Re: FOIA Control No. 2022-000565

This letter responds to your recent Freedom of Information Act (“FOIA”) request received by the Federal Communications Commission (“FCC” or “Commission”) and assigned to the Consumer & Governmental Affairs Bureau (“CGB”). Your request seeks copies of all complaints “in the informal complaints database of [CGB]” “that contain the word HEARINGS.”¹ Your request has been assigned FOIA Control No. 2022-000565. We are responding to your request electronically.

CGB conducted a search of its databases containing responsive records. Our search revealed 134 pages of complaints that are responsive to your request, which are attached. Please be advised that the FCC receives many complaints and comments that do not involve violations of the Communications Act or any FCC rule or order. Thus, the existence of a complaint or comment filed against a particular carrier or business entity does not necessarily indicate any wrongdoing by any individuals or business entities named in the complaint or comment.

Records responsive to your request were withheld or redacted under FOIA Exemption 6.² Exemption 6 protects “personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” Balancing the public’s right to disclosure against the individual’s right to privacy, we have determined that release of this information would constitute a clearly unwarranted invasion of personal privacy. Therefore, certain personal identifying information, including the complainant’s name and telephone number, has been redacted under

¹ FOIA Control No. 2022-000519 (submitted Jul. 4, 2022).

² 5 U.S.C. § 552(b)(6).

Exemption 6. We have determined that it is reasonably foreseeable that disclosure would harm the privacy interest of the persons mentioned in these records, which Exemption 6 is intended to protect.

We are required by both the FOIA and the Commission's own rules to charge requesters certain fees associated with the costs of searching for, reviewing, and duplicating the sought-after information.³ To calculate the appropriate fee, requesters are classified as: (1) commercial use requesters; (2) educational requesters, non-commercial scientific organizations, or representatives of the news media; or (3) all other requesters.

Pursuant to section 0.466(a)(8) of the Commission's rules, you have been classified for fee purposes under category (3) as an "all other requester."⁴ As an "all other requester," the Commission assesses charges to recover the full, reasonable, direct cost of searching for and reproducing records that are responsive to the request; however, you are entitled to be furnished with the first 100 pages of reproduction and the first two hours of search time without charge under section 0.470(a)(3)(i) of the Commission's rules.⁵ The production in response to your request required less than two hours of search time, and is being provided electronically. Therefore, you will not be charged any fees.

If you consider this to be a denial of your FOIA request, you may seek review by filing an application for review with the Office of General Counsel. An application for review must be *received* by the Commission within 90 calendar days of the date of this letter.⁶ You may file an application for review by mailing the application to Federal Communications Commission, Office of General Counsel, 45 L Street NE, Washington, DC 20554, or you may file your application for review electronically by e-mailing it to FOIA-Appeal@fcc.gov. Please caption the envelope (or subject line, if via e-mail) and the application itself as "Review of Freedom of Information Action" and the application should refer to FOIA No. 2022-000565.

If you would like to discuss this response before filing an application for review to attempt to resolve your dispute without going through the appeals process, you may contact the Commission's FOIA Public Liaison for assistance at:

Performance Evaluation and Records Management

⁴ 47 CFR § 0.466(a)(8).

⁵ 47 CFR § 0.470(a)(3)(i).

⁶ 47 CFR §§ 0.461(j), 1.115; 47 CFR § 1.7 (documents are considered filed with the Commission upon their receipt at the location designated by the Commission).

If you are unable to resolve your FOIA dispute through the Commission's FOIA Public Liaison, the Office of Government Information Services (OGIS) and the Federal FOIA Ombudsman's office offer mediation services to help resolve disputes between FOIA requesters and Federal agencies. [Ticket: # 3425860 - KATV Little Rock AR](#)

Date: 07/29/2019 04:19 PM

City/State/Zip: Searcy, Arkansas 72143

Description

KATV in Little Rock, Arkansas is purposely and willfully rigging / slanting the national news in order to mislead the public. KATV purposely slanted their report on the Mueller hearings to misdirect the public into thinking Arkansas Congressman Crawford ask a question that confirmed that President Trump would be indicted were it not for the fact he was the sitting President. It was both untrue that this questioning was associated with Congressman Crawford as well as the indictment statement itself having been corrected by Mr. Mueller himself. Both bits of information were presented in a slanted and misleading way in order to sway public opinion towards a particular political slant. This is only one of many such instances in which KATV has not acted in the public interest.

Description

I run and operate a law firm, utilizing VOIP phone systems. I have received numerous calls from individuals who say that they are receiving missed calls from my office line. I am the only person with access to the phones, the only person who works in the office, and the only person making the phone calls from the office phone line. I am not making these phone calls! I set up the phone system for the sole purpose of making telephonic court appearance and that is the only time I use the office line, otherwise I use my cell phone as the primary phone since I am often out in the field at hearings or depositions. I think someone is taking my number and using it to contact these people.

Description

This is a follow-up to your previous request #3497301 "Re: Request received: Re: [...]"

FCC,

Unfortunately for you I'm going to have to ask and demand that you reopen the request as the FTC is not the agency with the information I'm requesting! Your agency was ordered previously to give the exact same data I'm looking for by federal court! I know it exist, and we will get it at some point.

Additionally, please respond to all recipients of this email as it is an urgent matter being looked into, investigations started and information forwarded to the FBI and Department of Justice. When you only respond back to me it appears and probably true you are concealing information you wouldn't want others to see or become aware of!

We also know that Trump/Azar have issued a gag order regarding releasing any information regarding this! Let me advise you, this will end up in court and/or Congressional Hearings!

In addition, the same signal is being used by Trump/Azar to violate the constitution by placing surveillance on political friends and foes (McConnell, Ginsberg, Nadler, Cummings) as well on Epstein that contributed to his suicide!

Hopefully now you can see the importance of this information and again, don't run me in circles when I know you have the information!

Respectfully,

I received the following text on my cell phone at 1:58pm MDT on 10/16/19: "Enough hearings. Enough investigations. Let Rep. McAdams know you stand with President Trump right now at 202-759-6458." The text came from 855-923-0525. I am not a member of any Republican organization, nor have I ever given permission for one to contact me in any way. I am currently registered to vote as a Republican, which is the only way I can think of that this person/group might have gotten my phone number, and think I'm stupid enough to believe a word Trump says.

Description

This is a follow-up to your previous request #1446933 "Consumer has issues with Ti..."

To whom this may concern:

I am still having new problems with Spectrum "Charter" as of today October 24, 2019 with statements from them last month regarding correcting my bills.

They have made several credits however they stated they would change my bill including tax to less than \$175.00 monthly but only gave credits and did not lower the bill as promised.

When speaking to their agents and reps they apologize for their incorrect info given me, however they said there is nothing they can do.

Perhaps you or the Federal Trade Commission can sink your teeth into this fraud. Evidently the FCC does nothing to discourage Flim Flaming in their own backyard and under their own noses...very similar to the O.C.C. & Wells Fargo....more gov't waste of money they do nothing but have junkets and hearings!

Have fun boys --- it does not go unnoticed & will eventually come to an end!

SF, Wed. - 10:23am

re: SF downtown in terrorism as sending message (voice message) in antenna/wifi/wireless or phone, internet, media, TV, radio, or computer to threat before getting on Greyhound bus past 2 days.

