Re: FOIA-2021-01356  
FOIA Logs 2014 - 2021

This is in response to your request dated September 21, 2021, under the Freedom of Information Act seeking access to a copy of the FTC FOIA Case Logs covering the time frame January 1, 2014 through the present. In accordance with the FOIA and agency policy, we have searched our records on September 28, 2021.

We have located five spreadsheets of responsive records. I am granting partial access to the accessible records. Portions of these pages fall within one or more of the exemptions to the FOIA's disclosure requirements, as explained below.

I am denying access to the names of FOIA requesters seeking information on themselves. This information is exempt from release under FOIA Exemption 6, 5 U.S.C. § 552(b)(6), because individuals' right to privacy outweighs the general public's interest in seeing personal identifying information. *See The Lakin Law Firm v. FTC*, 352 F.3d 1122 (7th Cir. 2003).

If you have any questions about the way we handled your request or about the FOIA regulations or procedures, please contact Chip Taylor at 202-326-3258.

If you are not satisfied with this response to your request, you may appeal by writing to Freedom of Information Act Appeal, Office of the General Counsel, Federal Trade Commission, 600 Pennsylvania Avenue, N.W., Washington, D.C. 20580, or via email at [FOIAAppeal@ftc.gov](mailto:FOIAAppeal@ftc.gov), within 90 days of the date of this letter. Please enclose a copy of your original request and a copy of this response.

You also may seek dispute resolution services from the FTC FOIA Public Liaison Richard Gold via telephone at 202-326-3355 or via e-mail at [rgold@ftc.gov](mailto:rgold@ftc.gov), or from the Office of Government Information Services via email at [ogis@nara.gov](mailto:ogis@nara.gov), via fax at 202-741-5769, or via mail at Office of Government Information Services (OGIS), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740. Please note that the FOIA Public Liaison's role relates to comments, questions or concerns that a FOIA Requester may have with or about the FOIA Response. The FOIA Public Liaison's role does not relate to taking action in matters of private controversy nor can he resolve individual complaints.

Sincerely,

A handwritten signature in black ink, reading "Dione J. Stearns", is positioned above the typed name.

Dione J. Stearns  
Assistant General Counsel

FOIA-2021-00112	<p>United States of America Before The Federal Trade Commission Office of Administrative Law Judges: Docket 2372 "In the Matter of" 1-800 Contacts, Inc., a corporation. JOINT STIPULATION REGARDING SEARCH ENGINE MECHANICS AND GLOSSARY OF TERMS. The keywords "Search Engine Mechanics" and corresponding probable "unclassified" information in the document in question that is not "redacted" has direct software "mechanics" implications to PRISM (surveillance program) under which the NSA and other federal law enforcement agencies use to collect internet communications on American citizens. PRISM has commonly been called a "dragnet" software application in which federal agencies have overly broad latitude to violate 4th Amendment rights by perverting their authority in searching for information without a warrant and it would be unreasonable and unconstitutional to prolong issues before federal court in civil and most especially in criminal law that violate defendants due process rights. Defendants in criminal court commonly do not have the same tools and or number of lawyers as the Department of Justice or state governments to discover new arguments to be won through the rule of law. A defendants income is irrelevant to having a public defender as public defenders themselves do not have the same tools or resources available to them as the Department of Justice. All of these disadvantages are amplified by PRISM and while changing it with great expediency may be an Anti-deficiency Act violation because it may change the "intelligence process" adding to the program developed by Booz Allen Hamilton would prevent law enforcement from losing tools they have "rightly come to rely on" Carpenter v. United States. My intent is to add to it given the public information I have so far and I cannot achieve this goal without having the entire document in question fully and completely un-redacted. "Negative keywords" and other sub-sections of the document in question have direct relevancy to Search Mechanics just as they do online as much as they have to do with the algorithmic</p>	Ivenz, Gregor	-	Closed

FOIA-2021-00302	I'm following up on a previous FOIA request (completed by the FTC on January 4), in which I viewed complaints made about fake job offer scams in 2020. After reviewing the complaints that the FTC provided, I noticed that many were about fake United States Postal Service recruitment sites, which charge a fee for "courses" and "applications" to the USPS. The most common is called Postal Jobs Source, and it operates via several URLs, including postaljobssourcewcs.com and www.postaljobssourcepmd.com. I am requesting copies of any complaints about Postal Jobs Source filed in 2020, to review this further, in the public interest. I'm also requesting any complaints about the site USA Labor Services, which is the parent company of Postal Jobs Source, for the same reason. FOIA-2021-01322	Back in 2000-2005 I had a person use my identity to reopen accounts I had paid off following a divorce of sorts. I never closed these accounts but did not use. Muriel Padron was responsible for all the thefts as well as checking account thefts. She ran up approx 82,000 dollars in my name. One day in I believe 2005 I was served and immediately went to sheriff to file report. Without bills they could not give me a report. The company's would not give me charge copies without a police report. I was a mess. In the coming months laws were enacted for identity theft and the East Baton Rouge sheriff contacted me and a police report was filed. That enabled me to begin the lengthy process of clearing my name. Eaton group ignored all request for information and 9 years Abd 10 months later garnished me for \$12,000 . They currently have a lean on my home! After lengthy investigation it was determined this was a Circuit City account Muriel Padron had bought cameras and computer on totaling approximately \$2600.00 dollars. I am disabled and struggling to move closer to family to help care for me but have to clear this up. FOIA-2021-00601	This was a loss prevention job for a Human Resources department. The entire job became something else. The job description I applied for ended up not being what the job really was. I have shared this consumer complaint with the Washington attorney general. I am also going to be consulted by a private attorney for a no retaliation agreement and to remove all false reports. My employer went into my case reports and changed my narrative and that is perjury and forgery. I called Richard Gold to asked if the home address for the FOIA profile had to be the same address as the requested document to be sent to my email? Richard Gold said, I can leave the home address for the FOIA profile to match my State ID. Richard Gold also said to include these address details here in the description.
