Mr. Jim Klotz

Dear Mr. Klotz:

This is in response to your request received on July 1, 2007, pursuant to the Freedom of Information Act (FOIA) for a digital copy of the database of records that were declassified in FY 2006 and in FY 2007 to date.

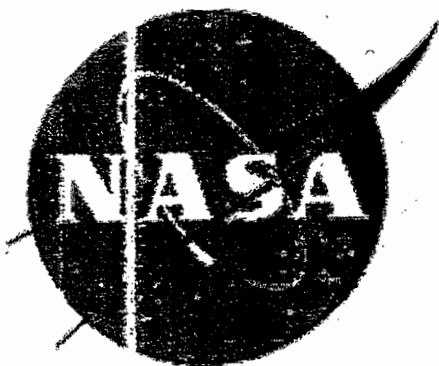

The NASA Headquarters FOIA Requester Service Center and the NASA Headquarters Records Manager conducted a search and from their searches provided the enclosed records responsive to your request. The NASA Headquarters Records Manager advised that the spreadsheet contains records declassified in the period of October 2005 to December 2006. To date there are no records that have been declassified in FY 2007. The data input for the aforementioned time period is ongoing and will be completed no later than November of 2007.

Sincerely,

A handwritten signature in cursive script that reads "Kellie N. Robinson".

ISOO approved NASA's 2003 request for a 5-year delay for the classification review of the aforementioned special media (ISOO letter dated November 1, 2004 is germane). Anticipating the discovery of additional special media during CY 2006, NASA expects to request additional exemptions for special media records.

E. NASA DECLASSIFICATION PROCESS

The bulk of NASA's declassification effort lies at the Headquarters office and the National Archives and Records Administration in College Park, MD (NARA-II). To address this workload, NASA has contracted with the Director, Central Intelligence (DCI) to perform a review of all NASA classified records, determining equities within, and cataloging the information within a database. Records are held at the Washington National Record Center (WRNC) for storage, and later are retrieved by NASA for review under the Order. Records held at NARA-II are undergoing equity identification by DCI contractors. Equity notification is being made to the Equity Referral Working Group (ERWG) and NASA equities are being scheduled for review by NASA DCA's.

In order for NASA to meet the requirements of reference (a), both Security and Records Management must remain engaged and involved in the declassification effort.

Pursuant to reference (d), Records Management officials will:

- (1) Notify the DCA that material is being held for their review;
- (2) Provide that material for the DCA review;
- (3) Track the material to ensure turn-around times are met (turn-around determined by local senior security official or their designee);
- (4) Notify the security office of any deficiencies in the process, or lack of response to notifications, etc.

The trained and officially appointed DCA, is responsible for reviewing the records for continued classification or declassification.

Should a DCA determine that a record no longer meets the requirements for continued classification, the DCA will appropriately mark the material to reflect the decision. If records are to remain classified, the DCA will work with the security office, returning the record(s) to the RM when a definitive determination has been made. Exemptions and delays will be handled in the same manner.

Referrals will be processed in accordance with section D.

The NASA Security Management Division, will:

- (1) Work to have all personnel working on the declassification effort appropriately cleared.
- (2) Provide training and certification for all NASA DCAs
- (3) Where necessary, assist DCAs in declassification and continued classification determinations.
- (4) Perform random quality control checks on records to ensure compliance with the EO. As necessary, 2nd and 3rd level reviews will be implemented. This process will be designated to the Center Chiefs of Security for local oversight.

F. COST ESTIMATE TO IMPLEMENT AGENCY DECLASSIFICATION PLAN

Training	\$0	\$4,000	\$4,000
Physical Security	\$0	\$0	\$0
Contractor Support	\$305,000	\$305,000	\$305,000
FTE	10	12	12
* Salary est for each FTE	\$100,000	\$103,000	\$107,000
Cost est for all FTE	\$1,000,000	\$1,236,000	\$1,284,000
Total:	<u>\$1,318,000</u>	<u>\$1,550,000</u>	<u>\$1,598,000</u>

* Total FTE, budgeted in a variety of security and non-security accounts

Strategy to address any funding or resource shortfalls in order to meet the requirements of the order:

Funding level for FY06 is allocated. Funding past FY06 has not been identified at this time.

G. DEVELOPMENT OF DECLASSIFICATION GUIDES

The Office of Security and Program Protection (OSPP) met with ISOO in October of 2005 to discuss declassification guide requirements. At that time, it was determined that NASA Declassification Letter dated August 2005 is the only declassification instruction required at this time. ISOO and NASA agreed to meet again in March 2006 to determine if additional declassification instruction is required.

H. OTHER FACTORS

1. NASA does not have any established interagency cooperative efforts to facilitate the declassification, exemption, referral, or any appropriate delay of the December 31, 2006, deadline.
2. NASA developed an Automatic Declassification Memo dated August 2005 and provided a copy to all the appropriate agencies.
3. Additional training will be provided to new DCA/SME and all other personnel as required.
4. NASA has not identified any external factors that may affect the agency's ability to satisfy the requirements of the Order.

5. NASA has no plans to re-review records at this time.
6. It is NASA's intention to provide notification of other government agency equities held by NASA through the National Archives and Records Administration (NARA) Equity Referral Working Group (ERWG).
7. The Office of Security and Program Protection has requested that all the Centers conduct a review of all Security Classification Guides (SCG) and update or revise the information no later than January 30, 2006. OSPP will be responsible for keeping a central repository at HQ.
