~~DEFENSE PLANS~~  
~~PRESIDENTIAL EMERGENCY ACTION DOCUMENTS~~

This Bureau is in receipt of a memorandum for heads of departments and agencies, captioned "Presidential Emergency Action Documents," prepared by the Office of Defense Mobilization (ODM), which outlines plans of ODM for the reproduction, distribution and control of Presidential Emergency Action Documents that are approved by the President for inclusion in his emergency file.

It appears that ODM proposes to disseminate photo-offset copies of finally approved documents to each "action and information addressee" for inclusion in the emergency file of the agency head. From the contents of the memorandum referred to above, it is not apparent as to how widespread such dissemination would be as the "action and information addressees" are not set forth. However, certain documents now appearing in the Attorney General's Portfolio are, by their very nature, unsuitable for widespread dissemination throughout the executive branch of the Government. For example, the documents dealing with the Department's plans for apprehension and detention of persons considered potentially dangerous to the national defense and public safety of the United States in the event of an emergency and the plans for interning enemy diplomatic personnel in the event of hostilities. It is requested that steps be taken by the Department to insure that such documents are released by ODM only to those departments directly concerned with the execution of the programs outlined therein.

In addition, it is requested that I be furnished copies of all documents when disseminated by ODM that might have a bearing on this Bureau's investigative and administrative operations.

NOTE: This document was classified "Top Secret" because of references to programs so classified by Department. Enclosure to memo to Boardman from Belmont, same caption, dated 5/28/58, TDR/pjm.

Memorandum Belmont to Boardman 5-28-58 advised of a plan set out in Office of Defense Mobilization (ODM) memorandum dated 5-22-58 to pre-position Presidential Emergency Action Documents at relocation sites of appropriate agencies. In connection therewith, the action documents, upon approval for inclusion in the President's Emergency File, are to be distributed to each "action and information addressee," together with a code word identifying the document. We analyzed ODM memorandum and on the basis thereof directed a letter to the Internal Security Division of the Department under date 5-29-58 requesting that steps be taken to insure that certain documents now in the Attorney General's portfolio, particularly the documents dealing with the Department's plans for apprehension and detention of persons considered potentially dangerous to the national defense and public safety of the United States in the event of an emergency, be released only to those Departments directly concerned with the execution of the programs. Additionally, we requested we be furnished copies of all documents which might have a bearing on our investigative and administrative operations.

Letter dated 6-12-58 from Gordon Gray, director, ODM, advises copies of Presidential Emergency Action Documents approved by the President for inclusion in his Emergency File should be obtained at ODM 6-13-58 and these documents are for our personal "emergency kit." The top secret emergency code list for the documents is to be obtained from ODM 6-16-58. Letter points out additional copies will be provided for pre-positioning at our relocation site upon verification that our site provides secure storage facilities and our personnel are cleared for top secret data and upon receipt of a written request therefor. Request for additional copies is to be received by ODM by 6-20-58.

of them will be similar or identical to documents already included in the Attorney General's portfolio, two copies of which are in possession of the Bureau. Documents now in the Attorney General's portfolio are only included therein upon the Department's instructions; therefore, documents received under this pre-positioning program will not be included in the Attorney General's portfolio unless the Department requests. In our letter to Gray we will point out that storage facilities at our relocation site are secure and our personnel are cleared for top secret. This will automatically qualify us for receipt of one additional copy of the documents.

We are picking up the available documents. They will be analyzed and you will be subsequently advised of the analysis and the program for maintenance of the documents and code list.

Memorandum Belmont to Boardman 6-13-58 advised letter dated 6-12-58 from Gordon Gray, director, Office of Defense Mobilization (ODM), in connection with the pre-positioning of Presidential Emergency Action documents at relocation sites, set forth initial documents approved by the President were available for inclusion in our personal "Emergency Kit." Also, that additional copies for pre-positioning at our site would be provided upon verification of secure storage facilities at site and that personnel at site are cleared for top secret data. Letter dated 6-16-58 to Gray gave this assurance and requested additional copies of documents for our site. Memorandum denoted copies of documents would be picked up and analyzed; further, that you would be advised of our program for maintenance of the documents and corresponding code list for document identification in the event of an emergency. Participation in this program is mandatory and documents must be pre-positioned at Seat of Government and our relocation site.

Analysis of Six Documents Obtained  
Via Liaison From ODM on 6-13-58

Document A 1-7, "Proclamation for Control of Alien Enemies."

The signing of this proclamation by the President would be authority for apprehension and detention of those dangerous alien enemies presently included in our Security Index. Additionally, it would be the authority for the registration and otherwise control of all alien enemies, an Immigration and Naturalization Service program. The Attorney General's Portfolio presently contains an identical copy of this proclamation.

Document A 1-8, A Proclamation "Suspending the Privilege of the Writ of Habeas Corpus and Authorizing the Apprehension and Detention of Certain Persons, the Search of Persons and Premises, and the Seizure of Property." The signing of this document by the President would constitute authority for institution of our Emergency Detention Program, which encompasses the arrest of all individuals included in the Security Index, the search of persons and premises, and the seizure of contraband. An identical document is presently contained in the Attorney General's Portfolio.

Memorandum Belmont to Boardman  
RE: DEFENSE PLANS - PRESIDENTIAL EMERGENCY  
ACTION DOCUMENTS (PRE-POSITIONING PROGRAM)

Document A 1-53, A Proclamation "Proclaiming the Existence of an Unlimited National Emergency and a Civil Defense Emergency."  
This document recognizes that an unprovoked armed attack has been launched against the United States by foreign military forces and that as a result thereof proclaims existence of an unlimited national emergency and state of civil defense emergency.

Document A 1-57, An Executive Order "Authorizing Additional Departments and Agencies of the Executive Branch to Classify Information and Material Pursuant to Executive Order 10501 of 11-5-53." This merely extends to all departments and agencies of the Executive Branch authority to classify defense information and material in the interest of national security.

Document A 1-59, An Executive Order "Suspending Publication of the Federal Register and Establishing an Alternate System for Filing and Publishing Executive Agency Documents." Title of this document is self-explanatory and would have no bearing on functions of the Bureau.

Document E-2, An Executive Order "Providing for the Utilization of the Personnel, Materials, Facilities, and Services of Federal Agencies During the Civil Defense Emergency." This would authorize the Federal Civil Defense Administrator, during a civil defense emergency, to direct any Federal department or agency to provide its personnel, materials, facilities, and services for civil defense purposes. However, it specifies that the Federal Civil Defense Administrator, in exercising this authority, shall to the maximum extent practicable be governed by the plans of such departments and agencies for maintaining the continuity of such of their functions, both at the Seat of Government and elsewhere, as are essential to the national security. We are, of course, on record with the Department to the effect that all Bureau personnel will be engaged in operations essential to the national security and the Department has recognized this fact. A copy of this Executive Order is presently contained in Part IV of the Attorney General's Portfolio.

Security Instructions Regarding  
Maintenance of Documents and Code Lists

ODM instructions are: (1) no document may be reproduced in full or in part until execution thereof by the President in an emergency; (2) documents must be held under strict accountability with periodic reports to ODM required; (3) code word lists in sealed envelopes should not be opened except upon receipt of message to effect President has signed certain documents signified by code words; and (4) separate storage facilities must be provided for the documents and code word lists and they must not be stored in the same safe or container.

Memorandum Belmont to Boardman  
RE: DEFENSE PLANS - PRESIDENTIAL EMERGENCY  
ACTION DOCUMENTS (PRE-POSITIONING PROGRAM)

Maintenance of Copies at Bureau

The documents and the code lists will be maintained in separate places in Mr. Belmont's Office. All extra-duty Supervisors will be made aware of their location so that in the event of an emergency and execution of these documents by the President, prior to the evacuation of Bureau officials and key employees to our relocation site, they will be immediately available for our use. Additionally, an analysis of each document will be attached thereto showing the effect execution of the document will have on the FBI and what action we should take upon signature of the document by the President.

Maintenance of Copies at Our Relocation Site

Additional copies of the documents and code lists, upon receipt, will be maintained at our relocation site in separate cabinets in the Confidential File Room at Quantico where they will be immediately available for our use in the event of an emergency. Copies of the analyses of the documents will also be attached to the documents at our relocation site.

RECOMMENDATION:

That the documents and code lists be maintained as described herein and details of the pre-positioning program will be included in our "Highlights of Seat of Government Defense Plans for Chain of Command" document and the Brief of Evacuation and Relocation Plan, which is for the Director's use.

My dear Mr. Gray:

Your letter dated June 20, 1958, relating to the Pre-Positioning Program for Presidential Emergency Documents has been received.

Alan H. Belmont, Assistant Director, Room 1742, Federal Bureau of Investigation, has primary responsibility for pre-positioning of the documents and for their storage and emergency implementation. The documents and corresponding code lists at our headquarters are filed in separate containers in his office and he is also considered the FBI employee immediately responsible for their custody.

