WAR PLANS -

PERSONAL ATTENTION

FALL - WINTER RELOCATION TEST

Auxiliary space For S.O.G.

The Attorney General has indicated that he will call a surprise Department-wide Fall-Winter relocation test sometime during the week of 12/5/55. Inasmuch as this test is to be a surprise, the Bureau has not been informed of the exact time on which it is to take place. However, your office will be notified of this test at the same time that Bureau personnel are given notification thereof.

Upon receipt of notification of the test, you will designate the necessary employees to represent your office at your relocation site. The Bureau plans to test the direct line from [redacted] to [redacted] and is desirous of your testing the teletype installation maintained at [redacted]. Therefore, the personnel selected should be proficient in the operation of the teletype and be able to carry out Bureau instructions as they are received by teletype or telephone.

b7E

Messages to and from your relocation site will not be coded; therefore, there is no need for you to take cryptographic materials to your site during this test. The test will consist of a minimum of hours of activity at the relocation site and may extend over a two-day period. On the day of the test the personnel at your relocation site should contact the Bureau relocation site as soon as your site is operational. The Bureau site should also be advised when you terminate activity at your site.

Appropriate plans should be made at an early date to fulfill your obligation in connection with this relocation test.

MEMORANDUM FOR MR. TOLSON  
MR. BOARDMAN  
MR. BELMONT  
MR. NICHOLS

On November 9, 1955, at 11:30 AM, I attended a conference in the Attorney General's office at which were present the Attorney General, Deputy Attorney General Rogers, Assistant Attorney General Tompkins, Mr. Yeagley, of Mr. Tompkins' Division, and myself.

I am attaching hereto a copy of a memorandum addressed by Mr. Yeagley to the Attorney General dated November 7, 1955, which Mr. Yeagley handed to me just before I went into this conference with the Attorney General.

The Attorney General was advised that the memorandum referred to above had been sent to him from Mr. Tompkins' Division and I also advised the Attorney General that a memorandum had been sent to him from the Bureau dealing with some of the questions which he had raised to be discussed at this particular meeting. The Attorney General indicated that he had not yet had an opportunity to read either of the two memorandums and for that reason felt that he would have to familiarize himself with them and would call a meeting on November 21, to discuss in detail some of these problems.

b7E

The Attorney General then stated that as regards the forthcoming tests for relocation headquarters, it was his plan to hold this test on December 8, and that it was proposed that the test be on December 8 and that the personnel going to the relocation headquarters would remain over that night and into December 9.

as it was on the last test and the FBI will be relocated at [redacted] as it was on the last test.

The Attorney General stressed the fact that this was to be a surprise test and that the date of it should be known only to the limited number of persons necessary to direct the operation of the same.

Messrs. Tolson, Boardman, Belmont, Nichols  
November 14, 1955

The Attorney General indicated that a [redacted] it was [redacted] b7E  
his intention to brief all key personnel of the Department as to the  
contents of the Portfolio. I advised the Attorney General that as regards  
the FBI's operations at [redacted] we had a number of problems already  
worked out and our program was pretty well certain as to the tests we  
would make.

The Attorney General inquired of me as to the desirability  
of having some ranking official of the Bureau at [redacted] on this  
next test in view of the discussion to be held concerning the Portfolio. b7E  
I told the Attorney General I thought it would be desirable to have  
someone able to speak for the Bureau upon this matter, as the Liaison  
Agent would not be so qualified. I desire that Mr. Belmont arrange to  
be a [redacted] during the relocation test on December 8, to  
represent the Bureau in all matters that may be necessary for discussion  
with Departmental representatives at that time. Mr. Belmont will  
arrange to have someone designated to take his place at [redacted] so  
that our operations there will move smoothly and without any difficulty.

There was some general discussion about the [redacted] b7E  
[redacted] case and I outlined briefly for the Attorney General's  
information exactly what had taken place chronologically in those cases.

There was then a discussion as to the standards of [redacted]

[redacted]

b7D  
b7E

There was then a discussion on the matter of examination  
of diplomatic baggage and I pointed out to the Attorney General the status

Messrs. Tolson, Boardman, Belmont, Nichols  
November 14, 1955

of this study insofar as the FBI was concerned and the difficulties which we experienced technically at the ports of entry in that even though the devices indicate radioactive materials, there is no basis for examination of such baggage in view of the diplomatic immunity prevailing.

I also brought up the matter of the employment in our embassies abroad of nationals of those countries in which the embassies are located and cited to the Attorney General the table of comparison between the number of nationals and aliens employed by the United States in its missions abroad and the number employed by the embassies of foreign governments here.

I also called attention to the matter of examination of property occupied by the United States abroad which almost universally prevails in the Soviet bloc countries because of our inability to buy property there and the necessity for us to lease it, either from the Soviet bloc government or private individuals. I pointed out to the Attorney General that these problems, however, were all matters involving high policy within the State Department and that he might wish to take up such matters with the Secretary of State.

Very truly yours,

John Edgar Hoover  
Director

Dear [REDACTED]

Reference is made to your letter of November 4, 1955, directed to Mr. John P. Mohr, Assistant Director, of the Administrative Division of this Bureau, wherein you advise of the possibility of your Corporation constructing a Records Security plant in the Washington area.

With reference to your inquiry as to whether this Bureau would be interested in an underground installation of this type, you are advised that the Federal Bureau of Investigation has no funds provided in its appropriation to defray an expenditure of this nature.

I appreciate your interest in advising this Bureau of the procedures instituted by the Records Reserve Corporation in preserving vital records in the event of a disaster. Should we desire further information at a later date, I shall communicate with you.

Sincerely yours,

John Edgar Hoover  
Director

SUBJECT: RELOCATION MESSAGE FORM

0 Bureau War Plans Auxiliary space Form 0-9

During Operation Alert 1955 the Bureau's message form 0-9 was used to type up the original draft of outgoing teletype and radio messages. The 0-9 form is satisfactory for intra-Bureau use, however, it is not adequate or satisfactory for inter-Bureau use at [redacted] because it does not set out certain elements which are necessary or are selective components of emergency inter-agency communications such as:

1. Time as well as date of origin
2. Security classification
3. Precedence

30 PM '55  
b7E  
HARBO

*[Handwritten signatures and initials]*

Attached is a rough draft of a suggested relocation message form which will allow all the required elements of FBI inter-agency or intra-agency messages to be filled in or checked. The form is suitable for messages to be sent via teletype, radio, telegram and as air-tels.

It is suggested that the form be printed in three parts, i.e. a green bond original, a yellow manifold file copy and a white manifold tickler copy in order that the file [redacted] and tickler copies will reflect all information contained on the original (green).

[redacted] is available to the Bureau for emergency inter-agency use. A sample is attached. The disadvantages of the [redacted] form are:

1. It is available only in white bond duplicate
2. It is cluttered up with spaces and blocks for elements not required in FBI messages.

Referral/Consult

RECOMMENDATIONS:

(1) That the attached relocation message form be approved for printing in three parts, i.e. original green bond, yellow manifold file copy and white manifold tickler copy. **66-17381-1237**

RECORDED - 8

INDEXED - 8

EX-126

10 NOV 22 1955

Sec. 19- FDPS Pg. 95

(2) That 500 of each of the three parts of the form be printed and furnished to the Communications Section for use in the next relocation test on a trial basis before a regular supply is ordered for storage at [redacted]. A requisition is attached.

1. In order to handle filing, messenger, and related duties at the evacuation point, it is planned to take the following listed Records Section employees:

O. George Medler - Agent in Charge  
 V. Fay Richardson - Point of Operations  
 Ralph Kelly - Messenger  
 Gerald Perry - Messenger

2. Courier Service, necessary for the transporting of material to and from the evacuation point, has been set up according to the following schedule. All trips will leave the Bureau, Room 1541.

	<u>GUARD</u>	<u>LEAVE</u>	<u>RETURN</u>
First Day	SA Healy, J. A.	1 hr. following alert	2 hrs. & 30 min. after alert
	SA Moore, Charles	(Tentative trip)	
		7:00 p.m.	8:30 p.m.
Second Day	SA Jennings, E. L.	8:00 a.m.	9:30 a.m.
	SA Hudson, F. L.	11:30 a.m.	1:00 p.m.
	SA Suttler, B. M.	2:30 p.m.	4:00 p.m.

b7E

3. Immediately upon arrival at the evacuation point the Records Section headquarters will be set up in [ ] and regularly scheduled messenger runs manned by two male employees will go into operation. In view of the modified arrangements for this test, only three Records Section employees are being utilized in addition to the Agent in Charge.

4. In the event files are to be moved from the Bureau to the evacuation point for use by the Domestic Intelligence Division, they will, of course, be appropriately logged out of the Bureau and into the evacuation point. "Loose mail" traveling between the Bureau and the evacuation point will be transported in sealed envelopes and delivered directly to the interested official.

Mr. John C. Althoff  
Relocation Coordinator  
Department of Justice

November 10, 1955

Director, FBI

BUREAU WAR PLANS - COMMUNICATIONS

This will confirm the oral agreement previously arrived at between Immigration and Naturalization Service Chief Radio Technician, Mr. Roy Vello, and our Chief of Communications, Mr. E. E. Morry, Jr., relative to radio communications between the relocation site of the Department of Justice and the relocation site of the FBI.

I have been advised that the tactical radio call signs will be FIO 1 and FIO 3 for the INS and FBI stations respectively; that the daytime frequency will be 4017.5 KCS with alternate frequency 3012 KCS, and the nighttime frequency will be 3022 KCS; that the code numbers of these frequencies will be the letters O, Q and L respectively; that standard radio Q-signals will be used in these radio contacts.

In addition, the headings of the radio messages will consist of a radio serial number, an origin indicator (HH for the FBI and QQ for the Department), a QRP-date-time group and a message group count. For example -

HH 1 HH 141800 Q2 51

would indicate message number one from the FBI to the Department, originated on the fourteenth day of the month at 1800 QRP (Greenwich Mean Time) and consisting of a text of fifty-one code groups.

All radio calls coming from the Department to the FBI during the forthcoming relocation test and in an actual emergency will be answered by the main radio receiving station of the FBI and messages relayed by this station by appropriate means to the FBI relocation site.

FBI AUTOMATIC DECLASSIFICATION GUIDE  
DATE 05-24-2012

MEMORANDUM

SUBJECT: ~~X~~ Communications Center Layout Plans

1. The purpose of this memorandum is to assist Governmental Agency Communications Officers and other personnel in establishing Communication Centers at their Relocation Sites. The information is only intended as a guide and is not mandatory. Local conditions such as space, mission, etc will dictate actual Agency layouts.

2. The efficiency of a Communications Center is not just dependent upon having the sufficient number of the proper type(s) of equipment. The layout or floor plan is equally important to the easy processing and flow of message traffic through the center. Communications Center layouts must be based on the following principles:

- a. Uninterrupted traffic flow without needless handling of "logging" and other processing.
- b. Economy of movement must be obtained. Eliminate all waste and unnecessary movement and travel.
- c. Equipment should be so placed as to permit easy maintenance.
- d. The Message Center Section, Cryptographic Center Section and Teletypewriter (means) Section must be near to each other and in a logical position to secure a good process and flow pattern.

e. Future expansion should be allowed for.

3. The floor plan on Attachment 1 provides for three rooms:

- a. The Message Center. All traffic is registered "in and out" prepared for delivery, receipted for, filed, etc.
- b. Teletype Operations. Here messages are received and transmitted.
- c. The Crypto Center. Here encryption and decryption is accomplished.

4. The separation of the above "Centers" is not necessary but is essential to good operations for the following reasons:

- a. Personnel are "insulated" against outside noise.

SIGAC

SUBJECT: Communications Center Layout Plans

1 September 1955

- b. Better security control is provided.
- c. Not all personnel other than cryptographers need have Top Secret or Secret clearances.

5. The crypto center security requirements, pages 2 and 3 are minimum. Full and complete information may be obtained by contacting the National Security Agency.

6. The pasting table shown in the crypto center layout, Attachment 1, is used by cypher clerks to paste gummed tape strips on message forms for easier transcribing. A slanting top at "stand up" height is recommended. A "drafting table" is an excellent substitute, if one is available. Attachment 2 gives recommended dimensions of a pasting table.

7. CRYPTOCENTER REQUIREMENTS:

A secure space must be provided in which to operate and store cryptographic material.

a. Construction

- (1) The walls, floor and ceiling must be substantial.
- (2) The door(s) must be of substantial material and:
  - a. With a secure lock.
  - b. Constructed so as to provide a means of identifying personnel seeking entry without opening or without completely unlocking the door. A "peep hole" or chain or both will satisfy this requirement.
  - c. A means of preventing forced entry must be provided.
  - d. The entrance must be so screened as to prevent viewing the inside, from the outside, with the door open.
  - e. A "sign in and out" register to be signed by all personnel.
  - f. All windows must be so screened as to prevent viewing of the interior from any exterior point.
  - g. A three combination safe shall be provided to store equipment and material when not in use. Weight must preclude "walking off" with the safe or it must be securely fastened to the building.

~~FOR OFFICIAL USE ONLY~~

SIGAC

~~FOR OFFICIAL USE ONLY~~  
SUBJECT: Communications Center Layout Plans

1 September 1955

b. If the above cannot be met, an armed guard must be provided at all times. If operating personnel are armed and qualified in the use of their firearms, an armed guard need not be present during Duty Hours.

8. The floor plan as outlined on Attachment 1 eliminates as much time and motion as possible. However, two, and one-room arrangements can be equally good. The area designated "ON LINE" shows all space including that required for operating the equipment. The machines are usually arranged in a  The arrangement eliminates much operator movement. b7E

9. Legend of Drawing: (Attachment 1)

SCALE	= 1 Inch = 1 foot (approximate)
TOTAL AREA	= 896 square feet
CRYPTO ROOM AREA	= 448 square feet
TELETYPE OPERATIONS	= 256 square feet
MESSAGE CENTER	= 192 square feet

Auxiliary space For S.O.G.

Attached is an SAC Letter alerting the field to the forthcoming relocation test. Detailed memorandum relative to Seat of Government plans for this test is being prepared. The field cannot be advised of the exact date of this test; however, the SAC Letter alerts them for the week of December 5, 1955. Assistant Director Mohr has advised that no action is being taken to cancel previously approved annual leave for any SAC or ASAC.

Since this is essentially a communications test it is believed that the test problems can be handled by either the SAC or the ASAC and the last paragraph of the SAC Letter so instructs. To instruct the SAC to handle all problems personally would require him to cancel all commitments during the week of December 5, 1955. We could, of course, start the alert in the field on December 7, 1955, but this would require each SAC to cancel all commitments for the remaining three days. Under existing circumstances it is believed that it would to the best interest of the Bureau to permit these communications tests to be handled by the SAC or ASAC.

RECOMMENDATION:

That the attached SAC Letter go forth. *OK*

WAR PLANS - SECURE COMMUNICATION  
BETWEEN DEPARTMENT AND BUREAU  
RELOCATION SITES

b7E

Attached is a sealed envelope containing two copies, No. 2 and No. 3, of a special [redacted] "Practice Month #1," for encryption of messages between the Department and the FBI during the forthcoming Department-wide Fall-Winter Relocation Test.

*Delivered  
personally to  
Airhart  
10/25/55  
JAH*

This material should be placed in the custody and control of the Department's Cryptographic Custodian. Physical security requirements and operating instructions are identical with those prescribed in attachment to FBI memorandum dated November 17, 1955, forwarding emergency reserve key lists to you.

Receipt should be acknowledged promptly in writing, listing serial numbers of each key list received.

Upon completion of the Fall-Winter Relocation Test, these two key lists are to be burned by cryptocleared personnel and the FBI notified of this destruction.

Enclosures - 2

ADDENDUM FOR YELLOW:

Attached copies of key list supplement the three months' supply of [redacted] furnished the Department 11/17/55. They will be used for practice transmissions during forthcoming Department-wide Fall-Winter Relocation Test, thereby reserving [redacted] furnished 11/17/55 for actual emergency needs.

b7E

Upon approval, this memorandum and attachment, for security reasons, should be delivered personally to Mr. JOHN AIRHART.

Two copies of attached [redacted] also forwarded separately to [redacted] and one copy to Mr. WHERREY, SOG Code Room.

To insure that all personnel participating in captioned exercise are familiar with what will be expected of them in connection with their participation, the following is being set forth:

This is to be a surprise relocation test. It will be called by the Attorney General sometime during the week of December 5, 1955, the exact time is unknown. We will be required to remain at the relocation site overnight, returning to headquarters city sometime during the second day of the test. Although there are no auxiliary articles of clothing retained at the relocation site, there is an ample supply of towels, soap and bedding. [ ] has advised that arrangements can be made to obtain cosmetics and toilet articles locally, if needed. b7E

Meals will be served in the dining room in the [ ] *McGill*

Breakfast - 7 a.m. to 9 a.m.

Lunch - 12 noon to 2 p.m.

Dinner - 6 p.m. to 8 p.m.

There will be a midnight lunch for those whose services will require them to remain on duty during the night. Breakfast will be \$1.10; lunch, dinner and midnight lunch, \$1.35 each. All employees will be entitled to collect \$4.80 per day per diem, less 96¢ per night for lodging furnished by the Government. *gr*

Sleeping accommodations are available for all individuals remaining overnight.

Specific room assignments are attached.

All employees participating in this test will be expected to remain on duty as long as their services are needed, inasmuch as this is only a 24-hour operation. All employees should be impressed with the seriousness of the operation, and will be expected to refrain from frivolity.

RECORDED - 72

Bureau War Plans - Relocation Space For S.O.G.

Memorandum for Mr. L. V. Boardman

In the event a Division head feels there will be insufficient work in connection with the test operation to keep all employees of his division busy while they are on duty, additional work should be taken from the Seat of Government. Each employee should know where to go when they arrive at [ ] and be thoroughly familiar with what is expected of them while there. Courier Service will be available between the Bureau and [ ]

It is the Bureau's desire that families of those employees participating in the test refrain from visiting the employees at [ ] during the period of the test. However, there is no objection to participating employees advising the immediate adult dependents of their family that they will be at the relocation site for one night during the week of December 5, 1955, and, in case of an emergency, they can be contacted by calling the individual in charge of the employees Division at Seat of Government who will arrange for the employees in question to contact their dependents. b7E

Each employee, on arrival at the relocation site, will sign an appropriate register and will sign out on this same register on return to Washington. In addition, each employee will be required to sign a divisional sign-in-sign-out register, just as is done at Seat of Government, and it will be the responsibility of the head of each division at [ ] to call the time and attendance clerk at Seat of Government on the morning of the second day at [ ] to make certain that time and attendance cards are kept current in each division.

RECOMMENDATION:

That each official receiving a copy of this memorandum appropriately instruct the personnel under his supervision who are to take part in this exercise.

John Airhart, Departmental Relocation Coordinator, telephonically advised Special Agent McArdle of the Liaison Section on November 17, 1955, that the Attorney General's conference originally scheduled for November 21 has been postponed to November 29 since the Attorney General has to be at Camp David on November 21. Airhart advised that a letter will come from the Attorney General confirming this change in dates.

Airhart also advised that the Department will inform Office of Defense Mobilization (ODM) of the date of the forthcoming Fall-Winter Test but that he is of the opinion that inasmuch as the Bureau now has direct liaison with ODM that the Bureau should arrange for an ODM inspector during the forthcoming test and that the Bureau should inform ODM that we plan to test our microwave circuit from the Bureau relocation site to the [redacted] as well as any other equipment linking the two sites which the Signal Corps has been able to install by the time of the test.

During Operation Alert, 1955, Mr. William Boleyn of the Bureau of the Budget represented ODM as their inspector at the FBI relocation site. Mr. Boleyn's inspection was most favorable to the Bureau and it is believed that efforts should be made to obtain his services for the forthcoming test.

RECOMMENDATIONS:

1. That Liaison advise ODM that the Attorney General will make known to that agency the date on which the Department and the FBI will carry out the Fall-Winter Relocation Test and that during the course of this test the FBI will want to test all communications facilities connecting the FBI relocation site and the [redacted] This includes the FBI microwave circuit.

11-29-55  
Innes Harris, O.D.M. was  
advised re: above.

OFFICE WAR PLANS - AUXILIARY SPACE FOR S.O.G.

Memorandum for Mr. Belmont

2. That ODM be advised that this Bureau would appreciate advanced information as to the identity of the inspector whom they will assign to inspect the FBI operations during the course of the forthcoming test. That from the Bureau's standpoint Mr. William Boleyn of the Bureau of the Budget would prove most satisfactory.

11-29-55

Innes Harris, O.D.M. advised that ODM had expected to advise the agencies before this as to which Inspector will accompany; that for continuity ODM is trying to assign the same Inspector as before. Harris was told Boleyn would be most satisfactory.

The Attorney General by memorandum to the Director 11/3/55 announced a conference for 2:30 p.m. on Thursday, 11/10/55, to discuss the Portfolio and the question of martial law during an emergency. The following is being submitted for the Director's information in the event the Fall - Winter Relocation Test is brought up during the Attorney General's conference.

Referral/Consult

Departmental Activity:

On 10/12/55 Mr. John Airhart, Departmental Relocation Coordinator, orally advised that the Attorney General planned to call a Department-wide Fall - Winter Relocation Test sometime between 11/15 and 12/1/55. We were advised 10/21/55 that Assistant Attorney General Andretta had brought up the legality of spending funds for relocation and the Attorney General indicated he might take this problem up

Memorandum Belmont to Boardman

at Cabinet level. Further, on 10/25/55 Airhart orally advised that as a result of Mr. Andretta's objection, the test originally planned would be postponed pending a decision by the Attorney General. To date no further word has been received regarding a rescheduling of this test.

Basic FBI Plan:

Notwithstanding the above confusion we have gone ahead with a basic plan for this relocation test which is outlined as follows:

A. Alert and Notification

The alert will, in all probability, be called by the Attorney General. If received by the Director rather than Mr. Belmont, the Director may want to notify Mr. Belmont so that Mr. Belmont may put the previously approved notification plan into operation. This is the same plan we used for Operation Alert 1955. We do not plan to notify anyone in the Department since the alert in this instance will emanate from the Attorney General.

B. Assembly and Evacuation

All 184 individuals scheduled for immediate relocation will assemble and be checked off in the 1500 corridor. Those scheduled to relocate during this test will be directed to transportation, all other individuals will immediately return to their normal duties. We will use such Bureau cars, buses, and personally-owned cars as are immediately available to get the necessary personnel to [redacted] b7E

We will record the time it takes to complete the alert. [redacted] get the evacuees out of the building, [redacted] and thereafter become operational. This time element may be important since the ODM guide lines for this test assume that there will be a 2-4 hour warning period from the instant the alert is announced until a hypothetical bomb is detonated.

C. Participating Personnel

We will use only a minimum staff, approximately 35 or 40. Inasmuch as this will be primarily a communications test a majority

Memorandum Belmont to Boardman

Henrich of the participants will be communications personnel. The Communications Section has indicated they will need 17 employees. Mr. Belmont, 5 Supervisors, and the necessary clerical personnel will be taken from the Domestic Intelligence Division. It is suggested that Mr. Mohr be among those present to assist the Inspector who will be assigned by ODM. Laboratory Division will be represented by at least one person from the Cryptographic Section and two from the Radio and Electrical Section, as well as the necessary front office personnel. Mr. Nichols' office will also be represented to take over-all charge of the communications operations.

Liaison Agent Jerome J. Daunt will accompany the Department to [redacted] We do not contemplate other Liaison Agents leaving the city during this particular test since we have<sup>b7E</sup> no knowledge of other agencies conducting their relocation test at the same time.

It is difficult to know how many employees we will actually need until the Attorney General makes a determination as to what type and how extensive a test is desired. This becomes significant insofar as a testing of the communications equipment between the two relocation sites is concerned.

D. Proposed Communications Tests

We have drawn up 12 tentative problems designed to test our emergency radio, telephone, teletype, and microwave equipment. These problems will require at least one contact with all field offices sometime during the 8-hour period. [redacted] radio will be used insofar as possible to contact distant offices whereas telephone and teletype will be used to contact all other offices. All radio and teletype messages will be coded. <sup>b7E</sup>

The [redacted] and [redacted] direct lines will be tested. With the exception of the Washington Field Office (WFO) all field offices will be contacted at their normal headquarters. WFO will send two representatives to [redacted] for this test in order to test the direct line and the teletype machine at [redacted] If we are at the relocation site at 12:45 p.m. E.S.T., we will take advantage of a normal working day procedure and send out an all field division radio broadcast. This broadcast will cover all but 13 western offices and these 13 offices will be contacted by a similar broadcast from the [redacted] radio station at 3:45 p.m. E.S.T.

Memorandum Belmont to Boardman

If we are at the relocation site after normal working hours, 10 offices will be contacted and instructed to make an actual availability check of all Agents in headquarters city. Each office will report the time required to complete this check and the Bureau relocation site advised.

We will, of course, test all the telephone, radio, and teletype communications equipment installed and ready to be used between [redacted] using coded messages when teletype and radio are employed. Both the telephone and teletype aspects of the microwave system link between [redacted] communications center will be thoroughly tested. b7E

OBSERVATIONS:

(1) The over-all timing of this test is very much up in the air.

(2) We feel it would be most economical to sound the alarm at the beginning of a working day, proceed to the relocation site, carry out the 8-hour test, and return to the Seat of Government that night. However, there are indications that the Department will plan the test over a 2-day period by sounding the alarm at midday or shortly thereafter, proceed to the emergency site, carry out the test for the balance of the workday, spend the night at the site and complete the 8-hour period the following day.

(3) The dining facilities at [redacted] will be closed down from 12/9/55 to 1/11/56. [redacted] has advised the caterer would reopen if requested to do so. b7E

(4) We feel we have gone about as far as we can in our planning until more definite information is received from the Department.

ACTION:

(1) For the Director's use at the Attorney General's conference on 11/10/55 if the question of the Fall - Winter Relocation Test is brought up.

*Memorandum Belmont to Boardman*

(2) *As soon as the Department reaches a decision in this matter we will complete the details of our planning for this test.*

*7-4*

*2/12*

TO: Mr. Tolson

Date: November 28, 1955

FROM: L. E. Nichols

At 4:43 p.m. today Rob Minor of the Department called my office referring to the memorandum written by the Director to the Attorney General dated November 17th concerning the conference to be held in the Attorney General's Office on Martial Law at 4:00 p.m. November 29th. In this memorandum the Director advised that he would not be in attendance at the conference as he expected to be in New York and that there were no matters undecided which affected the FBI in connection with Martial Law.

Minor advised that the AG was sending a memorandum through tonight asking the Director to designate someone to represent him at this conference tomorrow afternoon in order to discuss the Portfolio. This will, of course, tie in with the discussion of the Portfolio which will be taken up at the relocation exercises early in December. Mr. Belmont has been designated by the Director to represent the Bureau during the relocation exercises wherein the Portfolio will be discussed. After checking with Mr. Belmont, Mr. Minor was advised that Mr. Belmont would represent the Bureau in the meeting to be held in the Attorney General's Office at 4:00 p.m. tomorrow.

Portfolio and Martial Law

The Attorney General by memorandum 11/16/55 advised that a conference scheduled in his office for Monday, 11/21/55, was rescheduled for Tuesday, 11/29/55, at 4:00 P.M., for the purpose of discussing the Portfolio and martial law. The attached material has been prepared for the Director's use in the event he attends the conference on 11/29/55 and concerns the revised Portfolio and the martial law question. It is noted that the Director's memorandum of 11/14/55 states that a general discussion was had relative to the revised Portfolio in the office of the Attorney General on 11/10/55 and the Attorney General directed that unresolved items in connection with the Portfolio be resolved by Mr. Rankin at an early date. The martial law question was commented upon and the Attorney General directed Mr. Rankin to meet with Department of Defense representatives and endeavor to reach an early decision upon the matter.

Relocation Test

The Fall-Winter relocation test is scheduled to be held 12/8-9/55. In accordance with the Director's instructions, Mr. Belmont will go to [ ] to participate in the discussion concerning the Portfolio. Inspector Heinrich will go to [ ] during the alert test to supervise the Bureau's relocation activities there. We have previously submitted by memorandum 11/5/55 an outline (attached) for this forthcoming alert test. We are drawing up detailed plans and will submit them for the Director's approval prior to the test.

Attorney General's Conference to be Held on 11/29/55

The Attorney General's memorandum of 11/16/55 noted that the conference of 11/29/55 at 4:00 P.M. will relate to the Portfolio and the question of martial law. It is possible that

DEC 7 1955

Memorandum for Mr. Boardman

there will be some discussion on the memorandum from Mr. Yeagley to the Attorney General dated 11/7/55, which set forth certain ICIS problems. This memorandum has been analyzed and there is attached ~~attached~~ a memorandum from Mr. Belmont to Mr. Boardman dated 11/17/55 analyzing Mr. Yeagley's memorandum. Briefly, the matters discussed were problems highlighted during considerations by the representatives of the National Security Council, Net Evaluation Subcommittee, and with the exception of the question of limiting the size of the diplomatic pouch, the problems are primarily the responsibility of ICIS.

ACTION:

This memorandum and attachments are submitted for the Director's information in connection with the conference scheduled for 11/29/55 in the Attorney General's office.

November 25, 1955

**ATTORNEY GENERAL'S PORTFOLIO  
FOR THE  
EMERGENCY DETENTION PROGRAM**

For your information, at the present time, the revised Portfolio is divided into four parts. Part I provides for the suspension of the privilege of the writ of habeas corpus and the apprehension and/or search of all dangerous persons, citizens and aliens alike. Part II contains a control program for nondangerous alien enemies who will not be apprehended and generally consists of requirements for registration, regulations concerning travel, prohibitions against the possession of specifically named articles of contraband, and prohibition against entering restricted areas. Part II can be used with either Part I or Part III. Part III is similar to Part I except that it will be used in a limited emergency and provides for the apprehension of alien enemies only. The privilege of the writ of habeas corpus will not be suspended under Part III. Part III will not be used if Part I becomes operative first. Part IV consists of miscellaneous proclamations and executive orders.

The status of the revisions to the Attorney General's Portfolio has been the subject matter of past discussions at conferences held in the Attorney General's office. At this time, there are no matters unresolved regarding the procedures to be followed by this Bureau in handling its responsibilities under Parts I, II and III of the revised Portfolio. There are, however, certain matters and agreements in connection therewith which are being worked out by the Department with the Immigration and Naturalization Service and the Department of Defense. Of course, until these matters are resolved, the Portfolio is not in final form.

The following matters in connection with the revised Portfolio are pending.

ENCLOSURE

62-17351

(1) Assumption by the Secretary of Defense of Responsibilities for Areas Other Than the Continental United States, Puerto Rico, and the Virgin Islands

Under the revised Portfolio, the Attorney General will administer all phases of the Program in the continental United States, Puerto Rico, and the Virgin Islands, and the Secretary of Defense will administer the Program in all other territories and areas under the jurisdiction of the United States or committed to its control.

As of November 4, 1955, we have not been advised as to whether the Secretary of Defense has approved the procedures for which he will be responsible under the revised Portfolio.

(2) Joint Agreement Between the Secretary of Defense and the Attorney General

The Joint Agreement was entered into on February 11, 1949, between the offices of the Secretary of Defense and the Attorney General, under which the Department of Defense will provide temporary detention facilities to house detainees in areas in which local detention facilities are inadequate. Provisions regarding the Joint Agreement are included under Part I of the Portfolio. The New York, Los Angeles, San Francisco, Chicago, Baltimore, San Juan and Honolulu areas are presently included under the Agreement. Until acceptance of jurisdiction by Defense under revised Portfolio, Justice has responsibility in Hawaii.

In order to clarify the Agreement and bring it up to date, the Department submitted a proposed revised Joint Agreement to the Secretary of Defense by memorandum dated October 12, 1953. Since that time, representatives of the Department and Department of Defense have been going over the proposed revisions and we have submitted our comments on the various issues. The points of disagreement are objectionable clauses inserted into the Agreement by the Secretary of Defense, namely, that nothing in the Agreement shall obligate the funds of the Department of Defense or

its designated agent prior to the implementation of the Agreement and that the highest priority, consistent with the performance of the mobilization or emergency missions of the Department of Defense, will be given to planning for and implementing the Agreement. We have pointed out to the Department that the terms of the Joint Agreement must be unequivocal and spell out specifically the obligations of the Department of Defense and that any clause permitting discretion on the part of the military as to its obligation to comply with the Agreement serves to place the Emergency Detention Program in jeopardy in those areas covered by the Agreement.

(3) Immigration and Naturalization Service Plans Relating to Control Regulations for Nondangerous Alien Enemies at the Time of an Emergency

Part II of the Portfolio sets forth control regulations for nondangerous alien enemies not considered for apprehension, a function of the Immigration and Naturalization Service.

Certain forms to be used by the Immigration and Naturalization Service for the registration and control of nondangerous alien enemies under Part II of the revised Portfolio have not been placed in that Part in final form. The preparation of these forms and the detailed planning of the Immigration and Naturalization Service are matters to be worked out between the Department and that Service.

By memorandum dated November 21, 1955, Mr. Rankin forwarded one revised page of the Portfolio relating to registration of alien enemies and four revised forms to be used in connection therewith. These revisions were made in accordance with our comments and suggestions. However, additional revisions are still pending. Our memorandum to Mr. Rankin of November 23, 1955, commented upon the additional revisions required.

(4) Copies of the Portfolio in the Bureau's Possession

At the present time, we have two copies of the original Portfolio, one stored for safekeeping at [ ] and one maintained at the Bureau. [ ] b7E

At the conference held in the Attorney General's office on March 14, 1955, it was decided that we should receive a total of three copies of the revised Portfolio when it is finally approved. One copy is to be retained at the Bureau; another is to be stored at the relocation site, [redacted] and the third copy is to be forwarded to the SAC at [redacted] for safekeeping. b7E

At this time, we have one copy of the revised Portfolio. When it is finally approved, we should receive two additional copies of the revised Portfolio for handling as indicated above.

November 25, 1955

**DECLARATION OF MARTIAL LAW  
IN TIME OF EMERGENCY AND ITS  
EFFECT UPON THE BUREAU'S OPERATIONS**

The Delimitations Agreement entered into by the Federal Bureau of Investigation and the intelligence agencies of the Armed Forces on February 23, 1949, provides that during periods of martial law the Armed Forces commander will have authority to assign missions, designate objectives and exercise such coordinating control of the intelligence agencies as he deems necessary. Administrative and disciplinary control remains with the respective agencies. The problem presented by the declaration of martial law was given prominence when such declaration was simulated by the President during Operation Alert - 1955. This problem was thereupon submitted to the Department and advice was requested as to the jurisdiction of the FBI under martial law and the extent to which control and authority had passed from the Department of Justice to the military as it pertained to the operations of this Bureau.

The Department advised that all civil agencies would be required to give full effect to the proclamation declaring martial law and all orders and regulations issued thereunder; that where conflict existed between martial law regulations and Justice instructions this Bureau should obey the military commander and advise the Attorney General of the facts and that, where necessary, the Department of Justice would advise the Defense Department of any conflict and resolve the matter in order that the objectives of civil authorities could be accomplished within the framework of martial law.

This might well compel the abandonment of the entire Emergency Detention Program and, at best, would cause delay in putting it into effect while Defense Department clearance was being obtained. This matter was brought to the attention

ENCLOSURE

RECEIVED

of the Attorney General by our letter of June 23, 1955. Our letter noted that the situation presented during the exercises pointed out the necessity of resolving this problem in advance of a real emergency in order that there would be no interruption in the Bureau's work, especially in making arrests and/or searches contemplated under the Emergency Detention Program.

We requested advice as to what action the Attorney General intended to take in a real emergency if martial law is declared. We also requested advice as to whether the procedures and documents outlined in the Attorney General's Portfolio will be used as planned in the event martial law should be declared during a real emergency.

This is essentially a Departmental problem. However, the Attorney General's memorandum of November 3, 1955, indicates the desire that the Director participate in the discussion of the martial law problem. We think it necessary that the Department reach an agreement with the Department of Defense, well in advance of a real emergency, so that there will be no interruption or delay in the immediate carrying out of the Emergency Detention Program should martial law be invoked during an emergency.

ATTORNEY GENERAL

November 17, 1955

66-17381 ✓

DIRECTOR, FBI

I have received your memorandum of November 16, 1955 advising that the conference to discuss the portfolio and martial law to be held in your office has been changed from November 21, 1955 to November 29, 1955 at 4:00 P. M.

It will be necessary for me to be in New York City on November 28th and 29th. Unless you advise to the contrary, I will not plan to be in attendance at the November 29th meeting.

It is noted that from prior conferences no matters are pending which are undecided, so far as the FBI's interest is concerned, with regard to the subject matters of the November 29th conference.

## Portfolio and Martial Law

The Attorney General by memorandum of 11/10/55 to the Director and Messrs. Rogers, Olney, Rankin and Tompkins requested the presence of all in his office on Monday, 11/21/55, at 2:30 P.M., to further discuss the completion of the Portfolio and martial law. Memorandum to Mr. Boardman of 11/5/55, captioned as above, was prepared for the Director's use at the conference in the Attorney General's office on 11/10/55 concerning the revised Portfolio and the martial law question. It is noted from the Director's memorandum of 11/14/55 that a general discussion was had relative to the revised Portfolio and the Attorney General directed that unresolved items in connection with the Portfolio be resolved by Mr. Rankin at an early date. The martial law question was commented upon and the Attorney General directed Mr. Rankin to meet with Department of Defense representatives and endeavor to reach an early decision upon this matter.

No changes have occurred in the status of the unresolved matters relating to the Portfolio commented upon in the memorandum of 11/5/55. ~~Memorandum~~ This memorandum is attached for the Director's information.

## Relocation Test

The Director's memorandum of 11/14/55 indicated that, at another conference with the Attorney General on 11/9/55, the Attorney General advised that the Fall-Winter relocation test would be held on December 8-9, 1955. In accordance with the Director's instructions, Mr. Belmont will go to [redacted] to participate in the discussion concerning the Portfolio. If agreeable, Mr. Paul Cox, Number One Man of the Subversive Control Section, will accompany Mr. Belmont inasmuch as

Mr. Cox is thoroughly conversant with matters relating to the Portfolio. Also, Inspector Hennrich will go to [redacted] (U) the alert test to supervise the Bureau's relocation activities there. We have previously submitted by memorandum dated 11/5/55 an outline for this forthcoming alert test. Now that the date has been set, we will draw up detailed plans and submit them for the Director's information prior to the test.

Burgess-Maclean Matter

\*Attached  
(Detached) & Attached  
X memo Belmont & Boardman  
sent Sun 11-25-55  
Jph

It is noted that, prior to the Attorney General's conference on 11/9/55, we submitted a memorandum to the Attorney General on the Burgess-Maclean case, dated 11/7/55, the subject matter of which was discussed at the 11/9/55 conference. There was also submitted to the Attorney General on 11/8/55 a memorandum concerning Soviet and Satellite activities, a copy of which the Director has.

Attorney General's Conference to be Held on 11/21/55

The Attorney General advised at the 11/9/55 conference that he would call another meeting on Monday, 11/21/55, to discuss in detail some of the previously referred to problems. In view of the fact that some of the items were disposed of at the previous meeting, it is apparent that the Monday conference will relate primarily to the Attorney General's Portfolio and the question of martial law. It is also possible that there will be some discussion on the memorandum that Mr. Yeagley submitted to the Attorney General dated 11/7/55, which set forth certain ICIS problems. A copy of Mr. Yeagley's memorandum reached this Division on the evening of 11/15/55 and we are preparing a separate memorandum for the Director's use on any aspects of the ICIS problem which affect IIC.

ACTION:

This memorandum is submitted for the Director's information in connection with the conference scheduled for 11/21/55 in the Attorney General's office.

November 14, 1955

MEMORANDUM FOR MR. TOLSON  
MR. BOARDMAN  
MR. BELMONT  
MR. NICHOLS

On November 10, 1955, at 2:30 PM, I attended a conference in the Attorney General's Office at which were present the Attorney General, Assistant Attorney General Rankin, a representative of Mr. Rankin's office and myself.

There was a general discussion relative to the revised Portfolio. The representative accompanying Mr. Rankin outlined to the Attorney General some of the items in the Portfolio which had not yet been resolved. The Attorney General directed that these items be resolved at an early date. I pointed out the imperative necessity of the revised Portfolio being supplied to the interested agencies of the Department in order that it would be readily available for study and guidance.

The Attorney General inquired of Mr. Rankin as to what progress had been made toward resolving questions raised by the FBI should martial law be declared in a time of national emergency. Mr. Rankin indicated that this had not yet been resolved, as he had but just received the various memorandums from his own staff upon the subject. I pointed out the imperative necessity of having a distinct understanding with the Department of Defense as to exactly what would or would not be done by that Department in interpreting or directing the responsibilities of other agencies, particularly the FBI in its "pick-up" program. The Attorney General directed Mr. Rankin to meet with the Department of Defense representatives and endeavor to reach as early a decision as possible upon this matter.

Very truly yours,

John Edgar Hoover

SUBJECT: PROGRAM FOR APPREHENSION AND DETENTION  
 OF PERSONS CONSIDERED POTENTIALLY  
 DANGEROUS TO THE NATIONAL DEFENSE AND  
 PUBLIC SAFETY OF THE UNITED STATES  
 FBI File 100-356062

By memorandum dated November 3, 1955, the Attorney General advised that he was holding a conference with Mr. Rankin at 2:30 P.M. on November 10 in the Attorney General's office concerning the effect on Bureau operations in the event martial law is declared in an emergency in a particular area or throughout the nation and concerning other problems relating to the Attorney General's Portfolio. He indicated that it would be very helpful if the Director could be present.

The Director requested that he be furnished with the material he might need for such a conference.

The attached material points out the necessity that the Department reach an agreement in advance of a real emergency with Department of Defense whereby the Emergency Detention Program can be carried on without delay in the event martial law is invoked. No unresolved matters regarding procedures to be followed by Bureau under Portfolio. Certain matters remain to be resolved by Department with Immigration and Naturalization Service and Defense Department on functions latter two agencies will perform. Material also attached concerning these matters.

ACTION:

This is submitted in accordance with the Director's request.

DECLARATION OF MARTIAL LAW  
IN TIME OF EMERGENCY AND ITS  
EFFECT UPON THE BUREAU'S OPERATIONS

The Delimitations Agreement entered into by the Federal Bureau of Investigation and the intelligence agencies of the Armed Forces on February 23, 1949, provides that during periods of martial law the Armed Forces commander will have authority to assign missions, designate objectives and exercise such coordinating control of the intelligence agencies as he deems necessary. Administrative and disciplinary control remains with the respective agencies. The problem presented by the declaration of martial law was given prominence when such declaration was simulated by the President during Operation Alert - 1955. This problem was thereupon submitted to the Department and advice was requested as to the jurisdiction of the FBI under martial law and the extent to which control and authority had passed from the Department of Justice to the military as it pertained to the operations of this Bureau.

The Department advised that all civil agencies would be required to give full effect to the proclamation declaring martial law and all orders and regulations issued thereunder; that where conflict existed between martial law regulations and Justice instructions this Bureau should obey the military commander and advise the Attorney General of the facts and that, where necessary, the Department of Justice would advise the Defense Department of any conflict and resolve the matter in order that the objectives of civil authorities could be accomplished within the framework of martial law.

This might well compel the abandonment of the entire Emergency Detention Program and, at best, would cause delay in putting it into effect while Defense Department clearance was being obtained. This matter was brought to the attention

ENCLOSURE  
17381

of the Attorney General by our letter of June 23, 1955. Our letter noted that the situation presented during the exercises pointed out the necessity of resolving this problem in advance of a real emergency in order that there would be no interruption in the Bureau's work, especially in making arrests and/or searches contemplated under the Emergency Detention Program.

We requested advice as to what action the Attorney General intended to take in a real emergency if martial law is declared. We also requested advice as to whether the procedures and documents outlined in the Attorney General's Portfolio will be used as planned in the event martial law should be declared during a real emergency.

This is essentially a Departmental problem. However, the Attorney General's memorandum of November 3, 1955, indicates the desire that the Director participate in the discussion of the martial law problem. We think it necessary that the Department reach an agreement with the Department of Defense, well in advance of a real emergency, so that there will be no interruption or delay in the immediate carrying out of the Emergency Detention Program should martial law be invoked during an emergency.

November 5, 1955

ATTORNEY GENERAL'S PORTFOLIO  
FOR THE  
EMERGENCY DETENTION PROGRAM

For your information, at the present time, the revised Portfolio is divided into four parts. Part I provides for the suspension of the privilege of the writ of habeas corpus and the apprehension and/or search of all dangerous persons, citizens and aliens alike. Part II contains a control program for nondangerous alien enemies who will not be apprehended and generally consists of requirements for registration, regulations concerning travel, prohibitions against the possession of specifically named articles of contraband, and prohibition against entering restricted areas. Part II can be used with either Part I or Part III. Part III is similar to Part I except that it will be used in a limited emergency and provides for the apprehension of alien enemies only. The privilege of the writ of habeas corpus will not be suspended under Part III. Part III will not be used if Part I becomes operative first. Part IV consists of miscellaneous proclamations and executive orders.

The status of the revisions to the Attorney General's Portfolio has been the subject matter of past discussions at conferences held in the Attorney General's office. At this time, there are no matters unresolved regarding the procedures to be followed by this Bureau in handling its responsibilities under Parts I, II and III of the revised Portfolio. There are, however, certain matters and agreements in connection therewith which are being worked out by the Department with the Immigration and Naturalization Service and the Department of Defense. Of course, until these matters are resolved, the Portfolio is not in final form.

|| The following matters in connection with the revised Portfolio are pending.

ENCLOSURE

ENCLOSURE

66-17951 ✓

(1) Assumption by the Secretary of Defense of Responsibilities for Areas Other Than the Continental United States, Puerto Rico, and the Virgin Islands

Under the revised Portfolio, the Attorney General will administer all phases of the Program in the continental United States, Puerto Rico, and the Virgin Islands, and the Secretary of Defense will administer the Program in all other territories and areas under the jurisdiction of the United States or committed to its control.

As of November 4, 1955, we have not been advised as to whether the Secretary of Defense has approved the procedures for which he will be responsible under the revised Portfolio.

(2) Joint Agreement Between the Secretary of Defense and the Attorney General

The Joint Agreement was entered into on February 11, 1949, between the offices of the Secretary of Defense and the Attorney General, under which the Department of Defense will provide temporary detention facilities to house detainees in areas in which local detention facilities are inadequate. Provisions regarding the Joint Agreement are included under Part I of the Portfolio. The New York, Los Angeles, San Francisco, Chicago, Baltimore, San Juan and Honolulu areas are presently included under the Agreement.

In order to clarify the Agreement and bring it up to date, the Department submitted a proposed revised Joint Agreement to the Secretary of Defense by memorandum dated October 12, 1953. Since that time, representatives of the Department and Department of Defense have been going over the proposed revisions and we have submitted our comments on the various issues. The points of disagreement are objectionable clauses inserted into the Agreement by the Secretary of Defense, namely, that nothing in the Agreement shall obligate the funds of the Department of Defense or

\* Until acceptance of jurisdiction by Defense under revised Portfolio, Justice has responsibility in Hawaii.

its designated agent prior to the implementation of the Agreement, and that the highest priority, consistent with the performance of the mobilization or emergency missions of the Department of Defense, will be given to planning for and implementing the Agreement. We have pointed out to the Department that the terms of the Joint Agreement must be unequivocal and spell out specifically the obligations of the Department of Defense and that any clause permitting discretion on the part of the military as to its obligation to comply with the Agreement serves to place the Emergency Detention Program in jeopardy in those areas covered by the Agreement.

(3) Immigration and Naturalization Service Plans Relating to Control Regulations for Nondangerous Alien Enemies at the Time of an Emergency

Part II of the Portfolio sets forth control regulations for nondangerous alien enemies not considered for apprehension, a function of the Immigration and Naturalization Service.

Certain forms to be used by the Immigration and Naturalization Service for the registration and control of nondangerous alien enemies under Part II of the revised Portfolio have not been placed in that Part in final form. The preparation of these forms and the detailed planning of the Immigration and Naturalization Service are matters to be worked out between the Department and that Service.

\* (4) Copies of the Portfolio in the Bureau's Possession

At the present time, we have two copies of the original Portfolio, one stored for safekeeping at [redacted] and one maintained at the Bureau. b7E

At the conference held in the Attorney General's office on March 14, 1955, it was decided that we should receive a total of three copies of the revised Portfolio when it is finally approved. One copy is to be retained

at the Bureau; another is to be stored at the relocation site, [redacted] and the third copy is to be b7E  
forwarded to the SAC at [redacted] for  
safekeeping.

At this time, we have one copy of the revised Portfolio. When it is finally approved, we should receive two additional copies of the revised Portfolio for handling as indicated above.

SUBJECT: WAR PLANS - FALL-WINTER  
RELOCATION TEST

Reference is made to my memorandum to you dated 11-17-55 in the above-captioned matter in which it was recommended that Liaison advise the Office of Defense Mobilization (ODM) that the Attorney General will make known to that agency the date on which the Department and the FBI will carry out the Fall-Winter relocation test and that during the course of this test the FBI will want to test all communication facilities connecting the FBI relocation site and the [redacted]

[redacted] This includes the FBI microwave circuit. It was further recommended that the Bureau would appreciate advance information as to the identity of the inspector to be assigned to inspect the FBI operations during the forthcoming test; that from the Bureau's standpoint Mr. William Boleyn of the Bureau of the Budget would prove most satisfactory. b7E

On 11-29-55 Mr. Bartlett of the Liaison Section discussed the above recommendations with Mr. Innes Harris of ODM. Mr. Harris advised that they would await word from the Attorney General as to the date of the test and that during the time of the test the [redacted] will be in operation so that we can test all of our communications. Concerning the inspector to accompany the FBI, Mr. Harris stated that ODM had expected to advise the agencies before this as to the identity of the inspector to accompany the relocation groups; however, this has not been crystallized at this moment. He further stated that ODM feels that for continuity of operations, ODM would like to assign the same inspector that accompanied the agency during the last test and that if at all possible, Mr. William Boleyn will accompany the Bureau.

Operational War Plans - Liaison Section For S.O.C.

11/29/55

SAC LETTER NO. 55-73

(D) ~~CONFIDENTIAL~~ WAR PLANS - FALL-WINTER RELOCATION TEST. The Office of Defense Mobilization has instructed each agency having essential wartime functions to conduct a relocation test sometime between November 15, 1955, and February 15, 1956. The Attorney General has indicated that he will call a Department-wide relocation test sometime during the week of December 5, 1955; the exact time is unknown. (U)

As in Operation Alert, June 15, 16, and 17, various Bureau field offices will be contacted during the course of this test. This is to be primarily a test of emergency communications. In addition to normal coverage you should arrange to monitor all

communications facilities and be prepared to answer any Bureau communications which might be received during normal Seat of Government office hours for the 24-hour period following receipt of the initial test message. All teletype and radio messages will be fully coded. All messages will begin with the word "UNCAP" to indicate the message is part of the relocation test. Each message will be numbered. If a reply is requested, the word "UNCAP" should be followed by the number of the message to which it pertains. All telephone and teletype replies should be directed to the Bureau relocation site. Radio replies should be directed to the Bureau control station. Teletype and radio replies should be encoded. (U)

The Bureau does not desire field offices to conduct individual relocation exercises as part of this test. All messages will be directed to the field office with the exception of the Washington Field Office. The test will consist of at least eight hours of actual operation at the Bureau relocation site. (U)

All offices should remain alert for this relocation test and those individuals who have been trained in [ ] procedures should make certain that they are proficient in its use. All members of the Chain of Command and all field supervisors should make certain they are thoroughly familiar with the Bureau's emergency telephone code. (U)

This and all other relocation tests are an important part of the over-all Continuity of Government program. It should therefore be considered an important aspect of your field office operation, and all personnel of your office should remain alert in accordance therewith. All test problems should be personally handled by either the SAC or the ASAC. (U)

*Bureau War Plans - Emergency*

In accordance with instructions, I attended the Attorney General's conference at 4:00 p.m., November 29, 1955, to consider completion of the Attorney General's Portfolio and the question of what action should be taken if martial law were declared during an emergency. Present, in addition to the Attorney General, were Mr. Rankin, Mr. Ford, Mr. Luce of the Criminal Division, Mr. Airhart, Relocation Officer, and Mr. Felsy of the Internal Security Division.

At the Attorney General's request, Mr. Airhart discussed plans for the relocation test of December 8 and 9, 1955. The instructions remain the same as those already furnished to us by the Department. Airhart said that ODM has been contacted to furnish observers and, while the Department does not know who the observer will be for [redacted] Mr. Boleyn, the same observer we had during the June test, will probably accompany the Bureau to [redacted]. The Attorney General appointed John Lindsay to prepare a report for him on the test at [redacted].

The Attorney General indicated that he would be at Camp David for two National Security Council meetings on December 8 - one in the morning and one in the afternoon; therefore, he would not come to [redacted] until dinnertime on December 8. The Attorney General indicated that notification to the Bureau of the test would be made by Deputy Attorney General Rogers in his absence.

Airhart advised that inasmuch as the Director had indicated he would not make use of [redacted] set aside for the Attorney General in an emergency, it might be well for the Attorney General to designate someone else to accompany him. [redacted] The Attorney General stated that Assistant Attorney General Tompkins and Mr. Rankin would accompany him, as it would not be desirable for the Attorney General and the Deputy Attorney General to be [redacted]. This pertains to an emergency and not the relocation test, as the Attorney General will use his car for the latter.

DEC 12 1955

NOT RECORDED

DEC 9 1955 : DEC 7 1955

ORIGINAL COPY FILED IN

Memorandum to Mr. Boardman from Mr. Belmont

Mr. Airhart stated that changes are being made in the chain of command within the Department, inasmuch as persons capable of acting for the Attorney General are restricted by statute to Presidential appointments. I told Mr. Airhart we would have Liaison get a copy of these changes from him, although Airhart stated it would not make any difference to the Bureau as the same first 4 officials are listed below the Attorney General, and beyond that number, in an emergency the Director is empowered to proceed with the Emergency Detention Program without additional authority from the Attorney General.

Airhart stated that the [redacted]

[redacted] has declared surplus 27 acres at this facility and he has arranged to have this land held in the event the Department desires to build a shelter for these [redacted] and later build quarters for a Departmental relocation site. The Attorney General instructed that Airhart and Deputy Rogers look this over during the relocation test.

b7E

I raised the question of the two agreements pending with the Defense Department: (1.) concerning detention facilities in certain cities and the other (2.) concerning the agreement of Defense as to its jurisdiction under the Portfolio in areas other than the Continental United States, Puerto Rico and the Virgin Islands. Mr. Foley advised that Defense has not as yet given an answer regarding point No. 1. Mr. Ford advised that he had been pushing Defense on point No. 2, but Defense has not as yet come to an agreement. I pointed out the need to have these matters settled so that Defense Department could not duck from under responsibility in an emergency. The Attorney General agreed.

Mr. Ford advised that an additional copy of the revised Portfolio is being prepared in order that the Bureau may keep a copy at its relocation site. The Attorney General instructed that this be done before December 8. Ford advised, and the Attorney General agreed, that the additional copy of

Memorandum to Mr. Boardman from Mr. Belmont

b7E

the Portfolio to be kept at our [redacted] Office will not be prepared until after the relocation test, in order that there will be complete agreement on the Portfolio before the extra copy is prepared. I pointed out that we have but one copy now and, if an emergency happened tomorrow and the Washington copy was destroyed, we would be operating under the old Portfolio. The Attorney General reiterated that the copy for [redacted] should be ready before December 8.

The Attorney General stated that the briefing at the relocation site would be to acquaint the essential personnel in the various branches of the Department with their functions during an emergency. Mr. Ford will conduct the briefing.

The Attorney General asked if the martial law question had been settled. Mr. Rankin said he had been in touch with ODM and was trying to set up a conference, unsuccessfully, but would try to have the conference next week.

For your information.

 Tamm \_\_\_\_\_  
 Sizoo \_\_\_\_\_  
 Winterrowd \_\_\_\_\_  
 Tele. Room \_\_\_\_\_  
 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

This memorandum sets forth the shortage of gas masks needed in our war planning both at the Seat of Government, relocation site, and in the field. Recommendations are set forth.

Relocation Site:

There are 184 employees scheduled for immediate relocation in event of an emergency. This number will undoubtedly increase after the first 24- 48 hours. We now have 176 gas masks at the relocation site of which 35 have been used in training activity for approximately 20 years and according to [redacted] should not be completely trusted in a period of emergency. To assure that there will be one safe and secure gas mask for each employee at the relocation site and some room for expansion, 75 new gas masks are needed.

Field:

There are now 1362 gas masks and approximately 5800 Agents in the field. SAC Letter No. 200 dated 8/8/44 instructs each office to retain one gas mask for each five Agents. All offices except [redacted]

[redacted] Field Office have sufficient masks to approximate or exceed this quota. These offices would require a total of 214 additional masks to bring them up to the quota. It is not believed that those offices exceeding the quota should be instructed to transfer masks over and above the quota to those offices who are less fortunate, as one mask for every five Agents (20 per cent of the Agent personnel) is extremely low and depending upon current world situations may be quite inadequate.

Federal Civil Defense Administration (FCDA) by bulletin dated 8/16/55 recommended the V-800 gas mask which sells for \$6.30 each. This gas mask according to military sources contacted by the Laboratory is not as durable a mask as is the M-9 which the Bureau has previously purchased but has all the protective qualities of the M-9 which costs \$14.00. Gas masks are retained at the relocation site to be used in the event of chemical or biological warfare and to provide protection against inhalation of radioactive fall-out.

There follows a recapitulation of the FBI over-all plan for the Fall-Winter relocation test:

Dates

December 8 and 9, 1955.

Place

b7E

Time

Exact time unknown, probably from midafternoon 12/8/55 to sometime 12/9/55.

Personnel

49.

Hours - from time of arrival to approximately midnight - then resume duties 8:30 a.m. 12/9/55 to completion of test period that day.

Meals - served in dining room.

Sleeping - 3rd floor. Temporary effective partition in corridor separating men and women.

Security

24-hour guard by [ ] Agent personnel.

b7E

Communications

Telephone - There are 14 emergency trunk lines at [ ] -

- 1 - to [ ]
- 10 - to [ ]
- 1 - to Bureau switchboard in [ ]
- 1 - stand-by direct line to [ ]
- 1 - stand-by direct line to [ ]

12/11/55  
 [ ]

ORIGINAL OF MEMORANDUMS FOR S.C.C.

Memorandum for Mr. Boardman

Teletype - 5 machines - 3 to [ ] 1 to [ ] b7E  
1 on microwave link to [ ]

Radio - Direct and relay service to 52 field offices and INS  
at Justice Department relocation site.

Field Offices Participating

52 on general alert. All offices will be contacted three  
times plus - 20 on special problems and 12 for actual availability  
checks.

Communication's Test Problems

12 - two of which can be expanded to cover added offices.  
There are also 2 extra problems both of which can be expanded to include  
several offices. The Laboratory has 4 problems to be carried out at  
the relocation site. We will also handle all communication's problems  
sent by the Department during this test.

Report of Test

Summary for Director and Attorney General.

Estimated Cost

Communications	\$600.00
Per Diem - 49 days @ \$3.80	186.20
Transportation	30.00
Total	\$816.20

Alert

The Attorney General will call a simulated alert sometime  
during the day on December 8, 1955. After the Attorney General notifies  
the Director, the Director may wish to advise Mr. Belmont who will then  
follow the established notification procedure. If the Attorney General  
notifies Mr. Belmont direct he will immediately institute the established  
notification procedure. We do not plan to notify any Departmental  
officials in connection with the Fall-Winter Relocation Test since the  
original notification will come from the Department. Upon receipt of  
notification all employees having essential wartime functions (184) will  
assemble in the corridor outside Room 1541 where they will be checked

Memorandum for Mr. Boardman

off. This will test the effectiveness of our notification and assembly procedures. 49 of the people so reporting will be instructed to depart immediately for [ ] Available Bureau automotive equipment and personally owned cars will be used. All employees reporting to the 1500 corridor and not being taken to the relocation site will be instructed to resume their normal functions. The time factor from receipt of the simulated alert to the departure of the last vehicle for [ ] will be carefully checked and recorded. b7E

The Bureau has the responsibility for evacuating the Attorney General, however, Airhart, Departmental Relocation Coordinator, has advised that during this test the Attorney General will use his own car and driver. One of the Bureau supervisors having the responsibility for carrying out the relocation of the Attorney General will upon receipt of the alert proceed to his office and thereafter accompany him to his personal car. This supervisor will then return to his normal duties.

[ ] Facilities

Our space in [ ] will be set up in accordance with previous plans to accommodate Bureau operations in an emergency. [ ] facilities will be prepared as follows: b7E

Security at [ ]

b7E

[ ] will establish strong security measures at [ ] during the entire course of this test operation. A 24-hour guard force made up of [ ] personnel will be employed. There will be controlled access to [ ] all during this test through a check-in and registration system whereby all individuals entering the building must clearly identify themselves and appropriately register upon entry. Bureau employees will record their arrival and departure on appropriate Bureau registers at [ ]

Memorandum for Mr. Boardman

Sleeping Accommodations

During the course of this test, as in an actual emergency, the third floor will be used for sleeping accommodations. An appropriate temporary partition will be placed across the corridor to separate male and female employees. The third floor will accommodate all personnel who will be used during the course of this test. Room assignments will be made to indicate sleeping accommodations.

Meals

Meals will be served as follows:

Breakfast	7 a.m. to 9 a.m.
Lunch	12 noon to 2 p.m.
Dinner	6 p.m. to 8 p.m.

Communications

All emergency communications installations at [ ] will be given a rigid test during the course of this exercise. The first message to all field offices from the relocation site will instruct each office to monitor communication's facilities during normal Seat of Government working hours for next 24 hours. Radio contact will be attempted with all Bureau offices sometime during the course of the test. Our stand-by direct telephone circuits between [ ] and [ ] will be activated. In addition thereto teletype and telephone messages will be directed to and received from twenty of our Bureau offices. A thorough test will be made of all communications links between the Bureau and Departmental relocation sites, as well as between [ ] b7E

Field Office Participation

All Bureau field offices will be contacted three times during the test. With the exception of Washington Field Office all contacts will be made at field office headquarters. Washington Field Office will be telephonically contacted at their relocation site [ ]. Inasmuch as there is a direct line between the two sites no additional expense will be involved for these contacts.

