That sounds fine. I will make sure he has access to the documents in NSIR's possession. Would it be ok if, as part of this process, the documents were returned to SECY? When we eventually begin reviewing your documents for declassification, I think it will be easier to track if they were all with you at the start.

Sam,

We'd like the documents that NSIR has for declassification review included in the inventory. Some of those documents are from the first couple of safes that we're having Evan start with. Can we coordinate so that the documents get inventoried with the safes they were pulled from?

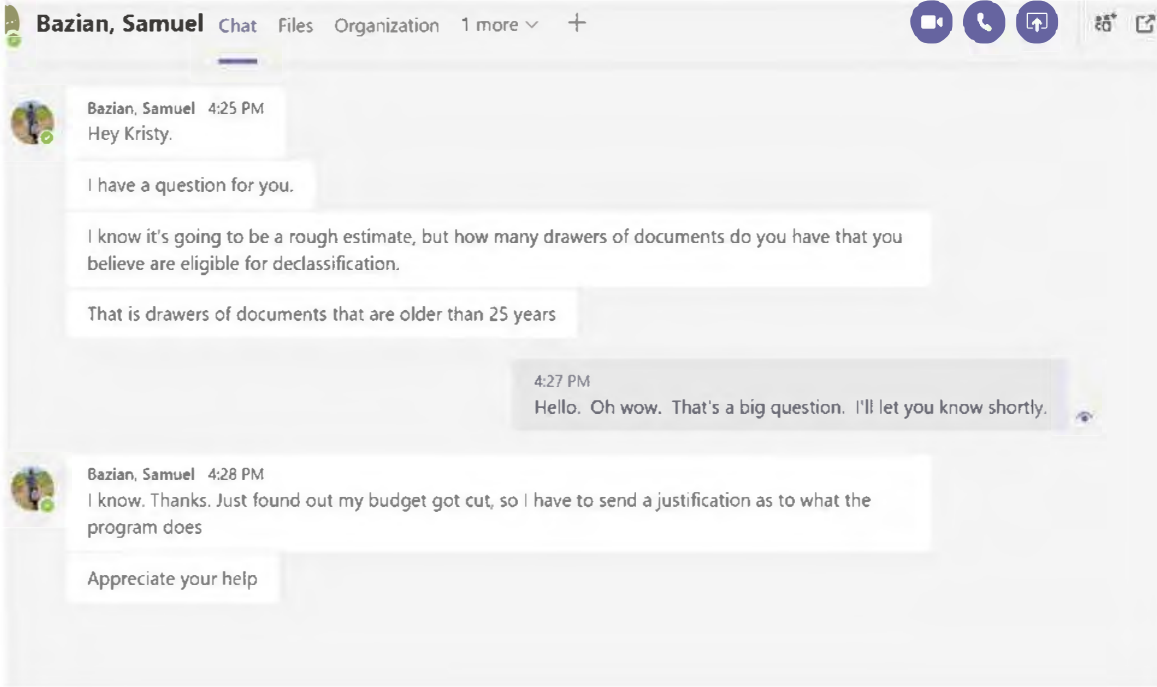

We're happy to discuss this with you.

We will definitely have a meeting with you prior to us starting the review process. I don't anticipate us being ready for you until sometime late next year.

Hi Sam,

That week looks ok. From the looks of it, you are not available until after Wed. afternoon – Thursday COB only. Should we look to the week of the 21st too?

This is what we want to discuss during the meeting:

- Updating index in SCIF (updating records locations).
- NSIR review of SECY records.
- Steps once a record is declassified.
- Steps if a record is still classified.

I may be missing some items above. We plan not to discuss any classified information during the meeting so I think this meeting can be done over Teams. It's just to go over process questions. Also, with the discussions above, should I also invite Darryl and someone from the SCIF? Also, Brooke wants me to add her as an optional attendee.

Let me know.

Thanks,

Hello,

I received a call from Sherman re: the declassification review of SECY's classified records. He mentioned that they would be completing OCIO's records at the end of the week and would like to start SECY's next week. |

explained that all the details have not been discussed and at this time and I'm not sure that we (SECY) are ready.

SECY still needs to update the classified spreadsheet (list) that shows where the records locations, and I'm guess the reviewers would need that. He also started asking me questions about (b)(5)]
(b)(5) I don't recall if we have discussed any of that and if we need to as that may be internal processes for the reviewers.

Sam or Darryl, can I call you to discuss please?

Thanks,

Kristy

I'm sure more questions will come up in the review and we can discuss more then.

Good afternoon Kristy,

(b)(7)(F) Prior to leaving Sherman Fivozinsky had asked your office regarding the availability of the SECY boxes currently being held in OCIO vault on the [REDACTED] floor (I believe). I was hoping to get an update on when they are likely going to become available for reviewing. Currently, the declassification team is reviewing re-boxed material and we will reach a point where we will need to begin reviewing those boxes.

If there is anything you need from me, please let me know. I thank you for looking into this.

I was under the impression that NSIR was still reviewing and declassifying OCIO documents and once done, NSIR would start the declassification review on SECY safe contents that Evan inventoried. We had mentioned in the last meeting with you that SECY was sending the safe contents to the FRC and when needed for declassification review, SECY would request the boxes back which will take 5-10 business days.

Did something change?

Hi Kristy,
Just a quick thought. I know the SECY documents that Evan inventoried are being boxed for transfer to FRC. I assume the inventory is being modified to show the new locations of those documents ???

Hello,

Bruce Greinke just reached out and asked for an update and when our records are available for review. I mentioned that we are working with NSIR on a review plan. Do you all have a status update?

If another meeting is needed, please let me know and I can set it up.

Thanks,

All,

Sam called me and discussed. No worries for now but we will need to discuss in January. He is going to check with Johnathan and get back to us re: SECY staff access to update the spreadsheet.

Also, he asked me if there was any official guidance or (b)(5) reviewing declassification of records? SECY had mentioned it in the last meeting we had with NSIR and he was following up.

Thanks,

Kristy

Hello,

I received a call from Sherman re: the declassification review of SECY's classified records. He mentioned that they would be completing OCIO's records at the end of the week and would like to start SECY's next week. I explained that all the details have not been discussed and at this time and I'm not sure that we (SECY) are ready.

SECY still needs to update the classified spreadsheet (list) that shows where the records locations, and I'm guess the reviewers would need that. He also started asking me questions about (b)(5)

(b)(5) I don't recall if we have discussed any of that and if we need to as that may be internal processes for the reviewers.

Sam or Darryl, can I call you to discuss please?

Thanks,

Kristy

Hi Darryl,

I apologize for the late reply. I did discuss with Sam over a call back on 12/20. I believe Sam was going to check with Johnathan and get back to us re: SECY staff access to update the spreadsheet in the SCIF. SECY has yet to discuss updating but it is on our list of things to do. I believe Sherman's group had other items to work on.

Thanks,