Additional copies of the documents for pre-positioning at our relocation site upon receipt will be stored in separate containers in the Confidential File Room at our site, the FBI Academy Building, Quantico, Virginia. The employee responsible for their custody at our site will be Henry L. Sloan, Special Agent in Charge of the FBI Academy.

RECEIVED: JUNE 26, 1958

In Mr. Belmont's absence from the City on June 26, 1958, we have designated Special Agent Ralph R. Roach to sit for Mr. Belmont at the meeting scheduled for 3:00 p.m.,

Memorandum Belmont to Boardman 6-19-58 advised that we had received six initial documents approved by the President for inclusion in our personal "Emergency Kit." Also, that participation in the Pre-Positioning Program is mandatory and we had requested additional copies of approved documents and corresponding code lists for pre-positioning at our relocation site. Memorandum set forth analyses of documents received and programs for maintenance of documents and code lists in Mr. Belmont's Office at the Seat of Government and in the Confidential File Room at Quantico, our relocation site. The Director approved maintenance of documents and code lists as described.

Letter 6-20-58 from Gordon Gray, director, Office of Defense Mobilization (ODM) reviews the Pre-Positioning Program and points out the program was reviewed by the Cabinet on 6-13-58 and emphasis placed on responsibility of agencies to prepare for emergency implementation of these documents through development and review of agencies' plans and readiness. Additionally, letter states that officials at all levels responsible for implementation of documents in an emergency be fully aware of content and matters relative to their execution in an emergency; that an "assistant secretary" or corresponding official should have primary responsibility for pre-positioning, storage, and emergency implementation of the documents; and that Gray's office is to be notified of name, title, and address of designated official as well as storage location of documents and code lists and name and title of employee immediately responsible for their custody. Further, that the designee, together with the "chief mobilization planning officer," attend a meeting regarding the documents in Treaty Room, Room 474, Executive Office Building, at 3:00 p.m., 6-26-58 (Thursday).

In addition to Gray's letter, we received a Cabinet paper dated 6-23-58, a record of Cabinet actions on 6-13-58 relative to points stressed by Gray. Only additional items of interest not covered in Gray's letter are (1) agencies are to give increased attention and cooperation to speeding up approval of the Emergency Action papers still

under development and (2) agency officers should be informed about the papers, only on a need-to-know basis.

OBSERVATIONS:

We consistently review all documents and prepare analyses of same showing effect upon FBI and action to be taken. Our planning is in complete accord with the points covered in Gray's letter and in the Cabinet paper. Mr. Belmont is responsible for all defense planning and, as approved by the Director, documents and code lists will be stored in his office; therefore, he should be designated as responsible official and so notified to Gray's office. Additionally, he should be considered as the employee immediately responsible for documents' custody at the Bureau and SAC Sloan designated as responsible for their custody at Quantico. Supervisor Minnich, Defense Plans Desk, Liaison Section, is considered to fit the category as "chief mobilization planning officer." Mr. Belmont is out of town until 7-7-58 and in his absence Liaison Section Chief Roach, sitting for Mr. Belmont, and Supervisor Minnich should attend the scheduled meeting.

RECOMMENDATIONS:

Attached letter be sent to Gordon Gray.

Section Chief Roach, sitting for Mr. Belmont, and Supervisor Minnich, as "chief mobilization planning officer," attend scheduled meeting at 3:00 p.m., 6-26-58.

By reference from the Director's Office on June 25, 1958,  
I took a telephone call from [redacted] secretary to  
John S. Grady, Plans and Readiness Area, Office of Defense Mobilization,  
Winder Building, Washington, D.C.

[redacted] referred to a letter to the Bureau from Gordon Gray,  
Director, Office of Defense Mobilization, dated June 20, 1958, and requested the  
names of FBI representatives to attend a meeting scheduled for 3:00 PM, June 26, 1958.  
[redacted] stated that she would like to have the names of the Bureau  
representatives in order that she could furnish to Mr. Gray today a complete agenda  
of the program together with the names of the representatives from the various  
agencies participating. I told [redacted] I would have to call her back.

After checking with the Liaison Section and obtaining the telephone  
number of Mr. Grady's office, I called back and asked to speak with [redacted]  
I then furnished her with the names of Bureau personnel who will attend the  
June 26 meeting. I told her that Special Agent Ralph R. Roach will sit for  
Assistant Director Alan H. Belmont and that Special Agent John T. Minnich  
will be present as the chief mobilization planning officer of the FBI. I also  
told [redacted] that a letter replying to the questions raised in Mr. Gray's  
letter of June 20 will be delivered to Mr. Gray's office by liaison later today (6-25).

[redacted] was most appreciative of being furnished the  
names of our people who will be present at the meeting.

Secretary in the office of Mr. Gordon Gray, Office of Defense Mobilization, telephoned and stated Mr. Gray had addressed a letter to the Director on June 20 asking that two members of the Bureau be delegated to attend a meeting which will be held at the Office of Defense Mobilization tomorrow. She was calling to inquire about the reply. Arrangements were made for her to speak to Mr. Baumgardner in Mr. Belmont's office.

Mr. Baumgardner has advised that the reply will be delivered by liaison to Mr. Gray's office today. The meeting referred to is one in which representatives of the various agencies participating in Operation Alert will discuss plans for Operation Alert.

Memo Belmont to Boardman 6/13/58 advised of pre-positioning program of Presidential Emergency Documents, and that Liaison would pick up documents and corresponding code lists. Memo Belmont to Boardman 6/19/58 advised we had picked up documents and code lists; set forth analysis of documents and program for maintenance of them. The Director approved the program.

Letter dated 6/23/58 from Gordon Gray, Director, Office of Defense Mobilization (ODM), in regard to the program, advises an official of one agency opened the top secret envelope containing the code lists, thereby compromising them. Letter requests return of lists, unopened, to ODM and pick up of new lists between 9:00 a.m. and 12:00 noon at Room 18, Executive Office Building, 6/26/58. Letter requests all persons responsible for documents and lists be familiar with security regulations regarding them, and that instructions be issued to this effect.

OBSERVATIONS:

We will return the unopened envelope containing old code lists and pick up new code lists. Our previous memoranda concerning this program set forth the required security regulations. Additionally, synopsis version of the program and security regulations which will be placed into our "Highlights of Seat of Government Defense Plans for Chain of Command," the Director's brief of evacuation and relocation, and Domestic Intelligence Division extra duty Supervisor's manual will meet the request contained in Gray's letter.

RECOMMENDATION:

That enclosed letter be sent to Gordon Gray.

Memo Belmont to Boardman 6/20/58 advised of meeting regarding Presidential Emergency Action Documents to be held in Treaty Room, Executive Office Building, 3:00 p.m., 6/26/58, and it was approved that Section Chief Roach sit for Mr. Belmont and Supervisor Minnich to attend the meeting.

The meeting was presided over by Mr. Charles Sullivan, Assistant Director for Plans and Readiness, Office of Defense Mobilization (ODM), and after a few preliminary remarks, Sullivan introduced Brigadier General Andrew J. Goodpaster, Staff Secretary, White House. General Goodpaster made a few remarks concerning the importance of the Pre-Positioning Program for Presidential Emergency Action Documents, pointing out the President has approved the documents issued to date (a total of eight, six of which we have received as being of interest to us) and that even though the President has approved these documents, the President does not bind himself to the action specified therein. Subsequent to General Goodpaster's remarks, Sullivan reviewed the document program, the corresponding code lists for use with the documents in the event of an emergency, and in general introduced nothing not already known to us or already provided for in our handling of these documents. Subsequent to Sullivan's remarks, Gordon Gray, Director, ODM, was introduced, and his comments were merely repetitious of Goodpaster's and Sullivan's.

PRESIDENTIAL EMERGENCY ACTION DOCUMENTS

Reference is made to Department memorandum dated September 17, 1958, enclosing three proposed proclamations designated as Emergency Action Document A1-42 REV 7/58, Emergency Action Document A1-69, and Emergency Action Document A1-70. This Bureau's comments were requested with respect to these documents.

In connection with the above-mentioned documents, this Bureau's concern, as has been stated in previous communications dealing with the subject of martial law or substitutes therefor, is to insure that there will be no interruption in essential functions of this Bureau in time of emergency and that there be no subjugation of this Bureau's personnel or responsibilities should such proclamations be issued. In this connection, it is noted that the Department has taken cognizance of this and has so indicated in its letter of March 17, 1958, directed to the Administrator, Federal Civil Defense Administration, dealing with the subject of a national civil defense plan (working draft) dated February 10, 1958.

Other than the above, this Bureau has no comments to offer concerning the proposed proclamations.

Department letter of 9/17/58 forwarded three proposed presidential emergency action documents presently under study and requested any comments the Bureau may care to make with respect to these documents. Each is discussed separately herein. *Prop*

Emergency Action Document A1-42 REV. 7/58 - Proclamation Regarding the Establishment of Military Areas and Other Emergency Measures

This proposed proclamation recognizes initially that the U.S. has been subjected to armed attack which has caused millions of deaths and injuries and the destruction or paralysis of many state and local governments and other essential activities.