Memorandum for Mr. Boardman

Availability of Agent Personnel in the Field

Twelve offices in the four time belts across the United States will after normal working hours in each office be instructed to make an actual availability check of all Agents in Headquarters City. Each office will report to the Bureau relocation site the number of Agents in Headquarters City, the time it took to contact 50% of this group and the time it took to contact all Agents in Headquarters City, the time each office attempted to make initial contact with the Bureau relocation site and the number of Agents wherein more than one call was made to make contact.

*SECTION I*

*OVER-ALL GOVERNMENT PLAN*

## SECTION I

### OVER-ALL GOVERNMENT PLAN

*The Office of Defense Mobilization by memorandum dated October 14, 1955, to the heads of Executive Departments and Agencies outlined the Fall-Winter 1955-56 relocation test program wherein they pointed out that all departments and agencies that participated in Operation Alert, 1955 (June 15, 16, 17) will conduct individual tests of their own operations at relocation sites sometime between November 15, 1955, and February 15, 1956.*

*The Office of Defense Mobilization Bulletin points out that the objectives of the test are to determine the mobilization readiness of the agencies and is to be a surprise insofar as the rank and file participants are concerned. The alert and notification procedures are to be tested as well as the procedures for the evacuation of headquarters city. At the relocation site the adequacy of the facilities, availability of records and equipment is to be determined. The number of individuals participating at the relocation site is within the discretion of the head of the agency.*

*In addition to the foregoing all communications facilities are to be given a thorough test. This Fall-Winter relocation test is to be inspected by a representative of the Office of Defense Mobilization and within two weeks after completion of the test a report is to be submitted to the Director, Office of Defense Mobilization. The test is to consist of at least eight hours of actual operations at the relocation site.*

*The Attorney General has indicated that a Department-wide relocation test is to be held sometime during the week of December 5, 1955. The Attorney General will announce the alert and in accordance with Office of Defense Mobilization assumptions a simulated bomb will be detonated within two to four hours of the alert.*

*SECTION II*

*FBI OVER-ALL PLAN*

## SECTION II

### FBI OVER-ALL PLAN

The over-all plan of the FBI for the Fall-Winter relocation test encompasses communications test problems involving the essential wartime functions of the FBI, particularly as to those problems relating to the detention of Security Index subjects and the taking into protective custody of diplomatic personnel of enemy nations. No test message planned for this test will in any way indicate that the above programs are being tested. All messages will be innocuous to the greatest extent possible.

This test will begin with the simulation of an alert message to the Director from the Attorney General. Available information reflects that the alert will probably be sounded in mid-afternoon. Upon receipt of the alert those employees scheduled to participate in the test will proceed to the relocation site where they will complete the day, remain overnight, and take up relocation duties the following day. The Director upon receipt of the alert may wish to advise Mr. Belmont, who will immediately advise Mr. Tolson, Mr. Boardman, Mr. Hennrich and set in motion the over-all Bureau alerting procedure.

Inasmuch as the alert message in this instance will emanate from the Department, the Bureau, according to John Airhart, Relocation Coordinator of the Department, will not be held responsible for the notification of the Attorney General or representatives of the Department. A Bureau representative, however, will proceed to the Attorney General's office and from there accompany him to his motor vehicle which he will use to reach the Department relocation site at b7E

The Bureau representative will, thereafter, return to his normal duties. In an actual emergency the Bureau has the responsibility of relocating the Attorney General to his desired destination.

We do not anticipate representatives from any other Government agencies except the inspector to be assigned by the Office of Defense Mobilization. Under actual wartime conditions the Department of State will send to the Bureau headquarters or relocation site, which ever the case may be, two men who have previously received [redacted] clearance after FBI investigation. These individuals will answer policy problems affecting Department of State which might arise in the field during the taking into protective custody enemy diplomats and their dependents. No such policy problems will arise or be simulated in the current test so there would be no reason for these representatives to seek out the Bureau's relocation site. b7E

We have no knowledge that any agencies outside Department of Justice will be carrying on a relocation test at the exact time the Fall-Winter test is being planned by the Attorney General; therefore, there will be no problems presented by outside agencies. The Department has recently received four [redacted]

To insure a secure communications system between the Bureau and Departmental relocation site the Bureau has made available to the Department special [redacted] to be used in connection with [redacted] This will insure that no other agency within the Government can decode any message sent between the Department and Bureau relocation sites.

The Department plans a two phase test:

(1) Communications

- (A) Place communication's personnel in the Department cryptographic room in Justice Building, and additional communication's personnel at the Department relocation site, and request the FBI to similarly activate communications at their site.
- (B) Test all forms of communications with emphasis upon the use of mechanical cryptographic equipment. To this end problems have been set up in advance. The Department has not made known to

the Bureau the nature of these problems, but John Airhart, Department Relocation Coordinator, has orally advised that all communications facilities between the Department and Bureau relocation sites will be tested. The Bureau will of course handle those messages sent by the Department.

(C) Communications with Department field offices will be held to a minimum.

(2) Other than communications

(A) Have each Division and Bureau designate not more than two or three key personnel to spend the test period participating in a briefing session on the portfolio. The briefing to be conducted by the Office of Legal Counsel.

Assistant Director Belmont, Domestic Intelligence Division, and Liaison Agent Jerome J. Daunt, will represent the Bureau at the Department relocation site during this test. Assistant Director Belmont will represent the Bureau in the discussion of the Attorney General's Portfolio. Mr. Daunt will act in a liaison capacity between the Bureau, the Department and Immigration and Naturalization Service.

The number of participating Bureau personnel is set out under section entitled "Personnel to be Evacuated."

Efforts are being made to have Mr. William Boleyn, an employee of the Bureau of the Budget, who handles Department of Justice and FBI accounts at that Bureau to represent the Office of Defense Mobilization as their official inspector at the FBI relocation site during this test. Mr. Boleyn represented the Office of Defense Mobilization with the Bureau during Operation Alert 1955.

*SECTION III*

*PHYSICAL FACILITIES AT*

b7E

SECTION III  
PHYSICAL FACILITIES AT [REDACTED]

b7E

1. Administrative Duties and Responsibilities at the [REDACTED]

[REDACTED] will be in charge of [REDACTED].  
[REDACTED] He will be assisted by the firearms instructors.  
No representatives of the Training and Inspection Division  
will be in attendance. [REDACTED] upon notification that  
the test is to take place, will prepare [REDACTED] for  
emergency occupation.

2. Security Procedures.

A. Guard Force

The firearms instructors will operate as  
guards on a 24-hour basis. [REDACTED] will establish a  
schedule to insure complete and thorough coverage of the  
building during the period of the test. It will be the  
responsibility of the guard force to:

1. Challenge all persons entering the building at  
the main entrance. It being pointed out that all  
doors to [REDACTED] will be locked at all times  
with the exception of the main entrance. The main  
entrance will be locked between 6:00 PM and 8:00 AM.
2. One man will be stationed in the basement corridor  
during the hours 8:00 AM to 8:00 PM.
3. One man will be stationed on the first floor  
north entrance between 8:00 AM and 8:00 PM.
4. During the hours 8:00 PM to 8:00 AM one man  
will be stationed at the main entrance to the  
building and a second man will patrol the basement,  
first and second floor areas.

B. Bureau Personnel

On arrival all Bureau employees will be required  
to identify themselves and record their name, date and  
time of arrival on an official Bureau register. They

will also record date and time of departure.

### *C. Visitors*

All visitors must enter through the main entrance of the building where they will be challenged by a member of the guard force. Those having business dealing with [redacted] operations will be referred to [redacted] who will be located in the Chief Clerk's office. All visitors arriving in connection with this test operation will be seated in the lobby of [redacted] and a messenger dispatched to the person whom they ask to see.

### *3. Office Space and Equipment*

b6  
b7C  
b7E

#### *A. Office Space*

The Director will use the office of the SAC. Mr. Tolson and Mrs. Skillman will use the Counselor's room. Mr. Holloman and staff, Mr. DeLoach and [redacted] will be in classroom number one. The Domestic Intelligence Division staff will be in classroom number two. Mr. Mohr, and the inspector will occupy room 202. Mr. Parsons and the Laboratory staff will occupy room 203. Mr. Medler and the Records Section staff will be in the gymnasium and Communications personnel will be in the switchboard, teletype, radio and code rooms.

#### *B. Office Equipment*

Desks and tables, chairs and office supplies and equipment, with the exception of file cabinets, will be available for all participating personnel. Pending work at the end of the day will be left in work boxes on the top of desks and tables. The 24-hour guard service plus the fact that all doors to the Academy will be locked after 6:00 PM preclude the necessity for having file cabinets for night storage of work.

### *4. Sleeping Accommodations*

The Director will use the bedroom located next to the SAC's office. Mr. Tolson will use the bed which

will be set up in the Counselor's office, wherein he will also occupy office space. All other participants will occupy third floor bedrooms with an appropriate temporary partition placed across the corridor to separate the male and female participants. All bathroom facilities will be clearly marked.

#### 5. Communications

The telephone hand sets will be installed in all office space. The switchboard and teletype rooms as well as the radio and code rooms will be placed in readiness by the [ ] staff upon receipt of notification of the test.

#### 6. Other Equipment

##### A. First Aid

Ample supply available in first aid room located<sup>b7E</sup> in basement.

##### B. Gas Masks

There are 115 new gas masks available in the [ ] for use in an emergency.

##### C. Radiac Testing Devices

These devices are available in the emergency cabinet in the gun vault. They are used for testing presence of radioactive particles. Firearms instructors are qualified to operate these devices.

#### 7. Meals will be served as follows:

Breakfast	7:00 AM to 9:00 AM
Lunch	12:00 Noon to 2:00 PM
Dinner	6:00 PM to 8:00 PM

Employees may enter the diningroom at their convenience commensurate with their assignments during these hours.

Inasmuch as all employees participating in this test will be entitled to per diem, the cost of their meals will be as follows:

Breakfast \$1.10  
Lunch \$1.35  
Dinner \$1.35

All employees will pay for each meal as they enter the dining room. Menus being prepared and will be submitted separately.

8.

A telephone system similar to that now in use by the Director will have been installed and tested prior to the Fall-Winter test. In addition thereto a buzzer system for the convenience of the Director has been installed. For purposes of this test this system will operate from the Director's desk to the desks of Mr. Holloman, Mr. Anthony, and

b6  
b7C

9.

In the event the Attorney General visits the Academy during this test, office space will be in readiness for him in the Counselor's room located on the first floor in the north end of the building. This space will also contain sleeping quarters. If the Attorney General does not arrive this space will be used as office and sleeping accommodations for Mr. Tolson and office accommodations for Mrs. Skillman.

*SECTION IV*

*NOTIFICATION PROCEDURES*

*SECTION IV*  
*NOTIFICATION PROCEDURES*

*Assistant Director Belmont will, after having been notified by the Director or the Attorney General, or someone acting for him, will put the previously outlined alerting procedures into operation. We do not propose to notify the Attorney General and the Department Chain of Command as we would normally do in an alert. This is in accordance with the oral instructions of John Airhart, Department Relocation Coordinator, on October 21, 1955. The following is the standard notification procedure upon receipt of the alert: \**

*b6  
b7C  
b7E*

*\* All reference to notification of Department personnel has been deleted here.*

As the chain of notification is completed those scheduled for relocation will leave their desks and proceed to the corridor outside room 1541 where they will que up and be checked off. Those Agents who will conduct the "check off" will have previously prepared a master alphabetical list of all employees and officials who are scheduled for relocation under an actual emergency. This list includes insofar as possible alternates for the 184 individuals having essential wartime functions. As these individuals are checked off they will be advised to do one of the following two things. Report back to their desk and continue normal assignment or go into the courtyard where they will be assigned transportation. In the latter group there will be those chosen to go to the relocation site to participate in this test exercise. All employees designated to participate will be told to report to transportation. Certain Bureau officials who will take part in this exercise have their personally-owned automobiles in the basement of the Justice Building and may elect to drive them in lieu of Bureau transportation. A specific determination in each case will be made prior to the date of the test. All personnel going to the relocation site will identify themselves to the driver of the car prior to entering same for the trip to [redacted]. After the vehicles arrive at [redacted] all personnel, exclusive of the drivers, will disembark at the front entrance of [redacted] b7E [redacted] The driver of the car or bus will take the vehicle around to the back of the building or other place designated by [redacted] as a parking area.

*SECTION V*

*PERSONNEL TO BE EVACUATED*

*SECTION V*  
*PERSONNEL TO BE EVACUATED*

	<i>Agents and Above</i>	<i>Clerks</i>
<i>Director's Office</i>	<i>3</i>	<i>2</i>
<i>Tolson's Office</i>	<i>1</i>	<i>1</i>
<i>Identification Division</i>	<i>0</i>	<i>0</i>
<i>Training and Inspection</i>	<i>0</i>	<i>0</i>
<i>Administrative</i>	<i>1</i>	<i>0</i>
<i>Records and Communications</i>	<i>2</i>	<i>21</i>

<i>Investigative Division</i>	<i>0</i>	<i>0</i>
<i>Laboratory Division</i>	<u><i>5</i></u>	<u><i>1</i></u>
<i>Total</i>	<i>19</i>	<i>30</i>

*Twenty of the clerks are females.*

*The details of the assignments are as follows:*

*Director's Office*

[redacted] - will screen all mail sent to the Director and perform other assignments as indicated by the Director.

[redacted] - stenographer - will handle the Director's dictation.

b6  
b7C

[redacted] - telephone room employee - will handle all telephone calls to and from the Director at the relocation site.

Mr. James Crawford - will act as the Director's chauffeur and perform such other duties as the Director desires.

Mr. Tolson's Office

[redacted] - will screen all mail coming to Mr. Tolson and perform other necessary clerical functions.

Administrative Division

Assistant Director Mohr will take care of the inspector to be designated by the Office of Defense Mobilization (ODM) (efforts are being made to have ODM designate Mr. William Boleyn, Bureau of the Budget, who accompanied the Bureau during the June test). Mr. Mohr will endeavor to have the inspector submit a proper report to ODM. Mr. Mohr will take to [redacted] with him sufficient work to insure that he will be kept busy during the period. In addition Inspector Callahan will send to [redacted] current mail which Mr. Mohr should see in the normal functioning of his division.

b6  
b7C  
b7E

Records and Communications

Inspector DeLoach will have over-all responsibility for the efficiency of the operations and functions of this division at the relocation site.

[redacted] will perform secretarial work for Mr. DeLoach and other secretarial duties for the division.

Mr. O. G. Medler will be responsible for all problems involving Records Section including messenger service.

Mr. Ralph Kelly and Mr. Gerald Perry will be messengers during the 2-day test period.

[redacted] - will handle classifying and searching matters for Records personnel.

Mr. L. E. Wherry, Jr., Chief of Communications, and Mr. Alvin C. Frank, together with the following individuals will handle all communications to and from the relocation site during the test period:

Switchboard:

Teletype:

Code Room:

Radio:

b6  
b7C

Domestic Intelligence Division

Inspector Hennrich will be responsible for Domestic Intelligence Division personnel and will have over-all responsibility for the coordination of this Fall-Winter relocation test.

[redacted] is secretary for Mr. Hennrich.

[redacted] - will handle secretarial duties for Domestic Intelligence Division on late hour shift as needed.

Mr. F. J. Baumgardner, Section Chief, Internal Security Section, - will be responsible for all exercise tests relating to the Internal Security Section and will assist in making phone calls to various offices in connection with other tests.

*Mr. J. F. Bland, Section Chief, Subversive Control, - will be responsible for the over-all operation and coordination of problems dealing with the Security Index and the Emergency Detention Program.*

*Mr. R. R. Roach, Section Chief, Liaison Section, - will be responsible for problems involving the Liaison Section and assist in handling of telephone calls in connection with other problems.*

*Special Agent Lish Whitson, Espionage Section, - will handle test problems relating to the program calling for the apprehension of diplomats of enemy nations, and render such assistance as is necessary in other communications problems.*

*Special Agent P. L. Cox, Subversive Control Section, - will assist in handling of problems dealing with the Emergency Detention Program and in the handling of other problems as necessary.*

*Special Agent J. E. McArdle - will be responsible for coordination of operations of Bureau war plans.*

*Stenographers [redacted] and [redacted] - will perform stenographic and clerical duties as they relate to this relocation site.*

b6  
b7C

*Laboratory Division*

*Assistant Director D. J. Parsons - will supervise over-all operations of Laboratory personnel and problems. He will also be responsible for coordination of Laboratory matters with problems involving other divisions. He will take with him paper work for attention when not engaged on war plans problems.*

*Special Agent Richard L. Millen - primarily responsible for maintenance and continuing readiness of radio communications facilities and related problems. Mr. Millen will take with him certain radio development and maintenance problems for attention when not actively engaged on war plans problems.*

*Special Agent Churchill F. Downing - primarily responsible for maintenance and readiness of cryptographic equipment and related problems. Mr. Downing will take with him sufficient cryptographic work for attention when he is not actively engaged on war plans problems.*

*Special Agent John M. Matter - primarily responsible for maintenance and readiness of telephone communications equipment and related problems. He will take with him maintenance work on sound equipment for attention when not actively engaged in war plans problems.*

*Special Agent G. L. Davy - primarily responsible for maintenance and continuing readiness of radio facilities. He will take with him radio maintenance problems for attention when not engaged in war plans problems.*

*Secretary [redacted] - primarily responsible for stenographic and clerical duties involved in handling of Laboratory problems. She will take with her sufficient typing and clerical work for attention when not engaged on war plans matters.*

*All personnel taking part in this relocation test will be at the relocation site for the duration thereof.*

b6  
b7C  
b7E

*In addition to the Bureau personnel at the FBI relocation site, Assistant Director Belmont and Liaison Agent Jerome J. Daunt will be at the Department relocation site, [redacted].*

*SECTION VI*

*FIELD OFFICE PARTICIPATION*

*SECTION VI*

*FIELD OFFICE PARTICIPATION*

*All Bureau field offices will be contacted in connection with this exercise. With the exception of the Washington Field Office, all offices will be contacted at field office headquarters. Washington Field will be contacted at their relocation site.*

b7E

*SECTION VII*

*PROBLEMS TO BE WORKED DURING  
FALL-WINTER RELOCATION TEST*

## SECTION VII

### PROBLEMS TO BE WORKED DURING FALL-WINTER RELOCATION TEST

Inasmuch as we do not know the specific time at which we will arrive at the relocation site, there is no time specified during which the following problems will be worked. These problems are set up to follow what is believed to be a chronological order. However, many of them can be changed in sequence while others can be directed to several different offices should time permit.

The problems are set up as follows:

Problem No. \_\_\_\_\_

Immediately upon arrival at the relocation site Mr. Hennrich will place a call to Mr. Belmont or Mr. Daunt at the Department relocation site and advise either of them of the exact time the FBI relocation site became operational. Thereafter, he will request that authority be sought from the Attorney General to institute the emergency programs (emergency detention program and program for detention of diplomats of enemy nations).

In this connection a code to be used between Mr. Belmont or Mr. Daunt and Mr. Hennrich has been established as follows:

- (1) aliens and citizens
- (2) Prodip (detention of Diplomats of enemy nations)
- (3) citizens only
- (4) aliens only

Thus, it will be seen that by a response from Mr. Belmont or Mr. Daunt using one of the above numerical terms will indicate to Mr. Hennrich how we are to proceed with the emergency programs.

Action

Mr. Hennrich will prepare a memorandum advising the Director when he has placed the call to Mr. Belmont or Mr. Daunt at the Department and will subsequently advise the Director as to the response received from Bureau representatives at the Department relocation site.

Problem No. \_\_\_\_

Mr. Hennrich will submit a message to the communications center at High Point advising the occupants thereof that the FBI relocation site has been activated for the Fall-Winter test.

Message to be Sent

UNCAP NO. \_\_\_\_ . FBI STAFF ACTIVATED EMERGENCY  
RELOCATION SITE FOR FALL-WINTER RELOCATION TEST \_\_\_\_ P.M.  
TODAY.

HOOVER

This message will be sent by micro-wave teletype if possible, if not, by such land line communications as are available.

Action

Following completion of this message Mr. Hennrich will prepare a memorandum advising the Director that the [redacted] has been advised of the Bureau's participation in the Fall-Winter relocation test. <sup>b7E</sup>

Problem No. \_\_\_\_

This problem will simulate a request through Bureau Liaison representative M. W. Kuhrtz, the designated Liaison representative for the Department of State from the Bureau, to check with State regarding the institution

of the program for the detention of enemy nations.  
This message will be accomplished by a telephone call  
from Mr. Roach to Mr. Kuhrtz at the Seat of Government.

Message to be Sent

UNCAP NO. \_\_\_\_\_. THIS IS A SIMULATED COMMUNICATION  
REQUESTING STATUS OF PROGRAM.

Action

test problem  
Upon completion of this/Mr. Roach will prepare  
a memorandum for the Director's information recording  
the results of the test.

Problem No. \_\_\_\_\_

Mr. Bland will prepare and correlate a  
message to all field offices simulating instructions  
to all offices to stand by to put the Detcom program  
(emergency detention program) into operation.

Message to be Sent

UNCAP NO. \_\_\_\_\_. THIS IS A TEST MESSAGE. NO  
REPLY NECESSARY. ALL OFFICES WILL MONITOR ALL COMMUNICATIONS  
FACILITIES AND BE OPERATIONAL DURING NORMAL SEAT OF  
GOVERNMENT WORKING HOURS FOR THE NEXT 24 HOURS.

This message will be sent as follows:

<u>Telephone</u>	<u>Radio</u>	<u>Teletype</u>
WFO (At Shepherdstown)	Cincinnati	Albuquerque
Baltimore	Honolulu	Atlanta
New York (Direct line)	Portland	Butte

Action

Mr. Cox will telephonically contact <sup>6 offices</sup> (Washington Field through Cleveland.) Mr. Baumgardner will telephonically contact Indianapolis through Philadelphia and Mr. Bland will telephonically contact Richmond through Louisville as well as correlate the over-all problem and advise the Director when it has been completed by an appropriate memorandum.

Problem No. \_\_\_\_\_

Mr. Baumgardner will coordinate a test problem whereby the Indianapolis office will be contacted in regard to a simulated sabotage matter at Whiting, Indiana, where the Standard Oil Company refinery has reportedly been sabotaged.

The Indianapolis office will be contacted telephonically and instructed to contact the Resident Agent covering Whiting, Indiana, and thereafter advise the Bureau by teletype upon the completion of this problem including the length of time required to contact the appropriate Resident Agent.

This will provide a test of communications and the alertness of the Indianapolis office regarding the proper individual to contact under such a situation.

Message to be Sent

To SAC Indianapolis

UNCAP NO. \_\_\_\_\_. THIS IS A TEST MESSAGE. CONTACT THE RESIDENT AGENT COVERING WHITING, INDIANA, AND SUBMIT A TELETYPE TO BUREAU RELOCATION SITE ADVISING WHEN YOU RECEIVED THIS MESSAGE, THE TIME YOU FIRST PLACED CALL TO PROPER RESIDENT AGENT AND WHEN CONTACT WAS MADE.

Action

Mr. Baumgardner will prepare a memorandum for the Director setting forth the results of this problem.

\* \* \* \*

It is anticipated that at this point the normal working day will have been completed and even though the Department has authorized institution of any or all of the parts of the emergency detention programs, (Prodip and Detcom) the field offices will not be instructed in accordance therewith at this time. It is believed that by carrying these tests over to the following day that a better and more thorough communications test can be had. ||

Beginning at approximately 7:30 p.m., however, we will request 12 offices in the four time zones across the continental United States to carry out an actual availability test of the Agents in headquarters city.

\* \* \* \*

Problem No. \_\_\_\_

The following teletype will be dispatched to each of the offices listed below:

Message to be Sent

UNCAP NO. \_\_\_\_ . YOU ARE TO CONDUCT AN ACTUAL AVAILABILITY CHECK OF ALL AGENTS IN HEADQUARTERS CITY AND THEREAFTER REPORT TO THE BUREAU RELOCATION SITE BY TELETYPE THE FOLLOWING ITEMS: (1) TIME THE FIELD OFFICE RECEIVED THE MESSAGE FROM BUREAU RELOCATION SITE. (2) THE NUMBER OF AGENTS IN HEADQUARTERS CITY AND TIME REQUIRED TO CONTACT 50 PER CENT OF THEM. (3) TIME REQUIRED TO CONTACT ALL AGENTS IN HEADQUARTERS CITY. (4) NUMBER OF AGENTS REQUIRING MORE THAN ONE CALL TO CONTACT. (5) TIME FIRST ATTEMPT TO CONTACT BUREAU RELOCATION SITE WAS MADE.

Action

At 7:30 p.m. Mr. Roach will dispatch the above message to the Boston, Newark, and Philadelphia offices. Following replies from these offices he will prepare appropriate memorandum for the Director's information.

At 8:30 p.m. Mr. Whitson will dispatch the above message to the Springfield, St. Louis, and Detroit offices. Following receipt of replies from the offices he will prepare appropriate memorandum for the Director's information.

At 9:30 p.m. Mr. Cox will dispatch the above message to the Denver, Butte, and Phoenix offices. Upon receipt of replies from these offices he will prepare appropriate memorandum for the Director's information.

At 10:30 p.m. Mr. McArdle will dispatch the above message to the San Francisco, San Diego, and Seattle offices. Following receipt of replies from these offices he will prepare appropriate memorandum for the Director's information.

From the foregoing it will be noted that all availability tests will start shortly after 7:30 p.m. local field office time.

Problem No. \_\_\_\_

Mr. Millen of the Laboratory will request the Baltimore office by teletype to operate its ☐ radio station on emergency power for 30 minutes and report the results to the Bureau relocation site.

Message to be Sent

b7E

To SAC, Baltimore

UNCAP NO. \_\_\_\_ . YOU WILL IMMEDIATELY OPERATE YOUR ☐ RADIO STATION ON EMERGENCY POWER FOR A PERIOD OF 30 MINUTES AND REPORT THE RESULTS THEREOF TO BUREAU RELOCATION SITE.

Action

Upon completion of this message Mr. Millen will prepare a memorandum for the Director's information setting forth the results of this program. This problem can be extended to include other offices if additional communications problems are needed. The following offices are suggested: Milwaukee, Omaha, Cleveland and Charlotte.

Problem No. \_\_\_\_

This problem will be carried out after we have received authority from the Attorney General to place the emergency detention programs into operation. Mr. Bland will prepare and correlate a message to all field offices simulating instructions to start the emergency detention program.

Message to be Sent

UNCAP NO. \_\_\_\_ . THIS IS A TEST OF COMMUNICATIONS UNDER EMERGENCY CONDITIONS. YOU SHOULD CONTACT BUREAU RELOCATION SITE WITHIN 2 HOURS BY (TELEPHONE, TELETYPE, OR RADIO) AND INDICATE THE AMOUNT OF TIME REQUIRED TO ACTUALLY MAKE CONTACT BY THE FOLLOWING MESSAGE:

UNCAP RE TEST MESSAGE NO. \_\_\_\_ .  
OFFICE RECEIVED MESSAGE AT \_\_\_\_ (A.M.-P.M.). FIRST  
ATTEMPTED CONTACT WITH BUREAU RELOCATION SITE \_\_\_\_ (A.M.-P.M.).

Action

Contact will be made in accordance with the following methods of communication:

<u>Telephone</u>	<u>Radio</u>	<u>Teletype</u>
Atlanta	Baltimore	Albuquerque
Cincinnati	Pittsburgh	Butte
WFO (At Shepherdstown)	Cleveland	Los Angeles
New York (Direct line)	Indianapolis	Phoenix
Newark (Direct line)	El Paso	San Francisco
Savannah	Houston	Seattle
Springfield	Oklahoma City	Albany
Chicago	Little Rock	Buffalo
Detroit	Miami	Boston
Memphis	San Juan	New Haven
Mobile	Milwaukee	Philadelphia
New Orleans	Minneapolis	Portland
Kansas City	San Diego	Norfolk
Omaha	Anchorage	Charlotte
Richmond	Honolulu	Knoxville
St. Louis		Birmingham
		Louisville
		Dallas
		Denver
		San Antonio
		Salt Lake City

Mr. Whitson will telephonically contact Atlanta through Savannah. Mr. Cox will telephonically contact Springfield through New Orleans and Mr. Bland will telephonically contact Kansas City through St. Louis and correlate the over-all test. Upon the completion of this he will prepare a memorandum setting forth the results thereof for the Director's information.

Problem No. \_\_\_\_\_

This problem simulates notification to Washington Field and New York offices to start taking enemy diplomats into protective custody and for Washington Field to notify Baltimore to institute appropriate action in their area and New York to notify Philadelphia to prepare for the detention of enemy diplomats in the Philadelphia area.

Messages to be Sent

To Washington Field Office by telephone

UNCAP NO. \_\_\_\_\_. THIS IS A TEST MESSAGE. NOTIFY BALTIMORE OFFICE IMMEDIATELY BY TELETYPE TO SEND FOLLOWING MESSAGE TO BUREAU RELOCATION SITE VIA BUREAU RADIO CONTROL STATION WITHIN THE HOUR.

UNCAP NO. \_\_\_\_\_. INSTRUCTIONS RECEIVED FROM WASHINGTON FIELD AT \_\_\_\_\_ TIME. CHESAPEAKE AREA CLEAR.

The telephone message to New York will be as follows:

UNCAP NO. \_\_\_\_\_. THIS IS A TEST MESSAGE. NOTIFY PHILADELPHIA IMMEDIATELY TO SEND FOLLOWING MESSAGE WITHIN THE HOUR TO BUREAU RELOCATION SITE VIA BUREAU RADIO CONTROL STATION.

UNCAP NO. \_\_\_\_\_. RECEIVED MESSAGE FROM NEW YORK AT \_\_\_\_\_ TIME. POCONOS CLEAR.

Action

Upon receipt of the messages from the Baltimore and Philadelphia offices, Mr. Whitson will prepare memorandum setting forth the results of this test for the Director's information.

Problem No. \_\_\_\_

Mr. Matter of the Laboratory will request the Baltimore office by teletype to set up a radio activity detection meter and report the readings by teletype to the Bureau relocation site.

Message to be Sent

To SAC, Baltimore

UNCAP NO. \_\_\_\_\_. UPON RECEIPT OF THIS MESSAGE YOU WILL SET UP A RADIO ACTIVITY DETECTION METER AND SUBMIT

THE READINGS THEREON BY TELETYPE TO THE BUREAU RELOCATION SITE.

Action

Upon completion of this test message Mr. Matter will prepare a memorandum reflecting the results thereof for the Director's information.

This problem can be extended to include other offices if additional problems are necessary. The Mobile and San Antonio offices are suggested.

Problem No. \_\_\_\_

Mr. Baumgardner will correlate a communications test problem between the Bureau relocation site and several field offices to simulate the problem of requesting from the field the names of security informants agreeable to apprehension under the emergency detention program. Upon receipt of the reply from the field offices involved the results will be furnished to the Subversive Control Section in order that the apprehension of these unnamed informants can be correlated with the apprehension of Security Index subjects.

Message to be sent:

To SACS, New York, Denver and Los Angeles  
Via Radiogram

UNCAP NO. \_\_\_\_ . THIS IS A TEST MESSAGE TO SIMULATE ESTABLISHING COMMUNICATION WITH BUREAU FIELD OFFICES IN AN EMERGENCY. ACKNOWLEDGE WITHIN THE HOUR SETTING FORTH TIME YOU RECEIVED THIS MESSAGE AND TIME OF FIRST ATTEMPTED CONTACT WITH BUREAU CONTROL STATION.

Action:

Upon completion of this communication test problem Mr. Baumgardner will prepare a memorandum for the Director advising that above problem has been completed and advising of pertinent results thereof.

Problem No. \_\_\_\_

At 12:45 PM Eastern Standard Time we will make what is known as an all field division radio broadcast to all offices except Albuquerque, Anchorage, Butte, Denver, El Paso, Honolulu, Los Angeles, Phoenix, Portland, Salt Lake City, San Antonio, San Francisco and Seattle.

Message to be sent:

UNCAP NO. \_\_\_\_ . THIS IS A COMMUNICATIONS TEST. THE BUREAU DESIRES TO KNOW HOW LONG IT TAKES TO CONTACT ALL OFFICES BY RADIO. ACKNOWLEDGE ON CONTACT.

Action:

Upon completion of this test an appropriate memorandum will be prepared by Mr. Roach setting forth the pertinent results for the Director's information.

The foregoing message will be repeated so as to make it available to the San Diego Office not later than 3:30 PM Eastern Standard Time. San Diego will in turn relay the message to those offices listed above at 3:45 PM when the all field division radio broadcast will be made for the West Coast offices. Mr. Roach will correlate this project.

In addition to the communications test problems set forth above the Laboratory will carry out the following tests at the Bureau relocation site:

Problem 1 - A radioactivity detection meter will be set up on the [ ] premises and a periodic reading of radioactivity will be logged in order to provide warning of possible simulated radioactive hazards due to atomic bombing of adjacent areas and resulting "fall out" of radioactive matter. Agent Matter will be responsible for the supervision and carrying out of this problem. b7E

Problem 2 - Place in readiness the auxiliary radio station currently contained [ ] in order that such station may be available to supplement existing communications facilities at [ ] if needed. Messrs. Millen and Davy will be responsible for the supervision and carrying out of this problem.

Problem 3 - Supervise and insure proper operation of Bureau radio communications facilities. Mr. Millen will be responsible for this over-all problem.

Problem 4 - Supervise and insure proper operation of Bureau cryptographic facilities. Mr. Downing will handle.

Problem 5 - Supervise and insure proper operation of Bureau wire communications. Messrs. Matter and Davy will handle.

Upon completion of each of these problems the personnel listed above as being responsible for their correlation will prepare appropriate memoranda for the Director's information.

The following communications problems can and will be used if time permits:

Problem No. \_\_\_\_

This problem simulates notification to a field office that information has been received from [REDACTED]

[REDACTED]

b7E

[REDACTED] The communication will simulate instruction to field offices to search shore area where agents landed, make appropriate investigation, and notify surrounding offices.

Message to be sent:

To SAC, New Orleans

UNCAP NO. \_\_\_\_ . THIS IS A TEST MESSAGE. NOTIFY HOUSTON, MOBILE AND BIRMINGHAM OFFICES BY (TELEPHONE OR TELETYPE) AND INSTRUCT THEM TO TRANSMIT WITHIN THE HOUR VIA RADIO TO BUREAU CONTROL STATION THE FOLLOWING MESSAGE: 'UNCAP NO. \_\_\_\_ . MESSAGE RECEIVED FROM NEW ORLEANS OFFICE AT \_\_\_\_ (TIME).'

Action:

After receipt of the three radiograms from Houston, Mobile and Birmingham Mr. Whitson will prepare a memorandum setting forth completion of this problem.

This is another of those messages which can be repeated to several offices if necessary. The following offices are suggested: San Francisco for relay to Los Angeles, Portland and Seattle. New York for relay to Newark, New Haven and Boston. Charlotte for relay to Atlanta, Savannah and Miami.

Problem No. \_\_\_\_

Mr. Bland will prepare a message to be dispatched by radio or teletype to the Albany Office which will

*simulate instruction to arrest John Brown, a Security Index subject.*

Message to be sent:

*UNCAP NO. \_\_\_\_ THIS IS A TEST OF COMMUNICATIONS UNDER EMERGENCY CONDITIONS. SUBMIT REPLY BY RADIO OR TELETYPE WITHIN THE HOUR ADVISING TIME FIRST ATTEMPT TO RECONTACT BUREAU RELOCATION SITE WAS MADE.*

Action:

*Upon receipt of reply Mr. Bland will remove the dummy Security Index card previously placed in the Security Index on John Brown, place it in the file drawer marked apprehended Security Index subjects, and prepare an appropriate memorandum setting forth the results of this test for the Director's information.*

*This message using different offices and a separate name for the fictitious Security Index subject could be repeated to several Bureau offices, time permitting.*

*SECTION VIII*  
*COMMUNICATIONS*

SECTION VIII  
COMMUNICATIONS

b7E

Telephone

The FBI relocation site at [redacted] has been equipped with a telephone communications system. Trunk lines leading into [redacted] terminate in a two-position manual switchboard with sixty extensions. These extensions terminate in telephone jacks located in all rooms now allocated to office space. The telephone instruments are stored in [redacted] and [redacted] advises they will be connected to the extensions leading from the switchboard on the day of the test.

Leading to the above switchboard are the following telephone trunks:

- 1 local trunk - telephone number [redacted]
- 5 trunks to [redacted] terminating in the [redacted] telephone exchange - telephone numbers [redacted] through [redacted]
- 5 long-distance trunks to [redacted] long distance trunks 26 through 24.
- 1 leased telephone circuit from the Bureau's main switchboard in the Justice Building.
- 1 stand-by telephone circuit connecting our [redacted] switchboard into our [redacted] leased telephone circuit on a stand-by unactivated basis as follows:
  - An inter-change channel paid for on a full-time basis from [redacted] to [redacted] then on stand-by basis (no cost for stand-by reserve status) to [redacted] to [redacted] to [redacted] to [redacted] where it ties into our [redacted] leased telephone circuits.
- 1 stand-by telephone circuit - connecting our [redacted] switchboard to [redacted]

The stand-by circuits from [ ] and from [ ] will be activated by Inspector McGuire in Mr. Nichols' office in accordance with a previous arrangement which Mr. McGuire has worked out with the telephone company. These circuits will be placed in operation on the day of the test and remain active for the entire period.

### Teletype

There are three TWX teletype circuits on the [ ] teletype exchange terminating at teletype machines in the [ ] They are [ ]

There is also one leased teletype circuit from the Bureau's main Teletype Room to [ ] maintained on a full-time basis ready for immediate use at any time.

There is one teletype circuit to [ ] on the microwave system.

### Radio

There is a 450 watt field office type [ ] (code) radio station installed and ready for immediate action at [ ] This radio station is not large enough to contact all Bureau offices under any atmospheric conditions; therefore, radio messages emanating from [ ] will be relayed to the Bureau radio stations now at [ ] for transmission to the appropriate field offices. The call sign for the radio station at [ ] is [ ] The Department of Justice has been advised of the manner in which radio contact should be made with the FBI at our relocation site during this test. All such contacts will be made through the Bureau's central radio stations at [ ]

The FBI microwave station connecting [ ] to the communications center at [ ] has been completed and will be tested during the course of this operation.

There is one 50 watt FM (automobile type) radio at [ ] This radio station is so designed that it can make contact with Washington Field Office as well as service to radio cars now assigned to [ ] The call sign of this FM station is [ ]

### Cryptographic Materials and Equipment

b7E

There are [ ] coding machines complete with Rotors, Key lists, operation and routine maintenance manuals now at [ ]. Each field office and foreign liaison installation has been instructed to set aside one specific enciphering and one specific deciphering pad for communications with the Bureau at its relocation site. Comparable pads have been set aside by the Bureau at the relocation site. In addition, there are code books of various kinds, copies of the Bureau standard emergency telephone code (domestic) and copies of the modified emergency telephone code (for use by personnel on foreign assignment) as well as two copies of each hand system (personal code) given to Special Agents on foreign assignment. A common written cryptographic system [ ] will be used between the FBI relocation site and the relocation site of the Department.

A copy of the communications manual "CAPCOMM" issued by the Office of Defense Mobilization contains the instructions for the manner in which contacts with other agencies in the Government are to be made during test operations and in an actual relocation. For purposes of this test all intra-Bureau communications will be dispatched between [ ] and the Bureau field office at headquarters city with the exception of Washington Field Office. The SAC at Washington Field Office will be alerted at the same time other Bureau officials are alerted in connection with this test. By memorandum November 18, 1955, SAC Washington Field Office was advised that during the Fall-Winter test to take place sometime during the week of December 5, 1955, the direct line from [ ] would be activated and he was expected to have adequate personnel in their relocation site to appropriately represent the office.

### Courier Service

Records and Communications Division will handle courier service between Washington and [ ]. Each vehicle will be accompanied by an armed Special Agent in addition to the driver.

b7E

The vehicle going to [ ] will be serviced and thereafter returned to Washington. Normal driving time between Washington and [ ]

The first courier run will leave Washington one hour after the alert is sounded by the Attorney General and will depart [ ] one and one half hours later. A second courier run will leave Washington at 7:00 PM and depart [ ] at 8:30 PM.

On the second day of the test the following courier service will be instituted:

Leave Washington

8:00 AM  
11:30 AM  
2:30 PM

Leave [ ]

10:00 AM  
1:00 PM  
4:00 PM

*SECTION IX*

*OPERATIONS OF THE BUREAU AT  
WASHINGTON DURING THE PERIOD OF  
TEST EXERCISES*

## *SECTION IX*

### *OPERATIONS OF THE BUREAU AT WASHINGTON DURING THE PERIOD OF THE TEST EXERCISE*

*Mr. Nichols will be acting in charge of the Bureau's functions in the absence of the Director during the course of this relocation test. Mr. Boardman will also be in Washington carrying out his normal duties. Miss Gandy will be in charge of the Director's Office. Inspector Nease will be in charge of Mr. Tolson's Office. There follows a list of the Divisions together with the names of the officials who will be acting in charge during the course of this test:*

*Identification Division - Assistant Director Tamm  
Training and Inspection Division - Assistant Director  
E. D. Mason  
Administrative Division - Inspector N. P. Callahan  
Records and Communications - Assistant to the Director  
L. B. Nichols  
Domestic Intelligence Division - Inspector J. A. Sizoo  
Investigative Division - Assistant Director A. Rosen  
Laboratory - SA I. W. Conrad*

*During the period of the test exercise communications requiring the Director's attention will be forwarded to Quantico in accordance with the previously outlined courier service. Since there will be no mail room operating at [ ] communications will be returned to Bureau Headquarters for mailing.*

Inspector Hennrich telephoned at 11:55 A.M., December 8, 1955, to advise that our relocation center at [ ] became operational at 10:34 A.M.; that all participants ~~had~~ arrived by 10:36 A.M. They commenced notification call to [ ] at 10:35 A.M., and completed the call at 10:45 A.M. They commenced notification call to [ ] at 10:34 A.M. and completed that call at 10:42 A.M.

b7E

They immediately commenced upon their problem pertaining to contact with all field offices and that is well under way. Hennrich stated that everything was going along alright and that they are very busy.

Hennrich further advised that he had received a call from Mr. Belmont, who arrived at [ ] at 11:47 A.M. and stated that no one in authority had as yet arrived at [ ] but that he would immediately present the Detcom problem as soon as someone in authority did arrive.

I thought you would be interested in knowing of the above developments.

MR. BELMONT  
MR. NICHOLS

Deputy Attorney General Rogers called to advise they would start the relocation test now. He indicated he was sorry the plans had been changed so late but when they considered the matter they believed it best to complete the test in one day and not stay overnight. I concurred on this decision and stated we would move right ahead with our plans.

Very truly yours,

*J. Edgar Hoover*

for 3-1  
for 2-1

Emergency Headquarters For S.O.G.

There is attached a draft of the proposed plan to be followed in the event of an emergency to effect prompt payment of payroll and other expenses. Briefly, it contemplates that the Bureau will not use the plan unless or until such time as communication lines between the Seat of Government and the field break down and we are unable to maintain prompt contact with the field divisions. In the event such condition arises, the plan provides that all field divisions will prepare their own payrolls and process their own vouchers, sending them to the nearest Treasury Regional Disbursing Office to secure payment. The plan has purposely been kept as brief as possible. It is believed that as soon as normal communication lines are reestablished between the Seat of Government and the field, that the operation under this plan will be terminated and we will resume the preparation of payrolls at whatever point the main Bureau is located as well as the processing and payment of all items from that locality.

Bureau War Plans Auxiliary Space For S.O.G.

In order to make sure that this plan may be put into operation at a moment's notice, it will be necessary for the Director to delegate authority to the highest ranking surviving official in each field division or at Seat of Government to designate in writing officers or employees to certify vouchers to Treasury Disbursing Offices for payment. This will permit employees to be designated in each field office when the emergency arises who can certify payrolls and vouchers for payment. All points involving the Treasury Department have been discussed informally with contacts in the Office of the Chief Disbursing Officer of the Treasury Department and are consistent with the thinking of that department.

## RECOMMENDATIONS:

1. - It is recommended that the attached plan be approved for use when and if an emergency occurs. If approved, appropriate instructions will be issued to all employees concerned with same.

Memorandum to Mr. Mohr

2. - If the above recommendation is approved, it is recommended that the attached letter to all SACs and officials delegating authority for the designation of certifying officers to certify vouchers to the Treasury Department be sent out.

Addendum: 10/20/55

The attached draft of the proposed plan to be followed in the event of an emergency for payment of payroll and other expenses has been reviewed by Mr. Leonard of the Statistical Section who is in charge of payrolls, the Voucher Unit, Budget Unit and Assistant Special Agent in Charge Fletcher of the Washington Field Office. No changes have been suggested. Accordingly, it is believed that the plan should be considered on the basis of the recommendations set forth above.

BUREAU WAR PLANS  
PAYROLL, VOUCHER, AND  
ACCOUNTING PROCEDURES

There will be no change in any of the payroll, voucher or accounting procedures presently in operation until such time that communication lines between the Seat of Government and the field break down in the event of an attack. At that time all field divisions will immediately arrange with the nearest regional disbursing office of the Treasury Department (see list and map attached) to forward all vouchers, including payrolls, to that office for payment. In the event the nearest regional office is in a city rendered inoperable, the field division should first try to reach the regional disbursing office at its emergency contact point indicated on the list. If this is not possible, try to contact the regional disbursing office nearest to the emergency contact point. The Treasury Department has assured that it will be able to handle the work no matter which regional office is finally contacted. Having made contact you should furnish the regional disbursing office the dollar value (estimated) and number of checks required to be issued each month so that it will be able to staff accordingly. As soon as possible arrangements should be completed for the designation and bonding of at least two employees in each field division (more where good judgment indicates necessary in order to handle volume of certifications) to act as "Certifying Officers" so that they will be able to certify vouchers for payment. Complete instructions are contained herein for doing this. Field offices already are familiar with the preparation of vouchers for travel expenses and for articles or services procured (Standard Forms 1012 and 1038). The additional functions it will be necessary to perform are: (1) Prepare payrolls; (2) audit vouchers; (3) retain GAO and FBI copies of all vouchers processed until advised of disposition to be made; and (4) purchase of all items of supplies and equipment. There follows detailed instructions on these subjects:

CERTIFYING OFFICERS

When emergency arises requiring the initiation of payments at the field division level, fill out an original and two copies of form entitled "Schedule of Officers or Employees Authorized to Certify Vouchers for Payment to Disbursing Officer Under the Executive Branch of the Government." (See attached sample.) Names of employees selected should be inserted; amount of bond set should be \$5,000. At least two employees in each office should be designated, and more where considered necessary to properly handle the volume of work. Have employees execute surety bonds through local bonding company, and two signature cards. Present original and one copy of the authorization form, the surety bond, and two signature cards to the regional disbursing office

ENCLOSURE

16-17381-1253

with whom contact has been made for paying vouchers. This office has been authorized to accept such documents and, if in order, to immediately begin making payments pursuant to vouchers certified by certifying officers named therein. The third copy of the authorization form should be placed in employees personnel files.

In the event it becomes necessary at any time for any reason to revoke the certifying authorization of an employee, an original and two copies of the form entitled "Revocation of Authority to Certify Vouchers for Payment to Disbursing Officers Under the Executive Branch of the Government" should be filled out, the original and one copy sent to the regional disbursing office handling the payments for your office and the other copy placed in the employee's personnel file. A letter should be sent to the bonding company advising of the revocation of the employee's authority as a certifying officer, giving the effective date.

Following samples are attached:

 11 1988. This bond shall be effective February 28, 1989.  
 (Date)

12 WHEREAS, under the Act of Congress approved December 29, 1941, entitled "An Act  
 13 to fix the responsibilities of disbursing and certifying officers, and for other  
 14 purposes," the above-bounden principal has been duly designated and authorized in  
 15 writing by the head of the Federal Bureau of Investigation Field Division,  
Milwaukee, Wisconsin,  
 (Department, establishment, or agency)  
 16 to certify vouchers to disbursing officers under the Executive Branch of the Government;  
 17 and under said Act shall be held responsible for the existence and correctness of the  
 18 facts recited in the certificates, or otherwise stated on the vouchers or their  
 19 supporting papers, and for the legality of proposed payments under the appropriations  
 20 or funds involved; and subject to all provisions of said Act shall be held accountable  
 21 for and required to make good to the United States the amount of any illegal, improper,  
 22 or incorrect payment resulting from any false, inaccurate, or misleading certificate  
 23 made by him, as well as for any payment prohibited by law, or which did not represent  
 24 a legal obligation under the appropriations or funds involved:

25 NOW, THEREFORE, THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH, That if the  
 26 said principal shall well and truly perform and discharge, according to the laws of the  
 27 United States and rules, regulations and instructions now or hereafter enacted,  
 28 prescribed or issued, the duties imposed upon him in connection with the certification  
 29 of vouchers to such disbursing officers, and shall make good to the United States any  
 30 amount for which he shall be held accountable pursuant to such laws, rules, regulations,  
 31 and instructions; then this obligation shall be void and of no effect; otherwise it  
 32 shall remain in full force and effect.

33 It is expressly agreed that this is a continuing obligation covering not only the  
 34 term of the said principal under his present appointment and designation but also the  
 35 term or terms of all such future appointments and designations by the head of the  
 36 department, establishment, or agency referred to above, under which he shall continue  
 37 to exercise such duties.

# INSTRUCTIONS FOR EXECUTING BOND

1. *Date of execution.*—The bond must bear date as of the day upon which it was actually executed. Effective date must be written in bond at time of execution.
2. *Names and residence.*—The name, including first name, middle initial or initials, if any, and last name of the principal, together with his residence address, by street, number, city, and State, must be given in the first paragraph of bond. The name and address should be printed or typewritten, or otherwise clearly written.
3. *Signature and seal.*—The principal must sign the bond at the foot thereof, by first name, middle initial or initials, if any, and last name, to correspond with his name as shown in the first paragraph of bond. The corporate surety must affix its corporate seal.
4. *Witnesses.*—The signature of the principal must be made in the presence of two witnesses. The signatures of the witnesses must appear in the appropriate places, with their full residence addresses. If the signature of a witness is illegible, the name should be indicated by printing or typewriting.
5. *Errors, erasures, etc.*—Care should be exercised in the execution of the bond to avoid erasures and corrections. If, however, a correction should be necessary, and it is impracticable to obtain another form, a separate notation should be made on the margin of the bond, setting forth the change or correction, which statement should be signed by principal and surety. For example: "The change in the date, line 9, to August 18, 1945 (or recite other change), was made with full knowledge and consent of the undersigned \_\_\_\_\_ (Principal), \_\_\_\_\_ (Surety)." The corporate surety must affix its seal to such notation.

## PAYROLL

### GENERAL PLANS

Under a decentralized payroll procedure in wartime conditions, bear in mind the primary objective will be to see that our employees are paid. They should be paid as accurately as possible although under extreme conditions absolute accuracy will not be achieved.

Instructions follow for the preparation of a decentralized payroll. The procedure does not provide for deductions for bonds or state tax. Wherever possible, the complete detailed procedure set forth in the attached instructions should be followed.

However, emergency conditions may dictate in unusual situations that an extremely simple procedure should be followed. This may even resort to a mere typing of the names and approximate net amounts to be paid employees and transmittal of this list with appropriate certification to the nearest United States Treasury Disbursing Office. Bear in mind that regardless of the detail in which the roll is prepared, a complete record of everything done must be maintained so that appropriate accounting adjustments can later be made.

A supplemental sheet of instructions for territorial offices is being furnished in connection with cost-of-living allowances.

Observe that the attached instructions present action to be taken now and secondly, a set of instructions as to the action to be taken in the event of an emergency.

The enclosed forms and instructions are to enable each field office to prepare their own payrolls in the event of an emergency making it impossible to prepare centralized payrolls at the Bureau.

#### ACTION TO BE TAKEN NOW

Immediately upon receipt of these plans, the following steps should be taken:

1. A sufficient number of employees should be designated to become familiar with these plans so that the payrolls can be handled in your office in the event of an emergency. These employees should study the Time and Attendance Manual and the United States Government Accounting Office Salary Table 37. Study carefully the instructions on pages 1-4, particularly, paragraph 2 on page 4, "How to Use the Table."

2. The nearest Regional Disbursing Officer should be contacted and the suggested listings and schedules attached discussed with him and the necessary liaison set up to handle the payrolls in the event of an emergency.

The Disbursing Officer's symbol number (see footnote (3) on Sample D enclosed) should be made a matter of record with these plans. In the event of an emergency it will also be necessary to contact the Regional Disbursing Officer concerning whether payment to employees will be made in cash or by check.

3. If not already available, an alphabetical list of employees of your office showing payroll number (see present Time and Attendance Card), official name, tax code, and annual salary, should be maintained in a convenient location and reference to this location should be made in these plans.

4. After employees have studied these plans, they should prepare a trial payroll for approximately 10 employees. If they encounter any problems or have any questions that cannot be resolved in the office, the Bureau should be advised, attention Statistical Section.

5. Within six weeks after you receive these instructions, the foregoing should be completed and the Bureau advised accordingly.

ACTION TO BE TAKEN IN EVENT OF AN EMERGENCY

In the event of an emergency requiring the preparation of payrolls in your office, the following procedure should be adopted:

1. Employees assigned to the preparation of payrolls should review the Time and Attendance Manual, Salary Table 37, and these plans.

2. At the end of the pay period the Time and Attendance Cards should be obtained from the Leave Clerks. Using as a guide Sample C enclosed, record employee number, name, tax code, annual salary, hours worked (regular, night differential, overtime and holiday) (see Samples A and B and Columns 5-8 of Sample C). Please note that overtime can be paid only if the Bureau is on an ordered 48-hour week or a voluntary paid overtime program and then only for the number of hours authorized.

3. After salary and hours worked are posted for each employee post the amount of pay and deductions for each employee (see Columns 9-19 of Sample C) using Salary Table 37.

4. Add Columns 9-13 of worksheet (see Sample C) and put answer in Column 14. Subtract Columns 15-18 from Column 14 and put answer in Column 19. Cross balance for each employee as follows: put amount shown in Column 19 in adding machine; add Columns 15-18; take subtotal; answer should equal amount shown in Column 14; subtract amounts shown in Columns 10-13; take total and answer should be the same as amount shown in Column 9.

5. After the grand total has been balanced as above, have typist prepare list (which will be the payroll) showing employee number, name and net amount only. (See Sample F.)

6. Type an original and two copies. The original and one copy to be transmitted to the Regional Disbursing Officer and one copy to be retained in your office.

7. After list is typed and checked, prepare schedule as shown on enclosed Form 1166 (original) and 1166A (five copies) (see Samples D and E). When completed, the schedule should be signed by an authorized certifying officer. In addition the highest surviving official shall place his signature and title immediately to the right of the signature of the certifying officer as indicated on Sample D. Two additional copies (extra sheets of Form 1166A are enclosed) will have to be made to make seven copies in all and they will be distributed as follows: original and three copies to

Regional Disbursing Officer (see map showing location of Regional Offices, enclosed); two copies attached to office copy of payroll; one copy for FBI Budget Unit; and one copy for FBI General Ledger. Retain the FBI Budget Unit and FBI General Ledger copies in your office until further notice.

8. The foregoing instructions should be followed as closely as possible depending upon the situation existing in your territory. In any event, take whatever action is necessary to insure that the employees of your office receive salary payments to cover living expenses. Maintain in any event a complete record of what was done.

There will be sent to you separately a supply of blank yellow Time and Attendance Cards. These are not to be used in any instance unless it is necessary for your office to prepare its own payroll in case of an emergency. After preparing payrolls, retain Time and Attendance Cards and Attendance Registers in your office until future notice.

The following are enclosed:

- Two sample Time and Attendance Cards (Samples A and B)
- Worksheet (Sample C)
- One sample 1166 (Sample D). This has been footnoted to explain how the different items on the schedule are obtained.
- One sample 1166 (Sample E). This is the same as Sample D with footnotes and explanatory statements eliminated to show how it will look when transmitted to Regional Disbursing Officer.
- Payroll Listing (Sample F)
- Six sets of blank Forms 1166 and 1166A
- Twelve sheets of Form 1166A
- List showing schedule of pay periods, period covered and date to be paid from July 3, 1955 thru 1956.

## VOUCHERS

### PREPARATION AND PAYMENT OF VOUCHERS

Vouchers should be prepared in the usual manner and approved by the Special Agent in Charge. You should make sure that you have the required number of copies of each voucher or subvoucher; that the FBI has received the material for which payment is sought; that the voucher or invoice is properly prepared, and that it is signed by the vendor and approved by the appropriate field office official. They should then be listed on Standard Form 1166 entitled Voucher and Schedule of Payment in an original and five copies (note: These come already assembled in sets of five with carbons -- See sample attached). This is called scheduling and is accomplished by typing the name and address of the payee in the center column beginning at the left margin thereof, and over in the right hand column is placed the amount to be paid. In the designated space on the 1166 the name of the certifying officer should be typed. Efforts should be made to group the vouchers so that similar items are scheduled together, i.e., travel, communications, supplies, equipment, etc. The original of the 1166 should be signed by the certifying officer and the original and two (2) copies of the schedule should be forwarded to the nearest regional disbursing office to effect payment. Checks will be mailed by Treasury direct to payee when address shown. No addresses are shown for agents travel expenses and they will be returned to field offices for distribution. One copy of the schedule together with the original of any vouchers or invoices will be laid aside labeled "Accounts Current Documents" and held until the General Accounting Office requests them. Another copy of the schedule and the accompanying copies of vouchers should be laid aside and kept in the numerical order of the number placed on the schedule to be retained for "Accounting Document" purposes.

### AUDITING

In making the post audit of vouchers after they have been scheduled, the mathematical computations should be checked to see that they are properly computed and that the four items mentioned in the second sentence under "Preparation and Payment of Vouchers" have been taken into consideration. When this has been done, a voucher number should be assigned preceded by the field office code which is the same as that used in connection with the time and attendance cards. The vouchers should be numbered consecutively from the start of emergency operation, i.e., your first schedule may be composed of vouchers one through twenty-five, the next voucher in the following schedule would be number twenty-six, etc. Do not start the number over again for each new schedule.

### ADVANCES

1. Household: SF 1038 (see attached sample) will be executed by the employee as at present and Standard Forms 1034 or 1012 by the office. The same rules will apply for granting advances as at present. When this has been done, the 1034 or 1012 should be scheduled on SF 1166 for payment by Treasury Department. Any amounts received in liquidation of the advance should be held until the Bureau issues instructions for their disposition. If the liquidation shows that an additional amount is due the employee, an appropriate voucher should be prepared and scheduled to effect payment to the employee.

2. Subsistence: The same procedure is followed for these advances as is followed for household advances (see attached sample).

3. All 1038 cards must be signed by a certifying officer. The 1038 cards should be retained in an appropriate file and all liquidations against the advances should be recorded on the reverse side of the 1038 cards.

### LEGAL ATTACHES

The Legal Attaches should prepare their vouchers as at present but send them to the Seat of Government relocation site through State Department channels. All payments will be processed at the relocation site and the necessary reimbursement effected either by check or cash through State Department channels.

In the event office bank accounts maintained in the States are wiped out and funds are needed, the Legal Attaches should endeavor to secure an advance from the State Department on the basis of the Bureau reimbursing that Department for same. Complete information concerning the advance should be forwarded to the Bureau at its relocation site in order that the reimbursement may be made to the State Department.

### "BLUE SLIP" VOUCHERS

During the emergency period these vouchers should be prepared by the assistant to the highest surviving official and approved by a certifying officer. In addition, the highest surviving official should sign a certificate (see sample attached) in duplicate. One copy should be stapled to the original of the voucher and the other copy stapled to the FBI copy of the voucher. In separating the copies of "Blue Slip" vouchers, the subvouchers should be attached to the FBI copies of the voucher. Thus the General Accounting Office will only get the original of the voucher with the certificate stapled to it

which states that the detailed information will be held in the confidential files of the Federal Bureau of Investigation. Attention is directed to the fact that when a "Blue Slip" voucher is placed on a schedule for payment, the schedule on which it is placed will, of course, have to be signed by a different certifying officer. Thus such a voucher will have been certified by two certifying officers, but in the case of a later suspension of an amount by the General Accounting Office the certifying officer who signed the individual voucher will be held accountable for any possible loss to the Government.

#### IMPREST FUNDS

The only change in the operation of these funds will be that the reimbursement vouchers will be scheduled by the field office and sent to the nearest Treasury Regional Office for payment.

## PURCHASES OF SUPPLIES AND EQUIPMENT

Normally all purchases must be made through the General Services Administration (GSA). You should continue to use the same procedure in preparing the FBI Purchase Orders to be submitted to GSA. Two copies of the order should be submitted directly to the nearest GSA Regional Stores Depot. Two copies should be retained in the field office, one as a follow-up and the other in a separate file labeled "Appropriation Obligation Copies" which should be retained until such time as instructions are received covering their disposition. The GSA Regional Office should be instructed to submit their invoice for payment directly to the field office. Upon receipt and verification of the fact that the goods have been delivered, the certified invoices should be used as a voucher and scheduled for payment. Items that cannot be furnished by GSA Regional Stores Depot should be purchased from local firms by utilizing the Imprest Fund or by having the vendor submit a certified invoice which should be scheduled for payment and sent to the Treasury Department Regional Disbursing Office in the event of an emergency. The limit on the amount that may be spent for such items will be increased from the present limit of \$100 to \$500.

Central Office's relocation headquarters is the Regional Disbursing Office at 900 North Lombardy Street, Richmond, Virginia. Emergency disbursing kits also are being stored at Internal Revenue offices at 4th and Juliana Streets, Parkersburg, West Virginia and in the Post Office Building in Hagerstown, Maryland.

Richmond, Virginia is not in a critical target area but an emergency disbursing kit is being stored in the office of the Deputy Collector of Customs, Post Office Building, Petersburg, Virginia.

As soon as normal communications can be restored, a date will be set for reverting to making payments through the Bureau.

**TREASURY DEPARTMENT**  
**Fiscal Service - Bureau of Accounts**  
**Division of Disbursement**

(May 31, 1955)

~~SECRET~~

Mr. John Airhart  
Relocation Coordinator  
Department of Justice

December 1, 1955

Director, FBI

VIA LIAISON

**WAR PLANS - SECURE COMMUNICATION  
BETWEEN DEPARTMENT AND BUREAU  
RELOCATION SITES**

The FBI is providing you with ten one-time cipher pads as follows: Deciphering, 05501-05600, 05601-05700, 05701-05800, 05801-05900, 05901-06000; enciphering, 09201-09300, 05101-05200, 05201-05300, 05301-05400, 05401-05500. Two copies of operating instructions and ten alphabet charts accompany the pads.

