Good Afternoon,

This email is in response to your U.S. General Services Administration (GSA) Freedom of Information Act (FOIA) request number GSA-2022-001555, submitted August 30, 2022, in which you requested:

“records regarding the GSA's permit to shoot footage and otherwise produce an episode of Dirty Jobs at M&M Welding and Manufacturing, especially items relating to the cancellation of the permit for "security reasons".”

Nina,

Following up on your request for more information about the Dirty Jobs filming request:

- The request came to the HOTD Director from M&M Welding and Fabrication, a plant contractor who is doing boiler tube replacement work. They are the ones who had the arrangement with Dirty Jobs. The request was to be able to film the crew replacing the boiler tubes at our site. Details about the HOTD facility, the fact that it is a federal facility or the customers it serves, would not be disclosed as part of the film coverage.

- [Redacted]

I did not see a media inquiry come through comms to us for comment so my guess is that the Dirty Jobs producers gave that explanation to the press.

Shauna, feel free to add anything I may have missed.

Hello Aimee,

The [Discovery Networks show Dirty Jobs](#) has asked to follow the crews from a HOTD contractor, ([M&M Welding and Fabricators](#)), that will perform repairs and maintenance on the boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures. Are you open to allowing this work? Counsel seemed okay with it if we follow the procedures for [filming at a historic site](#).

Please advise

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

Subject: Dirty Jobs filming
To: <robin.carnahan@gsa.gov>
Cc: <Rick_scott@senate.gov>, <marco_rubio@senate.gov>

I read with dismay a post from Mike Rowe about the decision by the GSA at the last minute to pull a filming permit for his show "Dirty Jobs," purportedly for a security reason. That's ironic since Rowe has been granted permits and filmed in quite sensitive locations including in the military, NASA and even the National Security Administration.

It sounds more like a political decision based on the fact Mr. Rowe has a show on the Fox Network (he has previously had shows on other mainstream media including CNN). His message that a college education is not necessary to be successful is apolitical, yet the permit was pulled with no discussion at the last minute.

I hope this decision was not political as it appears to be.

Hey Cathy and Alicia!

- Here's the direct link to our Campbell CH tweet: https://twitter.com/US_GSAR4/status/1529170771674898432
- This tweet was cross promoted by USGSA twitter (flagship) and Nina's twitter
- We did not receive any negative feedback on this same post from R4 GSA Facebook

Please see images attached below - Twitter would not let me create a report including comments

I am counting a total of three negative comments (replies) from three different users, to date And, four more unique users that liked these posts

Otherwise, our engagement on this post has been great - I'll post another screenshot to date from Twitter Analytics

thanks, b

Good morning:

I wanted to give you a heads up We posted a video on the completion of the Greenville, SC federal courthouse yesterday and we received a lot of negative comments related to some permits that were denied to the TV host Mike Rowe (Dirty Jobs)

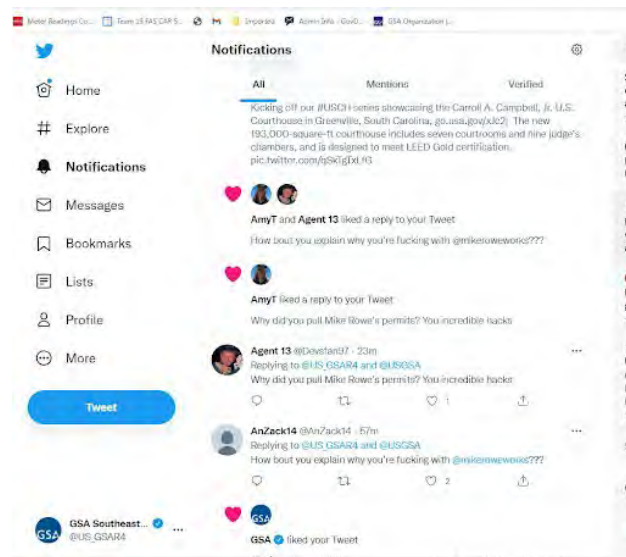

I am attaching a couple of screenshots as well as an article that we found after doing some research to figure out why we were getting the comments You all are most likely informed about the issue - but wanted to let you know about the FB negativity

Thanks,
cathy

I read with dismay a post from Mike Rowe about the decision by the GSA at the last minute to pull a filming permit for his show "Dirty Jobs," purportedly for a security reason. That's ironic since Rowe has been granted permits and filmed in quite sensitive locations including in the military, NASA and even the National Security Administration.

It sounds more like a political decision based on the fact Mr. Rowe has a show on the Fox Network (he has previously had shows on other mainstream media including CNN). His message that a college education is not necessary to be successful is apolitical, yet the permit was pulled with no discussion at the last minute.

I hope this decision was not political as it appears to be.

Correction: Twitter not facebook Sorry Long morning

On Wed, May 25, 2022 at 9:44 AM Cathy Rineer-Garber - ZC2 <cathleen.garber@gsa.gov> wrote:
Good morning:

I wanted to give you a heads up We posted a video on the completion of the Greenville, SC federal courthouse yesterday and we received a lot of negative comments related to some permits that were denied to the TV host Mike Rowe (Dirty Jobs)

I am attaching a couple of screenshots as well as an article that we found after doing some research to figure out why we were getting the comments You all are most likely informed about the issue - but wanted to let you know about the FB negativity

Thanks,
cathy

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (6)

Jonathan

On Thu, Mar 10, 2022 at 6:48 AM John McDaniel - WPM1C <john.mcdaniel@gsa.gov> wrote:
Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (6)

Subject: Dirty Jobs filming
To: <robin.carnahan@gsa.gov>
Cc: <Rick_scott@senate.gov>, <marco_rubio@senate.gov>

I read with dismay a post from Mike Rowe about the decision by the GSA at the last minute to pull a filming permit for his show "Dirty Jobs," purportedly for a security reason. That's ironic since Rowe has been granted permits and filmed in quite sensitive locations including in the military, NASA and even the National Security Administration.

It sounds more like a political decision based on the fact Mr. Rowe has a show on the Fox Network (he has previously had shows on other mainstream media including CNN). His message that a college education is not necessary to be successful is apolitical, yet the permit was pulled with no discussion at the last minute.

I hope this decision was not political as it appears to be.

I read with dismay a post from Mike Rowe about the decision by the GSA at the last minute to pull a filming permit for his show "Dirty Jobs," purportedly for a security reason. That's ironic since Rowe has been granted permits and filmed in quite sensitive locations including in the military, NASA and even the National Security Administration.

It sounds more like a political decision based on the fact Mr. Rowe has a show on the Fox Network (he has previously had shows on other mainstream media including CNN). His message that a college education is not necessary to be successful is apolitical, yet the permit was pulled with no discussion at the last minute.

I hope this decision was not political as it appears to be.

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

looping in John Moore, counsel to NCR outleasing, have a great weekend

PRIVILEGED ATTORNEY-CLIENT COMMUNICATION

On Fri, Mar 11, 2022 at 2:23 PM Brian Tye - PTC <brian.tye@gsa.gov> wrote:

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

On Fri, Mar 11, 2022 at 1:48 PM Jeffrey Jensen - PCAB <jeffrey.jensen@gsa.gov> wrote:

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add. Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us. You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew. In addition, you might want to think about charging for any overhead for security or building operations etc.

Brian, Andrew--any input?