It confers upon the Secretary of Defense powers in designated areas for the maintenance of public order, insurance of public safety, and enforcement of such Federal, state and local laws, regulations and directives as are not inconsistent with military necessity. It provides that the Secretary shall not interfere with any functioning civilian courts except to the extent that such functioning materially interferes with military necessity. It directs the Secretary to pattern the size and form of any interim government so far as practicable to the size and form of the state or local government that formerly existed in that area and to restore the civil functions of the former civil government as soon as possible or at the direction of the President.

It impowers the Secretary of Defense, whenever he considers it necessary for military purposes, to establish military areas from which persons may be excluded and with respect to which the privilege of any person to enter, remain in or leave will be subject to whatever restrictions the Secretary may impose. To enforce compliance with instructions applicable to military areas, the Secretary is authorized to use Federal troops and assistance from state and local agencies or other Federal agencies.

Memorandum for Mr. Belmont  
Re: DEFENSE PLANS  
PRESIDENTIAL EMERGENCY ACTION DOCUMENTS

It provides that the privilege of the writ of habeas corpus be suspended in the areas in which the Secretary acts under either of the above situations with respect to persons who may be apprehended or detained under this proclamation.

Emergency Action Document A1-69 - Proclamation Providing for Continuity of Local Civil Governments, Military Assistance to Civil Governments, and Other Emergency Measures

This proclamation recognizes initially that an unprovoked armed attack has been launched against the U.S. by foreign military forces and the territory of this country is being invaded by persons seeking to destroy the Government by force and violence. It confers upon the Director of the Office of Civil and Defense Mobilization (OCDM) the right to assume and exercise all necessary Government functions vital to the maintenance of law and order in those areas in which the civil government of a state or political subdivision thereof is unable or unwilling to perform such functions. It instructs that in exercising such authority the Director of OCDM must determine the magnitude of the area over which the exercise of such authority is essential and to limit the exercise of such authority to the smallest geographical area practicable under the then existing circumstances. It provides that control of local civil government would be returned to local authorities at the earliest practicable date. It further provides for the suspension of the privilege of the writ of habeas corpus in those areas in which jurisdiction is assumed with respect to persons who may be apprehended or detained under authority of the proclamation.

It provides for military assistance (personnel and material) by the Armed Forces of the U.S. in carrying out the functions of OCDM to the extent that such are not required for military operations.

This document is an alternate document for use in the event Document A-1-42 discussed initially herein is not used.

Emergency Action Document A1-70 - Proclamation Providing for the Establishment of Military Areas

This document would complement A1-69 discussed immediately above should A1-69 be utilized. It provides, as does A-1-42, for the establishment of military areas by the Secretary of Defense.

Memorandum for Mr. Belmont

Re: DEFENSE PLANS

PRESIDENTIAL EMERGENCY ACTION DOCUMENTS

OBSERVATIONS:

Documents of somewhat similar nature have previously been reviewed by the Bureau and our comments furnished the Department. We have in the past made no observations concerning the contents of such proclamations except to point out to the Department that there should be no interruption in this Bureau's discharge of its emergency functions in the event of an emergency should martial law or a substitute therefor be declared. We have in the past requested that the Department take appropriate steps also, to insure that there is no subjugation of this Bureau's personnel or responsibilities. The Department has taken cognizance of this and in a letter to the Administrator, Federal Civil Defense Administration, on 3/17/58, the Department pointed out that there should be no subjugation of FBI personnel or responsibilities to the control of Federal Civil Defense Administration in situations such as that encompassed by the proclamations previously discussed herein.

RECOMMENDATION:

That we direct a letter to the Department reiterating our observations along these lines. If you approve, there is attached a proposed letter.

Memorandum Roach to Belmont 9-22-58 in connection with above-captioned program advised that four documents for pre-positioning at our relocation site had been received and that two of the documents would be furnished by Office of Civil and Defense Mobilization (OCDM) at a later date. Memorandum contained recommendations that Liaison Section follow up to assure receipt of the two remaining documents.

On 9-23-58 Liaison Agent Bartlett obtained the two remaining documents, so that all six of the documents to be pre-positioned at our site are now available for the Training and Inspection representative who will deliver them to the site.

Memorandum Belmont to Boardman 6-19-58 advised of initial receipt of six documents\*and corresponding code word list ~~in~~ captioned program; that the documents and analysis of each attached thereto together with the code word list would be pre-positioned in Mr. Belmont's office. Further, that we were requesting Office of Civil and Defense Mobilization (OCDM) for additional copies to be pre-positioned at Quantico, our relocation site. It was pointed out that upon receipt of copies for our relocation site, they would be sent to Quantico for maintenance in separate cabinets in the confidential file room where they will be immediately available for our use in the event of an emergency. Copies of the analysis of the documents will also be attached to the documents at our relocation site.

On September 16, 1958, Liaison Section obtained from OCDM four documents\*and a corresponding code word list for pre-positioning at our site. Two of the documents were not available at this time and they are to be furnished by OCDM at a later date.

OBSERVATIONS:

Due to strict security requirements regarding the documents and code word list, they should not be transmitted to Quantico together in the same vehicle and upon arrival at Quantico, they should be maintained in separate cabinets in the confidential file room. Also, since these documents eventually will pertain to over-all Bureau functions and due to a necessity for seeing to the proper physical maintenance of the documents, it is believed the Liaison Section, which has over-all responsibility for Buplans, should be delegated the responsibility for a semiannual check of the documents and code word list to assure their proper physical maintenance.

Memorandum Roach to Belmont, 9-22-58, advised of the initial receipt of six documents and corresponding code word lists in captioned program. One copy of the code word list and one copy of each document, together with an analysis of same, was pre-positioned in Mr. Belmont's Office, Room 1742, and in the Confidential File Room at Quantico, the Bureau's relocation site.

b7c

On 2-6-59, Liaison Agent [redacted] at Office of Civil and Defense Mobilization (OCDM) request, exchanged both copies of the code word lists for two new code word lists, described as "List Number 35" with an issuance date of 2-4-59. Additionally, Bartlett received another Presidential Action Document captioned "A1-28 Revised 5/58." This document is an executive order authorizing the Secretary of State, after "an unprovoked armed attack has been launched against the United States," to designate those enemy countries whose official representatives should be controlled. (This is our PRODIG Program) It is noted that existing plans of the Department of State provide for taking enemy United Nations personnel into protective custody as well as the enemy diplomatic, consular, and official personnel. The Department has advised that the proposed executive order was not contemplated to change the existing Department of State internment plans. However, the description of the document, as furnished by OCDM, states that United Nations personnel are not subject to protective custody and are subject only to "protection, surveillance, and control." By letters dated 2-11-59, we have requested the Internal Security Division of the Department and the Bureau of Security and Consular Affairs of the Department of State to furnish their observations. We are required, however, to file the documents as they are until such time as they are revised. Attached hereto is an analysis of the document and the action required of the FBI.

Memorandum  to Belmont 8-7-59 advised of receipt of letter dated August 5, 1959, from Office of Civil and Defense Mobilization (OCDM) which stated that it is necessary to conduct a physical inspection of Presidential Emergency Action Documents positioned at the relocation sites in order to evaluate the readiness of departments and agencies to implement emergency Presidential orders. Recommendation was approved for letter to go forth to OCDM granting authority for any one of three individuals to make the inspection and at the same time Liaison was to determine whether the inspection is merely to determine the physical presence of the documents and a corresponding code word list, or whether the inspector would be inclined to delve into FBI planning in connection with the implementation of programs for which we have responsibility.

At 10:20 a.m., 8-14-59, Captain R. W. Vaughan, OCDM Document Custodian, telephonically contacted Supervisor Minnich, Liaison Section. Vaughan advised, in connection with the proposed inspection, he would like to make it on August 25, 1959. It was pointed out to Vaughan that this will be while we are engaged in the National Relocation Phase of Operation Alert 1959 and he was asked if the inspection would interfere with our exercise participation. Vaughan said he had selected this date since Federal agencies will have their sites activated and that he will only be concerned with the physical presence and maintenance of the documents and the corresponding code word list. He stated that he would not desire to see anything else, nor would he be interested in the extent or nature of our participation in Operation Alert 1959. He was told Supervisor Minnich would be present at the site and unless he was advised to the contrary, it would be perfectly all right for him to inspect the documents on that date. He said he would subsequently advise Supervisor Minnich as to the estimated time of his proposed inspection.

Office of Civil and Defense Mobilization (OCDM) memorandum to heads of departments and agencies dated 5-22-58 sets forth a plan to position Presidential Emergency Action Documents (after approval by the President for inclusion in his emergency file) designed to insure prompt implementation of emergency plans. After Presidential approval, the action documents are distributed by OCDM to each action and information addressee. Participation in this program is mandatory.

To date, we have received seven documents together with a code word list. A complete set of the documents and a code word list are retained at our relocation site in the Confidential File Room and a set and code word list are retained in Mr. Belmont's Office under secure conditions. By letter dated 6-8-59 to OCDM we furnished an inventory of the documents in our possession.

