rid of DISH, b/c reception was terrible, and the channels were less, and the price more. My family and friends in upstate CT, have a much better CABLE TV Company, like COX, and COMCAST --- better --- more channels, service everywhere, and better prices..... ALTICE/Optimum need some competition in Fairfield Co., CT, and NY/NJ. Is not that part of CAPITALISM? Healthy competition? When there is no competition, there is a monopoly.

If you do not do something, as soon as possible, I will engage an attorney who is willing to file a 'class action' lawsuit against you, the FCC, ALTICE, etc. This is a travesty of communication law, for sure. Also, the CABLE TV is supposed to be monitored and regulated by an ombudsman, and the public domain, in each locality, state/city, etc.

I am not taking a 'slap on the hand' and some excuse for you not to go after ALTICE and its illegal, unprofessional and unsound business practices, along with its questionable corporate direction, in allowing programming which is salacious and unhealthy not only for youth, but the population at large.

Please respond to me at: n(b) (6)

Ticket: # 4066337 - Internet Connection Problems**Date:** 7/3/2020 3:59:30 PM**City/State/Zip:** Hollywood, Florida 33026**Company Complaining About:** Comcast

Description

I have Xfinity internet, and my signal keeps dropping such that I loose signal. When I try to contact them about this problem, they refuse to resolve the issue due to Covid, and I am still charged full price. I would like to have my internet restored, however they refuse. I don't need anyone coming to my house.

Ticket: # 4066358 - Hughesnet

Date: 7/3/2020 4:09:04 PM

City/State/Zip: Saylorsburg, Pennsylvania 18353

Company Complaining About: Hughes Net

Description

In short after numerous difficulties and complaints to customer service during the covid-19 pandemic about not having internet or phone service i closed my account and told them i would not be paying any early termination fees all of a sudden i get a letter from a collection agency that i owe them \$580.48. Hughesnet has in no way shape or form tried to contact me at all. The only way for Hughesnet to solve this problem is to close the account with zero balance they are not getting another dime from me

Ticket: # 4066402 - internet service

Date: 7/3/2020 4:32:10 PM

City/State/Zip: Orlando, Florida 32803

Company Complaining About: Spectrum

Description

Spectrum has made changes to my internet speed multiple times. They have incorrect documentation saying there were orders that I placed when I only placed inquiries about prices and did not authorize any changes to existing service. My internet speed has changed multiple times during COVID-19 pandemic, especially problematic as I'm working at home. Though issue was fixed in May, was told speed was incorrectly provisioned at 400 while I was paying for 100 but was provisioned at 200 for the fix and I was told that was as low as the system would go. Also had tech in person come and check equipment. That makes 2 Spectrum employees that knew about what my service rates were, did speed tests and knew what internet I speed I was provisioned for. Today my internet speed is halved from yesterday. The only fix Spectrum will offer is for me to pay \$20 more for increased speed. I did nothing (I did not lower my internet speed). I was told by tech that I have plenty of speed to do my work but the Spectrum internet chat would not even function. This is a complete bait and switch. I asked to speak with a manager and was not given the opportunity. Multiple people stated that there were different speeds available for not that much more but that is not the case. I never received a communication saying I was incorrectly provisioned at a higher speed and that Spectrum would decrease my speed which has happened twice now. Now, it is not functional.

Ticket: # 4066449 - Re: Complaint against Cable Company, Optimum's monthly billings for Regional Sport Network Fee

Date: 7/3/2020 4:59:44 PM

City/State/Zip: Bronx, New York 10462

Company Complaining About: Optimum

Description

My current cable operator, Optimum is charging a monthly charge of \$10.47 for Regional Sport Network Fee. However there have been no live global sport events for the last 4 to 6 months due to the shutdown caused by the Coronavirus-19. My current cable operator, Optimum continues to charge me. First solution, the cable operator, Optimum should credit my account during those months I paid for to watch live sports on their network. Second option to solving the problem can be taking the charges off the monthly bill until live sports return back on television. When I made a complaint to the cable operator, Optimum I was placed hold and the call dropped.

Ticket: # 4066469 - Service disconnected no longer allowed service due to COVID-19

Date: 7/3/2020 5:16:15 PM

City/State/Zip: Los Angeles, California 90029

Company Complaining About: T Mobile

Description

Reps from T-Mobile stated that their company was no longer allowed to offer telephone service to those impacted by Covid-19. In the statement T-Mobile reps claim the FCC is responsible for this and will not allow them or other companies to further extend service to those impacted by Covid-19.

Ticket: # 4066545 - Frontier internet in west union west virginia

Date: 7/3/2020 5:53:06 PM

City/State/Zip: West Union, West Virginia 26456-8501

Company Complaining About: Frontier Communications

Description

The internet provider Frontier has horrible internet service. My internet service drops all the time. I constantly have to unplug count to 10 and plug it in again. I have very few options in my area and this problem has just gotten worse over the last year. When you call the automated voice says that they know about the problem but do not know when it will be resolved. With covid I need to have good internet.

Ticket: # 4066566 - Sirius XM Radio

Date: 7/3/2020 6:05:40 PM

City/State/Zip: Stoughton, Wisconsin 53589

Company Complaining About: Sirius Xm

Description

I'm reporting Sirius to the FTC, FCC and BBB for illegal business practices, fraud and extortion when you try to cancel their service. They refuse to cancel, try charging outrageous late fees after contract expiration. If you complain about cost or their horrible customer service, they insist on offering service at a highly discounted rate. This is wrong in so many ways and they should be fined for doing this to people. It is especially horrible during this pandemic when we are out of work and cannot afford the non-essentials.

They cannot not legally renew your contract and charge your credit card without your approval, this is FRAUD!

Ticket: # 4066631 - Unwanted text messages

City/State/Zip: Garland, Texas 75042

Description

For a while before covid19 I was getting text messages about a property that I do not own. The texting has started again and no matter how many times I tell them they keep contacting me about property I do not own.

Ticket: # 4066655 - Optimum

Date: 7/3/2020 7:01:23 PM

City/State/Zip: Jackson, New Jersey 08527

Company Complaining About: Optimum

Description

They installed cable in my new apartment in may when I moved. First of all he was really rude and nasty to my family. Then he ran one wire in my room down the middle of my carpet punched through the joining wall into the living room and put a splitter on the wire through my bedroom closet to the bedroom next door and left. He did not hook up one single cable box or the modem or router he left them on the living room table with the remote controls not paired. My friend that helped me move hooked everything up so we could sleep. I tried calling optimum to complain only to find out they were still charging me for both apartments even though the old apartment was empty. It said free on demand through the covid lock down. That was false also I was charged \$5.99-\$6.99 for 5-6 movies in may. Called them multiple times to request to speak to a supervisor 3 months ago to be told they would call me later that evening three months later still no supervisor phone call plus wires strung across my walk way that have caused my elderly mother to fall twice. Then my modem wasn't working they said it's not theirs but it clearly says optimum on it plus I'm getting charged \$5 a month plus Ridiculous charges for news and sport channels I don't even have in my package but I'm required to pay taxes on them! That's insane plus being severely over charged for service my bill is \$158.99 a month and half the time the television freezes or the internet drops you but the offer they sent in the mail said tri pl \$89

Ticket: # 4066669 - Unequal internet availability in the neighborhood**Date:** 7/3/2020 7:11:20 PM**City/State/Zip:** Los Gatos, California 95033**Company Complaining About:** Frontier Communications

Description

In my street there are neighbors who get 90MB downstream speed while others (me among them) get 1MB downstream. I called several times to Frontier communications and asked them to allow me to enjoy the same service as my neighbors, but I only got answers "we can't do it". I know on one neighbor who faced same issue and submitted a complain here and suddenly was able to get 25M from them.

I think if there is a certain amount of bandwidth coming to the neighborhood switch, the internet provider should evenly spread it among equal right customers. Seems unreasonable and unfair to me one neighbor get 90M and one get 1M. I have 3 kids at my house which are entitled to get the same opportunities as other kids. In our days this means good speed internet especially due to Covid-19 which force the kids to learn from home using virtual meeting with teacher and class.

My phone number is (b) (6)

I reached out to Frontier via customer support, I reached out to the engineer in the field, to his manager but nobody was able to help me, where the solution is quite simple - my respected neighbors which get 90 should be lowered to 40 like rest of the neighbors and the extra 50 he get should be spread to 1M customer like me.

Thanks,

(b) (6)

Ticket: # 4066691 - Unauthorized Reoccurring Changes Made On Acct To Increase Monthly Billing Rate

Date: 7/3/2020 7:25:33 PM

City/State/Zip: Charlotte, North Carolina 28277

Company Complaining About: AT&T

Description

I called the AT&T customer service line 1-800-288-2020 on July 3rd, 2020 at 8:11 a.m. EST after reviewing my AT&T bill online as I received a notice that my new bill is available. A representative who stated his name was Morgan, answered my call. I proceeded to tell him why I was calling, which was due to my AGREED contract amount of \$49.99 for internet service was not reflecting the amount showing on the current bill. (SAME ISSUE in JUNE 2020...which was prior month!) Morgan goes on to say that he noticed a change made last month/June 2020 and that my monthly \$20 off promotion was added back to my account. I confirmed that yes, I called in June 2020 as well because I had the same issue with my bill showing \$99 new monthly rate. The rep in June added back because an employee REMOVED my 12 month \$20 off promotion. I was also told I would not have the issue going forward. Here it is July 2020 and I am of course having the same issue. Morgan goes in to explaining the break down of the July bill and says that the \$67 rate will only be for July and should go back to the normal rate going forward. I asked Morgan to confirm if he is stating I owe \$67 for the current bill? Morgan stated yes, you would have to pay this amount. I proceed to inform him I'm not paying \$67, my contract is for the \$49.99 I agreed upon. As I am speaking, Morgan cuts me off and begin to speak louder to over talk me.

At this point, I am no longer interested in speaking with Morgan, and I ask to speak to his manager. He goes on to say his manager is not available and the manager's name is Rene (After asking for the managers name and spelling numerous times). I then disconnected the call. The total time for this call was 12 minutes. I will not be silenced, spoken over, or disrespected at any level. This can not be the front line unit of AT&T.

I have a spending budget, we are living in a pandemic, working from home, dealing with greater issues and yet I was met with this extra level of stress for an issue I'm being told to deal with that I did not create.

I have included the bills for sent for April 2020 – July 2020 as supporting documents. I need to know if this issue will be corrected, or if the company is unwilling to correct this. Customer service disregarded me, and I was unable to speak to a manager to resolve this. The next step was for the consumer complaint to get an issue resolved that was out of my control. I've been a customer with AT&T for years, and had the same issue in 2019 but for a longer duration of time in which my services was disconnected for not paying fees AT&T was billing me for when I was on a set rate in a community plan. Therefore I filed a consumer complaint with the FCC. It is deceiving to quote a rate at sign up to later make changes to an account to bill for a higher rate. I did not authorize no added features, I do not know what that HBO Max is that was added to my internet plan that will more than likely result in a reason to increase my rate again. I did not make, neither did I authorize any changes to my account at all. Compare my bills starting with April 2020 and see the changes made.

Ticket: # 4066720 - Direct TV charges

Date: 7/3/2020 7:39:47 PM

City/State/Zip: Petaluma, California 94952

Company Complaining About: Directv

Description

I am currently being charged \$9.99 per month for a "Regional Sprots Fee". Originally this was to be able to see local sports live. However, due to the pandemic there are currently NO REGIONAL SPORTS to be viewed. I have asked Direct TV to remove this charge, but they refuse. This seems to be a charge for nothing and I believe should be waived until live regional sports can be viewed.

Ticket: # 4066850 - Att Home Phone customer service abandonment

Date: 7/3/2020 10:57:47 PM

City/State/Zip: Wellington, Florida 33414

Company Complaining About: AT&T

Description

The phone charge turn off fees began over one year ago during Hurricane Irma...I called to pay to make sure I had the phone during the hurricane - not...tured it ff and I had turn on fees after ll that was over.

Fast forward...got caught up with them and had a credit. The credit was promiced at \$250 plus and I did not get that credit.

Fast forward...COVID....Asked to make a payment plan ---- since I had no money --- NOPE, customer service was abomidable from 5-6 hour hold time a day to ultimately be disconnected.

Phone shut off over a month ago. Called office of the President for mobile since I had a person'sName. Her name was Antoinette. She stayed on the phone to make an appointment with me. The ppontment was at noon on Saturday.

The call never came and Antoinetter stopped tking my calls and I called dozens of times.

I haven;t ha a home phone in a long time and with hurrican season coming, i know they don't care about customers since they refuse to assist and credit appropriately.

I have always made good faith payments in addition to NEVER being contacted appropriately. If customer service isn't helping during a hurricane or pandemic --- they are NEVER going to help.

Please address this issue.

Ticket: # 4066887 - Re: [FCC Complaints] Re: Rate increases & Interruption of service

Date: 7/3/2020 11:46:56 PM

City/State/Zip: Van Nuys, California 91406

Company Complaining About: Spectrum

Description

This is a follow-up to your previous request (b) (6) "Rate increases & Interrupti..."

My issue has not been resolved or even considered by Spectrum. The company is very comfortable exploiting their monopoly and the circumstances of the pandemic to actually consider the issue brought up against the unjust price hikes of 20% as there seems to be no consequences to their unjust business practices. The response was very curt, thoughtless and dismissive. The claim that I'm paying "less than their standard rates" completely disregards the fact that the service I'm receiving is only at 25% speed of their "standard service", yet the service charge is 85% of their standard service. Once again, there was no acknowledgement of why prices were raised by 20% during a pandemic for services that are below their standard offering.

Thank you.

Subject: [FCC Complaints] Re: Rate increases & Interruption of service

Ticket: # 4066925 - Phones in prison broken complaint unresolved 30+ day

Date: 7/4/2020 2:12:10 AM

City/State/Zip: Dayton, Ohio 45405

Company Complaining About: Correct Solutions

Description

My husband is in a prison in Louisiana at Phelps Correctional Center located at 14925 Highway 27, Dequincy LA 70633. The phone company operating these phones is Correct Solutions and their phone number is 877-618-3516. Over a month ago I called to report that 3 of the 4 phones in my husband's dorm do not work at all, resulting in the inmates waiting several hours in line to use one phone. He's been in prison 2.5 years and those phones have never worked despite their numerous complaints. They gave me a ticket number. It's to my understanding they had 48 hours to complete the request. When I called back over a week later to see why they hadn't fixed the phones, they told me something completely different, as in they changed the reason for my complaint. I complained about the phones not working and they were reading back a complaint that was a completely different issue I had called in about. Then refused to update it. I emailed them later and was assured they would revert it back to addressing the phone problem in the prison. Last week my husband was moved to an entirely different dorm. This new dorm has 8 phones and none of them work at all, forcing inmates to go without contacting their family period, or risk sneaking to another part of the prison to make a call. During a time like the pandemic, it's important that these phones work so people can contact relatives. I called to check status on that ticket several times. Each time I was told they're still working on it. Each dorm has several phones. And the whole prison has phones that don't work. That prison was closed down from 2012-2015, and they haven't done any work to it since reopening. I apologize. I just checked my email and my original complaint was filed around May 4th. So almost 2 months now. I read the laws regarding them having 48 hours and they told me it doesn't apply to prisons even though it specifically states that it is a law pertaining to phones in prisons.

Ticket: # 4066934 - Att

Date: 7/4/2020 2:45:03 AM

City/State/Zip: Placerville, California 95667

Company Complaining About: AT&T

Description

I was laid off in March I was able to obtain an essential worker job and after att promised not to shut me off they did. I'm on a covid list not to be turned off. A representative was suppose to call me from the covid team they never did. They said the covid contract ended June 30. I called a week before to offer a payment first of July and pay every week and they said no they refused only if I paid the entire balance.

Ticket: # 4066953 - Re: Request received: Cybercrime

Date: 7/4/2020 4:54:51 AM

City/State/Zip: Philadelphia, Pennsylvania 19135

Company Complaining About: AT&T

Description

This is a follow-up to your previous request # (b) (6) "Cybercrime"

You really need to act on this complaint. The pandemic has forced a lot of people online and these jerks I keep complaining about are now conspiring to commit murder. It will not go as expected. If you want to save lives, it might not be my life you save. I have made complaints locally and that is a joke. Bring the boys with the toys and let's dispense some justice WHORAH? We are at the point of shooting fish in a barrel, just bring the equipment and this should be a confirm and convict mission. Quick, fast and in a hurry, the way it should be. Now do something about these jerks before somebody gets hurt. Thank you.

Ticket: # 4067026 - COX Media dragging their feet on fixing my entire apartment complex' internet speeds

Date: 7/4/2020 10:40:14 AM

City/State/Zip: Phoenix, Arizona 85006

Company Complaining About: Cox

Description

Called COX Media a week ago because I was getting download speeds as low as 0.8 Mbps. I was told the entire complex is having issues, but that an appointment is scheduled to fix our signal. When I asked about when this appointment is, I was told July 25th, a full month away. Many of us are working from home because of COVID-19 and we need access to the reliable internet (which we PAY FOR) to work and sustain our livelihoods. This needs to be expedited.

Company Complaining About: Way.com

Description

Way.com is a site for parking your when you go out of town I must of the time I use Global Global Parking but the place was full. I went to this site Way.com Parking I paid in advance back in March 2020. Now due to covid 19 I had to cancel my trip. I contact the company on July 2, 2020 and said that they would refund me my money and I did the cancel way in advance for refund my trip was not until Sept 1, 2020 to Arizona. They sent me an email July 3,2020 and asked do you want way buck or refund. I stated refund no here is a copy.

No, internal credit I would like an refund my money back, I was advised by my State Attorney General to report this and to FCC if this concern does not get address in a timely matter.

My trip was cancel due to Covid – 19 and do not know when I can use your credit towards any service on our platform (Parking, Movies, Dining, Activities and Events) because of Covid – 19.

Thanks

Ticket: # 4067076 - Sprint billed me after the sent me an email to return device

Date: 7/4/2020 12:06:18 PM

City/State/Zip: Lutherville, Maryland 21093

Company Complaining About: Sprint

Description

I am filling this informal complaint against Sprint for been misleading and contradictory between the email I received from them and the charges and response from their agents. This is for the following phone numbers (b) (6) 7.

I have been with Sprint since December 2018. Ever since I have been a loyal customer, never missed a payment. When I joined Sprint I was given three phones on an 18 lease. Two of the phones were LG G7 ThinQ, which I leased the on 12/26/18 at the time I switched to Sprint. According to what Sprint had advertised at that time, they were free for new customers. The third phone LG V40 ThinQ, which I leased on the next day 12/27/18 cost \$20 per billing cycle.

On 04/25/20 I received an email from Sprint to return my first 2 leased phone after 5/25/20 or pay for the balance of the phone as a one-time payment of \$198 or 6 monthly payment of \$33 for each phone. After I received this message I reached out to Sprint Customer service over the chat system on their website. The agent confirmed that I should return the phone if do not want to keep them after June 1.

This was during the Covid-19 lockdown period where there were a lot of job uncertainties. Aside from that, I had lost my Dad the previous month so financially I have not been a good position to incur any additional cost. Besides though the Sprint phones were great phones, they were CMDA version and could only be used on Sprint Network even if they were unlocked. I decided to return the Sprint phones and switch carriers to T-Mobile which I already had old phones that work with it. I cancelled my service with Sprint on 5/25/20 because my billing cycle ended on the 25th of each month. This included the 3rd phone as well because even though I did not receive an email specifically for that I taught the phone was leased the following day and will all have the same remaining lease payment left. Which is fine, I am willing to pay for the one month remain for that but not for the 2 LG G7 ThinQ that I received an email to return them. Sprint has deliberately gone back on the email that I received and their agent confirmed and now asking that I pay for 1-month charge on the phone.

When I returned the phone, Sprint sent me a bill of \$828.92 which I was told by Sprint customer service on chat that the amount was for the remaining balance of the phone. I would be credited once the phone is returned and received in excellent condition.

To return the phone on I had to wait for a Sprint Return Kit which I received about a week later. I placed all 3 phones in the Return Kit and dropped off a UPS store on 6/2/20. Sprint adjusted of the bill but only \$674.16. With a remaining balance due of \$154.76.

I reached out again to Sprint on chat and asked why the complete balance was not adjusted off. The agent told me it was because I had 1 month left of the phones. I informed the agent that I had received an email to return it after 5/25/20 and an agent also confirmed that. There was no attachment option in their chat client so I uploaded a print screen of the email at <https://prnt.sc> and shared it with the agent but she refused to look at it. She suggested I show the email to a manager at a Sprint Store. I went to to the Sprint store at Reisterstown Rd in Owings Mills but the manager said there is nothing she could do, I should call customer care.

This was becoming very frustrating to me because no one wanted to take ownership and look into this issue. I called customer care and the agent said I should not worry that the entire balance will be credited off in 3 business days. The interaction ID was i1(b) (6). On 6/30/20 I surprisingly

received an email from Sprint that I am still owing \$154.76. Apparently, the agent did not take care of it as he had promised. I immediately called Sprint again an agent claiming to be the manager called Arvie. The interaction ID is i1(b) (6) She was very unhelpful. Her whole message was that it was my fault and the bill was legitimate so she would not do anything about it. She kept finding excuses to justify the bill. For instance, when I mentioned that I only returned the phone after I received an email from Sprint to return it she said I received the email because I had cancelled my service. Which was completely false, I received the email on 4/25/20 and I cancelled my service on 5/25/20 which corresponded to information in the email. So I do not know how she came out with that justification. Even after given her the dates of the email and I think she found it in her system she still insisted that I was wrong to return the phones early and had to pay the balance. Another example was when I mentioned that it does not make sense for anyone to return a free phone to break a lease only to pay the balance of the phone. She said the phones were not free phones. This was also wrong. The 2 LG G7 ThinQ phones were free phones and I had never paid anything on them.

Sprint is clearly not playing nice and not trying to be fair to me. After sending me an email to return the phone, I did that to avoid any charges but they've gone back on their email. I took all precaution to avoid any avoidable cost because of my financial situation and that I did not want to keep a phone that tied me to one network. The phone could not even be easily given away as a gift unless the recipient used Sprint.

I am asking the FCC to kindly look into this unfair case and enforce fairness in this case.

Ticket: # 4067078 - LG G8X ThinQ

Date: 7/4/2020 12:13:48 PM

City/State/Zip: Chicago, Illinois 60617-1114

Company Complaining About: Sprint

Description

I'm a 10-year Sprint customer. On April 2, 2020, I purchased the above phone from Sprint due to the attractive promotion. Buy the phone, get a dual-screen plus a \$200 Visa Card. After eight weeks of not receiving the dual-screen, nor the gift card, I called Sprint on May 19, 2020 to inquire. That's when Sprint disclosed to me that I should go to the lgg8xoffer@admin.com to register. I did as instructed and received an email from LG stating that the promo had ended. Sprint became involved and stated that the promo didn't end until June 11, 2020. I've had several communications with Sprint and was informed if LG didn't honor the promotion, they would. A Sprint rep called me on July 3, 2020 as a follow-up to see if I had received the dual screen and gift card. I have not. Instead of Sprint honoring the promo as they stated they would, they now want me to make several more calls to LG, of which LG keeps stating the promo had ended, when Sprint was telling me that promo didn't end until June 11, 2020. I purchased the phone based on the promotion. As a consumer, baiting and switching isn't acceptable, and is illegal. Attached is my contract with Sprint when I purchased the phone, which doesn't give any mention of contacting LG's website to sign-up for the promo. Also, attached is LG's rules of the promo. Being the pandemic started during this time, LG should extend the promo. I need your assistance to get what was promised in the promotion.

Ticket: # 4067389 - Internet slowing down

Date: 7/5/2020 12:35:31 AM

City/State/Zip: Bell Gardens, California 90201

Company Complaining About: AT&T

Description

My internet with AT&T is continually disconnecting. This would never occur in the past and now it happens multiple times a day. We normally have about 5 devices connected and only 2 are streaming at the same time and one is browsing internet or checking emails. With this Covid Pandemic it is unacceptable that my internet continues to disconnect or slow down because I need realizable internet to work from home.

Ticket: # 4067390 - Intermittent Internet Service Not Being Resolved

Date: 7/5/2020 12:37:56 AM

City/State/Zip: La Mesa, New Mexico 88044

Company Complaining About: Centurylink

Description

Intermittent internet for last 3+ weeks. Contacted several times. Techs sent out problems not resolved. New Router sent and still disconnecting. Said router would be shipped overnight had to wait two + days. Notice when our service goes down all people with Centurylink go down at the same time as if they are throttling all of us in our area. Refuse to fix the problem even with calls to company almost daily. Same way we pay monthly even through covid we want reliable service. Currently working remotely and about to be fired because of internet issues that were not happening before.

Ticket: # 4067433 - COVID 19 Dat Cap Policy

Date: 7/5/2020 6:06:07 AM

City/State/Zip: Ann Arbor, Michigan 48104

Company Complaining About: Comcast

Description

America CARES? Really? Then why are the telecom giants enforcing hefty data caps during a global pandemic? WTF? Our family is working from home - now more then ever. We can't afford this and we won't stand for it... what are you gonna do about it? Huh?

Ticket: # 4067505 - Sports Surcharge

Date: 7/5/2020 11:39:38 AM

City/State/Zip: Knoxville, Tennessee 37922

Company Complaining About: Wow

Description

I noticed today when paying my cable bill that the "sports surcharge" fee was doubled from \$2.00 to \$4.00. My problem is that there has been no new sports available on cable television since the covid-19 shutdown. When I contacted my cable provider WOW the pretty much blew me off. It is really not fair to pay any sports surcharge when there is no college sports, mlb, nba or other sports programming.

Ticket: # 4067541 - Altice - overcharges and duplicate charges

Date: 7/5/2020 12:06:04 PM

City/State/Zip: Willis, Texas 77318

Company Complaining About: Altice Mobile

Description

I attempted to pay one month of service and I was charged for 2. When I requested a refund the company told me I can wait 60 days for the refund or put it toward my bill. This is COVID and I need my money however I told them to put it toward the bill. Then I was charged late fees during the Keep America Connect time. Now I asked for a week extension or payment plan and I was told not possible. However can a company that easily take my money then not extend a custody for their mistake during a time when our state is shutting down.

Ticket: # 4067556 - Cox Internet price gouging

Date: 7/5/2020 12:27:01 PM

City/State/Zip: Gloucester, Virginia 23061

Company Complaining About: Cox

Description

Contacted Cox Cable internet for inquiry in obtaining internet service to home residence. Customer Service Representative informed me that in order to provide service to my area, it would cost me in excess of \$15k. The county will not allow other internet providers to my area and Cox refuses to provide services to my area. Due to COVID-19, people are forced to work from home and without a reliable internet connection they are forced to do without or find very expensive alternatives. If the county will not allow other internet companies to provide service than Cox should provide service to every resident of the county.

Ticket: # 4067565 - Cablevision of Brookhaven charging a Monthly Regional Sports Fee of \$10.47

Date: 7/5/2020 12:33:44 PM

City/State/Zip: Bellport, New York 11713

Company Complaining About: Optimum

Description

Cablevision of Brookhaven New York Is charging a monthly Regional sports fee of \$10.47. However since the pandemic started there has been no regional sports.

I've contacted them and was told that there is no credit available.

This fee should not be charged and any agreement they have with regional sports teams for TV rights should not apply to me, since there are no sports available.

I'm looking for a credit for every month that there is/was no regional sports available for viewing.

Ticket: # 4067586 - Unable to upgrade phone line

Date: 7/5/2020 1:14:58 PM

City/State/Zip: Pleasanton, California 94588

Company Complaining About: Verizon Wireless

Description

I have been unable to upgrade a phone line because of their fraud prevention system not working. When they tried to call me to verify me, by phone blocked their call as spam, and I cannot uninstall this phone feature. I sent my driver's license to them but they never responded to it with the reference number I need. They said there's no other way to verify me other than going into a store, which I do not want to do due to Covid risks. I requested a supervisor, but no one responded. I've been a customer of Verizon's for over 25 years. There has to be a way to verify me as they have done many times before, without me going into a store and risking coronavirus.

Ticket: # 4067655 - Internet

Date: 7/5/2020 2:46:19 PM

City/State/Zip: Northport, New York 11768

Company Complaining About: Optimum

Description

Western Suffolk County experienced a series of electrical storms. Around 9p.m. Wednesday, July 1, 2020, I heard lightening strike. Although my land line and television continued to work, I lost my internet connection. I have tried to reach customer service for days and spent most of Friday, July 3, 2020 on the phone and on line in my office trying to get the issue resolved, or at least get an appointment. (My office nearby has FIOS wifi that was NOT interrupted). I was on hold Thursday July 2 for hours, until my phone battery died. I tried again on July 3 starting around 8a.m. and continuing until 7:30 pm. I was on chat that was disconnected or the "technician" on the other end vanished, never to return while trying to reach someone by phone at the same time. JUST TO GET THROUGH TO SOME ONE TO GET AN APPOINTMENT TOOK TWO DAYS. I followed the instructions for a call back, and then was disconnected. Each call, following the prompts for internet help, I'd hear the message to go on to optimum.net for helpful information. Do you have any idea how ridiculous and tedious that message is for a customer who has no internet?

Eventually I reached an actual human being who said someone would be here to fix it on July 8 between 10a.m. and 8p.m. That is a total of EIGHT DAYS without service. Aside from the general expectation to have internet service (my bill being over \$180.00 a month w/ basic cable), more immediate service with a narrower time is expected. That time frame means I cannot shower, leave, work, etc. for TEN HOURS. This is not the company service of years ago and it is a shame your new corporation places so little value on your customers' time.

My telephone callbacks for this one service date:

July 3 11:46 disconnected during call-July 8 appointment made

July 3 11:53 call back by someone who sounded like a tech manager--sympathetic to my plight, promised to change appointment to July 5 between 8-10 a.m. Said she was sorry I was having difficulty reaching anyone for service. I wrote appointment in my calendar. While on the phone with her I went to my house and checked modem. It appears to have been damaged--unplugging etc. lights were still out. She said you probably need a new modem. I assume appointment is made and am on my way to service being restored.

July 3 4:21 received a call back from Optimum. I am told my appointment is July 8 and they can't find a ticket for the July 5 service call. Then I am disconnected.

July 4 8:50 call disconnected when I answered phone

July 4 10:51 call disconnected during conversation

July 4 12:38 call back...announced but then waited 9 minutes to hear someone speak and nothing.

If you expect customers to resolve issues or make appointments and encourage them to use chat on line (which I was only able to do because my office has FIOS--I have never been able to use my cell phone at home, so have to pay a separate bill in addition to landline) chat techs should not vanish for 15-20 minutes as was my experience until I gave up. They provided NO help whatsoever. It is nearly

impossible to reach anyone to even make an appointment by phone. This would be understandable under circumstances such as Hurricane Sandy but ridiculous when there was no Island-wide catastrophe.

I manage a horse farm and most of my clients book appointments via Facebook after hours. I have been "attending" my church via Youtube since the coronavirus shut down churches. I was unable to do any of these things over the weekend and will be walking into a work week still hamstrung by no service, and with little surety I will get service on July 8.

When Altice purchased Cablevision/Optimum service plummeted (I have no cell service, intermittent wifi) and bills soared. Their customer service is a wall of obstacles.

Ticket: # 4067746 - VERY DISSATISFIED CUSTOMER**Date:** 7/5/2020 4:32:35 PM**City/State/Zip:** Mettawa, Illinois 60045**Company Complaining About:** AT&T

Description

I am EXTREMELY dissatisfied with the lack of customer service, follow through, and follow up, I have received from AT&T. I have spent countless hours on the phone, as well as in the store.

I think I called on 6/4 to inquire about phone plans. I have been a faithful customer of Verizon for 20+ years. I was looking to add a line for my daughter and wanted to shop around because I didn't feel Verizon was offering anything to add a line.

Again, I called to inquire. I NEVER would have done a switch over the phone, and I NEVER would have done this without talking to my husband first. I just called to inquire. The woman ASSURED me MULTIPLE times that ALL 4 phones would be for FREE. I could not believe this. I asked her REPEATEDLY. She laughed and said the calls were recorded. I told her I would talk to my husband and call back. She said I had 14 days to cancel. So with 4 FREE IPHONE 11s and the chance to still cancel, I agreed to switch. I was ASSURED that my bill would be about \$140/month for 30 months, and this would cover the 4 phones AND the service. Again, I told her I couldn't believe it. My kids were in the background so excited, and she laughed saying they would be so thrilled. We picked out colors, and I paid \$175 for the tax on all 4 phones. She said I didn't need to pay anything else now. We signed up for paperless and autopay and a new line, and all of that was why we were able to get ALL 4 phones for FREE.

After this conversation, there has been nothing but obstacles along the way. There was a delay with shipping the phones because I had to authorize with Verizon, and that was another phone call. Then, we got the phones, but they were all black. So I called and was told that I could go to a store and switch them out. So I went to the store, and they, let me tell you, did NOT want to help me. They wanted to charge me to switch them out. I told them to check the notes. It was in the notes, but for some reason, the phone rep did not put anything about "free." So, guess what? I had to call you guys. The store didn't. I was on the phone for about an hour. Finally, the store rep agreed to give us the colors we ordered. We were there at least another hour because the rep had to switch our sim cards. I thought this was crazy, but I waited patiently. He also told me what my old phones were worth if I wanted to trade them in.

Then, guess what, our phones were shut off, and I had NO way to communicate! We had to figure out how to back up our old phones and transfer the info to the new phones and were without cell service for the whole time. My husband was at work! All of a sudden, he had no cell. Awesome. None of this was told to us, either.

Again, back and forth, I have called and tried to get more information with our bill. We were told over and over that the initial bill looks super high, but that is not a bill, just wait. So I kept trying to confirm to make sure my bill was supposed to be what it was supposed to be.

My days and phone calls are blending together, so I am not exactly sure on the timeline, but then I went back to the store to turn in our old phones. It wasn't a trade-in. I was turning them in to get a credit off of my bill. Apparently, this is ANOTHER lie I was told because every person since has said that I could use it as a trade-in to get half off the phone. AGAIN, THIS WAS NOT WHAT I WAS TOLD. At the store, the rep told me not to turn them in there because I had gotten them from the phone, and there were different offers between the two. She didn't want me to not get what they were worth.

So... I called AGAIN and got confirmation about two weeks ago, that my phones were, indeed FREE, and she told me I could send in my old phones to use for credit toward my bill. So, silly me, I sent in my old phones! Now, I have NOTHING!!! THIS IS WHERE THE BAIT AND SWITCH PLAN REALLY GETS INTERESTING!

I then got my bill. So, I called. AGAIN. And AGAIN, knowing I had 14 days to cancel. The rep told me that I was 2 days past, and there was nothing that could be done. Awesome. She also told me all of the codes entered were half off, not free. Awesome. I told her half off and free sound NOTHING alike. There was NO way I could have misinterpreted that. The amount of apologies I have received are endless! So, she pretty much said there was nothing she could do. I told her to check the phone call. The woman I originally spoke told me calls were recorded for training purposes. I told her to speak to the woman/listen to the call. She said that was out of her jurisdiction, but she would inquire about it, ask them to listen to the call and/or speak to the rep who sold me the phones. But there was nothing else she could do. Awesome. By the way, no follow up. She did not call me back; I have heard NOTHING. Except a bunch of apologies... Awesome.

So, since then I have continued to call. I was told a supervisor would call me within the hour. Um.... still waiting for that phone call! I don't know what kind of business this is, but I have NEVER been treated this poorly. Not to mention ALL of the HOURS I have spent on hold, on the phone explaining the situation over and over. Not to mention all of the transfers that have been dropped, and NO ONE has called me back.

The supervisor said the same thing as the last person, and interesting enough, when she read back the notes, NOTHING was mentioned about the other supervisor, the one in the other area out of her jurisdiction, being asked to check the call! How can that be?!!! Again, LIED TO! Seriously?!!! So this woman assured me that she would follow up. And honestly, she did. After we got off the phone, she called me back and told me about her research and told me she would call me back in a few days to follow up. SHE HAS BEEN THE ONLY ONE TO FOLLOW UP ON ANYTHING WITH ME. I did tell her that and thank her.

Since then, I have continued to call. I called two days after I spoke to this last supervisor. The new supervisor could see in the notes the request to pull the call and reassured me it would take up to 72 hours. (72 hours would have been last Thursday night.) So I just called today, an additional 72+ hours later, and guess what. NOTHING!!!

So, that is the background in a nutshell.

1. I NEVER WOULD HAVE SWITCHED COMPANIES OVER THE PHONE WITHOUT AN EXCEPTIONAL DEAL.
2. IT'S DURING COVID 19. I DON'T HAVE EXTRA MONEY TO BE BUYING 4 IPHONE 11S!
3. I DIDN'T NEED 4 NEW PHONES. I NEEDED 1. ONE FOR MY DAUGHTER. WE HAD AN IPHONE 8 PLUS, AN IPHONE 8, AND AN IPHONE 6+ THAT WERE ALL IN GOOD WORKING CONDITION. WE NEEDED ONE NEW PHONE, AND WE DID NOT NEED AN IPHONE 11. WE WOULD HAVE GOTTEN A NEW PHONE, BUT IT DIDN'T NEED TO BE SOMETHING SO EXPENSIVE.
4. I NEVER WOULD HAVE AGREED TO PAYING HALF OF SOMETHING THAT I DON'T EVEN KNOW WHAT IT COSTS! I HAVE NO IDEA HOW MUCH THESE PHONES EVEN ARE!!! AGAIN, REFER TO POINT #2. I DON'T HAVE MONEY FOR THIS.
5. I NEVER WOULD HAVE SURRENDERED MY WORKING PHONES!!! NOT ONLY HAVE I BEEN LIED TO, I NO LONGER HAVE MY PHONES!

Ticket: # 4068026 - AT & T REFUSES TO PROVIDE SERVICE AND CUSTOMER SERVICE**Date:** 7/5/2020 10:41:33 PM**City/State/Zip:** Jamaica, New York 11433**Company Complaining About:** AT&T

Description

There are several issues with my AT AND T Prepaid Plan. When I opened the account, I should have been able to obtain 8 GB of data. The staff at the AT and T Jamaica office refused to provide this data. Instead, I was told I would only receive 250 MB of data. And, I was told I have to get pay for this service the day my account bill was due. Secondly, I have tried to change my password, because I do not remember the password. However, It took several hours to reach a Customer Service Rep over the phone, a couple months ago. Then, I was told I have to go to the Jamaica Rep who opened the account to change my password. Yet, the AT and T store in Jamaica has not been open since March, when the pandemic was declared. And, it is still not open. So, I cannot set up an account online, and the AT and T rep stated she could not help me over the phone. Today, my prepaid phone account was turned off because the bill was due yesterday. I paid my monthly plan bill today via a new debit card. The phone shows that the account was credited. Yet, the phone is not back on. When I called the 611 number from my cell phone, I used the automated system because I could not reach a live customer service representative. the automated system stated I have to contact the Jamaica AT and T office to change my password. So, eventhough I paid for the service, the phone company refuses to turn the phone back on. And, I need a replacement phone because one of my phones broke when it was dropped on the ground a few days ago. Yet, I cannot get a replacement phone since the Jamaica store is not open. I am asking for the following resolution: (1) allow me to change my password. Provide a way to do so. (2) Allow me to create an online account (3) provide a replacement phone (4) turn the service back on so I can still use my service.

Ticket: # 4068099 - Comcast wont cancel my service

Date: 7/6/2020 2:38:39 AM

City/State/Zip: Chickamauga, Georgia 30707

Company Complaining About: Comcast

Description

I called on April 16 or 17 i believe to cancel my service and the rep said he cancelled it for me and i wont have to pay early cancellation fee due to coronavirus. I checked my account over a month later and realized my service wasn't cancelled and i owed extra money from where i didn't know my service was still ongoing. Ive called multiple times to get this fixed but all they say is someone will call me back. Please help i don't have the money to pay for something that is comcast fault.

Ticket: # 4068125 - Unresolved internet issues with Comcast

Date: 7/6/2020 7:25:34 AM

City/State/Zip: West Palm Beach, Florida 33413

Company Complaining About: Comcast

Description

My internet service has been down since 06/28/20. I have had representatives at my house 4 times, two visits to replace routers (3 boxes), replace a cable from pole to house, bury the line they ran, only to still hve no service and limited communication. Unanswered calls by the techs and supervisors. And told different issue each time. Due to Covid 19. I need my internet for my job. I am never late in paying comcast and expect to have working service. Today is day 9 and nothing. They do not communicate and you have to continue to call and reach out to them.

Ticket: # 4068278 - Repeated attempts to gain internet access denied over a 10 year period

Date: 7/6/2020 9:46:18 AM

City/State/Zip: New Concord, Ohio 43762

Company Complaining About: Spectrum

Description

We have contacted several local internet providers to attempt to gain internet access by becoming a customer. Each time has gone a bit differently, but the outcome has been the same- we are denied service due to nonavailability despite showing coverage on their website or explaining that our neighbors have service. We have two professionals- who are now often working from home (possibly full-time in the fall) and a college student who was not able to stay at home during the Spring pandemic due to this issue- he may be forced to do the same this fall if this issue is not resolved. On our last attempt, we were told that we were just a few feet outside of the 500 feet requirement and that line needs to be run for us to receive internet. We have received conflicting options as how to resolve this concern, so we are filing this complaint.

Ticket: # 4068306 - BBVA USA Collections' Number is being Spoofed

Date: 7/6/2020 10:01:48 AM

City/State/Zip: Birmingham, Alabama 35233

Description

A fraudster(s) is spoofing BBVA's number, identifying himself as BBVA, and offering people COVID-19 debt relief. We found out because Collections began receiving calls from non-customers reporting this. We're receiving this information secondhand, we do not know the exact quest of the fraudster, but from the anecdotes provided by the callers, we assume it to be a. phishing for PII data or b. getting them to send money as some sort of payment.

We are updating BBVA's site to remind visitors to not provide personal information to anyone selling COVID-related services, hang up, and to return the call to a number found directly on our site.

Ticket: # 4068307 - Service COVID-19 billing

Ticket: # 4068400 - Re: [FCC Complaints] Re: Optimum not providing services I pay for

Date: 7/6/2020 10:36:34 AM

City/State/Zip: Howell, New Jersey 07753

Company Complaining About: Optimum

Description

This is a follow-up to your previous request # (b) (6) "Optimum not providing servi..."

To Whom it May Concern,

Hello, I continue to experience slow internet speed while paying full price for it. "Your provider is required to send you a written copy of its response." This hasn't happened yet! This may be the third or fourth complaint by me. My neighbors around me also sent in complaints. Optimum sends techs to our houses to pacify us knowing this can't be repaired without spending a ton of money which they won't do unless they are somehow forced to do it. A couple of the techs actually have told us the "node" we are on is overwhelmed and there is nothing they can do, while others bring in new modems/equipment that "will fix the problem". It never happens. We all have experienced very fast internet speeds for two or three days after the complaints and then it stops. The excuse is everyone is home now using the internet because of the pandemic when in reality it has been going on for years. There is a Facebook page in our town called "All around Ramtown", go to that page and search for internet speed, optimum cable or something like that and you'll find a lot of information about this issue. Thank You

Ticket: # 4068467 - Internet service - Optimum/Cablevision/Altice - Connecticut

Date: 7/6/2020 11:00:48 AM

City/State/Zip: Fairfield, Connecticut 06824

Company Complaining About: Optimum

Description

Our neighborhood (at least 3 streets, probably 50+ homes) has had very spotty internet and hours-long outages daily for the past month. Despite NUMEROUS calls to Optimum, if we get any response it is only to test our individual home systems. It is clearly an area-wide problem but no one is addressing it. Many people are working from home and literally cannot do so. We had no trouble with it in the first several months of the pandemic quarantine, but starting in early June it was terrible. What can we do??

Ticket: # 4068574 - Bundled service billing

Date: 7/6/2020 11:33:09 AM

City/State/Zip: Box Springs, Georgia 31801

Company Complaining About: Windstream Communications

Description

Consumers provider is Windstream for phone and internet. He was quoted \$20 per month for phone and \$50 per month for internet. Consumer states when Pandemic hit provider stopped auto pay. Consumer does not know why provider discontinued his Auto Pay. Consumer states provider has not given him credit for his last 2 months payments. Consumer paid \$122 this month and over \$100 last month. Provider is not showing his payments since Auto Pay stopped. Consumer states his monthly bill has gone up almost \$100 per month - total monthly bill is \$164.55. Consumer wants provider to return him to \$72 per month billing as agreed and show credit for the last 2 payments.

CTR 392-phone

Ticket: # 4068588 - Comcast taking advantage of pandemic by silently implementing data caps on consumers

Date: 7/6/2020 11:37:06 AM

City/State/Zip: Carol Stream, Illinois 60188

Company Complaining About: Comcast

Description

Comcast suspended its data caps for residential consumers at the beginning of the COVID-19 pandemic, which provided relief for many individuals such as myself who suddenly found themselves involuntarily working from home.

On July 1st, Comcast, without any direct warning or indication to its customers, re-implemented its data caps despite the rising number of cases in the country that are forcing many Americans to continue working from home. While they increased the data cap 20 percent from previous limits, the company also claims they saw a 30-60 percent increase in traffic, meaning the increased data caps don't cover the increased consumer usage brought on by work from home.

Unfortunately Comcast continues to be disingenuous in their raising of the data cap limit as a means of "relief" for customers by also reducing the number of courtesy months from two months to one month, meaning customers are hit with overage charges sooner than before the pandemic. Comcast also disabled their data usage tracking, meaning customers are suddenly liable for financial penalties for their increased usage while not being able to tell how much their usage increased due to COVID-19 work from home. Many customers working from home will be hit with overage warnings they had no idea were re-implemented while being hit with overage fees twice as fast as before. Comcast stands to make a decent amount of money off struggling Americans in the next few months from this change in policy.

Unfortunately Comcast is alone in our market in regards to internet providers who are reinstating their data caps as AT&T extended their pause on their data cap program for at least two more months. Furthermore, broadband is not a finite resource like water or electricity where usage costs make sense; Comcast has a responsibility to provide adequate capacity for all its customers, and data caps serve only to make Comcast more money off customers who have no choice but to work from home. The COVID-19 pandemic has shown that Comcast's network can handle increased usage, and that a data cap program that encourages customers to pay more for using a product is completely unnecessary for the sake of network improvement.

It is morally irresponsible and reprehensible for a company to take advantage of its customers during a global pandemic by silently charging more fees to individuals involuntarily working from home.

Ticket: # 4068675 - down again

Date: 7/6/2020 12:02:49 PM

City/State/Zip: Haines City, Florida 33844

Company Complaining About: Frontier Communications

Description

My DSL connection has been chronically down with frontier communications. Again this morning Internet is down you try calling them you go to an automated voice answering system that is so choppy you can't understand what it says. And then it disconnects you. I have tried their website and that is also non-functional. This is been a trouble but it's been reported to the FCC before, the answer is always will change the modem. They were bigger problems. They charge top dollar for poor service and being a regulated company they should be held accountable. The tale of them being disorganized because of COVID-19 is unacceptable. They're supposedly working from home if that's the case you should be able to reach somebody. This is been ongoing for months I need to get their act together or sell out to a company that can

Ticket: # 4068932 - Gouging Detroit Customers

Date: 7/6/2020 1:05:12 PM

City/State/Zip: Detroit, Michigan 48205

Company Complaining About: Comcast

Description

I reluctantly signed up with comcast/xfinity to be able to attend college online. They are the only company allowed in my area and I could not chose another company. I had to have access tot he internet for school, initally.

Noe due to COVID, I am forced to work from home at reduced hours,m due to a forced furlough at work. This made me try to reduce my bills as much as possible.

I know when I got the service, the agreed upon amount was \$19.99 plus a mandatory \$13.00 modem rental fee. I resigned to the \$33.00 per month. Today In checking to reduce my bills, I noticed that the monthly rate was increased to \$53.00 plus the manditory \$14.00 per monthly fee. They have been billing me this amount since March of 2020, with no notification of the increase, except the additional \$10.00 late fee, because what I was paying did not cover the full monthly fee. So basically since they decided to secretly raise my rate, the money I sent in did not cover my bill.

The monopoly created in Detroit that forces the citizens to pay the rates at the whim of Infinity must be changed. The costs is ridiculous , when there isn't any alternative supplier of internet service in the area.

Ticket: # 4068938 - Switch and Bait during COVID-19 now including Fraudulent Billing Notices

Date: 7/6/2020 1:07:33 PM

City/State/Zip: Lake Forest, California 92630

Company Complaining About: AT&T

Description

Case # 3981180 is bring out the worst in AT&T- a forensic accounting of my account is warrant immediately. Baited into a contract that I did not want, rescinded the contract, AT&T has there product back. I asked for bills for Nov, Dec, & Feb. Billing is fraudulent as it's indicating my monthly statement at current 52% increase due to new contract which was rescinded. I'm told I cannot go back to my lower monthly payment. So if you rescind a contract with AT& T they can charge you want they want ? Please have AT& T provide where in their contract is this listed.

Ticket: # 4068964 - Comcast internet issues

Date: 7/6/2020 1:13:54 PM

City/State/Zip: Battle Creek, Michigan 49014

Company Complaining About: Comcast

Description

Consumer is having internet issues with Comcast.

She has been on the phone for hours trying to get the service restored correctly, but it has not been.

She has had people at her home every few months for these issues.

Consumer called about the issue and was told no one would be coming to her home due to the pandemic.

She was offered a credit, but she doesn't want a credit, she wants the service to work.

Consumer has been given the run around about everything.

Consumer was told to go to another city to get a box, but won't send someone to her home to fix the equipment.

Consumer has been lied to and hung up on.

Consumer wants Comcast to address the issue and get the service working as it should be.

Ticket: # 4069017 - metered internet during pandemic

Date: 7/6/2020 1:25:26 PM

City/State/Zip: Browns Mills, New Jersey 08015

Company Complaining About: Verizon Wireless

Description

I have a verizon wireless hotspot for the internet because I have no other access to a hard wired system. I am on a metered system. It limits my use of the internet, especially video. When the Covid -19 pandemic started Verizon wireless lifted the limits. They have now reinstated the limits. It has cut me off from the outside world. I am on a zoning board, volunteer for CASA and another nonprofit. I would normally go to these places to conduct business. The locations are closed and everything is on Zoom. I can attend via phone but not video which is often needed. I have contacted Verizon wireless twice and been told to look at other plans...there is no other plan I can use. I feel at this time internet providers should lift their caps until this pandemic is over.

Ticket: # 4069096 - AT&T Services

Date: 7/6/2020 1:49:38 PM

City/State/Zip: Belton, Missouri 64012

Company Complaining About: AT&T

Description

- consumer stating that AT&T has been price gauging her even through the Pandemic.
- quoted a price and would raise her bill without notifying her.
- basic internet went from \$20 to \$40, which consumer agreed to the \$40 and then back charged her \$79.97 per month and locked her out of AT&T website.
- consumer must call in to AT&T every month and rep stated that if she would pay \$46 for internet only would credit her account and then told her it would be \$49 a month and she paid the \$46 and AT&T shut her off.
- consumer was not behind in her billing until COVID-19 when she lost her job and AT&T started to jack up her prices.
- consumer would like this issue resolved by having AT&T turn her services back on and to keep the agreement that was made for \$49.

Ticket: # 4069205 - Cancelling Verizon wireless service for my elderly mother

Date: 7/6/2020 2:11:12 PM

City/State/Zip: Henrico, Virginia 23233

Company Complaining About: Verizon Wireless

Description

Recently tried to pay bill and cancel my elderly mother's Verizon wireless service. She doesn't know her pin, so they wouldn't help, suggested I take her to Verizon store, not smart in a pandemic. Sent letter to Verizon wireless customer service on 6/9 , but no response. How do I end her service. It's elder abuse!

Ticket: # 4069379 - COVID-19 T-Mobile

Date: 7/6/2020 2:55:13 PM

City/State/Zip: Los Angeles, California 90047

Company Complaining About: T Mobile

Description

The consumer states that on June 18th they shut her service off and forced her to pay her bill.

The consumer states that they did it again on July 4th.

The consumer does not agree with what they did.

The consumer states that they never sent her a paper bill but yet they charged her for a paper bill.

The consumer needs her money back.

The consumer states that they signed the pledge to Keep Americans Connected.

The consumer states that they had no right to shut her service off and force her to make a payment.

The consumer states that they also charged her a restoration fee.

The consumer should not be paying a restoration fee for service that should NOT have been interrupted in the first place.

The consumer states that her plan is suppose to be no more than \$130.

She also spoke to a representative that told her she must agree to a payment plan, but the consumer has never even received a bill only threats to pay it.

The consumer needs credit to her account for the restoration fees, the paper bill she doesn't get, the shut off of her service and also the over pricing of her monthly bill that should not be more than \$130.

The consumer needs an explanation to what is going on.

The consumer has never made any international calls ever.

Ticket: # 4069985 - Paid Account

Date: 7/6/2020 5:15:28 PM

City/State/Zip: Harrisburg, Pennsylvania 17111

Company Complaining About: Verizon Wireless

Description

There is a paid Verizon collection account on my credit report that should have never been on there. I am in the NFL and travel a lot and know that I paid this account. Why would it still be on my credit report after I paid it? I need this account removed immediately or I will be forced to file a complaint with my Attorney General. One of the biggest things I am concerned about is how this account can be reported as an installment loan along with the date last active and date of last payment because they are not consistent between all three credit bureaus which brings into question the METRO-2 training and reporting that your company is not following per the Consumer Data Industry Association. I would expect that someone send me an email or letter to my address on file to advise me that this account will be deleted from my credit report. I am prepared to go to the media with this as this account was never in bad standing and then all of a sudden, during a global pandemic, your company decided to destroy my perfect credit with an account being reported as a collection, installment loan, charge off and being 120 days late all at the same time. That doesn't make any sense.

Company Complaining About: Iheart Radio

Description

After 3 years of calling iHeart Radio 103.5 FM, I finally won 2 concert tickets on 3/8/20 to Goo Goo Dolls performing at the Greek Theatre on 9/5/20. I have both email and voice mail messages confirming this from iHeart Radio. The concert was cancelled due to the corona virus. In lieu of this, I asked for a cash equivalent prize and was denied. Can you assist me? Thank you!

Ticket: # 4070023 - Service/COVID-19/ Service interruption/Abusive/Discriminatory/Billing

Date: 7/6/2020 5:31:55 PM

City/State/Zip: Kennesaw, Georgia 30144

Company Complaining About: AT&T

Description

Consumer states that on 06.22.2020 that on that day consumer receive an Email from AT&T to tell her that she paid the 25% of the current bill own and then they will pay the rest of her bill consumer thought that this was a fraud and she did not pay attention to it. The next day she receives a call from AT&T to tell her the same thing about the offer and that she was not required to call. Consumer called Uvers and they in fact had this promotion going on. Consumer did not have the full amount, but they told her that she had until the 29 to make the payment. Consumer called when she had the money and she made the payment adding her mobile phone into this promotion as well. Two days later her phone was interrupted due to a non-payment, she told them about the offered that was made to her, but they did not want to honor it. Consumer was abusive during the entire call, bullied, and denigrated by the whole consumer service department by the supervisor name Wanda Employee ID Georgia 699294. Consumer all she wanted was to be able to have a service reliable in the COVID-19 and they make her beg and cry on the phone. Consumer is not able to pay in all those payments agreements that they sign her into. Consumer wants the promotion to be honored.

City/State/Zip: Bowie, Maryland 20721

Company Complaining About: Comcast

Description

Had Comcast flex installed in October 2019.

Unable to pair voice remote with set up box. Tech was supposed to come and fix but never showed up.

Notified Comcast, then pandemic occurred. Was not able to view channels paid for during the pandemic restriction.

I had ask for a refund of those months paid for without the service and was refused by Comcast.

Ticket: # 4070319 - unable to disconnect service

Date: 7/6/2020 7:42:54 PM

City/State/Zip: Peachtree Corners, Georgia 30092

Company Complaining About: Spectrum

Description

Last September I set up cable service with Spectrum in Montgomery, AL when she moved into an assisted living facility. I am listed as the account owner and I pay the bill. My phone number and email address are on the account. She passed away from COVID last week. I spoke to 2 different people about disconnecting her service. Because her name was on the service address, they will not let me disconnect it. They both said someone would contact me within an hour or two with the required "paperwork". There should be no paperwork. It's in my name. I have not heard from anyone.

Ticket: # 4070343 - 35 days to cancel a service

Date: 7/6/2020 7:53:01 PM

City/State/Zip: Sarasota, Florida 34236

Company Complaining About: Comcast

Description

To summarize my complaint, I have tried to cancel my Comcast internet and tv service since June 1st, I could not reach a live person by phone, covid 19 was used as there excuse each time, My log in didn't work, and their offices are closed. I tried to connect with them through there site, but they do not give you the ability to speak with a live person or cancel. When I finally connected with a live person It took 1hr and 15min to get them to cancel my account. They seem to make the cancellation process complicated and confusing. Connecting with a live person has been difficult, I tried to update my Card on file prior to cancelling and finally gave up after running into the same problems. I would like my account cancelled as of 6/1/2020 not 6/26/2020.

Company Complaining About: Comcast

Description

To summarize my complaint, I have tried to cancel my Comcast internet and tv service since June 1st, I could not reach a live person by phone, covid 19 was used as there excuse each time, My log in didn't work, and their offices are closed. I tried to connect with them through there site, but they do not give you the ability to speak with a live person or cancel. When I finally connected with a live person It took 1hr and 15min to get them to cancel my account. They seem to make the cancellation process complicated and confusing. Connecting with a live person has been difficult, I tried to update my Card on file prior to cancelling and finally gave up after running into the same problems. I would like my account cancelled as of 6/1/2020 not 6/26/2020.

Ticket: # 4070367 - Consumer fraud

Date: 7/6/2020 8:29:48 PM

City/State/Zip: Shawano, Wisconsin 54166

Company Complaining About: Verizon Wireless

Description

Verizon wireless is charging me \$1560 per year for phone and internet and they dont provide hardly any coverage for the area of zip code 54166. I have complained to them many times before the pandemic and received no results. Since the pandemic, their coverage has become markedly worse and they wont even answer phone calls for tech support. Verizon seems to be more concerned with getting people in big cities with good 4 G coverage, 5G coverage, then they are about getting people in marginal areas a solid 4G signal. I have dropped phone calls, data outages for days at a time. 6 to 15 hours to send txt messages. Why do i have to beg my neighbor for his wi-fi password when i am paying for unlimited internet from verizon. This is consumer fraud at its worst.

Ticket: # 4070397 - Severe service disruption from Comcast

Date: 7/6/2020 8:51:05 PM

City/State/Zip: Downingtown, Pennsylvania 19335

Company Complaining About: Comcast

Description

I am existing customer of Comcast, Account Number: (b) (6)

For the last 3-4 months, we have been experiencing severe service outage and disruption in our Comcast internet services, which is significantly impacting our ability to perform business activities. Due to covid-19 situation, we have been working from home continuously and a stable, reliable internet service is critical to run our work. We contacted Comcast to complain about a series of outages that took place in our area since March and requested to either refund or reimburse for the internet services. We received no help from Comcast when contacted. Since we expect Comcast to provide 100% service continuity I would ask the company to refund/reimburse for the internet part of the service fees we had paid to Comcast since march. Comcast has reports on the number and duration of outages that took place in our service location, the latest being on Mon, July 6th from 9am till 12pm.

Ticket: # 4070561 - Optimum Not Providing Services

Date: 7/6/2020 11:31:46 PM

City/State/Zip: Brooklyn, New York 11207

Company Complaining About: Optimum

Description

I moved into my complex a week and a half ago- I inquired a month ago if services would be able to be done at my new residence. They said yes. I have now had 4 or 5 technicians come to my apartment, say something is wrong with the wiring and then refer me to their supervisors. No one has come out and installed a working internet line now for a month. I cannot be without internet - we are in a pandemic and I need to work from home.

Ticket: # 4070579 - MY MOBILE NUMBER IS CALLING MY VOICEMAIL

Date: 7/6/2020 11:55:51 PM

City/State/Zip: Mahwah, New Jersey 07430

Description

I get an average of 15 calls a day of my mobile phone number calling my voicemail. I only picked up once in curiosity and I heard the disconnect sound. I have not picked up any calls since on the advice of my husband. If I block my own number, I do not know what will happen, will I get my calls, will I have deleted my number?

I am unsure if I can visit my carrier(Verizon) because of Covid-19 and need to have this taken care of ASAP as it is very frustrating.

Ticket: # 4070589 - Att

Date: 7/7/2020 12:30:15 AM

City/State/Zip: Howe, Texas 75459

Company Complaining About: AT&T

Description

Bunch of lies. I was affected by the COVID-19 was out of work for two months I told AT&T this. AT&T said sure will work with you. And so all my accounts are paid a little bit here little bit there every time I have money to pay my bill. And so today my phone got cut off again which isn't the first time my phone has been cut off by AT&T. Once a week they cut my phone off and once a week I would have to go into an AT&T store to call AT&T. If AT&T says that they'll help customers through the COVID-19 process and they retract it without telling customers that you're going back to normal and that's just wrong. One guy told me that my account was a Bandan even though the Young ladies at AT&T said that it's not possible that my account was a Bandan. One lady tried to get me to pay for July even though I have a text on my phone that was sent Thursday of July at zero 752 stating that my bill is due on July 18. AT&T wouldn't even turn on my phone for two minutes so I can transfer money so I can pay my bill they've done it before so why couldn't they do it now.

Ticket: # 4070598 - Terrible service with Suddenlink

Date: 7/7/2020 12:46:51 AM

City/State/Zip: Canyon, Texas 79015

Company Complaining About: Sudden Link

Description

I've had suddenlink for internet for many years. When I moved into my place in Feb 2019, I started having massive issues, where my net blinks multiple times a day, disrupting my service ALL THE TIME. I've called I don't know how many times, I've had techs out several times, they replaced the box and then I ended up getting my own with no change. This became a serious issue when covid hit because I was working from home and both my kids were doing school at home. Most of the time when I call they just reset my box from their end (which does nothing) and otherwise just argue with me. Techs typically tell me whatever was xyz problem and that never solves it either. Getting my own equipment didn't solve it. I can't do work, school, or even just enjoy a game or tv because my net goes out every 20 mins or so on average (sometimes more frequently, sometimes less, but definitely consistently). I never had an issue with suddenlink until I moved here, and now I don't get my stuff fixed and they're almost always rude on the phone.

Ticket: # 4070640 - Frontier

Date: 7/7/2020 5:31:24 AM

City/State/Zip: Redondo Beach, California 90278

Company Complaining About: Frontier Communications

Description

Frontier's service is very poor. My internet drops all the time. Now it's not working again. The bill has increased to over \$170 a month. When I called, the representative had to nerve to tell me to pay \$300 more a month for adequate service. This is frustrating as I have to work from home during the pandemic, so their poor service is affecting my income as well. Please look into their specious practices.

Ticket: # 4070722 - Sprint cell phone suspensions

Date: 7/7/2020 8:44:35 AM

City/State/Zip: Bradenton, Florida 34203

Company Complaining About: Sprint

Description

July 1st sprint demanded payment from months prior of covid-19 help. I was told if we had hardships from March to June the service would stay on. I kept in contact, I asked questions. July 1st hit, and it was pay 20% or we shut you off, and that's what has happened. I, along with many others, are still affected by Covid & are trying to catch up. It doesn't help that sprint is demanding payment after racking up our monthly bill from March to June because we couldn't pay due to the Covid hardship. I've been with sprint for 11 years. This isn't right.

Ticket: # 4070791 - T-Mobile COVID-19 Keep America Connected

Date: 7/7/2020 9:14:41 AM

City/State/Zip: New York, New York 10029

Company Complaining About: T Mobile

Description

The consumer states that he has cell phone service with T-Mobile.

The consumer states that he was told he has to pay over \$1,800 to get his services back on.

They also told him that he doesn't have a code to get his service back on.

On July 5th the consumer had no service.

The consumer is struggling with COVID-19 going on and you guys continue to shut peoples service off.

The consumer needs time to get back up and having phone service during all of this is important.

The consumer needs his service back on.

CTR-415

Ticket: # 4070805 - Optimum complaint

Date: 7/7/2020 9:21:01 AM

City/State/Zip: Edison, New Jersey 08817

Company Complaining About: Optimum

Description

On July 7, 2020 at 8:19am, Customer Service Rep Augustine was rude, argumentative and verbally abusive. He kept talking over me and repeating that Cablevision is a business and I should be offended for asking for free handouts. He repeated several times that I should be offended for asking for free handouts when I didn't ask for anything free. I pay Cablevision close to \$200 monthly and have never been late on a payment. I was calling to see why the took channel 130 away when i had it last week. He told me it would be an additional charge. I asked if there was anything they could do as I have been a loyal member and paying on time even through the pandemic and while im on unemployment, he said no and that Cablevision is a business and accused me of looking for free handouts. I felt very insulted and offended by his tone and comments. He was argumentative and even after I stopped talking he had to get the last word that Cablevision is a business and then kept me on hold after I requested to speak with a supervisor who he said would tell me the same thing he said. He was very abusive on this call.

Ticket: # 4070878 - Optimum Internet No Availability

Date: 7/7/2020 9:54:47 AM

City/State/Zip: Norwalk, Connecticut 06853

Company Complaining About: Optimum

Description

The consumer has internet service with Optimum.

The consumer states that he has been without internet the last 2 days.

The consumer needs his service back on.

The consumer states that in the past he has had issues like this.

The consumer and his wife are working from home and its costing them their paychecks during COVID-19.

The consumer states that he needs his wires replaced since a technician came out and told him the issue is in his wires.

They told him they had 7-14 days to get the wiring done and they have yet to do anything.

The consumer states that he needs the wires replaced as soon as possible and credit for the days he is going without service and his service back on.

CTR-415

Ticket: # 4070985 - Unable to cancel Internet service

Date: 7/7/2020 10:31:00 AM

City/State/Zip: Hewlett, New York 11557

Company Complaining About: Verizon

Description

I have been trying to cancel my internet subscription with Verizon for days, I called Verizon Fios twice, was on hold for over an hour both times before hanging up. Then I contacted Verizon using the Chat feature on their website and was told that I cannot cancel my account through chat and I have to call the number again. Then I completed an online form to have Verizon call me. A gentleman called me and when I told him that I want to cancel my service he said that he is having trouble with his system and will have to call me back. I gave him my mobile number and was promised a call back within 10 minutes. That was 15 hours ago. To test if this issue was COVID related and the impact it has on Verizon's staffing, I tried calling again but instead selected the option for sales to subscribe to a new service instead of customer service. I got someone on the phone in less than a minute. She told me that she cannot cancel my account and need to call Customer Service again. Verizon is clearly making it very difficult to cancel a service.

Ticket: # 4071064 - Spectrum Business Fiber Internet - COVID-19 response

Date: 7/7/2020 10:56:07 AM

City/State/Zip: New York, New York 10011

Company Complaining About: Spectrum

Description

Hi, reaching out because my firm is unable to work in our offices (NYC and LA), two of the most heavily impacted areas by COVID-19.

I have spent months trying to work with spectrum to suspend our service. Shut off our internet and pick back up once we are back. They have provided 0 support and are not willing to work with us.

Ticket: # 4071172 - Broadband High Speed Internet Service Availability

Date: 7/7/2020 11:27:31 AM

City/State/Zip: Saint Johns, Florida 32259

Company Complaining About: AT&T

Description

I am a physician and desperately need broadband high speed internet service at home, to continue medical services/Telehealth, especially due to COVID-19 pandemic and also for online studies of the children. Current DSL service from AT&T is not supporting these services.

Ticket: # 4071307 - Bundled issues

Date: 7/7/2020 12:04:11 PM

City/State/Zip: Harrison, New Jersey 07219

Company Complaining About: Comcast

Description

Consumer used to have Verizon Fios bundle.

Consumer changed back to Comcast.

It took them 10 months to address an issue.

They have been having issues with every single service.

Consumer did file a complaint with the board of utilities.

Consumer claims Comcast was at her home 4 times.

Consumer told them she needed a modem upstairs because she works from home.

Consumer's system cannot handle her working from home and now she has to go into the office during COVID-19.

Consumer was told she would get a credit of \$100 for the service issues over 10 months.

Consumer always pays her bills on time and should be provided better service and a better credit.

Consumer was without TV on Sunday due to a technician error.

Consumer wants a credit for the entire bill over the past 10 months due to terrible service.

CTR404-phone

Ticket: # 4071598 - Billing issues

Date: 7/7/2020 1:00:09 PM

City/State/Zip: Denver, Colorado 80222

Company Complaining About: Sprint

Description

Due to covid Sprint has said they would work with people to keep phones on in emails. SEVERAL times they have turned off my phone going against the covid 19 standards they presented. This company continuously bullies customers who are having a hard time paying for there phone. They set up billing payment arrangements with extensions then go against them. I was schedule to make a payment on July 14th and its July 7th and they turned off the usage of my phone. Again going against their commitment to their covid guidelines. This has happens at least three times.

Ticket: # 4071630 - refund to Credit Card after technician took the router/modem and charged us

Date: 7/7/2020 1:07:32 PM

City/State/Zip: Fair Lawn, New Jersey 07410

Company Complaining About: Optimum

Description

In April we changed accounts with Optimum to cancel cable and only have internet through Altice. Due to COVID-19, the local office was closed and unable to return the equipment. The technician who came out to do the work took the devices. Optimum still charged us the \$100. After 6-7 phone calls still unable to get money back to the Credit Card. They say they cant refund to the acct. number as it was subsequently closed. I have tried to get supervisor and with multiple times saying someone would call me back they did not. If they did, the same excuses and forms needing to be filled out. I have been dealing with this since April! Please help. Thank you.

Ticket: # 4071843 - Lack of High Speed Internet

Date: 7/7/2020 1:56:15 PM

City/State/Zip: Delevan, New York 14042

Company Complaining About: Verizon

Description

As an educator and parent, I am finding it hard to virtually learn and teach during this pandemic. I have been promised for years that high speed is coming, it's two miles up and down our road.

Ticket: # 4071931 - Verizon Wireless

Date: 7/7/2020 2:14:00 PM

City/State/Zip: Goochland, Virginia 23063

Company Complaining About: Verizon Wireless

Description

Since COVID I have been working from home which uses a lot of data. Although I have the Verizon Wireless "Unlimited" plan, I am going over each month and in order to continue working I have to pay \$35 for a "Data Boost." But that doesn't fix the problem. You then have to spend another 4 to 6 hours on the phone with them to get them to turn the throttle off. I have gone through this March, April, May, June and now July. Please help this is horrible as we have no other internet options other than Verizon Wireless.

Ticket: # 4071936 - Unwanted spoof scam call

Date: 7/7/2020 2:14:43 PM

City/State/Zip: Manassas, Virginia 20108

Description

This scam call came in from a Canadian number today 07/07/2020 at 2:01pm US EASTCOAST time. The number is 905-664-5846. It's malicious and unwarranted as well as terroristic. It seems to have been placed in Stoney Creek, Ontario, Canada. Please note that it threatens to freeze my SSN, this threat was received as a phone call to my cellphone. Please catch these criminals as this is unacceptable behavior with or without COVID-19.

Ticket: # 4072155 - Extremely poor internet and phone service

Date: 7/7/2020 3:07:31 PM

City/State/Zip: Hawthorne, New York 10532

Company Complaining About: Optimum

Description

We have had extremely poor internet and phone service with optimum. This has been going on for months. We finally had an appointment for today and they did not show up. They appeared to have canceled our appointment because on their end they think it was fixed. However we have absolutely no service and have not had it for days. They are now giving us an appointment for two days from now meaning we will continue to have no service until then. Our TV also goes in and out. They have also raised our bill by \$15 and we have no explanation for this. We can't reach billing because we are continuously disconnected. We now have to wait another two days for the next appointment even though they cancelled the one we had for today without our knowledge. I am working from home on account of COVID. I need my internet back to do this. They have admitted to us that our box is old and in need of an upgrade. My entire neighborhood also had an outage this weekend which is most likely contributing to this. Their service has been horrendous yet we pay quite a lot for the service. Please look into this since they need to be held accountable.

Ticket: # 4072169 - Unfair

Date: 7/7/2020 3:10:31 PM

City/State/Zip: Raleigh, North Carolina 27614

Company Complaining About: AT&T

Description

I don't understand why can I make a payment plan ?

Ticket: # 4072208 - AT&T and Ebay Posing Scammers

Date: 7/7/2020 3:16:44 PM

City/State/Zip: Irving, Texas 75063

Company Complaining About: At&t, Directv

Description

We were looking for a bundled rate for our AT&T services and DirecTV and had several hours of phone calls with actual AT&T/DirecTV agents starting July 1. The scam callers left a voicemail posing as AT&T/DirecTV and offered a bundled rate. When we called back, they gave us a discounted bundle but asked us to purchase an Ebay gift card, load it with the amount equal to a 3-month advance on billing (they said because of COVID, they were taking payment in blocks), and call a separate AT&T billing number that they provided to make the payment to, with an authorization code and extension number. After we did not do this, they called all of our numbers (four mobile phones) constantly. After blocking their numbers, they called with No Caller ID and Unknown, which we cannot block.

Ticket: # 4072236 - TDS

Date: 7/7/2020 3:23:11 PM

City/State/Zip: Sheboygan, Wisconsin 53083

Company Complaining About: Tds

Description

I live, and thanks to COVID, usually work, in the Town of Mosel, in Sheboygan County, WI., which is a TDS-designated "Speed Restricted Area". We have ONE internet provider available, and town residents are struggling with antiquated service, especially since the onset of the pandemic and its attendant self-quarantining. TDS tells us that they have no plans to ever upgrade from what they have available now. It was suggested that if we have a problem with this, that we contact the FCC. So here I am, advocating for myself and my neighbors, Town of Mosel residents - what do we need to do to get ANY sort of decent, workable service in our area?? It seems that rural broadband issues have been addressed in many areas, but we are somehow outside of the 'lucky' zones. Thank you

Ticket: # 4072251 - Verizon Billing

Date: 7/7/2020 3:28:42 PM

City/State/Zip: Calverton, New York 11933

Company Complaining About: Verizon

Description

The consumer states that since COVID-19 her parents have been having issues with Verizon landline so she had to cancel service with them.

The consumer states they switched to Optimum but yet Verizon keeps charging her parents.

The consumer states that Verizon keeps charging them for services they are not receiving any more.

The consumer has been calling Verizon and they say they understand and will notate it to stop billing her.

The consumer continues to receive bills.

CTR-415

Ticket: # 4072360 - Consistent internet issue with Optimum/Altice

Date: 7/7/2020 3:54:34 PM

City/State/Zip: Old Westbury, New York 11568

Company Complaining About: Optimum

Description

Four months ago, we moved into an area that Optimum is the only service provider. Since then, we've had more days than not where the internet was either completely down or was not working during business hours. With two doctors working through the pandemic and two students in the household, this put a huge strain on our ability to complete our work. Optimum has given a variety of reasons why the internet is not working and has come in several times to replace or fix cables and equipment. We have contacted every internet provider in the area to change our service, but they have stated they do not provide service to our house.

Ticket: # 4072464 - Charger/text message from carrier Issues

Date: 7/7/2020 4:18:05 PM

City/State/Zip: Coral Springs, Florida 33071

Company Complaining About: AT&T

Description

Consumer said he has been trying to call AT&T Mobility and cannot reach anyone

Consumer is trying to reach Scott White, with the Office of the President

Consumer has a problem with his cell phone

Consumer said he went to the manufacture store and they are all closed due to Covid-19

Consumer called again today and still nothing

Consumer said he is having issues with his charger, but not sure if it's the cable or the cube that plugs into the wall

Consumer called Apple Care and told them all the stores are closed and he was told about a repair center (best buy)

Consumer said he is still receiving text messages about if he does not pay his bill it would be disconnected

Consumer states this was all taken care of, so why is he still getting the texts

Consumer just wants AT&T to send him a replacement charger, and stop sending him and his wife text about his billing being disconnected

CTR402

Ticket: # 4072635 - Regional Sports fee charges

Date: 7/7/2020 5:01:52 PM

City/State/Zip: Victorville, California 92392

Company Complaining About: AT&T

Description

Att/Directv satellite company is charging monthly fee for Regional Sports Programming which has not happened since Mid March due to pandemic shut down on all sports league play including college level. This fee is based upon zip code area of which I am charged \$9.99 per mo. As a loyal customer in good standing for over 20 years I expected to get a rebate for these fees paid for previous 4 mos. I was told I would have to cancel my programming package not to get charged for the fee. I was not requesting to delete the programming when sports returns but to be credited for this period of non programming. Being charged the fee at this time is fraud. I am aware all cable/satellite companies are doing the same. The Attorney General in states of NY and Mass. have already weighed in on the issue, stating customers need to be credited at this time. Regional Sports Networks need to renegotiate their contracts with the companies but this is not the responsibility of the customers they service.

Ticket: # 4072693 - Internet speed availability

Date: 7/7/2020 5:19:10 PM

City/State/Zip: Wapwallopen, Pennsylvania 18660

Company Complaining About: Frontier Communications

Description

Back in late March/early April 2020, I contacted Frontier to find out about getting a higher speed internet connection than the current one I have which is 3 mbps because it is too slow for what I need to do. Because of COVID-19, I was forced to work from home earlier than expected. The rep told me that there are several other packages available to explore with higher internet speeds but would require some rewiring in my home and were not sending out technicians at the time due to COVID-19. I waited until the state was in the green phase and called Frontier again on 6/22/20. The rep I spoke with then informed me that we already have the fastest internet speed available. Online they boast of having internet speeds of 6 to 115 mbps. I need faster speed than 3 mbps to be able to do my job efficiently online and find it difficult to believe that in this day and age, only 3 mbps is available to me. The phone/internet bill is in my husband's name, Michael F Rospendowski.

Ticket: # 4072815 - billed for phone and internet after I cancelled the account

Date: 7/7/2020 6:02:02 PM

City/State/Zip: Purcellville, Virginia 20132

Company Complaining About: Verizon

Description

I transferred (due to slow internet speeds) to Comcast on June 26 but I have been billed \$78.38 for phone and internet service from June 28 to July 27. When I called to make it clear that the account had been closed, I was transferred to a different office. Then I spent 1 hour 40 minutes on hold and the call was never answered (their phone closing time occurred). I also wanted to know how to return the internet router and they could not answer this question. My bill was on autopay through American Express and there is no way for me to prevent that being withdrawn around July 10. Money is tight during coronavirus and I don't want to pay for an extra month and await more time for a refund. They have a long history of extremely delayed phone waits....

Ticket: # 4072817 - Premium price for piss poor service.

Date: 7/7/2020 6:02:32 PM

City/State/Zip: Kingwood, Texas 77339

Company Complaining About: Sudden Link

Description

contacted my provider to cancel a transfer of service due to covid-19 rep confirmed transfer was cancelled. On the morning of 7/7/2020 my service was disconnected. I spoke with 12 reps beginning @8am being transferred in circles, left on hold unattended for 30 minutes or greater throughout the day. Each time I'm transferred I have to explain myself to the new rep or I'm dropped into a queue. Suddenlink has a monopoly over Kingwood, TX that should be lifted. Their internet service is hit or miss and their customer service is always a miss. Something must be done to remove them as our only cable/internet provider.

Ticket: # 4072879 - Verizon Overage Charges**Date:** 7/7/2020 6:24:04 PM**City/State/Zip:** Reno, Nevada 89519**Company Complaining About:** Verizon

Description

Verizon provided false advertisement by utilizing COVID-19 to blanket unlimited voice for all accounts. This ability proves that Verizon can easily update older plans that are paying SUBSTANTIALLY HIGHER amounts of money to unlimited voice and text. It is malicious on part of verizon to consistently inform customers like myself that "the reason it cannot be done is because of programming code, we just cant let you keep your grandfathered unlimited data plan AND change your voice plan to unlimited." As a result of their malicious lie and false advertisement I incurred 80 minutes of OVERAGE which will cost me roughly \$50 additional one time cost all of which was avoidable of Verizon had any decent customer service skills and simply updated the GUDP plan to unlimited voice like 99.9% of their other monthly services.

Ticket: # 4072943 - ATT Wireless

Date: 7/7/2020 6:52:59 PM

City/State/Zip: Greens Fork, Indiana 47345

Company Complaining About: AT&T

Description

I am unable to access my router. The only way to access is through visiting <http://att.wirelessinternet>, and this page has not loaded for me since May 19, 2020.

Because of this, I am not able to control the wifi usage in my house nor troubleshoot connectivity issues. I have been working from home due to Covid and this has interfered with my ability to do so.

I have contacted ATT on 3 separate occasions and I have reached no resolution. They have attempted nothing. Two cases have been opened, but I have never received a response. I speak to front end reps who promise the IT team will contact me, and the IT team never contacts me, although they leave case notes that state otherwise.

The first time I called them, May 27th, I told them to send case updates to an email. Instead, they called the number assigned to the account (which is used only for internet and I mentioned this on the call). The second time, June 30, I provided a phone number. No one ever called me back. The third time was today, July 7th, and I was told my case would be open until July 21st.

This is unacceptable. I already pay way too much for the horrible connection I have, and I am unable to mitigate this because the company is not providing the access I need.

Ticket: # 4073034 - At&t takes advantage of Senior/AARP Members during COVID19

Date: 7/7/2020 7:38:57 PM

City/State/Zip: Broadview, Illinois 60155

Company Complaining About: AT&T

Description

Mother and Father (Seniors and AARP Members) and I have recently been taken advantage of by AT&T. I have attached the complaint letter that I've recently sent AT&T about the issue with sale of extra services including my monthly bill. I have also called AARP and explained to the CSR that my parents have been taken advantage and was inform they want nothing to do with it and that I should contact AT&T. Additionally I have contact both Attorney General offices for Illinois and was informed there's nothing they can do either. I have also, followed up with AT&T and nothing has been initiated. I'm hoping the reaching out to Investigations that something could be brought to light as this is involving COVID-19 and sales tactics used to cause Seniors being taken advantage of.