Luke, Kim and Mike:

I have copied in the production company (School of Humans) for the Dirty Jobs filming at HOTD. Your primary POC there is (b) (6). I will leave the finer points of the paperwork in your hands. Please keep me copied on this email thread so that I can ensure we are ready to support this project. Any questions, feel free to contact me. FYI, I will be out of the country and unavailable from 3/29-4/10.

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests

for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

On Fri, Mar 11, 2022 at 2:23 PM Brian Tye - PTC <brian.tye@gsa.gov> wrote:

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Greg,

Thanks for the reply - we'll see you Tuesday for the scout

Also, will there be one else from GSA on site with us during filming? I'll need the below information for anyone on your team that will be present in order to conduct screenings

- Last Name, First Name, Middle Initial
- Phone Number, Email Address
- Current Address
- Date of Birth

Thank you,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Great speaking with you this morning! John CC'ed on this email is the director for the GSA heating plant he's been helping tremendously with gaining access for the production and will be the one we will work with for access for the filming crew Based on the call we were targeting a day on site between 4/26/22-4/28-22 John if you could please let (b) (6) know what you need from him for access purposes and any other questions the agency may have that would be great Looking forward to this!

Hello Greg,

It was great meeting you on the scout last week. I'd like to touch base with you on a few things. I'm copying our Production Manager (b) (6) to help follow

- 1 Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?
- 2 Parking - we travel with five vehicles. What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door.
- 3 Location Release - I've attached our standard location release. Are you able to sign?
- 4 Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question.

I'll let (b) (6) jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day.

Thanks Greg!

I'm looking specifically for anyone from your office that will be on set during filming. Maybe that will be just you and John? At the plant itself, we'll only film the employees of M&M and I'm receiving their information separately.

Thank you,

(b) (6)

On Tue, May 10, 2022 at 11:21 AM Greg Westphal - WPMAEF <greg.westphal@gsa.gov> wrote:

(b) (6)

Do you mean in the plant, or just on the set? Everyone here has to go through a thorough background check (HSPD-12) before they're allowed to work here. I don't think anyone else from GSA will be nearby.

Thanks,

Greg

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1 day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble Please let me know if you need a crew roster

We don't really have any special requirements We'll need a location release signed and appearance releases for anyone on camera Parking access nearby a door is helpful Maybe a room for us production folks to set up in Will we be required to sign NDA's for the site?

Thank you,

(b) (6)

(b) (6)

Do you mean in the plant, or just on the set? Everyone here has to go through a thorough background check (HSPD-12) before they're allowed to work here. I don't think anyone else from GSA will be nearby.

Thanks,

Greg

(b) (6)

Do you mean in the plant, or just on the set? Everyone here has to go through a thorough background check (HSPD-12) before they're allowed to work here. I don't think anyone else from GSA will be nearby.

Thanks,

Greg

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby, a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Sorry to hear about the delay; we do have a bit of flexibility. We could film on **Thursday, May 19th**. It gets much less flexible after the 19th, however, so I hope this works for everyone.

Thank you for the address; we'll meet you guys Friday morning at 9AM at 325 13th St SW.

Good afternoon (b) (6)

I left you a VM this morning with the incorrect date. I meant to say that we would like to settle on shooting Friday, April 29th with Mike Rowe.

For our scout this Friday 4/15, can we meet at 9:00 AM? Where would you like us to go? We're still unsure of the exact location of the work site.

Thank you,

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - <greg.westphal@gsa.gov> is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together.

Hi (b) (6)

I'm looping in John McDaniel, our HOTD Director, for answers to your questions A film company has reserved the parking on both sides of 13th Street in front of the plant April 18-29, so that might be your best option for parking You could probably just reserve one side of the street if that's all you need

Greg

On Fri, Apr 22, 2022 at 1:05 PM (b) (6) <[REDACTED]@schoolofhumans.com> wrote:

Hello Greg,

It was great meeting you on the scout last week I'd like to touch base with you on a few things I'm copying our Production Manager (b) (6) to help follow

1 Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?

- Monitor the [COVID-19 community spread tracker at the CDC website](#)
- If the COVID-19 Community Level for the District of Columbia is Medium or High there are specific protocols that must be followed The [Safer Federal Workforce Task Force website](#) has the resources you need to understand what to do to enter a federal building
- DC is currently at the Medium level which would require each person needing entry to provide a Vaccination Certification Form which is attached If the person is unvaccinated, a negative COVID test result within 3 days of the requested entry date must be provided
- We do not have a pre-registration process but if you will send me a list of names (full name) for each person needing entry I will make sure our Protective Service Officers have that list which will smooth you entry process
- The speed of entry is directly correlated with the number of people requesting access We have a number of contractors who come to our building every day and they begin arriving as early as 5:30 a.m. In any event, I or someone on my staff will be in the lobby to make sure we get everyone cleared as efficiently as possible on your first day Plan to give yourselves at least 30-45 minutes to get screened for entry

2 Parking - we travel with five vehicles What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door

- Most film crews who work in the District make arrangements with the District of Columbia Department of Transportation to block off parking on the streets. On street parking is available on all four sides of our building (C St, D St, 12th St, 13 St SW). We do not have an abundance of on site parking. There is also a commercial parking lot located across 12th St SW from our building.

3 Location Release - I've attached our standard location release. Are you able to sign?

- This would need to be directed to Kimberly for routing and signature by GSA.

4 Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question.

- The Heating Operation and Transmission Division does not set fees for filming at government properties. Kimberly would be the person with whom you should discuss this issue.

I'll let (b) (6) jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day.

Thanks Greg!

John,

Responses below - questions bolded:

1. Crew Access - Understood. We'll plan to be a little earlier than usual - and I'll send you a crew roster soon. I see you attached a Certificate of Vaccination - **should I present physical copies of these to the front desk security or can I forward you signed copies digitally?**

2-4. Appreciate the info - I'll reach out to Kimberly.

Thank you,

Hi (b) (6)

I'm looping in John McDaniel, our HOTD Director, for answers to your questions. A film company has reserved the parking on both sides of 13th Street in front of the plant April 18-29, so that might be your best option for parking. You could probably just reserve one side of the street if that's all you need.

Greg

Hello Greg,

It was great meeting you on the scout last week. I'd like to touch base with you on a few things. I'm copying our Production Manager (b) (6) to help follow.

1. Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?

- Monitor the [COVID-19 community spread tracker at the CDC website](#).
- If the COVID-19 Community Level for the District of Columbia is Medium or High there are specific protocols that must be followed. The [Safer Federal Workforce Task Force website](#) has the resources you need to understand what to do to enter a federal building.
- DC is currently at the Medium level which would require each person needing entry to provide a Vaccination Certification Form which is attached. If the person is unvaccinated, a negative COVID test result within 3 days of the requested entry date must be provided.
- We do not have a pre-registration process but if you will send me a list of names (full name) for each person needing entry I will make sure our Protective Service Officers have that list which will smooth your entry process.
- The speed of entry is directly correlated with the number of people requesting access. We have a number of contractors who come to our building every day and they begin arriving as early as 5:30 a.m. In any event, I or someone on my staff will be in the lobby to make sure we get everyone cleared as efficiently as possible on your first day. Plan to give yourselves at least 30-45 minutes to get screened for entry.

