"The information I wished disclosed involves the 'Clasped Hands' fraternal order of Masons (Freemasons) whose ensignia is recorded by the IRS and also through a masonic publisher in Virginia."

"I would also like to know more about the Clasped Hands fraternal order, when it established its chapter, its grand master and current history as well as founder."

"I would also like verification as to who is the originator of the words 'The Craft,' as there is dispute among Correllian Wiccans who claim that the words 'The Craft,' were first used by them and Masons claim that it was invented by them and stands as significant in meaning as 'The Order.'"

Request For: "I am seeking documentation that shows the total number of dies, separated by obverse and reverse, used at the four facilities for the 1984 gold coins, serial numbers for the dies used at each facility, the date the dies were put into service, the date they were removed from service and the reason for removal, the date that each dies was destroyed, and the final disposition of each die."

"It is my understanding from the U.S. Mint's Office of Public Affairs via a verbal response given to me on March 10 that all of the dies used to strike the 1984 Olympic gold coins were destroyed by having the die face ground off to remove the coin design, and then ultimately sold for scrap. I am seeking documentation attesting to whom the scrap, defaced dies were sold, when they were sold and for how much."

Request For: "I am requesting information and records from the U.S. Mint regarding coinage produced for foreign countries, foreign colonies, U.S. territories and protectorates during World War II years of 1939 through 1945. In other words, all coins produced by the U.S. Mint during those years which were not produced for the United States itself.

I am seeking the complete record of which countries, colonies, etc., which the Mint made coins for on a year-by-year basis from 1939 through 1945.

I need records of the descriptions, denominations, weights, planchet sizes and specifications, alloy content and quantities of each coin as well as the Mint reports establishing which Mint struck which coins and in what quantities.

I need the records of agreements or contracts between the foreign entities and the U.S. Treasury (or the U.S. Mint) which contracted for the coin production, how and when it would be delivered and how and when it would be paid for.

I need records or contracts between the Mint (or the U.S. Treasury) for the production of planchet stock and the specifications of that stock.

And I need to locate a source where samples or specimens of each of the coins can be examined and photographed-- or, in the alternative, copies of already existing photographs of the coins which might already exist in Mint records."

Documents: No responsive records found. However, 25 pages of reference material from the Domestic and Foreign Coins Manufactured by Mints of the United States 1793-1980, was forwarded to the requester.

The requester was also referred to NARA for any surviving records.