Ticket: # 4073182 - Fox news

Fox news is spreading harmful misinformation about the coronavirus.

Ticket: # 4073211 - Iphone security

Date: 7/7/2020 9:50:29 PM

City/State/Zip: Aurora, Colorado 80013

Company Complaining About: AT&T

Description

I am not able to disable the two factor authentication system on my Iphone because I can't login. I called AT&T and was on hold for about 30 minutes, hung up and was put back on hold for about another 20 minutes. Then a woman with a thick accent answered and was not able to help me but wanted to sell me another phone. Then she tried to transfer me but all I got was an automated that refused to give me to a live person. I'm very tired of this poor service. The Covid19 disaster is not an excuse for poor customer service. I'm still paying my bill and they have not reduced the cost to compensate for their extremely poor customer service. I intend to stop paying my bill and go to another company. Their customer service has been very bad and hard to get for 3-4 months now. They've gotten as bad as Comcast has always been. This is NOT acceptable!! I want a live technical support person to call me and NOT transfer me to someone else. I need someone to turn off the two factor authentication on my phone and Ipad. Both get service through AT&T.

They then billed us for service calls and equipment fees, and also didn't disconnect service when we requested.

Ticket: # 4073363 - Predatory Policy (Comcast)**Date:** 7/8/2020 1:06:21 AM**City/State/Zip:** Pearl, Mississippi 39208**Company Complaining About:** Comcast

Description

I had bundled services with Comcast (internet, home security, and cable) when I experienced a house fire on March 6, 2019. I contacted customer service to make notification of the loss and suspend services temporarily. The temporary hold was not applied on my account for some time and I continued to receive a full bill for all services even though my home was uninhabitable. I contacted customer service a few more times and when they placed the hold, it still entailed paying a hefty amount of money for what they deemed to be a "seasonal hold" on my account. I told them that I was unsure of when I would be able to get back in my home. This resulted in a premature cancellation that cost several hundred dollars. Furthermore, I was charged for equipment that was destroyed; which I had already informed them of in the previous contacts. Again, I had to make several contacts to have the charges removed for the damaged equipment. It is a unfair policy that Comcast will only allow their consumer to suspend services temporarily without a fee if it is related to a natural disaster. There should be provisions to help loyal customers in a time of crisis such as a house fire, especially when I had proof that it was accidental. Fast forward, my home repairs are finally finished in 4/2020 and I had to pay connect fees, deposit, etc and due to Covid-19, home security installation is not even an option. There needs to be some type of oversight where this and other companies do not get to profit off their customers misfortune.

Date: 7/8/2020 7:38:29 AM

City/State/Zip: Ormond Beach, Florida 32174

Company Complaining About: Spectrum

Description

A couple months ago, I needed to change my internet speed to be able to stream our church service from my home because the church was closed due to covid-19. I asked the spectrum rep. if i would be able to go back to my original speed after this was over. I was told that it would be no problem, all I had to do is call and make the request. Yesterday, I did just that. The first time I talked with a lady and she put me on hold, after 45 minutes I gave up and called again. The next person I talked to said it was no problem and tried but had computer troubles and she transferred me to a "specialist". I was then told that it was impossible and no one there would have told me that. I told her that indeed I was told that it would be as simple as a phone call. It seems that what you are told depends on who you talk to. I am disabled and had the internet assist package for more that two years but now I cant get it. Please help!

Ticket: # 4073506 - Xfinity Service Outage

Date: 7/8/2020 8:46:57 AM

City/State/Zip: Brentwood, Tennessee 37027

Company Complaining About: Comcast

Description

I am 72 with lupus working from home during the Coronavirus Pandemic. My husband is 80 and has dementia. I am sole support. I have been without internet service for 3 days, and it has cost me over \$500 in wages. Xfinity believes it may be my modem, although they have been working in my area. However, they won't send out a technician. If I can't get back to work at home, I can lose my job.

Ticket: # 4073544 - Windstream No availability

Company Complaining About: Windstream Communications

Description

The consumer states he has Windstream Communications for phone and internet providers.

The consumer states that their internet and phone went out about 2 weeks ago.

The consumer states that he has been trying to contact Windstream and they say a technician will come out.

The consumer states that he still doesn't have a working phone or internet.

The consumer runs a business from home and this is hurting him since he is not receiving a full income especially during COVID-19 and customers are getting upset with him.

The consumer was also told that there was an outage for everyone and they said it would be fixed in a week.

The consumer has been waiting for 2 weeks.

The consumer needs his internet and phone service on, he can't work!

CTR-415

Ticket: # 4073550 - Violation of telecommunications act of 1996

Date: 7/8/2020 9:25:58 AM

City/State/Zip: Chatsworth, California 91311

Company Complaining About: AT&T

Description

ATT is violating the telecommunications act of 1996. My father just recently passed away prompting us to move abruptly and I have to plan his services. His/my family is located in London, England and I have to keep in contact via Internet. We also do not have television which I canceled in March and use only platform such as Disney+ and Netflix. And we also do multi platform gaming such as Fortnite to pass our time. I just recently moved back to a rural area where I used to live since my fathers passing. I live about a block over and when we moved here I purchased Internet and television service with AT&T with my father because he needed a cosigner and they we're the only provider available to the area. my father and I moved to West Hills September 2019 where they recommended when we moved that we switched our service to fiber-optic which we proceeded to do. Now they wont transfer the internet service I purchased and every single person on my street including my next door neighbors, all houses up and down the street, and neighbors across the way are customers of AT&T because they're the only providers here. I have spent almost two weeks trying to escalate this as much as possible and take it as far as social media to see if they would reconsider and I just keep getting the runaround. I have spent countless hours of my personal time that I can not get back trying to find ways to move my service or get new service and this company is just making it physically impossible. I type in my old address which is directly behind this current new house, as well as type in my neighbors addresss and and I can purchase service but I can not get service at my new location? I also find out if they would allow me to open an account for business Internet for \$550 but not regular home internet?? I cannot afford that because I am not currently working due to the pandemic and I was my dad's full-time caregiver and have not been able to find work since my dad's passing. I was asked for my account number which I don't have anymore because they scheduled to close my account due to their lack of inability to transfer my service. I've spoken to multiple supervisors One of which who's name is Claudia and she said the service was available at my address you just have to ask for it properly and say you want copper wiring. I called back the number she gave me and tried to do so and failed to get anywhere with that as well. I contacted the homeowner of this location that I just moved to who also try to get Internet in her name for us and reestablish her old account with AT&T and she was also denied. They just keep saying

"We don't service that address"

"There's no available ports"

"Your address does not qualify for service"

"We are no longer servicing that area"

"We have discontinued service with that address"

I even went to a store and spoke with the store manager at a corporate office and they said that they can try sending a technician but they looked at our account and noticed that they just keep closing tickets that keep getting opened about the situation and they don't call us to contact us and inform us like they say they're going to as to WHY we can't get service here. I'm 26 years old and haven't had the opportunity to mourn my fathers passing. Everything about his death was extremely traumatic. I have been left with all responsibilities of putting together his funeral and can not contact family and friends back in London if we do not have internet. Our whole home fully stems off of internet service. they try sending me an directions of third parties like Viasat, EarthLink, frontier, Digitron, Hughes net,

spectrum, Verizon and every single one of them does not offer a service to this address either.

Literally AT&T is the ONLY PROVIDER to this address.

In addition they have also added my dad's \$300 Collections account into my name and put it on my credit already since my dad's passing and just recently did this when we tried getting Internet service. It has never been brought to my attention or else I would've paid it when I was notified of it or disputed it because it was in my fathers name or taken care of it when I had the funding available to me.

Ticket: # 4073587 - Suddenlink/Altice, Internet/phone, service and billing

Date: 7/8/2020 9:40:12 AM

City/State/Zip: Cyclone, West Virginia 24827

Company Complaining About: Sudden Link

Description

Since June 19, 2020, Suddenlink/Altice internet has had sporadic connectivity. Technician comes out and says everything on our end is fine and he will have "Robbie" check the amp on the pole Monday. Since his visit the connectivity went from sporadic to chaotically sporadic all throughout the day and night. Notified Suddenlink/Altice again and they cannot get a technician out until the July 7th, Well he was a no show "due to corona virus" and we were rescheduled for July 15th. Our bill has increased from \$80.00 a month to \$160.00 with added service fee from the first technician for repairing wires in home (can provide witness statements this is false) and added TV Franchise Fee and TV state tax fee and we just have internet and phone service.

Ticket: # 4073743 - Billing Issues**Date:** 7/8/2020 10:44:50 AM**City/State/Zip:** Grand Prairie, Texas 75052**Company Complaining About:** T Mobile

Description

My issue started. Ack in March of 2020. I was changing one line from Sprint to TMobile, because that phone was paid off. I would have still had an account with Sprint with 2 other lines. I received a sims card from TMobile that I was never able to use, because I could not get the phone activated because it was my only means of communication. I went to a TMobile store but they were closed due to COVID. I didn't have phone and live alone, so I went back to Sprint and had to pay a new activation fee. I have been getting bills that I can't pay, because when I call the number on the bill they answer Sprint and say this account is under somebody else's name. The bill keep going up. They keep telling me to call TMobile, who answers as Sprint. Also I lost my number of (b) (6) that I've had for many years. I would love to have it back.

Ticket: # 4073768 - Porting number from Verizon Landline to Verizon Wireless

Date: 7/8/2020 10:50:02 AM

City/State/Zip: Potomac, Maryland 20854

Company Complaining About: Verizon

Description

We had the number (b) (6) on a Verizon Landline account. In march we closed the account because of health issues and corona virus threat. The last month, I have been asking Verizon landline to put the number in a position to help Verizon Wireless port it into their system and assign to my cell. Verizon wireless says all they need to do is generate a record into SOA giving the number to Verizon Wireless and they can port it over. Verizon has been unable to do that. They won't reactivate to copper line for us so it would be "active" and available for Verizon wireless to take. They say someone needs to come to the house, wiring brought through the roof of the house, stay at the house, have FIOS installed at the house and then it can be ported over. Their customer service has had me on hold and calls for hours over the last month including call centers in the Philippines and no one really seems to have a clue on how to help just get this over to Verizon Wireless. I should not the Verizon Wireless people have all been helpful and trying their best and have been a true pleasure.

Ticket: # 4073840 - DirecTV

Date: 7/8/2020 11:07:23 AM

City/State/Zip: Maysville, Kentucky 41056

Company Complaining About: AT&T

Description

My service was suspended because I have been out of work due to Covid-19 and I ran out of my savings. I go back to work this weekend I asked to have my services turned back on and give me three more days so my son had something to watch. between the employee and their supervisor I was basically told tough not my problem. They are the only business that has refused to work with me. This is absolutely crazy. I know you probably don't handle this type of complaint but someone needs to know how they are treating people with all this going on and some are just getting back to full time work.

Ticket: # 4073864 - Comcast Shut Off Our Business Phone

Ticket: # 4074294 - Xfinity

Date: 7/8/2020 1:03:39 PM

City/State/Zip: Port Monmouth, New Jersey 07758

Company Complaining About: Comcast

Description

This is the email that was sent to Xfinity. Please read below

Good afternoon,

I am hoping that there can be some type of resolution with a matter that is going on for months, way before Covid.

We had new service added when we moved to a new home. It has been something that is unbelievable with the technology that is available today.

Please look up our address. (b) (6). The amount of calls, chats and technicians here, has been something that I can only imagine would happen in several homes, offices or businesses in several years.

We have had each chat and more concerning, each tech here, say that the problem is fixed to within minutes after they say it is "fixed" to happen again. We have purchased 3 new phone systems because we were told it was our new phones. We have lost work time due to not having internet or phone service. We have tried to even give substantial gratuities when the tech comes out in hope of it being "fixed". We have tried everything at this point and have just exhausted every way possible to try and receive the service we pay for.

At this point, we do not know how to proceed. We have exhausted every way possible.

As a customer and business person, I could not imagine someone being treated as we have or not being able to do our jobs because of the lack of service.

Can you please tell us what we can do from this point.

Respectfully,

(b) (6)

Ticket: # 4074541 - robocalls from spoofed numbers**Date:** 7/8/2020 1:58:15 PM**City/State/Zip:** Canton, Mississippi 39046

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are all marketing calls. Most of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day. And, a new trend had recently arisen: text messages. I cannot overstate how angry and frustrated I am with these people's total disregard for other's right to privacy and peace of mind.

Many of the spoofed numbers were identified by my caller id as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona and Crystal Springs, MS. For the call I am reporting today, caller id did not identify the location, but an internet search for prefix 850 indicates Byhalia, MS.

For a brief period, calls came in from out of state as well. The out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. Those have since stopped. Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. I tried to return the call, and it simply disconnected.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and

peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4074569 - AT&T complaint

Date: 7/8/2020 2:05:59 PM

City/State/Zip: Maryville, Tennessee 37801

Company Complaining About: AT&T

Description

I initiated new service with AT&T for internet at a newly purchased home. I was sent a home install kit but was unable to use it due to the home did not have an existing broadband jack installed by AT&T. I called to request one be install. I was told I would be billed for a service call and the service was scheduled. On the day of the scheduled service (3/31/20) a technician did not show. After 30 minutes waiting for a chat agent, I was told to call and waited another 45 minutes. I was then told the tech reported the service was completed. After some research I was told that the tech had activated my service from a remote hub. I explained that doing so did not accomplish anything because I still need a broadband line to be ran to my house by AT&T. The rep offered to reschedule but no appointments were available for several weeks. I was also told I should not have been charged for the service since it was an install for a new account. On 4/7/20 I obtained service with another company and cancelled by phone with AT&T. I was told there would be no charge on my account. On 4/29/20, I called again because my account still showed a balance of \$160.31. I was told my account balance would be zeroed out since I never received the service call or used any data. On 5/12/20, I called because my account still showed a balance of \$108.65 for the service call. I was again told my account would be zeroed out and the only reason it had not yet was that the company was behind due to the Covid pandemic. On 7/8/20, I was called by Credance on behalf of AT&T and told my account had been sent to collections for the \$108.65 and would be reported to my credit if not paid. I again called AT&T and was told my balance would be cleared within 24 hours. Each time I have called has been between 30 to 45 minutes on hold. I tried numerous times to resolve my bill only for them to continue to try collecting money from for a service call that was never performed.

Ticket: # 4074583 - AT&T Billing

Date: 7/8/2020 2:09:15 PM

City/State/Zip: Lake Elsinore, California 92523

Company Complaining About: AT&T

Description

The consumer called about 3 months ago because he is having an issue with AT&T.

The consumer has cell phone service with AT&T provider.

The consumer purchases a deal with AT&T that was 3 phones for the price of 1. (buy 1 get 2 free)

The consumer was told it would be around \$140 a month including the payment of the phone and the monthly service charge.

The consumer got 6 lines on his account instead of replacing the 3 lines.

The consumer was told he had to pay \$2,200 for this last month of they would shut his service off.

The consumer paid it in fear of getting his service cut off.

The consumer states that they owe him about \$1,400.

The consumer's bill should be no more than \$145 for 5 months which is \$725. (COVID-19 waiving bill)

So \$2,200 minus the actual payment \$725 is \$1,400 that they owe him.

951-294-8016 is the consumers cell phone number

The consumer paid \$2,200 last month so that they wouldn't shut his service off.

The consumer states they did fix the line issues down to 3 but they never gave his wife and son new numbers for the promotion.

CTR-415

Ticket: # 4074837 - FRS Radio Availability Inquiry

Date: 7/8/2020 3:03:51 PM

Description

From: (b) (6)

Date: July 8, 2020 at 9:36:00 AM EDT

Subject: FRS Radios authorized by the FCC

The honourable Commissioner

It is well-known that there are many low-cost FRS radios advertised on Amazon website. But there is little evidence to support these declared FRS units. An individual license is not required to operate an FRS radio provided you comply with the rules, according to the FCC website. It seems that a FRS radio is a good choice for a family when social distancing is important to help stop the spread of COVID-19.

As an ordinary person, I can not distinguish legal two-way radios from many of these radios. I do not want to be caught red-handed and risk a fine by the FCC. I think FCC should require all retailers and websites to show some evidence to customers that a FRS radio apparatus is authorized by the FCC prior to being advertised, sold, or operated in the United States.

Ticket: # 4075201 - Billing Issues due to COVID-19

Date: 7/8/2020 4:35:55 PM

City/State/Zip: Rialto, California 92376

Company Complaining About: T Mobile

Description

- The consumer is struggling financially due to COVID-19.
- The consumer is having issues with T-Mobile.
- The consumer was paying them small payments here and there since she is not working.
- The consumer said T-Mobile asked her to call every 15 days so they wouldn't cut her services.
- The consumer asked to speak to a supervisor to get her into a moderate payment plan so they do not interrupt her services and he told her they wouldn't.
- The consumer said that Sunday, they cut her services.
- The consumer called them to reconnect her services and they wanted to charge her \$50 but the consumer was unable to pay only small amounts.
- The consumer was able to come up with \$100 and he told her that she had until 30th of June to pay the rest off.
- The consumer has a total bill of \$750.20 but she said they did not post the \$100.
- The consumer said about a week or 2 weeks ago she spoke with a Manager and she explained the incident and they apologized and told her they were going to be in touch with her to help her.
- The consumer asked the Manager what is going to happen if they cut her services again and the manager said if they did, she can call, and she will hold responsible for it.
- The consumer is a single mom of a 5-year-old and she needs some sort of communication.
- The consumer has been a loyal customer for 5 years until COVID-19.
- The consumer doesn't want them to cut her services anymore and let her enter a moderate plan till she can start working.
- The consumer has been without a job since March 20th.

Ticket: # 4075367 - ISP completely unavailable during covid19

Date: 7/8/2020 5:12:43 PM

City/State/Zip: Fort Polk, Louisiana 71459

Company Complaining About: Sudden Link

Description

The cable outside my home was physically damaged and I've lost internet access. Every office within an hour drive is closed temporarily, but offices in larger cities far away are open (I live in a rural area). The nation 877 number never answers and never calls back when I asked to a callback. I need to talk to an actual person so a repairperson can fix the damaged outside cable.

Ticket: # 4075415 - Att wireless disruption of service

Date: 7/8/2020 5:29:17 PM

City/State/Zip: Port Huron, Michigan 48060

Company Complaining About: AT&T

Description

On June 29th att suspended my service due to outstanding balance. Att website states that no consumer services will be disrupted due to financial hardship caused by covid 19 pandemic. Outstanding balance was 633.49 and I made payment arrangement to pay total balance by July 15th, 2020 and my service was restored on June 29th. On July 6th, 2020 I made a payment of 349.95 to att wireless. On July 8th, 2020 my service was suspended again for outstanding balance of 283.54. I paid that balance today instead of my rent because I needed my phone for work. Att didnt adhere to there corporate covid promise, and att didnt adhere to the payment arrangement promise they made with me.

Ticket: # 4075469 - Billing Discrepancies

Date: 7/8/2020 5:47:28 PM

City/State/Zip: Atlanta, Georgia 30331

Company Complaining About: Comcast

Description

Hi! I've reached out to this company several times within the past month (June) about an billing issue. I was advised by that CSR to pay only \$195.98 as he to did not understand what was happening with the bill. The supervisor even reached out to me later on that day and advised to give them some time to correct the bill and assured that it would be corrected before the billing date of June 23 2020. Fast forward to today. I spoke to Terry, who stated that the bill is incorrect and I need a supervisor to fix the billing. I was then transferred to Amanda then Laura and finally I reached Monica, who said she's a supervisor. Needless to say that conversation went completely downhill. She was unwilling to listen and was very sarcastic and condensing. I am mortified by the level of customer service that I have received since this pandemic has started. I was advised that I was put on a payment assistance plan (that I was charged for) to help with my billing when it actually hindered me and now I'm looking at \$584.21 that I cannot pay when my monthly charges are \$208

Ticket: # 4075607 - complaint against ATT/Direct TV for damage caused by technician and inappropriate conduct by technician

Date: 7/8/2020 6:53:30 PM

City/State/Zip: East Elmhurst, New York 11369

Description

The signal of my Direct TV service stopped working on Saturday, March 21, 2020. I began calling ATT/Direct TV the same day in order that they send a technician to reestablish service to my home. After several days of calling finally I was able to get through to ATT/Direct TV on Wednesday, March 25, 2020. In that call the ATT/Direct TV representative scheduled a technician to arrive to my home on Thursday, March 26, 2020 between 8am – 12pm.”

On Thursday, March 26, 2020 the technician arrived between 10:30am – 11am. I was in my home alone with my two small children ages 5 and 7 years of age. The technician asked where the televisions and Direct TV equipment were located. I responded that two were located on the first floor and the third was located on the second floor in my room. I proceeded to show the technician where the three televisions and Direct TV equipment were located and where he could access the roof to inspect the Direct TV antennae.

Then the technician and I went down the stairs back to the first floor and he asked me if I had rubbing alcohol and he followed me first to the bathroom on the first floor and then to the basement. This felt strange since no previous technician has ever followed me after requesting something. They would ask for something, they would remain in their work area, and I would return with the item. However, this technician followed me as I attempted to first show him the location of the televisions and equipment, and then for the rubbing alcohol. After that the technician asked me for a tool with a sharp point. I told him I had pushpins and thumbtacks but he needed something bigger and I went into the kitchen to find something for him, and again he followed me into the kitchen and damaged the cabinet below the kitchen sink by pulling on it and pullet off one of the false, handleless panels that are cosmetic and not designed to open since there is no drawer or cabinet behind it, just the sink.

After that he returned to fixing the equipment and restored the signal to the two televisions on the first floor. Then he said he needed to verify that the television on the second floor in my bedroom was working. While we were standing in the room together, he asked me where he could find the cable that comes from the Direct TV antennae/dish. I then showed him that the cable entered by the window and I leaned forward to open the window so he could look outside to see how the cable ran up to the roof, and at that moment the technician came behind me in an inappropriate manner pressing the front of his body by his groin area against my rear end. Shocked, I turned around quickly and shouted what are you doing. He said he was sorry, but then with his hand touched my rear end again. I said this is over and walked out of my bedroom.

Since my husband was not home so I was alone in the house. This technician scared me, and I was even more frightened for my small children, and didn't want to have a conflict with him in the house where I was all alone with my two small children ages 5 and 7. When my husband arrived later that day I explained to him what happened, and the next day he submitted a complaint including a photo of the damaged kitchen cabinet by text in response to Direct TV's text asking about the quality of service provided by the technician. Following my husband submitting his complaint to Direct TV I had

attempted calling Direct TV on several occasions to report this incident but due to the Covid-19 situation I was unable to get through to Direct TV.

The name of the Direct TV technician is Julio and his number is (347) 387-9509. That is all I have since he ran out of my home and provided no paperwork for me to sign or a receipt of work completed, nor did he leave a card or any other contact information.

As a result of this experience with the Direct TV technician I no longer feels safe receiving technicians in our home unaccompanied by my husband. I fear for my safety and the safety of my two young children, ages 5 and 7 when alone in the house. The actions of the technician can be construed not only as sexual harassment but also child endangerment, as two minor children were present in the home at the time of this incident. As a result of the psychological and emotional trauma my wife has suffered, my husband will need to take off from work when it is necessary for a technician to come inside our home to perform a repair or service visit. This will pose both a financial and professional burden for time missed at my husband's job and the need to take vacation leave to be present in my home when a technician is present.

Ticket: # 4075623 - Unwanted Call Text

We need additional information so that we may bill the proper insurance company. Please note that you, the patient, will NOT be billed for any part of the cost. Please return the requested information within 5 days through this link." The above text came from a Michigan phone number: 313-307-3829. Please check this out.

(b) (6)

Ticket: # 4075737 - Widely inaccurate data cap overage

Date: 7/8/2020 8:09:18 PM

City/State/Zip: Truckee, California 96161

Company Complaining About: Sudden Link

Description

Suddenlink has an exclusive contract to provide a critical utility of internet service in either Nevada County or the Town of Truckee (not sure which) and are exploiting that relationship with service that almost never meets the download/upload speeds, as well completely inaccurate billing. The attached files show a significant discrepancy between daily and monthly usage reports and bills that have the same "data cap overage" charges on more than one bill. When attempting to correct it, on one morning I disconnected 4 times with Customer Support and gave up. After the next bill, I was able to talk to a Customer Support representative, who said it would need further review and I would be informed pithing 48 hours, which expired 3 days ago with no response.

Suddenlink does not provide the level of service they charge for and repeatedly, almost systematically, has online login errors, disconnected call and billing errors that frustrate the customer into giving up and overpaying for a critical service during a pandemic. A credit for both \$90 overage charges would resolve the issue.

Ticket: # 4076055 - Suddenlink internet and telephone

Date: 7/9/2020 2:07:37 AM

City/State/Zip: Milton, West Virginia 25541

Company Complaining About: Sudden Link

Description

We have made several calls to Suddenlink regarding our internet and phone service which is out more than it works. While working from home and having our children attempting to do remote learning during COVID

-19, we are forced to use our AT&T data plan because our Suddenlink internet is constantly cutting out. We are forced to exceed our data plan so frequently that our AT&T bill is has been over \$1200 per month since March and we are paying Suddenlink for service that it is not providing.

Ticket: # 4076059 - Internet fishing scam - unsolicited postcard

City/State/Zip: Oakland, California 94610

Company Complaining About: AT&T

Description

I received the attached postcard in the mail today. It is in Portuguese. It directs me to a website and provides an email to obtain Covid related resourcea.

Likely a scam/internet fishing/malware site.

I m not sure who to report this to

Ticket: # 4076080 - I have to turn off my phone everytime I call or send texts

Date: 7/9/2020 4:09:33 AM

City/State/Zip: Renton, Washington 98058

Company Complaining About: T Mobile

Description

I have had my phone replaced multiple times because my phone fails to stay connected to the network. I am a port of seattle security officer, and sometimes I have to call 911. These failures have kept me from calling 911.

So tmobile replaced my s9+ twice and it didnt fix the problem. Then they said to upgrade my phone. So I did, and it cost me almost \$400 to do so. I upgraded to the note10+. It didnt solve the problem. They replaced my phone 2 more times thinking it was a defect and it didnt solve the problem. So now I am stuck with this problem. I have to turn off my phone and back on every time I want to send a message or make a call. Then the pandemic hit. Tmobile has made a pledge not to disconnect customers during the pandemic. They violated this pledge with me three times now. All in the middle of the night when I cannot reach Tmobile

Ticket: # 4076095 - device and internet jamming

Date: 7/9/2020 5:53:28 AM

City/State/Zip: Fort Lee, New Jersey 07024

Company Complaining About: Sprint

Description

My family is severely impacted by interference to our five cell phones over the past three months. During a pandemic crisis, we are prevented from calling 911 or a doctor. We are good, law-abiding citizens and the disruptions to our lives and livelihoods are unjustifiable. Sprint admitted that two of our phones were completely damaged by interference technology but they've offered no solutions. We had to buy brand new phones, switched cellular providers and yet, Sprint has vindictively locked my daughter's phone that she owns outright, rendering it inoperable. She cannot access her summer classes. We need the interference to end, compensation for the damaged phones, and an end to the harassment from Sprint.

Ticket: # 4076180 - Fox News

Date: 7/9/2020 8:29:41 AM

City/State/Zip: Whitinsville, Massachusetts 01588

Company Complaining About: Spectrum

Description

The so-called 'opinioists on Fox News, particularly Tucker Carlson, are now telling people that wearing masks and social distancing will not help protect you from COVID-19. This is not only false, it is purposely and deliberately putting people in danger of sickness and death. All this to support a certain political view, and not in the best interests of American citizens. You are supposed to monitor the airwaves. Do your job. This has to stop.

Ticket: # 4076206 - Increase in bill every other month.

Date: 7/9/2020 8:49:33 AM

City/State/Zip: Columbus, Ohio 43228

Company Complaining About: Spectrum

Description

I keep geeting increases every other month with Spectrum. \$6.00 in 1 month. My cable is streemed. It does not cost \$54.82 for cable that is streemed. It states other charges \$6.00. It states that this money goes to all the channels that streem into my home. \$6.00 in 1 month is outrageous. Spectrum is like all the other companies that are over charging because of the Covid-10 virus. People have to stay home and Spectrum knows that and are ripping people off.

Ticket: # 4076241 - Frontier Internet speeds are never what they advertise

Date: 7/9/2020 9:10:29 AM

City/State/Zip: Bahama, North Carolina 27503

Company Complaining About: Frontier Communications

Description

Both my wife and I work from home due to COVID and the only internet provider we have is Frontier. It is often impossible for both of us to be working at the same time due to the internet speed. It fluctuates from day to day and makes it extremely difficult to work. Being the only provider, we have no choice but to use them. This is ridiculous and something should be done.

[Ticket: # 4076351 - Internet availability](#)

Date: 7/9/2020 10:03:21 AM

City/State/Zip: Barnesville, Georgia 30204

Company Complaining About: AT&T

Description

Paying astronomical prices for DSL and overage charges. New neighbors can't get DSL even though old residents had the services. Maps show DSL coverage for the area and that is not true. Update your maps most of the county can not get even basic DSL because ATT no longer accepts new customers of DSL because it's out of date. This is a major problem with COVID 19 and online school for the children.

Date: 7/9/2020 2:28:41 PM

City/State/Zip: Philadelphia, Pennsylvania 19145

Company Complaining About: T Mobile

Description

CONFIDENTIAL - Not to be published.

Good afternoon, I just spent 2hrs., exchanging text messages with Tmobile managers. They interrupted my service two days ago; I explained that I could make payment based on \$60/month Agreement; NOT \$75/month, as they arbitrarily are charging. I am Spanish Interpreter for City of Philadelphia, offices closed since March 13th, so no assignments/income. In addition, I need working phone, as in treatment for hip and back injury after bad car accident, and need functional phone line, as physical therapy sessions remotely due to COVID19. T-Mobile's management very mockingly insist on getting the amount of \$166.51; I offered to pay \$133.75, which is \$60/month*3 - \$46.25 discount. I am in treatment with Orthopedic Specialist and Physical Therapy. I live alone, with hip and back injury. No landline phone. Tmobile has been very professional and uncaring. When I forwarded FCC keep connected agreement link, they state that FCC has only extended until June 30th, that they could only reinstate my service if FCC extend to later date. Please help.

Thank you in advance, for your prompt response. Please do not publish this message.

Ticket: # 4077690 - Cox refuses to fix my issue and gives me excuses**Date:** 7/9/2020 3:38:22 PM**City/State/Zip:** North Las Vegas, Nevada 89030**Company Complaining About:** Cox

Description

My name is (b) (6), I'm a twitch streamer so when ever the net is unstable I have various ways of finding out, the main one being unable to stream. I've been a cox ultimate customer for years while living in this building and even moving apartments and finding the same issues. I have recorded my net for weeks multiple times to show the tech that my net is unstable, it's either packet loss, disconnecting or it's too unstable to maintain even half of my speed. I am paying for 300down and 30 up. When ever the tech is on the way my speeds rise and it becomes stable, when he leaves they return to the way they were. I've done my own tech support on the side and let them know that I have a very good gaming computer, updated drivers and updated software, 2 desktop computers in my room, a switch lite and a laptop in the living room that my mother uses on wifi. Everything was lagging. I have to change their modem out every 2-3 months because of how often they die. The techs come to try to solve the issue and simply hand me a new modem. I have asked them to check the lines and they tell me the lines are fine, They weren't able to enter my house this time so I assisted the tech with the installation of my new cable. It did not help. 2 different techs say they last tech was not doing things correctly and they have to keep fixing what the last tech messed up. My bandwidth is getting 0 quality on my twitch test program while a stable stream will get at least 80. My speeds tank to 2mbps, at this time of writing this, I'm barely getting 4 of my 30, which realistically I would get about 25 because of traffic. Cox now blames my neighbors and the covid, while I explain to them that even during peek lockdown here in las vegas I was able to stream at my usual settings with no issues. I also told them that this is the same issue I've been having for years before covid. I have screenshots and recordings of my issues and speeds. Atm 2mbps out of 30. tech says it's the node but they won't do anything about it, or that our tower is too far. My stream can go up to 6000 bitrate, my program auto tracks my bandwidth and tells me how high to set it, this is unstable, so i lower it to 4k and it went well for a couple of weeks, this is unstable, it now tells me the best i can do is 500bitrate and fluctuates between 1000, 500, 300, etc. My kbps goes from 8k to 400 to 7k to 200. It's so unstable my stream looks like a power point presentation. I have this all recorded. twitch.tv/aoreka my streams are lower quality and unstable. <https://www.twitch.tv/videos/670136325> . At this point I'm fed up, I make extra money via my streaming as my job as a care giver doesn't pay much. The techs on the phone have no idea what i'm talking about when i mention twitch or that I do IT support and know it's not my home hardware as more than 6 devices are affected. I'm paying full price...for this. I bought their elite gamer package but it does nothing because I can't log in and they won't help me, the elite gamer did nothing. The refuse to send maintenance, I've had supervisors come out here. It makes no sense, if the upload speed just stayed around 20-25 then that's fine, but it's so unstable I cannot use my net, I am paying full price for "this".

Ticket: # 4077816 - T-Mobile billing and collection call

Date: 7/9/2020 4:07:48 PM

City/State/Zip: Dickinson, Texas 77539

Company Complaining About: T Mobile

Description

Hello my name is (b) (6) and i have been quarantined since end of March. T mobile was holding our account due to the corona virus. Well on June 30 they lifted it. I have called numerous times trying to set up payment arrangements but they refuse to help me. My account is 140 days past due and they are shutting off my phone and gonna charge reconnect fees if I don't pay over 1300\$ within 24 hours. The only way they will help is my account is under 60 days past due. I have my phone health reasons only with an infant and 2 senior parents who have health issues. I'm not allowed to leave the house due to the virus per doctors and just started getting unemployment. They also had a rep call me for payment before 8am. When i called corporate the only thing they said was sorry. I have family members in New York sick with the virus that we need to be able to contact them. I did make 1 payment this week and was gonna make another on the 22 and the 30th to get caught up but they are refusing. I also went on their page on Facebook and they are doing this to alot of ppl

Ticket: # 4077868 - Internet- Modem Fee

Date: 7/9/2020 4:24:57 PM

City/State/Zip: Hutto, Texas 78634

Company Complaining About: Sudden Link

Description

On 4/1/2020, I contacted Suddenlink that I had purchased my own modem and needed to return the theirs. During my call the representative stated I had to physically return the modem to a Suddenlink store. The closest location is an hour away. I did drive there only to find the location closed. The number listed for the location is not a local number, but a general number for all of Suddenlink. I tried several times to call only to get disconnected due to Covid staffing. Finally in May I was able to return via mail. I sent the modem back through Fed-Ex, tracking # [REDACTED]. The shipping label was provided and prefilled by Suddenlink. I was charged again for the modem. I called on 6/19/20 and the representative on the line said it would take 7 days to research. No one called me back. I went through Suddenlink chat and was in contact with another representative for 30 minutes. The chat ended with the representative not resolving the issue but sending me another number to call. I kept screen copies of the chat. I am frustrated that this has taken over 3 months to resolve and I keep getting billed for equipment I no longer have.

Ticket: # 4077870 - Cox my only provider?

Survey on COVID-19 text message, twice. Wanting me to take this survey from the census bureau. I think this is a scam. Is there a way or email I can send this to? This is wrong. Need to get these guys. Thanks, Pamela

Ticket: # 4078018 - Slamming Attempt, AT&T & Covid

Date: 7/9/2020 5:05:15 PM

City/State/Zip: Charlotte, North Carolina 28205

Company Complaining About: AT&T

Description

In the last two days I was accosted at home by two AT&T representatives in an attempt to slam me into their service. I was floored they were unmasked, ringing doorbells, at the line was, "I'm here about the complaint you have with internet speed," and I've been setting up service in my new home with a competitor of theirs and have been having connection issues. So I listened for a second until I realized I was being slammed.

I have to say that door-to-door slamming is unexpected during any time, but during a pandemic is dangerous at best, deadly at worst...and there is no reason for this type of tactical approach to building business. When confronted with the fact that they were not wearing masks, the first said she had one (then asked me to provide a spare) the second slammer told me he had a mask (took it out of his pocket to show me). Slamming is bad enough; doing so in these times is ridiculous.

Ticket: # 4078044 - Frontier refusing to credit my account

Date: 7/9/2020 5:11:25 PM

City/State/Zip: Long Beach, California 90815

Company Complaining About: Frontier Communications

Description

5/2/2020 Spoke to Frontier about my sharp increase in bill. Frontier offered to credit my account \$16.00 due to Covid related job loss. On 6/4 got a late charge fee since I did not pay the \$16 that was going to be credited. 6/4 spoke to Frontier who said they will credit my account \$36.28. 7/9 saw that only \$19.74 was credited and had balance of \$16.54. 7/9 Spoke to Frontier rep who said (1) "someone" at Frontier arbitrarily rejected what 2 other supervisors had agreed to. (2) He said my only option was to pay \$16.54 or (3) disconnect my Frontier account. He said he had no address for FCC, was not able to connect me to his supervisor and that Frontier does NOT have a grievance department. I either pay what Frontier had AGREED to credit my account or disconnect my service. 3 times Frontier said I would get the credit and now someone rejected it. Rep said he doesn't know who and can give me no other information. Offered me no other option and I pay \$16.54 or lose my service. Take it or leave it and refusing me to talk to anyone else either by phone or email.

Ticket: # 4078052 - Text messages block/Covid-19

Date: 7/9/2020 5:13:32 PM

City/State/Zip: Newark, New Jersey 07107

Company Complaining About: T Mobile

Description

Consumer states that since the 2nd of the month, consumer has been unable to send text messages. Consumer states that T-mobile told her that this was a block place by the FCC because of the way of the messages and it was reported as scam. Consumer wants her texting to be restore and she also wants a compensation because of the lack of assistant and the inconvenience that this created.

Date: 7/9/2020 5:57:19 PM

City/State/Zip: El Cajon, California 92021

Company Complaining About: Viasat

Description

Viasat company cut off my service re a June 24 2020 bill. I called and told them I'm under isolation due to lupus and a kidney tumor. I asked to reinstate my service and that I can pay on July 23. They would not comply. My bills are paid using an on file method, my son's atm card, which is still on file with them. There's just no money in the account because he had to become my caretaker in April and has not been able to work since then. The money from our county for taking care if me , IHSS, had not paid him yet. But I let viasat know he is on the county payroll for this service. Also+ I can't scroll using this complaint form so any syntax errors please forgive. Please note I am a very rural customer with a home schooled child in the home which I also let them know. I've also asked viasat to comply with low income care type policies and provide service for a discount or free rate due to my student and my being disabled. They refuse. There is no other internet provider in our area so viasat has me monopolized. At&t provided us last with service for \$14.88 per month. Viasat is charging \$120 per month. I believe my internet should have been free from April to June due to rural policies. I'm going to ask for a supervisor and explain that I've filed a complaint with you. Thank you.

Ticket: # 4078255 - Internet

Date: 7/9/2020 6:45:41 PM

City/State/Zip: Jacksonville, Texas 75766

Company Complaining About: Frontier Communications

Description

We live in a rural area of East Texas, outside Jacksonville. We have been searching for reliable internet service and there is none to be found here! We are in the Frontier service area but they will not extend their line to service us. We are 1 mile from being able to tap into their service. We are not the only family out in this area suffering. I need to be able to work from home and now with the COVID pandemic my Son requires internet for school as well. If there anything you can do to help us out here in Cherokee County Texas?

Thank you for your time.

Ticket: # 4078328 - AT&T Is Not Helping Their Customers

Date: 7/9/2020 7:24:22 PM

City/State/Zip: Irving, Texas 75038

Company Complaining About: AT&T

Description

AT&T is disconnecting Customers' service amid a pandemic, and after our service is disconnected, we are unable to reach CS by dialing 611. We have to find another phone in order to reach an agent, and they are refusing to provide arrangements. I live in Texas, and we are shutting down again, so my hours are limited again.

Ticket: # 4078362 - Charter (Spectrum) Data Cap Early Contract Release**Date:** 7/9/2020 7:38:28 PM**City/State/Zip:** Taylor, Texas 76574**Company Complaining About:** Spectrum

Description

Charter (Spectrum) has filed to a petition to ask for the option to remove themselves prematurely from their Time Warner merger contract in regards to applying data caps. With an already questionable over-reach of power naturally granted by the merger/buy-out, asking to be let out of a contract early (to possibly begin charging customers for overages) is a bold and distasteful demand by Charter. I ask the FCC to please hold Charter responsible and deny any such requests.

While on the subject of data caps, I would like to take a brief moment to express my concern of the growing trend of charging and penalizing customers for using their Internet service. I have been in the IT industry for decades and have been fortunate enough to never have to deal with such absurd measures. I fear this is likely going to change in the near future if the FCC does not take corrective action right now and uphold an open and fair Internet. Unlike water, natural gas, electricity, and other utility services, an ISP is nothing more than a connection – an empty pipe. An ISP does not create data. Data is not a finite resource – it is not mined, created, or even owned in any way by an ISP. Yet Charter (and others) seem to believe they can accurately calculate and charge for “amounts” of data as if it is a natural resource which they have excavated in some manner. It makes absolutely no sense.

Lastly, with the Covid-19 pandemic, it has become abundantly clear that not only is Internet access an essential need/service but that data caps are nothing more than a sham – plain and simple. The compiled data from this year’s work-from-home labor force completely reveals all data caps are entirely unneeded and unnecessary. There is little to no competition for ISPs and these mega-corporations have been allowed to run rampant with their monopolistic practices. Please take action and ban data caps across the board for all American citizens.

Ticket: # 4078371 - Illegal charges on a 24 month contract

Date: 7/9/2020 7:48:57 PM

City/State/Zip: San Jose, California 95113

Company Complaining About: Comcast

Description

I was just informed by Comcast that they will charge up to \$10-\$100 extra on internet because people are using more very wrong we did not ask for covid or to be in shelter in place what are we to do I truly think this is illegal when most of us are Unemployed and struggling beyond are means unacceptable. And I'm sure Xfinity will find a way to financially abuse customers it's not about them did they not apply for ppp and want more.

Ticket: # 4078497 - Cox internet- massive ping spikes and outages

Date: 7/9/2020 9:33:49 PM

City/State/Zip: Tucson, Arizona 85701

Company Complaining About: Cox

Description

I have been experiencing large ping fluctuations and timeouts on my Cox internet connection, at least for the past two or three weeks. I was told there was a signal increase occurring in my area last week that would be resolved by the 4th, but I am still experiencing the same issues. When I attempt to resolve the issue with Cox support chat, they show no willingness to fix the issue on their end and instead choose to tell me that there are issues with my hardware, or simply not respond to my questions and end the support chat. I have spent countless hours diagnosing my own hardware (removing router from the network and wire directly to the modem, which is less than 4-5 months old, new coax, new ethernet cable) and have confidence the issue is on their end. I am unable to work from home effectively during this pandemic with a connection so spotty.

Ticket: # 4078531 - Constant cutouts in uplink due to node oversaturation

Date: 7/9/2020 10:20:00 PM

ATT said I needed new modems, I asked them to send them but they won't because I was 30 days behind because of COVID 19, I file an FCC complaint the office of president has someone from U verse who leaves me messages but after I call them I hear nothing back then they shut off my service , so I pay off full bill cant get hold o

Ticket: # 4078594 - Suddenlink: Internet Outage

Date: 7/9/2020 11:16:22 PM

City/State/Zip: Montrose, West Virginia 26283

Company Complaining About: Sudden Link

Description

My internet, provided by Suddenlink, has been limited or not working at all since June 30th. I talked to a representative multiple times to resolve the issue. I was told it was an issue with the equipment in my house and a tech would come out on July 13th. I explained my next door neighbor and my neighbor across the street is experiencing the same issues at the same time. My neighbor and I are both government employees working from home due to the COVID pandemic and rely on our internet to perform our work duties. Our complaints were disregarded and we were all told it was an issue with the equipment in our homes and completely separate issues. We are all experiencing the same outages at the same time. My next door neighbor and I have appointments with the tech on July 13th and the neighbor across the street has her appointment on July 14th. We have been approximately two weeks with basically no internet service.

Ticket: # 4078852 - Sprint Covid 19 Billing

Date: 7/10/2020 9:56:07 AM

City/State/Zip: Canonsburg, Pennsylvania 15317

Company Complaining About: Sprint

Description

Her bill was not paid in full in March but she has been affected by Covid-19. She lost her job and was a waitress and she is still not back to work. She also still has not gotten unemployment. Sprint has told her they will turn her service off on Tuesday unless she pays \$360 and she does not have that.

City/State/Zip: Dubach, Louisiana 71235

Company Complaining About: Gotw3

Description

We have our internet through GotW3 which uses AT&T internet towers. We pay \$99 a month for unlimited. We received an email yesterday from the company stating “ Due to Covid-19 and excessive usage, our networks have issued the following effective immediately: Our carrier partners decided to remove Unlimited plans from their offerings.

The company has decreased the Internet usage but is not decreasing the cost. On their website, they are still offering unlimited internet access. Our internet was also abruptly canceled yesterday without any notification.

Ticket: # 4078961 - fraud w/direct tv

Date: 7/10/2020 10:42:59 AM

City/State/Zip: Traingle, Virginia 22172

Company Complaining About: AT&T

Description

I received a call from 678-327-6257 stating that they was Direct tv offering me a promotion asking me to paying 8 months in advance of \$315.00 - and my bill would be \$44.99 thereafter, they knew my address my phone # and the fact I had direct tv, I realize it was a scam when they ask me to pay with a eBay card!!

Once I had the ebay card I was to call 1-888-481-2062 and give a code of JADTV6214 - What I find disturbing is that when calling Direct TV I am told they would report it 1st time, I call about something else and inquired about the fraud I then was call to go to my local Police dept, - I thought that was crazy!!, then I was told oh they had a fraud dept, and was transferred the recording stated due to covid-19 that department was closed, I call the number I was given and 1-877-379-2319 and that agent told me they would transfer me to the highest office.

While given my statement I received a dead line - I spoke to Ms Teresa - She had my information to call me back rather then Me call in again on hold.

I want to make sure this compliant doesn't go on deaf ears..

Thanks so much for your attention to this matter.

Respecetfully

Ticket: # 4079033 - Verizon Port Filing Issue**Date:** 7/10/2020 11:09:21 AM**City/State/Zip:** Brandywine, Maryland 20613**Company Complaining About:** Verizon Wireless

Description

My wife contracted Covid-19 at the end of March 2020 and was admitted to Walter Reed Military Hospital ICU for 10 days. During that time, we focused solely on her recovery and my 8 year old son's online school requirements. My verizon bill went unpaid as a result and although I didn't reach out to them during that time, I did call on July 2, 2020 to set-up payment arrangements which they agreed to do two payments on July 14th and July 29th. Approximately 24 hours after making that over the phone agreement, my phone service was interrupted by Verizon and I had to call back to get them to reactivate my phone. Despite numerous phone calls to resolve this matter, this pattern of turning my phone on and off continued. I called Verizon on July 8th and asked them to reactivate my phone and they told me if I paid \$400.00 on my bill that I would have no further problems so I struggled to find the money and was able to pay them \$400.00. Unfortunately, less than 24 hours later, my phone service was once again interrupted and now they wanted me to pay an even larger amount despite the fact that I had a payment arrangement in place. I work in the financial services industry as an insurance agent and phone service is critical to my livelihood. In order to have more dependability with regards to phone service, I went to AT&T and set-up new phone service and requested that they port over all my Verizon phone numbers but Verizon suspended my account and intentionally blocked AT&T from porting my phone number over. I called Verizon on 9 July 2020 requesting assistance in porting my number over to AT&T and they said until I pay the full balance, there was nothing they could do. My wife still has follow-up doctor appointments as a result of Covid-19 and having phone service is critical to her health continuity. All I ask is that Verizon, honor my request to port my phone numbers over to AT&T and stop this unprofessional business behavior which has cost me both money and time.

Ticket: # 4079074 - Over billing/ Cancellation of service

Date: 7/10/2020 11:21:13 AM

City/State/Zip: Vero Beach, Florida 32962

Company Complaining About: AT&T

Description

Vista Gardens monthly "Plans and service" is normally billed at approximately \$255-\$275 monthly. In January and February our invoices were \$602.11 and \$597.99 respectively. I contacted AT&T in attempt to straighten this out and was advised through a recorded message that their customer service department for issues such as credits due and things of that nature was currently closed due to COVID-19.

Further, on June 11, 2020 we contacted AT&T and cancelled our service as our numbers were ported over to Comcast on that date because we switched our service over to VOIP phone system.

On July 9th our office received an invoice with a brand new account number billing us in the amount of \$429.75. We are seeking reimbursement for the over-billing that took place in January and February as well as cancellation of this new account as we will be refusing to pay the \$429.75 for services that were not received.

Ticket: # 4079153 - AT&T harassment

Date: 7/10/2020 11:48:47 AM

City/State/Zip: Pittsburgh, Pennsylvania 15224

Company Complaining About: AT&T

Description

Received an unethical/misleading email from company threatening to shut off service after payment arrangement was fulfilled. Email made it appear no payment made in attempt to have me pay more. This bullying has taken up 2 hours of my morning during a time when people are dying during this heatwave mid pandemic. Corporate greed is inexcusable, and no doubt has pushed many people into extreme stress today...this bullying needs to stop! I paid \$100 over the amount required on 7/1 payment arrangement!

Ticket: # 4079196 - Phone Billing Payment Arrangements**Date:** 7/10/2020 11:57:02 AM**City/State/Zip:** Brandywine, Maryland 20613**Company Complaining About:** Verizon Wireless

Description

The genesis of my payment arrangement issue with Verizon Wireless began when my wife contracted Covid-19 at the end of March 2020 after our trip to New Orleans, LA. She was subsequently admitted to the ICU unit at Walter Reed Military Hospital and stayed there for 10 days. Upon returning home mid April 2020, she began her long road to recovery. During that time, I focused solely on her recovery, my 8 year old son's online school requirements and maintaining our household in the midst of this new normal. My Verizon bill went unpaid as a result and although I didn't reach out to them during that time, I did call them on July 2, 2020 to set-up a payment arrangement which they agreed to do in the form of two payments of \$1210 on July 14th and 1210 on July 29th. Approximately 24 hours after making that over the phone agreement, my phone service was interrupted by Verizon and I had to call Verizon to get them to reactivate my phone. This pattern of the phone working for a day or so and then being interrupted by Verizon continued until it reached a head on July 9th. The most frustrating aspect of this ordeal was receiving contradictory guidance from Verizon's customer service reps and finance department personnel. On some days they agreed that my payment plan was in good order and then depending on what customer rep I talked to they would contradict what was told me to the previous day. I called Verizon on July 8th and asked them out of desperation what had to be done to reactivate my phone and keep my phone service active and I was told if I paid \$400.00 towards my bill that I would have no further interruptions. I struggled to find the extra money but given this new hope I was able to pay them \$400.00 with the understanding that they would honor what they told me they would do. Unfortunately, less than 24 hours later, my phone service was once again interrupted and now they wanted me to pay an even larger amount despite the fact that I already had a payment arrangement in place. I work in the financial services industry as an insurance agent and phone service is critical to my livelihood. This has resulted in lost time and sales due to Verizon's incoherent payment arrangement policy. At this junction, I don't trust anything that Verizon is telling me and felt the only way to resolve this matter is to elevate this so that this does not happen to any other Verizon customers. I've served my country for 24.9 years as an Air Force officer and I have never had this type of treatment from any company. When companies don't have consistent and transparent payment policies, it creates confusion and frustration for the customers.

Ticket: # 4079228 - Xfinity , unable to resolve problem

Date: 7/10/2020 12:02:13 PM

City/State/Zip: Fort Lauderdale, Florida 33316

Company Complaining About: Comcast

Description

I have spent hours on the phone with Xfinity and had a service call two days ago to replace my modem. It is now not working again I have no Wi-Fi no ability to check any security cameras or anything as I am not at my home for several months I am away. It's important that I am able to check my alarm and security cameras etc. I have now spent over two hours today on the phone trying to get someone to escalate my problem so I so a tech can be sent out. I was told somebody would have to call me back within 30 minutes. This is the second time they have told me this and never returned my call I am beyond frustrated with Xfinity I need to get this resolved. I understand the pandemic but this is just poor poor service

Ticket: # 4079425 - Spoof calls

Date: 7/10/2020 12:51:16 PM

City/State/Zip: Arlington, Massachusetts 02474

Company Complaining About: Many Different Caller Id Names

Description

I've been receiving an increased number of spoof calls since COVID-19. One particular call is to "renew" a computer service subscription - it's robo call coming from an variety of numbers - but always the same message. Call us at 1-281-846-1330 to renew or update subscription. States if I don't call my subscription will be automatically charged to my credit card. Message never gives name of company or any individual. Been going on at lease 3-4 months, I don't answer unknown calls, let them go to voicemail. Have not see any unusual or unauthorized charges on my credit card. But I get these calls 3-4 or more times a day on my land line and occasionally on my cell.

Ticket: # 4079466 - Significant Decreased Speed**Date:** 7/10/2020 1:02:36 PM**City/State/Zip:** San Angelo, Texas 76904**Company Complaining About:** Sudden Link

Description

Currently, Suddenlink in San Angelo, Texas is offering special rates for new customers for 1 Gbs/down for around \$80.00. Since this offer, there has been significant decreased speed to the point where we upgraded from 200 Mbs/down to 400 Mbs/down. Prior to their offers, we were averaging 120 - 170 Mbs/down. Since the new offer, before the upgrade, we averaged less than 100 Mbs/down. After the upgrade we are averaging 110 Mbs/down. I believe that Suddenlink does not have the bandwidth at my neighborhood node, or throughout San Angelo to support all of the bandwidth they have promised. I have attempted to call Suddenlink and even utilize their chat but spend on average 1 hour waiting to talk to someone and they cannot give me any information. I also know that I am not the only customer that is having these issues of slowed speeds as I have talked to friends who live in several other areas of San Angelo.

I feel that Suddenlink is using false advertising that they can promise "up to" a certain speed without any intention of ever getting close to the promised speed. Prior to the new offers, which we as old customers cannot get access to, our speed was within an acceptable margin of 10-15% of slower than promised speed. Now we are at an unacceptable loss of speed of well over 50% of the promised highest speed.

I do understand that there is more usage due to COVID-19, which stresses the network. But why then would they offer significantly higher speeds at significantly lower prices which would put even more strain on their service.

Example of difference in speed: \$80 for new 1 Gbs/down for life for new customers, \$120 for 200 Mbs/down for old customers and even more for upgraded speeds. I did get them to lower the price for the 400 Mbs/down to \$80 for the first year per month and after it will raise to \$110 after the 12 months. This is unfair for older customers who cannot even get close to the new customers' price for speed if they cannot even support their current network.

Ticket: # 4079482 - Verizon wireless letter

Date: 7/10/2020 1:08:37 PM

City/State/Zip: Homosassa, Florida 34446

Company Complaining About: Verizon Wireless

Description

I recieved a letter on or about July 7, 2020 from asurion on Verizon's behalf with Verizon's customer service nber in it to call. The letter was dated july1,2020 to participate in the program but you had to sign up by June 30.

When I called about it I was told it is too late to participate and she could understand my frustrations but nothing she could do.

I demanded to talk to a supervisor who told me the same thing and aaidnaw would have another supervisor call me back. I have not received a call and I am unable to get covid help now. I have a photo of the letter.

Company Complaining About: Optimum

Description

I cancelled my service with Optimum. (TV ,Internet and Phone Service) The disconnect was held up as the Optimum office was closed to patrons due to the corona virus situation. I was given a web address instead and directed to the site to print a label and return my equipment. It took a period of time due to accomplish this due to the fact as I no longer had access to a computer or internet. However I was able to send the equipment back to cablevision and asap and was sent out on June 26th. I received a bill for \$ 272.03 for service through July 22,2020. I called and spoke with Nino and then Monte to resolve this bill and both refused stating this is their policy and I must pay even if I don't receive the service. They refused to prorate or assist in anyway and did threaten to go after me if I do not pay in full. I have had service for nearly 30 years never missed a payment but I do not believe I should pay for services not received especially when their office is closed and the delay is entirely their fault and not mine. Just because they decide to set a policy in their favor. I would like this bill adjusted properly and I did not give them permission to take the funds out of my checking account.

Ticket: # 4079710 - Demanding too much at once

Date: 7/10/2020 1:59:18 PM

City/State/Zip: Lake Charles, Louisiana 70615

Company Complaining About: AT&T

Description

There was a special arrangement during the COVID crisis that they would not shut down the service.

Program ended at the end of June, now they are demanding payment in full.

They want \$223 on July 19th and a further payment of \$223 on August 1st.

The consumer had paid them \$190 in the beginning of July.

This does not seem very compassionate.

Things have not yet opened up yes.

What they are asking is that the consumer pay them \$636 in the course of one month.

Consumer is asking for some compassion - she has other bills to pay as well.

Company Complaining About: Assurance Wireless

Description

Attention to all this concerns, already having issues with assurance wireless prior to the present circumstances of covid I am now experiences the same once more during obvious crisis. I am diabetic and high risk for covid and they removed the free promotion unknown to me and cut off my services ,blaming this on returning to my regular minutes without notifying me. This promotion supposedly ended 06/30/20,but as I still had unlimited services to my understanding able to communicate without interruptions until 06/08/20 I had no idea my minutes returned to normal. All calls monitored, there were also conflicting statements as to why i lost these minutes,the representative retracting favorable accommodations unethically firsthand becoming docile when corrected that my device was interrupted prior to and bringing up previous cases as the reason for the retraction. This and other arguments as there were many and one in particular of perjury station I spoke after midnight at [REDACTED] to my sister on the line for 7,380 seconds ,123minutes, is the reason why I lost 350 I wasn't aware changed. Assurance reps and supervisors, claim to have extended the promotion without informing customers in text form, which is absolutely absurd and criminal,and to have minutes suddenly confiscated in morning hours during barely minutes in conversation . This is unacceptable,as even during covid public assistance recipients get account refilling or disconnection notifications during and prior regularly . None of the individuals I spoke to had an explanation that were the same as to why they allowed this and then snatched my minutes away. Many are working from home and reading past abusive comments to protect one another, such as telling me whether I'm on welfare or not I lost minutes and now I have to pay, mind you as I also insisted dire necessity for contact access for fighting financial hardships because I have no food stamps during covid and again I'm diabetic and also have sustained physical injury, and have a phone bound hearing with the state agency that violated these executive orders, to no avail there is no help or return of phone time. This abuse will not continue as I'm requesting proper recovery, assistance and discipline with advisory all accusations can be validated.

Date: 7/10/2020 4:23:30 PM

City/State/Zip: Portland, Tennessee 37148

Company Complaining About: Comcast

Description

I began my service with Comcast in May 2019 at my new address in Portland TN. From the beginning the internet signal was up and down. AFTER replacing the modem four times, as requested by the technical support, the issues continued. I have now had the cables from the modem to the outside connection box, The connection box cable to the telephone pole replaced: Again with the same issues. It has now got worse. Having to stay on the phone for over an hour just to get a first tier agent has been a nightmare with hangups often. Each time I call they want to blame the modem although I describe the past and it is in my account. I continue to get a technician out to the address but in most cases they are ill informed of the issues. Even with Covid restrictions, unable to work from home because of poor service.

Ticket: # 4080541 - Internet Service Issues**Date:** 7/10/2020 5:35:06 PM**City/State/Zip:** Camden, New Jersey 08103**Company Complaining About:** Comcast

Description

My internet service has been blinking in and out for almost a month and as of the past 2 days (7/9/2020-7/10/2020) it has started to affect my work and not allowed me to do my job properly. I called and complained on 7/9/2020 about the issue and spoke with a gentleman by the name of Dillion who said he set up an appointment with a tech to come out to the pole on 7/10/2020 @ 12pm. He also stated he couldn't give me a confirmation number but provided me with an agent ID# 11915 he also stated he was from the Delaware call center and confirmed his name again. Today is 7/10/2020 and no tech came out to the area so I started an online chat to try to resolve the issue and see where the tech was because it was now after 3pm. I was chatting with Samarpal who didn't seem to know how to handle the situation after he informed me that he did not see a work order in place for today. Samarpal asked me what I wanted him to do and I stated his job and I asked for a supervisor. He transferred me to a queue that showed on the screen as NED ED support where it initially said I was 0 in the queue and change moments later to 1 in queue. I waited and waited until I was eventually disconnected and ended up calling the customer service line. I immediately ask for a supervisor and was passed from one department to the next. This issue has still not been resolved as I have been trying to speak with a supervisor for now going on 46 minutes. This is completely unacceptable and has made it nearly impossible to work. Me not being able to work puts my job in jeopardy as I am not able to go into the office because there is no child care for my children due to the COVID-19 pandemic. I have obtained a ticket number from the last agent I spoke with name Hope. The ticket number is [REDACTED]. She connected me with a supervisor by the name of Gio who scheduled me an appointment with a tech for 7/11/2020 and I was also provided with a Ticket #CR914661984. A text and email was sent to me as confirmation of the appointment. I am not confident in Xfinity (Comcast) at this point so I do not know what the outcome will be.

Ticket: # 4080681 - SPECTRUM considering data caps fro Internet service

Date: 7/10/2020 6:26:42 PM

Ticket: # 4080687 - canceled Internet and TV service but still billed for a whole month of charges

Date: 7/10/2020 6:29:15 PM

City/State/Zip: Millbrook, New York 12545

Company Complaining About: Optimum

Description

I canceled service with Optimum on June 23 for internet and tv as we were moving out of the service location. I returned the cable box and modem to them as requested using their shipping label. Nevertheless I received a bill from them payable on July 6 for a whole month of service in the amount of \$89.17 from 6/22 to 7/21. They say their contract permits this - I have to pay in advance even though they are not providing me with anything. It was impossible to speak to a representative on the phone until June 23 as they did not have available - no live reps or call backs. It took me until June 23 to get through to anyone even though I moved out on June 22. I have been trying to contact them ever since. All they do is try to make me take Optimum service at the new location or get the new residents to take Optimum. They never told me to cancel it in advance. This is theft and an appalling way to treat consumers. If this is indeed their contract terms it is unfair and predatory to consumers. I cannot believe the FCC regards it as acceptable practice to charge consumers for a whole month in advance for service that has already been canceled. This is especially so when it is impossible to speak to anyone on the phone (supposedly due to COVID) and there is no possibility online to cancel service. I am being penalized by their own unavailability. How can I cancel service if there is no means of doing so? It is appalling that I have to pay a whole month when they have failed to provide a means of cancelling - I can only assume they make it as difficult as possible to force people into paying an additional month of service. They should cancel this bill

Ticket: # 4080760 - cell phone never worked properly

City/State/Zip: Oakdale, New York 11769

Company Complaining About: At&t

Description

i received an i phone seven and had a two year contract. My phone kept dropping or i could hear the person that called but they could not hear me. I called them numerous times through the years but i kept getting the same thing. They had me call Apple once to fix the problem. I gave up thinking that it was lack of towers around my area. The phone was so bad but I could not get in touch with anyone because of covid-19. When I finally did get in touch with someone in June they said I had to buy a new phone my contract was over Mid May --- they were not available to me in March because of the virus. But what shocked me was what she said. Oh some I phone 7s were faulty. I said then why didn't you replace it for me at the beginning so i would not have had to go through this hell. I once had to leave my district just to get a dial tone. I said I think you need to replace this phone because you misled me all this time. She informed me that I had to buy an iphone 11 but I could get a discount. I told her I did not need an i phone 11 a 7 or 8 what ever they had in stock would be fine. I called their office so many times and they would keep me on hold for hours and never get back to me. It was continuous so this is why I am reaching out to you for help.

Ticket: # 4080802 - Price Gouging

Date: 7/10/2020 8:03:17 PM

City/State/Zip: Houston, Texas 77048

Company Complaining About: Comcast

Description

Xfinity marketed the Premier Package that included HBO, Starz, Showtime, TMC and Cinemax. In the middle of my contract Starz and Cinemax was removed and replaced with HITZ show old movies and EPIX with random up to date movies. I filed a complaint while in my contract and they would add Starz and Cinemax back into package for 3 months. This was ongoing issues now that my contract have ended they've added Starz costing 12.00 and Cinemax - 8.99 without my agreeing to it. I have a Premier Triple Play which should provide more premium channels. My bill jumped from 252.00 to 284.00 which is a 32.00 increase. I am in the process of weighing my options and checking on Xfinity website for deals to lower my bill while keeping the premium channels. Due to COVID, I've not been able to speak to a representative to discuss my past due bill and them assist me with selecting a package that would meet my needs.

I left DIRECTV because they would make changes in their Premier packages with premium channels. Why doesn't Xfinity have feature where the customer can build their plan to meet their financial needs?

Ticket: # 4081073 - Fox Network broadcasting claims that the corona virus was a hoax

Date: 7/11/2020 7:09:42 AM

City/State/Zip: San Diego, California 92131

Description

Many times back in January/February of 2020, the Fox network was broadcasting that the corona virus was a hoax perpetrated by Democrats to undermine POTUS. There are many video instances of the virus actually being called a hoax and many more instances of Fox personalities saying it wasn't as serious as the Democrats were saying and that Democrats were raising alarms about the virus only to undermine POTUS. These lies by the Fox Network personalities and broadcast by the Fox Network has resulted so far in the deaths of 130,000 Americans and counting. Due to these many instances of misdirection by the Fox Network, far too many Americans didn't and still don't take the pandemic seriously. The Fox Network should be held accountable and shut down for its direct contribution to the spread and destruction caused by the corona virus.

Ticket: # 4081079 - Service was disrupted without warning/notification

Date: 7/11/2020 7:23:57 AM

City/State/Zip: Henrico, Virginia 23231

Company Complaining About: Comcast

Description

Xfinity put a hold on my account without warning and/or notification the day before I moved into my new house. I had transferred my service to my new location days prior with no problem. A rep walked me through the process and stated I was in great standing with them. I was told I could keep my equipment during the move. A technician would come the day I did move and if need be I could switch my equipment out with what he decided to give me. Sounds good... a day before my move, I get an automated text message saying my appointment was cancelled. Confused, I had to call customer service 3 times to finally find out that a hold was on my account due to a balance. I had the rep look at my account to see that I'm on auto pay and that I've never missed a payment. I had no balance. She tells me it may be another account, however I only have one. She gives me the number to someone she says is overlooking my account named Julie. She stated that this Julie person Left a note saying she tried to reach out and left a message which she didn't. I've called this woman over 5 TIMES and left messages over a 3 day period with no response. I am working from home due to Covid and need my WiFi. This is unacceptable. Now I'm forced to wait on Xfinity to do what they decide when they decide. This is not the first time Xfinity has done this and now it's really starting to effect my work and day to day living. I pay top dollar for Xfinity services. If they don't even have the decency to contact me regarding my account, I'd rather take my hard earned money else where.

Ticket: # 4081093 - Locked into a contract with Verizon without fair notice

Date: 7/11/2020 8:30:27 AM

City/State/Zip: Doylestown, Pennsylvania 18901

Company Complaining About: Verizon

Description

I called Verizon on or around April 2, 2020 asking for billing relief due to my salary reduction related to the pandemic. At that point, I knew that I was putting my house on the market in June (2 months later). The representative I spoke with was helpful and reduced my bill by around \$100 per month. What she did NOT mention was that this new bill would lock me into a 24 month contract with a \$350 early termination fee. Had I known that, I would have either asked what the option was without the contract or would have stayed with the existing plan.

It's now July and I have moved out of that location and no longer need the service. When I contacted Verizon they stated that the terms of the contract were e-mailed to me (they were in a very small font in light gray lettering well below the information about the new plan). There is nothing on the bill indicating I have a contract or how many months are remaining. I have attached my latest bill.

I am asking that the \$300+ service fee be waived and allow me to cancel my account and pay only the fees associated with the service itself.

Ticket: # 4081099 - Double billing and service not working properly

Date: 7/11/2020 8:34:06 AM

City/State/Zip: Landing, New Jersey 07850

Company Complaining About: Optimum

Description

Since last month Cablevision has been sending out double cut off notices one when the due date is due then again at the end of month. I've been making numerous calls to them to resolve this issue and it's still happening. They have incompetent people working for them that do not understand what you are saying or what they are doing. My premium service that I pay monthly for is not working properly, which I also called about and they told me due to covid. What does that mean. I called yesterday and set up return call. The called back 4 hours later and put me to the automated and the phone hung up. In my new Jersey area there is no other cable service I can buy so they can get away with this terrible service.

Ticket: # 4081140 - Repeated Robo call from same source

Date: 7/11/2020 10:11:52 AM

City/State/Zip: Ashburn, Virginia 20147-5525

Description

At 7:03 p.m. on 7/8/20 I received a recorded message from "Apple Support Advisor" telling me that my iCloud account had been breached. The address was "Lofton C." The telephone number from which the call originated was 434-865-9814. I was instructed to call 268-262-0000 to obtain help. Prior to COVID-19 I would receive this call at least on a daily basis.

Ticket: # 4081228 - SuddenLink Homewood CA

Date: 7/11/2020 11:49:46 AM

City/State/Zip: Homewood, California 96141

Company Complaining About: Sudden Link

Description

Suddenlink has failed to send an outdoor tech to fix the Suddenlink equipment on the pole outside my home. I have had 3-4 inside techs who have troubleshot all of the problems inside and they have repeatedly instructed me that Suddenlink needs to send an outside tech. I have reached out countless times to Suddenlink to try to schedule, it is nearly impossible to get a hold of anyone at the company and they even had an appointment scheduled for July 10 from 10-8 but never showed up, called or anything (now it says I have no appointment scheduled -- what company does that?). This is resulting in intermittent internet which is preventing my wife and I from working from home during the coronavirus pandemic. I need an outside tech to come troubleshoot the pole outside and they will not send anyone.

Ticket: # 4081328 - Tricked into Changing TV Package**Date:** 7/11/2020 1:15:26 PM**City/State/Zip:** Framingham, Massachusetts 01702**Company Complaining About:** Verizon

Description

For years I have had a Fios and Wi-Fi package with Verizon at a price that has worked for my family and I. On May 19th, 2020 I called into Verizon to inquire about changing our set-top box's remote controller, and the agent I spoke to informed me that she could get me a better package at the same cost. I informed the agent that I worked for the airlines and, with what has been going on with COVID-19, we had only budgeted for the price that I already had. She assured me that she could get me the More Fios TV and 400mbps for the same price. When she sent out the Live On Fios, I told her that it was showing the price as \$168 and she reassured me that it would update later to below \$148 if I would only click continue/accept. After everything was installed, the price still hadn't changed. When I contacted Verizon to ask them to listen to near the end of that call, no one would tell me that it was only for training purposes and not to resolve customers' complaints. In response, they then documented in the notes on my file that my package was to be downgraded. I spoke with a supervisor on July 11th, 2020 and she presented me with the option of downgrading from the More Fios Tv and sent me out the Live On Fios price which I informed her was not correct. Again, I was reassured that it would update later as long as I pressed continue/accept which is exactly what that previous agent had said to me.

The Verizon agents tricked me into accepting new prices and packages under the false pretense that I will get a better package deal once I accepted the Live On Fios terms and conditions before backpedaling and denying they ever said anything about lowering the price. Even worse, they apparently only record calls for training purposes and not the "quality assurance" that you hear at the beginning of every phone call with an agent. At the end of all of this, they won't go back and fix my bill to what it was supposed to be which is the \$148 which I was assured of in the beginning.

Ticket: # 4081388 - Fake Covid

Date: 7/11/2020 2:14:21 PM

City/State/Zip: Renton, Washington 98058

Description

NBC News hired a doctor to pretend that he had COVID and followed his “progress.” This is beyond disgusting and is projecting fabricated fear into society. They need to be held accountable for this

Ticket: # 4081576 - Cox overselling their products

Date: 7/11/2020 4:04:12 PM

City/State/Zip: Williamsburg, Virginia 23188

Company Complaining About: Cox

Description

Cox is oversaturating their servic. I have had consistent internet problems for 2 years, and COVID has only made the problem worse. Cox is the only internet provider for my area, so I cannot switch. They have a monopoly on the internet in my area and it shows by their blatant disregard for their customers. They say it's problems from my end, but after rerunning all of our Ethernet cables, getting 2 new routers, their "newest modem" multiple times, and running many network traces, the problems are coming from their end.

Ticket: # 4081600 - AT&T/Directv Scam

Date: 7/11/2020 4:20:40 PM

City/State/Zip: Brooklyn, New York 11221

Company Complaining About: AT&T

Description

I am writing to let the FCC know about a scam that is being peddled to AT&T/Directv Customers. I received a call and a follow-up email from someone named Oscar claiming that he is from AT&T/Directv and that the company was offering a promotion of 50% off of the customer's monthly bill. He had my name, phone number, and knew the amount of my last AT&T/Directv Bill \$164.58. He then proceeded to tell me that I would receive a 50% reduction to my bill for the next 2 years. In order for me to take advantage of this promotional offer, I was required to pay my bill in advance for the next 3 months in the amount of \$270.00. I asked "Oscar" if I would receive a bill for this promotion and able to make the advance payment on the AT&T website. He told me that he could sent me an email verifying the offer and requested my email address. He told me to call him back once I received the email. In the interim I called AT&T/Directv Customer Service to verify whether this was a "REAL" promotion only to learn that the company is aware of the scam. There is nothing on the AT&T/Directv website to WARN CUSTOMERS about this scam, particularly given the economic devastation that so many are facing amid this COVID-19 pandemic. It is so senseless that major companies are doing nothing to warn its customers about such scams when they have knowledge of them. Apparently, AT&T/Directv systems have been compromised if customers are being contacted by these scammers. The email was sent from Oscar@directv-promo.com.

Ticket: # 4081640 - Suddenlink Customer Service

Date: 7/11/2020 4:35:01 PM

City/State/Zip: Sedona, Arizona 86351

Company Complaining About: Sudden Link

Description

Suddenlink has the absolute worst customer service I have ever dealt with. I've called them multiple times, they put me on hold and after a 50-60 minute hold they disconnect the call. The one time they did call me back I was again disconnected before my problem was resolved. Every good company asks for a survey after they talk with you. Suddenlink wouldn't dare. They are using Covid 19 as an excuse which really doesn't apply for calls.

Ticket: # 4081656 - Denied Internet by Optimum...the only service in my area

Date: 7/11/2020 4:48:21 PM

City/State/Zip: Brooklyn, New York 11234

Company Complaining About: Optimum

Description

I received a phone call from a manager on 7/10/2020 inciting that the outstanding bill accrued by my deceased Aunt needed to be paid. I already informed Optimum throughout her hospitalization and death (which was a span of 4 months) I am not working and was never bound by a contract with them. Their company needs to check it's records as to the longevity of the account.. My Aunt is dead: whether I was visiting her or living with her, her outstanding bill is not my expense.

I have called several times in reference to this only to be contacted by the fraud department. Please note that they did not have a problem taking my money when I was informed by their representative in April that I could place my Aunt's account on hold for \$30/ month until she recovered from COVID 19 (which unfortunately she did not) Only to speak to 3/4 reps who provided inconsistent information. I know that there are laws in place in reference to COVID, and they are hindering my professional business and income by denying me the opportunity for a lively hood. Optimum is the only service in my area and they should be ashamed of themselves for scrounging for pennies from a DEAD WOMAN!

I have attached the new account order that was placed and later denied. I also scanned my deceased Aunt's funeral program for your review.

Ticket: # 4081681 - Misleading and deceptive sales practices by ATT wireless

Date: 7/11/2020 5:16:23 PM

City/State/Zip: Dublin, California 94568

Company Complaining About: AT&T

Description

ATT wireless showed a free phone(with 30 montly installment credits) if i add a new line of service. As i went through the online offer page and signed up online it showed that i will get credits of 30\$ each for next 30 payments(negating the charge) for phone essentially get phone for free if i stayed with that service line and pay charges for additional line service. After 90 days ATT says that the service play that i have is not eligible for getting that offer.

There was no mention nor did ATT block or flag that the service with two lines i currently have is not eligible nor showed me that i could move to eligible plan during the sign up process.

ATT totally has the details of the plan and my eligibility and failed to implement check in their online ordering system and ignores to check the plan i am on for eligibility when signing up plan online.

Customers find out that they are not eligible for an offer

only after 90 days at time when there is no resort but to stick to 900\$ of montly payments. This is false/misleading and unethical practice. ATT misleads customers to believe that they can sign up and later informs them they have no choice as they are on installment plan and forces them to pay the 900\$ installment fees.

Upon reaching att customer service, only other option that was provided was to upgrade to new plan of service(unlimited elite) that costs lot more or pay the 900\$ in installments upfront to buy the phone.

ATT claims that in the disclaimers and foot note sections of the agreement they have posted requirements for plans that are eligible and that customers need to check on eligibility themselves but completely fails to check on the online ordering system when they could easily check this.(Intentional Unethical Sales Practice) and or atleast forwarn the customer on these eligibility/phone charges. There is absolutely no indication suggesting anywhere in the sign-up process nor the price pages about this non-eligibility

Request FCC to check on thousands of customers who ATT leads through the same situation with misleading sales tactics especially in this time of pandemic.

Ticket: # 4081709 - Verizon Wireless Charging for Additional Data**Date:** 7/11/2020 5:50:09 PM**City/State/Zip:** San Bernardino, California 92404**Company Complaining About:** Verizon Wireless

Description

I have been with Verizon for approximately 4 years. We have a 2 Phone plan that shares 3 gigs of data. We have never gone over that limit. Suddenly on June 25, 2020 I received a text that stated data overage. On the phones one is mine and the other is my husbands. In the history of billing my phone has always showed more data use. Suddenly, his phone is way over. The other thing is we always receive a 90% use of data text message. This month we received nothing. I'm appalled that Verizon would try to extort money from its customers in the time of Covid-19. A remedy would be Verizon removing the "over data" charge from my last bill.

Ticket: # 4081878 - Number porting issues

Date: 7/11/2020 8:50:29 PM

City/State/Zip: Walnut Creek, California 94597

Company Complaining About: Verizon Wireless

Description

Switched two wireless lines on the same account to Verizon 36hours ago. Vzw switched one line but did not switch to the other one yet. Call support holds on the line over 1h. Store cannot help, chat support cannot help. Customer services only work 8am-7pm. Verizon do not provide enough customer support during covid and causes communication issues to it's customers.

Ticket: # 4081952 - Request for assistance acquiring improved broadband services during COVID-19 pandemic

Date: 7/11/2020 11:01:03 PM

City/State/Zip: Byram, Mississippi 39170

Company Complaining About: AT&T

Description

I am a guardian of 2 grandchildren of grade level 5 and 7 who require adequate broadband access as outlined by the attached document provided by the Hinds County School District , Mississippi (<https://www.hinds.k12.ms.us/cms/lib/MS01001020/Centricity/Domain/1/HCSD-Reopening-Overview-July-10-2020.pdf>)

. AT&T has communicated to us that it has no current plans to accommodate our request in spite of the fact that we have been paying customers of their bundled services for the better part of 10 years at this location ((b) (6)) We are asking for your assistance in helping us facilitate acquiring improved broadband access (speed between 12 and 50 Mb/s with a 1 TB or better data cap) . Your assistance in this matter will be greatly appreciated.

Ticket: # 4081955 - Locked Cell Phones

Date: 7/11/2020 11:02:42 PM

City/State/Zip: Spokane Valley, Washington 99206

Company Complaining About: T Mobile

Description

On 7/10/2020 I ported my two iphones and two apple watches to AT&T from Tmobile. When I inserted the SIM card I got an error message and had to call TMobile. I was informed that my devices were locked even though they were paid for because TMobile's policy is that I have to fill out a form to request my paid for devices are unlocked and it takes 72 hours. I filled out the forms last night but not I have to wait for 72 hours to receive a decision and see if my request is approved. I own the devices and don't understand how this is a legal practice. I am now left with four devices that do not work and no guarantee that this will be resolved in 72 hours. Because of COVID we are forced to work from home and this is our primary method of communication and now it does not work. Phone numbers impacted (b) (6)

Ticket: # 4081961 - Device not working - no help

Date: 7/11/2020 11:18:20 PM

City/State/Zip: Spokane Valley, Washington 99206

Company Complaining About: AT&T

Description

We ported two additional phone lines and two apple watches to our existing AT&T account on 7/10/2020 in the evening. No one told us that our phones might be locked even though they were paid for. We ported out numbers and went home. Nothing worked when we got home and when we called our previous carrier, they told us our devices were locked and would take 72 hours to unlock. The person adding the lines to our account made changes that also rendered our existing home internet device useless. When we called AT&T on 7/11 in the morning to let them know our device said it had no service the agent on the call argued with me that we didn't even have that plan and the device didn't exist. After being transferred to a person I could not understand, I hung up and drove to the store on East Indiana in Spokane Valley, WA. They told me they could help then admitted they had no idea how to fix it so they suspended the device and reported it stolen and reactivated it with a new SIM card. This did not fix it. Then they told me they didn't have a manager on site and were short staffed but they could call customer service. The person helping us in the store called and when asked by the agent on the phone if it was a DSL line he said "I dont know what that is but sure" then he followed the trouble shooting steps we had already tried like removing the battery but then he couldn't figure out how to insert the batter properly. We told him we would call customer service ourselves and left. We called and were transferred around and finally told that they would escalate us to an expert and call us back. We got a text that they hoped to fix it by 7/15/2020. We tried to view our account from our computer at home but had to get a PIN text to verify the account. The only option was to send it to the number that was just added to the line which is not the primary number and is currently still locked and not active so we called customer service again thinking this was a simple fix. The person told us that number isn't even on our account. How could it be listed as the primary number if it's not on our account? Then they walked through the steps for how to log in to the site in case we were doing it wrong. We hung up and called back. We cannot find a competent person to help us yet they are taking our money. We are left with no working internet or phones in a time when we are forced to work at home because of COVID. We are being charged for devices we cannot use and now losing income because we do not have the required services to do our work.