OCDM letter dated August 5, 1959, advises that in connection with the current inventory of such documents as required by the White House Office, it is necessary that a physical inspection of the documents at the relocation sites be made in order to evaluate the readiness of Departments and agencies to implement emergency Presidential orders. The inspection is to be made within the near future and periodically thereafter. Two individuals from OCDM and one from the White House staff have been designated to make the inspection and they all have top secret and cryptographic clearances. OCDM letter requests we provide, by August 15, a letter of authorization similar to an attached sample to enable the representatives to inspect the documents and the corresponding code word lists.

Observations:

This is an approved Presidential program in which our participation is required. The documents, together with an analysis thereof and the action to be taken by the FBI, and the code word list are properly stored at Quantico. The letter requested by OCDM is not in conformance with usual FBI communication procedures; however, it is felt we should adhere to the format requested.

Additionally, we should determine through liaison just what this inspection will consist of; whether it is just to determine the proper physical storage of the documents and code word list, or whether the inspectors intend to seek information concerning our planning to implement documents which directly pertain to the FBI. At this time it is not contemplated that the inspectors will be shown the analyses of the documents and the action to be taken by the FBI.

Memorandum  to Belmont 8-21-59 advised that Captain R. W. Vaughan, Office of Civil and Defense Mobilization (OCDM) Documents Custodian, would appear at Quantico, our relocation site, on 8-24-59 to check the physical presence of the Presidential Emergency Action documents and the corresponding code word list stored at our site.

On 8-24-59, at 8:30 a.m., Captain Vaughan, accompanied by Mr. A.K. Bott, Jr., OCDM Security and Inspections Office, and Lieutenant John L. Butts of the White House Staff, appeared at our site. They physically inspected the Presidential Emergency Action documents, counting the pages in each document, and they inspected the corresponding code word list. They advised these documents are maintained in an excellent manner and they had no comments, suggestions, or criticism concerning the maintenance of them. They departed our site at 8:50 a.m. and they were furnished transportation to and from the Marine Corps Air Base.

Captain Vaughan did advise that in the near future they will be inspecting the documents and code word lists maintained by the parent agencies (ours are maintained in Mr. Belmont's Office) and that at some time in the distant future they may check into the implementing documents, those which have been prepared by the agency in order to carry out the execution of the Presidential Emergency Action documents. *W*

On 12-14-59 Mr. William Maxam, Office of Civil and Defense Mobilization (OCDM) inspected the seven Presidential Emergency Action Documents and the corresponding code word list which are stored in your office. In connection with this inspection, Mr. Maxam made available new cover sheets for the seven documents and a new corresponding code word list, number 35, dated 12-14-59. In your presence, Supervisor Minnich, Defense Plans Desk, turned over the old code word list. Mr. Maxam also gave to Supervisor Minnich a new code word list, number 87, dated 12-14-59, and seven additional cover sheets to be substituted on the documents stored at the Bureau's relocation site. As you observed, Maxam appeared to be satisfied with the manner in which we store the documents and code word list, and gave no indication that our procedures are contrary to approved OCDM practices.

The code word list and cover sheets for the documents at Quantico, our relocation site, will be personally delivered by Supervisor Minnich to Inspector Malone of the Training and Inspection Division for transmittal to SAC Sloan. It will be necessary for SAC Sloan to return to Supervisor Minnich the old code word list and document cover pages so that they may be personally delivered by Supervisor Minnich to Mr. Maxam.

By letter dated August 11, 1960, from the Office of Civil and Defense Mobilization (OCDM), agencies possessing copies of Presidential Emergency Action Documents and related Emergency Code Word Lists were requested to review their storage and control systems pursuant to Executive Order 10501. Set forth below are the points causing concern to OCDM and the Bureau's compliance with each point. (For simplification, the Emergency Action Documents and Emergency Code Word Lists will be referred to hereafter as documents.)

(1) These documents should be stored in safe-type containers or otherwise stored in accordance with the provisions of Executive Order 10501. Documents stored in Mr. Belmont's Office and at our relocation site at Quantico are in compliance with Executive Order 10501.

(2) Knowledge of presence and storage location of documents should be limited to document custodial personnel and those individuals who in an emergency have been designated to put agency's plans into operation. The presence and location of documents must be known to extra duty supervisors in Mr. Belmont's Office, to Mr. Belmont's staff, and to other individuals such as Mr. Bland, Mr. Baumgardner, and Mr. Whitson because of their related responsibilities to these documents. Although a number of individuals are involved, this knowledge is, however, restricted to those individuals on a need-to-know basis. Knowledge of the documents at Quantico is limited to a need-to-know basis and therefore, FBI complies with Executive Order 10501.

(3) "Each agency shall keep a master headquarters record of all individuals within the agency who are aware of the presence and location of documents. A similar record also will be maintained at each relocation site." This appears to be a corollary of number 2. In August, 1959, members of the White House and OCDM staffs inspected FBI storage and control systems relative to these documents and no questions were raised relative to such a list of personnel. Does not appear necessary at this time to institute such a record.

Memorandum L'Allier to Belmont  
RE: PRESIDENTIAL EMERGENCY ACTION DOCUMENTS

(4) Access to documents by persons outside agency should be limited to accredited individuals from White House and OCDM staffs. A visitor log should be maintained and signed prior to such access. Since access to these documents is permitted by FBI only by prior arrangements, we have control in this matter. The letters from OCDM requesting permission for such access set forth the names of the individuals involved and serves the purpose of a visitor log. During the August, 1959, inspection of our documents, no questions were raised relative to this point by the inspectors.

(5) A monthly review and inspection of the documents, adequacy of equipment and physical security measures and readiness of documents, custodians and other responsible personnel to act in an emergency is recommended. Reports of such reviews and inspections should be filed for future examination by OCDM. Defense Plans Unit will set up a 30-day tickler and the monthly inspections will be handled by personnel of Defense Plans Unit. The 30-day tickler will be initialed and filed and this will fulfill OCDM requirements.

(6) Safe combinations should be changed every six months. Quantico maintains the documents in the confidential file room located behind the gun vault door secured by a combination. SAC Sloan advises this combination is changed every six months; therefore FBI complies with this requirement.

(7) Personnel having control or access to the documents should certify they have read and understood the above six points and will comply with all requirements. Extra duty supervisors in Mr. Belmont's Office receive weekly orientation concerning their duties and the information set forth above is called to their attention during such training. It is not felt that certification is necessary by these individuals. Quantico personnel are also aware of the restrictions of storage and control relative to Executive Order 10501, and it is not felt that certification is necessary there.

Since no comments, suggestions, or criticism concerning the maintenance of documents by the FBI was raised during the prior White House-OCDM inspection, it is not felt that any action is necessary concerning the above points with the exception of the 30-day tickler mentioned in item 5.

ACTION:

Defense Plans Unit will prepare a 30-day tickler for review and inspection of documents and will handle such review and inspection.

Memo Belmont to Boardman, dated 6/19/58, advised that six Presidential Emergency Action Documents were obtained by Liaison and that the documents, along with corresponding Code Word List, would be maintained in separate places in Mr. Belmont's office.

Instant memo advised that additional copies of the documents and the Code Word List would be obtained and maintained at our relocation site in separate cabinets in the Confidential File Room at Quantico.

The attached letter from the Office of Civil and Defense Mobilization (OCDM), dated 1/9/61, advises that New Emergency Code Word Lists have been prepared to include newly approved documents and for security purposes the assignment of new emergency code words to existing pre-positioned documents. This letter indicated that one of the newly approved documents, A1-16, providing for civil defense measures and mobilization of the Nation's resources, supersedes document E-2.

The attached letter instructed that all existing Emergency Code Word Lists be returned in exchange for the New Emergency Code Word Lists, as well as Photostat copies of the newly approved documents. Document E-2 was to be returned to OCDM within thirty days.

On 1/13/61, OCDM advised orally that Presidential Emergency Action Document A1-59 was also to be replaced by new document A1-59. Both the old and the new A1-59 are an executive order suspending the publication of the Federal Register, and establishing an alternate system for filing and publishing executive agencies' documents. The old A1-59 was also to be returned to OCDM within 30 days.

On 1/13/61, the Old Emergency Code Word List was returned to OCDM and copies of the New Emergency Code Word List number 27 and 28 were obtained.

On 1/16/61, Presidential Emergency Action Document E-2 and A1-59 were returned to OCDM. The replacement for E-2, identified as A1-16 and the replacement for old A1-59, also identified as A1-59 were

obtained, along with Presidential Emergency Action Documents Al-48, Al-70, Al-98, and Al-99. Document Al-48 is a proclamation convening Congress at the Congressional Relocation Site upon an "extraordinary occasion" when Congress is not in session, or when Congress is in recess, or because the session has been disrupted by an armed attack or other disaster. Al-70 is an executive order authorizing the Secretary of Defense or his designee, whenever necessary for military purposes, to establish military areas in the U. S. and its possessions and territories from which persons may be excluded and to which entry may be restricted. Al-98 is a proclamation foreclosing anyone's departing or entering of U.S. territories and waters unless bearing valid passports or permits or unless exempted under rules and regulations issued by the Secretary of State and/or Attorney General; authorizing Attorney General to stay departure or entry of any alien as prejudicial to the U.S. interests pending review by the Secretary of State. Al-99 is a proclamation foreclosing anyone's departing or entering U.S. territories and waters under its jurisdiction until determined to be consistent with National interests.