2. Parking - we travel with five vehicles. What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door.

- Most film crews who work in the District make arrangements with the District of Columbia Department of Transportation to block off parking on the streets. On street parking is available on all four sides of our building (C St, D St, 12th St, 13 St SW). We do not have an abundance of on site parking. There is also a commercial parking lot located across 12th St SW from our building.

3. Location Release - I've attached our standard location release. Are you able to sign?

- This would need to be directed to Kimberly for routing and signature by GSA.

4. Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question.

- The Heating Operation and Transmission Division does not set fees for filming at government properties. Kimberly would be the person with whom you should discuss this issue.

I'll let (b) (6) jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day.

Thanks Greg!

(b) (6)

From our standpoint there is no issue with a site walk on 5/18. In regard to the zoom meeting we can be available, lets touch base again early next week to firm up the time.

Regards,

[WARNING-EXTERNAL]

Good afternoon (b) (6)

(b) (6) to this thread, our Field producer whom you met last visit.

Can we set up another site visit with you on Wed 5/18 - the day before our film date, maybe 9A again? We'd like to do a walkthrough with one of our other camera operators.

Secondly, we'd like to Zoom with you and (b) (6) maybe some of the gents, mid next week. Wed 5/11 @ 10A perhaps?

Thank you,

(b) (6)
Associate Producer
School of Humans

Sorry I missed you. We are delayed starting this week due to plant operations still needing the boiler. Can we move back the filming date to the one in May? We can meet you Friday 4/15 at 9AM at 325 13th St SW Washington DC 20024. Please let us know if you still plan on coming Friday and we will see you there.

Good afternoon (b) (6)

I left you a VM this morning with the incorrect date I meant to say that we would like to settle on shooting Friday, April 29th with Mike Rowe

For our scout this Friday 4/15, can we meet at 9:00 AM? Where would you like us to go? We're still unsure of the exact location of the work site

Thank you,

(b) (6)

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - [+greg.westphal@gsa.gov](mailto:greg.westphal@gsa.gov) is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1 day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble Please let me know if you need a crew roster

We don't really have any special requirements We'll need a location release signed and appearance releases for anyone on camera Parking access nearby a door is helpful Maybe a room for us production folks to set up in Will we be required to sign NDA's for the site?

Thank you,

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still.

There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - greg.westphal@gsa.gov is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together.

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1 day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble
Please let me know if you need a crew roster

We don't really have any special requirements We'll need a location release signed and appearance releases for anyone on camera Parking access nearby a door is helpful Maybe a room for us production folks to set up in
Will we be required to sign NDA's for the site?

Thank you,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1

day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble Please let me know if you need a crew roster

We don't really have any special requirements We'll need a location release signed and appearance releases for anyone on camera Parking access nearby a door is helpful Maybe a room for us production folks to set up in Will we be required to sign NDA's for the site?

Thank you,

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

Good afternoon (b) (6)

Thursday 4/28 with 4/29 as a backup date is good for us.

Regarding clearance and the filming fee, I think those are best discussed with Kimberly Ashby.

Thanks,

Greg

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - +greg.westphal@gsa.gov is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together.

I'll check with Mike Albritton to see when he plans on shutting it down. It has to be off-line by May 1 due to emissions regulations, so my guess is Mike will shut it down the prior week once Boiler 6 is up.

Thanks,

Greg

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1 day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble Please let me know if you need a

crew roster

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1 day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble Please let me know if you need a crew roster

We don't really have any special requirements We'll need a location release signed and appearance releases for anyone on camera Parking access nearby a door is helpful Maybe a room for us production folks to set up in Will we be required to sign NDA's for the site?

Thank you,

(b) (6)

Good morning everyone.

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

[WARNING-EXTERNAL]

Hello everyone,

Our schedule for DC is needing to push a day. How would Friday 4/29 as our shoot date be for everyone?

@Kimberly Ashby - WPXPC, @John McDaniel - WPM1C - What would be the next step now after receiving our vendor number?

Thank you,

(b) (6)
Associate Producer
School of Humans

Good morning (b) (6)

I'm working with Kimberly Ashby in the GSA Outleasing Office who explained the request for the W9 and the required location fees. I've sent in the vendor request form and W9 to GSA in order to become a vendor to provide that payment.

Thank you,

(b) (6)
Associate Producer
School of Humans

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good afternoon (b) (6)

I left you a VM this morning with the incorrect date. I meant to say that we would like to settle on shooting Friday, April 29th with Mike Rowe.

For our scout this Friday 4/15, can we meet at 9:00 AM? Where would you like us to go? We're still unsure of the exact location of the work site.

Thank you,

(b) (6)
Associate Producer
School of Humans

(b) (6) - awesome, I'll update this thread early next week with an exact arrival time for us.

Greg - thank you for confirming, this sounds like a good opportunity for us to meet +John McDaniel - WPM1C as well if he's available/would like to meet.

Kimberly - great to hear - let me know what else you need from us!

Thank you all for your time,

(b) (6)

We should be OK with a 4/15 visit.

Thanks,

Greg

On Wed, Apr 6, 2022 at 9:15 AM (b) (6) <(b) (6)@schoolofhumans.com> wrote:

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

(b) (6)
Associate Producer

Good afternoon (b) (6)

Thursday 4/28 with 4/29 as a backup date is good for us.

Regarding clearance and the filming fee, I think those are best discussed with Kimberly Ashby.

Thanks,

Greg

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - [+greg.westphal@gsa.gov](mailto:greg.westphal@gsa.gov) is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

John,

Per the subject meeting, it has been requested that we provide the following:

- 1 How the request came to GSA
- 2 Scope of what will be filmed
- 3 Terms of the filming agreement
- 4 Contact name and phone number of the person who we have been coordinating with to schedule the filing

Please advise as soon as possible

Thank you,

Shauna

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

Shauna,

As discussed, the final details have been confirmed for the film crew for the Discovery Networks series Dirty Jobs to be at HOTD on 5/19/22. A final pre-filming site visit will occur on 5/18/22.

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1 day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble Please let me know if you need a crew roster

We don't really have any special requirements We'll need a location release signed and appearance releases for anyone on camera Parking access nearby a door is helpful Maybe a room for us production folks to set up in Will we be required to sign NDA's for the site?

Thank you,

(b) (6)

John, got this from our M&M contractor late yesterday. Wanted to run it up the chain for thoughts/feasibility and follow on steps if any. Basically they've been approached by the TV show Dirty Jobs who would like to follow them on one of their jobs. The job he is referencing would be the boiler 3 front wall/roof tube replacement.

Your thoughts?
Best regards,

Mike,

Hope all is well sir. I emailed Dereje first to find out who we would talk to about this and he pointed me in your direction. We've been requested by the TV show dirty jobs on the discovery channel to provide a couple day demonstration of the work that we do for the TV show. The wanted to follow one of our boiler crews for the day and I think the job we slated to perform this spring is perfect for what they want to do. Obviously they aren't going to disclose the location of the work. Is there someone there we can talk through how to submit to get the camera crew on the visitor access for a few days to film our work?

Hi (b) (6)

That's really an amazing opportunity for your company to get a free advertisement on TV. I think the best person to contact is Michael Albritton so he can point you towards the right person to handle this matter. In my opinion, I don't think it'd be a big deal as long as the location of work is not disclosed. Good luck and I'm looking forward to seeing it on Discovery Channel!