Ticket: # 4081984 - Cox refuses to fix my issue and gives me excuses**Date:** 7/12/2020 1:09:44 AM**City/State/Zip:** North Las Vegas, Nevada 89030**Company Complaining About:** Cox

Description

My name is (b) (6) I'm a twitch streamer so when ever the net is unstable I have various ways of finding out, the main one being unable to stream. I've been a cox ultimate customer for years while living in this building and even moving apartments and finding the same issues. I have recorded my net for weeks multiple times to show the tech that my net is unstable, it's either packet loss, disconnecting or it's too unstable to maintain even half of my speed. I am paying for 300down and 30 up. When ever the tech is on the way my speeds rise and it becomes stable, when he leaves they return to the way they were. I've done my own tech support on the side and let them know that I have a very good gaming computer, updated drivers and updated software, 2 desktop computers in my room, a switch lite and a laptop in the living room that my mother uses on wifi. Everything is lagging. I have to change their modem out every 2-3 months because of how often they die. The techs come to try to solve the issue and simply hand me a new modem. I have asked them to check the lines and they tell me the lines are fine, They weren't able to enter my house this time so I assisted the tech with the installation of my new cable. It did not help. 2 different techs say they last tech was not doing things correctly and they have to keep fixing what the last tech messed up. My bandwidth is getting 0 quality on my twitch test program while a stable stream will get at least 80. My speeds tank to 2mbps, at this time of writing this, I'm barely getting 3 of my 30, which realistically I would get about 25 because of traffic. Cox now blames my neighbors and the covid, while I explain to them that even during peek lockdown here in las vegas I was able to stream at my usual settings with no issues. I also told them that this is the same issue I've been having for years before covid. I have screenshots and recordings of my issues and speeds. Atm 2mbps out of 30. tech says it's the node but they won't do anything about it, or that our tower is too far. My stream can go up to 6000 bitrate, my program auto tracks my bandwidth and tells me how high to set it, this is unstable, so i lower it to 4k and it went well for a couple of weeks, this is unstable, it now tells me the best i can do is 500bitrate and fluctuates between 1000, 500, 300, etc. My kbps goes from 8k to 400 to 7k to 200. It's so unstable my stream looks like a power point presentation. I have this all recorded. twitch.tv/aoreka my streams are lower quality and unstable. <https://www.twitch.tv/videos/670136325> . They refuse to check the nodes, they say the lines are fine, my cord has been replaced with my own money. They don't check the tap, they have no idea why mysteriously my speeds tank. I am paying full price for net I cannot use, they won't even lower my bill to accomodate me. I am getting 2-4mbps of upload speed while paying for ultimate. All they do is offer me gigablast, even this elite gamer add on I paid for doesn't work. I've had supervisors tell me it's probably the node or tower distance, but no follow ups happen. I am extremely frustrated with this. I just want stable speeds, I'm losing money because I can't stream but they charge me full price. Now they are telling me they changed the service without notifying me, from 30 to 10. I upgraded to gigablast which is 1000 down and 36 up, it lasted for 2 hours and tanked down to 300down and 12 up. This is infuriating!

Ticket: # 4081998 - Nudity

Date: 7/12/2020 1:45:14 AM

City/State/Zip: Seaview, Washington 98631

Ticket: # 4082134 - incorrect charges to my billing

Date: 7/12/2020 10:57:53 AM

City/State/Zip: Conroe, Texas 77304

Company Complaining About: Sudden Link

Description

Being overcharged and charged for services not needed. I have bills for last 6 months showing that they are charging me for modem rental, I am not renting or using modem from suddenlink, I own my modem. I did not have cable service for almost 2 weeks when I signed up in January, techs were sent out 3 times with 3 different cable boxes during those 2 weeks to get it working. Now my internet service was down intermittently for more then 2 weeks again, between the month of May - June . After the first week, they explained they needed to send a technician to my home during this pandemic, technician arrived and found no issues as my husband had explained there were no issues in the house (HE IS A NETWORK ENGINEER) and he explained the issue was on Suddenlink network, he never wanted anyone to come to the house, but they insisted with technician at no charge. I got charged another \$60 for technician, they lied about this and claimed he fixed the issue, problem persisted for another week or more. My husband was finally informed that they were working on the infrastructure, a total of 5+ call were made during these several weeks.

Ticket: # 4082208 - Suddenlink's inability to comply

Date: 7/12/2020 12:45:38 PM

City/State/Zip: Fort Polk, Louisiana 71459

Company Complaining About: Sudden Link

Description

We have been lied to the past 3 days about when a technician will come to hook up service. I know covid 19 has hindered many bussiness, but I imagine not to the point where they are flat out lying to their customers. My husband is a military personal that works remotely and has been a customer with them for over a year. He has never been late with any payments so I do not understand why they can not do what they say they are gonna do.

Ticket: # 4082210 - Uverse services disconnected

Date: 7/12/2020 12:47:28 PM

City/State/Zip: Miramar, Florida 33025

Company Complaining About: AT&T

Description

My services was disconnected twice within a 14 day span on June 5th and June 19th. Uverse updated bill reflects \$95.22 increase for restoration fee. As per Governor DeSantis there should be no disconnection of utilities due the pandemic. Why was there a disconnection in service twice in month? Why am I being charged a restoral fee?

Ticket: # 4082291 - Untraceable phone call

Date: 7/12/2020 2:43:59 PM

City/State/Zip: Merced, California 95348

Company Complaining About: Assurance Wireless

Description

I have physical evidence the CIA is committing treason. I called the inspector general and reported the truth. The inspector general called me from 703 706 2000 from virginia 4 days ago. The exact time of the phone call was July 8th, 2020 at 3:27 PM. My phone number is 209 285 3097. Since I really have physical evidence the President is being betrayed by the CIA and is not being briefed intentionally, and since the CIA director John Brennan is denouncing Trump's dignity, I believe I might have to, despite my poverty, greyhound from california to washington DC and stand outside the white house with a picket sign "I have physical evidence the CIA is committing treason/betraying the president!" I do not want to get COVID, so please just document that the Inspector General called me and is hiding the truth from the American People!

Ticket: # 4082307 - Internet bill

Date: 7/12/2020 2:57:26 PM

City/State/Zip: Ridgecrest, California 93555

Company Complaining About: Mediacom

Description

I charge the internet speed to from 100Mb to 200Mb. so bill was \$69.00 and now my speed is 100Mb to 200Mb and bill is \$79.99 and \$10.00 individual services, total bill for just internet only \$89.99 a month. Now with COVID-19 and kids at home for school this up coming 2021 school year . we are paying for \$90.00 for internet, this is not right. Ridgecrest ca. we have only 2 options for high speed internet.

Ticket: # 4082325 - AT&T canceled my low income / cost high-speed Wireless

Date: 7/12/2020 3:21:01 PM

City/State/Zip: Sacramento, California 95814

Company Complaining About: AT&T

Description

AT&T canceled/suspended my low income/cost high-speed wireless Account number: (b) (6) over \$57.00 and refuse to assist me pandemic.

Regardless of their pledge to assist their customers. I don't have internet or TV for days now, and I don't know what's going on or how to keep safe, plus I'm disabled.

Ticket: # 4082326 - Spectrum will not prorate final bill

Date: 7/12/2020 3:21:10 PM

City/State/Zip: Boerne, Texas 78015

Company Complaining About: Spectrum

Description

I just cancelled my service with Spectrum. My billing cycle just started a week ago, and I was told they do not prorate bills. They said this is how ISP's work. This is ridiculous. Especially during a pandemic when there are so many people out of work that really need the money.

Ticket: # 4082331 - Xfinity/Comcast will not fix problem

Date: 7/12/2020 3:30:02 PM

City/State/Zip: McMinnville, Oregon 97128

Company Complaining About: Comcast

Description

I recently started a position which I have to work from home via a computer and a VOIP phone. I had already been experiencing issues intermittently with disconnecting prior to taking the position and had called them, but figured my Internet company could figure it out. Well they kept saying it was my equipment, so I replaced all my own hardware with Certified Products they recommended and I still drop consistently during the day which disconnects me from speaking with my clients which is creating issues with my ability to make a living. I am told the technicians cannot come due to Covid and I explain that I see trucks driving around and I know they are still installing equipment, so why cannot they fix an issue that is affecting my livelihood. I have been told twice they are monitoring my situation and will let me know when they can fix it. I need assistance in getting them to troubleshoot the problem from my end because that is the only way they will determine and fix the problem. I might lose my job over this.

Ticket: # 4082377 - Comcast Deceptive Practices

Date: 7/12/2020 4:33:45 PM

City/State/Zip: Sandy Springs, Georgia 30328

Company Complaining About: Comcast

Description

On 7/10/2020 I worked with a Comcast agent to lower my bill.

I told the agent that no matter what we worked out, I did not want to change any of my channels. We were able to lower my bill from 219 to 178. Today , I find that I am missing channels. Now Comcast tell me I must pay more. Today they also dropped my phone service with no notice. These are deceptive practices and very troublesome during the covid-19 era. Please help.

Ticket: # 4082384 - Faulty internet service

Date: 7/12/2020 4:41:06 PM

City/State/Zip: Covington, Georgia 30014

Company Complaining About: AT&T

Description

90 homes in the Reserve at Bear Creek subdivision pay an average of \$40-\$50 a month and have inconsistent service. The front of the subdivision has 30mbps download and the end of the subdivision has 3mbps download. COVID-19 has forced many in our subdivision to work from and students to attend school virtually. With the poor internet quality residents in the middle to the end of the subdivision have difficulty with those tasks. Replacing the old cooper line with fiber optic or cellular could solve the problem.

Ticket: # 4082579 - Refusal to stop fraudulent attempts to collect charges showing in error

Date: 7/12/2020 7:51:33 PM

City/State/Zip: Corte Madera, California 94925

Company Complaining About: Comcast

Description

On 3/27/2020, shortly after our first local COVID-19 shelter-in-place order began, I contacted my local Comcast/Xfinity about a new order for Internet only I had placed for an apartment I MIGHT or might not be moving to. The COMCAST representative specifically moved the date to POTENTIALLY activate to 5/2, and he explained that since the order was on an "activate yourself telephonically" - if I did not endup moving the account and order would never go live and charges would never start. Due to complications and risks of moving during COVID and an ongoing serious medical injury, as I suspected I never moved to the new address (in Corte Madera). Unfortunately, COMCAST will not stop calling me (more than 10 times!), texting & harassing me. They ignore my explanation of the situation - which I have made to their representatives several times (and each time they act as if they have never heard of the situation, and want me to hold to talk to more people). I followed their instructions. There should be no charges for this account - for a place I never lived in and an account which was never activated - at least not under my name. If there are any - and aparrently there are - they are solely the responsibility of Comcast as they would be singularly generated by them due to their administrative errors. I never even physicially set foot in the premises as views & rental of apartments was all done at that time by internet and phone with on in-person visits allowed. Before ever travelling to the premises or even getting keys, all pre-rental activities were cancelled by me & the building management. Address: (b) (6)

Ticket: # 4082616 - windstream

Date: 7/12/2020 8:54:18 PM

City/State/Zip: Stanford, Kentucky 40484

Company Complaining About: Windstream Communications

Description

Windstream was part of stay connected till the end of June , because of the covid-19.i have been cut off last month and have been getting late charges all along. they done my telephone the same way.

Ticket: # 4082626 - Television Packages/Internet Service**Date:** 7/12/2020 9:17:16 PM**City/State/Zip:** Trenton, New Jersey 08611**Company Complaining About:** Comcast

Description

Good Evening. I have been trying to cut costs for awhile now, due to the COVID 19 pandemic; however it seems like Comcast Infiniti has almost made it impossible to do so. I have been trying to drop down to a lower TV channel package to save money (all the way down to the most basic one), but I was informed that if I do this - My internet speed will negatively be impacted as well. I am currently working from home and the children need to do their schoolwork/summer enrichment activities as well; therefore I cannot afford for that to happen. I asked if I would be able to cut all of the TV channels, which would drop the price significantly; but was told I still would not be able to have the enhanced internet package. I then asked if I could pay to have the increased internet speed and bandwidth, so all of us can use our devices without degraded performance; however I was told that is not an option either. Working from home is of utter importance to me right now and I cannot conduct business properly with any internet interruptions or lagging. The internet service was so poor a couple of months ago (even after paying for their premium package), that I was forced to rent a new modem from them. Then their physical store by me closed to the public, due to safety concerns brought on by the crisis, so I was unable to return the old equipment to them and they charged me for it. I was instructed to send it back via the UPS Store; but at that time the UPS store was closed as well. I have already cut an additional sports package and recently cut a premium movie channel - not to mention over the last year or so they removed several other premium channels from my package anyway. I really don't understand why my bill is still so high, while I am being informed I have no other options to rectify this Internet situation. There were at least 3 rate hikes again this year, ranging from miscellaneous fees (as always), to content up-charges and increased equipment prices.

Ticket: # 4082633 - Internet Service/Television Packages**Date:** 7/12/2020 9:26:24 PM**City/State/Zip:** Trenton, New Jersey 08611**Company Complaining About:** Comcast

Ticket: # 4082657 - inmate calls

Date: 7/12/2020 9:47:46 PM

City/State/Zip: San Antonio, Texas 78220

Company Complaining About: Bexar County Jail/ Ics Solutions/ Fcc

Description

the rate per minute 21 cent p/min + svc fee then the tax rate. tax rate that constantly changes. for adding \$50 i have paid \$67.26, \$66.46, and today it went up to \$69.91. WOW charging almost \$20 for adding \$ to inmate phone account. is there a way to have this looked into? this is outrageous. yes the inmate committed a crime, and he is serving his time. commissary is a privilege along with visits and phone calls. but they choose commissary according to budget the items are more than at a grocery store. but that's part of their punishment i assume. but to rob the families whom are lacking one less income, keep children close to inmate, pay for attorney, send money for hygiene then these outrageous fees for calls.. whom can i direct this complaint to? inmates are worried about ther families with all this pandemic. finances are hard on everyone. especially those whom have lost their jobs. some even died..

Ticket: # 4082669 - [cnn,nbc,washingtonpost,fox](#)

Date: 7/12/2020 10:09:11 PM

City/State/Zip: Clayton, Delaware 19938

Description

i believe when news organisations put out "fake news" like they have been doing for years they should either not do so or put something in the broadcast that its opinion. 90% of the news is fake nowadays. i mean nbc's Dr didnt even have covid and lied about it. also the trump speech at mt rushmore wasnt racist like they all called out. just pick a story and research its either worded to make the story look the other way or a flat out lie.

Ticket: # 4082670 - False health information

Date: 7/12/2020 10:09:18 PM

City/State/Zip: Woodinville, Washington 98077

Description

Fox News personalities regularly disseminate false health information re: COVID-19. Since they are considered authoritative by those that watch them, their promotion of going without masks during a pandemic is a health issue that has been shown to contribute to actual deaths. Please speak to them about this issue and tell them you will not allow actual, false health information to be promulgated by anybody.

Ticket: # 4082736 - Verizon Wifi

Date: 7/13/2020 12:06:33 AM

City/State/Zip: New York, New York 10013

Company Complaining About: Verizon

Description

I have not had WiFi since March 2020 when the outbreak of Covid just started. I have called Verizon countless times with proposed dates on when someone can come and fix it for us. Unfortunately, after 4 months nothing has been done and we still do not have WiFi. This is directly impacting my ability to work from home and is unacceptable. I need someone to escalate this and amend the issue for me. Thanks.

Ticket: # 4082836 - Terrible internet service

Date: 7/13/2020 8:16:21 AM

City/State/Zip: Fairfield, Connecticut 06824

Company Complaining About: Optimum

Description

Good morning – we have a Optimum for our phone /TV/internet service . Throughout the pandemic we've had periodic outages but they were usually resolved. In the past month we have had pretty much daily outages for anywhere from 2:45 to 4 hours. We have called them almost daily and we get the same message there's an outage in your area we will send people to fix it because it's outside your home but yet we still have the same issue it's incredibly unreliable especially for the family members who have School or work from home. We can't even get a manager on the line. Is there anything you can do to help us?

Ticket: # 4082894 - Optimum Installation and Service**Date:** 7/13/2020 9:12:48 AM**City/State/Zip:** New City, New York 10956**Company Complaining About:** Optimum

Description

I signed up for Optimum internet service. On July 11, 2020 an Optimum technician came to install the equipment and wiring. He cut and disconnected my current providers wiring and put Optimum wiring in their place. He then left my premises and advised that a different installer would be coming to complete the installation and connect me to the internet. No one from optimum has returned and I have been without internet for two days. I am working from home during the pandemic and cannot access the internet to do my job. Also the installer damaged my homes brand new paint job while installing the wires.

Ticket: # 4082925 - No Internet service

Date: 7/13/2020 9:31:06 AM

City/State/Zip: Winchester, Kentucky 40391

Company Complaining About: AT&T

Description

I live at in Winchester, KY and am unable to get internet service (reliable). At & T provides service to almost all residence on our road except the last two houses on this road. I am one of those people. Our house is in a rural area but they also provide internet to other residence farther than my house. This I do not understand. Spectrum does not provide this service either. They expect us to use a satellite, which is very unreliable and not worth the money. I have ask, when At&T will complete the installation of fiber in my area and they cannot give me an answer. I cannot work from home because I have no internet. This puts me at risk everyday for catching corona virus. I would think that an effort would be put forth to help people during this pandemic . Getting tired of calling numbers given to me with no response or follow up. I live at (b) (6) . I need help in acquiring a reliable and affordable internet service.

Ticket: # 4082958 - Boost Mobile

Date: 7/13/2020 9:44:18 AM

City/State/Zip: Cape Canaveral, Florida 32920

Company Complaining About: Boost Mobile

Description

Boost Mobile chose to "upgrade" a communication tower within zip code 32920. The physical addresses affected is Long Point Road, Cape Canaveral, Florida 32920. I have spoken with Boost Mobile customer service and they have agreed that service has been out for 4 days now and that they do not know how much longer service will be out. Due to this, all customer of Boost Mobile in this area have not had any phone service. I had to go out and buy a second phone because of it. Because of COVID we are advised not to leave our homes. WE MUST HAVE SERVICE!

Ticket: # 4082966 - Billing Issues

Date: 7/13/2020 9:50:53 AM

City/State/Zip: Comstock Park, Michigan 49321

Company Complaining About: Comcast

Description

- The consumer is calling about Xfinity as her carrier
- She has a bundled package
- She states they are price gouging thru the pandemic
- She states they switched her to paperless billing
- She states this cost her an extra \$5/month
- She states they installed a cable line in her yard and never buried it
- The consumer wants a refund for her paperless bill that she did not turn off
- She wants them to pay her \$100 for the cable line

Ticket: # 4083047 - KETX Jacksonville

Date: 7/13/2020 10:20:11 AM

City/State/Zip: Oakwood, Texas 75855

Company Complaining About: Ketx

Description

I live in a rural area of Texas where the only signal my indoor antenna can receive is KETX. NBC, Grit, Ion, Antenna

Almost every weekend and sometimes during the week, these channels go black.

The signal is there but no picture or sound.

Thus they are failing the FCC mandate to provide OTA television.

I can't afford cable, dish or any of the other services.

SSI shitty \$783 a month only goes so far.

with this Covid shit and that moron in the White House fucking everything up, television is the only relief I get.

So, raise some hell and get me some local tv.

Ticket: # 4083071 - Internet service help

Date: 7/13/2020 10:29:23 AM

City/State/Zip: Piles Grove, New Jersey 08098

Company Complaining About: Hughes Net

Description

I am reaching out hoping to get pointed in the right direction for some possible help with basic amenities. I will start with whenever we have inclement weather we lose our phone service which prevents us from being able to call 911 in case of an emergency. We are in a cell phone dead zone (regardless what the coverage map says). We are unable to use WiFi calling because the only internet available on my street is satellite which is bad on the best of days. When the COVID outbreak closed schools my child was unable to attend online classes due to this poor internet option. Satellite internet is our only option (once again coverage provided is nowhere near what is promised). Comcast is available at the end of the road but want \$10,000 to run it to my home. Basic internet is now a utility and not a luxury. I love my area and would hate to move but due to the current situation I am not having many options. I am hoping I could get pointed in the right direction.

Ticket: # 4083088 - Disconnection through Pandemic

Date: 7/13/2020 10:39:49 AM

City/State/Zip: Decatur, Georgia 30033

Company Complaining About: Sprint

Description

Being with Sprint for over 14 years, they are disconnecting me in a pandemic since I'm not able to pay due to being furloughed in March.

When the FCC expiration date pertaining to phone providers not being able to disconnect customers expired July 1st, unfortunately that is when Sprint started threatening to cut off my service.

Furthermore, this has caused a lot of unwanted stress since my phone service is essential to be able to connect with family especially when I'm not able to see my family face to face due to me having a comprised disease preventing me to not be around family, friends, and associates as well small enclosed areas under doctor's orders.

Moreover, I'm making this complaint asking the FCC to not only extend the services until December of 2020 for all customers not allowing customer phones lines to be disconnected since phone service is essential, but also mandate phone providers to reduce customer's bills every month by half along with their current phone bill since many people like myself have either been furloughed, or unemployed, due to Covid-19.

Lastly, if you can also investigate phone providers customer service practices, along with looking into their billing practices that would be great as well because they maybe overcharging customers like myself especially on taxes, equipment, and phone lines making it impossible for customers to catch up with their phone bill during hard times through this pandemic.

Kind Regards,

(b) (6)

Ticket: # 4083148 - Verizon won't install our internet service for 4 month!

Date: 7/13/2020 10:58:34 AM

Ticket: # 4083168 - Internet connectivity

Date: 7/13/2020 11:03:28 AM

City/State/Zip: Edison, New Jersey 08820

Company Complaining About: Optimum

Description

I have optimum online and pay for 100 mbps plan. However for last few months the download speed is about 20 - 30 mbps. In addition, the connection has frequent interruptions with spotty service at least 5-6 times a day. We have tried to call Optimum several times and waited over a hour on the phone with no response from an associate. Many of the neighbors are facing the same issue. With Covid 19 situation, having to work from home and remote learning for the kids, it is essential that a quality service is provided so that our livelihood and kids education is not impacted. So far Optimum has been completely unresponsive and irresponsible in their approach. Please help fix this issue with Optimum.

Ticket: # 4083226 - Direct TV billing/account

Date: 7/13/2020 11:17:39 AM

City/State/Zip: Harrisville, Michigan 48740

Company Complaining About: Directv

Description

I was sold this service through Future vision, told I had Direct TV and received bills from AT&T. I began calling AT&T/Direct TV on 5/4/20 to cancel my service since my bill had more than doubled. It took over a month (many phone calls) to "authenticate" because the sales person who sold me the service set up my account with passcodes and security question and emails that I did not know. Once I was able to access my account (6/8/20) I called to cancel. I was credited the past due amount at that time and told the cancelation would take affect and the balance would not be charged since it was before the due date. However they did not process my cancelation on 6/8/20 they waited until after the next billing. I received yet another bill for the balance due. I called again 7/13/20 to get this charge removed and was told they could not because the cancelation did not take place until 6/22/20. In May when they could not "authenticate" my account, I was told I would have to go to a corporate store and show my ID (even though during Covid everything was shut down). The nearest corporate store is 2hrs away and I was NOT doing that, so I had to wait for temporary passwords to be mailed to me in order to set up my online account so I could then correct all the wrong information that was associated with my account. I was told in May by 2 different people, that they could back date the cancelation. I was told on 6/8/20 I would not have any more charges. Now they say they can't do anything about the charge still on the account. I demand this balance be removed and my already canceled account be at zero balance.

Ticket: # 4083388 - Comcast - Cable, Internet & Home Phone

Date: 7/13/2020 11:56:23 AM

City/State/Zip: Marietta, Georgia 30008

Company Complaining About: Comcast

Description

It's been since March 20th (after Comcast Tech came out and re-wired my internal wiring) I noticed that my cable boxes nor my home phone is working. My Internet goes out at least one time per week. Comcast refuses to send someone to repair....stating COVID. Just FYI I have been paying my bill every month.

Ticket: # 4083647 - Internet Provider failed to provide

Date: 7/13/2020 12:52:10 PM

City/State/Zip: Brewton, Alabama 36426

Company Complaining About: Sardis Telecom

Description

On March 13th 2020. Internet service was ordered via phone call to Sardis Telecom (b) (6). They took money from my account on March 16th 2020. I never received my internet equipment in the mail even though I called periodically to check on the status of my order. The person on the phone was the same woman each time and she could never give me a straight answer. So finally on July 1st I requested via their website for a refund. They responded with a ticket number but that was it. So I called again today exactly five months from the date it was ordered and again no clear answer of when my refund will be given. \$240 was paid to this company. Because of covid19 my son needs internet because he is doing online school this fall and I need that money to help pay for internet for another provider. This company is the most unprofessional, irresponsible company I have ever dealt with. The customer service is non existent. I have tried tirelessly to reach out to them with no resolution in sight. I need answers and at this point I just would like a refund. I no longer want any service from them at all.

Ticket: # 4083680 - Toll free number portability problems with Verizon

Date: 7/13/2020 1:00:25 PM

City/State/Zip: Providence, Rhode Island 02940

Company Complaining About: Verizon

Description

We switched from Cox Communications to Verizon. The Verizon sales rep, after being informed that our 4 toll free lines (that correspond to our local numbers that we were also switching to Verizon) are integral to our business, neglected to inform us that due to Covid 19, Verizon Long Distance was not porting numbers. Once I Learned this from Verizon Long Distance, I contacted my sales rep and she informed me that she would "find a solution". Verizon installed the service on 6-12-20 and we lost access to our toll free lines on 6-15-20. I was able to regain access to the toll free numbers with the help of Cox on 6-17-20. After speaking to Angela in long distance dept., I completed a Resporg form with Verizon on 6-17-20 so that the toll free lines could be transferred to Verizon in "5-7 business days." On 7-9-20 we lost access to our toll free lines. They were ported to Verizon but Verizon did not complete the porting correctly and as of today, 7-13-20, we are still without our toll free numbers. Our customers are getting a message when they call these numbers that says the number is disconnected, is not valid or just a busy signal. This has caused great financial damage to our company and I cant's even imagine how many of our customers think we are out of business. We are a national manufacturing company that offers 24 hour turn around on our products. Most of our customers reach us by phone and fax. The toll free numbers is how they reach us. We need these numbers working ASAP. It is catastrophically damaging our business.

Ticket: # 4083691 - Issues with channel 235

Date: 7/13/2020 1:01:55 PM

City/State/Zip: Miami, Florida 33133

Company Complaining About: Comcast

Description

- The consumer is unable to view channel 235.
- When the consumer called to address the issue, they told her they are unable to send a tech due to COVID-19.
- The consumer said they are refusing to help her, but the consumer wants them to fix the issue.
- The consumer is wanting the services she is paying for.
- The consumer has internet and TV services

Company Complaining About: Centurylink

Description

I've inquired multiple times for a phone landline and high speed / broadband internet service. While they have serviced this address before, they say that I'm at the end of the line, they do not have room for my address, and have no plans to expand. I have contacted 2 companies in the area, with the same response. Fiber is located within 3-4 miles (if not closer) of my residence. I'm a work from home employee of a technology company; due to COVID I'm unable to travel or work elsewhere. I've been fighting this battle for months. To solve this issue, I would require a phone landline and fiber internet/broadband services.

Ticket: # 4083834 - Lack of phone landline/inability to call 911, and no broadband/internet service-Mark Twain Rural Telephone Co.

Date: 7/13/2020 1:39:03 PM

City/State/Zip: Ewing, Missouri 63440

Company Complaining About: Mark Twain Rural Telephone Company

Description

I've inquired multiple times for a phone landline and high speed / broadband internet service. While they have serviced this address before several years back.

They have stated they cannot provide service to this address now and have no plans to expand their fiber out this way. I have contacted 2 companies in the area, with the same response. Fiber is located within 3-4 miles (if not closer) of my residence. I'm a work from home employee of a technology company; due to COVID I'm unable to travel or work elsewhere. I've been fighting this battle for months. To solve this issue, I would require a phone landline and fiber internet/broadband services.

Ticket: # 4084143 - False Broadcast of News Concerning COVID-19

Date: 7/13/2020 2:55:39 PM

City/State/Zip: Washington, District Of Columbia 20004

Description

Dr. Joseph Fair, a virologist on NBC, falsely claimed that he contracted the coronavirus by flying on an airplane. He claimed that he contracted the virus through his eyes. He filmed himself at the hospital repeating his false claims of battling the coronavirus, false claims which were repeated by NBC through the Today Show. The lies cost me to lose money in the stock market and I demand compensation

Ticket: # 4084231 - Internet Service continuously down

Date: 7/13/2020 3:15:00 PM

City/State/Zip: Oregon City, Oregon 97045

Company Complaining About: Clear Creek Communications

Description

Our internet service, and that of our neighbors has been going offline consistently the last 2-3 months. I have placed a service call three times in the last 3 weeks. They have replaced my modem twice. Once we learned our neighbor was also experiencing issues they are now telling me they have received complaints from many customers in our service area. Talked w/manager on 7/6 - he was sending tech out. Asked him to call me back with status and no call to date. Internet went down again evening of 7/11. Makes it a challenge working remotely and our son doing online college during the pandemic. We are not receiving the service we are paying for!

Ticket: # 4084348 - Optimum Wireless - charge for 200mbps speed only provides less than 10

Date: 7/13/2020 3:38:50 PM

City/State/Zip: Stamford, Connecticut 06901

Company Complaining About: Optimum

Description

I use Optinum Wireless for my internet. I pay for 200mbps speed but I only get less than 10mbps speed after Covid. Their customer service system is terrible - they make you wait for 1 hour on the phone and then tell you that you got to the wrong department. It is impossible to get a refund and given Optinum almost have a monopoly in the area. One representative told me that if I want to a better speed (for example, 40mbps), I have to upgrade to 300mpbs. I said that I paid for 200mbps already, why can't I get 40mbps? He said that sorry he can't help me and I have to pay more. This month, they just increased by rate by \$15 per month for the same 200mbps speed and still providing terrible service (I cannot even open websites). I hope the FCC looks into their operations as to me, this is false advertisement and almost a scam due to duopoly/monopoly.

Ticket: # 4084359 - Verizon FIOS

Date: 7/13/2020 3:42:23 PM

City/State/Zip: Flourtown, Pennsylvania 19031

Company Complaining About: Verizon

Description

Ordered internet service 3 weeks ago. Technicians out multiple times, citing a need to connect to underground cables. "Underground crew" non-responsive. Company has failed to give me an installation date, what the next step is, and who owns the issue. I'm in a new state, a new job, and entirely in the dark on what it will take to get internet access in the middle of Covid-19. I can't do my job without internet access - please help.

Ticket: # 4084466 - Billing

Date: 7/13/2020 4:06:05 PM

City/State/Zip: Eldorado, Arkansas 71730

Company Complaining About: Verizon Wireless

Description

Verizon wireless has been disconnecting my service for the past 2 months when I have already paid my bill. Then a reconnect fee mysteriously appears on my bill when my service should never have been cut off to begin with. I've spent at least 4 hours on the phone dealing with them over these issues and no one is compensating me for my time. Also they are deliberately slowing down data speeds in order to boost their revenue and that needs to be looked into as well. This company is trying to cheat people during the coronavirus and blaming the virus for their deception. They need to be fined, for what they're doing. I have some evidence to support my billing issues and the data speed as well but they definitely need to be fined for what they're doing because it could be harming kids in poverty that rely on internet to complete school. Instead they are trying to deliberately make them pay more for access because they are slowing down data.

Ticket: # 4084508 - Still no resolution

Date: 7/13/2020 4:17:32 PM

City/State/Zip: Paola, Kansas 66071

Company Complaining About: Sudden Link

Description

I filed a complaint previously about a tech leaving a "we missed you" sticker and leaving. The subcontractor finally is the one who reached out and sent another tech out since Suddenlink never did. We have lost internet EVERY DAY in July which is a HUGE problem since my husband is having to work from home due to Covid. Suddenlink still has failed to fix the problem and when I last spoke to a rep, they said would not give us any credit because we haven't lost internet for a full day. Only 15 minutes-4 hours every day. But yet just this year they decided to raise my monthly bill by \$10. Their service, or lack thereof is not worth this and I'm tired of them not being held accountable. I pay for a service, I expect it to work. Just like my husband is expected to be able to work his job or he doesn't get paid. I also requested 3x last week to speak to a supervisor. Each time I was told a supervisor would call me back. I have yet to receive a call.

Ticket: # 4084581 - Billing/ service/COVID-19

Date: 7/13/2020 4:35:46 PM

City/State/Zip: Grambling, Louisiana 71245

Company Complaining About: Directv

Description

Consumer states that he does not have any service since June, 26.2020. Consumer states that there was a problem making the payment to his AT&T account and the Direct TV account and they do not want to be responsible about it. Consumer states that he called them many times and they still do not want to help him to restore his services. Consumer has an uvers account. Consumer wants his service to be restore immediately. Consumer wants a credit for all the time that he was with no internet service.

ctr408-phone

Ticket: # 4084678 - Cell unfairly disconnected promise broken by AT&T

Date: 7/13/2020 5:03:40 PM

City/State/Zip: Vestal, New York 13850

Company Complaining About: AT&T

Description

I made a arrangement with AT&T I was told as long as I do my part all will be fine. I did. They still cut my service this has never happened to me. This all started with covid. They pushed back bill. But it was not pushed back or a new arrangement made like every other company. Instead they added the 3 months then 90 days later they wanted 3 months payment on one bill. I can't feed my family without my phone. I do grubhub and doordash besides my full time job. The dominoes affect is going to kill me, I help my promise but was truly burned. Please please help.

Ticket: # 4084690 - Portability Delays

Date: 7/13/2020 5:04:49 PM

City/State/Zip: Shelby, North Carolina 28150

Company Complaining About: AT&T

Description

I closed my office and asked for my phone numbers be advanced to my open offices. Due to covid I had to close one office and found that an office I closed last year did not get properly closed. I have been on the phone over several phone calls each taking over 2 hours. Each saying they have resolved my problem. AS of today I am on the phone again and still no one wants to take the trouble to resolve my problem. These are business lines and I am missing customer contacts as a result of my numbers not being accurate. I even had to apply for a business mobility account on my last call dates 7/7/20 with tech JM 2870. After applying I was assured that I would received 3 phones in the mail and my old phone numbers would be pushed to those numbers and then pushed to my current landlines which are Spectrum because ATT does not come to this area.

Ticket: # 4084727 - Mobile service disconnected during Pandemic

Date: 7/13/2020 5:13:21 PM

City/State/Zip: Newark, New Jersey 07108

Company Complaining About: Cricket

Description

My mobile phone was cut off by Cricket during the pandemic. I was trying to pay them and made a mistake of approximately 1 dollar short. They shut my phone off and said I had to pay a reconnection fee of 15 dollars. I asked to speak to a supervisor. Explain about the executive order in New Jersey not stop service. I also mentioned the FCC. but to no avail the charged me 10 dollars reconnection fee. I appreciate any courtesy you can extend. Thanks

Ticket: # 4084732 - Verizon complaint

Date: 7/13/2020 5:15:06 PM

City/State/Zip: Albany, Oregon 97322

Company Complaining About: Verizon

Description

I have repeatedly attempted contacting Verizon by phone and chat for over two hours to make billing changes. Verizon customer service will not answer their phone or live chat and have closed their Verizon store in my city (Albany Oregon) This is how a mega size corporation misuses corona virus for profit

Ticket: # 4084859 - Xfinity/Comcast billing and service issues

Date: 7/13/2020 6:02:54 PM

City/State/Zip: Palm City, Florida 34990

Company Complaining About: Comcast

Description

We are having issues with the cable box, and we figured out ourselves (Comcast couldn't figure anything out) the box was bad. We suggested Comcast bring a new box and we will leave the old box by the front door so no contact. My mom had to pay 99.00 for them to say no sorry we can't help you due to COVID 19 & they refused to help us at all. My mom is 83 and is sick (her heart) it's her account. They are bullies on the phone! They extort money before they will say sorry we can't help.

Ticket: # 4084898 - Caller ID spoofing?/unauthentication

Date: 7/13/2020 6:24:23 PM

City/State/Zip: Bainbridge Island, Washington 98110

Company Complaining About: Puget Sound Energy

Description

Received robocall from Puget Sound Energy saying our power would be disconnected in 30 minutes due to nonpayment, which was absolutely untrue! We called our bank and verified that our last payment had in fact cleared the bank. We verified that the number on our caller I'd matched Puget sound energy's customer service number. We called Puget Sound Energy and confirmed that all is well with our account and they said that during Covid they weren't even disconnecting anyone's power anyway. The call came in around 2PM, Monday, July 13, 2020. The problem is solved as far as we are concerned. Thought you should know that this is happening, as it appears to be phishing to me! Thank you

Ticket: # 4084910 - Internet outages

Date: 7/13/2020 6:29:48 PM

City/State/Zip: Greenville, Mississippi 38703

Company Complaining About: Sudden Link

Description

I've been having internet outage on and off since I've been with Suddenlink and found out just a month ago when tech came out that they gave me a modem that could only hold 400 Mbps when I've been paying them for 1000mbps. Now this outage once again service been out since Friday and they say they can't get anyone out until Thursday. I just finished my certification for another position with my job working from home Tuesday July 7th. This is sad and I may lose my statement of work because of this. My kids are also homeschooled and we have this pandemic going on. This is all people have to look forward too right now is their internet. I'm very disappointed in this company and this is the only company that provides the amount of service I need in my area. I have never been compensated or given a credit for the services with this company.

Ticket: # 4084947 - DIRECT TV

Date: 7/13/2020 6:45:51 PM

City/State/Zip: San Gabriel, California 91776

Company Complaining About: AT&T

Description

I have Direct TV with Premier Protection. I paid \$50 back on March and sent my computer HP ENVY 27 ALL.IN ONE COMPUTER which my son is using for school lately since the Pandemic broke out. Direct TV has not fixed or replaced or anything to get my computer issue fixed. The claim no. Is SR# (b) (6). I have e-mail and left several calls but no one has address my claim.properly and promptly.

Ticket: # 4084964 - Xfinity dba Comcast

Date: 7/13/2020 6:52:07 PM

City/State/Zip: Loveland, Colorado 80538

Company Complaining About: Comcast

Description

From the month of Feb. 2020 to early July 2020 Xfinity I have repeatedly contacted X-Finity/Comcast to describe the horrible connection/service I have had for the better part of several years and STILL persisting in the last 5 months with TV, and recently computer and phone. This time period was particularly difficult because my husband is in a Nursing Home and the phone/computer were our ONLY modes of contact due to Covid Restrictions. The last few months have been horrible service with only VERY minuscule compensation/credit for such lack of services received. The credits offered in no way are commensurate for the lack of service and scheduled outages. A new box was recently placed in the 2nd TV room and I have seen a significant improvement, however it does not make up for months of minimal credit.

Ticket: # 4084969 - Centurylink Selling Service It Cannot Provide**Date:** 7/13/2020 6:53:58 PM**City/State/Zip:** Pine Grove, Louisiana 70453**Company Complaining About:** Centurylink

Description

Started working from home and schooling children remotely due to COVID-19. In order to handle the demands of work and school requirements we had residential service rolled over into a business account and added a second line. Was told each line would operate at up to 20 mbps download speed. Original line only capable of 10 mbps and work order to add second line contained a notation for the technician that second line was to be limited to 6 mbps. Several calls to Centurylink and I was told they would change the setting on the second line to 10 mbps because it ran exactly the same distance and into the exact same box as the first line. They never did. Several subsequent calls and Centurylink employee finally tells me that our location area is "in exhaust" and second line will never operate above 6m bps (despite having given me 10 in writing.) Now, the highest speed we can get on the second line is 2 mbps - we cannot even operate the most basic office functions with this speed. Centurylink will do NOTHING to correct the situation and we are now locked into a three-year business contract with an early termination fee of more than \$400. We went from paying \$49/month to paying \$119/month for services we are not receiving, and per Centurylink, never will receive. Centurylink is the only dsl provider in this area and they are defrauding our local community.

Ticket: # 4085028 - centurylink

Date: 7/13/2020 7:24:35 PM

City/State/Zip: Livermore, Colorado 80536

Company Complaining About: Centurylink

Description

I live in a rural area and depend on reliable internet to work from home during COVID 19. For more than two months CenturyLink sales, customer support and its own customer complaint department lead me on to believe that I could receive much faster service. CenturyLink technician came out mid-May, told me that there are two lines are coming into my home, only one is being used, but I am most likely being charged for both, that these lines could be merged for slightly better speed. He told me that I had to call and request this work, that he could not discuss with his superiors what he saw. Calls to CenturyLink customer support essentially accused him of lying about two lines coming to my home or that faster speeds are available in my area. Internet is my livelihood these days, and for my spouse, and for my 18 year old child who will need to do remote learning come fall.

Ticket: # 4085196 - Connectivity problems

Date: 7/13/2020 8:53:33 PM

City/State/Zip: Eastpointe, Michigan 48021

Company Complaining About: Comcast

Description

I have had connectivy issues for the past 3 months. LET ME SAY, I UNDERSTAND the COVID envirnment and everyone working from home, however, I pay extremely good money to COMCAST for my internet/cable and home phone - which I rarely use.

I have so many other things to write about, Like right now - i

I had internet issues about 5 years ago and it took an email to FCC to FINALLY get it recitfy (after 4 months). I have tried MULTIPLE times to contact COMCAST about these current issues, only to have a new modem sent and several threats of cancelation JUST TO SPEAK TO AN AGENT.

Currently I have been on hold/called Comcast for nearly 1 hour; with NO response. As a matter of fact, the only time i have EVER spoke to a LIVE agent in the past 3 months is when i "threatened" to cancel my service.

I just cannot believe that there are no people to HELP: with this issue. OR agents then can come out to figure out what the issue is. If i only paid \$25 a month - then i would understand I get what i paid for.

I dropped mutiple (what i was guaranteed) were FREE channels AFTER my last problem - and I still have a bill near \$200. I find this to be highway robbery.

If COMCAST has no loyalty to their clients/customer, then why should i have loyalty to them.

I NEED THIS ISSUE FIXED BEFORE I LOSE MY JOB. Then there will be a lawsuit.

FYI - i have been on hold over 1 hour - i am hanging up as it is 9pm ET.

Ticket: # 4085211 - Verizon Wireless Billing 4 Months After Leaving

Date: 7/13/2020 9:06:46 PM

City/State/Zip: Martinez, California 94553

Company Complaining About: Verizon

Description

On April 15 I moved my wireless numbers (3 of them) from Verizon Wireless to another wireless provider. That evening, April 15, I tried to call Verizon but the automated message indicated that due to Covid-19 they were not taking any calls. I then tried to sign on to my online account and it indicate I didn't have an active account. On April 25, May 25, June 25 and July 25 Verizon tried to bill me. On May 28 I received a letter from a collection agency. I called the agency and they indicated everything was OK. I asked for a different Verizon number and was able to talk to Mark who said everything was OK and my contract was canceled on April 15.

Ticket: # 4085266 - TV reporting from neighboring counties

Ticket: # 4085268 - large fee increases

Date: 7/13/2020 9:48:19 PM

City/State/Zip: Woodstock, Illinois 60098

Company Complaining About: Verizon Wireless

Description

There were many large increases on this newest bill!, AND THIS IS UNACCEPTABLE! PEOPLE ARE HURTING BECAUSE OF COVID AND YOU HAVE THE NERVE TO GOUGE US! THREE OF THE INCREASES WERE INCREASES OF 42%, AND 3 OTHER INCREASES WERE INCREASES OF 29%! THE OTHER INCREASES WERE NOT AS DRAMATIC BUT STILL EVERY BIT UNACCEPTABLE! I WATCH THE BILLS & I DO THE MATH AND YOU AREN'T GOING TO KEEP GETTING AWAY WITH THIS! I AM GOING TO WORK HARDER TO FIND A COMPETITOR THAT DOESN'T GOUGE THE WAY YOU DO! THE SOLUTION TO THIS PROBLEM IS TO STOP THESE LARGE INCREASES NOW! AM I CLEAR? I HAVE CONTACTED VERIZON IN THE PAST BUT NOT THIS PARTICULAR TIME! THEY KNOW WHAT THEY ARE DOING TO US & FRANKLY THEY DON'T CARE!

Ticket: # 4085336 - AT&T Internet Service**Date:** 7/13/2020 11:07:14 PM**City/State/Zip:** Leander, Texas 78641**Company Complaining About:** AT&T

Description

Hello, I have had AT&T internet service since Sept of 2019 and I have the 1000 mbps plan. Since they installed the equipment, I have not had higher than 268 mbps. I filed a complaint previously and they had me purchase 2 pieces of equipment and sent me a booster, then closed the complaint and the letter they sent to the FCC was a lie and it wasn't my faulty equipment (it was now new) and they were unable to get my speed higher than the 268 top speed. When I tried to contact the person at ATT, he would not answer my calls. Now that covid 19 has sent everybody home, my internet service is even lower. I am unable to stream movies , get error messages on my computer saying the speed is too slow to load a page. The service goes off and on all day and it gets worse at night. I work from home and am unable to complete my work in a timely manner. I have lost work during covid and then with no consistent internet service, I am suffering financially. I looked at current ads of AT&T and they are still promising 1000 mbps to new customers. I would be happy if I got half that amount. False advertising if you ask me. I think i have the last phone call with them where they were unable to fix my problem after i bought what they said was causing the problem. Same speed before and after I installed the items. Booster did not help either.

Ticket: # 4085425 - Speed throttling

Date: 7/14/2020 9:53:43 AM

City/State/Zip: Upper Marlboro, Maryland 20774

Company Complaining About: Comcast

Description

I am an essential worker providing needed communication support to our communities. I have Xfinity Comcast not by choice cut by requirement from my lessor. As a result, of COVID19, I I know telecommunications companies have been asked not to perform maintenance during peak hours. However, despite the federal funding they receive they have failed to comply with that arrangement

Ticket: # 4085616 - Customer Service Complaint**Date:** 7/14/2020 10:06:47 AM**City/State/Zip:** Hephzibah, Georgia 30815**Company Complaining About:** Comcast

Description

I have previously been able to get a payment arrangement with the company to extend my services for TV, internet, and security with no problem. I have always kept my services active by paying the past due balance. Now Xfinity is not willing to allow me make a payment arrangement. I feel the company does not value its customers at all. Even through the pandemic, I still paid my bill. Everyone can have hard times and as a single parent mine are more than others. But I feel as a loyal customer I should be treated fairly and not be put down for not being able to have a zero balance on my account.

Ticket: # 4085642 - Do Not Call - CallerID Spoofing, comercial misrepresentation

Date: 7/14/2020 10:15:27 AM

City/State/Zip: Spencerville, Maryland 20868

Company Complaining About: "at&t Direct Tv - Sales And Promotion Department"

Description

Received a call from "Max" with a heavy accent purported to be from ATT Direct TV Sales and Promotion, saying I was entitled to a 30% discount for 1 year, maybe 2 years. I kept asking for the account number, she kept saying phone number, also wanted to know name. Refused to say what city she was calling from when asked. Call transferred to David, supervisor in Texas, who asked for pin code to my account, but when my made up number didn't work he wanted to know if I had other ATT services since it could be bundled...information he didn't get. He also explained due to Covid-19 people were at home and the callerID wouldn't show ATTs phone number, especially when I asked who Mable Horton was.

Description

TMobile has refused to support through the pandemic despite information that was provided by in-store teams that provided specific instructions.

Ticket: # 4085753 - Rural America Needs Internet

Date: 7/14/2020 10:53:33 AM

City/State/Zip: San Augustine, Texas 75972

Company Complaining About: AT&T

Description

AT&T has capped data every which way they can, including hot spot data, while not providing real internet solutions to rural customers. Remote schooling during the pandemic will require data. We pay taxes and fees and are owed reliable internet in rural America. People who live in urban areas are no more deserving of internet than rural Americans. AT&T's greed needs to be capped.

Ticket: # 4085775 - Seasonal Billing / Covid-19

Date: 7/14/2020 10:59:56 AM

City/State/Zip: Harvey Cedars, New Jersey 08008

Company Complaining About: Comcast

Description

We have a summer home that was on a seasonal plan. It was originally supposed to end in April, which is typically when we come back from Florida. Due to Covid-19, we were not able to return to New Jersey. Comcast agreed to extend the seasonal billing rate of approximately \$20 per month, through the end of June. Unfortunately I was diagnosed with cancer, had a kidney removed, and was told by my doctors that I could not return to NJ this summer. I therefore canceled my internet and TV services with Comcast in NJ and had a relative return the equipment to their office. I have received multiple bills with the full billing for May and June and have had multiple discussions with Comcast employees explaining my situation. I was told that they have a recording of a representative telling me that the Seasonal plan would be extending through the end of June; however, now they are telling me I still owe for those two months. First they said I owed \$450, then \$350, and now \$300. I have not used any of their services since no one has been at my summer home, and I am asking for help in resolving the issue. I will pay the Seasonal rate through the end of June. Thank you.

Ticket: # 4085796 - Comcast Billing/Internet Basic Plan**Date:** 7/14/2020 11:04:06 AM**City/State/Zip:** Barrington, New Jersey 08007**Company Complaining About:** Comcast

Description

Dear FCC:

Comcast is raising my internet bill service from \$29.99 to \$49.99. I am on a fixed budget. My children and I are on Medicaid, and I cannot afford a higher priced fee on our internet. They told me that I received notification via mail and that my price was going to change. I did not receive any notification via mail because I am paperless. I also do not receive any kind of billing in my email. I do not receive my bill in my email even though I am paperless. I always knew what my bill was each month. I was not aware of any change until I went to pay for my current bill then saw my next bill is \$49.99. I called Comcast and spoke to several people who spoke to me unprofessionally ("you need to open your mail and read it", when I asked for Comcast Corporate's phone number, I was placed on a long hold and given a wrong 215 area code number, not Comcast, 215-324-7500). I had to search for the phone number and spoke to several people who, again, were not helpful. I was given a Corporate Case # (b) (6)

I should be in the Internet Essentials program because I am low income (fixed budget), and my children and I are on Medicaid. I work and my children are in school. My one son is 13 years old and my is 21 and is entering into his last year of college at Franklin & Marshall. In order to apply for Comcast's Internet Essentials, I must be without internet for three (3) months. I cannot afford to be without internet as I need the emails for work and my sons are in school, especially now during this crisis (Covid-19). I asked Comcast if they could keep me at the \$29.99 rate as it has always been or place me in the Internet Essentials. I spoke to an Executive Customer Relations gentleman, Drew, on Friday, July 10, 2020. He said they could not keep the \$29.99 price and that he would contact the Internet Essentials Department to find out if I could be placed in that plan. It is Tuesday, July 14, 2020 and I still have not heard back from anyone at Comcast. My bill is due on July 24, 2020 for the amount of \$49.99. I do not want to have any late fees or a late bill. Can someone please help me?

Ticket: # 4085886 - Unfair Billing Practice

Date: 7/14/2020 11:29:52 AM

City/State/Zip: Cantonment, Florida 32533-7509

Company Complaining About: Directv

Description

DirecTV took our Vermont account off suspension and began billing for services we were not receiving since we were in Florida and not Vermont. Because of the COVID-19 Pandemic, we may not be able to travel to Vermont this summer. Requested DirecTV stop billing, apply credit for past billing, and reinstate the credit balance to our account. See attached letters to DirecTV.

Ticket: # 4085888 - Device Return/ Exchange Issue**Date:** 7/14/2020 11:30:35 AM**City/State/Zip:** Moseley, Virginia 23120**Company Complaining About:** AT&T

Description

Waiting over 20 days for an exchange and refund for item sent back after following AT&T instructions. The will do nothing for a loyal customer-13 yrs. I ordered an upgrade of the iPhone 11 Pro for my current iPhone X early June and received it upon my return from the beach on June 21st. Immediately upon seeing it, I realized it was not the larger screen I had anticipated so began the return process- actually exchange process (I wanted the iPhone Pro Max instead) right away with a customer service rep that day. She advised me that I COULD NOT return my device to a store, despite my asking several times to please be able to do exactly that. She said any purchase ordered online had to be returned online. I am now seeing that is not the case at all and I could have in fact returned it to a corporate store so was given bogus information from AT&T's own rep straight out the gate. She sent me a return label (same as the one included in the box) and instructed me to affix it to the box and leave it in my mailbox or blue drop box at USPS for pick up. I did as she said and as the email from AT&T returns themselves instructed. The package was picked up by USPS the following day. After being unable to see any data on the whereabouts of my package after a solid week, I became nervous and called customer service. The girl told me sometimes it takes up to two weeks and if I still had not been notified of it's delivery after the following Thursday to call back. She told me not to worry, they have everything noted and it will all be ok. The following Thursday came and went. I called customer service once again who assured me to continue to wait even though over two weeks had gone by. She told me to give it until the following Thursday and then to call again if nothing had shown up. I gave it past Thursday and now as my iPhone X has begun giving me major difficulty, I had no choice but to call once again yesterday to follow up on this return so I can finally get the Pro Max I wanted and NEED after 20 days of nothing. This brings us to yesterday wherein my husband and I spent two hours having the most stressful and frustrating conversations and witnessed some of the most poor customer service practices we have seen. After escalating our issue to the Supervisor at AT&T's Customer Service location, I was told not only should the original rep have told me that yes, I could return the Pro to the local corporate brick and mortar in person especially after I expressed my concern sending it via the mail, but that either way, there was nothing they could do until the item showed up at the warehouse (if it ever does!!) I would have to begin the process of calling USPS themselves and jumping through a million more stressful hoops in hopes that somehow they will locate this item even though everything was done the way AT&T instructed! I was told the item is still my responsibility even though I did everything THEY told me to do 100% properly and also was given FALSE information! I was told I would have to continue to pay for this item, even though it is not in my possession and they have the usage report to prove it. My questions for AT&T are: 1. Why would a company with the necessity to be so competitive in this day and age have such terrible return policies and procedures? I know am absolutely not alone in this nightmare. 2. Why use USPS as your main return vendor and request that your customers drop their returns in the mailbox or blue drop box and then place the responsibility on the customer if the item goes missing in transit? And why do this without insuring an item that is over 1k? When you return something to Amazon, you get a label or a even just a code. You take it to UPS, they scan it, and voila, you receive an email and full refund within a HALF AN HOUR! How is AT&T not up to speed with returns and customer service in our day and age?? 3. Why are the reps giving wrong and misleading information about returns being done in

store if the purchase is made online? If I had been given the proper info to begin with, I would have had my Pro Max three weeks ago and not going through this.

My Desired Resolution:

This has been a huge blow to us as a family, who actually hold three AT&T accounts and as a VP at a large company who uses AT&T as our service provider (this will be amended). The stress that this has brought us- especially now that I hold a phone that is not working properly- as I either continue to wait with no end in sight or realize that this indeed has gone lost in transit, and then surprise! now be expected to continue to pay for it in full!!!?? To boot, during the era of Covid-19 when we are all just doing our best, is at the very least disappointing and profoundly upsetting. All I want is for AT&T to do right by their loyal customers- to understand my situation seeing as it has happened to countless others, to take responsibility for the poor communication, wrong information provided their own reps in this situation, the bad return practices, (asking your customers to drop the device in a blue box or their mailbox?? Knowing that their returns may take a ridiculous amount of time yet not communicating this to their best customers) lack of insurance on their devices when returning and also the end customer service where no one seems to be able to help me AT ALL and is in fact condescending and difficult. Is the cost of the (POSSIBLE) loss on this phone really worth losing my business which over the next 10 years, my account alone would add to over 25-30k in business?? My husband and 17 year old daughter's, another 25-30k, and then the addition of lines for my now four and two year old? Is it worth that of the companies we are VPs at? I mean, really, AT&T?? I just want AT&T to send me the device I want and need since I have returned their device as instructed, as waiting over three weeks for a product to be exchanged in this day and age, even with Covid, is absurd and not how you proceed with your most loyal customers.

Ticket: # 4085943 - Internet - HughesNet - account no. SME00142973

Date: 7/14/2020 11:45:01 AM

City/State/Zip: Mableton, Georgia 30126

Company Complaining About: Hughes Net

Description

On June 19, 2020, I was put in the COVID Assistance Program. I was told if I made \$147.26 payment that day and for the next billing cycle that \$905.00 would be forgiven and as long as I make my payments my internet would not be interrupted. I have not had internet service for 1 week. I've lost 3 clients and one has reported me to the real estate commission. I am unable to log on to make Commission changes as needed. Therefore I will not be having any closings. On Thursday the 9th of June, this issue was escalated to Corporate. On the 10th of June, I asked if my contract could be terminated as I could get another internet service, I was told I had to pay a termination fee. I have spoken to 12 agents to no avail.

Company Complaining About: Optimum

Description

I am a low income individual. I signed up for triple play service (TV, internet, phone) as a promotion. My bill went up significantly. I try to contact Optimum for a month now and I am unable to. I can't pay my bill anymore, but TV is all I have - I am home confined and scared to go out due to COVID 19.

Ticket: # 4086245 - Spectrun / Charter Communications false advertisement

Date: 7/14/2020 12:55:57 PM

City/State/Zip: Fond Du Lac, Wisconsin 54935

Company Complaining About: Spectrum

Description

I received a flyer because I am on EBT and it stated I would receive Internet at a certain rate that some how has now mysteriously ended and even the phone rep could not explain why, but could not put it back. This current bill the price went up and they dropped a discount. I tried to review all the old paperwork and no where did I find that the discount was a limited time. The difference isn't large, but for someone who is disabled, receiving EBT and needs to keep a monthly budget as tight as possible, this couple of dollars a month is a large change. Over a year that is now over \$25. I have dealt with problematic companies in the past giving false information about promotions, and this promotion really seems to be a false advertisement. The rate I am on is not a normal rate they give to anyone, except those that are on low income. It is not advertised on their websites and only is only by invite. This change happened the exact same month they removed the COVID-19 discounts they were giving to regular customers. This why it feels fishy to me.

Ticket: # 4086260 - WEA text alert

Date: 7/14/2020 12:58:23 PM

I asked for a supervisor I was told there wasn't any one available.

Ticket: # 4086405 - robocalls from spoofed/faked numbers

Date: 7/14/2020 1:26:03 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are all marketing calls. Most of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day. And, a new trend had recently arisen: text messages. I cannot overstate how angry and frustrated I am with these people's total disregard for other's right to privacy and peace of mind.

Many of the spoofed numbers were identified by my caller id as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona, Crystal Springs and Byhalia MS. For some of these numbers, caller id did not identify the location, but an internet search of area codes and prefixes determined the location. For a brief period earlier in the year, there was a spate of calls from out of state as well. This surge in out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. While that surge of out-of-state calls was fairly brief, there are occasional calls identified as coming from out of state. The call I am reporting today was in fact identified by my caller id as coming from Nevada. An internet search revealed the location as Indian Springs, NV.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. I tried to return the call, and it simply disconnected.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4086572 - Direct TV

Date: 7/14/2020 2:08:48 PM

City/State/Zip: Grapevine, Texas 76051

Company Complaining About: Directv

Description

Greetings:

I called Direct TV on today to pay my final bill online. I was told that my account was closed and I could not make my payment online. Instead the person asked for my credit card information and I refused because it was clear that every word coming out of his mouth was a lie. I did not feel comfortable giving him my credit card information. I asked for a Supervisor and he refused. He said everyone was in a meeting. Now, I have a \$152 bill with Direct TV that I cannot pay because he suggested for me to go out and catch COVID 19 by paying the bill at a local ATT store. I had an online account up until today to make payments. I was with Direct TV for over 13 years with no problems until I decided the leave mob. The employee gave me his name which was SID and employee ID 121095. I put my current address on this email. The address of the services were at

(b) (6) .

Ticket: # 4086610 - 30+ Homes NO VIABLE INTERNET

Date: 7/14/2020 2:18:32 PM

City/State/Zip: Nashotah, Wisconsin 53058

Company Complaining About: Spectrum

Description

Our neighborhood is a black hole. Also the FCC 477 form is misrepresented, and it appears no available funds were considered. We have all been quoted over \$10,000.00 by Spectrum to have service installed. We have no other solution today than poor performance wireless. Despite heart condition, throughout COVID pandemic I had to go to work to perform my job b/c internet is so bad. Homeschooling kids is a nightmare. Have to drive to closest cell tower to send homework.

Ticket: # 4086643 - COX Communications and outages or interruptions to service

Date: 7/14/2020 2:27:02 PM

City/State/Zip: Phoenix, Arizona 85008

Company Complaining About: Cox

Description

COX Communications blames internet outages and interruptions on "increased traffic due to coronavirus." I believe they have oversold or overbooked available services in our area. COX requires consumers to call in and request a credit or refund for the down service times. I believe COX knows these outages or interruptions and are over billing for services not provided to their customers. All customers must "opt-in" to receive credit or refunds, this should be an automated internal billing policy instead that COX does not charge consumers when unable to provide services.

Ticket: # 4086693 - AT&T Availability Complaint

Date: 7/14/2020 2:37:06 PM

City/State/Zip: Arlington, Texas 76005

Company Complaining About: AT&T

Description

I moved from Arkansas to Texas on April 25, 2020. My MicroCell was being monitored by Arkansas Heart Hospital and I am now being treated at Medical City Dallas. Due to Covid -19 precautions I only recently met with Medical City Dallas personnel to arrange for the Texas facility to monitor my MicroCell.

I have been informed by AT&T that my MicroCell will be deactivated unless I contact a specific site. The site listed does not inform on how to prevent deactivation. Additionally, my AT&T cable was cut by a contractor this week. After at least 100 minutes of wait time I finally reached a repair tech and scheduled a repair 48 hours later. The cable is above ground and will be buried approximately three weeks later.

I can only imagine the difficulty in finding the correct support if my MicroCell is deactivated.

Ticket: # 4086827 - Direct TV customer service/billing

Date: 7/14/2020 3:04:32 PM

City/State/Zip: Miami, Florida 33127

Company Complaining About: Directv

Description

Direct TV is consumers provider. Consumer states she was speaking with Miguel #NG415L. Consumer asked what they are doing to help consumers with their bill during the Pandemic. Consumer is still out of work. Provider stated the Country is now open now and she has to pay her bill . Consumer asked to speak to a supervisor and the agent would not connect her. Consumer feels that the agent was very rude to her and should not have spoken to her that way. Consumer wants provider to review her call and have someone from Corporate contact her.

Ticket: # 4086899 - Billing Issues

Date: 7/14/2020 3:21:19 PM

City/State/Zip: Chicago, Illinois 60637

Company Complaining About: AT&T

Description

Consumer said AT&T offered him free internet as long as he got the phone service, with HBO free and U-Verse

Consumer said U-Verse was not offered in his area

Consumer decided to get DIRECT TV

Consumer was offered \$65 for Direct TV a month with the NBA League pass \$40 a month for 5 months

Consumer said he had a premium HBO sports package

1/1/2020 his bill was \$102

Consumer said there after his bill jumped to \$140 and they credited the \$40 back for the sports package

March comes and Covid set in and they sign an agreement not to cancel services for non-payment

Consumer said in June he gets a message through his AT&T to get AT&T streaming service

Consumer called AT&T to get the service

Consumer he called in May and was told to pay his cell phone bill

Consumer went in and paid \$695

Consumer was sent the AT&T streaming box

Consumer was told by AT&T that his internet needed to be upgraded to get the AT&T streaming TV

Consumer agreed to the upgrade

Consumer called DIRECT TV to cancel the service on 7/14/2020

Consumer was told by DIRECT TV that his service was suspended

Consumers internet was free, but since its bundled they are holding it hostage until he pays \$835 for service that was suspended and then he canceled so he would not have to pay anymore monthly

Consumer said because he signed the covid agreement his bill has increased and there was no sports, and he was paying for them

City/State/Zip: Rockville, Maryland 20850

Description

My roommate tested positive for covid and I now have to quarantine as well. I was just called by (202-422-9290) who claimed to be part of dc health coronavirus contact trace task force. She got my name wrong (thought it was 'Sam') and after being corrected asked me a lot of questions about my age race and demographics. It seemed sketchy to me but I want to take covid seriously, so I told her to call me back tomorrow afternoon... is this a scam???

Ticket: # 4086949 - Xfinity claims Covid Assistance plan but doesn't invoke it

Date: 7/14/2020 3:30:17 PM

City/State/Zip: Albuquerque, New Mexico 87107

Company Complaining About: Comcast

Description

I was told in a text message on April 10 and again by email on May 3 that my account was being put on the Xfinity Assistance plan and that my charges through June 30th would only be \$14.95 per month and that would show up on my bill, without other balance accruing. However, on my bill, even though I made the \$14.95 payments on time, they charged the regular fees plus late fees. All of the late fees and excess charges beyond \$14.95 per mo for April-June should be removed. Further, in Jan the rate they were charging suddenly changed without any email or text msg notification. When I realized it in March (I am on autopay) they said my contract had ended. But they had not made any effort to contact me to remind me. 160% jump in price is excessive.

Ticket: # 4087162 - AT&T disconnected phone service

Date: 7/14/2020 4:22:41 PM

City/State/Zip: Sherwood, Arkansas 72120

Company Complaining About: AT&T

Ticket: # 4087185 - Internet service in rural area

Date: 7/14/2020 4:27:30 PM

City/State/Zip: Culleoka, Tennessee 38451

Company Complaining About: None

Description

I live in Culleoka, TN and our area desperately needs access to high speed internet. Especially with the possibility of doing virtual classroom and learning due to Covid 19, this is the time when we need it most.

I have lived on Dodson Gap Rd. for almost 10 years now; you would think as much as we use technology this day and age, we would have access to high speed connections.

Please consider getting this in our "neck of the woods"; we can't be the only ones who are willing to pay for reliable internet in the area.

Ticket: # 4087207 - Optimum/Altice Service

Date: 7/14/2020 4:33:21 PM

City/State/Zip: Brooklyn, New York 11230

Company Complaining About: Optimum

Description

She just got off phone with Optimum/Altice. She attempted to speak to them about their bill. She is behind a bit. However, she has a past due of \$437 and they refuse to work with her. She has been with Optimum for 27 years and they refuse to work with her.

She did make payments during the Pandemic but she simply could not keep up. They have been affected by Covid-19 and are still not working. Resolution the caller seeks is for Optimum to work with her and provide her with a payment arrangement. ***CTR386-phone***

Ticket: # 4087208 - Corruption Continued

Date: 7/14/2020 4:33:35 PM

City/State/Zip: Brooklyn, New York 11231

Company Complaining About: Assurance Wireless

Description

Attention to all this concerns, in finalizing reports and also replying to correspondence via email, I contacted assurance wireless to put report confirmation in the notations and further converse with supervisors to request for them to openly oblige release of all notations written and recorded, that are within legal standing and equivocal to all policies, guidelines and regulations of the company and government executive orders- regarding any actions taken on my account ,any behaviors conduct related professionally and personally on the line,etc. Please be advised as you've already asked for my account info that in the midst of these conversations one of the last conversations on yesterday disclose a supervisor not only admitting to the inappropriate ,criminal, and unprofessional behaviors of her peers and self, and unable to produce good reasoning for all accusations and liabilities against me for the unlawful confiscation of my covid time, also her refusal to budge and make corrections I was suggested to call 911 for my dire emergencies of not having food and being able to contact any agencies including the mayor via phone ,nor attend an up and coming homebound hearing in this matter to dispute the unlawful actions taken against my food supply during crisis. Her actions as per many others are clear and verbatim without hesitation to be deliberate in the attempt to cause harm. The number of contact requested is my only availability, my sentiments exactly that you are unable to reach me due to the criminal negligence and also endangerment by the hands of these individuals, who also constantly leave messages with the admittance on the line of calling me to address unresolved issues, intentionally doing so with the knowledge that I have no way of retrieving them which is the demonstration of harasment and torment . My hearing date as I still have no food with diabetes and already am addressing this violation of mandated executive order is on 07/21/2020, I complained to this same representative who exclaimed all I would have to do is pay, and then I could get the messages the supervisors are leaving, adding extortion as well. I fathom to understand your request to speak to me necessarily being my account number is in your file since evidently you are also aware this is a service I acquire attached to my government case, and I've already listed this as my only contact . Yet do be strongly advised all confirmation numbers to this complaint in entirety are being forwarded to other departments for investigation review without hesitation since it should be clear to this department i obviously feel strong enough to take these steps toward justice because I should not be in this predicament. Therefore since you cannot contact me to go forth in your investigation it should be only up to you to do this with the constituents involved with this complaint as to why. Thank you.

Ticket: # 4087457 - Sprint not honoring what was told during pandemic

Date: 7/14/2020 5:51:59 PM

City/State/Zip: Hanover, Virginia 23069

Company Complaining About: Sprint

Description

I was told during a chat with Sprint that my services were secured until 7/17/20. My services were disconnected today and will be again tomorrow because they will not honor the Chat.

Ticket: # 4087480 - Unacceptable Internet Performance - Constant dropped Zoom calls - No resolution from Comcast

Date: 7/14/2020 6:07:07 PM

City/State/Zip: Novato, California 94947

Company Complaining About: Comcast

Description

There are three of us working from home due to Covid and we are all experiencing serious problems with WiFi connectivity making it difficult to do our jobs. Unstable connectivity causes constant dropped calls on WiFi calling and constant drops of Zoom calls. I have updated our Comcast modem and deployed Comcast WiFi pods as recommended by Comcast. This has not resolved the issues. I live on a country road and believe there are larger problems with connectivity to my entire neighborhood. Comcast tells me there are no problems. My results confirm that there are.

Ticket: # 4087490 - throttled and spotty internet connection for years

Date: 7/14/2020 6:11:05 PM

City/State/Zip: Winston Salem, North Carolina 27103

Company Complaining About: Spectrum

Description

We have had the best tier or nearest to the best tier of internet service provided by our ISP for years and have never received speeds they say we should be able to reach. Nor do we have total coverage in our very small house. Even doing distance learning for my university is a trial when it requires less rigorous signal than streaming does. I have complained and people staying at home due to Covid is always blamed, however, my problem has been consistent and predates the pandemic.

Ticket: # 4087503 - no internet services and no refund

Date: 7/14/2020 6:15:06 PM

City/State/Zip: El Paso, Texas 79932

Company Complaining About: Tek 1 Wired

Description

We hired a internet system for one year, two months later the internet stop working, the company said that can't offer the internet, and they are not doing refunds. we are asking for a refund that the company are refusing to give us.

We hired three internet systems, equivalent to \$ 1,220.00 with the company Tek 1 Wired at El Paso Tx. Their office is at 11426 Rojas Dr. Suite 4, El Paso Tx. Their contact number is (915) 803 9500. This company left us without internet service that we paid for advance, and they refuse to give us a refund. Also we had the worst customer service ever. They make the costumers pay for a full year to hired their internet system. After two months later that we hired their internet system, they called us to inform us that there was something wrong with their modems and they would need to replace them, but they would need to bring those modems from China and it would take three months. However, over the curse they were changing the story. So they asked us to hire another internet company while they fix their problem, but they were not going to give any refund. So, I told them that I don't agree with that, because they were making other companies solve their problems, and they were not taking responsibility. One month later, their internet system stop working and we we contact them they told us that they were not going to offer more internet services and to compensate their costumer they were going to give a door camera, that actually they were offering for free in their presentation card for any installation, or one year of cable. I told them that I don't need the door camera or nether the cable, that I want the internet that I paid for or a refund. But they insisted that they don't do refund, although they couldn't offer anymore the system that the clients paid for. We explain them our delicate situation that my mom was posing for a cancer situation, and that we were depending on some apartment rents. Our guests started complaining because they needed the internet to work at home, and saying us that they were going to cancel their reservation. We ask to speak to a supervisor, they refused, then we told them that we were going to record the call and their respond was that they can't do anything for us. and that we do whatever we need to do. After that, we urgently went to hire the internet company Spectrum, because our guest were going to cancel their reservations. Spectrum told us Because the covid-19 situation they were not sending technicians, and it would take three days for us to get the modems by mail. So I went to the offices, although we are trying to avoid public areas because my mom's cancer situation and her risk with the covid-19 situation, and explain them the situation. The gived me the modem and instruction to install them. Because this situation one of my guest canceld his reservation that they had with us for several monts. When we continued to contact Tek 1 Wierd, so we could solve this issue with them, I notify them that we were going to record the call, and they responded in an impolite way with: do whatever you need to do, and you have 40 second to say whatever you need to say. "Now they told us that on October, three months from now, they were going to start offering internet again, and we need to wait, and for any reason they are going to give a refund. I have the recorded calls. and we are looking for help.

Ticket: # 4087529 - AT&T Says They Have Not Received My Returned Phone - Still Paying + 1 Month Later

Date: 7/14/2020 6:27:41 PM

City/State/Zip: Williamsburg, Virginia 23188

Company Complaining About: AT&T

Description

My husband was eligible for an upgrade and on 4 JUN 2020 we placed an order for a new Apple iPhone SE (2020) - 128GB - Black, which was expected to be delivered between 19-26 JUN 2020 (see email 'Email Phone Order Confirmation_20200604').

We received the phone earlier than anticipated, and ended up not wanting to keep the phone. So we contacted AT&T and followed all instructions for returning the phone within the designated timeframe. We used the AT&T provided return label and dropped the phone off with USPS on or around 10 JUN 2020 (see return label 'AT&T Return Label').

I received a USPS text message on 12 JUN 2020 and also tracked the package on my phone to confirm that the package was delivered to AT&T (see screen shot labeled 'USPS Return Confirmation_20200612').

I contacted AT&T on 18 JUN 2020 because we hadn't heard anything from AT&T and the contract on the new phone hadn't been reversed yet, which means we were still unable to get a new phone and still paying on the phone we returned. I chatted with an AT&T representative named Nicolas, who transferred me to Aaron (see attached transcript 'Gmail - Fwd_ AT&T Chat Transcript_Nicolas & Aaron_20200618'), who told me that the issue would be completely resolved and the contract reversed within 48 hours, "Aaron : Have no worries, once I have submitted the case after 48 hours your upgrade eligibility will be reversed."

48 hours passed and the contract was still not reversed, so I began making phone calls to AT&T customer service. I spoke to at least 10 different agents, trying to get somewhere. I called multiple times on different dates prior to 6 JUL, but I also called again on 6 JUL and received a case number (b) (6), and was told that I would hear from someone by 8 JUL. I did not hear from anyone, so I called back on 9 JUL and provided my case number and additional details and was told that I would hear back from someone again. After not getting anywhere on the phone, I chatted with Anderson (see attached transcript 'Gmail - Fwd_ AT&T Chat Transcript_Anderson(b) (6)'). He now tells me that this needs to be handled by the billing department, but once again reiterates that I should have resolution.

On 14 JUL, I contacted AT&T again and spoke to 2 people, including a Supervisor named Jess (EMPLID: JE3665) in the Loyalty department. Still no resolution.

My husband does not have a working phone and it has been over a month since this saga began. We have been AT&T customers since the mid 1990s; this is completely unacceptable, regardless of COVID. The utter lack of any proficient customer service is leading us to very much consider

switching providers. I will not be held reliable for charges for a device that is not in my possession and that I have proof has been received by AT&T.

This needs to be resolved ASAP.

Thank you,

Ticket: # 4087596 - Atlanta station live broadcast of Trump political commercial labeled as Coronavirus update

Date: 7/14/2020 6:54:05 PM

City/State/Zip: Atlanta, Georgia 30319

Description

Hello,

I live in Atlanta GA. Channel 2 WSB-TV an ABC affiliate broadcast a live update of President Trump on the July 14th 6pm news and labeled it as an important Coronavirus and China update. President Trump spoke about why we should fear immigrants and specifically Joe Biden. There was no information about the Coronavirus or China. Channel 2 News was the only station in Atlanta to show this live broadcast. When I called their newsroom I was told they thought they were broadcasting a Coronavirus and China update but the content "reportedly took a turn". Yet they didn't revert to their normal broadcast. Please investigate as it smells like Channel 2 News is financially profiting from broadcasting a live Trump political campaign message under the guise of an important Coronavirus and China update. Channel 2 News also runs Trump commercials in heavy rotation.

Ticket: # 4087675 - Hawking false COVID cure

Date: 7/14/2020 7:43:28 PM

City/State/Zip: Las Vegas, Nevada 89123

Company Complaining About: Kbet Las Vegas 790am

Description

On 7/14/2020 at 1628 PST, on the Wayne Allyn Root, on 790 KBET, Wayne Root spoke for many minutes about the great benefits of Hydrochloriquone and Zinc in combination for a cure for COVID19. He spoke very highly of a doctor Zalenski who had cured 100% of his COVID patients using this method. Mr. Root said that all of his listerners should immediately take up the curative.

Ticket: # 4087748 - Billing and equipment issues

Date: 7/14/2020 8:35:01 PM

City/State/Zip: Portland, Oregon 97233

Company Complaining About: AT&T

Description

We sent in fully paid off phones as trade-ins however, three months later there has been no credits applied but when I called (I've had more than a dozen phone calls trying to ascertain where these very expensive phones are) I've been told they never received them or they just hang up on me. I have receipts with tracking that show the dates, times, and signatures of those who received the phones so why can't they locate them and apply the credit? During COVID we have been charged late fees, upgrade fees and our service has been turned off twice, all between April and June. I was told I could return the phones within 90-days of receiving them if I paid the restocking fee, but when I tried I was rudely told that couldn't be done. Two of the three phones on our account is used for work but when they shut us off my husband and son could not work but when I called to make some sort of arrangements, they refused to help in any way; we had to go to a different carrier because we have to be able to work in order to pay our bills.

Ticket: # 4087831 - STOP Charter data caps NOW

Date: 7/14/2020 9:38:08 PM

City/State/Zip: Sanford, Florida 32771

Company Complaining About: Spectrum

Description

To Whom It May Concern:

Please reject Charter's request to sunset the deal conditions it agreed to as part of its merger with Time Warner Cable and Bright House Networks.

A deal is a deal, and Charter agreed not to impose data caps on its customers for at least seven years. It now wants that prohibition lifted two years early, arguing competition has flourished over the last four years. In fact, little has changed for us. Competition has not flourished. We still do not have choices for broadband service and although there are more streaming video providers, most are owned by large cable, satellite, and phone companies or giant media conglomerates. Data caps will make me reconsider using these services because I cannot afford an even higher internet bill.

Competition is supposed to bring pricing down in a healthy marketplace. But my bill is only going up. What kind of company would ask for permission to slap usage limits on customers in the middle of a pandemic, after telling everyone their networks were more than robust enough to handle increased stay-at-home usage? The answer is a company that faces little competition and has no fear a competitor will use this request against them. Internet affordability is already an enormous problem, and data caps just make internet service even more expensive. We already pay among the highest prices in the world for service.

My family did not ask for this merger, and the FCC in 2016 determined it was not in the public interest to approve it without imposing a handful of conditions to allow consumers to benefit from the transaction. The FCC should insist Charter be true to its word and not impose data caps. Charter told the FCC in 2016 it had an "aversion to data caps, stating that instead of enforcing usage limits it chooses to market the absence of data caps as a competitive advantage" and that "there is a strong business case for not implementing caps" and that caps "undermined" its marketing messaging. Was Charter being honest with the FCC in 2016? Their current request for permission to lift data caps seems to ignore the positions Charter itself took with the FCC just a few years ago.

We urge you to deny Charter's petition, which will allow Charter to continue making plenty of money from the sale of unlimited internet access and continue honoring its advertising commitments to sell internet service "with no data caps" as it does now.

Ticket: # 4088015 - URGENT: ISSUES W/VeriZon

Date: 7/15/2020 7:16:22 AM

City/State/Zip: Elk Grove, California 95758

Company Complaining About: Verizon Wireless

Description

Interference with communication lines (emails, cell phone, devices)

My communication lines are critical because i have elderly relatives undergoing critical medical care, so my cellphone is my lifeline. It is also connected to my bank accounts, credit, etc.

My location is usually wrong. I use to work disasters, which as you are aware seem to be happening more often than not, especially during this pandemic. I know that critical resources are wasted simply trying to locate people during a disaster. If my location is wrong, this is not good. Also, I've encountered extreme identity theft—I believe it started with my AT&T account (b) (6). The person or people seem to be persistent & may be someone i know or who knows me very well because many problems i am encountering seem to be happening once again with my VeriZon account (b) (6). I have been in contact with Verizon's Executive Relations Office (latest case#(b) (6) 5), but that does not seem to help matters. My email (b) (6) may have been 'hijacked' like my previous emails.

Ticket: # 4088081 - Cramming practices of Comcast- late fees incurred by provider, when autopay is set for timely payments

Date: 7/15/2020 9:04:35 AM

City/State/Zip: Sunrise, Florida 33323

Company Complaining About: Comcast

Description

I've had 2 instances where Comcast has been charging me a late-fee to my bill, stating that I've paid my internet/ tv bill late, when I have authorized for timely auto pay for on-time bill payment. What Comcast has done is conducted a late payment by charging my credit card and payment to my account at a date later than what I have authorized. I feel this is an example of Cramming practices, and a form of a deceptive consumer practices.

Each month I have set my autopay to charge on the 5th of the month. This is something which I have authorized comcast through the inception of my internet/cable relationship. However, I have had 2 occasions during 2020 where they've charged me a late fee, due to them charging my account past the date in which my payment is due. 1st occasion they charged my credit card on the 7th, and the other on the 15 of the month. During each instance

While I've been credited back to my account on both occasions after having spent over 2 hours conversing with a representative about these altercations, I feel that this might be an intentional deceptive practice being performed by Comcast to incur additional income through late fees from their customers. I'd also like to note that during my 2nd occasion, they intentionally lied stating they could not credit back my account due to their error. It was not until I noted I would be reporting this issue to the FCC that they responded and credited me back. As a consumer, I should not have to leverage reporting to their regulators/ fcc to be alleviate this situation.

I am also filing this compliant on behalf of other americans that might be struggling a little more during this pandemic, where a service provider like comcast might be taking advantage of them during a situation which they are struggling to pay bills.