FCC audit (RE: terrorism threat to low income homeless single adult traveling SF to Los Angeles for shelter today, for 2 days in Greyhound corporate with California station in threat), ID theft (RE: Greyhound corporate, California Greyhound bus station, SF or Los Angeles Greyhound bus station, Los Angeles government, Samsung gang or terrorists, DMV SF, DMV Los Angeles, DMV San Diego, with SF.gov)

1. Past two days, message was there are assault, battery, stalking rape, and terrorism on Greyhound bus in SF downtown. Please investigate to stop these messages from Samsung terrorists, gangs, and Chinese Korean as US residents.

Also, stop Greyhound business terrorism, hate crimes, stalking rape, and ID theft terrorism. There is also sales tax, surcharge, fee, and fraud from Greyhound bus online reservation this morning. \$5 was added for ticket printed as pick up added to prepaid Visa purchase few minutes ago. See online confirmation at Greyhound bus reservation, below:

The above is SF to downtown, leaving today for one single adult to Los Angeles downtown 7th St, in changing shelter. I have cut past 5 days in same left foot, below ankle in 4 inch. and threat in abuse does not stop at SF CATS drop in center on 211 13th St from homeless women and African illegals stalking.

Investigate to stop fraud, threat, and terrorism business. FCC.gov, 311 SF for reporting online, part of your business as USA.gov? I have reported illegal cell phone, and tech equipment past months to online 311 sf as also stolen cell phone, laptop, tablet, computer, and accounts. Please investigate to stop SF in terrorism.

2. I received threat from SF.gov from the new major 2016, after death Major Lee as first Asian SF Major SF. Please investigate Major Lee and Major Breeze in terrorism crimes, ID theft, financial crimes, abuse, disable taxpayer California resident homeless abuse, fraud, US legal resident ID fraud, CA resident fraud, CA taxpayer fraud, SSA ID fraud, California employment records and DMV DL fraud, DMV DL or records fraud, bank or bank account with loan fraud, loan and tax fraud, welfare insurance and loan fraud, welfare tax and housing loan fraud, SF tax fraud, SF loan and welfare insurance fraud, disable insurance fraud, Calfresh account in fraud and ID fraud, and employment as SF major fraud.

From 2016, Ms. London Breeze as new SF major, sent message not to get on computer at SF EDD career center from 8am as I did past years if in SF emergency homeless women's shelter. After Major Lee's funeral service at SF City Hall, the message was Africans are now in legal research and on computer, and Asian can start late after 10am or 2pm. For years from 2014 and 2015, I was on computer from 8am in legal research and reporting crimes in Los Angeles & SF for welfare low income homeless terrorism with ID theft. She is not SF major from the message and in threat message as terrorism. All these years, I had planned to report to FTC feedback for her threat, but was told not to. FTC.gov feedback is in terrorism in SF? This is first time, I am reported London in terrorism crimes, threat, and having stalkers after me in assault, aggravated battery, rape, ID theft, and disable taxpayer financial crimes in SF. Also, SF did not pay any insurance from WC, SF HSA at WC, Worker's Compensation from Sedgwick, and SSA WC past years from 2012. As South Korean citizen and US legal resident i-90 alien green card for S. Korea, I would like to investigate African terrorism from Breeze as London Breeze in SF. Audit and internal audit SF city hall, and all its guests

or illegal staff in terrorism crimes. Also, I do not know any African, and not support any African in their politics. Africans are illegal terrorists in rape, sex crimes, stalking, and murder in SF and California as LA county.

The new female major London Breeze states as African SF resident growing up, but it is fraud and she did not grow up in SF. Her poster is all over SF main public library 3rd floor, and past few years at Japantown SF on Post St where there is The Face Shop on 1st floor. Is it peace plaza? Investigate to stop all crimes.

note: my message phone number (b) (6) was homeless free message phone only from Google SF on 39 Jones St, SF that was with SF HSA welfare office on 1235 Mission St from 2012. FCC.gov with Google stated it is under terrorism crimes privacy violation from 2014. I am not using it from 2015 in ID theft, stalking terrorism, and illegals rape murder crimes in California.

re: SF downtown in terrorism as sending message (voice message) in antenna/wifi/wireless or phone, internet, media, TV, radio, or computer to threat before getting on Greyhound bus past 2 days.

**I do not have any home or homeless shelter private phone number in SF from 2012 when I first came up to live at homeless emergency shelter. I do not also have business phone number. There isn't anyone I know at SF city hall, SF.gov, or SF employee/volunteer/security/agent. The telephone number 555-555-5555 to state, I do not know SF government employee number but all must be investigated.

2. I received threat from SF.gov from the new major 2016, after death Major Lee as first Asian SF Major SF. Please investigate Major Lee and Major Breeze in terrorism crimes, ID theft, financial crimes, abuse, disable taxpayer California resident homeless abuse, fraud, US legal resident ID fraud, CA resident fraud, CA taxpayer fraud, SSA ID fraud, California employment records and DMV DL fraud, DMV DL or records fraud, bank or bank account with loan fraud, loan and tax fraud, welfare insurance and loan fraud, welfare tax and housing loan fraud, SF tax fraud, SF loan and welfare insurance fraud, disable insurance fraud, Calfresh account in fraud and ID fraud, and employment as SF major fraud.

From 2016, Ms. London Breeze as new SF major, sent message not to get on computer at SF EDD career center from 8am as I did past years if in SF emergency homeless women's shelter. After Major Lee's funeral service at SF City Hall, the message was Africans are now in legal research and on computer, and Asian can start late after 10am or 2pm. For years from 2014 and 2015, I was on computer from 8am in legal research and reporting crimes in Los Angeles & SF for welfare low income homeless terrorism with ID theft. She is not SF major from the message and in threat message as terrorism. All these years, I had planned to report to FTC feedback for her threat, but was told not to. FTC.gov feedback is in terrorism in SF? This is first time, I am reported London in terrorism crimes, threat, and having stalkers after me in assault, aggravated battery, rape, ID theft, and disable taxpayer financial crimes in SF. Also, SF did not pay any insurance from WC, SF HSA at WC, Worker's Compensation from Sedgwick, and SSA WC past years from 2012. As South Korean citizen and US legal resident i-90 alien green card for S. Korea, I would like to investigate African terrorism from Breeze as London Breeze in SF. Audit and internal audit SF city hall, and all its guests or illegal staff in terrorism crimes. Also, I do not know any African, and not support any African in their politics. Africans are illegal terrorists in rape, sex crimes, stalking, and murder in SF and California as LA county.

The new female major London Breeze states as African SF resident growing up, but it is fraud and she did not grow up in SF. Her poster is all over SF main public library 3rd floor, and past few years at Japantown SF on Post St where there is The Face Shop on 1st floor. Is it peace plaza? Investigate to stop all crimes.

Do we live in a communist country with no options what we view on the major networks - ABC NBC CBS FOX. The FCC should make the major networks take turns airing the hearings. This is very politically one sided if you don't take action to correct this issue, then you are aiding in the networks political views. As a tax payer, I am paying the FCC to sit back and let the networks dictate what the public views.