Good Morning John,

Please see our vendors check-list from the Engineering & Environmental Branch. Also attached, are our customers provided by the Financial Branch.

HOTD does not have a certain Fire Department, Police Department, Control Center that responds to us.

The nearest hospital will be George Washington University Hospital.

HOTD has Safety Data Sheets (SDS) throughout the plant to handle different types of poison gas and chemicals.

Chemical releases are handled through our Environmental contract with ATLANTIC ANALYTICAL LABS INC which is provided in the spreadsheet.

Hello Greg,

It was great meeting you on the scout last week I'd like to touch base with you on a few things I'm copying our Production Manager (b) (6) to help follow

1 Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?

- Monitor the [COVID-19 community spread tracker at the CDC website](#)
- If the COVID-19 Community Level for the District of Columbia is Medium or High there are specific protocols that must be followed. The [Safer Federal Workforce Task Force website](#) has the resources you need to understand what to do to enter a federal building
- DC is currently at the Medium level which would require each person needing entry to provide a Vaccination Certification Form which is attached. If the person is unvaccinated, a negative COVID test result within 3 days of the requested entry date must be provided
- We do not have a pre-registration process but if you will send me a list of names (full name) for each person needing entry I will make sure our Protective Service Officers have that list which will smooth your entry process
- The speed of entry is directly correlated with the number of people requesting access. We have a number of contractors who come to our building every day and they begin arriving as early as 5:30 a.m. In any event, I or someone on my staff will be in the lobby to make sure we get everyone cleared as efficiently as possible on your first day. Plan to give yourselves at least 30-45 minutes to get screened for entry

2 Parking - we travel with five vehicles. What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door

- Most film crews who work in the District make arrangements with the District of Columbia Department of Transportation to block off parking on the streets. On street parking is available on all four sides of our building (C St, D St, 12th St, 13 St SW). We do not have an abundance of on site parking. There is also a commercial parking lot located across 12th St SW from our building

3 Location Release - I've attached our standard location release. Are you able to sign?

- This would need to be directed to Kimberly for routing and signature by GSA

4 Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question

- The Heating Operation and Transmission Division does not set fees for filming at government properties. Kimberly would be the person with whom you should discuss this issue

I'll let (b) (6) jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day

Thanks Greg!

Hi (b) (6)

I'm looping in John McDaniel, our HOTD Director, for answers to your questions. A film company has reserved the parking on both sides of 13th Street in front of the plant April 18-29, so that might be your best option for parking. You could probably just reserve one side of the street if that's all you need.

Greg

Hello Greg,

It was great meeting you on the scout last week. I'd like to touch base with you on a few things. I'm copying our Production Manager (b) (6) to help follow.

1. Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?

2. Parking - we travel with five vehicles. What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door.

3. Location Release - I've attached our standard location release. Are you able to sign?

4. Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question.

I'll let (b) (6) jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day.

Thanks Greg!

Hello Greg,

It was great meeting you on the scout last week I'd like to touch base with you on a few things I'm copying our Production Manager (b) (6) to help follow

1 Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?

- Monitor the [COVID-19 community spread tracker at the CDC website](#)
- If the COVID-19 Community Level for the District of Columbia is Medium or High there are specific protocols that must be followed The [Safer Federal](#)

[Workforce Task Force website](#) has the resources you need to understand what to do to enter a federal building

- DC is currently at the Medium level which would require each person needing entry to provide a Vaccination Certification Form which is attached. If the person is unvaccinated, a negative COVID test result within 3 days of the requested entry date must be provided.
- We do not have a pre-registration process but if you will send me a list of names (full name) for each person needing entry I will make sure our Protective Service Officers have that list which will smooth your entry process.
- The speed of entry is directly correlated with the number of people requesting access. We have a number of contractors who come to our building every day and they begin arriving as early as 5:30 a.m. In any event, I or someone on my staff will be in the lobby to make sure we get everyone cleared as efficiently as possible on your first day. Plan to give yourselves at least 30-45 minutes to get screened for entry.

2. Parking - we travel with five vehicles. What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door.

- Most film crews who work in the District make arrangements with the District of Columbia Department of Transportation to block off parking on the streets. On street parking is available on all four sides of our building (C St, D St, 12th St, 13 St SW). We do not have an abundance of on-site parking. There is also a commercial parking lot located across 12th St SW from our building.

3. Location Release - I've attached our standard location release. Are you able to sign?

- This would need to be directed to Kimberly for routing and signature by GSA.

4. Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question.

- The Heating Operation and Transmission Division does not set fees for filming at government properties. Kimberly would be the person with whom you should discuss this issue.

I'll let (b) (6) jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day.

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee. I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur. If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment. I have cc'd NCR's outleasing lead Luke Pragle on this email.

Thanks,

Brian Tye

On Fri, Mar 11, 2022 at 1:48 PM Jeffrey Jensen - PCAB <jeffrey.jensen@gsa.gov> wrote:

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add. Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us. You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew. In addition, you might want to think about charging for any overhead for security or building operations etc.

Brian, Andrew--any input?

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

PRIVILEGED ATTORNEY-CLIENT COMMUNICATION

On Fri, Mar 11, 2022 at 2:23 PM Brian Tye - PTC <brian.tye@gsa.gov> wrote:

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

John,

My TMO team has reviewed your request and are good as long as the following items are addressed:

Tim and I do not see any issue from a threat perspective when applying the follow:

- all security procedures are followed (Physical Security)
- film crew is not allowed near any sensitive location or information (CUI)
- film crew does not film any security or facility access procedures or vulnerabilities
- GSA contractor maintains positive escort control at all times

If you have additional questions, please let me know

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add. Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us. You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew. In addition, you might want to think about charging for any overhead for security or building operations etc.

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Grady,

Thanks for the quick turnaround on this We will implement your recommendations with one modification; GSA will maintain positive escort control at all times vice the GSA contractor doing so
Thanks again,

JMc

John,

My TMO team has reviewed your request and are good as long as the following items are addressed:

Tim and I do not see any issue from a threat perspective when applying the follow:

- all security procedures are followed (Physical Security)
- film crew is not allowed near any sensitive location or information (CUI)
- film crew does not film any security or facility access procedures or vulnerabilities
- GSA contractor maintains positive escort control at all times

If you have additional questions, please let me know

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (6)

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

On Fri, Mar 11, 2022 at 2:23 PM Brian Tye - PTC <brian.tye@gsa.gov> wrote:

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

(b) (6)
Associate Producer
School of Humans

Good afternoon (b) (6)

Thursday 4/28 with 4/29 as a backup date is good for us.

Regarding clearance and the filming fee, I think those are best discussed with Kimberly Ashby.

Thanks,

Greg

On Fri, Apr 1, 2022 at 11:38 AM (b) (6) <(b) (6)@schoolofhumans.com> wrote:
Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - +greg.westphal@gsa.gov is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together.

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - +greg.westphal@gsa.gov is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together.

Hello everyone,

Our schedule for DC is needing to push a day How would Friday 4/29 as our shoot date be for everyone?

[@Kimberly Ashby - WPXPC](#), [@John McDaniel - WPMIC](#) - What would be the next step now after receiving our vendor number?

Thank you,

Sorry to hear about the delay, we do have a bit of flexibility. We could film on **Thursday, May 19th**. It gets much less flexible after the 19th however so I hope this works for everyone.

Thank you for the address, we'll meet you guys Friday morning at 9AM at 325 13th St SW.