Ticket: # 4088106 - Sprint Services

Date: 7/15/2020 9:26:04 AM

City/State/Zip: Brooklyn, New York 11222

Company Complaining About: Sprint

Description

- scar of the lungs - positive for COVID
- consumer has contacted Sprint asking about for extending his service for his phone until August.
- Sprint stated that if he did not pay by tomorrow July 16th, 2020 that his services would be turned off.
- Alterative number - 718-246-5000
- would like this issue resolved by not having Sprint turn off his service and giving him time to come up with the money to pay the bill since consumer has not been working due to the COVID.

Ticket: # 4088121 - Sudden link / altice. Internet billing

Date: 7/15/2020 9:33:07 AM

City/State/Zip: Bullhead City, Arizona 86442

Company Complaining About: Sudden Link

Description

I have issue with the billing dept. I had internet issue that required a tech to fix. They sent a tech out tried to fix only to last about half a day. The problem was intermittent internet service that affect my TV cable. Suddenlink charge me \$60 service fee to not resolve the problem. I have called several time to get is resolved. The telephone support was called several time and was told the was an outage in the area many time. This then they would reset the system. Still unresolved a total of 4 tech were sent out and finally the forth tech found wire issue that required the cable from the pole to the house. This fix the problem of both internet and Tv.

Since the pandemic started the billing office closed called many times to get bill corrected this was to no avail. I get someone from Asia with broke English saying they are not authorized to edit the bill. Each month they charge \$10 late fee for there error. I pay my normal bill on time yet they still keep adding up late fees.

Ticket: # 4088186 - Lack of Internet Options in Area

Ticket: # 4088403 - Internet Provider

Date: 7/15/2020 10:59:53 AM

City/State/Zip: Georgetown, Florida 32139

Company Complaining About: Viasat

Description

I subscribe to Viasat's "Unlimited Service" for \$150.00 per month. When the new cycle begins each month I receive bandwidth slightly higher than SD. The issue is; after approx 6 days into the new cycle it takes approx. 10 minutes to load Netflix, Hulu, etc.. Once loaded the cycle just spins until it times out during the 00:00 - 24:00 hr. cycle. A Viasat Rep via phone explained that as long as any device was connected via Wi-Fi to the MODEM; data was being accrued even though the devices (cell phones, TV, Laptops, etc.) aren't streaming. My wife's job depends on video conferencing with the school district, teachers, and students. All devices must be shut down in order for her to even get online. Even if a device is not streaming but connected to wireless modem; her connection fails. We have no other means of internet where we live except Viasat. This service takes advantage of the rural area we live in. This service is worst than just gauging. We are receiving service on the continental U.S. not in a tent in Afghanistan. RESOLVE: We would like to at least be able to watch the T.V. before we go to bed during this "PANDEMIC." We live in a remote area that has no off air signal and little to no cell phone service.

Ticket: # 4088433 - INTERNET SERVICE**Date:** 7/15/2020 11:10:34 AM**City/State/Zip:** Sabillasville, Maryland 21780**Company Complaining About:** Directv

Description

I've lived here since 2007 and have not been able to get internet service. Residents on our road have signed petitions and been told we would need to pay thousands of dollars for them to run lines up our road for availability. Internet service would benefit all residents but why should WE have to pay to out of our pockets to have service ran and available to us? Especially during this Pandemic, working and schooling from home is very difficult without proper internet service.

Ticket: # 4088607 - internet servicing issues

Date: 7/15/2020 11:52:23 AM

City/State/Zip: Truckee, California 96161

Company Complaining About: Sudden Link

Description

(b) (6)

We have been trying to get our Internet Service from Suddenlink restored to the house for 3 month's and have been stood up 8-10 times on promise restoration of service. Because we were on auto pay and for two month the service did not get fixed we took it off of auto pay and disputed already having paid for May 2020 service.

Suddenlink - our provider has promised supervisors calling us back in 2-4 hours on at least four occasions and we never got a call back. Suddenlink has kept us on the phone for literally hours and hours over the last 3 months. Then today they turned off our landline, TV and internet altogether.

Under the Covid -19 lock down circumstances, this is inexcusable. They are making promises again today and my wife has been on the phone continuously this morning and is currently waiting for billing to pick up to get a credit for the months of non service in order to restore services to our home. PS we have asked Suddenlink to document our calls to them and they said they would? Please let me know what to do next?

Thanks

Ticket: # 4088779 - TDS Lifeline Program

Date: 7/15/2020 12:35:05 PM

City/State/Zip: Tipton, Indiana 46072

Company Complaining About: Tds

Description

She is calling about TDS.

TDS is offering lifeline.

She started the application process for lifeline in 11/2019.

In 03/03/2020 the application was approved, and she got in contact with TDS.

TDS started the process of applying lifeline credit to the bill.

The credit never appeared on the bill.

So, in 05/2020 she was advised to change name on the bill, because to match the approved applicant name on the account, which is her daughter's name.

She is approved for Lifeline, and TDS has not honored their application.

The lifeline approval expired 05/28/2020, which she must do this all again.

Do to COVID-19 she cannot copy the require application attachments.

Ticket: # 4088814 - Optimum billing

Date: 7/15/2020 12:42:53 PM

City/State/Zip: Cream Ridge, New Jersey 08514

Company Complaining About: Optimum

Description

I have been unable to reach a customer care representative to discuss lowering my ever increasing cable/internet/phone (triple play bill). I just want to get a new promotion to reduce the bill and cannot get to a human. I have attempted emails, chats, telephone calls and now this complaint. My bill keeps going up and up which shouldn't even happen in the middle of a pandemic when people are suffering and not working. Auto insurance carriers, landlords, etc. are offering credits and yet Optimum increases the bill and threatens to shut off your service.

Ticket: # 4088845 - Internet Service Outage and still being charged

Date: 7/15/2020 12:48:35 PM

City/State/Zip: Truckee, California 96161

Company Complaining About: Sudden Link

Description

Since May 24, 2020 - we have experienced an internet outage by Suddenlink in Truckee, CA at our home. Service call reports it is not at residence but a problem "on the street that needs to be replaced." 2 months later and after 3 calls to Suddenlink, I am still being charged \$89.99/month for internet. Asked for a credit and all 3 times have been told "we cannot credit your account until the problem is fixed." Now, my account past due and they will cut off service to TV, phone, and the non-existent internet? Filed a complaint with rep, their Facebook page, and no response. Asked for management or accounting and told "we cannot do that." Asked for email to file my own complaint, "we cannot do that."

Asked for credit again, "we are not allowed to do that."

2 months - no reliable internet; work from home due to Covid and this has caused significant hardship - just want the \$180 back and service fixed.

Company Complaining About: Spectrum

Description

I'm asking for someone at the federal level to force Spectrum and other cable providers to only charge for services used. I'm two days in to a new billing cycle and cancelled today. They use off cycle billing and payment dates to intentionally disguise the actual dates of service on your bills. (ie Payment due on June 29 for services that start July 11)

They make changes years into your contract which are disguised on pages 2 and 3 (if they're there, I've not seen them but read from other online) which state you are now responsible for a full monthly bill, even through cancelling only 2 days into my new cycle. I was told "You should keep the service for another month" and from a second supervisor "We can't do anything about pro rating.. In a COVID environment, with a customer of many years, they're basically holding me hostage for another month of payment of \$222, when I've paid all along and am trying to save money to pay other bills. We even tried having them switch us to a business account, which they wouldn't do, even though we had started a new business at this address. There are hundreds of people repeating these comments online and I'm asking that they be stopped from charging for services they're not providing. Please do something as I know many others are much worse off than I am. I explained I was going to take this to new levels to two separate Managers, so you're getting a copy, media is being notified, I've written my State (FL) attorney general, and I'm writing their legal counsel. Please change this law or speak out against these borderline fraudulent practices This isn't right, certainly unethical in COVID times, and the consumer should be protected. It's basically a punishment exit fee. Thanks for your consideration.

Ticket: # 4089138 - Suddenlink unfair billing

Date: 7/15/2020 1:50:38 PM

City/State/Zip: New Bern, North Carolina 28560-5417

Company Complaining About: Sudden Link

Description

Suddenlink has been billing me for a modem for a number of months that I returned to them over a year ago. I initiated internet service with Suddenlink after moving to the area in approximately February 2019. I initially rented a modem from Suddenlink for \$10 per month, which was delivered at the time of installation/startup. I was almost immediately unhappy with the service and suspected it was the modem, so I purchased my own modem. That didn't resolve the issue, so I placed a service call and technician came out and resolved the service to my satisfaction. Since I had already purchased my own modem, I returned Suddenlink's modem to the service technician. The \$10 per month fee was removed from my bill for some time, but was later added back to my bill. I've complained to Suddenlink on two separate occasions and insistent that I returned the modem. Suddenlink does not provide historical billing/payment records back far enough online for me to provide the evidence, but the fact that they removed the charge from my account contemporaneously with my having returned the equipment should be dispositive. In my discussions with Suddenlink they have been unwilling to send a technician to confirm the equipment that I am using is not in fact the equipment that they formerly rented to me. I do not have a receipt or any other documentation to demonstrate that I returned the equipment. It is manifestly unfair for Suddenlink to conduct business this way. I work from home due to COVID-19 and am unable to find adequate connectivity from any of Suddenlink's competitors.

Ticket: # 4089199 - Internet Data Cap

Date: 7/15/2020 2:05:01 PM

City/State/Zip: Peoria, Arizona 85382

Company Complaining About: Cox

Description

Cox has elected to reimplement data caps, in spite of the ongoing COVID situation. After removing the cap for several months, and their infrastructure not collapsing, it is apparent this decision is solely about increased profits and extorting money from people being forced to work from home. This additional charge for data is an unreasonable and unnecessary burden on consumers. There is no other broadband provider in my area, therefore my only option is Cox and their exorbitant fees.

Ticket: # 4089278 - Fox News Laura Ingraham's guest claims American teachers are "grooming" your kids for sexual predators

Date: 7/15/2020 2:18:06 PM

City/State/Zip: Reston, Virginia 20191

Description

Laura Ingraham's guest claims American teachers are "grooming" your kids for sexual predators. This was offensive and completely without merit. They are sensationalizing a pandemic with rhetoric and fear. They should be fined and suspended for such a horrible story on their airwaves. People are trying to survive and they are just proagating lies and falsehoods. A quote from the host's guest is Last night, Ingraham hosted a former teacher named Rebecca Friedrichs on her show. The conversation started off with the two of them bashing teachers unions, a longtime pastime for right-wingers which has enjoyed a powerful resurgence in recent weeks as Republicans aggressively push to fully reopen schools this fall despite the ongoing COVID-19 pandemic.

For Friedrichs though, simply smearing teachers unions with the usual GOP talking points wasn't enough and she quickly tilted into full-blown, tin-foil hat, Qanon-style conspiracy peddling. She claimed that the pushback against the dangerous school reopenings is actually a "smokescreen" for a perverse sexual agenda.

"Laura, here's why. Sadly, these unions are actually using our schools to sexualize our children and to train them in anti-American ideology," said Friedrichs earnestly. "They do this with a coalition of over one hundred eighty organizations, including, sadly, the CDC, Planned Parenthood, and Black Lives Matter Incorporated."

"It is shocking what they're teaching our children online through virtual learning. They are teaching our children to sext, to view pornography," she went on. "They are hooking them up with online sex experts. So, what they are doing is grooming our children for sexual predators to use them. This is child abuse."

As someone who was abused by a teacher when they were in school this type of heinous programming should not be allowed to be seen.

I request a fine and suspension for Fox news host Ingraham.

Ticket: # 4089752 - AT&T Dishonoring Contract

Date: 7/15/2020 4:10:07 PM

City/State/Zip: Parma, Michigan 49269

Company Complaining About: AT&T

Description

The consumer has service with AT&T.

The consumer's wife received a text message saying that if you pay 20% or 25% (can't remember exact number) of the bundled services they have with them, they will credit the rest of it because of the COVID-19 ordeal.

Now they are only crediting them for the cell phones even though it was suppose to be a bundle (internet tv and cell phones).

The consumer states that when trying to resolve the issue with them they state they were only doing that for the phones, but the consumer has the text message that clearly they sent out using the work "BUNDLED".

The consumer wants AT&T to honor the offer that they made.

The consumer went out of their way to come up with money to pay for the 20% of the cell phones, internet and tv.

Ticket: # 4089921 - Billing/Service Issues

Date: 7/15/2020 4:47:08 PM

City/State/Zip: Aliso Viejo, California 92656

Company Complaining About: AT&T

Description

- The consumer is calling about AT&T is her carrier
- She has a bundled package
- She states she has intermittent service issues
- She has reached out to the carrier multiple times
- She states they deferred partial payments due to COVID-19 for 7/28/2020
- She states on 6/28/2020 they cancelled it to 6/30/2020
- She states she has to pay everything in 2 weeks
- The consumer wants a credit for her intermittent services
- She also wants her deferral date pushed back

CTR405-phone

Ticket: # 4089955 - No Internet for 30+ days!

Date: 7/15/2020 4:52:23 PM

City/State/Zip: Olympia, Washington 98503

Company Complaining About: Comcast

Description

We have used xfinity/comcast for years. we recently purchased a home and comcast assured us we could set up same day and someone would come by to turn service on. That same day they discovered an issue with the box on the exterior of the house. they told as a technician would be by next day to fix it. That technician said he didnt know what the problem was. And left. We have called them every other day for weeks! And they havent had anyone fix the problem nor will the keep us updated on the status of the problem being fixed! I am not paying 150\$ a month for no internet when I work from home during COVID. Get someone to fix this or at least provide an update.

Ticket: # 4090012 - AT&T No Availability

Date: 7/15/2020 5:13:03 PM

City/State/Zip: Milwaukee, Wisconsin 53218

Company Complaining About: AT&T

Description

The consumer wants to file a complaint against her cable company AT&T.

The consumer made a payment arrangement to pay \$135 and then another \$135, so she called to let them now that she was waiting for unemployment and was only able to pay the first \$135.

They turned her cable off because of her not being able to make the 2nd remaining payment.

The consumer used the little money she had left to pay the electric bill.

The consumer is unemployed due to COVID-19.

The consumer is in a financial situation and needs them to keep her service on for means of the news and to get informed on what is going on.

The consumer will find a way to pay them for the service, but please don't continue cutting her service off or adding non-payment charges.

The consumer hopes that they don't make her pay for full month of service when she can pay since they cut her service off.

Ticket: # 4090072 - fraudulent, deceptive and unfair practices

Date: 7/15/2020 5:36:58 PM

City/State/Zip: Clayton, Georgia 30525

Company Complaining About: Windstream Communications

Description

With Windstream I recently had my telephone service disconnected since both my husband and I have cell phones and do not require a home phone. I retained Windstream as my internet service provider. Until then I had their "up to 10MBPS" service. When they disconnected the telephone, however, without informing me they switched me to their "up to 4MPBS" service; with speedtest.net the service has yet to demonstrate a download speed of 4MPBS; typically it is about 1.5 MPBS download. I work for the Department of Veterans Affairs and due to COVID19 am teleworking but with the dismal speed I cannot complete my work timely and efficiently. I called Windstream today who told me the 10MBPS service is "not available" to me with no further explanation. I asked to speak to a supervisor and after about 15 minutes on hold was informed that a supervisor was not available. Had Windstream informed me when I called to disconnect the phone that my internet speed would be reduced from "up to 10MPBS" to "up to 4MBPS" I would have left things alone, but they did not tell me which I find fraudulent, deceptive and unfair. Their "up to 10MPBS" service is passable however the "up to 4MPBS" service is wholly inadequate. Additionally, I was receiving until 12/29/2020 a \$20 per month Customer Service Credit on account of previous issues with Windstream that required FCC and/or FTC and/or Georgia Public Services Commission intervention in order to rectify, and Windstream has removed that credit. This company is extremely difficult to deal with and their trade practices are fraudulent, deceptive and unfair. What can be done to solve my problem is for Windstream to restore the "up 10MPBS" service to me.

Ticket: # 4090081 - Cable Equipment return

Date: 7/15/2020 5:42:06 PM

City/State/Zip: West Islip, New York 11795

Company Complaining About: Optimum

Description

I need to return cable equipment to optimum and they are telling me that i i have to mail it back. One i do not have a box and two i do think its allowed to make a customer go into a store and also incur an expense to do something that is free this is not an essential purchase. The cable company should have one drop off location or even mail us a box to return the boxes in

They are 45-2 hour hold times to get any help indomt care about covid because its phase 4 and the stores are open they need to accept the equipment back another way besides mail

Ticket: # 4090112 - ILLEGAL SERVICE INTERRUPTION VIOLATES OREGON STATE PANDEMIC LAWS

Date: 7/15/2020 5:57:46 PM

City/State/Zip: Portland, Oregon 97210

Company Complaining About: Comcast

Description

Hello Dan,

This problem needs to end for the public's safety, as it is rolling out today and negatively impacts folks in the pandemic emergency protections of the governor. I am a neuroscience researcher who worked as a Transporter 2 at OHSU, and was wrongfully terminated for having COVID, and a pre-existing condition/ disability -- ill for 2 months instead of the permitted 14-days. I contracted the virus while working with COVID positive patients in the ER and ICU. That is a whole other story -- many such wrongful terminations happening there to nurses in particular.

This story is related, but applies to the safety of the public. Below here is the recent cut and pasted email to Gov. Brown and Rep. Wyden - both offices have recently replied and been of assistance before - but I haven't heard back from the hundreds of contacts I have made with the governor over the last few weeks. Buried in work, I have no doubt. Therefore, due to the urgency of this story, I am appealing to you to respond and at least let the people know.

----cut and paste of Wyden/ Brown email today-----

Hello Rep. Wyden,

Recently, I contacted you via phone message and was relieved to hear back from your office. I have been trying to contact Gov. Kate Brown (was replied to one time which was also good), but to no avail. Please help! I am attaching a detailed email I just sent her regarding public pandemic protections and my own desperate need for my unemployment to be paid. I have been claiming since March when I was wrongfully terminated by Oregon Health & Science University and then denied Workman's Comp (along with several others, nurses). I contracted COVID-19 while working with my patients in the ER and ICU (details were given when I last contacted you and your rep replied with help).

-----cut and past of message sent to Gov. Brown-----

Hello Gov. Brown,

My name is (b) (6) and I have been calling you a lot leaving voice mail messages. Please respond to those messages by having your staff contact me via phone listed.

On another note, and in connection with my most recent voice mail messages, here is information you need to know about:

Yesterday, I received a text message that my service would be interrupted "due to non-payment." I called the company, spoke with a rep at length explaining that I am unemployed, have been claiming unemployment claims since March (when I was wrongfully terminated from OHSU for being ill with COVID-19; contracted while on the job there working with COVID positive patients in the ER and ICU), and I still haven't received any unemployment payments yet. I was concerned about service interruption, as Gov. Brown recently extended the Eviction Moratorium - which includes basic pandemic utilities and phone connection. I was told that service would not be interrupted due to COVID related unemployment.

Today, my phone received a duplicate text, and when I dialed your phone number to let you know what is happening and request assistance/ instruction, the line went directly to an automated outgoing message saying that my service has been interrupted "due to payment issues...to resolve the issue and restore service within one hour, I will need to make a payment arrangement." It re-routed me to a line which I was on hold for an hour in order to resolve the issue. Again - new rep, explain all, she tells me that there are two accounts (one for home wi-fi and land line and the other for my cell phone and iPhone), and the one for the home package was the re-routed line and corresponding representative I spoke to yesterday (sneaky, as I called ON the cell phone with account and security info and questions all answered), and this new current rep was for the cell phone package (what? why are these automatic lines being criss-crossed intentionally by the company?). She informed me that since I was "properly connected now" she could set up a payment arrangement in order to restore the service. So...I explain all to her, and inquire about why the service was interrupted during Gov. Brown's order for pandemic emergence reasons (she said the company doesn't "really follow state laws, it's just really from whoever the CEO is and then they tell us what to do..." I inquired further, "What is the reason for service being interrupted?" She replied twice, but without a direct answer. The third time she flat out said, "I don't know why they are doing this, it's a new thing we are starting today where 2000 customers a day are called - to try it out, maybe...I'm guessing you are one of the first because your name starts with an A." She connected me to another rep to set-up the payment plan because "there is no way that we can turn the service back on without that first." So she transferred me to the next rep. This time the rep, "Jackie" of Xfinity Mobile's Disaster Relief, Tier 2 Advance". In this call, I repeated all above, and dove deeper into inquiry. "Jackie" was incredibly helpful when I told her that I would be reporting this all to the governor, she sounded relieved and expressed gratitude and detailed her own harsh experience being in the job and "regret" of "not knowing how bad (this payment plan roll out) would be," and she said that she thinks its possible that if the company gets lots of complaints about this than its possible that they will "pull back". All in all, much information was gleaned and I was forced to set up a payment plan for a minimum of \$25 at a maximum start date of 30-days out in order to have service restored.

Salient information she shared:

"Jackie" works remotely out of 1 of 3 sites that are part of this new Disaster Relief Dept. She works out of the Spokane, WA office.

Jackie is not provided any supervisors to "escalate" calls, rather only an online forum of other equals who are also "winging it" without scripts. They are not given the phone number to the corporate office or provided any leads at all either, "there is no direct number for us, only an online tool button to transfer...no complaints process. We just have to use the chat room and I'm using it now, but it seems

like my co-workers are in the same boat as me." She let me know that if they can't pay, they can't have service.

This program is for 2000 per day with probability that number will increase daily as the payment program moves along, but she is not sure yet how that will progress, as today is the first day. She explained that the company is intentionally ratcheting up their collections plans after "extensions for past due bills happened May 15, June 30, and now today...partial payments and deferred payments plans are qualified with different criteria. She added, "they even sent out emails about this, but they only just did it today" guessing that it happened mid-day - my service was ended in the morning, and includes my internet access.

In the end, I am concerned about this on so many levels.

Please stop this now. If I am the first of many, we will all be endangered during the pandemic, especially for those without the privileged to have wi-fi and a land line not currently disconnected, and those with children using said phones for learning...etc.

PLEASE END THIS AND ALL COLLECTIONS FOR ESSENTIAL SERVICES DURING THE PANDEMIC.

PLEASE CONFIRM THAT YOUR OFFICE COMPLETED THEIR VOLUNTEERED TASK OFFERED TO ME ABOUT TWO WEEKS AGO WHEN THEY CALLED ME (RETURNING MY CALLS TO YOU) AND OFFERED TO PUSH MY UNEMPLOYMENT CLAIM THROUGH SINCE I HAVE BEEN CLAIMING SINCE MARCH (WHEN I CAUGHT COVID WHILE WORKING WITH PATIENTS). I LEFT 100 VOICE MESSAGES FOR YOU BEGGING FOR YOUR HELP TWO DAYS AGO.

(b) (6)

Ticket: # 4090174 - Unlocking phone service

Date: 7/15/2020 6:24:33 PM

City/State/Zip: Rock Hill, South Carolina 29732

Company Complaining About: Straight Talk

Description

I am a Verizon customer Someone went to purchase a phone for me, as I was sick and my phone broke. Because i am immunocompromised I was not able to go purchase the phone myself. However, my friend purchased a cell phone for me Apple Iphone 7plus and the representative advised her the phone could be used on any network, just need to put the correct SIM Card. When I received the phone I verified the phone could be used with Verizon they checked IMEI and told me yes i just needed to get another sim card. I get a sim card and I activate it, Verizon activates the phone on their end. However, I could not never get the phone to actually activate. So after 2 months of going back and forth and battling COVID 19 and undo stress. Verizon finally realized the phone is carrier locked, one of the representatives out of many advised me more then likely the phone is carrier locked to straight talk. The representative call straight talk they say the phone has to be active for 1 year, before unlocking. Well I am not willing to leave my current carrier whom I have been with for 3 years and it is not my fault that the representative at Walmart stated it could be used on any network, and then Verizon said it could be used. At this point I am frustrated with all parties. I am not working because of Covid, and I don't have a phone. After spending over 200.00 The return time has ended with Walmart. I explained this whole situation with the Straight Talk Representative he told me I should have read the fine print. WHERE WOULD I Get FINE PRINT FROM????? the phone is in an apple iPhone box. with apple support information, the box nor the contents mention anything not one thing about Straight Talk. I requested a supervisor. He said he was going to transfer me puts me on hold and then hangs up on me.

I need this phone unlocked, or straight talk needs to buy this phone for the price I paid it for it. Since he wanted to tell me that the FCC has regulated that the phone can only be utilized with Straight Talk, and yet I have no paper information stating that claim and obviously the Walmart representative was unaware as well.

Ticket: # 4090186 - Scam

Date: 7/15/2020 6:26:32 PM

Phone calls 7/15/2020 at 7:51am, 9:43am and 2:54pm PDT. We are receiving more scam calls during the Covid-19 and more bad ads on e-mail. There must be a way to stop the crooks!

Ticket: # 4090233 - False information from Verizon

Date: 7/15/2020 7:02:16 PM

City/State/Zip: Vacaville, California 95688

Company Complaining About: Verizon Wireless

Description

I contacted Verizon on July 8 2020th. I was told I had a balance that was due on June 28 2020th of \$313.02. I was told that after I made a payment of \$180 my balance would be \$133.02. I was not told at the time that my account was in Deferred Status. I never requested to have my account put into this status. I then called back on July 15th and spoke to three representatives that work for Verizon. All three representative gave completely different information. As a consumer it is a very hard time right now with the pandemic, high as a consumer would like to be able to understand why and how my account is being charged and over balance than what it normally is. I expect when calling into Verizon that the representatives have been trained to give correct information to the consumers. I am requesting to have the phone call from July 8,2020 Pulled Because I strongly feel that I was misled with boss and in adequate information on behalf of the supervisor by the name of David. I am asking for help from the FCC, I do not know who else to turn to in regards to the overcharges that I believe have been put on my account.

Ticket: # 4090355 - Harassing phone calls resulting in work interruption and personal distress

Date: 7/15/2020 7:56:47 PM

City/State/Zip: Smithfield, Virginia 23430

Company Complaining About: No Name, Just Boca Raton, FI

Description

Today I received at least 50 calls from a number identified as being from Boca Raton. All the calls began with (561) 465-8458. I blocked each call as it came in. A few minutes latter another call from (561) 465 - different extension. I am working from home due to COVID-19 and these calls were interrupting my work. What could be done to solve my problem is you could shut these pricks down. Stop them from making these automated, criminally harassing calls.

Description

Text message, several times, from 312-967-9170 advising that "Out of an abundance of caution, we are temporarily closing all indoor amenity space. We will update you when they reopen"

Ticket: # 4090472 - Att demands for me to pay past due amount to restore service

Date: 7/15/2020 9:17:41 PM

City/State/Zip: Los Angeles, California 90029

Company Complaining About: AT&T

Description

My family and myself are still reeling from Covid-19 and loosing our income. We have been grateful that we were allotted time to pay our bills. However, companies like At&t and Tmobile are disconnecting service of those that are unable to pay stating it is their policy. This is very alarming seeing that sometimes the internet or a mobile phone have become a major necessity. A lot of the times that is the only connectivity people have to contact someone in the case of an emergency.

I have contacted At&t every two weeks for the last four months to keep them updated about my need to continue service for my children to attend school. At&t reps refuse to reestablish service without a payment of \$340.00 which I would gladly pay if I had it. I was instructed by a rep of At&t to take my children to a public library where they could potentially be exposed to Covid-19 so they can do their homework.

In addition I was not made aware of any programs that would help assist or delay the collection amount. Reps made it very difficult to find information or to speak with a supervisor about my concerns.

Ticket: # 4090493 - Phone provider raised rates several hundred dollars

Date: 7/15/2020 9:31:04 PM

City/State/Zip: Harrisburg, Pennsylvania 17112

Company Complaining About: Windstream Communications

Description

My phone provider Windstream has raised my business phone bill several hundred dollars. I called to ask why and it was not due to any promotion expiring, we have not had any promotional pricing for years. This rate hike happened mid covid when my business is struggling. Other providers are not willing to take on new customers due to covid so I see this as predatory and taking advantage of the current situation.

Ticket: # 4090518 - Services

Date: 7/15/2020 9:48:42 PM

Company Complaining About: Sprint

Description

The company has yet to resolve my issue with the outrageous bill. There was someone from the executive office that reach out by the name of Leslie. She called one time and I have yet to speak to her again. The company has failed to help during this time of COVID 19. I find this appalling. The problem is ongoing and needs to be corrected. Also, the company failed to mention they were merging with another company. If I was aware I would have made the decision not to start a contract.

Ticket: # 4090534 - Overcharge for services

Date: 7/15/2020 9:59:59 PM

City/State/Zip: Pacific Palisades, California 90272

Company Complaining About: Sudden Link

Description

I requested the service at our vacation home be put on seasonal hold on 4/04/2020 because of the governor's Covid 19 stay at home order and travel restrictions. The company continued to draw automatic payments for full services. I have called multiple times to complain and was told I would receive a refund, but I never did. Then I received a call from a supervisor named "Alex" who basically said I was lying--that I never called on 4/04/20 to put the hold on my account, because the company had no record of the call, even though multiple people at Sudden Link had confirmed that I had and it was in their notes. Then, he said I called but only "discussed" the seasonal hold and did not actually "request" it. Then he said that it was my responsibility to call back and make sure the hold was activated and thus my claim was invalid and there would be no refund. My research of public complaints against Sudden Link shows that this conduct is typical of how the company operates. To resolve this issue I would like Sudden Link to simply refund the money they overcharged me since 4/4/2020.

Ticket: # 4090555 - Spectrum overcharge scheme

Date: 7/15/2020 10:18:36 PM

City/State/Zip: San Diego, California 92109

Company Complaining About: Spectrum

Description

I was a Spectrum customer for over 4 years, due to Covid on June 23 I returned all of their equipment and cancelled my service. They are attempting to charge me for another month starting on June 24th. They claim I should have returned my equipment before the month I paid for was over to avoid being charged for an extra month I can and will not use. They are abusing the public trust and should not be able to take advantage of consumers like this.

Description

My internet and phone provider "Windstream" has failed to permanently repair an issue that has been going on for years!!

I had a problem with my service when it rained or heavy dew but, now, over the last three months, my internet goes in and out 30+ times a day.

With Covid and working from home it is impossible!!!

All I am told is I am on three miles of bad line and they are not going to replace it!!!

Ticket: # 4090899 - COMCAST Harrassing 82 Year old Senior Citizen

Date: 7/16/2020 9:40:24 AM

City/State/Zip: Camden, Delaware 19943

Company Complaining About: Comcast

Description

I am writing this complaint on behalf of Ms. (b) (6), an 82 year old senior citizen. On March 24, 2020 Ms. (b) (6) ordered Comcast Internet so she could setup cameras in her home on Pony Track Road, Camden Delaware and provide access for her children to help monitor her well being. Before the Comcast equipment arrived she was hospitalized for several months and is now placed in a long term care facility and is unable to care for herself. All of the equipment was returned before anything was activated and the situation explained. Since then I receive multiple phone calls from Comcast each week claiming she owes \$70 for connection fee. Since no connection was ever performed and the circumstances with COVID 19 we believe Comcast is just harassing (b) (6) hoping to pressure her to take action for a fee that was never earned. (b) (6) is in a long term care facility for the remainder of her life and no longer has an income as a result. Please request Comcast cease and desist their harassment of this senior citizen immediately. Thank You

Ticket: # 4090914 - Illegal over billing

Date: 7/16/2020 9:53:17 AM

City/State/Zip: Woodbridge, Virginia 22192

Company Complaining About: Comcast

Description

Comcast lowered services due to Covid to \$14.95 for accounts with past due balances. On June 23 I had a bill of \$119.54 due which I paid in full. Today July 16 I received my new bill and they are again charging me for the \$119.54 plus another balance forward of \$99 plus my current charges. A total of \$293.48. I have spoken with a rep and she says now that my bill was paid in full they are back charging me for the previous months. Even though on their assistance plan the tv was disconnected and internet speeds were slowed down to the bare minimum.

Ticket: # 4090921 - Late fees charged during COVID

Date: 7/16/2020 9:55:49 AM

City/State/Zip: Galena, Maryland 21635

Company Complaining About: Comcast

Description

During the COVID crisis, no late fees were supposed to be imposed by utility companies. Xfinity charged late fees and put on their statements that you needed to contact them to get them taken off. When you try to contact them, you cannot get through to a person to discuss this matter so there is no way to have them taken off. This should be automatic.

Ticket: # 4090927 - Equipment

Date: 7/16/2020 9:57:17 AM

City/State/Zip: Deland, Florida 32720

Company Complaining About: Spectrum

Description

Spectrum has been calling me 2 x a day during these trying times, moving, covid, sickness, saying I owe them a router that I do not have, if I even ever had it is questionable! I returned EVERYTHING that I had to them. I went to store to tell them. They continue to harrass me.

Ticket: # 4090945 - Unwanted Calls

Date: 7/16/2020 10:03:57 AM

City/State/Zip: Colfax,, North Carolina 27235

Description

I am receiving unwanted robo calls from WAKE forest Baptist Medical Center. I have five providers in this system. They seem to service announcements or info on the COVID virus. I am getting 5-10 such calls a week. Please make them stop.

Ticket: # 4090984 - Slow Internet in Subdivision

Date: 7/16/2020 10:23:14 AM

City/State/Zip: Conroe, Texas 77384

Company Complaining About: Consolidated Communications

Description

Our neighborhood has notoriously slow internet with Consolidated. The lines running through our subdivision are phone lines over 20 years old with download speeds of less than 20mb/s, and when an employee came to take a look at our internet, he mentioned that there was newly installed fiber-optic cable being run down a road right at the entrance to our subdivision that provides 10x faster service to apartments not even a quarter mile away. Our neighborhood wants Consolidated to simply expand their fiber cables into our subdivision and replace the outdated copper wiring, especially in a time where Covid-19 is forcing most of us to work from home.

Ticket: # 4091116 - deceptive billing/fees

Date: 7/16/2020 11:11:29 AM

City/State/Zip: West Palm Beach, Florida 33417

Company Complaining About: AT&T

Description

advertised that fees would not be charged during covid, fees were charged anyway. Billing has never been correct. spent HOURS upon HOURS on the phone with this company trying to correct the issues to no avail

Ticket: # 4091143 - COVID SCAM

Date: 7/16/2020 11:21:28 AM

City/State/Zip: Columbia, South Carolina 29229

Description

I received this spam text Norah, its pretty important to make sure you are covered fully with the latest pandemic. I have a program that can cover all your medical cost fully. Could be discounted. Call me back please“.

Ticket: # 4091236 - Phone COVID billing

Date: 7/16/2020 11:53:22 AM

City/State/Zip: Englewood, Florida 34224

Company Complaining About: T Mobile

Description

Consumer's business has been effected by COVID-19.

He has not been able to make a payment.

He is on a COVID plan.

They shut his phone off on 7/1/20.

Consumer as out of town and found out about it.

He called and said he could pay \$200 then, but not the \$400 they were requesting.

Consumer was told to call Friday and that he needed to make the \$230.30 immediately.

Consumer made a payment for \$230.30 and then called back.

His service was shut off again even though a supervisor was supposed to call him today.

Consumer called and has been on the phone for 3 hours this morning.

He was under the understanding she would call and discuss payment options.

Consumer spoke to another supervisor and that supervisor told him he owed \$550.

Consumer requested a \$400 credit due to the aggravation and them turning his service off when he shouldn't have because he was on a COVID plan.

Consumer agreed to make a payment of \$136 and pay the remaining \$100 the next month.

Consumer made the payment and was told he needed to make an arrangement for the remaining over \$800.

Consumer has paid almost \$500 alone this month.

The supervisor repeatedly said he couldn't do what the consumer was requesting.

Consumer feels like the company is taking as much money as they can without providing the agreed upon services.

Consumer feels powerless in this situation.

Consumer would like T-Mobile to keep his service active and to stop taking advantage of their customers.

Consumer would like T-Mobile to hold their end of the COVID payment plan deal that had previously worked out.

CTR404-phone

Ticket: # 4091329 - Internet Speed**Date:** 7/16/2020 12:18:40 PM**City/State/Zip:** Fort Mill, South Carolina 29715**Company Complaining About:** Comporium

Description

I have been with tech support for almost an hour, and the tech support told me my plan is for 300Mbps download and 300Mbps upload, speed I told him I never got, being the max at around 110Mbps to 120Mbps download and 50Mbps to 60Mbps using a router (after I bought a router as with the one provided by them the connection was awful). He asked me to connect directly my laptop to the outlet and the speed went to just over to 150Mbps and the download to 70Mbps, as I previously told him (I want to note that before that speed it was 107Mbps down and 77Mbps up while on the call with the technician). It always has been this the speed, never has been better. Now that I work from home is when I started having issues with my connection more often, and I have contacted Comporium at least twice regarding this issue and, due to COVID-19, they are not sending technicians to houses (they have done it before, but the speed it has been basically the same), so solution offered was to charge me additional \$5.00 to have a static IP that "may" resolve the issue with speed and now my problems connecting to a VPN. I believe that is not fair, cause first I am not receiving the service I am being charged for (and I never did) and second I can't pay more to see if "maybe" that fix the issue. They are always offering ways to improve your internet service, like a mesh network system, etc. Second is that unfortunately, Comporium it is the only internet cable provider in the area, unless you want to go with satellite internet, which is more expensive, one thing shouldn't be allowed, because even is not 100% monopoly, in some way it is, cause the other services are similar, but not the same.

Ticket: # 4091560 - Constant service issues**Date:** 7/16/2020 1:21:15 PM**City/State/Zip:** Council Bluffs, Iowa 51501**Company Complaining About:** Cox

Description

I moved in my house in April of this year. I had Cox cable set up March 23 before the move in date. Cox was supposed to return to finish the job that involved a camera for security. The company didn't give me the equipment or return with the camera informing it was due to the COVID virus yet kept charging my bill for it. I have made multiple complaints for them to take care of the issue. Eventually they bring a camera down to push a button to hook it up and plug it in. I could have done this myself. They did send techs down to get it taken care however the company had area outages for 4 days in a row causing me to be late for work 2 days in a row since I had to go some where else to use WiFi. Again today I go on the app and there is another outage. This is unacceptable for a company to have so many issues and still expecting customers to want to pay for service. They have taken care of the bill so far but I shouldn't have to deal with it every month or contact this company all the time for continuous issues. I have multiple screenshots of the outages as well I don't believe the bill has been taken care of properly to continue service. This is for TV, WiFi and a security camera. I have had it with the service outages this is the 5 th one within a months time. I had to have hotspot added to my phone line just in case their service goes out.

Ticket: # 4091611 - OTELCO's unacceptable internet provisioning in rural Vermont

Date: 7/16/2020 1:35:00 PM

City/State/Zip: Orwell, Vermont 05760

Company Complaining About: Otelco

Description

OTELCO (and its predecessors OTT and Shoreham Telephone) have provided substandard service for more than a decade to rural customers. In particular in my household and my neighbors' households, 5 Mbps DSL has been promised, and we have all been billed for that service. Yet this level of service has never been achieved except on rare occasions. The company has blamed everything from its own infrastructure limitations to COVID-19 to the number of devices being used in households. However, recent "upgrades" performed by OTELCO clearly show that OTELCO has been lying about its "inability" to provide the promised service. I wish to demand a prorated refund for myself and all other rural customers in my neighborhood.

Ticket: # 4091670 - Sprint Violating The Keep Americans Connected Pledge

Date: 7/16/2020 1:52:16 PM

City/State/Zip: Rockingham, North Carolina 28379

Company Complaining About: Sprint

Description

Referencing Call Ticket (b) (6)

I would like to formally submit a complaint against Sprint. I believe they take the Keeping Americans Connected Pledge (March 13, 2020 to June 30, 2020) as a joke. From what I've witnessed, they're not following any of the agreement they had with you or any ethical fair business practices.

1 They are cutting phone services off to customers at will. My son's phone with Sprint was cut off on June 28th, 2 days early from the Pledge end date of June 30th. And then again on July 12, 2020 after making an agreement to restore service until July 14th, 2020.

2. Sprint continually demands over \$600 a week to pay the past due balance, which they insisted amounted to \$1,736.07 in back charges. It was finally determined on July 13, 2020 that the amount was \$1024.56. Twice when my son was trying to make payment arrangements and had to threaten involving the FCC, Sprint then claimed they made a mistake and gave him the wrong account information. This happened twice since June 30th.

3. Sprint holds your service hostage and only restores your service for 2 days at a time if you are financially unable to meet their demands. Sprint still will not work with a reasonable payment arrangement. And add insult to injury, Sprint wants to add a \$7.00 payment arrangement fee for the inconvenience of having to make the arrangement in the first place. When you depend on your phone to make a living and THEY know this, they are going out of their way to interfere with you making any income. Since June 28th, Sprint has cost my son hundreds of dollars in earned income during this pandemic and may cost him his job.

4 Sprint stores knowingly mislead you and promise you anything to get the sale. After you sign, headquarters changes the agreement to what it should actually be outside of your knowledge. Sprint feeds off the naivety of Millennials and takes advantage of them.

5 Sprint is tacking on late fees to customer accounts during their FCC Pledge. The bill was current in March 2020, yet Sprint tacked on a late fee and has done so each and every month since. One agent made a comment that the reason his bill was more than planned was due to merger fees. He asked for them and the late fees to be removed and was ignored. As of July 13th, 2020 these fees should have been removed, but doubt that they have been removed.

4 Sprint is getting accounts mixed up. This has happened twice since my involvement.

5 My son asked them to close his account on July 12th, so there would be no additional charges added after the 18th and Sprint refuses to close the account. On July 16th, Sprint acknowledges that the request was made, 4 of his lines are still active, but suspended. He has had to request copies of his conversations with Sprint, but they are dragging their feet. When trying to close the account they advised him there would be a \$250 Early Termination Fee on 1 piece of equipment that has only 3 months left to pay off at \$20.84 per month. He only owes \$62.52 on the equipment. Contact him to get details. Again Sprint is trying to extort money from their customer.

6. On July 1, 2020, Sprint only acknowledged 1/2 of the payments that were made on the account and crediting him for them. I'm not sure if that was straightened up but I may have.

7. Account Services agent never return calls or call you back when they say they will. They don't make changes to your account when requested to do so. My son's address for example has been requested three times that I have witnessed. Still no change. One person associated with the account

asked Sprint to release his line and Sprint said they needed my son's authorization. Richard has authorized and made several requests to release the other lines associated with his account and they refuse to release them. Update: as of today 7/16/2020, they have released one line only.

8. Sprint makes unreasonable requests for payment. They refuse to work with customers unless it's "their way" and penalize them if they don't.

On July 13th, 2020 Sprint wanted 25% of the balance owed to restore the phone line for 2 days, then another 25% plus the new monthly bill to restore the phone til the 29th of July. The stress Sprint is placing on their customers during this pandemic is appalling. They would not budge. My son had to get another phone aside from Sprint just so he could work stress free and to keep Sprint from costing him money.

Currently his account is still active but suspended when it should be closed as requested. Come the 18th another \$400 will be added to his account unnecessarily. Please contact my son for exact details. Number listed below. Thank you

Ticket: # 4091841 - Phone bill

Date: 7/16/2020 2:23:46 PM

City/State/Zip: Port Saint Lucie, Florida 34984

Company Complaining About: Verizon Wireless

Description

Due to covid19 in may I lost my job, so I called Verizon and ask to be put on the deferred program, I never heard anything so I continue to pay my bills in full, in June I made my full payment of 333.09 that's my monthly bill, so in July I called and tried to make my payment and it said I couldn't because I was on the deferred program so I called and spoke to Jim and ask him to take me off the deferred because at this point I was back to work, he said okay wait till after the 4th of July, so called on the 5th and still could not pay, so I called again and talk to some one and she put the order through again she said to Waite till next billing cycle to start and try to pay it, so today June 16 th I got a text saying my bill was ready, I was able to make a payment but, my bill was 34.00 more than usually, so I tried calling and was on hold for over an hr.. and never got through so I chatted with an agent on line and she told me that the 34.00 was for not receiving payment on time.i told her I was not suppose to have extra charge due to the problem. She was no help what so ever. So I'm contacting you, because I don't feel that I should be charged extra, for anything since it was not my fault .

Ticket: # 4091946 - Student Loan Covid Scam

and there are several more that refuse to give their ID.s I have been a customer of att for over 20 years and this treatment is simply terrible and can't be legal.

during these times of great problems, I know have no communications with my family and need some help during these covid19 times as I have a compromised immune system and I'm missing half of a lung due to tumormors.

Please help me with this issue. i have no phone, email me at: (b) (6)

Ticket: # 4092098 - Slow/No Internet Connection**Date:** 7/16/2020 3:23:16 PM**City/State/Zip:** American Fork, Utah 84003**Company Complaining About:** Comcast

Description

Even as I fill this form out, I wonder if it will go through without the internet dropping. I have had xfinity through Comcast as an internet provider at my current residence, which includes my home office that I work from 90% of the time, since January 2019. Since that time I have had to reset my modem device and call the technical support line dozens of times. I have had to replace a modem once and have had two visits from technicians to examine the home wiring. I have even doubled my speed in April after the COVID shut-downs due to an even greater occurrence of my internet slowing or completely stopping. Unfortunately this didn't help. I have spent countless hours working with Comcast to get service restored only for the issues to return, sometimes within minutes or hours. When one of the company's technicians came to work at the house he confirmed that everything looked good but that the issue I was having was inevitable and would only become a greater issue with technology. He said that many different devices interfere with connection, including Bluetooth devices and even radio transmitters. After this, I turned off connections with Bluetooth devices and even turned off connection with devices that weren't immediately necessary to have a WIFI connection. None of these measures seems to have any effect. The interruption of service happens during all times of the day independent of whether another is streaming movies or being the only device connected to the WiFi. I was told that upgrading to a speed at double the download speed would help but had not actually had any perceivable instance. Even now, the app to conduct a internet speed test that was recommended by a company rep is measuring 10 mgps compared to the 100 mbps that I am subscribed to. I am filing a complaint because I don't have any other recourse. I have to work from home and constantly need an internet connection through the day. I have instead obtained a second job to have to constantly call technical service and reset my modem to temporarily help my service.

Ticket: # 4092140 - unwanted political text from 224-529-3950

Ticket: # 4092235 - Suddenlink

Date: 7/16/2020 3:57:11 PM

City/State/Zip: Greenville, North Carolina 27858

Company Complaining About: Sudden Link

Description

This company as a whole is incompetent to troubleshoot and establish seamless service both in the areas of customer service and internet service. I, myself, have spent hours on hold, simply trying to have a modem dropped off and a cable box. We are paralyzed working out of home, due to the COVID mandates with our companies which are employed.

Ticket: # 4092321 - Follow up to [REDACTED]

Date: 7/16/2020 4:11:45 PM

City/State/Zip: Miami Garden, Florida 33056

Company Complaining About: Comcast

Description

Consumer said that Xfinity has not discussed anything with her

Consumer said she sent copy of the recording of the agreement

Consumer said they are charging her for a contract she did not enter in to

Consumer said she sent them a copy of the recording of the phone call with what she agreed to

Consumer said she is still in dispute with the \$276.00 and also the amount of internet charges for internet she never received \$65+ a month for 10 months

Consumer did not get the 200+ channels she was promised and only received 125 channels

Consumer said she never got the claim papers denial letters and why they were denied for the 3 TV's that were destroyed

Consumer said she never got the live stream discount option during the Covid pandemic, because she did not have working internet, she was charged full price

Consumer just wants to be compensated for her loss and to bill her properly going forward and give her the 125 channels she has now at \$140 a month, if she is being charged what you are charging her then she was supposed to get 200 plus channels and the movie channels

CTR402

Ticket: # 4092361 - Suddenlink issues

Date: 7/16/2020 4:21:37 PM

City/State/Zip: Charleston, West Virginia 25304

Company Complaining About: Sudden Link

Description

I have had ongoing issues with Suddenlink internet, cable and phone for over a year. I was assigned a corporate representative and after four months with terrible or no service, the issue was resolved and they did give me partial credit, but refused to fully credit my account for only receiving 20-25 mbps but being charged for 400 mbps and freezing and tiling at all times when trying to watch tv. They also charged me for phone service from March 2018 to November 2019 but never installed the telephone modem and never issued the credit for that or told me my phone number. There has never been a home phone used in this residence. They can confirm zero usage. I filed an attorney general complaint in WV, and Suddenlink responded with a letter stating they tried to contact me, but that's also a lie. I was promised a retention package for one year in March, totaling \$114 a month, but they also took that away immediately and are still charging me for broken equipment that their representative left behind in January and acknowledge it is not functioning. There is no local office open due to the pandemic and I was only informed last week that they would provide a shipping label to return it. I reached out to the corporate number once again and my bill was reviewed, but they refused to discuss the retention package that I was promised for a year and hung up on me. I called back several times and they would only transfer me to customer service with hold times of one hour. I called back again and spoke with Luke, who threatened to charge me with harassment and disconnect my service if I called back again. This company is doing a bait and switch and extorting money from many customers in WV. I am respectfully asking for assistance with these overcharges and relief in the form of credit to my account.

Ticket: # 4092380 - Verizon Charged \$1,993.9 in "reconnect" fees May and June 2020 for late payment

Date: 7/16/2020 4:26:18 PM

City/State/Zip: Burr Ridge, Illinois 60527

Company Complaining About: Verizon

Description

We are a small trucking company and we use Verizon for business.

Due to the COVID-19, in May 2020 we were unable to pay the huge bill, and we got late. Shortly, our account was deactivated and all our 48 drivers were on the road without internet and phone connection. We managed a way to find the necessary funds and called Verizon and paid other the phone \$3,100. Verizon reactivated our devices immediately. Same thing happened in June 2020. Later, we found out that there is a reactivation fee \$996.95/month which we were not aware of. We called Verizon to try to solve it, but they said reconnection fee is not reimbursable. It is so hard to stay in business now, and instead of getting help and support from our Vendors, we ended up with \$1,993.9 in charges. We won't be able to survive with such polices.

Ticket: # 4092419 - Comcast complaint

Date: 7/16/2020 4:33:24 PM

City/State/Zip: Philadelphia, Pennsylvania 19144

Company Complaining About: Comcast

Description

Consumer could not get the hotspot for her phone

The consumer said that the agency

This happened today the consumer said she went to the store

The consumer said that they would not let her get the hotspot

Then the store refused to let the consumer sit in a chair due to covid

The consumer states she is clearly disabled which clearly upset the consumer

Ticket: # 4092456 - spoofing

Date: 7/16/2020 4:41:27 PM

City/State/Zip: Winnetka, California 91306

Description

Receiving return calls that I called someone, I did not call, my number must have been spoofed. All day long receiving random calls. I do not know any of the people calling. Average of calls per day that I do not know 5-15.

I have now cancelled my LandLine. I am done with all the scammers, spoofers! Interesting there were no calls during Covid 19 business shutdown.

Ticket: # 4092473 - Suddenlink customer service and resolution**Date:** 7/16/2020 4:45:18 PM**City/State/Zip:** Bryan, Texas 77808**Company Complaining About:** Sudden Link

Description

Our Internet has been down for three days now. The first day, we spoke to four different reps who all told us different things as to why it wasn't working and that they resolved it. The last rep told us to swap out the modem as it was a bad modem. The second day, we went to the Suddenlink Office and got a new modem. However, the reps didn't seem to know what was going on and did not activate it until the fourth call we made. Today (the third day), I called and had the issue escalated and was told a supervisor would be calling me. I did not receive a call and waited 4 hours. I finally reached someone who would forward me to their supervisor and the call hung up without me speaking to the supervisor that could potentially help.

Suddenlink has poor customer service, representative training, and issue resolution time. After my issue was escalated, a supervisor should have called me promptly but I waited 4 hours to receive a call back that never came.

They do not call back when they say they will and do not escalate issues when they say they have. There is poor communication as I had to tell 10-12 different reps my issue. No notes were on my account and there was no senior support specialist that could help.

I was told multiple times that the supervisor or technical engineer will call me and no call ever came except from a regular rep. When a technician was finally able to be scheduled because they figured out that what they were trying was not working, it will be a week without internet.

Suddenlink says they are going above and beyond for their customers that are affected by COVID but all I have encountered is hung up phone calls, rude representatives, and broken promises.

Ticket: # 4092486 - Xfinity refusal to provide service**Date:** 7/16/2020 4:48:53 PM**City/State/Zip:** Fort Collins, Colorado 80521**Company Complaining About:** Comcast

Description

Xfinity refuses to provide service to my property even though they have a so-called green “doghouse” and green pedestal (attractively leaning like the Tower of Pisa) in front of my property. This has been going on for well more than a year with no explanation or fuzzy explanations like they can’t find me in the database, my address doesn’t exist. The house has been here since 1897 so we know the address exists. My nextdoor neighbor, a man, about 50 feet to the west of me has service. My neighbor to the south of me, a man, has service.

A couple of calls ago, Xfinity changed their non-response to they want about \$2,000 from me for a hub. Although I was promised many times that someone from Xfinity would get back to me to explain further, I always have to call them. Today, they want \$300 from me in materials and \$2,000 in labor before they will provide service. When I asked for a breakdown of costs, Xfinity had no information. Based on Google Earth measurements, my house is 326 feet from Xfinity’s equipment. All they need, if anything, is a Cat 6 extender. Today’s customer service rep, Thomas, tried to tell me hooking up without paying \$2,000-plus to Xfinity might damage the network. Ha, ha. I have built many LANs and Cat 6 layouts. Thomas passed me up to George who told me costs are what they say, and there is no other option.

George did allow as to how the pedestal in front of my property, which also serves my west-neighbor’s house, has 16 ports, enough to serve many houses. I offered to trench myself to meet them if needed, but he did not take me up on the offer. I am not allowed to interact with the construction person that made the initial ruling. Basically, Xfinity is saying \$2,000-plus or shut up. I can’t believe Xfinity’s ethics, especially in the midst of the Covid-19 pandemic when internet access is even more important. With the male neighbors all around me receiving service, I call this at worst, discriminatory refusal to provide service to a woman, and at best, price-gouging of the vulnerable.

Ticket: # 4092519 - Suddenlink Complaint**Date:** 7/16/2020 4:55:45 PM**City/State/Zip:** Gun Barrel City, Texas 75156**Company Complaining About:** Sudden Link

Description

Since February I have had issues with Suddenlink. After a service outage that lasted over a month, with numerous calls and sketchy techs coming out, service was finally restored after 6 weeks. They never did take off all the charges that I was charged when I didn't have service, but after fighting back some, I was able to get it down as low as they would agree to. Yesterday my service was interrupted for non-payment, and I called in to talk with them about it. I have just recently applied for several work from home positions, where internet is required. I was very polite with explaining the situation, that my income was affected with COVID and I would be able to make a payment as soon as I get a job. The representative was not sympathetic at all, told me no he wouldn't be able to restore it, so I asked to speak to a supervisor. He told me he couldn't transfer me, didn't offer any other phone numbers or a way to reach anyone else, told me I'd have to call back, and then hung up on me. Never have I ever been treated this way after being as sincere as I was. My Manners were used at all times, even with the frustration. I am trying to support myself and 5 children, and have fallen behind on everything, and as soon as I had some good opportunities come up, Suddenlink is unwilling to work with me. Their customer service is awful, and I have never had a good experience unfortunately. Something needs to be done to change this. Thank you for your time.

Ticket: # 4092629 - Complaint Ticket No. [REDACTED]

Date: 7/16/2020 5:29:57 PM

City/State/Zip: Columbia, Maryland 21044

Company Complaining About: Verizon

Description

Urgent- ind angering my health a well being. I realize that responses mat be delayed due to the pandemic, however, I forwarded a complaint on May 19, 2020 with no response to date. Could you provide an updated because the problem continues. Today, July 16, 2020 at 10:25am through 11:34am, and again at 4:23pm through now, 5:25pm. I would appreciate a response. Internet service and radio service interrupted. Experiencing frequent head and earaches

Thank you,

(b) (6) [REDACTED]

Ticket: # 4092634 - Mass outage in Riverview for over 24 hours - no resolution

Date: 7/16/2020 5:31:37 PM

City/State/Zip: Riverview, Florida 33578

Company Complaining About: Frontier Communications

Description

Service provider refuses to give an adequate estimated time for resolution. Several conflicting stories have been provided as to what caused the outage and no updates are being given. Due to recent pandemic, many are working from home as myself and therefore, internet service is vital to maintain employment.

Ticket: # 4092730 - Frequent outages and no other providers available.

Date: 7/16/2020 6:11:00 PM

City/State/Zip: Boulder, Colorado 80305

Company Complaining About: Comcast

Description

Over the past month I have experienced repeated internet outages during regular working hours, interfering with my ability to use my home internet connection for my job. These persistent outages have only been exacerbated by the fact that due to the COVID-19 pandemic, I have been forced to work remotely from my home.

In order to better understand the frequency and severity of these outages, I started performing periodic logging of internet connectivity from my home router, using a dedicated appliance attached to the router. This appliance was configured to check internet connectivity using well known DNS servers. Based on the logs from this appliance, I have observed internet outages at the following times in the past month:

- July 16, 14:24 - 15:09
- July 16, 11:59 - 12:14
- July 11, Unknown - 06:19
- July 7, 09:33 - 09:48
- June 24, Unknown - 11:57
- June 23, Unknown - 15:28

It is my wish that these outages are resolved so that I can have consistent and reliable access to high-speed internet in order to complete my work. I do not feel that this is an unreasonable request, given that this is a service that I am ostensibly paying Comcast/Xfinity for. I do not have any other options for high-speed internet at my residence, as Comcast/Xfinity is the only provider in my area offering this service.

The monopoly continued by Xfinity is causing me direct and immediate harm as a consumer by denying me the access to a reliable and high-speed internet connection, aggravated by the immediate conditions of the COVID-19 pandemic.

Ticket: # 4092733 - Billing Complaint**Date:** 7/16/2020 6:13:13 PM**City/State/Zip:** Temecula, California 92592**Company Complaining About:** Spectrum

Description

We had internet and recently responded to a promotional offer to add cable. Then the Covid-crisis hit, I lost a job opportunity I was pursuing and without any income we canceled the cable service. Since then Spectrum has been trying to charge considerably more for our internet service than we were paying, citing that any cancellation resets your rates to a "standard" rate. This was never explained before we added the service and in light of the crisis I think it is unconscienable that they would try to capitalize on this crisis to charge more for a service. Moreover, every call to Spectrum takes anywhere from 55 minutes to 1:40 minutes - closer to the 1:40 minutes than the 55 minutes and in some cases after being on hold for considerable amounts of time they terminate the call. Since I have challenged them on the reset, I have had several different rates with the latest being the highest plus, they never cancelled our cable service per our agreement with Barb - one of the supervisors I talked with, unbeknownst to me and were charging for several months afterwards. I believe corporations that have near-monopolies should be held to a higher standard. They act with impunity and abuse their customers. I would like our rate returned to what I was paying before accepting their "generous" offer to add cable service.

Ticket: # 4092861 - Cox Internet Issues - Won't Share What's Going On

Date: 7/16/2020 7:06:41 PM

City/State/Zip: Oklahoma City, Oklahoma 73106

Company Complaining About: Cox

Description

Cox Internet upload speed has been around 0.5mbps in my area since Monday 14th July. I cannot send files (even as small as 4mb) to clients due to the bandwidth issue. I have contacted Cox three times, have received a variety of excuses and estimated times to fix - still not fixed. Last night they said they no longer had an estimated time to fix.

They've blamed COVID and storms, and now tell me they can't tell me what the issue is, but they are trying to fix it. I have politely requested to speak to a manager/supervisor who can at least tell me what the real issue is but agents tell me they can't do that. I just feel a) they at least can tell me WHY they are having a problem (I'm an understanding guy) and b) give me a decent time to fix. This is impacting my work - I have to drive elsewhere in OKC in order to send files/Dropbox.

Ticket: # 4092904 - CenturyLink

Date: 7/16/2020 7:29:29 PM

City/State/Zip: Estill, South Carolina 29918

Company Complaining About: Centurylink

Description

Until two weeks ago, the fastest internet speed CenturyLink provided to my home was 3 MBPS at approximately \$100 per month. After a repair visit, the speed was downgraded to 1.5 MBPS. As a professional educator who works two online jobs from home, especially in this era of COVID-19, high-speed internet is an absolute necessity. Today, I received an email indicating that CenturyLink could provide as much as 3 MBPS as a dedicated T1 line for \$425 per month. For many years, I've contacted CenturyLink for affordable options to high-speed internet to no avail. To resolve the absence of adequate internet access, CenturyLink needs to do whatever is necessary to provide affordable "true" high-speed fiber optic internet access and options not only to my home, but to the area in which I live especially since it's the only landline carrier available.

Ticket: # 4092906 - Service charge

Date: 7/16/2020 7:29:42 PM

City/State/Zip: Flagstaff, Arizona 86005

Company Complaining About: Sudden Link

Description

I was charged \$60.00 for a service call. The technician told me he had to change the input lines outside. This did not correct the issue. When I called a reported that my cable was still not working properly, Suddenlink told me that they would not send anyone to my house due to a faulty DVR because of covid. They are crediting my account for decreased service. But they are still charging me for the service call.

Ticket: # 4092922 - Disconnected for equipment turned in already

Date: 7/16/2020 7:39:23 PM

City/State/Zip: Lubbock, Texas 79404

Company Complaining About: Sudden Link

Description

Suddenlink disconnected my services for the old equipment that they didn't want to use when they came out to reconnect after only a little over 30days. I turned the equipment in at the Lubbock location which was closed due to COVID19 and had to use the drop box according to the sign on the door. I turned it in almost 3weeks ago and they still cut my services off for equipment fees

Ticket: # 4092940 - Unknown charges

Date: 7/16/2020 7:55:51 PM

City/State/Zip: Hollywood, Florida 33020

Company Complaining About: Comcast

Description

I open an account with Xfinity with internet only after a while I transfer the account to my roommate Taurino belliard he is a formal employee for Xfinity, he decided to moved and disconnected services, after that I received a bill with my name on the bill having equipment charges and services. I transfer the account to this person by months before the disconnection of services! I have nothing to do with those charges and why is my name now on the bill, customer is not working do to covid but in the mean time I'm being billed for an account that was transfer to someone else.

Ticket: # 4092964 - Stephen Colbert Show 7/14/2020

Date: 7/16/2020 8:19:36 PM

City/State/Zip: Merrillville, Indiana 46410

Description

On July 14, 2020, Stephen Colbert was interviewing actor Tom Hanks. During the interview, the topic changed to Tom Hanks having had the Corona virus.

In the interview, Hanks described it like this:

"You ever had a really sore butt? It felt like your older brother had held you down and just kept fisting you in the buttocks until you said something like, I love Flipper!"

Talking about "fisting in the buttocks" is extremely vulgar and insensitive to victims of child pornography, victims of rape, children who have been victimized in child trafficking, which the Trump administration is fighting against.

The original date and time of the program is July 14, 2020 at 10:30PM Central Time. I first witnessed seeing this on July 16, 2020.

CBS and Tom Hanks need to be investigated for possible crimes against children.

Ticket: # 4092995 - Billing

Date: 7/16/2020 8:34:18 PM

City/State/Zip: Bowie, Maryland 20716

Company Complaining About: Verizon Wireless

Description

On July 7 2020 I paid Verizon Wireless 48.95. I have received three threatening calls from Verizon Wireless concerning the calls the latest was on today July 16 2020 at 12.30 p.m. still Vetozone wireless did not want to take responsibility for their actions after several calls and speaking to management. I just lost my oldest brother and feel that also Vrtizon Wireless has exhibited some discrimination based on race as well as age. Thus issue has gone on to long. I would like m.j e a 100 dollar credit to my account. I have it hard 3enough through this pandemic and being 67 to have calls directed to me when I do not owe t hff e amount according to the Fair Debt Collection Act. Any assistance that you can be in the matter will be greatly aporeciated.

Ticket: # 4093015 - Complaint against Optimum for over Billing

Date: 7/16/2020 8:49:40 PM

City/State/Zip: Tuxedo Park, New York 10987

Company Complaining About: Optimum

Description

Hi, I am optimum customer and I have their bundle package with TV, Internet and Phone. My bill during the last few months has been increasing every month. My Bill in December 2019 was \$194 (including taxes) which for July 2020 is \$221.80. Without any information my bill has been increased whereas I have lost channels as well. I have been trying for days to call Optimum office to inquire about the billing and see if I can get more information to lower my bill.

Except for one time, I have not been able to speak to the representative. There is ridiclus amount of wait time time to speak a representative. I have also used option to call back (which supposedly mean a call back from optimum within 45 minutes) without any success. I have tried to email optimum but there is no email to contact them. I tried to chat online, again I am stuck with a robot.

The only one time when an optimum representative call me back, the phone got disconnected and she never called back to resolve my issue.

There is no way to reach optimum, I understand this is middle of a pandemic and they have fewer resources, but that does't mean to keep increasing prices without any accountability.

In our area, optimum is the only cable provider and most importantly internet provider. They are abusing this exclusivity to charge whatever they want. I want optimum to work with me to resolve my bill issue.

Ticket: # 4093064 - Fee for service not delivered

Date: 7/16/2020 9:15:57 PM

City/State/Zip: Evergreen, Colorado 80437

Company Complaining About: Comcast

Description

Ever since COVID lockdown and other restrictions, there have been no regional sports activities. Comcast's Xfinity continues to charge a monthly fee for the service of providing regional sports broadcasting which they are not delivering. They should not only stop charging this fee, they should refund their customers who they charged this fee to but failed to deliver the service they charged the fee for.

Ticket: # 4093143 - Possible cellphone scam

Date: 7/16/2020 10:41:08 PM

City/State/Zip: Rancho Mirage, California 92270

Company Complaining About: University Hospital Riverside

Description

Received call from Univ. Riverside Hosp. system asking for Covid-19 survey participation. At end asked for my name and phone number. Said they'd send an email with antibody testing information. I never gave email address. Looked up phone number online and saw it had potential for identity theft/scam.

Ticket: # 4093167 - Spectrum

Date: 7/16/2020 11:24:55 PM

City/State/Zip: Los Angeles, California 90045

Company Complaining About: Spectrum

Description

I have not heard from spectrum about my complaint except they turned on my voicemail.

I have an account with Spectrum Communications for tv, internet, and a landline. My account number is (b) (6).

I started the account with Spectrum in April 2019. I was told there is NO CONTRACT. Yet after 12 months (a contract for 12 months), they increased my bill without ever advising me they were going to do so.

They advertise voicemail with the landline. I have never been able to get voicemail since inception of this account even though I have called so many times with so many promises from their agents. I still don't have voicemail. One of the agents I talked to said she was issuing a \$9.99 credit to my account because I have never had voicemail. Instead, I was CHARGED an additional \$9.99 to my account! A first grader could do better! It took hours and hours on the phone and by instant message to get this corrected. They issued the \$9.99 credit to my account to offset the charge, but never issued the credit for my inconvenience of never having voicemail.

They advertise \$44.99 for tv for 12 months. Well I plan to have it 12 months (another contract and false advertising that they don't have contracts) yet I am being charged \$50.96 per month instead of \$44.99.

They advertise \$49.99 for internet and I am paying \$70.99 per month. Why I don't know. The Vice President of Spectrum sent a letter to me a few months ago saying the speed of the internet was going up with NO cost to me.

In addition to all this, the equipment does not work properly. The DVR drops shows and we miss recorded programs unless I physically check it every single day. The TV unit continually says, "do you want to upgrade," and you can not watch tv. When I call for service, they do not know how to fix it. They mail a new or refurbished piece of equipment to me for me to install even though I was charged for installation at the beginning. The last time I called the agent, again, did not know how to fix it. She said I'll mail you a new box. My husband subsequently figured out how to fix the "do you want to upgrade" and within 2 hours, I called back to cancel the order of the new box. The Spectrum agent said I did not call soon enough and the order could not be canceled even though it had not shipped for several days after my call. Absurd! So as a 69 year old woman, I had to go to our package area; carry the receiver back up to my apartment; unpack the unneeded receiver and get the return shipping label out of the box; repackage the receiver; and drive to a postal service in the middle of a pandemic in Los Angeles to return a receiver I did not need. I had been in isolation since February but had to break isolation to do this!

The topping on the cake - this month's bill has a charge on it for \$9.99 for changing my service and a \$25 charge for Silver Service! I have no idea who added this to our bill as we have never ever requested a change of service. I am sick of spending my time correcting their mistakes! It is a 2 hour wait to instant message with someone who barely speaks English yet they have employees available to add unauthorized charges to my account. In addition to all this, CNN does not work on either of our tv's. I have attached last month's and this month's bills to show you how they added the charges. I have no idea what the other fees are for.

If I had an option, I would NEVER EVER use Spectrum. They false advertise, don't know how to fix their issues, add inadvertent charges to accounts, and don't know how to appreciate the customers they have. To show us their gratitude for remaining a customer, they raise the rates higher than the advertised rates. Customer service is totally dead!

If I have to continue to correct their issues, I think they should put me on a salary!

I hope you can help. It does no good to call or contact them as they are clueless and do what they want to the customers.

Thank you!

(b) (6)

They advertise \$44.99 for tv for 12 months. Well I plan to have it 12 months (another contract and false advertising that they don't have contracts) yet I am being charged \$50.96 per month instead of \$44.99.

Ticket: # 4093206 - Refusal to connect digital service gap

Date: 7/17/2020 12:33:19 AM

City/State/Zip: Bessemer City, North Carolina 28016

Company Complaining About: Charter

Description

I have been in contact with Charter Communications several times

I have several neighbors who currently have high speed internet service with Charter

Communications, the closest one is 1,584 feet from me. However Charter refuses to close the digital

gap for me and 3 other homes but they resume service connections with my neighbors 3,182 feet

from me on the opposite side. I am told that even though I have a minor child attending k-12 schools

I must pay \$25,000 for the lines to connect 1584 feet. Clearly this isn't feasible since I am not

working due to the pandemic and I will not be able to provide any education for my granddaughter

without reliable internet service.

Ticket: # 4093225 - DEFECT EQUIPMENT

Date: 7/17/2020 1:16:01 AM

FYI VERIZON WHEN MY COMMUNITY EXPERIENCE AN OUTAGE NO FAULT OF MINE MY JOB
MADE ME USE LEAVE IN WHICH I TRY TO SAVE BECAUSE I'M A CARETAKER AND DON'T
HAVE MUCH OF SO PLEASE MAKE SURE YOU PROVIDE ME WITH THE SERVICES I'M PAYING
FOR

Ticket: # 4093226 - Xfinity Billing Ripoff/Poor Customer Service

Date: 7/17/2020 1:16:05 AM

City/State/Zip: Denver, Colorado 80222

Company Complaining About: Comcast

Description

Xfinity allowed customers through June 30th to keep their internet services due to the need to keep these important services during this difficult time. This complaint is to notify you that they are now holding customers' accounts hostage when customers are unable to pay their bills. Prior to the Covid-19 situation, they were immediately turning on services as soon as a payment arrangement was made. They are now refusing to turn on the service until the date of the payment arrangement, potentially leaving thousands of customers without vital service during this difficult time. I in particular will not have any service including internet, phone, TV, or security until 9 days from now, which is when I can pay my bill. This is completely contrary to other companies who actually are working with customers who are having employment issues.

Ticket: # 4093235 - Internet and cable issues

Date: 7/17/2020 1:58:05 AM

City/State/Zip: Brownsville, Texas 78520

Company Complaining About: Spectrum

Description

I'm very frustrated, upset, dissatisfied and disappointed with Charter Communications (Spectrum in my area). I recently moved to an area and since day one I have not been able to get reliable services from this company I, every single day there's an outage internet and cable goes out every single day, I have these services because my income depend on them especially during the global pandemic, and every time I called to spectrum obviously they can't do anything because there's an outage on the area. This is unacceptable, I moved from Austin, Texas and had the same services I think I even had less speed of internet than I have now and never experience this type of service, I will not take the "EXCUSE" that too many people are online because my sister's address which is an account that I also pay in the same city Brownsville, TX that also has some outages but not as bad as I'm experiencing at this new address, and even when I was staying at home in Austin, TX we had three people working at the same time from home and is a bigger city so we had way more people working from home. So as a consumer I need an explanation of what the issue is, and a resolution; is it infrastructure, you cannot support your customers and provide the services you sell and charge?

I also purchased a Apple TV from them which I'm paying in monthly payments and even that I have not been able to use it, as I'm writing this complaint I have been on hold way over 10 minutes without checking, the representative that answered the technical support line is very courteous but it seems that Spectrum does not equipped their representatives to handle these type of unreliable service complaints.

I would like for the FCC to investigate the area and the company because this company is not being proactive and upfront with their consumers, they only take action when someone complaints but what about all the other consumer that don't call they get cheated out of their money as well.

Ticket: # 4093249 - Data Caps are causing undue financial burdens

Date: 7/17/2020 3:36:35 AM

City/State/Zip: Fresno, California 93701

Company Complaining About: Comcast

Description

Data Caps on internet services are actively harming the average person and their defense of caps being meant to protect network stability is weak due to the period between March and June. Going over the limited data threshold will quickly cause customers to incur inevitably larger unjustifiable bills. Please prohibit the practice of data caps from now on, especially due to the experience of the Coronavirus pandemic. The company, Xfinity, has no incentive to stop and all the incentive to continue due to being a de facto monopoly in various U.S. cities.

Ticket: # 4093290 - Cricket Wireless Reactivation Fee**Date:** 7/17/2020 8:09:07 AM**City/State/Zip:** Irondale, Alabama 35210**Company Complaining About:** Cricket

Description

In the past I've stressed to Cricket Wireless I only get paid on the 15th of each month for the small business that I work for. This has been going on since 2017. The day my prepaid service payment is due is 14th of each month. So every month my service is off unless my job decides to pay a day early because of the date the 15th hits I pay it then but 99% of the time it's the 15th. My prepaid service goes off nearly every month and I have never been charged a reactivation fee and I've never known a prepaid service charging a reactivation fee. I received the first notification ever by Cricket Wireless Prepaid via text on July 12, 2020 that a deactivation fee \$15 would apply. I received another text on July 14, 2020 that a \$15 reactivation fee would apply if my bill wasn't paid by 11:59pm. Prior to July 12, 2020 Cricket Wireless did not inform me through text, email, nor call that their prepaid company would begin charging \$15 reactivation fee. My phone was cut off at 12:00am on 07/15/2020. When my direct deposit hit that morning of 07/15/2020 is when I paid the bill. I contacted Cricket Wireless because my service was still off after paying \$80 to restore my service and I was told by a male rep that they had started charging a reactivation fee as of this month. I told him they gave me a 2 day notice prior to the 14th of when my bill was due, gave me no preparation to either switch my service to a prepaid wireless company who doesn't charge, nor it gave me time to see if I could borrow the money. I informed the rep at Cricket Wireless that not only had I just recently gotten over from having Covid-19 but my work hours had been affected only working 2 days a week instead of 5 and because we are under a pandemic emergency still in Birmingham, Alabama everyone is being affected so why all of a sudden this absurd charge. The rep informed me that Cricket Wireless assumed that things were better and that since Cricket Wireless has been doing better they decided to start charging the fee. I told the rep it sounds to me that their company was affected so this was a way to recoup the charges from consumers when this is a prepaid service. The rep stated that the reactivation fee was in affect May 2020 but not reinforced until this month. I asked for proof and then he goes back to read me the text they sent me on July 12, 2020. So he contradicted when the actual change went into affect. So then the rep tells me that they were helping people during the pandemic to lower their bill and give extra internet gigabytes in April. I told him I didn't have a problem with paying \$80 so that help with lowering my bill wasn't needed and as far as the 10 GB for the month of April I didn't even notice because I had Covid-19 the entire month of April and got it again in June so none of what they stated helping the customers benefited me. I have WiFi 98% of where I go and with me being at home the entire month of April on quarantine I used my home WiFi. The rep refused to adjust the \$15 reactivation fee so that I could restore my service and I didn't have the extra because I'm taking care of 4 of my children. He showed no sympathy so I asked for a manager and even speaking to a manager he reiterated the fee so for someone reason it sounded like the manager was using voip service to talk to me because the call was still connected but I could no longer hear him. Instead of the male manager disconnecting the call and calling me back he disconnected the call and I had to call back in again. I paid the \$15 because I was waiting for a food stamp case worker to call me for a phone interview. I called back in and the female rep with cricket wireless prepaid service just kept apologizing after I made her aware I was going to file a complaint with the fcc. It was only then that the rep said my date could be changed from the 14th of each month to the 15th of each month. It was only then the rep stated a \$2 and whatever change was a prorated amount and she would adjust that

as a courtesy but no one allowed me to change it prior to that and no one as a courtesy and due to what is going on thought about adjusting the \$15 reactivation fee that they immediately charge in less than 6 hours of paying your bill and restoring your service. I am requesting an investigation into how this company is handling fees with customers. I am requesting a refund either back to my card or a check mailed to me. I do not want a credit applied to my bill because it should have never happened in the beginning.

Ticket: # 4093355 - robocalls from spoofed/fake numbers

Date: 7/17/2020 9:30:15 AM

City/State/Zip: Canton, Mississippi 39046

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are all marketing calls. Most of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day. And, a new trend had recently arisen: text messages. I cannot overstate how angry and frustrated I am with these people's total disregard for other's right to privacy and peace of mind.

Many of the spoofed numbers were identified by my caller id as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona, Crystal Springs and Byhalia MS. For some of these numbers, caller id did not identify the location, but an internet search of area codes and prefixes determined the location. For a brief period earlier in the year, there was a spate of calls from out of state as well. This surge in out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. While that surge of out-of-state calls was fairly brief, there are occasional calls identified as coming from out of state. I recieved (and filed a complaint for) a recent call identified as coming from Indian Spring, NV. fFor the call I am reporting today, caller id identified no physical place of origin. An internet search of the area code and prefix indicated the call came from a wireless device with a rate center in Ashland, MS.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. I tried to return the call, and it simply disconnected.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

In addition to the phone calls, I occasionally also received marketing communications about health insurance through text message and/or email. In these cases, I have often been able to communicate directly with the sender, and at least gain their assurance that they would not contact

me again. I have had two of these individuals inform me that they were sold my information. I asked the latest of these very directly, "where did you obtain my information". He refused to answer. In my view, this refusal makes him complicit in the perpetration of these unethical activities.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4093391 - No cable signal via cable

Date: 7/17/2020 9:54:57 AM

City/State/Zip: Jacksonville, Florida 32207

Company Complaining About: Comcast

Description

Only one of four of our televisions has input from our cable provider Xfinity, this for over a month, despite numerous calls to them, and repeated attempts to fix the problem. Due to COVID they claim not to be able to send anyone out. I am a first responder, I need the TV's to work if I have to self isolate.

Ticket: # 4093454 - contact

Date: 7/17/2020 10:24:05 AM

City/State/Zip: Oakville, Connecticut 06779

Company Complaining About: Optimum

Description

Cannot get in contact to cancel service. they are using covid 19 as an excuse to ignore questions concerning anything except new service connections. Many people are complaining about this in Oakville ct because they are are main provider in the area. Thank you!

Ticket: # 4093544 - Suddenlink Communications

Date: 7/17/2020 10:54:14 AM

City/State/Zip: Boonville, Missouri 65233

Company Complaining About: Sudden Link

Description

Internet is never consistent. I have now been without internet for 4 days. This is just one of many times this happens. After spending 2 hours last night trying to reach the company to advise of my outage, I was told a technician would be out in one week. I work from home so no internet is a huge problem. I am being charged for a service that is not being provided. I was also told that there could be a charge for the technician. Yet, I am still paying for the service they are not providing. Suddenlink does not care as there are relatively no other choices for internet in my City. They had no problem charging me for my data overage when we went over due to Covid and I was working from home along with my children being home schooled. I'm charged for going over my data when unlimited is not available from them yet when I have no internet, I don't get a credit.

Ticket: # 4093552 - Possible COVID19 death sentence

Date: 7/17/2020 10:56:15 AM

City/State/Zip: Philadelphia, Pennsylvania 19147-1308

Company Complaining About: Verizon

Description

Verizon demands fiber 7-22-20 installation in my house. Age 86, after 2 heart operations, if I get virus I probably will die.

Ticket: # 4093612 - Medicare Card Fraud

Date: 7/17/2020 11:09:36 AM

City/State/Zip: Loudonville, Ohio 44842

Company Complaining About: Social Security Administration

Description

Today I received a call from someone who said that he was in the "local Social Security Office" in Mansfield, OH (The address he provided was indeed correct for the local SSA office.). He claimed that my paper Medicare card would not work any more and that he needed me to verify my Medicare number such that he could send me a new plastic Medicare card. He also mentioned something about COVID-19. He stated that he could only see "stars" on his computer screen and not the number. My daughter, who is visiting me, got on the phone and asked to speak with his supervisor. Eventually another man came on the phone and said that he was with "Medicare Health Insurance" in California. He claimed that if my daughter provided my Medicare number then the screen would turn green when it verified what was in their system. He also stated that it showed all "stars". He had my address and date of birth. My daughter refused to provide my Medicare number and hung up.

Ticket: # 4093630 - Billed for Termination fees

Date: 7/17/2020 11:14:39 AM

City/State/Zip: Wrightstown, Pennsylvania 18940-9683

Company Complaining About: Verizon

Description

My business shut down on March 8th due to Covid-19. I have now closed my doors permanently due to the virus. I was charged for termination fees with Verizon.

Ticket: # 4093633 - Radio Indecency

Date: 7/17/2020 11:15:45 AM

City/State/Zip: Cordova, Tennessee 38016

Description

The consumer states that her community is disgusted by a man that is broadcasting on TV and Radio.

The consumer states that she joined a group trying to get this man off the airways.

The consumer states that he claims to be a pastor and was airing porn on his broadcast stations.

The consumer states that he says "Ladies from my community please sell your v*gina's for a COVID-19 cure".

The consumer states that his name is Thaddeus Matthews and is located in Memphis, Tennessee.

The consumer states his station is WMQM that airs his show.

The consumer needs him off the airways and the internet too.

CTR-415

Ticket: # 4093751 - Sprint Billing

Date: 7/17/2020 11:55:00 AM

City/State/Zip: Bronx, New York 10457

Company Complaining About: Sprint

Description

The consumer states that she has an issue with Sprint whom she had cell phone service with.