My issue is with television mainstream broadcasting companies like ABC, CBS, NBC, and FOX that have local stations also, forcing special events and breaking news coverage of political and sports event that many of us viewers may not be interested in and do not want to watch all day. Like the IMPEACHMENT HEARINGS. We should have the option of not being forced to view non-emergency programs and be able to watch the programs some of us must pay extra for. All local programs aren't free and we must pay whether they air or not. We should be given the option of what we want to watch that is not an emergency. Please consider this. Thanks

City/State/Zip: Yuba City, California 95991

Company Complaining About: Comcast

Description

I want to report an FCC violation with watching the impeachment trial. I have tried at least 15 times to watch previous recordings of the impeachment trial , only to have my television shut off, kicked out the link/app., and then not be able to access either the internet or the proceedings again.

I watch via YouTube and internet television, I don't have cable television, so these events have utterly blocked me from watching 90% of the impeachment proceedings. I have tried to watch via the CNN, PBS, & CBS links.

When my television is shut off I am not able to access my internet television again for hours at a time.

It also logs me out of my Prime Video and when I try to log back into this application at the 'sign in and start watching' it will not allow me to even do this for hours at a time.

Then, after several hours have passed, without me doing anything, I suddenly have internet connection again on my television and I'm logged back I to my Prime Video channel.

I believe this is yet another way the Trump administration is blocking the American public to have access to previously recorded impeachment proceedings. Most Americans work during the day and have to watch previous recordings of the hearings. How can we be informed of the proceedings when we are being blocked, our televisions are being sent some sort of signal to either shut it down or actually in log us out of our internet television subscription service?

This is a violation of my rights to have unhindered access to public television. Not only that, but it feels tantamount to Trump actually reaching his hand into my home and shutting off my television and blocking access to the internet! I am asking that you please find out what is happening. I am asking you to report to whomever you feel needs to know, including reporting these incidents too your fellow senators at the impeachment proceeding. This is such an urgent matter as the hearing

may be in it's last days. Thank you for your time and consideration to this important matter in advance. Please feel free to contact me if you have any questions or concerns regarding this matter.

Ticket: # 4069499 - WOW Covid-19 Complaint

Date: 07/06/2020 03:23 PM

Company Complaining About: Wow

Description

Ajit Pai, Chairman , FCC Commission

Dear Mr.Pai:

As a follow-up of my conversation as to one of MMC Groupe Division entities ARCADEL , where our Midwest Executive for USA operating remotely due to COVID pandemic and set up Wow service in February 2020 for ARCADEL Corp , Unit of MMC groupe, (just before COVID pandemic burst out) As directed , I am filing this formal complaint on behalf of our company to be docketed , against Wow! a/k/ a WideOpenWest Finance , LLC owned by Avista Capital partners.

In response to the COVID-19 pandemic, and the challenges that many American Businesses (and Americans) are facing , FCC had set stipulations and guidelines required to be followed by the Broadband, Cable and Telephone companies, which include:

1. not terminate service to any residential or small business customers because of their inability to pay their bills due to the disruptions caused by the coronavirus pandemic;
2. waive any late fees that any residential or small business customers incur because of their economic circumstances related to the coronavirus pandemic; and
3. open its Wi-Fi hotspots to any American who needs them.

In direct and deliberate violation of the FCC Regulations, Guidelines, WOW recently charged late fees even though there has been no late payments and the account is current, nothing past due. Even assuming any late fees, per Wow own letter below sent to customers (see below) no late fees to be charged and service won't be discontinued due to COVID Pandemic. This harassment and abuse is now viewed as false advertisement pursuant to precedent set by U.S Supreme court ; Federal courts; Illinois Supreme court cases: Kellerman v. MCI Telecommunications Corp. 112 Ill. 2d 428 (Ill. 1986); "causes of action for breaches of duties distinguishable from those created under the Act." (Comtronics, Inc. v. Puerto Rico Telephone Co. (1st Cir. 1977), 553 F.2d 701, 708.); Ashley v. Southwestern Bell Telephone Co. (W.D. Tex. 1976), 410 F. Supp. 1389, United States v. Western Pacific R.R. Co. (1956), 352 U.S. 59, 64, 1 L.Ed.2d 126, 132, 77 S.Ct. 161, 165.)

We reported to Wow! the illegitimate late fees, and instead of apologizing , a perverted sadist named Jill Stark at Wow! doubled down on their abuse and fraudulent business practices by threats to interrupt service for no valid just cause or reason; no written notice of such interruption as required under FCC, other than a passing reference made in an one sentence E mail that they sent an intent to discontinue services. NOTHING AS TO SUCH THREAT LETTER RECEIVED. U.S . Supreme court repeatedly penalized such backhand tactics by utility companies. Jackson v. Metropolitan Edison Co. 419 U.S. 345 (1974) ' utility company violated the law in terminating service" . Pollak v. Public Utilities Co. v., 343 U.S. 451; Burton v. Wilmington , 365 U.S. 715 .

FCC filed amicus curiae briefs in Supreme court on antitrust law suits against utility companies like Wow for similar abuse of customers. Washington Gas Light Co. v. Virginia Electric Power Co., 438 F.2d 248, 250-252 (CA4 1971); Gas Light Co. of Columbus v. Georgia Power Co., 440 F.2d 1135, 1138-1140 (CA5 1971).

United States Supreme court has written thousands precedent opinions sanctioning, penalizing and even referring to Attorney General for criminal prosecution of utility companies for abuse of customers with disconnecting essential , much needed utility services.. Internet and Phone services service, which has now become a necessity of life over a decade , and more so under the COVID Pandemic

circumstances , “ is an entitlement which under our decisions may not be taken lightly without the requirements of procedural due process” . Fuentes v. Shevin, 407 U.S. 67, 80 (1972); Goldberg v. Kelly, 397 U.S. 254 (1970); Palmer v. Columbia Gas of Ohio, Inc., 479 F.2d 153 (CA6 1973). “ due process would require advance notice of a proposed termination with a clear indication that a responsible company official can readily be contacted to consider any claim of error” . Jackson v. Metropolitan Edison Co. 419 U.S. 345, 373 (1974)

Nevertheless, since this threat though cavalierly made as a passing reference, is a very serious emotionally stressful threat, we have also taken legal recourse per U.S Supreme Court precedent case which allow us to sue the unscrupulous carrier Wow! without waiting for an agency like the FCC process exhausted, though we are simultaneously seeking remedies through FCC through formally filing this complaint . “courts should not relinquish their authority over a matter to the agency” Nader v. Allegheny Airlines, Inc. (1976), 426 U.S. 290, 304, 48 L.Ed.2d 643, 655, 96 S.Ct. 1978, 1987. We have a Preliminary injunction hearing in end August in the law suit seeking injunction , (as all regular court business are suspended due to COVUD, except for Emergency hearings). We have served Wow with a Restraining order granting injunctive relief till end of August . However due to Wow threats , we are also in the process of setting a hearing on the Rule to show cause to hold Wow employee Jill Stark, Teresa Elder and Leslie Brinson in criminal contempt of court and to have warrants issued for their arrest. [we have blocked any E mail communications from Wow! to all pour E mail addresses for any foul play as to have sent any notices, backdating or fabricating to defraud the court] Filing of this complaint as told us by FCC counsel , also serve as an “injunction” , as Wow is required to respond within 90 days and until a final resolution and decision by FCC, Wow! is barred,, prohibited for disconnecting, or otherwise interrupting service in any form , shape or manner.