[WARNING-EXTERNAL]

Good afternoon (b) (6)

I left you a VM this morning with the incorrect date I meant to say that we would like to settle on shooting Friday, April 29th with Mike Rowe

For our scout this Friday 4/15, can we meet at 9:00 AM? Where would you like us to go? We're still unsure of the exact location of the work site

Thank you,

(b) (6)

Associate Producer

School of Humans

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great

to see the space, meet you all face to face and get an even better sense of the work we'll be covering

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer

Kimberly - please advise us as to the next step in the permitting process We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28

Thank you all,

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28

Thank you all,

(b) (6)
Associate Producer

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - +greg.westphal@gsa.gov is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this

Thank you all, we're really looking forward to seeing this come together,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good afternoon (b) (6)

(b) (6) to this thread, our Field producer whom you met last visit

Can we set up another site visit with you on Wed 5/18 - the day before our film date, maybe 9A again? We'd like to do a walkthrough with one of our other camera operators

Secondly, we'd like to Zoom with you and (b) (6) maybe some of the gents, mid next week Wed 5/11 @ 10A perhaps?

Thank you,

Sorry to hear about the delay; we do have a bit of flexibility. We could film on **Thursday, May 19th**. It gets much less flexible after the 19th however so I hope this works for everyone.

Thank you for the address, we'll meet you guys Friday morning at 9AM at 325 13th St SW.

Good afternoon (b) (6)

I left you a VM this morning with the incorrect date. I meant to say that we would like to settle on shooting Friday, April 29th with Mike Rowe.

For our scout this Friday 4/15, can we meet at 9:00 AM? Where would you like us to go? We're still unsure of the exact location of the work site.

Thank you,

(b) (6)

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

[WARNING-EXTERNAL]

Good afternoon (b) (6)

I left you a VM this morning with the incorrect date I meant to say that we would like to settle on shooting Friday, April 29th with Mike Rowe

For our scout this Friday 4/15, can we meet at 9:00 AM? Where would you like us to go? We're still unsure of the exact location of the work site

Thank you,

(b) (6)

Associate Producer

School of Humans

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

(b) (6)

Associate Producer

School of Humans

Good afternoon (b) (6)

Thursday 4/28 with 4/29 as a backup date is good for us.

Regarding clearance and the filming fee, I think those are best discussed with Kimberly Ashby.

Thanks,

Greg

On Fri, Apr 1, 2022 at 11:38 AM (b) (6) <(b) (6)@schoolofhumans.com> wrote:

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - [+greg.westphal@gsa.gov](mailto:greg.westphal@gsa.gov) is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together,

Folks,

I am working through all of the approvals we will need to make this happen. So far, so good. Waiting to hear from our Chief Security Officer and the Center for Historic Buildings. As soon as we get the green light from all of those folks, I will get you turned over to the experts who will tell you what will be required from the production company.

[WARNING-EXTERNAL]

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

(b) (6)

Associate Producer

School of Humans

(b) (6)

On Fri, Apr 1, 2022 at 12:24 PM Greg Westphal - WPMAEF <greg.westphal@gsa.gov> wrote:

Good afternoon (b) (6)

Thursday 4/28 with 4/29 as a backup date is good for us.

Regarding clearance and the filming fee, I think those are best discussed with Kimberly Ashby.

Thanks,

Greg

On Fri, Apr 1, 2022 at 11:38 AM (b) (6) <(b) (6) schoolofhumans.com> wrote:

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - [+greg.westphal@gsa.gov](mailto:greg.westphal@gsa.gov) is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

(b) (6)

John,

May I ask what the W9 is for? Insurance, payment... The production company is School of Humans, however the entity that houses Dirty Jobs is Botany Woods. Depending on your needs, we'll send you one or the other.

Thank you,

(b) (6)
Associate Producer
School of Humans

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

(b) (6)

Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

(b) (6)

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

(b)
Associate Producer

John,

May I ask what the W9 is for? Insurance, payment... The production company is School of Humans, however the entity that houses Dirty Jobs is Botany Woods. Depending on your needs, we'll send you one or the other.

Thank you,

(b) (6)
Associate Producer
School of Humans

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

(b)
Associate Producer
School of Humans

OK team. We are on a glide path to getting all of the head nods here at GSA. To get the team that prepares our agreements that support this sort of effort, I need to get some basic information:

Dates:

Number of people:

Any special requirements:

We will then have our outleasing team prepare the documents necessary and get them to you for review and execution.

Great speaking with you this morning! John CC'ed on this email is the director for the GSA heating plant he's been helping tremendously with gaining access for the production and will be the one we will work with for access for the filming crew. Based on the call we were targeting a day on site between 4/26/22-4/28-22. John if you could please let (b) (6) know what you need from him for access purposes and any other questions the agency may have that would be great. Looking forward to this!

Mike,

Hope all is well sir. I emailed Dereje first to find out who we would talk to about this and he pointed me in your direction. We've been requested by the TV show dirty jobs on the discovery channel to provide a couple day demonstration of the work that we do for the TV show. The wanted to follow one of our boiler crews for the day and I think the job we slated to perform this spring is perfect for what they want to do. Obviously they aren't going to disclose the location of the work. Is there someone there we can talk through how to submit to get the camera crew on the visitor access for a few days to film our work?

That's really an amazing opportunity for your company to get a free advertisement on TV. I think the best person to contact is Michael Albritton so he can point you towards the right person to handle this matter. In my opinion, I don't think it'd be a big deal as long as the location of work is not disclosed. Good luck and I'm looking forward to seeing it on Discovery Channel!

John, got this from our M&M contractor late yesterday. Wanted to run it up the chain for thoughts/feasibility and follow on steps if any. Basically they've been approached by the TV show Dirty Jobs who would like to follow them on one of their jobs. The job he is referencing would be the boiler 3 front wall/roof tube replacement.

Your thoughts?
Best regards,

Subject: FW: Upcoming boiler tube work

Mike,

Hope all is well sir. I emailed Dereje first to find out who we would talk to about this and he pointed me in your direction. We've been requested by the TV show dirty jobs on the discovery channel to provide a couple day demonstration of the work that we do for the TV show. The wanted to follow one of our boiler crews for the day and I think the job we slated to perform this spring is perfect for what they want to do. Obviously they aren't going to disclose the location of the work. Is there someone there we can talk through how to submit to get the camera crew on the visitor access for a few days to film our work?

Hi (b) (6)

That's really an amazing opportunity for your company to get a free advertisement on TV (b) (6). I think the best person to contact is Michael Albritton so he can point you towards the right person to handle this matter. In my opinion, I don't think it'd be a big deal as long as the location of work is not disclosed.

Good luck and I'm looking forward to seeing it on Discovery Channel!

Regards,

Dereje Gemechu

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add. Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us. You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew. In addition, you might want to think about charging for any overhead for security or building operations etc.

Brian, Andrew--any input?

Luke, Kim and Mike:

I have copied in the production company (School of Humans) for the Dirty Jobs filming at HOTD. Your primary POC there is (b) (6). I will leave the finer points of the paperwork in your hands. Please keep me copied on this email thread so that I can ensure we are ready to support this project. Any questions, feel free to contact me. FYI, I will be out of the country and unavailable from 3/29-4/10.

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/realty-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

John,

Thank you for putting this together. For the licensing portion please include Kim Ashby & Mike McAvinn (both Cc'd) to the introduction. They will be handling the license details.