These pads are intended for use as an emergency back-up system only in the event of [redacted] breakdown in encryption of messages between relocation sites of the Department and the FBI. b7E

This material should be placed in the custody and control of the Department's Cryptographic Custodian and afforded physical security previously prescribed for secure storage and handling of cryptomaterial. Used sheets must be burned by cryptocleared personnel. Any indication of surreptitious entry into a pad or physical compromise of this material in any form should immediately be brought to the attention of the FBI.

Receipt should be acknowledged in writing, listing all items received and indicating type and serial number of each pad received.

When a cipher pad becomes exhausted by use, the shell should be returned to the FBI promptly.

**ADDENDUM FOR BELOW:**

1. Copy of instructions attached, two copies being forwarded separately with ten reciprocal pads to Mr. [redacted] and one copy to Mr. WHERRY, SOG Code Room. b7E
2. Cipher pads, instructions and charts will be supplied to Supervisor J. E. McARDLE for personal delivery to the Department upon approval this letter.
3. Instructions for this system do not include provisions for message serial numbers, group counts, date and time groups. This is in accord with CAPCOMM operating instructions issued by [redacted] for emergency cryptosystems. It appears desirable to keep these emergency systems as simple as possible when planning for cryptosystems to be used by operators having a minimum of cryptoexperience. If actual emergency conditions eventually require introduction of additional indicators, etc. they can be incorporated at that time.

FROM : R. L. Millen *rem*SUBJECT: SECURITY MEASURES -  
FBI MICROWAVE EQUIPMENT

(Bufile 66-17380)

Reference is made to memorandum from [ ] to Mr. Mason, dated 9-15-55, captioned "NATIONAL SECURITY COUNCIL, NET EVALUATION SUBCOMMITTEE (SECURITY MEASURES - FBI INSTALLATION, [ ])". With regard to the security of the FBI microwave installation [ ] referenced memorandum recommended the construction of an 8-foot fence around the installation.

Memorandum Mr. Millen to Mr. Parsons, dated 10-10-55, under the same caption, reflected that the Laboratory concurred in the recommendation. It is noted that the installation is about 400 yards [ ] is normally unattended and although the building and equipment are locked, certain portions, such as the tower and wave guide elements, are unprotected.

[ ] has advised that [ ] would be able to install a fence on a transfer of funds basis, but that they do not have fencing and posts. Local inquiry has determined that the necessary material to enclose the area with an 8-foot chain-link fence, plus 1 foot of barb wire along the top of the fence, will cost approximately \$470. This estimate, obtained from the Cyclone Fence Company, Alexandria, is based on fencing an area 30 feet by 50 feet and allows for an 8-foot access gate.

RECOMMENDATION:

1. In view of possible damage to the microwave installation from vandalism, common prowlers, etc., in addition to the possibility of sabotage, I recommend that this fence should be purchased and installed as soon as possible.

DATE 4/14/2010

b6  
b7C

Reference is made to your memorandum dated November 18, 1955, setting forth the plan for the December, 1955, relocation test.

The Federal Bureau of Investigation will, of course, take part in this test and handle such communications as are transmitted to our relocation site by the Department. We plan to contact the Department relocation site on at least two occasions in addition to contacting all our field offices during the two-day period.

Immediately upon receipt of your simulated alert the Federal Bureau of Investigation alerting procedures will be placed into operation and selected Bureau personnel will proceed to our relocation site. However, since the alert will stem from you or your designated representative, we do not plan to alert Departmental officials as we would in an actual emergency.

Assistant Director J. H. Belmont will represent the Federal Bureau of Investigation at the Portofino briefing session and Liaison Agent [redacted] will also proceed to your relocation site, where he will represent this Bureau in a Liaison capacity during this test just as he will in an actual emergency.

Re my memorandum 11-23-55 captioned as above and brief for the fall-winter relocation test, both of which reflect that upon receipt of the alert from the Attorney General a Bureau Supervisor will proceed to his office and thereafter accompany him (the Attorney General) to his automobile. This arrangement was per a request of Mr. John Airhart, Relocation Coordinator of the Department.

On 11-30-55 Mr. Airhart telephonically advised a Supervisor of the Liaison Section that inasmuch as the Attorney General would not be in Washington on the day on which the test is being called it would be unnecessary for a Bureau Supervisor to proceed to his office and thereafter accompany him to his car.

ACTION:

Supervisors C. Q. Smith [redacted] of the Administrative Division, who have been delegated to relocate the Attorney General in a period of emergency have been advised it will be unnecessary for either of them to proceed to the Attorney General's office on the day of the test.

[redacted] Office of Defense Mobilization Relocation Specialist, advised Liaison Agent Whaley on December 1, 1955, that a majority of the Government agencies were interested in some type of courier service to be established between the agencies in time of an emergency. [redacted] was aware that the Bureau maintains its own courier service, but wondered if we would be interested in an intra-Government agency courier service in the event it was established during an emergency.

Observation:

It appears that a courier service between the Government agencies would be practical in an emergency. However, it does not appear sound from the Bureau's viewpoint since we could not give our mail to couriers from say the Army or Navy to be delivered to Atomic Energy Commission or the Air Force inasmuch as we would lose control of the mail and would not be sure if it were delivered.

RECOMMENDATION:

That [redacted], via liaison, be advised that in the event of an emergency the Bureau will establish its own courier service at its relocation site.

Remymemo today (12/6) entitled "War Plans - Department of Justice." indicating Department may change

[REDACTED] Acting Relocation Officer, called at 2:30 p.m. to advise that Deputy Attorney General Rogers had discussed this matter with Attorney General, and the Attorney General has approved the suggested change that this

He stated that otherwise the plans remain the same; namely, that the alert will be sounded by Deputy Attorney General Rogers and thereafter the appointed personnel will proceed at once to the relocation site, [REDACTED] and the briefing will be held on the Attorney General's Portfolio. He advised confidentially that Mr. Rogers will sound the alert and call the Director about 9:30 Thursday morning. I inquired at what time the Department will cease operations [REDACTED]. He said about 3:30 or 4:00 Thursday afternoon. I told him I would like to be sure of this, as our operations are necessarily geared to the Department's [REDACTED]. He said that unless advised to the contrary this afternoon, the Department would not attempt to

<sup>05b1</sup> This changes the complexion [REDACTED]. Our plans were geared [REDACTED]. The instructions from ODM leave the duration [REDACTED] up to the discretion of the head of the agency, but recommend a minimum of 8 hours for actual operations at the relocation site. While I did not mention this to [REDACTED] he apparently checked the requirements, because he called me back at 4:15 p.m. and advised that as ODM requirements suggest an 8-hour [REDACTED] the Department will probably keep communications personnel [REDACTED] until 8:00 p.m. on December 8. He indicated that the personnel attending the briefing would leave earlier.

RECORDED-87  
INDEXED-87

READJUSTED PLANS FOR BUREAU TEST

66-17381-1268

If the alert is sounded at 9:30 a.m., we will become operational [REDACTED] about 10:30 a.m. or a few minutes thereafter.

To Boardman  
for Belmont  
AUG

UNRECORDED COPY FILED IN 66-18953-  
Autostat

Memorandum to Mr. Boardman from Mr. Belmont

Our communications test must necessarily be revised. We will go through the alert and evacuation exactly as before. Upon arrival [ ] we will notify the Department [ ] and ODM [ ] that we are operational. We will thereafter communicate with all field offices by either telephone, radio or teletype, by an innocuous message simulating launching the Emergency Detention Program and requiring a reply within 2 hours.

An "all Field Divisions radio broadcast" will be made at 12:45 p.m. Eastern Standard Time as a further communications test.

In view of the time element, we will not make the availability checks we had planned, but we will work the additional problems as time permits, including, of course, use of the microwave and communications with the Department at its relocation site.

We will be complying with ODM instructions by the extensive communications test set forth above.

#### PERSONNEL

We are rechecking with Records and Communications Division as to whether they can cut down on personnel in view of the time element; otherwise, there will be no change in personnel.

#### COMMENTS

The Bureau will be meeting its responsibilities under this test and we will, of course, be able to check completely our communications system.

It does not appear necessary to hold all our personnel [ ] until 8:00 p.m. If we become operational shortly after 10:30 a.m., we should be able to release all but a skeleton force of personnel at 7:00 p.m., keeping only sufficient personnel to handle any communications from the Department between 7 and 8 p.m. Therefore, we will send the bus back [ ] at 7:00 p.m., if you agree.

[ ] advised that a conference is scheduled between Mr. Rogers and Mr. Tompkins on the morning of December 7; that he does not think there will be any changes in this schedule, but if there are, he will let us know at once.

#### RECOMMENDATION:

If you agree, we will proceed as above.

We will check with [ ] again in the morning.

WAR PLANS  
DEPARTMENT OF JUSTICE

b6  
b7C

On December 1, 1955, [redacted] Security Control Officer of the Department of Justice, furnished us with five copies of the attached booklet entitled "Emergency Procedures - Department of Justice," dated November 28, 1955. This is the new proposed War Plans of the Department of Justice, to replace the plans we received in February, 1955. We have gone over these proposed plans and the only comment we are prepared to make is a refinement of the language on page 1 of Appendix II. As now worded, it would indicate that we should try to reach the Attorney General for a period up to thirty minutes in an emergency, before notifying other Departmental officials. I discussed this with Relocation Officer John Airhart and he agreed that this should be changed.

On the morning of December 6, we received a copy of a memorandum from Frederick W. Ford of the Department, setting forth a long chain of command within the Department to be effective in an emergency. This appears to conflict with the chain of authority set forth in Appendix IV of the above-mentioned emergency procedures - Department of Justice, dated November 28, 1955. Mr. Airhart advised me that he just received a copy of this and it will be necessary for the two Divisions of the Department to get together and iron out the apparent conflict. I also called Mr. Frederick Ford and pointed out to him there was an apparent conflict. He stated he would get together with Airhart to resolve this. I told him that meanwhile we would not comment to the Department on either of these documents. Ford said he would get in touch with us.

While I was talking to Mr. Airhart, he advised that Mr. Tompkins had just talked to Deputy Attorney General Rogers and that Tompkins had suggested to Rogers that it might be better to conduct the test alert during the day rather than having personnel stay overnight. Airhart said this was an entirely new development, that he expected to hear from Deputy Attorney General Rogers this morning and he would let us know.

SUBJECT: 

Auxiliary space For S.O. G.

Rememo December 6, 1955, advising that the Department is scheduling  only and that Mr. Rogers and Mr. Tompkins would confer further on this on the morning of December 7.

of the Department called at 11:30 a.m. today (12/7) to confirm that

The Department will send approximately 57 people to  including communications personnel and personnel who will be briefed on the Attorney General's Portfolio.  estimates it will take about 2 hours to reach . He said the first people there will secure the keys to the courtroom on the third floor of the Court House from the postmaster and will open up the courtroom. Upon Deputy Attorney General Rogers' arrival, personnel to be briefed will gather in the courtroom, probably about 12:15 p.m. Rogers will set the stage and thereafter personnel will disband for lunch. The briefing will start after lunch, and the personnel attending the briefing will leave  about 4:00 p.m.

Communications personnel will operate  until 8:00 p.m. The communications people will occupy Rooms 9 and 10 at the Court House. About half of them will be INS personnel. The Department's radio truck will be located  about 4 miles . There is telephone communication between  and the radio truck.

I told  we will keep our communications open at our relocation site until 8:00 p.m.; further, that we will communicate at once with the Department when we become operational. He said that  will be  ahead of time and will be able to receive our initial call.

For your information.

This is another in the series of monthly memoranda setting forth the status of unfinished items being considered in connection with the Bureau evacuation plan.

(1) Communications(a) Radio

b7E

The Laboratory Division is expediting the installation of the radio equipment [redacted] When completed these radio stations will replace the [redacted] setup.

(b) Intercom System

The dictograph units formerly installed at Seat of Government have been collected and are now being rewired. New parts for the Director's station have been ordered; delivery is expected in 7 weeks. The necessary cable [redacted] Laboratory Division following.

(2) Emergency Evacuation of Key Personnel

Pursuant to Department of Defense request, a letter was directed to Dr. Arthur S. Flemming, Director, Office of Defense Mobilization (ODM), November 17, 1955, advising that Defense has indicated they could [redacted] for emergency evacuation of key Bureau personnel but that a request from ODM was necessary before such facilities could be made available by Defense. No response has been received from this communication to date. Liaison following.

(3) Allocation of Space

Bids for the construction of partitions to be used in [redacted] will be resolicited during the week of December 5, 1955. Administrative Division following.

(4) Security Index to Resident Agencies

The additional set of Security Index cards for each field division has been forwarded by the Domestic Intelligence Division.

57 DEC 19 1955

RECORDED-9

10 DEC 16 1955

jdd

Memorandum for Mr. Boardman

The necessary fireproof-type file cabinets have been shipped to the appropriate Resident Agencies. Combination padlocks for these file cabinets will be shipped 12/12/55.

(5) Gas Masks

Administrative Division advises 290 gas masks have been ordered and that delivery is expected in April, 1956. These gas masks will be distributed as follows: 76 to [redacted] with the balance distributed as needed between Chicago, Kansas City, Los Angeles, Newark, New York, and Washington Field Offices.

ACTION:-

1. The Laboratory Division is (a) continuing to expedite the installation of the radio equipment [redacted] and (b) is following the procurement of parts and installation of the Intercom system at the relocation site.

2. The Administrative Division is: (a) making every effort to expedite the obtaining of the temporary partitions [redacted] and (b) will distribute the combination padlocks to necessary field offices as soon as they have been received from the manufacturers, (c) will make appropriate distribution of gas masks as soon as they have been received.

3. Liaison Section, Domestic Intelligence Division, will continue to make every effort to obtain [redacted] the emergency evacuation of key personnel.

MR. C. E. HENNRICH

ASAC ROBERT J. LALLY  
BALTIMORE FIELD DIVISION  
ADMINISTRATIVE MATTER

In connection with "War Plans" [redacted]  
a telephone call was made to the Baltimore Office from the Bureau  
Relocation Site at 11:56 a.m., [redacted] Inasmuch as neither  
the SAC nor the ASAC was in the office at the time the call was received  
by the Baltimore Office, it was taken by Special Agent Fred Bauknight.

SA Bauknight said that ASAC Lally was acting in charge of  
the office in the SAC's absence. In view of this, SA Bauknight was  
instructed to have ASAC Lally explain why he was not in the office at  
the time the call came through.

At 12:29 p.m., December 8, ASAC Lally talked with the Bureau  
Relocation Site and stated he had first attempted to reach the Relocation  
Site at 12:14 p.m. He explained that he had been in the men's  
lavatory at the time the call came in to the Baltimore Office from the  
Relocation Site. He said he walked back into his office just as  
SA Bauknight was hanging up the phone at the end of the telephone  
call.

RECOMMENDATION:

Inasmuch as ASAC Lally was in the office and did personally call  
the Bureau Relocation Site within a matter of minutes, it is recommended  
that no administrative action is warranted.

C. R. [Signature]

This is a summary memorandum covering our operations at the  
Bureau Relocation Site [redacted]

Since I was present with the Department [redacted]  
Mr. Hennrich was in charge of operations [redacted]

THE ALERT

The alert was initiated by the Director at 9:30 a.m., [redacted]  
[redacted] upon receipt of notification from Deputy Attorney General Rogers.  
Through prearranged notification system, all persons scheduled for  
relocation were notified and accounted for by 9:43 a.m. All persons  
actually participating in [redacted] were accounted for and the  
bus departed Washington, D. C., at 9:39 a.m., arriving [redacted]  
[redacted] The last arrival [redacted] was 10:38 a.m. The Justice  
Department [redacted] and the Office of Defense Mobilization [redacted]  
[redacted] were immediately notified that the FBI was operational at its  
Relocation Site [redacted] Department was operational [redacted]

SCHEDULED PROBLEMS

A series of 16 problems simulating actual situations which would  
face us during an emergency were drawn up in advance [redacted] Personnel  
were kept busy throughout the period of the test handling these problems.  
We were able to do a limited amount of checking on the Security Index  
maintained [redacted] during the day as time permitted.

The [redacted] communications and involved  
two problems wherein all field offices were contacted. One contact was  
entirely by radio and the other contact was by a combination of radio,  
telephone and teletype. The problems presented to the field amounted to  
a critical test of the ability of both the Bureau and the field to handle  
emergency communications promptly and accurately.

Memorandum to Director from Mr. Belmont

b6  
b7C  
b7E

A brief resume of the problems follows:

Notification to the Department

The Department was notified by call placed at 10:34 a.m. and completed at 10:42 a.m. that the Bureau was operational.

At 10:52 a.m., [ ] the Department called [ ] and requested our telephone numbers [ ] stating he had contacted us through [ ] obtaining the connection through them. After authentication, [ ] was furnished with our telephone numbers. The Bureau has previously furnished these numbers to the Department and they should have been available [ ]

Notification to the Office of Defense Mobilization (ODM)

[ ] The Office of Defense Mobilization [ ] was notified that the FBI was operational by call placed at 10:34 a.m. and completed at 10:45 a.m. This involved a test of the microwave phone system, which was excellent.

Alert to All Field Offices, Simulating Initiation of the Emergency Detention Program (DETCOM)

Contact was made with all field offices by either telephone, teletype or radio. This operation began at 11:01 a.m. and all offices were contacted by 12:58 p.m. Telephone calls were completed by 12:10 p.m., radio contact by 12:19 p.m., and teletypes by 12:58 p.m. There was a slight delay in connection with the teletype messages to one group of offices, occasioned by the Chicago commercial teletype board. This will be covered in detail under "Communications." All offices were given 2 hours in which to reply to this message, and all answered within 2 hours.

Protective Custody Enemy Diplomats

This operation involved 3 separate communications problems: 1. a simulated contact with the State Department; 2. an alert to the field; and 3. simulated instructions to the field to place the operation into effect. The latter entailed field contacts between New York and Philadelphia and between Washington, D.C., and Baltimore. All were completed without delay.

Memorandum to the Director from Mr. Belmont

Investigative Problems

b7E

There were 4 separate investigative problems worked throughout the day, which entailed radio, teletype and telephone communications with various offices in the West and Southwest and with the Albany Office. One of the problems entailed contacts between Bureau offices, with answers coming into the Relocation Site from field offices not originally contacted from the Relocation Site. All of these were completed promptly.

All Stations Radio Test

A radio message was sent to all stations except 14 at 12:46 p.m. to determine how long it would take the Bureau to contact all stations by radio. Thirty-eight offices were involved. All had acknowledged within 28 minutes. Subsequently, at 4:20 p.m., messages were sent to the 14 remaining offices and all acknowledged within 31 minutes. The contact with these 14 offices entailed a relay through the San Diego radio station.

Laboratory Problems

The Laboratory worked four problems involving test calls through our switchboard, via microwave, [redacted] Several calls were placed throughout the day, including the initial notification [redacted] that the FBI was operational, and a telephone communication to the Department Relocation Site [redacted] which involved both the use of microwave and land line. The Baltimore Office was instructed to operate its radio equipment on emergency power for a period of 30 minutes. The test was successful. The Baltimore Office was instructed to use its radioactivity detection meter, which was successful. In addition, the Laboratory activated the military radio truck and placed it in a stand-by condition. The truck demonstrated its ability to send and receive radio teletype messages, as well as to handle [redacted] radio messages.

Communications

Switchboard

All telephone communications during the day were handled promptly and without incident, with one exception. At 11:30 a.m., [redacted] was unable to reach [redacted] by phone. He immediately notified the Bureau Relocation Site by teletype. This was immediately checked with the telephone company, and the line was cleared within 13 minutes of the difficulty. The line functioned properly the remainder of the day.

Communications (continued)

Teletype

Teletype facilities functioned properly and all messages dispatched were handled promptly and without incident with the exception of one group of messages sent by conference to 24 field offices. This involved a slight delay as a result of a foul-up in the Chicago commercial teletype board when the circuit was temporarily broken. The chief operator in Richmond and the Chief Operator in Chicago corrected the problem of a misunderstanding on the part of the telephone company teletype operators at Chicago. No further difficulties were encountered during the remainder of the day.

Radio

The operation of the [ ] radio emergency facilities was efficiently handled by the personnel. There was no malfunctioning of equipment and all messages were handled without delays.

Communications with the Department

During the day, several telephone calls were exchanged between our Relocation Site and the Department Relocation Site [ ]. All were handled without delay. Also, several teletypes were exchanged between our Relocation Site and the Department Relocation Site. These were all satisfactorily handled. In addition, one teletype message addressed to the Department from the Department Relocation Site was misdirected [ ]. Shortly thereafter this was corrected by the Department Relocation Site.

Difficulties Encountered (within the Bureau)

(1) We had temporary difficulty in obtaining telephone contact [ ] to our relocation site. This was promptly cleared up by the telephone company.

Memorandum to the Director from Mr. Belmont

Difficulties Encountered (within the Bureau) (continued)

(2) We had a temporary interruption in sending out teletype communications by reason of an interruption in the telephone company facilities at Chicago. This was promptly taken up by the [redacted] chief operator with the Chicago chief operator and no further difficulties were encountered during the day.

(3) We had a terrific volume of work [redacted] during the peak [redacted]. This was most efficiently handled by the personnel on hand, although there was some piling up at times. This situation, of course, would not prevail during actual emergency conditions, since all communications personnel would be available.

(4) Neither the Special Agent in Charge nor the Assistant SAC in Baltimore was immediately available when called. The SAC was out of the office. ASAC was acting in charge. The ASAC promptly submitted an explanation, which is attached. This was a momentary delay. The ASAC was in the men's room.

Difficulties Encountered (outside the Bureau)

(1) The Department had difficulty in originally contacting the Bureau Relocation Site, since it did not have available our telephone numbers [redacted]. We had furnished information concerning our numbers to the Department by memorandum dated January 19, 1955. It was necessary for the Department to contact us by calling the ODM Relocation Site [redacted].

PERSONNEL

Attached is a list of personnel who took part in the operations [redacted]. All of the personnel were serious in their demeanor, went about their jobs in a businesslike manner, and handled a terrific volume of work during the limited period of this test. Their attitude was excellent and they performed their duties in an exemplary manner.

[redacted] and his staff did an excellent job and assisted in every possible way in facilitating the successful handling of the operation.

CONCLUSIONS

The results of [redacted] as a whole were successful. There were no unusual problems or delays.

Memorandum to the Director from Mr. Belmont.

RECOMMENDATIONS

1. It is recommended that letters of commendation be sent to all of the clerical personnel who participated in this test. They did a terrific job, and Agent

SUBJECT: BUREAU CODES;  
BUREAU WAR PLANS - AUXILIARY, SPACE FOR S.O.G.

The following Bureau employees stationed [redacted] were given approximately two days of concentrated training in Bureau codes, December 6 and 7, 1955: [redacted]

This was an extremely concentrated course in technical instruction involving more than twenty different cryptographic systems. Special emphasis was placed on [redacted] the back-up one-time cipher pad systems and the systems set up for use with other Government agencies in emergency operation.

The enthusiasm and diligence these men exhibited in applying themselves to this very difficult task and the excellent way in which they grasped an understanding of these codes is most commendable.

The Office of Defense Mobilization (ODM) memorandum to heads of all departments and agencies dated 12-7-55, a copy of which is attached, announced [redacted]

[redacted] cope with an attack on the Continental United States at all levels of the Federal Government and problems designed to reveal deficiencies in organization will be devised.

The Legislative and Judicial branches of the Government will be invited. All agencies of the Executive branch having essential wartime functions will participate. The Department of Defense as well as Federal Civil Defense Administration and ODM will participate. There will be no telescoping of time [redacted]

[redacted] wartime organization of the Federal Government will be in effect. ODM will assign inspectors.

ODM and the Inter-Agency Planning Group are responsible for developing appropriate assignments. The assumptions and attack pattern are to be presented to the Inter-Agency Planning Group not later than 12-20-55. The extent of Civil Defense and Department of Defense participation is to be made known to the Planning Group by 1-1-56 and all participating departments and agencies are to submit one problem for the test not later than 2-1-56. Thereafter the Inter-Agency Planning Group will analyze the problems submitted and select those suited for the exercise. Thereafter the problems will be disseminated to participating agencies. The Inter-Agency Planning Group is responsible for developing over-all instructions for the exercise. These instructions are to be submitted to ODM for review by Defense Mobilization Board not later than 1-15-56.

ACTION:

This memorandum is submitted for information. Liaison will, however, keep in close contact with ODM to obtain additional information as it develops, which will enable us to proceed with our planning for the June test.

Reference is made to memorandum from Mr. Belmont to Mr. Boardman, 12/14/55, captioned as above, pointing out that all participating departments and agencies are to submit one problem for the test not later than 2/1/56. [REDACTED] Relocation Coordinator for the Department, telephonically advised Supervisor J. E. McArdle of the Liaison Section on 12/15/55 that after conferring with Assistant Attorney General Tompkins, he was preparing a memorandum requesting Assistant Attorney General Rankin to prepare a Department-wide problem for submission to the Office of Defense Mobilization (ODM) and use in Operation Alert 1956. [REDACTED] advised that this probably would be a problem involving martial law and he has suggested to Mr. Rankin that before submitting it to ODM, he will want to send it to the FBI for comment.

[REDACTED] advised that it was his opinion that one Department-wide problem submitted under the signature of the Attorney General would meet the ODM requirements for the one problem from each participating department and agency [REDACTED]

ACTION:

(1) For information.

(2) The progress of the preparation of the problem by Assistant Attorney General Rankin will be followed through [REDACTED]

In response to a request from Special Agent McArdle of the Liaison Section of the Domestic Intelligence Division, we have worked up an estimate of the cost of the above operation based on information furnished by Mr. McArdle as to the specific employees participating in the alert, the duration of their participation, etc. The estimated cost of communications services was furnished by Mr. McArdle. There is attached a tabulation setting forth the cost by items which indicates a total cost of \$2,480.

RECOMMENDATION:

It is recommended that the figures on the attached tabulation be furnished to the Domestic Intelligence Division.

**THE ATTORNEY GENERAL**

Director, FBI

December 23, 1955

By memorandum December 9, 1955, I submitted an FBI report on [redacted] with the exception of the cost figures involved.

Here follows the estimated cost of [redacted] as it affected the FBI:

Salary costs for employees participating	\$1,620
Cost of communications services	432
Estimated cost of planning	307
Transportation cost	61

b7E

Total estimated cost \$2,420

The foregoing completes the final report of the FBI on [redacted]

ABF:jlf

WAR PLANS - HIGHWAY  
 PRIORITIES IN MILITARY AREAS

On September 21, 1954, Major General John A. Klein, The Adjutant General, by confidential memorandum, instructed Army commanders to take cognizance of the urgency with which security measures must be pursued in a time of national emergency and to provide the highest practicable priority and freedom of movement for personnel of the Federal Bureau of Investigation, military security agencies and other security agencies operating within the area of their command. These instructions from General Klein are cited as follows: "(AGAC-C (M) 200.4 (15 Sept 54) TCMTD, Priority For Travel of Security Personnel During National Emergencies, 21 September 1954)."

The manner in which each vehicle having priority in the area is to be marked is set forth in the military document known as [redacted] dated September 6, 1955.

[redacted] is an agreement which applies to the United States Armed Forces and the forces of the North Atlantic Treaty Organization. Paragraph 23 of this agreement provides for priority [redacted]

Although each office has been provided with Federal Civil Defense Administration motor vehicle markers (SF 139), the Bureau must still make provision to obtain appropriate markers for vehicles which must be used within a military area during a period of emergency. It is the Bureau's desire that each Special Agent in Charge receiving a copy of this memorandum contact the commanding officer of the Army area in which your office is located and ascertain from him the manner in which he plans to provide for Bureau needs under the provision of Major General Klein's letter to all commanding officers dated September 21, 1954, and cited above.

Letter to SAC, Anchorage

You should make certain that the commanding officer of the area clearly understands the need for free movement of Bureau personnel in an emergency and ascertain from him the manner in which you can obtain [redacted] to meet the needs of all Bureau installations within each military area.

The results of this contact should reach the Bureau not later than January 30, 1955. Upon receipt of the results of this contact appropriate instructions will be issued to all Bureau offices.

The SAC, San Juan, should make contact with the commanding officer at Fort Brooks, Puerto Rico, and through him make the necessary arrangements to obtain appropriate [redacted] to insure freedom of movement for Bureau personnel in military areas covered by the San Juan Office.

NOTE ON YELLOW:

Major General Klein's instructions dated 9-21-54 were made available in a letter to the Bureau from Major General Yount, Chief of Transportation, U. W. Army, by memorandum 10-8-54 wherein he advised that as of that date [redacted] was available but that there was under consideration [redacted]

[redacted] operating within his area. This [redacted] is provided for in [redacted] above mentioned; and pertinent portions of which were made available in memorandum from Major General Yount dated 12/13/55.

Friday, December 16, 1955, I received from Major D. W. Peters of the Interagency Communications System, Executive Office Building, copies 0170, 0171, 0172 and 0173 of the new publication "Interagency Communications System, Teletype Operations Manual ICS 101."

This publication bears a national defense classification of Confidential and will supersede all previous instructions regarding teletype operations of the Interagency Communications System. Copies 0170 and 0171 will be retained at the Bureau [redacted] purposes. Copies 0172 and 0173 will be forwarded [redacted] and should be retained there in the vault. Revisions to the above publication will be issued by Major Peter's office directly to each agency to the attention of the Communications Officer. The Communications Section will see to it that the copies retained [redacted] are maintained in an up to date condition.

The above manual is the first of a series which will be issued by the Interagency Communications System. To follow will be the Manual on Communications Information for Communications Officers and followed by a Manual of Communications Information for Staff personnel (not for communications staff).

Re my memorandum December 9 reporting on the briefing of the Attorney General's Portfolio [REDACTED] on December 8.

I talked to Deputy Attorney General Rogers today advising him that the main thing which bothered me concerning the briefing was the need to crystallize and advance the mechanics whereby the Bureau would get prompt authority to initiate our two vital programs, namely the Emergency Detention Program and the program of taking into custody enemy diplomatic officials. I pointed out to Mr. Rogers that all of the planning for these programs, including the Attorney General's Portfolio, would go for nothing unless mechanics were set up in advance whereby the programs could be promptly initiated in an emergency; that I understood Mr. Rankin was on a committee considering this and particularly whether some of these vital documents would not be furnished to the President in advance so that he could act on them at once in an emergency.

Mr. Rogers said it was his feeling that the Portfolio should be approved and issued promptly by the Attorney General, that if there were some further changes to be made they could be made but meanwhile the revised Portfolio should be operational. He agreed further that mechanics should be set up whereby authority could be obtained immediately for the launching of these programs. He felt that the Attorney General or whoever was acting for him should be in a position to telephonically contact the President and, if he could not reach the President to authorize the launching of the programs himself. I reiterated that our main concern is to get proper authority from some source immediately and it was, of course, vital to the Attorney General to know exactly where he stood in these matters. Mr. Rogers said he would follow through to see that there was action taken within the Department on this and he would let us know.

Following the alert at 9:30 AM, December 8, 1955, Liaison Agent [REDACTED] and I left at 9:38 AM [REDACTED] the Department's relocation site, arriving there at 11:40 AM. Some of the Department's communications staff were there, having been sent up in advance, the remainder of Departmental personnel arrived anywhere from 11:42 AM to about 12:00 noon. Immediately upon arrival of Deputy Attorney General Rogers I advised him our relocation site had requested authority to implement the Emergency Detention Program and the program involving enemy diplomats. He gave immediate authority [REDACTED] was so notified.

The group to be briefed on the Attorney General's Portfolio assembled in the courtroom about 12:15 PM and Rogers dismissed them for lunch to reassemble at 1:30 PM.

The briefing [REDACTED] started at 1:30 PM, lasted until 3:15 PM, after which [REDACTED] briefly discussed the instruction booklet to key Department personnel, and then the group was taken on a tour showing the communications setup, including the coding machines and the storage vault.

I was advised upon arrival that the Department had difficulty reaching our relocation center as they did not have the telephone number. I pointed out that the Department had been furnished the telephone numbers and they should have had them available [REDACTED].

There were about 35 people at the briefing, including Rogers, Tompkins, Warren Burger, James Bennett of the Bureau of Prisons, Deputy Commissioner King of INS, Andrews, and other Departmental officials. The ODM inspector was present. Rogers asked me if it was all right for an inspector to be present. I told him it was up to the Department but, regardless, all persons present should be warned that this Program was ~~TOP SECRET~~ and should not be discussed outside of the group itself. Rogers did this.

Memorandum from Mr. Belmont to Mr. Boardman

b7E

The briefing itself consisted of going through the actual Portfolio and explaining what was in it. It is complex and I doubt that persons present understood it except the general principles. As Ford mentioned to me later, they will probably forget all of it in two weeks except that portion concerning the writ of habeas corpus which is the part they should forget, from the standpoint of secrecy.

Ford told the group that the Portfolio is ready for operation as soon as Department of Defense had agreed to its responsibility and that Defense was being pushed on this; that there were several other minor matters which are being changed but the Portfolio will be presented to the Attorney General for his approval as soon as Defense has agreed.

I volunteered no information, on the theory that this was the Department's briefing and they should take responsibility for it. It was indicated to me that the Attorney General has again changed his plans and now plans to go directly [redacted] in an emergency instead [redacted] We will check further on this through Airhart to resolve this.

As far as the Bureau is concerned, the only thing I noted of real consequence was uncertainty as to at what point authorization would be given to the Bureau to implement its Programs, whether this would be done prior to the signing of the proclamation by the President and the joint resolution by Congress or subsequently, and just when the President would sign the proclamation. This, of course, strikes at the very heart of our problem as we must get prompt authority and it must be on an official rather than quasi-official basis. If you agree, I will talk to Mr. Rogers regarding this and suggest that he follow through within the Department to get this crystallized and set up for immediate action in an emergency.

On 1-3-56, while Mr. Bartlett of the Liaison Section was talking, Mr. Edward Cox, Office of Defense Mobilization (ODM), Mr. Cox mentioned that a letter has just been sent to the Attorney General in response to the Attorney General's memorandum to ODM concerning "Emergency Transportation Plan." Mr. Cox stated that the letter from the Attorney General asked that the name of Director Hoover be removed from the list of those key government officials to be evacuated from Washington [redacted] during an emergency. Mr. Cox stated that the letter to the Attorney General advised that the Director's name has been removed from the ODM list and instructed the Attorney General to remove the Director's name from the Department of Justice list.

You will recall that by letter dated 11-17-55 to Dr. Arthur S. Flemming, Director, ODM, we asked ODM to get in touch with the Defense Department and point out the necessity to have [redacted] available for the Director and the FBI key staff to be taken to the FBI relocation site. Mr. Cox of ODM advised Mr. Bartlett that a letter has just been sent by ODM to Secretary of Defense Charles Wilson instructing them to study the feasibility [redacted] for the Director and the key FBI personnel to be used during an emergency. Mr. Cox stated that this letter will probably go to the Navy from the Secretary of Defense Office and that the Navy will probably get in touch with the Bureau in the near future.

ACTION:

For your information. Liaison will continue to follow this matter very closely with the necessary agencies until it is completely resolved.

SUBJECT: WAR PLANS - EMERGENCY RELOCATION

On 1-3-56, Mr. Bartlett, Liaison Section, conferred with Mr. Edward Cox, Relocation Officer, and [redacted] Security Officer, Office of Defense Mobilization (ODM). During the discussion, it was learned that in connection with the Interagency Communications System ODM was drawing up a guide concerning the classification of the U. S. Government agencies' relocation sites. The purpose of this paper would be to advise the American Telephone and Telegraph Company (AT&T) the classification of each relocation site; however, the location of the site would not be given. AT&T at White Plains, New York, is working with ODM in connection with the Interagency Communications System and ODM feels that it is now necessary to furnish them with the classifications of the sites.

During this discussion, Mr. Bartlett learned that the FBI is the only agency whose relocation site is listed as "Top Secret." Only four agencies use the classification "Secret" in connection with their relocation sites. [redacted]

The remaining agencies, including [redacted] carry the classification "Confidential" for their sites and some of the agencies have orally brought up the possibility of using no classification.\*

It should be pointed out that ODM has not suggested in any way that the FBI change its classification from "Top Secret" to something lower. However, they did point out that problems would arise in securing personnel to handle installations and repairs of communications equipment inasmuch as the workmen as it now stands would have to have Top Secret clearance in order to handle any work for the Bureau. It was pointed out to Mr. Bartlett that in the group of communications mechanics there are only a few that have Top Secret clearance and, therefore, the Bureau might suffer in getting work done during emergency in view of this technicality.

Blood transfusions are important in the treatment of casualties from a nuclear explosion.

Blast damage may cause injuries resulting in an excessive loss of blood. In addition, moderate dosages of nuclear radiations increase the probability of hemorrhages. Furthermore, white cell changes in the blood are to be expected. Therefore, part of the recommended therapy for radiation sickness includes blood transfusions.

Prior to many blood transfusions, it is necessary to know the blood type and Rh factor of both the victim and the donor. Thus, it appears that it would be valuable to have a list at the Relocation Site of the blood types and Rh factors of the personnel who will be assigned to that particular Relocation Site, in the event of an emergency.

## RECOMMENDATION:

That consideration be given to preparation of a list of blood types and Rh factors for the personnel who are to man the Relocation Site in the event of an atomic disaster.

JFG:mmc  
 (4)

ADDENDUM: IWC/mek 10/26/55 - Information of this kind, I understand, is already available in the Administrative Division relative to all Special Agent personnel as a result of Bureau's physical examination program. In addition, similar information is also available on certain of the clerical personnel who are blood donors. It is noted that the normal practice in giving blood transfusions is to have both the victim and the donor typed immediately prior to the transfusion. Accordingly, the value of a listing of the type proposed would consist primarily in speeding up the preliminary selection of possible donors. Since time is such a critical factor, I believe the proposal to maintain a list of blood types for personnel to be relocated has merit.

b6  
b7c

Memorandum 10-24-55 from Mr. Beach to Mr. Parsons recommended that a list of blood types and factors be prepared for personnel who are to man the Relocation Site in the event of an atomic disaster. The memo pointed out blood transfusions are important to treat casualties from nuclear explosions. Blast damage may cause injuries resulting in excessive blood loss. Moderate dosages of nuclear radiations increase possibility of hemorrhages. White cell changes occur in the blood of those exposed to radiation and recommended therapy for radiation sickness includes blood transfusions. It is important to know not only the blood type and factor of the victim but also the donor and to have this data available at the Relocation Site for emergency use. Transfusions are usually of an emergency nature and the most logical donors for victims at such site would be from those manning same.

You are aware that we maintain blood type and factors on all SAs and SEs which are obtained from annual physical examinations and recorded in the Physical Examinations Unit. We also maintain blood type and factor data on all clerical employees who, from time to time, have donated blood to the Red Cross or to Bethesda Naval Hospital. Otherwise such data on clerks is not available.

There are approximately 285 individuals listed for emergency evacuation (includes alternates). From this list until recently Bureau records disclosed the blood type and factors of 164 persons. Recently the remaining 121 individuals on whom this data is unknown were contacted and asked if they desired to voluntarily contribute blood to the Red Cross Blood Donor Center. From this group we were able to obtain 95 types and factors, leaving to date a balance of 86 whose types and factors are unknown. Red Cross will only take individuals to be typed and factored if they initially go there with the intent of donating. If they are then medically rejected, they are still typed and factored.

In order to obtain the necessary data concerning the remaining 86, Dr. C. K. Himmelsbach, Medical Director, Public Health Service, Department of Health, Education and Welfare, was contacted by letter 12-8-55 and requested to authorize the U. S. Public Health Service

WJH

Outpatient Clinic, Washington, D. C., to secure the types and factors of this remaining group. By letter 12-20-55, Dr. Himmelsbach has authorized the Medical Officer in Charge (Dr. Stanley E. Krumbiegel) of the Public Health Service Outpatient Clinic to perform these services on the usual reimbursable basis of \$3.75 per patient. This would cost us \$322.50. Dr. Himmelsbach stated that the scheduling arrangements should be worked out with Dr. Krumbiegel. In order to keep the list current due to resignations, transfers, etc., we would probably have no more than two or three at the most per month added to the list on whom types and factors might be unknown. To maintain currency of the list, Domestic Intelligence Division should keep the Health Service posted.

RECOMMENDATIONS:

(1) That authority be granted to have the 86 persons scheduled for blood typing and factoring at U. S. Public Health Service Outpatient Clinic on reimbursable basis of \$3.75 per patient. Initial outlay would only be \$322.50 and cost would be nominal to keep such list in current status thereafter.

OK  
JPM  
1/1/30

b6  
b7C

(2) If recommendation #1 is approved, Health Service will be furnished with a list of the 86 individuals and will make appropriate scheduling arrangements with Dr. Krumbiegel to obtain the necessary blood types and factors as expeditiously as possible, and will refer the types and factors to Mr. McArdle of the Domestic Intelligence Division. Thereafter, the latter division should post Health Service on any additions to the list where types and factors are unknown so said list can be kept current.

When we get the types on the 86, give data to Housing Unit so they will make up permanent record cards, & then refer data to Mr. McArdle. WSBH

Remymemos captioned as above dated 6-14-55 and 11-1-55 wherein certain Supervisors at Seat of Government and Agents of Washington Field Office were designated to carry out the relocation of the Attorney General or members of his family in a period of emergency. Supervisor C. Q. Smith of the Administrative Division, who formerly resided in the near vicinity of the Attorney General's residence at 4355 Forest Lane, N. W., has moved to Arlington, Virginia. A survey of Seat of Government Supervisors residing in the general vicinity of the Attorney General's residence has disclosed that Supervisor Donald G. Hanning of the Records and Communications Division resides at 3905 Jennifer St., N. W., telephone Woodley 6-1329, Bureau ext. 788. Mr. Hanning entered on duty on 1-6-47, is presently assigned to the Crime Records Section of the Records and Communications Division. Mr. Hanning is not on probation. It is believed that Mr. Hanning should replace Mr. C. Q. Smith with the responsibility of participating in the relocation of the Attorney General and his family during other than normal duty hours and that Mr. Smith continue to have the responsibility of assisting and relocating the Attorney General and his family during normal duty hours.

During normal duty hours the primary responsibility for the relocation of the Attorney General and his family will be that of Seat of Government Supervisors [redacted] and C. Q. Smith. During other than normal duty hours the primary responsibility for the relocation of the Attorney General and his family will be that of Seat of Government Supervisors [redacted] and Hanning. If neither of the above can be located by Assistant Director Mohr, he, Mr. Mohr, will contact SAC Laughlin of WFO who will in turn dispatch 1 or both of the following Agents from WFO: Bernard E. Buscher, who resides at 224 Longfellow St., N. W., telephone Tuckerman 2-1478, or Donald T. Perrine, who resides in apartment 181 W at 4201 Mass. Ave., N. W., telephone Emerson 2-1842. Mr. Mohr may call either or both of these Agents direct. In addition, SAC Laughlin could, if necessary, dispatch an Agent from a [redacted] to carry out the evacuation of the Attorney General. This is another in the series of monthly memoranda setting forth the status of unfinished items being considered in connection with the Bureau evacuation plan.

Communications(a) Cryptographic Equipment

All the cryptographic equipment previously designated for the relocation site [redacted] However, the following "on line" equipment designed for safe teletype communications [redacted] has not been installed:

b6  
 b7C  
 b7E

[redacted] AT&T is making these installations for the Office of Defense Mobilization (ODM).

(b) Intercom System

The Dictograph units formerly installed at the Seat of Government have been collected and are being rewired. New parts for the Directors station have been ordered; delivery expected within the month. Laboratory Division following.

Emergency Evacuation of Key Personnel

Mr. Edward Cox, ODM, on 1-3-56 advised that a letter, pursuant to Bureau request of November 17, 1955, had been directed to the Secretary of Defense instructing him to study the feasibility [redacted] for the Director and key FBI personnel to be used for an emergency evacuation. Liaison will continue to follow this matter very closely with the necessary agencies until it has been completely resolved.

COBUPLAN - EMERGENCY HEADQUARTERS FOR S.O.G.

Memorandum for Mr. Boardman

b7E

Allocation of Space [redacted]

On 12-29-55 the Johns Manville Company was awarded the contract to install partitions to be used [redacted]  
[redacted] The work will be completed on or about February 1, 1956.  
Administrative Division following.

Gas Masks

Delivery of 290 additional gas masks is expected in April.  
1956. [redacted]  
[redacted]

ACTION:

(1) The Laboratory division is following the procurement of parts [redacted] for installation of the Intercom system at the relocation site.

(2) The Administrative Division will continue its efforts to insure that the temporary partitions [redacted] are installed on or before February 1, 1956, and upon receipt of the gas masks mentioned above, will make appropriate distribution of them.

(3) The Records and Communications Division will press for the installation of the "on line" cryptographic equipment [redacted] at the earliest possible date. In this connection, it must be noted that until companion equipment is installed [redacted] there is no useful purpose in having this equipment installed at the Bureau relocation site.

(4) Liaison Section, Domestic Intelligence Division, will continue to make every effort [redacted] for the emergency evacuation of key personnel.

Reference is made to my memorandum to you of 1-5-56 advising that Liaison Agent  who has been assigned to accompany the Atomic Energy Commission (AEC) to its relocation site during emergency periods, had been advised that the AEC

It was approved that  would accompany AEC representatives on this exercise.

The AEC test of its emergency relocation center was held  Notification was given by the General Manager at 11:15 A.M. and by 12:35 P.M., all members of the AEC cadre had arrived at the relocation site  There were no problems in connection with this test. The AEC did run a test of its communications and was able to get in touch with all of its operations offices within a short period of time.

A tour of the AEC site indicated that the facilities have been considerably enlarged since the June, 1955, test. The AEC site  approximately one quarter of a mile south  Since  the AEC has spent \$175,000 at this center. \$100,000 of this has been spent on communications. The communications system has been doubled  The AEC has an

It is not known if the radio network will be operating at the time of this test.

As you know, each of the departments and agencies in the Executive Branch of the Government is staging its own relocation. [redacted] Separate memoranda have been submitted and approved recommending that Liaison Agents accompany the Atomic Energy Commission and the Office of Defense Mobilization on their respective relocation tests. Liaison Agent [redacted] did accompany the Department of Justice to its relocation site [redacted].

It is believed that it would be to the Bureau's advantage to have each Liaison Agent accompany his agency during these [redacted] relocations. Although it is not believed that the other agencies will have problems involving the Bureau during the individual relocation tests, it is believed that we will benefit by observing the manner [redacted] and in further acquainting the Liaison Agents with the relocation sites and personnel involved in the event of an emergency.

RECOMMENDATION:

It is recommended that approval be given for each of the Liaison Agents to accompany his respective agency during the present.

In order to secure the answers to several questions raised by field offices in connection with the above, it was necessary for me to contact Mr. M. E. Roebuck in charge of security procedures for the Treasury Department. Upon the conclusion of our conversation regarding the questions asked by the field offices, Mr. Roebuck advised me that he had been talking to one of his representatives who had returned from Boston and that individual had informed him that our Boston Office had been in contact with their Regional Disbursing Office and their office was very favorably impressed by our evident desire to be adequately prepared in the event of an emergency involving the operation of the Bureau's war plans on payroll, voucher and accounting procedures. While he did not say so in specific words, Mr. Roebuck indicated that it was rather unusual to find a Government agency actually doing its best to gear itself to operate effectively in the event of an emergency. Roebuck stated that we should not hesitate to call upon him at any time for any needed assistance along these lines. I, of course, thanked him and told him that we would certainly do so if the occasion arose.

By way of background information, this gentleman has in the past very appreciably assisted this office on an informal basis in drawing up the war plans on payroll, voucher and accounting procedures.

RECOMMENDATION:

None. Submitted only for informational purposes.

 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

Reference is made to my memorandum of 12-14-55, under the same caption recommending that Liaison explore the possibility of getting details of an alert at the same time details are given to the White House and the National Indications Center (NIC). At the present time the details for an Air Defense Emergency and Air Defense Warning would only be furnished to the above agencies. Other agencies, including the FBI, would merely be advised of the alert by the U. S. Air Force Command Post. If the alert was predicated on intelligence information, we would be assured of having the details either through normal dissemination channels or from our representation at NIC. If the alert originated at the U. S. Air Force Command Post as a result of information obtained through the Air Defense Warning network, then our source for the details is the NIC.

This matter has been discussed by Liaison with General R. E. Koon, Deputy Director of Operations, U. S. Air Force, and Colonels J. G. Russell and J. L. Buckley, Chief and Deputy, U. S. Air Force Headquarters Command Post. During the discussion, the above officers very pointedly made the distinction between intelligence agencies as represented by NIC and operational agencies, suggesting that at the time of an alert intelligence agency functions are at best secondary. The Bureau's domestic and essential wartime functions were clearly pointed out to the above, making it clear that similar to the Air Force the Bureau would be an operational agency at the time of an attack. It was pointed out that at the time of an alert if the Bureau had the basis for the alert being initiated, the Director would be able to make a decision as to whether or not certain initial action could be taken to trigger our wartime programs.

General Koon advised that he appreciated the Bureau's need-to-know and instructed Colonels Buckley and Russell to come up with a recommendation whereby this information could be passed to the Bureau. The General suggested the use of an unlisted telephone which would permit the Bureau to immediately call the Command Post back after receiving an alert to obtain the details. Colonel Buckley pointed out this arrangement might not be satisfactory in view of the possible jamming of the commercial switchboard. Colonel Buckley suggested that the Bureau be furnished the same information as is furnished the White House at the time of the initial call, namely the minimum essential facts causing the alert without evaluation or estimate of the enemy forces or time.

The Air Defense Command Post at the Pentagon disseminates

The FBI can receive this background information from the National Indication Center through our membership on the Watch Committee and the Intelligence Advisory Committee. The White House is also prepared to immediately furnish progress reports concerning a possible attack to the sensitive Government agencies including the FBI. Insofar as known there will be no holdup on passing this vital information along to the Bureau from the White House.

On August 25 and 30, 1954, a Liaison Agent contacted Colonels Russell and Mason of the Command Post who advised that the

The Colonels pointed out that it would be impossible for the Command Post to furnish all agencies, details, as to where and when the attack might occur. These individuals advised that the White House would be in a position to advise appropriate Government agencies and if the Bureau so desired arrangements could be made with the Air Defense Command at Colorado Springs to receive notice of possible attack. Colonel Russell pointed out that all information coming to the Pentagon Command Post would be more readily available at the headquarters of the Air Defense Command in Colorado Springs. The Denver Office has arranged with the Air Defense Command at Colorado Springs to be advised of all matters of interest to the Bureau in an emergency.

The 12/31/55 issue of "Technical Survey" carries an item concerning water purification unit which might have application at the Bureau's relocation site. According to information outlined, Army Engineers at Ft. Belvoir, Virginia, have developed a truck-mounted water purification unit which can make radioactive water safe to drink in 30 minutes. It is claimed to eliminate water contamination even though the enemy used his whole range of chemical, bacteriological and radiological methods. The unit can be put together by three men in less than 90 minutes and can be operated by one man. It is reported to turn out 3,000 gallons of water per hour from the most polluted stream. This item originally appeared in the New York "Times."

You might want to consider getting information from contacts at Ft. Belvoir regarding the availability of such a unit, its applicability, et cetera.

ACTION: For your information.

[redacted]

This material should be placed in the custody and control  
of the Department's Cryptographic Custodian. Physical security  
requirements and operating instructions are as prescribed in  
attachment to FBI letter November 17, 1955, by which emergency  
reserve key lists were forwarded to you.

In the event [redacted] begins on or near  
the end of one calendar month and continues into the next month,  
the key list [redacted] will be valid for the [redacted]  
period. Operators will proceed from the last line on the key list  
to the top of the [redacted] period goes into the next calen-  
dar month. Under no circumstances, however, can rotor keys set forth  
on the key list for any given day be re-used on a similar numbered  
day in a subsequent month. Key list settings are valid for one day  
only.

Receipt of attached key lists should be acknowledged promptly  
in writing, listing serial numbers of each key list received.

Attached key lists are to be burned by cryptocleared personnel  
thirty days following the last date of use [redacted]  
[redacted] and the FBI notified of this destruction.

Please advise FBI promptly of destruction by burning of key  
lists No. 2 and No. 3. [redacted]

At 9:20 A.M., January 25, 1956, Liaison was advised by Mr. Dennis A. Flinn, Office of Security, Department of State, of the State Department's order to evacuate today.

[redacted] Flinn notified the Bureau in order that the Bureau may send its liaison representative to State's emergency relocation site [redacted]. The Bureau's war plans call for Liaison Agent M.W. Kuhrtz to evacuate with State in a liaison capacity. Flinn advised that he was not aware of any compelling reason for a Bureau representative's presence [redacted] for the purpose of this [redacted].

After checking with you, Mr. Flinn's office was advised that in the absence of any compelling reason, the Bureau would not participate this date (1-25-56) in this [redacted].

ACTION:

The above is submitted for information. Flinn advised that to his knowledge there would be no problems involving the Bureau. Kuhrtz is familiar with State's emergency relocation site having acted in a liaison capacity [redacted] at which time State evacuated to the above headquarters.

b7E

Colonel Richard G. Cox, Office of Special Investigations, advised Liaison January 25, 1956, that the Air Force will hold [redacted]. He stated that there would be very little actual participation due to the extensive travel involved in reaching the relocation site [redacted]. According to Cox, the only Air Force personnel who will actually travel [redacted] will be two aides out of the offices of General Carroll and General Landon.

Cox advised that at the present time the Air Force is contemplating a very limited participation [redacted]. At the present time they are considering relocating 25 key Air Force officers [redacted]. Cox pointed out that this was again a transportation problem. The Command Post at the Pentagon is writing the Air Force war plans.

ACTION:

For your information. In view of the Air Force meager participation [redacted] there is no necessity for FBI liaison, participating and we will not send a liaison representative with the Air Force [redacted].

DECLASSIFICATION AUTHORITY DERIVED FROM:  
FBI AUTOMATIC DECLASSIFICATION GUIDE  
DATE 06-04-2012

In connection with your responsibility for the emergency relocation of the Director and the Attorney General, you are being provided with four copies each of the following charts entitled:

(1)

(2)

Both of these documents are classified "~~Top Secret~~". There are also enclosed four copies of a ~~secret~~ chart entitled "Relocation Site. Information Reflecting Routes [redacted]". If you deem it desirable, these documents may be made available to the personnel in your office who have been given specific assignments in connection with the relocation of the Director and the Attorney General. However, they must be maintained in accordance with security classifications and appropriate records of their distribution should be maintained in your office. The Bureau should be advised of the manner in which these documents are distributed.

ReBulet 11-3-55 instructing you to make plans to dispatch an Agent [redacted] to meet the Attorney General at that point and thereafter take him to his desired destination upon receipt of information indicating an evacuation of Washington or the relocation of employees of the Executive Branch of the Government.

In order to insure that the designated personnel of your office are fully familiar with the location [redacted] and other destinations of the Attorney General, there are attached herewith three copies each of the following entitled charts:

RECEIVED  
FBI  
1243

(1) Route to [redacted]

(2) Route to [redacted]

[redacted] These two items are classified "Top Secret."

(3) Relocation Site, Information Reflecting Routes classified "Top Secret."

You are hereby authorized to make one copy of each of these documents available to the two employees who have been designated to carry out the above responsibility. These documents must, of course, be maintained in accordance with their security classification and their distribution should be appropriately recorded in your office. In the event these assignments are changed, the documents must be changed in accordance therewith and proper record of this maintained.

PURPOSE:

To reconsider feasibility of maintaining [redacted] summary reports and subsequent annual investigative reports on all Security Index cases for use in event of an emergency.

PREVIOUS CONSIDERATION:

This problem was previously considered by the Executives Conference on August 10, 1954, and September 13, 1954. At that time, the Executives Conference took into consideration the requirement by Office of Defense Mobilization that key agencies duplicate essential operating records in a repository outside of target areas for use under wartime conditions. The suggestion at that time was not adopted as it was felt that the duplicate set of Security Index cards and related documents which were being set up [redacted] along with records in the field, should provide adequate controls during the first part of any war emergency which requires evacuation from Washington. At that time, we had approximately 26,000 Security Index subjects while today we have 12,900.

EXTENT OF DECENTRALIZATION OF ESSENTIAL RECORDS DEALING WITH  
SECURITY INDEX SUBJECTS:

A complete set of the Security Index is maintained [redacted] along with fingerprint records and handwriting specimens in certain cases.

Memorandum for Mr. Belmont

Field Decentralization

In addition to the two sets of Security Index cards maintained in the headquarters city, each field office maintains at a Resident Agency a complete set of Security Index cards containing descriptions and, in most cases, photographs.

In addition to the above, it is noted that copies of all security reports maintained at the Seat of Government are also maintained in the office of origin.

ADVANTAGES:

The only advantage to the maintenance of the duplicate set of summary reports in Security Index cases at the Bureau's relocation site is to have such a set available in the event both the Seat of Government and a field office are destroyed by enemy action. [REDACTED]. In this connection, it is noted that all field office cities, including the Seat of Government, with the exception [REDACTED] are listed by Civil Defense as critical target areas. b7E

In the event destruction of Seat of Government and a field office's records occurs simultaneously, we would be able to use the summary reports stored [REDACTED] for the purposes of (1) hearings in the event the subject is apprehended and (2) leads in conducting fugitive investigations in the event such is necessary.

DISADVANTAGES:

(1) Administrative Difficulties

To be effective, it will be necessary to maintain the reports [REDACTED] in a current condition at all times. This entails constant changes due to receipt of additional reports, addition or deletion of individuals on the Security Index, changes in names and aliases used, and maintaining of b7E

*Memorandum for Mr. Belmont*

*some type of index for ready use. Since annual reports are required in Security Index cases, there will be an increase in the number of reports [ ] constantly. Not only will this require additional clerical work [ ] but both clerical and supervisory work at the Seat of Government to keep the reports in a current condition.*

b7E

*(2) Volume*

*We presently have 12,900 Security Index subjects. By May 1, 1956, the date New York is scheduled to complete the Summary Report Project, at least one summary report will have been submitted in each case. In the great majority of these cases, an average of two additional annual investigative reports have been submitted. It is, therefore, estimated that initially approximately 36,000 reports will have to be pulled from Bureau files and forwarded [ ] with an annual increase of an estimated 13,000 reports.*

b7E

*(3) Expense*

*Based on figures supplied by Records Section, it is estimated that 94 five-drawer file cabinets will be needed immediately to handle the approximately 36,000 reports and to allow for normal expansion during the next few months. These file cabinets are not currently available and, if purchased, cost \$55 each or a total of \$5,225. It is further estimated that an additional 15 five-drawer file cabinets will be needed annually to handle the approximately 13,000 annual investigative reports that will be received.*

*Based on cost estimates furnished by the Records Section, the initial cost of pulling the reports from Bureau files is estimated at \$4,700. This*

Memorandum for Mr. Belmont

figure is based on an estimated 2,920 work hours utilizing the services of GS-3c employees at \$1.61 per hour. Maintenance cost thereafter is estimated at \$1,762 annually, approximately one-half of one GS-3 employee.

STORAGE FACILITIES AVAILABLE [redacted]

Attic - 1,700 Square Feet of Space

This is a concrete floor covered by cork and composition<sup>b7E</sup> flooring. It has one entrance and is considered a secure and safe place. Suitable lighting will have to be installed, plus an adequate cooling system. The only other secure available space [redacted] is the

[redacted] However, it is in almost constant use.

428 square feet of floor space will be needed initially to handle the 94 file cabinets with an estimated 68 square feet increase each year to take care of expansion. As noted above, 1,700 square feet of space are available.

OBSERVATIONS:

It is realized that one of the most vital functions which the Bureau will be called upon to perform in event of an emergency is the apprehension of persons dangerous to the public safety. It is essential, therefore, that sufficient information be readily available under any conditions to enable us to accomplish this objective. The only certain way that this could be done is to have not only the summary reports of Security Index subjects but the entire files of all security-matter cases reproduced and stored in absolutely safe places. However, having available Security Index cards and summary reports in all Security Index cases would be of great assistance in carrying out our emergency detention duties. It is pointed out that we would not be called upon to utilize the reports kept [redacted] unless both the Seat of Government and a field office were destroyed. ~~\_\_\_\_\_~~

b7E

*Memorandum for Mr. Belmont*

*It is to be noted that, if the summary reports are to be stored [redacted], it will be necessary, in order to utilize them properly, that (1) they be set up according to file numbers, and (2) an adequate indexing system be established and maintained [redacted] so that particular reports under a subject's name or aliases can be located.*

b7E

*RECOMMENDATION:*

*It is recommended that summary reports and subsequent annual investigative reports on Security Index cases not be set up and maintained [redacted] at the present time in view of the costs involved and the other factors set forth herein.*

FBI File 66-17440

Dec 1955: 24  
8-30-74  
E20

In my letter of June 20, 1955, to the  
Attorney General, concerning Operation Alert - 1955,  
it was pointed out that arrangements must be made  
to provide a method whereby a decision can be made  
immediately as to the launching of our Emergency  
Detention Program and the program involving taking  
enemy diplomats into protective custody. These  
programs require authority to the Bureau from the  
Attorney General and the Secretary of State,  
respectively. Unless appropriate authority is  
furnished to the Bureau immediately, the effective-  
ness of these programs will be drastically reduced.

During the briefing on the Attorney  
General's Portfolio at the Department's relocation  
site on December 8, 1955, it was noted that the  
need still existed for the making of such arrange-  
ments, including perfecting arrangements by which  
the Attorney General and the Secretary of State,  
respectively, promptly receive authority from the  
President to implement these programs.

I shall appreciate being advised if these  
matters have been worked out.

Miss Gandy \_\_\_\_\_

The Executives Conference, consisting of Messrs. Tolson, Boardman, Nichols, Belmont, Mohr, Parsons, Tamm, Holloman, Nease and Mason, on January 25, 1956, again considered the question of whether copies of summary and investigative reports on Security Index subjects should be filed [redacted]. This question was unfavorably considered by the Executives Conference in August and September, 1954, and was again reconsidered because of the reduction in the Security Index as a result of the Security Index Review project.

Present Extent of Decentralization of Essential Records  
Dealing with Security Index Subjects

A complete set of the Security Index <sup>Cards</sup> is maintained, b7E  
[redacted] along with fingerprint records and handwriting specimens in certain cases. In addition to the two sets of Security Index cards maintained in the headquarters city, each field office maintains at a Resident Agency a complete set of Security Index cards containing descriptions and, in most cases, photographs. In addition to the above, it is noted that copies of all security reports maintained at the Seat of Government are also maintained in the office of origin.