We are not going to expose our employee working remotely to the danger of life threatening COVID virus contracted by allowing any cable /telephone company sent to our employee residence for new installation which requires prolonged hours of indoor presence . Besides, cable companies are NOT sending installers to premises and services like land line telephone lines/ Cable Modem requires sending install crew physically dispatched to setup service. So that left us with “Hobson’s choice” but to continue to with Wow for next several months since the only two major competitors who provide landline phone and internet services are essentially not undertaking new installation which requires technician dispatch.

United States Attorney General has issued an Executive order that it makes a Federal Crimes punishable by ten years in Prison, for anyone viciously cause harm and to subject anyone to the risk of COVID virus . We have no intent to discontinue with Wow now and also to continue beyond December 2020, hoping that a vaccine for COVID would be made available by then . But for now we need this time at least till December to switch to competitor.

We seek a Cease & Desist Order from FCC warning Wow! To cease from any threats of disconnection or otherwise cause any interruption of service.

Filing of this complaint with FCC and noticed by certified E mail to the respondents/defendants as shown in the Distribution list mandates and legally required of Wow! to CEASE from indulging in any efforts to disconnect or otherwise interrupt service.

Section 503 - allows the FCC to impose forfeitures for willful or repeated violations of the Communications Act, the Commission's rules, regulations, or related orders, as well as for violations of the terms and conditions of any license, certificate, or other Commission authorization, among other things (47 U.S.C. § 503).

We also request for a Federal criminal investigation on Wow! as we have credible evidence that Wow! violated the Federal TCPA act by disseminating confidential information in violation of TCPA and Privacy Act.

With best regards,

Ticket: # 4110086 - wi-fi, 5G antennas in public parks

Date: 07/24/2020 03:57 PM

City/State/Zip: Sacramento, California 95851

Company Complaining About: Verizon Wireless

Description

I have recently become aware that the City of Sacramento signed a partnership with Verizon and installed wi-fi and 5G in a few public parks in Sacramento, California, with a plan to install such devices in all public Sacramento parks. As 5G seems to be 30 to 300GHz, 100 times than the present 4G, I learned on irda.org that this has very bad consequences for the human health, especially for children.

City of Sacramento did this without holding public hearings and without safety studies. This is against the US Constitution and human rights.

I request that FCC stops the City from installing further 5G wi-fi or any wi-fi in public parks or any public places, takes down the wi-fi 5G already there, until there are safety studies performed and fda and cdc approves these based on independent safety studies, not financed by the mobile telephone companies or nonprofits that cater to these interests to our detriment.

There are quite a few state and federal laws City of Sacramento violated in installing wi-fi 5G, probably experimental, in parks and public places. One of them is 24/7 surveillance without a warrant.

Thank you very much for your attention in this matter.

Date: 10/27/2020 08:27 PM

City/State/Zip: Honolulu, Hawaii 96818

Company Complaining About: Spectrum

Description

For a couple weeks, the "Start Over" function appears to be Censored by Spectrum. There are about 15 Channels that have this function, where you can Restart a Program to view it from the start. About a week ago during FOX NEWS-Tucker Carlson show, this functioned showed "Not Available" on all channels. I called Spectrum and it started working about an hour later, after the Carlson show was done. Today, 10-27-20, the Start Over functioned, again showed Not Available; this was during a Trump Rally airing. Once the rally was over and the next program with M. MacCallum began, the Start Over feature worked again.

This feature has been tampered with earlier in the year, during Congressional Hearings, during the political Conventions, and specific FOX NEWS Programs like Tucker Carlson or S. Hannity.

I would like these broadcasters investigated as Censorship cannot continue in the United States. I have already contacted FOX NEWS.

Ticket: # 4337198 - Unreliable internet service from Suddenlink

Date: 10/29/2020 03:35 PM

City/State/Zip: Georgetown, Texas 78626

Company Complaining About: Sudden Link

Description

I would like to ask the FCC to perform an investigation on service and reliability of Sudden Link internet service in Georgetown, TX. My entire community of Wolf Ranch is experiencing random data slowdowns and hours-long outages with Suddenlink, which is our only provider option here. Working from home and educating our kids by zoom is becoming more difficult by the day. Multiple attempts have been made by homeowners to demand resolution from Suddenlink, and multiple hearings have been held by our city council. Nothing ever improves and our ability to work and educate our children is seriously damaged by this egregiously unreliable company. I was led to believe that by purchasing a business account I would receive higher speeds and priority data service. However, on a recent visit, a Sudden Link tech told me that my connection is no different than a standard home internet connection. They just lie endlessly and continue to collect their monopoly profits because they know no other company will spend the money on infrastructure to service this small community.

Company Complaining About: Comcast

Description

Dear Madam or Sir:

Assuming that you are the organization that would address violations of Section 230 protecting social media from lawsuits relating to false, libelous, bias, etc. content. While Congressional hearings are always entertaining, they accomplish nothing. If there is any reason to remove the "platform" protection from Facebook and Twitter, it was the recent revelations regarding the Biden family. I urge you to act immediately and allow the courts to resolve any clarity issues in the statute.

Company Complaining About: Centurylink

Description

Century Link Internet Service is laughable at best, infuriating more like it!!! In Southwest Louisiana, where both Category 4 Hurricane Laura hit followed 6 weeks later with Category 2 Hurricane Delta hit, its been nearly 8 weeks we've been out of Internet 🙄🙄 we've only been without power for a total of 4 weeks, some longer. But CenturyLink is just about as horrible as Suddenlink Communications is at this time!!! And they are conducting Senate hearings about them!! Perhaps, CenturyLink needs to be added to their Hearing list?? 🙄

I finally received service on October 2nd, only to be without service again 5 days later. Here it is yet, another month later, and NO internet service and when I called them? I was only able to speak to a customer service representative in the Philippines???? They absolutely REFUSED to transfer me to a United States representative. Explain why a US owned and operated company doing business in the United States will NOT let you speak with a Customer Service Representative in the United States - the ONLY customer service representatives they ALLOW you to speak with are in the Philippines!!!!!!!

Well, they ended up finally putting in a ticket, and will be here to fix my service December 7th - WOW

I did get a credit for 2 months service lost, however, we absolutely have NO OTHER INTERNET CHOICES in this area.

I am NOT the only one /customer this is affecting, there are thousands of others.

Ticket: # 4362002 - FCC Complaint

Date: 11/10/2020 08:13 AM

City/State/Zip: Grayson, Georgia 30017

Description

The FCC prohibits broadcasting false information if the broadcaster knows the information will cause substantial public harm if aired. All major news networks have been informed of the wide spread voter fraud that has occurred in multiple states. They are aware of imminent court hearings regarding this and YET they are falsely claiming that no crime has been committed and that Joe Biden is president-elect. This will absolutely cause massive amounts of public harm when the court decisions are settled and President Trump remains in office for four more years AS WE HAVE SEEN all year with the rioting and looting. Major news networks, who have falsely reported that there has been no crime, are now responsible for the massive civil unrest that will follow.

Description

To whom it may concern,

I'm reaching out to make you aware that there have been numerous news stations that have reported erroneous and misleading information about the status of the president-elect. As we know, the election has not been certified and, likely, multiple Court hearings are pending. In the interim news stations such as Fox News, CNN, MSNBC, etc have reported misleading statements to the public suggesting ex Vice President Biden is the president-elect. I find this information can potentially be harmful to the public as tensions are high in this country as a result of the aforementioned election. Since the outcome of the election is not yet known it is irresponsible for news organizations "fuel the fire," so to speak.