The consumer states that she paid \$200 a month for 4 phones.

The consumer states that they started charging her another line that she never authorized and whoever did it was using her name and information.

The consumer states that in March 2020 they cut her services off because of non payment because she wasn't paying this other persons account.

The consumer states she was not going to pay for someone else's services.

The consumer states that she received a collection notice of around \$2,000.

The consumer states that she needs them to drop this charge because she doesn't have service with them anymore and paid for her services only.

The consumer states that she was forced to leave Sprint because she needed service during COVID-19 and her daughter used the phone for school work so she needed service she couldn't wait until they decided to turn it back on.

Ticket: # 4093762 - FireWiFi

Date: 7/17/2020 11:56:30 AM

City/State/Zip: West Union, West Virginia 26456

Company Complaining About: Firewifi Llc

Description

Website says no throttle and was told on the phone it is unlimited WiFi without being throttled the informal number I was given was 500GB (over the phone) but I received an email saying it was just recently upped to 200 FROM 50! & after 50 I had been throttled andi would now be throttled after 200. It was upped bc of covid. I also order the booster they sell and it didn't work so I had to return it myself and received no refund!!

Ticket: # 4093793 - Internet Service Provider

Date: 7/17/2020 12:03:30 PM

City/State/Zip: Temple, Texas 76502

Company Complaining About: Centurylink

Description

The only internet i can get at my address is DSL through CentryLink and it is barely usable. I have asked if they will be updating the lines/service and the company for the past 4 years has told me they have NO plans to update in my area and they have also told me that if the lines are damaged too bad that they will stop offering the service all together. I have Spectrum lines in front of my property but every time i call to get spectrum they tell me that they do not service this area due to area/territory limitations. If CentryLink is unwilling to upgrade the service/lines then i should be allowed to purchase from a company that is willing (and is already in the area) to keep their lines/service up to date.

PLEASE help, i have gotten nowhere for 4 years of calling both Spectrum and CentryLink. I rely on the internet as my means of providing income and with Covid, my wife works from home sometimes and the connection just cannot handle two users.

Ticket: # 4094071 - billing and poor customer service

Date: 7/17/2020 1:11:05 PM

City/State/Zip: Grimesland, North Carolina 27837

Company Complaining About: Sudden Link

Description

Altice suddenlink has opaque billing for internet, tv, and phone and wait times to reach customer service, before COVID 19, were between 45 minutes and 90 minutes on hold on the phone. I just called again on a billing issue where I was billed incorrectly and waiting 65 minutes to reach someone. This is unacceptable. They consistently introduce errors in billing and then you cannot reach them to get these corrected.

Ticket: # 4094145 - Poor Service

Date: 7/17/2020 1:27:35 PM

City/State/Zip: Nebraska City, Nebraska 68420

Company Complaining About: Windstream Communications

Description

I have been customer of Windstream for several years. My internet service is, and always has been, horribly slow. I just tested it and got 2.1Mbps download speed. In addition to it being slow, it frequently stops working, necessitating unplugging the modem and resetting everything. With Covid, I have to work at home, which I'd nearly impossible with my internet service. Also, this is a security issue because my security system will not work properly. When I ask Windstream about it, the answer they give is that my service is "as is" but they won't tell me what that means or what I can do about fixing it. It's basically, "your service is horrible. We don't care, and we aren't going to fix it". Is there no requirement for companies like Windstream to actually provide service that works? Who can I talk to about addressing this.

Ticket: # 4094180 - Comcast Xfinity Internet Usage

Date: 7/17/2020 1:37:56 PM

City/State/Zip: San Jose, California 95148

Company Complaining About: Comcast

Description

I would like to raise my concern about how comcast calculating the internet usage.

Their advertisement says "with 1.2 terabytes of data is enough to power 34,400 hours of only gaming in a month. That's about 1147 hours per day on 48 devices for 24 straight everyday.

But yet, we only have 2 devices and we don't play video games 24 hours per day. Today, July 16, we received a warning that there are only 99 GB remaining.

During March thru June when Comcast allowed unlimited data usage due to COVID 19, we noticed that our daily interne usage was going up slower. What does mean to the consumers? Please help.

(b) (6)

Ticket: # 4094339 - Harassing telephone calls

Date: 7/17/2020 2:24:25 PM

City/State/Zip: Lockport, New York 14094

Company Complaining About: Group Plan Insurance

Description

They call daily insist they are calling about my health insurance. They will not stop calling after weeks of daily telling them to stop calling. I have had it sometimes they call twice a day. My families insurance is through my employer and has nothing to do with these people. I will not give them information, but I work from home due to the pandemic and I need to answer my phone due to work.

Ticket: # 4094618 - Disability access to emergency COVID-19 information from Zito Media

Date: 7/17/2020 3:23:14 PM

City/State/Zip: Elko, Nevada 89801

Description

Zito media in the area of Elko, Nevada will not answer calls or show up for service. I am writing for my handicapped father who is 85 and blind. He cannot access any information on TV concerning COVID-19 or other emergency information because the service is out most of the time and they refuse to address it. Zito media also will not address the outage of his internet service, which has been out for over 2 weeks, for his alexa which he depends on for emergency information and help.

Ticket: # 4094624 - Paying for Sports Packages when there isn't any current sports

Date: 7/17/2020 3:24:10 PM

City/State/Zip: Morrisville, Pennsylvania 19067

Company Complaining About: Comcast

Description

I'm filing a complaint against Comcast/XFINITY regarding my monthly billing fees. I don't understand why I'm paying \$8.75 for a Sports Regional Fee when there hasn't been any of the 4 major Sports since March. There hasn't been any Basketball Games, Baseball Games, or Hockey Games since the Pandemic Lockdown. Trying addressing this issue s been complicated because I can't talk to anyone on the phone about this matter as Comcast/XFINITY doesn't have the personnel to take calls from their customers. This is an outrage and unacceptable. I don't watch Volleyball, Rodeos, or any such secondary sports. Why do I have to pay \$8.75 a month to watch Sports when this isn't any of the 4 main Sports being televised? In my opinion, Comcast/XFINITY should be reprimanded for charging their customers Sports Regional Fees when there currently aren't main sports to watch. I've attached my July Bill showing the Sports Regional Fee.

My resolution to my complaint would crediting my next bill by (\$8.75 x 5 months) \$43.75. I also want out of this contract and for Comcast to offer me an Internet only package (I don't watch Television anyway) with the lowest download rate to reduce cost.

Thank you for your assistance regarding my complaint,

(b) (6)

Ticket: # 4094706 - Verizon FiOS Service and practices

Date: 7/17/2020 3:44:43 PM

City/State/Zip: Richmond, Virginia 23229

Company Complaining About: Verizon

Description

Ordered Verizon FIOS services to the address of (b) (6) many years ago. Verizon will alter the price points over the years. Each year I would look up the price and request either a new service or new price structure.

I've never agreed to any term contracts like two year contracts or increased rates after certain period. When Verizon would not offer such scenarios, I told them to cancel the service and I would place an order for new service at the residence of location when ready (the same address).

The fall of 2019 Verizon increase the price for the service. I contacted Verizon and spoke to a representative. They told me to pay the difference and they would work with me placing new order for different price point and service speed. That did not happen. They then told me to call back which I did. I was told by the representative that they had to have a supervisor alter the account. The supervisor would call me back. That never took place either.

Verizon continued to invoice for the wrong amount. I contacted Verizon and was told again to "bring the account" to current status for assistance. This time I refused and told them I would pay the agreed upon price. I filed a complaint with the BBB when Verizon started harassing me via phone calls, emails and text messages asking for payments. At one point I think I got 8 contacts by Verizon systems demanding payment or threats to suspend the service.

I then filed for Covid-19 Service protections while my daughter was in school. Once the local school system had completed, I contacted Verizon and terminate the services.

Verizon continues to send various messages asking for payment of what Verizon says is the difference in balance, late fees, interest and this week mailed a letter "claiming" an early termination fee. I ordered the service via phone call with Verizon staff and there was NO contract or termination clause. Ironical that Verizon doesn't want to provide the service at said price but then wants to file a termination fee when the DECLINED via corporate office to provide the service at said price.

I asked the corporate representative to audit the account and confirm I had paid the agreed upon price without missing any payments or making any errors. I know that one month I had sent a payment for \$39.00 when it should have been \$39.99. An issue with typos on computer input. The representative did not do such.

I proceeded to check the information which I had and concluded that I owed Verizon something like \$1.98. That fee was paid to Verizon.

Verizon is still claiming a balance and falsely assessing an early termination fee.

I want all the fees reversed. I want the FCC to force Verizon to stop false billing practices and eliminate all "contracts" for any term. Additionally, Verizon should NOT be allowed to access consumers accounts directly for any reason INCLUDING any claim of a discount.

Think about the industry. Three years ago they wanted consumers to pay to do electronic payments, etc. Now they're telling you have to agree to debit an account to get a discount.

Once they have access to your account, they can claim and take anything they want with the consumer having to revert to legal actions. Most consumers cannot afford legal actions against a billion dollar telecommunications company. So what do you think shall happen then?

Oh one other issue related to their operations in addressing the matter. Verizon put in the last service order spelling my name wrong. All login access to the account is tied to wrong spelled name. When asked to correct, they didn't want to take the time to "recreate" the account since open NOR would they contact their own systems database administrator to update the name spelling to the correct account.

So half the time, I cannot login to the system because I spell it one way and forget that they didn't correct. Just another example of poor customer service which actually does impact the consumers ability to effectively manage the account.

Ticket: # 4094803 - cell tower maintenance

Date: 7/17/2020 4:04:17 PM

City/State/Zip: El Sobrante, California 94803

Company Complaining About: AT&T

Description

I have AT&T cell service and I live in Northern California. Last year the gas and electric company started state sanctioned power outages during hot, windy days in an effort to prevent fires. Last year during a state sanctioned power outage I was unable to use my cell phone for over 3 days. I can look out of my back window and see the cell tower so I could only surmise that there was not backup power provided to that tower. It's almost certain that state sanctioned power outages will occur again this year. As the coronavirus pandemic surges out of control, it is imperative that residents who loose power can still access their cell phones. Very few people have land line phones these days. Last year when I contacted AT&T about the inability to use my cell phone, I asked why they did not have backup power to the tower. I was told "...some we've gotten to some we haven't." I have lived in this house for over 20 years, continually looking at the same cell tower so I find it hard to believe that AT&T has not gotten around to providing backup power. They have all the time in the world to purchase Direct TV, Time Warner, etc but they don't have time to make sure I can call for emergency help if I need to. I am requesting that the FCC do whatever possible to make sure the cell tower feeding my neighborhood is properly maintained, including backup power. Thank you

Ticket: # 4094805 - Home phone not working

Date: 7/17/2020 4:05:01 PM

City/State/Zip: Fortuna, California 95814

Company Complaining About: Comcast

Description

My elderly grandparents have a home phone through Comcast. For over a year they have had problems with the only form of communication they have to the outside. Comcast first said it was their phone so they have bought 2 phone systems and it was not fixed. We have called multiple times and they say there is nothing wrong or that it is fixed. The phone cuts off after 11 minutes and then no phone service at all. Other times when a call comes in it drops right away then no phone service. With the pandemic the phone is the only communication they have with doctors or emergency services.

Ticket: # 4095083 - Inappropriate EAS Use

Date: 7/17/2020 5:15:50 PM

City/State/Zip: Houston, Texas 77055

Company Complaining About: Comcast

Description

On the morning of 7/17/2020, KUHT and Comcast utilized the Emergency Broadcast System to broadcast a message that interrupted programming that was not in any way, shape, or form, a genuine "emergency".

Indications are that this message regarding the Wuhan Coronavirus originated from the Harris County leadership and Commissioners Court.

I would suggest that it is a huge breach of trust to use the EBS for non-emergency communication, and damages the credibility of the system when this is done. The communications entities, KUHT as well as Comcast need to have some sort of review process to ensure that bullying local government officials cannot misuse their networks and the EBS for non-emergency messages. A review of the history of Harris County Judge Hidalgo would clearly show that she has an agenda that is more political, than in the interest in the safety of the county residents. Such misuse of the EBS is a huge breach of the public trust.

If your jurisdiction extends past that of FCC licensed providers, I would encourage you to pursue this to the full extent of the law. This misuse is inexcusable.

Ticket: # 4095087 - AT&T Prepaid AutoPay Discount Issue and Double Data Plan Issue

Date: 7/17/2020 5:21:50 PM

City/State/Zip: Palatine, Illinois 60074

Company Complaining About: AT&T

Description

I have a prepaid account with 10 lines giving me auto pay discount of \$100 every month. I have recently on 7/3 and 7/4 loaded my account with a refill cards for amount \$450. On my billing due date 7/17, AT&T was supposed to deduct only \$240 from the \$450 as I was already enrolled in auto pay. Instead it deducted \$340 and when contacted customer care, they said auto pay system tried to process \$0 on my card which somehow was declined by the bank. Instead of notifying me to update the card or re-trying, it just deducted \$340 from my balance. I just lost \$100 from my account balance. Auto pay system trying to process \$0 is ridiculous. I promptly updated to my new card but still \$100 is gone. I tried to explain this to situation to customer care rep but they were of no help. The customer care was not willing to consider this as one time exception considering pandemic situation and give \$100 back. Been a long term customer and always paid on time.

Also I had double data plan, not sure if that is lost due to all this. Also not sure if any of my members promotions were impacted by this.

AT&T Prepaid should rectify this auto pay system.

Ticket: # 4095102 - Over Billed by Comcast**Date:** 7/17/2020 5:46:24 PM**City/State/Zip:** Lansing, Illinois 60438**Company Complaining About:** Comcast

Description

he consumer stated he called Comcast on 07/13/2020. He called to pay his internet bill. His old location was [REDACTED]. When he moved from this location, to his present location, he did not owe anything. He moved in 2019 to the new location listed in this complaint, (maybe sometime in October).

This consumer stated that his internet service, at this time, should be no more than \$30-\$40. He turned this service on in November. If he gets slightly behind, he doubles the payment. However, he stated that he called to find out why his service was off at his current location. He stated that it had been off since the beginning of the pandemic, through the present time. He stated that the Comcast reps were laughing and joking. He made a double payment to reconnect the service. However, even though he was expecting to be reconnected, his service was not turned back on. He called them back on July 14th/15th. He was told at that time that he owed \$500.00. The consumer stated that this is impossible. He could not possibly owe \$500.00. He stated that he has been over billed ... by Comcast. He stated that these are corrupt charges

He has been in the new location since November of last year and cut off services to his previous address back in October 2019.

He disputes any charges over his normal service, for internet only, at his current location on Bernice Road.

The consumer wants an explanation of the \$500.00 because he did not receive a bill showing this amount AND he totally disputes these charges. He stated that he wants immediate credit for these fraudulent charges.

Ticket: # 4095134 - Cellular signal, usage, coverage, etc

Date: 7/17/2020 6:05:32 PM

City/State/Zip: Burtonsville, Maryland 20866

Company Complaining About: Sprint

Description

I have been having serious problems with connectivity on my Samsung Galaxy S10+ phone. My phone either stays on 3G, or I have no signal at all. My phone often times crashes, and disconnects my calls. I am updating my profile and PRL at least 10 times a day, turning off and restarting my phone daily, and it still doesn't stay on LTE. I get emails late, updates late, and various others things to my phone either never go through, or come through hours later. I send messages sometimes, and it doesn't always get to the recipient. Sprint has not done anything to fix my problem, and I don't feel comfortable going into a Sprint store with the pandemic going on. I pay \$400 a month for 4 phones, and I am NOT getting the service that I am paying for at all!

Ticket: # 4095142 - optimum stealing from consumers

Date: 7/17/2020 6:08:17 PM

City/State/Zip: Brooklyn, New York 11226

Company Complaining About: Optimum

Description

May, my 2 cable boxes that was installed for over 10 years was not working. I've call Optimum and report this problem to them. Optimum told me due to Covid 19 a technician will not be able to come over my house to repair the cable boxes. I decided to downgrade. Instead I told Optimum to send me only 1 csble box. 3 weeks later the cable box arrived. I try to installed it but could not. I have called 3 times and spoke to 3 people before a 4th person finally help me installed the box to my TV. A few days later the box stopped working so called Optimum and was told a technician would be coming to fix it. June 23rd a technician came. He said that the cable wire that connected to the box is not working. He needed to change it. Optimum charged me 85 dollars for the job. I had no cable for almost 4 weeks. I had only 1 box working. I have been calling, sent text messages and emailing them. Today I received a call back and the young man hang up the phone one me. I called Optimum again. I was told be the voice recording I will get a call back. I received a call back at 5:24 pm. I waited on the phone to speak to a person for almost 45 minutes. No one showed up. This is was a call back. I want a credit for the 4 weeks and I do not want to be charged for the cable wire replacement

Ticket: # 4095229 - Consolidated Communications - Internet Failure, Slow Resolution

Date: 7/17/2020 6:41:12 PM

City/State/Zip: Groton, New Hampshire 03241

Company Complaining About: Consolidated Communications

Description

CURRENT ISSUE:

As of yesterday, July 16th, at 11:00am, the internet connection to our home stopped working. It is apparently a line issue because all connections from the telephone pole to the home appear to be fine. I have made repeated calls to Consolidated Communications requesting repair service. The best they have offered is an 11-day resolution, promising to send a technician by July 27th. Due to the COVID-19 pandemic, my fiancée and I work from home 100% of the time and have no other options at this time. We are left with virtually no other options and limited ability to do our jobs. During a time of national emergency, it is unacceptable that Consolidated is not doing more to ensure that their long-time customers do not have reliable access to the internet.

BACKGROUND:

My ADSL connection with Consolidated Communications has become increasingly unreliable as my fiancée and I have been relying on it increasingly as we both now work full-time from home following our offices closing due to the COVID-19 pandemic. We own a home in rural central New Hampshire and consolidated is the only option available to us for internet. The highest tier of service they offer does not meet the FCC's definition of high-speed internet (only 10mbps download and 1mbps upload). Also notable, while the FCC's map of the area shows speeds of 25/3mbps are available, I can attest that they are not (without an investment of \$50,000 to bring in completely new service from miles down the road).

Since Verizon sold its northern New England holdings to the first in a growing list of no-name provider in the early 2000s, there has been chronic under-investment in fiber infrastructure in the region. This is especially true in the region's rural corners. By way of example, we are less than 2 miles from roads that have fiber. However, we have been left in the early 2000s with only antiquated DSL options. This is simply wrong.

In 2020, I feel it is unacceptable that more is not being done to bring reliable and fast internet options to all residents of the United States. The failure of the government and for-profit companies to make universal service a reality is a national embarrassment. High-speed internet is already an economic necessity and should be regarded as a human right.

Ticket: # 4095368 - Unable to speak to live tech person

Date: 7/17/2020 7:39:23 PM

City/State/Zip: Trenton, Missouri 64683

Company Complaining About: Sudden Link

Description

I am so frustrated regarding my service with Suddenlink. We have been without internet and tv for a couple days now and I have yet to be able to speak with a person just an automated system. My college kids have online classes to complete and I am unable to Skype with my family who is in the nursing home. At this time, I am unable to travel for wifi due to pandemic. I believe it is terrible that I cannot talk to someone to report and get the problem fixed. The automated system just says outage. And it is now the weekend and who knows how much longer we will be without. The internet is our way of communicating with sick family members from our home environment where we have to be! This is ridiculous!

Ticket: # 4095377 - FRAUD COVID-19 TEXT

Date: 7/17/2020 7:48:35 PM

City/State/Zip: Cranston, Rhode Island 02921

Company Complaining About: "official Census Bureau"

Description

I received a Fraudulent COVID-19 UNWANTED TEXT on my cell phone. It came from this number: 392-42

It pretended to be from:

"Official Census Bureau"

It contained a link in the text to "complete a survey". This is the link:

https://.covid.census.gov/.jfe/form/.SV_0P73zM7bFdxBCeh?Q_DL=SMSD_bfijiC5Q5eBw0M0P73Zm7bFdxBCeh_CGC_3OUQRRX1oGz1oGz1G3H&Q_CHL=smsinvite

I did not click on the link.

I reported it to my mobile phone carrier. They advised me to reply "STOP" to the text, which I did.

They also advised me to report it to you and to the FTC. I'm including a pdf below of the text.

Ticket: # 4095467 - Need more internet options in Millington TN

Date: 7/17/2020 8:54:27 PM

City/State/Zip: Millington, Tennessee 38053

Company Complaining About: Ritter Communications

Description

Ritter Communications has a monopoly in this area and is not fair to its customers. Prices are outrageous for poor service. During this time of Covid, they are revoking unlimited data to pad their pockets and making us pay more for unlimited data at poor speeds.

Ticket: # 4095559 - Inadequate Internet Service**Date:** 7/17/2020 10:46:04 PM**City/State/Zip:** New River, Arizona 85087-1019**Company Complaining About:** Centurylink

Description

I have had double pair bonded DSL internet service from CenturyLink since Oct 2018. Service has always been intermittent but within the last six months service has become increasingly worse to where now it's nearly unusable throughout large portions of the day. Working at home thru Covid, I'm in jeopardy of losing my job due the unacceptable down-time. Using modem statistics, the majority of transmission errors seems to be on the DSL2 circuit (see attached). Recently, the service speed was dropped from 10m/1 per line to 5m/.5 per line to try to compensate for resistance, to no avail. Many other CenturyLink users in the local area also have stated similar complaints. Any help to rectify this issue would be greatly appreciated.

Ticket: # 4095588 - Xfinity intermittent disconnection

Date: 7/17/2020 11:30:02 PM

City/State/Zip: Houston, Texas 77077

Company Complaining About: Comcast

Description

I have been contacting xfinity due to intermittent disconnection for last 5 months, when contacted during covid19 lockdown, they claimed no one can show up due to pandemic to the service.

Ticket: # 4095591 - Loud commercial

Date: 7/17/2020 11:43:45 PM

City/State/Zip: Milton, Massachusetts 02186

Company Complaining About: Comcast

Description

Oasis shower doors has been running two commercials repeatedly on the mylifetimetv app. One of these commercials is a normal volume commercial for shower doors. The other is an extremely loud commercial for partitions and germ barriers due to the coronavirus. I think they might be purposely playing only the coronavirus-related commercial loudly to try to get attention.

Ticket: # 4095606 - Billing Error Unresolved Issues, Disconnection

Date: 7/18/2020 12:03:14 AM

City/State/Zip: College Sta, Texas 77845

Company Complaining About: Sudden Link

Description

Made multiple calls in for an error on billings. Were told that it would be fixed and will be issue reimbursement but it did not happen (I continued to pay every month). Months after, I gave them the third calls, the mistake was fixed but saying they do not know how much the can reimburse (But there will be some). I stop making payment, expecting the reimbursement for months of mistakes - They discontinued the service in the mid of Covid-19 when every household rely on internet for work from home and online classes, no reimbursement for over a year of overcharges!

The only way to reach customer service is to call in office hours and takes at least half an hour for someone to pickup (if any).

Ticket: # 4095614 - Bill

Date: 7/18/2020 12:15:52 AM

City/State/Zip: Phx, Arizona 85019

Company Complaining About: Cox

Description

Cox communications is trying to make me pay a 80.00 bill I just paid 30.00 a week ago they are trying to retaliate for the last couple of complaints especially in this hard time in a pandemic more has to be done about corporate greed against innocent hard working people

Ticket: # 4095653 - Optimum service in Fairfield, CT

Date: 7/18/2020 4:48:12 AM

City/State/Zip: Fairfield, Connecticut 06824

Company Complaining About: Optimum

Description

The service in our home has always been spotty but within the past month, making a phone call and staying connected has been down right impossible. Due to COVID, my husband and I are both working from home. We have a 3 year old who relies on social distance babysitting from her daycare in order to feel connected to her teachers and friends. I am also 37 weeks pregnant and expecting our second any day now! Our livelihoods, and quite frankly, our sanity depend on reliable service. If we become unable to perform our work duties at home, then we are no longer valuable to our companies. . . We pay for our service every month and have even bought several WiFi boosters that we have placed in every room and nothing seems to be making a difference. With all the money we have paid to Optimum and all the expenses we have incurred to make their service better, it is time that they are held accountable. We are one of many people in the are experiencing the same issues and it needs to be fixed ASAP. The COVID crisis has been difficult and frustrating enough. Without reliable connection to our jobs and our family and friends, our bad situation has become so much worse.

Ticket: # 4095759 - Internet Constantly Disconnecting with No Resolution**Date:** 7/18/2020 10:34:17 AM**City/State/Zip:** Princeton, Minnesota 55371**Company Complaining About:** Windstream Communications

Description

I have contacted Windstream via phone, Email, And Twitter no less than 30 times over the last 2 months due to the internet constantly disconnecting. Each time they make me go through the whole “unplug your router” thing. That doesn’t work. In the beginning, it took 13 days of connectivity issues to get them to look at it. When they finally did, they stated that it was a “programming error” on their side and it was fixed. Within days it stopped working again. We’ve called again numerous times. One response I got from the @talk2windstream Twitter was “something is causing it to drop and there is not a stable connection to the modem from what I can see. Once we dispatch we can resolve. This was on 7/6/20. A tech wasn’t sent out for another week beyond that. He stated that “one line” wasn’t connected properly but that it wouldn’t cause me to have zero internet, it would cause it to be slow. He said I had been getting around 50 mbps instead of 10 mbps. He said that the software issue is something that has to be taken care of by the back office. This is contrary to what I was originally told.

I am currently paying for a service that doesn’t work, it’s causing work issues for me as I’m stuck working at home due to the pandemic, I’ve exhausted my options with Windstream and so I’m trying outside options.

Ticket: # 4095886 - Att wireless service charges

Date: 7/18/2020 12:32:52 PM

City/State/Zip: New York, New York 10011

Company Complaining About: AT&T

Description

Lifetime att customer, 20 year as att wireless customer, phone service not working for months. Phone stores closed due to COVID, tech support phone lines had hour plus hold times and then disconnected. Turned to website self help, then online chat with att, and tech support on multiple occasions, and once or twice spoke with technical support who promised to escalate to "back bone" team and solve in 72 hours but never resolved. After months of trying called to cancel service and Transferred to "loyalty" department who offered us to pay \$10 more a month for service that does not work. Ported number to new provider 6/13/2020. Then disputed two moths of charges (should be 4 plus hours and hours wastedj and visa found in our favor. Then att sends bill in mail for disputed charges found in our favor. Spent hours on phone with att to resolve but get the run around.

Ticket: # 4095950 - unwanted call 804-864-7686

Date: 7/18/2020 1:27:15 PM

City/State/Zip: Winter Haven, Florida 33881

Description

Call came in from a man on the other line saying he worked for center for disease and wanted to ask me a question about Covid my health and I then said "it is none of your business" and I hung up and the first call was week of July 6th. the other calls was week of July 13 from same number. Second call was a woman on line and she said wrong number. Third time this number called today July 18th and I could hear someone on the other line and they said nothing. I am 73 years old and moved from Virginia last year. I live in Florida and I do not know anyone in Richmond, Virginia or near that area.

Ticket: # 4095974 - Spectrum Billing Practices

Date: 7/18/2020 1:42:41 PM

City/State/Zip: Lexington, Kentucky 40508

Company Complaining About: Spectrum

Description

Called to cancel cable - they said my choices are a) cancel cable now and lose the money I've paid for the rest of the month or b) call back the day before the end of the billing cycle. As a physician in the middle of the COVID epidemic, nobody has time for that - it was a 30 min call to get canceled in the first place. Spectrum should prorate their bills OR allow you to set a date for cancellation at the end of the billing cycle, like every other service.

Ticket: # 4095985 - Internet extraordinarily SLOW

Date: 7/18/2020 1:48:46 PM

City/State/Zip: Abilene, Kansas 67410

Company Complaining About: AT&T

Description

My provider, ATT, provides a 6 mbps speed for me. It has slowed significantly, even though speed tests show the 6mbps speed. I'm disappointed that my streaming material buffers, the websites take longer to load. This speed was NOT like this. I would hope that the FCC wants consumers to have access to information like news and medical info during COVID. PLEASE bring NET Neutrality back so my speed improves. I can't afford to pay for faster speeds and I live in a rural area. Even my attempt to submit this form result in "Cannot contact reCAPTCHA. Check your connection and try again."

Ticket: # 4096068 - Suddenlink / Altice Communications

Date: 7/18/2020 2:48:21 PM

City/State/Zip: Blythe, California 92225

Company Complaining About: Sudden Link

Description

It feels as though Blythe Ca. Is the redheaded stepchild of this corporation. It is a daily occurrence it deems these days that the cable/internet has issues of some kind. From TV outages to internet outages or BOTH. These outages last anywhere from several minutes to hours on end. If you call "techsupport" you can GUARANTEE yourself at least a 2 hour wait. The wait according to them is because of the COVID-19 pandemic, however this has been the case for months and months before this unfortunate problem. We receive no credits for services. What about streaming services we pay for as well that we cannot use, and this all happens as well as rate hikes. Something needs to happen.

Ticket: # 4096117 - Text messages

Date: 7/18/2020 3:22:34 PM

City/State/Zip: Dryden, Michigan 48428

Company Complaining About: No Name

Description

Hello, I keep receiving this text and I DONT and DIDNT ask for them. It's the second time and I feel it's intrusive and not legit. Please see below what the text was. I copied and pasted it here.

Hey there, Satirah! This is Taylor with Black Progressive Action Coalition. We're a nonpartisan organization focused on mobilizing Black voters this year.

We know that our community is struggling right now with the coronavirus pandemic and we hope that you and your family are doing okay. It seems harder for our community because even as we try to fight to stay healthy we also are having to deal with financial hardships and now, more police harassment and violence in the middle of the pandemic. But we can take a stand against racism and make our voices heard on issues like healthcare and jobs for our community by voting in this year's elections.

It's important that we protect both our democracy and our health. One safe and secure way to vote this November is by mail. You can easily sign up to receive a ballot to vote by mail at <https://votebymail.io/#/org/BPAC/>

Can I count on you to commit to vote by mail?

Please do something about this.. so not a good thing!

Thank you,

Ticket: # 4096128 - Optimum throttling internet speeds

Date: 7/18/2020 3:28:21 PM

City/State/Zip: Brooklyn, New York 11235

Company Complaining About: Optimum

Description

For the past couple of months optimum has been throttling download speeds. They raised their prices in the midst of a pandemic and drastically slowed their speeds. They are also they only ISP in my area so there is no other option.

Ticket: # 4096272 - OPTIMUM COMMUNICATIONS ILLEGAL BUSINESS PRACTICES

Date: 7/18/2020 5:02:43 PM

City/State/Zip: Milford, Connecticut 06460

Company Complaining About: Optimum

Description

Many issues, but the most recent and worst was being denied internet service for OVER 2 WEEKS!!! When I called I was told the equipment was fine, but in actuality they placed a filter outside on my service to prevent internet access! I was told this is done randomly and they claim it was due to a loose connection. It was done without my knowledge and consent at which time I had no service and it took a week to get a serviceman out to fix after I argued with countless reps who tell me my service is fine and there are no outages in my area. I was told it could happen again and there is nothing I can do about it!!!! I was still billed for service during this time. I lost phone and television as well for part of this time, no one can tell me if the issues were related. I depend on my phone as I have serious medical conditions that can be life threatening and the phone is my only way for me to get help. Further, I was billed for the entire time I was without service and they will not refund my money. They tell me it is escalated and no one calls me back - ever!!!

I was lied to repeatedly about overcharges "falling off" the bill, charges not appearing on their end, charges coming off on the next billing statement.

6 to 24 hours on hold to speak to a representative about an outage or billing only to be hung up on at the beginning of getting a rep or partway through conversation - every single time!!!

Charge for modem without it being included in the original quote.

Charge for using my own modem even after giving their modem back. putting a filter on so I would have no internet, then denying that there is an issue with my service.

Being without service for days due to incompetence. Lapse in service because they could not figure out how to correctly configure my modem.

Charged for installation when I was told it would be free.

Coupons not being applied.

Being forced to take services I do not want in order to get a ""better deal" then the price being much higher than quoted.

Being told that my complaints are escalated to a supervisor and they would be calling me back in 24-72 hours on 10 different occasions - never a call back - not even when a scheduled time was chosen.

Hundreds of hours on hold with no assistance.

*** Being told their trucks drive around and randomly put on filters when there is a an anomaly detected such as a loose wire which results in loss of service, but they do not know whose service it is and they will continue to do without notice, warning or looking into the issue. I am in an old building and I had no loose connections - the wiring in the wall may be at fault and I was told even with the added maintenance plan they would not replace or even check the wiring, thus rendering me vulnerable to once again losing my service with no warning due to a circumstance I cannot control.

Being without service, calling in the issue and having them deny the issue despite thousands of customers in my area acknowledging and posting the same exact issue.

Outsourcing all of their calls to untrained help in other countries (I was told by numerous reps in this country it is not their fault, optimum did not train them correctly and they will continue to milk the pandemic as an excuse to save money on customer service by outsourcing and not providing training or enough reps to handle the demand.

Ticket: # 4096372 - Termination of Contract

Date: 7/18/2020 6:13:42 PM

City/State/Zip: Pearland, Texas 77584

Company Complaining About: Verizon

Description

I am 65 years old and highly vulnerable to Covid19. I have for months now repeatedly attempted to cancel my Verizon contract for a MiFi (wireless hotspot) which I lost on a trip in 2019. Verizon will not allow me to cancel the contract over the phone which I have attempted multiple times to do over a period of months, and insists that I go to the store and risk being exposed to Covid19 in a city (Houston) which has had exponential number of cases which are currently on the rise.

Ticket: # 4096474 - Xfinity Comcast

Date: 7/18/2020 8:11:36 PM

City/State/Zip: Placida, Florida 33946

Company Complaining About: Comcast

Description

They are claiming covid for services shut down but Walmart is open etc. My cable Cable TV went out 3 days ago from a lightning strike and when I go through a long aggravated process to contact Xfinity/Comcast they keep saying they will contact a service rep but reality is they have not done anything. After hours delay in internet and waiting on return phone calls NO action. Bottom line no service after 3 days and no schedule for a qualified rep to come to fix the problem.

Ticket: # 4096629 - Got W3

Date: 7/19/2020 8:24:26 AM

City/State/Zip: Valparaiso, Indiana 46385

Company Complaining About: Got W3

Description

Notice of data caps on 7/8 and 7/9 service was stopped. Called to ask how I used 300GB in 1 day and was told change happened 6/18. Sorry we cant offer credits even though notice didnt reflect actual date. I didn't receive unlimited for my payment and should be refunded a portion of bill!

Asked for manager to call back 3 times and in 2 weeks no one did. Next rep said its not that they dont want to call back its just how busy due to COVID. NOT COVID, its ALL the angry customers.

Service was supposed to reset on 7/18 even though they charged me 7/10. 7/18, 7/19 no service and they tell me everything is ok on their end. Of course they are saying this so they dont have to give refund!!!

They use same cell towers as Unlimitedville who offers similar service (little more exp) and they didnt change their unlimited to 300GB.....

Ticket: # 4096679 - Over-charged for constantly interrupted service with minimal download speed

Date: 7/19/2020 10:16:32 AM

City/State/Zip: Truckee, California 96161

Company Complaining About: Sudden Link

Description

Covid-19 has made working and school mandated by the Governor of California. Yet, our internet provider has little or no interest in providing or installing fiber-optic cable to provide the service I pay for. Our "rural" area is in a resort location near San Francisco so the bandwidth is quickly saturated with second home-owners fleeing Covid-19 in their densely populated area to rural Truckee. I pay for 400mps of download bandwidth but I'm lucky if the Speedtest registers 12mps. And then, we have constant interruptions with no internet at all. The technicians who have visited my home tell me Suddenlink/Altice doesn't care about rural areas. Our area is not rural when thousands of second home owners arrive and the bandwidth becomes quickly saturated. How are children expected to learn when ordered to distant learn from homes during Covid-19, and there is little or no bandwidth?

Ticket: # 4096778 - Report Number: 120674612 FTC

Ticket: # 4096839 - Cell phone service

Date: 7/19/2020 2:13:31 PM

City/State/Zip: Florence, Alabama 35633

Company Complaining About: Tracfone

Description

I have a TracFone with prepaid TracFone service by way of prepaid cards. Suddenly, last week my phone could not be used properly. After chatting online and then on the phone with TracFone reps, they finally told me AT&T was taking over the service area. I still should be able to use my phone. I believe AT&T is trying to upgrade to 5G phone service but many people in our area, especially loyal senior citizen customers, have 3G or 4G phones. AT&T and TracFone should not be creating a phone service problem during a pandemic. This is ridiculous and unpredictable. People cannot go out and easily buy phones right now with states on stay at home orders. I want this fixed! Those companies should make our phones work right or send us another phone or give us a discount on a phone or at the very least, credit for any minutes we can't use.

Ticket: # 4096849 - Unwanted calls and sexual harassment text messages**Date:** 7/19/2020 2:21:59 PM**City/State/Zip:** San Francisco, California 94103

Description

Yesterday 7/19/2020 around 10:50 pm PST, I began receiving repeated phone calls from 510-256-1460, an unknown number, to my private practice phone number. Then I started receiving unwanted, lewd text messages from this number. The messages were: "I be there in 15 mins be ready I have a surprise for you." "I stop it it's me I'm on my way over to your place right now." "Do that thing with your tongue when I get there please." "Ok I'm parking now see you soon. I will be coming inside shortly." Then the next morning, I received a lewd text message from unknown number, 510-408-9137, to my private practice number saying: "I'm looking forward to see you tonight. I last night was fun How you took my shaft."

I do not find this amusing and am scared. I work with offenders on parole who've had to use this number during the pandemic as my work has turned to teleworking. I fear that this is either parolees sexually harassing me or these could be coming from chatbots. Please look into these numbers to see from whom these calls are coming. I've had this number for at least 7 years so it's not like it's because it's a refurbished number. This has never happened before.

Ticket: # 4096914 - Horrible Customer Service

Date: 7/19/2020 3:33:42 PM

City/State/Zip: Collierville, Tennessee 38017

Company Complaining About: Comcast

Description

I have been on the phone for 4 hours trying to get a problem fixed. I was told twice I would be called back and that has yet to happen. I'm on hold for the 3rd time trying to reach a love person. Wait times on hold are close to 1 hour. I'm paying way too much in fees to continuously receive such horrible service.

This has been an ongoing problem and has nothing to do with COVID.
are close to

Ticket: # 4096925 - Apple iPhone software issues

Date: 7/19/2020 3:39:17 PM

City/State/Zip: Nrh, Texas 76182

Company Complaining About: AT&T

Description

I purchased an iPhone 7 not ever being informed by Apple that there was a manufacturing defect with the iPhone 7. Only after experiencing the inability to receive or make calls. After extensive research I realized that this was due to the fact that the Apple software install update did not completely update. I have experienced this with my iPhone three times in the past one and a half months. I just got off a call with Cody in the IT Dept who confirmed that Apple has been aware of the issue and had not been proactive by making the consumer aware of the issues with these phones prior to purchase, but instead is being reactive by offering to inconvenience the customer by waiting 7 days for a box to arrive to put your iPhone into and ship to Apple for repair with NO ETA. Cody states there are No Exceptions...Apple Does Not offer you Any customer a Replacement. Apple ONLY offers ALL customers a repair with NO ETA and although it is an error on their part and inconvenienced their customers, they will Not Rush a phone No matter the NEED in the midst of this coronavirus pandemic and the fact that people need their phones to do their job and this can negatively impact their customers. When I requested to speak with Cody' Supervisor (who is a supervisor for Apple) He stated that there was only Upper Management and they aren't bothered with customer complaints and they Do Not speak with their customers. He refused to let me speak with His Supervisor or provide me with the info to submit a complaint or dissatisfaction with Apple regarding the the fact they are Not providing first call resolution or their horrible service , and selling of bad product.

Ticket: # 4096938 - Numerous calls

Date: 7/19/2020 4:02:13 PM

City/State/Zip: Wauwatosa, Wisconsin 53213

Description

I have been receiving numerous calls at 10-20 minutes intervals purporting to be with Apple. All calls show they're from Phoenix AZ with (480) 279-XXXX and random last 4 digits. All calls say there's an issue with my iCloud account. No such issue. Need them to stop calling as this is my home and work number during the pandemic. Calls began on 7/18/2020 and have persisted throughout the day today.

Ticket: # 4096974 - refusal of service

Date: 7/19/2020 4:52:26 PM

City/State/Zip: Saranac, Michigan 48881

Company Complaining About: Wow

Description

WOW cable has a monopoly in my area and has been operating through covid-19 calling themselves an "essential service".

I have been trying to connect to the system for months and they claim that I am not serviceable, and that they will service me when they "come to my area" WOW's cable goes through my front yard and is attached to the pole on my property less than 200' from my house.

As a cable technician for a competing company, I can assure you that I am very serviceable, but wow is denying my home what they themselves call an "essential service".

Ticket: # 4097043 - paid for service but cannot send or receive calls

Date: 7/19/2020 6:01:36 PM

City/State/Zip: Camden, South Carolina 29020

Company Complaining About: Straight Talk

Description

I bought minutes for my elderly uncle. he has a flip LG phone, the minutes were added but He cannot send or receive any calls. I called customer service and they were very nasty, Rebecca, at 4;46 7/19/2020 and then an alleged Supervisor Luis at 5;28pm. They tried to make me buy, during a pandemic, another phone. This phone does not expire its usage until January 2021. They were nasty and rude, and refused to assist us. My uncle is in his late 70's and needs a phone and they also kept his money for the service he just purchased. This is unfair business practices and the better business bureau and department of consumer affairs will also be notified. He needs a phone and we cannot afford to buy those expensive phones out today....He has a heart condition and resides alone

Ticket: # 4097186 - Billing

Date: 7/19/2020 8:50:57 PM

City/State/Zip: Fort Bragg, North Carolina 28307

Company Complaining About: AT&T

Description

AT&T has charged me \$500.00 for an unreturned phone which has been returned. I have proof of tracking by usps. I can not afford this due to Covid-19 and now they have threatened to shut off my service if payment is not received.

Ticket: # 4097189 - Internet availability

Date: 7/19/2020 9:01:01 PM

City/State/Zip: Lumberton, Texas 77657

Company Complaining About: Hughes Net

Description

We were told when buying a lot in our subdivision we would be able to get high speed internet. Now we have found out only satellite internet is available and it is very slow. We need faster internet for work and school from home due to Covid 19. High speed internet in our area either through Spectrum or AT&T would solve this problem in our whole subdivision.

Ticket: # 4097352 - Inside Edition Broadcast

Date: 7/20/2020 7:48:47 AM

City/State/Zip: Pikeville, North Carolina 27863

Description

Inaccurately Reported that Corona Virus is Airborne and is spread through air conditioning systems ... Our media is so Out of control it is pathetic . Reporting should be held accountable to facts no opinions or feelings. Not sure how this is OKAY ? Multiple issues on every channel . I just don't know anymore how these people can spout opinion as facts ... our daily news has turned in to Dr. Phil. Is there any agency that holds them accountable for truth in their reporting??? On any issue.. Do they get to report 1/2 truth as truth ? Where does it stop ? So Frustrating.

Ticket: # 4097424 - consolidated communications

Date: 7/20/2020 9:25:29 AM

City/State/Zip: Sarver, Pennsylvania 16055

Company Complaining About: Consolidated Communications

Description

We are a small business, that has been impacted greatly by the coronavirus. We have been closed for 20 days and are reopening now on 7/20. Our internet is down and we called Consolidated Communications on Saturday to get someone there for Saturday night, Sunday, or first thing Monday morning. We told them that half of our business is credit card, and we need the credit card machine in order to function! I would think that small businesses take priority over residential. I explained to them that our business has taken a hit already and that I would meet them at any time. They are the only provider in the Sarver, PA area, and I think they take advantage of that fact. If there were competitor's in the area, I bet their response time would be more effective. They told me if this had been reported a week ago that they couldve had someone there. The problem arose on Saturday, and I called Saturday! Need it fixed ASAP. Not happy with the company!!

Ticket: # 4097478 - Filing a complaint against at&t

Date: 7/20/2020 9:59:36 AM

City/State/Zip: Miramar, Florida 33023

Company Complaining About: AT&T

Description

I want to first start by saying i join atnt the year of 2018 a agent was passing by and wanted i and my husband to switch our phone. i was skeptical because i know sales are a liar. so anyways we ended up switching our phones because he told us we will be paying \$121.00 a month which was cheap for my new iphone XR 8 and my husband Galaxy 8. we agree and received our first bill which was \$145.00 , so i call and told a representative why is it \$141.00 now and they explain and said because of the extra fees and i told the rep that the agent did not tell us that so i filed a complaint over the phone which nothing happen anyways i went through all that for nothing. now skip forward our phone bill is \$215 per month this is ridiculous especially in this pandemic i just think they are trying to rip us off! i call and ask why the phone bill is so high and they could not even explain the rep had an attitude with me and even at one point said"oh my God" and i said excuse me then she put us on hold i guess to calm down. and i ask her to transfer us to a different department and she transfer us to the wrong one. so i wanted to speak with a supervisor which is impossible to speak with on the phone they always the supervisor will call you back and no one never will. i want to get off atnt without it effecting our credit. this is a horrible company and a total rip off! something needs be done please

Ticket: # 4097485 - Comcast/Infinity Charging me Money out of nowhere

Date: 7/20/2020 10:00:36 AM

City/State/Zip: Inver Grove Heights, Minnesota 55076

Company Complaining About: Comcast

Description

Hello - so during the pandemic comcast/infinity raised my rate from \$55 to nearly \$80. I called and asked them to reduce the rate back but they refused. I filed a complaint with the FCC and an executive named Lee resolved the issue and was able to lower my rate substantially. Apparently someone had put my account on a plan without my consent in 2019 and that "special rate" had expired. So they are moving my account around without permission and adding fees without my permission.

After lowering my rate, I was still on the hook for that month of \$80. For some reason, the rate change didn't take place right away so they charged me an additional \$15 this month. I called them again to see if they have that amount removed and was refused. So I called the executive line again to speak with Lee and received no call back.

I shouldn't be on the hook for that \$15 out of nowhere and nobody will work with me after trying to talk to them repeatedly.

Ticket: # 4097490 - Optimum Number Issues

Date: 7/20/2020 10:01:25 AM

City/State/Zip: Bronx, New York 10460

Company Complaining About: Optimum

Description

The consumer states she has a complaint against Optimum whom she has landline services with.

The consumer states that every time she gets a bill it keeps increasing.

The consumer states that yesterday someone came from Optimum to install equipment because she agreed to a cheaper plan, that's it.

The consumer states that they changed her number without telling her they would do this.

The consumer states that due to COVID-19 the number she's always had is the number her doctor has and recognizes so she needs this number back.

The consumer wants them to give her her number back and if they can't do that she wants them to come and take all the equipment and cancel everything, she paid them \$230 for them to change her number without her being aware of it.

Ticket: # 4097524 - Misleading Information regarding Covid19

Date: 7/20/2020 10:11:49 AM

City/State/Zip: Kernersville, North Carolina 27284

Company Complaining About: Directv

Description

There are critical decisions being made in our country that involve Covid19. These decisions are heavily influenced by the media's reporting. The media continues to misrepresent data on Covid19. For example, CNN ONLY reports NUMBER of cases. But NOT other VERY IMPORTANT data like % of population that is infected (only 0.5%), positivity rate (as a percentage of # of tests) is DECREASING, and DO NOT provide insight on precisely WHO is dying, and WHY people continue to get tested. Their misrepresentation of the data has driven lots of fear in Americans, and several parts of our country to make very critical decisions on misinformation. Can you intervene?

Ticket: # 4097633 - Sprint Discrimination

Date: 7/20/2020 10:49:14 AM

City/State/Zip: Londonderry, New Hampshire 03053

Company Complaining About: Sprint

Description

This is the second time in as many years that I have had substantial and significant issues with this company when it comes to the military discount they themselves supposedly offer, causing me to feel discriminated against. When I added a line to my existing service (phone (b) (6)) they could not add it onto my existing Military Talk & Text Plan (it was put on the Unlimited Basic Plan) but assured me that it would automatically be switched after the first of second billing period. The cost difference of the two plans is \$35 p/month (\$65 for Unlimited Basic and \$30 for Military). After a one hour text chat online on June 8 starting at 1:42 PM EDT I was able to get the phone placed on the proper plan for the discounted rate going forward, but no rebate for the for the difference of the last several months. I requested a rebate of \$175 (\$35 x 5 months) since it was their failure to make the change as promised; unfortunately because of the Covid crisis I was unable to spend the hours it takes to resolve any issues with them before now. I was instructed on the text chat to call them at 888-211-4727 to request a rebate; there was no escalation process on their chat feature. On June 9 at 10:05 AM EDT I called, went through the entire story again, only to be informed that they will provide a rebate for only ~\$21.00. I stated that I will be filing a complaint with the FTC and FCC, to which she responded that she can escalate the rebate request, that her boss is at lunch, and that she will return my call after trying to get approval. I agreed and at 10:44 AM (after 39 minutes on the phone hung up to await the call back. I never received a call back from anyone.

Date: 7/20/2020 10:55:30 AM

City/State/Zip: Riviera Beach, Florida 33404

Company Complaining About: AT&T

Description

I am 30 yr customer of AT&T , they are offering reduced cost 55+ cellular plan in Florida for \$40/month 2 lines. In order to get plan, I must risk my life and enter a physical store to order. During this pandemic, it is not fare to make me go into a store when corona virus is rampant in Florida. Why can't this be done over the phone, from the safety of my own home ?

Ticket: # 4097783 - Domestic Roaming (Service Denied)**Date:** 7/20/2020 11:33:56 AM**City/State/Zip:** Hamptoin, Virginia 23666-6123**Company Complaining About:** T Mobile

Description

Within my girlfriend's T-Mobile One cellular plan, domestic roaming is included. We have had issues with her being able to roam on to the US Cellular network in Beckley, West Virginia before and have reported it to T-Mobile, who were supposed to investigate the issue. This is now happening again, as my girlfriend is away visiting her parents. When she tries to manually connect to US Cellular as T-Mobile recommends, it gives her an, access denied, message. I have personally checked the specs of the device, supported bands, software version, etc. The device is fully compatible with the T-Mobile and US Cellular network for 4G access.

T-Mobile blames the lack of access on US Cellular, stating they won't approve her device to access the network due to the IMEI of the device is for a device that was not purchased from T-Mobile or US Cellular. US Cellular states that the only T-Mobile can restrict its customers from accessing the domestic roaming on to the US Cellular network. We have talked to multiple people within both companies without any sort of resolution to this. With the COVID-19 situation, having a working service is even more important than ever and yet neither company wants to acknowledge the issue is their fault and work to resolve it.

Ticket: # 4097868 - Internet Service Disruptions

Date: 7/20/2020 11:54:02 AM

City/State/Zip: Saint Albans, West Virginia 25177

Company Complaining About: Sudden Link

Description

Internet services are not what is advertised. Internet drops out frequently. Some days it occurs every 15 minutes or so. This makes it impossible to work from home during the COVID 19 pandemic. When the service does work, it's very slow, not anywhere near the speeds I am paying for. This has been going on for months!

Ticket: # 4097933 - XFINITY

Date: 7/20/2020 12:11:57 PM

City/State/Zip: Minnetonka, Minnesota 55345

Company Complaining About: Comcast

Description

Trying to cancel service with XFINITY is impossible. They arbitrarily bill you for services you did not request. My husband was diagnosed with Cancer in April and with COVID-19 I asked that they continue the season hold since we were unable to travel. I had to go through this process a couple of times. Asking for the extension until sometime mid-late August. This month I got a bill that was not seasonal hold so I requested to cancel the service. Now they are trying to charge for services I never requested. My previous bill was a credit balance of \$5.00.

Ticket: # 4097957 - TDS WILL NOT HONOR MY FEB 2020 REQUEST TO DISCONNECT

Ticket: # 4097967 - Suddenlink Account 0(b) (6)

Date: 7/20/2020 12:20:07 PM

City/State/Zip: Fate, Texas 75087

Company Complaining About: Sudden Link

Description

Hi, we are currently paying for a 400 mbps plan with Suddenlink. Over the last 3 weeks, our usage has average 10 mbps at best. Our street (Palomino Dr) and many others in our neighborhood are experiencing the same issues. We report issues to Suddenlink and a fix is promised. The "fix" brings speeds up to 160mbps for less than 24 hours. All other fix work orders are cancelled, then the speed goes back down to an average of 10 mbps. Currently (7/20/2020), my internet speed per Ookla's online speed test is .5 mbps. I have contacted them with this issue and a technician has not been scheduled. With the pandemic at a peak in the Dallas/FtWorth area, working from home with usable internet is CRUCIAL. Suddenlink is the primary provider in our area. This is related to FCC Claim (b) (6) which is a homeowner my same neighborhood and also a client of Suddenlink.

Solution: refund us 99.9% of our last month's bill (as we are at .1% of the promised plan of 400mbps) and then perform the fix to get us at 400mbps. The fix needs to be a true fix (not a 24 hour bandaid). If 400mbps is unavailable, we want to know the maximum possible so we may go with that plan or switch providers.

Ticket: # 4098026 - Lifeline

Date: 7/20/2020 12:32:59 PM

City/State/Zip: Hertford, North Carolina 27944

Company Complaining About: Safelink Wireless

Ticket: # 4098126 - Drew Deener-ESPN 680 Louisville

Date: 7/20/2020 12:57:14 PM

City/State/Zip: Louisville, Kentucky 40207

Description

For years Drew Deener, ESPN 680 Louisville, has pushed hateful speech against individuals and businesses with no repercussion. Today he went on a rant about a conspiracy theory full of lies in the middle of a global pandemic putting his listeners in direct danger for their safety and the safety of others. I can't believe that espn would stand behind someone with a voice for their community that puts the listeners in direct danger. He has done this for too long and Drew is a negative asset to this community that I grew up in and love so much.

Drew was claiming on air that people are going to get coronavirus tests, leaving without getting tested, and getting a positive result in the mail. Please do something about this. It is extremely hurtful in a very dangerous time. He has also constantly pushed false narratives in attempts to get sports and the economy up and running again.

Thank you

Ticket: # 4098147 - AT&T Wireless over charging

Date: 7/20/2020 1:04:12 PM

City/State/Zip: Seal Beach, California 90740

Company Complaining About: AT&T

Description

I have been a AT&T customer for over 2 years after being with Verizon for over 22 years, I switched to AT&T and this year in May I upgraded 2 phones that were in my plan and to accommodate the rate I had to add another line that I don't even use, but my rate I was paying was around \$200, and then when I upgraded the two new phones my monthly bill was going to increase to around \$225 per month, with my first month of activation of the said new phones being a one time bill that was around \$326.00.

At this time I was told that my normal bill after that was going to be around \$220 per month plus tax, which would put it around \$225 per month. I was also told that due to Covid I can call the AT&T customer service line to have the two one time \$30.00 upgrade fees credited as a courtesy, I did that call and was told that my next bill would reflect the credit making my next bill due in July would be the normal rate less the \$60.00 credit, making my July bill to reflect the amount of around \$170 plus tax. My July billing hit my cc with a charge of \$362.00

Ticket: # 4098310 - Internet Available

Date: 7/20/2020 1:42:10 PM

City/State/Zip: Elgin, Texas 78621

Company Complaining About: AT&T

Description

(b) (6) Line installed 7/14/2020 Order#: (b) (6)

At time of order I was informed I was able to add DSL and touch tone to the line

From 7/14 through 7/17/2020 been trying to get DLS and touch tone added to the line

On 7/17/2020 I finally got touch tone added.

On the same day I was transferred to 3 different departments and all departments stated I have DSL available in my area but they were not the department to execute the order

The rep at 8552205211 state they can get me to the correct department as it is available and transferred me to 8002882020 and say "DSL" I did that

Once the rep got on the phone she checked and said it could not be added due to no available ports and there is nothing they could do

I requested an escalation and spoke with Mrs. Hale

She provided me with an email address: consumer.appeals@bellsouth.com

I currently have a DSL line for my main house, and I need DSL added to my building adjacent to my main house because due to this COVID event home schooling and working from home is currently my household norm. With my kids doing home schooling with a lot of video conferencing etc. and the work I do from home is extensive and it is best I have two separate services. The kids will be in the main house for home schooling and I will be in my building adjacent to my main house working from home.

AT&T already installed the phone line which is sitting on top of the ground but should be buried any day now

Resolution: AT&T states they have no available ports add the port to their facilities so I can have access.

Ticket: # 4098357 - Spectrum Internet

Date: 7/20/2020 1:52:38 PM

City/State/Zip: South Ozone Park, New York 11420

Company Complaining About: Time Warner

Description

Due to COVID I asked spectrum to suspend my account as I left my home for safety reasons. Spectrum agreed to suspend my account but 3 months unbeknownst to me Spectrum continued to bill me. Once I realized, I called and explained to that I was under the impression my services was suspending until I reinstated it and that I have not been home and thus was unable to use the service which I am being bill for. This seemed to not matter to them and they are now billing be for two months despite.

Ticket: # 4098393 - Billing Dispute

Date: 7/20/2020 1:59:20 PM

City/State/Zip: Plantation, Florida 33324

Company Complaining About: AT&T

Description

I upgraded my phone just as the COVID19 pandemic started. I already paid for my iPhone 8 and decided the deal was not that great... I requested to move my iPhone 11 to monthly payments and they want to bill me at once for the iPhone 11. The monthly bill is outstanding because of the COVID19 pandemic however this on the carrier's part has clearly exacerbated the situation. Please help with this matter because in this pandemic we all need some form of communication. My parent is elderly and has underlying medical as well as myself with asthma.

Ticket: # 4098433 - Price gouging?

Date: 7/20/2020 2:09:37 PM

City/State/Zip: Amarillo, Texas 79110

Company Complaining About: Sudden Link

Description

I am being charged \$60, because I cancelled a service appointment when they called to let me know that they were on the way. However, it was taking over an hour to get anyone on the phone to cancel it, because of the pandemic. Which is why I chose to go this route (the "call back" option didn't exist at this point in time; only the "schedule a call back," which was always for the following week and would have been after the service appointment). However, charging \$60 for that is absurd anyway, as it releases their service tech to move on to the next appointment and doubles in saving them time, and money. So, this may not be "price gouging," but it is definitely taking advantage of their customers considering their own representative today (7-20) admitted that their call back system was hanging up when it called people back (which also happened to me today - I have a recording of my call with the CSR). I want this unjustified amount of \$60 removed from my bill immediately.

Ticket: # 4098482 - Comcast Service Frequent Outages with No Notice

Date: 7/20/2020 2:22:35 PM

City/State/Zip: Denver, Colorado 80230

Company Complaining About: Comcast

Description

Telecommunications is a public service, especially during this time of Covid. Furthermore, we send a large amount of money every month to Comcast, with the contractual expectation that we are going to receive service. Our service has frequently been off during the day, impacting our ability to go to school and work. There is nothing we can do when service is off.

Ticket: # 4098486 - Sub-level Internet Service

Date: 7/20/2020 2:23:53 PM

City/State/Zip: Monte Sereno, California 95030

Company Complaining About: Comcast

Description

Due to COVID, I am forced to work from home. Most every day I am expected to attend numerous Zoom meetings throughout the day. Far too many times I am without internet service. I (and other neighbors) have called Comcast countless times, but to avail. We have all seen many Comcast vehicles in the area, but nothing improves. For some unknown reason, we have no alternatives other than Comcast.

Date: 7/20/2020 2:35:13 PM

City/State/Zip: Boca Raton, Florida 33486

Company Complaining About: Comcast

Description

Many Americans have been forced to work from home with this pandemic and I just got a warning halfway through the month that I've used 90% of my data allowed and I can be charged up to \$100 extra for my home internet connection.

Please make this new practice of charging users for data caps on home internet ILLEGAL. They also offer unlimited data plans for an extra \$30/month. Consumers don't have this extra money to give comcast. Help us FCC!

Ticket: # 4098622 - Billing

Date: 7/20/2020 2:47:19 PM

City/State/Zip: New York, New York 10002

Company Complaining About: AT&T

Description

The provider at&t, cell phone service

The phone number (b) (6)

The consumer stated that she was effected with the COVID-19.

The consumer was told by the carrier that it would not effect her service.

Which the consumer mention that she is being effect and she been told that her service would be interrupted.

On July 1st, 2020 she paid the amount of \$470.51 then she was told to pay additional amount of \$662.51.

The consumer mention to the carrier that she was not able to sent an additional payment because she had not money.

She did asked for a payment arrangement but she was not able to get it as she requested.

The consumer asked if she could pay until August and pay half

She asked for a payment arrange and she was not able to get it because she already had an extension.

She was told that her service would get interrupted if she did not pay the amount of \$944. 19. \$944.19

The consumer mention that she needs her service available due to health concerns. The consumer even mention that she is still being effect by COVID-19.

Resolution

The consumer would like for the balance of \$944.19 able to get a payment arrangement or extend the date to pay the balance.

ctr 388-phone

Ticket: # 4098728 - telephone service with Spectrum (Charter Communications)

Date: 7/20/2020 3:06:40 PM

City/State/Zip: Los Angeles, California 90006

Company Complaining About: Spectrum

Description

My name is Dr. (b) (6). I am a medical doctor providing essential services to workers who have been hurt by COVID-19. These patients come to my office for examination, which includes face-to-face, history taking and physical examination.

I am writing to ask for assistance with the telephone company Spectrum (Charter Communications), which is responsible for providing telephone services for my medical practice. For reasons that remain unclear to us, we and our patients have had repeated interruptions in our ability to communicate by telephone under the service of Spectrum for the past 2.5 months.

Essential for that service is my office telephone number ((b) (6)), which is provided by the telephone company Spectrum.

At the end of April/beginning of May, we moved to our current office at (b) (6)

(b) (6)

(b) (6) At that time, my IT person (b) (6) (Alexander Enterprises Technologies) initiated transfer of the same business telephone number (b) (6) with the same telephone company Spectrum to our new business location. Mr. (b) (6) has been given the runaround by Spectrum for 2.5 months with regards to intermittent telephone service since our move. My clients and patients have had great difficulties in getting in touch with us.

In these days of COVID-19 disaster, failure to complete a simple transfer of our telephone number (b) (6) is adding hell to our patients. I am asking for your help in resolving this simple issue. I know our country is suffering greatly and do not want to add more problems. Please help. Enclosed are communications between my IT person (b) (6) (Alexander Enterprises Technologies) and Spectrum (Charter Communications), which further describes and documents the difficulty we have been experiencing with Spectrum telephone service in order to provide essential medical service to our essential workers/patients.

Sincere regards,

(b) (6)

Ticket: # 4098766 - robocalls from spoofed/fake numbers

Date: 7/20/2020 3:10:45 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are all marketing calls. Most of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day. And, a new trend had recently arisen: text messages. I cannot overstate how angry and frustrated I am with these people's total disregard for other's right to privacy and peace of mind.

Many of the spoofed numbers were identified by my caller id as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona, Crystal Springs, Byhalia and Ashland, MS. For some of these numbers, caller id did not identify the location, but an internet search of area codes and prefixes determined the location. For a brief period earlier in the year, there was a spate of calls from out of state as well. This surge in out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. While that surge of out-of-state calls was fairly brief, there are occasional calls identified as coming from out of state. I received (and filed a complaint for) a recent call identified as coming from Indian Spring, NV. For the call I am reporting today, caller id identified no physical place of origin. An internet search of the area code and prefix indicated the call came from a wireless device with a rate center in Aberdeen, MS.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. I tried to return the call, and it simply disconnected. Today, I tried to return the call, and it simply disconnected.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

In addition to the phone calls, I occasionally also received marketing communications about health insurance through text message and/or email. In these cases, I have often been able to

communicate directly with the sender, and at least gain their assurance that they would not contact me again. I have had two of these individuals inform me that they were sold my information. I asked the latest of these very directly, "where did you obtain my information". He refused to answer. In my view, this refusal makes him complicit in the perpetration of these unethical activities.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4098852 - Frontier Continues to Charge After we Shut Off Service**Date:** 7/20/2020 3:28:39 PM**City/State/Zip:** Wellsboro, Pennsylvania 16901**Company Complaining About:** Frontier Communications

Description

On July 13, 2020, we called Frontier to have our internet service with them shut off. That same day, we obtained internet service from Blue Ridge Cable Company. We were informed by Frontier that they would shut off our service on Thursday, July 16, 2020 and would charge a \$10 disconnect fee. We had no contract with Frontier. On Sunday, July 19, 2020, I noticed that Frontier had charged \$58.98 to my credit card. We called Frontier today, July 20, 2020 to advise them again that we shut off our service on July 16, 2020. Frontier advised us that they were going to charge us through July 25, 2020 regardless. How can a company continue to charge us for additional 9 days of internet service when we had no contract, was advised that the service would be shut down on the 16th, and we have not been using their service? Especially in the middle of the COVID-19 pandemic when everyone in the United States is forced to live their life online? Internet service with Frontier was \$1.90 per day. At an additional 9 days, Frontier took \$17.10 from my family. I would like a refund of \$17.10.

Ticket: # 4098863 - Suddenlink

Date: 7/20/2020 3:30:02 PM

City/State/Zip: Dunbar, West Virginia 25064

Company Complaining About: Sudden Link

Description

Suddenlink came to my home on 6/22/20 to add a cable to a wall. The technician entered my home with no PPE On and stated he could do nothing after two minutes. He forged my signature on the work order as I SIGNED NOTHING. I am charged 40 for the work order and I have called several times with no call backs. Each and every time I call they say that is has been escalated and a supervisor will call back within 24 hours... to today no one Chas called. The charge is still on my bill and situation regarding the technicians behavior, forgery, and the charge have yet to be resolved. My home is a high risk home and I am very upset. They do not consider it important enough for retention or just simple good customer service to get on the phone to remove a small fee. It is heightened at this point because of their lack of responsive time and our pandemic as well as gouging me for services not rendered.

Ticket: # 4098871 - Bill

Date: 7/20/2020 3:32:04 PM

City/State/Zip: Miami, Florida 33126

Company Complaining About: Comcast

Description

Comcast is charging me for sports regional fee when nobody's playing sports due to the pandemic. I was requesting for them to credit me from March 2020 till September 2020 for the sports fee. They refused.. I stated that it's bad consumer business practice for them a company such as Comcast in this case to charge a fee when nobody is playing sports.

Ticket: # 4098951 - Global Pandemic Aid

Date: 7/20/2020 3:43:44 PM

City/State/Zip: Durham, North Carolina 27713

Company Complaining About: Spectrum

Description

I am unemployed (due to the pandemic) and do NOT get and never got unemployment. I kept my bills paid on time until my account is exhausted. The only assistance that you could get is during the time of aid that were given businesses by the government. My daughter is in college (summer as well). Both she and I need the internet for job search and school. Spectrum stated that since I've paid my bills every month, I do not qualify for extensions. The only accounts that were aided were given by the government and past due at least \$300 or more. I stated that I could not pay until mid September and will bring my account with at least three months credit (as I always do). I was told that after 49 days of account past due, it would be on disconnect. WE ARE IN A GLOBAL PANDEMIC. Some people were fortunate enough to get unemployment. I WAS NOT. This is totally absurd especially with customers who continued to pay every month with "no income" during this pandemic. Our internet is our lifeline. I have attached a letter of appeal to unemployment to proof my situation.

Ticket: # 4099006 - Internet outage

Date: 7/20/2020 3:57:13 PM

City/State/Zip: Corpus Christi, Texas 78413

Company Complaining About: AT&T

Description

Our internet has been out more than 6 times in the last 3 months. Each time lasting several hours to several days. Due to Covid we work from home and this puts a strain on our work demands. We pay for a service that is not being provided adequately.

Ticket: # 4099215 - Scam insurance blood test COVID —19 call

Date: 7/20/2020 4:46:51 PM

City/State/Zip: Oviedo, Florida 32765

Company Complaining About: Michele Marone

Description

Get blood test insurance for Corvus 19

Ticket: # 4099220 - XFINITY Comcast is NOT giving us the internet speeds we are paying for.

Date: 7/20/2020 4:47:54 PM

City/State/Zip: Spokane, Washington 99223

Company Complaining About: Comcast

Description

This has been ongoing for OVER a year, despite Comcasts' claims that it's only been reported since March 2020 (We've been reporting it for well over a year at this point.)

We are paying for Gigabit internet, which should give us speed tests of 940 Meg or close to it. Only a few times have we gotten that speed or anywhere near it. We are normally getting around 300 Meg speed tests. We have tried countless times to resolve this with Comcast, including multiple modem swaps.

We've had reps lie to us about the reasons for it, and told us that the slower speeds are to be expected. I KNOW this isn't true, because I know many people around town who also have Gigabit service in other parts of town, and they are getting those speeds, no problem, with computers much slower than the ones we have here.

We've been promised compensation for the many repeated outages and slow service that have not shown up.

The outages caused college classes to be failed from the service going out while trying to upload finals. THIS has resulted in a loss of funding for college, with no way to pay for college now.

They ALWAYS claim that the "problem has been fixed", and I just need to wait for the modem to get up to speed, which can take several hours, so we've been told. None of the other people we know with Gigabit service through them have any problems with their modem "getting up to speed." It just works, as soon as their modems reboot.

On top of the many many drop outs in service, and constant slow service, we've also had our service switched on us from Gigabit to the "Internet essentials", which has 25 Meg download and 3 Meg upload, a far cry from the 940 Meg download / 35 Meg upload that we SHOULD have received. This happened AFTER we were ASSURED that our service would NOT be interrupted or altered due to COVID. It was most definitely interrupted, on MULTIPLE occasions. We were told it was because the bill was past due (AFTER being told NOT to worry about it because they were trying to fix the service for us.) When I paid the past due amount, they ASSURED me that they would restore our Gigabit speed. INSTEAD, they COMPLETELY disconnected our service for the next 2 days. AFTER the past due amount was paid in full.

We've REPEATEDLY been told that they won't compensate us until the problem is fixed permanently. I'm sure you can see the loophole they created for themselves here: The problems NEVER get fixed.

We have requested repeatedly to speak to someone in corporate escalations, the best they can do is tell us to leave feedback on the website. The internet is so slow at times that instead of web pages loading instantly like they should, it loads slowly, as if it's on a dialup connection!

Xfinity Comcast needs to compensate for all the outages / slow speeds, AND compensate us for the loss of college funding so the degree can be completed.

Ticket: # 4099235 - Plan change without disclosure of correct details, plan prices for added lines and RN discount.

Date: 7/20/2020 4:56:09 PM

City/State/Zip: Prior Lake, Minnesota 55372

Company Complaining About: Verizon Wireless

Description

We were lied/mislead about a plan change which would cost us more rather than save us money, which is sure a sales tactic. Advised of the cost to add two iPads to our account at three locations prior to being told a different price when we went to activate them, along with the incorrect activation fee, which sure seems like a sales tactic. Then promised a RN discount, my wife followed all of the steps and we were promised it would be credited back to the day she spoke with the Verizon Rep, but after visiting two stores and calling in, NOTHING! Why are we dealing with all of this during a pandemic? My wife working front-line COVID as a ER RN is enough.. We need help.

Ticket: # 4099242 - Inappropriate Fees Assessed

Date: 7/20/2020 4:57:37 PM

City/State/Zip: Arlington, Virginia 22201

Company Complaining About: Verizon

Description

I was enrolled in auto-pay and had a payment sent back which triggered a fee. I was then assessed additional charges on top of that fee. I called to get the issue resolved as I was able to pay the full amount of my bill at the time when the auto-pay failed however, Verizon failed to provide assistance and instead enrolled me in the COVID benefit. I tried to contact Verizon and explain the problem through multiple channels (call, chat, Twitter) however, no one provided assistance to resolve the issue. Verizon is taking advantage of its customers by assessing fees during a global pandemic and not providing appropriate user friendly ways of resolution. This is an unfair, deceptive and abusive practice.

Ticket: # 4099269 - Billing

Date: 7/20/2020 5:05:31 PM

City/State/Zip: Plainfield, Illinois 60586

Company Complaining About: Comcast

Description

I was told that if I had called and made a billing payment arrangement due to being out of work because of the covid 19. I was told to pay my bill in full on 07/31/2020 but they cut me off on 07/19/2020. I had placed over 20 phone calls to the company before talking with a manger to which at that point I was told to make a payment of \$140.00 and they would cut the services back on. to which I did and they kept it on for only 3 hours and then cut it back off due to I did not pay the bill in full. Again placed over 8 calls over to the company and advised the second manger of the matter and I was told very rude just pay your bill.

Ticket: # 4099283 - Inability to follow through with contract agreements

Date: 7/20/2020 5:08:44 PM

City/State/Zip: Violet, Louisiana 70092

Company Complaining About: Sprint

Description

My family and I joined Sprint wireless about a year ago. We signed a contract with them with the agreement that they would buy out our contract before that with AT&T (which we only left because the signal was bad at our new home). We have held our end and submitted the application and documentation that at&t provided as a final bill. The total amount was around \$240. I called Sprint customer service several times about the transaction and till this day no one had been able to help me clear the situation. The debt has since gone to collections and is now affecting our credit. We would like them to fulfill their agreement and pay AT&T what is owed. My husband and I are both Army veterans and I am a nursing student who works full time on the front lines of the covid-19 pandemic at Touro Infirmary as a direct patient care technician. All I am asking for is what the sales woman assured us would happen upon signing the contract.

[Ticket: # 4099327 - Not getting service as stated and no way to contact service provider](#)

Date: 7/20/2020 5:20:16 PM

City/State/Zip: Hot Springs Village, Arkansas 71909

Company Complaining About: Sudden Link

Description

I have been billed for an Internet speed of 400 mps. I have called 3 times trying to get this resolved. I get a call back, get disconnected and no solution. Suddenlink is my provider. They are using the Covid pandemic to close all offices and cut their support to call backs only. Can't get to billing to reduce my bill, not getting the service promised and being billed \$125 a month.

Ticket: # 4099353 - Overcharged for non-technical issues

Date: 7/20/2020 5:30:17 PM

City/State/Zip: Severn, Maryland 21144

Company Complaining About: Verizon

Description

Verizon Fios sent me the wrong device for my internet, so I contacted Customer Service for a technician to come and assist or install a new line in my home. I was told due to COVID, I will not be charged for the service. Technician came and did nothing but give me a new modem, took the old one and the extender that I was sent. Now I'm getting a 180 charge and now customer service is refusing to help saying that everything is "justified" even if I gave them screenshots that show the statement of no charge.

Ticket: # 4099384 - Re: [FCC Complaints] Re: cannot use my phone to call without getting cut off

Date: 7/20/2020 5:44:47 PM

City/State/Zip: Chicago, Illinois 60614

Company Complaining About: Safelink Wireless

Description

This is a follow-up to your previous request # (b) (6) "cannot use my phone to call..."

once again i have a problem with this phone and my carrier not honoring my minutes i am disabled cannot be without phone i cannot dial out or make any calls i tried to talk to them and they are very uncooperative originally i was receiving 1000 minutes free then it went to 1500 then 2000 back in april i received a text from them stating at this time during the pandemic we support you with unlimited minutes i went to make a call today and it wouldnt dial ou so i used the online feature with safelink to chat with agent the response was we put you back to 1000 minutes but never told me that at all now im stuck with no phone

Ticket: # 4099642 - Pokerstars on AT&T internet slower/not working compared to other ISPs

Date: 7/20/2020 7:43:34 PM

City/State/Zip: Richardson, Texas 75081

Company Complaining About: AT&T

Description

I believe AT&T is intentionally slowing down content for Pokerstars, which is in violation of Net Neutrality policies.

I have been using the desktop application for Pokerstars.bet (formerly Pokerstars.net) for a few months now during the COVID-19 crisis. My friends and I even set up home games so we have have fun tournaments between each other.

Recently, the there have been serious issues with Pokerstar.bet network connectivity. However, what is most alarming occurred during one of our "Home Games" last week when we discovered the only ones having serious issues connecting to (and staying connected to) the Pokerstars network were those with AT&T internet service. Other members of our party with other ISPs had little to no issues.

Issues with connecting to Pokerstars (website & desktop application network) continue today, even though all other websites I go to (google, facebook, youtube, etc.) are all functioning at normal speeds.

Ticket: # 4099665 - every day multiple disconnect with internet from Optimum

Date: 7/20/2020 7:52:03 PM

City/State/Zip: Torrington, Connecticut 06790

Company Complaining About: Optimum

Description

In March I began working from home due to the COVID-19 virus and every day between 12:00 pm - 7 pm my internet would disconnect multiple times through out this period of time causing my remote connection with work and my clients to be disconnected, many times while I was on the phone with them.

Ticket: # 4099708 - Carrier unable/refuses to honor advertised pricing.

Date: 7/20/2020 8:27:39 PM

City/State/Zip: Lufkin, Texas 75904

Company Complaining About: Sprint

Description

\$25 Sprint Kickstart Prominently advertised and promised at point of sale was not honored. The \$25/month "Kickstart NR" rate plan was prominently advertised on electronic marquee in store and online. Advertised pricing and oral agreements have force of law in the state of Texas. Somehow my sale was transmuted to an unrequested \$35/month rate plan I did not agree to at the point of sale. At no point during the point of sale was it conveyed to me verbally or via legal copy on an unintelligible/degraded point of sales terminal that I was not acquiring \$25/month "Kickstart NR" rateplan. Only after the point of sale did it become apparent that something was wrong. I had no recourse after at the point of sale and Sprint withdrew the advertised rate plan the very next day on July 12th, 2020.

I have tried to acquire this rate plan dozens of times since March 2020. Various failures of the exclusive merchant, online sales portals, telesales, and Sprint have resulted in undue pain and suffering and excessive exposure to retail stores during a pandemic national emergency. All of this is documented and will be exhibited in a formal FCC complaint if necessary. I have been lied to by Sprint representatives several times in recent months; I intend to air this in public if an informal complaint is unsuccessful.

I brought this error to Sprint's attention on July 13th, 2020, well within the buyers remorse period. An internal escalation promised by Sprint representatives resulted in no action.

Sprint should have documents too of several calls to customer service. This informal complaint MUST result in the restoration and backdating of \$25/month "Kickstart NR " to July 11th, 2020 on the affected phone line or this WILL escalate to a formal FCC complaint. I will not dismiss the possibility of small claims court action in Angelina County, Texas; oral contracts have the force of law in Texas.

Sprint should take this complaint very seriously.

Ticket: # 4099764 - Suddenlink Internet

Date: 7/20/2020 9:11:27 PM

City/State/Zip: Lake Havasu City, Arizona 86403

Company Complaining About: Sudden Link

Description

Have connections issues with our internet. They are trying to blame it on the heat and COVID. It gets hot here every summer and we had no issue last summer. This'll the internet provider Suddenlink needs to keep the equipment up to date and in good working order so people don't lose connections.

Ticket: # 4099774 - WBRE/WYOU Over the Air Signal

Date: 7/20/2020 9:22:46 PM

City/State/Zip: Bethlehem, Pennsylvania 18018

Company Complaining About: Nexstar/mission

Description

For years I had very little issues picking up their signal long with WBRE. At the beginning of July, either July 1st or July 2nd, WYOU moved to their new frequency on RF channel 12. After the switch I can no longer pick them up at all despite having a large outdoor antenna cut for high VHF. The social media the stations reported the incident but later said the issue was resolved. However, it is not at all based on my situation and the dozens of other people on Facebook. I've installed several antennas in the area and most of my setups lost both stations including one right in Duryea. This situation needs to be investigated. The consolation of these two stations, lack of planning, and updates to the public has left a lot of the market without access to important local news and information in a pandemic.

Ticket: # 4099777 - Billing Issue

Date: 7/20/2020 9:26:42 PM

City/State/Zip: Stratford, Connecticut 06615

Company Complaining About: Optimum

Description

I worked at optimum and was given a benefit to receive a package for \$5.32 per month. My department was recently laid off due to covid and I was not given any information on this service. I figured I would receive a communication from the provider if my bill would raise. I was billed \$5.32 after I was laid off and figured my benefit continued since I was not fired. The month after I was randomly charged a bill of \$311 without warning. I have spoken to many reps giving me the run around. Supervisors are disconnecting my calls and I have been fighting this since I received the bill. I was told I can't cancel the service until it is paid. Please help me to get this bill cancelled due to my unique circumstance and lack of communication that my new charges would be so high. I agreed to \$5.32 not \$311. Because I was laid off, I can't afford to shrug this off and pay it.

Ticket: # 4099791 - ATTUverse early termination fee

Date: 7/20/2020 9:35:48 PM

City/State/Zip: Walnut Creek, California 94597

Company Complaining About: AT&T

Description

I subscribed to ATTUverse, a promotion, agreed to keep service for 1 yr. early termination fee if I cancel service within the 1st yr. Service began 1/29/20. Problems began in March, when Covid shutdown. I kept losing my service, can't count the times I had to reboot, wasn't able to speak with anyone by phone, a recorded message a 2 hour wait to speak with a representative. Finally a 13 minute conversation on my cell trouble shooting with an agent, unresolved, he promised to send me a new box (DVR box) it never came. calling again, couldn't get through, 4 mos later 5/29/20, I cancelled service. I have a demand "final notice" invoice to pay an early termination fee of \$215.35. I never got the service promised, most of the time I didn't have service, the package also included landline and internet, much of the time the internet was down and no phone service. I've had cell service with ATT for 15 years. I tried signing onto my account, it won't let me in. Cant do an online chat, tied calling, after virtual assistant and multiple attempts to speak with an agent, I gave up once again.

Ticket: # 4099821 - Comcast Xfinity Service

Date: 7/20/2020 9:59:34 PM

City/State/Zip: Levittown, Pennsylvania 19056

Company Complaining About: Comcast

Description

Intermittent internet connection (disconnecting every hour to hour and a half for about 5mins, the entire 2 weeks I've had Xfinity) despite at least 3hrs or more on the phone with tech support, a replaced modem, and a field tech coming out to check outside fixtures and equip (I'm not even sure he did actually anything, as he was out of line of sight for the entire duration of the service call).