Copy 27 of the New Code Word List was placed in the previously approved location in Mr. Belmont's office on 1/13/61.

Copy 27 of documents Al-16 and Al-59, which replaced documents E-2 and the old document Al-59, as well as the new documents Al-48, Al-70, Al-98 and Al-99 were pre-positioned in the appropriate location in Mr. Belmont's office on 1/16/61.

Copy 28 of the New Emergency Code Word List, as well as copy 28 of the six Presidential Emergency Action Documents described above, were hand delivered to the Training and Inspection Division by Supervisor Gregar for transmittal to SAC Sloan, Quantico. This New Code Word List and the documents will be maintained at Quantico in the identical manner and place as were the previous Code Word List and Presidential Emergency Action Documents E-2 and Al-59.

My memorandum to you 9-9-60 captioned as above reviewed storage and control systems pursuant to Executive Order 10501, of FBI copies of Presidential Emergency Action Documents and related Code Word Lists, as requested at that time by Office of Civil and Defense Mobilization (OCDM).

James Canavan, Department of Justice Defense Plans Coordinator, has now made available Departmental Order 219-61, executed 1-9-61 by former Attorney General William P. Rogers. This Departmental Order incorporates in its entirety the regulations concerning storage and control of the Presidential Emergency Action Documents previously furnished by OCDM and reviewed in referenced memorandum.

The Departmental Order, copy of which is attached, directs in addition that a copy of the Order itself and Annex E to Federal Emergency Plan D-Minus be stored with each set of the Presidential Emergency Action Documents. In compliance, there are enclosed with copies of this memorandum, Set #1570 for retention with the documents in Mr. Belmont's Office and Set #1571 for retention with the documents stored in custody of SAC Sloan at Quantico. Both sets are classified "Secret."

These document sets are composed of (1) Federal Emergency Plan D-Minus, which has been previously reviewed and which prescribes policies and actions providing for implementing documents required by the Federal Government during and after a crippling attack on the United States, on overseas bases, and on allies; and (2) Annex E - Procedures for Presidential Actions and Documents, which contains information regarding procedures for initiating, developing, and maintaining Presidential Emergency Action Documents, plus the responsibilities of departments and agencies for carrying out the Presidential emergency actions. Annex E contains nothing new and does not require any action by the Bureau.

By letter dated October 31, 1961, the Office of Legal Counsel forwarded a document captioned as above (attached). A review of this document reveals that it is merely a compilation into one document of the statutory powers granted the President for possible utilization in time of national emergency or declaration of war. All items contained therein are set forth in the United States Code and nothing new is contained therein affecting the Bureau.

The legislation covers a wide range of subjects, including Presidential authority to control the movement of aliens in and out of the United States; provisions relating to Armed Forces, the Reserves and National Guard; regulations over transactions in foreign exchange and over communications; suspension of provisions covering Government contracts; provisions relating to security and the protection of defense information; and laws governing merchant shipping and the use of vessels.

The letter of transmittal states that this document supplements a document entitled "Executive Powers Available by Virtue of the National Emergency Proclaimed on December 16, 1950," which, according to the memorandum, may have been circulated July 18, 1961. There is no record in Bureau indices indicating receipt of this document.

Reference is made to memorandum from you to Mr. Sullivan dated 11-30-62 advising of receipt of two sets of new Presidential Emergency Action Documents. Memorandum noted a review of these documents indicated no basic changes were made, the changes being those resulting from reorganization of the Office of Civil and Defense Mobilization.

The old Presidential Emergency Action Documents, along with code word lists, were returned to the Office of Emergency Planning. New code word lists will not be issued.

One set of these Documents, # 48, is filed in Drawer 2, Safe File, Room 807 Riddell Building (Mr. Sullivan's Front Office). The other set, # 49, is filed in the Confidential File Room, Quantico, Virginia.

These documents are Presidential Proclamations which will be issued in time of national emergency.

By letter dated November 30, 1967, the Department requested the views and comments of the Bureau as to the adequacy and currency of Presidential Emergency Action Documents Al-7, Al-8, and Al-57. Al-7 refers to control of alien enemies in the time of emergency; Al-8 suspends the privilege of the writ of habeas corpus and authorizes apprehension and detention of certain persons, the search of persons and premises, and the seizure of property; Al-57 authorizes additional departments and agencies of the Executive Branch to classify information and material pursuant to Executive Order 10501. This Executive Order now prohibits certain departments and agencies of the Executive Branch from classifying information and material.

These documents have been reviewed and are adequate for implementation of the program for which designed in the time of an emergency for the apprehension and detention of aliens and Security Index subjects.

With respect as to whether the language of these documents will withstand current constitutional tests and adequately protect the constitutional rights of individuals involved, this is a matter which will have to be decided by the Department of Justice. *CC*

In connection with Al-8, which suspends the writ of habeas corpus and authorizes the apprehension and detention of certain persons, this action at that point is outside judicial review. *REC-347*

ACTION DOCUMENTS

b6

This is a drastic program set up under the assumption that drastic steps will be necessary to protect the national security of this country so that efforts can be made to remove from circulation individuals determined to be potentially dangerous to the national defense and public safety of the United States by engaging in espionage, sabotage and/or subversion in the event an attack is launched against this country. In this connection, these individuals can be detained only during the time the writ of habeas corpus is suspended. As a constitutional safeguard, plans call for hearings in each individual case before boards appointed by the Attorney General.

That the attached letter be approved and transmitted to the Department of Justice.

REVIEW OF PRESIDENTIAL EMERGENCY ACTION DOCUMENTS

Reference is made to your letter dated January 24, 1968, requesting comments relative to Presidential Emergency Action Document (PEAD) A1-8.

A review of this document and memoranda enclosed with your letter has been made. My letter dated December 3, 1967, to Assistant Attorney General J. Walter Yeagley advised that PEAD A1-8 was adequate for the purpose for which designed.

It is felt that the opinions set forth in the memorandum prepared by the Internal Security Division are germane and we are in agreement with its conclusions that it appears that a preventive detention program based on the Emergency Detention Act (EDA) would afford this Government very little protection in an emergency situation against persons committed to the overthrow and destruction of the United States. The major differences between the current Emergency Detention Program (EDP) and EDA are such that a detention program based on the EDA would be unworkable.

In the time of a national emergency, survival as a nation is utmost; therefore, extreme measures are needed to preserve the internal security of the Nation.

In view of the number of individuals who are considered dangerous to the internal security of the United States and are included on the Security Index, if the Department should elect to proceed under the EDA proposal, a manpower-consuming effort will have to be exerted to conduct voluminous file reviews in order to conform to the provisions of the EDA.

The proposal to modify PEAD A1-8 relative to suspension of the writ of habeas corpus would not impair the EDP provided that a separate PEAD is prepared to suspend the privilege of the writ of habeas corpus.

I firmly believe that the internal security of the country could best be protected in the time of a national emergency if we proceed under the current EDP as set forth in the Attorney General's portfolio.

These documents are Presidential Proclamations which will be issued in time of national emergency. By letter dated 1/24/68, the Department requested comments of the Bureau concerning Presidential Emergency Action Document (PEAD) A1-8. This document suspends the privilege of the writ of habeas corpus and authorizes apprehension and detention of certain persons, search of persons and premises and seizure of property. In current letter the Office of Legal Counsel proposes that a separate PEAD be prepared for suspension of writ of habeas corpus and also proposes that the Emergency Detention Program (EDP) be revised to conform with provisions of the Emergency Detention Act (Internal Security Act of 1950). Attached to Departmental letter was detailed memorandum prepared by the Internal Security Division which indicated there was no opposition to modifying PEAD A1-8 relative to suspension of the writ of habeas corpus with the understanding that a separate PEAD is prepared. The memorandum also points out opposition to proposal of Office of Legal Counsel to do away with current EDP indicating that a detention program based on the Emergency Detention Act (EDA) would afford this Government very little protection in an emergency situation against persons committed to the overthrow and destruction of the United States.

We reviewed this document and other documents in December, 1967, at the request of the Department. By letter dated 12/5/67, we advised that the documents as so stated are adequate for the purpose for which designed. We have again reviewed this document and still feel that it is adequate for implementation of the program for which designed. Relative to proposal to prepare a separate PEAD for suspension of the writ of habeas corpus, it is felt that this is not a change provided that a separate document is prepared to suspend the privilege of the writ.

REC-73

22 FEB 7 1968

The proposal to revise EDP to conform with EDA is not a new idea. In 1952, the Department was advised of our views that such a revision is unworkable and does not provide for the security of the United States.

ENCLOSURE 2-2-68

Memorandum [redacted] to W.C. Sullivan  
RE: Presidential Emergency Action Documents

The Internal Security Division (ISD) has made detailed study and has presented their views to the Office of Legal Counsel opposing any revision of the EDP. We are in complete agreement with the ISD concerning this matter.