Thank you for your time and best regards.

City/State/Zip: Saint Petersburg, Florida 33713

Company Complaining About: Fox News, Cnn, Ap, Msnbc, Nbc

Description

I am writing this due to the vast election fraud and media complicity in claiming a win, aka Projecting, for Biden when the certified vote was not called followed by them covering up by firing anyone who spoke against this that led many to believe there was a winner before the court hearings and counts were complete. When the true winner is announced and it is not the same they declared, it will be mass rioting and upset with the people and question to the electoral process. The media is only covering Biden and not President Trump whose representatives have been cut off and gas lighted to the public further complicating the end results being accepted by their audience. Additionally they covered an acceptance speech from the uncertified declaration from the mainstream media. Many feel this is a media coup that does not allow the truth and transparency but shows up as an Orwellian reminder of 1984. We demand these rules be made iron clad so propaganda cannot have sway with the violent factions we have seen covered up by the very same media who cave to the liberal bias of their owners and the financial bias of those who pay their ads who have a weighted outcome if their candidate of choice wins or loses... (Big Pharma would prefer Biden over President Trump since he is going after them as well as China. Please review <https://twitter.com/i/status/1326568535762497536>

CNN, ABC, NBC, MSNBC, plus have been LYING to the people and Biden ISN'T even eligible to run for president! He's a criminal. The public needs NEWS to be news. If those outlets I've mentioned display "Opinion" it's different. They continue to lie about facts, spewing that they have the facts. They continue to call our President a liar with NOTHING to show that. They had assisted with the fabricated lies about Russia collusion for over FOUR YEARS!! NO EVIDENCE NO WHISTLEBLOWER AND HIDDEN HEARINGS. How can the FCC allow this?? you MUST enforce these outlets to be labeled OPINION STATIONS and NOT THE NEWS!!!! This is very dangerous and has caused harm to me and my family. My daughter hears this all day at work and will no talk to me because of the lies on the so called NEWS. I worry about Kyle Rittenhouse because they are saying he is a white supremacist!! COULDN'T BE FURTHER FROM THE TRUTH! STOP ALLOWING THESE MEDIA FROM HARMING OUR COUNTRY!!!!!!!!!!!!!!!!!!!!!!

Date: 12/16/2020 09:47 AM

City/State/Zip: New York, New York 10005

Company Complaining About: Yelp.com

Description

Yelp is deliberately and continuously keeping up fake client reviews from fake clients simply because they have many friends/reviews, even when those reviews contain death threats, threats, harassment, aggravated harassment, from known criminals and violent criminals who our law firm has represented such as Vincenzo Innaco and others, these threats containing threats against me personally, my law firm staff, and my family. This is not only against their own Terms of Service, but also is going to lead to one of us getting either hurt or killed. When we complain Yelp simply mocks and ignores us, even when we present them with official NYPD police reports. It's almost like Yelp's executive board and staff want us to get either hurt or killed. Please help us to remove those threatening, harassing, violent "reviews" in both the visible and "not recommended" review sections which are also visible to the public. It's also obvious that Jeremy Stoppelman's Yelp.com is slanted and geared (in our opinion and observation) to helping his fellow Jewish and left-wing, socialist, communist ANTIFA/BLM-linked businesses (and those that kiss their ass while slamming and destroying conservative or Christian or right wing businesses by hiding their good reviews, while boldly displaying a few of their bad reviews (most being fake reviews, by fake clients, with fake accounts or by Black Hat SEO reputation assassins). In our case, for example, we have 42 good reviews, but they are all hidden as "not recommended." Meanwhile Yelp blasts and showcases 2 severely abusive, ad hominem, personal attack "reviews" by non-clients, or those not even having a personal experience. This is Yelp's business model, and we can only hope that the recent U.S. Department of Justice Big Tech Anti-Trust Hearings will manage to sweep Jeremy Stoppelman and his con-artist company up in their Sherman Act vacuum as well. Hopefully not only will massive civil fines be levied, but criminal charges, indictments, and long prison sentences for him and his Board of Directors as well. Furthermore their con-artist saleswoman Samantha Ortiz signed me up for features/stuff that I never remember agreeing to, leading to them charging me more than \$450 and then another \$270 within a few weeks. I still don't know how to get rid of their bogus and fraudulent daily/weekly/monthly charges, as they make it impossible to understand how one is charged, other than deleting my entire account, as these people are more like cancer or a virus, then an online marketing business. Please tell them to stop charging/billing me; and start showing my hidden overwhelmingly positive reviews, while removing the fake, abusive, ad hominem, personally attacking, non-relevant negative reviews.

Ticket: # 4444060 - KDVR continues to have poor captioning

Date: 12/18/2020 10:21 AM

City/State/Zip: Englewood, Colorado 80113

Company Complaining About: Fox31 Denver Kdvr-tv

Description

KDVR's captioning as well as their sister station KWGN continue to have problems with their captioning.

While the station's efforts to improve the quality of their captioning system is welcome and appreciated, the quality of their captions at the present time does not seem to meet the FCC's guidelines for quality, accurate captioning, especially at a time when so many are relying on their local newscasts and press briefings to stay up to date on COVID-19 developments. With KDVR being a station regulated to have accurate realtime captions (not the electronic newsroom technique), it is held to the same captioning standards that the overwhelming majority of TV content is held to, including national programming. I firmly believe that if the FCC believes KDVR's current captioning is within compliance, then it is not upholding the integrity of its caption quality guidelines and is accepting captioning quality that is inferior to industry standards.

The following recording of KDVR Fox 31 News was captured May 12, 2020 at around 8:32 AM MT:

https://www.youtube.com/watch?v=MBSsZ_LYKdQ

The sample includes portions of Dr. Anthony Fauci speaking via webcam, a reporter speaking clearly for about a minute, followed by an exchange with the anchors. I analyzed the captions in the three-minute clip and found that nearly every sentence had either an incorrect word, a missing word, missing/incorrect punctuation, run-on sentences that should be more than one sentence, missing/incorrect speaker IDs, or a combination of aforementioned errors. In fact, out of the 15 sentences the captions produced in that time frame, only three were error-free. Also keep in mind that there were 42 sentences spoken in total, but due to missing punctuation, the captions only represented 21.

Below is a breakdown of the transcript's errors. Note that the "sentences" represent caption sentences, not actual spoken sentences.