I believe Comcast is using COVID-19 as a scapegoat for not completely solving my issue as I've been through the revolving door of their tech support telling me we have to go through the same troubleshooting options (despite it not solving the issue prior) to even schedule a tech to come out due to COVID.

I'm not entirely sure what can be done to solve the issue, but I feel as though I've exhausted my options within reason, that Xfinity (comcast) is not exercising due diligence in solving my connection issues, and that without outside intervention I will continue to have this problem while I am a paying customer with them.

Ticket: # 4099845 - Internet Access

Date: 7/20/2020 10:34:26 PM

City/State/Zip: Harvey, Louisiana 70058

Company Complaining About: Comcast

Description

My daughter rents a condo in Shreveport with two friends. The girls are in Medical school and with COVID-19 causing them to remote learn, internet access is important. The landlord gave the girls permission to contract with Xfinity/Comcast which is the internet provider that my daughter used when she lived on her own. We paid for her internet. There is another condo unit in the complex that has Xfinity and was happy with the service there. My daughter transferred her Xfinity account to the new residence and Xfinity came out and ran the line for internet the next day but did not bury it. The HOA President said that the Xfinity cable could not be there and gave us no chance to rectify the situation before the HOA president and came out and unplugged the wire from the unit. Cutting off their internet. The HOA said that the girls could not have Xfinity internet even though another unit already has that service. The HOA president recommended the girls go to Starbucks and use the free internet.

Ticket: # 4099855 - At&t universe and internet

Date: 7/20/2020 10:44:11 PM

City/State/Zip: Sacramento, California 95825

Company Complaining About: AT&T

Description

Once again I have charges to my old AT&T universe and internet after my account ended. I tried to contact At&t concerning equipment return the letter they sent me had two pieces of AT&t equipment and I have three so I try to contact him concerning the third piece of equipment to find out that I owed them more money since I had paid them up I was very confused but like always if you don't pay your bill he won't talk to you they'll tell you to go online to your account which is I can't get through on either to find out what's going on about why I was being charged or I could not talk to him about the third piece of equipment that I had that need to be returned unless I paid that money did I do not feel like I owed since my account had ended. I also need to talk to him about one of the pieces of equipment where someone that was broken if they were well aware that was broken the reason why I cancelled the account because this has happened more than once since the first year. but after I had to sit here and listen to the pandemic speech and how they were there for everybody how you didn't have to pay your bill right away excetera excetera excetera I could not get through unless I paid him some money to talk to them concerning their equipment that they were well aware of that was not working that I was sending back nor a third piece of equipment it was not listed in the letter. I would like to resolve all this all three pieces of equipment was returned choice shipping provider dropped off I would like to know why I was being charged for sayings after the cancellation date due to bad service and why nobody would call me back concerning a broken equipment it was such a big problem if they were not sending AT&t technician to my house to find out what was wrong with it the reason why everything was cancelled I did pay a month so that's why I'm quite confused but since I can't get through you need somebody to mediate between this account. We need to figure out what chargers have been why I cannot speak to att I have no idea what they are need to come to a satisfactory end after 15 years being a great customer I am really upset of way I was treated since January 2020

Ticket: # 4099912 - no working service or resolution from Xfinity for my caption phone line, tv, and internet

Date: 7/20/2020 11:33:09 PM

City/State/Zip: Port Saint Lucie, Florida 34983

Company Complaining About: Comcast Xfinity

Description

I am deaf and need my caption phone to live. for the past 10 days when I call out no one can hear me on the other side. there is static . Exfinity only offers online restart of modems and does not offer having a tek coming to the house to find the problem!!! they do the same t hing over and over. Restart, plug and unplug..they blame Covid. you cant even go to their store as they tell you they have closed them. I work from home and my compute has been out as well as our TV!!! this all for the past 10 days!! They bill you but OFFER YOU NO CREDIT FOR THE TIME OF NO SERVICE. how can you allow this company to operate??? My life depends on my caption phone, as I cannot talk on cell....I need words to hear. I am crying everyday out of distress of what to do. I am a senior and they are not offering any help other than talking on a cell with my husband with a person he cant understand who is foreign and cant hear them either.....they dont answer their chat lines, emails,facebook messenger accoutns. they have left me high and dry. PLEASE CLOSE THEM DOWN UNTIL THEY STOP DOING THIS TO PEOPLE. I NEED MY PHONE TO SUPPORT MYSELF. They need to have a tek come to my house to FIND OUT WHAT IS WRONG WITH ALL MY SERVICE. please do not attempt to call,, as I cannot use the phone which is not working. Email only. hopefully i will see it when my internet sporrratically works....

Ticket: # 4099935 - Tiers being throttled and blamed on coronavirus usage

Date: 7/21/2020 12:02:07 AM

City/State/Zip: New Orleans, Louisiana 70119

Company Complaining About: Cox

Description

I have kept the 300mbps download/30mbps upload tier for years now. I was forced to in my opinion downgrade during the pandemic to a 500mbps download/10mbps upload tier for a period of 2 months without asking me. Today is July 20th and I was emailed that I was given the option to CALL to have my old plan back, so I did. After numerous speed tests I am NOT getting the tier I'm paying for, download was never an issue before. I was consistently getting 330mbps download/ 33mbps upload, most of my usage is overnight when most people are not utilizing the network. To blame my neighbors usage as a reason to limit everyones speed is a terrible business decision. Upgrade your network to handle the traffic, don't blame the pandemic that more people are using upload speed for webcam usage which uses approximately 2mbps per camera. I want the speed I'm paying for, today I'm receiving around my rated download speed of 300mbps but my upload is ATROCIOUS, I'm paying for 30mbps and receiving less than half or 15mbps consistently. I have upload numerous speedtests connected directly via ethernet to the modem, an Arris CM8200, the fastest modem available today. FIX YOUR PLANTS COX!

Ticket: # 4099948 - Tmobile

Date: 7/21/2020 12:20:17 AM

City/State/Zip: Carrollton, Georgia 30116

Company Complaining About: T Mobile

Description

I was a customer of T-mobile I was told by the customer reps that if I paid my devices off that I would own them out right. I decided to cancel services

w/T-mobile because during pandemic the bill became so outrages when my job put me on furlough. One of the reps for T-mobile advised me to pay off my devices to lower the bill, as I was paying installments. I did exactly as the rep asked she informed me that I would own all my devices, and Tmobile would unlock the all. I also had 2 tablets in which I paid \$126 to own the devices, as so my part-time business would not suffer during this trying time, as I explained to T-mobile. The manager Patricia employee ID 449278 told me the devices would be unlock even with them knowing the acct status etc. She stated that because the Rep took my my money, and agreed to override status, and unlock my devices 2 wks ago there were 2 Alcatel number ending in (b) (6)

(b) (6). They were never unlocked. I am asking that they unlock the devices I paid for.

Ticket: # 4099984 - Customers service and billing

Date: 7/21/2020 4:48:28 AM

City/State/Zip: Seymour, Tennessee 37865

Company Complaining About: AT&T

Description

I constantly have a problem with AT&T. First they lied to us in order to get their service. And now they are not helpfully when it comes to paying the bill. Every since I've this service I pay it at the end of the month. For some reason this month their system set it for the 18th, I couldn't make the payment tried to call and have it pushed to the 28th and they claim their system won't allow them to change it. I asked for a supervisor or someone who can over ride the system they claim there is no one who can. So they are going to disconnect our service. I am a disabled veteran and this is my only line to be able to get in touch with the VA if needed and my wife is unemployed do to the pandemic her phone is the only line she has to look for work

Ticket: # 4099993 - Verizon is blocking paid service every 5 months

Date: 7/21/2020 6:03:58 AM

City/State/Zip: Harrisburg, Pennsylvania 17111-6843

Company Complaining About: Verizon Wireless

Description

Hi, Every few months for at least the past two years my cell phone signal is degraded and the service begins to drop calls that are made from the same location where I have never experienced poor signal strength, my home. This signal degradation lasts a few days in a row before reverting back to a reliable signal strength with no dropped calls.

Beginning in September of 2019 Verizon Wireless began blocking my phone's ability to receive or send multi-media (picture & video) messages. The only way I discovered the issue is because someone asked if I had gotten messages they sent when I did not reply. On September 14, 2019 I spent 18 minutes on a call to Verizon Wireless to have the issue corrected. Then the issue reoccurred on February 17, 2020 five month later. I then spent 16 minutes on a call to Verizon Wireless to have the issue again righted. Now yesterday July 20, 2020, again five months later my ability to receive or send picture messages has been blocked by Verizon Wireless. I attempted to call their customer service at 9:24 PM EST but they have limited hours of operation due to the pandemic and were closed. I will contact them later today but I should not have to call back every five months for them to unblock services I pay for.

Verizon Wireless is degrading my signal strength every few months and blocking paid features every 5 months in an effort to force me off of my flip phone and old calling and messaging plan. Order Verizon Wireless to stop messing with the services I pay for monthly.

Ticket: # 4100109 - Charter billing dispute due COVID-19

Date: 7/21/2020 9:07:46 AM

City/State/Zip: Watkinsville, Georgia 30677

Company Complaining About: Charter

Description

Consumer stated due to the COVID-19 agreement her carrier was not supposed to disconnect her service.

Consumer stated her service was disconnected on 7/21/2020

Consumer stated she didn't know she needed to sign-up to be in the program

Carrier told consumer because she didn't ask to be in the agreement they will not turn her service back on without payment

Consumer would like her service restored and a credit for the disconnection

Ticket: # 4100118 - robocalls from spoofed/fake numbers

Date: 7/21/2020 9:11:57 AM

City/State/Zip: Brandon, Mississippi 39042

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are all marketing calls. Most of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day. And, a new trend had recently arisen: text messages. I cannot overstate how angry and frustrated I am with these people's total disregard for other's right to privacy and peace of mind.

Many of the spoofed numbers were identified by my caller id as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona, Crystal Springs, Byhalia and Ashland, MS. For some of these numbers, caller id did not identify the location, but an internet search of area codes and prefixes determined the location. For a brief period earlier in the year, there was a spate of calls from out of state as well. This surge in out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. While that surge of out-of-state calls was fairly brief, there are occasional calls identified as coming from out of state. I recieved (and filed a complaint for) a recent call identified as coming from Indian Spring, NV. For the call I am reporting today, caller id identified no physical place of origin. An internet search of the area code and prefix indicated the call came from a wireless device with a rate center in Aberneen, MS. This number called me three times in one day.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. I tried to return the call, and it simply disconnected. Today, I tried to return the call, and it simply disconnected.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

In addition to the phone calls, I occasionally also received marketing communications about health insurance through text message and/or email. In these cases, I have often been able to communicate directly with the sender, and at least gain their assurance that they would not contact me again. I have had two of these individuals inform me that they were sold my information. I asked the latest of these very directly, "where did you obtain my information". He refused to answer. In my view, this refusal makes him complicit in the perpetration of these unethical activities.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4100148 - Billing/Availability Issues

Date: 7/21/2020 9:29:14 AM

City/State/Zip: Dover, Delaware 19901

Company Complaining About: AT&T

Description

Consumer said she has not worked since March 13 and went back to work 3 weeks ago

Consumer said she got a paycheck for \$100 and gave it all to AT&T Mobility

Consumer said they shut off her services and did not offer to do a payment plan

Consumer said she can go to her sisters that tested positive for covid-19 and does not want to get sick or get anyone else sick

Consumer just wants her services turned back on and defer the past balance of \$800 and she can pay current balance with a payment arrangement for the back balance

Ticket: # 4100224 - Modem Location

Date: 7/21/2020 10:18:55 AM

City/State/Zip: Wellington, Florida 33414

Company Complaining About: Comcast

Description

Hello,

Due to Covid and I will now be telecommuting.

My modem is currently in the kitchen and because I deal with HIPAA information and have conference calls daily I need to work with a wired internet connection and in a room with a door for privacy.

I was advised by a Comcast technician that due to Covid , reinstalls were not being scheduled for their safety.

The coaxial cord simply needs to be wired from the outside of the house and into the room upstairs. There is no risk in running a coaxial cord outside of the house and drilling a hole into the wall so I can connect it.

I am dissatisfied with Comcast's attempt to resolve this issue. Due to Covid , several customers will now be telecommuting and this issue may happen often.

I spoke to a manager at Comcast and was advised to hire a third party to run the wiring .

That is not acceptable. If Comcast is going to give partial customer service due to Covid then they should charge partial pricing as well !

Sincerely,

(b) (6)

Ticket: # 4100317 - AT&T Issues

Date: 7/21/2020 10:48:57 AM

City/State/Zip: Acton, Massachusetts 01720

Company Complaining About: AT&T

Description

AT&T is violating FCC guidelines. He has been on the phone with them for Hours. They did a no notice shut off. They shut him off 1 week ago. He is still isolated due to COVID. He did not get proper notice. Number Porting; AT&T gave false information about Porting.

Devices which are purchased and paid off; AT&T refused to unlock these devices because he has a balance with AT&T. Resolution the caller is seeking is he wants AT&T to release his devices as he has paid for them and he does not intend to pay his owed bill due to their disconnection without proper notice; he issued a Formal Dispute on that amount. He also feels that AT&T is extorting their customers. ***CTR386-phone***

Ticket: # 4100338 - Billing Complaint Without Services Rendered**Date:** 7/21/2020 10:54:22 AM**City/State/Zip:** Norwich, New York 13815**Company Complaining About:** Frontier Communications

Description

I rent a space within The Eaton Center located at 19 Eaton Ave, Norwich, NY 13815. On or about the 1st of April, 2020 I contacted Frontier Comm. online to request a streaming internet service at the location on Eaton Ave. A work order was processed and a router was sent for provide service to my room. Because of Covid restrictions my landlord requested that I was to notify him or be available in person to allow the installer access to the building and to the area where the line came into the equipment room within the building. No one came as scheduled. I contacted frontier with the no show and a couple days later I received a call from the local installer saying his employer Frontier) was not allowing any work within homes or buildings due to pandemic concerns for employees. I once again contacted Frontier and through layers of their call center and 2+ hours of going from dept to another they seemed to understand until another month when Bill time came around, and I would call about the charge and they insisted I had service . I went to the studio, the router there in the box, I open thinking it's wireless or something...it's not! It needs an connection to something! I call tech support .. they agree, no connection. I repeat with call to the company, basically same run around. I call the manager of our building , he says no one has been in to connect or request to connect to my room. I contact Frontier to explain, I'm talking to a call center in Asia, they don't know COVID , they follow a script. In the meantime they call send emails , want me to pay my overdue balance. I sent my router back, cancelled my account, and they continue billing and treating this as an active, delinquent acct for almost 5 months with no opportunity to speak to a U S employee to straighten this matter out and a demand to pay "this months " outstanding balance of \$196.00. I have yet to return to my business due to Nys and local restrictions re: COVID-19.

Thankyou for allowing me to express my concern and frustration with this matter with Frontier. I requested service the end of March2020..I did not and have not had service installed in my studio, I do not wish to continue doing business with a company who housed their headquarters and provided great service to our community.

I appreciate your attention to this matter .

Very Truly yours,

Ticket: # 4100437 - Sprint Cell Phone

Date: 7/21/2020 11:25:14 AM

City/State/Zip: Columbia, Missouri 65203

Company Complaining About: Sprint

Description

I contacted Sprint about an ongoing service issue that they are not able to resolve. I asked to cancel our service due to the inability to provide a consistent working service. I was told I could but I would be charged in excess of \$1800. In an ongoing pandemic, working service is vital and all we want is to move to a new carrier but cannot afford \$1800 to do that.

[Ticket: # 4100535 - Ability to reach customer service at Century link for internet technical issues](#)

Date: 7/21/2020 11:49:52 AM

City/State/Zip: Woodbury, Minnesota 55129

Company Complaining About: Centurylink

Description

On 7/18/2020 I had no internet service and I tried calling 5 different numbers on the website only to be automatically disconnected saying that I had called after hours even though their website clearly states they have customer service on Saturdays from 9-5. It took me 2 hours to get a hold of a human and 3.5 hours to fix my problem. How is that acceptable? There is no reason it should take 2 hours to get help. Century Link is notorious for their lack of providing adequate resources to help with technical issues. In this pandemic and the need for greater reliance on internet is critical - they need to have staffing in place to support the increased need.

Ticket: # 4100537 - Persistent Unwanted Calls

Date: 7/21/2020 11:50:06 AM

City/State/Zip: Colorado Springs, Colorado 80904

Company Complaining About: Unkown But A Mobile Number

Description

+17193414791 is pushing covid-19 scams saying the IRS is demanding payment and asking me for personal information. I did not receive a payment for economic recovery as I don't qualify. That's how I know it is not true. Once when I called back the number I was greeted by someone saying that they have a COVID-19 cure.

Ticket: # 4100596 - Internet accessibility

Date: 7/21/2020 12:04:37 PM

City/State/Zip: Newbury, New Hampshire 03255

Company Complaining About: Consolidated Communications

Description

We have been trying to get internet access since we moved to this address in February which has involved contacting every service provider only to be told that Consolidated Communications is the only provider for our area. Consolidated Communications states that even though their lines go to our house that they have no room in the box to provide internet to us and that all they are required to provide is phone service, which I have purchased from them. I was informed by several Consolidated Communications engineers that there is a completely empty VDSL box attached to the telephone poll on our property and that all the company needs to do is turn it on since the lines have already been run so they recommended calling every few weeks to request it, which I have been doing since February. This issue has been compounded by COVID as we have three school aged children who have not been able to participate in remote learning and I am also unable to work from home due this so I have had to be furloughed from my job as well. I have tried to no avail to let the company handle this situation however, every time I contact them even asking to speak with supervisors who may be able to provide more information, I am told there is nothing they can do, they have no information on when or if that box will be activated, and my only option is to continue calling back monthly to "Check."

Ticket: # 4100786 - VERIZON AND APPLE - HORRIBLE TREATMENT AND ISSUES**Date:** 7/21/2020 12:41:42 PM**City/State/Zip:** San Diego, California 92109**Company Complaining About:** Verizon Wireless

Description

Hello,

I've never left a complaint on here but my lawyer and mom insisted I do. I dropped my phone "just right" on Friday leaving the screen black and un-viewable. I went to a Verizon store in which they gave me a number to call (from a broken phone) and wouldn't call for me. I live alone now since my husband passed away and ended up having to use my neighbors. When I did that I sat on hold for 4 hours, and was told by Verizon that my Apple ID was locked because I never entered a verification code... The same verification code the stupid Verizon website insisted on sending to my UNVIEWABLE phone. So then I was transferred to a manager at Apple where I was then cussed out since I was crying, and they told me that I would be unable to have a working phone number until 8/1 since "I fucked up" (which I didn't.. they did). THEN Saturday comes, I do the same thing, was given the same number to call, nothing worked. All I wanted to do was pay for an upgrade or get a phone overnighted to me since I pay insurance monthly on my bill for that to happen. They told me I would have to wait until COVID was over.... Sunday comes around, same shit, different phoneless day. I got fired! So that was cool. I was fired due to neglecting customers that I need a phone to talk to on. Monday rolls around after my mental breakdown, I walk 4 miles to the store seeing as how I do not have a car (I'm alone with no phone, internet or car), and the woman at Verizon insists I pay \$267 for an upgrade "because they can't help me get anything overnighted since that has to do with Apple". So I go to an Apple store and they tell me, "We can't help you with that because that goes through Verizon Insurance". SO I walk back to the Verizon store, end up paying money I shouldn't have to pay for an upgraded phone (it's the same exact phone, I just need a working one, nothing fancy at all), and the woman refused to activate it for me. Instead she wrote down instructions to activate it at home and treated me like dirt. I get home, activate it, and it deletes my entire account. My old boss, my family and friends state that my number isn't even a working number anymore. I am now on day 5 with no working phone and have paid so much money and time, lost my job, in order to have this resolved and STILL NOTHING. I have never been treated so horribly by a company, both Apple and mainly Verizon, and I don't know what else to do. Anytime I ask for a manager or ask kindly for more assistance I'm treated like trash. All I want is a phone, it shouldn't be difficult. I dropped it on accident and pay for insurance thus leading to a replacement, yet why am I on day 5, with swollen eyelids, been cussed out by representatives and had my phone disconnected due to being given the wrong activation instructions? Thank you for reading my complaint. I am walking 4 miles yet again to the store today in hopes they will REPLACE THE REPLACEMENT and activate it in store with no trouble, yet since this has been my ENTIRE week of frustration dealing with only them, I'm not feeling too optimistic. Thanks again and I hope to get money back and some resolution from this after it's investigated. I'm honestly in shock from how ridiculous this has gotten.

Ticket: # 4100848 - Lack of Service

Date: 7/21/2020 12:53:34 PM

City/State/Zip: Nashville, Tennessee 37206

Company Complaining About: AT&T

Description

Consumer was set up on a payment plan due to the COVID issue.

Their website and printed materials claim they are working with customers during this pandemic.

She recently paid the second of three payments, but they cut their service off.

Now they refuse to turn her service back on until she makes the third payment which is not due until the end of the month.

Consumer does not have the funds available right away and asked that we file a complaint for her.

CTR412-phone

Ticket: # 4100884 - Unable to get service through new fiber fed remote terminal

Date: 7/21/2020 1:06:05 PM

City/State/Zip: Gobles, Michigan 49055

Company Complaining About: Frontier Communications

Description

Dear Federal Communication Commission,

Frontier Communications is providing sub-par internet speed to my address. My current internet speed according to the Google Speed test is 1.07 down and .43 up. I am currently paying for 3mbps service. This speed is unacceptable in 2020, especially with the current global pandemic requiring online classes in the fall 2020 semester. Recently they have installed a new fiber-optic fed remote terminal at the end of my road but are refusing to move my service over to it. They claim that the box can only provide service to the first couple of houses near it because of the way that the phone lines are laid out. They will not send an engineer out to see what needs to be done to get our service moved over to it. I have contacted their customer support using their live chat multiple times. The first time they gave me a support ticket from 2010 and said someone would contact me to investigate it, they never contacted me. The second time they said they would move us to a new port and said if this doesn't fix it there is nothing they can do. I am writing this letter because I would like the Federal Communication Commission to pressure Frontier Communications to send out a technician and move our service over to the new remote terminal.

From,

Ticket: # 4100887 - Unfair billing practices by Verizon Wireless

Date: 7/21/2020 1:06:32 PM

City/State/Zip: New York, New York 10016

Company Complaining About: Verizon Wireless

Description

Verizon Wireless has repeatedly billed me for international calls, which I did not make. I have called the company twice and on a recorded line been assured by associates that international calling features on my phone had been blocked, but continued to receive international calls billed to my account after the fact. Verizon justifies this practice by saying they sent a notification message regarding international calls. This "notification" is blatantly misleading and contradicts previous text messages confirming international calls were blocked and contradicts what Verizon Wireless employees told me on a recorded line. Verizon Wireless is using the opportunity created by COVID to fraudulently overcharge customers for calls they could not have made.

Ticket: # 4101038 - Service/COVID-19/ Service interruption

Date: 7/21/2020 1:33:26 PM

City/State/Zip: Piermont, New York 10968

Company Complaining About: Optimum

Description

(b) (6) is having problems with her bundle package. Consumer states that she has always lose service but for the past three months this has been very consistent. Consumer states that they have been with no service most of the time for the past three months. Consumer states that she has call the company plenty of times and they have changed all the hardware of the house and she is still having problems on reception and transmission. Consumer states that she needs a reliable service and not even the landline is workable. Her internet goes down very often in the middle of the COVID-19. Consumer states that she stays in home for the well begin of other and she does not have any communications. Consumer needs her the service to be repair immediately. Consumer wants a discount on her billing for all the time that she was with no service into her bill. Consumer wants a compensation for all these problems that has cause to her during these three months that she was with no reliable service. This is also affecting two of her neighbors that live in the area. She is not the only one and they keep charging her like if she is getting the full service.

ctr408-phone

Ticket: # 4101263 - Cox did not restore speeds as they committed to

Date: 7/21/2020 2:26:34 PM

City/State/Zip: Ladera Ranch, California 92694

Company Complaining About: Cox

Description

On 7/20 Cox sent me the letter below stating I have to CALL IN to restore my plan to my speeds pre-COVID (they temporarily significantly reduced upload speeds for all customers). I called in and the rep (Alex) completed work order #(b) (6). She said there would be NO CHARGE or change in my fees and that the speed should go into effect right away. I reboot modem with her on the phone and she said my new speed should be corrected (restored to 300Mbps/30Mbps). She then said new "ultimate" package had to be applied that's included in my HOA that is actually 500Mbps / 30Mbps. I rebooted my modem and still 500Mbps / 10Mbps speeds. She advise that I wait 24 hours.

On 7/21 at 11AM PT, my modem rebooted. I ran another speed test... still 500Mbps / 10Mbps. My speed not restored to 30Mbps upload as it should be.

- 1) Cox didn't just restore our speed, they put burden on customer.
- 2) This is veyr disappointing that I spent ove an hour on this and still not resolved.
- 3) I am veyr nervous given Cox's history with similar issues that I am going to be billed for something that I shouldn't.

LETTER FROM COX RECEIVED 7/20:

As part of our Coronavirus response, and as more people began working and learning from home, we reached out to let you know that we adjusted your speeds to 500 Mbps download/10 Mbps upload.

Your original Internet plan gave you 300 Mbps download/30 Mbps upload speeds. If you're liking your new speeds, you don't need to do anything—they'll stay right where they are. After July 15, if you want to return to your previous speed tier, we'll happily move you back. Give us a call at 844-382-6754.

Ticket: # 4101330 - Billing

Date: 7/21/2020 2:43:20 PM

she states that Verizon cut her phone off before she received the bill

she also stated during the pandemic they started mailing out paper bill

I will file the complaint for her

Ticket: # 4101335 - 3mg internet speed

Date: 7/21/2020 2:45:35 PM

City/State/Zip: Valley, Nebraska 68064

Company Complaining About: Centurylink

Description

I live in Nebraska, right outside of Omaha where my property backs up to a major highway. The only speed I can get is 3mg from Centurylink and it is not reliable. I work from home full time and my children will probably have to do school from home due to the pandemic. This is not possible on the speed I can get from the only provider that comes to my area.

Ticket: # 4101386 - Covid-19 Assistance Availability Inquiry

Date: 7/21/2020 2:54:54 PM

City/State/Zip: Hirman, Georgia 30141

Company Complaining About: AT&T

Description

From: (b) (6)

Sent: Monday, July 20, 2020 4:14 PM

Subject: Questions regarding assistance

I'm not sure if I'm contacting the correct person so hopefully you can assist me. I've been out of work for several months due to the virus and I'm having a hard time finding work. I have a 3 year old son and I've run out of savings. My cell phone has been shut off and some of my bills are behind. Would you have any contacts for assistance with my cell phone bill? I can't provide my resume when I don't have a way for someone to contact me. I've never been in this situation before so I'm not sure who to contact.

Thanks for your help.

Ticket: # 4101416 - No internet

Date: 7/21/2020 3:02:10 PM

City/State/Zip: Liberty, North Carolina 27298

Company Complaining About: Spectrum

Description

With our school system being all online now because of Covid-19, we really need reliable internet. We are in a red area for both spectrum and at&t, even though there is service within a few feet of us. We currently have HughesNet but it is slow and unreliable. The kids use my phone hotspot but once it gets to so many mb, it slows down to almost nothing. When we call either of them, they keep sending us to different departments. Please help us!

Ticket: # 4101461 - Cox Communications Internet Speed

Date: 7/21/2020 3:11:22 PM

City/State/Zip: Pheonix, Arizona 85042

Company Complaining About: Cox

Description

The consumer states that due to COVID-19 she understates that a lot of people are on the internet but this speed issue should not be happening.

The consumer pays for a certain amount of speed and once it exceeds a certain amount the speed slows down.

The consumer states they sent out a technician today and they said that the wiring is wrong and he moved some equipment but soon enough the issue came back.

The consumer states that they are not getting even half of the internet that they pay for but yet they expect the full payment of they will shut her service off.

The consumer states that she is paying for her own router and modem and they shouldn't be messing with her equipment.

The consumer needs reimbursed for the inconvenience on the issues she is experiencing.

The consumer needs her internet fixed as soon as possible and needs the credit or reimbursement.

CTR-415

Ticket: # 4101615 - Bundled service

Date: 7/21/2020 3:40:55 PM

City/State/Zip: Mckinney, Texas 75069

Company Complaining About: Spectrum

Description

Spectrum is consumers provider for TV and landline. She used to have the sports package for \$5 per month. Package should include channels 300- 370. She cancelled this package in March due to the pandemic as she could not afford it.

She called yesterday to add sports package back. She was told they could add the same package she had for \$5 per month. She states provider is offering this package on brochures as well.

Consumer states the package does not contain channel 306 or 316. Consumer wants Spectrum to provide the channels 300-370 as agreed and offered on their brochure for \$5 per month.

Ticket: # 4101662 - false advertisement not honoring what was promised**Date:** 7/21/2020 3:51:15 PM**City/State/Zip:** New York, New York 10038**Company Complaining About:** T Mobile

Description

On the week of July 12 and on the date of July 17 . I walked into T- mobile on 3780 Broadway & 157 st

store 9314 DCA License #1340636-DCA

DCA License #2003782-DCA

I asked about switching My Buisness KUBEMAS PHONE LINES from Sprint to T-mobile I Specifically went into detail that I wanted to switch my business phones from Sprint to T-mobile . I asked about the price I was quoted at 130.00 for 3 lines taxes included a month. I asked if they would pay off my phones as part of the promotion . I was told on both dates by two separate agents Chris R. and Will ,while their Retail Associate Manager Hector Castillo was present in store and asked if they would pay off my phones and I could keep my existing phones? The response from all 3 was that yes. I could up to 650\$

I was told to bring in my EIN number for my business my ID my last Sprint bill to see how much of the equipment was owed and 93 \$ for activation fees. I was told once my numbers where ported They could not be ported back to Sprint so was this what I wanted to do ? I said yes left the store came back on July 17 with all my info and the process took place. I was taken off Sprint and was now a T-Mobile customer.

It was late after 8. so I was asked to go home and finish the process for paying off my phones or come back the next day.

On The 18 I went back to the store and this tme spoke to Chris R. again. I told him I had been there the day before. I was sorry I missed him from prior that week where he specifically told me every item I needed to switch from one carrier to the other .But that the process had been done .Except for the part of sending my bill and getting my phones payed off.

Chris then sat with me and we tried starting the paying off the phone process, Chris had trouble making it happen via internet and so He went to the back to speak to Hector Castillo his manager. He explained that this was the promise.

I was told they where getting their district manager on the phone to see what could be done. Not really sure why they could not pay off my phone as they met the requirement of under the 650 per phone. Chris promised to call me on Monday because the District person was not picking up the phone.

Monday July 20 Chris gave me a call as promised to tell me that after discussion with the district manager they could not pay off the phones but would give me credits towards my bill. To equal the amount that they would pay for each devices . I could pay off the phones. Or they could just port back my phones to Sprint. Something was told they could not do in the start they said once the numbers where ported they could not be ported back. But thats not the issue. I do not want credit towards a bill I have not even made yet that was not the agreement . I wanted all my phones payed off. As I was promised .

We are in the middle of a pandemic . Not everyone has that kind of money available for phone device payments and two they are now messing with my business credit rating . Which is unacceptable. I switched under their promise which was checked on by 3 different agents at the store before I MADE THE SWITCH . This is total false advertising and now I have Sprint contacting me about the devices.

which would affect my credit. I know this is against the law. I Was promised one thing then after switching I was Lied to. Chris said well that was what they where offering or he could port back my phone numbers. UNACCEPTABLE and against the law. The promise was to payoff 440 dollars I BELIEVE ON THE 11 phone and what was owed on the Xs-max end of lease.

Ticket: # 4101719 - billing issue

Date: 7/21/2020 4:03:44 PM

City/State/Zip: Apex, North Carolina 27539

Company Complaining About: AT&T

Description

Go to cancel my service with Uverse and they say that i will be charged through august 18th. I explained to them I could no longer afford the service and want it disconnected today b/c I could no longer pay for the service. They said they could not prorate my bill. I have been affected by COVID19 and am trying to cut all of my bills that was the first one to start with. They expect me to pay for an entire month of service even though I canceled service today.

Ticket: # 4101780 - Automatic Billing without my permission

Date: 7/21/2020 4:17:31 PM

City/State/Zip: Cambridge, Massachusetts 02138

Company Complaining About: Comcast

Description

I paid my Comcast bill for 3 months by credit card as I was stuck in the UK due to Covid 19. I made a payment by cheque June, upon my return, only to find Comcast had automatically charged 2 months to my credit card without my permission. I had NOT signed up for automatic payments NOR for electronic billing. It is NOT their credit card to use as they wish.

An acknowledgement and apology that they broached privacy rules would be appreciated.

Ticket: # 4101837 - Re: [FCC Complaints] Re: Internet provider fraud Ticket No. 3890428.

Date: 7/21/2020 4:29:57 PM

City/State/Zip: Stewartstown, New Hampshire 03576

Company Complaining About: Consolidated Communications

Description

This is a follow-up to your previous request (b) (6) "Internet provider fraud"

To The FCC in regards to a prior communication-

I'm sorry this is so long but I want a record somewhere of Consolidated Communications behavior.

June 11 2020 our 768kbps internet (it's all they provide) went off and for several days I tried to contact Consolidated Communications repeatedly, without success. Each time I called music played but no one would answer the phone. I give them 30 minutes after which I hang up, then there was an CC internal disruption message which meant I couldn't leave a message. Days later, still trying, some nice lady finally pick up a phone and found that her records said we no longer had an internet account with them. After finally getting through, Customer Service said yes that was correct. We were cut of because of a Better Business Bureau complaint. BBB had emailed me saying that Consolidated would not answer their inquiries but that was ages ago. Consolidated CS said the only received it June 11 and so we were terminated. I told CC quite a while ago that I was contacting BBB and the FCC if they weren't going to give me the service I was paying for.

I spoke to the local technician late May or early June and was told that his boss informed him that they had "done all they would" and that if they got more calls I'd be cut off; so I hadn't called even when there was a problem.

He said, that even if there were no more issues for three year, the company wouldn't make back their money. He was sorry and that the problem is likely in a mile stretch of line that runs off the road and they weren't given permission to check it out. I was informed spring of last year by CC that this area of line would be moved to the road no later that August 2019 and then everything would be fine. This was in response to me saying I was going to search for another internet provider. He also thought that the higher ups were going to have to accept that their actual range of service isn't as far as they tell people. I've since discovered that the area where the trouble starts is where their lines were put underground several decades ago.

We were never contacted of this termination of service, not by email (obviously that would have had to be before cut off), not on the bill, or by phone. During a time of a COVID pandemic, I find it appalling that this company is allowed to do this. The bills were always paid - sometimes months in advance. Out of two years of paying and fighting for service, I would graciously say, that I've received about two months of it - that's combined in TOTAL. It took this company months to show up to connect the internet in the first place and because of that I specifically ask if there was any problem

getting service this far out because I would look for another carrier if there was - No problem at all! You're well in the range of service, is what I was repeatedly told.

The house wiring wasn't good enough so I installed new CAT wiring to get a stronger connection. I purchased fifty feet of it because I was told it was necessary.

I added Network Care Plus with Wireless Router (though I own my router) at \$11.99 month because of they charge so much to work inside the house. I wouldn't have bothered if the internet had every worked properly.

I was told by one of their many techs, it was very likely the cheap router CC gives out to customers and the more expensive router would help a lot, which cost more than \$80, less than two months later another tech informed me that the router was to "good" for such a slow connection and to use the old one. I want the money back, it's boxed and ready for them. It can only be used for DSL connection and I obvious will not be using that again.

Other techs and also a tech service rep said the problem could be my pc - so I tried to run updates, repairs and reinstall my OP. The slow net took me over a month and it still didn't help. The bad download crashed my computer so I had to take it to a shop and have the operating system reinstalled (losing all my apps and programs) and checked for problems \$75. Then CC cut me off as i said with no notification.

Customer service said they would cancel the last bill which I already paid.

I have just yesterday, July 20, gotten Skywire to install a connection with so many people needed service I knew it would take a while to get installed. So was unable to update you about my problems with CCI.

Sorry this was so long.

Ticket: # 4101878 - Availability/Billing during Covid-Pandemic

Date: 7/21/2020 4:39:25 PM

City/State/Zip: Roanoke, Virginia 24017

Company Complaining About: Cox

Description

Consumer said he was affected by the Covid-19 pandemic and lost his job

Consumer said Cox cut his service off during the Keep America Connected Pledge

Consumer said he told them he did not have the money and they still tried to take it out of his account

Consumer said they have even tacked on late fee's and return payment fee's

Consumer said they tried to take if out of his account and the bank would refuse it, they would then take a \$50 charge

Consumer said they are saying he owes \$730

Consumer said his bill was \$96 a month and he only missed 3 months, only since the pandemic

Consumer should only owe \$288 plus taxes

Consumer just wants Cox to take all the extra charges off the balance and he would pay the \$288 plus taxes since there should have never been any late fees or return payment fee's added

Ticket: # 4102269 - Verizon taking advantage of Coronavirus damaged business

Date: 7/21/2020 6:34:29 PM

City/State/Zip: Richmond, Virginia 23219

Company Complaining About: Verizon

Description

I contacted Verizon on multiple occasions to try to pause my business internet service which was not being used (business closed by Virginia Gov's order re: coronavirus) (contacted on 3/2, 3/22, 5/28, 6/6, 6/10/20) and was told to keep paying. Later I found out Verizon decided to allow businesses to pause their internet service, contrary to what their customer service told me. After another poor customer service interaction, I told them to cancel service on 6/10. They then charged me an additional month of unused service plus \$116.43 early termination fee after 3 years with their service, 1 year outside contract. I want Verizon to refund this money to me.

Ticket: # 4102276 - Extra Charges after Cancelled Acct.

Date: 7/21/2020 6:37:53 PM

City/State/Zip: Miami, Florida 33126

Company Complaining About: AT&T

Description

After the cancellation by phone of the acct. for just Internet service with AT&T, due to hard situation with COVID19, and after paying a penalty fee of 123.05 for early termination on April 10th 2020, with the assurance from Mr. Marco, (Agent ID MW973M) I won't receive any more charges for that cancelled acct. I've receive two letter more asking me to pay a new penalty charges with a total of \$205.80

Ticket: # 4102365 - suddenlink internet connectivity unresolved

Date: 7/21/2020 7:13:48 PM

City/State/Zip: Fate, Texas 75087

Company Complaining About: Sudden Link

Description

We have Suddenlink internet service which has been down daily for the past 3 weeks. There have been regular connectivity problems since last September. Repeated calls to customer service and home technician visits have not fixed the problem. I was told by their technician today the upstream signal amplifier needs to be replaced but the company will not replace it. This issue affects a neighborhood with 120 homes. We are not getting the service we pay for, no offer of bill credit and no resolution of the signal problem. We work from home and have 4 kids that will be in online school soon due to covid 19. We need this connectivity issue fixed as soon as possible.

Ticket: # 4102379 - Internet Service

Date: 7/21/2020 7:17:53 PM

City/State/Zip: Tamarac, Florida 33321

Company Complaining About: AT&T

Description

I have been doing everything I can to pay the internet service. This company is suspending my service after 10-12 Days from the date of the bill being due when the next month bill hasn't been generated yet. My service was suspended in May, June and July with no disconnection notice. The bill was due July 10 2020 my service was suspended on July 20th 2020 This is ridiculous we are in a pandemic and this company could care less about people. since this company is suspending my service 10 days after the payment is due and they have me under contract until October 2020 I want At&t to get me out of their contract with no penalty

Ticket: # 4102482 - Unresolved Billing issue - Time Warner (Spectrum)

Date: 7/21/2020 7:56:50 PM

City/State/Zip: Los Angeles, California 90077

Company Complaining About: Spectrum

Description

On 6/30/20 I made a call to my cable/internet provider, Spectrum, to discuss a billing issue. There was a line item on the bill for the NBA TV Package that I did not order. I explained to them that I do not watch the NBA, and even if I did, the season was suspended due to covid. They stated I only had thirty days from purchase (which according to their data was 2/29) to challenge the charge. I explained to both the person answering my call as well as a supervisor that no one in my house would have made that purchase, and we didn't have anyone over. The charge was split into four payments, so I offered to split the difference and pay the first two charges, if they would cover the last two since they were within thirty days of me seeing it on the bill. I have no competition (other than satellite) to switch to, and I feel they are leveraging that knowledge by not helping with what was clearly an error of some kind. I have been in good standing with my monthly payments, and I have never challenged any bill previously.

Ticket: # 4102544 - constant price changing

Date: 7/21/2020 8:23:44 PM

City/State/Zip: Corcoran, California 93212

Company Complaining About: Comcast

Description

I have been a customer for 18 years. In those 18 years the issue has been with Comcast constantly changing the bill. I has a package that was \$121.52 a month that included 175mbps internet unlimited and local channels. i was told at that time my price would not change and i was not on a promotion or contract. Then covid came. They gave everyone unlimited internet so my price dropped. I never asked to change anything. Once the free covid unlimited data went away my price shot up to 161.38! I called comcast and they could not explain why the price hike. They were willing to change my package again and i was told i am on no promotion or contract but i have heard this before. I am sure im not the only customer that they are doing this to. I want the price changes to stop. I can understand slight increases but they swing wildly. Please fix this issue, thank you.

Ticket: # 4102733 - Reducing Signal

Date: 7/21/2020 10:49:02 PM

City/State/Zip: Kansas City, Missouri 64114

Company Complaining About: Cricket

Description

I'm paying for 4G service with Cricket (ATT) every evening after 7:00 pm they reduce the signal to 2G or less

This means internet is impossible

Of course they're pushing profits tremendously, blaming "high use" due to Covid.

Conveniently, they have eliminated live customer service "after 9:00 pm"

what you get from 7pm on

Ticket: # 4102740 - Illegal Penalty fee after closing the Internet Acct. in AT&T

Date: 7/21/2020 11:01:06 PM

City/State/Zip: Miami, Florida 33126

Company Complaining About: AT&T

Description

Due to COVID19 I had to cancel an Internet service for my company in April 10 2020, I have all the names and ID of people in AT&T that helped me get cancellation which was an early termination. After I cancel, I have to pay the same day an early cancellation fee and they told me, that was all I have to pay. Now I receive a bill asking me to pay \$205.

Ticket: # 4102806 - Internet Connection Fails

Date: 7/22/2020 1:53:03 AM

City/State/Zip: Carmel Valley, California 93924

Company Complaining About: Comcast

Description

Lose internet connection daily btw c. 0930 and 1730. Xfinity. Multiple contacts with Xfinity, multiple tests, equipment replacement, no-show by Xfinity service rep, many customers experiencing similar problems around the US. Started morning of 13 July, persists to this day. No meaningful action by Xfinity. No choice of other ISPs. Worked fine for c. 9 years! I'm suspicious...Xfinity metering service to save money during covid?

Ticket: # 4102845 - Fast Internet/fiber optic

Date: 7/22/2020 6:45:32 AM

City/State/Zip: Maxton, North Carolina 28364

Company Complaining About: Spectrum

Description

Unable to get Fiber optic lines in my area. Spectrum, Blue Wave and AT &T will not even do a survey in my area. I have requested this for my Community several times since 2015. I have been told leadership consider my area a brownfield area. I have three children my oldest is in college, middle child is in high school the youngest child will be in the 8th grade. We have to leave home to perform many programs for education that needs fast internet. Our Community has only satellite Hues net that the average price a month are between \$ 80-120.00. This service is not capable of downloading many programs for education for students of all ages and many adults who could work remotely from home during this Covid 19. I am a resident of North Carolina. I live in Robeson County. My address (b) (6). Our Community and our students need help I am requesting that your assistance.

Thank You

Sent: Monday, July 20, 2020 1:22 PM

Subject: Being slammed by sprint for over FOUR years and I'm disabled !!!!

Hi I do not have a phone from sprint. They have refused to put a supervisor on the phone as I now call from a government phone., I have however been paying for a broken phone my sister purchased via mail that I did not ask for about 4 years ago to establish residency at her address when I was buying my home. I have spoken to and tried over n over to fraud Dept etc n in person. They tell me I'm not me yet keep billing me for another leased phone I do not have nor do I lease my phones ever ! Each time 6 hr calls refuse to put supervisor especisly during pandemic in fact sent to collections n judgement so I paid that with no phone at all ! They asked for my government number tell me to hold n then disconnect the lines knowing I cannot call from a phone i do not have and a broken one. I have every bill n paid this broken phone 2 yrs ago in full assuring me that I would stop be in g harassed into in not me" but I'm me to pay. I finally resolved it in dec n physically in Jan n started getting more bills slamming and blatantly lying! I have every single bill fof all four years n after paying the judgement to not ruin my name flawless history. I get a new bill n emails stating I owe on a new leased phone I do not have . Once again I call 3 different ppl n they say hold n disconnect the 3 numbers they provide ! Please help me this is unbearable. (b) (6)

thank you

Ticket: # 4102982 - Lifeline Minutes

Date: 7/22/2020 9:27:10 AM

City/State/Zip: Bronx, New York 10462

Company Complaining About: Assurance Wireless

Description

The consumer states he is having issues with Assurance Wireless whom he has cell phone service with Lifeline assistance.

The consumer states that they gave them 250 unlimited minutes and now that the program is over because of COVID-19 they are refusing to give him his minutes.

The consumer needs 1,000 minutes and unlimited text and they have him on a 3 gb and 250 minute plan and state they can't do that.

The consumer needs his minutes back, he doesn't care much about the gbs since he has wifi but he needs his minutes back the 1,000 minutes.

CTR-415

Ticket: # 4103066 - AT&T Deceptive Notification

Date: 7/22/2020 10:02:47 AM

City/State/Zip: Orangeburg, South Carolina 29118

Company Complaining About: AT&T

Description

AT&T sent me a false and deceptive notification by email indicating that my Galaxy J3 cellphone would not work after the expected service upgrade in my area. The email was so outrageous, I thought it was spam or spoofing. It was not as confirmed by AT&T support.

The implication, frightening to many during the COVID pandemic is that purchase of a new cellphone is required to maintain telephone communication. This is a lie as confirmed by AT&T support. Only 5-G is not compatible, but 4-G etc will still work fine.

Any emails like this must be retracted and corrections transmitted to customers.

I have attached the offending email. Please see that this likely illegal, interstate commerce scam is rectified.

Ticket: # 4103105 - Comcast cable out but will not send technician due to Covid

Date: 7/22/2020 10:19:12 AM

City/State/Zip: Duluth, Georgia 30097

Company Complaining About: Comcast

Description

Comcast cable only works on one channel but Comcast will not schedule a technician to fix the problem due to Covid. They have attempted to fix it remotely with no success. Ticket #C(b) (6). I need them to send a technician to restore my cable. It is most likely a problem with the connection outside of the home, according to one of the 3 people I spoke to, so they may not even have to enter the home. We do not have Covid.

Ticket: # 4103166 - Complaint With Optimum/Altice Internet/Phone Service

Date: 7/22/2020 10:38:46 AM

City/State/Zip: Babylon, New York 11702

Company Complaining About: Optimum

Description

My wife and I have had an ongoing dispute with company over unreliable service that has been going on for months. Both phone and internet service drop several times a day. This poses a potential hazard to us as we are both over 60 years old and there is a pandemic. Remote doctor conferences/emergency help/etc may be compromised by the situation.

Despite numerous complaints from us, their efforts have failed to resolve the issue, yet there is no adjustment in service billing along with an \$80.00 service fee to fix their problem and an errant \$10.00 late fee.

They have failed to fully resolve the issue and expect full payment for services/service call/etc.

Ticket: # 4103385 - Optimum/Altice

Date: 7/22/2020 11:34:53 AM

City/State/Zip: Bloomingdale, New Jersey 07403

Company Complaining About: Optimum

Description

None of my emails being sent to me are coming thru to my email account, this has been going on for more than a week. I have called at least 5 times, put on perma hold, for at least an hour, or if I want a call back, that too is over an hour. With each call I'm told that "due to the Corona Virus there are longer than usual wait times", I'm then told it will take 24 to 48 hours to resolve. This seems to be an issue in the Boro of Bloomingdale, NJ. not only emails, but TV also. I know this is not being resolved by above subject.

Ticket: # 4103395 - Poor internet service.... unauthorized charges... poor billing practices

Date: 7/22/2020 11:36:29 AM

City/State/Zip: Hendersonville, Tennessee 37075

Company Complaining About: Comcast

Description

I have xfinity comcast since 2017 december.... xfinity required a 20.00 a month contract for a year once i signed on. they did not inform me my rate would increase to 30.00 until after the completion of the first year. at this time i believed i was on a monthly plan. i later found out that otherwise. after 12 months they put me on a 50.00 a month plan for the same service (speed of 25, i believe 1 gig a month, the same service i had for 20.00 a month.) i started on a 14.95 a month plan during the covid-19 for two months. I went by the office here in town and spoke with them several times and to make my monthly payments. I attempted to sign up for their 10.00 a month service for low income (i received a social security check every month for 1070.00) its a very poorly run service and thru the internet i found out i would not qualify because i was currently paying for monthly service. They told me that i might qualify for the 10.00 plan if i did not have interenet service for 3 months. (the internet is the only way to communicate with my distant family(children and grandchildren) i'm fed up with comcast xfinity and their greedy poor service. I check my speed daily and its usually about 6-12 and im supposed to be getting 25.

they want me to sign another 20.00 a month contract with charges for additional data use(i can not monitor my data use) this data use was not on my original agreement. i'm just fed up with all the jibberish ... i try to let the service get turned off but they haven't until recently but they told me i could still use the email(they lied it was turned off for the 4th of july weekend) i went down to the store and paid about 135.00 for 4 or 5 months i'm not sure but its vexing

i am posting below a conversation i had online with one of their representatives

comcast 8-28-18 one hour on the phone...billing person after 30 mins transferred me to technical support who transferred me to another billing person (not supervisor as promised)..... billing incorrect on cc for 89.26

credit for visit (not authorized) credited plus 19.99 amount for service

also a second charge for a visit(not authorized) for poor service credited

FTC 7-8-19 Report Number: (b) (6)

Hello..... i started internet service with comcast xfinity in Dec 2017 and provided 100.00 deposit plus charged 19.95 a month. I was promised my 100.00 refunded in form of check within 6 mos. (I never received this money) I called Xfinity and opened a complaint... I spoke with supervisor --- christine employee # 66: located with 3rd party company working with comcast. I was told by Christine that 100.00 will be issued within 4-6 weeks. She gave me a ticket # (b) (6) for 100.00 refund.... I never received the check promised. In 2019 i started getting billed amounts over and above the 19.95 a month. Its been a billing nightmare and many calls were made to my Credit Card company to correct this overbilling..... i believe xfinity is taking advantage of seniors by not sending bills by mail. All their correspondence is thru one of their own email servers which was provided me when i started using the service. I didn't need or want an email address with them as i did not plan on keeping the service very long. I received several letters from my credit card company asking for paperwork which xfinity never supplies. (In Dec 2017 when i first received the service i was given someone elses receipt by the representative at the local office. Last week i went by the office to see if they could assist me with the billing fiasco and all they wanted to do was sell me a 19.95 service exactly like the one i got in Dec 2017. I believe that xfinity/comcast owes me everything they charged my credit card after january 2018 plus damages..... thank you and i look forward to your help with stopping this corporation from taking advantage of seniors by overbilling

please assist me with getting on the low income plan with xfinity for 10.00 a month thank you

Ticket: # 4103437 - Rural Access to Fire Island Pines

Date: 7/22/2020 11:47:54 AM

City/State/Zip: Fire Island Pines, New York 11782

Company Complaining About: Verizon Wireless

Description

Hello there,

We do not have stable internet on Fire Island Pines, making it extremely difficult for people to work from home during COVID.

Verizon will not place Fios in this community, even though they have done so in the western Fire Island communities. Additionally no DSL service exists.

There is a cell phone tower they is used for the community, however Verizon has strict data caps and rate limits on top of that service.

Verizon should remove those caps for that tower, given the Rural, remote nature of Fire Island pines so that users can leverage high speed data without fear of limits that they would reach in a few days with telecommuting, or have a clear plan on providing FiOS or DSL to the community.

Ticket: # 4103558 - deceptive billing charges

Date: 7/22/2020 12:10:39 PM

City/State/Zip: Cherry Hill, New Jersey 08003

Description

Hi, I have cell phone service with Tmobile in the USA, my # (b) (6). I am stuck in Argentina due to COVID pandemic. I have been receiving charges from calls I have not made, to a recurring number, as follows : # 805-637-7249, 805 is a California area code, the charges referred to calls "from Argentina to Canada", I spoke to Tmobile who kindly erased the charges, but they continue to appear month after month. Somebody is taking advantage of a situation here. I do not answer any calls from numbers I do not recognize, and even when I do recognize the numbers, I will call them back on Skype, WhatsApp, messenger, FaceTime, etc, to avoid charges. I saw nowhere in the Internet that other people have had the same issue with this same number. Please look into it. Thank you very much for your attention to this matter, (b) (6)

Ticket: # 4103593 - COMCAST UNRESOLVED BILLING ISSUE**Date:** 7/22/2020 12:20:26 PM**City/State/Zip:** Salem, New Hampshire 03079**Company Complaining About:** Comcast

Description

Comcast has not resolved a billing issue to date. The issues began on 4/8/20. Comcast said a back balance on bill needed to be paid in order to avoid a service disconnection. We paid the \$205.81 that they asked for over the phone. That was only half the bill but was what they asked for. Going forward, I was told by rep that the account was enrolled in the Xfinity Assistance Program and that internet would be free during the pandemic and that they were working on additional things to help customers during this time. When a new bill arrived the following month I called again as there was no reductions in any of the fee charges as I was promised. I spoke to 2 different reps on 5/18/20. I was told that the system did not enroll the account into the program but that starting that day (5/18) the service went over to the "Xfinity Assistance Program". She further indicated it would only be the slowest internet speed and phone. She further stated it was a program to help those who fell behind on their bill and that they would stay connected and not be shut off. She said that this was until "further notice". We then got another bill which again showed NO REDUCED FEES for services. Comcast continued to bill for full monthly services of approx. \$206.00. I then made yet another phone call on 6/26/20. A rep did research while I was on hold and contacted her supervisor. They spoke of giving what they referred to as an "Amnesty Credit" for the prior month. She promised a call back but I never received one. I then called again on 7/2/20 and the rep went as high as a supervisor. She called back and her message indicated that Xfinity was going to make an adjustment to the bill retroactive to 4/8/20 when the account should have been under the "Assistance Plan" all along. The rates explained to me amounted to approx. \$41.00 per month vs. what he was being charged (\$206.00). The supervisor then called back the next day and spoke to me but now her adjustment details differed greatly from the message she left the evening before. She left off that she would need to speak to another department but they were closed that day due to the holiday and she would call me the following Monday after she contacted them. She called me again on 7/6 and now the only adjustment we would get retro to 4/8 was \$60.00 but she could not explain how they came up with that figure. I asked her if she could look further into it and she said she would confer with her supervisor and I would get a call back in 1-2 days. The call never came so I called yet again on 7/20. I again explained everything all the way back to 4/8 and that we should have been in the "Xfinity Assistance Program" all along and she saw that they had just enrolled the program as of 7/3/20. She kept saying he was taken out of the program 4/8 when he made a payment of \$205.81. But yet every time I called I was told he was supposed to be in the program! She said she would have her supervisor call me back within a half hour. I received no such call... At the very least I would like Xfinity to re-calculate the charges starting 4/8/20 until 7/3/20 and apply the Xfinity Assistance Program rates. This should have already have been done. Each time I call I am on the phone no less than an hour and I shouldn't have had to make this many phone calls. I feel Xfinity does not have their act together. I understand they may have had good intentions in trying to help people during the pandemic but this has been an epic fail on their part since April! I refuse to call Comcast as I get absolutely nowhere with them. I have to get this to the next level for a resolution. I appreciate any assistance that can be offered.

Ticket: # 4103607 - COMCAST TOOK MONEY ON MY BANK ACCOUNT WITHOUT MY AUTHORIZATION

Date: 7/22/2020 12:25:23 PM

City/State/Zip: Milpitas, California 95035

Company Complaining About: Comcast

Description

Ticket: # 4103712 - AT&T No Availability

Date: 7/22/2020 12:44:56 PM

City/State/Zip: Mountain View, California 94043

Company Complaining About: AT&T

Description

The consumer wants to file a complaint against AT&T.

The consumer states they shut her phone off yesterday.

The consumer needs her phone back on.

The consumer states that she can barely pay the \$200 monthly bill and now they sent her a bill for \$900.

The consumer does not owe that amount to them.

Consumer wants credit for the days she is going without service.

The consumer states that she had just gotten a replacement phone and she sent the other one back and told her they would credit her account so why is she being billed that much.

The consumer also states that they were to keep services on and not shut them off during COVID-19.

Ticket: # 4104024 - outgoing calls on caption phone

Date: 7/22/2020 1:44:38 PM

City/State/Zip: Port Saint Lucie, Florida 34983

Company Complaining About: Xfinity

Description

this is an addendum to ticket # (b) (6). I CONTINUE TO HAVE PROBLEMS WITH MY OUTGOING CALLS TO PEOPLE on my caption phone as well as other normal phones in my house. People who I call complain the static is so bad, also my voice cracks up and finally gets lost to them..Comcast has called me and all they do is ask me to go through the whole problem again!!!!!!!! I told them all they need to do is read the account!!!we are in our 70's and we will be stuck trying to set up new modems and boxes which we dont know how...they WILL NOT SEND ANYONE TO HOUSE claiming covid. My husband almost had a heart attack after 10 days of trying to deal with them and now they just call again to claim they are following up with the complaint I submitted to you and ask me to go THRU THE WHOLE THING AGAIN!!!! I cannot do that....I am as well as my husband cannot be submitted to this MENTAL TORTURE anymore...THEY ONLY NEED TO LOOK AT THE ACCOUNT AND FIX THE PROBLEM!!!! they are stealing my money by charging me for service I dont have!!!! PLEASE PLEASE PLEASE DO SOMETHING WITH THESE PEOPLE!!!!!! They need to send a tech to the house to resolve!!!!!! I keep telling them in the beginning of the day the phone is ok and as the call goes on the static builds and then my voice cuts out to others then finally disappears completely to them...they are saying hello hello hello I cant hear you.....yet I hear them.....PLEASE DO NOT MAKE US DEAL WITH COMCAST VIA PHONE....PLEASE PLEASE IF YOU HAVE ANY EMPATHY HELP THIS 70 YEAR OLD COUPLE WITH THIS EVIL COMPANY AND HAVE THEM SEND A TECH TO THE HOUSE CONFIRMING VIA EMAIL!!! thank you for your help.....

Ticket: # 4104101 - Unconscionable rate increases at this time of financial struggle.

Date: 7/22/2020 1:59:31 PM

City/State/Zip: Renton, Washington 98058-2824

Company Complaining About: Centurylink

Description

A settlement has been proposed in a class action involving the billing practices of CenturyLink. The settlement is a \$15.5 million fund.

I recently received a notice from CenturyLink informing me of rate increases. I am horrified that this company would entertain rate increases when people are struggling financially.

I pay 3 x more per month for my internet access than I do for my health insurance premium.

It seems that this rate increase might in part be an effort to recoup some of the money they are required to pay out in the settlement.

There are restrictions in place to protect people from for example; eviction - due to financial circumstances directly related to Covid 19.

Shouldn't protections also apply to price gouging from companies like Century Link, on whom the public is increasingly dependent at this time?

In the educational arena, because of Covid19, where schools and students may be more dependent on the internet, it is unconscionable that CenturyLink would capitalize on its position as an internet provider, and add more financial hardship to its customers and the public at large. Please ban and/or reverse rate increases by internet providers. Thank you. (b) (6)

Ticket: # 4104108 - Monopoly YV

Date: 7/22/2020 2:01:23 PM

City/State/Zip: Loganville, Georgia 30052

Company Complaining About: Apollo

Description

Apollo purchased a large part of Cox Media and is pressuring DISH to raise prices for news stations all over the country. In addition it has removed NFL. This looks like an attempt to put DISH out of business. Apollo's ABC recently showed an entire campaign speech by an elected official that lasted 30 minutes without giving equal time to the opposing candidate in Atlanta. Trump's speech a week ago was clearly a campaign speech and other stations only showed a short clip that was actually news. I also emailed ABC Atlanta to complain that some of the campaign ads they were showing were not factual and I received no response from them. They continue to show campaign ads that are sensationalizing with false information. Some are racist in their implications that BLM protestors are anarchists. This is unacceptable and not journalistically appropriate to show during a news cast even if it's as a commercial. I am currently on hold with Apollo to express my concerns and it has been 10 minutes so far. I called DISH and asked if there is a local nonprofit news station they can replace that does fact checking. I am also writing you a SECOND time to express to you in the strongest way possible that Fox is NOT news it is propaganda and it's license should be revoked. At the very least networks should be required to read and show a statement saying that "the following program is not news and has been cited repeatedly for pushing false information ". It is unacceptable for you to continue to ignore this situation. Fox is largely responsible for perpetuating fake information and endangering public health which is grounds for REVOKING THEIR LICENSE in relation to fake information repeatedly touted about COVID but also fake information about racism, discrediting anti racist protests that are peaceful, promoting fake Antifa narratives, and ignoring the racism public health crisis, as well as pushing fake information and denying the public health crisis of climate change. This is unacceptable and people have and will continue to DIE because of their fake news. It is unacceptable to fail to revoke their license. This is not a time for second chances. I want to turn on a different news station and see that Fox is no longer carried on any TV station. I have a BS in Journalism and when I got my degree journalism had ETHICS. I am also WHITE and deeply concerned about racism. Please act quickly to censor Apollo. As a hedge fund it is a conflict of interest for them to own TV stations if not legally then ethically and for the good of the nation. Correction they are a private equity fund. My complaint is NOT about DISH which is an excellent company.

Ticket: # 4104182 - Removed my Home Security without Informing Me and Will not Add Back

Date: 7/22/2020 2:15:15 PM

City/State/Zip: Johns Creek, Georgia 30097

Description

I have Comcast/Xfinity as my cable, internet and home security provider since 2018. Few months ago I called to change my package. In the process they have canceled my home security service which I found out a month later via a mail. I called them but they informed they cannot add that service due to Covid. They said they will contact me once security service is available. This is the time we need security more than ever yet they are non responsive. On top of that they are charging me for security control unit. Their mistake is causing security issues for my family. Who will bear the responsibility if something happens to my family?

Ticket: # 4104453 - Iphone security system FAIL

Date: 7/22/2020 3:08:42 PM

City/State/Zip: Naples, Florida 34109

Company Complaining About: Verizon Wireless

Description

Iphone prides themselves on their security system but it is nothing but a scam to keep you buying apple products. Their security system is as useless as their latest phones.

Today I called apple support with suspicion of my phone being hacked as the apps were opening and closing automatically. When I opened the text message app, old messages would open up and close automatically and the keyboard would not let me type as the screen either would not be responsive or other random letters would type.

I called the apple support center to see if they can tell if my phone has been hacked and to maybe do a factory reset on my phone. I, unfortunately, have forgotten my Apple ID password and I kept telling them that I don't have any other Apple products to help reset it. I figure a company as big as Apple would have additional security measures to aid customers who don't have additional apple products, but unfortunately I was wrong.

I spoke with supervisor Alissa who was extremely far from helpful. She kept repeating she understands my frustration but she didn't as currently my phone is extremely important to me and if I am being hacked, to me its a big deal. This manager did not provide any type of solutions and kept pushing on trying to reset the Apple ID password, even though I told her that I have apple care and it should cover a new phone. It seems apple personnel is trained to push mild repairs in order to avoid phone replacements at all, even though this is what's promised when apple care is purchased.

After a whole hour and a half wasted with apple support, I told Miss Alissa that I want a new phone and that's my right since she has seen the phone is non-functional as she has observed after taking visuals of my phone and she has confirmed I have AppleCare active. This manager was adamant that I need to reset the Apple ID first before anything and that since all apple stores are closed right now there isn't a way to fix this physically. This to me is laughable, it is unbelievable that a company of the size of apple don't have in-person customer care and have not strategies a better plan to take care of their customers during this pandemic.

The best solution this manager could provide to me its an appointment on Saturday, July 25th at 2 pm. Not a day or two after but three days after and 12 miles away from my home. Up to this point I don't know if my phone is hacked or not due to the poor service that apple has to offer.

Case number - 1(b) (6)

Highly dissatisfied with apple and I can confidently say - APPLE NO MORE --

Ticket: # 4104547 - Xfinity misuse of Lisc

Date: 7/22/2020 3:29:27 PM

City/State/Zip: Bokeelia, Florida 33922

Company Complaining About: Comcast

Description

Xfinity is forcing modem changes with existing customers when modem is not specifically identified as the source problem for connectivity drops, Xfinity replacement modems arrive with LESS capability (without warning) then ones being replaced but SAME price (Bait and Switch?). Xfinity replaced my modem and now I have LESS capabilities AND I still have intermittent service drops (so replacement probably wasn't even necessary), we still experience many connectivity drops per day even after technician installed new modem yesterday. Xfinity now wants to charge me a NEW SERVICE FEE to get a new technician out (and solve problem they never solved) and Xfinity is now using Covid as excuse why technician cannot come out which is a blatant LIE as technician was fully able to come out yesterday to install the modem they clearly want in my house and I did not ask for. Lastly many other on my same street are not getting consistent internet that they pay for. I have advised Xfinity that they have put me and family in a position in which I must pay for a second carrier just to be able to get work / internet related activities done reliably. Xfinity promised during my service telephone calls they would address my issue but they have NOT. Lastly they did not send me a survey (after my call) as I agreed to while waiting to talk to a technician, so I suspect they have a clear way to skew their customer satisfaction results. All of this is allowed to happen on the back of a Government Lisc that the FCC grants them and I am asking the FCC to pull their License

Ticket: # 4104743 - Surcharges by TMobile when trying to use freeconferencecall.com number

Date: 7/22/2020 4:05:28 PM

City/State/Zip: Bayonne, New Jersey 07002

Company Complaining About: T Mobile

Description

TMobile is charge a surcharge of \$.01 per minute when I use my freeconferencecall.com number. There is a message that the phone number is outside of my calling plan but i have unlimited calling in the US and the number is a South Dakota area code. The number that I am calling is 605-472-5379. TMobile should not be allowed to charge a fee to call this number. This number and freeconferencecall.com is very important to maintaining social distancing during the pandemic. The company charges nothing to use the number. TMobile should not be able to charge either. Freeconferencecall.com is free to use. TMobile shouldn't benefit.

Company Complaining About: Verizon

Description

She has issues with Verizon; phone, internet and TV. Her home caught on fire in 2/19. Verizon was to cut off her service on 3/19. They didn't and now there is the pandemic. They are charging her \$210 per month.

They say they put service back on in a home that there is no home. Resolution the caller seeks is for Verizon to stop billing her. ***CTR386-phone***

Ticket: # 4104932 - Billing Issue**Date:** 7/22/2020 4:50:04 PM**City/State/Zip:** Haverhill, Massachusetts 01832**Company Complaining About:** Sprint

Description

On July 22nd 2020, I visited the Sprint store in Peabody Massachusetts at 232 Andover St I spoke with a man named Daniel about my bill, that his store had filed an error on. On June 11th 2020, I ordered and paid for a brand new iPhone 11 in full with a debit card - I paid the total amount for the equipment and the tax. an employee at the Sprint Peabody store entered in our fully paid phone as a credit to my bill, thus making my normal phone bill of \$186 to \$0.00, making me unable to pay. When I saw my June 2020 phone bill as 0.00, I contacted Sprint with no help. My July 2020 phone bill was now \$373 - double what I normally pay, because of an employee (Kelvin Aguirre) coding the payment for the phone incorrectly as part of my bill payment. I called Sprint again who then told me I had to drive to the Peabody store, during a pandemic, and ask them to fix the error. That leads us to today, July 22nd, and my interaction with Daniel and his manager, Joshua. After explaining what happened to Daniel, he decided to tell me verbatim "I ain't dealin with this anymore" and took off his name tag and left me on the sales floor; his manager, Joshua, took over while Daniel smirked and walked away. I was then told there was nothing they could do for me, even though this error occurred at their store. There was also no inclination that Daniel would be reprimanded for his unprofessional behavior, either. I was directed to their financial number, and called and spoke to a woman named Taylor, who admitted that the Peabody store made an error that left me unable to pay my June bill, and that they were sorry and it WAS THEIR FAULT! Now, I am left with a hefty bill during COVID-19 and an extension to pay it ! I want the month of June waived for me for the bill or a credit of \$186.

Ticket: # 4104992 - Additional charges and using Covid-19 to take advantage

Date: 7/22/2020 5:05:39 PM

City/State/Zip: Nashua, New Hampshire 03060

Company Complaining About: Verizon Wireless

Description

Verizon wireless are adding customers to the COVID-19 impact program without consent. Where we are seeing additional deferred balances added onto our bills. In my case I received an email saying I signed up for the COVID-19 assistance in March at the end of June. I never did. I noticed an additional \$380 deferred balance was added to my account when all my bills are paid fully, so the \$380 was an additional from somewhere they can't explained . They kept arguing saying I signed up for it and won't listen. I called multiple of times . I reached out to other Verizon customers and they said they are experiencing the same thing and Verizon won't reverse it. They can't explain these additional charges even when they see that my payment history was all paid in full. I find this as concerning as it is not dollars amounts but hundreds of dollars at a time like this. Especially lying and telling consumers " well we have in our notes you signed up for it so you can't dispute that" when we ourselves know we didn't. What's also concerning is they're saying we can't dispute a near 400\$ amount that was added on to the bill when all bills are paid in full and nothing was missed and we should be paying this unknown amount ? This is unacceptable.

Ticket: # 4105009 - Fradulent Cancellation of services

Date: 7/22/2020 5:09:07 PM

Ticket: # 4105041 - Fixed Broadband Internet Monopoly**Date:** 7/22/2020 5:18:33 PM**City/State/Zip:** Tampa, Florida 33647**Company Complaining About:** Spectrum

Description

According the US Census Bureau, my area has about 70,000 individuals of which is part of the larger metropolitan area, of Tampa Bay, with an estimated 3.1 million people as of 2018, and only has has one internet service provider, Spectrum, which limits my internet service provider options. This company has a fixed broadband monopoly in my area. Furthermore, if Spectrum is allowed to set data caps, I do not have an option to find cheaper fixed broadband service, reflecting a serious fixed broadband monopoly in the area which is not uncommon to hear of for ISPs. We cannot allow a fixed broadband monopoly, which is already illegal, to have more chances to profiteer in this area and should not be allow to set data caps during a pandemic since Spectrum would like to do this according to PETITION BY CHARTER COMMUNICATIONS, INC.TO SUNSET MERGER CONDITIONS WC DOCKET 16-197. The Spectrum representative who contacted me tried to convince me they do not have monopoly after I told him I had researched other providers like Frontier, FIOS, etc. and confirmed they do not service my area and said I should be glad that Spectrum/Charter put cables to service my area, as if I should be thanking Spectrum for being a fixed broadband monopoly in a major metropolitan locality.

Ticket: # 4105072 - Suddenlink Billing and Outages-Fraud Charges**Date:** 7/22/2020 5:29:21 PM**City/State/Zip:** Minden, Louisiana 71055**Company Complaining About:** Sudden Link

Description

In January of this year our home was hit by a tornado and our Suddenlink service was taken out. It took three months for the service to be restored and I was billed the whole time. I tried at least 20 different times to get the charges corrected as the service didn't work. I was threatened with collections so I paid \$140 on something that didn't work. We closed the account and tried starting over under my husband's name, hoping to avoid more issues. Now the service has been down for days with no explanation and of course we are still being billed for it. Suddenlink is the only WiFi provider in our area so we have no choice but to use them. I home school and aside from the constant headaches dealing with Suddenlink, the financial loss (\$200 total so far) and poor service, I cannot use online classes for my 7th grader during a pandemic. Our entire city of Minden, Louisiana has terrible service and everyone complains about being billed for services that don't work. Our local office was closed and the next closest office only says to call the 800 number. We get hung up on or sent to person after person, never any resolution.

Ticket: # 4105101 - Distruption in Internet service. XFINITY want to charge me for the technician to troubleshoot my connection till the entry point into my house

Date: 7/22/2020 5:42:58 PM

City/State/Zip: Spring, Texas 77379

Company Complaining About: Comcast

Description

XFINITY Account # (b) (6)

Property Address: (b) (6)

Called XFINITY customer service for continuous disruption in Internet service at my home. On line representative said that he does not see any intermittent issue with my connection. When I insisted he said that due to COVID and regulations placed by authorities due to COVID they are only answering service call with high priority. I disagreed with the XFINITY and told the rep that if tech does not want to enter my home that fine, let him check the connection to my home's entry point. XFINITY rep told me that there will be a service charge for the tech to come out.

How XFINITY can change a customer for troubleshooting their own service line which they are supposed to check and maintain.

I am complaining about un lawful ask by XFINITY to pay them for troubleshooting.

Ticket: # 4105115 - High charge on Cable & Internet service

Date: 7/22/2020 5:45:00 PM

City/State/Zip: San Angelo, Texas 76904

Company Complaining About: Sudden Link

Description

I got a high bill from my cable & internet provider, Suddenlink, when I do not think my routine or my usage of both services has not changed. I do not understand why bill went so high. I have contacted their customer service and it looks like the usage went up in end of Feb/March when COVID-19 hit. Again I do not believe my household usage has change for my bill to go up so much. When I had made changes to my plan I tried to cancel cable and only have internet, but they kept insisting my best deal was to keep local channels and internet.

Ticket: # 4105187 - Century Link Internet service

Date: 7/22/2020 6:01:51 PM

City/State/Zip: Chandler, Texas 75758

Company Complaining About: Centurylink

Description

I have been without internet for 2 days and will be without for 10 days. i work from home and must have internet to do my job. I have called a minimum of 5 times and hung up on three separate occasions even after they called me at 3:36am to tell me my issue had been resolved in which it has not. They state the earliest they can get to me is July 30th. That keeps me from working for 10 days. I have tried to escalate due to my desire need to work but again they tell me it cannot happen. During COVID lots of people are working from home and depend on the internet and they should have escalated by service order so that I can provide for my family and pay my bills.

Ticket: # 4105289 - COX COMMUNICATIONS FRADULENT BUSINESS PRACTICES**Date:** 7/22/2020 6:42:57 PM**City/State/Zip:** Glendale, Arizona 85304**Company Complaining About:** Cox

Description

I have been a Cox Communications customer for approximately ten years and have paid them an exorbitant amount of money over the years. They have held my services hostage causing me to pay their fraudulent billing. My latest issue is due to more fraudulent billing practices. In October, 2019, I changed my rate from \$400 a month to \$105.54 per month. Cox never corrected the billing and I kept being charged the higher rate. I have spent countless hours, days, months trying to fix but they refuse to do so. At some point I was told that Cox records every phone conversation so I requested that my call logs be pulled to prove the requested rate change. Conveniently enough, COX could not find the call where I made the rate change. I find this hard to believe. Further, they sent a tech out in November to install the new Modem reflective of the change. It goes without saying Cox does not install new Modems without changing account services. Further, after my services were held hostage in January, I paid COX approximately \$500 to keep services on. After I made the payment, THEIR OWN WEBSITE listed my monthly rate as \$105.54 (not the \$400 they kept billing me at) and the services I received were to the left of the monthly rate (copy of screenshot attached). I have spent this entire year and some of last year (2019) trying to resolve this issue and have called and sent emails to COX' president Pat Esser, all to no avail. My services are currently suspended in Arizona (highest number of COVID deaths in the nation and they do this to me -nice, right?). I need my service rate to accurately reflect \$105.54 since October, 2019 and all monies applied since that time to be applied for the monthly rate and my services turned back on as I should have a credit with them not owe them money! COX feels they can push me around because are the big bad company and I am just one person. This is not fair and their business practices are fraudulent. I have exhausted all means at resolving this issue directly with COX and want a formal investigation to be conducted by the FCC against Cox Communications. Thank you.

Ticket: # 4105302 - COX COMMUNICATIONS FRAUDULENT BUSINESS PRACTICES**Date:** 7/22/2020 6:45:10 PM**City/State/Zip:** Glendale, Arizona 85304**Company Complaining About:** Cox

Ticket: # 4105333 - Internet capacity

Date: 7/22/2020 7:03:34 PM

City/State/Zip: New London, Minnesota 56273

Company Complaining About: Tds

Description

We live in New London, mn just 3 miles out of town and only 5 miles from a tds office center. We have had constant issues with our internet speed. The local technician comes out here often and has informed us we don't even get the speed we are paying for the majority of the time. Tds has been investing in this rural community all over to get new customers and revenue but won't invest in upgrades to its current customers that have no other option for internet. I am now outraged that this company is not even giving its customers the speed they are paying for on a consistent basis. They need to be held accountable and make sure they are not just focusing on new revenue but the customers that they have had for years. During a global pandemic this is our livelihood and everything we do depends on the internet. I have been renting a modem for years so the one good technician they have swaps out the latest and fastest modem when they come out because he feels bad for us. Unacceptable... They need to upgrade and invest in all their customers.

Ticket: # 4105496 - No internet for a month.

Date: 7/22/2020 8:27:02 PM

City/State/Zip: Greenville, North Carolina 27834

Company Complaining About: Sudden Link

Description

My wife and I have not had internet for a month; we have had 3 appointments (first, 7/8/20, the technician was hours outside of the appointment window and said cables were improperly installed and he needed to return; second, 7/17/20, appointment date to install said cables was altered without notice; and third, 7/22/20, a 10-hour window was given where the technician was no call/no show after multiple times calling to confirm. We were unable to reach a representative via phone) and now 3 full days were taken off of work (both of us are essential workers in the healthcare and pharmaceutical fields during the pandemic, so this was difficult and costly). Customer service is a dead end (we've called almost daily with little to no luck reaching a representative). We pay for 100 Mbps (\$99/month) and for the last month have averaged 50 Kbps, at least when we've had internet. Additionally, we are both in graduate school and cannot submit our completed homework from home, instead having to spend long stretches of time at local restaurants for their wifi, which limits our ability to safely social distance. We just want the issue resolved where we can access internet speeds that we pay for, and for our last month of services to be refunded, as well as the time we took off work to be reimbursed, especially considering we will now most likely have to take even more days off.

Ticket: # 4105612 - Upload speed failing

Date: 7/22/2020 9:45:40 PM

City/State/Zip: Reseda, California 91335

Company Complaining About: Spectrum

Description

My internet upload speed is dropping to detrimental levels at totally random times and increments resulting in instability and even frequent disconnects of my live streams (which I now do for a living as a result of covid-19). I've had over 3 technicians come out to resolve the problem to no avail and it is now affecting my income and how I make my living.

Ticket: # 4105645 - Suddenlink

Date: 7/22/2020 10:38:04 PM

City/State/Zip: Charleston, West Virginia 25311

Company Complaining About: Sudden Link

Description

Customer for 20 years. Regular internet outages. Called for service correction a week ago. Scheduled tech Was supposed to be here between 8-11 Tuesday. Never arrived. Spoke to 3 agents and a supervisor to find technician enter in log wasn't home at 8:06am. We are in the middle of pandemic office is closed, I was home, no one came. Was promised a tech next day but given an 8a-8pm window. Never arrived, no one called. I called after 1 hour & 15 minutes on hold I was told tech rerouted and the earliest I could get a tech is a week from now. I can't go to the office, it's closed due to the pandemic and I can't work due to no internet that I pay out every month to keep.

Ticket: # 4105678 - Comcast Xfinity

Date: 7/22/2020 11:42:55 PM

City/State/Zip: Atlantic City, New Jersey 08401

Company Complaining About: Comcast

Description

My complaint is with Comcast Xfinity . On September 6, 2018, I called because I was coming back to my apt after being away for over 5 months due to an accident. I was going to have surgery on the Friday the September 7, 2018. I spoke to an operator and they had me pay my bill from my original bill in full and opened a new account. I owed a pass bill because as I stated above I was not in my home for over 5 months. Upon opening my account they had a promotion that came in my mailbox for 79.99- Select Tripleplay which included Free installation, phone, internet with up to 150 mbps (which it only went to 79mbps at the height of its usage(didn't complain), and tv with 210 channels. They waived the 100.00 deposit and told me the man could not come out to install till the following week. I stated I was having surgery on September 7th and comcast made me the offer to pick it up in the store and any problems I still had the free installation for the serviceman to come out if need be. Upon completion of the order they sent me a "Review My Order" form to insure what I was signing for and the I authorize the promotion. I was charged 99.99 + tax and fees for 12 months. I should have been charged 79.99 + tax and fees, thus why the complaint is being made. Let me state that I have tried my hardest to resolve this issue even explaining it to a debt collector they had call me and she took my statement and was going to speak to Comcast. I never heard from her again.

Over the next 3 months, from Sept 2018-Dec. 2018 we had several problems of overcharging, of which all were addressed, I thought= please remember that during this time I am still in the healing period of a very serious surgery. They charged me for 2 phone lines-(609-541-2106 /609-246-6280) and I only had one phone line, they charged me for an installation fee, which was supposed to be free-again they removed it. Because I had to make numerous calls over the next 3-4 months, they gave me HBO and Cinemax free(of which they never connected). Comcast operators kept mixing up the accounts and I spent many many painful hours on the phone discussing the problems and having most of them addressed. I gave up on the premium channels because after trying to access the channels and receiving an unauthorized user message and, speaking with the operators only to find out the information was not added to the notes.

Around May of 2019 I noticed that they had been overcharging me 20.00 per month. I called and tried to get it resolved and to know avail I kept running into long over one hour and more in time on the phone between operator and different departments. I was still healing from my surgery on my hand from September, so I was unable to handle my bills effectively without assistance. Someone else was assisting me, since I was not able to still use my hand from surgery. I called again in August to try and resolve the issues and I paid my last bill to them in September still with no resolve and stating I needed to be reimbursed for the overcharge in each conversation receiving no resolve. A man came in a truck in November to pick up the equipment.