The only advantage to the maintenance of a duplicate set of these reports [ ] is to have a set available in the event both the Seat of Government and the field office are destroyed by enemy action. However, in the event this occurs, pickups could be made by the field office utilizing the set of Security Index cards maintained in the designated Resident Agency.

*Memorandum for The Director*

Feasibility of Filing Reports [redacted]

b7E

Adequate space exists [redacted] for the storage of these reports. However, in addition to the administrative difficulties involved caused by constant changes in the Security Index, the initial cost is estimated to be \$5,225 for file cabinets plus \$4,700 cost in pulling the reports from Bureau files. Maintenance cost thereafter is estimated at \$1,762 annually plus an additional expenditure of \$825 cost of cabinets needed in annual expansion.

Executives Conference Recommendation

*I concur*  
Messrs. Tolson, Boardman, Belmont, Mohr, Parsons, Tamm, Holloman and Nease recommended that these reports not be sent [redacted]. They feel that there is sufficient safeguard in duplicate reports being maintained in the office of origin and at the Seat of Government and that, from an operational standpoint, Security Index cards now [redacted] and in a Resident Agency of each field office would permit the necessary action to safeguard the internal security of the country in the event of an emergency. They further feel that any condition so serious that both Washington and a field office are bombed out would be of such serious nature that the need for these reports in that particular city would be completely secondary. In addition, they felt that the cost and time involved would not be warranted.

b7E

Mr. Nichols and Mr. Mason felt that the Bureau should have the proper tools to work with and that, if both the Bureau and a field office are bombed out, we should have reports to present to hearing boards. They felt that the cost involved is not prohibitive and recommended that action be taken to place a duplicate set of these reports [redacted]

*Memorandum for The Director*

*In the event the Director agrees with the majority, no effort will be made to file duplicate sets of these reports*

b7E

*Respectfully,  
For the Conference*

 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

Current plans provide that in a period of emergency Inspector G. C. Gearty and Liaison Agent O. H. Bartlett may be called upon to carry out the relocation of the Director. The Bureau has the responsibility for the relocation of the Attorney General in a period of emergency. If during normal working hours, this will be the responsibility of Supervisors Cavanaugh and C. Q. Smith of the Administrative Division. If during nonworking hours, it will be the responsibility of Supervisor Cavanaugh and Supervisor Hanning of the Records and Communications Division. If the Attorney General uses the Office of Defense Mobilization [redacted] evacuation plan, an Agent of the Richmond Field Office will meet him [redacted] and provide the necessary transportation to his desired destination.

The SAC, WFO, may be called upon to provide additional manpower, if necessary, to carry out the evacuation of both the Director and Attorney General. To insure that each of the individuals mentioned above is fully aware of the Bureau relocation site, the Department relocation site, [redacted] and the Pentagon [redacted] where it may be necessary to deliver both the Director and the Attorney General in an emergency, there is being made available to Inspector Gearty, Supervisors Bartlett, Cavanaugh, Smith, and Hanning one copy each of the following "Top Secret" charts: (1) Route to [redacted] (2) Route to [redacted] and Pentagon [redacted] and one copy of a secret chart entitled [redacted]

Because these documents are classified, they must be maintained under proper conditions at all times. There are also attached memoranda to the SAC's, WFO, and Richmond, enclosing 4 copies each of the above documents to the SAC, WFO, and 3 copies each to SAC, Richmond, for appropriate distribution to personnel in offices.

## ACTION:

That the attached memoranda to SAC, WFO, and SAC, Richmond, go forth.

By memorandum for agency relocation officers dated January 16, 1956, Office of Defense Mobilization (ODM) has requested a special report on Form ODM-142 to reach ODM by February 15, 1956.

Similar data was made available to ODM through the Department of Justice in 1954.

Attached are copies of completed ~~Form~~ ODM-142. It will be noted under questions 3B and C that we have included all employees at the Seat of Government and all employees from the field as being essential under a "relocation for duration" concept. This is in keeping with our prior statements to ODM to the effect that in a period of emergency all Bureau personnel would be considered essential for Bureau operations.

RECOMMENDATIONS:

(1) It is recommended that Liaison return the original and one copy of the attached document to ODM.

2/1/56 Original and 1 Copy to H. F.  
Hurley, ODM. OAHB

(2) It is recommended that one copy of the attached Form ODM-142 be made available to Mr. John Airhart, Relocation Officer of the Department, per his oral request.

This is another in the series of monthly memoranda setting forth the status of unfinished items being considered in connection with the Bureau evacuation plan.

I COMMUNICATIONS

a. Cryptographic Equipment: All the cryptographic equipment previously designated for the relocation site is now [redacted]. However, the following "on line" equipment designed for safe teletype communications between [redacted] has not been installed:

2 [redacted] (rotors) cipher machines;

2 [redacted] (one-time tape) machines.

Information from the American Telephone and Telegraph Company indicates this equipment will be installed in late February or early March after similar companion equipment has been installed in the communications center [redacted]. The American Telephone and Telegraph Company is making these installations for the Office of Defense Mobilization (ODM).

b. Intercom System [redacted]: The Director's executive station has been received from the Dictograph Company and is mounted in an appropriate cabinet. The Dictograph Company has not completed the rewiring of this and other instruments necessary to complete the system. Laboratory Division following.

EMERGENCY HEADQUARTERS FOR 5.0.6

Memorandum for Mr. Boardman

III ALLOCATION OF SPACE [redacted]

b7E

On 12-29-55 the [redacted] was awarded the contract to install partitions to be used in classrooms 1 and 2 [redacted]. Drawings and diagrams of the partitions to be erected are to be submitted by [redacted] at an early date and it is anticipated that the partitions will be delivered within two weeks after these drawings and diagrams have been approved by the Bureau.

IV GAS MASKS

Delivery of 290 additional gas masks is expected in early April. They will be distributed [redacted] as well as [redacted] Field Offices.

ACTION:

b7E

(1) The Laboratory Division is following the procurement of parts and the necessary rewiring for the installation of the Intercom system at the relocation site.

(2) The Administrative Division will continue its efforts to insure that temporary partitions for classrooms 1 and 2 [redacted] are delivered at an early date. Upon receipt of the gas masks mentioned above the Administrative Division will make appropriate distribution.

(3) Liaison Section, upon receipt of authority from ODM, will work out details [redacted] carry out the emergency evacuation of key Bureau personnel.

4/21/2010

FROM : SAC, RICHMOND (66-1477)

~~TOP SECRET~~

SUBJECT: BUPLANS ~~EMERGENCY~~ RELOCATION  
OF ATTORNEY GENERAL

ReBulet 1-26-56 transmitting to this office three copies of charts entitled:

- (1) Route to [redacted]
- (2) Route to [redacted] and the [redacted]
- (3) Relocation Site, Information Reflecting Routes to [redacted]

In accordance with Bureau instructions, one copy of each of the above-entitled charts have been furnished to Special Agents WOODROW P. LIPSCOMB and WILLIAM D. TEMPLE, assigned to the Alexandria Resident Agency, who have been designated by this office to meet and transport the Attorney General in the event of an emergency. The documents have been appropriately charged out to these Agents, and they have been given instructions to maintain these charts in a safe and secure manner in the Alexandria Resident Agency.

Copies of these charts were also furnished to Special Agent [redacted] Resident Agent, Winchester, Virginia, with instructions to study the charts and make appropriate cryptic notes for his use and guidance should it be necessary to utilize him as alternate in connection with the above plans. He was also instructed to maintain these notes in his personal possession in a safe manner at all times. SA [redacted] has complied with these instructions and returned the documents supplied him to this office, and these are being maintained in the 1-A exhibit section of instant file.

In addition to the above action, SA'S LIPSCOMB, TEMPLE, and [redacted] met on February 1, 1956, at a point near [redacted] observed the roads in that vicinity, and familiarized themselves with same in the interest of speedy execution of this plan should an emergency arise.

Rosen \_\_\_\_\_  
Tamm \_\_\_\_\_  
 Sizoo \_\_\_\_\_  
Winterrowd \_\_\_\_\_  
Tele. Room \_\_\_\_\_  
Holloman \_\_\_\_\_  
Gandy \_\_\_\_\_

We have a leased teletype circuit between our Teletype Unit, Room 5644, and our teletype room [redacted] private line [redacted]. Monthly cost of this circuit is \$200.95 per month. We have had little occasion to use this circuit except during special conferences [redacted] emergency relocation tests, and test messages to give regularly assigned [redacted] personnel experience in teletype circuit and crypto operations.

If the circuit were removed we could use [redacted] facilities between the Bureau and [redacted] for a limited volume of traffic; however, the President has the authority, in a readiness emergency, to order the relocation of government personnel having essential wartime functions. If this occurred, the leased circuit would be essential to pass traffic to and from the executives [redacted] and at the Bureau.

We have no assurance as to the time element or availability of circuits to have the leased circuit reinstalled in an emergency if it were discontinued now. Under the circumstances, and since the circuit's yearly cost is less than the annual salary of one GS-2 employee, I feel that we should maintain the circuit as is.

RECOMMENDATION:

That the [redacted] Washington leased teletype circuit be kept in service.

Remylet dated January 25, 1956, in captioned matter.

Transmitted herewith to the Bureau are two copies of detailed plans and procedures of this office for taking into protective custody all enemy nationals attached to Soviet bloc diplomatic establishments in Washington, D. C., when the PRODIP program is instituted. Also being transmitted herewith to the Bureau is a list of all Soviet bloc nationals attached to Soviet bloc diplomatic establishments in Washington, D. C., as of February 1, 1956.

It is requested that the Bureau forward one copy of the above described instructions, plans, and procedures of this office and the list of Soviet bloc nationals in Washington, D. C., as of February 1, 1956, to the Bureau's relocation site, from which location these records can be transported to the WFO relocation site in an emergency. The other copy of the enclosed instructions, plans, and procedures of this office should be retained in the Bureau's file in captioned matter for informational purposes.

For the added information of the Bureau, WFO will transmit to the Bureau each month, for forwarding to the Bureau's relocation site, a list of all Soviet bloc nationals attached to Soviet bloc diplomatic establishments in Washington, D. C., as of the first of that month.

RE: ~~BUPLANS - FIELD RELOCATION~~ (U)

SAC Letter 55-N is amended as follows:

Office	Relocation Site	Available Communications
--------	-----------------	--------------------------

San Francisco	[REDACTED]	[REDACTED] (U)
---------------	------------	----------------

During the relocation tests, [REDACTED] will be used; contact SA [REDACTED] Cyprus 5-4605 or Cyprus 5-4606. (U)

b6  
b7C  
b7E

Boston	[REDACTED]	[REDACTED] (U)
--------	------------	----------------

If the details of SAC Letter 55-N (list of field office relocation sites and available communications), as supplemented by SAC Letters 55-Q, 55-U, and 55-W, do not appear in your Buplans as such, the information must be available in the form of an appendage to your Buplans and be available to all members of the Chain of Command during an emergency. (U)

Henceforth each office having a change in relocation site will advise the Bureau and all offices by registered mail. Prior Bureau approval to change a relocation site is necessary. Changes in telephone or teletype numbers do not require prior Bureau approval and should be submitted to Bureau and all offices immediately. (U)

We have a leased stand-by telephone circuit between the Switchboard [ ] and the WFO's emergency relocation site [ ]. Circuit routing and cost is shown on attached chart - "PRESENT CIRCUIT." Lines between the two relocation sites avoiding Washington, D. C. were not available when the circuit was installed. We have been following the matter with the telephone company continuously in order to obtain circuit routing which would bypass Washington, D. C. or other major target areas.

The AT & T has now advised that an avoidance circuit is available. See attached chart - "AVOIDANCE CIRCUIT."

Circuits passing through Washington, D. C. would be cut off after any modern A-weapon attack. Avoidance circuit is cheaper on unactivated (stand-by) basis than present circuit by \$42.00 per month. I recommend that we accept the avoidance circuit in lieu of the present circuit now while the lines are available.

In addition, to a leased telephone circuit between the Bureau's and the WFO's relocation sites, the WFO site should be equipped with a regular telephone to back up the leased circuit and to provide facilities for making calls to points other than [ ]. A line is presently available to install a telephone trunk in the WFO relocation site on [ ] exchange - cost \$42.45 per month, nonrecurring installation cost \$5. I feel that telephone facilities at the WFO relocation site are inadequate without such an installation.

RECOMMENDATIONS: (see next page)

Memorandum to Mr. Nichols

February 13, 1956

RECOMMENDATIONS

(1) That we accept the avoidance circuit for the [redacted] leased telephone circuit while the facilities for same are available and confirm the order to AT & T by letter now.

b7E

(2) That we have a telephone trunk on the [redacted] exchange installed in the WFO's relocation site and confirm the order to the C & P Telephone Company now.

A letter to the Telephone Company to implement above recommendations is enclosed. Mr. McGuire has discussed these two items with Colonel E. G. Bliss of the Chesapeake and Potomac Telephone Company who has rechecked them and recommends them for FBI on basis of savings involved on the EMC circuit, avoidance of Washington and greater security of service in an emergency.

Colonel Edward G. Bliss  
Chesapeake and Potomac Telephone Company  
930 H Street, Northwest  
Washington 5, D. C.

Dear Colonel Bliss:

It is our understanding that facilities are not available to furnish our space [redacted] with a foreign exchange trunk on [redacted] exchange at a monthly rate of \$42.45, nonrecurring installation charge \$5. In addition, we understand that the American Telephone and Telegraph Company can now furnish us with the following rerouting of our [redacted] at monthly charges of \$88 unactivated and \$640 activated:

Please accept this letter as confirmation of our desire to have the above-mentioned foreign exchange trunk installed and [redacted] rerouted now.

We would like to keep our present [redacted] operable until the rerouting is completed and would, at that time, appreciate your informing our Mr. J. J. McGuire of any changes in the activation procedure for circuit 1017 resulting from the rerouting.

With best wishes and kind regards,

Sincerely yours,

J. Edgar Hoover

ORIGINAL COPY FILED IN 66-04-23176

~~CONFIDENTIAL~~

1. Office or offices to which an employee desires transfer (do not merely state any southern office or an office in Middle West, etc.).
2. Reason for employee's request. Reason should be explored with employee and information included as to whether request is based on urgent hardship or whether alternate solution may be worked out.
3. Whether you recommend transfer.
4. Comments regarding employee's work and attendance record. No employee will be considered unless it clearly appears that both are completely satisfactory because merit as well as hardship is a paramount factor.
5. Whether employee is willing to defray expenses of transfer.
6. Whether you are willing to release employee for transfer and whether workload of office necessitates a replacement if employee transferred.
7. If replacement necessary, advise by what means you propose to secure a replacement; namely, whether you wish to request authority to recruit locally or if you will request authority to hire individual from your Eligibility List.

In handling an employee's request for transfer, the employee should not be misled into thinking his chances for a transfer are favorable before the matter has been considered by the Bureau.

Very truly yours,

John Edgar Hoover

The Office of Defense Mobilization (ODM) in a memorandum dated 10/14/55 to the Heads of Executive Departments and Agencies instructed that all individual agencies that participated in the Operation Alert 1955 conduct a test of their own operations at their relocation sites sometime during the period 11/15/55-2/15/56. The purpose of this test was to check on the alerting procedures, the evacuation of headquarters, the speed with which the site can be activated, and a test of the emergency communications system over an eight-hour period.

The Bureau conducted its test exercise on 12/8/55, and the results were considered successful and were reported to ODM. Liaison Supervisor W. T. Whaley, who will accompany ODM to their relocation site in an emergency, has been contacted several times during the past two weeks by officials of ODM, stating that A. S. Flemming, Director, ODM, was aware that the deadline for the test was drawing near and that the test should be run before the fifteenth. During the past two weeks, Whaley and officials of ODM have been alerted for the test. On 2/16/55, William Elliott, Security Chief, ODM, advised that he was amazed and could not understand why Flemming had not called the test since ODM would be open to criticism inasmuch as they set up the plans for all the tests. This, of course, is just another example of the confusion within ODM.

RECOMMENDATION:

None. For your information.

The Suggestion: *AUXILIARY SPACE FOR SAC* *m. J. J. J.*

The Executives' Conference consisting of Messrs. Nichols, Boardman, Mason, Callahan for Mohr, Parsons, Tamm, Rosen, Holloman, Nease, and Belmont on February 15, 1956, considered the suggestion of Special Agent Fred B. Caldwell of the San Antonio Office to place a copy of the field division war plans plus certain supporting documents in a designated place where they would be readily available in an emergency.

The supporting documents suggested by Special Agent Caldwell are copies of SAC letters reflecting the relocation sites and means for contacting each field office as well as the Bureau, emergency payroll plans, vouchers and necessary forms for use in an emergency, and a copy of payroll table number 37 and a Time and Attendance Manual.

Items Now at Selected Resident Agencies:

There are on file in a selected resident agency in each field office (except Honolulu and Washington Field) a set of the division's Security Index cards and forms necessary to the execution of the Emergency Detention Program. In September 1955 when the field was instructed to place this set of Security Index cards at the resident agency, the field was also told to send a copy of its Emergency Detention Program Survey to the resident agency.

In November 1955 (SAC Letter 55-68) the Bureau gave appropriate instructions to the field regarding payroll vouchers and accounting procedures, including instructions that one copy of the instructions should be sent to the resident agency, with appropriate forms. Administrative Division feels this sufficiently covers payroll and attendance matters.

## **Memorandum for the Director**

We have not previously instructed that the field divisional war plans should be sent to the selected resident agencies because we felt there is too great a risk in providing 50 additional points where such war plans would be stored. This matter was discussed with SAC's Whelan (San Francisco), Auerbach (Seattle), Mumford (Atlanta), and Lopez (Savannah) by Belmont during their recent visits to the Bureau. These SAC's did not feel that it was desirable to send the field war plans to the resident agencies because the war plans provide a summary of the Bureau's planning in an emergency whereas those items now stored at the resident agency do not give the over-all picture of the Bureau's plans. In this respect, Belmont went over with these SAC's the material now stored at the selected resident agencies. The SAC's felt that the "Emergency Detention Program Survey" now at the resident agencies is not essential and because it gives an over-all picture of the Emergency Detention Program in each respective office, these Surveys should be withdrawn from the resident agencies and returned to the field offices. With this Belmont agrees.

### **Items Now at Bureau's Relocation Site:**

We have at the Bureau's relocation site a complete set of Security Index cards with the accompanying forms and a copy of the plan prepared by each field office for the execution of the Emergency Detention Program. We also have at this site a copy of the war plans of the divisions of the Seat of Government and of each Legal Attache. We also have copies of the other material mentioned by Special Agent Caldwell except for copies of the individual field division war plans.

The field division war plans contain the detailed plans, aside from the Emergency Detention Program, that reflect the planning of the division for evacuation, chain of command, communications, supplies, codes, etc. They are drawn up based on instructions from the Bureau following the over-all Bureau war plans.

### **Executives' Conference Recommendations:**

The Executives' Conference was unanimous in its recommendation that we should not place copies of the field war plans in the selected resident agencies because of security factors. The Conference was unanimous that the Emergency Detention Program Surveys for the field should be withdrawn from the resident agencies inasmuch as it does not appear that the value to the field is commensurate with the risk of storage at resident agencies. The Conference unanimously recommended that we instruct the field offices to store at the selected resident agencies a list of the field office relocation sites and telephone numbers.\* Attached is a proposed SAC Letter instructing the field to withdraw the Emergency Detention Program Surveys from the resident agencies and to forward to the resident agencies a list of the relocation sites, their telephone numbers, as well as the means of contacting the Bureau relocation site. \*and the means of contacting Bureau relocation site.

Memorandum for the Director

*Iconson*  
*Tolson*

Following a discussion as to whether copies of the individual field division war plans should be sent [redacted] Messrs. Nichols, Boardman, Parsons, Tamm, Nease, and Belmont & Holloman recommended against such action. They felt that, if the war plans of a field division were destroyed because of an attack, the primary function of the division would be to make the necessary arrests and to conduct investigations of possible espionage, sabotage, etc. The material essential to these functions is already at the resident agencies. The Bureau can provide any additional instructions necessary from its relocation site. To maintain the individual field war plans [redacted] would be a heavy administrative function inasmuch as we receive daily changes from the field. b7E

Messrs. Rosen and Mohr recommend that the war plans of 10 or 12 of our major offices be maintained [redacted] in the belief that the burden of keeping them up to date is warranted by the value of having an extra set of these plans [redacted] b7E Mr. Mason recommended that copies of all field division war plans be maintained [redacted] in the belief that the value of having the extra set of plans [redacted] outweighs the administrative burden of keeping them current.

In the event you approve, the recommendations of the majority of the Conference will be followed.

Respectfully,  
For the Conference

✓  
Clyde Tolson

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT

DATE: February 3, 1956

FROM : MR. R. R. ROACH

SUBJECT: BUREAU WAR PLANS  
OPERATION ALERT 1956

Tolson \_\_\_\_\_  
Boardman \_\_\_\_\_  
Nichols \_\_\_\_\_  
Belmont \_\_\_\_\_  
Mohr \_\_\_\_\_  
Parsons \_\_\_\_\_  
Rosen \_\_\_\_\_

On February 3, 1956, Mr. Bartlett of the Liaison Section who is the Bureau's representative on the Inter-Agency Planning Group (ODM) and Mr. McArdle also of the Liaison Section who is the coordinator of the Bureau's war plans attended a meeting of the Inter-Agency Planning Group at the Executive Office Building.

Referral/Consult

At the February 3 meeting it was definitely decided to start the June test at 10:00 a.m. EST June 15, 1956. This test will be concluded at 4:00 p.m. EST June 21, 1956. This year's test will include much more Civil Defense and Military participation than the June, 1955, test. It does not appear that the Bureau will be required to participate to a greater extent than last year. We will be furnished, however, information well in advance of the test, presumably about March 15, 1956, by FCDA having to do with radioactive fall-out.

Referral/Consult

It appears that there is a much more realistic approach to the forthcoming test than the test held last year.

There is no immediate action to be taken by the Bureau at this time. Liaison will continue to follow this matter closely with ODM on a daily basis.

MR. TOLSON

2/21/56

E. D. MASON

**DEFENSE SECRETARIES' CONFERENCE (SECON)**

**JUNE - 1956**

Col. [redacted]

b6  
b7C  
b7E

[redacted] this afternoon contacted SAC [redacted] at [redacted] and advised that Secretary Wilson now desires to schedule SECON at [redacted] June 21 - 24, 1956.

As you know, ODM has scheduled the 1956 Test Alert from 6/15 - 21/56 (ending at 4 PM). Col. [redacted] is aware of this scheduled alert and told [redacted] that Dr. Fleming, ODM, has assured Secretary Wilson that the test will be ended by noon on 6/21. [redacted] advised Colonel [redacted] that it would be impossible to convert [redacted] to SECON billets by 2 PM, 2/21 (scheduled time of arrival of SECON guests) as some of the billet space would be utilized as office space prior to their arrival and it would be impossible to have [redacted] work parties in [redacted] during the test alert.

b6  
b7C  
b7E

Colonel [redacted] told [redacted] that he recognized the problem involved in converting [redacted] and that he was going to call Mr. George A. Wyeth, Jr., Conference Coordinator in Mr. Wilson's Office, and advise him of the conflict and of the necessity of at least 24 hours to ready [redacted] for the conference. Colonel [redacted] told [redacted] that he was going to suggest that Mr. Wilson talk to Dr. Fleming and endeavor to shorten the FBI's participation in the alert to enable [redacted] to be made ready for SECON and that without [redacted] adequate billeting space was not available. [redacted]

b6  
b7C  
b7E

[redacted] advised Col. [redacted] that the FBI is committed to participate in the test alert and that the conflicting dates would have to be ironed out between Secretary Wilson and the Director of ODM. Col. [redacted] told [redacted] he appreciated everything the Director has done for the [redacted] and for the success of the Secretaries' Conference in the past.

The attached notebook sets forth the chain of command and relocation site of each Bureau field office. This document has been prepared for retention at the Bureau relocation site as part of the essential records which the Bureau may need during a period of emergency. This will be a ready reference for the Bureau official in charge of the Bureau relocation site and will reflect the identity of those individuals in each field office who should be familiar with the over-all field office Buplans and who have been placed in the chain of command in each office. This document will be kept current as changes come in from the field.

b7E

RECOMMENDATION:

That the attached document entitled, Field Chain of Command and Relocation Sites, be retained among the confidential records at the Bureau relocation site.

Re my memorandum dated February 13, 1956, captioned as above.

Mr. D. W. Hill, Commercial Representative of American Telephone and Telegraph Company, advised February 27 last that the avoidance route for [ ] would be available for activation around April 2, 1956. This routing, avoiding Metropolitan Washington, was requested by Bulet to Colonel Edward G. Bliss of the Chesapeake and Potomac Telephone Company on February 15, 1956. b7E

Mr. Hill stated he would advise us later as to the exact date that the avoidance circuit would be ready for activation.

Activation procedure for this circuit will be the same as for [ ] - Call Transmission Supervisor, AT & T Test Room at Richmond, Virginia, telephone number Richmond 2-9121, extension 3424, or if busy 3375 or 3308. State that "This is Mr. Louis B. Nichols of the FBI, Washington, D. C., establish [ ] telephone between [ ]" b7E

You will be further advised when this circuit is ready for our use and appropriate war plans revisions will be made at that time.

RECOMMENDATIONS:

None. For information only.

Bulet of January 23, 1956, addressed to Chief [redacted] Division, requested that certain Joint communications publications be made available for our use in connection with the Interagency Communications System (ICS).

The complete list of publications as requested were not furnished as some have become obsolete or are no longer necessary for our use in connection with ICS operations.

Two copies of the following publications have been received; one copy of each to be retained by the Communications Section for training and one copy of each to be forwarded to relocation headquarters. The copies being forwarded to relocation headquarters should be stored in a safe place but do not require maximum security.

b7E

RECOMMENDATION:

The publications listed herein are being forwarded by registered mail to SAC, [redacted] and should be stored in the locked file cabinet located in the Telephone Room [redacted]

On 1-17-56 Mr. Bartlett of the Liaison Section talked to Mr. Innes Harris, Assistant to the Deputy Director for Plans and Readiness, Office of Defense Mobilization (ODM). Mr. Harris was asked if a date had been set for the June, 1956, test. He replied that Dr. Arthur Flemming, Director of ODM, had in mind keeping it a secret which would inject the element of surprise; however, he, Harris, was trying to be more practical so that the test would not disrupt the operation of Government over a long period of time. Mr. Harris stated that as close as he can figure, the test will commence on Friday, June 15, 1956, or Saturday, June 16, 1956, and it will last for a full seven days. He stated that this was not official but just his opinion. He further stated that several Government leaders have complained about the length of time for the test. Harris remarked that this was done at the President's insistence and there appears to be no choice but to conduct the test during a complete week. Mr. Harris stated that the Federal Civil Defense Administration will participate in the June, 1956, test to the extent of alerting local wardens and have them handle a problem. He said that this could not be done logically during a regular work week and that they were attempting to utilize a Saturday at the beginning of the test for this purpose.

Mr. Harris advised Mr. Bartlett that the next meeting of the Interagency Planning Group, of which the Bureau is a member, will take place in early February, 1956.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI (66-17381)

DATE: February 27, 1956

FROM : SAC, WFO (66-2233)

SUBJECT: BUPLANS--  
EMERGENCY EVACUATION

ReBulet January 26, 1956.

A set of the charts described in reBulet has been made available to SAs BERNARD E. BUSCHER and [REDACTED] who have certain responsibilities in connection with the relocation of the Attorney General.

b7E

The dissemination of these charts, in order to serve the most practical purpose, has been given careful consideration. If they are to be of the most beneficial usage in an emergency, it is believed a set of these charts should be located in each of the three Lookouts which may be called upon to assist under emergency conditions. Accordingly, Bureau authorization is requested to locate a set of these charts, realizing that two of them are "Top Secret" and the third is "Secret," in the Lookouts involved. These documents will be maintained in a locked closet when actual personnel are not working in the Lookouts. The Lookouts are presently occupied by agent personnel twenty-four hours a day, seven days a week. Should the Bureau concur with this dissemination, it is requested that WFO be furnished with an additional set of the charts.

 Gandy \_\_\_\_\_

Mr. Hoy Walls, Communications Chief of INS and who is in charge of the communications for the Justice Department at the Justice relocation site called my office in my absence yesterday afternoon. He talked with Communications Supervisor Alvin C. Frank. Mr. Walls informed Mr. Frank that the Department would be testing their communications facilities at the Justice relocation site next Monday, Tuesday, March 12 and 13 next and wanted to know whether we could test with them during this time the FBI-Justice leased teletype circuit which connects the Bureau's and the Department's relocation sites and also wanted to test the Department's telephone facilities by contacting us through [redacted] via microwave telephone. In addition, he desired to make some tests with our [redacted] radio station. Walls wanted to exchange some coded traffic with us via the leased teletype circuit.

We are not in a position to exchange coded traffic with the Department on their relocation test since it would render useless for further use the code practice key list which has been set up for making tests with the Department and which is being held for the June test or any joint test the Department and the Bureau may be participating in prior to that time and in addition, it would be used for any full scale test ordered by ODM prior to June.

Mr. Baker of the Laboratory has advised that our microwave circuits are being worked on at this time and any microwave telephone tests we attempted to hold with the Department now would delay the progress of the work being conducted.

I explained the situation to Mr. Walls and agreed that we would test the landline teletype between the two relocation sites and hold [redacted] radio tests with them from [redacted] if he desired with the understanding, of course, that the landline teletype tests would be at a given specified time. I had previously discussed with Mr. [redacted] the possibility of his personnel testing the landline teletype circuit and Mr. [redacted] agreed that he could do this at a specified time.

On March 12, 1956, after spending the day [ ]  
 [ ] I drove over [ ] and checked our  
 confidential records.

I discussed the maintenance of these records with  
 SAC [ ] and clerk [ ] who handles the  
 filing and maintenance of the records. All of the records are  
 maintained in the gun vault and the security afforded these  
 records is excellent.

I made a spot check of the Security Index cards  
 and found that they are in alphabetical order and are clearly  
 labeled and are being properly filed. I also made a spot  
 check of the confidential informant cards and found they are  
 likewise being properly filed and kept. The assignment cards  
 are on microfilm and are clearly marked and neatly filed and  
 are ready for instant use. I checked the charts maintained  
 to record dangerous fall-out and found them to be in proper  
 order. The Attorney General's Portfolio is properly sealed,  
 marked, and filed. All of the plans of the various field  
 offices which will be placed into effect during an emergency  
 are properly filed.

Generally, the room in which these records are kept  
 is neat and orderly, and the entire operation reflects favorably  
 on both SAC [ ] and clerk [ ]

Mr. [ ] advised me that representatives of [ ]  
 [ ] Section who also have material [ ]  
 make periodic inspections regarding their own material.

ACTION:

Continuing inspections of these confidential records  
 [ ] will be made to insure they are being properly  
 maintained.

BUREAU WAR PLANS

INTERAGENCY COMMUNICATIONS SYSTEM

Emergency Headquarters For S.O.G.

Lieutenant [ ] of the Interagency Communications System, Office of Defense Mobilization, called February 16 last and inquired when we would like our interagency on-line cryptographic equipment installed at the relocation site. Lieutenant [ ] said that they could install it any time between the 1st and 15th of March and that in all probability the installation would require two days time.

After checking with [ ] who had no preference in the matter, I called Lieutenant [ ] back on February 16 and told him that we would like the equipment installed on March 1 and 2, which is a Thursday and Friday, and requested that Lieutenant [ ] confirm the installation date since we desired to have some of our people on hand during the installation.

Lieutenant [ ] called me back on February 17 last and confirmed the fact that the installation would be made March 1 and 2 next. In addition, he advised that in connection with the send-receive on-line cryptographic equipment, no traffic from our relocation site addressed to other agencies' relocation sites could be handled through [ ] until May 15, 1956, although circuit checks with [ ] can be made any time after March 19, 1956. In connection with the receive only on-line cryptographic equipment [ ] we can make circuit checks with the Interagency Communications System's communications center at [ ] after March 19, however, [ ] will not be in a position to send actual traffic to our relocation site on this circuit until after May 15, 1956. Tentative diagrams showing locations of this equipment when installed has been made by the Cryptanalysis-Translation Section of the Laboratory and by the Communications Section and [ ] has copies of these diagrams; however, certain questions concerning exact mounting, et cetera of some of the equipment has not been worked out and can only be worked out when the installers arrive. For this reason, it is felt that

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT *3-23-56*

DATE: March 13, 1956

FROM : R. R. ROACH *R*SUBJECT: BUPLANS - OPERATION ALERT, 1956Emergency headquarters for S.O.G.

Mr. John Airhart, Department relocation officer, confidentially advised SA McArdle of the Liaison Section today that during the Cabinet meeting last Friday, March 9, it was announced that Congress would participate in the forthcoming OPERATION ALERT and that the Office of Defense Mobilization was instructed to consult with Congressional leaders to determine the date and extent of Congressional participation in this exercise. Airhart conjectured that more than likely the original dates (June 15-21) set for the exercise would be changed and that the over-all period originally set for 7 days would be reduced.

Airhart advised that he was instructing Ben Willis of the Department to send a copy of the Cabinet paper relative to the foregoing to the Bureau in the very near future, at which time it will be analyzed.

For your information

EX-108

b7E

b7E

Should you become detached from the embassy staff in an emergency and should you be able to make your way to any United States military establishment, you would be entitled to send communications to the Bureau over this system. This, of course, would be contingent upon your establishing your identity satisfactorily to the commanding officer of that military establishment. Effort has been made by the Bureau to determine just what identification would be necessary. Insofar as the Bureau is able to learn there is no fixed policy on this, but it would be incumbent upon you to convince the commanding officer of your identity and position. If necessary he, himself, could communicate through the system with the Bureau to verify this identity insofar as possible.

RECEIVED READING ROOM  
FBI

PER. FILES

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT

DATE: March 20, 1956

FROM : MR. R. R. ROACH

SUBJECT: 6 BUPLANS - EVACUATIONEmergency Headquarters For S.O.G.

You will recall that 184 individuals have been selected to man the relocation site for the first 24 to 48 hours and that Bureau evacuation plans provide that each of these individuals is to be "checked off" in the corridor outside Room 1541 prior to departing for the relocation site. In order to make certain that the "check off" list maintained by Domestic Intelligence Division is current at all times, it is believed that each executive office and division head should submit changes in their evacuee and alternate evacuee list as they occur, thus affording this division an opportunity to keep the "check off" list current at all times. The list of evacuees and their alternates should be checked by each executive office and division head each 60 days to verify its accuracy.

## RECOMMENDATIONS:

(1) That each executive office and division head submit a list of evacuees and alternate evacuees to the Liaison Section, Domestic Intelligence Division, not later than 3-23-56.

(2) Thereafter, each executive office and division head submit additions and deletions to their evacuee and alternate evacuee list to the Liaison Section as they occur. These changes may be submitted by routing slip. Each 60 days the list of evacuees and their alternates will be checked with each executive office and division head to verify its accuracy.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT

DATE: March 20, 1956

FROM : MR. R. R. ROACH

SUBJECT:

BUPLANS RELOCATION - IMMIGRATION  
AND NATURALIZATION SERVICE (INS)

Emergency Headquarters For S.O.G.

John Airhart, Department Relocation Officer, volunteered to SA McArdle of the Liaison Section on 3-19-56 that there was some possibility that General [ ] may change the relocation site of INS [ ] to [ ]

[ ] Airhart did not volunteer any information as to the site which General [ ] may have in mind but you may recall that the General was most interested in [ ]

and that this site was surveyed by Mr. Belmont and other Bureau officials during the Summer of 1955 and found to be quite unsatisfactory from Bureau standpoint.

Attention: Lieutenant General [redacted] USA (Ret.)  
Assistant to the Director for Plans and Readiness

Dear Sir:

I am in receipt of your letter dated March 19, 1956, pertaining to the formation of an Inter-Agency Communicators Advisory Committee. I understand that the purpose of this committee is to coordinate matters relating to the operational aspects of the Inter-Agency Communications System.

In this connection, I am pleased to advise that Mr. Arthur J. Baker will serve on this committee, representing the Federal Bureau of Investigation. He will be available for the initial meeting on Friday, March 30, 1956, at 10:00 A.M., in Room 159, Executive Office Building.

Very truly yours,

J. Edgar Hoover

John Edgar Hoover  
Director

NOTE: Since the Bureau is a part of the Inter-Agency Communications System linking the relocation centers of the critical agencies, it is believed that the Bureau should be represented in order to keep abreast of the planning for periodic alerts and any proposals raised which would affect FBI operations directly or indirectly. SA Baker is already familiar with the Inter-Agency planning and is known by many of the personnel of other agencies who will be concerned with these common problems.

 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

In a document concerning Operation Alert 1956 dated January 31, 1956, marked Exhibit A, captioned "Outline of the 1956 Exercise Standards" prepared by FCDA (Bufile 66-17381-1371) the following statement was made concerning

It is planned to have \_\_\_\_\_ in operation during some part of the exercise. The exact time has not been determined.

The Bureau has issued instructions to the field by SAC Letter containing the proper procedures to follow in the event \_\_\_\_\_ is ordered under actual emergency conditions. These instructions, as they pertain to \_\_\_\_\_ are also incorporated in the Radio Operators' Manual, Part I.

It is entirely impracticable to use our \_\_\_\_\_ procedures for simulated or practice conditions since these procedures involve the use of \_\_\_\_\_ prepared and held for a real emergency. It is also unlikely that the \_\_\_\_\_ will be able to effect a full-scale \_\_\_\_\_ operation during Operation Alert 1956 since it would probably involve reimbursement of huge sums of money by the broadcast companies and commercial radio stations to sponsors of commercial radio programs. \_\_\_\_\_ could conceivably, however, thru \_\_\_\_\_ order \_\_\_\_\_ operation affecting government \_\_\_\_\_ In the event a \_\_\_\_\_ operation is planned, contemplated or even considered which would affect our \_\_\_\_\_ during Operation Alert 1956 we should prepare a practice \_\_\_\_\_ operations procedure for use by our \_\_\_\_\_ network now.

DATE: March 2, 1956

FROM : [redacted]

SUBJECT:

BUREAU WAR PLANS

Space - Teletype Room - Relocation Headquarters

Emergency Headquarters For S.O.G.

At the time space was allocated for the teletype room [redacted] we had no way of knowing

how much teletype equipment we would eventually have in use.

We now have eleven teletype machines in the teletype room [redacted]

At least four other machines are yet to be installed by ODM and the White House Signal Agency. We cannot accommodate the additional machines without first rearranging the present equipment.

Enclosed are two drawings, number one shows the present arrangement of our teletype equipment and number two shows a proposed rearrangement. All equipment shown in solid lines is now installed and that shown in dotted lines is either on order or has been proposed and may possibly be installed between now and the June Relocation Exercise. The rearrangement of teletype equipment is necessary to provide operating room with the foreseeable increase in equipment. Any further teletype installations at [redacted] other than those now ordered or contemplated will require removal of plumbing from the bathroom of the teletype room. The bathroom is large enough to accommodate at least three #19 and two #15 teletype machines. It is not apparent at this time that this will be necessary.

RECOMMENDATIONS:

(1) That [redacted] be authorized to have the necessary power outlets installed which are necessary in order to rearrange present equipment. Details concerning the number and location of the outlets will be furnished separately by the Communications Section.

Enclosure

Remymemo 3-20-56 pointing out that John Airhart, Department relocation officer, advised he anticipated that General [ ] may change the INS relocation site.

Airhart telephonically advised SA McArdle of Liaison Section on 3-23-56 that he was in receipt of a memorandum from General [ ] pointing out that the [ ] site chosen by the Department and INS for relocation purposes was highly unsatisfactory and that he was against spending any money to further prepare it for emergency operations. Airhart stated that the memorandum suggests that the Department and INS designate [ ]

the new relocation site of the Department and INS and that if that site were not acceptable to the Attorney General that appropriate explorations be made to find another relocation site.

Airhart advised that he was not desirous of moving the Departmental relocation site to [ ] that it was his recollection that the [ ] site had been surveyed by Bureau, Departmental, and INS representatives within the past year and found to be undesirable. Airhart was advised that this was true. Airhart further advised that inasmuch as the Department had no personnel capable of handling radio communications, he was in a most difficult position and may have to give in to General [ ] desire to move from the [ ] site.

ACTION: For information.

Holloman  
Gandy

The Director commented on my memorandum to you dated 4/3/56 concerning the request of [ ] for use of [ ] for the U. S. Attorneys' Conference on 7/26 and 27/56: "O. K., but does [ ] realize Operation Alert is from July 20 through July 26 and that requires complete evacuation? H!"

On 4/4/56 Inspector Gearty telephonically contacted [ ] of the Department and called to his attention the fact that Operation Alert would be held from July 20 through July 26. [ ] expressed amazement; said that Deputy Attorney General Rogers had personally selected the dates for the Conference but he felt sure that Rogers had not given thought to Operation Alert. [ ] advised he would immediately consult Rogers as to whether the Conference would go on as scheduled. He pointed out, however, that if the Conference should be held as scheduled that Rogers had requested an additional day, July 25, as the Conference would be held over a 3-day period. [ ] told Gearty that the earlier request should be tabled until he had an opportunity to consult with Rogers.

ACTION:

None...informative.

Mr. John Airhart, relocation officer for the Department, telephonically contacted Supervisor McArdle of the Liaison Section on the afternoon of April 4 and advised that he had heard that the dates for OPERATION ALERT, 1956, were being changed from June to July 20-26, 1956, and asked if the Bureau had received similar information. Airhart was advised that the Bureau had received, on a confidential basis, information reflecting that the dates would be changed from the original June dates to July 20-26, 1956, but that insofar as the Bureau was concerned, this was not an official announcement and that we were taking no action of any kind at this time. Airhart was also advised that at the time we received the information relative to the change of dates, we were advised that the Office of Defense Mobilization (ODM) would come out with an official announcement.

Airhart advised that he would have [redacted] the Departmental representative on the ODM Interagency Planning Group, contact ODM officials relative to the change of dates for OPERATION ALERT, 1956, and would instruct [redacted] to make every effort to have ODM make an official announcement at a very early date.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. A. H. Belmont

DATE: March 30, 1956

FROM : Mr. R. R. Roach

SUBJECT: BUREAU PLANS OPERATION ALERT, 1956

Emergency Headquarters For SOG.

Reference is made to my memorandum of March 30, 1956, enclosing a copy of a memorandum from [redacted] Executive Assistant to the Attorney General, to Assistant Attorney General Tompkins, dated March 5, 1956. This memorandum points out that the President requested the Director of the Office of Defense Mobilization (ODM) to arrange for bipartisan consultations with Congressional leaders and to present to the President for final approval a recommendation as to the date and duration of "Operation Alert, 1956."

 Tele. Room \_\_\_\_\_  
 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

At noon today, [redacted] of the Liaison Section learned from [redacted] Deputy Director for Plans and Readiness, ODM, that the President has approved the date of "Operation Alert, 1956," as Friday, July 20, beginning at 10:00 a. m., Eastern Standard Time, and ending Thursday, July 26, at 3:00 p. m., Eastern Standard Time.

[redacted] pointed out that this would place the test after Congress adjourns and was changed from the June 15 date at the insistence of Congress. [redacted] confidentially advised that it is his feeling Congress did not want to participate in the alert.

It may be noted that Liaison has been following this matter closely with ODM. [redacted] in furnishing the Bureau with the date, commented that this has just been given by the President and that the Bureau is the first to learn of the date; therefore, he would appreciate the Bureau not disseminating this information to other Government agencies because ODM will make an announcement later.

ACTION:

For your information.

*Emergency Headquarters For S.O.G.*  
 In an effort to insure that Bureau personnel would be granted freedom of movement in areas controlled by the military in a period of emergency Agents of the Washington Field Office contacted Colonel Henry C. Ahalt of the Military District of Washington. Colonel Ahalt pointed out that as long as a Bureau employee carried a credential which included a picture of the employee the card would be honored. This is acceptable to the Bureau since all Bureau personnel have badges with their photographs thereon. Colonel Ahalt further advised that in the event of an evacuation and subsequent bombing of Washington, D. C., the Military District of Washington would immediately set up a perimeter around the metropolitan area and that persons would be permitted to leave the area without question, but no one would be permitted to re-enter even on official business until such time as the area to which they desired admission was considered safe. The military will, of course, exclude anyone from an area which has not been decontaminated following a nuclear bombing.

Colonel Ahalt pointed out to the Washington Field Office representatives that Agents returning to the area should contact the nearest perimeter headquarters not only for information concerning the safety of areas which they desire to enter but also to receive any information which the Military District of Washington could turn over to the Bureau relative to sabotage, subversion and other crimes over which the Bureau has investigative jurisdiction. This does not relieve the military under the delimitations agreement from having to report acts of sabotage or subversion as soon as such acts come to their attention.

ACTION:

For information. It does not appear to be necessary to notify all employees in the Washington area of the intended military action at this time.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT *ABM*

DATE: April 10, 1956

FROM : R. R. ROACH *R*SUBJECT: BUPLANS - OPERATION ALERT, 1956 *W. J. Brennan**Emergency Headquarters For S.O.G.*

Mr. John Airhart, relocation officer of the Department, at 4:55 p.m. on 4-9-56 telephonically advised SA McArdle of the Liaison Section that he had just seen a preliminary Cabinet Paper which confirmed the dates for OPERATION ALERT, 1956, as being July 20-26, 1956.

Tolson	_____
Boardman	_____
Nichols	_____
Belmont	_____
Harbo	_____
Mohr	_____
Parsons	_____
Rosen	_____
Tamm	_____
Sizoo	_____
Winterrowd	_____
Tele. Room	_____
Holloman	_____
Gandy	_____

Airhart advised that the preliminary Cabinet Paper urges the head of each agency to be at the relocation site for the first 2 days and last 2 days to insure that the operation gets off to a good start and that all problems can be resolved prior to the winding up of the test operation. Airhart advised that inasmuch as this was merely a preliminary Cabinet Paper, there was no assurance that this latter information would be included in the final paper.

Airhart advised that he has scheduled a conference with Executive Assistant to the Attorney General, relative to OPERATION ALERT, 1956, and that he intended to recommend to [redacted] for the Attorney General's consideration that inasmuch as the test is in the first month of a new fiscal year, that Departmental participation in the test be held to an absolute minimum, since it was not generally considered good fiscal policy to expend large sums of money in the early stages of the fiscal year.

ACTION: For information. Airhart advised that as soon as the above-mentioned preliminary Cabinet Paper becomes a final document, he will make the composite information available to the Bureau.

SUBJECT:

BUPLANS

EMERGENCY TELEPHONE COMMUNICATIONS

Emergency Headquarters For S.O.G. [redacted] *in [redacted]*  
 Reference my memorandum to you of February 13, 1956, captioned as above. [redacted] of the AT&T Company has advised that the rerouting of the [redacted] stand-by leased telephone circuit - circuit 1017 - has been completed to avoid Washington effective 4:00 P.M., April 4 last. The routing is as set forth in referenced memorandum and is as follows: [redacted]

Tolson \_\_\_\_\_  
 Nichols \_\_\_\_\_  
 Boardman \_\_\_\_\_  
 Belmont \_\_\_\_\_  
 Mason \_\_\_\_\_  
 Mohr \_\_\_\_\_  
 Parsons \_\_\_\_\_  
 Rosen \_\_\_\_\_  
 Tamm \_\_\_\_\_  
 Nease \_\_\_\_\_  
 Winterrowd \_\_\_\_\_  
 Tele. Room \_\_\_\_\_  
 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

For the time being if the circuit is ordered activated after regular working hours it may take up to two hours to have the circuit completely activated. This situation will be corrected prior to June, 1956, by the installation of certain automatic switches currently on order for installation on this circuit by AT&T at various connecting points. On a stand-by basis, the circuit's cost will be \$34 per month which is the full period cost for the [redacted] leg of the circuit, nine miles at \$3 a mile, plus local channels at [redacted] and [redacted]. The activated cost of the circuit will be \$640.

b6  
b7C  
b7E

Activation procedure for this circuit is the same as for activating our [redacted] leased telephone circuit 1025 into [redacted]. Effective immediately the activation procedure for both of our stand-by circuits out of [redacted] will be as follows:

b7E

Call Transmission Supervisor on duty, long lines test room of AT&T at [redacted] telephone number [redacted] (if busy ask for extension [redacted] and if it also is busy ask for extension [redacted] Desk of Chief of Test Board) and tell the Transmission Supervisor "This is Mr. Louis B. Nichols of the FBI, Washington, D. C., establish [redacted] telephone circuits to [redacted]"

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. L. V. BOARDMAN *for*

DATE: April 5, 1956

FROM : A. H. BELMONT *u 4-5*

SUBJECT: REGIONAL DEFENSE MOBILIZATION COMMITTEES

*Baylon**Emergency Headquarters*

Attached is a copy of a memorandum from Assistant Attorney General Tompkins to the Director, Bureau of Prisons; Commissioner, Immigration and Naturalization Service (INS); and U.S. Attorneys at Boston, New York, Philadelphia, Cleveland, Atlanta, Chicago, Denver, Dallas, San Francisco, and Seattle, pointing out that the Office of Defense Mobilization (ODM) has set up the Regional Defense Mobilization Committees in each of the 10 cities above mentioned, and authorizing the U.S. Attorneys above mentioned to represent the Department on the Regional Defense Mobilization Committees in a coordinating capacity, and to coordinate the emergency planning of their offices, the offices of other U.S. Attorneys within the region, offices of U.S. Marshals and field offices of INS as well as Bureau of Prisons installations within the region.

You may recall that the formation of these Regional Defense Mobilization Committees and a Departmental Field Relocation Committee was discussed in my memorandum of 3-2-56 and that by memorandum 3-5-56 to Mr. Tompkins Supervisor McArdle of the Liaison Section was designated to represent the Bureau in a liaison capacity on the Seat of Government Field Relocation Committee of the Department. The Regional Defense Mobilization Committees are being set up by ODM to coordinate activities between field offices and Federal departments and agencies in an emergency and primarily for OPERATION ALERT, 1956.

Mr. Tompkins' memorandum instructs the recipients to take the necessary steps to locate appropriate relocation sites and to inquire of the SAC's of the nearest FBI office as to the identity of the relocation site chosen by that office. SAC Letter 56-12 authorized each SAC to make known his relocation site to the local U.S. Attorneys and instructed the SAC's in the 10 offices above mentioned to represent the Bureau's interest on the Regional Defense Mobilization Committees and to keep the Bureau and all other SAC's within the ODM region fully advised of all developments. Mr. Tompkins' memorandum also points out that the Department can be contacted at its relocation site through FBI field offices. However, such communications should be kept to a minimum. SAC Letter 55-44 advised that in an emergency the FBI communications network would be made available for

(C) BUPLANS - RELOCATION -- In view of the development of local Civil Defense evacuation plans and the selection of a limited number of employees for the operation of the relocation site during the first 24 to 48 hours per SAC Letter 55-59 (E), it will no longer be necessary to maintain emergency squads of all employees in your office as is provided for in SAC Letter 53-71. All employees of your office not included in the key group selected to man the relocation site during the first 24 to 48 hours are to evacuate under Civil Defense guidance. If unable to return to headquarters

city within 24 hours, this group is to contact your relocation site for assignment, instructions, to obtain messages or leave forwarding addresses. You must not lose sight of the fact that these people will be needed to carry on the essential wartime functions of this Bureau. Therefore, provision must be made for their evacuation under emergency conditions.

Emergency squads made up of those employees whose services are deemed essential to the operation of the relocation site during the first 24 to 48 hours must be maintained. You should make certain that you will have sufficient personnel available at all times to meet Bureau responsibilities under the various emergency programs. Emphasis should be placed on the availability of Agent and communications personnel. Each emergency squad should have a leader and an alternate, who after having been notified of an alert will pass it on to all members of his emergency squad. The leader will also make every effort to insure that all members of his squad have available transportation with which to proceed to the relocation site in an emergency. The local evacuation plan must be taken into consideration in the formation of emergency car pools.

You should continue to make certain that each Resident Agent is aware of what is expected of him in an emergency; that he knows how to contact your relocation site; and that evacuation plans for those Resident Agencies located in Civil Defense target areas are current. See SAC Letter 54-30 (G) for target areas.

On 4-13-56 Mr. Bartlett of the Liaison Section conferred with Commander Edward L. Beach, Naval Aide to the President. During the conversation, Commander Beach, who is in charge of the White House relocation, advised that the President plans to relocate [redacted] on 7-20-56 and stay [redacted] as much of that time as possible. Commander Beach mentioned that it would be necessary for the President to return to Washington for a meeting sometime during this test. However, the President has advised that he would return directly [redacted]

Commander Beach advised Mr. Bartlett that the White House plans call for having an FBI Liaison Agent with the group and that some improvements are being made at the present time for better working and sleeping facilities for the July test. [redacted] Commander Beach is familiar with the fact that Mr. Bartlett is scheduled to relocate during the test with the White House group.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT *W*

DATE: April 16, 1956

FROM : MR. R. R. ROACH

SUBJECT: EMERGENCY WAR PLANS  
INTELLIGENCE ADVISORY COMMITTEE

Tolson \_\_\_\_\_  
Boardman \_\_\_\_\_  
Nichols \_\_\_\_\_  
Belmont \_\_\_\_\_  
Harbo \_\_\_\_\_  
Mohr \_\_\_\_\_  
Parsons \_\_\_\_\_  
Rosen \_\_\_\_\_  
Tamm \_\_\_\_\_  
 Sizoo \_\_\_\_\_  
Winterrowd \_\_\_\_\_  
Tele. Room \_\_\_\_\_  
Holloman \_\_\_\_\_  
Gandy \_\_\_\_\_

The Intelligence Advisory Committee (IAC) on 2-21-56 appointed an ad hoc group to examine the following two problems. (a) Examination of the impact of war on the functions of the IAC and (b) identification of problems that may arise at Operation Alert - 1956 and recommendation of procedures for their solution.

Enclosed is a report prepared on the above which is to be considered at the IAC meeting on 4-17-56. With regard to point (a) above, the report concludes that the impact of war will have little if any effect on the responsibilities of the IAC, subject to further clarification of the role of the National Security Council (NSC) in wartime. In other words, the paper assumes that the NSC will call on the IAC for certain estimates in wartime such as (1) evaluation of the probable courses of action of uncommitted countries and (2) evaluation of capabilities and requirements of allied and/or uncommitted economies. However, no firm planning can be made, according to the enclosed report, in the absence of an identified role by the NSC in wartime.

With regard to point (b) above, the enclosed report recommends that during Operation Alert - 1956 the IAC should only deal with "live intelligence" and not attempt any simulated exercise. In other words, the report recommends that no exercises will be attempted during the coming operation alert by the IAC. The report further recommends that an exchange of liaison officers be agreed by the agencies on a bilateral agreement. This latter point would locate liaison representatives from other agencies with the Bureau at [redacted]. A recommendation is made that we avoid any such arrangements with other agencies. b7E

Since the ad hoc report makes no firm recommendation, there is no action for the Bureau to consider at this time in connection with the IAC consideration of the matter on 4-17-56.

The Office of Defense Mobilization (ODM) news release No. 492 dated 4/10/56 obtained via liaison reflects that Operation Alert 1956 will be held from 10:00 a.m. 7/20/56 to 11:00 a.m. 7/26/56 (eastern standard time).

Participation

This news release reflects that in addition to Federal civil agencies [ ] will participate. You may recall that there was coordination between the [ ] and the United States in Operation Alert 1955. It is not believed necessary for the Bureau to coordinate activities between the Bureau and the [ ] insofar as this test is concerned.

News release also reflects that the military will cooperate with Civil Defense and Government agencies in the forthcoming test. According to a Washington City News Service release of 4/10/56, Dr. Arthur S. Flemming, Director of ODM, had indicated that present planning calls for [ ] in the forthcoming test.

You may recall that the Bureau has sought advice from the Attorney General as to what action he intended to take if [ ] in a period of emergency. This question was presented to the Attorney General on 6/23/55 and follow-up communications have been directed to the Department on at least 4 occasions since that time. On 3/15/56 [ ] of the Department replied that the Department study of the problems involved [ ] was practically completed. He indicated that he had conferred with representatives of the Department of Defense, ODM, and Federal Civil Defense Administration, but that nothing definite had been decided pending completion of a re-examination of the entire subject [ ].

Areas Covered

The ODM news release reflects that 76 areas in the United States, its territories and possessions will be subjected to assumed nuclear attack. Among the 76 areas presumed to be attacked, there will

be included Air Force bases, AEC installations, miscellaneous targets, and 47 Civil Defense target cities. Bureau field offices are located in or near 31 of the 76 areas assumed to have been attacked. This will necessarily have to be taken into consideration in our planning for Operation Alert 1956.

b7E

Phases of the Exercise

The exercise has been divided into the following 4 phases, all of which anticipate some cooperation by Federal agencies:

(1) Local and state levels - July 20 and 21.

(2) State and regional levels - July 22.

(3) Regional and national levels - July 23.

(4) Continuance of Federal agencies participation - July 24, 25, and 26. According to previous information from ODM, this period will be devoted primarily to a period in which the Government will attempt to operate on a so-called wartime plan. The ODM news release indicates that Federal agencies will proceed to their relocation sites on the sounding of the alert at 10:00 a.m. 7/20/56 and since they will be primarily concerned the last 3 days of the test, it appears that all Federal agencies will be involved for the entire 7-day period.

There is attached an SAC letter advising the field of the new dates for Operation Alert 1956.

ACTION:

(1) That the attached SAC letter go forth.

(2) All developments relative to Operation Alert 1956

(ALERT)

THE GOVERNMENT ANNOUNCED THAT IT WILL STAGE ANOTHER NATIONWIDE ATOMIC ALERT IN JULY TO TEST HOME DEFENSES. IT SAID PRESIDENT EISENHOWER WILL TAKE PART.

"OPERATION ALERT 1956" WILL BE HELD FROM JULY 20 THROUGH JULY 26. MILITARY, CIVIL DEFENSE, AND GOVERNMENT OFFICIALS ALL WILL TAKE PART IN THE GIANT EXERCISE. CANADA LIKEWISE HAS INDICATED IT WILL PARTICIPATE. PLANS FOR THE ALERT WERE ANNOUNCED JOINTLY BY THE OFFICE OF DEFENSE MOBILIZATION AND THE CIVIL DEFENSE ADMINISTRATION. THEY SAID THIS YEAR MARKS THE FIRST TIME THE MILITARY HAS TAKEN PART.

THE ANNOUNCEMENT SAID 76 AREAS IN THE U.S. AND ITS TERRITORIES AND POSSESSIONS THEORETICALLY WILL BE SUBJECT TO NUCLEAR ATTACK DURING A FIVE-HOUR PERIOD. THESE WILL INCLUDE 63 POPULATION CENTERS, NINE AIR BASES AND FOUR ATOMIC ENERGY COMMISSION INSTALLATIONS.

THE THEORETICAL ATOMIC BOMBS TO BE DROPPED WILL RANGE IN POWER FROM THE EQUIVALENT OF 20,000 TONS TO FIVE MILLION TONS OF TNT, THE ANNOUNCEMENT SAID IT WILL BE ASSUMED THAT FIVE BOMBS WILL HAVE BEEN DELIVERED BY SUBMARINE LAUNCHED MISSILES AND THE REST DROPPED FROM AIRCRAFT.

# **ADD 1 ALERT**

FIFTY-TWO AREAS WILL BE "HIT" BY SINGLE BOMBS, WHILE 24 AREAS WILL BE "HIT" BY FROM TWO TO FIVE BOMBS IN A SINGLE ATTACK.

TWO SIMULATED ATTACKS ARE PLANNED FOR THE SAN FRANCISCO-OAKLAND, CALIF., AREA. FIVE BOMBS WILL BE DELIVERED IN THE FIRST ATTACK AND A SINGLE BOMB WILL BE "EXPLODED" TWO HOURS LATER.

PARTICIPANTS IN THE EXERCISE WILL RANGE FROM CITY-COUNTY CIVIL DEFENSE ORGANIZATIONS TO KEY UNITS AND PERSONNEL OF MORE THAN 30 FEDERAL AGENCIES. THE EXTENT OF PUBLIC PARTICIPATION WILL BE DECIDED IN EACH CITY AND STATE BY LOCAL CIVIL DEFENSE OFFICIALS.

INDUSTRIAL PLANTS WHICH HAVE PLANS FOR CONTINUING PRODUCTION IN SUCH ATTACKS WERE URGED TO PARTICIPATE ON A VOLUNTARY BASIS.

THE PUBLIC ALERT, SIGNALING THE START OF THE NATIONWIDE EXERCISE, WILL BE SOUNDED AT 10 A.M., EST., JULY 20.

LOCAL AND STATE CIVIL DEFENSE UNITS WILL OPERATE UNTIL 10 P.M., EST. JULY 21. THE GOVERNMENT AGENCIES WILL CONTINUE THEIR TESTS UNTIL 11 A.M. EST JULY 26.

THE ANNOUNCEMENT SAID ADVANCE WARNING TIME WILL RANGE FROM ONE HOUR 40 MINUTES TO THREE HOURS 15 MINUTES IN THE CONTINENTAL UNITED STATES. THE PANAMA CANAL ZONE, PUERTO RICO AND HAWAII WILL GET NO ADVANCE WARNING.

# **ADD 2 ALERT**

MEANWHILE, DEFENSE MOBILIZATION DIRECTOR ARTHUR S. FLEMMING DISCLOSED THAT THE GOVERNMENT AGAIN WILL IMPOSE A MOCK MARTIAL LAW DURING THE OPERATION ALERT TEST. THE USE OF MARTIAL LAW IN CASE OF AN ATOMIC ATTACK CAME UNDER SEVERE CRITICISM LAST YEAR ON THE GROUNDS IT WAS NOT NECESSARY, EXCEPT PERHAPS IN SCATTERED, ISOLATED AREAS, AND RISKED MILITARY DICTATORSHIP.

FLEMMING DEFENDED THE ADMINISTRATION'S USE OF MARTIAL LAW LAST YEAR AND SAID PRESENT PLANNING CALLED FOR ITS USE AGAIN IN THE FORTHCOMING TEST.