Regards,

Luke Pragle

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add. Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us. You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew. In addition, you might want to think about charging for any overhead for security or building operations etc.

Brian, Andrew--any input?

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (6)

Associate Producer

School of Humans

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests

for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Good morning Kimberly,

Thank you for asking, from the OA draft report,

1 OA# AMD05704 Sprint Lease OMD00119 Expiration date in OA Tool June 30, 2023, Renewal Memo termination date June 3, 2024 and Sprint Renewal notice ending July 31, 2023, LA# 4 June 30, 2023 and your Memo to file expiration date 7/32/2023

2 OA# ADC09061 Lease ODC00645 Dirty Jobs Filming for OA Finalization

- a License (Effective date and Expiration date) including rent
- b Project number finalization in REXUS

Please send me this at your earliest convenience

Thank you

John,

May I ask what the W9 is for? Insurance, payment The production company is School of Humans, however the entity that houses Dirty Jobs is Botany Woods
Depending on your needs, we'll send you one or the other

Thank you,

(b) (6)
Associate Producer
School of Humans

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup) Mike will film for 1 day within one of these windows Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike We run three cameras and sound and are small and nimble Please let me know if you need a crew roster

We don't really have any special requirements We'll need a location release signed and appearance releases for anyone on camera Parking access nearby a door is helpful Maybe a room for us production folks to set up in Will we be required to sign NDA's for the site?

Thank you,

(b) (6)
Associate Producer
School of Humans

[WARNING-EXTERNAL]

OK team We are on a glide path to getting all of the head nods here at GSA To get the team that prepares our agreements that support this sort of effort, I need to get some basic information:

Dates:

Number of people:

Any special requirements:

We will then have our outleasing team prepare the documents necessary and get them to you for review and execution

Hello Greg,

It was great meeting you on the scout last week I'd like to touch base with you on a few things I'm copying our Production Manager (b) (6) to help follow

1 Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?

- Monitor the [COVID-19 community spread tracker at the CDC website](#)
- If the COVID-19 Community Level for the District of Columbia is Medium or High there are specific protocols that must be followed. The [Safer Federal Workforce Task Force website](#) has the resources you need to understand what to do to enter a federal building
- DC is currently at the Medium level which would require each person needing entry to provide a Vaccination Certification Form which is attached. If the person is unvaccinated, a negative COVID test result within 3 days of the requested entry date must be provided
- We do not have a pre-registration process but if you will send me a list of names (full name) for each person needing entry I will make sure our Protective Service Officers have that list which will smooth your entry process
- The speed of entry is directly correlated with the number of people requesting access. We have a number of contractors who come to our building every day and they begin arriving as early as 5:30 a.m. In any event, I or someone on my staff will be in the lobby to make sure we get everyone cleared as efficiently as possible on your first day. Plan to give yourselves at least 30-45 minutes to get screened for entry

2 Parking - we travel with five vehicles. What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door

- Most film crews who work in the District make arrangements with the District of Columbia Department of Transportation to block off parking on the streets. On street parking is available on all four sides of our building (C St, D St, 12th St, 13 St SW). We do not have an abundance of on site parking. There is also a commercial parking lot located across 12th St SW from our building

3 Location Release - I've attached our standard location release. Are you able to sign?

- This would need to be directed to Kimberly for routing and signature by GSA

4 Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question

- The Heating Operation and Transmission Division does not set fees for filming at government properties. Kimberly would be the person with whom you should discuss this issue

I'll let Eliza jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day

Thanks Greg!

Hi (b) (6)

I'm looping in John McDaniel, our HOTD Director, for answers to your questions. A film company has reserved the parking on both sides of 13th Street in front of the plant April 18-29, so that might be your best option for parking. You could probably just reserve one side of the street if that's all you need.

Greg

Hello Greg,

It was great meeting you on the scout last week. I'd like to touch base with you on a few things. I'm copying our Production Manager (b) (6) to help follow.

1. Crew Access - how should we handle crew access on the day? Is there a way to preregister our crew by providing you a roster to avoid the long check-in process? Or do we need to arrive earlier?

- Monitor the [COVID-19 community spread tracker at the CDC website](#).
- If the COVID-19 Community Level for the District of Columbia is Medium or High there are specific protocols that must be followed. The [Safer Federal Workforce Task Force website](#) has the resources you need to understand what to do to enter a federal building.
- DC is currently at the Medium level which would require each person needing entry to provide a Vaccination Certification Form which is attached. If the person is unvaccinated, a negative COVID test result within 3 days of the requested entry date must be provided.
- We do not have a pre-registration process but if you will send me a list of names (full name) for each person needing entry I will make sure our Protective Service Officers have that list which will smooth your entry process.
- The speed of entry is directly correlated with the number of people requesting access. We have a number of contractors who come to our building every day and they begin arriving as early as 5:30 a.m. In any event, I or someone on my staff will be in the lobby to make sure we get everyone cleared as efficiently as possible on your first day. Plan to give yourselves at least 30-45 minutes to get screened for entry.

2. Parking - we travel with five vehicles. What would be the best option for us regarding parking? At least one vehicle, the gear van, will need to be as close as possible to the front door.

- Most film crews who work in the District make arrangements with the District of Columbia Department of Transportation to block off parking on the streets. On street parking is available on all four sides of our building (C St, D St, 12th St, 13 St SW). We do not have an abundance of on site parking. There is also a commercial parking lot located across 12th St SW from our building.

3. Location Release - I've attached our standard location release. Are you able to sign?

- This would need to be directed to Kimberly for routing and signature by GSA.

4. Consideration - I'd like to ask about the \$2500 permit fee. Is there any way to reduce this amount at all? I understand from Kimberly that filming on government property is not free, however we do not usually budget much in the way of location fees due to the nature of our show promoting the locations we are generally in. In this case, we're more promoting M&M Welding with GSA being more of a third party host, but I still wanted to ask the question.

- The Heating Operation and Transmission Division does not set fees for filming at government properties. Kimberly would be the person with whom you should discuss this issue.

I'll let Eliza jump in with anything I may have missed. We're looking forward to this filming - it's going to be a very exciting day.

Thanks Greg!

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (6)

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

See below info. from the original email:

For film licenses, we typically like to recoup any direct costs (janitorial, security etc.) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee. I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur.

The LCO would make the determination in this case, however my opinion is that this filming doesn't meet the above standard and it is a commercial endeavor. I see no reason to lower our fee.

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Kim,

See below info. from the original email:

For film licenses, we typically like to recoup any direct costs (janitorial, security etc.) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee. I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur.

The LCO would make the determination in this case, however my opinion is that this filming doesn't meet the above standard and it is a commercial endeavor. I see no reason to lower our fee.

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Kim,

Thank you so much for expediting the draft. Will you share this editable version with counsel as well?

Hello everyone,

Our schedule for DC is needing to push a day How would Friday 4/29 as our shoot date be for everyone?

@Kimberly Ashby - WPXPC, @John McDaniel - WPM1C - What would be the next step now after receiving our vendor number?