Office of Legal Counsel proposal is drastic in nature and will bring program under courts of law rather than an emergency measure to protect internal security of the U. S. Major differences of proposal (Internal Security Act of 1950 (ISA)) and EDP are: EDP calls for detention of individuals considered potentially dangerous to national defense -- ISA permits detention of only those active in Espionage or Sabotage since 1/1/49, or of members of CPUSA or other organization which seeks overthrow or destruction by violence of the U. S.; under EDP one master warrant is executed by the Attorney General -- ISA individual warrants must be obtained; EDP provides for searches and confiscation of contraband -- ISA does not; EDP provides for hearings within 45 days after apprehension -- ISA provides that preliminary hearings will be held within 48 hours and subject is entitled to bond and writ of habeas corpus; EDP cases not bound by rules of evidence -- ISA rules of evidence shall apply; EDP provides for suspension of writ of habeas corpus -- ISA does not, therefore, dangerous individuals can obtain release from confinement prior to hearing in their cases.

#### OBSERVATIONS

Office of Legal Counsel fails to recognize that at time of an emergency, survival as a nation is utmost. Extreme measures are needed to preserve the internal security of the Nation and summarily, those individuals who are deemed dangerous should be apprehended and detained. The EDA is unworkable and would not provide for the security of the Nation. It would not allow us to immediately detain those individuals who seek to overthrow or destroy the Government.

All our plans for an emergency situation are based upon the current EDP. There are 10,109 individuals currently in the Security Index who are considered dangerous. If there is a complete reversal in thinking as proposed, most of these individuals would not fall within the standards of the EDA and would not be apprehended. It would also mean that the case files of all these individuals would have to be reviewed. This would be a voluminous and manpower-consuming task. It is felt that this should also be brought to the attention of the Office of Legal Counsel.

These documents are Presidential Proclamations which will be issued in time of national emergency. By letter dated 2/26/68, the Department furnished copies of memoranda with proposed changes in Presidential Emergency Action Documents. The Bureau was requested to designate representatives to discuss with the Internal Security Division the implementation of the Emergency Detention Program under the new Presidential Emergency Action Documents after approval by the President. We previously opposed Office of Legal Counsel's proposal to modify these documents making the Emergency Detention Program conform with the Emergency Detention Act (Internal Security Act of 1950).

The proposed Departmental memorandum recommends new Presidential Emergency Action Documents be adopted. The proposals which pertain to the Bureau are: (1) Emergency Detention Program be based on Emergency Detention Act, (2) Provides for suspension of writ of habeas corpus in geographic areas for a period not to exceed 30 days. The second proposal concerning writ of habeas corpus is simply a revision. The first proposal is drastic in nature if we are required to proceed under the Internal Security Act; however, from a review of the document it appears that a broad interpretation of the definition of persons deemed dangerous who will be designated for apprehension has been made. Because of this interpretation, it is not possible to determine if we can proceed under our current program. This can only be clarified through conferences with the Department.

It is recommended that Section Chief Charles D. Brennan, Internal Security Section, and SA Philip F. Enlow or as alternate, SA Theodore P. Rosack, be designated to discuss the implementation of the new Presidential Emergency Action Documents with the Internal Security Division after they have been approved by the President.

PRESIDENTIAL EMERGENCY ACTION DOCUMENTS

Reference is made to your letter dated April 24, 1968. Reference is also made to my letter dated May 1, 1968, captioned "Program for Apprehension and Detention of Persons Considered Potentially Dangerous to the National Defense and Public Safety of the United States."

My letter of May 1, 1968, proposed amendments to the implementation of the Emergency Detention Program. In the proposal relative to establishing a new Priority Apprehension Program, three priority levels as to an individual's potential dangerousness will be set up. Each level will be broken down as to nationalistic tendencies and/or organizational affiliations.

In view of these proposals, individuals can now be apprehended on a selective basis. Their potential dangerousness and organizational affiliations and/or nationalistic tendencies will be deciding factors. Thus a separate plan based on intensity of a potential attack is not believed to be required since our action can be altered to fit the situation existing.

This is submitted for your consideration and it is requested that you advise whether or not it meets with your approval.

SUBJECT: PRESIDENTIAL EMERGENCY ACTION DOCUMENTS

In November, 1967, the President directed a special committee, under the chairmanship of the Attorney General, to make a comprehensive review of Presidential Emergency Action Documents (PEADs) and related documents. New documents submitted by the committee were approved by the President on 3/21/68. The documents which affect our planning pertain to implementing the apprehension and search and seizure provisions of the Emergency Detention Program (EDP). These plans are not scheduled to be implemented unless a massive surprise nuclear attack is launched against the United States.

By letter 4/24/68, the Department advised that the President, when approving the new documents, also directed the committee to develop emergency plans specifically designed to be implemented in the event of a "light" or "limited" nuclear attack on the United States or its allies. The Department requested observations be furnished pertaining to the responsibilities of the FBI under this new program.

Director approved letter dated 5/1/68, submitting proposals to the Department amending Item D of Security Index criteria, broadening the definition of a dangerous person as set forth in the new PEAD 6 to include terrorists or persons who would interfere with Government operation and defense effort. A new Priority Apprehension Program to streamline implementation of the EDP was also proposed. Three priority levels of individuals as to their dangerousness will be established. Each level will be broken down as to nationalistic tendencies and/or organizational affiliation.

Re: Presidential Emergency Action Documents

The first priority apprehension list will consist of hardcore national and state basic revolutionary organization leaders, leaders of other subversive organizations and anarchistic groups and individuals who have indicated a propensity for violence and/or have received special training in sabotage, espionage and/or guerrilla warfare. The second priority list will consist of the second level leadership of basic revolutionary organizations and other subversive organizations or other individuals who present a significant threat but are in less influential positions than those in Priority I. The third priority list will consist of all other individuals who are on the Security Index. Apprehensions will be made only when the Attorney General announces that the immobilization of individuals on a priority list is in the best interests of the national defense of the United States; therefore, individuals can now be apprehended on a selective basis. Their potential dangerousness and organizational affiliation and/or nationalistic tendencies will be deciding factors. These factors will be our criteria in implementing the EDP in time of emergency. Our program is flexible and can be instituted for a given situation. In the event of an attack or in the time of extreme emergency, the degree of intensity will be considered in the implementation of the EDP and apprehensions will be made according to the priority lists. It is believed that a separate plan based on intensity of a potential attack should not be required since our action can be altered to fit the situation existing.

## SYNOPSIS

The Office of Emergency Preparedness (OEP) asked the Department and it, in turn, asked us by letter dated 11/6/68 if we desire to recommend any changes in the Federal Emergency Plan D or its related Annexes A and B. Plan D provides guidance for emergency planning and operations to cope with a nuclear attack on the United States. Annex B provides for the establishment of the Office of Defense Resources (ODR) which will mobilize the Nation's resources. There is nothing in Plan D or Annex B to require any change in our plans or comments on our part. Annex A contains the Presidential Emergency Action Documents (PEADS) which will be issued in a national emergency. With the Director's approval, we have already made suggestions to the Department relative to the PEADS affecting our operations and we have no additional changes to recommend.

## ACTION:

If approved, the attached letter should be forwarded to J. Walter Yeagley, Assistant Attorney General, Internal Security Division, advising him we have no changes to recommend in Plan D or Annex B and no changes in Annex A beyond our red discussions and correspondence.

#### DETAILS

The Office of Emergency Preparedness (OEP) asked the Department and it, in turn, asked us by letter dated 11/6/68 if we desire to recommend any changes in the Federal Emergency Plan D or its related Annexes A and B.

Plan D was published in February, 1968, and updates previous documents with the same title based on various acts and Executive Orders. It prescribes major Federal policies and actions and provides implementing documents that will be required by the Federal Government during and after a nuclear attack on the United States. The object of its policies is to insure continuity of Government and order, to support military operations, to insure survival of the population and recovery of the Nation, to insure effective use of resources, to maintain free world unity, to coordinate agency planning, and to provide for emergency organizations. Annex B provides for the establishment of ODR which will take actions necessary to provide for resource conservation and control, economic stabilization, civil defense, and relief and rehabilitation for the duration of an emergency or until the President or the Congress shall direct otherwise.

Annex A is the PEADS which will be issued in a national emergency. We have an interest in three PEADS, those relating to control of enemy agents, Emergency Detention Program, and organization of Defense information. Since November, 1967, with the Director's approval, we have been corresponding and conferring with the Department relative to those three PEADS, primarily the one dealing with the Emergency Detention Program. The result is that we have revised our Security Index criteria and we have no further recommended additions or changes to make relative to the PEADS.

There is nothing in the current Plan D or Annex B to cause any change in our emergency plans or comments on our part. In relation to Annex A, there are no additional changes we have to recommend.

In November, 1962, we received copies numbered 48 and 49 of PEADs, which will be issued in time of a national emergency. Copy number 48 was filed in Drawer 2, safe file, in the Office of the Assistant Director, Domestic Intelligence Division (DID), and copy number 49 was filed with DID emergency records at Quantico.