HE CATEGORICALLY DENIED, AT A HEARING BEFORE A HOUSE GOVERNMENT OPERATIONS SUBCOMMITTEE TODAY, THAT THE DECISION TO USE MARTIAL LAW WAS AN ATTEMPT "TO USURP CIVIL AUTHORITY." HE SAID IT WAS "RATHER TO PROVIDE THE MAXIMUM POSSIBLE MILITARY SUPPORT TO THE CIVILIAN AUTHORITIES ON A NATIONWIDE BASIS."

FLEMMING ALSO TOLD THE SUBCOMMITTEE THAT CIVIL DEFENSE PLANNERS ARE FACED WITH TWO MAJOR PROBLEMS IN THE ATTITUDES OF AMERICANS TOWARDS CIVIL DEFENSE:

1. A TENDENCY "TO IGNORE THE PROBLEMS . . . IN THE HOPE THAT IT WILL NEVER BE NECESSARY TO FACE THEM."
2. A TENDENCY BY OTHERS "TO REGARD THE PROBLEMS AS BEING OF SUCH MAGNITUDE AS TO DEFY SOLUTION."

HE SAID AN EFFECTIVE CIVIL DEFENSE PROGRAM IS A MAJOR DETERRENT AGAINST WAR AND WIDESPREAD ACCEPTANCE OF THE IDEA THAT AN ENEMY ATTACK CANNOT TAKE PLACE OR THAT IT CANNOT BE PREVENTED WOULD SURRENDER THIS DETERRENT TO WAR.

4/10--EG1227P

## Office Memorandum • UNITED STATES GOVERNMENT

*Buplans* - Emergency Headquarters For S.O.G.  
 Remymemo 2/24/56, pointing out that the local Civil Defense planning group anticipated changes in the near future in the evacuation route map which they had prepared. On 3/8/56, Mr. McKillen, Assistant Director of Civil Defense, Washington, D. C., advised that it may be as much as six months before any changes would be made in the evacuation map originally prepared and that in the meantime, the original map would be effective.

Attached is a draft of a map in color showing Civil Defense evacuation routes for metropolitan Washington. This map was prepared by the Exhibit Section from a map made available by Washington, D. C., Civil Defense, a copy of which is also attached. If you approve, copies of the map\* will be prepared and posted on bulletin boards in all buildings occupied by Bureau personnel at Seat of Government. If and when changes are made by local Civil Defense, it will, of course, be necessary to change this map accordingly. This matter will be followed closely.

RECOMMENDATION:

That sufficient copies of the attached map in color showing evacuation routes for Washington, D. C., be prepared for all bulletin boards in all buildings occupied by Bureau personnel at Seat of Government.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR., TOLSON ✓

DATE: April 13, 1956

FROM : L. B. NICHOLS ✓

SUBJECT: BUPLANS - EMERGENCY EVACUATIONEmergency Headquarters For S.O.G.

Reference memorandum of March 22, 1956, from Mr. Roach to Mr. Belmont captioned as above requesting each division to submit a list of those individuals who must be included in the group of fifty employees [redacted] in a period of emergency.

Following are the 13 Records and Communications Division personnel who would be critically needed to carry out the Records and Communication Division's responsibilities in placing the relocation site into immediate operation pending arrival of the remainder of our employees scheduled for evacuation.

RECORDS AND COMMUNICATIONS DIVISION

Front Office: L. B. Nichols

Miss Franceburg (per R/s from L.B. Nichols - 4/13/56/gm)

Records Section: O. G. Medler

G. P. Runaldue

Communications Section:

Front Office [redacted]

Coding Unit [redacted]

and two Code Clerks

Switchboard Unit [redacted]

and one Telephone Operators

Teletype Unit [redacted]

and two Teletype Operators

Names of the Telephone Operators, Teletype Operators and Code Clerks have not been listed since these employees work on rotating shifts and weekends and we would evacuate the number of such employees needed at any given time from those employees who happened to be on duty at that time.

RECORDED - 30

66-17381-1437

RECOMMENDATION:

That this memorandum be forwarded to the Liaison Section for appropriate action.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. TOLSON

DATE: April 16, 1956

FROM : L. B. NICHOLS

SUBJECT: BUPLANS - EMERGENCY EVACUATIONEmergency Headquarters For S.O.G.

Re my memorandum to you of April 13, 1956, captioned as above. Since we cannot designate the specific Telephone Operator, two Teletype Operators and two Code Clerks who may be on duty on any given day, it is recommended that [ ] for these units be issued to and be the responsibility of the supervisors of the units.

In an emergency evacuation the passes would be issued by these supervisors to the senior Communications employees on duty at that time.

RECOMMENDATION:

That this memorandum be forwarded to the Liaison Section for appropriate action.

b7E

[redacted] advised this group that at the February 21, 1956, meeting of the Defense Mobilization Board, the problem was brought up concerning the presence of foreign observers\* at various relocation sites during Operation Alert - 1956. [redacted] was asked to prepare a position paper on this matter. This was done and was read by [redacted] at the meeting, April 16. [redacted] memorandum went into the proposition of who should be invited, cost of travel, how much they should see, and concluded by recommending that no foreign observers be invited to participate in Operation Alert - 1956. [redacted] stated that the purpose of his meeting was to determine if [redacted] position was acceptable to the key Government agencies represented. He asked the representatives of [redacted] to vote on [redacted] proposition. All agreed that no foreign observers should be invited. [redacted] stated that he did not ask [redacted] and FBI representatives to vote inasmuch as he knew that our position would be against the proposition.

b6  
b7C  
b7E

[redacted] advised that he will prepare a memorandum for Dr. Arthur Flemming, Director of ODM, and advise him that no foreign observers should participate in the July test.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT

DATE: April 18, 1956

FROM : R. R. ROACH

Buplans

SUBJECT: OPERATION ALERT, 1956

Emergency Headquarters For S.O.G.

John Airhart, relocation officer, Department of Justice, on 4/17/56 advised that he had discussed Departmental plans for OPERATION ALERT, 1956, with the Attorney General and that he had received the Attorney General's approval of the following plan contingent upon Airhart's being able to sell it to the Office of Defense Mobilization.

Airhart's proposed plan is as follows: The Department will participate in the exercise with a minimum of personnel. Airhart proposes to send three individuals from each division in the Department having essential wartime functions to the Department relocation site for the test; he proposes to send half of the Department communications personnel to the relocation site. The balance of the communications personnel and other individuals having essential wartime functions remaining in Washington will simulate field problems and communicate them to the Department relocation site at [redacted] Airhart advised that generally speaking the United States Attorneys are not set up to participate in OPERATION ALERT, 1956, and that by simulating field problems between the Department of Justice in Washington and their relocation site he will also reduce the over-all cost of the operation.

Airhart advised that the Attorney General plans to be at the Department relocation site for the first two days and the last two days of the exercise; that this is in apparent agreement with a position taken by the Cabinet at a recent Cabinet meeting.

Inasmuch as the Department does not plan any participation on the part of the United States Attorneys, this should greatly reduce the possibility of the Bureau's being called upon to relay messages for the Department to the United States Attorneys in various parts of the country per prior agreement between the Bureau and the Department.

Airhart advised that he would keep the Bureau informed as to the result of his negotiations with the Office of Defense Mobilization.

## ACTION:

For information. Matter will be closely followed with Airhart.

THE ATTORNEY GENERAL

April 27, 1956

Director, FBI

DEFENSE PLANS - CHAIN OF AUTHORITY

Plans Emergency Headquarters for S.O.G.

Reference is made to the "~~Top Secret~~" document entitled "Instructions for Key Personnel of the Department of Justice in the Event of a Civil Defense Emergency," dated February 7, 1955, and revised February 23, 1955, and to the "~~Top Secret~~" document entitled "Emergency Procedures - Department of Justice," dated November 28, 1955, which document has been referred to as the new proposed defense plans of the Department of Justice. Appendix 2 of the February, 1955, document contains a chain of authority of 23 individuals whereas the November, 1955, document contains a chain of authority of 4 individuals. Of these 4 individuals [redacted] is no longer associated with the Department.

Assistant Attorney General Olney who is the number three man in the chain of authority set forth in the February document is not included in the November document. Inasmuch as authority from the Department for certain Bureau operations in a time of emergency is extremely important, I would appreciate being advised as soon as the question of the chain of authority in the Department has been resolved so that we may make certain from whom we may receive the authority and to whom this Bureau is to give notification upon receipt of an air raid alert.

- 1 - Mr. William P. Rogers  
Deputy Attorney General

ALERT WARNING SYSTEM  
AIR FORCE COMMAND POST

By memorandum 4-20-56 [redacted] to Mr. Nichols, it was pointed out that it was not technically possible to install extensions off the new alarm system. It was stated that [redacted] Chesapeake and Potomac Telephone Company (C & P) representative, advised it would be possible to [redacted] switch in Mr. Belmont's office to transfer the calls up to the switchboard room when the "Watch Officer" is out of the office. This matter was referred to the Laboratory to ascertain the technical reasons why the plan originally approved by [redacted] Director of Communications, U. S. Air Force, could not be effected. [redacted]

b6  
b7C  
b7E

On 4-27-56 SA Supervisor [redacted] Electronics Section of the Laboratory, interviewed [redacted] Engineer, and [redacted] C & P Telephone Company, at 930 H Street, Northwest. [redacted] advised as follows:

b6  
b7C  
b7E

[redacted] It will be possible to have auxiliary or loud ringers on the line if a large area must be covered.

In the event it becomes necessary to request [redacted]

b7E

[redacted] It has been previously estimated that it will cost \$33,000 to convert from the present 2-wire system to a 4-wire system, which cost will have to be assumed by the Bureau.

COMMUNICATIONS - MAIL TO  
 BUREAU'S RELOCATION HEADQUARTERS

Emergency Headquarters For SIOG

The Bureau's relocation site is classified ~~SECRET~~.  
 For this reason, telephone and teletype facilities at the Bureau's  
 relocation site are routed through \_\_\_\_\_  
 \_\_\_\_\_ respectively.

b7E

Office of Defense Mobilization publication ICS 102  
 (Communications Information Manual for Communications Officers),  
 Chapter IX, page 9 - 3, paragraph 11, states:

"The Agency mailing address will be to a Post Office  
 Box only, of some near by Post Office, but not  
 necessarily the one serving the area. The complete  
 address as follows:

b7E

Do not use the Agency designation or have mail  
 delivered by carrier to the site."

In view of the foregoing, the Bureau should maintain a  
 confidential post office box in the vicinity of the relocation site  
 but preferably not at \_\_\_\_\_ post office. The  
 \_\_\_\_\_ post office is the next most convenient and has  
 a suitable size box available for a rental fee of \$1.10 quarterly.  
 The post office box should be rented in the name of one of the  
 officials or supervisors at \_\_\_\_\_. The renter could  
 be reimbursed quarterly from the Seat of Government Imprest Fund.  
 It would be desirable under normal conditions to have the box checked  
 once each week to ascertain if mail for other subscribers has been  
 inadvertently placed in our post office box.

Reference is made to my memorandum 3-22-56, requesting each division head to submit a list of those individuals who must be included in the group to proceed to the relocation site. The list was to be made on the basis of critical need inasmuch as

b7E

At the time current negotiations were started to procure for emergency relocation, an informal survey of the various offices and divisions at the Seat of Government was made, at which time it was ascertained that accommodations for 40 to 50 people were needed. There follows a current tabulation of the number of individuals submitted by each executive office and division head to be evacuated

b7E

Director's Office	7
Mr. Tolson's Office	2-1 M.A.T.
Mr. Nichols' Office	2
Mr. Boardman's Office	1 OK
Identification Div.	0 OK
Training & Inspection Div.	0 OK
Administrative Div.	2
Records & Communications Div.	29
Investigative Div.	0
Laboratory Div.	10
Total	53

From the foregoing it will be noted the total of 53 individuals, not including the Domestic Intelligence Division, have been selected.

The Domestic Intelligence Division has been allocated 83 people as their initial evacuation force. This is 45.1% of the total group of 184 (the number needed to operate the relocation site for first 24-48 hours). A survey of each section within the division disclosed that we need 17 people to "open shop" at the relocation site on a strictly "crash" basis. Therefore, we must make

Holloman	
Gandy	

Operation Alert 1956 will be a 7-day test from 10:00 a.m., July 20, to 11:00 a.m., July 26, 1956. Eastern Standard Time will be used throughout the test. Insofar as the Civil Defense portion of the test is concerned the first 2 days will be devoted primarily to local and state operations, the third day to state and regional operations, the fourth day to regional and national operations with the last 3 days devoted to national and regional operations. ODM assumes a single massive attack with nuclear weapons will be directed against 76 military, industrial and population targets.

Bomb damage and fall-out patterns resulting from the simulated attack must be taken into consideration in all 31 areas during the course of the test. Laboratory Division personnel are now plotting this data. We plan to take the minimum number of personnel necessary to carry out the responsibilities in connection with the exercise, approximately 60, and will handle approximately 35 problems with Bureau field offices during first 2 days of test. Last 5 days of test will be devoted to handling problems coming from other agencies with a further reduced staff at relocation site. It may be necessary to use relocation sites of 31 field offices in or near target areas for first 2 or 3 days of test. Field relocation sites will have skeleton staffs only.

Upon receipt of simulated alert we plan to follow our established notification procedures as well as established evacuation-relocation plans. Upon arrival at relocation site we plan to notify the Department relocation site that we are operational and thereafter simulate problems involving the Emergency Detention Program and the program calling for protective custody of diplomats of enemy nations as well as problems dealing with availability of personnel in field offices, time required to contact a resident or road Agent and problems involving use of radiation detection meters and docimeters, both of which are used to measure presence of radioactive particles. An ODM inspector will

DETAILS:

The Test Exercise

Office of Defense Mobilization (ODM) advises that Operation Alert 1956 will be a 7-day test beginning 10:00 a.m., EST, July 20, and ending 11:00 a.m., EST, July 26, 1956. This test is to simulate the course of action in the first 7 days following an actual attack as far as practical. Insofar as the Civil Defense portion of the exercise is concerned the first 2 days, July 20 and 21 (Friday and Saturday), will be devoted primarily to local and state operations; July 22 (Sunday) will be devoted to state and regional operations; July 23 (Monday) will be devoted to regional and national operations; whereas the last 3 days, July 24, 25 and 26 (Tuesday, Wednesday and Thursday), will be devoted to national and regional operations.

ODM Assumptions

ODM assumes that the attack will be a single massive attack with nuclear weapons directed against military, industrial and population targets in the U.S., its territories and possessions. b7E

[REDACTED]

[REDACTED] 76 target areas will be "hit." Bureau field installations are in or near 31 of these areas. Therefore, Bureau

Memorandum to Mr. Belmont

communications to these 31 field offices must take into consideration the bomb damage and fall-out patterns resulting from the simulated attack. Laboratory Division personnel are now plotting this information.

Extent of Participation

ODM plans recognize that current Government business must continue for the  $4\frac{1}{2}$  working days involved and point out that the number of employees selected to participate in the exercise should be large enough to test the adequacy of the plans and to conduct the essential wartime functions at the agency relocation site but still leave an ample number of employees at headquarters to carry on normal business. We plan to take the minimum number possible to carry out our responsibilities in connection with this exercise. The Department relocation officer has similar plans.

FBI Plan of Notification and Evacuation

Upon receipt of the simulated alert, we plan to follow our established notification procedures, which include notification to the Director and executive offices in the Bureau, other Bureau personnel and necessary notification to the Department of Justice. Following notification, our established evacuation-relocation plans will be put into operation. All members of the key staff (184) will proceed to the corridor outside Room 1541 where they will be "checked off." Those individuals selected to participate in the exercise at the relocation site will be directed to transportation. Personally owned cars and Bureau vehicles will be used.

b7E

Activities at the Relocation Site

A. Allocation of Time

Upon arrival at the relocation site, we plan to devote the first 2 days of the exercise (Friday and Saturday) in a manner similar to that followed in Operation Alert 1955. However, we will take into consideration the bomb damage and resultant fall-out insofar as the 31 Bureau field offices are concerned. It may be necessary to use the relocation sites of all or part of these 31

Memorandum to Mr. Belmont

offices involved for at least the first 2 or 3 days of the exercise. Field relocation sites used will have skeleton staffs only. It is contemplated that the last 5 days of the test with a further reduced staff at the Bureau relocation site will be devoted to handling problems coming from other agencies. Each such problem will be given careful mature thought, taking into consideration insofar as possible the problems we expect to face in a real emergency. During these last 5 days, we can, of course, carry out such problems as field office availability checks, determine the length of time it takes a field office to contact a resident or road agent and such other problems as appear to be expedient at the time under the circumstances.

#### B. Test Problems

It is anticipated that upon arrival at our relocation site that we will notify the Department relocation site and [redacted] that we are operational. Following this, a simulated message will be directed to all offices to stand by to put the Emergency Detention Program into operation. [redacted]

b7E

There will also be problems requiring the field to test all devices for the measuring of radiation and the extent to which personnel would have been exposed to the radiation in the event of a real emergency. Although field offices called upon to relocate for this test will relocate only a skeleton staff, it will give them an opportunity to test their emergency planning as well as the equipment which will be available to them at the relocation site. Other offices will be given an opportunity to operate their radio stations on emergency power. Those offices being called upon to relocate will have an opportunity to test their evacuation-relocation plans. It may be impossible for some field offices to occupy their selected

Memorandum to Mr. Belmont

relocation site for test purposes during the month of July, in which event a nearby resident agency will be used. All during the test it will be necessary to send messages only to those locations which have not been bombed or blanketed by radioactive fall-out.

C. Personnel Involved

During the 3 days of Operation Alert 1955 we handled 58 problems within the Bureau, with 58 individuals who remained at the relocation site for the 3-day period plus 31 individuals who were rotated each day. It is anticipated that approximately the same number of individuals will be required for the first 2 days of the test and that approximately thirty-five problems will be handled during these two days. Additional problems such as field availability checks, testing of radioactive testing devices etc., will be carried on throughout the 7-day period.

D. Report of Exercise

Information from ODM reflects that an inspector will be at the relocation site during the test period and that a report will be required at the end of the test. Unless advised to the contrary by ODM, we will follow the report procedures used for previous tests and make the information available to the Department for incorporation in the over-all Department report.

 Winterrowd \_\_\_\_\_  
 Tele. Room \_\_\_\_\_  
 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

I received a call on May 21, 1956, from Major Harvard E. Dudley of the Interagency Task Group, ODM. Major Dudley advised that the Task Group is in the process of compiling an interagency telephone directory listing the telephone numbers of the relocation sites of the various agencies. Major Dudley inquired as to whether we desired to place a classification on our telephone numbers. I advised the Major that I would look into the matter and let him know as soon as possible. The Major's telephone number is Code 189, extension 462.

Our five long distance trunks and our five Essex exchange trunks go into the [redacted] exchange. Our relocation site is classified SECRET. These telephone trunks by going into the [redacted] exchange do not disclose the physical location of our emergency relocation site. We had this type of service installed, called foreign exchange service, for the very reason that they do not disclose the location of our emergency site.

According to Major Dudley, "Most agencies are putting no classification on their telephone numbers. An ODM requirement is that the agency's relocation site should set up their telephones on foreign exchange service. Those which have foreign exchange service within 15 miles of their relocation site have classified their telephone numbers CONFIDENTIAL. CIA has classified their relocation site telephone numbers SECRET because their telephone service is local. The telephone numbers of the various agencies, regardless of their individual classification, will be contained in the TOP SECRET portion of the ICS telephone directory."

RECOMMENDATION:

Under the circumstances, I ~~see no reason~~ <sup>see no reason</sup> to assign a classification to our relocation site telephone numbers and recommend that I be allowed to inform Major Dudley that ~~our telephone numbers~~ need not be classified.

On 5-31-56 Mr. Bartlett of the Liaison Section conferred with General W.S. Paul (retired), Deputy Director for Plans and Readiness, Office of Defense Mobilization (ODM). During the discussion, Mr. Bartlett asked General Paul if ODM knew of any plans for special highway routes to be used during Operation Alert - 1956. General Paul advised that as far as he knows, all routes will be open and that there is no special plan for moving traffic during this period.

General Paul mentioned that Federal Civil Defense Administration was considering evacuating part of the city of Washington at the beginning of the test on 7-20-56. General Paul stated that the merchants of Washington, Arlington and Alexandria have put up such resistance to this that the plan has been canceled.

100-100000-100000

June 7, 1956

DIRECTOR, FBI

ATTENTION - DIRECTOR  
 ATTENTION - DEPT. OF DEFENSE  
 FOR CIVILIANS

In May 27, 1956, the National Security Council approved a new policy and the new chart drawn by the National Security Council Special Committee on captioned subject. This new chart is a change in National Security Council chart known as 5513/1.

Therefore upon receipt of an [redacted] from the Command Post in the Pentagon, evacuation of Washington was automatic. Under present conditions the receipt of such a warning from the Command Post in the Pentagon is merely intelligence information and the decision as to whether Washington will be evacuated or take cover will be made by Civil Defense authorities in Washington, D. C. and thereafter disseminated over the local warning system. The fact that the Command Post has seen fit to declare a [redacted] meaning attack probable, does not mean that Civil Defense must declare an alert or evacuation. Civil Defense may declare a "take cover" even though the Command Post has declared a [redacted]. In any event there will be a delay before any action can be taken following receipt of any information from the Command Post in the Pentagon. This delay may have a direct effect on the emergency programs of this Bureau.

b7E

This Bureau will, of course, await the Civil Defense signal before taking action unless you or the [redacted] instructs us to proceed with our relocation plans. We will continue our present plan of taking known to you and the [redacted] two available individuals in your chain of command, [redacted] information we receive from the Pentagon Command Post. However, as is pointed out above, the receipt of such information is no longer a signal for immediate action unless, of course, you decide that certain action should be taken immediately.

In an effort to make certain that all Divisions at Seat of Government had an opportunity to participate to the fullest extent in Operation Alert 1956, Supervisor McArdle of the Liaison Section telephonically contacted each Division head to ascertain whether the Division desired to submit problems for the test and the identity of their personnel participating.

Assistant Directors Tamm, Mason, Mohr and Rosen advised that there would be no problems submitted by their Divisions, and Mr. McGuire advised that there would be no problems from Records and Communications Division. There will be no representatives from the Identification Division during the course of this test and Mr. Mason of the Training and Inspection Division will be at [redacted] only on July 20 and 21. Mr. Mohr of the Administrative Division and secretary [redacted] will be the only representatives from that Division whereas Mr. Rosen will be the sole representative from the Investigative Division.

Problems will be submitted by the Domestic Intelligence Division and the Laboratory Division who will also submit the identity of the participants from each of these Divisions. This same holds true for the executive offices, as far as personnel participation is concerned.

General Paul mentioned that he would like to pass on to the FBI a thought which seemed to him very important; however, he did not plan to put this particular thought in official channels. General Paul stated that it concerned the Identification Division of the FBI remaining in Washington, D.C. General Paul stated that he realizes that many of the fingerprints are duplicated at the point of origin, such as New York City and other places that might also be target areas such as Washington, D.C. General Paul mentioned that he considers the FBI fingerprint records "the most important Government records in existence today," and that he hoped the Bureau would consider permanently moving the Identification Division to a point outside a target area.

Mr. Bartlett advised General Paul that this matter has been considered very deeply and seriously at the FBI; however, at this moment there is no plan for removing these files from Washington. General Paul was advised that his thoughts would be made known to the Director in this regard.

I received a telephone call yesterday from Lieutenant James E. Buckley of the ICS Task Group, ODM. The Lieutenant wanted to know whether we desired to have a Signal Corps liaison officer assigned to our relocation site during Operation Alert 1956.

According to the Lieutenant, the Signal Corps officer would be either a Captain or Major from the Signal Corps base at Fort Monmouth, New Jersey.

I told Lieutenant Buckley that I would let him know of the Bureau's desires.

I do not feel that we will require the technical services of a Signal Corps liaison officer during the test exercise.

RECOMMENDATION:

That since we do not need a Signal Corps liaison officer at our relocation site for the test exercises and since we are cramped for space at  that I be allowed to decline the ODM offer.

Heretofore when the Air Defense Command Post in the Pentagon declared an [redacted] is b7E  
 [redacted] evacuation of the District of Columbia and relocation of key Government personnel followed automatically. This is now changed. It is now the responsibility of local Civil Defense to decide whether the general public and the Government should be instructed to evacuate or take cover.

As matters now stand the receipt of a signal from the Command Post on one of the direct lines terminating on telephones in Mr. Belmont's office will merely be an advance warning signal insofar as the Bureau is concerned. No action as such can be taken as a result of that signal inasmuch as we will not know whether Civil Defense authorities desire that we evacuate in accordance with the [redacted] of the Command Post or whether they desire that we "take cover." Similarly if there was a [redacted] from the Command Post Civil Defense officials may decide that we should evacuate rather than take cover. b7E

The possible conflict mentioned above together with a previous announcement by the President that there would be no evacuation of Government officials in advance of the evacuation of the civilian population of the District makes it apparent that the Bureau might be open to serious criticism if we followed Command Post signal rather than the Civil Defense signal. *D*

There is, of course, the possibility that the President or the Attorney General may order the Bureau to relocate in advance of the Civil Defense signal. It is believed, however, that the new system will delay an instantaneous evacuation following receipt of an alert from the Command Post in the Pentagon since now Civil Defense officials will have to make a determination as to whether to relocate or take cover. This could be time consuming. We are now in a position similar to that of approximately

Memorandum to Mr. Boardman

one year ago when we were awaiting instructions from the President or the Attorney General prior to relocation.

It is believed that the Attorney General should be advised of this change in procedure and informed that the Bureau will continue our present plan of making known to him whatever information we receive from the Pentagon Command Post, but that we will be unable to relocate without the specific instructions of the President or the Attorney General prior to the sounding of the public warning system by Civil Defense. A second problem arising from the National Security Council action has to do with the relocation of the field staff of the Bureau.

Heretofore when the Air Force declared an [redacted] Government agencies both at Seat of Government and elsewhere would relocate. This instruction was predicated upon a previously existing Air Force plan that a warning in one district would "ripple" across the country resulting in a [redacted] in all areas of the country. This has been changed. At present a [redacted] may be called in one Air Defense sector without a corresponding warning being called in adjoining areas. This matter was discussed at the NSC Special Committee meeting and it was agreed that Government agencies located in areas other than the District of Columbia should obey local Civil Defense instructions in their respective areas. The Bureau may, of course, direct its field offices to relocate immediately following instructions for the Bureau to relocate. However, it is believed that such a field relocation would have to be done in a highly discreet manner in those communities wherein an evacuation has not been ordered or panic and confusion would undoubtedly result in the area. No additional instructions on this point are necessary for the field. The field will not relocate without Bureau instructions, unless local Civil Defense orders an evacuation of the city.

b7E

RECOMMENDATION:

That the attached memorandum go forth to the Attorney General with a copy to Mr. Rogers pointing out the change in procedures following the National Security Council action of 5/24/56.

My memorandum of 5-3-56 discussed the changes proposed by the National Security Council (NSC) Special Committee in the captioned matter and pointed out that ballots were being distributed to the NSC voting members for their opinions concerning the proposals. No ballot was sent to IIC since IIC is represented on the Special Committee.

By memorandum 5-24-56, attached, the executive secretary of NSC reports that at the NSC meeting on the same date the proposed changes were approved.

In addition, NSC requested that the Federal Civil Defense Administration (FCDA) submit a report by 6-1-56 concerning the action it has taken to strengthen the Civil Defense organization in the Washington Metropolitan area and including proposals for correction of the remaining weaknesses. The report is to include a recommendation for or against delegation to FCDA of the responsibility for making the decision as to whether evacuation or take cover instructions will be given in the District of Columbia following declaration by the Air Force that an air attack is expected.

ACTION:

This is for your information. You will be promptly informed concerning any additional activities of the Special Committee.

SUBJECT: BUPLANS

OPERATIONS ALERT - 1956

Emergency Headquarters For S.O.G.

Tolson	_____
Nichols	_____
Boardman	_____
Belmont	_____
Mason	_____
Mohr	_____
Parsons	_____
Rosen	_____
Tamm	_____
Nease	_____
Winterrowd	_____
Tele. Room	_____
Holloman	_____
Gandy	_____

Relative to Operations Alert - 1956, the United States and its possessions will theoretically be hit by a total of 125 nuclear bombs.

The attached chart shows how the various bombs directly affect field offices and their selected relocation sites.

It is pointed out that if a particular field office is listed as clear it does not mean that the entire area covered by the field office is free from blast damage or fallout. It simply means that the city where the field office is located was spared an attack. Although some field offices are listed as clear they may be in close proximity to dangerous radioactive fallout. Detailed maps are being prepared to represent the complex fallout patterns.

It is also pointed out that all bombs are of the nuclear type and are described either as kiloton or megaton bombs. A kiloton detonation is one whose blast is the same as the blast that would result from the detonation of a thousand tons of TNT. A megaton detonation is equivalent in blast effect to the detonation of a million tons of TNT. These detonations are also described as air or surface blasts. An air blast is one where the fireball does not touch the ground and, consequently, there is no lingering fallout problem. In a surface detonation the fireball touches the ground and problems associated with fallout have to be considered.

H-hour is 11:00 A.M., EDT, 7/20/56.

ACTION:

None. For information.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Belmont

DATE: June 21, 1956

FROM : R. R. Roach

SUBJECT: OPERATION ALERT 1956

BUPLANS

EMERGENCY HEADQUARTERS FOR S.O.B.

Mr. Innis Harris of Office of Defense Mobilization (ODM) advised Mr. O. H. Bartlett of Liaison at 9:00 a.m., 6/21/56 that a meeting of the Interagency Planning Group has been scheduled for 10 am, Friday, 6/22/56 in Room 159 of the Executive Office Building. This group is made up of the various Government departments and agencies and is concerned with planning of Operation Alert 1956. O. H. Bartlett, the Bureau's liaison representative at ODM, will be attending the Secretaries' Conference at Quantico, Virginia, at the time the meeting is scheduled. Ordinarily, Bartlett would represent the Bureau on the Interagency Planning Group.

Supervisor J. E. McArdle, the Bureau's Defense Plans Coordinator, is presently attending an ODM Communications School, scheduled for 6/21-22/56 in the Executive Office Building. He is the logical man to attend the Interagency Planning Group meeting in the absence of Bartlett since he is thoroughly familiar with the plans for Operation Alert 1956 and the Bureau's Defense Plans.

ACTION:

Mr. McArdle is being instructed to leave the ODM Communications School on 6/22/56 for sufficient time to attend the Interagency Planning Group meeting, which is being held in the same building.

JUN 27 1956

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. A. H. BELMONT *6-22-56*

DATE: June 20, 1956

FROM : MR. R. R. ROACH *R*

SUBJECT: OPERATION ALERT - 1956

*Explains - Emergency Headquarters Relocation*

On 6-20-56, while Mr. Bartlett of the Liaison Section was conferring with Mr. Innes Harris, Assistant to the Deputy Director of the Office of Defense Mobilization (ODM) for Plans and Readiness, Mr. Harris was asked if ODM had any objections to the FBI testing the field relocation sites for a period of two days rather than utilizing the entire seven days. Mr. Bartlett pointed out to Mr. Harris that the Bureau was taking a realistic look at Operation Alert-1956 and that the headquarters relocation would be in operation for the entire seven days on a 24-hour basis; however, to do the same for the FBI field office relocation sites would hamper our over-all operation and would cause a slow-down in our over-all production.

Mr. Harris stated that ODM would have no objection to the FBI testing its field relocation sites for the first two days of the test rather than relocating them for the entire seven-day period.

Mr. Harris mentioned that he realizes the importance of the FBI's operation and that if the Bureau was satisfied following the two-day test of the field relocation sites, that was the important factor.

ACTION:

*Explains* *Headquarters For S.O.G.*

On 6-20-56 Mr. Bartlett of the Liaison Section conferred with Mr. Innes Harris, Assistant to the Deputy Director of the Office of Defense Mobilization (ODM) for Plans and Readiness. In response to Mr. Bartlett's specific question as to whether ODM plans to have a set group of problems to submit to the agencies during Operation Alert-1956, Mr. Harris replied that ODM is not contemplating having such a set of problems. He indicated that each agency involved in relocation would spend most of their time in attempting to iron out any difficulties that may come up in connection with trying to simulate the first few days of a war. He added that if an agency had a problem which involved another agency, they could attempt to iron out the assumed problem by dealing directly with the other agency; that if this caused an impasse, then the entire problem could be passed on by one of the agencies to ODM at their relocation site for assistance. Mr. Harris said that it is possible that a problem may present itself during the test which would require contacting an agency or several agencies for an answer in an attempt to settle the matter.

Mr. Harris indicated that as a result of the 1955 test, ODM learned that the President wanted the test run as much like an actual experience as possible; that at one time during the early part of the 1955 test ODM showed the President a long list of problems that they planned to use. According to Mr. Harris, the President indicated that this was a waste of time and that the problems should present themselves during the test if the participants took a realistic look at the situation.

Mr. Harris mentioned that ODM has furnished to the agencies a list of problems submitted by various government agencies for possible use during Operation Alert-1956. The Bureau is in receipt of this list. Mr. Harris stated that this was sent to the various agencies solely for the purpose of having all of the agencies know what the other agencies were

Referral/Consult

During the 1955 test, we had one liaison representative assigned at the ODM site. We plan to have one man assigned there during the coming test. The purpose of his being there, of course, is to handle problems of interest to the Bureau and to keep the Bureau advised as to developments. Mr. Elliott stated that the Bureau's liaison representative will be assigned to his (Elliott's) group and will be given desk space, etc. A telephone will be available at all times so that the Bureau representative will be immediately available to the Bureau. Mr. Elliott was advised that our liaison representative will be occupied full time with his official duties. All of our liaison men are under instructions that if they find they are not fully occupied at the relocation sites of other agencies they should so advise the Bureau and recommend that they return to the Seat of Government. Mr. Elliott was also advised, however, that should the Bureau liaison representative at ODM find that he has any spare moments, he will volunteer to assist in any way possible.

Elliott has done business with the Bureau for many years and has always been extremely reliable and friendly. He seems to understand our problems. We feel that we should continue in our plans to have a Bureau representative assigned at the ODM site since it is to our advantage to do so.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Mohr

DATE: June 12, 1956

FROM : H. L. Edwards *HLE*SUBJECT: POLICY CONCERNING OVERTIME,  
COMPENSATORY LEAVE AND NIGHT DIFFERENTIAL  
FOR OPERATION ALERT 1956*Plans - Emergency Headquarters For S.O.G.*

SA Supervisor James McArdle who is supervising the plans for Operation Alert 1956, has raised the question as to what will be the policy covering overtime, compensatory leave, and night differential on the clerical employees who will actively participate in Operation Alert. Present plans are for these employees to depart Friday at 10:00 A. M., July 20, for the Relocation Center and not return until 11:00 A. M. the following Thursday, July 26. Policy covering this was not made during the 1955 alert because the employees were not away for such an extended period.

This question was specifically raised at the April 5, 1956, meeting of the Interagency Advisory Group. (This is a group which meets bimonthly under the auspices of the United States Civil Service Commission and is composed of personnel and management officials of the various departments in the Executive Branch.) At that meeting, Mr. Macy, Executive Director of the Civil Service Commission, stated that the provisions of the overtime pay law and regulations would clearly apply to all participating agencies according uniform treatment to all employees participating in this operation.

This means then that the normal Bureau policies will apply in these cases and the policy is as follows:

1. OVERTIMEA. WAGE BOARD EMPLOYEES

Bureau policy is that unless unusual circumstances exist and prior Bureau authority received, the workweek of Wage Board employees is not to exceed 40 hours. Should such an employee work more than eight hours on any day his working days within the administrative workweek must be adjusted to compensate for that. Wage Board employees under the law are not entitled to compensatory leave, hence, if any overtime is ordered, it must be compensated for at time and a half overtime pay.

## B. CLASSIFICATION ACT EMPLOYEES

The overtime pay law and regulations provide that employees in Grade GS 9 and below have the option of claiming either compensatory leave or overtime pay at overtime rates if they are ordered to work any overtime. Bureau policy is that we will not order Classification Act nonagent employees to work any overtime but will permit them to claim compensatory leave for any necessary overtime which they volunteer to perform. We could also adjust the administrative workweek of these employees if we desired in an emergency to have them perform on an irregular schedule but we would have to insure that they did not work more than 40 hours in the administrative workweek. My idea would be that we reach a clearcut understanding with any of the Classification Act clerical employees before having them go to the Relocation Center and if any of them evidence an unwillingness to voluntarily put in the overtime and claim compensatory leave, we could omit them from the group to go.

### 2. COMPENSATORY LEAVE

Bureau grants compensatory leave to any clerical employee who volunteers to perform any necessary overtime work. Such compensatory leave must be taken during the pay period following the period in which the leave was earned unless an exception to permit deferring it is approved by Mr. Tolson's Office.

### 3. NIGHT DIFFERENTIAL

Bureau policy is to pay night differential at the rate of 10 percent of the base pay for any scheduled night duty falling between the hours of 6:00 P. M. and 6:00 A. M. This does not include any irregular occasional night work which might be included in voluntary overtime which an employee puts in. Consequently, only those clerical employees who are specifically scheduled during the Operation Alert for shifts involving night duty will be eligible for night differential and this will be handled in the regular way on the Time and Attendance Registers.

### RECOMMENDATION:

That the Bureau follow the afore-mentioned policy during Operation Alert 1956.

Re memorandum Belmont to Boardman 6-26-56, captioned as above, relative to the Office of Defense Mobilization briefing on 6-28-56, to which the Director has been invited. It was pointed out in referenced memorandum that the Department would be allocated 3 chairs at the meeting whereas the Bureau was being allocated only 1 chair and that the Department planned to send the Attorney General and Mr. Airhart, the relocation officer. (u)

Mr. Airhart telephonically advised SA Supervisor McArdle of the Liaison Section at 10:55 a.m. today that if the Director desires, Airhart might be able to allocate the 3rd chair being reserved for the Department to a second representative from the FBI.

ACTION:

If the Director desires, an additional FBI representative at the ODM briefing on 6-28-56, Airhart will be requested to see if he can arrange for an FBI representative to occupy the 3rd chair allocated to the Department.

MEMORANDUM FOR MR. TOLSON  
MR. BOARDMAN  
MR. BELMONT  
MR. MASON  
MR. MOHR  
MR. NICHOLS

This afternoon I attended the briefing on 'Operation Alert 1956' which was held at the Treaty Room of the Executive Office Building, the White House.

In attendance were the Cabinet and the heads of the various Governmental agencies involved in this program.

There was furnished to me upon my arrival, marked 'Secret,' a publication entitled 'Briefing for 'Operation Alert 1956.' This is Number 4 of the publication.

Attached to the publication is a memorandum dated June 27, 1956, to the heads of departments and agencies signed by Arthur S. Flemming. I have asked Mr. Bartlett, who met me at the Executive Office Building to procure, if possible, 5 additional copies of this publication and deliver them to Mr. Hennrich, acting in charge of the Domestic Intelligence Division.

I shall outline following the principal points covered at this briefing and refer to the pages which will be found in the document entitled "Briefing for 'Operation Alert 1956.'"

SUBJECT: DEFENSE PLANS - OPERATION ALERT 1956

*Emergency Headquarters for S.O.C.*  
By memorandum June 20, 1956, Dr. Arthur S. Flemming, Director, Office of Defense Mobilization (ODM), requested the heads of departments and agencies participating in Operation Alert 1956 to attend a briefing for the exercise. This briefing is to be conducted at 2:30 p.m., Thursday, June 28, 1956, in the Treaty Room (474), Executive Office Building (on the White House side of the building). This is the same room in which the Director attended a briefing on "Plan C," April 19, 1956. An attachment to Mr. Flemming's memorandum listed the departments and agencies which are being invited to attend this briefing. Generally speaking, departments are being permitted to send the department head and two additional representatives whereas the FBI and other bureaus invited will have only one representative. You may recall this is similar to the invitation the Bureau received for the above-mentioned "Plan C" briefing.

The Security Officer, ODM, is to be advised by 12 noon, June 26, 1956, of the identities of those who will attend. John Airhart, Departmental Relocation Officer, has advised that he, Airhart, and the Attorney General will attend this briefing as Departmental representatives. Airhart also advised that the Director will be invited to attend a briefing of Departmental heads by the Attorney General at 10 a.m., Friday, June 29, 1956. This is in keeping with the ODM request that the head of each department and agency brief his staff on Friday, June 29, or as soon thereafter as may be convenient. Emphasis is to be placed on the agency's mobilization responsibilities and the status of its readiness to complete its mobilization plans.

As set forth in memorandum, Mr. Roach to Mr. Belmont, June 22, 1956, it was ascertained at a meeting of the Inter-Agency Planning Group, ODM, that the briefing to be held on June 28, 1956, is in reality a briefing of Government Plan "D-Minus." No details of this plan are known inasmuch as this is to be the first time that the plan is to be made known to agency heads. However, it has been ascertained that Plan "D-Minus" has to do with the relocation of Government Agencies to relocation sites during or prior to an actual attack on the U.S.

RECORDED - 88

66-17381-1514

The Bureau's mobilization plan is in readiness and can be put into operation on signal from the appropriate authorities. The Bureau's emergency programs (Emergency Detention Program and Program Calling for the Protective Custody of Diplomats of Enemy Nations) are in readiness and can be put into operation upon receipt of appropriate authority. The Bureau plan for Operation Alert 1956 has been prepared and was submitted June 15, 1956.

\* This is 11:30 AM -

1956

SA Supervisor McArdle of the Liaison Section attended a meeting of the Interagency Planning Group (ODM) in Room 159 of the Executive Office Building this morning. This meeting was presided over by Mr. Innes D. Harris, who during the course of the meeting, advised that ODM would conduct briefing of agency heads on June 28, 1956, to brief them on Plan D-Minus. Mr. Harris advised that no information had been given to any agency on Plan D-Minus and that the meeting to be called June 28 was to brief agency heads on the major points of this plan. It did develop during the course of the meeting that Plan D-Minus would have to do with the plan followed by the Executive Branch of the Government if this country were attacked. We have no advance information on this plan. You may recall that the Director attended an ODM meeting at which Plan C was discussed on April 19, 1956. It developed that Plan C envisioned a set of facts similar to the Korean situation.

Mr. John Airhart, Relocation Officer of the Department, telephonically advised at 4 P.M. today (6/22/56) that the Attorney General had received an invitation to attend the ODM briefing on 6/28/56 and that he, the Attorney General, planned to attend on that day and would follow up by briefing Department of Justice agency heads at 10 A.M., June 29, 1956. Mr. Airhart advised that the Director is to receive an invitation to this briefing by the Attorney General.

During the course of the meeting on 6/22/56, Mr. Harris advised that to the best of his knowledge there will be a National Security Council type meeting late in the day of July 20, 1956. This is the first day of Operation Alert 1956. The exact time or place of this meeting has not as yet been announced nor has the identity of the individuals who are to attend been disclosed. Mr. Harris advised that there will also be Cabinet type meetings on Monday, July 23 and some time in the forenoon of Thursday, July 26. As above he stated that the time and place of these meetings has not been announced nor has the identity of the individuals who are to attend. Mr. Harris announced that the inspector to be assigned by ODM would make daily reports to the ODM Inspection Staff and that a fairly comprehensive report would be submitted by the inspector and the agency by noon Wednesday, July 26, 1956. This report would include any unresolved problems which remained outstanding as well as the items in which the

SUBJECT:

OPERATION ALERT 1956

(Bulsons) - Emergency Headquarters For S.O.G.

Reference is made to the Director's memorandum of June 28, 1956, regarding the Office of Defense Mobilization (ODM) briefing given on 6/28/56. In connection with the National Security Council (NSC) meeting scheduled for the first day of Operation Alert, 7/20/56, the Director has indicated that he probably will not be called upon to attend. We do not know at this time the nature of this NSC meeting but it is probable that the purpose would be to discuss progress of the operation up to that time. In the event the Director is called upon to attend this conference, we will prepare for his use an appropriate memorandum. Liaison will continue to be alert to discreetly ascertain if the Director will be invited and the nature of the discussions if possible.

In connection with the Cabinet meeting which will be attended by the Attorney General on July 23, 1956, the Director has indicated that a memorandum should be prepared for the Attorney General's use reflecting the progress of the Bureau's operation. Upon arrival at [ ] we will maintain a daily summary showing the progress of Operation Alert insofar as the FBI is concerned. These will be furnished to the Director daily. They will serve as a basis for a summary memorandum for the Attorney General's use in briefing the Cabinet. We will be alert for the exact time of the Cabinet meeting in order that the memo for the Attorney General may be as up to date as possible. In this connection it is noted that Philcox of Liaison will accompany the White House delegation to the Pan American Conference. Proper liaison will be maintained to obtain, either prior to the President's departure from the United States or during his stay in Panama, his plans for departure from Panama and arrival in the United States. It will also be determined, if possible, the exact time and place that the President plans to hold the Cabinet meeting. This information will be promptly furnished to the Bureau.

The Director has indicated that he may be called upon to attend a meeting of agency heads at [ ] on the last day of Operation Alert, 7/26/56, to report on the Bureau's operation. We will prepare on the afternoon of 7/25/56 a summary memorandum which

Memorandum Belmont to Boardman

will contain significant facts as to the handling of Operation Alert insofar as it pertains to the FBI. In this connection we will include items set forth on page 2 of the introduction to ODM document entitled "Briefing for Operation Alert 1956." Certain items are set forth which must be covered for the ODM Inspector's report by noon, 7/25/56. These items are:

- (1) significant items of accomplishment
- (2) significant problems not satisfactorily resolved
- (3) significant problems submitted to other agencies not satisfactorily resolved
- (4) suggested changes in plans, policy decisions, actions, assumptions, listed in this Briefing document
- (5) suggested changes in the conduct of exercises.

This summary memorandum will be available on the evening of 7/25/56 or earlier if the Director's plans dictate otherwise.

A separate memorandum is being prepared regarding items which may be covered by the Director in the event it is necessary for him to brief persons at  as suggested by Murray Snyder.

Nease	_____
Winterrowd	_____
Tele. Room	_____
Holloman	_____
Gandy	_____

I wish to suggest that during the course of the contemplated Operation Alert during July, employees actually evacuated to [REDACTED] for the week period be permitted to wear sports clothing. At the present time in this building the Communications and Records Sections' employees on the night and midnight shifts are permitted to wear sport shirts and slacks and on the day shift messengers are permitted to go without coats

b7E

In view of the extended stay, the lack of air-conditioning, and

[REDACTED] I do not think we should insist that our male employees be dressed in normal business attire wearing coats and neckties. I recommend that male employees be permitted to wear slacks and open collar sport shirts. I also recommend that female employees wear normal summer business attire as they do at the Bureau now which includes loafers instead of high-heel shoes. They will not wear slacks.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. L. V. Boardman

DATE: June 28, 1956

FROM : Mr. A. H. Belmont

SUBJECT: DEFENSE PLANS - OPERATION ALERT 1956

① Buplans - Emergency Headquarters for S.O.C.

The Director has asked for a memorandum as to what our program is as to the 24-hour shift at the relocation site and what it will cost.

While at the relocation site during Operation Alert 1956 we will have 24-hour coverage with a sufficient staff to handle all incoming communications and process any problems which will be presented to us during the course of the test.

OVERTIME

Agent personnel participating in this exercise will work a 12-hour shift. The current Bureau policy of paying fringe benefits to Agent personnel will preclude the necessity for any additional overtime pay insofar as they are concerned. Where it is necessary to keep clerical employees on duty more than 8 hours per shift, they will be granted compensatory leave in lieu of overtime pay. Instructions have been issued for appropriate Bureau officials to make known to all clerical personnel scheduled to participate in this exercise that compensatory leave will be granted in lieu of overtime pay and if the employees have any objection to this arrangement they should so advise prior to the exercise and other individuals will be selected in their place.

NIGHT DIFFERENTIAL

A total of 18 employees will be entitled to night differential pay for hours worked between 6 p.m. and 6 a.m. on regularly scheduled tours of duty for the 6 days in which night duty will be necessary. The Administrative Division has estimated that this night differential for the 6-day period will cost the Bureau approximately \$95.52.

ACTION:

For the Director's information.

Reference is made to my memorandum dated June 28, 1956, captioned as above, setting forth the estimated cost of night differential pay for those employees who would be scheduled to work between the hours of 6:00 p. m. and 6:00 a. m. during Operation Alert 1956. The Director noted, "Have we figured on Saturday and Sunday costs? H."

In response to the Director's inquiry the answer is in the affirmative since those employees who will be assigned to regular tours of duty on Saturday and Sunday will work such days within their regular five-day, forty-hour work week and be granted compensatory leave for any time in excess of any eight hours they work in any specific day.

MEMORANDUM FOR MR. TOLSON  
MR. BOARDMAN  
MR. BELMONT  
MR. NICHOLS

On June 29, 1956, at 11:30 AM I attended a conference in the Attorney General's office at which were present the heads of the representatives of all divisions in the Department of Justice and which it was intended would be presided over by the Attorney General but he was delayed by having to attend the Cabinet meeting. The purpose of the meeting was to follow up by briefing the heads of the various divisions of the Department on the meeting which had been held the previous day in the afternoon at the White House where the Director of the Office of Defense Mobilization had briefed the heads of all Government agencies upon 'Operation Alert 1956.'

Mr. Airhart, the Relocation Officer of the Department, then proceeded to outline to the persons present what transpired at the meeting the previous day at the White House, following the document entitled 'Briefing for Operation Alert 1956.'

Mr. Airhart indicated that in addition to the problems which will be submitted by ODM at the time of 'Operation Alert 1956,' the Department of Justice would submit to its various branches certain problems which it would be necessary to act upon during the Alert.

Mr. Airhart indicated that it was the desire of the Attorney General to keep the number of personnel assigned to evacuate on Operation Alert to the minimum so that all persons evacuating on this occasion would be kept busy. He commented that on the previous Operation Alert, there had not been enough work for all of the personnel to perform while they were absent from Washington.

Mr. Airhart further indicated that there had been a marked improvement in the communications facilities and that these, of course, would be tested to the fullest extent.

UNRECORDED COPY FILED IN 61-17241-1522

Memorandum for Mr. Tolson  
Mr. Boardman  
Mr. Belmont  
Mr. Nichols

July 3, 1956

Mr. Airhart stated that the communications facilities at the various relocation centers of the Department of Justice branches should be placed in operation on an 8-hour basis commencing July 13 and on a 24-hour basis commencing July 20 extending through the conclusion of Operation Alert 1956 on July 26.

Mr. Airhart indicated that the sounding of the sirens would be the signal for proceeding with the Alert on July 20 and that these sirens would sound at 11:00 AM Eastern Daylight Time. He indicated that the Alert would continue through 11:00 AM Eastern Daylight Time on July 26.

Mr. Airhart further indicated that he or his representative will confer with each of the divisions of the Department as to the number of persons who will go from each of the divisions.

Mr. Airhart also referred to some so-called duty schedule which will indicate those on duty at various times at [REDACTED] where the Department of Justice will relocate. It will, of course, be desirable to procure a copy of this schedule for our information.

b7E

Mr. Mullen indicated that there will be no interference with the releasing of information covering current matters during the Alert and that such releases will either be made from Washington or from where the Public Relations branch of the Department will be located. Control, however, of this project will be at the relocation center where Mr. Mullen or a representative of his office will be present.

Very truly yours,

John Edgar Hoover  
Director

SUBJECT: BRIEFING FOR OPERATION ALERT - 1956

*Copy 134 - Liaison by H-24-1017095 For S.D.C.*

On June 28, 1956, Mr. John Airhart, relocation officer for the Department, made available through Liaison a brochure prepared by Office of Defense Mobilization (ODM) and entitled "Briefing for Operation Alert 1956." Copy #134 of such brochure is attached. Mr. Airhart requested that any comments, suggestions or criticism of the actions specified in the brochure for which the Department of Justice is responsible be discussed at the briefing called by the Attorney General for 11:30 A.M., June 29, 1956.

An analysis of the brochure reflects that the items for which Justice is responsible appear in Part III A of the brochure. References to the various items herein show the page number and item number on each page in this section. The brochure recognizes that only major actions are dealt with and that it will be necessary to implement these actions by operational steps not included in the brochure.

Item 1, page 1, III A

This assigns responsibility to ODM, Federal Civil Defense Administration (FCDA) and Justice for issuance of proclamations of national civil defense and internal security emergencies. Justice has already prepared a proposed proclamation on this point. Such proclamation is included in Part IV of the Attorney General's Portfolio.

Item 3, page 1, III A

This assigns responsibility to Department of Defense, FCDA, ODM and Justice for the issuance of a proclamation authorizing military assistance to civil authorities and prescribing conditions under which such assistance will be furnished. This could encompass the entire field of civil-military relationship, including martial law. This is a responsibility of Justice along with the other agencies designated in drawing up such proclamations for issuance by the President.

EX - 128

*1 and "Briefing for O.A. 1956" dtd 6/10/56 destined per Memo 7/14/56 re O.A. 56 JAP*

Memorandum for Mr. Boardman

We have repeatedly presented to the Department the question as to the effect of a declaration of martial law on our over-all operations. By memorandum dated March 15, 1956, Mr. Rankin indicated that the Department study regarding this problem was practically complete. He indicated further that he had conferred with representatives of the Department of Defense, ODM and FCDA. However, nothing definite had been decided pending completion of re-examination of the entire subject of martial law.

Item 9, page 1, III A

This assigns to Justice the responsibility for preparation of a proclamation providing for apprehension and detention of all persons considered dangerous to the national defense and safety of the United States. Such proclamation has been prepared by Justice and is incorporated into Part I of the Attorney General's Portfolio. Upon issuance of such a proclamation and receipt of authority from the Attorney General, we are ready to carry out our responsibilities in time of an emergency. \* (See page 4)

Item 10, page 1, III A

This item places the responsibility on Justice for the preparation of a proclamation providing for control of enemy aliens. This apparently pertains to control of nondangerous enemy aliens who will not be apprehended under item 9 above. Appropriate proclamations dealing with this matter have been prepared by Justice and are a part of the Attorney General's Portfolio. Such controls include registration, restrictions on travel, possession of contraband, entering restricted areas, et cetera. The primary responsibility for administration of this program rests with the Immigration and Naturalization Service. Our responsibility is to handle investigations arising from violations of regulations dealing with control of enemy aliens. \* (See page 4)

Item 10, page 3, III A

b7E

Memorandum for Mr. Boardman

Item 11, page 3, III A

*min* This item gives to Justice the responsibility for preparation of a new executive order extending power to all agencies to classify documents. This appears to be a function of Justice. The extension of authority to classify documents, of course, will broaden greatly the field for possible espionage violations and, consequently, expand our investigations in that field. The impact of these additional cases on our other defense activity cannot be readily estimated.

Item 12, page 4, III A

This item relates to reinstatement of the Federal Explosives Act of December 26, 1941. This Act, codified as Chapter 8 of Title 50, United States Code, is applicable in time of war or national emergency and provides penalties for unauthorized manufacture, possession and use of explosives. According to Assistant Attorney General Rankin on April 20, 1956, at a conference in the Attorney General's office, this would be handled by the Department of Defense and Justice would merely look over the proclamation to be sure it was legal. It should be noted that the statute places administrative responsibility on the Department of Interior.

Item 13, page 4, III A

*AD* This gives to Justice responsibility for restricting entry to defense facilities to prevent sabotage and espionage. The matter of designation of restricted areas and defense facilities and promulgation of regulations for such areas appears to be the responsibility of the Department of Defense and not of Justice.

Observations, III

A major program in which the FBI would participate in a real emergency, but which is not specifically listed, is the program for interning enemy diplomats and their dependents. This program would be initiated by the Department of State at the instruction of the President. The FBI would assist State in taking these people into protective custody and thereafter the Immigration and Naturalization Service, under Department of State direction, would guard them in

Memorandum for Mr. Boardman

the internment hotels. Item 5, page 1, provides that the President will issue a declaration on the international situation. It could be expected that, as a part of this declaration, he could order enemy diplomats and their dependents interned for ultimate repatriation in exchange for United States personnel held by the enemy.

ACTION:

This is for the Director's information at the conference.  
Copy #134 of the brochure is attached.

\* Addendum:

In regard to item 9, page 1, and item 10, page 1, set forth above, one copy each of the necessary proclamations and joint resolutions necessary to institute the Emergency Detention Program, contained in the Attorney General's Portfolio, have been transmitted by the Department to the office of the director of ODM, according to a letter from Mr. Rankin of the Department dated May 14, 1956. These are of particular interest to the Bureau as they affect our operational procedures. The Department has not advised as to whether all the other documents involved above have been furnished to ODM.

in this memorandum

Tele. Room	<input type="checkbox"/>
Holloman	<input type="checkbox"/>
Gandy	<input type="checkbox"/>

You will recall that plans were approved to provide a limited Dictograph system in the   relocation headquarters building. In establishing this system surplus station units were utilized with the exception of the executive station. All permanent cable installation was accomplished by Laboratory Electronics Section personnel. The system wiring was completed and checked out on 6-25-56.

Intercommunications from the permanently located executive station in the office of the Special Agent in Charge is provided to the following eight staff station positions, namely, telephone room, Mr. Holloman, Miss Gandy, Mr. Tolson, Mr. Nichols, Mr. Boardman, Mr. Belmont, and the Attorney General.

Operation of the executive station is the same as required for the units presently installed in the Director's office. A staff member may either call the executive station or answer it by simply lifting the handset from its cradle and handling the instrument in the same manner as a telephone handset.

The staff station units are stored in the custody of the   staff. In the event of an alert, the units will be plugged into proper wall outlets connecting them into the permanent cable system, thereby making the Dictograph described above ready for service.

FROM : MR. A. H. BELMONT

SUBJECT:

BUPLANS

OPERATION ALERT - 1956

Emergency Headquarters For S.D.G.V.

Reference is made to my memorandum to you dated 5-18-56 in the above-captioned matter. Referenced memorandum reflects that 125 nuclear weapons will be dropped within five hours after the sounding of the alert to begin Operation Alert - 1956 (July 20-26, 1956). These simulated bombs will strike directly on or near 31 Bureau field office cities. The other 21 field office cities will not be affected. Based on the fall-out pattern for Operation Alert - 1956, a number of field relocation sites would also be unusable. If this should happen in a real emergency, the field offices would have to go on to a new relocation site outside the fall-out area. For clarity, it was felt necessary to contact the Office of Defense Mobilization (ODM) in order to have a complete understanding prior to the forthcoming test.

On 5-31-56, pursuant to instructions, Mr. Bartlett of the Liaison Section and Mr. W. R. Heilman of the Laboratory conferred with General W. S. Paul (retired), Deputy Director for Plans and Readiness, ODM. Mr. Bartlett pointed out that regardless of bomb damage and fall-out patterns that will exist during the test and in order to keep communications and other costs to a minimum, the Bureau is going to communicate with our field offices at their headquarters and a representative number of relocation sites rather than set up additional emergency relocations during the test. General Paul was further advised that relocation sites have been selected for all Bureau field offices and if their headquarters office and selected relocation site are not usable, our field offices at that time will select and operate from a safe relocation site.

General Paul commented that this would be satisfactory with ODM and that we could simulate the actual moving to a new relocation site if the fall-out pattern embraced the relocation site.

General Paul was advised by Mr. Bartlett that during Operation Alert - 1956 the Bureau is going to consider that our headquarters relocation site at [redacted] will be usable during

Memo to Mr. Boardman  
from Mr. Belmont

the entire test period and would not be in the fall-out area. General Paul was advised that based on test assumptions, the Bureau realized that [redacted] however, we would consider it usable. General Paul stated that this would be satisfactory and we can make our plans based on the above assumption. b7E

General Paul mentioned that the U.S. is now divided into ten ODM regions and that Region [redacted] with headquarters at [redacted] and Region [redacted] with headquarters at [redacted] have been selected by ODM as "guinea pigs" in the testing of the regional setup. He stated that direct telephone lines have been established to [redacted] [redacted] relocation site for Commerce, and [redacted] [redacted] relocation site for Labor. b7E

ODM regional offices will relocate at these two sites with the Federal agencies. General Paul advised that this will give ODM regional people a chance to observe a Federal department in action at a relocation site. General Paul stated that ODM feels that this procedure will keep communications costs down and at the same time ODM will be able to run a substantial test. General Paul mentioned that within these two regions the FBI might consider, if it so desires, relocating the emergency relocation site to a place outside the fall-out pattern. He stated that this was not essential; however, the Bureau may desire to do it in order to add to our own testing of emergency facilities.

The FBI Laboratory has made an analysis of the fall-out pattern as a result of the assumptions for the test. There is no problem in Region [redacted] which encompasses [redacted] [redacted] In Region [redacted] which encompasses [redacted]

[redacted] two offices are involved as a result of the assumptions. [redacted] assumptions call for [redacted] As a result, the relocation site at [redacted] will be in a "hot" fall-out area. Likewise, [redacted] will have four bombs in that area. The relocation site at [redacted] will be in a hot fall-out area. Consideration might be given in these two instances to establish a second relocation site outside the fall-out area. b7E

OBSERVATION:

ODM has approved our simulating moving to an alternate site where both headquarters city and the relocation site are within blast area or fall-out pattern. General Paul, ODM, suggested that Bureau

Memo to Mr. Boardman  
from Mr. Belmont

might consider using an alternate site in ODM areas 3 and 5 if the normal field relocation site is unusable. It is not believed that it is necessary or desirable to use alternate sites since they may not be the sites we would use in an actual emergency and we can test communications from any site if telephone lines have not been destroyed.

RECOMMENDATION:

That we do not use alternate sites for the [redacted]  
and [redacted] offices for purposes of this test.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. L. V. Boardman

DATE: July 6, 1956

FROM : Mr. A. H. Belmont

SUBJECT: ATTORNEY GENERAL'S PORTFOLIO

OPERATION ALERT - 1956

To my memorandum to you of June 25, 1956, there was attached a brief for use by the Director at a conference to be held in the office of the Attorney General on Wednesday, July 11, 1956, at 10:00 A.M. I indicated in my memorandum that any changes that occurred in connection with the material prepared for the Director's use prior to the date of the conference would immediately be called to the Director's attention.

As of today, no changes have occurred in connection with this material.

ACTION:

None. This is submitted for information. This matter is being followed very closely and any changes will be immediately prepared for insertion in the brief.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. L. V. Boardman

DATE: July 6, 1956

FROM : Mr. A. H. Belmont

SUBJECT: DEFENSE PLANS--OPERATION ALERT-1956

Emergency Headquarters For S.O.G.

By memorandum 7/2/56 the results of an Interagency Planning Group held that date were reported. Attached to this memorandum were certain documents issued by the Office of Defense Mobilization (ODM) relative to defense plans. The Director noted, "See that all matters referred to herein are given prompt and thorough attention."

