ONR FOIA 17-046
July 13, 2017

This is the final response to your Freedom of Information Act (FOIA) request received by the Office of Naval Research (ONR) on June 26, 2017 and given the number 17-046 in our tracking system. You requested "a copy of the listing of reports produced by the Naval Research Advisory Committee." A copy of your request is attached to this letter.

ONR's records are maintained in accordance with the Department of the Navy Records Management Program Manual (SECNAV M-5210.01), the Department of Navy Standard Subject Identification Code Manual (SECNAV M-5201.2), and National Archives and Records Administration (NARA) guidelines. Not all records are permanent and some records may have been destroyed based on established disposition schedules. ONR does not maintain a central records room or consolidated records database.

Your request is considered granted in full. FOIA requests received by ONR are forwarded to the organization within ONR having cognizance over the subject matter of the request and a search is conducted of unclassified and classified records to identify responsive records. The Naval Research Advisory Committee (NRAC) conducted a search of their records and produced one document totaling four pages responsive to this request. The record includes the titles of NRAC reports from 1957-2007. NRAC does not maintain a record of report titles prior to 1957. NRAC determined that all titles of reports are "unclassified" and acceptable for release to the public. The record is attached to this letter.

We have classified you as an "all other" requester. As such, you are entitled to 2 free hours of search time and 100 pages of reproduction prior to any fees being assessed. Because our search time did not exceed 2 hours and you are receiving less than 100 pages, there is no charge for this request.

If you have questions on any part of this letter, please address them to Mr. Michael Ferrari at (703) 696-4303 or ONRFOIA@navy.mil. Please reference ONR FOIA 17-046 in any correspondence discussing this case.

Sincerely,

Kathy Thompson
FOIA Officer
