MAR 25 2011

This is in response to your Freedom of Information Act (FOIA) request of December 13, 2010, requesting a copy of the IRR file: Classified World War II Documents and supplements our letter of January 19, 2011.

To determine the existence of Army intelligence investigative records responsive to your request, a check was made of the automated Defense Central Index of Investigations (DCII). The DCII check disclosed an Army intelligence investigative record pertaining to your subject. The record was processed under the FOIA, is partially releasable and enclosed.

Information has been sanitized from the records that is predominately internal in nature and the disclosure of which would significantly risk circumvention of agency regulations or statutes. This information is exempt from public disclosure provisions of the FOIA pursuant to Title 5 U.S. Code 552(b)(2).

In addition, information has been sanitized from the records as the release of the information would result in an unwarranted invasion of the privacy rights of the individuals concerned, this information is exempt from the public disclosure provisions of the FOIA pursuant to Title 5 U.S. Code 552(b)(6).

The withholding of the information described above constitutes a partial denial of your request. This denial is made on behalf of Major General Mary A. Legere, Commander, U.S. Army Intelligence and Security Command, who is the Initial Denial Authority in this matter under the FOIA. You have the right to appeal this decision to the Secretary of the Army. If you wish to file an appeal, your appeal must be postmarked no later than 60 calendar days from the date of this letter. After the 60-day period, the case may be considered closed; however, such closure does not preclude you from filing litigation in the courts. You should state the basis for your disagreement with the response and provide justification for an additional administrative search to be conducted or reconsideration of the denial. An appeal may not serve as a request for additional or new information. An appeal may only address information denied in this response. Your appeal is to be made to this office to the below listed address for forwarding, as appropriate to the Secretary of the Army, Office of the General Counsel:

Commander
U.S. Army Intelligence and Security Command

5. (U) NARRATIVE:

SOURCES HAD NO OBJECTION TO THE RELEASE OF THEIR IDENTITIES IN CONJUNCTION WITH THIS INCIDENT

a. [REDACTED] On 18 August 1995, CW2 b6 telephoned the Colorado Springs Military Intelligence Detachment and reported that Herold reported that He had possession of Top Secret U.S. Army documents and wished to speak with a representative of the Army. The undersigned interviewed Herold and Kelly at Herold's residence on 21 August concerning the documents.

b. [REDACTED] Upon initial contact, Herold expressed amazement that the Army responded so quickly to his telephone inquiry about the documents with Top Secret markings.

c. [REDACTED] Kelly related that soon after SUBJECT'S death on 21 April 1993, His sister, b6 was going through things at her house and garage attempting to reorganize her life. She told Kelly that while looking through SUBJECT'S personal filing cabinet in the garage, she shockingly came across a large envelope containing papers with Top Secret markings. She telephoned her brother, Kelly for advice about the papers. Kelly suggested she send the papers to Him for review. He eventually received the papers in August 1994, and discovered they may be actual documents related to the D-Day invasion at Normandy, France in 1944. About six months ago Kelly approached His bakery customer, b6 who is a military collectables dealer, about the papers' value. Herold recently obtained the papers from Kelly, in their partnership, for review. Upon discovering they were marked Top Secret, Herold was concerned that they may still contain classified national defense information. Herold contacted 1LT b6 via telephone, who directed him to Mr. b6 who directed him to Dr. Pearce, who directed him to CW2 b6

d. [REDACTED] Herold provided a photocopy of the following papers and showed a video tape He took of a map overlay found with the papers. The map overlay contained a hand drawing of the

southeast coast of Great Britain, the English Channel, and western France. The map overlay, also marked Top Secret, showed the approach corridors for troop carrier (TC) aircraft from Great Britain, across the channel into France, supporting airborne and glider assault operations. Herold described the documents, which He and Kelly did not want to surrender because of the collectors' value, as original manually typed onionskin carbons. The photocopies of the original carbons as provided by Herold are as follows:

(1) ~~Top Secret~~, NEPTUNE-BIGOT, Field Orders Number 1, Hqs, 438th TC Gp, APO 133, U.S. Army, 1900, 1 June 1944, stamped 00010. 1944, stamped 00011. This document consists of two pages containing countersigns for use by the Ninth Air Force outside of the United Kingdom during the first 20 days of Operation NEPTUNE.

e. [REDACTED] Sources, with assistance from other papers and photographs found in SUBJECT's scrapbook, which was provided by Witness with the documents, advised that SUBJECT arrived in Great Britain on 12 October 1944, and was later deployed to France with the 151st Armored Signal Company, 11th Armored Division. SUBJECT took a seven day rest & recuperation leave, processing through R-74, Munich, Germany to the Riviera, France on 19 September 1945. HIS leave orders are from Headquarters, 3325 SIAM Company, APO 403, U.S. Army, dated 18 September 1945, which lists SUBJECT as a Tec 5 (Technician Fifth Grade). Attached to HIS leave orders is a declaration from Headquarters, Third Army, dated 19 September 1945, stating SUBJECT did not have any uncensored or unauthorized classified material in HIS possession. The declaration was suppose to be surrendered to the Security Control Officer at HIS leave destination. Kelly said SUBJECT was a pack-rat, meaning that HE kept unnecessary items. Kelly further advised that SUBJECT never talked about HIS war experiences. No other papers, including HIS discharge documents, listed the 3325th SIAM Company. One certificate found with HIS belongings indicates HE completed French language training.

f. (U) Sources requested a review of the documents by competent authority for current classification. Sources acknowledged that they wish to profit from the sale of the these original documents to a collector, but only if the documents are determined to be unclassified and of no threat to the national security.

6. (U) ACTIONS TAKEN: Due to the age of the information contained in the documents, over 51 years, and the successful execution of the invasion plan outlined in the documents, common sense dictated that the photocopies be control as ~~Secret~~ information in accordance with AR 380-5 until otherwise directed. No military nor local agency checks were conducted.

7. [REDACTED] COMMENTS: Recommend this incident be opened as a Category VI (DSC) based upon the allegation that SUBJECT, a former U.S. Army soldier, deliberately and without authorization, possessed national defense information, and that the investigation be closed after completion of national agency checks. Sources executed IA Form 106, Privacy Act of 1974 Advisement

Statements. Sources provided a photocopy of the documents described above, a photocopy of SUBJECT'S WD AGO (War Department Adjutant General's Office) Form 53-55, Enlisted Record and Report of Separation Honorable Discharge, dated 6 March 1946, and a photocopy of SUBJECT'S Army of the United States Honorable Discharge certificate, dated 6 March 1946. The marks and scribbling on the photocopies of the Top Secret documents are Sources' attempts to negate the collector value of the copies. The video tape shown by Sources was of Annex 3 to FO 1, Route Overlay. Sources did not provide a photocopy of Annex 5 to FO 1, Glider Release and Landing Plan, which was missing from the originals, nor a video copy or photocopy of Annex 3 to FO 1. As expected, there are no markings for classification authority nor downgrading instructions, nor paragraph markings on the documents photocopies provided by Sources. Based upon a detailed review by the undersigned, using guidance from AR 380-5 and DoD 5200.1-H, the documents revealed no information which would provide a foreign nation insight into the war potential, plans or posture of the U.S.; allow a foreign nation to develop, improve, or refine their war potential; provide a foreign nation a base upon which to develop effective countermeasures; nor weaken or nullify the effectiveness of a defense or military plan, operation, project, or activity that is vital to the national defense. It is strongly recommended the documents be certified unclassified and a certification letter from the Department of the Army be provided to Sources. Of interest is HIS discharge certificate from Camp Beale, California, which is signed by [redacted] b6 Major, MI. Neither Source had any idea how or when SUBJECT may have obtained the documents. Unexplained abbreviations in this report are as they appear in the found documents. Request common sense guidance concerning the transmission of these ~~Top Secret~~ marked documents as Exhibits with the original signature report. Registered U.S. mail is the recommended means.