Sentences with errors: 15

Sentences with word errors: 12

Sentences with two or more word errors: 7

Sentences with four or more word errors: 6

Sentences with five or more word errors: 3

Sentences with seven or more word errors: 2

Sentences with 11 or more word errors: 1

Sentences with missing words: 6

Sentences representing more than one sentence: 9

Sentences representing more than two sentences: 7

Sentences representing more than three sentences: 3

Sentences representing more than seven sentences: 1

More than one sentence representing one sentence: 3

Sentences representing more than one speaker: 2

City/State/Zip: Anderson, Indiana 46011-8786

Description

Regardless of using the footage for the Impeachment hearings that started today this was unacceptable to be aired on daytime TV. These public hearings are frequently shown in school classrooms to show how the justice system operates. I can't imagine that this is acceptable for children watching as they learn about how our government works. Why do we even have the FCC if we can't safely turn the TV on without the kind of language that was shown today. I don't pay for streaming networks for exactly the reason of not wanting to hear profanities in my home. In spite of that kind of language being "normalized" by Netflix originals and all other streaming networks, I would not have expected that CBS or ABC would be airing. I will not be watching any more of the hearings as I would not invite that into my home. I have the ability to see the video without needing the profanities to get the point. The American people aren't stupid. The media censors what they share when it suits their narrative just like making the decision that it is acceptable to show the severity of the attacks by allowing for the profanities. One less thing I will waste my time watching. I assume that rules out all of our govt proceedings if that is considered acceptable behavior. Please hear my complaint, and for all of the other teachers, and parents that had their children watching they don't know who to complain to. Please put sanctions in place to stop this or cease to exist and use our tax payer dollars for something other than funding an FCC whose "hands are tied". Please show me that I am wrong in believing that the FCC is also politically motivated by allowing for this "exception".

The first amendment is a basic right in our country.

You must not allow Democrat activists to either remove certain news outlets(conservative of course) or limit their audiences or push them to more "acceptable" viewpoints.

The solution to what Democrats call disinformation is more speech. By all means, let the public square host that debate. But there needs to be debate. Not censorship.

Description

Expressing a desire to hold a public officials accountable to federal laws is an illegal act that necessitates censorship according to Twitter. No where does it state that expressing such a desire is against its TOS. This has quickly become tacit approval on your part at this point. Filling out an FCC complaint has become the only recourse for addressing this censorship epidemic and equally holds as little meaning as appeasing to the censorial bully violating citizen rights by exploiting government regulatory agencies complacency.

This is the 5th issue I have had with this company. Favorite was the permanent suspension of my last account for editing my own profile picture with a grey blob and three lines over my original avatars face. this was during the congressional oversight committees hearings where Twitters CEO stated "we do not permanently suspend accounts". It's been over 3 years and its still suspended. I eventually had to create another account.

How much money they did they lobby for this? Is it a reasonable rate? Seems well worth the price, whatever it might be. You have been approving this type of behavior for over a decade now. I have no faith you will ever address this issue but who knows. You might surprise me by doing your jobs for once.

On second thought it might be easier/faster/better to just outlaw it entirely and eliminate the regulatory agency tasked with its oversight.

Description

While I certainly appreciate the focus on ensuring that all Americans have access to broadband, I'd like to make certain that equal emphasis is being placed on *quality* broadband. Other countries have ubiquitous access to multi-gigabit speeds without bandwidth caps; America should too. ISPs regularly employ their monopoly power to impose other onerous, anti-consumer restrictions as well. As an example, I'm tired of having to contact my ISP each year to renegotiate my contract for dwindling performance. This past year where videoconferencing services played a major role in everything from public education to congressional hearings was especially illuminating—the same network-related issues one might have expected from two decades ago continue to plague us today. Good luck.

Company Complaining About: T Mobile

Description

A correct wireless to wireless port is 60+ hours old at the time of filing this consumer FCC complaint: Cricket wireless (AT&T) to T-mobile Connect. Reference T-mobile incident number: (b) (6)

This is an documented nightmare. Executive Summary: T-mobile refuses to activate T-mobile connect compliance plans.

This correct, documented wireless to wireless port request is 60+ hours old at the time of filing. T-mobile has already taken the number from Cricket Wireless (AT&T). I have called the call T-mobile and Cricket call center several times. T-mobile's operations surrounding T-mobile Connect compliance rateplans is a absolute dumpster fire. It is abundantly clear T-mobile is not in the business of activating these compliance rateplans. I have documented this entire saga. I am going to try again with another virgin port-in number to see if it fails again... by design. T-mobile was allowed to acquire Sprint with minimal conditions: one of which was offering T-mobile Connect. It is abundantly clear T-mobile refuses to activate T-mobile connect by making the process acquire it quite literally impossible. An extremely competent wireless consumer is unable to get a port in T-mobile Connect activation.

Port the number immediately, without delay, or a formal FCC complaint with a docket number is coming. There will be hearings about how high the motes against number portability, compliance rateplans, and device handset unlocking/portability.

Description

Fox News, for months, has done all it can to downplay the seriousness of the Covid 19 pandemic, including lying about the value of face masks, social distancing and, more recently, mocking the federal drive to vaccinate people. This occurred over the course of many months, while thousands of Americans died. And while the owner of Fox News, Rupert Murdoch, got vaccinated, along with Fox News TV personalities, the news outlet continued to mislead, misinform, and lie to its viewers about the seriousness of the Covid threat. Thousands have died, unnecessarily because Fox News chose to politicize, using the public airways, a very real and urgent public health emergency. The Murdoch news dynasty, lead by Fox News, made hundreds of millions of dollars fomenting distrust of science and medical experts, and as a result thousands of people suffered and died needlessly. The public airways should NOT be used to spread lies and to misinform society at large. The cost, in terms of lives lost and shattered communities, is too obvious to ignore any longer. Fox News must be held accountable. The FCC should hold hearings for this purpose and, if appropriate, should impose fines and penalties up to and including restricting Fox News' use of public airways to spread lies.

Description

I think the misinformation broadcast by Fox News, in particular, Tucker Carlson, Laura Ingram and Sean Hannity clearly violates FCC rules about hoaxes. Last night's coverage of the Jan. 6 hearings is a case in point. They are a clear and present danger given the Jan. 6 riot and aftermath and the uptick in COVID-19 cases. The audience members believe in their lies, are influenced by the vitriol spread about our government, elections and democracy and give them false cause to continue defending trump. Like the Germans who were swept up in the Nazi fervor and conditioned to hate Jews, the Hutu and Tutsi demonization of one another that led to genocide in Rwanda, or our own Civil War. Propaganda and misinformation kill. If Fox News wants to continue claiming it is just entertainment, it should be mandated to remove the News from its branding or at the very least, should be mandated to have a disclosure throughout the broadcast that the information is for entertainment only and not based on facts. Rupert Murdoch and Fox are morally bankrupt and should be called to testify before congress and the American people to account for their actions. Best category of TV Issue I could find was indecent.

Company Complaining About: Windstream

Description

Her phone system is not working properly. Her calls are constantly dropped. The consumer stated that while speaking with her older son, last night, the call was dropped over five times.

The consumer stated that when she places a call to Windstream, for assistance, she has had to wait, up to 2 hours, at times. The consumer has called them 13 times, in a row and the phone is still not fixed. Calls constantly drop. Calling features are not working.

The consumer stated that she pays for 15 calling features including other service features such as whole home agent, ID theft, protection plus, internet security, home wiring, and others.

The consumer explained that she paid to have her computer set up and Windstream has never showed up to do this.

She stated that she is disabled and no one is assisting her or helping her to resolve these issues.

She requires a phone in order for her to set up her transportation. She has appointments to attend a medical hearing, that she must attend, for her benefits. She does not have a phone to make arrangements or converse with the required agencies.

She stated that the phone lines need to be rewired.

Her tablet, her email...everything has been hacked because Windstream is not protecting her home and providing the services for which she pays.

The consumer stated that Windstream is supposed to come out and provide a whole new package for her devices.