Among the documents attached to the above memorandum was an ODM handbook for operations inspectors. This handbook outlines the inspectors' responsibilities as having to do with the inspection of the administration and logistics of the Agency operations at the relocation site, and points out that the technical phases of communications will be covered by a Signal Corps Liaison Officer. The inspector will report on evacuation of headquarters city and activation of the relocation site, the organization and the executive direction at the relocation site, the staffing of the relocation site as well as the facilities available there, the effectiveness of the communications installation, the adequacy of work space, records, equipment and supplies, as well as the security of operations. It is believed that the Bureau can meet the inspector's requirements as to all of the above points.

A second document obtained from the ODM has to do with their transportation service for OPERATION ALERT-1956. This document points out that there will be a [redacted] plan used during OPERATION ALERT-1956 to transport key officials of the Executive Department and vital documents essential for day-to-day operations that can not be transmitted by other means. During an actual operation this plan will operate on scheduled service; however, [redacted] requests of agencies other than the Department of Defense are to be made by calling extensions 273 or 274 at [redacted] service is not to be employed when other Agency resources or transportation systems are available. The [redacted] plan to be used during actual emergencies on a scheduled service will be incorporated in the over-all Bureau emergency plan.

Belmont memorandum to Boardman

General Services Administration has been assigned the responsibility of operating motor transport service during the period of the exercise and has set up a schedule to operate on July 23, 24 and 25 only, and between [redacted] One round trip is scheduled daily from each end of the line. It does not appear that the Bureau will be in any way interested in this service during the exercise. b7E

ODM has also advised that a mail and messenger service will be operated during the period of the exercise; however, to make use of this service it will be necessary for each agency to provide courier service between their emergency relocation site and the nearest mail-messenger stop. The nearest mail-messenger stop to the Bureau relocation site would be the post office at [redacted] is approximately [redacted]

Generally speaking, the Bureau does not use the courier service of any other agency for classified documents, and it is not believed that we should change our general procedure and utilize the emergency courier service for classified documents. There necessary the Bureau will provide courier service between agencies for classified documents originating with the Bureau. The plan for mail and messenger service between emergency relocation sites in an actual emergency will be incorporated into the over-all Bureau relocation plan. This plan sets up a mail-messenger service operating between [redacted]

Again the nearest contact point on the route to the Bureau relocation site is [redacted]

ACTION:

(1) The emergency joint air courier service plan for use during an actual evacuation will be incorporated into the Bureau's over-all relocation plan.

(2) The plan for mail and messenger service between emergency relocation sites in an actual emergency will be incorporated into the over-all Bureau relocation plan.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. PARSONS

DATE: June 1, 1956

FROM : I. W. CONRAD

SUBJECT: BUPLANS  
LABORATORY DIVISION

The Laboratory has an active program designed to insure that our defense planning is maintained at the peak of readiness at all times, incorporating new situations as they arise. In some situations action can be taken prior to the emergency, while in other situations it is not practical or economical to do more than plan and have these plans constantly current.

As an example of those things in which action can be taken, the Laboratory initiated the move of our main [redacted] from their vulnerable location in the Washington area to the present location in the vicinity of [redacted]. Also special material and instructions have been issued to the field for the security of communications in an emergency.

Another important aspect of the Laboratory's responsibilities during an emergency would be the necessity of handling censorship material which includes examinations for secret ink, code and other hidden messages. Our experience in this field during the last war provides a realistic foundation for planning. We know, however, that the Seat of Government relocation site at [redacted] does not provide sufficient space for the necessary operations. We have learned that the Office of Censorship and the center of all censorship operations, postal as well as wire and radio, is to be at [redacted]. Since the relocation headquarters of the Baltimore Division are also at [redacted] we have given consideration to the possibility of establishing at least those laboratory facilities essential to censorship along with the Baltimore Office.

On 5/21/56 in company with SAC D. K. Brown of the Baltimore Office, I visited [redacted]. The [redacted] which previously had been selected by the Baltimore Office as a relocation site, did not appear adequate to accommodate the additional facilities for the Laboratory's censorship operations. However, we did find a modern, well-equipped [redacted] which would be satisfactory for both the field office and censorship purposes. In addition to ample space, there are also [redacted] available. [redacted] indicated that the [redacted] would be available to us and the local Civil Defense representative indicated that

ORIGINAL FILED IN 62-111111

Memo to Mr. Parsons 6/1/56  
Re: BUPLANS; LABORATORY DIVISION

even though they had tentatively planned possible use of the [ ] for [ ] purposes, they could easily make other plans, and the FBI could be the sole occupant of the [ ] including the [ ] in order to satisfy our security requirements. Although there are [ ] or other [ ] facilities, by using both [ ] there is sufficient space to permit temporary living quarters, and the local Civil Defense representative indicated that [ ] in this general area probably could be made available for this purpose.

b7E

It therefore appears not only feasible but highly desirable to plan that Bureau personnel essential to censorship operations will be relocated at [ ]. The [ ] will make available to us floor plans of the [ ] building for more detailed plans.

b7E

These are emergency plans only and do not contemplate the installation of any facilities or any expenditure of funds at this time.

#### RECOMMENDATIONS:

1. That we proceed with plans for Laboratory personnel involved in essential censorship operations to be relocated at [ ] along with relocated personnel of the Baltimore Division.

b7E

2. That the Domestic Intelligence Division consider the possible relocation of Watch List and Censorship Liaison personnel also at [ ]. Such space would be available if desired.

SUBJECT: BUPLANS  
 LIAISON WITH OFFICE OF CENSORSHIP

Mr. Conrad's memorandum to Mr. Parsons, June 1, 1956, pointed out that the Laboratory, in order to handle its responsibilities concerning censorship material during an emergency, was proceeding with plans for Laboratory personnel involved in censorship operations (examinations for secret ink, codes and other hidden messages) to relocate to [redacted] the location of National Censorship Headquarters in emergency.

That memorandum also recommended that the Domestic Intelligence Division consider relocation of Censorship Liaison personnel to [redacted]. It pointed out that space would be available if desired.

Liaison Section will, during an emergency, send a Liaison representative and the necessary staff, to [redacted] to handle liaison with the Office of Censorship. Captain Raymond Kotrla, Office of Naval Intelligence, and head of the Office of Censorship, was so advised on June 14, 1956. Captain Kotrla indicated that the Office of Censorship would welcome a Liaison Representative from the Bureau upon its relocation.

The Office of Censorship will participate in Operation Alert - 1956, however, the extent of this participation is unknown at this time. If Censorship relocates only a token staff, a Liaison man will not accompany that agency during the test. To date, Liaison has not received an invitation to accompany Censorship during Operation Alert - 1956. If an invitation is received, it will be considered.

RECOMMENDATION:

1. That enclosed letter to Office of Naval Intelligence advising them that a Bureau Liaison Representative will handle liaison with the Office of Censorship at [redacted] during an emergency, be approved.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. L. V. BOARDMAN

DATE: July 2, 1956

FROM : MR. A. H. BELMONT

SUBJECT: OPERATION ALERT - 1956

*Emergency Headquarters for 549*

On 7-2-56 Mr. Bartlett of the Liaison Section attended a meeting of the Interagency Planning Group at the Office of Defense Mobilization (ODM) headquarters in the Executive Office Building. Representatives of the various agencies participating in Operation Alert - 1956 were in attendance. Mr. Murray Snyder, Assistant Press Secretary to the President, addressed the group and stated that in order to have a system whereby all of the press services would receive information on Operation Alert - 1956, the emergency news center, "New Point," located at Roanoke, Virginia, would be in operation. According to Mr. Snyder, there will be three pools set up of news people to travel with the President, the Secretary of State and the Secretary of Defense. These pools will be comprised of representatives of three major wire services, cameramen and communications people.

Mr. Snyder stated that it is possible that the field installations of the relocating groups may be contacted by local newsmen and asked if their particular office is participating in the alert. According to Mr. Snyder, if the office actually is involved in the alert, the newsmen could logically be given an affirmative answer. If the newsmen press for further information as to what the office is actually doing, they should be told that this information is furnished out of the national headquarters and cannot be furnished locally.

The representative from the State Department told the group that State is very proud of its relocation site and as a result would like to take the press on a tour of the facility. To this, Mr. Snyder emphatically said "Absolutely no." Mr. Snyder stated that the press would probably be set up near the gate and not inside the relocation site and will not be given an opportunity to wander around or ask any questions.

Mr. Snyder stated that it is expected that eight to ten Cabinet members would go to "New Point" for press conferences

JUL 20 1956

Memo to Mr. Boardman  
from Mr. Belmont

sometime during the seven-day test as well as other Government leaders and mentioned in the meeting that he would like to have Director Hoover of the FBI come to "New Point" for a press conference.

Mr. Innes Harris of ODM, Chairman of the meeting, stated that there has been some indication from some of the agencies that some persons expected to "jump the gun" and leave for the relocation site early on the day the test will commence. Mr. Harris stated that he felt that the agencies would be losing a great deal if the participating personnel did not wait in their offices until the actual signal is given to start the exercise. According to Mr. Harris, the signal will be by use of the public sirens as well as the office bell and light system. Mr. Harris stated that the exception to this would be the communications people who will be at the relocation site prior to the beginning of the test.

There is enclosed a copy of a letter dated 7-2-56 from Lieutenant General Willard S. Paul (U.S. Army Retired), Assistant to the Director for Plans and Readiness, ODM. This letter, with its attachments, shows that William A. Boleyn, Bureau of the Budget, will be assigned to the FBI again this year as the ODM operations inspector. Also attached to referenced letter is a separate document entitled "Program Reports." This document indicates that each agency will prepare a daily report as a result of its operation and submit it to ODM. This document also furnishes details as to the submission of a summary evaluation report and the final evaluation report.

Also enclosed is a copy of the ODM handbook for operations inspectors. This was furnished the Bureau representative at today's (7-2-56) meeting and it shows exactly the instructions given to the official inspectors together with a check list which reflects the actual items the inspector is looking for. Mr. Harris indicated that in addition to the agency preparing a daily report, the inspector also is to prepare a daily report and furnish it to ODM. A copy of the Agency's report and a copy of the inspector's report should be exchanged daily between the agency and the inspector.

There is enclosed a memorandum dated 7-2-56 on the subject of "Air Transportation Service for Operation Alert 1956." This memorandum reflects the air schedule and will be helpful to

Memo to Mr. Boardman  
from Mr. Belmont

the Bureau's communications people during the test. Also furnished to Mr. Bartlett at the meeting was a secret document entitled "Briefing for Operation Alert 1956" (copy number 118). You will recall that the Director was given copy number 4 of this document at the ODM briefing on 6-28-56.

FROM : R. R. ROACH *R*SUBJECT: BUPLANS - EMERGENCY EVACUATION*Emergency Headquarters FOR SIO.G. ✓*

The Washington, D. C., Interim evacuation plan divides the city of Washington into 6 areas for evacuation purposes, each of which has several primary evacuation routes. These evacuation routes are not to be crossed and all traffic is to flow out of town should it be necessary to put the evacuation plan into operation. The Bureau has been advised, however, that cross traffic in various directions will be permitted within the evacuation areas between primary relocation routes. The relocation routes and evacuation areas are set forth on colored maps entitled "Civil Defense Evacuation Routes," copies of which have been made available for bulletin board distribution. (Copy attached.)

Each Assistant Director should review his nonworking hour emergency relocation car pools to make certain that it will not be necessary for the drivers of these cars to cross a primary evacuation route in the process of assembling the individuals in each car pool. Although it would slow down the evacuation process, there is no official civil defense objection to cross traffic between primary evacuation routes. It is most important that this matter be given immediate attention by those executive offices and divisions in which evacuation car pools are necessary.

*Replans Emergency Headquarters For S.S.G.*

On July 12, 1956, William H. Godel, Deputy Director, Special Operations, Office of Secretary of Defense, advised SA D. J. Sullivan, Liaison Section, that Defense has made a strong recommendation to the Office of Defense Mobilization that Operation Alert - 1956 be called off. Godel stated that Defense has received no answer to date relative to this recommendation, but was of the opinion that even though President Eisenhower was greatly interested in the operation, it might still be canceled. Godel pointed out that the operation would cost the Government a tremendous amount of money and that the Democrats were in favor of holding the operation with the thought in mind of possibly using it in criticizing the present Administration.

Godel further advised that in the event the operation is held, top Department of Defense officials plan on relocating through July 22, returning to Washington for July 23 and 24, and again returning to the relocation site on July 25 and 26.

ACTION:

Liaison will follow closely to keep abreast of the status of Operation Alert - 1956.

On 7/10/56 IIC will submit to Net Evaluation Subcommittee Staff a statement as to whether additional security measures have been approved for 1959 which would change basically the IIC reports submitted in 1955 regarding clandestine attack in 1958.

In connection with 1955 study, Director commented to Net Evaluation Subcommittee Staff regarding vulnerability of FBI relocation site to clandestine attack. This was not part of the IIC report and was done separately by FBI since studies of clandestine attacks on other conventional relocation sites were being handled by ICIS.

FBI observations were: No wartime security provisions would be in effect for the FBI relocation site in the absence of strategic warning; main relocation building would be vulnerable to an atomic weapon; telephone and teletype lines serving the relocation site could be cut by a saboteur knowing their location and no practical countermeasures can prevent this being done; microwave and radio sites are vulnerable to surprise sabotage attack by forces having numerical and firepower superiority over the persons charged with the operation of those sites; and even though all logical protective measures would be taken regarding the FBI relocation site in the event of warning that an attack might occur, sabotage of communications for the relocation site could still be accomplished by forces having numerical and firepower superiority.

RECOMMENDATION:

It is respectfully recommended that this memorandum be referred to the [redacted] for his observations as to whether any security measures have been approved to be in effect in 1959 which would change materially the foregoing statements made last year. It is further suggested that the [redacted] telephone his reply to Assistant Director Belmont's office.

SUBJECT: DEFENSE PLANS - OPERATION ALERT, 1956

By memorandum dated 7-2-56 Lt. Gen. Willard S. Paul, Assistant to the Director, Office of Defense Mobilization (ODM), submitted a list of the inspectors and Signal Corps Liaison Officers who will inspect the agency operations during OPERATION ALERT, 1956. Mr. William A. Boleyn of the Bureau of the Budget will represent ODM as its inspector at the Bureau relocation site during this exercise. Mr. Boleyn has previously accompanied the Bureau on alert exercises. Capt. Thomas Burke will be the Signal Corps Liaison Officer who will inspect the interagency communications system facilities of the Bureau some time during the course of the 7-day period. Mr. Boleyn, according to ODM, has top secret security clearance on file at ODM. Security clearance for Capt. Burke will be requested from the Bureau prior to his arrival at the relocation site.

Tab A to General Paul's letter reflects that the inspector's travel and subsistence expenses are to be borne by the agency which he will be inspecting, as well as provide him with transportation to and from the relocation site. The voucher for reimbursement is to be submitted for payment directly to the agency which was inspected by the inspector. The inspector is to be provided with a list of essential wartime functions, information concerning problems developed for the exercise and special instructions issued to personnel pertaining to the exercise. Mr. Boleyn is familiar with the essential wartime functions of the Bureau, and Bureau problems developed for the exercise, as well as instructions issued to personnel participating in the exercise will be discussed with Mr. Boleyn. He will, of course, be given access to the communications center, as well as any records or logs which may be of interest to him and maintained by the Bureau during the course of the exercise.

A check list of items in which the inspector will be interested was submitted by Gen. Paul. Among the items of interest will be the evacuation of headquarters city and the activation of the relocation site, including the presence of executive direction of the agency and the adequacy of the chain of command. Other items of interest to the inspector will be the adequacy of personnel, availability of necessary facilities for the participants, the effectiveness of the communications system and whether work space and security are adequate.

JUL 13 1956

Belmont memorandum to Boardman

Numerous reports are being requested by ODM during the course of the exercise. Among the reports is a daily communications report wherein tabulation of the number of telephone, teletype, coded and plain text messages received at the relocation site and originated at the relocation site must be reported. In addition thereto, a daily report to the Office of Defense Mobilization is required to be submitted reflecting activity which took place by the close of business at 8 p.m. on July 20, 21, 22, 23, and 24. A summary evaluation report is to be submitted by noon on July 25, 1956. All of the foregoing reports are to be submitted by teletype to ODM, attention Evaluation Group. A final evaluation report is to be submitted by August 31, 1956. This report is to include, among other things, an estimate of the out-of-pocket cost and per diem in lieu of subsistence, as well as relocation facility operational costs and other costs such as communications.

In accordance with prior instructions from the Director, plans have been developed for the submission of daily reports and a summary report. Provision has been made for Mr. William Boleyn of the Bureau of the Budget to accompany this Bureau during OPERATION ALERT 1956, and arrangements will be made to obtain clearance for Captain Thomas Burke of the Signal Corps.

~~No action on~~ <sup>acknowledgment to</sup> General Paul's letter appears necessary.

ACTION:

(1) Bureau files will be checked on Captain Thomas Burke as soon as identifying data on him can be obtained.

(2) A memorandum is being prepared setting forth appropriate instructions for all employees who are to participate in OPERATION ALERT 1956.

(3) In accordance with the instructions of the Director and the requirements of ODM, appropriate daily reports will be submitted during OPERATION ALERT 1956, and a summary report will be prepared for the Director's information and placed on file with ODM by noon on Wednesday, July 25, 1956.

SUBJECT: DEFENSE PLANS

*Explosions - Emergency Headquarters For S.O.C.*

A Brief of the Bureau evacuation and relocation plan was originally submitted on July 19, 1955, and has been amended at various times since.

Because of changing regulations, instructions, and changes in Bureau personnel this Brief will be periodically brought up-to-date. Attached are the following amended pages:

Page 5 - Paragraph 2 retyped to reflect that the direct telephone lines from the Pentagon now terminate on telephones in Mr. Belmont's Office. Paragraph 3 eliminated because of the above change.

Page 6 - Paragraph 2, last sentence, changed to reflect

Paragraph 3 changed to reflect 186 rather than 184 employees will be needed at the relocation site for first 24 - 48 hours.

Page 8 - Last two sentences top paragraph changed to more clearly explain the situation. Number in second line of last paragraph changed from 184 to 186.

Page 9 - Last sentence paragraph 3 eliminated since delivery date of added gas masks is uncertain.

Page 10 - Retyped to include paragraph 4 containing information relative to the Red Line telephone system.

Page 11 - No changes. Retyped because of added paragraph and 12 on page 10.

Page 18 - Retyped to show 186 rather than 184 emergency evacuees, and to show 12 instead of 10 Laboratory Division evacuees.

Philcox of Liaison talked with Jim Rowley of the White House again on 7/9/56 regarding the plans for the Pan American Conference. According to Rowley, his time of departure is still somewhat indefinite. He may accompany the President on the night of July 20. If so, then Philcox will probably accompany Jim Hagerty on the 16th, 17th, or 18th of July. One plane load consisting of Commander Beach, the President's Naval Aide; Secret Service agents; and Department of State people is leaving today, July 10, for Panama. *Cottrell*

As of possible interest in connection with Operation Alert 1956, Rowley stated that the President will return from Gettysburg to Washington sometime during the week of July 16. At the beginning of Operation Alert he will probably travel by auto to [redacted] and then Camp David. He tentatively plans to attend the National Security Council (NSC) meeting late on the afternoon of 7/20/56. According to Rowley, the NSC meeting will probably be held at either [redacted]. The President then plans to travel by auto back to Washington and leave that night from the MATS air terminal for Panama. He arrives in Panama on the morning of 7/21/56. Following the two-day Panama Conference, and after the completion of the ceremonial dinner on the night of 7/22/56, the President plans to leave Panama so that he will arrive in Washington on the morning of 7/23/56. According to Rowley, the time and place of the Cabinet meeting planned for 7/23/56 is not yet definite. However, he stated it will probably be held at [redacted] as it was last year. Rowley had no information as to the time and place of the heads of agencies conference on 7/26/56 but stated that this, too will probably be held at [redacted].

ACTION:

will continue to maintain contact for further specific information regarding the conferences to be held during Operation Alert 1956.

Director instructed Training and Inspection

Division to follow removal of supplies from [REDACTED] at [REDACTED] to more suitable fireproof locations and to

follow reallocation of land occupied by the [REDACTED]

These recommendations were approved in connection with Mr. Trotter's inspection of the Training and Inspection Division. 5/21-6/12/56. Supplies stored at [REDACTED] consist primarily

of [REDACTED] of Laboratory Division stored in [REDACTED] and desks, chairs, cabinets, and other nonconfidential supplies for possible emergency use in connection with Bureau Defense Plans; latter Defense Plans material stored in [REDACTED]

Mr. Parsons advises that Laboratory Division supplies are in the process of being removed. [REDACTED] is to endeavor to arrange for removal of other supplies to more suitable fireproof locations and to put the [REDACTED] in condition to be returned to the [REDACTED]

b7E

ACTION TO BE TAKEN: (1) Mr. Parsons is requested to follow the removal of [REDACTED] from [REDACTED]

(2) [REDACTED] is to submit to me a report on Friday of each week as to progress in removing remaining equipment to more suitable fireproof location and in conditioning the property occupied by the [REDACTED]

Department of Defense war plans provide that a Bureau Liaison Representative will relocate with that agency. To date, however, the Department of Defense has not definitely decided where it will relocate. For Operation Alert 1956 Liaison has learned that Secretary Wilson and the Secretaries of the respective military services, as well as the Joint Chiefs of Staff, will relocate at [REDACTED] (It is on the

[REDACTED] that the so-called [REDACTED] is located. The Director attended a meeting there last year. Also going to [REDACTED] will be the heads of military and naval intelligence and other military officials. It is anticipated that they will stay Friday and Saturday and return Sunday, 7/22/56. The military heads of IIC (Interdepartmental Intelligence Conference), with the exception of the Air Force, will be at [REDACTED].

On 7/11/56 Mr. Charles V. Brewer, Office of the Assistant Secretary of Defense for Manpower, Personnel and Reserve, who is in charge of planning for Defense's participation in Operation Alert 1956, suggested that the Bureau may desire to have a Bureau Liaison Representative accompany the Department of Defense group to [REDACTED] for this test. He desired to know if this would be done. From available information it is anticipated that there will be perhaps three high level meetings at [REDACTED] A National Security Council (NSC) meeting on the afternoon of 7/20/56 (this may be held at [REDACTED], a Cabinet meeting on 7/23/56, and a conference of the heads of all Government agencies on 7/26/56. It is possible that the Director may be invited to attend one or more of these meetings.

Since the heads of all IIC agencies, with the exception of the Air Force, will be at [REDACTED] plus the probability that the Director may be requested to go there for a conference, and the fact that Defense desires a Bureau Liaison Representative to be present, it is believed advisable that we should designate an Agent to relocate with the Defense group on 7/20/56 and remain not necessarily for the entire week but only as long as there appears to be developing matters which are of interest to the Bureau. Should the Director attend meetings at [REDACTED] on any of the days indicated, the Bureau Liaison Representative would be present.

1-Tickler  
 RRR:lw (8) 1-Boardman 1-Belmont  
 1-Holloman 1-Roach 1-McArdle 1-Day

RECORDED  
 INDEXED  
 66-17381-1543

Memorandum Roach to Belmont

The time necessary for an Agent to spend at [redacted] as is the case with the other Liaison Agents relocating with their respective agencies, would depend upon activities of Bureau interest at the relocation sites. It is not felt advisable to keep our Liaison Agents at the various relocation sites if their principal contacts do not stay for the entire week. We can, by keeping in touch with these Agents from [redacted] determine the activity at each site and if felt advisable, have each Agent return to Washington at such time as the activities at his particular site so warrant.

b7E

RECOMMENDATIONS:

1. In view of potential developments at [redacted] the possibility that the Director may attend one or more meetings there, plus the fact that the military heads of the IIC agencies, with the exception of Air Force, will be present during the first two days of the Alert, it is recommended that Supervisor Graham A. Day, Executive Secretary of the IIC and who handles liaison on NSC matters, be designated to accompany the Department of Defense to its relocation site as indicated.

b7E

OK  
K

2. It is recommended that the Bureau's Liaison Agents relocating with their respective agencies stay at their particular sites for a sufficient period of time but not necessarily for the entire 7-day period. The length of their stay at any given site will depend upon the amount of activities there which are of interest to the Bureau and their withdrawal therefrom will be contingent upon this basis and controlled from the Bureau's relocation site at [redacted]

*Boyle* - Emergency Headquarters for S.O.G.  
 Attached is an amended Table of Contents together with 2 new pages (94 and 95) for the over-all Bureau plan for OPERATION ALERT, 1956.

The Table of Contents is being amended to reflect Tab 10, Department of Justice relocation site duty schedule for OPERATION ALERT, 1956. Pages 94 and 95 are the duty schedule above mentioned as it now stands. John Airhart, relocation officer of the Department, has advised that there will undoubtedly be changes in this schedule in the near future. As changes are received from Airhart, appropriate changes will be made in the Bureau's over-all plan for OPERATION ALERT, 1956

RECOMMENDATION

If the Director approves, the above amended Table of Contents and pages 94 and 95 above mentioned will be inserted in the Bureau's over-all plan for OPERATION ALERT, 1956.

Dear Mr. Morris:

It is necessary for me to communicate with you in connection with the designation of Assistant Director E. D. Mason to speak before the Fifty-sixth Annual Conference of your group in Elmira, New York, later this month since a last-minute emergency has come up which will demand his presence in Washington during the period of the conference.

I am indeed pleased, however, to advise that Inspector Jephtha S. Rogers of our Training and Inspection Division will be available at this time and will handle the speaking engagement for Mr. Mason. I am enclosing a biographical sketch of him which might be useful.

Sincerely yours,

J. Edgar Hoover

By memorandum dated June 18, 1956, the Attorney General advised that he was holding a conference on Wednesday, July 11, 1956, at 10:00 A.M. in his office. He requested the Director's attendance and participation in the discussion, to be led by Mr. Rankin, on the Attorney General's Portfolio. He indicated that this conference will be designed to give those attending a briefing preparatory to the forthcoming Operation Alert scheduled for July 20-26, 1956.

The Director requested that he be furnished with material he might need for such a conference.

Attached is a brief for use by the Director. This brief contains a brief summary of the pertinent portions of the Attorney General's Portfolio. It is noted therein that there are no matters unresolved regarding the procedures to be followed by this Bureau in handling its responsibilities under Parts I, II and III of the revised Portfolio. We do comment, however, specifically regarding the problem raised by the declaration of martial law during Operation Alert - 1955 and the unresolved question regarding the departmental chain of command.

We have included therein a brief summary of the over-all Bureau plans for Operation Alert - 1956. A complete brief of our plans has been submitted for the Director's use in Operation Alert - 1956. We have also commented upon attack warning channels and procedures for civilians which may be a subject of discussion at the forthcoming conference.

Any changes that occur in connection with this material prior to the date of the conference will immediately be called to the Director's attention.

Enclosure — notation made above

On memorandum dated 7-5-56 relative to Office of Defense Mobilization (ODM) plans for the inspection of Bureau participation in OPERATION ALERT, 1956, the Director noted, "See that substance is included in memo for my use at A.G. conf. July 11. H."

Enclosed is an amended Table of Contents page adding Items D and E of Part II to the brief attached to the memorandum captioned as above dated 6-25-56.

There are also enclosed new pages 14 and 15 for the above-mentioned brief. New page 14 sets forth information relative to the inspection of OPERATION ALERT, 1956, by Office of Defense Mobilization representatives. New page 15 sets forth conferences which the Director may be invited to attend during OPERATION ALERT, 1956.

ACTION:

If the Director approves, the above-mentioned amended page and new pages 14 and 15 will be inserted in the Director's brief.

OPERATION ALERT - 1956

This Bureau has received a document  
classified "~~Secret~~" issued by the Office of Defense  
Mobilization entitled "Briefing for Operation  
Alert - 1956 (Revised)" dated July 11, 1956.

On page eight thereof, in listing the  
actions which the President would take on E-Day,  
item eight states "Issue proclamation giving  
Secretary of State authority to control entry into  
and departure from the U.S. of all persons both  
citizens and aliens including detention of  
diplomatic and official representatives." The  
agencies responsible for the preparation of this  
proclamation are Department of State and Department  
of Justice.

You may wish to point out to the Office  
of Defense Mobilization that such a proclamation  
should provide only for the detention of enemy  
diplomatic and official representatives.

OPERATION ALERT - 1956

Emergency Headquarters For S.O.G.

On July 17, 1956, Liaison obtained five copies of a pamphlet from Office of Defense Mobilization (ODM) entitled "Operational Assignments from Office of Defense Mobilization and Federal Civil Defense Administration for Operation Alert 1956."

The memorandum at the beginning of this pamphlet, which is signed by Arthur S. Flemming, Director, ODM, and Val Peterson, Administrator, Federal Civil Defense Administration, explains that this pamphlet incorporates planning assumptions for Operation Alert - 1956, and gives specific operational assignments to certain of the Federal agencies. The Bureau is not involved in any specific assignment as result of the issuance of this document. The memorandum explains that existing delegations remain in effect. For your information there is enclosed one copy of the above-described pamphlet. The other four copies will be retained by the Defense Plans Coordinator in the Liaison Section.

ACTION:

For your information.

I talked with John Airhart of the Department this morning. Dr. Flemming referred to an "enlarged" NSC meeting at the beginning of the test on July 20th, time and place to be announced later. Mr. Airhart stated it was his understanding this meeting would be held from 9 to 11 a.m. on Friday morning, 7/20, and the participants would proceed direct from the meeting to their relocation sites. The invitations have not yet been extended. We are checking to see whether an invitation will be extended to the Bureau.\* A memorandum for the Director's use, in the event we attend, is in preparation.

Flemming stated that the heads of agencies should return to their relocation sites on Tuesday, 7/24. Airhart said he had talked with the Attorney General last night, and the AG said that at the cabinet meeting referred to by Flemming, on 7/13, it was left up to the agency heads to decide whether they should return to their relocation sites on 7/24. Airhart said that the AG had decided he would \_\_\_\_\_ on July 24th.

MEMORANDUM FOR MR. TOLSON  
MR. BOARDMAN  
MR. BELMONT  
MR. NICHOLS

This morning I attended a conference in the office of the Attorney General at which were present the Attorney General, the Deputy Attorney General, Mr. Rogers, and Assistant Attorneys General Rankin, Tompkins, Morton and Olney. Also present were Mr. Airhart, the Departmental representative for relocation, and representatives

Mr. Morton opened the conference by taking up the Attorney General's Portfolio and outlining the same in some detail.

Mr. Rankin pointed out that Part I of the Portfolio dealt with the action to be taken without declaration of war, while Part II of the Portfolio dealt with the action which would be taken contingent upon the formal declaration of war.

Mr. Rankin pointed out that Part I of the Portfolio applied to persons to be apprehended who are aliens or citizens and pose a threat to the security of the nation. Part II of the Portfolio applied to aliens who were not considered a threat to the security of the nation and Part III of the Portfolio applied to apprehension of aliens deemed dangerous to the security of the nation.

Mr. Rankin also pointed out that the Portfolio contains a detailed memorandum dealing with the writ of habeas corpus and concludes that the President has the right to suspend the writ of habeas corpus without Congressional action.

Mr. Rankin also pointed out that the Portfolio contains a memorandum dealing with the problem of the seizure of property of any kind from anybody who may pose a threat to the security of the nation.

NOT RECORDED  
188 JUL 20 1956

JUL 20 1956

ORIGINAL FILED IN 66-18463

July 11, 1950

Some question was raised by the Attorney General as to the procedure in World War II and I have asked Mr. Boardman and Mr. Hennrich to let me have a memorandum as to any instances which arose in World War II where enemy aliens who were arrested under the Presidential Proclamation later sought writs of habeas corpus, and if so, what was the disposition of such cases.

Mr. Rankin further pointed out that the Portfolio contained a memorandum dealing with the Chinese Communist problem and, in particular, with the Formosa situation.

Mr. Rankin pointed out also that the Portfolio contained a detailed study as to aspects of martial law which would henceforth be referred to as martial rule in view of the fact that this was a broader and more appropriate term. Mr. Rankin stated that in a few days there would be forwarded for inclusion in the Portfolio a new memorandum on martial rule in which there would be stressed the national necessity that would justify the establishment of martial rule, as well as the conditions under which it should be ended.

Mr. Rankin also pointed out that the Portfolio contained an outline of procedure for the apprehension of persons and property.

The Attorney General raised a question as to whether martial rule was to be utilized during the forthcoming Operation Alert and exactly what functions the Army would perform insofar as this affected the FBI. He directed Mr. Airhart and a representative from this Bureau to confer with the Office of Defense Mobilization so that the details of this might be clarified. The Attorney General also mentioned that he understood that an agreement had been entered into by the Department of Defense, the Office of Civil Defense and the Office of Defense Mobilization which, in general, dealt with this problem. I have alerted Mr. Boardman and Mr. Hennrich relative to the above and instructed that Mr. Hennrich should contact Mr. Airhart if he does not hear from him shortly so that Mr. Airhart and a representative of the Bureau may carry forth the conference which the Attorney General desires. I have also asked Mr. Boardman and Mr. Hennrich to procure for me a copy of the agreement, if it is available, which has been entered into by the Department of Defense, the Office of Civil Defense and the Office of Defense Mobilization.

Messrs. Tolson, Boardman, Belmont, Nichols

July 11, 1956

Mr. Rankin pointed out that the Master Warrant was not in the Portfolio but was in the possession of Mr. William Foley in Mr. Tompkins' office. The Attorney General questioned the reason why it should not be put into the main Portfolio and copies in all the others and it was agreed that this should be done and we will, no doubt, receive in a few days the copies of the Master Warrant which we should incorporate in the two copies of the Portfolio which we have.

Mr. Airhart advised the conference in general detail of the procedures to be followed on Friday, July 20, when the alert is to be sounded at 11:00 am. In answer to a question as to whether the Chain of Command would be notified, Mr. Airhart stated it would not, but that the sounding of the sirens would be indication to start procedures incident to the evacuation. It was indicated that the Attorney General would proceed [redacted] accompanied by Mr. Rankin, and that subsequent to his arrival [redacted] he might then be called [redacted] but that he would not on this forthcoming Alert proceed [redacted] under the present arrangements. b7E

The Attorney General raised the question as to when the procedures outlined in the Portfolio would be implemented, namely, whether at 11:00 am or whether after arrival at the relocation centers. The Attorney General observed that to await arrival at the relocation centers was not realistic. The Attorney General asked that Mr. Airhart clarify this matter with Mr. Flemming, the Director of the Office of Defense Mobilization, and it was the Attorney General's view, at least as of this time, that the Director of the FBI would communicate with the Attorney General immediately upon the sounding of the Alert and recommend whatever section of the Portfolio which, in the judgment of the FBI, should be utilized and that then the Attorney General would communicate with the President, obtain clearance and at once notify the FBI. I have orally advised Mr. Boardman and Mr. Hennrich of this development in order that we may be properly prepared. b7E

It was indicated at the conference that there are in the [redacted]

[redacted]

Messrs. Tolson, Boardman, Belmont, Nichols

July 11, 1956

[redacted] I have asked Mr. Boardman and Mr. Hennrich to make

b7E

At the conference this morning reference was made to a memorandum which had been distributed to various divisions of the Department, setting forth the duty schedule of the Attorney General and those acting in his place [redacted] I have learned that I had not received this schedule, but was informed by Mr. Airhart that a copy had been delivered to Mr. Belmont's office. Upon my return to the office, I conferred with Mr. Boardman and Mr. Hennrich and ascertained to my chagrin that a copy of this memorandum was delivered to Mr. McArdle at 4:30 pm on July 9, and had not been called to the attention of Mr. Boardman or Mr. Hennrich or myself, notwithstanding it was known I was to attend a conference in the Attorney General's office at 10:00 am on July 11. I have asked for written explanations as to this marked deficiency in operations in Mr. Belmont's Division.

b7E

I brought up the question at the conference with the Attorney General that the Bureau had received but two copies of the Portfolio and that we had not received the third copy which was to be sent to our [redacted] to be held, as I understood the Portfolio had not been formally approved. This was a surprise to the Attorney General and he advised Mr. Rankin that he as of that moment formally approved the Portfolio. The obtaining of the third copy should in due time be followed up with Mr. Rankin so we may have it.

b7E

I also mentioned that there had not been a final determination upon the Chain of Command and the Attorney General stated that so far as the forthcoming alert was concerned, the memorandum last sent to us which, I believe, was in December, 1955, would be the one that would guide us as to the Chain of Command.

Deputy Attorney General Rogers indicated that he was not at all satisfied with the organization for the forthcoming Alert insofar as it applied to the Department, as he did not believe it was clear as to what each one would do or how the various problems would be handled. I took occasion to point out the plans of the Bureau and how we intended to proceed and apparently it was entirely satisfactory. Mr. Rogers suggested

Messrs. Tolson, Boardman, Belmont, Nichols

July 11, 1956

that Mr. Rankin, Mr. Morton, Mr. Yeagley and Mr. Airhart confer tomorrow, Thursday, July 12, in the afternoon so as to try and work out some semblance of specific procedures to be followed by the Department. If there arise any aspects affecting the Bureau, or on which advice from the Bureau is desired, Mr. Rogers will communicate with me.

Very truly yours,

  
John Edgar Hoover  
Director

On the evening of July 12, 1956, Mr. Hennrich and Mr. Bland conferred further with Mr. John Airhart of the Department in an effort to resolve the question of martial law (martial rule) and the Federal Civil Defense Administration (FCDA) military assistance program insofar as they apply to FBI operations. Airhart is of the opinion that further negotiations with the Office of Defense Mobilization (ODM) in an effort to clarify either of these problems is futile and he has recommended to the Attorney General that Department representatives together with FBI representatives attempt to resolve these questions by direct liaison with Department of Defense and FCDA. The following is the net result of our conference:

1. Martial Law (Martial Rule)

Airhart stated that martial rule is merely another name for martial law. The new name resulted from press criticism of the President's reference to martial law during Operation Alert 1955. Essentially there is no difference. There has been no clarification of the Bureau's position should martial rule be invoked. While ODM planning does not contemplate this, it is possible that a military commander will invoke it on his own responsibility. Under present instructions from the Department we will abide by the instructions of the military commander and in the event of a conflict with our operations, under the Attorney General's instructions, we will resolve any problems with the Attorney General. If the Attorney General approves Airhart's recommendation that Department representatives together with FBI representatives attempt to resolve the problem directly with the Secretary of Defense, we recommend that the FBI continue its position that this is strictly the Department's problem and we should press them to get clarification as to just what FBI jurisdiction will be under martial rule, particularly as to the Emergency Detention Program.

Memorandum for Mr. Boardman

2. Military Assistance Program

This is the program referred to by General Paul on July 11 which provides for the Secretary of Defense to provide military assistance to civil authority by proclamation and executive order. This is the agreement which was referred to in the Attorney General's conference which the Director attended on the morning of July 11. General Paul of ODM states that while this agreement has been drawn up it has not been fully resolved. He indicated he would make a copy available to Justice. Airhart feels that there is some reluctance on the part of ODM to furnish this agreement.

The military assistance agreement, above referred to, will be implemented by proclamation. Airhart states that Justice has been collaborating and drawing up such a proclamation which is presently very much unresolved and consists of correspondence between ODM and Justice. Airhart said that he has determined that when General Paul referred to Justice collaborating on the military assistance agreement he was referring actually to this proclamation and not to the actual agreement.

Both the military assistance agreement and the proclamation putting it into effect are a part of an over-all implementing document which will federalize state civil defense agencies in an emergency and give them authority to coordinate and direct military assistance and establish such other emergency measures as are necessary to control and maintain order under emergency conditions. Airhart stated that there are undoubtedly a number of ODM and FCDA documents which have been drawn up and approved which relate to the over-all authority to be granted to FCDA in an emergency, many of which have not been submitted to the Justice Department for an opinion as to legality. He said that Justice has specifically requested ODM to submit such papers for review. He is not optimistic as to the response which ODM will give.

Airhart stated he has recommended to the Attorney General that the question of resolving just what the FBI's operational position would be under emergency conditions when FCDA is in command should be worked out through direct liaison with FCDA by Department representatives accompanied by a representative of the FBI. We feel that if the Attorney General approves Airhart's recommendation that the FBI should accompany Justice representatives in an effort to resolve the specific question as to the FBI's operational position, under conditions where FCDA is in over-all authority.

*Memorandum for Mr. Boardman*

Airhart stated confidentially to Hennrich on the afternoon of July 12 that at the conference with Rogers which lasted from 2 p.m. until almost 5 p.m. he had spent the entire time informing other officials of the Department as to the contents of the briefing on Operation Alert 1956 all of whom had received such material for review and few, if any of whom, had even read it. Airhart was most complimentary of the Director on the Director's grasp and detailed knowledge of planning and procedures.

**ACTION:**

We are maintaining close contact with Airhart in order to resolve pending questions as promptly as possible.

SUBJECT: OPERATION ALERT 1956

*Supplms - Emergency Headquarters for SIOG*

Mr. John Airhart of the Department telephonically contacted Supervisor McArdle at 10:55 a.m. today in your absence. Airhart stated he had just learned there had been a meeting at ODM 7/18/56 at which a representative of Mr. Rankin's Office in the Department had been in attendance. The purpose of the meeting was to discuss a "book of documents" that ODM is putting out for use during Operation Alert 1956. According to Airhart, some of the documents in the

Bureau Liaison was advised by ODM late yesterday afternoon that they were then compiling ~~the~~ so-called "book of documents" and that as soon as copies were available, they would be furnished to us. Liaison Agent Bartlett has been at ODM all morning and as of 1:00 p.m. today the documents are not yet ready.

ACTION:

We will get these documents and will immediately analyze them to see if those proclamations, etc. that are of interest to us are included and in what form. You will be kept informed of developments.

Office of Defense Mobilization (ODM) release to the heads of Executive departments and agencies, dated 6-12-56, a copy of which is attached, sets forth the manner in which public information should be made available to news agencies during OPERATION ALERT, 1956. All news releases are to be transmitted to "switchboard," the public information office [redacted] which agency will in turn digest the information and transmit such items as they desire to release to [redacted] where it will be released. b7E

Although the Bureau does not intend to make any news releases during OPERATION ALERT, 1956, Item 10 of the above-mentioned ODM instructions stated that a public information officer should be available at each relocation center during the entire exercise, both day and night, and that his name, telephone extension, and place of duty should be communicated to "switchboard" as his tour of duty begins. This is to insure that all queries can be answered promptly. It is believed that Mr. Nichols or person acting for him at the relocation site should be designated as the public information officer to answer such inquiries as "switchboard" may present to the Bureau during the course of the exercise.

RECOMMENDATION:

That Mr. Nichols or person acting for him at the relocation site be designated as the public information officer to accept and answer inquiries from the press (switchboard) during OPERATION ALERT, 1956.

 Holloman \_\_\_\_\_  
 Gandy \_\_\_\_\_

Reference is made to Mr. Belmont's memorandum to Mr. Boardman dated July 11, 1956, recommending that I, or the person acting for me [redacted] be designated as the Public Information Officer during Operation Alert to handle inquiries from the press [redacted]

[redacted] relayed to the Bureau by "switchboard" [redacted]. It is noted all news releases concerning both the exercise itself as well as non-exercise items are to be given to the press [redacted] through switchboard and not through normal news outlets in Washington.

Mr. McGuire saw Mr. Mullen on the afternoon of July 16, regarding this matter and also referred to the letter from Murray Snyder, Assistant Press Secretary to the President, addressed to all executive departments and agencies dated July 5, 1956, amending previous memoranda regarding the handling of press information during Operation Alert. Mullen stated that he was late today writing a letter to Snyder and would furnish a copy of it to the Bureau suggesting to Snyder that all press inquiries [redacted] destined for the Justice Department or any of its agencies, including the FBI, be directed by switchboard to Mullen at the Justice relocation site [redacted]. Mullen advised that he would handle the inquiries [redacted] and should there be need to consult the Bureau, he will call my office here in Washington regarding any matter pertaining to the FBI since I will be here in Washington and no [redacted]. Mullen's reason for that is that it is not anticipated that any releases of information regarding the exercises themselves will be made by either the FBI or the Justice Department since our functions involve classified operations.

As to non-exercise news items arising in the criminal field such as the apprehension of the top ten fugitive or a shooting, if there is need to make an immediate press release from Washington, Mullen suggests that I or whoever is acting for me here in Washington where the facts will be available call him by telephone [redacted] and provide him with a short statement not to exceed 10 lines regarding the incident.

RECORDED - 84

EX-122

JUL 23 1956

Memo to Mr. Tolson

Mullen advised that in such an instance he will tell the Bureau to go right ahead and make its press release in the area where the incident occurs as well as from Washington through normal news outlets and all he need be provided with is a 10 line statement which he will furnish to switchboard for dissemination [ ] and he would try to have the time coincide with the actual releasing of the information by the Bureau in Washington. b7E

It is noted that these arrangements are only necessary during the period 11:00 a.m. Eastern Daylight Time, Friday, July 20, through 11:00 p.m. Eastern Daylight Time, Monday, July 23, 1956, and that thereafter the usual Washington news outlets are to be used. Mullen further advised that there is no need for encrypting any news releases which are furnished to him for dissemination through switchboard [ ] as such for the present should be in clear text. Therefore, if the Bureau has any press releases to make during this initial period of Operation Alert, it will be our responsibility to contact Mullen [ ] and furnish him a short statement for dissemination and thereafter make the release as he directs ~~or~~ by the Bureau in Washington or in the field. b7E

Should there be some mixup and press inquiries are directed by switchboard to our location [ ] Mr. McGuire will refer those items to me here at Washington and I will handle the matter through Mullen [ ] [ ]

Office Memorandum • UNITED

Attached is the Bureau plan and summary thereof covering the Bureau's participation in Operation Alert 1956. This exercise will begin at 10:00 a.m., EST, July 20, 1956, and close at 11:00 a.m., July 26, 1956. The brief covers the activities to be engaged in by Bureau personnel, the manner in which the evacuation to the Bureau relocation site will be accomplished and the activities while at the relocation site.

Each division participating in this exercise is requested to prepare a separate memorandum at the end of the test reflecting any weaknesses in the operations which fall within their jurisdiction.

As you know, we have been operating with the minimum number of personnel so far in Operation Alert, 1956. With a view to continuing on the basis of the minimum number of personnel, we have made a survey and are releasing 5 Supervisors and 5 clerical personnel today on a staggered basis starting at 12:00 noon.

The personnel being released, in addition to the release of Mr. Anthony and Mr. Crawford yesterday, are:

Domestic Intelligence Division

Section Chief W. A. Branigan  
 Section Chief J. F. Bland  
 Supervisor E. T. Turner  
 Supervisor P. L. Cox  
 Supervisor J. G. Landis  
 Stenographer Mildred J. Tweedon  
 Stenographer Barbara L. Bowie

Records and Communications Division

Clerical employees  
 Grace Hinze  
 James Blasingame  
 Barbara Stanhagen

We will continue to watch this closely, and additional personnel will be released as soon as possible in keeping with developments.

This report covers developments from the afternoon of July 22 (Sunday) until noon, July 23, 1956.

RELEASE OF PERSONNEL

Four additional clerical employees of the Records and Communications Division are being released today, starting at noon. Their identities have been furnished to the Bureau. We will continue to see that personnel are kept to the minimum, commensurate with the job to be done.

AVAILABILITY CHECKS

On the evening of July 22 (Sunday), the following five offices were contacted and instructed to check and report back on the availability of their Agents on duty status in headquarters cities. The time within which all Agents were contacted is set forth below.

Office

b7E

All offices were considered satisfactory.

Memorandum to the Director  
from Mr. Belmont.

July 23, 1956

INSPECTION OF COMMUNICATIONS SYSTEM

At 10:40 a.m., July 23, [ ]  
[ ] called at the Academy to inspect our communications  
setup. This was in accordance with previous arrangements. [ ]  
[ ] prepared his report and rated the Bureau [ ] on every  
phase. [ ] stayed for lunch and departed thereafter.

b7E

HEADS OF AGENCIES MEETING, 2:30 P.M., JULY 25, 1956,  
AT WHITE HOUSE

Liaison Agent Philcox in Panama advised that the Heads of Agencies Meeting will be in the Cabinet Room at the White House at 2:30 p.m., July 25. Philcox said there would be no Cabinet meeting; therefore, we are not preparing a brief for the Attorney General's use. The summary memorandum on the entire Operation Alert, 1956, for the Director's use at this meeting, is being prepared, covering the period from the beginning of the Alert through July 24. This will be on the Director's desk at 9:00 a.m., July 25.

Liaison Agents have been alerted to ascertain what will go on at this meeting and, particularly, whether any problems will be posed. So far, it appears that Val Peterson and Arthur Flemming will brief the President on Tuesday, and at the meeting Wednesday, Flemming and Peterson will do most of the briefing. There is no indication so far that others will be called upon.

FINANCIAL REPORT - DUE AUGUST 31, 1956

Office of Defense Mobilization (ODM) instructions for Operation Alert, 1956, call for an estimate of "out-of-pocket" costs of the agencies participating, to be submitted by August 31, 1956. This estimate of costs is part of the final evaluation report. In order that we may secure the actual or best estimated figures from the field to include in this report, and at the same time further test our radio communications, we sent a radiogram today to all offices,

Memorandum to the Director  
from Mr. Belmont

July 23, 1956

instructing that a financial report of actual costs incurred by each office from this operation be submitted by airtel to reach the Bureau by August 5, including cost figures as to Communications, Personnel, Travel, and Other. Figures are to be based on actual costs or best estimates. Thereafter, these figures will be joined with the Seat of Government figures for the necessary report to ODM.

#### DAILY REPORTS TO ODM

We have continued to submit our daily reports to ODM, both as to operations and communications. Inasmuch as these reports to ODM are used by ODM for periodic teletypes to all agencies, reflecting the activities, we have kept our reports short and general. We believe this is necessary, as we do not want our delicate programs or activities broadcast to other agencies.

Inspector Boleyn's report to ODM dated July 23 on "Staffing" rated us Outstanding on individual assignments, basic orientation of employees to total agency operations at site, and general orientation, living arrangements, etc. He gave affirmative answers to the other three questions, namely: [REDACTED]

[REDACTED]

[REDACTED] This is a favorable report. Mr. Boleyn gave affirmative answers to questions under "Organization and Executive Direction," regarding provision for succession of command; participation in program and policy formulation; formalized delegations of authority; and areas of responsibility understood and not conflicting.

b7E

#### PROBLEMS INITIATED BY THE BUREAU

The problems we intended to work during this Operation Alert have been completed with the [REDACTED]

The Laboratory reports that the field problems [REDACTED] went very smoothly and reflected an understanding by the field of the equipment and how to use it.

b7E

Memorandum to the Director  
from Mr. Belmont

July 23, 1956

OUTSIDE PROBLEMS

We have continued to receive outside problems from other agencies. These problems have been handled promptly upon receipt.

Examples:

1.

2.

3.

4.

b7E

Memorandum to the Director  
from Mr. Belmont

July 23, 1956

5.

LIAISON

Our Liaison Agents continue to keep us advised of all developments.

Val Peterson advised Agent Whaley [redacted] that he was very glad to see a Bureau representative [redacted] and was pleased that the Director had assigned someone to his staff. He considered this a courtesy and foresight in good planning.

Based on instructions from the Bureau relocation site, Liaison Agent Kuhrtz attended a [redacted] on the morning of July 22. This conference was for the purpose of discussing, airing and straightening out any difficulties incurred by State. Kuhrtz briefed the conference on the delay in securing authority from the [redacted] to institute the program involving the protection of enemy diplomats and pointed out that such a delay could result in dispersal of the diplomats and make it extremely difficult to take them into custody. He pointed out that this would be embarrassing to the [redacted] and would hinder the FBI.

Agent Kuhrtz advised on the evening of July 22 that he had discussed this further with Robert Cartwright, [redacted] who said that the delay in this case resulted from internal confusion, as well as the fact that policy-making officials did not reach State relocation promptly due to inclement weather. Cartwright is writing a memorandum setting

Memorandum to the Director  
from Mr. Belmont

July 23, 1956

forth the necessity of [redacted] giving the Bureau prompt  
authority to institute this program and that machinery within the  
[redacted] must be geared to avoid delay.

b7E

At the end of the alert exercise. we are following up by sending  
a letter [redacted]

A further report will be submitted tomorrow.

During the Director's conference with the Attorney General on July 11, 1956, the question was discussed as to whether the Director would make a recommendation to the Attorney General, immediately upon receiving the alert of notification through [redacted] at 11 a.m. on July 20, 1956, regarding the placing of the provisions of the Portfolio into effect. General Paul, of the Office of Defense Mobilization (ODM), has stated that the President will automatically sign necessary documents, following which action will be directed by ODM. General Paul stated that no recommendation from the Attorney General is necessary for purposes of this test. We, therefore, recommend that as an official part of Operation Alert, 1956, the Director make no recommendation to the Attorney General, since presumably the Attorney General could take no action on such a recommendation. General Paul accented that the plans call for immediate evacuation upon the sounding of alert, and ODM has stated, according to John Airhart, that actual instructions will be sent to the relocation sites as soon as the sites are manned.

Should the President, contrary to ODM planning, desire to initiate action prior to the arrival of agencies at relocation sites, communication would be directed to the Attorney General, who could communicate with the Director through [redacted] issuing appropriate instructions. The Director could then issue appropriate instructions to the FBI relocation site.

Memorandum to Mr. Boardman from Mr. Belmont

In an actual emergency, the Director would, of course, make recommendations to the Attorney General as soon as facts were available to him on which such action could be predicated. Such recommendations could be made either [redacted]

b7E

[redacted] They would be made immediately upon the receipt of sufficient facts justifying any recommendation. If, in a real emergency, we had the facts on which the assumptions in this particular test are based, the Director undoubtedly would make a recommendation the minute he had the facts and would, on the basis of these facts, recommend that Part I of the Portfolio be placed into effect. (This calls for the immediate apprehension of all individuals on the Security Index, both citizens and aliens, and the suspension of the writ of habeas corpus.)

**ACTION:**

If you agree, we will plan accordingly.

John Airhart of the Department stopped by my office at noon and talked to Mr. Hennrich. He stated there were three items which had come to his attention and which he wanted the Bureau to know about. They are as follows:

- (1) In connection with the Cabinet meeting on Friday attended by the Attorney General it was stated that the Operation Alert, 1956 would be conducted with a minimum of publicity.
- (2) Mr. Sims of the Department was talking with Mr. Richard Jones, Bureau of the Budget Legislative Liaison Officer, on the morning of July 16th. Jones stated that there is some indication at this time that ODM, in connection with Operation Alert, may not utilize the documents and proclamations included in the Portfolio, but may following the beginning of the Alert call for the Department to cook up supposititious proclamations, submit them and then wait for action. Airhart is attempting to obtain clarification on this point. He stated that so far as he is concerned, he feels there is sufficient justification under the briefing document prepared by ODM for the Attorney General to initiate action by authorizing the Bureau to proceed with its program and if the Department agrees with him in this position even though ODM decided to switch the ground rules at the last minute the Bureau can still proceed on authority of the Attorney General under the broad authority set forth in the briefing document.
- (3) Jones indicated to the Department on the morning of July 16th that there is now being discussed a proposition that the Alert continue only from Friday, July 20th thru Monday, July 23rd. Whether this proposition is being seriously considered Airhart did not know.

ACTION: We will continue to follow on these matters and you will be kept advised.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Belmont

DATE: *July 16, 1956*

FROM : Mr. Roach

**SUBJECT:** DEFENSE PLANS - OPERATION ALERT, 1956

On 7/13/56 William Elliott, Security Officer, Office of Defense Mobilization (ODM) advised Liaison supervisor Whaley that he and several other security people at ODM plan on going to the ODM relocation site [redacted] on Thursday 7/19/56. He stated that they were going down the day before the test actually starts to get everything in order and to avoid as much of the expected confusion as possible. Elliott stated that he would like to have Whaley join them on Thursday evening or at the latest early Friday morning. He stated that he would like Whaley to come before the test actually begins so that all of his arrangements concerning the telephone, desk space, registration and housing could be taken care of before the complications begin at the start of the alert on 7/20/56.

**RECOMMENDATION:**

In view of complications and confusion that will undoubtedly arise at ODM it is recommended that Whaley go to [redacted] on the evening of 7/19/56 so that he can be in full operation when the alert starts. Whaley has been designated as the Liaison representative with ODM during this operation. b7

*(Branigan)* Emergency Headquarters for S.O.G.  
 Bureau liaison received on afternoon of 7/19/56 five copies of document entitled "Key Documents for Operation Alert 1956" containing 13 proclamations and executive orders for the signature of the President and four Office of Defense Mobilization (ODM) documents to be signed by the Director of Defense Mobilization.

As explained on the fly-leaf, the "Key Documents" are for the purpose of the exercise only and have not had Executive Branch clearance and do not necessarily reflect Administration policy. The actual emergency proclamations which the President would sign with regard to the detention program, for example, are not here but presumably are included by inference in the proposed proclamation providing temporary national security and civil defense measures. This is Alert Document No. 3, which begins on page 4. In Alert Document No. 3, which covers the so-called "military assistance," is a provision for the suspension of the writ of habeas corpus during the period the proclamation is in effect or during a 60-day period, whichever is shorter. Under Section 3 (a) and (b) of the proclamation on page 6 it refers to persons who may be apprehended or detained under the authority of this proclamation. Nowhere in the proclamation is there specific provision for such apprehension or detention. The proclamation also provides for the [redacted]

b7E

The proclamation also provides that all executive departments and Federal agencies are authorized and directed to render all possible assistance in carrying out the provisions of this proclamation, including, among other items, facilities and services.

Another document of interest to the Bureau is Alert Document No. 4, commencing on page 8, which relates to the control of persons departing or entering the United States. This generally follows the provisions of the law in this regard but it does contain one sentence which might be pertinent to the Bureau's participation in the program for interning enemy officials. This sentence provides that Attorney General

ENCLOSURE

*Memorandum for the Director*

*shall have the power to prevent temporarily the departure of any alien prejudicial to the interests of the United States until such time as the Secretary of State shall decide that the departure would not be prejudicial to our interests.*

*On page 16, Alert Document No. 6 establishes the Office of Censorship and prescribes its functions. This document follows very closely the real proposed executive orders establishing the Office of Censorship and invoking temporary censorship measures.*

*None of the other documents are of particular interest to the Bureau and it should be noted that the documents relating to actual Bureau operations appearing in the Attorney General's portfolio are not included in this game.*

*OBSERVATION:*

*It is noted that the suspension of the writ of habeas corpus is one of the most closely guarded matters in our detention program. As such, it has been classified within the Bureau and the Department as ~~Top Secret~~. Even though the ODM publication bears a classification of ~~Secret~~, the suspension of the writ of habeas corpus as provided for under Alert Document No. 3 could quite possibly leak to the press, thereby raising a storm of public protest with attendant possible embarrassment to the Administration.*

*Mr. Airhart of the Department advised Mr. Belmont this afternoon that Fred Ford of the Department is to go [redacted] tomorrow with instructions to attempt to smother any press items regarding legal items or decisions, which would include the habeas corpus matter. Mr. Belmont pointed out to Airhart the possible criticism that might ensue if the suspension of the writ of habeas corpus was given publicity in this exercise.*

b7E

*RECOMMENDATION:*

*None. For your information.*

Several other allegations of [redacted]

OFFICE OF DEFENSE MOBILIZATION (ODM) REPORTS

The necessary reports to ODM concerning communications and progress of our Operation Alert exercise were sent. In accordance with the Department's request, a copy of our progress report to ODM was sent to the Department. In this report, we set forth, in summary, sufficient to show that we are carrying out our responsibilities under the test (without revealing secret data) and under the appropriate caption stated we had experienced [redacted]

b7E

We will continue to make these reports on a daily basis, as required.

Inspector Boleyn furnished us a copy of his report, which consisted of only three lines. In it he rated us [redacted] on instructions to personnel re what to do on the alert signal; departure from Washington with minimum confusion; and activities and attitudes reflecting a sense of urgency and seriousness appropriate to the exercise. He gave affirmative answers to the other questions, which means his report was favorable. He mentioned [redacted]

b7E

Memorandum to the Director from Mr. Belmont

7/21/56

LIAISON

Our Liaison representatives continue to function smoothly, reporting to us frequently. We have had no trouble reaching them at any time.

On the morning of July 21, Supervisor Daunt advised from Justice relocation that the Attorney General would be leaving early Saturday afternoon. (By 12:45 p.m., he had left for luncheon and would go from there to Washington.) The Attorney General did not hold a conference, as previously indicated, concerning a permanent relocation site for the Department. Mr. Rogers will stay at Justice relocation until Fred Ford reports [redacted]

b7E

Supervisor Day at Defense relocation was asked by Joint Chiefs if our Detention Program had been instituted and if matters affecting the Military in connection therewith had been coordinated with the Military. Day advised them that the Program had been launched immediately and that any matters of concern to the Military had been coordinated with the Military.

Our Liaison Agents report that activities at other agencies are relatively quiet.

OVER-ALL OPERATION

Insofar as I can determine at this time, the Operation as a whole has been running smoothly. The Laboratory is proceeding smoothly with its problems; the Records and Communications Division has handled a large volume of communications smoothly; and problems within Mr. Mohr's jurisdiction have been handled promptly.

b7E

The services provided by [redacted] and staff [redacted] have been excellent.

This report covers developments from the afternoon of July 21 until noon of July 22 (Sunday).

RELEASE OF PERSONNEL

We are releasing 2 more Supervisors and 6 clerical personnel this afternoon. The identities of the personnel have been furnished to the Bureau in my memorandum to Mr. Boardman dated July 22. We are watching carefully to keep personnel to the minimum.

AVAILABILITY CHECKS

On the evening of July 21, the offices set out below were contacted and instructed to check the availability of their Agents on duty status in headquarters cities:

OfficeResults

Memorandum to the Director from Mr. Belmont

July 22, 1956

PROBLEMS INITIATED BY THE BUREAU

With the exception of several continuing problems, such as Availability Checks of selected field divisions each evening, and certain [REDACTED]

b7E

[REDACTED] The problems were handled with speed and dispatch.

Any continuation of problems would be repetitious and add nothing to the thorough test already afforded; therefore, we are not initiating additional problems.

OUTSIDE PROBLEMS

We have continued to receive problems from outside agencies. We have handled them promptly upon receipt.

Examples

1.

b7E

Memorandum to the Director from Mr. Belmont

July 22, 1956

LIAISON

About noon, July 22, [redacted] relocation site was released, inasmuch as there has been no activity affecting the Bureau at [redacted] and top officials have left. [redacted] will keep in touch with [redacted] regarding developments. The remaining Liaison Agents have been instructed to stay with their agencies, inasmuch as there has been activity, and activity continues.

