Re: FOIA Request DOC-NOAA-2022-000199

This letter is in response to your Freedom of Information Act (FOIA) request which was received by NOAA on November 16, 2021, in which you requested:

“A copy of the most recent description of the NOAA Heritage Asset collection. A digital copy of the NOAA Heritage Asset collection database, output into a flat file such as a CSV or Excel file.”

We have located one document responsive to your request. You are granted full access to this record and a copy is enclosed. Your request is now completed.

You have the right to file an administrative appeal if you are not satisfied with our response to your FOIA request. All appeals should include a statement of the reasons why you believe the FOIA response was not satisfactory. An appeal based on documents in this release must be received within 90 calendar days of the date of this response letter at the following address:

Assistant General Counsel for Employment, Litigation, and Information
U.S. Department of Commerce Room 5896
1401 Constitution Ave. NW
Washington, DC 20230

An appeal may also be sent by email to FOIAAppeals@doc.gov or by FOIAonline at <https://foiaonline.gov>.

For your appeal to be complete, it must include the following items:

- a copy of the original request,
- our response to your request,
- a statement explaining why the withheld records should be made available, and why the denial of the records was in error.
- “Freedom of Information Act Appeal” must appear on your appeal letter. It should also be written on your envelope, email subject line, or your fax cover sheet.

FOIA appeals posted to the email box, FOIAonline, or Office after normal business hours will be deemed received on the next business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

FOIA grants requesters the right to challenge an agency's final action in federal court. Before doing so, an adjudication of an administrative appeal is ordinarily required.

The Office of Government Information Services (OGIS), an office created within the National Archives and Records Administration, offers free mediation services to FOIA requesters. They may be contacted in any of the following ways:

Office of Government Information Services
National Archives and Records Administration
Room 2510
8601 Adelphi Road
College Park, MD 20740-6001

Email: ogis@nara.gov

Phone: 301-837-1996
Fax: 301-837-0348
Toll-free: 1-877-684-6448

If you have questions regarding this correspondence please contact me at ana.liza.malabanan@noaa.gov or by phone at (562) 673-6953, or the NOAA FOIA Public Liaison Tony LaVoi at 843-834-3516. Please refer to your FOIA request tracking number DOC-NOAA-2022-000199 when contacting us.

Sincerely,

NOAA Personal Property Heritage Assets

Introduction

In accordance with the Chief Financial Officers Act of 1990, as amended by the Government Management Reform Act of 1994, an audited consolidated financial statement must be prepared covering all accounts and associated activities of each office, bureau, and activity of the Department. This guidance requires that NOAA Personal Property provide financial information related to its accounts and associated activities, including heritage assets. In addition, Federal Accounting Standards Advisory Board (FASAB), Statement of Federal Financial Accounting Standards (SFFAS 29), “*Heritage Assets and Stewardship Land*”, requires all heritage assets and stewardship land information be classified as basic except for condition information, which is to be classified as required supplementary information (RSI).

The NOAA’s Heritage Assets summary report included shows the activity, including additions, withdrawals, and transfers, related to NOAA’s heritage assets for the period as well as the beginning and ending balances. In addition, included are the reports detailing the ending inventories by Line Offices, detailed listings of acquisitions and withdrawals, and deferred maintenance.

Deferred Maintenance and Repairs

The following comment summarizes the minimum stewardship reporting required for heritage assets, national Defense PP&E, and stewardship land. NOAA's comments are addressed in deferred maintenance and repairs below.

Deferred Maintenance and Repairs – No deferred maintenance reported by the line offices.

N

N

N

N

N

Glossary

Following are definitions of terms related to reporting and examine HA/SL. Most of these definitions are drawn from the Consulate Glossary in Appendix E to FASAB Volume 1 Original Statements: Statements of Federal Financial Accounting Concepts and Standards, March 1997, GAO/AIMD-21.1.1. Definitions from other sources are specifically noted.

Collection-type heritage assets - a broad category of heritage assets, typically consisting of objects, specimens, and other items that are gathered and maintained for public exhibition, education, or research. (Adapted from SFFAS 29, paragraph 15, and input from Smithsonian institution officials).

Comprehensive reporting – providing descriptive information on the relative condition of items within asset categories, based on measureable criteria established by management.

Condition – the physical state of an asset. The condition of an asset is based on an evaluation of the physical status/state of an asset, its ability to perform as planned, and its continued usefulness. Evaluating an asset's condition requires knowledge of the asset, its performance capacity and its continued performance. The condition of a long-lived asset is affected by its durability, the quality of its design and construction, its use, the adequacy of maintenance that has been performed, and many other factors. (SFFAS 29, footnote22)

Condition assessment surveys - are periodic inspections of PP&E to determine their current condition and estimated cost to correct any deviancies.

Deferred maintenance – is maintenance that was not performed when it should have been or was scheduled to be and which, therefore, is put off or delayed for a future period. (SSFAS 6, Glossary)

De minimis – refers to very small or trifling matters –of small value, cost, or amount; insignificant. (Adapted from Black's Law Dictionary)

Exception reporting – providing condition information about only those assets that do not meet management's definition of acceptable condition. (Originated in Section 3 of FASAB Volume 1 Original Statements, Measuring and Reporting Condition.)

General PP&E land – land and land rights owned by the Federal government that are acquired for or in connection with items of general PP&E. (SSFAS 6. par 25)

General property, plant and equipment – any property, plant, and equipment used in providing goods or services. General PP&E typically has one or more of the following characteristics:

- it could be used for alternative purposes but is used to produce goods, or services, or to support the mission of the entity; or
- It is used in business-type activities; or
- It is used by entities in activities whose costs can be compared to those of other entities performing similar activities. (SSFAS 6, par 23)

Heritage assets – property, plant, and equipment that are unique for one or more of the following reasons:

- Historical or natural significance;
 - Cultural, educational, or artistic importance; or
 - Significant architectural characteristics.
- (SSFAS 29, par 15)

Land – is the solid part of the surface of the earth. Excluded from the definition of land are the natural resources (depletable resources such as mineral deposits and petroleum, renewable resources such as timber, and the outer continental shelf resources related to land). (SSFAS 29, par 34)

Land rights – are interests and privileges held by an entity in land owned by others, such as leaseholds, easements, water and water power rights, diversion rights, rights-of-way, and other land interests in land. (SSFAS 29, footnote 15)

Materiality – “the magnitude of an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement,” (SSFAS 29, paragraph 103)

Multi-use heritage assets – are HA whose predominant use is general government operations. A heritage asset used to serve two purposes – a heritage function and general government operations – shall be considered a multi-use heritage asset if the predominant use of the asset is in general government operations. (SSFAS 29, paragraph 18)

Net book value – the net amount at which an asset or a liability is carried on the books of account.

Non-collection type heritage assets – assets such as parks, memorials, monuments, and buildings. (SSFAS 29, paragraph 15)

Property, plant and equipment – consists of tangible assets, including land, that meet the following criteria:

- They have estimated useful lives of two years or more
- They are not intended for sale in the ordinary course of operations, and
- They have been acquired or constructed with the intention of being used; or being available for use by the entity.

Property, plant, and equipment also include:

- Assets acquired through capital leases, including leasehold improvements;
- Property owned by the reporting entity in the hands of others; and
- Land rights.