Thank you,

(b) (6)

Good morning (b) (6)

I'm working with Kimberly Ashby in the GSA Outleasing Office who explained the request for the W9 and the required location fees I've sent in the vendor request form and W9 to GSA in order to become a vendor to provide that payment

Thank you,

[WARNING-EXTERNAL]

John,

May I ask what the W9 is for? Insurance, payment The production company is School of Humans, however the entity that houses Dirty Jobs is Botany Woods Depending on your needs, we'll send you one or the other

Thank you,

Sorry to hear about the delay, we do have a bit of flexibility. We could film on **Thursday, May 19th**. It gets much less flexible after the 19th however so I hope this works for everyone.

Thank you for the address, we'll meet you guys Friday morning at 9AM at 325 13th St SW

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - +greg.westphal@gsa.gov is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together.

We should be OK with a 4/15 visit

Thanks,

Greg

On Wed, Apr 6, 2022 at 9:15 AM (b) (6) <schoolofhumans.com> wrote:
Good morning everyone,

(b) (6) - I will be in DC late next week with my other producers. Would it be possible to meet you/the team on the morning of Friday, April 15th? It would be great to see the space, meet you all face to face and get an even better sense of the work we'll be covering.

Greg - any issue with the three of us visiting the facility on 4/15? It would be myself, (b) (6) our Executive Producer and (b) (6) our Field Producer.

Kimberly - please advise us as to the next step in the permitting process. We're three weeks out now and I'd like to be sure we're squared away for our filming 4/28.

Thank you all,

Good morning (b) (6) and Greg,

Apologies, but Mike's schedule moved again. Can we move up a day to Thursday 4/28? I would also like to hold 4/29 as a backup date still. There's an event he must work and it keeps changing dates. Hopefully it will be confirmed solidly by mid-next week.

Also - +greg.westphal@gsa.gov is there a next step we should be working on to gain clearance for this job on your side? I'd like to discuss the filming fee with someone - calling me would be best for this.

Thank you all, we're really looking forward to seeing this come together.

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

(b) (6)
Associate Producer

Good afternoon (b) (6)

I left you a VM this morning with the incorrect date. I meant to say that we would like to settle on shooting Friday, April 29th with Mike Rowe.

For our scout this Friday 4/15, can we meet at 9:00 AM? Where would you like us to go? We're still unsure of the exact location of the work site.

Thank you,

(b) (6)
Associate Producer

Good afternoon John,

For dates, we're looking at two windows, 4/27-28 (primary) or 5/9-11 (backup). Mike will film for 1 day within one of these windows. Our EP and Field Producer will likely scout the job ahead of time, maybe 4/25?

For crew, we are 14-15 people including Mike. We run three cameras and sound and are small and nimble. Please let me know if you need a crew roster.

We don't really have any special requirements. We'll need a location release signed and appearance releases for anyone on camera. Parking access nearby a door is helpful. Maybe a room for us production folks to set up in. Will we be required to sign NDA's for the site?

Thank you,

(b) (6)
Associate Producer
School of Humans

OK team. We are on a glide path to getting all of the head nods here at GSA. To get the team that prepares our agreements that support this sort of effort, I need to get some basic information:

Dates:

Number of people:

Any special requirements:

We will then have our outleasing team prepare the documents necessary and get them to you for review and execution.

Great speaking with you this morning! John CC'ed on this email is the director for the GSA heating plant he's been helping tremendously with gaining access for the production and will be the one we will work with for access for the filming crew. Based on the call we were targeting a day on site between 4/26/22-4/28-22. John if you could please let (b) (6) know what you need from him for access purposes and any other questions the agency may have that would be great. Looking forward to this!

Hello everyone,

Our schedule for DC is needing to push a day. How would Friday 4/29 as our shoot date be for everyone?

@Kimberly Ashby - WPXPC, @John McDaniel - WPM1C - What would be the next step now after receiving our vendor number?

Thank you,

I read with dismay a post from Mike Rowe about the decision by the GSA at the last minute to pull a filming permit for his show "Dirty Jobs," purportedly for a security reason. That's ironic since Rowe has been granted permits and filmed in quite sensitive locations including in the military, NASA and even the National Security Administration.

It sounds more like a political decision based on the fact Mr. Rowe has a show on the Fox Network (he has previously had shows on other mainstream media including CNN). His message that a college education is not necessary to be successful is apolitical, yet the permit was pulled with no discussion at the last minute.

I hope this decision was not political as it appears to be.

I read with dismay a post from Mike Rowe about the decision by the GSA at the last minute to pull a filming permit for his show "Dirty Jobs," purportedly for a security reason. That's ironic since Rowe has been granted permits and filmed in quite sensitive locations including in the military, NASA and even the National Security Administration

It sounds more like a political decision based on the fact Mr. Rowe has a show on the Fox Network (he has previously had shows on other mainstream media including CNN). His message that a college education is not necessary to be successful is apolitical, yet the permit was pulled with no discussion at the last minute.

I hope this decision was not political as it appears to be.

Nina,

Following up on your request for more information about the Dirty Jobs filming request:

- The request came to the HOTD Director from M&M Welding and Fabrication, a plant contractor who is doing boiler tube replacement work. They are the ones who had the arrangement with Dirty Jobs. The request was to be able to film the crew replacing the boiler tubes at our site. Details about the HOTD facility, the fact that it is a federal facility or the customers it serves, would not be disclosed as part of the film coverage.

- (b) (5)
[Redacted text block]
- [Redacted text block]
- [Redacted text block]
- [Redacted text block]
- [Redacted text block]

I did not see a media inquiry come through comms to us for comment so my guess is that the Dirty Jobs producers gave that explanation to the press.

Shauna, feel free to add anything I may have missed.

Aimee

John,

Per the subject meeting, it has been requested that we provide the following:

- 1 How the request came to GSA
- 2 Scope of what will be filmed
- 3 Terms of the filming agreement
- 4 Contact name and phone number of the person who we have been coordinating with to schedule the filing

Please advise as soon as possible

Thank you,

Shauna

Shauna,

[Discovery Networks show Dirty Jobs](#) has asked to follow the crews from one of our vendors ([M&M Welding and Fabricators](#)) that performs repairs and maintenance on our boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures.

I want to support this. It is a great opportunity to showcase a government operation. We can ensure that the exact location and details are not revealed on the show if that is a concern. Can you help me get to the correct offices in GSA to get this all approved?

Shauna,

As discussed, the final details have been confirmed for the film crew for the Discovery Networks series Dirty Jobs to be at HOTD on 5/19/22. A final pre-filming site visit will occur on 5/18/22.

Hello Aimee,

The [Discovery Networks show Dirty Jobs](#) has asked to follow the crews from a HOTD contractor, ([M&M Welding and Fabricators](#)), that will perform repairs and maintenance on the boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures. Are you open to allowing this work? Counsel seemed okay with it if we follow the procedures for [filming at a historic site](#).

Please advise

To: Jackie Gordon - WPB <jacqueline.gordon@gsa.gov>

Good Morning,

Please let me know if we have records responsive to FOIA request.

This request is for: written information regarding the GSA's permit to shoot footage and to otherwise produce an episode of Dirty Jobs at M & M Welding and Manufacturing. I am particularly interested in items relating to the cancelation of the permit. This would include all emails, text messages and permit and permit denial documents. M&M is based in Mount Airy, MD. Dirty Jobs is produced by and features Mike Rowe.
Thank you.

I did a search and found this recent article from Daily Wire: <https://www.dailywire.com/news/mike-rowe-says-feds-revoked-his-filming-permit-received-call-claiming-it-was-pulled-for-his-personal-politics>.