For example, [redacted] called at 5:00 p.m., July 21, [redacted] referring to a message disseminated by [redacted]

Referral/Consult

Memorandum to the Director from Mr. Belmont

July 22, 1956

Referral/Consult

Agent Daunt from Justice relocation advised on July 21 that Mr. Yeagley told him the Attorney General and Rogers had conferred on the Portfolio and had found [redacted] neither of which, according to Yeagley, pertains to the Bureau's work. Nevertheless, Daunt took this up with Mr. Rogers and found out that the [redacted]

[redacted] Daunt said the Attorney General had asked Departmental representative Fred Ford at [redacted] to protest the proposed press release at [redacted] which would have referred to the suspension of the writ of habeas corpus and the commandeering of labor. As a result, they were removed from the release relative to the proclamation for military assistance to civilian authorities. Daunt said that these were the two points which the Attorney General had in mind and that no further action is necessary by us. b7E

A further report will be submitted tomorrow.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Boardman *J. Edgar Hoover*  
FROM : A. H. Belmont *[Signature]*  
SUBJECT: DEFENSE PLANS  
OPERATION ALERT 1956

DATE: *July 13, 1956*

Reference is made to the memorandum from Mr. Hennrich to me dated 7/11/56. Referenced memorandum recorded a conference held on 7/11/56 by Mr. Hennrich, Mr. John Airhart of the Department and General Paul, Office of Defense Mobilization (ODM). Referenced Memorandum reported that the ODM briefing manual was being revised and that we would secure a copy of the revised paper and analyze it for inclusion in the Director's brief.

There is attached a copy of the revised paper in question dated 7/11/56. We have received 5 copies. Four are being retained in the [redacted] and are being analyzed so that we may determine where the revisions have been made and how they may affect the Bureau. These revised papers were received from ODM by Liaison on 7/13/56.

Also attached are [redacted] and (3) a copy of a memo from General Paul addressed to the heads of Executive departments and agencies dated 7/10/56. This memo is on the subject of testing of emergency financial system for the Executive Branch of the Government during Operation Alert 1956. Copies of these communications have been made available to the appropriate Divisions and will be analyzed to determine how they affect the Bureau. Any pertinent data contained in them will be placed in the Director's brief.

There is also enclosed a copy of a memo from General Paul to all agency and department heads dated 7/2/56 dealing with ODM's plans for inspection and evaluation of Operation Alert 1956. This memo was previously received and reviewed, and the results set forth in memo to you dated 7/5/56.

ACTION:

Upon completion of the analyses of these new documents appropriate action will be recommended and pertinent data will be placed in Director's brief.

Enclosure

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. A. H. Belmont

DATE: July 11, 1956

FROM : Mr. C. E. Hennrich

SUBJECT: DEFENSE PLANS

*Copy 1 and 2 - ENCL. 100  
HEADQUARTERS FOR SIOG.*

In accordance with the Director's instructions I contacted Mr. John Airhart of the Department on the afternoon of July 11. I arranged to accompany him to confer with General Paul, Assistant to Office of Defense Mobilization (ODM) Director, Arthur Flemming. Flemming was out of the city and not available. General Paul was advised:

Tolson \_\_\_\_\_  
Wick \_\_\_\_\_  
Boardman \_\_\_\_\_  
Belmont \_\_\_\_\_  
Mason \_\_\_\_\_  
Mohr \_\_\_\_\_  
Parsons \_\_\_\_\_  
Rosen \_\_\_\_\_

Holloman \_\_\_\_\_  
Gandy \_\_\_\_\_

(1) that we desired to clarify exactly what the Armed Services would do under martial law as it affects the FBI;

(2) that we understand there is an agreement [redacted]

[redacted] which spells out exactly what the Armed Services would do for agencies in connection with martial rule.

We inquired as to details concerning this and asked if we could have a copy of the agreement. We particularly asked for clarification as to the position of the FBI in connection with operations in connection with martial rule.

General Paul stated that insofar as any planning of ODM is concerned martial law will not be invoked. General Paul conceded that it was possible that a commanding general when given responsibility for a particular area of operations would invoke martial law which would call for the suspension of the writ of Habeas corpus but that ODM has eliminated this possibility from their planning. He suggested by inference that this was a problem that we might want to work out ourselves.

Mr. Airhart has stated that he is recommending to the Attorney General that the Department enter into [redacted] in this regard.

This is the Department's problem to work this matter out with [redacted] and we will continue to follow with them to insure that this is done.

JUL 24

EX 104

Memorandum for Mr. Belmont

b7E

With reference to the agreement reportedly entered into by [redacted] General Paul stated that there has been no specific agreement completed by these agencies. He stated that they are working on such an agreement and that it was his understanding that the Justice Department is collaborating with them and is familiar with the plan. This plan has to do with military assistance under a plan of martial rule. Under this plan as soon as an emergency occurs within a given state or community the FCDA will take command in an emergency and, while during nonemergency periods the state FCDA agencies are non-Federal in character, they will become Federal immediately upon an emergency and will be in absolute command. The agreement which is being worked on [redacted]

[redacted] Any assistance which FBI or other agencies would require would be obtained by making our needs known [redacted] who would make arrangements for military or other available personnel to give such assistance. Under this arrangement, the FBI would not be subject to being required by FCDA to give assistance to it or other agencies who might apply to FCDA for assistance since under Executive Order 10346 the FBI is an agency having designated essential functions to the Government and would not be required to make available personnel to FCDA. In pressing this matter further, General Paul conceded that it is probable that in certain areas the governor who heads up the local FCDA establishments would see fit to declare martial law within a particular state. This proposition raises a question as to just what the Bureau's position would be in operating in an emergency in a state where martial law had been declared by the governor. In connection with this problem General Paul likewise suggested that it was a problem that should be worked out by the interested agency. Mr. Airhart stated he would recommend to the Attorney General that the problem be worked out by direct liaison between the Department of Justice and FCDA.

*2. Look as if ODM can't give a definite answer. A*  
Mr. Airhart advised me that he would check as to the exact status of the military assistance document being worked up which apparently Justice is assisting in and will advise us as to the status of this document.

Mr. Airhart inquired concerning the interpretation which ODM is placing on the material in the DDM briefing document particularly as to whether it can be assumed that the President will sign necessary documents which will authorize the Attorney General to place into effect numerous actions, including our Emergency Detention Program (DETPRO), automatically or whether it will be necessary for the Attorney General

Memorandum for Mr. Belmont

to confer with the President and make recommendations to him prior to such signing. General Paul stated that under the program the President will automatically sign all necessary papers for this particular alert without recommendations from the Attorney General. He stated that it is possible the President may call the Attorney General pointing out that the President is an individual operator but that the ODM planning calls for the President automatically signing these documents after which ODM will notify the Attorney General that they have been signed. This will be the necessary authority for the Attorney General to sign the master warrants and authorize the Bureau to proceed. General Paul pointed out that the program calls for each agency immediately proceeding to its evacuation headquarters upon the sounding of the alert; that ODM will get its communications out to the Attorney General and others as soon as necessary papers are signed; and that the general responsibility of the particular agencies is to initiate any necessary action as soon as they can under the circumstances which exist when notification is given.

General Paul stated that copies of necessary documents are available to the President and that a copy is in the possession of Vice-President Nixon. He indicated that Vice-President Nixon would be officiating in regard to Operation Alert in the absence of the President.

With regard to the briefing document for Operation Alert, copies of which were made available to the Bureau following the briefing which the Director attended on June 28, this document is being revised. General Paul said that the document is now being printed and will be made available at the earliest possible date. We will obtain copies of the revised document and review it and see to it that it is included in the Director's brief in connection with Operation Alert.

ACTION:

We are following with Airhart to insure that we get as speedy action as possible to resolve the martial law and martial rule problems.

We will obtain from Airhart complete details regarding the status of the military assistance planning between Defense Department, FCDA and ODM which the Department is supposed to be collaborating on in order that we can study the procedures to insure that the FBI's interests are properly regarded.

Memorandum for Mr. Belmont

We will follow with ODM in order to obtain a copy of the revised briefing paper as soon as it is prepared, analyze it and include it in the Director's brief.

This report covers developments from the afternoon of July 23rd, until noon, July 24, 1956.

RELEASE OF PERSONNEL

Due to continuing problems being received and continued communications traffic, we are not releasing further personnel today. At 9:00 A.M. tomorrow morning, July 25th, five persons will be released from the Records and Communications Division and three from the Domestic Intelligence Division. Release of further personnel on Wednesday, July 25th, will be dependent on developments. Office of Defense Mobilization (ODM) Director Flemming has stated that the exercise will continue in full force until 5:00 P.M., July 25, 1956.

AVAILABILITY CHECKS

On the evening of July 23, 1956, the following four offices were contacted and instructed to check and report back on the availability of their Agents on duty status in headquarters cities. The time within which all Agents were contacted is set forth below:

OfficeINSPECTOR BOLEYN'S REPORT

Inspector Boleyn rendered his third report to ODM this morning. He advised that we are marked outstanding on all items except those requiring merely a yes or no answer on which we received affirmative checks. Mr. Boleyn stated that he considered our operations this year superior to our operations of last year and that he considered our operations excellent in every respect. He said this will be reflected in his written report.

Memo to the Director (continued)

### ODM REPORT

By teletype received July 24th, ODM requested a daily, concise summary of each exercise problem encountered by each agency during the preceding twenty-four hour period which is considered to be of significance. We had Liaison check [ ] whether this is to be used for press purposes. We contacted Fred Mullen at Justice Relocation through Liaison and pointed out that this appears to be for press purposes and consequently, it is being referred to him in accordance with previous arrangements. We pointed out we did not consider it advisable to submit summaries of our exercise problems. Mr. Mullen agreed and said he would handle this.

### HEADS OF AGENCIES MEETING, 2:30 P.M., JULY 25, 1956, AT WHITE HOUSE

There have been no further developments as to this. Our Liaison Agents are remaining alert for any information available as to what will be taken up at the meeting. So far it appears that Flemming and Peterson will conduct the briefing. The summary memorandum for the Director will be on his desk at 9:00 A.M., July 25th.

### LIAISON

Liaison Agents continue with their agencies at relocation sites. They reported that matters are very quiet at the other agencies. Agent Day advised on July 23rd that it now appears that Secretary Wilson will return to the Defense Relocation on July 24th and return to Washington on July 25th. This may be due to articles in the press criticizing Defense for failure to keep officials at the relocation site.

### OUTSIDE PROBLEMS

We have continued to receive outside problems from other agencies. These have been handled promptly upon receipt.

## Office Memorandum • UNITED STATES GOVERNMENT

b7E

TO : Mr. A. H. Belmont

DATE: July 27, 1956

FROM : Mr. J. F. Bland

SUBJECT: BUPLANS  
SUBVERSIVE CONTROL SECTION  
(Vital Records [redacted])

° Auxiliary space for S.O.C.

[redacted] maintains certain vital records pertaining to Emergency Detention Program, including Attorney General's Portfolio; duplicate copy of monthly Security Index list; Security Index cards; copies of Emergency Detention Program Survey for each field office; SAC Letters relating to Emergency Detention Program, and summary relating to procedures under Program for use by Bureau chain of command.

These various records were checked at [redacted] during the period July 20 to July 25, 1956, and were found to be in good order. The check also revealed that memoranda furnishing changes to be made in these records were being handled on a current basis by the personnel [redacted]

*o Auxiliary Spec For SIOG.*

My memorandum to you of July 24, 1956, captioned as above, contained a summary of the problems received by the Bureau during Operation Alert 1956 from outside agencies. That memorandum set forth sufficient facts to identify the problems and a synopsis statement as to the manner in which we handled each of them. This memorandum serves as a supplement to that prepared yesterday and identifies those problems received from outside agencies subsequent to 6:00 PM, 7/24/56, to the close of Operation Alert 1956.

This is the final Daily Summary, covering developments from the afternoon of July 24 through 5:00 p. m. EDT, July 25, 1956, at which time the operation closed.

RELEASE OF PERSONNEL

Nine personnel were released as of 9:00 a. m., July 25. These were personnel who had worked the night shift. Shortly after 1:00 p. m., July 25, seventeen additional personnel were released--four from the Domestic Intelligence Division and 13 from the Records and Communications Division. This left us 23 employees, in addition to the Quantico staff, who were released at the close of the operation at 5:00 p. m. EDT.

AVAILABILITY CHECKS

On the evening of July 24, 1956, the following 3 offices were contacted and instructed to check and report back on the availability of their Agents on duty status in headquarters cities. The time within which all Agents were contacted is set forth below.

JUL 27 1956

Memorandum to Mr. Roach from Mr. Belmont

Inasmuch as there was an undue delay at the [ ] the SAC was instructed to submit an explanation. A memorandum has been submitted, recommending censure for the SAC of the [ ]

### ODM REPORT

Our final daily report was sent to ODM on the afternoon of July 25, advising that all our problems had been completed, both those initiated by us and received from outside agencies, and that there were no unsolved problems relative to the exercise outstanding.

### LIAISON

Our Liaison Agents advised us that activities at the other agencies were quiet. They were instructed to advise us as soon as the cessation of activities warranted their departure from the agencies. A separate memorandum has been drawn up, reflecting the times Liaison Agents departed from their agencies.

Liaison Agents ascertained in several instances the comments and observations of the other agencies concerning Operation Alert, 1956, which were being incorporated in the reports of the agencies. These comments were submitted by separate memoranda on the evening of July 24 and the morning of July 25, 1956, for the Director's assistance at the Heads of Agencies Meeting at the White House at 2:30 p. m. , July 25, 1956.

Liaison reported to us that ODM was somewhat fearful the various agencies would close up at the relocation sites prior to 5:00 p. m. EDT. I mentioned this to the Director on the morning of July 25 and advised him that we will continue with a streamlined force until the close of the exercise.

### NOTICE TO THE FIELD

All offices were advised by radio on the afternoon of July 25 that normal radio service should be resumed at 7:00 p. m. EST and that the Bureau's participation in Operation Alert, 1956, ceased as of 5:00 p. m. EDT, July 25.

Memorandum to Mr. Roach from Mr. Belmont

HEADS OF AGENCIES MEETING, JULY 25, 1956

On the afternoon of July 24, 1956, we received a message from the White House Liaison, confirming the Heads of Agencies Meeting at 2:30 p.m. EDT, July 25, at the White House. The Director was invited to attend and confirmation was requested of acceptance by telephonic notification to White House Liaison Office, Arctic Extensions 532, 533 or 415. This information was furnished to the Bureau at 3:00 p.m., July 24, with advice that if the Director approved, we would notify White House Liaison that the Director would attend. The Director approved, and at 3:30 p.m. I called Arctic Extension 532, which responded, "White House Liaison," and advised that the Director would attend.

CONCLUSION

In discussion with the Director on the morning of July 25, I advised that it would not appear developments would warrant an additional summary report to him, setting forth the activities since our over-all summary submitted at 9:00 a.m. the morning of July 25 (dated July 24). Consequently, this memorandum is for record purposes, reflecting the activities since our previous summary, and need not be submitted to the Director.

The Bureau ceased activity at the relocation site at 5:00 p.m. EDT, July 25, 1956, insofar as Operation Alert, 1956, is concerned.

Attached hereto is a memorandum dated July 25, 1956, reflecting the Outside Problems subsequent to those listed in our over-all summary dated July 24, 1956.

The Attorney General

Director, FBI

OPERATION ALERT - 1956

DECLASSIFICATION AUTHORITY DERIVED FROM:  
FBI AUTOMATIC DECLASSIFICATION GUIDE  
DATE 4/14/2010

Although Operation Alert - 1956 does not conclude until the afternoon of July 25, 1956, in view of the meeting at the White House today, I thought you would like to have a brief summary of the activities of this Bureau in connection with the exercise for the period July 23 through 24, 1956.

In view of the fact that Deputy Attorney General Rogers had notified us by teletype at 11:13 A.M. that the Department had authorized the institution of the Emergency Detention Program, we simulated launching the program at 12:29 P.M., utilizing teletype, radio and telephone in communicating with our 52 field divisions. All 52 offices had been reached by 2:46 P.M. and replies had been received back from all offices by 3:53 P.M. Due to the prompt authority received from the Attorney General to institute this program, there was no delay involved.

We did run into delay in connection with the program to take into protective custody enemy diplomatic officials. At 12:15 P.M., we requested a decision from the Department of State as to whether the program should be implemented. Due to bad weather conditions, the Department of State did not become operational for several hours at its relocation site. It was not until 2:58 P.M. that authority was received and this program was launched at 3:12 P.M. Through our liaison representatives, at a conference at the [redacted]

Letter to The Attorney General

relocation site on July 22, we pointed out the embarrassment which could ensue if, under actual emergency conditions, a delay of this nature occurred, permitting enemy officials to disperse prior to apprehension. [ ] has agreed to further examine this situation. In order to emphasize the importance of arriving at a prompt decision, we are calling this to the attention of the [ ] reiterating the necessity of setting up internal machinery to resolve this matter promptly during an emergency.

A series of [ ] prepared in advance and worked up during the exercise, simulated actual conditions which would face the FBI in a real emergency. Although we refrained from transmitting security information in carrying out these problems, actual conditions were simulated insofar as possible. This gave us a very thorough check of our communications system at our relocation site and in the field, requiring intercommunication between field offices, relocation sites, resident agencies and with other agencies. Through these problems, we provided a thorough check of alertness and speed of response of our field personnel and our communications systems.

In addition, we received [ ] than we received during Operation Alert - 1955. These problems covered a wide range of activities. In each instance, the problem was resolved promptly and, where necessary, contacts were made with other agencies and replies submitted to the original agency.

A record was maintained of all important proclamations, executive orders and instructions received during the exercise. These were analyzed for action insofar as they pertained to this Bureau.

Communications at our relocation site were highly effective. Teletype, telephone and radio systems were used heavily and thoroughly tested. Our microwave system was thoroughly tested. Our capability to handle volume was excellent and we could have handled more. The volume was far

~~TOP SECRET~~

Letter to The Attorney General

greater than during Operation Alert - 1955. The Signal Corps inspector assigned by the Office of Defense Mobilization to check our relocation site rated the Bureau outstanding in every phase of communications.

For your information, our liaison Agents accompanied critical agencies to their relocation sites and were able to provide valuable services both to the Bureau and the agencies which they accompanied. Unlike the situation during Operation Alert - 1955, we had no difficulty contacting our liaison Agents. This would reflect an improvement in the communications systems of other agencies. We did experience a rather serious delay in the receipt of messages from some agencies during the early portion of the exercise. Undoubtedly this situation is known to you as Mr. Fleming of the Office of Defense Mobilization publicly commented on the delay in sending messages during the exercise.

You may be interested to know that Inspector William Boleyn, assigned to our relocation site during the entire period of the exercise, advised us that we were marked outstanding on all items except those requiring merely a yes or no answer, on which we received affirmative checks. He advised us that our operations this year are superior to last year and he considered our operations excellent in every respect. He stated this will be reflected in his written report.

As a matter of general observation, as far as the FBI is concerned, this exercise was too long. We worked most of our problems in the first two days and thoroughly tested our communications systems and the reaction time of our field offices under emergency instructions. Insofar as the practical value is concerned, we could have completed our tests and reported within three days.

It is fundamental that any exercise of such magnitude as this should be based on the most careful planning, with the advance instructions, directives, manuals, et cetera, based on the firmest possible foundation so that they are factual and understandable and will not be subject to change.

~~TOP SECRET~~

Letter to The Attorney General

We cannot help but feel that this was not true in this case as there were constant changes and shifts in instructions, rules and policy, which increased in rapidity as the time of the exercise approached. This engendered uncertainty which could not help but lend confusion and, thus, interfere with the goal of the exercise, namely, to clarify and bring about real understanding of the procedures and mechanics needed in a real emergency.

We took the opportunity during Operation Alert - 1950 to carefully examine our procedures and to view our entire operations from a critical standpoint to bring about improvement where necessary. Insofar as this Bureau is concerned, our operations ran smoothly and with dispatch. Our personnel approached the entire exercise with a sense of urgency and thoughtfulness and exhibited a fine spirit throughout.

I wish to assure you that this Bureau will continue to exert every effort to be fully prepared to carry out its responsibilities in the event of an actual emergency.

cc - Mr. William P. Rogers  
Deputy Attorney General

## Office Memorandum • UNITED STATES GOVERNMENT

Installation of the Director's Dictograph system  was completed 6-25-56.  constructed cabinet placed in the office of  at the  of the desk. The unit is  staff stations, namely: Telephone

The staff stations consist of  interchangeable cradle-type subsets, each equipped with a  When the system is in operation, the

The new executive station operates in the same manner as the units presently installed in the Director's office. The chimes will "bong" once on an incoming call and a white flag will appear to indicate who is calling. The key must then be thrown to release the flag and answer the call. A microphone and loud-speaker are provided for normal conversation. If privacy is desired, the handset may be lifted from its cradle and used in the regular telephone manner. The lifting of the handset will cut off the amplifier and its associated microphone and loud-speaker. An outgoing call is made by throwing the key for the staff station desired. The white flag will then appear and remain until the called station answers.

A staff member may either call the executive station or answer it by simply lifting the handset from the cradle and talking. The push button and switch on each subset should be disregarded.

The main junction board is located  All cables and terminations are clearly identified. Talk current is supplied by four #6 1½-volt dry cells mounted in a box above the junction board. Ring current is normally supplied by a 12-volt power rectifier also mounted above the junction board. Emergency ring current can be obtained from

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. L. V. BOARDMAN

DATE: July 12, 1956

FROM : A. H. BELMONT *ahb*SUBJECT: **ATTACK WARNING CHANNELS AND  
PROCEDURES FOR CIVILIANS**

Tolson	_____
Nichols	_____
Boardman	_____
Belmont	_____
Mason	_____
Mohr	_____
Parsons	_____
Rosen	_____
Tamm	_____
Nease	_____
Winterrowd	_____
Tele. Room	_____
Holloman	_____
Gandy	_____

At the request of the Federal Civil Defense Administrator, the NSC Special Committee in the captioned matter, of which the Director, as IIC Chairman, is a member, has drawn up "terms of reference" specifically delimiting its functions. One copy of these is attached, and copies have been distributed to the other IIC members, who concur in them. *Roach*

The "terms of reference" restrict the committee's function to interpretation and clarification of the chart prepared by the committee which outlines the various stages of warning of attack and the several responses by the general public. Specifically, FBI interest in this chart is limited to our participation in the Watch Committee which might provide strategic warning of an attack. There is nothing in these "terms of reference" which conflicts in any way with FBI or IIC interests. *Day*

Commander Beach, Naval Aide to the President, has asked for written concurrence from the committee members. *McARDIE*

ACTION:

Attached for approval is a letter to Commander Beach informing him that the IIC concurs in the proposed "terms of reference."

SUBJECT: OPERATION ALERT - 1956

o Auxiliary Space For S.O.G.

While driving to work on the morning of 7-25-56, Mr. Bartlett of the Liaison Section picked up Mr. [redacted] of the White House and drove him to the White House. Mr. [redacted] was waiting for transportation during the morning rush hour.

b6  
b7C

During the conversation that ensued while driving downtown, Mr. [redacted] mentioned that he had represented the White House during Operation Alert at [redacted]. Concerning this, Mr. [redacted] said "what a waste of time."

At 11:15 a.m., July 16, 1956, Mr. Bartlett of the Liaison Section attended a meeting of the Interagency Planning Group at the Office of Defense Mobilization (ODM). The briefing was done by Dr. Arthur Flemming, Director, ODM. At the outset of the meeting he complimented the Planning Group on a job well done and stated that he appreciated all the time and effort put forth by the various agencies in helping plan the forth coming emergency test. During the briefing Dr. Flemming made the following points:

1. The exercise will end at 4:00 p.m., EST, July 25, 1956, instead of 11:00 a.m., EST, July 26, 1956, as previously announced.

2. The meeting of the Heads of agencies to summarize the results of the exercise, originally scheduled for the morning of July 26, will be advanced to July 25. The hour and place of such meeting will be announced later. The President will do the briefing at this meeting and the heads of agencies are expected to attend.

3. The summary report scheduled for July 25, should be submitted on the evening of July 24. No daily report is necessary for Tuesday, July 24. However, a brief daily report should be submitted at the close of business on Wednesday, July 25.

4. On the morning of July 16, Mr. [redacted] Assistant Press Secretary to the President, briefed the Information Officers from the Government agencies as to how the press will be handled during the test. ODM will hold a press conference at 4:00 p.m., July 16. Included will be representatives from Radio and TV as well as the newspapers.

b6  
b7c

5. At the beginning of the test on July 20, there will be a "enlarged" NSC meeting. Time and place to be announced later. Other persons will be invited in addition

RECORDED - 28

66-17381-1626

JUL 27 1956

Memorandum for Mr. Boardman

to the regular NSC members. This will be done on personal invitations to be extended later.

6. At the Cabinet meeting on Friday, July 13, it was asked by Cabinet members as to how long they personally should stay at the relocation site. It was decided that with the Congress still in session and other necessary business to handle, Heads of agencies should stay at the relocation site through Saturday July 21. Following this it will be permissible to return to Washington; however, the Heads of agencies should return to their relocation site on Tuesday, July 24, to prepare for the July 25 meeting with the President.

7. In addition to the NSC meeting at the beginning of the test and the President's briefing at the conclusion of the test it is not expected that any other meetings of Heads of agencies will be called. If necessary, meetings will be called on an Ad Hoc basis.

8. The emergency news headquarters called [redacted] is located at [redacted]. News is fed into [redacted] from [redacted], the ODM relocation site. It had been planned to operate [redacted] during the entire test, however, [redacted] is now scheduled to be closed as of Monday, July 23. News stories of importance following that will be furnished by [redacted] to the interested Government agency in Washington for distribution to the press.

b7E

9. Based on 100 per cent as the perfect test, the 1955 test was about 10 per cent effective. This year it is hoped the test will be 30 per cent effective and by 1957 perhaps it can be raised to 50 or 60 per cent effective.

[redacted] advised Mr. Bartlett prior to the meeting that at the Cabinet meeting last Friday, July 13, the Cabinet was "split right down the middle" as to whether or not the test should be cancelled. Dr. Flemming made no reference to this discussion during his briefing.

b7E

There is enclosed a copy of a bulletin dated July 16, 1956, issued by ODM setting forth the change of time for the conclusion of the test. As a result of this change certain reports to ODM will have to be accelerated. The enclosed bulletin sets forth these reports with the deadline date. A copy of this bulletin is being maintained in the Domestic Intelligence Division and will be included as part of the over-all Bureau plans.

Memorandum for Mr. Boardman

ACTION:

1. For your information. The over-all plan for Operation Alert 1956 will be changed in accordance with the new termination time for the exercise.

2. With reference to item #2, Liaison will follow with ODM as to time and place of the July 25 briefing by the President for the Heads of agencies. We will also determine if a formal invitation is to be extended to the Director.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : THE DIRECTOR

DATE: July 20, 1956

FROM : A. H. BELMONT

SUBJECT: OPERATION ALERT, 1956

*Auxiliary Space For S.O.G.*

Continuing my earlier summary of events occurring under Operation Alert today (attached), Supervisor Daunt was telephonically instructed, following the Director's arrival, to so advise Deputy Attorney General Rogers.

At 1:37 p.m., all six Liaison Agents had reported in from the relocation sites of the agencies they accompanied. It was apparent there was a delay on the part of several agencies in relocating, because of heavy rains. This was particularly true of [redacted]. The Liaison Agents have functioned smoothly and have kept us promptly advised of developments.

Relative to the problem involving the launching of the Emergency Detention Program, replies from all offices have been received, and all offices had contacted the Bureau within the 2-hour limit.

Relative to the Program for Detention of Enemy Diplomats, we originally requested advice from [redacted] at 12:15 p.m. However, [redacted] was delayed in reaching its relocation site, due to rains. At 2:25 p.m., we notified the Department we could not launch the program as we had no decision from [redacted]. At 3:08 p.m., we received authority, and the problem was launched at 3:12 p.m. Replies were received from the field and the program was completed at 4:06 p.m.

En closure

RECORDED - 28

66-17381-1627

16 JUL 30 1956

62 AUG 1 1956  
140

Memorandum to the Director from Mr. Belmont

At 2:15 p.m., the Attorney General arrived at the Department relocation site.

Washington press release announced: "Tomorrow at Madison, Illinois, three airplanes will land with saboteurs on mock assignments to destroy targets in that area." Through Supervisor Daunt at Justice relocation we had Mr. Mullen check to pin down the source of this and who was going to stage the incident. Mullen checked with [redacted], which knew nothing about it. [redacted] said the release probably originated at [redacted], and [redacted] put in a restriction that all releases had to come through [redacted] henceforth. [redacted] is attempting to run this down, and we will take appropriate action to protect the Bureau's interests, including alerting the Springfield Office if there is any substance to it.

b7E

Word was received through [redacted] that tornado conditions were developing to the south of [redacted] and moving in this direction. A teletype was sent to the Attorney General, advising him of this and that our operations are proceeding satisfactorily.

b7E

The problems we had outlined in advance have been proceeding rapidly. In addition to those mentioned above and in my previous memorandum, we received an up-to-date alphabetical list of the Security Index from the Statistical Section by 2:45 p.m. and other special lists relating to Security Index subjects were received at 6:00 p.m. (Problem 8); we simulated the arrest of a civilian employee of the Army in Chicago, which required the Chicago Office to make contact with ONI, OSI, and G-2 at Chicago and report back. This was started at 2:15 p.m. and a reply was received from Chicago at 4:40 p.m. (Problem 13). The arrest of a United Nations employee and advice to [redacted] [redacted], requiring contact with New York and [redacted] and reply back -- problem started at 2:15 p.m. and completed 3:05 p.m. (Problem 15). We made analysis of the Special Section of the Security Index as to action to be taken on foreign government employees, espionage subjects, and pro-Tito Yugoslavs. This was completed

b7E

Memorandum to the Director from Mr. Belmont

promptly and, where necessary, contact with [redacted] was simulated through contact with our Liaison Agent (Problem 16). A memorandum was prepared showing the number of Security Index subjects in each office, for consideration in the event we needed to shift personnel between field offices to assist in the Detention Program.

b7E

In addition to the above, other problems are being initiated.

It should be pointed out that we have not received the expected volume of communications from other agencies, including [redacted]. This is because of the fact there is strong indication that because of inclement weather or for some other reason, communications of other agencies have bogged down. We can expect a deluge of communications from other agencies tonight and tomorrow; however, we have moved rapidly on our own problems and should be in a position to handle them.

b7E

At 5:40 p.m., Supervisor Daunt advised that the Attorney General will leave Justice relocation early tomorrow afternoon. Tomorrow morning, the Attorney General will discuss a new relocation site of a permanent nature for the Department. Daunt will report results to us. Daunt stated that [redacted] has been having trouble communicating with [redacted] and that as a result of inclement weather some communications are out. He stated that [redacted] (a highway) is washed out and that the Baltimore and Ohio Railroad is not able to get any traffic over its tracks.

b7E

We will advise you further of developments.

The Bureau was notified that Operation Alert, 1956, had started at 11:13 a.m. Eastern Daylight Time. Bureau personnel involved in the test were immediately notified and all were checked off at 11:23 a.m. [redacted]

[redacted] All Bureau employees who were to participate in the test were accounted for. All Bureau personnel had arrived at [redacted] by [redacted] p.m.

I arrived at [redacted] at 12:07 p.m. and Justice relocation site was notified that FBI was operational as of 12:11 p.m. [redacted] was notified at 12:19 p.m. that we were operational as of 12:11 p.m. Liaison Agent Whaley at [redacted] stated that [redacted] is already having communications trouble and is experiencing bad weather conditions and other operational difficulties.

Liaison Agent Daunt advised that Mr. Rogers wanted to know the time Belmont had arrived; when the Director was en route from Washington and the time the Director arrived at the Bureau's relocation site. Daunt was told when Belmont arrived, and at 12:28 p.m. was advised that the Director was en route. We will notify Daunt when the Director arrives.

Inasmuch as authorization was received from Mr. Rogers by teletype at 11:03 a.m. to launch the Emergency Detention Program, the arrest program was launched by teletype, radio and telephone at 12:29 p.m. You will be advised of the effectiveness of the communications when this problem has been completed.

SUBJECT: ATTACK WARNING CHANNELS AND PROCEDURES  
 FOR CIVILIANS

My memorandum of May 29, 1956, reported that the National Security Council had asked [redacted] to report by June 1st concerning the action it has taken to strengthen [redacted] in the Washington metropolitan area, and to recommend for or against delegation to [redacted] of the responsibility for deciding whether the signal to evacuate or take cover should be sounded in the District of Columbia following declaration by [redacted] that [redacted] is expected.

b7E

By memorandum July 16 attached, NSC Secretary Lay has circulated ~~by memorandum~~ an interim report in the form of a letter received by him from [redacted], dated June 29. This letter recommends that a central warning center be established for the Washington metropolitan area, to be staffed and operated by [redacted], with Virginia, Maryland and the District of Columbia being invited to contribute operating personnel. The letter indicates that a formal plan concerning this will be forthcoming. This plan will reflect concurrence of the appropriate officials of Maryland, Virginia and the District, and will be submitted to NSC for its information.

b7E

Lay's memorandum states the subject will not be scheduled for NSC consideration until the formal plan is received, and indicates that [redacted] will take no action to implement such a plan pending NSC consideration.

b7E

ACTION:

This is a matter of interest to the Director who, as IIC Chairman, is represented on the NSC Special Committee for attack warning channels and procedures for civilians. No action or reply is required by the NSC communication.

Reference is made to the Director's notation which appears at the conclusion of the Bureau's memorandum of July 18, 1956, captioned as above. That memorandum related to the Director's contemplated attendance at the NSC meeting of July 20, 1956. The Director's notation reflected that he had attended this meeting and that a further meeting was planned for 2:30 p.m. on July 25, 1956, which would be attended by those present at the July 20 meeting.

In order to determine, if possible, where the meeting scheduled for 2:30 p.m. on July 25 is to be held, Liaison Agent Bartlett today contacted Colonel Goodpasture at the White House in this connection. Colonel Goodpasture advised that it had not yet been definitely decided where the July 25 meeting would be held although he thought it would probably be held at the White House. He stated that as soon as this matter is decided he would immediately notify Mr. Bartlett for the Director's information, that this decision will probably be made Monday, 7-23-56.

ACTION:

This matter will be followed closely by Liaison in order that as soon as such information is available, we may know where the July 25 meeting is to be held.

At approximately 11:15 p.m., 7/22/56, Supervisor W. B. Anderson, Domestic Intelligence Division, on duty in your office at the Seat of Government telephonically advised that Cable #3 was received from Liaison Agent Philcox in Panama. This cable read as follows:

"Operation Alert, 1956. President Eisenhower meeting with Flemming and Peterson upon return to Washington Tuesday. Meeting of heads of agencies scheduled for 2:30 p.m. Wednesday - Cabinet Room - White House. No Cabinet meeting."

ACTION:

SA Mooney Midnight Supervisor, your office in Washington, was instructed to bring the contents of this cable to the attention of Messrs. Hennrich, Sizoo and Cleveland immediately upon their arrival on duty on the morning of 7/23/56. He was also instructed to advise Mr. Scatterday upon his arrival on duty for Mr. Boardman's information. The original of this cable was sent to the Director.

*° Auxiliary Space For S.O.G.*

For your additional information concerning the Heads of Agencies meeting which you are to attend at the White House at 2:30 PM tomorrow, we have received certain intelligence information from some of our Liaison representatives with other agencies which shows the probable position a given agency will take and its recommendations concerning Operation Alert 1956.

Liaison Agent Daunt at Justice relocation advised that he had been informed by John Airhart, Relocation Officer for the Department, that the Attorney General will be given a report of the operation prepared by Tompkins, Foley, and Morton. This report will be in the form of accomplishments with the three following recommendations to be made by the Attorney General at the conference if called upon for comments:

1. The Attorney General will state that he feels that the Department of Justice should make arrangements to obtain a new relocation site to house all components of his department. According to Airhart, the Attorney General does not feel strongly on this point but feels that it would be the "politic" thing to do if asked for ways and means of improving his agency's participation under actual emergency conditions. Airhart stated that the Attorney General put this recommendation in the Justice report himself.

Comment:

*C* We feel that the matter of such a move is a Justice problem and if possible, we should stay out of it.

TOLSON

Memorandum for the Director from Mr. Belmont

2. Office of Defense Mobilization (ODM) relocation at [ ] should for future tests prepare a reserve of problems to be presented to the various agencies.

b7E

Comment:

We do not agree with this observation as it is our belief that each agency should compile sufficient problems to conduct its own tests.

3. A system of couriers should be established to augment and supplement communications media and placed into operation where other means of transmitting messages fail.

Comment:

This courier system could and would be established if the necessity arises in an actual emergency. We are well equipped to handle our own needs should such a courier system be necessary.

Supervisor Kuhrtz at [ ] relocation site advised that [ ] had prepared a long report of accomplishments with several observations and recommendations. Upon completion of the report the [ ] official in charge contacted ODM and outlined to them the type of report they were submitting and the observations and recommendations made. [ ] was told that Dr. Flemming did not desire a report of this kind being discussed at the Heads of Agencies meeting as he did not want the agencies to raise any problems or cite any difficulties encountered and that the recommendations made by [ ] (not known to our Agent) were not in order. As a result of this [ ] has completely rewritten its report and it is now in the form of accomplishments during the test and will be given to [ ], when he attends the meeting as [ ] representative.

[redacted] was accompanied to their relocation site, [redacted], by SA B. A. Wells, Liaison Section, who arrived at [redacted]'s relocation site at 12:15 p.m., July 20, 1956. The party consisted of [redacted] people. [redacted] and [redacted] arrived at the relocation site on the afternoon of July 20, 1956. [redacted] remained at the site until the afternoon of July 21, 1956, when he returned to Washington. [redacted] actually had charge of the relocation site and coordinated most of the problems at the site.

b7E

[redacted] ran no problems involving other agencies. No problems requiring action by the Bureau were brought up. [redacted]

b7E

Although not brought up during this operation, [redacted] pointed out that [redacted] would have a problem in an actual emergency in obtaining new employees on a rush basis. Due to the relocation of almost all agencies from the Washington area, [redacted] has the problem of clearance of such new employees. In such a situation, [redacted] decided that the most that could be done prior to employment, was to conduct a name check through the FBI field office covering [redacted]. This matter may be made a problem during subsequent alerts.

b7E

All [redacted] personnel connected with the relocation were extremely cordial to the Bureau Representative. The Bureau was given free access to all briefings and meetings conducted at the relocation site.

b7E

ACTION:

For your information.

This is a condensed summary reflecting the Bureau's operation at its relocation site covering the period from the time of the alert on the morning of July 20 through July 24, 1956. A detailed summary memorandum with attachments was also submitted today.

THE ALERT

Within ten minutes of the alert at 11:13 AM EDT, all ☐ persons scheduled for relocation in an emergency were accounted for and checked off. b7E

All ☐ employees sent to ☐ arrived by ☐. The Director and Mr. Tolson proceeded to the National Security Council meeting at the White House and thence to ☐, arriving shortly after 1:00 PM. b7E

☐ was operational at 12:11 PM, 58 minutes after the alert sounded, and Justice relocation and ☐ were so notified. b7E

SCHEDULED PROBLEMS

Forty-nine problems were worked with our field offices, many involving two or more offices. This gave us a very thorough check of our communications system at ☐ and in the field, requiring inter-communication between field offices, relocation sites, Resident Agencies, and with other agencies. Provided a thorough check of alertness and speed of response of our field personnel and our communications systems. b7E

EX-107

9 AUG 3 1956

TOLSON

Memorandum for the Director from Mr. Belmont

Emergency Detention Program launched at 12:29 PM. All offices reached by 2:46 PM and replies received by 3:53 PM. Prompt Departmental authorization received by teletype at 11:03 AM. Theoretically, we arrested all subjects on Security Index (12,995) except those killed by bombing.

Authorization not received until 2:58 PM from [ ] for program involving protective custody of enemy diplomats. This problem launched at 3:12 PM and replies received by 4:06 PM from field. Diplomats involved, New York - 245 Soviet and 100 satellite; Washington - 277 Soviet and 230 satellite - grand total, 852.

b7E

Included were problems involving espionage, enemy agents landing by submarine, sabotage, etc. The Laboratory staged problems involving emergency equipment, simulated breakdowns of equipment, etc. Field offices found to have good understanding of emergency equipment.

#### OUTSIDE PROBLEMS

Up through 6:00 PM, July 24, we had received from other agencies a total of 41 problems requiring action by us, in contrast to 16 such problems during Operation Alert 1955. Problems were handled promptly, with replies to other agencies where necessary. Problems included sabotage, espionage, financial requirements, security clearance, Attorney General's Portfolio, subversion, essential records, and others. Summary of each problem attached to over-all summary memorandum submitted 7/24/56.

#### AVAILABILITY CHECKS

Availability checks conducted in 18 offices involving nearly 3,000 Agents. All offices contacted their Agents within the hour except Boston, Newark and Philadelphia. Boston (86 Agents) required 1 hour 44 minutes; Newark (128 Agents) 1 hour 25 minutes; and Philadelphia (81 Agents) 1 hour and 55 minutes. Shortest time for small office, Salt Lake City -- 4 minutes (15 Agents); large office, Washington Field--28 minutes (389 Agents). Censure recommended for SAC's Boston, Newark, and Philadelphia.

#### IMPORTANT PROCLAMATIONS AND EXECUTIVE ORDERS

Numerous proclamations and Executive Orders were issued during the exercise, setting into operation emergency measures such as [ ]

b7E

Memorandum for the Director from Mr. Belmont

[redacted]  
[redacted] These and the many others are listed with explanations as Attachment B to the over-all summary memorandum submitted 7/24/56.

b7E

### COMMUNICATIONS

Communications at [redacted] were highly effective. Teletype, telephone, and radio systems were used heavily and thoroughly tested. Microwave system was thoroughly tested. Our capabilities to handle volume was excellent and we could have handled more. Volume far greater than during Operation Alert 1955. [redacted] rated Bureau outstanding in every phase of communications. (A total of 1,822 messages were sent or received.)

b7E

### LIAISON

Six Liaison Agents relocated with their agencies. Operation Alert 1956 was an excellent example of value of having our Liaison Agents accompany their agencies to relocation sites. Time and again they were able to furnish us information of value, iron out problems, and cut red tape. During first 5 days we had more than 175 telephonic contacts with Liaison Agents. Our Agents went with [redacted]  
[redacted]

b7E

### DIFFICULTIES ENCOUNTERED (REQUIRING ACTION)

1. Availability checks in certain offices. Action recommended.
2. [redacted] delay in advising us re protective custody of enemy diplomats. Protest made and will be followed up by letter to [redacted].
3. Delay in receipt of messages from other agencies, Being mentioned to Attorney General.
4. Automatic encoding and decoding device connected with teletype equipment to [redacted] ineffective. Responsibility of Inter-agency Communications System and National Security Agency and we are following with them.

b7E

b7E

Memorandum for the Director from Mr. Belmont

5. Radio microwave teletype service with [ ] not activated at [ ] site. [ ]'s responsibility. We are pressing for completion. b7E

DIFFICULTIES ENCOUNTERED (NO ACTION RECOMMENDED)

1. Inadvertent release to press by [ ] of a story that [ ] Message meant for [ ] has admitted error. b7E
2. Mechanical failure in New York teletype machine on July 21. Repaired by telephone company.
3. Several of Bureau's circuits from [ ] developed failure temporarily, reported by us and corrected. Difficulty was not at [ ] but elsewhere on the circuit. b7E

REPORTS OF ODM INSPECTOR BOLEYN

Boleyn advised that we were marked outstanding on all items except those requiring merely a Yes or No answer, on which we received affirmative checks; that our operations this year are superior to last year and he considers our operations excellent in every respect. This will be reflected in his written report.

PERSONNEL

Personnel attitude excellent. Approached exercise with sense of urgency and care. Businesslike atmosphere prevailed. Long work shifts necessary but no complaints. Personnel reduced as exercise went along and kept to minimum. Services and security by [ ] excellent. List of personnel submitted with over-all summary memorandum 7/24/56. b7E

OBSERVATIONS

1. As far as FBI concerned, this exercise was too long. We worked most of our problems in the first two days and thoroughly tested our communications system and the reaction time of our field offices under emergency instructions. Insofar as the practical value is concerned, we could have completed our tests and reported within three days.

Memorandum for the Director from Mr. Belmont

2. It is fundamental that any exercise of such magnitude as this should be based on the most careful planning with the advance instructions, directives, manuals, etc., based on the firmest possible foundation so that they are factual and understandable and will not be subject to change. We cannot help but feel that this was not true in this case as there were constant changes and shifts in instructions, rules, and policy which increased in rapidity as the time of the exercise approached. This engendered uncertainty which could not help but lend confusion, and thus interfere with the goal of the exercise, namely, to clarify and bring about real understanding of the procedures and mechanics we would need to use in a real emergency. We believe these are legitimate, constructive comments and, therefore, we are including them in our summary memorandum to the Attorney General. (Submitted July 24, 1956.)

#### RECOMMENDATIONS

We have made a number of recommendations flowing from this exercise which are attached to the over-all summary submitted July 24, 1956.

MEMORANDUM FOR MR. TOLSON  
MR. BOARDMAN  
MR. BELMONT  
MR. NICHOLS

*0 Auxiliary Spec  
For S.O.G.*

Today, I attended the Cabinet meeting held at the White House at 2:30 p.m. The meeting was presided over personally by the President and was attended by the entire Cabinet, and in addition thereto, the heads of approximately forty-two Government agencies who had participated in Operation Alert were present.

The group was briefed by [redacted]

[redacted] and Dr. Flemming, of the Office of Defense Mobilization. These gentlemen outlined generally their observations upon the Operation Alert and were unanimous in stating that there had been marked improvement over that of last year.

The President then made some general remarks about the same and expressed his appreciation for the attention which the Government officials and their staffs had given to this matter and stressed the point that in such exercises it must always be recognized that when the real attack comes, if it does, we all will be operating under most abnormal conditions and not with the composure with which the exercises have been conducted.

The President then called upon each member of the Cabinet to express his observations upon Operation Alert, which was done.

In connection with Operation Alert, 1956, in addition to the clerks set forth in Attachment C to my memorandum to the Director dated July 24, 1956, I recommend that the following Agent personnel be commended, in view of their wholehearted participation in and valuable services rendered during the alert and in many cases prior thereto:

— J. P. Mohr ✓      — P. L. Cox ✓  
 — J. J. McGuire ✓      — T. D. Rushing ✓  
 — O. G. Medler ✓      — R. R. Roach ✓  
 — F. J. Baumgardner ✓      — J. Wright Brown ✓  
 — P. R. Bibler ✓      — J. G. Landis ✓  
 — J. H. Kleinkauf ✓      — D. J. Parsons ✓  
 — W. A. Branigan ✓      — C. F. Downing ✓  
 — E. T. Turner ✓      — J. M. Matter ✓  
 — W. R. Wannall ✓      — J. F. Gallagher ✓  
 — L. Whitson ✓      — G. L. Davy ✓  
 — J. F. Bland ✓      — R. L. Millen ✓  
                              — J. E. McArdle ✓

I have included Mr. McArdle's name even though he was censured in connection with an incident which happened prior to the start of the exercise. During the exercise, he carried a heavy burden, applied himself assiduously, gave attention to detail, and in every way assisted in bringing about a successful handling of a difficult problem. Therefore, I think he should be commended for his part in the exercise at [REDACTED].

The Liaison Supervisors performed an important function both before and during Operation Alert, 1956. They are listed below:

— J. J. Daunt ✓      — B. A. Wells ✓  
 — G. A. Day ✓      — W. T. Whaley ✓  
 — M. W. Kuhrtz ✓      — O. H. Bartlett ✓  
 — S. J. Papick ✓      — D. J. Sullivan ✓

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. R. R. Roach

DATE: July 24, 1956

FROM : Mr. A. H. Belmont

SUBJECT: OPERATION ALERT - 1956

*Auxiliary Space For S.O.G.*

A teletype was received this afternoon, addressed to members of the Cabinet and heads of agencies, from White House Liaison, stating:

"President has called a meeting for the purpose of reviewing and evaluating Operation Alert 1956. This meeting will be held in the Cabinet Room of the White House at 2:30 PM Eastern Daylight Time on Wednesday July 25, 1956.

"You are personally invited to attend. Agenda if any will be distributed at the meeting. Please arrange to be fully briefed on all the aspects and problems of Operation Alert 1956 which have affected your agency.

"Please confirm your attendance at this meeting by telephone notification to White House Liaison Office, Arctic Extensions 532, 533, or 415.

"If you would like to request air transportation, communicate immediately with Arctic Extension 273 or 274."

Mr. Holloman was furnished this message at the Bureau at 3:00 P.M. He was advised that, upon approval of the Director, we would notify White House Liaison by telephone that the Director will attend.

At 3:25 P.M., Mr. Holloman advised that the Director had approved. At 3:30 P.M., I called Arctic Extension 532 which responded "White House Liaison" and advised that the Director would attend. The message was acknowledged and accepted.

EX-107

Memorandum to Mr. Belmont

Communications:

Telephone - 11 emergency incoming lines - 1 to [redacted], 10 to [redacted], 2 standby direct circuits - 1 to [redacted], 1 to New York Office. In addition there are direct lines to the Bureau's switchboard in Justice Building and to Interagency Communications Center at [redacted]; 1 microwave circuit to [redacted]; 1 microwave circuit to [redacted] relocation site. [redacted] a private telephone system providing direct communication between [redacted] b7E

[redacted]

This system not designed for communication between agencies.

Teletype - 9 machines - 3 to [redacted], 1 to Justice Building, 1 to [redacted], 1 to Justice relocation site, 1 to [redacted], 1 microwave circuit to [redacted], 1 microwave circuit to [redacted] relocation site.

Radio - Direct and relay service to 52 FBI offices and Immigration and Naturalization Service at Justice Department relocation site;

Field Offices Participating:

52.  
52 for general alert  
47 for special problems  
18 for actual availability checks;

Test Problems:

41 problems of which 15 can be repeated using other offices than the problems now call for; 21 Liaison contacts;

Report of Test:

Summary for Director and Attorney General to be incorporated in Departmental report to ODM.

Memorandum to Mr. Belmont

I. Alert

It is anticipated that a simulated alert will be received at 10:00 a.m., EST, July 20, 1956. Following receipt of this alert the established notification procedure will be placed into operation (we do not plan to notify Departmental officials in connection with this simulated alert). Upon receipt of notification all employees having essential wartime functions [ ] will assemble in the corridor outside room 1541 where they will be checked off. This will test the effectiveness of our notification and assembling procedures. [ ] of the people so reporting will be instructed to depart immediately for the relocation site. b7E

[ ] All employees reporting to the 1500 corridor not being taken to relocation site will be instructed to resume their normal duties. The time factor from receipt of the simulated alert to departure of the Bureau bus will be checked and recorded.

II. [ ] Facilities

All space in [ ] will be set up in accordance with previous plans designed to accommodate Bureau operations under emergency conditions. This will test the effectiveness and efficiency of our space, supplies and equipment now at [ ] b7E

III. Security at [ ]

SAC [ ] will establish strong security measures during the course of this operation. A 24-hour guard force made up of Agent personnel will be used. Access to the relocation site will be controlled all during the test through a check-in and registration system. All individuals entering [ ] will be required to clearly identify themselves and appropriately register upon entering. b7E

IV. Sleeping Accommodations

As in an actual emergency only [ ] [ ] will be used for sleeping accommodations. b7E

Memorandum to Mr. Belmont

A partition will be erected across [ ] corridor separating the male and female sleeping accommodations. b7E

V. Meals

Meals will be served as follows:

Breakfast - 7:00 a.m. to 9:00 a.m.;  
Luncheon - 12:00 noon to 2:00 p.m.;  
Dinner - 6:00 p.m. to 8:00 p.m. and for  
night shift, midnight to 2:00 a.m.

VI. Communications

All emergency communications installations at the relocation site will be given a rigid test during this entire exercise. Radio contact will be had with many Bureau offices during the period. Our standby direct telephone circuits between [ ] and New York Office avoiding Washington and Baltimore and between [ ] and [ ] will be activated during the test. Telephone and teletype messages will also be directed to and from many Bureau field offices as well as to and from Bureau liaison Agents who will accompany 7 agencies in the Executive Branch of the Government to their relocation sites for this test. b7E

VII. Field Office Participation

All Bureau field offices will be contacted from the relocation site during the exercise. All offices will be contacted at their headquarters city and a representative number of offices at their emergency relocation site or nearby resident agency. Field offices will occupy relocation sites with a minimum staff for the first two days only. A minimum of 191 contacts will be made to Bureau field offices.

VIII. Availability of Agent Personnel in the Field

A detailed brief of this exercise provides for a communication from [ ] to 18 Bureau field offices after b7E

*Memorandum to Mr. Belmont*

*normal working hours instructing those offices to carry out an actual availability check of Agents in headquarters city. The field offices to be contacted are not being given advance notice of the availability checks. Each of the 18 offices being contacted will be instructed to complete a check and reply by specified means of communication as soon as possible, indicating the time they receive the message; the number of Agents in headquarters city and time required to contact 50% of them; time required to contact all Agents at headquarters city, number of Agents requiring more than 1 hour to contact and time first attempt to contact relocation site was made.*

*IX. Test Problems*

*Test problems have been developed to cover all Bureau offices. Among the problems devised are these:*

*1. A substituted message to each office simulating the alert to standby to start the Emergency Detention Program later in the course of this exercise. Another substituted message will be sent to all offices simulating instructions to institute the Emergency Detention Program. This second message will be sent only after appropriate authority has been received from the Attorney General.*

*2. Problems relative to the Security Index and the apprehension of individuals on the Index. These problems cover several different situations and include all situations which it is anticipated will arise in connection with this program in an actual emergency.*

*3. Problems involving the detention of diplomats of enemy nations and their dependents. These problems include a situation wherein enemy diplomats are touring the country at the time  authorizes the institution b7E of the emergency program calling for their detention.*

*Memorandum to Mr. Belmont*

4. Problems involving getting information to and from Bureau liaison Agents who will be stationed at the relocation sites of the agencies with which they normally do business.

5. Specified problems have been developed to include reported landing of enemy Agents; involving reported sabotage of key industry, some of which require an office to contact a road or resident Agent and advise the Bureau of the time required to do so.

6. The Laboratory has developed problems involving the use of instruments designed to detect the presence of radioactive particles, the use of instruments designed to test the accumulation of the extent of exposure to radioactive particles as well as problems involving simulated breakdown of radio, telephone and cryptographic equipment. Other Laboratory problems involve the operation of certain equipment at [ ] and require field offices to operate their radio equipment on emergency power. b7E

Upon completion of this test exercise an appropriate report for submission to the Attorney General will be prepared.

ACTION:

*For information.*

At 5:35 p.m. today, Liaison Agent Papich called from [ ] relocation to advise that [ ] had sent a classified message which apparently received wide dissemination serving the current situation in Operation Alert - 1956, and prognosticating future events. In the last part of this message the FBI is quoted as stating there is or will be wide-spread sabotage. Papich was unable to go into detail because of the classification of the message.

b7E

At 5:45 p.m. I called Liaison Agent Day at [ ] relocation and furnished him the above information. I requested him to check immediately with [ ] to find out just what this message is and what information is attributed to the FBI and from whence it came.

b7E

At 6:45 p.m., Mr. Day called back to advise he had checked into this. It pertains to Summary No. 2 by [ ] of the situation purporting to exist under conditions of this exercise, primarily from the Military standpoint. The final sentence of the summary states: "FBI has evidence large-scale sabotage planned for early initiation." Day talked to the man who prepared this and was advised that this was purely an exercise message and the FBI was not being quoted.

b7E

Inasmuch as this is a true statement, based on summaries of potential sabotage we have furnished the Military in the past to the

Memorandum to Mr. Baumgardner from Mr. Belmont

effect Communists in this country would undoubtedly engage in sabotage in an emergency, there appears to be no further action necessary regarding this. No queries have been received from anyone concerning this matter.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Parsons

DATE: July 25, 1956

FROM : J. F. Gallagher

SUBJECT: OPERATION ALERT 1956  
BOMB DAMAGE AND FALLOUT ASSESSMENTSSYNOPSIS: Poplar Emergency Headquarters  
F. F. S. O. 12.

For the Director's information a detailed report has been prepared of our calculations and estimates based on all data pertaining to bombing during Operation Alert, in order to show casualties of Bureau employees and damage to Bureau installations. The purpose of these calculations and estimates is to show the magnitude of the problem that will be faced by the Bureau, to insure that we have an adequate system of calculating bomb damage and fallout, and, in accordance with the Director's instructions to you at [redacted], to insure that our relocation sites for the various field offices are in the best possible locations based on the most likely situations that we can anticipate.

GENERAL:

The following tabulation shows the situation as a whole for the United States and possessions based on information furnished from [redacted] and Office of Defense Mobilization (ODM).

Targets Hit by Nuclear Explosions .....	119
Number of States Suffering from Blasts .....	36
Cities Hit .....	72
Military Targets .....	24
Canadian Targets .....	11

BUREAU INSTALLATIONS:

RECORDED - 72

* Employees Killed (approximate) .....	1129
* Employees Injured (approximate) .....	1203
Field Office Cities Hit .....	31
Relocation Sites Unsafe for Operation .....	6
(All these sites were moved to safe alternate sites - simulated)	
Field Offices Completely Destroyed .....	15
From Blast Damage .....	

- \* Initial alert for all field offices in United States received at least two hours prior to attack. This factor plus prompt intelligent action to alert minimized casualties for these offices.

MEMORANDUM TO MR. PARSONS

The detailed report of our calculations and estimates broken down into field offices and Seat of Government is attached. It might be noted under our present plans only six relocation sites were rendered unsafe for operation and we simulated the moving of these relocation sites.

ACTION:

The Laboratory will immediately proceed with calculations of prevailing winds and probable fallout patterns in order to insure that all relocation sites are in the best possible locations.

*Q*  
*Expenditure*  
*H*

## FIELD OFFICE STATUS REPORT

### INTRODUCTION

- (a) Under the name of the office is the relocation site selected prior to attack.
- (b) Under the number of employees assigned to the office are the casualty figures.
- (c) The type of blast is listed when known as either Air, Surface or Missile. It is to be noted that fallout is negligible subsequent to air blasts. The abbreviation MT represents megaton. This means that the blast effect of the detonation is equivalent to the blast from one million tons of TNT. The abbreviation KT represents kiloton. This means that the blast effect of the detonation is equivalent to the blast of one thousand tons of TNT.
- (d) Cities wherein Resident Agents are located are listed only if they were affected by nuclear detonations.
- (e) Zones of damage from blasts are A, B, C, and D.

A Zone - Zone immediately surrounding ground zero. Only reinforced concrete buildings standing and these are severely damaged. Records and files completely destroyed. Streets impassable. All vehicles destroyed. All facilities out.

B Zone - Buildings severely damaged. Possibility of salvaging few files and records from reinforced concrete or steel frame buildings. Streets impassable. All vehicles destroyed. Few facilities intact, for example, underground lines, pipes, sewers, etc.

C Zone - Moderate damage to interior of buildings. Many files and records can be salvaged if not heavily contaminated by fallout. Roads blocked with rubble. Some vehicles usable. Utilities partly damaged.

D Zone - Slight building damage. Most facilities and records that have not been contaminated can be salvaged. Most vehicles usable. Facilities suffered only slight damage.

Emergency

Headquarters - For C.O.D.

In accordance with the Director's instructions, there are set forth below the results of the availability checks conducted at eighteen field divisions during Operation Alert, 1956. During these checks 2811 agents were contacted.

In conducting these checks each office was instructed to commence the check immediately upon completion of the Bureau's telephone call; to immediately telephonically contact the Bureau's relocation site upon completion of the check; and thereafter submit a confirmatory teletype. Each office was to report the following:

(1) Time the office received the Bureau's call; (2) Number of agents on active duty status in headquarters city and time required to contact 50 per cent of them; (3) Time required to contact all agents on active duty status at headquarters city; (4) Number of agents requiring more than one call to contact; and (5) Time first attempt to contact Bureau's relocation site was made.

There are set forth below the results of this availability check problem:

<u>Office</u>	<u>No. of Agents</u>	<u>Time to Contact 50% of them</u>	<u>Time to Contact All Agents</u>
Baltimore	76	23 minutes	35 minutes
* <u>Boston</u>	86	49 minutes	<u>1 hour, 44 minutes</u>

San Diego	25	15 minutes	30 minutes
San Francisco	177	19 minutes	41 minutes
Washington Field	389	8 minutes	28 minutes

\*Offices requiring more than one hour to contact all Agents. Explanations requested and received. Letters of censure recommended for Special Agents in Charge as fault lies in systems employed by them. All Agents were reached promptly once the attempt was made to contact them.

Memorandum for the Director

There is attached an SAC Letter instructing that all offices should have devised an efficient, practical system to enable all Special Agent personnel to be located immediately during an emergency, which system should be ready for use at a moment's notice.

RECOMMENDATION:

The above is for the information of the Director to reflect the results of the availability checks made during Operation Alert, 1956.

It is recommended that the attached SAC Letter be approved and transmitted to the field.

Agent Day relocated with [redacted] during Operation Alert 1956 from 1:21 p.m., July 20, until 3:00 p.m., July 25. Approximately [redacted] persons relocated with [redacted] at this site, and about [redacted] relocated with [redacted] at [redacted].

Day was furnished a desk in the [redacted] and had access to all points within both [redacted] and [redacted] sites. His liaison with [redacted] was, however, primarily by phone since transportation to [redacted] is confined to officially escorted vehicles which must be arranged for in advance. He talked with [redacted] and [redacted], the [redacted] members, upon his arrival and offered to be of any assistance possible; both, however, left Saturday evening and did not return.

Neither [redacted] nor [redacted] were present at any time. [redacted] arrived late Friday but left, with [redacted], early Saturday afternoon. They returned to [redacted] early Tuesday evening and remained until 10:00 a.m., Wednesday morning. Although [redacted]'s living quarters are at [redacted], his office is at [redacted]. Among the many individuals met by Day during the exercise were [redacted].

