InfoMVA-Registration - Specialty License Plates (27300.29T)

The procedure explains how the MVA processes requests for several different types of specialty license plates.

The registration procedures for the following special use vehicles are described below:

- Chesapeake Bay or Agricultural background scene license plates
- Combat-related license plates
- Disabled veteran license plates
- Ham (amateur radio operator) license plates
- Organizational license plates
- Personalized message (vanity) license plates

***Notes:***

Personalized plates for the above classes will be issued on the Maryland Proud background, however Personalized plates for Vehicle Classes trailer, street rod and historic will be issued on the black and white background plates unless the customer applies for a Bay or Agricultural plate. Organization plates will continue to be issued on the black and white background also.

The process used in fulfilling a customer's request depends upon when the request is made.

Two different processes are described below:

1. Specialty license plate requests while the vehicle is being initially registered - Note that if a customer applies for ham or personalized plates when the vehicle is being initially registered, standard license plates are issued for use on the vehicle until the specialty plates are received by the customer. At that time, the customer must return the standard plates to the MVA.
2. Specialty license plate requests after the vehicle has been registered

A customer who wants to combine a specialty license plate feature with disability license plates must first meet the requirements for receiving disability license plates. For details, see [InfoMVA-Registration - Disability Plates and/or Placards - Original Issuance (27300.01T)].

## Procedure

### Specialty License Plate Requests While the Vehicle is Being Initially Registered