She stated that she needs to get to the doctor and she does not have a phone to do this. She cannot arrange for a ride to the pharmacy. She also has the two hearings for her Medicaid.

She stated that they provide a firewall and they are not doing their job. They are any of these protection services, for which she pays. The consumer stated in spite of the firewall, her laptop has been hacked.

She stated that Windstream continues to charge her for services that are not working and this is in spite of the fact that they still have not fixed the services.

I would like to make a complaint about a court case, my mother had Guardianship of my oldest daughter, the father was in prison for 2 1/2 yrs. When he was released he asked for visitation, my child was 4 at this time and had no idea who he was, the court call a hearing and NEVER notified me of anything, he then asked the Guardian ship be terminated and she be placed back with him, he had only had 3 overnights with this man, but yet again I was never never notified of court hearings.

Also Judge BAKker made reference to my mothers last name, she assumed it was Italian, and when my mom told her is was actually Mexican she stated to treat us very differently, also my mom stated her husband's legal status was also brought up in the court making her feel very uncomfortable.

He had been out out prison for almost a year and they never made him help in any way with her, no support nothing, then they removed her for a safe place that I was able to visit her, and now I fear for her because he will not allow us any contact with her, I am asking that this decision be reversed and reviewed to a deeper extent.

This court has violated my right as her mother to be present for these hears.

It has also violated my mothers rights by showing racism in the court.

It has also violated my daughters rights to be treated fairly to not cause her trama of any kind.

Description

To Whom It May Concern:

I have Fios unlimited internet service and I spend a large portion of my time working from home. I am a bankruptcy and probate attorney, and hearings are conducted remotely via zoom. My internet connection must work.

Initially the internet service worked flawlessly. Now however, I either cannot connect to any webpage or site, or it takes approximately two (2) minutes to connect to any site. Even after connecting, the internet connection randomly drops and I have to try and reconnect.

I have repeatedly ask for assistance to no avail, and the Fios reps actually tell me that your service works fine and there is nothing we can do because there is no problem. This despite the fact that the remote connection test, which you must suffer through before Fios will allow you to speak with a live person, recognizes there is a problem and claims to fix the issue remotely.

To make matters worse, Fios then tries to upsell me on a business account and sends me messages that unlimited data package subscribers, me, may experience a reduction in data and slower speeds. It gives the impression that Fios is intentionally slowing down my internet service to upsell another more expensive internet plan.

I need this problem resolved asap. Please kick this complaint up to Fios executive offices so they get a competent technician out here to fix this problem immediately.

Telecommunications:

GAO-07-1046:

GAO Highlights:

Highlights of GAO-07-1046, a report to the Chairman, Subcommittee on Telecommunications and the Internet, Committee on Energy and Commerce, House of Representatives.

Why GAO Did This Study:

The Federal Communications Commission (FCC) is charged with regulating interstate and international communications by radio, television, wire, satellite, and cable. The Telecommunications Act of 1996 established that FCC should promote competition and reduce regulation to secure lower prices and higher-quality services for American consumers. FCC

implements its policy aims through rulemaking, whereby the agency notifies the public of a proposed rule and provides an opportunity for the public to participate in the rule's development. These rulemakings are documented within a public docket that contains the rulemaking record.

In response to a congressional request on FCC rulemaking, GAO (1) described FCC's rulemaking process; (2) determined, for specific rulemakings, the extent to which FCC followed its process; and (3) identified factors that contributed to some dockets and rulemakings remaining open. GAO reviewed recent FCC rules, interviewed FCC officials and stakeholders, and conducted case studies of rulemakings.

What GAO Found:

FCC's rulemaking process includes multiple steps as outlined by law, with several opportunities for public participation. FCC generally begins the process by releasing a Notice of Proposed Rulemaking and establishing a docket to gather information submitted by the public or developed within FCC to support the proposed rule. Outside parties may meet with FCC officials but must file a disclosure in the docket, called an ex parte filing, that includes any new data or arguments presented at the meeting. FCC analyzes information in the docket and drafts a final rule for the commission to adopt. The FCC chairman

decides which rules the commission will consider and whether to adopt them by vote at a public meeting or by circulating them to each commissioner for approval. Stakeholders unsatisfied with a rule may file a petition for reconsideration with the commission or petition for review in federal court.

FCC generally followed the rulemaking process in the four case studies of completed rulemakings that GAO reviewed, but several stakeholders had access to nonpublic information. Specifically, each of the four rulemakings included steps as required by law and opportunities for public participation. Within the case studies, most ex parte filings complied with FCC rules. However, in the case studies and in discussions with other stakeholders that regularly participate in FCC rulemakings, multiple stakeholders generally knew when the commission scheduled votes on proposed rules well before FCC notified the public. FCC rules prohibit disclosing this information outside of FCC. Other stakeholders said that they cannot learn when rules are scheduled for a vote until FCC releases the public meeting agenda, at which time FCC rules prohibit stakeholders from lobbying FCC. As a result, stakeholders with advance information about which rules are scheduled for a vote would know when it is most effective to lobby FCC, while stakeholders without this information would not.

The complexity and number of rulemakings within a docket and the

priority the commission places on a rulemaking contribute to dockets and rulemakings remaining open. The commission determines when to open and close a docket and which rulemakings are a priority; therefore, the commission determines how a docket and rulemaking progress. Dockets and the rulemakings within them may remain open because the dockets are broad and include multiple rulemakings, or because the commission has not yet voted to close the dockets even though they include completed rules. Within dockets, some rulemakings may remain open because they involve complex, technical issues or because competing priorities can force FCC officials to work on one rulemaking as opposed to another. Stakeholders generally said they are not concerned about the number of open dockets.

What GAO Recommends:

To ensure transparency in the rulemaking process, GAO recommends that the FCC Chairman take steps to ensure equal access to rulemaking information. FCC took no position on GAO's recommendation.

Description

Ive been a victim of SLAMMING - diagnosed with Cognitive Disabilities as a child - Guardian was my grandfather who raised me from age 4 and he passed when I became 11. I went to live with other family relatives and have been unaware of my disabilities. I left home early at age 15-16. Im 43 now and a few years ago had head injury requiring staples to my head. Eardrum ruptured and after I began hearing Inner Voice but in others voice - i guess because i never heard my inner voice i wasnt able to hear it in my voice- i hear the voices of ppl i know. it has freaked me out and caused many problems. The family I did have that cared were my elderly grandparents and they passed away in 2018. I have a daughter, she is 5 years old and she was kidnapped by my two sisters who have outcasted me and have turned ppl against me and they knew I had these disabilities -i guess everyone knew but no one ever told me and now im realizing it- these two sister ls have stolen my identity and used it to apply for small business disaster loans, etc. i never suspected them of this. ive learned that they have been doing this for years and in hindsight i feel humiliated and isolated. this explains why my relationships failed - after meeting one of my sisters, my relationship would begin to crumble. Ive recently learned how they mock and laugh at me behind my back which has encouraged others to do the same even if not for the same reasons they do it. i believe my sisters are doing this to conceal whatever fraud they have committed against me and they must fear the consequences so bad that their only option to free themselves of the responsibility they rather implicate me and destroy my life - they have gps tracked me on my phone and i have found the proof of this hidden in my cellular phones and on my desktop pc. they have spread rumors to others making me appear as some vagabond or lazy person who engages in illegal activities and also they have told others that i have lied about the health problems i have had through out the years which has resulted in me not getting the help i need and has also been the reason others look down upon me with disgust .. i really do not know all of the rumors they have spoken of me but i can only assume it is horrible. Im treated by others like a joke. i have found that they are associated and friends with individuals that seem to come to me from nowhere almost as if they have been sent by my two sisters- which must be the situation and these individuals seem to be told things about me that are not true only to benefit their motives which are making me appear as a woman with no respect for myself. the last three government homes ive lived in seem to have hidden equipment above me pr in the walls. i can hear them move around and i know they are harassing me but getting me upset. ot seems they are streaming me live on a tp link and everyone is on my phone and pc stealing me CREATIVE AND INTELLIGENT WORK AND RESEARCH. I have caught them in my phone and none seem to fear the consequences of their actions - they laugh and do it still. they have hired individuals to orchestrate judicial hearings and these hearings