Do you by chance know what Region or Office this request would belong to so I can assign it correctly? The company where M&M Welding is located in Maryland.

Nina,

Following up on your request for more information about the Dirty Jobs filming request:

- The request came to the HOTD Director from M&M Welding and Fabrication, a plant contractor who is doing boiler tube replacement work. They are the ones who had the arrangement with Dirty Jobs. The request was to be able to film the crew replacing the boiler tubes at our site. Details about the HOTD facility, the fact that it is a federal facility or the customers it serves, would not be disclosed as part of the film coverage.
- (b) (5) [REDACTED]
- [REDACTED]

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

On Fri, Mar 11, 2022 at 1:48 PM Jeffrey Jensen - PCAB <jeffrey.jensen@gsa.gov> wrote:

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

looping in John Moore, counsel to NCR outleasing, have a great weekend

PRIVILEGED ATTORNEY-CLIENT COMMUNICATION

On Fri, Mar 11, 2022 at 2:23 PM Brian Tye - PTC <brian.tye@gsa.gov> wrote:

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

On Fri, Mar 11, 2022 at 1:48 PM Jeffrey Jensen - PCAB <jeffrey.jensen@gsa.gov> wrote:

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (6)

Jothathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add. Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us. You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew. In addition, you might want to think about charging for any overhead for security or building operations etc.

Brian, Andrew--any input?

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

Kimberly,

Correct W9 attached. It is uncommon for Dirty Jobs to pay location fees based on the documentary/reality-tv nature of the show and this request of \$2,500 - \$3,000 is higher than anticipated. Could you consider a location fee of \$1500?

Thank you,

(b) (6)

Associate Producer
School of Humans

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Hello Team - OSC has no reservations as long as all parties involved have given necessary permissions, are aware and in agreement, and that any potential security implications are mitigated.

Thanks,
Patrick

(b) (5) Here is what I have from the production company

Dates: 4/27-28 (primary) or 5/9-11 (backup) The Executive Producer and Field Producer would like to scout the job ahead of time, maybe 4/25

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Thanks Gary--sounds really interesting! CCing CO outlease program specialists who may have more to add Typically we do charge a fee for filming in one of our buildings, but ultimately it's up to us You may still want to license just in case something happens and that would help cover any costs of any damage caused by a crew In addition, you might want to think about charging for any overhead for security or building operations etc

Brian, Andrew--any input?

On Thu, Mar 10, 2022 at 5:39 PM Gary Porter - WPD1F <gary.porter@gsa.gov> wrote:

Johathan: I am copying Jeff Jensen with our Center for Historic Buildings. I believe Jeff has been involved in numerous filming requests for historic buildings and should be able to offer guidance.

Jeff: Can you respond to John's inquiry regarding a request to film a segment of Dirty Jobs at the Central Heating Plant. I assume this would not involve an out-lease agreement.

Thank you,

Gary

Crew on site: 14-15 Three cameras and sound Please let me know if you need a crew roster

No special requirements They will need a location release signed and appearance releases for anyone on camera

Parking access nearby a door is helpful HOTD can handle this

They need a room for production folks to set up in We can use the HOTD break room or the 3rd floor conference room

Will the production company be required to sign NDA's for the site?

Brian/Luke,

Please let me know if you need anything else I am ready to transition this over to your team to work out the details with the producers Let me know who needs to be included in those comms and I will make email intros and do a good handoff of the licensing part to you or your designee

Good afternoon everyone -

For film licenses, we typically like to recoup any direct costs (janitorial, security etc) and also charge a use fee unless there is a cultural, historical or educational benefit in which we can waive the fee I would suggest starting by getting a full scope of what is needed by the film company (access, times, # of personnel) and then coordinating with FM on what costs the Government would incur If there are reimbursable expenses and a fee involved, outleasing can put together a revocable license and coordinate payment I have cc'd NCR's outleasing lead Luke Pragle on this email

Thanks,

Brian Tye

Hello Aimee,

The [Discovery Networks show Dirty Jobs](#) has asked to follow the crews from a HOTD contractor, ([M&M Welding and Fabricators](#)), that will perform repairs and maintenance on the boilers for a couple of days this spring. The team is coming on site to complete replacement of the roof and wall tubes on boiler number 3. The date is not fixed yet as we schedule this type of major work based upon demand driven largely by outdoor temperatures. Are you open to allowing this work? Counsel seemed okay with it if we follow the procedures for [filming at a historic site](#).

Please advise

Aimee,

This was coordinated with Comms, counsel, historic preservation, NCR Outleasing, and OMA Grady Hannah (CSO) provided the following security guidance:

On Fri, Mar 11, 2022 at 1:33 PM Grady Hannah - DB <grady.hannah@gsa.gov> wrote:

John,

My TMO team has reviewed your request and are good as long as the following items are addressed:

Tim and I do not see any issue from a threat perspective when applying the follow:

- all security procedures are followed (Physical Security)
- film crew is not allowed near any sensitive location or information (CUI)
- film crew does not film any security or facility access procedures or vulnerabilities
- GSA contractor maintains positive escort control at all times

If you have additional questions, please let me know

The contractor being filmed is M&M Welding and Fabricators who will be escorted during the set Please advise if further information is needed

To: Jackie Gordon - WPB <jacqueline.gordon@gsa.gov>

Good Morning,

Please let me know if we have records responsive to FOIA request.

This request is for: written information regarding the GSA's permit to shoot footage and to otherwise produce an episode of Dirty Jobs at M & M Welding and Manufacturing. I am particularly interested in items relating to the cancelation of the permit. This would include all emails, text messages and permit and permit denial documents. M&M is based in Mount Airy, MD. Dirty Jobs is produced by and features Mike Rowe.
Thank you.

Hi Jackie,

Below are details:

- The request came to the HOTD Director from M&M Welding and Fabrication, a plant contractor who is doing boiler tube replacement work. They are the ones who had the arrangement with Dirty Jobs. The request was to be able to film the crew replacing the boiler tubes at our site. Details about the HOTD facility, the fact that it is a federal facility or the customers it serves, would not be disclosed as part of the film coverage.

Subject: Fwd: Question Concerning a New FOIA Request about TV Show "Dirty Jobs"

To: Jackie Gordon - WPB <jacqueline.gordon@gsa.gov>

Good Morning,

Please let me know if we have records responsive to FOIA request.

This request is for: written information regarding the GSA's permit to shoot footage and to otherwise produce an episode of Dirty Jobs at M & M Welding and Manufacturing. I am particularly interested in items relating to the cancelation of the permit. This would include all emails, text messages and permit and permit denial documents. M&M is based in Mount Airy, MD. Dirty Jobs is produced by and features Mike Rowe.
Thank you.

To: Toni Slappy <toni.slappy@gsa.gov>, Tamara Ellerbe - LG <tamera.ellerbe@gsa.gov>

Hi Toni - FYI. Per my FOIA Online comment, I reassigned this request from R3 to NCR. Here is Donna Garland's email so you can upload into the Case File.

Let me know if you have any questions. Thank you.

Attorney-Client Privilege

Kimberly,

Maybe you could send the license to John Moore and me, and we can help you work something up early next week.

Thank you and have a great weekend!

Jackson Reams
Senior Assistant Regional Counsel
Office of the General Counsel, National Capital Division
U.S. General Services Administration