[redacted] and a large number of other officials and their subordinates. As reported by telephone, Day was contacted by [redacted] representatives for information concerning various aspects of our Detcom Program. He was also able to secure information from "Top Secret" and "Secret" [redacted] and [redacted] communications in order to satisfy inquiries made by Bureau Officials. Attached is a "critique" prepared by [redacted] and presented to [redacted] for the latter's use at the meeting of the heads of all agencies held Wednesday, July 25. This "critique" outlines a number of internal problems encountered by [redacted] which are of no interest to us.

SUBJECT: DEFENSE PLANS - OPERATION ALERT, 1956

Explan Emergency Headquarters For S.O.C.

You will recall that we maintain a copy of all incoming communications as well as all memoranda prepared at the relocation site during OPERATION ALERT, 1956. The foregoing mentioned communications and memoranda have been placed in a box roughly the same capacity as a file drawer. It is believed that all of this data should be retained for at least 60 days and thereafter culled through and only the originals of memoranda prepared in connection with the Operation retained.

RECOMMENDATION:

RECORDED - 72

66-17381-1653

That the above-mentioned communications and memoranda now placed in a cardboard box be retained as a bulky exhibit in the Records Section for 60 days.

As you know, the Bureau's microwave radio station terminal located [redacted] carries telephone conversations by radio to and from [redacted] and [redacted]. The purpose of the microwave network is to back up the commercial land line facilities between these points.

This microwave facility was checked immediately upon arrival at the relocation headquarters. Our terminal equipment and plant is in excellent shape. Two channels are available to [redacted] and one to [redacted]. Test calls were exchanged over the circuits by our engineers.

Subsequently, during the progress of the Alert, the switch-board reports that various calls have been routed smoothly by microwave facilities.

As new information bearing on our state of readiness for any eventuality, it is noted that since the last Alert the Laboratory has installed an emergency gasoline-driven generator in the microwave station which is so equipped that it will start automatically in the event the public utilities power fails. This equipment was tested and operated quite satisfactorily.

In addition, our terminal has had teletype facilities ready to operate over microwave facilities to the centers mentioned above for a long period of time. A circuit is operative to [redacted]; however, as of this time [redacted] has not placed the facilities on its end in operation.

ACTION:

RECORDED - 78

Informative, and we will continue to check with [redacted] and stand by for any teletype tests whenever they indicate they are ready.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. L. V. BOARDMAN

DATE: July 5, 1956

FROM : A. H. BELMONT

SUBJECT: DEFENSE PLANS - OPERATION ALERT, 1956

Buplan - Emergency Headquarters For S.O.G.

b7E

Current plans provide for taking [ ] individuals to the relocation site for the 7-day period of OPERATION ALERT, 1956. Just how many of these individuals will be released after the first few days of the exercise is unknown at this time since that will depend upon the number of problems presented by outside agencies. Certain employees will be working night shifts and others, particularly the communications employees, will be working split shifts, and while not sleeping may have need for recreational facilities.

Belmont  
Mason  
Mohr  
Parsons  
Rosen  
Tamm  
Nease  
Winterrowd  
Tele. Room  
Holloman  
Gandy

To that end SAC [ ] has advised that there will be available the television set normally at [ ]. This [ ] is not being otherwise used in connection with this exercise. There are also copies of 3 moving picture films which are normally [ ]. These films are: "The Street with No Name," "The House on 92nd Street," and "Walk East on Beacon Street." These films can be shown during evening hours to provide recreation for employees not on duty at that time. [ ] with books, newspapers, periodicals, and games will also be available.

b7E

In addition to the foregoing, there are other recreational facilities available at [ ] such as an outdoor movie, within walking distance of [ ], which may be made available to those individuals who may have a few minutes of free time during the week they will be at the relocation site.

b7E

RECOMMENDATION:

That SAC [ ] be authorized to make available the television set, moving pictures, facilities of [ ] as well as other facilities available at [ ] for those employees participating in OPERATION ALERT, 1956, when they are not on duty.

TO : A. H. BELMONT

SUBJECT: OPERATION ALERT, 1956

*4-11-56 Special For 3-0-0*

The Director has been invited to attend a meeting of the National Security Council in the Cabinet Room of the White House on July 20, 1956. It is anticipated this meeting will begin at approximately 11:20 a.m., and the Director is to proceed to the Cabinet Room of the White House immediately following the sounding of the alert beginning Operation Alert, 1956. This meeting is to be completely devoted to Operation Alert, 1956, and will consider major policy issues which would require Presidential action under the situation assumed to exist in the beginning of Operation Alert, 1956. The Director of ODM will make the presentation.

Attached is a brief of information reflecting: (1) The action the Bureau would take in a real emergency. (2) A summary of the action we are going to take under the assumptions of Operation Alert, 1956. (3) A brief discussion of the martial law and (4) brief summary of the contents of the Attorney General's Portfolio.

Pat Coyne has no knowledge that any problems will be posed to persons attending the meeting; however, ODM is running the meeting. We believe that the attached information, which it will probably not be needed by the Director, will furnish any information the Director may need, should questions arise.

During the exercise of Operation Alert we encountered few equipment failures. (a) On the Bureau's teletype circuits from [ ] to [ ] at 1:40 p.m., EDT, on 7-20-56, circuits 280 and 466 simultaneously became inoperative. The trouble was reported to C & P Telephone Company of [ ] and with the Chief Test Board Operator and both circuits were cleared in about 20 minutes. The explanation given by the Chief Test Operator was bad tube located in the carrier equipment at the [ ] teletypewriter board on both circuits. This occurred at approximately the same time the tornado passed by [ ].

b7E

(b) Circuit 280 became inoperative at 8:36 a.m. on 7-21-56 and the trouble was immediately reported to the Test Board at [ ] and cleared by the Test Board at [ ] at 9:02 a.m., EDT.

b7E

(c) Circuit 5124, which is one of our 2 private land line telephones to [ ], went out of service at 10:55 a.m., EDT, 7-20-56. Trouble reported to [ ] and service cleared at [ ] at 12:05 p.m.

b7E

(d) Circuit 3561-08, which is a private line duplex crypto circuit to [ ] located in our code room, was repaired and activated at 8:20 p.m., 7-20-56; however, it had no local loop for off-line enciphering and deciphering. At 9:45 p.m. report was made to the C & P Telephone Company repairman that the circuit was inoperative on the receiver cipher. At 6:55 a.m., 7-21-56, the C & P Test Board at [ ] was advised to follow through on the trouble at that point.

b7E

(e) Circuit PD3, which is one of our 2 microwave telephone circuits on [ ] went out of service at 4:56 a.m., 7-21-56. Laboratory engineers were advised. Trouble was located at [ ]'s relocation center at [ ], and service was restored.

b7E

(f) Teletype The Laboratory is reporting on Circuit [ ] which is the microwave circuit to the Bureau's relocation center at [ ]. This line was activated at 3:05 p.m., 7-20-56. We were ready at this end and had been following [ ] to complete its activation. The Laboratory is also reporting on the teletype microwave circuit with [ ]. ICS has not furnished us a circuit number to date and service has never been established on an operating basis by [ ] on this line. This matter is being followed with [ ] by the Laboratory.

Boplan - Emergency Headquarters For S.O.C.

The "Washington Star," July 26, 1956, carried an article entitled "President Wants Staffs at Hideaways All Year." You will recall that one of the considerations in selecting [redacted] as our relocation site was the fact that [redacted]

SAC [redacted] has arranged to have most of his personnel trained in the use of the various communication facilities in [redacted] including the maintenance, use and repair of cryptographic equipment. SAC [redacted] has familiarized himself with [redacted] which will be used in an actual emergency. In substance, the FBI relocation site is staffed on a year-round basis.

ACTION:

# President Wants Staffs At Hideaways All Year

By GARNETT D. HORNER

President Eisenhower wants Government agencies to keep small groups of employees at their emergency relocation sites on a year-round basis.

Arthur S. Flemming, Director of the Office of Defense Mobilization, disclosed that the President suggested such action at a 70-minute meeting at the White House yesterday afternoon winding up Operation Alert 1956.

During the alert, which began last Friday as a major civil defense test, key employees of 42 Government agencies were dispersed to emergency relocation sites to carry on operations as if Washington had been devastated by a hydrogen bomb.

Mr. Flemming said officials concerned would "go to work" immediately on the President's suggestion for keeping small groups at the relocation centers permanently so that they could be activated more quickly in the event of a real emergency.

## Secrecy Problem Seen

Mr. Flemming said this would increase the problem of keeping secret the location of the emergency centers, but that this was only one of several problems that would have to be worked out.

He emphasized only small groups of employees from each agency would be involved. Ideally, he said, the group permanently at a relocation site would do regular work for its agency, but would be trained to take over in an emergency.

Heads of the 42 agencies that participated in Operation Alert 1956 met with the President yesterday, reporting on the operation. Mr. Flemming said the President expressed delight at the progress which has been made over the past year in dealing with civil defense problems.

He added that there is no question but that substantial progress has been made since the first Operation Alert a year ago, although a great deal

needs to be done that we will be working on during the coming year."

Federal Civil Defense Administrator Val Peterson said that in view of the size of the problem, "we have two or three laps more around the world before we catch up with it."

Mr. Peterson lauded co-operation of the Defense Department in the 1956 exercise.

## Worth Effort, Wilson Says

Secretary of Defense Wilson emphasized that the Defense Department participated, not as a war game, but to see what could be done for the civilian population in the assumed emergency situation.

"From my point of view," Mr. Wilson added "the exercise was more than worth the effort it cost."

He said he found some good things and some "bad things" which we will work at improving.

Mr. Peterson emphasized that the main responsibility for civil defense still rests with local communities.

"In this problem, whether America survives or not is going to depend on the initiative and imagination displayed by our governors and mayors," the Civil Defense Administrator said.

He said the Federal work being done in Washington is necessary "but the bombs will fall at the local level, there will be chaos and confusion for many days, and local authorities will have to move in if America is to survive."

SYNOPSIS:

Buplan Emergency Headquarters  
 For C.O.C.

Pursuant to instructions, Liaison Agent M.W. Kuhrtz arrived at [redacted] relocation site, [redacted] 12:15 P.M., (EDT) to perform liaison duties during Operation Alert - 1956, July 20-25, 1956. Desk and telephone provided at site. Sleeping accommodations for all personnel arranged by [redacted] at local hotels and motels. [redacted] relocation site located [redacted].

[redacted]. Approximately [redacted] personnel evacuated for the operation on 7-20-56. A total of 24 contacts was made with the Bureau site at [redacted]. Delay experienced in obtaining [redacted] authority to initiate FBI apprehension enemy diplomats. This situation due to ranking [redacted] officials encountering extremely heavy rain and wind storm in [redacted] from Washington after the 11:00 A.M. alert 7-20-56.

This matter taken up with [redacted] and [redacted]

[redacted] at which time it was pointed out that this delay had serious effects on Bureau's operation and under real conditions could have a very adverse effect on the successful apprehension of enemy diplomats. A permanent record of incident made by [redacted] in its War Plans File with recommended steps to avoid similar future delays. Kuhrtz attended all [redacted]'s staff meetings as observer to gain first-hand knowledge of [redacted] policy problems and decisions. [redacted] operations handicapped since largest portion of its business deals with [redacted] and in this connection on 7-21-56 the Office of Defense Mobilization (ODM) required [redacted] to desist from any such problems. Observation: Operation Alert - 1956 was the first time [redacted] participated in this sort of activity on a full scale. Last year (Operation Alert - 1955), [redacted] evacuated; however, conducted its normal business rather than engaging in the alert activities as planned by ODM. As a result, many problems were encountered this year which could have been eliminated in advance had [redacted] had the benefit of a previous exercise.

*Memo to Mr. Belmont  
from Mr. Roach*

RECOMMENDATION:

*Since it is obvious that [ ] will have a much greater program of activities coordinated in advance of future operations, it is therefore apparent that a liaison representative will serve a greater benefit to the Bureau than has been apparent heretofore. In view of this, it is recommended that the Bureau continue to maintain liaison representation with [ ] on all evacuation planning.*

b7E

*gfd* *Q* *mm* *SD*

Memo to Mr. Belmont  
from Mr. Roach

DETAILS:

Pursuant to instructions, Liaison Agent M.W. Kuhrtz departed from the Justice Building at 10:00 A.M., 7-20-56, en route to the [ ] relocation site at [ ] [ ] to act in a liaison capacity for Operation Alert - 1956. Contact was made with the Bureau site ([ ]) from [ ] at [ ] (7-20-56).

b7E

Kuhrtz was contacted by Mr. Belmont at 12:15 P.M. (7-20) with request that [ ] authority be obtained for the apprehension of enemy diplomats in the United States. Mr. Belmont was advised that due to a heavy rain and wind storm, no one in authority had as yet arrived at [ ] for [ ]. Further, Mr. Belmont would be notified as quickly as [ ]'s authority could be obtained.

b7E

Kuhrtz received a second call from Mr. Belmont at 2:05 P.M. (7-20) and again was forced to advise Mr. Belmont that no one with authority had arrived to act for [ ] in this matter. During this period, Kuhrtz was in contact with [ ] in order to determine instantly the arrival of any ranking [ ] official. At 2:50 P.M. (7-20) [ ] arrived at [ ]'s relocation site. The above matter was immediately taken up by Kuhrtz with [ ] and at 2:58 P.M. contact was made by Kuhrtz with Mr. Roach at [ ]. Roach was advised that [ ] authority was granted for the Bureau to take into protective custody all enemy diplomats. (More will follow on this delay later.)

b7E

[ ]'s relocation site is located [ ] [ ] on 7-20-56, evacuated approximately [ ] people with an additional [ ] arriving on 7-23-56. Kuhrtz was assigned a desk in the space occupied by [ ] [ ] was the ranking [ ] official who arrived at the relocation site approximately 3:30 P.M. on 7-20-56 and remained in charge of the operation until 9:30 A.M., 7-25-56, at which time he returned to Washington to brief [ ] at the Heads of Agency meeting with the President at 2:30 P.M., 7-25-56.

b7E

Memo to Mr. Belmont  
from Mr. Roach

During the course of the five-day operation, a total of 24 contacts were made between Kuhrtz and [redacted]. Kuhrtz was invited by [redacted] to attend all of [redacted]'s staff meetings at [redacted] as an observer. These staff meetings usually occurred twice a day. This participation permitted Kuhrtz to gain a firsthand knowledge of all of [redacted]'s policy problems and decisions arising from the operation, some of which were of intelligence interest to the Bureau and were accordingly relayed to [redacted].

b7E

The following additional agencies had liaison representatives at [redacted]: [redacted]

b7E

It is pointed out that the instant operation was the first time that [redacted] actually participated 100 per cent under the regulations established by the Office of Defense Mobilization (ODM) for an emergency situation. Last year (Operation Alert - 1955) [redacted] moved [redacted] personnel to [redacted] for the purpose of conducting its normal "live" business without actively engaging in the operation alert activities along with the other agencies. As a result, there were many problems encountered by [redacted] this year which seemingly could have been eliminated in advance had [redacted] had the benefit of a previous exercise as experienced by most of the other agencies evacuating. One situation which reduced [redacted]'s activity was the fact that a day after the operation began, [redacted] was requested by ODM to avoid simulation of [redacted].

b7E

[redacted]. Since this is by far the greatest volume of [redacted]'s business, its Operation Alert activities were accordingly retarded. If this restriction had been understood by [redacted] in advance of the operation, appropriate advance planning could have been made.

[redacted] submitted a daily summary accomplishment report to ODM. On the evening of 7-24-56, a final accomplishment report was submitted to ODM. This report did not include any of the problems or breakdowns encountered, nor were any recommendations made relative to the operation. All such observations will be included in a final [redacted] report requested by ODM by August 31, 1956.

b7E

Memo to Mr. Belmont  
from Mr. Roach

With regard to the delay mentioned above concerning [ ] authority to apprehend enemy diplomats, it is pointed out that this authority was obtained and relayed to [ ] as quickly as a ranking [ ] official arrived at [ ] from Washington. It is further pointed out that an exceedingly heavy rain and wind storm did delay all [ ] evacuees who left Washington at 11:00 A.M., 7-20-56, for [ ]. Upon [ ]'s arrival at 2:50 P.M., he was immediately contacted for Bureau authority in this instance. [ ] stated he would immediately contact [ ], ranking [ ] official, to determine whether the President had signed the necessary papers declaring a national emergency. Since Kuhrtz was aware at this moment that [ ] had not yet arrived at [ ], [ ] was so advised and referred to the Operation Alert - 1956 Manual furnished all departments by ODM which specifically stated that for the purpose of the exercise, it will be assumed that the President officially declared a national emergency at 11:15 A.M., 7-20-56. [ ] stated that he had not seen this manual nor had he been briefed on the ODM rules established for the operation. Simultaneous with this conversation (2:54 P.M.), [ ] received a telephone call from Deputy Attorney General Rogers inquiring relative to [ ]'s delay in this matter. [ ]'s conversation with Mr. Rogers was made in Kuhrtz's presence and it was suggested by Kuhrtz that [ ] verify through Mr. Rogers the President's simulated signature declaring a national emergency. Since the President's action was then verified, [ ] accordingly approved the Bureau's request and Kuhrtz immediately contacted Mr. Roach at [ ] at 2:58 P.M. to advise him of [ ]'s authority. This matter was subsequently taken up with both [ ] and [ ] and it was pointed out by Kuhrtz that this delay in obtaining [ ]'s authority to initiate FBI action in apprehending enemy diplomats had serious effects on the Bureau's operation and in the event a similar situation occurred under real conditions, it could have very adverse effect on the Bureau's success in the immediate apprehension of these diplomats.

b7E

In this connection, [ ] indicated that he had not been thoroughly briefed on the Operation Alert - 1956 Manual and advised that he was not actually aware of the President's signature declaring a national emergency until a

b7E

*Memo to Mr. Belmont  
from Mr. Roach*

*telephone conversation he had with the Director of ODM on the morning of 7-21-56. Relative to this incident, [ ] prepared a memorandum for [ ] to be included in [ ]'s War Plans File which was displayed to Kuhrtz. This memorandum referred to the delay and further recommended that all bureau heads in [ ] be thoroughly briefed by [ ]'s War Plans Officer on such matters in order that more expeditious action can be accomplished in the future.*

b7E

*Since this was the first operation that [ ] has participated in on a full scale, it is the opinion of the writer that for future operations [ ] will coordinate in advance a much greater program of activities as a result of their instant exercise. In view of this observation, it is apparent that a liaison representative at [ ] will serve a greater Bureau benefit in the future than has been apparent heretofore.*

b7E

*Kuhrtz had sleeping accommodations at [ ]  
[ ], and at 3:05 P.M., 7-25-56,  
departed for Washington.*

PERSONAL ATTENTION

**HIGHLIGHTS OF SEAT OF GOVERNMENT  
DEFENSE PLANS FOR CHAIN OF COMMAND**

Reur routing slip 7-25-56 inquiring as to Phase II of Domestic Intelligence Division evacuation plans.

Pages 16-33, headed "Evacuation, Phase II, Alexandria Area," and so forth, are replaced by material contained in "Entire New Section of Domestic Intelligence Division Relocation Plans," which you received with insert No. 10 as pages 1-17. Inasmuch as Phase II of the Domestic Intelligence Division evacuation plans pertain to a period after the first 24-48 hours of actual occupation of the relocation site, it is not believed that this phase is necessary in Highlights of Seat of Government Defense Plans for the Chain of Command. The Domestic Intelligence defense plans on file at the relocation site do contain evacuation, Phase II, of Domestic Intelligence Division defense plans and will be available at that site if needed.

Your comments are most appreciated.

JEM:dje  
(5)

NOTE: By routing slip 7-25-56 SAC Kelly acknowledged receipt of inserts 10 and 11 to "Highlights" and noted that Phase II of DID evacuation plans referred to in his routing slip as pages 16-33 previously included in "Highlights" were not included with insert No. 10. Insert No. 10 included only Phase I of DID defense plans. It is not believed that Phase II of DID defense plans should be included in "Highlights" since this phase will be brought into operation only after the relocation site is activated and there is at the relocation site a full set of DID defense plans, including Phase II. Henceforth, only Phase I of DID defense plans will be included in "Highlights."

SYNOPSIS: Buplan - Emergency Headquarters - C. P. M. J. J. J.

Approximately [redacted] personnel at [redacted] relocation exercise at [redacted]; site of Office of Defense Mobilization (ODM) and [redacted]. Operation was slow getting started because of the rainstorm which started during early morning 7/20/56. This storm delayed the arrival of many of the participants in the exercise and was a hindrance to communications. Morale for the most part was good, although living conditions were inadequate, since the majority of the personnel slept in tents. It rained practically every day, and as a result the people were wet most of the time and many caught colds. Dr. Arthur S. Flemming, director of ODM, and [redacted] held frequent conferences by closed TV circuit and kept the site up to date on the Operation. The President was kept advised of the Operation, and, according to Dr. Flemming, he was pleased with the results. The Bureau Liaison Representative had access to the offices of Dr. Flemming and [redacted], and both remarked favorably on the Bureau's participation in the exercise.

LIAISON

AUG 8 1956

Memorandum to Mr. Belmont

DETAILS:

At the request of the ODM the Bureau Liaison Representative, Supervisor W. T. Whaley, reported to the ODM site during the evening of 7/19/56, so he could be in operation when the exercise started on 7/20/56. Upon arrival Whaley was registered and shown to his quarters and to his office, which he shared with the security personnel of ODM. He was courteously received and treated.

During early morning of 7/20/56 a rainstorm hit [redacted] and lasted throughout the entire day. As a consequence the people already there and those arriving were thoroughly soaked. Most of the participants, including the Liaison Agent, lived in tents, and the living conditions were far from adequate. The storm delayed the arrival of the participants. Upon arrival the participants were checked in at the gate by guards supplied by [redacted], and were then routed to the registration tent, where they obtained meal tickets, billeting, and were driven to their tents by [redacted]. Morale on the whole was good in spite of the weather. The food, which was prepared by [redacted], was excellent, and the personnel (excluding the Liaison Agent) only worked 8-hour shifts. They could also leave [redacted] while not on duty, and this, with the good food, was a factor of the morale being so good. The Liaison Agent did not leave the site during the entire Operation. b7E

Lieutenant General Paul, U. S. Army (retired), assistant director, ODM, was advised that the Bureau relocation site at [redacted] was in full operation as of 11:11 a.m., EST, 7/20/56. b7E

Dr. Arthur S. Flemming, director of ODM, and [redacted] arrived at the site during the afternoon of 7/20/56, and were very active in the running of the operation. Both of the above kept the personnel at [redacted] advised of the developments of the operation through daily closed circuit TV broadcasts. Dr. Flemming kept the President advised of the Operation, and, according to him, the President was very happy with the results of the Operation. Both Dr. Flemming and [redacted] made various trips from the site, but always returned at night. b7E

Whaley talked to both Dr. Flemming and [redacted] and was treated very courteously, and was told to drop into their offices at any time if he or the Bureau had any request. Both stated that b7E

Memorandum to Mr. Belmont

they appreciated the Bureau's interests and ~~the~~ participation in this Operation, and knew that the Bureau, as always, would do a good job. Dr. Flemming in particular stated that he was very happy that the Director had assigned a Bureau representative to [ ] for the exercise. b7E

Because of the weather [ ]'s microwave system and telephone lines went out of order several times. However, on the most part they were put back in operation within a very short time. One of the inadequacies noted by the Liaison Agent was that the messenger service during the first day was inadequate. It seemed that no one had taken steps to coordinate the service, and several sections of the Operation had their mail piled up and were as much as 12 hours late in getting it distributed. However, this was corrected on the second day, and thereafter the mail flowed properly. There were no major problems between the Bureau site and [ ]. b7E

There was one security breach by [ ] and [ ] that upset the officials of ODM greatly. This concerned a news article which appeared in the 7/23/56 issue of the "Washington Post and Times Herald" on the Operation. This article identified the code words used by the Health Department and Treasury Department. Both of the agencies admitted to the security personnel at ODM that they had inadvertently given out the code words to the reporter. This necessitated a changing of the code words of 10 of the participating agencies in the Operation. b7E

During the Operation, [ ] and Assistant Attorney General Warren Olney III visited [ ] for a short time. b7E

Security of the site, which appeared to be adequate, was maintained by [ ], who had armed guards at the gates and who patrolled in and around the area. b7E

During the Operation there were approximately [ ] [ ] personnel at the site. However, many of the [ ] only stayed for a short time, and during the last 2 days it appeared that half of the [ ] had left. b7E

Dr. Arthur S. Flemming  
Director  
Office of Defense Mobilization  
Executive Office Building  
Washington 25, D. C.

Dear Dr. Flemming:

During Operation Alert - 1956, Special Agent W. T. Whaley of this Bureau was assigned in a liaison capacity at the Office of Defense Mobilization relocation site. Mr. Whaley has advised me that representatives of your office were most cooperative and helpful to him and I personally want to thank you for this assistance.

Please let me know if this Bureau can be of any service to you in matters of mutual interest.

Sincerely yours,

Seventeen of our Coding Unit employees earned an average of nearly 19 hours compensatory leave each. During this week and the following week we will arrange to grant this compensatory leave; however, in order that we may provide adequate coverage and be able to handle our work on a current basis in this unit, we are requesting that 24 hours of compensatory leave earned by Communications Code Clerk  not be taken until August 13, 14 and 15 and the 32 hours of compensatory leave earned by Communications Code Clerk   not be taken until August 28, 29 and 30.

RECOMMENDATION:

That we be allowed to have the two above employees take their compensatory leave at the time stated above.

This is a summary memorandum reflecting the Bureau's operation at its relocation site, covering the period from the time of the alert on the morning of July 20 through July 24, 1956. An additional brief summary memorandum will be prepared covering activities on July 25, when the operation ends.

THE ALERT

At 11:13 a.m. EDT, sirens and buzzers notified the Bureau of the start of Operation Alert, 1956. The prearranged notification system which we will use in an actual emergency was placed into effect and all persons ☐ scheduled for relocation were accounted for and checked off by 11:23 a.m.

☐ personnel started immediately for ☐  
☐  
☐ All  
personnel had arrived at ☐ by ☐. Justice relocation was notified that FBI was operational at 12:11 p.m., and ☐ was so notified at 12:19 p.m.

Immediately following the alert, the Director and Mr. Tolson proceeded to the National Security Council meeting at the White House, following which they proceeded at once to ☐, arriving shortly after 1:00 p.m.

ENCLOSURES (Attachments A, B and C and Memo to Attorney General)

Memorandum to the Director from Mr. Belmont

SCHEDULED PROBLEMS

Forty-one problems were prepared in advance of the test, simulating conditions which would face us at a relocation site in an emergency. These problems, together with eight additional problems, were worked primarily during the first two days of Operation Alert. They gave us a very thorough check of our communications system, both here at the relocation site and in the field. Many of our problems required intercommunication between field offices, relocation sites and resident agencies, and also contact by the field with other agencies. Consequently, we were constantly checking the alertness and speed of response of our field personnel, as well as our communications system. The problems were handled with speed and dispatch.

Because of the classified and delicate nature of our emergency work, our problems were simulated in the field; however, actual messages were sent, requiring specific action, and actual emergency conditions were simulated at [REDACTED].

b7E

A brief resume of the scheduled problems is set forth below:

Emergency Detention Program

Upon arrival at [REDACTED], we learned that the Justice Department, by teletype at 11:03 a. m., had authorized the institution of the Emergency Detention Program, covering both citizens and aliens. Consequently, the program was launched immediately, as of 12:29 p. m. EDT, utilizing teletype, radio and telephone in communicating with all offices. All fifty-two offices had been reached by 2:46 p. m., and replies had been received back from all offices by 3:53 p. m.

b7E

You will recall that last year during Operation Alert, 1955, we ran into serious difficulty getting authority from the Attorney General to launch this program, as a result of which we pointed out the absolute need for prompt authority in a real emergency. In the

Memorandum to the Director from Mr. Belmont

current test, Deputy Attorney General Rogers wired authority to [ ] even prior to the National Security Council meeting. It would appear that we have impressed upon the Department the need for prompt action under this program.

b7E

This program was authorized and launched very promptly in Operation Alert, 1956. This enabled us, theoretically, to successfully apprehend subjects on the Security Index, except, of course, in those cities wiped out by the bombing attack. (Persons on Security Index as of July 20, 1956 - 12,995.)

Protective Custody Enemy Diplomats

Immediately after arrival at [ ] (12:15 p.m. EDT), Mr. Belmont contacted Liaison Agent Kuhrtz at [ ] relocation site to see whether [ ] wanted enemy officials taken into protective custody. Additional contacts were made with Kuhrtz at 1:10 p.m. and 2:05 p.m. Kuhrtz advised that [ ] officials had not arrived, due to a heavy rainstorm. At 2:25 p.m., the Attorney General and Deputy Attorney General Rogers were advised at Justice relocation that we could not launch this program as no decision had come from [ ]. Agent Kuhrtz advised at 3:08 p.m. that [ ] had authorized this program as of 2:58 p.m., and the problem was launched at 3:12 p.m. Replies were received from field by 4:06 p.m. and action completed. (Problem involves four offices - Washington Field, Baltimore, New York, and Philadelphia.)

b7E

In addition, problems were simulated with several other offices, involving enemy diplomats who were traveling in other states at the time this program was launched.

Total Soviet and satellite diplomats involved: New York - 245 Soviet and 100 satellite; Washington - 277 Soviet and 230 satellite -- Grand Total 852 (as of July 1, 1956).

Memorandum to the Director from Mr. Belmont

The simulation of this problem in Operation Alert, 1956, again exemplifies the need to have a definite airtight arrangement for [ ] to consider promptly whether the program should be launched and promptly advise the Bureau. In this instance, because it was raining, [ ] was late getting to its relocation site and there was a delay of nearly three hours getting word to us on the program from [ ].

b7E

On July 22, at a conference of [ ] relocation officials, Liaison Supervisor Kuhrtz forcefully brought this situation to the attention of [ ]. [ ] stated he will prepare a memorandum to [ ], calling his attention to this delay and the need for a prompt decision and notification to us in an emergency regarding these enemy diplomats. Nevertheless, if you agree, we will send a letter to [ ], reiterating the importance of [ ] setting up the internal machinery to resolve promptly this matter during an emergency.

b7E

#### Espionage Problems

A series of espionage problems were posed during the test, involving the apprehension of espionage subjects on the Security Index; the location and arrest of enemy agents landing by submarine; simulated consideration of subjects in Special Section of Security Index as to espionage subjects; consideration of pro-Tito Yugoslavs; and presentation to [ ] regarding United Nations employees and foreign government employees of friendly nations.

b7E

#### Internal Security Problems

In addition to the Emergency Detention Program, problems were worked involving reports on sabotage; problems involving emergency detention arrests requiring notification to other Government agencies; alerting field offices as to Security Index subjects out of the country; simulating action based on flash notices received in the Identification Division on security subjects; maintenance of statistics on arrests during each day; and securing names of informants who would be arrested and placed with subjects during an emergency.

Memorandum to the Director from Mr. Belmont

Laboratory Problems

The Laboratory likewise staged a number of problems during the alert period, including: (a) auxiliary radio station on [ ] placed into operation by 12:22 p.m., July 20; (b) radio-active detection meters were set up and simulated periodic readings taken and logged; (c) selected personnel at [ ] were equipped with radio-activity detecting dosimeters, and simulated readings were logged periodically to record simulated exposure to radio-active hazards; (d) simulated breakdown of radio station--repair the station and place back in service; (e) five offices required to set up radio-activity detection meters and report simulated readings to [ ]; (f) five offices required to equip and use, and report on use of, dosimeters; (g) five offices required to operate their radio stations on emergency power for thirty minutes; (h) simulated breakdown of telephone switchboard--repair same and place back in service; (i) simulated commercial power failure for entire [ ], requiring use of emergency power; (j) simulated breakdown of all wire-line communications facilities; and (k) simulated breakdown of cryptographic coding machine.

b7E

The Laboratory reports that its problems went smoothly and that there was no difficulty with the field.

OUTSIDE PROBLEMS (7.24.55)

Up through 6:00 p.m., July 24, we had received from other agencies a total of 41 problems requiring action by us. In contrast, we received 16 such problems during Operation Alert, 1955. These problems were handled promptly. Where necessary for record purposes, replies were sent to the other agencies, but where not necessary, action was simulated for economy reasons.

Attachment A to this memorandum sets forth a concise summary of each of these problems; however, selected examples are set forth below:

Memorandum to the Director from Mr. Belmont

OUTSIDE PROBLEMS (continued)

1. On July 20, 1956, 10:15 a.m. EST, teletype received from Department of Justice requesting FBI to pass to U. S. Attorneys, Cleveland, Atlanta, Fort Worth, and Denver, "Please acknowledge this test message and indicate time you received it." On July 20, 1956, teletype was transmitted to Special Agents in Charge at Cleveland, Atlanta, Dallas, and Denver to carry out above instructions. Teletype replies received from those SAC's on July 20. On July 20, 5:45 p.m., teletype sent Department of Justice, advising of information received. Problem completed.

2. Assistant Special Agent in Charge Simon, New York Office, telephonically advised at 9:10 p.m., July 20, 1956, that G-2, [redacted], gave NYO message that a group of men at 11:00 a.m. gained entrance to restricted area of Ace Aircraft Corporation, Syracuse, New York; wounded seven guards; inflicted superficial damage at plant; one person identified as member Apostle of Peace organization was captured and that plant will be vulnerable during week-end period in spite of increasing guards. Simon was instructed to call back G-2 and advise that FBI is immediately conducting investigation based on possible sabotage; that FBI will not be responsible for guarding plant; and that FBI strongly protests delay in reporting incident to us. Problem completed.

b7E

3. Washington News Service release on July 20, 1956, carried item from press headquarters, Operation Alert: "Tomorrow at Madison, Illinois, three airplanes will land with saboteurs on mock assignments to destroy targets in that area." We had Mr. Mullen, of the Department, run this down at [redacted] and learned that [redacted] inadvertently released this to the press. It was meant to go only to [redacted] at Madison as a test in spotting aircraft. The Springfield Office was alerted, told not to participate and not to comment to press. Springfield advised that three airplanes did land near Madison on July 20, carrying simulated bombs; pilots taken into custody by auxiliary police as [redacted] test. Problem completed.

b7E

Memorandum to the Director from Mr. Belmont

OUTSIDE PROBLEMS (continued)

4. Justice Department teletype July 21, 1956, from Andretta requested we advise as to our financial requirements to carry out our responsibilities in the present emergency, to be broken down as follows: (a) immediate requirements, (b) forecast for two weeks, (c) interim expenditures - to be reported in two weeks - and (d) total expenditures at end of emergency. Due to vagueness of request, Liaison Agent Daunt requested to contact Andretta and find out what he desired. Daunt got clarification for items (a) and (b) and was told we could ignore items (c) and (d). Teletype sent 7/21/56, advising (a) \$415,162 and (b) \$4,151,620 for two weeks (10 workdays). Problem completed.

5. [ ] in California requested FBI to furnish an assessment of conditions of state and local governments to perform functions vital to maintenance of law, order, and protection of health and safety. SAC Whelan, San Francisco, told [ ] this was a function of [ ]. As Whelan thought [ ] might contact other offices, a radiogram was sent on July 21 to all offices, advising background of matter and proper response if request was made. Problem completed.

b7E

6. New York Office called July 21, 1956, and advised message received from G-2 that it wanted results of preliminary interrogation of two captured pilots of enemy aggressor bomber which crashed near Bangor, Maine, on July 20, 1956, which pilots were captured and turned over to local FBI. New York Office was instructed to call back and tell G-2 it was mistaken in its facts; that the pilots remained in custody of [ ]; that FBI had interrogated them in the presence of [ ] at Bangor; that full copies of interrogation were in possession of [ ] at Bangor; and that G-2 could contact [ ] at Bangor to get copies of interrogation. Problem completed.

b7E

Memorandum to the Director from Mr. Belmont

OUTSIDE PROBLEMS (continued)

7. On July 22, 1956, Mr. Airhart, Justice Department, through Liaison, requested our comments on a Justice problem involving enemy alien merchant seamen on a ship in a United States port loading radio-active waste material. We reviewed the Attorney General's Portfolio, Part I, Item 14-C, which points out that enemy aliens (a) on enemy vessels would be taken into custody by the Coast Guard and turned over to the Department of Defense as prisoners of war, and (b) on other vessels in United States ports would be under Immigration and Naturalization Service jurisdiction. By teletype July 22, 1956, we so advised Mr. Airhart, pointing out the FBI has no responsibility for alien enemy seamen per se. Problem completed.

8. Justice Department teletype July 22, 1956, requested available facts on reported sabotage of bridges in Montana, Indiana, and Washington. We sent teletype to Justice same date, pointing out (1) we had investigated this report, resulting in apprehension of five individuals; (2) facts were presented to U. S. Attorney, who authorized prosecution under appropriate sabotage statutes; and (3) our investigation was continuing. Problem completed.

9. On July 23, 1956, Assistant Attorney General Tompkins asked the Bureau's position on a [ ] proposal that an Alaskan War Council be setup in Alaska to administer all Federal services, which would be obliged to comply with any [ ] request re personnel and equipment. We replied to Tompkins that this action would appear to parallel martial rule; and, in view of our responsibilities, FBI not in position to make equipment or personnel available to [ ] or other agencies. Therefore, FBI requests ruling from Justice as to what action we should take if this [ ] proposal goes into effect; should we continue to carry out our functions and to whom should violations of Federal law be reported for prosecution. Insofar as FBI concerned, the decision as to whether such a Council should be set up rests with Department. Department replied to us it was opposing the Council unless Justice Department exempt. Problem completed.

b7E

Memorandum to the Director from Mr. Belmont

OUTSIDE PROBLEMS (continued)

10. On July 23, 1956, Assistant U. S. Attorney representing Department at Massachusetts [ ] headquarters advised our New York Office that New York Director of [ ] [ ] informed that western New York being flooded with counterfeit bills by subversive elements. [ ] asked what measures FBI and Secret Service would take. Boston Office also received like message concerning like activities in Massachusetts. New York was instructed to contact [ ] [ ] and inform them our Albany and Buffalo Offices and Boston had been alerted; that close liaison being maintained with Secret Service, which has counterfeiting jurisdiction; and that FBI desires full details concerning alleged subversive angles in order to conduct investigation this aspect. Problem completed.

b7E

AVAILABILITY CHECKS

Availability checks were made on a surprise basis with eighteen field divisions (three each on July 20, 21, and 24; five on July 22, and four on July 23), during the evening, starting at varying times between 7:30 p. m. and 11:30 p. m. EDT. In general, all Agents were contacted promptly, particularly in the smaller offices. One office contacted its fifteen Agents in four minutes. (Salt Lake City) In several of the larger offices, there was undue delay in that more than one hour was required for the office to contact all its Agents on duty status at headquarters city. Inasmuch as this indicated a lack of proper organization and system on the part of the office, the SAC was required to explain, and separate memoranda were submitted in those cases recommending appropriate action. These offices were Boston, Newark and Philadelphia.

While, generally, our availability checks have been highly successful, if you agree we will prepare an SAC Letter referring to availability checks during the Operation Alert exercise and stressing the Bureau's insistence that an efficient system be set up in each field office so that any office called upon to locate its Agents in an emergency can do so without any delay. ✓

Memorandum to the Director from Mr. Belmont

IMPORTANT PROCLAMATIONS AND  
EXECUTIVE ORDERS ISSUED

Office of Defense Mobilization (ODM) notified participating departments and agencies of approval of 8 Presidential Proclamations and 19 Executive Orders. These set in operation many emergency measures, including placing of wartime controls on the nation's economy, suspending privilege of writ of habeas corpus for 60 days, giving [redacted] emergency powers over state governments, establishing censorship, authorizing wiretapping of foreign government communications by [redacted] and the Department of Justice. A number of these measures would need Congressional action to legalize them, since statutory authority was lacking. Various orders were promulgated by agencies responsible for administering aspects of emergency measures, and Department of Justice sent teletypes to us pointing out provisions in certain regulations of interest--for example: requests for occupational exemption of Bureau employees under provisions of Selective Service should be submitted to the Attorney General; no Federal employee who resigns voluntarily may be employed by another Federal agency within 90 days; employees prevented by disaster from reporting for work shall be placed on administrative leave; [redacted] can suspend written inquiry phase of its investigations under Executive Order 10450 to extent such inquiries dependent on disrupted communications.

b7E

Attachment B is a running memorandum briefing these documents.

COMMUNICATIONS

Communications at [redacted] were highly effective. Teletype, telephone and radio systems were used heavily and were thoroughly tested. Microwave system was thoroughly tested. Despite heavy volume, we could have handled additional messages if necessary.

b7E

Memorandum to the Director from Mr. Belmont

COMMUNICATIONS (continued)

Summary of Messages Sent and Received  
(From 12 Midnight, July 20 to 6:00 P. M. , July 24)

	<u>Outgoing</u>	<u>Incoming</u>	<u>Total</u>
Telephone	356	334	690
Teletype	225	639	864
Radio	192	50	242
Microwave	<u>4</u>	<u>22</u>	<u>26</u>
TOTALS	<u>777</u>	<u>1,045</u>	<u>1,822</u>

These messages required handling 10,695 code groups, which reflects the heavy volume absorbed by the coding unit.

This is a far greater volume than during Operation Alert, 1955, yet we encountered no delay. Because of our diversified system and number of lines, where unavoidable mechanical equipment delays occurred, we were able to shift the message at once to another line. During the test, all offices were contacted by radio, 38 by teletype, and 38 by telephone.

We had no trouble reaching the field offices. Communications with other agencies were better than during Operation Alert, 1955, as we had few delays. This shows improvement of communications in other agencies. Any significant delays are shown under the section of this memorandum regarding 'Difficulties Encountered.'

[redacted] was designated by ODM to inspect our communications facilities during the exercise. He did so on July 23 and prepared his report, rating the Bureau outstanding in every phase.

b7E

Memorandum to the Director from Mr. Belmont

LIAISON

All six Liaison Agents who relocated with their agencies had established contact with the Bureau relocation site by 1:37 p. m., July 20. We had no difficulty in reaching Liaison Agents at the relocation sites, in contrast to the situation during Operation Alert, 1955, reflecting an improvement in communications facilities at other agencies' sites. The Agents were in regular and constant contact with [ ] and kept us advised of developments not only affecting their agencies but information picked up of interest to the Bureau.

b7E

Operation Alert, 1956, was an excellent example of the value of having our Liaison Agents accompany their agencies to relocation sites. Time and again they were able to furnish us information of value, iron out problems and cut red tape so that our problems worked more smoothly and we had the necessary knowledge available to us to efficiently operate. During the first 5 days of the exercise, we had more than 175 telephone contacts between the Liaison Agents and [ ].

b7E

In a number of instances, top officials of other Government agencies expressed appreciation for the presence and assistance rendered by our Liaison Agents and commented on the planning and attention given Operation Alert by the Director.

DIFFICULTIES ENCOUNTERED (Action Being Taken)

(1) As set forth earlier in this report, during the availability checks in certain offices delay was encountered. In each instance, a separate memorandum has been submitted with recommendations.

(2) As set forth earlier in this report, there was a delay on the part of [ ] in arriving at a decision and advising us concerning the program to take into protective custody enemy diplomats. We have already taken this up with [ ], pointing out the potential embarrassment. [ ] is bringing this to the attention of [ ]. In addition, a letter will be written to [ ] following Operation Alert, 1956.

b7E

Memorandum to the Director from Mr. Belmont

DIFFICULTIES ENCOUNTERED (Action Being Taken) (continued)

(3) It was evident from the communications we received at our relocation site that there was obviously a delay in transmission of some messages from other agencies. Many of the messages were not transmitted for a number of hours after they were prepared for transmittal. For example, one message concerning the placing of the entire United States under [ ] was not transmitted for more than thirty hours after it was prepared.

b7E

While we have already called the delay in communications to the attention of ODM in our first report on July 20, it is believed we should comment on this in our memorandum to the Attorney General, even though ODM has publicly announced there was a heavy backlog and delay in transmission of messages. Such a comment is contained in the attached memorandum to the Attorney General.

(4) [ ] is a new instantaneous automatic encoding and decoding device associated with teletype equipment which the Interagency Communications System (ICS) at [ ] wished to place in our code room to handle coded messages to [ ]. We provided the space and have had ICS representatives at [ ] since July 16, 1956, making the installation. When it finally works effectively, it will be helpful to us as it will save coding time over and above the code machines the Bureau now uses. [ ]

b7E

[ ] We will press for action on this until it is in satisfactory operation.

(5) In order to back up land lines, both telephone and teletype, between the relocation headquarters of the critical agencies, a radio microwave system of stations was established. This system originated at the suggestion of the White House. Initial work was carried on by the Ad Hoc Committee on Alert Planning. Present responsibility for implementation of this network lies with the Office of Defense Mobilization. All of the Bureau microwave equipment is in place and

Memorandum to the Director from Mr. Belmont

DIFFICULTIES ENCOUNTERED (Action Being Taken) (continued)

operational. No Bureau problems have been encountered on telephone service over microwave to [ ] and [ ]. [ ] did not activate their microwave teletype channel to the Bureau relocation site until 3:05 p. m., July 20, 1956. [ ] has not been able to activate their end of the teletype circuit in order to communicate with our relocation site. Our equipment and personnel are available and standing by ready for service. We will continue to check until such time as [ ] can remedy their operational or equipment difficulties.

b7E

DIFFICULTIES ENCOUNTERED (No Action Recommended)

(1) Problem G under "Outside Problems" recounts the incident of the inadvertent release to the press by [ ] of a story that three airplanes would land with saboteurs at Madison, Illinois. This story was meant as a test exercise for airplane spotters at Madison. It was necessary for us to run this down and alert the Springfield Office. However, it is not felt that any worthwhile results would be obtained from protesting this to [ ], since they have already admitted error.

b7E

(2) In working one of our problems, the New York Office submitted a garbled teletype, requiring us to check with New York for clarification. We learned this was caused by a mechanical failure in the New York teletype machine. The failure was caused by a burned-out tape transmitter. It occurred at 11:42 a. m., July 21. New York notified the telephone company, and repairmen had completed repairs by 4:15 p. m., July 21. This was not the fault of the New York Office.

(3) On the Bureau's teletype circuits from [ ] to [ ] at 1:40 p. m. EDT, July 20, 1956, circuits 280 and 466 simultaneously became inoperative. The trouble was reported to the Chesapeake and Potomac Telephone Company of [ ], at [ ], and with the Chief Test Board Operator, and both circuits were cleared in about twenty minutes. The explanation given by the Chief Test Board Operator was bad tube located in the carrier equipment at the [ ] teletypewriter board on both circuits. This occurred at approximately the same time the tornado passed by [ ].

b7E

Memorandum to the Director from Mr. Belmont

DIFFICULTIES ENCOUNTERED (No Action Recommended) (continued)

(4) Circuit 280 became inoperative at 8:36 a. m. , July 21, 1956, and the trouble was immediately reported to the Test Board at [ ] and was cleared by the Test Board at [ ] at 9:02 a. m. EDT.

b7E

(5) Circuit 5124, which is one of our two private land line telephones to [ ], went out of service at 10:55 a. m. EDT, July 20, 1956. Trouble reported to [ ] and service cleared at [ ] at 12:05 p. m.

b7E

(6) Circuit PD3, which is one of our two microwave telephone circuits to [ ], went out of service at 4:56 a. m. , July 21, 1956. Trouble was located at [ ]'s relocation center at [ ] and service was restored.

b7E

(7) At 8:30 a. m. , July 20, 1956, [ ], which is the [ ] microwave telephone to [ ] went out of order and was cleared at 9:22 a. m. It went out again at 9:30 a. m. and was cleared at 10:10 a. m. At 10:30 a. m. , intermittent interruptions were encountered. This was finally cleared at 12:15 p. m. by [ ] at its [ ] relocation site.

b7E

REPORTS OF ODM INSPECTOR BOLEYN

Inspector Boleyn has rendered three brief reports to ODM to date - July 20, 23 and 24, 1956. These reports are based on a check list - Administration and Logistics. We were marked outstanding on all items except those requiring merely a "yes" or "no" answer, on which we received affirmative checks. Mr. Boleyn pointed out that his report of last year was highly favorable to the Bureau. This is certainly true. Mr. Boleyn stated that he considered our operations this year superior to our operations of last year and that he considered our operations excellent in every respect. This will be reflected in Mr. Boleyn's written report.

Memorandum to the Director from Mr. Belmont

PERSONNEL

[ ] employees reported to [ ] from Washington on the day the Alert started. Personnel were released, when possible, keeping in mind our desire to handle all communications and problems promptly and efficiently. By the night of July 21, the number was reduced to [ ]; July 22 to [ ]; and July 23 to [ ]. No personnel were released on July 24. It was apparent that all employees engaged in this operation approached the matter with a sense of urgency and care. The entire operation was conducted in a businesslike atmosphere, looking toward handling the Bureau's responsibilities in Operation Alert promptly and effectively. Many of the clerical employees (and, of course, officials) were on 12-hour shifts, including the week end. The employees were very willing and exhibited a fine attitude.

b7E

It is noted that several problems were received from other agencies which required consideration and reply by the Administrative Division. Mr. Mohr's presence enabled us to handle them promptly and efficiently.

SAC [ ] and [ ] handled the physical security of the building on a 24-hour basis and administered the operation of the building and the services necessary during the operation. We found the physical arrangements had been set up efficiently upon our arrival and the services were well maintained throughout. I consider that SAC [ ] and [ ] did an excellent job.

b7E

Attached is a list of personnel who took part in Operation Alert, including SAC [ ] and [ ] and the Liaison Agents who operated with their agencies. (Attachment C)

b7E

Memorandum to the Director from Mr. Belmont

### OBSERVATIONS

(1) As far as the FBI is concerned, this exercise was too long. We worked most of our problems in the first two days and thoroughly tested our communications system and the reaction time of our field offices under emergency instructions. Insofar as the practical value is concerned, we could have completed our tests and reported within three days.

(2) It is fundamental that any exercise of such magnitude as this should be based on the most careful planning, with the advance instructions, directives, manuals, etc., based on the firmest possible foundation so that they are factual and understandable and will not be subject to change. We cannot help but feel that this was not true in this case, as there were constant changes and shifts in instructions, rules, and policy, which increased in rapidity as the time of the exercise approached. This engendered uncertainty which could not help but lend confusion and thus interfere with the goal of the exercise, namely, to clarify and bring about real understanding of the procedures and mechanics we would need to use in a real emergency.

We believe these are legitimate, constructive comments and, therefore, we have included them in the attached summary memorandum to the Attorney General.

### RECOMMENDATIONS

(1) We apparently have succeeded in impressing on the Justice Department the need for immediate authority to advise us regarding the Attorney General's authority for institution of the Emergency Detention Program. Deputy Attorney General Rogers sent us authority by teletype at 11:03 a. m. on July 20th. Consequently, our first notice to the field regarding the Emergency Detention Program was started at 12:29 p. m., after arrival at [redacted]. It may be possible to alert the field earlier by teletype from the Bureau headquarters immediately upon receipt of an alert. If conditions will not permit this, we will send it from the relocation site. We will try this next year.

7-30-56  
TICKLER sent  
JDR.  
b7E

Memorandum to the Director from Mr. Belmont

RECOMMENDATIONS (continued)

(2) A letter will be sent to [redacted] reiterating the absolute necessity for proper mechanics within [redacted] to notify the Bureau at once of its decision regarding the program to take into protective custody enemy diplomatic officials.

(3) Administrative action has already been recommended against those field divisions which did not adequately handle the availability check during the exercise. If you agree, we will prepare an SAC Letter referring to availability checks during the Operation Alert exercise and stressing the Bureau's insistence that an efficient system be set up in each field office so that any office called upon to locate its Agents in an emergency can do so without any delay.

✓ (4) In view of the excellent attitude displayed by all employees engaged in Operation Alert, 1956, and their willingness to serve long hours, it is recommended that letters of commendation be sent to those clerical employees who participated in the exercise.

✓ (5) In view of the excellent assistance rendered by [redacted] before and during the entire exercise, it is recommended that a letter be sent to SAC [redacted] expressing appreciation to the personnel.

Memorandum to the Director from Mr. Belmont

RECOMMENDATIONS (continued)

(6) We will press for action on the part of appropriate agencies to complete the installation and bring into efficient working order the microwave teletype channel to [ ] and the new instantaneous automatic encoding and decoding device to handle coded messages to [ ].

b7E

(7) While the exercise has one more day to run, we believe it advisable to send the attached summary to the Attorney General at this time, particularly as he will probably attend the heads of agencies meeting at the White House on July 25, 1956. Should developments on July 25 warrant any further communication to the Attorney General, it will be submitted for approval.

done

(8) The final report to the Office of Defense Mobilization (ODM) (scheduled for August 31, 1956) will be prepared and submitted, including the "out-of-pocket" costs. Our field offices are to report costs by August 5, 1956, and we will combine them with Seat of Government costs.

1. Approved
2. Belmont is to be commended for his outstanding overall supervision of this Project.

By memorandum 7-27-56 Arthur S. Flemming, Director, Office of Defense Mobilization (ODM), advised that he had decided to include the heads of all departments and agencies which took part in OPERATION ALERT, 1956, in next week's Defense Mobilization Board meeting. This meeting is to be held in Room 474, Executive Office Building, 2:30 p.m., Thursday, 8-2-56. This meeting will in substance be a preliminary evaluation of OPERATION ALERT, 1956, and Liaison has ascertained that Dr. Flemming will lead a discussion based on the summary evaluation report which has been compiled from the summary evaluation reports submitted by each agency. Nothing of a specific nature will be required from those individuals who participate in the meeting.

The Director has indicated that Mr. Belmont should attend. ODM has been so advised.

It is noted from the summary evaluation report of OPERATION ALERT, 1956, submitted by ODM, that among the items commented upon by the various inspectors at agency relocation sites, activation of the emergency relocation site was most favorably reported upon. The second most favorable aspect of the inspectors' reports had to do with the satisfactory nature of facilities at the relocation site, whereas the item which received the lowest rating was communication effectiveness. Only 17 of the 43 agencies were given a communications rating of outstanding. The FBI received such a rating.

The ODM summary points out the need for additional training for headquarters staff and communications operation personnel at the relocation site.

The Department of Defense summary portion of the ODM document points out that the exercise was considered worthwhile and justified from the standpoint of the time and cost involved. However, they pointed up a lack of understanding between Executive departments' requests for use

of military in Civil Defense and a need for advance distribution of proclamations, administrative orders, and other emergency actions. The Joint Chiefs of Staff concluded that the exercise was tremendously worthwhile. The Department of Army concluded that the exercise was extremely valuable, but too short; that local agencies should be provided guidance in advance designed to generate actions and exercise play; and that future exercises should include a world-wide combat situation.

It is noted on page 18 that the FBI is listed as being fully prepared to operate immediately and on a continuing basis at relocation and that this Bureau had no unresolved matters and made no comments relative to the exercise.

Mr. John Airhart of the Department came over to see me this afternoon (July 27, 1956). He said he was going on leave and wanted us to know the recommendations he was making to the Attorney General concerning a joint relocation site for all divisions of the Department, including the Bureau.

He said that the Attorney General raised the question while he was at the relocation site. Airhart does not know how serious the Attorney General is. In Airhart's opinion, a joint relocation site for all portions of the Department is desirable. His recommendation to the Attorney General will so indicate providing 2 conditions can be met.

- 1) If each branch of the Department will agree to put up a certain amount of money as an original sum to establish or convert a relocation site on a permanent basis; and thereafter agree to contribute so much per year to keep it going.
- 2) That a relocation staff would be answerable directly to the Attorney General.

In explaining this latter, Airhart said he wants to get away from different relocation plans on the part of the divisions of the Department and centralize control in the Attorney General so that there will be uniform planning. He said he was able to accomplish this [redacted] to a large extent this year with the result that personnel who were working on problems and on communications were left along with out interference from the headquarters of the division from which [redacted] had been drafted. He said he felt that the operation [redacted] was much more effective this year than last year.

Mr. Airhart said he wanted us to know what his recommendations were going to be in the event this matter came up during his vacation. He said he had a feeling that I might be opposed to a central relocation site. I neither affirmed nor denied this inasmuch as the matter has not been presented formally to the Bureau.

I did point out during the discussion with Airhart that the FBI must be set up to operate on an emergency basis at a moment's notice due to our emergency program and, therefore, we must, of course, be in control of our operations and communications.

Memorandum for Mr. Boardman

Airhart felt that this could be accomplished without any difficulty and still have a common communications center at the relocation site; that it did not matter whether the FBI ran the communications site or the Department as long as it was under one head. Airhart was merely letting us know what his recommendation to the Attorney General would be. He said he did not know whether the Attorney General would pursue the matter. At any rate, I made no comment one way or another as we would not want to make any statement until the matter is formally raised.

For your information.

I basically am opposed to FBI getting involved in this for many reasons. We have already spent large sums for our quarters [redacted] of the radio stations. I do not propose now to urge other quarters for FBI. Also a joint relocation site raises problems of morale, discipline & security with FBI getting the moral of it.

Reference is made to your memorandum dated 8-3-56 wherein you set forth the results of the meeting at the Office of Defense Mobilization (ODM) on 8-2-56. You stated that Dr. Flemming, Director of ODM, stated that during Operation Alert, 1956, four sites would not have been operational due to fall-out. You also stated that ODM would ask for a report from the various agencies by 9-15-56.

Liaison has been discreetly checking with ODM concerning the above, and it has been determined that the Bureau site was not one of the four that would not have been operational due to fall-out; however, Dr. J. D. Coker, ODM, advised that although our site was not involved, it would have been under very slightly different wind conditions.

On 8-13-56 Mr. H. F. Hurley, ODM, advised that the minutes of the meeting of 8-2-56 were in the process of being sent out, and in these minutes it is suggested that each agency

Gene Matchett in the Department called me this afternoon to make inquiry as to whether any of our employees were paid for overtime performed during Operation Alert 1956. Mr. Matchett stated he wanted the information so he could quote me in a report he had to make for the Deputy Attorney General. I asked him why the Deputy Attorney General wanted the information and he said he did not know but he had received a memorandum from him in which he stated he understood that clerical employees of the Department received payment for overtime during Operation Alert. The Deputy Attorney General also said he wanted to know what other agencies did.

Mr. Matchett told me that the Department paid their clerical employees who went on Operation Alert for any overtime performed.

Mr. Matchett was informed that no employee was paid for overtime performed during Operation Alert and that clerical employees were granted compensatory time off for any hours that they worked in excess of the 40-hour work week.

The foregoing is submitted for your information.

Director  
Office of Defense Mobilization  
Executive Office Building  
Washington, D. C.

Aug 16 2 47 PM '56  
RECEIVED FBI  
U.S. DEPT. OF JUSTICE

Dear Dr. Flemming:

Reference is made to your communication dated August 10, 1956, requesting information as to the steps this Bureau has taken to man our relocation site continuously and the steps we have taken to identify a select group of key officials who would be subject to standing instructions to proceed immediately to our relocation site whenever necessary.

The Federal Bureau of Investigation site is manned continuously by a group of employees whose regular duties are carried out at the relocation site.

The Federal Bureau of Investigation has a group of key officials and supporting personnel who are under standing instructions to proceed immediately to the relocation site upon receipt of proper instructions.

Sincerely yours,

JET/vec/aeH

## Office Memorandum • UNITED STATES GOVERNMENT

TO : MR. BOARDMAN *WBC*

DATE: August 14, 1956

FROM : MR. BELMONT *B*

SUBJECT:

OPERATION ALERT - 1956

*(Explains Emergency H. Ag. or T. - U. - For Sec. 5)*

The attached letter dated August 10, 1956, was received from Mr. Flemming, of ODM. It calls for a report by September 15, 1956, indicating steps we have taken to man our relocation-site continuously, and steps taken to identify key officials who would be subject to standing instructions to go to the relocation site for purposes of a drill or in response to a strategic warning.

I mentioned this to the Director on August 14, and advised him we would reply promptly to this as we have our relocation site manned on a continuous basis and we are in position at a moment's notice to send key personnel to our relocation site. It is not necessary to name the personnel who would go to the site under such conditions.

It is noted Flemming said ODM is conducting a fall-out study which may be pertinent to the relocation sites of the various agencies.

Liaison should keep close contact with ODM to see how their study might affect our relocation site.

ACTION:

Liaison Section is preparing an appropriate reply to Mr. Flemming.

cc - Mr. Boardman  
Mr. Belmont  
Mr. Roach  
Mr. McArdle

## Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. J. P. Mohr *JPM*

DATE: July 12, 1956

FROM : Mr. F. J. Baumgardner *FJB*

SUBJECT:

BUPLANSEmergency Headquarters *Me*For S.A.C.

[redacted] who was recently transferred, had "red seal" identification badge number S-7262 issued to her.

It is desired that this "red seal" identification badge be issued to [redacted] who is listed as an evacuee under the BuPlans of the Internal Security Section, to insure her passage through police and civilian defense lines in the event of emergency.

ACTION:

It is recommended that the Administrative Division take the necessary steps to issue the aforementioned identification badge number to [redacted]

Medical Officer in Charge  
U. S. Public Health Service  
Outpatient Clinic  
Department of Health, Education  
and Welfare, South Building  
Washington 25, D. C.

Dear Doctor: Boylan Emergency Hs. dg. 100114 For S.C.C.

The below-named employees were referred to  
your Clinic for determination of blood type and Rh factor:

[Redacted]

You are authorized to bill the Federal Bureau of  
Investigation, Department of Justice, for your services at  
the rate of \$3.75 per person.

Very truly yours,

b6

AUG 20 1956  
Health Service - determination of blood type and Rh factor

It was recommended and approved 12-30-55 per memo entitled  
"War Plans, - Blood Data" that employees whose blood types and factors  
on the evacuation list at SOG are unknown be typed and factored by  
USPHS at \$3.75 per patient. The original list of 86 has been  
completed. These names are additions to that list. Submitted to  
H.S. by SA McArdle of Domestic and Intelligence Division.

You will recall that the Office of Defense Mobilization, just prior to the start of Operation Alert 1956, furnished to all participating agencies a draft of an Emergency Financial System. It requested the agencies to apply the provisions of the proposed system during Operation Alert 1956 and to submit a report after the operation to the Office of Defense Mobilization evaluating the system.

The Bureau had no unresolved problems encountered during the course of Operation Alert 1956 and has no recommendations to make concerning the proposed system.

RECOMMENDATIONS:

1. - It is recommended that we advise the Office of Defense Mobilization that the Bureau has no unresolved problems encountered during Operation Alert 1956 and has no recommendations to make in connection with the proposed Emergency Financial System.

2. - If the above recommendation is approved, it is recommended that this memorandum be referred to the Liaison Section so that it can appropriately advise the Office of Defense Mobilization.