Upon receiving my final bill I noticed that the were still requiring one month in advance, a early termination fee, late fees and all types of other charges. Still charging me the 99.99 for the Triple play when in fact I was supposed to be charged 79.99. During this pandemic I have tried to resolve the issue, but the two supervisors it escalated too, stated they were only able to give me 80.00 credit they weren't allowed to go back more than four months. One operator recently told me I had three months to notice the mistake, well I explained I spent those three months cleaning up other issues along with the rate as I stated above, I was recovering from a surgery.

I recently spoke with several operators again, spending over 2 days and 3-4 hours total..at one point on the phone for 1:25:03 (I took a picture because I couldn't believe it)and each one had a different story. One guy even went as far as to tell me "they have things and discounts on their side that the customers don't see on the bill, but is discounted on my bill". His exact words. I replied, then how would a customer know they are getting discount, that doesn't make sense. He finally agreed and forwarded me to what was supposed to be a supervisor. This was one of my last conversations with this company. I have talk to a supervisor who said she would take off 80.00, of the 20.00 overcharge which should be 240.00, that's 20.00×12 =the cost of the monthly overcharge and the early termination fee of 120.00. that would bring the 489.97 bill. If you subtract the over charge and the early termination fee = my balance should be 129.97 and that is according one of the totals they gave me. I have received several totals from different people. I am attaching a copy of the "Review My Order", which shows they had me in a 79.99 Tripleplay package and were overcharging me.

While this sounds quite extensive, this is just the tip of the iceberg of all the people who were involved. I have been with this company since it was Sammons cable in our area. Thank God I had a hotspot on my phone so my grandson could complete his work for school of which he received all kinds of honors, to think that during a pandemic I have to have such poor service and not reach a resolution for a customer who has been with this company through all the name changes for over 40 years is quite disappointing. To think I have to speak to someone at the top because no would could resolve a small problem. You owe me the 20.00 overcharge for the months that you charged me which is 240.00. We qualified for Internet Essentials and could not even take advantage of the program, because there were no qualifying supervisors to resolve the issue. How is I have to pay Comcast their money but only have to pay me 4 months of my money.

The supervisors have several times admitted they overcharged me,, but they all say they can only give me 4 months credit. I want my full 240.00 credit and the early termination fee refunded. I am willing to resolve this bill with a 129.97 final bill payment and the ability to access internet only service, which their present offer is 49.99 Performance Pro+ deal with 200 mbps, as I dare venture down tv since such nightmares have incurred. This is the only resolve I should have to take and it is unfortunate that I have to go to such levels to resolve something that could have been done effectively and efficiently over the phone or in the offices-which also stated they don't have the power to give me the credit that I was overcharged. All this through a pandemic. It caused me loss of work because I cant work online without a stable internet connection. It is such an inconvenience when all they need is good customer service agents that are given the ability to address critical calls for longtime customers. Comcast Xfinity whatever you call yourselves now should be better prepared with giving customers service. I hear it all the time from my friends, especially those who open up Summer homes..they spend the winter trying to straighten out the bill. You have got to do better. You are charging huge fees, with huge fees should be good service. And the nerve of a longtime customer to have to contact you about 240.00 that you owe me. You want your money,so why shouldn't I?

Ticket: # 4105697 - ViaSat Service -- Dealing in Good Faith?

Date: 7/23/2020 12:23:04 AM

City/State/Zip: Rescue, California 95672

Company Complaining About: Viasat

Description

ViaSat services significantly under perform what they advertise. "Up to speed" does not provide the Company the freedom to deliver consistently less than 50% of their advertised speed. Further, their service speeds are inconsistent over the day, and even show variances in excess of 150% during a download.

Their sales process is less than clear regarding re-prioritizing traffic, when one exceeds the low data limit of 100 GB/month. There is no mention made, nor even implied, they reduce your speed up to 90% once you exceed the monthly "soft data" limit. This is a significant term of sale they neglect to mention.

Despite numerous calls and attempts to resolve performance issues, the only noticeable change is the performance continues be inconsistent and on a downward trend.

When one has to work from home, and has children participate in remote learning, their continued poor service, and unwillingness to improve the service, brings into question whether they should continue to be considered as a viable, reliable commercial provider of internet service.

We have been a customer for over two years, and have enough evidence for a reasonable person to conclude, ViaSat has not dealt with us in good faith, and has not provided any evidence to the contrary, to indicate their behavior and service will change in the future.

The increased reliance on internet connectivity to perform basic remote work, has shown the light on poor service and lack of accountability of this ISP to its customers.

It is time for the FCC to hold ViaSat accountable to improve their service. ViaSat's continued poor service likely undermines individuals, and their organizations, ability to engage in commerce, not only during this pandemic, but into the future as the remote workforce increases. Their poor service also likely undermines other essential internet-dependent activities; e.g., remote learning for our children, as this activity is likely to continue to increase.

Ticket: # 4105700 - Comcast Data Cap

Date: 7/23/2020 12:24:42 AM

City/State/Zip: Coconut Creek, Florida 33073

Company Complaining About: Comcast

Description

Comcast, my internet service provider, implements data caps and overage fees for going over their arbitrary data limits. In the midst of a global pandemic they seek to profit from simply using the Internet "too much". Data transfer isn't a finite resource like electricity

Ticket: # 4105722 - Internet

Date: 7/23/2020 12:55:56 AM

City/State/Zip: Tenaflly, New Jersey 07670

Company Complaining About: Optimum

Description

Hi. We have extremely terrible internet service. It is extremely slow and we get kicked off sometimes. We have three kids and both of us work. It is extremely difficult for our kids to have virtual school. Please help us put pressure on Optimim, which is our only choice basically. This has become as basic as food and water in this new Covid world and beyond. Thank you!

Ticket: # 4105761 - ATT Circuit issues not resolved in reasonable time frame

Date: 7/23/2020 4:47:35 AM

City/State/Zip: Roswell, Georgia 30076

Company Complaining About: AT&T

Description

I called AT&T on Monday July 20th to report massive, frequent, repeated circuit flapping on my service that were preventing me from using my TV and Internet. When I first called, the automated system stated my upload and download speeds were fine (even though I had no service). I then called and got to a live human and explained the problem. After running multiple tests, they concluded it was my modem firmware. I tried to explain multiple times that this was not the issue and could not be the issue. The agent sent me a new modem which arrived on Tuesday. I swapped out the modem and waited until morning. On Wednesday, I started having the issues again. The automated system again declared my internet fine during the outage. I finally got back to an agent, who told me the soonest they could send someone out was on Friday at 4PM, resulting in 2 days of downtime. I repeatedly explained, attempted to escalate and get them to send out a tech to fix the issue. These attempts were unsuccessful. So now I am left with 2 days of issues. This is a serious issue with AT&T not being able to fix outages and issues in a timely manner.

This needs to be fixed. When a user has an outage, and knows what they are talking about, they need to be able to get to a human being who can get a human being to come and fix the problem. I work from home due to Covid and this prevents me from doing my job.

Ticket: # 4105856 - HD Technology Fee \$10.00 per Month

Date: 7/23/2020 9:02:59 AM

City/State/Zip: Venice, Florida 34293

Company Complaining About: Comcast

Description

Contacted Comcast about why this fee has been charged when my community fees appear to include it. The representative didn't appear to understand spoken English that well, so I couldn't resolve this issue over the phone. Local offices of Comcast are also closed because of the pandemic.

Ticket: # 4105873 - disconnected billing issues and refusal of service.

Date: 7/23/2020 9:22:07 AM

City/State/Zip: Lufkin, Texas 75904

Company Complaining About: Sudden Link

Description

you all helped me out before at that time it was verified that I'm a authorized user. Jonathan ortiz spoke to suddenlink now since I'm questioning why am I being disconnected during covid-19 and why are we being charged late fees. Thay want to act like they have not spoken to me multiple times.

Ticket: # 4105951 - Optimum Billing Issues

Date: 7/23/2020 9:58:03 AM

City/State/Zip: Hampton Bays, New York 11946

Company Complaining About: Optimum

Description

- The consumer is calling about Optimum as his carrier
- He has a bundled package
- He states he was on seasonal package for \$30/month
- He states it goes back to full service in April
- He states he received a bill of \$200
- He reached out to the carrier
- He states he was not able to go back to that location due to COVID-19
- They advised they would put him back on Seasonal and give him a credit for this
- He called them in May when he was able to get to that location
- He states they did not restore his full service thy kept him on seasonal
- They advised he pay \$180 and then the credit they offered would kick in
- He then received a bill for \$500, they doubled his services
- He has reached out to the carrier multiple times
- The consumer wants the bill to get straightened out to the \$180/month with the promotions that he had
- The consumer also wants the credit that he was told he would receive

CTR405-phone

Ticket: # 4106049 - Dish Network Apollo Blocks Local Channels

Date: 7/23/2020 10:45:08 AM

City/State/Zip: Darlington, Pennsylvania 16115

Company Complaining About: Dish Network

Description

The consumer states she has Dish Network through satellite.

She states that when getting Dish they were promised their local channels.

Now she states that Dish took the local channels from her and it is unfair and an emergency situation right now during COVID-19.

She states that they told her Apollo blacked out stations because of an ongoing litigation whether DISH's carriage agreement for the Cox stations was prematurely terminated when Apollo acquired those stations.

The consumer needs refund for this horrible interference.

She is most concerned because she lives out in the country and they need the local news channels available to them.

The consumer is very upset and Apollo has no right to do this during a pandemic and DISH needs to fix this.

****CTR-415*****

Ticket: # 4106072 - Unreliable Internet Service Due to Spectrum Internet Service Monopoly - La Canada Flintridge, CA (zip code 91011)

Date: 7/23/2020 10:52:36 AM

City/State/Zip: La Canada, California 91011

Company Complaining About: Spectrum

Description

There is continued reliability, speed, and fair competition issues in La Canada as we are limited to one provide of real high speed internet access. In these pandemic times when everyone is highly dependent on reliable access it seems unfathomable that spectrum can not maintain services and when services do fail has no one competent to answer the phones. Today there was a clear issue on the spectrum end (see attached tracedrt). At first the agent tried to convince me it was with my computer, when he couldn't he told me he has no way of taking an outage/issue report and then hung up on me. La Canada needs more competition for high speed internet!

Ticket: # 4106089 - Unable to get Comcast at our location for Internet and Phone

Date: 7/23/2020 10:58:41 AM

City/State/Zip: Fort Myers, Florida 33905

Company Complaining About: Comcast

Description

Only can get Century Link as provider for internet/phone; Comcast wont come one street over to me unless i pay upwards of \$25,000. Need better internet for 2 children due to COVID home learning. Century Link can only provide me 8mb service & its too slow. This past learning school year my youngest had to move across town to his dads to get good internet to get school done & college student had to go sit in MCD parkinglot for free wifi in his truck to do homework. We need Comcast but they have told us for 4 years now they cant provide. Our neighborhood is fully developed and I know of 4 houses included us that will use them if they provide to us. Century Link is too slow out here, need something better for my kids to do online school due to COVID. Please help get Comcast with fast service to my street. I can't have my child not living at home and the other having to sit in his truck using restaurant wifi.

Ticket: # 4106110 - Radio stations having to change frequencies

Date: 7/23/2020 11:05:01 AM

City/State/Zip: Orlando, Florida 32836

Company Complaining About: Cox Media Group Wdbo

Description

Why does this have to happen? I have listened to WDBO 96.5 in Orlando for a long time. Now they switch frequencies and I have to go looking for them on the dial each time because they are not listed on IHeart by the same frequency. The same thing in my car. It's a mess. Why do you make them do it or is it their choice. I tried calling the front desk at their station but they have no one there to answer because of COVID-19.

Ticket: # 4106136 - Sudden Link Unreliable internet service/ COVID-19

Date: 7/23/2020 11:12:02 AM

City/State/Zip: Ashburn, Virginia 26386

Company Complaining About: Sudden Link

Description

Consumer states that at 9:15 am on the 07.23.2020 (b) (6) lost her Tv and Internet service. Consumer tried on calling the company consumer service and due to the COVID-19 they are not able to take her calls. Consumer wanted to report an outage and they are asking her to go online but she cannot go online because she does not have internet access. Consumer wants this to be fix immediately. Consumer cannot be without internet during this pandemic.

Company Complaining About: Verizon Wireless

Description

Mar 2020 added 15gb hotspot allowance for telework on my cell bill. Never ran over allowance. This month Jun 19/2020, get a warning that it is running out, 10% left. Shocked, I called requesting prior bills since Mar 2020 & usage up to the 19 of each month so I could compare. Verizon could NOT provide me this data. Called twice. I was told, I was given an extra 15gb hotspot usage for these months, because of COVID-19, that's why I never ran out. That promotion was over this month, so this is probably why I'm running short. I was never made aware of this. I assumed my 15gb that they sold to me in Mar was taking care of me, each month. They then proceeded to try, to tell me the extra 15gb. NO THANK YOU! This was the scheme all along. I referred back to my paper bills & noticed my bills are NOT itemized. They don't state data usage, mobile hotspot usage, none of that. Something that use to be provided in prior paper bills. I have been receiving paper bills for 10+ years, every year they REMOVE information. How can I monitor my usage if my bills are NOT itemized? Requesting 2 things: monthly itemized bills, with usage AND my prior 3 bills reflecting mobile hotspot usage up until the 19 of each month.

Date: 7/23/2020 12:31:34 PM

City/State/Zip: Ridgeway, Wisconsin 53582

Company Complaining About: Frontier Communications

Description

(b) (6) is filing a complaint for the following reasons, consumer states that on July.13.2019 she had an outage in her area that lasted for more than two months. Consumer was unable to receive calls and the area that she lives in is consider G4 hole where is dead for cellphone reception most of the time. Consumer had her husband waiting for a call from their doctor a life or death situation and they did not care and when she asked for the credit. They declined her request. Consumer also states that she had a package with AT&T as well for worldwide calling and Frontier is constantly calling AT&T to have it remove without authorization. They have done these three times to charge (b) (6) with their rates of international calling. Consumer is tired of this situation. (b) (6) is also stating that they keep charging her with late fees and she has only one line and she had another for free. The line that is free does not have any extras features just the phone and they charge (b) (6) like if they were both the same making the late fees \$90.00 per re-connection. These rates are extremely high, and she believes that she shouldn't be getting charger for both. Consumer WANTS a reliable service since she can only relate in her landlines for emergency. Consumer wants a credit to be issue for the two months that she was with no service last year. It was unbelievable the situation that her deceased husband had to go through during a time that he needed the most his landline for a call of an organ donation. (b) (6) states that during the pandemic Frontier interrupted her landline twice when they were on the FCC pledge of during COVID-19. Consumer states that because of the outages she was unable to pay her bill and they were going to charger her with late fees this month and she want that balance to be removed as well. Consumer wants a refund for the last year. Consumer has spent a lot of time fixing the situations that frontier has place her in.

Ticket: # 4106728 - Optimum Equipment and Billing

Date: 7/23/2020 1:22:14 PM

City/State/Zip: Ringwood, New Jersey 07456

Company Complaining About: Optimum

Description

The consumer is having issues with optimum Cable service.

He spend several hours on the phone yesterday to set up an appointment to drop equipment off outside and string up his cable lines outside.

They called him today to say they were canceling his appointment.

He states that its not the first time they push these issues off and they still expect him to pay his full bill.

The consumer needs them to come to his home, fix the lines and drop the equipment off.

The consumer needs credit to his account for all the delays that they are causing which is delaying his service.

The consumer understands with COVID-19 they don't want anyone in homes but they don't have to come in the home.

Company Complaining About: Comcast

Description

Comcast was replaceing underground cables in my community on 7/9. They cut my cables and I had no service for 4 daYS. CALL everyday to get someone to come and repair the problem. I had no TV, Internet, Phone during this pandemic. I felt like I was cut off from the world. Finally came on Sunday said someone had to come to bury wires and I need to get a signal from my neighbor. Tuesday they came to bury wires and they take down my neighbors service for three days. They are now working down the block from me and other are having this same problem. After replacing these cables service is worst than ever. I am retired from AT&T and find this kind of work TOTALLY unacceptable. One person at Comcast does not know what the other one is doing. Please HELP.

Ticket: # 4107373 - 4+ Month Long Upload Speed issue NEVER fully resolved. I want FIOS in my area.

Date: 7/23/2020 3:39:37 PM

City/State/Zip: Morganville, New Jersey 07751

Company Complaining About: Optimum

Description

I have been dealing with ongoing intermittent internet issues with Optimum since the pandemic started (back in April). This issue specifically affects my upload speed, in which throughout the weeks my upload speed would drop under 2 mbps for periods of time, making it extremely difficult to be able to do work on the internet which requires me to utilize my upstreams. I even submitted an FCC complaint all the way back in April regarding the exact same problem.

After being in contact with their corporate department, as well as multiple technicians who went to my home, my speeds continue to be severely inconsistent! I initially had an entire coaxial cable replacement, to eliminate any signal loss I was getting. However, that fix did not solve the upload speed drops I've been experiencing since the very beginning. Afterwards, the additional technicians who came to my home evaluated that all my equipment in my house and outside should be working fine, and that the problem lies on Optimum's end; an issue with the plant. I addressed these findings to the Optimum Corporate Department, as well as emailed them evidence of my packet loss in my upstream and everything. Still, after trying to cooperate with Optimum Corporate in solving my issue for good, I sit here present day STILL experiencing the exact same problems, as if Optimum did nothing to evaluate it.

I am convinced that Optimum refuses to try solving my problem for good for whatever reason, whether it is due to Optimum replacing qualified employees with cheap replacements, or it is not in their best interest. As a customer, it is their obligation to FIX any internet problems I have with them, especially since I am paying a high price for sub par internet. According to their engineering team, they tell me that "everything should be running fine" which is absolutely false. The problem is very likely that their DOCSIS systems are flawed in my neighborhood, since there is congestion due to everyone being home. They do not prioritize in quality of upload speeds, so as a result I get affected negatively from this.

I have also talked to neighbors on my street as well as several other individuals in my job field in Morganville/Marlboro who have been experiencing very similar problems with Optimum themselves, and it is unfair as a community for us to not have any additional providers for legitimate internet service, since Optimum pretty much monopolizes my region. Verizon FIOS provides their full service only a mile away from where I live, so I do not understand why FIOS can not provide in the 07751 area. It is a monopoly for Optimum to buy out the cable lines in our area, while providing absolutely poor service in the process. My neighbors are all interested in receiving FIOS service if possible, and that source of competition would be extremely beneficial for our community. At this point, I have a better chance being able to switch to Verizon FIOS than having Optimum actually solve their problems with my upload speed.

Ticket: # 4107505 - Xfinity internet/cable television service

Date: 7/23/2020 4:10:26 PM

City/State/Zip: Southfield, Michigan 48076

Company Complaining About: Comcast

Description

I have been trying to work with Comcast to fix my service for almost 2 weeks. I've been told by others that the problem is a broken Coaxial drop in my near me. Comcast has kept me on hold via automation in excess of an hour at least 4 times in as many days trying to resolve this. They were supposed to call me back, per a representative. I received that call LATE that evening stating that management had to leave early and no one else could help me. I work from home, due to COVID, and after a week had to secure another form of service. Comcast needs to terminate my contract with NO fees due to their inability to provide service or at least inform me of their intentions. To ignore, is just not acceptable. At the time of this submission, I am still awaiting repair and a return call.

Company Complaining About: Sudden Link

Description

For 3 weeks now my internet will drop every 5 minutes. It has been impossible to be in zoom meetings for work or even just getting my everyday work completed. I was told that I would receive a credit for the inconvenience but instead I was charged reconnect fees for all the times they tried to reboot my modem. I was also just informed that they didn't schedule my appointment so now I have to wait another week and was told that I could be charged for the service call to come out and fix the problem with their equipment. I am extremely frustrated and the fact that suddenlink is the only provider in my town that can handle the speeds that I am needing makes me sick. They claim they are trying to make the covid pandemic easier and they are making it so much harder.

Ticket: # 4107576 - Collections For Equipment**Date:** 7/23/2020 4:27:44 PM**City/State/Zip:** Charleston, West Virginia 25304**Company Complaining About:** Sudden Link

Description

We moved out of our home/disconnected service on 4/2/20, during a national pandemic. Everything in our area was shut down 3/19. I made multiple calls to Suddenlink(45 min hold time to only be disconnected), left return call messages, as well as, made notations on a bill and returned it to request where/how to return their equipment. Today, I received a collections letter from Sunrise Credit Services for \$1015.00. I made yet another attempt to call suddenlink, 3x. I could not reach a representative and their automated service could not find my account.

City/State/Zip: Fishers, Indiana 46037

Company Complaining About: Verizon

Description

I spoke to Corey at Verizon today about various options to upgrade my plan and/or my phone, just collecting information. He provided me with information but I did not make a decision and did not authorize any changes to my plan. Shortly thereafter, I got an e-mail confirming that I had changed my plan to a data plan. I have a flip phone that will not even accommodate a data plan which Corey knew. The new plan costs significantly more. I called back and talked to Jessica after a lengthy hold and she said there was no way she could fix this and I would have to go to a store, even though I am COVID high risk and am sheltering in place. She refused to allow me to talk to a supervisor. After about another hour on hold, I finally talked to Thimeka and then reached a supervisor named Ellen. She said she couldn't change my plan back until the next billing cycle but she would issue me a credit in September. I want the error immediately reversed and to not be charged an extra cent over my existing plan. Why should I have to wait until September to correct Verizon's error? Also, what action is going to be taken against Corey who changed my plan without my authorization? I have already wasted about two hours trying to resolve Verizon's error.

Ticket: # 4107827 - Issues with Internet Connection

Date: 7/23/2020 5:35:48 PM

City/State/Zip: Alexandria, Louisiana 71302

Company Complaining About: Sudden Link

Description

I am writing to FCC today to explain about the ongoing unstable connection with my internet service provider Suddenlink Communications.

For the few past weeks, I have been dissatisfied with the internet service with Suddenlink. Due to this uneven connection, this have impacted a couple of opportunities for me. One, being how this is now impacting my chance to continue my education by learning remotely from the comfort of my home and impacting the opportunity to work from home. This is troublesome for me.

I have been a customer with Suddenlink on and off again for a sustained amount of time. While I have never a problem with their customer service and very pleased with their high speed service, I think it is unfair that I am paying a large amount of money each month for a service that is not reliable.

Please take this into consideration, at a time where having a stable internet connection is more critical than ever due to the amount of people who are now at home due to the COVID-19 pandemic. Suddenlink have to do better as a company and provide a better service to their customers.

Thank you for your time and assistance.

Ticket: # 4108375 - Disconnection issues

Date: 7/23/2020 10:42:01 PM

City/State/Zip: Princeton, West Virginia 24740

Company Complaining About: Sudden Link

Description

Despite Altice signing a pledge not to disconnect customers who fall behind on their bills during this covid crisis, I was disconnected twice after the date they signed that pledge along with other communications providers. Both times I was disconnected for past due amounts of less than 100 dollars. I dont even have cable with Suddenlink. I only have phone and internet. I did pay the money that I owed but what happened to their promise to be a little more forgiving and give customers more time. I struggle to pay the bill anyway and have reduced it to internet and phone only to keep my bill below 100 dollars a month but they cut it off twice just as they normally would do. No extra time to pay at all. So their signing that pledge was a ploy to look good but not truly to care about their customer's struggles.

Ticket: # 4108506 - Comcast -Xfinity internet

Company Complaining About: Centurylink

Description

Our internet has become totally unusable. I have called numerous times and centurylink has overcommitted to too many customers for what their infrastructure can support but they have no plans to upgrade their infrastructure. My daughter's high school is considering moving to online school due to covid, and we are super worried what we are going to do because we have no other options.

Ticket: # 4108651 - Optimum

Date: 7/24/2020 9:50:16 AM

City/State/Zip: Saddle River, New Jersey 07458

Company Complaining About: Optimum

Description

What recourse does anyone have when you have none or intermittent internet or phone service and have reached out innumerable times with no success. I have called Optimum numerous times about my intermittent internet, voice and TV service, spending hours upon hours on the phone with customer service reps, who send me repeatedly through the same useless, time wasting, mind numbing, trouble shooting processes, with zero results. I have had appointments with technicians who may or may not show up...with one tech who did show up causing even more issues. The latest issue is with my landlines I used for what little business I have left during this pandemic. I have been without service for 3 days.....and the only way to connect with Optimum is by phone or online chat where they just ignore you, hang up on you, or just leave you hanging for hours stating "stay connected" with zero results.

Businesses like this should not be allowed to maintain a license with the FCC and continue to charge customers for service they are not providing....nor should they be immune from being sued.

All customers who have not received the services they were promised, should be able to seek remuneration, the result of which would be a huge sum of money that would make Optimum take notice and correct their business model.

Ticket: # 4108819 - Suddenlink Billing

Date: 7/24/2020 11:03:44 AM

City/State/Zip: Lubbock, Texas 79413-5831

Company Complaining About: Sudden Link

Description

I started calling on 6-14-2020 to have my services disconnected and was given multiple reasons as to why they couldn't process my request or why I needed to wait to disconnect my services. The new billing date was 7-8-2020 and I returned my equipment into the drop box at their office on 7-7-2020. I wanted to do it in person however the Lubbock Tx office was closed that day due to Covid-19 concerns. I was then billed for an additional month. When I called to complain I was told there were no records of my trying to cancel services so therefore even though my equipment was turned in I was still liable for an additional month because I had not called to cancel services. I called many times and was assured by employees that they were taking detailed notes on my account in regards to my wanting to cancel services. On 7-21-2020 I spoke with a supervisor who said there were no notes on my account so I will be liable for this service. I just want the charges billed on 7-8-2020 to be taken off.

Ticket: # 4108836 - Overcharging During Covid**Date:** 7/24/2020 11:12:33 AM**City/State/Zip:** Knoxville, Tennessee 37909**Company Complaining About:** Spectrum

Description

Spectrum of Florida Account No. (b) (6) gave notice on 5/08/2020 that they would be moving and to cancel service on May 31, 2020 at midnight(See attached confirmation, Exhibit "A"). The prior bill for the period of 4/22 to 5/22/2020 was paid on May 10, 2020. On May 23, 2020 Mr. (b) (6) was mailed a bill in the amount of \$161.35 for the period from May 22 through 6/21/20 despite the fact that Mr. (b) (6) only received services through May 31, after which service was turned off, a period of ten (10) days. Mr. (b) (6) paid Spectrum for ten days, a total of \$52.05, a check which Spectrum cashed (see copy of check and payment stub attached as Exhibit "B" as well as Spectrum invoice for period until 6/21/2020 as Exhibit "C"). Subsequently Spectrum sent Mr. (b) (6) an invoice for the remaining amount of \$109.30 along with a statement that they only bill monthly and does not give credit for services canceled prior to the end of the current billing month. That invoice is also noted as for the period from 6/22 through 7/21/2020 (Exhibit "D") Note that equipment was returned per Spectrum policy on 5/27/2020 per Exhibit "E".

- 1.) Spectrum states that it is not it's policy that they only bill monthly and does not give credit for services canceled prior to the end of the current billing month, however that was not their policy at the time Mr. (b) (6) entered into a contract with them, rather they allege verbally that the policy was added to their bill on or about July 2018. They can not unilaterally change their contract with a customer without the consent of the customer and or make it retroactive by burying it in the fine print of an invoice.
- 2.) Please note that the alleged statement regarding "monthly billing is not on the invoice dated 6/21/2020.
- 3.) The notice of cancellation was given prior to the "current billing month therefore the statement is not factually applicable to this invoice.
- 4.) They are billing for services the customer never received, in fact this is the company policy which is not enforceable.
- 5.) they are attempting to deceive Mr.(b) (6) into believing the additional payment is for a time two billing periods past the cancellation of the service and in fact there was no longer an applicable contract upon which to base their claim.
- 6.) During this time of Covid-19 their actions are unconscionable, immoral and unethical. They are taking advantage of their customers contrary to state law which addresses price gouging and is illegal.
- 7.) Their business practices are contrary to all legal logic by charging for services their customers have not received hence is contrary to law, unenforceable and illegal. This matter goes beyond just Mr. (b) (6) but extends to the class encompassed by all their customers subject to this policy.
- 8.) Mr. (b) (6) balance needs to be canceled for the reasons stated above and further any action to collect or credit reporting is illegal and constitutes damages to Mr. (b) (6)

Ticket: # 4108922 - Lack of internet access in my neighborhood

Description

With COVID-19 and working from home and having an essential role in keeping the railroad industry infrastructure moving, my employer cannot tolerate me not being able to perform my essential role with no internet service. I have had no internet 6 of the past 8 days. I cannot go to the office due to positive COVID In our building.

Ticket: # 4109642 - FRONTIER FIOS INTERNET

Date: 7/24/2020 2:14:59 PM

City/State/Zip: Santa Fe Springs, California 90670

Company Complaining About: Frontier Communications

Description

A (b) (6) 7/24/2020 CLOSED CONF (b) (6). I have been calling since last 7/16/2020 keep telling me i had have 5 # code. I closed it with Michelle Frontier Fios Cut.SVC she said i need to pay till the end of my cycle I unplugged it on 7/16/2020 and now they want me to pay a fee plus \$9.99 to close. I would like to file a complaint with this pandemic I think they are taking advantage of people. I closed my account as of today. But still technically a customer till August 2, 2020... I feel I should only pay from July 2,2020 to July 16, 2020 not the whole billing cycle. This is also the name on the account Please help they cant keep doing this to customers and their internet is always slow having to always reset box and trouble shoot that's why I closed my account customer since 1987. Also my husband had a business account and we closed it and opened a residential account as i was closing my account she said we show you have equipment never returned since 2016. I said they told us we didn't need to but i save everything i said hold on. I have ti she said if you didn't we would charge you \$100.00 I said why it wasn't under my name it was under my husband and they will be sending me a box to return the router I will but I still would like you to check into those charges for us. thank again and stay safe :)

Ticket: # 4109763 - Unable to resolve Internet Connection issues with Comcast**Date:** 7/24/2020 2:40:19 PM**City/State/Zip:** Union City, California 94587**Company Complaining About:** Comcast

Description

We get really poor internet connection at our house 4-5 hours per day. Rest of the time, it works fine. We have tried to reach out to Comcast repeatedly to solve this issue. Every time we call them, we get an automated robot asking us a series of questions. The robot says it cannot proceed without rebooting my modem. Every time, I call them, the robot keeps rebooting the modem. But, we end up right back in the same situation.

We lose internet connectivity 3-4 hrs per day, usually in the afternoon. Everything works itself out by evening. This happens almost on a daily basis. We are currently two parents working from home due to COVID guidelines. We have no idea how to get hold of Comcast to fix this problem.

A month back, we were able to get hold of Comcast and they created a ticket number for us:

Ticket: # 4109778 - Service disconnected during the Pledge

Date: 7/24/2020 2:45:13 PM

City/State/Zip: Hyde Park, New York 12538

Company Complaining About: Optimum

Description

Consumer was late paying her internet bill in May-June.

Due to the COVID Virus the companies had promised to not shut people off or charge late fees.

Consumer borrowed the money to bring the account up to date.
However she does not want to pay the late and re-connect fees.

It was during the time of the Keep America Connected Pledge.

Consumer asked that we file a complaint on her behalf.

Ticket: # 4109903 - Covid-19 - Threaten Shut off - Comcast/Xfinity Subpar Service for over 4 Years - Incorrect Billing!!!!

Date: 7/24/2020 3:05:49 PM

City/State/Zip: St. Augustine, Florida 32085

Company Complaining About: Comcast

Description

Covid-19, Threaten to shut off internet services July 28th and just got it on July 23, 2020! Comcast has given me subpar internet and tv/cable services for over 4 years/since late June 2016. Billing is incorrect for Internet and Cable. I have free Cable with Rent, and they are billing me. Internet billing is overcharged too! I was told on June 4, 2020, by Thomas in Customer Service, my bill was only \$4.51 due. I paid it on June 15, 2020. Now, they are saying that wasn't true! It was over \$198! This week I got a letter saying balance is \$100.33 and another bill for cable which is free! Please help!

Ticket: # 4109949 - Complaint against Optimum**Date:** 7/24/2020 3:19:31 PM**City/State/Zip:** Bedford, New York 10506**Company Complaining About:** Optimum

Description

We are Optimum customers for internet, television and telephone service. Our service became very slow and intermittent several months ago, around the beginning of COVID-19 quarantine. I got limited help by phone and eventually our phone line stopped working altogether and the internet became very intermittent - off, more than on. I called Optimum for help and one agent said there was an issue in the area that was being worked on. Another agent said I needed a new modem and one would be sent to me by FEDEX. It turns out, one full week later, the modem was never sent and the issue was never fixed. I scheduled a repair appointment for the technician to bring a new modem. I informed the scheduler that he cannot enter my house due to health concerns. When the technician arrived he refused to leave the modem saying he had to enter my house. I said I would install it and give him the old one but he got into his truck and drove off. Now I have no reliable phone, television or internet service that I have paid for in advance. This is incorrigible behavior, at a time when health and safety should come first and the ability to call for medical support for my ill 84 year old husband is paramount.

Ticket: # 4110094 - RE: Restore Fees COVID-19

Date: 7/24/2020 3:58:41 PM

City/State/Zip: Pasco, Washington 99301

Company Complaining About: Directv

Description

Few months ago spoke to customer service about waiving a reconnect service fee which I was told I would not have one on my bill. Now due to COVID-19 and still out of work without no Unemployment payment I tired again to get a restore waived as I was told would be. I have read several news outlets that June 30th would be when ATT/DirecTV wavier it's fees. Well I'm still being charged late fees on top of reconnecting fees.

Ticket: # 4110274 - Internet-Intermittent service interruptions w confirmed breaks in line

Date: 7/24/2020 4:38:43 PM

City/State/Zip: Newbury, Ohio 44065

Company Complaining About: Sudden Link

Description

Suddenlink has failed to maintain its underground service feed lines to supply our neighborhood with consistent service per contract.

My neighbors have been informed by a Sudden link employee that the company is aware that there is a break in the line that results in outages and decreases the ability to handle volume.

We now have increased need with many required to work from home to stay safe in this pandemic.

With an additional increased volume coming when the school year starts.

The numerous pleas to have consistent reliable service has been ignored for months for multiple customers and the service has been less than acceptable for the almost 4 years we have been in this house.

We are stuck with just one fiber internet provider and they are taking advantage of that monopoly.

July 19th 2020 we were told by the phone representative that yes they had 3 complaints from us.

They didn't respond to any of these complaints. We were told on previous complaints someone would call and come inspect line from engineering.

On that call the representative assured us that on July 21st 2020 an engineer would come to our home to look for the problem. They never came.

We reached out to our neighbors to find out their situation and found out additional facts.

Our neighbor across the street confirmed that they had been told by the technician a while ago, that Suddenlink is aware that they have a line that is bad and so they were continuing to mislead me that they didn't know the issue.

It's time that Suddenlink is required to hold up their end of the contract by repairing the faulty equipment that keeps us from having the full service we are paying for.

Ticket: # 4110297 - Order Cancellation without notice

Date: 7/24/2020 4:44:26 PM

City/State/Zip: Winona, Texas 75792

Company Complaining About: Verizon Wireless

Description

I placed an order with Verizon Wireless online. My credit was fine and I paid my portion due for a phone and service. Emails start to come in telling me I am good to go. Then out of nowhere I get an email from Verizon Fraud. They ask me for a copy of my DL so I provide the information, and my identity is proven. The next email I get is telling me they are closing my order. I am livid. I call and speak with a supervisor. Now apparently verification of my identity is not enough. Now they want proof that I live where I live based on the Indiana DL. I offer Bank Statements, Insurance, Medical Bills and even tell them to call my work "University of Texas" at Athens and verify whatever they want. This turns into a long and tedious process. I relocated in January 2020 from Indiana to Texas and I live with my fiance permanently. since electric, cable, ect are in her name, I do not have utility bills, and we do not have a mortgage. I came to work here in Texas due to Covid-19 and my profession as a Biomedical Engineer, I AM HOSPITAL BASED. So, the earliest drivers license appointment I could get is December 12, 2020. To prove my residency my fiance completed a Residency Affidavit and included her drivers license to verify the address. In this document she states that I permanently reside at my address. Now, Verizon states that I must provide a Car Registration, Voter Registration Card, or utility bills. Voter Registration is questionable at best. Anyone can complete a voter registration online and receive a card, no questions asked. Yet Verizon cannot take a Bank Statement, Medical Bill, Insurance Card, or the verification of an employer? Verizon uses excessive power over consumer by randomly causing stress as it sifts through personal information without providing a detailed list of unauthorized investigation into potential customer accounts, delaying orders, recording calls, and refusing service to credible consumers with valid proof of residency. Verizon Fraud Department apparently trolls information from consumers and flags potential paying customers. When questioned, Verizon provides limited details at best. Verizon is refusing to complete my order and has no credible justification for doing so. If you look at the requirements for a Drivers License, I have more than met the burden of proof.

Ticket: # 4110495 - Comcast internet and cable service interruption

Date: 7/24/2020 5:54:28 PM

City/State/Zip: Decatur, Georgia 30030-4514

Company Complaining About: Comcast

Description

My Comcast cable and internet service is disrupted up to twice a week for several weeks now. The interruption happen during business hours and last for several hours. This has been disastrous for my work since I have to work from home during the COVID-19 pandemic.

Comcast makes it extremely difficult to report and mitigate outages. Their standard response is to disrespectful and absolutely not helpful. Comcast refuses to get access to qualified agents who could help mitigating the issues. Comcast refuses reimbursement for the otages

Ticket: # 4110509 - Optimum/Altice leaving a town without working internet for months

Date: 7/24/2020 5:57:44 PM

City/State/Zip: Thomaston, Connecticut 06787-1120

Company Complaining About: Optimum

Description

Optimum has left this area (Thomaston, CT) without a working high speed internet provider since June 10th. They acknowledge a known issue that takes the internet offline every night starting around 7pm and lasting until the early hours of the morning, and are providing no ETA on a fix or any remedy to customers. As the town has allowed them a monopoly on high speed internet, we're left with no options. So much for trying to work remotely or communicate with friends and family during the COVID pandemic. I've made many calls to Optimum, sometimes waiting on hold more than 90 minutes to speak to a useless support agent who refuses to help.

Ticket: # 4110582 - Refusal to install internet that is needed for cyber school because of COVID 19

Date: 7/24/2020 6:30:43 PM

City/State/Zip: Rockwood, Pennsylvania 15557

Company Complaining About: Armstrong Cable Company- 259 E. Crawford Ave., Connellsville, Pa

Description

On Monday, July 20th, I called Armstrong Cable to see if they would run their cable service to our residence because my son will be attending cyber school due to the COVID 19 pandemic. I was told no they would not because it is too far of a distance to run the cable. I informed Armstrong that there were 2 other neighbors that would want the service as well. I asked what I could do to get them to run it and was told to have my neighbors call in as well. Which I did. The cable lines end approximately 0.3 mile from our home in one direction and approximately 0.5 mile in the other direction. There should be no reason why we should be denied this service because we live in a rural area. This is placing my son at a disadvantage. Any help you can provide would be greatly appreciated.

Ticket: # 4110602 - AT&T abusive refusal to terminate service

Date: 7/24/2020 6:37:12 PM

City/State/Zip: San Francisco, California 94109

Company Complaining About: AT&T

Description

I am trying to cancel my home internet service from AT&T. They refuse to allow consumers to cancel via chat online or provide any online means to cancel service. They force you to call their telephone number and then demand PINs and other information saying that it is a "security" issue. I went to my online account and changed the PIN and provided it to AT&T. They still refused to cancel the account. They demand that I go to their in person office in downtown San Francisco. I took the covid risk of doing so but the in person office ultimately would not terminate the account.

Ticket: # 4110605 - robocalls from spoofed/fake numbers

Date: 7/24/2020 6:37:44 PM

City/State/Zip: Canton, Mississippi 39046

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are all marketing calls. Most of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day. And, a new trend had recently arisen: text messages. I cannot overstate how angry and frustrated I am with these people's total disregard for other's right to privacy and peace of mind.

Many of the spoofed numbers were identified by my caller id as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona, Crystal Springs, Byhalia and Ashland, MS. For some of these numbers, caller id did not identify the location, but an internet search of area codes and prefixes determined the location. For a brief period earlier in the year, there was a spate of calls from out of state as well. This surge in out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. While that surge of out-of-state calls was fairly brief, there are occasional calls identified as coming from out of state. I recently received (and filed a complaint for) a call identified as coming from Indian Spring, NV. For the call I am reporting today, caller id identified no physical place of origin. An internet search of the area code and prefix indicated Tulsa, OK.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. I tried to return the call, and it simply disconnected. Today, I tried to return the call, and it simply disconnected.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

In addition to the phone calls, I occasionally also received marketing communications about health insurance through text message and/or email. In these cases, I have often been able to

communicate directly with the sender, and at least gain their assurance that they would not contact me again. I have had two of these individuals inform me that they were sold my information. I asked the latest of these very directly, "where did you obtain my information". He refused to answer. In my view, this refusal makes him complicit in the perpetration of these unethical activities.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4110621 - Can not access my email

Date: 7/24/2020 6:40:38 PM

City/State/Zip: Fort Atkinson, Wisconsin 53538

Company Complaining About: Google

Description

Can not get my email. I have been forced to rewrite passwords over 25 times. Google is totally inaccessible to help solve the problem. I called at least 4 times. in the last month, and I just get a computer-generated voice saying their support team is closed due to COvid.

Ticket: # 4110670 - Interruption of service.

Date: 7/24/2020 7:04:28 PM

City/State/Zip: Tustin, California 92780

Company Complaining About: Spectrum

Description

I've been having major interruption of services with my new cable box provided by Spectrum. After receiving and installing new upgraded internet boxes, I've been having intermittent and buffering issues. I'm suppose to have 200 Mbps. I'm not able to connect to the internet in the bedrooms, 15 feet away. I've had multiple techs come to my home, 7/7, 7/12, 7/17, 7/21 and will have 7/26/20. I want the internet to work, specially that my children will be doing on-line school due to the pandemic. My frustration is that there's no accountability to ensure customer satisfaction in a timely manner. Constantly have to wait days for new technicians to come in. Also, I would like to be compensated for inconvenience and trouble this has cause to my family due to not able having the services that I'm paying for this lack of service. Thank You.

Ticket: # 4110676 - Data, Phone, Internet, TV & Net-Neutrality

Date: 7/24/2020 7:06:08 PM

City/State/Zip: San Jose, California 95122

Company Complaining About: AT&T

Description

When will the congress will assign Net Neutrality because my head is getting small which is my brain size is diminishing Ratio of the Band Wave with my equipment, and appliances are being over used unless PG&E is settle to downsize the bandwidth on our IPTV, VoIP, and anything that runs with cordless Internet Phone, and TV my cellphone is have interference with thous class A, B, and C. equipment from IRF exposures. Especialy COVID-19 related IRF issues with the equipment or appliances. Not only that my Cellphone kept on Blowing on and off rings all day.

Ticket: # 4110762 - AT&T OVER CHARGES

Date: 7/24/2020 8:01:09 PM

City/State/Zip: Cromwell, Minnesota 55726

Company Complaining About: AT&T

Description

AT & T overcharged me \$10.00 for some international (Canada) calling/texting back in February 2020. I've tried to resolve the issue with their Customer Service but due to the COVID19, they weren't taking calls until more recently. I was never in Canada so I never used the international plan and should not be charged the amount. My daughter wanted to get her own plan so AT & T forced me to pay the \$10 over charge or she couldn't get her own plan.

I want my \$10.00 refunded to me and want the international calling/texting plan discontinued from my account.

I can't get any resolution with AT & T Customer Service, therefore, this complain.

Date: 7/25/2020 7:03:37 AM

City/State/Zip: Vernon Hills, Illinois 60061

Company Complaining About: Comcast

Description

Baseless conspiracy theories about the novel coronavirus and Dr. Anthony Fauci, a prominent member of the White House coronavirus task force, found a platform on the new episode of Sinclair Broadcast Group's America This Week. The episode is available for streaming on Sinclair-owned or -operated television station websites and is set to air on dozens of Sinclair stations over the weekend.

Ticket: # 4111041 - False information on news

Date: 7/25/2020 7:16:45 AM

City/State/Zip: Annandale, Virginia 22003

Company Complaining About: Verizon

Description

Local television stations owned by the Sinclair Broadcast Group are set to air a conspiracy theory over the weekend that suggests Dr. Anthony Fauci, the nation's top expert on infectious diseases, was responsible for the creation of the coronavirus.

The baseless conspiracy theory is set to air on stations across the country in a segment during the program "America This Week" hosted by Eric Bolling. The show, which is posted online before it is broadcast over the weekend, is distributed to Sinclair Broadcast Group's network of local television stations, one of the largest in the country. A survey by Pew Research Group earlier this year showed that local news was a vital source of information on the coronavirus for many Americans, and more trusted than the media overall.

Ticket: # 4111052 - Sinclair Broadcast Group planning on Broadcasting Debunked Conspiracy Theory to all of their Stations

Date: 7/25/2020 7:25:13 AM

City/State/Zip: Roswell, Georgia 30075

Airing Plandemic as a news show? It is propaganda that has been proven false and it's being put out as news, that is horrifying and could lead to even higher rates of COVID infections and deaths than we already have in this country. Should be banned

Ticket: # 4111114 - Plandemic airing

Date: 7/25/2020 8:40:25 AM

City/State/Zip: Tustin, California 92782

Company Complaining About: AT&T

Description

Hello,

I'd like to lodge a complaint against the intended airing of Plandemic on Sinclair Broadcasting. The discredited peice has been pulled from online platforms due to factual gaps and the materials propensity to harm this nation's recovery from Covid 19. Please be as responsible with the airwaves as Facebook has been with its site on this issue and block its airing.

Ticket: # 4111132 - False and Misleading Practices**Date:** 7/25/2020 9:04:25 AM**City/State/Zip:** West Haven, Connecticut 06516**Company Complaining About:** Comcast

Description

I have xfinity prepaid service. I had issues with my modem and called tech support to troubleshoot. Still not working so a technician was sent out to fix it. The tech said the problem is the modem and it needs to be replaced. I call xfinity prepaid and they tell me the modem warranty is only 3 months and I have to pay for a new modem, but when I activated service in store, I was told whenever I have an issue to call support and they will swap it out if any issues. Now I'm being told two completely different things but they're under the same entity. I want my replacement modem free of charge as I was promised when I signed up for services. Now they're taking advantage of people during Covid-19. Shameful

Ticket: # 4111145 - False information

Date: 7/25/2020 9:11:03 AM

Date: 7/25/2020 9:22:23 AM

City/State/Zip: Palm Springs, Florida 33406

Company Complaining About: Comcast

Description

I would like to file a complaint against Sinclair Broadcast Group for broadcasting false information that causes substantial public harm. The airing of "Plandemic", which has already been discredited to the point Facebook and YouTube have taken this down, is dangerous misinformation during the COVID-19 pandemic. It is imperative the public can trust their news sources for accurate information, and it is extremely hazardous to public health and safety to air proven false information during this health crisis.

Ticket: # 4111156 - Sinclair airing "plandemic"

Date: 7/25/2020 9:23:59 AM

City/State/Zip: Edgewater, Florida 32132

Description

I am writing to express my disgust over Sinclair broadcasting airing the discredited "Plandemic" conspiracy theory on their stations throughout the country. The airing of this FAKE "documentary " is false propaganda at best, and very dangerous considering the global pandemic we are facing. This should not be allowed to air! If it does air, it should be with a large, fixed disclaimer at the bottom on the screen the whole time!

Ticket: # 4111163 - Sinclair airing conspiracy theories

Date: 7/25/2020 9:32:51 AM

City/State/Zip: Livermore, California 94550

Description

Airing plandemic (a conspiracy theory) and trying to blame dr fauci for a pandemic is blatantly misleading and is falsified information. It can also be considered defamation and could be subject to legal action. Especially airing it when the US has 4M cases

Ticket: # 4111165 - Sinclair stations broadcasting false content

Date: 7/25/2020 9:34:28 AM

City/State/Zip: Georgetown, Texas 78633

Description

Sinclair stations nationwide (including KEYE in Austin TX) are broadcasting a debunked show called "Plandemic" today that falsely accuses Dr. Anthony Fauci of causing the COVID19 pandemic. This fake documentary has been banned by Facebook for it's false and misleading claims. Dr. Fauci is already receiving death threats and the airing of this program will likely increase the chances of more threats to his life, and spread dangerous misinformation about the pandemic that could very likely cost American lives.

Ticket: # 4111169 - Sinclair broadcasting false propaganda

Date: 7/25/2020 9:36:29 AM

City/State/Zip: No, Pennsylvania 16335

Company Complaining About: Verizon

Description

Sinclair broadcasting group is going to air a completely false narrative that Dr. Fauci planned and started the covid-19 pandemic. This will only make current matters worse and further risk human life. Stations owned by Sinclair that plan to air or do air this propaganda should have it cut short or issue retraction statements. Also, fuck Ajit Pai, what a loser.

Ticket: # 4111183 - Sinclair-Pandemic

Date: 7/25/2020 9:45:42 AM

City/State/Zip: Centreville, Michigan 49032

Description

Sinclair Broadcasting's plan to air a segment on the discredited scientist's conspiracy theory, 'Plandemic' is wildly inappropriate. It all the more heinous, as Sinclair owns many stations across the country in areas that are rural & there are few other options. By airing this segment, it gives credibility to disinformation on the pandemic. This irresponsible decision will literally lead to deaths, as it will give easily manipulated people an excuse to ignore the science.

Ticket: # 4111194 - Sinclair is broadcasting false information

Date: 7/25/2020 9:53:19 AM

City/State/Zip: Lexington, Kentucky 40508

Description

Sinclair Media Group is broadcasting a conspiracy laced, false flag "documentary" about COVID. This will further disrupt the trust of the medical community. Many of the claims in this propaganda have been debunked. Local outlets have reported they are unable to go against Sinclair and not broadcast the lies.

Ticket: # 4111201 - "Plandemic" story by Sinclair owned news stations

Date: 7/25/2020 9:57:27 AM

City/State/Zip: Portland, Oregon 97232

Description

Hello,

I would like to voice a complaint about the local news stations owned by Sinclair. It appears as if they're going to air a story that has already been discredited to further damage the image of Dr. Fauci the leading physician guiding the US Coronavirus pandemic. This story is nothing but a political stunt to push blame away from our current national leadership, the Trump administration.

Ticket: # 4111203 - Sinclair Broadcasting stations false Dr. Fauci conspiracy story

Date: 7/25/2020 9:58:51 AM

City/State/Zip: Chittenango, New York 13037

Description

Airing false conspiracy story that Dr Fauci created CoVID 19. This is dangerous and a crime against the country.

Ticket: # 4111215 - Stop Sinclair Broadcast Group from Airing Dangerous Coronavirus Misinformation

Date: 7/25/2020 10:09:41 AM

City/State/Zip: New York, New York 10075

Description

It is my understanding that the Sinclair Broadcast Group intends to air a conspiracy theory on "America This Week" hosted by Eric Bolling that accuses Dr. Anthony Fauci, the nation's leading infectious disease expert, of being involved in the creation of the novel coronavirus spreading across the country. The person leveling this accusation is a medical researcher associated with a discredited video making the rounds online, a video taken down from platforms like Facebook and YouTube for spreading disinformation about the origins of COVID-19. Allowing this segment to air could cause disinformation to spread about the origins of the coronavirus and result in distrust of Dr. Fauci and other medical experts, which in turn could lead to more cases of the disease. I request that the FCC do not allow this segment to air because it is a serious threat to the public's health and their understanding of this dangerous virus.

Ticket: # 4111217 - Plandemic is dangerous lies

Date: 7/25/2020 10:11:44 AM

City/State/Zip: Atlanta, Georgia 30318

Description

Airing something as blatantly false as this piece of propaganda during the current increase in daily cases of Covid 19 will cost lives.

Ticket: # 4111223 - The Sinclair Group is substantially distorting the facts on coronavirus

Date: 7/25/2020 10:14:24 AM

City/State/Zip: Peoria, Illinois 61602

Description

This is (b) (6), a physician on the front lines of the coronavirus pandemic. I am calling to protest the Sinclair group's airing of the Plandemic video and discussion with Judy Mikovits. This video substantially damages the public perception of the facts and will cause more conspiracy theorists to damage the public health response to coronavirus. I am calling on the FCC to fine the Sinclair group to remind them this is unacceptable.

Ticket: # 4111226 - ATT Destroying Property**Date:** 7/25/2020 10:17:52 AM**City/State/Zip:** The Colony, Texas 75056**Company Complaining About:** AT&T

Description

I would like to file a complaint about AT&T. I had Spectrum internet, when my boyfriend moved in he asked if we could change to AT&T internet and Direct TV so he could get the NFL Sunday ticket. We did and then the internet service was bad. We were both kicked off of our work web ex meetings consistently. After having a technician come out and he couldn't fix the issue, we decided to switch back to Spectrum. We opted to do the self install with Spectrum due to Covid 19 but it wouldn't install. I called Spectrum customer service and she asked me to check the wires outside because ATT has a habit of interfering with their coax cables. She was correct. When I walked outside I saw that someone from ATT cut the Spectrum cables. That was not necessary, and it wasn't even their property! They damaged MY house and Spectrum's line. I have also filed a complaint with them.

Ticket: # 4111232 - Fresno, CA KMPH disinformation about COVID-19

Date: 7/25/2020 10:21:02 AM

City/State/Zip: Fresno, California 93720

Description

Plandemic airing: This stations airing of disinformation regarding Covid-19 and it's origins are beyond unacceptable. They continue to push a mandated segment from their owner Sinclair media into their news. There is no place for such opinion pieces in a news program. We need truth in programming especially in this area.

Ticket: # 4111245 - Sinclair media group

Date: 7/25/2020 10:25:04 AM

Ticket: # 4111282 - Knowingly Spreading False Information

Date: 7/25/2020 10:37:41 AM

City/State/Zip: Savannah, Georgia 31401

Description

It is being reported that the Sinclair Broadcast Group is set to air a segment with Judy Mikovits, the medical researcher featured in the discredited "Plandemic" video that went viral earlier this year and which was banned from platforms such as Facebook and YouTube. This is unacceptable, despicable, and dangerous. There has been over 4 million cases of the coronavirus with over 120,000 deaths. Americans continue to resist wearing their masks and cases continue to soar. This irresponsible reporting and airing of false information only exacerbates this problem. When more people die because they are watching the content you produce, their blood is on your hands. Please do not ignore the dire implications of lending a platform to such false information and pull this segment for the wellbeing of our country.

Ticket: # 4111317 - Sinclair Broadcasting Airing False and Dangerous Information

Date: 7/25/2020 11:01:49 AM

City/State/Zip: Saranac Lake, New York 12983

Description

Hello,

I'm writing to report Sinclair Broadcast Group's plan to air propaganda this weekend and it should not be allowed. Their intention to air the widely debunked propaganda film Plandemic will harm countless Americans by spreading lies and misinformation regarding medical information and Dr. Fauci.

I had to debunk this for my 79-year-old mother when she shared it with me a month ago, before facebook/youtube pulled down Plandemic as it was determined to be propaganda and not truthful.

Now Sinclair Broadcasting Group is going to air this misinformation to millions of vulnerable, ill informed elderly who are most at risk for Covid19 death and misinformation campaigns. This is illegal.

Do not allow this filth to pollute public airwaves. Now that you are informed of this threat to the welfare of millions of Americans, what is the FCC going to do about this?

With little hope that the FCC will do the right thing,

(b) (6)

PS. I should not have to fill out all the below information you requested to lodge a complaint against Sinclair Broadcasting Group for poisoning American airwaves but I had to submit this. Ridiculous. I should be able to complain pre-emptively about this, before they air this filth, without reporting a day/time, my personal information etc. or throwing CBS under the bus because Sinclair bought the local affiliate. Please correct this. It should not be this hard to report an issue such as this. Almost seems like FCC doesn't really want to know.

Ticket: # 4111323 - SINCLAIR FALSE BROADCASTING

Date: 7/25/2020 11:03:53 AM

City/State/Zip: Auburn, Maine 04210

Company Complaining About: Sinclair Broadcasting

Description

Sinclair Broadcasting is coordinating to spread propaganda from QANON. QANON is listed as a TERRORIST ORGANIZATION with the FBI.

FCC- please do your jobs for our country.

Sinclair was allowed to take over far too much of the airwaves.

They now will air KNOWN LIES , apparently for financial/political gain over the health of our country and certainly without care to truth.

They are targeting an expert for harassment and lying about him. DURING A PANDEMIC.

This is not acceptable. EVERY AMERICAN should be outraged at stopping the real information that Dr. Fauci provides to protect us.

FINE SINCLAIR AND DEMAND THEY BREAK UP THEIR NETWORK.

Ticket: # 4111330 - COVID-19

Date: 7/25/2020 11:05:21 AM

City/State/Zip: Kalamazoo, Michigan 49007

Company Complaining About: Wwmt (kalamazoo Mi) Owned By Sinclair

Description

WWMT owned by Sinclair plans to broadcast debunked conspiracy theories regarding the novel corona virus currently causing pandemic in the United States. THis undermines governmental and non-governmental efforts to control transmission in the community, which can lead to harm to American citizens.

Ticket: # 4111346 - Plandemic

Date: 7/25/2020 11:12:39 AM

City/State/Zip: Shoreview, Minnesota 55126

Description

I'm sure I'm one of the many people reaching out regarding Sinclair broadcasting's future airing of Plandemic. This is a baseless, inaccurate portrayal of the Coronavirus that could be extremely dangerous if broadcasted to the country. Since this will be on TV, certain people will believe this to be true and this dangerous fake rhetoric could spread like wildfire in an already divided country.

Ticket: # 4111349 - Plandemic on TV

Date: 7/25/2020 11:13:30 AM

City/State/Zip: Draper, Utah 84020

Description

I want to complain about Sinclair corporation airing Plandemic, a show falsely portraying the COVID-19 virus starting with CDC leader Anthony Fauci. It is false and gives people misinformation about it, something we don't need right now. I don't know if the local TV station ended up airing it, but their parent corporation aired it in other areas in the US

Ticket: # 4111354 - Sinclair

Date: 7/25/2020 11:18:28 AM

City/State/Zip: Brooklyn, New York 11226

Description

The Sinclair Broadcasting group is rolling out to nearly 300 news stations it owns nationwide a false news story with an interview by the director of the conspiracy-doc "Plandemic." They claim that Dr. Anthony Fauci created the SARS-COV-2 virus, but the way they are going to roll it out is by asking a "question": "Did Dr. Fauci create the Coronavirus?"

The reason this is dangerous is because 1) spreading false information is itself dangerous and can mislead people into taking dangerous actions with the belief they are helping themselves (read: Trump claiming drinking bleach could cure the virus); 2) spreading false information and calling into question the validity of the top public health expert in the country will sow confusion and mistrust, leading to people not taking the actions that will help stop the spread of the virus in affected areas; and 3) spreading such information on SUCH A WIDE SCALE is dangerous to democracy.

The Sinclair Broadcasting Group must be investigated, now.

Ticket: # 4111371 - False news about COVID airing on local TV

Date: 7/25/2020 11:28:08 AM

City/State/Zip: Ellicott City, Maryland 21043

Description

My local stations Fox 45 Baltimore and CW Baltimore are airing the debunked "Plandemic" documentary this weekend. I would like to report them for promoting a very dangerous piece of misinformation. It will endanger the public health.

Ticket: # 4111373 - Plandemic

Date: 7/25/2020 11:28:27 AM

City/State/Zip: Walla Walla, Washington 99362-1426

Description

I just read in the news that the Sinclair owned TV stations are going to air a discredited "Plandemic". During this time of rising COVID-19 cases across the country I feel it is dangerous to air the misinformation this conspiracy theory show has. News show have a responsibility to air truthful & factual shows, and this is not a show that can fit into that description.

Ticket: # 4111383 - Propaganda being aired as news

Date: 7/25/2020 11:39:49 AM

City/State/Zip: Mapleton, Minnesota 56065

Sinclair is airing a false conspiracy theory as news on its stations blaming Dr. Anthony Fauci for creating the pandemic. This is incredibly harmful for our country at this time. Please don't allow it.

Ticket: # 4111385 - Sinclair owned tv networks, channels propaganda

Date: 7/25/2020 11:40:30 AM

City/State/Zip: Roseville, California 95661

Company Complaining About: Comcast

Description

Sinclair TV and its subsidiaries are fomenting propaganda about Dr. Fauci who is a eminent leader in public health saying he developed the coronavirus and released it.

Further they're lying about the elections and vote by mail a long proven effective means of placing a ballot. In a pandemic in a nation that has failed leadership and spreads propaganda that leads to more infections, deaths than any other nation we must prohibit this at all times, especially now when lives depend upon it.

Ticket: # 4111396 - Plandemic

Date: 7/25/2020 11:43:32 AM

City/State/Zip: Brush Prairie, Washington 98606

Description

I just learned that our local station owned by Sinclair broadcasting is airing Plandemic this weekend. You Tube, Facebook and other platforms have taken down the video because of GROSS inaccuracies. It is irresponsible and extremely harmful to the greater good during a true pandemic for a local broadcast to air such misinformation.

Ticket: # 4111401 - Sinclair to broadcast "Plandemic" : danger to public health

Date: 7/25/2020 11:46:55 AM

City/State/Zip: Kalamazoo, Michigan 49001

Description

Plandemic is a 26-minute conspiracy theory video, first posted to several social media, on May 4, 2020, promoting falsehoods and misinformation about the COVID-19 pandemic. Airing this to a vulnerable and unsuspecting audience could cause immediate harm as we navigate the best ways to fight Covid-19 through science and metrics.

FCC rules specifically say that "the public harm: must begin immediately and cause direct and actual damage to property or the health or safety of the general public; or divert law enforcement or public health and safety authorities from their duties."

Ban the airing of this film immediately from all broadcast outlets covered by FCC regulation. Waiting until after it's aired will be too late.

Ticket: # 4111408 - WJLA Broadcasting public harm

Date: 7/25/2020 11:50:24 AM

City/State/Zip: Washington, District Of Columbia 20008

Description

The Sinclair Broadcasting Group, owners of dozens of local news channels around the country, including WJLA in DC has announced plans to run a segment against Dr. Anthony Fauci, head of NIAID, created by the team behind the debunked "Plandemic" video. This constitutes a grave danger to the public as they have already been shown to include false information about COVID-19 that could lead to people contracting and dying from this virus. This problem could be solved by refusing to allow these channels from knowingly broadcasting false information on a news program under threat of losing their broadcast licenses.

Ticket: # 4111441 - Sinclair Broadcasting False Covid Narrative speciously impugning Dr. Fauci

Date: 7/25/2020 12:08:48 PM

City/State/Zip: Coon Rapids, Minnesota 55448

Description

The Sinclair Television Group, Inc. (parent of Sinclair Broadcast Group) is once again engaging in the deplorable practice of broadcasting deleterious misinformation to the American public via local television stations. In this case, it's a story about how Dr. Fauci created the coronavirus and spread it purposely to destroy the right wing and your sitting potus. It's particularly harmful because many people do not realize their "own" local station is actually run by this corporate behemoth with a clear (and not benign) agenda. Please consider reviewing their license to broadcast such patently false narratives. Dr. Fauci and his family have already received many death threats, and after this weekend, it's almost guaranteed that those threats will increase because of Sinclair's broadcasts. Please reign in these fearmongers by revoking their license, and thus restricting their ability to manipulate low information viewers by broadcasting blatantly false information.

Ticket: # 4111482 - Spreading Dangerous and Debunked Information on the Corona Virus

Date: 7/25/2020 12:42:43 PM

City/State/Zip: Clovis, California 93611

Company Complaining About: Dish Network

Description

I'm ANGRY and aghast that my local tv station KMPHFOX26 would air dangerously false information regarding the Corona Virus which will do nothing but harm Americans in my city and county. This has got to be stopped, PEOPLE will die because of this false information and will not listen. The Virus doesn't care who you are or who you believe - it will kill you if it can get a hold of you, and the only protection that THE HUMAN RACE has is by fighting this virus TOGETHER not by lying to Americans! If you care about people and this Country DO NOT SHOW THIS VIDEO AGAIN. THIS MUST STOP NOW!

City/State/Zip: Webster, New York 14580

Company Complaining About: Sinclair Broadcasting

Description

Reportedly, an upcoming documentary scheduled to air this weeken on Sinclair affiliates around the country will blame the Coronavirus pandemic on Anthony Fauci. How is this serving the public good? Can't this be stopped?

Ticket: # 4111566 - paying for a service we are not receiving

Date: 7/25/2020 1:20:56 PM

City/State/Zip: Fort Lauderdale, Florida 33312

Company Complaining About: Comcast

Description

For nearly two months 2 of our cable boxes and three remote controls have been out. We call Customer service, Technical support etc regularly. Each call last about 1 hour. Yet nothing gets resolved. Because they tell us that because of the Covid -19 Virus they cannot send a tech. But If we pay \$70 they can, this is is a hypocrisy. This is our 3rd time with this problem in the last 7 months, way before the COVID 19 situation. This is due to faulty service because they have not installed the cables correctly. We are tired of the runaround. We cannot just cancel service or we will have to pay all their small print fines.

Ticket: # 4111606 - Sinclair Commercial

Date: 7/25/2020 1:43:22 PM

City/State/Zip: Houston, Texas 77062

Description

Sinclair is airing commercials that spread misinformation and puts the well being of citizens in danger. This method of discrediting science will continue to increase deaths during the pandemic. You need to stop Sinclair from continuing to air thee commercials. This is not a free speech debate. This is spreading false information that puts people's lives in danger.

Ticket: # 4111617 - Sinclair airing conspiracy about Dr Fauci

Date: 7/25/2020 1:45:05 PM

City/State/Zip: Omaha, Nebraska 68135

Company Complaining About: Cox

Description

Stop Sinclair broadcasting from airing the conspiracy theory that Dr Fauci is responsible for COVID.
It's your duty to the American people.

[Ticket: # 4111621 - Sinclair broadcasting](#)

Date: 7/25/2020 1:45:52 PM

City/State/Zip: High Springs, Florida 32643

Description

Sinclair broadcasting is televising a show filled with lies, misinformation and propaganda during this dangerous pandemic. Airing this during this horrific time is unbelievable and unforgivable. The American people depend on honest information especially during these dangerous times

Ticket: # 4111626 - Sinclair Broadcast Group airing false information on COVID-19

Date: 7/25/2020 1:47:09 PM

City/State/Zip: Northampton, Massachusetts 01060

Description

Per the following report, the Sinclair Broadcast Group is going to knowingly air false information regarding the coronavirus pandemic: <https://www.cnn.com/2020/07/24/media/sinclair-fauci-conspiracy-bolling/index.html>

This goes against FCC rules that ban broadcasters from knowingly spreading false information: <https://www.fcc.gov/consumers/guides/broadcasting-false-information>

Ticket: # 4111633 - Sinclair Media and Plandemic

Date: 7/25/2020 1:48:36 PM

City/State/Zip: Oak Park, Illinois 60302

Company Complaining About: Sinclair Media

Description

Sinclair Media plans to air a discredited conspiracy theory film across the country soon that will have real world consequences - if people are fed this false info they are liable to mistrust the scientists who are leading the battle against the coronavirus pandemic. And exacerbate an already untenable situation. If you don't stop this absurdity, you'll be directly responsible for allowing disinformation to spread and be acting against the public good. Do your job and stop this nonsense from airing.

Ticket: # 4111651 - Sinclair Broadcast Group

Date: 7/25/2020 1:54:57 PM

City/State/Zip: Santa Rosa, California 95407

Description

Sinclair Broadcast Group is airing the controversial and false documentary "Plandemic" to undermine the nations leading scientists, doctors and epidemiologists that are trying to combat the global pandemic that we are currently failing to get under control in part because of false information and conspiracy theories like those presented in this documentary

Ticket: # 4111655 - Sinclair's Airing of "Plandemic"

Date: 7/25/2020 1:56:15 PM

City/State/Zip: Folsom, California 95630

Description

I'm disgusted to learn Sinclair is planning to air the propaganda piece "Plandemic" -- accusing Dr. Fauci of starting the pandemic. Where are we living? What is happening to factual journalism? It is irresponsible and dangerous to add fuel to the fire of those who think this is a hoax. Sinclair shouldn't be allowed to air this. To produce debunked BS as news is despicable.

Ticket: # 4111663 - Sinclair's false content about Dr. ANTHONY FAUCI creating the Coronavirus

Date: 7/25/2020 1:57:51 PM

City/State/Zip: Webster, New York 14580

Description

"CNN Local television stations owned by the Sinclair Broadcast Group are set to air a conspiracy theory over the weekend that suggests Dr. Anthony Fauci, the nation's top expert on infectious diseases, was responsible for the creation of the coronavirus.

The baseless conspiracy theory is set to air on stations across the country in a segment during the program "America This Week" hosted by Eric Bolling. The show, which is posted online before it is broadcast over the weekend, is distributed to Sinclair Broadcast Group's network of local television stations, one of the largest in the country. A survey by Pew Research Group earlier this year showed that local news was a vital source of information on the coronavirus for many Americans, and more trusted than the media overall."

This type of outrageous conspiracy theory should be censored and banned, Sinclair should be sanctioned and at the very least fined for this. They have no factual information as evidence and they are inciting violence against Dr. Fauci.

Ticket: # 4111666 - Sinclair's airing of "Plandemic"

Date: 7/25/2020 1:59:21 PM

City/State/Zip: Panama City Beach, Florida 32407

Company Complaining About: Sinclair

Description

This weekend, Sinclair is airing the dangerous "Plandemic" on 300 of its stations. This show promotes false information about the COVID-19 virus which will result in people taking actions that jeopardize their own health, that of their families, and that of our country.

Ticket: # 4111675 - Sinclair Media

Date: 7/25/2020 2:03:25 PM

City/State/Zip: Coralville, Iowa 52241

Description

Sinclair media should not be allowed to air blatantly debunked coronavirus information that could put hundreds of thousands of individuals at risk. Peddling of conspiracy theories during a global pandemic, especially one that has hit the United States the hardest and killed over 100,000, is not only unethical and unconscionable but unamerican at its core. The FCC should not permit any new network to air clearly debunked conspiracy theories regarding the coronavirus, especially as it relates to medicine and healthcare.

Ticket: # 4111689 - Sinclair Broadcasting Airing Defamatory Conspiracy Theories About Dr. Anthony Fauci

Date: 7/25/2020 2:06:11 PM

City/State/Zip: Old Bridge, New Jersey 08857

Description

Sinclair Broadcasting is defending their planned airing via their "America This Week" program of what they know to be false and defamatory conspiracy theories regarding Dr. Anthony Fauci and his role in the COVID-19 pandemic that is continuing to ravage our nation at an increasing rate. Undermining trust in one of the nation's top public health officials during a crisis like this poses an immediate danger to the health and safety of all Americans. As such, I am asking Sinclair Broadcasting to not air this content.

Ticket: # 4111690 - Sinclair Broadcasting "Plandemic" Story

Date: 7/25/2020 2:06:21 PM

City/State/Zip: Allston, Massachusetts 02134

Description

Like many Americans, I am appalled that Sinclair Broadcasting Group is airing a segment that breathes life into the widely debunked "Plandemic" conspiracy theory that, among other falsehoods, claims that Dr. Anthony Fauci may have spread Covid 19. Sinclair owns or operates 130+ TV stations with local news coverage. An enormous amount of Americans will be exposed to this dangerously false information that only serves to encourage people to act irresponsibly (not wear masks or practice social distancing), leading to an overrun hospital system with burned out doctors and nurses who can't handle the number of patients who seek care.

It is irrelevant if Sinclair gives voice to an opposing viewpoint in the story, as that just creates a false equivalency. There are numerous conspiracy theories the media ignores everyday for this reason.

Ticket: # 4111725 - Sinclair Cincinnati WKRC (Local12),WSTR (Star64) Airing debunked 'Plandemic' as news

Date: 7/25/2020 2:16:13 PM

City/State/Zip: Cincinnati, Ohio 45249-2643

Company Complaining About: Sicclair

Description

WKRC (Local12),WSTR (Star64) both are going to air the much debunked documentary 'Plandemic' which is harmful to public health and claims Dr Fauci created the pandemic. It claims wearing a mask will make you sick. I have had a total of 8 friends get Covid19. Two are still in the hospital in intensive care. I find the misinformation in 'Plandemic' exceedingly dangerous and misleading. It should not be allowed to air whatsoever.

Ticket: # 4111737 - Sinclair airing of Pandemic

Date: 7/25/2020 2:22:44 PM

City/State/Zip: Cave Creek, Arizona 85331

Company Complaining About: Sinclair

Description

I would hope the FCC will take some action against Sinclair for airing "Plandemic" when they know the information presented in this show is false, and the host even admits he doesn't believe it was started by Dr. Fauci. This kind of broadcasting of out right lies needs to be stopped by the FCC. Pull Sinclair's license if you have to.

Ticket: # 4111741 - Plandemic airing on Sinclair Media outlets - WMSM47

Date: 7/25/2020 2:25:31 PM

City/State/Zip: Kenosha, Wisconsin 53142

Description

I'm writing today to report the airing of the widely-discredited pseudo-documentary 'Plandemic' on Madison's WMSM-47 and other Sinclair outlets across the country. The program is full of outright lies about Covid-19 that present a risk to public health. This is in direct violation of the stated FCC prohibitions against broadcasting false information.

Please take the necessary steps to prevent this harmful documentary from spreading lies and half-truths that will inevitably cause confusion at a time when verified, scientifically-sound information is needed more than ever.

Sincerely,

(b) (6)

Broadcasting false information that causes substantial 'public harm'

The FCC prohibits broadcasting false information about a crime or a catastrophe if the broadcaster knows the information is false and will cause substantial "public harm" if aired.

FCC rules specifically say that "the public harm: must begin immediately and cause direct and actual damage to property or the health or safety of the general public; or divert law enforcement or public health and safety authorities from their duties."

Ticket: # 4111745 - Misinformation

Date: 7/25/2020 2:28:44 PM

City/State/Zip: Lorain, Ohio 44052

Company Complaining About: Spectrum

Description

Sinclair broadcast group plan to air a massive misinformation about the pandemic this weekend. They are telling their viewers that it was a planndemic and Dr. Fauci made the virus. Please don't let them air such dangerous lies

Ticket: # 4111756 - SINCLAIR BROADCASTING

Date: 7/25/2020 2:31:55 PM

City/State/Zip: Berkeley, California 94703

Company Complaining About: Comcast

Description

I'm deeply concerned about Sinclair broadcasting and have been for quite some time. My understanding is but they force their newscasters in various cities across the country to read statements they prefer and have them masquerade as journalism being reported. Currently it seems Sinclair is pushing propaganda, dangerous propaganda, that doctor Fauci is responsible for the coronavirus pandemic in America. This will endanger doctor Fauci's life. Dr. Falchi did not orchestrate this pandemic and putting this out there in the mouths of journalists that people may Trust is not only unconscionable but should be illegal. What can be done about this? All we can do is voice our concerns and complain to you and hope that something gets done. Thank you

Ticket: # 4111766 - Sinclair Broadcasting Group & airing harmful conspiracy theories that incite violence & harm Americans

Date: 7/25/2020 2:34:52 PM

City/State/Zip: Rochester, Minnesota 55904

Company Complaining About: Spectrum

Description

Sinclair Broadcasting Group & airing harmful conspiracy theories that incite violence & harm Americans. Airing RU propaganda & inciting violence against Dr. Fauci. Creating doubt in science-based information on Covid 19 that will further imperil the a American public.

Ticket: # 4111770 - AT&T Criminal Sales Activity

Date: 7/25/2020 2:35:33 PM

City/State/Zip: Los Angeles, California 90034

Company Complaining About: AT&T

Description

In January 2020 I contacted At&t to move my service to my new home. After months of calling and hours on the phone I have found the following. At&t is aware that some of their commission based Sales people are routinely lying to customers, and one of those people installed my service using "illegal" tactics. This in turn forced me to separate my accounts to continue service, which increase both my cell phone and internet bills, and after multiple app tempts by different technicians to fix my internet slow my service out dramatically (cut from over 50meg/sec to 6meg) and my bill increased yet again. the customer service people told me that "in the eyes of ATT, Covid-19 is over, and they are able to operate in this way". since those calls ive been instructed by other att custmer service people, to cancel all my accounts and rejoin to make things cleaner. I did just that and it caused even more confusion. i still have no internet, i still have no resolution, I'm still paying my bills. please help me, I've calculated that I've spent over 17 hours on the phone, and 3 in store trips. one in store trip lasted 4 hours.

Ticket: # 4111777 - call to break up Sinclair Broadcasting

Date: 7/25/2020 2:37:11 PM

City/State/Zip: Silver Spring, Maryland 20910

Description

I believe that Sinclair Broadcasting is no longer acting for the public good. I believe they are a right-wing propaganda outlet whose goal is to destroy locally-owned and operated media outlet across America. I call for the FCC to increase oversight of Sinclair Broadcasting, especially in light of a recent interview with a discredited phony scientist who is peddling a discredited conspiracy theory about the origins of coronavirus. I call on the FCC to do more to prevent giant national interests from dictating an extremist right-wing agenda to local broadcasters across the country.

Ticket: # 4111783 - Sinclair Airing

Date: 7/25/2020 2:39:54 PM

City/State/Zip: San Jose, California 95125

Company Complaining About: Other

Description

I understand Sinclair stations are about to air dangerously false propaganda in the form of Plandemic. This is a dangerous, false Conspiracy Theory and it is unconscionable, particularly during a pandemic. People rely on their local news stations for factual li formation, not false and discredited garbage. Sinclair should NOT be airing this piece that is harmful to public safety and knowledge.

Ticket: # 4111790 - Dangerous conspiracy theory aired can endanger lives

Date: 7/25/2020 2:42:01 PM

City/State/Zip: Redwood City, California 94063

Description

Sinclair-owned TV stations planning to air discredited conspiracy theories from "Plandemic" which asserts that Dr Fauci started this pandemic is beyond irresponsible and a danger to the public's health and well being. This is not "free speech", this is a person using their wealth to propagate their own agenda. This is why we have the FCC and I hope this is investigated and stopped immediately. Thank you.

Ticket: # 4111793 - Dangerous false news narrative

Date: 7/25/2020 2:43:19 PM

City/State/Zip: Midland, Texas 79704

Company Complaining About: Sudden Link

Description

Sinclair which owns several local news affiliates is re broadcasting scientifically discredited claims regarding the COVID-19 virus that, if followed and believed, would place its viewers in immediate health jeopardy and may even cause their death! Sinclair is aware of the debunked science behind the claims but is proceeding anyway!

Ticket: # 4111807 - Sinclair Broadcasting Group running discredited conspiracy theory

Date: 7/25/2020 2:47:50 PM

City/State/Zip: Birmingham, Alabama 35212

Description

Sinclair Broadcast Group-owned local television stations across the country are set to run a discredited conspiracy theory over the weekend that Dr. Anthony Fauci was responsible for creating the coronavirus, according to a Media Matters report.

This must be stopped!!

Ticket: # 4111817 - Mikovitz (from Plandemic doc) interview by Eric Bolling on Sinclair News affiliates stations

Date: 7/25/2020 2:50:49 PM

City/State/Zip: Winchester, New Hampshire 03470

Company Complaining About: Sinclair

Description

I am very dismayed and appalled by this. Many people do not think much, and will not research farther, and thus will be strongly influenced by whatever they hear on TV on "supposed news" shows. Mikovitz has already been discredited on numerous occasions for spreading misinformation. This could be a great threat to Dr. Fauci who she even claims "helped create Covid-19" which is completely untrue. Dr. Fauci and his family have already been threatened many times and thus need even more security surveillance as it is. This will possibly - and most likely - make for even greater misunderstandings and misinformation - about Dr. Fauci and Covid-19. PLEASE do not allow this to ridiculous interview air, or at least have some sorts of disclaimers or something! We already have enough problems with the pandemic. Thank you for listening.

Ticket: # 4111819 - Eric Bolling and Sinclair regarding America This Week

Date: 7/25/2020 2:51:38 PM

City/State/Zip: Page, Arizona 86040

Description

Killing people by spreading provable false information about the spread and treatment of the corona virus. Treating fiction as if it were truth. Our local news agencies are responsible for giving us verifiable truth, not conspiracy theories.

Ticket: # 4111821 - Plandemic airing on Sinclair owned stations

Date: 7/25/2020 2:51:48 PM

City/State/Zip: Austin, Texas 78738

Description

Please stop the national airing! It is unacceptable that hateful and unfactual information that could lead to more American death be allowed to air across the nation. To outrageously claim that Dr T Fauci was responsible for the outbreak and not strongly condone this message is the reason his family is receiving death threats and why the COVID-19 disease continues to spread In the US. I strongly request the airing of this show called plandemic be pulled as free speech does not include lies that will absolutely lead to mass death and violence.

[Ticket: # 4111830 - Sinclair Broadcasting Plandemic Conspiracy During America This Week](#)

Date: 7/25/2020 2:57:33 PM

City/State/Zip: Munford, Tennessee 38058

Description

Sinclair is going to air an exhaustively debunked conspiracy about the coronavirus to thousands of homes across the country via their local stations on the news program America This Week. This is going to put countless lives in danger and will claim blatantly false information as truth. Please do not allow this documentary to be aired.

Ticket: # 4111851 - Sinclair airing mis-Information about Covid-19

Date: 7/25/2020 3:10:01 PM

City/State/Zip: San Antonio, Texas 78261

Description

Several the San Antonio Texas local TV stations are planning to air false mid-information about Covid-19 based on debunked Plandemic video. One example is that wearing masks increase infections. masks

Ticket: # 4111863 - Sinclair Broadcasting is airing a false Pandemic video.

Date: 7/25/2020 3:13:53 PM

City/State/Zip: San Jose, California 95128

Company Complaining About: Comcast

Description

Sinclair Broadcasting must be stopped from broadcasting this false covid-19 video. This video has incorrect unproven information in it that can jeopardize progress against covid-19. If people take the actions encouraged in this video our nation's health will be damaged!