In November, 1968, we received revised copies of Plan D (issued February, 1968) which prescribes major Federal policies and actions that will be required by the Federal Government during a crippling nuclear attack on the United States. A copy was filed with DID emergency records at Quantico, a copy was filed in Bureau files and a copy retained at the Buplans Desk.

There have been some changes in the PEADs which we have not been furnished in their entirety. However, a summary of these PEADs are contained in Plan D which was revised in March, 1970. In January, 1971, the Department furnished copy number 248 of Plan D, including PEADs copy number 106, which is maintained at Buplans Desk.

On 12/17/71 we received from the Office of Emergency Preparedness three additional copies of Plan D which are being distributed as follows:

Copy 442 (PEADs copy 299) - Records Branch  
Copy 543 (PEADs copy 400) - SAC, Quantico - *detached & filed - 66-19016-49*  
Copy 544 (PEADs copy 401) - Assistant Director, DID.

FEDERAL EMERGENCY PLAN D

In response to the request of   
dated January 6, 1976, for comments with respect to Presidential  
Emergency Action Documents (PEADs) 5 and 11, the following is  
being set forth for your consideration:

Following the repeal of the Emergency Detention Act  
(EDA) in September, 1971, representatives of the Department,  
Immigration and Naturalization Service (INS), and the FBI, met  
in April, 1972, to discuss PEAD #5. Departmental representa-  
tives requested that the FBI provide a list of aliens inves-  
tigated and placed on the Administrative Index (ADEX). They  
were advised the ADEX at that time did contain a list of those  
aliens who had been investigated by the FBI, and were of cur-  
rent investigative interest.

In June, 1972, the Department requested by memorandum  
that the Bureau furnish to the Security Office of the Internal  
Security Division on a monthly basis a list of all aliens, by  
nationality, who were included on the ADEX. In response to this  
request, a current list of aliens then placed on the ADEX was  
furnished on a monthly basis. It was anticipated that following  
a review of the listings of aliens on the ADEX, the Department  
would advise the Bureau in writing of the identities of aliens  
designated for apprehension in PEAD #5. We did not receive any  
written instructions on this matter.

In June, 1973, a memorandum was received from the  
Department requesting the Bureau discontinue furnishing a  
monthly ADEX listing concerning aliens contained on the ADEX.  
At a meeting between Bureau and Departmental officials on  
October 20, 1975, and in subsequent discussions, the ADEX was  
discussed. At the October 20, 1975, meeting, the Attorney  
General (AG) requested consideration be given to discontinuing  
the ADEX. As the Department is already aware, pursuant to

this request and subsequent discussions, supra, the ADEX was cancelled on January 14, 1976. Therefore, the Bureau has no means of providing a readily retrievable list of "alien enemies" under PEAD #5. Additionally, the Bureau has no means of providing such a list of "citizens ... or aliens ... prejudicial to the national security and public safety" under PEAD #11, should the Bureau be called upon to provide such. For the Bureau to do so would place us in the position of exercising sole discretion as to whom the Department ultimately would consider of sufficient importance to merit consideration for inclusion on the list or lists. Accordingly, before such a definitive list or lists can be prepared by the Bureau, either under PEADs 5 and/or 11, there is a need for further clarification and guidelines from the Department. Specifically, if PEAD #11 is applicable to the Bureau, there is a need for definition and clarification of the terms "national security and public safety."

Under PEAD #5, we wish to set forth for your further consideration the following ideas which we feel might be helpful in considering such guidelines.

It is felt that the term "alien enemies" as defined in PEAD #5 is not selective enough. During a period of declared state of war, the internment of a particular nationality, as in the case of mass internment of Japanese-Americans after Pearl Harbor, would be of questionable legitimacy. However, the criteria set forth in Section 2 of PEAD #11 "prejudicial to the national security and public safety" could conceivably allow for selective internment of "alien enemies."

In summary, the Bureau requests from the Department written instructions outlining our responsibilities under PEADs 5 and 11. If the Bureau is expected to maintain a list or lists under PEADs 5 and/or 11, the Department is requested to provide specific guidelines as to the type of information to be maintained and how it is to be maintained.

## PURPOSE:

To advise of review of the PEADS and solicit INTD comments concerning same.

## BACKGROUND:

For information the PEADS pertain to a period of declared state of war and can be implemented upon signature of the President. PEAD #5 concerns the detention of "all natives, citizens, denizens, or subjects of the hostile nation or government." PEAD #11 concerns the classes of persons who would be permitted to enter or leave the United States. Copies are included in the attached material.

Memorandum to the Director from [REDACTED] Assistant Attorney General for Administration, dated 1/6/76, captioned "Federal Emergency Plan D," requested that the Bureau review and suggest any necessary revision of PEADS 5 and 11. It also requested the identification and preparation of any additional PEADS which may be applicable in those areas which the Department of Justice has responsibility and which may be required by the President to respond to the situation during and after a crippling nuclear attack on the United States. This request is incidental to a requirement levied upon the Department by the Federal Preparedness Agency to review those PEADS for which the Department is responsible.

Memorandum to Mr. W. R. Wannall  
Re: Revisions of Presidential  
Emergency Action Documents  
(PEADS) 5 and 11

Referenced memorandum and accompanying supportive documents from the Federal Preparedness Agency are attached.

On 1/7/76, Mr. Joseph M. Wysolmerski, the Department Emergency Plan Coordinator, was advised that short deadline would not allow appropriate consideration to be given to the subject matter, and that additional time would be required. Wysolmerski advised that the 1/12/76 deadline stated in the letter should not act as a bar for giving the PEADS appropriate review and sufficient time should be taken by the Bureau. He further requested that prior to furnishing the Department with the Bureau's recommendations that the Bureau's Legal Counsel Division's comments regarding the PEADS as presently comprised and as to any recommendations made be furnished to the Department.

It is appropriate that the Bureau critically review the PEADS, particularly #5, since these or any similarly imposed PEADS may by necessity place increased demands on current FBI security investigations. Any responsibility levied upon the Bureau would have to be consistent with guidelines given the Bureau concerning security investigations.

Additionally, the PEADS should be reviewed in terms of the validity of the concept of detention of enemy aliens, whether revision or new drafting is appropriate to encompass American citizens who might assist an enemy nation and whether other aliens ought not to be encompassed in the document. Also since PEADS 5 and 11 are made the responsibility of the Department it would seem the Department should fix responsibility for their being carried out.

## BACKGROUND:

Memorandum to the Director from [REDACTED] AAG for Administration, dated 1/6/76, captioned as above, requested that the Bureau review and suggest any necessary revision of PEADs 5 and 11. PEADs pertain to a period of declared state of war and can be implemented upon signature of the President. PEAD #5 concerns the detention of all natives, citizens, denizens, or subjects of the hostile nation, or government. PEAD #11 concerns limiting entry into and departure from the United States (U.S.) to persons traveling on official business except for citizen-refugees returning to this country and aliens returning to their home lands. Additionally, it indicates that no citizen shall depart from the U.S. unless he bears a valid passport. The Attorney General (AG) may temporarily invalidate the passport of a citizen whenever he has reason to believe that the departure of such citizen would be prejudicial to the national security or public safety.

It also recommended the identification and preparation of any additional PEADs which may be applicable in those areas where the Department of Justice has responsibility and

which may be required by the President to respond to the situation during and after a crippling nuclear attack on the U.S. This request is incidental to a requirement levied upon the Department by the Federal Preparedness Agency to review those PEADs for which the Department is responsible. On 2/9/76, Mr. Joseph M. Wysolmerski, Emergency Coordinator, Department of Justice, informally advised that in his opinion, Immigration and Naturalization Service (INS) should meet with the FBI and advise what the FBI's role would be in furnishing the identities of aliens to INS in case of national emergency. This would afford the FBI an opportunity to determine whether under the present records-keeping system this information would be readily available. He stated further that should it be found that it was necessary that a new PEAD be proposed, in his opinion, the FBI's Legal Counsel should research the authority--either existing statutory or President's implied powers under the Constitution--and implement a program responsive to such an INS request. It would be left to the Bureau to propose legislation, if any were found necessary, along with proposed steps implementing the law should it be enacted.

With repeal of the Emergency Detention Act and cancellation of the Administrative Index, the Bureau no longer has a readily retrievable means of identifying aliens or citizens of investigative interest who may possibly require some type of action by the FBI under PEADs 5 and 11. We are seeking from the Department written instructions for Bureau responsibility under PEADs 5 and 11.