Company Complaining About: Comcast

Description

Fox News acts as if it is a true news source, until they end up in court - then they say the truth that they are an 'entertainment' source NOT a news source. The FCC should be putting a warning label on their channel at the beginning and end of every show making the public aware that they consider themselves entertainment and not news. FOX has been the biggest divider in our country and in large part because they are not being held accountable for the numerous lies and conspiracy theories they spread on their shows daily. They are a blatant source of insurrection talk and promotion and they have decided not to air the upcoming January 6th hearings even though several of their personalities are deep into the coordination and encouragement of the attempt to overthrow the will of the American people. I am expecting that the primary source to hold the channel accountable, the FCC, is going to do something about this ASAP. Thank you for doing the right thing for this country. Unless you choose to do nothing and allow for the continued degradation of our democracy.

Description

I believe a broadcast network should serve the public and the public interest. For Fox News not to broadcast the hearings is a blatant violation of serving the public interest. This is the most important story of our lifetime, some would say, and their viewers have a right to see it. This kind of dereliction of their duty should not be ignored and you have a responsibility to punish them for this action. I am aware that they hide behind the 1st Amendment but this story is too important to be ignored. Hope you will consider some punitive action against them.

Description

Why is the FOX channel not required to broadcast the Jan. 6 hearings? The grant of a FCC broadcast license is premised on the use of that license in the public interest. No matter politics, clearly public education about what happened on Jan 6 2020 is in the public interest as current lesson about American government and civics.

The Jan. 6 Committee aired clips of testimony that used bad language and open captioned that language at the same time all during "Prime Time".

How does this committee get a pass to air bad language? The testimony was not live. It could have been bleeped just like the rest of the country has to do. Former Atty. Gen. Barr was shown saying "bullshit" a number of times. I find the language offensive and that the committee can air it offensive. For future aired hearings they should bleep that kind of language just like the rest of the nation. They hired a TV producer to handle their program, he should have known better.

Filing a complaint against all local channels airing the January 6 fake capital hearings. We all should not have to be subjected to watching something that was made up, and something that was allowed to happen by the personnel who worked at the capital building including crooked people working for the government. I watched video from that day where guards were letting people in the building waving them in. If anyone should be charged with anything, it should be the people who work at the capital for letting this happen. Everyone was aware before hand about January 6. Taking away regularly scheduled programming to air fake people making up crap should not be allowed to happen.

Ticket: # 5550644 - Completely unreliable Internet Service from Comcast in Baltimore City.

Date: 06/16/2022 04:34 PM

City/State/Zip: Baltimore, Maryland 21213-3434

Company Complaining About: Comast

Description

I left DC in part because Comcast's internet services where I lived, in Ward 8, were unreliable. I never got the service for which I paid.

Now, in Baltimore, I am running into the same problems with the company.

I have had problems off and on with my internet service from Comcast since I moved to Baltimore, but over the past 3 days the problems have become outrageous.

The company left me without service from 8:00 AM until nearly 7:00 PM on Tuesday of this week. Then on Wednesday, my service kept dropping out and coming back up, so I reported the problem to the company, wasting an hour of my life.

This morning, the company sent someone out here to work on the wires outside my home, because supposedly that was the problem (interestingly, that's what Comcast kept saying was the problem with my service in DC). Supposedly he fixed the problem, but after he left, my service dropped and came back up over 50 times. After 50 instances, I gave up counting them; and that was all between the hours of 1:00 and 3:30 PM. I know, because I was trying to watch the January 6th Event Hearings on PBS, and I wasn't able to follow what was going on because my connection kept being interrupted, which meant that I had to go through the entire process of accessing the Xfinity live stream, over and over again.

I contacted Comcast about the problem, and the people that I worked with were all Philippino, and all they did was stall and waste more of my time.

I want Comcast to be forced to offer the service for which they charge me, or I want Comcast to be forced to admit that they lie when selling their services.

The speed of my internet connection has never been as fast as Comcast promises, and there is absolutely nothing reliable about Comcast's service.

Company Complaining About: Gray Television, Inc.

Description

During the Jan 6. Hearings today, 6 June 2021 about 14:10 (2:10 pm CDT), Ch 5 @KCTV5 Gray Television, Inc, interrupted CBS News 's programming. I get that because of this area and maybe the local station's political leanings that they don't want to air these hearing because that's why they went to commercial in the middle of MS. Moss testimony. However, this is a very annoying recurring behavior of this channel and their practices are not indicative of a good corporate citizen by not providing vital information to the public. Lastly, during this time of day it is mostly CBS's daytime programs.

Description

today on NPR- broadcast by my local affiliate WRKF in BatonRouge La... Reporter David Folkenflik used the phrase "I swear to god" in a trivial almost flippant manner in describing the media savvy applied to the January 6th hearings. I find this offensive. A quick google search shows that this phrase is used rather often now on NPR.

To me this is profanity... more so than the traditional prohibited words.. I mean it IS one of the 20 commandments not to use Gods name in vain.

Description

On June 28, 2022 at approximately 10:35am Northwest Public Broadcasting (NWPB), at a time when children are commonly watching children's programming on their station, fully spelled out "the F word" on the screen for my wife and kids to see unexpectedly. This was on "special coverage" with which they had interrupted normal children's programming creating the reasonable expectation that a child or their parent may turn to that station at any given time. This could be solved by a minimum of a written warning to NWPB with the possibility of monetary fines should they repeat this in the future.

Company Complaining About: Wkrq Cbs Mobile, Alabama

Description

I am writing to report possible censorship of the Late Show with Stephen Colbert by the CBS affiliate, WKRG, out of Mobile, Alabama, on June 28, 2022. Stephen Colbert and Alexandria Ocacio-Cortez (AOC) were talking about the January 6th hearings. Colbert said he would be happy to see a certain person (implying former president Trump) go to jail for his evil deeds. AOC started speaking when suddenly the show broke for five minutes of commercials (14 total). Normally, Colbert says when they will break away for commercials, but this did not happen. The show returned at the end of the commercial break. AOC spoke for about 12 seconds, and then there was another one minute of commercials (5 total). AOC got to speak for about 50 seconds, and then there was a repeat commercial for 15 seconds. AOC spoke for 7 seconds, and there was another commercial break of 5 repeat commercials lasting 45 seconds. Finally, AOC returned, and there were no further interruptions. Thank you for your attention to this matter.