Ticket: # 4111868 - Sinclair / Plandemic

Date: 7/25/2020 3:14:23 PM

City/State/Zip: Portland, Oregon 97217

Description

As of today, 7/25, the US has had at least 143,000 deaths due to the Coronavirus.

This weekend, the Sinclair Broadcasting group is televising "Plandemic," the conspiracy-theory propaganda piece that suggests, among other theories, that the virus is "activated" by face masks, casts suspicion on Dr. Anthony Fauci and his guidance regarding the pandemic, and many other claims that have been proven demonstrably false by Science magazine, as well as many others.

The doubt this propaganda piece inspires will directly lead to more people contracting and dying from the disease.

Ticket: # 4111903 - Public health risk

Date: 7/25/2020 3:30:25 PM

City/State/Zip: Duvall, Washington 98019

Company Complaining About: Other

Description

Sinclair media is airing information that is false and harmful to viewers about the coronavirus. Please do not allow the interview with Judy Mikovitz. You are allowing the American public to be mislead and harmed.

Ticket: # 4111914 - Bend Broadband late fees and shutting off service

Date: 7/25/2020 3:34:06 PM

City/State/Zip: Bend, Oregon 97701

Company Complaining About: Bend Broadband

Description

Bend broadband has been charging late fees during the pandemic, they have also started to shut customers off of their internet. Their customer service reps would not fix the issue and they have lied on their website about not charging late fees or shutting customers off. What they're doing is blatantly illegal, especially during a global health crisis.

Ticket: # 4111919 - Conspiracy theory about Dr Fauci

Date: 7/25/2020 3:36:46 PM

City/State/Zip: Paso Robles, California 93446

Company Complaining About: AT&T

Description

Please stop the airing of the Dr Fauci conspiracy theory about the origin of covid-19 blaming Dr Fauci on local TV stations. This is upsetting and disgusting.

Ticket: # 4111952 - Sinclair Broadcasting, Fox News, Rush Limbaugh, etc

Date: 7/25/2020 3:46:02 PM

City/State/Zip: Portland, Oregon 97202

Company Complaining About: None, Broadcast Over Air.

Description

Purposefully broadcasting non-credible information about COVID, etc.. FCC is responsible for over seeing the spread of non-credible, dangerous, hateful information on TV and radio. It is presently not doing so. FCC clearly needs new leadership.

Ticket: # 4111960 - Sinclair Broadcasting to air "Plandemic"

Date: 7/25/2020 3:47:14 PM

City/State/Zip: Livermore, California 94550

Description

Sinclair intends to broadcast the right wing conspiracy documentary "Plandemic", which pushes the narrative that the COVID-19 pandemic is a hoax and says that Dr. Anthony Fauci of the CDC created the virus. This is dangerous, libelous and creates the potential for incitement to violence against a national hero, Dr. Fauci. If Sinclair cannot be stopped from broadcasting these dangerous lies, they should face steep fines for trafficking in information that puts the public and specific individuals at risk.

Ticket: # 4111973 - Sinclair

Date: 7/25/2020 3:49:47 PM

City/State/Zip: Longview, Texas 75601

Company Complaining About: Sinclair Broadcasting

Description

TV stations have an obligation to report true and actual facts. It is criminal that Sinclair Broadcasting report that the Covid19 virus was created by DrFauci. He has faithfully served 6 administrations and his credentials are impeccable. Ever since the GOP has taken over the FCC partisan politics have played a central role. The chairman is responsible for this. Make the airwaves safe again.

Ticket: # 4111980 - Sinclair affiliates to broadcast dangerous COVID-19 conspiracies

Date: 7/25/2020 3:51:41 PM

City/State/Zip: Dekalb, Illinois 60115

Description

Sinclair affiliates plan to air a dangerously misleading program. The airing of America This Week hosted by Eric Bolling needs to be stopped. Bolling interviews discredited researcher Judy Mikovitz who suggests that Dr. Anthony Fauci may be responsible for the coronavirus, that social distancing makes no sense and that wearing masks actually "activates" the virus. These discredited, unproven views are exceptionally dangerous and the choice to broadcast them is reckless and beyond irresponsible.

Ticket: # 4111991 - Sinclair stations airing "Plandemic"

Date: 7/25/2020 3:57:27 PM

City/State/Zip: Bellingham, Washington 98225

Description

I heard about Sinclair's plans to air the conspiracy theory based "documentary" "Plandemic" on its stations. This country is already at a very low point in the fight against the coronavirus, and airing clearly misleading and debunked "information" is dangerous and unacceptable, as numbers continue to spike, and leaders have turned common sense approaches to contain infection rates political. Airing this will make it impossible for medical professionals to prevent more infections. These are unprecedented and terrifying times. Please prevent Sinclair from contributing to the problem rather than the solution. This is no time for them to play politics. Our lives depend on facts and science, not conspiracy theories.

Ticket: # 4112025 - Sinclair's subversive and dangerous attack on scientific understanding of the C

Date: 7/25/2020 4:23:57 PM

City/State/Zip: Lancaster, Pennsylvania 17602

Description

The Sinclair conglomerate is compelling local TV stations to air a mendacious, dangerous program which, as I have come to understand it, includes along with segments of the discredited "Pandemic" film, attacks on vital medical understanding of the COVID-19 pandemic and attacks on Dr. Fauci. This scurrilous piece of propaganda, if broadcast, would put in danger the health and lives of people in our community and would increase the threat on Dr Fauci's life by armed conspiracy-fueled extremist elements in our society. Please prevent the broadcast of this subversive piece of propaganda, and if this is not possible, compel

Sinclair to allow local stations to disclaim responsibility for its message on their news programs for a week after the broadcast.

Ticket: # 4112030 - Sinclair air false statements and debunked claims

Date: 7/25/2020 4:26:53 PM

City/State/Zip: Soquel, California 95073

Company Complaining About: Comcast

Description

(b) (6)

False statements on Covid 19 by a right wing conspiracy pushing statements by debunked Doctor and in all probability being financed by Trumps campaign

Ticket: # 4112051 - Sinclair broadcasting, "Plandemic" documentary

Date: 7/25/2020 4:38:14 PM

City/State/Zip: Sunnyside, New York 11104

Description

This weekend (7-25/26 2020), Sinclair broadcasting will air a documentary called "Plandemic" that claims (among other things) that Dr. Anthony Fauci created the Sars-COV-2 virus.

This documentary has already been (narrowly) made available via the web and elsewhere, and has big currency among the lunatic fringe on the right wing. It has been thoroughly debunked. And it has already caused major issues for Dr. Fauci and for the public health efforts he orchestrates. (Threats against himself and his family, etc.)

In today's circumstances, with the pandemic surging in the US and the Trump administration working actively to a) hinder data gathering in the interest of public health; b) undermine the effectiveness of agencies like CDC in acquiring, validating, and disseminating good information; and c) politicizing to an extreme degree deliberations that should be made exclusively in response to objective research; casting libelous assertions to damage the credibility of experts who advise on public health matters is actively, deliberately criminal: foreseeable to result, directly or indirectly, in less-effective public health response, reduced compliance with behavioral recommendations aimed at reducing disease spread, and in increased illness and death.

Please bring Sinclair firmly to heel, immediately. This is shameful.

Ticket: # 4112070 - Sinclair Broadcasting a totally discredited conspiracy theory

Date: 7/25/2020 4:47:50 PM

City/State/Zip: Mountain City, Tennessee 37683

Description

Sinclair Broadcasting is set to air a totally discredited piece on Covid-19 by a conspiracy theorist. Lay people may believe what is said because being lay people, they do not understand the false information that a single person is pushing. This may do them great harm!

Ticket: # 4112078 - Sinclair conspiracy theories

Date: 7/25/2020 4:51:18 PM

City/State/Zip: Menlo Park, California 94025

Description

I just read that Sinclair stations plan to air a documentary including a conspiracy theorist who claims Dr Fauci started the pandemic, and that beaches should be open because sand and water can cure the disease. This is a clear violation of the FCCs rules against false information that can cause public harm. This segment should not air.

Ticket: # 4112111 - A T & T Cable Service

Date: 7/25/2020 5:26:36 PM

City/State/Zip: Frisco, Texas 75036

Company Complaining About: AT&T

Description

We had already filed a complaint to the local BBB regarding such terrible service with A T & T in our neighborhood back last month-(June)-Case (b) (6)

Per that complaint we were provided additional incentives to our A T & T account to satisfy the complaint, but they were not satisfied-because within just a few weeks of new billing and credits-A T & T completely messed up our billing and account which forced us to have to go back to internet and basic cable only! This has been frusting during this Pandemic! Our internet for this area continues to run at terrible speeds and we have not been provided what we were promised for our billing and account.

We have also been notified by our local HOA-that they are attempting to obtain another cable/internet competitor for this neighborhood, but have been unsuccessful due to A T & T monopolizes this area.

Ticket: # 4112123 - Sinclair to broadcast defamatory, false and misleading stories during a time of national COVID-19 crisis that can cause of thosands of Americans

Date: 7/25/2020 5:41:18 PM

City/State/Zip: Hartford, Connecticut 06103

Company Complaining About: Sinclair Broadcasting Company

Description

<https://www.yahoo.com/lifestyle/hundreds-local-tv-stations-across-163727552.html>

Sinclair Broadcasting will excerzise its free speach rights in the run up to national elections in the time of COVID-19 PANDEMIC by broadcasting a fully refuted, scientifically false story defaming a national leader in war against COVID-19,Dr. Fauci.

Ticket: # 4112135 - Multiple technicians out and still NO internet

Date: 7/25/2020 5:48:54 PM

City/State/Zip: Celina, Texas 75009

Company Complaining About: Sudden Link

Description

On July 17th my husband paid for an account for Suddenlink to set up Internet at our newly built house. One tech came and said "sorry can't do anything" on the 18th. So we called and they said he didn't turn anything in so they would send another tech out. 2nd tech came out and said our line is bad, and left. Nothing was fixed. Now it's the 21st and another tech comes and leave a door hanger on the front door saying it's all fixed. Never saw them. Then another tech come Wednesday and comes into the house, then outside and then leaves. Never a word. And when we call Suddenlink we ask to speak to a Supervisor because of all that has occurred. The person on the phone has no answers, and then says it is mandatory 48 hours to wait for a supervisor to call us during Covid, at was the 23rd. They said on the 23rd that we would have a tech at our house on the 25th of July between 2-5 pm. I rearranged my work schedule to be home and not one person called or came. I am lodging a Formal complaint because they are the only ones that service our area and we have no other choices. We work from home due to Covid and I can't because I have no internet.

Ticket: # 4112145 - Sinclair stations airing false and out right lies about the pandemic during trusted broadcasts.

Date: 7/25/2020 5:54:12 PM

City/State/Zip: St. Louis, Missouri 63146

Description

Sinclair stations are planning on airing false and out right lies about the pandemic during varies news broadcasts making it look like a real broadcast. In the broadcast they blame Dr. Fauci for creating the virus, wearing a mask makes you sick a makes vaccines not work. This will put Dr. Fauci under greater risk of being harmed by nutjobs who already believe this crap and put even more people at risk because stupid people will believe this propaganda. I know there is free speech, but having so called trusted broadcasters air a false interview under the titled "news" is misleading, irresponsible, life threatening to many people, and should be criminal.

Ticket: # 4112175 - Sinclair Broadcasting

Date: 7/25/2020 6:25:33 PM

City/State/Zip: Brooklyn Park, Maryland 21225

Description

Sinclair Broadcasting stations are plan on airing a fully debunked conspiracy theory that blames Dr Fauci and says that face masks activate covid-19 among many other false statements that are not fact checked, that's so absurd that Facebook even took it down.

You need to stop this from airing it's a threat to the country.

In this week's episode of "America This Week" hosted by Eric Bolling, stations around the country will watch as Bolling interviews Judy Mikovits, the medical researcher featured in Plandemic, which has been repeatedly discredited and pulled from platforms such as Facebook and YouTube in May.

"Suggesting that wearing a mask can make you sick could lead to imminent harm, so we're removing the video," Facebook said at the time.

Throughout the show, a red banner runs at the bottom reading, "DID DR. FAUCI CREATE COVID-19?"

Ticket: # 4112266 - TV Local Channels Issue

Date: 7/25/2020 7:24:26 PM

City/State/Zip: Nebo,, North Carolina 28761

Company Complaining About: AT&T

Description

Dear FCC,

We transferred our ATT/DirecTV cable service yesterday.

It was at an address we were renting since 4/1/2020, moving to our new home under construction less than 1000yds away. At rented address, we had NC (Charlotte) channels so we could stay abreast of NC mandates during the pandemic. Our new home's address ... ACCORDING TO FCC REGS PER ATT/DirecTV ... requires we are serviced by stations out of SC. We were told that if we were in Burke County, NC, which we are ... we pay our property taxes to Burke County ... we could get the NC local news out of Charlotte, NOT SC news out of Greenville and Spartanburg. This, we were told was due to our address and FCC regulations.

We are IN Burke, we pay taxes TO Burke, in the midst of a pandemic, we NEED NC/Cooper info ... NOT SC/McMaster info.

What gives?? We're we just getting a run-around from ATT/DirecTV?

Please advise!!

Ticket: # 4112276 - Dangerously false COVID information broadcast by Sinclair Media

Date: 7/25/2020 7:29:13 PM

City/State/Zip: Superior, Wisconsin 54880

Company Complaining About: Sinclair

Description

Sinclair Media, who owns various local access news stations across the country and in my area too will be airing a program called "Plandemic". This programs intentional false information on COVID-19 was put together by a woman who has claimed that mask wearing actually causes the virus and she actively pushes for people to stop wearing masks. On top of that she is accusing our national top infections disease expert Dr Anthony Faucci of actually creating COVID-19 himself! not only is this information factially incorrect and without merit or proof, it WILL DISCOURAGE MASK WEARING IN A PANDEMIC AND COST PEOPLE THEIR LIVES! this must not be shown and I feel the FCC needs to step in and stop this as this misinformation will cost Americans their lives if people act on it! Please help!

Ticket: # 4112296 - Sinclair broadcasting false broadcasting

Date: 7/25/2020 7:45:13 PM

City/State/Zip: Berkeley, California 94710

Description

Sinclair broadcasting is airing a false story about Dr. Fauci and Covid. They are violating the FCC False Broadcasting and Fair and Balanced rules.

Please review the broadcast and news reports about the broadcast.

A web search for "sinclair broadcasting fauci" brings up a list of articles such as:

<https://www.mediamatters.org/sinclair-broadcast-group/sinclair-gives-plandemic-conspiracy-theorists-platform-spread-their-lies>

Such false stories about Dr. Fauci and Covid do great harm to the american community and should be stopped. The first amendment is not cover for a broadcasters responsibility for truth and fair and balanced broadcasting.

It is indecent and irresponsible t to falsely accuse Dr. Fauci who is already provided federal security because of threats to him and his family.

It's unclear to me the time each of the hundreds of Sinclair local stations broadcasted this segment. I can see at KBAK, <https://bakersfieldnow.com/watch>.

Thank you for your service and attention to this matter.

Ticket: # 4112305 - Sinclair Broadcasting - story "Plandemic" - are they broadcasting in public interest and benefit or to promote conspiracy

Date: 7/25/2020 7:53:10 PM

City/State/Zip: Kirkland, Washington 98034

Description

This is a copy of the message I sent to Sinclair. Video captured from broadcast is on the internet. Sinclair has delayed broadcast in other markets. However the attempt to do so and the future broadcast undermines the effort nationwide to focus attention and managing the pandemic. It appears to be an attempt to smear a public official - for doing their job.

From quote of Sinclair Broadcast Group by Media Matters for America (mediamatters.org, accessed 2020/07/25) :

' The company stated that it was "a supporter of free speech and a marketplace of ideas and viewpoints, even if incredibly controversial." '

So I'm sure that you'll appreciate my efforts to encourage viewers in the Sinclair service areas across the country to file protests with the FCC. Freedom of speech works for all.

Have your lawyers look up the meaning of "Reckless endangerment" and "Culpable negligence" in all 50 states, plus the laws concerning public health boards (cities, counties, and states) enforcing their existing administrative laws to manage and control spread of infectious diseases. Those laws are in place not because of Dr. Fauci; nor were they enacted for COVID-19. They predate COVID-19, often by decades. Dr. Fauci's actions are founded on the same principles as those of the public health officials. Supporting conspiracy activities to impede the work of public officials may be a violation of US Code 18 115 and/or US Code 18 2385.

Your program (Plandemic) would send the wrong message to those who want to believe the pandemic is a hoax. It would encourage its audience(s) to flout the requirements of public health authorities. In short, it encourages a reckless endangerment of public safety. So yes, please have your lawyers review your position. While you're at it, ask them to read the US Code for those laws, already on the books, concerning organizations that promote attempts to overthrow government - not just the federal government, but state, county and city governments that have been duly elected.

These are laws put in place back in the 1950s, and strengthened after 9/11, which could be construed such that persons or entities spreading misinformation against public officials and those trying to manage the spread of the COVID-19 disease are acting as domestic terrorists. Indeed Trump's own officials in HHS have already declared that COVID-19 could be a biological weapon, Trump has argued that we are at war with the SARS-CoV-2 virus.

Ask your legal team what the civil and criminal liabilities might be if your actions can be demonstrated as "reckless endangerment". Is it the intent of Sinclair to promote a conspiracy which propagates disproven information, resulting in reckless endangerment of the public?

When the letters start piling in to the FCC, suggesting that you are not broadcasting for the benefit of the public - how will your license approvals go? Reckless endangerment and culpable negligence are hardly recommendations.

<https://www.mediamatters.org/sinclair-broadcast-group/sinclair-gives-plandemic-conspiracy-theorists-platform-spread-their-lies>

Ticket: # 4112324 - Suppression of the TV Program "Plandemic"

Date: 7/25/2020 8:29:34 PM

City/State/Zip: Albuquerque, New Mexico 87123

Company Complaining About: Sinclair Broadcast Group

Description

I oppose all attempts to censor, suppress, or prevent TV stations from airing the program "Plandemic", which presents valid information on the COVID world pandemic.

The public needs to see ALL sides of the story, and certain owners of mainstream media who have a lot of profits to make from the COVID pandemic are trying to suppress the right of the public to view the Sinclair broadcasts.

Opponents of this broadcast have solicited complaints from the general public on Twitter and other social media from people who have not even seen the broadcast--before it even airs.

Please do not censor the Plandemic broadcast. People can watch this program and make their own informed decision about the coronavirus threat and its origin.

FREEDOM OF SPEECH IS GUARANTEED BY THE FIRST AMENDMENT, AS WELL AS FREEDOM OF THE PRESS. PLEASE DO NOT FAVOR THE BIASED MAINSTREAM MEDIA WHICH IS ATTEMPTING TO SUPPRESS THIS PROGRAM "PLANDEMIC"; PLEASE ALLOW ALL SOURCES OF MEDIA CONCERNING THIS PRODUCTION TO HAVE BROADCAST ACCESS TO THE PUBLIC.

Ticket: # 4112325 - Payment Extension.

Date: 7/25/2020 8:29:40 PM

City/State/Zip: Webster, Texas 77598

Company Complaining About: Boost Mobile

Description

I inquired to Agent Abhishek, about a payment extension until July, 29, 2020. That way I will have enough time to go to the bank and upload the funds to my prepaid card. However, Abhishek told me that in order to give me a three day extension I would have to change my phone plan, which would be a disadvantage to me as a consumer. I believe the agent provided poor customer services to me out of bad faith. This is not the time for poor customer services, especially when we are in a pandemic that impact people's lives.

Although I have been faithfully paying my bill on time every month, the agent did not try to accommodate me knowing that this (first time) extension is in good faith.

Ticket: # 4112342 - Sinclair affiliates broadcasting discredited and dangerous conspiracy theories.

Date: 7/25/2020 8:41:20 PM

City/State/Zip: Somerset, New Jersey 08873

Description

Sinclair Broadcasting, which owns local news affiliates of Fox, ABC, CBS, and NBC plans to air medically dangerous, previously debunked conspiracy theories about Dr. Fauci and Covid-19 origins and prevention. Smart viewers will not allow local news that millions of people depend on as a source of truth and credibility to be hijacked by Republican political agendas. People are dying. There is no reason that Sinclair and it's affiliated should be airing portions of a conspiracy video and giving airtime to the pseudo scientist behind it. Media conglomerates are a disgrace and so is the death of hundreds of thousands of people living in this country. For god sake do something about it.

Ticket: # 4112347 - Plandemic

Date: 7/25/2020 8:43:50 PM

City/State/Zip: Cochran, Georgia 31014-6819

Company Complaining About: Sinclair Broadcasting

Description

The possible airing of the "Plandemic" on Sinclair Broadcasting, which accuses Dr. Fauci of planning the Covid-19 pandemic is irresponsible and harmful to the dissemination of accurate information regarding Covid-19. There is already so much false information out on social media about the virus that we don't need this reckless, false narrative to see the light of day.

Ticket: # 4112410 - Internet not being fixed

Date: 7/25/2020 9:42:12 PM

City/State/Zip: Morgan Hill, California 95037-9406

Company Complaining About: Frontier Communications

Description

Our frontier internet fails 25 times daily. Frontier cant fix it. We are also told the have a monopoly, so we cant go elsewhere. This means they have no incentive to update our slow (12mpbs down/0.8 up) old system.

I had to tell my son he could not live with me during the pandemic for his classes as i have no internet and am not allowed to go elsewhere.

I either want it fixed or another vendor option.

Ticket: # 4112411 - Internet Issues**Date:** 7/25/2020 9:44:28 PM**City/State/Zip:** Greenville, North Carolina 27858**Company Complaining About:** Sudden Link

Description

Good evening,

I am very frustrated with the lack of service I am receiving from Suddenlink. Due to the Coronavirus, my wife and I are trying to work from home yet we do not have internet access. Soon our kids will need access to perform school work. Our internet went out on Wednesday 7/15. A technician came to my house on Friday 7/17 and spent two hours to let me know there is no issue within my home and the issue is with Suddenlink equipment outside my home in the neighborhood. He said he would place a maintenance ticket to get this fixed. He explained he was a contract worker from Texas and that no one in this area knows what is going on and that is why they called him in. I called back to confirm with customer service a maintenance person would come and was told yes, on Tuesday 7/21. On Tuesday, another technician showed up and told me the issue was with my modem and that I should never had this modem with the 1 Gig speed I was paying for since it would not give me that speed. Then he said that there is also an issue outside the home with the lines in the neighborhood and that he would put in a maintenance ticket. He then said the contract people don't know what they are doing and did not put the ticket in right, that he should have never been sent out there. He said maintenance needs to come out. So I called back that night and spoke with customer service again and they said they would then send maintenance out, the earliest they could come would be Saturday 7/25. I called several times this week to confirm someone would be coming out Saturday since they were supposed to have come the past Tuesday and didn't want to get burned again, yet here we are. Today, Saturday 7/25, I just called back in since still having internet issues and customer service said no one came out today. They see notes on the account from the techs and from customer service, but the customer service person didn't do something right and so no one came. She then told me she couldn't get maintenance out, even though that was what I needed, so another 3rd tech needs to come out. I asked why a 3rd tech would need to come out and she said that is just how it has to be, they have to send in the ticket. I asked if she could not call the techs or the tech dept or the tech supervisor to get them to submit the ticket so we would not have to wait again, especially since this is the 3rd time I have heard the same thing - everyone else didn't do something right so I have to wait several days for someone else to come out and try to do it right. I asked to speak with her supervisor and she said there are no supervisors and that one could give me a call in 24 hours. I am going on vacation next week and will have to have someone come and sit in my house to wait for a tech to come Thursday (again waiting 5 more days!), mind you the 3rd tech, to submit a ticket to then wait again to have a maintenance person to come out? There is no way anyone would find that reasonable or even close to any type of good customer service. I feel that I am getting the run around and that the employees of Suddenlink do not know what they are doing. I would like someone to please respond to me and get someone out this week to solve my internet issues please. Can someone please get a tech to send in whatever is needed to get a maintenance person out?

Thank you,

Ticket: # 4112429 - Actual Fake News

Date: 7/25/2020 10:00:04 PM

City/State/Zip: Bend, Oregon 97701

Company Complaining About: Other

Description

Sinclair owned television stations are broadcasting parts of the discredited "Plandemic" conspiracy theory video to support a false narrative. Also, please update the complaint form. A person attempting to make a complaint is required to select one of several options that don't apply to most situations.

A link to an article with more information about the fake news is below:

https://www.scarymommy.com/pandemic-mikovits-sinclair-interview/?utm_source=yahoo&utm_campaign=feed

Ticket: # 4112478 - Global Tel Link

Date: 7/25/2020 11:22:37 PM

City/State/Zip: Inglewood, California 90302

Company Complaining About: Global Tel Link

Description

Global Tel Link is a rip off and this scam is a new low:

- 1) I deposited \$75.00.
- 2) They claim someone requested a charge back from an account and just so happen to have the same first six number of my debit card and expiration date.
- 3) They say that I owe them \$75.00; however, I did not talk with anyone to add up to \$75.
- 4) They will not provide me with an accounting of my calls and charges.

The calls are already ridiculously, outrageous and it is the only means that we have to communicate with our love ones during this pandemic. It is my opinion that they believe me to be desperate enough that I would go to Western Union (which is the option that I was provided to remove the block) to pay another \$75 cash.

I am asking that this entity be investigated and that I be refunded my money back to me account. As I stated this is my only means for communicating with my son as we only have one option and no other that I further ask that this entity not be allowed to take advantage of the consumers.

I believe all mine communications with Global Tel Link was recorded and I confirmed with Lovely that they were. These recordings should validate my claims and the recording of the person that called yesterday, July 24, 2020 should have been recorded as well.

Ticket: # 4112505 - Gouging during Global Pandemic

Date: 7/26/2020 12:33:17 AM

City/State/Zip: Durham, North Carolina 27713

Company Complaining About: Sprint

Description

I have contracted with them for sixteen months now. Not sure how I got off the phone thinking that my bill would be \$150 to getting a \$250 bill.

On January 31st, I got an email stating that I could make six more payments to complete the buying of the phones or I could buy them (\$48 for both androids or \$8/mnt for six month) and \$25/mnt for six months or a one time payment of \$150 for the iPhones. So, since, I have paid six months payments that they are still charging me for (with the exception of the androids that I have literally bought out twice - paying \$8/mnt for 6 months and giving a one time payment of \$48 for each iPhones. It is showing that i owe \$103.20. That is the amount that I paid for the androids (to buy them). My bill should be \$150 NOT \$250.

Ticket: # 4112522 - Spoofed Using my Employers Equity Compliance Office Number Starbucks

Date: 7/26/2020 1:25:15 AM

City/State/Zip: Marina, California 93933

Company Complaining About: Starbucks Compliance Officer

Description

Hello, today, Saturday July 25th 2020 I received a phone call and the person left a voicemail message saying they were calling from my employer Starbucks Ethics Compliance Hotline Department - 800-611-7792. I called the number back and the person tried to verify my name (had my name) asked if I worked at the store that I did work for and then started asking me questions about Covid-19. Asking me if I ever got tested and if I was aware that someone in the store had Covid-19. I hung up the phone after listening to this, then called my store manager and district manager. They told me to block the number. But, this is too weird. A few months ago many Starbucks in the area were robbed, by a person pretending to be a vendor. Our purses, ID's pay check info, computers, etc. were stolen. The police apparently caught the guy and returned most of our stuff. This is just too weird and no one in our store has ever heard of anything like this. My mom called the number back from her phone and spoke to a professional person who said they would never make calls like this, and they definitely wouldn't display the phone number. I don't know if she totally knows because she said they work for a 3rd party contractor with Starbucks to document our workplace concerns.

This needs to be checked out.. Thank you.

Date: 7/26/2020 6:00:40 AM

City/State/Zip: Camp Hill, Pennsylvania 17011

Company Complaining About: Comcast

Description

Sinclair owned stations are showing Pandemic a conspiracy based show about the Covid 19 that to some people could appear factual. It endangers the public's health and safety and I also believe it's voter tampering to the upcoming elections.

Ticket: # 4112547 - Sinclair Broadcasting

Date: 7/26/2020 6:15:36 AM

City/State/Zip: Venice, Florida 34293

Description

I am outraged that Sinclair Broadcasting is planning to broadcast news report featuring commentators offering discredited conspiracy theories about the nation's coronavirus pandemic. They should have their license revoked for knowingly spreading dangerous conspiracy theories and harming people's health and endangering the reputations of our healthcare heroes fighting this virus.

Ticket: # 4112584 - Fox Sports vs Dish TV dispute

Date: 7/26/2020 8:56:14 AM

City/State/Zip: Dallas, Texas 75225

Company Complaining About: Dish Network

Description

The contract dispute between Fox Sports and Dish TV has been ongoing for more than 6 months. Now with live sports coming available for the first time since the beginning of COVID, it's time that the FCC stepped in and ended the dispute in the interest of citizens wishing to honor stay-at-home orders but unable to watch sports on their tv. Enough is enough...do your just as the Federal Government !!

Ticket: # 4112590 - Internet Service Repair**Date:** 7/26/2020 8:59:38 AM**City/State/Zip:** Mequon, Wisconsin 53092**Company Complaining About:** Spectrum

Description

Multiple times a day my internet will disconnect and become unusable. Every time it's referred to the Maintenance area and every time I am told they fixed something but it what they did didn't fix anything. Each time I need to have a tech visit my house to start the process over and while I have to hear about their employees and CoVid safety what about my families. Each time a tech will visit and say it's not between the tap and modem and every time the phone tech can see my modem disconnect multiple times. I had this 8 months ago as well. I have video no one came and even checked the tap in the service box.

Ticket: # 4112630 - Customer service has caused undue hardship, mentally and financially.

Date: 7/26/2020 9:58:29 AM

City/State/Zip: Oxford, Georgia 30054

Company Complaining About: T Mobile

Description

Ordered 2 samsung active 2 watches on promotion. Tmobile sent one watch to an old address and 1 to correct address. One week later I received an apple watch instead of Samsung. Yes, Tmobile error!!! I was told I need to send watch back. This is a total inconvenience to me per pandemic and I am under quarantine. It has been 2 weeks since ordered. Also the watch I currently have is not working. I have made multiple calls and issue isn't resolved. I have been left a very rude voicemail by a Tmobile manager who stated "it's perfectly ok to file a lawsuit against Tmobile", wow!! My bill has increased tremendously. Tmobile is refusing to address my concerns. This has caused undue severe stress. I have had to talk with Tmobile multiple hours while at work and have loss time and felled short of work quota because of Tmobile mistake.

Ticket: # 4112634 - Sinclair broadcasting

Date: 7/26/2020 10:00:22 AM

City/State/Zip: North Myrtle Beach, South Carolina 29582

Description

Sinclair broadcasting is airing a propaganda piece on Dr Fauci and Covid 19, called Plandemic, that is filled with lies and will result in harming and killing of U.S citizens . As a broadcaster they have a responsibility to air correct and verified information. Airing propaganda and forcing Local broadcasts to carry lies and fluff pieces is a violation of their broadcast license. The program should be banned and the corporation should be barred from their propaganda practices. They should be fined heavily and broken up as ATT was years ago. This is a democray not a fascist state or an oligarchy.

Ticket: # 4112648 - Sinclair Broadcast Group

Date: 7/26/2020 10:32:29 AM

City/State/Zip: Edmond, Oklahoma 73012

Description

Sinclair Broadcast Group plans to mislead the public during a declared state of emergency and public health crisis by airing information they know to be false on their local news networks. This information includes dubious and conspiratorial claims of: COVID-19's origin, effective ways to prevent spread and treat infection, and of public health officials. They claim that they'll also air footage of refutations of these claims, but the presentation of this information is a criminally-negligent and politically-motivated attempt to mislead the public and presents a danger to both public health and future virus prevention measures.

Ticket: # 4112666 - Plandemic-and other false stories presented as news

Date: 7/26/2020 10:53:52 AM

City/State/Zip: Barrett, Minnesota 56311

Description

ALL coronavirus info needs to be fact checked prior to airing said info. This is NOT the time to be presenting obviously false, easily disproven theories as legitimate. Absolute Insanity!!

Ticket: # 4112671 - Paper check refund

Date: 7/26/2020 11:00:44 AM

City/State/Zip: Simi Valley, California 93065

Company Complaining About: AT&T

Description

AT&T will not give me a paper check refund once I cancelled my landline service. They want me to initiate a prepaid card service. They also offer a paper check or bank transfer, but there is no where on their website to initiate either of those. I called AT&T and was on the line with Kat for 20-30 minutes because she could not locate where online I could make this request. She suggested I go to an AT&T store and I reminded her we were in the middle of a pandemic...not the smartest suggestion. As of right now, she has promised that I would receive a call from their collections department (???) Monday morning. The prepaid card scam through Sunrise Banks is a bait and switch with sensitive personal information. What a scam. I simply want a check for my refund.

Ticket: # 4112674 - Refusing to link me to a better connection

Date: 7/26/2020 11:08:12 AM

City/State/Zip: Saint Johns, Michigan 48879

Company Complaining About: Frontier Communications

Description

If it isn't clear by now, Frontier Communications has monopolized rural internet and has taken advantage of the situation with no upgrades and only further territory expansion of their lackluster service. I am requesting that the FCC does something about this! My children have the opportunity to do home video chat classes vs being exposed to Covid-19 in a face to face classroom environment. With Frontier Communications refusing to switch me over to 18mb bonded line that is only 100 yards away they are locking me in at less than 3mb, I do not have this option to keep my children safe!

Xfinity Issues

In June I wanted to add TV to my Internet Unlimited Data Plan I was told by Xfinity Manager in New Mexico that a service man would bring equipment and come in my home to Install everything The service came here and told he because Covid 19 - he never came in my home due the situation So he did not insert three Cablecards and activate and pair TiVo units So I got no TV service and I contact Xfinity numerous times about these facts

He handed me 3 TV cablecards which do nothing

I no long need TV service

I want the Internet only Unlimited Data Plan that I signed a Written Contract for \$84.99 since Jan 2020

I have paid the bill overcharges for June and July 2020 since Xfinity's Billing Department never correct it

I want a Refund

So I need someone drive us to Xfinity in Woodinville and be a witness to confirm I am returning 3 TV cablecards that were not inserted and activated by Xfinity

Ticket: # 4112790 - Xfinity

Date: 7/26/2020 1:04:48 PM

City/State/Zip: Garden City, Michigan 48135

Company Complaining About: Comcast

Description

Xfinity should not be able to overcharge customers during a pandemic. They themselves had me pay only 33 dollars and lowered my internet speed. Usually my bills would be 99 dollars for internet only but they decided to charge me 32. However for that price that lowered my speed and quality. Now they want me to pay the same 99 dollars for that lower quality I had. I am disbuting that because you can not give dollar store quality but expect to charge luxury prices.

Ticket: # 4112935 - deliberately misleading news

Ticket: # 4112972 - Verizon Pole on Private Property

Date: 7/26/2020 3:30:31 PM

City/State/Zip: St. Albans, New York 11412

Company Complaining About: Verizon

Description

About a week ago a Verizon employee came onto her property (had on a uniform but NO ID badge) to set up a line to the next-door building. I do not have Verizon and when I tried to call Verizon about this, they kept me on the phone for hours and then hung up on me .

Why is there a Verizon pole on my private property? Due to COVID 19 and the increase in violence, I have concerns about this and have attached pictures.

Ticket: # 4113001 - information on COVID-19

Date: 7/26/2020 4:08:21 PM

City/State/Zip: Henrico, Virginia 23229

Description

Eric Bolling interviews Judy Mikovits which puts dangerous misinformation about the current pandemic on local news stations. "Plandemic" is irresponsible and gives unwitting, trusting viewers "fake news" about COVID-19. Be responsible about this. She has no scientific evidence for her claims which cause great harm. This should not be aired on television news stations in its present form. PULL IT from all news stations.

Ticket: # 4113011 - Pandemic interview on Sinclair owned stations

Date: 7/26/2020 4:16:54 PM

City/State/Zip: Petaluma, California 94952

Description

Many "reliable" news organizations are airing a debunked conspiracy theory under the guise of "science." This is simply a dumbing down of the American viewer. News is supposed to be neutral and honest. I demand a FCC investigation into this whack job

Ticket: # 4113026 - Disappointed with Direct TV

Date: 7/26/2020 4:24:41 PM

City/State/Zip: Youngwood, Pennsylvania 15697

Company Complaining About: Directv

Description

I have not worked in 5 months due to the pandemic- my husband is working about 30 hours a week and we have two children. I called Direct TV to ask if they could give me 3 days past the extension date for my past due bill. The cs rep I spoke to didn't seem to care at all and just said he couldn't go past the 26th. I asked to speak to a manager, was told the only way is for him to put in a request and I'd get a call back from someone when they were able to get to me. Meanwhile my service will be shut off anytime after midnight.

Ticket: # 4113028 - Comcast - Limited Data

Date: 7/26/2020 4:27:39 PM

City/State/Zip: Tacoma, Washington 98408

Company Complaining About: Comcast

Description

Comcast has decided to limit internet usage unless we pay an additional amount per month for extra data. We are working from home and have a son who attended school online, but we told that we "use too much internet." There should be no additional fees charged during this pandemic and continued social distance regulations.

Ticket: # 4113056 - Plandemic

Date: 7/26/2020 4:48:05 PM

City/State/Zip: Patchogue, New York 11772

Description

Airing the thoroughly discredited video "Pandemic" is irresponsible and dangerous. I hold you personally responsible for the inevitable, avoidable, deaths this video will cause. You have blood on your hands and I will never watch any broadcast you are a part of ever again, nor by products advertised during this travesty of the truth.

Ticket: # 4113084 - Facebook has my account lock out

Date: 7/26/2020 5:10:28 PM

City/State/Zip: Macon, Missouri 63552

Company Complaining About: Facebook

Description

For well over 2 months now Facebook has had my account with them locked out. They are blaming the covid for their not reviewing my ID even though I have submitted (nearly everyday for the entire lockout) all of the information they requested. They are continually making changes in the Facebook platform and the covid does not seem to be stopping them from doing that. I have personal contacts in my account, also notes, group memberships and worst of all personal photos in that account. Due to their locking me out it's all inaccessible and has been so for over 2 months. I need some help on getting their attention and I am only one person of many who have this same problem Please help me.

Ticket: # 4113227 - Data Caps

Date: 7/26/2020 7:28:45 PM

City/State/Zip: Sanger, California 93657

Company Complaining About: Comcast

Description

To whom it may concern,

I have xfinity as my ISP. Xfinity has recently stated that they will be reinstating data caps. This makes no sense. Why is there a data cap in the first place. Covid-19 has shown that there is no need for these data caps other than Xfinity to squeeze more money out of me. I work from home and have three kids in the house. So either I have to 1) stop working from home, 2) tell my kids that they cannot attend school (school is going to start online) because three kids on zoom will use up our data, 3) tell the kids they cannot watch streaming TV (we do not have cable, we are cordless), or 4) pay extra money (extra money that is not easy to come by right now). This is ridiculous. Please get your acts together and stop this transparent attempt at a cash grab. Have a heart FCC.

Ticket: # 4113237 - Terrible Customer Service/billing with Comcast/XFINITY

Date: 7/26/2020 7:34:15 PM

City/State/Zip: Denver, Colorado 80203

Company Complaining About: Comcast

Description

I have tried repeatedly to address billing issues with Comcast, to no avail.

They raised the price of my Internet service without notifying me. When I continued to pay the same rate I agreed to upon beginning service, Comcast applied new charges, and then overdue charges as well.

In calling Comcast customer service, I simply sought to pay my bill on time, in full, at the original price. I was not able to accomplish this. Customer service personnel were uninformed, incompetent and utterly unhelpful.

I failed to receive on time paper billing, which meant my account was overdue, and Comcast could then charge late fees.

I have twice been forced to make payment over the phone through their automated system -- including late fees. I no longer attempt to speak to an actual customer service representative, because a] they don't know what they're doing, b] they shift responsibility from Comcast to their customers by instructing you to go to their website to solve your problem(s), and c] as a monopoly, they can do what they want because the consumer has little choice. Comcast simply does not care about its customers.

Beyond this, even if I hoped to speak to an actual customer care representative, I cannot do so because in the wake of Covid 19, everything is automated. Conveniently for Comcast, there are no customer care representatives to contact; you either go through the maze of their automated system or hang up in deep frustration and anger.

I am submitting this FCC complaint to inform Comcast that their customer care and billing service is abysmal. They should be ashamed of themselves.

Ticket: # 4113238 - Internet speed

Date: 7/26/2020 7:41:48 PM

City/State/Zip: Gardners, Pennsylvania 17324

Company Complaining About: Centurylink

Description

My internet speed is 1.5 Mbps, to which I am not even receiving that. I have been asking for high speed internet for years and have been told that it is not in my area. My neighbors all have anywhere from 10 Mbps to 20 Mbps. So this tells me it is in my area but Century Link is choosing to not up MY speed. How is this possible when it is 2020. My wife has to work from home due Covid-19 and she is unable to do so due to such low speed. I want Century Link to do what is necessary to increase my internet speed as soon as possible.

Ticket: # 4113345 - Crappy internet

Date: 7/26/2020 9:29:07 PM

City/State/Zip: Alta, California 95701

Company Complaining About: AT&T

Description

Att dsl. It's slow att says it's due to covid19 yet will not prorate my account due to speed. I'm paying for service I do not get

Ticket: # 4113358 - Sinclair Broadcasting airing False and Misleading information about coronavirus

Date: 7/26/2020 9:42:06 PM

City/State/Zip: Plano, Texas 75024

Description

Sinclair broadcasting through it's affiliate stations will be airing an interview with Jidy Miskovitz a discredited scientist who has created a conspiracy theory about Coronavirus because of a past grudge against Dr. Fauci. All other social media and news platforms have blocked this horrible misinformation. Please stop this before it makes everything worse.

Ticket: # 4113371 - Internet disruption for 1 and 1/2 months

Date: 7/26/2020 9:53:18 PM

City/State/Zip: Jacksonville, Florida 32223

Company Complaining About: Comcast

Description

We have tried to reach Comcast to fix our issue of our internet service being down over 50 times. That's 5.0. Fifty! This issue has been going on over 1 and a half months. We have made countless phone calls and nothing. They don't care. It's rare to be able to reach a human and when we do they always tell us someone will call us back and then nobody ever does. Due to Covid a lot of our job has transitioned to the house and we are unable to perform the duties we're required to perform. This internet issue has resulted in Thousands of dollars lost and is on the verge of closing our business.

Ticket: # 4113434 - Illegal radio station broadcastinf

Date: 7/26/2020 10:31:27 PM

City/State/Zip: Britton, Michigan 49229

Company Complaining About: Urgent 99.3fm

Description

In adrian Michigan there is an illegal station called urgent 99.3FM

This station had people standing on corners with signs telling to listen to this station. I turned it on and someone was talking and preaching about the covid 19 and how the gov is out to kill us. I can't find no studios or owner. Never heard of this station ever

Ticket: # 4113471 - Comcast Xfinity customer service and ability to fix internet issues

Date: 7/26/2020 11:41:41 PM

City/State/Zip: Alexander, Arkansas 72002

Company Complaining About: Comcast

Description

I am paying for 300Mbps of internet and receiving 20Mbps. There is no way to enter a ticker online. I called multiple times this week and I finally reached a person on Friday who tells me it is my modem. Xfinity recommends this modem but I called the vendor anyway. The vendor finds errors on the channels and i take a snapshot of it. I chat with another agent and I provide the information. They send a technician today at 6pm who can't solve my issue. By 8:30 he decides to try a xfinity modem which does not work either. That proves my point it is the service or cabling. We change back to my modem he tells me he can't activate it because they have closed. I immediately dialed into the customer service desk and told him to leave while I wait until I reach the right team to turn my router/modem back. That is bad customer service when the tech can't contact the people in his own company to complete this. The customer service rep which turned my service back on tells me he can't schedule an appt. to come back out and finish this issue. Seriously? You can't even schedule to come back and fix it? I am not happy but what can you do? I walk outside to find the cable is laying on top of the ground and no one plans to give me another appt. I realize covid has people limited on staff but when you need your internet to work then it seems very unprofessional at this point to not even be able to schedule an appt and get a technician that knows what they are doing. I knew more about the internet and the system than the person they sent. I would like resolve on this please and hope all customers are not dealing with this horrible service that i received. I have only been a customer for 2 months and i am already regretting my decision on this one.

Ticket: # 4113732 - Excessive volume from commercials

Date: 7/27/2020 9:50:11 AM

City/State/Zip: Beltsville, Maryland 20705

Description

While at home I have noticed that while watching some television programs the commercials have ramped up the volume to levels that are annoying, disturbing and just down right offensive. I thought there was something done about this years ago. It seems to me that these retailers are taking advantage of people being home due to the pandemic and want to "blast" their messages to get your attention. This has to stop. I am hoping the FCC will be able to do something and find a reasonable resolution.

Ticket: # 4113758 - robocalls from telemarketers

Date: 7/27/2020 10:03:06 AM

City/State/Zip: Canton, Mississippi 39046

Description

Since the early 2018, I have been receiving phone calls on my cellular phone from numbers I do not recognize. Presumably, these are all marketing calls. Most of the numbers are presumably either spoofed or completely fictitious. They are presumably all robocalls. The frequency of the calls has varied. For most of January and early February of 2020, the frequency was one call per day, though it increased to three per day at times. There have also been short periods where I received no such calls, perhaps as a result of my reporting the incidents. In general, the frequency has dropped from that Jan/early Feb high, which I am pleased about. However, the calls have not stopped. They continue to disrupt my day. And, a new trend had recently arisen: text messages. I cannot overstate how angry and frustrated I am with these people's total disregard for other's right to privacy and peace of mind.

Many of the spoofed numbers were identified by my caller id as being registered for Greenville, MS. However, I have also received spoofed calls from Coffeeville, Booneville, Hollandale, Tupelo, Aberdeen, Kilmichael, Yazoo City, Pacagoula, Winona, Crystal Springs, Byhalia and Ashland, MS. For some of these numbers, caller id did not identify the location, but an internet search of area codes and prefixes determined the location. For a brief period earlier in the year, there was a spate of calls from out of state as well. This surge in out-of-state calls coincided with the period in which the coronavirus pandemic first began to get serious attention in the United States. While that surge of out-of-state calls was fairly brief, there are occasional calls identified as coming from out of state. I recently received (and filed a complaint for) calls identified as coming from Indian Spring, NV and Tulsa, Ok. For the call I am reporting today, caller id identified no physical place of origin. An internet search of the area code and prefix indicated Quincy, Washington.

Most of the time, I do not answer the calls. When I do however, there is generally only silence for a few seconds, and then the call is dropped. At times, I have tried to return the call to make sure it was not legitimate. When I call these numbers back, one of two things usually happens: the number has been spoofed, and I get the true user of the number, who has nothing to do with the call, or the number doesn't exist at all. I tried to return the call, and it simply disconnected. Today, I tried to return the call, and it simply disconnected.

In 2019, I was unscrupulously and intensely harassed for months by robocallers selling health insurance. Because I have not answered most of the calls in 2020, and they do not generally leave voice messages, I do not know they are selling health insurance, though my former experience suggests that it is likely. In two cases, a message was left, and, you guessed it, they both featured an automated voice soliciting me to buy health insurance. While the voice messages allow me to be more specific in my complaint, the practice is, in general, even more egregious, because it can quickly clog up my mail box. I have also been compelled to put my phone on Do Not Disturb in order to maintain any peace of mind.

In addition to the phone calls, I occasionally also received marketing communications about health insurance through text message and/or email. In these cases, I have often been able to

communicate directly with the sender, and at least gain their assurance that they would not contact me again. I have had two of these individuals inform me that they were sold my information. I asked the latest of these very directly, "where did you obtain my information". He refused to answer. In my view, this refusal makes him complicit in the perpetration of these unethical activities.

I adopted the policy in 2019 of reporting EVERY SINGLE incident to the FCC. After months of effort, those calls were eventually almost completely eliminated. Unfortunately, however, 2020 has seen a return of these disruptions to my day and attempts to defraud, and it looks as though I can expect it to continue. I intend to continue my no tolerance policy toward the perpetrators of these actions by reporting this and all such incidents to any reputable authority I can find. These people are criminals who make a living through fraud, and who show a total lack of regard for the right to privacy and peace of mind. It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

Ticket: # 4113858 - Pet scam

Date: 7/27/2020 10:44:57 AM

City/State/Zip: Saint Louis, Missouri 63146-5757

Company Complaining About: <https://oursphynxhairlesskittens.com/availablesphynxes/>

Description

We sent money by \$750 by Zelle to a fake cattery. No kitten, never was. Accepted for transport by Global Relocators who extorted \$4730 for insurance/special Covid crate. No kitty, funds gone.

Ticket: # 4113870 - Not Getting The Proper Service

Date: 7/27/2020 10:49:11 AM

City/State/Zip: Angleton, Texas 77515

Company Complaining About: New Wave/spark Light

Description

The provider New Wave/Spark Light, cable & WIFI. (b) (6) is calling on behalf of Ms. (b) (6). Therefore they both mention that Ms. (b) (6) (daughter) is on the account and is able to call on behalf of her mother (b) (6).

Ms. (b) (6) mention that her mother (b) (6) has been having an issue with her cable service. (b) (6) has mention that it's been about 3 years on and off with the cable service. Ms. (b) (6) has mention that her mother has called about 3 times and every other day about the service not working.

Then Ms. (b) (6) said that her mother is paying \$100.00 monthly for the service that she is not even getting. (b) (6) I has said that they have reach out to the carrier about the issue and they have been told that they can not come out because of the pandemic. Which Ms. (b) (6) I said that there was a technician that came out not to along to do some testing.

Resolution

Ms. (b) (6) would like for her mother (b) (6) to have her service be working property.

ctr 388-phone

Ticket: # 4113898 - SuddenLink issues

Date: 7/27/2020 10:58:04 AM

City/State/Zip: Montgomery, Texas 77316

Company Complaining About: Sudden Link

Description

Consumer moved in on 5/7/20 and was to have an apt. to install service.

After 2 more attempts for service and no shows, finally got he service installed.

After being installed the service went down for 18 days.

The technician that came to address it stated there was something wrong and fixed, then it went down for 30 days.

Consumer must work from home due to COVID-19 and being without service isn't feasible.

Consumer is continuing to be charged for technician fees even though the issues are outside the home.

Consumer also upgraded her cable program to receive the paramount network, but is still not receiving that.

Consumer would like credits for the technician service charges and for the service to work as it should.

CTR404-phone

Ticket: # 4114008 - Plan

Date: 7/27/2020 11:30:06 AM

City/State/Zip: Oak Park, Illinois 60304

Company Complaining About: Comcast

Description

I was transitioned to a plan that I didnt agree too nor do I want. When I called to ask about it I was told this is the covid assistance plan. Which means they turn off your cable services and leave you with a phone. The month before last I wasnt on this plan and was able to get a payment arrangement.

Ticket: # 4114096 - Continued Billing for TV, internet & phone service after being put on vacation hold

Date: 7/27/2020 11:57:06 AM

City/State/Zip: Portola Valley, California 94028

Company Complaining About: Sudden Link

Description

On March 20th I placed my vacation home services on vacation hold due to the pandemic. Was told there would be \$30/ month fee; which I have paid every month since. They keep charging me for full service. I call them every month (50 min hold time) to solve, they say they will call me back but do not. They owe me an 11 day credit for remainder of March.

Ticket: # 4114140 - WACB Grant Scam Text

Date: 7/27/2020 12:08:53 PM

City/State/Zip: Auburntown, Tennessee 37016-6145

It is my hope that I will not only ultimately succeed in stopping the calls to myself, but that these criminals will be located and punished.

[Ticket: # 4114355 - Hidden app downloaded to our phone](#)

Date: 7/27/2020 12:57:40 PM

City/State/Zip: Mount Dora, Florida 32757-3446

Company Complaining About: Total Wireless

Description

We have had a hidden app downloaded to our phone from someone without our permission. It is a Covid-19 tracking app, and we did NOT authorize anyone to put it on our phones. We want it removed.

Ticket: # 4114377 - DirectTV dropped channel in order to charge me more and added HBO MAX without my consent

Date: 7/27/2020 1:06:00 PM

City/State/Zip: San Antonio, Texas 78216

Company Complaining About: AT&T

Description

I lost BBC America and called AT&T and asked why. They informed me BBC was no longer part of my channel package and it is not in a different upgraded package that I had to pay more for.

Also DirectTV added HBO MAX at a charge of \$14.99 without my consent.

I called and tried to get this resolved but was constantly transferred (6 times) and then told they would not give me BBC back or refund me for unauthorized charges.

I cancel my service and they are still trying to charge me for my last bill including HBO MAX.

I would like my last bill cancelled. Furthermore I have lost my job due to COVID19 and cannot pay. I informed AT&T about this but they did not care.

Ticket: # 4114411 - ID Theft Information Filed to Spectrum/Chartered Communications

Date: 7/27/2020 1:10:30 PM

City/State/Zip: Los Angeles, California 90039

Company Complaining About: Spectrum

Description

I have filed a ID Theft information to Charter Communications/Spectrum because someone has compromised my account and have upgraded my account last May 2020 without my consent/knowledge. When one of their representative has verified contact info other security information, I have informed that those mentioned was not mine. Which means to say and clearly stated that my account has been compromised by another person and plus we have been experiencing with delays of internet services as well such as lagging for the past months. Which is not normal even way before pandemic has even started. Fraud Protection Department personnel has informed me that this was not a fraud concern or just a billing concern. But I have mentioned and reiterate that I have also concerns in the internet services that I get every single day which is very annoying and ridiculous. It this the kind of practice that they do observe no matter how long time customer you have been with them but they never care to take care of the issues and concerns that a customer would inform them. No matter how serious or delicate the matter. What they're good at is by putting you on a long time hold and then next thing you know no one will resolve the matter and what's even worst is you get disconnected to them most of the time and they won't return your call and won't escalate the matter.

Ticket: # 4114414 - AT&T Predatory Billing in Worldwide Pandemic

Date: 7/27/2020 1:10:58 PM

City/State/Zip: Philadelphia, Pennsylvania 19143

Company Complaining About: Comcast

Description

My husband and I are due \$581.84 from over 2 years ago with Xfinity. They have not returned it from taking direct deposit out of the account 6 months after we cancelled service with them. After having my son, a year ago, I was able to call numerous times. I have recorded 14 different calls made to the costumer service center and not to include 3 trips made to the location in Mount Pleasant and calls to a Tennessee number who was suppose to reach us long before Covid even started. I'm tired of waiting for my money to be returned to me when if it were the other way around I would be sent to collections from not paying them? What penalty do they receive for making me wait for my money and not returning it? What about all the interest that could have been added to my money if I had it in my hand for the past 2 years? The original amount was \$1200 and we received a \$600 and something check but why can we not get the rest?

Ticket: # 4114518 - Cable/Internet/Phone

Date: 7/27/2020 1:34:14 PM

City/State/Zip: Frankfort, New York 13340

Company Complaining About: Spectrum

Description

For 18 years we have been told by a couple of Cable/Internet carriers that we would have service on our road. I've called Spectrum several times inquiring about getting service to my home and I am told that they could not get it to us. My son, who is also my neighbor, is less than 500 feet away from me and has Spectrum cable, phone and internet. Knowing this makes their response even more frustrating as to why service can not be brought down to my house. With Covid-19, I am having to work from home FT through the end of the year. This is extremely difficult with slow internet dish service, not to mention all the years we've been promised a service that has never been delivered. If there's anything you can do to have the service extended to my house (less than 500ft away), I would greatly appreciate it. Thank you for your time!

Ticket: # 4114640 - failure of contact negotiations between dish and NBC at this critical time

Date: 7/27/2020 1:56:03 PM

City/State/Zip: Yoder, Colorado 80864-9634

Company Complaining About: Dish Network

Description

We no longer are able to receive our most trusted local news and weather in this time of covid -19 concerns and severe drought conditions. We are ranchers and our most dependable and experienced weather forecaster is no longer viewable. We are paying Dish over \$140.00/month to access a TV signal for local news and they can't provide the basics!!

Ticket: # 4114682 - ATT bundled services suspended 5/23/20 not processed properly

Date: 7/27/2020 2:04:09 PM

City/State/Zip: Park City, Utah 84060

Company Complaining About: Directv

Description

My parents, (b) (6) are continuing to be billed for services that should have been suspended 5/23/20. Both my parents, aged 88 and 90 years, are no longer living in their home due to hospitalizations that began on April 22, 2020 and subsequent placement in long term care. After paying the April bill in full, I called ATT to suspend all of the services to the home at (b) (6) since no one is living in the home or using the services. When they received another bill for services in May I called again on 6/29/20 at 5:19PM and spoke with representative Jessie (i.d. ja632c) who informed me that the suspension requested was not processed properly. She assured me that it had been now processed properly and that the charges should be reversed. A postcard from Direct TV then came in the mail stating that the suspension had been processed and would be effective as of 6/30/20. We continue to receive bills and the week of 7/13-17/20 my mother began receiving multiple harassing calls per day demanding payment of the past due bill. I called ATT again on 7/17/20 and spoke with (i.d. ea367q) and then supervisor (i.d. kg7675). They both confirmed my previous conversations and assured me that the harassing phone call would stop and that the matter would be 'elevated'. After receiving yet another bill, I called again on 7/24/20 and spoke with Nick (i.d. ks457m) and Arlean (i.d. ja580j). After being disconnected waiting for the next supervisor I called back and spoke with Chris (i.d. md524r) who tried to connect me to another supervisor who 'because of Covid, couldn't take the call' but was supposed to call me back. That supervisor was Ryan (i.d. rb728a) It is now 7/27/20 and I have not heard back from anyone but am now getting texts on my cell phone regarding the fraudulently past due bill. I am at my wits end with this. I will not be paying the bill and they say they won't take any further action on this account, including canceling it, until the bill is paid. I believe this qualifies as elder harassment! Please help!

Ticket: # 4114723 - Sinclair Broadcasting Airing of Plandemic

Date: 7/27/2020 2:11:43 PM

City/State/Zip: Piqua, Ohio 45356

Company Complaining About: Sinclair Broadcasting

Description

Plandemic is a completely off based and scientifically debunked conspiracy theory that is should not be aired on public TV due to it's affiliation to right-wing nut jobs. Prevent the airing to promote a healthier America of COVID-19!

Ticket: # 4114730 - Internet connection

Date: 7/27/2020 2:12:57 PM

City/State/Zip: Fairfield, Connecticut 06824

Company Complaining About: Optimum

Description

I am going on the 3rd week of a poor internet connection and lose connectivity approximately every 15 minutes. I have had countless calls to Optimum and 2 trouble call visits from techs. All this time Tier 1 has been blaming the modem. The first technician changed out the modem yet the problem continued. Tier 2 now blames the router. The second technician comes out but says router is fine, issue is at the pole effecting about 500 other customers. I have been suggesting this is congestion issues from the start but have been ignored. The problem continues and I can't get an estimate when it will be fixed. I am working from home for an essential company and this has been extremely difficult conditions to work under. The lack of support from Optimum is unreal. I understand there is high congestion since COVID, but I am paying for a service that is clearly not working and have been given the run around from the call center with no solution in sight. Please help!!

Ticket: # 4114765 - Comcast Billing Complaint

Date: 7/27/2020 2:19:47 PM

Description

Dear FCC, Utah U.S. Senators and Utah U.S. Representatives,

I just discovered that the FCC extended the effective date of Sec. 642 of the Television Viewer Protection Act of 2019 until December 20, 2020 (MB Docket No. 20-61, Order, DA 20-375 (April 3, 2020) 85 FR 22652-22653, April 23, 2020). In its billing statements, Comcast has been concealing from me not only the separate pricing of the cable television service that it provides me, but has also been concealing from me the separate pricing of the cable internet service that it provides me in order that I may access, inspect, know and benefit from all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW.

You must know that I think it's against the United States Constitution, Utah Constitution, the Government Records Access Management Act (Utah law) and Utah Supreme Court decision KUTV, Inc. v. Utah State Board of Education, 689 P.2d 1357 (1984) for Comcast to be the gatekeeper to and for me to be at the mercy of Comcast and its secret internet pricing if I want to access, inspect, know and benefit from all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW.

Our local Logan City Public Library has been closed for many months now due to the COVID-19 pandemic, so I'm unable to use public desktop computers to access, inspect, know and benefit from all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW. Albeit such Library rents out laptop computers, I would have to sit outside in the heat or cold in order to find, or not find, the WiFi that would enable me to do so.

I'm struggling financially, and I think all Comcast cares about is charging me secret television and internet prices and making me feel I'm at its mercy with respect to being able to exercise my rights to access, inspect, know and benefit from all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW under the above cited legal authorities. As long as Comcast is the gatekeeper to such records and charges me to do so, I'm denied my right to FREELY exercise such rights.

Based on certain investment records I've obtained from certain records officers of the State of Utah, County of Cache and City of Logan, millions and millions and millions of public funds are not being used by such governments to construct, administer and maintain internet services which could, should and would enable me to FREELY access, inspect, know and benefit from all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW. Why? Of all things which such governments should invest in should be internet services provided to citizens so they can truly and freely exercise their rights under the above cited legal authorities to access, inspect, know and benefit from all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW. A private company that is in the business to make profits for its shareholder should in no way, shape or form be in charge of enabling, hindering or terminating public access, inspection and knowledge of beneficial digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW.

The improper extension granted by the FCC has given the monopolistic Comcast free reign until December 20, 2020 to not only continue concealing from me the separate price I pay to watch television, but to continue concealing from me the separate price I'm burdened with to access, inspect, know and benefit from all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW!

Bottom line is Comcast is not the government and should, therefore, not be a profit-making monopolizing gatekeeper to all the digitized Federal, State (Utah), County (Cache) and City (Logan) public government records in the WWW who is apparently allowed to hinder the public from accessing, inspecting, knowing and benefitting from them by charging secret unreasonable prices to do so or to completely deny such public from accessing, inspecting, knowing and benefitting from them by terminating internet service if a certain secret price cannot be paid.

Sincerely,

(b) (6)

Ticket: # 4114909 - Cablevision billing

Date: 7/27/2020 2:46:21 PM

City/State/Zip: Sarasota, Florida 23248

Company Complaining About: Cablevision

Description

On March 15th consumer cancelled service in his Brooklyn home.

Consumer is having billing issues with his provider but they continue to bill him.

Consumer has called repeatedly about the issue, but no one ever helps.

He is currently in FL, but the service is in NY.

He cancelled the service in Brooklyn due to COVID-19.

The CSR people claim they have no record of his closing the account.

Consumer would like someone from the corporate office to call him about this billing issue.

CTR404-phone

Ticket: # 4114920 - Xfinity

Date: 7/27/2020 2:47:57 PM

City/State/Zip: Springfield, Illinois 62704

Company Complaining About: Comcast

Description

Xfinity is raising our bill by 1/3rd - they have provided hot spots for schools for free during covid-19 - but it is not free because they are making all of us current customers pay for it - isn't this illegal - they are not supposed to be raising prices.

Ticket: # 4114994 - Optimum complaint

Date: 7/27/2020 3:05:55 PM

City/State/Zip: Ocean Township, New Jersey 07712

Company Complaining About: Optimum

Description

I have signed up for the pre paid service optimum offers in April while Verizon wasn't doing new installations due to the COVID restrictions.

They informed me it was a pre paid service and even their terms inform that if no payment is made, the service doesn't continue.

The service was never disconnected after the due date and I had to call to cancel. They gave me a lot of trouble to disconnect and still want to charge for the following month even though this is a PRE PAID service and I wasn't using it for the following month. Due to the COVID, all stores were closed and they never sent me information on how to return the equipment.

Not only they are charging me incorrectly for unused service, not informed equipment, they SENT ME TO COLLECTIONS!!!!!! their store hours are limited and they are impossible to reach by phone

Ticket: # 4115002 - assurance wireless will give no minutes

Date: 7/27/2020 3:08:01 PM

City/State/Zip: Sheakleyville, Pennsylvania 16151

Company Complaining About: Assurance Wireless

Description

Assurance wireless will not give me any emergency minutes!! I ran out of minutes because I have a relative in the ICU with Covid, and it is the only way to contact her!!! I am in a motel spending a fortune and I am on disability, and have no money to buy extra minutes!! I need those minutes, she could go into severe cardiac arrest, and die. I need to be able to talk to her!!!

Please give me more minutes!!!!!!! They dont re-new until Aug 14th!!!

And Assurance wireless is horrible!! They need to have Americans answer the phone!!!!!!!!!!!!!!!!!!!!!! they cannot speak proper english, are stupid, and do not listen to anything at all!!1 They should be fired!! I worked ina call center, and their work ethic is non-existant!!

Ticket: # 4115006 - SpectrumVOIP billing

Date: 7/27/2020 3:08:41 PM

City/State/Zip: Pflugerville, Texas 78691

Company Complaining About: Spectrum

Description

I closed my office due to Covid 19 and my medical conditions. I notified Spectrum VOIP on 5/19/20 regarding this. They stated until I returned the phones to Graybar Financial and settled the finance contract with them, they would continue to bill me. I returned the phone, have confirmations of that, paid off the finance agreement, have confirmation of that, yet, Spectrum VOIP is still billing me for phone usage when I am no longer at that office, phones are returned, and have no phone services with them at all. I need them to reimburse me for past bills they withdrew from my account, and to stop billing me. NOR will they port the phone #s to the new service I have at my home since my office is closed. (b) (6)

Ticket: # 4115045 - Denied internet essentials

Date: 7/27/2020 3:20:20 PM

City/State/Zip: King Of Prussia, Pennsylvania 19406

Company Complaining About: Comcast

Description

I applied for internet essentials in 2018. I had the internet essentials at my previous address I was told from a sales agent that I can't bring my internet essentials to my new address because my apartment does not qualify for that particular program. I didn't believe the sales agent so I called the Comcast which informed me I can get it. But I would have to cancel my internet that he offered me and then I can get it. Which I need a affordable internet essentials for my children to do there school work on. I was told by my school that I can get internet essentials because I am on public assistance due to the pandemic and it's available for me and my children. I can not afford high internet bills. Out of work due to COVID. I called several Comcast several times and was not successful with speaking to customer service and the internet essentials department. I was also told I have to pay \$230. I paid \$149 on 07/26/20. But my balance was \$0 on 07/26/20 service was turned off on 07/26/20.

Ticket: # 4115490 - Xfinity Internet Service, Covid19

Date: 7/27/2020 5:02:18 PM

City/State/Zip: Rockford, Illinois 61102

Company Complaining About: Comcast

Description

I was promised by Xfinity, when I was going to pay my bill, that I would have internet through the end of the year because of covid19. I was then later transferred to a \$15.00 a month plan without knowing. Now they have turned off my service and demanding payment, denying original agreement. (They have also been turning service off periodically, sometimes daily and throttling service for years.

Ticket: # 4115492 - Internet Fraudulent charges

Date: 7/27/2020 5:02:28 PM

City/State/Zip: Center, Texas 75935

Company Complaining About: Sudden Link

Description

I am from East Texas. I've suffered for years as a Suddenlink customer, but lately the internet is intermittent, sometimes going on and off 15 times an hour.

This time I have been battling them 3 or 4 months. It started with me calling Suddenlink 3 to 4 times per week, waiting on hold for an hour or more only to be told that my service was fine and that I did not need a technician to come out. I finally filed my first complaint with the FCC and Suddenlink quickly called and arranged a technician to come out. I was told if he found a problem in my house, I would be charged \$60.

He came out and checked my modem inside. I couldn't connect using wifi. I had a cord from the new router I had bought hoping that would fix the problem. I plugged it into the ethernet and then into the back of my computer.

I was able to get on the internet, although the speed test showed 0.4 to 13 mgb of speed. We determined it was not my modem. He went outside and used his ladder to look at the TAP line. He said there was a problem with the TAP line out on the telephone pole and that his ladder was not tall enough to reach it to repair it.

This was on Friday, June 13. He said he would put in a service request to have maintenance come out and repair the TAP line. I had to call because I did not hear anything into the next week. Two weeks later, a man came and buried the TAP line along the same path it had once hung in the air.

We still have no internet. But what we do have now is a \$60 service fee for the technician who came out on June 13, 2020. I spend two and a half hours on the phone just now, finally getting the Supervisor in the Technical Billing Department who stated that the technician report said he changed some "fittings". She could not say where he fixed them, although I told her he had changed nothing in my house.

I told her the company was stealing my money, that they were fraudulently charging me the sixty dollars, plus charging me monthly fees for internet that I cannot use. She said the charges will still be valid on the account.

I would like someone to help me. I am a teacher expected to teach remotely during this Covid crisis and how in the world am I supposed to do that with this internet?

User's recommendation: Do not use Suddenlink. It is horrible service.

Ticket: # 4115496 - Late Fees

Date: 7/27/2020 5:02:57 PM

City/State/Zip: Brooklyn, New York 11223

Company Complaining About: Optimum

Description

Optimum will not refund Late Fees from my March, May, and July statements. They are part of the "Keeping Americans Connected Pledge." Today, they denied my request for credits of the late fees totaling \$30. I would like Optimum to refund \$30 in Late Fees and provide 1 month free service. My service was shut off twice during the COVID pandemic. Thank you.

Ticket: # 4115520 - Frontier Dishonor Deal

Date: 7/27/2020 5:08:15 PM

City/State/Zip: Cromwell, Connecticut 06416

Company Complaining About: Frontier Communications

Description

The consumer has bundled service with Frontier.

She has internet, landline and cable.

She called about trying to lower her bill because she is struggling as an elderly especially more now with COVID-19.

They told her that her contract ended so it went up to almost \$200 a month.

While on the phone the representative told her that she could set her up as a new customer and her bundled service would be \$89.99

This was over 1 week ago and now her bill continues to be \$189.00.

Last July she was paying \$129.00 a month.

She would like them to honor the new customer package deal they were telling her that would cost her \$89.99 for everything she currently has.

CTR-415

Ticket: # 4115611 - Comcast overbilling

Date: 7/27/2020 5:35:40 PM

City/State/Zip: Medford, Massachusetts 02155

Company Complaining About: Comcast

Description

I could not pay my cable bill for May 2020 because I was out of work during the Covid crisis. On 5/17/20 I received a letter from Comcast saying that I owed them 180.10 for the month of May. I asked for more time to make a payment and was giving 10 days. On 6/4/20 I talked to a customer representative and a supervisor to inform them that my unemployment check didn't come and I wouldn't be able to make payments. They both informed that there was nothing they could do because I had reached a payment agreement with another representative. That I would have to pay my total balance to continue services. On 6/5/20 I paid Comcast 381.00\$ more than the total balance. This clearing my balance to 0.00\$. On 7/27/20 Comcast suspended my service at 10am in the morning. I called Comcast to find out why my service was interrupted and was told that my balance was overdue. My billing period is not up till tomorrow 7/28. I asked to dispute the bill and was hung up on twice. I then talked to a representative from Retention. Who said to my wife and myself that I was not in default. And that there were some excess charges on my account including late fees during covid that shouldn't have been charged. We went through my bill month by month and found that my account should have been in good standing. However once transferred to billing department again I was told the bill was correct and they would not be allowing any disputes. I ask to speak to a supervisor and was told no. I was laughed at , told that I should pay my bills and placed on hold. Comcast has a vast history of cheating it's customers due to their pro rated billing practices. I have all my paperwork and bills and financial information including a paper from Comcast stating that my total balance was 372.41. My services are currently suspended still.

Ticket: # 4115759 - RE: [FCC Complaints] Re: Overbilling by DirecTV and AT&T

Date: 7/27/2020 6:22:53 PM

City/State/Zip: Los Angeles, California 90049

Company Complaining About: Directv

Description

This is a follow-up to your previous request (b) (6) "Overbilling by DirecTV and ..."

Dear FCC:

Please re-open the unresolved ticket as DirecTV has forwarded my account to Credence Resource Management (CRM, a debt collector) and it has been reported to the credit agencies, severely affecting my credit rating. Amidst this COVID-19 pandemic I am trying to purchase a car to travel to work and I am unable to due to the falsely reported debt.

DirecTV contacted me after my original FCC complaint. I asked them to send me a copy of the contract on multiple occasions. Instead they have sent me a copy of the illegitimate billing (attached). They have failed to produce the contract to validate the asserted debt.

DirecTV forwarded my account to another collection agency at first. The collection agency dropped my account due to a lack of documentation. Now DirecTV has forwarded my account to CRM.

After finding that the "debt" still shows up on my credit report, I have written letters to the credit bureaus and CRM in the past couple of months. I have ask them to validate the debt by providing a copy of the written contract. They have failed to do that. They have again sent me an illegitimate itemized bill asserting that it validates the debt. I never agreed to services in the amounts that have been billed.

I spoke to Mr. Danny Ray, a CRM manager this afternoon. I asked him to produce my contract. He said he did not have it and will forward the request to DirecTV. I asked him if I should contact DirecTV directly. He said they will route my call back to CRM and that would be of no use.

Once again, I will follow my obligations and will pay whatever I have promised to pay, but refuse to pay for a bait and switch bill that I am not liable for.

As far as the facts are concerned:

1. DirecTV has billed me for services.
2. I have not agreed to the billing or signed a contract to validate the billed amounts.
3. DirecTV has failed to provide a signed contract validating the debt.
4. DirecTV has forwarded this unvalidated "debt" to CRM. The unvalidated "debt" has ben reported to credit agencies.
5. This has adversely and seriously affected my credit and my normal way of life.

What I want at this point is:

1. Legal against DirecTV and CRM.
2. The complete removal of the entries on all credit bureaus.
3. A notation on the separate part of my credit reports stating that CRM and DirecTV had made a violation of an incorrect entry.

I also reserve the right to pursue further and future damages if this issue is not resolved once and for all.

I look forward to hearing back from the FCC.

Sincerely,

(b) (6)

Ticket: # 4115764 - Cox Communications Services and Billed Charges Complaint

Date: 7/27/2020 6:25:49 PM

City/State/Zip: Mesa, Arizona 85205

Company Complaining About: Cox

Description

Bill for TV services increased \$21 in a 6-month period (Jan 2020-Jun 2020).

Bill for Internet services increased \$15 in a 6-month period (Jan 2020-Jun 2020).

Cox had applied a 'Covid discount' of \$30 during that same time which really wasn't a discount since they increased my TV and Internet services charges.

Now that the Covid discount is gone, I have a bill that is \$30 higher than it was six months ago. That is unreasonable to me. I would have been better off not having the Covid discount since it appears to me they off-set the discount by increasing the fees for the services I had.

This isn't the first time something like this has happened. Cox is constantly adjusting their fees and service packages and when I call to talk to someone about it, I get different explanations from each representative I speak to. Something is amiss with their billing practices. They are not transparent with their fees. I have to always call Cox for them to apply 'discounts' of which I don't really understand. It only reduces my bill temporarily until the next time I have to call.

I would like to see 1) a detailed breakdown of services and fees on each monthly bill, 2) restrictions for them to not be allowed to change make up of service plans which would allow them to charge more to their customers, and 3) a consistent bill for at least one year.

##- Please type your reply above this line -##

This ticket (#2814793 (<https://consumercomplaints.fcc.gov/hc/requests/2814793>)) has been updated.

FCC Consumer Help Center (FCC Complaints)

Oct 10, 11:55 AM EDT

(b) (6),

Thank you again for your submission to the FCC. The FCC's role in this process is to facilitate a conversation between you and your provider. We received a response from your provider to your Ticket No. (b) (6)

Here's what happens next:

- We reviewed the provider's response and based on the information submitted, we believe your provider has responded to your concerns.
- Your provider is required to send you a written copy of its response by postal mail. Keep in mind it could take up to 10 days for you to receive the response.
- Please review your provider's response. If the issues you raised in your ticket remain unresolved, you can reply directly to this email with a short description of the problem.
- Keep in mind that billing adjustments or other actions by your provider could take time to implement.
- If we do not hear from you within 30 days, your ticket will be closed.
- If you have new issues with your provider, you can file an additional complaint by going to: consumercomplaints.fcc.gov.

Re: DirecTV - Account # (b) (6)

Dear Sir/Madam:

I am writing you in regards to a bait and switch technique employed by AT&T and DirecTV.

I signed up for a new multi-line AT&T cell phone package in October 2017. As a part of this package, DirecTV was offered for \$25/mo. I signed up for the package with AT&T.

A couple of months later, DirecTV installed the required equipment at my residence.

Unbeknownst to me, I started receiving monthly bills from DirecTV over \$100. I went to the AT&T store to solve the accounting issue, but they said they are no longer responsible for it and DirecTV is responsible.

I have received many bills from DirecTV and they have placed my account in collections. I spoke to a customer representative today. She said my monthly bill was \$67.29 and I had an additional \$35 activation bill. My total bill now amounts to \$608.43. I asked her to send me a copy of a signed contract with me accepting the \$67.29 monthly fee. She said she is unable to provide me with such copy but I, by allowing a technician to set up the equipment at my residence, accepted the resulting terms of service.

I explained to her that I would like to resolve the issue, but need to see my signature with the terms DirecTV has asserted. The representative kept talking over me insisting that I had approved the service by allowing the technician to come into me residence. The call was being recorded by DirecTV.

She finally told me that my account will remain in collections.

I intend to pay for what I signed up for, but I never agreed to these terms. This has been a case of bait and switch and it is unacceptable to me. I assume the same thing is happening to many other customers and I would like the FCC to look into this matter.

Sincerely yours,

(b) (6) .

Ticket: # 4115986 - Comcast enabling data caps during COVID

Date: 7/27/2020 8:26:50 PM

City/State/Zip: Mill Valley, California 94941

Company Complaining About: Comcast

Description

I was just notified by Comcast that they are enabling data caps while people are working from home during COVID. I live in the Bay Area of California, where technology and internet cables are plentiful. Comcast is taking advantage of individuals who are WFH and placing additional stress on American households in the pursuit of higher profits.

Ticket: # 4116078 - Atlantic Broadband Complaint

Date: 7/27/2020 9:38:44 PM

City/State/Zip: Lake Harmony, Pennsylvania 18624

Company Complaining About: Atlantic Broadband

Description

Dear FCC:

7/27/2020

KEY ITEMS RE: Complaint with Atlantic Broadband – 911 Market St. – Berwick PA 18603

- 1) Unable to cancel service with Atlantic BB
- 2) Customer service refused to cancel our service back in 2019 3 different attempts
- 3) Hold times over 2 hours on 11 different attempts to contact Atlantic BB to resolve and cancel service
- 4) There are no other broadband companies in the 18624 area that offer same speed as Atlantic BB – they have a monopoly in this area of PA

COMPLAINT HISTORY AND FURTHER DETAILS:

It is impossible to cancel service with them through any department.

We have tried customer service, sales and retention, these efforts going back to August, September, October, and November of 2019.

The representatives out and out refused to cancel our service or to escalate our calls to management. After 1 hour and 40 minutes we finally got a supervisor back in February 2020. We gave her our story and she promised to call us back after she cancelled our account and to provide us with the proper paperwork for the cancellation. Nothing happened, we never got a call back to this day.

Shortly after this we received a \$361.37 BILL for the months since August 2019 that we had tried our best to CANCEL. Our normal bill was approximately \$60 per month.

When I called again in March 2020, they stated that they had sent us to collections, and it was "out of their hands" ... this after hours of waiting to just reach someone to speak with about our account. We are resort users and over 65. We are retired and on fixed income and one of us is battling taking care of our 20-year-old son who tested positive for COVID 19.

Here we are July 2020. All I want to do now with them now is to get SOMEONE to help us to get the proper credits on this bill and hopefully get help to reinstate my service at a logical price now that we are back in PA for several months.

When we were told we were in collections, we called our credit card company and successfully were able to dispute the charges with Atlantic Broadband which as stated we do not owe.

FACTS/SUMMATION:

- 1) We had zero usage with ABB since August 2019 – almost a year ago
- 2) There never should have been charges FROM AUGUST 2019 to now.
- 3) we asked for the account to be cancelled NUMEROUS times beginning August 2019.
- 4) Each time being told we could not cancel and finally being told it was too late to cancel, they could not help us and the account was in collections.

They are mean spirited, pushy, impatient when you do get them on the phone... and most of all they do not want to take the time to listen, provide the very worst in CUSTOMER SERVICE and on top of that are extremely rude and don't do what they promise,

Please HELP!

Sincerely,

(b) (6)

Ticket: # 4116089 - Verizon Wireless Overcharging Price Quoted**Date:** 7/27/2020 9:49:10 PM**City/State/Zip:** Brooklyn, New York 11213**Company Complaining About:** Verizon Wireless

Description

I'm a timely paying Verizon Wireless customer 13.5 years whoses never missed a payment. Approximately a year ago, I purchased "Verizon Home Phone Connect" for Mom's landline phone to be added to my monthly bill. Upon purchasing and activating the device at Verizon Corporate Office in Atlantic Ave. terminal of Brooklyn, NY, I was told the cost per month for this home phone connect would be \$20.00. I was also told with tax and fees, the total amount would be \$23.80-\$24.00 max per month to be added to my bill. When the bill arrived, Verizon Wireless charged me almost \$10.00 extra. I was irate. How can a \$20.00 bill have fees equal to 50% of the bill? In addition, that was not the amount I was quoted at Corporate Office upon purchase. I immediately contacted Verizon customer service. I spoke with a supervisor. After explaining my dilemna, my bill was reduced. Now during these dire times of the COVID~19, Verizon wireless wants to charge me \$10.00 once again on a \$20.00 bill. Verizon Wireless reignited on the price set~forth at the time of purchase. It should not be. In addition, I just found out Verizon wireless cancelled grace period to pay my bill. My due date is the 15th of each month with 2 day's grace. Verizon never informed me the grace period has been cancelled approx. 2 years' ago. Not a single notification was sent to me. Verizon wireless seems to be price gouging. My bill is normally \$80-85/ mnthly and I will like it to continue. Not the \$95.00 they are requesting. Throughout this COVID-19, I've continually paid my bill on time as I have for 13.5 years with Verizon wireless.