PEADs pertain to a period of declared state of war and can be implemented upon signature of the President. PEAD #8 authorizes the Secretary of State to initiate measures for the protection, surveillance, and control of certain foreign diplomatic, consular, and other official personnel. PEAD #9 authorizes the Secretary of State to take over property of enemy governments. Departmental request for Bureau comments by 4/23/76 was based on a letter dated 3/10/76, and enclosures from [redacted] Office of International Security Policy, Bureau of Politico - Military Affairs, Department of State. This letter stated it was not felt that the issues in PEADS 8 and 9 warranted immediate personal attention of the President and indicated that it was suggested to the Federal Preparedness Agency (FPA) that they consider the feasibility of deferring Presidential action or establishing the legal machinery granting prior delegation of authority from the President to the Secretary of State to the action within the purview of these two PEADS. Position of State Department is not inconsistent with Bureau's objectives under PRODIP. Response coordinated with SA [redacted] CI-1.

## PURPOSE:

To request a review of PEADs by the involved FBIHQ Divisions and solicit comments and recommended changes in accordance with the requests of the Office of Management and Budget (OMB), Federal Preparedness Agency (FPA), and the Department of Justice (DOJ).

## DETAILS:

OMB and FPA, through DOJ, have requested that the FBI review the various PEADs, for which it has primary responsibility or a support role for implementation should such be ordered by the President. This review should include any recommended changes or clarification of terminology.

Subsequent to review, and receipt of comments, and changes, if any, the Defense Plans Desk will coordinate the responses and prepare a consolidated response to DOJ.

## RECOMMENDATION:

That the Intelligence, Criminal Investigative, and Legal Counsel Divisions review the attached PEADs and furnish the Defense Plans Desk comments and recommended changes by 10/13/78, in order that a timely response to this request can be made.

Memorandum to Mr. W. O. Cregar  
Re: Presidential Emergency Action  
Documents (PEADS)  
Buplans

DETAILS:

Referenced memorandum requested a review by involved FBIHQ Divisions, including INTD, of certain PEADS and solicited any comments and/or recommendations following that review in order that the Defense Plans Desk can submit a coordinated response to the Department of Justice (DOJ).

Draft copies were furnished of PEADS 2, 15, 16, 17, 18, 20 and 21. INTD has no comment concerning PEADS 2, 17, 20 and 21.

PEAD 2 deals with the Congressional Relocation Site and is the primary responsibility of the Federal Preparedness Agency. PEAD 17 authorizes the Secretary of State to seize property. PEAD 20 is an Executive Order directing the Secretary of Defense to restore and maintain law and order when it has broken down. PEAD 21 is an Executive order providing for a temporary suspension of the privilege of the Writ of Habeas Corpus.

PEAD 15 is a proclamation imposing restraints and regulations on alien enemies. Designation of the enemy state or states in Sections 101 and 102 is necessary before this proclamation can be made.

It appears that "alien enemies" should be clearly defined to determine if U. S. persons would be included in that definition. "United States person" means a citizen of the United States; an alien lawfully admitted for permanent residence, an unincorporated association a substantial number of members of which are citizens of the United States or aliens lawfully admitted for permanent residence, or a corporation which is incorporated in the United States. The primary

DETAILS CONTINUED:

agency with responsibility for PEAD 15 is Immigration and Naturalization (INS). The FBI's supporting role, if any, should be delineated and set forth by DOJ for the respective agencies.

PEAD 16 is an Executive order. It authorizes the Secretary of State to institute measures for the protection, surveillance, control, and repatriation of certain foreign diplomatic, consular, and other official personnel and members of their families.

The primary responsibility for PEAD 16 is delegated to the Department of State with the Department of Defense and DOJ designated as supporting agencies. Due to Article 44 of The Vienna Convention of Diplomatic Relations, 1961, entered into force for the United States in 1972, the FBI discontinued its PRODIP program, a contingency plan for the protection and detention of diplomatic personnel following the issuance of a Presidential Executive Order during a national emergency. Therefore, if the DOJ has a supporting role in the execution of PEAD 16, and if the implementation of that role is assigned to the FBI, our responsibility should be addressed and defined; and a contingency plan should be established for "the protection, surveillance, (and) control" of the designated foreign personnel.

PEAD 18 is a proclamation delegating to the Attorney General the authority to prescribe more stringent documentary requirements for citizens and aliens entering or leaving the United States. It also specifies the classes of aliens who may pass through U. S. borders and in effect places authority in both the Attorney General and the Secretary of State to regulate the flow of persons into and out of the country.

PRESIDENTIAL EMERGENCY ACTION DOCUMENTS (PEADS)

Reference your letter September 21, 1978, requesting  
a review of PEADS 2, 15, 16, 17, 18, 20 and 21.

The PEADS have been reviewed and the Federal Bureau  
of Investigation (FBI) submits the following observations:

PEAD 15 is a proclamation imposing restraints and  
regulations on alien enemies. Designation of the enemy state  
or states in Sections 101 and 102 is necessary before this  
proclamation can be made.

It appears that "alien enemies" should be clearly  
defined to determine if U. S. persons would be included in  
that definition. "United States person" means a citizen of  
the United States, an alien lawfully admitted for permanent  
residence, an unincorporated association a substantial number  
of members of which are citizens of the United States or  
aliens lawfully admitted for permanent residence, or a corpora-  
tion which is incorporated in the United States. The primary  
agency with responsibility for PEAD 15 is Immigration and  
Naturalization (INS). The FBI's supporting role, if any,  
should be delineated and set forth by the Department of  
Justice (DOJ) for the respective agencies.

PEAD 16 is an Executive Order. It authorizes the  
Secretary of State to institute measures for the protection,  
surveillance, control, and repatriation of certain foreign  
diplomatic, consular, and other official personnel and members  
of their families.

22 NOV 1 1978

The primary responsibility for PEAD 16 is delegated  
to the Department of State with the Department of Defense and  
DOJ designated as supporting agencies. Due to Article 44 of  
The Vienna Convention of Diplomatic Relations, 1961, entered  
into force on April 24, 1964, the following agencies have  
responsibilities:

into force for the United States in 1972, the FBI discontinued its PRODIP program, a contingency plan for the protection and detention of diplomatic personnel following the issuance of a Presidential Executive Order during a national emergency. Therefore, if the DOJ has a supporting role in the execution of PEAD 16, and if the implementation of that role is assigned to the FBI, our responsibility should be addressed and defined; and a contingency plan should be established for "the protection, surveillance, (and) control" of the designated foreign personnel.

The FBI has no comment concerning PEADS 2, 17, 20 and 21.

NOTE:

DOJ requested a review of the PEADS mentioned herein to insure currency and to reflect any changes that may be required. This response was coordinated with SA Charles A. Long, Criminal Investigative Division; SA Irvin B. Wells, III, Intelligence Division; and SA James C. Felix, Legal Counsel Division. Comments contained in this response are from the Intelligence Division. Neither the Criminal Investigative nor Legal Counsel Divisions submitted changes.

FROM :

SUBJECT: ~~PLAN OF ACTION FOR INTERNING~~  
~~ENEMY DIPLOMATIC, CONSULAR~~  
~~UNITED NATIONS AND OFFICIAL~~  
~~PERSONNEL IN THE EVENT OF WAR~~  
~~(PRODIP)~~

PURPOSE: To advise of action being taken by the Department of Justice (DOJ) to determine from the Department of State (DOS) action to be taken by the FBI regarding a Presidential Emergency Action Document (PEAD) in view of the cancellation of the PRODIP program.

DETAILS: DOJ has furnished the Defense Plans Desk a copy of a letter sent to the Emergency Coordinator, DOS, requesting information concerning the present status of PEAD 16, and what specific assistance, if any, the DOS will seek from the FBI or the Immigration and Naturalization Service should it become appropriate and necessary to implement the PEAD. PEAD 16 authorizes the Secretary of State to institute measures for the protection, surveillance, control, and repatriation of certain foreign diplomatic, consular, and other official personnel and members of their families. The FBI PRODIP program was in support of this PEAD. The PRODIP program was cancelled by memorandum  to Mr. W. O. Cregar, 7/14/78, captioned as above. The cancellation was in accordance with DOS instructions that "the plan of action should be closed out and files concerning it be retired or destroyed as you choose."

NOTE: As indicated in the attached DOJ memo, on 12/18/78 the DOJ Emergency Coordinator furnished to the Federal Preparedness Agency (FPA) a critique of the interagency exercise REX-78. On 1/3/79, Mr. Marvin Duncan, DOJ Emergency Coordinator, met with [redacted], Defense Plans Desk, Telecommunications Section, and SA [redacted] Intelligence Division, and requested FBI input regarding the accuracy of the following statement which had been included in the critique to FPA:

"Limitations placed upon the FBI by Executive Order (E.O.) 12036 and the Attorney General's guidelines pursuant thereto preclude the FBI from compiling and maintaining a list of alien enemies who would be subject to apprehension under the PEAD."

(Presidential Emergency Action Document (PEAD) 5 provides for the apprehension and detention of certain alien enemies during a civil defense emergency.)

On 1/5/79, SA [redacted] advised [redacted] that the statement as written in the comment sheet was accurate, and Mr. Duncan was so advised by [redacted] DOJ letter, 1/9/79, subsequently received, requested that the concurrence to the statement be provided in written form so that it could be made a matter of record with DOJ. This letter is in compliance with that request. The above response was coordinated with SA [redacted] Intelligence Division, and has received the concurrence of that Division.
