FOIA 2011-4159

June 27, 2011

Re: FOIA Logs

I am responding to your Freedom of Information Act (FOIA) request dated April 28, 2011, concerning the above-captioned subject. Pursuant to your request, I am enclosing a copy of the agency's FOIA logs from October 1, 2010, through the date of your request. The FOIA log is being provided in the format you requested and contains the name of the requester, his/her affiliation and the request description.

Over 93% of our annual requests involve access to pension plan participant data. The PBGC usually receives first-party and third-party Privacy Act requests, but as you know, agencies are required to also process Privacy Act requests in accordance with the FOIA to ensure the widest range of disclosure. In third-party Privacy Act requests, we enter and maintain the participants' names in the request description field because the participant is generally the subject of these types of requests and therefore request queries are conducted using the participant's name. Unlike FOIA and Privacy Act requesters' names, PBGC participants have an expectation of privacy, in third-party requests, and we have worked to ensure their names and personally identifiable information (PII) are protected and not inadvertently disclosed. As a result, we have also removed the individual participants' names and inserted the word "Participant" in the first and last name field where we have determined the request was submitted by a plan participant for their record. This will assure no breach of participant information, to wit: participant name and pension plan will result from disclosure of this log.

PBGC expended several hours reviewing the FOIA log and making deletions in order to protect the aforementioned PII. There is no charge and all fees have been waived.

If you have any questions, please contact me at 202-326-4040.

Sincerely,

E. William FitzGerald  
Disclosure Officer

Enclosure
